*Remarks on the Country &c. from Colombo to
Jaffna and thence to Trincomalie.*

From Colombo to Pasbatal, is a distance of $4\frac{1}{2}$ miles, the road good, house and Cocoanut plantations all the way: the river Mutwal is crossed here.

From Pasbatal to Jaille Rest House is $7\frac{3}{4}$ miles, good road, rather elevated above the common level of the Country: on the left is a large plain (originally cultivated) which extends as far as Negombo Lake, and thro' which runs the navigable canal to that place.

From Jaille to Negombo, distant $10\frac{3}{4}$ miles, the road is good & pleasant, crosses cultivated lands, some jungle with fine intervals of green pasture: about $2\frac{1}{2}$ miles from Jaille the Dandogam River, is crossed and thence to Negombo is a fine extensive sheet of water of that name on the left.

Negombo is a pleasant Village, and has a small Fort. There are some good Houses in the Pettah and it is the residence of a Magistrate.

From Negombo to Maravilla distance 14 miles the road is very sandy, bordered to the Kaymele River by an uninterrupted tope of Cocoanut trees. Boats attend here for the convenience of Passengers; at Maravilla there is a good Rest House.

From Maravilla to Chilaw distance $12\frac{1}{2}$ miles, the same sandy beach continues. The Country is barren and almost uninhabited; Near the Sea shore is the Collector's Cutcherry. The Fort of Chilaw is situated on the opposite side of the River.

From Chilaw to Oedepencarre the distance is $10\frac{3}{4}$ miles from the former place a narrow slip of land, about 2 miles in length, brings you to the Ferry of the Chilaw River, which is broad, and rapid and should be passed with caution in windy or after rainy weather; about half way there is a small Tappal Station, the only appearance of habitation in this desert and barren tract of Sand.

Oedepencarre is a small Village of Fishermen, and near it the Rest House, and ancient Pagoda of Andipane.

From Oedepencarre to Madramkeoly distance, $11\frac{1}{2}$ miles is over flat marshy ground full of bogs in wet weather, having on the right the Andapane water and on the left, a Cocoanut Tope, in which are one or two Villages; about half way the road crosses a narrow Canal called Quiparawa (commonly known by the name of Blue Boots) here the passage is always difficult and in wet weather almost impracticable, an extent of about 500 yards of deep adhesive clay of a bluish colour, extending right and left of the Canal which is the communication between the narrow Gulph of Calpentyn and the Andipane Lake; from this the road is better but occasionally interrupted.

by bogs of clay, on the left is a Canal extending to the before mentioned Gulph.

From Madramkooly Post House to Putlam distance $8\frac{1}{2}$ miles. The road is pretty much the same untill you arrive at Calpentyn Gulph about 2½ miles from Putlam, where there is a small square Fort. The Village is about 800 yards further on in the midst of Cocconut Tapes.

From Putlam to Wannitavilly distance $11\frac{1}{2}$ miles the road is good for the first 4 miles, being over an extensive plain with large Salt pans on the left, hence on both sides it is a dreary road with thick and impenetrable jungle to Wannitavilly where there is a large Tank. From this place there is a Road to Canadivoe from whence the Calpentyn Gulph is crossed to the Village and Fort of that name.

From Wannitavilly to Pomparipoo, distance 11 miles, the road continues thro' a very barren and woody country, in wet weather extremely difficult to pass, being full of swamps and much infested with wild Animals, about 4 miles before reaching the latter place, the River of Pomparipoo, is crossed, which is fordable, but after Rain generally very deep and rapid.

From Pomparipoo to Mardedde a lonely rest House, distance $8\frac{1}{2}$ miles, the road generally good, excepting over the Pomparipoo plains, where the ground being clayey the water stands in rainy weather.

From Mardedde to Marchicotty distance $7\frac{1}{2}$ miles, the road continues good, with high jungle on both sides; During this stage the Moderagam River is crossed.

From Marchicotty to Arripo distance $16\frac{1}{2}$ miles, there are two different roads—the inland road more used in former times than at present; (then called the Elephant road, because these Animals used to be sent thro' it to the Peninsula of India) first goes off in N. N. E. direction, then North. It is generally good, sandy, and deep in some places, surrounded with thick jungle, diversified by a few small plains; When it turns off to Condatchy, the country opens and the road becomes clayey and difficult in many places.—The other road which passes along the Sea shore, and near the Kallar Pagoda, is extremely difficult to pass at high water from the nature of the shore, which is covered with Rocks; after some miles however there are fine hard sands, which for Palankeen bearers, and indeed any other conveyance than Carriages is by far preferable to the sands you meet with on the other road; at Arripo is the Dome a large stone building, built by the Honble F. North, (The Present Earl of Guildford) when Governor of Ceylon, and ornamented by a front of that order of Architecture—Here the Governor resides during the period he visits the Pearl Fishery, which takes place at Condatchy.

From Arripo to Bangalle distance 8 miles, the river of Arripo is crossed with Canoes, road rather sandy and muddy, there are several Nullahs, the Country being low; At Bangalle is a Roman Ca-

tholic Church. A separation of the Roads takes place here, the one leading to Manar & the other to Mantotte and Jaffna.

