Responsibility for the correctness of internal details shown in the maps rests with the publisher

FOREWORD

The District Census Handbook (DCH), compiled by the Census Organisation on behalf of the State Government, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to district administration. The District Census Handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The District Census Handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census, the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referent village, the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect, particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of Scheduled caste and Scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Caste and Scheduled Tribe population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The former of the Primary Census Abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census,

In order to avoid delay in the publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto taluk/town level. At the beginning of the DCH, a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk level maps depicting the boundaries and other important features have been inserted at appropriate places to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri A.P. Muthuswami, I.A.S., Director of Census Operations, Tamil Nadu on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B.K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M.M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi,
26th April, 1982.

P. PADMANABHA
Registrar General, India

P R E F A C E

It has been the tradition of the Government of Tamil Nadu to publish immediately after each census, a District Census Handbook separately for each district containing the Census statistics besides other valuable data of local importance, for the use of the State Government, district administration, research scholars and other data users. The first series of District Census Handbooks were brought out immediately after the 1951 Census and the present publication after the 1981 Census is the fourth in the series.

The Census statistics presented in this publication were collected during the census operations in February — March, 1981, as at the sun rise of the 1st March, 1981. The other statistics in this publication have been collected from various departments of the State and Central Governments.

This publication consists of the following two parts.

Part-A : Village and Town Directory and

Part-B : Village and Town wise Primary Census Abstract

Taking into account the increasing and varied developmental and other welfare measures undertaken by the Government, the scope and content of the data in this publication have been considerably enlarged and improved to meet the requirements of the planners and other data users. In particular, certain inset tables based on census and other data have been included in this publication with brief analytical notes thereon.

This publication contains a brief history of the district highlighting the major characteristics of the district in relation to the economic resources like forestry, minerals, etc. besides the social, cultural, religious and historical aspects. The district and taluk maps in this publication give the administrative units upto village level, the rural and urban units, the location of towns and cities, communication facilities and other related details.

The facilities and amenities available in respect of education, medical, drinking water, post and telegraph, markets, communication, etc., in each village and town have been included in this publication, and an important feature is that wherever the above facilities and amenities are not available in any particular village/town, the nearest place where they are available has also been reported.

Another interesting feature in this publication is that villages with none of these amenities have been listed out separately for the pointed attention of the planners and administrators.

Certain tables present data exclusively in respect of the weaker sections of the society belonging to the Scheduled Caste and Scheduled Tribes.

The land use pattern in respect of rural and urban areas have also been reported in this publication which would meet the requirement of micro level planning for rural and urban areas.

The data in respect of urban areas, apart from the medical and other facilities available, relate to the growth of towns, the availability of protected water supply, and what is important, the civic amenities available in the slums of the urban areas.

Part-B of this volume consists of the district and village/town-wise Primary Census Abstract followed by Primary Census Abstract of Scheduled Castes and Scheduled Tribes.

The district Primary Census Abstract gives for each territorial unit upto taluk level in the case of rural areas and upto town level for urban areas, occupied residential houses, households, the total population, the Scheduled Caste and Scheduled Tribe population, workers, etc., thereby indicating the basic socio-economic characteristics of the population for the territorial units. The village and townwise Primary Census Abstract gives similar information for villages and wards of towns. Besides, there is an appendix which furnished at urban block level, the total population and Scheduled Caste and Scheduled Tribe population.

I am grateful to the Collectors and other district officers and Departments of the State Government, who have extended their unfailing co-operation and help in collecting the voluminous and useful data other than Census, for their presentation at one place in this publication, for the ready reference of the data users.

In bringing out this publication, I have received assistance from Sarvashri M. Thangaraju and M. Nagappan, Deputy Directors, Shri R. Narayanan, Assistant Director and Shri C.T. Rajan, Investigator, besides a large number of staff members of this Directorate.

In formulating the scope and content of the data in this publications and designing the formats for presentation of the data, I have received valuable guidance from Shri P. Padmanabha, Registrar General, India. The encouragement I have received from him at every stage of the work has contributed in a great measure to the successful publication of this District Census Handbook.

I hope the data in this volume would be found useful and the publication well received by the administrators, academicians and other data users.

Madras,
July, 1983.

A. P. MUTHUSWAMI
Director of Census Operations, Tamil Nadu

ACKNOWLEDGEMENT

ANALYTICAL NOTE

CENSUS CONCEPTS

Rural and Urban Areas :

Census figures are generally presented separately for rural and urban areas. In the 1981 census, the definition of an urban unit is more or less the same as in the 1961 and 1971 Censuses but for some minor variations. The urban areas of 1981 Census are :

- All places with a Municipality, Corporation or Cantonment Board or notified town areas
- All other places which satisfied the following criteria
 - A minimum population of 5,000
 - At least 75 per cent of the male working population engaged in non-agricultural (and allied) activity,
 - A population of at least 400 per km² (or one thousand per square mile).

The above definition of urban area varies slightly from that of 1961 and 1971 Censuses, in that the males working in activities such as fishing, logging etc. were treated as engaged in non-agricultural activity and therefore contributed to the 75 per cent criterion in the 1961 and 1971 Censuses, whereas in the 1981 Census, these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion. The rest of the areas not treated as urban are classified as rural areas.

Urban Agglomeration

Urban Agglomeration is a new concept formed during 1971 Census and this replaces the concept of town group adopted in 1961 Census. An Urban Agglomeration may be explained as follows: "It must form a continuous urban spread constituting a town and its adjoining urban out growth or two or more physically contiguous towns together with continuous well recognised urban outgrowth, if any, of such towns."

Census House

A census house is a building or part of a building having a separate main entrance from the road or common

courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

Household

A household is a group of persons, who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented any of them from doing so.

Scheduled Castes/Scheduled Tribes

For the enumeration of Scheduled Castes and Scheduled Tribes in Census, the names of Scheduled Castes and Scheduled Tribes as recognised in Tamil Nadu based on the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act of 1976 (Central Act 108 of 1976) were followed. The enumerators were instructed to record a person as a Scheduled Caste/Scheduled Tribe provided the name given by the person was found in the list supplied to them.

Literates

In 1981 Census, a literate was defined as "a person who can both read and write with understanding in any language." A person who could merely read but cannot write was not a literate. It was not necessary that a person considered a literate must have received any formal education or have passed any minimum educational standard.

Work

Work has been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

Main workers and Marginal workers

A worker was identified with reference to a reference period preceding the census. The reference period pres-

cribed was one year preceding the date of enumeration. Certain types of work such as agriculture, household industries like gur making etc., were carried on, either throughout the year or only during certain seasons or part of the year, depending on local circumstances. In such cases, what we were concerned with, was the broad time span of the agricultural season preceding the enumeration. Workers can be full time workers or seasonal workers or marginal workers. If a person has done any work during the reference period and if he had worked for the major part of the year i.e., if he had worked for 183 days or more, he was considered to be a full time worker (main worker). If a person had done any work during the reference period and if he has not worked for the major part of the year i.e., if he had worked for less than 183 days, he was considered to be a marginal worker.

The main activity of workers has been classified into four categories viz., cultivator, agricultural labourer, household industry and other work.

Cultivator

For purposes of Census, a cultivator is a person who is engaged either as an employer, single worker or family worker in cultivation of land owned or held from Government, private persons or institutions, for payment in money, kind or share. Cultivation includes supervision and direction of cultivation.

Agricultural labourer

A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He or she has no risk in the cultiva-

tion but merely works in another person's land for wages and has no right of lease or contract on land on which he or she works.

Household Industry

For a person who returns his/her main activity as engaged in some production, processing, servicing or repair of articles or goods, it has been ascertained whether it is a household industry.

Household Industry is defined as an industry conducted by the head of the household and/or by the members of the household at home or within the village in rural areas, and within the precincts of the house in urban areas. A larger proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would, or has to, be registered under the Indian Factories Act.

Non-workers

All persons who have not been treated as workers i.e. persons who have not worked any time at all during the reference period of one year preceding the date of enumeration, have been considered as non-workers. These cover all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year, full time students and children attending school, all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age, persons retired from service or rentiers, beggars, vagrants, convicts in jails or inmates of a penal, mental or charitable institution and all non-workers who may not come under any of the above categories.

HISTORY OF THE DISTRICT CENSUS HANDBOOK AND SCOPE OF VILLAGE / TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT

History of the District Census Handbook:

After the Census of 1951, the Government of India offered to hand over to the State Government the Census tables and other data prepared during the Census and suggested that they might be published along with any other useful information relating to each district. The State Government accepted the proposal, and the first publication of the District Census Handbook was brought out at the cost of the State Government.

The District Census Handbook of 1951 was found to be very useful and it was therefore decided not only to continue the series for the 1961 Census but also to improve definitely on its content so that each District Census Handbook contained certain basic economic data for the smallest administrative unit in the district and be an useful reference book for scholars and other data users.

After the 1971 Census as well the series of District Census Handbook was continued. The publication of the 1971 Census Handbooks was in three parts, viz., part-A, part-B, part-C; part-A relating to Village and Town Directory, Part-B relating to Village and Townwise Primary Census Abstract and Part-C comprising District Census Tables and certain administrative statistical tables.

