PREFACE.		ix—xi
	SECTION I—DISTRICT CENSUS TABLES	
	Introductory Note to Census Tables.	xiii—xvi
	CENSUS TABLES (BASED ON FULL COUNT)	
	A—GENERAL POPULATION TABLES.	xvii—xviii
FLY LEAF.		
Table A-I	.. Area, houses and population	1—2
Annexure A	.. Urban agglomerations extending to more than one taluk	3
Annexure B	.. Urban agglomerations extending to more than one district.	3
Appendix I	.. Statement showing 1961 territorial units constituting the present set-up of the district.	4
Annexure :	.. Statement showing details of inter district-taluk changes in area during 1961-71. ..	4
Sub-Appendix to Appendix I.	Statement showing area for 1961 and 1971 for towns which have undergone jurisdictional change in area since 1961 Census.	4
Appendix II	Number of villages with population of 5000 and over and towns with a population under 5000 ..	5
Appendix III	.. Houseless and Institutional population	6—7
Table A-II	.. Decadal variation in population since 1901	8
Appendix	.. District showing 1961 population according to their territorial jurisdiction in 1961, changes in area and population of 1961 adjusted to jurisdiction of 1971.	8
Table A-III	.. Villages classified by population.. .. .	9
Appendix	.. Villages classified into four broad size groups of population.	10
Table A-IV	.. Towns and Urban Agglomeration classified by population in 1971 with variation since 1901	11—18
Appendix	.. New Towns added in 1971 and Towns in 1961 declassified in 1971	19
Appendix I—Explanatory Note 'A'.	Constituents of New Towns added in 1971 Census ..	19
Appendix I—Explanatory Note 'B'.	Constituents of villages or towns declassified in 1971 ..	20
Appendix I—List A	List of places with a population under 5000 treated as towns for the first time in 1971	20
Appendix I—List B	.. List of places with a population under 5000 in 1961 which were treated as towns in 1961 but have been omitted from the list of towns in 1971 ..	20
Appendix II	.. Changes in area of towns (with population) between 1961 and 1971 and reasons for change in area ..	21
12-6—AA

PREFACE.

The District Census Hand Book for each district containing all basic details of population for all villages and towns along with other administrative statistics, was first brought out by Census Organisation in 1951 and was published by the State Government. The contents of the Handbook was improved upon during 1961 ; the Hand Book was brought out in two volumes, Volume I showing all the Census Tables giving taluk-wise data with a narrative report and Volume II containing village-wise and town-wise population statistics known as "Primary Census Abstract". Statements of administrative statistics, ranging from fifty to seventy-five in number, classified under seven different sections, have also been included in the second volume of District Census Handbook. During 1971 Census, it was decided to improve the contents of the District Census Handbook still further and continue this useful publication by the State Government. It has been decided to present the District Census Handbook in three parts during 1971.

The 1971 District Census Handbook volumes viz. Part A-Village and Town Directory and Part B-Primary Census Abstract have already been published, within about a year of the Census count. Part C of the District Census Handbook covers Census Tables (both Full count and Estimated), Computerised tables on Village Directory and Primary Census Abstract data and as many as 68 Administrative Statistics Tables relating to the District. The basic statistical data of the District have been compiled from the materials collected from the different departments of the State and Central Governments, and Statutory bodies and Corporations.

The present volume relates to the district of South Arcot, which is a barren, scorched area and has remained all these years a comparatively backward tract of Tamil Nadu, both in agriculture and Industry. With the setting up of the Neyveli Lignite Corporation, it has an important role in the economy of Tamil Nadu and with the proper use of lignite found in the district it may in course of time become an important industrial centre. Statistics on various socio-economic factors of districts have assumed great importance in the present time, when we are ushering in planned development at the District and State levels. These statistics will certainly prove useful to Planners and Administrators. Further, with the help of the district level statistics provided here, structural changes that had taken place during the past decade as well as inter-regional disparities within the district, could also be gauged.

There are three sections in this part of the District Census Handbook. Section-I contains thirty four census tables on full count and twenty six more tables based on estimation including appendices.

All the tables and appendices of A-series General Population Tables, three full count tables and eight tables on estimation from B-series Economic tables two full count tables and seven tables based on estimation from C-series Social and Cultural Tables, five tables based on Estimation from D-series Migration tables, the entire set of six full count B-series Establishment tables and three tables based on estimation from B-series Housing tables, according to the Publication plan of 1971 Census have been included here with their appendices.

The Section — II consists of ten computerised tables on Village Directory and Primary Census Abstract Data, while section III contains as many as sixty eight tables on Administrative Statistics prepared from the material collected from various administrative departments of Tamil Nadu Government and the Government of India, as well as from various statutory organisations.

It was the original intention to include in this section of the District Census Hand Book, as many as 153 tables on administrative statistics. But, due to a variety of reasons, such as non-availability of records due to efflux of time in certain departments, as well as due to some other administrative difficulties in compilation of statistics for some tables, it was felt that it would not be proper to withhold the publication of these sixty-eight tables on Administrative statistics, which are already compiled. A list of such tables dropped numbering eighty-five has also been given at the end of the introductory note on administrative statistics.

K. CHOCKALINGAM,
Director of Census Operations, Tamil Nadu and Pondicherry,

Madras,
1979.

ACKNOWLEDGEMENT.

It is my pleasant duty to acknowledge the able assistance given by the following officers and staff of my office in the preparation of this volume.—

- (1) Shri M. Thangaraju, Deputy Director of Census Operations.
- (2) Shri T. S. Rajaram, Investigator.
- (3) Shri N. Sukumaran Nandagopal, Tabulation Officer.
- (4) Shri T. Balakrishnan Kurup, Statistical Assistant.
- (5) Srimathi G. Suguna Bai, Computer.
- (6) Shri K. Sambamoorthy, Computer.
- (7) Srimathi C. K. Umadevi, Lower Division Clerk.
- (8) Shri B. Raghavan, Assistant Compiler.
- (9) Kumari M. Shobitha, Assistant Compiler.
- (10) Srimathi S. Jagadeeswari, Assistant Compiler.

K. CHOCKALINGAM,
Director of Census Operations.

DISTRICT CENSUS TABLES.

INTRODUCTORY NOTE.

The Eleventh Population Census of India and the third after Independence was conducted in March-April, 1971. For the purpose of providing the primary census data and the data on mother tongue, religion and scheduled caste and scheduled tribe and broad age-groups, the individual slips were processed manually during 1971 census at the Regional Tabulation Offices as was done at the previous censuses. The data pertaining to 20 per cent of the urban individual slips was punched and the cards transferred on to magnetic tapes. All the cross-tabulations for the urban data are generated by processing it on electronic computers. The cross-tabulations of the rural data are derived from 10 per cent sample of the individual slips which were processed manually. The tabulation of Houselist data was processed on 20 percent sample basis. The Establishment Schedules were processed on full count basis. The data relating to the housing and establishments were processed on electronic computer.

Thus, the 1971 Census was a pioneer in the introduction of sampling procedures to a considerable extent. Careful studies were made of the 1961 schedules as also the 1971 pre-test schedules, before evolving the optimum sampling size and the procedures, so as to yield data within a reasonable margin error.

It was decided to prepare a number of tables under the following series:—

A—Series	General Population Tables.
B— Series	Economic Tables.
C— Series	Social and Cultural Tables.
D— Series	Migration Tables.
E— Series	Establishment Tables.
F— Series	Fertility Tables.
G— Series	Special tables for Degree Holders and Technical Personnel.
H— Series	Housing tables.

It has been decided to publish thirty-four census tables on full count basis and twenty more tables based on estimation from A, B, C, D, E & H series with all their Appendices in the present Volume.

Primary Census Abstract has already been published in District Census Handbook Part B Volume.

It should be mentioned here, that tables B-III Part A, though suggested to be prepared on a sample basis by Registrar General, India, Tamil Nadu has prepared the tables on a full count basis.

In 1971 Census, an attempt has been made to collect data on minute aspects of the population in view of the growing needs for such data. It is in the field of economic questions that a significant departure has been made at the 1971 census. In the earlier Indian Censuses, income or economic independence was made the criterion for measuring the economy of the country. At the 1931 Census, an intermediate category of economic semi dependence was introduced and it was called "Working dependent". In 1941, this category was known as partly dependent and earning dependent in 1951. At the 1961 Census, stress was laid on work so that all people who work, including family workers, who are not in receipt of any income, and/or who cannot earn enough for their maintenance, could also be included as 'workers'. At the 1971 Census, the main activity of a person was first ascertained with reference to time spent basically as a 'worker or as a non-worker'. For regular work in Industry, Trade or Service, the reference period was the week prior to the enumeration (a fortnight in 1961) and for seasonal work such as agriculture, etc., the last one year. The person was categorised according to the main activity returned by an individual. Where a person, was basically a non-worker such as a student or housewife, but did make some marginal contribution to work, that secondary work was recorded in a separate question of the individual slip.

The distribution of population by broad industrial categories has been made on 1961 pattern except for the fact that category III of 1961 has been divided into two categories, viz., Category III - Workers in livestock, forestry, fishing, hunting, plantation, orchards and allied activities in category IV - workers in mining and Quarrying. Category IV of 1961, namely workers at household industry, has been brought under category V, viz., workers in manufacturing, servicing

repairing, etc., But the two are distinguished by suffixes like 'a' and 'b' viz. Category V (a)—Workers at household industry, and Category V (b) Workers in manufacturing, etc., other than household industry. There is no other change to the remaining broad industrial categories of workers and non-workers except for the fact that 'business services' as also tea stall and restaurants and were included in Category IX at the 1961 Census will now be included in Category VII viz., workers in trade and commerce.

It is a census tradition to present data by rural and urban areas. Village or town is recognised as the basic area of habitation. In all Census throughout the world, this dichotomy of rural and urban areas is recognised and the data are generally presented for the rural and urban areas separately. In the rural areas, the smallest area of habitation viz., the village generally follows the limits of revenue village that is recognised by the normal district administration. The revenue villages need not necessarily be a single agglomeration of the habitations. But the revenue village has a definite surveyed boundary and each village is a separate administrative unit. It may have one or more hamlets. The entire revenue village is one unit. There may be unsurveyed villages within forests, etc.

It is defining the urban areas that several problems generally arise. However, for the 1971 Census the definition adopted for an urban area generally follows that of 1961, which is as follows:

- (a) All places with a municipality, corporation or cantonment or notified town area.
- (b) All other places which satisfied the following criteria:
 - (i) a minimum population of 5,000.
 - (ii) at least 75 per cent of the male working population was non-agricultural.
 - (iii) a density of population of at least 400 per sq.km. i.e. 1000 per sq. mile.

The Director of Census Operations of each State is, however, given some discretion in respect of some marginal cases in consultation with the State Government, to include some places that has other distinct urban characteristics and to exclude underserving cases.

The following extracts from the manual of instructions to enumerators on the basis of which these tables have been compiled will be useful for appreciating the contents of these tables.

Census House.—A 'Census house' is a building or part of a building having a separate, main entrance from the road or common courtyard or stair-case, etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

Household.—A 'Household' is a group of persons who commonly live together and take their meals from a common kitchen, unless the exigencies of work prevented any of them from doing so.

Institutional Household.—It is a household where a group of unrelated persons stay together such as a boarding house, hostel, hotel, chummary, etc.

Establishment.—An 'Establishment' is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or a household industry or servicing and/or repair workshop or place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus, an establishment will cover manufacturing, trade and other establishments where people work.

Main Activity.—Every person was asked what his main activity was this is, how he engaged himself mostly. For the purpose of this question, all persons were divided into two broad streams of main activity namely (1) as workers and (2) as non-workers, according as they type of main activity that the person has returned as engaged in mostly.

Worker.—In 1971 Census, a worker was defined as a person whose main activity is participation in any economically productive work by this physical or mental activity. Work includes not only actual work but effective supervision and direction of work.