From Bangalle to Tallaly, distance 4 miles, the country low over, open plains, and in the rainy season full of muddy water for an extent of about two miles; in the flood time there is near 2 feet of water: at the ebb it is almost dry; close to Manaar its river is crossed; The Fort of Manaar is built of Coral Stones, contains several buildings and a reservoir for water which is difficult to be obtained good elsewhere; In the Pettah the Houses are good & the Collector's House is a very commodious one. The country well inhabited. Travellers cross from hence, via Ramisseram to the Continent of India.

From Bangalle to Mantotte, is a distance of $4\frac{1}{2}$ miles, here is a large building on an elevated spot commanding extensive plains, part of which are at certain periods overflowed by the Sea.—The Rest House, (formerly a Church) is contiguous to the Paddy Store near Mantotte, the site with some ruins (scarcely discoverable) are shewn, which prove it to have been formerly a place of Trade.

From Mantotte to Werteltivoe, distance $9\frac{1}{2}$ miles, there is nothing remarkable: The Road is flat and sandy, leading thro' open Jungle and some large plains, with the appearance of Salt pans. This is a large Village inhabited by Moormen. The Country is much infested by wild Buffaloes and Elephants, and from hence there is a road through the Wanny by which the Tappal goes to Trincomalee.

From Werteltivoe to Ellepekarveh Rest House, distance $5\frac{1}{2}$ miles, the road is much the same as the last stage, the Village of Ellepekarveh is of some size, the Country around fertile, and in some places cultivated but after that for a long extent of road nothing is seen but jungle, beds of Rivulets, some with water, others dry, and as Polverynkattoe is approached (a distance of 15 miles from the latter Village) an extensive wood of every thick Jungle, is passed through; The Rest House is situated about a mile and a half from the Sea and from the same place eastward is the Village, with a very considerable Tank, affording means of cultivating an extensive range of Paddy Fields; At about 5 miles from the Sea shore in a north westerly direction are the two small Islands of Ireentivoe (or the two Brothers) where the Colts of the Delft Stud are turned out; the soil is sandy with short grass, Palmyra and Cocconut Trees.

From Polverynkattoe, to Poneryn, distance 16 miles, a sandy Road with low Jungle and much water, some open plains, and Paddy Fields: Elephants are here met with in the rainy season. This place is well inhabited, the Rest House is commodious and a Magistrate resides in the Fort.

From Poneryn to Kaloemony, distance $13\frac{1}{2}$ miles. The Road is sandy & full of Palmyra Trees: here the sea is crossed to Colom-

bogan a distance of about $3\frac{3}{4}$ miles on the opposite shore of Jaffnapatam.

From Colombogan to Jaffna, distance 3 miles, Road sandy: Here is a large Fort built of Coral Stones. The houses in the Pettah are regularly built, the streets broad, and the country well cultivated; from Jaffna there is a road to Point Pedro the most Northern Point of the Island, and from whence the Mails, are generally conveyed over to the Continent.

From Jaffna to Catetyay, distance $17\frac{1}{2}$ miles, the road leads first through a well cultivated Country diversified with Palmyra Topes. At about 4 miles distance is passed a very narrow arm of the Sea called the Salt River, fordable, being shallow and not above 50 yards broad, the country continues to wear the same appearance to the Rest House.

From Catetyay to Elephant pass, a distance of 16 miles, little variation occurs in the road, low lands cultivated as Paddy Fields extend to the Eastward of it, and about a mile and a half to the Southward is situated a small Fort, for preventing the passage of Elephants, where the shallow branch of the Sea which divides Jaffna from the main land of Ceylon becomes so narrow as to allow them to ford it. The remains of an old Fort are still visible.

From Elephant pass to Chondicolom, distance 15 miles, the Country assumes a wilder appearance, Palmyras are scarce, and Jungles and bushes supply their place. The Country above Chondicolom is in some degree cultivated.

From Chondicolom to Matele, distance $12\frac{1}{4}$ miles; Five miles from the former place is the large Inland Salt lake, which extends as far as Mulletivoe and the Road leads on between it and the low land. Matele is a village chiefly inhabited by fishermen & situated in the midst of a tope of Coccanut Trees. From Matele the road leads through the same kind of country: On the right, are extensive Fields of Paddy until within two miles of Mulletivoe, a distance of $10\frac{3}{4}$ miles, where there is a channel of water, through which at times, the sea communicates with the Mulletivoe lake. This may be crossed on a natural bridge of rocks, formed by a ridge of sand stone, it is about 400 yards long, very slippery, on account of its being generally covered with water and green moss, and difficult for man or Horse.—A green shady walk leads from hence to Mulletivoe: Instead of crossing the difficult pass before alluded to and known by the name of the stone bridge, another path leads to the left, where the sea sand is very heavy, the mouth of the inlet of water being generally choked up and dry; The small Fort of Mulletivoe is garrisoned by Sepoys, and is the residence of a Commandant and Collector of the District.

