Responsibility for the correctness of internal details shown in the maps rests with the publisher.

FOREWORD

The District Census Handbook (DCH), compiled by the Census Organisation on behalf of the State Government, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The District Census Handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The District Census Handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census, the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States, it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series, some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referent village, the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect, particularly in relation to amenities and land-use pattern, is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning, but regulating the provision of goods and services as well, so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with

the population and number of households they serve. Addition of two more appendices, listing the villages where no amenities are available and according to the proportion of Scheduled Caste and Scheduled Tribe population to the total population, has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Caste and Scheduled Tribe population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the Primary Census Abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the Individual Slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series, it has been so designed that part-A of the volume contains village and town directory and part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto taluk/town level. At the beginning of the DCH, a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk level maps, depicting the boundaries and other important features, have been inserted at appropriate places to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri A. P. Muthuswami, I.A.S., the Director of Census Operations, Tamil Nadu on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

NEW DELHI,
26th April 1982.

P. PADMANABHA,
Registrar General, India.

PREFACE

It has been the tradition of the Government of Tamil Nadu to publish immediately after each census, a District Census Handbook separately for each district containing the census statistics, besides other valuable data of local importance, for the use of the State Government, district administration, research scholars and other data users. The first series of District Census Handbooks were brought out immediately after the 1951 Census and the present publication after the 1981 Census is the fourth in the series.

The census statistics presented in this publication were collected during the census operations in February-March 1981, the reference date being 1st March 1981. The other statistics in this publication have been collected from various departments of the State and Central Governments.

This publication consists of the following two parts :

Part-A : Village and Town Directory ; and

Part-B : Village and Townwise Primary Census Abstract.

Taking into account the increasing and varied developmental and other welfare measures undertaken by the Government, the scope and content of the data in this publication have been considerably enlarged and improved to meet the requirements of the planners and the other data users. In particular, certain inset tables based on census and other data have been included in this publication with brief analytical notes thereon.

This publication contains a brief history of the district, highlighting the major characteristics of the district in relation to the economic resources like forestry, minerals, etc., besides the social, cultural, religious and historical aspects. The district and taluk maps in this publication give the administrative units upto village level, the rural and urban units, the location of towns and cities, communication facilities and other related details.

The facilities and amenities available in respect of education, medical, drinking water, post and telegraph, markets, communication, etc., in each village and town have been included in this publication, and an important feature is that wherever the above facilities and amenities are not available in any particular village/town, the nearest place where they are available has also been reported.

Another interesting feature in this publication is that villages with none of these amenities have been listed out separately for the pointed attention of the planners and administrators.

Certain tables present data exclusively in respect of the weaker sections of the society belonging to the Scheduled Caste and Scheduled Tribe.

—12-6—

The land use pattern in respect of rural and urban areas have also been reported in this publication which would meet the requirement of micro level planning for rural and urban areas.

The data in respect of urban areas, apart from the medical and other facilities available, relate to the growth of towns, the availability of protected water supply and what is important, the civic amenities available in the slums of the urban areas.

Part-B of this volume consists of the District and Village/Townwise Primary Census Abstract followed by Primary Census Abstract of Scheduled Castes and Scheduled Tribes.

The district Primary Census Abstract gives for each territorial unit upto taluk level in the case of rural areas and upto town level for urban areas, occupied residential houses, households, the total population, the Scheduled Caste and Scheduled Tribe population, workers, etc., there by indicating the basic socio economic characteristics of the population for the territorial units. The village and townwise Primary Census Abstract gives similar information for villages and wards of towns. Besides, there is an appendix which furnishes at urban block level, the total population and Scheduled Caste and Scheduled Tribe population.

I am grateful to the Collectors and other district officers and Departments of the State Government who have extended their unfailing co-operation and help in collecting the voluminous and useful data other than Census, for their presentation at one place in this publication, for the ready reference of the data users.

In bringing out this publication, I have received assistance from S/Shri M. Thangaraj and M. Nagappan, Deputy Directors, Shri R. Narayanan, Assistant Director and Shri C. T. Rajan, Investigator, besides a large number of staff members of this Directorate.

In formulating the scope and content of the data in this publication and designing the formats for presentation of the data, I have received valuable guidance from Shri P. Padmanabha, Registrar General, India. The encouragement I have received from him at every stage of the work has contributed in a great measure to the successful publication of this District Census Handbook.

I hope the data in this volume would be found useful and the publication well received by the administrators, academicians and other data users.

MADRAS,
June, 1983.

A. P. MUTHUSWAMI,
Director of Census Operations, Tamil Nadu.

ACKNOWLEDGEMENT.

It is my pleasant duty to acknowledge the able assistance given by the following officials of my office in the preparation of this volume:

Village Directory

Shri T. S. Rajaram, Investigator
Smt. R. Rani Bai, Statistical Assistant

ANALYTICAL NOTE

i) CENSUS CONCEPTS

Rural and urban area.

Census figures are generally presented separately for rural and urban areas. In the 1981 Census, the definition of an urban unit is more or less the same as in the 1961 and 1971 Censuses but for some minor variations. The urban areas of 1981 Census are :—

(a) All places with a Municipality, Corporation or Cantonment Board of notified town areas ;

(b) All other places which satisfied the following criteria ;

(i) A minimum population of 5,000.

(ii) At least 75 percent of the male working population engaged, in non-agricultural (and allied) activity ;

(iii) A population of at least 400 per Km² (or one thousand per square mile).

The above definition of urban area varies slightly from that of 1961 and 1971 Censuses in that the males working in activities such as fishing, logging etc., were treated as engaged in non-agricultural activity and therefore contributed to the 75 percent criterion in the 1961 and 1971 Censuses, whereas in the 1981 Census, these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion. The rest of the areas not treated as urban are classified as rural areas.

Urban Agglomeration.

Urban Agglomeration is a new concept formed during 1971 Census and this replaces the concept of town group adopted in 1961 Census. An Urban Agglomeration may be explained as follow, "It must form a continuous urban spread constituting a town and its adjoining urban outgrowth or two or more physically contiguous towns together with continuous well recognised urban outgrowth, if any, of such towns."

Census House.

A Census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

Household.

A household is a group of persons, who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented any of them from doing so.

Scheduled Castes/Scheduled Tribes.

For the enumeration of Scheduled Castes and Scheduled Tribes in Census, the names of Scheduled Castes and Scheduled Tribes as recognised in Tamil Nadu based on the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act of 1976 (Central Act 108 of 1976) were followed. The enumerators were instructed to record a person as a Scheduled Caste/Scheduled Tribe provided the name given by the person was found in the list supplied to them.

Literates.

In 1981 Census, a literate was defined as "a person who can both read and write with understanding in any language". A person who could merely read but cannot write, was not a literate. It was not necessary that a person considered a literate must have received any formal education or have passed any minimum educational standard.

Work.

Work has been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

Main workers and Marginal Workers.

A worker was identified with reference to a reference period preceding the census. The reference period prescribed was one year preceding the date of enumeration. Certain types of work such as agriculture, household industries like, gur making etc., were carried on, either throughout the year or only during certain seasons or part of the year, depending on local circumstances. In such cases, what we were concerned with, was the broad time span of the agricultural seasons preceding the enumeration. Workers are to be full time workers or seasonal workers or marginal workers. If a person has done any work during the reference period and if he had worked for the major part of the year i.e., if he had worked for 183 days or more, he was considered to be a full time worker (main worker). If a person had done any work during the reference period and if he has not worked for the major part of the year i.e., if he had worked for less than 183 days, he was considered to be a marginal worker.

The main activity of workers has been classified into four categories, viz., cultivator, agricultural labourer, household industry and other work.

Cultivator.

For purposes of Census, a cultivator is a person who is engaged either as an employer, single worker or family worker in cultivation of land owned, or held from Government, private persons or institutions, for payment in money, kind or share. Cultivation includes supervision and directing of cultivation.

Agricultural Labourer.—

A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He or she has no risk in the cultivation but merely works in another person's land for wages and has no right of lease or contract on land on which he or she works.

Household industry.—

For a person who returns his/her main activity as engaged in some production, processing, servicing or repair of articles or goods, it has been ascertained whether it is a Household Industry.

Household Industry is defined as an industry conducted by the head of the household and/or by the members of the household at home or within the village in rural area, and within the precincts of the house in urban areas. A larger proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would, or as to, be registered under the Indian Factories Act.

Non-workers.

All persons who have not been treated as workers, i.e., persons who have not worked any time at all during the reference period of one year preceding the date of enumeration, have been considered as non-workers. These cover all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year, full time students and children attending school, all dependent such as infants or children not attending school or a person permanently disabled from work because of illness or old age, persons retired from service or rentiers, beggars, vagrants, convicts in jails or inmates of a penal, mental or charitable institution and all non-workers who may not come under any of the above categories.

(ii) HISTORY OF THE CENSUS HANDBOOK

After the Census of 1951, the Government of India offered to hand over to the State Government the Census tables and other data prepared during the Census and suggested that they might be published along with any other useful information relating to each district. The State Government accepted the proposal, and the first publication of the District Census Handbook was brought out at the cost of the State Government.

The District Census Handbook of 1951 was found to be very useful and it was therefore decided not only to continue the series for the 1961 Census but also to improve definitely on its content so that each district Census Handbook contained certain basic economic data for the smallest administrative unit in the district and be an useful reference book for scholars and other data users.

After the 1971 Census as well the series of District Census Handbook was continued. The publication of the 1971 Census Handbooks was in three parts, viz., part-A, part-B, part-C; Part-A relating to Village and Town Directory, Part-B relating to Village and Townwise Primary Census Abstract and Part-C comprising District Census Tables, and certain administrative statistical tables.

The tradition of bringing out the Census Handbook has been continued by the State Government during the 1981 Census also. In this series some individual features besides restructuring the formats of the village directory have been adopted bearing in mind the national requirements of data for the socio-economic programmes of the Government. The comparability of data with the 1971 Census data has also been kept in view.

The present Census Handbook will be published in two parts, viz., Part-A—Village and Town Directory and Part-B—Village and Town wise Primary Census Abstract.

(ii) SCOPE OF VILLAGE DIRECTORY AND TOWN DIRECTORY STATEMENTS.

The District Census Handbooks are the only publications which incorporate the data down to the level of a village and level of a town which are constantly referred to by the data users.

The Village Directory Statement gives the list of villages by taluk and for each village the area, number of households and population, availability of amenities and land use. The information on amenities available in the village includes educational, medical, drinking water, post and telegraph, market, rail/road or other communication facilities and power supply. Land use is shown as area under forests, irrigated, unirrigated land, culturable waste and area not available for cultivation.

Appendix I gives for each taluk the number of villages having various levels and types of educational institutions, such as middle schools, adult literacy centres, etc., various types of medical institutions such as dispensaries, primary health centres, etc. and the number of such institutions various types of drinking water sources such as, taps, tubewell, etc., post and telegraph offices, power supply, railway stations, bus stops, etc. and also the number of villages not having such amenities.

Appendix II gives for each non-municipal town (i.e. census town) the area under forest, irrigated and unirrigated land, culturable waste and area not available for cultivation.

Appendix III gives the list of villages where no educational, medical and public health facilities, etc. are available.

Appendix IV gives the list of villages with the proportion of Scheduled Castes and Scheduled Tribes population to the total population in various ranges of proportion. Part A of the Appendix gives the village according to the proportion of Scheduled Caste population and Part B according to proportion of Scheduled Tribe population. Information is presented by the ranges 0—5 percent, 6—10 percent, 11—15 percent, 16—20 percent, 21—30 percent and 31 percent and above for Scheduled Castes and 0—5 percent, 6—15 percent, 16—25 percent, 26—35 percent, 36—50 percent and 51 percent and above for Scheduled Tribes.

