ACKNOWLEDGEMENT

It is my pleasant duty to acknowledge the able assistance given by the following officers and staff of my office in the preparation of this Volume.

1. Sri. V. R. Chandran, Dy. Director of Census Operations
2. Sri. T. R. Rajagopalan, Dy. Director of Census Operations
3. Sri. Anser Ahmed, Tabulation Officer
4. Sri. S. Ethiraj, Tabulation Officer
5. Sri. C. K. Somasundaram, Senior Technical Asst.
6. Sri. M. Jayaraman, Statistical Asst.
7. Sri. M. B. Vijayarahavan, Statistical Asst.
8. Kum. P. Mythily, Computer
9. Smt. R. Rukmani, Computer
10. Sri. A. Guruswamy, Computer
11. Sri. A. Loganathan, Computer
12. Sri. N. B. Muruganandam, U. D. C.
13. Sri. P. Victor Jeyaraj, U. D. C.

15. Sri. N. Chandran, Draftsman

K. CHOCKALINGAM,
Director of Census Operations.

PREFACE

The District Census Hand Book for each District containing all basic details of population for all villages and towns in the District along with other administrative statistics, was first brought out by Census Organisation in 1951 and was published by the State Government. Till then the village statistics showing merely the number of houses and population by religion in respect of each village and town were published as supplement. In 1951, the General Population Tables, economic tables and villagewise and townwise statistics relating to taluks were presented as Part-I and Social and Cultural Tables as Part II. The contents of the Hand Book was improved upon during 1961 Census and was found to be useful as a reference book for research scholars, State and Central Government, Local Bodies and Private Institutions. In 1961, the Hand Book was brought out in two volumes, Volume I showing all the Census Tables giving talukwise data with a narrative report and Volume II containing villagewise and townwise population statistics known as "Primary Census Abstract." During 1971 Census, it was decided to improve the contents of the District Census Hand Book still further and continue this useful publication by the State Government. It has been decided to present the District Census Hand Book in three parts during 1971.

PART-A:

This contains the Village and Town Directory, which will show the land use pattern data, basic amenities available in the village and the conditions of the towns.

PART-B.

This Part furnishes the Village and Townwise Primary Census Abstract, giving basic data like population, Literates, Scheduled Castes, Scheduled Tribes and Industrial Classifications of Workers and Non-Workers.

PART-C:

This Part presents the Administrative Statistics, collected and combined from the various Departments of the State Government and Census Tables along with short Analytical Report.

The present volume contains Part A & B, while Part C is being published as a separate volume.

PART-A: VILLAGE AND TOWN DIRECTORY:

As the title suggests this contains certain basic details of all Villages and Towns in the State. The Village Directory is presented at the taluk level and

Town Directory at the District level. The village Directory is presented first followed by the Town Directory. In the Village Directory, for each taluk, a statement showing the villages, their extent, the amenities like Educational, Medical, Drinking Water Supply, Communications, Postal and Telegraphs etc., available within each village and also the land use pattern are given. The staple food of the population of each village has also been indicated. In addition, to this, particulars in regard to land use data and certain other miscellaneous information such as the existence of Veterinary hospitals, Co-operative Societies, Banks etc., are also furnished. An alphabetical list of villages has also been prepared, indicating the Location Code Number of the village for purposes of quick reference. The Non-city urban areas (Non Municipal areas) and the Municipal areas have been deleted from the Main Village Directory statement and particulars in respect of rural areas alone are furnished. The land use particulars of places comprising of non-city urban units (Non-municipal area) is given as Appendix I. The Talukwise abstract showing the total number of institutions and number of Villages where such basic amenities like Educational, Medical, Drinking Water Supply, Communications, Postal and Telegraphs etc., are available has also been prepared and given as Appendix II of Village Directory. The particulars relating to the Village Directory have been collected from concerned Tahsildars.

The Town Directory presents important and useful information like Civic and other amenities available in all the Census Towns of the district. The details relating to the Towns have been presented in *Seven* Statements, as indicated below :-

Statement I: Status, Growth History and Functional Category of Towns.