Reference Period.—The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person was categorised accordingly. A person who normally

works but had been absent from work during this reference period on account of illness or travel holiday, temporary breakdown, strike, etc., the person was treated as engaged in regular work in which he would have otherwise been employed but for this temporary absence. Persons undergoing training such as apprentices with or without stipends or wages were considered as economically active and recorded as working. A person who offered work but had not actually joined was not treated as engaged in work.

There are certain types of works which are not carried on throughout the year such as cultivation, live-stock keeping, plantation work, some types of household industry, etc. A person's main activity was ascertained with reference to such work in the last one year, even if he was not economically active in the week prior to enumeration. It is likely that even when a person was engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person might be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care was taken to see that the main activity was properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he might have been engaged as a sugarcane factory labourer or as road cooly. He was categorised for his main activity as agricultural labourer only, as returned by him, as he was engaged mostly in that work and the other work was treated as his subsidiary work.

A man or woman engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who was primarily a student attending institution, even if such a person helped in the family economic activity but not as a full time worker was not treated as a worker for the main activity. On the other hand, if a person was primarily engaged in some economic activity but at the same time did attend to some household chores or attended night school, etc., he or she was treated basically as worker for the main activity and categorised accordingly.

A person who merely received an income such as a rent receiver or a pensioner, who did not have to work for receiving the income, was not treated as economically active unless the person was also engaged in some economic activity and if that activity was returned as the main activity of the individual.

Cultivator.—For purposes of the census a person is a Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or leases of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and pulses raw jute and Fibre crop, cotton, etc., other crops such as sugarcane, groundnuts, tapioca, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, was not treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (Agricultural Labourer) was not treated as cultivator.

Agricultural Labourer.—A person who works in another person's land for wages in money, kind or share was regarded as an agricultural labourer. He has no risk in cultivation but he merely works in another person's land for wages. The labourer could have no right of lease of contract on land on which he works.

Household Industry.—A "Household industry" is defined in Census as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

Age.—The Census enumerator was given the following instructions for collecting age data.

"Record the age of the person in total years completed last birthday. Very often, there is a tendency on the part of the individuals to return 'years running' rather than the 'years completed'. Make sure that only the actual number of years completed is recorded".

In respect of infants who might not have completed one year by the day of enumeration, their age in completed years should be invariably shown as "0", as they have not yet completed one year of age and add 'Infant' in brackets. As was stated under general instructions, make

sure that infants even if a day old are invariably enumerated. You should not enter the age in months. The age of an infant who has not yet completed one year should invariably be noted as "O" only.

Literate.—A person who can both read and write with understanding in any language to be taken as literate. A person who can merely read but cannot write is not a literate.

Scheduled Castes and Scheduled Tribes.—A list of scheduled castes and scheduled tribe notified for the areas concerned was given to every enumerator and the following instruction were issued to him "Ascertain if the person enumerated belongs to a scheduled caste or tribe and if he does, then, record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X' in both the rectangles.

If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by synonym or generic name of a caste or a tribe, it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the caste when it is returned and write it in the rectangle provided for recording the name. Similarly, do not write the names of scheduled tribes in general terms as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be tell him that this description is not adequate for census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but that he does not belong to any of the notified communities applicable to the area, he will not be entered as scheduled caste or scheduled tribe.

Scheduled castes can belong only to the Hindu or Sikh religious. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled tribes may belong to any religion."

A brief note introducing each series of tables is given in the flyleaf concerning the table.

A. GENERAL POPULATION TABLES.

A. AREA, HOUSES AND POPULATION.

This is the basic population table for Census and furnished data for the District/Taluk and Independent Sub-taluk with rural and urban breakup. Data are also presented for cities and other towns treated as urban for 1971 Census. The table contains area figures for the above units in Sq. Km., density of population per Sq. Km., number of inhabited and uninhabited villages, number of Census Towns, number of occupied residential houses, households and population by sex as per 1971 Census. The area figures presented in the table are those supplied by the (i) Surveyor General, India for the District (ii) by the State Revenue Authorities for taluks and villages, and (iii) by the Local Bodies for the Census Towns. The table exactly resembles its counterpart in 1961, except for the fact that the concept of 'town group' has been replaced by the concept of 'urban agglomeration' and the number of households are presented along with occupied houses.

As in 1961, there are three appendices to this table.

APPENDIX I.

This appendix shows 1961 territorial units constituting the present set-up of each unit. This appendix has been supplemented with an annexure showing particulars of villages involved in changes of territories in columns 3 and 6 of Appendix I.

APPENDIX II.

One of the criteria for place to be treated as a Census town is that it should normally possess a population of 5,000 and over. For various reasons many places with a population of 5,000 and over are not treated as towns, while a few places with less than 5,000 population are treated as towns. This appendix, as in 1961, will give the number of such places with their population.

APPENDIX III.

This appendix furnishes figures of the number of houseless and institutional households and houseless and institutional population separately.

A-II. Decadal variation in population since 1901—This table is similar to its predecessor in 1961 and with sex break-up for district for the eight censuses since the turn of the 20th Century, i.e. from 1901 to 1971. The decadal variations in population and their percentages are also indicated in this table. The figures given in this table have been adjusted so as to conform to the jurisdiction of the district as at the 1971 Census. An Appendix to this table shows the adjustments made in the 1961 Census population of the district in accordance with the jurisdiction of the district as at 1971 Census. This is a very important table as it gives the growth of population from decade to decade.

A-III. Villages classified by population—This table as in 1961 presents the main characteristics of the rural population. The inhabited villages have been classified into seven population ranges. The village sizes adopted for presentation of data in this table are :—

- (i) Less than 200.
- (ii) 200 to 499.
- (iii) 500 to 999.
- (iv) 1,000 to 1,999.
- (v) 2,000 to 4,999.
- (vi) 5,000 to 9,999 ; and
- (vii) 10,000 and above.

The first four categories come under the broad group of less than 2,000 and the next two groups under 5,000 to 9,999. Population figures are presented by male and female population and for the District and Taluk/Independent Sub-taluk. The table covers the rural population living in villages which are not treated as urban for Census purposes.

This table is supplemented with an appendix showing sub-totals of broad groups of village viz. less than 500, 500—1,999, 2,000—4,999 and 5,000 and above is also given for district. No such appendix appeared in 1961.

A-IV— Towns and urban agglomerations classified by population in 1971 with variation since 1901.

This table corresponds to table A-IV of 1961 and gives the growth of each town and urban agglomerations from 1901 census to 1971 census. The six classes are as shown below :—

Class.	Population size.
(1)	(2)
I	1,00,000 and over.
II	50,000—99,999.
III	20,000—49,999.
IV	10,000—19,999.
V	5,000—9,999.
VI	Less than 5,000.

Class I towns are called “Cities”. The area of the towns as at 1961 and 1971 Censuses are given in square kilometres. The population is given by sex and the decadal variation in population are given in absolute numbers as well as in percentage. The status of the town is also given against each.

The total urban population of all the towns is given at the beginning of the table. It is followed by the totals for Class I towns and the towns coming under that class are then arranged in the descending order of population. This arrangement is similarly followed for the other classes of towns. The population data presented in this table are as recorded in the earlier censuses, and not adjusted to conform to the present City/Town limits.

Classification of towns is done on the basis of their 1971 population. The class total exhibited in this table for previous censuses are not totals of all towns now included in that class but are totals of population of all towns which were included in that class in that Census.

The purpose of this table is to show the growth of towns as towns and not how certain places have grown from villages into towns. Figures for previous Censuses against towns which were not towns in those Censuses are not presented. This table will be useful for studying fluctuations in the population of towns and for future projection of the urban population.

As against one appendix in 1961, this table is supplemented as three appendices.

Appendix I gives a list of new towns added in 1971 and towns of 1961 which were declassified in 1971. The area and population in respect of these places are also given in Appendix I. Explanatory Note (A and B) showing the constituent village numbers, names and population in respect of newly declared towns and declassified towns are also given. While one new town was recognised in 1971 Census, no 1961 town was declassified in the district. List “A” gives the details of towns with a population of less than 5,000 added newly in 1971 and list “B” gives details of 1961 towns with a population of less than 5,000 which were declassified in 1971.

Appendix II, which is a new one introduced at this Censuses gives the list of towns which have undergone changes in area between 1961 and 1971 and the reasons for the change in area.

B—ECONOMIC TABLES.

B-I Part A—Workers and Non-workers according to main activity classified by sex and age groups.

This is a basic economic table compiled on a cent percent basis and is similar to Table B-I of 1961. Data relating to the entire population are divided into two broad streams—Workers and non-workers. Workers are further classified into nine industrial categories, based on the classification of industries in which they are employed. Data on total population, total workers, workers under each industrial category and non-workers have been presented for eight broad age-groups, viz. 0—14, 15—19, 20—24, 25—29, 30—39, 40—49, 50—59 and 60+, besides "Age not stated" and total of all age groups. During 1961, only four broad age groups were adopted and these were 0—14, 15—34, 35—59, and 60+. The age groups 15—34 and 35—59 of 1961 have been split up into six groups in 1971 and this is expected to be useful for research connected with demographic studies, as the age-group 15—59 is mainly the working age-groups.

B-II—Workers and non-workers in cities and non-city urban area according to main activity classified by sex and age groups.

This table is similar to Table B—I Part A with the difference that while B-I—Part A presents data for total, rural, and urban areas of each district, Table B-II confined to the presentation of data for Cities and Towns besides Urban Agglomerations and district urban. This table like Table B-I Part A has also been prepared on a full count basis.

It corresponds to Table B-II of 1961.

B-III—Part A—Classification of workers and non-workers according to main activity by Educational levels in Urban areas only.

This table presents the level of literacy among each category of worker and non-worker in the urban areas separately. The term "Literate" in Census denotes any person who is able to read and write even a simple letter. In this table, the literates have been classified into 9 major classifications, viz. Literate (without educational level) Primary, Middle, Matriculation or Higher Secondary, Non-Technical Diploma or Certificate not equal to Degree, Technical Diploma or Certificate not equal to Degree, Graduate Degree other than Technical Degree, Post Graduate Degree other than Technical Degree and Technical Degree or Diploma equal to Degree or Post Graduate Degree. The last mentioned educational classification has been further split into 4 important branches of Technical Science, viz., Engineering and Technology, Medicine, Agriculture, Veterinary and Dairying and Teaching and data have been furnished for these four branches, as also for "Others" separately.

B-I—PART A.

E. ESTABLISHMENT TABLES

E. I.—Distribution of Establishments by Broad Types.

This is a new table for the 1971 Census, prepared for total, rural and urban areas for District City and gives the distribution of all establishments. The establishments have been classified into three broad types according to the activity viz., (1) Manufacturing, Processing or Servicing establishments (2) Trade or business establishments and (3) Other establishments in each of (a) Government or Quasi-Government, (b) Private and (c) Co-operative sectors of the economy. The establishments coming under manufacturing, processing or servicing have been classified as Registered Factories, Unregistered workshops and Household Industries. Trade or business establishments have been categorised as wholesale, retail and others. Lastly, the 'other establishments' are classified as Educational Institutions, Public Health Institutions and others.

With a view to understand the significance of statistics incorporated in E Series tables, the concepts and definitions of the terms occurring in the tables are given below—

An "Establishment" is a place where goods are produced or manufactured not solely for domestic consumption, or where servicing and / or repairing is done such as factory, workshop or household industry or servicing and / or repairs workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an establishment will cover manufacturing, trade and other establishments where people work.

Examples:—A factory or workshop or workshop cum-residence or a trading or other establishment, i.e., where some kind of production, processing, repair, servicing is undertaken or where goods or articles are made and sold, or some business is being carried on such as a grocery shop, a pan shop, a restaurant, bank, hotel, or an office is functioning such as Government Office, Commercial Office, or an institution is being run such as school, college, hospital, dispensary, etc., and where one or more persons are working.