The Town Directory gives important and useful information like civic and other amenities available in all the towns in the district, statutorily notified as well as non-municipal and census towns. The details relating to each of the towns have been presented in seven statements, viz., statements I to VI and IV-A. In all the statements except IV-A, the towns are arranged in the alphabetical order for the district. The Town Directory do not cover strictly military areas. It may, however, cover cantonment areas but not strictly military areas or military establishments within the cantonment areas. However, basic statistics of the cantonment as a whole have been provided. In the Town Directory codes have been given for the data on amenities and civic administration for want of space. The relevant explanations for the codes adopted have been given in the beginning of the Town Directory statements.

An urban agglomeration includes two or more independent census towns. The names of the towns/urban agglomerations have been arranged in the alphabetical order.

The particulars of the individual town which constitutes one of the units of agglomeration have not been furnished separately because the particulars have been furnished where they occur together under the name of agglomeration. The following remarks have been given against such town in brackets:

“(see the name of the main town of the agglomeration)”

By adoption of this method the reader can get an idea of the particulars of the urban agglomeration in total and also severally.

Statement-I Status and Growth History.

This statement provides some basic data based on the primary Census Abstract. For analysing the Town Directory data at State level and All India level some new columns have been introduced in 1981. The new items are class of town area, number of households, population and growth rate for each census since 1901, Density and Sex Ratio at 1961, 1971 and 1981 censuses are also provided in this statement.

For size class of town the following population norms as per 1981 census have been adopted:—

Population	Class
100,000 and above	I
50,000—99,999	II
20,000—49,999	III
10,000—19,999	IV
5,000—9,999	V
below 5,000	VI

Location Code Number of Towns:—To distinguish the town from the village, the location code numbers for towns have been given in Roman numeral and these numbers have been assigned in a continuous order for the district as a whole.

Statement II Physical Aspects and Location of Towns, 1979.

Under physical aspects, annual rainfall and temperature figures are furnished. These particulars were obtained from the Commissioner of Statistics, Madras. If the information is not available for any particular town the nearest town for which it is available is given. For col. (9) nearest city with population of one lakh and more is furnished according to 1981 census. For the other cols. figures obtained from the Municipal Commissioners and Panchayat Union Commissioners are given. The 'Zero' within brackets in cols (10 and 11) denotes that the referent town itself is enjoying road transport facilities.

Statement III Municipal Finance, 1978–79.

The civic administration status of the town, the receipt through tax, properties and powers, Government grants, loans, advances and other sources and the expenditure on general administration, public safety, public health, public works, public institutions and other public services are given in this statement. The sources of receipt and expenditure are furnished in terms of rupees in hundreds.

Statement-IV Civic and other amenities, 1979.

The civic and other amenities existing in the towns as in 1979 are given. The data were obtained from the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

Col. 3—Civic administration status.

It is a new column introduced in this statement to facilitate analysis.

Col. 4—Population.

It is also a new column introduced in this statement to measure the amenities in respect of population.

Col. 5—Scheduled Caste and Scheduled Tribe population.

It is introduced to know the size of population of the weaker sections of the community in the town.

Electrification.

Electrification particulars were obtained from the Tamil Nadu Electricity Board through the Municipal Commissioners and Panchayat Union Commissioners.

(i) Domestic Connections.

This refers to the number of services given to houses for domestic purposes like fans, lighting, etc.

(ii) Industrial Connection

This refers to the number of services effected to Lower Tension Industries such as workshops, flour mills, oil mills, grinding machines, cotton ginning engineering industries etc.

(iii) Commercial Connections.

This refers to the services given to shops, business houses, public institutions like offices and schools and commercial establishments.

(iv) Road lighting points

This refers to the number of points of street lights which will be maintained by the Board and for which consumption charges will be paid to the Board by respective local bodies. For some town panchayats the number of services effected alone has been furnished under street lights and not the points.

(v) Other Connections.

This refers to the number of services effected for agricultural purposes, huts, public water supply systems, cottage industries, etc.

Statement IV-A—Civic and other amenities in Notified Slums, 1979.

This is a new statement on civic and other amenities in notified or recognised slums of Class I and II towns. Generally, in cities or towns having slums, the local authority such as Municipality or Municipal Corporation or even the development authority notified the recognised slums. Such notification is linked up with the availability of funds from the State Government for slum clearance.

Name of the slum and the details of the area, population, length of the paved roads, system of sewerage, number of different types of latrines and method of disposal of night soil, etc. are given in this statement.

Statement V—Medical, Educational, Recreational and Cultural Facilities, 1979.

In this statement medical, educational, recreational and cultural facilities of the towns as in 1979 are furnished. The data for educational and medical facilities were obtained from the Municipal Commissioners and Panchayat Union Commissioners for the concerned towns and from the Director of Secondary Education, and Director of Public Health respectively.

Col. 10—Recognised shorthand, typewriting and other vocational training institutions.

The term 'recognised' refers to institutes recognised by some statutory authority like Education Department, Commerce Department, Labour Department, etc. of the Government or by Semi-Government or autonomous bodies, public sector project, etc.

Cinemas refer only to the permanent cinema theatres and do not include touring cinemas.

Col. 16—Number of working women's hostel with number of seats.

This is a new column introduced in this statement in 1981. Considering the increasing employment of women in urban areas, the housing needs of working women has been an important problem.

Statement VI—Trade, Commerce, Industry and Banking, 1979.

In this statement, trade, commerce, industry and banking facilities in the town as in 1979 are furnished. Banking particulars were obtained from the Reserve Bank of India. The information on number of agricultural and non-agricultural credit societies were collected from the Registrar of Co-operative Societies through the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

Scope of Primary Census Abstract.

The Primary Census Abstract, as it is called presents basic data for each village or segment of a village (in cases where such village segment form different panchayats) in the "Village-wise Primary Census Abstract" and for each Ward/Division of a Town in the "Urban Primary Census Abstract". The format of the Primary Census Abstract for the villages and towns in 1981, has been slightly modified as compared to the 1971 Primary Census Abstract.

The Primary Census Abstract gives such basic information as area in hectares/square kilometres occupied residential houses, number of households, total population, Scheduled Castes and Scheduled Tribes population, literates, main workers, division of main workers into cultivators, agricultural labourers, workers in Household industry and other workers, marginal workers and non-workers in respect of each unit. The Urban/Village Primary Census Abstract gives this information for each village and each urban ward. With a view to ensure comparability and to enable data users to derive the figures either for a revenue village or panchayat according to their requirements, the data are presented for segments of villages also. Wherever portions of one village happen to be in two or more panchayats the segment wise data have to be used separately or added with some other segment data so as to derive panchayat data. For example, if portions of a revenue village bearing Location Code No. 10 forms part of two panchayats, the figures are given separately for each portion of the village against Location Code No. 10 a/b and 10 b/b. The total figures for the entire revenue village by adding the figures given against both the segments viz. 10 a/b and 10 b/b are given in the Village Primary Census Abstract. If, instead, the panchayat figures are required, the data for the concerned village segment or segments relating to the Panchayat concerned, are to be added up to arrive at the total figures for the respective panchayat.

An appendix presented in the case of the Urban Primary Census Abstract gives 1981 population, Scheduled Castes and Scheduled Tribes population for each enumerator block of the town. This is meant for the use of administrative and election authorities in urban areas. Such data are also required by urban planners and researchers for conducting other studies in selected blocks.

Mode of Presentation.

The consolidated figures for the district and each taluk are given in the beginning for Total, Rural and Urban areas followed by each Town/Urban Agglomeration, under the caption "District Primary Census Abstract". Then follows the Primary Census Abstract for Scheduled Castes/Scheduled Tribes. An alphabetical list of revenue villages is then given along with the Census Location Code Numbers of 1981 Census followed by the Village-wise Primary Census Abstract for each taluk. In the foot note given at the end of the Village-wise Primary Census Abstract, the villages included in Municipalities or Census towns are indicated. In an annexure the names of villages and their constituent panchayats are given. Then, follows the Urban Primary Census Abstract. In an appendix to the Urban Primary Census Abstract, the population, and Scheduled Castes/Scheduled Tribes figures for each Enumerator Block of a town are given. This arrangement is followed for each taluk and independent sub-taluk in the district.

Maps.

Apart from the District Map given as frontispiece, map for each taluk showing the Village Location Code Numbers along with their boundaries have also been included at the appropriate places. As compared with the maps presented in 1971 District Census Handbook, several improvements have been effected in the maps presented in this volume. All towns are shown in the District and taluk maps with shading screens and also spheres according to the population size of towns.

Area Figures.

In the District Primary Census Abstract the area figures are given in square kilometres for Total, Rural and Urban areas. In the Village wise Primary Census Abstract, the area figures for each Location Code Unit are given in hectares upto two decimals. The area figures for each town in square kilometres is also given at the end of the Urban Primary Census Abstract. In the District Primary Census Abstract, the area figures of the District total represent the "Geographical Area" figures supplied by the Surveyor-general. Figures for urban areas are those supplied by the Local Bodies and revenue authorities. The urban area of a district has been arrived by adding the urban area figures of each taluk within the district. Area figures for the rural areas of District/Taluk are derived by subtracting the urban area figures from the total area of the District/Taluk. The total of the area figures of the taluks will not tally with district figures, because the taluk area figures represent the 'Land Use' area and are derived from the figures supplied by the Tamil Nadu directorate of Survey and Land Records, while those of the district represent "Geographical Area" supplied by the Surveyor-General of India. The total of

the village area given in the Village-wise Primary Census Abstract may not tally with the rural area of the taluk given in the District Primary Census Abstract as the taluk area figures take into account hills, forests and rivers, etc., where as the village area may not include the same. For conversion the ratio is 100 hectares=1 square kilometre.

It is hoped that the pattern of presentation of basic Census particulars for each district as explained above and adopted in this volume would be found convenient by data users.

POLITICAL AND EARLY HISTORY OF DHARMAPURI DISTRICT.

The earliest known Chieftain who ruled Tagadur (present Dharmapuri) during the Sangam Era, is Adigaman Neduman Anji whose patronage sustained the famous poet Avvaiyyar. The next we hear is in the 8th century when the northern parts of Salem district were probably under the Pallavas regime. Subsequently, we hear of the Ganga Pallavas having way over the western parts of Salem district. The Western Gangas also are mentioned as having ruled Baramahal area during the end of the 8th century. In the beginning of the 9th century, the Rashtrakutas rose to power and influenced the history of the district for the next two centuries. During the period, the Cholas also rose to power in the south and Aditya-I conquered the Kongunad in 894 A.D. In the year 949-950 A.D., the Cholas suffered a defeat from the Rashtrakutas whose decline however started later after the death of their powerful king Krishna-III. The Chalukyas then came to power and seized large areas held by the Western Gangas. In 985 A.D. Raja Chola-I ascended the throne and he over ran the kingdoms of the western Chalukyas, Nolambas, Coorg and the Eastern Chalukyas. During this time, the entire area in Salem district came under the rule of the Cholas. It is said that Gangavadi was then annexed to the Chola territory and placed in charge of an Adigaman Tagadur. The 12th century witnessed the decline of the Chola empire when the Hoysalas rose to power and routed the Cholas from Gangavadi. They are said to have captured Koler, sacked Kotayur and over ran the western parts of Kongunad. The Baramahal and Talagat areas apparently still remained with the Cholas. But the Adigamans seem to practically become free and owed only nominal allegiance to the Cholas.

The history of the 13th century resolves itself into dual between the Hoysalas and the Pandyas. When they were driven away from the North by the Yadavas, the Hoysalas retreated towards the south in Kongunad. It is stated that Jatavarman Soundara Pandyan-I helped to drive away the Hoysala King Vira Someswara out of the Chola territory. But it is doubtful whether he made himself master of the Talaghat area, as there are records to show that Vira Someswara's son Vira Ramanatha later ruled the whole of Salem district and the Pandyas were then eclipsed by the Mohammadan emissaries of the Delhi Sultanate.