From Mulletivoe to Alambiel, distance $8\frac{1}{2}$ miles, there is a succession of picturesque and verdant plains, surrounded with fine Jungle and Forests Trees, & watered by several small tanks. The Hamlet of Alam-

biel is situated on the right of the road in a grove of Coconut Trees.

From Alambiel the route to Kokelay, a distance of $15\frac{1}{2}$ miles, offers some difficulty. The lake of the former place has several branches generally full of water, which, tho' not deep and difficult, are on account of the blue clay at bottom, (resembling that of Quiparawa canal on the other side of the Island,) dangerous for Horses and Cattle to cross; Palankeens travel through them however without much difficulty; After this there is a path leading thro' verdant plains, similar to those before described, to the banks of the lake of Kokelay, an extensive sheet of water rendered picturesque by some hilly projections of its Western shores. The Post and Rest Houses are situated in a grassy plain a few hundred yards from the lake. Another Road is by the sea shore, but this is rendered difficult by a projecting ridge of rocks about 4 miles from Alambiel and is very difficult to pass.

From Kokelay to Terriah, distance $11\frac{3}{4}$; At a very short distance from the Rest House of Kokelay is crossed the inlet by which the sea communicates with the lake and which at low water is fordable, but at high water deep & the current rapid. The channel is about 60 yards broad and crossed in canoes. It is here for the first time, that after leaving the uniform flatness of the Northern extremity of the Island, some idea, is formed of the ranges of low hills, generally running in the S. E. and N. E. direction which gives the Trincomalie district quite a different character as to the face of the Country, and from those features of ground that render the neighbourhood of that place so very picturesque.—After crossing the stream abovementioned, the traveller must pass the sandy shore of the sea for several miles to the Kalloe Avar, fordable in general, tho' very broad and deep: From hence the road is over extensive plains and jungle paths to the Rest House of Terriah, remarkable by two small rocky Hillocks in its immediate vicinity; it leads to some cultivated plains and to the small Hamlet and Rest House of Cutchavelly, a distance of $8\frac{1}{4}$ miles, remarkable by the enormous and beautiful Banyan and other Trees, which shew it to have been formerly a place of worship.

From Cutchavelly, thro' some tracts of land, once cultivated, and over several different branches of the pelavicaddar to an extensive plain containing a sheet of water of above two miles in length, remarkable by some Hillocks situated to the N. W. of it and close to its shore; one of which is surmounted by a piece of rock having the appearance of a Statue and forming a picturesque object; from hence to Nillavelly is a distance of $13\frac{1}{4}$ miles.

From Nillavelly to Trincomalie, distance $7\frac{1}{2}$ miles—Not far From this place, to the Westward are, two of those small Hillocks which characterize this tract of country, and a few miles further, on reaching the banks of the fordable sheet of water called the Salt River, chains of low connected Hills make their appearance, running about East and

West and forming the Northern enclosure of the capacious bason which contains the Bay of Tamblegam.—Through jungle and paddy fields the Pettah first appears, then the Esplanade and afterwards the Fort of Trincomalie; This place is well fortified, contains a considerable Garrison, possesses the finest harbour in India and is the chief Naval Depôt for His Majesty's Ships of War in the Indian Seas.

Remarks on the Country &c. from Colombo to Trincomalie thro' the Mahagampattoo,

From Colombo to Pantura is 16 miles; The Road excellent all the way, and most delightfully shaded; on the right, distant 7 miles from Colombo, is Mount Lavinia, the Country Residence of His Excellency the Governor; At Pantura, close to the Rest House, is a broad and rapid River, which there empties itself into the Sea.

From Pantura to Caltura, distance 10 miles, the road equally good as the last stage; Here there is a most excellent House belonging to Government. The surrounding country is most picturesque. The Collector of the District resides in the Town. River crossed here.

From Caltura to Bentotte, distance 12 miles, roads good, Country in some places Hilly; Here there is a Rest house, and a river to be crossed close to it.

From Bentotte to Amblangodde distance 15 miles, the road continues good, & the Country beautiful.

From Amblangodde to Hiccode, distance 8 miles, from thence to Gindurah 8 and Gindurah to Galle 3½. This place has a considerable Fort and Garrison and a large Harbour; The Road in two or three places lies over steep rocks and high hills. A River is passed with good boats at Gindurah. Face of the country much the same as last stage. The Collectors House is without the Fort.

The Traveller must provide at this place, a stock of Wine, Bread Biscuit. Tea, Sugar &c. &c. to serve him until he arrives at Trincomalie.

From Point de Galle to Matura, a small Fortified place, distance 28 miles; Road tolerably good, with some hills. In the rainy season there are several outlets across the road, and one river with a Ferry and Boats; the country in general is planted with Coconut trees; To the left near to Matura is a large river with a wooden Bridge. The Collector resides here.

Provisions of every description, that the country produce must be procured here, it being the only place where they are to be had in plenty until the Traveller arrives at Batticaloa.

From Matura to Tangalle, a Military Post, distance 22 miles, water bad, and scarce; Road very indifferent over large hills, and along the sea Beach, with several outlets; face of the country, plantations of Coconut trees, interspersed with jungle; the soil sandy and mixed with gravel and stones.

