FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations/modifications after each decennial census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Government/Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (wardwise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district, administrative statistics, census tables and Village and Town Directories, including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third Part (C) of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981, some new features along with the restructuring of the formats of Villages and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of villages and towns (wardwise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity, were brought together in the Village Directory and if an amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time during 1981 Census in the Village Directory so as to give an idea about

the number of inaccessible villages in each district. In case of Town Directories also, keeping in view the requirements of the Minimum Needs Programme, a Statement (IV-A) on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this statement, details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Caste and Scheduled Tribe population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rate as all children below 7 years of age have been treated as illiterates at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Block-level presentation of data in the Village Directory and PCA instead of the traditional Tehsil/Taluk/PS level presentation. It is expected that the presentation of village Directory and PCA data at C.D. Block level will help the planners in formulation of micro-level developmental plans, as the C.D. Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village have been provided for the 1991 Census along with the corresponding codes of 1981.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled under the direction of Shri. K. Sampath Kumar, Director of Census Operations, Tamil Nadu, on behalf of the

State Government which has borne the cost of printing. The task of planning, designing and co-ordination of the publication was initiated by Dr. K.P. Ittaman, former Deputy Registrar General (Social Studies) and Shri M.M. Dua, Joint Director. For the sake of uniformity in presentation of information/data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of census/non-census data, a model District Census Handbook from each state and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K. Jain, the present Deputy Registrar General (S.S.). This task was carried out by A.K. Singh, Deputy Director who was assisted by Shri. N.S. Soam, Assistant Director and his staff. Technical guidance in the preparation of the maps was initially provided by Dr.B.K. Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi
June 11, 1992.

A.R. NANDA
Registrar General, India

PREFACE

The District Census Hand Book is the most useful publication for the public, social workers, researchers, academicians, administrators, local bodies and the government officials for various official and non-official purposes. It gives data for the village/ panchayat at the lowest level to the district level including panchayat union/taluk covering demographic, social, economic and cultural aspects. There had been an endeavour to make it as comprehensive as possible, to provide data on various aspects since its inception and by 1961, it reached the dimensions of a compendium for the district. The Registrar General, India, in his foreword has kindly traced out the improvements brought out from time to time since 1961 to the latest 1991 Census while the history of the District Census Handbook in this State is narrated in the Introductory Chapter to this volume.

The District Census Handbook is a joint venture of the Census Organisation and the State Government of Tamil Nadu. The scope of District Census Handbook has been widely increased and restructured in 1981 to meet the Minimum Needs and Revised Minimum Needs programmes of the Planning Commission. Broadly keeping up the 1981 main structure, the formats of the Primary Census Abstract have been re-structured slightly for the benefit of data users. The nine-fold industrial classification of main-workers as done at the 1961 and 1971 Censuses has been revived instead of the four-fold classification of the 1981 Census. Population in the age-group 0-6 by sex has been given in order to enable computation of realistic literacy rate as all children below 7 years are treated as illiterates. One of the most important innovations of the 1991 Census is the presentation of data at the Community Development Block/Panchayat Union level to help planners in the formulation of micro-level developmental plans at the lowest administrative unit level. In this State, for developmental planning, the lowest administrative unit is the 'Panchayat Union'. This time, for the benefit of data users of Village Directory and PCA data from the magnetic tapes/floppies or from the published records, the Computer Code as well as the Manual Code as of 1991 Census and the corresponding location code of 1981 Census are given.

The District Census Handbooks are now being published in two parts- Part-A - Village & Town Directory and Part-B - Village and Townwise Primary Census Abstract. The two parts are being published in one volume as Part A & B for smaller districts.

Part-A: Deals with a brief description of the district-its major characteristics in relation to the economic resources like forestry, agriculture, industries, social, cultural, religious and historical aspects apart from certain basic amenities like drinking water, education, medical, post and telegraphs, market day(s), communications, and if any of

these facilities are not available to any village, distance range of the nearest place from where available; power supply, approach to the village, nearest town to the village etc., Health and Family Planning Centres, Primary Health Sub-centres and Community Health Workers in the village. Information on approach to village is also provided to identify inaccessible villages in the district. These exhaustive data on infra-structure in relation to amenities available to the Villages and land-use pattern are meant to meet the requirements of 'Micro-level' local area development planning at the lowest administrative unit viz., C.D. Block/Panchayat Union level. This is the reason why this time data are being published C.D. Block / Panchayat Union instead of the traditional taluk level.

In the Town Directory, information on class of Town, area of the Town, number of households, population and growth rate of the town at each of the Censuses from 1901 to 1991, sex-ratio at the 1971, 1981 and 1991 Censuses, physical aspects of rainfall and minimum and maximum temperatures recorded, distance from State and district Headquarters, nearest city, communication facilities like Railway station, Bus-route, inland navigation, statement on Municipal finance, civic and other amenities like protected water supply, electric connections by type, fire-fighting service, road length by type, system of sewerage, number of latrines by type, total population and SC & ST population, Medical, Educational facilities by type, recreational and Cultural facilities like Stadia, cinema, Drama, Community hall, Public libraries and reading rooms, adult literacy classes/centres, Working Women's Hostels, three important commodities manufactured, exported and imported; a special table on civic and other amenities available in notified slums in Class-I and Class-II towns have been included with a view to ascertain the availability of basic amenities and to meet the Minimum Needs and Revised Minimum Needs Programmes.

Part-B: deals with the Primary Census Abstract for all the villages in the rural areas and ward-wise for urban areas. This time the PCA data like Village and Town Directory data are arranged C.D. Block/Panchayat Union-wise giving area of the village (in hectares), area of town (in Sq. Km.), number of occupied residential houses, households, population by sex, scheduled caste and scheduled tribe population, literates, main workers in the nine industrial categories (as against the 4 industrial categories published in 1981), marginal workers, non-workers, and 0-6 population by sex.

Further, if a village is covering more than one panchayat, break up figures for each Panchayat also are given.

It is hoped that with the modifications now brought out in the Village Directory, Town Directory and PCA and Publication of data C.D. Block/Panchayat Union-wise would go a long way in helping the planners to chalk out more effective developmental

programmes at micro-level for local area developmental plans as the C.D. Block/Panchayat Union is the lowest administrative unit for Developmental planning.

In the process of collection of data of this volume, various State and Central Government Departments have extended their kind co-operation particularly with regard to infra-structural amenities for Part-A-Village and Town Directory, History and general features of the district, etc., I convey my grateful thanks to all of them. The PCA data presented in part-B of this volume were collected during the Census Operations in February-March, 1991 the reference date being sunrise of 1st March, 1991.

I remain grateful to the Director of Census Operations, Shri K. Sampath Kumar, who closely guided us in every respect of this work. He had been a source of strength and inspiration for us. We owe a deep sense of gratitude to the Director of Census Operations for his kindness in dealing with our practical difficulties, his patient advice and formula of solutions for even small problems, which we brought to his attention.

I wish to record my deep sense of gratitude to (late) Shri M. Thangaraju, Joint Director of Census Operations and Shri Ch. Purnachandra Rao, Deputy Director of Census Operations for overall direction and guidance to bring out this publication. I use the opportunity to mention my special thanks to Shri. J. Thomas Machado and Shri G. Bapuji Assistant Directors of Census Operations for scrutinising the draft report and presenting the data with meticulous care and accuracy. I am also thankful to Shri S.P. Grover, Joint Director of Census Operations and Shri Phool Singh, Joint Director of Census Operations who are also provided overall guidance and supervision during their tenure in this regard.

Apart from that Shri Bapuji in-charge of DCH Section took a meticulous care to arrange this volume in a systematic manner with the help of his colleagues S/Shri A.V. Raman, K. Sambamoorthy, Investigators P.G. Sankaran, M. Thangavelu, Statistical Assistants and other section officials. The preparation of maps included in this volume were done under the supervision of Shri Jogesh Das, Senior Cartographer.

In the compilation and processing of Village Directory and Town Directory data, it was ably assisted by Smt. R. Rani bai and Smt. A.M. Mangayarkarasi, Investigators and their assistants respectively while S/Shri A. Ramadoss and K. Sambamoorthy, Investigators are chiefly responsible for preparing the analytical notes, inset tables, draft writeups and arrangement of the matter in order.

The PCA data for the district were processed at the Regional Tabulation Office, Vellore under the supervision of Shri. D. Arul Thiagarajan, Regional Deputy Director of Census Operations assisted by S/Shri S. Gajendran, Investigators and

S/Sri. A. Radhakrishnan, K. Sreedharan B. Raghavan and Smt. C.K. Bhanumathy, Statistical Assistant who were deputed from this Directorate to the Regional Tabulation Office, Vellore.

Finalisation of PCA data Panchayat Union-wise and providing computer codes for Villages were attended by Shri. R. Lakshminarayanan and Smt. M.V. Rajalakshmi, Investigators and staff of the Census Section. The district and taluk maps in this publication give the administrative units upto village level, the location of Towns and Cities, communication facilities, etc. This time in the taluk map, the boundaries of each of the C.D. Block units, namely, 'Panchayat Unions' have been shown separately to synchronise with the presentation of data presented Panchayat Union-wise.

I convey my grateful thanks to Shri. A.R. Nanda, I.A.S., Registrar General and Census Commissioner, India for the valuable guidance and advice I received from him throughout. I am thankful to Shri. N. Rama Rao, Deputy Registrar General (C&T) who has been a source of strength and constant help and guidance on all technical matters like a 'Ready Reckoner'. I also thank Dr. K.P. Ittaman, former Deputy Registrar General (S.S.) and Shri. M.M. Dua, Joint Director, for planning, designing and co-ordinating the formats. I thank Shri M.K. Jain, Deputy Registrar General (S.S.) and Sri A.K. Singh, Deputy Director, Shri N.S. Soam, Assistant Director and his staff for scrutinising and approving the first volume so that it could fit in in the all India pattern from uniformity point of view in the presentation of data and other items. My thanks are also due to Dr. B.K. Roy, ex-Deputy Registrar General (Map) and Mrs. Minati Ghosh, Deputy Registrar General (Map) for providing technical guidance in the preparation of maps.

