C-SERIES
SOCIAL AND CULTURAL TABLES

C-SOCIAL AND CULTURAL TABLES

The social and cultural tables are based on the corresponding tables of 1951 Census. There are in all 8 tables in this series. Table C-I-Composition of Sample Households by Relationship to Head of Family Classified by Size of Land Cultivated has been prepared from household schedules on the basis of 20 per cent sample, while all the other tables are prepared on full count from individual slips. The quinquennial age-groups recommended by the United Nations for population censuses have been adopted for the age tables of 1961 Census.

The details of 8 tables included in this Volume are as follows :

- C-I— Composition of Sample Households by Relationship to Head of Family Classified by Size of Land Cultivated (Based on 20% Sample)
- C-II— Age and Marital Status
- C-III— Part A- Age, Sex and Education in All Areas
Part B- Age, Sex and Education in Urban Areas only
Part C- Age, Sex and Education in Rural Areas only
- C-IV— Single Year Age Returns
- C-V— Mother Tongue (Alphabetical order)
- C-VI— Bilingualism
- C-VII— Religion
- C-VIII— Scheduled Castes and Scheduled Tribes
 - Part A—Classification by Literacy and Industrial Category of Workers and Non-Workers among Scheduled Castes
 - Part B—Classification by Literacy and Industrial Category of Workers and Non-Workers among Scheduled Tribes

Table C-VIII giving the total population of Scheduled Castes and Scheduled Tribes and their distribution by nine industrial categories of workers and non-workers and also by literacy, is included in this series. But other special tables on Scheduled Castes and Scheduled Tribes are given in Part V-A—Scheduled Castes/Tribes Tables.

The extracts from the Instructions to Enumerators relating to Questions 1(b), 2, 3, 5(b), 5(c), 6, 7(a) and 7(b) and Q. 8 to 12 on the basis of which these tables are compiled are reproduced below.

Q. 1(b) Relationship to the Head of the Household—In the case of the Head of the household write 'Head'. All relationships in this question should be recorded in respect of that person. In the case of relations write the relationship in full. Do not use words like nephew, niece or uncle, but state whether bro-

ther's or sister's son or daughter (for nephew or niece) or father's or mother's brother (uncle). 'Son' will include 'adopted son' or 'step son' ; similarly for a daughter. In the case of visitors, boarders or employees write 'visitor' 'boarder', or 'employee' as the case may be.

If on the check or revisional round between the 1st and 5th March the Head of the household as recorded previously is found to have died, the person in the household who succeeds him by common consent as Head should be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slip of the dead Head of household will, of course, be cancelled.

In the case of places like messes, boarding houses, chummeries, etc ., where people live together with no ties or relationship, the manager or superintendent or the person who by common consent is regarded as Head should be recorded as Head of the household. Other members should be recorded as 'unrelated' in this question.

Q. 2 Age Last Birthday—Write age in years completed last birthday.

For infants below one year of age, write 'O'.

Q. 3 Marital Status—For a person who has never been married write 'NM'. For a person married, whether for the first or another time, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute return her marital status as declared by her.

Q.5 (b) Religion—for	Hindu	write	H
	Muslim	write	M
	Christian	write	C
	Jain	write	J
	Buddhist	write	B
	Sikh	write	S

For others write the answers actually returned.

Q. 5 (c) Scheduled Castes and Scheduled Tribes—The answer to this question will be recorded only if a person belongs to a Scheduled Caste or Scheduled Tribe. If the person belongs to a Scheduled Caste or Scheduled Tribe obtaining in your State, or in your district write the name of the caste or tribe to which he belongs. For all others, write 'X'. Do not write the names of Scheduled Castes in general terms as 'Harijan', 'Achhut'. Ascertain the name of the caste when it is returned and write it. Scheduled Castes can belong to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to Question 5(b). Scheduled Tribes may belong to any religion.

