District Primary Census Abstract for SC/ST, C.D. Block/Townwise.	 356 - 391

FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations / modifications after each decennial census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Government/ Union Territory administration. It inter-alia provides data/ information on some of the basic demographic and socio-economic characteristics and on availability of certain important civic amenities/ facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (Wardwise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third Part (C) of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States / Union Territory's due to considerable delay in compilation of relevant material. In 1981 some new features alongwith the restructuring of the formats of Village and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of villages and towns (wardwise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil / town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the village Directory and if an amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time during 1981 Census in the village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also,

keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this statement details on civic and other amenities were reported for the slums, of class I and class II towns. Apart from this, one column on the Scheduled Caste and Scheduled Tribe population and another on adult literacy classes/ centres were added in Statement IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rate as all children below 7 years of age have been treated as illiterates at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Blocklevel presentation of data in the village Directory and PCA instead of the traditional Tehsil/Taluk/PS level presentation. It is expected that the presentation of village directory and PCA data at C.D. Block level will help the planners in formulation of micro-level developmental plans, as the C.D. Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census alongwith the corresponding codes of 1981.

This publication is a joint venture of the State Government/ Union Territory administration and the Census Organisation. The data have been collected and compiled under the direction of Shri K. Sampath Kumar, Director of Census Operations, Tamil Nadu on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of the publication was initiated by Dr. K.P. Ittaman, former Deputy Registrar General (Social Studies) and Shri M.M. Dua, Joint Director. For the sake of uniformity in presentation of information/data and for preparation of

analytical note depicting the salient features emerging from a micro-level analysis of Census/non-Census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K. Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri A.K. Singh, Deputy Director who was assisted by Shri N.S. Soam, Assistant Director and his staff. Technical guidance in the preparation of the maps was initially provided by Dr. B.K. Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi
June 11, 1992

A.R. Nanda
Registrar General, India

PREFACE

The District Census Hand Book is the most useful publication for the public, social workers, researchers, academicians, administrators, local bodies and the government officials for various official and non-official purposes. It gives data for the village/panchayat at the lowest level to the district level including panchayat union/taluk covering demographic, social, economic and cultural aspects. There had been an endeavour to make it as comprehensive as possible, to provide data on various aspects since its inception. The Registrar General, India, in his foreword has kindly traced out the improvements brought out from time to time since 1961 to the latest 1991 Census while the history of the District Census Handbook in this State is narrated in the Introductory chapter to this volume.

The District Census Handbook is a joint venture of the Census Organisation and the State Government of Tamil Nadu. The scope of District Census Handbook has been widely increased and restructured in 1981 to meet the Minimum Needs and Revised Minimum Needs Programmes of the Planning Commission. Broadly keeping up the 1981 main structure, the formats of the Primary Census Abstract have been restructured slightly for the benefit of data users. The nine-fold industrial classification of main-workers as done at the 1961 and 1971 Censuses has been revived instead of the four-fold classification of the 1981 Census. Population in the age-group 0-6 by sex has been given in order to enable computation of realistic literacy rate as all children below 7 years are treated as illiterates. One of the most important innovations of the 1991 Census is the presentation of data at the Community Development Block/ Panchayat Union level to help planners for the level of formulation of micro-level developmental plans at the lowest administrative unit. In this State for development planning the lowest administrative unit is the 'Panchayat Union'. This time, for the benefit of data users the village Directory and PCA data on the magnetic tapes/floppies from the published records, the Computer Code as well as the Manual Code of 1991 Census and the corresponding location code of 1981 Census are given.

The District Census Handbooks are now being published in two parts - Part-A - Village & Town Directory and Part-B - Village and Townwise Primary Census Abstract. The two parts are being published in one volume as part A & B for smaller districts.

Part-A deals with a brief description of the district - its major characteristics in relation to the economic resources like forestry, agriculture, industries, social, cultural, religious and historical aspects apart from certain basic amenities like drinking water, education, medical,

post and telegraphs, market day(s), communitions, etc., and if any of these facilities are not available to any village, distance range of the nearest place from where it is available; power supply, approach to the village, nearest town to the village, health and family planning centres, primary health sub-centres and community health workers in the village are presented. Information on approach to village is also provided to identify inaccessible villages in the district. The exhaustive data on infra-structure in relation to amenities available to the villages and land-use pattern are meant to meet the requirements of 'Micro-level' local area development planning at the lowest administrative unit viz., C.D. Block/Panchayat Union. This is the reason why this time data are being published C.D. Block /Panchayat Union level - at level instead of the traditional taluk level.

In the Town Directory, information on class of town, area of the town, number of households, population and growth rate of population of the town at each Census from 1901 to 1991, sex-ratio at the 1971, 1981 and 1991 Censuses, physical aspects of rainfall and minimum and maximum temperatures recorded, distance from State District headquarters, nearest city, communication facilities like railway station, bus-route, inland navigation, Municipal finance, civic and other amenities like protected water supply, electric connections by type, fire fighting service, road length by type, system of sewerage, number of latrines by type, total population and SC & ST population, medical, educational facilities by type, recreational and cultural facilities like stadia, cinema, drama, community hall, public libraries and reading rooms, adult literacy classes/centres, working women's hostels, three important commodities manufactured, exported and imported; a special table on civic and other amenities available in notified slums in Class-I and Class-II towns have been included with a view to ascertain the availability of basic amenities and to meet the Minimum Needs and Revised Minimum Needs Programme.

Part-B: deals with the Primary Census Abstract for all the villages in rural areas and ward wise for urban areas. This time the PCA data like Village and Town Directory data are arranged in C.D. Block/Panchayat Unionwise giving area of the village (in hectares), area of town (in Sq.Km.), number of occupied residential houses, households, population by sex scheduled caste and scheduled tribe population, literates, main workers and their distribution into nine industrial categories (as against the four industrial categories published in 1981), marginal workers, non-workers, and population in the age group 0-6 by sex.

Further, if a village is covering more than one Panchayat, break up figures for each segment of the village forming different Panchayat also are given.

It is hoped that with the modifications now brought out in the Village Directory, Town Directory and PCA data at the level of C.D. Block/Panchayat Unionwise would go a long way in helping the planners to chalk out more effective developmental programmes at micro-level for local area developmental plans.

In the process of collection of data of this volume, various State and Central Government Departments have extended their kind co-operation particularly with regard to infra-structural amenities for Part-A - Village and Town Directory, history and general features of the district, etc., I convey my grateful thanks to all of them. The PCA data presented in Part-B of this volume were collected during the Census operations in February-March, 1991 the reference date during.

I remain grateful to the Director of Census Operations, Shri K. Sampath Kumar, who closely guided us in every aspect of this work. He had been a source of strength and inspiration for us. We owe a deep sense of gratitude to him for his kindness in dealing with our practical difficulties, his patient advice and formula of solutions for even small problems, which we brought to his attention.

I wish to record my deep sense of gratitude to (late) Shri M. Thangaraju, Joint Director of Census Operations and Shri Ch. Purnachandra Rao, Deputy Director of Census Operations for overall direction and guidance to bring out this publication. I use this opportunity to mention my special thanks to Shri G. Babuji Assistant Director of Census Operations for scrutinising the draft report and presenting the data with meticulous care and accuracy. I am also thankful to Shri S.P. Grover, Joint Director of Census operations and Shri Phool Singh, Deputy Director of Census Operations who have also provided overall guidance and supervision during their tenure in this regard.

Apart from that Shri Gummodi Bapuji in-charge of DCH Section took a meticulous care to arrange this volume in a systematic manner with the help of his colleagues S/Shri A.V. Raman, K. Sambamoorthy, P.G. Sankaran, Investigators, and Sri M. Thangavelu, Statistical Assistant and other section officials. The preparation of maps included in this volume were done under the supervision of Shri Jogesh Das, Senior Geographer.

In the compilation and processing of Village Directory and Town Directory data, was ably assisted by Smt. R. Rani bai and Smt. A.M. Mangayarkarasi, Investigators and their assistants respectively while Sri R. Sundaraman, Statistical Assistant, is chiefly responsible for preparing the analytical notes, inset tables, draft writeups and arrangement of the matter in order.

The PCA data for the district were processed at the Regional Tabulation Office, Madurai, under the supervision of Sri K. Govindarajan, Regional Deputy Director of Census Operations, assisted by Shri. K. Jagannivasan, Investigator, Sri R. Sundararaman, S. Balasubramaniam, Kum. S. Philomin, Statistical Assistants who were deputed from this Directorate to the Regional Tabulation Office, Madurai.

Finalisation of PCA data (Panchayat Unionwise) and providing computer codes for villages were attended Sri. R. Lakshminarayanan and Smt. M.V. Rajalakshmi, Investigators and staff of the Census Section. The district and taluk maps in this publication give the administrative units upto village level, the location of towns and Cities, communication facilities, etc. This time in the taluk map, the boundary of each of the C.D.Block units, namely, 'Panchayat Unions' have been shown separately to synchronise with the presentation of data Panchayat Unionwise.

I convey my grateful thanks to Shri A.R. Nanda, I.A.S., Registrar General and Census Commissioner, India for the valuable guidance and advice I received from him throughout. I am thankful to Sri N. Rama Rao, Deputy Registrar General (C&T) who has been a source of strength and constant help and guidance on all technical matters like a 'Ready Reckoner'. I also thank Dr. K.P. Ittaman, former Deputy Registrar, General (Social Studies) and Sri. M.M. Dua, Joint Director, for planning, designing and co-ordinating the formats. I thank Sri M.K. Jain, Deputy Registrar General (S.S.) and Sri A.K. Singh, Deputy Director, Sri N.S. Soam, Assistant Director and his staff for scrutinising and approving the first volume (Periyar) so that it could fit in, in the all India pattern from uniformity point of view in the presentation of data and other items. My thanks are also due to Dr. B.K. Roy, Former Deputy Registrar General (Map) and Mrs. Minati Ghosh, Deputy Registrar General (Map) for providing technical guidance in the preparation of maps.

The data entry of the Village Directory and Primary Census Abstract in the computer had been done at the National Informatics Centre(NIC) at Madras, in the shortest possible time. My sincere thanks in this regard are to Shri M. Mohan, Technical Director and Shri A.N. Sridhar, Scientific Officer of the NIC, Madras.

I have great pleasure in acknowledging the able assistance rendered by the following officials of my office in the preparation of this volume.

