DISPENSING CHEMISTS,

SOUTH PARADE,

BANGALORE.

OUR DISPENSING DEPARTMENT, is under the constant supervision of English Qualified Chemists, whose particular attention is to see to the Preparing and Dispensing of Medicines, and also to see that the Purest and Best Drugs and Chemicals are employed, so that their Therapeutic value shall be at the maximum. Only Sterilized Water is used in Dispensing. An exact copy of every Prescription dispensed is taken and registered, whereby a reference to the same at any future period can always be readily made.

It is suggested that Prescriptions be sent as early in the day as possible, with written instructions, as the time required for dispensing them may vary considerably. Prescriptions from up-country will be attended to the day they are received and despatched the same evening.

PREFACE.

The appearance this year of the second edition of the Mysore Directory, early in January 1915, is a guarantee that the work has come to stay, and that it is intended to spare no pains to secure the patronage and support of the public.

I make my grateful acknowledgment of His Highness the Maharajah's generosity, in the large Government order granted for the purchase of my Directory, last year, when the brochure was but a venture. I am also thankful for the aid I have received from the various officials and to the Heads of Departments of the State and the Institutions for their courteous willingness to give information.

The Dewan's able and exhaustive Address at the Dassara Assembly forms a permanent and invaluable asset for publications similar to mine and, especially, in no small degree will enhance the economic value and popularity of the Directory by its embodiment in the work, this year.

I have revised and enlarged the Directory in this edition, while I have carefully brought the matter up to date, which is saying much for a work when it is also published to time, a difficulty, a generous and enlightened public, I trust, will not be slow to acknowledge. As years go by, the subjects will be added to with other interesting and useful information to make it a *multum in parvo* of everything indispensable to the general public, the mercantile community and the officials.

I have obtained the kind permission of His Highness the Maharajah to use the photos which I have introduced into this edition, a gracious concession which was, as promptly, accorded.

Lastly, I must thank a liberal body of advertisers who have readily utilized the pages of the Directory for the publication of their advertisements, thereby greatly increasing its usefulness.

With these prefatory remarks I launch my second effort and submit it to the patronage and support of the public, in the full assurance that the **Mysore Directory for 1915** will meet with as hearty a reception as that of last year.

BANGALORE,

January, 1915.

H. H. Sir Sree Krishnaraja Wadiyar Bahadur, G.C.S.I.,
Maharaja of Mysore.

H. H. Yuvaraja Sri Kantirava Narasimha Raja Wadiyar
Bahadur, K.C.I.E.

Retrospect of 1914.

The South-west monsoon began badly, this year, as the *mungar* rains were scanty and not well distributed. The rainfall in the months of June and July amounted to 2.59 and 13.33 respectively including the rainfall in the *malnad* parts. In the *maidan* areas there were only 0.72 and 2.58 in the same period. The rainfall was improved by liberal showers in the months of August, September and October. Prices have been going up, in recent years, from the precarious rainfall of two successive seasons and have stood at famine rates, for some time.

The reforms in the Legislative Council which His Highness the Maharajah sanctioned, last year, came into effect with the nomination of four elected members from the Representative Assembly and four from the Districts, invested with the privileges of interpellation and the right to discuss the budget. His Highness the Yuvarajah's appointment as an Extraordinary Member has increased the Executive Council from two to three members.

The claim preferred by the Mysore Government for the surplus revenues of the Bangalore Assigned Tract that had received the recognition of the Government of India, has, after a careful scrutiny been fixed at a little over Rs. 39 lakhs to the end of 1911-1912 and an instalment of Rs. 30 lakhs of this amount was paid out, during the year, to the Mysore Treasury.

There was an increase of the gazetted and ministerial staff of the Account Department and a Deputy Comptroller and a Chief Superintendent for Public Works and the Railway Branch were sanctioned.

The year has seen the issue of stamps bearing the portrait of His Highness the Maharajah, a fitting sequel to the substitution of the New Mysore Treaty for the old Deed of Transfer of 1881.

In June last, the Judicial Conference sat, for the first time, at Mysore, with experienced Judicial Officers and Advocates, under the Presidency of Rajamantra-Pravina, Mr. H. V. Nunjundayya, C.I.E., First Member of Council for the purpose of discussing important questions relating to the Administration of Justice.

The staff of the Police Department has been strengthened to 862 officers and 5,161 men, since June, and the jurisdiction over the Kolar Gold Fields has been temporarily restored to the Mysore State. The pay and prospects of the Barr Forces have improved under a new scheme with an additional annual expenditure of Rs. 26,000.

Elementary Education was considerably developed, with a special grant of one lakh of rupees for the expansion of village schools and an additional amount of one and half lakhs of Rupees for the school buildings; the villages have to pay a minimum salary of Rs. 10 to a teacher in these, in money or kind. A scheme of Compulsory Education is to be tried in 15 selected centres. Technical and

Commercial education have been furthered by a Mechanical Engineering School and a Commercial School in Bangalore and the Chamarajendra Technical Institute in Mysore.

The construction of the Cauvery Reservoir at Kannambadi is in satisfactory progress, the masonry on the South and North banks having been put up to 44 feet and 36 feet respectively, above bed level, with a storage of 8 feet of water in the gap of the centre dam.

The block system of irrigation under the Marikanave Reservoir is in working order, now, under careful supervision. This Reservoir was started in 1898. It spans the Marikanave gorge on the Vedavati river in the Hariyur Taluk Chitaldroog District, with a catchment area of 2075 square miles, holding 90,000 millions cubic feet of water, and has a surface area of 34 square miles. The dam is 1830 feet long and 172 feet high from basement surface, the base being 160 feet broad terminating at top in 15 feet. It has cost Rs. 44 lakhs to date of completion.

The Electric Tramway for Bangalore awaits a clearer understanding with the authorities of the Civil and Military Station as to what their share will be in the total expenditure of the estimate. The original estimate stood at Rs. 207,000, the revised estimate is for Rs. 2,26,215 i.e. for the Tramways within the Cantonment limits.

The Government of Mysore expeditiously require the early construction of the railway lines from Nanjungud to Erode, Hassan to Mangalore and from Mysore to the Coorg frontier ending at Virarajendrapet along the left bank of the Cauvery, particularly the first line. The Government of India has sanctioned the Kolar—Chikballapur Railway project. The total outlay to end of 1913—1914 to be Rs. 2,56,00,000 on the State lines worked by the M. & S. M. Railway Company. Up to 1900 the total length of Railway lines opened in the State was 6 miles and the capital outlay was Rs. 223 lakhs. No extension took place till 1904 this length remaining stationary, till Government Proceedings allowed for 20 additional miles of railway in November of that year with an outlay of Rs. 5 lakhs. A State Railway Department was then appointed in 1912. The preliminary of alignment and estimates to be approved by the Railway Board delay construction a year or more. Arrangements are in progress for the Shimoga Feeder lines and Tramways to Hebhe and Kankankote. A project for a line from Bangalore to Hosur estimated to cost Rs. 12.72 lakhs for 30.69 miles pending with the Railway Board. The completion of the three lines specified referred to above, will connect the Mysore system of Railways with important places in the surrounding districts of British India.

The output of gold during 1913—1914 was 559,640 ounces of the value Rs. 8,22,83,047, exhibiting a decrease of Rs. 95,897 on the previous period. The total royalty was approximately Rs. 18,91,486 against Rs. 18,99,971 in 1913—14. The shortage of water in the Cauvery in the months of May and June, though retarded development work did not affect the output of gold materially. The outlook of the Field remains much in statu quo.

A Geological Map of Mysore showing the general results of Survey work has been begun, separate maps on a larger scale and with more detailed information

are in course of preparation to show the more important areas likely to contain mineral deposits.

The project of financing the water-supply scheme of the town of Devangiri at a total cost of Rs. 2 lakhs was passed and Rs. 80,000 was contributed by Government.

Last year the Dewan directed that special attention should be paid to the investigation of the commercial value of all the forest products and considered it might be necessary to employ expert establishment to increase the Forest Revenue. The total Forest Revenue, through extra precaution has realised, during this year, a record figure. It amounted to Rs. 32,71,336 and about two-thirds of this was obtained from the sale of 2,158 tons of sandalwood. Two Forest Officers have been placed on special duty to survey the Forest resources of the State and to investigate the possibility of utilising them for industrial purposes. The exploration of the Ghaut Forests in the Shimoga Districts and of the Forests near the head waters of the Tunga and the Jager Valley in the Kadur District have been completed under their eye.

The fourth installation of the Cauvery Hydro—Electric Power Scheme is expected to be completed before July 1915 and is well in hand.

Panchayets have been constituted for 25 villages under the Tank Panchayet Regulation.

The Mysore City Improvement Trust Board and the City Improvement Committee, Bangalore, have been working, the former having constructed underground sewerage and outfall works and for this purpose acquired 69 properties at a total cost of Rs. 50,677 and the latter have submitted an Improvement Scheme to be carried out in the next three years, to the initial expenses of which Government have allowed Rs. 20,000.

The Mysore Gazetteer prepared by Mr. Rice is to undergo revision in order to bring the information up to date. A period of three years is allotted to the work, under the Officer in charge of Archaeological Researches.

Sericulture has received the special attention of the Agricultural Committee and His Highness' Government opened a Central Sericultural Farm at Chennapatna where Signor Washington Mari, an Italian expert, has conducted several trials and experiments in rearing the Mysore, Bengal and Italian worms and cross-breeds. This industry is carried on as a profitable occupation in 22 taluks of the State and the Government are taking steps to extend the industry into other taluks, with a Silk Association at Chennapatna.

A monthly journal published in English and Canarese dealing with the work of the Economic Conference is now on the tapis. The appointment of a Superintendent or Organizer has been sanctioned and 47 Taluk Progress Committees formed. Village Improvement Committees are busy with organizing and directing all available capital and enterprise into the same channels.

A scheme has been prepared by Diwan Bahadur Mr. J. S. Chakravarti, Comptroller, for the introduction of Village Savings Banks and for the extension of the State Life Insurance to the public, which has been investigated by the Industrial and Commerce Committee and is now placed before the Government of His Highness.

Sir Leslie C. Miller, late Puisne Judge of the Madras High Court, has been appointed to the Office of Chief Judge of the Chief Court which was rendered vacant by the demise of Rao Bahadur Mr. P. S. Krishna Rao.

In Mysore the principal buildings of the New Palace, the General Hospital and the Chamarajendra Technical Institute, in Bangalore the Central College Chemical Laboratory and the Minto Ophthalmic Hospital, the Public Offices, the Government Press and the Public Works Workshop are nearing completion or extension. Large bridges are being thrown across the river Tungabhadra at Honnali in the Shimoga District and over the Bhriugu on the Hunsur-Begur Road in the Mysore District.

No retrospect of the year 1914 will be complete without an allusion to the GREAT WAR now convulsing the nations of Europe since the memorable date of August 4. India is intimately connected with this great historic event and Mysore has figured in its annals by the Feudatory State having placed its troops and its entire resources at the services of the Imperial Government and, not least, in contributing Rupees fifty lakhs towards the cost of the Indian Expeditionary Force, that left the shores of India to take part in the Empire's battle on the Continent. No one could deny that the situation was forced upon England and to attempt to buy peace, with the surrender of the great and beneficent position Britain has won by centuries of heroism and achievement and to allow herself to be treated, with the other Powers of Europe, as if they were of no account in the Cabinet of Nations would have been a humiliation intolerable for a great realm like the British Empire. During the past three months rapid developments have gone on and though the scene of war is distant to us, in this country, it has been brought by the disastrous losses of Indian trade, within our limits of vision. The Kaiser in the dangerous course he has pursued, has collided with several of the Great Powers, besides England, and he has driven the German nation into a disastrous war.

The present scheme of Germany, like most of the highly imaginative schemes in which she has been engaged for some considerable time, was badly planned and her diplomatic relations have proved utterly defective. The latest blunder she has made is forcing Turkey into her compact, which the new liberal Government of the latter is responsible for. To press liberal constitutions upon nations which were really not ready for them and to help movements in any part of the world which call themselves liberal movements, is a traditional weakness that has been exhibited by liberal Governments. The result is sometimes unfortunate, as in the case of the new form of Government of Turkey, which innovation has supported the unsound and premature projects of cranks—this, the Young Turks undoubtedly are. Their small clique has been helped into power and owing to their own ignorance the people have had no hold on them. That clique has just overturned the Sultan and the throne and it is now engaged in grinding the people in a ruinous alliance with Germany. It was clearly the first duty of Germany in the late Balkan Wars to take care that Turkey should be firmly attached to her interests, but Germany allowed Turkey to be attacked, first, by Italy and then by the Balkan States and to be utterly defeated. Now, in the hour of need, she sees how invaluable Turkey's aid is to her and she has forced her into an alliance through means of the dissensions in the Government of the Porte. The German Empire, in company with Austria-Hungary is now at war with six powerful

nations, viz., France, Russia, Great Britain, Belgium, Serbia and Japan and to these may yet be, very likely, added Italy and Roumania. We may not turn our retrospect into a prospect by predicting anything that has not really happened. It would, however, be quite within our province to refer to the ruinous results on trade that will follow in the wake of this world-war, which arose from a quarrel that Austria-Hungary picked with Serbia and which action Germany, promptly, supported, by going to war with France and Russia, thereby incurring the hostility of Great Britain when she invaded Luxemburg and Belgium.

The present war will entail an enormous destruction of life and property, for the expenditure of one million pounds sterling, per day, is the estimated cost of the war expenses and the daily toll of the numbers that fall on the battlefield is almost as certain a figure of calculation. But what will remain as after effects of the war are things that have, specially, to be reckoned with. It is the middle classes that are suffering throughout the length and breadth of the Empire, from loss of employment, dearth of all provisions, stoppage of manufactures and industries and the loss of the bread-winners, for there will be homeless families, by the thousand, after the cessation of hostilities. The burden falls heavily on working people and on British trade. For, at least, another twelve-month, unless some utterly unexpected turn occurs in the tide of events and brings the war to a sudden or speedy end, the democracy will be the severest sufferers, as, a protracted period will cripple all the greatest resources of the people for prosperity or even a bare livelihood. This condition will be particularly felt in the British Isles but we, in India, outside them, will also greatly suffer, though not to that degree. If the war lasts a year or longer, all industries will be badly affected, as there will be very little foreign trade, no export of coal or import of raw material, such as skins, cotton, oil seeds or wool. Necessary food-stuffs will be consumed in each country without a corresponding import from other places, causing impoverishment by low prices or a cessation of production in some commodities. The Army will absorb thousands of men that work the mines or till the soil, for the entire number of the able-bodied of a combative age will be, gradually, drafted into the ranks. The shipping will be partly destroyed or, much of it being unused, will become non-productive and the result will be a general impoverishment of the people. No doubt England's manufacturing industries will speedily recover, after the war, and her foreign trade is bound to go up by leaps and bounds. But a protracted war will, for the time being, bring an incalculable amount of commercial distress and poverty. Huge war expenditure means loss of capital that cannot, quickly, be retrieved. England's improved industrial position after the war will give employment to millions of the British, but no prospect seems morally conceivable of a termination of hostilities before many months more, even if this is possible, for the present War Minister has made a probable forecast of a continuation of the Campaign till another couple of years.

The death of Lord Roberts caused profound sorrow, especially in India, where he was born, at Cawnpore, and where he spent over 40 years of his life. He was the second son of General Sir Abraham Roberts, G.C.B., and was born on the 30th September 1839, so that he was just over 82 years by a few months, when he passed away on the battlefield, a fitting end to one, whose whole public life, almost, was spent in fighting his Country's wars. He was created an Earl and a K.G. after the South African War and, doubtless, gave the present War Minister the benefit of his ripe experience. It seems as if he had died, just as his life work was done.

The fall of Tsing-tao, before the bombardment of the British and the Japs, brought about the destruction of the best of the German colonial possessions. Germany had spent twenty million pounds sterling on trying to make it a Gibraltar of the East and as such Tsing-tao would have served the purpose of a chief commercial port for the distribution of German goods. It was to outshine Shanghai and this it would have done in the near future. The Kaiser had commanded that his troops were to defend it to the last man but the Garrison, when it was confronted by the troops of the Allies, yielded it an easy prey.

The speculations as to the time the war will last are of the greatest interest to the lay mind. Judging from the Financial forecasts, the Government at Home think that it will continue one year more, at the least. At the rate of £5,500,000 per week it is calculated that if the war lasts till the end of October 1915, there will be an expenditure to be provided against of £350 millions. It may come to an end earlier by the economical ruin of Germany, starved out in provisions, supplies and money. Lord Kitchener is pessimistic with a three years' forecast, while Mr. Asquith takes the politician's view of the situation and gives diplomacy some play in bringing about a cessation of hostilities, before this.

An interesting feature of the present war is the employment of our Indian troops in European warfare. The army of England is reckoned, soon, to be one consisting of two million troops in the near future and it will have to mount higher by accessions from the Colonies and the Overseas Dominions before the British flag will be unfurled over Berlin. But the bravery of the soldiers and the strategy of the Army are already famous. The Indian Contingents now, in addition, are a most welcome and valuable augment. The British battlefields had seen all nations of men, British, French, Morocans, Algerians and even the black Senegalese from French West Africa. But the stay-at-home European had no idea of the dark brown men from India or the fairer Northern Indians. Their arrival in Northern France was a revelation to them, as they saw these, some of the finest soldiers in the world, experts in the fighting line. They quickly adapted themselves to the new and novel to them, style of fighting in trenches. They bear comparison with the *Turcos*, being as swift and impatient for the attack, the Sikhs and Ghurkas being distinguished among the Indian Troops for this.

Italy and Romania are soon bound to come into the fray for the people are impatient at their long waiting, as neutrals, when vital interests, such as theirs, are imperilled in the Allies' countries. If things go as badly for Germany and Austria as they have been doing, Italy will in all probability attack Austria-Hungary in order to recover the Italian Tyrol and Trieste, for Italy is vitally interested in the defeat of Germany and Austria-Hungary.

The fortunes of war will help us to another forecast. Is it not possible that the German people will rebel against the pertinacity of the Kaiser in continuing a disastrous war? A revolt is possible. What, if the Southern States detach themselves from Prussia, after any further very serious defeats of the German Army, which severance will be encouraged, doubtless, by the neighbouring French? Or worse still, the general body of the nation may rise against their rulers. Germany, for the Germans, largely, are comprised of liberals, radicals and socialists. It is thus, within the bounds of possibility that Germany will become either a limited monarchy or a republic with the overthrow of the Hohenzollerns, which will bring hostilities to a sudden end.

Amidst the din of War came the news of the important appointment of a new seat of the Bishopric, which interests Bangaloreans. The name of Bishop Cotton, a distinguished Metropolitan of India, is recollected in this event, as Dr. Packenham Walsh, the designate Bishop of Assam was the Warden of the Schools for Anglo Indians founded by that Prelate. He laid the domiciled community under a deep debt of gratitude for he made their education the object of his special efforts. Now one of the most distinguished Wardens of the Cotton Schools in Bangalore is about to be raised to a Bishopric. He is fully equipping for this task by qualifying in languages for his new sphere of labour. It will be a great work if the new Bishop of Assam will interest himself, in his turn, in the introduction of missionary work for Anglo-Indians as Bishop Cotton achieved a kindred aid for Anglo Indians in furthering their education some years ago.

MANAGER

Mr. M. Visvesvaraya, B.A., L.C.E., M. Inst. C.E.,
Dewan of Mysore.

Address of the Dewan of Mysore to the Dasara Representative Assembly, 30th September 1914.

1.—PRELIMINARY.

GENTLEMEN,

I rise, in obedience to the command laid upon me by His Highness the Maharajah, to welcome you to this, the thirty-first session of the Dasara Representative Assembly, and to place before you an account of the past year's administration of the State and of the measures projected or in operation to promote the well-being of His Highness' subjects.

2. On account of the increasing bulk and variety of the subjects to be dealt with, the Address will be presented, as was done last year, in two parts. The first part deals with the more important events and measures requiring notice and the second with matters which are either of limited importance at the present time, or are connected only with the routine work of the administration.

War.

3. The thought which is uppermost in our minds at the present moment is the great war which is convulsing Europe from end to end and the effects of which, on account of the growth of communications, are felt over the entire inhabited portion of the world. India, as forming part of the British Empire, is intimately concerned in the war. That we are able to go on with our ordinary routine duties at such a time without undue anxiety or excitement, we owe to the great sea power of the Empire and the normal orderliness of British methods of administration. The war has brought the subjects of His Majesty in the Indian Empire nearer to the Throne, and at no time were the harmony of feeling and the solidarity of interests between the rulers and the ruled, between the Paramount Power and the Feudatory States, felt to be closer than they are at the present time.

4. As a Feudatory State, we have endeavoured to do our part. His Highness the Maharajah has placed his troops and the entire resources of the State unreservedly at the disposal of the Imperial Government. His Highness has also contributed a sum of Rupees fifty lakhs towards the cost of the Indian Expeditionary Force which is now fighting the Empire's battle on the Continent.

5. In conveying this offer in a letter, dated 20th August 1914, to His Excellency the Viceroy, His Highness said :—

"This is a time at which the Feudatory States and all the subjects of the British Empire should stand shoulder to shoulder for her defence, and I desire to assure Your Excellency, in all sincerity, of the devotion and loyalty of my people and our readiness to make every sacrifice to protect our common interests."

His Excellency the Viceroy concluded a highly appreciative message in these words :—

"For the moment, I will only add that the thought that you, my friend, have shown such splendid patriotism at a time like this fills my heart with a warm glow of pleasure."

It would be superfluous to say before this Assembly that the action taken by His Highness has met with universal acclaim in every corner of the State.

Seasonal Prospects.

6. The subject which next claims our attention is the state of the season. The rainfall of last year was scanty and ill-distributed. It began late and ended early. In the five monsoon months of June to October, the total rainfall amounted to 19.38 inches in Bangalore against an average of 27.09 inches and to 29.25 inches for the whole State, or 10.32 inches short of the average. The heavy fall of the south-west monsoon did not commence till late in September and that of the north-east monsoon carried us only into the earlier part of October. The rainfall of these two months did much good but the effect was partly marred by the abrupt termination of the north-east monsoon in the first week of October.

The result was a shrinkage of area under the ragi crop and some increase in that under gram. The yield of neither crop was good. The tanks failed to get the usual supply of water and the outturn of paddy in the *maidan* tract was adversely affected. In the important paddy-growing areas of the *malnad* and the Mysore District, however, the paddy crop was by no means unsatisfactory. A large number of cattle have died and many have lost condition for want of fodder.

7. The current monsoon also began badly. The usual *mungar* rains were not very abundant nor well-distributed. In the months of June and July, the rainfall amounted to 2.59 and 13.33 inches respectively, including the fall in the *malnad* parts, against an average of 4.51 and 10.25 inches; but in the *maidan* areas, the corresponding figures were 0.72 and 2.58 inches against an average of 2.22 and 3.61 inches respectively. The situation was partly relieved by the favourable rains of August, but the crops in many parts are yet young and the rainfall in the next few weeks must determine the character of our harvests at the end of the season.

Prices.

8. As a result of the rapid communications and the changing conditions of the outer world, prices have been going up in recent years and the precarious rainfall of the past two successive seasons has raised them to famine rates. This is causing much hardship to the poorer officials, artisans and labouring classes. The cultivators have been getting very good prices for their crops, which have enabled them to pay their revenue with ease; but in areas in which the crops suffered more than ordinary damage, the *raiya*s have had very little left to sell.

Preparations to meet Distress.

9. Government have done all in their power to meet the situation. Tank beds have been ordered to be given out for cultivation; funds have been sanctioned for sinking drinking water-wells; State forests have been thrown open to free grazing; arrangements have been made for procuring and supplying fodder; and a large amount of money—in fact, all that the Revenue Officers asked for—has been made available for granting loans and advances.

Steps have been taken to have the village programmes re-examined with a view to ascertaining whether the works included in them are sufficient and well-distributed. With many village works ready to hand and the unusually large number of public works and railways, some of great magnitude, in progress in different parts of the State, we are peculiarly well circumstanced in the matter of providing work to persons in need of employment.

2.—Important events of the Year.

Visit of His Excellency the Viceroy.

10. During the year His Highness the Maharajah had the privilege of welcoming His Excellency the Viceroy in our midst. The tour lasted from the 3rd to the 21st November 1913, and it included Gersoppa Falls, Mysore, the Kheddas, Bangalore, and a visit to the Kolar Gold Fields. The visit cannot be referred to without recalling the memory of Her Excellency Lady Hardinge who accompanied the Viceroy and who to our great sorrow is now no more. I have no doubt I am voicing the sentiments of the entire Assembly, when I say that our respectful sympathies are with His Excellency Lord Hardinge in his great bereavement, and it is our earnest hope that His Excellency may have strength to continue the administration of this great Empire with the same conspicuous sympathy and success that has characterised it till now.

The Treaty.

11. Another event of outstanding importance was the generous act of the British Government in sanctioning the substitution, in place of the Instrument of Transfer of 1881, of a New Treaty for Mysore, indicating the high esteem in which His Highness the Maharajah is held by the British Government. The change was welcomed by all classes of people, and was regarded as a signal proof of the sympathy and generosity which has always marked the policy of the Supreme Government towards this State. In this connection, I cannot do better than quote the sentiments to which His Excellency the Viceroy gave expression on the 6th November 1913, when he made this historic announcement in the City of Mysore:—

"I have now the pleasant duty of making an announcement, which it is as gratifying to me to deliver, as I trust it will be to Your Highness to receive. Some four months ago Your Highness wrote me a letter in which you took exception to certain features in the Instrument of Transfer of 1881, under which the Government of Mysore was restored to Your Highness' father, and you urged that the document should be revised both in substance and in form, in such a manner as to indicate

more appropriately the relation subsisting between the British Government and the State of Mysore. After a very careful consideration of the question I have decided with the concurrence of His Majesty's Secretary of State for India, to substitute for the Instrument of Transfer a new Treaty which will place the relations between us on a footing more in consonance with Your Highness' actual position among the Feudatory Chiefs in India. His Majesty's Government, in accepting my proposal, have observed that Your Highness' views on this question were stated with much force and moderation and that they derive additional weight from the high character and reputation which Your Highness has always borne. With this observation I desire to associate myself in the very fullest degree, and I look on it as a particularly happy circumstance, that it should have fallen to my lot to convey to Your Highness on this auspicious occasion so striking a proof of the esteem and regard in which you are held by those responsible for the Government of this great Empire."

Reforms in the Legislative Council.

12. The reforms in the Legislative Council, which His Highness the Maharajah was pleased to sanction and which were announced to you last year, have been fully given effect to. They included the nomination of four elected members from this Assembly and four from the districts, and the grant of the privileges of interpellation and discussion of the budget.

The reformed Council met three times during the year and the State Budget of the current year was placed before them for discussion in June last with an explanatory statement by the Financial Secretary. The discussion took place on the 7th July and was participated in by nearly all the non-official members present.

The Executive Council and the appointment of His Highness the Yuvaraja as an Extraordinary Member.

13. The number of members on the Executive Council has been increased from two to three in consequence of the appointment of His Highness the Yuvaraja as an Extraordinary Member. The Yuvaraja, as you are aware, worked for some time as Military Secretary to His Highness the Maharajah, but the post offered too limited a field for his abilities and His Highness therefore decided, after the Yuvaraja's return from the European tour, that he should be appointed as an Extraordinary Member of the Council. The Yuvaraja has now held that high office for about eight months and though it is not for me to appraise his work, I cannot refrain from expressing the admiration of a colleague for the soundness of judgment and the breadth and freshness of view that he brings to bear on questions which come before him.

3.—Principal events of the Year's Administration.

14. I will now refer briefly to the operations of the Departments of Government, one by one, beginning with the Financial Department.

Financial Department.

15. As you are aware, the financial statement of His Highness' Government for the year 1914-15 was for the first time discussed in the Legislative Council in July last.

Revised Estimates for 1913-14.

16. The revenue for the year 1913-14, according to the revised estimates, stood at Rs. 817-80 lakhs and the expenditure at Rs. 287-28 lakhs showing a net surplus of Rs. 530-52 lakhs. Omitting 30 lakhs received on account of surplus revenues of the Civil and Military Station, the year's transactions showed a surplus of Rs. 50-07 lakhs made up as under :—

Increase of revenue in excess of Budget figures	...	30-13 lakhs.
Savings in ordinary expenditure	...	11-22 "
Estimated surplus in the Original Budget	...	8-72 "
Total	...	50-07 "

Special grants aggregating Rs. 65-10 lakhs had also been made for important Capital works, viz., the Cauvery Reservoir Works, extension of the Cauvery Power Scheme, new Railways and Bangalore Tramways. Of these grants, the Departments were able to utilise to the extent of Rs. 37-68 lakhs. The principal reasons for the lapses are the postponement of the payment of compensation in connection with the Cauvery Reservoir Scheme and unavoidable delays in maturing schemes and ordering out materials for the other projected works.

Budget Estimates for 1914-15.

17. Turning now to the Budget Estimates for the current official year (1914-15), which have been based on the expectation of a normal year, the gross revenue is estimated at Rs. 285-09 lakhs and the gross expenditure at Rs. 358-63 lakhs. Analysed into ordinary and extraordinary, the figures stand thus :—

RECEIPTS.		EXPENDITURE.	
	Lakhs.		Lakhs
Gross Revenue	Rs. 285-09	Gross expenditure	Rs. 358-63
Deduct arrears of surplus revenues of Civil and Military Station	12-00	Deduct special grants for capital account works.	Lakhs.
		1. Cauvery reservoir works	37-50
		2. Cauvery Power Scheme extension	5-67
		3. Electric Tramways	6-00
		4. State Railways construction	36-00
		5. Capital for subsidised Railways	10-00
			95-17
		Net ordinary expenditure	263-46
Net ordinary receipts	273-09	Surplus in the ordinary account	9-63
	273-09		273-09

18. A statement of the assets and liabilities of the State as they stood on the 1st July 1914 is appended to this address which will show that notwithstanding the heavy outlay on capital account works, the financial position may be regarded as entirely satisfactory.

Surplus Revenues of the Bangalore Assigned Tract.

19. It was noticed last year that the claim of the Mysore Government for the surplus revenues of the Bangalore Assigned Tract had received the generous recognition of the Government of India. After a careful scrutiny, the amount payable to the State to the end of the year 1911-12 was fixed at a little over Rs. 39 lakhs of which a substantial instalment, *vis.*, Rs. 30 lakhs, was paid during the year.

Savings Banks.

20. The closing balance at the credit of the depositors in the Savings Banks on the last day of the year 1913-14 was Rs. 73,01,281 against Rs. 74,99,274 on the last day of the previous year, excluding interest in either case. The withdrawals in the year 1913-14 were in excess of deposits by nearly 2 lakhs, a result which is said to be partly due to depositors having transferred their funds from the Savings Banks to the Bank of Mysore.

Account Department.

21. The increase in the Gazetted and ministerial staff of the Account Department referred to last year, took effect during the year under review.

In view of the large public works and railway projects in progress and the consequent increase in accounts work, the appointments of a Deputy Comptroller and of a Chief Superintendent for the Public Works and Railway Branch of the Department, were sanctioned.

Revenue Department.

22. The Mysore Civil Service Examination was held in November and December last under the revised rules of January 1913, and three of the successful candidates were appointed Assistant Commissioners, on probation.

Orders were passed during the year revising the scale of the Revenue Establishment of the Deputy Commissioners' Offices.

The Village Improvement scheme came into operation about four months before the close of the year and the results achieved will be explained in a future section of this Address.

Excise.

23. I remarked last year that the receipts under excise revenue during the year 1912-13 had reached a record figure, but those of the year 1913-14 have proved even higher, being Rs. 55,28,281 or Rs. 4,33,971 in excess of the previous year. Nearly half of this was obtained from shop rental and the remainder from increased consumption. The increase occurred in respect of all dutiable articles except foreign liquor. The consumption of the cheaper kinds of this liquor gradually on the decrease and liquors manufactured in the Central Distillery Bangalore, are becoming more popular.

Forests.

24. The total forest revenue realised during the year was also a record figure. It amounted to Rs. 32,71,336 and about two-thirds of this were obtained from the sale of 2,158 tons of sandalwood. The expenditure under conservancy and the establishment of the department was Rs. 7,45,476.

Two Forest Officers have been placed on special duty to survey the Forest resources of the State and to investigate the possibility of utilising them for industrial purposes. These officers completed, by the close of the year, the exploration of the Ghaut Forests in the Shimoga District and of the forests near the head waters of the Tunga and in the Jager valley in the Kadur District. One of them also assisted the experts engaged by Government to investigate the possibility of starting the manufacture of pencils and matches in the State. These officers have submitted their detailed reports which are now under the consideration of Government.

The Khedda operations organized on the occasion of the visit of His Excellency the Viceroy to the State, in November last, were successfully conducted and in spite of heavy casualties among the captured elephants, resulted in a net gain of Rs. 52,585 to the State.

Stamps.

25. A gratifying reform was made during the year in the Stamp Department by the issue of stamps bearing the portrait of His Highness the Maharajah.

The Stamp Manufactory which till now had been located in a part of the Public Office Buildings, was removed to the new premises contiguous to the Government Press, where the new machines purchased during the year have been installed.

Protection

Judicial Department

26. One notable event in connection with the Judicial administration of the State was the Judicial Conference held at Mysore in June last for the purpose of discussing questions of importance relating to the administration of justice. The Conference which was presided over by Rajamantrapravina, Mr. H. V. Nanjundayya, C.I.E., First Member of Council, was the first of its kind and included among its members, experienced Judicial Officers and Advocates, besides several prominent gentlemen representing the general public. The resolutions passed and the recommendations made will be duly considered by Government.

The services of Sir Leslie C. Miller, till recently a Judge of the Madras High Court, have been secured to fill the office of Chief Judge of our Chief Court, rendered vacant by the death of Rao Bahadur Mr. P. S. Krishna Rao.

Police Department.

27. The proposals for improving the strength and prospects of the staff of the Police Department outlined in my Address last year have been given effect to and the total strength of the permanent force as improved was 862 officers and

5,161 men on the 30th June 1914. The jurisdiction over the Kolar Gold Fields Railway has been temporarily restored to the State and the necessary Police staff entertained for one year.

Military Department.

28. The discipline and efficiency of the Military Department were maintained at the usual high level and the health of the troops was good.

In my Address last year, I informed you that it was under contemplation to improve the pay and prospects of the Barr forces. A scheme involving an additional expenditure of Rs. 20,000 a year was recently sanctioned and is being given effect to.

Medicinal and Public Health Departments.

29. I stated in my Address last year that a Committee had been appointed in July 1913 to enquire into certain complainants about the purity of the vaccine lymph used in the State. The Committee, after careful investigation, came to the conclusion that the Mysore lymph was free from harmful impurities and that, in point of potency, it compared very favourably with lymph manufactured elsewhere in India. They however considered that it was desirable to further reduce the extraneous, though harmless, organisms contained in the lymph and have made certain recommendations which have met with the approval of Government.

The Maternity Hospital at Robertsonpet will be shortly opened. The quarters for the staff have not yet been built, but the hospital work will be carried on by securing temporary accommodation for the present.

30. The Malnad Improvement Scheme, undertaken during the year for the sanitary and economic improvement of the *malnad*, will be referred to at a later stage of this Address.

Development, Moral and Material.

Economic Conference.

31. The several Committees of the Economic Conference and the departments connected with them were strengthened during the past official year and special efforts were made to systematize the work of the Conference and make it more practical. At the commencement of the year the constitution of the Conference and its Committees was modified slightly and their functions defined more clearly. As announced in my Address last October, 16 seats on the Conference were thrown open for election, 8 by the Members of this Assembly and 8 by the district electorates, and these elected representatives took part in the session of the Conference in June last. As the Deputy Inspector-General of Education who was the *Ex-officio* Secretary to the Education Committee had heavy duties to discharge, a whole-time officer has been appointed to look after the work of the Education Committee. The Standing Committee, whose chief function is to co-ordinate the work of the three Central Committees, met on two occasions during the year to consider several important questions. The work of the District Committees has been placed on a more satisfactory basis by the formation of Sub-Committees corresponding to the three Central Committees.

The work of the Conference has developed to a material extent and the progress made will be referred to later on.

Education.

32. The number of public institutions increased from 2,428 in 1911-12 to 2,490 in 1912-13, or by 376 and their attendance from 151,539 to 158,334, or by 26,795. The number of private institutions also increased from 1,843 to 2,133 and their strength from 24,901 to 29,896. The increase in the number and strength of public institutions was chiefly due to the large number of primary schools for boys and girls opened during the year. The number of industrial and other technical institutions rose from 38 to 35. The total number of public and private institutions was 5,134 with a strength of 187,730 pupils as against 4,568 institutions with a strength of 156,440 pupils in the previous year. The total number of institutions, public and private, thus increased by 566 and their strength by 31,290. Of the total number of pupils, 154,819 were boys and 33,411 were girls, as against 129,009 boys and 27,431 girls in the year 1912-13. The percentage of boys at school to the male population of school-age rose from 29.8 to 35 and that of girls at school to the female population of school-age from 6.4 to 7.7, the percentage of boys and girls under instruction to the total population of school-age being 21.4 as against 18.0 in the previous year.

33. The Central College at Bangalore was affiliated to the Madras University in the Chemistry Branch of the B.A., Pass course and in the Physics Branch of the Honours course, but the institution of the Honours course in Chemistry had to be postponed for want of an Assistant Professor with European training. An Honours course in History and Economics was opened in the Maharajah's College at Mysore. The institution of these courses rendered some outlay necessary upon equipment and additional staff.

34. Other improvements were also made in Collegiate education, but the energies of the department were chiefly devoted to the development of elementary education. A special grant of one lakh of rupees was made for the expansion of village schools and a lakh and-a-half for the construction of school buildings. Sanction was also given to the opening of 1,000 schools under the grant-in-aid rules. The principle is that the villagers should supplement the grant given by Government by contributions in money or kind so that no teacher may have to serve on less than Rs. 10 a month.

A scheme of compulsory education has been sanctioned and will for the present be tried in 15 selected centres. Rules have been framed, funds provided, and all the requisite preliminary arrangements completed.

35. The expansion of primary and secondary education has created a need for a larger supply of trained teachers and for a higher standard of training than has hitherto been available in the State. In order to provide for this, a scheme for re-modelling the Training Schools and increasing their number has been approved. Its principal features are the conversion of the Normal School at Mysore into a Training College by the addition of a training class for graduate teachers, the re-modelling of the Training Schools at Shimoga and Kolar and the immediate opening of a new Training School at Tumkur. The result of these changes will be that 440 teachers will in future be trained every year as against 254 at present.

36. The various arrangements for providing technical and commercial education sketched in my Address last year have been given effect to. A Mechanical Engineering School and a Commercial School have been opened in Bangalore and the new Chamarajendra Technical Institute has been formed in Mysore by the amalgamation of two existing institutions. All these institutions are reported to have done excellent work during the year. Arrangements have been made for opening additional sections in the Mechanical Engineering School for training Industrial Teachers, Railway Permanent Way Inspectors, Engine Drivers and Telegraph Signallers.

A Printing class will be held tentatively for a year in a part of the Government Press building, where instruction will be given in composing, proof-reading and printing.

37. Female education has also continued to advance. The number of public institutions for girls increased to 397 during the year from 360, the number in the previous year. Orders have been passed for the reorganization of the Maharani's College at Mysore and the Girls' Schools in the District headquarters with a view to enlarge their usefulness. A hostel will be attached to the College, and the present Widows' Home in Mysore will be taken over under Government management and form an *annexe* to the College. The Government Girls' School, Bangalore, and the Empress Girls' School, Tumkur, will be raised to the High School standard by the opening of Kannada Upper Secondary classes. English Lower Secondary classes will be added to these schools as well as to the Aryabalika Patasala and the Chamarajpet Girls' School, Bangalore. Provision for English instruction will be made in the Malleswaram Girls' School Bangalore, and the Girls' Schools at Kolar, Chikmagalur, Chitaldrug, Shimoga and Hassan. The reorganization provides for instruction in industrial and domestic arts in addition to education of a literary character. An Inspectress of Hindustani Girls' Schools has also been temporarily engaged.

38. Among other important measures introduced may be mentioned the appointment of a Deputy Inspector General of Education to be in direct charge of Vernacular education and the revision of the grades of Educational officers and Head Masters and teachers in High and Anglo-Vernacular Schools so as to fix the number of appointments in each grade, to prevent overlapping of scales, to facilitate selection on the ground of merit, to allow interchange between the tutorial and inspecting staff and to make the pay of the teachers in Anglo-Vernacular Schools attractive. The benefits of the State Life Insurance have been thrown open to the teachers of aided institutions on certain conditions.

39. An Educational Exhibition was held at Mysore during the last Dasara and was largely attended. A similar Exhibition held in the Government High School at Bangalore in the latter part of December was also very popular.

Department of Agriculture.

40. It had been felt for some time past that if the Agricultural Department was to do any effective work in the way of improving the staple industry of the country, a considerable addition to its staff was necessary. The Department was accordingly re-organized during the year and the results are beginning to be apparent. The new arrangements could be brought into effect only four months

before the close of the year, but even in this short period, it was found possible to inaugurate a large amount of new work, demonstration in particular, which had hitherto of necessity, been confined to a comparatively few places and which has now been extended to every district in the State.

41. In my Address last year I mentioned that an Agricultural School had been opened at Bangalore for giving practical instruction in agriculture. The school has now completed the first year of its existence and has on its rolls 15 new students and 14 in the second year of their studies. A short course which lasted a week was held in connection with cultivating operations for the benefit of raiyats and land-holders, and was attended by about a hundred of them. In the present year it is hoped to have a regular series of such short courses, and buildings are being erected for the accommodation of persons coming to attend them.

Department of Industries and Commerce.

42. The rules for regulating the grant of takavi loans for industrial purposes referred to in my Address last year, have been amplified so as to provide for the sale of machinery on a hire purchase system as an alternative to takavi loans. Takavi and other loans amounting to nearly one lakh of rupees were granted during the year.

Twenty-six installations involving an expenditure of Rs. 1,44,000 had been completed and 13 were in hand at the close of the year.

As a result of the successful working of the pumping stations at Harihar and Hansvadi, a number of pumping plants for irrigation are expected to be established shortly on the banks of the Tungabhadra and its two main branches.

43. Several bulletins were issued during the year embodying the results of departmental enquiries which related, among other subjects, to the sugar industry in Mysore, the use of oil engine and suction gas plants, and the cultivation of sisal-hemp. The statistics of rail-borne trade hitherto received not being quite satisfactory, arrangements have been made with the Madras and Southern Mahratta Railway Company to obtain quarterly statements in detail, of the imports and exports carried into and out of the Mysore State by rail.

Co-operative Societies.

44. The Co-operative movement made considerable progress during the year. It is satisfactory to note that the movement is now extending to the *Malnad* districts, where it had hitherto made little headway. While Credit Societies continue to maintain their popularity and usefulness, other forms of co-operation are coming to be gradually adopted. There are societies undertaking, for instance, the irrigation of land, the purchase of raw materials and the sale of commodities on the co-operative principle.

During the year under review the number of Societies rose from 343 to 530, the membership from 24,538 to 40,479, the working capital from Rs. 12,89,333 to Rs. 21,47,340, the total transactions from Rs. 59,52,051 to Rs. 96,28,523, the profits from Rs. 1,29,981 to Rs. 2,30,224 and the reserve fund from Rs. 30,600 to Rs. 56,240. The Central Bank of Bangalore is in a flourishing condition and has lent a sum of Rs. 2,65,000 to 57 societies. It continues to be the main source of capital to

the rural societies. Three of the Unions have supplied capital to the extent of about Rs. 25,000 and one is contemplating to finance its affiliated societies to the extent of Rs. 20,000. As almost all the capital required was thus raised either locally or from the institutions mentioned above, it was not considered necessary to make any grants out of the funds placed at the disposal of the Registrar by the Government and from the Privy Purse of His Highness the Maharaja.

45. The third Provincial Conference was held at Mysore last October and was opened by His Highness the Yuvaraja and presided over by Dewan Bahadur Rajasabhabhushana Mr. K. P. Puttanna Chetty. Smaller and less formal but equally useful Conferences were held at ten other places and owed their initiative and success mostly to local effort and organization guided by the Registrar of Co-operative Societies.

TECHNICAL DEPARTMENTS.

Public Works Department.

46. The total expenditure on public works from all sources including Local Funds amounted to about Rs. 59½ lakhs during the year against Rs. 51 lakhs in the preceding year. Of this amount, Rs. 29½ lakhs were spent on irrigation works and Rs. 29½ lakhs on civil works and military buildings.

47. The construction of the Cauvery Reservoir at Kannambadi is progressing satisfactorily. The difficult portion of the work in the river-bed and the banks was completed during the year and the masonry rose to a height of 44 feet above the bed on the south bank and to 36 feet on the north bank. Water is now stored to a height of 8 feet at the gap in the centre of the dam. Arrangements are being made for the construction of turbine sluices in the dam with a view to instal a power station at the reservoir itself, from which energy may be supplied to the Belagola Pumping Station, Mysore, and other places in that neighbourhood.

In order to provide the owners of submerged wet lands with lands in exchange, Government have, besides adopting other necessary measures, sanctioned the execution of four channel projects, two of which have already been put in hand and the remaining two will be started during the course of this year.

A scheme has also been devised for the expansion of irrigation generally under the reservoir and for affording facilities for growing high-rated crops like sugarcane, turmeric, mulberry, etc.

Irrigation Improvements.

48. With a view to develop irrigation on a scientific basis, the formation of a new Irrigation Division has been sanctioned tentatively for three years, at an annual outlay of Rs. 30,000. The work assigned to the Division was explained in the last year's Address.

The Block System of Irrigation under the Marikanave Reservoir, which was brought into force from the 1st July 1913, is being carefully worked. The colonisation of the canal area and the improvement of sanitation and means of communication of the canal villages are receiving attention.

Panchayats have been constituted for 25 villages under the Tank Panchayat Regulation.

Electrical Department.

49. The fourth installation of the Cauvery Hydro-Electric Power Scheme had well advanced by the close of the year and is expected to be completed before July 1915. Reduced rates for electric power were introduced during the year with a view to encouraging its use for domestic and industrial purposes. The estimates framed for the scheme of Electric Tramways for Bangalore required revision, and the new works had to be held in abeyance. The work will be resumed as soon as an understanding is reached with the Civil and Military Station as regards their share of the estimate.

Railway Department.

50. Up to 1900, the total length of Railway lines open in the State was 410 miles and the capital outlay Rs. 223 lakhs. The length remained stationary till 1911.

The programme of Railway development sanctioned in Government Proceedings No. 224-30—Ry. F. 124-11-12, dated the 13th November 1911, provided for an addition of 259½ miles to the existing length at an aggregate outlay of Rs. 130 lakhs.

51. A State Railway Department was organised in 1912. Surveys and preliminary investigations in connection with the lines in the approved programme were vigorously prosecuted. The selection of the necessary staff, the investigation of the several alternative lines for some of the suggested projects and the necessity of submitting the final project estimates for the approval of the Railway Board naturally took up considerable time. Regular construction operations could not be started for a year or more from the date of organization of the department.

Estimates amounting to Rs. 110 lakhs for opening out 259 miles of different gauges have been brought on the sanctioned list. A project for a line from Bangalore to Hosur estimated to cost Rs. 12.72 lakhs for 33.69 miles is pending with the Railway Board. Projects for another 146 miles estimated to cost Rs. 94 lakhs are ready and are awaiting the settlement of the question of ways and means and conditions of construction and working. Arrangements are in progress for undertaking surveys for the Shimoga Feeder Railways and Tramways to Hebbe and Kakankote.

52. Negotiations are in progress regarding three more lines intended to connect our system of Railways with important places in the surrounding districts of British India, viz., a line from Nanjangud to Erode, another from Hassan to Mangalore and a third from Mysore to the Coorg frontier ending for the present at Virarajendrapet along the left bank of the Cauvery. His Highness' Government attach much importance to the early construction of all these lines and particularly of the first named link.

53. The work on the Mysore-Arsikere Railway was commenced during November 1913 and is being pushed on vigorously. The section of the Tarikere-Yedahalli Tramway between Tarikere and Lakvalli has been opened for traffic, but work on the section beyond Lakvalli is delayed owing to the prevalence of plague in that locality. The works required in connection with the Bangalore-Chikballapur Light Rail way between Bangalore and Yelahanka, have to be carried

out by the Madras and Southern Mahratta Railway Company and estimates are under preparation. The section between Yelahanka and Devanahalli has just been opened for goods traffic. The rest of the work may be completed by the end of December 1914. Sanction of the Government of India was received very recently to the Kolar-Chikballapur Railway project and arrangements are being made to start work on that line. The project for the Chikjajur-Chitaldrug Railway has also been sanctioned by the Government of India and the question of financing the same as well as the Kadur-Chikmagalur and Chikmagalur-Hassan lines is under consideration.

54. Arrangements are being made to have properly equipped Loco, Traffic, Ways and Works Departments for working the State lines.

55. Further capital outlay is being incurred on the State open lines worked by the Madras and Southern Mahratta Railway Company, the total outlay to the end of 1913-14 being Rs. 2,56,00,000. Till the year 1907-08, the net earnings to the State from these lines were insufficient to meet interest charges and the net result of working up to that year, was a deficit of about Rs. 65 lakhs. Since 1907-08, however, the earnings have improved and the deficit has been reduced to about Rs. 50 lakhs.

Department of Geology and Mining.

56. The output of gold during 1913-14 was 559,640 ounces of an approximate value of Rs. 3,22,83,047 which shows a decrease of Rs. 95,897, compared with 561,270 ounces of the value of Rs. 3,23,78,944 in 1912-13. The total royalty realized was approximately Rs. 18,91,486 against Rs. 19,99,971 in 1912-13.

The shortage of water in the Cauvery during the months of May and June necessitated a serious reduction in the power supply to the Field, which retarded development work, but did not materially affect the output of gold. The outlook of the Field remains very much the same as during the previous year. The work undertaken last year at the Woolagiri Mine in the Mysore District was brought to a close in August 1913 as the development's were not promising. Work at the Siddarahalli Mine in the Kadur District has been suspended for want of funds.

57. In accordance with the decision of Government arrived at last year, steps have been taken for the preparation and publication of a Geological Map of Mysore showing the general results of survey work. Separate maps on a larger scale and with more detailed information will also be published for the more important areas likely to contain mineral deposits.

This is one of the important departments of Government which require re-organisation and proposals to that end are under consideration.

LOCAL SELF-GOVERNMENT.

Municipal Funds

58. The receipts under Municipal Funds during the year amounted to about Rs. 10,97,000 and the expenditure to about Rs. 10,11,000 of which a sum of Rs. 2,87,000 was spent on Public Works, Rs. 2,31,000 on conservancy and the balance under other heads.

The question of financing the water-supply scheme of Davangere town, which is estimated to cost over 2 lakhs of rupees, was satisfactorily settled during the year and Government have sanctioned a contribution of Rs. 80,000 towards the project and undertaken to execute the work without making any charge on account of establishment or tools and plant. Government have also sanctioned the grant of one-half of the cost of installing Jewel Filters for the Chitaldrug water-supply, and of carrying out certain improvements urgently required for the Kolar and Shimoga water-works. A scheme of water-supply for the town of Doddaballapur is under consideration and it is noteworthy that the townspeople of that place have come forward with offers of subscriptions to the extent of Rs. 18,000 towards the cost of the project, of which a sum of Rs. 11,000 has been actually paid.

Mysore City Improvement Trust Board.

59. The construction of the underground sewerage and outfall works was continued during the year. Sixty-nine properties were acquired at a cost of Rs. 50,677 and the total expenditure incurred by the Board amounted to Rs. 2,93,000.

City Improvement Committee, Bangalore.

60. In order to investigate the needs of the Bangalore City in the direction of improvements and future expansion, a Committee consisting of Engineer and other officers and leading non-official gentlemen has been appointed with Rajasabhabhushana Dewan Bahadur Mr. K. P. Puttanna Chetty as Chairman. The Committee met several times and have submitted a rough scheme of improvements to be carried out in the next three years. For preliminary operations if this connection, Government have placed a grant of Rs. 20,000 at the disposal on the Committee.

Local Funds General.

61. The receipts under this head amounted to Rs. 2,23,000, and including the opening balance of Rs. 2,56,901 the total income was Rs. 4,79,901. The expenditure amounted to Rs. 1,70,700 and the year thus closed with a balance of Rs. 3,09,201.

District Funds.

62. The income under all heads of District Funds during the year 1913-14 was approximately Rs. 9,28,387 which, together with the opening balance of Rs. 6,56,497, amounted to Rs. 15,84,884. The total expenditure was nearly Rs. 11,42,674 thus leaving a balance of Rs. 4,42,210 at the close of the year. A sum of Rs. 4,77,750 was spent on Public Works, Rs. 2,60,924 on Public Health, Safety and Convenience, and Rs. 3,02,603 on Railway construction. All the Local Boards in the Shimoga District were reconstituted during the year, and the Local Boards Regulation II of 1902 was amended so as to empower the District Boards to levy a Railway Cess with the approval of Government.

MISCELLANEOUS DEPARTMENTS.

Muzrai Department.

63. A Committee consisting of Dewan Bahadur Mr. C. Srikantesvara Aiyar, Inspector-General of Police, and Mr. G. Aravamudu Iyengar, Muzrai Superintend-

dent, was appointed to investigate the working of the Department and report upon the various reforms and improvements needed in the administration of the Muzrai institutions. The Committee have sent up a detailed report on the several points referred to them for investigation. The report is now under the consideration of Government.

The new Muzrai Regulation came into operation from 1st January 1914.

Government Press.

64. The outturn of work in the Central Press was slightly less than in the previous year and the expenditure for the year amounted to Rs. 1,05,485 against Rs. 1,06,266 in the year previous. The reduction of output and expenditure was due to the transfer of a portion of the work to the Branch Press at Mysore and to the fact that on the whole a less quantity of printing was called for from the several departments and some printing was also done in private presses.

The question of further reducing if possible, the work done in the Government Press, is engaging attention.

65. The number of books and periodicals registered during the year was 117 as against 128 in the previous year.

Government Gardens.

66. The Government gardens were satisfactorily maintained throughout the year and improvements effected to most of them. The details are given in Part II of this Address.

Archaeological Department.

67. Arrangements have been made for revising the Mysore Gazetteer prepared by Mr. Rice with a view to bringing it up-to-date. Prakthanavimarsa Vichakshana Mr. R. A. Narasimhachar has been entrusted with this work in addition to his other duties as Officer in charge of the Archaeological Researches. A definite programme of work for this department for the next three years is under the consideration of Government.

4.—Development of Economic Resources.

68. Having dealt with the chief events of the administration during the year, it may not be out of place to recapitulate some of the larger measures undertaken in the State for developing its economic resources.