An establishment may occupy a Census house or a group of Census houses or a part of a census houses.

An establishment has been treated as a Government, Quasi-Government institutions if the Central or State Government or a Local Authority such as the Zilla Parishad, City Corporation or Municipality, etc., completely owns or has a majority of shares as to control the management of the establishment.

Private establishments are those owned and managed by private individuals or corporate bodies not being co-operative institution or Government or Quasi-Government institutions.

Establishments registered under the Co-operative Societies Registration Law of the State alone, fall in the category of "Co-operative".

A 'Household Industry' is defined as an industry conducted by the head of the household himself / herself and / or mainly by the members of the household at home or within the village in rural areas, and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

Registered Factory:—A factory which is registered under the Indian Factories Act should be treated as a Registered Factory. Any other workshop merely licensed by the Municipal or any other authority or registered for any other purpose should not be treated as a registered factory unless it is registered under the Indian Factories Act.

Unregistered Workshop:—Workshop is a place where some kind of production, processing servicing, repairing or making of goods for sale is going on. A workshop which is registered under the Indian Factories Act should be treated as a registered factory and other as unregistered workshops. Workshops which are run as household industry should be treated as household industry and entered as such.

The description of each Division and Major Group of National Industrial Classification, 1970, has been reproduced in an Annexure at the end of this volume.

E-I Part A. Distribution of Manufacturing, Processing or Servicing Establishments other than Household Industries classified by Registered Factories, Unregistered Workshops and size of Employment.

Table E-II (Part A, B and C) somewhat corresponds to Table E-III of 1961. In 1961, Table E-III gave information about Census houses used as factories and work-shops classified by power fuel and no power used and size of employment. The range of employment size also varies between 1961 and 1971 Censuses, as will be seen from the following :—

Range of employment size in 1961.	Range of employment size in 1971.
(1)	(2)
1 perso	.. 1 person
2-5 persons	.. 2-4 persons
6-9 persons	.. 5-9 persons
10-19 persons	.. 10-19 persons
20-49 persons	.. 20-49 persons
50-99 persons	.. 50-99 persons
100 and above persons	.. 100-299 persons
	300-499 persons
	500 and above persons.

This table shows distribution of manufacturing, processing or servicing establishments other than household industries for total, rural and urban areas for District / City separately. It gives useful information about the size of employment and the number of units under each of the categories (a) registered factories and (b) unregistered workshops in each Division/Major Group of National Classification, 1970.

A factory, registered under the Indian Factories Act is treated as a Registered Factory where as a workshop merely licensed by the Municipal or any other Local Authority or registered for any other purpose is not treated as a Registered Factory unless it is registered under the Indian Factories Act. For Registration under the Indian Factories Act, 1948 a factory should employ more than 20 persons if not using power and more than 10 persons if using power. A workshop is a place where some kind of production, processing, servicing, repairing or making of goods for sale is done. A workshop, registered under the Indian factories Act, is treated as a Registered Factory and others as unregistered workshops. Workshop run as household industry is treated as Household Industry.

The following are the sizes of employment adopted for presentation of data :—

Registered Factories :

1. 10 - 19 persons.
2. 20 - 49 persons.
3. 50 - 99 persons.
4. 100 - 299 persons.
5. 300 - 499 persons.
6. 500 and above persons.
7. Persons Unspecified.

Unregistered Workshop :

1. One person.
2. 2-4 persons.
3. 5-9 persons.
4. 10-19 persons.
5. Persons unspecified.

The establishments engaged in manufacturing, repairing or servicing are covered by Divisions 2 and 3 (Manufacturing and Repairing) of the National Industrial Classification.

There are 19 Major Groups of industries in this Division. Figures of establishments are presented for the Division and for each Major group of Industry.

E-II Part B. Distribution of Manufacturing, Processing or Servicing Establishments other than Household Industries classified by Industry, Fuel/Power or Manual used and Size of employment.

In this table, the number of factories and workshops are presented for total, rural and urban areas for District, City and by Division/Major Group of National Industrial Classification, 1970 and by size of employment. This gives information about the kind of fuel or power used in the Industries.

The size of employment shown in the Table is as follows :—

- 1 person.
- 2-4 persons.
- 5-9 persons.
- 10-19 persons.
- 20-49 persons.
- 50-99 persons.
- 100-299 persons.
- 300-499 persons.
- 500+ and above persons.
- Persons Unspecified.

The type of fuel/power used has been classified under four categories, namely :—

- A. Electricity.
- B. Liquid Fuel.
- C. Coal, Wood and Bagasse.
- D. Other Power.

The data has been presented separately for those factories or workshops which use only manual power. The total number of factories and workshops using all kind of fuel referred to above and manual power are also presented.

E-II Part C. Distribution of Household Industry Establishments classified by Industry, Fuel/Power used and size of Employment.

This table furnishes information of household industry establishments by Division and Major Group of National Industrial Classification, 1970 about the kind of fuel or power used by broad employment size group for total, rural and urban areas for District/City separately.

The Household Industry is defined as an Industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas, and only within the premises where the household is living in urban areas. It excludes industry run on the scale of a registered factory.

Thus there are four ingredients in the Household Industry :—

- (i) Nature of activity.
- (ii) Participation.
- (iii) Location.
- (iv) Size.

*Nature of activity :—*The household industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as Pleader or Doctor or Barber, Musician, Dancer, Washermen, Astrologer, etc., or merely trade or business even if such professions, trade or service is conducted at home by the members of household.

Participation.—The head of the household and/or one or more members of the household, must participate in such an industry. If it is run primarily by the hired labourers, the participation ingredients of the household members will not be satisfied and it will not be a household industry. The industry may run with the help of hired workers by the head and or members of the household must be mainly participating in the industry and not solely dependent on hired workers besides actual work, participation also includes supervision and direction.

Location.—The industry should be located within the premises of houses where the household lives in urban areas; if it is situated at a place other than at home, it will not be termed as household industry in urban areas. In rural areas, however, the industry should be either at home or anywhere within the village limits. In rural areas, even though the industries are not situated at home, there is a greater possibility of the members of the household participating in it, if it is located within the village limits.

Size.—The industry should not be on the scale of a registered factory. Irrespective of location and participation by the members of the household, if the industry or workshop is registered under the Factories Act, then it will not be a household industry.

The household industries come under Division 2-3 "Manufacturing and Repairing". The industries have been arranged in the order of the Major Groups coming under that Division :—

The size of employment is given below :—

- One Person.
- 2-4 Persons.
- 5-9 Persons.
- 10-19 Persons.
- Persons unspecified.

As in the case of Table E-II—Part B, the household industry using fuel/power have been classified as under :—

- (a) Electricity.
- (b) Liquid fuel.
- (c) Coal, wood and bagasse.
- (d) Other power.

The figures for household industries which are conducted manually have also been given. The total for household industries using power/fuel and manual labour have also been presented.

E-III Distribution of Trade/Commercial Establishments classified by the Type of Business or Trade and Size of Employment.

This is a new table for 1971 and is prepared for the trade/commercial establishments classified by the type of business or trade and size of employment for total, rural and urban areas for District/City. All trade/commercial establishments are classified under each Division/Major Group of National Industrial Classification, 1970.

The type of business or trade have been classified according to the Division and Major Group of National Industrial Classification, 1970. The establishments for which data have been presented in this Table relate to Division 6—Wholesale and Retail Trade as also restaurants and hotels and Division 8—Financing, Insurance, Real Estate and Business Services. The description of the Division and the Major Group relating to this table has been presented at the end of this volume.

The size of employment for which data has been presented is given below :—

- One Person.
- 2-4 Persons.
- 5-9 Persons.
- 10-19 Persons.
- 20-49 Persons.
- 50-99 Persons.
- 100 and above persons.
- Persons Unspecified.

E-IV—Distribution of establishments (other than manufacturing, processing, servicing of business and trade establishments by size of employment.

This table gives the distribution of establishments (other than manufacturing, processing, servicing or business and trade establishments) by the size of employment for total rural and urban areas for District/City in each Division and Major Group of National Industrial Classification, 1970. All establishments (other than manufacturing, processing, or servicing or business and trade) further gives employment by broad groups in each Division Major Group of National Industrial Classification, 1970. This table which has been attempted for the first time in 1971 Census also provides frame for the establishments not covered by Table E II (Parts A and B) and E-III.

The nature of activity has been classified according to the Division and Major Groups of National Industrial Classification, 1970. The establishments for which details are furnished fall under Divisions 0, 1, 4, 5, 7 and 9 of the National Industrial Classification. The description and the code number of the Division and Major Groups shown in this Table will be found at the end of this book as Annexure.

The size of employment for which statistics are given is as follows :—

- One Person.
- 2-4 Persons.
- 5-9 Persons.
- 10-19 Persons.
- 20-49 Persons.
- 50-99 Persons.
- 100 and above persons.
- Persons unspecified.

B—ECONOMIC TABLES.

B-IV PART A—Industrial Classification of persons at work other than at Cultivation as main activity by sex and Divisions, Major Groups and Minor Groups.

Table B IV Part A presents the distribution of work other than at Cultivation by Divisions, Major Groups and Minor Groups of the National Industrial Classifications, 1970 (N.I.C. 1970) which has been adopted with suitable modifications wherever necessary. The data has been presented at District level for 'All Areas' and 'Urban Areas.'

Appendix—This table has been supplemented with an appendix which will give the same information as Table B-IV Part C of 1961 is so far it relates to the Manufacturing, Processing Servicing and repairing workers. In this appendix, the worker has been classified by Household Industry and Non-household Industry.

This is an important economic table as it gives a detailed picture of employment position in various sectors of economy.

B-IV Part D—Industrial Classification by sex and class of workers of persons at work in Non-Household Industry, Trade, Business, Profession or service as main activity.

Table B-IV Part D corresponds to Table B-IV Part B of 1961 and will give distribution of workers by each class viz., employees, single workers and family workers by Divisions and Major groups of N.I.C., 1970. This table has been prepared for total and urban population of the district.

B-IV—Occupational classification of persons at work according to main activity other than cultivation classified by sex, age-groups and educational levels.

Table B-VI presents the data on workers other than those engaged in cultivation, by sex and broad age groups/educational levels for occupational divisions and groups of national classification. of occupations. The table is presented in two parts and data are shown for the state and districts Part A presents data for the urban areas and Part B relates to rural areas. Each part is again divided into two sub-parts, Part A (i) and A (ii) and Part B (i) and B (ii). Data for Madras Urban Agglomeration are also presented in Part A.

Sub-Parts A (i) and B (i) give data for the workers other than those in cultivation by sex by broad age-groups and occupational divisions and groups for urban areas and rural areas respectively. The age-groups shown in these parts are, 0-14, 15-19, 20-24, 25-29, 30-39, 40-49, 50-59 60 plus and age not stated.

Sub-parts A (ii) and B (ii) show data on workers other than those engaged in cultivation by sex by occupational divisions and groups and educational levels for urban areas and rural areas respectively. In sub-part A(ii), the educational levels for which figures are shown are the same as adopted in Table E III Part A viz. (1) Literate (without educational levels), (2) Primary, (3) Middle, (4) Matriculation or Higher Secondary, (5) Non-technical diploma or certificate not equal to degree, (6) Technical diploma or certificate not equal to degree, (7) Graduate degree other than technical degree, (8) Post-graduate degree other than technical degree and (9) Technical degree or diploma equal to degree or post graduate degree. The last category has sub-classifications for (i) engineering and technology (ii) medicine, (iii) Agriculture, veterinary and dairying, (iv) teaching and (v) others. In sub-part B (ii) which relates to rural areas, the educational levels shown are similar to Table B III Part B. The educational levels adopted are (1) Literate (without educational level), (2) Primary, (3) Middle, (4) Matriculation or Higher Secondary and (5) Graduate and above.