The tradition of bringing out the Census Handbook has been continued by the State Government during the 1981 Census also. In this series some individual features besides restructuring the formats of the village directory have been adopted bearing in mind the national requirements of data for the socio-economic programmes of the Government. The comparability of data with the 1971 Census data has also been kept in view.

The present Census Handbook will be published in two parts, viz. Part-A — Village and Town Directory and Part-B — Village and Townwise Primary Census Abstract.

Scope of Village Directory :

The District Census Handbooks are the only publications which incorporate the data down to the level of a village and level of a town which are constantly referred to by the data users.

The Village Directory Statement gives the list of villages by taluk and for each village the area, number of households and population, availability of amenities and land

use. The information on amenities available in the village includes educational, medical, drinking water, post and telegraph, market, rail/road or other communication facilities and power supply. Land use is shown as area under forests, irrigation, unirrigated land, culturable waste and area not available for cultivation.

Appendix I gives for each taluk the number of villages having various levels and types of educational institutions, such as middle schools, adult literacy centres, etc., various types of medical institutions such as dispensaries, primary health centres, etc., and the number of such institutions, various types of drinking water sources such as, taps, tube-well, etc. post and telegraph offices, power supply, railway stations, bus stops, etc. and also the number of villages not having such amenities.

Appendix II gives for each non-municipal town (census towns) the area under forest, irrigated and unirrigated land, culturable waste and area not available for cultivation.

Appendix III gives the list of villages where no educational, medical and public health facilities, etc. are available.

Appendix IV gives the list of villages with the proportion of Scheduled Castes and Scheduled Tribes population to the total population in various ranges of proportion. Part A of the Appendix gives the villages according to the proportion of Scheduled Caste population and part-B according to proportion of Scheduled Tribe population. Information is presented by the ranges 0-5 per cent, 6-10 per cent, 11-15 per cent, 16-20 per cent, 21-30 per cent and 31 per cent and above for Scheduled Castes and 0-5 per cent, 6-15 per cent, 16-25 per cent, 26-35 per cent, 36-50 per cent and 51 per cent and above for Scheduled Tribes.

Scope of Town Directory :

The Town Directory gives important and useful information like civic and other amenities available in all the towns in the district, statutorily notified as well as non-municipal and census towns. The details relating to each of the towns have been presented in seven statements, viz. statements I to VI and IV-A. In all the statements except IV-A, the towns are arranged in the alphabetical order for the district. The Town Directory does not cover strictly military areas. It may, however, cover cantonment areas but not strictly military areas or military establish-

ments within the cantonment areas. However, basic statistics of the cantonment as a whole have been provided. In the Town Directory, codes have been given for the data on amenities and civic administration for want of space. The relevant explanations for the codes adopted have been given in the beginning of the Town Directory statements.

An urban agglomeration includes two or more independent census towns. The names of the towns/urban agglomerations have been arranged in the alphabetical order.

The particulars of the individual town which constitutes one of the units of agglomeration have not been furnished separately because the particulars have been furnished where they occur together under the name of agglomeration. The following remarks have been given against such town in brackets.

“(see the name of the main town of the agglomeration)”

By adoption of this method the reader can get an idea of the particulars of the urban agglomeration in total and also severally.

Statement I: Status and Growth History :

This statement provides some basic data based on the Primary Census Abstract. For analysing the Town Directory data at state level and All India level some new columns have been introduced in 1981. The new items are class of town, area, number of households, population and growth rate for each census since 1901. Density in 1981 and sex ratio in 1961, 1971 and 1981 censuses are also provided in this statement.

For size class of town, the following population norms as per 1981 census have been adopted.

Population	Class
100,000 and above	I
50,000 — 99,999	II
20,000 — 49,999	III
10,000 — 19,999	IV
5,000 — 9,999	V
below 5,000	VI

Location code number of towns :

To distinguish the town from the village, the location code numbers for towns have been given in Roman numerals and these numbers have been assigned in a continuous order for the district as a whole.

Statement II: Physical Aspects and Location of Towns, 1979 :

Under physical aspects, annual rainfall and temperature figures are furnished. These particulars were obtained from the Commissioner of Statistics, Madras. If the information is not available for any particular town, the nearest town for which it is available is given. For col. (9),

the nearest city with population of one lakh and more is furnished according to 1981 census. For the other cols. figures obtained from the Municipal Commissioners and panchayat Union Commissioners are given. The ‘Zero’ within brackets in cols. 10 and 11 denotes that the referent town itself is enjoying rail road transport facilities.

Statement III: Municipal Finance, 1978-79 :

The civic administration status of the town, the receipt through tax, properties and powers, government grants, loans, advances and other sources and the expenditure on general administration, public safety, public health, public works, public institutions and other public services are given in this statement. The sources of receipt and expenditure are furnished in terms of rupees in hundreds.

Statement IV: Civic and other amenities, 1979 :

The civic and other amenities existing in the towns as in 1979 are given. The data were obtained from the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

Col.3 — Civic administration status :

It is a new column introduced in this statement to facilitate analysis.

Col. 4 — Population :

It is also a new column introduced in this statement to measure the amenities in respect of population.

Col. 5 — Scheduled Caste and Scheduled Tribe population :

It is introduced to know the size of population of the weaker sections of the community in the town.

Electrification :

Electrification particulars were obtained from the Tamil Nadu Electricity Board through the Municipal Commissioners and Panchayat Union Commissioners.

(i) Domestic Connections :

This refers to the number of services given to houses for domestic purposes like fans, lighting, etc.

(ii) Industrial Connections :

This refers to the number of services effected to L.T. Industries such as workshops, flour mills, oil mills, grinding machines, cotton ginning, engineering industries etc.

(iii) Commercial Connections :

This refers to the services given to shops, business houses, public institutions like offices and schools and commercial establishments.

(iv) Road lighting points :

This refers to the number of points of street lights which will be maintained by the Board and for which consumption charges will be paid to the Board by respective local bodies. For some town panchayats the number of services effected alone has been furnished under street lights and not the points.

(v) Other connections :

This refers to the number of services effected for agricultural purposes, huts, public water supply systems, cottage industries, etc.

Statement IV-A: Civic and other amenities in notified slums, 1979 :

This is a new statement on civic and other amenities in notified or recognised slums of class I and II towns. Generally, in cities or towns having slums, the local authority such as municipality or municipal corporation or even the development authority notified the recognised slums. Such notification is linked up with the availability of funds from the State Government for slum clearance.

Name of the slum and the details of the area, population, length of the paved roads, system of sewerage, number of different types of latrines and method of disposal of night soil, etc., are given in this statement.

Statement V: Medical, Educational, Recreational and Cultural Facilities, 1979:

In this statement, medical, educational, recreational and cultural facilities of the towns as in 1979 are furnished. The data for educational and medical facilities were obtained from the Municipal Commissioners and Panchayat Union Commissioners for the concerned towns, and from the Director of Secondary education, and Director of Public Health respectively.

Col. 10 — Recognised shorthand, typewriting and other vocational training institutions :

The term ‘recognised’ refers to institutes recognised by some statutory authority like Education Department, Commerce Department, Labour Department, etc of the Government or by Semi-Government or autonomous bodies, public sector projects, etc.

Cinemas refer only to the permanent cinema theatres and do not include touring cinemas.

Col. 16 — Number of working women’s hostels with number of seats. This is a new column introduced in this statement in 1981 :

Considering the increasing employment of women in urban areas, the housing needs of working women has been an important problem.

Statement VI: Trade, Commerce, Industry and Banking, 1979 :

In this statement, trade, commerce, industry and banking facilities in the town as in 1979 are furnished. Banking particulars were obtained from the Reserve Bank of India. The information on number of agricultural and non-agricultural credit societies were collected from the Registrar of Co-operative Societies through the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

Scope of Primary Census Abstract :

The Primary Census Abstract, as it is called, presents basic data for each village or segment of a village (in cases where such village segments form different panchayats) in the “Villagewise Primary Census Abstract” and for each “Ward/Division” of a Town in the “Urban Primary Census Abstract”. The format of the Primary Census Abstract for the villages and towns in 1981 has been slightly modified as compared to the 1971 Primary Census Abstract.

The Primary Census Abstract gives such basic information as area in hectares/sq.km., occupied residential houses, number of households, total population, Scheduled Castes and Scheduled Tribes population, literates, main workers, division of main workers into cultivators, agricultural labourers, workers in household industry and other workers, marginal workers and non-workers in respect of each unit. The Urban/Village Primary Census Abstract gives this information for each village and each urban ward. With a view to ensure comparability and to enable data users to derive the figures either for a revenue village or panchayat according to the requirements, the data are presented for segments of villages also. Wherever portions of one village happen to be in two or more panchayats the segmentwise data have to be used separately or added with some other segment data so as to derive panchayat data. For example, if portions of a revenue village bearing L.C.No.10 forms part of two panchayats, the figures are given separately for each portion of the village against L.C.No.10 a/b and 10 b/b. The total figures for the entire revenue village by adding the figures given against both the segments viz. 10 a/b and 10 b/b are given in the village Primary Census Abstract. If, instead, the panchayat figures are required, the data for the concerned village segment or segments relating to the panchayats concerned are to be added up to arrive at the total figures for the respective panchayat.

An appendix presented in the case of the Urban Primary Census Abstract gives 1981 population, Scheduled Castes and Scheduled Tribes population for each enumerator block of the town. This is meant for the use of administrative and election authorities in urban areas. Such data are also required by urban planners and researchers for conducting other studies in selected blocks.

