APPENDICES

APPENDIX I	Specimen of Houselist and Instructions to Enumerators for filling up the Houselist		367
APPENDIX II	List of places which were treated as Towns in the Population Tables of the 1961 Census but tabulated as Rural for the purpose of the Housing and Establishments Tables		371
APPENDIX III	Standard Industrial Classification, Division 2 & 3		373

The Main Tables on Housing and Establishments for West Bengal and Sikkim, along with the Report on them, have been published in Part IV(i), Volume XVI of the 1961 Census Publications. The present work contains Subsidiary Tables which have reduced absolute figures of the main tables to proportions for facility of use and comparison.

The tables on Housing and Establishments have been built up on the information collected in Houselists prepared at the time of physical numbering of houses in West Bengal and Sikkim between the 6th and 31st of October 1960. The purpose of the numbering and listing of houses was, unlike in the previous Censuses, not merely to obtain an advance catalogue of all possible places of habitation and a forecast of the expected population, but also to procure information on the use to which a Census House was put, its tenure status, the predominant materials of its wall and roof, the size of a household in a residential Census House, the number of rooms occupied by a household and, if the Census House was used as a factory or workshop, the classification of the industry carried on in it, the kind of fuel or power used and the average number of persons employed. A specimen of the Houselist and the Instructions to the Enumerators on the mode of its filling have been reproduced in Appendix I to this volume. The procedure of preparation of the tables, and the concepts involved, have been explained in the Report and it is not proposed to cover the same ground again. For convenience of the reader a Fly-leaf has been added to each Subsidiary Table outlining its scope and defining the basic terms used in it.

Throughout the tables the symbol O indicates nil and the symbol N indicates less than one half of a unit but not nil.

The administrative units shown in the tables refer to their territorial content as on the 1st March 1961, except in the case of the police stations of the 24-Parganas District where adjustments have been made for the jurisdictional changes brought into effect by Notification No. 3490-Pl., dated the 25th August 1962. The enclaves of the Cooch Behar District locked in Pakistan territory are not accounted for in the tables. The Census could not be taken there.

The spelling of police stations follows generally that adopted by the Home (Police) Department and of towns by the Land and Land Revenue Department of the Government of West Bengal.

I wish to take the opportunity to express my grateful obligations to Shri J. C. Sengupta, former Superintendent of Census Operations, and Shri S. N. Roy, former Deputy Superintendent of Census Operations under whose guidance a part of the tabulation was done. The speed and accuracy with which the work has been completed are a tribute to the skill and industry of my colleague Shri S. Sinha, Officer on Special Duty, who was ably assisted by Shri M. N. Sarkar, Statistical Inspector. The rigorous job of looking after the minute details of printing was carefully executed by Shri Ram Chandra Bhar,

Printing Inspector, and his gifted team of Proof Readers who received full co-operation from the authorities and staff of the Government of India Press, Calcutta, in maintaining the high standard of presentation, printing and get-up which they have achieved for the West Bengal Series of Census Publications. I have to thank in particular Shri A. S. Krishnamurthy, Manager of the Press, for the personal interest he has taken in guiding the work.

*Calcutta,
1st March, 1965.*

J. DATTA GUPTA

SUBSIDIARY TABLE E-I.1

Distribution of 1,000 Census Houses by vacant and different types of occupied Census Houses

This Subsidiary Table is based on main Table E-I printed in Part IV(i)—Report and Main Tables on Housing and Establishments of West Bengal and Sikkim and gives the distribution of 1,000 Census Houses according to the different uses to which they are put, for the State, Division, District, Subdivision, Police Station, City and Town with a population of 50,000 or more. For the City of Calcutta, wardwise figures have been given.

2. The terms used in this table have been explained in the Report on Housing and Establishment. For facility of reference the following extract is reproduced from Chapter I of the Report :

“A Census-house was defined as a structure or part of a structure, inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling or a place of business, workshop, school etc., with a separate entrance. If in a building, there were a number of flats or blocks which had separate entrances of their own and were independent of each other, giving on the road or a common staircase or a common courtyard leading to a main gate, then they were considered as separate Census-houses. If within an enclosed or open compound, there were separate buildings, then each such building was treated as a separate Census-house. If all the structures within a compound,

were treated as one building, then each such structure was treated as a separate Census-house.