In 1961, a similar table, B VI was presented which showed data for literate workers other than at cultivation on urban areas only by occupational divisions and age-groups cross-classified by educational levels. In 1971, in addition, groupwise classification has been made and a separate table has been prepared for rural areas.

The educational levels for workers in various non-agricultural occupations with their distribution in broad age-groups will help in furthering workers education in different occupations requiring skill.

The constituent units of the Madras Urban Agglomeration are given below.

B-VII—Secondary work (i.e.) persons having main activity (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry, (iv) Non-Household Industry, Trade, Business or Service and (v) Non-workers classified by sex and by secondary work (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry and (iv) Non-household industry, Trade, business or Service.

Table B-VII gives statistics about persons having secondary work apart from their Main activity. Main activity is the one in which a person spends his time mostly. Question 16 of the individual slip deals with the main activity of the individual enumerated. With reference to the answer given to the question "Main activity" a person was classified as a worker or non-worker. A worker is a person whose main activity is participation in any economically productive work by physical or mental activity. Work involves not only actual work but also effective supervision and direction. An individual whose main activity is not participation in any economically productive work is treated as a non worker. The concepts of worker and non-worker have been explained in detail in the Preliminary note of Part II B (i) General Economic Tables of Tamil Nadu.

If in addition to main activity returned, a person also participates in some other economic activity, such participation is considered as that persons Secondary work. An individual whose main activity is cultivation may also engage himself in rearing sheep and goats. In this case, the rearing of sheep and goats is his secondary work. So also, a student who is a non-worker by his main activity assist his parents in making clay toys and dolls. In that case also, the secondary work of the non-worker will be clay toys and dolls making.

Data are given in this table for the State and districts with rural and urban break-up. Separate figures are also presented for Madras Urban Agglomeration. Persons who have main activity as cultivator, Agricultural labourer, House-hold Industry, Non-household Industry, Trade, Business or service and non-workers are cross-classified for secondary work in either (i) cultivation or (ii) Agricultural labourer or (iii) Household industry or (iv) Non-household industry Trade, Business, Service, etc.

An appendix to this table gives data of those persons who have secondary work in non-household industry at two digit level of the National Industrial Classification, 1970 further classified according to the nature of industry or service performed under each main activity. Main activity of persons engaged in Non-Household industry, Trade Business, or service are shown at one digit (Division) level of the N.I.C. and non-workers are shown under three broad categories-household work, students and all other non-workers.

This table is similar to Table B-VII of 1961 census, In the 1961 table, information on secondary work was furnished in respect of persons working mainly as cultivator, Agricultural labourer or at Household industry. For such of those persons having main activity in manufacturing trade, business or services, statistics on secondary work was furnished if only they had secondary work in household industry. The 1971 census table has been modified in its presentation and gives data on nonworkers by main activity but two have also secondary work.

B-VIII—Persons classified as non-workers according to main activity cross classified by sex, age-group and type of activity.

Data on non-workers are presented in table B VIII for the State and districts with rural and urban break-up. Figures for Madras Urban Agglomeration are given separately. Non-working population are shown for each sex and by broad age-groups under seven categories.

This table is similar to Table B IX of the 1961 Census. The present table shows data for seven types of non workers instead of eight categories shown in the 1961 table. Nine broad age-groups are shown now as against five age-groups in the 1961 table. Data were shown separately in the 1961 table for "Never-employed" and "unemployed" while there is now a residuary category 'others' which include the two former categories mentioned above.

The seven types of non-workers for which statistics are presented in this table are (1) Household duties, (2) Students, (3) Retired persons or Retires, (4) Dependent, (5) Beggars, (6) Inmates of institutions and (7) other non-workers.

The categorisation of non-workers in seven types are explained below :—

1. *Household Duties.*—Any person who is basically engaged in unpaid home duties like household chores is included in this type. If a woman engages herself mainly on household course but also engaged in some other economic activity like family cultivation, her main activity is a non-worker engaged in household duties and other economic activity viz., cultivation is her secondary work. On the other hand if she works primarily in a factory or plantation and also attends to household duties, she will be considered a worker and will not come under this type.

2. *Students.*—All full-time students and children attending school are included in this group. If a student helps in family cultivation or household industry, trade or business, he/she will be treated as a non-worker of students category with secondary work.

3. *Retired persons or Rentiers.*—Any persons who has retired from service and is doing no other work or is not-re-employed is included in this category. This category includes persons who are living mainly on the income received through rent or agricultural or non-agricultural royalty or dividend without doing work as also persons of independent means for securing which they do not have to work.

4. *Dependents.*—All infants and children who are not attending school or persons who are disabled permanently and cannot work due to illness or old age come under this category. Non-workers who have no other activity coming under any of the types of non workers and those who are not seeking any work but are purely dependent are included in this type.

5. *Beggars.*—All beggars, Vagrants and others like independent woman who cannot indicate their source of income and those of unspecified sources of subsistence and who are not engaged in any economically productivity work come under this type.

6. *Inmates of institutions.*—All inmates of penal institutions like jail, borstal school, mental institutions like mental hospital or charitable institutions like poor-home, orphanage are covered by this category. An under-trial prisoner who has not been convicted by a court of law will not be covered in this category but will be classified according to the main activity that the person was engaged in before he was apprehended.

7. *Other non-workers.*—All other non-workers who were not included in any of the six categories above mentioned come under this category. This category mainly consists of unemployed persons.

C: SOCIAL AND CULTURAL TABLES.

C-I—Part A—Number of households by relationship to head of households classified by age groups.

The composition of the households by the relationship of the members to the heads of households are shown in the tables C I Part A. This table has been prepared from the population record on a 4 per cent sample basis. The population record contains a summary of the individual slip and relates to the entire household.

In this table, the composition of households with reference to the relationship of members to the head has been classified under three broad age-groups, viz., less than 30, 30—49 and 50+. The table is presented for the State and its districts with rural urban break up. Sex breakup for heads of households are furnished. Separate figures are shown for relations, unrelated members and single member households. Relations are classified as married, never-married, widowed and divorced or separated. Under married relations, details are given separately for spouse, son brother, father, mother, other males and other females. Those relations whose marital status is other than married are classified under son, brother, daughter, sister, father, mother, other males and other females.

This table will be of sociological interest. It will help to study the extent and future trends in the joint family system.

The table corresponds to Table C—I "Composition of sample households by relationship to head of family" of 1961 census.

C—III—Age, sex and education.

Table C—III shows the population of each sex by certain broad age-groups and further classified according to educational levels. This table is presented in two parts; Part A shows data for the total (rural and urban areas taken together) and Part B gives figures for urban areas only. The table gives data for the state and districts.

Seven age-groups have been adopted for this table. They are 0—4, 5—9, 10—14, 15—19, 20—24, 25—34 and 35+. Those who did not report their age have been shown under age not state. The age-group adopted in this table are different from those of Table C—II. As attainment of educational levels generally stops at the age of 35, the age-groups have been suitably modified and adopted.

The educational levels for which data are shown in Part A and Part B are different. For urban areas a more detailed classification has been adopted. The levels adopted for Part A and Part B are as follows:—

Part A.

1. Illiterate.
2. Literate (without educational levels)
3. Primary.
4. Middle.
5. Matriculation or Higher Secondary.
6. Non-technical diploma or certificate not equal to degree.
7. Technical diploma or certificate not equal to degree.
8. Graduate and above.

Part B.

1. Illiterate.
2. Literate (without educational level).
3. Primary.
4. Middle.
5. Matriculation or Higher Secondary.
6. Non-technical diploma or certificate not equal to degree.
7. Technical diploma or certificate not equal to degree.
8. Graduate degree other than technical degree.

Part A.

Part B.

9. Post graduate degree other than technical degree.
10. Technical degree or diploma equal to degree or post graduate degree with sub-classification for engineering technology medicine agriculture veterinary and darning teaching and others.

The educational levels in Part A have been abridged as the cross-classifications for educational levels in rural areas have been done on a joint range.

This table is similar to Table C—III—Age sex and education of the 1961 census. This table was presented in three parts (A, B and C) in 1961. Part C of 1961 related to rural areas which has not been presented in 1971. Figures for rural areas can however be arrived at by subtracting to figures for urban areas (Part A) from the figures for all areas (Part B). The educational levels and age-groups shown in 1971 table are slightly different from those of 1961.

This table was helpful in measuring the growth of literacy in the total population as well as in the different age-groups since the first census.

Table C.—Mother Tongue of the 1971 Census, due VIII to the Constitution of India.

Part B—Speakers of languages/mother tongues (inclusive of mother-tongues where grouped than those specified in Schedule VIII to the Constitution of India.

Table C—V—Part A and B correspond to the all India language tables of the Census of India 1951 published in Census of India Paper I of 1954 and the language table C V of the Census of India 1961—published in Volume I Part II—C (ii) (i) languages tables and Volume IX—Madras Part II—C (i) Cultural tables.

The question on mother-tongues at the 1971 census and instructions to enumerators were as follows. Question 14 Mother-tongue.

Definition:—Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf mutes the language usually spoken by the mother shall be recorded.

Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned. If you have reason to suspect that in any areas due to any organised movement, mother-tongue was not being truthfully returned, you should record the mother-tongue as actually returned by the respondent and make a report to your superior Census Officers for verification. You are not authorised to make any correction on your own.

Table C—V—Part A is in two sections.—(i) showing the distribution of speakers of languages inclusive of mother-tongue grouped under each specified in Schedule VIII to the Constitution of India for the State and its fourteen districts separately for total, rural and urban areas cross-classified by sex and (ii) showing the distribution of speakers of these languages for fourteen districts, one hundred and thirty three tahsils and four hundred and thirty nine towns in the state for total area only cross-classified by sex. The data for the rural areas of the tahsil are not presented but they can be derived by subtracting data in respect of towns within the tahsil from the total tahsil figures.

Table C—V Part B presents speakers of languages/mother tongues (inclusive of mother-tongues where grouped) other than those shown under Part A for the state, districts, tahsils and towns. This table is also being presented into sections (i) showing the speakers of these languages/mother tongues for the State and its districts for total, rural and urban areas cross-classified by sex and (ii) showing the distribution of these languages/mother-tongues for total areas of districts, tahsil and towns cross-classified by sex.

In both parts A and B, mother-tongues have been grouped in some cases under the relevant language(s). This has been done on the basis of information readily available or in the light of studies already made. Those 'identifiable' mother-tongues which returned 10,000 or more speakers each at the all India level have been grouped in parts A and B as shown below:—

Part A		
Gujarati		Saurashtra.
Hindi		Bhojpuri ; Garhwali ; Hindustani ; Lamani ; Lambadi ; Mathili ; Marwari ; *Paharai Rajasthani.
Kannada		Badaga.
Sindhi		Kachchi.
Lahnda		Multani.

All other mother-tongues falling under Part B and which returned less than 10,000 speakers each at the all-India level or were not 'identifiable' on the basis of information available as of data are included in the category 'Others,' occurring as the last entry in Part B.

*Pahari is a combination various speeches spoken over long stretches of areas where the speakers preferred to give general name as Pahari. Similar is the case with Naga appearing in table C—V Part B and marked by asterisk therein.

C-1 PART-A—MEMBERS OF HOUSEHOLDS BY RELATIONSHIP TO HEAD OF HOUSEHOLD CLASSIFIED BY AGE—GROUPS.

D. MIGRATION TABLES.

D-I Population classified by place of Birth.

Table D-1 presents the distribution of population by sex with reference to the place of birth for the State and districts with rural-urban break up.

The place of birth has been classified into two broad categories viz., (1) born in India and (2) born in countries outside India. "Born in India" has further been divided into two sub-groups viz., (I) born within the State of enumeration and (II) born outside the State of enumeration (separately for each State/Union Territory). The sub-group, "born within the State of enumeration has been further classified into the following:—

- Born in place of enumeration,
- Born elsewhere in district of enumeration, and
- Born in other districts of the State.