From Tangalle to Hambantotte (the Collector's residence) is a distance of 27 miles: Here is a Military Post of consequence having the charge of all the Salt Pans in the Mahagampattoo.—Several wells of tolerable good water are met with here. The Roads are good except through the paddy fields.—At Rannie there is a deep Nullah of fresh water and also a large fresh water river at Walawe, and a Ferry with small Boats. The face of the country, near Hambantotte, large plains, soil blue, and low jungle, very little fresh water on the road.

From Hambantotte to Magam, is 14½ miles; a solitary Village, near a plain, with few inhabitants, no cultivation, but good open roads; There are salt pans here and the country is covered with low jungle, very little fresh water is to be met with until reaching the Magam river.

This part of the country is much infested by Elephants and other wild animals; soil sandy, with low jungle and some salt water lakes.

From Magam to Palitopane distance 9½ miles, within three miles of which, is a newly established Military Post to protect the Salt Leways, road open and good, over large barren plains, bad water, and very little of it, this place is surrounded with jungle; Face of the country sandy and barren.

From Palitopane to Yalla river (North bank) distance 11½ miles road indifferent, with thick low jungle, sandy and barren. No inhabitants or water except at Puttana where there is a large rock with a reservoir of good water on it. The Yalla or Maniock River is fresh and good & fordable in fine weather;—about one mile from it, is a scattered village situated on a plain, consisting of a few Huts, the inhabitants apparently very poor.

From Yalla to Puttana, distance 10 miles through a thick jungle, and barren, no inhabitants, very little water, and that not good, (from small wells,) soil sandy with little vegetation.

From Puttana, to Komboekan river, (the limits between the Districts of Batticaloa and the Mahagampattoo,) Distance 8 miles; The road a little better than last stage, over large plains of pasture and high jungle, no cultivation, or inhabitants, & water very scarce.

The Village Komboekan has the appearance of more industry than any part of the Mahagampattoo, a few Cocoonut trees begin to appear, and the banks of the river are covered with fine Forest trees, and some Grass in the plains. The inhabitants are chiefly Malabars, who are very civil and ready to accommodate strangers with the produce of the Country.

The Traveller in passing through the Mahagampattoo in the dry season should supply himself & followers with water for the journey; at the Magam river, Yella river, and Komboekan river, as the water from the wells, and tanks, is subject to various impregnations from the great numbers of wild animals which frequent this part of the Country.

From Komboekan to Ogandamalle, a large rock with several tanks on it of fresh water, distance $12\frac{1}{2}$ miles; the road is a little rough and rocky; Face of the country large plains, some cultivation, and a few inhabitants; towards the end of the stage the general appearance of the country, and vegetation, begin to look a little better, the Village (or rather scattered huts,) is at a small distance from the road.

From Ogandamalle to Arroekgam, a distance of $18\frac{1}{2}$; over large plains, through villages, some of which are cultivated, and surrounded with high jungle, and rocks, and very sandy from the rains, which overflow the whole country, and leave the sand and gravel in the paths; Fresh water in several places on the road; here is a large Government Storehouse: Water from the wells not very good.

From Arroekgam to Tricoil, distance 23 miles, road through several populous villages, and a fine cultivated country, surrounded with large forests of very fine Timber, the water is bad, chiefly from wells; here is a large Malabar Temple, and a village well inhabited by people of that caste; This place is situated on a sandy Beach, near the Sea. The general appearance of this part of the Batticaloa district, is high jungle, large plains, salt and fresh water lakes, and many extensive plains well cultivated, the soil is of marle, and dark coloured sand.

From Tricoil to Bambeemoody, distance 16 miles, through a well cultivated and populous country, road chiefly on the tops of the banks of the Paddy fields, which makes it a little tedious for the Traveller—large plains, level all the way, with several Nullahs which are very difficult to cross in the rainy season.

From Bambeemoody to Naypattimony, the road is $7\frac{1}{4}$ miles, on the side of a large cultivated plain, with several villages at a small distance, water not very good: face of the country much the same as last stage.—There is a large Government Storehouse situated on the bank of the Batticaloa river or lake, part of the country well peopled, and they are very industrious in cultivating the Paddy fields.

From Naypattimony to Batticaloa, distance $17\frac{1}{4}$ miles, is an open road near the sea side, and very sandy, well cultivated with Cocoonut, and some Palmyra trees; several populous villages; the inhabitants Malabars, and Moors, who appear to be very industrious and comfortable; Batticaloa is a considerable place, the residence of a Collector and a Military post with a small Fortress, situated on an Island in the lake, or river, that extends from Naypattimony and is navigable for Boats or Canoes, which are chiefly used for conveying the produce of the country from one part to another.

The traveller may be supplied here, with Fowls, Rice &c. in great plenty and at a very moderate rate.

From Batticaloa to Errour a good Rest House, the distance is 9 miles, the road leads along the sea side, having the lake of Batticaloa on the left, with Cocoonut plantations; soil generally sandy and barren with but little good water.

