(b) if so, what the main features of the scheme are?

SRI B. PARAMESWARAN (Parliamentary Secretary):—

“(a) Yes. They propose to take up re-organization of education as soon as possible.

“(b) It is too early to mention the main features of the scheme.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“Is not the Parliamentary Secretary to the Hon. Minister for Education aware that the Minister has already made public *ad nauseum* the policy he wishes to pursue regarding education?”

MR. SPEAKER:—“The Minister is responsible for the public announcements that he makes. You should not ask the Minister's Parliamentary Secretary about those announcements.” (Laughter.)

KHAN BAHADUR MAHBOOB ALI BAIG SAHIB BAHADUR:—“Is this House to take it that no scheme has yet been framed?”

SRI B. PARAMESWARAN (Parliamentary Secretary):—“A scheme is under consideration.”

KHAN BAHADUR MAHBOOB ALI BAIG SAHIB BAHADUR:—“Will the Government take the House into confidence before a scheme is formulated and put into force?”

SRI B. PARAMESWARAN (Parliamentary Secretary):—“Certainly, Sir.”

KHAN BAHADUR MAHBOOB ALI BAIG SAHIB BAHADUR:—“Will the Hon. Minister consult the various sections of the House and the communities that form part of it . . . ?”

MR. SPEAKER:—“You may put the question to the Hon. Minister when he is present and not to the Parliamentary Secretary.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“On a point of order, Sir. It is open to the Parliamentary Secretary to answer the questions put to him and, if he is not able to answer he might well say so.”

MR. SPEAKER:—“As the Parliamentary Secretary is new to the House, I as Speaker am suggesting that it is the Minister that should answer the question.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“I do not think it is the function of anybody else to make a suggestion of that kind.”

[31st July 1946]

MR. SPEAKER:—“I have got the power here to suggest it.”

KHAN BAHADUR MAHBOOB ALI BAIG SAHIB BAHADUR:—“May I request the Speaker to put this question again on the agenda?”

MR. SPEAKER:—“The hon. Member may renew notice of the question.”

KHAN BAHADUR MAHBOOB ALI BAIG SAHIB BAHADUR:—

“Why should we?”

B. POCKER SAHIB BAHADUR:—“May I know, Sir, whether the order recently passed regarding vernacularization is in conformity with any scheme or whether it is an order unconnected with any scheme and came to light one fine morning?”

SRI B. PARAMESWARAN (Parliamentary Secretary):—“Notice.”

M. A. SALAM SAHIB BAHADUR:—“Will the Hon. the Premier give an assurance that no change will be made unless the House approves of it?”

THE HON. SRI T. PRAKASAM:—“No assurance can be given, Sir.”

KHAN BAHADUR MAHBOOB ALI BAIG SAHIB BAHADUR:—“Is the Hon. the Premier aware that the Muslim community especially is very much agitated over the proposal to impart education in what is called the regional language?”

THE HON. SRI T. PRAKASAM:—“I am not aware of any such agitation.”

MR. F. FERRELLEY:—“Mr. Speaker, if the Government have not yet got any policy in the matter, will the Hon. the Premier try to restrain his Minister from making pronouncements in public?”

THE HON. SRI T. PRAKASAM:—“I do not think any of my brother Ministers require any advice on the matter. They are giving answers as briefly as possible without declaring any general policy.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“May I request the Hon. the Premier to explain what exactly he means by saying ‘No assurance can be given?’”

THE HON. SRI T. PRAKASAM:—“Plain language can be understood by my hon. Friend. The assurance wanted was to the effect that nothing would be done by the Government without getting the previous consent of the House. It is impossible to give any such assurance. There are so many matters in which the Government will have to give the lead without coming to the House.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“May I ask the Hon. the Premier whether he realizes that this is a matter which affects the various cultures of this Province and if so whether an assurance is not imperative?”

THE HON. SRI T. PRAKASAM:—“The matter will come before the House ultimately.”

[31st July 1946]

P. K. MOHIDEEN KUTTI SAHIB BAHADUR:—"Are the Government aware that the Malayalees of Madras are undergoing hardship on account of the recent order of the Government on regional languages?"

THE HON. SRI T. PRAKASAM:—"No. The Government are not aware of any such hardship."

P. K. MOHIDEEN KUTTI SAHIB BAHADUR:—"Will the Government be pleased to see that such hardships are not caused to the Malayalees?"

THE HON. SRI T. PRAKASAM:—"If there is any hardship to any section of the population and if it is brought to my notice, I will certainly consider it."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Is the Hon. the Premier unaware of what the Hon. Minister for Education has been doing all along?" (Laughter.)

THE HON. SRI T. PRAKASAM:—"I am aware of what the Hon. the Minister for Education has said and I back him up very strongly. When the time comes, what he has announced will be considered."

SRI KALA VENKATA RAO:—"ఈ ప్రాంతీయ భాషా నిర్ణయ విషయమై మదరాసు సరిహద్దు అంధ్రులకు కష్ట ముగానున్నదని విన్నవములు వచ్చినా?"

(A Voice: "He can speak in English.")

ABDUL HAMEED KHAN SAHIB BAHADUR:—"The hon. Member knows English and has hitherto addressed the House in English."

MR. SPEAKER:—"When the hon. Member knows English, I cannot allow him to put the question in Telugu."

SRI KALA VENKATA RAO:—"I bow to your ruling, Sir. Your predecessor had allowed me this privilege."

MR. SPEAKER:—"I am not going to continue it."

SRI KALA VENKATA RAO:—"Is the Hon. the Premier aware that representations have been received from the Andhra public about the difficulties experienced in this cosmopolitan city on account of the introduction of the system of teaching in regional languages?"

THE HON. SRI T. PRAKASAM:—"If the hon. Member makes his question a little plainer, he will enable me to understand him easily."

KHAN BAHADUR MAHBOOB ALI BAIG SAHIB BAHADUR:—"Is the Hon. the Premier aware of the fact that if this regional language is introduced as the medium of instruction, the Muslims, whose mother tongue is Urdu, will suffer and suffer very badly?"

THE HON. SRI T. PRAKASAM:—"I may tell the hon. Member that, so far as I have known, the Muslims living in

[31st July 1946]

the different regional areas are only taught in their regional language, just as the other members of the community are taught."

B. POCKER SAHIB BAHADUR:—"Is it the intention of the Government that all children in a particular area should get their education in what they call the regional language of the area and not in their mother-tongue? I want a direct answer to that."

(A Voice: "Is it a supplementary question or a speech?")

THE HON. SRI T. PRAKASAM:—"The hon. Member has not understood me. He is labouring under a mistake. Mother-tongue is not anything different from regional language. I may tell hon. Members that in certain areas most of the Muhammadans speak only the regional language and many of them do not know anything of Urdu."

KHAN BAHADUR MAHBOOB ALI BAIG SAHIB BAHADUR:—"May I know if the Hon. Minister is not aware that, so far as Andhra Muslims are concerned Urdu is their mother-tongue and not Telugu, though they speak Telugu as they speak any other language that they know?"

THE HON. SRI T. PRAKASAM:—"I know that in Andhra-desha Muslims speak Telugu language better than Urdu."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know from the Hon. the Premier whether he is going to force any particular language on our community or whether he is going to satisfy the needs of our community in this matter?"

THE HON. SRI T. PRAKASAM:—"Surely no language will be forced on any community."

KHAN BAHADUR MAHBOOB ALI BAIG SAHIB BAHADUR:—"As far as the Andhra districts are concerned, primary education is given to Muslims in Urdu. There are Urdu primary schools and Inspectors of Schools for those Urdu schools and there are several sections in those schools where Urdu is the medium of instruction for the Muslims of the Andhra districts."

THE HON. SRI T. PRAKASAM:—"I am aware of all that and I have always felt sorry that conditions have deteriorated on account of the introduction of such language in the schools. As a matter of fact the members of the different communities were moving like brothers and sisters speaking the same language and working together. It is only the introduction of the Urdu language that brought all this trouble."

B. POCKER SAHIB BAHADUR:—"Am I to understand that the object of the Government is, as I have said, to force the Muslims to educate themselves in a language which they do not want?"

THE HON. SRI T. PRAKASAM:—"No, Sir. The hon. Member is a native of Malabar where the language is

[31st July 1946]

Malayalam. In Malabar itself there are so many Muslims who cannot read or speak Urdu. They speak only the language of their place."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Is the Hon. the Prime Minister not going to pay heed to the feelings of the Muslim parents in the matter of imparting education to their children in their mother-tongue and is he going to force down their throats a language which they do not want and thus tyrannise over them?"

THE HON. SRI T. PRAKASAM:—"No, Sir, there will be no tyranny and no compulsion. Children will be given education in the language which they can easily understand, and anybody will be at liberty to read and speak in the language he chooses."

SRI A. KAMESWARA RAO:—"Does not the Hon. the Prime Minister know that the Muslims that are living in villages in the Andhra districts do not know any Urdu, and know Urdu only to the extent of (పాండిరి-మిదా చొప్పా కత్తా భిష్కు దాలో) '*Pandirimida choppa katta Bhyshku Dalo*.' In view of that . . ."

MR. SPEAKER:—"The hon. Member will please put his question in a question form."

B. POCKER SAHIB BAHADUR:—"Is not the Government aware that there are hundreds and thousands of children in the City of Madras who have been very badly affected by the new orders which have been issued by the Government without consulting either the educational authorities or the parents of the children concerned or the public or any of the communities?"

THE HON. SRI T. PRAKASAM:—"I am not aware that the children have been badly affected and I shall see that no children are adversely affected."

B. POCKER SAHIB BAHADUR:—"I am not speaking of the general educational policy, but I am referring to the adverse effect of the recent order issued by the Education Minister."

THE HON. SRI T. PRAKASAM:—"Yes, Sir. So far as I can see, there has been no adverse effect at all."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Will the Hon. the Prime Minister allow the cent per cent Muslim representatives of the Madras Presidency to decide for themselves in which language they want their children to be educated?"

THE HON. SRI T. PRAKASAM:—"I have already told the House that every one is free to choose his own language according to his wish. There will be no compulsion at all."

B. POCKER SAHIB BAHADUR:—"May I know whether it is not a fact that as a result of the recent orders issued by the Education Minister, so many schools in which education which was previously imparted to children in the English language were prohibited from doing so and they were all of a sudden asked to impart education in some other regional language?"

[31st July 1946]

THE HON. SRI T. PRAKASAM:—"I am not aware if it is a fact, but I shall go into the matter very carefully and deal with it in the best possible way."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"May I ask the Hon. the Premier, whether it is the policy of the Government to change over, so far as education is concerned, merely from one language to another, or to change to the mother-tongue of the people concerned, from the language which is at present the medium of instruction?"

THE HON. SRI T. PRAKASAM:—"The policy of the Government is not to interfere with the mother-tongue at all."

B. POCKER SAHIB BAHADUR:—"May I know, Sir, whether the recent orders issued by the Education Minister were issued on his own responsibility or whether the Government as a whole are responsible for the orders?"

THE HON. SRI T. PRAKASAM:—"The responsibility of one Minister is the joint responsibility of the Government as a whole."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"In view of the replies the Hon. the Premier has made on the question of Urdu as medium of education in schools, may I know his views on the Congress policy of Hindi *versus* Hindustani?"

THE HON. SRI T. PRAKASAM:—"I want notice, Sir."

Redress of grievances of aided school teachers.

* 27 (16) Q.—P. K. MOIDEEN KUTTI SAHIB BAHADUR: Will the Hon. the Minister for Education be pleased to state—
(a) whether the Government have received any representation from the aided school teachers for redress of their grievances; and

(b) if so, whether the Government have come to any decision in the matter?

SRI B. PARAMESWARAN (Parliamentary Secretary):—" (a) & (b) The Government have received representations from teachers in aided schools about some of their grievances and the matter is under consideration. "

Raising of the Government Muslim Girls' High School, Tirur, to a College.

* 28 (18) Q.—P. K. MOIDEEN KUTTI SAHIB BAHADUR: Will the Hon. the Minister for Education be pleased to state—
(a) whether there is any proposal to raise the Government Muslim Girls' High School, Tirur, to a college; and

(b) whether the site for the same has been finally decided upon?

SRI B. PARAMESWARAN (Parliamentary Secretary):—" (a) No.
(b) The question does not arise."

[31st July 1946]

B. POCKER SAHIB BAHADUR:—" May I know, Sir, why the Government should not consider the advisability of converting the Government Muslim Girls' High School, Tirur, to a college in view of the necessity for the Muslim girls acquiring higher education? "

SRI B. PARAMESWARAN (Parliamentary Secretary):—" No case has up till now been made out for converting the school into a college. If and when such a case is made out, the Government will consider the question."

B. POCKER SAHIB BAHADUR:—" Will the Government consider the desirability of taking up the question now, in view of the dearth of colleges for Muslim girls? "

SRI B. PARAMESWARAN (Parliamentary Secretary):—" The Government will no doubt consider the question, if occasion demands it."

Number of Government officials who obtained permits for the purchase of new cars.

* 29 (57) Q.—SRI N. S. VARADACHARI: Will the Hon. the Additional Minister for Food and Transport be pleased to state—

(a) the number of Government officials who have been given permits for the purchase of new cars during the last three months; and

(b) if such permits have been issued for new cars, whether due care was taken to see that they had no other usable vehicles at that time?

THE HON. SRI R. RAGHAVA MENON:—" (a) The total number of Government officials to whom permits were given for the purchase of new cars during March, April and May was 35.

" (b) Applicants for new cars are required to apply in a form giving the following among other particulars:—

(1) of any motor car or motor cycle in their possession or in the possession of any member of their family which is available for their use;

(2) of any vehicle owned or used by them during the past one year and sold or transferred, with reasons for sale or transfer and price if sold; and

(3) if any vehicle is owned, reason for replacing it or for another new vehicle.

" The Provincial Motor Transport Controller who issues the permits takes proper care to see that there is genuine need for a new car."

SRI K. VARADACHARI:—" Is the Hon. Minister satisfied that the new instructions given by Government in regard to the issue of permits have been conscientiously observed by its officers? "

THE HON. SRI R. RAGHAVA MENON:—" The Provincial Motor Transport Controller, who is the head of the department, is observing the rules and instructions issued by the Government from time to time. He takes proper care to see that the officers do not infringe the rules."

[31st July 1946]

SRI K. VARADACHARI:—" May I submit, Sir, that on the very day on which the instructions were issued, they were disobeyed? " (Laughter.)

THE HON. SRI R. RAGHAVA MENON:—" I have not come across any such cases. I shall immediately look into them, if such cases are brought to my notice."

SRI N. S. VARADACHARI:—" May I ask, Sir, whatever may have happened in the past, whether the Government would consider revising its policy in respect of issuing permits for the purchase of new cars? "

THE HON. SRI R. RAGHAVA MENON:—" Strict instructions have been issued by the Government to the Provincial Motor Transport Controller to follow a definite policy in regard to the issue of permits for new cars and the Controller will no doubt see that the permits are given equitably in deserving cases."

MR. H. S. TOWN:—" May I know, Sir, how many new cars originally supplied to these officers have since been sold and replaced by other new cars? "

THE HON. SRI R. RAGHAVA MENON:—" I want notice, Sir."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I ask the Hon. the Minister whether the desirability of revising the old policy in order to see that non-officials doing essential services are given priority in the matter of issue of permits, will be considered? "

THE HON. SRI R. RAGHAVA MENON:—" I can at once assure the hon. Member that all non-officials doing essential duties requiring cars will be put on a par with officials."

SRI H. SITHARAMA REDDI:—" Will the Government give priority to the Members of the Assembly? "

THE HON. SRI R. RAGHAVA MENON:—" That question will also be considered."

AN HON. MEMBER:—" Is it a fact, Sir, that hitherto officials have been preferred to non-officials in the matter of issue of permits? "

THE HON. SRI R. RAGHAVA MENON:—" I think, Sir, it is not so, so far as I am aware."

DR. S. SUBRAHMANYA AYYAR:—" On a point of information, Sir, may I say that it has been refused in my case three times." (Laughter.)

SRI P. NATESAN:—" Will the Hon. the Minister consider the desirability of scrapping up all previous applications and issuing revised instructions in regard to applications for new cars received in future? "

THE HON. SRI R. RAGHAVA MENON:—" The Provincial Motor Transport Controller will deal with each application

[31st July 1946]

according to its merit and see that no hardship or injustice is caused. He will apply the rules justly in deciding each case."

SRI N. S. VARADACHARI:—"Whenever permits are given to purchase new cars in place of the old cars, of the 1940 or later models, will the Government issue orders to see that these old cars are surrendered to the Controller, to be sold according to controlled prices, and not at fancy prices by the previous owners?"

THE HON. SRI R. RAGHAVA MENON:—"Instructions have been given to the Controller in regard to this matter also."

B. POCKER SAHIB BAHADUR:—"May I request the Hon. the Minister to place before the House the rules which prescribe the order of priority as regards the grant of permits and to state what difficulty there is in placing on the table of the House, the list of priorities according to the rules?"

THE HON. SRI R. RAGHAVA MENON:—"I do not follow what the hon. Member means, by 'a list of priorities'."

B. POCKER SAHIB BAHADUR:—"I want the Hon. Minister to place on the table of the House the rules which prescribe the order of priority as regards grant of permits."

THE HON. SRI R. RAGHAVA MENON:—"This will be done as far as possible."

SRI K. VARADACHARI:—"Will the Government see that the Controller does not issue permits for both the husband and his wife simultaneously for the purchase of a car by each of them?" (Laughter.)

THE HON. SRI R. RAGHAVA MENON:—"Suppose they are living in different places?" (Renewed laughter.)

DR. S. SUBRAHMANYA AYYAR:—"May I know what is the policy of Government in the matter of the control of the soaring prices of second-hand cars?"

THE HON. SRI R. RAGHAVA MENON:—"If there are people who have got too much money, they may purchase second-hand cars at whatever fancy price they can pay and the Government cannot control them."

SRI P. NATESAN:—"Is it not absurd to give an answer like that, particularly when there is an anti-profiteering ordinance which does not allow more than 20 per cent on the original price?"

THE HON. SRI R. RAGHAVA MENON:—"That is a matter which the Government will look into in due course."

SRI P. NATESAN:—"May I request the Government to kindly revise their policy about the sale of second-hand cars and see that second-hand cars are not sold at fantastic prices?"

THE HON. SRI R. RAGHAVA MENON:—"The Government will certainly consider the question."

[31st July 1946]

DR. S. SUBRAHMANYA AYYAR:—"Will the Government also consider the desirability of enforcing a rule that second-hand cars should be sold only through licensed dealers or agents?"

THE HON. SRI R. RAGHAVA MENON:—"That question will also be considered."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know, Sir, whether the Government are aware that there are officials and non-officials having cars already who are still applying for permits for the purchase of cars?"

THE HON. SRI R. RAGHAVA MENON:—"The Government are not aware of such cases."

DR. S. SUBRAHMANYA AYYAR:—"In view of these serious allegations, will the Government consider the desirability of appointing a Committee to go into the whole question and suggest remedies and evolve new rules and regulations?"

THE HON. SRI R. RAGHAVA MENON:—"A Committee is not necessary. The Controller can deal with the matter quite as well with Government instructions."

UNSTARRED QUESTIONS.

Corruption among Commercial Tax officials.

1 (24) Q.—P. K. MOHIDEEN KUTTI SAHIB BAHADUR: Will the Hon. the Minister for Revenue be pleased to state—

(a) whether it is a fact that corruption is rampant among Commercial Tax officials; and

(b) what the Government propose to do in the matter?

A.—It is likely that there is some corruption in the department mentioned. But its exact extent is not known. A machinery has been created to tackle the question of corruption in all departments. If specific instances of corruption are brought to the notice of the Government suitable action will be taken.

Effect of the strike in the South Indian Railway on the movement of foodstuffs.

2 (28) Q.—SRI K. ANANDA NAMBIYAR: Will the Hon. the Minister for Motor Transport and Food be pleased to state the extent to which the movement of foodstuffs has been affected by the recent strike in the South Indian Railway?

A.—No serious delay in movement of foodstuffs was caused by the recent strike on the South Indian Railway as it was of very short duration and incomplete in effect.

Grievances of teachers of elementary schools in Malabar.

3 (64) Q.—K. M. SEETHI SAHIB BAHADUR: Will the Hon. the Minister for Education be pleased to state—

(a) whether the Government have received representations from the teachers of elementary schools in Malabar regarding their various disabilities;

[31st July 1946]

(b) which are the bodies that have made such representations;

(c) what are the grievances set forth in those representations; and

(d) what action has been taken or is proposed to be taken by the Government on those representations?

A.—(a) & (b) The Government have received representations from various associations of teachers in Malabar and other districts regarding grievances of teachers in elementary schools.

(c) The representations mainly relate to—

(i) increase in salaries;

(ii) grant of dearness allowance at Government rates with retrospective effect; and

(iii) payment of monthly grants.

(d) The matter is under consideration.

Possibilities for irrigation in Malabar.

4 (69) Q.—K. M. SEETHI SAHIB BAHADUR: Will the Hon. the Minister for Public Works be pleased to state—

(a) whether the Government have explored the possibilities for irrigation in Malabar especially in the taluks of Ernad, Walluvanad, Ponnani and Palghat;

(b) when was the last enquiry made in that direction and by whom; and

(c) whether the Government propose to set up a small committee to explore the possibilities for irrigation in the abovesaid taluks and also other parts of Malabar?

A.—(a) Yes.

(b) & (c) The hon. Member's attention is invited to the answer to clause (b) of starred question No. 21 (12).

Strength, etc., of the Malabar Special Police.

5 (70) Q.—K. M. SEETHI SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

(a) the present strength of the Malabar Special Police;

(b) the communities to which the rank and file and the officers belong; and

(c) the number of persons in the force belonging to each community, showing sepoy and officers separately?

A.—(a) Six Officers, 17 Subadars including Subadar-Major 50 Jamadars, 13 Havildars-Major, 58 Havildars, 91 Naiks, 175 Lance-Naiks and 1,596 Constables.

(b) & (c) The Government have no information and consider that it would serve no useful purpose to collect such figures.

31st July 1946]

Appointment as village munsifs of persons who have passed the Village Magistrate's Test.

6 (95) Q.—SRI S. NAGAPPA: Will the Hon. the Minister for Revenue be pleased to state—

(a) the number and names of persons who passed Village Magistrate's Test held by the Government, yearwar and district-war, from 1930 onwards;

(b) whether all those people have been absorbed as village munsifs by the Government;

(c) if not, why not; and

(d) if so, when?

A.—(a) to (d) The Government have no information. The collection and compilation of the information would involve an amount of labour and time which, in the opinion of the Government, would be quite disproportionate to any useful purpose which might be served.

Representation from the managers of aided Moplah schools in Ernad taluk.

7 (115) Q.—K. M. SEETHI SAHIB BAHADUR: Will the Hon. the Minister for Education be pleased to state—

(a) whether the Government have received a representation from the managers of aided Moplah schools in Ernad taluk setting forth their grievances and making some demands helpful to the advancement of Moplah education;

(b) what are the demands made in that representation; and

(c) what action the Government propose to take on the representation?

A.—(a) & (b) Representations have been received from managers of aided elementary schools for Mappillas in the Ernad taluk containing the following requests:—

(1) that they may be given a special grant of at least 25 per cent of the assessed grant for meeting expenditure on buildings and equipment;

(2) that provision may be made for appointment of Mulla teachers in all Mappilla elementary schools and that their salaries may be increased to Rs. 15 or Rs. 20 per mensem;

(3) that free and compulsory elementary education may be introduced for whole of the Ernad taluk; and

(4) that provision may be made for supply of midday meals and books and slates for poor Mappilla pupils.

[31st July 1946]

(c) *Request* (1).—The question of allowing a separate grant to managers of aided elementary schools towards expenditure on rent and equipment is under the consideration of Government.

Request (2).—In 1943 the Government approved a proposal of the Director of Public Instruction that aided elementary schools for Mappilla children might be permitted to employ local Musaliars on their staff for imparting religious instruction and that a grant not exceeding Rs. 60 per annum for each school might be paid. This proposal was sanctioned only as an experimental measure and it was restricted to South Malabar. The question of its continuance and extension to North Malabar is to be decided after a report is received from the Director of Public Instruction in September next.

Request (3).—In 1926 elementary education was made compulsory in selected areas of Ernad taluk. Three additional villages in the taluk were chosen for the introduction of compulsory elementary education last year. A few more villages will be selected in the current year and in due course elementary education will be made compulsory in the whole taluk, as part of the programme for the whole Province.

Request (4).—Midday meals are supplied to children attending schools in areas where elementary education has been made compulsory since 1945-46. The same is the case in regard to the supply of books and slates also.

Levy of heavy sales tax on licence-holders in Anakapalle and Rajahmundry.

8 (150) Q.—SRI D. V. RAMASWAMI: Will the Hon. the Minister for Revenue be pleased to state—

(a) whether representations have been made regarding the levy of heavy sales tax on licence-holders in Anakapalle and Rajahmundry contrary to the practice in vogue of exempting them from the inception of the Sales Tax Act till 1944; and

(b) whether the Government propose to accord favourable consideration in case of past irregularities in the accounts of commission agents as requested by the Merchants' Association, Anakapalle and Chambers of Commerce, Rajahmundry and Madras (Andhra region)?

A.—(a) Yes, representations have been made but exemption from the sales tax applies only to such transactions as are carried out in accordance with the terms and conditions of the licence.

(b) The Government will consider the question on its merits.

31st July 1946]

Bifurcation of the revenue district of Vizagapatam.

9 (150) Q.—SRI D. V. RAMASWAMI: Will the Hon. the Minister for Revenue be pleased to state—

(a) whether any progress has been made in the matter of bifurcating the revenue district of Vizagapatam; and

(b) if so, what steps have been taken so far?

A.—(a) & (b).—Proposals for the bifurcation of the revenue district of Vizagapatam have been received from the Board of Revenue and are under the consideration of the Government.

II.—ANNOUNCEMENT BY THE HON. THE SPEAKER RE THE RESULT OF ELECTION TO THE CONSTITUENT ASSEMBLY.

12 noon.

Mr. SPEAKER:—“As a result of the election for the General Seats of the Constituent Assembly held on the 22nd July 1946, the following persons have been declared duly elected as the representatives of the Province for the purposes of paragraph 19 of the statement^a by the Cabinet Delegation and His Excellency the Viceroy, dated the 16th May 1946:—

1 Sri O. V. Alagesan.	22 Sri S. Nagappa.
2 Mrs. Ammu Swaminathan.	23 „ P. L. Narasimha Raju.
3 Sri M. Ananthasayanam Ayyangar.	24 „ C. Perumalswami Reddi.
4 „ K. Chandramouli.	25 The Hon. Sri T. Prakasam.
5 Mrs. Dakshayani Velayudan.	26 Mr. S. H. Prater.
6 Rev. Jerome D'Souza.	27 The Raja of Bobbili.
7 Mrs. G. Durgabai.	28 Sri C. Rajagopalachariar.
8 Sri B. Gopala Reddi.	29 „ T. A. Ramalingam Chettiyar.
9 The hon. Diwan Bahadur Sir N. Gopalaswami Ayyangar.	30 „ Ramanath Goenka.
10 Sri D. Govinda Doss.	31 „ O. P. Ramaswami Reddiyar.
11 „ P. Kakkan.	32 „ N. G. Ranga.
12 „ K. Kamaraja Nadar.	33 „ N. Sanjeeva Reddi.
13 „ V. C. Kesava Rao.	34 „ K. Santhanam.
14 „ T. T. Krishnamachari.	35 „ B. Shiva Rao.
15 Diwan Bahadur Sir Alladi Krishna-swami Ayyar.	36 „ H. Sitarama Reddi.
16 Sri L. Krishnaswami Bharathi.	37 Dr. B. Pattabhi Sitaramayya.
17 „ P. Kunhiraman.	38 Sri U. Srinivasa Mallayya.
18 „ K. Madhava Menon.	39 Dr. P. Subbarayan.
19 „ V. I. Muniswami Pillai.	40 Sri C. Subrahmanyam.
20 Kummararaja Sir M. A. Muthiah Chettiyar.	41 Dr. V. Subrahmanyam.
21 Sri V. Nadimuthu Pillai.	42 Sri M. C. Veerabahu.

“I have also to inform the hon. Members of the House that the results of this election as well as the names of the Muslim Members declared previously elected will be published to-day in an extraordinary issue of the *Port St. George Gazette*.

“At the preliminary meeting of the Provincial Representatives to be held in pursuance of paragraph 19 (iv) of the statement, dated the 16th May 1946, by the Cabinet Delegation and His Excellency the Viceroy, each Member should present a document of credentials signed by me as the Speaker of the Assembly which elected him. The letters of credentials are ready for delivery and the Members of the Legislature elected to the Constituent Assembly

^a Vide pages 7-16, Volume II, dated 22nd July 1946.

[Mr. Speaker] [31st July 1946]

may receive their letters of credentials from me in my Chambers either in person or through an agent duly authorized in writing. In the case of those who are not Members of the Legislature, letters of credentials will be sent to them in the usual course."

III. PRESENTATION OF BUDGET FOR THE YEAR 1946-47.

MR. SPEAKER:—"The Hon. the Premier and Finance Minister will now present the Budget for the year 1946-47."

THE HON. SRI T. PRAKASAM:—Sir, I present to the House the preliminary accounts for 1945-6 and the Budget Estimate for 1946-7.

"*Introductory remarks.*—The first Congress Ministry in the Madras Presidency resigned office in October 1939 after having been in office for about two years and three months. The Congress Party was again returned to power in this Province at the recent elections. The present Government assumed office on the afternoon of the 30th April 1946. The Treasury Bench is thus again occupied by persons elected by and wholly responsible to the people of the Province.

"2. *Revised Budget for 1946-7.*—The budget for 1946-7 which was authorized by His Excellency the Governor under the Proclamation issued under section 93 of the Government of India Act, 1935, and published last March lapsed with the revocation of the Proclamation and the assumption of office by the Ministry. The Ministry has now to present to the Legislature for voting a budget for the full year 1946-7, though it assumes responsibility only for the expenditure during the portion of the year subsequent to the revocation of the Proclamation on 30th April 1946. The figures furnished by the Accountant-General, Madras, for the expenditure incurred in April 1946 whilst the section 93 proclamation was in force, are exhibited separately in the budget, but the expenditure has been merged in the full year's estimates now presented to the Legislature.

"In preparing the revised budget, the Government have taken into account various factors that necessitate material changes in the estimates of revenue and expenditure adopted in the budget previously published and have made such other changes as were possible within the short time available after the assumption of office by the Ministry in order to give effect to the policy of the Congress.

"3. *Preliminary accounts, 1945-6.*—Before considering the budget estimates for 1946-7, a brief reference may be made to the financial results of the year 1945-6. Only the preliminary accounts figures for 1945-6 are available now. These are liable to modification as a result of further adjustments between the revenue section of the accounts and the capital, debt and deposit sections. On the basis of the figures now available the actual revenue in 1945-6 was Rs. 47,86.40 lakhs, i.e., Rs. 6,61.11 lakhs more than

31st July 1946] [Hon. Sri T. Prakasam]

the budget estimate, and the expenditure (excluding the net outlay on State Trading Schemes and the transfer to the Revenue Reserve Fund) was Rs. 32,65.05 lakhs, i.e., Rs. 3,26.11 lakhs more than the budget estimate. The increase in revenue occurred mainly under Excise, General Sales Tax, Income-tax, Stamps and Receipts under the Motor Vehicles Acts. The additional expenditure occurred largely under the heads General Administration, Police, Civil Works and Other Taxes and Duties (i.e., Commercial Taxes). The reasons for the increases are given in the Budget Memorandum. Against a net outlay of Rs. 1,06.20 lakhs anticipated in the budget estimate for 1945-6 under State Trading Schemes, there was actually a net credit of Rs. 2,29.20 lakhs due mainly to the realization in 1945-6 of amounts due for sales effected in 1944-5 and to payment not having been made in the year for certain purchases made in 1945-6. As a result of the improvement in revenue and the net credit arising from the transactions relating to State Trading Schemes, it was possible to transfer a sum of Rs. 17.50 lakhs to the Revenue Reserve Fund against Rs. 10.00 lakhs provided in the budget estimate.

"The capital expenditure outside the revenue account was Rs. 87.77 lakhs against the budget estimate of Rs. 1,75.62 lakhs. The position under debt, deposit, advance and remittance heads showed an improvement of over Rs. 1.48 lakhs. This is mainly due to the fact that, as usual, the budget estimate for 1945-6 did not take credit for the new loan of Rs. 3 crores that was actually raised in the open market during the year to finance capital expenditure and loans and advances to local bodies and agriculturists.

"The year 1945-6 closed with a cash balance of Rs. 3,10.09 lakhs against Rs. 50.11 lakhs anticipated in the budget estimate. In addition to the cash balance of Rs. 3,10.09 lakhs, there were at the end of 1945-6 securities worth Rs. 29,65.22 lakhs in the Cash Balance Investment Account and Rs. 14,11.38 lakhs in the Revenue Reserve Fund.

"4. *Budget estimate, 1946-7.*—Before entering into the details of the estimated revenue and expenditure of the current year, I shall mention certain general features of the budget.

"5. *General food position.*—The general food situation in the Province continues to be difficult. The havoc caused by the cyclone of October 1945 in the northern surplus districts, the failure of the north-east monsoon in certain central districts and the insufficient supply of water for irrigation of the Cauvery Delta resulted in a progressive decline of rice stocks in the Province. Imports of rice from outside the Province were not on a sufficient scale to offset appreciably the losses due to natural disasters in the Province. Food distribution therefore became difficult. As against a total deficit of about 10 lakhs tons of rice during the current crop year, the Government of India have so far allotted only about 2½ lakhs tons in the form of rice, including an allotment of about 1 lakh tons of rice from outside India. But they have also allotted fairly large quantities of wheat, flour and maize and some millets in

[Hon. Sri T. Prakasam] [31st July 1946]

order to make up the deficiency as far as possible. As part of their measures for meeting the food crisis, the Government have launched a vigorous procurement drive throughout the Province. Village, Taluk and District Committees consisting of influential non-officials are being formed to give assistance in regard to procurement and in ensuring equitable distribution of food. A separate Public Relations Branch has been formed in the Civil Supplies Department to popularise the use of unfamiliar food-stuffs such as wheat. The Government have also sanctioned the purchase of transport vehicles and machinery at a total cost not exceeding Rs. 12.75 lakhs from surplus Army stores, for use in connexion with the food production and procurement drive. The south-west monsoon of 1946 is favourable. If it is followed, as we must hope and pray, by a favourable north-east monsoon, the food position in the Province should rapidly become more satisfactory.

"The Government are endeavouring to see that the prices of essential foodstuffs and firewood are kept as low as possible and that adequate incentives are given for the cultivation of food-crops, by granting subsidies on the sales of certain foodstuffs and by giving bonuses in respect of certain food-crops, etc.

"6. *Rationing of foodgrains.*—Statutory rationing of foodgrains is now in force in all the municipal towns of the Province and their suburban areas, the whole district of Malabar and the Chirala and Perala villages in Guntur district. Non-statutory rural rationing was first introduced in the deficit districts of Vizagapatam, Tinnevely, Ramnad, Coimbatore, the Nilgiris and South Kanara; owing to the difficult food position it has recently been extended to all parts of the Province where statutory rationing is not in force. Adequate staff has been sanctioned for the enforcement of the rationing of foodgrains under both methods.

"7. *Grow More Food Campaign.*—The Government have taken various measures to promote increased production of food. They have sanctioned an accelerated scheme for sinking new wells and repairing old ones. The scheme was introduced in all the districts of the Province except the Nilgiris. Under the scheme, half the cost of sinking a new well or repairing an old well is given as a subsidy, subject to a maximum of Rs. 300 or Rs. 310 for each new well and a maximum of Rs. 160 in respect of repairs to old wells. By the end of June 1946 applications involving the payment of subsidies amounting to Rs. 3.14 lakhs for new wells and Rs. 77 lakhs for old wells had been received and the amount of subsidies sanctioned by that date was Rs. 1.88 lakhs for new wells and Rs. 48 lakhs for old wells. The sinking of wells is on the whole costlier and more difficult in the Ceded Districts than elsewhere. Owing partly to these special circumstances and partly to the need to provide employment for labourers during the coming months when there may be famine, the Government have sanctioned a modified scheme for the Ceded Districts, with effect from 24th June 1946, so as to provide for the payment of subsidy up to Rs. 500 for a new well and Rs. 300 for an old well. As the necessary data were not available in time, it was not possible to

31st July 1946] [Hon. Sri T. Prakasam]

include in the revised budget the additional provision required for the subsidies mentioned above. The Government have also sanctioned the grant of bonus to cultivators for encouraging cultivation of short-term cereal crops during March and April 1946, free distribution of manure in certain taluks in Malabar and South Kanara districts to lands cultivated with short-term paddy sown in the months of April, May and June 1946, the grant of bonus to ryots for short-term paddy and millets to be delivered in September, October and up to 15th November 1946 and bonus for delivery of paddy, rice, etc., during June and July 1946.

"The Province was even in normal times deficit in foodgrains. While the population is growing, food production is more or less stationary. It is, therefore, necessary to intensify the assistance to the production of more foodgrains to bridge the ever-widening gap. While planning to increase the area under cultivation and introducing better methods, the Government propose to concentrate immediately on improving the yield in rice surplus areas by providing more manure and better drainage facilities as this is the best way of securing quick results.

"8. *Prohibition.*—As a first instalment, the Government have ordered that prohibition should be re-introduced in the districts of Salem, Chittoor, Cuddapah and North Arcot with effect from 1st October 1946 and that the enforcement of prohibition should be entrusted to the Police with the assistance of such Excise staff as they find necessary for the purpose. The loss of revenue on account of this decision is estimated at Rs. 2.30 crores for a full year.

"I am saying something now which is not found in the speech printed and circulated to hon. Members. The programme of prohibition will be completed in the whole Province in three years and the Sales Tax revenue will be set apart for that purpose from now.

"9. *Village Reconstruction and Harijan Uplift.*—The Government have decided to undertake certain measures of rural reconstruction and pursue them vigorously. To start with, they propose to make a firka in each district self-sufficient in the matter of food and clothing. Each selected firka will be in charge of a Firka Development Officer of the rank of a Deputy Tahsildar and under him there will be one Village Development Officer of the rank of a Revenue Inspector for each of the four or five groups of villages into which each selected firka will be divided. The necessary subordinate staff will be provided for each Firka Development Officer and Village Development Officer.

"A scheme for the production of khadi in each of the selected firkas is ready and will be put into operation almost at once. The special feature of the scheme is that not only will yarn be spun in the villages but it will as far as possible be woven into cloth in the same areas. A sum of Rs. 3 crores has been included in the budget for the purpose. A further sum of Rs. 1 crore has been included for measures aiming at the uplift of Harijans

[Hon. Sri T. Prakasam] [31st July 1946]

and the removal of their disabilities. A special fund will be constituted for financing these schemes and contributions will be made to it from current revenues.

"I may tell hon. Members in this connexion that it is not a question of voting a lump-sum for the purpose because it is against the spirit of the rules which have been examined by the Finance Department. Because of that difficulty we are earmarking a sum of Rs. 4 crores for this purpose and the amounts required from time to time will be drawn from that fund for the promotion of these objects.

"10. *Education*.—Apart from the additional provision of grants to managements of aided primary schools to enable them to pay higher dearness allowance at Rs. 16 per mensem to their teaching staff and for the supply of midday meals to poor children attending primary schools in selected areas, the budget includes a provision of Rs. 22 lakhs for the extension of compulsory primary education to further selected areas in the current year. To provide teachers for the increasing number of primary schools, the Government have also planned to train 4,000 additional teachers and have arranged for the payment of enhanced rates of stipends to teachers undergoing training. The Government are aware of the need for raising the status of the teachers and are actively considering proposals with regard to raising their status. As a token of their sympathy towards the low-paid teachers in aided primary schools, the Government have decided to give from 1st August 1946 an increment of two rupees a month on the grant paid in respect of each teacher in the aided primary schools because these teachers are about the lowest paid in the ladder. This decision was taken after the budget estimate was fixed and involves an extra cost of Rs. 7½ lakhs in the current year and Rs. 13 lakhs in a full year.

"The budget includes also provision for the payment of grant to the Andhra University towards the cost of the Chancellery and Administration buildings and an increased block grant to the Annamalai University, for the opening of Government Engineering Colleges at Cocanada and Anantapur, and for the opening of a Government College for Muslim girls at Madras and of the B.Sc. course in the Government Muhammadan College. Provision has been made also for the raising of the Coimbatore Government Arts College to a First Grade College and steps will be taken to place the Coimbatore College of Technology on a permanent basis.

"I would like to indicate here the policy which the Government intend to pursue with regard to education. Several religious endowments have surplus funds regarding the use of which there is no settled policy. The Government will take necessary steps to ensure that all surplus funds are used for education by the opening of new institutions.

"Basic education on the lines expounded by the Hindusthani Talimi Sangh will be adopted, and it is expected that gradually our schools and training schools will be remodelled on those lines.

31st July 1946]

[Hon. Sri T. Prakasam]

"University education also needs much reform. Students on completion of their high school studies go to colleges as a matter of course. It is necessary to divert them to various professions so that many of them need not aimlessly go in for a college education. The result of the present system of education has been a fall in the standard of University achievement. Most of our graduates have to content themselves with filling clerical posts under Government or entering the overcrowded profession of law. The University education is really unnecessary for most of the professions that men and women seek to fill and should be taken up by young men and women who have the capacity to benefit from it and contribute to the progress and development of the country by research, initiative and opening up of fresh fields of activities. The Government propose to take up the re-organization of education in right earnest in the near future. In the reorganization, the proper place and importance will be given to the regional language.

"11. *Medical*.—The Government have sanctioned the opening of two new Government Medical Colleges in the current year—one at Madura and the other at Guntur. They propose to provide facilities for the training of 200 additional midwives, from 1946-7. Arrangements have also been made for opening, as and when necessary, 200 hospitals with 20 beds each in certain districts to meet the emergency which may arise as a result of the deterioration of the health of the people due to food shortage. The Government also propose to develop the practice of the indigenous systems of medicine, such as Ayurveda, Siddha and Unani and also of homœopathy and naturopathy, in this Province and education in those systems on systematic and up-to-date lines. A sum of Rs. 5 lakhs has been provided in the budget for this purpose.

"12. *Public Health*.—Provision has been made for two anti-malarial units in the revised budget, one in the Agency tracts of Vizagapatam district and the other in the Agency tracts of East Godavari district. The Government have also made suitable preparations for combating epidemics that may break out as a result of food scarcity. They have also arranged for the purchase of multi-vitamin tablets and other preparations for use in treating food deficiency diseases, at a cost of Rs. 18 lakhs.

"13. *Development of rural water-supply*.—There is a great need for the acceleration of the rural water-supply programme in the Province in general and in the famine-affected Ceded Districts in particular. It is proposed to transfer Rs. 30 lakhs to the fund for the development of rural water-supply to meet increased expenditure on rural water-supply works. 12-30 p.m.

"14. *Municipal water-supply and drainage schemes*.—In addition to the municipal water-supply and drainage schemes for which funds are provided in the budget, certain other schemes under this head are under active consideration and the Government hope to sanction some of these in the course of the current year and present a supplementary demand in due course for the funds required.

[Hon. Sri T. Prakasam] [31st July 1946]

" 15. *Housing*.—The Government are well aware of the difficulties arising from the acute shortage of houses in the Province and are carefully considering what measures should be taken to improve the position. A proposal to undertake legislation to make it possible to continue control of house-rents after the expiry of the Defence of India Rules is also receiving attention.

" 16. *Highways Department and road works*.—The previous Government decided that local bodies should be relieved of the responsibility for the maintenance and development of important lines of communications and 10,000 more miles of roads were taken over by the Government from 1st April 1946. To maintain the roads taken over from local bodies and to execute the post-war development programme, the Highways Department was constituted from 1st April 1946. The present Government are, however, reviewing the position in view of the paramount need for increased production of food and other essential articles and are not in favour of spending large amounts on road works. They would prefer to spend larger amounts on irrigation works and other productive schemes, while setting apart adequate funds for improvements and maintenance of existing roads, and for construction of new roads wherever necessary. The Government have also considerably curtailed the programme of purchase of mechanical equipment and contemplate the revision of the entire post-war programme for road development. They propose that the staff that will be retrenched from the Highways Department should be used for the investigation of important irrigation and electricity schemes which has been held up for want of engineering staff.

" 17. *Irrigation, etc., works*.—Special attention will be paid to the restoration of minor irrigation works by executing the necessary repairs and by deepening them, and irrigation channels will be put in order. Work on Major Projects such as the Tungabhadra Project and the Machkand Project will be continued and progress speeded up, and the investigation of the Ramapadasagara Project will also continue.

" Several proposed irrigation schemes were abandoned in the past on the ground that they would not yield a minimum financial return, although they were otherwise considered to be sound. With a view to expanding the area under food crops it will be necessary to examine some of these schemes again as well as new projects. The Government are considering a revision of their irrigation policy.

" 18. *Local Administration*.—In the sphere of Local Administration, the Government have decided to enlarge the powers of Municipalities and Local Boards and to remove certain restrictions which have been placed on them during recent years, so as to enable them to function more efficiently in meeting the needs and providing the amenities of civic life in our towns and villages. The Village Panchayat Act, passed this year before the present Ministry took office, will also be thoroughly recast, and Panchayats will be reorganized so as to enable them to serve

31st July 1946] [Hon. Sri T. Prakasam]

as autonomous bodies administering village affairs. Necessary legislation to achieve these objects will be prepared and placed before the House in the course of the year.

" 19. *Famine relief*.—The Government decided to speed up the well-digging programme and repairs to irrigation works and to increase the number of Public Works Department and District Board works in the famine-affected districts in order to provide employment for the people. One hundred and sixty-five works have been sanctioned in Anantapur and sixty-four in Bellary. Fodder depots have also been opened in these districts to relieve the fodder scarcity. Gratuitous relief in the shape of cash and grain is also distributed to infirm and decrepit persons in the affected villages. Large consignments of condensed milk have been supplied to the Collectors of these districts for distribution to expectant and nursing mothers and children. Remissions of land revenue have been granted on a liberal scale in the affected areas. The budget provides for an expenditure of Rs. 145 lakhs on famine relief measures and it is proposed to make a net withdrawal of Rs. 39 lakhs from the Famine Relief Fund to meet a part of this expenditure.

" The Ceded Districts are a tract constantly liable to famine and considerable sums are spent year after year on unproductive works to provide famine relief. Measures for the permanent development of the area are long overdue. The Government propose to address themselves immediately to this task by diverting a portion of the provision for famine relief and by further grants, if necessary. A geological survey will be undertaken and the abundant and valuable mineral wealth of the tract will be utilized. An Economic Development Board has been in existence for some time and has made a number of proposals. It will be strengthened and reorganized and provided with a high-powered executive working directly under the Government. Its duty will be to effect the suggested improvements as quickly as possible with the aid of special grants placed at its disposal.

" 20. *Post-war development schemes*.—The Government have already sanctioned a number of post-war development schemes and other schemes are under detailed examination. The total provision included in the budget for post-war development schemes is Rs. 11,33.41 lakhs, of which Rs. 7,82.60 lakhs is debitable to the revenue account.

" In planning it is necessary to take note of the fact that a number of articles which can be produced in the Province, are imported, resulting in loss of money and loss of avenues for employment. Bangles are an instance in point; bangles worth Rs. 50 lakhs are imported annually into the Province. They are articles which can be easily manufactured here and in fact there was a flourishing trade in them in some areas till a few years ago.

" Trade and Commerce complain that the existing channels have been interfered with and one opening after another is closed to them. But the kind of business so far has largely been of the type which takes no risks, does not add to the real wealth of the Province

[Hon. Sri T. Prakasam] [31st July 1946]

and aims at making money in easy ways like commission agency, money-lending, etc. The Government in future planning intend to open up new lines along which trade and commerce may prosper and help the real development of the Province. They propose to establish an Industrial Finance Corporation on the lines of the Industrial Finance Corporations recently formed in the United Kingdom and make it responsible for the proper industrial development of the Province. It will work independently of the Government but subject to their control.

" 21. *Judiciary and Executive and Jails.*—The budget also includes token provisions of Rs. 2 lakhs for the separation of the Judiciary and Executive and Rs. 1 lakh for the improvement of sub-jails in the Province.

" 22. *Revision of rates of pay.*—The Government are considering carefully the question of improving the rates of pay of the lower grades of Government servants and servants of local bodies. The Government hope to pass orders soon on the memorials of the village officers and servants asking for increased remuneration which are now under their active consideration.

" 23. *Reorganization of land systems.*—It is the intention of the Government to bring in legislation as early as possible regarding the Estates Land Act and the Malabar Tenancy Act. The examination of the Land Tenures in the other areas of the Province with a view to reform has also been taken up.

" 24. *Revenue Reserve Fund.*—In recent years there were large surpluses in the revenue account, and they were transferred to the Revenue Reserve Fund in order that the moneys so accumulated might be drawn upon to meet expenditure on post-war development schemes and to cover revenue deficits. On 1st April 1946 there was a balance of Rs. 31,40 lakhs in the Fund in cash and securities. In order to balance the budget after meeting the large expenditure on food subsidies, providing Rs. 4 crores for village reconstruction and Harijan uplift and providing for a number of other new schemes including post-war development schemes, it is proposed to withdraw Rs. 8,94 lakhs from the Revenue Reserve Fund.

" 25. *Budget Estimate, 1946-7, Summary.*—Coming now to the actual figures of estimated revenue and expenditure to be met from current revenues in 1946-7, the position is as follows:—

	Preliminary Accounts, 1945-6.	Budget Estimate, 1946-7.
	RS. LAKHS.	RS. LAKHS.
Revenue—		
Normal	47,86.40	48,48.92
Transfer from the Revenue Reserve Fund. ..	..	8,94.00
Total ..	47,86.40	57,42.92
Expenditure on revenue account excluding (a) net outlay on State Trading Schemes and (b) transfer to the Revenue Reserve Fund. ..	32,65.05	50,53.58
Net outlay on State Trading Schemes ..	—2,29.20	6,89.19
Transfer to the Revenue Reserve Fund ..	17,50.00	..
Total ..	47,85.85	57,42.77
Surplus ..	.55	.15

31st July 1946] [Hon. Sri T. Prakasam]

" 26. *Revenue.*—The total revenue anticipated for 1946-7 (excluding the transfer from the Revenue Reserve Fund) exceeds the preliminary accounts figure for 1945-6 by Rs. 62.52 lakhs. The Government of India have offered to give "advance grants" (i.e., advances against the grants that will be allocated to this Province by the Government of India for post-war development in the five years from 1947-8 on principles which have not yet been finally settled) towards the expenditure on unproductive post-war development schemes incurred in 1945-6 and likely to be incurred in 1946-7. The budget takes credit for Rs. 4,48 lakhs on this account. The merging of the surcharges with the basic rates of Income-tax will increase the Provinces' share of Income-tax receipts and the Madras Government's share in 1946-7 is expected to be Rs. 54.60 lakhs more than in 1945-6. The budget also anticipates larger receipts under Land Revenue, Agriculture and Electricity Schemes. On the other hand the budget allows for a loss of revenue of about Rs. 1.15 lakhs under Excise on account of the reintroduction of prohibition in the districts of Salem, Cuddapah, Chittoor and North Arcot from 1st October 1946 and a further decrease of Rs. 2.02 lakhs under Excise on account of the anticipated fall in wages and employment due to cessation or reduction of war-time activities. Decreases are also anticipated under Stamps, General Sales Tax, Entertainment Tax and Betting Tax due to the anticipated diminution in war-time prosperity, under Forest as a result of the stoppage of supply of timber and hay for war purposes and under Civil Defence on account of the absence of certain special credits which accrued in 1945-6 due to the sale of A.R.P. stores and recovery of arrears from the Government of India on account of poolable expenditure and coastal patrols.

" 27. *Expenditure.*—Including the net outlay on State Trading Schemes, the budget provides for an expenditure of Rs. 57,42.77 lakhs, i.e., Rs. 27,06.92 lakhs more than the preliminary accounts figure of expenditure for 1945-6, excluding the transfer to the Revenue Reserve Fund which was not outright expenditure. Of this large increase of Rs. 27,07 lakhs, over Rs. 9.18 lakhs is due to State Trading Schemes, the net outlay on which in 1946-7 is expected to be Rs. 6.89 lakhs as a result of heavy subsidies on food against the net credit of Rs. 2.29 lakhs in 1945-6. The establishment and other charges incurred in connexion with the intensive procurement and rationing of foodgrains and free distribution of milk to school children and priority consumers in the mufassal account for an increase of Rs. 2.80 lakhs, while the schemes for village reconstruction and Harijan uplift are responsible for an increase of Rs. 4.00 lakhs. There is an increase of over Rs. 3.74 lakhs under Civil Works, which arises mainly from the taking over of a number of roads from local bodies, the constitution of a new Highways Department and the execution of works included in the post-war development plans and other works held up during the war. Education is responsible for an increase of over Rs. 1.99 lakhs on account of provision for payment of larger grants to managements of aided schools towards the cost of dearness allowance to their teaching staff, for supply of midday meals to poor children attending primary schools and for a number of new schemes such

[Hon. Sri T. Prakasam]

[31st July 1946]

as the opening of Government Engineering Colleges at Cocanada and Anantapur and the training of 4,000 additional teachers. Famine contributes an increase of Rs. 1.01 lakhs, after allowing for the net transfer to be made from the Famine Relief Fund to meet a portion of the expenditure. There are increases on a smaller scale under a number of other heads, notably Irrigation, Police, Public Health, Agriculture and Industries.

“Detailed explanations for the variations between the preliminary accounts figures for 1945-6 and the Budget Estimate for 1946-7 under the various heads are given in Part II of the Finance Secretary's Memorandum on the budget for 1946-7.

“28. *Capital expenditure*.—The total capital expenditure outside the revenue account (excluding the net outlay on State Trading Schemes and the expenditure on pension commutation payments which will be met from current revenue) is Rs. 4,29.81 lakhs against Rs. 87.77 lakhs in the preliminary accounts for 1945-6. The large increase results from increased provision for a number of electricity schemes and for the Tungabhadra Project, on which only a limited amount could be actually spent in 1945-6.

“29. *Loans and advances*.—The budget takes credit for recoveries of over Rs. 100 lakhs under loans and advances and provides for new advances of over Rs. 2.06 lakhs including Rs. 30 lakhs for short-term loans to the Madras Co-operative Central Land Mortgage Bank and about Rs. 71 lakhs for new loans to local bodies.

“30. *New open market loan, 1946*.—It will be desirable to raise a loan in the open market if easy money conditions continue to prevail, so that the proceeds may be used to finance capital outlay and new loans and advances. Borrowing on a large scale will eventually be necessary to provide funds for development and it is advisable to spread out the open market borrowing and raise as much as can conveniently be raised in the open market on reasonable terms each year. Following the usual practice, no credit has been taken in the budget on this account.

“31. *Closing balance, 1946-7*.—After taking into account the opening cash balance of Rs. 3,10.09 lakhs and the probable credits and debits under all heads, the year is expected to close with a cash balance of Rs. 50.91 lakhs. It is estimated that, in addition to this cash balance, the Government will hold on 31st March 1947 securities worth Rs. 9,21.46 lakhs in the Cash Balance Investment Account and securities worth Rs. 22,40.38 lakhs in the Revenue Reserve Fund. It is also anticipated that the Government will hold on 31st March 1947 securities purchased for Rs. 3,92.48 lakhs belonging to the Sinking Fund Investment Account, the Famine Relief Fund and the Electricity Depreciation Reserve and Special Reserve Funds.

“32. *Conclusion*.—The Government anticipate that the post-war levels of prices and employment will eventually be lower than the war-time levels and that this will probably involve an appreciable fall in Provincial revenues, but so far there is no sign of any such fall as a result of the end of the war. The expenditure

31st July 1946]

[Hon. Sri T. Prakasam]

of the Province continues to increase steadily even beyond the high level established during the war years. The deficit of nearly Rs. 9 crores in the revenue account anticipated this year may be regarded as exceptional as it is mainly due to heavy food subsidies and the high cost of importing foodgrains, powdered milk, etc., from outside to meet the acute and exceptional food shortage caused by a variety of adverse natural factors. Without these special items of expenditure and without giving up any important source of revenue, it would have been just possible to balance the budget this year. It will be necessary to tap new sources of revenue to meet the increasing expenditure on post-war development schemes in future years. As the Government intend to extend prohibition to other districts in future years, it will be impossible even to maintain the existing level of expenditure unless alternative sources of revenue are found. How best the additional revenue may be raised will of course be a question for very careful consideration by the Government. They will at the same time examine what retrenchment in expenditure may be effected.

“The work of the Finance Department in preparing the budget has by no means been easy. Not only has it had to prepare it in a short time, but it has also had constantly to readjust it as the various schemes of the new Government were decided upon. I take this opportunity to render the thanks of the Government to Dr. Dodwell and Mr. T. N. S. Raghavan and their officers and staff.

“With these words I commend this budget for the acceptance of this House.”

IV.—STATEMENT *RE* REDUCTION OF THE RICE PORTION OF THE RATION.

The HON. SRI T. PRAKASAM:—“With your permission, Mr. Speaker, Sir, before moving the resolution, I would like to make a statement before this House, regarding reduction of the rice portion of the ration.

“Sir, when I spoke on the food position in May last, I estimated a local procurement of 300,000 tons rice and 36,000 tons of millets and imports to the extent of 116,000 tons rice, 500 tons of millets and 30,000 tons of wheat and wheat products for the period from May to October. I said that even with these local procurement and imports our overall deficit in all foodgrains would be 268,000 tons at the end of October. I also stated that considerable further help would be necessary to carry us through November and December as our main harvest would be available only thereafter.

“I am glad to say that both procurement and imports are better than anticipated. From 3rd May 1946 up to 18th July 1946 298,673 tons of rice and 34,693 tons of millets have been procured. Procurement has no doubt been considerably helped by the bonus offered by the Government for deliveries in June and July. As

[Hon. Sri T. Prakasam]

[31st July 1946]

regards imports, the Government of India have, owing to their slightly improved supply position, been able to give us increased quotas, much of which however is in the shape of maize, wheat and wheat products rather than rice. According to present information, the net import that we can expect from 1st July up to the end of October are about 67,000 tons of rice, 103,000 tons of millets and maize, 75,000 tons of wheat and 20,000 tons of wheat-floor. Even with better procurement and increased imports the position in respect of rice is not easy as at the present rate of consumption, the stocks including anticipated imports will get completely exhausted by the last week of October leaving no buffer at all. But the stocks will run out much sooner in some areas than others, because the stocks in surplus areas are naturally more than in other areas, and it is impossible to expect producers to surrender what they require for themselves till the next harvest. Allowing a month's buffer on this account the available stocks will be enough only till about 25th September, when rationing will begin to break down. The Government of India hope to supply further quantities of rice, wheat and wheat products in September and October, but how much will be allotted by them and how much will actually arrive are uncertain. There is no indication at all of what help will be available in November and December, as the Government of India are reviewing the position every month and are allotting quotas only about a month in advance.

"In these circumstances it has become necessary to take steps to conserve the existing stocks of rice. The Government have therefore regretfully decided to reduce the rice portion of the ration to 8 oz. in the case of rice-eaters with effect from 4th August 1946, as otherwise we shall be landed in a very awkward situation, if imports do not arrive in sufficient quantities or in time. Heavy manual labourers will however continue to get 10 oz. of rice as at present.

"If the position improves later, I need hardly say that rice portion of the ration will be increased. In the meantime I appeal to the Members and to the public to put up with the inconvenience and help the Government to get through these three difficult months. One way of immediate help is to consume the large quantities of maize and wheat and wheat products that are being supplied and reduce the strain on rice. Another way of help is to improve the procurement of the short-term crops which will be harvested in September and October. The Government have already announced sufficient inducement by announcing a bonus for delivery of the short-term crops up to the 15th of November 1946. If the response is satisfactory, it may be possible to restore the cut much sooner than the present position indicates."

1 p.m.

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Mr. Speaker, Sir, may I request the Hon. Premier to supply copies of this statement to the House?"

MR. SPEAKER:—"Yes. He will do so. He has given his assurance to that effect."

31st July 1946]

V.—GOVERNMENT RESOLUTIONS.

(1) PUBLIC ACCOUNTS COMMITTEE.

The Hon. SRI T. PRAKASAM:—"I move—

'that, with reference to rule 134 of the Madras Assembly Rules, this Assembly do proceed, on a date to be fixed by the Hon. the Speaker, to elect nine members of the Committee on Public Accounts for the first session of the Madras Legislative Assembly.'"

The Motion was put and carried.

MR. SPEAKER:—"In accordance with the regulations framed by me for conducting elections according to the principle of proportional representation by means of the single transferable vote, I fix 5 p.m. on Monday, the 5th August 1946 as the time within which notice of nominations for election to the Public Accounts Committee should be given to the Secretary. The nomination forms can be obtained from the Secretary. There will be an election if the number of candidates exceeds the number of vacancies, namely, nine. In that event the date of the election will be announced on Wednesday the 14th August 1946."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Will the election be held on the 14th August 1946?"

MR. SPEAKER:—"No. I will announce the date of the election on the 14th."

(2) HOUSE COMMITTEE.

The Hon. SRI T. PRAKASAM:—"Sir, I move—

'that, under rule 152 of the Madras Assembly Rules, the House do proceed to elect six members to the House Committee according to the principle of proportional representation by means of the single transferable vote in accordance with the regulations made in this behalf by the Speaker.'"

The motion was put and carried.

MR. SPEAKER:—"In accordance with the regulations framed by me under rule 152 of the Madras Assembly Rules for the holding of elections according to the principle of proportional representation by means of the single transferable vote, I fix 5 p.m. on Monday, the 5th August 1946 as the time within which nominations of candidates for election to the House Committee should reach the Secretary. The nomination forms can be obtained from the Secretary. There will be an election if the number of candidates nominated exceeds the number of vacancies, namely, six. In that event the date of the election will be announced on Wednesday, the 14th August 1946."

(3) ELECTION OF ONE MEMBER TO THE BOARD OF INDUSTRIES.

The Hon. SRI V. V. GIRI:—"Sir, I move—

'that, in accordance with section 3 (1) (b) of the Madras State Aid to Industries Act, 1922 (Madras Act V of 1923), and rule 3 of the rules framed thereunder, this Assembly do proceed on a date to be fixed by the Hon. the Speaker to elect one person to be the Assembly's representative on the Board of Industries constituted under the Act.'"

The motion was put and carried.

[31st July 1946]

Mr. SPEAKER.—“ In accordance with the regulations framed by me for conducting elections according to the principle of proportional representation by means of the single transferable vote, I fix 5 p.m. on Monday, the 5th August 1946 as the time within which notice of nominations for election to the Board of Industries should be given to the Secretary. The nomination forms can be obtained from the Secretary. There will be an election if the number of candidates nominated exceeds one. In that event the date of the election will be announced on Wednesday, the 14th August 1946.”

(4) ELECTION OF ONE MEMBER TO THE ADVISORY COMMITTEE OF THE MADRAS AND SOUTHERN MAHRATTA RAILWAY.