The 14th century saw the rise of the Vijayanagar Kings. In 1365-66 A.D., Bukka-I turned his attention towards the south to overthrow the Mohammedan Sultanate of Madurai. One of these campaigns must have brought salem district under the Vijayanagar Kings. They ruled these parts till 1565 A.D., when the glory of the Vijayanagar Kings was laid in dust by the combined armies of the Deccan Sultans on the field at Talikota. Hosur, Denkanikota and Salem become capitals of princelings, while Jagadeva Raya of Chennapatna ruled the Baramahal along with Mysore. Meanwhile, the acendency of the Madurai Nayaks reached its zenith during the time of Tirumala Nayak who came to power in 1623 A.D. and this tract was placed in charge of Poligars owing allegiance to him. Ramachandra Nayaka, one of his Poligars was in charge of Talaimalai, a hill overlooking the Cauvery in the south Namakkal taluk. The Namakkal fort is said to have been built by them. The Gatti Mudaliars were in charge of the most dangerously exposed province of the Nayak Kingdom with Kaveripuram on the right bank of the Cauvery as their strategic capital commanding one of the principal passes to the Mysore Plateau. The centre of their power seems, however, to have been Taramangalam where they have built a grand edifice of a temple. It is said their domination extended as far as Talaiwasal to the east, Dharapuram in Coimbatore district in the west and Karur in Tiruchchirappalli district in the south. The forts of greatest strategic importance held by the Gatti Mudaliars were Omalur and Attur.

By about 1635 A.D., the Muslim Sultans of Bijapur and Golkonda made inroads into the south when the power of Tirumalai Nayak had waned. Balaghat area came under Bijapur. Meanwhile Kantirava Narasa Raja of Serangapatnam took several places in Coimbatore from Gatti Mudaliars in 1641 A.D. Eleven years later he seized Baramahal including Virabhadradurg, Pennagaram, Dharmapuri and Denkanikota. In 1654 A.D. he took over Hosur from Chandra Sankar. Dodda Devaraja, the Mysore King wrested Omalur from the Gatti Mudaliars and thus erased them out of the political scene. The aggression of Marattas, however checked the power of the Mysore Kings. For a time Baramahal and Talaghat passed under the Maratta hands. In 1688-89 A.D. Chikka Deva Raya of Mysore felt strong enough once again to invade Baramahal and wrested Dharmapuri, Manukonde, Omalur and Paramathi. Kaveripuram and Attur were also retrieved by Chikka Devaraya; the whole Salem district was in his hands before he died in 1704 A.D. Meanwhile Abdul Nabi Khan, Nawab of Cuddapah, extended his possession southwards and by 1714 A.D. he had made himself master of the Baramahal.

By about 1750 A.D., Haider Ali was in power in Mysore. Baramahal came under his sway in 1760 A.D. By 1767 A.D., the British Government at Madras planned an attack on Haider Ali and seized Kaveripattinam without serious opposition. Krishnagiri was then besieged. Meanwhile reinforcements came from Haider Ali and they drove away the British. Kaveripattinam was recaptured. Some months later the British planned another invasion of the Baramahal. They took several places including Hosur. Further south Dharmapuri, Salem, Attur, Sendamangalam and Namakkal surrendered to the British without a blow. The victory, however, was short lived because Haider soon recovered Dharmapuri, Denkanikota, Omalur, Salem, and Namakkal. During the second Mysore war period, Salem district was in the hands of Haider.

Tippu succeeded Haider and proved to be a formidable power. In order to curb Tippu's power the English formed an alliance with the Marattas and the Nizam and started the third Mysore war in 1790 A.D. A wing of the British forces stationed itself fully reinforced at Kaveripattinam. Tippu rushed up to this place with full force but could not dislodge the British. A number of alterations took place between the contending forces in the Baramahal area. In 1791, Hosur, Anjetti, Nilagiri and Rathnagiri were taken by the British. Royakotta also fell to the British soon and eventually many other small forts fell without much of resistance. In October 1791, Tippu sent a force from the south along the Toppur pass. The British force met this contingent at Pennagaram and forced a surrender. In March, 1792 A.D., a peace treaty was signed between Tippu and the English. A half of the dominion of Tippu was taken away from him. The whole of Salem district, except the Balaghat and a portion of Hosur, came into the hands of the British. The first British Collector had his headquarters at Krishnagiri on strategic consideration.

The last Mysore war in 1799 added up several places in Hosur Taluk like Nilagiri, Anjetti, Durgam, Rathnagiri and Kelamangalam which were recaptured to the British possession. After the fall of Srirangapatnam in which Tippu lost his life, the Balaghat area was also added to Salem district. The present Dharmapuri district was then the part of Salem district. They completed the British conquest of the tract.

The British on their victory over Tippu had control over this area since 1792 A.D. During the British rule in the country and even till the year 1947 there was no separate district, except Dharmapuri as one of the taluks of Salem district. It actually became a separate district in the year, 1965 as its headquarters at Dharmapuri itself.

Administrative units.

Dharmapuri district consists of two Revenue Divisions viz. Dharmapuri and Hosur; the former is having five taluks viz., Dharmapuri, Harur, Uttangarai, Palakkodu, Pennagaram and the latter consisting of the three taluks of Hosur, Krishnagiri and Denkanikota. The district is divided into 50 Revenue Firkas comprising in all 643 Revenue Villages. There are two Municipal Towns in the district viz., Dharmapuri and Krishnagiri. This district has 1043 inhabited villages. For rural development purpose the district is divided into 16 panchayat unions made of 580 village panchayats and 18 town panchayats. They are the following:

Sl. No.	Dharmapuri Division.	Hosur Division.
1	Palakkodu	Hosur
2	Dharmapuri	Shoolagiri
3	Nallampalli	Thally
4	Pennagaram	Kelamangalam
5	Morappur	Krishnagiri
6	Harur	Kaveripattinam
7	Pappireddipatti	Veppanapalli
8	Uttangarai	Bargur

PHYSICAL ASPECTS.

Location and Area.

The Dharmapuri district is one of the new districts of Tamil Nadu like the districts of Pudukkottai and Periyar, and was organised on October 2, 1965. It constitutes the northern portion of the former composite district of Salem and was known as North Salem. The district is situated in the interior of the southern Peninsula bounded on the east by the North Arcot and South Arcot districts, on the West by Bangalore and Mysore districts of Karnataka State, on the north by Karnataka State and the Chittoor district of Andhra Pradesh and on the south by Salem district. It approximately lies between 11° 45' and 13° 01' of the north latitude and between 77° 13' and 78° 45' of the east longitude.

The district formed an integral part of the adjoining district of Salem till 2nd October 1965. Since the Salem district was very extensive and unwieldy with a total area of 18,262.6 sq.kms proper attention could not be bestowed towards the development of the northern parts of the district. Government, therefore, felt that a separate district should be formed with the northern parts of the then Salem district so that the authorities could focus their undivided attention to the intensive development of these areas and bring it on a par with other sister districts in this state. Accordingly Dharmapuri district was carved out of Salem with the four northern taluks of Hosur, Krishnagiri, Harur and Dharmapuri. The district with a total area of 9,629.89 sq.kms. is the ninth largest in spread among the districts of Tamil Nadu.

Climate and Rainfall.

The climate of the Dharmapuri district is generally warm, except in places bordering the Karnataka state. The hottest period of the year is generally from the months of March to May, the highest temperature going up to 38° C in April. The climate becomes cool in December and continuous so upto February, touching a minimum of 17° C in January. On an average the district receives an annual rainfall of 825 mm. about 10 percent below the state average of which 44 percent is stimulated by the south-west monsoon and 36 per cent by the north-east monsoon. The remaining 20 percent occurs during the period of hot weather.

Rivers.

The chief rivers in the district are the Cauvery and the Then Pennar (South Pennar). The Cauvery enters the district at the south western corner of Denkanikota taluk, takes a southern course, falls to a small height at Hogenekkal, a famous tourist spot of water falls and flows down to the Mettur Dam in Salem district. The South Pennar river has its origin near Nandidurg in Karnataka state. It flows through Hosur, Krishnagiri, Harur and Uttangarai taluks. Its chief tributaries are the Vaniar and the Markandanadhi. A reservoir has been constructed near Krishnagiri across this river popularly known as K.R.P. Dam which irrigates 9,000 acres of land. However in its course, this river empties into Sathanur Dam in North Arcot district.

Based on its historical background the district can be divided into three natural tracts such as Balaghat, the Baramahal and the Talaghat. The Balaghat comprises of Hosur taluk and the north-western portion of Krishnagiri taluk. The average elevation of this area is about 3,000 feet above the sea-level which dips towards Cauvery in the south-west. The Baramahal consists of an extensive basin with an elevation of 1,300'. It consists of the entire taluk of Dharmapuri, greater part of Krishnagiri and Hosur taluks. The remaining southern portions are called Talaghat. The remaining district has vast expanse of hilly and rocky areas with undulating plains.

FORESTRY.

In Tamil Nadu, Dharmapuri is the only district which satisfies the optimality for the forest area, with 33 per cent of its geographical area under forests. The district accounts for 14.3 per cent of the total forest area of the state and thus offers large scope for planning and implementing schemes like social forestry programmes for a fuller development of the forest potential. The entire forest area in the district is administered by two forest divisions, one at Dharmapuri and the other at Hosur. The area under Dharmapuri division is 1,694.01 sq.kms. and that of Hosur division is 1,345.88 sq.kms. as on 1981-82.

The area under forest in the district is 3.17 lakh hectares or 32.96 percent of the total area of the district as already said above. The forest produce is mainly sent out of the district with a minimum processing, because the necessary industries do not exist in Dharmapuri, Krishnagiri or any other taluk headquarters. Shoolagiri, Thally and Veppanapalli Blocks account for 35 percent, 34 percent and 33 percent of their respective total areas under forest. Forest based industries constitute a major segment of their economic structure.

Social forestry programme.

Social forestry is a new concept of the Government in the field of afforestation with an object of making Tamil Nadu green and to have more vegetation in the vacant land available and the barren hills, wherever possible. It has got an impact on the rural folk as this project basically helps the common man to have his own tiny forest. Under this programme varieties of seedlings are being distributed free of cost upto a level considered to be minimum requirement and above this level, the seedlings are given at a low cost or with a little subsidy to the grower. The modus operandi of this project is being looked into by the personnel exclusively created for this purpose and in general it works out smoothly for the common good by the generous gift of the Swedish people. It is for the individual who is possessing the needed requirements and to avail the opportunity to increase the forest wealth.

Forest Resources.

Among the number of forest plantation, the fuel trees, soft wood, bamboo, cane, sandalwood, eucalyptus and grass have scope for industrial utilisation. The area covered by the above plantations are as under :

Sl. No.	Name of plantation.	Area in hectares.
(1)	(2)	(3)
1	Fuel trees	3,466.46
2	Softwood	656.75
3	Bamboo	3,358.28
4	Cane	9.50
5	Sandalwood	573.30
6	Eucalyptus	1,482.55
7	Sandal Propagation	285.00
8	Grass	2,712.00
9	Timber Species like Red Sanders	517.00
10	Tamarind	1,010.00

The above forest resources could be utilised by promoting small scale industries in this district.

MINERALS AND MINING.

The Major and Minor Mineral Resources in the district.

Dharmapuri district is a plain terrain in the middle surrounded by Mysore plateau on the north, Javadi hill ranges on the east, Chitteri and Shevaroy hill ranges on the south. The rivers such as Cauvery, Ponnaiyar, Pambar and Chinnar are draining this district.

Geology.

The district Dharmapuri belongs to Archean complex. The major rock types of the area are gneissic rocks, charnockites and associated granulitic suite of rocks, metasediments (amphibolites, Magnesite — quartzites and crystalline limestones) granites and syenites of younger intrusive type, basic intrusive bodies of pyroxenites and dunites, dykes of dolerite (black granite) and recent soils. Around Samalpatti and Dasampatti of Dharmapuri district, syenite — carbonatite complex is located.