According to these definitions, a compact building, not divided into flats, was one Census-house. Each flat in a building divided into flats, was treated as a separate Census-house provided it gave access to a common staircase or a common courtyard leading to a main gate. If the servants' quarters were located in one or more separate structures, then the household concerned was deemed to be in occupation not only of the main Census-house but also of the Census-houses, occupied by the servants. If the kitchen was again in another structure, the number of Census-houses in the occupation of the household increased by one. In rural areas, the number of Census-houses in the possession of a household was equal to the number of huts which comprised his homestead”.

3. In denoting the status of a city or town the following abbreviations have been used :

M. for Municipality

M.C. for Municipal Corporation

N.M. for Non-municipal Town

SUBSIDIARY TABLE E-I.2

Distribution of 1,000 Census Houses in each type of use among Rural and Urban Areas

This Subsidiary Table is based on main Table E-I and gives the Rural/Urban break-down of 1,000 Census Houses in each of the following four categories, viz., (i) vacant houses, (ii) dwellings, (iii) shop-cum-dwellings, and (iv) workshop-cum-dwellings, for the State, Division, District, Sub-division and Police Station.

2. The terms used in this table have been

explained in the Report on Housing and Establishments. A list of places which were treated as urban in the Population Tables, but as Rural in the Housing and Establishment Tables, has also been given in Appendix I to the Report on Housing and Establishments. For the convenience of the readers the list is reproduced in Appendix II to the present volume.

SUBSIDIARY TABLE E-II.1

Distribution of 1,000 Census Households living in Census Houses used wholly or partly as dwellings
by types of Census Houses in Rural Areas

(Based on 20% Sample)

This Subsidiary Table is built on main Table E-II printed in Part IV(i)—Report and Main Tables on Housing and Establishments and gives the distribution of 1,000 Census Households living in Census Houses used wholly or partly as dwellings by the following four categories, viz., (i) dwellings, (ii) shop-cum-dwellings, (iii) workshop-cum-dwellings and (iv) dwellings with other uses, for the State, Division, District, Subdivision and Police Station in the rural areas only.

2. The terms used in this Subsidiary Table have been explained in the Report on Housing and Establishments. A Census Household was defined as a group of persons who commonly lived together and took their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. A Census Household could consist of one person also.

SUBSIDIARY TABLE E-II.2

Distribution of 1,000 Census Households living in Census Houses used wholly or partly as dwellings
by types of Census Houses and Tenure Status in Urban Areas

(Based on 20% Sample)

This Subsidiary Table also is based on main Table E-II and gives the distribution of 1,000 Census Households living in Census Houses used wholly or partly as dwellings according to the four categories, viz., (i) dwellings, (ii) shop-cum-dwellings, (iii) workshop-cum-dwellings, (iv) dwellings with other uses and their tenure status in urban areas only for the State, Division, District, Subdivision, Police Station, City and Town with population of 50,000 or more. For Calcutta, wardwise figures have been given.

2. The tenure status has been shown as rented whenever a household lives in a house it does not own, whether rent is paid or not.

To indicate the status of a city or town the following abbreviations have been used :

- M. for Municipality
- M.C. for Municipal Corporation
- N.M. for Non-municipal Town

SUBSIDIARY TABLE E-III.1
Proportion of Workshops and Factories according to Divisions, Major Groups and
Minor Groups to 1,000 Workshops and Factories

This Subsidiary Table is based on main Table E-III printed in Part IV(i) Report and Main Tables on Housing and Establishments of West Bengal and Sikkim, and gives the distribution of 1,000 Workshops and Factories according to the Divisions, Major Groups and Minor Groups of the Indian Standard Industrial Classification, for the State and Districts separately

for rural and urban areas. For facility of reference, full description of the Divisions, Major Groups and Minor Groups have been reproduced in Appendix III to this volume.