THE HON. SRI M. BHAKTAVATHSALAM:—“ Sir, I move—
‘ that, with reference to G.O. No. 55, Railway, dated 10th December 1923, and rule 3 of the existing rules relating to the Local Advisory Committee of the Madras and Southern Mahratta Railway, this Assembly do recommend to the Government to communicate to the Madras and Southern Mahratta Railway, the name of one person elected by this Assembly to serve on their Railway Advisory Committee for the remaining period of the two years ending with 31st March 1948.’ ”

The motion was put and carried.

Mr. SPEAKER:—“ With reference to the motion of the Hon. the Minister for Public Works regarding the election of one Member of this Assembly to the Advisory Committee of the Madras and Southern Mahratta Railway passed by the Assembly just now, I am to state that the nominations should be handed over to the Secretary before 5 p.m. on Monday, the 5th August 1946. The nomination forms can be obtained from the Secretary. There will be an election if the number of candidates nominated exceeds one. In that event the date of the election will be announced on Wednesday, the 14th August 1946. The election will be by the ordinary method and not according to the method of single transferable vote.”

VI.—PANEL OF CHAIRMEN.

Mr. SPEAKER:—“ I have to announce to the House that under rule 9 of the Madras Assembly Rules, I have nominated the following four Members of the Assembly to be a panel of Chairmen for the First Session of the Assembly:—

1. Begum Sultan Mir Amiruddin.
2. Sri K. Varadachari.
3. Sri P. Natesan.
4. Mr. F. Ferrelly.”

The House then adjourned to meet again at 11 a.m. on 2nd August 1946.

31st July 1946]

VII.—PAPERS LAID ON THE TABLE OF THE HOUSE.

- (1) Notification issued with G.O. Ms. No. 1495, Home, dated 14th May 1946, making certain amendments to the Madras Motor Vehicles Rules, 1940, published with Home Department Notification No. 357, dated the 29th March 1940, as subsequently amended.
- (2) Notification issued with G.O. Ms. No. 1590, Home, dated the 23rd May 1946, making certain amendments to the Madras Motor Vehicles Rules, 1940, published with Home Department Notification No. 357, dated the 29th March 1940, as subsequently amended.
- (3) Notification issued with G.O. Ms. No. 1864, Home, dated the 22nd June 1946, making certain amendments to the Madras Motor Vehicles Rules, 1940, published with Home Department Notification No. 357, dated the 29th March 1940, as subsequently amended.

THE MADRAS LEGISLATIVE ASSEMBLY.

Friday, the 2nd August 1946.

The House met in the Assembly Chamber, Fort St. George, at eleven of the clock, Mr. Speaker (THE HON. SRI J. SIVASHAN-MUKHAM PILLAI) in the Chair.

MR. SPEAKER:—"There is a general complaint that questions and answers are not audible. So I request all the Members to speak through the mike."

I.—QUESTIONS AND ANSWERS.

[N.B.—The numbers within parentheses represent the numbers in the order of receipt of notice.]

STARRED QUESTIONS.

Free distribution of manure in Palghat and Walluvanad taluks and the extension of the concession to Ponnani and Ernad taluks.

* 30 (22) Q.—P. K. MOIDEEN KUTTI SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

(a) whether the Government have ordered free distribution of manure in Palghat and Walluvanad taluks only; if so,

(b) what are the reasons for not including the other taluks in the scheme; and

(c) whether the Government propose to extend the concession to Ponnani and Ernad taluks?

THE HON. SRI T. PRAKASAM:—" (a) Yes, so far as the Malabar district is concerned.

" (b) In order to make the best use of the available stock of manure, the Government ordered the distribution to be confined to the two taluks in question which form a compact block of rice-growing tract.

" (c) There is no such proposal at present."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—" May I know, Sir, whether in view of the fact that Ponnani taluk is the least fertile comparatively, the Hon. Minister will be pleased to extend the scheme to that taluk also? "

THE HON. SRI T. PRAKASAM:—" The suggestion will be considered."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I know on what basis manure was distributed? "

THE HON. SRI T. PRAKASAM:—" Notice."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—" Is it a fact that instructions have been given to the Agricultural Department to give preference to those who hold permits from the office bearers of the Congress? "

THE HON. SRI T. PRAKASAM:—" It is a most absurd suggestion. Government did not issue any such instructions to anybody."

[2nd August 1946]

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Do the Government propose to extend the concession to other famine-stricken areas where necessary?"

THE HON. SRI T. PRAKASAM:—"It will be done wherever necessary."

M. A. MUHAMMAD IBRAHIM SAHIB BAHADUR:—"May I know if the Government are aware that people in Arantangi and Pattukkottai taluks deserve this free distribution of manure?"

THE HON. SRI T. PRAKASAM:—"If application is made, it will be considered."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"What kind of manure is supplied, Sir?"

THE HON. SRI T. PRAKASAM:—"The manure that is available and suitable to the area is supplied."

SRI P. VENKATESWARLU:—"I put the question standing in the name of Sri K. Ananda Nambiyar, Sir."

MR. SPEAKER:—"If the hon. Member has an authorization letter from Sri K. Ananda Nambiyar in whose name the question stands, the hon. Member may put the question."

SRI P. VENKATESWARLU:—"Yes, Sir; I have the authorization letter. I therefore put the question."

Demand of security proceedings against certain Communist workers by the Police in Malabar.

* 31 (31) Q.—SRI K. ANANDA NAMBIYAR: Will the Hon. the Prime Minister be pleased to state whether it is a fact that the Police in Malabar have demanded security proceedings against certain Communist workers in the district, and if so, who they are?

THE HON. SRI T. PRAKASAM:—"Yes. Their names are: (1) Muhammad Issaq, (2) Chaliyoth Kannan, (3) K. V. Narayanan Nambiyar, (4) P. V. Chathukutty Nambiyar, (5) K. V. Mossankutty, (6) K. P. R. Ryrappan Nambiyar, and (7) K. V. Kunhiraman alias Chotti Raman. The proceedings against No. (1) are under section 108, Criminal Procedure Code; against the others under section 107, Criminal Procedure Code."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Will the Government be pleased to state whether there are special instructions given to the Police regarding Communists?"

THE HON. SRI T. PRAKASAM:—"No special instructions have been given to the Police. On the other hand, the instructions given to the Police are that they should get hold of all people who are likely to disturb the peace."

[2nd August 1946]

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Do the Government intend to curtail liberties of the people like this?"

THE HON. SRI T. PRAKASAM:—"No civil liberties will be curtailed; on the other hand, those who are working must take particular care to see that they do not infringe the liberties of others."

DR. S. SUBRAHMANYA AYYAR:—"Does the Hon. the Prime Minister know that our workers who were released from the Alipuram jail are being harassed by the Police in Tiruppattur taluk?"

THE HON. SRI T. PRAKASAM:—"Notice."

DR. S. SUBRAHMANYA AYYAR:—"Are these security cases *sub judice*?"

THE HON. SRI T. PRAKASAM:—"They may be."

H. S. HUSSAIN SAHIB BAHADUR:—"May I know what the charges are against these persons?"

THE HON. SRI T. PRAKASAM:—"Notice."

SRI P. VENKATESWARLU:—"Do the Government propose to withdraw the proceedings against the workers?"

THE HON. SRI T. PRAKASAM:—"No case will be withdrawn unless the person concerned deserves it."

Arrest of G. Latchanna, Secretary, North Vizagapatam District Congress Committee, in a village in Palakonda taluk.

* 32 (47) Q.—SRI G. KUMARASWAMI: Will the Hon. the Prime Minister be pleased to state—

(a) whether it is a fact that Mr. G. Latchanna, Secretary, North Vizagapatam District Congress Committee, was arrested in a village in Palakonda taluk when he went there in connexion with electioneering work; and

(b) if so, why?

THE HON. SRI T. PRAKASAM:—" (a) Yes.

" (b) At midnight on 2nd March 1946 during Sivarathri festival, Sri G. Latchanna addressed a big crowd gathered in front of the temporary Police station at Sangham village and created disturbance and obstruction to pilgrims. The Inspector of Police who was on the spot found that the meeting was not in the nature of an electioneering one, and advised those gathered there to hold meetings in a more convenient place; but they did not pay heed to his words. From their attitude, the Inspector apprehended an imminent breach of the peace and the possibility of an attack on the temporary Police station. He therefore arrested Sri G. Latchanna under section 151, Criminal Procedure Code."

Re-opening of the Choolai Mills.

MR. SPEAKER:—"As the interpellator is not present in the House, this question (33) and its answer will be printed in the report."

[2nd August 1946]

* 33 (45) Q.—SRI N. GOVINDASWAMI: Will the Hon. the Minister for Industries and Labour be pleased to state—

(a) what immediate steps the Government propose to take to see that the management of the Madras United Spinning and Weaving Mills, Limited, otherwise known as the Choolai Mills, re-open the said mills as early as possible; and

(b) what steps the Government had taken or propose to take to implement the award given by the adjudicator in 1945 in the dispute between the Buckingham and Carnatic Mills, Limited, and their workers?

THE HON. SRI V. V. GIRI:—“(a) This Government have already taken every measure to see that the Madras United Spinning and Weaving Mills is re-opened as early as possible. Certain mill stores are required for re-starting the mill. The stores under control are being released for the mill as and when possible by the Textile Commissioner, Bombay. Non-controlled stores are being purchased by the mill itself. It is understood from the Manager that the stores are coming to the mill and he has been informed that the Government are prepared to give any further assistance that may be necessary as and when requested.

“(b) The adjudicator's award was enforced and made binding on both the employer and labour for one year from 19th July 1945 except in regard to the following two points:—

(1) *Basic Wages*.—The adjudicator suggested the setting up of a Wage Board. This was not acted upon as it was felt that wages have to be fixed on a uniform basis for the entire textile industry and the general question of setting up wage boards is under the consideration of the Government of India.

(2) *Enhancement of Dearness Allowance*.—The adjudicator suggested slight increase in the case of low-paid workers, but as the Dearness Allowance paid by this employer is the highest in the Presidency, the suggestion was not accepted.”

Opening of the Polytechnic Institute.

* 34 (75) Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Industries and Labour be pleased to state—

(a) when the proposed polytechnic institute will be opened in Mangalore; and

(b) what courses of training will be provided in it?

THE HON. SRI V. V. GIRI:—“(a) It is proposed to open the polytechnic at Mangalore in the current year.

“(b) The following courses of training are proposed to be provided at present:—

(1) Automobile Engineering.

(2) Civil Engineering.

(3) Mechanical Engineering.”

[2nd August 1946]

SRI S. NAGAPPA:—“May I request the Government to open a polytechnic institute in the Ceded districts?”

THE HON. SRI V. V. GIRI:—“Notice.”

SRI A. B. SHETTY:—“May I know how many have applied for admission to the institute?”

THE HON. SRI V. V. GIRI:—“I am sorry I have not got the information. If the hon. Member wants it, I shall get it for him.”

SRI N. M. R. SUBBARAMAN:—“Will the Hon. Minister be pleased to state when the polytechnic institute at Madura will be started?”

THE HON. SRI V. V. GIRI:—“Notice.”

SRI P. VENKATESWARLU:—“Will the Hon. Minister be pleased to state under whose management the polytechnic institute at Cocanada is being run?”

THE HON. SRI V. V. GIRI:—“Government.”

SRI P. VENKATESWARLU:—“May I know what steps the Government propose to take to make the diploma courses of this institute recognized by commercial concerns and Provincial Governments?”

THE HON. SRI V. V. GIRI:—“Notice.”

H. S. HUSSAIN SAHIB BAHADUR:—“May I know how many polytechnic institutes will be opened during the current year?”

THE HON. SRI V. V. GIRI:—“Notice.”

H. S. HUSSAIN SAHIB BAHADUR:—“Have the Government got any policy behind the opening of these polytechnic institutes?”

THE HON. SRI V. V. GIRI:—“Good policy.”

SRI P. VENKATESWARLU:—“May I ask the Hon. Minister whether the institute at Cocanada has got the necessary workshops and laboratory?”

THE HON. SRI V. V. GIRI:—“Notice. Questions of this kind cannot be answered on the spur of the moment.”

DR. S. SUBRAHMANYA AYYAR:—“Are there any polytechnic institutes at Trichinopoly?”

THE HON. SRI V. V. GIRI:—“Notice.”

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“Is there any proposal to open a polytechnic institute in Malabar?”

THE HON. SRI V. V. GIRI:—“I have no information on hand.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“Have the Government received a representation for a polytechnic institute at Guntur?”

THE HON. SRI V. V. GIRI:—“Notice.”

[2nd August 1946]

DR. S. SUBRAHMANYA AYYAR:—" May Trichinopoly have one such institute? "

THE HON. SRI V. V. GIRI:—" The suggestion will be considered."

MR. F. FERRELLY:—" May I know from the Hon. Minister whether it is necessary to open a polytechnic institute in Mangalore where there is already a first-class Government Trade School in Engineering? "

THE HON. SRI V. V. GIRI:—" The Government have taken that aspect into consideration before deciding to open this polytechnic institute at Mangalore."

Separation of the Judiciary from the Executive.

* 35 (6) Q.—P. K. MOIDEEN KUTTI SAHIB BAHADUR: Will the Hon. the Minister for Law be pleased to state whether the Government have come to any decision on the question of the separation of the judiciary from the executive?

THE HON. SRI K. BHASHYAM:—" The Government consider that the separation of the judiciary from the executive is desirable and have decided to appoint a Committee to examine possible schemes, and to make a report to Government."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I know, Sir, who the members of this Committee are? "

THE HON. SRI K. BHASHYAM:—" They are Sri K. Rajah Ayyar, Sri T. R. Venkatarama Sastri, Sri Pappu Somasundaram, Sri Balakrishna Ayyar, and Sri V. L. Ethiraj."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—" May I know when the Committee is expected to finish its labours? "

THE HON. SRI K. BHASHYAM:—" In about a month or more."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" Is the Hon. Minister aware that there are lawyers amongst Muslim Members in the House competent to give advice in regard to this question? "

THE HON. SRI K. BHASHYAM:—" Certainly there are. The Committee will consult them."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" Will the Hon. Minister consider the advisability of including one of them as a member of the Committee? "

THE HON. SRI K. BHASHYAM:—" It is not necessary at this stage."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" What is the meaning of 'necessity' ? "

THE HON. SRI K. BHASHYAM:—" It is an expert committee consisting of members of the Crown Office."

[2nd August 1946]

M. S. ATAULLAH SAHIB BAHADUR:—" Will the Hon. Minister bear in mind the need for giving Muslims a proportionate number of offices when this scheme is put into force? "

THE HON. SRI K. BHASHYAM:—" It is too early to say anything about appointments now."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I know what the terms of reference of the Committee are? "

THE HON. SRI K. BHASHYAM:—" I have not got the exact terms with me at the moment; but I think the Committee will examine all possible schemes and put before the Government that scheme which it considers best."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—" Will the Government see that in the matter of these new appointments, due regard will be paid to the claims of Muslims? "

THE HON. SRI K. BHASHYAM:—" Certainly. Their claims will be taken into consideration."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I know whether the claims of the top members of the bar alone will be considered? "

THE HON. SRI K. BHASHYAM:—" The claims of the top as well as of the bottom will be considered." (Laughter.)

N. MUHAMMAD ANWAR SAHIB BAHADUR:—" May I ask whether it is a misnomer to call the separation of judiciary from the revenue as separation of judiciary from the executive and will it not be more appropriate to call this Committee as the Committee for the separation of the judiciary from the revenue? "

THE HON. SRI K. BHASHYAM:—" It is a matter of opinion."

M. A. MUHAMMAD IBRAHIM SAHIB BAHADUR:—" Do the Government propose to take steps to amend criminal law and procedure if really they want separation? "

THE HON. SRI K. BHASHYAM:—" If it is considered necessary, the Government will take the necessary steps."

H. S. HUSSAIN SAHIB BAHADUR:—" May I ask the Government to give hon. Members an outline of their scheme? "

THE HON. SRI K. BHASHYAM:—" An outline has been already given."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I know whether the Committee was appointed by the Government or by the Hon. Minister? "

THE HON. SRI K. BHASHYAM:—" Whatever is done by an Hon. Minister may be taken as having been done by the Government."

[2nd August 1946]

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Therefore may I know, whether at the time the Committee was appointed, the Government did not consider the scheme of the Hon. Minister."

THE HON. SRI K. BHASHYAM:—"They did not tentatively."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"That means the Committee did not have any definite scheme before it?"

THE HON. SRI K. BHASHYAM:—"All schemes are before it."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"May I know Sir, who is to advise the Government in matters of the kind?"

THE HON. SRI K. BHASHYAM:—"The Law Officers of the Crown."

K. M. SEETHI SAHIB BAHADUR:—"Did the Government make a reference to their Law Advisers?"

THE HON. SRI K. BHASHYAM:—"Naturally, it implies that."

Proceedings against Justice Byers.

* 36 (41) Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Minister for Law be pleased to state

(a) whether the Government intend to take up the matter regarding the proceedings against Justice Byers in revision to the High Court;

(b) if so, when; and

(c) if not, why not?

THE HON. SRI K. BHASHYAM:—" (a) The answer is in the negative.

" (b) The question does not arise.

" (c) They have been advised against taking the course."

Betting on American cotton figures.

* 37 (80) Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Law be pleased to state—

(a) the districts in which betting on American cotton figures has been found to be regularly practised on a large scale; and

(b) the number of people who have been convicted for this offence in South Kanara after the Gaming Act was amended this year?

THE HON. SRI K. BHASHYAM:—" (a) From the information available with the Government, it was prevalent on a large scale in the districts of East Godavari, West Godavari and South Kanara.

" (b) Thirty-two."

[2nd August 1946]

SRI A. B. SHETTY:—"In the districts in which such betting is prevalent, cannot the Government take steps to prevent the telegraph office giving information to facilitate such betting and see that necessary action is taken to stop this practice?"

THE HON. SRI K. BHASHYAM:—"The Government have no information on the point. At any rate, the Telegraph Department is not under the control of the Provincial Government."

SRI P. VENKATESWARLU:—"Will not the Government consider the desirability of introducing direct measures under the Gaming Act to curb this evil practice?"

THE HON. SRI K. BHASHYAM:—"That point will be considered."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"Cannot the Government address the Government of India in the matter to see that the Telegraph Department does not accept telegrams on American cotton figures or take up any direct action in the matter?"

THE HON. SRI K. BHASHYAM:—"That will also be considered."

SRI P. NATESAN:—"Is it not a fact that these telegrams come to this country through Reuters?"

THE HON. SRI K. BHASHYAM:—"I do not know anything sure about it myself. The hon. Member seems to know more about it."

SRI P. VENKATESWARLU:—"Do not the Government consider it necessary to ban altogether the coming in of these figures in daily newspapers?"

THE HON. SRI K. BHASHYAM:—"Yes, the Government will consider the suggestion."

SRI P. VENKATESWARLU:—"Is it a fact that those who have been convicted for this offence were not the actual offenders but were only agents and petty men?"

THE HON. SRI K. BHASHYAM:—"I want notice of it."

The number of panchayat boards in Malabar district and whether the number will be increased.

* 38 (21) Q.—P. K. MOIDEEN KUTTI SAHIB BAHADUR: Will the Hon. the Minister for Local Administration be pleased to state—

(a) what the total number of panchayat boards in Malabar district is; and

(b) whether the District Panchayat Officer, Malabar, has been directed to increase the number of panchayat boards as far as possible?

THE HON. MR. DANIEL THOMAS:—" (a) The number was 67 on 1st June 1946.

[2nd August 1946]

“(b) The Deputy Inspector of Municipal Councils and Local Boards has drawn the attention of the District Panchayat Officer to the fact that there is ample scope for increasing the number of panchayats in the district.”

SRI P. VENKATESWARLU:—“In connexion with the election to local bodies and panchayat boards, will the Government consider the question of introducing adult franchise?”

THE HON. MR. DANIEL THOMAS:—“The local bodies and panchayat boards have been existing for so long a time and elections have been carried on with the usual franchise. The ultimate aim of Government for these elections is the introduction of adult franchise, but it is a question of time, Sir.”

SRI P. VENKATESWARLU:—“May I take it, Sir, from the reply to the above question, that adult franchise will be introduced in the next elections?”

THE HON. MR. DANIEL THOMAS:—“At present, I think the Government have no idea of introducing adult franchise in the coming elections.”

The number of ryots who have taken advantage of the Government subsidies for sinking wells and tanks in Malabar district.

* 39 (11) Q.—P. K. MOIDEEN KUTTI SAHIB BAHADUR: Will the Hon. the Minister for Revenue be pleased to state how many ryots in the Malabar district have taken advantage of the Government subsidies for sinking wells and tanks?

THE HON. SRI K. R. KARANTH:—“It is presumed that the hon. the Member refers to the accelerated scheme for sinking new wells and repairing old wells introduced in March 1946. This scheme does not provide for the grant of subsidies for sinking irrigation tanks. Eight hundred and eighty-four persons had applied for subsidies for sinking wells under the accelerated scheme in the Malabar district. Subsidies were sanctioned in 177 cases and rejected in 577 cases.”

SRI A. B. SHETTY:—“May I know, Sir, whether it is not a fact that many of the ryots have not been able to take full advantage of the scheme, owing to the delay in the publication of the scheme and in the sanction of subsidies?”

THE HON. SRI K. R. KARANTH:—“The difficulty was that applications had to be made before the 15th June and the work completed before 31st July. In the meantime the monsoon set in and many of the applicants could not begin the work. But I may tell hon. Members that a new scheme is under consideration for the West Coast districts of Malabar and South Kanara in the coming year and also for other districts.”

[2nd August 1946]

SRI P. VENKATESWARLU:—“Will the Government be pleased to give the figures of percentage between the rich, the middle-class and the poor peasants that have received the subsidy?”

THE HON. SRI K. R. KARANTH:—“It is not possible to make such an investigation.”

SRI A. KAMESWARA RAO:—“May I know, Sir, how many wells have been sunk, after the introduction of this scheme and whether the scheme has proved a success?”

THE HON. SRI K. R. KARANTH:—“It is too early to assess the success of the scheme. The time has been extended till September and it is only then that an idea of the success of the scheme can be obtained.”

SRI A. KAMESWARA RAO:—“In view of the fact that many of the wells have not been dug, will the Hon. the Minister be pleased to extend the time still further?”

THE HON. SRI K. R. KARANTH:—“The utmost time that could be granted has been granted and that is till the end of September and it is hoped that most of the wells would be completed by that time.”

SRI A. KAMESWARA RAO:—“As the Government knows, many of the officials connected with the granting of subsidies are corrupt and they would not grant these subsidies without taking bribes from the villagers. I submit that it would be better to entrust the work into the hands of non-officials or M.L.As. . . .”

MR. SPEAKER:—“Will you kindly put it in the form of a question?”

SRI A. KAMESWARA RAO:—“Will the Government consider the question of entrusting the work of the granting of subsidies to non-officials or to M.L.As.?”

THE HON. SRI K. R. KARANTH:—“In the interest of the Members themselves, such a course is not desirable. The Government cannot entrust the work to non-officials.”

SRI S. NAGAPPA:—“May I ask, Sir, whether the amount of subsidy granted to the ryots for the sinking of wells in the Ceded districts is enough and whether it does not require to be raised? Should not also the time-limit be extended in these districts?”

THE HON. SRI K. R. KARANTH:—“I have personally seen many of these wells in the Ceded districts and the time that is now given will be more than ample?”

SRI P. NATESAN:—“Will the Government consider the question whether subsidies could not be given by the Government in the form of labour and materials?”

THE HON. SRI K. R. KARANTH:—“It is very difficult for Government to supply labour.”

[2nd August 1946]

SRIMATHI V. LAKSHMI AMMAL:—"May I know, Sir, how many wells have been sunk in the Tinnevely district under this scheme?"

THE HON. SRI K. R. KARANTH:—"It is a separate question and I require notice."

SRI P. NATESAN:—"Is it not possible for the Agricultural department itself to take up the scheme and execute it?"

THE HON. SRI K. R. KARANTH:—"It is not possible. It is a scheme for the ryots to take up privately and it cannot be carried out by the department. The department can only give advice."

AN HON. MEMBER:—"Are the Government aware that a regular percentage is asked for as bribe by the officials concerned who grant subsidies?"

THE HON. SRI K. R. KARANTH:—"The Government are not aware of any such general practice. If specific cases are brought to their notice, they will look into them."

SRI N. M. R. SUBBARAMAN:—"May I know, Sir, in how many cases subsidies have been given in the various districts of the province?"

THE HON. SRI K. R. KARANTH:—"Notice, Sir."

SRI P. VENKATESWARLU:—"In view of the great difficulty felt by ryots in sinking wells in the Ceded districts, will the Government consider the desirability of supplying them with boring sets?"

THE HON. SRI K. R. KARANTH:—"Whatever help the Agricultural department could give to the ryots in regard to the sinking of wells has been made available in the Ceded districts also."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"Now that the monsoon has set in, in Malabar, is not the Government aware that digging operations would be very difficult and that time should be extended till next summer?"

THE HON. SRI K. R. KARANTH:—"The last year's scheme is over and a new scheme for the West Coast districts is under consideration. I have already referred to this in my previous reply."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"What about the old scheme?"

THE HON. SRI K. R. KARANTH:—"Those who have completed the work and are eligible for the subsidy, will be entitled to it."

SRI P. VENKATESWARLU:—"Do the Government propose to give the ryots any technical help in the matter of digging wells?"

THE HON. SRI K. R. KARANTH:—"The Government will be prepared to give any technical help that is possible, but may I know what sort of technical help is required?"

[2nd August 1946]

SRI P. NATESAN:—"In view of the fact that extension of time has been granted in respect of the completion of wells, will the Government consider the question of supplying the ryots with machinery and technical personal to help them in completing the work before the time allowed?"

THE HON. SRI K. R. KARANTH:—"It is impossible for the Government to supply machinery for the thousands of wells to be sunk."

SRI S. NAGAPPA:—"May I know, Sir, whether it is the want of funds or the want of sufficient machinery that stands in the way of Government helping the ryots?"

THE HON. SRI K. R. KARANTH:—"I am not able to understand the question, Sir."

SRI S. NAGAPPA:—"To put it more explicitly, Sir, may I know whether the department has not got sufficient machinery and implements to assist the ryots in completing the wells?"

THE HON. SRI K. R. KARANTH:—"I said that it is not possible for the department to supply all the machinery for digging thousands of wells in the districts."

SRI V. C. PALANISWAMI GOUNDAR:—"Will the Government consider the question of requisitioning the help of the Sappers and Miners from the Army?"

THE HON. SRI K. R. KARANTH:—"That is a very useful suggestion and it will be considered."

AN HON. MEMBER:—"Are there no water-diviners with the Government?"

THE HON. SRI K. R. KARANTH:—"No, Sir, not under official agency."

DR. S. SUBRAHMANYA AYYAR:—"Will the Government consider the question of restoring the tanks under the tank restoration scheme by the Public Works Department?"

THE HON. SRI K. R. KARANTH:—"The question may be addressed to the proper quarter."

SRI V. C. PALANISWAMI GOUNDAR:—"In the matter of repairing of old wells and sinking of new wells, will the Government help the ryots by supplying them with crowbars and other implements necessary for the purpose?"

THE HON. SRI K. R. KARANTH:—"This is also a question which should be addressed to the Minister for Agriculture."

[Question 40 was put by N. Muhammad Anwar Sahib Bahadur 11-30
on behalf of Begum Sultan Mir Amiruddin and answered.] a.m.

Proportion of the land assessment to the net produce in ryotwari areas.

* 40 (141) Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Revenue be pleased to state—

(a) what proportion the land assessment bears to the net produce in ryotwari areas; and

[2nd August 1946]

(b) whether the Government have in view the introduction of a Land Revenue Bill?

THE HON. SRI K. R. KARANTH:—“(a) It cannot be said what proportion exactly the land assessment bears to the net produce in the ryotwari areas. In its report published in 1925 the Taxation Enquiry Committee has stated that ‘the result of an elaborate examination of the question made ten years ago showed that the percentage of assessment to rental in the case of all classes of leases taken together varied from 10·7 to 29·0, the percentage in half the districts being less than 17·1. A further comparison in the case of the three districts in which re-settlements have most recently been made shows variations from 6·25 to 24·1.’ It may fairly be assumed that the rental is something less than the net profit so as to leave a margin for the cultivator so that the assessment at most must be something less than 29 per cent of the net profit. Although at the original settlement the assessments were fixed on the basis of half the net money value of the produce, at re-settlements, the re-settlement commutation rate was compared with the settlement rate and if the former was in excess of the latter, the old rates were enhanced, but never by the full percentage of increase revealed by the commutation rates. The land revenue cannot thus be said now to represent the value of half the net produce, but something considerably less. And the proportion varies when there is a change in prices as is the case now.

“(b) The question of introducing a Land Revenue Bill has not yet been taken up for consideration but all relevant factors which will enable Government to frame such a Bill are being investigated.”

SRI P. VENKATESWARLU:—“Do the Government propose to take steps to abolish the zamindari system when they introduce the Land Revenue Bill?”

THE HON. SRI K. R. KARANTH:—“It does not arise out of this question.”

M. A. MUHAMMAD IBRAHIM SAHIB BAHADUR:—“Are the Government aware that the assessment in the Tanjore district is the highest in the province and may I ask whether they will take steps to reduce it?”

THE HON. SRI K. R. KARANTH:—“The matter will be considered along with the other districts.”

SRI R. V. SWAMINATHAN:—“Will the Government consider the question of abolishing the land-tax and introducing a system of Land Income-tax in its place?”

THE HON. SRI K. R. KARANTH:—“The question of introducing an Agricultural Income-tax is being investigated. No decision has yet been arrived at.”

[2nd August 1946]

[Question 41 was put by N. Muhammad Anwar Sahib Babadur on behalf of Begum Sultan Mir Amiruddin and answered.]

Number of posts of Minor Irrigation Supervisors in the Province of Madras.

* 41 (147) Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Revenue be pleased to state—

(a) the number of posts of Minor Irrigation Supervisors in this Province;

(b) the number of the above posts that are held by—

(1) Brahmans, (2) Non-Brahmans, (3) Muslims, (4) Christians and (5) Scheduled Classes; and

(c) whether the claims of any Muslim for the above post has been overlooked during the past five years?

THE HON. SRI K. R. KARANTH:—“The information asked for in the question is not available with the Government. The Board of Revenue has been asked to submit a report.”

Re-opening of the minor ports in the Province for passenger traffic.

* 42 (53) Q.—SRI A. VEDARATNAM PILLAI: Will the Hon. the Minister for Public Works be pleased to state whether the Government have any proposal for re-opening the minor ports in the Province for passenger traffic?

THE HON. SRI M. BHAKTAVATHSALAM:—“After cessation of hostilities, all the minor ports in this Province have been re-opened for steamer traffic; as such they are also open for passenger traffic. Passenger traffic between ports in South India and Ceylon are however restricted to the ports of Dhanushkodi and Tuticorin under the Ceylon quarantine regulations as before the war.”

SRI A. VEDARATNAM PILLAI:—“Will the Government consider the question of opening the Point Calimere port for passenger traffic?”

THE HON. SRI M. BHAKTAVATHSALAM:—“This question was considered by the previous Ministry and the matter was finally referred to the Chairman of the Ports Technical Committee who were of the opinion that the matter was not worth any consideration. I have since received some representations in the matter. We shall pursue the matter further.”

SRI P. VENKATESWARLU:—“Is it a fact that the Nizam's Government are demanding the ports of Masulipatam and Cocanada?”

THE HON. SRI M. BHAKTAVATHSALAM:—“I am not aware, Sir.”

M. A. MUHAMMAD IBRAHIM SAHIB BAHADUR:—“May I ask whether the Government will consider the possibility of re-opening Adirampatnam and Thirumalaivasal in the Tanjore district as minor ports for passenger traffic.”

THE HON. SRI M. BHAKTAVATHSALAM:—“Yes, Sir.”

[2nd August 1946]

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know, Sir, whether the Government have considered the advisability of opening the ports of Kilkarai and Tondi?"

THE HON. SRI M. BHAKTAVATHSALAM:—"Not so far, Sir."

SRI A. KALESWARA RAO:—"May I ask, Sir, whether the Government propose to improve the Minor Port of Masulipatam?"

THE HON. SRI M. BHAKTAVATHSALAM:—"We shall consider the question."

SRI P. VENKATESWARLU:—"Is the Government aware of the agitation in the Press regarding the demand of the Nizam's Government for these ports?"

THE HON. SRI M. BHAKTAVATHSALAM:—"I am not aware, Sir."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Will the Government consider the claims of Vadarevu in the Guntur district, for improvement?"

THE HON. SRI M. BHAKTAVATHSALAM:—"We shall consider it."

SRI A. KALESWARA RAO:—"May I ask whether the Government will resist the demand of the Nizam's Government for the port of Masulipatam if he makes such a claim?"

THE HON. SRI M. BHAKTAVATHSALAM:—"Certainly, Sir."

K. M. HAJI AHMAD KUTTI SAHIB BAHADUR:—"Will the Government be pleased to include the Calicut port also in this consideration?"

THE HON. SRI M. BHAKTAVATHSALAM:—"We shall consider generally the question of improving all minor ports in South India."

SRI N. SANJEEVI REDDI:—"Will the Government consider the question of having some minor port for the Ceded Districts?" (Laughter.)

THE HON. SRI M. BHAKTAVATHSALAM:—"If the Hon. Member will prepare and submit a scheme, the Government will consider it." (Laughter.)

H. S. HUSSAIN SAHIB BAHADUR:—"May I ask whether the Government will consider the question of improving the natural facilities at Malpi and re-opening it for passenger traffic?"

THE HON. SRI M. BHAKTAVATHSALAM:—"We shall consider that question."

Opening of the road on the coast line directly connecting Malabar with South Kanara.

* 43 (77) Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Public Works be pleased to state—

(a) whether it is a fact that there is no road on the coast line directly connecting Malabar with South Kanara, and if so, to what distance; and

[2nd August 1946]

(b) whether any action is being taken to open a road here?

THE HON. SRI M. BHAKTAVATHSALAM:—" (a) Yes—for a distance of $5\frac{1}{2}$ miles between Vellur and Karivellur on the district frontier.

" (b) Yes—In view of the importance of having a through road from Cape Comorin to Bombay via Calicut, Telli-cherry, Cannanore, Mangalore and other important towns in the West Coast, provision has been made in the post-war Road Development programme for the formation of a road from Vellur to Karivellur including the construction of a bridge across Kovvayi river on this section during 1948-49."

SRI A. B. SHETTY:—"May I know whether action in this matter will be expedited since this matter has been pending investigation and consideration for a very long time?"

THE HON. SRI M. BHAKTAVATHSALAM:—"I shall consider the question of taking it up next year."

DR. S. SUBRAMANYA AYYAR:—"Will the Government consider the desirability of opening a road from Cape Comorin to Madras to Calcutta?"

THE HON. SRI M. BHAKTAVATHSALAM:—"We shall examine the question, Sir." (Laughter.)

SRI P. VENKATESWARLU:—"May I know what are the new projects that were sanctioned but were not put into execution?"

THE HON. SRI M. BHAKTAVATHSALAM:—"It is a very wide question. I want notice, Sir."

SRI K. SUBBA RAO:—"May I ask whether road-making will come under Irrigation?"

THE HON. SRI M. BHAKTAVATHSALAM:—"Road-making cannot come under Irrigation, except in the case of culverts and bridges over canals or rivers."

Number of irrigation schemes sanctioned for Malabar and South Kanara.

* 44 (169) Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Public Works be pleased to state the number of irrigation schemes sanctioned for Malabar and South Kanara for helping the 'Grow More Food' campaign since 1943 and the amount spent on such schemes so far?

THE HON. SRI M. BHAKTAVATHSALAM:—"No irrigation schemes for helping the 'Grow More Food' campaign have been sanctioned for Malabar and South Kanara districts since 1943; but several schemes are under investigation by the special staff sanctioned for the purpose. The Chief Engineer (Irrigation)'s final report in the matter is awaited."

[2nd August 1946]

SRI A. B. SHETTY:—"In view of the fact that no schemes have so far been sanctioned for this purpose in Malabar and South Kanara will Government be pleased to follow a liberal policy in this matter in the future at least?"

THE HON. SRI M. BHAKTAVATHSALAM:—"Certainly, Sir.

We propose to devote special attention to Malabar and South Kanara with regard to irrigation. We have already completed investigation for two schemes in South Kanara and we are examining the same."

AN HON. MEMBER:—"May I ask whether the Government will work the Grow More Food campaign in proper spirit and take steps to see that it is accelerated?"

THE HON. SRI M. BHAKTAVATHSALAM:—"We are trying to do our very best to accelerate this campaign."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"May I know, Sir, what is the scheme for increasing irrigation facilities under the auspices of the Grow More Food campaign proposed for the North Arcot district?"

THE HON. SRI M. BHAKTAVATHSALAM:—"I want notice, Sir."

Admissions to the Higher Elementary and Secondary Grade Training Schools.

* 45 (82) Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Education be pleased to state—

(a) whether there has been a fall in the number of admissions to the Higher Elementary and Secondary Grade Training Schools since the last two or three years; and

(b) what steps the Government propose to take to attract sufficient number of suitable candidates for teachers' training?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

"(a) The answer is in the affirmative.

"(b) The Government have sanctioned the grant of stipends at liberal rates to teachers undergoing training—Rs. 12 per mensem for higher elementary grade training and Rs. 18 per mensem for secondary grade training. The rule prescribing educational qualification for admission of candidates for the secondary grade training course has been relaxed as a temporary measure in 1946-47. The period of the secondary grade course has also been reduced from two years to one year for the emergency course in the current school year.

"Before proceeding further I should like to apologise to the House for not having been able to be present in the House day before yesterday at question time to answer my questions."

[2nd August 1946]

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Does the Hon. Minister seriously believe that the rates are liberal?"

ABDUL HAMEED KHAN SAHIB BAHADUR:—"And attractive?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"They are much more liberal than the previous rates."

SRI A. B. SHETTY:—"May I know, Sir, whether the measures now taken have brought sufficient number of candidates to the training schools?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Not as much as we desire, Sir."

DR. S. SUBRAMANYA AYYAR:—"Do the Government expect to attract more candidates to these training schools when the pay that they would receive as teachers after training is much less than the Postal Messenger's pay?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"We are considering the question of revising the teachers' pay."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know whether the Government think that the only reason for not getting sufficient number of candidates is the low rates of stipend?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Personally I think we should pay the teachers more, if we should attract sufficient numbers."

H. S. HUSSAIN SAHIB BAHADUR:—"May I know if more teachers' training schools have been opened since this Ministry took up office?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Notice, Sir."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know, Sir, if the schools which were closed some time ago, have all now been re-opened?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Yes, Sir. Some of them."

SRI P. VENKATESWARLU:—"Can the existing training schools accommodate all the teachers proposed to be trained by Government?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The existing training schools can accommodate much more than the numbers they accommodate at present."

SRI S. NAGAPPA:—"May I know whether the Government contemplate the conversion of Higher Elementary Schools into Middle Schools?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"No, Sir."

[2nd August 1946]

SRI M. G. NATESA CHETTIYAR:—"Is the Government aware that the number of teachers trained, is less than the number of teachers who retire from the schools?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"No, Sir."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know, if the Government has assured itself that there are enough schools to train as many as 4,000 teachers?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The plan of the Government was to open new training schools and new training sections in the existing High Schools as more candidates turned up for training. But sufficient number of candidates have not yet come."

SRI M. G. NATESA CHETTIYAR:—"Will the Government be pleased to call for information whether the number of teachers trained are sufficient in number for the vacancies caused by retirement?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"It is not a matter of merely replacing the retired teachers. It is a matter of opening new schools also."

SRI K. SUBBA RAO:—"In view of the vernacularization of the medium of instruction will the Hon. Minister consider the advisability of admitting into these training schools candidates who have passed the S.S.L.C. Examination even though their marks in English are less?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"That will be considered."

H. S. HUSSAIN SAHIB BAHADUR:—"Will the Hon. Minister consider the question of re-employing retired teachers for the time being to meet the demand?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Sometimes they are allowed, but if you make it a rule there is the danger of people of 70 coming back and being re-employed. They may not do any teaching but may spend their time in sleeping and resting."

SRI M. G. NATESA CHETTIYAR:—"Will the Government be pleased to employ retired teachers to fill up vacancies?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I have already answered this question."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Is the Hon. Minister aware that the number of L.T. teachers is inadequate at the present moment and may I know what steps the Minister proposes to take to increase their number?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Not much for the present in that direction. I understand that the Training College at Saidapet is full."

[2nd August 1946]

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"In view of the terrible paucity of trained teachers will the Hon. Minister consider whether it is not desirable now to abandon training altogether and arrange for a refresher course for a limited period of three months for teachers?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"No educationist will accept the proposition of the hon. Member."

SRI A. B. SHETTY:—"May I ask whether the Government will investigate this matter fully and consider what further steps could be taken to recruit a larger number of candidates for the teaching profession?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"This matter is very much in the Government's mind and before the year is over I hope we will be able to come forward with concrete proposals which will attract larger number of men to this profession."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"May I ask whether the Government are giving any special concession to the I.N.A. personnel in the matter of these admissions?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"No, Sir. No special concessions as far as I am aware."

Dr. S. SUBRAHMANYA AYYAR:—"In view of the great amount of illiteracy prevailing in the country will the Government consider the advisability of insisting on every new graduate spending at least three months in teaching in a village before he is given the degree?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"That does not arise out of this question."

SRI S. NAGAPPA:—"May I know whether there is a difference in standard between the Panchayat Board teachers and the District Board teachers in the matter of their salaries?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The difference is not in the standard of qualification, but in the matter of their salaries."

SRI S. NAGAPPA:—"Why is there this difference?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"It is a large question and it cannot be explained in the course of a supplementary question."

Reorganization of education in the Province of Madras.

* 46 (105) Q.—H. S. HUSSAIN SAHIB BAHADUR: Will the Hon. the Minister for Education be pleased to state—

(a) whether the Government have decided to undertake the reorganization of education in the Province; and

[2nd August 1946]

(b) if the answer to (a) above is in the affirmative, what steps the Government propose to take in that direction?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“(a) & (b) Yes. A questionnaire is being prepared to invite public opinion on various matters requiring reorganization.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“Has the questionnaire just mentioned by the Hon. Minister seen the light of day?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“I do not understand what is meant by ‘light of day’. I said the questionnaire was being prepared and when it is published I hope the eyes of the hon. Member will be set upon it.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“You want some more light?”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“While the questionnaire is prepared will the Hon. Minister give an assurance that nothing will be done in the matter of reorganization before giving an opportunity to this House to discuss the matter.”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“I do not agree that on every little administrative detail we should get the opinion of this House. But on broad principles which have not been accepted by educational authorities such as for instance whether graduates should be asked to do teaching work for three months before they are given their degrees, the Government will place the matter before the House and take their opinion before coming to a decision, but no Government can undertake that every administrative action that will be taken by it will be placed before the House for its decision.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“I ask for an assurance that in the matter of the basic language nothing will be done by the Government without consulting this House.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“I do not understand what he means by basic language. Is the Hon. Minister aware that there are demands from various communities that the matter of the reorganization of education should be in accordance with their own requirements and unless he consults them and gets their consent he should not take any steps in that matter?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“I am not able to answer a general question like this. If the hon. Member specifies any particular point on which he wants information I will be able to answer the question.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“The question is with regard to the regional languages about which the

[2nd August 1946]

Hon. Minister has been speaking elsewhere. May I know whether he realises that his scheme of regional languages adversely affects a particular community whose language is Urdu?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“No, Sir.”

SRI P. VENKATESWARLU:—“Do the Government propose to take over the management of aided schools under private management and introduce compulsory primary education in those areas?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“It does not arise out of this question.”

K. M. SEETHI SAHIB BAHADUR:—“Will the Government publish their proposals regarding reorganization of education for public criticism before passing final orders on them?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“We will do one better. We will publish these points of reorganization and take public opinion before passing orders.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“Has the Hon. Minister for Education read the reply given by the Hon. the Premier with regard to the medium of instruction the day before yesterday and has he anything to say with regard to that matter?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“I am absolutely at one with the Hon. the Premier.”

Compulsory study of Hindi and introduction of the same as the medium of instruction in all schools.

* 47 (108) Q.—H. S. HUSSAIN SAHIB BAHADUR: Will the Hon. the Minister for Education be pleased to state—

(a) whether the study of Hindi or Hindustani is compulsory in all schools; and

(b) whether it is the aim of the Government to make Hindi or Hindustani a common language in the Province and introduce it as the medium of instruction common to all schools, in the place of English?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
(a) & (b) Proposals to introduce Hindi in Schools is under consideration of the Government.”

SRI P. VENKATESWARLU:—“Do the Government propose the mother-tongue to be the medium of instruction instead of the regional language?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“The regional language is the mother-tongue of most of the people of the region.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“May I ask the Hon. Minister not to make such categorical and sweeping assertions and may I ask him to place his hand on his heart and

[2nd August 1946]

find out whether there are not a large number of people belonging to the Muslim community who speak Urdu in the Telugu area?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

"No, Sir. My information is that a majority of the Muslims in the Tamil districts speak Tamil in their homes, the majority of Muslims in the Telugu districts speak Telugu in their homes and the majority of Muslims in Malabar speak Malayalam in their homes."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Your information is wrong."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"May I ask the Hon. Minister to verify the fact, the absolute and categorical fact, that almost all the Muslims in the Andhra Desa have Urdu as their mother-tongue?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
"No, Sir."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"May I ask him to *verify* the fact?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
"That is my information, Sir. If there is anything different from that I would like the hon. Member to give that information."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I am giving that information."

SRI B. ANANTACHAR:—"Is the Hon. Minister aware that Urdu is a compulsory language in the schools in the Nizam's Dominions, even where the mother-tongue of the pupils is Telugu or Mahrati?"

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"We are not discussing the policy of the Nizam's Government."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I ask whether the Hon. Minister is aware that the statement he has made is wrong?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
"If the information I have got is wrong, I should say that the information given by the hon. Member also is wrong."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I ask, Sir, whether it is proper for the Hon. Minister to treat hon. Members on this side in the light manner in which he has done?"
(Cries of 'order, order'.) "Where does 'order, order' come in? It is a very serious matter."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"May I know the answer which the Hon. Minister has just given to the question whether he would verify the fact that Urdu is the mother-tongue of the Muslims in the Andhra Desa?"

[2nd August 1946]

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
"If the hon. Member has information different from ours, we will enquire."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"It is not a question of information. It is a fact."

SRI P. VENKATESWARLU:—"Will the Government allow the pupils to learn in their own mother-tongue?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
"The regional language is mostly the mother-tongue."

SRI P. VENKATESWARLU:—"Is the Government aware that there are persons living in regions where the regional language is not their mother-tongue?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
"If there are many such children in a school and if the school is prepared to impart instruction in the mother-tongue of these students, we have no objection."

SRI P. VENKATESWARLU:—"What should be the strength of such students?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
"The schools know that."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"The Hon. Minister has come down. He has stated that he is prepared to permit the opening of special schools or classes if there were a sufficiently large number of students in areas where the regional language is different from the mother-tongue of the students. On the same analogy, may I ask him whether if he found that in the Andhra districts there are a large number of Muslim students, whose mother-tongue is Urdu, he will be prepared to provide education for them through the medium of Urdu?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
"There is no climbing down. Orders have been passed with respect to Madras City that if in any school there is a large number of Malayalam students sufficient to make up a class and if they wanted instruction through the medium of Malayalam and if the schools take the responsibility of imparting instruction through that language, there will be no objection to it."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"My question was with reference to Muslim students in the Andhra districts with Urdu as their mother-tongue. Will the Hon. Minister kindly answer that question?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
"Let me first get a representation from any school that there are a sufficient number of Muslim boys who want to be instructed through the medium of Urdu."

[2nd August 1946]

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Does the Hon. Minister know that to-day in the Andhra Desa the medium of instruction in Muslim schools is Urdu?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"No, Sir."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"He is ignorant." (Laughter.)

Short Notice Question.

Threatened strike notice of the scavengers in the Madras City.

* 48 (269) Q.—SRI K. T. KOSALRAM: Will the Hon. the Minister for Public Health and Medicine be pleased to state—

(a) whether the Government have taken any action to avert the threatened strike of the city scavengers; and

(b) if so, whether the Government can let the House know what it is?

THE HON. MRS. LAKSHMIPATHI:—" (a) It is for the Corporation of Madras to take necessary action.

" (b) The question does not arise."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Is it a fact that the Corporation has asked for a loan or a half grant from the Government in the matter?"

THE HON. MRS. LAKSHMIPATHI:—"I am not aware."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Is it a fact that the Hon. Minister for Local Administration promised Rs. 2 to the scavengers without previously consulting the Commissioner and that precipitated the strike?"

THE HON. MRS. LAKSHMIPATHI:—"No information."

H. S. HUSSAIN SAHIB BAHADUR:—"Is the Hon. Minister for Public Health aware of the consequences of the threatened strike and may I ask whether steps will be taken to avert it?"

THE HON. MRS. LAKSHMIPATHI:—"Yes, Sir. The Government are aware of the consequences that may arise out of the threatened strike and the Commissioner of the Corporation is already negotiating with the strikers, i.e., those who have sponsored the strike with a view to coming to an amicable settlement."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Will the Hon. Minister for Local Administration be pleased to state whether he promised to grant Rs. 2 increase without asking the Commissioner?"

THE HON. MR. DANIEL THOMAS:—"No, Sir."

DR. S. SUBRAHMANYA AYYAR:—"Will the Hon. Minister for Local Administration say whether it is not true that in some municipalities dearness allowance is not paid and that is the cause of strike in these municipalities?"

THE HON. MR. DANIEL THOMAS:—" (. . .)."

MR. SPEAKER:—"We shall pass on to the next item in the Agenda."

2nd August 1946]

UNSTARRED QUESTIONS.

Inundation of the paddy fields with sand in Kadavurunchi Madai ayacut in Kadayannallur village, Tirunelveli district.

10 (38) Q.—K. MUHAMMAD HUSSAIN SAHIB BAHADUR: Will the Hon. the Minister for Public Works be pleased to state—

(a) whether it is a fact that most of the paddy fields in Kadavurunchi Madai ayacut in Kadayannallur village, Tirunelveli district, are inundated with sand to a height of 2 feet and more by the usual seasonal flood;

(b) whether the contractor was delaying the work for about ten months after removing the bund of the channel and leaving a gap wide open between the sluice and the bank;

(c) whether the pattadars of the abovesaid ayacut made representations to the Collector and Public Works Department Engineer before the last rainy season in December 1945, that there was the danger of their fields being inundated by flood and sand;

(d) what action was taken on those representations;

(e) whether it is a fact that the sluice is still in the same condition;

(f) whether the peasants and the pattadars have now made representations once again that the repairs should be finished soon, and that otherwise, their fields will further be inundated;

(g) whether the peasants have applied for monetary help to the Collector to remove the sand; and

(h) how long those petitions are pending without any disposal?

A.—(a) The field in rear of Kadavurunchi Madai, a sluice in the channel taking off from sluice No. 3 of Pappanakal in Kadayannallur village, was covered with sand brought down by the flood waters from the breaches in Pappanakal channel and the breach in the ring bund put up in front of the sluice.

(b) The contract was settled and materials were collected in September 1945 and work started in the following month. The bund at the site of the sluice was cut open for constructing the sluice and a ring bund put up in front of the site to prevent water entering the work site. There was no gap left open which would allow water into the fields, in the normal course of events. Inundation was caused by the breaching of the ring bund under abnormal conditions. Repairs to breaches in the main channel were attended to first.

(c) There was no representation from the ryots in December 1945 to Public Works Department about the danger of their fields being inundated by floods.

(d) The question does not arise in view of answer to (c) above.

[2nd August 1946]

- (e) The work of reconstruction of the sluice was completed in June 1946.
- (f) One petition was received and sent to the Chief Engineer (Irrigation).
- (g) & (h) No information. A report has been called for from the Board of Revenue which is awaited.

The number and names of villages where fire broke out in last summer.

11 (88) Q.—SRI S. NAGAPPA: Will the Hon. the Prime Minister be pleased to state—

- (a) the number and names of the villages where fire broke out in last summer;
- (b) how many houses were gutted out; and
- (c) what relief the Government have given to the parties concerned?

A.—(a), (b) & (c) It is not possible to answer the question since no particulars regarding time, place or occasion have been given.

Total number of acres of cultivable waste land in the Province of Madras.

12 (94) Q.—SRI S. NAGAPPA: Will the Hon. the Minister for Revenue be pleased to state—

- (a) the total number of acres of cultivable waste land in the Province, districtwar;
- (b) how many acres of such land were cultivated either under Grow More Food campaign or under sivoijama cultivation;
- (c) whether the cultivators under sivoijama cultivation were levied any penalty for encroachments;
- (d) if so, whether the Government propose to return the penalties so levied;
- (e) if not, why not;
- (f) if so, when; and
- (g) the future policy of the Government as regards the poramboke lands and sivoijama cultivation?

A.—(a) & (b) It is presumed that the hon. Member refers to cultivate waste lands at the disposal of the Government. A districtwar statement showing (1) cultivable waste lands in blocks of 50 acres and above, (2) the extent brought under temporary cultivation as a result of the Grow More Food campaign out of those lands until the beginning of 1944, and (3) the extent of poramboke cultivation in fasli 1354, is appended^a. It is not practicable to collect complete information regarding the total cultivable waste land available with the Government. The Government have called for up-to-date information regarding the total area cultivated under the Grow More Food Scheme in each district.

^a Vide Appendix on page 136 infra.

[2nd August 1946]

- (c) Penalties are levied only where the encroachments are considered objectionable.
- (d) No.
- (e) Penalties are not refunded in objectionable cases.
- (f) Does not arise.
- (g) Poramboke lands are *prima facie* required for communal purposes and will not therefore be permanently assigned to anybody. As regards assignment of Government lands under sivoijama occupation, the question of future policy is under consideration.

Memorial by Dr. P. M. Kamath to the Hon. the Prime Minister.

13 (109) Q.—H. S. HUSSAIN SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

- (a) whether it is a fact that a memorial has been submitted to the Hon. the Prime Minister by one Dr. P. M. Kamath, Registered Medical Practitioner, Gobichettipalayam, Coimbatore district;
- (b) if so, whether the memorial contains allegations against any local officials and others in their official or public capacity; and
- (c) if such allegations are found in the memorial, what action, if any, has been or is proposed to be taken, to inquire into the matter in public interest?

A.—(a) The answer is in the affirmative.

- (b) It contained certain allegations against a police subordinate officer, Gobichettipalayam.
- (c) The enquiries made showed that the allegations in the memorial were groundless.

Payment of Dearness Allowance to the local board employees.

14 (148) Q.—SRI S. NAGAPPA: Will the Hon. the Minister for Local Administration be pleased to state—

- (a) whether it is a fact that the Local Board employees were not paid the dearness allowance at the enhanced rate of Rs. 16 from 1st July to 31st December 1945 though the other Government servants are paid at the enhanced rates; and
- (b) if so, whether there is any proposal before the Government to make the local boards pay their employees the dearness allowance at the same rates and for the same period as the Government pay their servants?

A.—(a) & (b) The hon. Member apparently refers to the period from 1st July to 31st December 1944. Government have recently directed local boards to pay dearness allowance to their conservancy menials for this period at the enhanced rate of Rs. 16 per mensem. The question whether a similar direction should be issued in respect of the other employees of local boards is under consideration.

[2nd August 1946]

[Note.—An asterisk (*) at the commencement of a speech indicates revision by the Member.]

II.—ANNOUNCEMENT BY THE HON. THE SPEAKER *RE* CONSTITUTION OF A COMMITTEE FOR AMENDING RULES OF PROCEDURE.

12 noon. Mr. SPEAKER:—"The Rules of Procedure which at present govern the conduct of business in the Chambers of the Madras Legislature are those of the old Madras Legislative Council, with such modifications and adaptations as have been made therein by the Governor acting in his discretion under sub-section (3) of section 84 of the Government of India Act, 1935. Under sub-section (1) of that section, it is for the Chambers themselves to make the necessary rules for regulating their procedure and the conduct of their business. For this purpose, under the auspices of the then Hon. the Speaker, my predecessor, a Committee was appointed in 1937 for reporting on the amendments which might be necessary if the rules were to be placed before the Assembly under section 84 (1) of the Act. The Committee prepared a draft report suggesting certain amendments to the rules. Before the Committee could however pass the report, the Ministry then in office resigned. As the Ministry has now assumed office, the question of bringing the rules of procedure under sub-section (1) of section 84 of the Government of India Act, 1935, has now been taken up.

"On this issue, I had prior consultation with the Hon. the Premier, the Hon. the President and the leaders of the various groups in this House. They have been kind enough to consent to serve on the Joint Committee of the Members of both the Chambers which I intend to constitute for the purpose of making the necessary recommendations in regard to amendments to the Rules of Procedure. I therefore propose the following Members of the Assembly to be Members of that Committee:—

- (1) The Speaker,
- (2) The Deputy Speaker,
- (3) The Hon. the Premier,
- (4) The Hon. Mr. M. Bhaktavathsalam,
- (5) Mr. Muhammad Ismail Sahib,
- (6) Kumararaja Sir Muthiah Chettiyar,
- (7) Mr. H. S. Town,
- (8) Mr. B. Pocker Sahib, and
- (9) Sri S. Chidambara Ayyar."

III.—GENERAL DISCUSSION ON THE BUDGET FOR THE YEAR 1946-47.

Mr. SPEAKER:—"The general discussion on the Budget will now be taken up.

"Before we proceed to the general discussion on the Budget, I wish to tell hon. Members . . ."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Before you say that, Sir, may I submit that we have not yet received the copy of the statement made by the Hon. the Premier the day before yesterday, relating to the present food situation. That will certainly materially affect the discussion to take place to-day."

2nd August 1946]

Mr. SPEAKER:—"The statement will be circulated to the members just now. In the meanwhile, we can proceed with our general discussion on the Budget.

"Before we go to the general discussion, I wish to inform the hon. Members that under Rule 126 (3) of the Assembly Rules, the Speaker has been given power to allot time for the speeches of hon. Members. I have consulted the Hon. the Premier and the leaders of the various groups. To-day we will have to rise at 1 o'clock for lunch and meet again at 3 p.m., to-day being Friday. And for these three days, i.e., to-day, to-morrow and Monday, we will have at our disposal about ten or eleven hours. At the rate of fifteen minutes each, about thirty members can take part in the discussions. I have consulted the Hon. the Premier and the other leaders of groups in the house. I propose to give half an hour for each of the leaders, and fifteen minutes for each of the members. They have agreed to the time-limit. If, however, one or two members want one or two more minutes, I shall have no objection to grant the same. Mr. Ferrelly will now speak."

* Mr. F. FERRELLY:—"Mr. Speaker, Sir, we have listened to the Budget speech of the Hon. the Prime Minister and have also gone through, with considerable interest, the various remarks he has made therein. He mentioned at the outset that he was presenting the present Budget from the Treasury Bench of a Government elected by the people after an absence of nearly seven years. That gives us great pleasure, although it was his party that was responsible for the fact that they have not been there during the last seven years.

"First of all, we would like to congratulate the Hon. the Prime Minister on the manner in which he has faced the problems before him and on the manner in which he has endeavoured to seek new fields for the improvement of the lot of the people of this Presidency. He will, however, I am sure, forgive us if we cannot go all the way with him in these endeavours. We have some criticisms to make, but these criticisms are offered in a spirit of construction and not of destruction; and I hope they will be accepted as such.

"It has been said, Mr. Speaker, that this Budget has been produced hastily and by the vagueness of several of the statements made, we are afraid it is evident that it has been hastily prepared. I do not say that the Prime Minister's statements have been deliberately vague, nor that the issues have been evaded; much less do I say that some of his statements are mere window-dressing; but the fact remains that on the many points brought out, there is no information given to the house.

"If I may, I would like to make my comments, somewhat in the order of the Prime Minister's speech. The first thing which strikes one is the enormous and terrific figure which this Government are spending on State-trading. The figures given to us show that while last year we expected a profit of some 200 lakhs and odd, this year we are going to anticipate a deficit of

[Mr. F. Ferrelly] [2nd August 1946]

some Rs. 600 lakhs and odd. The total figure reversed in this proposal is Rs. 918 lakhs, or over Rs. 9 crores.

"Mr. Speaker, Sir, from the figures which the Government have put in print, we cannot make out what the cost of the administration is; but will the Prime Minister kindly tell us if he is satisfied that the administration is not top-heavy? I would also ask him, Sir, will the Prime Minister take the House into his confidence and will he tell us exactly how those surplus Provinces in India from whom we secure grain, are treating us? May I ask for instance whether in regard to wheat and wheat flour which we got from the Province of Sind, they show their brotherly love for South Indians by charging us a higher price than what we have to pay for wheat and wheat flour from Australia? If I am correct in saying that they charge nearly 50 per cent more, if I am only approximately correct, will the Government tell us what steps they have taken to stop this inequity amongst brother Indians? It is a sad commentary, Sir, that in spite of these subsidies, in spite of war conditions ceasing to exist and in spite of the speeches made here, the cost of living in the Madras Presidency continues to rise. It is not enough that the prices of grains should be controlled; what about the prices of indigenous food products grown in our own villages, in the districts, their prices are now anywhere between 400 and 700 per cent higher than these before the war. The Ministry have, I agree, a very stern task in looking after grain; but it is high time that something was done to control the prices of other food-stuffs. Nothing is mentioned, however, about this in the Budget.

"Then in regard to the growing of more food, we have a lovely picture of the wells that have been sunk, and we listened with some amusement this morning to the questions put in this regard. What I would like to know, is the Prime Minister satisfied that the money granted for the sinking of new wells and for the repairing of old wells has actually been spent and that it has not gone into thin air.

"Now, Sir, we must next comment upon this question of prohibition. Fortunately or unfortunately we feel it is hardly proper for us to hold back our views on this important question. Let me say, we are with you, Sir, in every endeavour that you make to alleviate the lot of the poor man. Judging from this morning's papers, we do not know whether it is going to be introduced in four districts or whether the goal of total prohibition in the Province is to be reached in two years or three years. But we raise this point because we feel it our duty to forcibly bring to the attention of the Government the danger of this policy. Sir, history teaches us—and it is a very difficult thing to ignore history—history for over two thousand years has shown us that in any country which has introduced prohibition, there has been trouble. Does this country expect to succeed, Sir, where China and the United States of America have failed? (A voice: 'Certainly.') Apart from the sense of ability to do, we do not know what we can do. Sir, the sudden stopping of alcohol is likely

2nd August 1946] [Mr. F. Ferrelly]

to reduce the moral standards of the people. You, Sir, are changing law abiding citizens into breakers of the law. Illicit and underground suppliers will be found as they were found before in these four districts, of which we know. And is this the time, Sir, to risk any possible trouble in disregard of law and order? I must say this is not the time. We would like to know if Government are prepared for any such trouble? You have just reduced the rice ration to 8 oz. and now you are taking another risk.

"Mr. Speaker, Sir, I said very early that we would support the Government's efforts to alleviate the lot of the poor man. I suggest that this ought to be done by education, and it is only by education that you can instil into the minds of the people what are the advantages that they would get and not by the carion call of the Government. This can only be done by educating the public to an appreciation of abstinence and by controlling the toddy shops. Improve the quality of the alcohol—usually it is impure and if necessary you may reduce the alcoholic content but unless you are certain that other forms of doubtful varieties are not going to be taken and unless you are sure that you are prepared to have recourse to strong measures to support law and order, you are going much too quickly indeed.