The following major minerals are located in Dharmapuri district.

Apatite

The apatite is located in Reddipatti (near Samalpatti) and in Uttamalai (near Hogenekkal).

The apatite found in Reddipatti is very small occurrence, associated with carbonatite body. Since the occurrence is very small, it is considered to be of insignificant economic value.

Two apatite bands are located in Uttamalai near Hogenekkal. The first band is traced out for a length of 3 kms. from the hill NNW of Uttamalai up to 1km. East of /44. The second apatite band is traced out for a distance of 14 kms. from the hill NNE of Uttamalai to about 1.5 kms. south of Kempakkarai. The total inferred reserves of apatite analysing 36 percent P₂O₅ are about 50,000 tonnes based on the assumption that apatite makes 2 to 5 percent of carbonatite rocks for a depth of 30 mts. The size of the apatite in this area ranges from 0.1mm. to 3.7 mm. The large crystals of apatite found in the pure calcite veins.

Copper Ore.

In Bairanayakkanpatti of Harur taluk, the copper ore is found. The detailed prospecting work did not reveal any ore body. Investigations were carried out for any workable occurrences of copper ore, lead associated with dunites, syenites and carbonatites around Onnakkarai and Samalpatti. The content of the copper is less than 0.1 percent in and around Onnakkarai and has no economic value.

Corundum

The occurrence of corundum is widely distributed in Papparapatti and Palakkodu villages of Dharmapuri taluk. The important occurrences of corundum are given below.—

1. Varathapallam—about 2 miles, South West of Papparapatti.
2. Tambaram hill and surroundings.
3. Around Kalavur hamlet on top of the Papparapatti hill.
4. The area around Tirumalavadi.
5. Erraguthamalai.
6. Around Palakkodu.

The corundum in this area have been mined for a long time back and the mineral was almost completely removed. It is reported, that about two tonnes of corundum was collected from the cultivated lands in and around Papparapatti and Palakkodu. Since the corundum available in the surface was already mined, the present availability of the corundum is very limited and widely scattered.

Gold.

Indications for gold occurrences were noticed in Narapalli R.F. near Maharajagadai of Krishnagiri taluk. The rock and soil samples were collected to find out the percentage of gold value in the samples. The surface rock sample, gave the gold value ranging upto 7.0 g/t and the trench sample gave the value ranging upto 2.0 g/t. A detailed assessment work is in progress.

Iron Ore.

Three bands of magnesite quartzite (Iron ore) are located in Thirthamalai of Harur taluk. The total reserves of the magnesite quartzite (Iron ore) is estimated about 67 million tonnes. About 28 million tonnes of iron ore is calculated as minable reserves in this area. The iron ore in this area is medium to low grade.

Limestone and kankar.

The crystalline limestone is located in the following areas in Dharmapuri district.

Gummanur

Limestone is located east of Gummanur near Samalpatti railway station. The limestone is greyish in colour. The reserves of limestone estimated are about 7,00,000 tonnes. The content of the calcium carbonate in the limestone varies from 70 to 75 percentage. The pure limestone is also noticed as pockets along the band. They are being mined for fillers in fertiliser and insecticides.

Tippampatti.

Limestone is fine grained, rather impure. The estimated reserves are about 50,000 tonnes.

Sinnampatti.

A band of impure limestone is found cutting across the numerous granite and pegmatite veins. It is also reported that the limestone occurrence is already mined and exhausted.

Kankar is located to the north of Kanjanur village, near Uttangarai which is half to one metre in thickness. The reserves of kankar is estimated roughly as about 2 million tonnes.

Magne site

Very small veins of magnesite is located in Kanjanur village of Uttangarai taluk. It has no economic value since the occurrence is very limited.

Nickel

The nickel content in ultrabasic rocks in Kanjanur area near Uttangarai taluk was studied. The chip samples were collected to find out the nickel content which varies from 0.12 to 0.15 percent.

Quartz.

The occurrences of quartz are located in Binnamangalam and Panchapalli (R.F.) in Denkanikota taluk.

Binnamangalam.

The village is located about 20kms. South West of Hosur town. The quartz in this area is a good grade with SiO₂ ranging between 99.66 percent to 99.98 percent. The total reserves of quartz is estimated to about 101,520 tonnes.

Panchapalli (R.F.)

The quartz is traced in a hill situated in Panchapalli R.F. which lies 12 kms. South-East of Denkanikota. The total reserves in this area is estimated as 93,750 tonnes. The presence of vertical and horizontal joints of this occurrence will be advantageous during mining. The surface shows faint brownish and black stains which have resulted due to weathering. The stains can be easily removed by acid washing.

Vermiculite

The vermiculite in Dharmapuri district is located in Jaginikkalmedu which is about one km. south of Olaiipatti in Uttangarai taluk. The total reserves of the occurrence is estimated about 20,000 tonnes. The vermiculite has an expansion of 13 times of its original volume on heating to 900 to 950°C. The raw vermiculite from Olaiipatti is dark in colour with brownish tinge and it turns to silvery to light golden yellow colour on exfoliation. The concentration of vermiculite in the host rock is poor and the reserves are also limited.

In the following areas, the minor minerals are located in Dharmapuri district.

Black granite.

Dharmapuri district is one of the leading districts as far as black granite occurrences are concerned. The black granite deposits are available in almost all the taluks of Dharmapuri district. It has a very good demand in the world market. The black granites can be cut into blocks and exported to the foreign countries.

Pennagaram area

The black granite deposits in this area are widely scattered. Among them, Ajjanahalli, Bevanur (R.F.), Donnakuttahalli etc. are the important villages. The total reserves in Pennagaram area are roughly estimated to about 20 lakhs cu. mts.

Harur area

In Harur area, the black granite deposits are located in Gopinathampatti, Morappur, Poiayampalli, Kerkodihalli, Reddipalli, Matadahalli, Chintalapadi, Basuvapuram, Keerapatti, Jamanahalli, Menisi, Pallipatti etc. The reserves in this area are estimated to about 6 lakhs cu. mts.

Palakkodu area

The deposit found in Palakkodu taluk are limited and confined to Chikka-dornabettam and Somanoor villages. Among the deposits, the deposit found in Chikka-dornabettam is an important occurrence. The total reserves in this area is calculated roughly to about 18,000 cu. mts.

Denkanikota area

The black granite occurrences lie near Denkanikota itself. The occurrences are noticed in Magadi, Maradanapalli, Anniyalam and Javulagiri. The occurrences found in Magadi and Javulagiri are limited. The reserves are calculated roughly to about 15,600 cu. mts.

Grey granites

The grey granites are widely scattered in Krishnagiri taluk of Dharmapuri district. The granites are polished like black granite. They are cut into blocks and are exported to the foreign countries. The grey granite is located in Nathahalli of Dharmapuri taluk. In Krishnagiri taluk the grey granite is located in Nagojanahalli, Jagadevipalayam, Aikondakottahalli, Pasinayanahalli, Senthapalli, Kaveripattanam, Kottapatti, Kondappanayanapalli, Jagadevi and Bynapalli. In Denkanikota and Uttangarai taluks, the grey granites are located in Royakottai and Nagapatti villages respectively. The reserves of grey granites are not estimated.

The mineral production in the district is very much limited. Some of the important minerals available in the District are Crystalline lime stone, Kankar, Vermiculite and Magnesite quartz. Dolerite dykes, known as black granite and syrite, are reported to be available in Krishnagiri, Harur and Hosur taluks. It can as well extend its area of operation to other minerals. There is good demand for polished granite stones in foreign countries, particularly Japan. The Government of Tamil Nadu has taken over this industry and a state owned Corporation viz., TAMILIN is engaged in quarrying, polishing and exporting granite stones to other countries.

TAMILIN

Tamin otherwise called Tamil Nadu Minerals is a public sector organisation and an undertaking of the Tamil Nadu Government, which was organised in the year 1978 with the idea of exploring the ores in the entire area of land in Tamil Nadu in finding out the mineral wealth of the state and promote the export activities by eliminating the unemployment problems. Accordingly its activities were extended to Dharmapuri district. The mining activities of TAMILIN at the outset commenced with the operation of the quarries in the following places

1. Ajjanahalli/Pennagaram taluk.
2. Bevanur/Pennagaram taluk.
3. Jamnahalli/Pennagaram taluk.
4. Donnakuttahalli/Pennagaram taluk.
5. Gopinathampatti/Harur taluk.
6. Badrahalli/Pennagaram taluk.
7. Chendarapalli/Krishnagiri taluk.
8. Sulamalai/Krishnagiri taluk.

The granite from Chendarapalli and Sulamalai, quarries is of grey colour, the material from the other six quarries being black. The total reserves in the quarries located in the places mentioned above and other details are given in the following table :-

ELECTRICITY AND POWER.

There is no Hydro-Electric Project in this district. Dharmapuri district is fed by Mettur Electricity System. 60,689 wells have been energised and all 1056 main villages and 3,503 hamlet villages (out of the total of 3,508 villages) have been electrified. Electricity has been provided 28,806 huts. Out of the total number of 1,033 Harijan colonies, 1,020 colonies have been electrified.

Power.—This district is linked to the state grid-power drawn from Singarapettai and Ramayanahalli Sub-stations and is distributed over the district through transmission lines. Nearly 99 percent of the villages and hamlets have been electrified.

The pattern of Power Consumption in 1975-76 is given below.—

Sl. No.	Classification.	Units (in lakhs).	Percentage.
(1)	(2)	(3)	(4)
1	Domestic	61	9.4
2	Commercial	41	6.3
3	Industrial	77	11.9
4	Agriculture	443	68.3
5	Public Lighting	23	3.5
6	Miscellaneous	4	0.6
Total ..		649	100.00

LAND AND LAND USE PATTERN

Land utilisation

Out of the total Geographical area of the district of 9,629.89 sq. kms., forests constituted early 33 percent the net sown area and uncultivable waste lands account for 44 percent and about 8 percent respectively. Fallow lands form 3.94 percent of the total holdings in the district. Land holdings of less than 2 hectares each constitute 68 percent in terms of number and 32 percent in terms of area. Therefore the income of many of the farmers needs to be strengthened through schemes designed to develop activities ancillary to agriculture, apart from assisting a more intensive cultivation of crops, through better planning and application of fertilisers where they are not used at present. The following are the Land use details (Average of 1970-71 to 1978-79) of the district.

1. Forests	320,006 hectares.
2. Land put to non-agricultural uses	73,398 hectares.
3. Barren and uncultivable	79,600 hectares.
4. Permanent pastures	11,637 hectares.
5. Miscellaneous trees, crops and groves	5,758 hectares.
6. Cultivable waste	9,361 hectares.
7. Current fallows	45,859 hectares.
8. Other fallows	8,326 hectares.
9. Net sown area	408,967 hectares.
10. Gross sown area	477,640 hectares.
11. Area sown more than once	68,673 hectares.
12. Geographical area	962,914 hectares.
13. Cultivable area	498,223 hectares.

Serial number and Name of the quarry.	Location.	Extent.	Total reserve.	Production During			Country to which exported.
				1979-80.	1980-81.	1981-82.	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
<i>i. Black Granite.</i>							
1. Ajanahalli	Pennagaram taluk	102 acres	35,000 M ³	6 M ³	131 M ³	59 M ³	Japan.
2. Jamanahalli	Pennagaram taluk	32 acres	5,000 M ³	..	56 M ³	77 M ³	United Kingdom.
3. Donnakuttahalli	Pennagaram taluk	203 acres	30,000 M ³	6 M ³	..	..	..

2. Sutamalai	Krishnagiri taluk	244 acres	10,000 M ³	..	..	..	West Germany

AGRICULTURE

Soil.