Seven projects of this description seem to deserve notice, all of which, save one, are making rapid progress. These are :—

- (1) Construction and working of railways,
- (2) Construction of a reservoir on the Cauvery river at Kannambadi,
- (3) Further development of the Cauvery Power Scheme,
- (4) Construction and repair of minor tanks,
- (5) Malnad Improvement Scheme,
- (6) Village Improvement Scheme, and
- (7) Operations of the Economic Conference.

Construction and working of Railways.

69. You may be aware that, between 1900 and 1911, that is, for nearly 12 years, there was a complete stoppage of railway activity in the State and the railway mileage in Mysore, compared to the population, fell short of that in British India. Since 1911, a persistent effort has been made to develop railway construction and as a result we have work going on, at present, on about 180 miles of railway.

The Kolar-Bowringpet Railway, the first new line completed since railway construction was resumed, was opened by His Highness the Maharaja in December last.

It is gratifying to note that the people in the districts are beginning to invest money in railway enterprises.

We want a length of about 1,000 miles of railway for adequately opening out our districts and to give an impetus to the agricultural and commercial prosperity of the State. The Railway service, when the lines are in operation, is also intended to provide profitable employment to the people of the State. The outlay already incurred is Rs. 256 lakhs and the programme of 1,000 miles when completed will bring the total expenditure to about 500 lakhs.

The Construction of the Cauvery Reservoir.

70. The question of utilizing the surplus waters of the Cauvery river within the Mysore State has formed the subject of a somewhat protracted controversy between this State and the neighbouring Presidency of Madras for the past three or four years, and last year the Government of India decided to refer the matter to a strong Committee of Arbitration for enquiry. The Committee conducted their investigations for nearly ten months and, in May last, submitted their award to the Government of India. His Highness' Government and the very large population interested in the development of the Cauvery valley within our State are confident of the justice of their claims and they anxiously await the decision of the Government of India on this momentous issue.

The Kannambadi Reservoir Project has for its object the storage of the surplus waters of the Cauvery river,—surplus which normally runs to waste into the sea. The present supply of the river channels is precarious. With an assured supply from the reservoir, the way will be paved for the cultivation of high class perennial crops not hitherto grown in that valley. Arrangements are being made to cultivate, with the aid of the storage, about 10,000 acres of sugarcane under the existing and new channels.

A scheme for re-settling the population which will be drowned out by the new reservoir is being successfully dealt with by our officers.

Further development of the Cauvery Power Scheme.

71. The construction of the reservoir will enable Government to protect the power supply, which at present is somewhat precarious during the hot weather months, and to increase the same from about 11,000 H. P. to about 18,000 H. P.

It is expected that the necessary works will be completed before July next, and if there is sufficient demand for additional power thereafter, further developments will follow.

It will be one of the duties of the Electrical Department to develop permanent markets for our power supply by extending its use for industrial purposes in the cities of Bangalore and Mysore.

Construction and Repair of Minor Tanks.

73. The question of minor tanks has engaged our active attention during the year. Government have strengthened the Maramat establishment required in the districts at an additional cost of Rs. 42,812 and the grant for the restoration of minor tanks now stands at Rs. 2,00,000. Government are prepared to further increase the grant, if necessary.

A scheme is under consideration to encourage the people of the village or villages interested in a tank to carry out the work of restoration or repairs by their own efforts with aid from Government, in the shape of grants, remissions of assessment or other concessions. This is one of the measures in which the people's co-operation with Government in the years to come will be attended with the most beneficial results.

Malnad Improvement Scheme.

74. I stated last year that His Highness' Government intended to take active measures for the re-population, and the sanitary and economic improvement of the *malnad* portions of the three districts, namely, Shimoga, Kadur and Hassan. A scheme drawn up for the purpose was brought into operation in February last. To give an opportunity to the leading people of the districts to participate in the work, non-officials have been associated with the officials and local committees have been appointed one for each district, as well as a central committee to control the operations, and they are provided with funds and an adequate staff. The measures in progress during the few months in which the scheme was in operation during the year comprise—removing rank vegetation, improving the supply of drinking water, shifting insanitary villages, popularising the use of quinine, spreading the benefits of vaccination and imparting to the people a knowledge of the rules of personal and domestic hygiene. A malarial survey with laboratory investigation has been commenced in order to identify the species of mosquito responsible for the spread of the disease. An experienced officer of the Medical Department was placed on special duty for a short time to formulate the lines of such a survey and investigation and to suggest improvements in the registration of vital statistics. Arrangements are in progress for increasing the number of vaccinators, midwives and compounders and the question of providing additional dispensaries both of the stationary and travelling types and the necessary maternity hospitals is under active consideration.

74. Attempts are also being made to attract settlers to the *malnad*. Government have recognised that the problem of the *malnad* is partly economic in character and in this view have sanctioned measures for encouraging education for multiplying occupations by developing local industries chiefly connected with forest produce, for opening up the country by increasing communications and for promoting co-operative enterprise.

Numerous details have yet to be perfected. Until the people are awakened to a sense of their own responsibility, progress will largely depend on the activity and enthusiasm which the Government officers entrusted with the operations may bring to bear on this work.

Village Improvement Scheme.

75. This scheme which I foreshadowed in my Address last year was put in hand in the latter part of the year and it has made satisfactory progress in the few months it has been in operation. The following figures taken from the most recent reports will indicate the results attained :—

Number of Villages for which committees have been formed	
out of a total number of 16,740 in the State ...	11,923
Number of village committees started ...	7,440
Number of villages in which people have agreed to devote half a day's labour once a week for communal benefit...	6,126
Number of villages (in five districts) which have started libraries or subscribed for newspapers ...	55

Considering that the seasonal conditions last year were somewhat unfavourable and the outlook in the current year up to the present has not been very satisfactory, the extent of popular support given to the scheme is extremely gratifying.

76. Under the sanctioned scheme, the Government contribution towards the cost of works started by the Village Improvement Committees was fixed at one-third of the total cost; but in view of the attendant difficulties in carrying out the scheme in its initial stages, the Government contribution was increased to one-half for the year under review as well as for the current year.

The Village Improvement Committees undertook during the period, works of permanent utility involving an estimated outlay of Rs. 1,25,000 of which the Government share amounted to Rs. 59,000. The balance of Rs. 66,000 was contributed by the villagers concerned either in cash or labour.

77. The Revenue Commissioner states that signs are not wanting to indicate the popularity of the scheme. It owes its rapid introduction to the enthusiasm and interest taken by our District Revenue officers. If wisely directed, its operations should be the means of spreading enlightenment among the people and stimulating co-operative action for improving the prosperity and conveniences of our villages. Nature has so liberally endowed our country with beautiful scenery and natural facilities of every kind that, if only the people made the attempt, many a village might be transformed from a congregation of irregularly disposed huts—separated by ill-kept and insanitary spaces—into well-ordered, cleanly and attractive places of human abode.

Economic Conference.

78. The changes in the constitution and functions of the Economic Conference have been dealt with already.

The object of the Conference is, as you are aware, to improve education and develop agriculture and Industries and Commerce. On account of the low level of activity and achievement in this respect in the past, it is the prime duty of the State and the leaders of the people to help to guide the public to improve their

economic condition. His Highness' Government spend about 2½ lakhs a year at present, or less than 1 per cent. of out revenues for the purpose of spreading sound ideas and preparing the people to participate in economic progress. Government are prepared to spend up to Rs. 3 lakhs per annum, if necessary, for a period of five years.

79. The work of the Conference is mainly carried on by the three Central Committees and the District Committees. These Committees have been investigating a large number of subjects of economic interest, which are in various stages of progress. Much spade work has been done in collecting useful information which is necessary preliminary to the preparation of practical schemes. Some of the recommendations made by the Committees have been sanctioned by Government and several others are under their consideration.

80. Amidst much generous enthusiasm, there have not been wanting criticisms of some of the measures in progress. Government are doing what they consider to be demanded in the true interests of the country and likely to satisfy the best informed opinion on each subject. If, in respect of any of these measures, at least half a dozen members of this Assembly meet and formulate their difficulties and objections, and ask for information, every endeavour will be made to meet their wishes. If alternative proposals of a constructive character are put forward, Government will not be slow to give the suggestions their best consideration.

Education Committee.

81. Chief among the subjects dealt with by the Education Committee were the establishment of public Libraries in Bangalore and Mysore, the improvement of Industrial Schools, the organization of physical education, the employment of itinerant teachers and lecturers, etc., the education of adults and the encouragement of literature in Kannada to make it a suitable vehicle for the spread of general and scientific knowledge among the masses of the population.

Agricultural Committee.

82. The Agricultural Committee took up during the year the question of the improvement of sericulture. This industry provides profitable occupation to people in 22 taluks of the State. The services of Signor Washington Mari, an experienced Italian expert, were secured for a year and a Central Sericultural Farm was opened at Channapatna, where he conducted several trials and experiments. In the first six months of this year 51,000 cocoons of several varieties were raised and about half the number were sold to the raiyats. The experiment carried out in rearing the Mysore, Bengal and Italian worms and cross breeds have yielded useful indications as to the directions in which the future development of the industry may be attempted.

A scheme is in preparation to build, in different localities, model rearing houses which will also serve as small seed stations for the present. A number of students have been trained in improved methods of sericulture and the staff of Assistant Inspectors has been increased in number and posted to several of the sericultural taluks. Steps have been taken to introduce sericulture into parts of the State where it was not in existence before.

83. A Silk Association has been formed at Channapatna consisting of people connected with all branches of the silk industry with a view to spread knowledge of the new methods among the rural population. The Association is yet young but I hope that it will soon become a useful medium for bringing the people under the influence of our expert agency.

Considerable attention has been paid to horticulture and a survey of fruit areas has been undertaken to ascertain the possibilities of fruit culture in the State.

The feasibility of dairy farming has been investigated and encouragement is being given for the development of the industry by private enterprise.

The Committee has issued a number of bulletins containing useful information both in English and Kannada, and has tried to reach a large circle of readers interested in scientific methods of agriculture.

Industries and Commerce Committee.

84. The Industries and Commerce Committee considered the question of starting various industries, such as wood distillation, manufacture of cotton seed oil, pharmaceutical preparations, cultivation of sisal-hemp, cocoanut fibre, glass, matches, etc. Some of the enquiries have assumed a practical shape. The opening of a factory for the manufacture of pencils and the possibility of starting tile factories on a large scale in the Mysore District and the *malnad*, are under investigation by experts. An Industrial Depot for the exhibition and sale of articles of local manufacture has been opened in Bangalore and is reported to be working satisfactorily.

85. The results of the investigation into the industrial condition of Mysore by Mr. V. S. Sambasiva Iyer, who was deputed for the purpose, have recently been published. His report brings together a large mass of information connected with the economic development of the country and also contains various useful suggestions for improving existing industries and starting new ones.

86. One of the important advances made in the direction of commercial development is the starting of the Bank of Mysore, which commenced work in October 1913. Through its instrumentality, a sum of about Rs. 30 lakhs is under circulation and very satisfactory banking facilities have been provided by the agencies established in various parts of the State.

87. The District Committees have also drawn up definite programmes of work and are engaged in investigating several questions of economic interest with special reference to the local areas concerned.

88. As the work connected with the Economic Conference has expanded, District Officers are finding it difficult to devote adequate attention to it without special assistance. Government have therefore recently sanctioned the appointment of a Superintendent or Organiser for each district whose duty it will be to help the Deputy Commissioner and the District Committee in spreading information, stimulating local enterprise and helping people in organizing practical schemes with the co-operation of experts employed in the several departments. The Superintendents will be in touch with the various authorities concerned and will serve as a medium for co-ordinating the activities of the Central and District Committees.

89. Forty-seven Taluk Progress Committees have been formed to develop economic work in the taluks and it is expected that in the course of the next few months, similar committees will be formed in all the remaining taluks.

90. It has been decided to issue at an early date a monthly journal in connection with the work of the Economic Conference, in English and Kannada, which will serve to bring into closer touch all persons interested and all agencies engaged in the work of the economic progress of the State.

91. In another place of this Address I have referred to the formation of Village Improvement Committees. It is the hope of Government that all these organisations beginning from the central body and spreading among a large number of towns and villages will work in unison and form the necessary agency for developing economic schemes, for ascertaining important local wants, for spreading information among a large portion of the people of the State and for organising and directing into profitable channels whatever intelligence, energy, capital or enterprise may be available in the country.

5.—Administrative Efficiency.

Efficiency Audit.

92. I will next say a few words about measures taken for improving the working of the administrative machinery.

In last year's Address, I mentioned that the question of improving the efficiency of the several branches of the public service had been receiving the special attention of Government and that it was proposed to introduce a system of administrative scrutiny and check described as 'efficiency audit.'

The system has been in full working order for the past two or three months. The establishment employed is temporary and consists of a Gazetted officer and a few clerks who form a branch of the General and Revenue Secretariat.

93. The officer is engaged in examining the standing orders and office manuals with a view to promote system and regularity in the transaction of public business and co-ordination of work between the various departments. He will help in the reorganization of Government departments which may require attention, in the inspection of individual offices when necessary and in taking stock of progress made on the special programmes laid down from time to time.

94. The system of Local Self-Government in the State dealing with the functions and responsibilities of Local Boards and Municipalities is undergoing a thorough investigation. A committee of Government officers and non-official gentlemen, with Mr. M. Kantaraj Urs, C.S.I., Second Member of Council, as Chairman, which has been considering the subject for some time past has just concluded its deliberations.

Organization and Development Questions.

95. In every department of Government and public work, a large number of new questions arise from time to time requiring study and investigation and the Departmental heads often find themselves unable to give continuous attention to

them. A list of subjects connected with the organization and development of the department is maintained, and a few selected subjects are taken up from time to time for investigation and report, with the help of Government officers and when necessary, also of non-official gentlemen who may be interested in, or who may have made a special study of, the subjects. Several subjects have been dealt with in this way, and our sincere thanks are due to the gentlemen who have co-operated with Government and given their services for the work.

Recruitment and Promotions.

96. A stricter system of recruitment based mainly on merit and capacity should be introduced in all branches of the service after making reasonable allowance for the claims of special classes of tax-payers hitherto imperfectly represented in the public service. There is no reason why we should be content with men of ordinary calibre when we can get the pick of the talent available in the country for the same salaries.

The selection for promotion should be based on approved service and merit and for this purpose, correct records of conduct and qualifications should be maintained in greater detail than at present. If we are to encourage officers who are self-reliant and resourceful, it will be necessary to give special promotions to men of outstanding capacity and worth.

Government propose to issue shortly suitable rules to regulate the conduct and responsibility of officers of the various services of the State.

Inspections by Members of Government.

97. A new departure, during the year, was the tours of inspection undertaken by members of Government under a revised system, resulting in a considerable amount of inspection work done by them. Out of a total of 68 taluks and 9 sub-taluks in the State, the two members and myself have, between us, inspected 52 taluks and 5 sub-taluks. These inspections will be continued in the coming year also, and an endeavour will be made to see that they lead to permanent results, and that the more important wants and grievances in each taluk are catalogued and constantly kept in view, both by the official and non-official classes, till the wants are supplied and the grievances redressed.

Statistical Atlas and District and Town Hand-Books.

98. At present, there is a lack of information regarding essential facts pertaining to the administration in general and to the resources and needs of the people in particular, in each district, city and important town. A beginning has been made to supply these wants by the preparation of hand-books for districts and guide-books for the municipal towns. Mr. K. R. Srinivasengar, M.A., till recently Secretary to Government in the General and Revenue Departments, has been entrusted with the preparation of a statistical atlas and abstract. He is also compiling the district hand-books with the aid of the Deputy Commissioners of the Districts concerned.

Mr. K. P. Puttanna Chetty, President of the Bangalore City Municipality, has issued a useful and neatly got-up hand-book for the Bangalore City, and the Municipal Councils of a few other towns have undertaken to publish smaller guide-books.

A hand-book for the Tumkur District has been published by Mr. B. J. Kumara-swamy Naik, Deputy Commissioner, and another for the Kolar District, prepared by Mr. B. Ramaswamayya, is in the press.

Taluk and Village Manuals.

99. The preparation of a Manual for regulating the work of the Taluk Offices and defining the duties and responsibilities of the Taluk officials has been taken in hand. Mr. K. Srinivasa Rao, retired Deputy Commissioner, who has had considerable experience as a Revenue officer, has set an example of public spirit by undertaking to do the work in an honorary capacity. He has also completed the compilation of a Village Manual. A District Office Manual will be compiled for the guidance of officials as soon as the Taluk and Village Manuals are printed and issued.

6.—Conclusion.

100. I will now conclude with a few general observations on the present situation in Mysore and our hopes and fears, for the future, from the standpoint of the prosperity of His Highness' subjects.

I have referred to the short rainfall and scarcity of food and fodder both last year and now. Bad seasons are increasingly frequent in this State. The methods of cultivation are primitive in large areas of the country and the application of science to farming is little known. Even in good seasons, the ordinary agriculturist goes without sufficient occupation from four to six months in the year. Many artisan and professional classes have had to abandon their special avocations through stress of competition and fall back on agriculture. The village tanks are getting silted and shallow, and they usually dry up a few months after the monsoon is over, with the result that scarcity of water for men and cattle is of common occurrence in the rural areas.

Our agricultural population is very ignorant. The power of initiative, co-operation and organized activity for public or private enterprises, which is so sedulously fostered in other countries, is utterly lacking in this State.

Efficiency of the People.

101. In my Address of last year, I devoted a section to the subject of the efficiency of the people. I have already explained what Government have done or are doing in order to develop the economic resources of the State and to improve the machinery of the administration. As regards the improvement of the people, Government are doing all they can, by liberal expenditure on education and in other ways, to encourage industrial and commercial enterprise among the people.

In this connection, I believe it is permissible to ask—What are the people doing to help themselves? To what extent will they exert themselves for a more active participation in the civic and industrial life of the country? These questions will be repeated with growing persistency in the coming years and you must see to it that your response is hearty and increasingly unanimous.

102. The spirit of enquiry should be cultivated by our people and they should study what science has done for promoting human enterprise in foreign lands and practice the lessons deduced from such comparison.

Changes are going on unnoticed in the practical life of the people and many good and useful habits and practices of the past are disappearing. It behoves us to single out the more useful methods and practices, both our own and those of foreign countries at the present time, and familiarise the public with them, till they come to be accepted as standards in the daily life of our people.

Regulation of Activities in City, Town and Village.

103. Proposals are being discussed with a view to encourage the people to keep under study and observation every important activity in the country, municipal, economic, social and moral, with a view to the constant improvement of the standards of work and living of the persons engaged in them.

The object aimed at is to appoint some person or persons to be responsible for every profession or activity as practiced in each city, town and village; to collect funds and stimulate work with a view gradually to improve the material and moral condition of the people in every profession and grade of society.

A beginning in this direction is being made in Bangalore under the leadership of our esteemed countryman, Dewan Bahadur Rajasabhabushana, Mr. K.P. Puttanna Chetty and, if voluntary effort is forthcoming, there is no reason why the city of Mysore should not follow the example of Bangalore and why other smaller towns should not take up this good work in their turn.

Appeal for Co-operation.

104. Government recognise that it is a part of their duty to help the people to improve their condition and equip them for the struggle for existence. The time has gone by when Government officers could afford to be content with collecting taxes, maintaining order and dispensing justice.

I am told on the authority of competent observers that there is a distinct improvement in the civic life of the Bangalore City, and that Municipal Councillors and leading private gentlemen are giving their time and work ungrudgingly to municipal affairs and questions of public interest.

There are evidences of public spirit and increasing harmony between Government officers and the people in the districts and I can speak from personal knowledge that our village population are making large sacrifices for promoting education.

When I outlined the Village Improvement Scheme in my Address last year, some sixty members from your body offered help and co-operation to inaugurate that movement. I now see that that help has been given without stint. If in respect of all new undertakings, officials and non-officials are animated by the same ideals and work in unison, the beneficial results will be very marked. I earnestly hope that, in the coming year, our officers may look forward to increasing co-operation from you and from the general public whom you represent.

105. The recent growth of communications has been bringing us closer to the populations of the world. It is an advantage to come into closer contact with people more civilized than ourselves if we can profit by their example. But we must recognise that this close association has also brought us increased responsibilities. It has brought us into the vortex of the struggle for existence and the first warning we have received is a rise in prices. Where formerly the economic effects of local enterprise were determined by local conditions, we are now called upon, without adequate training or skill and with our primitive implements, to take our place in international competition. In the face of the increasing severity of the struggle, our spirit of content, our indifference to science and material progress, are a growing peril. Hard times will be coming if we are not more adaptive and it is our duty to see that the awakening did not come too late.

M. VISVESVARAYA,
Dewan of Mysore.

G. Swasbrook,

Mechanic, Carriage-BUILDER, Engineering Contractor,
and Commission Agent,

12, Brigade Road, Bangalore.

BEGS to inform the public that he is now prepared to undertake and carry out works of all description—such as follow :—

CARRIAGES—of all descriptions Built, Repaired, Lined, Painted and Rubber Tyred, etc., etc.

TURNING—of all description undertaken in Iron and Brass.

WROUGHT—Iron work such as Trusses, Tie-rods, Cooking Fuel Stoves, Dust Bins, Tanks, Gates, Iron Record Racks, &c., &c.

MACHINERY—of all description repaired and erected.

SIGN BOARDS—prepared and lettered.

CARPENTRY & SMITHY—of every kind contracted for and work guaranteed.

ALL WORK—carried out under personal supervision with competent workmen.

Terms Cash.

Rates Moderate.

Trial orders solicited.

Address of the Dewan of Mysore to the
Dasara Representative Assembly 30th September 1914.

PART II.

Introduction.

In Part I of the Address, I have described the working of the principal departments of Government and the more important administrative measures which received consideration during the past year, or which are receiving attention at the present time. The less important details under the same heads will be referred to in this, the second part of the Address.

FINANCIAL DEPARTMENT.

Changes in the form and scope of the budget.

2. The separate major heads "Profit or loss" in the budget both on the receipt and expenditure sides were done away with by amalgamation with the head "Interest" as the transactions recorded under both are essentially of a similar nature. Owing to the recent expansion and development of the departments of Agriculture, Sanitation and Industries and Commerce, separate major heads were opened for these departments. The headings under Railway Accounts were also amplified. Another Important change was the publication of the financial statement in two parts. The first part consisted of service heads from which transactions relating to grants under capital works were excluded and the surplus under service heads only was worked out. The second part showed the extraordinary capital outlay and the result of the debt and deposit transactions and worked up from the opening to the closing cash balance.

Account Department.

3. It is intended to train young men in Accountancy and Banking in order that the accounts of the commercial and semi-commercial departments of the State and of joint-stock institutions in which the State is financially interested may be audited more satisfactorily than at present. A graduate has been selected for undergoing training in Actuarial Science, preparatory to going to England.

Municipal Account Manual

4. The new Municipal Account Manual referred to in my last year's Address was printed and published; and the rules embodied therein came into force from 1st July 1914. A Kannada translation of certain simple Account Rules pertaining to the minor Municipalities has also been published.

Inspection of the Public Works Divisional Offices and other Civil Offices.

5. All the Public Works Divisional Offices and Maramat and other Civil Offices were inspected during the year. The offices of direction were inspected for the first time. The audit of accounts of Stores and of Tools and Plant not having been quite satisfactory, Government have sanctioned with effect from the beginning of 1914-15 certain arrangements calculated to make it more efficient. All the Railway Construction Divisions were inspected and detailed instructions for maintenance of accounts in Divisional Offices were drawn up.

Mysore Spinning and Manufacturing Company, Bangalore.

6. As a result of the financial arrangements arrived at during the Previous year with this company, the mills have worked satisfactorily and during the year ended 28th February 1913, the company was able to declare for the first time for some years past a dividend of 6 per cent.

State Life Insurance.

7. During the year 1913-14, 933 proposals were accepted, 101 were rejected and 185 were left pending. Of the 933 policies issued, 2 were cancelled before completion and the remaining 931 policies assured a bonus of Rs. 5,58,317 for a monthly premium of Rs. 2,098-8-0.

Village Savings Banks and Extension of State Life Insurance to the General Public.

8. A scheme prepared by Dewan Bahadur Mr. J.S. Chakravarti, Comptroller, for the introduction of Village Savings Banks in the State and for the extension of the State Life Insurance to the public, was considered by the Industries and Commerce Committee and is now before Government.

Local Audit.

9. The accounts of all the District and Municipal Boards in the State up to the end of 1912-13 were locally audited. A few special audits were undertaken under the orders of Government resulting in the discovery of certain irregularities. A scheme for the extension of Local Audit to the accounts of the major Muzrai institutions is under the consideration of Government.

REVENUE DEPARTMENT.

Cattle Shows and Exhibitions.

10. Cattle shows were held during the year at 22 places and at four of these for the first time. Agricultural and Industrial Exhibitions were held at Nandi and Harihar and a weaving demonstration was arranged at Hassan in connection with the show in that town. It is gratifying to note that functions of this kind are gradually coming to be organised and financed by private local agencies. The annual Dasara Exhibition was held at Mysore as usual. The lectures delivered on these occasions on agriculture, sanitation, cattle breeding, etc., by the officers of various departments were much appreciated by the public and people also took keen interest in agricultural and industrial demonstrations.

Civil Veterinary Department.

11. The number of fresh admissions into the veterinary hospitals rose from 17,831 during the previous year to 18,622 during the year under review and the total number of cases treated daily rose from 65,836 to 66,934. One thousand six hundred and fifty-six cattle were inoculated against black-quarter and 485 against anthrax.

The work of the Civil Veterinary Department is becoming increasingly popular and there is a growing demand for veterinary hospitals in several parts of the State. The question of increasing the number of such hospitals is engaging the attention of Government. The possibility of increase will largely depend upon the extent to which local bodies are prepared to meet the cost.

Excise.

12. The opening of separate shops at three places for the vend of bottled beer from the Bangalore Distillery, the extension of the provisions of the Excise Regulation so as to make them applicable to coca leaves, cocaine and allied drugs, the imposition of a duty on imported *bhang*, the reduction in the price of methy-lated spirits and the publication of the second volume of the Excise Manual, were among the chief events in the Excise administration of the year. The surcharge and registration fees from arrack shops in the cities of Bangalore and Mysore have been restored to the Municipalities of those cities. The Detective department which was tentatively organized for one year will be continued till the end of the calendar year 1914.

Forests.

13. Twelve blocks with an aggregate area of 64 square miles were, during the year, notified under Section 17 of the Mysore Forest Regulation and eight blocks with an area of 18.5 square miles were notified as reserved lands under Section 4 of the Forest Regulation. The area settled during the year was 126 square miles and the total cost of settlement work and establishment was Rs. 8,468.

14. A saw mill has been established at Kumsi in the Shimoga District for the purpose of preparing railway sleepers and sawn timber. The outturn has not so far been quite up to expectations, but better results may be looked for hereafter as the management has been entrusted to a special officer.

About 448,000 cubic feet of timber was collected and sold departmentally, the quantity removed on licenses being 419,500 cubic feet. Thirty-seven thousand six hundred and seventy-five sleepers of all gauges were supplied for the Arsikere-Mysore and Bangalore-Chikballapur Railway lines. Demarcation, fire protection, sowing and planting and the construction and repair of forest roads and buildings received attention.

The office of a separate whole-time Forest Settlement Officer was abolished at the close of the year.

Stamps.

15. The revenue derived from the sale of stamps rose from Rs. 2,41,434 to Rs. 10,67,691 resulting in an increase of Rs. 1,26,257 due to the economic activity noticeable in recent years. The increase occurred under all kinds of stamps. The establishment and other charges amounted to Rs. 57,720 as against Rs. 70,590 in the year previous.

Registration.

16. The total number of documents registered during the year 1913-14 was 109,001 as against 96,924 in 1912-13, thus showing an increase of 12,077 or 12.46 per cent. The total income of the department rose from Rs. 1,82,033 in 1912-13, to Rs. 2,08,385 or by Rs. 26,352 and the expenditure from Rs. 85,152 to Rs. 87,781 or an increase of Rs. 2,629, due to the revision of establishment of the Registration Offices and to the allowance drawn by the Inspector-General since 18th February 1914.

Joint Stock Companies.

17. Eleven new companies were registered during the year and one was wound up, the total number working at the close of the year being 83, or 6 more than the number at the end of the year previous. The number of documents filed and recorded was 198 and the amount of fees realised Rs. 2,006 as against 189 and Rs. 1,172 respectively, in the preceding year.

Revenue Survey and Inam.

18. Six Inam villages were surveyed in detail and original classification work was undertaken in respect of 698 fields comprising 2,588 acres. Besides this, a large quantity of work of a miscellaneous nature was turned out by the survey party deputed for the survey of lands in connection with the Cauvery Reservoir Works. Resurvey operations were completed in 227 villages in the taluks of Hassan, Chikmagalur, Tumkur (late Kadaba), Koppa, Tarikere, Shimoga, Hiriyar and Bangalore, comprising 281,593 acres or 439.99 square miles.

Revised rates were announced in the Nagar Taluk of the Shimoga District and the late Koratagere Taluk of the Tumkur District. In the case of the former, the average dry rate remained unaffected, while the wet rate was increased by 4.8 per cent. and the garden rate was reduced by 3.3 per cent. The net result for the entire tract was an increase of 4 per cent. In the Koratagere Taluk the average dry rate was increased by 16.6 per cent. and the wet rate by 4.8 per cent. while the garden rate was reduced by 19 per cent. The revision resulted in a moderate increase of revenue. The new rates in both the taluks are reported to have been well received.

19. Five land inams were confirmed and thirty-four land inams (including one whole village) were resumed and struck off. Five land inams were revised. The result of these operations was the reduction of the inam revenue by Rs. 578 and a corresponding increase of Rs. 1,508 under land assessment.

PROTECTION.

Legislation.

20. The Legislative Council met four times during the year and considered fifteen bills including nine which were pending from the previous year. Twelve of these were passed and the following ten have received the assent of His Highness the Maharajah and become law :—

- (1) The Mysore Motor Vehicles Bill.
- (2) The Elementary Education Bill.

- (3) The Mysore Muzrai Bill.
- (4) The Mysore Village Courts Bill.
- (5) The Mysore Excise Regulation Amendment Bill.
- (6) A Bill to amend the Mysore Legislative Council Regulation, 1907.
- (7) The Mysore Factories Bill.
- (8) A Bill further to amend the Mysore Court Fees Regulation, 1900.
- (9) A Bill further to amend the Mysore Local Boards Regulation, II of 1902.
- (10) The Probate and Administration Bill.

A Bill further to amend the Mysore Military Regulation of 1899 was passed during the year by Government without reference to the Legislative Council, the subject being one excluded from the cognisance of the Council under the proviso to section 12 of the Regulation of 1907.

Rules and Notifications under enactments in force were issued on subjects connected with the Prisons Act, the Opium Act, the Yelandur Jahgir Regulation, the Land Revenue Code, the Mysore Arms Regulation, the Mysore Stamp Regulation, the Mysore Forest Regulation, the Mysore Excise Regulation, the Mysore Local Boards Regulation, the Mysore Registration Regulation, the Mysore Municipal Regulation, the Mysore Legislative Council Regulation, the Civil Procedure Code and several other Regulations.

Judicial.

21. The temporary Additional Sessions Court established at Mysore in March 1913 to try the case of riot committed in Kannegal, Chamarajnagar Taluk, closed its work on the 17th September of that year, on the termination of the trial.

22. The Judges of the Chief Court inspected 13 Civil and 10 Criminal Courts during the year. The District and Sessions Judges inspected 7 Civil Courts and 5 Criminal Courts, while the District Magistrates inspected 45 Criminal Courts subordinate to them.

Police.

23. The total cost of the Police administration including equipment and clothing, was about Rs. 9,83,620 against Rs. 9,27,670 in the previous year. A large number of cases reported in the previous years upon the B form were cleared off during the year under notice.

The temporary staff stationed at Mugur in T. Narasipur Taluk, for maintaining order in that locality, was dispensed with during the year; the establishment at the Cauvery Reservoir Works has been strengthened and small establishments have been sanctioned for the tank works at Mavattur in Kankanhalli Taluk and Ierige in Hunsur Taluk.

Amrut Mahal.

24. As the earlier rains were partial and the later rains completely failed, the supply of fodder, and especially during the hot months of the year, was deficient. Consequently the season was not very favourable for cattle breeding. Anthrax and lung disease prevailed among some of the herds. The total collections for the year under all heads amounted to Rs. 76,612 of which Rs. 61,663 came from 'sale of cattle.' The expenditure on the department was about Rs. 29,000.

THE DEWAN'S DASARA ADDRESS.

Medical.

25. There were 154 medical institutions in the State at the beginning of the year including a Local Fund Dispensary at Melkote which was opened on 1st July 1913. New dispensaries have been recently established at Humchadakatte in the Shimoga District and at Bidare in the Chikmagalur Taluk, Kadur District. The total number of patients treated was 1,498,272 against 1,438,947 in the previous year. Of these, 18,073 were in-patients and the rest out-patients.

Midwives and Compounders and Maternities for the Malnad.

26. During the year under review Government sanctioned a scheme for the training of midwives and compounders, for service in the Malnad, by offering suitable scholarships to the pupils during their training. The establishment of maternities in certain stations has also been sanctioned and plans and estimates for the same are under preparation.

Public Health.

27. As compared with last year, there was a noticeable increase in mortality due to small-pox and a decrease in that due to cholera. The total number of vaccinations performed was 117,380 as against 93,039 in the preceding year. Of this number, 112,548 were primary and 4,837 re-vaccinations.

DEVELOPMENT, MORAL AND MATERIAL.**Department of Agriculture.**

28. The demonstration work of the year was seriously affected by unfavourable weather conditions in many parts. Cambodia cotton and another variety of cotton obtained for trial from the Madras Agricultural Department, however, did remarkably well. Demonstration work was also undertaken in connection with green manuring for paddy, single seedling transplantation of paddy, manuring of sugar-cane, etc. The use of threshing machine run by oil engine was demonstrated in five places and it was shown that the machine would thresh about two khandies of ragi per hour at a cost of less than 8 annas a khandy. It is proposed in the coming season to have about half a dozen such machines in stock to let out for hire. Improvements in the manufacture of jaggery were demonstrated in eight different localities, and at Kibbanhalli the work was extended to over three months.

The sale of improved implements, specially ploughs, more than doubled during the year and the department had difficulty in meeting the demands. Ploughs and spare parts are now being stocked with a number of Co-operative Societies and Agricultural Associations and it is hoped to utilise these agencies to a constantly increasing extent in spreading the use of improved implements.

Some interesting results were obtained from experiments made at the Hebbal Farm in connection with the cultivation of dry crops, such as ragi. In the distribution of manure and of ground-nut and other seeds, the Farm has markedly increased its usefulness. A new feature in the working of the Farm was the loaning of farm implements to cultivators in the Hebbal village.

Myecology and Entomology.

29. The work in connection with *Koleroga* expanded very rapidly. Arrangements were made with a Bombay firm to supply chemicals in large quantities at reduced rates and depots have been established at Talaguppe, Sagar, Kallurkatte, Tirthahalli and Agumbe for the stocking of the sprayers and spare parts and chemicals. Spraying is becoming increasingly popular and it is believed that in another five years it will be generally practiced throughout the infected area and that there will be a saving, to garden owners, of several lakhs of rupees annually. The spike disease of sandal and two serious diseases of coffee were also under investigation during the year.

30. The most important single item of work done in the Entomological Section was in connection with the green scale insect (*Lecanium viride*) on coffee. The whole infested area was gone over carefully with the object of finding all the centres of infestation and sprayers and spraying materials were provided with a staff to supervise the work. Extensive experiments on the life history of the pest and the best methods of combating it are under way. Efficient measures for the control of the *kamblihula* have been worked out and demonstrated in many villages. The investigation of insects attacking stored produce and of those attacking paddy is in progress.

Department of Industries and Commerce.

31. *Weaving.*—The Weaving Factory established in Bangalore has been doing experimental and educational work of a useful kind though the financial anticipations formed of it have not been realised. The most important part of the experimental work was the adaptation of Jacquard machines to native handlooms, in which considerable progress has been made resulting in a material reduction of the labour involved in the weaving of figured patterns in solid-bordered cloths. The pattern can be altered by simply changing the cards, which is a great convenience. The Jacquard harness has also been fitted to the fly-shuttle loom for the purpose of manufacturing flowered silk for which there is a large local demand. The weaving of woollen shawls from imported yarn and of woollen *kamblies* from locally spun yarn has however so far led to no useful results.

Besides training advanced weavers to use Jacquard harness in the factory, demonstrations were arranged in the villages to train the country weavers in the use of the fly-shuttle slay. These demonstrations have been attended with a good deal of success and fly-shuttle slays have been introduced into 31 villages in the districts of Mysore, Bangalore, Kolar, Hassan and Tumkur. To help the weavers and encourage them to use the fly-shuttle slay, arrangements have been made to purchase suitable yarn on a large scale and advance it to them through the demonstrators.

Silk Reeling.

32. Silk-reeling was started in the filature at Channapatna in January last and 20 boys of a Mahomedan Orphanage at the place are learning the work. Up to the end of the year, the silk from 5,450 lbs. of cocoons had been reeled. Silk throwing and twisting have also been commenced and will be developed during the current year. For the first six months the filature worked at a loss, but now

that the boys have acquired a certain amount of skill, better results may be expected. The importance of the industry to the State requires much bigger efforts being made to put it on a modern footing. Plans and estimates are accordingly under preparation for the establishment of a modern silk factory at Bangalore, equipped with 100 basins and with all the finishing machinery to put silk ready for looms in the market.

Sugar-cane.

33. The open pan system for boiling down the juice had to be abandoned as the expenditure on fuel was great. Experiments were commenced with specially constructed megasse-burning furnaces, with evaporating pans arranged in series, and gave fairly satisfactory results. But owing to the prolonged drought, the sugar-cane crop was a very poor one last year and the crushing plants were not fully worked. Even so, the revenue derived from the manufacture of jaggery was sufficient to meet current working expenses.

Agricultural Banks.

34. There were four Agricultural Banks in the State at the beginning of the year, viz., at Palhalli, Hongenhalli, Nanjangud and Chamarajnagar. Of these, the Bank at Chamarajnagar has been ordered by Government to be wound up. The Nanjangud Bank has paid the loan due to Government in full and has stopped all further work. It will be formally wound up as soon as its members agree, at a general meeting, upon its voluntary liquidation. The other two banks have not yet discharged their debts to Government, and as soon as this is done, they will probably reconstitute themselves as co-operative societies. The year's collection amounted to Rs. 38,782-12-2 towards principal and Rs. 2,986-14-6 towards interest, leaving a balance of Rs. 53,465-6-2 still to be recovered.

The policy pursued with respect to Agricultural Banks is to wind up such of them as are doing no active work and if conditions are favourable, to start co-operative societies in their place. In accordance with this policy, 30 co-operative societies were started altogether for the benefit of people likely to be inconvenienced by the winding up of Agricultural Banks of which they were members. Of these thirty, 5 were started during 1913-14.

TECHNICAL DEPARTMENT.

Public Works.

35. Among the smaller irrigation works in progress during the year may be mentioned the construction of new tanks at Mavallur in the Kankanhalli Taluk and Merige in the Hunsur Taluk and of a feeder from the Nagamangala anikat to the tanks in the Tarikere valley in the Kadar District; the restoration of the Madhanmantri anikat, the Mellur tank and Manchipatna tank in the Mysore District and the Bolappanahalli tank in the Closepet Sub-Taluk, and the improvement of the Sriramdevur South Channel in the Hassan District.

Buildings.

36. The principal Civil buildings in progress during the year were the new Palace, the General Hospital and the Chamarajendra Technical Institute at

Mysore, the Central Colleges Chemical Laboratory, the new High School, the Mechanical Engineering School and the Minto Ophthalmic Hospital at Bangalore, the Agricultural School at Hebbal, the High School at Hassan, the Maternity at Robertsonpet, the new Taluk Cutcheries at Sidlaghatta and Honnali and the new Sandalkoti at Shimoga. The Public Offices, the Government Press and the Public Works Workshop at Bangalore are being extended.

The Military buildings in hand during the year were the construction of permanent structures for the Local Service Regiment at Mysore, sheds for Transport ponies and Government carriages and huts for Barr Sepoys at Bangalore and Barr Lines at Tumkur.

Communications.

37. The construction and improvement of certain *mainad* and forest roads in the Shimoga and Mysore Districts were in progress as also the construction of large bridges across the river Tungabhadra at Honnali in the Shimoga District and across the Bhrigu on the Hunsur-Begur road in the Mysore District.

Miscellaneous Public Improvements.

38. Among the miscellaneous public improvements in progress may be mentioned the construction of roads and drains in the extensions of the Bangalore City and the installation of a Jewel Filter and a subsidiary pumping plant for improving the water supply to the Mysore City.

Minor Tanks.

39. Five hundred and sixty-six minor tanks were dealt with, of which 152 were restored before the close of the year. Out of a sum of Rs. 1,39,304 allotted for the purpose, a sum of Rs. 97,507 or 69.99 per cent. was utilised. In the Tumkur and Kadar Districts almost the whole amount was worked out, while in the Kolar District, a large balance was left unspent.

Electrical.

40. The number of Power and Lighting Installations in the Cities of Mysore and Bangalore and in the Civil and Military Station increased during the year to 1,510 from 1,124 at the end of the previous year. This shows an increase of 34.34 per cent. in the number of consumers.

The capital outlay during the year amounted to Rs. 83,064 and the total outlay to the end of June 1914 aggregated Rs. 83,94,531 excluding the cost of the Fourth Installation which is in progress. The gross earnings of the scheme amounted to Rs. 16,24,599 against Rs. 17,12,052 during the previous year, showing a decrease of 5.1 per cent. which was due to shortage of water in the river during the summer months occasioned by the failure of the *mungar* rains. The working expenses of the scheme amounted to Rs. 6,73,093, including a sum of Rs. 2,91,800 set apart for depreciation and of Rs. 42,140 spent in connection with the special channels conservancy operations during the hot weather. The net profit after deducting Rs. 2,31,796 for interest charges, at 4 per cent. on the total capital outlay, was Rs. 7,19,710, which represents 8.6 per cent. on the total capital expenditure.

Geology and Mining.

41. The report of the Committee appointed to enquire into the causes of the accident at Edgar's Shaft, Mysore Mine, has been published. The conclusion arrived at was that the accident was not traceable to any negligence on the part of the employees of the Mine.

Hitherto the various Mining Companies have of their own accord introduced schemes for the benefit of their employees, which present considerable variations in the terms and conditions imposed and in the benefits received. Government being of opinion that it would be desirable to have a uniform and well-defined system over all the Mines, invited the co-operation of the Mining Board who have sent up a comprehensive scheme for the purpose. It has been approved in its main features, and with the co-operation of the various Mines on the Field which the Board have been requested to secure, the scheme is expected to be brought into general operation shortly.

Manganese.

42. Manganese mining was very slack during the year and operations were carried on only on 3 blocks as against 7 in the previous year. The total quantity of ore mined was 13,944 tons and the quantity exported 5,953 tons. The royalty paid was Rs. 1,461-8-0.

Chrome Ore.

There has been some renewed activity in connection with this mineral and 15 licenses were current at the close of the year as against 9 during the previous year.

Magnesite.

Six licenses were current for magnesite (and chrome) against 5 in the previous year. On some of these blocks a good deal of work has been done by the Tata Iron and Steel Company, and 2,112 tons of magnesite are reported to have been excavated.

Iron Ore.

Six prospecting licenses and one exploring license in the Bababudan Hills were current up to the end of June 1914. A certain amount of exploratory and examination work has been done, but none of the deposit has been opened up. An extended inspection of the ground was made during the year and some large samples have been taken by the department for further practical investigation.

Clays.

43. A number of clay samples from deposits which had been located during the course of survey work were obtained and prepared for examination. Several which appeared to be suitable for the manufacture of bricks and tiles were tested at the City Brick and Tile Works. Some of them are reported to have given good results. Some large samples of altered granitic materials containing kaolin were obtained and washed for the purpose of separating the kaolin. The washed kaolin and a large number of samples of other clays were forwarded through the Industries and Commerce Committee of the Economic Conference to Bombay and Calcutta for expert opinion and test. A report on several of these has been received from Bombay and it appears to indicate that it may be possible to use the

kaolin for certain varieties of porcelain, provided the necessary skilled labour can be obtained. Further investigations are being made.

Water Supply.

44. Experimental boring operations were as usual continued during the year and several bore holes were put down at the request of municipalities and private persons. At the close of the year, the boring operator who was till then working under the Geological Department, was, with the plant, transferred to the Public Works Department.

LOCAL SELF GOVERNMENT.**Municipal.**

45. During the year 1913-14, Municipal Councils were constituted for the first time in the towns of Birur and Yedahalli. Mr. C. B. Gopala Rao was appointed non-official Vice-President of the Kolar Municipality and Messrs. C. Vasudeva Rao, K. Venkataswamy Iyer and C. Narayanaswamy Chetty were appointed non official Vice-Presidents of the Chikmagalur, Nanjangud and Chikballapur Municipalities, respectively.

The City Municipal Council of Bangalore aided financially and otherwise the formation of a Co-operative Society for relieving the indebtedness of the scavengers employed in its conservancy department. This is noted here as an example worthy of imitation of the growing solicitude on the part of local bodies for the welfare of their employees.

Mysore City Improvement Trust Board.

46. During the year under review, Mr. T.G. Lakshmana Rao, Chairman of the Board and President of the Mysore City Municipal Council, was deputed for a short period to study drainage and other municipal questions in Bombay, Baroda, Poona and Ahmedabad.

MISCELLANEOUS DEPARTMENT.**Muzrai.**

47. A hundred and one buildings connected with the Muzrai institutions were repaired during the year at a cost of Rs. 59,979, of which Rs. 41,979 came from the surplus funds of the institutions concerned and contributions from the devotees interested, the balance of Rs. 9,000 being contributed by the State. A sum of Rs. 23,600 was invested during the year by private individuals at the favourable rate of 4 per cent. allowed for such deposits, bringing the total amount of the deposits to Rs. 2,73,260.

Government Press.

48. The receipts from the sale of the Government Gazette during the year amounted to Rs. 2,839 against Rs. 2,457, with 831 subscribers against 644 in the previous year. The expenditure on the establishment of the Branch Press was Rs. 6,949 as against Rs. 4,827 during the previous year.

Stationery.

49. The total cost of the stationery issued during the year including paper and binding materials used in the Press, amounted to Rs. 1,33,177 against Rs. 1,12,603 during the previous year.

Government Gardens.

50. In addition to the regular summer and winter Flower Shows in the Lal-Bagh, a special Mango Show was held under the auspices of the Horticultural Society. The work in the extension of the Cubbon Park was pushed forward and the garden surrounding the Sheshadri Memorial Hall completed before the Viceroyal visit. His Excellency the Viceroy unveiled the statue of Sir Sheshadri Iyer erected in this part of the garden. The laying out of the various Mysore Palace Gardens was vigorously pursued and considerable improvements to the public squares and roads in the Mysore city were designed and carried out with the assistance of the Improvement Trust Board.

A survey of the existing fruit cultivation in the State has been started including the cultivation of coconuts, and experiments are being conducted with a view to improve the outturn and quality of the crop and to increase copra manufacture.

Many plants of economic value including several species of oil palms, ivory palms, West Indian sandalwood, Australian Eucalyptus and East African timber trees were introduced during the year; and plants introduced in former years continued to receive attention.

Archæology.

51. A resurvey of parts of the Malur and Chikballapur taluks resulted in the discovery of nearly 200 new records. A few temples of archæological interest were inspected and photographed. The number of new records copied during the year was 248. Among the discoveries of the year, three copper plate inscriptions unearthed while sinking a well at Nandi, and another found in the possession of a Mahomedan woman at Chikballapur, are of considerable historic interest.

Ethnographic Survey.

52. Accounts of four castes of people, namely, Telugu Banajigas, Ganigas, Kunchigas and Devangas, were issued during the year, the total number of such issues up-to-date being 34. About a dozen more accounts are in various stages of progress.

Meteorology.

53. The Observatories at Bangalore, Mysore, Hassan and Chitaldrug maintained correct records of observations. The number of rain gauge stations in the State on the 30th June 1914 was 223, and of these, 181 or 81 per cent. were inspected during the official year as against 83 per cent. in the year previous.

Government Museum.

54. During the year, there were additions in all sections, both by purchase and presentation. These included a very valuable and interesting collection of mammals received from the Bombay Natural History Society, being part of the specimens obtained by the Survey of Indian mammals. A descriptive catalogue of the collections is being compiled.

The Art Sale Room that had been opened in the Museum in 1893 was abolished during the year and the articles were transferred to the newly opened Mysore Arts and Crafts Institute Sales Depot.

The Museum was visited by 477,309 persons.

M. VISVESVARAYA,
Dewan of Mysore

The Mysore State.

The Province of Mysore has a history of its own which it is not necessary to refer to here. Suffice it to say that it was from the fall of Seringapatam in 1799 that the modern history of Mysore may be said to have begun. It was then ruled by Maharaja Murumadi Krishnaraja Wadiyar Bahadur under the suzerainty of the British. In 1831 the Province was placed under a British Commission acting on behalf of the Maharaja. In due time the British Government transferred its responsibilities to Sri Chamarajendra Wadiyar, the adopted son of Sri Krishnaraja Wadiyar. This event took place in 1881 and is known as the Rendition. His Highness Sri Chamarajendra Wadiyar Bahadur, C.S.I., died in 1894, to the universal regret of the people of India. The good work begun in the State by her illustrious Consort was carried forward, during the minority of their son, by Her Highness Maharani Vanivilas Sannidhanah, C. I., as Regent, and the present Maharaja, Sri Krishnaraja Wadiyar was invested with the reins of administration in August 1902. That which is known in British History as the Subsidiary System by which a British Force garrisoned the country of a Native Prince and protected him from his enemies and internal disorder, was introduced into Mysore in 1799, on the fall of Seringapatam. At first this Force was stationed at Seringapatam, but in 1809 it was removed to Bangalore. There were also Forces at Harihar and French Rocks but these places were abandoned in 1865 and 1881, respectively. The Forces at Bangalore in 1881 were,—A Battery of Royal Horse Artillery and two Field Batteries of Royal Artillery, a Regiment of European Cavalry, a Regiment of European Infantry, four Companies of Sappers and Miners, a Regiment of Native Cavalry, and three Regiments of Native Infantry. The average cost of maintenance was Rs. 18,75,000. There are but two incidents of interest connected with this Force, and those are that in 1809 there was a meeting of British Officers, and in 1857 the 1st Madras Fusiliers from Bangalore saved Allahabad, avenged Cawnpore under the gallant Neill, and were known afterwards as "Neill's Blue Caps." With reference to the Mysore Contingent in 1873; steps were taken for further improving the efficiency of the Cavalry. The number was reduced to 1,000 men, formed in into three Regiments. They were supplied with saddles of English pattern and equipped with an improved style of sabre. The strength of an Infantry in the year of the Rendition was 1831, including 67 Commissioned and 213 Non-Commissioned Officers. Their duties were confined to guarding the District and Taluk Jails, Treasuries, &c. The Mysore State Troops, are now under the command of Lieut.-Colonel, J. Desraj Urs, M.V.O., C.I.E., and are in a high state of great efficiency. They compare favourably with any British Regiment.

Mysore.

Although the Capital of the State, Mysore is dull and monotonous throughout the year when compared with Bangalore. The population chiefly consists of Indians, there being only a sprinkling of Europeans and Anglo-Indians. The best time of the year to visit Mysore is in June, when H. H. the Maharaja's Birthday is observed with a round of gaieties, and at the Dassara (the National Festival) in October. Mysore is then at its best and a large contingent of European guests is invited on both these occasions by His Highness the Maharaja. Living is much cheaper

in Mysore than in Bangalore, but difficulty is experienced in securing house accommodation. Of Government gardens proper, there are quite a number in Mysore City. Of great import are the public gardens, i.e., the Curzon Park, the Gordon Park and the Daria Dowlat Garden at Seringapatam. The new Palace, which is one of the sights of the Capital, being without a garden and the lateral road of the Curzon Park forming the natural approach to the Palace, this garden will, in the near future have to be considerably altered and extended so as to partly form the Palace Garden.

The places of interest in Mysore are the Zoological Gardens and the Chamundi Hill. Hack conveyances are accessible, but difficulty is experienced in obtaining refreshments for Europeans. Mysore is famous for its Indian sweets especially a cake called Mysore *Palk*.

Topographical and Physical Features

Mysore lies between $11^{\circ} 38'$ and $15^{\circ} 2'$ North Latitude and between $74^{\circ} 42'$ and $78^{\circ} 36'$ East Longitude. It occupies just the apex of the triangle which is known as the Plateau of the Deccan. Mysore itself is a somewhat irregular quadrilateral resting upon the shoulders of the Eastern and the Western Ghats where they make their junction in the cluster of hills round about the Nilgiris. Raised from two to three thousand feet above the sea it has a salubrious climate and falls into two divisions with distinctive physical features. The one is the Malnad (hill country) extending between the Western Ghats and a line drawn from Shikarpur to Periyapatna and onward even to Biligirirangan Hills; there is the *maidan* (plains) all East of it up to the Madras frontier. The quadrilateral measures 290 miles East to West and 230 miles North to South, occupying an area of 29,445 sq. miles, of which an area of 13 sq. miles has been assigned to form the Civil and Military Station of Bangalore known as the Assigned Tract, which is directly under the British Administration. The population of the State, excluding that of the Civil and Military Station, has been shown as 5,449,800 (2,751,902 males and 2,697,898 females), averaging 156 per square mile. More than 5 millions or 92.68 per cent. of the total are Hindus; Mahomedans numbering 2,081,31 or 4.92 per cent. and Christians 32,933 or 60 per cent. So many as 86,629 are returned as "animistic"; and the Jains number 13,682. Of the total population only 2 per cent. are literate.

Mountains.—The Nilgiris and the Eastern and Western Ghats and broken chains of hills with wide or narrow valleys. One of these is, in the East, a belt from 10 to 20 miles running between the meridians of 77° and $77^{\circ} 30'$ from the South-east corner of the Mysore District due North through the Western taluks of Bangalore and the Eastern taluks of Tumkur on to the frontier of the principality. On the West, another range extends about 10 miles in width, along the meridian of $75^{\circ} 30'$ from Ballalarayandroog in the South west of Chikmagalur north to Shikarpur. Between these two principal ranges there are minor ones: the range to the near East of the Western chain above described, extending from the lofty Bababudan Hills, North through the taluks of Kadur and Tarikere and the Eastern tracts of the Shimoga District up to the banks of the Tungabhadra which bounds the country in this part; another to the East again of

his range almost parallel with it and between the meridians $76^{\circ} 30'$ and 77° beginning in the extreme South and running up North and North-west through the districts of Mysore, Tumkur and Chitaldroog. The other small ranges are in the Eastern District of Kolar; one from the North Cuddapah country entering the district in the North-East corner and running down South with many breaks and joining the Eastern Ghats; another in the North-West of the same district running North and joining the Cuddapah ranges. The mountain systems thus may be divided into three; the Western, the Central and the Eastern. The highest peaks are in the West, Mullaingiri being 8,317 feet; in nearly the same parallel of Latitude is the highest elevation of the central system, Sakunagiri (4,653 feet); and the highest peaks of the Eastern system, Devarayadroog (3,940 feet), Nundydroog (4,851) feet and Ramanagar (4,227 feet.)

