INTRODUCTORY NOTE

The importance which the Census of India attached to the production of statistics relating to individual castes and tribes varied from decade to decade mainly on account of two reasons. Firstly, the Census probe into any aspect of the life and activity of the people, or of a particular section of the people, is pre-determined according to the policy and administrative requirement of the Government of the day, and secondly, there is some scope for display of scholarly interest by the person who is in overall charge of conducting the operations, so that the benefits of discretion given to him or the flexibility of the terms of reference, if any, are utilized in the best manner possible for more elaborate study on selected topics. The credit for first drawing the attention of the Government to the necessity of preparing lists of tribes and castes of each district goes to Plowden, the Census Commissioner of India in 1881. In view of his recommendation for more detailed study, an anthropologist of the eminence of Risley was appointed on special duty in 1885 to conduct an enquiry into the castes and tribes of eastern India which included Orissa. His monumental work "The Tribes and Castes of Bengal" was published in 1891 and is regarded as the first comprehensive Ethnographic study in India. In 1901, Risley himself was at the helm of affairs, succeeded in 1911 by Gait, who again happened to be a scholar of anthropology of great repute. The reports of these two Censuses thus contain rich anthropological discourses. The chapters written on castes and tribes have served as the basis of subsequent ethnological and anthropological investigations.

2. In 1921, the attention given to the study of castes and tribes suffered a set back probably on account of the interest shifting to problems which arose from the first World War, the great influenza epidemic and so on. But the next Census held in 1931 reverted to the scholarly treatment of the subject by Hutton as Census Commissioner of India and Lacey as Census Superintendent of Bihar and Orissa, who enriched their Reports by devoting special attention to the study of castes and tribes. It was, however, beginning to be felt that the caste system was in the process of disintegration, resulting in gradual break down of the barriers between one caste and the other. The non-official intelligentsia were of the opinion that such process should not be impeded by the action of the Government prescribing a declaration in the Census enumeration relating particularly to the caste to which an individual belonged. The Census of 1941, either as a result of such popular feeling or on account of the limitations imposed by the exigencies of the Second World War, fell down perceptibly from its previous standard of study on the subject. With the achievement of political independence in 1947, the Census that followed in 1951 recognized the need of ameliorative measures for the uplift of backward classes. But on account of some reason or the other, detailed compilation of figures relating to the backward classes was not undertaken. The Census Report of 1951 deplores the position in the following words :

> "The population of each tribe or caste in different districts or smaller administrative units in the State is not available for the present Census. This is highly regrettable particularly in view of the fact that the backward classes constitute a large percentage of the general population of Orissa and their problems are of utmost importance from political, administrative or social considerations. The Census of India merely undertook a brief districtwise classification of the Scheduled Castes and the Scheduled Tribes as appears in Table D-III published in Part II-A of the Report. This Table does not show the population of each caste or tribe in each district or parts of a district. Attention of the State Government was drawn to the fact that such castewise and tribewise population may be useful for the Administration and that the organization under the Superintendent of Census Operations will be glad to undertake the necessary tabulation of castewise and tribewise population, literacy, economic condition, etc., if the State Government were prepared to bear the cost of this particular operation. Perhaps consideration of economy led to unfavourable decision by the State Government, so that the work was not taken up. In the absence of such statistics, much of the valuable information relating to the life and economy of the backward peoples of the State cannot be given in the present Report."

3. Thus in 1951, there were no special Tables for Scheduled Castes and Scheduled Tribes, except one giving the total number of persons belonging to such Castes and Tribes in each district. This is not considered adequate for purpose of working the special safeguards provided by the Constitution of India, and for taking measures for the improvement of conditions of these communities by suitable welfare schemes. The Census of 1961 coincided with the completion of the Second Five-Year Plan. The intention was to make available more detailed statistics, so that it may be possible to evaluate the progress achieved by these communities during the first two Plan periods.

4. In 1961, Special Tables have, therefore, been devised to give the population figures for each Scheduled Caste and Scheduled Tribe and their cross classification by religion, age, marital status, education and distribution by industrial categories. There are also special Tables on household cultivation and number of persons not at work in respect of the total population of the Scheduled Castes and Scheduled Tribes, as well as on mother-tongue and bilingualism of the Scheduled Tribes.

5. A unique contribution of the Census of 1961 in the field of literature on Scheduled Castes and Scheduled Tribes of Orissa is intended to be brought out by publishing the Ethnographic Notes on all such Castes and Tribes as have a population not below 1,000 in the State. The publication constitutes Part V-B of the series of Census Reports of the State of Orissa.

6. Constitutional safeguards have been provided for the representation of Scheduled Tribes and Scheduled Castes in the House of the People and Legislative Assembly of every State (articles 330 and 332) and in making appointments to services and posts of the Union and the State (article 335). The relevant extracts from the Constitution of India are reproduced below :

Reservation of seats for Scheduled Castes and Scheduled Tribes in the House of the People

Article 330—(1) Seats shall be reserved in the House of the People for—

(*a*) the Scheduled Castes;

(*b*) the Scheduled Tribes except the Scheduled Tribes in the tribal areas of Assam; and

(*c*) the Scheduled Tribes in the autonomous districts of Assam.

(2) The number of seats reserved in any State for the Scheduled Castes or the Scheduled Tribes under clause (1) shall bear, as nearly as may be, the same proportion to the total number of seats allotted to the State in the House of the People as the population of the Scheduled Castes in the State or of the Scheduled Tribes in the State or part of the State, as the case may be, in respect of which seats are so reserved, bears to the total population of the State.

Reservation of seats for Scheduled Castes and Scheduled Tribes in the Legislative Assemblies of the States

Article 332—(1)Seats shall be reserved for the Scheduled Castes and the Scheduled Tribes except the Scheduled Tribes in the tribal areas of Assam, in the Legislative Assembly of every State specified in Part A or Part B of the First Schedule.

(2) The number of seats reserved for the Scheduled Castes or the Scheduled Tribes in the Legislative Assembly of any State under clause (1) shall bear, as nearly as may be, the same proportion to the total number of seats in the Assembly as the population of the Scheduled Castes in the State or of the Scheduled Tribes in the State or part of the State, as the case may be, in respect of which seats are so reserved, bears to the total population of the State.

Claims of Scheduled Castes and Scheduled Tribes to services and posts

Article 335—The claims of the members of the Scheduled Castes and Scheduled Tribes shall be taken into consideration, consistently with the maintenance of efficiency of administration, in the making of appointments to services and posts in connection with the affairs of the Union or of a State.

7. Apart from the above constitutional safeguards, Government are taking special measures for the amelioration of the conditions of these communities by suitable welfare schemes through the Five-Year Plans. As the 1961 Census coincides with the completion of the Second Five-Year Plan, it would be possible, with the help of Census data, to evaluate the progress that has been made by the members of the Scheduled Castes and Scheduled Tribes through the schemes undertaken during the First and Second Plans. The data will also be useful for formulating fresh schemes in the coming years.

8. *Reference to Individual Slip*—Question 5 (*c*) of individual slip supplies the data regarding the Scheduled Castes and Scheduled Tribes. The instructions issued to the enumerators for recording appropriate answers are reproduced below :

If the person does not belong to any Scheduled Caste or Scheduled Tribe, write 'X' in this column. If the person gives out that he is a member of a particular caste which is a Scheduled Caste, find out the name of the caste in the list of Scheduled Castes. If the name of the caste as given by him tallies with or is locally considered to be equivalent to the name of the caste then the name of the caste as it appears in the list should be recorded in this column and then the letters (S. C.) should be written after the name of the caste.

Similarly, if the person claims to be a member of the Scheduled Tribe, verify the name of the tribe from the list of Scheduled Tribes and then note down the name of the tribe in this column and write (S. T.) after the name of the tribe. The name of the caste or tribe which does not appear in the approved list or which is not considered locally as equivalent to one of the approved names of the castes or tribes, should not be entered in this column.

Do not write the names of Scheduled Castes in general terms as "Harijan", "Achhut". You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely "Harijan" tell him that this description will not earn the person any benefits under the Constitution permissible to Scheduled Castes and Scheduled Tribes. This may persuade him to give out the correct name.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either "H" or "S" in the answer to question 5 (*b*). Scheduled Tribes may belong to any religion.