Mode of Presentation :

The consolidated figures for the district and each taluk are given in the beginning for Total, Rural and Urban areas followed by each town/Urban Agglomeration under the caption 'District Primary Census Abstract'. Then follows the Primary Census Abstracts for Scheduled Castes/Scheduled Tribes. An alphabetical list of revenue villages is then given along with the Census Location Code Numbers of 1981 Census followed by the Village-wise Primary Census Abstract for each Taluk. In the foot note given at the end of the Village-wise Primary Census Abstract, the villages included in Municipalities or Census towns are indicated. In an annexure, the names of villages and their constituent panchayats are given. Then, follows the Urban Primary Census Abstract. In an appendix to the Urban Primary Census Abstract, the population and S.C./S.T. figures for each E.B. of a town are given. This arrangement is followed for each taluk and independent sub-taluk in the district.

Maps :

Apart from the District Map given as frontispiece, map for each taluk showing the village L.C. numbers along with their boundaries have also been included at the appropriate places. As compared with the maps presented in 1971 District Census Handbook, several improvements have been effected in the maps presented in this volume. All towns are shown in the District and taluk maps with shading screens and also spheres according to the population size of towns.

Area figures :

In the District Primary Census Abstract, the area figures are given in square kilometres for Total, Rural and

Urban areas. In the village-wise Primary Census Abstract, the area figures for each location code unit are given in hectares upto two decimals. The area figures for each town in sq.km. is also given at the end of the Urban Primary Census Abstract. In the District Primary Census Abstract, the area figures of the district total represent the "Geographical Area" figures supplied by the Surveyor General. Figures for urban areas are those supplied by the Local Bodies and revenue authorities. The urban area of a district has been arrived by adding the urban area figures of each taluk within the district. Area figures for the rural areas of District/Taluk are derived by subtracting the urban area figures from the total area of the District/Taluk. The total of the area figures of the taluks will not tally with the district figures because the taluk area figures represent the 'Land Use' area and are derived from the figures supplied by the Tamil Nadu Directorate of Survey and Land Records, while those of the district represent "Geographical Area" supplied by the Surveyor General of India. The total of the village area given in the Village-wise Primary Census Abstract may not tally with the rural area of the taluk given in the District Primary Census Abstract as the taluk area figures take into account hills, forests, rivers, etc., where as the village area may not include the same. For conversion, the ratio is 100 hectares = 1 sq.km.

It is hoped that the pattern of presentation of basic Census particulars for each district as explained above and adopted in this volume would be found convenient by data users.

PUDUKKOTTAI DISTRICT-AN OUT LINE

INTRODUCTION:

Pudukkottai is one of the new districts formed after the 1971 Census, on 14th January, 1974. It is one of the small districts of Tamil Nadu with an area of 4661 sq.kms. The district lies between 78°25' to 79°15' of the eastern longitude and 9°50' to 10°40' of the northern latitude. This district is bounded by Tiruchchirappalli in the north, Thanjavur in the north-east, Bay of Bengal in the east and Ramanathapuram in the south. It has a coast line of about 39 kms.

Political and Historical Origin :

Pudukkottai was formerly one of the Princely states of India. Pudukkottai was a unique state with all sovereign powers reigned by the Maharajah of Pudukkottai. Pudukkottai state comprised of three taluks, viz. Alangudi, Tirumayam and Kulattur with its headquarters at Pudukkottai. The Vellar river, 5 miles from Pudukkottai towards the south, was the southern natural boundary of Chola kingdom and the northern boundary of Pandiyan kingdom. Some places in Pudukkottai found place in the ancient literature like 'Agananooru' and 'Purananooru', before 1,800 years in Sangam Age. Kodumbalur, Oliamamangalam and Edayathur are a few villages of the former Pudukkottai state referred in Sangam literature like 'Agananooru' and 'Purananooru'. Before the rule of Pudukkottai state by Thondaiman kings, Pudukkottai was under the control of the Muslims during the first half of the 15th century and the Naickers in the middle of the 15th century and till 17th century the Moghuls. During the last half of 17th century, the Marathas of Thanjavur ruled Pudukkottai area along with their territory in Thanjavur district. When the Naicker kings lost their importance, Pudukkottai came under the suzerainty of the Thondaiman kings. The Thondaiman kings ruled Pudukkottai state till 1948, i.e., before it was merged with the union of the Government of India on 3rd March, 1948. The ancient inhabitants of Pudukkottai state are considered to be Kurumbers. Their descendants are still living in the villages of Sellukudy in Pudukkottai taluk, Aranipatti, Vaithikoil, and Thennangudi in Kulattur taluk. The Roman Coins of the 1st century B.C. detected at Karukkakurichi village in Alangudi taluk leads to a conclusion of flourishing trade with foreign countries even at an early date of which about 1,500 inscriptions and monuments are still available at places like Thirugokarnam, Tirumayam, Kudumiyamalai, Malayakoil, Chithannavasal and Narthamalai. Pudukkottai abounds in many inscriptions and monuments in various places. They speak volumes of the culture of the people and place of Pudukkottai state. They are of

monolithic and archaeological importance in the cave temples of Chithannavasal and Thenimalai. They speak about the age of this state to that of Buddha i.e., 200 B.C. Thus it will go to show that Pudukkottai state is an ancient kingdom in Tamil Nadu.)

(There were so many dynasties of people who lived in this state under Kalla community, which is the predominating community of this place.) They were in 7 groups under various sects with their own group leaders called (1) Sammattiar, (2) Kadambarayar, (3) Malavarayar, (4) Kongurayar, (5) Kalingarayar, (6) Achudarayar and (7) Kummuttarayar. The area ruled by these people was called 'Kanadu' and the other area ruled by 'Vanathirayar' was called 'Konadu'. There was rivalry between one group and another between the Kallars and Maravars. Lastly the Kallars seized the suzerainty of the Pudukkottai state from 1426 A.D. (Pudukkottai state was called 'Thondaiman Pudukkottai' to differentiate this place from that of another Pudukkottai called 'Maravan Pudukkottai' or 'Thennamarayan Pudukkottai' which formed part in between Manamadurai and Kalayarkoil.) One Kilavan Sethupathy, a Marava king was ruling a vast area comprising places like Madurai, Ramanathapuram, Tirunelveli, Pudukkottai etc. This Kilavan Sethupathi gave his daughter in marriage to one Thondaiman of Pudukkottai and gave this Pudukkottai state to his daughter as 'Seedhanam'. Pudukkottai was also called 'Kalasa Mangalam'. Pudukkottai was under the continuous rulership of Thondaiman kings from 1686 A.D. to 1948 A.D. During the rule of Marthanda Bairava Thondaiman (1886 to 1894 A.D.), Pudukkottai attained all its importance as a separate kingdom. During 18th century when the English and the French Government were fighting hard to establish their powers in India, the Moghuls and the Marattas were fighting on the other. This Thondaiman sided the Moghuls and the English. The Moghuls and the English helped the Thondaiman kings and allowed them to rule their territory tax free. Some parts of Thanjavur, viz. Kilanilaikottai in Tirumayam taluk was given to the Thondaiman kings as gift from Thanjavur rulers. The Thondaiman kings helped the English during the war at Madras and Chengalpattu. Katta Bomman and his brother Umai Thurai were against the English rule in 1799 A.D. The Thondaiman king captured 5 persons including these two who were against the English royalty. As a reward for this venture, the Thondaiman kings were praised and presented with rewards by the English. There were certain disturbances for the smooth ruling by the Thondaiman kings at the places like Virachilai and Kudumiyamalai. The English officers interfered and

settled the issue. Major Blackburn was a guide and advisor to the Thondaiman kings for some years. There was a devastating fire in 1812 A.D. in Pudukkottai town. Consequently Pudukkottai town was newly formed with regular street crossing each other and with intersections and with all conveniences and beautifications. In 1822 itself some inspection bungalows were constructed for the stay of the administrators at places like Adanakottai and Viralimalai. In 1884 A.D. the Emperor of India and the King of England presented an important reward with dignity 'His Highness' to the Raja of Pudukkottai. Pudukkottai was very ably administered by the Kings of Pudukkottai. The last Raja of Pudukkottai state is H.H. Raja Rajagopala Thondaiman.) He is now living at Tiruchi. For administrative convenience, the departments were divided such as Police, Revenue, Village Administration, Town Administration, Jail Department, Post and Telegraphs, Building Administration, Public Works Administration, Forest Department and Judiciary etc. Formerly, there were 5 taluks for Pudukkottai state, viz. Alangudi, Tirumayam, Kulattur Perumanadu and Kavinadu. Later Perumanadu and Kavinadu taluks were abolished and the residuary Alangudi Tirumayam and Kulattur taluks were in existence till 1948. Pudukkottai is noted for its able and clean administration though it was a small state. (In 1883 A.D., a separate High School for girls was established at Pudukkottai. The weekly market on Friday is an important one established in 1884 at Pudukkottai.) For this weekly market the merchants from various places flock together and deal with all commodities, right from bullock and all essential commodities. The post of 'Dewan' was sanctioned in the year 1885 A.D. to assist the administrator and the Raja. Thiru Seshayah Shastri took charge as Dewan of Pudukkottai in the year 1878 A.D. He was responsible for the good administration and for the formation of Pudukkottai town as a model town. (A 'Representative Assembly' consisting of 30 members was established in the year 1902.) This Assembly received petitions from the public and heard their grievances and redressed them systematically. Pudukkottai administration was noted for its quick decision, proper execution and clean administration. Improvements to irrigation sources, agricultural improvements, revenue administration, educational reformation and Jamabandhi are the important features of the Administration of Pudukkottai. (A Museum was established in Pudukkottai town in the year 1909 A.D. In the year 1913 A.D. during the silver jubilee of the Raja Marthanda Bairava Thondaiman, a hospital and a municipality were established in Pudukkottai town. Free education in elementary schools was ordered.) The massive administrative buildings for public offices which are still in existence were constructed during this period. One Thiru Vijaya Regunatha Durai Raja, the Dewan of Pudukkottai was administering Pudukkottai state very ably and smoothly. On the economic and social sides, the Kallar

community was predominating in Kulattur taluk, Udayars in Alangudi taluk and Nattukkottai Chettiars in Tirumayam taluk. As the Pandiya kings nurtured the Tamil literature by establishing Sangam at Madurai, the Thondaiman King of Pudukkottai established Tamil Sangam in Pudukkottai. The area of Pudukkottai state was 52 miles east to west and 41 miles south to north. Though it was a small state, there were plenty and prosperity for the public.

