NOTE

The Census of India, 1961, Volume V on Gujarat is divided into ten parts as shown in the list of census publications printed at the commencement of this book. Each part is further sub-divided into two or more sub-parts according to the extent of material it incorporates. Part X pertains to City Volume. This part has been further sub-divided into 3 sub-parts as under :

Part X(1)-Report on Cities

Part X(2)-Census Tables and Directory for Cities

Part X(3)-Special Migrant Tables for Ahmedabad City

'Town' has been defined as a place having a municipality or a cantonment or a place with a population of 5,000 and over, if 75 per cent of its male population is dependent on non-agricultural pursuits.

Places having a population of 100,000 and over either individually or as a town-group have been classified as cities. According to the Census of 1961, there are six such cities in Gujarat State. They are Ahmedabad, Baroda, Surat, Rajkot, Bhavnagar and Jamnagar of which the first named city has 1,000,000+ population.

The present publication contains the following Census Tables in addition to the Directory for each block with a population of 600 persons or 120 census houses, giving particulars relating to number of occupied residential houses, number of households, population, literate and educated persons. In addition, boundary of each block has also been given for Ahmedabad City.

- 1 Migrants classified by Sex, Broad Age-groups, Educational Levels and by Category of Worker
Non-worker
- 2 Migrants classified by Sex, Religion, Place of Birth and Duration of Residence
- 3 Migrants classified by Sex, Duration of Residence, Age-group and Educational Levels
- 4 Migrants classified by Sex, Duration of Residence, Age-group and in case of Workers by Occupational
Division and Group
- 5 Migrants classified by Sex, Duration of Residence, Age-group, Industrial Division and Major Group
and Class of Worker
- 6 Migrants classified by Sex, Duration of Residence, Age-group and Marital Status

The cities have been printed in the descending order of population.

The instructions given to enumerators for filling up individual slips on the basis of which these tables are compiled are given below in order to enable the reader to appreciate the contents of these tables.

Q. 2 Age in completed years last birthday

Write age in years completed last birthday. For infants below one year of age, write '0'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events, etc. You may use any local calendar of such events that may have been prepared for the purpose.

Q. 3 Marital Status

For never married	.	.	.	.	.	.
Married	.	.	.	.	.	. Write NM
Widowed	.	.	.	.	.	. Write M
Separated or Divorced	.	.	.	.	.	. Write W
	.	.	.	.	.	. White S

For a person who has never been married, write 'NM'. For a person married, whether for the first or another time, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute return her marital status as declared by her.

Q. 4 (a) Birthplace

- | | | | | | | |
|---|--|---|---|---|---|----|
| 1 | If born in village or town in which enumerated | . | . | . | Write | PL |
| 2 | If born in another village or town of district in which enumerated | . | . | . | | |
| 3 | If born in another district in the State of enumeration | . | . | . | Write | D |
| 4 | If born in another State in India | . | . | . | Write name of district | |
| | | . | . | . | Write name of district and State if name of district is known; otherwise write name of State. | |
| 5 | If born in a country outside India, e.g., Pakistan or any other country | . | . | . | | |
| 6 | Persons born at sea or in air or in railway carriages or on road transport, e.g., buses, etc., should be entered as such | . | . | . | Write name of country | |

Q. 4 (b) *Whether born in Village or Town*

- 1 If born in a village
- 2 If born in a town which is considered a town at the present time even if it was not so considered at the time of birth
- 3 If the person enumerated is not in a position to say whether the place of birth is a village or town, write the name of the place of birth as returned by him.

Q. 4 (c) Duration of Residence

- | | | |
|---|--|---|
| 1 | For a person born in village or town or city in which enumerated | Write X |
| 2 | For a person born in another village or town or city of district of enumeration or who was not born in the district of enumeration | Write the number of completed years this person has been in the village/town/city of enumeration.
(Do not take into account periods of temporary absence on leave or holiday or tour or business). |
| 3 | If the duration of residence is less than one year | Write O |
| | If the duration of residence is one year or over | Write the actual number of completed years of residence |

Q. 5 (a) Nationality

- | | | | | | | | | |
|---|----------------------|---|---|---|---|---|---|-------------------------------|
| 1 | For Indian nationals | . | . | . | . | . | . | Write the nationality in full |
| 2 | For other nationals | . | . | . | . | . | . | |

Q. 5 (b) Religion

[illegible]

For others write the answers actually returned.

Q. 5 (c) Scheduled Castes & Scheduled Tribes

Q. 5 (c) *Scheduled Castes & Scheduled Tribes*

The answer to this question will be recorded only if a person belongs to a Scheduled Caste or Scheduled Tribe. If the person belongs to a Scheduled Caste or Scheduled Tribe obtaining in your State, or in your district write the name of the caste or tribe to which he belongs. For all others, write 'X' in this column.

Do not write the names of Scheduled Castes in general terms as 'Harijan', 'Achhut'. Ascertain the name of the caste when it is returned and write it.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to question 5 (b). Scheduled Tribes may belong to any religion.

Q. 6 Literacy & Education

I. Illiterate or Literate

For a person

- | For a person | | | | | | | | |
|--------------|--|---|---|---|---|---|-------|---|
| 1 | Who can neither read nor write or can merely read but cannot write in any language | . | . | . | . | . | Write | O |
| 2 | Who can both read and write | . | . | . | . | . | Write | L |

The test for reading is ability to read any simple letter either in print or in manuscript, i.e., if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

II. Standard of Education

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

Q. 7 (a) Mother Tongue

Write the mother tongue in full including dialect as returned by the person enumerated. Mother tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

Q. 7 (b) Any other language(s)

After recording the mother tongue enquire whether the person knows any other language(s). Indian or foreign, and write the language(s) returned by him against this question. In case he does not know any other language put 'X'.

The number of languages recorded against this question should not be more than two. These languages should be other than his mother tongue which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

Qs. 8 to 11 Working

These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at Household Industry or may be doing any other work. You have to record the answers in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9 or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10 or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. For an undertrial prisoner enumerated in a jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. A person who has been offered work but has not actually joined should be treated as non-worker. Work includes not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages her-self in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass, etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

Q. 8 Working as Cultivator

For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put 'X'.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations, should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as cultivator in this question.

Q. 9 Working as Agricultural Labourer

Write AL for a person working as agricultural labourer, i.e., a person who works in another person's land only as a Labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put 'X'. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

Q. 10 (a) & 10 (b) Household Industry

If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10(a) and (2) the nature of the Household Industry against question 10(b). Otherwise put 'X' in both questions 10(a) and 10(b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10(a) and the nature of the Household Industry against 10(b).

Q. 10 (c) If Employee in Household Industry

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write E.E. For all others put X.

Q. 11 Doing Work other than 8, 9 or 10

If a worker is not working as cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

Q. 11 (a) Nature of Work

In the case of persons not working or who work only as cultivator or as agricultural labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

Q. 11 (b) Industry, Business, Trade, Profession or Service :

In the case of a person who is working and the nature of whose own work has been recorded in Question 11(a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11(a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11(a), put an X in this question also.

Important points to remember in Questions 11 (a) and 11 (b)

1 Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time.

In the case of married or grownup women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.

2 If a person makes the articles he sells, he should be entered as maker and seller of them.

3 Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4 The following are too vague and must not be used by themselves: Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5 **Labourers**—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e.g., railway porter, market or bazar-porter, labourer employed on road digging, brick-layer's labourer. If accustomed to work on various jobs, write general labourer.