The data entry of the Village Directory and Primary Census Abstract in the computer had been done at the National Informatics Centre (NIC) at Madras, in the shortest possible time. My sincere thanks in this regard are to Shri M. Mohan, Technical Director and Shri A.N. Sridhar, Scientific Officer of the NIC, Madras.

I have great pleasure in acknowledging the able assistance rendered by the following officials of my office in the preparation of this volume.

	Un-inhabited	958	98
Number of Towns		469	32

ANALYTICAL NOTE

Census concepts

Rural and Urban areas

It is customary to classify a place as rural or urban in every Census and present data separately for rural and urban areas. Urban areas which are specifically defined for Census purposes are determined on the basis of certain demographic and economic criteria. The rest are treated as rural areas. At the 1991 Census, the same criteria adopted for determining the urban areas at the 1981 Census have been continued. The urban areas of 1991 census are:

- (a) All places with a Municipality, Corporation or Cantonment board or Notified town area, committee, etc.
- (b) All other areas which satisfied the following criteria:
 - (i) A minimum population of 5,000
 - (ii) At least 75 per cent of male main workers engaged in non-agricultural and allied activities:
 - (iii) A population density of at least 400 per sq. km. (or one thousand per square mile).

The above definition adopted for both 1981 and 1991 Censuses varies slightly from those of 1961 and 1971 Censuses. In the 1961 and 1971 Censuses, the male population engaged in the activities of fishing, logging etc., were treated as engaged in non-agricultural pursuits and hence have been taken into account with those engaged in non-agricultural pursuits for applying the test of the 75 per cent non-agricultural workers criterion. But in the 1981 Census as well as in the 1991 Census, they have been treated on par with agricultural activities for applying the test for this criterion. Prior to the 1981 Census, certain places with less than 5,000 population were treated as urban areas on the basis of certain consideration like density, social and historical importance etc., at the discretion of the Director of Census Operations in consultation with the State Government. On the other hand, the tests on demographic and economic criteria were strictly applied at the 1981 and 1991 Censuses and no area was classified as urban area on other considerations.

Urban Agglomeration

This concept was adopted for the first time in the 1971 Census and continued in the 1981 and 1991 censuses also.

An Urban Agglomeration is a continuous urban spread constituting a city or town and its adjoining urban outgrowths (OG) or two or more physically contiguous towns together with continuous well recognised urban outgrowths, if any, of such towns. In certain cases, large housing colonies, University campuses, port areas, Military camps, etc., etc., would have come up around a city or town but falling out side the statutory limits of the city or town. They may be lying inside the boundaries of a village or villages which are contiguous to the city/town. These villages could not be treated as urban as they do not satisfy the urban criteria. But at the same time the colonies etc., mentioned above deserve to be treated as an integrated urban area. Therefore, all such towns together with their urban outgrowth will have to be treated as one urban unit and called urban Agglomeration. As no outgrowth (OG) as defined above, has been recognised in Tamil Nadu, all the constituent units of urban agglomerations are also independent urban units or towns in the State.

Census House

A Census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for residential or non residential purposes or both.

Household

A household is a group of persons, who commonly live together and would take their meals from common kitchen, unless the exigencies of work prevented any of them from doing so. There may be a house hold of persons related by blood or a household of unrelated persons or having a mix of both. Examples of households with unrelated members are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called Institutional Households.

Scheduled Castes/Scheduled Tribes

For the enumeration of Scheduled Castes and Scheduled Tribes in census, the names of Sche-

duled Castes and Scheduled tribes as recognised in Tamil Nadu based on the Scheduled Castes and Scheduled Tribes orders (Amendment) Act of 1976 (Central Act, 108 of 1976) was followed. The enumerators were instructed to record a person as belonging to Scheduled Caste and Scheduled Tribe provided the name given by the person was found in the list supplied to them.

Literates

A literate is defined as "a person who can both read and write with understanding in any language". A person who could merely read but cannot write, is not a literate. It is not necessary that a person, to be considered as a literate, must have received any formal education or have passed any minimum educational standard. In the 1991 Census, all children of the age of 6 years or less are treated as illiterate whereas in the 1981 Census all children of the age of 4 years or less were treated as illiterate.

Definition of work

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise.

Main workers and Marginal workers

The dichotomy of worker and non-worker of 1961 and 1971 censuses had been dropped and the trichotomy of main worker, marginal worker and non-worker was introduced in the 1981 census and this has been continued in the 1991 census also. A worker was identified with reference to a reference period preceding the census. The reference period prescribed was one year preceding the date of enumeration. Certain types of work such as agriculture, household industries, like gur making etc. were carried on, either throughout the year or only during certain seasons or part of the year, depending on the local circumstances. In such cases what we were concerned with was the broad time spent during the agricultural season preceding the enumeration. Workers can be full-time workers or marginal workers. If a person had done any work during the reference period and if he had not worked for the major part of the year, i.e., if he had worked for 183 days or more, he was considered to be a full-time worker (Main Worker). If a person had done

any work during the reference period and if he had not worked for the major part of the year, i.e., if he had worked for less than 183 days, he was considered to be a marginal worker. Persons who had not participated in any economic activity even for a day during the last one year preceding the day of enumeration were considered as non-workers.

All the main workers had been classified under one of the four main categories in the 1981 census, while in 1991 census, they have been classified under one of the nine industrial categories as was done in 1971 census. They are I. Cultivators (C), II. Agricultural Labourers (AL) III. Live Stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, IV. Mining and Quarrying, V(a). Manufacturing, Processing, Servicing and Repairs in Household Industry, V(b). Manufacturing, Processing, Servicing and Repairs in other than Household Industry, VI. Construction, VII. Trade and Commerce, VIII. Transport, Storage and Communication, IX. Other Services.

The definitions of these nine industrial categories of workers are as given below:

I. Cultivators (C)

For the purpose of census, a person is considered as Cultivator if he/she is engaged in cultivation of land, owned or taken on lease from Government or from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

II. Agricultural Labourer (AL)

A person who works on another person's land for wages in money, kind or share should be regarded as agricultural labourer. He/She has no risk in the cultivation, but he/she merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

III. Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities

Persons who were reported as workers in Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities are treated as workers under this category.

IV. Mining and Quarrying

Persons who were reported as workers in

Mining and Quarrying are treated as workers under this category.

V(a). Manufacturing, Processing, Servicing and Repairs in Household industry

Household industry is defined as an industry conducted by the head of the household himself/herself and/or by the members of the Household at home or within the village in case of rural areas and within the precincts of the house only in the case of Urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The household industry should not be run on the scale of a registered factory which would qualify to be registered under the Indian Factories Act. Mere selling of food items or other edibles, should not be regarded as household industry.

V(b). Manufacturing, Processing, Servicing Repairs in other than Household Industry

Persons reported as workers in household industry other than those mentioned in V(a) were treated as workers in this category.

VI. Construction

Persons working as plumbers, masons, electricians, painters and others engaged in construction work were treated under this category.

VII. Trade and Commerce

Persons engaged in work such as wholesale or re-tail business or trade were treated in this category.

VIII. Transport, Storage and communication

Persons who were reported as drivers, conductors, technicians, fitter, welder and other communication workers were treated under this category.

IX. Other services

Persons engaged in services other than those mentioned in I to VIII categories fall under this category. Workers who could not be classified in any of the above I to VIII categories are treated as those engaged in other services.

Non-workers

All persons who have not been treated as workers

i.e., persons who have not worked any time at all during the reference period of one year preceding the date of enumeration have been considered as non-workers. Thus, non-workers cover all persons who are engaged in unpaid household duties and who do no other work or have not done any work at all during the last one year, full time students and children attending school, all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age, persons retired from service or rentiers, beggars, vagrants etc., convicts in jails or inmates of a penal, mental or charitable institution and all other non-workers not falling under any of the above categories.

HISTORY OF THE DISTRICT CENSUS HANDBOOK

After the census of 1951, the Government of India offered to handover to the State Government the Census tables and other data prepared during the Census and suggested that they might be published along with any other useful information relating to each district as separate volume. The State Government accepted the proposal and the first publication of the District Census Handbook was brought out at the cost of the State Government.

The District Census Handbook of 1951 was found to be very useful and it was therefore decided not only to continue the series for the 1961 Census but also to improve on its content so that each district Census Handbook contained certain basic economic data for the smallest administrative unit in the district and be an useful reference book for scholars and other data users.

After the 1971 Census also, the publication of the series of District Census Handbook was continued. The publication of the 1971 District Census Handbook was in three parts, viz., Part-A, Part-B and Part-C. Part-A relating to Village and Town Directory. Part-B relating to Village and Townwise Primary Census Abstract and Part-C comprising District Census Tables and certain administrative statistical tables.

The tradition of bringing out the Census Handbook was continued by the State Government during the 1981 Census also. In this series some individual feature besides restructuring of the formats of the Village Directory had been adopted bearing in mind the requirements of data for the

socioeconomic programmes of the Government. The comparability of data with the 1971 census data had also been kept in view.

The present 1991 District Census Handbook will be published in two parts viz., Part-A – Village and Town Directory and Part-B – Village and Townwise Primary Census Abstract.

SCOPE OF VILLAGE AND TOWN DIRECTORY STATEMENTS AND PRIMARY CENSUS ABSTRACT

The District Census Handbooks are the only publications which incorporate the data down to the level of a village and level of a town which are constantly referred to by the data users.

The Village Directory Statement gives the list of villages by C.D. Block and for each village the area, no of households and population, availability of amenities and land use. The information on amenities available in the village includes educational, medical, drinking water, post and telegraph, market, rail/road or other communication facilities and power supply. Land use is shown as area under forests, irrigation, unirrigated land, culturable waste and area not available for cultivation.

Appendix – I gives C.D. Blockwise abstract of educational, medical and other amenities available viz., the number of villages having various levels and types of educational institutions such as middle schools, adult literacy centres, etc., various types of medical institutions such as dispensaries, primary health centres, maternity and child welfare centres, family planning centres, community health workers etc. and the number of such institutions, various types of drinking water sources, such as tap, well, tank, tube-well, river, fountain, canal, etc. post and telegraph offices, bus-stops, railway-station, power supply, etc. and also the number of villages not having such amenities.

Appendix – II gives for each non-municipal town (Census Towns) the area under forest, irrigated and unirrigated land, culturable waste (including gauchar and groves) and area not available for cultivation.