There are small mountains and hillocks in Pudukkottai. Though there are no perennial rivers, there are jungle rivers, viz. Vellar, Kundar, Pambaru, Angnana Vimochaniaru, Uyyakondanaru, Ambuliaru, Koraiyaru, Sooraiyaru, Manimutharu. Whenever there is rain, during monsoons, all the 5,843 tanks in the state will be filled in systematically by the chain system of Kalingula by filling up tank by tank without wasting the water. This helped a long way to have resources of water during cultivation season without fail. There are mountains and hillocks at the places Viralimalai, Narthamalai, Kudumiyamalai, Thirugokarnam, Kunnandar Koil etc. This state was surrounded by forests on all the four sides which served not only as boundaries but also the sporting ground for the kings as places of hunting.

(Sir Alexander Tottonham was the Administrator of Pudukkottai from 1934 to 1946.) He was administering Pudukkottai state very ably and he formulated the present administration. The book written by him called 'District Office Manual', is a noteworthy compilation of the system of administration. The present system of administration is called 'Tottonham system'. He practically exercised this system in Pudukkottai state and this system was found to be an efficient system and it is being followed now in the entire state of Tamil Nadu.

Now after the formation of Pudukkottai district as a separate one along with the residuary taluks of Tiruchi district, viz., Alangudi, Kulattur and Tirumayam, the taluks of Gandarvakottai, Arantangi and Avadaiyarkovil have been taken from the district of Thanjavur and formed with the new district of Pudukkottai. Former Pudukkottai sub-taluk has been upgraded into a taluk. Thus there are now 7 taluks in Pudukkottai district, viz. Pudukkottai Alangudi, Tirumayam, Kulattur, and Gandarvakottai with the divisional headquarters at Pudukkottai; Arantangi and Avadaiyarkovil taluks are under the divisional headquarters of Arantangi division. Pudukkottai is the

district headquarters of Pudukkottai district. The Collector's office is now housed in the former new palace of the ex-Raja of Pudukkottai. All the other officers such as Revenue Divisional Officer's office, District Court and other departmental offices are housed at one public office building. (Pudukkottai is the first grade municipality with a population of 87,952 and Arantangi is a third grade municipality. Ponnamaravati, Arimalam, Iluppur, Kira-nur, Alangudi, Karambakudy and Keeramangalam are the town panchayats in Pudukkottai district. There are 768 revenue villages and 42 revenue firkas in this district. There are 13 panchayat unions in this district.)

Pudukkottai was formed, as already stated, on the 14th January, 1974. (Thus, Pudukkottai as an administrative unit is of recent origin. Ever since the merger of Pudukkottai state with the then Madras Presidency in 1948, the local people were clamouring for a separate district with Pudukkottai as its headquarters. The Government requested Shri S.P. Srinivasan, then Member, Board of Revenue who served as Sub-Collector, Pudukkottai previously to tour the area, study the problem and submit a report to the Government regarding the formation of Pudukkottai as a separate district.) The Government in consultation with the Board of Revenue, considered that the long felt needs and the aspirations of the people of Pudukkottai should be conceded and accordingly decided to constitute Pudukkottai district with headquarters at Pudukkottai with effect from 14th January 1974, comprising the existing areas of Pudukkottai revenue division and by transferring certain adjoining areas from Thanjavur district. The following areas comprise the newly formed district :—

1. Pudukkottai revenue division in Tiruchchirappalli district, viz. ex-Pudukkottai state area covered by the resettlement notification issued in G. O. Ms. No. 2254, Revenue, dated 25th May, 1962.

2. Arantangi taluk including Avadaiyarkovil sub-taluk, Gandarvakottai and Kallakkottai firkas in Orathanad taluk and 9 villages in Peravurani taluk of Thanjavur district (comprised in the erstwhile Sendangudi zamin) of the limits of Pudukkottai district as mentioned below :—

District	Name of the Revenue Division	Taluks	Firkas
(1)	(2)	(3)	(4)
Pudukkottai	Pudukkottai	Kulattur	Viralimalai Nirpalani Kunnandarkoil Keeranur Narthamalai Kudumiyamalai Iluppur
		Alangudi	Alangudi Karambakudi Malaiyur Vellanadu Keeramangalam
	Pudukkottai		Pudukkottai Varappur Gandarvakottai Kallakkottai
	Tirumayam		Keelanilai Sengirai Tirumayam Virachilai Karaiyur Ponnamaravati
	Arantangi		Arantangi Silathur Arasakulam Athani Mananmelkudi Ponbethi Mimisal Avadaiyarkovil

When the district was formed, Pudukkottai had only 5 main taluks for its administrative and revenue purposes as mentioned above and it was thought convenient to form the sub-taluk of Avadaiyarkovil which was functioning under Arantangi taluk as an independent taluk according to the G.O. of Revenue Department Ms.No. 1454 dated 4th July, 1979. Thus, the number of taluks in the district increased to 6 as on 4th July, 1979 with the addition of Avadaiyarkovil taluk. This has been further increased to 7 with the addition of Gandarvakkottai which was functioning as a sub-taluk of Pudukkottai taluk as an independent taluk of the district as ordered by the Government in G.O. Ms.No. 1570, dated 13th July, 1981.

Though the total number of taluks in Pudukkottai district is 7, the data for all Census purposes and other relevant particulars in this handbook are furnished based on the number of taluks as 6 since Gandarvakkottai taluk was included as part of Pudukkottai district after the 1981 Census was taken.

The district has six Assembly constituencies of which one constituency, viz. Kulattur is reserved for Scheduled Castes. There is one Parliamentary constituency consisting of five Assembly constituencies from Pudukkottai district and one Assembly constituency, viz. Pattukkottai from neighbouring Thanjavur district. The remaining one Assembly constituency of Tirumayam is included in Sivaganga Parliamentary constituency of Ramanathapuram district.

SOIL :

The soil of the district can be classified into three main groups, viz. (1) Regar, (2) red ferruginous and (3) arenaceous or sandy. Regar is found in the wet fields of Tirumayam and Kulattur taluks and at scattered places in Alangudi taluk. Red soils are as fertile as regar. Alangudi, Pudukkottai and Arantangi taluks have red soils in which unirrigated groundnut, varagu, ragi etc. can be raised. Irrigation has made it possible to raise some paddy also. In Tirumayam taluk, especially, the sedimentary rocks are covered by a capping of hard laterite. This hard laterite forms a poor soil and hence large tracts are left as thorny jungle unfit for cultivation. Near Gandarvakkottai on the Pudukkottai border are found what are called Cuddalore sandstones, hard heavy sandstones, overlaid by gritty varieties of the same rock having different colours like mottled pale purple, yellow and rusty red.

CLIMATE AND RAINFALL :

The climate of the district is hot and dry except in the coastal area where the heat is mitigated to some extent by sea breeze. The first two months of the year — January and February — form a pleasant period with warm days and cool nights. But by the close of February, the climate becomes rather sultry and during March and April, the mercury is on the upward trend reaching its peak by the

close of May or early June. The occasional rainfall that occurs during this period seldom affect the temperature. In October, the north-east monsoon starts and lowers the temperature.

Rainfall in Pudukkottai is scanty compared to heavier rainfall in the adjoining districts. It gets more rain from north-east monsoon. The rainy months fall in four groups :

1. Winter period .. January-February
2. Hot weather period .. March-May
3. South-west monsoon period .. June-September
4. North-east monsoon period .. October-December

The following statement shows the average rainfall in millimetres in Pudukkottai district of Tamil Nadu during the year 1979-80 :

Month	Rain fall in mm.		Percentage departure from normal rainfall
	Normal*	Actual 78-79	
(1)	(2)	(3)	(4)
January ..	38.7	Nil	
February ..	16.1	Nil	
Winter period ..	54.8	Nil	— 100
March ..	16.8	0.5	
April ..	46.5	47.2	
May ..	62.0	42.4	
Hot weather period ..	125.3	90.2	— 28.0
June ..	45.8	27.8	
July ..	60.7	40.5	
August ..	117.7	80.9	
September ..	121.1	140.6	
South-west monsoon period ..	345.3	289.8	— 16.1
October ..	158.9	142.8	
November ..	152.0	343.3	
December ..	81.6	78.0	
North-east monsoon period ..	392.5	564.1	+ 43.7
Pudukkottai district ..	917.9	944.1	+ 2.9

* Normal : Average of 50 years' rain ending 1950.