9. *Definitions*—The terms appearing in column headings of the Census Tables are defined below :

(*a*) *Worker* —A worker is one who is engaged in economic activity of the following nine categories. "Work" includes not only actual work but also effective supervision and direction of work. The nine categories of economic activities mentioned above comprise persons who are engaged:

(I) as Cultivator, (II) as Agricultural Labourer (III) in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities, (IV) at Household Industry, (V) in Manufacturing other than Household Industry, (VI) in Construction, (VII) in Trade and Commerce, (VIII) in Transport Storage and Communications, (IX) in Other Services.

I. As Cultivator—A cultivator is a person who is engaged either as employer, single worker or family worker in (*a*) cultivation of land, or supervision or direction of cultivation of land owned by himself or by a member of his household or held from Government, (*b*) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

II. As Agricultural Labourer—An agricultural labourer is a person who works in another person's land in lieu of wages in cash, kind or share without exercising any right of supervision or direction in connected with cultivation.

III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities—The heading is self-explanatory.

IV. At Household Industry—A household industry is an industry conducted by the Head of the household himself and/or mainly by members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household. In the urban areas the industry should be confined to the house. It should relate to production, processing, servicing, repairing and making and selling of goods. It does not include professions, such as, pleader or doctor or barber or washerman or astrologer.

V. In Manufacturing other than Household Industry,
VI. In Construction,
VII. In Trade and Commerce,
VIII. In Transport, Storage and Communications and
IX. In Other Services

These categories of workers are not defined separately as they are self-explanatory.

(*b*) *Non-worker*—A person is said to be not working if he or she does not come under any of the categories of " Worker " mentioned above. A person who has been offered work but has not actually joined it is treated as a non-worker. The activities of non-workers have been classified into the following eight categories :

(*i*) A full-time student or child attending school who does no other work,

(*ii*) a person engaged in unpaid house duties (like housewife or other adult female) who does no other work nor help regularly even part-time in family cultivation, industry, trade or profession,

(*iii*) a dependent, including an infant or child not attending school or a person permanently disabled from work because of old age or illness,

(*iv*) a retired person, a rentier, a person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work,

(*v*) a beggar, a vagrant, or an independent woman without indication of source of income or a person of unspecified source of existence,

(*vi*) a convict in Jail or an inmate of mental or charitable institution,

(*vii*) a person who has not been employed before but is seeking employment for the first time, and

(*viii*) a person employed before but now out of employment and seeking employment.

10. *Census Tables*—The special tables prescribed for the Scheduled Castes and Scheduled Tribes are presented in this volume in two separate sections. Section I relates to the Scheduled Castes and Section II to Scheduled Tribes. There are altogether five Tables in Section I and seven Tables in Section II which are listed below :

Section I

SCT-I Part A	..	Industrial classification of persons at work and of non-workers by sex for Scheduled Castes
SCT-II Part A	..	Age and marital status for Scheduled Castes
SCT-III Part A(*i*)	..	Education in urban areas only for Schedule Castes
SCT-III Part B(*i*)	..	Education in rural areas only for Scheduled Castes

SCHEDULED CASTES

11. Article 341 of the Constitution of India is reproduced below :

Scheduled Castes

Article 341—(1) The President may, after consultation with the Governor or Rajpramukh of a State, by public notification, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of this Constitution be deemed to be Scheduled Castes in relation to that State.

(2) Parliament may by law include in or exclude from the list of Scheduled Castes specified in a notification issued under clause (1) any caste, race or tribe or part of or group within any caste, race or tribe, but save as aforesaid a notification issued under the said clause shall not be varied by any subsequent notification.

12. The Constitution (Scheduled Castes) Order, 1950 was promulgated in accordance with the above provisions and it is further modified by the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956 which has declared 93 castes as Scheduled throughout the State and only one additional caste, Kuli in Sambalpur district only. 13. *Scheduled Castes not reported in 1961 Census*—No population figures are returned for three castes, namely, Audhelia, Chachati and Godari which are Scheduled Castes according to the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956. It seems that these castes lost their entity sometime back by some process of social elimination and did not exist during the time of enumeration. It is not possible to say, if they existed in 1951, as there are no castewise tabulation in the Census of that year.

14. *Comparison with other States and India*—The Scheduled Castes in Orissa constitute 15·75 per cent of the total population of the State. The following table gives the population of Scheduled Castes, their percentage to total population and their percentage distribution among States in India and the Union Territories:—

India/States	Total population	Scheduled Caste population	Percentage of Scheduled Caste population to total population	Percentage distribution among the States and Union Territories
1	2	3	4	5

All Union Territories	7,941,110	902,529	11·37	1·40

Orissa stands sixth among all the States in India by size of the Scheduled Caste population which constitutes **15·75** per cent of the total population of the State and **4·29 per cent** of the Scheduled Caste population of India. Their growth during the decade 1951-61 is discussed separately.

15. *Sex ratio*—The sex ratio according to 1961 Census in the rural and urban areas is given below:

Scheduled Caste population	Total	Rural	Urban
	1,015	1,020	930

The above figures disclose that the sex ratio of Scheduled Caste females in the State as well as in the rural areas is higher than the equality level of 1,000. In the urban areas, it is, however, lower.

16. *Age composition*—The classification of the Scheduled Caste population by their broad age-groups, 0—14, 15—44 and 45+ is furnished in Table SCT-II Part A. The percentage of these three broad age-groups together with the corresponding percentage of total population is shown below:

Age-group	Scheduled Caste population	Total population
0—14	38·39	39·07
15—44	44·42	44·03
45+	17·19	16·90

'Age not stated' is included in the last age-group 45+. Abnormal variations are not observed in the percentage of any of the age-groups compared with the total population.

17. *Marital Status*—The distribution of population in each individual caste classified by three broad age-groups and further cross-tabulated by sex and four categories of marital status is presented in Table SCT-I Part A. The percentage of the Scheduled Caste population and that of the total population in the State by marital status for males and females of all ages is given below:

Marital Status	Scheduled Caste population		Total population	
	Males	Females	Males	Females
Total ..	100	100	100	100
Never married ..	48·37	40·52	50·76	41·15
Married ..	47·80	48·54	45·88	46·29
Widowed ..	3·31	10·39	2·86	12·04
Divorced or Separated ..	0·46	0·49	0·42	0·43
Unspecified Status	0·06	0·06	0·08	0·09

The percentage of never married persons in both sexes is lower than that of the total population with corresponding increase in the population of married persons in both sexes. The ratio of Scheduled Caste male 'widowed' is higher than that of the general population while the contrast is found in the female figures. The small difference in percentages of divorced or separated persons is ignorable.

18. *Literacy and Education*—The literacy and educational standards for each Scheduled Caste are shown in Tables SCT-III Parts A(*i*) and B(*i*) for urban and rural areas respectively. The following table gives the sexwise literacy percentages of the Scheduled Castes and the total population:—

Educational Level	Scheduled Castes			Total Population		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Total ..	100	100	100	100	100	100
Illiterate ..	88·43	80·18	96·56	78·34	65.32	91·35
Literate (without educational level) ..	10·48	17·86	3·21	18·36	28.99	7·73
Primary or Junior Basic ..	1·02	1·83	0·22	2·65	4·48	0·83
Matriculation and above ..	0·07	0·13	0·01	0·65	1·21	0·09

The percentage of illiterates among the Scheduled Castes is very high which reflects on their backwardness. The proportion of literate persons with different educational standards in both the sexes is far below that of the total population. The literacy rates for 20 numerically important Scheduled Castes are given below:

Name of Scheduled Caste	Literacy Percentage		
	P	M	F
1	2	3	4
1 Pan or Pano	12·02	20·71	3·48
2 Ganda	9·90	17·76	2·14

17 Bariki	19·31	31·67	6·49
18 Dewar	13·34	22·24	4·85
19 Sauntia(Santia)	10·97	20·00	1·73
20 Mehra or Mahar	12·40	21·84	3·12

19. Full-time students among the Scheduled Castes are tabulated in Table SC-I which shows their number as 159,527 comprised of 112,724 males and 46,803 females. They constitute 8·2 per cent of the males and 3·36 per cent of the females.