Rivers.—The Tungabhadra and the Vedavati in the north; in the South, the Cauvery with its tributaries, the Hemavati, Lokapavani, Shimsha, and Arkavati on its left bank and the Kabbani and Honnuhole on the right bank, and in the East, the North and South Pennar and the Palar. The Tungabhadra is formed of two streams, both rising near each other in the mountains of the Western Ghats in the Kadur District: their course is mainly North-East till they join, thence the river takes a North-Western course, runs a short distance along the North-West boundary of Mysore and enters the Bellary District to join the Krishna finally in British territory. The river Vedavati is also called Hagri: it is also, like the Tungabhadra, formed of two streams, the Veda and Avati, both rising near each other in the Bababudan Hills; they run North-East, join at Kadur and take the name of Vedavati; it keeps the same North-East course, cuts through the central range of hills at a place called Marikanave, and in a Northern direction passes through the Eastern part of the Chitaldrug District and joins the Tungabhadra in the British District of Bellary. Both these rivers form part of the Krishna river system. The river Cauvery rises in the Western Ghats in the Coorg country, runs a short distance due North along the boundary line separating Coorg from the Hassan District and enters Mysore territory; its course for the first few miles is North and then South-East, through the districts of Hassan and Mysore, and in its passage through the Eastern Ghats it is precipitated over a fall of 300 feet at Sivasamudram; the Falls are much admired. The eastern rivers are the two Pennars and the Palar, all three rising in the Nundydroog Hills; the Palar takes a South-East course, and of the Pennars, one flows North and the other flows South. A very small river, the Sharavati, is in the North-West; it rises in the Western Ghats on the Mysore side, and after a course of 50 miles through very rugged country breaks through the Ghats and discharges itself on the West Coast. Its descent is an unbroken fall of 832 feet forming the Gersoppa Falls, one of the most magnificent cataracts in the world.

Climate and Rainfall.—The temperature ranges in the shade from 69° to 87° and in the cold season from 59° to 77° . The South-West monsoon is the beginning of the rainy season, which starts in June, continuing with intervals in August and September to the end of November when the North-East monsoon sends across occasional heavy showers. The cold season is almost entirely free from rain and lasts till February. The hot season begins in March and continues till the middle of May. In April there are the mango showers or early rains.

The situation of the Province between the Eastern and Western Ghats ensures the seasonal advantages of both the monsoons. The average annual rainfall on the top of the Agumbe Ghant which leads into the South Canara District on the West Coast is about 356 inches, that of Hiriur and Challakere, the most arid tracts of the Province, is less than 18 inches, owing to their position relatively to the towering mass of the Bababudan Hills, heights varying from 4,385 feet (Hebbe Betta) to 6,817 (Mullalingiri) standing across the path of the South-West Monsoon.

District Mean Rainfall.

Average for the past 40 years, 1870—1909.

District.	N.E. Monsoon Oct.—Mar.	S.W. Monsoon Apr.—Sep.	Year Oct.—Sep.
Bangalore	9.14	21.58	30.72
Kolar	9.41	18.65	28.06
Tumkur	8.06	18.14	26.20
Mysore	9.49	18.31	27.80
Hassan	9.86	28.39	38.25
Shimoga	7.58	59.12	66.70
Kadur	10.04	63.06	73.12
Chitaldrug	6.24	14.94	21.18
Whole Province	8.74	28.25	36.99

DISTRICT MEAN YEARLY RAINFALL. 1870—1909.

District.	Year (January—December)
Bangalore	30.72
Kolar	27.95
Tumkur	26.15
Mysore	27.78
Hassan	38.21
Shimoga	66.88
Kadur	78.05
Chitaldrug	21.16
Province.	36.95

3. **Soil.**—The soil is productive. The valleys are cultivated with rice and sugarcane, mostly. There are several kinds of soil divided by the cultivators according to their products:—Yara, black cotton; Kara the same but stony; Kangalu, Kempu, red soil; Maralu, sandy soil; Kallu gravelly soil; Beta, Carlu white stiff loam; Maska, garden soil; Soulu, sand soil.

Products.—The chief productions are Ragi; great millet; same little millet; sajje spiked millet; togari, pigeon pea; kadale, Bengal gram; avare, cow gram; hurli, horse gram; uldu, black gram; hessaru, green gram; godhi, wheat; oil seeds; tobacco; rice; sugarcane; areca-nut; Coconut; Coffee.

Population.—The Census taken in the years 1871, 1881, 1891, 1901, and 1911, respectively, returns the total population under males and females, as follows, for the entire State, including the Assigned Tract of the Civil and Military Station, Bangalore:—

Census year.	Population.		
	Males.	Females.	Total.
1871	2,535,924	2,519,478	5,055,402
1881	2,085,842	2,100,346	4,186,188
1891	2,483,451	2,460,153	4,943,604
1901	2,797,024	2,742,375	5,539,399
1911	2,934,621	2,871,572	5,806,193

• The percentage of net increase during the 40 years, 1871–1911, is 14.9 for the whole State. The mean density of population per square mile has steadily increased from 142 in 1881 to 197 in 1911.

Results of the several Censuses.

Year of Census.	Population.	Increase + or decrease— per cent.
1871	5,055,402	
1881	4,186,188	+ 17.2
1891	4,943,604	+ 18.1
1901	5,539,399	+ 12.1
1911	5,806,193	+ 4.8

For the Assigned Tract only, the population by the Census of 1911 was 51,752 males, 49,082 females, total 100,834.

Taking the area of the country at 29,474.82 square miles (inclusive of the area comprised in the Civil and Military Station) the density per square mile in the five years would be nearly as follows:—

	1871.	1881.	1891.	1901.	1911.
Density per square mile	172	142	168	188	197

The heavy fall in the year 1881 was due to the famine of 1877–79 which reduced the population by a fifth.

Taking the rural population only, the rural area being 29,398 square miles, the density would be:—

	1871.	1881.	1891.	1901.	1911.
Density per square mile	174	135	159	172	187

As already stated the country naturally divides itself into two divisions, the *Maiden* or plain country and *Malmad* or hill country. The Eastern Districts of

POPULATION.

Bangalore, Kolar, Tumkur, Chitaldrug and Mysore are all *Maidan*, and the Western Districts of Hassan, Kadur and Shimoga, with the exception of a few Taluks bordering on the Eastern Districts just named, are *Malnad*. The following statement shows the population for these for the past two decades :—

Country.		1901.	1911.
Maidan	...	3,989,875	4,369,986
Malnad	...	1,459,925	1,436,373
Total	...	5,449,800	5,705,359

The population by Districts of the Census of 1911 was as follows :—

Name of District.	Persons.	Males.	Females.
1	2	3	4
MYSORE STATE, INCLUDING CIVIL AND MILITARY STATION, BANGALORE	5,806,193	2,934,621	2,871,572

THE MYSORE TREATY, 1913.

Religion.—The majority of the population are Hindus, 5,340,908. The remainder, in the order of numerical strength are Mussalmans, 314,494; Animists, 72,196; Christians, 59,844; Jains, 17,630; Budhists, 622; Sikhs, 293; Parsis, 101; Brahmo, 65; and Jews, 40.

Castes.—The chief castes are :—Vakkaligas, 1,331,029; Lingayets, 729,431; Holayyas, 613,248; Kurubas, 403,366; Madigas, 308,083; Bedas, 268,454; Brahmmins, 194,570; Besthas, 156,863; Gollas, 150,842; Vaddas, 142,482; Banajigas, 132,955; Panchalas, 128,098; Upparas, 108,131; Agasas, 97,772; Neygis, 96,466; Thiglas, 69,233. The Mussalmans are :—Sheikhs, 176,482; Syeds, 57,671; Pathans, 44,689. The Europeans and Anglo-Indians in the Civil and Military Station of Bangalore, Bangalore City, Kolar Gold Field, Bangalore District, Mysore City and Kadur and Hassan Districts are as follow by the Census of 1911.—Europeans, Males, 4,901; Females 2,561; Total, 7,462. Anglo-Indians: Males, 2,673; Females, 3,154; Total 5,827.

THE MYSORE TREATY, 1913.

Notification.

No G. 4706—G. M. 223-13-1, dated 20th December, 1913.

• (The Treaty was executed between the Hon'ble Lieutenant—Colonel Sir Hugh Daly, K.C.I.E., C.S.I.I.A. Chief Commissioner of Mysore and Coorg, for the British Government (in virtue of full powers vested in him by the Governor-General in Council) and His Highness the Maharajah Sri Krishnaraja Wadiyar, G.C.S.I., on the 26th November 1913 and was ratified by His Excellency the Viceroy and Governor-General Lord Hardinge on the 1st December 1913.)

Treaty between the BRITISH GOVERNMENT and HIS HIGHNESS MAHARAJAH SRI KRISHNARAJA WADIYAR BAHADUR, the IV., G.C.S.I., MAHARAJAH OF MYSORE, and his successors, executed on the one part by the HONOURABLE LIEUTENANT-COLONEL SIR HUGH DALY, K.C.I.E., C.S.I., in virtue of the full powers vested in him by the GOVERNOR-GENERAL OF INDIA IN COUNCIL, and on the other part by His HIGHNESS MAHARAJAH SRI KRISHNARAJA WADIYAR BAHADUR aforesaid in person, 1913.

WHEREAS the Rulers of the territories of Mysore have, since the restoration to them of the said territories in 1881, evinced their zeal and attachment to the Crown, and whereas the administration of the Mysore State has been conducted during the past thirty-two years to the satisfaction of the British Government, and whereas, in order to mark the high esteem in which His Highness the Maharajah is held by the British Government, the Governor-General of India in Council is desirous of making certain changes in the conditions laid down at the time of such restoration, the following Articles are hereby agreed upon :—

ARTICLE 1.

The Maharajah Sri Krishnaraja Wadiyar Bahadur and those who succeed him in manner hereinafter provided shall be entitled to hold possession of, and administer, the said territories perpetually, subject to the conditions hereinafter prescribed.

THE MYSORE TREATY, 1913.

ARTICLE 2.

The succession to the administration of the said territories shall devolve upon the lineal descendants of the said Maharajah Sri Krishnaraja Wadiyar Bahadur, whether by blood or adoption, according to the rules and usages of his family, except in case of disqualification through manifest unfitness to rule :

Provided that no succession shall be valid until it has been recognised by the Governor-General in Council.

In the event of a failure of lineal descendants, by blood and adoption, of the said Maharajah Sri Krishnaraja Wadiyar Bahadur, it shall be within the discretion of the Governor-General in Council to select as a successor any member of any collateral branch of the family whom he thinks fit

ARTICLE 3.

The Maharajah Sri Krishnaraja Wadiyar Bahadur and his successors (hereinafter called the Maharajah of Mysore) shall at all times remain faithful in allegiance and subordination to His Imperial Majesty the King Emperor of India; His Heirs, and Successors, and perform all the duties which in virtue of such allegiance and subordination may be demanded of them.

ARTICLE 4.

The British Government having undertaken to defend and protect the said territories against all external enemies, and to relieve the Maharajah of Mysore of the obligation to keep troops ready to serve with the British Army when required, there shall, in consideration of such undertaking, continue to be paid from the revenues of the said territories to the British Government an annual sum of Government Rupees thirty-five lakhs in two half-yearly instalments.

ARTICLE 5.

The British sovereignty in the island of Seringatam having ceased and determined, the said island shall continue part of the said territories and be held by the Maharajah upon the same conditions as those subject to which he holds the rest of the said territories.

ARTICLE 6.

The Maharajah of Mysore shall not, without the previous assent of the Governor-General in Council, build any new fortresses or strongholds, or repair for military purposes the defences of any existing fortresses or strongholds in the said territory.

ARTICLE 7.

The Maharajah of Mysore shall not, without the permission of the Governor-General in Council, import, or permit to be imported, into the said territories arms, ammunition or military stores, and shall prohibit the manufacture of arms, ammunition and military stores throughout the said territories, or any specified place therein, whenever required by the Governor-General in Council to do so.

ARTICLE 8.

The Maharajah of Mysore shall not object to the maintenance or establishment of British cantonments in the said territories whenever and wherever

the Governor-General in Council may consider such cantonments necessary. He shall grant free of all charge such land as may be required for such cantonments, and shall renounce all jurisdiction within the lands so granted. He shall carry out in the lands adjoining British cantonments in the said territories such sanitary measures as the Governor-General in Council may declare to be necessary. He shall give every facility for the provision of supplies and articles required for the troops in such cantonments, and on goods imported or purchased for that purpose no duties or taxes of any kind shall be levied without the assent of the British Government.

ARTICLE 9.

The Military Force employed in the Mysore State for the maintenance of internal order and the Maharajah's personal dignity, and for any other purposes approved by the Governor-General in Council, shall not exceed the strength which the Governor-General in Council may, from time to time, fix. The directions of the Governor-General in Council in respect to the enlistment, organisation, equipment and drill of troops shall at all times be complied with.

ARTICLE 10.

The Maharaja of Mysore shall abstain from interference in the affairs of any other State or Power, and shall have no communication or correspondence with any other State or Power, or the Agents or Officers of any other State or Power, except with the previous sanction and through the medium of the Governor-General in Council.

ARTICLE 11.

The Maharajah of Mysore shall not employ in his service any person not a native of India without the previous assent of the Governor-General in Council, and shall, on being so required by the Governor-General in Council, dismiss from his service any person so employed.

ARTICLE 12.

The coins of the Government of India shall be a legal tender in the said territories in the cases in which payment made in such coins would, under the law for the time being in force, be a legal tender in British India; and all laws and rules for the time being applicable to coins current in British India shall apply to coins current in the said territories. The separate coinage of the Mysore State, which has long been discontinued, shall not be revived.

ARTICLE 13.

The Maharajah of Mysore shall grant free of all charge such land as may be required for the construction and working of lines of telegraph in the said territories wherever the Governor-General in Council may require such land, and shall do his utmost to facilitate the construction and working of such lines. All lines of telegraph in the said territories, whether constructed and maintained at the expense of the British Government, or out of the revenues of the said territories, shall form part of the British telegraph system and shall, save in cases to be specially expected, by agreement between the British Government and the Maharajah of Mysore, be worked by the British Telegraph Department; and all

THE MYSORE TREATY, 1913.

Laws and rules for the time being in force in British India in respect to telegraphs shall apply to such lines of telegraph when so worked.

ARTICLE 14.

If the British Government at any time desires to construct or work, by itself or otherwise, a railway in the said territories, the Maharajah of Mysore shall grant such lands as may be required for that purpose, and shall transfer to the Governor-General in Council plenary jurisdiction within such land; and no duty or tax whatever shall be levied on through traffic carried by such railway which may not break bulk in the said territories.

ARTICLE 15.

The Maharajah of Mysore shall cause to be arrested and surrendered to the proper officers of the British Government any person within the said territories accused having committed an offence in British India, for whose arrest and surrender a demand may be made by the British Resident in Mysore, or some other officer authorized by him in this behalf; and he shall afford every assistance for the trial of such persons by causing the attendance of witnesses required, and by such other means as may be necessary.

ARTICLE 16.

Plenary criminal jurisdiction over European British subjects in the said territories shall continue to be vested in the Governor-General in Council, and the Maharajah of Mysore shall exercise only such jurisdiction in respect to European British subjects as may from time to time be delegated to him by the Governor-General in Council.

ARTICLE 17.

The Maharajah of Mysore shall comply with the wishes of the Governor-General in Council in the matter of prohibiting or limiting the manufacture of salt and opium, and the cultivation of poppy, in Mysore; also in the matter of giving effect to all such regulations as may be considered proper in respect to the export and import of salt, opium and poppy-heads.

ARTICLE 18.

All laws and rules having the force of law, which existed at the time of the restoration of the said territories in 1881 and are shown in the schedule hereto annexed, shall, in so far as they are in force at the date of this Treaty, be maintained and efficiently administered, and, except with the previous consent of the Governor-General in Council, the Maharajah of Mysore shall not repeal or modify such laws, or pass any laws or rules inconsistent therewith.

ARTICLE 19.

No material change in the system of administration now in force shall be made without the consent of the Governor-General in Council.

ARTICLE 20.

All title-deeds granted and all settlements of land-revenue made during the administration of the said territories by the British Government, and in force at

THE MYSORE TREATY, 1913.

the time of the rendition of the said territories, shall be maintained in accordance with the respective terms thereof, except in so far as they may be rescinded or modified either by a competent Court of law, or with the consent of the Governor-General in Council.

ARTICLE 21.

While disclaiming any desire to interfere with the freedom of the Maharajah of Mysore in the internal administration of his State in matters not expressly provided for herein, the Governor-General in Council reserves to himself the power of exercising intervention, in case of necessity, by virtue of the general supremacy and paramount authority vested in him, and also the power of taking such precautionary or remedial action as circumstances may at any time appear to render necessary to provide adequately for the good government of the people of Mysore or for the security of British rights and interests within that State.

ARTICLE 22.

This Treaty shall supersede all other documents by which the position of the British Government with reference to the said territories has been formally recorded. And if any question arise as to whether any of the above conditions has been faithfully performed, or as to whether any person is entitled to succeed, or is fit to succeed, to the administration of the said territories, the decision thereof of the Governor-General in Council shall be final.

Signed, sealed and exchanged at Mysore on the twenty-sixth day of November in the year one thousand nine hundred and thirteen of the Christian Era.

(Signed).

This Treaty was ratified by His Excellency the Viceroy and Governor-General of India at Bankipore on the first day of December 1913.

SCHEDULE.

66

Number and year.	Title or short title.	Enactment, if any, by which Act repealed in part or amended.	Local extent and personal application, if any, prescribed.	Modifications.
V of 1866	... To provide a summary procedure on Bills of Exchange, and to amend in certain respects the Commercial Law of British India.	Repealed in part by Act IX of 1872 and by Act X of 1877 as amended by Act XII of 1879, Section 99.	Extends to the whole Province.	
X of 1866	... The Indian Companies Act, 1866	Repealed in part by Act I of 1879.	Do	
XXI of 1866	... The Native Converts' Marriage Dissolution Act, 1866.	Repealed in part by Act VII of 1870.	Do	
III of 1867	... To provide for the punishment of public gambling and the keeping of common-gaming houses.	...	Extends only to the town of Bangalore.	
PART I—(contd.)				
GENERAL ACTS.				
XXV of 1867	... For the regulation of printing presses and newspapers, for the preservation of copies of books printed in British India and for the Registration of such books.	...	Extends to the whole Province.

BANGALORE.

Bangalore is the capital town of the Bangalore District of the Mysore Province. It is situated in 12° 57' N. Lat. and 77° 35' E. Long. and is at a distance of 216½ miles by rail to the West of Madras. The area is 21½ miles. Bangalore consists of the city or Pettah i.e., the Old Native Town of Bangalore and the Cantonment of the Civil and Military Station. It is the seat of Government for the Province of Mysore and under the Army Reorganization Scheme is the 9th Secunderabad Division. The Residency stands at the head of Cubbon Road on a commanding site, the Mysore Public Offices face the Cubbon Park and near by is the General Post Office. Other places of interest are the Race Course, the Golf Links, the Central College, the Volunteer Armoury, St. Andrew's the Kirk the Baird Barracks, the Artillery and Cavalry Barracks with Ulsoor on the northside. On the southside are St. Mark's Church, the Bowring Institute, the Mayo Hall and Public Offices, South Parade, St. Patrick's Roman Catholic Cathedral, the Bowring Civil and Lady Curzon Hospital, Holy Trinity Church, St. Joseph's College, Bishop Cotton Schools, Baldwin Schools and St. John's Hill, the Cantonment Railway Station. The Race course, and the Parade Ground, in the centre of the station surrounded by the Rotten Row are characteristic features of the place. The palace of His Highness the Maharajah stands most prominent on high ground. In the city the Victoria Hospital, the Ophthalmic Hospital, the Lal Bagh and the new Mysore Bank with the Tata Research Institute in the Cantonment are places of first note.

Bangalore should at once commend itself to the tourist and make itself exceptionally attractive for visitors with its favored site on the Mysore Plateau at an elevation of about 3,100 feet above the sea level, with its well kept streets and drives, its gardens and villas, its piazzas and parks. May, in India, is the month of the most oppressive heat, which makes travelling anything but a pastime; but those who have to bear the fatigues of the journey will find themselves rewarded by breathing the mild, equable air of the plateau, where, without needing the winter outfit which one must carry to a hill station, they could sleep soundly during the markedly cool nights, and return with renewed vigour to their less favored homes in the plains. The Bangalore District, is generally termed sub-tropical as compared with the tropical climate of Madras and the distinctly temperate or Alpine condition of Ootacamund. In Mysore, these tropical and temperate or Alpine conditions are represented in the planting districts and hilly ranges respectively. It is only natural that horticulture should make great strides in Mysore. Of this there is ample proof not only in the public gardens maintained by the State but also in the horticultural activity displayed by the public. In the districts much attention is given to horticulture along with the coffee and rubber planting industry. In Bangalore there are a large number of market gardens which supply the market with a rich assortment of both English and Indian vegetables throughout the year. Indian fruits are all grown, but Bangalore is especially famous for its fine mangos, guavas, and the Coorg oranges. Quite an assortment of English fruit is grown in the vicinity of Bangalore, apples being the most successful. Ornamental foliage, plants and flowers may be seen with several local nurserymen in collections which, both for number and rarity of kinds, are second to none in India.

Sight-seeing in Bangalore cannot be accomplished in a day, as the places of interest are situated at a distance from each other. But hack carriages, bicycles, motorcars and even the time-honored julkas are always available.

First-class Hotels, Boarding-houses and European and Indian Restaurants are to be found in the principal centres and these are known to all licensed hack drivers. The policeman on duty is also ever ready to furnish any information required, and the generality of these "guardians of the peace," speak in English and Hindustani.

The Extensions.

The Extensions exist in both the City and the Civil and Military Station. The City Extensions are (1) Chamrajpet, (2) Basavangudi, (3) Malleswaram. The Civil and Military Station Extensions are (1) Fraser Town and (2) Richards Town.

The C and M Station Extensions were decided on when the plague broke out in Bangalore in the year 1908. Building sites in these areas, which were fields, were allotted to enable the people from the congested parts to build small houses, gradually, after occupying, at first, small sheds erected for mere shelter and temporary abodes. The class of people that flocked in numbers to them, gradually took in the well to do inhabitants of the unhealthy parts of the Cantonment, particularly Blackpully, situated to the West of General Bazaar, a hot-bed of plague. The bubonic plague prevailed in a virulent form in this locality and it was decided to spend a considerable amount in relieving the congestion by extensions to which the people should remove bodily. A beginning was made in the opening up of Fraser Town to the north of Cleveland Town. The extensions cover 731 acres and contain houses built on model hygienic methods with conservancy conveniences and perfect drainage.

Fraser Town.

Sir Donald Robertson was the Resident when the scheme was first conceived to relieve the congestion of hovels and unhealthy quarters of the Cantonment by acquiring and demolishing the houses, improving the drainage and opening out spaces on the lines of small parks or squares, the widening of by lanes and reconstruction of houses on improved methods. The first exodus of surplus population took place to Fraser Town, called after the penultimate Resident of the C and M Station. The total cost of the scheme was estimated at Rs. 17 lakhs and a beginning was made in August 1906 with an initial sum of Rs. one lakh sanctioned by the Government of India. This Extension is known to the Natives as Papareddipalya from an adjoining place bearing this name. Originally and primarily intended only for the poorer classes, Fraser Town, now, has many well-to-do inhabitants who acquiring several small plots have erected better buildings which have attracted some European tenants. The streets are wide and lighted with electricity. Cole's Road leads into Fraser Town on the south and Tannery Road on the West.

Richards Town.

This Extension called after Mr. F. J. Richards, I.C.S., the late District Magistrate and Collector of the C and M Station, who took a very lively interest in inaugurating the Town, is a continuation of Fraser Town and goes on from the

North of the Railway line which is spanned by an overbridge. It is situated on higher ground than Fraser Town and consists of gently sloping ground which is a contrast to Fraser Town, which has a swifter dip. The Extension drains on four sides and is thus more convenient than Fraser Town which slopes only towards the East. Richards Town has a Park that is marked out as the site around which the Tramway junction lines would traverse the place, coming up from Tannery Road. The sites for houses are being taken up rapidly and many fine buildings have already been erected. A large Lecture Hall and Church combined is in course of erection. This extension also has water laid on, with electric lighting and wide roads. The removal is contemplated of the existing slaughter house and the brick-kilns, whose sites have been purchased by the Municipality. The Imperial Tobacco Company is situated towards the West of the Extension.

Chamarajpet Extension.

Taking the Fort as a stand point the Chamarajpet Extension is the Western Extension. It derives its name from the then Sovereign His Highness the Maharajah Chamarajendra Wodeyar Bahadur, the father of His Highness the present Maharajah. The Extension is conveniently divided into five streets running parallel to each other, into which open several cross roads. The inhabitants have built houses suitable to their position as Government officials, many of these being commodious and substantial structures. The conveniences exist of Schools, a Dispensary, Post Office and Police Station. A Ramaseewara temple has been erected by the wealthy members of the Brahmin community living in the place.

Basavangudi Extension.

This is situated to the South of the Fort. The four main roads, each 100 feet wide, are so constructed as to lead into the Extension from the important places in Bangalore City. The Extension is laid out in a rectangular form, its boundaries on the North, South, East and West forming the four sides of the Extension, with the streets and lanes running parallel to these boundaries. This plan gives the houses constructed in the streets an auspicious cardinal point in agreement with the astrological Hindu usage. Villa residences are provided for on 25 sites which surround a square plot of ground reserved for the location of Government Offices and other large public buildings. The Basavangudi or Bull Temple and the Anjuneya Temple are allowed for the acreage around these sacred edifices, 9 acres and 6 acres, respectively. In addition to the intersecting, intermediate roads there are four diagonal ones, 100 feet wide each, which connect the corners in the outer or boundary roads. By placing the bazaars along these diagonal roads the location of traffic and the convenience of the inhabitants are nicely served. The principal Divisions are arranged according to the castes, viz., Brahmins, Mahomedans, Hindus, Lingayets and Native Christians. The Bull Temple is a favorite resort, as its grounds lend themselves to little excursions and picnics. The place is healthy and enjoys an extended and ample view of Bangalore City. The Police Station is on a height and the residences are those of some well-to-do Mysore Government officials, especially in the Northern part,

Malleswaram Extension.

This Extension lies between the Maharajah's Cotton Mills on the North and it is on both sides of the Tumkur Road, its boundary and extent being marked by Ranganathpur and its Western limit being the line of the M. & S. M. Railway. The same points for the laying out of the roads are observed here, as elsewhere, in the other Extensions, so that astrological auspicious cardinal points of the compass may be secured for the houses erected on them by the position of the longitudinal lines running parallel to the meridian, by which it is sought to guide the position of the structures in all the cross-roads which are made to point due East and West. The Avenue Roads are a characteristic feature of the place being ten in number, running due North and South, while the East and West roads, seventeen in number intersect the Avenue Roads at right angles. The boundary road on the West is 50 feet wide and lies between the Extension and the Railway line. In this Extension the divisions for the various castes are laid out by partitions into eight blocks.

Chennapatna.

Is a town situated 37 miles South-West of Bangalore, on the Bangalore-Seringapatam Road. It is celebrated for the manufacture of lacquered ware and toys, also of fine steel wires for strings of musical instruments, and of glass bracelets. North of the *Péit* are two large Mahomedan tombs, one erected in memory of Akil Shah Kadri, the religious preceptor of Tipu, and the other in honour of Sayyid Ibrahim, a Commandant of Bangalore, distinguished for his humanity to the English prisoners taken by Tipu.

Closetpet.

A Sub-Division of the Bangalore District. The town is 30 miles South-West of Bangalore on the Bangalore-Seringapatam Road. The Mahomedans here are largely engaged in the rearing of silkworms. This industry was brought nearly to a stand by the disease which, for some years, destroyed the insects; those engaged in it emigrating in large numbers to the coffee districts. But the industry has now revived.

Whitefield.

The principal of the Eurasian and Anglo-Indian Settlements in the East of the Bangalore taluq; named after Mr. D. S. White, the founder of the original Association in Madras. It is two miles south of the Railway Station of the same name (formerly called Kadgodli Station) and 13 miles East of Bangalore.

Bowringpet.

A new town, situated at the former Kolar Road, now Bowringpet Station of the Bangalore Branch Railway, to which it owes its origin. It is the junction of the Kolar Gold Fields Railway; the Madras Branch Railway from Bangalore to Jolarpet enters the taluq in the West and turns south at Bowringpet. There are stations at Bowringpet and Kamasandram in the former and at four places—Balaghat, Urigam, Champion Reef, and Mysore Mine—in the latter. From Bowringpet there are roads north to Kolar, east to Betamangala, South-West to Budikote, and a loop road East, South and West through the gold mines to Kamasandram. There is also a road from Betamangala to Kolar.

Chik-Ballapur.

The London Mission have made a principal out-station here. There is an iron foundry under native management and the silk industry is largely pursued.

Kolar Gold Fields.

These are in the south of the Bowringpet taluq. They are connected by the Gold Fields Railway with the Bangalore-Madras line at Bowringpet. Upwards of 38½ square miles have been leased for gold-mining in the District, and the following Companies are at work:—Balaghat, Champion Reef, Mysore, Nundydroos and Urigam (Ooregum). The original Kolar Concessionaires' Company has gone into liquidation and the blocks held by it are either owned by the Companies above mentioned or sub-leased to the Gold Fields of the Mysore Company. Mysore Urigam, Nundydroog and Champion Reef are the only mines where operations have, so far, been attended with satisfactory results.

Nandydroog.

A famous fortified hill in the Chick-Ballapur taluq 31 miles north of Bangalore, at the termination of a range of mountains, of which it is the highest point. There is an extensive plateau at the top, sloping to the West, in the centre of which is a large hollow, containing a wood and a well constructed tank, called the *Amritasarovara* or Lake-of-nectar, fed by perennial springs. The four sides are built round with stone steps, which diminish as they descend, until they meet in a point at the bottom, where there is a small shrine. A precipitous cliff at the South-West angle of the hill is pointed out as Tipu's Drop, being the place over which prisoners are said to have been hurled by the orders of that Ruler. Haider's Drop is on a small hill to the North, near the village of Nandi. Beneath the cliff over which prisoners were thrown is a cave in which many Europeans were confined. The salubrity of the spot led to its becoming a resort in the hot season for European officials from Bangalore. The temperature, especially at night, is, on the average, ten degrees cooler than that of the plain, 1,800 feet below. On the first heavy fall of rain following upon a long period of dry weather, myriads of lights are seen at night along the valley of the Northern Pennar, and towards the North, resembling the lamps in the streets of a great city—a phenomenon which has not been satisfactorily explained. In the large cave on the South, almost inaccessible, black tourmaline is found in considerable quantities. The forest surrounding the mountain, as well as that on the neighbouring hills, is reserved by the State. It contains an occasional cheeta or panther, and numbers of wild pigs; also pea-fowl and jungle-fowl.

Tumkur.

A district in the centre and North-East situated between 10° 15' and 14° 18' North Latitude, and between 76° 30' and 77° 25' East Longitude. Its extreme length is from North to South 96 miles, and its great breadth from East to West 69 miles. The District, generally, enjoys the reputation of having an even, pleasant and healthy climate, agreeing alike with Natives and Europeans.

Kunigal.

Three streams rising in Sivaganga whose names are Nahini, Nagini and Camala, are said to unite their waters here. The tank is estimated to be fourteen miles round when full. The Stud Farm for the breeding of horses for the Mysore Silahdars, formerly at Closepet, has been long established here.

Gangam.

A village at the East end of the island of Seringapatam, being a suburb of the City. It contains a number of well-to-do merchants, and country cloths are made here.

Gundlupet.

This rising town is the chief town of the taluq, although often depopulated by fever. Considerable transit passes through it to the Nilgiris by the Secur and Gudalur Ghats, and the Wynad and Malabar.

Heggadadevankote.

Is the chief town of the taluq. It is situated in a wild forest tract, 36 miles South-west of Mysore, on the Sargur-Hunsur Road. A large proportion of the taluq is covered with forest, especially in the West and South. The State teak forests of Kakankote, Begur and Ainur Marigudi, with other forests, occupy an extent of 130 square miles. In the first are situated the principal elephant Keddahs.

Hunsur.

A town situated on the right bank of the Lakshmantirtha, 38 miles West of Mysore. The trunk road from Seringapatam here branches off to Mercara and to Cannanore. The importance of the place is due to its being the headquarters of the Amrit Mahal cattle-breeding establishment. Besides this a tannery, a cumblly manufactory and timber yard were, until 1864, maintained by the Madras Commissariat. Boots, knapsacks, and pouches are still manufactured to a large extent by an enterprising native, who, in consideration of his having bought up the Government stock in hand, was permitted to use the tannery and adjoining premises free of rent. Cumblies of a better quality than are to be found elsewhere in the District are also produced, although these latter have been to some extent thrust out of the market by the importation of cheap English blankets. The wool of which they are made is obtained from a strain of the merino sheep, which the Government formerly maintained here. On account of the large manufacture of country carts to which the brisk traffic through Hunsur between Mysore, Mercara and Cannanore has given rise, the town has received from the natives the cant name of Gadipalya. Extensive, coffee-pulping works have been erected, where the berry received from the estates in Coorg is prepared for shipment to England.

Melukote.

A celebrated sacred town in the Seringapatam taluq. It is the chief seat of the Sri Vaishnava sect of Brahmmins. Cloths of good quality are made here, and ornamental punkahs or fans of the fragrant roots of the Kuskus grass. There are many different kinds of rock on the hill. A strata of schistose mica which has

decayed into a fine white clay is considered sacred. It is said to have been discovered by Emberuman or Ramanuja and is used by the Sri Vishnava Brahmmins for making the *nama* or sectarian marks on their foreheads. It is in such demand for this purpose, on account of its purity, that it is transported to distant places, even as far as Benares. It is fabled to have been brought to Melukote by Garuda, the bird of Vishnu, from Sveta-dvipa (the white island) in the Kshirasamudra (the milk ocean).

Seringapatam.

Properly Sri-Ranga-pattana, situated in 12° 25' North Latitude 76° 45' East Longitude, stands on the Mysore Railway and on the Bangalore-Mysore high road, 75 miles South-west from the former and 10 miles North-east from the latter. It is a place containing many historical structures.

Sivasamudram.

Though over the present boundary line of Mysore, this romantic spot is intimately associated with that country. It is connected with the Railway and Bangalore-Seringapatam trunk road by a cross road from Maddur through Malavalli, 30 miles in length. The Cauveri here branches into two streams, each of which makes a descent of about 200 feet, in a succession of picturesque rapids and waterfalls. The principal island embraced with these torrents, called Heggura but more generally known by the name of Sivasamudram, is about 3 miles long by 1 of a mile broad. It is the headquarters of the Electric Cauvery Power Scheme.

Hassan.

A District situated between 12° 30' and 30° 36' North Latitude, and between 75° 32' and 75° 42' East Longitude. The greatest length is from North to South, about 75 miles; and the greatest breadth is from West to East about 68. The Manjarabad side of the District, resting on the brow of the Western Ghats, forms a part of the Male-sime, plain country, also called Mudu-sime or East country. Perhaps there is no scenery in India more beautiful than the Malnad or highland region, occupying the whole of the Manjarabad taluq and the Western half of Belur adjoining the North-west of Coorg. It, for the most part, resembles the richest park scenery in England. The *maidan* or lowland tract, forms the largest and most populous portion of the District. The temperature of Hassan is slightly lower than that of Bangalore, the mean reading of the thermometer being 72.9° and the daily range about 20°. The maximum has reached 97.6 in April, while the minimum has touched 42.7 in January. The European Settlers generally suffer from miasmatic fever after the early rains, but they soon grow acclimatized and are ultimately better able to withstand it than the Natives themselves, numbers of whom succumb each year to its attacks. The State Forests cover an area of 185 square miles. There are 12 Forest plantations, covering 3,053 acres; and 8 Revenue plantations, converging 582 acres. There are 566 miles of road planted with avenues and the number of topes or groves, is 1,502, stocked with 57,141 trees. The grain principally cultivated in the malnad is rice. The rice cultivated in the North-West of the Hassan taluq, and that grown in the *maidan* taluqs on land irrigated by the channels leading from the anicuts thrown across the Kaveri,

PLACES OF INTEREST.

Hemavati and Yagachi rivers is of a superior kind and bears comparison with the best table rice of Southern India. Plantains of good quality are grown to a considerable extent. The cultivation of coffee takes rank as one of the most important products of the country.

Halebid.

A village in the Belur taluq, 18 miles South of the railway at Banavar, and 11 miles East of Belur, on the Belur-Banavar road. The village of *hale-bidu*, old capital, marks the site of the ancient city of Dorasamudra, the wealthy capital of the Hoysala kings, founded early in the 11th century. The splendour of the city is attested not only by the account of the fabulous riches obtained from its conquest but by its architectural monuments, which still rank among the masterpieces of Hindu art. The most remarkable of these are the Hoysaleswara and Kedareshwara temples.

Hole Narsipur.

The town is the residence of the Guru of the Madhva Brahmins of the Uttaradi branch. Cloth of good quality is made here. The manufacture of *gusmi* bags gives occupation to a good many people.

Halekal Tirupati.

A temple on the Hirekal hills, near Arsikere. A flight of 1,700 steps leads to the top, the ascent of which is an efficacious substitute for a pilgrimage to the famous Tirupati in North Arcot.

Bravara Belgola.

An important village, between two rocky hills in the Channarayana taluq. It is the Chief seat of the Jain sect being the residence of the principal Guru. At the summit of Vindhya betta or Indra betta, 3,750 feet above the level of the sea, and about 400 feet above the village below, is the colossal statue of Gomatesvaral 57 feet high and surrounded with numerous sacred buildings. On Chandra betta there are also many temples, and between the hills a splendid tank (*bel-gola*). A considerable trade is carried on in brass utensils.

Kadur.

The Kadur District lies to the West of the State of Mysore and was formed in 1868, with headquarters at Kadur afterwards removed to Chikmagalur. The District is situated between 12° 35' and 13° 58' North Latitude and between 75° 8' and 76° 15' East Longitude. Its greatest length is, from East to West above 86 miles. Its greatest breadth from North to South is, about 55 miles. The main part of the Kadur District is composed of the most mountainous region included within the limits of Mysore. The numerous perennial streams springing from the mountains of the District have been dammed at nearly every available point, giving rise to short channels which, collectively, supply a large amount of irrigation. At Chikmagalur, the headquarters of the District, the mean annual temperature appears from the recorded observations to be between 72° and 78°. The west of the District is covered with some of the best forests in the country. The coffee cultivation of Southern India may be said to have had its origin in this District, for the plant was first introduced, in about the 17th

PLACES OF INTEREST.

century, by a Muhammadan pilgrim named Baba Budan, who, on his return from Mecca, brought a few berries in his wallet and taking up his abode on the hills that now bear his name planted them near his hut. It was not, however, till about 1820 that the cultivation extended beyond his garden, and not till 20 years later that European enterprise was first attracted to it. Since 1860 estates have sprung up, with such rapidity, that European planters are settled in almost a continuous chain of Estates from the South-west of Shimoga to the Southernmost limits of Manjarabad, not to mention Coorg and Wyanad beyond.

Ajjampur.

A town in the Tarikere Taluq, on the Bangalore Poona Railway and the Tarikere Hosdurga Road. Extensive old gold workings have been discovered in the vicinity, and a European Company has commenced gold mining.

Baba Budan Mountains.

The loftiest range on the Mysore tableland situated, in the centre of the District, to the north of Chikmagalur, between 13° 23' and 13° 35' North Latitude and 75° 52' East Longitude. The form of the chain is that of a horseshoe with the opening to the North-west. The character of the chain is that of a stupendous ridge, 6,000 feet above the level of the sea, and in some parts only a few yards wide at the summit, rising at intervals into loftier peaks. The summit of the hills consists of steep grassy slopes, well wooded in the ravines, through which flow perennial springs. The sides are densely clothed with forests, among which are numerous coffee plantations, as well as in the Jagar valley, which is one stretch of forest as far as the eye can reach. In the range called in the Hindu Puranas "Chundra Drona" is a cave, containing what the Muhammadans assert to be the tomb of Baba Budan, but the Hindus to be the throne of Dattatreya. It is a venerated place of pilgrimage for adherents of both creeds. A Mussalman *Kalandar* is the custodian of the cave, which is designated the Southern Mecca; and well endowed. By the Hindus the reappearance of Dattatreya at the mouth of a Cave, into which in ancient times he vanished, is looked for as a sign prophetic of the final avatar of Vishnu and the introduction of the millennium.

Birur.

An important trading town in the Kadur Taluq, on the Bangalore-Poona Railway and the Bangalore-Shimoga Road. The merchants of Birur receive areca nut from the Malnad districts in the West and export it to Bellary and Dharwar. A very large traffic is also carried on in cocoanuts, grain and other produce of the surrounding country. Birur is the junction for the branch railway to Shimoga, and has been extended in recent years.

Chikmagalur.

The headquarters of the Kadur District is situated in the valley South of the Baba Budan range, in a fertile tract of black soil. Since the removal hither of the District headquarters from Kadur, in 1865, it has enormously increased. The main bazaar street is a fine wide thoroughfare, more than 2 miles long, extending from the old fort of Chikmagalur to the village of Basavanahalli, which it includes,

The wants of the neighbouring coffee districts have led to the settlement here of a number of Muhammadan traders and shopkeepers. Besides the usual District Offices, there are a club, hospital, high school and other public buildings.

Gangamula.

The source of the Tunga and Bhadra rivers. The hill from which they issue called the Varaha Parvata, is in the Western Ghats, on the confines of the Koppa and Bale Honnut Taluqs. It is in truth a wild country, and has a desolate grandeur about it, seeming to be the end of the world. On every side tower up magnificent mountains, spreading for leagues in every direction, and covered with immense forests, while nowhere can one detect the faintest trace of human life, either in the shape of houses or of cultivation. It was to these solitudes that the father of Pandita Ramabai retired for many years, and here it was that he taught her Sanskrit.

Koppa.

A taluq in the North-west. The taluq is entirely Malnad and one of the wildest and most picturesque in the country. In the North-East, sugar cane is largely grown and afterwards manufactured into sugar. The principal garden crop is areca nut, for which the taluq is renowned. Cardamoms are also a very valuable production. Coffee cultivation has made great strides in the last 15 years. In 1870 Koppa and Newar were the only Coffee Estates under European superintendence, whereas now this taluq is one of the principal centres for European coffee planters, and coffee is extensively cultivated in the hill ranges to the North and on the slopes of the Western Ghats.

Kudure Mukha.

A peak in the Western Ghats and one of the loftiest points in Mysore, the summit being 6,315 feet above the level of the sea. Its name of Kudure Mukha or Horse-face, is descriptive of its appearance seawards, where it is a well known mark for navigators. The officials of Malabar have a bungalow at the top as a hot weather retreat, and a bridle path has been formed from the Malabar side, which is the easiest means of ascending the mountain.

Stringeri.

A sacred village on the left bank of the Tunga. It is the headquarters of the Jagadguru, the high priest of the Smarta Brahmins, who is the proprietor of the surrounding tract of country. Stringeri consists of a long street, with a loop on one side, encircling a small hill, Stringa-giri, on which stands a temple of Mallikarjuna. There are said to be 130 temples in the place, one being a Jain basti. Many Brahmin houses have a temple in the yard behind, of which the resident Brahmin is the officiant. At the head of the street is the *matha* of the Garu within which is the temple of Saradamma, whose image is said to be of pure gold. At the side of the *matha* is the temple of Vidyasankara, an ornamental building of the Chalukyan style, on a raised terrace. Round the outer wall are sculptured images of various Gods. At an angle on the right of the front entrance is a statue of Vyasa, wearing a conical cap, the sacred thread and a *dhotra*; his right hand in the position called *abhaya hasta*. He is imparting instruction to Sankaracharya,

whose statue, through the indentation of the plan, is at right angles to him. Sankara has a palmyra leaf book in his left hand. These two figures, from being constantly anointed with oil, are quite black. Towards Vidyaramapura, on the bank of the Tunga, is a small temple with an image of Sankaracharya seated as a Yati. This is where he is said to have disappeared from life.

Yedahalli.

A town in Koppa Taluq. It is the residence of several wealthy merchants, being an entrepot for the produce of the Malnad and a place of considerable traffic between the East and West of the country.

Shimoga.

A District in the North-West, situated between 13° 28' and 14° 38' North Latitude and between 74° 41' and 76° 9' East Longitude. Its greatest length is 95 miles from East to West. From North to South the longest line is 80 miles. The main part of the district consists of the Western slopes of the upper Tunga-Bhadra valley. The greater part of the district is reckoned as Malnad or hill country. The whole of the far named region presents a range of scenery abounding with every charm of tropical forests and mountain wilds. The features of the open country are tame in comparison with those of the woodland tracts, but there is much that is picturesque in the fertile taluq of Channagiri with its large Salekera lake, the finest reservoir with one exception in the South of India. Approaching, as it does, at one point within 8 miles of the sea and extending Eastwards nearly 100 miles, the district presents much variety of climate in different parts. Rice is the principal cultivated product of the district, of which more than 600 kinds are enumerated. Arceca nut is extensively grown in Nagar, Sagar and Tirthahalli, that of the first named place being considered superior to any in the Province. Sugarcane is largely reared in Shikarpur. Honnali chiefly produces different kinds of dry grains as well as cotton. Pepper grows wild in the forests of Nagar and Sorab while cardamoms are produced in the jungles about Agumbi. The larger game is most abundant in Sagar, where bison are common and elephants occasionally met with. Tigers, panthers and bears, which are most feared by the people, are found principally to the West of Shimoga and in Shikarpur.

Chandragupti.

A high-peaked hill in the West of the Sorab Taluq, formerly fortified with a village of the same name, at its base, on the east. The hill is said to have been originally of such a height that it obscured the moon, whence the name *Chandragupti*, but it was reduced to its present size by a *rakshasa* during his contest with Krishna, who hid here. The summit is 2,836 feet above the level of the sea.

Sagar.

A town on the left bank of the Varada near its source, is one of the chief depots for the areca nut trade, and contains some wealthy merchants. Pepper, sandalwood and other products of the Malnad are exported by them to the Madras Districts East and North, and to parts of Bombay in the West, the returns being made chiefly in cloths. The town has been recently extended to the West by a quarter named Chamarajendra Pete, in memory of the late Maharajah.

Falls of Gersoppa.

The magnificent *Falls of Gersoppa*, or *Jog*, that is, the waterfall, as they are called by the natives, are unquestionably the grandest natural beauty in Mysore, rich, as it is, in splendid scenery. They eclipse every other Fall in India and have few rivals in any part of the world. They are situated in 14° 14' N. Lat., and 74° 50' E. Long., on the borders of Mysore and N. Kanara, 82 miles from Shimoga in the former and 30 from the port of Honavar (Honore) in the latter. The Sharavati, flowing over a rocky bed about 260 yards wide, here reaches a tremendous chasm, 960 feet in depth, and "performs (as Captain Newbold has expressed it) this stupendous lover's leap from the chains of the giant Ghats into the arms of his ocean-rescued mistress—prolific Kanira." The water comes down in four distinct falls, presenting a scene of transcendent grandeur and sublimity, whose effect is greatly heightened by the wild and beautiful country around, covered with a wealth of luxuriant vegetation. The Rajah Fall pours in one unbroken column to the depth of 830 feet. Half way down it is encountered by the Roarer another fall which precipitates itself into a vast cup and then rushes violently downwards at an angle of forty-five degrees to meet its famous compeer. A third fall, the Rocket, shoots downwards in a series of jets; while the fourth called the Dame Blanche, is an Undine-like cascade gliding quietly over the mountain side in a sheet of foam. The most favourable time for visiting these glorious works of nature is in the cold season, when the river is low enough to admit of crossing to the Mysore side, whence the best views are obtained.

Chitaldroog.

Chitaldroog District is situated in the North; its situation, taking the extreme limits, is between 36° 40' and 50° 2' North Latitude 70° 43' and 77° 6' East Longitude; but owing to a long and narrow projection into Bellary northwards the main part of the district does not extend beyond 40° 40' North Latitude. Its greatest length from North to South is about 88 miles, the greatest breadth from East to West about 100 miles. The area jutting North into Bellary is 32 miles long, by from 5 to 12 broad. The climate, as compared with that of other parts of Mysore, may be described as drier and hotter. The district is almost throughout a "dry and thirsty land." It has no forest. The most general manufactures of the district are those of *Kambli*s or *camblets* and piece goods. Besides the usual District Offices, which are beyond the fort walls, 3 miles to the North-West is situated the *Murgi malk* the residence of the Chief Gurn of the *Sivabhattas* or *Lingayits*. Immediately to the west of Chitaldroog, are traces of an ancient city, consisting of very large sized bricks, and remains of pottery. Coins are frequently found after heavy rains.

Davanageri.

The most valuable trade here is that which is carried on with Wallajapet in North Arcot on the one side, and Nayar and Sagar on the other. Areca nut and pepper, the produce of the latter, are sent to the former; and Madras goods imported from Europe, China, Bengal, and the Eastern islands, together with salt, obtained in return; which, as well as *Camblis* made in the neighbourhood, are transmitted to Nagar and Sagar. There is also a large trade in cotton, and a

cotton ginning factory has been established by Messrs. Binny & Co. of Madras. Agents of Bombay houses are stationed here for the purchase of oil-seeds, &c.

Mari Kanive.

A pass in the eastern line of the Chitaldroog hills, through which the Vedavati issues to the open country of Hiriur. So far back as Buchanan's time it was pointed out as a spot peculiarly favourable for the construction of a dam across the gorge, whereby an immense reservoir would be formed capable of irrigating the adjoining thirsty plains and converting them into a vast expanse of rice cultivation. The project, after much money has been spent on surveys and measurements, has at last, been taken in hand and completed.

Mayakanhatti.

A village in the Hoedurga Taluk contains a celebrated tomb and temple dedicated to a Maha-purusha or saint of the Lingayits, named Tippe Rudraia, who lived about 800 years ago, wrought miracles and became the spiritual preceptor of the Hatti Palegars. The large sums bestowed upon him by the faithful, he devoted to the enlargement and repair of tanks and to other works of public benefit which entitle his name to be held in honour.

REGULATION No. I of 1907.

(Passed on the 6th day of March 1907.)

A Regulation to establish a Legislative Council in Mysore.

Preamble. Whereas it is expedient to establish a Council for making Laws and Regulations in Mysore; His Highness the Maharajah is pleased to enact as follows:—

Short title. 1. (1) This Regulation may be called "The Mysore Legislative Council Regulation, 1907."

Commencement. (2) It shall come into force on the expiry of three months from the date of its first publication* in the Official Gazette.

Interpretation clause. 2. In this Regulation, unless there be something repugnant in the subject or context:—

(1) "Councillor" means a member of the Council of His Highness the Maharajah appointed to assist in the carrying on of the Government of the State.

(2) "Legislative Council" or "Council" means the Council for making Laws and Regulations appointed under section 3.

(3) "Member" means a member of the Legislative Council.

3. For the purpose of making Laws and Regulations, there shall be a Council to be called the Legislative Council, consisting of a President, two *ex-officio* members and such number of additional members not less than ten or more than fifteen as may be fixed by the Government of His Highness the Maharajah from time to time.

4. (1) The Dewan shall, *ex-officio*, be the President and member of the Legislative Council, and the Councillors shall, *ex-officio*, be members thereof.

(2) The remaining members shall be nominated by Government from time to time. Provided that not less than two-fifths of the persons so nominated shall be non-official persons, that is, persons who, at the time of such nomination, shall not be in the service of the Government, and that no member of any non-official member accepting such service shall be vacated on such acceptance.

5. The Government of His Highness the Maharajah may, from time to time, frame rules as to the conditions under which all or any of the non official members of the Legislative Council may be selected for nomination.

* The Regulation was first published in the Gazette on the 21st March 1907.

Period of membership and right of members to be summoned to meeting.

6. Every person nominated as a member of the Council shall continue to be such member for a period of two years, and, during such period, he shall be summoned to all meetings held for the purpose of making Laws and Regulations.

Membership when vacated. 7. (1) It shall be lawful for any member of the Council to resign his office at any time, and, on acceptance of such resignation by the Government of His Highness the Maharajah, such office shall become vacant.

(2) When any member of Council is convicted of any offence involving moral turpitude, or is declared insolvent or claims to be discharged from liability to pay his debts on the ground of insolvency, his office shall become vacant.

(3) An official member shall vacate his seat on his dismissal or retirement from public service.

Explanation.—The decision of Government as to whether the offence of which a member may be convicted involves moral turpitude, is final, and shall not be called in question in any Court of Law.

Member not attending three consecutive ordinary meetings vacates seat. 8. If any member shall be unable to attend three consecutive ordinary meetings of the Council, it shall be lawful for Government to declare by notification in the official Gazette that the seat in Council of such member has become vacant.

9. (1) In the absence of the Dewan, the senior Councillor present, or, if there be only one Councillor present, such Councillor, shall preside at the meetings of the Council; and the power of making Laws and Regulations vested in the Council shall be exercised only at the meetings of the said Council at which the Dewan or some one of the Councillors and not less than one-half of the whole number of members of Council shall be present.

Quorum.

(2) In every case of difference of opinion at the meetings of the said Council, whenever there shall be an equality of voices, the Dewan, or, in his absence, the Councillor then presiding, shall have two votes or the casting vote.

Casting vote.

Dewan to appoint time and place of meetings.

10. It shall be lawful for the Dewan, from time to time, to appoint the time and place of meetings of the Council, to adjourn, or, from time to time, to authorise the Councillor presiding in his absence, to adjourn, any meeting from time to time.

Rules for conduct of business at meetings.

11. (1) It shall be lawful for the Legislative Council to make, from time to time, rules for the conduct of business at meetings of the Council, provided that it shall be lawful for Government to disallow all or any of such rules.

(2) The rules contained in the schedule appended hereto shall be and remain in force until they are replaced or amended by rules framed under subsection (1) of this section.

12. (1) No measure of any description shall be introduced into the Council without the previous sanction in writing of the Dewan, and the leave of the Council obtained in accordance with rules framed under section 11.

Measures not to be introduced without Dewan's sanction.