Appendix – III is only the list of villages where no amenities relating to education, medical, drinking water, post and telegraph, communication, power supply and market/hat and public health facilities

etc. are available.

Appendix – IV gives the list of villages according to the proportion of SC/ST to the total population by ranges. Part-A of the Appendix gives the villages according to the proportion of SC population. The information is presented by the ranges Viz. 0–5, 6–10, 11–15, 16–20, 21–30 and 31 + percent and above, and Part – B according to the proportion of ST population ranges viz. 0–5, 6–15, 16–25, 26–35, 36–50 and 51 + percent and above.

The Town Directory gives important and very useful information like civic and other amenities available in all the towns in the district, statutorily notified as well as non-municipal or census towns. The details relating to each of the towns have been presented in seven statements viz. Statements I to VI and IV – A.

In all the statements except IV – A, the towns are arranged in the alphabetical order for the district. The Town Directory does not cover strictly military areas. It may, however, cover strictly military areas. It may, however, cover cantonment area but not strictly military areas or military establishments within the cantonment which are required to be left out. However, basic statistics of the cantonment as a whole left out. However, basic statistics of the cantonment as a whole have been provided. In the Town Directory, codes have been given for the data on amenities and civic administration for want of space. The relevant explanations for the codes adopted have been given in the beginning of the Town Directory Statements.

The concept of 'urban agglomeration' was introduced for the first time in 1971 replacing the concept of 'town group' of 1961. The concept of Urban Agglomeration has been continued at the 1981 and 1991 censuses also. An Urban Agglomeration may be explained as follows: "It must form a continuous urban spread constituting a town and its adjoining urban outgrowth or two or more physically contiguous towns together with continuous well recognise urban outgrowth, if any, of such towns".

An Urban Agglomeration includes two or more independent census towns. The names of the Towns/Urban Agglomeration have been arranged in the alphabetical order. The particulars of the individual town which constitutes one of the units of agglomeration have not been furnished separately

because the particulars have already been furnished, where they occur together under the name of agglomeration. The following remarks have been given against such town within brackets:

" (See the name of the main town of the agglomeration)"

By adoption of this method, the reader can get an idea of the particulars of the urban agglomeration in total and also separately.

Statement I: Status and Growth History

This statement provides some basic data based on the Primary Census Abstract for the towns and urban agglomerations of 1991 census. For analysing the town directory data at the State level and All India levels some new columns have been introduced in the 1981 census. The new items are:- Class of town, area, number of households, population and growth rate at each census since 1901, density and sex ratio at the 1971, 1981 and 1991 censuses are also provided in this statement. At the 1991 census, a new item – the name of C.D. Block is also provided in the statement.

Class of the towns are presented according to the 1991 census population of the town as follows:

Population	Class
100,000 and above	I
50,000 to 99,999	II
20,000 to 49,999	III
10,000 to 19,999	IV
5,000 to 9,999	V
Below 5000	VI

Location Code Number for Towns

To distinguish the town from the village, the Location Code Numbers for Towns have been given in Roman Numerals and these numbers have been assigned in a continuous order for the district as a whole. In the present 1991 census, name of C.D. Block has been included with a view to locate the town in the appropriate C.D. Block.

Statement II: Physical aspects and Location of Towns, 1989

Under physical aspects, annual rainfall and

temperature particulars are furnished. These particulars were obtained from the Commissioner of Statistics, Tamil Nadu, Madras. If the information is not available for any particular town, the nearest town for which it is available is given. For col. (9), nearest city with population of one lakh and more is furnished according to 1991 census. For the other columns, figures obtained from the Municipal Commissioners and Panchayat Union Commissioners are given. The zero within brackets in columns, 10 and 11 denotes that the referent town itself is enjoying road transport facilities. In column 12, name of the navigable river/canal and its distance is indicated as follows: "Cauvery (R)-5". In this case, 5 is the distance in kms., of the navigable river cauvery from the referent town. In brackets 'R' for river and 'C' for canal have been given.

Statement III: Municipal Finance, 1988–89

The civic administration status of the town, the receipt through tax, properties and powers. Government grants, loans, advances and other sources and the expenditure on general administration, public safety, public health, public works, public institutions and other public services are given in this statement. The sources of the receipts and expenditure are furnished in terms of rupees in hundreds.

Statement IV: Civic and other amenities, 1989

The civic and other amenities existing in the towns as in the town 1989 are given. The data were obtained from the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

Column – 3: Civic administrative status

It is a new column introduced in this statement to facilitate analysis during the 1981 census.

Column – 4: Population

It is also a new column introduced in this statement to measure the amenities in respect of population, based on 1991 census population data.

Column – 5: Scheduled Caste and Scheduled Tribe population

It is introduced to know the size of the population of the weaker sections of the community in the towns based on 1991 census population data.

In this statement, road length, system of sewerage, number of latrines, method of disposal of night soil, protected water supply (source of supply, system of storage with capacity) and fire fighting service information are also collected from the Municipal Commissioners and Panchayat Union Commissioners.

Electrification

In this column electrification particulars were obtained from the Tamil Nadu Electricity Board through the Municipal Commissioners and Panchayat Union Commissioners. The details are furnished below:

i) Domestic connections

This refers to the number of services given to house for domestic purposes like fans, lighting, etc.

ii) Industrial connections

This refers to the number of services effected to L.T. (Low Tension) Industries such as workshop, flour mills, oil mills, grinding machines, cotton ginning and engineering industries etc.

iii) Commercial connections

This refers to the service given to shops, business houses, public institutions like offices, schools and commercial establishments.

iv) Road lighting points

This refers to the number of points of street lights which are maintained by the board and for which consumption charges are paid to the board by respective local bodies. For some panchayats, the number of services effected along has been furnished under street lights and not the points.

v) Other Connections

This refers to the number of services effected for agricultural purposes, huts, public water supply systems, cottage industries etc.

Statement IV-A: Civic and other amenities, notified slums, 1989

This is a new statement on civic and other amenities in the notified or recognised slums of Class I and II towns introduced during 1981 census.

Generally in cities or towns having slums, the local authority such as Municipality or Municipal Corporation or even the Development Authority notified the recognised slums such notifications are linked up with the availability of funds from the statement Government for slum clearance.

Name of the slum and the details of the area, population, length of the paved roads, system of sewerage, number of different types of latrines and method of disposal of night soil etc. are given in this statement.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1989

In this statement, medical, educational, recreational and cultural facilities of the towns as in 1989 are furnished. The data for educational and medical facilities were obtained from the Municipal Commissioners and Panchayat Union Commissioners for the concerned towns, and from the Director of Secondary Education and Director of Public Health respectively. In medical facilities columns, the number of Hospitals/Dispensaries/T.B. clinics etc. and number of beds in medical institutions etc. are furnished.

In educational facilities columns, the number of Arts/Science/Commerce colleges, Medical colleges, Engineering Colleges and Polytechnics were obtained from the State Education Departments are furnished.

Column 10: Recognised shorthand, typewriting and other vocational training institutions

Particulars were obtained from the District Industries Officers and Directorate of Employment and Training Officers. The term, recognised refers to institutes recognised by some statutory authority like Education Department, Commerce Department, Labour Department etc. of the Government or by semi-Government or autonomous bodies, public sector project etc.

Column 16: Number of working women's hostel with number of seats

This is a new column introduced during the 1981 census. Consequent on the increase in the employment of women in urban areas the housing need of working women has been considered as an important subject for study.

Cinema in column 18 refer only to the permanent cinema theatres and do not include the touring cinema.

Column 19: Community Halls have been added in this column as they are fast becoming a common feature of the urban land scope.

Statement VI: Trade, Commerce, Industry and Banking in 1989

In this statement, Trade, Commerce, Industry and Banking facilities in the town as in 1989 are furnished. Banking particulars were obtained from the Reserve Bank of India. The information on number of agricultural and non-agricultural credit societies was collected from the Registrar of Co-operative Societies through the Municipal Commissioners and Panchayat Union Commissioners of the concerned towns.

SCOPE OF PRIMARY CENSUS ABSTRACT

The Primary Census Abstract as it is called, presents basic data for each village or segment of a village (In cases where such village segments form different panchayats) in the "Villagewise Primary Census Abstract" and for each ward/division of a town in the "Urban Primary Census Abstract". The format of the Primary Census Abstract for the villages and towns in 1991 has been slightly modified as compared to the 1981 Primary Census Abstract.

The Primary Census Abstract gives the details on area, number of occupied residential houses, number of households, total population, population in the age-group 0-6, SC/ST population, literates, total main workers, distribution of main workers by 9 industrial categories, marginal workers and non-workers in respect of each unit with male, female breakup. In 1981, the main workers were classified into four categories whereas in the 1991 Census they are classified into 9 industrial categories as in 1961 and 1971 censuses. For the first time in this Census, the population in the age group 0-6 with sex breakup presented in PCA in order to arrive at effective literacy rate, after excluding such persons as all the persons below seven years are treated as illiterates in this census. The urban/village Primary Census Abstract gives this information for each village and each urban ward. Till 1981 Census, the Primary Census Abstract was presented for each taluk and for each

town in a district. But, in the 1991 census, the Primary census Abstract for each CD Block is presented for the first time in the Indian Census. Besides these, separate Primary Census Abstract for Scheduled Castes and Scheduled Tribes which contain similar details as those in the PCA for general population are presented for District/Community Development Block/UA/City/Town.

With a View to enable data users to derive the figures for Panchayat the data are presented for segments of villages also, wherever such segments constitute different Panchayat, the segment wise data have to be used separately or added with the data of some other segment so as to derive panchayat data. For example a revenue village bearing L.C. No 9 constitute two different panchayats, the figures are given separately for each portion of the village constituting these panchayats against L.C. No 9 a/b and 9 b/b. The total figures for the entire revenue village can be arrived at by adding the figures given against both the segments viz. 9 a/b and 9 b/b. If, instead, the panchayat figures are required, the data for the concerned village segment or segments relating to the panchayats concerned are to be added up to arrive at the total figures for the respective panchayats. An appendix presented in the case of the Urban Primary Census Abstract gives 1991 population, Scheduled Caste and Scheduled Tribes population for each enumerator block of the town. This may be useful for administrative purposes and such data are also required by urban planners and researchers for conducting special studies in selected blocks.