Different types of soil such as black or mixed loam red ferruginous and gravel are found in the district. The black or regar loam is very fertile due to its moisture absorbing character. The red ferruginous soil is equal to loam for plants growth. Red and sandy soil are seen in Hosur and Harur taluks. Considerable stretches of good loam and black soil are found both in Dharmapuri and Krishnagiri taluks. In general, the soil in the district is quite deep, loose and friable with its colour varying from red to dark reddish brown. The soil has low nitrogen and phosphate content, with no marked variations as between the different taluks.

Irrigation.

Cauvery and South Pennar are the only two major rivers flowing through the district. The Cauvery though perennial flows on the north western portion of the district for a total distance of 67 kms. without directly irrigating even an inch of land in the district. The seasonal rivers in the district which remain dry for most of the period are (1) Chinnar, (2) Vanniar, (3) Thoppiar, (4) Palar, (5) Kallar, (6) Varathiyar and (7) Pambar. Only 16 per cent of the net sown area is irrigated in the district as against the average of 43.2 percent of the state. The backwardness of the district in agriculture is primarily due to the relative inadequacy of its facilities and potential. Even with the execution of further irrigation schemes, only about 25 percent more of the cultivated area can be expected to be brought under irrigation.

Cropping pattern.

The total cropped area during 1979-80 was 434,335 hectares, the area under cultivation, annual production of principal food and commercial crops are given below.—

Sl. No. and Crops.	Area under Cultivation (hectares),	Estimated production (M.T.)
(1)	(2)	(3)
(1) Paddy	60,387	96,453
(2) Cholam	60,844	55,233
(3) Ragi	91,702	149,583
(4) Commercial crops.—		
(1) Groundnut	56,898	95,928
(2) Horsegram	68,579	14,427
(3) Coconut	6,107	33 million Nos.
(4) Cotton	7,144	2,533
(5) Gingelly	10,162	3,045
(6) Sugarcane	9,940	81,483
(7) Tapioca	36,420	669,270

Besides, mangoes are grown in 10,631 hectares, bananas in 2,170 hectares, grapes in 261 hectares and tamarind in more than 1,358 hectares. The mulberry cultivation has taken a lead and more than 3,200 hectares are under mulberry cultivation. The cultivable acreage is considerably increasing under cotton, mango, tamarind, coconut, mulberry etc. Thus, there is vast scope for setting up of fruit processing, cotton and silk based industries.

ANIMAL HUSBANDRY.

Live stock

The district has a poor livestock population. The livestock and poultry population account for 5.9 percent and 4.6 percent respectively to the state's total livestock population. According to the latest census, the livestock, poultry and sheep population of the district numbered 13,84,810; 5,91,435 and 3,63,464 respectively.

A) Dairy.

As the Tamil Nadu Dairy Development Corporation is establishing a milk powder plant in 1983 and also a chilling plant (in addition to the chilling plant already established, at Krishnagiri, entailing an increased target for procurement of supply of milk from about 40,000 litres per day to 1,00,000 litres per day, more care can be given to a time-bound Calf Rearing programme in the district. The partial failure of this programme under DPAP scheme in the past could be attributed to the failure to supply adequate cattle feed which can support the programme more effectively. Suitable steps should henceforth be taken to expand production of cattle feed effectively support a Calf-Rearing Programme.

(B) Poultry.

There has been no concrete attempt in developing poultry in this district as an allied activity to agriculture. However, the potential for establishing poultry units in certain selected blocks is high. For framing an effective plan for poultry development of a significant scale, Government will have to provide the necessary infrastructural facilities. An initiative has been taken by a well established poultry farm in the large scale sector to set up a hatchery unit (for layers and broilers) at Kelamangalam (near Hosur). With the availability of high quality chicken from this farm, poultry activities can be significantly increased in the district, provided enough encouragement is given to entrepreneurs willing to take to this activity.

Sheep.

Sheep rearing has been one of the ventures which have been very successful in this district. A further fillip to the scheme of sheep rearing is possible, only if veterinary facilities are established on a larger scale by the Government.

FISHERIES.

Inland fisheries are the only possibility in Dharmapuri district as there is no coastline. The Krishnagiri reservoir and the Hogenekkal falls of the river Cauvery are the chief sources for inland fishery. The newly constructed Chinnar reservoir can also be utilised for fishing. There are two provincialised waters in the district, viz. Barur big tank in Kaveripatnam block spreading over an area of 271.51 hectares and Penukondapuram tank in Uttangarai block spreading over an area of 219.17 hectares. The fisheries of the provincialised waters are annually leased out to fisherman co-operative societies on an average rent basis.

INDUSTRIES.

Dharmapuri a decade ago was one of the most industrially backward districts of Tamil Nadu. Conditions in developing the industries were not forthcoming due to many reasons like low pace of industrial activity, low exploitation of available natural resources, frequent droughts, non-availability of required finance, inadequate ground water resources etc. Now a days, the industrial activities are fairly high especially in Hosur and Krishnagiri areas. Out of the 1,108 registered small scale units, 384 units are existing in the above areas. The industrial activity lags very much behind in Uttangarai, Denkanikota, Pennagaram, Palakkodu and Harur taluks. Due to the inadequate resources and lack of infrastructural facilities, the backwardness in the industrial fields continues in the above taluks.

Agro Based Industries

There are a number of sago mills in Dharmapuri and Harur taluks engaged in the production of starch out of Tapioca.

The Tamil Nadu Agro Industries Corporation Limited has set up a Sun Flower Oil Mill at Pochampalli in Krishnagiri taluk.

There is a Solvent Extraction Unit under Private Sector in Harur taluk engaged in the production of oil from rice bran.

There are three Spinning Mills under Private Sector in this District. One co-operative spinning mill is proposed to be set up in Uttangarai taluk.

Other Industries:

SIDCO, TICI, THADCO, Indian Bank etc. are extending financial assistance to the entreprising entrepreneurs in setting up small industries. Several Match Industries have been set up with the aid of SIDCO. Several medium and big industries have been set up in SIPCOT COMPLEX at Hosur. Notable among them are:

1. Ashok Leyland.
2. Lakshmi Automatic Looms.
3. T.V.S. Moped.
4. Indian Tobacco.
5. Premier Mills.
6. Asian Bearings.
7. English Electricals.
8. Lakshmi Ring Travellers.
9. Fruit Processing Centre.

As a result of the good response shown by the Private Sector in the starting of industries in SIPCOT INDUSTRIAL COMPLEX, a second complex has been proposed in Hosur for which action is being taken to acquire lands.

The District Industrial Centre at Dharmapuri was set up in 1978 for the accelerated development of small scale, Tiny and Cottage Industries.

The District Industrial Centre has assisted 650 units by sponsoring their cases for the sanction of financial assistance to the tune of Rs. 303.25 lakhs from 1978-79 to 1982-83. It has also assisted in the formation of 59 Industrial Co-operatives in this district.

In order to motivate the Techno Crafts of this district to set up industries of their own, Entrepreneurial Development Programme has been organised with the help of the Investment Centre.

SERICULTURE,

The cool climate and proximity to Karnataka State have been responsible for pursuit of Sericulture, as a traditional occupation by some of the local farmers in Dharmapuri district. Mulberry is cultivated in 4,050 acres, with nearly two thirds of it being covered by assured irrigation. The promotion of sericulture holds out good prospects in the region especially in the context of a comparatively disadvantageous agrarian structure and the socio-economic conditions of the poor farmers.

The farmers are coming forward for cultivating mulberry. Under the D.P.A.D., mulberry cultivation in both rainfed and irrigated lands is being popularised. A centrally sponsored sericulture programme to expand the growth of mulberry over a period of five years in the district has also been sanctioned and is being implemented. The cultivation of sericulture is picking up fast and the Government should initiate action to develop seed farms, train farmers in the techniques of mulberry cultivation and provide technical advice to farmers.

Further sericulture promises a much higher rate of return (estimated at three to five times) than the traditional crops like ragi, choleam, etc., It is a gainful and continues employment oriented occupation. Moreover, the income flow from sericulture is more regular and certain in view of the large demand for silk yarn. The Industries Department of the Tamil Nadu Government has developed the infrastructural facilities for the supply of eggs, cutting etc.,

TRANSPORT

The district is well connected by Rail and Road with all the important Commercial Centres in the country. All the important centres in the district are connected by a net work of all whether Roads and Railways. A line of description of the progress made in this regard in the district is given below:—

(a) Roads

The National Highway from Salem to Bangalore passes through Dharmapuri. Karimangalam, Kaveripattinam, Krishnagiri, Shoolagiri and Hosur. Another National Highway connects Krishnagiri with Vaniyambadi of North Arcot district. The district has 4,247 kms. of roads of all kinds of which 161 kms. are National Highways, 1,376 kms. are major district roads. The details of length of road communication during 1974-75 are given below:—

	Length in kms.					
1. Cement concrete	..	..	..	..	..	17
2. Black Topping	..	..	..	..	..	1,312
3. Water Bound Meccadam	..	..	..	..	..	1,567
4. Unsurfaced	..	..	..	..	..	1,351
Total	..	..	..	..	..	4,247

About 351 route buses, 470 lorries, 242 private carriers, 450 public carriers, 130 contract carriers, 12 tractors are in operation in this district.

(b) Railways

The southern part of the district is served by Salem-Bangalore Metre Gauge Railway lines. This railway line cuts across the district, linking the district capital of Dharmapuri with Bangalore in the North and Salem in the South. The entire Railway line has been thrown open for passenger traffic in the month of January 1969. Dharmapuri, Palakkodu and Hosur are the important towns on this line. The Madras Cochin Broad Gauge Rail line passes through the Eastern part of the District namely Bommidu, Pappireddipatty, Morappur, Diddapatty and Samalpatty. The length of Railway line passing through the District is 228 kms. comprising about 57 kms. in broad gauge and 171 kms. in Metre Gauge. There is a proposal to link Tuticorin in the South and Poona in the North.

COMMUNICATION

There are two Head Post Offices, one each at Krishnagiri and Dharmapuri. Besides, there are more than 126 sub-post office and 416 branch post office. The district has only Automatic Telephone Exchange at Dharmapuri with more than 600 lines.

LANGUAGES AND CULTURE

The people hailing from this district possess different cultures due to different language they speak. The Balaghat area consisting of Hosur and North Western portion of Krishnagiri taluk is a multi-lingual area where Kanarese, Telugu, Tamil and Hindustani speaking people are found. The predominant communities living in these areas are the Kapus, Lingayats, Okkaligas, Balija Chetties, Oddars, Scheduled Castes of Holeyas and Madigas. The weavers in this area mostly belong to Sali Chetties. The Baramahal area comprising the eastern parts of Krishnagiri taluk, Hosur and Dharmapuri taluks has Telugu speaking communities and Tamil speaking communities who constitute the majority. The predominant communities living here are the Vanniars, Kongu, Vellalas, Gollas, Telugu Chettiers, Okkaligas and Senaikudyars. The 'Malayali' tribal people are found in the Chitheri hill areas. The Adi-Dravidas and Arunthathians form the bulk of the Scheduled Castes and they are scattered throughout the district.

1. *Hogenekkal.*

It is a place of tourist interest and famous for the water falls on the river Cauvery. It is at this point that river Cauvery enters Tamil Nadu from Karnataka state. Hogenekkal has been developed by the Government as a district excursion centre in Dharmapuri district. Tamil Nadu Tourism Development Corporation took interest and has constructed a Tourist Bungalow called "Hotel Tamil Nadu" and an youth hostel at Hogenekkal. Besides these, there are also Highways Travellers Bungalow and Forest Rest Houses which are available around this place.

There is a scheme at an estimate of Rs. 7.50 lakhs to construct a hanging bridge to cross the river Cauvery at Hogenekkal.

About 5,000 public/tourists are visiting during week-ends.

