INTRODUCTORY NOTE

Table C-Series, namely, Social and Cultural Tables and Table D-Series, namely, Migration Tables are prescribed in this Volume, Part II-C. There are altogether eight social and cultural Tables and six

Migration Tables which are listed below. The corresponding Tables of 1951 Census, if any, are also indicated against each Table :

1961 CENSUS	1951 CENSUS
SOCIAL AND CULTURAL TABLES	
C-I Composition of Sample Households by relationship to Head of family classified by size of land cultivated (Based on 20 per cent sample)	C-I Household (Size and Composition)
C-II Age and Marital Status	C-III Age and Civil Condition
C-III Age, Sex and Education A, B, C	C-IV Age and Literacy
C-IV Single Year Age Returns	C-V Single Year Age Returns
C-V Mother-tongue	D-I Languages (i) Mother-tongue (ii) Bilingualism
C-VI Bilingualism	
C-VII Religion	D-II Religion
C-VIII Scheduled Castes and Scheduled Tribes. A & B Classification by literacy and industrial category of Workers and Non-workers among Scheduled Castes and Scheduled Tribes	D-III Scheduled Castes and Tribes
MIGRATION TABLES	
D-I Non-Indian Nationals	D-VI Non-Indian Nationals
D-II Place of Birth	D-IV Migrants
D-III Migrants classified by Place of Birth and duration of residence in place of enumeration	
D-IV Migrants to Cities classified by sex, broad age-groups, educational levels and in case of workers also by occupational divisions and groups	
D-V Cities showing Population Born locally, Migrants from Rural Areas and Migrants from other Towns and Cities	
D-VI Distribution of Industrial categories of Workers and Non-workers by Place of Birth	

2. *Comparison with 1951 Census Tables* Some Tables of 1951 Census, namely, Table C-Series (Household and Age Tables) and Tables D-I to D-III (Languages, Religion and Scheduled Castes and Tribes) basically differ from the corresponding Tables of 1961 Census in the method of tabulation as well as in presentation. These differences are set out in the following paras:

(i) Although the Table C-I of 1951 is akin to the same Table of 1961, the divergent methods of sampling and tabulation render comparability between them difficult. Moreover, the introduction of Household Schedule for the first time in 1961 Census has made sweeping changes in the basic Census data required for this Table. As the sample of one in one thousand households followed in 1951 Census does not depict adequately correct picture of the composition of households, the size was enlarged in 1961 by taking every fifth household, that is, 20 per cent of the total households into account for the compilation of data required for Table C-I of 1961. Thus the large number of sampled households and the conceptual changes in the presentation of the Table in 1961 Census give a lucid picture on the size and composition of the households.

(ii) Table C-III (Age and Civil Condition) of 1951 Census which corresponds to the Table C-II (Age and Marital Status) of 1961 Census was prepared on 10 per cent random sample while the latter Table is compiled on full count basis. While there is practically no difference in two of the marital statuses, namely, 'Unmarried' and 'Married' of 1951 Census and 'Never Married' and 'Married' of 1961 Census, the third marital status 'Widowed or Divorced' of 1951 Census is split up into two separate columns, namely, 'Widowed' and 'Divorced or Separated' in 1961 Census. Another new status, namely, 'Unspecified Status' is also added in 1961 Census. Significant divergence between the age-groups of 1951 Census and 1961 Census renders the comparability all the more difficult. After treating the age-group 0-9 as 'Never Married' in 1961 Census, quinquennial age-groups are adopted for the age range 10 to 70 years. But in 1951 Census decennial age-groups were followed from 5 to 75 years.

(iii) Table C-IV (Age and Literacy) of 1951 Census, corresponding to the Table C-III (Age, Sex and Education) of 1961 Census, materially differs from the latter Table as it is based on 10 per cent random sample and does not show the broad educational levels. The divergence in the age-groups of 1951 and 1961 Census further acts as a handicap for purposes of comparability.

(iv) There is no difference between the Table C-V (Single Year Age Returns) of 1951 Census and the Table C-IV of 1961 Census except that the former Table is prepared on 10 per cent random sample while the latter is compiled on full count basis.

(v) Table D-I [Languages (i) Mother-tongue and (ii) Bilingualism] of 1951 Census correspond to Tables C-V and C-VI of 1961 Census respectively. In both the Censuses, the languages actually returned as mother-tongue are shown in the Tables. However in 1961 Census, classification of languages has been attempted and an Appendix to Table C-V is added on the basis of linguistic classification adopted by Grierson with suitable modifications.

(vi) Table D-II (Religion) of 1951 Census slightly differs from the Table C-VII of 1961 Census in as much as the former Table gave the data in respect of all religions in the State except a few negligible ones which were grouped under "Other Religions—Tribal and Non-Tribal". Table C-VII of 1961 Census presents the data in respect of the major religions, namely, Buddhists, Christians, Hindus, Jains, Muslims and Sikhs while all the remaining religions are grouped together under "Other Religions", the details of which are supplied in the Supplement to the Table.

(vii) Table D-III (Scheduled Castes and Scheduled Tribes) of 1951 Census gives the total figures only whereas the Table C-VIII of 1961 Census shows the distribution of Scheduled Castes and Scheduled Tribes by literacy, and by classification of workers into different industrial categories and the total number of non-workers.

