Appendix—I Talukwise Abstract of Educational, Medical and Other Amenities		276-278
Appendix—II Land utilisation data in respect of non-municipal Towns		280-281
Appendix—III Talukwise list of Villages where no Amenities are available		281
Appendix—IV List of Villages according to the proportion of Scheduled Castes and Scheduled Tribes to the Total Population by ranges		282-327

SECTION II-TOWN DIRECTORY

Note explaining the codes used in the Town Directory.	330-331
Statement—I Status and Growth History	332-335
Statement—II Physical Aspects and Location of Towns, 1979	336-339
Statement—III Municipal Finance, 1978-79	340-345
Statement—IV Civic and Other Amenities, 1979	346-349
Statement—IV-A Civic and Other Amenities in Notified Slums, 1979	350-357
Statement—V Medical, Educational, Recreational and Cultural Facilities, 1979	358-363
Statement—VI Trade, Commerce, Industry and Banking, 1979.. .. .	364-367
Appendix—Towns showing their out-growths with Population	368

Responsibility for the correctness of internal details shown in the maps rests with the publishers.

FOREWORD

The District Census Handbook (DCH), compiled by the Census Organisation on behalf of the State Government, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to district administration. The District Census Handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The District Census Handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census, the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series, some new features along with restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referent village, the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect, particularly in relation to amenities and land-use pattern, is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well, so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices, listing the villages where no amenities are available and according to the proportion of Scheduled Caste and Scheduled Tribe population to the total population, has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few items. A new statement of civic and other amenities in slums in Class I and Class II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Caste and Scheduled Tribe population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the

town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the Primary Census Abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the Individual Slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series, it has been so designed that part A of the volume contains village and town directory and part -B the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto taluk/town levels. At the beginning of the DCH, a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk level maps, depicting the boundaries and other important features, have been inserted at appropriate places to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri A. P. Muthuswami, I.A.S., the Director of Census Operations, Tamil Nadu on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua Senior Research Officer. I am thankful to all who have contributed in this project.

NEW DELHI,
The 26th April, 1982.

P. PADMANABHA,
Registrar General, India.

PREFACE

It has been the tradition of the Government of Tamil Nadu to publish immediately after each Census, a District Census Handbook separately for each district containing the census statistics, besides other valuable data of local importance for the use of the State Government, district administration, research scholars and other data users. The first series of District Census Handbooks were brought out immediately after the 1951 Census and the present publication after the 1981 Census is the fourth in the series.

The Census statistics presented in this publication were collected during the census operations in February—March 1981, as at the sun rise of the 1st March 1981. The other statistics in this publication have been collected from various departments of the State and Central Governments.

This publication consists of the following two parts:—

Part A—Village and Town Directory ; and

Part B—Village and Townwise Primary Census Abstract.

Taking into account the increasing and varied developmental and other welfare measures undertaken by the Government, the scope and content of the data in this publication have been considerably enlarged and improved to meet the requirements of the planners and the other data users. In particular, certain inset tables based on census and other data have been included in this publication with brief analytical notes thereon.

This publication contains a brief history of the district highlighting the major characteristics of the district in relation to the economic resources like forestry, minerals, etc., besides the social, cultural, religious and historical aspects. The district and taluk maps in this publication give the administrative units up to village level, the rural and urban units, the location of towns and cities, communication facilities and other related details.

The facilities and amenities available in respect of education, medical, drinking water, post and telegraph, markets, communication, etc., in each village and town have been included in this publication and an important feature is that wherever the above facilities and amenities are not available in any particular village/town, the nearest place where they are available has also been reported.

Another interesting feature in this publication is that villages with none of these amenities have been listed out separately for the pointed attention of the planners and administrators.

Certain tables present data exclusively in respect of the weaker sections of the society belonging to the Scheduled Castes and Scheduled Tribes.

The land use pattern in respect of rural and urban areas have also been reported in this publication which would meet the requirement of micro level planning for rural and urban areas.

The data in respect of urban areas, apart from the medical and other facilities available, relate to the growth of towns, the availability of protected water-supply and what is important, the civic amenities available in the slums of the urban areas.

Part B of this volume consists of the District and Village/Townwise Primary Census Abstract, followed by Primary Census Abstract for Scheduled Castes and Scheduled Tribes.

The District Primary Census Abstract gives for each territorial unit upto taluk level in the case of rural areas and upto the town level for urban areas, occupied residential houses, households, the total population, the Scheduled Caste and Scheduled Tribe population, workers, etc., thereby indicating the basic socio-economic characteristics of the population for the territorial units. The village and townwise Primary Census Abstract gives similar information for villages and wards of towns. Besides, there is an Appendix which furnishes at urban block level, the total population and the Scheduled Caste and Scheduled Tribe population.

I am grateful to the Collectors and other district officers and Departments of the State Government who have extended their unfailing co-operation and help in collecting the voluminous and useful data other than Census, for their presentation at one place in this publication, for the ready reference of the data users.

In bringing out this publication, I have received assistance from Sarvashri M. Thangaraju and M. Nagappan, Deputy Directors and Shri J. Thomas Machado, Assistant Director of Census Operations, besides a large number of staff members of this Directorate.

In formulating the scope and content of the data in this publication and designing the formats for presentation of the data, I have received valuable guidance from Shri P. Padmanabha, Registrar General, India. The encouragement I have received from him at every stage of the work has contributed in a great measure to the successful publication of this District Census Handbook.

I hope the data in this volume would be found useful and the publication well received by the administrators, academicians planners and other data users.

A. P. MUTHUSWAMI,
Director of Census Operations,
Tamil Nadu.

MADRAS,
July, 1983.

ACKNOWLEDGEMENT

I have pleasure in acknowledging the able assistance given by the following officials of my office in the preparation of this volume.

ANALYTICAL NOTE.

Census Concepts

Rural and Urban areas.—Census figures are generally presented separately for rural and urban areas. In the 1981 Census, the definition of an urban unit is more or less the same as in the 1961 and 1971 Censuses but for some minor variations. The urban areas of 1981 Census are :

(a) All places with a Municipality, Corporation or Cantonment Board or notified town areas :

(b) All other places which satisfied the following criteria :

(i) A minimum population of 5,000.

(ii) At least 75 per cent of the male working population engaged in non-agricultural (and allied) activity :

(iii) A population of at least 400 per Km² (or one thousand per square mile).

The above definition of urban area varies slightly from that of 1961 and 1971 Censuses in that the males working in activities such as fishing, logging, etc., were treated as engaged in non-agricultural activity and therefore contributed to the 75 per cent criterion in the 1961 and 1971 Censuses, whereas in the 1981 Census, these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion. The rest of the areas not treated as urban are classified as rural areas.

Urban Agglomeration.—Urban Agglomeration is a new concept formed during 1971 Census and this replaces the concept of town group adopted in 1961 Census. An Urban Agglomeration may be explained as follows, "It must form a continuous urban spread constituting a town and its adjoining urban outgrowth or two or more physically contiguous towns together with continuous well recognised urban outgrowth, if any, of such towns."

Census House.—A Census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

Household.—A household is a group of persons who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented any of them from doing so.

Scheduled Castes/Scheduled Tribes.—For the enumeration of Scheduled Castes and Scheduled Tribes in Census, the names of Scheduled Castes and Scheduled Tribes as recognised in Tamil Nadu based on the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act of 1976 (Central Act 108 of 1976) were followed. The enumerators were instructed to record a person as a Scheduled Caste/Scheduled Tribe provided the name given by the person was found in the list supplied to them.

Literates.—In 1981 Census, a literate was defined as "a person who can both read and write with understanding in any language". A person who could merely read but cannot write, was not a literate. It was not necessary that a person considered a literate must have received any formal education or have passed any minimum educational standard.

Work.—Work has been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involve not only actual work but also effective supervision and direction of work.

Main Workers and Marginal Workers.—A worker was identified with reference to a reference period preceding the census. The reference period prescribed was one year preceding the date of enumeration. Certain types of work such as agriculture, household industries like gur making, etc., were carried on, either throughout the year or only during certain seasons or part of the year, depending on local circumstances. In such cases, what we were concerned with, was the broad time span of the agricultural seasons preceding the enumeration. Workers can be full-time workers or seasonal workers or marginal workers. If a person has done any work during the reference period and if he had worked for the major part of the year i.e., if he had worked for 183 days or more, he was considered to be a full-time worker (main worker). If a person had done any work during the reference period and if he has not worked for the major part of the year i.e., if he had worked for less than 183 days, he was considered to be a marginal worker.

The main activity of workers has been classified into four categories viz., cultivator, agricultural labourer, household industry and other work.

Cultivator.—For purposes of Census, a cultivator is a person who is engaged either as an employer, single worker or family worker in cultivation of land owned or held from Government, private persons or institutions, for payment in money, kind or share. Cultivation includes supervision and direction of cultivation.

Agricultural Labourer.—A person who works in another person's land for wages in money, kind, or share should be regarded as an agricultural labourer. He or she has no risk in the cultivation but merely works in another person's land for wages and has no right of lease or contract on land on which he or she works.

Household Industry.—For a person who returns his/her main activity as engaged in some production, processing, servicing or repair of articles or goods, it has been ascertained whether it is a household industry.

Household industry is defined as an industry conducted by the head of the household and/or by the members of the household at home or within the village in rural areas and within the precincts of the house in urban areas. A larger proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would, or has to, be registered under the Indian Factories Act.

Non-Workers.—All persons who have not been treated as workers i.e.; persons who have not worked any time at all during the reference period of one year preceding the date of enumeration, have been considered as non-workers. These cover all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year, full-time students and children attending school, all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age, persons retired from service or rentiers, beggars, vagrants, convicts in jails or inmates of penal, mental or charitable institution and all non-workers who may not come under any of the above categories.

HISTORY OF THE DISTRICT CENSUS HANDBOOK:

After the Census of 1951, the Government of India offered to hand over to the State Government the Census tables and other data prepared during the Census and suggested that they might be published along with any other useful information relating to each district. The State Government accepted the proposal, and the first publication of the District Census Handbook was brought out at the State Government cost.

The District Census Handbook of 1951 was found to be very useful and it was therefore decided not only to continue the series for the 1961 Census but also to improve definitely on its content so that each District Census Handbook contained certain basic economic data for the smallest administrative unit in the district and be a useful reference book for scholars and other data users.