6 **Machine Operators**—Always state the kind of machine giving its recognized name, if any.

7 **Shop-keepers, Retail Dealers, Shop Assistants**—If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or, 'Shop Assistant' or 'Salesman' (if assisting) and state whether the business is wholesale or retail or both. For shop assistants and salesmen in stores with several departments, state the particular department in which engaged (e.g., Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8 **Transport Workers**—Describe fully the nature of the transport, e.g., air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9 **Services**—For a person engaged in the Defence Services write 'Service of Central Government'.

10 If the job is known in the trade or industry by a special name, use that name. Manager, Foreman, etc., should be given the department/branch wherever applicable, e.g., Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves—

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11 **Domestic Services**—In the case of any private servant, e.g., a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i.e., they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12 **Commerce**—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

Q. 11 (c) Class of Worker :

For a person who is :

- | | | |
|--|-------|----|
| 1 an Employer , that is, who hires one or more persons in his work described in Q. 11(a) | Write | MR |
| 2 an Employee , that is, who does his work described in Q. 11(a) under others for wages or salary in cash or kind | Write | EE |
| 3 a Single Worker that is, who is doing his work described in Q. 11(a) without employing others except casually, and without the help of other members of the family except casually. This will include workers working as members of co-operatives | Write | SW |
| 4 a Family Worker , that is, who is doing his work described in Q. 11(a) in own family without wages or salary in cash or kind | Write | FW |

For a person for whom an 'X' is put in Qs. 11(a) and 11(b) put an 'X' in this question also.

Explanation :

(i) An **Employer** is a person who has to employ other persons in order to perform the work entered in Q. 11(a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11(a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An **Employee** is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A **Single Worker** for the purpose of Q. 11(c) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

(iv) A **Family Worker** is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. For the purpose of the entire Q. 11 such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the Household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11 (d) Name of Establishment :

Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a person has no fixed place of work, write 'No fixed place of work'.

For a person for whom an 'X' is put in Qs. 11(a), 11(b) and 11(c) put an 'X' in this question also.

After you have filled up the answers to questions 8 to 11, if you find that in the case of any person more than one productive activity has been recorded, i.e., more than one of the questions 8, 9, 10 or 11, has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the questions 8, 9, 10 or 11, according to the work recorded and put a ring round the question relating to the principal work.

GENERAL POPULATION TABLES
(CITIES)

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11, i.e., more than two of the questions, 8 to 11, would have been filled up by some work. In such cases you should first ascertain the principal work, i.e., the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work, i.e., the work after his principal work which occupies most time. You should put a tick against the question number of that work on the right hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

12 Activity, if not Working :

This question will apply to a person NOT Working.

Write 'X' in this question for a person who is working, i.e., for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT Working.

- | | | |
|--|-------|----|
| 1 For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business | Write | ST |
| 2 For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, not help regularly even part-time in family cultivation, industry, trade or business | Write | HW |
| 3 For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age | Write | D |
| 4 For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work | Write | R |
| 5 For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence | Write | B |
| 6 For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution | Write | I |
| 7 For a person who has not been employed before but is seeking employment for the first time | Write | NE |
| 8 For a person employed before but now out of employment and seeking employment | Write | UN |

Explanation :

If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Question 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in item 7 or 8.

Q. 13 Sex

Write 'M' for Males; and 'F' for Females.

For eunuchs and hermaphrodites, write 'M'.

A—GENERAL POPULATION TABLES

Out of 4 tables compiled for A-Series at this Census, Tables A-I—Area, Houses and Population and Table A-IV—Towns and Town-groups classified by Population in 1961 with variation since 1901 which appertain to cities have been reproduced in this Volume.

A-I—AREA, HOUSES AND POPULATION

This table gives in addition to area, houses and population, population per square mile for 6 cities.

A-IV—CITIES AND TOWN-GROUPS CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

This table gives statistics relating to the figures of population since 1901 showing the growth of each city from census to census. Percentage variation is given from decade to decade, not only for the cities but also for the constituents of Ahmedabad Town-group. Separate figures have also been given for municipal and non-municipal areas such as port area, suburban area, military area, railway colony, etc., along with area figures of cities in square miles and square kilometres.

An alphabetical list of towns has been added as an Annexure to Table A-IV.

B—GENERAL ECONOMIC TABLES

Economic Tables of the 1961 Census cover a very large field of data and are more elaborate and comprehensive than any of their predecessors. The most important point to remember about the economic tables is that during the past censuses, income or economic independence was the test applied for measuring the economy of the country. Before 1961, economic activity was interpreted in terms of categories like economically independent or economically dependent, semi-dependent, earning dependents or non-earning dependents. In 1951, the economic classification was confined to the eight livelihood classes with stress on income rather than work or economic activity of the individual. The most significant departure that the Census of 1961 has made is the emphasis laid on work, so that all people who work, including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance have also been included as workers. Even the non-workers have been distributed into eight-fold categories according to the activities pursued by them. This change in concept will help obtain a realistic picture of the economic activity of those important sections of household workers who were left out of account in the past.

According to the Tabulation Plan for the 1961 Census, there are 17 Economic Tables in 'B' series as against 6 in 1951. This series is divided into two parts, viz., (i) General Economic Tables (B-I to B-IX) prepared from individual enumeration slips and (ii) Household Economic Tables (B-X to B-XVII) prepared from Household Schedules. According to the scheme of Census Publications, Tables B-I to B-IX (General Economic Tables) are printed in Part II-B in two sub-parts. Sub-part II-B(1) contains the Tables B-I to B-IV-C and Sub-part II-B(2) Tables B-V to B-IX. The Household Economic Tables which are published in Part III are an entirely new feature of the 1961 Census. They are prepared from Household Schedules by mechanical tabulation on the basis of 20 per cent sample and give all possible data relating to the extent of land under cultivation and household industry. Land under cultivation by Household is classified according to interest in land, e.g., (i) owned or held from Government, (ii) held from private persons or institutions for payment in money, kind or share and (iii) given to private persons for cultivation for payment in money, kind or share. They also give data relating to the nature of Household Industry, period of working of Household Industry and persons employed in Household Cultivation only or Household Industry only or in both either as family workers or as hired workers.

Industrial And Occupational Classification

Another noteworthy feature of the General Economic Tables is the systematic classification of industries and occupations. For, the one introduced in 1951 was, as truly pointed out by the Registrar General, neither a purely industrial nor occupational classification of the population but a combination of both. The National Classification of Industries and Occupations adopted by the Government of India and followed by the Census on the present occasion classifies the economic data into 9 divisions, 45 major groups and 343 minor groups of industries and 11 divisions, 75 groups and 331 families of occupations as against a conglomeration of 10 divisions and 88 sub-divisions of services in 1951.

The following statement gives the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951.