3. *Migration Tables*—The migration statistics in the earlier Censuses were produced by the birthplace returns. This was found inadequate for purpose of complete study of population movements. Moreover it was seen that rural-urban migration is occurring to a considerable extent. In order to make a more detailed study of migration, two new questions were put to every enumerated person: One to ascertain in case he was not born at the place of enumeration whether the birthplace was rural or urban, and the other to ascertain the duration of residence at the place of enumeration. The number of present Tables is also more elaborate than in 1951 Census and the differences are briefly set out in the following paras:

(i) Table D-VI (Non-Indian Nationals) of 1951 Census corresponds to Table D-I of 1961 Census with

the only difference that the former Table gives the data for Rural and Urban while the latter presents the data for total only.

(ii) Table D-IV (Migrants) of 1951 Census is similar to Table D-II (Place of Birth) of 1961 Census. The method of presentation of the Table has undergone complete change so as to make the 1961 Table more lucid than the 1951 Table.

(iii) The Tables D-III to D-VI of 1961 Census are new, having no counterparts in 1951 Census.

4. *Coding of Household Schedules*—Each Census Charge was taken as a unit for the purpose of sampling household schedules. The household schedules were arranged according to serial number of the village in the Census Charge and every fifth household schedule was stamped with letter (S) indicating that it was the sample. These samples were stitched into bundles of 100 each and made over to a trained team of codists for coding all the questions in the household schedule as well as the Census Population Record on the back of it in accordance with the prescribed instructions which are reproduced below:

5. *Questionnaire*—The Census data required for the Tables in this volume are tabulated from the five demographic questions and three social and cultural questions which are reproduced below:—

DEMOGRAPHIC QUESTIONS:

Question No.1	(a) Name, (b) Relationship to Head,
No.2	Age last Birthday,
No.3	Marital Status,

No.4 (a) Birthplace,
(b) Born R/U,
(c) Duration of residence, if born
elsewhere, and

No.13 Sex.

SOCIAL AND CULTURAL QUESTIONS

Question No.5	(a) Nationality, (b) Religion, (c) Scheduled Castes/Scheduled Tribes,
---------------	--

- No. 6 Literacy and education
No. 7 (a) Mother-tongue,
(b) Any other language.

6. Geometrical designs have been used for recording the answers to Question Nos. 2, 4 (b) and 4(c). As the recording of correct answers to these questions was essentially necessary for obtaining a true picture, elaborate arrangements were made for thorough training of the Census personnel. The instructions issued to the Enumerators for recording appropriate answers to the above questions are reproduced below from the Manual of Instructions to Census Personnel, Part II:

Question 1 (a)—Name

7. Write the name of the person whom you are going to enumerate. If a woman's name is not given out, write "so and so's mother", or wife, etc. If a woman does not give out the name of somebody's husband, write "so and so's husband". For newly born infants who have not yet been given any name write "baby of so and so".

Q. 1(b)—Relationship to the Head of the household

8. In the case of the Head of the household write 'Head'. All relationships in this question should be recorded in respect of that person. In the case of relations write the relationship in full. Do not use words like nephew, niece or uncle, but state whether brother's or sister's son or daughter (for nephew or niece) or father's or mother's brother (uncle). 'Son' will include 'adopted son' or 'step son'; similarly for a daughter. In the case of visitors, boarders or employees write 'visitor', 'boarder', or 'employee' as the case may be.

9. If on the check or revisional round between the 1st and 4th March the Head of the household as recorded previously is found to have died, the person in household who succeeds him by common consent as Head should be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slip of the dead Head of household will, of course, be cancelled.

10. In the case of places like messes, boarding houses, etc., where people live together with no ties of relationship, the manager or superintendent or the person who, by common consent, is regarded as the Head should be recorded as Head of the household. Other members should be recorded as 'unrelated' in this question.

Q. 2—Age in completed years last birthday

11. Write age in years completed last birthday. For infants below one year of age, write '0'. You will find many persons who cannot state their age correctly.

You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events, etc.

Q. 3—Marital Status

12. For Never married	write	NM
Married	write	M
Widowed	write	W
Separated or Divorced	write	S

For a person who has never been married write 'NM'. For a person married, whether for the first or another time, write 'M'. Write 'M' also for persons who are recognized by custom or society as married and for persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute return her marital status as declared by her.

Q. 4 (a)—Birthplace

13. The following abbreviations should be used:—

- | | | |
|--|---|----|
| 1. If born in village or town in which enumerated | write | PL |
| 2. If born in another village or town of district in which enumerated | write | D |
| 3. If born in another district in the State of enumeration | write name of district | |
| 4. If born in another State in India | write name of district and State if name of district is known, otherwise write name of State. | |
| 5. If born in a country outside India, e.g., Pakistan or any other country | write name of country | |
| 6. Persons born at sea or in air or in railway carriages or on road transport, e.g., buses, etc., should be entered as such. | | |

Q. 4 (b)—Whether born in Village or Town

14. Use the following abbreviations:—

- | | | |
|---|-------|---|
| 1. If born in a village | write | R |
| 2. If born in a town which is considered a town at the present time even if it was not so considered at the time of birth | write | U |