Mode of presentation

At the beginning, the District Primary Census Abstract containing data for District and C.D. Blocks (for Total, Rural, Urban areas) as also towns under each C.D. Blocks and at the end all the towns/U.As in the district are presented. In 1991 Census, the C.D. Blocks is the main unit of presentation of data instead of taluk which was the main unit till 1981 Census. The District PCA is followed by alphabetical list of villages for each C.D. Block in the district. This is followed by Village/Urban PCA. In the Village/Urban PCA, data for the first C.D. Block for total, rural and urban areas separately, followed by data for villages and census towns falling under each C.D. Block are presented. Thereafter, similar data

NORTH ARCOT AMBEDKAR DISTRICT

BRIEF HISTORY OF THE DISTRICT

The present newly formed "North Arcot Ambedkar" district is carved out from the erstwhile North Arcot District in the name "BHARAT RATNA" Babha Saheb Dr.B.R. Ambedkar. Many splendoured personality of Dr.B.R.Ambedkar, a great scholar was an original thinker, writer, orator, debator, a great jurist and constitutionalist. Above all he was a restless agitator and revolutionary, working for social reforms and radical social changes in our country. He was a charismatic leader, a militant reformer and a liberator of the downtrodden masses of the subcontinent. He championed the cause for the upliftment of the downtrodden of the country reeling under the scourge of castes for many decades. Besides, he was the father of the Indian constitution and also a chieftain who fought for the reservation vehemently of these castes and gave a constitutional security for their social status and progress through the weapon of "EDUCATE, AGITATE, ORGANISE". He was the "Saviour" as well as "Messiah" of the vast millions of the under privileged class. This noble role played by Dr.B.R. Ambedkar has been remembered by naming the new district after him. North Arcot was also known as "Thondaimandalam region" in early South Indian History. The pages of South Indian History replete with incidences that the region has witnessed many thrilling fights for supremacy between the local chieftains and rulers on the one hand and the French and English invaders on the other. Places of historical importance in this district like Arcot, Vellore and Wallajah etc., have seen several small and big battles. The district has many interesting places. The monumental fort at Vellore with its surrounding mostly provides an excellent specimen of the military architecture then in vogue. It has many industries big and small. The silk weaving centres of Walajapet, the multifaceted industrial growth in leather, sugar, ceramics, chemicals and other allied small scale industrial products, the existing EID Parrys a leading private sector wing manufacturing a familiar brand of sweets "Parrys" around Ranipettai a mini industrial town are few mentionable ones. It has many temples and tourist parts, the famous hill temple at Sholinghur is located in this district. Yelagiri hills, a tourist place lying adjacent Vaniyambadi and Tiruppattur towns and situated at a distance of 5 km from Jolarpet Railway Station is located in this district. The world famous CMC hospital located at Vellore is known for its specialised medical services. The main aim of Dr. Ida Scudder, the founder of this Institution was to serve the poor.

Many leading private industries manufacturing particularly leather products are around Vaniyambadi in North Arcot Ambedkar District. The great philosopher and former President of India Dr.Sarvapalli Radhakrishnan, Sir.C.P. Ramaswamy Iyer a well known administrator Dr. A.L. Mudaliar Vice-Chancellor of Madras University for a record period of 27 years in India Dr.Ramasami Mudaliar, great Trade Unionist were also sons of this district. This district is socially, educationally and economically being developed under various plan schemes introduced by Tamil Nadu Government.

From the earliest times for which evidence is available the North Arcot Ambedkar district formed part of the Pallava Kingdom during the second half of the ninth century A.D. Kanchipuram in Chengalpattu MGR district was then the capital of Pallavas. In the succeeding periods, the district came under the rule of Cholas, the Rashtrakutas, the Thanjavur ruler, Raja Raja and the Hindu rulers of Vijayanagar. The last ruling kings of the Vijayanagar dynasty were overthrown by the Muslim rulers of Deccan. The battle of Talikota in 1565 brought the region under the sway of the Sultans of Bijapur and Golkonda. The Mughal King Aurangzeb sent his General Zulfikarkhan to bring the extreme Southern India under Mughal rule. The district then fell under the rule of the Mohamedan Nawabs of the Carnatic, whose head quarters was Arcot.

During the 18th Century, several battles have taken place in the district. In the year 1749 Nawab Anwaruddin was defeated and killed at Ambur by his rival Chanda Sahib assisted by the French. In the war on the Coromandel Coast, the English (with Robert Clive as Chief) captured Arcot, the capital of the new Nawab Chanda Sahib, on behalf of Mohamed Ali, son of Anwaruddin. The brave and brilliant defence of Clive's forces in the subsequent war and the capture of the capital is considered as memorable event in Anglo-Indian history. The war was later renewed and in 1757, Arcot fell to the French. The English General, Sir Eyre Coote, defeated the French General Lally at Wandiwash or Vandavasi in 1760 and soon after took back every fortress earlier lost to French. Hyder Ali, the Mysore ruler invaded the Carnatic in 1767 and laid siege to Ambur, but later retired to Kaveripakkam. Again, in 1780, Hyder Ali invaded the region, pounding Vellore and neighbouring places and besieged Arcot. He later abandoned the attempt on learning the advancement of British army under Sir Hector Munro. He, however, inflicted heavy losses to a detachment under Colonel Baillie near Palur.

for second, third and subsequent C.D. Blocks in the district are presented. At the end of the last C.D. Block, the Urban PCA containing data at ward level for all the towns and cities besides the data for UAs are presented. In an appendix to the Urban blockwise PCA, the population and Scheduled Castes/Scheduled Tribes figures for each Enumerators Block of every town/city in the district are given. After the appendix to Urban PCA, the Talukwise PCA containing data for the District and each taluk in the district with Total, Rural and Urban breakup is presented, as such data are also sought after. This is followed by two annexures. Appendix-I contains Details of Community Development Blocks falling under each taluk and Appendix-II contains names of the villages/segment of villages constituting each town in the district.

Maps

Apart from the District Map given as frontispiece, maps for each taluks showing the villages their 1991 Location Code numbers and their boundaries are presented. The boundaries of the C.D. Blocks falling in the taluks are also shown. As compared with the maps presented in 1971 and 1981 District Census Handbook, some improvements have been effected in the maps presented in this volume. All towns are shown in the district and taluk maps with shading screens and also spheres according to the population size of towns.

Area figures

In the District Primary Census Abstract, the area figures are given in square kilometers for total, rural and urban areas. In the villagewise Primary Census Abstract the area figures for each revenue village are given in hectares upto two decimals. The area figures for each town is given in Sq.Km in the Urban Primary Census Abstract. In the District Primary Census Abstract the area figures of the district total represent the "Geographical Area" figures supplied by the Surveyor General of India. Figures for urban areas and villages are those supplied by the local bodies and revenue authorities. The total of the urban (area) of a district has been arrived at by adding the urban area figures of each town within the district. Area figures for the rural areas of district are derived by subtracting the urban area figures from the total area of the district. The area figures of each C.D. Block represent the area figures that

are published in the concerned departmental publication of the State Government. The area figures of the C.D. Blocks will not add up to the district area figures because, the C.D. Block area figures represent the "Land use" area, while those of the district represent "Geographical Area", supplied by the Surveyor General of India. The total of the village areas given in the Village/Urban Primary Census Abstract may not tally with the rural area of the C.D. Block given, as the C.D. Block area figures include hills, forests, rivers etc. whereas the village area may not include the same. One sq.km consist of 100 hectares.

It is hoped that the pattern of presentation of basic census particulars for each district as explained above and adopted in this volume would be found convenient by data users.

Part - A & B

Brief analysis of the Village/Town directory and Primary Census Abstract Data.

A brief analysis relating to certain population characteristics is made utilising the information collected in the village and town directory and the Census Data in the PCA. A number of tables have been designed for this purpose. The tables are generated at the district/taluk C.D. Block level for the rural areas and in regard to urban areas, townwise particulars are presented.

Subsequently, he took Arcot and Ambur and besieged Vellore and Vandavasi in another invasion. At a fight with English, later in Sholinghur, Hyder Ali sustained heavy losses. The war ended in 1783 and the district ceased from witnessing further battles for supremacy.

In 1781, the Nawab had assigned the revenues of the Carnatic to the East India Company and North Arcot then came under their management. In 1801, the region with the rest of the Carnatic was ceded in full sovereignty by the Nawab Azim-ud-Daula. The local chieftains initially opposed the English rulers but the latter subdued all of them by 1805. There was peace in the district after this, but for disturbance in 1806 due to the mutiny of the sepoys stationed at Vellore. This mutiny was however quelled successfully by the English rulers. The British rule which later lasted nearly 150 years ended in 1947 when India attained Independence. The British had introduced many Socio-economic changes here in the 19th Century and the first for the development of the region before they left this country. The Vellore jail has become famous in view of its importance in the history of the freedom struggle and also due to internment of many great leaders in this jail. The district has been making great strides in all spheres since then.

JURISDICTIONAL CHANGES

North Arcot Ambedkar District was bifurcated from the North Arcot District as per G.O.Ms.No.1619, dated 27.9.89 comprising, the taluks of Walajapet, Arakkonam, Gudiyattam, Vellore, Arcot, Vaniyambadi and Tiruppattur. It is administered from the existing District Head Quarter at Vellore.

PHYSICAL ASPECTS

HILLS

The Javadis represent the important mountain range in this district and they are the loftiest mountains in the district. The Javadis cover the eastern parts of Tiruppattur and Vaniyambadi taluks, the north-western portion of Chengam taluk western part of Polur taluk, with spurs extending into Vellore taluk, upto about 10 kilometres from the city of Vellore. The general height of the Javadi hills is 2,500 feet with peaks raising upto 4,200 ft. The Elagiri hills lie in the north-western part of Tiruppattur taluk. Besides, the above, there are many hills of lower elevation which lie scattered in Vellore, Vaniyambadi, Gudiyattam, Arcot and Walajapet taluks.