1961 INDUSTRIAL CATEGORIES

- I As Cultivators
- II As Agricultural Labourers
- III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities
- IV At Household Industry
- V In Manufacturing other than Household Industry
- VI In Construction
- VII In Trade and Commerce
- VIII In Transport, Storage and Communications
- IX In Other Services
- X Non-workers

1951 MEANS OF LIVELIHOOD

- AGRICULTURAL CLASSES**
 - I Cultivators of land wholly or mainly owned and their dependents
 - II Cultivators of land wholly or mainly unowned and their dependents
 - III Cultivating labourers and their dependents
 - IV Non-cultivating owners of land, agricultural rent receivers and their dependents
- NON-AGRICULTURAL CLASSES**
 - V Persons (including dependents) who derive their principal means of livelihood from Production other than cultivation
 - VI Commerce
 - VII Transport
 - VIII Other services and miscellaneous sources

There are in all 17 Economic Tables—9 General Economic Tables compiled from individual enumeration slips and 8 Household Economic Tables from Household Schedules on 20% sample basis. Of the former, portion relating to cities has been reproduced from Tables B-II and B-VI, while Tables B-III Part-A, B-IV Parts-A, B & C, B-V, B-VII Parts-A & B, B-VIII Part-A and B-IX are specially compiled for this volume. The details of each of these are given below.

B-II—WORKERS AND NON-WORKERS IN CITIES AND TOWN-GROUPS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

This table gives total population and nine industrial categories of workers and non-workers for cities and for their parts such as suburban area, military area, port area, railway colony, etc. The workers and non-workers are classified by broad age-groups, viz., 0-14, 15-34, 35-59, 60+ and age not stated. These age-groups correspond to the different stages of life which have a special significance in regard to person's capacity to work, namely, children, young persons, middle-aged persons and elderly persons.

B-III PART-A—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

In this table, the nine industrial categories of workers and non-workers are cross-tabulated by literacy and educational levels.

Persons holding B.A. or B.Sc., M.A. or M.Sc., or higher degrees (Ph.D., etc.) in Science subjects like Physics, Mathematics, Chemistry, Agriculture, Geology, Geo-physics, Geography, etc., are also treated as technical degree holders and have been classified under 'Others'.

Educational levels shown in the table are (i) Primary or Junior Basic, (ii) Matriculation or Higher Secondary, (iii) Technical diploma not equal to degree, (iv) Non-technical diploma not equal to degree, (v) University degree or post-graduate degree other than technical degree, (vi) Technical degree or diploma equal to degree or post-graduate degree with break-up into (1) Engineering, (2) Medicine, (3) Agriculture, (4) Veterinary or dairying, (5) Technology, (6) Teaching and (7) Others.

B-IV PART-A—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK AT HOUSEHOLD INDUSTRY

The table gives information regarding persons at work in Household Industry, classified by branch of industry (Division and major group) and class of workers (Employee and others).

B-IV PART-B—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE

The table relates to persons at work in Non-household Industry, trade, business, profession or service classified by branch of industry (Division and major group) and class of workers (Employer, Employee, Single worker and Family worker).

B-IV PART-C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS OF PERSONS AT WORK OTHER THAN CULTIVATION

The table relates to persons at work in Household as well as Non-household Industry, classified by branch of industry (Divisions, major groups and minor groups). It thus gives industrial classification of workers in both the types of industries upto minor group without the class to which workers belong.

In this table, minor groups having less than 1% of workers of respective divisions (less than 0.5% in case of Division 2 & 3) have not been shown. The divisions thus affected are marked with an asterisk (*). Such minor groups are shown separately in an Appendix to this table. It may be further noted that lines with nil entries have been omitted from this table.

B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This is a new table in which cross-tabulation of industry and occupation has been made for the first time. Separate data are furnished for the persons working in household industry and other industrial categories along with the divisions, groups and families giving Code numbers and actual description. The National Classification of Occupations followed in this table is in conformity with international usage.

Appendix to this table shows in run on lines, families with the number of male and female workers followed by industrial categories having less than 1% of workers of the respective divisions (0.5% for Division 7-8) which are omitted from the main table.

B-VI—OCCUPATIONAL DIVISIONS OF PERSONS AT WORK OTHER THAN CULTIVATION CLASSIFIED BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS

The table gives occupational divisions of persons at work other than cultivation classified by sex, broad age-groups and educational levels in cities.

The literate workers under each occupational divisions are classified by broad age-groups: 0-14, 15-34, 35-59 and 60+ and further classified according to educational levels, viz., literate (without educational levels), Primary or Junior Basic, Matriculation or Higher Secondary, Technical diploma not equal to degree, Non-technical diploma not equal to degree, University degree or post-graduate degree other than technical degree and Technical degree or diploma equal to degree or post-graduate degree under the head Engineering, Medicine, Agriculture, Veterinary or Dairying, Technology, Teaching and Others. The table thus gives useful information about those occupations which attract educated personnel to cities.

Lines with nil entries have been omitted.

B-VII PART-A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

This table is prepared for persons whose principal work is given as either cultivator, agricultural labour or working at household industry and whose secondary work is any one of the remaining two categories.

Major groups of household industry where persons having secondary work as cultivator or agricultural labour are less than 5 per cent of persons having the major group as principal work, have not been shown in the table but are given in the Appendix to this table. Divisions thus affected are marked with an asterisk(*).

B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

In this table the principal work, viz., industrial classification of the non-household industry is given by divisions and major groups and the additional work, viz., household industry by divisions and major groups. This part is prepared by cross-tabulation of persons whose principal work is non-household industry, profession, trade, business or service and who also work in household industry. In such cases Q. 11 of the individual slip was marked with a ring and there was also an entry in Q. 10 regarding household industry. The additional work is confined to household industry only.

B-VIII PART-A—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS

It gives classification of unemployed persons by their educational levels and age-groups. Unemployed persons have been divided into two categories, viz., (i) those who are seeking employment for the first time and (ii) those who were employed before but now out of employment and seeking work. The age-groups given in Category (i) are quinquennial, viz., 15-19, 20-24, 25-29, 30-34, 35+, and those given in Category (ii) are 15-19, 20-24, 25-34, 35-44, 45-59 and 60+. The age-groups are further cross-tabulated with different educational levels of educated unemployed.

B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

The table classifies non-working population into 8 types of activities based on the recommendations of the United Nations Organisation. They are:—

- 1 Full time students
- 2 Persons performing household duties without wages
- 3 Dependents, infants, and disabled persons
- 4 Retired persons, rentiers or persons of independent means
- 5 Beggars, Vagrants, etc.
- 6 Inmates of penal, mental and charitable institutions
- 7 Persons seeking employment for the first time
- 8 Persons employed before but now out of employment and seeking work

The description of divisions, major groups and minor groups of industries has been reproduced as Annexure I from the Standard Industrial Classification. The National Classification of Occupations is also reproduced as Annexure II.

ANNEXURE I

Standard Industrial Classification

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The divisions and major groups with their Code numbers are listed below.