From Errour to Nallor river, (south bank) distance 10 miles, road good with several villages and many inhabitants; some high jungle; no Rest House; the river (salt water) runs from the lake mentioned before, near Naypattimony & Batticaloa, and empties itself into the sea at Venloos Bay about 4 miles to the East.

From Nallor to Comolandemonie, is $4\frac{1}{2}$ miles the road tolerably good & over large plains, some of which are cultivated; two or three small villages are passed but thinly inhabited, and not so comfortable as those to the southward of Batticaloa; no good water, and the country in every direction, much frequented by Elephants, Buf-faloes, and other wild Animals.

From Comolandemonie to Panachenkanie river (south bank) distance $15\frac{1}{2}$ miles, road over large plains, uncultivated and barren, with high jungle on every side, and large salt water lakes, the inhabitants chiefly Veddas, who live in the jungle; very little good water—no Village or Rest House.

From Panachenkanie river to Kadaravilly, distance $9\frac{1}{2}$ miles, road open and good, by the side of a salt water lake or river, with high jungle, no cultivation, and few inhabitants; Kadaravilly, is a considerable Malabar village with good water from a stream that runs from the Virgel or Moleado river.

From Kadaravilly to the Virgel river, (North bank,) distance, 4 miles, road very bad, chiefly through old paddy fields, and over some rocks, with thick high jungle; this place is situated on the banks of the river, and is the limit between the Batticaloa and Trincomalie Districts: rain in the interior makes the ferry difficult and dangerous to cross, from its great depth and rapidity, and it often overflows the country.

From the Virgel river to Arnetievoe, $2\frac{1}{2}$ miles, the road very

bad and narrow, this place is situated on the side of a large plain; There is a small pool here used occasionally by Travellers.

From Arnetivoe to Topoor, 13½ miles, over large uncultivated plains some thick jungle, and a barren sandy country, several Nullahs, most of which are fordable: Here is a Rest House, and good water from the Virgel river, the inhabitants but few and principally Malabars and Moors.

From Topoor to Cotiaar, distance 6 miles, is a very bad road over high rock and hills, with jungle on both sides. The village of Cotiaar is situated on the south side of the Inner Harbour of Trincomalee, is very populous, inhabited by Malabars, the country around well cultivated & the soil fine, with large pastures for feeding cattle, of which there are great numbers; Here is a large Rest House for the accommodation of Strangers. From this place the Traveller must cross to Trincomalee by water which is a few miles over; in general, several Boats, (or rather large Canoes,) are lying at this place, of from three to four Tons burthen and which may be engaged by those who require them.

REPORT of the different Tenures of Land, and modes of Inheritance in the District of Matura.

OF FIELDS

1 Ratninde, Moet- } Signify lands belonging to Government—In the
tettoo, Malkepalla, & } first place, there is to be deducted one seventh
Nillepalla. } part of the produce of these lands which is called

Wallahan, (this being for the trouble of those who are employed in reaping and threshing the Crop &c.) 2ndly, 3-7th of the remaining produce to be appropriated to Government, and the other 37th, to be taken by the Goyas or labourers—The manner in which Individuals become proprietors of these Lands, is either by right of purchase, or by Gifts or Grants from Government, and it has some times occurred that the Collector has on the report of the Modeliars allowed the Cultivators 2-3rd & 3-4th of the produce owing to the badness of the soil of some lands, and has appropriated the remainder on account of Government.

2 Parveny Anda } Signifies lands originally the property of Govern-
or Anda Parveny. } ment abounding with Jungle, which have been cleared, and cultivated by individuals without permission—One Seventh part of the produce of these lands (in the first place) to be given as Wallahan, and then Seed Corn to be deducted; after which one half of the remaining produce to be appropriated to Government, and the other half by the Goyas—The Cultivators or the persons who converted them into fields, are entitled to one half of the soil of this description of land, which they may either sell or Mortgage, and which is heritable by their Children in common,

3 Mallapalla Di- } Signifies lands Granted by the Portuguese and
wel. } Dutch Governments to individuals on account of

their services or situations under Government—One Seventh part of the produce of these lands to be deducted as Wallahan, and then ¼ of the remaining 6-7th to be appropriated by Government, another quarter by the persons to whom these lands have been granted as Accommodessaus, and the two last quarters by the Cultivators,

4 Parveny Di- } Signifies lands originally the property of indi-
wel. } viduals which paid 1-10th of the produce to Govern-
ment—but under the Dutch Government, that one tenth was al-
lowed to be possessed by their proprietors, as a remuneration for
Service performed by them for Government one seventh part of

the produce of these lands to be likewise deducted for Wallaban, one fifth of the remainder has been appropriated to Government since the surrender of this Island to the present Government, and the other, or the last four shares to be divided between the Goyas, and the persons, who hold these lands on account of their Services.

The foregoing two sorts of Diwel lands are heritable by male heirs only, who possess them on performing service when required by Government—In case there should be no male heirs of any family, and if Government considers it unnecessary to continue the service or Office, by the succession of others, the Lands which have been granted to such family or families, revert to Government under the denomination of Nillepalla.