After the 1971 Census as well, the series of District Census Handbook was continued. The publication of the 1971 Census Handbook was in three parts, viz., Part-A, Part-B and Part-C. Part-A relating to Village and Town Directory, Part-B relating to Village and Townwise Primary Census Abstract and Part-C comprising District Census Tables and certain administrative statistical tables.

The tradition of bringing out the Census Handbook has been continued by the State Government during the 1981 Census also. In this series some individual features, besides restructuring the formats of the village directory, have been adopted, bearing in mind the rational requirements of data for the socio-economic programmes of the Government. The comparability of data with the 1971 Census data has also been kept in view.

The present Census Handbook will be published in two parts, viz., Part-A—Village and Town Directory and Part-B—Village and Townwise Primary Census Abstract.

SCOPE OF PRIMARY CENSUS ABSTRACT:

The Primary Census Abstract, as it is called present, basic data for each village or segment of a village (in cases where such village segments form different panchayats) in the "Village-wise Primary Census Abstract" and for each Ward/Division of a Town in the "Urban Primary Census Abstract". The format of the Primary Census Abstract for the Villages and Towns in 1981 has been slightly modified as compared to the 1971 Primary Census Abstract.

The Primary Census Abstract gives such basic information as area in hectares/sq.km., occupied residential houses, number of households, total population, Scheduled Caste and Scheduled Tribe population, literates, main workers, division of main workers into cultivators, agricultural labourers, workers in household industry and other workers, marginal workers and non-workers in respect of each unit. The Urban/Village Primary Census Abstract gives this information for each village and each urban ward. With a view to ensure comparability and to enable data users to derive the figures either for a revenue village or panchayat according to their requirements, the data are presented for segments of villages also. Wherever, portions of one village happen to be in two or more panchayats, the segmentwise data have to be used separately or added with some other segment data so as to derive panchayat data. For example, if portions of a revenue village bearing L.C. No. 10 forms part of two panchayats, the figures are given separately for each portion of the village against L.C. No. 10a/b and b/b. The total figure for the entire revenue village is arrived at by adding the figures given against both the segments viz. 10a/b and b/b given in the Village Primary Census Abstract. If, instead, the panchayat figures are required, the data for the concerned village segment or segments relating to the panchayat concerned are to be added up to arrive at the total figure for the respective panchayat.

An Appendix presented in the case of the Urban Primary Census Abstract gives 1981 population, Scheduled Caste and Scheduled Tribe population for each enumerator block of the town. This is meant for the use of administrative and election authorities in urban areas. Such data are also required by urban planners and researchers for conducting other studies in selected blocks.

Mode of Presentation.—The consolidated figures for the district and each taluk are given in the beginning for total, rural and Urban areas followed by each town/urban agglomeration under the caption "District Primary Census Abstract". Then follows the Primary Census Abstracts for Scheduled Castes and Scheduled Tribes. An alphabetical list of revenue villages is then given along with the Census Location Code Numbers of 1981 Census, followed by the Village-wise Primary Census Abstract. In the foot note given at the end of the Village-wise Primary Census Abstract, the village included in Municipalities or Census towns are indicated. In an annexure, the names of villages and their constituent panchayats are given. Then follows the Urban Primary Census Abstract. In an appendix to the urban primary census abstract, the population and Scheduled Castes and Scheduled Tribes figures for each enumerator block of a town are given. This arrangement is followed for each taluk in the district.

Maps.—Apart from the District Map given as frontis piece, map for each taluk showing the village Location Code numbers along with their boundaries have also been included at the appropriate places. As compared with the maps presented in 1971 District Census Handbook, several improvements have been effected in the maps presented in this volume. All towns are shown in the district and taluk maps with shading screen and also spheres according to the population size of towns.

Area figures.—In the District Primary Census Abstract, the area figures are given in square kilometres for total, rural and urban areas. In the Village-wise Primary Census Abstract, the area figures for each Location Code Unit are given in hectares upto two decimals. The area figures for each town in square kilometres is also given at the end of the Urban Primary Census Abstract. In the District Primary Census Abstract, the area figures of the district total represent the "Geographical Area" figures supplied by the Surveyor-General. Figures for urban areas are those supplied by the Local Bodies and revenue authorities. The urban area of a district has been arrived by adding the urban area figures of each taluk within the district. Area figures for the rural areas of District/Taluk are derived by subtracting the urban area figures from the total area of the District/Taluk. The total of the area figures of the taluks will not tally with the district figures because the taluk area figures represent the "Land Use" area and are derived from the figures supplied by the Tamil Nadu Directorate of Survey and Land Records, while those of the district represent "Geographical Area" supplied by the Surveyor-General of India. The total of the village area given in the village wise Primary census abstract may not tally with the rural area of the taluk given in the District Primary Census Abstract as the taluk area figures take into account hills, forests, rivers, etc., where as the village area may not include the same. For conversion, the ratio is 100 hectares=1 square kilometre.

It is hoped that the pattern of presentation of basic census particulars for each district as explained above and adopted in this volume would be found convenient by data users.

MADURAI DISTRICT—AN OUTLINE.

Introduction.—An old city, Madurai emits religious fervor being a haven for peace and sanctity for its teeming millions of pilgrims who seek in this planned city. The proverbial saying "All roads lead to Rome" has its counter here with all roads leading to Meenatchi Amman temple, the erstwhile hub for all activities of art, architecture and culture, and today a honey comb for modern pilgrims-cum-tourists. The Dravidian cult of Amman Worship reasons for its presiding deity Meenatchi, Lord Siva's Consort, who has templed at this city after her marriage with her paramour. Meenatchi, in other form Sakthi has been acclaimed to have equal power, and in acceptance of this concept, Lord Siva has positioned her in His Half (Arthanareeswarar). This accepted supremacy of women is often mentioned in colloquial references as "Maduwaivedu" where the head of the household is female and "Chidambaram Veedu" where the head of the household is male. At Chidambaram Lord Nataraja is the presiding deity.

Madurai city has its past glory embedded in rich details. The three Tamil Sangams, an academy of Tamil poets and scholars, flourished here under the royal patronage of Tamil Kings some two thousand years back. The glory of its erstwhile royalties of Pandian dynasty is left in its few remnants of monuments feating the eyes of its today's tourists with awe and admiration. The successive Nayak rulers preserved their predecessors splendours with an added spice of their own.

The consolidated unit of Madurai under Pandyan and Nayak Kings disintegrated into Madurai, Ramanathapuram and Tirunelveli by hostile neighbouring petty kings and later divided by British for administrative reasons.

Madurai district consists of 13 taluks viz, Palani, Veda sandur, Nattam, Dindigul, Kodaikanal, Uttamapalaivam, Periyakulam, Nilakkottai, Melur, Madurai North, Madurai South, Usilampatti and Tirumangalam.

Madurai district is famous for its orchards, forest products and handloom weaving. Once famous for its agricultural products, it retains its agricultural tinct of economy and remains backward industrially. With the setting up of an university, new awakening has been made with facilities for modern education. Industrial estates have come up with orientation for small scale and cottage industries. This clubbed with liberalised financing by nationalised banks, and new entrepreneurial stimuli, a dimensional change in the districts economy is visible during the decade. But the fruits are yet to ripe.

Among other land marks to this district are Gandhi Ashram founded by the father of nation himself at Ambathurai near Kodaikanal. The Kodaikanal summer resort and the Swami Theandayuthapani temple at Palani hills are other notable places in the district.

The Panchamirtham of Palani temple, the locks and cigars of Dindigul, the sweet plantains of Tirumalai, grapes and vegetables of Kodaikanal, Sungudi Sarees of Madurai, Silk Sarees of Chinnampatti, Cardamom from Periyakulam, Jasmine flowers of Madurai district are memento tappers to these nostalgic about this district.

In 1981, Madurai City is the headquarters both for Madurai and Ramanathapuram districts.

History.—The early history of Madurai district is interwoven with the history of Pandyan dynasty. One version traces its past as ancient as that of Ramayana, while another to that of Mahabharatha. To find credit to this heritage the name Pandya is said to be derived from the descendants of Pandu, the father of Pandava brothers. The Sthakapurana of Madurai dates back the origin of Pandya kingdom to the immortal age linking them to Gods like Indra, Siva and Saraswathy and the sage Agasthya and weaving the sixty-four sacred spert of Siva round Madurai. Tradition has also its version that three brothers originally residing at Kerkai near the mouth of Tambraparani river in Tirunelveli district eventually separated and founded three great kingdoms and Pandyan, one of the brothers remaining at home founded the kingdom comprising the present Madurai, Tirunelveli and Ramanathapuram districts.

There is no Corroboration for all these. There are evidences to show that about the beginning of the Christian era, the Pandyan Kingdom was a settled one co-existing with the neighbouring kingdoms of Cholas and Cheras. The classical writers of Greece and Rome had acquainted with Pandyan Kingdom. From these, it is evident that Pandyan kingdom was the most powerful and prosperous. Asokan's edict mentions (250 BC) about the existence of Pandyan Kingdom in the south.

The most famous Pandian king of the Sangam age (first three centuries of the Christian era) was Nedunjelayan Talaiyalanganam. As a youth he came to the throne and proved himself of more than equal to the combination of his neighbouring kings and in one battle he defeated Chera king and made him captive. Highly religious, he respected and honoured the learned ones, had the habit of consulting all important matters with his officials.

The Sangam age was followed by an age of darkness for nearly three centuries (300—600) in the history of the south. During this period the territory was occupied by Kalabhras who professed Buddhism, tolerated Jainism and undermined Hinduism. Towards the close of the 6th century, the kingdom came again in possession of a Pandyan king, Kadungon (590—620 AD) and his son Maravarman Avanisulamani (620—625). The Pandyan glory lasted for some more generations till the Cholas overpowered Pandyan king, Maravarman Rajasimha II (905—920). For some period Madurai kingdom was under Chola rule. Again by the time of Vikrama Pandya, the kingdom came under Pandyan rule (1166 AD).

Slowly came, thereafter, the Muslims invasion, under Malik Kafur (1311 AD) and the establishment of Madurai Sultanate, partly because of frequent quarrels among the Pandyan Princes. Thus, Muslims ruled Madurai for a period of forty five years (1334—1378 AD), making an end of the Pandyan empire. The Muslim rule was not eventful, but brings to memory desecration of temples and persecution of Hindus. Their kingdom included Madurai, Ramanathapuram, Pudukkottai, Thanjavur and Tirunelveli but occasionally they were disturbed by Pandyan Princes who did not totally disappear from south.