2. A factory or workshop is a place where some articles are produced, processed or repaired or where machines are serviced or where goods and articles are made and sold.

SUBSIDIARY TABLE E-III.2

Distribution of 1,000 Workshops and Factories in each kind of Fuel used by size of Employment

This Subsidiary Table is also based on main Table E-III and gives the distribution of 1,000 Workshops and Factories under each fuel category, viz., those using (i) electricity, (ii) liquid fuel, (iii) coal, wood and bagasse, (iv) other power and (v) no power by the following eight sizes of employment, viz., (i) 1 person, (ii) 2—5 persons, (iii) 6—9 persons, (iv) 10—19 persons, (v) 20—49 persons, (vi) 50—99 persons,

(vii) 100 persons and above and (viii) number of persons employed not stated, for the State and District, the rural and urban areas being shown separately and for cities and towns with a population of 50,000 or more.

2. Gas is included in 'other power' and animal power in 'no power'.

SUBSIDIARY TABLE E-III.3

Distribution of 1,000 Workshops and Factories in each Division, Major Group and
Minor Group by kind of Fuel or Power used

This Subsidiary Table is also based on main Table E-III and shows the distribution of 1,000 Workshops and Factories in each Division, Major Group and Minor Group by kind of fuel or power used separately for the rural and urban areas of

the State and Districts and for each City and Town with a population of 50,000 or more.

2. The description of the Divisions, Major Groups and Minor Groups will be found in Appendix III to this volume.

SUBSIDIARY

Distribution of 1,000 Workshops and Factories in each Division, Major

Sate/District/City/Town with population of 50,000 or more	All Division	Division	Major Group	Minor Group	Minor Group	Minor Group	Minor Group	Minor Group	Minor Group	Minor Group

SUBSIDIARY TABLE E-IV. 1

Distribution of 1,000 Census Houses used wholly or partly as dwelling by Wall Material

(Based on 20% Sample Households)

This Subsidiary Table is based on main Table E-IV Printed in Part IV (i)—Report and Main Tables on Housing and Establishments. For a note on the method of preparation of the main table reference is invited to Chapter IV of the Report. This Subsidiary Table shows the distribution of 1,000 Census

Houses used wholly or partly as dwellings according to nine different types of predominant material of wall for the State, Division, District, Subdivision and Police Station, for rural and urban areas separately, and for cities and towns with a population of 50,000 persons or more.

2. The following abbreviations have been used to indicate the status of a town, viz.,

- | | | | | | |
|-------|---|---|---|---|-----------------------|
| M. C. | . | . | . | . | Municipal Corporation |
| M. | . | . | . | . | Municipal Town |
| N. M. | . | . | . | . | Non-Municipal Town |

SUBSIDIARY TABLE E-IV.2
Distribution of 1,000 Census Houses used wholly or partly as dwellings by Roof Material

(Based on 20% Sample Households)

This Subsidiary Table also is based on main Table E-IV and gives the distribution of 1,000 Census Houses used wholly or partly as dwellings according to seven types of predominant material

of roof for the same administrative units as in Subsidiary Table E-IV. 1. Abbreviations used are also the same.

SUBSIDIARY TABLE E-IV. 2
Distribution of 1,000 Census Houses used wholly or partly as dwellings by Roof Material
(Based on 20% Sample Households)

SUBSIDIARY TABLE E-V.1

Distribution of 1,000 Census Households according to Number of Rooms Occupied
(Based on 20% Sample)

This Subsidiary Table is based on main Table E-V printed in Part IV(i), Report and Main Tables on Housing and Establishments and gives the distribution of 1,000 Census Households according to the number of rooms occupies *viz.*, regular room, no room, 1 room, 2 rooms, 3 rooms, 4 rooms and 5 rooms or more, for the State, Division, District, Subdivision, Police Station, City and Town with a population of 50,000 or more. According to Census definition, a room would usually have four walls with a doorway with a roof overhead and would be wide and long enough for a person to sleep in, *i.e.*, it would be at least 6 ft. long. Un-enclosed Verandah, kitchen, store, garage, cattle shed and la rine, which were not ordinarily used for

living and sleeping were not treated as room. Where more than one household were found living in one room, each such household was classified as having no regular room. Similarly, if a household lived in a structure which did not fulfil the specification of a room, then also it was shown as not living in a regular room.