Number of towns		469	10

ANALYTICAL NOTE

Census concepts Rural and Urban areas

It is customary to classify a place as rural or urban in every Census and present data separately for rural and urban areas. Urban areas which are specifically defined for Census purposes are determined on the basis of certain demographic and economic criteria. The rest are treated as rural areas. At the 1991 Census, the same criteria adopted for determining the urban areas at the 1981 Census have been continued. The urban areas of 1991 census are:

- (a) All places with a Municipality, Corporation or Cantonment board or Notified townarea, committee, etc.
- (b) All other areas which satisfied the following criteria:
 - (i) A minimum population of 5,000
 - (ii) At least 75 per cent of male main workers engaged in non-agricultural and allied activities:
 - (iii) A population density of at least 400 per sq. km. (or one thousand per squaremile)

The above definition adopted for both 1981 and 1991 Censuses varies slightly from those of 1961 and 1971 Censuses. In the 1961 and 1971 Censuses, the male population engaged in the activities of fishing, logging etc., were treated as engaged in non-agricultural pursuits and hence have been taken into account with those engaged in non-agricultural pursuits for applying the test of the 75 per cent non-agricultural workers criteria. But in the 1981 Census as well as in the 1991 Census, they have been treated on par with agricultural activities for applying the test for this criterion. Prior to the 1981 Census, certain places with less than 5,000 population were treated as urban areas on the basis of certain considerationlike density, social and historical importance etc., at the discretion of the Director of Census Operations in consultation with the State Government. On the other hand, the tests on demographic and economic criteria were strictly applied at the 1981 and 1991 Censuses and no area was classified as urban area on other considerations.

Urban Agglomeration

This concept was adopted for the first time in the 1971 Census and continued in the 1981 and 1991 censuses also.

An Urban Agglomeration is a continuous urban spread constituting a city or town and its adjoining urban outgrowths (OG) or two or more physically contiguous towns together with continuous well recognised urban outgrowths, if any, of such towns. In certain cases, large housing colonies, University

campuses, port areas, Military camps, etc., etc., would have come up around a city or town but falling out side the statutory limits of the city or town. They may be lying inside the boundaries of a village or villages which are contiguous to the city/town. These villages could not be treated as urban as they do not satisfy the urban criteria. But at the same time the colonies etc., mentioned above deserve to be treated as an integrated urban area. Therefore, all such owns together with their urban outgrowth will have to be treated as one urban unit and called urban Agglomeration. As no outgrowth (OG) as defined above, has been recognised in Tamil Nadu, all the constituent units of urban agglomerations are also independent urban units or towns in the State.

Census House

A Census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for residential or non-residential purposes or both.

Household

A household is a group of persons, who commonly live together and would take their meals from common kitchen, unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of households with unrelated members are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called institutional Households.

Scheduled Castes / Scheduled Tribes

For the enumeration of Scheduled Castes and Scheduled Tribes in census, the names of Scheduled Castes and Scheduled Tribes as recognised in Tamil Nadu based on the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act of 1976 (Central Act, 108 of 1976) was followed. The enumerators were instructed to record a person as belonging to Scheduled Caste and Scheduled Tribe provided the name given by the person was found in the list supplied to them.

Literates

A literate is defined as "a person who can both read and write with understanding in any language". A person who could merely read but cannot write, is not a literate. It is not necessary

that a person, to be considered as a literate, must have received any formal education or have passed any minimum educational standard. In the 1991 Census, all children of the age of Six years or less are treated as illiterates whereas in the 1981 Census all children of the age of Four years or less were treated as illiterates.

Definition of work

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise.

Main workers and Marginal workers

The dichotomy of worker and non-worker of 1961 and 1971 censuses had been dropped and the trichotomy of main worker, marginal worker and non-worker was introduced in the 1981 Census and this has been continued in the 1991 Census also. A worker was identified with reference to a reference period preceding the census. The reference period prescribed was one year preceding the date of enumeration. Certain types of work such as agriculture, household industries, like gur making etc. were carried on, either throughout the year or only during certain seasons or part of the year, depending on the local circumstances. In such cases what we were concerned with was the broad time spent during the agricultural season preceding the enumeration. Workers can be full-time workers or marginal workers. If a person had done any work during the reference period and if he had worked for the major part of the year, i.e., if he had worked for 183 days or more, he was considered to be a full-time worker (Main Worker). If a person had done any work during the reference period and if he had not worked for the major part of the year, i.e., if he had worked for less than 183 days, he was considered to be a marginal worker. Persons who had not participated in any economic activity even for a day during the last one year preceding the day of enumeration were considered as non-workers.

All the main workers had been classified under one of the four main categories in the 1981 Census, while in 1991 Census, they have been classified under one of the nine industrial categories as was done in 1971 Census. They are (I.) Cultivators (C), (II.) Agricultural Labourers (AL) (III.) Live Stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, (IV.) Mining and Quarrying, (V(a).) Manufacturing, Processing, Servicing and Repairs in Household Industry, (V(b).) Manufacturing, Processing, Servicing and Repairs in other than Household Industry, (VI.)

Constructions, (VII.) Trade and Commerce, (VIII.) Transport, Storage and Communications, (IX.) Other Services. The definitions of these nine industrial categories of workers are as given below :

I. Cultivators (C)

For the purpose of census, a person is considered as Cultivator if he/she is engaged in cultivation of land, owned or taken on lease from Government or from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction or cultivation.

II. Agricultural Labourer (AL)

A person who works on another person's land for wages in money, kind or share should be regarded as agricultural labourer. He/she has no risk in the cultivation, but he/she merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

III. Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities

Persons who were reported as workers in Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities are treated as workers under this category.

IV. Mining and Quarrying

Persons who were reported as workers in Mining and Quarrying are treated as workers under this category.

V(a). Manufacturing, Processing, Servicing and Repairs in Household industry

Household industry is defined as an Industry conducted by the head of the household himself / herself and/or by the members of the Household at home or within the village in case of rural areas and within the precincts of the house only in the case of Urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The household industry should not be run on the scale of a registered factory which would qualify to be registered under the Indian Factories Act. Mere selling of food items or other edibles, should not be regarded as household industry.

V(b). Manufacturing, Processing, Servicing and Repairs in other than Household Industry

Persons reported as workers in household industry other than those mentioned in V(a) were treated as workers in this category.

VI. Constructions

Persons working as plumbers, masons, electricians, painters and others engaged in construction work were treated as workers under this category.

VII. Trade and Commerce

Persons engaged in work such as wholesale or retail business or trade were treated as workers in this category.

VIII. Transport, Storage and Communications

Persons who were reported as drivers, conductors, technicians, fitters, welders and other communications workers were treated as workers under this category.

IX. Other services

Persons engaged in services other than those mentioned in I to VIII categories fall under in any of the above I to VIII categories are treated as those engaged in other services.

Non-workers

All persons who have not been treated as workers i.e., persons who have not worked any time at all during the reference period of one year preceding the date of enumeration have been considered as non-workers. Thus, non-workers cover all persons who are engaged in unpaid household duties and who do no other work or have not done any work at all during the last one year, full time students and children attending school, all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age, persons retired from service or rentiers, beggars, vagrants etc., convicts in jails or inmates of a penal, mental or charitable institution and all other non-workers not falling under any of the above categories.

History of the District Census Handbook

After the Census of 1951, the Government of India offered to handover to the State Government the Census tables and other data prepared during the Census and suggested that they might be published along with any other useful information relating to each district as separate volume. The

State Government accepted the proposal and the first publication of the District Census Handbook was brought out at the cost of the State Government.

The District Census Handbook of 1951 was found to be very useful and it was therefore decided not only to continue the series for the 1961 Census but also to improve on its content so that each District Census Handbook contained certain basic economic data for the smallest administrative unit in the district and be an useful reference book for scholars and other data users.

After the 1971 Census also, the publication of the series of District Census Handbook was continued. The publication of the 1971 District Census Handbook was in three parts, viz., Part-A, Part-B and Part-C. Part-A relating to Village and Town Directory. Part-B relating to Village and Townwise Primary census Abstract and Part-C comprising District Census Tables and certain administrative statistical tables.

The tradition of bringing out the Census Handbook was continued by the State Government during the 1981 Census also. In this series some individual feature besides restructuring of the formats of the Village Directory had been adopted bearing in mind the requirements of data for the socio economic programmes of the Government. The comparability of data with the 1971 Census data had also been kept in view.

The present 1991 District Census Handbook will be published in two parts viz., Part-A - Village and Town Directory and Part-B - Village and Townwise Primary Census Abstract.

Scope of Village and Town Directory Statements and Primary Census Abstract

The District Census Handbooks are the only publications which incorporate the data down to the level of a village and level of a town which are constantly referred to by the data users.

The Village Directory Statements gives the list of villages by C.D.Block and for each village the area, No of households and population, availability of amenities and land use. The information on amenities available in the village includes educational, medical, drinking water, post and telegraph, market, rail/road or other communication facilities and power supply. Land use is shown as area under forests, irrigation, unirrigated land, culturable waste and area not available for cultivation.

Appendix - I gives C.D.Blockwise abstract of educational, medical and other amenities available

viz., the number of villages having various levels and types of educational institutions such as middle schools, adult literacy centers, etc., various types of medical institutions such as dispensaries, primary health centres, maternity and child welfare centres, family planning centres, community health workers etc. and the number of such institutions, various types of drinking water sources, such as tap, well, tank, tube well, river, fountain, canal, etc. post and telegraph offices, bus-stops, railway-station, power supply, etc. and also the number of villages not having such amenities.

Appendix - II gives for each non-municipal town (Census Towns) the area under forest, irrigated and unirrigated land, culturable waste (including gauchar and groves) and area not available for cultivation.

Appendix - III is only the list of villages where no amenities relating to education, medical, drinking water, post and telegraph, communication, power supply and market/hat and public health facilities etc. are available.

Appendix - IV gives the list of villages according to the proportion of SC/ST to the total population by ranges. Part-A of the Appendix gives the villages according to the proportion of SC population. The information is presented by the ranges viz. 0 - 5, 6 - 10, 11 - 15, 16 - 20, 21 - 30 and 31 + percent and above, and Part - B according to the proportion of ST population ranges viz. 0 - 5, 6 - 15, 16 - 25, 26 - 35, 36 - 50 and 51 + percent and above.