Statement II: Physical Aspects and Location of Towns (as on 1969)

Statement III: Municipal Finance (as on 1968-69)

Statement IV: Civic and other amenities (as on 1969)

Statement V: Medical, Educational, Recreational and Cultural Facilities in Towns (as on 1969)

Statement VI: Trade, Commerce, Industry and Banking (as on 1969)

Statement VII: Population by religion (as per 1971 Census)

The scope of the Village and Town Directory as also the notations used in the same are indicated in the Introductory Note to Part-A.

PART-B: VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT :

This Part contains the basic population data for each village in the "Village-wise Primary Census Abstract" and for each "Enumerator Block" of a town in the "Urban Blockwise Primary Census Abstract". The population data are given for the total population (including the houseless and institutional population)

Scheduled Castes, Scheduled Tribes, Literates and Educated Persons, Total Workers, Workers by nine industrial categories and non-workers by Sex. In addition, the area, number of occupied residential houses and number of households are also given.

In the 1961 Census Handbook, the data for rural areas were presented for each Panchayat while figures were presented for Villages alone wherever these were not constituted into a separate Panchayat. With a view to ensure comparability and to enable data users to derive the figures either for a Revenue Village or Panchayat according to their requirements, the data are now presented for segments of villages also wherever portion of one village happen to form part of two or more Panchayats. For example, if portions of a revenue village bearing L. C. No. 12 forms part of two Panchayats, the figures are given separately for each portion of the village against L. C. No. 12a/b and b/b. The total figures for the entire revenue village may be obtained by adding the figures given against both the segments viz., 12 a/b and b/b. If instead, the Panchayat figures are required, the cross-references for the other segment of the Panchayat if any, printed in the Appendix to the Villagewise Primary Census Abstract may be taken note of and the figures for concerned Location Code Numbers added to arrive at the total figures for the respective Panchayats.

Changes in the Industrial Categories, 1961-1971 :

The Industrial Categories of workers for which the data are presented in this Volume are :

- I Cultivators
- II Agricultural Labourers
- III Livestock, Forestry, Fishing, Hunting & Plantations, Orchards and Allied activities.
- IV Mining and Quarrying
- V Manufacturing, Processing, Servicing and Repairs.
 - a) Household Industry
 - b) Other than Household Industry
- VI Construction
- VII Trade and Commerce
- VIII Transport, Storage and Communications and
- IX Other Services.

In this table, the departure from 1961 Census Table is in respect of assigning a separate category to Mining and Quarrying, i. e. category IV as against a combined category of Mining, Quarrying, Live stock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities in 1961. The 1961 category IV

(x)

Household Industry is now included in category V-Manufacturing, Processing, Servicing and Repairs — treating it as a sub-category V (a). At the 1961 Census, "Household Industry" covered establishments falling under Divisions "0" and "1" of the National Industrial Classification e.g. Cattle rearing, Orchard keeping, Plantations etc., apart from Divisions "2" and "3". At the 1971 Census, Household Industry is confined to Divisions "2" and "3" only i.e. it covers Manufacturing, Processing, Servicing or Repairing services only.

Mode of Presentation: The consolidated figures for district and taluks are given in the beginning for Total, Rural and Urban areas under the caption 'District Primary Census Abstract'. An alphabetical list of revenue villages is then given along with the Census Location Code Numbers of 1971 and 1961 to enable comparison. Then the Villagewise Primary Census Abstract is printed. In the appendix given at the end of the Villagewise Primary Census Abstract, the Panchayats consisting of portions or whole of 2 or more revenue villages are furnished with necessary cross-reference of Location Code Numbers, so as to enable collection of data for Panchayats. Then follows the Urban Blockwise Primary Census Abstract. In the appendix to the Urban Blockwise Primary Census Abstract, the details of the number of House Numbering Ward/Block and the name and/or numbers of streets as well as the door numbers which constitute each Enumerator Block are given. This arrangement is followed for each Taluk and independent sub-taluk in the district.

Maps: Apart from the District Map given as frontispiece, a map relating to each taluk showing details of Revenue Village numbers along with their boundaries is also printed and appended at the appropriate places. As compared with the maps presented in 1961 District Census Hand book several improvements have been effected in the maps presented in this volume. The depiction of revenue village boundaries in the maps is a notable change in 1971 Census. All towns are shown in the District and Taluk maps with shading screens and also spheres according to the population size of towns.