DIVISIONS

- 0 Agriculture, Livestock, forestry, fishing and hunting
- 1 Mining and Quarrying
- 2&3 Manufacturing
- 4 Construction
- 5 Electricity, Gas, Water and Sanitary services
- 6 Trade and Commerce
- 7 Transport, Storage and Communication
- 8 Services
- 9 Activities not adequately described

MAJOR GROUPS

Division 0 Agriculture, livestock, forestry, fishing and hunting

- 00 Field produce and Plantation crops
- 01 Plantation crops
- 02 Forestry and Logging
- 03 Fishing
- 04 Livestock and Hunting

- 10 Mining and quarrying

Division 2&3 Manufacturing

- 20 Foodstuffs
- 21 Beverages
- 22 Tobacco Products
- 23 Textile-cotton
- 24 Textile-jute
- 25 Textile-wool
- 26 Textile-silk
- 27 Textile-miscellaneous
- 28 Manufacture of wood and wooden products
- 29 Paper and paper products
- 30 Printing and publishing
- 31 Leather and leather products
- 32 Rubber, Petroleum and coal products
- 33 Chemicals and chemical products
- 34-35 Non-metallic Mineral Products other than petroleum and coal

- 36 Basic Metals and their products except machinery and transport equipment
- 37 Machinery (all kinds other than Transport) and Electrical equipment
- 38 Transport Equipment
- 39 Miscellaneous Manufacturing Industries

Division 4 Construction

- 40 Construction

Division 5 Electricity, Gas, Water and Sanitary Services

- 50 Electricity and gas
- 51 Water supply and sanitary services

Division 6 Trade and Commerce

- 60-63 Wholesale Trade
- 64-68 Retail Trade
- 69 Trade and Commerce Miscellaneous

Division 7 Transport, Storage and Communication

- 70-71 Transport
- 72 Storage and Warehousing
- 73 Communications

Division 8 Services

- 80 Public Services
- 81 Educational and Scientific Services
- 82 Medical and Health Services
- 83 Religious and Welfare Services
- 84 Legal Services
- 85 Business Services
- 86 Community Services and trade and labour associations
- 87 Recreation Services
- 88 Personal Services
- 89 Services (not elsewhere classified)

Division 9 Activities not adequately described

- 90 Activities unspecified and not adequately described
(This includes new entrants to the labour market)
[Classification and Code numbers at the 3 digit level in respect of minor groups are shown in the subsequent pages]

HOUSEHOLD ECONOMIC TABLES
(CITIES)

HOUSEHOLD ECONOMIC TABLES

The Household Economic Tables are a special feature of the 1961 Census in that economic data are for the first time collected and tabulated on the basis of household. They are prepared from Household Schedules by mechanical tabulation on a 20 per cent sample of households.

The tables give all possible data relating to the extent of land under cultivation by household (i) owned or held from Government, (ii) held from private persons or institutions for payment in money, kind or share and (iii) given to private persons for cultivation for payment in money, kind or share, interest in land cultivated, nature of Household Industry, period of working of Household Industry and the number of persons employed therein either as family workers or as hired workers.

For the purposes of sampling, the following method described in letter No. 6/6/59-RG dated the 9th May, 1961 from the Deputy Registrar General was followed.

"The method of taking out the sample has already been prescribed in the Summary of Proceedings of the Second Conference. Every 5th household from the first random household will be taken. The sample households will be marked continuously for rural areas of a taluka/mahal and for urban areas of a district, i.e., households left over in a household book should be carried over to the next household book for the selection of sample households. Thus, to start with all the pads of Household Schedules of one taluka/mahal should be arranged in order of ascending number of the location codes of villages. Secondly, the random number necessary to make a start should be picked up. Thirdly, the first schedule chosen will correspond to this random number. Thereafter the samples will be continuously picked up without a break until the last pad of the taluka/mahal is exhausted. This procedure is essential to ensure the quality of the sample. The sample household will be indicated by a bold tick at the right hand top corner."

Various terms used and the meaning attached to them will be clear from the instructions for filling up the Household Schedule reproduced below:—

'Household' is a group of persons living together and dining together in a common mess unless the exigencies of work prevent any one of them from doing so. In some census houses there may be more than one group of persons or household each with a common mess or each occupying either a number of rooms or more than one household occupying a single room. Each such group has been regarded as a separate household for census purposes.

Institutions like boarding houses, messes and chummeries have also been regarded as census households but of "un-related persons living together."

The 'head of the household' for census purposes is a person on whom falls the chief responsibility for the maintenance of the household. Thus the head of the household need not necessarily be the eldest male member but may even be a female or a younger member of either sex. The enumerator was, however, advised to record as Head of household the name of the person, actually acknowledged as such.

Write the location code of the household at the top of the schedule. At the right hand corner of the location code you will find a question "Is this an institution?" with a rectangle below it. If you are enumerating any penal, charitable or mental institution, hostel, hotel, hospital, boarding house, etc., write the nature of the institution within the rectangle like jail, hospital, etc.

If the head of the household is a member of the Scheduled Caste or Scheduled Tribe obtaining in your State or in your district, write the name of the particular Scheduled Caste or Scheduled Tribe to which the head of the household belongs within the parallelogram.

The Household Schedule is in three parts. Sub-part 'A' relates to Cultivation; sub-part 'B' to Household Industry and sub-part 'C' to workers at Cultivation or Household Industry.

Sub-part 'A'—'Cultivation'—This part will have to be filled in only where the household cultivates land. Three categories of land are given in items 1(i), 1(ii) and 2. Items 1(i) and 1(ii) relate to land actually cultivated by the household. Item 2 relates to land which is not cultivated by the household but has been given by it to private persons for cultivation for payment in money, kind or share. In each of the three cases the total of separate plots or parcels of land in different places, owned or held, or taken or given for cultivation should be made and entered. If the household (a) cultivates land owned or held from Government or taken from private persons or institutions or (b) has given land to private persons for cultivation, ascertain the local name of the right on such land and record it in the column relating to 'local name of right on land'. Then ascertain the extent of land in each category of local right in acres and record in the column relating to 'area in acres'. Write the total of separate plots or parcels of land under the same right, if they are situated in different places. If the extent of holding is less than 1 acre, the fraction of the acre should be recorded in the Household Schedule and if it is above 1 acre the whole number of acre(s) together with the approximately correct fraction such as 0-0.99 acres, 2-2.99 acres, etc., should be recorded.

This sub-part will not apply to households which consist of only agricultural labourers without any land. In such cases put 'X' in all the spaces provided in the right hand side and put a bold cross on this sub-part.

Sub-part 'B'—'Household Industry'—This part will be filled up only where there is a Household Industry conducted by the Head of the household himself and/or mainly by members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be on the scale of a registered factory. A Household Industry should relate to production, processing, servicing or repairing and includes makers and sellers of goods.

Ascertain from the Head of the household whether there are any Household Industries and write the nature of industry (s) in the column provided, if there are any. Then ascertain for how many months in a year roughly they are conducted and put down the number of months in the appropriate column. If the industry is conducted throughout the year write '12'. If there is no Household Industry of any sort put 'X' in each of the places in the right hand corner and put a bold cross on this sub-part.

Sub-part 'C'—'Workers in Cultivation or Household Industry'—In the case of households which are engaged only in cultivation, if the Head of the household is working write 1 under the column 'Head', and ascertain how many other male and female members of the family are working. Write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total'. Then ascertain whether any hired workers are employed and, if so, write number of such workers in the column allotted for it. The hired workers should have been in wholetime employment during last working season or should be in wholetime employment during current working season. Similarly, record entries in column 2 in case of households engaged in Household Industry and against column 3 if a household is engaged both in Cultivation and Household Industry. In the case of household engaged in Cultivation only, put 'X' in the columns relating to 'Household Industry only' and 'Both in Household Cultivation and Household Industry.' Similarly, in the case of households engaged in Household Industry only, put 'X' in the columns relating to 'Household Cultivation only' and 'Both in Household Cultivation and Household Industry.' If a household is engaged both in Household Cultivation and Household Industry put 'X' in the columns relating to 'Household Cultivation only' and 'Household Industry only.' If a household is not engaged in either Household Cultivation or Household Industry or both, put 'X' in all the columns and bold 'X' on this sub-part.