(2) No business shall be transacted at any meeting of the Council other than the consideration and passing of measures introduced into such Council for the purpose of being considered and passed; and it shall not be lawful for any member to make or for the Council to entertain any motion, unless such motion shall be for leave to introduce some measure as aforesaid into Council, or have reference to some measure actually introduced therein.

Provided that it shall not be lawful for the Council to consider any measure affecting—

- (a) the Ruling Family of Mysore,
- (b) the relations of His Highness the Maharajah with the Paramount Power or with Foreign Princes or States,
- (c) matters governed by treaties, conventions or agreements, now in force or hereafter to be made by His Highness the Maharajah with the Paramount Power,
- (d) extradition of criminals,
- (e) European vagrants,
- (f) European British subjects,
- (g) the Post Office, Telegraphs and Railways,
- (h) the Mysore Military Forces, or,
- (i) such other matters as may from time to time be specially reserved by His Highness the Maharajah for consideration by the Government.

No Law or Regulation valid until it receives the assent of the Maharajah.

13. When any Law or Regulation has been made by the Council, it shall be submitted to His Highness the Maharajah through the Dewan for assent. No such Law or Regulation shall have validity until it receives the assent of His Highness the Maharajah.

14. In the cases mentioned in the proviso to section 13 of this Regulation, the Government may frame any Regulation required, and every such Regulation, if assented to by His Highness the Maharaja, shall have the force of law.

15. Notwithstanding anything contained in this Regulation, it shall be lawful for the Government to frame any Regulation, in cases not falling under the proviso to section 12 of this Regulation, in which legislation is emergently required and every such Regulation, if assented to by His Highness the Maharaja, shall have the same force as a Regulation passed through the Council, for the space of six months from its promulgation in the official Gazette.

16. No Law or Regulation passed by the Legislative Council under the authority of this Regulation shall be deemed invalid by reason that the proportion of non-official members hereby provided was not complete at the date of its introduction into or its being passed by the Council.

REGULATION No. I of 1914.

A Regulation to amend the Mysore Legislative Council Regulation, 1907.

(Received the assent of His Highness the Maharajah on the 11th day of February 1914.)

Whereas it is expedient to amend the Mysore Legislative Council Regulation, 1907; His Highness the Maharajah is pleased to enact as follows:

Omission of Section 2 of the Regulation.

1. Section 2 of the Regulation shall be omitted.

2. In Section 3 of the Regulation the word "two" occurring between the words "President" and "Ex-officio Members" shall be omitted, and for the words "not less than ten or more than fifteen" occurring therein, the words "not less than fifteen and not more than twenty-one" shall be substituted.

Amendment of Section 3 of the Regulation.

3. In Section 4 (1) of the Regulation the words "of the Legislative Council" occurring after the word "President" shall be omitted and the words "Members of His Highness the Maharajah's Council" and "of the Legislative Council" shall be substituted for the words "Councillors" and "thereof" respectively.

Amendment of Section 4 of the Regulation.

substitution of a new section for Section 9 of the Regulation.

4. For Section 9 of the Regulation the following new Section shall be substituted, viz.—

"9 (1) In the absence of the Dewan, the Senior *Ex-officio* Member present if there be only one such Member present, such Member, shall preside at the meetings of the Legislative Council: and the power of making Laws and Regulations vested in the said Council shall be exercised only at the meetings of the Council at which the Dewan or some one of the *Ex-officio* Members and not less than one-half of the whole number of Members of the Council shall be present.

"(2) In every case of difference of opinion at the meetings of the said Council, whenever there shall be an equality of voices, the Dewan or, in his absence, the Member then presiding, shall have two votes or the casting vote."

Amendment of Section 10 of the Regulation.

5. In Section 10 of the Regulation the words "*Ex-officio* Member" shall be substituted for the word "Councillor."

Amendment of Section 12 (2) of the Regulation.

6. The words "Except as provided in Section 12 A" shall be inserted at the commencement of subsection (2) of Section 12 of the Regulation.

Addition of a new Section 12 A. 7. After Section 12 the following new section shall be added as Section 12 A, viz.—

"12 A. Government may from time to time make rules authorizing at any meeting of the Legislative Council, the discussion of the annual Budget of the State, and the asking of questions, under such conditions and restrictions as to the subject and other matters as shall be in the said rules prescribed or declared.

But no Member shall have power to submit or propose any resolution either on the Budget or on any matter referred to in any question, or to divide the Council in respect of any such discussion on the Budget or answer to any question asked under the authority of this Regulation or the Rules made under the Regulation.

Provided that the Rules made under this section shall not be subject to alteration or amendment at meetings for the purpose of making Laws and Regulations."

M. VISVESVARAYA,
Dewan.

SCHEDULE.

RULES FOR THE CONDUCT OF BUSINESS OF THE MYSORE LEGISLATIVE COUNCIL.

I. Definitions.

1. In these rules—

"Bill" means a proposed enactment in any stage before it has received the assent of His Highness the Maharajah.

In the computation of "Clear days," Sundays and holidays are not included.

II. Summoning and Adjournment of Council.

2. The times and places of meeting shall be fixed by the Dewan, and the Secretary shall notify the same in the official Gazette and to each member by letter.

3. When the business before a meeting is concluded, the President shall declare the meeting dissolved. The President may adjourn, without any discussion or vote, any meeting or business, to any future day or to any part of the same day. The Council also may, upon motion made and carried, adjourn any meeting or business.

4. A motion that any meeting or business be adjourned or that the Council pass to the business next in order in the statement of business may be moved at

any time and without previous notice as a distinct question, but not so to interrupt a speech. If the motion is carried, the Council shall adjourn the meeting or business, or the further consideration of the business then under discussion shall be dropped, as the case may be.

5. A motion of the kind referred to in the last preceding rule shall take precedence of any other motion then before the Council, and, if such motion is rejected, no similar motion shall be made until after the lapse of what the President shall deem to be a reasonable time, nor by the member by whom the previous motion was made.

6. If, at the time appointed for holding a meeting or adjourned meeting as aforesaid, or if at any time after the commencement of business at such meeting, the quorum required by Section 9 of the Regulation (that is to say, the Dewan or some one of the Councillors and one-half of the whole number of members of Council), is not present, the members present shall, without proceeding to business of any kind, adjourn until again summoned by the Dewan, and the fact shall be noted by the Secretary in the journal of the Council.

III. Course of Business.

7. The Secretary shall send to every member a statement of the business to be transacted at each meeting so as to reach him at least three clear days before the date fixed for such meeting.

8. No business which is not entered in the statement of business prepared under Rule 7 shall be transacted at any meeting, unless the permission of the Dewan has been obtained previously to the meeting.

9. The President shall have power to regulate the order in which business is transacted, but, ordinarily, the succession of business shall be as described in Rule 10.

10. After the President has taken the chair—

(1) the Secretary shall report to the Council the Regulations which have received the assent of His Highness the Maharajah, under Section 13 of the Regulation, and the Bills which have been disallowed since the last meeting;

(2) the Secretary shall report to the Council the petitions and other communications relating to the business of the Council which have been received by him since the last meeting, and shall, if required, read such petitions and communications to the Council;

(3) members desirous of obtaining leave to introduce Bills, and having obtained the written sanction of the Dewan therefor, shall move that such leave be granted;

(4) the Council shall then proceed to dispose of the business left unfinished at the last meeting, if any; and this being done.

(5) the Council shall proceed to deal with the remaining business of the day.

IV. Regulation of Discussions.

11. The President shall preserve order and shall decide all points of order submitted for his decision by the members and all questions connected with the interpretation of these rules. There shall be no discussion on any point of order and the President's decision shall be final.

12. Any member may draw the attention of the President to a violation of order and, while he is doing so, all other members shall remain silent.

13. In discussing questions coming before the Council for consideration, a member shall speak from his place and shall address the President.

14. Members may read their speeches and may also read, as part thereof passages from books or papers bearing upon the question under discussion.

15. No member shall speak except upon business which is at the time regularly before the Council or by special permission of the President, in explanation of what he said in a previous debate.

16. Except in discussing amendments, when the Council is settling the several clauses of a Bill, no member other than the mover shall speak more than once upon a question; but the mover shall, if he has spoken to the question when making his motion, be allowed a reply.

Provided that, if the matter before the Council be an amendment of a Bill, the member in charge of the Bill shall be entitled to speak next after the mover and in order of the amendment.

17. A member who has spoken upon a motion may speak again upon any amendment of that motion. A member may also speak again in order to explain what he has previously said if it has been misunderstood.

18. When for the purpose of explanation or for any other reason, a member has any occasion to ask of another member a question relative to the business before the Council, he shall ask the question through the President.

19. Every matter which comes before the Council for decision shall be decided in accordance with the majority of votes after (1) motion has been made and seconded and (2) the question has been put by the President.

20. No discussion whatever shall take place after the question has been put by the President.

21. Any member may ask for any papers or information connected with the business before the Council, and the President shall determine whether such papers or information can be furnished.

If the President be not the Dewan, and the papers or information called for belong to any Department of the State other than the Legislative Department, the Dewan may veto the decision of the President.

V. Motions Generally.

22. Members who wish to make any motion at any meeting must give notice of their intention at the next preceding meeting or must send such notice in writing to the Secretary so as to reach him at least six clear days before the day fixed for the meeting, at which they intend to make the motion. Provided that the President may, at his discretion, permit a motion to be made of which such notice has not been given.

23. All motions of which notice is given under the proceedings rule shall be entered in the statement of business prepared by the Secretary under Rule 7.

24. No motion shall be taken into consideration by the Council unless it is seconded.

25. A motion of which due notice has been given may, in the absence and at the request of the member by whom notice was given, be made by any other member; but, if not so made, or if a member announces his intention of withdrawing a motion standing in his name, the motion may be made by any other member, and, if not so made, shall not be put unless the Council otherwise orders.

26. If amendments of any motion are moved, the President, when taking the sense of the Council thereon, shall in his discretion put first to the vote either the original motion or any of the proposed amendments thereof.

27. A purely verbal amendment of a motion may be moved at any time during the discussion upon the motion and without previous notice, but no amendment which is substantially the negative of a motion shall be taken into consideration by the Council.

28. A motion shall not be taken into consideration by the Council if it substantially raises a question already disposed of at the meeting or is inconsistent with any resolution already passed thereat.

29. If any motion, as made, involves several points, the President may, at his discretion, divide it, so that each point may be determined separately.

VI. Introduction of Bills.

30. Any member who may have obtained the previous sanction of the Dewan in writing to introduce a Bill into the Council may move at a meeting of the Council for leave to introduce the same in accordance with section 12 of the Regulation; provided that at least six clear days' previous notice of the title and subject of the Bill has been given to the Secretary.

31. If the motion for leave to introduce a Bill be carried, the mover shall send the Bill, together with a full statement of the objects of and reasons for the proposed measure and any connected papers, to the Secretary, who forthwith cause the Bill, the statement of objects and reasons and the connected papers to be printed and communicated to each of the members, and will also cause the Bill and the statement of objects and reasons to be published in the official Gazette in English and in Kanarese.

N 213, N 15

22620

Provided that the publication may be deferred under the orders of the Dewan until the next meeting of the Council, when the publication of such Bill shall be considered.

32. The Dewan may, at his discretion, direct the Secretary to publish any Bill together with a statement of the objects of and reasons for it, in the official Gazette in English and in Kanarese, although leave to introduce the Bill has not been applied for under Rule 30; and the Secretary shall publish it accordingly and shall send a copy of the Bill and of the statement of the objects and reasons to each of the members. When a Bill has been published under this rule, it shall not be necessary to move under Rule 30 for leave to introduce it.

33. At any time after leave to introduce a Bill has been granted under Rule 31 or after publication has been ordered under Rule 32, the member in charge of the Bill may introduce it after giving six clear days' notice to the Secretary; provided that no Bill shall be introduced until fifteen clear days from the date of its publication.

When introducing a Bill, the member in charge of it shall move that the Bill be read in Council. The principle of the Bill and its general provisions may then be discussed, and, if the motion be carried, the Council shall then consider the question of referring the Bill to a Select Committee, and, if the question be decided in the affirmative, the Council shall appoint the Committee and may further direct that its report shall be submitted within a special period.

34. At any time during the progress of a Bill the member in charge of it may move for permission to withdraw it, and, if such permission is granted, the Bill shall be withdrawn accordingly. The member in charge of a Bill which has been published under Rule 32, but which has not been introduced and read in Council, may withdraw the same without further formality than a mere announcement of the withdrawal to the Council.

VII. Select Committee.

35. Select Committees may be appointed by the Council for any purpose connected with the business of the Council and may sit and submit their reports although the Council is adjourned. The member in charge of a Bill shall always be member of the Select Committee appointed to consider the Bill.

36. When a Bill has been referred to a Select Committee for consideration, it shall be the duty of the Committee to discuss each clause of the Bill and to recommend to the Council such amendments as seem to it to be advisable.

37. If the Council has fixed a period within which the Select Committee shall submit its report upon a Bill and the Committee is unable for any reason to submit its report within that period, the Dewan may, from time to time, extend the period on the application of the member in charge of the Bill.

38. The report of the Select Committee shall be signed by all the members of the Committee or a majority of them; but any member of a Select Committee may record his views in a separate minute.

39. The report of the Select Committee appointed to consider a Bill shall contain particulars of the principal amendments proposed and of the reasons for such amendments, or it may contain a recommendation that the Bill under consideration be abandoned.

40. The report of the Select Committee, any minutes that may have been recorded by individual members of the Committee, and (if the Bill has been amended) the Bill as amended by the Committee, shall be printed and copies furnished to each member of the Council. The report and minutes (if any) and (if the Bill has been amended) the Bill as amended, or such portion thereof as may have been amended, shall also, unless otherwise directed by the Select Committee, be published in the official Gazette in English and Kanarese.

41. No business shall be transacted at any sitting of the Select Committee unless a majority of the members of the Committee including the member in charge of the Bill is present.

42. The Committee may elect their own Chairman, who shall have power to report to the Dewan the name of any member of the Select Committee who neglects or is unable to attend its sittings, and the Dewan may thereupon appoint, out of the members of the Council, an additional member to the Select Committee.

43. A Select Committee may, for the purpose of obtaining information, invite any person to be present at its sittings.

44. While a Select Committee is sitting to consider a Bill, all communications relating to the Bill which are received by the Secretary shall be referred to it.

VIII. Passing of Bills.

45. When a Bill has been introduced and read in Council under Rule 33 and the Council has decided that it is not necessary to refer it for consideration to a Select Committee, the Council shall not proceed to take the Bill into consideration until the expiration of fifteen clear days from the date on which the Bill was read under Rule 33.

In this case it shall not be necessary to make, on the day on which the Bill comes on for consideration, a formal motion that the Bill be taken into consideration.

46. When a Bill has been referred to a Select Committee under Rule 33, it shall not be taken into consideration by the Council unless copies of the report of the Select Committee and (if the Bill has been amended) of the Bill as amended shall have been sent to each of the members of the Council, at least fifteen clear days beforehand, and, in cases in which the Select Committee has not dispensed with the publication referred to in Rule 40, until the expiration of twenty-one clear days from the date of such publication. Subject to these conditions, the

member in charge of a Bill, when presenting the report of the Select Committee to the Council, may move either that the Bill and Report be taken into consideration at once or that the consideration of them be postponed to a subsequent meeting.

The discussion upon a motion under this rule that a Bill be taken into consideration shall not extend to the principle of the Bill.

47. Any member wishing to propose an amendment affecting the substance of a Bill shall send a copy of the proposed amendment to the Secretary in accordance with Rule 22, and the Secretary shall enter the same in the statement of business prepared under Rule 7; but it shall not be necessary to give previous notice of amendments of a purely verbal character or of amendments consequential upon, or moved in respect of, amendments which have been carried.

48. Proposed amendments of Bills shall not be moved until the Bill is actually taken into consideration and, when moved, they shall be considered in the order of the sections to which they relate.

Proposed amendments of Bills shall be governed by Rules 24, 25, 26, 28 and 29 relating to motions.

49. The President may declare that a proposed amendment of a Bill shall not be discussed or put to the vote on the ground that it is irrelevant or incomplete or that an amendment identical in substance with it has been previously disposed of by the Council in considering the same Bill.

50. When the amendments proposed by the Select Committee (if the Bill has been referred to a Select Committee), and such other amendments as may be proposed by any of the members before the Council, have been considered by the Council, the member in charge of the Bill, or in his absence any other member, may move that the Bill as amended be taken up and passed at a subsequent meeting.

At such meeting the Council shall consider the amendments, if any, moved on behalf of Government, and pass the Bill. No amendments other than those connected with the amendments moved on behalf of Government shall, without the special permission of the Dewan, be brought up for consideration at this stage.

IX. Final Stages of Bills.

51. When a Bill has been passed by the Council, the Secretary shall revise and complete the marginal abstracts and the numbering of the sections thereof and shall forward it to the Dewan for submission to His Highness the Maharajah.

52. The Dewan shall communicate His Highness' assent or dissent to the Council by certificate in writing at the foot of the Bill, and the Bill with such certificate shall be lodged in the records of the Council.

53. No member shall make any motion upon, or otherwise bring under the consideration of the Council, the exercise by His Highness of the prerogative of withholding assent to a Bill, or of according sanction to it with any alteration which His Highness may consider necessary.

54. When a Bill has received the assent of His Highness the Maharajah under Section 13 of the Regulation, it shall be published in the Official Gazette in English and in Kanarese.

X. Rules Relating to Petitions.

55. Petitions to the Council must—

1. relate to some matter actually under the consideration of the Council;
2. be superscribed 'to the Legislative Council';
3. be dated and signed by the Petitioner or Petitioners;
4. be in respectful and temperate language; and
5. conclude with a distinct prayer.

56. If a petition is not in conformity with Rule 55, or if the Secretary sees reason to doubt the authenticity of any signature appended thereto, he shall certify the same on the back of the petition and report the fact to the Council. The Council may thereupon reject the petition, which shall then be returned to the petitioner or petitioners with a statement of the reason for such rejection.

57. If the petition is in conformity with Rule 55, the Secretary shall, if necessary, make an abstract of it and bring the petition under consideration by reading it or the abstract before the Council, which shall deal with the petition in such manner as it may deem proper.

XI. Admittance of Strangers.

58. Persons desirous of admission into the Council Chamber during the sittings of Council shall make application to the Secretary, who will take the orders of the President thereon.

59. The President may, at any time during the sitting of the Council, direct that all strangers withdraw.

60. If a Bill which peculiarly affects private interests be under the consideration of the Council or of a Select Committee thereof and if any person whose interests are so affected apply to the Council or Select Committee for permission to be heard, either personally or by counsel, on the subject of the Bill, the Council or Select Committee may, upon the motion of any member, direct that the petitioner or his counsel be heard at the meeting at which the motion is made or at and on some future specified time and day; and if the petitioner or his counsel is not present at the said meeting or does not appear at and on the said time and day, as the case may be, the permission granted by the Council or Select Committee shall be deemed to have lapsed.

61. Except as provided in Rules 43 and 60, no stranger shall be permitted to address the Council or any Select Committee.

62. Any member may move that the hearing of any person who has been permitted under Rule 60 to address the Council or a Select Committee shall cease, such person is irrelevant or unduly prolix, or for any other sufficient reason.

XII. Duties of the Secretary.

63. The Secretary shall be bound to perform the following duties in addition to those specified in the preceding rules—

- (1) to take charge of the records of the Council;
- (2) to keep the prescribed books;
- (3) to attend all meetings and to take minutes of the proceedings;

V. The names of the candidates for each Group who have signified their intention to stand for election and whose candidature may be approved by Government shall be notified in the Official Gazette.

VI. (1) One vote will be allowed to each of the Non-official Members of the following bodies in favour of any one candidate from among the list of candidates approved for the Group concerned.—

- (i) (a) District Boards, (b) Municipalities of Mysore and Bangalore.
- (ii) Taluk Boards.
- (iii) Sanitary Board, Kolar Gold Fields.
- (iv) Every Municipality other than the City Municipalities of Bangalore and Mysore.
- (v) Persons qualified to vote at the last preceding occasion for election of Members for the Dasara Representative Assembly, living in each Taluk or Sub-Taluk as separate bodies. (*Vide* the list of electors published under Rule 5 of the rules regarding the constitution of Representative Assembly as revised by Notification No. G. 1803, dated 6th September 1907.)

(2) No person shall vote more than once by reason of his being a Member of more than one of the bodies specified above.

(3) Such persons should intimate beforehand as to where they would vote, to the President or Chairman and also to the Deputy Commissioner where he is not such President or Chairman.

VII. The voting in all cases shall be by ballot and shall take place in the following manner on the dates notified by Government in the Official Gazette:—

- (a) Each member of the bodies entitled to vote as specified in Rule VI except those under (1) shall be requested to vote in a meeting held for the purpose for one person out of the approved list of candidates for that Group published under Rule V. The meeting of each body shall be held in its ordinary place of business, that of the electors falling under (5) being convened in the headquarters of the Taluk or Sub-Taluk concerned, by the Amildar or the Deputy Amildar as the case may be.
- (b) The Chairmen or Presidents of such bodies shall count the votes and enter the name of the candidate who gets the highest number of votes in the voting paper supplied to them for that purpose and shall forward the same in a sealed cover to the General and Revenue Secretary to Government together with a report and all the voting papers. If more than one person have the highest number of votes, the names of all such persons shall be entered in the voting paper.

VIII. The Non-official Members (elected or nominated) of the bodies mentioned in class (1) of Rule VI shall each record one vote for one of the persons mentioned in the appended list of candidates published under Rule V. The Chairman of the meeting or President of the body shall forward all the voting papers in a sealed cover to the Secretary, General and Revenue Departments, together with a list of the Members who attended the meeting.

IX. The Secretary to Government, General and Revenue Departments, shall, subject to special instructions, if any, on each occasion, personally open all the covers containing the votes for each Group and shall count the same.

X. The candidate who secures the highest number of votes in a Group or, if more than one candidate secures such number, one of such candidates may be nominated by Government as a Member of the Legislative Council for that Group.

XI. The Government may make such supplementary rules of procedure as may be necessary for the disposal of business at the meeting of the electoral bodies held under Rules VII and VIII.

By Order,
D. M. NARASINGA RAO,
Deputy Secretary to Government,
General and Revenue Departments.

NOTIFICATION.

No. J. 2291.—Legis. 20-13 1, dated 12th February 1914.

In exercise of the powers conferred by Section 12 A. of the Mysore Legislative Council Regulation, 1907, the Government of His Highness the Maharajah are pleased to make the following rules for the discussion of the Budget, and the asking of questions, in the Legislative Council.

I. Rules for the Discussion of the Budget in the Council.

1. The Budget of the Government shall be explained in Council, before the beginning of the year for which it is framed, by the President or one of the Members deputed by the President and a printed copy given to each Member.
2. After each explanation, each Member shall be at liberty to offer any observations he may wish to make on the Budget.
3. The Member who explained the Budget shall have the right of reply, and the discussion shall be closed by the President making such observations, if any, as he may consider necessary.
4. No discussion shall be permitted in regard to any items of receipt or expenditure relating to any subject removed from the cognizance of the Mysore Legislative Council by the Proviso to Section 12 (a) of the Mysore Legislative Council Regulation, 1907.

II. Rules for Asking Questions in the Council.

5. Subject to the conditions and restrictions contained in the following rules, any of the Non-official Members of the Council (elected or nominated) may ask any question on matters of public interest or importance.
6. No Member shall be allowed to send up more than three questions for any session of the Council.
7. No question shall be asked or answered in the Mysore Legislative Council as to any matters or branches of the Administration relating to the subjects removed from the cognizance of the Mysore Legislative Council under the Proviso to sub-section (2) of Section 12 of the Mysore Legislative Council Regulation, 1907.
8. Questions must be so framed as to be merely requests for information and must not be in an argumentative or hypothetical form or defamatory of any person or section of the community, and each question must deal with a single subject though it may be divided into convenient subordinate questions.

9. The member wishing to put any questions shall send them up at least ten days before the date fixed for the meeting, to the Secretary to the Legislative Council, the notice being signed by as many other Non-official Members as may wish to support the question.

10. If more than 12 questions are received, the number of questions to be answered will be selected on the grounds of the importance of the questions, priority of their receipt and the measure of support which they may have received from other Non-official Members.

11. The President may disallow any question without giving any reason therefor other than that in his opinion it cannot be answered consistently with the public interests, and in such case the question shall not be entered in the Proceedings of the Council.

12. The President may, if he thinks fit, allow a question to be asked with shorter notice than ten days and may in any case require longer notice, if he thinks fit, or extend, if necessary, the time for answering a question.

13. All the questions which are allowed by the President in accordance with the foregoing provisions shall be entered in the Agenda paper for the meeting of the Legislative Council. If any of the remaining questions are repeated by the same Member for any subsequent session of the Legislative Council, they will have precedence over new questions.

14. A question shall be read by the Member by whom it was framed or in his absence, if he so desires, by some other Member in his behalf, and the answer shall be given either by the President or any Member whom he may designate for the purpose.

15. The President may rule in his discretion that an answer to a question on the Notice Paper, even though the question be not put, shall be given on the ground of public interest.

16. No discussion shall be permitted in respect of an answer given to a question asked under these rules.

17. The question asked and the answer given to it shall be entered in the Proceedings of the Council.

By Order,

D. M. NARASIMHA RAO,
Deputy Secretary to Government,
General and Revenue Departments.

NOTIFICATION.

No. 243—L.C., dated 21st April, 1914.

Under the powers noted in the Mysore Legislative Council, by Section 11 of the Mysore Legislative Council Regulation, 1907, the following amendments of the rules for the conduct of business at the meetings of the Mysore Legislative Council was passed by the Council at the meeting held on the 14th April 1914.

Amendment.

"In the first sentence of Rule 58 of the rules for the conduct of business of the Mysore Legislative Council, the words 'who will take orders of the President thereon' shall be omitted."

By Order,

S. P. RAJAGOPALACHARI,
Secretary Mysore Legislative Council.

THE MYSORE MINES REGULATION.

REGULATION No. IV OF 1906.

(Passed on the 24th day of July 1906.)

A Regulation to Consolidate and Amend the Law Relating to Mines in Mysore.

Preamble.

Whereas it is expedient to consolidate and amend the law relating to Mines in Mysore; His Highness the Maharajah is pleased to enact as follows:—

PRELIMINARY.

1. This Regulation may be called "The Mysore Mines Regulation, 1906."

Short title.

It extends to the whole of Mysore, and shall come into force on the first day of September 1906.

Local extent and commencement.

2. The Mysore Mines Regulation, 1897, and Regulations I and VI of 1900 are hereby repealed.

Repeal.

Interpretation.

3. In this Regulation, unless there be something repugnant in the subject or context.

Mining operation.

(1) "Mining operation" includes—

- (a) the carrying on of any underground or surface work in connection with the prospecting for, or the mining, winning, dressing, milling and treatment of ores, minerals and mineral products of every description;
- (b) the erecting, making and using of, and otherwise dealing with, for purposes of such work, any railway, tramway, road, building machinery and other plant; and
- (c) the manufacture, carriage, storage and use of all explosives, chemicals and other materials to be employed in such work.

(2) "Mining Block" means any block or area of land in and upon which the right to carry on mining operations is held by a Mining Proprietor under a Mining Lease granted by the Government.

Mining block.

(3) "Mine" means any place above or below ground where any mining operation is carried on, and includes all such portions of the surface of any mining block whereon the right of entry has been acquired by purchase or otherwise by a Mining Proprietor.

Mine.

Mining Proprietor.

(4) "Mining Proprietor" or "Proprietor" means any person or persons or company on whose behalf any mining operations are carried on.

(5) "Mining Superintendent" or "Superintendent" means the person who is the local representative of a Mining Proprietor, and includes an Agent or Manager in charge of any mine on behalf of a Mining Proprietor.

Mining Superintendent.

THE MYSORE MINES REGULATION.

(6) "Mining material" includes.

Mining material. (a) alluvial gold, gold ores, native gold, precious stones and other rocks and minerals of value ;

(b) gold amalgam, sponge gold, zinc precipitates, slags, concentrates, tailings, residues and other valuable mineral products of mines in any stage of treatment or extraction, and mercury, potassium, cyanide and other chemicals, apparatus, tools, marked with the distinguishing mark of the mine, and materials used in such treatment and extraction ;

(c) dynamite, nitro-glycerine, blasting gelatine, gelatine dynamite, fuse, detonators and other explosives used or intended to be used in mining operations ;

(d) stearine candles distinguished by the wax being of a light pink colour: and

(e) such other materials and things used or intended to be used in mining operations as may be declared by the Government from time to time; by notification published in the official Gazette to be mining materials

(7) "Unwrought gold" includes bar gold, gold bullion and any alloy containing gold in any form whatever which though smelted is not made up into articles of jewellery, vessels, coins, or other articles of use or commerce.

Unwrought gold.

(8) "Gold dealer" means any person who buys or sells unwrought gold, or receives unwrought gold by way of barter or pledge.

Gold dealer.

(9) "Goldsmith" means any person who, by profession, melts, refines, or works in unwrought gold or silver, or engages in the melting or manufacture of articles made of gold or silver or of alloys containing gold or silver, and includes a silversmith.

Goldsmith.

(10) "Inspector of Mines" includes any officer to whom all or some of the duties of an Inspector of Mines under this Regulation shall have been delegated, by a general or special order of the Government, so far as the performance of such duties is concerned.

Inspector of Mines.

Protection of Mining Property.

Sections 5 to 20 may be applied to specified areas.

4. (1) The provisions of sections 5 to 20, inclusive shall not apply to any local area unless extended there to by the Government by a notification published in the Official Gazette.

(2) The Government may, by a like notification, cancel or modify any notification issued under sub-section (1).

5. No person shall purchase or take in barter or exchange any mining material belonging to a Mining Proprietor without the written permission of such Mining Proprietor or his Superintendent, nor shall any person, without such written permission, receive, convey, or except in such places as may be specially authorized, keep, any such mining material otherwise than for use for mining purposes on behalf of such Mining Proprietor or his Superintendent.

6. Any person found to be in possession of any mining material without the written permission of a Mining Proprietor, or Superintendent, and unable to prove that his possession of the same was obtained in a lawful manner, shall, on conviction before a Magistrate, be liable to the penalty provided in section 13.

Penalty for unlawful possession of mining materials.

7. It shall not be lawful for any person to buy or sell unwrought gold or to receive unwrought gold by way of barter or pledge without a gold dealer's license, nor to carry on the profession of a goldsmith without a goldsmith's license as hereinafter provided.

Provided that it shall not be necessary for a Mining Proprietor to take out a goldsmith's license on account of the smelting, refining or other preparation of any gold obtained from his mine by any persons acting on his behalf.

8. (1) The licenses referred to in section 7 may be issued by a Magistrate of the First Class on payment of such fees as the Government may by rule, prescribe in that behalf and every license shall terminate on the 31st day of December of the year in which it is issued.

Power to grant a license.

(2) Every gold dealer's and every goldsmith's license, and every application for a license, shall, respectively, be in such forms as may be prescribed by Government.

9. No license shall be issued to any applicant unless the Magistrate is satisfied that he is a person of good character and reputation, and it shall be in the absolute discretion of the Magistrate to grant or withhold such license as he may think fit. Any license may be cancelled by a First Class Magistrate on the licensee being convicted of any offence—such conviction not being reversed on appeal or in revision—wherein the opinion of the Magistrate renders him unfit to hold a license. Provided that any decision under this section by a Magistrate other than the District Magistrate shall be appealable to the District Magistrate, whose order shall be final.

Power to cancel a license.

10. (1) Every licensed gold dealer shall keep at his place of business a book (hereinafter called a gold dealer's register) in which the receipt or disposal of all unwrought gold shall be immediately entered in such forms as may be prescribed by Government.

Books to be maintained.

(2) Every licensed goldsmith shall keep at his place of business a book (hereinafter called a goldsmith's register) in which the receipt or disposal of all gold silver, gold or silver jewellery, unwrought gold or other gold stuff, received, treated, or disposed of by him shall be immediately entered in such form as may be prescribed by Government.

(3) Every gold dealer's register and every goldsmith's register together with any article or items of gold referred to therein and in the possession of the licensee shall be open to inspection at any time by any police officer not below the rank of Chief Constable, or any police officer specially authorized in this

behalf by the Superintendent of Police or by a First Class Magistrate; provided that the person making such inspection shall not divulge the result thereof to any person other than a police officer or Magistrate or by order of a Court, under a penalty on conviction not exceeding one hundred rupees.

11. No licensed goldsmith shall smelt, work, use or deal with any of the articles directed to be entered on his register under section 10 until after the expiry of three clear days from the time when such article is received by him. Provided that this section shall not apply to the repacking of articles of jewellery by a goldsmith in any way which does not change or destroy the identity of such articles.

12. It shall not be lawful for any person to have in his possession any unwrought gold unless he holds a gold dealer's license or a gold smith's license, or unless he is a Mining Proprietor or duly accredited person acting on behalf of a Mining Proprietor.

13. Any person committing an offence under section 5, 6, 7, 11 or 12 shall, except in the case mentioned in the proviso to subsection (8) of section 10, be liable on conviction to fine not exceeding five hundred rupees, or imprisonment of either description for a term which may extend to one year, or both.

14. It shall be in the discretion of the Magistrate, in the case of any person, not being a female or other person exempted under section 393 of the Code of Criminal Procedure, who shall be convicted of a second offence under section 5, 6, 7, or 12, to award whipping under the provisions of the Mysore Whipping Regulation V of 1903, either in substitution of, or in addition to, the penalty provided in section 13.

15. Any police officer, not below the rank of an officer in charge of a police station may search any person or any house, building or place for the discovery of any mining material, unwrought gold or other thing with or in respect of, which an offence under this Regulation is reasonably suspected to have been committed.

16. Any person being the tenant or occupier or reputed tenant or occupier of any premises, at the time when any unwrought gold or mining material reasonably suspected of being stolen or unlawfully obtained is found thereon and seized by any police officer, shall be deemed to have been in possession of such unwrought gold or mining material within the meaning of section 12 or 8 as the case may be, until he proves the contrary.

17. Any person not employed in a mine who shall have been directed to quit such mine by an order in writing signed by the Superintendent of the Mine, and who subsequently such order remains at or re-enters upon the mine without the permission of the Superintendent, and person not employed at any mine who shall have

directed to vacate a Government cooly colony by an order in writing signed by the Superintendent of Police, and who subsequently to such order remains in or returns to such Government cooly colony without the permission of the Superintendent of Police, shall be liable on conviction before a Magistrate to the penalty provided in section 19.

18. No hawker or pedlar shall carry on his business without a license in writing obtained for that purpose from a Magistrate of the First Class. Licenses shall be issued subject to such conditions and the levy of such fees as Government may prescribe. Any person carrying on such business without a license as aforesaid, or acting in contravention of any of the conditions of such license, shall be liable on conviction before a Magistrate to the penalty provided in section 19.

19. Any person committing an offence under section 17 or 18 shall be liable on conviction to fine not exceeding one hundred rupees or imprisonment of either description for a term not exceeding three months or both.

20. All offences under sections 5, 6, 7, 10, 11, 12, 16, 17 and 18 of this Regulation shall be cognizable by the police.

Safety and Discipline of Mining Employees and Inspection of Mines.

21. All mining operations carried on in Mysore shall be conducted in accordance with such general or special rules for the prevention of danger to human life or safety, and for the reporting and investigation of accidents and other matters connected with such mining operations, as may from time to time be prescribed in that behalf by the Government.

22. (1) Each Mining Proprietor may, either directly or through his Superintendent, prescribe, with the previous sanction of the Government, such further rules, not being inconsistent with this Regulation or the rules issued under the last preceding section, for the conduct and guidance of persons who have the management of his mine, and of those who are employed in or about the said mine, as may be considered necessary to meet the particular circumstances of the said mine, and calculated to prevent accidents likely to cause danger to human life or safety, and to provide for the safety and proper discipline of the persons employed in or about the said mine.

(2) The Government may at any time cancel or vary any sanction granted under this section.

23. Every Mining Proprietor and his Superintendent shall publish the rules prescribed under sections 21 and 22 of this Regulation in such manner that all persons engaged in or about the mine shall, have an opportunity of knowing adequately such rules as may relate to the work they are employed upon.

24. Every person who contravenes, or does not comply with, any rule duly prescribed under section 21 shall, for every such offence, be liable to a fine not exceeding one hundred rupees; and in the case of any contravention of, or non-compliance with, any such rule by any person whatsoever being proved, the Superintendent of the Mine shall be liable to a like penalty, unless he proves that he had taken all reasonable means by publishing and to the best of his power, enforcing the said rule in the working of the mine to prevent such contravention or non-compliance.

25. The Government may appoint an officer to be called the Inspector of Mines, whose duty it shall be to inspect and examine the mines periodically for the purpose of satisfying himself that the provisions of this Regulation and the rules prescribed under sections 21 and 23 thereof are strictly enforced, and for enquiring generally into the mode of carrying on mining operations.

Powers of Inspector. 26. The Inspector of Mines shall have power to do all or any of the following things, namely:—

- (i) to make such examination and inquiry as may be necessary to ascertain whether the provisions of this Regulation and the rules framed thereunder are complied with in the case of a mine;
- (ii) to enter, inspect and examine any mine and every part thereof, at all reasonable times by day and night, but so as not to impede or obstruct unreasonably the working of the mine;
- (iii) to examine into, and make enquiry respecting, the state and condition of any mine or any part thereof and the ventilation of the mine, and the sufficiency of the special rules for the time being in force in the mine, and all matters and things connected with or relating to the safety of the persons employed in or about the mine; and
- (iv) to exercise such other powers as may be necessary for the due discharge of his duties under this Regulation.

The examination and enquiry referred to in this section may be carried out by any officer to whom the Inspector of Mines may, in accordance with a general or special order of the Government, delegate the same.

27. Every Mining Proprietor or Superintendent shall furnish the Inspector of Mines, on requisition, with the means necessary for making any entry, inspection, examination or inquiry under this Regulation, and in case of non-compliance with such requisition, shall be liable to a fine not exceeding one hundred rupees.

28. If the Inspector of Mines finds that in any mining operation, the provisions of this Regulation or of the rules thereunder are not duly observed, or that any mine or part thereof or any matter, thing or practice in or connected with such mine, or with the control, management or direction

thereof, is dangerous to human life or safety, or defective so as to threaten or tend to the bodily injury of any person, he may give notice in writing to the Mining Proprietor or his Superintendent, stating the particulars in which he considers the provisions of this Regulation or the rules aforesaid are not observed, or the mine or any part thereof or any matter, thing, or practice is dangerous or defective, and require the same to be remedied within a specified time.

29. The Inspector of Mines shall forthwith forward to the Magistrate of the District, and to any other Magistrate specially empowered by the Government, a copy of every notice under section 28 which requires anything to be done or remedied so as to prevent danger to human life or safety, and he shall also report to such Magistrate as aforesaid the compliance or non-compliance with every such notice as aforesaid.

The Inspector of Mines shall report to the Government every non-compliance with a notice issued under section 28.

30. If the Mining Proprietor or his Superintendent objects to comply with any requisition in a notice under section 28, he may, within ten days after receipt of the notice, send his objection in writing, stating the grounds thereof, to the Government, and thereupon this matter shall be determined by arbitration in the manner provided by the Regulation.

Provided that nothing in this section shall effect the powers of a Magistrate under section 144 of the Code of Criminal Procedure.

31. Arbitrations under this Regulation shall be conducted in accordance with the following provisions:—

- (a) Within fourteen days after the lodging of an objection under the last preceding section, the Mining Proprietor or Superintendent, and the Inspector of Mines on behalf of the Government, who shall both be deemed to be parties to the arbitration, shall each nominate an arbitrator.
- (b) The arbitrators, before entering upon their duties shall nominate another person as umpire.
- (c) No person who has no knowledge of mining work shall be an arbitrator, and no person who is not a Justice of the Peace or a District Judge or a Magistrate of the First Class shall be an umpire; nor shall any person act as arbitrator or umpire who is employed or interested in the management of the mine to which the arbitration relates. Every objection to the qualification of an arbitrator shall be preferred in writing at the earliest opportunity to the Magistrate of the District, whose decision thereon shall be final:

Provided that no such objection shall be taken after the award has been made.

- (d) If the arbitrator appointed by either party fails to proceed with the arbitration for seven days consecutively, or if he cannot proceed with it owing to death, sickness or other cause, the other party may, by notice in writing, require the appointment of another person in his place.

- (e) If the umpire similarly fails to act in the matter of arbitration, either party may call on the arbitrators to appoint another person in his place.
- (f) If, within seven days after the receipt of a notice under clause (d) or (e) no new arbitrator or umpire has been appointed, or where the arbitrators do not agree to appoint an umpire, the District Magistrate shall, on the application of any of the parties, appoint a proper person as arbitrator or umpire, as the case may be.
- (g) The arbitrators or the umpire, as the case may be, may examine the parties and their witnesses on oath; and for this purpose, any Magistrate having local jurisdiction shall, on their requisition in writing, summon the witnesses to appear before them, or produce documents in their possession.
- (h) When both the arbitrators are agreed on the matters referred to them their decision shall be final; but whenever there is a difference on all or any of such matters, the matters in difference shall be submitted to the umpire whose decision thereon shall be final.
- (i) The payment (if any) to be made to an arbitrator or umpire for his services shall be fixed by the Government; and, together with the cost of the arbitration or award (to be taxed as in a proceeding in a Civil Court), shall be paid by the parties or one of them, as the award may direct.
- (j) Every proceeding held by the arbitrators or umpire under this section shall be deemed to be a judicial proceeding within the meaning of sections 198, 219 and 228 of the Indian Penal Code.
- (k) The Government may, from time to time, make such additional rules as it may deem necessary for the conduct of arbitrations under this Regulation, but not so as to be inconsistent with any of its provisions.

82. Any person who intentionally omits to comply with a notice under section 28 except when an objection has been duly lodged under section 30 or with the terms of an award made under section 31, shall, for every such omission be liable to a fine not exceeding one thousand rupees and in case the omission has been intentional, to a further fine not exceeding one hundred rupees for each day the omission continues.

Provided that the Court, if satisfied that the Mining Proprietor or Superintendent has taken active measures for complying with the notice or award, but has not with reasonable diligence been able to complete the works, may adjourn the proceedings taken before it for punishing the offence, and if the works are completed within a reasonable time, no penalty shall be inflicted.

83. Where any person is guilty of any offence under this Regulation which in the opinion of the Magistrate who tries the case is one which was reasonably calculated to endanger the safety of any person or to cause serious personal injury to any person or to cause a dangerous accident, and is committed by the personal act, personal default, or personal negligence of the person accused, such person shall be liable to imprisonment for a term not exceeding six months or to a fine not exceeding one thousand rupees, or to both, at the discretion of the Court.

shall be liable, if the Court is of opinion that a pecuniary penalty will not meet the circumstances of the case, to imprisonment of either description for a period not exceeding three months.

Sanitation.

Power of Government to make rules for sanitation and sanitary administration.

34. (1) The Government may, from time to time, make rules for the special sanitation and sanitary administration of any local area within which mining operations may be carried on.

(2) In particular, and without prejudice to the generality of the foregoing provision, such rules may provide—

- for regulating the disposal of kitchen and stable refuse, animal refuse of all kinds, and night-soil or other such offensive matter;
- for conserving and guarding against pollution all sources of water supply;
- for preventing overcrowding in bazaars, in coolie lines, and in streets or houses for work-people or others;
- for the proper cleansing of drains, sewers, latrines and urinals;
- for regulating the keeping of cattle and other animals, the location of sheds for them, and the fixing or licensing of slaughter-houses; and authorizing the levy of rent or fees for the use of the same or a fee on each animal slaughtered therein at such rates as may be prescribed from time to time; and
- for the proper and timely treatment of persons affected with cholera or other epidemic disease, and for preventing the spread of such disease by temporarily prohibiting persons affected or suspected to be affected with it from moving to or from particular specified places or travelling on particular specified routes.

(3) The local area for which the rules under this section are made shall be described in a notification published in the Official Gazette.

35. (1) For the purpose of carrying out the rules made under the last preceding section, the Government may appoint any persons, official or non-official or both, residing within or in the vicinity of such area, to constitute a Sanitary Board, and invest such Board with powers for the enforcement of the said rules, and prescribe the mode in which such Board shall conduct its business for carrying on the said rules.

(2) The powers with which the Sanitary Board may be invested under this section include—

- power to prescribe bye-laws, with the previous sanction of Government, for the special sanitation of the area under its authority and for the conduct of its business;
- power to levy, with the like sanction, such tax, rate or cess within the said area as a Municipal Council would be competent to levy under the law in force relating to Municipalities.

Punishment for breach of rules and bye-laws.

36. For every breach of a rule made under section 34 or of a bye-law made under section 35 the offender shall be liable to a fine not exceeding rupees one hundred.

General.

37. The Government may frame rules requiring the delivery or periodical returns of work done, workmen employed, the output from the mine of minerals and mineral ores, and such other information as the Government may think fit to demand; and for the furnishing of samples of quartz and other rocks and minerals mined or met with in the course thereof, and prescribe a fine not exceeding one hundred rupees for every breach of such rules.

Abetment of offences under this regulation.

38. The abetting (within the meaning of the Indian Penal Code) of any offence under this regulation shall be punishable in the same manner as the offences itself.

Offences against Regulation and rules by whom cognizable.

39. All offences punishable under the Regulation and all breaches of any rules or bye-laws made thereunder shall be cognizable by the District Magistrate or a Magistrate of the First or Second Class.

Provisions of the Code of Criminal Procedure to apply to searches.

40. The provisions of the Code of Criminal Procedure relating to searches shall, so far as may be, apply to all searches made or instituted under this Regulation.

Publication of rules and bye-laws.

41. All rules and bye-laws made under this regulation shall be published in the Official Gazette, and shall thereupon have the force of law.

(Signed) V. P. MADHAVA RAO,
Deputy.

Rules for the Grant of Exploring and Prospecting Licences and Mining Leases in the State of Mysore.

Notification by the Government of His Highness the Maharajah of Mysore.

Geological.

No. 900, dated 29th October 1910.

In supersession of all previous notifications on the subject, the Government of His Highness the Maharajah of Mysore are pleased to prescribe the following rules for the grant of Exploring and Prospecting Licences and Mining Leases in the Mysore State. The rules shall come into force with effect from the date of publication of this Notification in the *Mysore Gazette*.

Rules for the Grant of Exploring and Prospecting Licences and Mining Leases in the State of Mysore.

1. In these Rules—

"The Government" means the Government of His Highness the Maharajah of Mysore.

"Persons" includes any Persons, Syndicate, Partnership or Company.

2. Exploring, Prospecting or Mining for minerals shall not be carried on within the State of Mysore except under licenses or leases granted under these rules or with the special sanction of the Government.

I—Exploring Licences.

3. Persons desirous of exploring for minerals within the State of Mysore may obtain an Exploring License on application to the Secretary to Government in the Geological Department by whom any license granted shall be signed on behalf of the Government.

4. Each application shall be accompanied by a fee of Rs. 10.

5. The application shall state the district in which it is desired to explore and each license granted shall ordinarily be valid for one district only. Government may refuse to grant a license to any person, in which event the fee shall be returned, or may, at their discretion, limit the area to which the license shall apply or specifically exclude any mineral from the license.

6. Such license shall not authorize the licensee to mine or quarry, but he may turn up the surface of the land, dig trenches and sink pits to such depth and subject to such conditions as the Deputy Commissioner may permit.

7. No private or occupied lands and no lands over which exclusive mineral rights have been granted or may at any time during the currency of the license be granted others may be entered upon or explored without the consent of the owner, occupier or possessor thereof.

8. Every license shall be in Form No. 1 hereto appended and shall be valid for one year. Such license shall confer no exclusive or preferential rights, but in considering rival claims for a prospecting license or mining lease, due regard will be had to operations conducted under cover of an Exploring License.

9. Under exceptional circumstances, the Government of Mysore may confer on a licensee special protection in regard to any specified mineral or minerals during the whole or any portion of, the term of his license. Such special protection shall be designed to secure to a *bona fide* worker a fair and reasonable area over which he shall be entitled to obtain a prospecting license or a mining lease as provided for hereunder and shall be conferred only in cases in which, in the opinion of Government, it would be unreasonable or undesirable to insist on the area for a prospecting license or a mining lease being selected at once.

10. The licensee shall be at liberty, subject to such restrictions as the Government may from time to time impose, to remove specimens or samples of minerals in reasonable quantities for purpose of testing, but not for sale.

II.—Prospecting Licenses.

11. Applications for licenses to prospect for minerals within the territories of Mysore shall be made to the Secretary to Government in the Geological Department in Form No. 11 hereto appended.

12. Each application shall be in respect of a specified block of land not exceeding ten square miles in area, which shall be, as far as possible, in the shape of a rectangle of which the length must not under ordinary circumstances exceed twice the breadth.

13. The Government reserve to themselves the power of refusing to grant a prospecting license in respect of any block without assigning a reason or to impose such special terms as they may in their absolute discretion think desirable.

14. Every prospecting license granted under these rules will be in Form No. 11 appended hereto and will be valid for one year, but the Government may at their discretion renew any license from year to year on payment, in advance, of an annual rent which may be determined upon separately for each period of renewal.

15. Every application must be accompanied by—

(a) A sheet, extract or correct tracing of the Topographical Survey Map of Mysore (scale 1 inch to a mile) upon which the boundaries of the block for which a license is required have been clearly marked.

(b) A schedule giving the names of the villages included (either wholly or partly) in the prospecting block together with the Taluk and District in which they are situated and stating the area of the block in square miles.

(c) A schedule stating the mineral or minerals in respect of which the license is applied for.

(d) A fee of Rs. 10 per square mile or a portion of a square mile of the area applied for.

16. On receipt of any application, Government will, if they decide to grant a license, inform the applicant of the amount of the rent and the deposit due thereon and of any special terms which they may consider desirable to impose. Within such time as may be fixed by Government in each case the applicant shall pay the amount of the rent and deposit specified and such payment shall be held to involve the acceptance of any special terms of which the applicant has been informed.

17. The rent payable in respect of a license shall be not less than one anna and not more than one rupee per acre of the area granted.

18. The deposit payable in respect of a license shall be at the rate of Rs. 100 per square mile or portion thereof of the area granted. This deposit shall be held as security for the due fulfilment of the provisions of these rules and of the terms of the license and, subject to any deductions in this respect, shall be returnable to the licensee after the termination of the license.

19. The block of land over which the prospecting license is granted need not be surveyed and demarcated; but, in the event of any doubt or dispute arising as to the boundaries of the block or whenever in the opinion of Government

survey is necessary or desirable the Secretary to Government in the Geological Department shall order the survey and demarcation of the block to be made either with or without an application for the same from the licensee, and the licensee shall pay the expenses of the survey and demarcation. The boundaries of the block of land for which a prospecting license has been granted shall be marked on the map attached to the license and the decision of Government in regard to the boundaries and demarcation of the block shall be final.

20. Until the license is signed by the Secretary to Government in the Geological Department, the applicant shall not be entitled to exercise any of the privileges of a licensee.

21. If the applicant neglects to comply with the preceding rules or fails to pay the rent and deposit within the time prescribed under Rule 16 or declines to accept a license which has been offered to him under Rule 16, his application shall be cancelled and the fee paid therewith forfeited to Government except as provided under Rule 23.

22. If the applicant withdraws his application before the orders of Government thereon are communicated to him, the fee paid therewith under Rule 16 shall be forfeited to Government.

23. If the license is refused under Rule 13 or if the applicant within such time as may be fixed by Government under Rule 16 declines to accept any special terms of which he has been informed, his application shall be cancelled and the fee received therewith shall be returned to him.

24. The licensee will be entitled to select for mining purposes, any time during the currency of his license, a block of land, not exceeding one square mile in area and not more than one mile in length, within the area specified in his license, and to obtain a mining lease of the block so selected in respect of any mineral or minerals (with the exception of precious stones and alluvial minerals) specified in his license in accordance with and subject to the provisions of the rules contained herein. Provided that a licensee shall not be entitled to obtain mining leases over a total area of more than ten square miles. In the case of precious stones and alluvial minerals, the holder of a prospecting license will be entitled to a mining lease upon the special terms (if any) provided in his license; and in the event of there being no such special provisions, to the first refusal of such mining lease as the Government may decide to grant.

As soon as a mining lease has been granted under this rule the prospecting license shall immediately cease and determine.

25. If the licensee discovers any mineral of value within the area specified in his license, he shall immediately report the discovery to the Secretary to Government in the Geological Department. Failure to comply with this provision will render the license liable to be cancelled and the deposit forfeited. If the mineral so reported is not one of those in respect of which the license has been granted, the licensee may apply to Government to have the said mineral added to those already specified in his license and it shall be within the discretion of Government to accede to or refuse the request or to impose such special terms as they may think fit. As a rule and under ordinary circumstances such requests will be complied with provided that the rights sought to be secured in respect of the mineral applied for are freely at the disposal of Government.

26. A prospecting license shall not be assigned nor any right or interest thereunder transferred without the consent in writing of the Government. The application for such consent must be made by the licensee himself or by his legal representative and the license itself must be forwarded with the application together with a draft or document setting forth fully and clearly the terms of the proposed assignment or transfer. If Government decide to consent to the transfer, they shall inform the licensee to that effect and the licensee shall, within such period as may be specified by Government, have the document duly stamped and registered and shall forward a certified copy of the same to the Secretary to Government in the Geological Department who shall thereupon endorse upon the license the consent of Government to the transfer and return the license to the licensee. Until the license has been so endorsed no assignment or transfer of rights shall be valid.

Failure to comply with the provisions of this rule will render the licensee liable to be cancelled and the deposit forfeited.

27. If the licensee desires the renewal of a prospecting license, he shall apply for a renewal and shall forward the license together with the amount of the rent payable for one year to the Secretary to the Government in the Geological Department, not less than seven days before the date on which the license terminates.

28. Within three months after the date on which a license has expired the licensee shall forward the license to the Secretary to Government in the Geological Department and shall, at the same time, apply for the refund of the deposit failing which the deposit will be liable to be forfeited.

. III. Mining Leases.

29. Applications for mining leases within the territories of Mysore shall be made to the Secretary to the Government in the Geological Department in Form No. IV appended hereto.

30. Every application shall be in respect of a specified block of land exceeding one square mile in area. The block shall be in the shape of a rectangle of which the length must not under ordinary circumstances exceed four times breadth. The boundaries of the mining block shall be considered to run vertical downward towards the centre of the earth.

In the case of precious stones or alluvial deposits the area to be granted under a mining lease will be determined in each case by the Government.

31. Every mining lease granted under these rules will be for a period exceeding thirty years and will be in Form No. V appended hereto.