There was likewise under the Portuguese and Dutch Governments Weddewassan Parveny or Service Parveny, which signifies lands obtained by Individuals from those Governments, to be possessed by them as Parveny, on account of their Services to those Governments, and heritable by male heirs only; as these could not be exactly distinguished from Parveny Diwel lands on the surrender of this Island to the British Government, from Dessave Vanschuler's having burnt all the Thombo Records of this District on his departure, for Galle, it is generally supposed some of these service Parveny lands are included amongst those which are now known under the appellation of Parveny Diwel, in consequence of which I am told a tax of one fifth of the produce has been imposed by these Governments on all Parveny Diwel fields or low lands, and one tenth on high lands of this description, the owners of which are still liable to perform Service to Government when required, but receive pay for the same.

5 Ratmaherre low? This description of lands when granted by the Lands.

6 Dutch Government and converted into Paddy Field by cutting and clearing the Jungle &c. by permission, is called Parveny, and is subject to pay 1-10th of the produce to Government, and the remaining nine tenths to be divided amongst the Cultivators, and the persons who converted them into Fields, and the Goyas or labourers; but such lands granted by the Dutch Government to natives pay $\frac{1}{4}$ of the produce of the low lands, and 1-10th of that of the high lands according to Governor North's Proclamation of 3d May 1800, and those granted to Europeans or their descendants pay 1-10th of the produce to Government as ordained by the Advertisement bearing date the 21st of July 1812. These lands are heritable by male and female heirs.

6 Parveny or par? Signifies the private property of Individuals, a chace Parveny. 7 full tenth of the produce of these lands (without any deduction being made) in the first place is appropriated to

Government, and then 1-48th share which is called *Uwandiram* is allowed to the Vidahns and Mayoraals for Superintending, and assisting agriculture, after which there is to be deducted Wallahan and seed Corn with interest at 50 pr. Cent on the whole quantity of produce; and what remains is to be divided betwixt the proprietors of the soil, and the Cultivators or the labourers, in such proportions as the nature of the soil will admit—these lands are heritable by male and female heirs.

OF GARDENS

1 Bandare Gardens. Are Government property—most of which were planted by the late Dutch Government. The whole of their produce was annually rented out by Government for its own benefit, but in a few instances, some of these Gardens, were planted by individuals, who possess the planting share of the trees only, in such proportions as the nature of the soil will admit, i. e. these Gardens on the Coast pay annually to Government 2-3rd of the produce of the trees (Chiefly Coconut trees), and the remaining $\frac{1}{3}$ or planted share is enjoyed by the planter, and those Gardens situated in the Interior pay $\frac{1}{2}$ to Government; or these Gardens are on the same footing as Mallapalla.

2 Mallapalla Signifies lands which have reverted to Government by the demise of persons who held them on account of their services and situations—These lands are in general planted by Individuals, in which case, leaving a share of the produce of the trees for their trouble, the Government rents out the other share for its benefit, that is, from Gardens of the best soil, Government is entitled to 2-3rd of the produce of the trees, and the Cultivator to the remaining $\frac{1}{3}$ without the land, but Government is entitled to $\frac{1}{2}$ of the produce of the trees planted in Gardens of inferior soil. The manner by which individuals become proprietors of the above two descriptions of Gardens is either by right of purchase, or by Grants from Government.

3 Mallapalla Di-? Are lands which have reverted to Government as above—under the Dutch Government individuals obtained this description of land to be possessed by them on account of their Service—but at present Government receives 1-5th share of their produce which is annually rented out, & the remaining four shares are appropriated by those who hold them.

4 Parveny Di- } Signifies the property of such individuals who on
 vel. } account of their service under the Dutch Govern-
 ment were exempted from paying the Tax (which was known by
 the denomination of *Piedie*,) being 3-8th of a Pice for every 10
 Coconut trees and the same for 3 Jack trees bearing fruit, levied
 by that Government from all the Gardens of this description, but
 at present Government appropriates 1-10th of their produce
 which is annually rented out—These two sorts of Diwel Gardens
 can only be possessed by male heirs, but they are not authorized
 to dispose of them as they please—In case there are no male heirs,
 and if Government finds it unnecessary to continue the office or
 the service by the succession of others, the lands which such fam-
 ilies held, revert to Government under the denomination of Ni-
 lapalla, being on the same footing as fields of this description.

5 Parveny & } Signifies the property of individuals, which under
 purchase Parveny. } the Dutch Government was subjected to pay the
 tax called *Piedie*, and the following distinction was made by the
 Dutch Government vizt. that Gardens situated in the 4 Gravetts
 paid $\frac{1}{2}$ of a pice on every Jack tree, and without the Gravetts
 the same as Parveny Diwel Gardens, but since the present Govern-
 ment took possession of the Island, they are exempted from this
 Tax—These Gardens are heritable in the same manner as the
 Parveny Paddy fields, and are generally planted with Coconut, and
 in some instances with Jack plants, but it requires about 10 years
 for these Plants to blossom and yield fruit, and after that period
 they bear fruit for about 30 years, when they will gradually de-
 crease in bearing fruit, and the soil of these Gardens is generally
 unfit for replanting at the expiration of 40 years, on account of
 the numberless roots of Coconut and other trees, unless all the
 trees are cut down, when the roots will rot, and the lands will
 then after 3 or 4 years be fit for replanting but which never
 happened but once & that in the time of Dessave Burnat as an
 experiment, which succeeded.