TABLE B-X—SAMPLE HOUSEHOLDS (i) ENGAGED NEITHER IN CULTIVATION NOR HOUSEHOLD INDUSTRY, (ii) ENGAGED EITHER IN CULTIVATION OR HOUSEHOLD INDUSTRY BUT NOT IN BOTH AND (iii) ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY
(Based on 20% Sample)

This table is prepared on a 20% sample of households. All the households are divided into four categories, viz., (i) Households engaged neither in Cultivation nor Household Industry, (ii) Households engaged in Cultivation only, (iii) Households engaged in Household Industry only and (iv) Households engaged both in Cultivation and Household Industry. The table thus divides all households in three important sectors of economic activity of the State.

Cultivation includes ownership, tenancy cultivation and agricultural labour. The Household Industry as defined in the general flyleaf, relates to production, processing, servicing or repairing and includes makers and sellers of goods.

TABLE B-XI—SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED
(Based on 20% Sample)

This table presents data for 6 cities. Cultivating households are classified in this table according to the size of land cultivated and cross-tabulated by the interest in land. Sizes of land in acres are given as less than 1, 1.0-2.4, 2.5-4.9, 5.0-7.4, 7.5-9.9, 10.0-12.4, 12.5-14.9, 15.0-29.9, 30.0-49.9, 50+ and unspecified.

The interest in land cultivated has been classified into the following categories :—

(1) Owned or held from Government, (2) Held from private persons or institutions for payment in money, kind or share and (3) Partly held from Government and partly from private persons for payment in money, kind or share.

This classification will give an idea of the number of holdings likely to be (i) deficit, (ii) self-sufficient and (iii) surplus for self-consumption.

Abbreviations (a), (b) and (c) are given in place of legends for interest in land under Column 1 of the table and the same have been spelt out as under at the bottom of the table.

(a)=Owned or held from Government,
(b)=Held from private persons or institutions for payment in money, kind or share and
(c)=Partly held from Government and partly from private persons for payment in money, kind or share.

TABLE B-XII—SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION ONLY CLASSIFIED BY SIZE OF LAND CULTIVATED AND NUMBER OF FAMILY WORKERS AND HIRED WORKERS
(Based on 20% Sample)

This table furnishes information on the extent of under-employment and yields surmises on the size and scale of agricultural enterprise. This table will facilitate a further study of households engaged only in cultivation, as each household having a particular size of holding mentioned in Table B-XI has been cross-tabulated with reference to the number of persons working in cultivation. In case of households where more than one person are working, the number of family workers and hired workers has been shown separately.

The Columns 25 and 26 relating to unspecified workers have been omitted as there are no figures thereunder.

TABLE B-XIII—SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY SHOWING SIZE OF LAND CULTIVATED CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY
(Based on 20% Sample)

The table throws light on Household Industries which are carried on as ancillary to cultivation in cities.

The Household Industries classified according to the code numbers of Divisions 0, 1 and 2&3 and their major groups of Indian Standard Industrial Classification are given with their standard description.

TABLE B-XIV—SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY
(Based on 20% Sample)

The table is prepared in two parts—A and B. Part-A relates to households classified by major groups of Principal Household Industry and number of persons engaged. The Household Industries classified according to the code numbers of Divisions 0, 1 and 2&3 and their major groups of Indian Standard Industrial Classification are given along with their standard description. The Household Industries are also classified by the number of persons engaged in each, grouped under 1, 2, 3-5, 6-10 and more than 10 persons.

Part-B—relates to households classified by minor groups of Principal Household Industry.

TABLE B-XV—SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY CLASSIFIED BY SIZE OF LAND
(Based on 20% Sample)

This table is prepared for household engaged both in Cultivation and Household Industry.

In Table B-XIII, which also relates to these households, a cross-tabulation has been made between the size of the holding and the nature of Household Industry. But in this table a further analysis has been made of persons working in these households with reference to sizes of holdings. In cases where more than one person are employed, the number of family workers and hired workers are shown separately. Table B-XV also helps to establish correlation between the scale of household industry and cultivation.

TABLE B-XVI—SAMPLE PRINCIPAL HOUSEHOLD INDUSTRY CLASSIFIED BY PERIOD OF WORKING AND TOTAL NUMBER OF WORKERS ENGAGED IN HOUSEHOLD INDUSTRY
(Based on 20% Sample)

The table furnishes important data on the seasonality of various Household Industries and yields inferences on the seasonality of Household Industry with seasonality of cultivation. The Household Industry has been classified according to the period of working of the industry. The period of working has been grouped under 1-3 months, 4-6 months, 7-9 months and 10 months to 1 year, also giving under each category number of households, number of family workers and number of hired workers in the Household Industry. The Household Industry is divided into (i) with cultivation and (ii) without cultivation.

TABLE B-XVII—SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS
(Based on 20% Sample)

The table is intended to give family sizes distributed according to single member, small, medium, large and very large families. Though a 'Census Household' is not the same as a 'family' and also includes unrelated persons living with the family during the census count, the table will give a general idea of the sizes of families as the number of families having outsiders is quite insignificant.

C—SOCIAL AND CULTURAL TABLES

This series contains 8 tables of which Table C-I has been prepared from Household Schedules, on the basis of 20 per cent sample. It gives information about composition of sample households according to marital status. All the other tables in this series are based on full count and give age, sex and education, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes.

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY
(Based on 20% Sample)

The table is prepared from Part II Census Population Record of the Household Schedules. A household means the entire group of persons who commonly live together in the same census house and usually take their meals from a common mess. It thus includes outsiders residing with the family during enumeration. This table, therefore, gives the composition of a household by family and non-family member. Besides, the heads of the households and their spouses, other family members like married sons and other relations are given separately by sex and marital status.

TABLE C-II—AGE AND MARITAL STATUS

This table is prepared on full count according to the quinquennial age-groups recommended by the United Nations Organisation. It gives five categories of marital status, viz., (1) never married, (2) married, (3) widowed, (4) divorced/separated and (5) unspecified.

Columns 14 and 15 relating to unspecified status have been deleted and figures thereunder have been included in total population.

TABLE C-III—PART-B—AGE, SEX AND EDUCATION

In this table educational levels are given in details with technical and non-technical diplomas, university degrees and technical degrees, cross-classified by age-groups.

TABLE C-IV—SINGLE YEAR AGE RETURNS

This table gives single year age returns in terms of years completed on 1st March, 1961. But infants who did not complete one year on 1-3-1961 are shown under age 'O'. Ages above 100 have been grouped under 101+.

TABLE C-V—MOTHER TONGUE

The table gives languages arranged in alphabetical order for persons, males and females.

'Mother tongue' is the language spoken in childhood by the person's mother to the person or the language spoken in the household.

TABLE C-VI—BILINGUALISM

The table gives data regarding total speakers of mother tongue, total number of persons returned as speaking a language subsidiary to the mother tongue and break-up of subsidiary language into male and female speakers.

TABLE C-VII—RELIGION

This table gives data for six main religions only, viz., Buddhist, Christian, Hindu, Jain, Muslim and Sikh. Persons returned as professing other religions, sects and beliefs which could not be classified under any of the main religions have been grouped under "Other Religions and Persuasions."