2. The following abbreviations have been used to denote the status of a town :

- M. for Municipality
- M. C. for Municipal Corporation
- N. M. for Non-municipal Town

SUBSIDIARY TABLE E-V.1

SUBSIDIARY TABLE E-V. 2

Number of Persons, Males and Females per Room and Persons per Household in each
Category of Household
(Based on 20% Sample)

This Subsidiary Table also is based on main Table E-V and gives the number of persons per room and per household for all the households put together and the average number of persons, males and females per household, for the households in each of the categories, i. e., those with 1 room, 2 rooms, 3 rooms, 4 rooms and 5 rooms

or more for same administrative units as in Subsidiary Table E-V. 1
2. The following abbreviations have been used to denote the status of a town :
M. for Municipality
M. C. for Municipal Corporation
N. M. for Non-Municipal Town

CENSUS OF INDIA 1961

Instructions for Filling up the Houselist

Column 1.—Line Number.

Only one digit of the line number has been printed in this column. The line numbers should be continuous for your block. Where the line numbers exceed 9 write the earlier digit(s) yourself.

Column 2.—Building Number (Municipal or Local Authority or Census Number, if any).

This refers to the entire structure on the ground. There are, however, high, large or long buildings along a street or lane which have been partitioned or portions of which have been sold, which have distinct, separate main exit on the road and which belong to separate owners or occupiers or alternatively there are a series of different houses joined each to each by common walls on either side to make the whole look like one building but parts of which have been built at different times and belong to separate owners. Such distinguishable structures, although not separate from each other should be regarded as separate buildings and given separate numbers. Each building should have a separate number. If in big cities a large mansion or building containing several census houses has a well known name by which it is generally known then the name of the building should also be recorded for convenient reference. If there are more than one structure within an enclosed or open compound belonging to the same person, *e.g.*, the main house, the servants' quarters, the garage, etc., only one building number should be given. If the locality consists of a number of streets in a village, the buildings in the various streets should be numbered continuously and the streets should be taken in uniform order, from North-West to South-East. Experience suggests that the best way of numbering is to continue with one consecutive serial on one side of the street and complete the numbering on that side before crossing over to the end of the other side of the street and continuing with the serial, stopping finally opposite to where the first numbering began. In a city enumeration block, the numbering will have to respect the axis of the street and not any preconceived geographical direction like North-West. A building under construction should also be given a number in the serial. If a new hut or building is constructed between the time when the house-numbering and houselisting have been completed and the census count it should be given a new number beyond the last number of the serial for the village. Arabic numerals should be used for building numbers.

This will facilitate verification by supervisors. In areas, *e.g.*, urban, where the buildings are already numbered by the municipal or other authorities, the enumerator may adopt the existing numbers in the Houselist. In such cases, column 2 will carry the established municipal or local authority number which will facilitate identification. Where there are municipal or local authority numbers but there are reasons to believe that the number is incomplete or unsatisfactory, the municipal or local authority number may still be entered in column 2, but at the same time it will be necessary to serially number the buildings afresh for the purposes of census houselist. In that case, the new census serial for buildings will be entered in column 3 and the new census numbers for the buildings will have to be painted on the buildings themselves. In those cases where there are no municipal or local authority numbers in existence, all buildings will have to be serially numbered for the census and column 2 will contain entries of this census serial. This number will have to be repeated in column 3 with sub-numbers for census houses, if any.

Column 3.—Building Number (Column 2) with sub-numbers for each Census House.

A census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling or a place of business, workshop, school, etc., with a separate entrance.