20. *Religion*—Members of the Scheduled Castes belong either to the Hindu or the Sikh religion only. None of the Scheduled Castes have returned themselves as Sikhs in this State. Therefore, all the Scheduled Castes belong to Hindu religion only. As the castewise population is already given in Table SCT-I Part A, there is no necessity of repeating it under the Table SCT-IV Part A which is omitted.

21. *Languages*—No special table showing the distribution of Scheduled Caste population by mother-tongues has been prescribed in the present Census.

22. *Economic Activity*—The classification of the Scheduled Caste population according to the nine industrial categories of workers and non-workers is shown in Table SCT-I Part A for rural and urban areas separately. The concepts of workers and non-workers and the nine broad categories of economic activity are already explained previously. The percentage of workers for total, rural and urban areas by the nine industrial categories and non-workers are given in the statement below together with the corresponding figures of total population:

Category of Workers	Percentage of Scheduled Castes			Percentage of Total population		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
I. As Cultivator ..	17·13	17·81	2·95	24·81	26·29	2·75
II. As Agricultural Labourer ..	11·94	12·41	2·01	7·43	7·87	0·87
III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities ..	1·21	1·17	2·09	0·75	0·73	1·11
IV. At Household Industry ..	4·87	4·90	4·12	3·02	3·05	2·72
V. In Manufacturing other than Household Industry ..	0·29	0·15	3·06	0·49	0·17	5·25
VI. In Construction ..	0·10	0·07	0·94	0·18	0·09	1·44
VII. In Trade and Commerce ..	0·74	0·62	3·36	0·84	0·61	4·2
VIII. In Transport, Storage and Communications ..	0·23	0·10	2·84	0·29	0·11	2·97
IX. In Other Services ..	10·03	9·42	22·86	5·85	5·15	16·16
X. Non-workers ..	53·46	53·35	55·77	56·34	55·93	62·48

The proportion of non-workers among the Scheduled Castes is below that of the total population. The high percentage of Scheduled Caste workers is conspicuous in industrial categories II, III, IV and IX.

23. *Cultivating Households*—Scheduled Caste households engaged in cultivation and their interest in the land together with the size of the holdings are shown in Table SCT-V Part A. The interest in the land is classified into three categories: (*i*) owned or held from Government, (*ii*) held from private persons or institutions for payment in money, kind or share and (*iii*) partly held from Government and partly from private persons for payment in money, kind or share. The percentage of the households in each of these three categories in the rural areas is given below:

Interest in land	Scheduled Caste households	All households
1	2	3
(*i*) Owned or held from Government	69·01	77·83
(*ii*) Held from private persons or institutions, etc.	9·95	4·89
(*iii*) Partly held from Government and partly from private persons, etc.	21·04	17·28
Total ..	100·00	100·00

Majority of the Scheduled Caste households engaged in cultivation hold land directly from Government. The percentage of the cultivating households by the size and class of land cultivated is given below:

Size of holding	Scheduled Caste households	All households
1	2	3
All sizes	100	100
1. Less than 1 acre	16·11	8·20
2. 1·0— 2·4 acres	39·19	30·79

9. 30·0—49·9	0·27	0·87
10. 50+	0·08	0·35
11. Unspecified	0·65	0·43

24. *Distribution of the Scheduled Castes among the districts*—The population of each Scheduled Caste in the district is given in Table SCT-I Part A separately for rural and urban areas. The distribution of the Scheduled Caste population among the districts is shown in statement below:

State and District	Total population	Scheduled Caste population	Percentage of Scheduled Castes to total population	Percentage distribution by districts
1	2	3	4	5
Orissa	17,548,846	2,763,858	15·75	100
Kalahandi	1,009,654	190,520	18·87	6·89

Cuttack	3,060,320	547,922	17·90	19·82
Mayurbhanj	1,204,043	104,273	8·66	3·77
Balasore	1,415,923	266,754	18·84	9·65

The four coastal districts of Ganjam, Puri, Cuttack and Balasore account for 50·20 per cent of the total Scheduled Caste population while the balance of 49·80 per cent are spread over the nine districts of inland region. Cuttack district has the highest proportion of 19·82 followed by Ganjam with 11·16. The percentage to total population of the district is largest in Baudh-Khondmals followed by Kalahandi and Balasore districts. Sundargarh district is noted for the small proportion as well as percentage of the Scheduled Castes.

25. The map on the opposite page illustrates the distribution of the proportion of Scheduled Castes to the total population of the State by way of percentage measured for any police station in the State during 1961 and grouped into seven ranges, namely, below 9 per cent, 9 to 12 per cent, 12 to 14 per cent, 14 to 16 per cent, 16 to18 per cent, 18 to 21 per cent and above 21 per cent. All the police stations are hatched by choropleth technique corresponding to their groups. Baudh-Khondmals contains the highest percentage (19·32) of Scheduled Castes in the State. Among the police stations, Khajuripada (33·1 per cent) in Baudh-Khondmals and Shergada (32·2 per cent) in Balasroe districts have the highest percentage, while the police stations of Motu (0·78 per cent) in Koraput and R. Udayagiri (3·36 per cent) and Serango (3·58 per cent) in Ganjam districts have the lowest percentage of Scheduled Castes in the State. The proportion of Scheduled Castes seems to be poor in the districts of Mayurbhanj, Keonjhar, Sundargarh and Koraput.