Persons, born within India have been further classified by Rural, Urban and Unclassifiable, with reference to the fact whether the place of birth was a village or town at the time of birth or unclassifiable, whether the nature of the birth place was not ascertainable.

For persons born outside India, data are furnished for the countries in Asia, Europe, Africa, America and Oceania. Separate figures are shown in the table itself for certain countries only in each continent and the data for the remaining countries are clubbed and shown under "Elsewhere". The countries in each continent for which data are furnished are as follows:—

- Countries in Asia beyond India (Inc. U. S. S. R.)
 - Afghanistan
 - Burma.
 - Ceylon.
 - China.
 - Nepal.
 - Pakistan.
 - Malaysia.
 - U. S. S. R.
- Countries in Europe (Exc. U.S.S.R.)—
 - U. K. (Inc. N. Ireland)—
 - Ireland
- Countries in Africa.
 - Kenya.
 - Mauritius.
 - Mozambique.
 - Union of South Africa.
- Countries in two Americas—
 - Canada.
 - U. S. A.
- Countries in Oceania—
 - Australia.
 - New Zealand

This table corresponds to Table D-II of 1961 Census presented in Part II C (ii) (i)—Migration tables of Madras State.

D-I Appendix and II—

Appendix to this table giving information on its inter-district and inter-State Migration.

D-III—Migrants to urban units (including agglomerations having 100,000 and above population classified by sex broad age-groups, educational levels and in case of workers by occupational divisions.

Table D-III presents the distribution of migrants to urban units including urban agglomerations having a population of 100,000 and above, by sex, broad age-groups and educational levels.

The broad age-groups adopted are 15-29 and 30-59 The educational levels shown in this table are as follows :-

1. Illiterate.
2. Literate (without educational level).
3. Primary.
4. Middle.
5. Matriculation or Higher Secondary.
6. Non-Technical diploma not equal to degree.
7. Technical diploma or certificate not equal to degree.
8. Graduate degree other than technical degree.
9. Post graduate degree other than technical degree.
10. Technical degree or diploma equal to degree or post-graduate degree with details under engineering and technology, medicine, agriculture, veterinary and dairying, teaching and others.

The figures are first presented for total migrants followed by workers and last by non-workers. In the case of workers, figures are shown separately for cultivators ; agricultural labourers, and in the case of non-agricultural workers by occupational divisions. The migrants referred to above has the same connotation as in Table D-II and is based on "the place of last residence".

The trends of migration to bigger urban units with a population of 100,000 and above can be known from this table. The occupational details which are cross-classified with age-groups and educational levels will indicate the nature of occupations that attract more people to cities/urban agglomerations with a population of one lakh and above. So also the educational levels will show insight into the migration of skilled and unskilled labour. The presentation of figures for the place of last residence is similar to the table D-II, presented earlier in this volume.

In Tamil Nadu there are twelve urban agglomerations and four cities with a population of 100,000 and above.

D-IV—Population of urban units (including agglomerations) having 100,000 and above population classified by place of last residence and duration of residence.

Table D-IV presents the distribution of population of urban units (including agglomerations) having 10,000 and above population into non-migrants (born locally) and migrants whose last residence was rural/urban areas of India. In the case of migrants the figures are presented under two major groups viz :—

1. Last resided in rural areas of India.
2. Last resided in urban areas of India.

Under each major group there are three sub-groups for which the presentation of data is made. They are as follows :—

- (1) Within the district of enumeration.
- (2) Other districts of enumeration but within the State of enumeration.
- (3) Other States in India with separate figures for Sikkim.

For migrants, the duration of last residence has been indicated as

- (a) less than 3 years.
- (b) 3 years or more

This table excludes (1) population whose last residence could not be classified as rural or urban, (2) population whose place of last residence itself was unclassifiable and (3) Population whose last residence was outside India. Population who did not report any specified period of residence in the urban unit are included in the duration of residences 3 years or more.

This table will help to know the extent of migration to the cities and urban agglomerations from rural and urban areas of the country.

D-V- Migrant workers and Non-workers according to main activity classified by place of last residence.

Table D-V presents the distribution of population sex wise by industrial categories of workers and non-workers with reference to their place of last residence. The data are presented for the State, districts and for cities urban agglomeration which have a population of one lakh and above. The details for last residence shown in this table are similar to the one given in Table D-II.

This table was prepared at the 1961 census (Table D-VI) with reference to the place of birth instead of the place of last residence. Presentation of data by place of last residence adopted at the 1971 Census is considered more relevant for studying migration than the data provided by place of birth in 1961. This table will indicate the industrial categories attracting migrants and whether, in the different industrial categories, the flow of migrants is from rural to urban areas or *Vice-versa*.

D-VI- Migrants classified by place of last residence, age-group, duration of residence and marital status.

Table D-VI is new in 1971. This gives the distribution of migrants based on the place of last residence by age-groups, marital status, duration of residence and sex. The table is prepared for the State, districts and for cities/urban agglomerations which have more than one lakh population. The State/District table gives the data for rural/urban areas of enumeration separately whereas in the table for city/urban agglomeration, the data have been presented separately showing rural/urban place of last residence of migrants. Unlike the other tables presented earlier the presentation of data is confined to migrants whose places of last residence are as follows :

- (1) Within the State of enumeration but outside the place of enumeration with break up for
 - (a) elsewhere in the district of enumeration; and
 - (b) in other districts of the State of enumeration.
- (2) States in India beyond the State of enumeration, and
- (3) Outside India.

The age-groups for which data are presented are 0-14, 15-19, 20-24, 25-49, 50. The durations of last residence, have been divided into three ranges, (viz) (1) Less than one year ; (2) 1-9 years and (3) 10 years and above. Never married, married widowed, divorced are the three types of marital status adopted for presentation of data in this table. Though the figures under the duration 'Period not stated' are not shown separately they are included in 'All Durations'. Similarly the figures for unspecified 'marital status' is included in total under each duration. Figures of those coming under "unclassifiable place of last residence" are included in total and in Section B outside India for urban, whereas for rural these figures are not included in Sections B outside India, but in total only.

This table will reflect an important sociological factor, viz., the marital status of migrants by broad age-groups.

APPENDIX I.

H—HOUSING TABLES.

H-I. Census Houses and the uses to which they are put.

Table H-I gives an account of the uses to which the census Houses are put. Census Houses have been classified into 11 broad types according to their uses.

The "Census House" is a building or a part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for residential or non-residential purpose or both. Each such house is treated as a unit irrespective of its size. If a building has a number of flats or blocks which are independent of one another, having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, each such flat is treated as a separate Census House. Thus, according to the Census definition, the criteria for treating a building or a part of a building as "Census House" is based on the provision for independent accessibility.

In this table, the data are presented for total, rural and urban areas for the state and for each district and City (i.e. Town having population of 100,000 and above).

This Table corresponds to Table E-I of 1961 Census. But, in 1961 Census the data were presented even for Taluks whereas in this Table, the taluk-wise details are not furnished. In 1961 Census, the number of Census Houses used as Educational Institutions, Public Health and Medical Institutions were shown separately. But in this Census, they are included under the category "Others".

H-II. Distribution of Census Houses by Predominant material of wall and Predominant material of roof.

Table H-II gives the structural condition of the houses according to the type of material used for major portion of the walls, like bamboo, mud, burnt-bricks, unburnt bricks, stone, timber, cement concrete, etc., and the material out of which most of the outer roofs exposed to the weather are made like tiles, thatch, zinc or asbestos cement sheet, concrete, etc.

In this table also the data are presented for total, rural and urban areas of the State and for each District and City.

This table corresponds to Table E-IV of 1961 Census. While in 1961 Census, the census Households living in Census Houses were cross-classified by material of wall/roof, in this table only the Census Houses have taken into consideration.

H-III. Households classified by number of members and by number of rooms occupied.

Table H-III gives the number of members in the household with reference to the number of 'living rooms' occupied. Thus it will reveal the extent of congestion and over-crowding in Census Houses and will also give an idea of the size of the households.

Any room wide and long enough for a person to sleep in and having four walls with a door and roof above is treated as a 'living room'. This excludes unenclosed verandah, kitchen, store garage, cattle shed and latrine. However, if an enclosed room is used in common for sleeping, sitting, dining, storing and cooking, etc., it has been treated as a 'living room'.

The units for which the data are presented are the same as in Table H-I.

This table corresponds to Table E-V of 1961 Census. The information for all households with unspecified number of rooms and households with details unspecified are also given in this Table and this is an addition in this Census.

The Institutional Households are excluded from this table.

In certain areas the number of members shown in respect of 'households with unspecified number of rooms' may be less than the number of households and this is because information about the number of members could not be ascertained as the households were away on pilgrimage, tour or some other reason.

SOUTH ARCOT DISTRICT

Sections 2 & 3

**COMPUTERISED AND ADMINISTRATIVE
STATISTICS TABLES**

COMPUTERISED TABLES

COMPUTERISED TABLES.

This section covers as many as ten tables based on Village Directory and Primary Census Abstract data, generated on electronic computer by the Data Processing Division of the office of the Registrar General India, New Delhi from the Village Directory and Primary Census Abstract published in district Census Handbook Parts A and B. There are some marginal difference in the figures, in the context of Village Directory and Primary Census Abstract published earlier, owing to the fact that the processing of data now presented have been presented first for the district and then for each of its taluk. These tables give a wide range of information on villages of the district. The following are the tables presented in this section.

Table 1—Distribution of Villages with reference to area.

This table presents talukwise distribution of villages with reference to areas in hectares for both rural as well as partially urban areas of the district.

Table 2—Distribution of villages by select amenities, infrastructure and land use data with reference to distance from nearest town.

This table gives distribution of villages for each taluk with reference to several categories of distances from the nearest town, by select amenities like education, electricity, transport and navigable facilities available and the extent of areas covered by forest, irrigated or un-irrigated and cultivable waste, as well as not available for cultivation.

Table 3—Distribution of villages by select demographic characteristics and distance range from nearest town.

This table presents talukwise distribution of villages of the district with reference to different ranges of distances from nearest town by such vital demographic characteristics as sex-wise population, average population per village, households per census house, sex ratio, average literates per village and workers and female workers in primary, secondary and tertiary sectors.

Table 4—Average size of village by distance range from the nearest town by size class.

This table gives average size of village as well as average population per village by several distance ranges from the nearest town, by size class for the entire district.

Table 5—Distribution of villages by size class of population having select servicing institutions and demographic characteristics.

This table presents talukwise distribution of villages by different size classes of villages by population having select servicing institutions such as Post and Telegraph offices, Medical Institutions and also such demographic characteristics, as their sex ratio, percentages of literacy, workers and the average distance of villages from the nearest town.

Table 6—Distribution of villages by number of hamlets and percentages of Scheduled Caste and Scheduled Tribe population.

This table furnishes useful data on the talukwise distribution of villages by the number of hamlets, total population, total scheduled caste and scheduled tribe population as well as percentages of Scheduled Castes and Scheduled Tribes population combined to total population.

Table 7—Distribution of villages by density of population per hectare.—This table presents talukwise distribution of villages of the district by density of population per hectare, as well as total villages, total distance and average distance of each village from the nearest town.

Table 8—Distribution of villages by proportion of scheduled caste and scheduled tribe population.—This table furnishes useful statistics on the talukwise distribution of total villages, villages having specified areas, total area in hectares and general population by proportion of scheduled castes and scheduled tribes population of the district.

Table 9—Villages by percentage of irrigated area to total cultivated area and density of population per hectare.—This table presents data on the land use pattern of the number of villages of the district by percentages of irrigated area to total cultivated area, as well as density of population per hectare of the district.

Table 10—Villages by percentage by literacy having and not having telephone with reference to nearest town.—This table presents talukwise distribution of villages by different percentages of literacy, villages with or without telephone facilities, with reference nearest town by select slabs of distances.