2. Dharmapuri

This town is the district head-quarter which is located at a distance of 60 kms. from Salem on the way to Bangalore. Moderate and standard hotels and lodges are available for tourists in Dharmapuri besides the Public Works Department Circuit House, Highways Inspection Bungalows, etc.

3. Krishnagiri

It is the second biggest town in the district and an historical place. An old fort called Syed Padsha Hill Fort is famous and attracts many tourists apart from the reservoir. The Dam site is a picnic spot. The Tamil Nadu Tourism Development Corporation has constructed a hotel called "Ruby" at Krishnagiri on the National Highways.

4. Athiyamankottai

The place is located 8 kms. from Dharmapuri on the Dharmapuri-Salem Highway. The Central Archaeological Department has taken over the site and is being protected by them. At the centre of the Fort site, an old temple called Chennakeswar temple is located which is believed to have been constructed both by the King Krishna Devaraya (Telugu) and Hoysala Kings (Karnataka). Paintings depicting Ramayana and Mahabharata scenes are found inside the temple. All the paintings are belonging to 13 century. Poojas are conducted every Saturday by the Brahmin Priests from Dharmapuri. The place acquires its name after the Tamil King Athiyaman Neduman Anji who ruled the Thagadur (the present Dharmapuri) area and Kottai meaning Fort. The main village of Athiyamankottai is located on the eastern side of the Salem-Bangalore Highway about one km. from the Fort. Tourists on week-ends and holidays visit only the Fort area which includes the temple.

Brief Analysis of the Village/Town Directory and PCA Data.

A brief analysis relating to certain population characteristics is made utilising the information collected in the Village and Town Directory and the Census Data in the PCA. A number of Tables have been designed for this purpose. The tables are generated at the District and Taluk level for the rural areas and in regard to urban areas, townwise particulars are presented.

TABLE 1.
POPULATION, NUMBER OF VILLAGES AND TOWNS, 1981.

DHARMAPURI DISTRICT	..	1,677,775	1,533,834	143,941	1,997,060	1,809,876	187,184	(+) 19.03	(+) 18.00	(+) 30.04

Table 2 records the decadal changes in the distribution of population for the different taluks of Dharmapuri district.

The increase in population in the district during the decade is 19.03 per cent, as against the state average of 17.50 per cent. Hosur taluk has recorded the highest percentage of decadal variation of population with 23.78 per cent followed by Pennagaram (23.27 per cent), while the lowest decadal variation of only 14.33 per cent is found in Harur taluk.

TABLE 3.
DISTRIBUTION OF VILLAGES BY POPULATION RANGES.

Range of Population.	Number of Villages in each Range.		Percentage of Villages in each Range.
(1)	(2)	(3)	
Less than 200	109	10.23	
200-499	198	18.59	
500-1999	389	36.53	
2000-4999	320	30.05	
5000-9999	46	4.32	
10,000+	3	0.28	
Total	1,065	100.00	

Table 3 provides useful data on the distribution of villages by population ranges in the district. It is seen that the maximum number of inhabited villages viz. 389 are in the population range of 500-1,999 i.e. 36.53 per cent. There are only 3 (0.28 per cent) villages, which have a population of above 10,000.

TABLE 4.
DISTRIBUTION OF VILLAGES BY DENSITY.

Range of Density (Per Sq. Km.)	Total Number of Villages in each Density Range.	Percentage of Villages in each Density Range.
(1)	(2)	(3)
Less than 10	11	1.03
11-20	10	0.94
21-50	25	2.35
51-100	109	10.23
101-200	271	25.45
201-300	294	27.61
301-500	234	21.97
501+	111	10.42
Total	1,065	100.00

Table 4 gives the distribution of villages in Dharmapuri district by different range of density.

TABLE 5.
PROPORTION OF SCHEDULED CASTE POPULATION TO TOTAL
POPULATION IN THE VILLAGES.

Percentage Range of Scheduled Caste Population to Total Population.	Number of Villages in each Range.	Percentage of Villages in each Range.
(1)	(2)	(3)
NIL	134	12.58
0-5	216	20.28
6-10	183	17.18
11-15	148	13.90
16-20	106	9.95
21-30	115	10.80
31 and above	163	15.31
Total ..	1,065	100.00

Table 5 shows the proportion of Scheduled Caste population to total population in the villages of Dharmapuri district. It is seen that in the percentage range of 0 to 5 of Scheduled Caste population to total population, there are 216 villages, followed by 183 villages in the range of 6 to 10. 163 villages in the range of 31 and above, 148 in the range of 11 to 15, 115 in 21 to 30 range and 106 in the range of 16 to 20.

TABLE 6.
PROPORTION OF SCHEDULED TRIBE POPULATION TO TOTAL
POPULATION IN THE VILLAGES.

Percentage Range of Scheduled Tribe population to total population.	Number of villages in each Range.	Percentage of villages in each Range.
(1)	(2)	(3)
NIL	749	70.33
0-5	199	18.69
6-15	63	5.92
16-25	11	1.03
26-35	12	1.13
36-50	4	0.37
51 and above	27	2.53
Total ..	1,065	100.00

Table 6 furnishes similar data of Scheduled Tribe population in the villages of Dharmapuri district. It is noted that in the percentage range of 0 to 5, there are as many as 203 villages (19.06 per cent), while there are only 4 villages in the range of 36 to 50.

TABLE 7
PROPORTION OF SCHEDULED CASTE/SCHEDULED TRIBE POPULATION IN TOWNS.

Sl No. and name of the towns.	Total Population	Total Scheduled Caste Population.	Total Scheduled Tribe Population.	Percentage of Scheduled Caste Population to Total population.	Percentage of Scheduled Tribe Population to Total population.
(1)	(2)	(3)	(4)	(5)	(6)
1. Denkanikota ..	17,470	1,822	238	10.43	1.56
2. Dharmapuri ..	51,223	3,350	15	6.54	0.03
3. Harur ..	16,334	3,197	108	19.57	0.66
4. Hosur ..	27,129	1,648	11	6.07	0.04
5. Kaveripattanam ..	13,669	1,417	..	10.37	..
6. Krishnagiri ..	48,335	4,004	710	8.28	1.47
7. Palakkodu ..	13,024	328	6	2.52	0.05
All Towns	187,184	15,765	1,088	8.42	0.58

This table gives the proportion of Scheduled Caste and Scheduled Tribe population in the various towns of Dharmapuri district. It is seen that Harur town has recorded the highest percentage of Scheduled Caste population with 19.57, while Krishnagiri town has recorded the highest Scheduled Tribe population of 1.47. In Palakkodu Town, the percentage of Scheduled Caste population is the lowest with only 2.52, and in Dharmapuri town the percentage of Scheduled Tribe population is only 0.03, while in Kaveripattanam town, there is no Scheduled Tribe at all reported during the 1981 census.

TABLE 8.
LITERACY RATES BY POPULATION RANGES OF VILLAGES

<i>Range of population,</i>							<i>Number of villages in each range.</i>	<i>Literacy rate.</i>
(1)							(2)	(3)
Less than 200	..	..	..	..	..	..	109	20.06
200—499	..	..	..	..	..	..	198	21.65
500—1,999	..	..	..	..	..	..	389	24.44
2,000—4,999	..	..	..	..	..	..	320	25.90
5,000—9,999	..	..	..	..	..	..	46	30.35
10,000+	..	..	..	..	..	..	3	35.90
							1,065	26.24

This table shows the literacy rates of different population ranges of villages in Dharmapuri district. The literacy rate of the rural population of Dharmapuri district is 26.24. The highest literacy rate of 35.90 percent is seen in the population range of 10,000 and above, while the lowest literacy rate of 20.06 percent is found in the smallest population range of 200 and below.

TABLE 9,
LITERACY RATES FOR TOWNS.

<i>Sl.No. and name of the town,</i>	<i>Literacy rate.</i>
(1)	(2)
1. Denkanikota	42.27
2. Dharmapuri	58.39
3. Harur	54.99
4. Hosur	55.36
5. Kaveripattinam	62.44
6. Krishnagiri	58.87
7. Palakkodu	45.53
All Towns	55.67

This table furnishes the literacy rates of all census towns of Dharmapuri district. The literacy rates in the urban areas vary roughly between 42 to 63 per cent. It is however seen to be highest with 62.44 per cent at Kaveripattinam and at the lowest with 42.27 per cent at Denkanikota.

Table 10 gives taluk-wise distribution of literates, workers, non-workers, scheduled Caste, Scheduled Tribe population and total population, sex wise for both rural and urban areas of Dharmapuri district. It is seen that percentage of Scheduled Caste population to total population of Dharmapuri district is 13.86, as against 18.35 for the State. The percentage of Scheduled Tribe population of Tamil Nadu is 1.07, whereas that of Dharmapuri district is 2.31. Harur taluk has recorded the highest percentage of Scheduled Caste population with 24.72, while Denkanikota has the highest percentage of Scheduled Tribe population of 3.64.

The percentage of urban population to total population of Dharmapuri district is 9.37 as against 32.95 for the State.

The literacy rate of Dharmapuri district works out to 29.00, as against the literacy rate of 46.76 of Tamil Nadu. Among the taluks, Dharmapuri has recorded a maximum of 33.55% of literates, while Pennagaram has got a minimum of 21.73% of literates.

The percentage of main workers to total population of Dharmapuri district works out to 41.71, as against 39.71 of Tamil Nadu. The percentage of total workers to total population of the district is 44.50. The percentage of non-workers to total population of the district is 55.50, while that of Tamil Nadu is 58.27. The percentage of non-workers is high in Hosur taluk with 59.37.

TABLE 11
DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES.

Sl. No.	Name of Taluk	Number of inhabited villages.	No. (with percentage) of villages having one of the following amenities.							Power supply.

			(78.12)	(12.30)	(100.00)	(49.95)	(20.85)	(63.10)	(56.90)	(95.02)

This table depicts the distribution of villages according to the availability of different amenities. There are 1,065 inhabited villages in the district, out of which 832 villages are provided with educational amenity which works out to 78.12%. Dharmapuri taluk occupies the first place with 99.96% while Uttangurai occupies the last place with 67.89% in respect of educational amenity. Out of 1,065 inhabited villages, only 131 are provided with medical facility which works out to 12.30%. Nearly half of the inhabited villages in the district are provided with post and telegraph amenity. Denkanikota and Dharmapuri taluks are on top in respect of post and telegraph facility with 82.83% and 75.81% respectively. Only 20.85 of the villages in the district are provided with the market/hat amenity. Out of 606 villages which have the pucca road facility in the district 140 and 63 villages are in Krishnagiri and Palakkodu taluks, the percentages being 76.50 and 84.00 respectively. In Hosur, Denkanikota and Palakkodu taluks, power supply is provided to all villages.

TABLE 12
PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES.

Sl. No.	Name of Taluk.	Total population of inhabited villages in the taluk.	Proportion of rural population served by the amenity of							Power supply.
			Education.	Medical.	Drinking water.	Post and Telegraph.	Market/ Hat.	Communications.	Approach by pucca road.

This table shows that proportion of rural population served by different amenities in the district. The rural population of the district is 1,809,876. Over 95% of the people are provided with educational and electricity amenities in the district. In Dharmapuri taluk, out of 208,930 population, 208,845 are provided with the amenities of education and power supply, the percentage being 99.96 for both the amenities. The entire population of Hosur, Denkanikota and Palakkodu taluks are provided with power supply facility. The medical facility available to the rural population is only 26.84%. In respect of post and telegraph facility, Denkanikota taluk occupies the first place with 82.84% while Uttangurai taluk occupies the last place with 56.29%. Over 90 percent of the total population or 210,701 people are provided with communication facility in Denkanikota taluk.