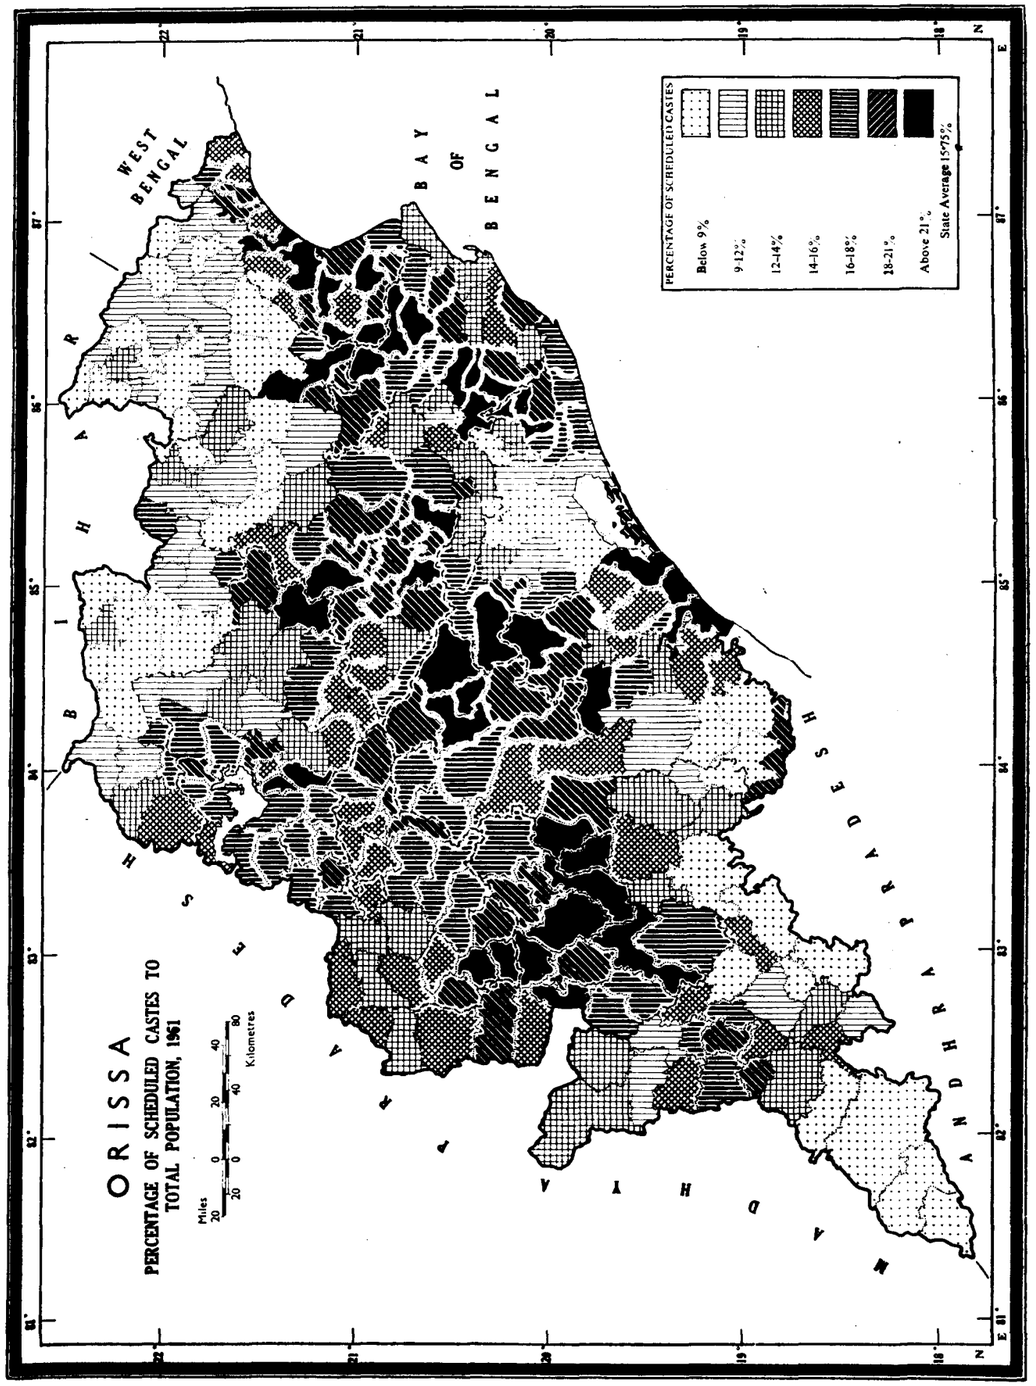
SCHEDULED TRIBES

26. Article 342 of the Constitution of India is reproduced below :

Scheduled Tribes

Article 342—(1) The President may, after consultation with the Governor or Rajpramukh of a State by public notification, specify the tribes or tribal communities or parts of or groups within tribes or tribal communities which shall, for the purposes of this Constitution, be deemed to be Scheduled Tribes in relation to that State.

(2) Parliament may, by law, include in or exclude from the list of Scheduled Tribes specified in a notification issued under clause (1) any tribe or tribal community or part of or group within any tribe or tribal community, but save as aforesaid a notification issued under the said clause shall not be varied by any subsequent notification.



27. The Constitution (Scheduled Tribes) Order, 1950 was promulgated in accordance with the above provisions. It was modified by the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956, according to which 62 communities were declared as Scheduled Tribes throughout the State. 28. *Scheduled Tribes not reported in 1961 Census*—No population figures were returned for two tribes, namely, Ghara and Kandha Gauda. Either they ceased to exist by the time of Census enumeration, or they identified themselves with some other branch of a principal tribe.

29. *Comparison with other States and India*—The Scheduled Tribes in Orissa constitute 24·07 per cent of the total population of the State. The following table gives the population of Scheduled Tribes, their percentage to total population and their distribution of 100 persons in India, Orissa, other States and Union Territories :—

Orissa stands first among all the States in India by size of the Scheduled Tribe population which constitutes 24·07 per cent of the total population of the State and 14·02 per cent of the tribal population of India. Their growth during the decade 1951-61 is discussed separately.

30. *Sex ratio*—The sex ratio according to 1961 Census in the rural and urban areas is given below :

Scheduled Tribe population	Total	Rural	Urban
	1,016	1,018	946

The figures divulge that the sex ratio of Scheduled Tribe females in the State as well as the rural areas are in excess of the general population. The urban sex ratio has the common characteristic of smaller number of females, but the relative figures indicate the larger population of Scheduled Tribe females.

31. *Age composition*—The classification of the Scheduled Tribe population by three broad age-groups, 0—14, 15—44 and 45+, is given in Table SCT-II Part B. The percentage of these three broad age-groups together with the corresponding percentages of total population is supplied below :

Age-group	Scheduled Tribe population	Total population
0—14	39·15	39·07
15—44	45·65	44·03
45+	15·20	16·90

'Age not stated' is included in the last age-group 45+. Conspicuous differences are not noticed in the percentage of any of the age-groups compared with the total population.

32. *Marital Status*—The distribution of population in each individual tribe classified by three broad age-groups and further cross-tabulated by sex and four categories of marital status is furnished in Table SCT-II Part B. The percentage of the Scheduled Tribe population together with that of the total population in the

State by marital status for males and females of all ages is given below:

Marital Status	Scheduled Tribe population		Total population	
	Males	Females	Males	Females
Total ..	100	100	100	100
Never married ..	49·38	42·83	50·76	41·15
Married ..	47·27	47·16	45·88	46·29
Widowed ..	2·82	9·41	2·86	12·04
Divorced or Separated ..	0·49	0·55	0·42	0·43
Unspecified Status	0·04	0·05	0·08	0·09

The above figures do not set forth substantial variations in the percentage of Scheduled Tribes and total population. The slight increase in the percentage of unmarried females, married persons of both sexes and divorced or separated persons of both sexes of Scheduled Tribes is comparatively negligible. The percentage of widowed persons in both sexes of Scheduled Tribes is less than that of the total population.

33. *Literacy and Education*—The literacy and educational standards of each Scheduled Tribe are given in Tables SCT-III Parts A (*ii*) and B (*ii*) for urban and rural areas separately. The following table shows the sexwise literacy percentages of the Scheduled Tribes and the total population:—

Educational level	Scheduled Tribes			Total Population		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Total ..	100	100	100	100	100	100

Matriculation and above ..	0·04	0·08	N	0·65	1·21	0·09

The illiteracy among the Scheduled Tribes is evident from the huge percentage which speaks of their primitive conditions. The proportion of literate persons with different educational levels is far below that of the total population. The literacy rates for 25 numerically important Scheduled Tribes are given below :

Name of Scheduled Tribe	Literacy percentage

34. Full-time students among the Scheduled Tribes are found in Table ST-II which gives their number as 174,228 comprised of 129,661 males and 44,567 females They constitute 6·19 per cent of males and 2·09 per cent of females.

35. *Religion*—Scheduled Tribes mostly belong to Hindu religion while a small number have been converted to Christianity. The respective percentages are given below :

Religion	Scheduled Tribes			Total Population		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Hindu ..	97·50	48·35	49·15	97·57	48·77	48·80
Christian ..	2·46	1·22	1·24	1·15	0·57	0·58
Sarana ..	0·04	0·02	0·02	N	N	N

No Scheduled Tribes are returned in other religions, namely, Buddhists, Jains, Muslims and Sikhs. The percentage of Hindus of Scheduled Tribes is almost equal to that of the total population while the proportion of Christians is comparatively higher than that of the total population. Religious faith 'Sarana' is returned in Mayurbhanj district only.

36. *Languages*—Special Table ST-I shows the languages and dialects spoken by each Scheduled Tribe as their mother-tongue. The following statement shows the mother-tongues in the order of their numerical importance. Languages with speakers below 0·1 per cent are omitted.

Mother-tongue	Number of speakers			Percentage of total speakers

It is obvious that 48·93 per cent of the total speakers have Oriya as their mother-tongue which signifies their preference for the local language or the language of the majority. Among the tribal languages Kui commands the highest percentage of 11·00 and Pengu 8·48 per cent. Other dialects have speakers below 5 per cent.