A printed list showing the names of Scheduled Castes/Scheduled Tribes according to the President's Order was given to the enumerator along with the list of synonyms or generic names and sub-tribes to ensure accuracy of these returns.

Q. 6 Literacy and Education—For a person who can neither read nor write or can merely read but cannot write in any language, write 'O'. For a person who can both read and write, write 'L'. The test for reading is ability to read any simple letter either in print or in manuscript. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

STANDARD OF EDUCATION

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of 'L'.

Q. 7 (a) Mother Tongue—Write the mother tongue in full including dialect as returned by the person enumerated. Mother tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

Q. 7 (b) Any Other Language(s)—After recording the mother tongue, enquire whether the person knows any other language(s), Indian or Foreign, and write the language (s) returned by him against this question. In case he does not know any other language put 'X'.

The instructions relating to Questions 8 to 12 are not reproduced in full to save space. They are summarised below for the convenience of the reader.

Q. 8 to 11 Working—These questions apply only to workers. A person working both as an cultivator and as an agricultural labourer should be entered both in Q. 8 and Q. 9, but in Q. 8 and Q. 10 if working both as cultivator and at household industry. If a person is working in any possible combination of 8,9,10 and 11 he will be entered in the appropriate places. If he is doing just one kind of work, he will be entered in only one of the four Questions 8 to 11.

Work includes not only actual work but effective supervision and direction of work. As for non-workers, persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, earning an income without participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker actively engaged in public service or a political worker, who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

Q. 8 Working as Cultivator—For a person working as Cultivator write 'C'. For all others put 'X'.

Q. 9 Working as Agricultural Labourer—Write 'AL' for a person working as Agricultural Labourer. For others put 'X'.

Q. 10 (a) and 10 (b) Household Industry—If a person is working in a Household Industry write (i) the nature of work done by him in the Household Industry against Q. 10 (a) and (ii) the nature of the Household Industry against 10 (b). Otherwise put 'X' in both Questions 10(a) and 10(b).

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or washerman or astrologer.

Q. 10(c) If Employee in Household Industry—Write 'EE' for a person working as a paid employee in another person's Household Industry. For all others put 'X'.

Q. 11 Doing Work other than 8, 9 or 10—If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. TABLE C-I
COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP
TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND
CULTIVATED
(Based on 20 % Sample)

This table is prepared on a 20 % sample of households from Part II Census Population Record of Household Schedules and is presented down to district for total/rural/urban.

A household means the entire group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so. In some census houses there may be more than one group of persons or household each with a common mess or each occupying either a number of rooms or more than one household occupying a single room. Each such group has been regarded as a separate household for census purposes. Institutions like boarding-houses, messes and chummeries have also been regarded as census households but of unrelated persons living together. It thus includes unrelated persons also residing with the family during the period of enumeration and gives composition of a household by family and non-family members. Besides the heads of the household and their spouses, either male or female, other family members like married sons and other relations as well as unrelated persons are shown separately by sex and marital status. The table will be of sociological interest indicating the strength of the joint family system.

TABLE C-II
AGE AND MARITAL STATUS

This is a very important demographic table giving data about marital status, viz., never married, married, widowed, divorced or separated and status unspecified. It will help ascertain the variation in the status of married life and study the trend in the age of marriage besides indicating mortality in different marital statuses and age-groups. The data on married females by age-group can be utilised also for forecasting the future births from age specific birth rates.

Table C-II is cross-tabulated by age-groups, viz., 0—9, 10—14, 15—19, 20—24, 25—29, 30—34, 35—39, 40—44, 45—49, 50—54, 55—59, 60—64, 65—69, 70+ and Age not stated and is presented down to district by total/rural/urban.

The table corresponds to Table C-III of 1951. Table C-III of 1951 was prepared on a 10 per cent sample of the slips taken out at the initial stage of sorting, while Table C—II of 1961 has been compiled on the basis of full count of individual slips. In 1961 the figures are given separately for (i) Widowed and (ii) Divorced or Separated which were combined in 1951. The data on marital status are given by 14 age-groups in 1961 as against 11 in 1951.