TABLE C-VIII—SCHEDULED CASTES AND SCHEDULED TRIBES

Part-A—Classification by literacy and industrial category of workers and non-workers among Scheduled Castes.

Part-B—Classification by literacy and industrial category of workers and non-workers among Scheduled Tribes.

In this table total population of Scheduled Castes/Scheduled Tribes and their distribution by nine industrial categories of workers and also non-workers adopted in the Primary Census Abstract are shown by literate and illiterate.

Part A relates to Scheduled Castes and Part B to Scheduled Tribes.

(CITES)

D—MIGRATION TABLES

Tables D-I to D-III are specially compiled for cities and reproduced in this sub-part along with Tables D-IV and D-V which are for cities only. Portion of Table D-VI pertaining to cities is also reproduced.

TABLE D-I—NON-INDIAN NATIONALS

The table gives the number of persons belonging to different foreign nationalities who were resident in the cities during the Census. The table excludes non-Indian Nationals who were employed in Foreign Embassies, Missions, etc. The nationals of countries included under 'Elsewhere' in the table are given in an Appendix to this table.

TABLE D-II—PLACE OF BIRTH

This table gives the distribution of population by birthplace. Birthplaces in rural and urban areas are given separately in the case of those born in India. One more category of birthplace, viz., 'unclassifiable' has also been added for those born in India.

Under groups B, C, D, E and F, the following countries of each continent have been presented in this table. The 'total' of the remaining countries is given against 'Elsewhere' in the table, the details of which will be found in the supplement to this table.

(B) Countries in Asia beyond India (including U.S.S.R.)

Afghanistan
Burma
Ceylon
China
Nepal
Pakistan
Singapore, Malaya and British Borneo
U.S.S.R.

(D) Countries in Africa

Kenya
Mauritius
Mozambique
Union of South Africa

(E) Countries in Two Americas

Canada
U.S.A.

(C) Countries in Europe (excluding U.S.S.R.)

U.K. (including N. Ireland)
Ireland

(F) Countries in Oceania

Australia
New Zealand

Such of the States/Union Territories under Group A-II and the continents/countries under Groups B, C, D, E and F from which migrants are not reported, have been omitted from the table.

The lines of Rural/Urban/Unclassifiable, wherever the entries are nil, have also been omitted from the table.

TABLE D-III—MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION OF RESIDENCE IN PLACE OF ENUMERATION

This table is based on a new question on migration. It gives duration of residence in the place of enumeration under six categories, viz.,

Less than 1 year	11-15 years
1-5 years	16 years and over and
6-10 years	Period not stated

The table is intended to supplement the information produced by the previous table relating to birthplace, or a detailed study of in-migration. The group 11-15 years yields information on population displaced by Partition.

Countries and States/Union Territories under Group A-II from which migrant figures are not reported, have been omitted from the table.

The lines of Rural/Urban/Unclassifiable, wherever the entries are nil, have also been omitted.

The figures of 'Birthplace Unclassifiable' include the figures of 'Born at Sea.'

TABLE D-IV—MIGRANTS TO CITIES CLASSIFIED BY SEX, BROAD AGE-GROUPS, EDUCATIONAL LEVELS AND IN CASE OF WORKERS ALSO BY OCCUPATIONAL DIVISIONS AND GROUPS

The table is prepared only for the 6 cities of the State, viz., Ahmedabad, Baroda, Surat, Rajkot, Bhavnagar and Jamnagar, given in the descending order of their population. It relates to migrants to cities classified into workers and non-workers. Occupational distribution of workers and non-workers cross-tabulated by age-groups and educational levels gives an indication of occupations that attract migrants to cities as also of the skilled and unskilled type of workers among migrants.

The age-groups and educational levels adopted are :—

Age-groups	Age-groups
(i) 0—14	(iv) 60+
(ii) 15—34	(v) Age not stated
(iii) 35—59	

Educational levels

- (1) Primary or Junior Basic
- (2) Matriculation or Higher Secondary
- (3) Technical diploma not equal to degree
- (4) Non-technical diploma not equal to degree
- (5) University degree or post-graduate degree other than technical degree
- (6) Technical degree or diploma equal to degree or post-graduate degree

- (i) Engineering
- (ii) Medicine
- (iii) Agriculture
- (iv) Veterinary or dairying
- (v) Technology
- (vi) Teaching
- (vii) Others

Occupational groups having less than 5 per cent of the workers of the respective Division and 2.5 per cent in case of Division 7-8 have not been shown in the table, but are given in an Appendix to this table. Divisions thus affected are marked with an asterisk (*).

The following abbreviations have been adopted for age-groups and educational levels in the Appendix.

Educational levels	Age-group	Abbreviation used	Educational levels	Age-group	Abbreviation used
Illiterate	0-14 15-34 35-59 60+ Age not stated	A A I A II A III A IV	University degree or post-graduate degree other than technical degree	15-34 35-59 60+ Age not stated	G I G II G III G IV

During the scrutiny of these returns, certain seemingly incompatible occupational groups vis-a-vis the educational qualifications were noticed, which on actual verification have been found to conform to the existing facts of our present day economy, wherein occupations and educational qualifications do not always go hand in hand. For, persons follow any occupation they get, irrespective of their educational qualifications, as the primary consideration which influences a person in such matters is that of earning bread or making money. All such cases are listed below for the convenience of the reader.

City	Educational level	Occupational Group
Baroda	Primary or Junior Basic	07 (M30, F4)
	Matriculation or Higher Secondary	01 (M9)
Ahmedabad	Illiterate	20 (M53)
	Primary or Junior Basic	01 (M10)
	Matriculation or Higher Secondary	01 (M35)
	University degree or post-graduate degree other than technical degree	79 (M1), 89 (M5)
	Medicine	09 (M6)
	Veterinary and Dairying	04 (M1)
	Technology	71 (M1)
	Teaching	04 (M3)
Rajkot	Illiterate	28 (F41)
	Matriculation or Higher Secondary	01 (M6)

City	Educational level	Occupational Group
Bhavnagar	Illiterate	28 (F20), 60 (M1)
	Literate (without educational level)	05 (F18)
	Primary or Junior Basic	01 (M4), 02 (M1)

Surat	Matriculation or Higher Secondary	01 (M4)
Jamnagar	Illiterate	28 (F12)
	Primary or Junior Basic	60 (M5)
	Matriculation or Higher Secondary	01 (M6)

Similarly in the following cases the occupational groups and educational levels appearing against age-group 0-14 appeared to be incompatible owing to the misstatement of ages by the enumerated persons.