RIVERS

The district has the following important rivers Palar, Pennar, Pennai, Pambar river, Malattar, Kavundinyanadi, Goddar. Barring a few days in the rainy season these rivers are mostly dry and are sand wastes. Palar is the most important river of the district. Rising near Nandidurg in Karnataka. Palar enters the district in the western part through Vaniyambadi taluk. It flows then in an east-north-easterly direction in the taluk and is joined by some jungle streams like Malattar flowing in Gudiyattam taluk. The river forms the boundary between Vaniyambadi, Gudiyattam and Vellore taluks. After cutting across Walajapet taluk it runs along the boundary between Walajapet and Arcot taluks as also Arakkonam and Cheyyar taluks before entering Chengalpattu M.G.R. district on the east. Ponnai river which is tributary of Palar river rises in Chittoor district of Andhra Pradesh. It flows on the western part of Walajapet taluk and joins Palar near Ranipettai. The rivers Goddar and Kavundinya Nadi which flow from north to south in Gudiyattam,

SOILS

Soil is thin layer of earth's crust made up of disintegrated and decomposed rocks, containing complex mineral compounds. Soil along with atmosphere constituted the natural medium supports to the growth of plants on earth's surface. While the central and southern parts of the district are mostly, hilly, the eastern portion is almost a stretch of unbroken plain. In the western sector the land rises gradually towards the Mysore plateau along the Kangundi Zamindari of Chittoor district. The soil is mostly of the red ferruginous variety both sandy and loamy, with black area accounting for about 16 per cent. The black soil is found mostly in the neighbourhood of the rivers of Palar, Ponnai and in the ayacuts of a few big tanks. The black series clay occurs in Gudiyattam, Walajapet, Arcot, Arakkonam and Vellore taluks. The black series loam is found mostly in Arakkonam and Gudiyattam taluks in larger areas than in other taluks while red series loam is found in all the taluks.

FLORA AND FAUNA

On flora, no distinguishing variety is observed in North Arcot Ambedkar District. The hilly areas belong to the 'dry deciduous' type generally observed in the projections of the Eastern Ghat ranges. In the low country, the ordinary plants of the Coromandel region are found, viz. tamarind trees, teakwood, some sandalwood, ven-teak, casurina, bamboo etc., form the chief trees of the district. As regards fauna, although no special and distinguishing variety is available in the district,

the western region and in particular the mountainous tracts possess some wild animals. Bison is seen in small numbers on the Javadi ranges and tiger is seen occasionally. Leopards are found all through the rocky hills. Black bears, hyenas, sambar, spotted deer, junglesheep, barking deer, antelope, varieties of snakes including the king cobras are spread over different regions of district. Elephants were previously seen and captured near Chengam forests. Monkeys exist in several places in the district. The skeleton of gigantic elephant caught in the Chengam forest region is kept for the view of visitors in the Madras Museum. Elephants are however not seen in the forests of the district in recent times. About birds, most of the common birds of South Indian species are seen in the district. Peafowls and jungle fowls exist in the forests of the district.

CLIMATE AND RAINFALL

The climate of the district can be generally termed as "moderate". The taluks lying in the eastern region with little or no forest area and mountains, experience a comparatively more equable climate than the remaining areas. The taluks falling in this group are Arakkonam, parts of Walajapet and Arcot, Vellore, Walajapet and Gudiyattam taluks which are interspersed by hills and mountains are exposed to different climate conditions - very hot during the summer months and slightly cold during the winter seasons. In Tiruppattur and Vaniyambadi taluks, climate is rather slightly cold during winter, but moderate in the other seasons.

Heaviest rainfall (38.7) has been recorded at Tiruppattur station during the month of April 1990 while the lowest (29.6) has been recorded during the month of December 1990.

So also highest rainfall of (38.1) has been recorded during the month of April 1990 at Vellore station and the lowest being (29.0) during the month of December 1990.

The south west monsoon during September 1990 has brought the heaviest rainfall (146.2) and the North East monsoon 1990 during the month of October 1990 (168.6)

But during the winter and hot weather period the rainfall is very bleak being (18.0) and (67.8) during the months of January and May.

According to Tiruppattur Meteorological station highest humidity has been recorded during the month of October 1990 being 85 and 77.

But at Vellore station it has been recorded 87 and 62 during the month of December 1990.

RAINFALL

Period		Normal	Actual

ELECTRICITY AND POWER

The needs of the district are met by the Mettur Hydro-electric power and the Madras Thermal Power Stations. The distribution of power is made to the district through the electricity systems of Chengalpattu, Vellore and Tiruvannamalai Towns. There is a very good network of power transmission lines in the district as on 1990-91. All the Census towns, villages, hamlets and Adi-Dravidar colonies of the district have been extended power connection. Barring very few places which are either interior areas or inaccessible regions, where there is little or no demand for power. The district particularly enjoys power connection in all areas. Almost all the inhabited places have been covered by the electrical connections. Tremendous progress in this regard has been achieved in the last 20-30 years, through plan schemes. The extension of power to every nook

and corner of the district has opened up new vistas of development and has given fillip to both Industrial and agricultural production. Tamil Nadu has been a pioneer in the field of power extension to energise agricultural pumpsets having nearly 24.65% of the total number of electrically operated pumpsets throughout India.

Details of consumption of electricity in North Arcot Ambedkar District during the year 1990-1991 with the percentages in each category are presented below:

Category	Consumption during 1990-91 (in million units)	Percentage
1 Domestic	2236	14.17
2 Commercial	1338	8.48
3 Public lighting	200	1.27
4 Industrial	6891	43.66
5 Agricultural	3890	24.65
6 Miscellaneous	583	3.69

It can be seen from the above that consumption of power is the highest in respect of Industries with 43.66% in North Arcot Ambedkar District and Agriculture with 24.65% is the next important category.

Due to inadequate sources the district is increasingly dependent on well irrigation and the use of electrical pumpsets, for this purpose. Use of large quantum of power for agricultural purposes will therefore continue to be an important feature in the power consumption pattern of this district. The use of electricity industries is also on the upward trend with further industrialisation.

Following is the list of power stations located at the places noted against with their capacity.

POWER STATIONS

Name of Power Stations/Sub-stations/Hydel/Thermal/Diesel/Nuclear

Place	Capacity	Sub-station	Capacity
Generation in million units			
1 Tiruvalam	230/110	1 Tirupattur	110/33
2 Vellore	110/33	2 Vinnamangalam	110/66
3 Kannamangalam	110/110	3 Kandhili	33/110

13 Timiri	33/110	13 Gudiyattam	110/110
14 Kalavai	33/110	14 Alangayam	66/110

AGRICULTURE AND LAND UTILISATION

It is evident from this table that area covered by forest is more i.e. 1,61,229 hectares. Barren and non-culturable land and land put to non-agricultural use are 26,359 and 79,816 hectares

respectively. The net area sown remains at 2,08,838 hectares and the total cropped area is 2,43,623 hectares.

Rice is the chief crop sown on 3,4748 hectares while Bajra sown on 376 hectares.

Agriculture - Land utilisation

Classification	Area (in hectares)
1 Forest	1,61,229
2 Barren and non-culturable land	26,359
3 Land put to non-agricultural use	79,816
4 Cultivable waste	7,923
5 Permanent pastures and other grassing land	3,817
6 Land under miscellaneous tree crops and groves not included in net area sown	2,566
7 Current fallow land	5,50,041
8 Other fallow land	46,329
9 Net area sown	2,08,838
10 Geographical area	5,92,018
11 Total cropped area	2,43,623

IRRIGATION

The district is entirely dependent on the seasonal rainfall for its agricultural operations. Tanks and tubewells besides rivers channels and spring channels are the chief sources of irrigation. The rivers Palar, Ponnai and the Pennaiyar meet a good part of the irrigational needs and "Anaicut" have been constructed across them. Channels have been dug in the sandy belts and rivers to tap the subterranean water. Spring channels are also dug and these are mostly found in Gudiyattam taluk.

The rivers are not perennial and whenever they are in spate, flood waters are diverted into the channels through the anaicuts. The three important anaicuts are Palar Ponnai and Pennaiyar. The Palar anaicut benefits the taluks of Walajapet and Arakkonam. The anaicut over Ponnai river benefits some lands in Arakkonam and Walajapet taluks.

Towards meeting the irrigation needs, the district has no reservoir. 2,913 government canals and 80,538 wells (for irrigation only) besides 38,207 wells used for domestic purposes, as per available data (1990-1991). The number of tanks in the district is 3,189 and out of this 927 have ayacuts of 40 hectares more (100 acres are more) while remaining tanks have ayacuts of less than 40 hectares. Kaveripakkam lake is major tank in the district which irrigates large hectares of land.

The Kaveripakkam lake is quite a big one and is 6 km in length. It benefits 33 nearby villages, and adjoining places. Cultivation takes place 2 or 3 times a year.

Data on area irrigated in North Arcot Ambedkar District in 1990-91 by the different sources are given below:

Source of irrigation	Area irrigated in 1990-91 (in hectares)
1 Canals	604
2 Tanks	1355
3 Ordinary wells (irrigation only)	3
4 Others	153150

It may be observed from the above that wells in the district form a very important source of irrigation covering three-fourth of the total area under irrigation.

The number of wells supplementing recognised sources of irrigation is 1,53,150. Wells supplementing other sources of irrigation cover 1,37,907 hectares. The area of land irrigated more than once in the district was 37.4 hectares in 1990-91. The irrigated area formed 37.4%.

The following statement will reveal the area under irrigation and also its projects.

ANIMAL HUSBANDRY

Cattle are the mainstay of the peasants. From time immemorial animal husbandry alongside agriculture has been playing a pivotal role in our country. A vast majority of our people live in rural areas and they mainly depend on agriculture and animal husbandry for their livelihood. The role played by the animal husbandry in the economic field of the country is quite substantial.

A perusal of this following table reveals that there are 213,074 (males) cattle and 285,476 (females) in North Arcot Ambedkar District.

The number of buffaloes are males 20,383 and females 132,062. The number of sheep and goats are 297,326 and 196,866. Donkeys 1,941 and domestic dogs 57,742 totalling the livestock population to 1,199,030.

Fowls and Ducks also form part of Poultry with 630,881 and 43,145.

There exists one Veterinary Hospital apiece at Ranipet and Vaniyambadi. The number of Veterinary Doctors are 34 and Livestock Inspectors are 124.

Cases treated both indoor and outdoor comes to 501,455. The number of castrations performed on animals are 12,588.

