PREFACE

The religious composition of the population has always been considered as an important cultural characteristic and data on the distribution of population by different religious groups are hence eagerly sought for, after every decadal census enumeration, by researchers, demographers and Government departments alike. The present volume gives the 1991 Census population by religion and sex for Tamil Nadu, separately under 'total', 'rural' and 'urban' areas for State, district and taluk levels besides the cities, towns and urban agglomerations. Information on 'religion' has been gathered in 1991 Census through question 8 of the census 'Individual Slip' and this was copied to column 9 of the Household Schedule. The data given herein have been compiled after editing and matching of the above—said entries in the two schedules.

The data have been classified under six major religions viz., Hindus, Muslims, Christians, Sikhs, Jains and Buddhists besides the categories, 'Other Religions and Persuasions' and 'Religion not stated'. Apart from the main Table C-9, the volume contains an Annexure which furnishes details of sects/beliefs/religions clubbed with each of the six major religions at State and district level. Appendix A provides details of religions under 'Other Religions and Persuasions' having a population of more than 100 at State level for State and districts while Appendix B gives the same details as in Appendix A but with less than 100 population at State level for State and districts. The entire tabulation work for compiling 'religion' data was done manually at the ten Regional Tabulation Offices, set up after the 1991 Census in the State. The scrutiny and consolidation of data for the State were done at the State headquarters in the Census Section of the Directorate.

I wish to record our deep sense of gratitude to Sri A.R. Nanda, former Registrar General, India, and Dr. M. Vijayanunni, the present Registrar General, India, for the overall direction and guidance in bringing out this volume. I am also thankful to Sri S.P. Sharma, Deputy Registrar General, India (C & T) and Dr. M.K. Jain, Deputy Registrar General, India (S.S.) for their able technical guidance in compiling and finalising the table.

Shri K. Sampath Kumar, who was the Director of Census Operations for Tamil Nadu during the 1991 Census steered the

census work and the collection of data during the enumeration period and besides, closely monitored the manual processing of the schedules and compilation of the tables, leading to the presentation of data in the present volume. We acknowledge his able stewardship and the good guidance extended in our work. The task of preliminary compilation of the table after scanning through the huge volume of the census schedules was very well performed by the large number of officers and dedicated staff of the ten Regional Tabulation Offices, headed by the Deputy Directors and Assistant Directors of Census Operations. The laborious task of consolidating the table at different levels, its detailed scrutiny, checking, drafting of note and finalisation including the computerisation, which enabled easy and quick printing of this volume, was cheerfully borne by officers and staff of the Census Section of the Directorate, and I have pleasure in acknowledging their excellent services.

I also thank the Manager, Government of India Press, Coimbatore and his staff who have done a neat job in the printing of this volume and evinced much interest in the early release of the book.

INTRODUCTORY NOTE

This publication gives the population data on religion, which is one of the basic cultural characteristics of the population, as returned in 1991 Census. In our country, which is a secular state, many religions have thrived and every census has attempted to provide an interesting picture of the religious persuasions and beliefs of the people of the country. The data collected in census on religion are of great interest to the various data users like anthropologists, sociologists, demographers, administrators, planners and also laymen.

In the 1991 Census, in question number 8 of the Individual Slip, the religion of the person enumerated was recorded as returned. Relevant extracts from the census booklet wherein instructions were issued to the enumerators for filling up question 8 of the Individual Slip are given below :

8 : Religion :

"45. In answering this question, use the following abbreviations :

- H for Hindus
- M for Muslims
- C for Christians
- S for Sikhs
- B for Buddhists
- J for Jains

For others, record the actual religion as returned, fully.

45.1. If the person says that he has no religion, the answer may be recorded accordingly. Do not mistake religion for caste which will not be recorded here. You should also not try to establish any relationship between religion and mother tongue. Do not write anything in the dotted boxes, but write on the line."

The enumerators were also instructed to copy the returns regarding religion of an individual from question

8 of Individual Slip to column 9 of Household Schedule. The instructions issued in this regard are given below :

"For the person entered in column 2 of Household Schedule, check if H, M, C, S, B and J or actual religion returned by the person has been recorded in question 8 of the Individual Slip. If so, copy the same in column 9 of the Household Schedule."

In the Regional Tabulation Offices, established for manual processing and compilation of census data, the answers to the question 8 of the Individual Slip were edited and matched with the entries in column 9 of the Household Schedule. The editing and matching instructions for question 8 of the Individual Slip (Religion) are reproduced below :

"Question 8—Religion :

Match the entry in column 9 of the Household Schedule for each member of the household with the corresponding entry against question 8 of the Individual Slip. Please note that this check will be made for all types of households whether 'normal' or 'institutional' or 'houseless'. If these are not the same for any member of the household, correct the entry in column 9 of the Household Schedule on the basis of entry in question 8 of the Individual Slip. If the entry in either the Individual Slip or the Household Schedule is missing for any member of the household, copy the entry from the schedule in which it has been written into the schedule it has been missed. If by chance the entry is blank in both the Individual Slip and the Household Schedule for any member of the household, look into the entries of religion in respect of other related members of the household and write the religion indicated therein in both the schedules".

The religionwise data were compiled from Household Schedules in the Regional Tabulation Offices.

In the following Statement 1, the distribution of population by religion in India and the States/UTs, along with their percentages to their respective population in 1981 and 1991 are given for the convenience of the data users. Statement 2 gives similar data for the State and districts.

The jurisdictional changes of certain districts during 1981-91 have necessitated recasting of the 1981 religionwise population to their present jurisdiction. The following methodology has been adopted to arrive at the religious composition of population of districts which have been subjected to jurisdictional changes.

North Arcot-Ambedker, Tiruvannamalai—Samburavarayar, Tirunelveli—Kattabomman, Chidambaranar and Kamarajar districts were formed by transfer of certain taluks fully. For these districts, the 1981 taluk-wise religion data were simply added to arrive at the district figures. Readjustment was made for Dindigul—Anna, Madurai, Pasumpon Muthuramalinga Thevar and Ramanathapuram districts as they are formed by transfer of certain villages besides the transfer of certain taluks.

In the absence of religion-wise data for villages in 1981, the readjustment was made on the basis of the ratio of the population of each religion to total population in 1991, in respect of such villages in the concerned district.