The Town Directory gives important and very useful information like civic and other amenities available in all the towns in the district, statutorily notified as well as non-municipal or census towns. The details relating to each of the towns have been presented in seven statements viz. Statements I to VI and IV - A. In all the statements except IV - A, the towns are arranged in the alphabetical order for the district. The Town Directory does not cover strictly military areas. It may, however, cover cantonment areas but not strictly military or military establishments within the cantonment which are required to be left out. However, basic statistics of the cantonment as a whole have been provided. In the Town Directory, codes have been given for the data on amenities and civic administration for want of space. The relevant explanations for the codes adopted have been given in the beginning of the Town Directory Statements.

The concept of urban agglomeration was introduced for the first time in 1971 replacing the concept of town group of 1961. The concept of Urban Agglomeration has been continued at the 1981 and 1991 censuses also. An Urban

Agglomeration may be explained as follows: "It must form a continuous urban spread constituting a town and its adjoining urban outgrowth or two or more physically contiguous towns together with continuous well recognised urban outgrowth, if any, of such towns".

Un Urban Agglomeration includes two or more independent census towns. The names of the Towns/Urban Agglomeration have been arranged in the alphabetical order. The particulars of the individual town which constitutes one of the units of agglomeration have not been furnished separately because the particulars have already been furnished, where they occur together under the name of agglomeration. The following remarks have been given against such town within brackets: " (See the name of the main town of the agglomeration) "

By adoption of this method, the reader can get an idea of the particulars of the urban agglomeration in total and also separately.

Statement I : Status and Growth History

This statement provides some basic data based on the Primary Census Abstract for the towns and urban agglomerations of 1991 Census. For analysing the town directory data at the State level and All India levels some new columns have been introduced in the 1981 census. The new items are: Class of town, area, number of households, population and growth rate at each census since 1901, density and sex ratio at the 1971, 1981, and 1991 censuses are also provided in this statement. At the 1991 census, a new item - the name of C.D.Block is also provided in the statement.

Class of the towns are presented according to the 1991 census population of the town as follows:

Population	Class
100,000 and above	I
50,000 to 99,999	II
20,000 to 49,999	III
10,000 to 19,999	IV
5,000 to 9,999	V
Below 5,000	VI

Location Code Number for Towns

To distinguish the town from the village, the Location Code Numbers for Towns have been given in Roman Numerals and these numbers have been assigned in a continuous order for the district as a whole. In the present 1991 Census, name of

C.D.Block has been included with a view to locate the town in the appropriate C.D.Block.

Statement II: Physical aspects and Location of Towns, 1989

Under physical aspects, annual rainfall and temperature particulars are furnished. These particulars were obtained from the Commissioner of statistics, Tamil Nadu, Madras. If the information is not available for any particular town, the nearest town for which it is available is given. For Col.(9), nearest city with population of one lakh and more is furnished according to 1991 census. For the other columns, figures obtained from the Municipal Commissioner and Panchayat Union Commissioners are given. The zero within brackets in columns, 10 and 11 denotes that the referent town itself is enjoying road transport facilities. In column 12, name of the navigable river/canal and its distance is indicated as follows: "Cauvery (R) -5". In this case, 5 is the distance in kms., of the navigable river Cauvery from the referent town. In brackets 'R' for river and 'C' for canal have been given.

Statement III : Municipal Finance, 1988-89

The civic administration status of the town, the receipt through tax, properties and powers, Government grants, loans, advances and other sources and the expenditure on general administration, public safety, public health, public works, public institutions and other public services are given in this statement. The sources of the receipts and expenditure are furnished in terms of rupees in hundreds.

Statement IV: Civic and other amenities, 1989

The civic and other amenities existing in the towns as in the town 1989 are given. The data were obtained from the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

Column - 3: Civic administrative status

It is also a new column introduced in 1981 to facilitate analysis during the 1981 Census

Column - 4: Population

It is also a new column introduced in 1981 to measure the amenities in respect of population.

Column- 5: Scheduled Caste and Scheduled Tribe population

It is introduced to know the size of the population of the weaker sections of the community

in the towns based on 1991 census population data. In this statement, information on road length, system of sewerage, number of latrines, method of disposal of night soil, protected water supply (source of supply, system of storage with capacity) and fire fighting service are also collected from the Municipal Commissioners and Panchayat Union Commissioners.

Electrification

In this column (col - 15, col- 19) electrification particulars were obtained from the Tamil Nadu Electricity Board through the Municipal Commissioners and Panchayat Union commissioners. The details are furnished below:

i) Domestic connections

This refers to the number of services given to house for domestic purposes like fans, lighting, etc.

ii) Industrial connections

This refers to the number of services effected to L.T. (Low Tension) Industries such as workshop, flour mills, oil mills, grinding machines, cotton ginning and engineering industries etc.

iii) Commercial connections

This refers to the service given to shops, business houses, public institutions like offices, schools and commercial establishments.

iv) Road lighting points

This refers to the number of points of street lights which are maintained by the board and for which consumption charges are paid to the board by respective local bodies. For some panchayats, the number of services effected alone has been furnished under street lights and not the points.

v) Other connections

This refers to the number of services effected for agricultural purposes, huts, public water supply systems, cottage industries etc.

Statement IV-A: Civic and other amenities, notified slums, 1989

This is a new statement on civic and other amenities in the notified or recognised slums of Class I and II towns introduced during 1981 census. Generally in cities or towns having slums, the local authority such as Municipality or Municipal Corporation or even the Development Authority notified the recognised slums. Such notifications are

linked up with the availability of funds from the Statement Government for slum clearance.

Name of the slum and the details of the area, population, length of the paved roads, system of sewerage, number of different types of latrines and method of disposal of night soil etc. are given in this statement.

Statement V: Medical, Educational, Recreational and Cultural facilities, 1989

In this statement, medical, educational, recreational and cultural facilities of the towns as in 1989 are furnished. The data for educational and medical facilities were obtained from the Municipal Commissioners and Panchayat Union Commissioners for the concerned towns, and from the Director of Secondary Education and Director of Public Health respectively. In medical facilities columns, the number of Hospitals/Dispensaries T.B. clinics etc. and number of beds in medical institutions etc. are furnished.

Under educational facilities columns, the number of Arts/Science/Commerce colleges, Medical colleges, Engineering colleges and Polytechnics were obtained from the State Education Departments are furnished.

Column 10: Recognised shorthand, typewriting and other vocational training institutions

Particulars were obtained from the District Industries Officers and Directorate of Employment and Training. The term, recognised refers to institutes recognised by some statutory authority like Education Department, Commerce Department, Labour Department etc. of the Government or by Semi-Government or autonomous bodies, public sector project etc.

Column 16: Number of working women's hostel with number of seats

This is a new column introduced during the 1981 census. Consequent on the increase in the employment of women in urban areas the housing need of working women has been considered as an important subject for study.

Cinema in column 18 refer only to the permanent cinema theaters and do not include the touring cinema.

Column 19: Community Halls have been added in this column as they are fast becoming a common feature of the urban land scope.

Statement VI: Trade, Commerce, Industry and Banking in 1989

In this statement, Trade, Commerce, Industry and Banking facilities in the town as in 1989 are furnished. Banking particulars were obtained from the Reserve Bank of India. The information on number of agricultural and non-agricultural credit societies were collected from the Registrar of Co-operative Societies through the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

Scope of Primary Census Abstract

The Primary Census Abstract as it is called, presents basic data for each village or segment of a village (in cases where such village segments form different panchayats) in the "Villagewise Primary Census Abstract" and for each ward/division of a town in the "Urban Primary Census Abstract". The format of the Primary Census Abstract for the villages and towns in 1991 has been slightly modified as compared to the 1981 Primary Census Abstract.

The Primary Census Abstract gives the details on area, number of occupied residential houses, number of households, total population, population in the age-group 0-6, SC/ST population, literates, total main workers, distribution of main workers by nine industrial categories, marginal workers and non-workers in respect of each unit with male, female breakup. In 1981, the main workers were classified in to four categories whereas in the 1991 Census they are classified into nine industrial categories as in 1961 and 1971 censuses. For the first time in this Census, the population in the age group 0-6 with sex breakup presented in PCA in order to arrive at the effective literacy rate, after excluding such persons as all the persons below seven years are treated as illiterate in this census. The urban/village Primary Census Abstract gives this information for each village and each urban ward. Till 1981 Census, the Primary Census Abstract was presented for each taluk and for each town in a district. But, in the 1991 census, the Primary Census Abstract for each CD Block is presented for the first time in the Indian Census. Besides these, separate Primary Census Abstract for Scheduled Castes and Scheduled Tribes which contain similar details as those in the PCA for general population are presented for District/Community Development Block/UA/City/Town.

With a view to enable data users to derive the figures for Panchayat the data are presented for segments of villages also. Wherever such segments constitute different Panchayat, the segment wise data have to be used separately or added with the data of some other segment so as to derive

panchayat data. For example a revenue village bearing L.C.No 9 constitute two different panchayats, the figures are given separately for each portion of the village constituting the panchayats against L.C.No 9 a/b and 9 b/b. The total figures for the entire revenue village can be arrived at by adding the figures given against both the segments viz. 9 a/b and 9 b/b. If, instead, the panchayat figures are required, the data for the concerned village segment or segments relating to the panchayats concerned are to be added up to arrive at the total figures for the respective panchayats. An appendix presented in the case of the Urban Primary Census Abstract and it gives 1991 population, Scheduled Castes and Scheduled Tribes population for each enumerator block of the town. This may be useful for administrative purposes and such data are also required by urban planners and researchers for conducting special studies in selected blocks.

Mode of presentation

At the beginning, the District Primary Census Abstract containing data for District and C.D.Blocks (for Total, Rural Urban areas) as also towns under each C.D.Block and at the end all the towns/U.As in the district are presented. In 1991 Census, the C.D.Blocks is the main unit of presentation of data instead of taluk which was the main unit till 1981 Census. The District PCA is followed by alphabetical list of villages for each C.D.Block in the district. This is followed by Village/Urban PCA. In the Village/Urban PCA, data for the first C.D.Block for total, rural and urban areas separately, followed by data for villages and census towns falling under each C.D.Block are presented. Thereafter, similar data for second, third and subsequent C.D.Blocks in the district are presented. At the end of the last C.D.Block, the Urban PCA containing data at ward level for all the towns and cities besides the data for UAs are presented. In an appendix to the Urban blockwise PCA, the population and Scheduled Castes, Scheduled Tribes figures for each Enumerator's Block of every town/city in the district are given. After the appendix to Urban PCA, the Talukwise PCA containing data for the District and each taluk in the district with Total, Rural and Urban breakup is presented, as such data are also sought after. This is followed by two annexures. Annexure-I contains Details of Community Development Blocks falling under each taluk and Annexure-II contains names of the villages/segment of villages constituting each town in the district.