All these petty kings however, accumulated their might under the mighty king of Vijayanagar and put an end to the Muslim rule in Madurai and all over south in the later part of fourteenth century and laid the foundation of Nayak kingdom in the time of Krishna Devaraya. By the middle of sixteenth century, the Nayaks ruled over Madurai, as Viceroys of Vijayanagar Empire. They constructed its fort and established their might and won a high position in the history of Madurai. Viswanatha Nayak (1529—1564 AD) Muthukrishnappa Nayak (1601—1609 AD), Tirumala Nayak (1623—1659 AD), Chokkanatha Nayak (1659—1682 AD) and Mangammal (1689—1706, AD) were the famous rulers of Nayak line.

During the regime of Nayak more and more waste lands were brought under cultivation, collected revenues from different sources, encouraged trade including the export of pearls and chanks, started schools, choultries and in general Hindu culture was revived and became more prosperous.

Due to various internal disturbances, mainly because of rivalry among neighbouring kingdoms, the territory fell into the hands of Carnatic Muslim rulers and remained so till the end of eighteenth century.

After the fall of Nayaks rule, Chanda Sahib of Carnatic strengthened his position in and around Madurai subjecting the King of Thanjavur to cede a portion (now Karaikkal) to French. But the King of Thanjavur and Bangaru Tirumala with the assistance of Maharashtra king conspired against Chanda Sahib. Finally, Maharashtras appeared with a large army, killed Chanda Sahib's brother who was the Governor of Tiruchchirappalli and made Chanda Sahib surrender. Chanda Sahib was taken to Satara as captive and thereafter nothing was heard. There came quick changes among Nawabs. Meanwhile one Alam Khan, a partisan of Chanda Sahib, seized Madurai and Tirunelveli. As soon as the news reached Nawab, he sent an army with the assistance of English for the recovery of the lost portion. In the battle, Alam Khan died and by 1755 Tiruchchirappalli, Madurai, Tirunelveli, etc. came under the control of British East India Company.

At the beginning of the nineteenth century, Madurai and surrounding areas came under the administration of the East India Company. From this time onwards there were no wars or other internal disturbances in and around Madurai district for few years. The territory remained under the rule of the Britishers for about 150 years.

The rising nationalism in India with popular movements started by Gandhi, father of the Nation, such as non-cooperation and other movements like Home Rule and Khilapat movements, etc. aroused the patriotic feeling among the people of Madurai. They started to assert their rights in social, economic and political spheres. It resulted in the country's attaining its Independence in 1947.

In the history of administration, the district had a patch up growth. Madurai territory came under the control of East India Company in bits. Dindigul was taken in 1790 which comprised of the present Dindigul, Palani, Periyakulam, Veda sandur and Uttamapalaivam taluks. The Nawab of Arcot gave Madurai in 1801. In 1796, East India Company appointed Mr. McLeod as Collector of Dindigul. The Collector of Madurai was appointed later in 1804. The two regions—Dindigul and Madurai remained as separate entities till a survey of the region was undertaken in the middle of 19th century. After this the district consisted of seven taluks, Tadi-kombu, Nilakkottai, Madakulam, Melur, Aiyampalle, Tenkarai and Tirumangalam. Mr. Pelly in 1860 revised the village and taluk establishments and renamed existing taluks and merged some. Kodaikanal came out as a separate taluk in 1889, carved out from the then Periyakulam and Palani taluks. Nilakkottai was again separated as a taluk from Dindigul.

Physical features :—Madurai district is extended to an area of 12,465 Km². Its contour is bound by Periyar and Tiruchchirappalli districts in the north, Ramanathapuram and Kerala in the south, Ramanathapuram along with Pudukkottai in the east and Coimbatore and Kerala on the west. It lies between 9° 30' and 10° 50' of the northern latitude and 77° 10' and 78° 30' in the eastern longitude.

Physiographically, Madurai district can be divided into the following natural divisions:—

Hilly areas.—These are constituted by parts of Palani, Kodaikanal, Periyakulam, Uttamapalaiyam taluks and part of Tirumangalam taluk with thick vegetation and perennial streams from the hills on the western side. This region forms the most fertile area of the district.

Level areas.—These are Nilakkottai and Madurai taluks, part of Melur and Nattam taluks and Tirumangalam taluk with black soil and scattered granite hills.

The clay areas—The red soil, a region of Palani, Veda sandur, Dindigul, Nattam and Melur taluks form this area.

Cumbum valley.—It lies in Uttamapalaiyam taluk.

Transport and Communication.—Madurai district is well served by roads and railways. Its total runways extends to 10,037 kms. Of this, a major portion, i.e., 6,168 kms. are surfaced. It includes 116 kms. with cement concrete. Major surface roads constitute National Highways and State Highways. The remaining are maintained by the concerned local bodies.

Madurai district enjoys comparatively good weather-conditioned roads. The easy availability of granite and quartz in most parts and quarries of other materials make it possible for good maintenance of roads. A few bridges over rivers, connect interior parts for traffic.

Its vehicular traffic is intense. A total of 6,502 public transport vehicles and 16,610 private vehicles have been registered in the district upto 1980-81. Two wheelers account for 11,975 and motor cars to 3,832. Under the public transport, lorries and trucks alone number 2,693. A total of 154 routes are being operated by Government undertakings and 405 by private owners in Madurai district. This includes various town services also in which the "Pandian Roadways Corporation" takes a major role.

Since Madurai itself is a pilgrim centre, the city serves as a transit point to pilgrims and tourists who visit Rameswaram, Cape Comerin, etc.

Transport by rail is also good. A total of 47 railway stations are located in the district. They cover four routes in metre gauge.

1. Madras — — — Tirunelveli
2. Madurai — — — Manamadurai
3. Madurai — — — Bodinayakanur; and
4. Coimbatore — — — Dindigul.

Madurai and Dindigul are junctions. Of the 13 taluks of Madurai district 10 are served with railway facility.

Madurai is connected by air to Madras, Tiruchchirappalli, Coimbatore, Cochin and Trivandrum. A daily service operates to the headquarters of the state. During summer season, Jasmine flower is being airlifted from Madurai to a number of destinations in the country.

Another major communication media is the post and telegraphs which covers the entire Madurai district with the following three divisions. 1. Madurai city 2. Madurai mofussal and 3. Dindigul. These three divisions control 1,266 post offices in different grades, out of which 226 post offices are having telegraph facilities. Telephone facilities are available in all the taluk headquarters and urban areas. Madurai city is connected to Madras on STD.

P and T Department has a relaying station at Kodaikanal in their telecommunication. A tower for transmitting national programmes of Dooradarshan is fast completing at Kodaikanal which will bring the whole of Tamil Nadu under the national hook-up of T.V. Kodaikanal is also having the Astro-Physical Research Centre equipped with the largest telescope in the country.

Hills:—Madurai district lies at the foot of western ghats and is diversified by several ranges and hills. A range of hills which runs parallel to western ghats from north to south separates the district from neighbouring Kerala state. To the north are Palani Hills and the High way mountain comprising few valleys and high mountains. Kodaikanal, a summer resort in South India next in importance to Ootacamund, stands on the Vembadi Hill on this range. The important hills are Perumal Hill (7,328 feet), Observatory Hill (7668 feet), Karumankadu Hill (8,002 feet), Vembadi Hill (8,222 feet) and Vandaravu Hill (8380 feet). Southwards of these hills are the Cumbum and Pambarai valleys which are of the most fertile areas in the district and one of the picturesque places of the whole of South India. On the eastern side of the district are Sirumalai, Karandamalai and Alagarmalai covering Nilakkottai and Melur taluks. The Sirumalai consists of a compact block with its highest peak over 4,400 feet. On the top of it there is a basin shaped plateau having few villages with very fertile lands. In olden days, many varieties of fruits were produced there in plenty. The Karandamalai stands few miles north-east of Sirumalai and similarly has few villages in the plateau at the top. The Alagarmalai which derives its name from famous Sri Kalla Alagar Temple, situated at the foot of the hill, is lesser in height but forming fertile valleys around them. Besides these, there are a large number of isolated hills, an important one of which is at Dindigul taluk known as Dindigul rock. It is lofty and inaccessible but fortified by some former rulers. Few more hills worth mentioned are Karumalai, Rangamalai, Karandamalai, Anaimalai, Skandamalai, Pasumalai, and Kandrigimalai etc. Somagiri, few miles east of Alagarmalai, is most remarkable having a huge stone with the appearance of the head of a child.

Rivers :—The two important rivers in Madurai district are Vaigai and Suruli. Both these rivers originate from the western ghats on the Cumbum valley in Periyakulam taluk. They run a considerable distance on a parallel course and join near Allinagaram. After joining Vaigai passes through Nilakkottai and Madurai taluks and enters Ramanathapuram district. Two more streams—Varahanadi and Manjalar, which are originating from Palani hills, also joins Vaigai in the slopes near Andipatti. From here onwards, Vaigai flows in south-east direction till it reaches the sea.

Construction of a dam in Periyar (Kerala) has changed the original characteristics of Vaigai and Suruli as these were dry for almost all the year because of uncertain rains. Now a constant flow of water from the Periyar reservoir through a tunnel to the Cumbum valley has made Suruli and Vaigai to have a constant flow.

The third river, Shanmuganadi, originates in Kodaikanal hills and flows west in Palani taluk. The river forms an important bathing ghat near Sri Dandayuthapani temple, Palani.

Few more rivers, Nagangi, Kandagayar, Nallathangi, that originate and drain at Palani hill ranges are uncertain depending on monsoon rains.

Flora and Fauna :—Madurai district is rich in flora and contains a number of varieties. One half to four-fifths flora of Indian Peninsula and a large number of species usually seen in other countries are seen in Palani and Kodaikanal hilly areas. The district has trees usually found in the southern districts. Important among them are Karuvelum (Acacia Arabica), Agathi (Agathi Grandiflora), Etti (Strychnos Nux Vomica), Coconut, Arecanut, Palmyra, Jack and Mango, Guava, Neem, Mohwa, Iluppai, Banian, Peepul, Arasumaram, Teak and Ventek. Kodaikanal region has plenty of shrubs and herbs with medicinal values. A coarse in variety of highly aromatic quality is also seen here. Kurinji (Strobil Anthus Konthianus) which blossoms once in twelve years is seen in the slopes and valleys of Kodaikanal, a rare feature which no where in South India can be seen.