32. Every application must be accompanied by :-

- (a) A fee of Rs. 100.
- (b) A sheet, extract or correct tracing of the Topographical Survey map of Mysore (scale 1 inch to a mile) upon which the boundaries of the block applied for have been clearly marked.
- (c) A schedule giving the names of the villages to which the lands comprised within the block belong, with the Taluk and District in which each is situated.

- (d) A schedule specifying the mineral or minerals in respect of which the mining lease is applied for.

33. On receipt of any application, Government will, if they decide to grant a lease, inform the applicant of their decision and of the special terms, if any, which they may consider desirable to impose and the applicant shall, within one month of receiving this information, deposit with the Secretary to Government in the Geological Department a sum of Rs. 1,000 as security for the due fulfilment of the provisions of these Rules and of the terms of the lease. Subject to any deductions in these respects, the deposit will be returnable to the lessee after the termination of the lease.

If Government decline to grant a lease or if the applicant declines to accept any special terms which may be imposed, the fee of Rs. 100 paid with the application will be returned.

34. The applicant shall point out to an officer deputed for the purpose by the Secretary to Government in the Geological Department, the boundaries of the block of land applied for within a fortnight of the date on which he may receive an intimation to that effect or within such longer period as may be fixed by Government and the officer so deputed shall thereupon survey the block and erect or cause to be erected such boundary marks as may be requisite.

35. If from any cause the completion of the survey and demarcation of a mining block is likely to be unduly delayed, the Government may grant the lease in respect of a block of land shown on an extract from the Topographical Survey Map of Mysore which shall be attached to the lease. On subsequent survey and demarcation, the boundaries of the block of land to which the lease refers shall be determined by Government and their decision shall be final and shall be accepted by the lessee who shall, on demand, pay the cost of the survey and demarcation.

36. After the completion of survey and all necessary enquiries, a form of the lease to be executed and a bill for the survey and demarcation expenses will be sent to the applicant, who shall, within a month of receiving such communication, tender for execution by the Dewan of Mysore the lease executed by himself and duly stamped, paying at the same time the cost of the survey and demarcation.

37. The applicant's title to the land applied for will not be complete until the lease is actually executed by the Dewan.

38. The lease shall, after execution, be registered by both parties under the law for the time being in force for the registration of assurances, and shall within one month of the date of registration, be forwarded by the lessee for information and record to the Secretary to Government in the Geological Department who will return it to the lessee after noting its contents.

39. If the lessee discovers any mineral of value within the area specified in his lease, he shall immediately report the discovery to the Secretary to Government in the Geological Department. If the mineral so reported is not one of those in respect of which the lease has been granted, the lessee may apply to Government to have the said mineral added to those already specified in his lease and it shall be within the discretion of Government to accede to or refuse the request or to impose such special terms as they may think fit. As a rule and under ordinary

circumstances such requests will be complied with provided that the rights sought to be secured in respect of the mineral applied for are freely at the disposal of Government.

Provided that if any mineral of value is known to occur on or within the mining block, Government may give the lessee the option of having such mineral added to those specified in the schedule to his lease and in the event of the lessee declining to exercise the option upon the terms offered, Government shall have power to grant a prospecting license or mining lease in respect of such mineral to any other person.

40. The lessee shall not assign his lease or transfer any right or interest thereunder to a person except with the previous consent of the Government in writing.

The lessee shall in applying to Government for permission to transfer or assign the lease, report to Government the name and financial position of the assignee and also submit for approval a draft of the proposed deed of assignment. When the Government has communicated its assent to the transfer and to the deed of assignment, the deed of assignment or document of transfer shall be duly stamped and registered in accordance with the laws in force in the State of Mysore at the time and a certified copy thereof deposited with the Mysore Government in the Geological Department within three months of the date of execution thereof.

41. Failure to comply with the preceding rules will render the application and lease liable to be cancelled and the deposit forfeited.

IV. General.

42. The royalties payable to Government in respect of minerals worked under a prospecting license or mining lease are set forth in the schedule here. The rates are liable to alteration from time to time, due notice of which will be published in the Official Gazette.

43. The Government will require the strict performance of the provisions and conditions contained in any prospecting license or mining lease provided for the proper prospecting or mining of the land comprised therein.

44. Topo sheets of Mysore marked with areas granted for prospecting or mining are kept at the office of the Mysore Geological Department and may be inspected by the public on payment of a fee of one rupee per sheet.

45. Persons desirous of having their own topo sheets or other maps of Mysore marked with areas granted for prospecting and mining may apply to the Secretary to Government, Geological Department, for the same. A fee of annas will be charged for each block marked.

46. A licensee desirous of securing a copy of his prospecting license may apply to the Secretary to Government, Geological Department, for the same, stating the purpose for which the copy is required. The Government will, if satisfied with the reasons assigned, issue a duplicate copy of the license on payment of a fee of Rs. 10.

47. The rules for the conduct of prospecting and mining operations in forest lands are printed for information in the appendix hereto.

By Order,
W. F. SKEETH,
Secretary to Government, Geological Department.

SCHEDULE.

ROYALTIES.

(Subject to alteration by notification in the Mysore Gazette.)

Royalty on Gold and Silver.

(1) No royalty shall be paid so long as the operations in connection with the mining block do not result in any net profits to the lessee.

(2) For each calendar year in which the operations result in a balance of net profit to the lessee, the rate of royalty shall be 5 per cent. of the gross sale value of the gold and silver.

(3) For each calendar year for which the net profits exceed the sum of ₹25,000, the lessee shall pay an additional royalty of 5 per cent. of all net profits in excess of ₹25,000.

Provided that in the case of the lessee being a duly registered Company, the words "Divisible profits" may at the discretion of the lessors be substituted for "Net profits" in this clause.

Royalty on Manganese and Chrome Ore.

(1) The royalty shall be payable quarterly.

(2) On all ore despatched during any quarter, the royalty shall be paid within thirty days of the close of the quarter and shall be calculated on the average market rate in London during the quarter according to the following scale:—

(a) A royalty of 6 annas per ton when the market rate does not exceed 9 d. per unit.

(b) For each increase of 1 d. or portion thereof per unit an additional royalty of one anna per ton.

Royalty on Precious Stones.

Thirty per cent. on the net profits of each year taken separately.

Royalty on all other minerals not specified above.

Five per cent. on the sale value at the pit's mouth or on surface of the dressed ore or metal, convertible at the option of the lessors to an equivalent charge per ton to be fixed annually or for a term.

NOTE.—"Net profits" shall be taken to mean the excess of the revenue which is wholly derived from the sale of the mineral or minerals specified over expenditure, after all costs and expenses chargeable to the actual working and management of the mine shall have been included. But neither depreciation, nor amortization, nor Director's fees, nor any revenue or expenditure obtained or incurred on account of share or capital transactions, or by trading, shall be brought into

account, provided that the fees of such Director or Directors as may actually direct technical operations and are specifically denoted as Managing Director or Directors may be included in the expenditure.

Divisible profits shall be declared dividends and bonuses or other payments made out of net profits to or on behalf of the shareholders and interest on debentures.

APPENDIX.

Rules for the Conduct of Prospecting and Mining Operations in forest lands.

Notification by the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

No. R.10777—Pt. 51-48-8, dated 31st June 1908.

EXPLORE LICENSES.

1. The holder of an exploring license shall obtain from the District Forest Officer permission to enter upon and explore for minerals in any forest land within the area to which the license applies.

2. Such permission will ordinarily be freely granted, but will not entitle the licensee to cut or injure any forest growth or to dig or turn up the surface of the land to a greater depth than three feet and the licensee must, before leaving the locality, fill up any excavations which he may have made, to the satisfaction of the District Forest Officer.

3. Should the licensee desire to make trenches or sink pits to a depth greater than three feet, he must obtain the sanction of the District Forest Officer in each case and pay compensation at the rate provided hereunder for any forest growth which may be injured or destroyed and shall undertake to fill up all excavations to the satisfaction of the District Forest Officer.

PROSPECTING LICENSES AND MINING LEASES.

4. No prospecting license or mining lease shall ordinarily be granted in forest lands except with the sanction of the Conservator of Forests.

Prospecting and mining operations will generally not be permitted in plantations, coupes which have been worked over and in tracts containing specially valuable growth of sandal, teak or other species of trees.

5. Before commencing any prospecting or mining operation in any forest lands, the licensee or lessee or his duly authorized agent or representative shall give notice to the District Forest Officer of his intention so to do, and shall, at the same time, forward to the District Forest Officer a statement of the area or areas proposed to be operated upon and their dimensions and a sketch map on a suitable scale showing the said area or areas and their relative positions and shall deposit with the District Forest Officer the amount of compensation due on the said area or areas calculated in accordance with Rule 9. Each area to be operated upon except such as may be required for a railway, tramway, road or foot-path, shall be in the form of a rectangle, of which no side shall be less than 10 yards long and shall be defined by corners of stones. Each area shall be distinguished by a letter of the alphabet in the above-mentioned statement and map.

A consolidated statement and a complete map shall be maintained up-to-date and kept on the prospecting or mining block by the person in charge of the operations.

6. In any prospecting or mining block, the total area which may be operated upon or cleared of forest shall not exceed 25 acres except with the permission in writing of the District Forest Officer, and no railway, tramway, road or foot-path shall be made without such permission. Such permission will be granted from time to time in each case for an area not exceeding 25 acres on the application of the licensee or lessee, provided that the additional area is required for the bona fide extension of prospecting or mining operations.

The areas operated upon shall include all those the surfaces of which have been opened up by means of pits, trenches or other excavations or covered with earth, stones, debris, machinery, buildings, etc., or upon which the forest growth has been injured or destroyed, or over which any railway, tramway, road or foot-path has been made.

7. In the case of all buildings, machinery or other structures erected upon the block and in the case of every place where fire or lights are used at any time or round any working or dwelling place where the District Forest Officer considers it to be necessary for safety, the forest growth shall be cleared for a distance of 10 feet round the limits of such structure or place to such extent as the District Forest Officer may require.

8. As soon as possible after the receipt of the statement and map referred to in Rule 5, the District Forest Officer shall prepare a bill for the amount of compensation due at the rates specified hereunder and after crediting the amount deposited under Rule 5, shall adjust or require the licensee or lessee to adjust any balance as may be necessary. In default of payment the District Forest Officer may, at his discretion, stop all further operations and take steps to recover the amount due as a revenue demand.

In the event of any area not included in the map and statement required by Rule 5, being found to have been operated upon, the District Forest Officer may, at his discretion, stop all further operations and recover compensation for the same at double the rates provided hereunder.

9. The licensee or lessee shall—

(a) pay a lump sum for the value of forest growth and for damage and disfigurement to the surface on all areas operated upon or cleared, at the following rates—

- | | | | |
|--|---|--|--|
| (1) In State Forests or reserved lands. | <table border="0"> <tr> <td>High and pole forests, Rs. 100 per acre.</td> </tr> <tr> <td>Other forests, including scrub, Rs. 50 per acre.</td> </tr> </table> | High and pole forests, Rs. 100 per acre. | Other forests, including scrub, Rs. 50 per acre. |
| High and pole forests, Rs. 100 per acre. | | | |
| Other forests, including scrub, Rs. 50 per acre. | | | |
| (2) In District Forests which have been specially brought within the scope of these rules. | <table border="0"> <tr> <td>High and pole forests, Rs. 50 per acre.</td> </tr> <tr> <td>Other forests, including scrub, Rs. 25 per acre.</td> </tr> </table> | High and pole forests, Rs. 50 per acre. | Other forests, including scrub, Rs. 25 per acre. |
| High and pole forests, Rs. 50 per acre. | | | |
| Other forests, including scrub, Rs. 25 per acre. | | | |
| (3) For railways and tramways, and for roads on which traction engines are used, at the foregoing rates. | | | |
| (4) For ordinary cart-tracks and foot-paths, at the rate of Rs. 25 per mile. | | | |

(b) undertake not to cut sandalwood except with permission of the Forest Department and on payment of an extra charge to be fixed by the Conservator.

N.B.—The decision of the Conservator of Forests as to whether any particular forest is high, pole or scrub shall be final.

10. The licensee or lessee shall not fell, girdle or lop any tree outside the area or areas shown and described in the map and statement referred to in Rule 11.

11. Nothing in the foregoing rules shall be taken to exempt the licensee or his employees from liability in respect of any forest offence punishable under the Mysore Forest Regulation, 1900.

FORM No. 1.

No.

Government of His Highness the Maharaja of Mysore.

GEOLOGICAL DEPARTMENT.

EXPLORING LICENSE.

(Under the Rules published with Notification No. 806, dated 20th October 1910)

Exploring License granted this _____ day of _____ 19____ by the Government of His Highness the Maharaja of Mysore to _____ hereinafter called the licensee.

Whereas the licensee has applied in accordance with the rules published under Notification (Geological) No. 806, dated 20th October 1910, for a license to explore for minerals in the area described in the Schedule hereto and has paid prescribed fee of Rs. 10—

1. The Government of His Highness the Maharaja of Mysore hereby to the Licensee, subject to the restrictions, conditions and provisions hereinafter contained, license and liberty to enter upon the lands within the area specified and to explore and search the surface of the same for minerals, stones or to for a period of one year from the date hereof and subject to the restrictions hereinafter contained or such other restrictions as the Government may at any time impose, to remove any specimen or samples thereof found by licensee upon the said lands during the term of the license.

2. This license does not authorize the licensee to enter upon or commence exploring in any State Forest or land under special protection included in the schedule hereto, without obtaining the sanction in writing of the District Forest Officer, upon such conditions as that officer may under general or special order of Government prescribe.

3. This license is subject to any vested interests and to any rights or liberties which have been granted or which may be granted at any time during the currency of the license by Government in the said area, or in the soil, stones or rocks therein contained.

4. This license shall not authorize the licensee to mine or quarry within the boundaries of the land specified in the schedule, but the licensee shall have liberty to turn up the surface and to dig trenches and sink pits to such depth subject to such conditions as the Deputy Commissioner may authorize.

5. In the course of exploring operations, no occupied or private lands shall be entered upon or disfigured except under agreement with the occupant or owner thereof.

6. The licensee shall abstain from all interference with the free use of any tanks, water-courses, sacred groves, burial grounds, village sites for houses, or grazing lands which may now exist in the said area, and in no way obstruct any road, path or by-way of any kind whatsoever in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands or villages or houses or other private property whether in the said area or adjoining thereto.

7. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

8. The licensee shall not cut or injure any tree on unoccupied and unreserved land without the permission in writing of the Deputy Commissioner.

9. This license shall not be assigned nor any right or interest hereunder transferred.

10. The licensee may with the permission of the Deputy Commissioner remove any minerals found by him in or upon the said land in the course of his exploring operations under this license in reasonable quantities for the purpose of sampling or testing but not for the purpose of sale without the sanction of Government.

11. The licensee shall, within ten days of the discovery by him, his servants, workmen or agents, or any and all precious stone or stones upon the said lands, report the discovery to the Secretary to Government in the Geological Department and shall produce the stones when called upon to do so and shall pay to Government by way of Royalty fifteen per cent. of the value of the stones so found.

12. This license shall not confer upon the licensee any exclusive or preferential rights of any kind and, if there be any breach by the licensee of the terms of this license, Government may forthwith cancel this license and thereupon all rights conferred thereby or enjoyed thereunder shall absolutely cease, and determine.

The Secretary to the Government of His Highness the Maharaja of Mysore,
Geological Department.

PROSPECTING LICENSE.

Sir,

I have the honour to request that a prospecting license under the rules contained in Notification (Geological) No. 800, dated 29th October 1910, may be granted to.....over the area containing.....square miles marked on the enclosed extract from the Topographical Survey Map of Mysore.

The area over which prospecting rights are applied for comprises land belonging to the villages, the names of which with the Taluk and District to which they belong, are set out in schedule A hereto.

The minerals in respect of which prospecting rights are applied for are stated in schedule B hereto.

I enclose (receipt from the.....Treasury) (crossed cheque on the Bangalore Branch of the Bank of Madras payable to the order of the Secretary to the Government of Mysore in the Geological Department) for Rs.....being the fee payable in respect of this application at the rate of Rs. 10 per square mile or portion of a square mile of the area applied for.

I have the honor to be,

Sir,

Your obedient servant,

Name and address of applicant.....

Minerals to be prospected for.

FORM No. III.

No.

Government of His Highness the Maharaja of Mysore,
Geological Department.

PROSPECTING LICENSE.

(Under the Rules published with Notification No. 800, dated 29th October 1910.)

PROSPECTING LICENSE granted this day of
19, by the Government of His Highness the Maharaja of Mysore

to hereinafter called the licensee, which expression shall be taken to mean the said.....his successors and assigns except where the context requires another or different meaning.

WHEREAS the licensee has applied in accordance with the rules published under Notification (Geol.) No. 800, dated 29th October 1910, for a license to prospect

* State after the name of village, if whole or part only.

pect for minerals in the area described in schedule A hereto, delineated in the plan hereto annexed and containing square miles or thereabouts, and has paid the sum of Rs. being the deposit required in respect of the license together with the sum of Rs. being the rent for one year in respect of the said area :—

1. The Government of His Highness the Maharaja of Mysore hereby grant to the licensee for a period of one year from the date hereof, license and liberty to prospect for such minerals as are generally or particularly described in schedule B and to work, win, and carry away, as and for his own use any or all of the minerals aforesaid, subject to the payment of the royalties specified in schedule C hereto.

2. This license and any lease granted hereunder is subject to any vested interests and to any rights and liberties which have been granted by Government in the said area, or in the gold, minerals, stones or rocks therein contained, prior to the date of the grant hereof.

3. The licensee shall forthwith thoroughly and vigorously prospect and examine the said area, and make, dig and carry out all necessary trenches, pits and other works as are necessary or proper for the efficient prospecting thereof.

4. All operations under this license shall be conducted under such supervision and in accordance with such regulations as the Government may, from time to time, prescribe.

5. The licensee shall, within six months next after the determination of the license or the date of the abandonment of the undertaking whichever shall first occur, securely plug any bores and fill up or fence any holes or excavations that he may have made in the land, to such extent as the Deputy Commissioner may require, and shall to the like extent restore the surface of the land and all buildings thereon which he may have damaged in the course of prospecting; provided that this clause shall not apply to any land held under a mining lease.

6. The licensee shall keep proper accounts and plans and furnish to the Government full and correct information as to all minerals, stones and rocks found or mined and raised in the course of operations under this license and as to the treatment, preparation and disposal of the same.

7. The licensee shall afford any other information in connection with the said area and the works carried on there, and furnish any samples which the Government may ask for. The licensee shall give every facility to the Government in inspecting the work carried on in the said area and in taking samples of minerals, stones, and rocks found, mined, raised or being in or on the same area and any products obtained or prepared therefrom. The Government will pay a fair price for any samples of intrinsic value.

8. In the course of prospecting operations no occupied or private lands shall be entered upon or disfigured except under agreement in writing with the occupant or owner thereof.

9. The licensee shall not enter upon or commence prospecting in any State Forest or land under special protection comprised in the said area, except in accordance with the rules for the conduct of prospecting and mining operations published under Government Notification No. R. 10777—Ft. 81-08-8, dated 21st June 1909.

10. The licensee shall abstain from all interference with the free use of any tanks, water courses, sacred groves, burial grounds, village sites for homes or grazing lands, which may now exist in the said area, and in no way obstruct any road, path or by-way of any kind whatsoever in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands or villages, homes or other private property whether in the said area or adjoining thereto.

11. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

12. The licensee shall not without the permission in writing of the Deputy Commissioner cut or injure any trees or timber on appropriated and unreserved lands other than brushwood or undergrowth which may require to be cleared away as interfering with the due exercise of the rights, licenses and liberties hereby granted.

13. This license shall not be assigned, nor any right or interest hereunder transferred without the consent in writing of the Government.

14. If prospecting work is not commenced within six calendar months from the date hereof and carried on to the reasonable satisfaction of Government, or if there shall be any other breach by the licensee of any provision in this license contained, the license may be summarily revoked by Government and thereupon all rights conferred hereby so enjoyed hereunder shall cease.

15. The licensee shall be at liberty at any time during the term of this license to select for mining purposes a block of land not exceeding one square mile in area and not more than two miles from end to end in any direction within the area to which this license applies and shall be entitled to the grant of a mining lease in respect of the block so selected in accordance with the Rules for the grant of mining leases published under Notification No. 800, dated 29th October 1910. Provided that the total area held by a licensee under mining leases shall not exceed ten square miles. When such mining lease has been granted to the licensee, this license shall immediately cease and determine.

SCHEDULE B.

Minerals in respect of which the application is made.

* State after the name of village, if whole or part only.

MINING LEASE.

FORM No. V.

No.

Government of His Highness the Maharaja of Mysore.

GEOLOGICAL DEPARTMENT.

MINING LEASE.

(Under the Rules published with Notification No. 800, dated 29th October 1910.)

This Indenture made the _____ of _____ 1

Parties

between the Government of His Highness the Maharaja of Mysore (hereinafter called "the lessors," which expression shall be taken to mean and include the Government of His Highness the Maharaja of Mysore, their successors and assigns, except where the context requires another or different meaning) of the one part AND

(hereinafter called "the lessee," which expression shall be taken to mean and include the said

his heirs, executors, administrators, representatives and assigns except where the context requires another or different meaning) of the other part :-

3. WHEREAS the lessors at the request of the lessee and in consideration of a deposit of Rs. 1,000 made by the lessee as security for the due fulfilment of the covenants and agreements on the lessee's part hereinafter contained and which deposit shall be forfeited on any failure thereof, have agreed to grant the mining lease hereinafter contained in respect of the piece of land delineated in the map or plan hereto annexed and situate at _____ in the Taluk of _____

Situation of block leased.

in the District of _____

in the Mysore Territories estimated to comprise _____ and particularly mentioned and described in Schedule A hereto annexed and which piece of lands is hereinafter called the "mining block;"

3. NOW THIS INDENTURE WITNESSETH that in consideration of the royalties rents and other payments hereinafter reserved and in consideration of and subject to the covenants and agreements by the lessee hereinafter contained, the

Witnesseth.

lessors do hereby *demise* and *grant* unto the lessee *exclusive license* and liberty to search for, mine and raise all such minerals occurring in or upon the mining block as are specifically mentioned and described in Schedule B hereto annexed (herein collectively referred to as "specified minerals") and to treat the same by metallurgical and other processes and obtain or prepare valuable products or substances either in a finished, completed and refined state (and then hereinafter referred to as "finished products") or in an intermediate condition (and

MINING LEASE.

then hereinafter referred to as "intermediate products") and to erect such buildings or mining or metallurgical plant and carry on such operations as may be necessary for the purposes aforesaid;

4. Together with liberty for the lessee to remove, ~~sell and dispose of~~ the minerals found or raised on or in the mining block or the intermediate or finished products obtained or prepared therefrom;

5. To have and to hold the premises hereinbefore expressed to be hereby demised and granted unto the lessee, for the term of thirty years from the date of these presents;

6. Yielding and paying therefor during the said term an annual rent at the rate of one rupee per acre of the mining block, which rent shall be payable for each calendar year or portion thereof on or before the 31st day of December. Provided that for any portion of a year not exceeding six months only half the annual rent shall be payable;

7. And yielding and paying on or before the 31st day of March in every year all local cesses and other taxes or rates of every description for the time being payable in respect of the premises or lands within the mining block or of any buildings or works in or on the same;

8. And yielding and paying within the times set forth in the covenant by the lessee in this behalf hereinafter contained a royalty at the rates set forth in Schedule C hereto annexed on all minerals removed from the mining block or on all intermediate or finished products obtained or prepared therefrom without any deduction for the cost of the processes employed;

9. And yielding and paying such dead rent not exceeding a rate of rupees five per annum per acre of the whole or of any portion of the mining block as the lessors may, in the event of their being not satisfied with the operations conducted under the lease or with the results thereof, decide to levy for any particular years of the said term after the expiration of the first two years of it, provided that both royalty and dead rent shall not be paid by the lessee but only such one of them as may be of the greater amount;

And it is hereby declared that the expression "the liabilities under this lease" shall hereafter include all the cesses, taxes, rates, royalties, rents, compensation, indemnities and other payments in this lease reserved and made payable by the lessee;

10. And the lessee hereby covenants with the lessors that the lessee will, within the space of one year from the commencement of this lease, start mining operations throughout the mining block to the reasonable satisfaction of the lessors;

MINING LEASE.

11. And will, at all times during the said term of the lease, in the best and most effectual manner and without intermission, except when prevented by inevitable accident, search for and mine and raise all specified minerals on or in the mining block and obtain or prepare therefrom intermediate or finished products of a saleable nature ;
- To prosecute operations without intermission.
12. And will, throughout the said term, keep all mines, buildings, pits, shafts, ladders, platts, collars, timber, ropes, water-courses, air-gates, engines, machines, and other mining and metallurgical plant on or in the mining block in good repair, working order and condition ;
- To keep all mines, buildings, machinery, etc., in good order.
13. And will, within two years from the date of this lease, provide, by the formation of a working company or otherwise, a sum (which shall not be less than) sufficient for efficiently carrying on mining operations upon the mining block and will also, within the same period furnish the lessors with a statement showing the amount so provided and the manner in which it is to be made available ; but the lessors may at their discretion and if satisfied with the work done by the lessee extend the time allowed for the provision of such sum beyond the period of two years herein specified ;
- To raise sufficient working capital within two years.
14. And will, if required and before the sale thereof, deliver to or permit to be taken by the lessors, or their agents, a sample of samples of all minerals found or mined and raised and all intermediate and finished products sold or intended for sale, all such samples so taken when of intrinsic value being paid for by the lessors at the current market rate ;
- To deliver to, or permit to be taken by, lessors samples of minerals and products.
15. And will, immediately after any sale of minerals or intermediate or finished products, give to the lessors or their agents a return of the prices for which the same, respectively, have been sold and, if required, the names of the purchasers thereof ;
- To make return of prices to lessors.
16. And will, within the times specified in Schedule C, pay to the lessors the royalties hereinbefore and in Schedule C hereto provided ;
- To pay royalties within specified times.
17. And will pay all other liabilities under this lease as and when they respectively become payable ;
- To pay other liabilities under lease.
18. And will afford to the lessors every information concerning the mine and buildings and mining and metallurgical plant in or on the mining block, the mode in which operations are carried on, the minerals found or mined and raised or in the mining block, the intermediate or finished products obtained or prepared therefrom, the person employed by the lessee, and all other information connected with the mining block or the provisions of this lease as the lessors may require ;
- To afford every information connected with the mining block or the provisions of this lease.

To furnish samples of rocks, etc., met with in the mining block, with details as to mode of occurrence, etc.

19. And will furnish, in such manner and to such persons as the lessors may from time to time direct, samples of all stones and rocks met with on or in the mining block with full details as to the locality and mode in which the same respectively were discovered and the dates of discovery ;

20. And will not assign or under-let or part with the possession of all or any of the rights, liberties, licenses and premises by these presents demised and granted, or any interest or share therein without the consent, in writing, previously obtained, of the lessors ;

Not to assign without previous consent of lessors.

21. And will deliver to the lessors a copy of every assignment or under-lease of all or any of the rights, liberties, licenses and premises by these presents demised and granted or any interest or share therein within three calendar months after the date of the execution of such assignment or under-lease ;

To deliver to lessors copies of all assignments.

22. And will, throughout the said term, make and keep in some convenient place on the mining block and so that the lessors or their agents can have, at all times, free access thereto, proper books of accounts in such form as the lessors may approve, giving full and accurate particulars of the working and yield of all mines and mining and metallurgical plant in or on the mining block and of the disposal of the minerals and intermediate and finished products found, mined, raised, obtained or prepared on, in or from the mining block with all particulars of quantities, dates and other facts and circumstances necessary or proper for ascertaining the exact value of such finished products and the finished products which can be obtained or prepared from such minerals and intermediate products and also correct maps, plans and sections of the mining block and of the mines and mining and metallurgical plant therein or thereon upon such scale or scales and in such manner as the lessors may from time to time direct showing as well the pits, shafts, drives, cross-cuts, winzes, rises, stopes and other excavations, operations and works which have been carried on, as also all beds and veins and all faults and other disturbances which have been observed and encountered therein ;

To keep proper books of accounts, plans, etc.

23. And will, at his own cost, when required by the lessors or their agents, give to them copies of all or any entries in the said books and of every such map, plan and section as aforesaid ;

To give copies thereof.

24. And will, at his own cost, when required by the lessors or their agents, furnish to them true and correct abstracts of all or any such accounts as aforesaid .

To furnish abstracts thereof.

MINING LEASE.

35. And will, at all reasonable times, allow such officers and persons as the lessors may in that behalf appoint to enter into and have free access to the place or places where the said books, maps, plans and sections may be kept in order to examine and inspect them, take copies thereof and make extracts therefrom ;
- To allow free access to places where such books, plans, etc., may be kept.
36. And will, at the end or sooner determination of the said term give up to the lessors the said books, maps, plans and sections in good and perfect condition ;
- To give up to lessors books and plans at end of term.
37. And will, at his own expense, forthwith erect and at all times maintain and keep in repair such boundary marks and pillars as the lessors may require ;
- To erect boundary marks.
38. And will, well and properly secure and keep open with timber or other durable means all pits and shafts to be sunk or made in the mining block and make and maintain sufficient fences round every such pit or shaft ;
- To secure pits and shafts.
39. And will not, until the license, in writing, of the lessors or their agent be obtained, wilfully close, fill up or choke any pit or shaft.
- Not to fill up shafts or mines.
40. And will, throughout the said term, duly enforce in every part of the mining block such sanitary rules for the health and well-being of all persons employed by the lessee or who may be on the mining block or in its neighbourhood, as the lessors may, from time to time, prescribe ;
- To enforce sanitary rules.
41. And will at any time or times when required by the lessors so to do, set apart and appropriate for free use by the lessors such lands forming part of the surface of the mining block as are in the opinion of the lessors suitable and sufficient for sites for villages, tanks, wells and other works for water power or water supply, hospitals, sanitary works, Government offices, Police stations and other buildings or works of public utility which are in the opinion of the lessors desirable or required for or in connection with the persons employed by the lessee or in work under or in connection with any contract made by the lessee or who are engaged in supplying the wants of those so employed and the families and dependants of such persons, or in connection with the inspection of the mines or the prevention of crime ; but the lessors will so far as is compatible with the objects aforesaid select the land to be so set apart and appropriated in such manner as not to interfere with the mining operations of the lessee and will from time to time pay to the lessee such sums of money as will reasonably indemnify the lessee for monies expended in buying surface rights over any of the lands so set apart and appropriated and the cost of removal of any works carried on thereon ;
- To set apart land for public purposes.

MINING LEASE.

42. And will permit the lessors and their agents, servants and workmen, throughout the said term, to enter upon any part of the mining block above or below ground and inspect and examine the state and condition thereof and of the mines and buildings and mining and metallurgical plant therein and the mode in which operations are carried on and will further, with proper persons employed by the lessee, and acquainted with mining and metallurgical operations and with the engines, machinery and apparatus and other mining and metallurgical plant upon or within the mining block, effectually assist in the conduct of every such inspection and examination, affording all information required therefor ;
- To permit lessors to inspect mines, etc.
43. And will from time to time, and at all times during the said term hereby granted conform to and observe all orders and regulations which the lessors, or their agents, duly authorized in this behalf say, from time to time, see fit to issue and prescribe for the proper carrying on of all mining work and other operations within the mining block or for the preservation and security of any railway, reservoir, tank, canal or other public works or buildings or in the interests of the health, well-being and safety of persons employed by the lessee or who may be on the mining block or in its neighbourhood, and also will without delay send to such officers as may be named for this purpose by the lessors, a report of any accident which may at any time occur in connection with any mining or metallurgical operations in or on the mining block ;
- To conform to mining regulations and report accidents.
44. And will in the exercise of the license and liberties hereby granted, abstain from entering upon the surface of any occupied Government land or of any Inam land comprised within the mining block without previously purchasing the rights or obtaining the consent of the occupant, holder or tenant of such land, by an instrument, in writing, duly registered, and if any damage or injury be caused to the surface of any such land by any operations carried on under this lease, will duly compensate the occupant, holder or tenant thereof, for all such damage or injury ;
- To abstain from entering occupied land and compensate for injury to surface.
45. And will keep open and in no way obstruct any road, path or by-way of any kind whatsoever now existing or which may hereafter be made on the mining block ;
- Not to obstruct roads, etc.
46. And will permit the lessors or other persons authorized by them in that behalf to enter into and upon the mining block and to make upon, over or through the same such roads, tramways and railways as may in the opinion of the lessors be necessary or expedient for any purposes and to obtain from and out of the lands such stone, earth and other materials as may be necessary or requisite for making, repairing or maintaining such roads, tramways and railways and to pass and to re-pass at all times over and along such roads, tramways

and railways for all purposes and as occasion shall require; and will when required by the lessors so to do set apart and appropriate for free use by the lessors or other persons authorized by them in that behalf such lands forming part of the surface of the mining block as are in the opinion of the lessors suitable and sufficient for the objects above mentioned; but the lessors will so far as is compatible with the objects aforesaid select the land to be so set apart and appropriated in such manner as not to interfere with the mining operations of the lessee, and will from time to time pay to the lessee such sums of money as will reasonably indemnify the lessee for monies expended in buying surface rights over any of the lands so set apart and appropriated and the cost of removal of any works carried on thereon;

87. And will abstain from all interference with and allow to the public and the lessors the free use of any tanks, water-courses, places of worship, sacred groves, burial grounds or village sites for houses, which may now exist or may hereafter be set apart or appropriated as hereinbefore provided on the mining block;

To allow free use of tanks, water courses, etc., to the public and the lessors.

88. And will not cultivate any of the lands comprised within the mining block or in any way use the said lands save for the purposes of the rights, licenses and liberties hereby granted;

Not to use the land for other purposes.

89. And will not, without the express sanction of the Deputy Commissioner for the time being of the district, cut down or injure any trees or timber on unoccupied and unreserved lands other than brushwood or under-growth which may require to be cleared away as interfering with the due exercise of the rights, licenses and liberties hereby granted;

Not to cut trees, etc.

40. And will not, enter upon or commence any mining operations in any State Forest or land under special production comprised in the mining block, except in accordance with the rules for the conduct of prospecting and mining operations published under Government Notification No. R. 10777

Not to enter upon or commence operations in State Forests, etc.

—Fl. 81-88-6, dated 21st June 1909;

41. And will not, so far as may be consistent with the due exercise of the rights, licenses and liberties granted under this lease, interfere with or hinder the enjoyment of grazing rights lawfully granted by the lessors to the village communities or to individuals in any part of the mining block;

Not to interfere with grazing rights.

42. And will, from time to time, and at all times hereafter, effectually keep indemnified the lessors from and against and all claims, demands and expenses whatsoever by reason or in consequence of any injury to or interference with any lands or property whatsoever occasioned by or arising directly or indirectly in carrying on mining or metallurgical operations on the mining block or otherwise in the exercise of the rights, licenses and liberties hereby granted;

To indemnify lessors from all claims arising from exercise of liberties hereby granted.

43. And will not, without the express sanction of the Deputy Commissioner for the time being of the district, and then subject to the provisions for compensation and indemnity herein contained, use, collect or impound water in or on the mining block in such a manner as to injure or deteriorate any source of water power or supply or so as to deprive any adjoining land, villages, houses or watering places for cattle of a reasonable quantity of water as heretofore accustomed and will not in any manner foul, impregnate or otherwise deteriorate any springs or streams of water so as to render them unfit to be used as heretofore, and will not in any other way do anything to injure adjoining lands, villages or houses;

To respect water right and not injure adjoining property.

44. And will, at the expiration or sooner determination of the said term, deliver to the lessors in good order, repair and condition and fit for future working and use, and in all respects in such state and condition as shall be consistent with the due performance and observance of the several covenants and agreements by the lessee herein contained the mining block and all mines and buildings and all pits, shafts, ladders, plat, pillars, timber, ropes, water-courses, air-gates, engines, machines and other mining and metallurgical plant below and above ground which are, in the nature of fixtures, necessary or desirable for the proper working of the said mines and the raising of minerals from the mining block or for the obtaining or preparing of intermediate or finished products from such minerals, except any pits, shafts or other works which shall have been abandoned or disused in the ordinary and fair course of working of the said mines and premises, but so that the lessors shall pay to the lessee a fair price for all engines and machinery of any description in or on the mining block, based on the amount the same could be sold for on the mining block if the lessee had power to authorize the purchasers to remove them, unless the lessors shall have given notice in writing to the lessee that they the lessors do not intend to take over any of such buildings, engines and machinery, plant and other things, in which case the lessee shall be at liberty to remove the same, but without injuring any other property in or on the mining block;

To deliver to lessors mines, buildings, etc., on expiration of term.

45. And will, at all times, have at the mining block a duly accredited Superintendent or Agent to whom all notices may be given and all communications from the lessors may be made, the lessors being at liberty, should there at any time be no such agent on the mining block, to treat any other person there as such agent and to serve all notices and other documents upon the said agent or in his absence upon any such other person as aforesaid or in the case of there being no such other person as aforesaid, then by affixing such notices or other documents upon some conspicuous portion of the mining block;

To have an agent on the mining block.

46. And will, at all times, keep the lessors duly informed of the name and address of the Superintendent or agent aforesaid and of any temporary or permanent alteration of such name or address;

REGULATION No. II Of 1901.*(Passed on the 8th day of April 1901.)***A Regulation to prevent the indiscriminate destruction of Wild Animals and Birds, and to provide for the protection of Game and Fish in Mysore.**

Preamble. Whereas it is expedient to prevent the indiscriminate destruction of wild animals and birds, and to provide generally for the protection of game and fish in Mysore, Her Highness the Maharani Regent is pleased to enact as follows:—

Short Title. 1. (1) This Regulation may be called the "Mysore Game and Fish Preservation Regulation, 1901."

Extent and commencement. (2) It shall extend to such local areas as may from time to time be specified by Government by notification in the Official Gazette.

(3) And it shall come into force at the end of six months from the date of publication in the Official Gazette.*

2. In this Regulation, "Game" means antelope, ibex, jungle sheep, sambar and all other descriptions of deer, bison, hares, jungle fowl, spur-fowl, peafowl, partridge, grouse, quail, wood-cock, bustard, florican, duck and teal, and to include such other animals and birds as the Government of Mysore may, by notification in the Official Gazette, declare to be game.

Absolute protection of particular classes other than "Game." 3. The Government of Mysore may, from time to time, by notification in the Official Gazette, prohibit absolutely the killing or capture of any specified kinds of animals or birds, the killing or capture of which the Government may consider unsportsmanlike or otherwise inexpedient, provided that such animals or birds do not come under the definition of "Game" for the time being in force.

Limited protection of particular classes killed for commercial purposes. 4. Whenever the Government of Mysore has reason to believe that any particular kinds of wild animals or birds, whether included in the definition of "Game" or not, are being largely destroyed for the sake of their skins, horns or plumage for commercial or other purposes, it may, by notification in the Official Gazette—

- (a) prohibit the killing or capture of such particular kinds except under and in accordance with the conditions of a license, granted by such officer and in such form as the Government may prescribe in this behalf, and
- (b) prohibit the killing or capture of such particular kinds either during a defined period of time, or within a defined area or both.

5. (1) The Government of Mysore may, from time to time, by notification in the Official Gazette, make rules for the regulation and control of fishing in any stream or lake and may from time to time amend or cancel any rule so made.

(2) Rules under this section may, among other matters, prohibit the poisoning of the water of any stream or lake, and prohibit or regulate the placing or throwing of any explosive or deleterious substance therein and the use, for the capture of fish, of fixed engines and nets of a mesh below a certain size.

Close season and protection of game and fish. 6. The Government of Mysore may, from time to time, by notification in the Official Gazette.

- (1) fix a season or seasons in every year during which it shall not be lawful for any person within any specified local area to kill or capture, or attempt to kill or capture, game or fish of any specified kind;
- (2) prohibit altogether, for any period not exceeding five years, within any specified local area, the killing or capture of game or fish of any specified kind;
- (3) prohibit absolutely the killing or capture of the mature females or immature males or females of any specified kinds of game or the taking out or destruction of the eggs of game birds;
- (4) prohibit or regulate the setting of nets, snares, traps or spring guns, the laying of poison or poisonous ingredients or preparations, or the digging of pits, to entrap or kill game or any specified kinds of game.
- (5) regulate or prohibit, except under and in accordance with the conditions of a license granted, as provided by rules to be framed by the Government, the capture and killing of game or of any specified kinds of game and may, from time to time amend or cancel such notification and;
- (6) provided that no such notification shall have effect until one month from the date of its first publication in the Official Gazette.

7. The Government of Mysore may, from time to time, by notification, in the Official Gazette, make rules regulating the sale of game and fish within any specified local area.

8. Any person who wilfully kills, captures or sells, or attempts to kill, capture or sell, any animal, bird, game or fish or does any other act, in contravention of this regulation or of any rules or notification under this Regulation, or in contravention of any condition contained in a license granted

* Regulation II of 1901 was first published in the *Mysore Gazette*, dated 11th April 1901, Part III.

under this Regulation or under the rules made thereunder, shall be liable on conviction to fine not exceeding one hundred rupees.

8. When any person is convicted of an offence punishable under this Regulation, the convicting Court or Magistrate shall direct that the whole or any portion of any animal, bird, game or fish, killed or captured by such person and all weapons, implements and dogs used in and for the purpose of aiding the commission of such offence, shall be confiscated, and any license granted under this Regulation to such person may be cancelled by the officer who granted such license.

10. Subject to such rules as the Government of Mysore may from time to time prescribe, all fees and fines levied, and realized by the sale of property confiscated under this regulation, shall be paid into the public treasury. If the convicting Court or Magistrate may award to any person or persons on whose information the conviction was obtained, the whole or any portion of any fine imposed or of any sum realized as aforesaid.

11. Any Forest Officer and any other officer or person empowered in this behalf by the Government of Mysore or by a subordinate Revenue authority to which the Government may have delegated its authority for the purpose, may arrest without a warrant any person who commits in his view any offence punishable under this Regulation or the rules thereunder, and who, on demand, refuses to give his name and address or gives a name and address which there is reason to believe is false.

12. Nothing in this Regulation shall be deemed to prevent any owner or occupier of land from killing, capturing or pursuing game doing damage to any crop growing thereon, far as the same may be necessary for the protection of the crop.

NOTIFICATION.

Dated 14th December 1901.

I. With reference to Sub-Section (3) of Section 1 of the Mysore Game and Fish Preservation Regulation, II of 1901, it is hereby notified that the local area to which this Regulation extends shall comprise all the districts in the Mysore State.

II. 1. In exercise of the powers conferred by the said Regulation, II of 1901, the Government of Mysore are further pleased to prescribe the following

rules which shall come into force throughout the State on the first day of February, 1902.—

Provided that as regards State Forests, and land specially protected under Section 35 of the Mysore Forest Regulation XI of 1900, the operations of these rules shall be subject to the provisions of the said Forest Regulation and the rules, if any, framed thereunder.

2. The killing of monkeys, Brahmin hites, parrots, and birds of song is absolutely prohibited.

Provided that any owner or occupier of land may kill (as well as capture or pursue) monkeys or parrots doing damage to fruit or other crop growing thereon, so far as the same may be necessary for the protection of the crop.

3. (1) The killing or capture of birds with bright-colored plumage, of pea-fowl and (except as provided in para. 3 of this Regulation) of antelope, is prohibited for a further period ending with the 15th June 1914.

The killing or capture of mule bison is prohibited for a period of five years commencing from the date of issue of this notification.

(2) The District Magistrate may, on the application of the holder of a game license under these rules, grant written permission to such holder to shoot, within the year for which the license was granted, not more than two bucks in all with horns not less than 15 inches in the case of black-buck and not less than 8 inches in the case of Chinkarra. A report of all bucks shot shall be furnished to the District Magistrate by the license-holder without unreasonable delay.

4. The following acts in respect of any stream or lake (i.e., tank) with a view to the capture or destruction of fish are forbidden, that is to say, the poisoning of water, the placing or throwing of dynamite or other explosive or inflammable substance in the water, the setting of fixed engines, and the use of any net or mesh below two inches in the case of perennial streams and one inch in other cases.

5. Deputy Commissioners are authorized to declare from time to time, by Notification in part II of the Mysore Gazette, all or any streams or tanks or any portion of the same to be closed against fishing during any year or part of a year or during the spawning season, and, in like manner, to prohibit the capture or destruction of any particular species of fish therein.

Explanation.—The spawning season is as follows:—
As regards streams running to the West Coast—from 1st March to 31st August; as regards streams running to the East Coast—from 1st May to 31st November; in other cases—1st June to 31st December, both days inclusive.

6. It shall not be lawful for any person to kill—
(a) Hares, or any description of feathered game other than migratory birds (i.e., other than duck and teal,) between the 1st of March and the 1st of September in any year,
(b) duck or teal, between the 1st of May and the 1st of October in any year,
(c) the females, whether mature or immature, or the immature males of bison, sambhur, antelope, ibex, or any variety of deer at any time of the year, and

0

THE MYSORE GAME AND FISH LAWS.

(d) Any other game between the 15th of June and the 15th of October in any year.

7. The taking out or destruction of the eggs of game birds is absolutely prohibited.

8. Except to the extent permitted under Section 13 of the Regulation, no person shall shoot at and kill game, or attempt to do so, without a license to be obtained from the Magistrate or the District or Sub-Divisional Magistrate on payment of a fee of 5 rupees. The District Magistrate or the Sub-Divisional Magistrate shall be at liberty either to grant or to refuse to grant a license; or if satisfied that the conditions of a license have not been complied with whether wholly or in part, withdraw or cancel the same at any time.

9. A license granted under the preceding rule shall cover only the individual in whose name it was issued and shall not be transferable to any other person. It shall be available only till the expiration of the Calendar year for which it was granted; but it may be renewed, previous to such expiration on payment of a second fee.

The operation of such license may be extended—

(a) To any State Forests, or land especially protected under Section 35 of the Mysore Forest Regulation comprised within the District for which the license was granted on payment of an additional fee of Rs. 10 and on counter-signature by the Conservator of Forests.

(b) To all State Forests, and lands especially protected as aforesaid wherever situated, or to the whole of the Mysore State generally, on payment of a fee of Rs. 20 in addition to the initial fee of Rs. 5 and on counter-signature by the Conservator of Forests in the case of State Forests and lands especially as aforesaid and in the case of other localities by the Inspector-General of Police or other officer authorized in this regard by the Government, and

(c) to any district or districts other than the one for which the license was granted, on payment of a fee of Rs. 5, for each additional district in addition to the initial fee of Rs. 5 and on counter-signature by the District Magistrate or Magistrates concerned.

Provided that nothing in this paragraph applies to a State Forest or other Forests or land at the disposal of Government constituted as game preserves by a notification in this behalf.

10a. When a license granted in accordance with these rules is lost or accidentally destroyed, a duplicate may be granted to the licensee on payment of a fee of annas 4 in the case of licenses under Rule 8(c) and of one rupee in all other cases.

11. The power to arrest offenders under the circumstances referred to in Section 11 of the Regulation (i.e., where the offence is committed in the view of the person making the arrest and the offender on demand refuses to give his name and address or gives a name and address which there is reason to believe is false may be exercised by the following persons, namely:—

All Forest Officers including Forest Guards, all Police Officers including Constables, and all Officers of the Revenue Department including Land Revenue, Excise Surveyor, etc., or above the rank of Patel or Shanbhag.

12. Any person holding a license granted under these rules shall be bound to produce the same when called upon to do so by a Magistrate or by any of the persons enumerated in the preceding rule.

13. Any breach of the above rules will render the offender liable on conviction to the penalty provided in Section 8 of the Regulation, namely, a fine not exceeding one hundred rupees.

NOTIFICATION.

No. J. 1404—Legis. 22-10, dated 8th November 1911.

In exercise of the powers conferred by Section 6 of the Mysore Game and Fish Preservation Regulation, II of 1901, the Government of His Highness the Maharajah of Mysore are pleased to direct that Rule 10 B of the rules published with Notification No. 9007—Legis. 56, dated 11th December 1901, and amended by Notification No. J. 498—Legis. 18-07-2, dated the 13th August 1908, be further amended as follows:—

In para. 1, for the words "in the vicinity of the town or village where the licensee resides, as may be specified by the District Magistrate in the license," substitute "as lies within the limits of the *hobli* in which the licensee resides;" and in para. 2, for the words "town or village where," substitute "Hobli within the limits of which."

As modified, the rule will read as follows:—

The whole of the Shimoga and Kadur Districts; the Hassan Taluk (including Alur Sub-Taluk), and the Manjarabad and Belur Taluks of the Hassan District, and the Heggaddevankote, Hunsur, Chamrajnagar and Gundlupet Taluks of the Mysore District.

"Rule 10 B.—Notwithstanding anything contained in Rules 9 and 10, the District Magistrate may grant to an owner or occupier of land in any of the tracts specified in the margin, a license to pursue, shoot at and kill game on payment of a reduced fee of Rs. 2 which shall have operation over such portion of the District and State Forests and lands specially protected under Section 35 of the Mysore Forest Regulation, as lies within the limits of the *hobli* in which the licensee resides.

"If the *hobli* within the limits of which the licensee resides adjoins another district, the operation of such license may be extended, without payment of any additional fee, to any specified portion of such adjoining district, State Forest and land specially protected as aforesaid, situated therein, on countersignature by the District Magistrate of such district.

"It shall be competent to the District Magistrate granting a license under this rule, to withdraw or cancel the same at any time, for sufficient cause."

By Order,

C. S. BALASUNDARAM IYER,
Officiating Secretary to Government,
General and Revenue Departments.

REGULATION No. III of 1908.

The Mysore Newspapers Regulation.

(Received the assent of His Highness the Maharajah on the 8th August 1908.)

Preamble.

Whereas it is expedient to provide for the efficient control of the publication of newspapers and other printed works containing public news ;

His Highness the Maharajah is pleased to enact as follows :—

Short title.

(1) This Regulation may be called "The Mysore Newspapers Regulation, 1908 ;"

Local extent.

(2) It extends to the whole of Mysore ; and

Commencement.

(3) It shall come into force thirty days after its first publication* in the Official Gazette.

Newspapers not to be edited, printed or published without the permission of Government.

3. No newspaper or other printed work, whether periodical or other, containing public news or comments upon public news, shall, without the written permission of the Government of His Highness the Maharajah of Mysore, be edited, printed or published within the territories of Mysore.

Power of Government to withdraw permission.

8. Any written permission granted by the Government of His Highness the Maharajah for the editing, printing, or publishing of any such newspaper or other work as aforesaid may at any time be withdrawn by the Government.

Consequences of editing, printing or publishing newspaper without permission or after withdrawal or permission.

4. If any person shall, without such permission as aforesaid, or after such permission has been withdrawn by the Government, edit, print or publish any such newspaper or other work as aforesaid in the said territories of Mysore, the Government may, by an order in writing, signed by the Secretary to the Government in the General and Revenue Departments

(a) require such person to leave the territories of Mysore within seven days from the date of such order,

(b) prohibit him from re-entering the said territories without the written permission of the Government, and

(c) declare all printing presses, engines, machinery, types, lithographic stones, paper, and other implements, utensils, plant and materials used or employed, or intended to be used or employed, in or for the purpose of printing or publishing such newspaper or other work as aforesaid, or found in or about any premises where such newspaper or other work as aforesaid is printed or published, and all copies of such newspaper or other work as aforesaid wherever found, to be forfeited to the Government, and dispose of the same in such manner as it shall deem fit.

Liability of offender to expulsion

5. If any such order as is mentioned in clauses (a) and (b) of the last preceding section be disobeyed, the offender shall be liable to forcible expulsion from the territories of Mysore.

Prohibition of circulation of newspapers within Mysore in certain cases.

6. (1) No newspaper or other printed work, edited, printed or published beyond the limits of the territories of Mysore after being the subject of an order under section 4, and

(2) no newspaper in regard to which any such prohibition as is referred to in section 7 of the Newspapers (Incitement to Offences) Act, 1908, had been notified and continues in force, in British India, shall be circulated within the territories of Mysore.

7. If any such newspaper or other printed work as is specified in section 6 shall be circulated within the territories of Mysore.

(i) the District Magistrate may declare all copies of such newspaper or other printed work wherever found to be forfeited to

Search for and forfeiture of copies of prohibited newspapers.

Government and may by warrant empower any Police Officer not below the rank of Sub-Inspector to seize and carry away any copies of such newspaper or other printed work wherever found, and to enter upon and search for such copies in any premises where they may be kept for sale, distribution, publication or public exhibition, or reasonably suspected to be so kept ; and

(ii) any person who circulates, or attempts to circulate, or abets the circulation of, any such newspaper or other printed work in

Person who circulates to be dealt with under sections 4 and 5.

the territories of Mysore, may be dealt with by the Government under clauses (a) and (b) of section 4 and section 5—as if such person had edited, printed or

published any newspaper within the territories of Mysore without the written permission of the Government.

Definition of 'Print' and cognate expressions.

8. In this Regulation the expressions "print," "printed," and "printing," shall apply not only to printing but also to lithography, engraving and photography.

(Signed) V. P. MADHAVA RAO,

Dewan.

* This Regulation was first published in the Gazette on the 10th August 1908.

THE PASTEUR INSTITUTE, COONOR.

No. 9274-314—MED. 329-06-2, DATED BANGALORE, 9TH APRIL 1907.

The Government of His Highness the Maharaja have been pleased to lay down the following revised rules for the guidance of the Officers concerned, regarding the grant to Government servants and to indigent persons unconnected with the public service, of the concessions designed to enable them, when bitten by a rabid animal, to proceed without delay to the Pasteur Institute at Coonor for treatment.

- I. Any Government servant who has been bitten by a rabid animal and who is too poor to proceed to Coonor at his own expense may, provided that he is drawing not more than Rs. 100 a month, be granted
 - (a) his actual travelling expenses to Coonor and back, namely, (a) single fare each way by railway of the class by which he is entitled to travel on duty, (b) for journeys by road, the actual cost of transport not exceeding the amount admissible under rule. Arrangements will be made for payment at Coonor of the patient's expenses on the return journey after the treatment has been undergone, on production of a discharge certificate from the Director of the Institute;
 - (ii) an advance of one month's pay;
 - (iii) one month's casual leave, any leave required in excess being treated as privilege or sick leave.
- II. Any Government servant who has a difficulty in finding at once the means to enable him to proceed to the Institute at Coonor and whose pay exceeds Rs. 100 but does not exceed Rs. 500 a month, may be granted an advance not exceeding the amount admissible under Rule I (i), and may also be given the concessions specified in I (ii) and (iii) above. The sums thus advanced will be recovered by instalments on the usual scale.
- III. Subject to such further rules as the Government may make, any indigent person unconnected with the public service who, in the opinion of the officer authorised to grant the concession, is unable to proceed to the Pasteur Institute at his own expense, may be granted the same travelling expenses to Coonor and back, namely (a) a single third class fare each way by railway, (b) for journeys by road, the actual cost of transport, (c) maintenance allowance at the following daily rate Europeans and Eurasians Rs. 1 during the journey and Rs. 2-8 during treatment, natives 4 annas during the journey and 6 annas during treatment. The expenses for the return journey will be paid to the patient at Coonor as in the case of Government servants, under clause (i) of Rule I, *supra*.
2. The Madras and Southern Mahratta Railway authorities having kindly consented to grant return third class tickets on their lines, the former up to Raichur

The M. and S. M. Railway Co. now issue free return third class tickets to patients and their attendants proceeding to the Pasteur Institute at Coonor on requisition of a Medical Officer of Government not below the rank of Sub-Assistant Surgeon.

and the latter up to Ponnai, for a single fare on the certificate of a Medical officer not below the grade of a Sub-Assistant Surgeon, the Hon'ble the Resident in Mysore has been requested to address these authorities to renew the concession of granting return third class tickets on their lines leading to or up to Coonor.