ADMINISTRATIVE STATISTICS.

INTRODUCTORY NOTE.

A earnest attempt has been made in this part of the District Census Handbook to present the basic statistical data of South Arcot district in 68 different tables. The tables have been so devised as to provide interesting details to the reader, who wants to have an insight into the district. Structural changes that have undergone in various spheres of activity in the district during the decade 1961-1970 have been highlighted in these Tables. An effort has also been made to present taluk wise data, as far as possible, in order to facilitate interregional comparisons within the district.

The various Tables on administrative statistics included in the present series of Hand books are more or less framed on the pattern of the District Census Handbooks of 1961 Census, to facilitate easy comparison.

A brief description of the contents of each table is given below :

Table 1-01 gives the mean maximum, mean minimum, highest and lowest temperatures recorded at the district meteorological observatories at Cuddalore, Kalakurichi and Pottanovo monthwise for the years 1961-1970, while yearwise maximum and minimum temperature data for the period 1961 to 1970 has been presented in its Annexure.

Table 1-02 gives the monthwise details of rainfall and rainy days recorded at the district meteorological observatories at Cuddalore, Kalakurichi and Pottanovo for the years 1961 to 1970 as well as the mean for the decade while details of actual and normal rainfall and departures from normal rainfall for the same period has been furnished in the Annexure of the table.

Table 2-01 describes all the major events that have taken place in the district during the decade 1961-1970, with reference to the year and area of their occurrences and such other particulars as the quantum of population affected, etc.

Table 3-101 gives the road kilometrage of different categories of roads in the district such as the National Highway, District road and Village road, etc.

Table 3-102 the surface has been classified as bituminous, concrete, water bound macadam, unmetalled and other lower types. In this table all the roads maintained by Public authorities, viz., the Public Works Department, other Government departments and local bodies have been included.

Table 3-103 furnishes the names of Major roads of the district, their nature such as metalled, unmetalled, etc., their starting and ending points (in Kms.) in the district as well as the names of taluks through which, they pass through and their length in the district.

Tables 3-106 and 3-107 are important polymetric tables on the distances of towns, markets and other important places in the National Highways and district road.

Table 3-108 furnishes particulars of different bus routes, their points of origin and destination, distance within the district, their type of road by nature of material, nature of service such as National or Private and the number of trips made per day etc.

Table 3-110 gives the list of Inspection Bungalows and Travellers Bungalows maintained by Public Works Department, Local Bodies, Ministry of Tourism and Civil Aviation, etc., for the use of travelling officers and the public. Besides, the table also gives such useful information regarding their location, category, number of suits they contain, etc.

Table 3-111 shows all the Railway Stations within the district talukwise including new ones, as well as various amenities provided, such as Waiting Room, Retiring Room, Refreshment Room, Stall, Medical and First Aid facilities etc. Besides, Railway distance have also been shown separately for different gauges of Railway lines.

Table 3-401 lists out the names of all Scheduled and Non-Scheduled Banks and their branches in the Rural and Urban areas of the district as on 31st March, 1971, while Table 3-402 gives the deposits and credits of all these Banks in the district for the same period.

Table 3-505 gives vital data on Rural sanitation of the districts for the period 1961-1970. This table furnishes the number of wells constructed, cleaned and repaired, number of bore holed latrines constructed, number of other types of latrines put up, number of markets inspected by the Sanitary Inspectors, number of fairs and festivals for which sanitary arrangements were made

besides the number of offences detected under public health as well as the number of offender convicted.

Table 3-506 lists out the number of towns and villages in both urban and rural areas of the district as in 1969-70, having potable water source, with reference to only such villages and towns with tap water, well water and tube well water facilities.

Table 3-602 furnishes the list of collegiate and Technical Institutions of the district in the various spheres of education such as Arts, Science, Commerce, Industrial Schools, Fine Arts, Architecture, Agriculture, Music, Dance, etc., together with the strength of both the teachers and students during the period 1961 to 1970.

Table 3-605 gives information on the historical places and ancient monuments of the district. This table lists out the names and the salient features of historical places and ancient monuments available in each village/town in each taluk of this district along with their location particulars.

Table 3-703 gives particulars of activities of Radio Listeners Forum in such places, where the forum has been organised, number of sittings, themes of discussion and average number of participants per sitting for the year 1970, while Table 3-704 furnishes yearwise statistics on Broadcast receiver licences in force for Domestic Radio sets, Concessional licences for Cheap Radio sets, Community Radio sets, School Radio sets and Hospital Radio sets, besides details of licences for commercial demonstration and dealer sets.

Table 3-706 deals with the number of stadia as in 1969 in the urban areas of the district together with their location. The data for the Table is 'Nil' for South Arcot district.

Table 3-707 deals with Newspapers, Magazines and periodicals published in the district. Under this table, useful and interesting information on all newspapers and journals published in the district are furnished.

Table 3-708 deals with the various printing presses of the district. The table furnishes talukwise statistics on the number of printing presses found, together with their location as on 1961, 1966 and 1970.

Table 3-709 lists out the number of fairs and festivals conducted in the village panchayats in each taluk every month and the crowds which they attract, while Table 3-700 classify these fairs according to their nature, such as religious, social, cultural, political, etc., and also gives the number of fairs in which agricultural products are being exhibited.

Table 4-107 gives the consumer price index number at the District Headquarters viz., for the years 1961, 1966 and 1970 monthwise.

Table 4-201 gives the results of Livestock Census conducted in the district by the Director of Statistics on behalf of the Animal Husbandry Department in the years 1961, 1966 and 1974.

Table 4-202 furnishes details of location of Animal Husbandry and Poultry Farms in the district. It also gives further details about the agency of management, year of establishment and a brief description of the activities being carried out in those farms. Table 4-203 which is very similar to the preceding table, presents details of various animal husbandry and poultry rearing activities in the district.

Table 4-204 gives a list of various type of Veterinary Institutions available in the district, viz., Civil Veterinary Hospitals, Veterinary Dispensaries, Cross-Breeding Centres, Artificial Insemination Centres and their agency of management.

Table 4-205 gives yearwise details of animals treated as both in-patients and out-patients in the Veterinary Hospitals and Dispensaries during the decade 1961-1970, as well as details of castrations performed on them.

Table 4-206 furnishes taluk-wise details of animals treated for both contagious and non-contagious diseases and castrations performed on them by the veterinary Assistants on their tours and the number of village visited by them for the years 1961-1970.

Table 4-207 which deals with livestock morbidity and mortality furnishes year-wise statistics of various livestock diseases and the number of deaths reported if any, for the period 1961-1970.

Table 4-302 furnishes interesting details of fishing centres, landing places and number of fishing boats according to size in the district as on 31st March, 1970.

Table 4-401 gives the area and different types of forest in the district for the years 1961—1970. The forests have been divided into four broad categories namely, Reserved, Protected, Unclassified and Private, the first three of which is under the control of the State Forest Department. These figures are made available for the first time by the Chief Conservator of Forests.

Table 4-402 gives forest area of the district by the authority of management and control while Table 4-403 presents yearwise figures of forest areas closed and opened to animals for grazing for the period 1961—1970.

Table 4-404 presents the areas afforested every year the period 1961-70, while Table 4-405 furnishes interesting details of forest coupes for the same period.

Table 4-406 furnishes yearwise figures of major and minor forest products obtained for the period 1961-70, while Table 4-407 presents the out turn and value of these major and minor products for the same period.

Table 4-501 and 4-502, one on the Mines and the other on the Quarries of the districts, furnish several interesting details of them.

Table 4-501 lists out the mines of the district and gives valuable details regarding their names, volume of mineral deposits, power used, agency engaged in working the mine, nature of operations carried out, categorywise number of persons engaged, their fixed and working capital, volume and value of their out-turn during 1970, various marketing centres etc.

Table 4-502 deals with the quarries of the district, viz., their names and location, volume of deposit, details of consumption for local use and for export, agency engaged in working the quarry, categorywise number of persons engaged, nature of operations carried out, their fixed and working capital and their volume and value of out turn during 1970.

Table 4-603 furnishes the number and types of workers and factories according to different products they manufacture and their working strength, while Table 4-604 gives the distribution of these factories according to the number of days worked.

Table 4-702 gives details of Joint Stock Companies registered in the district as on 31st March 1970. The companies have been classified into 5 industrial classes and their number, authorised capital, subscribed capital as well as paid up capital have been shown in this table.

Table 4-704 furnishes a list of hats and markets available in the district and gives such valuable details as their location, name, estimated number of permanent shops, commodities mainly dealt with special market days if any in the week and approximate gathering in these days.

Table 4-705 gives useful data on shop-cum-residence, business houses and offices at the district with the rural and urban break up as on 1970. The figures have been compiled from the house lists based on 20 per cent sample of census houses.

Table 5-206 deals with the Gramdhan and Bhoodan movements of the district. This table gives information regarding lands received as well as distributed under Bhoodan movement during the decade 1961 to 1970.

Table 5-303 shows the number of different types of Co-operative Societies, both credit and non credit with details of number of members, working capital, loans, share capital, reserve and other funds and deposits for the years 1961, 1966 and 1970.

Table 5-401 is an important table dealing with one of the most vital aspects of the country's development viz., Family Planning.

This table gives information on the location and number of Family Planning Centres available in the district, sex-wise break-up of persons sterilised, number of persons who adopted I.U.C.D. as well as number of persons to whom contraceptives have been issued.

Table 5-501 gives yearwise statistics on the number of criminal offences recorded during the period 1966-70, nature of such offences and the manner in which they were disposed off.

Table 5-502 gives detailed particulars of convicts of nature of crime, age-groups, and educational standard for the year 1970. Table 5-503 gives the nature of punishments such as death sentence, transportation or penal servitude, imprisonment, fine or forfeiture, etc., inflicted on such criminals for the same year.

Table 5-601 which deals with Civil Justice, gives useful yearwise statistics on the number of suits filed such as Money Suits, Rent Suits, Title and Other Suits, both original as well as appeals.

Table 5-701 furnishes a list of Police Stations and Out-post in the district together with the Police Circle to which they belong and also gives additional information on the availability of lockout facilities in them, as well as the period of existence and the nearest Railway Stations from them, with distance in Kilometres.

Table 5-702 shows the strength of the Police Force in the district during the year 1961-1970 by various categories of personnel such as Police Superintendents, Deputy and Assistant Superintendents, Inspectors Sub-Inspectors, Assistant-Sub-Inspectors, Head Constable and Constables. It may be noted that the Police establishments have been excluded from the purview of this table. Table 5-703 gives yearwise data on Jails of the district during 1961 to 1970 together with their location, daily average number of convicts admitted as well as other useful details such as the nature of productive activities attended by the prisoners, their annual out-turn, various measures implemented to enable these convicts out their livelihood while in Jail the average daily income per convict and number of convicts enjoying benefits of probation system etc.

Table 5-704 mainly deals with convicts under Untouchability offences Act and gives yearwise statistics of the period 1961-70, and the number of cases Registered, as well as convicted and acquitted.

Table 5-801 which deals with Relief and Rehabilitations, describing various occasions regarding relief, places of such incidences, number of persons requiring relief and rehabilitation, nature and kind of relief and rehabilitations offered, as well as amounts granted to them during the period 1964-70.

Table 5-901 deals with Excise and Motor Spirit Tax, from Beer, Wine and Spirit manufactured in India, duty on wines and spirits manufactured in India but classified as foreign liquor, i.e. distillery spirits and duty and licence fees for the sale of Opium for the period 1961 to 1970.

Table 5-902 gives figures of receipt of Sales Tax Entertainment Tax and Stamp Duty in the district for the year 1961-62 to 1969-70.

Table 5-903 furnishes useful data on the number of Registration Offices and the aggregate value of property transferred by registered documents during the year 1961-70. The table covers both movable and immovable properties and compulsory and optional registrations.