RIVERS :

The rivers of the district are only jungle streams that remain dry for the greatest portion of the year. However, mention may be made of Vellar river which raises in the Velamalai (வேலமலை) in the Marungapuri tract to the west of the district and falls into the Bay of Bengal to the north of Manalmelgudi in the Arantangi taluk. Pambar, river which passes through Tirumayam taluk and Koraiyar river which passes to the west of Rajagiri and the east of Kattalur in the Kulattur taluk. There are smaller rivers like Agniyar, Uyyakondan, Ambuliyar, Saraiyar and Manimuttar. As mentioned earlier, the major source of irriga-

tion for the area sown in the district is tanks fed by the rains and these are in large numbers.

FORESTRY :

The total area of forests is about 23,999 hectares. The percentage of forests to the total area is 5.1. The forests are mostly found in Ponnamaravati and Tirumayam blocks of the district. The main products from the forests are eucalyptus, cashew, pulp and fuel wood.

The details of plantations raised from 1974-75 to 1978-79 in the district are as given below.

Year	Eucalyptus		Cashew		Pulp & fuel wood	
	Area in hectares	Amount (in Rs. lakhs)	Area in hectares	Amount (in Rs. lakhs)	Area in hectares	Amount (in Rs. lakhs)
1974 — 75	846	5.47	80	0.34	35	0.25
1975 — 76	1,367	13.14	194	0.45	192	1.90
1976 — 77	1,570	9.62	250	0.46	186	1.76
1977 — 78	1,322	6.08	57	0.10	51	0.63
1978 — 79	1,373	7.91	4	0.17	88	0.56
Total ..	6,478	42.22	594	1.52	552	5.10

MINERALS AND MINING :

Pudukkottai district is not gifted with mineral wealth. There are no mineral deposits worth mentioning in the entire area of the district. However, a narrow belt of good grade feldspar and quartz is reported to be available in Kulattur taluk. Pink granite deposit is reported to be available in Ponnamaravati area of Tirumayam taluk. The reserves of limestone reported to be available in Adhanakottai area of Alangudi taluk is estimated at about 8,230 tonnes and the present level of exploitation is only 200 tonnes.

ELECTRICITY AND POWER :

Pudukkottai district is one of the few districts in the country where all the villages and towns have been electrified. Arantangi and Tirumayam taluks have been declared by the Government of Tamil Nadu as industrially backward areas entitling new industries to be set up there to a 15 per cent reduction in the power tariff. The average power consumption is 42.91 million units in the district and the district draws power from the Mettur Power House.

LAND AND LAND USE PATTERN :

A little less than half of the total geographical area of the district is being utilised for cultivation and the net area sown is 209,424 hectares. About 3.2 per cent of the total area is sown more than once and the gross cropped area is 224,310 hectares. Further details of land utilisation (as of 1979-80) are as given below :

P—3

Sl. No.	Particulars	Area in hectares	Percentage to the total
1.	Total geographical area	466,130	100.00
2.	Forest	23,999	5.1
3.	Land not available for cultivation		
	(a) Barren uncultivable land	9,803	2.1
	(b) Land put to non-agricultural uses ..	125,792	26.9
4.	Cultivable waste	13,724	2.9
5.	Permanent pastures and other grazing lands ..	5,482	1.2
6.	Land under miscellaneous tree crops and groves not included in the net area sown	8,320	1.8
7.	Current fallows	47,056	10.1
8.	Other fallows	22,530	5.0
9.	Net area sown	209,424	44.9
10.	Area sown more than once	14,886	3.2
11.	Total cropped area ..	224,310	48.1

IRRIGATION :

The gross area irrigated is 119,808 hectares including 10,884 hectares irrigated more than once. The source of irrigation for this area is the Cauvery river Project Canal. The remaining area of the district is dependent on monsoon. There are about 5,265 irrigation tanks which cover an area of 85,667 hectares. There are 27 Government canals having a length of 77 kms. The net area irrigated by these canals is 11,837 hectares. There are about 179 tube wells and 48,058 ordinary wells and net area irrigated by these wells is 10,864 hectares.

Thiruvarangulam, Arimalam, Gandarvakottai, Pudukkottai, Arantangi and Avadaiyarkovil blocks are better placed in respect of availability of ground water resources.

AGRICULTURE :

Agriculture is the main occupation of the people in the district. The important food crops grown in the district are paddy, varagu, ragi, maize and cholam; the important commercial crops grown are groundnut and sugarcane. Jack fruits are grown extensively in Karambakudi and Thiruvarangulam blocks and mangoes in Arimalam block. Palmyrah palms grow in large number in the district, particularly in Arantangi taluk. In parts of Tirumayam taluk (especially in Ponnamaravati block), grape cultivation is being taken up by some peasants. The details of area under different crops in 1979-80 in the district are as given below:

<i>Crop</i>	<i>Area in hectares</i>	<i>Percentage to total cropped area</i>
Paddy ..	121,331	54.1
Cholam ..	3,194	1.4
Cumbu ..	1,123	0.5
Ragi ..	4,284	1.9
Varagu ..	15,625	7.0
Chillies ..	1,739	0.8
Sugarcane ..	1,008	0.4
Groundnut ..	48,572	21.7
Pulses ..	6,551	2.9
Cashew ..	9,966	4.4
Coconut ..	1,484	0.7
Others ..	9,433	4.2
Net cropped area	224,310	100.0

The cropping pattern in the district is found to vary with the fertility of the soil and the availability of water for irrigation purposes. The normal practice in the district is to raise a short duration crop first and then a long duration crop in an year.

ANIMAL HUSBANDRY :

The cattle wealth of a district is important to improve its agricultural resources. The important subsidiary activities carried on by the cultivators and agricultural labourers are dairying, sheep rearing and poultry. The livestock population of the district as in 1977 was 974,635 which includes 566,562 cattle and buffaloes, 272,707 sheep, 128,965 goats, 4,790 pigs and also 756,102 poultry.

There are 17 veterinary dispensaries, 20 key village centres and 81 veterinary sub-centres besides the veterinary hospital in the district. The district has two poultry extension centres situated at Thiruvarangulam and Machuvadi. There is a bull station which supplies semen to the veterinary institutions for carrying out the artificial insemination work.

DAIRY FARMING :

Dairying is one of the major subsidiary occupations which offers immense scope for development in the district. Alangudi taluk, Tirumayam taluk and part of Kulattur taluk are important potential areas for development. The grazing land available in many blocks offers good scope for this activity.

There are about 31 milk supply co-operative societies which are affiliated to Pudukkottai milk supply co-operative union of which 21 societies are functioning and supplying milk to the union in the district. At the end of the year 1979, there was only one cooling plant with a capacity to handle 720 litres per day at Pudukkottai town. The Pudukkottai Milk Supply Union, the District Livestock Farm and the private dairy units which supply milk to consumers in town are unable to meet the entire demand for milk. In contrast to a heavy demand of 56,000 litres per day, the total production of milk in the district is around 12,500 litres per day. As such, dairy farming has a big expansion programme on hand to meet the existing and rapidly accelerating demand for milk.

SHEEP REARING :

Sheep rearing in the district is another important subsidiary activity for a large number of small farmers. The cost of maintaining sheep is comparatively low. Intensive sheep farming is done in Arantangi, Avadaiyarkovil, Ponnamaravati, Viralimalai and Thiruvarangulam blocks. Kilkarisal and Ramnad white are the two suitable breeds of sheep for rearing in the district. In contrast to the heavy demand, the production of meat per annum is very low, being around 500 tonnes. The skins are exported outside the state. The availability of pastures and forests

in Alangudi, Pudukkottai and Arantangi taluks enhance the potential for developing sheep rearing activities. Though this district has a fairly large number of sheep population, scientific sheep farming is not being practised. It is one of the gainful activities which has been steadily promoted since it is quite popular among small farmers, marginal farmers and landless labourers.

The small farmers development agency and Integrated Dryland Area Development Project operating in the district are popularising sheep rearing activity among small and marginal farmers and have made provision for subsidy to the participating farmers through banks.

FISHERY :

The length of coastal line of Pudukkottai district is small when compared to other coastal districts of Tamil Nadu. There are about 15 major fishing villages situated along the coast-line in Arantangi taluk of Pudukkottai district. About 2,000 fishermen are actively engaged in fishing. Fishing operation is mostly carried out by country boats numbering about 720. However, in recent years, machanised boats have been introduced and at present about 45 machanised fishing boats are used by fishermen.

The important fish landing centres are Kottaipattinam, Ammapattinam, Pudupattinam, Muttukkadu, Gopalapattinam, Krishnajiattinam and Kattumavadi. The annual fish catch is estimated at about 6,500 tonnes. The main varieties of fish landed are skates, cat fish, prawns, mackerels and scienids. The catch is sold at interior markets like Pudukkottai town, Arantangi town and Avadaiyarkovil town etc. About half of the quantity of catch is salted, cured and sold to the interior markets. Better marketing facilities would improve the income of the fishermen considerably.