3. The existing rules requiring the production of a certificate from the Medical officer not below the rank of a Sub-Assistant Surgeon and the sanction of the principal officer in the department concerned before a Government servant can obtain a concession enabling him to proceed to the Institute will continue for the present, as no delay or inconvenience is reported to have been felt by the operation of the rule.

No. 4580-70—MED. 42-07-14—DATED BANGALORE, THE 12TH NOVEMBER 1907.

ORDER.—In continuation of Government Proceedings No. 9274-314—Med. 329-06-2, dated the 9th April 1907, the Government of His Highness the Maharaja have been pleased to direct that women, children under sixteen years of age, and men who are, by reason of age or other sufficient cause, incapable of travelling alone, may be allowed an attendant to accompany them to the Institute, and that any such attendant shall be granted (1) travelling expenses and maintenance allowance at the rate sanctioned for patients; and (2) wages not exceeding four annas a day in cases where the despatching officer is satisfied that the patient is unable to pay the daily expenses of the attendant.

This concession will be granted at the discretion of the officer who decides whether the patient should be given the concessions already sanctioned.

NOTE.—For the rules regarding patients from the C. and M. Station of Bangalore see in another section of this book.

NOTIFICATION.

No. J. 864—Legis. 16-09-27, dated Bangalore, 11th September 1911.

Rules under the Mysore Weights and Measures Regulation, III of 1902.

Preamble.—In exercise of the powers conferred by Regulation III of 1902, the Government of His Highness the Maharaja of Mysore are pleased to prescribe the following rules for regulating the use of weights and measures of capacity in all parts of the State from and after the 1st day of July 1912.

Nothing in these rules is intended to have application to, or to interfere with, the use of the British or the metric system of weights and measures, or any other recognized system not based on a weight or measure called the "seer" or any sub-division or multiple thereof, as a unit.

Rule 1.—(1) The standard of weight shall be the "seer" weight, which is a mass of metal in the possession of Government equal to the weight of 24 rupees (of 180 grains Troy each) of the British Indian currency.

(2) The standard of measure of capacity shall be the "seer" measure, which is a hollow bronze cylinder in the possession of Government, capable, when filled

to the brim, of holding just 108 tolas (of 180 grains Troy each) weight of distilled water at its maximum density and under the normal atmospheric pressure.

Rule 2.—(1) The standard seer weight and seer measure aforementioned shall be carefully secured in the State Huzur Treasury in the personal custody of the Officer in charge of the Treasury.

(2) A duplicate copy of the standard seer weight and a duplicate copy of the standard seer measure shall be kept in the Bangalore Central Jail in the personal custody of the Superintendent of the jail; and the same shall be compared annually, if necessary, corrected not less often than once in five years with the standards preserved in the State Huzur Treasury.

The Superintendent shall keep a register in which the fact of such comparison and correction shall be entered and certified to by him and the Officer in Charge of the State Huzur Treasury.

Rule 3.—The use of the following weights and measures of capacity is hereby recognized:—

(A) Weights—

Tola (=180 grains, Troy), equal to one twenty-fourth of a seer as defined in Rule 1 (1).

Half-tola; quarter-tola; and smaller sub-divisions of a tola.
Multiples of a tola to be described as so many tolas.

Seer, equal to the standard seer weight as defined in Rule 1 (1).

Half-seer (*Achcheru*), equal to 12 tolas.

Quarter-seer (*Pavu*), equal to 6 tolas.

One-eighth seer (*Arapavu*), equal to 3 tolas.

Maund (*Mana*), equal to 40 seers.

Lower multiples of a seer, to be described as so many seers (with or without fractional parts), or as such fraction of a maund; e.g., 5 seers (*Pancheru*); 10 seers (*Dhadiak*); $\frac{1}{2}$ maund; $\frac{1}{4}$ maund, etc.

Multiples of a maund, to be described as so many maunds (with or without fractional parts); e.g., 2 maunds; $3\frac{1}{4}$ maunds, etc.

Bengal seer (*Bengal seru*), equal to 80 tolas.

Bengal maund (*Bengal Mana*), equal to 40 Bengal seers of 80 tolas each.

Multiples of the Bengal seer and Bengal maund, to be described as so many Bengal seers or Bengal maunds.

Pound (*Avoirdupois*) lb. equal to 7,000 grains Troy [108 pounds = 175 seers as defined in Rule 1 (1)].

Half-pound; quarter-pound; and smaller sub-divisions of a pound.

Multiples of a pound to be described as so many pounds with or without fractional parts.

*A stone equal to 14 lbs. A quarter equal to 28 lbs. A cwt. equal to 112 lbs. And a ton equal to 2,240 lbs. or 20 cwts.

(B) Measures—

Seer, equal to the standard seer measure as defined in Rule 1 (2).

Sub-division of a seer, as follows:—

Half-seer (*Achcheru*); quarter-seer (*Pavu*); one-eighth seer (*Arapavu*); one-sixteenth seer (*Chutaku*).

Balla, equal to 4 seers.

Kolaga, equal to 8 seers.

Lower multiples of a seer, to be described (as so many seers (with or without fractional parts), or such fraction of a kolaga.

Palla, equal to 100 seers.

Khandi, equal to 20 kolagas or 160 seers.

Lower multiples of a kolaga to be described as so many Kolagas (with or without fractional parts), or such fraction of a palla or khandi.

Rule 4.—The Superintendent of the Bangalore Central Jail shall manufacture copies of the more commonly used weights and measures which, after being carefully verified and stamped with the stamp of verification, shall be available for sale at prices not exceeding 10 per cent. over and above the cost of manufacture.

Rule 5.—Correct copies of the standards of weight and measure, and also of the more commonly used weights and measures, shall be supplied by the Superintendent of the Central Jail, Bangalore, to the offices mentioned in Section 3 of the Regulation, as well as to every Amildar's Office and Police Station. These shall be verified not less often than once in ten years by the Superintendent of the Central Jail, and shall be replaced whenever necessary.

Rule 6.—In the absence of usage or an express or implied understanding to the contrary, it will be assumed that in measuring an article by any of the recognized measures of capacity, the measure is not heaped, but either is stricken with a round stick or roller, straight and of the same diameter from end to end, or, if the article sold cannot from its size or shape be conveniently stricken, is filled in all parts as nearly to the level of the brim as the size and shape of the article will admit.

Rule 7.—Weights and measures of capacity shall be made of metal: provided that measures below a seer in capacity may be made either of metal or of wood or of bamboo.

Rule 8.—The shape of weights, except where handles or depressions for lifting occur, shall, as far as possible, be such that both the upper and under surfaces shall be flat and the horizontal sections circular or rectangular.

Measures shall be hollow cylinders, with as nearly as possible a plane base, and internal diameter equal to not less than two-fifths and not more than three-fifths of the depth.

Rule 9.—Every weight, except where the small size of the weight renders it impracticable, shall have the denomination of such weight stamped on the top or side thereof in legible figures and letters.

Every measure of capacity shall have the denomination thereof stamped on the outside of such measure in legible figures and letters.

A weight or measure not in conformity with this rule shall not be stamped with a stamp of verification under these rules.

Rule 10.—Every weight, except where the small size of the weight renders it impracticable, and every measure of capacity, manufactured in the Bangalore Central Jail or presented for verification thereat or at such other place as the Government may appoint for this purpose, shall be verified and stamped with a stamp of verification in the form given below.

Form of stamp.—The form of the stamp shall be as in the margin, the figures denoting the year of stamping.

Rule 11.—Subject to any directions that may be given by Government, a Deputy Commissioner may empower one or more officers in his district to act as inspectors of weights and measures, whose duty will be to inspect weights and measures and weighing instruments in use. For this purpose and for the purpose of Section 158 * of the Code of Criminal Procedure, they shall be deemed, in regard to the whole of the local area under their jurisdiction, to have been appointed officers in charge of a Police Station.

Rule 12.—(1) Any person having in his possession any weights and measures not manufactured by Government, may apply to the Superintendent of the Bangalore Central Jail or to such other officer as may be appointed by Government for this purpose for the verification and stamping of such weights and measures. Any weight or measure once verified may be verified again on application.

(2) Every such application shall be stamped with a Court fee of the value of one anna for each weight or measure to be dealt with.

Rule 13.—(1) The officer making the verification under the previous rule will without any extra charge, make any slight adjustment that may be found necessary to make the weights and measures perfectly accurate.

(2) He is also empowered to deface, or render incapable of use, or refuse to verify, correct or stamp, any weight or measure brought to him for verification or correction, which appears to him unfit for verification or correction.

* Section 159 of the Code of Criminal Procedure.—(1) Any officer in charge of inspection of weights and measures at a Police Station may, without a warrant, enter any place within the limits of such station for the purpose of inspecting or searching for any weights or measures or instruments for weighing, used or kept therein, whenever he has reason to believe that there are in such place any weights, measures or instruments for weighing which are false.

(2) If he finds in such place any weights, measures or instruments for weighing which are false, he may seize the same, and shall forthwith give information of such seizure to a magistrate having jurisdiction.

APPENDIX.

HINTS FOR TESTING WEIGHTS AND MEASURES.

1. Testing of weights.—

Sensibility of balance.—When weights have to be verified by standard weights and only common scales or balances are available, the first thing to be done is to try the balance as to its degree of sensibility, apart from the question of equilibrium. Suppose a standard weight of 45 seers is received for verification. Put a standard maund weight in a right-hand scale and exactly counterbalance it by weights in the left. If 40 grains weight will make a difference when placed in either scale, the balance may be considered good enough for the verification of a common maund weight of commerce. If a balance does not turn with 1,500 part of the weight that may be in one scale, it cannot be used for very accurate purposes.

Verification of weights.—The maund weight received for verification should be examined thus :—

Place the standard maund weight in the right-hand scale and exactly counterbalance it; then take it out and put in its place the weight to be verified. If the beam shows an equipoise, the weight is correct. It is of no consequence whether the arms of the beam are equal or not, or in other words, whether the scales used for this test are or are not correct.

Correctness of balance.—To ascertain if the balance is correct, put a standard maund weight into the right-hand scale and exactly counterbalance it with stones, sand or any other material in the left-hand scale. Then take it out and put in other weights into the right-hand scale and produce exact equipoise. It is now evident that the two weights weighed in the right-hand scale are equal to one another; remove the weight from the left-hand scale and put therein the weight taken from the right-hand scale, and if the beam shows a true equipoise, the balance is correct; if not, the beam or the scales can only be adjusted by a competent workman. This applies to all beam balances.

11. Testing of grain and liquid measures.—

Diameter of grain measures.—When a grain measure is received for being stamped, the first thing to be done is to measure the diameter carefully. If the diameter of the measure is exactly the same as that of the standard measure, the measure may be accepted for testing. If not, the measure should be rejected.

NOTE.—If a measure is not quite round, a mean between the longest and shortest diameters should be taken.

Method of test employed.—The only system of test to be employed in testing measures is that by volume of water, for the proper performance of which the officer is provided with either a specifically constructed set of standardized testing vessels or with two test glasses, a twenty-ounce glass equivalent to a quart and a five-ounce glass graduated to quarters of an ounce.

Preliminaries to testing.—The following preliminaries must be attended to before the actual process of testing can be commenced. The best drinking water available should be obtained, as it is the clearest. The measure to be tested should be well washed out, and if it is of wood or bamboo, water should be allowed to stand in it for a quarter of an hour before testing, so as to guard against absorption during the testing, whereby the result would be falsified. If the measure is found to be leaky, the leaks should be caulked on the outside only with pitch or sealing-wax.

Process of testing.—The test should then be applied in the following manner:—The rim of the measure should be moistened, as otherwise water may stand without spilling quite a sixteenth of an inch above it; and in a measure of five inches diameter this will represent 1.39 tolas of rice. The measure should then be filled with water. This is done by pouring water into it from the test glass, either the large twenty-ounce glass or the small five-ounce one, or both being used according to the size of the measure under examination. In pouring water from the test glass into the measure, care should be taken to prevent the water from overtopping the rim of the measure. The surface of the water must be exactly level with the rim. It can be easily ascertained how many ounces of water have been used to fill the measure. The quantity of water, if any, found to have been spilt should be deducted from the total quantity poured out from the test glass. If it be found impossible to staunch a leaky measure, reliable results may be obtained by catching the water which escapes by leakage, measuring it, and deducting the quantity from that poured into the measure from the test glass. The remainder represents the exact capacity of the measure in ounces of water. If this is equal to the proper capacity of the measure, calculated at 44.5 fluid ounces for the standard seer measure, the measure may be taken to be correct and stamped accordingly; otherwise it should be rejected. The "correct copies" of measures themselves should on no account be used in the application of the test, as it is almost impossible to pour out the liquid from such measures filled to the brim without spilling. If, however, special vessels of standard capacities are made with a narrow neck and broad lip for pouring, similar in shape to the gallon pot used in the Excise Department, and standardized to fluid ounces, there is no objection to such measures being used for the purpose of testing. The use of ounce glasses will then be only required in the primary test of capacity of such special measures.

(By Order)

C. S. BALASUNDARAM IYER,
*Officiating Secretary to Government,
 General and Revenue Departments.*

SCHEDULE I.—AD VALOREM FEES.

Number.		Proper Fee.
	When the amount or value of the subject-matter in dispute does not exceed five rupees.	Six annas.
	When such amount or value exceeds five rupees, for every five rupees, or part thereof, in excess of five rupees up to one hundred rupees.	Six annas.
	When such amount or value exceeds one hundred rupees, for every ten rupees, or part thereof, in excess of one hundred rupees, up to one thousand rupees.	Twelve annas.
	When such amount or value exceeds one thousand rupees, for every one hundred rupees, or part thereof, in excess of one thousand rupees, up to five thousand rupees.	Five rupees.
*Plaint or memorandum of appeal not otherwise provided for in this Regulation, presented to any Civil or Revenue Court.	When such amount or value exceeds five thousand rupees, for every two hundred and fifty rupees, or part thereof, in excess of five thousand rupees, up to ten thousand rupees.	Ten rupees.
	When such amount or value exceeds ten thousand rupees, for every five hundred rupees, or part thereof, in excess of ten thousand rupees, up to twenty thousand rupees.	Fifteen rupees.
	When such amount or value exceeds twenty thousand rupees, for every one thousand rupees, or part thereof, in excess of twenty thousand rupees, up to thirty thousand rupees.	Twenty rupees.
	When such amount or value exceeds thirty thousand rupees, for every two thousand rupees, or part thereof, in excess of thirty thousand rupees, up to fifty thousand rupees.	Twenty rupees.

* To ascertain the proper fee leviable on the institution of a suit, see the table annexed to this schedule.

THE MYSORE COURT FEES REGULATION.

SCHEDULE I—*Ad valorem fees*—continued.

Number.		Proper Fee
1. * <i>Plaint, etc.—</i> <i>(continued).</i>	When such amount or value exceeds fifty thousand rupees, for every five thousand rupees, or part thereof, in excess of fifty thousand rupees. Provided that the maximum fee leviable on a plaint or memorandum of appeal shall be three thousand rupees.	Twenty-five rupees.
2. <i>Plaint in a suit for possession under the Specific Relief Act, 1877, Section 9.</i>		A fee of one-half amount prescribed in the foregoing table.
3. <i>Application for review of judgment, if presented on or after the ninetieth day from the date of the decree.</i>		The fee leviable on plaint or memorandum of appeal.
4. <i>Application for review of judgment, if presented before the ninetieth day from the date of the decree.</i>		One-half of the fee leviable on the plaint or memorandum of appeal.
5. <i>Copy or translation of a judgment or order not being, or having the force, of a decree.</i>	When such judgment or order is passed by any Civil Court other than the Chief Court, or by the presiding officer of any Revenue Court or Office, or by any other Judicial or Executive Authority. (a)—If the amount or value of the subject-matter is fifty or less than fifty rupees. (b)—If such amount for value exceeds fifty rupees. When such judgment or order is passed by the Chief Court.	Four annas. Eight annas. One rupee.

* To ascertain the proper fee leviable on the institution of a suit, see table annexed to this schedule.

Schedule I—*Ad valorem fees*—continued.

Number.		Proper Fee.
6. <i>Copy of a decree or order having the force of a decree.</i>	When such decree or order is made by any Civil Court other than the Chief Court, or by any Revenue Court— (a)—If the amount or value of the subject-matter of the suit wherein such decree or order is made is fifty or less than fifty rupees. (b)—If such amount of value exceeds fifty rupees.	Eight annas. One rupee.
7. <i>Copy of any document liable to stamp-duty under the Mysore Stamp Regulation, 1900, when left by any party to a suit or proceeding in place of the original withdrawn.</i>	When such decree or order is made by the Chief Court. (a)—When the stamp-duty chargeable on the original does not exceed eight annas. (b)—In any other case.	Four rupees. The amount of the duty chargeable on the original. Eight annas.
8. <i>Copy of any revenue or judicial proceeding or order not otherwise provided for by this Regulation, or copy of any account, statement, report or the like, taken out of any Civil or Criminal or Revenue Court or Office.</i>	For every three hundred and sixty words or fraction of three hundred and sixty words.	Eight annas.

THE MYSORE COURT FEES REGULATION.

Schedule I.—*Ad Valorem fees*—continued.

Number.		Proper Fee.
9. Certificate of administration granted under the Rules relative to the Custody and Guardianship of minors, idiots and other disqualified persons in Mysore, published under the Notification of the Government of India, Foreign Department, Judicial No. 75 J, dated the 25th April 1872.	If the amount or value of the property in respect to which such certificate is granted does not exceed five hundred rupees. If such amount or value exceeds five hundred rupees but not one thousand rupees. And for every one thousand rupees, or part thereof in excess of one thousand rupees.	Five rupees. Ten Rupees. Five rupees.
[a] 10. Probate of a will or letters of administration with or without will annexed.	If the amount or value of the property in respect of which the grant of probate or letters is made exceeds one thousand rupees.	Two per centum on such amount or value: Provided that when, after the grant of a certificate under the Succession Certificate Regulation, 1901, or Act XXVII of 1860, in respect of any property included in an estate, a grant of probate or letters of administration is made in respect of the same estate, the fee payable in respect of the latter grant shall be reduced by the amount of the fee paid in respect of the former grant.
[a] 11. Certificate under the Succession Certificate Regulation 1901.	In any case.	Two per centum on the amount or value of any debt or security specified in the certificate under section 8 of the Regulation, and three per centum on the amount or value of any debt or security to which the certificate is extended under section 10 of the Regulation.

[a] These articles were substituted for the original articles 10 and 11 by Regulation VII of 1901, s. 18.

Schedule I.—*Ad Valorem fees*—continued.

Number.		Proper Fee.
11. Certificate, etc.— <i>contd.</i>	In any case	NOTE.—(1) The amount of a debt is its amount, including interest, on the day on which the inclusion of the debt in the certificate is applied for, so far as such amount can be ascertained. (2) Whether or not any power with respect to a security specified in a certificate has been conferred under the Regulation, and, where such a power has been so conferred, whether the power is for the receiving of interest or dividends on, or for the negotiation or transfer of, the security, or for both purposes, the value of the security, or its market-value on the day on which the inclusion of the security in the certificate is applied for, so far as such value can be ascertained.

16. For the safe custody and return of Documents :—		
(a) For each month or part of a month during which a registered document is left unclaimed in a Registering Office, after the expiration of one month from the date of its registration (to be paid before delivery of the documents) :—		
(a) For documents of value up to Rs. 100, per month	...	0 4
(b) Exceeding Rs. 100 in value or if no value be specified, per month. (See note at foot)	...	1 0
(c) For the transmission of a registered document at the request of the presenter,—Peon's batta (per five miles or part of five miles to be levied at the time of presentation).	...	0 2

17. On all Documents registered if containing more than 300 words, an additional fee at the rate of 4 annas per 100 words or fraction of 100 words shall be charged for the number above 300.

NOTE.—The Sub-Registrar of the C. & M. Station, Bangalore, cannot attest Powers-of-Authority which are to be used out of the C. & M. Station ; such powers if executed in the C. & M. Station must be attested by a Magistrate or other officer mentioned in Clause (c) of Section 33 of the Registration Act.

NOTE.—The Inspector-General of Registration may, in his discretion, remit the fee when it appears to him that its exaction would be productive of injustice or hardship.

REGISTRATION FEES.

18. All copies of Registered Documents, Endorsements, and Certificates required to be transmitted from one office to another, under the Provisions of Sections 65, 66 and 67, shall be prepared at the expense of the parties applying for registration, at the rate of 4 annas per 100 words.

19. If a Document tendered for registration has one or more schedules appended to it, they shall be charged for at the above rate, according to the aggregate number of words contained in them.

20. When a duplicate or counterpart of a Document or Lease is registered at the same time as the original, the registration fee of such duplicate or counterpart shall be charged for at the above rate.

Registration Rules.

1. In leases of immoveable property where the period is specified the total rent payable for the whole period shall be the value (Clause 1).

2. In leases where the period is not specified, the aggregate amount payable for a term of five years shall be the value (Clause 1).

3. In cases where the amount of rent payable is not specified, or where payment is to be made in kind without specification of value, the fee shall be Rs. (Clause 1g of the Table).

4. No searching or copying fees (Clauses VIII and IX) should be charged when a Government Officer searches a register, or takes a copy for a bona fide public purpose.

5. No extra fee (Clause V) shall be levied when an English document registered before the Registrar of a District solely in consequence of the language in which it is written being unknown to the Sub-Registrar by whom it is properly registrable, or solely in consequence of the Sub-Registrar being a party interested in the transaction to which such deed relates.

6. The fee of Rs. 10 for the issue of a commission on the attending at a private residence (Clauses XIV and XV) should be levied in addition to any fee that may be chargeable for any other act performed by the attestation.

7. One attendance or commission fee of Rs. 10 (Clauses XIV and XV) shall be levied if several persons at the same time and place are examined with reference to the same instrument or instruments in which they are all concerned, or when they execute a joint power or several Powers-of-Attorney; but in the last case the attestation fee must be levied on each power.

8. If a single Power-of-Attorney be executed by several individuals, they shall require the Registering Officer's attendance at different places or at different times, both the attestation fee and the attendance fee (Clauses X, XI and XII) shall be levied from each executant.

9. If a Power-of-Attorney be brought for attestation, and registration is requested and insisted on, although unnecessary, it should be registered and the fees (Clauses I and X or XI) must be levied.

10. If several persons intending to execute a joint Power-of-Attorney appear together at the Registration Office, only one attestation fee (Clause X or XI) shall be levied, although the instrument may have been prepared in such a form as to require the Registering Officer's signature more than once. But if the parties appear at the office and execute it on different days or at different hours of the same day, the attestation fee shall be levied on each occasion.

11. When the property lies in more than one Taluk of the same District or in one or more Taluks of another District, the additional copies of the memoranda required for the purpose shall be charged for at the same rates as certified copies.

12. When a copy of an instrument has to be sent to the Registrar of another District, such copy shall be charged for at the rate of four annas per 100 words, and a fee equivalent to that chargeable under the rates of such district for each memorandum issuable under Section LXVI, must be levied and remitted to the Registrar.

13. If a person applying for a certified copy is able to specify the number and year of the instrument or the page and volume of the Book in which it is entered, the fee for a certified copy (Clause IX) shall alone be levied; but if a search be necessary, the fee for a search (Clause VIII) must be levied as well as that for a certified copy.

14. In a certified copy, every figure shall count as a word. If initials or abbreviations are used instead of words, every initial or abbreviation shall count as a word. Thus "A. D. 1866" will be equivalent to six words; "Bounded on the N. E." to five words; and "A. B. Thomson" to three words.

15. No charge shall be made for granting copies of reasons for refusal when given by a Sub-Registrar.

Rules Governing Supply of Electricity by the Government of Mysore Electrical Department.

(To be retained by the customer.)

1. Application for light or power service must be made on the authorized forms which can be obtained on application from the Office of Superintendent, Bangalore Light and Power Supply.
2. The Department reserves the right to refuse to supply any applicant, and to discontinue supply at any time; and while doing its best to ensure uninterrupted service, does not in any way accept responsibility for inconvenience or loss to customers caused by interruptions.
3. The Department accepts no responsibility for loss or damage to customers due to the supply of electrical energy.
4. No supply will be given until the customer's installation has been inspected, tested and passed by the Department.
5. The Department shall have the right to inspect and test the installations of customers at any time and to discontinue supply if any fault is discovered, until such fault is put right and tested to their satisfaction.
6. The Department will install necessary meters on customer's premises, charging a monthly rent as set forth on page 4.
7. Meter-readings will be taken by the Department's officials at suitable times and bills prepared accordingly. Consumers are invited to be present, if possible, when readings are taken, to assure themselves of the correctness of the same.
8. Customers wishing to discontinue the use of electric lighting or power for one full month or more, must give seven days' notice in writing to the Superintendent, Bangalore Power and Lighting, who will have the installation disconnected on the dates specified. Failing such notice, they will be liable to pay until seven days after the disconnection is actually made.
9. In the event of any bills for light or power not being fully paid on or before the 15th of the month following that for which payment is due, the Department reserves the right to disconnect the service, which will only be reconnected on receipt of full payment of all obligations and a small charge for work of disconnecting and reconnecting of service.
10. Subject to clause (2), the Department will bring its supply wires to the street pole nearest the customer's premises.
11. For the purpose of calculating minimum charge on the number of lamps, fans, cooking apparatus, etc., applied for, each 60 watt demand or fraction thereof will be reckoned as one point. Customers must at once notify the Superintendent

C. Gentle & Co.
 Artists & Photographers,
 Brigade Road,
 BANGALORE.
 For Enlargements.

Bangalore Power and Lighting, for any increase in the number or size of lamps or capacity of apparatus installed on their premises. Neglect of such notification will lead to criminal prosecution for attempted fraud.

Inspection and Testing.

12. When the wiring of any premises has been completed, the wiring Contractor shall send details of the installation to the Superintendent of the Electrical Department, with an application for the regular Departmental tests, at least 48 hours before the tests are required.

On receipt of this application, the Departmental authority will appoint a time for his inspection and test, and the wiring Contractor or his representative must attend at the time fixed to witness the tests, give any required information and render all possible assistance :—

- (a) Temporary wires and fittings and "dead ends" must not be included in the installation, and no part of the work must be left incomplete.
- (b) The work will be passed only when it has been satisfactorily proven in accordance with Articles 97 and 98 of the Government of Mysore rules for Electrical work.

13. Ordinarily the Electrical Department will test all meters for its own satisfaction once a quarter.

14. No charge will be made for the first test of any new installation, but a fee of Rs. 5, payable in advance will be charged for each subsequent visit for testing purposes, if, by the first test, the installation is found to be unsatisfactory.

15. Should the consumer dispute the accuracy of the meter, he may, on giving a written notice to the Departmental Superintendent and depositing Rs. 3, have the meter officially tested. If the meter is found to record 5 per cent. or over, more than the correct amount, the money advanced will be returned to the consumer.

16. If the consumer alters his installation in a manner to necessitate the re-rating of his installation, one test will be allowed free and a special fee of Rs. 3 will be charged, for each re-measurement, to defray departmental expenses.

SCHEDULE OF RATES FOR SUPPLY OF ENERGY IN THE CIVIL AND MILITARY STATION, BANGALORE.

Standard Meter Rate Annas 3 per B. T. U.

(1) REDUCTION TO LARGE CONSUMERS.

" " 3,000	4,000	20 "
" " 4,000	5,000	25 "
Over 5,000—Special rates.		

For the Supply of Power for Cooking and Heating.

	Rates per B.T.U.	Minimum monthly charge.
	As.	Rs.
FOR COOKING AND HEATING UNITS OF A LARGER CAPACITY THAN 20 POINTS MAXIMUM DEMAND—		
First 50 B. T. U. consumption ...	1.75	6
Second 50 " consumption or fraction thereof	1.25	...
Third 50 " consumption or fraction thereof or above 150 B.T.U.	75	...

Meter Hire.—Re. 1 per month will be charged for each meter installed for heating service.

Minimum charge.—Rs. 6 per month shall be paid for current supplied to a complete electric stove, range or other electrical heating appliance or combination of heating appliances consuming more than 1,200 watts.

NOTE.—The above schedule is subject to the following conditions :—

- (1) That the individual consumer's normal demand for current used exceeds 20 points or 1,200 watts.
- (2) That the customer at his or her own cost, installs the necessary circuit or circuits complete with regularly specified safety devices and switches to admit of the operation of such heating appliances being entirely independent of the recording meter installed for lighting purposes.
- (3) That current for electric light is not, under any circumstances, taken from the supply mains, feeders or wiring appliances installed for the operation of electric heating appliances.

For the supply of power for Industries.

RATED MAXIMUM DEMAND IN ELECTRICAL H.P.—	Rates per B.T.U.	Minimum monthly charges per rated H.P., maximum demand.
	As.	Rs.
Above 3½ H.P. and under 7½ H.P. ...	1.5	8
" 7½ " " 20 " ...	1.25	7
" 20 " " 50 " ...	1.00	6
" 50 " " 100 " ...	.875	6
" 100 " " 200 " ...	.75	6

A maximum demand of 3½ H.P. or less will be supplied at the rate of As. 2.5 per B.T.U. with a minimum charge of As. 6 per point of 60 watts.

Installations exceeding an integral number of H.P. shall be rated at the next lower integral when the excess is less than .5 H.P. or at the next higher integral when the excess is more than .5 H.P. All installations are subject to inspection and test by qualified inspectors of the Electrical Department and re-ratings for excess demands will be made whenever necessary.

A fixed charge of Re. 1 per month will be levied as meter hire for each meter installed.

Discounts.

Discounts varying from 10 per cent. to 30 per cent. will be granted for load factors varying from 50 per cent. to 100 per cent. the rate increasing by two per cent. for every 5 per cent. increase in the load factor, as shown in the following table :—

Over 50 per cent. load factor	...	...	10 per cent.
" 55 "	...	...	12 "
" 60 "	...	...	14 "
" 65 "	...	...	16 "
" 70 "	...	...	18 "
" 75 "	...	...	20 "
" 80 "	...	...	22 "
" 85 "	...	...	24 "
" 90 "	...	...	26 "
" 95 "	...	...	28 "
" 100 "	...	...	30 "

The load factor shall be determined by dividing the total B.T.U.s used in any month (as measured by the Electrical Department's integrating wattmeter) by 600 working hours in a month. For purposes of calculation under this rule, a month

ELECTRIC POWER AND LIGHTING.

will be regarded as consisting of 600 working hours. The load factor will be calculated as under :—

Load Factor $\frac{\text{Total B.T.U.s in the month}}{600 \times \text{rated H.P.} \times 746}$

NOTE.—The above rates have been sanctioned by Government for the Civil and Military Station, Bangalore, as a tentative measure for a period of 8 years from 1st April 1914.

BANGALORE,
15th April 1914.

REGULATION No. IV OF 1913.

A REGULATION TO REGULATE THE USE OF
MOTOR VEHICLES IN MYSORE.

Received the assent of His Highness the Maharaja on
the 26th September 1913.

Preamble.

WHEREAS it is expedient to regulate the use of motor vehicles in Mysore; His Highness the Maharaja is pleased to enact as follows :—

Short title.

1. (1) This Regulation may be called the Mysore Motor Vehicles Regulation, 1913.

Local extent.

(2) It extends to the whole of Mysore.

Commencement.

(3) It shall come into force on the 1st day of October 1913.

Definitions. Motor Vehicles.

2. (1) "Motor Vehicles" shall include all vehicles constructed to be propelled, entirely or partially, by mechanical means on roads.

(2) "Registering Officer" shall mean the Inspector-General of Police or any other person who may be appointed by Government either by name or by virtue of his office for registering motor vehicles within a particular area.

3. After three months from the date on which this Regulation comes into force, and after the owner has had reasonable opportunity for having the motor vehicle registered under the same, no person shall drive a motor vehicle on a public road or thoroughfare unless it has been registered under this Regulation or under any similar enactment in force for the time being in any part of British India or in the Civil and Military Station, Bangalore.

4. (1) A license to drive a motor vehicle may be granted by the District Magistrate or such other authority as may from time to time be empowered by Government by notification in the Gazette, to any person over the age of 18 years, applying for it on payment of a fee of Rs. 2.

(2) Every license shall remain in force for a period of 12 months from the date on which it is granted, but shall be renewable, and the same provisions shall apply to the renewal of the license as apply to the grant thereof.

(3) Subject to the control of Government, the licensing Officer may refuse to grant or renew a license, or may cancel a subsisting license; but in all such cases, he shall previously give notice to the person applying for the license or its renewal, or the holder of the license to appear before him, either in person or by an agent, at a place and time to be specified in such notice and to show cause why the application for the grant or the renewal of the license should not be refused, or why the license should not be cancelled for all or any of the reasons specified in such notice and may, after hearing him or his agent, if either of them appears, refuse the application for the grant or renewal of the license, or may cancel the license for all or any of such reasons to be recorded in writing and may, where the license is cancelled, require the license-holder to surrender the same within a time to be specified in such requisition.

Transfer and surrender of license.

5. The holder of a license shall not lend it to, or allow it to be used by, any other person and shall surrender it on being required to do so under Section 4.

6. The driver of a motor vehicle shall produce his license upon demand by any Police officer above the rank of a constable who is in uniform or wears other sufficient indications of his office.

Obligation to stop vehicle for regulating traffic and in case of accident.

7. The person in charge of a motor vehicle shall cause the vehicle to stop and to remain stationary so long as may reasonably be necessary—

(a) when requested to do so by any Police officer who is in uniform or wears other sufficient indications of his office for the purpose of regulating traffic or of ascertaining his name and address in view to prosecute such person under this Regulation or for any purpose connected with the enforcement of the provisions of this Regulation and the rules framed thereunder, or any other law for the time being in force, or

(b) when requested to do so by any person having charge of a horse or other animal (whether led, driven or ridden) which appears to be frightened by the motor vehicle, or

(c) when he knows or has reason to believe that an accident has occurred to any person or to any animal or vehicle in charge of a person owing to the presence of a motor vehicle on the road, and

he shall also, if so required, give his name and address and the name and address of the owner of such motor vehicle.

8. During the period, between half an hour after sunset and one hour before sunrise, the person in charge of a motor vehicle shall carry attached thereto lights of such description and so situated as the Government may, by rule under section 9, direct.

Obligation to carry lights attached to vehicles.

9. (1) The Government may, after previous publication, make rules to regulate the use of motor vehicles in the whole or any part of Mysore.

(2) In particular and without prejudice to the generality of the foregoing power, the Government may make rules under this section containing directions as to all or any of the following matters, namely :—

- (a) the conditions under which the motor vehicles may be registered, the fee payable for registration, and the notification of changes of ownership to the registering officer ;
- (b) the assignment of distinguishing numbers of motor vehicles on registration and the display thereof in prominent positions on the vehicles ;
- (c) the provision and use on motor vehicles of adequate brakes or other means of stoppage and the testing of their efficiency ;
- (d) the provision and use on motor vehicles of bells, horns or other instruments for giving audible and sufficient warning of their approach or position ; and the prohibition of the use of any particular signal by other vehicles than motors ;
- (e) the description of lights to be carried on motor vehicles and the position in which they should be placed ;
- (f) the conditions under which licenses to drivers of motor vehicles may be granted, renewed or cancelled ;
- (g) the speed at which motor vehicles may be driven ;
- (h) the precautions to be observed when motor vehicles are standing in any street or public place ;
- (i) for prohibiting the driving of motor vehicles in any place where their use may be attended with danger to the public ; or regulating the hours within which motor vehicles may be driven, or the hours within which no vehicle other than a motor vehicle shall be driven in any such place ;
- (j) generally, for preventing danger or injury to persons, animals, vehicles or goods by motor vehicles and for preventing obstruction to traffic by them.

10. After three months from the date on which this Regulation comes into force, and after he has had reasonable opportunity of obtaining a license under this Regulation no person shall drive a motor vehicle, without such license or a license granted under a similar enactment in force in British India or in the Civil and Military Station, Bangalore, on a public road or thoroughfare or employ so to drive a motor vehicle any person who is not so licensed.

11. (1) The Government may, by the publication of a notification prohibit within any local area or along any road specified in such notification the letting or plying for hire of any motor vehicle, except under a permit granted by them, or by such officer, if any, as they may appoint in this behalf, subject to such general or special conditions as the Government or such officer may see fit to prescribe.

Power of Government to prohibit letting or plying for hire, except under permit.

(2) The grant of any such permit shall be at the absolute discretion of the Government, or of such officer subject to the control of the Government.

Provided that the grant of a permit under sub-section (1) shall not in any way hinder or restrict the grant of another permit to any other person.

12. Any person committing a breach of sections 3, 5, 6, 7, 8, 10 and 11 or of any rule made under section 9, shall on conviction be liable to a fine which may extend to fifty rupees, or, in the case of a second or subsequent conviction to one hundred rupees.

Penalty for breach of certain sections or rules.

Enquiry into and trial of offences.

13. No offence punishable under this Regulation shall be enquired into and tried by a Magistrate of the 3rd class.

14. Notwithstanding anything hereinbefore contained, the Government may, by the publication of a notification, exempt, either generally or for a specified period, any particular motor vehicles or classes of motor vehicles from the operation of all or any of the provisions of this Regulation, and may vary or rescind such notification.

Power of Government to exempt certain vehicles from operation of Regulation.

M. VISVESVARAYA,

Dewan.

NOTIFICATION.

No. J. 2016—Legis. 17-13-5, dated 19th January 1914.

In exercise of the powers conferred by Section 9 of the Mysore Motor Vehicles Regulation, 1913, the Government of His Highness the Maharajah are pleased to make the following Rules for the Registration and Regulation of Motor Vehicles in Mysore —

RULES.

I. Preliminary.

Short title, extent and definition.

1. (1) These rules may be called the Motor Vehicles Rules, 1914.

(2) They shall extend to the whole of Mysore.

(3) In the rules—

(a) "the Regulation" means the Mysore Motor Vehicles Regulation, 1913, and

(b) the expression "motor cycle" means a two, three or four wheeled cycle propelled by mechanical means, fitted with seats, but without a carriage body and weighing not more than 3 cwts.

II. Registration.

2. All motor vehicles belonging to persons resident in the State shall be registered under these rules. The fee for registration under this Regulation shall be rupees four for motor cycles and rupees sixteen for all other motor vehicles. There shall be no fee for re-registering, during the first year of these rules coming into force, motor vehicles which have been already registered under any enactment in force in British India or in the Civil and Military Station, Bangalore.

Fees.

Number, transfer of ownership, etc.

3. (1) The registering authority shall assign a distinguishing number to each motor vehicle and shall record the name and address of the owner.

(2) The number so assigned shall be shown in white figures on a black ground and shall be fixed by the owner in a prominent position on both the front and the rear of the motor vehicle.

(3) The number shall be not less than 3½ inches in height and shall be perfectly legible. In the case of motor cycles they shall be not less than 2 inches in height.

(4) Such number shall not be in any way obscured; or allowed to become, not easily discernible at a reasonable distance.

4. In the case of a manufacturer of, or a dealer in, motor vehicles, a general number may be assigned by the registering officer on payment of an annual fee of Rs. 32 to be used on any motor vehicle when on trial after completion of the running parts or when on trial by an intending purchaser or when being used by a person licensed under Section 4 (1) of the Regulation, for the purpose of instructing any other person in the use of the motor vehicle or cycle. Provided that such motor vehicle shall not ply for or be let out on hire, unless it has been separately registered under Section 3 of the Regulation.

5. Every transfer of ownership shall forthwith be intimated to the registering officer by the transferee by a notice in writing signed by himself or his agent.

6. (1) Before registering a motor vehicle the registering officer shall be satisfied that it is provided with two independent brakes or other means of stoppage in good working order and of such efficiency that the application of either is capable of promptly stopping the motor vehicle.

(2) In the case of applications for the registration of motor vehicles, the registering officer may accept the certificate of the District Superintendent of Police that the requirements of sub-section (1) are in any particular case in his opinion, sufficiently complied with.

7. If at any time after a motor vehicle has been registered, the registering officer has reason to believe that it has ceased to comply with the requirements of sub-section (1) of Rule 6, or that it is not maintained in such a condition as to prevent danger to the public, he may, after notice to the registered owner, direct that the registration be cancelled until such time as the defects are rectified to his satisfaction.

Subsequent defects.

MOTOR VEHICLES RULES.

III. General.

8. A motor vehicle shall be driven in according with the rules of the road which require a vehicle to keep on the left of the road except when overtaking horses and vehicles going in the same direction which should be passed on their right.

Driving on the pro- per side of the road. Provided that when passing a tram car or other vehicle running on fixed rail the driver of any motor vehicle may drive on whichever side thereof he may consider necessary, having due regard to the circumstances of the case.

9. A motor vehicle shall not be driven in a public road or place recklessly or negligently or at a speed or in a manner which is likely to endanger human life, or to cause hurt or injury to any person, or animal, or damage to any vehicle or property, or which would be otherwise than reasonable and proper, having regard to all the circumstances of the case, including the nature, condition and use of the road, and the amount of traffic which is actually or may reasonably be expected to be on it at the time.

Reckless driving. Provided that the Presidents of the Municipal Councils of the Bangalore and Mysore Cities and the District Magistrates elsewhere shall have power, subject to the approval of Government to prescribe that when passing through a particular locality, street or village motor drivers shall not exceed such rate as may be indicated on notice board erected at each end of the locality, street or village.

Speed limit. Provided also that the Government by notification may prescribe a rate of speed which shall not be exceeded either generally or in any particular locality.

10. (1) A motor vehicle shall not be driven in any foot-way, nor in any road or public place, where such driving may, for the time being, be prohibited as being dangerous to the public or obstructive to traffic by an order promulgated by the President of the Taluk Board for the Taluk or the Chairman of the Municipality within which the foot-way, road, etc., is situated. Such order may be in respect of driving within specific hours or of driving generally and may at any time be withdrawn or varied by the President or the Chairman as the case may be.

(2) Any person affected by an order issued under Rule 10 (1) may apply by petition to the District Magistrate, to cancel or modify such order.

11. (1) The person in charge of a motor vehicle shall obey all directions of Police officers posted or stationed for the regulation of traffic at crossings or other places, and shall cause the motor vehicle to stop when requested to do so under Section 7, Clauses (a) and (b) of the Regulation.

(2) When any accident has occurred to any person, or to any animal or vehicle in charge of any person owing to the presence of any motor vehicle on the road and there is no Police Officer present, the driver of the motor vehicle shall, if any person has been injured, render every possible assistance to such person.

MOTOR VEHICLES RULES.

12. Every person driving a motor vehicle shall have ready and available for immediate use a suitable horn capable of giving audible and sufficient warning of his approach or position and shall sound the same whenever expedient to prevent danger to any of the public. Provided that no sirens shall be allowed.

Motor vehicles to carry lamps. 13. The lights to be carried by motor vehicles under Section 8 of the Regulation shall be as follows:—

- (1) In the case of vehicles other than motor cycles—
 - (a) one lamp showing a white light in front shall be affixed on each side of the front portion of the vehicle ;
 - (b) one lamp showing a red light at the rear and showing a white light at the side shall be affixed at the back of the vehicle in such manner as to illuminate with the white light and render easily distinguishable the number of the vehicle.
- (2) In the case of motor cycles one lamp showing a white light in front, shall be affixed to the motor cycle.
- (3) In all cases—
 - (a) the lamps shall be of suitable character and illumination ;
 - (b) the lamps shall be kept properly alight ;
 - (c) where acetylene or electric lamps or lamps of any description giving a powerful and intense light are used within any local limits specially notified by the District Magistrate or the President of a City Municipal Council the same shall be properly hooded or screened to the satisfaction of the registering authority.

Maintenance.

14. No person shall have a motor vehicle—

- (a) unless it is at all times under full control so as to prevent undue interference with passenger or other traffic, and unless it is maintained in such a condition as to prevent danger to the public or to any person riding on it ; (b) unless it is so used that no smoke or visible vapour is emitted therefrom except from some temporary or accidental cause.

15. No motor vehicle shall be allowed to stand in any street or public place unattended by a person licensed under Section 4 of the Regulation, unless all reasonable precautions have been taken to prevent it moving.

16. The driver of a motor vehicle shall not unnecessarily cause the vehicle to travel backwards for a greater distance or time than may be requisite for purposes of safety or in order to turn round.

17. A manufacturer of, or a dealer in, motor vehicles shall distinctly mark every such vehicle by a letter or letters in addition to the dealer's general number under Rule 4. He shall keep in such form as the registering authority may direct a register showing the name of the driver in charge of each of the motor vehicles when allowed to leave his premises and the hours and dates on which he was in charge of the vehicle, Register to be kept.

Such register shall be open to inspection on the demand of any Police Officer of or above the rank of Sub-Inspector.

18. No motor competition, reliability trial, display or exhibition, in which more than five motor vehicles take part, shall be permitted on any public road without the previous sanction of Government.

Motor competition or reliability trials.

IV. Forms.

Application for license.

19. Every application for a license under Section 4 of the Regulation shall contain the particulars specified in Schedule A.

License.

20. Every license granted under Section 4 of the Regulation shall be in the form of Schedule B.

Application for registration.

21. Every application for registration shall contain the particulars specified in Schedule C.

Schedule A.

Particulars to be given by applicant for license to drive (see Rule 19.)

1. Full name of applicant.
2. Postal address or residence of applicant.
3. The age of the applicant.
4. Whether applicant holds, or has at any time previously held a license.
5. Particulars of any license which applicant holds, or which he previously held.
6. Particulars of any endorsement on any license which applicant holds which he has previously held.

Schedule B.

Form of license (see Rule 20.)

No. _____ of _____ 191 _____

[Fee Rupees two (Rs. 2) only.]

THE CATHOLIC DIOCESE OF MYSORE.

The Diocese of Mysore comprises Mysore, Coorg, Wynaad, Oosoor and Kollegal, which were combined into a Vicariate Apostolic in 1854, the first Vicar Apostolic being Dr. Charbormeau. Subsequently it was created a Bishopric and styled the Diocese of Mysore, while it was placed under the auspices of the Society of Foreign Missions, at the same time. Of this Diocese The Rt. Revd. A. Basle D.D. is Bishop, the Vicar-General is the Very Revd. R. Teissier and the Revd. A.M. Tabard, M.A. is the Secretary.

There are several lay Orders, viz., the Brothers of the Immaculate Conception and the Brothers of St. Gabriel in St. Joseph's College, the Nuns of the Good Shepherd, the Nuns of St. Magdalene and St. Anne, the Little Sisters of the Poor and the Nuns of St. Joseph of Tarbes; this last order work in St. Francis Xavier's Schools, the Bowring and Mysore Hospitals, in Mercara and in the Kolar Gold Fields Mission.

St. Patrick's Cathedral.—The Revd. A. M. Tabard, M.A., is Chaplain and the Revds. J. Mascarenhas and A. Lobo are Assistant Chaplains. The Cathedral was built in 1899, the consecration was by the Bishop of Mysore assisted by the Bishop of Coimbatore and the Bishop of Madras, Auxilliary.

St. Patrick's Parish Institution.—There is a Temperance League called the League of the Cross for Roman Catholic Soldiers in the Garrison, the Meetings of which are held in St. Patrick's Institute.

St. Anthony's Guild, is another Society for relief of the poor, these being given a relief in, what is called St. Antony's Bread, from the subscriptions of the Society. The members meet in St. Anthony's Oratory rooms, where there large gatherings every Tuesday, St. Anthony's Day.

The Apostleship of Prayer—is a Confraternity whose prayer-services are conducted in the Chapel of the Sacred Heart in the Cathedral precincts.

The Third Order.—The Brothers and Sisters of this Order assemble in the Chapel of St. Francis on the 3rd Sunday of the month.

St. Patrick's Orphanage and St. Patrick's School are attached to St. Patrick's Cathedral.

Under the auspices of St. Patrick's Cathedral are St. Joseph's College, the Brothers of the Immaculate Conception and other Lay Orders and the St. Louis' Boarding School.

Church of the Sacred Heart.—The Priests in charge are the Revd. V. Jacquemin and the Revd. M. Albert. The church was built in 1892 and its congregation is entirely Native. There are a Boys and a Girls School, the latter being managed by Nuns, the Sisters of St. Anne.

St. Mary's, Blackpully.—The present structure was erected by the Revd. E. L. Kleiner in 1882; it is Gothic and took the place of an ancient church, the oldest one in the Civil and Military Station in the last century. The congregation that worship in it are almost entirely Native. *The Priest in Charge* is the Revd. A. Rantuean, *Assistant* the Revd. J. D'Silva.

St. Francis Xavier's Church on St. John's Hill. *The Priest in charge* is the Revd. J. B. Servanton, *Assistant* the Revd. A. Fengart. It dates from 1851, the year it was opened.

St. Joseph's Church.—*The Priests in charge* are the Revds. C. P. Briand and D. D'Souza. It is an ancient Church, being one of the oldest in Bangalore.

Church of the Immaculate Conception. It is within the City Railway Premises. *The Priest* Revd. P. Briand.

Convent of the Good Shepherd.—*The Lady Superior*, the very Revd. Mother Mary of St. Paula. The Nuns of the Good Shepherd of Angers are the Order that conduct the work of the Institution. The Revd. N. Vallet is the Chaplain of the Convent.

CHARITABLE INSTITUTIONS.

Friend-in-Need Society.

General Committee.—*President:* The Hon'ble Col. Sir Hugh Daly, R.C.I.E., C.S.I., British Resident in Mysore; *Vice-Presidents:* Genl. R. Wapshare;

Honorary Secretary: Rev. M. A. Tabard, M.A. **Honorary Treasurer** R. Boreham
Members: M. Abdul Rahman, K.B., B.P., Annasamy Mudaliar, R. B., C.I.E., Revd. A. Garland, Capt. G. Chooet, Revd. F. Goodwill, Revd. F.F. Bull, M.A. Khas, Abdul Ghafar, Revd. H. Hacking, B.A., A.R. Cox, I.C.S., Revd. S. Paranjothi, B.A., Revd. A. R. Fuller, B.A., Revd. G. H. Mc. Cormick, J. C. Denehey, R. Foregard, A. Prime G. T. Hall, J. D. Legge, Revd. H.N. Bridge, Rao Bhadur A. M. Soondara-Murthy Moodaliar, Revd. J. B. Servanton, and J. G. Philip.

Executive Committee:—**Members.**—Messrs. M. Abdul Rahman, K. B. B. P. Annasawmy Mudaliar, C.I.E., R.B., Captain G. Chooet, Revd. F. Goodwill, Revd. F. F. Bull M.A. Revd. J. G. Philip, M.A., Revd. H. N. Bridge, M.A. A. Prime, Revd. H. Hacking B.A., A. R. Cox, I. C. S., Rev. Paranjothi, B.A., Rev. P. David, Rev. A. R. Fuller, B.A., Rev. G. H. McCormick, J. C. Dennehey, J. D. Legge, G. T. Hall, Revd. J. B. Servanton, R. Foregard, Rao Bahadur A.M., Soondara Murthy Moodaliar, and Revd. A. M. Tabard, M.A.

Medical Officer,—Capt J. A. Legge, (Ret) I. a. M. D., **Superintendent;** C. A. Phillibrowne; **Matrons.** Mrs. J. Domingo, and Mrs. Sylvester; **Writer and Overseer,** P. S. Rajagopal Mudaliar.

Girdlestone Ward. Adjoining the premises of the Friend-in-Need Society's building is the Girdlestone Ward, established by a former British Resident in 1886. The Committee of the Friend-in-Need Society utilise the premises for the poor, who are suffering from any incurable or chronic complaint and the institution is supported by a Grant-in-aid from the Municipality of the Civil and Military Station and by voluntary subscriptions.

Home for the Aged. At Breton Villa, Oosoor Road, very aged and infirm poor are received and supported by the humane efforts of the "Little Sisters of the Poor", a Lay Order that looks after the Institution and maintains it from charitable contributions or gifts in kind.

Home for Poor Widows:—A few rooms stand at the junction of Thimmiah Road with old Poor House Road that afford shelter to five poor widows, who are maintained on the income of a legacy of Mr. Garrett, late of Bangalore. This Institution has prescribed rules for its management and it is under the Wesleyan Mission. Next to it is The Free Library for poor aged pensioners of St. John's Hill.

The Church of England School Institute.—It stands on Markham Road, Shoolay. The Incumbent of All Saints Church has the management. The object is to provide a cheap meal that could be had by the European and Anglo-Indian poor, who have, besides, a pleasant evening with a small supply of papers and an arrangement for an evening's amusement for adults and children.

It was, at one time, managed by an Independent Committee who have handed it over to the Incumbents of All Saints' Church, who, now, look after its affairs.

MEDICAL INSTITUTIONS.

Hospitals C. & M. Station

Bowring Civil Hospital, Hospital Road. | Zenana Mission Hospital, Miller's Road.
 Lady Curzon Hospital do

City.

Victoria Hospital
 Minto Ophthalmic Hospital.
 Maternity Hospital.
 Lunatic Asylum.

Leper Asylum.
 St. Martha's Hospital.
 The Anglo-Aryan Dispensary and Indigenous Hospital.

The Bowring Civil Hospital and the Lady Curzon Hospital.—Major R. F. Standage, I.M.S., the Residency Surgeon, Bangalore, is the Medical Officer in charge of both institutions. **House Surgeons.** Dr. J. L. Kelly, Curzon Hospital and Dr. B. Harris, Bowring Hospital. **Lady Assistant Surgeons,** Miss DeSantos and Mrs. Pereira. **Sub-Assistant Surgeons.** M. K. Bhupala Moodaliar, D. K. Rama Rao, L. V. R. Annavi Iyer, and Mr. Mathews. **Nursing Superintendent** Miss Bonser with a Nursing staff of two sisters, eight Charge Nurses, eight Pupil Nurses with two Junior Pupil Nurses and five Indian Nurses. **Steward and Head Clerk,** Vencatachaliengar.