"Now, Sir, my next point is in regard to the suggestion of further powers to increase the inefficiency of our municipalities and district boards. (An hon. Member: Question.) The Hon. the Prime Minister simply says: 'greater powers are going to be given.' What are these powers, I would ask the Hon. the Prime Minister? As a matter of fact, from my own experience in the Malabar District Board and the Calicut Municipality too much power has already been given.

"Next, we have this wonderful scheme of Rural Reconstruction and the uplift of the Harijans. I do not think, Mr. Speaker, that the Prime Minister has any right to come to this House and ask us for a blind grant without saying how it is going to be spent. It is stated that three crores are provided for rural reconstruction and therefore we want three crores, but the Government have not given their plans in regard to the scheme. But, such ideas as are given involve a most dangerous policy. You anticipate selecting certain areas and you tell us plainly that spinning and weaving will have to be carried on there. Is the Ministry prepared to repatriate those who do not want to other districts? No, of course not. Sir, any schemes involving the right of the individual and which aim at curtailing the right of an individual to live his life as he wants it, are against the common practices of democracy. Sir, if this scheme goes through—we heard earlier from one of the Ministers that if necessary he will make effective laws to carry it through—and if this hand-spinning and weaving is to be enforced, you are encroaching upon that most sacred right of every man to do what he likes according to his own light. This is an encroachment which we cannot support. It is true that you can guide but not compel and any law you

[Mr. F. Ferrelly] [2nd August 1946]

bring in or any rules for reconstruction, should aim at leaving the decision to what a man shall do, to him, that he 'may' and not 'must.'

"There is only a very good point which the Prime Minister has made and that is with regard to education. We cannot but support him and warmly congratulate him for having had the courage to say what he has said about university education. I wish that more leaders in India would voice their thoughts so openly. The manner in which we turn out graduates of second-class quality, etc., is no credit to our Province. Cannot something be done to bring pressure upon universities to raise their standard of education? It is far too low and we should support the Prime Minister in any plan which he brings forward on the lines of his speech.

"We cannot overlook the regional languages and we cannot forge what the Prime Minister said two days ago in this House. Then he said that he considered diversity of languages was the principal cause for the disunity of India. I think I am correctly quoting him. If that is so, why are the Government so keen on regional languages. Surely, there is necessity for one language and if you cannot have English, well, have one of the Indian languages for all India. But whatever the language that is adopted, it should be one which will enable your young men coming up to take their part in the life of the world. This country, we consider, has one of the greatest futures before it of any in the world. There are very few opportunities in the world for your young men who are only capable of speaking Urdu or Hindi. This should not be overlooked.

"Now, Sir, we are sorry that you are not taking courage to further the medical side of this Province. We suggest that the whole field of medicine and public health should be urgently reviewed. The standard by which a man takes a degree and practises the profession is too low and so long as you do not take steps to remedy this, the standard will remain low. You should give every inducement to the student to prosecute his studies to the highest available standard and then pay him a suitable salary for his work, and unless that is done you are not going to have a satisfactory medical service in Madras.

"The next point that I have to criticize is the retrograde step in cutting down your Highways. An hon. Member raised a supplementary question on this subject to the Hon. Minister for Public Works and I was not satisfied as to the qualifications of the men promoted to the new Highways Department but that does not mean to say that we feel that there should be cutting down in the programme of giving this country the best possible means of communication which we can. The roads in the Madras Presidency are extremely poor and the roads of the Malabar and South Kanara districts are about the worst of the lot. I say it is a retrograde step—I repeat it—to cut down our Highways at the present time particularly when this Province is going ahead

[2nd August 1946] [Mr. F. Ferrelly]

so much in industrial expansion—not only in industrial expansion but in the expansion of agriculture. The agriculturist must have decent roads to get his products to the market. He has not got such roads now—certainly not in Malabar.

"Sir, you say that some of the funds from the Highways Department are to be spent on Irrigation. We think it is an extremely good point if you must take from the Highways then give it to Irrigation. There are other profitable ventures, it is stated, but what are they? Why does not the Prime Minister take the House into his confidence and tell us what these other ventures are?

"Now, Sir, I really must cross swords with the Hon. the Prime Minister when we come to this dreadful paragraph on Trade and Commerce. I do not know whether he drafted it in anger, but it is certainly a point for sorrow to the Trade and Commerce section of the House. I suggest that the first few sentences are a complete misstatement of fact and I hope that the Prime Minister, when he had heard the arguments, will suitably withdraw. If the Prime Minister is speaking about petty merchants, I am with him. But do Government really mean to compare a money-lender and the small provision dealer with those men—Indian and other nationalities—who have brought to this Province dyes, cotton mills, sugar factories, vanaspati, cement, iron and steel, etc. Surely not, Sir. Trade and commerce go hand in hand with the country's prosperity. I personally am sure—and am sure all the Members of this House engaged in trade and commerce—are proud of the contribution which trade and commerce have made to the social and economic development of this Presidency and I say it is grossly unfair of the Prime Minister to suggest for one moment that this has been done without any risk or responsibility.

"Finally, Sir,—if you will grant me another two minutes—we feel it is a very sad thing that the Prime Minister should have dipped into the Reserve to the tune of nearly nine crores. He says that the Government expect that prices will be reduced during the next few years. He also said that expenditure is going up. If Government expect lower revenues, surely this is not the time to absorb 28 per cent of their Reserve in one sweep. Government must have in their minds new the methods they are going to employ to finance prohibition *in toto*. For this, they have to find approximately one-third of their present revenues. I suggest, Sir, that it would be sound economics to bring in gradually those new measures of taxation or any other measures whereby you are going to finance this Presidency. You will then be accustoming the people and possibly Trade, of what is to come and you will keep your Reserve for those days when there is likely to be much greater need for something to fall back upon."

* MAHARAJA OF PITHAPURAM:—"Mr. Speaker, Sir, the most pressing problem of the moment is shortage of food and cloth. All are suffering but I am sure the poor are suffering

[Maharaja of Pithapuram] [2nd August 1946]

more than the rest as regards food. I most earnestly request our Government to exert their utmost to remove these difficulties and to see that the prices are kept reasonably low, so low as to be within the reach of the poor. In this connexion, Sir, permit me to say that bribery, corruption, blackmarketing and hoarding must be put a stop to and not only that but corruption and bribery in general must be put down with the strongest hand at the earliest possible moment however highly-placed the parties concerned may be by virtue of riches or of office. The most important matter is the removal of untouchability. This inhuman and pernicious system must be removed. Blood-curdling and diabolical sins have been inflicted in a most cruel manner on our unfortunate sisters and brethren, children of the same God as nude as we are. The removal of this evil is imperative. The best interests in this country, social, economic and political, demand it. Considerations of humanity and spirituality sternly demand it. This evil, I submit, must be entirely eradicated. To achieve this object, the sovereign remedy is to make the observance of untouchability a penal offence. To this end, I most earnestly and with all the emphasis I command beg the Government to pass early legislation making untouchability a penal offence. There is another way of helping the Harijans. It is by giving them all possible help by way of giving them financial and other facilities. Sir, another thing is this. Members of the depressed classes should be given appointments both in the Government services and in other public services. They must be given a much larger share of appointments especially such appointments as are responsible and high in the executive line. That the Harijans can do as well as the so-called higher classes is a well-known fact. They, if given the necessary opportunities, will shine as well as other castes. For instance, permit me to say something about you, Sir. Mr. Speaker, you are yourself an illustrious example. You are a Master of Arts and you are, I believe, the first Harijan Mayor of the Madras Corporation. You are, I am glad to find, the first Harijan Speaker of this august Assembly. Let me, Sir, humbly and heartily congratulate you on your achievements and wish you the best of luck. These facts show that the Harijans can acquit themselves in responsible offices with credit and distinction. (An hon. Member: Sure.) They richly deserve the concessions I have referred to at the hands of the Government. I ask for similar concessions for the backward classes also. Likewise, I request the Government to show similar concessions to the women of our country. They are not less intelligent than we men. If there is any difference at all, it is in their favour. The results of the University examinations in various Provinces show beyond doubt that they are as good as ourselves and in several cases better than we. In various Provinces, I find that girls come out first in the Universities and in some Provinces not only first, but second, third and up to tenth and they top the list. They are endowed with splendid qualities of head and heart. They have a very precious gift of God, the maternal instinct, which I am sure will stand them in very good stead. Thus they are better fitted than

2nd August 1946] [Maharaja of Pithapuram]

we are for some kinds of posts. Another question of vital value to our country is the removal of poverty. It is the birth-right of every human being to live in reasonable comfort. Able-bodied labourers must have employment. In their old age, they must be given old-age pensions. Destitute and infirm people must have poor asylums and destitute orphans—boys and girls—must have orphanages."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"What about the abolition of zamindaris?"

* MAHARAJA OF PITHAPURAM:—"That will come in due course. Well, the hon. Member seems to be very anxious about it. It will be dealt with by Government in due course, I am sure."

"As regards finding finances for these things, I would suggest the encouragement by the Government of indigenous industries on a gigantic scale and the cultivation of lands where so many millions of acres are lying uncultivated. These might be brought under cultivation and improved and up-to-date methods should be adopted including methods of wet cultivation of rice and the method of electro-culture."

"Next, Sir, I hope that the Ministry will introduce prohibition in the whole of the province as soon as possible."

"Now I come to the question of education. I hold and it is my sincere belief that religious education on non-sectarian and liberal lines will be of very great importance. I say that the imparting of religious instruction will be of immense value. Students must be made to understand that human existence is worth while as long as it is based on true religion. Another point is this. Sir, when they get the knowledge that the fundamental principles of all the great religions are almost the same, I believe, that conflicts, communal, religious, racial and international are likely to diminish to a very considerable extent. I may even hope that they may disappear in due course. Another point, Sir, is this. The educational institutions, I should like to see great stress laid on the importance of physical education, of games and sports which are indigenous to our country. I am sure they are now conducive to the enduring strength and health of the youth in this country, than foreign systems."

"I wish to refer to one point which is of the utmost importance 12-45 and which is causing very great concern and hardship to the p.m. Andhra population of the City of Madras. The Government have recently passed orders to the effect that instruction in high schools should be given in the regional language—I wish it were the regional languages. We, Andhras, who form a very large section of the population of Madras find that there are only a few high schools where there is provision for imparting instruction in Telugu. This is a very great hardship and my people are labouring very much under this disadvantage. I, therefore, most earnestly request the Hon. the Premier to issue orders at the earliest possible moment—I would even say immediately—and remedy this defect."

[Maharaja of Pithapuram] [2nd August 1946]

"Last but not the least, I come to the vexed question of the formation of the Andhra Province. We, Andhras, have been clamouring for it for ever so long but still it is coming. The formation of the Andhra Province has been approved by both the Central and the Provincial Governments and has, I believe, received the approval of the Indian National Congress. But I am sorry to say that it has not yet become an accomplished fact. I request the Government to do all that lies in their power to set the necessary machinery in motion without any loss of time.

"I humbly submit these proposals for the kind and careful consideration of the Government. May God guide our Government."

M. V. HYDROSS SAHIB BAHADUR:—"Mr. Speaker, after going through the Budget, I feel—I may be excused for giving it as my opinion—that the entire Budget is a jugglery of figures in order to give effect to the political programme of the Congress. When I say that I feel like that, it is because my conclusions are based upon certain facts and figures and announcements made by the Opposition—I mean the party in power. You are aware, Sir, that the introduction of prohibition in the province was cited by the Congress Ministry then in power as a justification for the levy of the sales tax. But now we find that the present Ministry wants to introduce prohibition only in four districts while they are continuing the sales tax at the same level and the excuse is advanced that if total prohibition is introduced in the whole province, they will go short of funds. I would like to draw the attention of the House to some of the figures that are specially earmarked for certain purposes—I mean the amounts set apart for rural or village uplift—you may call it by whatever name you please—and one crore of rupees for the uplift of the so-called Harijans. My view with my little experience in my own place is that whenever a political party is entrusted with funds to carry out any programme that the Ministry might direct, finally those amounts would only be spent to carry out the programme of the political party and to advance their political interest. I say it is much better and, in fact, there might be justification for it, had this four crores of rupees, which has been set apart for village uplift and Harijan uplift, been employed to meet the deficit that may arise from introduction of total prohibition in the province. It is a long-desired programme and it is welcome to all the people of the province. But what is the position? The Ministry simply say that they are going to introduce prohibition in some districts or rather in certain territorial areas. My hon. Friend, Mr. Ferrelley, has given expression to the view that prohibition at one stretch may be harmful to the people themselves. But as a Mussalman, I belong to a community that prohibits intoxicants of any kind. Let us cast our eyes on past history and see how our Prophet was able to introduce total prohibition for his people. When we go into that history—most probably it will be an eye-opener to many of us—we find that in order to achieve his objective of

[M. V. Hydross Sahib Bahadur]

total prohibition, instead of applying it wholesale, he reduced the quantity of liquor that the people were taking each day in order that a stage might be reached when they will be able to withstand the temptation of taking to liquor at the first opportunity, by that means total prohibition could be accomplished. That was a most scientific method followed by our Law-giver and I place the very same method for the edification of the Ministry or for anybody who may think of introducing prohibition in the world. I repeat once more that if this sum of four crores of rupees which has been set apart for rural and Harijan uplift had been diverted to meet the deficit consequent upon the introduction of total prohibition, it would have been more welcome to all people of this province. My fear is that the three crores of rupees set apart for rural uplift would in the long run be used only for advancing the political programme you have before you. I say this on different grounds. The Ministry has accepted the programme which was once contemplated or adumbrated by the Kerala Provincial Congress Committee. There may be any amount of contradictions, namely, that the principles were discussed in this House and that effect was given only to some of the proposals made by the Kerala Provincial Congress Committee. Whatever it may be, it is a matter which has gone on behind our backs; the principles and details were worked out without consulting us and this programme is being recklessly carried out in Malabar. The officials in charge of the programme do not consult other parties and only consult Members of the Legislature belonging to the party in power. I am told at the outset that there was a Government Order to the effect that in the selection of members for the various village committees in Malabar, the M.L.As. may be consulted. I may tell you, Sir, that while the Committee for Palghat was formed, I was not consulted and it would be interesting for any one to know that I have been elected from the same constituency comprising the two taluks of Palghat and Ponnani. Neither was my hon. Friend Mr. Mohideen Kutti who comes from the same constituency. We have never been consulted and on the other hand, they have put in their own nominees and I understand it has been done in consultation with the Congress workers in those areas. If the very same principles and if the very same methods are adopted in spending this huge sum of three crores of rupees, I may at once tell you that it is going to affect all other communities and the other political organizations. When the Hon. Minister for Food visited Malabar, I drew his attention to some of the facts that I had witnessed with my own eyes in the matter of the organization of the so-called village committees. When officials visit the different centres they go in Government jeeps in the company of Congress workers thereby elbowing out people belonging to other parties and they are not given any opportunity to freely express their views and place facts before the officials in the matter of getting effective representation in any of the bodies that are working in the district. If the same methods and principles are followed, if they are not going to change them, I am

[M. V. Hydross Sahib Bahadur] [2nd August 1946]

afraid the whole of this huge sum of money would go only for the advancement of the political organization called the Congress and the other political parties would be left behind. So I suggest that these items may be cut out and used for the exclusive purpose of meeting the deficit that may arise on the introduction of total prohibition.

"It is well that we remember that the Ministry has made provision in the Budget to carry out their programme and policy with regard to education. They have set apart one crore of rupees and especially earmarked it for the so-called uplift of the Harijans which may be used in other ways. As far as education is concerned, Harijans will be entitled to have their due share out of the common funds set apart for other communities as well. If they really mean that the so-called Harijan uplift is the economic and financial uplift, I have nothing to say about it. If they really mean that, this amount will also be spent for purposes of education of the Harijans, I may say that the Muslim community though it forms seven per cent of the population will also be entitled to the same special concessions—as a matter of fact they are entitled by right to some special amount for their education. I am sorry to say that in the preparation of this Budget, the Muslim community has been totally neglected. We, Muslims, claim that we belong to a religion and possess a culture which is different from yours."

MR. SPEAKER:—"The hon. Member will continue his speech after lunch interval. The House will now adjourn and meet again at 3 p.m."

(After lunch—3 p.m.)

MR. SPEAKER:—"Several hon. Members want to take part in the debate. Therefore I consulted the Hon. Premier and Leaders of parties and we have agreed that the House shall sit to-day till six o'clock."

M. V. HYDROSS SAHIB BAHADUR:—"Sir, I was dealing with the subject of education when the House adjourned for lunch. You are aware that the policy enunciated by the present Government is to the disadvantage of the Muslims of this Province. You are aware that the present Government have announced that education will be imparted in the language of the region. You are aware that in this province we find different districts or groups of districts having different languages. For example, there are Telugu districts, Tamil districts and places where Malayalam is the main language. I put it to you, Sir, if we are going to have our entire education based on regional language, how will it be possible for an Assembly like this to transact business; and how will it be possible for us to exchange our ideas? Do you wish to have for ever this language in which I am addressing you to-day? Or is it your intention that we should have a common language, and that we should encourage such a one?"

"Now, there is the other aspect of the question. That is, one hon. Member was good enough to remark this morning that because

[2nd August 1946] [M. V. Hydross Sahib Bahadur]

in the Hyderabad State, His Highness the Nizam has introduced Urdu as a compulsory subject, we should also have the regional language as the medium of instruction. I hear that Hindi or Hindustani, whatever you may call it, is one of the languages under contemplation that is going to be introduced in this Province. I ask you, Sir, how many Hindu homes are there in this Province where Hindustani is spoken as mother-tongue? How many Hindus are there who exchange their ideas in this language? I put it to you, Sir, whether the present Ministry can transact business in Hindustani? Well, Sir, there is a lot of difference between the despotic rule of a monarch and the rule of a popular Ministry. If you really understand what is behind the move of the Nizam, you will not put that as an analogy. Do you mean to say, that you are going to compel everyone here to study Hindustani or Hindi, whatever you may call it? If that is your intention, you are not justified in doing so; because, as I said, there is a lot of difference between the rule of a monarch and the method of rule of a popular Ministry. Or, you may say, 'We are only trying to introduce a system of education which finally will bring all people together.' The Hindustani Talimi, as the Premier was pleased to announce yesterday, is it the Wardha system or the Vidyamandir system, of which we hear so much? But the Muslims have their own culture, their own religion and their own language. What is the place given to their language by the present Ministry? That is the question I would put to them. We have got our Arabic language, we have got our Urdu language. Where do those languages come in? I hope Government will be able to answer the question. Sir, one thing I assure you, and that is, the Muslims here consider, as any other people, that their language is the real index of their civilization; it is an index of their culture; it has been so throughout the world; there is no doubt about it. I tell you, Sir, the Muslims require their own culture and their own ideal to be kept up for ever; and any attempt to disturb it by anybody, whether it is the present Ministry or any Government, will be resisted by the Muslims to the last drop of their blood. You want the Harijans to be uplifted; and do you want to put the Muslims in the place of the Harijans? Our civilization, our culture and our language will never be allowed to be jeopardized by any action of Government."

* SRI KALA VENKATA RAO:—"Mr. Speaker, Sir, I congratulate the Hon. Premier on the presentation of his first budget. It has got its novel features. Finance is not merely arithmetic. (Laughter from Opposition Benches.) It has a great policy behind it. Mr. Gladstone, one of the greatest of Premiers of England once stated:

'Budgets in a thousand ways go to the root of the prosperity of individuals, the relations of classes and the strength of nations.'

Based on that, one would like to have a particular kind of taxation which would raise the standard of living and change the present kind of economy that has been imposed upon our country

[Sri Kala Venkata Rao] [2nd August 1946]

by a foreign nation. That is possible only by having a strong Central Government at New Delhi. We are not yet near it; perhaps we may have to wait for some time more. But as far as the provinces are concerned, we have been enjoying, what is called, provincial autonomy for nearly a decade. But in that period the Congress Government functioned at first for two and a half years, and now the Congress is in for the last two and a half months.

First, I would like to state a few things about revenue. A Government has to collect taxes and then administer them in a particular manner so that maximum benefit is distributed to all. On this, I would lay a principle accepted now-a-days throughout the world; and that is, calling on citizens to make sacrifices equal to their varied incomes. This would increase the taxable amount as also the total tax income. Then, we have to revise our tax schedule and construct our mode of collecting taxes on this principle. What is contained in what I just said is, what is called, 'progression'. You should not only collect from each person a particular portion of his income, but a greater rate from a man who gets more income. This principle should be introduced into our tax structure. Land revenue used to form practically the mainstay of the Government of this country in the past. In 1821 land revenue formed as much as 62.17 per cent of the total revenue. The days have now changed. Now we are collecting eight crores as land revenue in this Presidency including wet rate charges, and in the incoming budget of 48 crores, it forms about 16 per cent. This 8 crores can be said only to be a regressive tax. We have to change its basis, and I hope the Hon. the Revenue Minister will bring forward legislation to change the assessment of revenue in this Presidency. In re-planning and re-building our tax structure we have to consider one or two important points. One thing we have to do is to give the exit to the excise revenue; and we should introduce land tax on a sliding scale. We can have a basic tax, we can introduce a differential water-rate and impose more than anything else an agricultural income-tax. We have to re-arrange the present rate of sales tax. Then we have also to find fresh avenues. (Mr. Abdul Hamid Khan: 'What are they?') Bring in legislation to levy death duties, increased tax on motor vehicles, tax on sales of articles of luxury, tax on employment and tax on property. (Mr. F. Ferrelly: 'Tax on property? It was tried and given up.') It was dropped on account of some other difficulty. And then, Sir, more than all this, we have to abolish zamindaris. I was agreeably surprised to hear the Zamindar of Pithapuram saying in the Gokhale Hall that zamindars are willing to give up the estates. I am very glad to see that at last the zamindars have responded to our request. When the Prakasam Committee Report was debated in the House, the Kumararaja of Chettinad was rather angry for suggesting this thing. To-day, the zamindars themselves are anxious to give up the estates, I hope, including Kumararaja of Chettinad. Not free; but of course for a compensation. But what kind of compensation has to be given, this legislature will have to determine. When in 1936

2nd August 1946] [Sri Kala Venkata Rao]

Inams legislation was brought forward, the Viceroy refused assent because there was no provision for compensation for the appropriation of kudivaram:

"We will give them a year's rental on each estate. Rent 3-15 has grown from 72 lakhs in 1802 to 211 lakhs now. By this we are not doing anything extraordinary, because the zamindars themselves have shown the way in 1936. In those days the Raja Saheb of Bobbili was the Chief Minister. P.1

"Then, Sir, I come to the question of expenditure. The prosperity of a nation, as we all know, is bound up with its political liberty. The Government of India Act of 1935 restricts the freedom of the Provincial Governments to explore fresh avenues in order to proceed in any way they like. We have to bear to-day the legacy and the burden created by the past Governments as a result of the policies that they followed. If the Congress have not done anything else according to critics, it must be accepted and acknowledged that they have inculcated a spirit of service among those who are called upon to run the administration by accepting low salaries. Our country is one of those poor countries where the salary schedule is very high. We have to reform it, and we should get the power to frame a new constitution having the right to limit our expenditure.

"Then, Sir, we have got the question of social services. In England they spend as much as 25.95 per cent of their State income on social services and in Australia 17.5 per cent. But in India we spend only 8.5 per cent of our Revenue on social service of every kind. Of course, I must say that after the introduction of the Montford Reforms, expenditure on social services began to show an increase. Even the Governments prior to the Congress Ministry of 1937 have shown what they can do under the diarchic system, to improve the social services. In our presidency there was an increase of about 38 per cent over the 1922 basis by the time the Congress took up office, and in 1939-40, it registered further increase of about 5.9 per cent. As years go by, our expenditure would not be so much on the army and the navy and much less on wars. We can spend much of our income on social services, and the Prime Minister has shown a way by creating the Rural Reconstruction Fund and the Harijan Fund of four crores of rupees—I stress the word 'Fund' because of the suspicion created. Funds have been created, and sums will be drawn from them for fresh schemes which will be adumbrated, perhaps with the approval of this House, so that their benefits may be distributed to the rural areas on an agreed basis. Sir, in the conditions of the nineteenth century liberalism, to which one of the Members in this House referred to—and I had to interject also—they were developing a society where wealth accumulated and men decayed. We have to find ways and means to prevent this trend. To do away with this trend in the seven lakhs of villages in this country, I would like to suggest that these funds and the additional funds that the Government will provide in the future should go towards the enlargement of the social services in

[Sri Kala Venkata Rao] [2nd August 1946]

the rural areas of our land. Well Sir, we have heard many arguments in favour of an industrialized agriculture. To-day I read in "The Contemporary Review" an article written by a great authority, about the effects of mechanized agriculture on rural areas. He has clearly stated that the conditions have very much changed due to mechanization and that, as a result even in America there is a large surplus of unemployed figure in the rural population. I believe that we have to proceed on different lines. I have no objection to industrialization as such; but for the industrialization of the plough I am not prepared. We must give an instrument, perhaps an improved one, but should not mechanize the plough in this country and thereby destroy once and for all the basis of our rural economy. If we want to arrange for the dispersion of wealth, on a wide basis, it can only be done by the adaption of decentralized methods of production. *Laissez faire* has left this world for good, and we have come to the days of planning—planning of the Russian type, the American type and the English type, and out of these we will have to perfect the Indian type, to serve our nation. Well, Sir, we know that India has to develop in this particular manner. We have to put our shoulders to it and help every such endeavour if we want to progress. I can say with confidence that of all the 'isms' that have ruled this world, Gandhism is the best thing and therefore, Sir, I would commend it as the best basis for planning.

"Then, Sir, I would like to say a few words about irrigation. I would restrict my remarks, because the time allotted is drawing near and speak on this when the debate on irrigation comes up before this House. I will just say one or two points about the need for a river policy in India. In Mysore, rivers are bunded or in Hyderabad rivers are bunded, before they enter British India and on account of these methods, famine stricken areas are created, as in Rayalaseema. Therefore, Sir, I would like to advocate the creation of a nationalized river and multi-purpose system like the T.V.A. and the Damodar river system. With the other aspects of irrigation, I would like to deal later on.

"Before I finish, I would like to join with the Maharaja of Pithapuram in his appeal, a matter in which I am also very much interested. It is the creation of the Andhra Province. It will be a matter for the Constituent Assembly—we will do our best there—but meanwhile, I would ask for the support of the Ministry for the creation of linguistic provinces, a proposition which has received the support of this House on more than one occasion. Meanwhile I would request the Hon. Prime Minister to appoint a fact-finding committee, mind, not a boundary commission. Without raising any controversial issues, necessary facts and figures will have to be collected. I hope the Government will undertake this work at once.

"Before I sit down, I would like to congratulate the Hon. the Prime Minister on the presentation of this budget which will receive the general commendation of the House."

2nd August 1946]

* K. M. SEETHI SAHIB BAHADUR:—"I am not expected to offer any comment on the arithmetical manipulations relating to the various items of income and expenditure dealt with in the budget. It is only on the policies that have been adopted by the Government that I would like to offer a few remarks. The one thing which we on this side of the House are able to follow in the face of the bewildering figures is that the Prime Minister has succeeded in balancing the budget and that, by heavily drawing on the revenue reserves. The policy of the Congress Ministry was expected to be one which would help the underdog more than anybody else. It was expected that the lower grade subordinates in the public service would be benefited by the reforms that the Congress Ministry would introduce in their budget, but provisions for helping the subordinates are conspicuous by their absence in the budget.

"I now come to some of the innovations and administrative policies that they have in contemplation as for instance their proposals in the matter of food administration and the reorganization of education. It is my duty to bring to the notice of the Ministry that in adopting these proposals, they are really running grave risks, treading on very dangerous grounds, and undertaking a very heavy responsibility involving the feelings, susceptibilities, rights and interests of millions of people of this Province. It has been the consistent contention of the Muslim League Party here that food administration ought to be a non-controversial subject and that it should be under the direction of a non-party board consisting of representatives of the important political parties in the Province. The useful suggestion given by the Muslim League Party to that effect was not headed much less accepted by the Ministry. It was jettisoned and the result is that in all the districts there is heart-burning on the part of the minority communities like the Muslims at the arbitrary way in which measures relating to food administration are being carried on with the one-sided advice and co-operation of Congress committees. As the hon. Members of this House know, an adjournment motion was sought to be moved at the last meeting of the Assembly to discuss the serious situation that has arisen in Malabar as a result of the introduction of new scheme of food administration and the Hon. Speaker disallowed it on the ground that the meeting was convened for the specific purpose of electing representatives to the Constituent Assembly and that therefore the motion was not admissible. The intensity of the feelings of the people will be evident from the fact that members felt compelled to move an adjournment motion even at a special sitting of the Assembly."

MR. SPEAKER:—"The hon. Member should not question the ruling of the Speaker."

* K. M. SEETHI SAHIB BAHADUR:—"I am not questioning the ruling of the Speaker. I am only referring to the intensity of public feeling evidenced by the fact that an adjournment motion was sought to be moved at the meeting convened for the purpose

[K. M. Seethi Sahib Bahadur] [2nd August 1946]

of electing members to the Constituent Assembly. Far from questioning the ruling of the Speaker, I quite agree with him that that motion had technically no place at that meeting. In fact, the point I was referring to was quite different from the one the Speaker had in mind.

"What was it that happened in Malabar district in the matter of food administration? In several villages and some taluks where the Mussalmans form a considerable proportion of the population, they were not given representation proportionate to their population, and in some cases there were no Muslims taken at all on the committee. You will be surprised to hear that certain committees, which were formed in consultation with the Muslim M.L.As., were subsequently remodelled on the ex parte advice of the Congress workers by reducing or tampering with Muslim representation. I am not saying that food administration cannot go on if Muslims are not on food committees. What I mean is that food administration is not taking the course which the Congress Ministry professes to aim at. I suppose the Congress Ministry want the co-operation and assistance of all sections of the people in their food administration, and if that is their object, it is simply being defeated by the way in which the officers entrusted with the actual administration are carrying on their work in the districts. I emphasize it once more that the Congress Ministry must take into account the feelings, sentiments and opinions of other political parties also in such important matters as the food administration, where they ought to expect the co-operation of all sections of people in the Province.

"I wish to make a few remarks with reference to the educational reform which the Ministry have now in contemplation. One feature of that reorganization has been disclosed by the Hon. the Premier in his statement made while introducing the Budget and that is the idea of the Ministry to introduce basic education in this Province. As my hon. Friend Mr. Hydross told this House, this basic education scheme is no other than the Wardha scheme or the Vidya Mandir scheme which was tried in other Provinces in the teeth of the strenuous opposition from the entire Muslim body politic of those provinces. In fact, in the Central Provinces the Muslims offered civil disobedience against the Vidya Mandir scheme, and the Congress Ministry there had to suspend the scheme in response to the very strong feeling expressed by the Muslims. Why should the Muslims be so very unreasonable in this matter might be the idea passing through the minds of my hon. Friends on the other side? They must have a little more imagination and sympathy in facing such questions. In fact my hon. Friends know that every community has got certain religious feelings and susceptibilities. The Hindus represented by the Congress would certainly be making the utmost sacrifices for the vindication of their religious rights and the satisfaction of their religious sentiments. On the rights, privileges of even castes and sub-castes in the Hindu community, they are so very stubborn and jealous. It may not, therefore, be reasonable or fair for them

[2nd August 1946] [K. M. Seethi Sahib Bahadur]

to accuse the Muslims for being religious-minded and zealous in observing religious practices and traditions. While introducing basic education, you must see how it affects the Muslims. Religious education is considered very essential and most vital for a Muslim. The first thing that a Muslim child is made to learn is the recitation of the Holy Quran and the fundamental principles of Islam. Religious instruction is taboo under the basic education system. Under that system no religion should be taught to children the reason apparently being the notion that it is religion that really creates differences in human society and that no particular denominational religious instruction should be imparted in any school. That seems to me to be the stand of the protagonists of basic education. I do not agree with those who plead for the elimination of religious instruction from the educational curriculum. On the other hand, I believe that religious instruction given on right lines will be the greatest factor that will bring about unity and harmony in human society and create a feeling of human brotherhood. I contend that religious instruction should be provided for not only the Muslims, but also for the Hindus, Christians, and all other communities in the country. However difficult it might be, it has to be achieved. It is not as if the Hindu brethren do not need religious instruction. They have ever so many means to have religious instruction. Even the text-books followed in our schools contain sufficient material for them to have instruction in the tenets and traditions of their religion. Even though they are not called religious text-books, they really contain sufficient information for them to have a grounding in their religious knowledge. So it is that they do not generally ask for provision for religious education in the curriculum of studies. It is not correct to treat the Muslim on the same footing as the Hindu while considering the question of religious instruction. Sir, the Muslims need separate text-books, and a separate curriculum of instruction for their religious education and suitable teachers will have to be appointed. Some might say 'What an extraordinary thing are these people asking for!' I honestly feel that there is some misapprehension about religious education. If religion could be taught in universities, like the Muslim University in Aligarh where theology is compulsory, and which produce genuine patriots fighting for the liberation of this country, why should it not be taught in the lower classes? Believe me, religious instruction is not going to adversely affect the patriotism or the nationalism of the students, but would only infuse in them the right spirit to work for the common good of this country. There will be great confusion if religious instruction is to be eliminated altogether by the introduction of this scheme of basic education. What is going to happen is that in the basic education scheme there will be no provision for teaching Islam while in the guise of moral instruction the Gandhian ethics or Hindu ethics will be taught with its emphasis on non-violence. I do not quarrel with non-violence. There is divergence of opinion between community and community and religion and religion on basic doctrines. The Muslims believe both in violence and non-violence for achieving great aims and

[K. M. Seethi Sahib Bahadur] [2nd August 1946]

ends. A Muslim has his own religious and ethical ideology which he has to study from his early boyhood. He cannot, therefore, make any compromise on the question of religious instruction. The Government have to make provision for the religious instruction of Muslim children at any cost. Apart from this there is very serious difference of opinion on the desirability of having a system of education dominated by the study of crafts at the expense of humanities. In basic education the emphasis will always be on crafts and not on humanities, and ultimately the system will not be conducive to the cultural elevation and refinement of the minds of the students. This view is honestly held by a large body of enlightened public opinion. The advisability of the introduction of basic education is, therefore, a debatable question which admits of honest differences of opinion. So what I would submit is that this basic education should not be imposed on the Province without regard to the views and feelings of people like the Muslims. Muslims can never reconcile themselves to basic education which shuts out religious instruction. I feel nervous to sound a note of warning to my hon. Friends on the other side, one of whom went to the extent of indulging in the cheap sneer that gun licences should not be given to Muslims because of the language of the Bombay resolution of the Muslim League! However, I cannot help saying on the floor of this House that it will be an extremely painful duty on the part of the Muslims of this Province to put up a fight to the finish against any policy of education promulgated by the Government in disregard of the Muslim sentiments and feelings and without making suitable provision for their religious instruction in schools. Let the Ministry have experiments with non-Muslim students, but let the Muslim students be exempted from these experiments. I am glad, I have the assurance of my hon. Friend the Minister for Education that the new proposals for educational reorganization will be published for public criticism before final orders are passed and let us for the time being rest content with that assurance. I sincerely trust that the Premier will respect the feelings and sentiments of the Muslims and avoid everything that will give room for clash between community and community in this province. Otherwise, we will have very very difficult times in the political life of this Province.

"One hon. Friend was referring to provision for religious instruction on non-sectarian lines. I can appreciate the ideal, but I am afraid it is impossible of accomplishment. Religious instruction on non-sectarian lines is an impossibility. Religious instruction should be imparted to particular religionists according to the principles of their particular religion and not on non-sectarian lines. The so-called non-sectarian religious instruction has always the tendency to have the complex of a particular sect or religion. So let us make a wise arrangement. Let religious instruction be provided for Muslims, and also for Hindus and all other communities that want it in their respective religious principles and traditions. That will be the best solution of the educational problem in this country."

2nd August 1946]

* SRI A. KAMESWARA RAO:—"Jai Hind! Mr. Speaker, Sir, I congratulate our Prime Minister for having presented a budget unique in the history of budgets in India and of the Congress Ministry, because that budget provides one crore of rupees for Harijan uplift and three crores for rural reconstruction. I was pained to hear some arguments against this provision for Harijan uplift and rural reconstruction. I want to know whether there is any member in this House who is not for the poor and down-trodden Harijan. That he had the courage to make this provision in the budget is itself complimentary.

"As regards the mother tongue of Muslims in Andhradesa, I say their great grandfathers had been Hindus and even after embracing the Islamic religion they have been speaking only Telugu and their mother tongue is Telugu. They should not be ashamed of it. They should not forget that they are the children of Hindustan-India. They now want to borrow another language just as they have borrowed another religion and want to give up Telugu which is spoken by Muslims in all places in the Andhradesa. Of course if they want they can have Urdu as a secondary language such as Hindustani (ironical cries of 'Many thanks'), but not give up Telugu. 3-15 p.m.

"Next coming to prohibition, I am pained to see that it is proposed to introduce prohibition this year only in four districts. I am for total prohibition here and now. I realize the difficulties in the way of introducing prohibition throughout the province all at once. I must point out that in Soviet Russia, where I have travelled extensively, the Socialist Government has not been able to compulsorily introduce prohibition. I know the difficulties and that is why I say it would have been better if prohibition is not started this year in four districts but started next year in all the districts. Of course the idea of the Hon. the Prime Minister seems to be to proceed step by step and bring about complete prohibition in the province in the next three years. There are difficulties in the way of achieving this. When prohibition was declared in America, people gathered in the borderlands and in the little islands out in the sea and, in defiance of the Act, took liquors and they even brought liquors from Mexico through tunnels to the main land. In the same way, before introducing complete prohibition in our province we will have to see that Ceylon also adopts this policy. There will be difficulties, of course. I hope, however, that complete prohibition will be an accomplished fact here in three years.

"I shall next say a few words about the zamindari system. Sir, I am of opinion that the system should be completely abolished without any compensation. The zamindars are the blood suckers of the ryots. No mercy should be shown to people who have been oppressing the ryots for hundreds of years. They deserve no mercy, no quarter. I feel so very strongly in the matter that if I have the power I will abolish the zamindaries right now. (Laughter.) The ryots are oppressed with debts. There should be a moratorium declared with regard to these debts or all their debts."

[Sri A. Kameswara Rao] [2nd August 1946]

should be completely abolished. I have resided in Soviet Russia for two years and studied Soviet economic system. I have great love for that country and even their enemies do not withhold their admiration for their agricultural and economic systems. That is the only one country where there is no unemployment. I have travelled from one corner to the other in Russia and have seen for myself the way they were carrying on their works like the great Moscow Volga Canal and Dneiper Dam. It is a recognized fact that it is only in that country food is plenty at the present time. They have surplus food to be sent to India also. All this is due to the working of their wonderful economic system. I am a socialist and I believe in socialization of all the industries and the land. Unless land here also is socialized you cannot ameliorate the condition of the ryots. Some hon. Members caused me surprise when they said that industrialization would not be profitable in India. I believe in complete industrialization and electrification of industries and agriculture. With my own eyes I have seen in Russia how great farms were ploughed by tractors and seeds sown by 'planes over thousands of acres in no time.' We have plenty of land here and if only you adopt collective farming and introduce electrification and mechanization in agriculture you could multiply the yield from lands several times. It is for the Government to devise the means and advise the ryots what to do and how to do things. They should not be content with growing one crop in a year when they can easily raise two crops. I hope the Hon. the Premier will take pains to see that this is done with the aid of experts. I am aware of the unfortunate fact that he has to rely on the old budget and the old people still at the helm of affairs in the departments. They are not progressive people with progressive views. Their views, as they have imbibed imperialist ideas, would be one-sided and their plans unsuited to national interests.

"I hear so much about the Muslim communities and all that. There is no religion. Religion is for the mind and it is not a matter for practical living. Religion is the opium of the people. I ask you one thing. If there is a Muslim capitalist, does he feel any pity or regard for at least the Muslim who works in his factory and sheds his blood at work? No Muslim feels that way. Does the Hindu capitalist feel anything for the Hindu labourer working before his very eyes because he is a Hindu? No. Nobody feels for the worker, whether he is a Christian, a Muslim or a Hindu. The cloak of religion is nothing but a myth and society is divided only into two classes, the exploiter and the exploited. So, root out exploitation altogether. Let there be no exploitation of man by man. Let us build a classless society. Then only we can ameliorate the condition of the people; otherwise not. What the British have been trying to do in this country is to play the monkey in the story of the cats and the cheese. They say: 'Here, look at the Constituent Assembly.' One section of the population says, 'We do not want it.' There are threats from both Hindus and Muslims. Let all the classes in

2nd August 1946] [Sri A. Kameswara Rao]

India, labour, nationalists and capitalists, join together and drive the British out of the country and establish here a Government based on socialist plan. (Laughter.) Unless there is that spirit amongst us we can have no salvation. We cannot solve any of our problems. As long as the British are here, they will introduce splits and schisms between you and me and between this man and that man. I therefore beg of the Muslim members not to play into their hands and create a split. Now, what are our differences? My hon. Friend on the other side was talking about village committees. Only the other day, my hon. Friend Mr. Salam and I sat together and amicably drew up a satisfactory list of members to such committees. That being the case, I cannot understand this talk of the committees being swamped by Congressmen. On the contrary, many of the Collectors and Deputy Collectors have removed from the lists, the names of Congressmen in many cases. That is my complaint. (Laughter.)

"Turning next to the Budget, Sir, I find in it an item for growing sweet potatoes. I cannot understand why some Members object to it. Sweet potatoes are the staple food of Africans. I was in Africa for two years and found the people there subsisting on sweet potatoes. Plantains also are the staple food of many.

"It appears we have got tons of condensed milk available. The Advisers' Government provided some crores for securing this commodity. I do not know what has happened to this economic stock. I am afraid it is not going to be distributed properly. I hope the Hon. the Premier will take proper steps to have it distributed in time and not allow it to be kept stored in Collectors' offices, so as to enable the peons, the tahsildars and the revenue inspectors smuggling it and thus exhausting the supply.

"Sir, corruption is there. We should attack corruption. The corrupt officials must first go. Unless we root out corruption and unless corrupt officials go, you cannot successfully put into effect any of your beneficent programmes. I can give instances of corruption. I went to a place to see things for myself. A tahsildar takes 2 annas for sanctioning half a seer of sugar. What a shame! (Laughter.) For sanctioning one seer he takes 4 annas. The people have reported this to Government and the matter is pending with the Parliamentary Secretary, who also visited that place. There are so many cases like that.

"I do not think the budget presented by the Hon. the Premier will affect anybody adversely. He is a leader who knows the people and their wants. He knows their ideas and their feelings too and acts with that knowledge. While in the old regime, the Premier never allowed the members to speak at party meetings, we know now that we can speak and ventilate our grievances and our feelings. We are coming together."

MR. SPEAKER:—"The hon. Member has taken more than 15 minutes."

[2nd August 1946]

* SRI A. KAMESWARA RAO:—"I am concluding, Sir.

"Any budget that does not provide for compulsory education is no good. We must introduce compulsory education immediately. Unless this is done we cannot progress. Of course I shall speak on the subject when that Demand comes up later. But I would state here that you have to be very careful in introducing compulsory education. In places where there are industries you will have to open industrial schools. For instance in Palnad in Guntur slates are made. The children there must know the industry. In every industrial area there should be an industrial school. Mahatma Gandhi has given a scheme for basic education. I strongly support the Wardha scheme. With these few words I resume my seat."

* MUHAMMAD RAFAEUDIN AHMAD ANSARI SAHIB BAHADUR:—"Mr. Speaker, Sir, the hon. Member who has just spoken has said that in his district there has been no trouble whatever with regard to the selection of members to village and taluk committees. I am sure, Sir, he has not studied the working of these committees throughout the Province and though he may speak about his own district, he cannot speak about the other districts with the same authority. But I can say, Sir, that in my district—Nellore—facilities for the Members of the Assembly to look into these lists of village committees have not been given and it was only on a reference made by me to the Collector, that he, rather belatedly, issued instructions to the respective tahsildars that I might be shown the lists about formation of these committees. Even then, Sir, I may inform the House that the only answer that I got from the various tahsildars was that the lists were ready in their offices and that I might look into them at a particular time on a particular day. Now, is it possible for me to go to each of these offices throughout the district and look for myself the various lists that they have prepared? Would it not be more easy and helpful, Sir, I ask, for the tahsildars to send a copy of the list to the various Members of the Legislature concerned to enable them to study the lists and to give them their suggestions, if any, in the selection of the candidates?"

"Now, Sir, with regard to the taluk committees again, when the debate on food was going on, some Members on this side of the House were inviting the attention of the Hon. the Premier to the dearth of Muslim representation in the taluk committees as at present constituted. Sir, it is all right for the previous speaker to say 'Well, these committees are there and how do we know that these committees are not going to do full justice to the people?' That is not the point. As one of the previous speakers in this House said, the idea of the whole scheme is that the public should be associated with the food administration and if you want to pursue that policy, and if you want that that policy should be converted into action, then, Sir, you must give an opportunity for the different sections of the public and to the Muslim community in particular, which forms an integral part

[2nd August 1946]

[Muhammad Rafeeudin Ahmad Ansari Sahib Bahadur]

of the public, to associate itself with the Government in the administration of that policy. How can you expect us to co-operate with you, when there is no place for us on the Taluk Committees? We have heard much about the Congress leaders decrying separate electorates and advocating the system of joint elections with reservation of seats for minorities, but I may state that with regard to the constitution of these Taluk Committees, they have gone one step further and have resorted to joint electorates without reservation of seats for the Muslim representatives. I hope, Sir, that this injustice to the Muslim community will ere long be remedied by the Hon. the Premier. After all, what is it that we want? All that we want is that we should be given an opportunity to co-operate with the Government to serve on the Taluk Committees as well as the District Committees, in the administration of their food policy. Is it an extravagant claim?"

"Then, Sir, I may state, at the risk of repeating what many other Muslim Members on this side of this House have said, and even if, for no other reason than to lay emphasis on the fact, that the Muslim community intensely feels the injustice of the educational policy of the Government. Sir, we have been hearing that the medium of instruction should be the mother tongue. Now we are using a new phrase, that the medium of instruction should be 'the regional language'. What is it that has prompted the Government to change the phraseology? Is it a cue that has been taken out of the Cabinet Mission's juggling with words; if so, then it is no wonder that the Hon. the Minister for Education wants to follow suit. But I submit, Sir, that the regional language is not the same as the mother tongue so far as the Muslims are concerned and the previous speaker is wholly incorrect in saying that both are the same. Let him at least admit that we, the elected representatives of the Muslim community in this Province, know more about the feelings of the Muslim community than he does. Let him not take the responsibility of representing the Muslims also, for which he has no authority."

"Then, Sir, in my district of Nellore, we have been for a long time agitating for a separate high school for Muslims with medium of instruction in Urdu. But even in this budget no provision has been made for the opening of a high school for Muslim boys in Nellore. There is a middle school for Muslim boys run by the municipality. Now what is the use, if the pupils who pass out from that school, and who have been educated all along through the medium of Urdu, are asked to join a high school, where the medium of instruction is not Urdu. If the Government want to retain that middle school, then the logical corollary is that it should be raised to a high school with Urdu as the medium of instruction. This is a question upon which the Muslims in my district are keenly interested and I do hope that the Government with its vast majority will not disregard the feelings of the Muslim community in this matter and see that the school is raised to the status of a high school."

[2nd August 1946]

[Muhammad Rafeudin Ahmad Ansari Sahib Bahadur]

"Now, Sir, let me refer to another matter, which can be described as an echo of past unhappy events. You must have heard of the communal riots in Nellore which occurred two or three years ago. I can assure the House, Sir, that I am not very happy to refer to these riots now, when it may be argued—and wrongly I say—that those events are all past and that communal riots are, once for all, gone. But I know, Sir, that the feelings are still intense in Nellore, and the past Advisers' Government were turning a deaf ear to cries of the Muslims in this regard. Now that a popular Government is in office, they hope that their cries will be heard. I therefore wish to bring to the pointed attention of the Government that these communal feelings are still alive that the slightest provocation will easily set fire to the communal rage, which will result in riots and disturbances with all their attendant horrors. I therefore submit that unless the communal problem in Nellore is satisfactorily solved, there is always this danger to the public.

"Now what is the real cause of these communal disturbances? I think, hon. Members are aware of the longstanding question, the question of music before mosques. May I just remind the House that so long as the Congress Ministry was in power prior to 1939, in spite of many representations by the Hindus, it refused to execute the civil decree which allowed music to be played before mosques. It was the Advisers' Government which came in after the resignation of the Congress Ministry, that reversed the policy, which resulted in the unhappy incidents which we all know. Now that the Congress Ministry is again in power, it must reverse the policy of the Advisers and see that the Muslim community is appeased. I believe that the Congress has declared as its policy, that as a measure of goodwill and harmony between the two communities, there should be no music played before mosques on the one hand and that there should be no public sacrifice of cows on the other. If this policy is adhered to, by the present Congress Ministry, then I am sure it will go a very long way towards establishing communal harmony in the district as also in the whole Province. If it is argued that the difficulty in the way of enforcing such a policy is the civil court decree, then the difficulty must be got over by introducing necessary legislation in this House. I do hope, Sir, that I may be given an opportunity of referring to these matters more fully when the appropriate Demand comes up for consideration in this House. At present I shall refer to this matter only in passing.

"In conclusion, Sir, I wish to refer to the words of the late Rt. Hon. Srinivasa Sastri, which he uttered when addressing a meeting at the Law College in 1937. He said that the then Ministry was like a steam-roller, which rolls on without any idea as to what it crushes on its way. I do hope, Sir, that this Ministry will not be called by the same name—a steam-roller—and that it will not adopt similar policy, simply because it has a majority behind it and think that it can use it to the detriment of minorities."

[2nd August 1946]

* SRI A. SUBRAMANIAM:—"கனம் தலைவரவர்களே. கனம் பிரதம மந்திரியவர்கள் கொண்டுவிருக்கும் வரவு செலவு திட்டத்தைப்பற்றி நாமெல்லோரும் பெருமையடையவேண்டியவர்களாகவிருக்கிறோம். ஆனால், அதில் சில சீர்திருத்தங்கள் செய்யவேண்டுமென்ற ஆசையுடனேயே சில வார்த்தைகளை நான் சொல்ல விரும்புகிறேன். கனம் பிரதம மந்திரியவர்கள் கல்வித் திட்டத்திற்காகவும், ஹரிஜன் முன்னேற்றத்திற்காகவும், கிராம அபிவிருத்தித் திட்டத்திற்காகவும் பல முறைகளை வகுத்து வைத்திருந்தாலும்கூட, இந்த மாகாணம் முழுவதிலும் கள்ளுக்கடை, சாராயக்கடை, பீர், பிராந்தி, வைன், விஸ்கி, ஜின், ரம் போன்ற நாகரிக வஸ்துக்கள் விற்கப்படும் சைத்தான் நிலைமையை போக்குவதற்காக ஒரு பெரிய தொகையை ஒதுக்கி வைத்திருப்பாரானால், நான் மட்டுமல்ல, இந்த மாகாணம் முழுவதிலுமுள்ள பொது ஜனங்களெல்லாரும் சந்தோஷமடையக்கூடிய நிலைமையைப் பெருவார்களைப்பதை இந்தச் சந்தர்ப்பத்தில் தெரிவித்துக்கொள்ள நான் ஆசைப்படுகிறேன்.

"குறிப்பாக, இந்த மாகாண முழுவதிலும் கள்ளுக்கடை, சாராயக்கடைகளையெடுக்க முடியவில்லையென்று கனம் பிரதம மந்திரியவர்கள் கூறலாம், அதற்குச் சரியான ஜவாபும் அவர் சொல்லலாம். இதில் பல கஷ்டங்களிருக்கின்றன வென்பதை நான்களும் உணர்ந்திருக்கிறோம். ஆனால், அதற்குத் தகுந்த பரிசாரம் செய்வதற்குப் பல நல்ல முறைகளுக்கின்றனவென்பதை இந்தச் சந்தர்ப்பத்தில் எடுத்துக் காட்ட விரும்புகின்றேன். இந்த மாகாண முழுவதிலும் கள்ளுக்கடை, சாராயக்கடைகளை யொழிக்கவேண்டுமென்பதற்காக சென்ற காங்கிரஸ் ஆசை நடந்து கொண்டிருந்த காலத்தில் பல புதிய வரிகள் போடப்பட்டன. ஆனால், 4-15 அந்தப் புதிய வரிகள் போடுவதற்கு முன்பாகவே ஒன்றிரண்டு ஜில்லாக் p.m. களில் மட்டும் கள்ளுக்கடை, சாராயக்கடைகளை எடுத்துவிட்டு, பிறகு மூன்றுவதாக ஒரு ஜில்லாவையும் குறிப்பிட்டு அதிலும் கள்ளுக்கடைகளை யெடுத்ததுமன்றி, புது வரிகளைப்போட்டு, நான்காவதாக ஒரு ஜில்லாவிலும் கள்ளுக்கடைகளை எடுக்கப்பட்டன. இன்னும் அதிகமான ஜில்லாக்களில் மதுவிலக்கு ஏற்படுத்தவேண்டுமென்று திட்டம் போட்டு கொண்டிருந்த அந்தக் காலத்தில் அதிகாரத்திலிருந்த காங்கிரஸ் மந்திரிகள் சட்டசபையிலிருந்து திடீரென்று ராஜினாமா செய்து வெளியேறினார்கள். காங்கிரஸ் மந்திரி சபை வெளியேறியதும் 93-வது செக்ஷன் பிரகாரம் அட்வைஸர் ஆகி இந்த அரசாங்கத்தை ஏற்றுக்கொண்டு காரியத்தை நடத்தியது. ஏற்கனவே விதிக்கப்பட்டிருந்த விற்பனை வரியையும் தள்ளுபடி செய்யாது, அரை தம்பிடியாக இருந்ததை ஒரு தம்பிடியாக உயர்த்தி, பிறகு அது இரண்டு தம்பிடியாக உயர்த்தப்பட்டது. அந்த அட்வைஸர் ஆகியில் அப்படியிருந்தும் கள்ளுக்கடைகள் எடுக்கப்பட்டிருந்த நான்கு ஜில்லாக்களிலும் மறுபடியும் கள்ளுக்கடைகளை வைத்தார்கள். இவ்விதம் செய்ததற்கு அந்த அட்வைஸர் ஆகியினர் ஒரு சாஜாப்பு சொன்னார்கள். அது என்னவென்றால், அந்த நான்கு ஜில்லாக்களிலும் சிலர் சாராயத்தை காய்ச்சினார்களென்றும், கள் இறக்கினார்களென்றும் குற்றத்தைச் சுமத்தினார்கள். ஆனால், இந்த நிலைமையை யொழிக்கவேண்டுமென்பதற்காக ஏராளமான போலீசாரை வைக்க வேண்டுமென்றும் சொன்னார்கள். ஆனால், இந்த அரசாங்கத்தால் திருட்டுச் சாராயம் காய்ச்சுவதைத் தடுக்க முடியவில்லையென்ற காரணத்திற்காக மறுபடியும் கள்ளுக்கடைகளை அந்த நான்கு ஜில்லாக்களிலும் திறந்துவிடவேண்டுமென்று அந்த அரசாங்கத்தார் சொன்னார்கள். நான் ஒன்று சொல்லுகிறேன். இந்தத் தேசத்தில் I.P.C. (இன்டியன் பெனல் கோட்) என்ற ஒரு சட்டமிருக்கிறது. திருட்டு, கொலை முதலிய குற்றங்களைத் தடுக்க அந்தச் சட்டமிருக்கிறது. ஆனால், அந்தச் சட்டத்தைச் செய்ததினால், 'திருடும், கொலையும் நின்றுவிட்டதா?' வென்று கேட்கிறேன். கிடையவே கிடையாது. அப்படியிருந்தும் அரசாங்கத்தில் 'அந்தச் சட்டத்தை யெடுத்துவிட்டார்களா?' வென்று நான் கேட்கிறேன். நாட்டில் திருடும், கொலையும் நடந்துகொண்டேதானிருக்கிறது. அந்தச் சட்டமும் இருந்துகொண்டேதானிருக்கிறது. ஆனால் தாங்கள் செய்யும் காரியம் நியாயமானதா, பொது ஜன கேட்கத்தகுந்த உகந்ததா என்பதை நாம் ஜாக்கிரதையாக பரிசீலனை செய்யவேண்டும். 'எங்களால்

[Sri A. Subramanyam [2nd August 1946]

கண்டுபிடிக்க முடியவில்லை, அது முடியாத காரியம், வீடு வீடாக, மொந்தை மொந்தையாக, பாளை பாளையாக சாராயம் காய்ச்சப்படுகிறது. அதைத் தடுக்க எங்களால் முடியவில்லை. பெரியகவலையா யிருக்கிறது என்று அரசாங்கம் சொன்னால் அதற்கு அர்த்தமில்லை. ஆனால் நம் முடைய காங்கிரஸ் ஆக்ஷியிலே, பொது ஜனங்களுடைய ஆதரவைப் பெரு வாரியாகப் பெற்றிருக்கும் நாம் அவ்விதம் செய்ய முடியாது. ஆகவே பிரதம மந்திரியவர்கள் செய்யவேண்டியதை உடனடியாகச் செய்வார்களென்று நான் நம்புகிறேன். மதுவிலக்கு விஷயத்தில் அவர் இது வரையிலும் அதிக பங்கெடுத்துக்கொண்டிருக்கிறார். உணவுப் பஞ்சம் அதிகமாக ஏற்பட்டிருக்கும் இந்தக் காலத்தில் கள்ளுக்கடை, சாராயக் கடைகளை எடுப்பதினால், உணவுப் பஞ்சத்தை ஒருவாறு குறைக்கலாம். எப்படியெனில், பனை மரத்திலிருந்து கள் எடுப்பதை நிறுத்தினால், அந்த மரத்திலிருந்து உற்பத்தி செய்யப்படும். பனஞ்சார் வெல்லம், பனம் பழம், கிழங்கு, பூ இவைகளை ஏழைகள் சாப்பிடுவார்கள். அதோடு இன்று ஜனங்கள் எங்கு பார்த்தாலும் சர்க்கரை இல்லாமல் திண்டாடுகிறார்கள். கள்ளுக்கடைகளை யெடுப்பதின் மூலம் அந்தத் திண்டாட்டத்தையும் நாம் ஒழிக்கலாம். பனம் கற்கண்டு, பனம் வெல்லம் அல்லது சர்க்கரை இவைகளை நாம் ஏராளமாக உற்பத்தி செய்யலாம். இவ்விதம் பனை மரத்திலிருந்து பல விதமான உணவுப் பொருள்கள் நமக்குக் கிடைக்கின்றன. தென்ன மரங்களிலிருந்தும் அப்படியே.

“அடுத்தபடியாக உணவு உற்பத்தியைப் பெருக்குவதற்குப் பல திட்டங்களை நம் பிரதம மந்திரியார் போட்டிருக்கிறார்கள். இப்போது அரசாங்கத்திலே விவசாயிகளிடமிருந்து நெல் மூட்டையைப் பிடிக்குங் காலத்தில் ‘போனஸ்’ ஆக மணங்கு ஒன்றுக்கு ஒரு ரூபாய் கொடுக்கப்படுகிறது. இதனால், கிராமவாசிகள் ஏராளமான தானியங்களைக் கொண்டு வந்து கொட்டுகிறார்கள். ஆனால், இன்னும் அவர்கள் ஏராளமான தானியங்களை மறைத்து வைத்திருப்பதாகத் தெரிகிறது. இது விஷயத்தில் அரசாங்கத்தார் தகுந்த முறைகளைக் கையாண்டால், அதுவும் மறைந்து போய்விடும். அது எப்படி யெனில் இன்றைக்கு நெல் மூட்டை ஒன்றுக்கு ரூ. 9-8-0 ஆக விற்பதாக வைத்துக்கொண்டால், அரசாங்கத்தார் அதை விவசாயிகளிடமிருந்து ரூ. 13 அல்லது ரூ. 14-க்கு வாங்கி மறுபடியும் அதை ரூ. 9-8-0-க்கு ஏழைகளுக்கு விற்கவேண்டும். இவ்விதம் அதிக விலைக்கு வாங்கி, குறைந்த விலைக்கு விற்பதினால் ஏற்படும் மூன்று அல்லது நான்கு கோடி ரூபாய் நஷ்டத்தை கவர்ன்மென்ட் பார்களே ஏற்றுக்கொள்ளவேண்டும். இப்படிச் செய்தால், விவசாயிகள் தங்களுடையிருக்கும் எல்லாத் தானியங்களையும் கவர்ன்மென்டாரிடத்தில் கொண்டு வந்து கொடுத்துவிடுவார்கள். கள்ள மார்க்கெட்டும் ஒழிந்து விடும். அரிசியை 10 அவுன்சிலிருந்து 8 அவுன்சாகச் செய்யவேண்டிய அவசியமும் இராது. இன்னும், விவசாயிகளுக்குத் தேவையான உழவுக் கருவிகளையும் நாம் தருவித்துக் கொடுக்கவேண்டும். இவ்விதமெல்லாம் செய்வதன்மூலம் உணவு நெருக்கடியைத் தீர்ப்பதில் நாம் கண்டிப்பாக வெற்றியடையமுடியும்.

“இந்த சந்தர்ப்பத்தில் இன்னொரு விஷயத்தையும் நான் சொல்ல விரும்புகிறேன். இரண்டு, மூன்று மாதங்களுக்கு முன்பு கனம் மந்திரி அவருடைய கைக்குச் செட்டியாரவர்கள் சேலம் ஜில்லாவுக்கு விஜயம் செய்திருந்தபோது ஜனங்கள் ரேஷனை வாங்கும்போது, மணலா கொட்டையையும் வெல்லத்தையும் கலந்த அடையாக தட்டின பர்பியை ஒவ்வொருவரும் 6 அணு அல்லது 8 அணுவுக்கு வாங்கிக்கொள்ளவேண்டுமென்றும், மீதி பணத்திற்குத்தான் அரிசியை வாங்கிக்கொள்ளவேண்டுமென்றும், நிர்ப்பந்தம் செய்யப்பட்டது. நாங்கள் அவ்விதம் செய்ய முடியாதென்று சொன்னோம். ‘நிலக் கடலையாகத் தனியாக எங்களுக்குக் கொடுத்துவிடுங்கள், அதை நாங்கள் வேகவைத்தோ அல்லது வறுத்தோ இஷ்டப்படி சாப்பிட்டுக்கொள்ளுகிறோம் என்றும். மணலாகக் கொட்டையையும் வெல்லத்தையும் கலந்து அடையாகத் தட்டிக்கொடுத்து அதை வாங்கிக்கொள்ளும்படி நிர்ப்பந்தப்படுத்துவது நியாயமில்லை’ என்று சொன்னோம். நாம் கேட்டுக்கொண்டதிற்கிணங்க கனம் மந்திரியவர்களும் நிலக்கடலையாகவே வாங்கிக்கொள்ளலாமென்று உத்தரவு கொடுத்தார்கள்.