37. *Economic activity*—The classification of population belonging to Scheduled Tribes according to the nine industrial categories of workers and non-workers is shown in Table SCT-I Part B for rural and urban areas separately. The concepts of workers and non-workers and the nine broad categories of economic activity are already explained previously. The percentage of workers for total, rural and urban areas by the nine industrial categories and non-workers are given in the statement below together with the corresponding figures of total population:

Category of workers	Percentage of Scheduled Tribes			Percentage of Total Population		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
I. As Cultivator ..	33·26	33·86	4·89	24·81	26·29	2·75

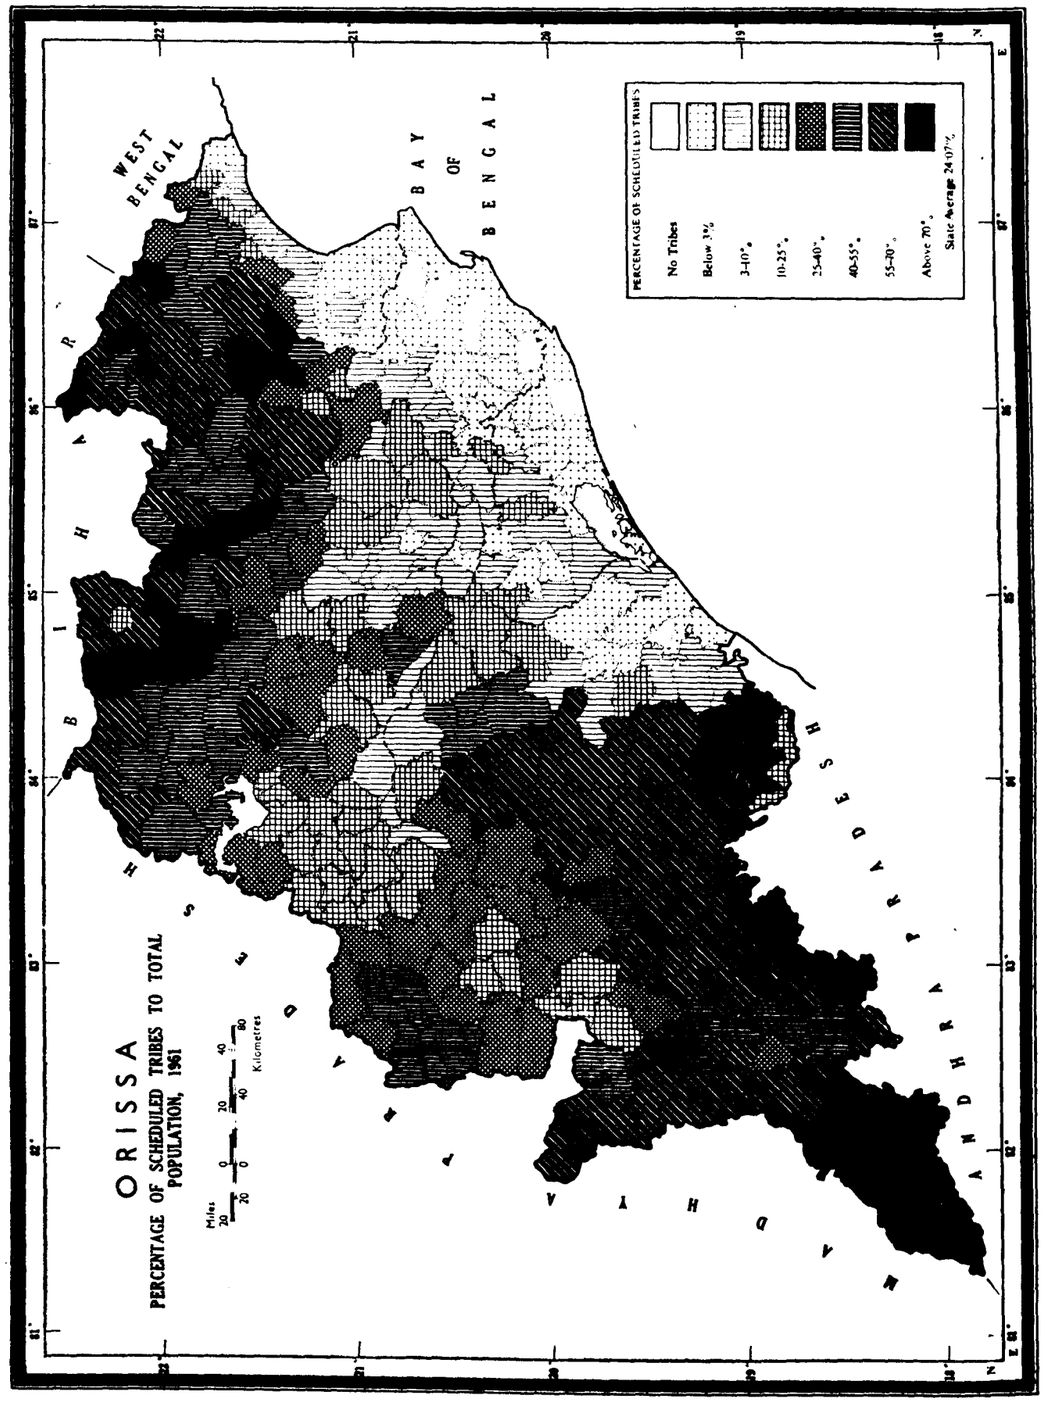
X. Non-workers ..	46·19	46·06	52·01	56·34	55·93	62·48

38. The smaller percentage of non-workers among the Scheduled Tribes indicates their economic consciousness. Their proportion in categories I, II and III is consciously higher than that of the general population. Categories V, VI, VII, VIII, and IX have larger percentage of Scheduled Tribes workers compared to that of general population in the urban areas.



39. *Cultivating Households*—The number of Scheduled Tribe households engaged in cultivation and their interest in the land together with the size of the holdings are shown in Table SCT-V Part B. The interest in the land is classified into three categories : (*i*) owned or held from Government, (*ii*) held from private persons or institutions for payment in money, kind or share and (*iii*) partly held from Government and partly from private persons for payment in money, kind or share. The percentage of the households in each of these categories in the rural areas is given below :

Interest in land	Scheduled Tribe households	All households
1	2	3
(*i*) Owned or held from Government	85·26	77·83
(*ii*) Held from private persons or institutions, etc. ..	5·29	4·89
(*iii*) Partly held from Government and partly from private persons, etc. ..	9·45	17·28
Total ..	100·00	100·00

Majority of the Scheduled Tribe households engaged in cultivation hold land directly from Government. The percentage of the cultivating households by the size, class of land cultivated is shown below :

Size of holding	Scheduled Tribe households	All households
1	2	3

40. *Distribution of the Scheduled Tribes among the districts*—The population of each Scheduled Tribe in the district is given in Table SCT-I Part B separately for rural and urban areas.

The distribution of the Scheduled Tribe population among the districts is shown in the statement below :

State and District	Total population	Scheduled Tribe population	Percentage of Scheduled Tribes to total population	Percentage distribution by districts
1	2	3	4	5
Orissa	**17,548,846**	**4,223,757**	**24·07**	**100**

Dhenkanal	1,028,935	143,484	13·94	3·40
Puri	1,865,439	67,474	3·62	1·60
Keonjhar	743,315	350,389	47·14	8·30

Balasore	1,415,923	96,007	6·78	2·27

The above statement discloses the concentration of tribal population in the districts of Koraput, Mayurbhanj, Sundargarh, Keonjhar and Baudh-Khondmals in the descending order of the percentages recorded in column 4. They are practically negligible in Puri, Cuttack and Balasore districts.

41. The map on the opposite page shows the proportions of Scheduled Tribes in the total population during 1961 in the police stations of the State. The proportion is given in percentage and grouped into seven ranges, above and below the State average (24·07 per cent), namely, below 3, 3—10, 10—25, 25—40 40—55, 55—70 and above 70 per cent. Moreover six police stations left unshaded indicate that there is no tribal population there. The rest of the police stations are hatched by choropleth method.

42. Koraput district has the highest percentage of 60·89 of the tribal population. The police stations of Motu (88·91 per cent) and Puttasingi (85·96 per cent) in Koraput, Ramagiri (83 per cent) in Ganjam and Sarat (82·44 per cent) in Mayurbhanj have the highest percentage of the tribes. On the other hand, the police stations of Gobindpur (0·01 per cent), Mahanga (0·02 per cent) and Kendrapara (0·07 per cent) in Cuttack, Nimapara (0·01 per cent) and Balianta (0·03 per cent) in Puri have the lowest percentage of Scheduled Tribes. But the police stations of Balikuda, Patamundai, Patkura and Aul in Cuttack district, Gop in Puri district and Hinjili in Ganjam district do not have any tribal population or have just a negligible number.