These institutions are Government Hospitals and have a Dispensary attached to each. They stood on Hospital Road but now form a separate enclosure, with the Northern part of New Market Road enclosed within the grounds. The New Market Road at present stops at the gate of the combined buildings, the former road that was, now being a grass plot, and the main gate of the Hospitals is the public entrance with a door opening into the enclosure from the North of New Market Road, a provision for urgent cases that might occur on the North side of the Hospitals. There are eleven wards in the Bowring Civil Hospital with 77 beds, three of these reserved as special wards. The Curzon Hospital beds No. 118, some of them caste wards and special wards. It is also a Maternity Hospital providing 28 wards for these cases. The wards are equipped with every appliance for diseases of the eye, ear, nose and throat. The X-rays installation is complete. The Hospital is lit with electricity. Treatment in the general wards is obtained free. Mondays excepted, visitors may visit friends and relations every evening between the hours of 5 and 6 P.M. An Ulsoor Dispensary is an annexe of B. P. Bowring Hospital. There are two other Dispensaries, one maintained by B. P. Annasawmy Moodaliar Rao Bahadur and the other is the Saadut Dispensary in Oosoor Road Shoolay founded by Mr. Aga Abbas Ali.

The Zenana Hospital.—This is a Gosha Hospital, providing wards for Mahomedan Gosha women, chiefly, but women of other castes are also admitted for treatment and are given accommodation. If the cases are to be specially treated, private wards are supplied on a small payment and phthisis is treated in a roof ward. As the Hospital was founded for the poorer classes of Indian women and, exclusively, for Indians, Europeans and Eurasians can enter only on a payment. There is a dispensary attached to it, open from 7 to 9 A.M. daily, except Sundays. Visiting hours for friends are from 4 to 5 P.M. The Lady Doctors are Miss A.G. Lillingston, L.R.C.P. and S. (Edin), Miss D.E. Lockwood, L.S.A.L.R.C.P. and S. (Edin) (on furlough) Miss Constould, M.D. (on furlough). Nursing Superintendent Miss R.A. Williams.

CITY.

Victoria Hospital.—The Surgeon in charge is Dr. E. S. Krishnasawmy Iyer, M.B.C.M., Doctor C. A. Nanjappa, L.M.S. M.R.C.S. (Eng.) the X. Rays, expert

is the Resident Surgeon. Miss Ayachammall is the Lady Doctor. Dr. H.B. Mylvaganam, F.R.C.S. (Eng.) is the Specialist in diseases of the ear, nose and throat. Miss Butcher is the Matron, Mr. P. Narasimhulu is the steward. The Hospital was opened by Lord Curzon in 1900. It is within easy reach of the Fort, the Pettah and the Extensions. In 1887 the Pettah Dispensary was amalgamated with St. Martha's Hospital but in 1893 it was found necessary to found a separate Government Hospital. In 1897 through the services of Lt. Col. T.J. McGann, I.M.S., a convenient and suitable site was fixed on in the proximity of the Fort, Pettah and the Extensions, when Her Highness the Maharani, C.I., laid the stone of this magnificent foundation, second to none in India, on the occasion of the Diamond Jubilee of Her Majesty the late Queen Victoria. It was founded as a free hospital owing to the generosity of Her Highness the late Regent. But there are special wards for patients who pay. It is open to the well-to-do patients to give any donations or endowments. The structure is a handsome one and it has cost 7 lakhs of rupees to build and equip.

St. Martha's Hospital.—The Senior Surgeon with the Government of India Dr. T. V. Arumuga Moodaliar, M.B.C.M. is in charge, as Visiting Officer. Resident Surgeon Dr. F. H. Noronha M.B.C.B., (Edin) D.Ph. (Cantab.) L.D.S. (Dublin) Sisters, Aloysius and Sister M. Martha and a staff of Nurses. The Hospital buildings were put up under the supervision of the late Revt. Mother Visitation Leusch, 1886 with the patronage of the late Dewan Sir Seshadri Iyer and Lt. Col. McGann, I.M.S., late Senior Surgeon under the Government of Mysore. The institution is supported, partly, by a grant-in-aid from the Mysore Government and the Bangalore City Municipality and is worked by the Nuns of the Good Shepherd order.

The patients are treated and kept, free of charge. There are 95 beds provided. Special comforts are provided for paying patients. A Dispensary is an annex to the hospital.

Minto Ophthalmic Hospital.—Just behind the Victoria Hospital stands this large Hospital taking the place of the old Eye Infirmary in Lal Bagh Road. It has, besides out-patients wards, in-patients wards, viz., 60 for males and 4 female wards. Superintendent, Dr. S. V. Ramaswami Iyengar, M. D. Assistant Superintendent, Dr. B. G. S. Acharya, T. R. C. S.

Maternity Hospital. Dr. T. V. Arumuga Mudaliar M. B. & C. M. is the Senior Surgeon and Sanitary Commissioner to the Government of Mysore is the Visiting Officer. Miss Govindarajulu, M. D. is the Surgeon in charge. The foundation was established with a bequest of Kai Banadur Yella Mullappa Chett of Bangalore City in 1880. Attached to it is a staff of Nurses, European and Indian, holding stipends from the Victoria Memorial and Countess of Dufferin Fund, undergoing training at the Hospital and Dispensary.

Lunatic Asylum.—Assistant Surgeon W. Strinivasa Iyengar, M.B. & C.M. is in charge. The institution stands at the entrance to Bangalore City at the Pe Gate. Lunatics are admitted both from the City and Cantonment limits. Industrials are taught, as a diversion, to the inmates that are partly competent of work.

Lepor Hospital.—Mr. R. Subba Rao, M.B. and C.M.L.S. Sc. is in charge, *ex officio* as the Health officer. It is situated at Magadi Camp Road, behind the City Station.

Vaccine Institute.—The Superintendent in charge is Assistant Surgeon F. Noronha, M.B. C.M. The supply of vaccine sent throughout the State is manufactured, here, direct from the calf and the paste is issued from this Depot to hospitals and dispensaries throughout India and Burma. Students receive a training at the institute in its manufacture etc.

The Government Medical Stores.—Dr. T. V. Arumuga Moodaliar, M.B. C. M., is in charge as the Senior Medical Officer with the Government of Mysore.

City Municipal Dispensaries.—There are several, viz., at Malleswaram, G. Andiappa; Arlepet, V. S. Rajagopal Moodaliar; Gawgarpet, F. Chambers; Basavangudi, K. V. Gundupanth; Chamarajpet, C. Narayana Rao. There is an Epidemic Diseases Hospital with a Medical Officer in charge, Abdul Khader Sawar.

The Anglo-Aryan Dispensary and Indigenous Hospital.

Established in 1899 in Bangalore City, as an indigenous hospital, it has answered the intention of its Patron, His Holiness Sri Sankaracharya of Sivaganga, admirably. It enjoyed the patronage also of the late Dewan of Mysore Sir P. N. Krishnamurti, K.C.I.E., and that of the Jagirdar of Yalandur, H. H. the Mahant of Tirupati. The Hospital is situated in Chickpet and is in charge of Valodia Panchandan V. D. Pandit, F. A. U. (Nasik), its Doctor and Founder. Mr. Pandit is well known in other parts of the country besides Mysore, such as at Amaraoti, and Conjeeveram and holds a certificate of merit and a medal from the Mikado of Japan. There is a Dispensary attached, where Ayurvedic Allopathic and the Unani system drugs and medicines are dispensed, daily from 6 A.M. to 6 P.M.

Note on the Water-supply of the Civil and Military Station of Bangalore. (Being a revision of Major-General Williams's Note of 1902.)

Source of Supply

The water-supply both of the City and the Civil and Military Station is drawn from the Chamarajendra Reservoir at Hessaraghata, about 13 miles in a direct line from Bangalore. This reservoir was built by the Mysore Durbar, and water was first pumped from it to the City in June 1896. Shortly after, in February 1897, an agreement was drawn up between the Secretary of State and the Durbar, whereby the Imperial Government were given certain rights in the water impounded.

The capacity of the lake when full to weir level is 747·7 million cubic feet. It has been determined by calculation, and proved by experience, that this quantity of water is sufficient for the present needs of the City and the Station for two years and seven months, assuming that during that period the minimum rain-fall (17 inches) only is received. This is no longer considered a sufficient margin of safety, seeing that the tank-filling rains are usually received late in the year, and it is proposed shortly to arrange for impounding enough extra water to make the supply certain during three consecutive years of scanty rain-fall, assuming also a considerably increased consumption. When these alterations are complete the Bangalore Water-supply will be in line with the best installations elsewhere, few, if any, of which allow for more than three years minimum rain-fall.

Quantity of Water

Under the agreement cited above, the significant clause of which was revised in 1904, the Station may draw at present one and a half million gallons a day from the lake. The clause is due for revision this year (1914), and, as the maximum consumption has now reached the above figure and is rapidly increasing, it is probable that the Station will demand two and a quarter million gallons for the next decade. It is to be understood that this is the probable *maximum* requirement in 1923 or 1924: the *minimum* consumption during the rainy season ten years hence is not likely to exceed eleven hundred thousand gallons, and the *average* about fourteen hundred thousand: all arrangements for filtration, storage and distribution have, however, to be based on the maximum consumption in the dry season.

Under an agreement made in February 1897, and twice revised since, the Secretary of State agrees to supply to the Municipal areas of the Station two-thirds of the water actually received from the Reservoir, the remaining third being reserved for the Military.

The whole initial cost of the scheme, and of the Secretary of State's share of the cost of the Jewell Filters, was borne by Government. The Municipality paid

two-thirds of the cost of the new rising main, engine and boiler installed in 1913, and contribute two-thirds of the actual working expenses and of the estimated cost of maintenance.

The actual consumption by the Military is now (1914) being determined by meter. It is believed to be about one-fifth of the total consumption in the dry season, one-third in the rains, and about one-quarter on the average throughout the year.

Description of Works.

(a) PUMPING STATION.

The water is conveyed from the Reservoir to Turbanhally by a masonry duct, and there bifurcates, the City supply being carried by another duct about three-quarters of a mile long to the Durbar Pumping Station. At Turbanhally the water is settled in three half-million gallon masonry tanks, formerly used for filtration, and is then pumped to the Jewell Filters at Hebbal. The pumping installation consists of two 85 H. P. and one 50 H. P. engines, and three boilers, and is more than capable of pumping daily the maximum quantity of water likely to be required for many years to come. The original main is 15" internal diameter, and of cast iron. The new main, referred to above, is of steel; and also of 15" diameter. A cross connection between the old main and the City rising main exists near Turbanhally, and it is possible to pump from either station through the other main in case of a breakdown: (This connection is not in working order at present). The length of the mains to the Jewell Filters is about 8½ miles, and the difference of level 280 feet. With both mains in use the frictional head is at present (1914) about 50 feet, and with the lift from the suction well the total pumping head is about 340 feet. As incrustation commences in the new main the frictional head will increase, but it is in contemplation to scrape the old main and the necessary appliances have been obtained.

(b) JEWELL FILTERS.

The supplies drawn from Hessaraghata, after bifurcating at Turbanhally, join again at the Jewell Filters, situate near the Institute of Science, Hebbal. The quantities pumped by the City and Station are separately metered on entering the Filters and then are mixed. The combined supplies, after coagulation with alum in large settling tanks, are filtered, and the quantities required are then pumped by electric pumps to the City and Station Service Reservoirs, being again separately metered on leaving the filters.

Although the settling tanks are large, only the top few feet can be drawn on for filtration purposes, owing to the relative levels, and there is therefore only storage for 2½ million gallons, less than a day's supply for the whole of Bangalore at the period of maximum demand. This gives rise to considerable difficulty in the dry season, as pumping has to go on practically continuously, the storage capacity of the Service Reservoirs being also very limited. To remedy this it is proposed to build an additional two million gallon storage tank at the Filters. The Jewell Filters were built by the Durbar in 1909 on the site of their old Sand Filters. Half the cost was met by the Imperial Government, and no call was made on the Municipality, though under the agreement such a call would have been justifiable.

The Filters are constructed to filter three million gallons daily, and they are incapable of anything further. As explained above an increased demand is likely to be made for the ensuing decade, and this will necessitate the installation of an extra pair of filter units, to deal with an additional million gallons daily, and probably extra pumping plant also. The incidence of the cost of making this addition is under discussion.

The Filters are under the control of the Durbar, and the Imperial Government pay half the cost of working and maintenance, subject to the Station demand not exceeding that of the City (or *vice versa*) by more than sixty million gallons per annum, in which case the costs would be shared *pro rata*. The Municipality pays two-thirds of the Government share of working expenses, and a fixed sum based on percentages for maintenance.

(c) RESERVOIR ON HIGH GROUND.

The Station Reservoir on High Ground contains a total of four million gallons, and is divided into two compartments to facilitate cleaning operations. It is ten feet deep, but only the upper seven feet can be drawn on owing to the risk of air entering the pipes if the level falls below three feet. There is an available storage therefore of 2,800,000 gallons only, almost exactly two days' consumption at present (1914) during the period of maximum demand. The reservoir is never allowed to fall below the seven feet level, if possible, as houses on High Ground and in the neighbourhood of Nandidroog Road suffer if this happens, owing to their high level.

From the Reservoir the water is distributed through the station in cast iron mains and sub-mains.

Conservation of Catchment Area.

Careful steps are taken to prevent the pollution of the water in the Chamarajendra lake. All wet cultivation and much of the dry cultivation on land draining into the lake has been stopped, and most of the villages on the immediate catchment have been removed. A belt of land 150 feet wide has been bought up round the high water mark of the lake, and is patrolled by watchmen who prevent men or cattle trespassing on it. When the enormous area of the lake, approximately 1,400 acres, is considered these measures would appear sufficient.

Quality of Water.

Before the installation of the Jewell Filters the quality of the water was occasionally not all that could be desired, as the sand filters at Turbanahally were not always capable of removing all the suspended matter when the raw water was very turbid in the rainy season. Now, however, the filtered water is far freer from microbes, and of better general quality, than that of most of the great cities of the world. Samples of filtered and unfiltered water are taken weekly, the former from varying parts of the station, and tested bacteriologically both by the Durbar and Military authorities; no harmful bacteria have ever been found, the quantity of harmless ones even being, indeed, exceptionally small.

Cost of Head Works.

The arrangements for conserving the vicinity of the Chamarajendra lake, and for working and keeping in repair the Valve tower, the bunds and the masonry

are controlled by the Mysore Durbar, but the Government of India, by the agreement already mentioned, has to pay half the cost of all establishment and of works and repairs it may be necessary to carry out.

Agreement between the Government of India and the Municipal Commission.

The principal clauses of this agreement, made in February 1897, and revised 1901 and 1912, have been explained above: in addition the following may be added:—

(i) The fixed amount paid yearly by the Municipality for maintenance is based on certain percentages, differing for the various parts of the installation, which experience has shown it is necessary to set aside yearly to maintain the pumps, boilers, mains, buildings, etc., in good working order, and to provide for renewals. It is in the nature of an insurance premium as far as the Municipality are concerned. It includes nothing whatever in the shape of interest on the original outlay. In return for this payment Government are bound to keep the works and plant in repair, and to replace them when worn out, whatever the cost may be. This does not, of course, apply to works, such as extension mains in Municipal areas, on which no maintenance charges are levied.

(ii) In consideration of having paid the initial cost Government stipulated that the working, maintenance and control of the Installation should remain in their hands. They further retain a veto on all works and extensions proposed.

(iii) The agreement lays down that the execution of all works and extensions shall be entrusted to duly authorized officers of Government. The only officer so authorized at present is the Assistant Commanding Royal Engineer, Bangalore.

(iv) In the revision of the agreement made in December 1901 an important clause was introduced, to the effect that the Commissioners are liable to pay to the Assistant Commanding Royal Engineer before execution not only the cost of any extensions desired by them, but also the cost of any alterations necessitated thereby in the original works carried out wholly at Government expense. As the Military consumption is stationary, or nearly so, the effect of this clause may, in the future, be far-reaching.

(v) The Commissioners are empowered under the agreement to levy taxes to provide the sums required to meet the Municipal share of the working and maintenance expenses, except on buildings and land exclusively used for Military purposes, buildings ordinarily used as places of public worship, Government and Municipal offices, and houses occupied by persons employed by any of the Military departments of the Government of India in active duty in the station. In the case of the latter, however, charges are leviable for water consumed over and above the "free allowance."

Cost of Water-Supply to the Municipal Commission.

The Municipal share of the annual maintenance cost is at present (1914) Rs. 88,504, made up as follows:—

Maintenance charges on original installation	Rs. 25,000
(Reduced from original figure of Rs. 27,366 in Government of India Foreign Department, letter No. 1665—I.A. of 27-8-08.)	

Jewell Filters.....	Rs. 2,919
New pump, boiler and main ..	" 5,921
	Rs. 84,100
Deduct :—Maintenance charges on two filter beds thrown out of use in connection with the installation of Jewell Filters, ..	650
	Rs. 83,450

The above figure will stand only until any further capital works are undertaken and completed.

The Municipal share of the working expenses of the installation was some Rs. 36,200 in 1913-14 and is estimated at Rs. 38,786 for 1914-15. This figure will increase with the consumption, and with the inevitable rise in the price of wood fuel as the supplies in the neighbourhood of Turbannahly become exhausted. At present, therefore, the total annual cost of the water-supply to the Commission is roughly Rs. 70,000, but no guarantee can be given that this amount will not be exceeded in the future, possibly very considerably.

Water Tax.

The Municipal Commission levy a water tax to meet these charges at 6 per cent per annum on all house property. The tax yields at present (1914) Rs. 62,500 per annum. The tax is assessed on the annual rental value of the property, remission on account of vacancy being granted as in the case of the house tax. The tax is recoverable whether the house has a private connection or not.

Public Hydrants.

Water can be obtained by the public either from the road hydrants or from private connections. There are at present (1914) 214 public hydrants, of which 80 are closed, and 150 pipe and pillar stand posts, exclusive of those on Military land.

Private Connection.

Persons wishing to have a private connection should obtain the requisite form from the Municipal Office, get it signed, if necessary, by the owner of the premises, and send it to the Secretary of the Commission. If the annual rental value of the house is Rs. 100 or over, and if there is otherwise no objection to granting the application, the President forwards the latter to the Assistant Commanding Royal Engineer for the necessary estimate of cost, after deciding whether a meter is required. Meters are usually fixed in the case of all houses having gardens of any considerable size, and of houses above a certain rental value, whether gardens are kept up or not. The Assistant Commanding Royal Engineer then makes out the estimate (which includes a deposit of Rs. 5 to cover contingencies, and a Municipal fee), and returns it to the President, who sends it to the applicant with instructions to pay the amount and return the estimate to the Assistant Commanding Royal Engineer's Office. The work is then put in hand in its turn and any balance due on completion, to the applicant, returned to him. Owing to the system of accounts in vogue the refund of this balance is often delayed: this is inevitable. Any pipes or fittings within the consumer's compound are the property of the owner of the premises, who is bound to maintain them in an efficient state. Should any part of them be in need of repair application should not be made to the Assis-

tant Commanding Royal Engineer but to the "licensed plumber," whose name is published periodically in the local press. In case of a burst the tenant should close the stopcock, a key for which, if not already in his possession, can be obtained from the plumber.

Pipes and fittings outside the premises are Municipal property, even if paid for by the applicant, and are maintained by the Commission.

Meters and meter boxes are the property of the Commission, and are maintained by them. Anyone tampering with them is liable to punishment.

There are at present (1914) about 2,000 private connections, of which about 750 are metered.

Amount of Free Water.

Persons having private connections are entitled to draw 160 gallons of water per month per rupee of assessed monthly rental, subject to a minimum of 3,000 gallons a month, free of extra charge. For every 1,000 gallons—or part of 1,000 gallons—over 500 gallons drawn in excess of the free allowance, a charge of one rupee is levied, and is collected monthly.

Arrangements for Reading Meters.

The meters are read monthly by an establishment under the President, Municipal Commission, bills being submitted monthly for excess water. Notice is given to the householder of the date on which his meter will be read, and he can be present at the reading if he wishes. Should he have any reason to dispute the accuracy of the meter, he should give notice at the Municipal Office of his desire to have it tested, at the same time depositing a fee of Rs. 4, the actual cost of the test. The President, Municipal Commission then informs the Assistant Commanding Royal Engineer, who arranges for the test at a time convenient to the applicant. The test is made by fixing a standard positive meter in series with the suspected meter, and comparing the readings for a short period. If the meter is reading correctly or is under registering the fee paid is forfeited.

It may be noted that in only one case has a meter been found to be over-registering. The meters in the station, except the standard used for testing, are all of the "inferential" type, and these nearly always read "slow" after a few years' use. When an obviously wrong meter reading is recorded against a consumer it is far more probable that the meter reader has made a mistake in noting the figures than that the meter is over-registering. If the consumer has reason to believe that his meter has been wrongly read, he should report the matter with the least possible delay to the Municipal Office. If the tenant of a house is unable to be present at the monthly meter reading he can check his consumption by the slips left by the meter reader, giving the last and the current readings: or he can, at the cost of about Rs. 5 obtain a special meter box with a glass port hole fitted with a locked cover, the key of which he can retain, and so be in a position to read his meter whenever he wishes.

Water for Trade Purposes.

Water used for trade purposes is specially metered, and charged for at eight annas a thousand gallons, without any free allowance.

NOTIFICATION.

No. 675, dated the 11th February 1904, as amended by
Notification No. 23, dated the 10th March 1908.

In exercise of the powers conferred by sections 8 (2), 8 (3), 9 (3), 175 (1) clauses (b) to (h) and 175 (3) of the Bangalore Municipal Law, 1897, and in supersession of the existing rules, the Resident in Mysore is pleased to make the following rules:—

1. Under sections 8 (1) and 19 (2) the Municipal Commission is to consist of a President, a Medical Officer and twenty-four other Commissioners. Of these twenty-four Commissioners, six will be appointed by the Resident, either by name or by office, one shall be elected by the Bangalore Trades Association in accordance with rule 21, and seventeen shall be elected as hereinafter provided.

Every elected Commissioner shall hold office for a term of two years, and every Commissioner appointed by the Resident by name, shall hold office for a term of three years.

Provided that any member elected or appointed to fill a casual vacancy shall hold his seat for the time for, and subject to the conditions upon, which it was tenable by the person in whose place he has been so elected or appointed, and no longer.

2. For the purposes of these rules, the Civil and Military Station of Bangalore shall be divided into the following wards or divisions, namely:—

No.	Ward or Division.
1	Alsur.
2	Southern Division.
3	East General Bazaar.
4	West General Bazaar.
5	Cleveland Town.
6	High Ground.

3. All the inhabitants of the station shall, for the purposes of these rules, be divided into the following three classes:—

1. Europeans and Eurasians;
2. Mahomedans;
3. Hindus and others;

and each such class shall elect separately its own representative.

4. The number of Commissioners to be elected by each class and in division shall be as follows :—

Division.	CLASSES.			Total num Commis
	Europeans and Eurasians.	Maho- medans.	Hindus and others.	
1. Alsur	1	...	1	2
2. Southern Division	1	1	1	3
3. East General Bazaar	1	1	2	4
4. West do	1	1	2	4
5. Cleveland Town	1	...	1	2
6. High Ground	1	...	1	2
Total ..	6	3	8	17

5. In order to be qualified for election as a Commissioner, a person must

(a) be of the male sex ;

(b) have completed his twenty-fifth year ;

(c) have a sufficient knowledge of the English language to be able to speak a motion or to follow debates in that language ;

(d) be, at the time of the preparation of the lists required by rule 14, a resident within municipal limits ; and

(a) Tax on carriages, horses or other animals.

(b) Tax on arts, professions, trades or callings.

(c) Tax on houses, buildings or lands, according to the annual value thereof, whether for general purposes or for water-supply.

(e) be, at the said time, the occupier, as owner, mortgagee or tenant, of a house within such limits, which is valued for assessment purposes at not less than thirty per mensem ; or have paid, on his own behalf for the year immediately preceding the said time, municipal taxes of one or more kinds noted in the margin Government land revenue, to the aggregate amount not less than twenty rupees.

Provided that when an undivided Hindu family has paid double the tax land revenue herein mentioned, any one member thereof, having the other qualifications required, shall be eligible to be elected a Commissioner.

Provided also that no person shall be elected a Commissioner unless his name has been previously entered as a person qualified for election in the lists referred to in rule 19.

6. A person shall be disqualified for election as a Commissioner if he :—

(a) is an officer or servant of the Municipal Commission ; or

(b) is an uncertificated bankrupt or an undischarged insolvent ; or

(c) has been convicted of any such offence, or has been subjected by a Criminal Court to any such order as implies, in the opinion of the District Magistrate, a defect of character which unfits him to be a Commissioner ; or

(d) has been declared by notification in any Government Gazette to be disqualified for employment, or has been dismissed from the public service ; or

(e) is disqualified under section 11, sub-section 2, of the Municipal Law ; or

(f) is interested, otherwise than as a share-holder in a joint stock company, in any contract made with, or work done for the Commission.

A share or interest in a newspaper, in which any advertisement relating to the affairs of the Municipal Commission may be inserted, is not a disqualification within the meaning of this clause.

7. In order to be qualified to vote in the election of Commissioners a person must :—

(a) be of the male sex ;

(b) have completed his twenty-first year ;

(c) be able to read and write his vernacular language ; and

(d) at the time of the preparation of the lists required by rule 14, fulfil one of the following conditions, namely :—he must

Tax on houses, buildings or lands according to the annual value thereof whether for general purposes or for water-supply.

(i) be the bona fide owner, in his own right, of a house, building or land, situate within the division for the Commissioner of which he desires to vote and have paid for the preceding year, the municipal tax noted in the margin or Government land revenue to the aggregate amount of five rupees ; or

(a) Tax on carriages, horses or other animals.

(b) Tax upon arts, professions, trades or callings.

(ii) be residing within the division for the Commissioner of which he desires to vote, and have paid for the preceding year, municipal taxes of one or more of the kinds noted in the margin to the aggregate amount of not less than five rupees ; or

(iii) have been for the period of twelve months immediately preceding the said time, the occupier, as owner, mortgagee or tenant, of a house situated within the division for the Commissioner of which he desires to vote, and valued for assessment purposes at not less than eight rupees per mensem ; or

(iv) be a graduate of some University in the United Kingdom, or the British Colonies or India, and be resident within the limits of the division for the Commissioner of which he desires to vote ; or

(v) be the Secretary of, or some other person duly authorised in that behalf by, any company which is registered under the Indian Companies Act, 1882, or under any Act of Parliament, which has its registered office or other place of business in the division for the Commissioner of which he desires to vote, and which has for the preceding year paid taxes under the Municipal Law to the aggregate amount of not less than twenty-five rupees ; or

shall be a person duly authorized to act on behalf of a firm which has its place of business in the division for the Commissioner of which he desires to vote and which has for the preceding year, paid taxes under Municipal Law to the aggregate amount of not less than twenty rupees.

Provided that if any dispute arises as to the class in which a company or firm shall be placed for the purposes of voting, under rule 1, the decision of the President thereof shall be final.

Provided also that no person shall vote unless his name has been previously entered as a person qualified to vote in the lists referred to in rule 14.

2. A general election of Commissioners shall take place every second year on any day or days in the month of November that may be fixed by the Resident.

Every candidate for election shall come to be delivered to the President, on or before the 24th October, a notice in writing showing his name and the division for which he proposes to stand, together with the names of two voters in each division, and in his own class, who respectively propose and second his candidature; and of eight other such voters who approve his nomination.

The President shall publish a list of such candidates in one or more of the local newspapers, and shall also post to each voter the name or names of the candidate or candidates for his division and class.

If the number of candidates for any division in any class exceeds the number of Commissioners to be elected, the election shall be determined by vote in each place and wherever there shall from time to time be directed by the Resident.

9. Where an equality of votes is found to exist between any two or more candidates at any election under these rules, and the addition of a vote would entitle one of such candidates to be elected a Commissioner, the President may give such additional vote, and the candidate to whom such additional vote has been given shall thereupon be held to be elected a Commissioner.

10. No person shall be considered nominated unless he has secured the votes of at least one-sixth of the total number of persons qualified to vote for his election.

11. If a candidate presents himself for election in any division or if no candidate secures the required number of votes, the Resident will appoint a Commissioner to fill the vacant place. The Commissioner so appointed shall, notwithstanding anything contained in rule 1, hold office for a period of two years only.

12. Whoever by any gift or reward, or by any promise or agreement or security for any gift or reward, induces any person to give or forbear to give his vote in any election shall be deemed to be guilty of corruption; and whoever by threatening another with any injury to his person, reputation or property, or to the person, reputation or property of any person whom that person is interested, makes that person abstain or forbear to give his vote in any election, shall be deemed to be guilty of corruption. Any election or corrupt practice or intimidation at an election, if made by a person qualified to vote or to be elected a Commissioner at

such election, the same shall be enquired into by the President, who shall submit a report thereof, together with his proceedings, in the case to the Resident. If upon a perusal of such report and proceedings, the Resident finds that the person against whom the allegation is made, has been guilty of corruption or intimidation or has connived at or abetted the exercise of corruption or intimidation on his behalf by any other person, he may declare such election to be void.

Any person whose election has been rendered void under this rule, shall be deemed disqualified for election for a period of five years.

14. Lists of persons qualified to be elected and to vote under rules 1, 2 and 7 shall, not later than the 15th day of June preceding each general election, be prepared by the President, printed and published. There shall be one such list for each of the classes referred to in rule 2 and such list shall show separately the names of persons qualified to vote and to stand for election in each division.

15. The President shall publish such lists by affixing copies thereof in some conspicuous place in or near the Municipal Office and in each division. The President shall give notice of such publication in one or more of the local newspapers, and the said lists shall be open to public inspection, at all reasonable times of the day, for fifteen days after the date of publication of such notice. Copies of such lists shall be supplied to the public at the Municipal Office at cost price.

16. (a) Any person whose name is not in the lists so published, and who claims to have it inserted therein may, within 15 days after such publication, give notice in writing of his claim to the President.

(b) Any person whose name is not in the lists may object to any other person as not being entitled to have his name retained therein. Every person objecting shall, within fifteen days from the date of publication of the lists, give to the President notice in writing of the objection and of the nature thereof.

17. The President assisted by three or more Commissioners shall hear and determine the claims and objections which have been duly made as aforesaid, in open office, giving three clear days' notice of the holding of the enquiry by written notice served upon each claimant, person objecting, and person objected to. In the event of a difference of opinion, the matter shall be determined by the opinion of the majority, the President having a casting vote.

The President and the said Commissioners shall insert in the lists the name of every person who has duly claimed to have his name inserted therein, and whose claim is proved to their satisfaction, and they shall, excepting from the lists the name of every person proved to be not qualified to be retained therein. They may also correct any clerical error or omission in the lists.

The President and the said Commissioners may adjourn the hearing of any matter under this rule from time to time, but they shall dispose of all claims and objections by the fifteenth day of August.

18. In the event of the President and the said Commissioners rejecting any claim or objection under the last proceeding rule, the claimant or objector and in the event of their accepting any objection, the person aggrieved, may, at any time within fifteen days after such rejection or acceptance, appeal to the officer holding the appointment of District Judge, and such officer shall, within 30 days after

receipt of such appeal, and after such enquiry as he deems necessary, make such order for correcting the lists or otherwise as shall seem to him fit, and his order shall be final and binding.

19. The lists thus prepared and amended shall remain in force for a period of two years, and printed copies of such lists shall be obtainable on payment of such reasonable fee as may from time to time be prescribed by the President in this behalf.

20. Notwithstanding anything contained in the foregoing rules, it shall be open to any person qualified under rules 5, 6 and 7, on the occurrence of a vacancy which is to be filled by a special election, to apply to the President, within a reasonable time before the date fixed for such election, to have his name inserted in the lists referred to in rule 19. The President may pass such order thereof as he thinks fit, and his order shall be final.

21. No person shall be elected a Commissioner by the Bangalore Trades Association unless he is at the time of the election a member of the said Association.

The election shall be made by the members for the time being of the said Association on such day as may be fixed by the Resident and in such manner as shall from time to time be determined at a meeting of the said Association convened in accordance with the rules at the time in force in this behalf.

The Secretary to the said Association shall make a return in duplicate to the First Assistant to the Resident in Mysore setting forth the name in full of the person so elected.

By order,

R. C. M. K. Rao,

First Assistant to the Resident.

License Tax on Vehicles and Animals.

A tax on all or any vehicles, animals used for riding, driving, draught or burden, when the vehicles, animals used as aforesaid, and dogs are kept in the Station at the following rates:—

	Yearly.
	Ra. A.
For every four wheeled carriage on springs drawn by 3 horses	18 0

Motor Vehicles Bye-Law.

No. 8668, dated 11th February 1911.

In exercise of the powers conferred on them by Section 127 (1) (a) and (d) (ix) (w) of the Bangalore Municipal Law, 1897, the Municipal Commission for the Civil and Military Station of Bangalore having made the following Bye-law for the "Registration and control of all Motor Vehicles within the limits of the Civil and Military Station of Bangalore" for use in the said station and published it under this office Notification No. 8081, dated 12th October 1912, and the same having been confirmed by the Hon'ble the Resident in Mysore as required by Section 122 of the law. The Bye-law is hereby notified for public information under section 180 (3) of the said law :—

Preliminary.

Application of Bye-Law.

1. This Bye-law shall apply to all Motor Vehicles for the time being within the limits of the Civil and Military Station, Bangalore. *Proviso*—Nothing in this Bye-law regarding.

- (a) requirements as to construction or equipment of Motor Vehicles, or
 (b) the licensing or qualification of drivers of such vehicles shall apply in the case of any Motor Vehicle such as is referred to in clause (ii) of Section 3 of the Motor Vehicles International Circulation Act, 1912 (XII of 1912) or of any person possessing, using or driving the same, provided that the requirements of any rule made under the said clause and applicable to such vehicle or person are complied with.

Definitions.

2. (a) *Motor Vehicles*.—For the purpose of this Bye-law, the expression "Motor Vehicle" shall include all vehicles constructed to be propelled entirely or partially by mechanical means on roads.
 (b) *Motor Cycles*.—The expression "Motor Cycle" means a two, three or four wheeled cycle propelled by mechanical means, fitted with seats, but without a carriage body and weighing not more than 3 cwts.
 (c) *Search Light*.—The expression "Search Light" means a light whose rays are capable of being thrown or projected in any direction independently of the movements of the vehicle to which it is attached.

Prohibition to drive without Registration.

3. After 3 months from the date on which this Bye-law comes into force and after the owner has had reasonable opportunity of having the motor vehicle registered under this Bye-law, no person shall drive a motor vehicle on a public road or thoroughfare unless it has been registered under this Bye-law or any other enactment in force in British India or any Native State, in which case registration under this Bye-law will be unnecessary.

4. *Registering Officer*.—The President of the Municipal Commission shall be the Registering Officer.

5. *Fees*.—The fee for registration under this Bye-law shall be rupees four for motor cycles and rupees 6 for all other motor vehicles.

6. (1) *Numbering*.—The registering authority shall assign a distinguishing number to each motor vehicle and shall record the name and address of the owner.

(2) The number so assigned shall be shown in white figures on a black ground and shall be affixed by the owner in a prominent position on the front and the rear of the motor vehicle.

(3) The number shall be of not less than 3½ inches in height and shall be perfectly legible.

In the case of motor cycles the number shall be of not less than 2 inches in height.

(4). *Numbers not to be Obscured.*—Such numbers shall not be in any way obscured, or rendered or allowed to become, not easily discernible at a reasonable distance.

7. (a) *General Number for dealers, etc.*—In the case of a manufacturer of, or dealer in motor vehicles, a general number may be assigned by the registering officer on payment of an annual fee of rupees thirty, to be used on any motor vehicle when on trial after completion of the running parts or when on trial by an intending purchaser. Provided that such motor vehicle shall not ply for or be let out on hire, unless it has been separately registered under section 3 of the bye-law.

(b) *Register to be kept by dealers.*—A manufacturer or a dealer in motor vehicles shall keep in such form as the registering authority may direct, a register showing the name of the driver in charge of each of his motor vehicles when allowed to leave his premises and the hour and dates on which he was in charge of the vehicle.

Such register shall be open to inspection on the demand of any Police Officer of or above the rank of Sub-Inspector.

8. *Transfer of Ownership.*—Every transfer of ownership shall forthwith be intimated to the Registering Officer by the transferee by a notice in writing signed by himself or his agent.

9. *Requirements before Registration.*—Before registering a motor vehicle, the Registering Officer shall be satisfied that it is provided with two independent brakes or other means of stoppage in good working order and of such efficiency that the application of either is capable of promptly stopping the motor vehicle.

10. *Subsequent defects.*—If at any time after a motor vehicle has been registered the Registering Officer has reason to believe that it has ceased to comply with the requirements of section 9, or that it is not maintained in such a condition as to prevent danger to the public, he may after notice to the registering owner, direct that the registration be cancelled until such time as the defects are rectified to his satisfaction.

Licenses.

11. *Driver's License.*—No person shall drive a motor vehicle without a license granted or countersigned under this bye-law.

12. *Drivers' Licenses to whom granted.*—(a) A license to drive a motor vehicle may be granted by the President of the Municipal Commission of the Civil and Military Station, Bangalore, to any person over the age of 18 years who, in the opinion of the President, is competent to drive a motor vehicle, on payment of the sum of two rupees.

(b) A license granted under any other enactment in force in British India or Native State may be countersigned, without fee, by the President and shall then be considered equivalent to a license granted under section 12 (a).

(c) *Beginners.*—A Provisional license may be granted to a beginner on application and on payment of the sum of one rupee which will permit of his driving a motor car subject to the condition that a licensed

driver be seated by his side, such license to remain in force for a period not exceeding two calendar months from date of issue.

13. *Duration and Renewal of License.*—Every driver's license shall remain in force for a period of twelve months from the date on which it is granted, but shall be renewable, and the same provisions shall apply to the renewal of the license as apply to the grant thereof.

14. *Refusal to grant or renew licenses and cancellation of licenses.*—The licensing officer may refuse to grant or renew a license or may cancel a subsisting license; but in all such cases he shall previously give notice to the person applying for the license or its renewal or the holder of the license to appear before him, either in person or by an agent, at a place and time to be specified in such notice and to show cause why the application for the grant or the renewal of the license should not be refused, or why the license should not be cancelled for all or any of the reasons specified in such notice and may, after hearing him or his agent, if either of them appears, refuse the application for the grant or renewal of the license or may cancel the license for all or any of such reasons to be recorded in writing and may, where the license is cancelled require the license holder to surrender the same within a time to be specified in such requisition.

15. *Only one license obtainable.*—No person may obtain more than one license.

16. *Transfer and surrender of license.*—The holder of a license shall not lend to, or allow it to be used by any other person and shall surrender it on being required to do so under section 14.

17. *Production of licenses.*—The driver of a motor vehicle shall produce his license upon demand by any Police Officer above the rank of constable who is in uniform or produces proof of his office.

18. *Duplicate license.*—A license lost or defaced may be renewed on payment of one rupee but the duplicate shall bear all endorsements which may have been made by any Magistrate.

19. *Suspension of License and Disqualification.*—(1) Any court before whom a person is convicted of an offence of exceeding any limit or speed fixed under this Bye-law, after two previous similar convictions, or of any other offences under this Bye-law unconditionally.

(a) may, if the person convicted holds any license under this Bye-law suspend that license for such time as the Court thinks fit; and, if the Court thinks fit, also declare the person convicted disqualified from obtaining a license for such further time after the expiration of the license as the Court thinks fit; and

(b) may, if the person convicted does not hold any license under this Bye-law declare him disqualified from obtaining a license for such time as the Court thinks fit; and

(c) shall, if the person convicted holds any license under this Bye-law cause particulars of the conviction, and of any order of the Court made under this section, to be endorsed upon any license held by

30. *Standing on Roads, etc.*—No motor vehicle shall be allowed to stand in any street unattended by a person licensed under section 12 unless all reasonable precautions have been taken to prevent it moving.

31. *Travelling Backwards.*—The driver of a motor vehicle shall not unnecessarily cause the vehicle to travel backwards for a greater distance or time than may be requisite for purpose of safety or in order to turn round, and shall, in all such cases give due warning to every one nearby of his intention to cause such vehicle to move backwards.

32. *Cut-out, etc.*—No cut-out, fitting or other apparatus or device shall be used which will allow the exhaust gases from the engine of the motor vehicle to escape into the atmosphere without first passing through a silencer, expansion chamber or other contrivance suitable and sufficient for reducing as far as may reasonably be practicable the noise which would otherwise be caused by the escape of the said gases.

33. *Penalties.*—Any person committing a breach of any of these rules shall on conviction, be liable to a fine which may extend to rupees fifty.

34. *Forms.*—Every application for a license under this Bye-law shall contain the particulars specified in Schedule A.

35. Every license granted under section 12 shall be in the form of Schedule B.

Dog	...	...	...	...	Rs. 1
Pup of the age of 3 months or more	...	...	...	...	" 1

2. Every owner or person in charge of a dog shall, at the commencement of every official year, or as soon as he comes in possession thereof, apply to the President, Municipal Commission, in the form set forth in Schedule A, for a license for that year. The prescribed fees for the license shall be sent with the application.

Forms of the schedule will be provided on application to the Secretary to the Municipal Commission.

3. The President, Municipal Commission, may refuse to grant a license or may cancel any license granted in the case of a dog that is dangerous, diseased or on any other reasonable ground.

DOG LICENSATION MUNICIPALITIES

4. If the license is refused, the amount paid by the applicant for the license shall be refunded to him.

5. On grant of a license, the President Municipal Commission, may along with the license a leather collar indelibly impressed with the municipal license number and having a metal badge rivetted flush with the collar and shall be of a different shape every year. Owners, if they prefer it, may supply their own collars, provided they are stamped with the municipal license number and have the badge attached.

6. The collar shall always be put on the dog for which the license has been granted and on no other dog.

7. If, in the course of the year, a license has been issued to a dog and the collar or badge is lost, the President Municipal Commission, shall, on an application from the owner of the dog, issue a new collar on payment of eight annas and a new badge on payment of two annas.

8. If, at any time during the year, any licensed dog changes ownership, the license already issued shall continue in force till the close of the year for which it was issued.

9. Any person possessing a dog without a license shall be liable before a Magistrate, be liable to a fine not exceeding rupees fifty.

10. Every person who has received a license shall produce such license when required to do so by the President or any person duly authorized in writing by him to demand its production. Every person failing to comply with such requisition shall, on conviction before a Magistrate be liable to a fine not exceeding rupees ten.

11. Any person giving information to the Revenue Department of the existence of an unlicensed dog in any house after the 30th April of every year shall be granted a reward not exceeding the sum imposed by the Court before which the owner of such dog is prosecuted.

12. Any dog found straying in any public street or place without the license shall be liable to be impounded and the owner thereof shall be liable to pay the expenses of such impounding and to the cost of the dog's maintenance in the pound.

13. Any dog found at large in any public street or place without the license shall be liable to be impounded and the owner thereof shall be liable to pay the expenses of such impounding and to the cost of the dog's maintenance in the pound.

14. The following are the Dog Pound rules:

- (1) Any person bringing a stray dog or bitch or pup of the age of three months or over to the Dog Pound shall be liable to pay the expenses of such impounding and to the cost of the dog's maintenance in the pound.
- (2) The President Municipal Commission may, at any time, cause any dog or bitch or pup of the age of three months or over to be impounded and the owner thereof shall be liable to pay the expenses of such impounding and to the cost of the dog's maintenance in the pound.
- (3) For a pup of the age of three months or over, the owner shall be liable to pay the expenses of such impounding and to the cost of the dog's maintenance in the pound.

DOG LICENSATION MUNICIPALITIES

(3) Dogs, bitches and pups brought to the pound will be kept for three days and will be disposed of as the Resident may direct.

(4) A fee of one rupee will be charged for registering a dog, bitch or pup from the pound. No feeding charges will be levied.

(5) All dogs, bitches and pups brought into the pound will be chained and kept apart in the space allowed for each animal.

The Resident will arrange to visit the pound every night and will be responsible for the safety of all dogs, bitches and pups brought to the pound. The Resident will also be responsible for the safety of all dogs, bitches and pups brought to the pound. The Resident will also be responsible for the safety of all dogs, bitches and pups brought to the pound.

15. Any person who fails to comply with the provisions of the Dog License Act, 1908, shall be liable to a fine not exceeding rupees fifty for every day after the first day on which the breach continues.

16. Any person who fails to comply with the provisions of the Dog License Act, 1908, shall be liable to a fine not exceeding rupees fifty for every day after the first day on which the breach continues.

SCHEDULE A

The license to be granted by the Resident shall be in the form given in Schedule B of these Rules and shall be valid for a period of one year. The Resident may, at any time, cause any dog or bitch or pup of the age of three months or over to be impounded and the owner thereof shall be liable to pay the expenses of such impounding and to the cost of the dog's maintenance in the pound.

HACKNEY CARRIAGES.

REGISTERING OFFICER:—Mr. F. E. CONNINGHAM, D.S.

INSPECTOR:—Mr. W. R. JAMES. OFFICE, MAYO HALL.

No. 4640, dated 7th November 1914.

NOTICE.

Is hereby given, under section 3 of the Hackney Carriage Act, 1879 (XIV of 1879) as applied to the Civil and Military Station of Bangalore by the Notification of the Government of India in the Foreign Department, No. 732 D. dated the 19th March 1913, that the Municipal Commission for the Civil and Military Station of Bangalore have, at their Special meeting held on the 20th October 1914, passed a Resolution that the following rules be made for the registration and control of Hackney Carriages within the limits of the Civil and Military Station of Bangalore in supersession of all previous rules framed on the subject:—

Rules for the Registration and control of Hackney Carriages within the Limits of the Civil and Military Station of Bangalore.

1. No hackney carriage shall be let to hire, or taken to ply, or offered for hire, except under a licence granted in that behalf under these Rules, or the Hackney Carriage Rules for the time being in force in Bangalore City.

2. Every hackney carriage shall be annually licensed by the Registering Officer, and no person shall keep, or offer, or ply, for hire, any hackney carriage within the limits of the Civil and Military Station, Bangalore, except under licence granted in that behalf under these Rules.

Note.—The Registering Officer shall be the Officer, for the time being holding the office of the District Superintendent of Police.

3. Any licence granted under these rules shall ordinarily continue in force until the 31st day of March after the grant of such licence.

4. The Registering Officer shall receive applications for, and shall grant or refuse, licences as he may think fit. He shall class every hackney carriage at his discretion in one of the four following classes:—

First Class and Second Class—Carriages.

Third Class—Julkas.

Fourth Class—Bullock Carts.

5. The licence to be granted by the Registering Officer shall be in the form given in Schedule B of these Rules and shall only be given for a term including horse, carriage and harness, and its formal acceptance by the licensee shall be entered in the register provided for this purpose.

Note.—In the case of a partnership, company or firm, the name to be entered in the licence shall be that of a Partner, the Secretary or Manager, as the case may be.

6. The Registering Officer may, whenever necessary, cause to be painted on some conspicuous part of the hackney carriage its number and class, the year of licence and the number of passengers it is licensed to carry. He may also cause a number to be stamped on such parts of the harness as he thinks fit.

A. If the words or figures so painted or stamped shall, during the time of licence, become indistinct or obliterated, the owner of the carriage or harness shall produce it without delay before the Registering Officer and apply to have such words or figures renewed.

B. The numbering shall be done at the office of the Registering Officer.

C. The owner of a first or second class hackney carriage shall, on receipt of a licence, affix to his premises a board on which shall be painted his name and his hackney carriage licence number.

7. No owner or driver of any hackney carriage shall, without sufficient reason, the burden of proving which shall lie on such owner or driver, at any time refuse to let such hackney carriage for hire to any person demanding the same.

Drivers.

8. Every driver of a hackney carriage shall be annually licensed by the Registering Officer, who if he thinks fit, may refuse to issue such a licence, and no person shall drive any hackney carriage, nor shall any owner of a hackney carriage, permit any person to drive such a hackney carriage, within the limits of the Civil and Military Station, Bangalore, except under licence granted in that behalf under these rules, or the Hackney Carriage Rules for the time being in force in Bangalore City.

9. The licence to be granted to a driver shall be in the form given in Schedule C of these Rules. Such licence shall be accompanied by a metal badge bearing the class and number of the licence.

10. Every driver of a first or second class carriage shall be properly and cleanly clad when acting as such. He shall wear a turban neatly folded, a long coat extending below the knee and trousers reaching to the ankles. Over the coat he shall wear a waist band not less than four inches wide, to which his metal badge shall be affixed above the right hip.

11. A licensed driver when in charge of a hackney carriage shall stand in line with his carriage and keep proper order when at a carriage stand. He shall not take up position on any hackney carriage stand which already contains the full complement of hackney carriages authorised for such stand by the Registering Officer. He shall not loiter or cause obstruction in public roads or thoroughfares or in any place where the public resort.

Fees.

12. The following fees shall be paid by owners to the Registering Officer on behalf of the Municipality for each licence:—

• First Class Carriage and Horse	Rs. 12 per annum.
• Second Class Carriage and Horse	„ 9 do
• Third Class Julka and Pony	„ 4 do
• Fourth Class Bullock Cart	„ 3 do
• Spare horse	„ 4 do
• Spare pony	„ 2 do

* If drawn by a pair of horses, double these fees.

1st and 2nd or 3rd Class Driver	... Re 1 per annum.
Fourth Class driver	... As 8 do
† Driver's Metal Badge	... " 8
† License	... " 2
List of fares	... " 1

Fares.

13. The fare which may be demanded for the hire of a hackney carriage shall not exceed that specified in Schedule A of these Rules,

14. The owner of every hackney carriage, unless exempted by the Registering Officer, shall put up, and at all times keep, in such position as shall be directed by the Registering Officer, in or on such carriage, a clear and legible list showing the class and number of such carriage, and the rates and fares authorised to be taken for the hire of the same.

15. In the case of disputes as to the fare to be paid according to distance any table or book signed by the Registering Officer shall be taken to be conclusive evidence of all the fares and distances therein stated.

General.

16. The Registering Officer may, by written order, suspend or revoke, any licence granted under Rule 4 or 9 or any breach of these Rules or of any condition under which a licence is granted.

A licence under Rule 4 or 9 shall also be subject to suspension or revocation if the Registering Officer is satisfied that the owner or driver has misconducted himself.

17. Every owner of a hackney carriage shall, on the expiry, revocation, or suspension of his hackney carriage licence, forthwith remove the figures or word painted on his hackney carriage.

18. On the expiry, revocation or suspension of any licence granted (i) under Rule 4 the licensee, and (ii) under Rule 9 the employer, shall forthwith return to the Registering Officer such licence together with any badge issued with the licence. A person employed as a licensed driver shall when leaving service deliver up to his employer the licence and badge granted to him under Rule 9.

19. Notwithstanding anything contained in any Act or Regulation relating to hackney carriages for the time being in force, no owner or driver of a hackney carriage shall be bound to carry, in such hackney carriage, any person suffering from any contagious or infectious disease.

No owner or driver shall, without previously disinfecting it, knowingly hire any carriage used for the conveyance of any person suffering from a contagious or infectious disease.

20. All property left in any hackney carriage licensed under these Rules shall be forthwith deposited by the driver or owner, as the case may be, in the office of the Registering Officer, or in the nearest Police Station.

† When lost or not returned to the Registering Officer.

Such property shall be returned to the persons who shall prove to the satisfaction of the Registering Officer that the same belonged to him, on payment of all expenses reasonably incurred, and of such reasonable sum to the driver or owner as the Registering Officer may direct.

21. The Registering Officer may, for reasons to be recorded by him in writing, prohibit the use of any premises as premises, in which hackney carriages can be kept and may also forbid the keeping of any vehicles or horses, other than those registered under the Hackney Carriage Rules, in any premises in which hackney carriages are kept, and after the issue of such prohibition no person shall use such premises in contravention of such prohibition.

22. It shall be lawful for the Registering Officer, the Inspector of Hackney Carriages and any Inspector of Police, at any time to enter any premises in which hackney carriages are kept in order to carry out any provision of these Rules, and the owner of such premises or his agents shall afford every facility for such inspection.

23. Prosecution for breach of these Rules may be instituted by any Police Officer, or Officer of the Hackney Carriage Department, or any other person authorised by the Registering Officer in writing.

SCHEDULE A.**FARES BY TIME.**

Class of Vehicles.	For one hour or less.	For every additional hour or part of an hour before midnight.	For every additional hour or part of an hour after midnight.	Remarks.
1	2	3	4	5

Proceedings of the Government of His Highness the Maharajah of Mysore

READ—

The following Government orders re grant of concessions to enable Govern-
ment servants and indigent persons unconnected with the public service, when
bitten by a rabid animal, to undergo treatment at the Pasteur Institute at Co-
noor—

G. O. No. 9274-314—Med. 229-04-2, dated the 9th April 1907.

G. O. No. 11690-69—Med. 229-04-2, dated the 15th June 1907.

G. O. No. 219-31—Med. 229-04-2, dated the 9th July 1907.

G. O. No. 4820-70—Med. 49-07-14, dated the 12th November 1907.

2. Letter No. G. 609, dated the 18th April 1909, from the Senior Surgeon,
reporting, with reference to Government Order No. 6519—Med. 126-07-2, dated
the 10th January 1908, that the rules contained in the Government Orders read
above have worked fairly well and have, not so far proved to be wanting in any
respect.

3. Communications from the Deputy Commissioners of Districts and Presi-
dents of District and Municipal Boards on the subject of debiting to the District
and Municipal Funds the expenses of anti-rabic treatment of indigent patients
sent to the Pasteur Institute at Coonoor for treatment and the expenses of their
attendants.

No. 681-90—MED. 2-08-95, DATED BANGALORE, 23RD JULY 1911.

ORDER THEREON.—In view of the fact that the majority of the District and
Municipal Boards, who were consulted in the matter, are willing to meet the
charges in connection with the anti-rabic treatment of indigent persons uncon-
nected with the public service, residing within their jurisdiction, Government
direct that, with effect from the 1st July 1911, the charges in question be debited
to the District and Municipal Boards concerned, necessary provision being made
therefor in the budget estimates of the respective Boards.

2. As the Madras and Southern Mahrattah Railway Company have since ex-
tended the concession of granting free return 3rd class tickets to Coonoor and
back to indigent patients and their attendants proceeding from the Mysore State
to the Pasteur Institute at Coonoor on the requisition of a Government servant
duly authorised by the Mysore Government in that behalf, and as experience has
suggested that the existing rules require to be revised in some respects and con-
solidated, the Government are pleased to prescribe the rules hereto appointed to
regulate the grant to Government servants and to indigent persons unconnected
with the public service in the Mysore State, of concessions designed to enable
them, when bitten by a rabid animal, to proceed without delay to the Pasteur
Institute at Coonoor for treatment. This order will supersede all previous orders
of Government on the subject.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Senior Surgeon with the Government of Mysore.
The Deputy Commissioners of Districts.