TABLE 13

**DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES.
ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE**

Villages not having the amenity of	Number of villages where the amenity is not available and available at a distance of			
	—5 kms.	5—10 kms.	10+kms.	Total
(1)	(2)	(3)	(4)	(5)
1 Educational	129	66	38	233
2 Medical	348	395	191	934
3 Drinking water	..	..	..	..
4 Post and Telegraph	307	150	76	533
5 Market/Hat	375	359	109	843
6 Communications	232	122	39	393

This table deals with the distribution of villages not having certain amenities in themselves but available at a distance which have been given in this table out of 233 villages where no educational facilities are available 38 villages have this amenity at a distance of 10+kms, 66 villages have at a distance range of 5-10 kms. and 129 villages at a distance range of less than 5 kms. Out of 934 villages which have no medical amenities, 395 villages avail this facility at a distance of 5-10 kms, 348 villages at a distance of 5 kms and 191 villages at a distance range of over 10 kms.

Out of 533 villages which have no P. & T. facilities people from 307 villages avail this amenity at a distance range of 5 kms 150 villages at a distance range of 5-10kms. and 76 villages at a distance range of 10+kms, 843 villages in the district have no market/hat amenity. Of these, 375 villages have this amenity within the distance of —5 kms, 359 villages have at a distance range of 5 to 10 kms. and 109 villages at a distance range of 10+kms.

Out of 1,065 inhabited villages in the district, as many as 393 villages have no communication facilities. Out of 393 villages which have no communication facilities 232 villages have this facility at a distance of —5 kms, 122 villages at 5—10 kms. and 39 villages at a distance range of 10+kms.

TABLE 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Total	1,065	832 (78.12)	131 (12.30)	1,065 (100.00)	532 (49.95)	222 (20.85)	672 (63.10)	606 (56.90)
								1,012 (95.02)

This table furnishes the distribution of inhabited villages according to the distance from the nearest town and availability of different amenities. Among the total inhabited villages of 1,065 in the district, 90 villages are located in the distance range of 0-5 kms. from the nearest towns. These villages avail the amenity of drinking water to cent percent, power supply by 96.67 percent, education by 85.56 percent, communication by 74.44 percent post and telegraph by 67.78 percent, pucca road facility by 66.67 percent, market/hat by 37.78 percent and medical by 12.22 percent of villages. In the distance range of 6-15 kms. there are 367 villages in which the amenity of drinking water is enjoyed by all the villages, the facility of power supply by 95.64 percent of the villages, education by 82.02 percent, communication by 67.57 percent, pucca road by 63.49 percent, post and telegraph by 54.77 percent, market/hat by 25.07 percent and medical by 11.59 percent of 13.62. Similarly, 604 villages are located in the distance of 16-50 kms, in which the amenity of medical is availed by 74.53 percent of the villages, education by 74.50 percent, drinking water by 100.00 percent, post and telegraph by 44.37 percent, market/hat by 15.89 percent communication by 58.94 percent, pucca road facility by 51.32 percent and power supply by 95.03 percent of the villages. In the distance range of 51+ there are only 4 villages in the district. The amenities of education and drinking water are availed by all 4 inhabited villages to cent percent. The amenity of pucca road is availed by 75.00 percent, post and telegraph by 50.00 percent, and communication by 25.00 percent, of villages. The amenities of medical, market/hat and power supply to these villages are not available. It is note worthy that all the 1,065 inhabited villages in the district have got the drinking water facility but it is laudable that only 131 or 12.30 percent of villages in this district avail the important amenity of medical.

TABLE 15
DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

Population range	Number of inhabited villages in each range	Number (with percentage) of villages having the amenity of								
		Education	Medical	Drinking water	Post and Telegraph	Market/ Hat	Communica- tions	Approach by Pucca Road	Power Supply.	
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)

5000+	..	..	49 (100.00)	32 (65.31)	49 (100.00)	48 (97.96)	36 (73.47)	47 (95.92)	42 (85.71)	49 (100.00)
Total	..	1065	832 (78.12)	131 (12.30)	1065 (100.00)	532 (49.95)	222 (20.84)	672 (63.10)	606 (56.90)	1012 (95.02)

This table shows the distribution of inhabited villages according to different population ranges and amenities available. Among the four categories of population ranges, 307 inhabited villages come under the population range 499 in which the amenity of education is available by 117 villages, medical by only 4 villages, drinking water by all 307 villages, post and telegraph by 40 villages, market/hat by 16, communication by 105, pucca road facility by 111 and power supply by 273 villages. Similarly, there are 389 villages in the population range of 500-1,999 and under this range there are 347 villages which avail the amenity of education, 25 villages avail medical, all the 389 villages avail the drinking water facility, 173 villages avail post and telegraph, 60 villages avail communication, 222 villages avail the amenity of power supply, 173 villages avail market/hat, 320 villages avail communication by 319 villages, medical by 70, post and telegraph by 231, communication by 269, pucca road by 231, and power supply by 319 villages. In the fourth category of population range of 5,000+ there are 49 villages and the amenities of education, drinking water and power supply are available by all these 49 villages. The other amenities of medical, post and telegraph, market/hat communication and pucca road are available by 32, 48, 36, 47 and 42 villages respectively. In all the four groups of population ranges, it is notable that the amenities of medical and market/hat have recorded a low percentage in this district.

TABLE 16.
MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES
IN EACH TALUK.

Sl.No.	Name of Taluk	Main staple food.
(1)	(2)	(3)
1	Hosur	Rice & Ragi.
2	Denkanikota	Rice & Ragi.
3	Krishnagiri	Rice & Millets
4	Uttangarai	Rice & Millets.
5	Palakkodu	Rice & Ragi.
6	Pennagaram	Rice & Millets.
7	Dharmapuri	Rice & Ragi.
8	Harur	Rice & Millets.

This table furnishes the main staple food in terms of grains consumed by the majority of the population of the villages in each taluk. There are 8 taluks in Dharmapuri district. In all the 8 taluks, it is found that rice is used as the main staple food. Ofcourse, it has been found that ragi also is in use along with rice in 5 taluks. In the remaining 3 taluks, other millets are being used along with rice. Only in Krishnagiri taluk, cholam is being consumed along with rice and ragi.

TABLE 17
DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE.

Sl. No.	Name of Taluk	Number of inhabited villages.	Total area.	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
(1)	(2)	(3)	(4)	(5)	(6)
1	Hosur	156	93,060.08	71.59	9.31
2	Denkanikota	99	1,12,866.16	61.61	10.89
3	Krishnagiri	183	1,53,807.61	64.22	20.28
4	Uttangarai	190	62,765.04	83.55	21.53
5	Palakkodu	75	54,368.40	78.71	46.80
6	Pennagaram	42	91,520.59	40.14	38.14
7	Dharmapuri	62	68,921.97	59.34	22.14
8	Harur	258	1,23,588.62	74.02	11.07
DHARMAPURI DISTRICT ..		1,065	7,60,898.47	65.62	19.96

This table gives the distribution of inhabited villages according to land use. The total area of 1,065 inhabited villages is 7,60,898.47 hectares of which the percentage of the cultivable area to the total area works out to 65.62. The percentage of the irrigated area to the total cultivable area works out to 19.96. The taluks of Uttangarai, Palakkodu and Harur possess the maximum cultivable area to total area in the district viz., 83.55 percent, 78.71 percent and 74.02 per cent respectively. Pennagaram taluk has recorded the lowest percentage of 40.14 of cultivable area to total area in the district, the highest being Uttangarai taluk. Regarding the irrigated area in the district, Palakkodu taluk has got the highest percentage of 46.80 of irrigated area to total cultivable area. Hosur and Harur taluks record the lowest percentage of 9.31 and 11.07 respectively in the district.

TABLE 18

Table 18 gives the details of growth, density and sex ratio of urban population in Dharmapuri district for the decades 1951 to 1981. The percentage of urban population to total population in this area has gone up from 8.58 in 1971 to 9.37 in 1981. The density of urban areas of Dharmapuri district which was 2,129 in 1971 has steadily increased to 2,651 in 1981.

It may be observed that in all the censuses the sex ratio in the urban areas of Dharmapuri district is higher than that of the state except in 1981.

2 II Dharmapuri (M)	Cotton Cloth	Tamarind	Cotton thread.
3 IV Harur (NP)	Starch	Cotton	Oil.
4 III Hosur (NP)	Silk thread	Tamarind	Redgram.
5 IV Kaveripattinam (NP)	..	..	..
6 III Krishnagiri (M)	Wooden articles	Mangoes	Rice.
7 IV Palakkodu (NP)	Jaggery	Coconut	Paddy.

Table 24 furnishes the list of most important Commodities manufactured, imported and exported in all the towns of Dharmapuri district.

SECTION—I.

VILLAGE DIRECTORY.

**NOTE EXPLAINING THE CODES USED
IN THE VILLAGE DIRECTORY**

N.A. Information not available.

Educational

P	..	..	Primary or Elementary School.
M	..	..	Junior Secondary or Middle School
H	..	..	Matriculation or Secondary School.
PUC	..	..	Higher Secondary/Intermediate/Pre-University/Junior College.
C	..	..	College, any College (Graduate level and above) like Arts, Science, Commerce, etc.
I	..	..	Industrial School.
Tr.	..	..	Training School.
AC	..	..	Adult literacy Class/Centre.
O	..	..	Other educational institutions. These include Sanskrit Pathshals, Senior Basic School, Makhtab, etc.

Medical

H	..	..	Hospital.
MCW	..	..	Maternity and Child Welfare Centre.
MH	..	..	Maternity Home.
CWC	..	..	Child Welfare Centre.
HC	..	..	Health Centre.
PHC	..	..	Primary Health Centre.
PHS	..	..	Primary Health Sub-Centre.
D	..	..	Dispensary.
FPC	..	..	Family Planning Centre.
TB	..	..	T.B. Clinic.
NH	..	..	Nursing Home.
RP	..	..	Registered Private Practitioner.
SMP	..	..	Subsidised Medical Practitioner.
CHW	..	..	Community Medical Health Worker.
O	..	..	Others.

Drinking Water

T	..	..	Tap Water.
W	..	..	Well Water.
TK	..	..	Tank Water.
TW	..	..	Tube Well Water.
HP	..	..	Hand Pump
R	..	..	River Water.
F	..	..	Fountain Water.
C	..	..	Canal.
L	..	..	Lake.
S	..	..	Spring.
N	..	..	Nallah.
O	..	..	Others.

NOTE EXPLAINING THE CODES USED IN THE VILLAGE DIRECTORY

Post and Telegraph

PO	..	..	Post Office.
TO	..	..	Telegraph Office.
PTO	..	..	Post and Telegraph Office.
Phone	..	..	Telephone connection.

Communication

BS	..	..	Bus
RS	..	..	Railway Station.
NW	..	..	Navigable Waterways (including, river, canal back-water etc.)

Approach to Villages

PR	..	..	Pucca Road.
KR	..	..	Kaccha Road.
NR	..	..	Navigable River.
NC	..	..	Navigable Canal.
NW	..	..	Navigable Water way (other than river or canal).

Power Supply

ED	..	..	Electricity for domestic purpose.
EAG	..	..	Electricity for Agriculture.
EO	..	..	Electricity for other purposes like Industrial, Commercial, etc.
EA	..	..	Electricity for all purposes listed above.