Maps

Apart from the District Map given as frontispiece, maps for each taluks showing the villages their 1991 Location Code numbers and their boundaries are presented. The boundaries of the C.D.Blocks falling in the taluks are also shown. As

compared with the maps presented in 1971 and 1981 District Census Handbook, some improvements have been effected in the maps presented in this volume. All towns are shown in the district and taluk maps with shading screens and also spheres according to the population size of towns.

Area figures

In the District Primary Census Abstract, the area figures are given in square kilometers for total, rural and urban areas. In the villagewise Primary Census Abstract the area figures for each revenue village are given in hectares upto two decimals. The area figures for each town is given in Sq.Km in the Urban Primary Census Abstract. In the District Primary Census Abstract the area figures of the district total represent the "Geographical Area" figures supplied by the Surveyor General of India. Figures for urban areas and villages are those supplied by the local bodies and revenue authorities, respectively. The total of the urban (area) of a district has been arrived at by adding the urban area figures of each town within the district. Area figures for the rural areas of the district are derived by subtracting the urban area figures from the total area of the district. The area figures of each C.D.Block represent the area figures that are published in the concerned departmental publication of the State Government. The area figures of the C.D.Blocks will not add up to the district area figures because, the C.D.Block area figures represent the "Land use" area, while those of the district represent "Geographical Area", supplied by the Surveyor General of India. The total of the village areas given in the Village/Urban Primary Census Abstract may not tally with the rural area of the C.D.Block given, as the C.D.Block area figures include hills, forests, rivers etc. whereas the village area may not include the same.

One sq.km consist of 100 hectares.

It is hoped that the pattern of presentation of basic census particulars for each district as explained above and adopted in this volume would be found convenient by data users.

Part-A Brief analysis of the Village and Town Directory Data based on Inset Tables.

A brief analysis relating to certain vital population characteristics is made utilising the information Collected in the Village and Town Directory. A number of tables have been designed for this purpose. The tables are generated at the District/Community Development block level for the rural areas and in regard to urban areas, townwise particulars are presented.

DINDIGUL ANNA- AN OUTLINE

Dindigul Anna is a new district bifurcated from Madurai District in September 1985 as per G.O.Ms.No.1255 dated 2.9.85.

The Madurai district was bifurcated into two with effect from 15.9.85 and a new district was formed with its headquarters at Dindigul named as "Anna District" vide G.O.Ms.No.640 Revenue Department dated 22.4.85. Subsequently, this district was renamed as "Dindigul Quaide Milloth District" with effect from 27.3.89 as per G.O.Ms.No.448 Revenue Department dated 27.3.89. This district has again been renamed as "Dindigul Anna District" with effect from 18.7.91 vide G.O.Ms.No.1042 Revenue Department dated 18.7.91.

Palani, Vedsandur, Nattam, Dindigul, Kodaikanal and Nilakkottai taluks of Madurai district were transferred to newly created Anna District.

Dindigul Anna has an old history under the Naicker Kingdom of 1100 A.D. and was invaded by Tipu Sultan in the 17th Century. Palani the abode of Lord Muruga and Kodaikanal, the queen of hill stations, are its landmarks. The horticultural wealth of Sirumalai, vegetable and dairy products of Oddanchatram, jasmine and brassware of Nilakkottai, locks of Dindigul, the sarees of Chinnalapatti are famous all over.

The population of Dindigul Anna District is 1,760,601 with males 8,90,783 and females 8,69,818. The area of Dindigul is 6058 Sq. Kms.

The district constituted with three revenue divisions viz., Dindigul, Palani and Kodaikanal and six taluks viz., Dindigul, Nattam, Vedsand- ur, Nilakkottai, Palani and Kodaikanal.

Gifted with temperate, subtropical and tropical climate, the district has abundant horticultural area spread over to 47,000 hectares, fruit crops in about 16,000 hectares, vegetable crops in 13,000 hectares, plantation crops in 13,000 hectares, spices in 4,000 hectares and flowers in 1,000 hectares. With about 839 mm. of average annual rain fall, the major agricultural crops in the district are millets, pulses and groundnut.

Physical Features :

Dindigul Anna District is located between 10° 05' and 10° North latitude and 77° 30' and 70°20' East longitude. It is bounded by Periyar, Coimbatore Thiruchirappalli district on the North, by Pasumpon Muthuramalinga Thever and Thiruchirappalli districts on the East, by Madurai district and Kerala state on the West.

Kodaikanal Taluk

Kodaikanal is a hill resort. It is situated around the sylvan grandeur of the southern crest of the upper Palani hills immediately above Periyakulam town in the western ghats and well connected by road with all important towns.

Kodaikanal taluk was constituted in 1889. It consists of the upper and lower Palanis and is entirely a mountainous tract. It is a land mark in Dindigul Anna district. According to 1991 Census the population of the taluk is 98,598. The places of historical or antiquarian interest in this taluk are Kodaikanal and Pannaikadu.

Kodaikanal is about 7000 feet above the sea level. Although the first European who visited in 1821 the plateau and left record of his journey was Lieutenant B.S.Ward, but it was only in 1845 that its suitability for a sanatorium was recognised and houses began to be built. The first people to build houses were the American Missionaries of Madurai. In 1838 many of them had been compelled to take sick leave and to houses Jaffna. The mission actually proposed to purchase a special vessel to carry the invalids and the convalescents backwards and forwards. This idea was eventually abandoned in favour of the suggestion that a sanatorium should be established on the Sirumalais, that range being chosen on account of its propinquity to Madurai. Two bungalows were built here, but their occupants suffered from fever. In 1845, the Palanis were examined as an alternative site and two bungalows began to be constructed at Kodaikanal. Others followed them though slowly and by 1853 there were seven houses and number of houses rose to 10 in 1861. The chief difficulty was accessibility. The only route from the Palani was a steep bridle path starting from the foot of the Hills, five miles away from Periyakulam and passing through the village of Champahanur. Visitors had to walk up this path and all supplies and necessities had to be carried out on the same route.

The houses are built mostly round the sides of an irregular basin roughly a mile and a half long and a mile wide situated on the very edge of the precipitous southern side of the Palanis. From the top of the southern rim of this the plains are seen immediately below. Its northern side is high and steep on the west. It is bounded by a high ridge, but on the east the land falls rapidly away to the lower Palanis and discloses fine views of that range and of the steep square-topped peak of Perumal hill rising head and shoulders above all his fellows.

On the inner slope of the southern rim of the basin is a beautiful hanging wood called Kodai-kanal or Forest of Creepers. The bottom of the basin was originally swamp with a small stream passing through it. In 1863, this was formed into a lake by banking up the stream. Down into this picturesque sheet of water run from the sides of the basin several beautiful wooded spurs on which stand some of the best houses in the place. These spurs cause the lake to assume a shape something like that of a star fish and thus though nowhere much above half a mile across in a straight line, it is about three miles round measured along the level of road on its margin which follows its many indentations.

Round about Kodaikanal are several popular 'beautiful spots'; There are four waterfalls within reach namely the Silver Cascade on Law's ghat formed by the 'Parappar Stream' (into which runs the rivulet issuing from the lake) the 'Glen Falls' on a branch of the Parappar alongside the path northwards to Vilpatti the 'Fair Falls' on the Pambar to the southwest of the station and the 'Bear Shola Falls' 'Coaker's walk' (named after a Lieutenant in the Royal Engineers who was on duty in the district from 1870 to 1872) runs along the very brink of the steep southern side of the basin and commands wonderful views of the plains below. The 'Pillar Rocks' are three huge masses of a granite about 400 feet high which stand on the edge of the same side of the plateau three miles further on.

Between and below them there are several caves and from the top of them is obtained a superb view of the Aggamalai the precipitous sides of the Cumbum valley and the plains below. Here (and from Coaker's walk) the "Spectre of the Broken" is occasionally seen on the mists which drive up from below.

"Doctors Delight" a bold bluff about two miles further on commands a panorama which is claimed to be even finer than that from the pillar rocks. Fort Hamilton, (named after Major Douglas Hamilton the author of the sketches of the Palani Hills) nine and a half miles away on the southern side of the plateau is situated near a great lake which seems to have existed in former times. No record or even tradition of such a lake now survives but judging from the traces of its water line which still remain it must have been nearly five miles long from a quarter to three quarters of a mile broad and from 30-70 feet deep. It was apparently formed by the side of a hill slipping down into a valley which runs northwards to the Amaravati River and damming up the stream which ran at the bottom of it.

This stream seems to have eventually cut its way through the huge natural embankment so formed and thus emptied the lake it had itself once filled. The dam is about 200 yards long and the breach in it about 100 yards across and 90 feet deep. The site was recommended for a Sanatorium or Cantonment.

When the first settlers arrived there were naturally no roads but as the number of settlers increased several roads were constructed. The lake road which goes round the lake following its many indentations has already been mentioned. Above this are two principal lines of communication, one about half way up the slopes called middle lake road and the other still higher up the slopes and known as the upper lake road. These three roads are connected by many cross roads. There are four main routes out of the station. To the south-west a road goes towards the Pillar Rocks to the west, a road runs to Perumbarai twelve miles away to the north another road leads to Vilpatti a village perched among impossible precipices not far from a fine waterfall and to the east a road winds down to the plains by way of Neutral Saddle at the foot of the Perumal hill. This road joins the road running from Kodaikanal road railway station to the Kambam Valley near a place called Ganguvariopatti.

This road formerly stopped at the Neutral saddle. It was extended to the plains in 1914 and has subsequently been improved considerably. The length of this road on the hills is 48kms and the distance from the foot of the hills to Kodaikanal road railway station is 32k.m. It is now the main route along which travellers and goods from the plains go to Kodaikanal. Visitors used to travel from the railway station in bullock carts to Krishna Nayakkars Tope at the foot of the ghat, 5 miles distant from Periyakulam.