The number of slaughter houses that existed during 1990-91 were 10 and slaughtered animals were 70,836 for which 10 persons were engaged.

Haemorrhage, Black Ovarher, Anthrox and Foot mouth diseases are killer diseases among bovines. The number of bovines that died due to these deadly diseases were 25, 32, 22 and 44 respectively.

Enterotaxaemia, Anthrox and sheep fox are also the killer diseases among sheep and goats. The number of sheep that died due to such disease are 8, 23 and 49 respectively.

TRADE AND COMMERCE

North Arcot Ambedkar is an important commercial centre. Most of the in and out movement of trade is carried through road transport by lorries and carts drawn by bullocks. The mercantile consignments include all items from iron and steel and sundry shopping goods. Most of the commodities that move out of the district are general goods, grains, sugar, jaggery, fertilizers and chemicals.

Finance for the trade is provided by the commercial banks, Co-operative banks and private leading money lenders. The outlets for consumer goods consist of Co-operative consumer stores.

TRANSPORT AND COMMUNICATION

North Arcot Ambedkar district has good network of roads to an extent of 2621.73 Kms. Even its farthest corners are well linked with important centres. Road communication is well supported by railways (i.e.) metre gauge and broad gauge communication. The following is a statement showing the length of roads maintained by various agencies as on 31st March '90.

I	National Highways	
	1 Surfaced	191.60

Social and Cultural Events

Prohibition was lifted during 1971 and again it was reimposed in 1974. This can also be termed as an important event. Parts of the district are frequently prone to drought and it will be intense whenever there happens to be scanty rainfall. Floods also visit this district occasionally.

PLACES OF TOURIST IMPORTANCE

The century old (over 400 years) fort and the moat on the northern and western sides of the fort are the only tourist attractions of Vellore, the Headquarters of North Arcot Ambedkar District.

The fort consists of the main rampart built of massive granite stones distinguished at regular intervals by round towers and rectangular projections.

Fort at Vellore

Vellore and the region around it has rich and varied prehistoric remains. The broad plain to the east of town is strewn with numerous sites yielding vestiges of palaeolithic period (from about 500,000 years). Many habitation mounds of Neolithic and Iron Age cultures (from 4,000 BC to 2,000 AD years) were located in the hill ranges around Vellore. The entire region is scattered with many types of megalithic burial tombs (c.2, 500 years) known locally as Pandavar Kuli.

The region was a part of Perumbanavadi, the country of the Banas. Possibly, Vellore was a Brahmanical settlement known as Parameswaramangalam during Pallava period (c. 6th - 9th century A.D.). Innumerable inscribed hero-stones of this period were discovered in this region. They record the heroic death of persons in cattle raids/battles. The architectural achievement of the Pallavas can be seen at Mahendravadi and Vilappakkam in the form of rock-cut cave temples. The structural temple at Solapuram (c. mid 9th century A.D.) is the earliest memorial (Pallipada) temple.

Subsequently, Cholas established their rule over the region (c. A.D. 890) under Aditya (c. 871-907) only to loose it to the Rashtrakutas under Krishna III (A.D. 936-967). In fact, one of the inscription of the latter king refers to Velurpadi, possibly the present Velapadi in Vellore town. Cholas built numerous temples in the region, among them the Cholisvara temple at Melpadi, a memorial temple for Arinjaya (A.D. 956-960) built by Rajaraja I (A.D. 985-1012). The Jaina temple at Tirumalai known as Kundavaijinalaya, named after the famed sister (or daughter?) of Rajaraja I are noteworthy. It is interesting to know that the region was a stronghold of Jainism in the Chola period.

Vellore became an important provincial centre of Vijayanagara empire with a strong fort and Nayakas to rule the region from here. Of this family important ruler was Chinna Bomma Nayaka, who patronised the Jvarakandesvara (Jalakantesvara) temple. His son Lingama Nayaka unsuccessfully rebelled against the Vijayanagara ruler Venkata II (A.D. 1586-1614)

in A.D. 1604 when the power of Vijayanagara was waning. Venkata II shifted his residence from Chandragiri to Vellore for sometime. In his court were present few Jesuit priests, who were allowed to build a church within the fort. Vellore remained the seat of later Vijayanagara rulers in their precarious existence till A.D. 1681.

However the fort was captured by Mir Jumla in A.D. 1646, from the Vijayanagara rulers. It changed hands to Sivaji in A.D. 1677 after a protracted siege. The fort remained with the Marattas till the Moghuls captured it in A.D. 1708.

In the early decades of the 18th century, Vellore was under Murtaza Ali, a relative of the Nawab of Arcot. It was converted into a British garrison by A.D. 1760 during the intense conflict between the British and Hyder Ali for Carnatic. Hyder sieged the fort in A.D. 1780 and the British had to struggle hard to lift the siege. Vellore was the base of Lord Cornwallis in his campaign against Tippu Sultan. It was here the family of Tippu was kept under the arrest after his fall. In A.D. 1806, the sepoys of Vellore rose heroically in mutiny against the British army officers which was promptly quelled. Since then Vellore remained as an administrative Headquarters.

Jalakanteswarar Temple

The fort also contains one of the prides of Vellore, the Jalakanteswarar Temple which attract nation wide interest following the reinstallation of the main deity - the Lingam - in its original place and restoration of worship in the temple amidst a mass religious upsurge.

The temple which was built in the Vijayanagar style around the same time that the fort was built, consisted of a main shrine, a close ambulatory passage around and an integrated Mahamantapam. Subsidiary structures in the courtyard on the outer prahara included a lofty gopuram on the south and a kalyana mandapam on the south western corner of the Amman shrine.

Besides the temple, the fort also contains within its four walls a mosque and a church built by the Muslim and British rulers who captured the fort in succession after its early occupation by the Vijayanagar rulers who built the temple. All the three places of worship are now in woe.

Kavaloor Telescope

The biggest and wondrous Telescope in Asia is located at Kavaloor village in Javadi Hills at a height of 4200 ft. It was declared open by late Prime Minister Rajiv Gandhi during the year 1986. It attracts a large number of tourists. Scientists from far flung areas keep visiting this wonder throughout the year.

Entertainment

The district has a total of 2,703 theatres as at the end of 1991. Out of this 2,473 permanent ones and 230 semi-permanent. The rest viz. 963 touring cinemas.

PLACES OF HISTORICAL RELIGIOUS AND ARCHAEOLOGICAL IMPORTANCE

Some of the important places in the district which have become famous due to their religious, historical and archaeological importance are detailed below:

Vellore

"Royar Vellore" - It is historically famous and is the headquarters of the erstwhile North Arcot and also the newly formed and existing district of North Arcot. Ambedkar as well as Vellore taluk. The Vellore fort, believed to have been built in the 13th Century has withstood many wars and is appreciated for its military architecture. The world famous Christian Medical College and Hospital here was started in 1918 and the attached Medical College Hospital has become famous for its specialised medical services. It is the only city having over three lakhs of urban agglomeration population in North Arcot Ambedkar District (310776) as per Census - 1991. The central jail, which is the largest of its kinds. Jalakanteswarar temple (inside the Vellore fort), Emergency Airport and Helipad at Abdullahpuram "Tiger of Mysore" - The great Tippu Sultan and his family members tomb (Cemetery) is also built at Vellore city etc., are the other places of importance in the city.

Arcot

It is a reputed commercial centre. Historically also it is famous and it serves as the headquarters of the taluk. It is situated on the banks of Palar river. Several battles were fought in and near this town during the 18th and 19th centuries. The place changed hands and was in possession of the British, French and Mughuls (Hyder Ali) in turns. Few tombs and other historical monuments are the centres of attraction in Arcot. It is also famous for its high quality of Arcotkichidirice (RICE) and "Makkan Beda" sweets.

Ambur

The town Ambur is famous for its leather tannery and sugar industry. It was a Chief Military Centre during the Carnatic Wars. Being an important centre for Muslim, there is an Arabic School which offers courses in Arabic and Persian. It is an important trade and commercial centre for fruits, flowers and food grains in Vaniyambadi taluk.

Gudiyattam

It is a taluk headquarter of Gudiyattam taluk and a centre for Trade and Industry and famous for its Handloom weaving which is an important occupation in this town and there are large number of looms here besides cotton mills. Handloom weaving which is the main source of livelihood along with agriculture. As per Census - 1991, 9,070 workers are engaged in household industry in this town and a quite large number of them are in handlooms. A Sugarcane Research Institute is also located in this town.

Karigiri

A small village panchayat 10-12 km. away from Vellore Karigiri is famous for its glazed pottery. Variety of glazed articles are produced here. Goods produced here are marketed in Industrial Museum and the Victoria Technical Institute at Madras. A leprosy centre exists near Karigiri. This village is having a population of 4,481 as per 1991 Census.

Ranipettai

This town in North Arcot Ambedkar District has a growing tendency due to its multifarious Industrial Complex sponsored by the SIDCO, Tamilnadu Government. This town has Industrial growth in Leather, Sugar, Ceramics, Chemicals and other small scale industrial products. Besides EID Parrys, a leading private Confectionary Company manufacture Toffee, Chocolate etc., under popular brand name "Parrys". This important Industrial town is 114 Kms. west of Madras. It is also the headquarters of the Revenue Division. Dr. Ida Scudder first established a hospital here. It is noted for the processing of hides and skins. It is also famous for its cottage industry of manufacturing beedies. This town has registered a decadal growth of 13.37% during Census 1981-1991. Tamil Nadu Government has opened up a "Sipcot" complex for leather chemicals to assist the leather industry.

Chemicals: BHEL, A leading public sector factory manufacturing of heavy boilers and its ancillaries are located in this town.

Tiruppattur

It is a Municipal Town situated at the foot of the eastern Ghats besides it is an important trading centre. The chief commodities, traded here include, Dal, Jaggery, Chilli etc., A sandalwood factory is located here. The Sacred Heart College here run by the Christian Missionaries a prominent educational institution, is located in this town. This place is also the headquarters of the taluk and the Revenue Division. This Municipal town has a population of 55,282 as per 1991 Census. Handlooms and Beedi are the important household industries in this town.

which have more women participation. It is also an agricultural town.