Fauna in the district is not different from these seen elsewhere. In the western part of the district with thick forest, the fauna is rich. All varieties of South Indian birds are seen in the district. Surrounding areas of Sholavandan are infested with snipes which take cover under Korai grass, duck, owls, parrots, sparrows, varieties of eagles and crows are abundance in Palani areas. Peacocks are also occasionally seen in the jungle areas. Ibex are seen in the rocky areas of the districts. Sambur, bear and bison are in considerable numbers in Palani, Cumbum valley and Nagamalai areas. Panther and tiger are rarely seen but occasionally noticed in the hill areas adjoining Kerala. But, elephants are frequently seen in these areas and in the south of Cumbum valley. Various types of fishes are found in the rivers, tanks and reservoirs of the district. The fisheries department of Tamil Nadu is maintaining demonstration fish farms in Madurai and Melur. Poisonous and non-poisonous snakes of different varieties are found in the district as in other southern districts.

Land use:—Madurai, an agricultural district, is having a total geographical area of 3,116,045 acres (1,266,396 hectares) (12,610.4 sq. kms.). The utilisation of lands during 1979-80 is as follows:—

Category.	Hectares.	Percentage to total area.
(i) Total area	1,266,396	100.00
(ii) Forests — — — — —	253,560	20.00
(iii) Barren and uncultivable land	76,706	6.10
(iv) Land used for non-agricultural use — — — — —	125,753	9.90
(v) Cultivable waste — — — — —	19,198	1.50
(vi) Permanent Pastures and other grazing lands — — ..	7,771	0.60
vii) Land under miscellaneous crops and groves not included in the net area sown.	15,043	1.20
(viii) Current fallow — — — — —	153,141	12.10
(ix) Other fallow lands — — — — —	23,024	1.80
(x) Net area sown	592,200	46.80
(xi) Area sown more than once — — — — —	82,238	6.50
(xii) Total cropped area — — — — —	674,438	53.30

Madurai is predominantly an agricultural district with a total cropped area extending 53.30 per cent. It has never been self sufficient in rice and other food grains. The reason may be, a major portion of the area of the district is occupied by hills, forests and other uncultivable lands particularly the dry areas in Nilakkottai, Madurai and Melur taluks and in other areas where cash crops like groundnut, cotton, sugarcane and tobacco are cultivated. Grazing lands, current and fallow lands and cultivable waste lands add to the problem. Area under food crops occupies 501,522 hectares of the total 674,438 hectares under cultivation.

Soils:—The soil pattern of Madurai district has 85 per cent red soil (red ferruginous) and the remaining black soil. Tirumangalam and parts of Periyakulam, Madurai and Palani taluks are pervasive with red soil. The red soil can be divided into red loam and red sand and black soil into black clay, black loam and black sand. The black loam is considered superior to black clay in wet lands and vice-versa for dry lands. The black clay on the top of Kodaikanal hills and upper Palanis with a thick layer of black peaty earth over yellow clay is considered the best soil for orchards and vegetables. But in lower hills, the soil is generally shallow and dry except in Cumbum valley where it is a deep sandy loam of reddish soil.

Climate and Rainfall:—The climate of Madurai district is hot, dry and variable. As the district is having hills and plains, the climate varies. The Palani and Kodaikanal areas have a climate of their own with low temperature through out the year and Cumbum valley with very pleasant climate during the monsoon periods. The rest of the district is on the whole hot and dry.

The annual normal rainfall for the district is 854.8 mm. The provisional rainfall recorded for the years 1978-79, 1979-80 and 1980-81 were 805.8 mm., 1,092.3 mm. and 649.3 mm. respectively.

During south-west and north-east monsoons, fairly heavy rain falls are occurring in the district. The district gets more than half the rain fall during north-east monsoon and one-fourth during south-west monsoon, but both the monsoons are irregular and the distribution of rainfall varies in different areas. Dindigul taluk is the driest in the district, followed by Nilakkottai, Periyakulam and Palani. Madurai, Tirumangalam and Melur taluks come last, excepting Kodaikanal which gets a fairly heavy rainfall.

Madurai is having three Meteorological observatories, the important one being at Kodaikanal and the others are in Madurai South and Madurai Airport.

During 1981, the highest temperature recorded during hot weather season was 41.0° C on 16th April, 1981 at Madurai Airport and interestingly the very next day the lowest temperature of 20.6° C was recorded. The highest temperature in cold weather season was recorded on 26th March, 1981 (37.8° C) at Madurai Airport and the lowest recorded in Kodaikanal during the same period was 5.1° C on 29th January, 1981.

Agriculture.—Madurai district has never been self sufficient in rice and other food grains, even though 65 per cent of the working population are engaged in cultivation. The Periyar system and various other irrigation scheme have, however, contributed to increase the food supply. Cultivation of food articles is done in 501,502 hectares and non-food articles in 172,916 hectares. During 1979-80, various food and non-food articles raised in the district are shown below :

Name of crop.	Area cultivated (in hectares)
(1)	(2)
Paddy	171,198
Cholam	133,837
Cumbu	21,577
Maize	648
Ragi	5,334
Khorra	1,129
Varagu	15,488
Samai	23,176
Kudiraivali	10,755
Pulses	46,852
Cardomam	2,275
Other condiments and Spices	11,485
Sugarcane	9,502
Palmyra	363
Fruits, Vegetables and dry fruits	27,923
Potato	2,544
Other vegetables	17,199
Groundnut	74,265
Gingelley	13,208
Other oil seeds	9,060
Tanning materials	299
Rubber	17
Coffee	12,830
Tea	1,231
Betal vines	998
Tobacco	1,269
Drugs	16,413
Miscellaneous non-food articles	4,862
Cotton varieties	52,795

Paddy is cultivated twice in 43,525 hectares. In hill areas of the district, i.e. Dindigul, Palani, Kodaikanal, Uttamapalayam, Periyakulam, Tirumangalam, Usilampatti, crops like fruits, vegetables and flowers are important, which are exported to other districts in the state and also to some northern states.

The normal seasons for cultivation of paddy are June-August and September-December. During these seasons, short term and long term crops are sown. Cattle dung, leaf manure, tank silt, municipal compost and oil cakes, besides chemical fertilisers, are the important manures used in the district. Cumbu and groundnut are also cultivated in Melur, Madurai, Palani, Dindigul and Periyakulam taluks during May-June.

Ragi, which is the staple food of the poorer class, is mostly grown in the valley like paddy. Cotton is also sown on rain fed and irrigated areas. Plantains are commonly grown in almost all of the taluks, but the famous Sirumalai plantains are largely grown on the Sirumalais and Palanis. Orange, lime, mango and grapes are grown in Dindigul, Nilakkottai, Periyakulam and Palani taluks. Tea, coffee and cardamoms are the main products in lower Palanis and Gombum valley. Fruits and English vegetables are grown in Kodaikanal hills and in Palanis.

The agricultural prosperity of Madurai district has been largely increased by "grow more food" campaign after Independence. Under this programme, all the uncultivated lands are brought under cultivation and encouraged intensive cultivation by using improved seeds and better manuring. Besides, unoccupied Government lands were permitted to be used on concessional cultivation. Loans and advance it is understood, are liberally given for the promotion of cultivations, especially in kinds by means of better seeds and fertilisers. The best cultivators are given state and national awards and improved means of cultivation are imparted to the farmers by inter-state and country level arrangement of educational and technical tours.

Fairs and Festivals.—Pongal, the most important Dravidian festival, and Deepavali, the festival of lights, are the two important festivals widely celebrated. Besides, regional festivals like Adi Kirithigai, Kenda Sashti, etc., are also celebrated in Madurai as three among six important abodes (i.e. padaiveedu) of Lord Muruga are located in Madurai district. Chithirai festival of Madurai is the most famous one.

In all, more than 300 festivals are celebrated in Madurai by Hindus, Christians and Muslims, the predominant religions in southern peninsula. These festivals are spread over the whole year. Interestingly, fairs (i.e. a large market) are associated with festivals especially in rural areas. Madurai district conducts weekly, bi-weekly and annual fairs. Talukwise, Kodaikanal celebrates less number of festivals because of its geographical situation and scarce population. Melur taluk holds the maximum number of festivals. Above all, Madurai Meenakshi temple with its historical and mythological importance takes the important place in celebrating numerous festivals and also attracting large crowd, in certain cases from all over Tamil Nadu and from neighbouring states. Palani with its popular deity Lord Muruga, has other important places in holding many festivals, all associated to Lord Muruga. Athikombu Kaliyamm temple festival in Palani taluk in June-July is another mentionable festival attracting large crowd. All other festivals are local and connected to village deities, mostly Amman temples spread through out the district and varying one from another. Amman worship is one of the important features of Dravidian culture.

Fairs mostly go hand in hand with festivals. These offer opportunity to farmers converging from all directions to exchange their goods and meet out their farm requirements.

Dindigul taluk takes the first place in conducting fairs, Melur taluk with minimum and Kodaikanal with no fairs. Cattle, Poultry, agricultural products like grains, vegetables, pulses, coconut oil seeds and piece goods are the important items sold. Dindigul fair with centuries old tradition attracts business men from far and near. Usually, cattle are exchanged in a fair. The famous Chithirai festival in Madurai is associated with a large monthly cattle fair during April. More than a lakh heads are traded upon. Mostly, Saturdays are chosen for conducting fairs and occasionally Thursdays and Fridays are also preferred.

Industries.—In Madurai district, a large size of industrial and trading population live, standing only next to Coimbatore district. Industries may fall into three broad categories as 1. Household, 2. Small scale and 3. Medium and large scale industries.

Household industries.—About 35 per cent of the urban population are engaged in household industry, that too, mainly in Madurai, Dindigul and Periyakulam areas. Handloom weaving is the major household industry in the district. Nearly 65 per cent of handloom weavers are males. Handlooms in Madurai district account for 55,522. Of them 28,314 are under co-operative sector. The district has 137 weavers co-operative societies. Other important items of making toys and dolls, processing of food articles, manufacturing of safety matches and its allied articles, etc., are worth to mention.