Area Figures: In the District Primary Census Abstract, the area figures are given in Square Kilometres for Total, Rural and Urban areas. In the Villagewise Primary Census Abstract, the area figures for each Location Code Unit are given in Hectares. The area figures for each town is also given at the end of Urban Blockwise Primary Census Abstract in Square Kilometres. In the District Primary Census Abstract, the area figures of the District Total represent the "Geographical Area" figures supplied by the Surveyor-General. Figures for Urban areas are those supplied by the Local Bodies. The urban area of a district has been arrived by adding the urban area figures of the taluks within the district. Area figures for the rural areas of District/Taluk are derived by subtracting the urban area figures from the total area of the District/Taluk. The total of the

(xi)

area figures of the taluks will not tally with the district figures because the taluk area figures represent the 'Land use' area and are derived from the figures supplied by the Tamil Nadu Directorate of Survey and Land Records, while those of the district represent "Geographical Area" supplied by the Surveyor-General of India. The total of the village areas given in the Villagewise Primary Census Abstract may not tally with the rural area of the taluk given in the District Primary Census Abstract as the taluk area figures take into account hills, forests, rivers, etc., whereas the village area may not include them.

Urban Agglomeration: During 1971 Census, a new concept called "Urban Agglomeration" has been introduced. It is common knowledge that in several places, around a core city or a statutory Town, there is sub-urban growth such as railway colonies, and other residential colonies, university campuses, port areas, industrial areas, etc., and these areas are sometimes outside the statutory limits of the core City or Town. It may not be altogether realistic to treat such areas lying outside the statutory limits as separate entity and it will be more appropriate if such areas are reckoned along with the core City or the Statutory Town concerned. Such continuous urban spread including all the contiguous urban areas around it would be more appropriately treated as an integrated urban area. This integrated urban area is called "Urban Agglomeration" in the 1971 Census and it has replaced the concept of "Town Group" used in 1961 Census. Thirty-two urban agglomerations have been formed in the State. No urban agglomeration confirming to the above definition has however been formed in Kanyakumari District.

It is hoped that the pattern of presentation of basic Census particulars for each district as explained above and adopted as Parts A & B in this Volume would be found convenient by data users.

I place on record my gratefulness to Shri A. Chandra Sekhar, Registrar General, India, for permitting the publication of the District Census Handbooks at the 1971 Census also and for improving the contents of the District Census Hand books.

K. CHOCKALINGAM,
Director of Census Operations.

Females	0.23

**PART A
VILLAGE AND TOWN DIRECTORY**

INTRODUCTORY NOTE

VILLAGE DIRECTORY

The details of the data furnished in different columns of the Village Directory and the method of collection of the data on land use pattern etc. are indicated below:-

(1) *Location Code Number*: Numbers have been assigned to the administrative units of district, taluk and village to denote their location. By a combination of these numbers, it would be possible to know the exact location of an area. The district number is given along with the name of the district on the cover page and the taluk number is shown against the taluk name in the concerned pages. The villages in each taluk are arranged in the Location code order.

The village number has been given against the name of the concerned unit and the numbers have been assigned in Arabic numerals for each taluk separately.

Educational Amenities :

Primary School	...	Upto Vth Standard
Middle School	...	Upto VIIIth Standard
High School	...	Upto XIth Standard

Power Supply: Villages having electrification facilities for agricultural purposes only are also taken as electrified and a suitable indication in this regard has been noted in the remarks column.

Communications: Villages having Railway Station within a mile are taken as served by train facilities. Villages connected by road are also indicated in this column.

Staple Food: Food of the majority population of the village during the major portion of the year is taken as staple food.

Forest: This includes all actually forested area, the lands classified or administered as forests under any legal enactment, dealing with forests, whether state owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion has been included under the appropriate heading of cultivated or uncultivated land.

Irrigated and Unirrigated land: Irrigated and Unirrigated lands cover all agricultural lands and include net area sown with crops and orchards and also current and other fallows.

As far as possible, the extent of irrigated land under different types of irrigation river, tank and well and the total area irrigated have also been indicated.