2nd August 1946] [Sri A. Subramanyam]

“அடுத்தபடியாக, இப்போது 54 லக்ஷத்துக்குச் சர்க்கரை வள்ளிகிழங்குகளை வெட்டி வற்றலாகக் கொடுக்கப்படுவதாகச் சொல்லப்படுகிறது. ஆனால், இப்படிச் செய்தால் அதற்கு என்னையும் மற்ற சமாள்களும் வேண்டும். இதனால் ஏழைகளுக்கு எந்த விதமான பிரயோஜனமும் இல்லை. அதற்குப் பதிலாக அவைப் பச்சைக் கிழங்காகவே கொடுத்துவிட்டால் போதும். அதை ஏழைகள் வேகவைத்தோ, அல்லது சுட்டோ, சாப்பிடுவார்கள். இவையன்னியில், இன்னும் பல சிறிய குறைகளுக்குக்கின்றன. இவைகளை யெல்லாம், பிரதம மந்திரியாரவர்கள் நன்கு பரிசீலனை செய்து பல நல்ல முறைகளையும், திட்டங்களையும் கொண்டுவரவேண்டுமென்பதுதான் என்னுடைய ஆசை. உடனடியாக இந்த மாகாண முழுவதிலும் கள்ளுக்கடை, சாராயக்கடைகளை எடுத்துவிடவேண்டும். இதற்காகத் தற்போது பணமில்லை யென்ற கவலை வேண்டாம். விற்பனைவரி மூலம் கிடைத்த தொகை ரூ. 26 கோடி கவர்ன்மென்ட் பொக்கிஷத்திலே இருந்துவருகிறது. இதிலே, இந்தக் கள்ளுக்கடை, சாராயக்கடைகளை யெடுப்பதினால், சற்றேறக்குறைய ரூ. 13 கோடி நஷ்டம் ஏற்படலாம். இந்தப் பணத்தை நாம் ரூ. 26 கோடியிலிருந்து எடுத்துக்கொள்ளலாம். விற்பனைவரி மூலமாக வருஷா வருஷம் 6 கோடி ரூபாய் வந்துகொண்டேயிருக்கிறது. இதைக்கொண்டு ஹிஜன் முன்னேற்றம் முதலிய பல காரியங்களைச் செய்யலாம். இன்னமும், கீழ்தர சிப்பந்திகளுக்குக் கொஞ்சம் சம்பளத்தையும் உயர்த்தலாம். அவர்களுடைய சேஷமத்திற்காக ஏதாவது ஒரு நன்மையை இந்தக் காங்கிரஸ் அரசாங்கியிலே நாம் செய்துத்தான் தீரவேண்டும். இதற்கெல்லாம் பணமில்லையென்ற கவலை நமக்கு வேண்டியதில்லை. பணம் அவசியமாக வேண்டியிருந்தால், புதிய வரிகளை நீங்கள் போடுவதாகவருந்தாலுங்கூட பாதகமில்லை. அதற்கான பல சட்டங்களையும், திட்டங்களையும் அரசாங்கம் மேற்கொள்ளவேண்டும். உதாரணமாக, வருஷத்திற்கு ரூ. 10 ஆயிரம், 12 ஆயிரம் நிலத்திலிருந்து வருமானம் பெறும் பெரிய மிராசதாரர்களிடமிருந்தும், ஜமீன்தாரர்களிடமிருந்தும், மடாதிபதிகளிடமிருந்தும் ஏராளமாக வரி போட்டு அதிகப் பணத்தைத் திரட்டலாம். செலவு போக வருஷத்திலே இவர்களுக்கு எவ்வளவு பணம் மிச்சப்படுகிறது என்பதைக் கணக்கெடுத்துக் கொள்ளவேண்டும். ஒருவருக்கு ரூ. 20 ஆயிரம் வருமானம் வருவதாக இருந்தால், அதில் நீங்கள் ரூ. 10 அல்லது 15 ஆயிரம் எடுத்துக்கொள்ளலாம். இதையும் இந்த அரசாங்கம் உடனடியாகக் கவனிக்கவேண்டும்.

“இன்று நாட்டிலே பஞ்சம் இருக்கிறது. எங்கு பார்த்தாலும் தொழிலாளர்கள் சம்பளம் போதாதென்று சொல்லிவருகிறார்கள். அவர்களுக்கு நாம் உதவி செய்து ஆகவேண்டும். இதையெல்லாம் செய்யமுடியாதென்று சொல்லக்கூடாது. இந்த விஷயத்தை நீங்கள் சரியாகக் கவனித்துச் செய்ய வேண்டியதைச் செய்யவேண்டும். அவர் இப்படி சொன்னார், இவர் அப்படி சொன்னார் என்று இருக்கவேண்டாம். மக்கள் சுகாதாரமாய் பெருவாரியாக அபிவிருத்தி அடைய வேண்டுமென்றால் முதலில் கள் குடிப்பதைத் தடைபடுத்தவேண்டும். கள் குடிப்பதினால் அவன் கெடுவதோடு இல்லாமல், அவனுடைய சுற்றத்தாரும் கெட்டுவிடுகிறார்கள். ஆகவே, முதற்படியாக நாம் கவனிக்கவேண்டியது இந்தக் கள்ளுக்கடை, சாராயக்கடைகளை எடுப்பதுதான். இந்த அழகான காரியத்தை பிரதம மந்திரியார் அவர்கள் கவனித்து, அதற்காக வேண்டிய காரியங்களைச் செய்யவேண்டும். சென்ற காங்கிரஸ் மந்திரி சபை இருந்த காலத்தில், சேலம் ஜில்லாவிலே எவ்வளவோ குற்றங்கள் குறைந்துவிட்டனவென்று சேலம் கலெக்டர் கனம் டிக்ஸன் துரை அவர்களே சொன்னார்கள். ஆனால், அட்டைவலர் ஆட்சி வந்ததும், ‘நான் அடிப்பதைப்போல் அடிக்கிறேன், நீ அழுவதைப் போல் அழ’ என்று சொல்லுவதைப் போல திருட்டுத்தனமாகச் சாராயத்தைக் காய்ச்சுவதற்கு சந்தர்ப்பத்தைக் கொடுத்தார்கள். இதற்கான பல உதாரணங்களையும் சாட்சியங்களையும் கொடுக்க நான் தயாராகவருக்கிறேன். காங்கிரஸ்காரர்கள் உண்மையாக இந்த விஷயத்திலே பிரசாரம் செய்தால், திருட்டுச் சாராயம் காய்ச்சுவதை கண்டிப்பாய்த் தடுக்கலாம். போலீஸாரால் தடைப்படுத்த முடியாதென்ற அவநம்பிக்கை நமக்கு வேண்டியதில்லை.

2nd August 1946 [Sri A. Subramanyam] [2nd August 1946]

“கடைசியாக, பிரதம மந்திரியாரவர்கள் போலீஸாரெல்லோரும் பொது ஜன ஊழியர்கள் என்பதை உணரவேண்டுமென்றும், அதற்கு பல திட்டங்களையும் உத்தரவுகளையும் போடவேண்டுமென்றும் கேட்டுக்கொள்ளுகிறேன். பம்பாய் அரசாங்கத்தார்கூட போலீஸார் பொது ஜனங்களுடைய சேவகர்களை உணரும்படிக்கு ஒரு அறிக்கையை விட்டிருக்கிறார்கள். அந்த மாதிரியாக போலீஸார் இந்த மாகாணத்திலேயும் நடந்துகொள்ளவேண்டும். அவர்கள் பொதுஜனங்களுக்கு ஒத்தாசையாக இருக்கவேண்டும். இந்த மாதிரி ஒரு அறிக்கையையும் இந்த பட்ஜெட் சமயத்திலேயே சேர்த்துவிட வேண்டுமென்று நான் கேட்டுக்கொள்ளுகிறேன்.”

* M. A. MUHAMMAD IBRAHIM SAHIB BAHADUR:—

“Mr. Speaker, the Budget from a general point of view gives no comprehensive policy of ordered development on economic and social lines. (At this stage the Hon. the Deputy Speaker, Sri-mathi C. Ammauna Raja took the Chair.) (Cheers.)

“Madam, the Budget has been framed more or less in a haphazard manner making some provision for certain schemes and giving more importance to other schemes sacrificing vital schemes like housing problem, insurance on the lines of Unemployment Insurance or Life Insurance and so forth. Government have not tackled land legislation and they have not tackled the most important legislation, that is on labour. My view is that the Budget when presented should be on a comprehensive basis, because the Government of the day is said to be a popular Government having a majority of the people behind them and having the confidence of all sections of the people and they must aspire to solve all the problems confronting the Province. Therefore, I say that the Budget does not give the comprehensive policy of the Ministry as a general feature.

“Coming to the question of taxation, I suggest that it is time that the Ministry gives some sort of remission in the General Sales Tax, because already the Revenue Reserve Fund amounts to 31 crores and odd and the Ministry is not going to launch upon Prohibition in the entire Province. They are only launching upon Prohibition in four districts for which they have got ample resources left to them. I say all this revenue reserve fund has been created out of the high taxes levied on commercial firms and therefore it is time that Government consider how far these commercial people who are affected by the imposition of the General Sales Tax can be helped. People making a turnover of Rs. 10,000 to Rs. 20,000 are making such sacrifices on account of these taxes that may not even get a profit. I have known so many cases wherein petty dealers have had to close down their shops because of the heavy taxation under the General Sales Tax Act and others.

“On the side of the Land Revenue the Ministry should give some sort of concession by way of reduction of land assessment. In Tanjore district which I have the honour to represent, a few years ago they increased the land assessment to the extent of about 18½ per cent over the mamul assessment. Now the prices have gone up, they may say. But in Tanjore, a merely paddy producing centre, which has no industry of its own or any other occupation for its people, the price of paddy has been

2nd August 1946] [M. A. Muhammad Ibrahim Sahib Bahadur]

controlled whereas the prices of other consumer goods, agricultural implements, cattle, manure, cloth, silk and other luxuries and necessities of life have gone up to the extent of 500 per cent to 1,000 per cent. Therefore, is it not time for the Ministry to think of the sacrifices the Tanjore mirasdars are making and the trouble they are undergoing in supplying the Food Department with paddy at a fixed rate? I do not speak of the big mirasdars who are having hundreds of velis of land. I speak only of the peasant proprietors. They have no occupation of their own, they have no industries of their own. They are entirely dependent upon their agricultural income and when the cost of living has risen tremendously as compared with the price of paddy, they naturally deserve some sort of remission. I therefore expect the Ministry to grant some sort of remission so far at least as paddy growers are concerned. If that is not possible, I would suggest a bonus on a generous scale. As I already said paddy growers have been suffering under very great hardships and therefore it is high time for the Ministry to grant a generous bonus for the supply of paddy. It is not enough if the Ministry gives a mere bonus. Further, there is the difficulty of cattle and manure. The price of cattle in Tanjore district has gone up by 300 to 400 per cent; so also the price of manure. The Ministry has adopted the policy of free distribution of manure in some portions of Malabar district. They should have taken Tanjore district also for the free supply of manure. At least they should supply cattle and manure at a reasonable cost, though the Government may suffer some loss in these transactions.

“Madam, provision is made in the Budget with regard to what is called ‘Public Relations Branch in the Civil Supplies Department’ to popularize unfamiliar foodstuffs such as wheat. I suggest, Sir, that this sort of scheme is more or less of doubtful value, because at present there is no necessity for a huge grant for the popularizing of the wheat diet. People have already been accustomed to, or forced to learn how to prepare, wheat diet. It is not at all necessary to incur expenditure on this scheme.

“Then with regard to procurement, we on this side of the House, the Members belonging to the Muslim League, have opposed the formation of committees not on the ground that we are not prepared to co-operate with this Government in the execution of their Food policy, but on the ground that it is needless at this critical stage to introduce a new machinery for procurement and distribution of food. What we expected has come into actual practice. Wherever we go we are faced with representations that this section or that section is not included in village committees or taluk committees. And therefore I suggest that Government must issue strict instructions for the enforcement of the principles enunciated by them in the matter of these committees.

“With regard to Prohibition, so far as we Members of the Muslim League are concerned, we entirely agree with the Government in adopting total prohibition all over this Province. When the Ministry has 31 crores at their back by way of Revenue

[M. A. Muhammad Ibrahim Sahib Bahadur] [2nd August 1946]

Reserve Fund they need not even wait for new sources of revenue. They may right away launch on total prohibition. It is a much needed measure and we on this side of the House will welcome it if it is adopted.

“*Village Reconstruction Schemes.*—I can only say that the scheme is of doubtful value. Sir, when a popular Ministry assumes office and introduces new measures it ought to take into consideration all aspects. When the reconstruction scheme is framed, they have to consider the housing problem and various other problems, such as the labour problem and the agricultural problem. A thorough investigation of all the problems confronting the people should first be ordered. All the problems should be embodied in a scheme in a systematic manner and an attempt should be made to put the scheme into execution in a systematic manner. The attempt at village reconstruction in selected firkas will be of no use. It is very doubtful if the proposal adumbrated in the Budget Speech is conducive to the good of all sections of the people. I say they have to make all the people in the firka self-sufficient with regard to clothing and other needs.

“The Ministry want to introduce the production of khaddar. I say that the khaddar scheme from the point of view of rural economics is not a sound one. Khaddar as an economic measure cannot compete with mill production. We are in the days of mills and not in the days of stone, metal and khaddar. When you have the mill producing cheap cloth, khaddar has no value. It should not find a place in the budget. The Ministry ought to have realised what great labour and trouble the villager has to spend for spinning the yarn and weaving it into khaddar. The remuneration he gets is not commensurate with his labour. If really Government want to provide a side avocation for the villager, they have got so many other village industries and they may resort to such industries which can economically compete with any other industry. Khaddar is introduced into the budget proposal as a political measure to consolidate their party position, rather than to benefit the large majority of people who have been contributing to the maintenance of this Government.

“The same arguments apply to village committees also. The scheme may lead to friction generally in all directions.

“On the medical side Government have come out with a proposal to develop Ayurvedic, Unani and other indigenous systems. I lay special emphasis on Unani, lest in their anxiety to develop other indigenous systems, they should forget this system.

“I was glad to hear from the Ministry, with regard to the Highways Department, that they have not decided one way or the other, whether to continue the Highways Department or not. I suggest that a decision upon this matter should be come to only after consulting this House and the general body of the public whether an independent Highways Department can do more useful work than the previous system of entrusting the work to the district and other local boards.

2nd August 1946] [M. A. Muhammad Ibrahim Sahib Bahadur]

“With regard to Post-war Reconstruction I only suggest that the Ministry should not rush through these schemes at the present stage. Many of us do not know what really are the post-war reconstruction schemes the Ministry are going to adopt. The present schemes were framed under the section 93 regime. The popular Ministry had no hand in framing them. I suggest that all the post-war reconstruction schemes may be published and thoroughly discussed by this House and their relative importance taken into consideration with reference to the several problems confronting the Province, such as labour, education, land, etc. Before giving effect to any of these schemes a thorough enquiry should be made. Then alone the execution of this plan can be satisfactorily explained by the popular Ministry.”

SRI KALLUR SUBBA RAO :—“ఆహ్లా! గ్రామ ప్రజల ఆధారాధిపత్యములవలన అధికారమును అధిష్టించిన కాంగ్రెస్ మంత్రివర్గము తరఫున అధిక మంత్రి గారు అసతికాలములో గ్రామ ప్రజల సుఖసౌభాగ్యాధివృద్ధి కనువగునట్లు అధిక ప్రయత్నమును సవరించి సభకు సమర్పించినందులకు హృదయపూర్వక అభివందనములు. ఇందులో ప్రత్యేకముగ పాగడదగిన అంశములు ఒకటి రెండు కలవు. మొదటిది హరిజనాధి వృద్ధికి కోటి రూపాయలు ప్రత్యేకించుట. దీనిగురించి ప్రతిపక్షులెవరూ ఆశ్చర్య అపహేలు పడవలసిన అవసరములేదు. పిందువులు ముసల్మానులు కలిసి ఆతహతాళ మునకు అణగద్రొక్కిన దీనుల అభివృద్ధికి ముఖ్యంగా వారికి నిలువ నీడకు త్రాగునీళ్లకు విద్యాభ్యాసమునకు ఖర్చుపెట్టు మొత్తము కనుక.

“ మూలాదార విధ్య,

ఇక ముస్లింలగు సభ్యులు కొందరు మూలాదార విద్య సవరించి విమర్శిస్తూ మహమ్మదీయుల సంస్కృతికి మతమునకు తమ ఉరుదూ భాషాభ్యుదయమునకు అడ్డమని చెప్పుచున్నారు. దీనికి మహాత్మా గాంధీగారికంటే జోర్ మునేజ్ గారు ముఖ్యులు. వీరు మహమ్మదీయులే. ఈ ప్రాతిపదికవిద్య మాత్ర భాషలో చెప్పవలెననియే గాంధీ మహాత్ముని అజ్ఞ. జోర్ మునేజ్ గారి అభిప్రాయము కూడాను, కాబట్టి వారు అడ్డుపడుట ధర్మంకాదు. ఏ ప్రాంతాల బేసిక్ విద్యాపాఠశాల లేర్పడుచో ఆక్కడ మాత్ర భాషలోనే విద్య గరపజును. సి. పి. లో విద్యాయుందిర్ స్కీముకు ఆక్షేపణ మందిర్ అంటే దేవళం అనే శబ్దానికి ముస్లిములు అడ్డుచెప్పిరేగాని విద్యాపద్ధతికి కాదు. అట్టి అనవసర అడ్డుసవాళ్లు ధర్మముకాదు. మూలాదార విద్య ప్రజాభివృద్ధి కెంతయు అత్యంత అవసరము.

“ ఈ బడ్జెటులో అసంతపురంలో ఇంజనీరింగు కళాశాల స్థాపించుటకు ఖర్చుని తెలియజేసినారు. అసంతపురం పేరుతో ఇంజనీరింగు కళాశాల తాత్కాలికముగా గిండిలోనే ఉన్నది. దానిని వెంటనే అసంతపురం పంపించుటకు వలయు ఖజనము లకు మరి యితర సౌకర్యములకు తగు మొత్తమును వెచ్చపెట్టి జాగ్రత్తగా అసంతపురంలోనే ఇంజనీరింగు కళాశాల నెలకొల్పుటకు ప్రభుత్వం తోడ్పడవలెనని వేడుచున్నాను.”

(At this stage the Hon. the Speaker occupied the Chair.)

* SRI S. NAGAPPA:—“ Mr. Speaker, Sir, I rise to congratulate the Hon. the Premier on having presented a budget, which may be called the poor man's budget. He has taken into consideration

2nd August 1946] [Sri S. Nagappa]

the difficulties of poor people, especially of the Harijans and he has been kind enough to grant Rs. 1 crore for their uplift. I am very much thankful to him for this.

“ Now, Sir, some of my friends here have very vehemently criticized the Hon. the Premier in respect of this grant of Rs. 1 crore. I do not understand whether they are really jealous of this Rs. 1 crore or whether they are really not interested in the Harijans, whether they want us to continue to be down-trodden as much as we are to-day. Whether this is the motive of my friends or whether they have opposed the grant for opposition's sake, I am at a loss to understand. Whatever be the view of the Opposition, I request the Hon. the Premier and the Government to start hostels for Harijan boys and girls wherever there is a high school or a college. I hope this amount will be spent also on providing houses. There is no use of spending this one crore alone; their economic condition should also be improved or developed and the only method of doing it will be to socialize the land and to nationalize the industries of this Province. I hope the Government will take immediate steps to see that this object is achieved.

“ I think the Government will find it difficult to find funds for all these purposes. The Government may consider the idea of levying new taxes such as agricultural, income-tax, death duty, etc. These are the taxes wherefrom we can find funds for such nation-building activities.

“ As regards jobs, I hope this Government are aware that the Central Government have raised the percentage of representation of Harijans in the services from 8½ to 12½ per cent. So also, I want the Provincial Government to raise the percentage of Harijans in the services.

“ Now, Sir, as I come from one of the Ceded Districts, I must say that nothing has been stated as regards irrigation in the Ceded Districts. No doubt, recently, as a result of our agitation, the Government have taken up the matter. And the present Tungabhadra project is not the project that was originally contemplated by Sir Henry Cotton. In those days, the scheme that was drawn up was to cost Rs. 50 crores. The present one is however an eye-wash scheme. Under this scheme, we are going to have only three to four lakhs of acres to be brought under cultivation. If you look into the original scheme, you will find that it was intended to irrigate some more lakhs of acres and that would certainly have relieved the Ceded Districts from famine altogether.

“ Moreover, Sir, our present Premier who was the Revenue Minister in the last Ministry, has given us an assurance that he would develop our districts. I agree with him when he says that our country is quite fitted for industrialisation. But yet, nothing has been said in the budget as regards industries. In future budgets at least, I hope the Hon. Premier will take up the question of developing industries in the Ceded Districts and thus once for all relieve these districts from famine.

“ The Hon. Premier stated that he was going to open more medical colleges. As our Ceded Districts are noted for famine and

[Sri S. Nagappa] [2nd August 1946]

pestilence, and as disease and distress prevail there often, in famine-stricken areas I would suggest that instead of having a college at Madura and another at Guntur, he may as well establish one of those colleges in any of the Ceded Districts; but lest I am considered selfish, I suggest that in addition to the opening of these colleges in Madura and Guntur, another may be opened in the Ceded Districts. I hope the Premier will kindly give his attention to this suggestion.

"We have been noticing recently the many strikes in the B. & C. and other mills; why not the Government themselves take up these mills and run them, I ask? In that case, the Government will be in a position to know where the black-market business is going on and they will also gain experience and know how much profit these capitalists have been making all these years. I request the Government to take up these mills themselves, and I hope they will accept my suggestion and thus prevent the lock-outs and walk-outs in these mills.

"Now, Sir, as regards prohibition, I am very much thankful to the Premier for his having kept up the Congress prestige; but I would have congratulated him much more if he had taken up the three neighbouring districts also which are in distress, viz., Kurnool, Bellary and Anantapur. It would certainly have been better if he had included them in this budget itself. Even now, it is not too late and it would not be difficult to include them. I understand if they are also included this year, only about Rs. 60 or Rs. 70 lakhs more would be lost to Government in the shape of revenue. When we are having a surplus of more than Rs. 30 crores in the Reserve Fund, it must be easy for the Premier to introduce prohibition straightaway in the Ceded Districts. As I said, even now it is not too late for him to do some justice to the famine-stricken people of these districts.

"With these observations, Sir, I shall close, and reserve my remarks on the major works when the Irrigation Demand comes up for consideration before the House."

5 p.m. *SRI M. P. PERIYASAMI:—"கனம் தலைவரவர்களே, இந்த பட்ஜெட்டில் ஹரிஜனங்களுக்கு ஒரு கோடி ரூபாய் ஒதுக்கி வைத்ததுபற்றி சந்தோஷப் படுகிறோம். ஹரிஜனங்களுக்கு அதோடுகூட அதேசமயத்தில் எல்லா ஹோட்டல்களிலும் ஹரிஜனங்களை allow பண்ணும்படி செய்யவேண்டும். இல்லாவிட்டால் லைசென்ஸ் கொடுக்க முடியாதென்று சட்டம் செய்துவிட்டால் ரொம்பவும் நன்றியிருக்கும். அதோடுகூட ஆலையப்பிரவேசம் முக்கியமான விஷயம். இப்பொழுது மதுரை, பழனி, தஞ்சாவூர் இந்த இடங்களில் ஆலையப்பிரவேசம் செய்துவிட்டார்கள். இம்மாகாணத்தில் நமது காங்கிரஸ் மந்திரி சபை திரும்பவும் வந்துவிட்டதனால் மீண்டும் ஆலையப்பிரவேசம் உடனடியாகக்கொண்டு வரவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன். ஹரிஜனங்களுக்குத் தண்ணீர் முக்கியமான உணவுப் பிரச்சினையாகும். எல்லா ஜில்லாவிலும் எங்கு பார்த்தாலும் ஹரிஜனங்களுக்குக் கிணறு இல்லை. கிணறு இருந்தபோதிலும் அவைகளை ஹரிஜனங்களுக்கு ஜலம் எடுக்க விட்டுக் கொடுக்கிறதில்லை. தண்ணீருக்குப் பெரும் கஷ்டம். ஹரிஜனங்கள் ரொம்பவும் அவஸ்தைப்படுகிறார்கள். இப்போதுகூட கிராமங்களில் அவர்களுக்கு இந்தத் தண்ணீர் விஷயமாக அதிகக் கஷ்டங்கள் இருக்கின்றன. தண்ணீருக்குப் போக வேண்டுமென்றால் caste ஹிந்துக்கள் ரோடு வழியாக வரக் கூடாதென்று தடுத்துவிடுகிறார்கள், அடிக்கிறார்கள், பாணையைப் பிடுங்கி உடைத்துவிடுகிறார்கள், தண்ணீரில் சாணியைக் கரைத்து விடுகிறார்கள்.

2nd August 1946] [Sri M. P. Periyasami]

இந்த ஹரிஜனங்களை பப்ளிக் ரொட்டிக்குட நடக்கமுடியாமல் தடுத்துக் கொண்டு வருகிறார்கள். கல்யாண காலத்தில் மேளம் கொட்டிக்கொண்டு போகக்கூடாதென்று பப்ளிக் ரொட்டிக்குடத் தடுத்துவிடுகிறார்கள். இவையெல்லாம் போக காங்கிரஸ் அரசாங்கியில் ஒரு கோடி ரூபாய் ஒதுக்கி வைத்தது போராக. இப்பேர்ப்பட்ட கஷ்டங்களை சட்ட பூர்வமாக நீக்க சட்டமியற்றி ஹரிஜனங்களைக் காப்பற்றவேண்டும். எல்லா இடங்களிலும் கிராமங்களிலும் வாழும் ஹரிஜனங்களுக்கு வீடில்லை. சில இடங்களில் மட்டுமே வீடு கட்டிக்கொடுப்ப தாகத் தெரிகிறது. அது மாதிரியாக இதுவும் முக்கிய விஷயம்தான். இப்படி பப்ளிக் இடங்களில் caste ஹிந்துக்கள் தடுத்தால் போலீஸார் ஆக்டு மூலமாக ஒரு சட்டம் இயற்றனால் ஒத்தாசையாக இருக்கும். அதோடுகூட இந்த ரேஷன் காலத்தில் சில இடங்களில் அரிசி விநியோகம் புண்ணுமலுக்கிறார்கள். ஹரிஜனங்கள் மட்டும் ஒவ்வொரு ஊரிலும் கலப்பு உணவு சாப்பிடுவார்களென்று எழுதி விட்டார்கள். ஒவ்வொரு இடங்களில் அவர்கள் அரிசி சாப்பிடுவதென்று எழுதி விட்டார்கள். நாமக்கல் தாலுகாவில் மோகனூர் 8-வது வார்டிலே சோளம் கம்பு கொடுக்கவேண்டும் அரிசி சாப்பிடுவதவர்கள் என்று எழுதி விட்டார்கள். ஹரிஜனங்கள் வாங்கு எட்டாவது வார்டு, அவர்கள் கூலி வேலை செய்து அரிசிதான் வாங்கிக்கொண்டு வருவார்கள், அப்படியிருந்தும் கூட இவற்றைக் கலப்பு தானியம் சாப்பிடுகிறார்களென்று எழுதிவிட்டார்கள். ரேஷன் கார்டில் 3-நாளைக்கு அரிசி என்றும் மற்ற நாளைக்கு மாவு தான் என்றும் கொடுத்தார்கள். ஆனால் கம்புச் சோர் கொடுத்தால் பறவாயில்லை. 4-நாளைக்கு மாவு, 3-நாளைக்கு அரிசி இப்படி ஜனங்கள் வாங்கமுடியாமல் மாவை என்ன செய்கிறதென்று தெரியாமல் கஷ்டப்படுகிறார்கள். அவ்விடத்தில் மற்றவர்களுக்கு ஒரு நாள் சோளுமையும், ஒரு நாள் மாவும், 5 நாளைக்கு அரிசியும் கொடுத்துவிட்டார்கள். இது விஷயத்தை Executive ஆபீசிடத்தில் சொன்னேன், முனிசிபிட்டிதிலும் சொன்னேன், ஹரிஜனங்களுக்கும் கவர்ன்மென்டாரிடத்திலும் தெரியப்படுத்துகிறென்று சொல்லி வந்திருக்கிறேன். இன்னும் ஹரிஜனங்களுக்கு ரேஷன் ஷாப்பிலே துணி கொடுத்தால் ஸைகரியமாக இருக்கும். அந்த ரேஷன் ஷாப்பிலே துணி கொடுக்கும் காலத்தில் கூட ஹரிஜனங்கள் ஜாதி ஹிந்துக்களோடு சேர்ந்து வாங்கக் கஷ்டமா இருக்கிறது. ரேஷன் கார்டில் துணியும் வாங்கிக்கொள்ளலாமென்று சட்டமிருந்தால் நல்லதாயிருக்கும். ஹரிஜனங்களுக்கு இப்போது ஒரு கோடி ரூபாய் ஒதுக்கி வைத்திருப்பதில் சந்தோஷம்தான். ஆனால் கள்ளுக்கடைகள் வந்திருப்பதால் ஹரிஜனங்களுக்கு எவ்வளவு செய்தாலும் ஒரு கோடி ரூபாய் கொடுத்தாலும் வருமானத்தையெல்லாம் அது இழுத்துக்கொண்டு போய்விடுகிறது. இந்த ஹரிஜனங்கள் மட்டுமல்ல மற்றவர்களும் சாப்பிடுகிறார்கள் முக்கியமாக ஹரிஜனங்களை அதிகமாக பாதிக்கிறது. ஆகையால் பிரதம மந்திரியவர்கள் கள்ளுக்கடையை அறவே ஒழித்துவிடுவாரென்று கேட்டுக்கொள்கிறேன்.

"பப்ளிக் கூடங்களிலே அட்மிஷன் காலத்திலே ஹரிஜனப் பிள்ளைகள் கஷ்டப்பட்டார்கள். ஹைஸ்கூல் எலிமென்டரி ஸ்கூல்களுக்குப்போனால் அந்தப் பிள்ளைகளுக்குச் சரியாக இடம் கிடைப்பதில்லை. ஒவ்வொரு செக்ஷனிலும் அவர்களில் குறைந்தது 10, 15-பையன்களுக்காவது ரீலர்ஸ் பண்ணி வைத்து அவர்கள் வராவிட்டால் வேறு பிள்ளைகளை எடுத்துக்கொள்ளலாமென்று சட்டம் செய்தால் ஹரிஜனங்களுக்கு ஆதரவாய்ருக்கும். ஹரிஜனப் பிள்ளைகள் கஷ்டப்பட்டுப் படித்து அந்த காலத்தில் fail ஆனவுடனும் இடம் கொடுப்பதில்லை. ஹரிஜனப் பிள்ளைகள் fail ஆனாலும் அதே வகுப்பில் இருக்கும்படி செய்யவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன். முக்கியமான விஷயங்களிலே ஹரிஜனங்களுக்கு இப்பொழுது காங்கிரஸ் கவர்ன்மென்டு வந்துவிட்டதினால் விமோசன மாய்விடுமென்று நான் சொல்லிக்கொண்டு வந்திருக்கின்றேன். உடனடியாக நான் சொன்ன விஷயத்தையெல்லாம் கவனித்தால் உடனே ஹரிஜனங்கள் அந்த காங்கிரஸைத்தான் பின்பற்றுவார்களென்பது என்னுடைய நம்பிக்கை. ஹரிஜனங்கள் உத்தியோகம் வகிக்கிறார்கள். உத்தியோகத்திற்குப்போனால் ஒரு ஸப்-இனிஸ்பெக்டர், டெபுடி கலெக்டர், கிளர்க்கு, இப்படி ஹரிஜனப் பையன்கள் உத்தியோகத்திற்குப் போயிருக்கிறார்கள். பிரமோஷன் கிடைப்பதை

[Sri M. P. Periyasami] [2nd August 1946]

மேல்ஜாதியார்கள் தடுத்து வருகிறார்கள். ஒரு ஹரிஜன் உத்தியோகஸ்தர் மேலே போவதற்கு ரொம்பவும் தடை ஏற்படுகிறது. மேலேயுள்ள அதிகாரிகள் சீக்கிரம் பிரமோஷன் கிடைக்காமல் செய்கிறார்கள். குறைந்தது ஒரு ஹரிஜன் 8 வருஷமோ 10 வருஷமோ ஒரு உத்தியோகத்திலிருந்தால் அவனுக்கு பிரமோஷன் கொடுக்கலாமென்று சட்டம் இருந்தால் நன்றாக யிருக்குமென்று சொல்லிக்கொண்டு முடித்துக்கொள்ளுகிறேன்.”

* SRI K. VARADACHARI:—“ Mr. Speaker, Sir, I congratulate the Prime Minister for having presented us with a budget whose major features reflect the most enthusiastic programmes for which our Prime Minister has worked for several years, namely, his programme for self-sufficiency of the rural areas on the one hand, the most enthusiastic programme which our erstwhile leader, Sri C. Rajagopalachari had been working out with a great amount of intelligence and knowledge of practicalities, namely, the problem of prohibition on the other. I submit, Sir, that these two features of the Budget are by themselves very great ones which should make us contented for the present for what are aimed at by these two programmes. But, Sir, there has been a lot of criticism and discontent not only in the Opposition benches but also perhaps among the rank and file of Congressmen (Hear, hear from the Muslim Group). In regard to the programme of prohibition, for the simple reason that the Ministry has not been able to find its way to introduce total prohibition in the whole of the Province, I submit, Sir, there is no lack of enthusiasm for the programme on the part of the Ministry. I know all of them have been making great sacrifices in the cause of prohibition for a long time—some of them for nearly a quarter of a century. Therefore it is not lack of enthusiasm but superhuman difficulties that have come in our way to effectively introduce this programme throughout the Province just at present. (An hon. Member: You have prohibition in your district.) Sir, I am willing to give up Chittoor to satisfy the Opposition for the present and I will take it when the time comes. Well, I am prepared to face the public. If you have not got the courage to face the public, you are not a public man. Sir, I submit with the food problem which has involved us in a huge expenditure on the procurement of foodgrains, on the one hand and with wholly corrupt services inherited from the Adviser Government, we cannot introduce prohibition in the whole of the Province just now. Sir, I have a grouse against the present Government in this respect, namely, in order to achieve prohibition successfully and effectively throughout the whole province, they have not taken sufficient measures yet for removing and rooting out corruption in the services prevalent in almost the whole area of the Province. In all departments worth mentioning, corruption is rampant and no satisfactory agency has yet been established for rooting out this corruption. The appointment of an officer to work in the rooms of the Secretariat to deal only with departmental offenders by way of departmental methods is not sufficient. The employment of one or two C.I.Ds. to root out corruption is not sufficient. Local agencies must be started. Non-official co-operation must be sought in the rooting out of corruption. Otherwise, the existing channels of information will be insufficient and the work of rooting out corruption will be a total failure. I request the Government to open its eyes

2nd August 1946] [Sri K. Varadachari]

to the urgent need in this behalf and take necessary measures to root out corruption. I am speaking with a sense of responsibility when I am making such a sweeping statement as this. I hope I will not be misunderstood as making an irresponsible statement either. I have known instances in all departments where every order of control with regard to commodities and every single modification of an order of control is taken advantage of to fill the pockets of the public servants. I do not say that the officers at the top are guilty so much as those in the lower ranks of the services. The lower ranks of the services are affected by an economic trouble which is unparalleled. The lower ranks are getting pittance of salaries with which they cannot maintain themselves in comfort or even above starvation level. The salaries paid to them are based upon principles which are antediluvian. I have been thinking, Sir, for a long time to suggest methods of abolishing the principle of salaries itself—the system of paying salary in cash to the public servants, high and low. But the time is not propitious. As we are in difficult times, we cannot think of varying this principle into anything else. I would like to pay all our officials from the Minister or the High Court Judge down to the poorest servant in the office in kind so that the Government will keep them in comfort and above want. But the time is not yet propitious for that. We have to furiously think about a programme very soon. Considering the agitation that we find outside we have to take steps very soon to see that dissatisfaction and discontent are avoided among our public servants as soon as possible. In order to root out corruption, I would advocate on the one hand rigorous measures on the part of the Government to see that they adopt some original methods and on the other to see that the condition of the public servant especially the non-gazetted officer is ameliorated to avoid a revolution.

“ Next, Sir, I find that in this budget, we have got an allotment of one crore for the uplift of the Harijan community. As yet we do not know the details of the programme—we shall have them in due course and I am sure the Prime Minister will see to it. His affection for the Harijan masses has been proverbial and we know that he will do everything for the sake of the Harijans. But, Sir, Harijans themselves do not seem to know their own minds completely. (An hon. Member: Question.) I find that they are thinking on lines of a pecuniary grant for this or for that thing—small thing which will not go a long way for their amelioration. But it is not on such lines, it has to be conceived. I submit with great respect to the Government and the Minister in charge of this subject that the first thing the Government ought to do, if untouchability has to be removed—and if their economic condition is to be raised, is not to force their entry into temples or other places or give him a charka. On the other hand, we have to see that we remove some of their practices, viz., cattle-killing, and the institution of cheris or the ‘ Malavadu ’ as it is called must go from our country before the social condition of the Harijan is ameliorated. His economic condition will automatically lift itself as soon as this institution is abolished and thereafter not much help will be

[Sri K. Varadachari] [2nd August 1946]

necessary for his uplift. (Abdul Hameed Khan Sahib Bahadur: Where will they go?) They will have to come and stay with us in agra-harams, with our Acharyapurushas, with the Muslims and with the orthodox Hindus. Do not think that I am sensitive about that. I therefore say, Sir, that this one crore allotment will be utilized for the purpose of achieving this object. It involves a housing scheme in substitution of the cheris that we have now got. The housing scheme and the expenditure relating to it will best be utilized only when you shift the house-sites from the cheris to the agra-harams or the village as you may call it. (Hear, hear). The time has now come for it and if you do not do it to-day willingly, it will be forced upon you very soon. (Hear, hear.)

“Then again, Sir, reference has been made about the abolition of zamindaris. Some of the hon. Members in the Congress ranks have welcomed the statement made by the Maharajah of Pithapuram, our hon. colleague in this House that he was ready for parting with his estate and that the zamindars are quite willing to part with their estates now. Time there was when they were nervous about it and now they are themselves coming forward with this offer. I submit that the Government must beware of this move. They are expecting that the Government is going to put lakhs and crores of rupees in their hands as compensation for their estates. That will not be the policy of any decent Government to do as it will demoralise the class of zamindars. To put so much money into their hands for the purpose of squandering and wasting it away according to their likes is not desirable. Very soon we will have to find a method of doing justice to them. In order to see that the money so placed in their hands is put to public utility services and that any amount that is placed in their hands should not be allowed to be frittered away on their own likes and dislikes.

“Then, Sir, with regard to village reconstruction schemes, we find that an allotment of three crores has been made. There is a misconception that the allotment is as a sort of lump sum grant to be utilized without knowing how it is going to be utilized. In fact it is not so, and, believe our colleagues in the House will not misunderstand the position. The real position is that a fund is sought to be created out of which the monies necessary for running the schemes prepared and accepted by the House will alone be financed from out of the fund. Therefore, there need be no misconception on this head of account. There can be no misconception or criticism of this head as to what the implications of fund are, as it has been made already plain in the Budget statement as well as in the other papers placed in the hands of hon. Members, that it is only a funded amount and from that amount alone expenditure will be incurred. With these words, Sir, I resume my seat.”

* **SRI M. MARIMUTHU** :—“கனம் அக்கிராசனர் அவர்களே : ஹரிஜனங்களுடைய நிலைமையைப்பற்றி சில வார்த்தைகளைப் பேச முன் வந்திருக்கின்றேன். இன்று ஹரிஜனங்களுக்கும் நிலைமையைப் பார்த்து என் மனமானது நடுங்குகின்றது. கிராமங்களில் அவர்கள் குடியிருக்க வீடின்றி, குடிக்க குடிதண்ணீரில்லாமல் கஷ்டப்பட்டு வருகிறார்கள். இந்நிலைமை ஒவ்வொரு தாலுகாவிலுமிருப்பதை அநேகருக்குத் தெரியும். சண்டை

[2nd August 1946] [Sri M. Marimuthu]

யின்போது காங்கிரஸ் அரசாங்கம் மந்திரி சபையைவிட்டு விலகியிருந்தது. இப்போது திரும்பவும் காங்கிரஸ் கவர்ன்மென்ட் அதிகாரத்திற்கு வந்ததும் ஹரிஜனங்களுக்கெல்லாரும் மிகவும் சந்தோஷம் அடைந்திருக்கிறார்கள். ஆனால், இந்த அரிசி ரேஷன் வந்ததின் காரணமாக ஹரிஜனங்கள் படும் கஷ்டங்களைச் சொல்ல முடியாது. மிராசதாரர்கள் அவர்களுக்குப் போதுமான உணவைக் கொடுத்தாலொழிய அவர்கள் தங்களுடையவேலைகளைச் சரிவர செய்யமுடியாது. ஆகவே ஹரிஜனங்களுக்கு அரிசிக்குப் பதிலாக மைதா மாவு, கோதுமை முதலியவைகளைக் கொடுத்தால், அவர்கள் எப்படி மிராசதாரர்கள் சொல்லும் வேலையைச் செய்வார்கள்? மேலும் அவர்கள் செய்யும் வேலைக்கு இந்த கோதுமை மாவைக் கொண்டு ரொட்டி சுட்டுத் தின்பதாயிருந்தால் அவர்கள் என்னென்ன, நெய் முதலியவைகளை எங்கிருந்து சம்பாதிப்பார்களென்று நாம் உணரவேண்டும். காலை 6 மணியிலிருந்து மாலை 6 மணி வரையில் இந்த மிராசதாரர்களுக்காக உழைக்கும் இந்த எழை ஹரிஜனங்கள் எப்படி கோதுமை அல்லது மைதா மாவை ஆகாரமாகச் சாப்பிட்டுவிட்டு இருக்கமுடியும்? இவர்களுக்கு உபயோகிக்கிற முறையைச் சொல்லிக்கொடுத்தாலும் இதைச் சாப்பிட்டவர்கள் வயிற்றுக்குப்பு கண்டு ரத்தம் ரத்தமாக கழிவதை யான் பட்டுக்கோட்டைத் தாலுகா டெபுடி கலெக்டரிடத்திலும், தாசில்தாரிடத்திலும் ரிபோர்ட் செய்திருக்கிறேன். கோதுமை, மைதா மாவுக்குப் பதிலாக அவர்களுக்கு இந்த உணவுப் பொருள்களான சோளம், கம்பு, கேழ்வரகு இப்படிப்பட்ட நவதானியங்களைக் கொடுத்தால் நன்றாயிருக்குமென்று நான் தாசில்தாரிடத்தில் கூறியிருக்கிறேன்.

“அடுத்தபடியாக ஹரிஜனங்களுக்கெல்லாரும் கள் குடிப்பதாக எங்கும் சொல்லப்படுவருகிறது. அவர்கள் குடிப்பதெல்லாம் ஒரு நாளைக்கு ஒரு அணு முதல் இரண்டு அணுவரையில்தான் என்று நான் சொல்லுவேன். ஜாதி ஹிந்துக்களென்று சொல்லிக்கொள்ளும் மேல் இனத்தாளைச் சேர்ந்தவர்கள் அதிகமாகக் குடிப்பதினால்தான் இன்று நாட்டில் இவ்வளவு கஷ்டங்கள் ஏற்பட்டிருக்கின்றன. ஆகவே இந்தக் காங்கிரஸ் கவர்ன்மென்டானது இந்தக் கள் குடியை அறவே யொழிக்க முற்படவேண்டும். இதற்கான காரியங்களை கனம் பிரதம மந்திரியாரவர்கள் செய்யவேண்டும். இதைச் செய்தால், ஹரிஜனங்களிடம் அனுதாபம் காட்டும் முறையிலே ஒதுக்கப் பட்டிருக்கும் ஒரு கோடி ரூபாய் வேண்டியதில்லையென்று நான் நினைக்கிறேன். இந்த கள் குடியை மட்டும் நாம் நிறுத்துவமானால் என்னுடைய வகுப்பார்ட்மென்ட், ஜாதி ஹிந்துக்கள் உட்பட எல்லோரும் திருட்டு, கொலை முதலிய கொடிய குற்றங்களை செய்வதிலிருந்து தடுக்கப்படுவார்கள். இது விஷயத்தில் மிராசதாரர்களும் அனுதாபம் உடையவர்களாயிருந்தால், நம்முடைய மாகாணம் நல்ல நிலைமைக்கு வருமென்று நான் துணிவுடன் கூறமுடியும். இதற்கு முன் 1937-38-ம் வருஷத்திலே கள் குடியை யொழிக்க காங்கிரஸ் மந்திரி சபையார் கங்கணக் கட்டிக்கொண்டதைப் போல மறுபடியும் கங்கணக்கட்டிக்கொள்ளவேண்டுமென்று நான் கேட்டுக் கொள்ளுகிறேன். இதற்கெல்லாம் பணமில்லையென்று நாம் எங்கவேண்டியதில்லை. வீடுகட்டுதல், அல்லது விவாக விஷயத்தில் பண மில்லையென்ற காரணத்தினால் அதை யாரும் நிறுத்துவதில்லை, மரம் வைத்தவன் தண்ணீர் ஊற்றுவான் என்று சொல்லுவதைப்போல் அந்தக் காரியங்கள் நடந்துவிடுகின்றன. அதேபோல மதுவிலக்கு விஷயத்திலே கனம் பிரதம மந்திரியாரவர்கள் கொஞ்சங்கூட கவலையில்லாமல் இது விஷயத்தில் இந்தக் கள் குடியை அறவே ஒழிப்பதற்கான சட்டத்தை உடனே கொண்டு வரும் படியாக மறுபடியும் கேட்டுக்கொண்டு என்னுடைய சொற்பொழிவை முடித்துக்கொள்கிறேன்.”

SRI K. RAJARAM NAYUDU :—“சபைத் தலைவரவர்களே, ஸ்க 5-30
அங்கத்தினர்களே : நமது மந்திரி சபை, குறிப்பாக பிரதம மந்திரியவர்கள், p.m.
குறுகிய கால அளவில் இந்தச் சிறந்த பட்ஜெட்டைத் தயாரித்து நமது சபைக்கு அளித்திருப்பதைச் கண்டு நான் பாராட்டுகிறேன். இந்த பட்ஜெட்டில் பல சிறந்த அம்சங்கள் காணப்படுகின்றன. இருப்பினும் இன்னும் கொஞ்ச காலம் கழித்து கொஞ்சம் அனுபவத்தின் பேரில் பட்ஜெட் தயாரித்திருந்தால் மேலும் சில விஷயங்களுக்கு அவர்கள் அதிக பணத்தை ஒதுக்கி வைத்திருக்கமுடியும். ஏனென்று கேட்டால் ஹரி ஜான்

[Sri K. Rajaram Nayudu] [2nd August 1946]

களுக்கு ஒரு கோடி ரூபாய் ஒதுக்கப்பட்ட விஷயத்தைக் குறித்துக் காலை யிலிருந்து அங்கத்தினர்கள் பேசி பாராட்டிக் கொண்டிருக்கிறார்கள். ஆனால் பிரதம மந்திரியும் மற்ற மந்திரிகளும் எனது தொகுதியாகிய மதுரை ஜில்லாவில் திருமங்கலத்தில் வந்து பார்ப்பார்களானால் இந்த ஹரிஜனங் களை விட பொருளாதாரத்துறையிலும் சமூகத்துறையிலும் அதிகமாகக் கஷ்டப்பட்டுக்கொண்டிருக்கும் மக்கள் இருக்கிறார்கள். அவர்களுக்கு பல கோடிகளை ஒதுக்கி கொடுக்கவேண்டுமென்று நான் பிரதம மந்திரி அவர் களையும் மந்திரி சபையையும் கேட்கவரவில்லை. ஆனால் ஏற்கனவே இதற்கு முன் இருந்த அட்வைசரி ஸர்க்காரும் அதற்கு முன் இருந்த காங்கிரஸ் மந்திரி சபையும் ஒரு திட்டத்தை வகுத்திருக்கிறார்கள், அந்த திட்டத் தின்படி பெரியார் நீர் பாசனத்தை விஸ்தரித்தால் அந்தத் தாலுக்காவில் பெரும்பான்மையான மக்களாகவுள்ள அந்தப் பிறமலை நாட்டுக் கள் ளர்களுக்கு நீர்ப்பாசன அபிவிருத்தியைச் செய்வார்களானால் சமூகத் துறையிலும் மேலும் பொருளாதாரத்துறையிலும் அவர்கள் மேன் படுவதுடன் இப்பொழுது அமுலில் இருந்து வரும் சி.டி. ஆக்ட் இல்லா மல் செய்து விடுவதற்கு நல்ல சூசகமாயிருக்கும். இந்த மந்திரி சபை இந்தப் பெரியாற்று நீர்ப்பாசன திட்டத்தை விஸ்தரிப்பதற்கு குறிப்பாக இந்த வருடத்திலே இந்தப் பட்ஜெட்டில் ஏதாவது ஒதுக்கி வைத்திருப்பார் களா என்று புத்தகுத் தடவை புரட்டிப் புரட்டிப் பார்த்தேன். தற்கால ஸர்க்கார் பல வகைகளில் பணம் ஒதுக்கி வைத்திருக்கிறார்கள். ஆனால் முக்கியமாக எதைச் செய்யவேண்டுமோ அதைச் செய்யவில்லை. மந்திரிக ளிடமும் எழுதிக் கொடுத்தார்கள். அதற்கு வகை செய்கிறேனென்று கூறினார்கள். வெகு சீக்கிரத்தில் இந்த விஸ்தரிப்பு திட்டத்தை அமு லுக்குக் கொண்டு வந்து லெகிசுக்கணக்கான மக்கள் வதங்கிக் கொண்டி ருக்கும் அந்தப் பிரதேசத்திலிருக்கும் கிராமங்களில் அந்த ஜனங்கள் மேன்மையடையச் செய்வதுடன் அதைச் செய்வதன் மூலம் ஸர்க் கார் ஆரம்பித்திருக்கும் “Grow More Food” அதிக உணவுப் பொருளை உண்டு பண்ணும் திட்டத்திற்கு அனுசூலமாகவிருக்கும். இந்த திட்டத்தை அமுலுக்குக் கொண்டு வருவதன் மூலம் 20,000 ஏக்கரங்கள் நஞ்சை சாகுபடிக்குக் கொண்டு வர முடியும். அந்தத் தாலுக்காவைப் பொறுத்த வரையில் வெளியிலிருந்து நெல்லு வரவேண்டிய அவசிய மில்லாது செய்துவிடலாம். இதுகாறும் கஷ்டப்படுவதற்குக் காரணம் சி.டி. ஆக்ட் என்பது மாகாணம் பூராவும் நன்றாய்த் தெரியும். சி.டி. ஆக்டை ஒரு சமூகத்தார் மீது போட்டு கஷ்டப்படுமபடி செய்வது தகாது. நம் மந்திரி சபை வந்தும் கூட இன்னும் யோசித்துக் கொண்டிருக்கிறோம். அதை எடுக்க அதிகாரமிருக்கிறதாவென்பதைப் பற்றி என்று சொல்லிக்கொண் டிருப்பதை ஜனங்கள் நம்ப மாட்டார்கள். அவர்கள் படும் கஷ்டம் நேரில் வந்து பார்த்தால்தான் தெரியும். காங்கிரஸில் ஈடு பட்டிருந்த தொண்டர் களைக் கூட 1942-ம் வருஷத்தில் மண்டையை உடைத்து சி.டி. ஆக்டில் பதிவு செய்திருக்கிறார்கள். என் போன்றவர்கள் சட்ட சபையில் அங்கத்தினர்களாக இருந்தும் கூட என்ன பயன் என்று நாங்கள் எங்கிக் கொண்டிருக்கி ரோம். என்னால் பல மேலதிகாரிகளிடம் எடுத்துச் சொல்லப்பட்டது இன் னும் அதைப்பற்றி கவனித்ததாகப்படவில்லை. சி.டி. ஆக்ட் என்பது 1946-ம் வருஷ வந்தும் கூட இன்னும் உயிரோடிருப்பது கண்டு வருந்தாம லிருக்கமுடியாது. உடனே வேண்டியதைச் செய்து மந்திரி சபை அதை ரத்து செய்வதுடன் நீங்கள் வேண்டுமானால் குற்றம் செய்வோருக்குத் தனியாகச் சட்டம் போடலாமே தவிர அதற்காக வேண்டி குற்ற பறம் தரை சட்டத்தை காங்கிரஸ் மந்திரி சபை இன்னமும் வைத்துக்கொண்டி ருப்பது அநியாயம், அங்ஙனம் காங்கிரஸ் செய்யக்கூடாதென்பதை உணர்ந்து அதை ரத்து செய்யவேண்டுமென்று மந்திரி சபையைக் கேட்டுக் கொள்ளுகிறேன்

“சிறைக்குச் சென்றவுடன் நாமெல்லாம் எ, பி, சி வகுப்புப் பிரிவினையை மாற்றிவிடவேண்டுமென்று பேசிக்கொள்ளுகிறோம், ஆனால் வெளியே வந்தவுடன் உல்லாசமாக சட்ட சபையில் வந்து உட்கார்ந்து கொண்டு வருகிறோமெதவிர ஒரு அங்கத்தினராவது சென்ற கூட்டத்திலோ இந்தக் கூட்டத்திலோ இதைப்பற்றி கவனித்ததாகத் தெரியவில்லை. எ, பி, சி பிரிவினையை ரத்து செய்து அரசியில் வகுப்பு என்று உண்டு பண்ணினாலும்

2nd August 1946] [Sri K. Rajaram Nayudu]

சரி அரசியில் கைதிகள் எல்லோருக்கும் ஒரே விதமான வசதியும் சௌகரியங்களும் கொடுக்கவேண்டுமென்று தெரிவித்துக்கொண்டு இதை நமது மந்திரி சபை உடனடியாகச் செய்யுமென்று நான் நம்புகிறேன்.

“நிற்க மலையடிவாரங்களில் உள்ள ஜனங்கள் ஆடுமாடுகளை மலை மேல் கொண்டு போய் மேய்ப்பதற்கு எந்த விதமான சட்டமும் இடம் கொடுக்கவில்லை. மலைகளிலே பச்சைப்புல் இருக்க அது இல்லாமல் கீழே போட்டல் தரைகளிலே அவர்களுடைய ஆடுகள் மேய்ந்து கொண்டிருக்கும் போது தவறி ஏதோ ஒரு மாடு அல்லது ஆடு Forest எல்லைக்குள்ளே சென்று மேய்ந்து விட்டால் அவர்களை பிராவியிடிட்ட் செய்கிறார்கள், கேஸ் போடுகிறார்கள். அவர்கள் படும் அவஸ்தை என் தாலுக்காவில் வந்து பார்த்தால் சொல்லத்தறமன்று. ஆகையால் Forest எல்லைக்குள் இத்தனை மைல் தூரத்திலுள்ள கிராமங்களில் ஆடுகளும் மாடுகளும் வந்து மேய்த்துக் கொள்ளலாம். அவர்களுக்கு அடுப்பு எரிப்பதற்கு வேண்டிய விறகை உபயோகித்துக் கொள்ளலாம், ஆனால் விற்கக்கூடாதென்று ஒரு ஆர்டரையாவது போட்டு அந்த சௌகரியங்களையும் மந்திரி சபை செய்யு மென்று எதிர்பார்க்கிறேன்.

“நிற்க சில கிராமங்களிலுள்ள கண்மாய்க்களில் அந்தந்த கண்மாயைச் சேர்ந்த பட்டாதார்களே பாசிவரி செலுத்திவிட்டு மீனைப்பிடித்து கொள்ள அனுமதி கொடுத்திருக்கிறார்கள். என்னுடைய தொகுதியிலே ஒரு மீன் பட்டா, பாசிப்பட்டா ஒரு ஐயங்காருக்கு கொடுக்கப்பட்டிருக்கிறது. அந்த ஐயங்கார் அதை வியாபாரத்திற்கு உபயோகிக்கிறார். ஜனங்கள் அதைச் சாமான்யமாகப் பிடித்துச் சாப்பிட்டால் உணவுப் பஞ்ச காலத்தில் சௌகர்யமாக இருக்கும். ஆனால் அந்த ஐயங்கார் வெளியில் ரூபாய்க்கு என்று எலம்விட்டு பணத்தைக்கொண்டு போகிறோறே யொழிய ஜனங்களுக்குச் சௌகரியமாக இல்லை. ஜனங்களே அந்த மீனைப்பிடித்து சாப்பிடவேண்டும் அல்லது ஸர்க்காரே அதை ஏலத்திற்கு விட்டும் அந்தப் பணத்தை பணமில்லை, பணமில்லை, மதுவிலக்குச் செய்வதற்குப்பண மில்லையென்று ஒலமிடப்படுகிறது இப்படிப்பட்ட பணமெல்லாம் அதற்கு உதவாதா. ஒரு கிராமத்தில் சுமார் ரூ. 1,200 தான் பாசிவரியாக வசூலிக் கப்படுகிறது. அவர்கள் அந்த மீனை எலம்-விட்டதன் மூலம் 11,000 ரூபாய் கிடைத்தது. அதில் 1,200 ரூபாய்தான் ஸர்க்காருக்கு வருகிறது, பாக்கி பொங் கல் நடத்துவதிலும் கனிக் கூத்தாடுவதிலும் செலவிடப்படுகிறது. ஜனங்களுக்கு ஹிம்சை ஏற்படாமல் எந்தெந்த வகையில் வருமானத்தைப் பெருக்க முடியுமென்பதைக்கண்டு பிடிக்க ஆலோசனைக்கமிட்டியொன்று போட்டு பணத்தைக்கொண்டுவர வழி இருக்கிறதா என்று பார்க்கவேண்டும். இதை நான் சொல்லத் தேவையில்லை. மந்திரிகள் அதற்கு ஏற்பாடு செய்வார் களென்று எதிர்பார்க்கிறேன். தொழில் சாலைகள் தேசிய மயமாக்கப்பட வேண்டுமென்று பல அங்கத்தினர்கள் பேசிவிட்டார்கள். இப்படி வேலை நிறுத்தங்களும் லாக்கவுட்களும் பெருகிக்கொண்டிருக்கும் இந்த நாளில் கண்டிப்பாக ஸர்க்கார் இதைப்பற்றித் தீவிரமாக யோசிக்கவேண்டுமென்று சிபார்சு செய்யக்கடமைப்பட்டிருக்கிறேன். மேலும் ஜமீந்தாரி முறையை ஒழித்துவிடவேண்டுமென்று கனம் ரெவின்யூ மந்திரியவர்கள் சமீபத்தில் பப்ளிக் மீட்டிங்கில் கூறியிருக்கிறார்கள். ஜமீந்தாரிகள் எவ்வளவு சீக்கிரம் ஒழிக்கப்படுகிறதோ அவ்வளவு சீக்கிரம் ஜனங்களுக்குக் கேஷமமுண்டாகுமென் றிருக்கிறோம். பிரதம மந்திரியவர்கள் சென்ற காங்கிரஸ் மந்திரி சபை இருந்த காலத்தில் தயாரித்த பில்லை அனுசரித்து மட்டும் திருத்தும் பக்கத் தில் பிரயோசனமில்லை. ஆகையால் தயவுசெய்து அந்த ஜமீந்தாரி ஆக்ஷி முறை அடியோடு ஒழிக்கப்படவேண்டும். அந்த நிலம் பூராவும் ஸர்க்கா ருக்கோ விவசாயிகளுக்கு சொந்தமாக்கப்படவேண்டுமென்று நான் கேட் டுக்கொள்ளுகிறேன். அதற்கு நஷ்ட ஈடு எவ்வளவு கொடுப்பதென்ப தற்கு மற்ற விஷயங்களைப்பற்றியும் யோசிப்பதிலும் கமிட்டி போடுகிறோ மென்று காலதாமதம் செய்யவேண்டாம். வெகு சீக்கிரத்தில் ஜமீந்தாரி முறையை ஒழிப்பதற்கு மந்திரி சபை தீவிரமாக ஈடுபடவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன். விவசாயிகள் பல இடங்களில் பலவிதமானதேவை யான உணவைப் பெருக்கவேண்டுமென்று மந்திரி சபை நடவடிக்கை எடுத்து வருவதை பாராட்டாமல் இருக்கமுடியாது. சி.டி. ஆக்ட்

[Sri K. Rajaram Nayudu] [2nd August 1946]

சட்டத்தின் கீழ் ஒருபுறம் நிர்ப்பந்தத்தின் கீழ் இருந்து கொண்டும் ஒரு புறம் கஷ்டப்பட்டுக்கொண்டிருப்பதோடும் இல்லாமல் அவர்கள் மாடு வாங்கக் கூட பணமில்லாமல் அவர்கள் என்ன செய்கிறார்களென்பதை பிரதம மந்திரி கேட்டால் ஆச்சரியப்படுவார்கள். அவர்கள் காளைமாடுகளை வைத்து விவசாயம் செய்யமுடியாமல் தூற்றுக்கு 98 பேர்கள் பசுமாடுகளைவைத்து விவசாயம் செய்கிறார்களென்பதைத் தெரிந்துகொள்ளவேண்டும். அவ்விதமாக கஷ்டப்படுவதன் காரணங்களில் சி.டி. ஆக்ட் ஒன்று, பொருளாதாரம் ஒன்று. அவர்கள் வெளியூர்களுக்குச் சென்று பொருளாதாரத்துரையைப் பெறுக்கமுடியாமல் இருப்பதற்கு குற்ற பரம்பரைச் சட்டம், காரணமாயிருக்கிறதே யொழிய வெறொன்றுமில்லை. ஆகவே அவர்களுக்கு மாடுகள் வாங்கிக்கொடுக்க எதேனும் ஒரு வழி செய்யவேண்டும். குறிப்பிட்ட பிரதேசங்களைப் பொறுத்து எந்தெந்த இடத்திற்கு எவ்விதமான வசதி கொடுக்க முடியுமென்று தேர்ந்தெடுத்து அதற்கு உதவி செய்வார்களென்று கேட்டுக் கொண்டு பொதுவாக இவ்வளவு சிறந்த பட்ஜெட்டை தயாரித்துக்கொடுத்த பிரதம மந்திரி யவர்களுக்கும் மந்திரி சபைக்கும் பரார்ப்டுலை தெரிவித்துக் கொண்டு என்னுடைய சிறுநரையை முடித்துக்கொள்ளுகிறேன்.”

SRI. D. KADIRAPPA:—“అధ్యక్షా, నాకు యీ దినము యిక్కడ మాట్లాడేదానికి అవకాశము యిచ్చినందులకు నా వందనములు తెలుపుచున్నాను. ముఖ్యముగా నేను చెప్పేది విమనగా, యింత త్వరగా శీఘ్రకాలములోనే గవర్నమెంటువారు విమాత్రము అలస్యములేకుండా బడ్జటును తయారుచేసి, యీ గవర్నమెంటును సక్రమముగా నడుపుటకు ప్రయత్నము చేసినందుకు నా వందనములు తెలుపుచున్నాను.