There are 10 marine fishermen's co-operative societies with 2,200 members. Inland fishing is mainly confined to fishery tanks and ponds in Alangudi, Tirumayam and Kulattur taluks. The total quantity of fish caught from these sources is about 200 tonnes annually. This is marketed as fresh fish.

TRANSPORT :

There are no national highways passing through the district. The total length of roads in this district is 3,243 kms. comprising of 78.10 kms. of state highways, 434.30 kms. of major district roads and 2,730.60 kms. of panchayat roads.

As in 1979, there are 266 public carriers, 157 buses, 20 jeeps and vans, 271 private cars, 35 taxies, 8 auto-rickshaws, 401 scooters and motor-cycles registered in the district. As many as 111 bus routes serve the district of which 19 are town services.

RAILWAYS :

The total length of metre-gauge railway line in the district is about 84 kms. with 12 railway stations connecting Pudukkottai town with Tiruchchirappallias also Karaikkudi and Manamadurai in the adjacent Ramanathapuram district. Arantangi is connected with Thiruvavur in the adjacent Thanjavur district. The metre-gauge railway line from Madras to Rameswaram passes through this district. The transport handled by the railways in the district is very meagre on account of the low route length and limited potential for transportation in the hinterland. There are 152 post offices in this district including sub-post offices.

INDUSTRIES :

The district is industrially backward and the three taluks, viz. Alangudi, Tirumayam and Kulattur had already been declared by the State Government as backward area entitling industrial units to be set up there for a central subsidy of 15% on fixed capital investment. There are six large scale industries in the district as given below.

- (1) M/s. Cauvery Spinning & Weaving Mills Ltd., Cauvery Nagar.
- (2) M/s. Pudukkottai Textile Mills Ltd., Pudukkottai.
- (3) M/s. Sri Nadiambal Textile Mills Ltd., Arantangi.
- (4) M/s. Ramachandran Chemicals (P) Ltd., Kiranur.
- (5) M/s. Sundaram Industries Ltd., Pudukkottai.
- (6) The State Government Printing Press, Pudukkottai.

Among the six large scale industries mentioned above, three are located in Pudukkottai itself.

In addition to the above, the following four industries are in various stages of completion.

- (1) M/s. Simco Meters, Mathur
- (2) M/s. Southern Hydrocarbons, Nallur
- (3) M/s. Tamil Nadu Agro Industries Corporation, Ponakula
- (4) M/s. Nizam Paper and Board Mills, Alangudi.

There are 392 small scale units as on 28th February, 1979. The main industries in which they are engaged are wood based industries, tinkering, fabrication of metal products, printing and binding, manufacture of agricultural implements, manufacture of cement tiles and other cement products, automobile servicing and repairing and safety matches. A few oil and rice mills are concentrated in Alangudi taluk, Thiruvarangulam and Pudukkottai blocks.

In addition to the small scale industries, there are a number of village and cottage industries. Prominent among them are pottery, blacksmithy, carpentry, small

lime kilns, small brick kilns, basket making, rope making and synthetic gem cutting.

SOCIAL AND CULTURAL EVENTS :

There are no major social and cultural events that occurred in the district during the decade.

PLACES OF RELIGIOUS, HISTORICAL AND ARCHAEOLOGICAL IMPORTANCE INCLUDING PLACES OF TOURIST INTEREST

Sri Kokaraneswarar temple :

The rock cut cave temple of Sri Kokaraneswarar and Brahadambal at Thirukokarnam is of Mahendravarma Pallava's period.

Government museum :

The rare collections in the sections of Geology, Zoology, Paintings, Anthropology, Epigraphy and Historical Records etc. are very interesting and informative. The beautiful sculptures and bronzes of various periods are attractive items of this museum.

Sittannavasal :

This ancient abode of Jains dating back to the 2nd century B.C. is about 16 kms. from Pudukkottai. The rock-cut cave temple with its beautiful frescoes and paintings in natural colours as in Ajantha in Maharashtra and stonebeds known as Eladipattam, a cave in which the Jain monks were said to have sought refuge in those days are the main attractions.

There are a few sculptures of Jain Thirthankaras in the Ardhamandapam and the inner shrine of the cave temple. The ceiling of the Ardhamandapam contains fresco paintings of the 7th Century A.D. Inscriptions of the 9th-10th century A.D. are also found in the cave. The cave temple is said to have been excavated in the 7th century A.D. by the Pallava King Mahendravarman. In the area around Sittannavasal, there are many historical burial sites consisting of Kurangupatarai, cairns, burial urns and cists etc.

Kudumiyamalai :

It is 20 kms. from Pudukkottai. There are beautiful sculptures and thousand-pillar hall in the temple. The presiding deity is Sikhagiriswarar. The temple is noted for numerous inscriptions. Remarkable among them is the one relating to a musical treatise of the Mahendra varma Pallavan who experimented the saphthaswara in a veena called Parivardini with 8 strings. There is also a rock-cut temple called Melakkoil which was excavated during the time of Mahendra varma Pallavan.

The Anna Agricultural Farm and Agriculture Research Institute are the other interesting features of this place. In fact these institutions took shape as a result of the special efforts of the former Director of Census Operations, Shri K. Chockalingam who was the then Collector of Tiruchchirappalli in the pre-bifurcation period of the two districts of Tiruchchirappalli and Pudukkottai.

Kodumbalur :

This place, also known as Muvarkoil is 36 kms. from Pudukkottai and 42 kms. from Trichy. It was formerly the seat of Irukkavelirs who were related to Cholas. Out of the three shrines of Muvarkoil, only two exist now. These temples were built by Budhi Viramakesan in the 10th century A.D. The architecture of this temple is unique among the South Indian temples. The sculptures of Kalarimurthi, Gajasamharamurthi, Ardhanari and Gangadaramurthi etc. are interesting masterpieces of art. This place was noted for the production of metal vessels and plates. Nearby is the Muchukundeswarar temple of the early Chola period.

Viralimalai :

This town lies north-west of Pudukkottai about 40 kms. Throughout the district and even outside, this place is well known for the Subramania temple on the hill here and is said to exist before 15th century A.D. The principal idol is seated on the peacock with his consorts on either side. There is a peacock sanctuary here. Viralimalai has been mentioned in the Tamil book of hymns Thiruppugazh.

Narthamalai :

This is a place of historical importance and the headquarters of the Mutharaiya chieftains. The earliest structural stone temple, circular in shape, built by the Mutharaiyar and the Vijayalaya Choleeswaram cave temple built by the Vijayala Chola, the first king of the later Cholas are located here. The pre-historic burial grounds and the Kadambarmalai temple of this place are also of tourist importance.

Tirumayam :

This place, a taluk headquarters is 19 kms. from Pudukkottai, the district headquarters. The fort, the Siva and Vishnu temples are the tourist attractions here. The famous Vishnavite saint Thirumangai Alwar is supposed to have lived here before the 10th century. The ruins of an old fort exist here and it is said that the Poligar of Panjalarurichi was imprisoned in this before he was handed over to the British by the Tondaiman. The Sengirai forest near this place is significant for it is believed that this forest was the abode of the demoness Tataka who was killed by Sri Rama. The fort played an important role in the history of Tondaiman rulers of Pudukkottai and the British. The erection of this fort in 1687 A.D. is attributed to Sethu-

pathy Vijaya Raghunatha Tondaiman, the Sethupathi of Ramnad.

Avadaiyarkovil :

This place is a village in Arantangi taluk 14 kms. away from Arantangi and 48 kms. from Pudukkottai. This place is noted for sculptures. It is famous for its Siva temple which is dedicated to God Athmanatha and associated with the Tamil Saint Manickavasagar. The temple is supposed to have been built by this saint whose image is installed in it. It is famous as an exquisite structure. The temple is noted for its granite roof work. The sanctum sanctorum is covered with copper plate and

is similar to the Chidambaram Natarajar temple. A peculiarity in this temple is that it contains no images of the principal deities — Siva and Parvathi and that the worship is done to their pedestals. It is an important pilgrim centre in South India.

A brief analysis relating to certain population characteristics is made utilising the information collected in the Village and Town Directory and the Census data in the Primary Census Abstract. A number of tables have been designed for this purpose. The tables are generated at the district and taluk level for the rural areas and in regard to urban areas, town wise particulars are presented.

TABLE 1
Population, Number of Villages and Towns, 1981

Sl. No.	Name of taluk	Population					
		Total			Rural		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	6	6	7	8

Avadaiyarkovil	97,827	97,827	..	121,842	121,842	..	+24.55	+24.55	..
PUDUKKOTTAI DISTRICT	947,351	832,372	114,979	1,156,813	1,003,145	153,668	+22.11	+20.52	+33.65

Table 2 records the decadal changes in the distribution of population for the different taluks of Pudukkottai district. The increase in population in the district during the decade is 22.11%, as against the State average of 17.50%. Pudukkottai taluk has recorded the highest percentage of decadal

variation of population with 29.23% closely followed by Alangudi and Arantangi taluks with 28.90% and 28.11% respectively, while the lowest decadal variation of only 9.60% is found in Tirumayam taluk.