If a building has a number of flats or blocks which have separate entrances of their own and are independent of each other giving on the road or a common staircase or a common courtyard leading to a main gate, they will be considered as separate census houses. If within an enclosed or open compound there are separate buildings then each such building will also be a separate census house. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate census house.

The order in which census houses within a building should be numbered should be continuous, preferably clockwise, or in any convenient manner if it is at all difficult to do it clockwise. If a building itself is a census house, then it will have only one number, namely, that of the building. If within a building there are a number of census houses, then each census house will have two sets of numbers, *e.g.*, the number of the building and the sub-number of the census house. The census house number should be written after the building

number in arabic numerals in brackets such as 2(2), 3(2), etc. A census house may contain more than one household in which case, each household will have to be denoted by a separate alphabetical sub-number (see instructions for column 11 below).

Column 4.—Purpose for which census house used, *e.g.*, dwelling, shop, shop-cum-dwelling, business, factory, workshop, school or other institution, jail, hostel, hotel, etc.

The actual use to which a census house is put should be written here.

In the case of a factory or workshop 'Factory' should be written for a large factory if registered under the Indian Factories Act and 'Workshop' for a small unregistered workshop. A workshop is a place where some kind of production, repair or servicing goes on or where goods or articles are made and sold. Similarly, a shop is a place where articles are sold for cash or for credit. Business houses are those where transactions in money or other articles are taking place, *e.g.*, bank, etc. But rooms or apartments where professional consultations are held such as by doctors, *hakims*, pleaders, etc., should be described as 'professional consultation rooms' and not workshops. In the case, however, of a dispensary where, in addition to consultation by a doctor, medicines are prepared and sold, the house should be described as a dispensary. Write also if used for place of worship or congregation or if unoccupied, 'vacant'. If the census house is a shop, business house, bank, etc., but is not a factory or workshop as defined above, the name of the proprietor, manager or director should be entered in column 18.

Columns 5 to 8.—'If this census house is used as an establishment, workshop or factory'.

These columns apply only in cases where the census house is a factory or a workshop, *i.e.*, where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold. If the census house is not used for purposes of a factory or workshop write 'X' in each of the columns 5 to 8.

Column 5.—Name of establishment or proprietor.

Write the name of the establishment in the case of factories or large manufacturing concerns and write the name of the proprietor in the case of small workshops and establishments like confectioneries where no distinct name has been given to them like *Halwai* shop, etc. If the census house is not used for the purpose of a factory or workshop put 'X' in each of the columns 5 to 8.

Column 6.—Name of product (s), repair or servicing undertaken.

In this column enter the actual work that is being done in the establishment, factory or work-

shop, like paper making, shoe making, cycle repairing, motor servicing, etc.

Column 7.—Average number of persons employed daily last week (including proprietor or household members, if any).

The total number of workers including apprentices, either paid or unpaid, employed in the factory or workshop, including the owner or proprietor and any of his family members (if working), should be entered. The average number of persons working per day during the week preceding the date of your visit should be entered.

In case more than one product is produced it is not necessary to enquire the number of persons employed in the production of each product. It may not be possible to get this information in cases where the operations may be composite.

Column 8.—Kind of fuel or power, if machinery is used.

If the factory or workshop uses steam or diesel engine or fuel, *e.g.*, kerosene, soft coke, electricity, water-mill, etc., for running the machinery used for production, servicing or repairs, write what fuel or power is actually used.

Columns 9 & 10.—Description of Census House.**Column 9.—Material of wall.**

Under this column the material out of which most of the walls of the house are made *i.e.*, grass, leaves, reeds, bamboo, unburnt bricks, mud, burnt bricks, stone, cement concrete or timber should be written. Where a house consists of separate structures each of different materials, the material out of which the walls of the main bedrooms are made are to be recorded.

Column 10.—Material of roof.

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, *i.e.*, tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, etc., should be written. In the case of a multi-storeyed building the intermediate floor or floors will be the roof of the lower floor.

Column 11.—Sub-number of each Census Household with Census House number (Column 3).