Q. 4 (c)—Duration of Residence

15. Use the following abbreviations:—

- | | | |
|---|--|---|
| 1. For a person born in another village or town or city in which enumerated | write | X |
| 2. For a person born in another village or town or city of district of enumeration or who was not born in the district of enumeration | write the number of completed years this person has been in the village/town of enumeration.
(Do not take into account periods of temporary absence on leave or holiday or tour or business.) | |
| 3. If the duration of residence is less than one year | write | 0 |
| If the duration of residence is one year or over | write the actual number of completed years of residence. | |

Q. 5 (a)—Nationality

16. Use the following abbreviations:—

- | | | |
|-------------------------|-------------------------------|---|
| 1. For Indian nationals | write | I |
| 2. For other nationals | write the nationality in full | |

Q. 5 (b)—Religion

17. Use the following abbreviations:—

For Hindu	write	H
Muslim	write	M
Christian	write	C
Jain	write	J
Buddhist	write	B
Sikh	write	S

For others write the answers actually returned.

Q. 5 (c)—Scheduled Castes and Scheduled Tribes

18. If the person does not belong to any Scheduled Caste or Scheduled Tribe, write 'X' in this column. If the person gives out that he is a member of a particular caste which is a Scheduled Caste, find out the name of the Caste in the list of Scheduled Castes. If the name of the Caste as given by him tallies with or is locally considered to be equivalent to the name of the Caste, then the name of the Caste as it appears in the list should be recorded in this column and then the letters (S. C.) should be written after the name of the Caste.

19. Similarly if the person claims to be a member of the Scheduled Tribe, verify the name of the tribe from the list and then note down the name of the tribe in this column and write (S.T.) after the name of the Tribe. The name of the Caste or Tribe which does not appear

in the approved list or which is not considered locally as equivalent to one of the approved names of the Castes or Tribes, should not be entered in this column.

20. Do not write the names of Scheduled Castes in general terms as 'Harijan', 'Achhut'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely 'Harijan', tell him that this description will not earn the person any benefits under the Constitution permissible to Scheduled Castes and Scheduled Tribes. This may persuade him to give out the correct name.

21. Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to question 5 (b). Scheduled Tribes may belong to any religion.

Q. 6—Literacy and Education

22. Use the following abbreviations:—

For a person

- | | | |
|---|-------|---|
| 1. Who can neither read nor write or can merely read but cannot write in any language | write | 0 |
| 2. Who can both read and write | write | L |

23. The test for reading is ability to read any simple letter either in print or in manuscript, i.e., if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can, with understanding, both read and write. If the person can both read and write and has also passed a written examination as proof of an educational standard attained, write the highest examination passed instead of L.

Q. 7 (a)—Mother-tongue

24. Write the mother-tongue in full including dialect as returned by the person enumerated. Mother-tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

25. If the mother-tongue is a non-Indian language, the correct name of the language (such as, English

German, Burmese, etc.) as given by the person should be recorded. If the mother-tongue is an Indian language, attempt should be made to record the name under one of the 14 languages laid down in the Constitution of India, a list of which is given below. If the person's mother-tongue is Oriya, the word "Oriya" should be recorded, as it is one of the 14 recognized languages. If the mother-tongue is given as "Lariha," it will be seen that this is not a recognized language, but on enquiry it will appear that Lariha is a dialect of Oriya. So the name of the language should both be recorded such as, "Lariha (Oriya)." If he gives out a tribal language, such as, Kui, the words "Kui (Tribal)" should be recorded. If he says that his mother-tongue is Marwari, you should see in the list that Marwari is not a principal language. So you should ask him, or otherwise ascertain under which principal language the Marwari language should be classified. If you are satisfied that the Marwari language spoken by him is a branch of Hindi, you should write "Marwari (Hindi)." Otherwise, simply write "Marwari." Do not write any language as Hindustani which is vague, and which is not included in the recognized list. The list contains such names as Hindi, Urdu, etc., and you should write Hindi or Urdu as the case may be.

Q. 7 (b)—Any other Language (s)

26. After recording the mother-tongue, enquire whether the person knows any other language (s), Indian or foreign, and write the language (s) returned by him against this question. In case he does not know any other language, put 'X'.

27. The number of languages recorded against this question should not be more than two. These languages should be other than his mother-tongue which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

Q. 13—Sex

28. Write 'M' for Males and 'F' for Females.

For eunuchs and hermaphrodites, write 'M'.

29. Brief notes explaining the contents of each Table and the abbreviations used in them are given at the beginning of the Table.

TABLE C-1
COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY
CLASSIFIED BY SIZE OF LAND CULTIVATED
(Based on 20 per cent sample)

This Table, which is centrally tabulated at New Delhi on the basis of 20 per cent sampled Household Schedules sent by the Tabulation offices, shows the family composition of households engaged in different occupations, namely, (i) households engaged neither in cultivation nor in household industry, (ii) households engaged in household industry, and (iii) households engaged in cultivation. The last category of households are further split up according to the size of the lands cultivated by them. The data are presented separately for Total, Rural and Urban.

