**TABLE SCT—II PART A
AGE AND MARITAL STATUS
FOR SCHEDULED CASTES**

TABLE SCT-II—AGE AND MARITAL STATUS FOR SCHEDULED CASTES

Fly-Leaf

This Table has been prepared for each Scheduled Caste separately for total population only of the State, Divisions and Districts by sex, broad age-groups and marital status. This Table provides, for the first time, the basic demographic data relating to Scheduled Castes, and corresponds to Table C-II of 1951 Census.

2. The three broad age-groups adopted in this Table are 0-14, 15-44 and 45+. The last group of 'Age Not Stated' includes persons in whose case age has not been returned.

3. Answers relating to marital status were recorded against Question 3 of the Individual Slip and have been classified in the Table into the following four Categories :

Never Married are persons who have never been married.

Married persons are those who are currently married, whether for the first time or another time. These include those recognised as married by custom or society and those in stable *de facto* union.

Widowed persons include those whose husbands or wives are dead and who have not married again.

Divorced or Separated are persons who have been divorced either by a decree of a law court or by a regular social or religious custom but who have not remarried are considered as 'divorced'. Those who have been separated from wives or husbands and are staying apart with no apparent intention of living together again are treated as 'separated'. The Table shows only the combined figures for 'separated' and 'divorced'.

TABLE SCT—III PART A (i)
AND PART B (i)

EDUCATION IN URBAN AREAS
AND RURAL AREAS ONLY FOR
SCHEDULED CASTES

TABLE SCT-III PART A (i) AND PART B (i) EDUCATION IN URBAN AREAS
AND RURAL AREAS ONLY FOR SCHEDULED CASTES

Fly-Leaf

This Table presents the distribution of Scheduled Caste population by sex and educational levels. The figures are presented for all Scheduled Castes together as well as for individual Scheduled Castes separately. Part A relates to Urban, and Part B to Rural areas, and data have been presented for the State, Divisions and Districts.

2. Data for rural areas have been presented for three educational levels, namely (1) Literate without educational level, (2) Primary or Junior Basic and (3) Matriculation or Higher Secondary and above. In the case of urban areas in addition to the above mentioned first two levels, figures are given separately for the following levels:

1. Matriculation or Higher Secondary;
2. Technical Diploma not equal to Degree;

3. Non-technical Diploma not equal to Degree;
4. University Degree or Post-graduate Degree other than Technical Degree; and
5. Technical Degree or Diploma equal to Degree or Post-graduate Degree.

3. At the 1961 Census the definition of literacy was the ability of a person to read and write a simple letter. For a person who could both read and write and had also passed an examination, the highest examination passed was recognised as the level of his education and not the one for which he was still continuing his studies.

4. The following Table gives the proportionate distribution of 1,000 males and 1,000 females by educational levels in rural and urban areas:

Name of Scheduled Caste	Illiterate		Literate without Educational Level		Primary or Junior Basic		Matriculation or Higher Secondary		Above Matriculation or Higher Secondary	
	Males	Females	Males	Females	Males	Females	Males	Females	Males	Females

N = Negligible

The study of numerically important Scheduled Castes (with a population of 100,000 and over in rural areas and 30,000 and over in urban areas) can be made on the basis of the two tables given above.

5. In rural areas there are 8 Scheduled Castes each having a population exceeding one lakh. The proportion of illiterates is very high. The proportion of male illiterates in all cases, barring Shilpkars, is 870 and over. In the case of Shilpkars (805) it is comparatively less, but still quite high. That of female illiterates in all cases is above 988. Amongst literates highest proportions in all the cases are claimed by those without any educational level. The highest standard i.e., Matriculation/Higher Secondary and Above, however, claims very low proportions amongst males and negligible amongst females. In this educational standard among males Chamars and Dhobis (28 each) occupy the top rung and Balmikis (13) the bottom rung of the educational ladder.

6. The urban table gives proportions for Scheduled Castes (both rural & urban) is alarmingly inadequate.

**TABLE SCT-V PART A—SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION
CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED
IN RURAL AREAS ONLY FOR MEMBERS OF SCHEDULED CASTES**

(Households of Members of Scheduled Castes in a 20 % Sample of All Households)

Fly-Leaf

This Table, which is similar to General Household Economic Table B-XI appearing in Part III-General Household Economic Tables, was prepared by machine tabulation. It shows the distribution of members of Scheduled Caste households in a 20% sample of all households forming the total population, engaged in cultivation classified according to the size of land cultivated, and cross-tabulated by interest in land in rural areas only, down to district level.

2. The classification by size of cultivated land is like this : less than 1-0 acre, 1-0 acre to 2-4 acres, 2-5 acres to 4-9 acres, 5-0 acres to 7-4 acres, 7-5 acres to 9-9 acres, 10-0 acres to 12-4 acres, 12-5 acres to 14-9 acres, 15-0 acres to 29-9 acres, 30-0 acres to 49-9 acres, 50-0 acres and above. The last group of 'unspecified' represents households for which the area

of land cultivated was not recorded at the time of enumeration.

3. The interests in land have been classified as follows:

- (a) Owned or held from Government ;
- (b) Held from private persons or institutions for payment in money, kind or share ; and,
- (c) Partly held from Government and partly from private persons for payment in money, kind or share.

The above three interests in land are shown by a vertical spread in column 1 of the Table by using abbreviations (a), (b) and (c) which have been duly explained at the bottom of each page.

Abbreviations for interest in land given under Column 1 :

- (a) = Owned or held from Government (b) = Held from private persons or institutions for payment in money, kind or share
- (c) = Partly held from Government and partly from private persons for payment in money, kind or share