C-III PART-A—AGE, SEX AND EDUCATION IN ALL AREAS

TABLE C-III

AGE, SEX AND EDUCATION

This table is presented down to district and is prepared in 3 parts. Part A for all areas, Part B for urban and Part C for rural areas only. The table corresponds to Table C-IV of 1951 prepared on the basis of data collected from 10 per cent sample slips, while that of 1961 is prepared on the basis of full count of individual slips. In 1951, the data were given by literates and illiterates only, while in 1961 additional classification by educational levels such as (1) Primary or Junior only, while in 1961 additional classification by educational levels such as (1) Primary or Junior Basic and (2) Matriculation and above has also been given in Parts A and C. For Part B pertaining to urban areas educational levels are given in greater details, viz.,

- (1) Primary or Junior Basic,
- (2) Matriculation or Higher Secondary,
- (3) Technical diploma not equal to degree,
- (4) Non-technical diploma not equal to degree,
- (5) University degree or post-graduate degree other than technical degree and
- (6) Technical degree or diploma equal to degree or post-graduate degree under
 - (i) Engineering
 - (ii) Medicine
 - (iii) Agriculture
 - (iv) Veterinary and dairying
 - (v) Technology
 - (vi) Teaching and
 - (vii) Others

The table is cross-tabulated by age-groups, viz., (i) 0—4, (ii) 5—9, (iii) 10—14, (iv) 15—19, (v) 20—24, (vi) 25—29, (vii) 30—34, (viii) 35—44, (ix) 45—59, (x) 60+ and (xi) Age not stated.

Table C-III will measure the growth of literacy in the total population as well as in the different age-groups since the last census besides furnishing information on the spread of adult education.

In case of Table C-III—Part B, an unusual facet of classification of educational level with reference to age-group 10—14 has occurred. In case of Kamrup District, there is 1 Male in the age-group 10-14 under the educational level 'Non-technical diploma not equal to degree'.

On scrutiny, it has been found that the above has happened not due to any misclassification of the educational level but due to a misstatement of age by the enumerated person.

TABLE C-IV

SINGLE YEAR AGE RETURNS

The table is presented down to district and gives figures for total/ rural/urban. This is also a very important demographic table which will be used by the Census Actuary for computing the mortality rates from the age data of the earlier censuses and for the preparation of life tables. This table will afford useful study on bias in age returns at the Census by showing popular preference for certain digits.

This table is prepared on full count of individual slips and corresponds to Table C—V of 1951, prepared on the basis of data collected from the 10 per cent sample slips.

The details of single year ages above 100, lumped under 'Over 100' in the main table, are given in the Appendix to this table.

TABLE C-V
MOTHER TONGUE
(ALPHABETICAL ORDER)

The notes and Appendices I and II given below have been prepared by Shri R. C. Nigam, Linguist of the office of the Registrar General, India.

Note 1 :

- (i) The following mother tongues arranged in alphabetical order in Col. 1 of the table given below as per Table C-V have been classified in the Linguistic Survey of India. The Linguistic Survey of India Classification No. is mentioned against each mother tongue in Col. 3
- (ii) If in Col. 3 no Classification No. is given against any mother tongue of Col. 1 then it would mean that the name refers to either old or middle Indo Aryan language or a language group or branch or family name from the Linguistic Survey of India.
- (iii) Wherever a tongue is mentioned in Col. 3 it is to be understood that the mother tongue is either a dialect or another name or form of the tongue mentioned against it in Col. 1 which in its turn has been classified by the Linguistic Survey of India in the appropriate place for that tongue.
- (iv) If in Col. 1, there is a tongue which bears no classification number in the Linguistic Survey of India then in Col. 2 the name of the classified language or group will be given of which the mother tongue of Col. 1 is either a dialect or another name or form. In such a case the number of classified language of col. 2 has been given in Col. 3.
- (v) In Col. 2 standardized spellings according to Linguistic Survey of India have been given against each mother tongue of Col. 1.