“నేను ఒక్క విషయము ముఖ్యముగా చెప్పదలచుకున్నాను ఆసంతపురం జిల్లా లో మడకశిర, పెనుకొండ, హిందూపురము తాలూకాలకు తెవిన్యూ మినిస్టరుగారు వచ్చి ఆ ప్రాంతాలలో వుండే కష్టాలను, జిల్లాలోవుండే కష్టాలను అన్ని తాము సంచారముచేసి తెలుసుకొన్నాము. అక్కడ పరిస్థితులను నేను 26 సంవత్సరాలనుంచి చూస్తూ వున్నాను. అక్కడ వర్షములులేవు. వర్షములు లేవు అంటే ఫ్యామిను (Famine) రోడ్లు మాత్రము తయారుగావస్తుంది. చెరువుల మరమ్మతులుగాని, పంకలు కట్టడముగాని, దానికి సరియైన బండ్ బండ్లు చేయడముగాని లేదు. ఇప్పుడు కుమద్వతి (Kumadvati) ప్రాజెక్టు అనేది తయారుచేసినారు. 1937 వ సంవత్సరములోనే కాంగ్రెసు గవర్నమెంటు వున్నప్పుడు, దానిని బడ్జెట్టులో పెట్టుతాము అని చెప్పినారు. కాని అది నేటివరకు జరుగలేదు. మొన్న భక్తవత్సలముగారు మాడ వచ్చి దానిని చూచినారు. ఈ బడ్జెట్టులో ఆది వస్తుందో లేదో తెలియదు.

“తరువాత యిప్పుడు ముఖ్యముగా ఫుండ్‌ది కల్లు అంగళ్లు, సారాయి అంగళ్లు, దానిని 27 జిల్లాలలో తీసివేయవలెను అనేవారు ఒక ప్రక్క, 4 జిల్లాలలో మాత్రము తీసివేయవలెను అనేవారు ఒక ప్రక్క వున్నారు. నాలుగు జిల్లాలలో మాత్రము తీసివేస్తే తలిమ జిల్లాల మాత్రము సేయ్యటాక్సు (Sales Tax) కట్టేది లేదా అని వారు అంటూవున్నారు. పూర్తిగా 27 జిల్లాలలో యీ అంగళ్లు యెందుకు తీసివేయవలెను అని అసెంబ్లీలో కూడ ప్రశ్న వచ్చింది. ఈ విషయమై మనం సూక్ష్మముగా చెప్పవచ్చును, గాని, దానిని మీసే సదివేవారికి దానియొక్క ఆయాసము తెలుస్తుంది. బయటిఫుండ్ ఏమి ఆయినా చెప్పవచ్చును. ఒక యింటిలోని కట్టము యింటి యజమానులకు తెలుస్తుంది. దానికి సరియైన జవాబుదారి తీసికొని సరియైన మార్గములో సదివి బడ్జెటులో హెచ్చు తగ్గులు లేకుండా చూడవలసినది ముఖ్య విషయము.

“తరువాత, హరిజనుల విషయము చెప్ప దలచుకొన్నాను. వారికి యిప్పుడు కొన్ని యిబ్బందులువున్నవి. తినేదానికి తిండి, కట్టేదానికి గుడ్డలు వారికి చిక్కడములేదు. కరంతుగారు మా జిల్లాకు వచ్చినప్పుడు నేను వారితో ఆస్తి ప్రాంతాలు తిరిగినాను. వారు గ్రామాలవద్ద రోడ్డుమీద కారు నిలిపినప్పుడు, ప్రజలువారికి గోధుమల విషయమె

2nd August 1946] [Sri D. Kadirappa]

మనవిచేసికొన్నారు. గోధును పిండి అంటే మైదాపిండి అంటే మాకు తెలియదు. దానిని తింటే మాకు బేదలు ఆవుతావుంది అని మనవిచేసికొన్నారు. అదే ప్రకారముగానే వారు మీకు బాన్సులు యిప్పించుతాము అని చెప్పినారు. ఇక్కడ వుంటే ఫామిను (Famine) అంతా ఆరుమాసాలలో పోగొట్టుతాను అని రెవిన్యూ మినిస్టరుగారు హామీ యిచ్చినారు అని నేను విన్నాను. నా పేర జిల్లాలో సంవత్సరానికి మూడు వర్షాలు కురుస్తుంది. గవర్నమెంటు నుమారు 20 లక్షలు అయినా ఖర్చు పెట్టుతావుంది. ఫామిను రోడ్లు వేయించినపుడు ప్రతి మెంబరు అక్కడకు వచ్చి వుండిరి. రాళ్ల కుప్పలు మాత్రము మెంబరుకు కనపడుతావుంటుంది. అంటే గాని రోడ్లు మాత్రము కొద్దికాలమైనా వుండవు. అట్లా యింత కష్టముచేసి, ఫామిను వర్క్సు పెట్టి, ప్రజల డబ్బు ఖర్చుచేసేదానికంటే, మైసూరులో వుట్టి ఆనంతపురం జిల్లాలో పారుచున్న నెన్నాలోని అక్కడక్కడ పారిపోయే నీళ్లకు ఆనంతపురం జిల్లాలో ఆనకట్టలు కట్టించుటే రి చెరువులు భర్తీ అవుతుంది. మా జిల్లాలో ముఖ్యముగా మూడు చెరువులున్నందుచే మా జిల్లాలో ఫామిను వుండదు. సంవత్సరానికి మూడు వర్షముకురుస్తే మైసూరు బార్లరునుంచి నీరువస్తుంది, అట్లు చెరువులు కట్టించి, ఆ చెరువులు మరమ్మతు చేయించి కాలువలు కట్టించుటే చాల బాగుంటుంది.

“తరువాత, బావులు ప్రవ్వించే దానికి ప్రయత్నము చేసినారు. రూ 190 లు పాతబావుల 8 వేనికి యిస్తారు అని, రూ 310 లు కొత్త బావులకు యిస్తారని విన్నాను. కాని ప్రద్యోగస్తుల చేతులలో రూ 50, 60 లు పోతుంది. అదే విధముగా కంప్లెయింతులు వస్తూవుంది.

“ ఇప్పుడు ప్రజల గవర్నమెంటుచచ్చింది, గనుక, ఈ అన్యాయమును ముఖ్యముగా పోగొట్టవలెను. కొత్త బావులు త్రవ్వించే దానికి 500 రూపాయలు చేసినారని విన్నాను. అది చాల సంతోషించదగిన విషయము. పైముకూడ ఒక్క సంవత్సరము ఎక్కువైనను చేసినారు. గవర్నమెంటువారు కొన్ని కంటేషనులుకూడ పెట్టినారు. కాని రయితో కనీసము దారువద్దకు పోతే కరణం దగ్గర నల్లపిక్వెట్టు కావలెనంటారు, కరణము దగ్గరకు పోతే, ‘నాకు యిప్పుడు అర్జంటు వర్క్సు వుంది తరువాత రా’ అని చెప్పతావున్నారు గనుక, ఈ చిల్లర దేవతలు లేకుండా, మీరు అపాయంతుచేసిన అశీస్సును పెట్టి బావులు త్రవ్వించవలెనని కోరుచున్నాను. ప్రధాన మంత్రిగారు ఈ విషయమును గమనించుతారని నమ్ముచున్నాను.

“తరువాత, హరిజనుల విషయమై చెప్పతాను. ఇప్పుడు అక్కడక్కడ లేబరు స్కూల్స్ పెట్టారు. పేరుకు మాత్రము లేబరు స్కూల్స్ పెట్టారు. కాని పిల్లల వాళ్లు చదువుకునే దానికి బుక్కులు, పలకలులేదు. వాటిని యిప్పించవలెను. ఇప్పుడు మైను అయిపోయింది గనుక బిక్క విషయము మాత్రము చెప్పతాను. మెట్రీకులేషను ప్యాసుకాకుండావున్నా, మా హరిజనులను సెంట్రలు గవర్నమెంటులో ఆపాయెంటు చేయవలెనని విన్నవించుచున్నాను. హరిజనులలో చాలమంది మెట్రీకులేషను ప్యాసు కాలేదు. మెట్రీకులేషను చదివిన వారికి సబ్ యింక్ స్పెక్టరుగాగాని, రెవెన్యూ యింక్ స్పెక్టరుగాగాని స్పెషలుగా గవర్నమెంటు ఎంప్లొయ్డ్ యిచ్చి, తనులు యిప్పించుతారని నమ్ముచున్నాను.”

The House then adjourned to meet again at 11 a.m. on Saturday, the 3rd August 1946.

[2nd August 1946]

APPENDIX.

[Vide answer to unstarred question No. 12 (94) asked by Sri S. Nagappa at the meeting of the Legislative Assembly held on the 2nd August 1946, page 90 supra.]

Statement showing cultivable waste lands in blocks of 50 acres and above, the extent brought under temporary cultivation as a result of the Grow More Food campaign out of those lands until the beginning of 1944 and the extent of poramboke cultivation in fasli 1354.

Name of district.	Total area in compact blocks of 50 acres and above.	Area under Grow More Food cultivation up to 1944 out of the extents in column (2).	Total extent of poramboke cultivation in fasli 1354.

THE MADRAS LEGISLATIVE ASSEMBLY.

Saturday, the 3rd August 1946

The House met in the Assembly Chamber, Fort St. George, at eleven of the clock, Mr. Speaker (THE HON. SRI J. SIVASTAN-MUKHAM PILLAI) in the Chair.

I.—QUESTIONS AND ANSWERS.

N.B.—The numbers within parentheses represent the numbers in the order of receipt of notice.]

STARRED QUESTIONS.

Fire accident in Teynampet.

* 49 (48) Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

(a) whether there was a serious fire accident in Teynampet recently that resulted in the death of a number of persons; and

(b) if so, the cause that led to the incident?

THE HON. SRI T. PRAKASAM:—“(a) Yes.

“(b) The exact cause is unknown. A quantity of waste films were stocked in the premises and a naked light, a match or a cigarette end could have ignited the film. If old films decompose they are liable to spontaneous combustion. The house was not electrified.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“Will the Hon. the Premier be pleased to state whether the Fire Services have been used for purposes other than those for which they were intended?”

THE HON. SRI T. PRAKASAM:—“Notice.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“May I know, Sir, if the Government are aware that the Fire Services personnel were used in connexion with the postal strike?”

THE HON. SRI T. PRAKASAM:—“Notice.”

Retrenchment in the Fire Services.

* 50 (60) Q.—SRI N. S. VARADACHARI: Will the Hon. the Prime Minister be pleased to state—

(a) whether any further retrenchment in the Fire Services is contemplated; and

(b) whether it is a fact that persons with no qualifications have been promoted to officers' ranks in the services while many with qualifications have been reduced to lower ranks?

THE HON. SRI T. PRAKASAM:—“(a) The war-time strength of crews required also for fire appliances and ambulances intended for transfer to new mufassal sections which are yet to be opened in certain mufassal municipal towns is being maintained now. The Government have decided to postpone the construction of permanent fire stations, static water tanks, etc., to next year. It is however proposed to open about 20 new temporary fire stations in mufassal towns this year either by constructing temporary fire stations or by

[3rd August 1946]

renting accommodation and to utilise the excess appliances and trained crews available for transfer.

“(b) No qualifications as such have yet been prescribed for appointment to any of the posts in the Fire Services as the appointments to them were made in war time. It is however reported that as suitable candidates were not available, two driver mechanics were promoted as Engineer Sub-officers in the Fire Services Regional Workshops. There has been no reduction of any qualified men to lower ranks during the last six months.”

N. MUHAMMAD ANWAR SAHIB BAHADUR:—“On a point of information, Sir. The answers are read out and are not audible to many sections of the House. May I suggest, therefore, Sir, that the answers are printed and circulated to members beforehand.”

MR. SPEAKER:—“These are oral answers and hence they are being read out.”

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“Mr. Speaker, I myself wanted to raise the question. Will it not be possible for the Hon. Minister to supply copies of written answers as far as possible.”

MR. SPEAKER:—“In the first place these are called oral answers and to conform to it, the present practice is followed. Hon. Members may be aware that under the Montford Reforms answers were printed and circulated to members beforehand but under the present system, during the time of my predecessor, answers were being given orally. I am following this as being in consonance with the procedure obtaining in the British Houses of Parliament where answers are only given orally. If hon. Members have not heard the answers properly, I will request the Prime Minister to kindly repeat the answers.”

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“Mr. Speaker, the old method seems to be more desirable and that is why I modified my request that printed answers may be supplied as far as possible.”

THE HON. SRI T. PRAKASAM repeated the answer to starred question No. 50.

SRI P. VENKATESWARLU:—“Will the Hon. the Prime Minister be prepared to extend the Fire Services to Taluk headquarters so as to avoid fire accidents in villages?”

THE HON. SRI T. PRAKASAM:—“The Fire Services would be stationed in such places as could give the required amount of service.”

SRI KALA VENKATA RAO:—“The hon. Member asked whether by locating the fire services at taluk headquarters fire accidents in the villages would be avoided. At best such a location will only help to put down the fire and not avoid it altogether.”

THE HON. SRI T. PRAKASAM:—“The question put by Sri Venkateswarlu and the answer to it by Sri Kala Venkatarao I thought, were as between themselves.”

[3rd August 1946]

SRI N. S. VARADACHARI:—“Do the Government consider that this is an essential service?”

THE HON. SRI T. PRAKASAM:—“I think it is an essential service. As the service is essential, we should give it protection.”

SRI N. S. VARADACHARI:—“In that case, have the Government considered the desirability of prescribing qualifications for officers' posts in that service?”

THE HON. SRI T. PRAKASAM:—“I request the hon. member to explain further what he has in his mind.”

SRI N. S. VARADACHARI:—“I asked, Sir, whether Government do not consider it necessary to prescribe qualifications for officers' posts essential qualifications not being mechanical skill but presence of mind, celerity and diligence.”

THE HON. SRI T. PRAKASAM:—“To serve fire service is not an easy matter. They have rendered service where they require the exercise of qualifications like strength of mind, daring and courage, presence of mind and not merely educational qualifications. Only these would be best fitted to render fire service whether they have other qualifications or not.”

SRI N. S. VARADACHARI:—“Will the Government call for detailed information regarding the qualifications possessed by those at present occupying officers' jobs in the service?”

THE HON. SRI T. PRAKASAM:—“Yes.”

SRI P. KANDASWAMI PILLAI:—“Is there any training centre not only for the officers of the Fire Services but also for the other employees of the department? If so, what are the qualifications and on what grounds they are enlisted in the Department?”

THE HON. SRI T. PRAKASAM:—“Notice.”

DR. S. SUBRAHMANYA AYYAR:—“Is it a fact, Sir, that fire engines were rushed to Karur from Madras during the recent fire?”

THE HON. SRI T. PRAKASAM:—“Notice.”

Tour programme of Government officers.

* 51 (71) Q.—SRI A. B. SHETTY: Will the Hon. the Prime Minister be pleased to state whether Government officers send their tour programme to Members of the Legislature in the districts which they visit?

THE HON. SRI T. PRAKASAM:—“The answer is in the affirmative so far as the District Officers and other Gazetted Officers whose jurisdiction extends over only a portion of the district are concerned. Presidency Officers have also been instructed now to send copies of their tour programme to members of the Legislature in the districts they propose to tour.”

[3rd August 1946]

SRI A. B. SHETTY:—" May I know, Sir, whether the officers will give previous information to Members about the object of their tour in the district unless it is of a confidential nature? "

THE HON. SRI T. PRAKASAM:—" I should expect Government officers, who go to districts, to give the information required by legislators."

Question No. 52 was put by M. Muhammad Ismail Sahib Bahadur having been authorized by Begum Sultan Mir Amiruddin.

Paid and honorary Medical Officers in Government Maternity Hospitals in the City.

* 52 (142) Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Public Health and Medicine be pleased to state—

(a) the number of (1) men medical officers and (2) women medical officers employed in each of the Government Maternity Hospitals in the City of Madras; and

(b) how many of the above (1) men medical officers and (2) women medical officers in each of the Government Maternity Hospitals are holding paid posts and how many are holding honorary posts?

THE HON. MRS. LAKSHMIPATHI:—" The statement below furnishes the information required:—

Name of Institution (Madras City).	Number of Medical Officers now employed.					
	Paid.		Honorary.		Total.	
	Men.	Women.	Men.	Women.	Men.	Women.
Government Hospital for Women and Children, Madras.	4	7	2	4*	6	11
Government Victoria Caste and Gosha Hospital, Madras.	Nil.	13	Nil.	1	Nil.	14
Rajah Sir Ramaswami Mudaliyar's Lying-in Hospital, Royapuram, Madras.	2	1	Nil.	Nil.	2	1

* Two are vacant.

The above figures do not include House appointments."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I ask whether the Hon. Minister does not consider the time has come when we can substitute men doctors by the employment of women doctors? "

THE HON. MRS. LAKSHMIPATHI:—" Yes, Sir, if sufficient numbers of women doctors are available, they will certainly be appointed."

B. POCKER SAHIB BAHADUR:—" Is the strength of medical officers sufficient to man all the hospitals in the presidency? "

THE HON. MRS. LAKSHMIPATHI:—" The suggestion will be considered."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" Is it a fact that the number of lady doctors in men hospitals is sufficiently large who can be transferred to maternity hospitals? "

[3rd August 1946]

THE HON. MRS. LAKSHMIPATHI:—" Yes, they can be transferred."

SRI P. NATESAN:—" Does the Hon. Minister consider that women medical officers are good for maternity work? "

THE HON. MRS. LAKSHMIPATHI:—" Yes, if men are considered skilled for that work, women too may be considered to be equally skilled." (Laughter.)

Number of midwives trained in Training Hospitals in the City.

* 53 (143) Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Public Health and Medicine be pleased to state the number of midwives that are being trained in each of the Training Hospitals in the City of Madras?

THE HON. MRS. LAKSHMIPATHI:—" The information is furnished below:—

Names of the Hospitals.	Number of midwives undergoing training in Government institutions.
1 The Government Hospital for Women and Children, Madras.	95
2 The Government Victoria Caste and Gosha Hospital, Madras.	34
3 The Rajah Sir Ramaswamy Mudaliar's Lying-in Hospital, Madras.	21
Total ..	150 "

SRI A. AARON RAO:—" Do Government think that these institutions are sufficient to cater to the needs of the women in the Province? "

THE HON. MRS. LAKSHMIPATHI:—" I admit that the number is absolutely inadequate."

SRI A. KAMESWARA RAO:—" Have Government any scheme in view to train up a large number of midwives to cater to the needs of the rural parts? "

THE HON. MRS. LAKSHMIPATHI:—" Sir, I may invite the attention of the hon. Member to the provision made in the Budget for training 200 midwives this year."

SRI A. KAMESWARA RAO:—" Will that 200 be sufficient? "

THE HON. MRS. LAKSHMIPATHI:—" I know, Sir, it is absolutely inadequate to the needs of the Province. Next year, perhaps we may be able to make more provision."

Application of Hindu Women's Rights to Property Act to agricultural property.

* 54 (172) Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Law be pleased to state if the Government propose to undertake necessary legislation to make the Hindu

[3rd August 1946]

Women's Rights to Property Act, 1937, as amended by Act XI of 1938 apply to agricultural property in this Province?

THE HON. SRI K. BHASHYAM:—"The answer is in the affirmative and the Bill will be placed before the Legislature as soon as business permits."

Minor irrigation works in Malabar and South Kanara.

* 55 (73) Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Revenue be pleased to state—

(a) whether the Government propose to investigate the possibilities of establishing minor irrigation works in Malabar and South Kanara; and

(b) what action has so far been taken in this matter?

THE HON. SRI K. R. KARANTH:—" (a) & (b) Malabar.—

A proposal to work out a scheme of minor irrigation facilities for Malabar was considered in 1944 but could not be pursued as there were legal difficulties in the way. The question of legislation to remove these difficulties is under the consideration of the Government. Pending the enactment of legislation orders have been issued that some suitable minor irrigation schemes in this district should be investigated immediately.

South Kanara.—In 1944 the Government sanctioned the appointment of a special minor irrigation staff for the investigation of certain schemes in this district. But as the necessary personnel were not available it was not possible to start the investigation. Orders have now been issued to appoint the staff and start investigation of the schemes as soon as weather conditions permit."

B. POCKER SAHIB BAHADUR:—"Will the Hon. Minister state what were the legal difficulties that stood in the way?"

THE HON. SRI K. R. KARANTH:—"Many of the beds of rivers of Malabar are private property, and therefore the question of acquiring them has to be considered before any irrigation scheme can be carried out."

MR. F. FERRELLY:—"Will the Hon. Minister be pleased to state, who is responsible for the delay from 1944 to the present time? Which officer?"

THE HON. SRI K. R. KARANTH:—"Necessarily the previous Government which was in charge, and not officials, who are, after all, only their subordinates."

SRI K. BOKKAI GOWDER:—"May I know whether Government propose to conduct any investigation in the Nilgiris district?"

THE HON. SRI K. R. KARANTH:—"The district of Malabar is different from the Nilgiris."

[3rd August 1946]

K. M. SEETHI SAHIB BAHADUR:—"May I know who is carrying on investigation under minor irrigation in Malabar? What is the agency that is carrying the investigation into the possibilities of the minor irrigation schemes in Malabar?"

THE HON. SRI K. R. KARANTH:—"The Public Works Department."

K. M. SEETHI SAHIB BAHADUR:—"May I know when the report of that department is expected?"

THE HON. SRI K. R. KARANTH:—"I am unable to say when just at present."

SRI V. I. MUNISWAMI PILLAI:—"Is the Hon. Minister aware that conditions of Gudalur taluk in the Nilgiris are similar to those of Malabar?"

THE HON. SRI K. R. KARANTH:—"A separate question may be asked?"

B. POCKER SAHIB BAHADUR:—"May I know how many years will it take for legislation to be introduced?"

THE HON. SRI K. R. KARANTH:—"Not more than two or three months."

SRI M. G. NATESA CHETTIYAR:—"May I know whether the Hon. Minister is aware that there is a widespread demand for more minor irrigation facilities in the Province?"

THE HON. SRI K. R. KARANTH:—"A separate question may be put."

SRI M. G. NATESA CHETTIYAR:—"May I know whether the Hon. Minister is aware that there is a list of minor irrigation schemes published by Government?"

THE HON. SRI K. R. KARANTH:—"I am not aware."

Area under dry paddy cultivation in Tiruturaipundi taluk, Tanjore district.

* 56 (52) Q.—SRI A. VEDARATNAM PILLAI: Will the Hon. the Minister for Public Works be pleased to state—

(a) the area under dry paddy cultivation in Tiruturaipundi taluk, Tanjore district;

(b) whether the former Government received any petition from the residents of Vedaranyam range of the said taluk for digging irrigation channel to convert the dry paddy cultivation area of the range into wet paddy cultivation area; and

(c) what steps were taken by the Government on the petition?

digging irrigation channel to convert the dry paddy cultivation acres.

"(b) Yes.

"(c) On investigation it was found that lands are all high level not likely to be commanded by the Mulliar. It was, therefore, considered that the proposal for the extension of irrigation under the Mulliar should be kept in view and taken up again if it was found that such extension was

[3rd August 1946]

possible by improvement of duty under the Cauvery. The question has been examined again by the Chief Engineer and his preliminary proposals for the extension of irrigation to about 2,600 acres at the tail end of Mulliar, Tiruturai-pundi taluk, are at present under correspondence between the Chief Engineer and the Board of Revenue."

B. POCKER SAHIB BAHADUR:—"In answer to clause (a) I should like to know whether the area now covered is higher than the area covered in previous years?"

THE HON. SRI M. BHAKTHAVATSALAM:—"Notice."

Irrigation schemes in South Kanara district.

* 57 (100) Q.—H. S. HUSSAIN SAHIB BAHADUR: Will the Hon. the Minister for Public Works be pleased to state—

(a) the particulars of all the irrigation schemes in the district of South Kanara for which the Government have prepared estimates during the last four years;

(b) whether there are any irrigation schemes in South Kanara under investigation at present; and

(c) the reasons for not giving effect to irrigation schemes, if any, in South Kanara that are ready for execution?

THE HON. SRI M. BHAKTHAVATSALAM:—" (a) The Chief Engineer (Irrigation) reports that the following two schemes have been investigated and that estimates have been prepared:—

(1) Shiriya river scheme and (2) Improvements to the Chantar madaga.

" (b) The following schemes are being examined by the Chief Engineer (Irrigation):—

(1) Hadavamigadda River scheme; (2) Kattinahole River scheme; (3) Thondle Dam; (4) Dam across Bijpur stream; (5) Yederi Dam; (6) Gantinahole Dam; (7) Kathalhole or Kabsi Dam; (8) Harekere tank; (9) Hunthankere tank; (10) Thaimakkikere tank; (11) Gulpur river anicut scheme; (12) Kumbla back water reclamation.

" (c) The reasons for not taking up the two schemes referred to under clause (a) above are—

(1) The cost of scheme as now estimated is very high, being Rs. 7,06,000 for irrigating an area of 351 acres most of which is already raising one crop and even two crops. The possibility of reducing the cost is being examined now. Further, there are objections from lower ryots to diversion at the proposed anicut and this is under correspondence between the Chief Engineer (Irrigation) and the Board of Revenue.

(2) The Chantar-madaga scheme is also very costly, involving acquisition of valuable wet lands on the foreshore. The Chief Engineer considered that definite assurance of availability of extra supply for any new areas for a summer crop could not be given. The ryots were asked if they

[3rd August 1946]

would pay a small extra water rate on the existing ayacut and they declined. The ryots have now offered to pay and the scheme is being re-examined by the Chief Engineer (Irrigation)."

H. S. HUSSAIN SAHIB BAHADUR:—"May I know, Sir, whether the question of considering the possibility of reducing the cost of Shiriya river scheme will be taken up immediately and the scheme completely executed as early as possible?"

THE HON. SRI M. BHAKTHAVATSALAM:—"It is just now being considered, and as soon as the results are known we will take it up for consideration."

Reduction of illiteracy in the Province.

* 58 (106) Q.—H. S. HUSSAIN SAHIB BAHADUR:—"Will the Hon. the Minister for Education be pleased to state—

(a) the percentage of illiteracy in the Province of Madras; and

(b) what steps the Government propose to take to reduce the percentage of illiteracy as early as possible?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

" (a) About 84 per cent of the population are illiterate.

(b) The large percentage of illiteracy is due to the fact that most of the adults are illiterate. The Government have been working on the plan of bringing all children to schools and retaining them there till they complete the school course and thereby become permanently literate. By this process they expect to secure *cent per cent* literacy in the long run. To this end they have sanctioned *last year* a scheme of compulsory elementary education in selected villages in each district. This year they have also extended the scheme to other villages in each district. At the same time the Government have called for proposals from the Director of Public Instruction for initiating a scheme of adult education."

B. POCKER SAHIB BAHADUR:—"Have the Government in their programme of work any item for removing illiteracy completely, and if so, what is the plan?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

"I explained, Sir, that this extension of compulsory elementary education is introduced as a method of removing illiteracy, and I also said that Government have been working on the plan of bringing all children to schools."

B. POCKER SAHIB BAHADUR:—"What is the proportion of the number of persons, as compared with the total population of the Province, to whom this scheme has been extended so far?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

"At present it has been estimated, there are seventy lakhs of children of school-going age, who ought to be educated."

[3rd August 1946]

Of these, thirty lakhs of children are receiving instruction. Government sanctioned last year a scheme of compulsory elementary education in selected villages in each district. This scheme had the effect of bringing 1.70 lakhs of children to elementary schools. This year Government have sanctioned the extension of the scheme to other villages in each district. Under this extension scheme two lakhs of children will be brought to be educated. To serve as an incentive to children to attend school, Government have also sanctioned midday meals to school children."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Will the Hon. the Minister state how long it will take for the Government to attain cent per cent literacy in this Province?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The question of adult education is a broad question. There is a separate question the answer for which may be awaited. But in this matter I am speaking subject to correction I hope it will be possible to reach that stage within a period of ten years."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"May I know what is the definition that the Hon. Minister has in mind of literacy?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"You know it as well as I do."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Is the Hon. the Minister aware that there is a provision in the District Municipalities and Local Boards Act and if only that provision is set in motion literacy can be attained?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"But it is not merely a matter of setting in motion any provision. We are trying to do our best as it will be known from the answer."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Will the Hon. Minister consider the advisability of following the method as was done in Bombay?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Yes, Sir."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"May I know, Sir, that the reason why this provision for compulsory education in the district board areas and the municipalities has not been applied is on account of the suspicion on the part of the Government that the municipalities and district boards won't give effect to the penal provisions against the defaulters?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The order has been passed by the previous Government that in respect of municipalities or district boards con-

3rd August 1946]

cerned not filing cases against the parents the District Educational Officer has been authorised to take up the matter and prosecute the parents who disobey orders. The hon. Member knows as much as I do that district boards have elected members and that they were not punishing the defaulters."

SRI V. I. MUNISWAMI PILLAI:—"May I know what is the literacy in the urban and rural areas?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I will be obliged if the hon. Member puts a question."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Is it a fact that although the Government is chosen from the elected body it will not follow the attitude of the district boards and municipalities but will take up the matter and apply compulsion and see that parents who are defaulters are punished so that illiteracy may be wiped out from this Province?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Whatever method is efficient for the time being will be followed."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"In view of the fact that the Hon. the Minister holds the opinion that local bodies are handicapped in reducing illiteracy will he formulate a policy of taking over education entirely from the local bodies and managing it departmentally?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"It is too large a question to be answered as a supplementary question."

SRI K. ANANDA NAMBIYAR:—"May I know whether any effort is being made by the Government for the removal of illiteracy by opening a campaign of arranging night schools?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The answer is given in the next question."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Does the Hon. the Minister know, Sir, that the advance of literacy amongst Muslims is being retarded by want of sufficient provision for religious instruction?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I do not understand the connection between religious instruction and literacy."

A MEMBER:—"May I know what steps have been taken by the Hon. the Minister for the representation made to him for additional accommodation for boys in the schools who have been refused admission this year in Salem and other places?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"This matter has been brought to the notice of the Government and the Government have relaxed certain rules. If the

[3rd August 1946]

hon. Member puts a written question, he can get more exact answers."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"The Hon. the Minister stated that he did not know what connection there was between religious instruction and illiteracy. Does he not know that Muslims consider it an essential part of their education to have religious education and that they consider that an educational system that has no religion in it is not worth having?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"It is another matter from saying that every literate man is religious or that every religious man is literate."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Does the Hon. the Minister realise that was the reason why a certain member asked for the definition of literacy?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Sir, according to us any boy who has done the sixth standard is supposed to be a literate."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know if the Hon. the Minister had had the time to see the provisions of the Elementary Education Act whereby the Muslims cannot be compelled unless provision is made for religious instruction."

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I am glad for the enlightenment."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"I think he requires a lot of enlightenment."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"In that case will the Hon. the Minister see that sufficient provision is made for religious instruction for Muslim students?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I do not want to say anything about it. If he puts a question it will be examined."

Promotion of adult education in the Province.

* 59 (133) Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Education be pleased to state whether the Government have any scheme for promoting adult education in this Province?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The question of framing a scheme for the promotion of adult education is under the consideration of the Government."

SRI P. VENKATESWARLU:—"May I know whether any specific provision is made to give education to workers during nights?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"It is open to them to open night schools and get grants."

[3rd August 1946]

SRI P. VENKATESWARLU:—"Are the Government aware that propaganda for adult education to workers has been banned?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"No, Sir."

SRI P. VENKATESWARLU:—"Will the Hon. Minister look into the record to see if propaganda for adult education to workers has not been banned?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Representations were made to me and the question was pursued. Adult education had not been banned. Only political education which had conduct under the cover of adult education had been banned."

B. POCKER SAHIB BAHADUR:—"Has the Government taken any active steps themselves to give adult education apart from giving grants to private bodies?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I would like the hon. Member to refer to the latter part of my answer."

SRI N. S. VARADACHARI:—"Would the Government discourage hearing through the eyes—that is—that is what we are at present doing—and speaking through the fingers?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I do not understand the question."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Will the Hon. Minister be pleased to state what are the age-limits of the adult, maximum and minimum for adult education?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The hon. Member may put a separate question."

SRI V. I. MUNISWAMI PILLAI:—"Is it a fact that some of the night schools were closed?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I have no information."

SRI P. VENKATESWARLU:—"Does the Government propose to lift the ban introduced during the advisers' raj on the cover of political propaganda?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"You must put the question to other quarters. Unfortunately it is not under the Education Department."

SRI S. NAGAPPA:—"Is the Government aware that there are a number of non-official agencies interested in the question of adult education?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I understand so."

[3rd August 1946]

Introduction of compulsory elementary education in the Province of Madras.

* 60 (134) Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Education be pleased to state—

(a) what steps have been taken by the Government to make elementary education compulsory in this Province;

(b) the names of the places where compulsory elementary education has been introduced;

(c) whether Welfare Officers have been appointed to implement compulsory attendance in such areas;

(d) whether local bodies are being entrusted with the introduction of compulsory elementary education;

(e) whether in all areas where compulsory elementary education has been or is being introduced the scheme is applicable not merely to boys but also to girls; and

(f) whether in any area where compulsory elementary education has been introduced any community or any section of any community has been excluded from the operation of the scheme?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“(a) & (b). The hon. Member is referred to the annexure to the report on Public Instruction for 1943-44 in which the areas where elementary education has been made compulsory are enumerated. Compulsory elementary education has been in force in these areas for a long time. Besides these areas, the Government sanctioned in 1945-46 the introduction of compulsory elementary education in selected villages in each district as part of their post-war five-year plan of universal compulsory elementary education. Proposals for the extension of the scheme in 1946-47 to other selected villages in each district have been called for from the Director of Public Instruction and they will be sanctioned as and when received. As the list will be too long, the Government do not consider it worthwhile to furnish a list of villages where elementary education has been made compulsory under the new scheme.

“(c) The answer is in the negative.

“(d) The scheme is worked through local bodies.

“(e) The answer is in the affirmative in respect of the schemes introduced in 1945-46 and those that will be sanctioned in 1946-47.

“(f) Boys who have attained the age of ten and girls who have attained the age of eight are exempted from the operation of the schemes of compulsory elementary education recently sanctioned. No community or section of community has been excluded from the new scheme sanctioned last year (1945-46).”

[3rd August 1946]

B. POCKER SAHIB BAHADUR:—“With reference to the answer to clause (c) will the Hon. Minister be pleased to state why the Government thinks that welfare officers are not necessary.”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“At present Sir, we are having local committees which are constituted for each area are doing the work.”

B. POCKER SAHIB BAHADUR:—“Will the Hon. Minister be pleased to state whether in the choice of the compulsory education centres the legislators of the districts will be taken into consideration?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“Now the power has been given to the local bodies and I am not in a position to say whether they will take the legislators into confidence.”

SRI K. RAJARAM NAYUDU:—“Is the Hon. Minister aware that in the Kallar schools in the Madura district where there is compulsory education caste people are not admitted?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“Unfortunately it is not in the Education Department.”

SRI P. VENKATESWARLU:—“Do the Government propose to take special care and immediately start schools for the scheduled castes in their locality?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“Certainly in areas where compulsory education is introduced scheduled classes will also have the benefit.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“May I ask whether the Hon. Minister for Education will be pleased to call for report periodically to find out whether villages where Muslims live have also been included in the compulsory area?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“I must know in which villages the Muslims live before I call for the information.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“My question, Sir, was very definite, specific and even a child can easily understand. I asked the Hon. Minister to call for the reports periodically from local bodies who have been empowered to select villages as far as compulsory education is concerned.”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“Yes. Unless specific representations are made with regard to villages in which there are Muslims it is not possible for Government to call for general information.”

B. POCKER SAHIB BAHADUR:—“May I request the Hon. Minister, Sir, to call for information as to whether religious instruction has also been provided for in the schools in the areas in which compulsory education has been introduced when you call for the report so far as Muslims are concerned?”

[3rd August 1946]

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“Will the hon. Member put it as a separate question so that I may call for the information.”

B. POCKER SAHIB BAHADUR:—“With reference to clause (f) will the Hon. Minister for Education be pleased to state how many Hindu and Muslims schools have been included?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“Notice.”

K. M. AHMED KUTTI HAJI SAHIB BAHADUR:—“May I know how many villages in Malabar are under the compulsory area?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“If he puts a separate question I shall be glad to answer.”

SRI PATTABHIRAMIAH:—“May I ask the Hon. the Minister for Education whether the Kallar schools in the Madura district are inspected by educational officers?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“I am unable to say that. Kallar schools are not under the Educational Department.”

(Replying to Sri Venkateswarlu), THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—“Wherever the choice of villages are made they are made with reference to various aspects and the Scheduled Caste residents will also be brought under compulsion. If they are living in various villages separately they will be also brought under the Act.”

Harassment of the ryots of Mettapeta village by the Taluk Supply Officer.

* 61 (4) Q.—SRI G. KUMARASWAMI: Will the Hon. the Minister for Motor Transport and Food be pleased to state—

(a) whether it is a fact that Taluk Supply Officer of Narsanapeta taluk harassed the ryots of Mettapeta village in connexion with the procurement of the paddy and other foodgrains in the last week of the month of March 1946; and

(b) if so, what steps he proposes to take to prevent such occurrences in future?

THE HON. SRI R. RAGHAVA MENON:—“(a) The Government have enquired into the matter and find that there has been no harassment in the procurement of grains in the Mettapeta village.

“(b) In view of the answer to the above question, this question does not arise. The Government, however hope that as a result of the introduction of the new scheme of procurement under which non-officials are associated with the work of procurement, there will be no occasion for similar complaints in future.”

3rd August 1946]

SRI G. KUMARASWAMI:—“Is it not a fact that the Supply Officer rushed into the houses of some ryots and procured paddy by force?”

THE HON. SRI R. RAGHAVA MENON:—“The answer to question (a) as already given says that there is no such case.”

SRI G. KUMARASWAMI:—“Is it not necessary that an impartial non-official committee should be appointed to enquire the truth?”

THE HON. SRI R. RAGHAVA MENON:—“So many months have passed. Nothing effective can be done now.”

Procurement of foodgrains.

* 62 (55) Q.—SRI N. S. VARADACHARI: Will the Hon. the Minister for Motor Transport and Food be pleased to state—

(a) the total quantity of foodgrains procured in the month of May 1946 and in the first two weeks of June 1946; and

(b) whether the procurement target intended by Government was reached?

THE HON. SRI R. RAGHAVA MENON:—“(a) The total quantity procured during the month of May 1946 was:—

	TONS.
Rice	117,652
Millets	14,365

Quantity procured in the two weeks ending 13—6—1946 was

	TONS.
Rice	53,299
Millets	4,987

“(b) Targets have been fixed by the Government for procurement for the whole Kharif year from 1st November 1945 to 31st October 1946 and not for each month. The percentage of procurement to target from 1st November 1945 to 31st May 1946 was

Rice	47.50
Millets	14.00

SRI N. S. VARADACHARI:—“Do the Government think that that they will be able to reach the target before the end of the official year?”

THE HON. SRI R. RAGHAVA MENON:—“Government hope that they will be able to reach the target if the conditions go well.”

B. POCKER SAHIB BAHADUR:—“May I know what effect the grant of bonus had on the procurement of food?”

THE HON. SRI R. RAGHAVA MENON:—“Yes, it had a very beneficial effect.”

[3rd August 1946]

(Replying to an hon. Member) THE HON. SRI R. RAGHAVA MENON:—"The procurement figures does not include the import quota."

SRI N. S. VARADACHARI:—"Is it not a fact, Sir, that the months of July and August are lean months for procurement?"

THE HON. SRI R. RAGHAVA MENON:—"Yes, for the short term crop."

SRI N. S. VARADACHARI:—"How then does the Minister expect to reach the target before the official year?"

THE HON. SRI R. RAGHAVA MENON:—"The Government hope that before the end of the year they will be able to reach the target."

SRI P. VENKATESWARLU:—"May I know, Sir, if it is intended to extend procurement to Rayalaseema also?"

SRI N. VENKATASUBBAYYA:—"Is the Hon. Minister satisfied that procurement has been satisfactory in view of the fact that an army of officers has been employed for the purpose?"

THE HON. SRI R. RAGHAVA MENON:—"The Government think that procurement has been satisfactory, and there has not been any representation. We have only officers sufficient to make procurement and we have no army."

SRI N. VENKATASUBBAYYA:—"In view of the formation of village committees, will it not be possible to dispense with procurement officers at all?"

THE HON. SRI R. RAGHAVA MENON:—"To that extent wherever procurement officers can be reduced, they have been reduced."

P. P. HASSAN KOYA SAHIB BAHADUR:—"Do the procurement figures for this year show any improvement over the procurement figures of last year?"

THE HON. SRI R. RAGHAVA MENON:—"Yes, there was improvement, but I want notice for actual figures."

Control of the price of coconuts and chillies.

* 63 (163) Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Motor Transport and Food be pleased to state—

(a) whether representations have been made to Government to control the price of coconuts and chillies; and

(b) whether Government have taken any action in this matter?

THE HON. SRI R. RAGHAVA MENON:—" (a) Yes.

" (b) Yes.

"The question whether any, and if so what, control should be exercised over the distribution and price of chillies in the Province is engaging the attention of the Government.

[3rd August 1946]

"As regards coconuts also the Government of India are considering what steps are necessary to make adequate quantities of coconuts and coconut products available at reasonable prices. The Government of India have also been requested to secure urgently some imports of these commodities from Ceylon and Indonesia, as such imports may help to bring down local prices."

B. POCKER SAHIB BAHADUR:—"Have the Government of Madras been asked by the Government of India their opinion as to the advisability of controlling the price of coconuts?"

THE HON. SRI R. RAGHAVA MENON:—"This Government has addressed the Government of India on this question."

MR. F. FERRELLY:—"Will the Hon. Minister tell us in view of the fact that coconuts are foodstuffs, why this present Government requires to refer to the Government of India for controlling an indigenous foodstuff?"

THE HON. SRI R. RAGHAVA MENON:—"This is a matter that affects not only our province, but Travancore, Ceylon and Cochin as well."

MR. F. FERRELLY:—"Is the Hon. Minister aware that the price of coconut in Malabar is 700 per cent higher than what it was before the war?"

THE HON. SRI R. RAGHAVA MENON:—"The prices have risen very much, and that is why Government have tried to bring some control."

B. POCKER SAHIB BAHADUR:—"Are the Government aware that the coconut industry is a very important industry in Malabar and that if the price is controlled, it will discourage the cultivation of coconuts?"

MR. SPEAKER:—"The question hour is now over. The short notice question of Mr. Abdul Salam will be taken up on Monday."

[Note.—An asterisk (*) at the commencement of a speech indicates revision by the Member.]

II.—GENERAL DISCUSSION OF THE BUDGET FOR 1946-47—cont.

* SRI P. NATESAN:—"Sir, I must say that the Budget that has been presented by the Hon. the Premier is practically a conventional one, but yet, there are some welcome features in it. The Hon. the Premier has come forward with schemes for the procurement of food grains, Harijan uplift, sinking of wells and so on. The Government should take effective steps in regard to all these ameliorative measures and see that the money allotted is spent for the purpose for which it is granted. They should see that the funds provided do not go into the pockets of middle men. I have come across a number of cases of petty officials harassing the villagers and putting some money into their pockets, money intended for the uplift of the masses. noon.

[Sri P. Natesan]

[3rd August 1946]

"Sir, Mr. Ferrelly said yesterday that the Hon. the Premier is not right in appropriating 9 crores out of the reserve of 30 crores. After all, the reserve is intended to be used in emergencies. Word has been going round that the ex-Premier of Madras collected Sales tax in order to introduce one of his own pet policies which is Prohibition. It is contended therefore that the reserve ought not to be touched. There is no reason why the money that is available as a reserve should not be used for some other purpose particularly at a time when there is so much food scarcity. It is really good budgeting to spend the money that is available on urgent necessities. Of course the Hon. the Premier will certainly make an attempt to see how best this can be done. There is no such thing as earmarking for any definite purpose. After all, this is money collected from the people and should therefore be spent for the benefit of the people in some way or other.

"With regard to the "Grow-More Food" Campaign I find that a considerable sum of money has been spent for digging new wells and for repairing old ones. It is alright for easing the food situation. But how is the water going to be lifted out of the wells? I say that in places where electricity is available, facilities should be given to agriculturists to obtain motors and pumps. In this connection, Sir, I may point out that it is impossible for licensees like me to do any useful work in this direction however much we would like to help the agriculturists. For instance in my own case I wanted 2,000 casuarina poles to be used as distribution line poles for supply of energy for agricultural purposes. As these are not available in my own district, I got hold of a friend who was willing to let me have them. He, however, said that I would have to get a permit for the transport of this material from his place. I applied to the Revenue Board for a permit and I was told that as casuarina wood is in great demand for supply as firewood a permit for transporting it could not be given. The officers concerned are unable to realise that for purposes of firewood, even junglewood would be suitable. If they could only realise the urgency of my demand, I could give any amount of electrical service to the agriculturists in my area. Sir, I do not wish the House to think that I am talking about my own personal matter. I draw attention to this only with a view to help the agriculturists to make use of their wells for irrigation purposes.

"Sir, in the matter of village reconstruction there is in the Budget a considerable provision for khadi. I am afraid, Sir, that khadi spinning can only be a seasonal cottage industry and a subsidiary occupation for the villagers. It can never be a primary industry. As a sound long term economic policy for the country it can have no place in the planned economic reconstruction. I have worked out statistics which show that even if one crore of people are put on khadi manufacture, they cannot produce enough cloth for this Province. Sir, I understand, the population of Madras Province is about 4 crores. It is estimated

3rd August 1946]

[Sri P. Natesan]

that the labour required for producing, collecting and transporting the huge quantity of cotton and for implements, etc., will at least be one crore and this huge man-power should be employed in khadi production. I mean a substantial portion of the men and resources of the Province will be absorbed in only providing for the elementary need of clothing. A further one crore of persons will be required to grow our food, build houses, work industries, etc. There would be 2 crores left composed of the aged, the infirm and the disabled unfit for manual work. Although I have got the figures, I am afraid it will be too much for me to go into these in order to convince the party in power which is wedded to the production and introduction of khadi.

"With regard to the Harijan uplift all that can be said is that it may be accepted as symbolic of the Ministry's good intentions, but the provision of lump sums for expenditure without pointing out for what particular ways money should be spent is a novel departure from accepted canons of preparing budgets. The budget provisions are usually made when schemes are ready. To earmark large sums of money and then hunt after schemes is to discard sound budget maxim. If you earmark funds without having schemes ready, what will happen if the Department concerned will, before the close of the financial year, simply try to spend the money whether necessary or not because they will not be in a position to account for the unspent balance. That means whether there is need for the money or not, the officer in charge of the department concerned will somehow manage to spend the money within the year. He will in no case allow it to lapse. The Hon. the Premier has earmarked one crore for Harijan uplift. How did he arrive at this figure of one crore? What is he going to do with this huge sum? He practically says: 'I have earmarked this one crore for Harijan uplift. As and when I want I will utilize it.' This will mean he draws Rs. 25,000 for wells in the Harijan areas. Then he finds that there is a balance of Rs. 75,000 to draw upon. He draws again another Rs. 10,000 for some purposes. Then he will find that there is some money left to be appropriated. This is not proper budgeting. He must come and tell us how he proposes to spend one crore and why he provided this huge sum."

MR. SPEAKER:—"With that fund, say."

* SRI P. NATESAN:—"Exactly, Sir, It is a fund.

"So far as the cloth position is concerned, we used to buy mill cloth at terribly cheap prices during the war. Why should not mill cloth be encouraged? I consider that if more representations can be made to the Government of India for more yarn, we would be granted more yarn. We can then help the textile people and clothe our people much better.

"The Budget contains provision for grants for Universities and colleges. The Hon. the Premier has observed that University education needs much reform. I do not see the need in such a case for the establishment of more and more colleges which

[Sri P. Natesan] [3rd August 1946]

simply turn out graduates under a system of education that does not help them in later days. When that is the case, it must be the policy of the Government to see that the present system of education is so re-organized that the boys will have some scientific and technical education to enable them to engage themselves directly on some sort of work.

“With regard to the provision for the indigenous systems of medicine, you have provided 5 lakhs. It is absolutely inadequate. The money will be simply frittered away, one lakh on Unani, one lakh on Siddha and one lakh on Ayurveda and so on. You really require four or five times five lakhs to start with. It is impossible for the Ministers to please everybody. Of course, the Hon. Mrs. Lakshmipathi would perhaps like to see, as much as anybody else, that the Ayurveda system is encouraged. But in her anxiety to encourage Ayurveda she cannot ignore the claims of Siddha, Unani and so on. For these purposes the five lakhs she has provided for would be of no use.

“Next I want to refer to the house accommodation question. The position with regard to this is very bad. As there has been such a large influx of villagers into the city the problem of housing here has become acute. Until you provide more amenities to the villagers, until you make the villages self-sufficient and until you raise the wage level in the villages, you cannot expect them to go back and ease the situation in the city.

“In regard to the post-war development schemes, as a representative of the commercial interests, I have got to be rather frank in my criticisms on the Budget. The Hon. the Premier wants to establish an industrial and finance corporation on the model of the Industrial and Finance Corporation recently formed in the United Kingdom. As far as I am aware, there are two Industrial Corporations in England to-day, one called the Industrial and Commercial Finance Corporation and the other, the Finance Corporation for Industries. Now the Industrial and Commercial Finance Corporation is said to have succeeded in its purpose, because the Corporation strictly adheres to commercial principles. Its operations are of two kinds: (1) The Corporation gives well-secured advances at a rate of interest which does not exceed 4.5 per cent repayable in definite instalments over periods ranging up to 20 years. (2) It provides a sort of risk capital which means the taking of shares in the proposed venture. The Corporation mainly looks to the profitability of an enterprise. They demand as the chief security the competence of management and sound business policy. In fact the Chairman of the Industrial and Commercial Finance Corporation, Lord Percy, effectively says in regard to the Corporation policy: ‘The Corporation exists not to carry lame ducks which cannot swim at all, but only to help the ducks that can swim if aided.’ The terms are very reasonable, but they do not exist to provide capital at artificially low rates, thereby dislocating the ordinary capital market. Though they take shares in the projects they help, the Corporation do not plan to take a primary interest

[3rd August 1946] [Sri P. Natesan]

in the concerns they help, nor do they interfere in the daily management of the assisted concerns and only in special cases they exercise the right of appointing a Director. Normally they trust in the business ability and experience of their clients. That must be policy of the Finance Corporation contemplated by the Hon. the Premier. Here if you are going to have a Finance Corporation you must see that the finance is given to people who have got commercial experience.

“If the Government propose to start such a Corporation, they must be able to obtain money at a low rate of interest consistent with the conditions in the money market. Any rash action will upset the equilibrium of the money market and there will be reactions in the banks and other stock markets. Normally in Great Britain such institutions have full trust in the business ability of their clients and are able to run them successfully. But so far as the second institution that I have mentioned is concerned, it has not been a very great success, and I do not wish to explain in any detail why it has not been so on the floor of this House.

“Sir, Mr. Ferrelly took exception to the statement of the Hon. the Premier ‘that Trade and Commerce complain that the existing channels have been interfered with, that the kind of business that they do, do not add to the wealth of the Province, that their aim is to make money in easy ways like commission agency, money-lending, etc.’

“Sir, I agree with Mr. Ferrelly. Surely the Premier does not think that there is no regular trade and commerce in this Province and that people are making money as commission agents, etc.; we have a number of spinning mills, electrical industries, sugar mills and any amount of undertakings in this Province and all these certainly go to add to the wealth of this Province.

“The Hon. the Premier has referred to the bangle industry. I understand that this is a flourishing industry in Ferozpur in the United Provinces and in certain other places in that Province. These bangles, I understand, are imported at present into this Province. When once a bangle industry is started in this Province, we must see that we put into the market bangles at a much cheaper price than the imported bangles, without entering into cut throat competition with the Northern Indian Industry, so that people may be encouraged to buy local bangles. Otherwise the import of bangles will go on as usual and the bangle industry in this Province will prove a failure. Therefore in starting industries of this kind, we must find out what industries could be usefully and economically started in the Province and whether Government assistance is necessary.

“Another industry which comes to my mind in connexion with this subject is the electrical industry. With the growth of electricity in this Province, there is a great demand for all kinds of electrical goods. I have in mind more particularly the manufacture of motors, pumps, transformers, etc. We have to depend for all these on foreign imports. Manufacturers in England say

[Sri P. Natesan] [3rd August 1946]

that they cannot give delivery for the next 24 months and you know, Sir, that an ordinary holder into which we fit the bulbs, cannot be procured here and we have to depend on English market for this material. These are small things and could be easily manufactured in this Province. I suggest that the Government should request persons like Sir Henry Howard who has been responsible for the marvellous growth of electrical development of this Province and the Chief Engineer for Electricity to draw up plans for starting industries, to manufacture particularly motors, pumps, transformers, etc. Even if a start is made to-day, it will at least be three years before we can see the result of the enterprise. If the Government takes interest, I am sure a number of capitalists will come forward, to start similar industries or to take over industries started by the Government. Look at Travancore. The Government there has made enormous progress in the industrialization of the State. They have either started industries of their own, or have encouraged industries started by private enterprises by taking shares in such enterprises. There are now a number of industries in Travancore and the State is becoming highly industrialized. They have a factory for the manufacture of chemicals and fertilizers, a glass factory, a factory for the manufacture of sugar, a rayon factory, a factory for the manufacture of plastics, cables, tyres, etc. Sir, we need industrialization very badly. Sir, I do not think that any of our Ministers would have visited England within the last ten years. I suggest that a couple of our Ministers go to England and other western countries, have a look at the manufactures that are going on there and see how up-to-date those countries are. We are only thinking here in terms of khadi and prohibition. That will not help us to solve the problems of poverty. In order to better the conditions of the workers, in order to afford better housing, better wages and better conditions of living, we must get industrialized. What after all would it cost for deputing a Minister to go to England? Rupees 10,000 or Rs. 15,000 would do for a trip and this would not make any difference in our budget. (A voice: 'Why not to America also?') Sir, America is too far away and I do not think that the Minister is going to get any benefit merely by a visit and we will not be able to get anything out of America for the next two or three years. A visit to England would do. In England there are a number of factories working at a very high pressure and there is certainly a great advantage in going over there. (Interruptions.)

"Sir, I repeat that we are in such a bad position to-day that we have got to depend upon other countries for manufactured goods. (A voice: 'The British Government are responsible for this plight'.) It is no use saying at every stage that the British Government is responsible for everything. We must have sufficient foresight to see that we do not go backwards. (A voice: 'We must get independence first'.) Sir, I would like to get independence for our country as much as anybody else on the other side."

Mr. SPEAKER:—"Please address the Chair."

3rd August 1946] [Sri P. Natesan]

* SRI P. NATESAN:—"Then, Sir, with regard to the Government's policy for the revision of the rates of pay, I suggest that the scales to be fixed should be with reference to normal conditions and not with reference to the present abnormal conditions, because it is possible that conditions might improve in course of time, and in a couple of years, probably the prices would come down to the normal level. I know it is certainly impossible for people to get on at the present level of prices. I would therefore suggest that the Government should give an increased dearness allowance, which might be cut out when conditions become normal."

Mr. SPEAKER:—"You have exceeded your time limit Sir."

SRI P. NATESAN:—"I am sorry, Sir. I have got one more point and I am done."

"On page 11 of the Budget Memorandum (1946-47) we have got the following figures under Civil Administration and Police:—

	Budget estimate, 1945-6.	Preliminary accounts, 1945-6.	Budget estimate, 1946-7 (Revised).
	RS. LAKHS.	RS. LAKHS.	RS. LAKHS.
25. Civil Administration ..	327.23	427.36	454.50
29. Police	247.07	295.74	381.78

"From 327 lakhs you go up to 454 lakhs under Civil Administration. From 247 lakhs you go up to 381 lakhs in the case of Police. I am not satisfied with the explanations given for the variations. I should like the Hon. the Prime Minister to explain the increase in the figures."

"Although I have got something more to speak, I do not want to take up any more time and I shall resume my seat."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Mr. Speaker, Sir, although I am in the opposition, I wish to offer my congratulations to the Hon. the Premier for the lucid budget which he has presented this year. At the outset I wish to refer to a statement he has made in his speech in presenting the Budget to this honourable House. Sir in that statement, the Hon. the Premier has stated "The treasury bench is thus again occupied by persons elected by and wholly responsible to the people of the Province." These are very significant and very valuable words. Sir, so far as expression 'persons elected by and wholly responsible to the people of the Province' is concerned, I wish to draw the attention of the House and particularly of the Government to the fact that the people at the very beginning believed that they (the Government) are going to be responsible and wholly responsible to the people of the Province. But the fact is that they have been elected only by a section of the people of the province

[Abdul Hameed Khan Sahib Bahadur] [3rd August 1946]

and yet they would have us to believe that they are responsible for all the people of the Province. But, Sir, may I point out that it is not only they who have been elected by the people of this Province, but there are others as well who have been elected by the people of this Province. If the Congress party has come in a majority and has succeeded in getting into office, there is another section of the people of the Province—not an insignificant section at all—who have been elected cent per cent, and yet they do not form part of the Government. (Cries of shame, shame from the opposition benches.) Mr. Speaker, Sir, I am not sorry for it. But, on the other hand, I am glad of it. (Hear, hear.) We are not there, although we have a right to be there. Mr. Speaker, Sir, even if one or two of us were to be there, I am sure, all that we want for us, could not be got done and the Hon. the Ministers who are now there and who are now giving an assurance that they are responsible to all the people of the Province, will not be discharging that responsibility to the extent to which they will have to discharge it, as they are to-day. So we must be thankful for it. In the case of the Hon. the Premier, I am particularly thankful on this occasion and the Muslim community is also thankful—for his readily accompanying us to Vaniambadi the other day to see for himself the amount of destruction that has taken place and the loss of properties that have been sustained by Muslims. His visit to the place has, to a great extent, appeased the feelings among the community, but something more has to be done and I have no doubt in my mind that he will certainly devise ways and means to alleviate the sufferings of those who have been adversely affected as a result of the communal strife. Sir, these communal riots have taken place, not only in Vellore, but also in other parts of the Province. I plead Sir, that it is very necessary for the Government to find out the root cause of these troubles and earnestly devise ways and means to solve the problem so that the communities may live in peace and harmony, without destroying each others' properties.

12-30 p.m. “Sir, it is a very serious matter and I am sure it will receive the earnest attention of the Hon. the Premier and his Government.

“Mr. Speaker, I am extremely sorry, not only sorry, but sad, that one of the Hon. Ministers has not yet realized that he belongs to the Government, that he is part and parcel of the Government and that he is no longer in the opposition. To be in the opposition of a Legislature, he must know, is different from being on the treasury bench. It is high time, that he realized that he has changed from the opposition to the responsibility of a Government. I would request and appeal to that particular Hon. Minister to realize as soon as possible that he is occupying the treasury bench and that he should not get angry when he is asked questions. He must also realize that after all, we form part of one Legislature. It may be that they are on the treasury benches now, it may be that they may not be there, after some time. Since they are now there they should realize that they are responsible to the whole

3rd August 1946] [Abdul Hameed Khan Sahib Bahadur]

House and not only to one section. They may have a big majority behind them, but they should not forget that they represent the entire House and the entire population of this Province and that they owe a duty to them all irrespective of the facts whether they are Congressmen or Muslim Leaguers or Scheduled Classes, Hindus, Mussalmans or Christians and others. That mentality has to be developed, that realization has to come sooner than later. I hope, Sir, that it will come.

“Sir, while I am on this point, I would also like to take up the question of the policy of this Government so far as Education is concerned. I am not going to deal with this subject at length at present, because there will be another occasion for me to deal with it at length when that demand is moved. But on this occasion, while I am referring to the general policy of the Government, I shall refer to the policy of the Hon. Minister for Education before the wrong is done, before the mischief is done, so that he may realize that he will be doing a great wrong to the entire Muslim community by persisting in the policy that he has formulated. I would request him earnestly and appeal to him to realize that we are a separate entity so far as our religion, our culture and our education are concerned. We require certain definite things. We want to preserve our culture. Do not interfere with our culture. I want the Hon. Minister for Education forming part of a responsible Government to see that he does not do any harm to that culture, language and education.

“Next, Sir, I would like to refer to the Food position in the Province. It is very unfortunate that it has deteriorated considerably. Possibly the Government may say that they have no control over circumstances. I do not agree entirely that they are not responsible for it. I believe that these committees that have been constituted, the village committees, and the taluk committees, instead of enabling the officers to secure large amounts of food-grains have prevented them, because these committees consisting of all-powerful and all-important people, are not prepared, are not willing to give all that they could give. If these committees had not interfered with the work of the officials, I am sure that we would have got more paddy procured than we have been able to. It may be true that they have got some of the paddy and a good part of it from the agriculturist. This was possible not so much on account of the pressure brought to bear on them but because they were given bonuses and subsidies. That is what has been responsible. If the bonuses and subsidies were not forthcoming these hon. gentlemen would not have been willing to part with their paddy. Even to-day if officials are allowed to procure more of paddy, they will be able to do so only if these committee members who have vested interests do not interfere with their work. There is hidden stock which can easily be procured, but this Government will not allow the officials to do so and these committees are there standing between procurement and the people who consume. Sir, it is on this account that the Hon. the Premier and his Government had to reduce the ration from

[Abdul Hameed Khan Sahib Bahadur] [3rd August 1946]

12 ounces to 8 ounces of rice. This calamity could have been prevented if the committees were not there and if procurement had gone on without any hindrance or interference from those vested interests in the various committees.

"So far as the constitution of these committees is concerned, in village committees some Muslims have been included by the Tahsildars, poor men, who are helpless and who have had to do the bidding of the powerful Secretary of the Congress Committee there. In Taluk Committees nowhere in the Province has a Muslim been included with some exceptions here and there, except the hon. Members of this House who are there by Statute. This is a state of affairs which ought to be examined by the Hon. Minister in charge of Food and by the Hon. the Premier, who are responsible to the people of this Province, and they should see that it is rectified and the wrong undone. We anticipated what would happen and it has happened that our community has been almost entirely neglected.

"What has happened with regard to Malabar? My hon. Friend representing Malabar will tell you in detail, how one list after another has come and how even the District Collector was prevented from enforcing his list. That is the position so far as the machinery which has been instituted for procuring paddy.

"We should at least maintain the 12 ounces of rice for the people of this Province. Our people are essentially a rice-eating people. It is very difficult for them to go in for wheat to the extent they have had to do. Sir, the calamity of having to reduce the quota of rice from 12 ounces to 8 ounces could have been avoided.

"Mr. Speaker, so far as the production and distribution of cloth is concerned, I shall say this much, that the whole affair has been a failure, a failure because the machinery that has been in existence has been of such a nature that it was not sufficiently decentralized and it was located in one place and hopelessly mismanaged. Naturally in the circumstances of the cases that could not have been avoided. What is going to be done now has been suggested by the Hon. the Premier. Certain departments are going to be constituted and these departments are going to look into the question and see that distribution is done evenly and justly and fairly and that merchants belonging to any particular community will not be penalized, deliberately penalized, wholesalely penalized. I hope, Sir, that their policy will be to make no distinction between merchants of different communities and that justice will be meted out to all.

"There is one thing more with regard to the distribution of cloth. The Muslims require more cloth on the occasion of their festivals than they do ordinarily. The Ramzan festival is fast approaching and the Muslims require cloth on that occasion as do the Hindus on the occasion of the Pongal or Deepavali. I hope the Hon. the Premier and the Hon. Minister in charge will see that instructions are given to the officers concerned that provision should be made for sale of sufficient cloth to the Muslims. In the

3rd August 1946] [Abdul Hameed Khan Sahib Bahadur]

same way when Deepavali comes the same provision can also be made for sale of cloth to the Hindus, for I believe they purchase a lot of cloth on that occasion.