43. A glance at the map will indicate that the coastal tracts have insignificant population of Scheduled Tribes compared to the mountainous and forested districts in the interior. The north-eastern and south-eastern parts of the State appear to be the real homeland of the tribes.

GROWTH OF THE POPULATION OF SCHEDULED TRIBES AND SCHEDULED CASTES DURING THE DECADE 1951-61

44. The most notable feature in the growth of population of the Scheduled Tribes and Scheduled Castes presents a contrast. While the Scheduled Tribes grew enormously the Scheduled Castes achieved a nominal gain during the decade 1951-61. It is desirable to measure the different dimensions of growth in respect of each one of them and to find out the specific factors responsible for variable trends, if any. The following table is relevant :—

Scheduled Tribes or Castes	1951 Census		1961 Census	
	Number of Tribes or Castes	Population of Tribes or Castes	Number of Tribes or Castes	Population of Tribes or Castes
Scheduled Tribes	42	2,967,334	62	4,223,757
Scheduled Castes	92	2,630,763	93	2,763,858

45. The decision as to how many and which of the tribes or castes should be included in the list of Scheduled Tribes and Scheduled Castes rests with the President of India who in turn is dependent on the advice of the State Government in the matter. The Census Organization does not come into the picture either in formulating the policy or drawing up the list. When the operations with regard to the Census enumeration begin, the Census authorities request the State Government for handing over the approved list and the enumeration is done thereafter according to this list.

46. It will appear from the statement above that the policy of the State Government with regard to the specification of Scheduled Tribes has not remained constant. There were 42 tribes scheduled by official order at the time when the Census of 1951 was taken up. The list was elaborately altered, revised and enlarged in the year 1956. As a result, when the Census operations began in 1961, it became necessary to—

(*i*) remove one Scheduled Tribe, namely, Gorait from the approved list of 1951 and take it over to the list of Scheduled Castes ;

(*ii*) add as many as 21 new tribes to the list of 1951 ;

(*iii*) remove three castes from the list of Scheduled Castes and take it over to the list of Scheduled Tribes.

47. All these changes amount to no small interference in the communal status of the people concerned. They influenced so seriously the recorded population figures, that it became difficult to study the trend of natural growth of the tribes and castes concerned. If at all an effort is made to measure the dimension of growth of these two sections of the population, it can be done only within a limited scope. A brief review is given below accordingly.

48. *Scheduled Tribes*—There were 42 Scheduled Tribes with a population of 2,967,334 in 1951. The removal of one tribe, namely, Gorait to the list of Scheduled Castes is not significant in any way, because the population of this section of community is negligible, namely, 14. On the other hand, the addition of 21 new tribes raised the population of the Scheduled Tribes by a considerable margin. The names of these tribes and their population as recorded in 1961 is given below :

49. The absolute growth of population of Scheduled Tribes between 1951 and 1961 is 1,256,423 which is obtained by deducting the 1951 population from the 1961 population. If the new tribes numbering 21 as mentioned above with a total population of 670,339 had not been added to the list of Scheduled Tribes, the actual growth of Scheduled Tribes over the population of 1951 would have been limited to 586,084, which amounts to 19·75 per cent only. The general population increase in Orissa between 1951 and 1961 is 19·82 per cent. Thus the natural growth of the Scheduled Tribes in 10 years to an extent of 19·75 per cent is somewhat below the general population increase. But the actual recorded figures disclose an increase of 42·3 per cent during the decade. The inflation is unnatural and is solely due to the enlargement of the list of tribes from 42 in 1951 to 62 in 1961.

50. *Scheduled Castes*—The Scheduled Castes numbering 92 with a population of 2,630,763 in 1951 grew to 93 with a population of 2,763,858 in 1961.

51. The list of Scheduled Castes was subjected to extensive alteration by deletion of many old names and addition of many fresh names. As many as 7 castes of 1951 census were omitted in 1961. It is not possible to give the population of these castes because castewise tabulation was not done in 1951. The names of these castes are however given below :

1. Bhumij
2. Desua Bhumij
3. Dharua
4. Ganju or Gunju
5. Kumbhar
6. Pradhan
7. Sukuli

52. The revision of the list of Scheduled Castes was not confined to the deletion of seven castes as mentioned above. Two more castes, namely, Mochi (or Muchi) and Satnami were merged with another caste, namely, Chamar. The revision also brought about the addition of ten other castes for the entire State, besides one more caste, namely, Kuli for Sambalpur district alone. The names of the newly added castes together with their population in 1961 are given below :

Name		Population
1. Bhoi	..	36,302
2. Chakali	..	639
3. Chandhai Maru	..	224
4. Kummari	..	743
5. Musahar	..	80
6. Namasudra	..	7,900
7. Sauntia (Santia)	..	15,703
8. Tanla	..	32,245
9. Ujia	..	6,424
10. Gorait or Korait	..	14
11. Kuli (for Sambalpur district only)	..	3,911
Total	..	104,185

53. Due to extensive changes in the list between the two Censuses, it is not possible to give full reasons why the population of Scheduled Castes has not increased adequately. But a few facts are known for certain which may partially explain the position. The Scheduled Castes, instead of growing at the rate of the general population growth, namely, 19·82 per cent, grew only at a lower rate of 5·1 per cent during the decade 1951-61. The reasons for this poor growth may be explained by the following factors:

(*i*) Three Scheduled Castes of 1951, namely, Bhumij (116,181), Desua Bhumij (248) and Dharua (7,210) with a total population of 123,639 were transferred to the list of Scheduled Tribes on account of the change in the official list. This accounts for a considerable loss to the population of Scheduled Castes.

(*ii*) The growth of Christian population during 1951-61 was remarkable as it grew by 41·68 per cent during ten years as against the general population increase of 19·82 per cent. The excessive growth, it is surmised, resulted from conversion of non-Christians to Christianity. The Scheduled Castes appear to have played a prominent role in this activity. Although it can not be definitely ascertained how many members of the Scheduled Castes actually embraced Christianity during the period, it seems probable that the number is not small. The incidence of Scheduled Caste is recognized only within the fold of Hinduism or Sikhism, and in no other religion. So as soon as a member of any such caste embraces Christianity he ceases to be considered as a Scheduled Caste man. All the large number of men and women of Scheduled Castes who changed their faith and became Christians during the decade 1951-61, were not counted among the Scheduled Castes. This is a significant reason why the population of the Scheduled Castes has not grown adequately.

(*iii*) As a result of growth of education, removal of untouchability, increase in the standard of living and general awareness of their civic and personal rights, many members of the Scheduled Castes hesitated to declare themselves as so. There was a marked tendency among them to describe their caste in such an ambiguous manner as to be taken into the fold of general Hindus. Thus, in fact, some of the Scheduled Caste men have been enumerated among the general Hindus, resulting in lower growth of population for the Scheduled Castes.

(*iv*) Many members of the Scheduled Castes (as well as of the Scheduled Tribes) were bewildered by vacillation of official policy in revising the list of Castes and Tribes from time to time. Some people who were enumerated as Scheduled Castes in 1951 found that they had become Scheduled Tribes according to the 1961 official list. On the other hand, some members of the Scheduled Tribes became Scheduled Castes without any fault on their part. Similarly, some became general Hindus according to the list. The people affected by such changes lost faith in the official list and started describing the name of their community indiscriminately. This might have affected the enumeration of castes and tribes.

54. The anomalies in the classification and enlistment of Scheduled Castes and Scheduled Tribes should be removed by well-considered action on the part of the Government. As the social, ethnic and communal characteristics continue to remain the same in an individual, he should be a member of either a Scheduled Caste or a Scheduled Tribe or of general population once for all. He cannot belong to Scheduled Caste according to one official list and to Scheduled Tribe according to another list.