Table 6-301 gives the names of all the Assembly constituencies of the district, describing the various areas covered under each Constituency. The table also clearly indicate whether each Constituency is reserved for Scheduled Caste or Scheduled Tribe candidate or unreserved and also gives useful figures of the total electorate of the Constituency, with the rural and urban break-up.

Table 6-302 clearly analysis the voting behaviour with reference to the various parties contested in each of the Assembly Constituency during the elections held in 1962, 1967 and 1971. Under this table, detailed particulars regarding the names of each of the contested candidate, the party to which he belongs to and the actual number of votes polled have also been gives for all the Constituencies of the last three elections.

Table 6-401 furnishes the names of all the Parliamentary Constituencies, describing the various areas covered under each Constituency. Besides, the table also indicates whether the Constituency is reserved for Scheduled Caste or Scheduled Tribe candidate or unreserved together with the rural and urban break-up.

Table 6-402 deals with the voting trend, with reference to the various parties contested in each of the Parliamentary Constituency during the elections held in 1962, 1967 and 1971. The table also gives constituency-wise detailed particulars of the name of each of the contested candidate, the party to which he belongs to and the actual number of votes polled during the three elections held in 1961, 1966 and 1977.

Uniform table numbers have been adopted in the handbooks for all the districts, to facilitate easy reference, the source of information for compiling the table, as well as explanatory notes about the units they refer to and other relevant particulars have been given at the foot of the table. The following abbreviations have been used in the tables :

(1) N.A. Not Available

(2) Nil.

The following are the various tables Sixty five in number, on administrative statistics, that have been dropped from this section for want of information.

1.	1.03	Areas where large scale settlements of the population have been made during 1961-70.
2.	3.109	Nationalised Transport Services, passenger vehicles year by year 1961-70.
3.	3.112	Talukwise number of Post Offices and Telegraph Offices year by year from 1961-1970.
4.	3.112 Annexure	Places with Telephone connection with District Head Quarters.
5.	3.113	Number of post cards, letters, newspapers, parcels and packets handled in the different Post Offices in the district.
6.	3.114	Number and value of money orders and Indian Postal orders issued or paid in the post offices in the district.
7.	3.201	Sources of irrigation.
8.	3.202	Irrigation projects with particulars of capacity and water spread areas, 1970.
9.	3.203	Gross area (by crops) irrigated (In acres).
10.	3.204	Progress of electricity supply.
11.	3.205	Consumption of electricity according to purpose.
12.	3.206	Towns and villages connected by electricity.
13.	3.207	Data for supply of electricity by purpose.
14.	3.301	Housing conditions, 1970.
15.	3.302	Implementation of housing schemes, 1970.
16.	3.403	Post Office Saving Bank Deposit and amount of deposits in Post Office Saving Banks 1961-70.
17.	3.404	Small Savings Scheme other than Postal Saving Banks.
18.	3.405	Life Insurance Statistics 1961-70.
19.	3.406	National Saving Certificates.
20.	3.501	Medical and Public Health Institutions.
21.	3.501 (a)	Hospitals/Dispensaries and related Statistics, 1970.
22.	3.502	Medical and para medical/personnel.
23.	3.503	Incidence of disease, 1970.
24.	3.504	Public Health Activities (Vaccination, Malaria control, B.C.G.)
25.	3.506 (a)	Town/villages by sources of drinking water as on 1969-70.

26.	3.506 (b)	Details of implementation of protected water supply schemes during the decade 1961-1970.
27.	3.707	Anti-adulteration activities.
28.	3.508	School health services.
29.	3.601	Primary, Secondary, Higher Secondary and Non-collegiate Educational Institutions.
30.	3.601 (a)	Primary, Secondary, Higher Secondary and other Non-collegiate Educational Institutions together with strength of teachers.
31.	3.601 (b)	Directory of Secondary and Higher Secondary Schools.
32.	3.603	Students appearing in High/Higher School Leaving/Matric Examination.
33.	3.604	Library and Reading room facilities in the district.
34.	3.701	Cinemas, films exhibited, tickets issued, spectators.
35.	3.702	Theatre and other Public Entertainment halls.
36.	3.708	Religious facilities as in 1969.
37.	4.101	Land use pattern as in 1969.
38.	4.102	Single and Double cropped area.
39.	4.103	Area and out-turn of principal crops.
40.	4.104	Crop and irrigation.
41.	4.105	Whole sale price of agricultural produce in the market of the taluk Head Quarters as well as at the regulated markets in the district.
42.	4.105 (a)	Harvest price of agricultural produce.
43.	4.106	Average retail price of some important agricultural products in the taluk Head quarters and regulated markets in the district in the years 1961, 1966 and 1970.
44.	4.108	Total rural and urban population per 100 acres of area under food grains and net area shown in 1931, 1961 and 1971.
45.	4.109	Density of cultivators and agricultural labourers per 100 acres of net Area shown in 1951, 1961, and 1971.
46.	4.110	Rainfall Area shown and irrigated, during in 1970.
47.	4.111	Agricultural loans by purpose.
48.	4.112	Soil type, local name, suitability, for different types of use, incidence of revenue (limited to 6 types, minimum and maximum for each).
49.	4.113	Statistics of wages paid to various categories of rural labour in 1961, 1966, 1970 by months (where payment is in cash and kind, both may be indicated, but in every case total cash value should be given).
50.	4.214	Agricultural tools and implements (Give local names by the side of English equivalent to each case).
51.	4.115	Adoption of improved agricultural practices.
52.	4.116	Soil conservation and land improvement.
53.	4.117	Experimental demonstration and multiplication farms managed by Government and other agencies.
54.	4.303	Fishing activities.
55.	4.303	Licensed fishermen and fish catch, 1961-1970.

56.	4.408.	Rights and concessions enjoyed by the various categories of population i.e. tribals, craftsmen, etc.
57.	4.409	Medical herbs and plants cultivated or growing wild.
58.	4.503	Plantation, Plant—Tea Coffee/Rubber/Others (specify).
59.	4.601	Industries by categories and daily average employment.
60.	4.602	Workers, capital and value of production of industries of various categories.
61.	4.605	Average monthly earning of workers of different categories.
62.	4.606	Industrial disputes.
63.	4.607	Causes of disputes and manner of disposal in 1970.
64.	4.608	Nature of labour trouble.
65.	4.701	Three most important commodities imported and exported.
66.	4.703	Ware-house and cold storage.
67.	4.706	Arrival of agricultural produce for sale in different regulated markets.
68.	5.101	Land Revenue/Rent demand and collections.
69.	5.102	Land tenure system and reform, 1950-70.
70.	5.103	Consolidation of holdings.
71.	5.104	Survey and settlement operations during the decade (1961-1970).
72.	5.105	Ceiling on holdings.
73.	5.107	Land occupation and other agrarian movements.
74.	5.108	Distribution of holdings by size group as on (latest available figures).
75.	5.201	Food control and rationing measures.
76.	5.301	Community development project in the district.
77.	5.302	Progress and achievements of community development/national extension schemes up to the year ending 31st March 1970.
78.	6.101	Local bodies and organs of democratic decentralisation.
79.	6.102	Composition of Zilla Parisheds/District Board/Panchayat Samity/Gram Panchayat/Municipality/Municipal Corporation.
80.	6.103	Receipt and expenditure of Zilla Parisheds/District Board.
81.	6.104	Receipt and expenditure of Panchayat Samities yearwise 1961-1970.
82.	6.105	Receipt and expenditure of panchayat samities in 1970.
83.	6.106	Receipt and expenditures of Gram Panchayats.
84.	6.201	Municipal income in 1970 (on the basis of statement III of Town Directory).
85.	6.202	Income and Expenditure of Municipalities year-wise.

TABLE 101.
MAXIMUM AND MINIMUM TEMPERATURE 1961 TO 1970 AS RECORDED IN THE METEOROLOGICAL OBSERVATORY AT CUDDALORE.
(IN CENTIGRADE.)

Station.	Year.	Temperature.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.

			Vallam	11.4	20.0	31.0
				Gingee	8.6	19.6
					Alampoondi	11.0
						South Arcot District Limit.

2. MYLAM—PONDICHERY ROAD.

Kooteri pattu.	Mylam.	Vanur.	Thiruchitrambalam.	Mortandy.
(1)	(2)	(3)	(4)	(5)
Kooteri pattu	3.6	20.4	26.6	28.0
	Mylam	16.8	23.0	24.4
		Vanur	6.2	7.6
			Thiruchitrambalam.	1.4
				Mortandy.

3. MORTANDY—TINDIVANAM ROAD.

Thiruchitrambalam.	Kilianur.	Tindivanam.
(1)	(2)	(3)
Thiruchitrambalam	12.2	29.1
	Kilianur	16.9
		Tindivanam.

12-6-67A

4. CUDDALORE—TIRUKOILUR ANAICUT ROAD.

<i>Tirukoilur Anaicut.</i>	<i>Andrayanur.</i>	<i>Tiruvonnainallur.</i>	<i>Arasur.</i>
(1)	(2)	(3)	(4)
Tirukoilur Anaicut	12.8	17.4	24.8
	Andrayanur	4.6	12.0
		Tiruvonnainallur	7.4
			Arasur.

5. VIKRAVANDY LOWER ANAICUT ROAD.

<i>Panayapuram.</i>	<i>Kolliyanur Junction.</i>	<i>Panchamadevi.</i>
(1)	(2)	(3)
Panayapuram	9.0	15.0
	Kolliyanur Junction	6.0
		Panchamadevi.

6. VILLUPURAM-PONDICHERRY ROAD.

<i>Villupuram.</i>	<i>Kolliyanur.</i>	<i>Valavanur.</i>
(1)	(2)	(3)
Villupuram	6.0	10.0
	Kolliyanur	4.0
		Valavanur.

CUDDALORE DIVISION.

7. SALEM-ULUNDURPET ROAD (STATE HIGHWAYS).

<i>V. Kootu Road.</i>	<i>Chinnasalem.</i>	<i>Ulagamkattam.</i>	<i>Kallakurichi.</i>	<i>Thiyagadurgam.</i>
(1)	(2)	(3)	(4)	(5)
V. Kootu Road	9.0	17.8	24.0	36.4
	Chinnasalem	8.8	15.0	27.4
		Ulagamkattam	6.2	18.6
			Kallakurichi	12.4
				Thiyagadurgam.

8. KALLAKURICHI-SANKARAPURAM ROAD.

<i>Kallakurichi.</i>	<i>Ariaperumanur.</i>	<i>Sankarapuram.</i>
(1)	(2)	(3)
Kallakurichi	5.0	17.6
	Ariaperumanur	12.6
		Sankarapuram.

9. SANKARAPURAM-MOONGILTHURAI PATTU ROAD.

<i>Sankarapuram.</i>	<i>Maickalpuram.</i>	<i>Moongilthurai pattu.</i>
(1)	(2)	(3)
Sankarapuram	13.6	18.2
	Maickalpuram	4.6
		Moongilthurai pattu.

10. KALLAKURICHI-KATCHIRAPALAYAM ROAD—

<i>Kallakurichi.</i>	<i>Katchirapalayam.</i>	<i>Gomuki Dam Side.</i>
(1)	(2)	(3)
Kallakurichi	13.8	17.3
	Katchirapalayam	4.0
		Gomuki Dam Side.

11. CUDDALORE—VRIDHACHALAM—SALEM ROAD—

<i>Annumanandal.</i>	<i>Nainarpalayam.</i>	<i>V. Kootu Road.</i>
(1)	(2)	(3)
Annumanandal	1.6	4.6
	Nainarpalayam	3.0
		V. Kootu Road.

12. CHINNASALEM—KATCHIRAPALAYAM ROAD—

<i>Chinnasalem.</i>	<i>Kaniamoore.</i>	<i>Ackarapalayam.</i>
(1)	(2)	(3)
Chinnasalem	3.8	16.2
	Kaniamoore	12.4
		Ackarapalayam.