TABLE C-VI
BILINGUALISM

This table is presented down to district. It is important especially for linguistic borders where one language impinges on the other. The table gives data regarding total speakers of mother tongue, total number of persons returned as speaking a language subsidiary to the mother tongue and break-up of subsidiary language into male and female speakers. The subsidiary languages shown in the table are stated exactly as they were returned in the individual slips.

The table corresponds to Table D-I (ii) of 1951.

TABLE C-VII

RELIGION

This is an important sociological table. It is presented down to district for total/rural/urban and gives the distribution of population according to religion arranged in alphabetical order.

The table corresponds to table D-II of 1951. The six main religions classified in this table are (i) Buddhist, (ii) Christian, (iii) Hindu, (iv) Jain, (v) Muslim and (vi) Sikh. The other religions and persuasions are given under the heading "Other Religions and Persuasions", the details of which are given in the supplement to the table.

The following statement gives percentages of different religions to the total population in the State and Districts.

TABLE C-VIII

SCHEDULED CASTES AND SCHEDULED TRIBES

PART A—Classification by literacy and industrial category of workers and non-workers among Scheduled Castes

PART B—Classification by literacy and industrial category of workers and non workers among Scheduled Tribes

This is a general table prepared for Scheduled Castes and Scheduled Tribes, and is presented down to district for total/rural/urban. It is given in two parts—Part-A for Scheduled Castes and Part-B for Scheduled Tribes. The table corresponds to Table D-III of 1951 which gave the total figures of Scheduled Castes/Scheduled Tribes only. But Table C-VIII of 1961 is more elaborate and gives separately the total population of Scheduled Castes and Scheduled Tribes, their distribution by literacy and classification of workers into nine industrial categories and non-workers. A number of special tables for each Scheduled Caste/Scheduled Tribe has also been compiled in SCT series and given in Part V-A of Census of India-Assam-Volume III. Literacy figures of Scheduled Castes and Scheduled Tribes are given for the first time in 1961 Census.

Tables D-I and D-II of 1961 Census correspond to Tables D-VI and D-IV of 1951 Census, but Tables D-III to D-VI of the existing series are introduced for the first time in the Census of 1961. The details of each of them are given below :—

1. D-I—Non-Indian Nationals
2. D-II—Place of Birth
3. D-III—Migrants Classified by Place of Birth and Duration of Residence in Place of Enumeration
4. D-IV—Migrants to Cities Classified by Sex, Broad Age-Groups, Educational Levels and in case of Workers also by Occupational Divisions and Groups
5. D-V—Cities Showing Population Born Locally, Migrants from Rural Areas and Migrants from other Towns and Cities
6. D-VI—Distribution of Industrial Categories of Workers and Non-workers by Place of Birth

Of the 6 tables aforesaid, Tables D-IV and D-V pertain to Gauhati City only. Table D-VI also gives data for Gauhati city in addition to State/District.

As all the main tables D-I to D-VI are compiled from the replies recorded against Qs. 2, 4 (a), 4 (b), 4 (c), 5 (a), 6 and 8 to 13 on the individual enumeration slip, the relevant extracts from the 'Instructions to Enumerators' are reproduced below :

TABLE D-II

PLACE OF BIRTH

This table gives the distribution of population by birthplace. It is presented down to district for total/rural/urban.

The table corresponds to Table D-IV of 1951. An important change as compared to the previous census is that birthplaces in rural and urban areas are given separately in the case of those born in India. Similarly the place of enumeration is classified separately into rural and urban areas to give an indication of the nature of migration.