SCHEDULED CASTES

TABLE SCT-I PART A

INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND OF NON-WORKERS BY SEX FOR SCHEDULED CASTES

BRIEF NOTE

This Table which presents the Scheduled Caste population by sex and economic activity gives the population of each caste for the first time in the State and the districts according to 1961 Census. These figures are often required for drawing up various welfare schemes. No comparable data are available for the previous Censuses. There are 91 castes in the State but all of them are not found in every district. The number of castes in each district is indicated below :

	No. of Scheduled Castes		No. of Scheduled Castes
Orissa	.. 91	Sundargarh	.. 53
Kalahandi	.. 43	Dhenkanal	.. 51
Koraput	.. 73	Puri	.. 53
Sambalpur	.. 74	Keonjhar	.. 34
Bolangir	.. 50	Cuttack	.. 67
Baudh-Khondmals	.. 45	Mayurbhanj	.. 65
Ganjam	.. 51	Balasore	.. 53

The highest number of castes are returned from Sambalpur and Koraput districts and the lowest number from Keonjhar.

2. The classification of the Scheduled Caste population into the nine industrial categories of workers and non-workers has been attempted for the first time. The definitions of workers and non-workers are already given in the introduction. This Table supplements the Table C-VIII Part A published in volume XII, Orissa, Part II-C by giving the castewise break-up of the data.

3. *Unclassifiable*—Among persons returned as Scheduled Caste, there are some whose caste could not be identified by the surname due o wrong recording or omission. Such members of the caste have been treated as 'Unclassifiable' and are shown at the bottom of the list of all the castes. They constitute 0·49 per cent of the Scheduled Caste population.

4. *Unwholesome Occupation*—The Table supplies sexwise information regarding the number of persons of each Scheduled Caste engaged in unwholesome occupations like (*i*) Tanning and Currying of hides and skins and (*ii*) Scavenging, which are shown in columns 27 to 30. Altogether 7,686 persons (4,603 males and 3,083 females) are engaged in the first category and 7,485 persons (3, 442 males and 4,043 females) in the second category. Majority of the workers belong to Chamar, Ghasi, Haddi, Kandra and Pan castes.

5. *Rural and Urban*—The material is presented for the Rural and Urban areas separately.

TABLE SCT-II PART A

AGE AND MARITAL STATUS FOR SCHEDULED CASTES

BRIEF NOTE

This Table which corresponds to Table C-II supplies information regarding the marital status of the population in each Scheduled Caste in the broad age-groups of 0—14, 15—44, 45+ and 'age not stated'. The material is given for the State and thirteen districts without the rural and urban break-up of the figures.

2. The five categories of marital status appearing in the Table are the same as in Table C-II, namely, (*i*) Never Married, (*ii*) Married, (*iii*) Widowed, (*iv*) Divorced/Separated and (*v*) Unspecified Status. The figures are compiled from the answers recorded against question No.3 of the Individual Slip.

3. All persons in the age-group 0—9 have been treated as 'Never married' irrespective of the answers recorded in Individual Slip in compiling the Table C-II. In the case of Scheduled Castes no such presumption is applied and the classification of persons in age-group 0—14 was made according to the answers recorded against question No.3 of the Individual Slip. Therefore the figures of marital status for the age-group 0—14 appearing in both these Tables may not be compatible.

4. The instructions issued for recording the answer against question No.3 explaining the terms of marital status are reproduced below:

For Never married	write	NM
Married	write	M
Widowed	write	W
Divorced or Separated	write	S

For a person who has never been married write 'NM'. For a person married, whether for the first or another time, write 'M'. Write 'M' also for persons who are recognized by custom or society as married and for persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M', if the person concerned says, he or she is married or is in stable *de facto* union. For a widowed, 'person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute, return her marital status as declared by her.

TABLE SCT-III PART A (i)

EDUCATION IN URBAN AREAS ONLY FOR SCHEDULED CASTES

AND

TABLE SCT-III PART B (i)

EDUCATION IN RURAL AREAS ONLY FOR SCHEDULED CASTES

BRIEF NOTE

The educational levels of the Scheduled Castes is presented in this Table in two parts—Part A(*i*) for Urban areas and Part B(*i*) for Rural areas. The sexwise information is supplied for all the Scheduled Castes as well as each Scheduled Caste in the State and districts. Elaborate classification has been undertaken for the Urban areas. The educational levels correspond to those followed in Table B-III Part A while in the case of rural areas four broad groups of educational levels as given in Table B-III Part B are followed. These educational levels are mentioned below :

Urban Areas	*Rural Areas*
Illiterate	Illiterate
Literate (without educational level)	Literate (without educational level)
Primary or Junior Basic	Primary or Junior Basic
Matriculation or Higher Secondary	Matriculation and above
Technical diploma not equal to degree	
Non-technical diploma not equal to degree	
University degree or Post-graduate degree other than technical degree	
Technical degree or diploma equal to degree or Post-graduate degree	

2. The answers recorded against question No. 6 of the Individual Slip supplied the data for these tables. The instructions regarding the test of literacy read as follows :

"The test for reading is ability to read any simple letter either in print or in manuscript, i. e., if the person can read one of the examples in Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can, with understanding, both read and write. If the person can both read and write and has also passed a written examination as proof of an educational standard attained, write the highest examination passed."

TABLE SCT-V PART A

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AREAS ONLY FOR MEMBERS OF SCHEDULED CASTES

BRIEF NOTE

This Table, which corresponds to Household Economic Table B-XI published in Volume XII, Part III, Orissa, gives useful information regarding the size of holding and the interest in land cultivated by Scheduled Caste households. This material which is not available in any of the previous censuses is prepared on the basis of 20 per cent sample households. Each Census Charge, which is in most cases equivalent to a Police Station or a Town area, is taken as a unit and all the household schedules of the villages comprising the Charge are arranged in the serial order of the villages. Random sample was selected by taking every fifth household, which works out to 20 per cent of the total households. After separating all the samples, they were forwarded to the Mechanical Tabulation Unit, New Delhi for tabulation of the Household Economic Tables. This Table is prepared from the sampled household schedules concerning the Scheduled Castes only.

2. The interest in land is classified into three categories mentioned below:

(*i*) Owned or held from Government

(*ii*) Held from private persons or institutions for payment in money, kind or share

(*iii*) Partly held from Government and partly from private persons for payment in money, kind or share

3. Each of the above interests in land is cross-tabulated by the size of land cultivated by each household and they are grouped under ten size classes of land: less than 1 acre, 1·0-2·4 acres, 2·5-4·9 acres, 5·0-7·4 acres, 7·5-9·9 acres, 10·0-12·4 acres, 12·5-14·9 acres, 15·0-29·9 acres, 30·0-49·9 acres and 50+ acres. In the case of cultivating households where the acreage is not specified, they are treated as *unspecified*.

SECTION II

SCHEDULED TRIBES

TABLE SCT-I PART B

INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND OF NON-WORKERS BY SEX FOR SCHEDULED TRIBES

BRIEF NOTE

This Table which presents the Scheduled Tribes population by sex and economic activity gives the population of each Tribe for the first time in the State and the districts according to 1961 Census. These figures are often required for drawing up various welfare schemes. No comparable data is available in respect of earlier censuses. There are 60 Tribes in the State, but all of them are not found in every district. The number of Tribes in each district is indicated below :

	No. of Scheduled Tribes		No. of Scheduled Tribes
Orissa ..	60	Sundargarh ..	40
Kalahandi ..	32	Dhenkanal ..	26
Koraput ..	51	Puri ..	29
Sambalpur ..	44	Keonjhar ..	37
Bolangir ..	31	Cuttack ..	30
Baudh-Khondmals ..	27	Mayurbhanj ..	45
Ganjam ..	24	Balasore ..	31

The largest number of Tribes are returned from Koraput district and the lowest number from Ganjam.

2. The classification of the Scheduled Tribe population into nine industrial categories of workers and non-workers has been attempted for the first time. The definitions of workers and non-workers are already given in the introduction. This Table supplements the Table C-VIII Part B published in Volume XII Orissa Part II-C by giving the tribewise break-up of the data.

3. *Unclassifiable*—There are some persons returned as Scheduled Tribes whose surname could not definitely identify the name of the particular tribe due to some wrong recording or omission. These persons have been treated as 'Unclassifiable' and are shown at the bottom of all the tribes. They constitute 0·26 per cent of the Scheduled Tribe population.

4. *Rural and Urban*—The material is presented for the Rural and Urban areas separately.