2. Each Census Charge is taken as a unit for the purpose of sampling the Household Schedules. The Household Schedules are arranged according to the serial number of the villages in the Census Charge and every fifth Household Schedule is stamped with the letter **S** indicating the sample. All these samples are taken out carefully and stitched into bundles of 100 each. These sampled bundles of each charge are made over to a trained team of coders for coding all the questions in the Household Schedule as well as in the Census Population Record on the back of it in accordance with the prescribed instructions which are already explained in the Introductory Note. After completion of the coding they are forwarded to the Mechanical Tabulation Unit, New Delhi for compilation of the Table.

3. *Definition of Household*—A Household means the entire group of persons who commonly live together and take their meals from a common kitchen, unless the exigencies of work prevented any of them from doing so.

4. This Table gives the composition of the members in a household. Family and non-family members of the household are shown separately. Among the family members, the Heads of households and their spouses are given. Either can be male or female. Married sons and other married relations are given separately by sex. Relations other than married and unrelated persons are also shown separately. Thus this Table will be of sociological interest indicating the strength of the joint family system.

5. The percentage of households and its population engaged in cultivation by size of land held by them is indicated in the statement below:

Size of land cultivated	Percentage of sample households	Percentage of sample household Population

TABLE C-II

AGE AND MARITAL STATUS

TABLE C-II

AGE AND MARITAL STATUS

Table C-II shows the marital status of all enumerated persons by their age-groups and sexwise. The data is presented separately for Total, Rural and Urban. The age-groups conform to international requirements. This is a very important demographic Table from which it can be ascertained whether proportions in various marital status conditions have increased or decreased since the last Census and whether any trend is observed in the age of marriage. It will also give an indication of mortality in different marital status, and also in different age-groups. The data on married females by age-group can be utilized for forecasting the future births from age specific birth rates.

2. *Reference to Individual Slip*—Question No. 3 of the Individual Slip relates to marital status. The question and the instructions as issued to the enumerators for recording correct answers are explained in para 12 of the Introductory Note.

3. Broad comparison of the marital status in different Censuses is attempted in the statement below which gives the approximate percentage:

Year		Total		Never Married		Married		Widowed		Divorced/ Separated		Unspecified Status	
		M	F	M	F	M	F	M	F	M	F	M	F
1921	..	100·0	100·0	51·9	37·5	43·9	43·9	4·2	18·6	..	..	..	..
1931	..	100·0	100·0	48·4	35·0	48·1	47·8	3·5	17·2	..	..	..	..
1941	..	100·0	100·0	49·3	36·2	46·7	46·7	4·0	17·1	..	..	..	..
1951	..	100·0	100·0	47·1	38·6	49·0	48·3	3·9	13·1	..	..	..	..
1961	..	100·0	100·0	50·7	41·2	45·9	46·3	2·9	12·0	0·4	0·4	0·1	0·1

The steady increase in the percentage of Never Married females from decade to decade is more marked than in the case of males. The decennial changes in the percentage of both the sexes of 'Never Married' indicates slow rise while the fluctuation in the percentages of married persons is not appreciable. The gradual decline in the percentage of 'Widowed' is a noteworthy feature.

TABLE C-III

PART A—AGE, SEX AND EDUCATION IN ALL AREAS

PART B—AGE, SEX AND EDUCATION IN URBAN AREAS ONLY

PART C—AGE, SEX AND EDUCATION IN RURAL AREAS ONLY

TABLE C-III

Part A—Age, Sex and Education in All areas

Part B—Age, Sex and Education in Urban areas only

Part C—Age, Sex and Education in Rural areas only

This Table is presented in three parts separately for All areas, Urban areas and Rural areas. It gives five-yearly age-groups up to 34, one age-group from 35—44, another from 45—59 and still another for 60+. The data is presented for broad educational standards, which are different for the urban and rural areas. They are the same as given in Table B-III Parts A and B. This Table is important as it measures the growth of literacy in the total population as well as in different age-groups since the last Census.

2. *Reference to Individual Slip*—Question No. 6 of the Individual Slip supplies the data for this Table. The instructions issued to enumerators are explained in para 22 of the Introductory Note.

3. *Table C-III Part A*—This part which is prepared for the entire State gives the data for the following educational levels :

Illiterate
Literate (without educational level)
Primary or Junior Basic
Matriculation and above

The above educational levels are further cross-tabulated by age-groups, 0—4, 5—9, 10—14, 15—19, 20—24, 25—29, 30—34, 35—44, 45—59, 60+ and age not stated.

4. *Table C-III Part B*—This part is compiled for the Urban areas only. The educational levels shown in it are as follows :

Illiterate
Primary or Junior Basic
Matriculation or Higher Secondary
Technical diploma not equal to degree
Non-technical diploma not equal to degree
University degree or Post-graduate degree other than technical degree

Technical degree or diploma equal to degree or Post-graduate degree in the following branches :

Engineering
Medicine
Agriculture
Veterinary and Dairying
Technology
Teaching and
Others

These educational levels are cross-tabulated by age-groups already mentioned above.

5. *Table C-III Part C*—This part deals with the data for Rural areas only. The educational levels and the age-groups are the same as in Part A.

6. *Appendix*—The Appendix to this Table gives the special Tables relating to the Scientific and Technical Personnel. A short note is given at the beginning of the Appendix.

IN URBAN AREAS ONLY—concl'd.