Under groups B, C, D, E and F, the following countries of each continent (wherever migrants have been reported from) have been presented in this table. The 'total' of the remaining countries is given against 'Elsewhere' in the table, the details of which will be found in the supplement to this table.

(B) Countries in Asia beyond India (including U. S. S. R.)

Afghanistan
Burma
Ceylon

Nepal
Pakistan
Singapore, Malaya and British Borneo

(C) Countries in Europe (excluding U. S. S. R.)

(E) Countries in Two Americas

(F) Countries in Oceania

Such of the States/Union Territories under Group A-II and the continents/countries under groups B, C, D, E and F from which migrants are not reported, have been omitted from the table.

The lines of Rural/Urban/Unclassifiable, wherever the entries are nil, have also been omitted from the table.

TABLE D-III

**MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION
OF RESIDENCE IN PLACE OF ENUMERATION**

This is a new table introduced for the first time in 1961 and based on a new question on migration. It is presented down to district and gives duration of residence in the place of enumeration under six categories, viz.,

Less than 1 year ;	11—15 years ;
1— 5 years ;	16 years and over ; and
6—10 years ;	Period not stated.

The table is intended to supplement the information produced by the previous table relating to birthplace, for a detailed study of in-migration. The group 11—15 years yields information on population displaced by partition.

Countries and States/Union Territories under group A-II from which migrant figures are not reported, have been omitted from the table.

The lines of Rural/Urban/Unclassifiable, wherever the entries are nil, have also been omitted.

TABLE D-IV

MIGRANTS TO CITIES CLASSIFIED BY SEX, BROAD AGE-GROUPS, EDUCATIONAL LEVELS AND IN CASE OF WORKERS ALSO BY OCCUPATIONAL DIVISIONS AND GROUPS

The table is prepared for the only city in Assam viz., Gauhati. It relates to migrants to city who are workers and non-workers. Occupational distribution of workers and non-workers has been given with further cross-tabulation by age-groups and educational levels. This gives an indication of occupations that attract migrants to cities. The educational levels show the skilled and unskilled type of workers among migrants.

The age-groups and educational levels adopted are :

Age-groups		Age-groups	
(i)	0—14	(iv)	60+
(ii)	15—34	(v)	Age not stated
(iii)	35—59		
Educational levels			
(1)	Primary or Junior Basic		
(2)	Matriculation or Higher Secondary		
(3)	Technical diploma not equal to degree		
(4)	Non-technical diploma not equal to degree		
(5)	University degree or post-graduate degree other than technical degree		
(6)	Technical degree or diploma equal to degree or post-graduate degree		
(i)	Engineering		
(ii)	Medicine		
(iii)	Agriculture		
(iv)	Veterinary and Dairying		
(v)	Technology		
(vi)	Teaching		
(vii)	Others		

Occupational groups having less than 5 per cent of the workers of the respective division and 2.5 per cent in case of division 7-8 have not been shown in the table, but are given in an Appendix to this table. Divisions thus affected are marked with an asterisk (*).

Age-groups with nil entries have not been shown in the table.

The following abbreviations have been adopted for age-groups and educational levels in the Appendix.

Age-group	Educational level	Abbreviation used
0—14	Illiterate	A
	Literate (without educational level)	B
	Primary or Junior Basic	C
15—34	Illiterate	AI
	Literate (without educational level)	BI
	Primary or Junior Basic	CI
	Matriculation or Higher Secondary	DI
	Non-technical Diploma not equal to degree	FI

Age-group	Educational level	Abbreviation used
15—34	University degree or post-graduate degree other than technical degree	GI
	Medicine	JI
	Veterinary and Dairying	LI
35—59	Illiterate	AII
	Literate (without educational level)	BII
	Primary or Junior Basic	CII
	Matriculation or Higher Secondary	DII
	Non-technical Diploma not equal to degree	FII
	University degree or post-graduate degree other than technical degree	GII

	Literate (without educational level)	BIII
	Primary or Junior Basic	CIII
	Matriculation or Higher Secondary	DIII
	University degree or post-graduate degree other than technical degree	GIII

During the scrutiny of these returns, certain incompatible occupational groups *vis-a-vis* the educational equalifications were noticed. All such cases are listed below for the convenience of the reader.