TABLE SCT-II PART B

AGE AND MARITAL STATUS FOR SCHEDULED TRIBES

BRIEF NOTE

This Table which corresponds to Table C-II supplies information regarding the marital status of the population in each Scheduled Tribe in the broad age groups of 0—14, 15—44, 45+ and 'age not stated'. The material is given for the State and thirteen districts without the rural and urban break-up of the figures.

2. The five categories of marital status appearing in the Table are the same as in Table C-II, namely, (*i*) Never Married, (*ii*) Married, (*iii*) Widowed, (*iv*) Divorced/Separated and (*v*) Unspecified Status. The figures are compiled from the answers recorded against question No. 3 of the Individual Slip.

3. All persons in the age group 0—9 have been treated as 'Never Married' irrespective of the answers recorded in Individual Slips in compiling the Table C-II. In the case of Scheduled Tribes no such presumption is applied and the classification of persons in age group 0—14 was made according to the answers recorded against question No. 3 of the Individual Slip. Therefore the figures of marital status for the age group 9—14 appearing in both these Tables may not be compatible.

4. The instructions issued for recording the answer against question No. 3 explaining the terms of marital status are reproduced below:

For Never married	..	write	NM
Married	..	write	M
Widowed	..	write	W
Separated or Divorced	..	write	S

For a person who has never been married write 'NM'. For a person married, whether for the first or another time, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute, return her marital status as declared by her.

TABLE SCT-III PART A (ii)

EDUCATION IN URBAN AREAS ONLY FOR SCHEDULED TRIBES

AND

TABLE SCT-III PART B (ii)

EDUCATION IN RURAL AREAS ONLY FOR SCHEDULED TRIBES

BRIEF NOTE

The educational levels of the Scheduled Tribes are presented in this Table in two parts—Part A (*ii*) for urban areas and Part B (*ii*) for rural areas. The sexwise information is supplied for all the Scheduled Tribes as well as each Scheduled Tribe in the State and districts. Elaborate classification has been undertaken for the urban areas and the educational levels correspond to those followed in Table B-III Part A while in the case of rural areas four broad groups of educational levels as given in Table B-III Part B are followed. These educational levels are mentioned below :

Urban areas	Rural areas
Illiterate	Illiterate
Literate (without educational level)	Literate (without educational level)
Primary or Junior Basic	Primary or Junior Basic
Matriculation or Higher Secondary	Matriculation and above
Technical diploma not equal to degree	
Non-technical diploma not equal to degree	
University degree or Post-graduate degree other than technical degree	
Technical degree or diploma equal to degree or Post-graduate degree	

2. The answers recorded against question No. 6 of the Individual Slip supply the data for these tables. The instruction regarding the test of literacy reads as follows :

"The test for reading is ability to read any simple letter either in print or in manuscript, i. e., if the person can read one of the examples in Enumerator's Hand book with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can, with understanding, both read and write. If the person can both read and write and has also passed a written examination as proof of an educational standard attained, write the highest examination passed."

TABLE SCT-IV PART B

RELIGION FOR SCHEDULED TRIBES

BRIEF NOTE

This table shows the religious faiths followed by the Scheduled Tribe population. The information is supplied for all the Scheduled Tribes as well as the individual Scheduled Tribes in the State and the districts for the Rural and Urban areas separately.

2. Unlike the Scheduled Castes, the Scheduled Tribes may belong to any religion. The classification of each tribe by religion is based on the answers recorded against question 5 (*b*) 'Religion' in the individual slip.

3. The religions returned in this State are mainly Christian and Hindu while a negligible percentage have returned their religious faith as Sarna (a primitive tribal religion). The percentage of the total Scheduled Tribes population in each of the religions is given below:

	Christians	Hindus	Sarnas
Total	2·46	97·50	0·04
Rural	2·34	97·63	0·03
Urban	8·26	91·60	0·14

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AREAS ONLY FOR MEMBERS OF SCHEDULED TRIBES

BRIEF NOTE

This Table, which corresponds to Household Economic Table B-XI published in Volume XII Part III, Orissa, gives useful information regarding the size of holding and the interest in lands cultivated by Scheduled Tribe households. This material which is not available in any of the previous censuses is prepared on the basis of 20 per cent sample households. Each Census Charge (which in most cases is equivalent to a Police Station or a town area) is taken as a unit and all the household schedules of the villages comprising the charge are arranged in the serial order of the villages. Random sample was selected by taking every fifth household which works out to 20 per cent of the total households. After separating all the samples, they were forwarded to the Mechanical Tabulation Unit, New Delhi for tabulation of the Household Economic Tables. This Table is prepared from the sampled household schedules concerning the Scheduled Tribes only.

2. The interest in land is classified into three categories mentioned below :

(*i*) Owned or held from Government

(*ii*) Held from private persons or institutions for payment in money, kind or share

(*iii*) Partly held from Government and partly from private persons for payment in money, kind or share

3. Each of the above interest in land is cross-tabulated by the size of land cultivated by each household and they are grouped under ten size classes of land : less than 1 acre, 1·0—2·4 acres, 2·5—4·9 acres, 5·0—7·4 acres, 7·5—9·9 acres, 10·0—12·4 acres, 12·5—14·9 acres 15·0—29·9 acres, 30·0—49·9 acres and 50+ acres. In the case of cultivating households where the acreage is not specified, they are treated as *unspecified*.

TABLE ST-I

MOTHER-TONGUE AND BILINGUALISM FOR SCHEDULED TRIBES

BRIEF NOTE

This Table is one of the Special Tables for the Scheduled Tribes only as no such Table is prescribed for Scheduled Castes. It presents the mother-tongues and bilingualism of all the Scheduled Tribes as well as the individual tribes in the State and the districts. The sexwise speakers of each mother-tongue are given in columns 2 and 3 and the number returned as speaking a subsidiary language other than the mother-tongue in columns 4 and 5. The subsidiary languages are shown in run-on lines in column 6. Each subsidiary language is followed by the number of male and female speakers within brackets.

2. The data are collected from the answers recorded against questions 7 (a) "Mother-tongue" and 7 (b) "Other languages" in the Individual Slip. The general instructions for filling up the answers to these questions are reproduced below :

Q. 7(*a*)*Mother-tongue*:—Write the mother-tongue in full including dialect as returned by the person enumerated. Mother-tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

If the mother-tongue is a non-Indian language, the correct name of the language (such as English, German, Burmese, etc.) as given by the person should be recorded. If the mother-tongue is an Indian language, attempt should be made to record the name under one of the 14 languages laid dowh in the Constitution of India, a list of which is given below. If the person's mother-tongue is Oriya, the word 'Oriya' should be recorded, as it is one of the 14 recognized languages. If the mother-tongue is given as "Lariha", it will be seen that this is not a recognized language, but on enquiry it will appear that Lariha is a dialect of Oriya. So the name of the language should both be recorded such as "Lariha (Oriya)". If he gives out a tribal language, such as Kui, the words "Kui (Tribal)"should be recorded. If he says that his mother-tongue is Marwari, you should see in the list that Marwari is not a principal language. So you should ask him, or otherwise ascertain under which principal language the Marwari language should be classified. If you are satisfied that the Marwari language spoken by him is a branch of Hindi, you should write "Marwari (Hindi)". Otherwise simply write "Marwari". Do not write any language as Hindustani which is vague, and which is not included in the recognized list. The list contains such names as Hindi, Urdu, etc., and you should write Hindi or Urdu as the case may be.

List of Indian Languages (Under Constitution of India—English Schedule)

1 Assamese	8 Marathi
2 Bengali	9 Oriya
3 Gujarati	10 Punjabi
4 Hindi	11 Sanskrit
5 Kanada	12 Tamil
6 Kashmiri	13 Telugu
7 Malayalam	14 Urdu

Q. 7 (*b*)*Any other language* (*s*) : —After recording the mother-tongue, enquire whether the person knows any other language (s), Indian or foreign, and write the language (s) returned by him against this question. In case he does not know any other language put 'X'.

The number of languages recorded against this question should not be more than two. These languages should be other than his mother-tongue which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

3. This Table may be useful for the linguistic study of the Tribal population. It also helps to find out how many of the tribes have forgotten their original language and have taken resort to local language or the language of the majority.

4. Secondary languages having speakers less than 0·1 per cent of the population are omitted.