Small scale industry.—The Directory of Tamil Nadu Small Scale Industrial units, published by Industries and Commerce Department of Government of Tamil Nadu, has listed out 2,663 small scale industrial units in the district as on 31st December 1980, engaging more than 27 thousand persons with an annual turn over of Rs. 54 crores or so. Among these, manufacture of metal product except machinery and transport equipment covers 30 per cent of the total industries in the district engaging 20 per cent of total industrial workers with 20 per cent of the total industrial output. They produce household articles such as stainless steel, aluminium and iron utensils, tin

containers, locks, agricultural implements and steel furnitures. Food products follow next, engaging more than 3,000 persons in 250 units with annual turnover of more than Rs. 12 crores. This production contain a list of more than 100 items such as sweets, biscuits, pickles, Jams, vermicelli, appalams etc. the items with a ready market. Manufacturing transport equipment occupies third place in the small-scale industries. There are about 200 industrial establishments engaging 1,600 persons with an out turn of Rs. 3 crores annually, manufacturing mostly spare parts for cycle and automobiles.

Madurai town is famous for dyeing, being one of the largest centre in South India. Vegetable dyes were used in olden days and is no longer in vogue now. Another peculiar character of Madurai is wax printing, done at Madurai town and Periyakulam which was once prevalent in large scale. This is also declining slowly because of mechanical printing.

Coarse blankets are made in Palani, Periyakulam and Nilakkottai taluks. This is generally used by tribal women folk of these areas. Kora mats are also made in Palani and Melur taluks by some Muslim families.

Medium and large scale industries.—Main and large industries are located in Madurai and Dindigul taluks. Important of these are spinning and weaving, transport equipment and cycle manufacturing. The Harvey Mills which has celebrated its centenary, now under the management of Madurai coats is the main and major spinning and weaving mill with its sister concern, Madurai Mills. There are about 40 cotton mills in the district, out of which more than half of them are manufacturing yarn and textile articles. The remaining are manufacturing yarn alone and most of them are under private sectors, barring one under co-operative sector.

Other important industries in the district are as follows :—

1. Chemicals, 2. Cotton seed oil, 3. Metal and alloys 4. Cement, 5. Electric goods, 6. Automobiles, 7. Paper and Pulp products, 8. Rubber goods, 9. Leather goods, 10. Sewing machines, 11. Engineering products, 12. Sugar mills, 13. Flour Mills and 14. Food products.

Besides, Tamil Nadu Dairy Development Corporation at Sendamangalam produces all milk products like butter, ghee, milk powder, baby food, etc., Next to Madras, it is the biggest unit producing milk and milk products now managed by the Tamil Nadu Milk Producers' Co-operative Federation and sold under the brand "Aavin". Almost all other industries are under private management. Industrial estates are also available at Madurai, Kappalur, Theni, Dindigul and Vathalagundu for the benefit of Small Scale Industries.

Industrial training institutes are functioning in Madurai including Gundhigram which give training in various trades. Women candidates are also admitted in these institutions. Industries Department of Government of Tamil Nadu is running an industrial museum attached to the industrial training school.

Irrigation.—Madurai district has achieved agricultural prosperity during the last two decades under successive five year plans, due to considerable increase in irrigational facilities. Construction of Periyar Dam for storage of water in the eastern Ghats has helped Madurai district considerably in bringing new lands under cultivation for seasonal and short term crops.

Periyar and Vaigai are the two important dams whose reservoirs irrigate about one and half lakh acres. Another dam is Beinjani swamp in the Palani Hills drains water into Varahanadi which irrigates about 5,000 acres in Periyakulam taluk and also supplies drinking water to Periyakulam Municipality. Rivers, tanks and wells are the other important sources of irrigation in the district. Vaigai, Suruliyar and Varahanadi are the important rivers of the district. A total of 203 canals flowing for a length of 394 kms. irrigates a total about 57,000 acres. Well irrigation is also important. A large number of wells, small and big are found in the district. Palani, Dindigul and Tirumangalam taluks are prominent in this type. The wells in Dindigul taluk are numerically more but in Palani taluk they are bigger in size and irrigates larger area. Paddy, cotton, tobacco and sugarcane are cultivated with the help of the irrigational facility. There are 235 tube wells, about one and half lakh wells, six reservoirs and more than 5,000 big and small tanks in the district and collectively all these irrigate about two and a half lakh of acres or single crops and than 70,000 acres more on seasonal crops.

Mineral resources and developments.—Madurai district is not rich in minerals even though it is not totally extinct. Limestone is found in Melur and Vedasandur taluks. Iron ore is also found in Melur taluk. Some other parts of the district have laterite rocks. Crystalline lime stone and building stone are available in large quantities in Tirumangalam taluk which are used for making cement. The rocks at Palani hills consist of charnockite which is not found elsewhere in the state except in Anaimalai of Coimbatore district.

Graphite, Kaolin and Barytes are the other important minerals found in the district. It is also told that precious stones like Emerald, Blue diamond, etc., and gold are available near Veda sandur. Vermiculade used for manufacturing cement and paints are available in Gumbum area.

The Geological Survey of India has been working on various items of minerals in the district and their findings are yet to be published.

Fisheries.—Being a land locked area, this district has no coastal fishing. The district is however, having perennial, long seasonal and short seasonal water species. The district possesses about 55,000 hs. of impounded and 35,000 hs. of running water. These water species offer good potential for development of fisheries including cold water developments in lakes at Kodaikanal and Palani Hills and other reservoirs.

The district is mainly depending on north-east monsoon and with its influence Fisheries Department activates fish culture whenever possible. In addition, Fish Farmers Development Agency is also doing intensive fish culture in all the major irrigation tanks and also in Panchayat Union tanks.

At present, one Fishermen Co-operative Federation and eleven Fishermen Co-operative Societies are functioning in the district. These Societies mainly take up fishery lease for fishing and local distribution. Members of the Society are getting Government loans for the purchase of fishing equipments. During the past few years, Government has sanctioned several new schemes for enhancing the fisheries activities in the district.

Livestock.—In Madurai District, the total livestock population of 1,948,080 heads consists of 1,055,364 cattle and buffaloes, 453,132 sheep, 369,824 goats, 50,232 pigs and 1,373,716 poultry.

The Animal Husbandry Department controls the activities throughout the district, with their headquarters in important centres. There are six veterinary hospitals, 63 dispensaries, one laboratory, one clinic centre and one animal disease intelligence unit, besides 347 veterinary sub-centres which are under the control of six Assistant Directors.

The intensive cattle development projects are being implemented in Madurai district. Seven bull stations are carrying out artificial insemination work. Vadipatti and Usilampatti are functioning with 8 artificial insemination work and 200 sub-centres. Sixteen key village blocks with 160 sub-centres are also functioning. Four poultry extension centres at Kodaikanal, Gandhigram, Vaigai Dam and Karuthupuliyampatti are functioning.

Under a special animal husbandry programme different schemes like calf rearing scheme, poultry production and piggery production, etc. are being implemented. Units are working in different centres in the district for the eradication of rinderpest disease. A number of co-operative institutions have been set up and are working for the development of livestock.

Electricity.—Initially, electricity was supplied through private undertakings in few municipalities and towns by establishing local thermal stations with the help of oil engines. Madurai district received electricity in general, only after the department was reorganised and after the completion of Pykara, Mettur and Papanasam Hydro-Electric Systems. Ever since, overall improvement in hydro electric power generation, more and more transmission lines were laid and power was being supplied throughout the district. Gradually from domestic consumption, supply was extended to agricultural and industrial purposes. In the successive Five year plans, more and more villages were electrified in the district and electricity was made available to all areas.

At present, there are two hydro electric systems (Periyar and Sholayar) functioning in the district. Three more schemes, Upper Amaravathy, Shanmughanadi and Vaigai are to be completed shortly. Thermal power generation is conspicuous by its absence in the district, though one at Samayanallur was closed 15 years back.

Upto the end of March 1980, 38 towns, 11,013 villages, 4,730 hamlets and 4,686 Harijan colonies were electrified in Madurai district. In the agricultural sector during the same period, there were 92,044 pump sets consuming 295,978 k.w. of power. There were 3,596 transformers with a load capacity of 316,732 k.w.a. A total of 5,955 high tension lines and 19,363 low tension line are functioning in the district. Out of a total of 352,308 consumers in the district, 145,482 are domestic, 76,285 agricultural, 42,506 commercial, 9,609 industrial, 18,848 huts and the remaining 59,578 come under Government Departments, street lights, railways, etc. About 50 per cent of the total consumption in Madurai district goes to agricultural sector, about 25 per cent to industries and the remaining to domestic consumption.

Public Health:—Madurai district, with hot and varying climate and scanty rain fall, does not enjoy a healthy climate despite its hilly tracks and valleys. Congregations of pilgrims in large number during festivals and fairs result in outbreak of epidemics. The public health department takes preventive measures to control epidemic and ensure adequate sanitary and health conditions. Protected water is also supplied in most of its towns and villages.

The district today has fully equipped Government and private hospitals, besides hospitals and dispensaries managed by Municipal and local authorities and private institutions. The leading hospitals are Madurai Erskine hospital, renamed as Rajaji hospital, District Headquarters hospital and the Mission hospital. All the taluk headquarters are also having well equipped first class hospitals. Primary health centres are also located in various parts of the district. These medical institutions in the district have been able to contain all major diseases which have taken a heavy toll in the earlier part of this century. For the treatment of leprosy, there is a Mission dispensary in Dindigul and a separate department in Erskine hospital. Smaller number of other dispensaries are also serving as treatment centres for leprosy in Madurai district. Treatment for tuberculosis is specially made at Erskine and Christian Mission hospitals.

Training for mid-wives and other para-medical courses like maternity and child welfare and health visitors are given in all Government and other private first class hospitals. Besides, Gandhi Ashram near Dindigul is also giving training to para-medical workers on rural health maintenance and health inspectors.

As on 1980, there are 5 Government hospitals in rural areas with about 100 bed strength and 16 hospitals in urban areas with about 1,120 bed strength. In addition to these, voluntary organisations and private agencies are maintaining two hospitals with 364 beds and 5 hospitals with 740 beds in rural and urban areas respectively.

Dental, Ophthalmic, ENT, Orthopaedic, Paediatric and Psychiatric clinics are attached to important hospitals.