Educational Level	Occupational Group
Literate (without educational level)	00 (M 24) ; 01 (M 1) ; 02 (M 4) ; 05 (M 209, F 17) ; 09 (F 1) ; 21 (M 3, F 1)
Primary or Junior Basic	02 (M 8)
Matriculation or Higher Secondary	02 (M 4)

As regards the incompatible occupational groups under the educational level Literate (without educational level), an actual verification of the above returns from the enumeration slips has revealed that only 'L' is recorded on those slips as the answer against Question 6 (Literacy and Education) whereas the occupations returned are as above.

Regarding the figures in occupational group 02 under the educational level Primary or Junior Basic and Matriculation or Higher Secondary, it has been observed that these relate to Veterinary Field Assistants. In Assam, there are a few such Field Assistants without any technical diploma but who are given some short-training to do the job.

TABLE D-V

CITIES SHOWING POPULATION BORN LOCALLY, MIGRANTS FROM RURAL AREAS AND MIGRANTS FROM OTHER TOWNS AND CITIES

This table is also compiled only for the Gauhati City. The table gives separately the extent of in-migration from rural and other urban areas into the City. The in-migration from rural and urban areas has been separately classified by migrants who have been resident for less than 3 years and those who have been resident for 3 years and more at the place of enumeration. The data have also been shown separately for the different types of migration, as follows :

- (1) Born in rural/other urban areas of the same district
- (2) Born in rural/urban areas outside the district but within the State
- (3) Born in rural/urban areas outside the State

Persons, males and females shown against total population do not indicate the actual population of the city for the following reasons ;

- (i) that it excludes persons whose birth places have not been recorded as either rural or urban, whose duration of residence has not been stated and who are born in place of birth 'Unclassifiable'.
- (ii) that the table relates to persons born within the country.

**TABLE D-VI
DISTRIBUTION OF INDUSTRIAL CATEGORIES OF WORKERS AND NON-WORKERS
BY PLACE OF BIRTH**

The table is presented down to district and for Gauhati City. It shows distribution of birthplace by industrial categories of workers and non-workers and thus gives valuable information on the category of workers among migrants by birthplace.

The table is presented for total, rural and urban. For rural it is prepared only for those "Born in India" and that too for those born "within the State of Enumeration" for the following categories :—

- (a) Born in place of enumeration
- (b) Born elsewhere in the district of enumeration
- (c) Born in other districts of the State

In addition, 4 numerically most important States of migration (adjoining or distant) are given for each district and exhibited in the descending order of migrants. This selection for rural table has been made for each district separately by considering the immigrants in the 'Rural Table' and not in the 'Total Table'.

In case of 'total' and 'urban', the table is prepared for all the above groups, as also for other States in India and foreign countries. The table for total and urban excludes the information of those States under group II — "States in India beyond the State of Enumeration" where the immigrants are less than 1 per cent of the total immigrants. The States thus omitted are shown in Appendix I to this table which has been prepared in run on lines and relates to total only with urban figures inserted below the total figures. The percentage for the purpose of the Appendix has also been calculated on total.

No such abridgement has, however, been made in respect of city in the urban part of the table except the omission of the 'Unclassifiable', if less than 5 per cent.

Wherever the line for 'Unclassifiable' in Column 2 is omitted it should be assumed that the total figure under this category is less than 5% of the total population in the particular main group in Column 1.

Under groups B, C, D, E and F, the following countries of each continent (wherever migrants have been reported from) have been presented in the table. The 'total' of the remaining countries is given against 'Elsewhere' in the table, the details of which will be found in Appendix II to this table.