This part of the journey was not free from dangers as the road passed through villages inhabited by thieves/robbers. The journey up the hills was made in sedan chairs or on ponies. The journey was made at night in order to avoid the scorching sun. Now the journey takes only three or four hours by motor car or bus.

The rainfall in Kodaikanal is higher than that of other areas, mostly received during the north east monsoon. The mean humidity and mean daily temperature are lower at Kodaikanal than in the rival and the cold in the wet months is less bleak and searching. It has also got the advantage of a fine view of the plains and salubrious climate.

In the wild land to the westward or the Travancore side which is shut off by two high ridges and also nearer Kodaikanal are vary many prehistoric kistraens and dolmens.

Those are nearer to Kodaikanal were discovered the southwest of Perumal Hill, especially along an old trace towards Vilpatti and at Palamalai, Machur, Pannaikadu, Tandikudi, Kamanur and Pachalar. They are stated to be different from similar monuments found in other places.

Erected by preference on a level outer of rock each group of dolmens (box-shaped) constructions open at one side and made of roughly dressed slabs of stone is usually enclosed by rectangular (more rarely circular) walls made of similar slabs set upright in the ground, the dolmens themselves are larger than usual an average specimen being found to measure 8 feet by 3 feet and its capstan 11 feet by 6 feet, they are sometimes arranged in double parallel rows to prevent the heavy cap-stone from crushing its supports. The space between the several dolmens in each group and between them and the enclosing walls is filled in to a height of some three feet with rubble and earth. Embedded in this rubble occur stone receptacles, without tops made of four upright slabs arranged in the four of a square with a fifth for flooring and measuring some 3 feet each way and 5 feet in height and some of the groups are surrounded outside the enclosing wall of slabs by small heaps of stones (about 2 and half feet square and 1 foot high) placed at regular intervals in the form of a square.

Searches within these remains resulted in the discovery of little beyond small fragments of red and black pottery of five or six different patterns and a rust eaten sickle identical with those found in some of the Nilgiri. Cairns no bones were found nor cup marks Swastika designs inscriptions or sculptures of any kind. Besides these dolmens Kistracus (constructions walled in on all four sides and floored and roofed with slabs) occur at Palamalai was found buried in the ground and unconnected with any other remains a large pyriform urn containing two small shallow vases, and in several places are low circles of earth and stones which may perhaps have been threshing floors of cattle kraals.

As has been stated already the first houses at Kodaikanal were built in 1845 by the American Missionaries. Some English officials followed suit. Among these may be mentioned Mr. Vene Henry Teringe who was the Collector 1860 and 1867. After his retirement in 1867 when he settled at Kodaikanal and he took the greatest interest in the station and also an inscription on the cross erected to his memory relates most of the improvements in it were due to him. He made the lake (mainly at his own expense) and completed the bridle path from Periyakulam cut a path to Bambadi Shola along the southern crest of the plateau constructed several roads. Within the station itself and did much to introduce European fruits and flowers. The first Governor to visit Kodaikanal was Sir Charles Trevelyan. He went up the bridle path in 1860 and recorded his impressions in a delightful manner. He wrote "The Climate is equal to the best climates of the Indian Mountain Regions. The vegetation has a much closer analogy to that of England than is the case at Simla. The fern the bramble violets and several kinds of moss grow wild here as they do at home. The

nettle and cowslip assume Brobdignagian proportions and fruits strangely similar in appearance and taste to the wortleberry and gooseberry grow up on trees. The nettle will sting here which it won't at Simla. Mixed with there are the Rhododendrom which here really deserves to be called a "Tree Rose" the magnolia and other products of a more genial clime. These hill stations would not be temporary sanatorium to persons who have been relaxed by the heat of the plains, if the air were harsh and bleak as it often is in England. The flora here is beautiful. At one small spring, I saw gentians of two kinds everlasting flowers and wild bahams besides other flowers. Europeans have not settled here to grow them for sale in the plains. The turnips also are excellent and every English vegetable and fruit except gooseberries may be cultivated with advantage."

In 1856 the American Mission built a church. This was used by the members of the Church of England. It was replaced by another church in 1896 and shortly afterwards it fell down. In 1863 Roman Catholics also made a special arrangement to build a church. Bishop Caldwell obtained a grant on Mount Nebo for a site for the Church of England.

In 1895 the Jesuits built a Theological college at Charupakavur a hamlet situated near the bridlepath and directly below the hill station. Some two miles from the station on a hill above the road to Pumbarai is situated the observatory of the meteorological department. It was shifted from Madras to this place at the beginning of this century as the place having been found to be preferable on account of its more equable temperature and greater freedom from mists.

It has developed rapidly into one of the more popular summer resorts. Clubs, hotels, golf clubs rowing boats and other amenities are now available for visitors during the season.

Dindigul Taluk :

Dindigul is the second largest town of the district. It is the headquarters of the taluk and Revenue Divisional Office. It is the junction of the Thiruchirappalli Madurai and Dindigul-Palghat railways. It is situated between Palani and the Sirumalais. Its climate is considerably cooler and drier than that of any other large town in the district. It derives its name from and in olden days owed its importance to the great isolated fortress-crowned rock which stand at its western end and dominates the whole of it. This rock is called "Tindu-kal" meaning pillow rock from its supposed resemblance to a pillow. This is a historical monument located on the western side of Dindigul providing a majestic look and landmark to this town. Lockmaking and tanneries are the traditional

industries of this district. The rock is almost bare of vegetation and this gives it (in some lights) a forbidding appearance.

The fortifications which are treated as protected monuments enclose the whole of the upper part of the rock and are reached by a flight of 600 shallow steps cut on the face of the bare rock. At the top of this flight of the steps is the one and only gate into the fort over which is inscribed, in Persian the usual Muslim profession of faith and a prayer to the almighty to guard the place from harm. The walls of the fort are of brick and stone and run round the crest of the whole rock except in one place at the thicker and which is so precipitous and overhanging as to render artificial protection unnecessary. There are only a few buildings inside the fort, the most important of them being a series of bomb proof quarters with barred roofs sunk below the walls and placed practically underground. Rebellious Palayakars and other state prisoners used to be confined in them. There are some days fissures in the rock which contain water even in the driest season. On the very top of the hill is a dilapidated temple dedicated to Abiramiamman which contains two inscriptions, one relating to the Pandyan times and another King Achyuta of Vijaya Nagar (1538). It is believed to have been originally a Siva temple built by the Pandyan whose architecture it resembles.

The Goddess seems to have been installed in it only during Vijayanagar period. The image of the temple is supposed to have been removed to the town (where it still remains) by Tippu Sultan so that spies might have no excuse for going into the fortress. The fortress is believed to have been built by Tirumalanayaka of Madurai (1623-1659) and improved by Saiyid Sahib when he was incharge of the Country from 1784-1790. The British strengthened it further in 1797-1798.

There was formerly an old fort believed to have been built by the Nayakas. It was defended by a strong round wall faced with stones and provided with eleven bastions and a deep dry ditch. South of the rock near, a small mosque in Begumpur, stands a Muslim court on which Persian inscription states that it is the grave of "Anir-un-Nissa" Begum, wife of Mir Razahi Khan, (generally called Mir Saheb) who was the husband of Hyder Ali's wife's sister and rentier of the Dindigul country from 1772-1782.

Under the Western scarp of the rock is the shrine of a Hindu Sanyasi known as "Sathiaswami or Atha Swamigal". He belonged to a family which had served for several generations to the Zamindar of Balasundaram in Palani Taluk and came to Dindigul towards the end of the last century and lived there for about 25 years. Puja is performed at his tomb and in a small temple situated in a cavity of the rock which is

maintained by public subscriptions. Between the fort rock and the town lay in former days of the parade ground.

Until the middle of the eighteenth century Dindigul fort remained in the possession of the Nayakas of Madurai. In the reign of Tirumala Nayaka (1623 - 1659) the Mysoreans attacked the place and were repulsed by Ramappayya, Tirumala's well known General. In 1736 Chanda Saheb seized the territory of the Nayakas and placed his brother Sadak Saheb in charge of Dindigul.

In the constant wars which followed the importance of the fort as a strategical point in the only pass between Coimbatore and Madurai led to frequent changes in its possessions. During the troublous times which ensued up on the Maharashtra attack upon Chanda Saheb, Rama Nayakha an insignificant palayagar of Uthamapalayam surprised the place. This appears to have happened in 1741. Soon afterwards the Mysore government sent a force under "Birki Venkat Rao" into the country and the officer then in charge of the fort, Mir Inam Ulla gave it upto him without resistance.

In 1755 Venkatappa, the Mysorean officer, in command of it reported that the Palayagars round about were very obstreperous and Hyder Ali was sent to bring them to their senses. He used Dindigul as his base. It was his first important command and the first step in his career of ambition which led him ultimately to the throne of the Mysore. He quoted the Palayagars with great ease and for some years afterwards used Dindigul as a centre for his operations against the Madurai country proper.

In 1757 he scattered out from it, took Sholavandan and plundered the country upto the walls of Madurai but he was forced back by Mohammed Yusuf Commandant of the company's sepoy. In 1760 he marched out and attacked Vathalagundu but he was driven back again by the same officer.

In 1767 Dindigul first fell into the hands of the English, the pettah being taken by escapade on 3rd August and the fort surrendering on the following day.

It was seized by Hyder Ali in 1768. Subsequently, Tippu Sultan came to Dindigul in 1788 to collect arrears of tribute due from the Palayagars and sequestered many of their estates.

The town has become place of several Christian Missions and industries.

Nilakkottai Taluk :

Nilakkottai taluk is surrounded by Sirumalais, Alagarmalais and Nagamalais. It is also very fertile with plenty of water. The Manjalar and the Vaigai run through it. The important Peranai and Chittanai dam across the Vaigai are situated in this taluk and much of its southern part is irrigated by the Periyar water.

The population of this taluk is 227,976 according to 1991 Census.