Importance to Sidha Vaidya is also given in Madurai district. A Sidha Vaidya centre in Palani is famous throughout the southern part of the country. Medicinal herbs are available in plenty in Kodaikanal and Palani hills. A belief that a few days stay at these places have a healing effect to several diseases, has gained much ground in the district.

Education:—In 1882, Sir Thomas Munro, the Governor of Madras Province, started a state-wide educational enquiry for improving the education and as a result Government schools were established in Madurai district also. Even before that indigenous schools were functioning in the district and all of them were teaching Tamil, Sanskrit vedas and other religious courses. These got later merged and became educational institutions imparting modern system of education. The Christian Missionaries, especially the Jesuits and others, have taken intensive steps to promote education in the district.

It is in this background, that education began to make progress in Madurai district. The efforts taken by Government has resulted in improving the literacy proportion of the population over the decades. Still, the literacy level in this district is poor, i.e., about 50 per cent of the total population still remain illiterates.

The following statement shows the total number of schools and colleges registered in Madurai district during 1981.

Category.	Number of Schools/ Colleges.	Number of Students.	Number of teaching staff.
(1)	(2)	(3)	(4)
1 Kinder Garden	4	301	4
2 Primary	2,406	401,235	10,389
3 Middle	578	312,586	8,266
4 High	163	53,512	2,498
5 Higher Secondary	119	141,092	5,181
6 Arts Colleges	27	20,082	1,518
7 Training	3	299	25

In addition to these, a medical college, an engineering college, one law college and 7 polytechnics function in the district imparting higher and technical education. Quite a number of oriental colleges and schools are also functioning in the district and they are institutions for—

- (1) Thevaram.
- (2) Tamil Literature.
- (3) Tamil Isai.
- (4) Music.
- (5) Cultural.
- (6) Drama.
- (7) Vedas.
- (8) Sanskrit.
- (9) Artists and various other subjects.

A latest development in the field of education in Madurai district is the creation of Madurai University in the year 1973 and later in 1977, this institution was renamed as Madurai Kamaraj University. It has affiliated 103 colleges located at various places in Madurai, Ramanathapuram, Tirunelveli and Kannyakumari districts. In Tamil Nadu State, this was the first university to offer correspondence course for higher education. The "Open-air University" was also started for those who do not possess prescribed qualification for their higher studies and that whoever attained the age of 25 years can attend studies in this system. The duration of the course are as follows :—

1 Beginning	—	3 months.
2. Basic	—	2 years.
3 Degree	—	3 years.

Madurai University is awarding scholarships also to the talented students on various subjects. During the year 1980-81, various scholarships were awarded as shown below :—

Type of Scholarships.	Number of Scholars.	Amount sanctioned.
(1)	(2)	(3)
		RS.
1 National scholarships	506	506,245
2 Teacher's children's scholarship scheme.	17	18,895
3 National loan scheme	468	364,316
4 State scholarships	21	3,978
5 State Adhoc Merit scheme ..	76	22,500

Of the students studying in Schools, 427 benefited by award of scholarships amounting to Rs. 288,150. Next to Madras University, Madurai University is conducting number of courses for all subjects.

Important technical institutions in Madurai district and courses offered in them are as follows—

1. Thiagarajar College of Engineering, Madurai.

Courses offered. —

Under-graduates courses.—

1. Civil Engineering.
2. Mechanical Engineering.
3. Electrical and Electronics Engineering.
4. Electronics and Communication Engineering.

B. Tech.—

1. Textile Technology.

B.Sc.—

1. Applied Science.

Part-time under-graduate courses.—

1. Civil Engineering.
2. Mechanical Engineering.
3. Electrical and Electronics Engineering.
4. Electronics and Communications Engineering.

Post Graduate course.—

1. Power Systems Engineering.
2. Structural Engineering, and
3. Applied Maths.

Total intake—300

Hostel facilities are also available.

2. Rukmani Shanmugam Polytechnic, Silaiman.

Courses offered.—

Diploma Courses. —

1. Textile Technology.

Total intake—30.

Hostel facilities available.

3. Arulmigu Palani Andalai Polytechnic for Women, Palani.

Courses offered.—

Diploma Course.

4. Tamil Nadu Polytechnic, Madurai.

Courses offered.—

Diploma Courses.

1. Civil Engineering.
2. Mechanical Engineering.
3. Electrical Engineering.

Part-time Diploma courses.—

1. Civil Engineering.
2. Mechanical Engineering.
3. Electrical Engineering.
4. Automobile Engineering.

Total intake—180.

Hostel facilities are available.

- Government Polytechnic for Women, Madurai.

Courses offered.—

Diploma Courses.—

1. Civil Engineering.
2. Electrical Engineering.
3. Commercial Practices, and
4. Costume design and decorating.

Total intake—80.

Hostel facilities available.

6. Arulmigu Palani Andavar Polytechnic for Men, Palani

Courses offered.—

Diploma Courses.—

1. Civil Engineering.
2. Electrical and Electronics Engineering.

Total intake—120.

7. Kodai Polytechnic, Kodaikanal.

Courses offered.—

Diploma Courses.—

1. Civil Engineering.
2. Mechanical Engineering.
3. Electrical Engineering, and
4. Agricultural Engineering.

Other facilities.—Law and order is ensured by 75 police stations and 14 out posts manned by a contingent of 3,768 police personnel. During the year 1980, about 10,000 cognizable offences have been registered.

Upto 1980, there were 108 permanent cinema theatres, 11 semi-permanent and 132 touring talkies in the district which contribute towards entertainment and recreational facilities.

Thirteen Tamil and three English periodicals are being published in Madurai district. Printing presses available in the district account for 47.

Many places of tourist attraction are available in the district. They are.—

Temples and Places of Tourist importance.—Madurai, an ancient city with a history dating back to the 6th century BC, is the district's headquarters. The city is well known for its presiding deity Meenakshi's temple, a super example of Dravidian architecture and sculpture. Other important temples in the district are Palani Dandayudhapani temple, Alagarkoil, Tirupparankundram, Pazhamudirsolai, Koodal Alagar temple, etc.,. Totally, there are 2,120 temples under the control of Hindu Religious and Charitable Endowments (Administration) Department and 1,037 outside the department. Siva, Vishnu, Vinayakar, Amman and Village deities are important deities of worship.

All the temples controlled by HR & CE Board are managed by Executive Officers except Palani Dandayudhapaniswamy temple which is managed by a Deputy Commissioner and has an annual income of about 2 crore rupees. Meenakshi Amman temple at Madurai and Kallazhagar temple at Alagarkoil are managed by Assistant Commissioners as the former have an income of about rupees 60 lakhs and latter 20 lakhs annually.

During the chitrai festival period (April-May) spread over ten days, the Meenakshi temple attracts a large number of devotees from all over the country. Palani Dandayudhapaniswamy temple also attracts devotees in large number from neighbouring states throughout the year.

Three out of six sacred abodes (padaiveedu) of Lord Muruga are situated in Madurai district, i.e., Palani, Tirupparankundram and Pazhamudhirchicki near Alagarkoil amongst forest.

Weekly fairs are conducted in Madurai and Dindigul and also in all other important taluk headquarters, mostly on Saturdays. Vegetables, cloth, agricultural implements and cattle are traded during the fairs.

The summer resort of Kodaikanal, Palani temple and Palani hills with lake and a dam, Dindigul fort, Alagarkoil, Vaigai Dam, Periyar wild life sanctuary bordering Kerala, and Suruli water falls are the important places in the district worth visiting.

Meenakshi temple and arts gallery, Mariammal theppakulam, Tirumalai Naick Palace, Tirupparankundram are the places in and around Madurai city which attract large number of visitors. During the harvest Pongal festival season in the month of January, the conduct of bull-fights (Jallikattu), an unique rural sport of Tamil Nadu, can be witnessed near Madurai. Here, the bull is allowed to run in an open stretch of land pursued by the bull fighter whose aim is to catch the bull and tame it and win a cash award usually tied to the horns of the bull.

Madurai, an ancient seat of Tamil culture, still has the glamour for the development of Tamil culture. Its mooring with an agricultural economy is still retained and industrial transition is taking place slowly. Though its improvement in other spheres are not spectacular, they retain their mark. The mark of improvement after independence is discernible if not oblique.

A brief analysis relating to certain population characteristics is made utilising the information collected in the Village and Town Directory. A number of tables have been designed by the Registrar General for this purpose. The tables are generated at the district and taluk level for the rural areas and in regard to urban areas, townwise particulars are presented.

TABLE I.

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Number (with percentage) of Villages having one or more of the following amenities

Serial Number and Name of Taluk.	(1)	(2)	Number of Inhabited Villages.	Education.	Medical.	Drinking Water.	Post and Telegraph.	Market/ Hat.	Communica- tions.	Approach by Pucca Road.	Power Supply.
1. Palani	..	..	112	108 (96.43)	41 (36.61)	112 (100.00)	75 (66.96)	11 (9.82)	84 (75.00)	77 (68.75)	112 (100.00)
2. Vedasandur	..	..	63	62 (98.41)	22 (34.92)	63 (100.00)	52 (82.54)	21 (33.33)	25 (39.68)	31 (49.21)	63 (100.00)
3. Nattam	..	..	24	23 (95.83)	11 (45.83)	24 (100.00)	18 (75.00)	1 (4.17)	24 (100.00)	24 (100.00)	24 (100.00)
4. Dindigul	..	..	91	86 (94.51)	26 (28.57)	91 (100.00)	81 (89.01)	5 (5.49)	87 (95.60)	90 (98.90)	91 (100.00)
5. Kodaikanal	..	..	16	16 (100.00)	9 (56.25)	16 (100.00)	16 (100.00)	4 (25.00)	2 (12.50)	15 (93.75)	16 (100.00)
6. Uttamapalaiyam	..	..	46	40 (86.96)	20 (43.48)	46 (100.00)	37 (80.43)	1 (2.17)	37 (80.43)	37 (80.43)	40 (86.96)
7. Periyakulam	..	..	52	47 (90.38)	30 (57.69)	52 (100.00)	38 (73.08)	1 (1.92)	41 (78.85)	43 (82.69)	49 (94.23)
8. Nilakkottai	..	..	119	101 (84.57)	41 (34.45)	119 (100.00)	59 (49.58)	7 (5.88)	93 (78.15)	94 (78.99)	112 (94.12)
9. Melur	..	..	78	69 (88.46)	15 (19.23)	78 (100.00)	50 (64.10)	2 (2.56)	60 (76.92)	68 (87.18)	77 (98.72)
10. Madurai North	..	..	125	100 (79.37)	12 (9.52)	126 (100.00)	28 (22.22)	..	110 (87.30)	62 (49.21)	121 (96.03)
11. Madurai South	..	..	57	42 (73.68)	21 (36.34)	57 (100.00)	26 (45.61)	..	41 (71.93)	42 (73.68)	57 (100.00)
12. Usilampatti	..	..	83	84 (95.45)	22 (25.00)	88 (100.00)	49 (55.68)	7 (7.95)	53 (60.23)	64 (72.73)	88 (100.00)
13. Tirumangalam	..	..	128	112 (87.50)	18 (14.06)	128 (100.00)	62 (48.44)	6 (4.69)	82 (64.06)	85 (66.41)	127 (99.22)
District Total	..	..	1,000	890 (89.00)	238 (28.80)	1,000 (100.00)	591 (59.10)	66 (6.60)	739 (73.90)	732 (73.20)	977 (97.70)