Arakkonam

Arakkonam is a Municipal Town having a population of 71,928 as per 1991 Census. Being an important Metregauge as well as Broadgauge Railway Junction, on the Railway line running from Madras towards the west it is 68 Km. away from Madras. Arakkonam is a railway junction on the Chengalpattu Arakkonam line and is having a huge railway workshop. A ware-housing FCI employing thousands of workers is located in this town. A Naval base air field also functions here. A ware-housing FCI maintains its big godown here. Handlooms and Beedi are the important household industry in this town.

Walajapet

It is a very good old Municipality declared by British rulers in the Madras presidency in the year 1895, now it has a population of 26,972 as per 1991 Census. It lies on the National Highway connecting Madras and Bangalore. It is also served by Walaja Road Railway Station (junction). Besides it is the headquarter of Walajapet taluk. Silk weaving, Woollen druggets, Carpets and Cane work (rattan) are important industries. This town is noted for its hides and skins.

Sholinghur

A small town in Walajapet taluk is known for its hill temple and its main diety Lord "Anjaneya" held sacred by Hindus. There are two small lion shaped hillocks here, the highest of which is only 400 ft.

Patients suffering from certain diseases including those with mental disorders are said to be cured by staying and worshipping at this temple. There is also a spring here and the mineral water of which is believed to contain health properties.

Yelagiri

Yelagiri hill is a picnic and tourist spot situated at a height of 970 metres elevation. Yelagiri hills lies in the North eastern part of Tiruppattur taluk. The Javadis cover the eastern part of Tiruppattur and Vaniyambadi taluks and north western portion of Chengam taluk. The hill is at a distance of 16 Kms. from Vaniyambadi town and 5 Kms. from Jolarpettai railway junction. The hill road has 13 hair pin bends and is 15 Kms long. The natural features part at the foot of the hill present a beautiful pictures of fine scenery. The hill covers an area of over 13 Sq.Kms. A few tribes reside on the hill and cultivate tomato, cardamom, fruits, coffee etc., on the slopes. The place is developing as a picnic spot as well as health resort and is visited by people from far and near during the summer.

Vaniyambadi

Vaniyambadi town is well known for leather tannery. It is a noted trade centre and the name of town is said to have been derived from the term "Vanniya", meaning trader. Production of jaggery, oil, beedi are important industries here. It is the headquarter of Vaniyambadi taluk. There is a famous mosque built on the model of Tajmahal in Agra. It also lies on the national highway connecting Madras and Bangalore and also served by Vaniyambadi Railway Station. Muslims are predominant people residing in this town.

28	Udayendram (TP)	10,421	5,188	5,233
29	Vaniyambadi (M)	72,428	35,850	36,578
30	Vellore (M)	175,061	87,968	87,093
31	Virudambattu (VP)	4,240	2,112	2,128
32	Walajapet (M)	26,972	13,405	13,567
ALL TOWNS		959,714	481,889	477,825

Table-1(B) provides the information on distribution of urban population by sex in the district. Among 32 towns in North Arcot Ambedkar District, Vellore (M) represents more number of males and females population with 87,968 and 87,093 while Cheruvanki (VP) shows the lowest representation with 1,045 males and 1,074 females population in the district.

TABLE - 2

NEW TOWNS/TOWNS DECLASSIFIED, MERGED IN 1991 CENSUS

Name of Town	Population
1	2
(a) ADDED	
(i) Kalinjur	11,369 (1991 Census)
(ii) Kangayanallur	8,869 (1991 Census)
(iii) Palavansathu	7,883 (1991 Census)
(b) DECLASSIFIED	Nil
(c) WHOLLY MERGED WITH OTHER	Nil

Table-2 reveals that new towns have been added in 1991 Census.

TABLE - 3

DECADAL CHANGE IN DISTRIBUTION OF POPULATION

Sl. No.	Name of Taluk	Population						Percentage decadal variation (1981-91)			Percentage of Urban population	
		1981			1991			Total	Rural	Urban	1981	1991
		Total	Rural	Urban	Total	Rural	Urban					
1	2	3	4	5	6	7	8	9	10	11	12	13

2	Walajapet	295,418	201,994	93,424	361,619	244,039	117,580	+22.41	+20.82	+25.86	31.62	32.51
3	Gudiyattam	489,262	350,390	138,872	573,488	391,687	181,801	+17.21	+11.79	+30.91	28.38	31.70
4	Vellore	503,893	259,103	244,790	557,816	283,417	274,399	+10.70	+ 9.38	+12.10	48.58	49.19
5	Arcot	195,898	157,072	38,826	216,051	170,846	45,205	+10.29	+ 8.77	+16.43	19.82	20.92
6	Vaniyambadi	403,362	262,278	141,084	477,830	309,612	168,218	+18.46	+18.05	+19.23	34.98	35.20
7	Thirupattur	369,846	295,789	74,057	424,747	345,746	79,001	+14.84	+16.89	+ 6.68	20.02	18.60
DISTRICT		2,628,526	1,819,001	809,525	3,026,432	2,066,718	959,714	+15.14	+13.62	+18.55	30.80	31.71

Table-3 clearly shows about talukwise decadal changes in distribution of population in rural and urban areas, as well as percentage of urban population during 1981 and 1991 Censuses. As regards rural area Walajapet taluk reported highest decadal change, which represents 20.82%. Likewise Vaniyambadi taluk followed by second place with 18.05% while Arcot taluk has only 8.77% which is less than District total of 13.62 percentage. As for urban Gudiyattam taluk placed first with 30.91% followed by Walajapet taluk which represents 25.86% of urban population. The lowest decadal variation being in Thrippattur taluk with 6.68%

TABLE - 4
PERCENTAGE DISTRIBUTION OF VILLAGES BY POPULATION RANGES, 1991

Sl. No.	Name of C.D. Block	Number and percentage of inhabited villages	Number and percentage of villages in each range (figures in parenthesis indicate percentage of village in each range)					
			Less than 200	200 to 499	500 to 1,999	2,000 to 4,999	5,000 to 9,999	10,000 and above

19	Thruppattur	19 (100.00)	—	—	1 (5.26)	3 (15.79)	14 (73.69)	1 (5.26)
20	Kandili	38 (100.00)	—	4 (10.53)	9 (23.68)	21 (55.26)	4 (10.53)	—
District		808 (100.00)	12 (1.48)	40 (4.95)	348 (43.07)	320 (39.60)	84 (10.40)	4 (0.50)

The above table shows the C.D. Blockwise percentage of villages by population ranges in North Arcot Ambedkar District. As per the above table, we can trace 37 villages with 52.86% in Timiri C.D. Block in the range of 500-1999, followed by Pernambattu C.D. Block with 35 villages, which represents 55.55%. In the range 5000-9999, Thruppattur C.D. Block represents with 14 villages 73.69% followed by Jolarpet C.D. Block represents with 12 villages with 48%, while Thruppattur C.D. Block has the only one village with 5.26% is the lowest in the range of 500-1999. While Nemili C.D. Block has only one village with 1.75% followed by Madhanur and Vellore have only one village each, which reflects 2.22% and 4.55% in the range of 5000-9999. In 10,000 and above, Katpadi, Timiri and Thruppattur C.D. Blocks each represents only one village with 4.00%, 1.43% and 5.26% respectively.

TABLE - 5

DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq. kms)	Total number of villages in each density range	Percentage of villages in each density range
1	2	3
- 10	4	0.50
11 - 20	2	0.25
21 - 50	1	0.12
51 - 100	4	0.50
101 - 200	43	5.32
201 - 300	105	12.99
301 - 500	287	35.52
501 +	361	44.68
Not known	1	0.12
Total	808	100.00

Table-5 provides the information on distribution of villages by density. It can be seen from the table that 361 villages with 44.68% represents in the range of 501 and above followed by 287 villages with 35.52% in the range of 301-500 respectively, while only one village with 0.12% in the range of 21-50, followed by two villages with 0.25% in the range of 11-20. Likewise one can easily trace out that only one village with 0.12% comes under "Not known" in the district.

TABLE - 6 A

SEX RATIO FOR RURAL POPULATION OF C.D. BLOCK, 1991

31	Virudambattu (VP)	1,008
32	Walajapet (M)	1,012
ALL TOWNS		992

Table-6 B reveals about the sex ratio of town population in the North Arcot Ambedkar District. Total number of towns in the district are 32. Melvisharam (TP) has the highest female rate with 1,039 followed by Kalinjur (TP) with 1,031 females per 1,000 males while Torappadi (TP) represents 758 females per 1,000 males which is less than the district (992) females per 1,000 males of all the 32 towns, 13 towns represent more female population in the district.

TABLE - 7
PROPORTION OF SCHEDULED CASTE POPULATION TO TOTAL POPULATION IN THE VILLAGE

Percentage range of Scheduled Caste population to total population	Number of villages in each range	Percentage of villages in each range
1	2	3
Nil	52	6.44
0 - 5	76	9.41
6 - 10	85	10.52
11 - 15	79	9.78
16 - 20	83	10.27
21 - 30	158	19.55
31 +	275	34.03
Total	808	100.00

Table-7 deals with the proportion of Scheduled Caste population to total population in the villages in North Arcot Ambedkar District. Out of 808 villages in the district the maximum number of villages 275 represents with 34.03% in the range of 31 and above, followed by 158 villages with 19.55% in 21-30 ranges while 52 villages with 6.44% do not have any Schedule Caste population in the district.

TABLE - 8

**PROPORTION OF SCHEDULED TRIBE POPULATION TO TOTAL
POPULATION IN THE VILLAGE**

Percentage range of Scheduled Tribe population to total population	Number of villages in each range	Percentage of villages in each range
1	2	3
Nil	424	52.48
0 - 5	337	41.71
6 - 15	25	3.09
16 - 25	4	0.50
26 - 35	1	0.12
36 - 50	1	0.12
51 and Above	16	1.98
Total	808	100.00

Table-8 brings out the distribution of total number and percentage of villages according to the percentage range of Scheduled Tribe population in the district. Out of 808 villages, 337 villages with 41.71% in the range of 0-5 have Scheduled Tribe population to total population, while only one village exists each in the range of 26.35% and 36-50, which represents 0.12% and 0.12% respectively. And also one can notice that 424 villages with 52.48% do not have any Scheduled Tribe population in the district.