Cultivable waste: This includes lands fit for cultivation, whether or not taken up for cultivation or once taken up for cultivation but not cultivated for more than five years in succession. Such lands may be either fallowed or covered with shrubs and jungles which are not put to any use. They may be assessed or unassessed and may lie in isolated blocks or within cultivated holdings. Lands under thatching grasses, bamboo bushes and other groves for fuels etc. which are not included under orchards or forests shall also come under this head. All grazing lands whether they are permanent pastures and meadows or not; village common and grazing lands within forest areas are included in this column.

Area not available for cultivation: This includes land not available for cultivation such as barren and uncultivable land and land put to non-agricultural use. Land put to non-agricultural use are lands occupied by buildings, roads and railways or under water e.g. Rivers and Canals and other lands put to uses other than agricultural purposes.

Barren and uncultivable lands cover all lands like mountains, deserts etc. which cannot be brought under cultivation without expensive operations, whether such land is in isolated blocks or within cultivated holdings.

TOWN DIRECTORY

Town Directory presents important and useful information like civic and other amenities available in the towns. The details relating to each of the towns have been presented in the form of 7 statements.

Location Code Number of Towns: To distinguish the town from the village, the Location Code Numbers have been given in Roman numerals and these numbers have been assigned in a continuous order for the District as a whole.

Census Definition of Towns: Places having the following characteristics have been treated as urban :

(1) A Municipal Corporation area or a Municipal area, a Town Committee or notified Area Committee or a Cantonment Board;

(2) If it does not have the above administrative status then it should have the following urban characteristics:

(a) A minimum population of 5,000 (estimated for 1971),

(b) A density of not less than 400 per sq. km. i. e. 1,000 per sq. mile,

(c) 75% of the male working population should be in non-agricultural sector.

Even, places which do not satisfy the above criteria, if in the opinion of the concerned collector are fit to be declared as urban, have been treated as urban. The urban area having population of less than one lakh is known as "Town" and the area having population of more than one lakh is called "City".

The number of towns covered by the Directory in Kanyakumari District are fine. Among these the areas treated as towns for the first time during this Census are given in Annexure (1).

Definition of concepts and terms used in Town Directory:

(1) **Urban Agglomeration:** An urban agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths or two or more physically contiguous towns together with continuous, well recognised urban outgrowths, if any, of such towns. There is no urban agglomeration in this District.

(2) **Standard Urban Areas:-** Rural and urban areas contiguous to the towns and cities having population of 50,000 and more which have at present influence and inter-action with the core town and also places which are likely to have such influence and inter-action have been delineated as standard urban areas. Thus all areas contiguous to the core towns of population of 50,000 and above having any or all of the following characteristics have been included.

(a) Predominant urban land use:

(b) Intensive inter-action with the urban centres as reflected in, commutation for the purposes of work and secondary education facilities; extension of city bus service; sale of commodities, like milk, dairy products; vegetables (other than those transported by rail or truckhaul) and purchase of food grains, cloths and general provisions etc. by the consumers directly;

(c) Anticipated urban growth as a result of locational decisions relating to industry, market, transport and communications, administrative and servicing functions;

(d) Existence of big village with a large proportion of working force engaged in non-agricultural industrial categories.

Thus, the standard urban area can be defined in short as the projected growth area or city, as it would be in 1991, taking into account not only the towns and villages which would get merged into the city but also the intervening areas which are potentially 'urban'.

The list of Standard Urban Areas in this district are given in Annexure (3).

(3) *Statement I: Civic Administrative Status*: It denotes whether a town is a Corporation or a Municipality or Panchayat or a Township.

(4) *Functional category*: Based on the percentage of workers in broad types of economic activities, the functional category for the town has been determined. The workers are characterised into 9 industrial categories which is based on the nature of economic activities carried on in an establishment. The following are the 9 industrial categories.

- I Cultivators
- II Agricultural Labourers
- III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities
- IV Mining and Quarrying
- V Manufacturing, Processing, Servicing and Repairs.
 - a) Household Industry
 - b) Other than Household Industry
- VI Construction
- VII Trade and Commerce
- VIII Transport, Storage and Communications and
- IX Other Services

These 9 categories have been regrouped into 5 broad functional categories. They are as follows :-

- (i) *Primary Activities: (Cultivation and allied activities)* comprising of industrial categories I, II, III and IV.
- (ii) *Industry: (Manufacturing, construction and allied activities)* comprising of industrial categories V (a) and (b) and VI.
- (iii) *Trade and Commerce*: Comprising of industrial category VII.
- (iv) *Transport*: Comprising of industrial category VIII.
- (v) *Services*: Comprising of industrial category IX.