Table 1.—This table furnishes the distribution of villages according to the availability of different amenities. There are one thousand inhabited villages in the district of which 89 per cent are provided with the amenity of education. The important amenity of medical is existing only in 288 villages which works out to a low percentage of 28.80. The provision of drinking water is available to all the 1,000 villages in the district. Post and Telegraph facilities are available in 59.10 per cent of the total villages. But the amenity, market/hat is existing only in 66 villages out of 1,000 *i.e.*, only 6.60 per cent of the villages avail market facilities. More than 73 per cent of the total villages in the district avail the amenities of communication and approach by pucca road. It is notable that power supply is available to 97.70 per cent of the total villages of 1,000.

TABLE 2

PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES.

Proportion of Rural Population served by the amenity of.									
Serial Number and Name of Taluk	Total Population of Inhabited Villages in the Taluk.	Proportion of Rural Population served by the amenity of.							
		Education.	Medical.	Drinking Water.	Post and Telegraph.	Market/Hat.	Communications.	Approach by Pucca Road.	Power Supply.
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
1 Palani	302,138	300,568 (99.48)	175,771 (58.18)	302,138 (100.00)	249,773 (82.67)	55,999 (18.53)	267,444 (88.52)	247,591 (81.95)	302,138 (100.00)

District Total	2,892,285	2,832,669 (97.94)	1,438,914 (49.75)	2,892,285 (100.00)	2,446,379 (84.58)	358,064 (12.38)	2,453,714 (84.84)	2,504,260 (86.58)	2,888,455 (99.87)

TABLE 2

This table shows the proportion of rural population served by different amenities in the district. The rural population of the district is 2,892,285 and all of them are served by the amenity of drinking water, the percentage being 100.00. The amenities of power supply and education are provided to 99.87 per cent and 97.94 per cent of the total rural population of the district respectively. Post and Telegraph, communication facilities and approach by pucca road are available to the rural people of the district to the extent of 84.58 per cent, 84.84 per cent and 86.58 per cent respectively. Only 49.75 per cent of the total rural population are served with the important amenity of medical in the district. The lowest percentage of all the amenities recorded in the district is on market/hat which is available to 12.38 per cent of the total rural population.

TABLE 3.

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE.

Village not having the amenity of.	Number of Villages where the amenities are not available and available at distance of—				Total (column 2—4)
	—less than 5 Kms.	5—10 Kms.	10+Kms.		
(1)	(2)	(3)	(4)	(5)	
1 Education ..	..	91	19	..	110
2 Medical ..	..	398	213	101	712
3 Drinking Water ..	..	..	..	..	..
4 Post and Telegraph ..	..	389	75	9	473
5 Market/Hat ..	..	414	297	223	934
6 Communications ..	..	197	50	11	258

Table 3.—This table deals with the distribution of villages not having certain amenities in themselves but available at a distance which have been given in this table. Out of 110 villages which have no educational facilities in the respective villages itself, 91 villages avail this amenity at a distance of less than 5 kms. and the remaining 19 villages avail at a distance of 5—10 kms. Similarly, out of 712 villages which have no medical facility in the respective villages itself, 398 villages avail this amenity at a distance of less than 5 kms.; 213 villages at 5—10 kms. and 101 villages avail at a distance range of over 10 kms. It is notable that all the inhabited villages have got the amenity of drinking water in their respective villages itself. Regarding Post and Telegraphs, 389 villages avail the facilities at a distance of less than 5 kms., 75 villages at a distance of 5—10 kms. and 9 villages avail at a distance range of more than 10 kms. The amenity of Market/hat is not available in the villages itself for 934 villages out of the total of 1,000 villages in the district and that 434 villages avail at a distance range of less than 5 kms., 297 at 5—10 kms. and 223 villages avail at a distance of 10+ kms. Regarding communication 258 villages are not having this amenity in the respective villages itself and that 197 villages have this amenity at a distance of less than 5 kms., 50 villages at 5—10 kms. and the remaining 11 villages avail at a distance range of 10+ kms.

TABLE 4.
DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND
AVAILABILITY OF DIFFERENT AMENITIES.

Distance range from the nearest Town (in kms.)	Number of Inhabited Villages in each range.	Number (with percentage) of Villages having the amenity of.							
		Education.	Medical.	Drinking Water.	Post and Telegraph.	Market/Hat.	Communications.	Approach by Pucca Road.	Power Supply

51+	4	4 (100.00)	2 (50.00)	4 (100.00)	4 (100.00)	2 (50.00)	1 (25.00)	4 (100.00)	4 (100.00)
Unspecified	-	-	-	-	-	-	-	-	-
Total	1,000	890 (89.00)	288 (28.80)	1,000 (100.00)	591 (59.10)	66 (6.60)	739 (73.90)	732 (73.20)	977 (97.70)

Table-4—This table furnishes the distribution of inhabited villages according to the distance from the nearest town and availability of different amenities. Among the total inhabited villages of 1,000 in this district, 143 villages are located in the distance range of 0-5 kms. from the nearest town and all the 143 villages have the amenity of drinking water, the amenity of education is availed by 84.62 per cent of the villages, power supply by 98.60 per cent, approach by pucca road by 79.02 per cent, communication by 76.92 per cent, post and telegraph by 62.94 per cent, medical by 34.97 per cent and market/hat is availed by 2.80 per cent of the villages in this range. In the distance range of 6-15 kms, there are 470 inhabited villages. Among these villages, the amenity of education is availed by 89.15 per cent of the villages, medical by 25.96 per cent, drinking water by all the 470 villages, post and telegraph by 57.45 per cent, market/hat by 4.47 per cent, communication by 74.89 per cent, approach by pucca road by 72.55 per cent and power supply is availed by 97.23 per cent of the villages in this range. There are 383 inhabited villages in the distance range of 16-50 kms. which are located from the nearest town concerned. 90.34 per cent of these villages availed the amenity of education, the amenity of medical by 29.77 per cent, drinking water by all the villages i.e. 100.00 per cent, post and telegraph by 59.27 per cent, market/hat by 10.18 per cent, communication by 72.06 per cent, approach by pucca road 71.54 per cent and power supply is availed by 97.91 per cent of the villages. The fourth category of the distance range is 51+ kms. in which 4 inhabited villages occur. All these 4 villages avail the amenities of education, drinking water, post and telegraph, pucca road and power supply viz., 100.00 per cent. The amenities of medical and market/hat are availed only by 2 villages or 50 per cent. Only one village avail the amenity of communication in this distance range.

TABLE 5.—DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE.

Population range.	Number of Inhabited Villages in each range.	Number (with percentage) of Villages having the amenity of						
		Education.	Medical.	Drinking Water.	Post and Telegraph.	Market/Hat.	Communications.	Approach by Pucca Road.
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
499 and below	163	81 (49.69)	4 (2.45)	163 (100.00)	12 (7.36)	1 (0.61)	78 (47.85)	64 (39.26)
500—1,999	347	325 (93.66)	45 (12.97)	347 (100.00)	144 (41.50)	10 (2.88)	243 (70.03)	238 (68.59)
2,000—4,999	317	314 (99.05)	133 (41.96)	317 (100.00)	271 (85.49)	25 (7.89)	261 (82.33)	269 (84.86)
5,000+	173	170 (98.27)	106 (61.27)	173 (100.00)	164 (94.80)	30 (17.34)	157 (90.75)	161 (93.06)
	1,000	890 (89.00)	288 (28.80)	1,000 (100.00)	591 (59.10)	66 (6.60)	739 (73.90)	732 (73.20)
								977 (97.70)

Table 5.—This table shows the distribution of inhabited villages according to different population ranges and amenities available. Among the four categories of population ranges, 163 inhabited villages come under the population range of—499 in which the amenity of drinking water is available by all the villages, power supply by 87.73 per cent of the villages, education by 49.69 per cent, communication by 47.85 per cent, pucca road by 39.26 per cent, post and telegraph by 7.36 per cent, medical by 2.45 per cent and market/hat by 0.61 per cent of the villages. Similarly, here are 347 inhabited villages in the population range of 500-1,999 and all these villages avail the amenity of drinking water. Power supply is available by 99.14 per cent of these villages, education by 93.66 per cent, communication by 70.03 per cent, pucca road by 68.59 per cent, post and telegraph by 41.50 per cent, medical by 12.97 per cent and market/hat by 2.88 per cent of the villages. Under the population range of 2000-4999, there are 317 inhabited villages and all these villages avail the amenities of drinking water and power supply viz., 100.00 per cent. 99.05 per cent of the villages avail the amenity of education, medical by 41.96 per cent, post and telegraph by 85.49 per cent, communication by 82.33 per cent, pucca road by 84.86 per cent and market/hat by 7.89 per cent of the villages. In the fourth category of population range of 5000+, there are 173 inhabited villages and the amenities of drinking water and power supply are available by all these 173 villages. The amenities of education, post and telegraph, communication and pucca road are available by 98.27 per cent, 94.80 per cent, 90.75 per cent and 93.06 per cent of the villages respectively. While the amenity of medical is available by 61.27 per cent of the villages in this population range, market/hat facility is available only by 17.34 per cent of the villages.

TABLE 6.—MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH TALUK.

