A record of the trade of the Presidency with blocks external to it and of its several internal blocks with one another is prepared in the various Railway audit offices from the invoices of goods despatched. The Government Examiner of Railway Accounts, Bombay, compiles these statistics every quarter and furnishes them to the Board which reviews them and prepares therefrom its published annual returns. These returns contain three principal statements, viz. :—

- (1) Statement No. I showing the trade of the Presidency with other Provinces,
- (2) Statement No. II showing the trade of the internal blocks of the Presidency with other Provinces, and
- (3) Statement No. III showing the trade between the several internal blocks of the Presidency.

The weights entered in these tables represent net weight, that is to say, a fixed average deduction is made from the actual gross weight of the goods as recorded in the invoices. A statement showing the rates of deduction in the case of various descriptions of traffic is prefixed to the tables.

The value of the goods despatched is not recorded in the invoices and consequently average values have to be assigned to each article when the accounts are prepared. For this purpose Collectors furnish every quarter average values for those articles in which there is any considerable trade in their districts, and an average is struck for the whole Presidency on the basis of their reports. The values of "*Coal and coke*" and of "*Railway plant and rolling-stock*" are reported by the Railway authorities direct, and the value of "*Hay, straw and grass*" is worked out from the "Fortnightly returns of wholesale prices" published by the Board. Quarterly reports of value not being practicable in the case of certain articles, such as "*Machinery and millwork*," "*other manufactures*" under "*Iron and steel*," "*Metallic ores*," "*Mineral substances*" and "*All other articles of merchandise*," fixed conventional values have been adopted in these cases. The quantity of the traffic in each article for each quarter is multiplied by the value rate for that quarter and the sum of the products for the four quarters forms the value for the whole year. In valuing the export trade of the Presidency and the trade with the Native States, as well as in valuing the internal trade, the rates adopted are those fixed for this Presidency, while for valuing the imports, the rates fixed by the exporting provinces are adopted.

**MEMORANDUM ON THE RAIL-BORNE TRADE OF THE MADRAS
PRESIDENCY DURING THE OFFICIAL YEAR 1906-1907.**

During the year "Travancore" was omitted from the list of internal blocks, and the districts of Malabar, Anjengo and South Canara were clubbed together into one internal block and designated "West Coast." Among the external blocks "Sind" had an internal block "British Beluchistan" added to it and the new provincial block was termed "Sind and British Beluchistan." In consequence of the division of Bengal into two provinces a new block "Eastern Bengal and Assam" was formed and to the "chief sea-ports" was added a new block "Chittagong." The following additions were made to the open mileage of railways during the year :—

2. *Season and Prices.*—The rainfall under the South-West monsoon was plentiful and well-distributed, but the fall under the North-East monsoon was deficient and the late crops suffered in consequence.

The harvest prices of rice in Vizagapatam, Bellary, Cuddapah, Salem, Trichinopoly, Madura and Tinnevely districts, of ragi in Godáviri, Kistna, Madura and Tinnevely districts, of cholam in Bellary, Madura and Tinnevely districts, and of cumbu in Guntur, Salem, Madura and Tinnevely districts were either at or slightly below the level of the previous year while in all other cases they were above that

level. The prices of all grains were everywhere above the normal rates, as given in the Madras Famine Code of 1905, and while the "Season and Crop" report for the year shows it to have been distinctly good, the so-called "scarcity" rates as fixed in the same code were either reached or exceeded in the case of rice in Ganjam, Gódvári, Kistna, Guntur, Madras and Salem; in the case of ragi in Cuddapah, Nellore, South Arcot, North Arcot, Salem, Trichinopoly and Tanjore; in the case of cholam in Kistna and Salem and in the case of cumbu in Coimbatore. It is obvious from such facts that the "normal" and "scarcity" rates here referred to which were fixed in 1896 can no longer be regarded as fulfilling those characters. The question of revising the normal and scarcity rates is under the consideration of Government.

3. *External Trade.*—As compared with the previous year the total value of the trade with other provinces increased by Rs. 177 lakhs under imports and Rs. 90 lakhs under exports. The trade in goods advanced from 1,858 lakhs to 1,966 lakhs of rupees and that under "Treasure" from 154 lakhs to 312 lakhs.

