or in more than one. Thus a person can be working both as a Cultivator and a Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an under-trial prisoner enumerated in a Jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, house-hold industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as *worker*. A person who has been offered work but has not actually joined should be treated as *non-worker*. *Work includes not only actual work but effective supervision and direction of work.*

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cow-dung cakes or grass, etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

After you have filled up the answers to questions 8 to 11, if you find that in the case of any person more than one productive

activity has been recorded *i.e.*, more than one of the questions 8, 9, 10 or 11 has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the questions 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11 *i.e.*, more than two of the questions 8 to 11 would have been filled up by some work. In such cases you should first ascertain the principal work *i.e.*, the one which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work, *i.e.*, the work after his principal work which occupies most time. You should put a tick against the question number of that work on the right hand side of the question number. The ring and the tick should be put clearly so that any difficulty will be felt to recognise them clearly.

Q. 8. Working as Cultivator

For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put X.

For purposes of the census a person is working as cultivator if he or she is engaged either as employees, single, worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) Cultivation of lands or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit-growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit-growing or orchard or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risk of cultivating and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as Cultivator in this question.

Q. 9. Working as Agricultural Labourer

Write AL for a person working as agricultural labourer, *i.e.*, a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put X. The labourer should have no right to lease to contract on land on which he works, nor should he be responsible for taking the decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as

wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

Qs. 10 (a) and 10 (b) Household Industry.

If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10 (a) and (2), the nature of the Household Industry against question 10 (b). Otherwise put X in both question 10 (a) and (b). A Household Industry is defined as an industry conducted by the Head of the Household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definitions of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

Q. 10.—Working at Household Industry

(a) Nature of work	(b) Nature of Household Industry	(c) If Employee

14. Repairing of guns	Gunsmithy	X
15. Bee Keeping	Production of honey	X
16. Tending cattle	Livestock raising	X

Q. 11. Doing Work other than 8, 9 or 10.

If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work in which he devotes more time.

Q. 11 (a) Nature of Work

In the case of a person not working or who works *only* as cultivator or as agricultural labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the Household Industry against 10 (b).

Q. 10 (c) if Employee in Household Industry

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write E.E. For all others put X.

The following examples will illustrate how questions 10 (a) to 10 (c) should be filled up for persons working at household Industry.

or in vernacular transliteration of English. At previous censuses much trouble had been caused by inadequate answers and if you do not succeed in obtaining satisfactory information in the individual slips, you will be required to make a further visit for that purpose.

Q. 11 (b) Industry, Business, Trade, Professions or Service

In the case of a person who is working and the nature of whose own work has been recorded in Question 11 (a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11 (a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description

should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person of whom an X is put in Question 11 (a) put an X in this question also.

Important points to remember in Questions 11 (a) and 11 (b).

1. Women or children who help with work, such as rice-pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. *In the case of married or grown-up women who do any of the works mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.*

2. If a person makes the articles he sells, he should be entered as maker and seller of them.

3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4. The following are too vague and must not be used by themselves:—

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant contractor, polisher.

5. *Labourers.*—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e.g., railway porter, market or bazaar porter, labourer employed on road-digging, brick-layer's labourer. If accustomed to work on various jobs, write general labourer.

6. *Machine Operators.*—Always state the kind of machine giving its recognised name, if any.

7. *Shop-keepers, Retail Dealers, Shop Assistants.*—If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or, Shop Assistant or Salesman (if assisting) and state whether the business is wholesale or retail or both. For Shop Assistants and Salesman in stores with several departments, state the particular department in which engaged (e.g., Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8. *Transport Workers.*—Describe fully the nature of the transport, e.g., air transport, rail transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9. *Services.*—For a person engaged in the Defence Services write 'Service of Central Government'.

10. If the job is known in the trade or industry by a special name, use that name. Manager, Foreman, etc., should be given the department, branch wherever applicable, e.g., Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves:—

Manufacturer, merchant, agent, broker, refractor, dealer, engineer, and iron works, etc.

11. *Domestic services.*—In the case of any private servant, e.g., a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i.e., they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12. *Commerce.*—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

Q. 11 (c) Class of Worker

For a person who is:—

1. an *Employer*, that is who hires one or more persons in his work described in Q. 11 (a) .. write MR
2. an *Employee*, that is, who does his work described in Q. 11 (a) under others for wages or salary in cash or kind. .. write EE
3. a *Single Worker*, that is, who is doing his work described in Q. 11 (a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operatives, .. write SW
4. a *Family Worker*, that is who is doing his work described in Q. 11 (a) in own family without wages or salary in cash or kind. .. write FW

For a person for whom an 'X' is put in Qs. 11 (a) and 11 (b) put an X in this question also.

Explanation:

(i) An Employer is a person who has to employ other persons in order to perform the work entered in Q. 11 (a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11 (a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employers, as explained above, and should not be regarded as employees.

(iii) A Single Worker for the purposes of Q. 11 (c) is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a *Single Worker* will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' cooperative should be recorded as 'Single Worker'.