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

There may be one or more households in a census house. Each household should be separately numbered. This can be done by using the alphabets as (A), (B), (C), etc. For example, if building No. 2 is also a census house and has three households, the household numbers will be 2(A), 2(B) and 2(C). If building No. 4 has two census

houses, the houses will be numbered as 4(1) and 4(2). If within each house there are respectively 3 and 2 households, then they will be numbered as 4(1A), 4(1B), 4(1C) and 4(2A) and 4(2B).

Column 12.—Name of Head of Household.

The name of the Head of each household given in column 11 should be written here. The Head of a household, for census purposes, is the person on whom falls the chief responsibility for the maintenance of the household. The name of the person who is actually acknowledged as Head of the household should be recorded. In the case of places like messes, boarding houses, chummeries, etc., where people live together with no ties of relationship, the manager or superintendent or the person who by common consent is regarded as the Head should be recorded as Head of the household.

If the census house is used as a sitting place, cattle shed, etc., write the use to which it is put (and add the name of the owner).

Column 13.—Number of rooms in Census Household

If a census house is occupied by one household the enumeration of rooms should be simple.

If a census house consists of a number of households the number of rooms occupied by each household should be entered on each line against the name of the Head of the household. In cases where more than one household occupy a single room or share more than one room in such a way that it is not possible to say the number of rooms occupied by each household, the number of rooms should be given together within brackets as common to both the households.

A room should usually have four walls with a doorway with a roof overhead and should be wide and long enough for a person to sleep in, *i.e.*, it should be at least 6 ft. long. Unenclosed verandah, kitchen, store, garage, cattle shed and latrine which are not ordinarily used for living and

sleeping should not be treated as rooms. An enclosed room, however, which is used for living, dining, storing and cooking should be regarded as a room.

Column 14.—Does the household live in own or rented house ?

If the household lives in own house write 'O'. If the household lives in a rented house write 'R'.

In the case of public buildings like schools, hospitals, etc., or places of worship, put 'X' in this column.

Columns 15 to 17.—Number of persons residing in census household on day of visit.

Write the number of males residing in the household in column 15, the number of females residing in the household in column 16 and the total number of persons in column 17.

Column 18.—Remarks.

In this column should be entered any useful or significant information about the building or the census house or the census household that has not been entered in any other column. For example, if the census house is a shop the name of the proprietor or owner should be recorded in this column. If a census house is vacant at the time of houselisting but there is reason to believe that the house will be occupied in the course of the next few days and almost certainly before the census enumeration period, then the word 'Vacant' should be entered in column 4 and a remark should be entered in column 18 to the effect 'likely to be occupied shortly'. Thus, the Remarks column should be utilised for recording all significant information relating to the building or census house or census household.

If the members of the household living in the Census house belong to a Scheduled Caste or Scheduled Tribe then write SC or ST, as the case may be, in this column.

APPENDIX III

STANDARD INDUSTRIAL CLASSIFICATION, DIVISION 2 & 3

Major Group (Code)	Description	Minor Group (Code)
20 Foodstuffs—		
	Production of rice, atta, flour, etc. by milling dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21 Beverages—		
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, plam juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22 Tobacco Products—		
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23 Textile—Cotton—		
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24 Textile—Jute—		
	Jute pressing and baling	240
	Jute spinning and weaving	241

Major Group (Code)	Description	Minor Group (Code)
24 Textile—Jute—contd.		
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25 Textile—Wool—		
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26 Textile—Silk—		
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27 Textile—Miscellaneous—		
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28 Manufacture of wood and wooden products—		
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289

Major Group (Code)	Description	Minor Group (Code)
29 Paper and Paper Products—		
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper, bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30 Printing and Publishing—		
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31 Leather and Leather Products—		
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32 Rubber, Petroleum and Coal Products—		
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33 Chemicals and Chemical Products—		
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337

Major Group (Code)	Description	Minor Group (Code)
33	Chemicals and Chemical Products—contd.	
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34	Non-metallic Mineral Products other than Petroleum and Coal—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