APPENDIX TO TABLE C-III

This Appendix presents Special Tables relating to the Scientific and Technical Personnel. This information is collected for the first time ever in 1961 Census in all the Urban areas of the State and two Rural areas only, namely, Umarkot Charge in the district of Koraput and Barpali Charge in the district of Sambalpur.

2. Printed cards were specially devised for the purpose and supplied by the Registrar General, India for collection of the data. These cards were distributed by the enumerators to each person possessing scientific and technical qualifications mentioned below :

(a) *Science* Technically qualified persons are those who hold B. Sc. or M. Sc. or higher degrees (Ph. D., etc.) in science subjects like Physics, Mathematics, Chemistry, Agriculture, Geology, Geophysics, Geography, etc. Persons who hold B. A. or M. A. degrees in Mathematics, Geology or Geography are also technically qualified men, and should be given one card each. But no card should be given to persons who hold B. A. or M. A. degree in pure arts subjects, such as, Philosophy, History, English, etc.

(b) *Engineering* Persons holding recognized Degree or Diploma in Engineering from an Engineering College should be given cards. But persons who have passed from an Engineering School should not be given cards.

(c) *Technology* Any one holding Degree or Diploma in technical subjects like Chemical technology, Leather technology, Textile technology, Glass and Ceramic technology, Food technology, etc., should be supplied with cards.

(d) *Medicine* Persons holding Degree or Diploma in Medicine and Surgery should also be given cards.

3. Each person had to fill up the card and post it directly to the Registrar General, India. These Tables were prepared centrally on the basis of information supplied in these cards.

4. As there is no agency to verify the correct recording of the answers and posting them, complete coverage in the matter of collection of the data could not be ensured. Therefore, these Tables suffer from some limitations and inadequacy of the data.

TABLE C-IV
SINGLE YEAR AGE RETURNS

TABLE C-IV
SINGLE YEAR AGE RETURNS

This Table is prepared separately for Total, Rural and Urban. This is an important demographic Table which will be used by the Census Actuary for computing the mortality rates from the age data of earlier Censuses and for the preparation of life Tables. This Table affords useful study on bias in age returns at the Census.

2. There is a general tendency to return the age in round figures as will be evident from this Table. This attitude is more prevalent in the Rural areas than the Urban areas.

3. *Reference to Individual Slip*—Question No. 2 of the enumeration slip supplies the data for this Table. The instructions issued to the enumerators are explained in para 11 of the Introductory Note.

4. *Centenarians*—It may be interesting to know the age particulars of all persons above the age of 100. Their number in this State is 4,614 (2,015 males and 2,599 females). 94 per cent of them are found in Rural areas. Their age-group classification is given below:

Age-group	Persons	Males	Females
100—110	4,436	1,941	2,495
111—120	165	66	99
121—130	13	8	5
Total	4,614	2,015	2,599

The classification of the highest age-group 121—130 is given below:

Age in years	Persons	Males	Females
121	1	..	1
123	4	3	1
124	2	2	..
125	3	..	3
130	3	3	..
Total	13	8	5

Out of the three persons aged 130, two are found in the rural area of Sambalpur district and one in the rural area of Ganjam district

TABLE C-V
MOTHER-TONGUE

TABLE C-V
MOTHER-TONGUE
(In alphabetical order)

All the languages returned in this State are given in alphabetical order in this Table. The notes prepared by the Central Tabulation Officer, New Delhi, in consultation with the Linguist are reproduced below :

Note 1.

(i) The following mother-tongues arranged in alphabetical order in Col. 1 of the Table given below as per Table C-V have been classified in the Linguistic Survey of India. The Linguistic Survey of India Classification No. is mentioned against each mother-tongue in Col. 3.

(ii) If in Col. 3 no Classification No. is given against any mother-tongue of Col. 1 then it would mean that the name refers to other old or middle Indo-Aryan language or a language group or branch or family name from the Linguistic Survey of India.

(iii) Wherever a tongue is mentioned in Col. 3 it is to be understood that the mother-tongue is either a dialect or another name or form of the tongue mentioned against it in Col. 1 which, in its turn, has been classified by the Linguistic Survey of India in the appropriate place for that tongue.

(iv) If in Col. 1, there is a tongue which bears no classification number in the Linguistic Survey of India then in Col. 2 the name of the classified language or group will be given of which the mother-tongue of Col. 1 is either a dialect or another name or form. In such a case the number of classified language of Col. 2 has been given in Col. 3.

(v) In Col. 2 standardized spellings according to Linguistic Survey of India have been given against each mother-tongue of Col. 1.

APPENDIX II

Appendix II which is supplied by the Central Tabulation Office, New Delhi, shows the Percentage variation in each decade from 1911 to 1961 of population speaking three numerically most important languages of the State, namely, Oriya, Kui and Telugu. The absolute figures, percentage variation and percentage to total population in each decade excepting 1941 are given in it.

As this State was constituted in 1936, the figures for the decades 1911, 1921 and 1931 are adopted from the old Census reports of Madras and Bihar and Orissa States. However, minor adjustments could not be made for non-availability of the information for smaller units. Symbols used in the Statements are explained below :

N. B.

* indicates that total population of all languages, if derived, would be slightly less than the population given in Table A-II of 1961, because adjustment of minor portion has not been made. Calculations are based on actual population and not on A-II population.