(iv) A *Family Worker* is a member who works without receiving wages in cash or kind in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint-stock company or regis-

tered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work if the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11 (d) Name of Establishment

Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a person has no fixed place or work write 'No fixed place of work'.

The following examples will illustrate how Qs. 11 (a) to 11 (d) should be filled up for person doing work other than 8, 9 or 10.

This table furnishes details relating to persons of different foreign nationalities who were residing in India at the time of taking the 1961 Census count. The figures given exclude non-Indian employees in Foreign Embassies, Missions, etc. Important countries in each continent are shown separately. Nationals of countries from which the number migrated is negligible are grouped under 'elsewhere' in the table. The details for "Elsewhere" are given in the Appendix to the Table.

TABLE D-II

PLACE OF BIRTH

This table gives the distribution of population by birth place, presented down to the district for Total, Rural and Urban.

This table corresponds to Table D-IV of the 1951 Census. In this table rural and urban birth places of persons born in India are shown separately while it is not so in the 1951 Census. The place of enumeration is also classified separately into rural and urban areas and this gives an indication of the nature of migration.

Only important countries coming under groups B, C, D, E and F, which are enumerated below are presented in the table. The total of the remaining countries has been brought under 'elsewhere' spelling out the details in the 'Supplement'.

- (B) Countries in Asia beyond India (including U.S.S.R.), Afghanistan, Burma, Ceylon, China, Nepal, Pakistan, Singapore, Malaya and British Borneo, U.S.S.R. and Elsewhere.
- (C) Countries in Europe (excluding U.S.S.R.), U. K. (including N. Ireland), Ireland and Elsewhere.
- (D) Countries in Africa:

- (E) Countries in two Americas:
Canada, U.S.A., and elsewhere.
- (F) Countries in Oceania:

TABLE D-III

MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION OF
RESIDENCE IN PLACE OF ENUMERATION

This is a new table based on a special question on migration introduced for the first time in the 1961 Census, regarding the duration of residence at the place of enumeration of persons born outside the place of enumeration. The data in the table relating to the duration of residence in the place of enumeration are presented down to the district under six categories, viz, (i) less than 1 year, (ii) 1 - 5 years, (iii) 6 - 10 years, (iv) 11 - 15 years, (v) 16 years and over and (vi) period not stated.

This table besides presenting data as above also helps to supplement the information produced by the previous table relating to birth place for a detailed study of in-migration. The group 11-15 years yields information on population displaced by partition. "Nil" entries against rural, urban, unclassifiable, have been omitted from the table.

TABLE D-V

**CITIES SHOWING POPULATION BORN LOCALLY, MIGRANTS FROM RURAL AREAS AND
MIGRANTS FROM OTHER TOWNS AND CITIES**

This table presents information pertaining to migrants to six big cities in the State. The migrants are classified broadly as being from rural and urban areas. These in-migrants have been further classified under two categories, viz. (i) residents for less than three years and (ii) residents for 3 years and more, at the place of enumeration. Migrants originating from rural and urban areas are further classified according to their places of origin as from (i) within the district of enumeration, (ii) outside the district of enumeration but within the State and (iii) outside the State. The cities are presented in the descending order of population.

Columns 3, 4 and 5 of the table do not indicate the actual population of the city against which these figures occur. This is due to the following facts:—

- (i) The table excludes persons (a) whose birth place has not been recorded as either rural or urban and (b) whose duration of residence has not been stated and (c) born in place of birth "unclassifiable".
- (ii) The table relates only to persons born within the country.

TABLE D-VI

DISTRIBUTION OF INDUSTRIAL CATEGORIES OF WORKERS AND NON-WORKERS
BY PLACE OF BIRTH

This table gives information about the distribution of migrants by birth place according to the industrial category of workers and non-workers, separately for total, rural and urban. This table is presented down to the districts and for cities.

In the case of rural figures, it has been prepared only for persons "Born in India". The details of birth places for them are as follows:—

- (a) Born in place of enumeration;
- (b) Born elsewhere in the district of enumeration;
- (c) Born in other districts of the State.

In addition, figures for four numerically most important States of immigration (adjoining or distant) are given for each district. The selection of such States has been made separately for each district based on the extent of their individual contribution to the total number of migrants.

In the case of "Total" and "Urban", the table is prepared for all the groups, as also for other States in India and foreign countries. These two tables exclude the information of those States under Group II "States in India beyond the State of enumeration", where the immigrants are less than 1 % of the total. The States thus omitted are shown in Appendix I to this table and this relates to total only with urban figures inserted below the total figures. The calculation of the percentage of immigrants is based on total table. "Unclassifiabiles" have not been shown in the appendix.

So far as the city table is concerned, no abridgement has been made except for the omission of the "unclassifiable" where there are less than 5 % of the total immigrants in that particular group.

The line for "unclassifiable" in column 2 is omitted whenever the total for unclassifiable in any particular case is less than 5 % of the total immigrants in that particular main group in column 1.

As in Table D-II, only important countries outside India mentioned under group B, C, D, E and F are presented in the tables. The statistics of the remaining countries is given against "elsewhere" in the table, the details of which will be found separately in Appendix II to the table.