TABLE 3

Distribution of Villages by Population Ranges

Range of population	No. of villages in each range	Percentage of villages in each range
1	2	3
Below 200	92	12.32
200 — 499	130	17.40
500 — 1,999	364	48.73
2,000 — 4,999	146	19.55
5,000 — 9,999	14	1.87
10,000 and above	1	0.13
Total ..	747	100.00

Table 3 provides useful data on the distribution of villages by population ranges in the district. It is seen that the maximum number of inhabited villages viz., 364 is in the population range of 500 to 1,999 i.e., 48.73%. There is only one village (0.13%) which has a population of above 10,000.

Table 4 gives the distribution of villages in Pudukkottai district by different ranges of density.

TABLE 4

Distribution of Villages by Density

Range of density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3
Up to — 10	1	0.13
11 — 20	5	0.67
21 — 50	20	2.68
51 — 100	68	9.10
101 — 200	300	40.16
201 — 300	179	23.96
301 — 500	120	16.07
501 and above	54	7.23
Not known	..	..
Total ..	747	100.00

TABLE 5

Proportion of Scheduled Caste Population to Total Population in the Villages

Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
NIL	84	11.24
0 — 5	63	8.44
6 — 10	95	12.72
11 — 15	111	14.86
16 — 20	100	13.25
21 — 30	148	20.08
31 and above	146	19.41
Total ..	747	100.00

Table 5 shows the proportion of Scheduled Caste population to total population in the villages of Pudukkottai district. It is seen that in the percentage range of 21 to 30 of Scheduled Castes population to total population there are 148 villages, closely followed by 146 villages in the range of 31 and above, 111 villages in the range of 11 to 15, 100 more villages in 16 to 20, 95 villages in the range of 6 to 10 and 63 villages in 0 to 5 range.

TABLE 6

Proportion of Scheduled Tribe Population to Total Population in the Villages

Percentage range of Scheduled Tribe population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
NIL	715	95.71
0 — 5	28	3.75
6 — 15	2	0.27
16 — 25	2	0.27
26 — 35	..	..
36 — 50	..	..
51 and above	..	..
Total	747	100.00

Table 6 furnishes similar data of Scheduled Tribe population in the villages of Pudukkottai district. It is noted that in the percentage range of 0-5 there are as many as 28 villages (3.75%), while there is no village at all in the ranges of 26 to 35, 36 to 50 and 51 and above.

TABLE 7
Proportion of Scheduled Caste/Scheduled Tribe Population in Towns

Serial number and name of the town	Total Population	Total Scheduled Caste Population	Total Scheduled Tribe Population	Percentage of Scheduled Caste Population to total population	Percentage of Scheduled Tribe Population to total population
(1)	(2)	(3)	(4)	(5)	(6)
1. Alagapuri	3,055	177	..	5.79	..
2. Alangudi	8,634	756	5	8.76	0.06
3. Arantangi	23,227	909	169	3.91	0.73
4. Iluppur	8,679	1,350	3	15.55	0.03
5. Kadiapatti	4,028	752	..	18.67	..
6. Kiranur	6,626	644	11	9.72	0.17
7. Ponnamaravati	11,467	412	..	3.59	..
8. Pudukkottai	87,952	7,825	111	8.90	0.13
ALL TOWNS ..	153,668	12,825	299	8.35	0.19

Table 7 gives the proportion of Scheduled Caste and Scheduled Tribe population in the various towns of Pudukkottai district. It is seen that Kadiapatti town has recorded the highest percentage of Scheduled Caste population with 18.67%, while Arantangi town has registered the highest percentage of Scheduled Tribe population with 0.73%. In Ponnamaravati town, the percentage of Scheduled Caste population is the lowest with only 3.59% and in Iluppur Town, the percentage of Scheduled Tribe population is only 0.03%, while in Alagapuri, Kadiapatti and Ponnamaravati towns, there are no Scheduled Tribes at all during the 1981 Census.

TABLE 8
Literacy Rates by Population Ranges of villages

Range of population	No. of villages in each range	Literacy rate
(1)	(2)	(3)
Below 200	92	29.14
200 — 499	130	32.34
500 — 1,999	364	31.07
2,000 — 4,999	146	36.44
5,000 — 9,999	14	45.45
10,000 and above	1	48.36
Total ..	747	34.88

This table shows the literacy rates by different population ranges of villages in Pudukkottai district. The literacy rate of the rural population of Pudukkottai district is 34.88%. The highest literacy rate of 48.36% is seen in the highest population range of 10,000 and above, while the lowest literacy rate of 29.14% is found in the smallest population range 'below 200'.

TABLE 9
Literacy Rates for Towns

Sl.No. and name of the town	Literacy Rate
(1)	(2)
1. Alagapuri	56.69
2. Alangudi	59.59
3. Arantangi	64.24
4. Iluppur	53.16
5. Kadiapatti	55.16
6. Kiranur	59.48
7. Ponnamaravati	61.55
8. Pudukkottai	66.08
All Towns	63.61

Table 9 furnishes the literacy rates of all the Census towns of Pudukkottai district. The literacy rates in the urban areas vary roughly between 53 to 66%. It is however seen to be highest with 66.08% at Pudukkottai and the lowest with 53.16% at Iluppur.

6.	Avadaiyarkovil	143	113 (69.93)	24 (16.78)	143 (100.00)	40 (27.97)	13 (9.09)	44 (30.77)	75 (52.45)	138 (96.50)
Total ..		747	633 (84.74)	157 (21.02)	747 (100.00)	301 (40.29)	55 (7.36)	350 (46.85)	447 (59.84)	724 (96.92)

The above table furnishes the taluk-wise distribution of inhabited villages according to the availability of different amenities. The amenity of education in Pudukkottai district is available in 633 villages out of the total 747 which works out to 84.74%. In Kulattur and Alangudi taluks, the primary school facilities are higher than the other taluks recording more than 90% in both the taluks. Regarding the medical facility, Pudukkottai district has recorded 21.02% as only 157 of the total 747 villages are provided with

the medical facilities. All the inhabited villages of this district possess the drinking water facility. Among the other amenities, power supply is enjoyed by 724 villages which works out to 96.92%. Pucca Road and communication facilities are available in this district for 447 and 350 villages respectively. Similarly, post and telegraph offices are working in about 301 villages out of the total 747 recording a percentage of 40.29.

TABLE 12

Total ..		10,03,145	9,72,479 96.94	3,67,660 36.65	1,003,145 100.00	6,38,950 63.69	1,56,076 15.56	6,39,282 63.73	7,36,178 73.39	9,96,593 99.35

This table furnishes the proportion of rural population of inhabited villages served by different amenities. Of all the facilities available in the inhabited villages, the amenity of drinking water is enjoyed by all the inhabited villages of this district. Power supply and education are available to 99.35% and 96.94% of the rural population respectively. Among other amenities, the market/hat facility is available to a low percentage of 15.56 of the rural population.

TABLE 13
Distribution of villages not having certain amenities, arranged by distance ranges from the places where these are available

Villages not having the amenity of	Number of villages where the amenity is not available and available at a distance of			
	Less than 5 Kms.	5-10 Kms.	above 10 Kms.	Total (Cols. 2-4)
(1)	(2)	(3)	(4)	(5)
1. Education ..	112	2	..	114

3. Drinking Water ..	..	..	..	..
4. Post and Telegraph ..	401	43	2	446
5. Market/Hat ..	348	193	151	692
6. Communication ..	360	36	1	397

The above table furnishes the distribution of villages not having certain amenities, arranged by distance ranges from the places where such facilities are available. Out of 747 villages in Pudukkottai district, educational facilities are

available in 633 villages and for the remaining 114 villages, they are available at a distance of less than 5 kms for 112 villages and at 5-10 kms. for 2 villages. Similarly, medical facility is available at a distance of less than 5 kms for 342 villages, at 5-10 kms. for 189 villages and at over 10 kms. for 59 villages. Regarding post and telegraph facilities, 446 villages in this district are not having this amenity in the

village itself, but they are available at a distance of less than 5 kms. for 401 villages, at 5-10 kms for 43 villages and at over 10 kms. for 2 villages. The amenity of communication is available for 397 villages at different distances viz. at less than 5kms. for 360 villages at 5-10 kms for 36 villages and at over 10 kms. for one village.