** denotes that total population of all languages, if derived, would be slightly more than the population given in Table A-II of 1961, the reason being the same as given above.

† Figures are partly available.

Other Religions	2,883	0·02	1,537	0·01

'N' represents negligible.

4. All the religions have gained in absolute numbers except Buddhists who have declined both in number and in percentage. The gain in percentage is highest among the Christians. Among the Muslims the gain is small. The percentage has remained constant in respect of Sikhs and Jains but has slightly declined in respect of Hindus.

5. Rural and Urban break-up of population according to Religion together with their percentage is given below :

TABLE C-VIII

SCHEDULED CASTES AND SCHEDULED TRIBES

Part A—Classification by literacy and industrial category of Workers and Non-workers among Scheduled Castes

Part B—Classification by literacy and industrial category of Workers and Non-workers among Scheduled Tribes

This Table which gives separate data for Total, Rural and Urban population is presented in two parts: Part A relates to the Scheduled Castes and Part B to the Scheduled Tribes. Both these parts show the distribution of Scheduled Caste and Scheduled Tribe population by literacy and classification of workers into nine industrial categories and the total number of non-workers respectively. This is a general Table prepared in addition to a number of special Tables in the SCT series which are included in volume Part V. The importance of this Table lies in the fact that it serves as the basis for allocation of reserved seats in the Parliament and State Legislatures.

2. *Scheduled Caste and Scheduled Tribe*—A person is said to belong to Scheduled Caste if he belongs to any one of the castes specified in the Scheduled Castes and Scheduled Tribes Order (Amendment) Act, 1956. A person is said to belong to a Scheduled Tribe if he belongs to any one of the Tribes specified in the Scheduled Castes and Scheduled Tribes Order (Amendment) Act, 1956.

3. *Reference to Individual Slip*—Question No. 5 (C) of the Individual Slip supplies the data for this Table. The instructions given to enumerators for filling up correct answers are explained in paras 18 to 21 of the Introductory Note.

4. Literacy figures for the Scheduled Castes and Scheduled Tribes are given for the first time in the present Census. The percentages of literacy are shown below:

			Scheduled Castes		Scheduled Tribes	
			Percentage of illiterates	Percentage of literates	Percentage of illiterates	Percentage of literates
Total	Persons	..	88.4	11.6	92.6	7.4
	Males	..	80.2	19.8	87.0	13.0

6. Terms appearing in column headings are defined as follows:

(i) *Literate and Educated Person*—A person is said to be literate if he can read and write a simple letter. An educated person is one who has passed a written examination of a recognised educational standard.

(ii) *Worker*—A worker is one who is engaged in economic activity of the following nine categories. "Work" includes not only actual work but also effective supervision and direction of work. The nine categories of economic activities mentioned above comprise persons who are engaged: (I) as Cultivator, (II) as Agricultural Labourer, (III) in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities, (IV) in Household Industry, (V) in Manufacturing other than Household Industry, (VI) in Construction, (VII) in Trade and Commerce, (VIII) in Transport, Storage and Communications, (IX) in Other Services.

I. Cultivator—A Cultivator is a person who is engaged either as employer, single worker or family worker in (a) cultivation of land, or supervision or direction of cultivation of land owned by himself or by a member of his household or held from Government; (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

II. Agricultural Labourer—An Agricultural Labourer is a person who works in another person's land in lieu of wages in cash, kind or share without exercising any right of supervision or direction in matters connected with cultivation.

III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities—The heading of this category is self-explanatory.

IV. Household Industry—A Household Industry is an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. It should relate to production, processing, servicing, repairing and making and selling of goods. It does not include professions, such as, pleader or doctor or barber or washerman or astrologer.

V. In Manufacturing other than Household Industry,
VI. In Construction,
VII. In Trade and Commerce,
VIII. In Transport, Storage and Communications and
IX. In Other Services.

The categories of workers are not defined separately as they are self-explanatory.

(iii) *Non-worker*—A person is said to be not working if he or she does not come under any of the categories of "Worker" mentioned above. A person who has been offered work but has not actually joined is treated as a non-worker. The activities of non-workers have been classified into the following eight categories:

1. a full-time student or child attending school who does no other work,
2. a person engaged in unpaid house duties (like housewife or other adult female) who does no other work nor help regularly even part-time in family cultivation, industry, trade or profession,
3. a dependent including an infant or child not attending school or a person permanently disabled from work because of old age or illness,
4. a retired person, a rentier, a person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work,
5. a beggar, a vagrant, or an independent woman without indication of source of income or a person of unspecified source of existence,
6. a convict in jail or an inmate of a penal, mental or charitable institution,
7. a person who has not been employed before but is seeking employment for the first time, and
8. a person employed before but now out of employment and seeking employment.

MIGRATION TABLES

TABLE D-1
NON-INDIAN NATIONALS

TABLE D-I
NON-INDIAN NATIONALS

This Table which corresponds to Table D-VI of 1951 Census gives the number of persons, sexwise, belonging to different foreign countries who were residents in this State at the time of 1961 Census. Non-Indian Nationals employed in Foreign Embassies, Missions, etc., are excluded from this Table.