City	Educational level	Occupational Group
Ahmedabad	Illiterate	04(M1,F2); 20(M1); 65(M12); 90(M1)
	Literate (without educational level)	11(M1); 20(M1); 65(M1)
	Primary or Junior Basic	03(F1); 04(M1); 10(M1); 11(M1); 32(M2); 65(M1); 90(M1)
Bhavnagar	Literate (without educational level)	90(M8)
Rajkot	Illiterate	90(M1)
	Primary or Junior Basic	04(F1); 90(M3)
Surat	Illiterate	61(M7)
Jamnagar	Literate (without educational level)	65(M3)

TABLE D-V—CITIES SHOWING POPULATION BORN LOCALLY, MIGRANTS FROM RURAL AREAS AND MIGRANTS FROM OTHER TOWNS AND CITIES

This table is also compiled only for the 6 cities of Ahmedabad, Baroda, Surat, Rajkot, Bhavnagar and Jamnagar, given in the descending order of their population. The table gives separately the extent of in-migration from rural and other urban areas into the city. The in-migration from rural and urban areas has been separately classified by migrants who have been resident for less than 3 years and those who have been resident for 3 years and more at the place of enumeration. These data have also been shown separately for the different types of migration, namely :—

- (1) Born in rural/other urban areas of the same district
- (2) Born in rural/urban areas outside the district but within the State
- (3) Born in rural/urban areas outside the State

Columns 3, 4 and 5 of this table do not indicate the actual population of the city for the following reasons, namely :

- (i) that it excludes persons whose birthplaces have not been recorded as either rural or urban, whose duration of residence has not been stated and who are born in place of birth 'unclassifiable'.
- (ii) that the table relates to persons born within the country.

TABLE D-VI—DISTRIBUTION OF INDUSTRIAL CATEGORIES OF WORKERS AND NON-WORKERS BY PLACE OF BIRTH

This table shows the distribution of birthplace by industrial categories of workers and non-workers and thus gives valuable information on the category of workers among migrants by birthplace.

Wherever the line for unclassifiable in Column 2 is omitted it should be assumed that the total figure under this category is less than 5% of the total population in the particular main group in column 1.

The details of countries included in 'Elsewhere' in the Table are given in a separate Appendix attached to this Table.

4 Jamnagar	104	52	52	1	..	1

Disparity between the two sets of figures is due to the fact that most of the persons born in the former Portuguese territories of Goa, Daman and Diu have been treated as Portugal born.

NOTE :

1 The number of persons born in Portugal as per Table D-II is 2,669 and those of nationals of Portugal as per Table D-I is only 322. This disparity is due to the fact that most of the persons born in former Portuguese territories of Goa, Daman and Diu have been treated as Portugal born.

2 Line with nil entries have been omitted.

E—HOUSING TABLES

The present housing Census is the first of its kind in the history of the Indian Census organized on a uniform basis throughout the country alongwith the population Census of 1961. In the past censuses, house-listing was purely an administrative arrangement. Only residential houses were numbered and listed with the name of the head of the household. However, during 1961 Census a comprehensive house-list for collecting detailed information regarding each census house and industrial establishment, formed part of the statutory census schedules. The house-list form brought into use during the current Census has recorded data on housing such as type of houses, tenure status, material of wall and roof, number of rooms in a census household and of persons residing therein as well as essential data relating to establishments, workshops and factories, such as name of the establishment or proprietor, name of products, number of persons working and the kind of fuel or power, if machinery is used.

The following five housing tables have been compiled from the house-lists:

E-I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

E-II—TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING

E-III—CENSUS HOUSES USED AS FACTORIES AND WORKSHOPS CLASSIFIED BY INDUSTRY, POWER AND NO POWER USED AND SIZE OF EMPLOYMENT

E-IV—DISTRIBUTION OF SAMPLE HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLINGS BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

E-V—SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

Out of the five tables stated above, Tables E-I and E-III have been prepared on full count and Tables E-II, IV and V on the basis of 20 per cent sampled households. For the purposes of drawing the sample, the house-lists were arranged separately in the order of location code numbers in case of (i) rural areas of a taluka/mahal and (ii) urban areas other than towns with population of 50,000 and over for a district, and (iii) for every town with a population of 50,000 and over. The samples were marked continuously for all the house-lists thus arranged and the households left over at the end of the house-list after marking the last sample were carried over to the next house-list for sample selection.

The part of these tables pertaining to cities is reproduced in this volume.

The explanatory note on each of the tables is given below:

TABLE E-I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

Table E-I prepared on full count gives figures of census houses classified into different categories according to the uses to which they are put. Those found vacant at the time of house-listing have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified.

Dwellings, shop-cum-dwellings, workshop-cum-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered under the Factories Act and workshops and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctor's clinics, dispensaries, etc.

Others

Occupied census houses which do not fall in any of the above categories have been classed as 'Others'.

With a view to understand the significance of statistics incorporated in E Series of Tables, the concepts and definitions of the terms occurring in the Table are given below:

Census house

"A Census house is a structure or part of a structure inhabited or vacant, or, a dwelling, a shop, a shop-cum-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Census household

"A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so."

Shop

"A shop is a place where articles are sold for cash or for credit."

Workshop

"A workshop is a place where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act." Following are some of the instances:

Paper-making, shoe-making, tailoring, cycle-repairing, motor-servicing, *halwai's* shop, pottery-making, goldsmith, blacksmith, etc.

Factory

"A factory is a large workshop which has been registered under the Indian Factories Act."

Business houses

Business houses are those premises where transactions in money or other articles are taking place. Detailed explanation of all these will be found in the Introductory Chapter of the Report on Housing and Establishments

TABLE E-II—TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING

This table has been prepared on the basis of 20% sample. Census households used as dwellings, shop-cum-dwellings, workshop-cum-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. Shop-cum-dwellings and workshop-cum-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented.

TABLE E-III—CENSUS HOUSES USED AS FACTORIES AND WORKSHOPS CLASSIFIED BY INDUSTRY, Power AND No Power USED AND SIZE OF EMPLOYMENT

This table which gives for the first time, statistics of census houses used as factories, workshops and workshops classified by power and no power used and size of employment has been prepared on the basis of full count. Establishments returned in the house-list have been classified into 3-digit industrial codes of minor group numbers of National Standard Industrial Classification. They pertain only to manufacturing industries which include repairing or servicing of the articles produced. The table is thus restricted to Division 2 and 3 of the Industrial Classification plus establishments relating to all the minor groups except 047 under Major Group 04 of Division 0.

All the establishments have been further classified according to the kind of fuel or power used, viz.,

- | | |
|------------------------------|------------------|
| (i) Electricity | (iv) Other power |
| (ii) Liquid fuel | (v) No power |
| (iii) Coal, Wood and Bagasse | |

Entries having nil figures have been omitted from this table.

The classification of industries according to power or fuel is made in case of only those industries which use machinery. Wherever, therefore, machinery is not used, the fuel used in the manual process has not been taken into consideration and such industries have been classified as industries using 'No Power'.

The table further gives details of the persons employed classified into the following seven categories

1 person	20-49 persons
2-5 persons	50-99 persons
6-9 persons	100 persons and above
10-19 persons	

Average number of persons working per day during the week preceding the day of enumerator's visit has been taken as criterion for number of persons employed. For the purpose of computing average number of persons, the total number of workers including apprentices, paid or not paid, employed in the factory or workshop including the owner or proprietor and any of his family members have been taken into account. Definitions of the terms and concepts used in this table are the same as those explained in the flyleaf to Table E-I.

TABLE E-IV—DISTRIBUTION OF SAMPLE HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

This table has been prepared on 20% sample basis. Census Households used as dwellings, shop-cum-dwellings, workshop-cum-dwellings and dwellings with other uses have been taken into account for the purpose of marking the sample. The total number of houses given in col. 3 of this table gives the totals of all such sampled households. The material out of which most of the walls are made or where a house consists of separate structures, each of different materials, the material out of which the walls of the main bedrooms are made has been entered. The wall material has been classified into the following nine categories.