The Comptroller, Mysore Government,
The other Heads of Departments.

The Presidents of all the District and Municipal Boards in the State including the President of the Mysore and Bangalore City Municipal Councils and of the Kolar Gold Fields Sanitary Board.

Rules for the grant of concessions to Government servants and to indigent persons not employed in the public service to enable them, when bitten by a rabid animal, to proceed to the Pasteur Institute at Coonoor for treatment.

I. Concessions to Government servants.

1. Any Government servant who has been bitten by a rabid animal and who is too poor to proceed to Coonoor at his own expense may, provided that he is drawing not more than Rs. 100 a month, be granted:—

(i) His actual travelling expenses to Coonoor and back, viz., (a) a single fare each way by railway of the class by which he is entitled to travel on duty (b) for journeys by road or river, the actual cost of transit not exceeding the amount admissible under rule. The expenses for the return journey will be paid to the patient at Coonoor, after the treatment has been undergone.

(ii) An advance of one month's pay.

(iii) One month's casual leave or if the officer's absence gives rise to the necessity for the appointment of a substitute, one month's extra privilege leave, any leave required in excess being treated as privilege or sick leave.

2. Any Government servant who has a difficulty in finding at once the means to enable him to proceed to the Coonoor Institute and whose pay exceeds Rs. 500 a month but does not exceed Rs. 500 a month, may be granted an advance not exceeding the amount admissible under Rule 1 (i) and may also be granted the concessions specified in I (ii) and (iii) above.

3. Any Government servant drawing not more than Rs. 500 a month may if a member of his family is bitten by a rabid animal and he has no means of finding at once the means of sending him or her to a Pasteur Institute, be granted an advance not exceeding the amount admissible under Rule 1 (i) and may also be given the concession specified in Rule 1 (ii).

4. Government servants drawing more than Rs. 500 a month and proceeding to the Pasteur Institute for treatment shall be entitled to their maintenance both during the journey and while under treatment at the Institute. Those drawing not more than Rs. 500 per annum will be granted a maintenance allowance at the rate of daily allowances admissible.

5. The officers of the Mysore State mentioned in Appendix A are authorised to grant the above-mentioned concessions to Government servants employed under them within their authority.

6. The despatch of every Government servant to the Coonoor Institute for treatment should at once be reported to the officer immediately superior to the officer by whom the patient is sent and by that officer, if he is not the Head of the Department, to the Head of the Department. Where the Head of the Department himself sends the person, no further report is required. A report should, also at once be made direct to the Director of the Pasteur Institute, Coonoor, stating—

(a) the class to which the patient has been treated as belonging for the purpose of travelling allowance;

(b) the amount of travelling allowance (by rail, road or river) advanced; and

(c) the number of days for which, and the rate at which, maintenance allowance has been advanced.

7. Every Government servant despatched to the Pasteur Institute shall, on discharge from it, obtain a certificate from the Director of the Institute and produce it before the Head of his office.

8. The travelling allowance for the return journey shall be at the same rates as were allowed for the journey to the Institute.

9. Grants for travelling and maintenance allowances of Government servants should be debited to a special detailed head, viz., to "26. (9) Miscellaneous Charges for the treatment of patients at the Pasteur Institute."

10. All advances made to Government servants under Rules 2 and 3 above, shall be recovered in three equal monthly instalments as provided in Article 137 (b) of the Civil Account Code, provided that the Head of the Department concerned, may, with the previous sanction of Government, permit repayment in more than three but not more than twelve instalments, when he considers that repayment in three instalments would cause hardship. Any recoveries of overdrawals to be effected in consequence of a Government servant having been allowed travelling allowance in excess of that to which he was entitled, will be made by the Comptroller, Mysore Government.

The amount required for the despatch of a patient may be drawn from any Treasury in the Province on bills prescribed for salary, travelling allowance and contingencies with full particulars noted therein. There is no objection to the amounts being advanced for this purpose from the permanent advance, the recoupment being made by cashing the bills above referred to as soon as possible.

Concession to indigent persons not employed in the public service.

11. Any indigent person not employed in the public service who has been bitten by a rabid animal, and who, in the opinion of any officer authorised to grant the concession, is unable to proceed to the Pasteur Institute, Coonoor, for treatment at his own expense, may be granted his actual travelling expenses to Coonoor and back, viz., (a) single 3rd class fare each way by Railway, (b) for journeys by road or river, the actual cost of transit, (c) maintenance allowance at the following daily rates:—

Europeans and Eurasians one rupee during the journey, and Rs. 2-8-0 during treatment; Indians four annas during the journey and six annas during treatment.

Provided that for the purpose of this rule, no person or member of the family of a person who pays more than Rs. 50 as bandayam per annum or whose income from any other source than land exceeds Rs. 15 per mensem, shall ordinarily be classed as indigent; nor shall any person be classed as indigent who has at the time or can obtain from relatives, the means of paying his expenses.

A list of the officers in Mysore authorised to grant this concession, is given in Appendix B.

Note.—The Madras and Southern Mahratta Railway Company having kindly consented to grant free return 3rd class tickets to Coonoor to indigent persons sent to the Pasteur Institute at Government expense and allow the same concession to any attendant sent at Government expense, the same will be procured for the patient by the officer who despatches him to Coonoor. The form given in Appendix C shall be adopted when applying to Station Masters on the Madras and Southern Mahratta Railway for free return 3rd class tickets to Coonoor.

13. The patient may be paid in advance the actual cost of transit for journeys by road or river, when necessary, and maintenance allowance for the period of his journey to Coonoor. He should take with him to Coonoor and produce before the Director of the Institute a certificate signed by the officer despatching him that he has been sent to the Institute for treatment at the expense of the Government of Mysore.

14. The maintenance allowance of the patient while under treatment at Coonoor and for the period of the return journey and also, if necessary, the cost of transit for journeys by rail, road or river, on the return journey will be disbursed to the patient at Coonoor.

15. The travelling allowance for the return journey shall be at the same rates as were allowed for the journey to the Institute.

16. Women, children under 15 years of age and men who are, by reason of age or other sufficient cause, incapable of travelling alone, may be allowed an attendant to accompany them to the Institute at Coonoor. Any such attendant shall be granted (i) travelling expenses and maintenance allowance at the rate sanctioned for patients and (ii) wages not exceeding four annas a day in cases where the despatching officer is satisfied that the patient is unable to pay the daily expenses of the attendant. The charges of the attendant will be borne by the fund to which the charges on account of the patient are debited. Only one attendant may be sent at the public expense with each patient or patients of the same family.

17. The despatch of each indigent person to Coonoor for treatment at the public expense should at once be reported to the Director of the Institute and to the President of the Municipal or District Board concerned, and in every case a report should also at once be sent to the Comptroller, Mysore Government.

The report should state (a) the amount of travelling allowance (by rail, road or river) advanced, (b) the number of days for which, and the rate at which, maintenance allowance has been advanced, and (c) whether the cost is debitable to the District or the Municipal Funds.

18. The amount required for the despatch of a patient may be drawn from any Treasury in the Province on presentation of a bill signed by the officer empowered to send the patient. The bill must contain the following particulars:—

- (1) Name of the patient.
- (2) Name of the attendant, if any.
- (3) Station from, and the date on, which despatched.
- (4) Amount required:—

(i) Travelling allowance, (ii) maintenance charges, (iii) wages of attendants. There is no objection to the amounts being advanced for this purpose from the permanent advance, the recoupment being made by cashing the bills above referred to as soon as possible.

19. The expenses incurred in the treatment of indigent persons and the expenses of their attendants should be debited to (a) Municipal Funds where the person sent resides within a Municipality and (b) to District Funds where the residence is outside a Municipality.

The charges in connection with despatch of indigent patients and their attendants to Coonoor will be shown in the District Fund and Municipal accounts under a separate head "Charges for treatment of indigent patients in the Pasteur Institute."

APPENDIX A

List of officers empowered to grant concessions to Government servants employed under them or subject to their authority to proceed to the Pasteur Institute at Coonoor for treatment.

READ—

Government Order No. 651-50—Med. 2-08-95, dated the 22nd July, 1911, prescribing rules regulating the grant to Government servants and to indigent persons unconnected with the public service in Mysore, of concessions designed to enable them, when bitten by a rabid animal to proceed to the Pasteur Institute, Coonoor, for treatment.

2. Correspondence ending with Letter No. 6961—T. A. M. 1825, dated the 2nd April 1914, from the Comptroller submitting for approval two forms in view to prevent the occurrence of certain irregularities in the payment of travelling allowances and bills to Government servants and Municipal servants sent to the Pasteur Institute, Coonoor, for treatment, under those rules.

No. 1664—764—Med. 62-15-3, DATED BANGALORE, 15TH AUGUST 1914.

ORDER THEREON.—The Director of Pasteur Institute, Coonoor, has brought to notice that the concessions intended for indigent private patients are often extended to Government servants proceeding to the Institute for anti-rabic treatment and the attention of officers empowered to grant the concessions is invited to the points of difference between the two classes of concessions as exhibited in the subjoined statement :—

Class of patients.	By whom paid.		Remarks.
	For forward journey to Coonoor.	For return journey from Coonoor.	
	Railway Fares.		
Government servants and members of their families.	Officer sending the patient.	Paid at Coonoor.	For further details, vide rules 1 and 3.
Indigent private patients.	A free return pass is granted by the Railway authorities on the certificate of the officer sending the patient.		Rule 12 (Note).
	Maintenance Charges.		
Government servants drawing not more than Rs. 35 per month.	Paid by officer sending the patient for the period of journey to, and stay at, Coonoor.	Paid at Coonoor for the period of return journey.	Rule 4
Indigent patients ...	Paid by officer sending the patient for the period of forward journey.	Paid at Coonoor for period of stay at Coonoor and return journey.	Rules 13 and 14.

3. The forms suggested by the Comptroller and hereto appended are approved and will be treated as appendices to Government Order dated the 22nd July 1911.

4. The following amendments and alterations in the rules prescribed in that Government Order are also approved:—

- Rule 6.*—The words "in the form given in Appendix D" should be inserted between "Coonoor" and "stating" in line 6.
- Rule 11.*—The words "in the bill form given in Appendix E" should be substituted for "on bills.....therein."
- The words "in the form given in Appendix D" should be inserted between "reported" and "to" in line 2 of Rule 17.

(iv) The words "prepared in the bill form given in Appendix E" should be inserted between "bill" and "signed" in line 2 of para. 18.

4. The Superintendent of Government Press is requested to cause the forms to be printed in book form and issue them on indent to the officers empowered to despatch patients to the Pasteur Institute, Coonoor, for treatment.

D. M. NARASINGA RAO,
Offg. Secy. to Govt., Gen. and Rev. Depts.

To—The Comptroller to Government.

The Senior Surgeon with the Government of Mysore.

The other Heads of Departments.

The Deputy Commissioners of Districts.

The Presidents of all the District and Municipal Boards including the Presidents of Bangalore and Mysore City Municipal Councils and the Kolar Gold Fields Sanitary Board.

The Superintendent, Government Press.

Date

Signature and designation of the officer
empowered to send the patient to
the Pasteur Institute, Coonoor.

NOTIFICATION NO. 75, DATED BANGALORE, THE 2ND DEC. 1914.

The Hon'ble the Resident is pleased to direct that the following amendment should be made in the rules published with Notification No. 35, dated the 24th March 1909, as from time to time amended, regarding the grant of concessions to persons bitten by a rabid animal to enable them to proceed to the Pasteur Institute at Coonoor for treatment :—

The following rule shall be substituted for rule 11A :

* Any Government servant whose pay does not exceed Rs. 500 a month may if a member of his family, is bitten by a rabid animal and he has difficulty in finding at once the means of sending him or her to the Pasteur Institute at Coonoor be given an advance of one month's pay and of the travelling expenses to Coonoor and back of the person bitten. If his pay does not exceed Rs. 100 a month, an advance of travelling expenses for an attendant, if necessary, may be given to a similar amount and subject to the same conditions of recovery as for the patient. If his pay does not exceed Rs. 50 a month, or, if in the opinion of the Resident, special circumstances exist, which warrant the grant of an extended concession to a person drawing not more than Rs. 100 a month, the recovery of the amount advanced as travelling expenses may be waived altogether or in part.

† Granted to persons drawing not more than Rs. 25 per mensem at the rate of daily allowance admissible.

‡ The charge is debitable to "Municipal Funds" when the person sent resides within a Municipality and to "District Funds" when the residence is outside a Municipality.

Mysore Government Foreign Scholarships.

No. 763-813—EDN. 400-13-1, DATED BANGALORE, 22ND OCTOBER 1914.

ORDER.—For sometime past the Government of His Highness the Maharajah of Mysore have had under their consideration the question of improving the Scheme under which scholarships tenable in foreign countries are being granted so as to meet the requirements of the present time and of the immediate future. The existing rules for the Damodar Das Scientific Research and Technical Education Scholarships framed in 1906, provide for the grant of only two such scholarships every year from the Damodar Das Fund. There are no rules regulating the grant of foreign scholarships from State Funds though several such scholarships have been granted on the merits of individual application received from time to time.

2. Taking a retrospect of what has been done till now to afford foreign training to the young men of Mysore, it is seen that, from 1891 up to the present, 24 persons have been given State Scholarships and since the inception of the Damodar Das Scholarship Scheme in 1904, 18 scholars have been trained.

Analysing the figures it is found that 15 scholars proceeded to Europe and America for advanced study in Medical and Sanitary Science, 6 in Geology, Mining and Metallurgy, 4 in Electrical and Mechanical Engineering and Architecture, 7 in Forestry and Agriculture, 2 to study the art of Printing, and the rest other subjects.

Of the scholars, 20 are now in the service of the State, 10 are still in Europe, 4 died and full particulars of 4 are not known. One is serving outside Mysore and 8 are not in service.

3. In the opinion of Government, the object of the scheme of foreign training in the present condition of the State should be to promote advanced scientific study, technical training and a spirit of research among the people, to train in European countries a number of young men who will follow industrial and commercial occupations which will conduce to the development of the country and also to secure for the service of the State in its several departments, young men trained in Western Universities and Colleges, imbued with the progressive spirit of the West and equipped with a first-hand knowledge of modern methods. To attain these objects it is necessary to increase the number of foreign scholarships; to enlarge the range of subjects for training so as to comprise industrial and commercial subjects more largely; to improve the method of selecting candidates in order to ensure the securing of the best talent in a given time; and to make a suitable provision for facilitating deputation to countries where English is not the spoken language.

4. The Government of His Highness the Maharajah of Mysore have therefore decided to institute a certain number of State and Loan Scholarships and have also slightly revised the Damodar Das Scholarship Rules.

The detailed rules are printed as an annexure to this order. (Appendix A.)

5. The cost on account of the scholarships will amount to Rs. 1,12,000 per annum as per details given in Appendix B attached to these proceedings. The cost of the Damodar Das Scholarships, viz., Rs. 18,000 per annum will be wholly

met from the annual interest realised from the Damodar Das Charity Fund invested in the Government of India Securities.

The Loan Scholarships will cost Rs. 51,300 every year, which will be advanced by Government and will be finally recovered from the scholars.

The State Scholarships will involve an expenditure of Rs. 42,600 per annum, provision for which will be made in the State Budget.

ANNEXURES.

APPENDIX A.

Foreign Scholarship Rules.

I. With the object of promoting higher scientific study and research and technical education among the people of the State, in order to train in European countries young men who are desirous of following industrial and commercial occupations which will conduce to the development of the country and with a view to educating in European Universities and Colleges young men for recruitment to the service of the State in the Revenue, Educational, Forest, Medical, Engineering, Geological and other departments, the Government of His Highness the Maharaja of Mysore have been pleased to institute the following scholarships.

II. The scholarships will be known as the Mysore Government Foreign Scholarships and will be granted from the following sources :—

1. Two known as Damodar Das Scholarships from four-fifths of the annual proceeds of the Damodar Das Charities' Fund;
2. Four known as Mysore Government Scholarships from the general revenues of the State;
3. Five known as Mysore Government Loan Scholarships from loans granted from the general revenues of the State.

III. Eight of the scholarships will be given for study in the countries of Europe and America. The other three will be given for study in Europe and America or in Japan and other Eastern countries; in the latter case two scholarships will be awarded in lieu of every one scholarship tenable in Europe and America.

Of the eight scholarships tenable in Europe and America, 4 will be given for post-graduate scientific study and research and 4 will be given for technical, industrial or commercial training of a practical nature.

The other three scholarships tenable in Europe and America or in New thereof 5 scholarships tenable in Eastern countries will ordinarily be given for practical training in technical, industrial and commercial subjects, but may, in special cases, be given for post-graduate study and research.

IV. The scholarships will ordinarily be tenable for two years, but Government will be prepared to extend the term by one year in the case of half the number of scholarships, where such extension is necessary.

V. Candidates for the scholarships must not ordinarily be over 25 years of age. It will, however, be open to Government to relax the age limit in special cases, such as in the case of candidates who have specially distinguished themselves in their University career and who show very marked aptitude for the higher branches of scientific and technical study, and in the case of candidates who have been engaged in industries or commerce and who desire to pursue industrial or commercial training in foreign countries.

VI. The scholarships will be open to all natives of Mysore by birth or domicile. When well qualified candidates who are natives of Mysore are not available, the scholarships will be open to others who have graduated from a Mysore College. The scholarships for post-graduate scientific study and research shall be awarded only to candidates who have taken with credit a degree in Arts, Medicine or Engineering in an Indian or other recognised University. The subject of advanced study proposed should have an intimate connection with the course of study the candidate has already pursued.

In the case of scholarships for technical, industrial or commercial training, applicants need not necessarily be graduates of a University, but a candidate will be expected to have received sufficient general education to enable him to pursue his studies with advantage. Such candidates should have had practical experience of the industries, etc., which they desire to study, or in the absence of such previous experience should be prepared to undergo such preliminary practical training as Government may prescribe.

VII. Each candidate must forward with his application :—

1. A satisfactory certificate of birth or domicile ;
2. A declaration that he has the consent of the head of his family to proceed to Europe or elsewhere for the purpose of the scholarship ;
3. Certificates of good character from two persons (not relatives of the candidate) of respectability and good position, in addition to one from the Head of the College where he was educated for the degree in Arts, Medicine or Engineering ;
4. A certificate of physical fitness to undergo the course of study, research or training which he will have to follow, signed by the Senior Surgeon of the Government of Mysore or a Medical officer not below the rank of a District Surgeon ;
5. A statement of the course of study or research which he desires to pursue, with testimonials as to his educational and other qualifications for such course.

VIII. (a) Applications for scholarships shall be made to the Inspector-General of Education in Mysore between the 1st June and the 31st July of each

year. The selection of candidates will ordinarily be made by Government on the report of a Committee appointed to report on the merits of the candidate.

(b) The candidates shall be required by the committee to give evidence of their fitness for practical work in any manner that the Committee may think desirable and to undergo any test which the Committee shall prescribe under the general or special orders of Government. In special cases the candidate may be required to undergo a period of probation and preliminary training in India. During such period he shall receive such subsistence and tuition allowances as Government may prescribe.

(c) Candidates for scholarships in Europe and America shall be expected to acquire a working knowledge of German or French and scholars going to the far East a knowledge of Japanese, during the period of probation, if facilities for such study can be secured.

IX. The scholarships for study in Europe and America will be of the value of £300 per annum and those for study in the East of the value of Rs. 1,500 or £100 per annum.

The scholarship will be paid in advance quarterly or in such other instalments as may be considered necessary by the Inspector-General of Education. The scholarship will be held to cover all college and examination fees, cost of books, instruments and boarding charges.

An advance not exceeding £35 in the case of scholars proceeding to Europe and America and not exceeding £15 in the case of scholars proceeding to the East will be given for expenses of outfit when the scholar leaves Bangalore, and this will be recovered out of the scholarship in easy instalments spread over the whole term of the scholarship.

Besides the scholarship, each scholar will be given travelling allowance, i.e., 2nd class rail and steamer fares from Bangalore to the capital or other town of the country selected for his training and a similar allowance for his journey back to Bangalore on the completion of his course of study or research.

Where any premium or other payment is required for securing admission to a factory or other place for practical training in industries or crafts, such charges will be paid if considered reasonable and provided that the previous approval of Government has been taken in each case. In the case of loan scholarships the amount will be treated as an advance and will be recovered in the same way as the scholarship.

X. The subjects which the scholar shall study will be one or more of the following:—

- | | |
|--|--|
| 1. Physical Science. | 7. Metallurgy, including Electro-metallurgy. |
| 2. Natural Science. | |
| 3. Application of Science to Agriculture, Arts, Industries and Manufactures. | 8. Public Administration, Economics, Statistics, Banking, Commerce, Accountancy, Business Administration and Organisation, etc. |
| 4. Research work in applied Science. | |
| 5. Medicine, Public Health and Bacteriology. | 9. Arts, Industries, and processes of manufacture including Textile Industries, Tinctorial Chemistry and Dyeing, Leather Industries, |
| 6. Engineering—Civil, Mechanical, Electrical. | |

Provided that Government may, in special cases, grant scholarships for the encouragement of higher study in Sciences and Arts other than those specified above.

XI. Each candidate selected, shall, unless otherwise directed by Government, proceed, within such period as may be fixed by them, to the country selected for his training, join the institution selected or approved by Government for the purpose and there continue his study or research with all due diligence.

The Inspector-General of Education will, in consultation with the Comptroller, arrange for the payment to the scholar from time to time of the scholarship and of any other sums that may become payable.

XII. The continuance of the scholarship to the holder will be strictly dependent on good conduct and will be conditional on satisfactory progress being made in his study or research.

The scholars will be subject to the supervision of the Educational Adviser for Indian students in England or other person who may be approved by Government in each case.

XIII. The scholarship will be forfeited if the holder thereof not being disabled by illness or prevented by any other cause which the Government may consider sufficient, fail to complete the course of study or research prescribed or is unfavourably reported on by the Head of the Institution or the supervising authority referred to in Rule XII. In such cases the scholar shall be liable to refund the whole or part of the money paid to him as may be decided by Government.

XIV. A scholar shall, before leaving Bangalore, enter into a bond with the Mysore Government stipulating that he accepts the scholarship on the conditions specified in these rules; that he will prosecute the study or research with all due diligence and that on the completion of such study or research course, he will return to Mysore and will, if called upon to do so, serve the Mysore Government for a period of not less than five years on a reasonable salary to be fixed at the sole discretion of Government, provided that Government may waive such a claim and also that if it shall not offer him employment within six months after his return to Bangalore, it shall be bound to waive it and allow him to get employment elsewhere.

If he fails to fulfil any of these conditions, he shall refund to Government the total amount received by him as scholarship, passage money, etc., with such interest as may be demanded not exceeding five per cent. per annum on the amounts paid to him from time to time.

XV. In the case of loan scholarships, the scholar shall, in addition to the above stipulations, before leaving Bangalore, enter into a bond with the Government giving satisfactory security for the repayment of the advances payable to him but without interest.

The loan shall become repayable without interest ordinarily in 5 and in any case not more than 10 yearly instalments after the completion of the training for which the loan was made, the further particulars of repayment being fixed by Government in each case according to circumstances.

Edw. ARATHOON,
7c, Brigade Road, BANGALORE.

CIVIL AND MILITARY STATION, BANGALORE.

MUNICIPAL OFFICE.

Health Department.

The Civil and Military Station Health Department consists of the Health Officer (350—50—500) and the following staff :—

2 Sanitary Inspectors (qualified) on Rs. 120 } and 10 Rs. Cycle

1 Sub-Sanitary Inspector on „ 50 } allowance.

1 Veterinary Inspector on Rs. 120 and Rs. 5 Cycle allowance. Maximum Pay Rs. 180.

16 Overseers Pay from Rs. 10 to 30, and House rent Rs. 5.

28 Duffadars (Circle Peons) on Rs. 8 each.

about 60. } Scavengers on 7 and 6 Rs. each.
} Sweepers on 7 and 6 Rs. each.

For conservancy purposes, the Civil and Military Station is divided into 14 circles:—

A Division Under Sanitary Inspector.

I. Circle. Doddigunta, Jeevanahully, Kulpully, Kadrapalya, Binnamangalam, Appireddypalyam, Dookenhully and Domlur.

II. Circle. Ulsur Bazaar, Knoxpett, Yeriparacherry, Kanadaparacherry, Joughpalya, Nandavanam Garden, and Royal Horse Troop-lines.

III. Circle. Shoolay, Yellagowdanapalya and Ramaswamy Chetty Palya.

IV. Circle. Arab Lines, Richmond Town and Milkman's village.

V. Circle. Akkithimmanahully, New Parachery, Neelasundra, Vannarpet and Ookadapalya.

B Division Under Sub-Sanitary Inspector.

VI. Circle. Clarkspett, Sivan Chetty Garden Street, Grass Cutter's lines, Meenkaracherry, Bythavadi and Old Police Lines.

VII. Circle. Chuppercherry, Duckspuddle, Bowringpette and Pakalicherry.

VIII. Circle. Bamboocherry, Mootoocherry, Boweecherry, Bandapalya, Sultangunta and Bandystand.

IX. Circle. West General Bazaar.

C Division Under Sanitary Inspector.

X. Circle. Benson Town, Baderhully, Pottery Town, Old Tanneries, Ramasawmypalya, and Burmanna's Garden.

XI. Circle. Cleveland Town, New Koombar Shoolay, Moothhookerpenpalya, Veerannah's Garden and Fraser Town. Fraser Town on account of its importance is in charge of an Overseer.

XII. Circle. North Blackpully, Pensioners Lines, Police Lines, Chuckler's Paracherry, Pioneercherry and Old Koracherpalya.

XIII. Circle. South Blackpully, New Koracherpalya, Balappa's Garden and Jeevanappa Garden.

XIV. Circle. High Ground, Infantry Lines and Indian Institute of Science.

Slaughter House Bye-law, Appendix No. 20.**DETAILS :—**

1. *Municipal Slaughter Houses*.—for Cattle and sheep. On an average 25 sheep and about 50 to 60 cattle are slaughtered daily.

2. *Pig Slaughter House*.—About 4 Pigs are slaughtered every day. This is quite separate.

Blood washings.—These and other refuse from the Slaughter houses have been sold for Rs. 1,600 for the next 3 years (from April 1911) Prior to this, it was being given away for a nominal fee of Rs. 50 per annum.

Scale of fees for Slaughter.

Sheep	8 annas per head
Cattle	8 " "
Camels	1 Rupee "
Pigs	Free (Since April 1912)

The Slaughter houses are in charge of a qualified Veterinary Inspector assisted by an overseer and under the supervision of the Health Officer.

STAFF :—1 Veterinary Inspector Salary 100 to 150 Rs. and Rs. 5 Cysto allowance.

- 1 Overseer.
- 2 Peons.
- 1 Watchman, and
- 11 Sweepers.

DUTIES OF VETERINARY INSPECTOR.

The Veterinary Inspector—attends at the Slaughter Houses daily from 12 to 4 p. m., examines and passes animals before slaughter and checks all carcasses and viscera, etc. In addition, he regularly inspects, as far as possible all licensed Hackney Carriage stables, cowsheds and dogs in the Station during mornings. The reports are sent in special diaries to the Health Officer every day.

(The quantity of water used at the Slaughter houses for cleaning and other purposes is 5,000 gallons per diem.

Chapter III Bye-law No. 4.**3. Public Markets.**

- (a) General Market
- (b) Beef and Poultry Market
- (c) Madras Fish Stalls
- (d) Fish Market
- (e) Shoolay Market
- (f) Ulur "
- (g) Meats Market, Mutton and Beef stalls, Fraser Town.
- (h) Port Market.

in charge of a European Market Sergeant on a pay of Rs. 40.

The menial staff attached to the several markets consists of 6 peons and 8 sweepers.

4. *Incinerators*.—There are 4 on the whole. These were started as an experimental measure about 3 years ago and are working pretty satisfactorily. Each one burns, on an average, one cartload of filth, two scavengers being attached to each. They are located near Public latrines in the following places:—

- 1 in Blackpully.
- 1 in Bambucherry.
- 1 in Puchali Cherry.
- 1 in Shoolay.

A few more will be constructed during the present year in suitable localities.

5. *Public Latrines*.—There are 61 in all :—

A Division	25
B " "	18
C " "	23

The majority of them are in good condition and, wherever possible, improvements are effected every year, as funds permit, a few public urinals have been put in parts of the station during the last year.

6. *Street Drains*.—These are U-shaped cemented (Standard) and open. Wherever necessary they are provided with over flow channels for stormwater. There are a few V shaped stone drains but these are all gradually being replaced by the standard pattern.

There is one large main-sewer from the top of Blackpully leading to the Ulur Tank and passes by the side of the Old Market. It is partly open and partly covered. The drainage of stormwater is well provided for, the large main channel being the carrier from the central and congested part of the town and is the principal feeder to the Ulur Tank, which is never completely dry throughout the year.

Flushing of Drains.—is usually done by means of barrel carts but a great difficulty is felt owing to the scarcity of water. We have 20 flushing carts each costing Rs. 14 per month for hire of bulls and driver and 4 silk carts.

There are 4 *Automatic Syphons* :—

- 1 in A Division is used 4 times a week.
- 3 in B " disused owing to scarcity of water.

7. *Street cleaning*.—This is done by our sweepers. Their working hours are from 5-30 A.M. till 10 A.M. and again from 2 P.M. to 5 P.M. The streets are not watered owing to scarcity of water.

8. *Municipal Pounds*.—for impounding stray dogs, and all stray animals. There are three :—

- 1 in IIIrd circle—Near Shoolay Market.
- 1 in IInd " —Near Ulsoor.
- 1 in XIIth " —Cockburn Road.

Chapter III Bye-law No. 12.

9. *Destruction of Stray Dogs*.—This is carried out by the Sanitary Inspectors only. The poison used is Strychnine in baits of (cooked liver). All collarless dogs caught in the streets are impounded, and, if not claimed for by the owners within 3 days, are destroyed. Professional dog catchers are engaged whenever necessary and these men are paid rewards at the rate of 5 annas for each dog or bitch and 2 annas for each pup. On an average about 75 dogs are destroyed every month. A register of dog baits is kept by the Sanitary Inspector in charge of the pound. The Municipal pound in Mootocherry is built to accommodate about 40

dogs. The staff here consists of the Pound keeper (on Rs. 15) and a peon of Rs. 7, (or 8). The fees for reclaiming stray animals impounded are :—

Dogs.	Rs. 1
Horses.	As. 4
Donkeys.	As. 2
Cattle.	As. 4 to 8.
Goats.	1 Anna.

The fees are doubled when claimed at nights.

3 in A Dn., 1 in B Dn., 2 in C Dn.

10. *Trained Midwives.*—Four of these were employed in May 1910, on the recommendation of a Special Committee appointed to enquire into the question of Infantile Mortality. These Midwives get a pay of Rs. 25 each. For every labour case above 10 they are given an allowance of Re. 1. Their work has been very satisfactory. Two more diplomaed midwives have since been entertained. The services of these midwives are *free* to the poor. They are not to attend at any house whose rent is above Rs. 2, except, at the discretion of the Health Officer or the Sanitary Inspectors. On an average they conduct about 70 to 75 confinements per month. Reports are sent in diaries daily.

11. A children's day nursery for the use of the children of the poorer classes was opened in 1913 at No. 14, Cockburn Road. Admission is restricted to about 90 infants. The age limit is 18 months. The infants brought in are looked after by a nurse assisted by 2 ayahs. They are fed at the nursery free of charge for the day.

Appendix No. 32.

12. Notifiable Diseases.—

Plague.
Cholera.
Small Pox.
Enteric Fever.
Measles.
Diphtheria.
Chickenpox.
Leprosy.
Hydrophobia.

The public have not fully felt the force of this Bye-law yet.

13. *Disinfection of stagnant pools, ponds, Tanks, etc.*—For this purpose the material used is crude kerosine oil. This gives satisfactory results in the destruction of mosquito larvae. All wells, public and private, which are in use are disinfected as often as possible with potassium permanganate and glacial acetic acid. The newly sanctioned anti-malarial staff is deputed for this work—*vide* S. 17.

Tanks and Ponds.—All these have been drained off except the large Ulsur Tank. Two large Tanks have recently been drained off the surroundings of which were very malarious.

Water Supply.—The present water supply (filtered by Jewell system is 1,500,000 gallons per diem for a population of a little over 100,000. It is in charge of the Military Works Department.

Section 126, Municipal Law.

14. *General Disinfection.*—This is carried out, by our staff, in houses where all infectious diseases occur. In the case of Plague-infected houses, it is being carried out by the Plague Department. The disinfectants used are Carbolic Acid, Sulphur, Corrosive Sublimate, and Chlorinated Lime.

Sections 102 & 103 of Municipal Law.

15. *Licences*—are issued by the Health Department after inspection by the Health Officer or the Sanitary Inspectors for Hotels, eating houses, offensive trades, bakeries, aerated water factories, cowsheds, dairies, dhoby houses and petty bazaars. (Vendors of Hoppers, vegetables, etc.) Special Notices are served according to the Bye-laws for insanitary premises, nuisances etc., about 2,000 notices and 1,000 licences are issued yearly.

Scale of Licence fees—

	Rs.		Rs.
Offensive Trades ...	5	Millgrinders ...	2
Bakeries ...	5	Sugar Factory ...	10
Aerated Water Factories ...	100	Hopper Sellers ...	Free
Ice Factories ...	50	Sweetmeatshops ...	5
Dairies ...	2	Sale of meat ...	5
Flourmills (Hand) ...	2	Do fresh fish ...	8
Do (Machine) ...	60	Do salt fish ...	1
Cowshed (per head of cattle) ...	Rs. 8	Do Vegetables ...	1

The conditions enforced on all Restaurants, Eating Houses, Coffeeshops, Dairies, Dhoby houses, Milk shops, Bakeries and Confectionery shops are.—

- (1) Stone flooring with proper drainage.
- (2) Walls cemented to a height of at least 4 ft.
- (3) Skylights.
- (4) Adequate ventilation.
- (5) Suitable flyproof showcases.

Lime washing is to be done three times a year, or whenever required by the Health Officer. The appointment of a Food Inspector is now under consideration and is a matter which requires urgent attention.

Chapter III Bye-law No. 17.

16. *General Latrines.*—All the latrines (private) in the Station Civil limits are under the supervision of the Health Department; all latrines which are newly built require to be constructed according to the Standard design.

17. *General Conservancy.*—The Health Officer and the Sanitary Inspectors go round every day. Each Sanitary Inspector inspects his division every day, checking masters and supervising the work of the Circle Overseers and scavengers. The scavengers and sweepers do the cleansing work of streets, lanes and drains, in

gangs under a maistry (Circle peon) who are, all, supervised and mastered by Circle Overseers.

Every Overseer keeps a diary which is checked by the Sanitary Inspector of the Division. The Sanitary Inspectors send their daily reports in diaries to the Health Officer. The Sanitary Inspectors attend at the Health Office daily, except Sundays and Holidays and, also, attend the courts for prosecutions in cases where parties fail to comply with special notices. The whole conservancy of the Station day and night, is worked under 'contract system.' The 18 circles are sold annually by public auction to contractors who are all farmers. These contractors depute men and carts (Wajecarts being supplied free by the Municipality) to collect all the rubbish away. They are required to deposit all rubbish so removed in fields outside the station limits. The night soil, filth and other rubbish in Indian Bazar and Indian part of the Town are removed in Basket and Valve Cans in the mornings before 9 A.M.

By adopting the contract system the savings amount to nearly 80,000 per year being the cost of maintenance of bulis and carts. Further the two filth dogs used for trenching all rubbish have been discontinued and the great nuisance thereby caused has been put a stop to.

In the garden houses and European quarters, the nightsoil, etc., is removed at nights only by the same contractors. The work goes on from about 9-30 P. M. to 2 A. M. daily.

The above system, though not quite perfect, works very satisfactorily and is profitable to the Municipality.

Departmental conservancy was being carried on from November 1908 to March 1911, but, as it was found to cause great loss and inconvenience, the contract system was readopted from April 1911. The amounts realized for the last 3 years by the sale of rubbish under the contract system were as follows:—

1911—1912	Rs. 67,00
1912—1913	Rs. 22,880
1913—1914	Rs. 17,000

Conservancy Stores.—These are in charge of a store clerk who looks after the workshop also, the establishment of which is as follows:—

- 1 Black smith.
- 1 Carpenter.
- 1 Whitchman.
- 1 Bellowsboy.

The conservancy of the Military Bunka is now being carried out by the Military authorities (i.e., since July 1910).

Rank Vegetation.—A periodical removal of rank vegetation is carried out every year, the work being done in the months of December and January. The amount allotted annually is Rs. 300. In addition to this attention, is paid at all times to clear away rank vegetation especially fanlana and pricklypear wherever necessary. There is now a special mosquito brigade—the staff consisting of 1 supervisor, 1 maistry and a gang of 6 coolies.

Public Bathing Places.

There are 4 in the station. They are small private commercial concerns catering mostly for the poorer Mahomedan population. They are fairly well kept and are supervised by the Health Department. The rates charged are:—

1 anna for a small tub (6 gallons) of Hot water.
1 " " " Cold "

A Municipal Public Bath will be constructed in the course of this year in one of the big Paracheries as an experiment.

Dust Bins.—The total number of Dust Bins is 935, of which, 776 are of corrugated Iron and 159 of stone. The Stone Dust Bins are being gradually replaced by Iron Dust Bins every year.

Dust Bins are fairly adequately put up in all parts of the station. All rubbish, etc., from houses are to be thrown into Dust bins provided. The public have not fully realised the force of this bye-law. All defaulters detected are generally warned or prosecuted.

Wherever possible we have provided stone platforms for Dust bins to prevent excavations and nuisances due to fowl grazing. These will also be pushed on as funds permit.

18. **Vaccination Department.**—The staff consists of:—

- 1 Deputy Superintendent on Rs. 50 (10 Rs. Cycle allowance).
- 6 Vaccinators (10 to 15 Rs. each).
- 1 Vaccinatrix Rs. 12.

The Deputy Superintendent checks the work of the Vaccinators. The whole staff is under the supervision of the Health Officer. The Vaccinators hold their offices in the Sub-Registrar's offices. The lymph used is lanoline lymph obtained from the Mysore Government Vaccine Institute and is very satisfactory on the whole.

19. **Statistical Department.**—

- (a) There are 16 cemeteries in charge of 8 cemetery registrars who reside in the free quarters provided for them in the several cemeteries. (All get Rs. 30 each). They send in reports of Deaths every day.

A. DIVISION.

	1 Statistical Registrar	" 45-60 and cy allowance.
	1 Assistant Clerk	" 20 already mentioned.
	6 Peons and 1 watchman on	" 6

(22) *Laboratory.*—is in charge of the Health Officer. It is fairly well equipped for Bacteriological and Chemical (analytical) purposes. Specimens of water, blood for widal reaction, material from slaughter houses from sheep and cattle, foodstuffs, rats, etc., are frequently examined. The annual grant (Budget

allotment) is Rs. 1,000 and new materials are gradually added in. The laboratory has been reorganised. The public may have specimens of foodstuffs and other materials examined.

23. Action is taken by the Health Department under the following sections, as per standing Order No. 28, dated 28th March 1899:—

Sections.

Bangalore Municipal Law of 1897—87, 88, 89, 90, 93, 94, 95, 96, 97, 99, 100, 103, 104, 105, 107 (4), 113, 123, 124, 126, 127, 128, 129, 144, 145, 146, 147, 148, 149, 150, 158, 159, 160, 162 and 188 (2).

Bye-Laws:—Under Chapter II, Part of Bye-Law No. 3 A., Under Chapter III, Nos. 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 17.

N.B.—The Nos. of Bye-laws have been revised according to the New edition.

(23) The S. P. C. A. has now been incorporated with the Health Department of the Municipality.

The staff consists of—

(1) Mr. D. G. Naylor.	Inspector.
(2) Mr. Mahomed Akbar,	Assistant.

(24) *Ambulance Carts.*—There is one special Ambulance cart fitted with rubber tyres which may be had for the use of the public, the parties requisitioning same have only to pay the coolie charges.

There are also 3 newly built ambulance carts for transporting sick cases of infectious diseases to the Isolation Hospital.

Various postal reforms were introduced in Bangalore during the past year. Several new Sorting Offices were opened in the Division, and the general sorting Registration and Parcel work, which was formerly done by Local Post Offices, was taken over by the Railway Mail Service.

Notes for Public Information.

The Public are recommended to mention their old address when intimating change of address to the Post Office.

Senders should give addresses' full address on letters, etc., i.e., the number of the house, name of street, or road and locality.*

Private letter boxes affixed to the doors of or otherwise provided in houses, Public Offices, etc., for the reception of unregistered paid articles, will facilitate delivery.

Postage stamps which have been obliterated, defaced, torn, cut, or otherwise rendered imperfect, or any word or letter written or printed or any line drawn on or defaced by rubber or other stamps are not recognized in payment of Postage on articles posted.

Letters on which postage is not fully prepaid are subject to delay in delivery. Special Registered letter envelopes are provided by the Post Office with a two anna stamp embossed on the flap in payment of the registration fee. They are available in two sizes. The use of these envelopes is recommended.

Telegraphic Money Orders are received for despatch at any hour during the day at which work is going on in the Office.

The Indian Postal Guide, price 4 annas, can be had at all Post Offices. Quinine, in packets of 10 grains each, is now sold at all Post Offices throughout the Mysore Province, at 8 pies per packet.

* Articles intended for delivery from suburban offices, viz., Bangalore City and Hebbal may be subject to delay in delivery if addressed to Bangalore without addition of the name of the suburban office.

Inland)

STATE TELEGRAMS.

Definition.—A State telegram is a telegram sent by an official of the British Government on British Government business.

Municipal Commissioners and the officials and servants of a Municipality or of a guaranteed or Private Railway are not entitled to send State telegrams, nor are the officials and servants of Native States.†

Language.—The text of State telegrams may in all cases be composed of Secret language (i.e., Code and Cipher.) Cipher language may be formed either of groups or series of figures, or of groups or series of letters, having a secret meaning, but a combination in the same telegram of figures and of letters having a secret meaning, is not admitted.

Collation.—State telegrams, when they are written in Figure or Letter cipher, are always repeated in their entirety (Rule 105) by the Receiving Office in the same manner as is done with "collated" telegrams (Rule 103.) When partially written in cipher, the cipher portions only are repeated.

Payment, etc.—State telegrams must be marked *State* by the Sender, and as a rule, paid for in Service stamps or in cash prior to despatch. The charges are the same for State as for Private telegrams. The rule regarding prepayment (Rule 64) will be relaxed in case of great emergency; but whenever an *Express* State telegram is tendered for transmission under this permission, the Sender must take the necessary steps to ascertain the charges on it, and pay them into the Telegraph Office within 24 hours. The rule cannot be relaxed in case of Ordinary State telegrams.

At Railway Offices.—State telegrams are not accepted at Railway Offices at places where there is also a Government Office, except in cases of emergency, or when the Sender's Office, or residence, is much closer to a Railway Office than to a Government Office.

Inland.

Multiple Telegrams.

Addressed to one Telegraph Office.—Except as provided for in Rule 121, a telegram addressed to several persons in the same locality, or in different localities served by the same Telegraph Office or to the same person at several Addresses in the same locality, or in different localities served by the same Telegraph Office, is charged for as a single telegram; but a copying fee of four annas per 100 chargeable words *plus* four annas for the excess is charged for each destination after the first.

Copies of a multiple telegram will only be delivered by post from the Terminal Telegraph Office when addressed to places beyond the telegraph lines. Such copies cannot be posted to places where there are Telegraph Offices.

Addressed to more than one Telegraph Office.—A telegram addressed to several persons, or to the same person, in localities where delivery is to be effected by different offices, is charged for as so many separate telegrams, and shall be written on separate telegram forms. Telegrams addressed to stations which are local telegraph offices within the free-delivery radius of the Central Office are, however, treated as laid down in Rule 111. Press telegrams addressed to more than one Telegraph Office are invariably treated as in Rule 111. (See Rule 129.)

In the case provided for in Rule 111 each copy of the telegram delivered will bear its own particular Address only, unless the Sender has requested the contrary. In the latter case the Sender should write the words *Communicate all Addresses, or* C.T.A. [Rule 17 (d)] which are not charged for.

Replies cannot be prepaid on multiple telegrams.

Mixed Postal and Telegraph Service between India and the United Kingdom.—Communications intended for places in the United Kingdom may be telegraphed to Bombay for despatch by registered post to London and

- (4) It must be written in plain *English* so as to be intelligible to the Transmitting Offices, and must contain nothing of concealed meaning either in Code language or Cipher. In Press telegrams ordinary *English* words may be abbreviated.
- (5) It may also be a telegram sent from, or to the newspaper or news agency by its registered title (but not in the name of the editor, publisher, manager, or any other person), to or from its correspondents or employees on the subject of a telegram published, or to be published, or to an official* of the Telegraph Department on matters of Press business.
- (6) If a Press telegram be addressed to the editor, publisher, manager or any other person connected with the newspaper or news agency by name or designation, it is chargeable at the full Inland rates.
- (7) Whenever demanded, a copy of every newspaper in which a Press telegram is published must be furnished to the Telegraph Office from which that Press telegram was delivered.
- (8) Long news messages should be broken up into pages of about 75 words each. All the pages must be numbered consecutively and each of them, except the last, should conclude with the words "*More to follow*" (or *M.T.F.*). The last page should conclude with the words "*End of message.*" These words and numbers are not charged for.

The name of the sender should be written at the top of each page and the last word of each page should be repeated at the top of the next page. The interval between the handing in of the different pages should not exceed an hour. When this interval is exceeded, the pages handed in late will be treated as a fresh message and charged accordingly. In telegrams addressed to more than one newspaper or news agency, the full list of addresses need only be furnished with the first page, of the consecutively numbered pages will be considered to be addressed to all the newspaper and news agencies.

- (9) When a Press message is addressed to more than one office, a sufficient number of copies of the text should, when practicable, be supplied to allow of its being telegraphed simultaneously to each office. Information as to the number of copies required can always be obtained beforehand from the Telegraph Office from which the news is to be sent.

uch telegrams should invariably be addressed to the Post-master-General, branch of the Circle in which the newspaper is published or the news exists.

E.—Attention is specially directed to the necessity of writing as legibly as and it is recommended that, whenever practicable, the copy should be in ink, and not in pencil.

- (10) At least 8 hours' previous notice should, when possible, be given of the intention to send long news messages of a greater length than 1,000 words. This notice should be given to the Telegraph Office at which the news will be handed in, together with the following particulars :—

- (i) Time at which messages will be handed in ; (ii) length ; and (iii) addresses.

Stops.—In Press telegrams, where the sense so often depends upon the punctuation, specially in the case of long messages, full-stops will be signalled free of charge, but this privilege will not be extended to other signs of punctuation.

The Press telegram rates apply only to telegrams which satisfy all the conditions of Rule 131, and any subsequent claim made by the Telegraph Department for the difference between Press and full Inland rates must be satisfied immediately on demand.

Press telegrams accepted without prepayment.—Press telegrams may be accepted without prepayment provided that any newspaper or news agency which may desire the facility obtains previous sanction from the Director-General of Telegraphs* and deposits a sum of money in cash, or Government Promissory Notes, as detailed below :—

- (i) If the accounts are to be rendered monthly, the equivalent of eight weeks' transaction subject to a minimum of Rs. 50.
- (ii) If the accounts are to be rendered fortnightly, the equivalent of six weeks, transaction subject to a minimum of Rs. 50.

The accounts for the messages sent without prepayment will be rendered by the Assistant Accountant General, Telegraph Check Office, Calcutta, and must be paid within one week of the date on which they are received.

Railway Offices.—Except in the case of such Railway Administrations as may be willing to accept Press messages for transmission within the limits of their respective Railways, when the wires are not occupied by telegrams on the business of the Railways, the Press Telegram Rules do not apply to Licensed Telegraph Offices. Press messages cannot be transferred from one telegraph system to another † (Rule 14).

* Postmasters-General are authorised to sanction the acceptance without prepayment of press telegrams except in the case of telegrams intended for the Indian News Agency, the Associated Press or Reuter's Telegram Company, and applications for such sanction should be addressed to the Postmaster-General (Traffic Branch) of the Circle in which the newspaper is published or the news agency exists.

† Inland Press telegrams are however, transferred between the Portuguese Government Telegraph Offices referred to on page 115 and all the Indian Government Telegraph Offices.

Delivery.—Press telegrams of either class are sent out for delivery as soon as received, by day or by night.

STATE TELEGRAMS.

Definition.—State (or Government) telegrams are generally defined in the International Telegraph Convention to be those which emanate from the Chief of the State, Ministers, Commanders-in-Chief of Land or Sea Forces, and Diplomatic or Consular Agents of the Contracting Governments ; as well as the replies to such telegrams.

From British Officials.—The only British Government Officials in and outside India who are allowed to send Foreign State telegrams are those who have been specially authorised to do so by the Government of India. A complete list of those Officials is published in Section X. Foreign telegrams classed State, tendered by Officials not named in that list, will be treated as Private telegrams. State telegrams to Ceylon will, however, be accepted from all British Government Officials.

Replies to State telegrams.—The right to send a reply as a State telegram is established by the production of the original State telegram.

Reg. XV, 2.

From Consular Agents.—Telegrams from Consular Agents engaged in Commerce are only considered as State telegrams when they are addressed to State Officials, and are connected with the business of the State. Nevertheless, telegrams which do not fulfil the last-named conditions are accepted by the offices and transmitted as State telegrams, but these offices immediately report them to their own Administration.

Reg. XV, 3.

FOREIGN PRESS TELEGRAMS AT REDUCED RATES.

Telegrams, the text of which contains only information and news relative to politics, commerce, etc., intended for publication in newspapers, are admitted as Press telegrams to or from the places in respect of which reduced rates† have been arranged and published in the *Telegraph Guide*.

(2) Press telegrams will be accepted in India during the working hours of Telegraph Offices as notified in the *Telegraph Guide*.

(3) Telegrams at the reduced rate shall not be allowed to interfere with the transmission of telegrams at full rates, and in order to ensure this, the transmission of such news telegrams may be deferred, suspended or interrupted until any State or Private telegram, or any Press telegram at full rates which may be on hand, shall have been transmitted and completed. On the lines of the Indian Telegraph Department such telegrams shall take precedence with Ordinary Inland telegrams.

† For reduced rates, see Section IV. Newspapers desirous of availing themselves of the reduced Press rates are requested to signify to the *Director-General of Posts and Telegraphs, Traffic Branch*, their adhesion to the above Press rules, and to furnish the name or names of their correspondents authorised to send telegrams at reduced rates, and also give the name or names of the Papers to which they will be addressed.

(4) Press telegrams will only be accepted from the authorised correspondent of a newspaper, periodical publication or news agency. Each authorised correspondent will be furnished with a card of authority* by the *Director-General of Telegraphs*.

(5) When Press telegrams are signed, the signature must be that of the correspondent whose name appears on the card.

(6) The permission to newspapers, periodical publications and news agencies to receive Press telegrams at reduced rates is subject to the submission of a written declaration by the manager of the newspaper, publication or agency, undertaking to conform to all the conditions fixed by these rules. A list of the newspapers, periodical publications and news agencies in India authorised to receive Press telegrams at reduced rates is published in the *Telegraph Guide*.

(7) Press telegrams must be addressed to newspapers, periodical publications or news agencies, and solely to the name of the newspaper, publication or agency, which appears on the card, and not to the name of a person connected in any capacity whatever with the management of the newspaper, publication or agency.†

Proved irregularities may cause the withdrawal of Press Cards.

The use of abbreviated and registered addresses is authorised if mention is made of these addresses on the card. For the receipt of telegrams at Press rates only, each authorised newspaper, periodical publication or news agency may have an abbreviated address registered free of charge.

(8) Press telegrams must be written in English language, or in one of the languages of the country of origin or of destination authorised for International Telegraphic correspondence in plain language, or in the language in which the receiving newspaper is printed, provided that this language is admitted for International Telegraphic correspondence.

Press telegrams must not contain any passage, advertisement or communication having the character of private correspondence, nor any advertisement or communication, the insertion of which is made in consideration of payment.

Exchange and market quotations, with or without explanatory text, are admitted in Press telegrams at reduced rates. Offices of origin must, in cases of doubt, assure themselves by communicating with the sender, who is bound to give proof whether the groups of figures appearing in the telegrams really represent Exchange quotations.

Telegrams presented as Press telegrams which do not fulfil the conditions indicated in clause 8 of the preceding rule are charged for according to the ordinary tariff.

The normal tariff for private correspondence is also applicable to every Press telegram of which use is made for some other purpose than that of insertion in the columns of the newspaper to which it is addressed, namely :—

(1) To telegrams which are not published by the receiving newspapers (failing a satisfactory explanation) or which the latter has communicated before publication, either to private individuals or to establishments, such as Clubs, Cafes, Hotels, Exchanges, etc. ;

* Such "Card of Authority" is issued by the *Director-General of Posts and Telegraphs, Traffic Branch*.

† "Telegram Extras," which are usually issued when news is received too late for publication in the ordinary issues of a newspaper, are admitted as they are considered to the extra editions of the newspaper. They should, however, be headed as being issued by the newspaper.

(2) To telegrams which the receiving newspaper shall have sold, distributed or communicated before publishing them itself, to other newspapers for publication in their columns ;

(3) To telegrams addressed to agencies which are not published in a newspaper (failing a satisfactory explanation) or which are communicated to third persons before being published by the Press.

In the cases provided for in the three preceding clauses the balance of the charge is collected from the addressee and is retained by the Administration of destination.

Press telegrams bear only a single supplementary instruction—that relating to Multiple address telegrams. The charge to be collected for the copies to be made by the office of destination is the same as that for ordinary private telegrams.

II Press telegrams at reduced rates shall be prepaid, except under special arrangements made by an authorised newspaper for specially nominated correspondent.

Press telegrams must be marked *Press* by the senders, and the benefit of Press rates must be claimed by them at the time the telegrams are tendered for despatch.

Press telegrams for Ceylon are accepted at reduced rates under the same general rules and conditions as Inland Press telegrams (Rules 131 to 138). In other respects Press telegrams for Ceylon come under the general rules for Private Foreign telegrams.

† For rates to Ceylon see Section IV.

One Moment Please

HAVE you ever found you have to pay 'fancy prices' for Jewellery, Silverware, Watches, etc.

HAVE you ever been disappointed with the Repairs done to your Watch

HAVE you ever been dissatisfied with the manner your Jewellery has been made or repaired

HAVE you ever found your eyes giving you trouble through an Ill-fitting pair of Glasses

HAVE you found the Silver-plating come off your tableware after a month's use

THEN you could not have known us.

Remember we have been 40 years in the business and know all about it.

Kindly give us a Trial Order and judge for Yourself

Catalogue on Application.

(ESTABLISHED 1870.)

MARLAM & CO.,