Being the headquarters of the taluk it was the chief village of the estate of the same name which was one of the twenty-six palayams of the old "Dindigul Province". According to one of the Machenzie manuscripts, the founder of the palayam came from the Vijayanagar country before the times of the Viswanatha Nayaka and built a mud fort, the remains of which are still visible. His successors (sculptures of some of whom are still to be seen in the Ahobila Narasimha Shrine in the village) strengthened this fort, built temples and assisted the Nayakas of Madurai in their military expeditions. The Palayam was resumed under Hyder Ali's rule, but it was restored to the owner when the English obtained the country. Shortly afterwards, the Palayam (Kulappa Nayaka) fell into arrears and in 1795 his palayam was resumed. He has openly rebelled and in 1798 attacked the Nilakkottai fort (one of the strongest in the Dindigul country) with a force of six or eight thousand Kallars from the Anaiyur country armed with "small jingalls, match locks, spears". The fort was garrisoned with a company of sepoys under a subedar and 300 sibbandi peons under the Tahsildar. These managed to beat off the attack after some hours of hard fighting. The troops were reinforced the same day and they perused the Palayagar but they failed to catch him. A reward of Rs.1,000/- was put up on his head but it was not availed. Three years later, the Palayagar presented himself before the collector under the guise of a mendicant besought his protection.

He was granted an allowance of 30 pagodas a month and permission to reside in his former capital.

In 1805, the Collector restored to him a large sum which had accrued to the estate during his absence from it and with this he bought back his old property and Vathalagundu as well.

Seven years later, however, the fresh task on these was again in arrears and they were once more resumed and the Palavagar granted an allowance.

Palani Taluk :

Palani lies in the north-west corner of the district. It was formerly called the Aiyampatti taluk. Its population

is 417,195 according to 1991 Census. Along the whole of its southern boundry run the Palani Hills and its slopes northwards away from there and is drained by the three parallel rivers Shanmuganadi, Nallatangi and Nangaji - which flow down from their slopes. The taluk receives less rain than any other and is consequently affected in years of drought.

Palani, the headquarters of the Taluk, is known through the State as serene majesty of Lord Murugam an abode of peace and tranquillity. The town is one of the most charming with its temple Lord Palani Andavar standing more than 1000 feet above the sea on the edge of a great tank called the Vijayapuri tank and looking across towards the mouths of the two largest valleys in the Palani and the bold cliffs which separate them. Round the hillock runs a road adorned at intervals with many mandapams, several of which contain great stone images of the peacock, the vahanam of Subramanya. Up the hill is built a winding flight of stone steps on which are cut the names and foot prints of many devotees and which is flanked on frequent intervals by mantapams and lesser shrines. A story is current about queen Mangammal. One day when she was going up these steps she came upon a young man, who perceiving her, retreated in confusion called out graciously to him IRUNKOL (Praywait). He and his descendants thereafter always took her, word as their name.

The magnificent view of the temple with a gopuram is enchanting. The Sthalapuram of Palani contains the following legend regarding origin of the temple. Agasthiya the famous Rishi created the hill called Sivagiri on which the temple stands and the slightly lower eminence now called "Idumbanmalai", did penance on them for sometime and then went to Mount Kailas to visit Siva. On his return to his home at the southern end of the Western Ghats he sent his demon servant Idumban to bring these two hills together. Idumban fixed them to either end of a Kavadi (the pole by which burdens are slung across the shoulder) but when he began to lift them he found that Idumbanmalai went up in the air while Sivagiri remained immovable. Thinking that the latter must be too heavy he put two big boulders (still to be seen) on the top of the former to make the balance better.

Sivagiri was, however, still immovable so he went to it to see what was the matter. Meanwhile on Mount Kailas Siva had offered a pomogrenate to whichever of his two sons Subramanya and Ganesa could travel round the world the quicker.

Subramanya set off on his peacock at a great pace but Ganesa simply went round his father and claimed that as Siva was all in all he had by circumbulating him travelled round the world. He thus won the fruit much

to the chagrin of Subramanya. Siva attempted to console him by saying Palani meaning "Thou art thyself a fruit" (hence the name of the town) but he went away angrily to Thiruvavinangudi (near the foot of Sivagiri where there is now a considerable temple) and later on to Sivagiri itself. When Idumban went to this hill to see why it would not move Subramanya was there and he was much annoyed and at being disturbed. Agasthiya however hurried up and at his intercession the God restored Idumban to life and promised that in future the first worship on the hill should always be performed to him. This is still done at the little Temple to Idumban which stands about half way up the steps leading to the top of Sivagiri.

This story explains why pilgrims to Palani very generally bring with them a kavadi on their shoulder. The custom has, however, since been copied at many other shrines of Subramanya. The tale also shows what is in other ways clear that the Thiluvavinangudi Temple is older than of Sivagiri. According to a manuscript in the Mackenzie collection the latter was first set up as a shrine by a Kannada speaking Udaiyar and that for some time he conducted the worship in it. Eventually in the time of Tirumala Nayak he was induced to handover the actual performance of the pooja Brahmins and was given in return certain duties of superintendence and a right to receive certain annual presents and to short of at the Dasara festival, the arrow which symbolises Subramanya's victory over Idumban. His descendants have ever since performed this rite.

Steeped in antiquity, the Tiruvavinangudi shrine was rebuilt about fifty years ago, by the Nattukkottai Chettiars. The new sculpture executed in the fine grained granite quarried from Idumbanmalai is excellent.

Pilgrims come to the Subramanya Temple from all over the Country and especially from the West Coast. They generally bring milk and other offerings carried in sealed vessels hung on Kavadis. The milk is poured over the God's Idol.

Vedasandur Taluk :

Vedasandur lies 12 miles north of Dindigul. It is a corruption of Vedasandaiyur meaning the market village of vedars by whom and by the kallars this part of the country was formerly occupied. Its population is 256,232 according to 1991 Census. It is very busy place as it lies at the junction of the main roads to Palani and is one of the main halting places for pilgrims going to Palani Temple. Large crowds assemble in the village to welcome the pilgrims and the rich annual gifts to the Palani Temple sent by the Rajas of Tanjore and Pudukkottai which were escorted through the town in grand processions accompanied by music and dancing.

The place contains the ruins of an old fort which was stated to have had a high cavalier in the centre, commanding a fine prospect of the surrounding country. The land inside is now cultivated with tobacco.

Natham Taluk :

Natham is 23 miles north-east of Madurai, situated on a road which in olden days was the main route from Madurai to Tiruchirappalli. Population of this place is 119,222.

The place gives its name to the scattered story. "Nattam Hills" which surround it and to the "Nattam pass" which leads to Madurai between the Alagarmalai and the eastern spurs of the Sirumalais. Both of these were formerly great strongholds of the "Natham Kallars". In 1755 an expedition under Colonel Heron sent to quiet Madurai and Tirunelveli was, on its return ambushed at the pass which was described as one of the most difficult and dangerous defiles in the peninsular, and stated to continue for six miles through a wood, impenetrable everywhere else to all excepting the wild beasts and (Kallars) collories to whom it belongs".

The advance party of the expedition saw no enemy in the pass and so went on and halted at Nattam. The main body followed and had got well within the defile when one of the gun turnbils stuck in the mud. This blocked the other turnbils and the baggage and guns. Leaving one hundred men to guard them Colonel Heron allowed the rest of the troops to proceed. Shortly afterwards the kallars burst upon the small body from all sides and in spite of the firing maintained the attack with arrows, matchlocks, rockets, javelins and pikes. They stabbed the bullocks which drew the turnbils and broke upon the vehicles. In them, they found what was probably the cause of the attack-the idols-which the expedition has taken from the temple at Kovilkudi 6 miles east of Madurai. Many men were lost in the fight.

Textile Industry

Textile industry is the second largest employer after agriculture in our country. Cotton continues to be the dominant fibre used by the textile mills. Any short fall in cotton production and consequent increase in its price always have a telling effect on the performance of mills. Cloth consumption in India is going up and the county is also exporting fairly good volume of quality cloth.

In Dindigul the mills were in a disadvantageous position of being far away from the place of getting raw materials and also for sending back yarn for which they used road transport which was more expensive.

The total cotton production prior to independence was about 35 lakhs of bales each of which weighing 170 kgs. After independence the figure has gone up to 120 lakhs of bales. It meant that the mills have had to bring cotton from the north.

Madurai is a traditional textile industry centre, for example Sri Meenakshi Mills etc. After bifurcation of Madurai district Dindigul Anna district had been more propitious for textiles. More units have been installed in recent years two sides of Dindigul-Karur Road.

They also provide more employment opportunities to rural folk. Many textile owners complain that most of the loans are non-automatic and the cloth produced is not suitable either for garment industry or for exports. They always concentrate in local marketing.

Industrial Growth

Inspite of having a good network of roads, efficient and reliable facilities, dependable communication network, health services, educational facilities, training institutions and general marketing arrangements etc. Dindigul Anna district cannot be classified as industrially progressive. But sustained efforts taken by the entrepreneurs especially in the small scale sector have started yielding results in the last couple of years.

Tanning and lock making are the traditional industries of Dindigul Anna district. The requirement of hides and skins for tanning is met internally and procuring raw material from outside the district.

The flesh wastes are sold to reputed manufacturers of leather goods. Of late, the flesh is also put to industrial use. The National Small Industries Corporation has set up a training unit and a common facility centre for quality production with a view to improving the quality production with a view to improving the quality of the locks manufactured in this district. Apart from that the small industry service institute is also conducting various training programme for the benefit of small entrepreneurs.

At present, there are 10 functional industrial co-operative societies in this district in leather lock and polythene sector. Apart from the two SIDCO industrial estates at Dindigul and Batlagundu it has been planned to start an agro based industrial estate for small, large and medium scale units at Pallapatti village in Nilakkottai taluk

Artisan Guilds

Recognising the need for the emancipation of artisans particularly in the traditional trades, it has been approved, a proposal to form Artisan Guilds. These

would instill, self-confidence and the habit of interacting among the artisans. These members could be trained to improve their skills. Also they could provided with some common facilities such as machinery workshed, godown furniture and accessories etc.

In Tamilnadu, Dindigul Anna District was one of the nine districts selected for pilot projects and the Gandhigram Rural Institute had been identified as a nodal agency for the preparation and implementation of the wasteland project covering 400 hectares of land.

As per District Statistical Handbook 1990-91 there exist 380 factories with a man power of 23,044. There are 1,726 factories in the small scale sector having 16,832 employees.

Agriculture

The farmers in Dindigul Anna district seem to have shown a panchayat for onion to various other crops and this can be gauged from the fact that 41.60 acres of land are under onion cultivation in the district producing about 35,000 tonnes for one crop.