In cases where the percentage of workers under any one of the above five broad categories form 40% or more of the total workers, the concerned category alone would have been indicated against this column. If the percentage is less than 40, then the next predominant category also is taken into account and if the total of the two forms 60% or above, both the broad categories would have been

indicated. If the total of the two major categories falls below 60% then the third predominant category is also taken into account and then the name of all the three concerned categories would have been indicated.

A town where only one functional category has been indicated can be described as 'Mono-functional town' i. e. to say a town having only one predominant function. A town against which two broad categories have been recorded is known as 'Bi-functional town' i. e. to say a town having two functional categories. A town in which three functional categories have been noted is known as 'Multi-functional town' i. e. to say a town which has more than two predominant functional categories.

Statement II: The physical and locational aspects as in 1969 have been covered in this statement. Under physical aspects altitude, annual rainfall and temperature figures are furnished. The altitude particulars were obtained from the Survey of India Office, Bangalore. For Annual rainfall, figures were collected for minimum period of 20 years for the District and the average was worked out. The temperature figures were obtained for 25 years from the Meteorological Department for the District and the District average figures are given for the towns. Regarding Hill Stations separate figures were furnished for rainfall and temperature. For Col. (7) nearest city with population of 1 lakh or more is furnished according to 1971 Census. For the other cols. figures obtained from the Executive Officers, Municipal Commissioners and Tahsildars are given. In Col. 12, the zero within the brackets denotes that the referent town is enjoying road transport facilities.

Statement III: This refers to the "receipts and expenditure" of Municipal Finance for 1968-69. The various sources of receipt and expenditure are furnished in terms of hundreds.

Statement IV: The civic and other amenities existing in the towns as on 1969 are given. For cols. other than electrification the data were obtained from the Executive Officers and Municipal Commissioners of the concerned towns. Electrification particulars were obtained from the Electricity Board, Madras.

Electrification:

(i) *Domestic Connection*: This refers to the number of services given to houses for domestic purposes for fans, lighting etc.

(ii) *Industrial Connection*: This refers to the number of services effected to L-T. Industries such as workshops, flour mills, oil mills, grinding-machines, cotton ginning, Engineering Industries etc.

(iii) *Commercial Connection*: This refers to the services given to shops, business houses, public institutions like offices and schools and Commercial establishment.

(iv) *Road lighting points*: This refers to the number of points of street lights which will be maintained by the Board and for which consumption charges will be paid to the Board by respective local bodies. For some town Panchayats the number of services effected alone has been furnished under street lights and not the points.

(v) *Other connection*: This refers to the number of services effected for agricultural purposes.

Statement V: In this statement Medical, Educational Recreational and Cultural facilities of the towns as on 1969 were furnished. The data for Educational facilities were obtained from the Executive Officers and from the University of Madras. *Recognised Shorthand typewriting and other vocational training institutes.*

The term 'recognised' means institutes recognised by some statutory authority like Education Department, Commerce Department, Labour Department etc. of the Government or by some Government or autonomous bodies Public Sector projects etc. Cinemas refer only to the permanent Cinema Theatres and do not include touring cinemas.

In col. 13 under others the total number of Training Schools, Agricultural Institute, Blind Schools, Arts and Crafts Schools, Deaf and Dumb Schools are furnished. The above data were collected from the Director of Public Instruction.

For other cols. the figures were obtained from local officials.

Statement VI: In this statement, trade, commerce, industry and banking facilities in the towns as on 1969 are furnished. Banking particulars were obtained from the Reserve Bank of India. The number of agricultural and non-agricultural credit societies were collected from the Registrar of Co-operative Societies.

Statement VII: The religion wise population as per 1971 Census are furnished and these have been compiled from the Census records.

* These represent "geographical area" figures supplied by the Surveyor-General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by subtracting the urban area from the total area of the district. The total of the area figures of the taluks will not tally with the district figures because the former represent "land use" area and are derived from the figures supplied by the Director of Land Records.