TABLE 14
Distribution of villages according to the distance from the nearest town and availability of different amenities

Distance Range from the nearest town (in Kms.)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
		Education	Medical	Drinking Water	Post & Telegraph	Market/Hat	Communication	Approach by Pucca Road	Power Supply
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
Up to 5	67	61 (91.04)	14 (20.90)	67 (100.00)	31 (46.27)	4 (5.97)	34 (50.75)	54 (80.60)	66 (98.51)
6 — 15	258	223 (86.43)	61 (23.64)	258 (100.00)	107 (41.47)	16 (6.20)	133 (51.55)	167 (64.73)	247 (95.74)
16 — 50	422	349 (82.70)	82 (19.43)	422 (100.00)	163 (38.63)	35 (8.29)	183 (43.36)	226 (53.55)	417 (97.39)
51 and above	..	..	..	..	..	..	..	..	..
Unspecified	..	..	..	..	..	..	..	..	..
Total ..	747	633 (84.74)	157 (21.02)	747 (100.00)	301 (40.29)	55 (7.36)	350 (46.85)	447 (59.84)	724 (96.92)

This table furnishes the distribution of inhabited villages according to the distance from the nearest town and availability of different amenities. All the 747 inhabited villages in this district are having some sort of amenities of education, medical, drinking water, post and telegraph offices, market/hat, communication, approach roads and electric power supply. There are 67 villages located in the distance range of 5 kms. and below from the nearest town. Of these the amenities of education and power supply are

available to 61 villages (91.04%) and 66 villages (98.51%) respectively. Similarly, there are 258 villages that are located in the distance range of 6-15 kms. and the percentages of power supply and education are 95.74 and 86.4% viz. 247 and 223 villages respectively. The third category of 422 villages that are situated in the distance range of 16-50 kms. enjoy the amenities of power supply and education to the highest and the medical and market/hat facilities to the lowest. The percentages of villages with the above four amenities are 97.39, 82.70, 19.43 and 8.29 respectively

TABLE 15

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

Population range	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of							
		Education	Medical	Drinking Water	Post and Telegraph	Market/Hat	Communication	Approach by pucca road	Power Supply
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
Up to 499	222	128 (57.66)	19 (8.56)	222 (100.00)	30 (13.51)	10 (4.50)	54 (24.32)	78 (35.14)	202 (90.99)
500 — 1,999	364	345 (94.78)	66 (18.13)	364 (100.00)	139 (38.19)	18 (4.95)	178 (48.90)	240 (65.93)	361 (99.18)
2,000 — 4,999	146	145 (99.32)	58 (39.73)	146 (100.00)	118 (80.82)	24 (16.44)	106 (72.60)	115 (78.77)	146 (100.00)
5,000 and above	15	15 (100.00)	14 (93.33)	15 (100.00)	14 (93.33)	3 (20.00)	12 (80.00)	14 (93.33)	15 (100.00)
Total	747	633 (84.74)	157 (21.02)	747 (100.00)	301 (40.29)	55 (7.36)	350 (46.85)	447 (59.85)	724 (96.92)

This table shows the distribution of inhabited villages according to different population ranges and amenities available. More number of villages among the total of 747 come under the population range of 500—1999, viz. 364 villages. Of these, the amenities of education and power supply are available in 345 and 361 villages respectively, the percentages being 94.78 for education and 99.18 for power supply. The amenity of drinking water is available in all the 364 villages which fall under the population range of 500—1999. 146 villages fall under the population range of 2,000 — 4,999 and have the amenities of education (99.32%), medical (39.73%), post and telegraph (80.82%), market/hat (16.44%), communication (72.60%), pucca road (78.77%) and power supply (100.00%). 15 villages are in the population range of 5,000 and above, and all of them possess the amenities of education, drinking water and power supply.

TABLE 16

Main Staple Food in the Majority of Villages in each Taluk

Sl. No.	Name of Taluk	Main Staple Food
(1)	(2)	(3)
1	Kulattur	Rice & Millets
2	Pudukkottai	Rice
3	Alangudi	Rice & Millets
4	Tirumayam	Rice & Millets
5	Arantangi	Rice, Cholam, Millets & Ragi
6	Avadaiyarkovil	Rice, Ragi & Cholam

Table 16 furnishes the main staple food in terms of grains consumed by the majority of the population of the villages in each taluk. There are six taluks in this district and rice is being consumed as the main staple food in all the taluks. In Pudukkottai unlike other taluks, rice is the only staple food. Millets are found in use along with rice in the taluks of Kulattur, Alangudi, Tirumayam and Arantangi. Cholam and Ragi are the additions to the usual food of rice in Arantangi and Avadaiyarkovil taluks.

TABLE 17

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE

Sl.No.	Name of Taluk	No. of inhabited villages	Total area (In hectares)	Percentage cultivable area to total area	Percentage of irrigated area to total cultivable area
(1)	(2)	(3)	(4)	(5)	(6)
1.	Kulattur	160	1,30,501.04	69.34	28.58
2.	Pudukkottai	77	61,654.17	71.35	27.70
3.	Alangudi	119	62,362.85	79.52	32.82
4.	Tirumayam	129	84,387.12	65.95	27.14
5.	Arantangi	119	47,641.16	60.26	52.49
6.	Avadaiyarkovil	143	64,774.88	50.62	69.99
Total		747	4,51,321.22	66.74	35.67

This table gives the distribution of inhabited villages according to land use. The total area of the 747 inhabited villages is 451,321.22 hectares of which the percentage of the cultivable area to the total area works out to 66.74. The percentage of the irrigated area to the total cultivable area is 35.67. The villages of Alangudi taluk possess the maximum of cultivable area recording 79.52%, the next two important taluks being Pudukkottai and Kulattur marking 71.35% and 69.34% respectively. Avadaiyarkovil taluk has recorded the lowest percentage of the cultivable area viz. 50.62 percent. The district is generally dry and the total irrigated area is only 35.67%. Avadaiyarkovil taluk has recorded the highest in the ratio of irrigated area and the lowest is Tirumayam taluk viz. 27.14%. Arantangi and Avadaiyarkovil taluks are comparatively better in irrigation facilities.

TABLE 18

GROWTH, DENSITY AND SEX RATIO OF URBAN POPULATION IN THE DISTRICT IN RELATION TO THE STATE

DISTRICT							STATE					
Census year	Total population	Urban population	Percentage of Urban population	Decadal percentage variation in Urban population	Density (population per sq. km.)	Sex ratio (No. of females per 1,000 males)	Total population	Urban population	Percentage of Urban population	Decadal percentage variation in urban population	Density (population per sq.km.)	Sex ratio (No. of females per 1,000 males)
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)
1951	7,04,102	83,276	11.83	..	..	1,019	30,119,047	7,333,525	24.35	..	..	986
1961	7,50,461	95,158	12.68	+14.27	1,064	997	33,686,953	8,990,528	26.69	+22.59	1,722	963
1971	9,47,351	1,14,979	12.14	+20.83	2,072	984	41,199,168	12,464,834	30.26	+38.64	2,115	951
1981	1,156,813	1,53,668	13.28	+33.65	2,739	979	48,408,077	15,951,875	32.95	+27.98	2,722	956

It may be observed from Table 18 that the percentage of urban population to total population in Pudukkottai district has gone up from 11.83% in 1951 to 13.28% in 1981. During the period, the corresponding proportion of the State percentage has gone up from 24.35% to 32.95%. The sex ratio (Number of females per 1,000 males) in the urban areas of Pudukkottai district is 979 which is more than that of the State i.e. 956. It may be observed that in all censuses, the sex ratio in the urban areas of Pudukkottai district is higher than that of Tamilnadu.

TABLE 19

NEW TOWNS/TOWNS DECLASSIFIED IN 1981 CENSUS

Name of Town	Population 1981 Census
(1)	(2)
(a.) Added	
(i) Kiranur	6,626
(b.) Declassified	
— NIL —	

Table 19 reveals that only one town has been recognised as a new town in Pudukkottai district during 1981, while no town has been declassified as rural.

TABLE 22

NO. OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS

Sl. No., class, name and civic status of the town	No. of beds in medical institutions per 1,000 population
(1)	(2)
1. VI Alagapuri (GP) ..	3.27
2. V Alangudi (NP) ..	1.85
3. III Arantangi (M) ..	1.72
4. V Iluppur (NP) ..	1.84
5. VI Kadiapatti (GP) ..	1.49
6. V Kiranur (NP) ..	1.96
7. IV Ponnamaravati (NP) ..	4.53
8. II Pudukkottai (M) ..	3.71
All Towns ..	3.12

Table 22 gives the number of beds in medical institutions per 1,000 population in each town. The district average is 3.12 beds per one thousand of urban population. Almost all the towns in Pudukkottai district where bed facilities are available in the hospital. Of the 8 towns, 3 towns have higher proportion of beds per one thousand population than the district average (i.e. exceeding 3.12) the highest being 4.53 in Ponnamaravati Town Panchayat)

TABLE 23

PROPORTION OF SLUM POPULATION IN TOWNS*

Class, name and civic status of the town*	Proportion of the slum population to the total population of the town	Density in slums (Per sq.km.)
(1)	(2)	(3)
II Pudukkottai (M)	10.92	51,585

* For towns of 50,000 population and above

It is seen from the table 23 which furnished the proportion of slum population in towns, that only Pudukkottai Municipal town has slums. The proportion of the slum population to the total population of the town is 10.92. The density per sq.km. is being 51,585.

Table 20 furnishes the per capita receipt and expenditure in each town. On receipt side, the receipt through taxes and from other sources are furnished, while on the expenditure side, the total expenditure incurred on general administration, on public health and conveniences, public works, public institutions and on other aspects are furnished. Out of 8 towns in Pudukkottai district in 6 towns the expenditure is less than the receipt.

TABLE 21

SCHOOLS PER TEN THOUSAND POPULATION IN TOWNS

Sl. No., class, Name and civic status of the town	No. Per Ten Thousand Population				
	Higher Secondary/ Inter/ PUC/Junior College	Secondary /Matriculation	Junior Secondary/ Middle	Primary	
(1)	(2)	(3)	(4)	(5)	
1. VI Alagapuri (GP)	..	3.27	3.27	3.27	
2. V Alangudi (NP) ..	1.16	1.16	3.47	3.47	
3. III Arantangi (M)	0.43	0.43	1.29	3.44	
4. V Iluppur (NP) ..	1.15	1.15	1.15	2.30	
5. VI Kadiapatti (GP)	..	2.48	2.48	9.93