The peculiar feature of onion grown up in Dindigul Anna is the small sized varieties of onion usually utilized for preparing sambar and its peculiar and lingering taste also. Dindigul is the important and potential market centre for onions.

Tobacco

The farmers of Dindigul Anna district also evince keen interest in raising tobacco, because in the first place, the crop is paying. Secondly the crop requires not much water and thirdly the duration of crop is so short, that the farmers can get back the revenue within the shortest possible time.

The brackish water tolerance and slightly sandy soil help tobacco to become a popular crop among the farming community in Dindigul Anna District.

Floriculture

The practice of using flowers is predominant in Tamil Nadu be it for joyous or a sad occasion or for a festival etc. both religious and social purposes. In southern district, farmers, small and marginal in the districts of Madurai and Dindigul Anna district eke out a out living of floriculture since the raising of flowers is not labour intensive. Once the flowers are picked they have to be disposed of immediately as no storage facilities are available to keep them fresh.

Another constraint in bringing more areas under flower in this district is stated to be fluctuation in prices. Occasionally, during the marriage seasons, the prices will be more. But this phenomenon is only seasonal. Flowers such as Jasmine, rose, tuberose, chrysanthemum Gossandu and Mary gold are mostly used for garland making, hair adornment and worship.

Actually flower cultivation is labour intensive and also provide jobs for unskilled labour like old and disabled persons. There is also scope for exporting flowers and for extraction of natural perfumes from fragrant flowers. Silukkuwarpatti is famous for jasmine.

Tannery

Leather is one of the largest foreign exchange earning industrial sectors in our country in Dindigul. There are more than 60 units and it is one of the oldest crafts known to mankind. It has gained added impetus in and around Dindigul because of more animal population.

**Rural Electrification for the District
Electrified As on 31.3.1989**

District	Town	Villages	Hamlet	Total	Adi Dravidar Colonies
Dindigul Anna	38	999	4730	5767	1702

As per data available as on 31-3-89 a total number of 38 Town 999 Villages 4730 Hamlets have been electrified. 1702 Adi Dravidar colonies also have been electrified in the District.

There are 69 tanneries in and around this town and they provide jobs for 4500 workers directly and also helpful to more number of persons to eke out their livelihood indirectly.

Industrial Co-Operative Society

A model women industrial co-operative society functioning at Dindigul known as women polythene workers industrial co-operative society has enabled many families to augment their income. This society is manufacturing sheets and bags to be supplied to the Government Departments, Co-operatives and private institutions etc.

RIVERS

Vaigai, Kodaganaru, Varathamanthi, Parappalaru, Maruthanathi and Kuthiraiyaru are the Rivers passing in and around this district.

Climate and Rainfall :

Hot and dry climate generally prevails over the District. As the district is having hills and plains the climate varies. During summer season i.e. from March to July temperature is very high and December to January marks the winter season in which the temperature is below the mark.

**Rainfall statistics as on 1990
Comprehensive statement of Rainfall statistics**

District		1,564,448	1,226,171	338,277	1,760,601	1,383,580	377,021	+12.54	+12.84	+11.45	21.62	21.41

This table shows the decadal change in distribution of population among various taluks in Dindigul - Anna district. Among 6 taluks Kodikanal recorded the highest percentage of decadal growth with 17.96 and the lowest being Palani taluk with 10.98 Dindigul taluk has recorded highest population both in rural and urban areas. Vedasandur taluk has the least

urban population. As regards urban population Dindigul tops with 32.02% whereas Vedasandur possess the least urban population with 2.94%. Percentage of urban population decreased in two taluks namely Nattam and Dindigul when compared with that of 1981 figures.

Table - 4

Percentage distribution of villages by population ranges, 1991

Sl No.	Name of C.D.Block	No. and percentage of inhabited villages	No. and percentage of villages, in each range (figures in parenthesis indicate percentage of villages in each range)					
			Less than 200	200-499	500-1999	2000-4999	5000-9999	10,000 and above

12	Kodaikanal	16	-	-	1 (6.25)	10 (62.50)	5 (31.25)	-
13	Nilakkottai	27	-	1 (3.70)	9 (33.33)	7 (25.94)	9 (33.33)	1 (3.70)
14	Vattalkundu	15	-	-	1 (6.67)	9 (60.00)	4 (26.66)	1 (6.67)
District		357	8 (2.24)	9 (2.56)	106 (29.69)	133 (37.26)	82 (22.97)	19 (5.32)

This table furnishes the distribution of villages according to population ranges. Out of 357 inhabited villages less number of villages i.e. 8 and 9 are reported in the less population ranges of less than 200 and 200 - 499 respectively.

19 villages are reported in the thickly population ranges of 10,000. Rest of the ranges are fairly reported with 106 villages (500-1999), 133 villages (2000-4999) and 82 villages (5000-9999) respectively.

Table - 5
Distribution of villages by density

Range of density (per sq.km)	Total no. of villages in each density range	Percentages of villages in each density range
1	2	3
0 - 10	6	1.68
11 - 20	-	-
21 - 50	6	1.68
51 - 100	18	5.04
101 - 200	85	23.81
201 - 300	85	23.81
301 - 500	90	25.21
501+	67	18.77
Not known	-	-
Total	357	100.00

Table - 5 presents the distribution of villages by density ranges. There are 90 villages in the range of 301-500 followed by 85 villages each in the range of 101-200 and 201-300 while

only 6 villages each in the range of 0-10 and 21-50 respectively. There are 67 villages in the highest density range of 501+.

Table - 6 (A)
Sex ratio for rural population of C.D.Block, 1991

Sl. No.	Name of C.D.Block	Number of females per 1000 males
1	2	3
1.	Oddanchatram	988
2.	Palani	973
3.	Thoppampatti	978
4.	Vadamadurai	976
5.	Vedasundur	1,006
6.	Guziliamparai	997
7.	Nattam	980
8.	Attur	989
9.	Dindigul	970
10.	Reddiarchatiram	979
11.	Shanarpatti	984
12.	Kodaikanal	951
13.	Nilakkottai	974
14.	Vattalkundu	961
District		976

It can be seen from this table that Vedasundur is the only C.D.Block in this district having an adverse sex ratio i.e. 1,006 females per 1,000 males, while the figure for the district is 976.

Table - 6 (B)
Sex ratio for towns, 1991

Sl. No.	Name and civic administration status of town	Number of females per 1000 males
1	2	3
1	Chinnalapatti (TP)	1,024
2	Dindigul (M)	967
3	Kiranur (TP)	1,134
4	Kodaikanal (MTS)	891
5	Nattam (TP)	971
6	Nilakkottai (TP)	944
7	Palani (M)	982
8	Sivagripatti (VP)	864
9	Vattalkundu (TP)	978
10	Vedasandur (TP)	962
All Towns		967

Table 6B shows the adverse sex ratio in Kiranur (TP) with 1,134 females, and Chinnalapatti (TP) with 1,024 females per 1,000 males. Kodaikanal (MTS) has the least female population of 891 per 1,000 males respectively.

Table - 7
Proportion of Scheduled Caste population to total population in the villages

Percentage range of Scheduled Caste population to total population	Total no. of villages in each range	Percentages of villages in each range
1	2	3
Nil	16	4.20
0 - 5	16	4.48
6 - 10	33	9.52
11 - 15	60	16.81
16 - 20	66	18.49
21 - 30	93	26.05
31 and above	73	20.45
Total	357	100.00

This Table - 7 indicates the proportion of Scheduled Caste population to total population in the villages. There are about 93 villages in the range of 21-30 followed by 73 in the range of 31 and above reflecting 26.05% and 20.45% respectively.

Table - 8
Proportion of Scheduled Tribe population to total population in the villages

Percentage range of Scheduled Tribe population to total population	Total no. of villages in each range	Percentages of villages in each range
1	2	3
Nil	283	79.27
0 - 5	64	17.93
6 - 15	10	2.80
16 - 25	-	-
26 - 35	-	-
36 - 50	-	-
51 and above	-	-
Total	357	100.00

Table 8 shows proportion of Scheduled Tribe population to total population in the villages. We can find there are 64 villages in the range of 0-5 reflecting 17.93% followed by 10 villages in the range of 6 - 15 reflecting 2.80% respectively whereas 283 villages possess nil S.T population

Table - (9) :
Percentage of Scheduled Caste / Scheduled Tribe population in towns, 1991

Sl No.	Name of Town	Total population	Total Scheduled Caste population	Total Scheduled Tribe population	Percentage range of Scheduled Caste population to total population	Percentage range of Scheduled Tribe population to total population
1	2	3	4	5	6	7
1	Chinnalapatti	22,866	1,261	5	5.51	0.02
2	Dindigul	182,477	11,028	380	6.04	0.21
3	Kiranur	6,598	2,319	59	35.15	0.89
4	Kodaikanal	27,423	4,357	27	15.89	0.10
5	Nattam	19,105	3,405	6	17.82	0.03
6	Nilakkottai	14,770	2,702	642	18.29	4.35
7	Palani	68,907	9,556	232	13.87	0.34
8	Sivagiripatti	7,302	726	111	9.94	1.52
9	Vattalkundu	20,032	1,253	5	6.26	0.03
10	Vedasandur	7,541	1,017	5	13.48	0.07
All Towns		377,021	37,624	1,472	9.98	0.39

Table - 9 depicts the percentage of Scheduled Caste/Scheduled Tribe population in towns during 1991 Census. Dindigul Town has recorded the highest growth of Scheduled Caste population with 11,028 for its total population of 182,477. The percentage of Scheduled Caste population to total population ranks the most 35.15 in Kiranur town. Sivagiripatti is the only town in this district where meagre population of Scheduled Caste (726) has been recorded. It may be noticed that Chinnalapatti has recorded the lowest percentage of Scheduled Tribe population to total population being 0.02.