13. SALEM—ULUNDURPET ROAD—

<i>Salem.</i>	<i>Thiyagadurgam.</i>
(1)	(2)
Salem	5.2
	Thiyagadurgam

14. THIRUKOILUR—SANKARAPURAM ROAD—

<i>Thirukoilur.</i>	<i>Vomapuram.</i>	<i>Ariyur.</i>	<i>Athiyur.</i>	<i>Devapondalam.</i>	<i>Sankarapuram.</i>
(1)	(2)	(3)	(4)	(5)	(6)
Thirukoilur	6.0	7.4	10.0	18.0	19.2

			Athiyur	8.0	9.2
				Devapondalam	1.2
					Sankarapuram

15. KALLAKURICHI—KOOTHAGUDY ROAD—

<i>Kallakurichi.</i>	<i>Viruganoor.</i>	<i>Nagalore.</i>	<i>Koothagudy.</i>
(1)	(2)	(3)	(4)
Kallakurichi	8.4	12.4	22.4
	Viruganoor	4.0	14.0
		Nagalore	10.0
			Koothagudy

16. Tirukoilur—Thyagadurgam Road—

<i>Tirukoilur.</i>	<i>Rishivandiyam.</i>	<i>Thyagadurgam.</i>
(1)	(2)	(3)
Tirukoilur	6.4	15.6
	Rishivandiyam ..	9.2
		Thyagadurgam

17. Cuddalore—Vridhachalam—Salem Road—

<i>Veppur Junction.</i>	<i>Adani.</i>	<i>Sirupakkam.</i>
(1)	(2)	(3)
Veppur Junction	8.6	14.4
	Adani ..	5.8
		Sirupakkam

18. Arniyur—Moolakadu Road—

<i>Athiyur.</i>	<i>Rangappanur.</i>
(1)	(2)
Athiyur	14.4
	Rangappanur

19. Manalur—Melsiruvalur Road—

<i>Manalur.</i>	<i>Melsiruvalur.</i>
(1)	(2)
Manalur	3.4
	Melsiruvalur

20. Odiyandal—Eduthanur Road—

<i>Odiyandal.</i>	<i>Eduthanur.</i>
(1)	(2)
Odiyandal	3.2
	Eduthanur

21. Thyagadurgam—Manalurpet Road—

<i>Thyagadurgam.</i>	<i>Pavandur.</i>	<i>La-Gudalore.</i>
(1)	(2)	(3)
Thyagadurgam	8.4	16.4
	Pavandur ..	8.0
		La-Gudalore

22. Killai Road—

<i>Anuvampattu.</i>	<i>Maladiodai.</i>	<i>Thillaividanganur.</i>	<i>Kullanchavadi.</i>	<i>Killai.</i>	<i>Singarathope.</i>	<i>Ponnamthattu.</i>
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Anuvampattu	1.6	2.8	4.2	6.0	7.5	9.4
	Maladiodai ..	1.2	2.6	4.4	5.9	7.8
		Thillaividanganur.	1.4	3.2	4.7	6.6
		Kullanchavadi	1.8	3.3	5.2	
			Killai	1.5	3.4	
				Singarathope	1.9	
					Ponnamthattu	

23. OLD CUDDALORE—CHIDAMBARAM ROAD.

<i>Old Cuddalore.</i>	<i>C. Muthur.</i>	<i>Keelamoongiladi.</i>
(1)	(2)	(3)
Old Cuddalore	36.6	37.8
	C. Muthur	1.2
		Keelamoongiladi.

24. KULLAMCHAVADI—KATTUGUDALORE ROAD.

<i>Kallamchavadi.</i>	<i>Ambalavampet.</i>	<i>Kavarapattu.</i>	<i>Kattukaranakuttai.</i>	<i>Marungur.</i>
(1)	(2)	(3)	(4)	(5)
Kallamchavadi	2.0	5.0	13.6	15.2
	Ambalavampet	3.0	11.6	13.2
		Kavarapattu ..	8.6	10.2
			Kattukaranakuttai	1.6
				Marungur.

25. KULLAMCHAVADI CROSS ROAD.

<i>Kullamchavadi.</i>	<i>Kamanathankuppam.</i>	<i>Palliodai.</i>	<i>Alapakkam.</i>
(1)	(2)	(3)	(4)
Kullamchavadi	2.4	3.8	6.0
	Ramanathankuppam	1.4	3.6
		Palliodai	2.2
			Alapakkam.

26. PEMMAL TANK BUND ROAD.

<i>Pemmal.</i>	<i>Ayethurai.</i>	<i>Kundiyannalore.</i>
(1)	(2)	(3)
Pemmal	29.2	31.2
	Ayethurai	2.0
		Kundiyannalore.

27. BHUVANAGIRI—KURINJPADY ROAD.

<i>Bhuvanagiri.</i>	<i>Melmankudi.</i>	<i>Sathapady.</i>	<i>Chokkamkollai.</i>	<i>Adoor Agaram.</i>	<i>Kurinjpady.</i>
(1)	(2)	(3)	(4)	(5)	(6)
Bhuvanagiri	5.0	6.4	8.2	13.4	18.6
	Melmankudi	1.4	3.2	8.4	13.6
		Sathapady	1.8	7.0	12.2
			Chokkamkollai	5.2	10.4
				Adoor Agaram	5.2
					Kurinjpady.

28. PUDUCHATRAM—POOVALAI ROAD.

<i>Puduchatram.</i>	<i>Villiyannore.</i>	<i>Manjakollai.</i>	<i>Poovalai.</i>
(1)	(2)	(3)	(4)
Puduchatram	1.0	2.4	7.4
	Villiyannore	1.4	6.0
		Manjakollai	4.6
			Poovalai.

29. KURINIPADY—POLUR ROAD.

Kurinipady.	Meenakshipet.	Venkadampet.	Konarapattu.	Bathrakottai.	Maniyankuppam.	Naduveerapattu.
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Kurinipady ..	0.8	5.0	8.6	14.2	16.6	18.0
	Meenakshipet ..	4.2	7.8	13.4	15.8	17.2
		Venkadampet ..	3.6	9.2	11.6	13.0
			Konarapattu ..	5.6	8.0	9.4
				Bathrakottai ..	2.4	3.8
					Maniyankuppam	1.4
						Naduveerapattu.

30. VALLAM ROAD.

Vallam.	Keelakuppam.	Nadukuppam.	Mettukuppam.
(1)	(2)	(3)	(4)
Vallam	1.0	1.8	5.6
	Keelakuppam ..	0.8	4.6
		Nadukuppam ..	3.8
			Mettukuppam.

31. KATTUKUDALORE VILLAGE ROAD.

Madapali.	Kattukudalore.
(1)	(2)
Madapali	1.6
	Kattukudalore.

32. BHUDARAYANPET—KRISHNAPURAM ROAD.

Bhudarayanpet.	Krishnapuram.	Ellakkudi.
(1)	(2)	(3)
Bhudarayanpet ..	3.0	7.6
	Krishnapuram ..	4.6
		Ellakkudi.

33. NATARAJAPURAM ROAD.

Annamalai Nagar.	Kumaramangalam.	Natarajapuram.
(1)	(2)	(3)
Annamalai Nagar	3.4	5.0
	Kumaramangalam ..	1.6
		Natarajapuram.

34. CUDDALORE—CHITTOOR ROAD.

Cuddalore.	Nellikuppam.	Panruti.
(1)	(2)	(3)
Cuddalore	9.0	25.0
	Nellikuppam	16.0
		Panruti.

35. CUDDALORE—TIRUKOILUR ANAICUT ROAD.

Cuddalore.	Tiruvandipuram.	Palur.	Panruti.
(1)	(2)	(3)	(4)
Cuddalore	6.0	18.0	31.0
	Tiruvandipuram ..	12.0	25.0
		Palur	13.0
			Panruti.

36. MADRAS, KUMBAKONAM, THANJAVUR ROAD.

Madras.	Panruti.
(1)	(2)
Madras	178.0
	Panruti.

37. CUDDALORE—CHIDAMBARAM ROAD.

Cuddalore N.T.	Cuddalore O.T.
(1)	(2)
Cuddalore N.T. ..	6
	Cuddalore O.T.

38. CUDDALORE—VRIDHACHALAM—SALEM ROAD.

Cuddalore.	Vadalore.	Neiveli.	Vridhachalam.	Veppur.
(1)	(2)	(3)	(4)	(5)
Cuddalore	34.4	43.0	61.0	81.4
	Vadalore	8.6	26.6	47.0
		Neiveli	18.0	38.4
			Vridhachalam ..	20.4
				Veppur.

39. VRIDHACHALAM—THOLUDUR ROAD.

Vridhachalam.	Pennadam.	Tittagudy.	Tholudur.
(1)	(2)	(3)	(4)
Vridhachalam ..	17.0	32.0	44.0
	Pennadam	15.0	27.0

HISTORICAL PLACES, ANCIENT MONUMENTS ETC.

Serial number.	Town Village Taluk.	Nearest railway station and distance.	Name Nature of monuments historical interest and other particulars.
(1)	(2)	(3)	(4)
1	Srimushnam		Nitisvaraswami Temple :—Siva temple dated in later items (1100 to 1200 A.D.) There are additional renovations made in the Pandyan and Vijayanagar times.
2	Dalavanur		Rock-cut Pallava Temple :—A Pallava Rock-cut temple dedicated to Siva excavated by Mahendravarman (610—640 A.D.). It consists of a rectangular pillared hall on the southern face of the hill with its facade on its south.
3	Gingee		A Fort on the hill ;—The massive fortification of Gingee interconnect and include three inaccessible and precipitous hills called locally Krishnagiri, Chikkilidurg and Rajagiri. The three hills are disposed in the form of a triangle connected by a 60 feet thick wall faced with stone. The area is about 3 miles in circuit. In the North is Delhi gate and in the South Pondicherry gate, close to the foot of the tallest of the hills lies the inner fort with many lines of fortification and gates. The tops of the three hills form the impregnable citadel reinforced by succession of walls. According to tradition the original fort was erected by the Kone chiefs of Gingee and Rajagiri was fortified by Anand Kone in 1,200 A.D. and Krishnagiri by Krishna Kone in 1,240 A.D. and other rulers of Gingee. In later period a succession of additions by the dynasties of Vijayanagar, Naicks, Marathas, Carnatic Nawabs, French and British from 1383 to 1780 A.D.
4	Gingee Fort		There are two granaries, an audience hall, Ranganatha and Kamlakrishnan temples on the Rajagiri hill. Similarly on the Krishnagiri hill there are two stone built granaries with barrel vaulted roof, a stone well, an audience hall and two temples. On the inner part there is Venugopal Swami temple, there is a granary and a gymnasium.
			The Venkatatamana temple is the biggest one belonging to Vijayanagar period (1540—50 A.D.).
			Outside the fort is a Vishnu temple known as Pattabhirama temple with a twelve pillared mandapa as an adjunct provided with curved steps on four sides. The twelve pillars are gracefully carved monoliths carrying on the top a central pyramid surrounded by smaller pyramids.
5	Kil Mavalingai		Pallava Rock-cut shrine :—The Pallava rock-cut shrine of Mahendra style is dedicated Vishnu (7th century A.D.).
6	Mandagapattu		Rock-cut-Pallava Temple :—Rock-cut temple dedicated to Brahma Vishnu and Siva was excavated by King Mahendra (610—643 A.D.). Three cells cut deep into the rock have a pillared hall in front with two floors demarcated by inner row of pillars and pilasters. On the facade are two dwarapalas in the niches.
7	Tondur		Vinnamparai :—There is a reclining image of Vishnu cut into the scarp of a boulder displaying Pallava workmanship. It was caused by one Vinnaraja who was probably a local chieftain under Parantaka I. There is a defaced pallava inscription also. It is late Pallava. 9th—10th century A.D.