ALL TOWNS		959,714	147,289	3,546	15.35	0.37

Table-9 provides the percentage of SC/ST population of towns in North Arcot Ambedkar District. It is seen that Cheruvanki town has recorded highest percentage of SC, ST with 54.60, 4.34, while Gandhinagar represented lowest percentage of SC and ST with 1.36, 0.01 respectively. Here we can observe six towns do not have any ST population in the district. And also we can trace through this table the SC (147, 289 with 15.35%) and ST (3,546 with 0.37%) to all towns population in this district.

20	Kandili	38	37 (97.37)	20 (52.63)	38 (100.00)	29 (76.32)	5 (13.16)	36 (94.74)	29 (76.32)	38 (100.00)
District		808	760 (94.06)	328 (40.59)	808 (100.00)	519 (64.23)	123 (15.22)	692 (85.64)	635 (78.59)	808 (100.00)

A perusal of Table 12 reveals the C.D. Blockwise distribution of inhabited villages according to availability of different amenities in North Arcot Ambedkar District. All the villages have Drinking Water, Power Supply facility. Likewise 760 villages (94.06%) have education facility, 692 villages (85.64%) have Communication Facility, 635 villages (78.59%) have approach by pucca road, 519 villages (64.23%) have Post & Telegraph facility. The market/hat facility is available in 123 villages only which works out to 15.22%.

TABLE - 13
DISTRIBUTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

18	Alangayam	94,429	94,292 (99.85)	44,160 (46.77)	94,429 (100.00)	91,318 (96.71)	30,155 (31.93)	79,328 (84.01)	79,430 (84.12)	94,429 (100.00)
19	Tiruppattur	1,16,764	1,16,764 (100.00)	75,843 (64.95)	1,16,764 (100.00)	1,05,539 (90.39)	18,029 (15.44)	1,09,682 (93.93)	74,999 (64.23)	1,16,764 (100.00)
20	Kandili	1,09,187	1,08,358 (99.24)	77,511 (70.99)	1,09,187 (100.00)	1,01,800 (93.23)	16,697 (15.29)	1,04,427 (95.64)	98,747 (90.44)	1,09,187 (100.00)
District		20,66,718	2,02,5054 (97.98)	11,23,767 (54.37)	20,66,718 (100.00)	16,94,446 (81.99)	4,24,429 (20.54)	17,91,430 (86.68)	17,63,234 (85.32)	20,66,718 (100.00)

Table 13 deals with the C.D. blockwise information about availability of different amenities in proportion to rural population. All villages in the district have drinking water and power supply facility. Likewise 97.98% avall education facility, 86.68% avall communication, 85.32% have approach by pucca road, 81.99% avall Post and Telegraph, 54.37% have medical facility where as market/hat facility covered lowest with 20.54% in the district.

TABLE - 14
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Sl. No.	Villages not having the amenity of	Number of Villages where the amenity is not available and available at distance of				
		- 5 Kms	5 - 10 Kms	10+ Kms	Total (cols.2-4)	
1	2	3	4	5	6	
1	Educational	48	—	—	48	
2	Medical	374	83	23	480	
3	Post and Telegraph	283	6	—	289	
4	Market/hat	477	161	47	685	
5	Communications	97	11	8	116	

Table 14: deals with the distribution of villages not having certain amenities arranged by distance ranges from the places where these are available. Education facility which is not available for 48 villages is available at the distance range of less than 5 km. Likewise medical facility is available to 374 villages within -5 kms and also we can trace this facility for 83 villages within 5-10 km, 23 villages avail this facility at a distance of more than 10 km where as Post and Telegraph can be traced in 283 villages below 5 km, 6 villages between 5-10 km. As usual market/hat is available for 477 villages in the range of less than 5 km. for 161 villages in the range of above 10 km. Likewise communication is available within 97 villages in the range of less than 5 km. for 11 villages in the range of 5-10 km, for 8 villages in the range of 10 km and above in the district.

TABLE - 15
DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND
AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest town (in kms.)	No. of inhabited villages in each range	Number (With Percentage) of villages having the amenity of							
		Educational	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communi- cations	Approach by pucca road	Power Supply
1	2	3	4	5	6	7	8	9	10
0-5	233	221 (94.85)	89 (38.20)	233 (100.00)	155 (66.52)	28 (12.02)	207 (88.84)	191 (81.97)	233 (100.00)
6-15	438	414 (94.52)	181 (41.32)	438 (100.00)	279 (63.70)	69 (15.75)	378 (86.30)	344 (78.54)	438 (100.00)
16-50	137	125 (91.24)	58 (42.34)	137 (100.00)	85 (62.04)	26 (18.98)	107 (78.10)	100 (72.99)	137 (100.00)
51+	—	—	—	—	—	—	—	—	—
Unspecified	—	—	—	—	—	—	—	—	—
Total	808	760 (94.05)	328 (40.59)	808 (100.00)	519 (64.23)	123 (15.22)	692 (85.64)	635 (78.59)	808 (100.00)

Table 15: brings out the distribution of villages according to distance range from the nearest town and availability of different amenities. As per the table one can understand that all 808 villages have Drinking Water, Power Supply facility. Likewise education is available in 760 villages which reflects 94.06% in the range of 0.5., 6.15, 16.50 km. Approach by pucca road is available in 635 villages, which reflects 78.59% in all the ranges. Medical also some what better available within 328 villages, which reflects to 40.59% in all the ranges.

TABLE - 16
DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

Population range	No. of Inhabited villages in each range	Number (With Percentage) of villages having the amenity of							
		Educational	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communi- cations	Approach by pucca road	Power Supply
1	2	3	4	5	6	7	8	9	10
499	52	30 (57.69)	8 (15.38)	52 (100.00)	3 (5.77)	5 (9.62)	30 (57.69)	26 (50.00)	52 (100.00)
500-1999	348	328 (94.25)	85 (24.43)	348 (100.00)	159 (45.69)	35 (10.06)	284 (81.61)	251 (72.13)	348 (100.00)
2000-4999	320	314 (98.13)	169 (52.81)	320 (100.00)	273 (85.31)	55 (17.19)	293 (91.56)	278 (86.88)	320 (100.00)
5000+	88	88 (100.00)	66 (75.00)	88 (100.00)	84 (95.45)	28 (31.82)	85 (96.59)	80 (90.91)	88 (100.00)
Total	808	760 (94.06)	328 (40.59)	808 (100.00)	519 (64.23)	123 (15.22)	692 (85.64)	635 (78.59)	808 (100.00)

Table 16 gives detailed information about the distribution of villages according to the population ranges and amenities available. At the maximum of 348 villages out of 808 villages in the district have population between 500-1999 and all have Drinking Water and Power Supply facilities in cent percent, 760 villages (94.06%) have education facility, 692 villages (85.64%) have communication facility, 635 villages (78.59%) have approach by pucca road, 519 villages (64.23%) have Post & Telegraph facility, 328 villages (40.59%) have medical facility and 123 villages (15.22%) have market/hat facility. Similarly at the minimum of 52 villages have population range < 500 and all have Drinking Water and Power Supply amenities in cent percent in North Arcot Ambedkar District.

TABLE-17

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE

Sl. No.	Name of C.D. Block	Number of Inhabited villages	Total area	Percentage of cultivable area to total area	percentage of irrigated area to total cultivable area

19	Thrippattur	19	18,567.32	82.01	49.34
20	Kandili	38	23,883.79	70.05	56.16
District			440196.79	66.66	44.59

Table 17 furnishes C.D. Blockwise landuse particulars of North Arcot Ambedkar District. The total area of 808 inhabited villages of the district is 440196.79 hectares of which 66.66% are cultivable. The district's percentage of irrigated area to the total cultivable area works out to 44.59%. Among all C.D. Blocks Kaveripakkam C.D. Block possesses the maximum 93.07% cultivable to the total area of which 34.82% are irrigated whereas Madhanur C.D. Block possesses the minimum of 26.13% cultivable area of which 50.06% are irrigated. As regards to the irrigated area of Pernambattu C.D. Block possesses the maximum of 56.77% to the cultivable area and the minimum is found in Katpadi C.D. Block with 31.83%.

PART - A SECTION 'B' TOWN DIRECTORY

Note explaining the codes used in the Town Directory

Class of towns by population

Population			Class
1,00,000	and	above	I
50,000	-	99,999	II
20,000	-	49,999	III
10,000	-	19,999	IV
5,000	-	9,999	V
Below	5,000		VI

Civic administration status of the town

M.Corp	..	Municipal Corporation/Corporation
M	..	Municipality
TP	..	Town Panchayat
VP	..	Village Panchayat
TC	..	Town Committee/Town Area
CB	..	Cantonment Board/Contonment
SC	..	Scheduled Castes
ST	..	Scheduled Tribes

Type of Road

PR	..	Pacca Road
KR	..	Katcha Road

System of Sewerage

S	..	Sewer
OSD	..	Open Surface Drains
BSD	..	Box Surface Drains
SD	..	Silk Drains
CD	..	Cesspool method
Pt	..	Pit System

Method of disposal of night soil

HL	..	Head Loads
B	..	Baskets
WB	..	Wheel Barrows
ST	..	Septic tank latrines
S	..	Sewerage

System of storage of water

OHT	..	Overhead tank
SR	..	Service reservoir
IG	..	River infiltration gallery
BWP	..	Borewell pumping system

PT	..	Pressure tank
Source of drinking water		
TW	..	Tube well water/Hand pump
T	..	Tap water
W	..	Well water
TK	..	Tank water
Medical facilities		
H	..	Hospital
D	..	Dispensary
HC	..	Health Centre
FC	..	Family Planning centre
TB	..	T.B. Clininc
NH	..	Nursing Home
O	..	Others
A	..	Ayurvedic
U	..	Unani
Hom	..	Homeopathic
Educational facilities		
A	..	Arts only
S	..	Science only
AS	..	Arts and Science only
C	..	Commerce only
AC	..	Arts and commerce only
ASC	..	Combined for all categories Arts, Science and Commerce
L	..	Law
Recognised shorthand, typewriting and other vocational Institutions		
SH	..	Shorthand
Type	..	Typewriting
Sh.Type	..	Shorthand and Typewriting
O	..	Others
Public Libraries and reading rooms		
PL	..	Public Libraries
RR	..	Reading Rooms