2. *Reference to Individual Slip*—Question 4(a) of the Individual Slip supplies the data for this Table. The question and the instructions for recording the correct answer are given in para 13 of the Introductory Note.

3. The number of Non-Indian Nationals at the time of last Census and the present Census is given below :

	Persons	Males	Females
1951	22,083	10,735	11,348
1961	4,909	2,776	2,133

The influx of the displaced persons from Pakistan inflated their number in 1951 Census which stood at 20,039 persons. Even in 1961 Census majority of the Non-Indian Nationals come from Pakistan, their number being 2,524 (1,275 males and 1,249 females).

4. The Table gives separate figures for each important country in Asia and beyond India (including U. S.S. R.), Europe (excluding U.S. S. R.), Africa, America and Oceania. Persons from smaller countries in these continents are grouped in one column 'Elsewhere'.

5. There are 166 males and 286 females whose nationality is not stated.

6. *Appendices*—The Appendix I to this Table shows the names of the countries from where the persons classified under 'Elsewhere, are returned.

The countries which have been omitted from the Table on account of nil figures are shown in the Appendix II.

PLACE OF BIRTH

APPENDIX II TO TABLE D-I

Countries with nil figures which have been omitted from the Table D-I are shown below:

Name of Continent	Countries omitted
Asia	Singapore, Malaya & British Borneo and U. S. S. R.
Africa	Mauritius, Mozambique, Elsewhere
Europe	Ireland
America	Elsewhere
Oceania	Newzealand and Elsewhere

TABLE D-II

PLACE OF BIRTH

This Table is usually prepared in all the Censuses giving the distribution of population by place of birth. Table D-IV of 1951 corresponds to this Table. An important change as compared to previous Censuses is that births in Rural and Urban areas are given separately in case of those born in India. A special question has been asked for this purpose. The place of enumeration is also classified into Rural and Urban. This data indicates the Rural/Urban migration.

2. *Reference to Individual Slip*—Question 4(a) and (b) supply the relevant information for this Table. The questions and the instructions for recording the answers are already explained in paras 13 and 14 of the Introductory Note.

3. This Table gives the data for Total, Rural and Urban in respect of all persons (A) Born in India, (B) Born in countries in Asia beyond India (including U. S. S. R.), (C) Countries in Europe (excluding U. S. S. R.), (D) Countries in Africa, (E) Countries in two Americas, (F) Countries in Oceania, (G) Born at sea and lastly (H) Unclassifiable. Persons of the A group, Born in India, are again classified into (I) within the State of enumeration and (II) States in India beyond the State of enumeration. Within the State of enumeration are reclassified into (a) born in place of enumeration, (b) born elsewhere in the district of enumeration and (c) born in other districts of the State.

4. *Migrants to Rural areas*—Out of 16,439,196 persons enumerated in Rural areas, 11,480,245 persons are born at the place of enumeration and 21,935 are treated as unclassifiable. The number of migrants within the State as well as from outside the State are 4,937,016.

(i) *Migrants within the State*—The following figures indicate the migration within the district as well as within the State to Rural areas :

		Persons	Males	Females
I. Born elsewhere in the district of enumeration	..	4,215,862	702,089	3,513,773
II. Born in other districts of the State	..	502,003	153,082	348,921
Total	..	4,717,865	855,171	3,862,694

These figures indicate that 81.9 per cent of the migrants are females and marriage is the main reason for the migration.

(ii) *Migrants from outside the State*—The following figures indicate the number of migrants from outside the State :

		Persons	Males	Females
1. States in India beyond the State of enumeration	..	203,735	77,321	126,414
2. Born in countries in Asia beyond India (including U. S. S. R.)	..	15,319	8,661	6,658
3. Countries in Europe (excluding U. S. S. R.)	..	82	47	35
4. Countries in Africa	..	9	6	3
5. Countries in two Americas	..	6	3	3
Total	..	219,151	86,038	133,113

5. *Migrants to Urban areas*—Out of 1,109,650 persons enumerated in Urban areas 591,733 are enumerated at the place of birth while 1,552 are treated as unclassifiable. The total number of migrants are 516,365 constituting 46.5 per cent of the total Urban population. The sex-wise break-up of this number is given below :

(i) *Migrants within the State*—The following figures indicate the migration within the district as well as within the State :

		Persons	Males	Females
1. Born elsewhere in the district of enumeration	..	238,462	109,444	129,018
2. Born in other districts of the State	..	138,672	75,696	62,976
Total	..	377,134	185,140	191,994

(ii) *Migrants from outside the State*—The following figures indicate the number of migrants from outside the State :

		Persons	Males	Females
1. States in India beyond the State of enumeration	..	128,343	73,671	54,672
2. Born in countries in Asia beyond India (including U. S. S. R.)	..	10,321	7,051	3,270
3. Countries in Europe (excluding U. S. S. R.)	..	522	386	136
4. Countries in Africa	..	9	8	1
5. Countries in two Americas	..	31	17	14
6. Countries in Oceania	..	5	1	4
Total	..	139,231	81,134	58,097

6. *Appendix*—The States in India beyond the State of enumeration and the Countries outside India which have been omitted from the Table on account of nil figures are shown in the appendix.