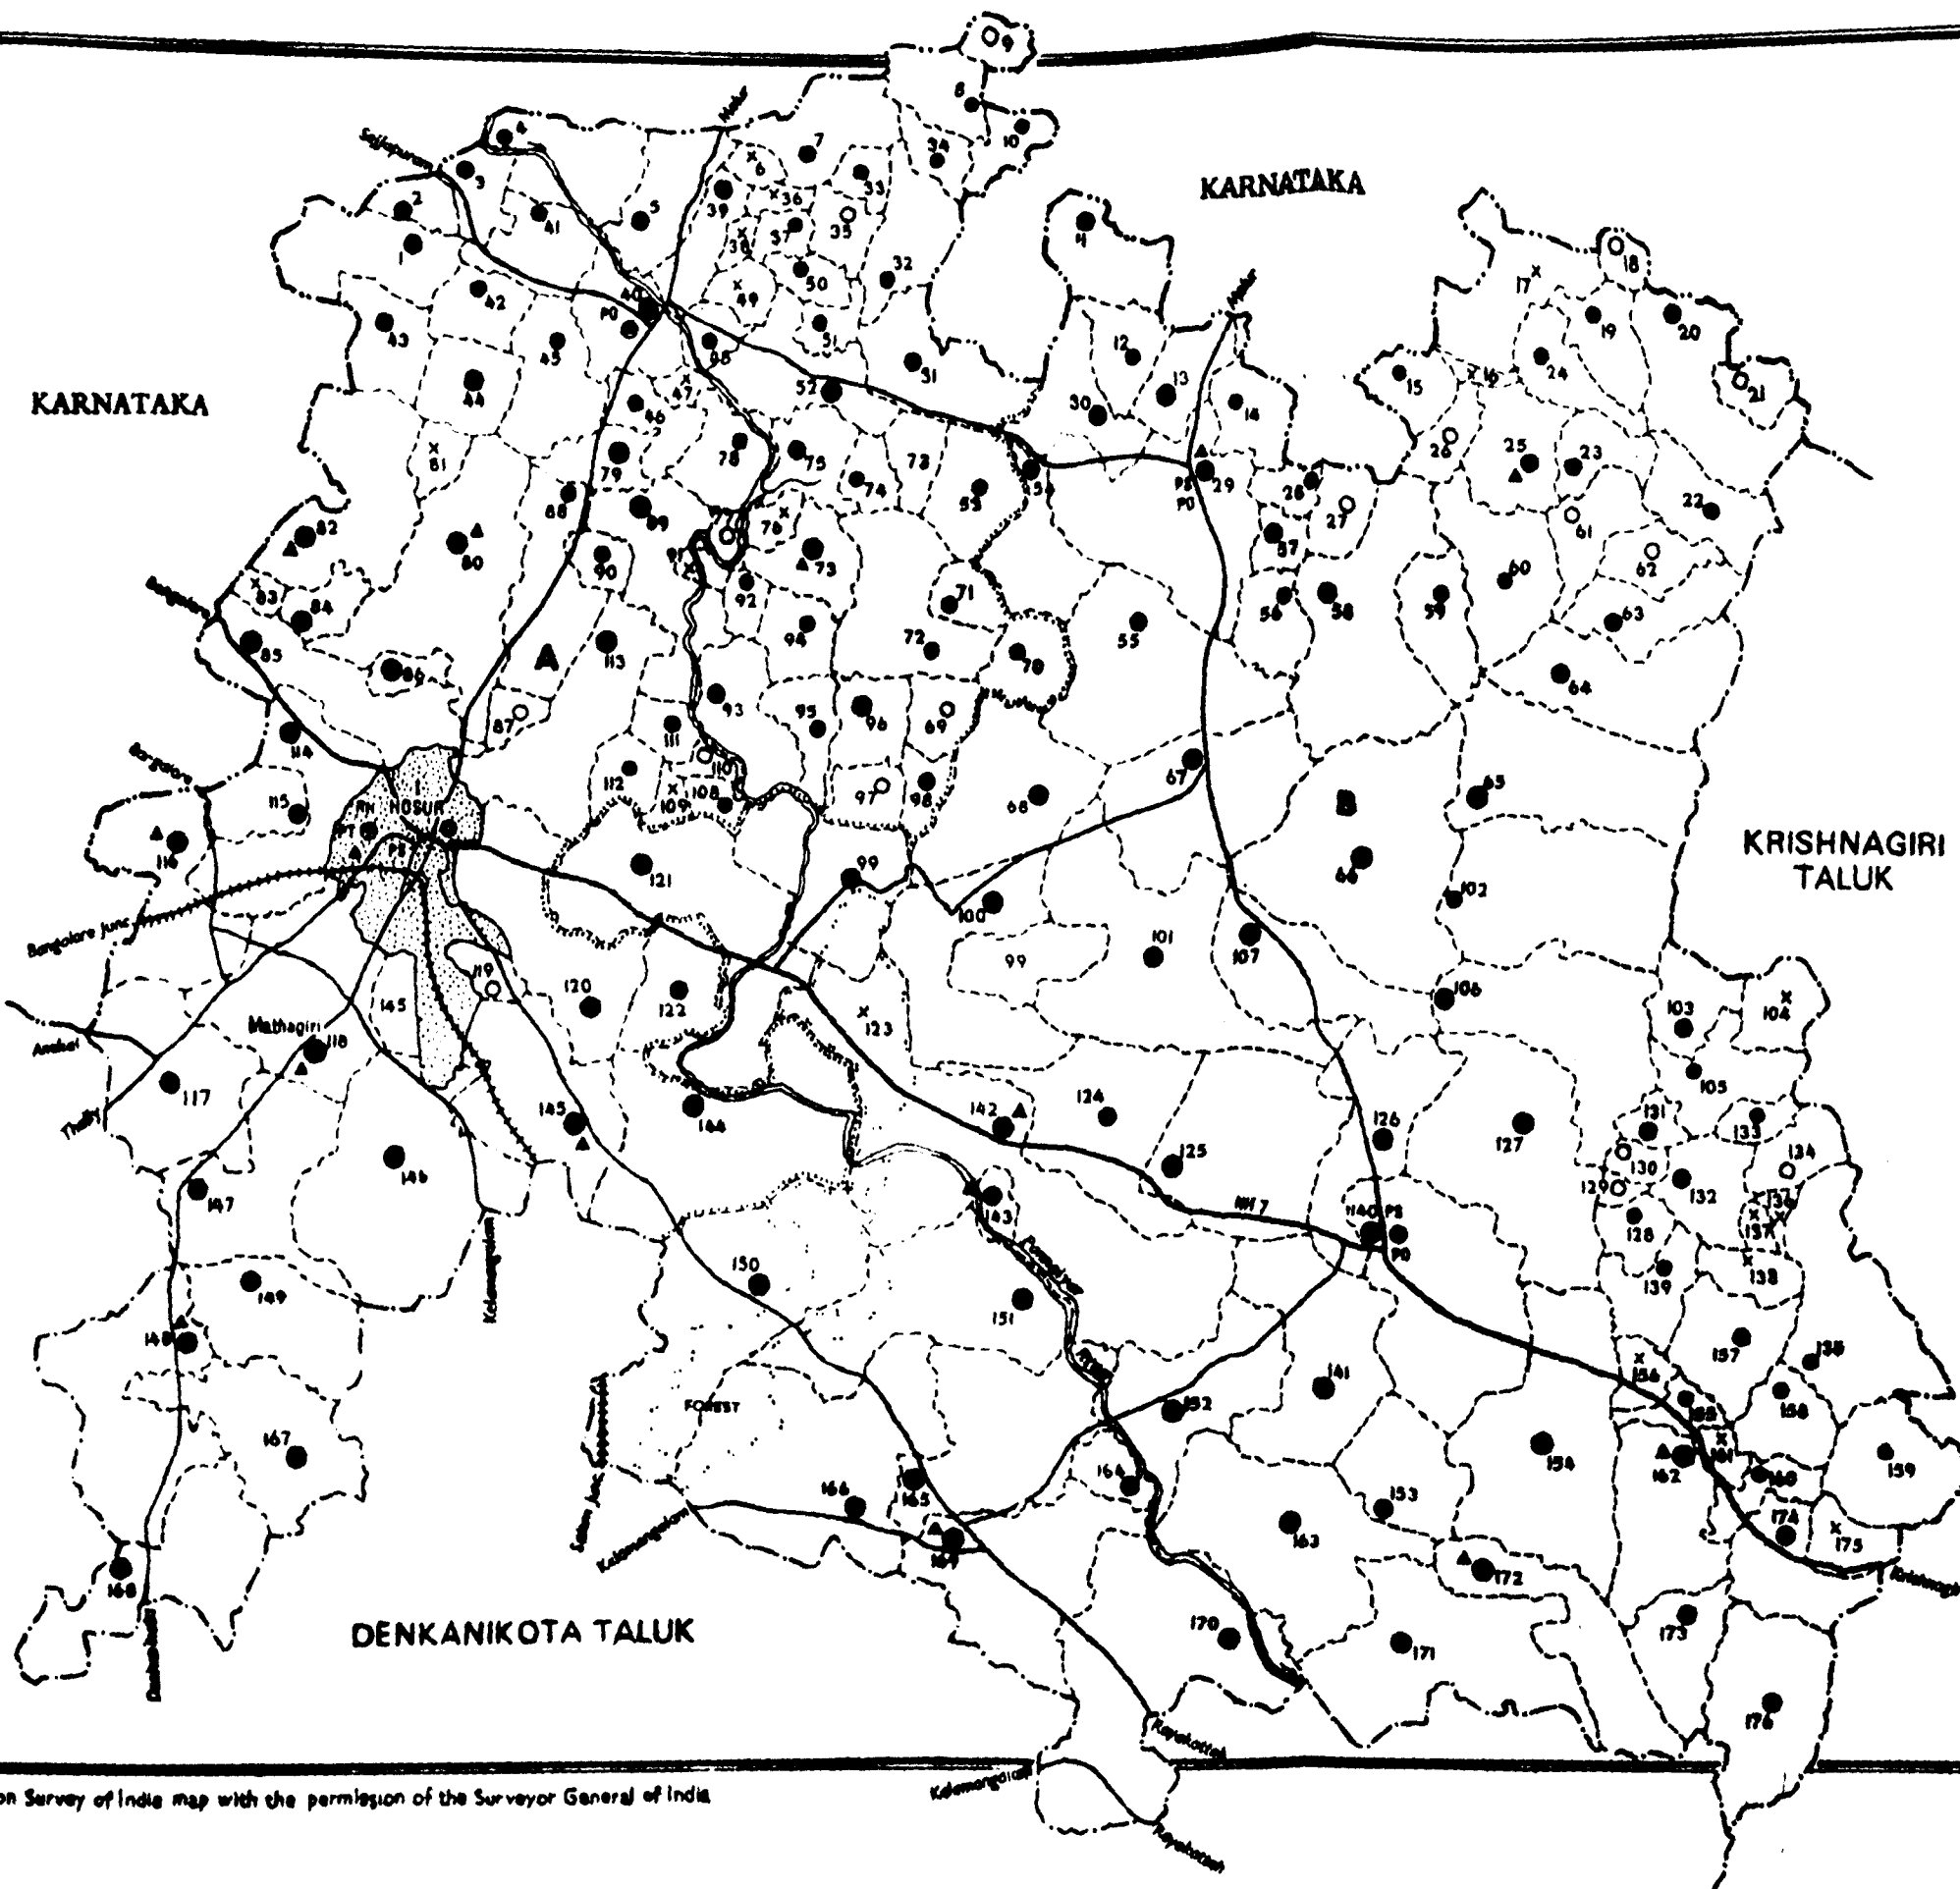

Irrigated by Source

GC	..	..	Government Canal.
PC	..	..	Private Canal.
W	..	..	Well (without electricity).
WE	..	..	Well (with electricity).
TW	..	..	Tube Well (without electricity).
TWE	..	..	Tube Well (with electricity).
TK	..	..	Tank.
R	..	..	River.
L	..	..	Lake.
Wf.	..	..	Water fall.
O	..	..	Others.
T	..	..	Total.

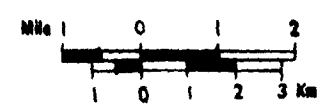

Other aspects

N	..	..	Copies of the newspapers coming in the village.
M	..	..	Motor Cycles/Scooters available in the Village.
C	..	..	Cars/Jeeps available in the Village.
T	..	..	Tractors available in the Village.
—	..	..	No facility available.
..	..	..	Nil Particulars.