Serial Number.	Name of Taluk	Main Staple Food.
(1)	(2)	(3)
1	Palani	Rice and Cholam.
2	Vedasandur	Rice.
3	Nattam	Rice and Cumbu.
4	Dindigul	Rice and Millets.
5	Kodaikanal	Rice.
6	Uttamapalayam	Rice and Ragi.
7	Periyakulam	Rice and Millets.
8	Nilakkottai	Rice and Cholam.
9	Melur	Rice and Millets.
10	Madurai North	Rice.
11	Madurai South	Rice.
12	Usilampatti	Rice and Millets.
13	Tirumangalam	Rice and Cumbu.

Table 6.—This table furnishes the main staple food in terms of grains consumed by the majority of the population of the villages in each taluk. Of the 13 taluks in the district, almost in all the taluks, rice is being used as the main staple food except in some taluks where millets like cholam, cumbu and ragi are being consumed in addition to rice. Only rice is used in the taluks of Vedasandur, Kodaikanal, Madurai North and Madurai South. While cumbu is in consumption along with rice in Nattam and Tirumangalam taluks, cholam is found in use in the two taluks of Palani and Nilakkottai. All kinds of millets are taken along with rice in four taluks of this district viz: Dindigul, Periyakulam, Melur and Usilampatti.

TABLE 7—DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE.

Serial Number and name of Taluk	Number of Inhabited Villages.	Total area. (in hectares)	Percentage of cultivable area to total area.	Percentage of irrigated area to total cultivable area.
(1)	(2)	(3)	(4)	(5)
1 Palani	112	143,281.86	80.68	28.34
2 Vendasandur	63	95,184.83	84.41	20.72
3 Nattam	24	32,413.76	86.99	12.78
4 Dindigul	91	148,710.28	44.46	37.54
5 Kodaikanal	16	34,189.52	77.57	6.24
6 Uttamapalayam	46	96,178.03	61.69	30.69
7 Periyakulam	52	170,648.20	46.17	26.37
8 Nilakkottai	119	94,174.73	58.05	45.53
9 Melur	78	63,263.49	77.28	48.16
10 Madurai North	126	33,918.43	77.14	85.74
11 Madurai South	57	20,460.92	69.58	41.19
12 Usilampatti	88	100,632.85	55.44	51.73
13 Tirumangalam	128	79,957.95	79.50	22.74
Total	1,000	1,113,014.85	64.34	33.21

Table 7.—This table gives the distribution of inhabited villages according to land use. The total area of all the inhabited villages of the district is 1,113,014.85 hectares of which the percentage of cultivable area to total area works out to 64.34. The taluks of Nattam, Vendasandur and Palani possess high percentages of cultivable area to total area in the district viz., 86.99 per cent, 84.41 per cent and 80.68 per cent respectively. Dindigul and Periyakulam taluks have recorded low percentages of 44.46 and 46.17 of cultivable area to total area respectively. The irrigated area to total cultivable area is 33.21 per cent. Among the 13 taluks of the district, Madurai North taluk has got the highest percentage of 85.74 of the irrigated area to the total cultivable area. The taluks which have recorded low percentages of irrigated area to total cultivable area in the district are Kodaikanal, Nattam, Vendasandur and Tirumangalam, the percentages being 6.24, 12.78, 20.72 and 22.74 respectively.

TABLE 8.

GROWTH, DENSITY AND SEX RATIO OF URBAN POPULATION IN THE DISTRICT IN RELATION TO THE STATE.

Census year.	Madurai District.					
	Total Population.	Urban Population.	Percentage of Urban population.	Decadal percentage variation in Urban Population.	Density (Population per sq. km.)	Sex Ratio (Number of Females per 1,000 Males.)
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1951	2,891,968	805,304	27.85	..	..	984
1961	3,211,400	1,015,745	31.63	+26.13	2,516	971
1971	3,938,197	1,324,194	33.62	+30.37	2,872	964
1981	4,535,897	1,643,612	36.24	+24.12	4,066	958

Census year.	Tamil Nadu.					
	Total Population.	Urban Population.	Percentage of Urban Population.	Decadal percentage variation in Urban Population.	Density (Population per sq. km.)	Sex Ratio (Number of Females per 1,000 Males)
(1)	(8)	(9)	(10)	(11)	(12)	(13)
1951	30,119,047	7,333,525	24.35	..	..	986
1961	33,686,953	8,990,528	26.69	+22.59	1,722	963
1971	41,199,168	12,464,834	30.26	+38.64	2,115	951
1981	48,408,077	15,951,875	32.95	+27.98	2,722	956

Table 8 gives the details of growth, density and sex ratio of urban population in Madurai district for the decades 1951 to 1981. Figures for the State as a whole have also been shown in the table with a view to have a comparative picture about these demographic aspects. The percentage of urban population to total population in this district has gone up from 27.85 in 1951 to 36.24 in 1981. The density of urban areas of this district which was 2,516 persons per sq. km. in 1961 has increased to 2,872 persons per sq. km. in 1971 and 4,066 persons per sq. km. in 1981.

TABLE 9—NEW TOWNS/TOWNS DECLASSIFIED IN 1981 CENSUS.

Name of Town.	Population as per 1981 Census.
(1)	(2)
(a) Added :	
(i) Vendasandur	6,382
(b) Declassified :	
(i) Highways	9,335
(ii) T. Kallupatty	5,513

Table 9 reveals that one town viz. Vendasandur has been recognised as new town in Madurai district during 1981, while Highways and T. Kallupatty, listed as towns in 1971, has since been declassified as rural from the list of census towns of 1981 Census because these towns ceased to satisfy the urban criteria.

TABLE 10—PER CAPITA RECEIPT AND EXPENDITURE IN TOWNS.

SECTION I
VILLAGE DIRECTORY

NOTE EXPLAINING THE CODES USED IN VILLAGE DIRECTORY.

NA—Information not Available

Educational.

- P—Primary or elementary school.
 M—Junior Secondary or Middle School.
 H—Matriculation or Secondary School.
 UC—Higher Secondary/Intermediate/Pre-University/Junior College.
 C—College—Any College (Graduate level and above) like Arts, Science, Commerce, etc.
 I—Industrial School.
 Tr.—Training School.
 Ac.—Adult Literacy Class/Centre.
 O—Other educational institutions. These include Sanskrit Pathshala, Senior Basic School, Makhtab, etc.

Medical.

- H—Hospital.
 MCW—Maternity and Child Welfare Centre.
 MH—Maternity Home.
 CWC—Child Welfare Centre.
 HC—Health Centre.
 PHC—Primary Health Centre.
 PHS—Primary Health Sub-Centre.
 D—Dispensary.
 FPC—Family Planning Centre.
 TB—T.B. Clinic.
 NH—Nursing Home.
 RP—Registered Private Practitioner.
 SMP—Subsidised Medical Practitioner.
 CHW—Community Health Worker.
 O—Others.

Drinking Water.

- T—Tap Water.
 W—Well Water.
 TK—Tank Water.
 TW—Tube Well Water.
 HP—Hand Pump.
 R—River Water.
 F—Fountain.
 C—Canal.
 L—Lake.
 S—Spring.
 N—Nallah.
 O—Others.

Post and Telegraph.

- PO—Post Office.
 TO—Telegraph Office.
 PTO—Post and Telegraph Office.
 Phone—Telephone Connection.

Communications.

- BS—Bus.
 RS—Railway Station.
 NW—Navigable Waterways (including river, canal, back-waters etc.)

Approach to Village.

- PR—Pucca Road.
 KR—Kachcha Road.
 NR—Navigable river.
 NC—Navigable canal.
 NW—Navigable Waterway (other than river or canal).

Power Supply.

- ED—Electricity for domestic purpose.
 EAG—Electricity for Agriculture.
 EO—Electricity for other purposes like Industrial, Commercial, etc.
 EA—Electricity for all purposes listed above.

Irrigated by Source.

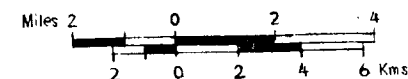

- GC—Government Canal.
 PC—Private Canal.
 W—Well (without electricity)
 WE—Well (with Electricity).
 TW—Tube Well (Without electricity).
 TWE—Tube Well (with electricity).
 TK—Tank.
 R—River.
 L—Lake.
 Wf—Water fall.
 O—Others.
 T—Total.

Other aspects.

- N—Copies of the newspapers coming in the Village.
 M—Motor Cycles/Scooters available in the village.
 C—Cars/Jeeps available in the village.
 T—Tractors available in the village.
 —No facility available.
 —Nil particulars.

50,000 — 99,999	II
20,000 — 49,999	III
10,000 — 19,999	IV
5,000 — 9,999	V
Below 5,000	VI

Civic Administration Status of the Town—

M. Corp.		Municipal Corporation/Corporation.
M		Municipality.
NP		Nagar Panchayat/Town Panchayat.
GP		Gram Panchayat/Village Panchayat.
TC		Town Committee/Town Area.
CB		Cantonment Board/Contonment.

STATEMENT IV & IV-A.

SC		Scheduled Castes
ST		Scheduled Tribes

Type of Road—

PR		Pucca Road
KR		Kutchia Road

System of sewerage—

S		Sewer
OSD		Open surface drains
BSD		Box surface drains
SD		Sylk drains
CD		Cesspool method
Pt		Pit system

Method of disposal of night soil—

HL		Head loads
B		Baskets
WB		Wheel barrows
ST		Septic tank latrines
S		Sewerage

System of storage of water—

OHT		Over head tank
SR		Service reservoir
IG		River infiltration gallery
BWP		Borewell Pumping system
T		Pressure tank

Source of drinking water—

TW		Tube Well Water/Hand Pump
T		Tap water
W		Well water
TK		Tank Water

STATEMENT V.

Medical facilities—

H		Hospital
D		Dispensary
HC		Health Centre
FC		Family Planning Centre
TB		T. B. Clinic
NH		Nursing Home
O		Others
A		Ayurvedic
U		Unani
Hom		Homeopathic

Educational facilities—

A		Arts only
S		Science only
AS		Arts and Science only
C		Commerce only
AC		Arts and Commerce only
ASC		Combined for all categories-Arts, Science and Commerce
L		Law

Recognised shorthand, typewriting & other vocational Institutions—

SH		Shorthand
Type		Typewriting
Sh. Type		Shorthand and Typewriting
O		Others

Public Libraries and reading rooms—

FL		Public Libraries
RR		Reading Rooms

TOWN DIRECTORY.

STATEMENT I.