TABLE D-III

**MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND
DURATION OF RESIDENCE IN PLACE OF ENUMERATION**

TABLE D-III
MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION OF RESIDENCE
IN PLACE OF ENUMERATION

This is a new Table based on the special question 4 (c) asked at the 1961 Census regarding the duration of residence at the place of enumeration in the case of persons born outside the place of enumeration. The question and the instructions for recording the answer are explained in para 15 of the Introductory Note.

2. The period of residence at the place of enumeration is grouped as given below :

- (i) Less than 1 year
- (ii) 1—5 years
- (iii) 6—10 years
- (iv) 11—15 years
- (v) 16 years and over
- (vi) Period not stated

3. This Table is intended to supplement the preceding Table D-II relating to birth place for a detailed study of in-migration. Group 11—15 years may yield information on population displaced by partition.

4. *Appendix*—The States and Union Territories which have been omitted from the Table on account of nil figures are shown in the *Appendix*.

5. Lines with nil entries of birth places in 'Rural' 'Urban' or 'Unclassifiable', as the case may be, have also been omitted.

TABLE D-V

CITIES SHOWING POPULATION BORN LOCALLY,
MIGRANTS FROM RURAL AREAS AND MIGRANTS
FROM OTHER TOWNS AND CITIES

TABLE D-V
CITIES SHOWING POPULATION BORN LOCALLY, MIGRANTS FROM RURAL AREAS AND
MIGRANTS FROM OTHER TOWNS AND CITIES

This Table which is prepared for cities only gives separately the extent of in-migration from rural and other urban areas into the city. In-migration from rural and urban areas are classified by migrants who have been residents for less than 3 years and 3 years and more at the place of enumeration. This information is supplied for migrants coming to the city from rural as well as urban areas within the same district, outside the district within the State and outside the State.

2. The total population presented in this Table, 142, 621 persons (82,983 males and 59,638 females), differs from the actual population of the Cuttack city which stands at 146,308 persons (84,960 males and 61,348 females) on account of the omission of certain categories of persons described below.

3. This Table excludes persons whose birth places have not been recorded as either 'Rural' or 'Urban', whose duration of residence has not been stated and whose place of birth is 'Unclassifiable'.

4. This Table relates to persons born within the country only.

TABLE D-VI
DISTRIBUTION OF INDUSTRIAL CATEGORIES
OF WORKERS AND NON-WORKERS BY
PLACE OF BIRTH

TABLE D-VI
DISTRIBUTION OF INDUSTRIAL CATEGORIES OF WORKERS AND NON-WORKERS
BY PLACE OF BIRTH

This Table is presented in 4 parts separately for Total, Rural, Urban and for Cuttack city. All these parts give valuable information on the category of workers among migrants by birth place separately for Rural and Urban.

2. In the case of Rural the Table is prepared for the following:

1. Within the State of enumeration

(a) Born in place of enumeration

(b) Born elsewhere in the district of enumeration

(c) Born in other districts of the State

II. States in India beyond the State of enumeration: 4 numerically important States of immigration, which may be adjoining or distant, are given. The selection varies for each district in accordance with the numerical importance of the immigrants from their respective States.

3. In the case of Total and Urban the tables are prepared for all the groups which are given below :

A. Born in India

I. Within the State of enumeration

(a) Born in place of enumeration

(b) Born elsewhere in the district of enumeration

(c) Born in other districts of the State

II. States in India beyond the State of enumeration

B. Born in countries in Asia beyond India (including U. S. S. R.)

C. Countries in Europe (excluding U. S. S. R.)

D. Countries in Africa

E. Countries in two Americas

F. Countries in Oceania

G. Born at Sea

H. Unclassifiable

These two tables exclude the information of those States under group II (States in India beyond the State of enumeration) where the immigrants are less than 1 per cent of the total immigrants. The States thus omitted are shown in the Appendix.

4. The entries of "unclassifiables" in column 2 who are less than 5 per cent of the total population in the particular main group in column 1 are omitted. A note to this effect has been inserted at the beginning of the Table.

5. The nine industrial categories of workers and non-workers are already explained in the note to the Table C-VIII.

TABLE D-VI—DISTRIBUTION OF INDUSTRIAL CATEGORIES OF WORKERS AND NON-WORKERS BY PLACE OF BIRTH
(Note—Unclassifiable in column 2 is omitted as the total figure under this category is less than five per cent of the total population in the particular main group in column 1)

APPENDIX TO TABLE D-VI

This Appendix shows the States which are omitted from the main Table under Group II, "States in India beyond the State of enumeration" where the immigrants are less than one per cent of the total immigrants. The calculation of the percentage is based on the number of immigrants to the State and each district respectively as given in Table D-VI Total. They are not separately calculated for Urban. However, the figures for Urban are inserted below the total of the same State. The information is given in run on lines showing the distribution of workers in the nine industrial categories and of non-workers. The following abbreviations have been used in the

Appendix:—

R—Rural	I—Cultivator	VI—Construction
U—Urban	II—Agricultural labourer	VII—Trade and Commerce
M—Male	III—Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	VIII—Transport, Storage and Communications
F—Female	IV—Household Industry	IX—Other Services
	V—Manufacturing other than Household Industry	X—Non-workers