6 Canoes Parveny These were originally Forests, or Jungles of large
 extent, cut down and cleared by individuals, which they sowed once
 every seven or eight years—these land were free from all tax under
 the Dutch Government, but since the present Government took
 possession they are subjected to pay one-tenth of their produce,
 and the remaining nine tenths are divided between the Goyas
 and the persons who originally cleared them, or by their heirs—
 These are heritable in the same manner as Parveny or Ottoo lands,

OF INHERITANCE.

Of Husband & } Whether the husband or the wife is rich, and one

 to whatever property they have on their marriage—In case either of
 them die without childrens the Survivor is entitled to one half of
 the Estate, and the other half is to be divided amongst the near-
 est relations of the deceased.

Children. Either the husband or the wife dying, and leaving Child-
 ren, one half of the Estate to be appropriated by the surviving
 Parent, and the other half to be divided amongst the Children,

 them are equally entitled to the Estate, but in case he had Child-
 ren on his first marriage, and should happen to die without Child-
 ren on the second marriage, one half of the Estate is to be in-
 herited by his 2d wife, and the other half by the Children of the
 deceased's first marriage, should there however be issue of the second
 marriage, then the latter half of the Estate is to be equally divided
 amongst the Children of the first; as well as of the second marriage,
 and again after the death of the wife of the 2d marriage; her
 Estate is to be inherited only by her own Children; and the same
 with regard to a widow marrying a second time.—During the life
 time of man and wife, notwithstanding they have Children, they are
 authorized to bequeath to others any part, but not the whole of
 their property, unless they have no issue.

 next of kin on the father's side, and the same with regard to a
 mother and Child—This has only happened in one instance in this
 district, but still there is a doubt on this point, which is whether
 in the event of the death of the son as before stated, his Estate
 is not to be equally inherited by the next of kin both of his father;
 as well as of his mother.

GOVERNMENT ADVERTISEMENT.

HIS EXCELLENCY THE GOVERNOR is pleased to publish the following particulars for the information and guidance of persons travelling from one station to another in this Island and all Officers of Government Civil and Military, to whom the same may relate, are required to govern themselves accordingly.

1st.—After the first of April next the Collectors of Districts are authorized from time to time to grant reasonable advances and assistance to Postholders or persons in charge of Rest Houses, for enabling them to purchase articles required by Travellers, such as Rice, Fowls, Eggs, and Milk; and such supplies may accordingly be had at all places where such persons are stationed.

2nd.—A quarterly tariff of prices will be fixed by the Collector and other principal servants of Government in each District, for the several articles of supply according to instructions, which will be published for general information and the Postholder or keeper of the Rest House will be allowed to charge 25 per cent on these prices.

3rd.—All complaints of Travellers against those persons are to be addressed to the Collector of the District, who will enquire into the circumstance, and if necessary report the same to Government, that the Postholder or Rest house keeper may be removed if any instance of misbehaviour is substantiated against him.

4th.—All Gentlemen of His Majesty's service, Civil and Military Dutch Inhabitants, Strangers and others travelling with conveyances & attendants, are required to subscribe their names in a Book to be kept by the Postholder, or Rest House keeper, and also to specify the payment of any articles with which they may have been furnished, it being found that the abuses hitherto complained of have principally arisen from referring the payment of such accounts to servants.

5th.—The Postholder or Rest House keeper is to report to the Collector, any instance in which violence may have been used, the established charges not paid, or any other impropriety committed by Travellers or their attendants, and in addition to such redress as the Law affords, His Excellency hereby declares that such conduct will be marked with severe animadversion thro' the proper official channels of each service. Collectors of districts are to report all complaints of that nature to the Chief Secretary for His Excellency's information.

6th.—Complaints against persons not in the service or employ of Government, are to be enquired into by the Collector in his ca-

capacity of Justice of Peace, or referred to any other Magistrate having local Jurisdiction, and it is particularly recommended, and expected by His Excellency, that abuses committed by servants, being of greater frequency and more complained of than any other, be in all cases prosecuted according to the existing Laws.

7th.—The Commandants of Corps and Stations from which Military Detachments may be made, the Officers in the charge of such parties, and all other Officers under whose command they may come, or who may in any manner be employed or concerned in conducting such service, are to consider it their particular and imperative duty to prevent and redress all attempts at violence, fraud or impropriety by those under their command, and to report the occurrence of any material causes of complaint to proper authority.

8th.—The places undermentioned are those, at which Postholders or Rest House keepers are stationed at present and where supplies of Rice, Fowls, Eggs, and Milk may be procured.

Travellers are not to expect or require supplies to be provided for them but are expected at the principal Towns to procure their necessities without the assistance of Government, and for immediate places not having an establishment they must bring with them whatever may be necessary, any attempt to obtain articles of supply from the neighbouring villages by compulsion will be rigorously prosecuted.