Table 10(A)
Literacy rates by rural population of C.D. Blockwise, 1991

This table represents the proportion of rural population served by various amenities. All the inhabited villages in the district having Drinking water facility and power supply, out of 1,383,580 population. Education , Medical, Post and Telegraph. Communications Approach by pucca road facilities are enjoyed by 1,377,792, 1,103,334, 1,264,056, 1,342,381 and 1,329,802 population and works out to 99.58% 79.74% 91.36% 97.02% and 96.11% respectively. And at the same time the Market Hat facility is availed by 369,683 population which works out to 26.72 percentage only

Table 14

Distribution of villages not having certain amenities arranged by distance ranges from the places where these are available

Villages not having the amenity of	Number of Villages where the amenity is not available and available at a distance of			
	- 5 km	5 - 10 km	10+ - km	Total (Cols 2-4)
1	2	3	4	5
Education	16	-	-	16
Medical	93	26	12	131
Post and Telegraph	66	4	4	74
Market/Hat	167	81	54	302
Communication	26	5	4	35

This table provides information about the distribution of villages not having certain amenities arranged by distance ranges from the places where these are available. Education facility which is not available for 16 villages do avail the, same at a distance of less than 5 Km. Out of 131 villages which do not enjoy the medical facility 93 avail at a distance of less than 5 Km, 26 at a distance of 5-10 Km. and 12 at 10 + Km. Post and Telegraph facility is being enjoyed at a distance of less than 5 Km. by 66 villages and 4 villages each at a distance of 5 - 10 and 10 + Km by 4 villages. Market / hat is being availed at less than 5 Km by 167 villages, 5 - 10 Km. by 81 villages and 10 + Km by 54 villages respectively.

Table 15

Distribution of villages according to the distance from the nearest town and availability of different amenities

5000 +	101	101 (100.00)	88 (87.13)	101 (100.00)	98 (97.03)	32 (31.68)	100 (99.01)	100 (99.01)	101 (100.00)
Total	357	341 (95.52)	226 (63.31)	357 (100.00)	283 (79.27)	55 (15.41)	322 (90.20)	318 (89.08)	357 (100.00)

Table 16 indicates the population ranges and amenities available within the district. There are 357 inhabited villages in the district. Out of that 341 villages are provided with educational facilities, Which work out to 95.52% ,out of 357 villages medical facilities are available to 226 villages. All the 357 villages are possessed with drinking water as well as power supply. As regards communication, approach by pucca road and post and telegraph facilities are available to 322, 318, 283 villages respectively, whereas Market/Hat facility is available in 55 villages only, which accounts to 15.41% .

Table 17
Distribution of villages according to land use

Sl.No.	Name of C.D. Block	No. of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1.	Oddanchatram	39	47,964.40	66.47	48.11
2.	Palani	34	40,827.12	63.19	49.96
3.	Thoppampatti	40	56,858.35	70.44	57.36
4.	Vadamadurai	21	25,738.12	75.89	48.58
5.	Vedasandur	23	31,418.14	70.74	47.12
6.	Guziliamparai	19	37,988.57	65.90	40.71
7.	Nattam	24	32,392.00	49.16	25.01
8.	Attur	21	23,625.83	53.41	36.50
9.	Dindigul	21	44,401.28	27.50	47.97
10.	Reddiyarchatiram	25	67,414.29	29.97	34.31
11.	Shanarpatti	32	39,298.56	34.88	41.02
12.	Kodaikanal	16	37,446.16	58.74	11.88
13.	Nilakkottai	27	23,987.07	72.43	54.16
14.	Vattalkundu	15	18,998.62	65.21	37.02
District		357	528,358.51	55.07	40.07

Figures set out in this table reflect the distribution of villages according to land use. Out of 14 C. D. Blocks Reddiyarchatram C. D. Block has got largest area with 67,414.29 hectares whereas Vattalkundu C. D. Block recorded lowest area with 18,998.62 hectares. Vadamadurai C. D. Block has got the highest percentage of cultivable area to total area with 75.89% whereas the lowest is reported in Dindigul C. D. Block with 27.50. Moreover 9 C. D. Blocks have more percentage of cultivable area to total area when compared with that of the district. Likewise highest percentage of irrigated area to total cultivable area is reported in Thoppampatti C. D. Block with 57.36 whereas the lowest percentage of irrigated area to cultivable area is reported in Kodaikanal C. D. Block with 11.88. Like cultivable area, irrigated to cultivable area is also over and above the district's average of 40.07 in 9 C. D. Blocks.

Table 18
Per Capita Receipt and Expenditure In Towns

10.	IV Vedasandur (TP)	76.20	20.78	55.42	69.61	24.73	27.11	6.84	-	10.93		
All Towns		161.33	75.37	85.96	159.94	21.50	47.18	12.84	15.85	62.57		

This is a table containing detailed account of budgetary statements in towns of Dindigul Anna district. The expenditure in respect of Palani (M) exceeds both the receipt from taxes and all other sources.

TABLE 19

Schools Per 10,000 Population in Towns

Sl. No	Class, Name and Civic Administration Status of Town	Higher Secondary / Inter / PUC/ Junior College	Secondary / Matriculation	Junior Secondary/ Middle	Primary
1	2	3	4	5	6
1.	III Chinnalapatti (TP)	0.44	0.87	1.31	1.75
2.	I Dindigul (M)	0.55	0.82	0.93	2.08
3.	V Kiranur (TP)	1.52	1.52	3.03	4.55
4.	III Kodaikanal (MTS)	1.46	2.55	2.92	5.11
5.	IV Nattam (TP)	1.05	1.05	1.57	4.19
6.	IV Nilakkottai (TP)	1.35	1.35	2.71	3.39
7.	II Palani (M)	0.29	1.02	1.02	2.18
8.	V Sivagiripatti (VP)	-	-	-	2.74
9.	III Vattalkundu (TP)	1.00	1.50	2.50	3.00
10.	IV Vedsandur (TP)	1.33	2.65	2.65	3.98
All Towns		0.66	1.09	1.35	2.60

This table 19 deals with existence of Educational Institutions per 10,000 population in towns. Kodaikanal (MTS) ranks high in respect of Primary Schools per 10,000 population, while Vedsandur tops high in Secondary/ Matriculation with 2.65. Kiranur tops high in Junior Secondary/Middle with 3.03 and Kodaikanal ranks first in Primary with 5.11 respectively. Sivagiripatti (VP) is the only town in this district which has only primary schools (2.74).

Table 20
No. of beds in medical institutions in towns

Sl.No	Class, name and Civic administration status of the town	No. of beds in medical institutions per 1,000 population
1	2	3
1	III Chinnalapatti (TP)	7.26
2	I Dindigul (M)	3.39
3	V Kiranur (TP)	1.52
4	III Kodaikanal (MTS)	3.35
5	IV Nattam (TP)	0.52
6	IV Nilakkottai (TP)	2.71
7	II Palani (M)	4.27
8	V Sivagiripatti (VP)	-
9	III Vattalkundu (TP)	2.55
10	IV Vedsandur (TP)	1.33
All Towns		3.42

This Table 20 indicates the availability of beds in medical institutions in towns. Chinnalapatti (TP) in this district can boast of highest number of beds with 7.26 per 1,000 population followed by Palani (M) with 4.27.

Sivagiripatti (VP) is the only town in this district where no medical facilities exist.

Table 21
Proportion of slums population in town

Sl.No	Class, name and Civic administration status of town*	Proportion of the Slums population to total population of the town	Density in Slum (per Sq.Kms.)
1	2	3	4
1	I Dindigul (M)	2.68	2531
2	II Palani (M)	1.73	2598
Total		2.42	2544

* For class I & II Towns only.

This Table gives relevant statistical information in respect of proportion of slum population in this district and its density.

Table - 22

Most Important Commodity Manufactured, Imported and Exported in Towns

Sl No.	Class, name and civic administration status of town			Most Important Commodity		
				Manufactured	Exported	Imported
1	2			3	4	5
1.	III	Chinnalapatti	(TP)	Steel Furniture	Steel Furniture	Yarn
2.	I	Dindigul	(M)	Locks and Iron Lockers	Finished Leather	Grocery
3.	V	Kiranur	(TP)	---	---	---
4.	III	Kodaikanal	(MTS)	---	---	---
5.	IV	Nattam	(TP)	Cotton Seed Oil	Ground nut	Vegetables
6.	IV	Nilakkottai	(TP)	Vessels	Metal Powder	Brass Plates
7.	II	Palani	(M)	Siddha Medicine	Waste hair	Flowers
8.	V	Sivagiripatti	(VP)	----	---	---
9.	III	Vattalkundu	(TP)	Coconut Oil	---	Coconut
10.	IV	Vedasandur	(TP)	---	----	--

This table furnishes comprehensive list of commodities manufactured, imported and exported in all the towns of Dindigul Anna District.

PART - A

Section II - Town Directory

Note explaining the codes used in the Town Directory

Class of towns by population

Population		Class
1,00,000	- and above	I
50,000	- 99,999	II
20,000	- 49,999	III
10,000	- 19,999	IV
5,000	- 9,999	V
Below	5,000	VI

Civic administration status of the town

M.Corp	--	Municipal Corporation/Corporation
M	--	Municipality
TP	--	Town Panchayat
VP	--	Village Panchayat
TC	--	Town Committee/Town Area
CB	--	Cantonment Board/Contonment

Type of Road

PR	--	Pacca Road
KR	--	Katcha Road

System of Sewerage

S	--	Sewer
OSD	--	Open Surface Drains
BSD	--	Box Surface Drains
SD	--	Silk Drains
CD	--	Cesspool method
Pt	--	Pit System

Method of disposal of night soil

HL	--	Head Loads
B	--	Baskets
WB	--	Wheel Barrows
ST	--	Septic tank latrines
S	--	Sewerage

System of Storage of water

OHT	--	Overhead tank
SR	--	Service reservoir
IG	--	River infiltration gallery
BWP	--	Borewell pumping system
PT	--	Pressure tank

Source of drinking water

TW	--	Tube well water/Hand pump
T	--	Tap water
W	--	Well water
TK	--	Tank water

Medical facilities

H	--	Hospital
D	--	Dispensary
HC	--	Health Centre
FC	--	Family Planning Centre
TB	--	T. B. Clinic
NH	--	Nursing Home
O	--	Others
A	--	Ayurvedic
U	--	Unani

Educational Facilities

A	--	Arts only
S	--	Science only
As	--	Arts and Science only
C	--	Commerce only
AC	--	Arts and Commerce only
ASC	--	Combined for all categories Arts Science and Commerce
L	--	Law

Recognised shorthand, typewriting and other vocational Institutions

SH	--	Shorthand
Type	--	Typewriting
Sh.Type	--	Shorthand and Typewriting
O	--	Others

Public Libraries and reading rooms

PL	--	Public Libraries
RR	--	Reading Rooms