- | | |
|------------------------------------|--|
| (1) Grass, leaves, reeds or bamboo | (6) C. I. Sheets or other metal sheets |
| (2) Timber | (7) Stone |
| (3) Mud | (8) Cement concrete |
| (4) Unburnt bricks | (9) All other material |
| (5) Burnt bricks | |

TABLE E-V—SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

This table has been prepared on 20 per cent sample basis. Census households used as dwellings, shop-cum-dwellings, workshop-cum-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The figures given in Column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households as also the total number of rooms in these households are shown separately. All the sampled households have been further classified into the following six categories:

- | | |
|---------------------|-------------------------|
| (i) no regular room | (iv) three rooms |
| (ii) one room | (v) four rooms |
| (iii) two rooms | (vi) five rooms or more |

The classification of households into the above categories gives not only the number of households in each category, but also the number of occupants by sex.

**TABLES ON SCHEDULED CASTES
AND
SCHEDULED TRIBES**

SCT/SC/ST—SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

The Constitution has provided special safeguards for Scheduled Castes and Scheduled Tribes. The Centre and the State through the successive Five Year Plans are taking various welfare measures, for the formulation of which detailed statistics are necessary. At the 1951 Census there were no special tables for Scheduled Castes/Scheduled Tribes, except Table D-III giving the total number of persons belonging to Scheduled Castes and Scheduled Tribes and their distribution among the eight livelihood classes adopted for that Census for certain rural and urban tracts. These tracts were arbitrary and formed by grouping rural and urban areas of two or more talukas/mahals. Difficulties were, therefore, experienced in framing schemes for their amelioration. More detailed tabulation at this Census will remove this lacuna and these tables will serve as a bench mark for evaluating future schemes. The data will also prove useful in planning for the future. With this end in view, villagewise population of Scheduled Castes and Scheduled Tribes with their break-up into males and females as given in the Primary Census Abstract, are printed in the District Census Handbooks. Special tables have been devised to give the population figures for each Scheduled Caste and Scheduled Tribe and their cross classification by religion, age, marital status, education, mother tongue, bilingualism and economic activity. There is also a table on household cultivation confined to the total of Scheduled Castes and Scheduled Tribes.

A person is treated as Scheduled Caste/Scheduled Tribe, if he belongs to a Caste/Tribe declared as such in the President's Orders, viz., the Constitution (Scheduled Castes) Order, 1950 and the Constitution (Scheduled Tribes) Order, 1950. Scheduled Castes and Scheduled Tribes listed in the 7th and 8th Schedules annexed to the Bombay Reorganisation Act amending these orders so far as they relate to part IV-Gujarat are reproduced in Annexures A and B. Scheduled Castes can belong to the Hindu or Sikh religion only, while Scheduled Tribes may belong to any religion. General and vague terms like Achhut, Harijan and Adivasi returned by the enumerator are treated as unclassified Scheduled Castes/Scheduled Tribes. In these tables all the names of Scheduled Castes/Scheduled Tribes along with their generic names or synonyms/sub-tribes as they appear in the President's Orders are shown irrespective of the fact whether there are any figures for any one of them or not. Caste/Tribe names are spelt strictly in accordance with the said Orders.

There are in all 8 tables in this series of which 7 tables are specially compiled for cities and given in this sub-part.

TABLE SCT-I—INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX

The table is prepared in two parts—Part A for Scheduled Castes and Part-B for Scheduled Tribes. This is a very important table as it gives the population of each Scheduled Caste/Scheduled Tribe separately along with the sector of industry in which the members of each Scheduled Caste/Scheduled Tribe are working. In Part-A additional data regarding 'Tanning and Currying' and 'Scavenging' in which the members of Scheduled Castes are engaged are also given.

In the table all the names of Scheduled Castes/Scheduled Tribes with their generic names or synonyms/sub-tribes as they appear in the President's Orders, are shown irrespective of the fact whether there are any figures for any of them or not.

TABLE SCT-II—AGE AND MARITAL STATUS

The table is prepared in two parts—Part-A for Scheduled Castes and Part-B for Scheduled Tribes. This is an important demographic table. It fulfils a very useful purpose, as at present demographic data are not at all available in respect of these communities. The age-groups are restricted to ages 0-14, 15-44 and 45+. It gives data regarding never married, married, widowed, divorced/separated and unspecified status for each Scheduled Caste/Scheduled Tribe. The marital status in age-group 0-14 shows the extent of child marriage still practised by them. In the case of Tribes, it will give an indication whether the tribal population is decreasing, stable or increasing.

TABLE SCT-III—EDUCATION

The table is prepared in two parts—Part-A(i) for Scheduled Castes and Part-A(ii) for Scheduled Tribes. It gives the literacy and educational levels for each Scheduled Caste and Scheduled Tribe. Data are given for educational levels, viz., (i) Primary or Junior Basic, (ii) Matriculation or Higher Secondary, (iii) Technical diploma not equal to degree, (iv) Non-technical diploma not equal to degree, (v) University degree or post-graduate degree other than technical degree and (vi) Technical degree or diploma equal to degree or post-graduate degree. This table will show level of education in these communities and help formulating schemes for the spread of education.

TABLE SCT-IV—RELIGION

The table is intended to give the religion professed by the members of Scheduled Castes/Scheduled Tribes. It is prepared in two parts—Part-A for Scheduled Castes and Part-B for Scheduled Tribes. Members of Scheduled Tribes may belong to any religion, but members of Scheduled Castes can belong either to the Hindu or Sikh religion. There are only 3 Persons, 1 Male and 2 Females belonging to the Scheduled Castes who have returned themselves as Sikhs from Rajkot and Ahmedabad cities. SCT-IV Part-A has, therefore, been prepared for these two cities only. In the case of other cities as all the Scheduled Castes belong to the Hindu religion, the caste-wise population is given in Table SCT-I Part-A.

TABLE SC-I—PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND EDUCATIONAL LEVELS FOR SCHEDULED CASTES

This is a special table for Scheduled Castes. It is prepared for total of all Scheduled Castes and not of individual castes separately. The table gives useful information regarding educational levels, viz., (1) Illiterate, (2) Literate (without educational level), (3) Primary or Junior Basic, (4) Matriculation or Higher Secondary and (5) Above Matriculation or Higher Secondary. It is compiled in respect of persons of Scheduled Castes not at work and gives data about different types of activities of non-workers among Scheduled Castes, viz., (1) full time students, (2) persons seeking employment for the first time, (3) persons employed before, but now out of employment and seeking work and (4) others.

TABLE ST-I—MOTHER TONGUE AND BILINGUALISM FOR SCHEDULED TRIBES

This is a special table for Scheduled Tribes. It gives data regarding language or dialect spoken by each Scheduled Tribe. It also gives data about subsidiary languages, if any, spoken by the members of the Scheduled Tribes.

TABLE ST-II—PERSONS NOT AT WORK CLASSIFIED BY SEX AND TYPE OF ACTIVITY FOR SCHEDULED TRIBES

This is a special table for Scheduled Tribes. It gives information regarding types of activities of non-workers of members of Scheduled Tribes. The types of activities of non-workers are (1) full time students, (2) persons seeking employment for the first time, (3) persons employed before but now out of employment and seeking work and (4) others. The table reveals information regarding students and unemployed persons and the progress of education and position of employment of each individual Scheduled Tribe.