Area figures for Village and Town areas are those supplied by the Assistant Director of Survey and Land Records of the District concerned (in consultation with the Tahsildars of the taluks concerned) and Local Bodies respectively. The total of the area figures of the village and town areas will not tally with the taluk figures furnished by the Director of Land Records because taluk area given by Director of Land Records takes into account hills, forests, rivers, etc., whereas village and town area may not include the same.

Area figures for Village and Town areas are those supplied by the Assistant Director of Survey and Land Records of the District concerned (in consultation with the Tahsildars of the taluks concerned) and Local Bodies respectively. The total of the area figures of the village and town areas will not tally with the taluk figures furnished by the Director of Land Records because taluk area given by the Director of Land Records takes into account hills, forests, rivers, etc., whereas village and town area may not include the same.

Area figures for Village and Town areas are those supplied by the Assistant Director of Survey and Land Records of the District concerned (in consultation with the Tahsildars of the taluks concerned) and Local Bodies respectively. The total of the area figures of the village and town areas will not tally with the taluk figures furnished by the Director of Land Records because taluk area given by the Director of Land Records takes into account hills, forests, rivers, etc., whereas village and town area may not include the same.

APPENDIX

STATEMENT SHOWING A LIST OF REVENUE VILLAGES FORMING
PART OF PANCHAYATS

4. AGASTEESWARAM TALUK

L.C. No.	Name of Village	Name of Panchayat in which included with alphabetical indications for the total segment	Cross reference for the other segment/ segments of the Panchayat.
(1)	(2)	(3)	(4)
4 b/b	Kulasekarapuram	Mylaudy a/b	7 d/f for b/b
5 a/d	Marungoor	Marungoor a/b	7 b/f for b/b
5 b/d	Marungoor	Nalloor a/b	7 c/f for b/b
6 c/c	Theroor	Therakalputhoor a/b	13 a/c for b/b
7 b/f	Eraviputhoor	Marungoor b/b	5 a/d for a/b
7 c/f	Eraviputhoor	Nalloor b/b	5 b/d for a/b
7 d/f	Eraviputhoor	Mylaudy b/b	4 b/b for a/b
7 f/f	Eraviputhoor	Suchindrum a/b	8 a/b for b/b
8 a/b	Suchindrum	Suchindrum b/b	7 f/f for a/b
8 b/b	Suchindrum	Kariamanikapuram a/c	12 b/c for b/c & 13 b/c for c/c
10 a/k	Thengamputhoor	Candhipuram a/b	12 a/c for b/b
10 f/k	Thengamputhoor	Melakrishnanputhoor a/b	11 e/i for b/b
10 g/k	Thengamputhoor	Athikattuvilai a/b	11 d/i for b/b
10 h/k	Thengamputhoor	South Soorankudi a/b	11 a/i for b/b
10 k/k	Thengamputhoor	Puthenthurai a/b	11 i/i for b/b
11 a/i	Dharmapuram	South Soorankudi b/b	10 h/k for a/b
11 d/i	Dharmapuram	Athikattuvilai b/b	10 g/k for a/b
11 e/i	Dharmapuram	Melakrishnanputhoor b/b	10 f/k for a/b
11 i/i	Dharmapuram	Puthenthurai b/b	10 k/k for a/b
12 a/c	Vadiveeswaram	Gandhipuram b/b	10 a/k for a/b
12 b/c	Vadiveeswaram	Kariamanickapuram b/c	8 b/b for a/c & 13 b/c for c/c
13 a/c	Nagercoil	Therakalputhoor, b/b	6 e/c for a/b
13 b/c	Nagercoil	Kariamanickapuram c/c	8 b/b for a/c & 12 b/c for b/c
14 c/d	Vadasery	Peruntai a/b	15 a/e for b/b
15 a/e	Neendakarai (A)	Peruntai b/b	14 c/d for a/b

Area figures for Village and Town areas are those supplied by the Assistant Director of Survey and Land Records of the District concerned (in consultation with the Tahsildars of the taluks concerned) and Local Bodies respectively. The total of the area figured of the village and town areas will not tally with the taluk figures furnished by the Director of Land Records because taluk area given by the Director of Land Records takes into account hills, forests, rivers, etc., whereas village and town area may not include the same.