10.—It having been represented to Government, that very considerable hardship is frequently imposed on the Inhabitants residing in the neighbourhood of the Rest Houses on the Northern and other Roads, where the population is extremely scanty, by the practice of pressing them to serve as Chule-bearers without any sort of remuneration the following Restrictions, are hereby established.

1. The Postholder, or Headmen of any Resthouse, or station, shall provide Chules and Chule bearers for His Excellency The Governor, The Honble the Chief and Puisne Justices, The Chief

4. On receipt of the Chief Secretary's or Collector's order, the Postholder or Headman, shall provide Chules & Chule Bearers, allowing two men for each Palanquin, or Horse, and two to accompany a party of Baggage coolies—receiving in advance for each man half his pay—at the rate payable to any other coolies—these Chule Bearers shall not be compelled to proceed further than the next Resthouse or station, when they shall receive the remainder of their pay—and an entry of their names, and the payment, shall be made in the Postmaster's Minute Book.

5. In cases where there is no Invoice, or where the Comptroller of the Customs shall have reason to suspect that the Invoice exhibited is not a fair one, he shall proceed to levy the duty to the best of his judgement on the principal of adding 25 per Cent to that which he shall estimate as the prime Cost, and should the proprietor or Consignee be dissatisfied with the Valuation, the goods shall be appraised, one appraiser to be appointed by the Merchant, one by the Comptroller or Collector of Customs, and one to be mutually appointed by both parties; These appraisers shall be sworn to deliver a just Valuation, and the decision of any two of the said three shall be final; and thereupon the Collector shall proceed as directed by the 3rd Clause.

Present
HIS EXCELLENCY THE GOVERNOR IN COUNCIL.

A. D. 1817.

Regulation No. 1.

For lowering the Custom Duties in the Port of Trincomalee.

WHEREAS it is deemed advisable to give encouragement to the resort of Shipping and the influx of Trade to the Port of Trincomalee by lightening in regard to that Port, the Export and Import Duties at present chargeable throughout His Majesty's maritime Settlements in this Island.

In order thereto it is hereby enacted that from and after the First day of January 1817. Goods brought in any Vessel arriving from any Port in Europe or America—and goods of the growth or manufacture of China or any part of the East Indies coming direct from the places of the growth or manufacture, or the ports at which in the ordinary course of trade they are originally exported—shall upon importation at the Port of Trincomalee be liable to one half of the duties now payable thereon and no more.

And it is further enacted and declared that the Port of Bombay, shall for the purposes of this Regulation be deemed and taken to be a Port of original export for goods of the growth or manufacture of the Countries bordering on the Persian Gulph and the Red Sea.

And that the Ports of Calcutta and Madras shall for the like purposes be deemed and taken to be Ports of original export for goods of the growth and manufacture of all the Countries, Settlements and Islands to the Eastward of the bay of Bengal, save and except China.

And whereas it is expedient to extend for a certain period the benefit of this remission to other descriptions of goods imported immediately through the Port of Madras.

It is further enacted for the purposes of this Regulation, that the port of Madras shall until the thirtieth day of April 1818 and no longer, be deemed and taken to be a Port of original export for goods of the growth or manufacture of Europe or America—and shall until the thirtieth of September next and no longer be deemed and taken to be, a port of original export for goods of the growth or manufacture of the Cape of Good Hope, the Island of Mauritius, China and the Countries bordering on the Persian Gulph and the Red Sea and shall until the thirtieth day of June next be taken and deemed to be such port of original export for goods of every other Country.

And it is hereby enacted that goods imported into the said Port of Trincomalee under this Regulation shall upon re-exportation beyond the District of Trincomalee for the purposes of trade—whether by Sea or land carriage—be liable to the duties hereby remitted, Reserving however in the instance of reshipment for Exportation by Sea, all benefit and privilege provided for such cases by certain Clauses contained in the Regulation No. 9, of the year 1815, respecting Custom Duties in like manner as if this Regulation had not been made, which Clauses are as follow.

CLAUSE No. 21 REGULATION No. 9. A. D. 1815.

" the Importers or Purchasers of them and lodged in the Custom
" Houses of Colombo, Galle, or Trincomalee or in Private Ware
" Houses under the Seals of the Officers of the Customs, and may
" remain so deposited for four months, such goods to be liable to
" no other Charge than that of rent for warehouse room at reason-
" able rates.

CLAUSE No. 22 REGULATION No. 9 A. D. 1815.

" Provided however, that the Merchant so landing and lodging
" such goods shall declare in writing signed with his name his in-
" tention of re-exporting the same, and deliver such declaration
" containing an exact specification of the Articles to the Custom Mas-
" ter within three days after landing the same, otherwise such goods
" shall not be entitled to any such privilege.

And for the further encouragement of the said district of Trincomalee it is hereby enacted that all goods being truly of the growth or manufacture of the said district, which, by due proof made upon oath to the satisfaction of the Deputy Comptroller or Collector of the Customs at Trincomalee shall appear to be Returnis for goods imported under this Regulation, shall upon exportation be subject to one half of the duties now payable on exporting such goods and no more.