"That is so far as ordinary cloth which is produced by Mills here or brought in by imports is concerned. The cloth that is imported is undoubtedly not sufficient. No efforts have been made to see that the production is augmented. One thing has been suggested in the Budget and that is to increase the production of khaddar. For that I find that a sum of about a crore or two has been provided. I do not know whether all the three crores which has been provided under the Rural Reconstruction Scheme will go for the production of khaddar. I understand, Sir, that a large number of handlooms and charkas will be necessary for the production of khaddar. I do not know whether the charkas and handlooms will be manufactured in the locality, whether every area will produce its charkas and handlooms, or whether manufactured charkas and handlooms on a large scale will be brought to the villages from outside.

"Well, Sir, so far as the economies of khaddar are concerned, my hon. Friend, Mr. Natesan, has said something about it; but unfortunately he did not have the figures or did not have the courage to produce them . . . "

SRI P. NATESAN:—"Please do not say that I did not have the courage to produce figures. I do not have the figures themselves."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"I am sorry, he has not the figures. But certainly figures can be produced and easily produced and they have been produced on many an occasion by experts.

"Mr. Speaker, whatever you might say about it, Khaddar remains a cottage industry; to what extent can such a cottage industry supply the wants of such vast populations as we have in this Province? There are five crores of people in this Province and the requirements of cloth by them cannot easily be met by the production of khaddar on any scale. I think it will take ages (Mr. Pocker Sahib: 'Centuries') and centuries before we can produce sufficient khaddar which can clothe all the people of the Province. While I am on this, I would like most earnestly to appeal to the hon. the Premier not to compel anybody to spin or to weave khaddar, for it is a political subject. (An hon. Member: 'Stunt.') I do not want to go to the extent of calling it 'stunt.' It is a thing which is very dear to the heart of all Congressmen and they have of course rightly provided a crore or two of rupees of public money for producing khaddar. Well, I think, having accepted to work with a Congress Government we have to put up with it. But there is one thing which I should like to plead. Do not compel any individual. Give them freedom. Whosoever wants to spin, let him spin. Whosoever wants to weave, let him weave. Do not compel weavers who have not been accustomed to weave handspun yarn to weave khaddar when they are not prepared to do so. This is so far as cloth is concerned.

[Abdul Hameed Khan Sahib Bahadur] [3rd August 1946]

"Next, Sir, the hon. the Premier in his statement referred to commercial men. He said that the commercial man was making easy money by merely becoming a middleman between the producer and the consumer. If we, the people of this Province particularly, are anxious to raise the economic level of this Province and the well-being of the nation, we cannot easily set aside the commercial man and trader. They have their own place in the economy of the country. They cannot be eliminated. If you do that, you will be considerably reducing the wealth of the nation, for it is they that add considerably to the wealth of the nation and they are also large employers of labour. You want commerce and trade to be substituted by industry. It is good so far as industry is concerned. But do not eliminate commerce and trade to bring in some industry. Industry cannot exist without the commercial man and the trader, for they go hand in hand.

"I now come to a question which has been heard and heard not only from this Government but from the previous Government also which was responsible for introducing Prohibition in four districts. Now I believe the present Government is seeking to re-introduce Prohibition in these districts. I also believe there is a demand even among Congressmen for introducing Prohibition throughout the Province. I as a Muslim am wholly and entirely at one with those who want Prohibition to be introduced in the whole Province all of a sudden and at once. Sir, I ask, while they seek to introduce Prohibition in four districts--and they may revise their opinion and introduce Prohibition in the whole Province--what provision they are making or have made for employing all the officials who are engaged in that department. I know that on the last occasion the higher officials were provided for, they were changed from one department to another. But the lot of the poor menial servants in the department was unfortunate. They were cast to the winds and had to find their own way. If you are going to do that now, you will be answerable not only to man but God also.

"Sir, my Hon. Friend, the Minister for Law, has been expressing his desire to separate the judiciary from the executive. I do not know whether he is separating the judiciary from the executive or the judiciary from the Government itself. Sir, it is a very good thing. There cannot be two opinions about it. Every one will entirely agree that such a step should be welcomed. The executive authority should not interfere with the dealing out of justice, pure and simple justice. Is the Hon. the Minister for Law going to establish such an impartial institution by separating these two sections, so that pure and simple justice could be meted out to the people of this Province? In any case, I have my own suspicion and members of my community, not only of my community but of the backward communities have their own suspicions, whether this is not a thin end of the wedge to help to bring into official life all the top members of the legal profession. Whether this is going to be the case or whether it is going to be solely and wholly for the sake of justice only remains to be seen.

3rd August 1946] [Abdul Hameed Khan Sahib Bahadur]

"I am glad to see, Sir, that the Hon. the Minister in charge of Industries and the Hon. the Premier have come to the help of the major and minor industries in the Province. So far so good. So far as major industries are concerned, I must tell this hon. Government--though they may not be responsible for it, but the previous Government was--that my community was entirely neglected in the establishment of major industries. That is a policy which is certainly and positively wrong. There ought not to be any difference so far as the establishment of industries are concerned between man and man, between community and community. The sooner this differentiation in the distribution of privileges on the basis of communities is eliminated the better will it be for all concerned.

"I would conclude by appealing to this hon. Government and to the Hon. the Premier with regard to this. Sir, the Government is responsible to all the people. I am afraid, that because the Congress Party has come into office once again, some misguided people think that they can do anything and escape. That seems to be the feeling that has overcome some people, irresponsible misguided people. They think they can do anything; they can catch hold of the District Collector and compel him to do this or do that. Sir, the authority of law should be maintained.

"The authority of the Executive should be maintained. When I say that I do not mean that the officers should continue to be arrogant and irresponsible officers that they might have been at any time. I do realise that they should be responsible and responsive too, but nobody belonging to a particular party or community should feel that he has a charter of liberty to do anything he likes because there is a Government composed of men from his own party or community.

"One other important matter is that we should all believe in the very wholesome principle of live and let live. But what is happening in some places shows that there is a feeling among Congressmen that the Muslim Leaguer has no business to exist."

THE HON. SRI T. PRAKASAM:—"It is wrong."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"I am happy to hear from the Hon. the Premier that it is wrong. That is exactly what I want. I know that there are very many intelligent and responsible Congressmen who do not entertain such a feeling, but they should not stop there. I believe it is their duty to see that irresponsible people do not act in the manner in which they are acting. Sir, I think there may be any number of parties in this country: people can differ on fundamentals, people can fight for their own rights and for their own freedom. But that does not mean that if I fight for my own rights and freedom I encroach on the rights and freedom of the other man. That should not be the attitude of people. If that should be so, there could be no hope of peace in this country. If terror is let loose, it will recoil. Terror is responsible for endangering the lives and property of the people. This is a

[Abdul Hameed Khan Sahib Bahadur] [3rd August 1946]

thing which should be put down with an iron hand. I have no doubt in my mind that the hon. the Premier should see that if such a feeling came to the fore it is scotched at once and for all time, because a feeling of that kind would do no good to anybody. If the thing is allowed in the case of one community, it will recoil later on and will be a danger to peace. No Government can continue to exist without creating contentment and peace in the country. I have no doubt in my mind that this Government will seek to establish contentment among all the classes of people in this country not merely by saying things but by doing things."

1 p.m. * SRI N. S. VARADACHARI:—"Mr. Speaker, Sir, I rise to speak on the Budget today just to voice the strength of public feeling in respect of a certain urgent reform. If there had been proper appraisal of the strength of that feeling, I would have had no occasion to dilate on it today. That this comprehensive reform with far-reaching consequences would be introduced was the expectation raised in the minds of the people. The Ministry, Sir, could have universalised prohibition; but if the will to do so is not lacking, why then is this very urgent and necessary reform, which at once rids the country of a crying evil, oppressing millions of the poorest in the countryside and making them pay for their oppression, and also places finance on a new foundation, making it possible to re-align taxation on sound principles, set aside? Are we to remain where we are? Proceeds of taxation from the commercial taxes levied by the last Congress Ministry have been conserved and accumulated into a revenue Reserve Fund of 31.40 crores and what better start could there be for total prohibition? Pledges that were given when these taxes were introduced ought to be honoured, but inescapable obligations seem to make no impression on many of us here. The financial difficulty is not really there; the reason is a simple refusal to understand. By introducing total prohibition in this year's budget, you have only to provide for the writing off of Rs. 6½ crores; for effect is to be given to it only from the latter half of this year. It is true that in the succeeding . . ."

AN HON. MEMBER:—"On a point of information, Mr. Speaker, is the Member reading his speech?"

* SRI N. S. VARADACHARI:—"I am not reading at all. It is true, Sir, that in the succeeding year the whole of the excise revenue will have to be foregone, but there is enough room in the finances of our province for a proper adjustment of this loss. Even apart from the Reserve Fund which, according to me, ought to be specifically set apart for this purpose, there is ample scope at a time like the present when revenues are mounting and when the administration of the new taxes can be strengthened and increased revenue made to flow in, for the absorption of the loss that will result from prohibition. Initiated as the reform was when the provincial revenue was only Rs. 16 crores with not

[3rd August 1946] [Sri N. S. Varadachari]

even elbow room left for other economies, prohibition ought certainly to find completion now when revenue has amounted to Rs. 47 crores and there is flexibility at the treasury for incurring fresh obligations. Now, Sir, that is my case on the financial side.

"But then it is said that this is a period of famine and that food must have precedence over prohibition. While I admit that food is important, may I ask, Sir, whether it would not be crime to supplement low food rations with these obnoxious poisons, toddy and arrack? The real objection, therefore, is enforcement. Without wasting argument, I can only say this: it is a sad irony that Congressmen should say this at this time. There is no hope for prohibition, let me tell you, if Congressmen lose faith in themselves. If a vast countryside organization with plenty of talent for propaganda, with a record of practical work unsurpassed by any unofficial organization and assisted at this juncture by the prohibition staff, drawn from both Police and Excise officers, if such an organization cannot succeed, I ask the Ministers, who else will? The experiment under the last Ministry was an assured success and both Government and University publications testify to this fact. Why then, Sir, should we feel nervous? That there will be criminals ever is no argument. They will be few and far between. I readily admit they will even thwart in the first instance a cent per cent success. Here, Sir, let me address my English friends. I thought of addressing a few words to my British friends there, who unfortunately are not in their seats now, but I will say it all the same. You British are ever British. You refuse to transport yourselves even in your imagination to India and Indian conditions, though living on Indian soil. You talk of the impossibility of prohibition. You talk of it as being a dangerous policy. I say, Sir, that you are totally mistaken. You must put yourself in India and think of the peculiar conditions that obtain here for the success of prohibition. Millions in this country have only abhorrence for drink. There is nothing like home-brown liquor in this country. These conditions do not exist in England or in any other country in the world. They record the greatest victory in the pages of history in the fight against drink. Your phrases and your words, Sir, give a totally different meaning to drink. You elevate drink to that dignified chemical terminology of alcohol; but in our language, the word 'kal' (கல்) or 'sara-yam' (சாராயம்) raises only feelings of detestation and horror. Your phrases are made from drink. Was it not Disraeli who made that fine phrase 'inebriate' with the exuberance of his own 'verbosity'? No such phrase exist or existed in the language of our country, be it Tamil, Telugu, Kanarese or Sanskrit. It is a compliment to our nation that we have been able to overcome this vice of drink, that we had long time back begun this fight against drink, not now or during the last five years, but centuries and thousands of years ago. If that were so, Sir, why then talk of setting before these poor millions this vicious temptation of drink. Is it just to keep the temptation before them and rob them of the annas and pies accumulated to the tune of Rs. 13 crores year after year in the Treasury? You take the joy out of their

[Sri N. S. Varadachari] [3rd August 1946]

homes, the light out of their eyes and the God-given intelligence out of their frames and turn them to devils. Sir, we waylay the poor man, render him inebriate and helpless. Not only that, Sir, have you ever heard in any country of the auctioning of toddy shops; and all for the sake of depriving of the few pias that hard work has earned for them? Is this a fair deal that you give to the poor millions in the countryside, I ask? The urgency of the reform then must be granted; the necessity for the reform must be granted, and the acceleration of the pace on which I set it must be granted. Sir, I will not add any more words about prohibition just now but shall wind up with an appeal. I shall now take up two other subjects in the meantime, about which I must explain myself to this House.

"I raised, Sir, the question of lump grants in the Press. It has been construed as somewhat improper for a member to raise such questions in the Press. I want the Hon. the Premier to follow me rather closely. I make an appeal to him. I do not object to the fund that he has created at page 481 of the Demands for Grants; funds can be created. There is the Famine Reserve Fund; there is the Revenue Reserve Fund; there was the Water-supply Fund; there will be this Village Reconstruction and Harijan Fund. What I objected to was that after putting in this sum of Rs. 4 crores at page 481, you want us to vote straightaway for the sums mentioned without any estimates whatsoever, without any details whatsoever. On page 104, these grants are General Administration Rs. 1 crore; at page 376, Rs. 2 crores for Khadi and Rural work; Rs. 1 crore at page 409 under "Industry and Labour." I am not talking on the merits of these various purposes; the funds will be there; but I ask, why not drop these grants and make reappropriations from the fund after schemes are made and confirmed by public discussion? That is my point, Sir. It was not meant to be any obstruction to progress, but it was meant to uphold the rights of every Member of this Legislature as well as of those of other Legislatures all over the country. Their rights to scrutinize the expenditure should not be taken away even by an iota."

"THE HON. SRI T. PRAKASAM:—"On a point of explanation. No grants have been intended to be paid. The money will be spent according to the schemes that would be produced."

* SRI N. S. VARADACHARI:—"Now, Sir, my point is gained. But let me elaborate it. The information required in the preparation of a Budget is just as varied and extensive as are the functions and operation of Government. It involves existing Government policy, specially these aspects which pertain to the experience, contraction or elimination of existing established public agencies or the development of new ones, forms of taxation and other sources of income, discharge of other current financial obligations and assumption of additional obligations'.

"Now, Sir, I would only conclude by quoting one more sentence from a very famous writer on Budgets. It is this: 'The only check on waste or extravagance afforded to Members

[3rd August 1946] [Sri N. S. Varadachari]

of the Legislature is the itemisation of the Budget'. The practical side of the budget procedure is what I emphasise. I should not be misunderstood. On the other hand, I think I should get your support in this matter. Supposing it were not for Harijan uplift but for Police reform that a lump grant provision of Rs. 2 crores was made in the budget, even then I would have raised the same objection. It is not on the merits of any of these questions that I raise this; on merits we may have many things to say, but I will not do so now. The expenditure provided must be capable of rational provision; we must put in only such items as would represent the probable expenditure before the close of the budget year. I object to the padding of the budget. If, according to me, these sums are put in only to the extent that could be spent within the year, then we would have a surplus of Rs. 3 and odd crores which would possibly help to swell the reserve from Rs. 22 to 26 crores and there would be an easier case for prohibition. That is why, Sir, I stress this point.

"Now, I come again to another point. I must not allow a general discussion in this House to pass without a reference to the low standards of salaries we have set for our employees, especially in the lower grades. Government ought to provide for them at least a minimum wage. The whole question of the dearness allowance will have to be gone into with a fresh mind. What is the dearness allowance for? It is to enable a man on the margin to find his level of subsistence and in this light we have to revise the whole scales of dearness allowance whatever the rules made by the Government of India in this matter are. I think the Government of India has given a wrong lead and we in this Province are not bound by that lead except in so far as it may apply to those servants who are recruited under the statutes made by the Government of India. Why not make, I suggest, at least housing provision free for those low-paid employees and also free education for their children and if that were done half their troubles would have gone. The poor policeman—who is not my enemy but my friend, who has no doubt put me into prison—but still to-day I am here to speak as his representative, has his own difficulties. I will have much to say on police and police reorganization when the Demand for Police Grants is taken up. I also wish to include the village schoolmaster, the village revenue official and many others (Interruption) and still have prohibition as Mr. Raghavayya wants me to assert. It does not necessarily mean that we should throw open our treasury for being drawn upon by these employees. There are many branches in which savings are possible. Will the food situation, I ask Mr. Raghavayya, remain as it is. Does he expect that there will be no rain and no improvement in conditions? Will this 1½ crores of rupees provided for the Food Department remain permanent expenditure? I also ask, Mr. Speaker, when controls have relaxed will so much expenditure that is being incurred not in respect of statutes made by us but by the Government of India, continue to remain. I ask the Prime Minister to straightaway apply to the Government of India for a contribution for the service we are

[Sri N. S. Varadachari] [3rd August 1946]

now rendering on this account. I trust he will do so. That is a measure of economy open to him. I will show him numberless other measures of economy. This year, the extraordinary charges incurred on the expenditure side of this Budget are six crores of rupees leaving aside the Fund for Harijan Uplift and Rural Reconstruction. There would be no need to spend the whole of this six crores in the next year and the year after next when we may land on better times. These are suggestions I make in respect of economy.

"I have only one point more. I tell you, Sir, let not the Government always talk of new taxation. Taxation is a very bad word. Why don't they take to new enterprises instead of new taxation? There are many enterprises to which we can set ourselves. You have taken State Trading. You have already collected the produce of the nation and have nationalized the produce on a large scale. But, Sir, why are you afraid of taking over, for instance, all the textile mills of this Province and thereby adding to the revenues of our Province, avoiding strikes and lockouts and, if necessary, making it a rule, with the co-operation of those interested in labour, that there will be no strike of any kind so long as the scale of wages is settled between the Government and themselves. (A Voice: Bravo.) I think, Sir, that is a feasible proposition. I am glad there is a friend on the other side who agrees with me and I hope from this side also we will agitate on this question remembering the rider that I have put down, namely, that strikes without reference to arbitration would be declared unwise and unjust. (A voice: No, no.) That is my conception of justice. I do not propose to discuss matters across the House.

"Then, Sir, why not nationalize land? Why not nationalize transport and as a first step towards this end, acquire the workshops of various bus-owners in order that an efficient transport service may be built up by Government and a fresh source of revenue found as speedily as possible to replace the loss incurred by prohibition.

"I must wind up with only one appeal which, I hope, will go to the hearts of everybody. Let us not give ourselves away to doubt and distraction, anxiety and apprehension, enveloping our minds with the pale cast of fear but let us take courage in both hands and march to our cherished goal with perseverance and energy—I would even add the fateful word, to which my hon. friend Mr. Daniel Thomas objected, namely, passion, so that millions in the countryside may be saved from utter ruin and destitution. When millions outside are thronged waiting to hear the death-knell of drink and remain with folded hands to receive your blessings from the fullness of their hearts, shall it be said that we did not dare to do the right."

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Mr. Speaker, Sir, just after hearing the speech of the hon. Member who has just preceded me, we on this side were wondering whether he has joined the Opposition. (Hear, hear.) At the outset,

[3rd August 1946] [Muhammad Raza Khan Sahib Bahadur]

although I have got to deal with so many other points, I would like particularly to deal with the question of prohibition. At the same time I feel it my duty to explain to this House as to why we Muslims stand for prohibition. It is because our religion enjoins us to abstain from drink. It is not out of any objection, political or otherwise, but purely because our religion says so, that we Muslims stand committed to it. But here I may draw attention of the House that in the year 1943 when there was some agitation in this Province and when the Adviser Government wanted to give up prohibition, we took the right and sensible attitude and we wanted to adopt the same policy, because our religion teaches us to do so. Hearing the speeches of some of the hon. Members on the other side, I can see a similarity between themselves and ourselves in regard to prohibition. But in their case, they support the policy on political grounds, whereas we support it from the point of view of religion.

"Coming to the general discussion of the Budget, we do appreciate the fact that the Ministry had not had much time to go through it in a way which ought to have been done. All the same, on a cursory glance at the Budget, we have come to the conclusion that the Hon. the Prime Minister has failed to take into consideration the conditions arising in the post-war period, conditions arising out of the stoppage of the war. The most important thing to which I wish to draw the attention of the Government is, how are you going to solve the unemployment problem? I am sure, the Hon. Prime Minister is aware of the fact that thousands of people educated and uneducated, skilled and unskilled, have been turned out from the factories of the Government of India and from other places. What is to happen to them? What will be the fate of these thousands of people thrown out of employment as a result of the stoppage of war? Are you going to increase your worries and difficulties? I wish something should be done immediately to solve the problem; otherwise, things will take a serious turn. Therefore, I am sure the Hon. the Prime Minister will give us a categorical answer as to what he proposes to do in the matter of solving the unemployment problem—particularly you know there are persons who were drawing salaries from Rs. 100 to Rs. 300 and who have been thrown out of service. What are they to do? That is a matter which requires the serious consideration of the Hon. the Prime Minister.

"Mr. Speaker, Sir, there is one thing to which my colleague, Abdūl Hameed Khan Sahib Bahadur, has drawn your attention. It is this. As far as this Government is concerned, you know that we have no share in the administration of this Province. We are not part and parcel of the Government; our part is only to sit in Opposition and draw the attention of the Hon. Ministers to questions that affect seriously our position and those affecting the Muslims and other minorities. Therefore, I would say, placed as we are in a small minority, that it is not only desirable but necessary for the Government to consult our leaders and other

[Muhammad Raza Khan Sahib Bahadur] [3rd August 1946]

representatives of our community in matters pertaining to Muslims. I would take up education as an instance in point. From the replies to questions given by the Hon. Minister for Education, it looks as if he is under the impression that we are asking for special facilities. But the Hon. Minister should know that we are not demanding of him anything but our just and legitimate rights. To Muslims, education is important. Therefore, when we wanted to ask the Government for particular concessions affecting our community in the matter of education, why should he take that in that light? My constituency as well as some other districts where Muslims predominate are greatly perturbed by your recent order saying that children are to be taught in the regional language and not in their mother-tongue. I say that it is absolutely a wrong policy and you have to rectify this. With all the emphasis I can command, I would like to give a warning from this side that if you persist in experimenting upon your pet theories and carrying them out since you have the power behind you, I may say that we are not going to allow you to do so. (Hear, hear.) To us, Muslims, education is important and it is by education alone that our nation has to be developed and organized. You cannot be propounding policies which will surely affect the members of our community by the adoption of certain tactics. Therefore it will be very well for you to take us into your confidence, consult us before putting forward proposals of any importance to our community. We are then prepared to co-operate with you. But, however, I wish to point out that if you go your own way, we also have to go our own way.

"In connection with the salaries of teachers, we do appreciate the fact that the Prime Minister is ready to do justice to them. Limitations there may be. He has to adjust his Budget. Therefore, we hope that the Prime Minister will do his best in this regard. At the same time, we have to say that this class of persons are suffering most, for the simple fault of taking to this profession. This class of persons are paid very meagrely, with the result that we are not getting the right type of people to take up this profession. I am sure the Hon. the Prime Minister will bear this in mind and see that justice is done to them in order to attract the right type of persons to this profession. In this connection, I wish to draw the attention of the Hon. Prime Minister that there are so many districts where schools are run by municipalities or district boards. With respect to Muslim education you know the state of affairs in district boards and municipalities where Muslims do not have real representatives.

(After lunch—2-30 p.m.)

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Mr. Speaker, Sir . . . I was referring to . . .

SRI K. ANANDA NAMBIYAR:—"On a point of information, Sir. Is there any quorum for the meeting?"

MR. SPEAKER:—"There is quorum. Thirty-six Members are present now."

3rd August 1946]

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Sir, in the earlier part of my speech, I was referring to the subject of education of Muslims and I had drawn your pointed attention to the way things are conducted by district boards, panchayats and other municipalities running schools. It is a matter of common knowledge that in certain schools salaries are not paid to the teachers for months together and at the same time, it is my duty to make special mention of the fact that in Muslim schools and also in combined schools, where there are separate sections for Muslims, step-motherly treatment is meted out to them. Therefore, I say to the Hon. Prime Minister it is your opportunity now when you have been proclaiming that you will do not only justice but something more than justice to the Muslim community. Therefore I am sure at least in the matter of education, you will do your best to our community and particularly in those districts where we are backward. As a matter of fact, Muslims in Nellore, Chittoor and Cuddapah are very backward financially, and they are not in a position to have their own institutions. Therefore, I wish the Hon. the Prime Minister and particularly the Minister for Education will consider the advisability and the feasibility of providing separate high schools for Muslims in those districts especially in my district, namely Chittoor.

"Coming next to religious instruction, it has been pointed out by members of our party that we insist on religious instructions being imparted in our institutions. I am sure the Government will help us in this direction also."

"Now, Sir, I come to the allotment of three crores for rural reconstruction. Much has been said and discussed on this subject and naturally, I am not in a position to supplement to what has been said already in regard to this matter. It is really very strange that when in other countries Government propose to undertake financial schemes quickly and particularly in the matter of industrialization for solving the unemployment problem and for increasing the natural wealth of the country, it is really strange on the part of the Minister concerned, to come forward with a scheme for rural reconstruction. After all, what is he going to do with this scheme? It has been the policy of the Congress to come forward with their own petty schemes which are quite unsuitable. You have to face the realities of the situation. It must be remembered that this is an era of scientific progress; this is an era of industrialization and it is too late in the day to try schemes of rural reconstruction and, therefore, what is the point in spending a sum of rupees three crores and forcing people to wear khaddar. I do not find any reasonableness in this proposal. We refuse to be coerced in regard to this matter, not that I am against khaddar but since it is the symbol of the Congress policy I am against it. If I were to be there, I would prefer death rather than be coerced."

THE HON. SRI T. PRAKASAM:—"There will be no coercion at all."

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"I am thankful to the Prime Minister for his prompt reply in saying

[Muhammad Raza Khan Sahib Bahadur] [3rd August 1946]

that there will be no coercion. But there are other petty officials who in their enthusiasm might coerce the people. I am, however, thankful to the Hon. the Prime Minister for his prompt and timely reply.

"Next, Sir, with regard to the sum of one crore allotted for the uplift of the Harijans. It has been our declared policy to help the down-trodden people and those who have suffered because it has been their destiny to suffer. I am glad that now at least you have realized this. We want to know, as in what manner you are going to spend that money. If it is for making political capital out of that, I say it is quite unfair. Therefore, I suggest to the Hon. Prime Minister that he will do very well to explain in what form and in what way he is going to spend that money.

"Sir, the other item that I wish to place before the House is in regard to medical institutions. Surely, we, Members of the Opposition, do welcome the proposal to start three more medical colleges and also 200 more hospitals throughout the Province. In this field this country is very backward as compared with other advanced countries. There is no medical attention for thousands and thousands of people. Therefore, it is a very good policy on the part of Government to do something in the matter. There is another point to which I wish to draw particular attention of the Government. We have a number of instances where in hospitals, there is not only inadequate but inefficient staff. There seems to be something wrong somewhere and I am sure the Hon. Minister for Public Health will go into this matter and remedy the defect.

"There are other things in regard to this matter. I refer particularly to one matter, namely the food supplies in hospitals, particularly to poor persons, is of the worst kind simply because the supply is left in the hands of contractors. They have naturally to supply the food required at competitive rates with the result that poor persons who get admitted into these hospitals suffer very badly. I, therefore, suggest that something should be done in this direction also.

"Another important thing to which I referred in the early part of my speech is this. We want Government to adopt a clear and broad-based policy regarding industrialization of the Province. As you know, Sir, this Province is very backward in this matter. Therefore, something should be done by the present Government. Otherwise, we have no future as far as this Province is concerned. There is no doubt that policies have been adumbrated for post-war schemes but they remain idle in the Secretariat without seeing the light of day.

"There is another proposal in the Budget relating to Industrial Corporation. I would suggest that something should be done to tackle problems for increasing the prosperity of the Province especially on the industrial side.

"The other subject I want to bring to the attention of the Government is in regard to the salaries of Government servants particularly the lower grades. They deserve all our sympathy and help. We are one with you in doing justice to them. At

3rd August 1946] [Muhammad Raza Khan Sahib Bahadur]

present they are badly paid. It has been brought to our notice that graduates are started on Rs. 30 or Rs. 35 and on seeing the advertisement that postmen are paid better, they are willing to change places. I am sure the Hon. Prime Minister will do something in the matter.

"Coming now to the staff of the Secretariat, Sir, they deserve consideration; they are doing the most responsible work and they should therefore be paid according to the nature of the work they perform. It has been complained that some of them are made to work late in the evening and further some clerks have to take files to their homes. What is the reason for this position? The position is that you have got a lesser number of clerks who cannot cope up with the work. I am sure the Hon. the Premier will look carefully and sympathetically into this matter.

"Sir, I do not like to take much of your time. One thing I wish to say before I finish. It is that it is the policy of the Muslim League to co-operate with the Government of the day wherever it is just, but we are not going to be coerced or intimidated by you. This is all what I have got to say in conclusion."

DR. S. SUBRAHMANYA AYYAR:—"Mr. Speaker, Sir, first allow me to congratulate the Hon. the Premier on his well-prepared and utilitarian Budget got up within the short time at the disposal of the Ministry. It may be true that we cannot agree with him in all matters. Still the Budget is a very useful and good document prepared in the shortest time possible.

"Coming to the points in the Budget, first I would like to deal with establishment, I should only remind the Hon. the Prime Minister that the establishment charges have been going up during the last 15 or 20 years so much so it has now gone up to 25 crores. I would therefore suggest that this thing has to be looked into very carefully. He should cry 'halt' and see that the establishment charges do not reach a stage when our Budget will reach the breaking point. I would suggest to the Hon. the Minister to see whether we cannot revise the system of provincial civil service by competitive examination by following the usual communal ratio if you wish to do so. (An hon. Member: 'What about you?') I am thankful to the hon. Member opposite when he reminds about me. I am here to say that the Brahman community are even prepared to forego these competitive examinations provided they are given sufficient incentives in colleges and schools and our education is not put a stop to as it is done to-day. Well, Sir, we find Government department with Secretaries at the top, Secretaries at the middle and Secretaries at the bottom and the departments swelling up to such a large extent. The Administration charges have got to be cut down. Take for instance, the new departments like the Food Department, the different Controls Departments and such other similar departments. These departments will have to go and I would not be surprised if my hon. friend Mr. Nambiyar will call in strikes

[Dr. S. Subrahmanya Ayyar] [3rd August 1946]

when they are abolished in the course of a few months. It will be again a great problem. The other point is with regard to the Police establishment. I know it from my own experience. In my own taluk there was formerly one Inspector for the whole taluk but now it has been split up into two. I would, therefore, request the Hon. the Prime Minister to scrutinize the Budget and to see that this Police Budget is not allowed to go on increasing like this. I would not be surprised if it is not a manoeuvre on the part of the Police department to increase their strength to protect themselves against the growing nationalism and its consequences. Then coming to the agrarian disturbance all over the Presidency, especially in the Tanjore district, it is acute. I would therefore request the Hon. the Prime Minister to look into this deeply, since agrarian disturbances have gone on to a large degree so much so it is reported that there has been even a murder in Mannargudi. I would ask my friend Mr. Nambiar and his friends whether it is not time to cry 'halt' and to see whether we cannot co-operate with the Government so that in these days of food scarcity it is not accelerated still further than what it is at present.

2-45 p.m. "With regard to Prohibition, though my heart is in it, being a member of the Ministerial party, I am not here to attack as vehemently as my friend Mr. Varadachari did, the prohibition policy of the Government and I hope the Hon. the Prime Minister will take the sense of all of us into consideration and see whether he cannot introduce total Prohibition at an early date.

"A large sum of money has been specially earmarked for Harijan uplift. We should not be merely content with that. I would just request the Prime Minister and the Hon. Minister in charge of the subject to see whether it is not high time that there are District Harijan Welfare Officers who could look to the welfare of their community and to whom the Harijans could go if the need arises. It is high time that the Harijans must have their own officers who would look to their needs and who would be able to take things to the proper quarter and see that they get their wants attended to. I know in many instances, especially in the villages and even in certain municipal towns Harijans have not been able to get justice when the opposite party happens to be rich or influential and is able to get at officers and have things done to its own liking. I know a case where a piece of land owned for centuries by certain Harijans has been alienated in favour of a capitalist and even the municipal registers have been tampered with and the land has been taken over by the capitalist in spite of our request to the Deputy Inspector and Inspector of Local Boards for the matter being enquired into and nothing has come out of it. I feel, Sir, it is all because Harijans have no officer to take the matter with the officer concerned. It is well-known that officers when they go to the mufassal stay with the rich people, and go about their inspection work. The result is that when the time for report comes, we find that the poor man does not get justice and the rich man receives the favour of the

[3rd August 1946] [Dr. S. Subrahmanya Ayyar]

officers. I, therefore, feel that Harijans should have their own Welfare Officers who will take up their case to the proper quarters.

"We have heard much about corruption in this House. I may tell you, Sir, that corruption is not a thing confined to the lower grade staff alone. We all know that gazetted officers have been prosecuted for corruption and some of them are being sent to jail. Corruption is only a criminal habit of man and when, in addition to that, he is poorly paid, he is not able to resist the temptation to make up the level between the pay of the high-paid servants and his own. Further, where they cannot make both ends meet, they naturally succumb to temptation of making money. With regard to the high-paid staff itself, it is high time for us to think whether we cannot bring down their rate of pay so that there is not such disparity as obtains now between the rate of pay of the clerks and the top officers of Government. Another thing that I would suggest when I am speaking on the question of the high-paid officer is that we must consider whether we cannot cut off the dearness allowance that is allowed to him. Officers drawing rupees thousand and above have no right for a dearness allowance and they have no right to ask for it. For people who are living luxurious lives, what is the justification for the grant of a dearness allowance? I ask whether they were getting any lower pay during the pre-war days and whether they refunded any part of it when they had low prices? Is it not time, Sir, now that the war has ended that we stop the dearness allowance to high-paid officers?

"With regard to the educational policy of the Government, I am one with the Hon. the Premier and the Hon. the Minister for Education in their educational policy of having the regional language as the medium of instruction in high schools and of discontinuing the teaching of English for the smaller classes. The study of English has created a sense of inferiority complex in those that have not studied it and a sense of superiority in those that have studied it and they consider themselves to be above the level of their fellow beings. I know many officers, I.C.S., men of big families, refusing to talk to their brothers and sisters or even of seeing them when they go home because they have become big I.C.S. officers. English education has become a curse to our culture and it is high time that we stop it and I happily look forward to a time when even in colleges, professional, technical and arts, the medium of instruction will not be English, but the language of the area in which the college is situated. I think it is not a difficult matter. I have known many of our Congress workers addressing public meetings on many abstruse scientific subjects without using a single word of English. I have also seen many men of science addressing gatherings on scientific subjects without using any English word. After all even if we are forced to use an English word for want of a vernacular equivalent, what is wrong about it? What is the harm in borrowing it and incorporating it in our language if the necessity for it is felt?

[Dr. S. Subrahmanya Ayyar] [3rd August 1946]

"I now come to the question of admission to colleges. My feeling is that the principle of communal representation in respect of admission to colleges must go and everybody must have the same opportunity for his or her education to be completed. We cannot have a starvation of our brains. It may be quite right for you to allow the principle so far as Government service is concerned. But so far as admission to colleges is concerned, I would remind the Hon. Minister for Education that we cannot forego our education and the Brahman community might at least be given opportunity for education by unrestricted admission into colleges.

"With regard to medical colleges, I find that the Ministry has got a scheme for opening two more medical colleges. Why only two more colleges, I ask. 'Is it not time' I ask 'for opening a medical college for a group of two or three districts?' Have we enough doctors in villages, and seeing that we have not, is it not time that we think of having more doctors? The Bhoire Committee have pointed out that there are very few doctors in this country and, therefore, we have got to supplement the number of doctors. Towards that end in view, it is necessary that the number of medical colleges should be increased so that we may have one college for a group of two or three districts.

"I wish to say a word or two about jails. Most of us have been there and we know what is wrong about it. My first suggestion is that the administration of jails must be taken over by the Medical Department and officers of the Medical Department should be put in as Superintendents of Jails. What is the function of the Jail Superintendent except that he is to look after the health of the inmates of jails who are confined to his care for long periods even up to ten or fifteen years? If it is the duty of the Jail Superintendent to look to the health of the prisoners, is not the medical man better qualified for the job than any others? It is necessary that experienced medical men should be put in charge of jails both as the Medical Officer and Superintendent of Jails. There are many other items of Jail administration which require overhauling. Most of us know it and without mentioning any, I would request the Hon. the Minister for Jails who has been himself in it for a pretty long time to see whether all the mistakes inherent in the administration and the irksomeness which we see could not be rectified immediately.

"I would suggest with regard to cloth situation that we take over the mills. The cloth situation has become very acute in mufassal towns and I am not aware of how it is in the City. At least let us appoint officers who will exercise a check on the amount of yarn produced, the quantity of cloth manufactured and see how much is available for the public. It is not unknown to the Hon. Minister that all the cloth and yarn that is produced do not go to the open market; a large quantity disappears into the blackmarket. Recently we read from the papers that some of the biggest millowners have been prosecuted for blackmarketing in cloth. I think it is time that we take steps at least as a

[3rd August 1946] [Dr. S. Subrahmanya Ayyar]

temporary measure to take over the mills until the crisis is tided over so that people do not suffer from want of cloth. A system of cloth rationing is necessary especially in the mufassal where we see big shop-keepers and capitalists take away all the stock from the quota-holder or the Textile Controller and the cloth never sees the light of day.

"The problem of firewood is very acute in the mufassal. To ease the position, I suggest that buses and lorries which run on charcoal should be taken off the road and reconstructed so as to run on petrol. Or, in the alternative, they might be supplied with coal from factories and mines. Firewood position is becoming very acute and it is difficult even to get a ton of firewood for household purposes. Now that the petrol position has considerably eased, I think it would be possible to convert charcoal buses into petrol buses.

"I have a small reform to suggest in regard to the functions of the District Medical Officer. The office of the District Medical Officer should be separated from the Inspecting Officer. Till now—I do not know how old it is—the District Medical Officer has also been the Inspecting Officer of all the hospitals. Now that the hospitals are popular and they have got enough work, I suggest that the Superintendents of these hospitals should be made Superintendents in reality. But let us have, if you so desire, an Inspecting Officer for a group of three or four districts and he will have no other work than that of inspection. This reform is long overdue and I urge that it be taken up at an early date.

"I find very little of medical research beyond the stereotyped routine work of malaria research. I may tell the Minister for Public Health that kala-azar is endemic in Rameswaram Island and Keelakarai in Ramnad district and I learn from the District Medical Officer of Ramnad that on an average 150 patients suffering from this disease are coming to the headquarters hospital twice a week for taking injections for the disease. I think it is necessary that kala-azar research is taken up at a very early date. I believe there was an officer who was engaged on this business and he was deputed to Assam and afterwards to Bombay for the same research. Should we not avail ourselves of the services of some such people and see that we stamp out this disease from our Province? At present it is endemic in certain parts of the Ramnad district. It is high time that we co-ordinate medical research on the disease and see that endemic conditions do not prevail. I would also suggest that a kala-azar research station should be established in the Ramnad or Keelakarai area."

* M. S. ATAULLAH SAHIB BAHADUR:—"Mr. Speaker, Sir, I feel it is my foremost duty to congratulate the Hon. the Premier on the excellent manner in which he has presented a hastily-prepared Budget, vague in itself and ununderstandable to this House. It is a Budget which gives no information of any kind to the members of this august Assembly. To me, Sir, it appears to be a Herculean task if I should think of finding

[M. S. Ataullah Sahib Bahadur] [3rd August 1946]

out from the Budget, how much it actually costs to run this administration. Would the Hon. the Premier tell us that he is satisfied that the administration is not top-heavy and that it would not be paralysed if he continued to draw, all the surpluses without finding the ways and means to lay by something for the bad day. Very heavy sums have been withdrawn in the name of rural reconstruction and Harijan uplift, while Prohibition is also to be introduced in four districts only at a time when the country is at the brink of famine. Millions of people are hard up for food, and you do not immediately seem to make headway to wipe off the dangers daggering our faces even though you professed to do what all you can.

3 p.m.

"May I ask the Hon. Premier, Sir, if he meant that after he took up the reins of this Government, the ration which was started at 16 oz. got reduced to 12 and from 12 to 10 and from to-morrow onwards to 8 ounces, is the only thing that the Government means to do everything that lies in its powers? It is really heart-rending to see such state of affairs. Why should he think of other schemes when there is this pressing problem? It should be first and foremost concern of any good government to see that their children are well-fed, and then clothed and then take to do anything else. A Government which cannot perform its primary duties properly, incumbent upon it, has no right to plunge itself into schemes of various kinds which can only come, one by one, as time and circumstances permit. This aspect of it, I may be permitted to say, has been lost sight of by the Premier.

"With these general remarks, I shall proceed to point out certain other features of the budget. First I shall take up Prohibition. The last Congress Ministry introduced Prohibition first in Salem, and then extended it to four districts. Suddenly they had to resign without introducing it in the whole Province. It is wrong for this Government not to take up that scheme first in full, even though they have the benefit of a fully drafted scheme on hand. Rural reconstruction in the garb of a political movement and as a stunt has been taken up. The Wardha scheme of imparting education in the regional language is yet another stunt. Several such half-cooked schemes have been brought forward, about whose success there is much doubt. The duty of a benign Government should be to elevate the down-trodden. I am painfully driven to ask, 'Does this Government mean by all this a more show and nothing in reality?' *Prima facie* it should be the concern of a popular Government to attend to the fundamental needs of the Province. What have they done to eradicate corruption that is rampant in the Province. All say, that evil should be rooted out. It is no good continuing to say that 'We are out to put down corruption' and still don't take drastic steps to do away with it. We are told in the budget 'We are taking stock to try to raise the scales of pay of the non-gazetted officers and low-paid clerks' and such other things. Surely we quite agree with you that it must be the first and foremost concern of this Government to raise the salary, or pay, or dearness allowance, as they deem fit, to low-paid

[3rd August 1946] [M. S. Ataullah Sahib Bahadur]

clerks, teachers, Police officers or the whole lot of ill-paid subordinates. At the same time we urge it should be its aim also to bring down the level of salary of high-paid officials, who are simply receiving fabulous amounts. If you take concrete cases of teachers and policemen and such others and compare their salary with that of the present-day much agitated scheme of salary for postmen and others, there is no comparison whatsoever. Then, Sir, I would like to impress on the Premier that during Ramzan month, the Muslims must be given their full quota of 10-8 yards of mill cloth per head."

MR. SPEAKER:—"Mr. Hamid Khan has already made that appeal. You need not repeat it."

M. S. ATAULLAH SAHIB BAHADUR:—"I am only emphasising it. One word more, Sir, about the Wardha scheme. If you persist in the Wardha scheme being carried out, you will have to come back to the place from where you started. I hope the Treasury Bench will not take it as derogatory, but act in a manner giving due consideration to the salient points put forth from the Opposition."

* SRI V. I. MUNISWAMI PILLAI:—"Mr. Speaker, Sir, representing as I do the Harijan community, I feel it my duty to congratulate the Hon. Premier on a budget that has been so clearly presented to this House. Sir, we are aware of what is going on in the country; every day you hear of strike of one class or another. We, the untouchable class, known as Harijans, feel that very little provision has been made in the budget. Sir, I find, member after member in this House, were talking of dearness allowance. But what about the poor agricultural labourers who have been toiling in the field day in and day out without proper wages. Has the present Ministry or the previous Government found ways and means to improve the lot of the agricultural classes? My Hon. Friend, Dr. Subramaniam, speaking just now, brought to our notice the plight of the agricultural labourers in Tanjore. I may say, Sir, what has happened in Tiruturaipundi, where the agricultural labourers went on strike, is due to the inadequacy of the wages now prevailing. They ask for a rise in wages not to have certain luxuries, but to keep their body and soul together. The depressed classes are suffering not merely from economic disabilities. Their difficulties are manifold. Here I must draw the attention of the Hon. Premier, knowing as he does, that we are now living in socialistic times, and that he should bring in measures to improve the lot of the villagers. We see in the budget provision has been made for the extension of compulsory primary education to the extent of 22 lakhs, and we are also told that the surplus funds of several religious endowments would be used for education. Harijan cheris in the districts are a source of epidemic, and wherever you go, you find the cheris in a most insanitary condition. I find two medical colleges are to be opened; two hundred midwives are to be trained and opening of 20 hospitals with 20 beds in each is

[Sri V. I. Muniwami Pillai] [3rd August 1946]

3-15
p.m.

under consideration. I am sure, Sir, that if these people who come from the colleges and the midwives, to be trained, are granted to the chernis it is not the village alone, not the district alone, but the whole Province will be benefited.

"Then there is a provision of 50 lakhs of rupees for water-supply. It must really go to the rural areas where these unfortunate people live. I find that there is provision for relief in the shape of cash and grain to infirm and decrepit persons in famine-stricken areas.

"Sir, I find that the provision of one crore of rupees for Harijan uplift has received mixed reception in this House. In the history of India, if there is one community that has been kept at the outskirts of society and neglected for centuries, it is the untouchable class known as Harijans. Fortunately for us, we have a Prime Minister who has seen their difficulties and has come in time to make this provision. There may be questions as to details. I am sure that he will take the House into confidence and tell us in what form he is going to spend this amount. I received a communication from the Development Secretary asking for my remarks as to the way in which this one crore of rupees should be spent, and I have suggested to him the way in which it should be spent. I feel that the economic condition of the Harijans is at a very low ebb and unless this one crore of rupees is spent on improving the economic condition of this community, it will be a waste. When it was announced that the present Government are going to spend money to make four districts dry, there has been some criticism. Having been in the field of temperance and prohibition for a few decades, I feel that four districts are not enough. At the same time I know that the Ministry, who have been in office only for the past two months, are bound to have administrative difficulties. I appeal to the Hon. the Prime Minister that he must make headway with prohibition. Otherwise, the one crore of rupees that you are going to spend for the Harijans will not be to their best advantage. I know the mentality of my community. What they got during the war time and the little money they earn now is mostly spent on drink and not in improving the condition of their wives and children.

"Then the fact of untouchability is there. Wherever you travel in the interior, the lot of the Harijans is so very deplorable that unless there is some radical change by the introduction of legislative enactment, I fear their condition will grow worse. For instance, even in a place like Ootacamund, the Harijans are not allowed in hotels. When the municipality was forced to insert a clause in the licences to allow all classes in the eating houses, the restaurant-keepers had to go to the Court, and the decision was that the municipality had no power to insert any such clause. I hope that my Hon. Friend the Minister for Local Administration will take up this matter as early as possible and bring forward legislation whereby the untouchable classes can have free access to all public eating places.

[3rd August 1946] [Sri V. I. Muniswami Pillai]

"Another novel feature that I find in the budget is this. In the Government of India Act, 1935, the term used is 'Scheduled Caste,' but in the present budget, I find 'Communities eligible for help.' This distinction, I feel, Sir, is driving the thin end of the wedge for bringing in many more communities who have not been brought in previously.

"When the Poona Pact was concluded, a clear term was introduced in it for substantial allotment for the education of the Depressed Classes. In the budget, the Government have provided Rs. 33,800 towards schooling charges for converts and Rs. 1,25,100 for non-converts, and also boarding grants for converts and non-converts amounting to Rs. 2,59,000. Time and again, I and my predecessors in this House have been pleading that Harijans are quite different from converts. We have no objection to the Government giving any amount to Kallars, Christians and Muslims but why should they be clubbed with this Scheduled Castes? This is a very serious thing, Sir, and I request the Hon. the Prime Minister to look into the matter and make amendments.

"Sir, we have been pleading for the colonization of Harijans and Aborigines. Taking Anamalais alone, where we have more than 40,000 Harijans, there is no colonization, and the Harijans there, I understand, have appealed to the Government that colonization should be brought into force.

"Now, Sir, the Government are aware of the great depletion in forests and livestock in the villages. Practically, all the firewood has been taken away from the forests, and unless forests are improved, there will be a great dearth of firewood. I do not find proper provision has been made for this in the budget. So also for grazing facilities. Except for the provision of Rs. 12,700 for the purchase of Mysore cattle, I do not find any provision for livestock. We import from foreign countries crores of rupees worth of milk powder. I hope the Government will be wise enough to make sufficient provision towards this.

"Sir, very small amounts have been provided in the budget for minor irrigations. I represent a constituency in South Arcot district, where many irrigation works have to be brought into being because, during the drought days, they will help the poor people and make them self-sufficient.

"With regard to cinchona plantations, I would like to say a few words. The present policy adopted by the Government is not fair. There are more than 10,000 labourers in cinchona plantations on the Anamalais, and for getting their patients treated, they go to a medical institution some seven miles away giving Rs. 45,000 by way of cess and Rs. 2,500 travelling charges. They should have provision for a hospital. I see the Government have allotted Rs. 1,11,000 for the purchase of mepacrine tablets. 24,000 acres of land have been reserved for the cinchona plantation on the Anamalais. With good planning we can bring all this land under cultivation and produce quinine. I find that

[Sri V. I. Muniswami Pillai] [3rd August 1946]

in Devarsholai the beautiful forest is ripped off and cinchona clearing is made; so also in Cherambadi.

"Sir, the Hon. Prime Minister said that in the post-war development schemes the Government have provided for a number of industries like the manufacture of bangles and other things.

"I would also request the Prime Minister to make provision for the cultivation of pyrethrum, wattle and camphor and for reviving the jam factory at Coonoor. All the machinery required are stored there and is getting rusty.

"The control system that came into force during the Advisers' regime has, as has already been pointed out, led to a lot of corruption. Getting licences from these control departments is very hard and all the more so for a community like the Harijan. So I hope the Government will see that the control system goes out as early as possible."

MR. SPEAKER:—"I wish to inform the members that to-day the House will sit till six o'clock. I have consulted the Hon. the Prime Minister and other leaders and they have agreed to this."

* H. S. HUSSAIN SAHIB BAHADUR:—"Mr. Speaker, Sir, I am glad that the Hon. the Finance Minister has presented a comprehensive budget, spending every ounce of his energy on it despite old age. No doubt it is very necessary that every care should be taken in framing the budget for the Government of a country. But the circumstances were such that the Hon. the Finance Minister had to do things hurriedly. We have therefore to take a lenient view of the defects in the budget. But that does not mean that we should not point them out to the Hon. Premier and this House. Now, Sir, there are many things—fads I would call them—which we do not think it quite necessary to be tackled at this moment. For example there is the Wardha scheme or the basic education scheme of the Hindustani Talimi Sangh. The other fad is about the production of khaddar. The third fad, if I may be permitted to say so, is what is called the rural reconstruction scheme. There is yet one more and I may be excused for calling it a fad. It is what is called the uplift of the Harijans. Now, Sir, I will give the reasons for my calling them fads.

"Let me take for instance the uplift of the Harijans. What has been done for their uplift so far? To what level have they been raised? It is a pertinent question to ask. After years of labour of the Harijan Sevak Sangh and earmarking of so many funds for the amelioration of the condition of the Harijans, what is their condition to-day? In spite of the fact that they have got joint electorates with reservation of seats, what has happened to their political status? They are getting into the Legislature and the local bodies simply because they have joined the Congress Party. It is only for that reason, I believe, that they, at any rate, the 'candidates' among them, are so very particular about becoming members of the Congress. But otherwise in all other

[3rd August 1946] [H. S. Hussain Sahib Bahadur]

respects I do not see any improvement in their condition. Earmarking the large sum of one crore for the uplift of the Harijans without giving the House details of the scheme does not help any member of this House to comment or improve on that scheme. My suggestion is that it would be better for the Government to throw open all hotels and temples by legislation and remove untouchability. That is the first step that any Government should take. If the Government have got the courage, they must come forward with such legislation. I am glad to see that they have accepted the Islamic principle of prohibition, and I would advise them to follow also the Islamic principle of equality and fraternity. That alone will give them a sense of equality and fraternity with the other community. I do not believe in giving them the exalted name of Harijans and not treating them as such. We are all Harijans; all of us who are children of God. These are all things which, I believe, do not go to attach much credit to the very comprehensive budget that has been placed before the House by the Hon. the Finance Minister.

"With regard to the education scheme that has been revealed in the budget, it is definitely stated that the Government are going to adopt basic education or the Wardha scheme of the Hindustani Talimi Sangh. I would on the floor of this House sound a note of warning to the Government, so far as the Muslims are concerned. The Government must know that we form an important limb of the body politic, and every limb must be developed in its own particular manner. We know the famous couplet.

* It is education that forms the common mind.

* As the twig is bent, the tree is inclined."

We know what influence this sort of education will have if it is forced on the members of a community whose genius and tradition repel it. Therefore I say: 'Develop each community, which is a part or limb of the body politic, in its own way, according to its leanings, and according to its own requirements.' There is no use in simply making a categorical statement in the budget that we have adopted that policy. It should not be so. You are in power to-day. Take care not only of the Hindustani Talimi Sangh or the Wardha scheme, but take care of all the subjects over whom you are placed as the ruler. Therefore, Sir, in this matter we have a right to demand what is suited to our need, what is suited to our genius and tradition.

"Mr. Speaker, Sir, religion plays an important part with the Muslims as with the Hindu and the Christian communities, and they have to be brought up in their own religious traditions. It is an important factor in our life. There is no use of simply talking of these facts. That is why I call them fads.

"I would also touch upon the food problem with which we are faced to-day. Yesterday the Prime Minister made a statement that the rice content of the ration had been still further reduced to eight ounces. This is not a happy state of things, and we cannot congratulate the Hon. the Premier or the whole Ministry

[H. S. Hussain Sahib Bahadur] [3rd August 1946]

for the matter of that on this very sorry plight to which we have been reduced. After introducing the new scheme of food committees all over the province, they should have been able to show some better results instead of curtailing the rice content of the ration. Therefore I would ask the Government to be more careful in such matters as food and cloth. While introducing this new scheme of food committees all over the province, I know many things have gone wrong, and I am afraid these committees will not work satisfactorily. It is said by many people and many have informed me that influential people in the villages are trying to get or have already tried and succeeded in getting into these committees. It is not for public service but for self-service. We know blackmarketing, profiteering and hoarding are going on. The Government will have to be very careful in these matters and see that the shortage of rice is made up by a direct appeal to the people who can still spare some surplus rice from their stock. It is possible and I wish that the Government should send out strong appeals for voluntary delivery of any surplus stock with the people. In this matter the members of the food committees should fully and wholeheartedly co-operate. By that means at least we shall be able to get some more rice. Instead of making these attempts, the Hon. the Prime Minister makes a statement that the rice content of the ration has been reduced.

“Coming to the question of the non-gazetted Government servants, I should say that it is after all only a pious wish or I must say at best only a promise for considering their condition. That is not enough. The Government should realize . . .”

MR. SPEAKER:—“Mr. Varadachari has already spoken on this point . . .”

* H. S. HUSSAIN SAHIB BAHADUR:—“Yes, Sir, I am not going to press that point, as it has already been done.

“There is another important matter on which I would like to say a word. It is connected with communications and the provision made for roads. The Hon. the Finance Minister thinks that we should concentrate on the production of food. No doubt he is right in saying that and we should all give our full co-operation to him in that respect. But that does not mean that communications should not be improved. Especially village communications require a good deal of improvement. I know, Sir, that many villages have not got roads and are inaccessible especially during monsoon on the West Coast. Unless the small streams are bridged and culverts built, it is impossible to transport the food that is produced in the villages to other areas. Communication is as important as food. Therefore I say that improvement of communications and construction of bridges and culverts should not be neglected. No doubt irrigation is necessary for production, but what is the use of producing food when you cannot transport it from one place to another? Therefore, Sir, improvement of communications must be given as much importance as the production of food.

3rd August 1946] [H. S. Hussain Sahib Bahadur]

“The Hon. the Minister for Finance has said regarding local boards that it is not a question of abolishing any of them, but of reforming and strengthening them and opening of new panchayat boards. I would at once say that the Government should decide to abolish the district boards. In my view, the district boards have never functioned satisfactorily, mainly for want of funds. We know that they have got a number of elementary schools all over the districts in almost all the villages. Are they able to maintain them? It is impossible for them to manage elementary education in any district. Therefore, I would suggest that in the place of these district boards it is better to have in all the villages, if possible, or for a group of villages what are called panchayat boards, and they should be given more powers. I am sure these local panchayat boards for a group of villages can do much better than what the district boards are able to do at present. There should be more of concentration. There should not be any sort of diffusion as it is now, because the district boards are not able to manage their affairs. I was surprised to see that there was no proposal at all for the abolition of district boards. Therefore I would ask the Government and particularly the Minister for Local Administration to consider this problem seriously. It is quite possible that the district boards might be full of members belonging to a particular party or at least a large majority of them. It is not that that counts. If you want to do real service to the villagers, you must have more concentrated local administration in the province. You should not have the district boards which are not able to manage their far-flung area. That has been the sad experience of the past, and in the light of that experience, I am sure the Ministry will apply their mind to the problem and see that the district boards are abolished at the earliest possible moment.

“Let me now turn to another subject. It is not enough if we simply try to increase irrigational facilities alone. At the same time we must also see that the systems of tenure are put on a proper basis. So far as I can see, there is no use in continuing the zamindari system. That system should go. If the Government can take over and manage cultivation in the zamindari areas, it would, in my view, be a very ideal thing. They can manage it themselves through the Agricultural department. With their own staff and their own experts, it will be possible to produce more food and there may not be any famine lingering in this province. I see that the time-limit for me is almost over.”

MR. SPEAKER:—“You have taken more than five minutes extra.”

* H. S. HUSSAIN SAHIB BAHADUR:—“I am finishing. I would make one last appeal to the present Ministry. They should concentrate on the question of prohibition at all costs. It is a most important question. It is a religious question for us and for the Ministry also, I believe, it is a religious question. No religion will encourage drink. Drink is bad from every point of view and we should not try to improve the condition of the people with that p.m. 3-45

[H. S. Hussain Sahib Bahadur] [3rd August 1946]

tainted money. I fear that ultimately it will end in disaster for us all. Therefore, if you want to have village autonomy, it should follow from village economy and village economy can be effected only by the introduction of prohibition throughout the province. The introduction of prohibition will benefit the poorer classes especially."

* MR. H. O. FOWLER:—"Mr. Speaker, Sir, I do not want to deal with any of the figures shown in the Budget presented. I would however, like to make a few comments on three of the statements made by the Hon. the Prime Minister when he presented the Budget. I shall first refer to his statement that the Government are aware of the need for raising the status of teachers and are actively considering proposals for raising their salaries. While speaking on behalf of the teachers, I should like to voice the feelings of gratitude of this army of martyrs to the Hon. the Prime Minister and the other Ministers for this statement. Everybody in this House will agree that the teacher is a very important and indispensable unit of our life and society and that his responsibility is a colossal one. It is the teacher who takes charge of our most precious possession, our children; it is the teacher who has the grave responsibility of moulding our children's minds; it is the teacher whose task is to train the future leaders of this province, the leaders of India and perhaps the leaders of the world. (Mr. Hameed Khan: And of Ministers.) Certainly. Everybody expects the teacher to be a living example to the young minds before him, an example with regard to intelligence, an example with regard to culture, and an example with regard to moral character. And yet, in spite of these demands on the teacher, what does he get? Nothing more than a coolie's wage. (A Voice: 'Much less than that.')

"Apart from this, I should like for a moment to refer to a system which an hon. Friend touched upon very briefly, and that is that in some schools and, I believe, colleges, there is a very vicious system of teachers signing for their salaries on blank pages. I would ask the Hon. Minister for Education to look into this matter and put a stop to this scandalous state of affairs.

"That teaching is a vocation every teacher will admit, that teaching demands certain sacrifices every teacher is willing to grant, but surely there must be some limit to this sacrifice. The teacher in India, and more especially in our province, has undergone all these hardships for the past several years and it is high time that we who sit in this House look into these matters and right the wrongs of the past. I should like to convey once again to the Hon. the Premier and the other Ministers my thanks for their assurance to look into this matter. Apart from the justice done, this noble deed of paying a man a fair wage will carry with it its own reward. If you have in this province a band of teachers who are contented and happy, in the years to come you will reap the reward. They will send out into the world men and women of character and ability.

[3rd August 1946] [Mr. H. O. Fowler]

"The second statement of the Hon. the Prime Minister to which I referred earlier is this: 'In the re-organization, a proper place and importance will be given to the regional language.' Perhaps some of my hon. Friends may believe that I, as an Anglo-Indian, am prejudiced, prejudiced in favour of English. I should like to make this quite clear. Anybody with any commonsense would admit that it is the child's birthright to be educated in his mother tongue. To that I feel that there can be no argument. There is also a desire—a very natural desire—that we should study and reach a stage of proficiency in the common language of India. With due respect to fellow-members of this House who have more experience than I in this matter, I would ask, in all sincerity, whether we are agreed that we have a common language in India? There is a tendency, as can be clearly seen even in this House, to oust English from its present position in our life and in our schools. Now, may I sound a note of warning. If it is your nationalism—which is a very very healthy sign—that wants you to promote the growth of the languages of India, nobody has any right to challenge that; but if your cry against the English language is tainted with bitterness and perhaps prejudice, because it happens to be the language of the former Government of this country, then I would ask you to be careful before you come to a decision in this very important matter. We in India should not push English completely into the background for the simple reason that it is acknowledged all over the world as the world's language. Secondly, anybody will admit that English is the key to the world's storehouse of knowledge and culture.

"The third statement of the Prime Minister to which I wish to refer is this: 'The Government have ordered that prohibition should be re-introduced.' This is a very vast subject. Various issues are involved. I feel certain that every section of the House will agree on principle that prohibition is a step in the right direction. There are admittedly problems and difficulties to be faced. There is also the financial aspect. But there is one suggestion which I would like to make to this House and it is this: Perhaps you might call it the psychological problem or the commonsense problem and it is this: If you want to root out drink, you must plant something more useful in its place; and so I would appeal to all our legislators and the Prime Minister and the other Ministers to see that in those districts where prohibition is introduced they build up, side by side, some other forms of useful and advantageous recreation."

* SRI N. ANNAMALAI PILLAI—"கனம் சபா நாயகருவர்களே, 4 p.m. கனம் சபையிலுள்ள அங்கத்தினர்களே, உங்கள் எல்லோருக்கும் முன்னால் இப்போது பிரதம மந்திரியாரவர்கள் நம்முன்னே கொண்டுவந்திருக்கும் வரவு செலவு விவரத்தைப்பற்றிப் பல நண்பர்கள் பேசி விட்டார்கள். அதைப்பற்றியே நானும் இப்போது பேசப்போகின்றேன். பிரதம மந்திரியாரவர்கள் கொண்டுவந்திருக்கும் வரவு செலவு திட்டமானது அதேக பாகங்களில் நன்றாக விருத்தாலும் இன்னும் சிறிது தாராளமாக இந்த வரவு செலவு திட்டத்தை சரிப்படுத்தியிருந்தால் என்போலுள்ளவர்களுக்கும், இந்த மாகாணத்திலுள்ள மக்களுக்கும் திருப்தியை அளித்திருக்கும். ஆனால், இப்போது தேசம் பூராவும், மாகா

[Sri N. Annamalai Pillai] [3rd August 1946]

னம் பூராவும் சென்னை சட்ட சபையில் என்ன நடக்கிறதென்று ஒரே வக்கத்துடன் மக்கள் பார்த்துக்கொண்டிருக்கிறார்கள். அதிலும் முக்கியமாக ஏழைமக்கள்தான் சட்டசபையை நோக்கிப் பார்த்துக்கொண்டிருக்கிறார்கள். சட்டசபையார் இந்த ஏழை மக்களுக்குப் பிராணப் பிச்சை கொடுக்கப் போகிறார்களா இல்லையா? பஞ்சத்தைத் தடுப்பதற்கு வழி காட்டப்போகிறார்களா இல்லையா? இந்தப் பஞ்ச காலத்திலும் மதுபானத்தைவைத்து நம்மை அழிக்கப்போகின்றார்களா அல்லது மதுபானத்தை ஒழித்து காப்பாற்றப் போகின்றார்களா? என்று எதிர்பார்த்துக் கொண்டிருக்கிறார்கள். என் போலுள்ள வர்கள் 27 வருஷங்களாக இந்த காங்கிரஸில் சேர்ந்து மதுபானத்தை இந்த நாட்டிலிருந்து தொலைத்து விடவேண்டுமென்பதற்காக, பிரம்மசாரிய விரதம் பூண்டு இருப்பவர்கள் போல், வைராக்கியத்துடன் எம் கடமையைச் செய்து அதனால் பல கஷ்டங்களையும் அனுபவித்து வந்திருக்கிறோம். நம்முடைய வாலிபர்களும், மந்திரிகளும், பிரதம மந்திரியாரைப் போன்றவர்களும் மதுபானத்தை எடுக்கமுடிய வில்லையெ யென்று எங்கிக் கொண்டிருந்த காலமானது போய் இப்போது நல்ல சமயம் வந்திருக்கும் போழுது அதைச் செய்ய முடியாதாவென்று நான் ஏக்கங்கொண்டிருக்கிறேன். ஆகவே இப்போது மதுபானத்தை இந்த மாகாணம் பூராவும் எடுத்து விடுவதற்கு நல்ல சந்தர்ப்பம் கிடைத்திருக்கிறது; அதை உபயோகித்துக்கொள்ளவேண்டுமென்றுதான் நான் கூறுகின்றேன். இந்த மாகாணத்திலே சுமார் 5 கோடி ஜனங்களிருக்கிறார்கள். இதில் பெண்கள் 2½ கோடி போய்விட்டால், ஆண்கள் 2½ கோடி இருக்கிறார்கள். இவர்களில் 12 வயதுக்குக் கீழ்ப்பட்ட ஜனங்கள் ஒரு கோடிபோனால், மீதியிருப்பவர்கள் 1½ கோடி அதிலே குடிக்காமலிருப்பவர்கள் ½ கோடி ஜனங்கள்போக பாக்கி குடிப்பவர்கள் ஒரு கோடி ஜனங்கள் ஆவார்கள்."