4. *Imports.*—More than 70 per cent. of the imports were received from the adjoining Provinces of Hyderabad (54.8 per cent.) and Mysore (15.6 per cent.), while Bombay, Bengal and Punjab contributed 12.9, 9.9 and 5.4 per cent., respectively. More than a fourth of the total imports was received by the Madras sea-ports (29.8 per cent.), the Central districts receiving 18.9 per cent., Deltas 15.9 per cent., Deccan 12.2 per cent. and North Carnatic 10.8 per cent. As compared with the previous year there was a fall in the imports into all the blocks except the Deltas, Deccan, and the Hills. The fluctuations in the quantities of the principal articles are shown in the following table:—

Articles imported.	Quantity in thousands of maunds.		Percentage of the total trade in 1906-1907.
	1905-1906.	1906-1907.	
Grain and pulse	5,327	4,750	32.9

Fodder	60	59	0.4
All other articles	416	501	3.4
Total	15,937	14,424	100.0

There was a large fall in the imports under "Grain and pulse" and "Coal and coke," the decreases under these two heads alone far exceeding the total net decrease (after setting off increases under other heads) in the imports of the Presidency. The decrease under "Grain and pulse" was due to smaller imports of "rice not in the husk" from Bengal. The large fall in the imports of "Coal and coke" was due to the diminished supply from Hyderabad. "Oil-seeds" have shown a decrease since the year 1904-1905, while the trade in "Hides and Skins" "Dyes and tans," "Wood" "Sugar" and "Leather" has expanded since that year. As compared with the previous year there were large increases in the imports under "Salt," "Dyes and tans," "Railway plant and rolling-stock" and "Wood." The increase under "Dyes and Tans" occurred under the sub-head "Tanning Barks" while the increases under "Railway plant and rolling-stock" and "Wood" occurred under the sub-heads "Others" and "Timber, unwrought", respectively. The increase under "Salt" was due to larger imports from the Bombay Presidency.]

5. *Exports.*—More than half of the total exports (53.1 per cent.) was taken by Mysore, while Bombay, Bengal and Hyderabad received 21.5, 10.9, and 10.6 per cent., respectively. The Madras seaports contributed 37.2 per cent. of the exports, while the Deltas and Deccan exported 16.6 and 17.9 per cent., respectively. The appended statement exhibits the traffic in the principal articles, as compared with the previous year:—

Articles exported.	Quantity in thousands of maunds.		Percentage of the total trade in 1906-1907.

* Represents trade in "stone and lime."

There was an increase of the export trade in almost all the principal articles except "Grain and pulse," "cotton, manufactured" "Fruits and vegetables" "Railway plant and rolling-stock" and "Hides and Skins." The increase under "Coal and coke" was due to larger exports to Mysore whither "Timber-unwrought" was also largely exported which caused an increase in the export of "Wood." The increase under "Sugar" was due to large exports of "Gur, etc.," to Bombay. A large quantity of "Metallic ores" passed from the Deccan districts to Bombay which caused an increase in the export of "Metals". The trade under "Grain and pulse" largely diminished owing to lesser quantities of "Rice not in the husk" having been exported to Bombay and Hyderabad.

6. *Internal trade.*—The increased activity of the trade under this head noticed during the previous five years continued during that under report. The total trade exceeded that of the previous year by 2.79 million maunds. As in the previous two years the largest imports flowed into the Madras port, the two Carnatic blocks, the Central and the Southern districts which received 20.5, 17.1, 13.1 and 10.5 per cent. respectively of the total traffic, while the Madras port despatched 12.8 per cent., the two Carnatic blocks 28.4 per cent. and the Deltas 9.8 per cent. As compared with the previous year, the internal trade in "Grain and pulse" was almost stationary, the increase of over a million maunds under "Rice not in the husk" being neutralized by a fall of almost the same quantity under "Rice in the husk." The trade under "Metals" increased owing to larger quantities of "Manganese ore" having been imported into the Vizagapatam port from the Northern Circars. The increase under "Coal and coke" was due to larger imports into Pondicherry and the Central Districts from the Madras port.