MR. SPEAKER.—“மதுபானத்தைப்பற்றி பலர் பேசி உள்ளார். ஆதலால் வேறு விஷயங்களைப்பற்றி பேசினால் நல்லாயிருக்கும்.”

* SRI N. ANNAMALAI PILLAI:—“கனம் அக்கிராசனரவர்கள்! மதுபானத்தைப்பற்றி 7, 8 பேர்கள் பேசி விட்டார்கள். அதைப் தவிர வேறு விஷயங்களைப்பற்றி பேசினால் நல்லாயிருக்குமென்று உத்திர விடுகின்றார். அதற்கு நான் சந்தோஷப்படுகிறேன். ஆனால், என் வாழ்வையே அதற்காக அர்ப்பணம் செய்துவிட்டு அதற்காகவே சட்ட சபைக்கு ஒரு அங்கத்தினராக தேர்ந்தெடுக்கப்பட்டிருக்கும் நான் அதைத் தவிர வேறெதைப்பற்றி நான் பேச முடியும்? “நாரணனை பாடிய வாயால் நரனைப் பாடுவேனோ” என்று ஒரு ஆழ்வார் சொல்லியுள்ளார். அதேபோல இந்தக் கள் குடியை ஒழித்து விடவேண்டுமென்று ஆர்வத்துடன் சர்வசங்க பரித்யாகம் செய்து கொண்டு வந்திருப்பதாய் நினைக்கும் நான் சமயம் வரும்போது அதைப்பற்றி பேசாமலிருப்பதென்றால், அது உசிதமாகாது. அவ்விதம் செய்வது நான் தேசத்திற்கே செய்த துரோகமாகாதா? தலைவரவர்கள் உத்திரவிட்டால் இதைப்பற்றி நான் சுருக்கமாகப் பேசி முடித்துவிடுகிறேன்.

“ஆகவே இப்போது கள் குடிக்கும் ஒரு கோடி ஜனங்கள்தான் ரூ. 13½ கோடி வரியாகக் கொடுக்கிறார்கள். அதிலும் இந்தப் பணத்தை ஏழைக் குடியானவர்களும், ஹரிஜனங்களும், ஹரிஜனங்கள் போன்று தாழ்ந்த நிலைமையிலே யிருக்கிறவர்களுந்தான் கொடுக்கிறார்கள். இந்த 13½ கோடி ரூபாய் பணத்தை அவர்களிடமிருந்து நாம் வாங்கிக்கொண்டு, அதற்குப் பதிலாக ஹரிஜன உபயோகத்திற்கென்று சொல்லி ஒரு கோடி ரூபாயை ஒதுக்கி வைத்திருக்கிறோம். 13½ கோடி ரூபாய் ஜனங்களிடமிருந்து வாங்கிக்கொண்டு ஒரு கோடி ரூபாயை அவர்களுக்குத் திருப்பிக்கொடுப்பதாக இதுவிலிருந்து ஏற்படுகிறது. இது ஒரு திருப்திகரமான விஷயமல்ல. இந்த 13½ கோடி ரூபாய் ஏழை ஜனங்களுக்கு ஆதாயமாகிவிட்டால் அவர்கள் இந்தப் பஞ்ச காலத்தில் கேஷம் மாயிருப்பார்கள். இதுதான் நாம் இப்போது செய்யவேண்டிய முக்கியமான வேலை. இந்த வரவு செலவு திட்டத்திலேயே மதுபானத்தை மாகாண முழுவதும் எடுத்திருந்தால் காங்கிரஸின் நிலைமையும் நம்முடைய நிலைமையும் உயர்ந்திருக்கும். ஆனால் இப்போது அதில் ஒரு கலங்கம் ஏற்பட்டு வியாபார முறை மாதிரி நடப்பது போலத்தான் இந்த வரவு செலவு திட்டத்தைப்பற்றி ஜனங்கள் நினைத்துக் கொண்டிருக்கிறார்கள். இந்த நிலைமை நமக்கு வந்து விட்டதேயென்று

[Sri N. Annamalai Pillai] 3rd August 1946]

சதா கலையுற்றவனாக நான் இருக்கிறேன். வருஷா வருஷம் விற்பனை வரி மூலமாகவும், சினிமாவரி, எலெக்டிரிக் வரி, மெஷின்களுக்கு வரி இவைகளின் மூலமாகவும் 7½ கோடி ரூபாய் வருகிறது. இந்த வருமானத்திலிருந்து இன்று நம் கையில் 31½ கோடி ரூபாய் இருந்து கொண்டிருக்கிறது. இந்த முதலையும் அதோடு வருஷாவருஷம் கிடைக்கும் விற்பனை வரி வருமானத்தையும் வைத்துக்கொண்டு இந்தக் கள் குடியை குறைந்தது ஆறு வருஷங்கள் வரையில் இந்த மாகாண முழுவதும் எடுத்து விடலாம். சாதாரணமாகச் சட்டசபைக்குக்கொடுக்கப்பட்ட வயது 5 வருஷம். கையிருப்பு தொகை செலவுழிவதற்குள்ளாக நாம் வெவ்வேயே போய் விடுவோம். அடுத்த எலெக்ட்ரிக் யார் வருவார்களோ அதைப்பற்றி இப்போது நமக்குக் கலை வேண்டாம். நாம் வந்ததும் முதல் வேலையாக கள்ளுக்கடை, சாராயக்கடைகளை மூடி விடுவதாக ஜனங்கள் முன்பு நாம் சொல்லியிருக்கிறோம். ஆகவே அடியோடு இந்த மாகாண முழுவதும் கள்ளுக்கடை, சாராயக்கடைகளை உடனே எடுத்துவிடவேண்டியது நிரம்பவும் அவசியமானது, அவசரமானது, என்று நான் தெரிவித்துக்கொள்ளுகிறேன்.

“இரண்டாவதாக கல்விவியப்பற்றி ஒரு வார்த்தை சொல்ல விரும்புகிறேன், எனது ஜில்லாவில் கல்வி நிரம்ப பிற்போக்காகவிருக்கிறது. அதிலும் மலைச்சரிவிலேயுள்ளவர்கள், அதாவது ஜவ்வாது மலைச்சரிவிலே, அதேகம் பேர் வாழ்ந்து வருகிறார்கள். மலைச்சரிவிலேயுள்ள கிராமங்கள் என்னுடைய தொகுதியிலே மாத்திரம் 70 கிராமங்களிருக்கின்றன. அந்த ஜனங்களின் கல்வி விஷயமாக முன்பு காங்கிரஸ் மந்திரி சபையிருந்த காலத்தில் நான் வேண்டிக்கொண்டதின் பேரில் எதோ விசாரனை செய்தார்கள். ஒரு பள்ளிக்கூடத்தை வைத்தார்கள். ஆனால், காங்கிரஸ் மந்திரி சபைப்போனவுடனே அட்வைசர் சர்க்கார் வந்தார்கள். அவர்களுக்கு மலையிலே வாழ்கிறவர்களைப் பற்றி கலையில்லாமல் போய்விட்டது. இப்போது மறுபடியும் காங்கிரஸ் மந்திரி சபை வந்திருக்கும் போது ஜவ்வாது மலையில் வசிக்கிறவர்களுக்கு கல்வி வசதி; சுகாதார வசதி முதலிய அனைத்தையும் செய்வதற்கு உடனே ஏற்பாடு செய்யவேண்டும். இந்த மக்கள் இந்த அரசாங்கம் ஏற்பாடு 200 வருஷங்களாக கல்வியறிவில்லாமல், மலையியா ஓரத்தினால் மாண்டுகொண்டும் வந்திருக்கிறார்கள். இவ்விதம் மலையியாவின் மடிவதைத் தலைவிதி யென்று சொல்லப்படுகிறது. இந்தத் தலைவிதியைத் தடுப்பதற்குச் சக்திவாய்ந்த சுகாதார அதிகாரிகளை நாம் வைத்துக்கொண்டிருக்கும்போது, அந்த ஜனங்கள் தலைவிதியினால் சாகிறுமென்று சொல்லும் நிலைமையை மாற்றவேண்டும். உடனடியாக அங்கே கல்வி, சுகாதார வசதிகளை ஏற்படுத்தவேண்டும். முக்கியமாக, எல்ல பள்ளிக்கூடங்களிலேயும் பையன்களை யெடுத்துக்கொள்ள இட மில்லாமலிருக்கிறது. இது விஷயத்தையும் கவனிக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.

“அடுத்தபடியாக நீர்பாசனத்தைப் பெருக்க என்னுடைய தொகுதியிலே நல்ல வசதியிருக்கிறது. பெண்ணையாற்றில் இரண்டு மலைகள் சேரும் ஒரு இடம் இருக்கிறது. அந்த இடத்தில் ஒரு அணை கட்டினால், எலெக்டிரிக் கரெண்ட்கூட எடுக்கமுடியுமென்று சொல்லப்பட்டது. இது விஷயத்தைக் கவனிக்க என்ஜினியர் அவர்கள்கூட வந்தார்கள். ஆனால், கடைசியில் ஒன்றுமில்லாமற்போய்விட்டது. சமீபத்திலே நம்முடைய ‘இரிகேஷன்’ மந்திரியவர்கள் கனம் பக்தவத்சல முதலியார் வந்திருந்தபோது அவர்களிடத்தில் இதைப்பற்றி மனு செய்து கொண்டோம், அவர்களும் இதைப்பற்றிக் கவனிப்பதாகச் சொன்னார். 1946-ம் ஆண்டு ஜூலை 28-ம் தேதியில் சென்னையிலிருந்து இன்ஜினியர் வருவதாகச் சொல்லப்பட்டது. ஆனால் அவர் வரவில்லை. இதனால் நாங்கள் மிகவும் ஏமாற்றம் அடைந்தோம். தானியமில்லாத இந்தப் பஞ்சக்காலத்திலே இந்த இடத்திலே நீர் தேக்கத்தை ஏற்படுத்தினால் இந்தத் தண்ணீரைத் திருப்பித் தென் ஆற்காடு வட ஆற்காடு ஜில்லாக்களிலுள்ள பல தாலுக்காக்களுக்கு நீர்ப்பாசன வசதி ஏற்படுத்திவிடலாமென்று நான் தெரிவித்துக்கொள்ளுகிறேன். இதுவும் லாமல் துறஞ்சிலார் அணைக்கட்டு உடைந்திருப்பதையும் உடனே ரிபேர் செய்யவேண்டும். இதைப்பற்றி மந்திரியாரிடத்தில் சொல்லிக்கொண்டோம், அதையும் செய்யவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.

[Sri N. Annamalai Pillai] [3rd August 1946]

“அடுத்தபடியாக இப்போது கள்ள ‘மார்கெட்டுகள்’ அதிகமாகிவிட்டது. இதைப் போக்கவேண்டுமென்றால், என்னசெய்யவேண்டுமென்பதைப்பற்றி யோசிக்கவேண்டும். நாம் கமிட்டியை ஏற்படுத்தியிருக்கிறோம். இதனாலே லாம் ஒன்றும் செய்துவிடமுடியாதென்று நான் நினைக்கிறேன். இவை களினால் பதுக்கிவைத்திருக்கிற சாமான்களை ஒரு வேலை வெளியிலேகொண்ட ரை பிரயோஜனப்படுமெய்யாழிய ஜனங்களுடைய கஷ்டத்தைத் தீர்க்க முடியாது. விவசாயத்தையும், மில்களையும் சர்க்காரே எடுத்து நடத்த வேண்டும். பெரிய மிராசதாரர்களிடத்திலிருக்கும் நிலத்தையெல்லாம் சர்க்காரே கைக்குக் கொண்டு எடுத்துக்கொண்டு பயிரிடவேண்டும். அதற்காக வேன்று ஒரு ஸ்கீம்மையும் ஏற்படுத்தவேண்டும். இன்று கிணறு வெட்டுவதற்கு பணத்தை சர்க்கார் கொடுத்தாலும், அதற்கு ஆள் கிடைப்பதில்லை. ஆரம்பத்திலே கெஜத்திற்கு கூலி 3 ரூபாய் இருந்தது. இப்போது ஒரு கெஜம் வெட்டுவதற்கு 3 ரூபாய் கேழ்க்கின்றார்கள். அதோடு வெட்டுவதற்கு வேண்டிய கட்டப்பாறை, மண்வெட்டி முதலிய கருவிகளும் கிடைப்பதில்லை. ஆகவே, கிணறு வெட்டும் விஷயத்தில் அரசாங்கமே அந்தக் காரியத்தையெடுத்துக்கொண்டு அதற்கு வேண்டிய ஆட்களையும், சாமான்களையும் கொடுத்துவேலை செய்தால், வெகு சீக்கிரத்திலே கிணறு களை வெட்டி பயிரை உற்பத்தி செய்துவிடலாம். நான்கு மாதத்திற்குள் லாகவே மகசூலை அறுத்துக்கொண்டுவந்து விடலாமென்று நான் யோசனை சொல்லுகிறேன்.

“வைத்திய இலாக்காவைப்பற்றி ஒரு வார்த்தை சொல்ல விரும்புகிறேன். என்னுடைய ஜில்லாவில் திருவண்ணாமலையிலேயும், வந்தவாசி, செய்யார் முதலிய ரயில் வசதியில்லாத இடங்களிலே எல்லாம் ஜனங்கள் வைத்திய வசதியில்லாமல் நிரம்ப கஷ்டப்படுகிறார்கள். அங்குள்ள ஆஸ்பத்திரிகளெல்லாம் நிரம்ப மோசமாகவிருக்கின்றன. அந்த ஆஸ்பத்திரிகளிலே பிரசவத்திற்கு வந்தால், இடங்கிடையாது. இந்த ஆஸ்பத்திரிகளின் நிலைமையைப்பற்றி உதாரணமாக ஒரு விஷயத்தைச் சொல்ல விரும்புகிறேன். என்னவென்றால் சில வருஷங்களுக்கு முன்பு செங்கத்திலே ஒரு ஹரிஜனபெண் பிரசவத்திற்காக ஆஸ்பத்திரிக்கு வந்தாள். அவள் ஆஸ்பத்திரியிலே பிரசவிக்க முடியாமல் அதிகம் கஷ்டப்பட்டாள். கடைசியில் குழந்தையைக் கை மாதிரம் வெளியிலே வந்தாள். அந்த டாக்டர் கையை வெட்டியெடுத்துவிட்டார். ஆனால் இறந்த குழந்தையை வெட்டியெடுக்க அந்த டாக்டருக்கு சக்தியில்லாமற் போய்விட்டது. அவர் முடியாதென்று சொல்லி விட்டார். இதைப்பார்த்து ஜனங்கள் கூக்குரலிட்டுக் கொண்டிருந்தார்கள். டேனிஷ் மீஷனைச் சேர்ந்த ஒரு அம்மான், இதைக் கேட்டு தன்னுடைய காரிலே ஏற்றிக்கொண்டு அந்தப் பெண்ணை திருவண்ணாமலை ஆஸ்பத்திரிக்கும் கொண்டுவந்தார்கள். அங்கே, ஒரு நாள் இருந்து அந்தப் பெண் செத்துப் போனாள். ஆஸ்பத்திரிகளின் நிலைமையைப்பற்றி மற்றொரு விஷயத்தையும் உங்களுக்குச் சொல்ல விரும்புகிறேன். சுமார் 4, 5 மாதங்களுக்கு முன்பு திருவண்ணாமலை ஆஸ்பத்திரியில் ஒரு பிரசவம் நடந்தது. ராத்திரி சுமார் இரண்டு மணிக்கு ஒரு பெண் பிரசவித்தாள். அந்தச் சமயத்தில் மருத்துவச்சி அங்கேயில்லை. பிரசவித்ததும் அந்தப் பெண் மயக்கமாயிருக்கும்போது, ஒரு நாய் வந்து அவளுடைய குழந்தையைத் தூக்கிக்கொண்டுபோய்விட்டது. இந்தச் சபையிலே இதைச் சொல்ல எனக்கு எவ்வளவு மனக்கொதிப்பு இருக்குமென்று நீங்கள் நினைக்கவேண்டும். சென்ற அடவைசர் அரசாங்கத்திலே ஆஸ்பத்திரியிலே ஒரு பெண் பிரசவித்த குழந்தையை ஒரு நாய் கொண்டு போய் விட்டது. காங்கிரஸ் அரசாங்கம் வந்துங்கூட ஆஸ்பத்திரிகள் அதே நிலைமையில் இருந்துகொண்டிருக்கக்கூடாது. என்னுடைய மருமகளை சம்பத்தில் பிரசவத்திற்காக அதே ஆஸ்பத்திரிக்குக் கொண்டுபோனேன். முன்பு இருந்த நாய் இருக்கிறதா இல்லையா என்று இங்கிருந்த டாக்டரைக் கேட்டேன். அந்த டாக்டர் இப்போதில்லை. நான் வேறொருவனுக்கு அவர் சொன்னார். அந்தக் குழந்தையை நாய் கொண்டுபோனாலே அங்கேயிருந்த டாக்டர்கள் என்னென்னமொ செய்து அந்த விஷயத்தை ‘ஸ்வாஹா’ செய்து விட்டார்கள். அந்தப் பெண்ணுக்கு ஏதோ கொஞ்சம் பணத்தைக் கொடுத்து அரசாங்கம் வரையில் அது எட்டாதபடி செய்து விட்டார்கள். இதையெல்லாம் ஏன் சொல்லுகிறேனென்றால், ஆஸ்பத்திரிகளிலே பிரசவிப்பதற்குப் பெண்கள் வந்தால் அவர்களுக்கு தகுந்த

[Sri N. Annamalai Pillai] [3rd August 1946]

வைத்திய வசதிகளை ஏற்படுத்தவேண்டும். இப்போது வைத்திய இலாக்கா மந்திரியாக இருப்பவர்கள் பெண்பாலாக விருப்பதால், அந்த அம்மாளுக்கு இந்த விஷயத்திலே நிரம்ப அக்கரை இருக்குமென்று நான் நம்புகிறேன். பிரசவ கஷ்டம் என்னவென்பது அவர்களுக்குத்தெரியும். என் போல ஆண்களுக்கு அதைப்பற்றி தெரியாது. ஆகவே மந்திரியவர்கள் இதற்கான காரியங்களைச் செய்வார்களென்று நம்புகிறேன்.

“அடுத்தபடியாக இன்று போலீஸ் இலாக்கா எப்படியிருக்கிறதென்றால் அவர்கள் ஜனங்களுடைய ஊழியர்களென்பதை மறந்திருக்கிறார்கள். இவர்கள் ஜனங்களுடைய காவலாட்களென்பதை மறந்து, பெரிய மனிதர்களையும் மிரட்டிவருகிறார்கள். போலீஸ் டிரெயினிங் ஸ்கூலிலே “நீங்கள் ஜனங்களுடைய ஊழியர்கள்; அவர்களைக் காப்பற்றுவதற்காக உங்களை வைத்திருக்கிறோம்; திருடன், கொலைபாதகன் இவர்களையடக்க உங்களுக்கு பாதியைதயிருக்கிறதே யொழிய நல்லவர்களையடக்க உங்களுக்கு அதிகாரமில்லை” என்பதை போலீஸ் பள்ளிக்கூடத்திலேயே அவர்கள் உணரும்படி செய்யவேண்டுமென்று நான் கேட்டுக்கொள்ளுகிறேன். மற்றும் ஒரு விஷயத்தைச் சொல்லிக்கொள்ள விரும்புகிறேன். ஆகஸ்ட் கலவரத்தின்போது அரசாங்கமும், போலீசாரும், இன்னும் மற்றவர்களும் அநேகநேரமான அரிதும் செய்திருக்கிறார்கள். உதாரணமாக திருவாளர், பூலாங்குரிச்சி, ஆறுமுகநேரி, தென்னாவி முதலிய இடங்களிலே போலீஸார் செய்த அட்டோழியங்களைச் சொல்லமுடியாது. இந்த இடங்களிலேயெல்லாம் என்ன நடந்தது என்பதையாகிலும் தெரிந்துகொள்வதற்காக ஒரு கமிட்டியை நியமிக்கவேண்டியது ரொம்ப அவசியமென்று நான் பிரதம மந்திரியவர்களுக்கு தெரிவித்துக்கொள்ளவிரும்புகிறேன்.

“இப்போது எங்கே பார்த்தாலும் தொழிலாளர்களுடைய வேலை நிறுத்தம் தாண்டவமாடிவருகிறது. வேலைநிறுத்தம் எங்கேயாவது ஏற்பட்டால், தொழிலாளர்களைக் கூப்பிட்டு அந்த வேலைநிறுத்தத்தை மந்திரி சபை உடனே தீர்க்கவேண்டும். தாமதித்தால் மக்கள் பசியால் மாண்டு விடுவார்கள். இந்த மாதிரி கஷ்டங்களைத் தவிர்க்கவேண்டுமென்று மந்திரி சபையை நான் கேட்டுக்கொள்ளுகிறேன்.

“மற்றும் உபாத்தியாயர்கள் பட்டம் கஷ்டத்தைப்பற்றிச் சொல்ல முடியாது. ‘Fowler’ அவர்கள் இதைப்பற்றி நிரம்ப விரிவாகச் சொல்லியுள்ளார். ஒரே பாகைவில் தேறிய உபாத்தியாயர்களுக்கு எயிடெட் ஸ்கூல்களிலே ஒருவித சம்பளம், பஞ்சாயத் ஸ்கூல்களிலே ஒருவித சம்பளம், முனிசிபல் ஸ்கூல்களிலே ஒருவித சம்பளம், டிஸ்ட்ரிக்ட் போர்ட் ஸ்கூல்களிலே ஒருவித சம்பளம், இப்படி 5, 6 ரகமாக சம்பளம் கொடுக்கப்படுகிறது. எல்லோரும் ஒரே ஹைர் கிரேட் சர்ட்டிபிகேட்டான் பெற்றிருக்கிறார்கள். எந்த பள்ளிக்கூடத்திலே வேலை செய்தாலென்ன, எல்லோருக்கும் ஒரே திட்டமான சம்பளத்தை என் கொடுக்கக்கூடாது? காங்கிரஸ் சர்க்கார் இந்தக் குறைகளையெல்லாம் நிவர்த்தி செய்யவேண்டும். உபாத்தியாயர்களுக்கு குறைந்தபட்ச ரூமப் வாழ்க்கையை நடத்துவதற்கு மாதம் ரூபாய் 30 சம்பளம் நிர்ணயம் செய்யப்பட்டால் நலமாயிருக்கும். தேவஸ்தான பணத்தையெடுத்துப் படிப்புக்கு உபயோகப்படுத்தலாமென்று வரவு செலவு திட்டத்திலே சொல்லப்படுகிறது. இவ்விதம் எடுக்கப்படும் பணமானது எந்தக் கோயில் அல்லது தர்ம பரிபாலத்தைச் சேர்ந்ததோ அந்தக் கோயிலுள்ள ஊரின் கல்வி அல்லது அந்த ஜில்லா கல்வி அபிவிருத்திக்காகவே செலவழிக்கப்படவேண்டுமென்று நான் கேட்டுக்கொள்கிறேன்.

“அடுத்ததாக, கிராம பஞ்சாயத்துக்களிலேயும், முனிசிபாலிட்டிகளிலும் நிர்வாகத்தை நடத்தக் கமிஷனர்களைப் போட்டிருக்கிறார்கள். அதே மாதிரி ஜில்லா போர்டுகளுக்கும் எக்ஸிக்யூடிவ் ஆபீசர்களை நியமிக்கவேண்டும். பஞ்சாயத்துக்களிலே மைனர் பஞ்சாயத்தாக விருந்தாலும், அவைகளுக்கு ஒரு மணியக்காரன் ரேட்டிலேயாவது ஒரு எக்ஸிக்யூடிவ் ஆபீசரைப் போடவேண்டும். பஞ்சாயத்து பிரசிடெண்டாக யார் வந்தாலும், வரட்டும், ஆனால் அங்கே ஒரு படித்த நபரை நிர்வாகஸ்தராகப் போட்டால், அங்கே வேலை நன்றாக நடக்குமென்று நான் நம்புகிறேன்.

“ஹரிஜன முன்னேற்ற விஷயமாக அவர்களுக்கு ஆலயங்களைத் திறந்து விட்டால், போதுமானது. பிறகு எல்லாச் சௌகரியங்களும் அவர்களுக்குத்தானாகக் கிடைத்துவிடும். பொருளாதார துறையில் அவர்கள் பிறகு

[Sri N. Annamalai Pillai] [3rd August 1946]

முன்னேற்றமடைந்து விடுவார்கள். இந்தக் கோயில்களை ஹரிஜனங்களுக்குத் திறந்துவைக்கும் விஷயத்தில் பிரதம மந்திரியார் நிரம்ப தைரியமாக நடந்துகொண்டால், அவர் மூலம் ராமாணுவஜனப்போலக் கீர்த்தி வாழ்ந்தவராக விளங்குவாரென்று நான் நம்புகிறேன்.

“மோட்டார் பஸ் லைசென்ஸ் விஷயமாக, இன்று 20 மோட்டார் பஸ்களை வைத்துக்கொண்டிருக்கிறவர்களுக்குத்தான் சர்க்காரில் லைசென்ஸ் கொடுக்கப்படுகிறது. இதனால், லைசென்ஸ் பெற்றவர்கள் 20 பஸ்களை ஒட்டுவதற்குப் பதிலாக 10, 12 பஸ்களைத்தான் ஒட்டுகிறார்கள். அந்த 10 பஸ்களிலே 20 பஸ்களிலே ஏறவேண்டிய ஜனங்களை ஆடுமாடுகளைப் போல அடைத்துவிடுகிறார்கள். அதே பஸ்களிலே டெப்டி கலெக்டர், டெப்டி சூபிரெண்டென்ட், போலீஸ் இன்ஸ்பெக்டர் எல்லோரும் போகிறார்கள். இந்த மாதிரி திக்கற்ற நிலைமை எப்போதும் இருந்தது கிடையாது. ஆகவே, 20 பஸ்களுள்ள கம்பெனிக்கு லைசென்ஸ் கொடுப்பதென்றிருப்பதை மாற்றி 5 பஸ்களைக்கொண்ட கம்பெனிக்கும் லைசென்ஸ் கொடுப்பதென்றிருந்தால் பஸ்களில் ஜனங்களுக்கு தாராளமாக இடம் கிடைக்கும் இத்துடன் நான் முடித்துக்கொள்ளுகிறேன்.”

MR. W. J. FERNANDEZ:—“Mr. Speaker, I rise to join in the chorus of praise that has been lavished on our Prime Minister on his presenting a Budget which to all intents and purposes meets with the general approval of this House. I desire also to express a few thoughts which occur to me on two questions, namely, the Educational policy of the Government and the introduction of Prohibition. The Hon. Minister for Education, apparently with the intention of translating his ideologies into swift action, has promulgated at very short notice an order directing the stoppage of the teaching of English in the first four classes of Elementary Schools, and the substitution instead of instruction in the regional language at considerable inconvenience to the heads of schools who have suddenly been called upon to make the necessary adjustments to meet the new situation, and also at considerable inconvenience to the pupils concerned. In addition he has directed that English shall not be taught in the fifth class from this year onwards and in the sixth class from the next year. Consider what the effect of this will be on the students who will have only three or four years' preparation in English for the S.S.L.C. examination.”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—“May I correct the hon. Member. English is abolished only in the fourth and fifth classes. It is taught from the First Form upwards and there will be six years for preparing for the S.S.L.C.”

MR. W. J. FERNANDEZ:—“Even after 8 years' preparation the standard of English in the School Final is generally poor; so after only six years the standard will certainly be much poorer. And students contemplating University education will still further be handicapped in working up to the standard required by the University. Without intending to wound the feelings of any one in this House I may say, Sir, that we ought not to allow a deep hatred of British Imperialism to narrow our outlook to the extent of attempting to eradicate the English language.”

“Adverting to the question of instruction through the regional language I think it is not without good reason that several of my

[3rd August 1946] [Mr. W. J. Fernandez]

hon. Friends of the Muslim group have expressed grave concern, a concern which is shared by other minority communities. Consider the plight of officials and non-officials holding appointments in which they are liable to be transferred from one district to another. Take the case of a parent in Tanjore with his children at school being taught in Tamil who is transferred overnight to Malabar. What happens? If there is a school imparting instruction through Tamil, all right, if not the pupil has to learn Malayalam and until he learns Malayalam his educational progress is retarded. That apart, it seems to me that in principle it constitutes an infringement of the inherent right of every individual citizen to have his own culture and religion respected by members of the other communities. It is not playing the game to ram down the throats of unwilling people an ideology simply because one happens to have a majority and can easily have it all his own way. The Ministry is responsible not merely to its Party but to the entire people of this Province. As such important matters should be considered with an unbiased mind and action taken so that the interests of the people will not be adversely affected. To this end the Ministry should give due weight and consideration to the views of the people expressed on the floor of this House by their elected representatives. I am glad that the Hon. the Minister for Education is issuing a questionnaire which seems to be a step in the right direction as he now makes us feel that he is going to take the public into his confidence. It will certainly be to the benefit of all concerned if he does so.

“I come now to that vexed question the introduction of Prohibition. Allow me to assure you that I am neither a protagonist of drink nor do I hold a brief for any vested interests when I talk on the subject. I hold a view which may surprise this House, but I express it because I always express what I feel irrespective of what others think. I am one with the whole House in appreciating the steps taken to relieve the unfortunate lot of millions of poor people who are addicted to this evil as a result of which endless misery is brought on their families. I notice in the Budget that nearly 13 crores of rupees are realized by the sale of country spirit and fermented liquor to these poor unfortunates. But what I feel, Sir, is this. If millions misuse drink, why should you curtail the individual liberty of people who use drink within reasonable limits. We should be allowed to do as we like, and our liberty should not be restrained. When we go wrong, there will be time enough to correct us. I know it is useless to say all this now. But anyway, I express the views which I hold on the matter.”

“I congratulate our Prime Minister on the wisdom of his decision to introduce Prohibition by stages. Many hon. Members have plumped for total Prohibition. The protagonists of total Prohibition have all harped on one point, namely, the legacy left by the Advisers' regime which can be used to make good the loss of Excise revenue. But there are other weighty considerations which must be taken into account before taking a leap in the dark by introducing total Prohibition.

[Mr. W. J. Fernandez] [3rd August 1946]

"Now, Sir, I remember to have seen in the 'Mail' that the result of introduction of Prohibition in the four districts in question will be to throw 125,000 labourers out of employment. Consider what that figure will be if total Prohibition were introduced in the whole Province at once. What are you going to do with this large mass of unemployed people seething with discontent? If Government want to make Prohibition a success they cannot but proceed by stages. They must watch carefully the results in the districts where it is introduced. If the Ministry, on the other hand, listens to the pleadings of some Members of its Party and introduce total Prohibition at once it will prove a thorough failure. The protagonists of total Prohibition will themselves be the first to criticize the Ministry for making a failure of total Prohibition. With these words, I thank you, Mr. Speaker, for giving me an opportunity to speak."

*HAJI K. M. AHMAD KUTTI SAHIB BAHADUR:—"Mr. Speaker, as the hon. Members who have spoken before me have dealt with the various issues arising out of the Budget, I like to deal with only one aspect of the matter which has struck me.

"A sum of one crore of rupees has been set apart for Harijan uplift. That is well and good. But I ask, does not the Government have an equally great duty in helping other backward sections of the community who are equally in need of help and encouragement? It is a well known and well established fact that Muslims, especially Moplahs are backward educationally. Is it not an elementary principle of good Government that such a community should be given every encouragement and brought up to the level of the sister communities? The present Government are boasting of the national character of their Party. Then should there not be a generous grant set apart for the uplift of all backward communities including the Muslims? Let the Government understand that they will be judged by their deeds and not by empty talks of unity and brotherhood. I am very sorry to say that the Budget has not made any special provision for Moplah education at all. I draw the attention of the Hon. the Premier to the fact that Moplah women's education deserves special help and consideration of the Government. The Muslim Girls' High School at Tirur is the only institution of its kind in Malabar and it is our fond hope that it should be raised to the status of a College without any further delay as also the Muslim Boys' High School at Malappuram. Surely Moplahs can demand with every right two colleges of their own, to which I hope the Hon. the Premier will give due consideration.

"Mr. Speaker, I wish to record my strong protest at the stepmotherly treatment that Malabar is receiving. While Andhra Desa and Tamilnad have taken the lion's share of the budget grants, Malabar seems to be only contributing to the revenues. I wish the Hon. the Premier will consider this aspect of the question and see that Malabar gets its legitimate share of the benefits. It is high time that Malabar had two more first grade colleges

[3rd August 1946] [Haji K. M. Ahmad Kutti Sahib Bahadur]

and one Engineering College and one Medical College for itself. Is this too much to ask, considering what the other parts of the Province are getting?

"I request the Hon. the Premier to give his special attention to Malabar and especially to the Moplahs, so that they may also be encouraged. I hope he will."

*SRI B. VENKATANARAYANA REDDI:—"అధ్యక్షా! మద్యపాన నిషేధ విషయంలో చాలామంది సభ్యులు రాష్ట్రమంతటా మద్యపాన నిషేధము అమలమని మనవిచేస్తూవున్నారు. వారిలో నేనుకూడా ఒకరిని విజ్ఞప్తి చేస్తూవున్నాను. అయితే, మా ఆందోళనకు ప్రధాన మంత్రిగారు కూడా యీ రాష్ట్రములో మద్యపానం సంపూర్ణముగా నిషేధించబోవలసివచ్చును అని పరిశీలించడం వలన మనస్సులో పరితాపపడతూ వుంటారని అనుకొంటున్నాను. అయితే, కార్యచరణలోవున్నట్టి సాధక బాధకాలు వారు నిర్ణయించుకొని, వారి ధైర్యశక్తిగలవారు ప్రయోగించుకొని, యీ కార్యమును నెరవేర్చి, ప్రజలయొక్క ఆహ్లాదమును బడయవలసినదిగా నేను కోరుతున్నాను.

"రాష్ట్రమును ఆవరించివున్నట్టి ఆహారసమస్య విషయములో ఒక్క విషయము మాత్రము మనవిచేయడము నా ధర్మమని భావిస్తున్నాను. రాష్ట్రములో చాలా నదులలో ప్రవహించుచున్నట్టి నీరు, బావులలోవున్నట్టి నీరు వున్నది. వ్యవసాయానికి ఇది అన్నికూడా సవ్యముగా ప్రయోగపెట్టి, వ్యవసాయమును అభివృద్ధిచేయవలసినదిగా కోరుచున్నాను. ఈ విషయములో చాలా అవకాశాలువున్నాయి. తుంగభద్రా ప్రాజెక్టు మొదలైన పెద్ద పెద్ద ప్రాజెక్టులతో సంతృప్తి పడకూడదు. చిన్న నీటి సౌకర్యములుకూడా కలగజేయవలయును. దీనికొరకై చిన్న చిన్న నదులనుకూడా ప్రయోగించుకొనవలెను. వాటికి సరిఅయిన మరమ్మత్తు చేయించవలెను. ఇప్పటికంటే కూడా యింకా చాలా అవకాశములు పండించడానికి అవకాశము ఏర్పడుతుంది. ఆప్పుడు ఆహార సమస్యపరిష్కారానికి తగినదోహదము కల్పించినవారము అగుదుము. వైస, రైతులుకూడా కాగుపడుతారు. ఈ విషయములో ముఖ్యముగా మన రాష్ట్రములోవున్న జలాశయాలు అభివృద్ధిపరచవలెను. ఇటీవలకూడా ఆహారసమస్య విషయములో మంత్రిగారు సెలవిచ్చివున్నారు. మన రాష్ట్రములో జమీందారీ విరియో మూడవవంతుకన్నా జాస్తిగావున్నది. చెరువులు, జలాశయాలు అన్నీకూడా చెడి విండ్ల తరబడిగా ఏ మాత్రము నేద్యము చేయడానికి ఉపయోగపడడములేదు. రాను రాను, యివిఅన్నీ చాలాఅందర అవుతున్నవి. ఇప్పుడేకాదు, అడ్వైసరీస్ (Advisers) కాలములోకూడా దీనిని గమనించే, 1943 వ సంవత్సరములో ఇరిగేషన్ ఆక్టు (Irrigation Act) సవరణచేసి జమీందారీలలోని జలాశయములు ప్రభుత్వం రివేరు చేయులాగున చేసినారు. కాని, చట్టము చేయడమేగాని, దీనిని అమలుమాత్రము జరుపలేదు. ఇప్పుడు, యీ అవకాశాలలో ఒకతట్టు అన్నములేకుండా రాష్ట్రములో అంతా బాధపడుతున్నట్లే, కేవలము డబ్బు ఖర్చుపెట్టి, యీ అవకాశాలు కల్పించితే, కావలసిన ఆహారాన్ని పుష్కలీచేయడానికి అవకాశమువుంటుంది. ఈ విషయములో ప్రభుత్వమువారు చాలా శ్రద్ధవహించవలసిన నేను మనవిచేస్తూవున్నాను. ఈ వ్యవహారమును చాలాకచ్చితముగా సాగించవలెను. ప్రతి జిల్లాలో ఒక్కొక్క కమిటీ (Committee)ని ఏర్పరచవలెను. అధికారులు, అసభికారులు, ప్రభుత్వము కలసి పని చేయవలయును. ఇప్పుడే దీనికి తగిన సన్నాహాలుచేసి రాష్ట్రములోని జమీను ప్రాంతాల జలాశయములను కాగుచేయడము అవసరము.

"తరువాత ప్రత్యేకముగా యీ బడ్జెటులో హరిజనుల అభివృద్ధికి కోటి రూపాయలు యివ్వడము, మూడుకోట్ల రూపాయలు గ్రామ పునర్నిర్మాణమునకు యివ్వడము,

[Sri B. Venkatanarayana Reddi] [3rd August 1946]

యీ ప్రభుత్వానికి హరిజనులపట్ల, గ్రామ పునర్నిర్మాణముపట్ల చాల శ్రద్ధభక్తియుల విరచితుంది. అయితే గ్రామ పునర్నిర్మాణమువిషయములో నేనుకూడా రెండు విషయాలు చెప్పతాను. ఏదో ఒక్క ఫిర్కా నిర్ణయముచేయడంకంటే ప్రతి ఫిర్కా (firka) లోను, ప్రతి గ్రామములోనుకూడ గ్రామ కమిటీలు ఆభివృద్ధిచేయవలయును. వెనుక కాంగ్రెసు మంత్రివర్గములో ప్రధానమంత్రిగారు యీవిషయమై ఒక బిల్లును తయారుచేసినట్లు విన్నాను. ఇప్పుడు గ్రామములలో సంపూర్ణమైన ఆధికారము తమ వ్యవహారాలు చూచుకొనేదానికి గ్రామస్థులకు ఆధికారముయిచ్చి, సంపూర్ణముగా రాష్ట్రమంతటికీకూడ గ్రామ పునర్నిర్మాణ పథకము తయారుచేసి, అందులో కొంత భాగము పంచాయతీలు భరించేట్లు, కొంతభాగము రాష్ట్రప్రభుత్వము భరించేట్లు నిర్ణయించలే వాగుంటుంది. ఈవిధముగా గ్రామ పునర్నిర్మాణ కార్యక్రమానికి పూనుకొనేవారికి ఆవకాశములు కలుగజేయవలయును. ఈవిధముగా పథకము తయారుచేయవలసినట్లే చాలా హెచ్చు డబ్బు కావలసివస్తుంది. నేను సూచించిన విషయమును ప్రధానమంత్రిగారు గమనించవలసిన మనవిచేస్తూవున్నాను.

“మన రాష్ట్రములోపున్న జమీందారీల విషయము యింక చెప్ప నవసరంలేదు ! ఆక్రండి ప్రజలు పడుతూవున్న బాధలు, అనుభవించుచున్న కష్టములు, చెప్ప నలవి కాదు. ఈ విషయంలో ప్రధాన మంత్రిగారుకూడ వెనుక ఒక కమిటీలోవుండి బ్రహ్మాండమైన రిపోర్టును తయారుచేసినారు. కాని, ముఖ్యముగా కాంగ్రెసు పరిపాలనలోకూడా, కాంగ్రెసు మంత్రివర్గము పున్నరోజులలోకూడా జమీందారులు రైతులను బాధించుతూ వున్నారు. వంటచెరుకులు లేకుండా రైతులు అడవులకు వెళ్లి కట్టెలు తెచ్చుకుంటే క్రిమినలు కేసులు పెట్టుతూవున్నారు. వెంకటగిరిలో ముఖ్యముగా యీ కేసులు చాలా జాస్తిగా వున్నాయి. ఎండిన వైల్లకు శిస్తులు కట్టడని బలవంతపరుచుచున్నారు హరిజనులను. సి.టి. ఆక్టు (C.T. Act) లో మొగవాల్సని, అడవాల్సని చేర్చడము, అడవాల్సనికూడా పోలీసుస్టేషనులలో రాత్రి రిపోర్టుచేసికొమ్మనడము జరుగుతూవుంది. ఇట్టి అక్రమాలు జరుగకుండా కాంగ్రెసు ప్రభుత్వము చూడవలసిన మనవిచేసికొనుచున్నాను. తక్షణమే జమీందారీలను తొలగించి వీరివలన ప్రజలకు బాధలులేకుండా చేయ ప్రార్థించుచున్నాను.

“వాళ్లు త్రవ్వించుటకు రాయలసీమలో చాల కఠినమైన బండలు వున్నాయని, యిబ్బందులు వున్నాయని గవర్నమెంటు గ్రాంటును 5 వందల రూపాయలకు పెంచినారు. నెల్లూరుజిల్లాలోని మెట్ట తాలూకాలకుకూడ రాయలసీమకు నిర్ణయించిన మొత్తమును యివ్వవలయునని నేను కోరుచున్నాను. జమీందారీలలో రైతుల ఆస్తు దరఖాస్తుల విషయంలో చాలా అన్యాయాలు జరుగుతూవున్నాయి. లోను ఆప్లికేషనులు (Loan applications) సరిగ్గా మంజూరుచేయడంలేదు. వెంటనే అట్టివి మంజూరుజేయవలయు చూడవలసిన ప్రార్థిస్తూవున్నాను.

“ఇక ధాన్యమువిషయములో ప్రభుత్వమువారు యిటీవల బోసనులు (Conus) యిచ్చినారు. దీనివలన ఫలితముకూడా కలిగింది అని అనుకొంటూవున్నాను. కాని దీని బట్టి యింకముందుకూడా అడగగానే రైతులు ధాన్యమును యివ్వకుండావుంటారా అనికూడా సందేహించవలసివస్తుంది. లోకములో ప్రజలు తిండిలేక బాధపడుతూ వున్నారను పాపభీతిచేగాని అధికారుల జులంకు భయపడిగాని అడుగగానే ధాన్యము ముందుగాయిచ్చిన రైతులకుకూడా కొంత మొత్తం బోసను యిప్పించడము అవసరము. ఇట్లు యివ్వడమువలన ముందుముందు ధాన్యము నేకరించుటకుకూడా చాలా అనుకూలముగా నుండగలదు.

[3rd August 1946] [Sri B. Venkatanarayana Reddi]

“మధ్యపానవిషయము విషయంలో కాంగ్రెసు వెనుక 1921 లో యీ రాష్ట్రములో సాగించ ఉద్యమములో నెల్లూరుజిల్లా సాటిలేని మేటిజిల్లా యని కీర్తివహించినది. వెనుక కాంగ్రెసు ప్రభుత్వమే మొట్టమొదట యీ ఆవకాశము నెల్లూరు జిల్లాకు యిచ్చివుండవలసినది. కాబట్టి యిప్పుడుఅయినా మొట్టమొదట యీ ఆవకాశమును చూ జిల్లాకుకూడా యిప్పించవలసిన కోరుచున్నాను.”

* MUHAMMAD HUSSAIN SAHIB BAHADUR:—“ Mr. Speaker, Sir, I have to first of all congratulate the Hon. the Premier on some of the bold schemes he has included in the Budget; but at the same time I must say I am sorry he has not gone far enough.

“I wish to point out that in giving preference to irrigation proposals and irrigation schemes rather than to highways, the Premier has exercised his discretion well. Of course, it is only by improving irrigational facilities that the production of food can be improved. Sir, it is not only by improving irrigational facilities, but by developing and carrying out irrigational schemes and irrigational proposals that we can solve this problem. Even before we can get water for us to control, we have to get rains and that requires re-forestation which will help us to get as much rain as we have been getting before. Now, owing to the system of coupes and of removing forest manure and of large quantities of timber from the forests, the forests have now become barren and that is mostly responsible for our getting less and less of rain. I have been told, Sir, that about sixty years before, a far-seeing Conservator of Forests made a report that if the present system continued for another seventy or eighty years then the districts of Tinnevely, Ramnad and Madura would become deserts. I now understand it is about fifty years from that time and already we are on the brink of the calamity and are not getting adequate rain. The symptoms are such that his anticipation will prove only too true. Before we are faced with such a calamity, I may suggest that the Ministry should take care sufficiently in advance to make the necessary arrangements for reforestation and avert this calamity. I may also mention here that even the present provision for irrigational facilities, so far as Tamil Nad is concerned, is not sufficient. I do not know, Sir, why most of the irrigation proposals and most of the projects should be devoted to the area north of the City and not either to the west or to the south of the City. Whatever it is, I wish the Ministry will not lose time in making necessary arrangements for investigating in the Tamil Nad as well as in Kerala as to what proposals can be carried out in order to improve irrigational facilities, so that the production of foodgrains may be advanced by leaps and bounds. So far as Tinnevely district is concerned, the Papanasam project does not seem to produce sufficient electricity to be distributed to the outlying villages wherein the ryots and the farmers are badly in need of raising water from their wells. Now-a-days, Sir, bulls are not available in sufficient numbers to the farmers for drawing water from wells for irrigating their fields, and even necessary implements are not available

[Muhammad Hussain Sahib Bahadur] [3rd August 1946]

for this purpose. Therefore, unless electricity is made available to the farmers even in the remotest villages to draw water from their wells to irrigate their fields and unless improved and advanced implements of agriculture are made available to the farmers, we cannot succeed to any great extent in improving or increasing the wealth of our country. I therefore wish to suggest that the Ministry should make provision for establishing factories and for establishing agencies, either to get or manufacture the necessary scientific implements for the peasants in large numbers and at sufficiently cheap prices which will make them afford to purchase them and use them for good. I also wish to point out, Sir, that more attention should be paid to the industrialisation of our country. It is only by industrialisation that agriculture also can be improved; it is only by the manufacture of scientifically rich manures and scientific implements that production of food grains and agriculture can be improved. Not only that; it is only by industrialisation that we can increase the production of cloth, the scarcity of which is now staring us in our face. It is only by industrialisation that we can produce adequate yarn, so that our handloom weavers can get sufficient yarn to keep them engaged throughout the thirty days of the month. Unless, therefore, you are going to make provision for such industrialisation in our province, I am afraid we will certainly be left behind by the other provinces to our disadvantage. Now, with the most advanced industrial country in the East, viz., Japan, defeated Japan will not be an adversely affecting factor in the field of industry and therefore we can now make a good start. Besides, the other foreign countries in the world are also now not in a sound condition and are in pell-mell as they are still making preparation to start and re-start. This is the time for us to start to be abreast of the times.

5 p.m. "Therefore, if necessary, sufficient provision may be made for the industrialisation of our Province. If we can make a very good start just at this time, it will certainly go a long way towards improving the prosperity of our Province.

"Next, Sir, I wish also to point out that vast areas in zamindaries are lying waste and the abolition of the zamindari system is an indispensable necessity for improving the production and for improving the wealth of our Province. While other Governments in other parts of the country are taking steps to abolish the zamindari system, I do not know why our Government has not made at least a beginning towards that end.

"Next, Sir, I wish to refer to one grievance of our community so far as the procurement of foodgrains and distribution are concerned and that is, in regard to the constitution of village committees. Sir, when the proposal was made on the floor of the House for the formation of village committees, it was declared by the Hon. the Prime Minister that no political considerations will prevail in the formation of those committees. I am glad to mention that the Government Order issued on this subject specifically mentions that only the real representatives of the people

[3rd August 1946] [Muhammad Hussain Sahib Bahadur]

should be appointed to those committees irrespective of their political affiliations but what is being done in practice is quite at variance with this declaration of the Hon. the Prime Minister and the direction contained in the Government Order. Very often authorities are influenced by Congress Party leaders who give consideration to their political affiliations. The Leaders of Congress Party frequently refer the matter of selection to the Ministers who pay visits to the districts once in alternate weeks, if not every week. I do not know what they say to the authorities, but I do know that they do not emphatically point out to the officer concerned that they should select men who are the real representatives of the people irrespective of their political affiliations and in pursuance of the Government Order. If they say so definitely and unequivocally, I do not think that any minority community will have any reason or any cause for grievance. I request the Hon. Minister to take some care towards remedying this grievance.

"Now, Sir, let me pass to the question of separation of Judiciary from the Executive. It is a long-felt measure. Even in 1937, the Congress Ministry which was then in office was promising to take some steps necessarily and urgently to separate the Judiciary from the Executive. Now, Sir, at the beginning of the formation of the present Ministry, we found that the Minister for Law was very anxious, very enthusiastic in bringing into effect the separation of the Judiciary from the Executive but as days pass on, we find some change in his attitude as well as in the attitude of the Ministry. I had occasion to hear him recently when he was making his reply to the address presented by the Tinnevely Bar Association. There, he made mention of the fact that the present magistrates were drawn from the omnipotent Secretariat of the Revenue Department and were taught law by the lawyers and that they have been well equipped for the responsible positions they occupy. If this change has come over, so soon, Sir, certainly we have reason to feel whether this measure of separation of the Judiciary from the Executive will in course of time be enforced at all. Sir, the only answer to the statement of the Hon. the Minister for Law, viz., that the present magistrates are well-equipped to discharge their functions, will be that whatever may be their equipment, whatever may be their aptitude, whatever may be the lessons that have been taught them by the lawyers, still I am sure they cannot equal a lawyer-magistrate of independent judiciary. In this connexion, I would like to quote a Tamil proverb, viz., "உயர உயர பரந்தாலும் ஊர்க்குருவி பருந்தாகுமா?" However much the magistrate might have been taught, however much he may be well-equipped, still he cannot be equal to a lawyer becoming a magistrate and discharging his functions as such. Therefore, Sir, I wish to draw the attention of the Hon. Minister for Law to pay serious consideration to this matter and I request him to remember that whatever was his feeling when he was in the Opposition, when he was out of the Government, the same feeling should continue to be with him so that others who are now in his former position may not suffer and feel frustrated as he and his colleagues were once suffering from. I, therefore,

[Muhammad Hussain Sahib Bahadur] [3rd August 1946]

request the Government that as this is a very important, immediate and urgently-needed measure, the Ministry should not carry it out in an half-hearted and halting manner.

"Next, Sir, I wish also to point out that by carrying out this separation of the Judiciary from the Executive, they will also be serving a great cause, viz., the cause of freedom. The magistracy of the day is the remnant of the bureaucracy which has once been lording over us. It is the last ditch of the foreign rule. If you separate the Judiciary from the Executive, you will be succeeding in doing away with one of the forces that has been keeping down the spirit of equality and the spirit of freedom among the people of our country. I, therefore, Sir, wish to point out to the Ministry that by separating the Judiciary from the Executive, the bahadurism of the magistrates will vanish and the inferiority-complex of the thousands of people of our land will also vanish. Equality will be established and the spirit of freedom will come to prevail. I, therefore, Sir, wish to point out that by separating the Judiciary, you will also be helping a most vital cause in which everyone of us is engaged, namely, the accomplishment of freedom.

"Next, Sir, I wish to point out that the budget lacks in not making provision for increase in the number of officers of the Judiciary in the regular judicial line. Now every presiding officer from the District Munsif onwards up to the High Court Judge is over-worked; besides, they are also asked to dispose of a number of cases in a month. The one factor which is engaging the all-absorbing attention of the presiding officer to-day is the disposal of cases. They are always after finishing a certain number of disposals. Disposing a number of cases is a nightmare to them and they do not pay adequate attention to dispensation of justice or the protection of rights and justice of the individual. Now, Sir, these presiding officers are responsible officers. They are very eminent men no doubt who could be trusted. When they have been chosen to occupy such eminent and responsible offices, why should not Government trust them to discharge their duties efficiently and why should they be asked to dispose of a number of cases within a fixed period with the result that they are always dreaming of the minimum number which they ought to dispose of. The present arrangement, Sir, does not take care of the quality turned out but it wants only quantity. By enforcing this evil rule one does not know what great injustice is being perpetrated to the people in spite of the heavy court-fees collected from the hard-earned monies of the poor people of our country. I, therefore, request the Ministry to make adequate provision for appointing many more officers—District Munsifs, District Judges and also High Court Judges—and to remove the target of disposals so that they may sit calmly and consider the cases in all their merits and dispose of them in order to meet out justice. (Mr. Speaker: 'You have already exceeded the time-limits'.) With regard to the disposal of cases, Sir, may I mention an instance which took place. But in view of the reminder of the Hon. the Speaker, I do not wish to refer to it at this stage.

[3rd August 1946] [Muhammad Hussain Sahib Bahadur]

"Let me now proceed to the question of education. So far as this is concerned, of course the Ministry has followed a very good principle but in carrying out that principle, due regard must have been paid to the spirit of the principle and not to the letter of the principle. You want to impart education in regional languages. What does it mean? It only means that you want to impart education to increase knowledge through the medium of the mother-tongue. Instead of forcing the students to improve their knowledge through the medium of a foreign language, through the medium of a language which is not their own mother-tongue, it is easy and it is better to impart education to improve knowledge through one's own mother-tongue. It is only by following this principle, I believe, the system of regional language will serve the purpose. If this is so, why should you grudge to give the Muslims or Hindus or Christians or whoever he may be, the facility of taking to his own mother-tongue although the particular group has some other language, a language which is other than the regional language and which you think to be the regional language of that particular locality. You only want to impart knowledge through the mother-tongue. If there is a sufficient number of students available, just to avoid practical difficulties, why not that group be given education through its own mother-tongue. I hope the Ministry will not grudge improving the knowledge of such of those people even though their mother-tongue is different from the regional language of that locality.

"Lastly, the salary paid to the Arabic and Sanskrit teachers, I understand, is very poor and it is only Rs. 6 per mensem (Mr. Speaker: 'Oh! Is it only six rupees?') and it will never be sufficient to make both ends meet. I think the Ministry should have made sufficient provision for improving the salary of those teachers who are following a very noble profession. Sir, with these words, I resume my seat."

SRI B. GOPAL REDDI:—"Mr. Speaker, Sir, I am very glad to see that the cause of Harijans is receiving considerable attention at the hands of the Government. Large sums have been allotted for their improvement. Educational concessions are given not only in the arts colleges but also in the professional colleges. I hope the Harijans will come forward to take their courses in higher learning. While I am on this subject, I would like to know what Government propose to do about the entry of Harijans into temples. This question has been pending for a long time and no orders have been issued by the Minister in charge. I know of a particular case in my own district where an application has been made to the Government two or three months ago and no answer has yet been received. (Mr. Speaker: 'Is it in Nellore?') Yes, Nellore.

"Again, I would like to press on the Government the urgent necessity for the revision of the communal Government Order because in 1929 when the communal Government Order was first issued, the Harijans got only one out of twelve places. Things have since improved and during this interval many more Harijan graduates have come out of the colleges and the time has come

[Sri B. Gopal Reddi] [3rd August 1946]

when Harijans must get more representation than the one place which he gets at present. I hope the Government will look into the matter sympathetically and add one more and make it two places for them.

"While things are going on well with the Harijans and backward communities, what is happening to the backward taluks in the districts? It was only the other day that the Hon. the Revenue Minister was touring in our districts and he felt aghast at the fact that taluk after taluk had no high school. I therefore, want the Hon. Minister for Education that he should come forward with a scheme to provide one high school for each taluk in this Province. While he is very busy with regional language and with elementary education, I wish particularly to request him to pay attention to secondary education also because without secondary education we cannot cope with the increasing number of elementary schools. So, Sir, the question of elementary education will necessarily bring in its train the question of secondary education and secondary education will take you on to collegiate or University education. So, I want the backward taluks also to be improved. I am particular, Sir, that more high schools have to be provided in the taluks in my own district. As a matter of fact, there are five taluks in my district which have only one high school among them.

"I am glad, Sir, that a Communications Department has been created but I expected that that department would be attached to the Local Administration Department. Instead of giving all the powers to the district boards, they will have to keep them on under Local Administration and continue to vest them in the district boards. I am very glad that the Minister in charge of Local Administration has assured the public that more and more powers are going to be given to the district boards, but I do not know what is the nature of the powers that he is going to confer on them. Roads are essential; rural communications are a vital necessity to the district boards. I hope the district boards will, therefore, continue to have them under their control. In regard to the way in which the Communications Department is being manned, I have to make one suggestion and that is, the District Board Engineers should have a place in this new department even though they have no such experience as the Public Works Department and Irrigation Department Engineers. But, however, in view of their knowledge of the respective districts, they must be given preference in this department and I hope the Hon. Minister for Public Works will pay due consideration to this suggestion.

"I also hear that there is going to be retrenchment in the Communications Department. But when that retrenchment actually takes place, I expect the Public Works Department Engineers to be reverted to their original department and District Board Engineers are given preference.

"Lastly, Sir, I do not want to take up much of the time of the House, but I am very glad to note that the Loyola College is being given two lakhs for its chemistry laboratory in the present

[3rd August 1946] [Sri B. Gopal Reddi]

budget. I do not grudge it. I know the Christian, the Pachaiyappas have also received grants from the previous Government. But what is to happen to the mufassal colleges. For some years past no mufassal college has received any grant from the Government either for buildings or for laboratory or library or for any other branch of expansion. (The Hon. Sri T. S. Avanashilingam Chettiyar: 'I may just tell you that the grant to Loyola was a previous commitment.') I thought I could congratulate the Hon. Minister for this grant but he wants to give the credit to the previous regime. That is an index of their present policy but I hope they will continue their present policy to mufassal colleges also. City colleges have received enough and more—Pachaiyappas, Christian, etc.—while the mufassal colleges have been starved. We all know, Sir, that at the time of admissions, there is a great clamour. I do not know what is being done by the Government. I know a questionnaire has been issued but questions and answers will not serve the purpose. But I want a small committee to go into the whole question in order to see how these students are going to be provided in the colleges. Again in the B.Sc. there is a bottleneck. More and more students are taking to science subjects nowadays but they are unable to get admission into the B.Sc. classes. In the Andhra University, only very few colleges are having B.Sc. courses and it is therefore very difficult for the Andhra students to get admission into the B.Sc. courses. I, therefore, request the Government to come forward with an official committee to go into the question of non-Government mufassal colleges—not Government colleges—to see that they receive fair treatment at the hands of the Government.

"Lastly, in the Andhra University area, the University alone provides Honours Courses, unlike the Madras University where any student can seek admission into Honours Courses in almost every college. According to the Andhra University Act, Honours Courses can be instituted only by the University. In 1930 or even earlier, they have provided laboratories for taking in only twelve students in Physics and twelve in Chemistry. Every year hundreds of students—first-class students—have been refused admission to this course because that is the only centre for all the districts in the Telugu area. I, therefore, request that at least this number is trebled so that 36 students for Physics and 36 students for Chemistry are provided in the Andhra University. Of course, you may turn round and say that you will find it difficult to meet your demand in the budget, but I am sure Government will come forward at an early date with some financial aid to the Andhra University also. I do not know what the Ministry is feeling about the reamalgamation of the five Telugu districts into the Andhra University. In 1934-35, five of the Telugu districts have been, to use the latest phraseology, 'opted out' of the Andhra University to join the Madras University. Now that things have changed and those districts are also prepared to come into the Andhra University. (An hon. Member. Is it so?). Yes. You may ascertain the views of the hon. Members hailing from Rayalaseema in respect of this matter and I am sure Government will come forward to take

[Sri S. Nagaraja Manigar] [3rd August 1946]

budget has been prepared and presented to the House. If I am permitted, Sir, I may say that this is the first budget of this Ministry since their assumption of office and secondly they had only a short time since their assumption of office within which they had to prepare the budget. Thirdly, it involved recasting and remodeling the budget which had been already drawn up by the previous Government, namely, the Adviser regime. Fourthly, the Ministry ever since it assumed office is being faced with very serious problems which no other Ministry had occasion to face. I mean the acute problem of food and cloth. Every member of the House will certainly agree with me that the attention of the Ministry has been drawn to it in a very large measure and still the future is threatening. Lastly and finally there were the side attractions of mandapam, chatram and street meetings of so-called prominent people carried on almost as a campaign just in the nature of Churchillian opposition to Attlee's Government. Therefore, Sir, we must certainly commend the budget when it has been prepared and placed before us under such circumstances. When I say that, it does not mean that it does not allow of any suggestions being incorporated in it with a view to modifying it on a small scale if found necessary. I, for my part, have got my own suggestions. In view of the desires expressed in every section of the House, I request the Hon. Premier to extend prohibition at least to four more districts, namely, Bellary, Anantapur, Trichinopoly and Coimbatore. I want low-paid officials to be paid more. At a time when the salaries of members of this House were being raised by legislation, it was said that there would be an uproar in the country. Really there was an uproar and there were many who really felt that our salary should not have been raised because it is a known fact to all of us that there are very many low-paid officials. I can make mention in this connection of the low rates of pay the teachers are receiving and I urge that their pay may be raised at the earliest possible moment. It would have been better had the announcement raising of their salaries been made side by side with the many ameliorative schemes mentioned in the budget. I desire that compulsory education should be introduced not in the course of ten years but in the course of five years. I want large sums of money to be set apart for Indian medicine. I want also more and more money to be set apart to eradicate leprosy from this country. I am sure that if my suggestions are worthwhile they would be considered by the Ministry. No doubt irrespective of my suggestions, I say that this is a poor man's budget and will be received in the country with feelings of joy. Outside the four corners of the House, where there may be a few opposers, I am sure people are following the proceedings of this House with immense feeling of gratitude at seeing the nature of the budget because it contains many important items of far-reaching developments. The Ministry has thought it their duty to re-introduce prohibition in four districts. They have thought it their duty to set apart vast sums of money for Harijan uplift; they have a scheme of rural reconstruction; they have got a self-sufficiency scheme for villages and they have a khadi scheme also. I would request the Hon. Premier to drop the term 'khadi.'

3rd August 1946] [Sri S. Nagaraja Manigar]

"In place of khadi I would like to have hand-spun and hand-woven cloth. There is nothing in the word khadi. For, what is aimed at is to make the village self-sufficient, to make the villager prepare his own cloth and not make him look for the incoming steamers for purchase of cloth. That is the aim of the Ministry in the khadi scheme. I do not think any hon. Member can take objection to it.

"Then, Sir, there is provision made in the budget for the improvement of a number of thermal schemes, whereby Government hope to get several electrical facilities, with the use of which they perhaps hope to industrialize the presidency. There are also side by side with that, a number of irrigation schemes. Finally, there is a statement about the establishment of an Industrial Finance Corporation. It will certainly go a long way to improve our finance. We all look, Sir, to its earliest functioning.

"In spite of all these improvements proposed if there is going to be a strong opposition to the budget, though not in this House, perhaps from outside; I am strongly of opinion that it may also be out of spite, envy, etc., for there are several advantageous things proposed in the budget, which the discontented few did not ever think of. For instance, there is the separation of the executive from the judiciary which is a supreme measure. And now, Sir, I would say a word to Mr. Ferrelly who said that prohibition is bound to fail. He quoted history two thousand years old, and challenged us to see what happened in America and China. I may say here, we certainly will succeed in prohibition. We are an exception in the whole world. In all other countries drink is a necessity. In our country, Mr. Ferrelly knows, a drunkard is looked upon very low in society; and so, drink will last there for ever, whereas here it can be easily wiped out.

"I am in agreement with Mr. K. Varadachariar when he said that if real Harijan uplift is to be carried on it is not by giving grants here and there. I want their dwellings to be demolished and they must be made to live side by side with the caste Hindu quarters. Finally, Sir, I wish to say that this is not the time to go into the details of the budget and criticise the Ministry. We have only to look at their aim. Their aim is noble; the details may be gone into later and corrected wherever necessary. With these words, Sir, I take this opportunity to congratulate the Ministry on their achievement."

SRI K. P. KAMAKSHI CHETTIYAR:—“கனம் அக்கிராசனரவர்களை, இன்று சமர்ப்பிக்கப்பட்டிருக்கும் வரவு செலவு திட்டத்தைப்பற்றிச் சில வார்த்தைகளைச் சொல்ல விரும்புகிறேன். ஹரிஜனங்களுக்கென்று ஒரு கோடி ரூபாய் ஒதுக்கப்பட்டிருப்பதைப்பற்றி பலர் இப்போது பேசினார்கள். ஆனால், அதே சமயத்தில் அவர்களை விட மிகவும் கேவலமான நிலைமையிலே லக்ஷக்கணக்கான ஜனங்களிருக்கிறார்கள். அநேக கிராமங்களில் எவ்விதமான வசதியுமின்றி, நாகரிக மக்களுடன் எவ்வித தொடர்புமில்லாமல் ஏராளமான ஏழை மக்கள் வசதித்து வருகிறார்கள். இன்று கோடைக்காலவிலிருந்து 50 மைல் சுற்றிலுமுள்ள கிராமங்களை நீங்கள் போய்ப் பார்த்தால், அந்த கிராம வாசிகளுடைய நிலைமை மிகவும் பரிதாபகரமாயிருக்கும். அந்த இடத்தில் எந்த விதமான ரோடும், பள்ளிக்கூடமும், மற்ற வசதிகளும் இல்லாமல் ஜனங்கள் கஷ்டப்பட்டு வருகிறார்கள். இப்படிப் பிற்போக்கான பிரதேசங்களிலே மிகவும் அநாகரிக

[Sri K. P. Kamakshi Chettiyar] [3rd August 1946]

மான வாழ்க்கையை அனுபவித்துக் கொண்டு, பிற ஜனங்களின் தொடர்பின்றி வசிக்கும் ஏழை ஜனங்களின் நிலைமையை உயர்த்துவதற்காகப் பல திட்டங்களை மந்திரி சபை கொண்டுவரவேண்டுமென்று நான் விரும்புகிறேன். இன்னும் ஒரு வருஷத்திற்குள்ளாகவாவது இந்த மலை ஜாதியாரின் நன்மைக்காக ஆங்காங்கு பள்ளிக்கூடங்களையும், ஆஸ்பத்திரிகளையும், மற்ற வசதிகளையும் இந்த மந்திரி சபை செய்து கொடுக்கவேண்டுமென்று நான் கேட்டுக்கொள்கிறேன். இந்த அந்நிய அரசாங்கம் ஏற்பட்டு 200 வருஷங்களாகியும் எந்த விதமான வசதியும் நமக்கு ஏற்படவில்லை. பெரிய அரசாங்க அதிகாரிகள் இந்தக் கிராமங்களுக்கு வருவதில்லை. ரோட் வசதியில் லாமல் 25, 30 மைல் நடந்துபோக வேண்டியிருப்பதால், பொது ஜன ஊழியம் செய்யும் நம்மைப் போன்றவர்களும், அந்த கிராமங்களுக்குப் போக முடிவதில்லை.

“அடுத்தபடியாக, உணவுப் பிரச்சினையைப்பற்றி இரண்டொரு வார்த்தைகளைச் சொல்ல விரும்புகிறேன். இப்போது தேசத்தில் பஞ்சம் வரப் போவதாக அறிக்கை விடப்பட்டிருக்கிறது. இருந்தாலும் பல தனவந்தர்கள் தங்களிடம் தானியங்களை வைத்துக்கொண்டிருக்கிறார்கள். இந்த நெல் மூட்டைகளை அவர்களிடமிருந்து கைப்பற்றுவதில் பல சட்டங்கள் குறுக்கிடுவதாகவும், பல இடைஞ்சல் இருப்பதாகவும் சொல்லப்படுகிறது. விடுகளிலே அடுக்கிவைக்கப்பட்டிருக்கும் நெல் மூட்டைகளை கைப்பற்ற கடுமையான சட்டங்களை நாம் நிச்சயமாக இயற்றவேண்டும். இதைப் பிரதம மந்திரியவர்கள் உடனே கவனிக்கவேண்டுமென்று நான் கேட்டுக் கொள்கிறேன்.”

“அடுத்தபடியாக, உலகத்திலே எல்லா நாடுகளிலும் கைத்தொழில்களை சர்க்காரே நடத்தவேண்டுமென்று சொல்லப்படும் இந்த காலத்திலே, பஸ் போக்கு வரத்தை இன்னும் தனிப்பட்டவர்களிடம் விட்டு வைத்திருப்பதின் காரணம் எனக்குத் தெரியவில்லை. இருபது பஸ்களை வைத்துக் கொண்டால் தான் பஸ் சர்விலை நடத்தலாமென்று விதித்திருப்பது மிகவும் அநீதியான உத்திரவு. இதனால் இந்த சிறு பஸ் சர்வில்கள் பெரிய பெரிய பஸ் ஆதிக்கத்தின் கீழ் வந்துவிடும்படியான பரிதாபகமான நிலைமை ஏற்படுகிறது. இந்தச் சட்டத்தை மாற்றி, குறைந்தது ஐந்து பஸ்களை வைத்துக் கொண்டிருக்கிறவர்களும் சர்விலை நடத்தலாமென்று செய்யவேண்டும். அப்போது தான் கொடிய ஆதிக்க முறையின் கீழ் சிறு பஸ் சர்வில போவதை தடுக்க முடியும். இன்னும், சில பஸ்களுக்கு மட்டும் காஸ் பிளாண்ட் எடுக்கப்பட்டு, பெட்ரோல் கொடுக்கப்பட்டு வருகிறது. பஸ்களை கரியின் மூலமாக ஓட்டுமபடிச் செய்தால் அதனால் மிச்சப்படும் பெட்ரோல் மற்ற அத்தியாவசியமான கார்களுக்குக் காரியங்களுக்கும் உபயோகப்படுத்தலாம்.”

“அடுத்தபடியாக, ரேங் வெடினரி டாக்டர்கள் சம்பந்தமாக ஒரு முக்கியமான விஷயத்தைச் சொல்ல விரும்புகிறேன். இப்போது இந்த ஸ்தாபனத்தினால் கிராம ஜனங்களுக்கு எந்த விதமான நன்மையும் கிடையாது. என்னுடைய தொகுதியில் உள்ள தாலுகாக்களிலே இது வரையில் அப்படிப்பட்ட ஒரு டிபார்ட்மென்ட் இருப்பதாகவே தெரியாது. கிராம ஜனங்களுக்கு எந்த விதமான நன்மையும் கிடைக்காத இந்த டிபார்ட்மென்டை ஏன் எடுத்துவிடக்கூடாதென்று நான் கேட்கிறேன்.”

MR. SPEAKER:—“Before we disperse I wish to announce that on Monday next, after question hour, general discussion on the budget will be continued till 6-30 p.m. with the usual lunch interval. From 6-30 to 7-15 p.m. there will be a short interval. We know it is Ramzan month and therefore members can't afford to be without food. We will assemble again at 7-15 p.m., when the Hon. Premier will reply to the debate.

The House will now adjourn and meet again at 11 a.m. on Monday, the 5th August 1946.”

III.—PAPERS LAID ON THE TABLE OF THE HOUSE.

*1. Appropriation Accounts, 1944-45 and the Audit Report, 1946.

*2. Finance Accounts, 1944-45 and the Audit Report, 1945.

* Placed on the Table on 2nd August 1946.

THE MADRAS LEGISLATIVE ASSEMBLY.

Monday, the 5th August 1946.

The House met in the Legislative Assembly Chamber, Fort St. George, at eleven of the clock, Mr. Speaker (THE HON. SRI J. SIVASHANMUKHAM PILLAI) in the Chair.

I.—QUESTIONS AND ANSWERS.

STARRED QUESTION.

Release of Political prisoners.

* 64 Q.—SRI K. ANANDA NAMBIYAR: Will the Hon. the Prime Minister be pleased to state—

(a) whether the Government have released any political prisoners since 30th April 1946 and, if so, whether a list of persons so released will be placed on the table of the House;

(b) whether it is a fact that the Government have yet to release some more political prisoners and, if so, whether a list of such prisoners and the nature of their offences will be placed on the table of the House; and

(c) whether it is a fact that Government have received numerous representations for the release of Sri K. P. R. Gopalan and the prisoners involved in Morazha, Mattanur and Kayyur cases and for the withdrawal of the warrants against a few political workers in Malabar and, if so, what action has been taken on them and what are the reasons for the delay in issuing orders?

THE HON. SRI T. PRAKASAM:—“(a) Government have ordered the release of 83 political prisoners since 30th April 1946 and a list of these persons is placed on the table of the House. There is also one other person convicted under the Enemy Agents' Ordinance who has been released. He is No. 84 in the list.

“(b) According to the report from the Inspector-General of Prisons, there are no political prisoners at present in any of the jails of this province.

“(c) The answer to the first part of the clause is in the affirmative. Sri K. P. R. Gopalan and other prisoners involved in the Morazha, Mattanur and Kayyur cases have all been released. The warrants pending against Sri P. Sekharan and eight others who were out of view, have also been cancelled. There was no avoidable delay in the issue of orders.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“Will the Prime Minister be pleased to state what exactly the Government mean by ‘political prisoners’?”

THE HON. SRI T. PRAKASAM:—“Political prisoners are political prisoners. Those who have not been convicted of ordinary offences under the criminal law, who have taken part in politics and have been convicted for political offences are political prisoners.”

* Printed as Annexure at page 316 infra.

[5th August 1946]

SRI S. NAGAPPA:—" May I know what are the reasons for the other political prisoners not yet having been released? "

THE HON. SRI T. PRAKASAM:—" The hon. Member will see that it is stated that there are no political prisoners in any of the jails."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—" Is the Hon. the Premier sure that all the political prisoners given in the list are connected with political cases? "

THE HON. SRI T. PRAKASAM:—" We are assured that it is so."

* 65^a Q.—Postponed.

* 66^b Q.—Postponed.

Compulsory medical inspection of Elementary and Secondary Schools.

* 67 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Public Health and Medicine be pleased to state what steps the Government have taken or propose to take in regard to compulsory medical inspection of—

(a) Elementary schools; and

(b) Secondary schools?

THE HON. MRS. LAKSHMIPATHY:—" A scheme for medical inspection of school children was in force till 1932, when owing to the financial stringency it was discontinued. The question of reviving it was considered on more than one occasion. In 1942 it was deferred owing to the war conditions. With reference to the recommendations of the Health Survey and Development Committee of the Government of India, the Surgeon-General has been requested to submit a scheme in consultation with the Director of Public Health and the Director of Public Instruction."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I ask whether the scheme is ready and if so how many children will be under the charge of one medical officer? "

THE HON. MRS. LAKSHMIPATHY:—" The Surgeon-General was asked to consider the proposals made by the Director of Public Health and the Director of Public Instruction. The report of the Surgeon-General is awaited."

Districts not having cheap electric supply.

* 68 Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Industries and Labour be pleased to state—

(a) the districts in this province which are not so far having the benefit of cheap electric power-supply;

(b) what representations have been made to the Government in regard to this matter by individuals and public bodies in South Kanara; and

[5th August 1946]

(c) what action the Government propose to take to expedite the supply of hydro-electric energy to meet the pressing needs of South Kanara?

THE HON. SRI V. V. GIRI:—" (a) It is presumed that by ' Cheap electric power supply ' is meant power from Government power systems. If so, the Districts without the benefit of cheap electric power supply are Anantapur, Bellary, Cuddapah, East and West Godavari, South Kanara, Kurnool and Nellore.

" (b) Representations have been made for the supply of cheap electric power to the South Kanara District either from Pykara or from the Jog Falls Scheme of Mysore for the rapid industrialization of the area.

" (c) Extension of supply to South Kanara has been planned and provided for in the Moyar Hydro-Electric Scheme already sanctioned by the Government."

SRI A. B. SHETTY:—" May I know Sir, whether power will be supplied from the Pykara station to Cannanore which is only thirty miles away from South Kanara Border? "

THE HON. SRI V. V. GIRI:—" That point was considered, Sir."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I know, Sir, whether any scheme is ready or under preparation for extending supply of power to the Ceded Districts? "

THE HON. SRI V. V. GIRI:—" Yes, Sir."

SRI PILLALAMARRI VENKATESWARLU:—" Are the Government aware that Messrs. Chari and Chari Electric Co. in Guntur District are demanding exorbitant rates for power supply? "

THE HON. SRI V. V. GIRI:—" I take the information from the hon. Member."

SRI PILLALAMARRI VENKATESWARLU:—" Are the Government prepared to insist upon the Company to reduce the rates of the Company? "

THE HON. SRI V. V. GIRI:—" We will look into the matter."

SRI A. B. SHETTY:—" May I know, Sir, when we can expect power for South Kanara? "

THE HON. SRI V. V. GIRI:—" You can put a question, and I shall answer."

MAHBOOB ALI BAIG SAHIB BAHADUR:—" May I ask the Minister for Industries whether there is any scheme for extending electric power for agricultural purposes? "

THE HON. SRI V. V. GIRI:—" Of course."

P. K. MOIDEEN KUTTY SAHIB BAHADUR:—" May I know how long it will take to extend power from Pykara to Malabar? "

THE HON. SRI V. V. GIRI:—" As early as possible. We are trying to speed up."

[5th August 1946]

H. S. HUSSAIN SAHIB BAHADUR:—" May I know how far is the Jog Falls Electric Supply Works from the border of South Kanara? "

THE HON. SRI V. V. GIRI:—" I am sorry I cannot say it to-day."

Opening of new colleges.

* 69 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Education be pleased to state whether the Government propose to establish some new colleges to enable more students to seek admission into them?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" The Government have no proposals at present under consideration to start new Colleges. The University of Madras, at the instance of the Government, have permitted Principals of Colleges to admit an additional batch of students for Science subjects, wherever possible."

SRI S. NAGAPPA:—" May I know whether the Government will encourage private colleges? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" If the hon. Member specifies his point, I will consider."

P. K. MOIDEEN KUTTY SAHIB BAHADUR:—" Will the Hon. the Education Minister be pleased to consider the question of converting the Moplah Girls' High School in Tirur into a college? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" Let the hon. Member put a separate question."

SRI PILLALAMARRI VENKATESWARLU:—" Is the Hon. Minister aware that in Bellary, Cuddapah and Kurnool districts there are no colleges at all? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" I understand that there is a college at Bellary."

SRI S. NAGAPPA:—" Will the Minister consider giving all sorts of encouragement such as grant of building and other grants for the colleges that are going to be opened? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" No, Sir, that is not the present policy of the Government."

AN HON. MEMBER:—" May I know, Sir, whether any representations have been received by the Government for converting the second-grade college in Mangalore into a first-grade college? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" No, Sir, as far as I am aware."

SRI N. VENKATA SUBBAYYA:—" May I know whether the Government have received any complaints regarding non-availability of admission to students from the Ceded Districts and that blackmarketing is going on in regard to the same? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" No, Sir."

[5th August 1946]

SRI N. VENKATA SUBBAYYA:—" Has the Hon. Minister received any complaints or representations that students from the Ceded Districts are not given any quota of admission in the colleges under the Andhra and the Madras Universities? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" We have received representations about the Engineering Colleges. The representations from the Ceded Districts will be looked into. We have issued specific orders that certain number of students from the Ceded Districts should be taken in the Engineering College."

SRI R. V. SWAMINATHAN:—" Will the Government consider the establishment of colleges where there is no college at all? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" There is no such proposal. It is not possible under the present circumstances."

SRI N. VENKATA SUBBAYYA:—" May I ask the Hon. Minister whether it is a fact that students from Ceded Districts getting a larger number of marks than those who have been admitted were refused admission, especially in the medical college? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" The medical college is not in my charge, and therefore. I cannot answer."

SRI H. SEETHARAMA REDDI:—" Has the Hon. Minister received any representations that people not belonging to the Ceded Districts pose themselves as belonging to the Ceded Districts and get admission in the colleges? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" No written representations have been made. It is difficult for Government to go into these."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—" Will the Hon. Minister for Education be pleased to state whether the Government have revised their policy with regard to admission of students in the colleges now? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" There has been no such revision."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—" Does the Hon. Minister know that there is terrible consternation in the countryside that novel principles of merit have been introduced in the matter of admission into colleges? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—" If the hon. Member puts a separate question, I shall answer. If figures are wanted, I shall be glad to supply. So far as the Arts Colleges are concerned, there has been no reservation."

SRI PILLALAMARRI VENKATESWARLU:—" May I know the amount of grant allotted to the colleges newly started in Bhimavaram and Ellore? "

[5th August 1946]

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“The hon. Member cannot expect me to answer it in a supplementary question.”

SRI S. NAGAPPA:—“Will the Hon. Minister be pleased to give more grants and relax the rules so as to facilitate the admission of students from the Ceded Districts?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“It is impossible for me to answer a general question of this kind. If a specific question is put, I will answer.”

SRI S. NAGAPPA:—“Are not the Government aware of the backwardness of the Ceded Districts?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“The Hon. Member knows it as well as I do.”

SRI N. VENKATA SUBBAYYA:—“May I seek an assurance that he will go into the complaints that have been brought to his notice and that future admission will be strictly confined to Ceded Districts' students producing certificates?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“I believe the certificate is demanded even at present and I am speaking subject to correction. If any individual students are not admitted, it is difficult for the Government to take it up. If the hon. Member suggests to me any ways by which this can be prevented, they will be considered.”

SRI S. NAGAPPA:—“Will the Hon. Minister appoint a committee in order to be fair in the admission of people from all districts?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“Is the hon. Member sure that a committee will improve matters?”

SRI S. NAGAPPA:—“Certainly, Sir.”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“There are other people who think otherwise.”

K. M. HAJI AHMAD KUTTY SAHIB BAHADUR:—“May I know, Sir, whether the Government have got any scheme for sanction to remove the high school at Tirur to a bigger building?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—
“Notice, Sir.”

Dismissal of a constable for garlanding the photograph of Sri Subhas Chandra Bose in public at Koilpatti.

* 65 Q.—SRIMATHI V. LAKSHMI AMMAL: Will the Hon. the Prime Minister be pleased to state—

(a) whether it is a fact that a constable of seven years' service has been dismissed for garlanding the photograph of Sri Subhas Chandra Bose in public at Koilpatti about four months back;

(b) whether he appealed against the dismissal to the higher Police authorities; and

[5th August 1946]

(c) what action the Government propose to take in the matter?

THE HON. SRI T. PRAKASAM:—“(a) The answer is in the affirmative.

“(b) The answer is in the affirmative.

“(c) If and when the ex-constable in question submits a petition to Government against the orders of the departmental authorities, the Government will then take such action as they consider necessary.”

SRI R. V. SWAMINATHAN:—“Will the Government be pleased to consider the reinstatement of the police constable and other police officers who were dismissed during political agitation?”

THE HON. SRI T. PRAKASAM:—“There is no question of general reinstatement. If representations are made, the Government will consider them on their merits.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“In dealing with cases like this, will the Government always place the need for discipline in the police force as the primary necessity?”

THE HON. SRI T. PRAKASAM:—“Certainly, Sir.”

Departmental action against Inspector of Police for allowing political prisoner to be garlanded by the public.

* 66 Q.—SRIMATHI V. LAKSHMI AMMAL: Will the Hon. the Prime Minister be pleased to state whether it is a fact that an Inspector of Police was proceeded against by the department for giving coffee in 1940 to Sri L. S. Karayalar, M.L.A., who was a prisoner in his charge on his way to the police destination after arrest and for allowing the prisoner to be garlanded by the public while in his custody?

THE HON. SRI T. PRAKASAM:—“There is nothing on record to show that any Inspector or other police officer was proceeded against departmentally for giving coffee in 1940 to Sri L. S. Karayalar, M.L.A., and allowing him to be garlanded by the public while he was in custody.”

Powers and Privileges of Parliamentary Secretaries.

* 70 Q.—M. A. SALAM SAHIB BAHADUR:—Will the Hon. the Prime Minister be pleased to state—

(a) whether there was any representation made on behalf of all Parliamentary Secretaries regarding their pay, service condition, powers and privileges, etc.;

(b) if the answer is in the affirmative what the Government have done in the matter; and

(c) whether the Premier will be pleased to state the duties and the responsibilities of the Parliamentary Secretaries?

THE HON. SRI T. PRAKASAM:—“(a) No.

“(b) Does not arise.

“(c) The duties and responsibilities of the Parliamentary Secretaries have not yet been defined. They will be considered and decided very shortly.”

[5th August 1946]

Rickshaw-pullers' strike in the Madras City.

* 71 Q.—M. A. SALAM SAHIB BAHADUR: Will the Hon. the Minister for Industries and Labour be pleased to state—

(a) whether he is aware that rickshaw-pullers have gone on strike about three days ago in the City of Madras;

(b) whether he is aware that the strike still continues;

(c) whether it is a fact that when the rickshaw-pullers came to Fort St. George to meet the Minister, the admission was refused; and

(d) what steps the Government propose to take in this matter?

THE HON. SRI V. V. GIRI:—“(a) The Government have no official information. No notice was given either to Government or the Commissioner of Labour by any Union or other representative of the rickshaw pullers.

“(b) Yes.

“(c) Admission was not refused. Sri Ramanujam, Sri Sarma and a few other representatives of the rickshaw pullers were given an interview.

“(d) The Commissioner of Labour is taking steps to bring about a settlement.”

SRI A. KALESWARA RAO:—“Are the Government aware that one of the important grievances of the rickshaw-pullers is oppression by the police who force them to pay bribes, and that their another grievance is that they are not getting ration on account of corruption on the part of the rationing officials?”

THE HON. SRI V. V. GIRI:—“Representations have been made either by the union or their representatives. All the points expressed are being gone into by the Labour Commissioner to effect a settlement.”

MR. A. E. THOMPSON:—“Has the Hon. Minister got in view the adoption of any legislation to ban rickshaws from the roads?”

THE HON. SRI V. V. GIRI:—“No, Sir.”

M. A. SALAM SAHIB BAHADUR:—“Are the Government aware of the Rege Commission's Report?”

THE HON. SRI V. V. GIRI:—“I am not aware.”

SRI S. NAGAPPA:—“May I know, Sir, whether the Hon. Minister does not think it proper to abolish the rickshaw-pulling system once for all, as it is inhuman, and injurious to health?”

THE HON. SRI V. V. GIRI:—“Not yet, Sir.”

N. MUHAMMAD ANWAR SAHIB BAHADUR:—“May I know whether rickshaw pulling is not contrary to the principles of non-violence?”

THE HON. SRI V. V. GIRI:—“I do not know.”

[5th August 1946]

UNSTARRED QUESTIONS.

Complaint of Sri K. Ananda Nambiyar, M.L.A., against the District Superintendent of Police, Trichinopoly.

15 Q.—SRI K. ANANDA NAMBIYAR: Will the Hon. the Prime Minister be pleased to state—

(a) whether he will be pleased to place before the House the complaint made by Sri K. Ananda Nambiyar, M.L.A., against the District Superintendent of Police, Trichinopoly (Mr. Harrison), and the action taken on it by the Government; and

(b) whether he proposes to order an enquiry into the conduct of the Police in Golden Rock on 27th March 1946?

A.—(a) The answer to the first part is in the negative. Government have examined the complaint and consider that the allegations made against Mr. Harrison are groundless.

(b) The answer is in the negative.

Official accounts of the Malabar disturbance of 1921.

16 Q.—K. M. SEETHI SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

(a) whether there are any published official accounts of the Malabar disturbance of 1921; and

(b) whether they are available for purchase or reference?

A.—(a) There are no published official accounts of the Malabar disturbance of 1921.

(b) Does not arise.

Repairs to irrigation channel in South Kanara.

17 Q.—H. S. HUSSAIN SAHIB BAHADUR: Will the Hon. the Minister for Public Works be pleased to state—

(a) whether it is a fact that estimates were prepared by the Executive Engineer of the Government for repairing and restoring an irrigation channel in the Augadimogru, Badur, Maire and Kudalmerkala villages of Kasargode taluk in South Kanara; and

(b) whether the investigation and final estimates for the channel, in the Augadimogru and Badur villages of the said taluk have been completed, and, if so, why the work has not been undertaken by the Government?

A.—(a) The attention of the hon. Member is invited to answer to starred question No. 57;

The Shiriya river scheme for constructing an anicut and excavating a channel has been prepared by the Chief Engineer (Irrigation). It is stated that an old irrigation channel was excavated about 70 years ago, that only small traces of the channel exist and that it is not known if the channel really functioned at any time. At any rate, if it has not been in use for some decades, the Chief Engineer considers that a new channel aligned on steep-hill slopes will be required and that it can be constructed at a heavy cost.

(b) The investigation has been completed and estimates prepared by the Chief Engineer (Irrigation). He

[5th August 1946]

states that the cost of the scheme is very high being Rs. 7,06,000 for irrigating an area of 351 acres (about Rs. 2,000 per acre), most of which is already raising one crop and even two crops. The possibility of reducing the cost and making the scheme remunerative are being examined now by the Chief Engineer. Further the Chief Engineer states that there are objections from lower ryots to the diversion at the proposed anicut and that this is under examination in consultation with the Board of Revenue.

Forgery of trip sheet of Mettupalayam-Coonoor Service.

18 Q.—SRI N. S. VARADACHARI: Will the Hon. the Minister for Motor Transport and Food be pleased to state whether the proprietor of the Mettupalayam-Coonoor Service, Mettupalayam, is involved in a criminal case for forgery of a trip sheet?

A.—There is a criminal case against the Managing Director (Sri S. A. K. Chinnathambi Chettiar) of the Mettupalayam-Coonoor Service, Limited, and also one of his conductors, which is pending on the file of the City First-class Magistrate, Coimbatore. The case is not for forgery of a trip sheet but, according to the charge framed by the City First-class Magistrate, for intentionally fabricating false evidence in respect of a trip sheet an offence under Section 193, Indian Penal Code (latter part) in an enquiry before the Secretary, Road Traffic Board, Coimbatore. On the orders of the High Court, further proceedings in the case are stayed.

Mettupalayam-Coonoor Service Company.

19 Q.—SRI N. S. VARADACHARI: Will the Hon. the Minister for Motor Transport and Food be pleased to state—

(a) whether it is a fact that the Government, on a petition from the Mettupalayam-Coonoor Service Company, stating that the proprietor has been discharged in a forgery case against him ordered the Regional Transport Officer, Coimbatore, to issue permits to the company to ply buses in Coimbatore town which was originally refused during the pendency of the case;

(b) whether it is a fact that the said case has been restored to the file of the City Magistrate, Coimbatore; and

(c) whether it is a fact that the restoration of the case has been communicated to Government by the Regional Transport Officer?

A.—(a) The answer is in the negative.

(b) Government have no information. But the hon. Member is probably referring to the case referred to in the answer of this date to his unstarred question No. 18.

(c) The answer is in the negative.

[5th August 1946]

Note.—An asterisk (*) at the commencement of a speech indicates revision by the Member.]

II. GENERAL DISCUSSION OF THE BUDGET FOR THE YEAR 1946-7.

* MR. SPEAKER:—"Before the general discussion is commenced the Hon. the Premier wants to make a statement."

* THE HON. SRI T. PRAKASAM:—"Controversy has been going on, on the question of prohibition for the last two days. Ministers have considered that. In the light of the opinion expressed by some hon. Members, the Cabinet met this morning formally and they have decided that in addition to the four districts mentioned in the Budget, four more districts should be added. (Cheers.) Those districts are Coimbatore, Kurnool, Anantapur and Bellary. I might say that the Cabinet Ministers have been as anxious as everybody else to have this prohibition on as large a scale as possible. But it was the administrative difficulties and other financial difficulties that made them confine themselves to four districts. The Government could not have hesitated to have prohibition in all the 24 districts at one stretch if it were possible and if it were in the interests of administration. While it was originally intended to start in four districts, now another four districts have been added. I felt it necessary to give this information to the House because, before the discussion concludes, the hon. Members might know exactly the position of the Government."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Mr. Speaker, Sir, I congratulate the Hon. Finance Minister, who also happens to be the Prime Minister of this Province, on the preparation and presentation of the Budget. I regret very much to have to comment adversely both on the merits of the Budget and the careless way in which it has been prepared. You know, Sir that the purpose of preparing a Budget is to estimate the sources of income and the items of expenditure. The Budget must be a close Budget, and the items of receipt and expenditure should be detailed as far as possible. There should be no balance. This is in regard to current revenue. With regard to capital expenditure, there is no limit to borrowing, provided the money that we borrow is spent on remunerative ventures. Judged by these canons of budgeting, I am very sorry to say that the present Budget does not at all satisfy any of these canons. In the first place, Sir, there is what is called a very very conservative estimate or underestimation of the receipts. It is said that this year would not be as prosperous as the previous year as the war boom has passed away. But, I do not think, taking the high prices into consideration, the war boom has really passed away. Further, Sir, an advance grant of 448 lakhs is being granted by the Central Government to this Government for post-war development. This item has been included in the receipts and there is an opening balance of Rs. 310 lakhs. Then there is an increase under the head 'Income-tax Grant.' So, taking into consideration all these extraordinary receipts, the receipts shown in the Budget are really not correct. Therefore, Sir, I say there is what is called an underestimation of receipts."

11-30
a.m.

[Mahboob Ali Baig Sahib Bahadur] [5th August 1946]

"Now let us examine the expenditure side of the Budget. This side, I venture to say, show overestimation. As an instance I might refer to the 600 lakhs shown as deficit on an investment of 900 lakhs and odd, on what are called State Trading Schemes. You know, Sir, that last year there was a credit of 299 lakhs. It is no doubt true that we are making subsidies this year, but what will be the amount that will go towards these subsidies has not been mentioned here. It could have been anticipated that there will be ten times more rice forthcoming from the cultivators; and valued at a particular rate, the amount will come to such and such figure. This has not been done. My submission, Sir, is that the inclusion of Rs. 600 lakhs of deficit on a venture of Rs. 900 lakhs and odd on State Trading Schemes is not correct and is an exaggerated figure. Thus the budgeting on the expenditure side is also not correct.

"The third point I would like to mention is about the debiting of expenditure on certain items to current revenues instead of to capital account. The State Trading Scheme is an item in point. This could easily have come under capital expenditure.

"My fourth complaint about this Budget is that there is no estimation of expenditure of very very large sums. You know, Sir, that in a Budget the House must be told and the public must be told through this House what the items of expenditure which this Government propose to incur this year are. Suppose the Government were to say that Rs. 49 crores are our receipts and Rs. 49 or 50 crores are our expenditure in a lump sum, would that do? It would not do. The omission to tell us the details of expenditure under certain items is perhaps not intentional. I looked in vain through all the pages of the Budget estimates and also through the pages of the memorandum prepared by the Finance Secretary to find out how these Rs. 400 lakhs are going to be spent and on what items. I collected some information from pages 38, 76 and 95. On page 76, under District Administration, Rs. 100 lakhs have been provided. The Government have boldly announced on page 95 for village reconstruction Rs. 200 lakhs under the head 'Industries' for spinning and weaving and on page 38 we find a provision of Rs. 100 lakhs under the head 'Labour.' We do not know where they are going to spend and how they are going to spend these Rs. 400 lakhs. It is for us to say: 'This item is correct; this item is useful; this item is not useful.' I submit, Sir, it is not proper for this Government to present us a Budget which gives no details of the items proposed to be allotted for expenditure. They call these items 'lump sum grants.'

"My fifth objection is to the appropriation of the Revenue Reserve Fund which was set apart for a particular purpose, viz., post-war reconstruction. The Adviser Government could have easily spent this amount. I hold no brief for the Adviser Government, but what I say is this: We expected that this popular Government which succeeded the Adviser Government would first repair the war damages suffered by this Province. If the Hon. the Finance Minister has objections to the planning made by the

[5th August 1946] [Mahboob Ali Baig Sahib Bahadur]

Adviser Government, he would do well to review those plans to his liking. But let him not put his hand into this Reserve Fund. Let him restore the *status quo*. I have the most serious objection to the lump sum grants. As I have already stated, it is not proper on the part of the Hon. the Finance Minister to come to us and say: 'Give me Rs. 400 lakhs. I would not give you details for that expenditure.' If the details are not there, Sir, it is open to us to say that we object to even Rs. 100 being spent in this or that manner. Being a popular Government, the Ministry should have confidence in the House and should furnish all the details necessary before adoption of the Budget.

"Now I propose to refer to the merits of the proposed expenditure on certain items. Take for instance the khadi programme. Without hurting anybody's sentiments, let me at once state that these Rs. 200 lakhs proposed to be spent on khadi are going to be spent on a costly experiment. I am quoting the observations made by persons who are competent to speak on the subject. I refer you to the editorial of 'The Hindu' of 1st August 1946 which reads: 'Those who know something about the khadi industry are frankly sceptical about its success. It is an experiment which cannot in any case solve our problems.' Now, I ask whether we can afford to spend on this costly experiment as much as Rs. 200 lakhs when persons who are competent to speak about it are sceptical about its success, more especially when you don't tell us how this sum is going to be spent. Are you going to invest these Rs. 200 lakhs in giving contracts for the manufacture of charkas and give the same to individuals? We have not been told anything about these plans. Now, Sir, as I stated, the nationalist paper, the renowned 'Hindu' of Madras is of this opinion. I leave it at that for the members to ponder over.

"Sir, then we have the question of the Harijan Fund. I am one of those who have always felt, with the members of the Muslim League in the Opposition, that this community called the Harijan community is oppressed to such an extent that it is a blot on the civilization of India and a blot on all communities. I am one of those who would spend hundreds of crores and not one crore only to bring up this Harijan community to the level of the other communities of the land. But how is this one crore going to be spent? I may in this connexion bring to the notice of the Hon. the Prime Minister that the majority of the Harijan community does not belong to the party to which my hon. Friend, Mr. Kurmayya belongs. Most of them belong to the communist party. Will this one crore be spent to the advantage of the party and for the purpose of converting the communist Harijans to Congress Harijans? This is a point worthy of consideration by the Harijans. If the Government intend to spend this sum on the real uplift of the Harijans in general, I have certainly no objection.

"The next thing that I want to mention is this. Even among the depressed classes there are persons belonging to different religions and creeds. Do these persons cease to be depressed and oppressed classes merely because they change their religion. Sir,

[Mahboob Ali Baig Sahib Bahadur] [5th August 1946]

the definition of Harijans must be made clear. Then, is this sum of rupees one crore going to be spent on Congress Harijans, communist Harijans, Andhra Harijans or the Christian scheduled classes? Surely, the Government should not make any distinction between the oppressed classes, to whatever religion they may belong. That is my cardinal objection.

"Then, Sir, with regard to the Revenue Reserve Fund, as I have already said, this fund was created for the specific purpose of being utilized on schemes of post-war reconstruction. One of those post-war schemes is the Highways scheme. This scheme is sought to be scrapped. If the present Government have got any objection to any structure that is already built, they can now change it or modify it according to their wish, but I do not think that it is proper to scrap the Highways Department altogether or to utilize the fund that is earmarked for particular post-war schemes to be diverted to other channels. The Highways Department will be a very useful department as the Hon. the Ministers for Agriculture and Industries—I wish they were here—will bear me out and I hope they will plead for its continuance. For industrial and agricultural purposes trunk roads are very essential. In fact they are an indispensable pre-requisite for the starting of new industries, and the industrialization of the country as also of agricultural development. If a man wants to open a mill, or to start an industry, he should first see whether there are good roads by which he could get raw-materials easily to his mill and to transport the finished products outside. Similarly, the villager must have easy means of communications to facilitate his agricultural operations. I am told that hitherto the amount allotted for this grant used to be between Rs. 25 and 30 lakhs. Now it has been considerably reduced this year. Can we be so indifferent towards our trunk roads like this? We know that on account of cyclones, on account of heavy military traffic and on account of neglect by the authorities, these highways are in a very rotten condition. Can you expect now to improve your industries and agriculture by scrapping this department and using the amount for some other purposes?

"Now, Sir, the next thing I should like to refer is the Government's policy with regard to education. I wish the Hon. the Minister for Education were here to explain what he means by basic education. Frankly, I am unable to understand what is basic education. Surely he must take the Members of the House into confidence and explain to them what is his idea of the basic scheme of education. Is it the basic education propounded by the Wardha hierarchy or any other modified scheme which he has in his mind? We do not know anything about it, but if he has in his mind the Wardha scheme, then Sir, may I draw his attention to the main defect pointed out in that scheme by the National Planning Committee? The National Planning Committee, which is a very competent body, says that 'Education by craft merely to make a boy when he goes out of school competent in his craft is *spiritually harmful*.' We should be glad to know what the Hon. the Minister for Education has in his mind, when he talks about introducing basic education in schools.

[5th August 1946] [Mahboob Ali Baig Sahib Bahadur]

"Then, Sir, with regard to the medium of instruction also, that august body has something to say. It has not mentioned the word 'Regional language.' It has only used the word 'Mother tongue.' We are all agreed that children should be taught through the medium of their mother tongue. Why do you want to change the medium of English to any other language? The first reason is that it will be a burden on the children to learn in a foreign language. The second is that we do not want that they should be a slave to the foreign language. These are the two reasons for teaching our children through our mother tongue. It was said on the floor of this House by a responsible Minister and also by the Hon. the Minister for Education that in Andhra districts, the Muslims talk Telugu better than Urdu. We, Sir, the 29 Muslim Members of this side of the House are the accredited representatives of the five million and odd Muslims of this Province and we know much better than the Members on the other side. Fortunately there is no show-boy Muslim on the other side. Does the Hon. the Minister know the wants of Muslims better than us? When we state categorically that the mother tongue of the Muslims in the Andhra Desa is Urdu, I cannot understand on what authority he denies, or what competence he has to deny that statement. Supposing an Andhra Minister is well conversant with Tamil and is able to speak and carry on his business and correspondence in Tamil, can I say that his mother tongue is Tamil? It is absurd. I cannot say that. It is as absurd for anybody to say that the Chief Minister's mother tongue is Tamil as to assert that my mother tongue is Telugu. What is my mother-tongue? The language of my mother. And for the information of the Congress Ministers, I might point out that especially in the Andhra districts, the language that we speak is Urdu and not Telugu, as has been stated. Perhaps it may not be the Urdu of the type that people in Delhi and Lucknow speak; it may be a little mutilated; but certainly not Telugu."

* MR. SPEAKER:—"You have only two minutes more."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Therefore, Sir, it is not correct to say that mother tongue and regional language are one and the same. Further, may I ask, the Hon. the Premier if he is not aware that for a very long time, there were many elementary schools for Muslims in the Andhra districts in which the Muslims boys were taught only in Urdu?

"Further Sir, I may state for the information of the Ministers that all our religious books, all our history and all our traditions and all that is near and dear to us in literature and art are either in Urdu or Persian or Arabic language, and we cannot therefore afford to go to any other language. Enough has been said on this subject by myself and my friends on this side. Even in 1937 when the Congress Ministry was in power, the then Minister for Education, the Hon. Mr. Varkey had consultations with us before he introduced any scheme affecting the Muslims. In the same manner, I wish that the present Ministers, who do not represent the Muslim community at all—it is we who represent the Muslims—will consult us before introducing measures affecting the

[Mahboob Ali Baig Sahib Bahadur] [5th August 1946]

Muslims. All the talk about safeguards of minorities with regard to their culture, language, etc., has become untrue. At least let them now say that the Muslims may have their education in their own language to preserve their culture.

"Now, Sir, in regard to the village committees, I have got one remark to make. I am very sorry to say that in spite of the instructions sent by the Government in the matter of the constitution of these committees, the district authorities are helpless in this matter. It is no exaggeration to say that it is the Secretary of the Congress Committee that is the boss of the whole affair. It is he who dictates to the Tahsildar. He brings pressure upon him to act according to his wishes, by threats, by intimidation and by other means. For Muslim representation, attempts are made to bring some Nationalist Muslims—who are nobody—to keep out the real representatives. That is how the Committees are constituted. This is enough for me to say about this subject.

"Then, with regard to the services, I do not know how far it is true—I shall stand corrected, if I am wrong—that the Communal Government Order is adhered to. But I believe that attempts are made to contravene its provisions, if not to give a go-by to it, by an ingenious method. I am sorry to hear that in the matter of admission to professional colleges the previous Government Order has been changed to the detriment of the communities which had had till now their due share of representation. It is a very serious objection, and if that is true, I wish, if it were set right ere long. In regard to the services also, the Government Order is circumvented by the creation of temporary posts to which the Government Order is not applied. That is also a very wrong thing to do.

"The last and the final thing that I should like to say is with regard to the industrialization of the country. I have been looking into the Budget year after year these 20 years and have been ventilating my ideas about the need for the industrialization of the country. Sir, nationalization of the industries is the only solution for all ills. The Hon. the Premier has taken a very keen interest in the industrialization of agriculture, that is to say, to make agriculture a paying industry. It is a very good principle.

12 noon. "I have already said, Sir, that borrowing is permissible and even desirable if the money is spent on remunerative ventures. That is good, to conserve money out of the borrowings and industrialize. You will be putting down inflation also. It is a very good rule. It may be that this present Government which has been in office only for three months has not been able to do much. But what is the use of dealing out doles? I say, make the people rich. Put more money into their pockets. Give them more salaries. Let them earn the money. That is what we want. It may be that the mill-owners, factory owners and private men employ an enormous amount of labour. But the time has come for us to take this question of industrialization (Sri N. S. Varadachariar: Nationalize) and nationalize it, I have no objection at

[5th August 1946] [Mahboob Ali Baig Sahib Bahadur]

all,—but increase the purchasing power of the people and let them not struggle for their living. It is unfortunate that there is nothing here which impresses me to say a good word with regard to the policy of industrialization.

"Next, Sir, I want to say a word or two with regard to certain matters in the Budget which are in the right direction. I am referring to the Irrigation Schemes. It is a crying need. I am glad to say that in the past this Presidency has been always forward in the matter of electrification. It has started ventures in electricity so many years ago and the Members who were in charge of this subject can certainly be proud of them. We have been earning a lot of money, out of these ventures. Sir, now the villager is not satisfied with living in his dingy room and having only kanji, one or two times and wearing nothing but dirty cloths. He would like to be under the fan. He would like to eat very good food as you and I do and clothe himself well. Sir, we must go into the root of the matter. What is the use of dealing out doles to Harijans or whoever it may be? The real approach to the problem is to industrialize. If we do so, there is the prospect of increasing the supply of electricity and also improving the irrigation system. These are the methods which the Government should follow and they will succeed.

"Another very welcome feature in the budget is the Industrial Finance Corporation. I really thank the Government for having taken up this step.

"Then there are the Post-war Development Schemes. I am sorry, Sir, they are not very satisfactory and there is nothing which is very encouraging in them.

"Geological survey, if they are really going to undertake it, is a very good step, which they must follow up.

"Finally, Sir, I should like to repeat and tell the Government that when they frame a budget they must make it a close budget. Do not show more expenditure than you could make. Then you could have more money not only for extending prohibition throughout the entire Province but also you will have enough money for other important projects."

* KUMARARAJA SIR MUTHIAH CHETTIAR OF CHETTIKAD:—"Mr. Speaker, after a sojourn of seven years we have met to hear the budget pronouncement of the Hon. the Prime Minister at the head of a popular Government. Sir, I certainly join with pleasure all those hon. Members of the House who have showered congratulations on the Hon. the Prime Minister for the budget that he has presented to us. We know the circumstances and the atmosphere in which the Ministry is placed to-day and the fact that under these circumstances it has been possible for the Prime Minister to come with the proposals that he has adumbrated in his budget speech is really a noteworthy one of which he can be proud and not only his party but the province as a whole can be proud. Within the short time they have had at their disposal, they have rightly formulated certain plans mainly with a view to see that the next few months are occupied with certain schemes.

[Kumararaja Sir Muthiah Chettiar of Chettinad]

[5th August 1946]

I hope they will also devote the coming few months to formulate bigger plans which they may be presenting to the House next year. After six years of Advisers' regime it is no doubt a welcome feature to know the proposals of a popular Ministry which will enable hon. Members of this House to take a lively interest in the progress of the province. Sir, hon. Members on this side, even though they may criticize the Government strongly, are I presume, actuated by the best of motives in offering suggestions to the Ministry. To-day, when we are within a measurable distance of an independent status for our country, it is necessary that the Provincial administrations that have been set up in all the provinces should function efficiently to demand a National Government at the Centre as early as possible. If a National Government had been ushered in at the Centre, some at any rate would strongly urge that a National Government should function in the provinces also. To-day the Government in this province is no doubt very representative of the people and a popular Government but, even those who administer the present Provincial Government will agree and I may say, they may even be glad, to have a National Government representing all the national elements in the country. (Mr. Muhammad Abdul Salam Sahib: Muslims also?) My hon. Friend must realize that patience is a very important factor in the House when an hon. Member is speaking. Mr. Speaker, nobody in the country can afford to forget any important community. Even without my hon. Friend's interruption, I would certainly have brought out the Muslim League point of view as these notes also will indicate. Sir, we cannot live in this country without the co-operation of the Muslim community. (Hear, hear.) (Some hon. Members: Nation.) (The Leader of the Opposition: Muslim Nation undoubtedly.) Whether they are a nation or a community, they are our brethren. As our brethren, we expect their co-operation and I am sure, they are also entitled to the same co-operation. I only pray that God should see that the time is not long when that co-operation and unity will be achieved. Sir, I think I am right in saying, that every one in this country to-day regrets the most unfortunate decision of the Muslim League. Sir, the Muslim League may have its own reasons for coming to the recent decisions it made, but we have strong reasons to feel the regret and I say this only to emphasize the necessity for unity. This is a province which can legitimately look back to the past with pride in the matter of the very cordial relations between the two communities. Sir, the other day when the Muslim League leaders rushed to the Prime Minister's residence at 11 o'clock in the night and acquainted him with the affairs and incidents at Vaniyambadi the Prime Minister rushed to the spot and eased the situation. That is how we have got on in the past and that is how we should get on in the future. Sir, I have no doubt that the lead given by this province to the other parts of India will go home to the leaders of both the communities in Northern India and the time will be much shortened in bringing communal unity. We may belong to different groups in this House, but all of us are one in our desire to have our country free and independent at the earliest possible opportunity.

[Kumararaja Sir Muthiah Chettiar of Chettinad]

[5th August 1946]

"Mr. Speaker, Sir, I shall not take up the time of the House by speaking at length on the political situation. Regarding the budget and the speech of the Hon. the Prime Minister the main question is the food situation. In view of the long and useful debate that took place in this House six weeks ago on the food situation, there is not naturally so much discussion on the subject during the budget, but the food situation has rightly engaged Government's attention and has been the first care of the Governor and the Ministry for the last three or four months. That the Government has to subsidize food at a cost of several crores is the index to the grave situation we are in. In the matter of the food problem there should be no question of party or community. Whatever be our political differences, whatever be our other relations, whether we may differ for the moment and agree a little later, so far as the food question is concerned, we shall always agree to support whichever Government is in office. It is in that view that many Members of the House gave their wholehearted support to the Ministry in all their measures. Let me hope that in the coming few months the Government will receive the full support of the country in tiding over the crisis. The coming few months are very grave months as you see from the food statement that the hon. the Prime Minister made the other day on the floor of the House and subsequently. Our main concern should be for the poor man. Let us not consider the question of the convenience of the middle class man even. We in South India are accustomed to poor men talking of a famine whenever there was a rise in the price of rice. They are all rice eaters. Now, Sir, even this 8 ounces of rice may have to be reduced to 6 ounces if there is going to be no more imported rice. (An hon. Member: God forbid.) More than God forbid. My hon. Friend must realize that we must make all human efforts to save the situation. In this connexion I should say that it is no use having any grievance against the Madras Government. Our grievances should be against Delhi. I do not think Delhi has played the game all right. Delhi might have a good intention but I do not think other provinces in India are co-operating. It is no use saying on high-sounding words as 'equality of sacrifice' I only want that the Hon. Minister should impress upon the Government of India our feelings on this question and that this House feels that 'equality of sacrifice' has not been put into practice in other parts of India. I won't be far wrong if I say that in other parts of India rationing is not as strictly enforced as it is done in this province. It is a matter for congratulation for the Government and the people of this province that rationing has been made a great success and we have strained our utmost to distribute the available stock to the best of our ability, cutting down and cutting down. That we have endured this is a matter for congratulation. We have every right to demand from the Central Government and other sister provinces to help us. There are provinces in India where people take a mixed diet of wheat and rice. They are accustomed to taking wheat more than we in the South are accustomed to taking wheat.

[Kumararaja Sir Muthiah Chettiar of Chettinad]
[15th August 1946]

Would it be too much for this Government to tell these sister provinces like Bombay and the Central Provinces particularly, that they should take more of wheat and spare the rice that they get, not to me and to hon. Members of this House, but to the poor worker and the poor villager. Particularly, why should not a Congress Government, which has the great advantage of having seven Provincial Governments altogether and a Committee at the Centre, I do not want to use the word High Command, impress upon the Food Ministers of these provinces to come out and send their rice to this province and take wheat instead. In the south we are given more wheat in Madras, why should not they give the wheat to Bombay and send more rice here? That is my point. If I am wrong I shall be glad to be corrected. This House should strengthen the hands of the Ministry with regard to these demands on the other provinces and Delhi. We have seen in the morning's papers that out of the 7 lakhs of tons of rice demanded by India about 270,000 tons alone are being allotted for the second half of the year 1946 and that half of the above quantity is coming from Siam. This 270,000 tons should all come to the Madras province and I implore Members of this House that we should voice our demand that all this rice should be allotted to this province.

"Let me come to prohibition. I should certainly congratulate the Government on having come forward with the introduction of prohibition. When the Advisers' regime suspended the prohibition programme, they were rightly criticized. Now, Sir, we should vigorously pursue it with a view to achieve complete total prohibition subject of course to administrative convenience. That is my strong opinion. While we are strongly in favour of total prohibition we should not oppose in our enthusiasm for prohibition the Government's view if they are not able to introduce prohibition in every district at once.

"Sir, there is one other good step which our Government have taken, namely, the separation of the judiciary and the executive on which question not only this House, but the whole country is at one with the Government and let me hope that it will soon become an accomplished fact.

"Sir, I want to say something about the education policy of the Government and I should like to say it when the Hon. Minister for Education is present in the House. I trust that the Hon. Minister for Education is in Madras; we should naturally expect him here and I shall therefore reserve my remarks for a later time when the Hon. Minister will be here.

"We were all very happy, Sir, that a Highways Department was started. There was agitation for several years that a Highways Department should be built up. Now we are told that the Highways Department may not grow in size. I do not think the Hon. Minister for Public Works will himself be happy. Probably he is not able to make that grow. He will be more anxious than myself to make it as useful as possible. Sir, it is said that the irrigation and other schemes should have preference. Certainly.

[Kumararaja Sir Muthiah Chettiar of Chettinad]
5th August 1946]

But let me only remind hon. Members of this House that to supplement irrigation schemes, highways are necessary and many roadways are necessary to take our produce to the markets and to the ports. I have no doubt that later on the Government will try not only to retain the Highways Department, but to increase its usefulness in all ways. Sir, when I am talking of highways I may be permitted to mention one detail particularly in view of the fact that it is a major detail.

"Sir, I was glad to hear from the Hon. Minister for Public Works the other day in the course of an answer to a supplementary question that there was a proposal to have a highway along the west coast. A highway along the east coast also is very necessary both from the strategical point of view and from the point of view of relieving the congestion on the railways and providing an alternative route in an emergency like a railway strike. A highway from Vizagapatam to Dhanushkodi and Tuticorin will be very useful. I am not talking here about a highway connecting Calcutta *via* Vizagapatam and that is a matter for the Government of India to consider.

"Sir, I was very glad to see that there was a move to give more powers to the local boards, and that we unfortunate non-officials who also have the luck to represent the people of this country are going to be thought of for being invested with some powers. It will not be out of place in this connexion if I trace the history of local administration in this Province briefly. It falls into two parts, in the first of which more and more powers were invested in the local bodies and the second part—a most regrettable part—more and more powers were taken away from the local boards. The first part was a short period between 1919 and 1926 during the Raja of Panagal's Ministry. From 1926 onwards right up to the present moment, all the enactments of the Legislature regarding local bodies have tended to curtail the powers of the local boards, with the result that to-day if a sweeper has to be appointed in a local board it has to come to the Secretary to the Government in Fort St. George for sanction. That is why I say I am very glad to see that there is a move to invest more powers in the local boards. But when I say this, I do not mean that permanent officials should not be appointed as Commissioners of Local Boards or Municipalities. I would insist on their retention. Already we are having full-time paid Executive officers in certain panchayats and I have no objection to them.

"I now want to go back to the old subject of taluk boards. It was a most regrettable day when the abolition of the taluk boards was decided upon. When these boards were abolished, the figures showed that the financial condition of half of them was sound while the financial condition of only the other half was not sound. I therefore feel, Sir, that all the boards should not have been abolished. And when I now ask for the revival of taluk boards, I hope I will not be accused of party bias, as it is probable that all these boards also will be in the

[Kumararaja Sir Muthiah Chettiar of Chettinad]
[5th August 1946]

hands of the Congress party. The Hon. the Prime Minister has his scheme of panchayats in the rural areas, and if we have the taluk boards on top of them, it will conduce to efficiency and happiness. It may be said that if the taluk boards were revived, we could not have the district boards as they are at present. That is a technical matter of jurisdiction and may be left to be considered by the Hon. Minister for Local Administration. I am not going to suggest the usual procedure of appointing a committee for this purpose. We do not want a committee. The Minister for Local Administration knows sufficiently about local boards and municipalities to consider this question without the necessity of obtaining the views of a committee. Let us not waste time by having committees and more committees regarding the reform of local bodies. I earnestly plead for the revival of taluk boards. Regarding the powers to be vested in the taluk boards, the matter can be discussed at the bill stage. If the powers proposed by Government are not found to be enough, hon. Members might suggest the grant of more powers. The primary schools, dispensaries and such other institutions will be run more efficiently by taluk boards. If the non-official members of the taluk boards are given more powers, even though it be in an advisory capacity, it will have some effect on the officials connected with the dispensaries, schools and village roads, and might I say, taluk highways.

"Sir, when I am speaking about local bodies, I should be permitted to put in a strong plea on behalf of the City of Madras. It has never had a fair deal all these 26 years. The bogey was that the taxes were paid by the people in the mufassal and that the City of Madras was not entitled to much Government grant. I should like, Sir, that the City of Madras be given crores of rupees. I am not now blaming the present Government. I am only saying that they should not fight shy of giving large grants to Madras City. Otherwise what is the earthly use of having an Improvement Trust without money being given to the Madras City? The Improvement Trust and the City Administration should work hand in hand and if both the subjects are not going to be dealt with by one and the same Minister, I suggest that they put their heads together and see that allocation of large sums of money is made for the Improvement Trust. I would ask hon. Members to have a boat ride in the Cooum one day, come here and then they will vote money for the improvement of the City of Madras.

"Regarding education, I want to mention a few words regarding the controversy about the regional language. Sir, I give my fullest support to the Hon. Minister regarding his regional language proposal. It is a long-delayed reform and nobody can accuse him for what he has done regarding the regional language. There can be no doubt regarding the connexion between the regional language and the mother tongue. It is a question of fact and I shall not be a judge on facts. Some hon. Members sitting on this side of the House have questioned the correctness

[Kumararaja Sir Muthiah Chettiar of Chettinad]
5th August 1946]

of the statement of the Hon. Minister for Education and the latter has promised to enquire into the matter. Only one of the two must be right; both cannot be right. My point is both the regional language and the mother tongue are the same. If anybody questions that fact, an enquiry has to be made. This is not the occasion to debate a question of fact and I am not here as a judge on facts."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Then why use the words 'regional language'? There is some implication in it."

*KUMARARAJA SIR MUTHIAH CHETTIAR OF CHETTINAD:—"We have been told that so far as the Muslims are concerned the regional language has been fixed without relation to the mother tongue. It is a question of fact and there will be time enough for the House to know what it is when the enquiry has been completed. That is my humble submission to the hon. Members of the House.

"While giving my support to the Government's policy of regional language, I only want them to pay sufficient attention to the question of teachers' qualifications, text-books and other such things. Till such time when we can have them in plenty—let me hope that that time will be soon indeed—it is very necessary that the Government should grant exemptions here and there and make adjustments here and there. I understand representations have already been made strongly to the Minister regarding the inconvenience to certain communities in certain areas. When all these inconveniences are got over, it will be alright.

"Sir, while on the regional language question, we must also tackle the question as to how far and in what time people should be taught in the regional languages in the higher schools and in the University classes. While we should aim at regional languages being the medium of instruction, it may take a long time for their introduction in the universities and colleges. Even when we reach that stage, considering the necessity for our country to advance in scientific research and technical studies and to keep pace with the other countries of the world, it will be necessary to keep English as an essential feature in our education. Otherwise, we will not be able to get experts in science and other subjects. Therefore, Sir, I would plead for the retention of English in respect of education in the colleges and universities. The only thing is: we should provide facilities for students who want to be educated in the regional language, while at the same time not denying the students similar facilities to read in English.

"Sir, the lot of teachers has been brought to the attention of the Government. They are a very poor lot and they are not on the same footing as the other people in the country. They deserve the full sympathy of the Government and this House; and I urge on the Government to consider the possibility of increasing their salaries and allowances as early as possible.

[Kumararaja Sir Muthiah Chettiar of Chettinad]
[5th August 1946]

"In regard to aided institutions and other smaller institutions, they will be able to pay the teachers more only if the Government give them more grants.

"While on this subject, I should also urge on the Government to give liberal grants for new school buildings. It is time that Government revised their Government Order and gave facilities for new schools to come into existence and for new buildings to be built up. It is no use, Sir, saying that students should be admitted into the colleges without finding out whether the necessary equipment exists; otherwise, the standard of education in these colleges will go down still further. While we may have great enthusiasm for elementary education and regional languages, we should see at the same time that higher education is not starved. That is my only fear; if you don't encourage higher education, you won't have sufficient teachers to spread elementary education.

"Sir, we are now living in days of post-war development schemes and it is an admitted fact that most of the post-war development schemes and planning schemes are formulated by the Government of India. Probably just now there is a lull in the Government of India's activities. So far as this Province is concerned, but I am not sorry about it; for in the earlier months, the impression has gone round that Madras was not getting a fair deal at the hands of the Government of India's Planning department. We are talking about regionalisation of industries and we are yet to know what the position of South India will be in that main All-India scheme. We would earnestly urge on this Government and the Minister for Industries to be on the alert and fight with the Government of India for more industries being started in this part of the country. Unless a strong plea is put forward for more industries and more machinery for this Province, there would not be much of post-war development in this Province. I would not go further into this subject except to refer to the Industrial Finance Corporation mentioned by the Prime Minister in his Budget speech. It is no doubt a welcome thing, but I would plead for a full consideration of the subject before a final decision is reached by the Government. Sir, we who know something about the setting up of the State Aid to Industries organization and the working of it, know what has happened in this Province. I do not think it was as much a success as one would have desired. To-day we have to find out what kind of organization would suit our provincial conditions. As has been pointed out by my hon. Friend, Mr. Natesan, the other day, the Indian mercantile community may be consulted as to whether it should be divided into two parts, i.e., one organization to financially assist the industries; and the second, not only to financially assist them to some extent but for the Government also taking a share in the control and management of the industries. There are certain industries capable of Government supervision and control and there are others which are not. Whether the Government are

[Kumararaja Sir Muthiah Chettiar of Chettinad]

5th August 1946]

going to set up one organization to look after both the parts or two organizations to look after each one of them, is a matter which the Government should consider in due course. I only plead for the present that the Government should consider the question fully and also consult commercial opinion before they finally formulate their plans for the Industrial Finance Corporation.

"Sir, permit me now to refer to the ports of this Province. The Hon. the Minister for Public Works while answering the other day some questions regarding minor ports said that he is thinking of opening up all minor ports in this Province. Sir, the development of minor ports is a very essential thing for the development of our commerce and trade. There is going to be enormous coastal trade in South India in the near future and it is essential that all the minor ports should be opened up. Hon. Members who were in the last Assembly in 1937 to 1939 may remember the Minor Ports Fund being wiped out for some reason; it was an unfortunate thing. Let us now at least ask the Government to revive that Fund. I am glad to be told that the whole of the Minor Ports Fund was not wiped out, but that only Rs. 25 lakhs was taken out of it and that the balance still remains in the Fund. I shall be glad if whatever remains will be supplemented by further grants from the Government and the Government of India also may be asked to come to our aid and see that the minor ports in the Province are opened up and developed.

"Sir, the Budget as presented to the House, taken by and large, is as satisfactory as one could wish under the existing circumstances and Members in this House should, I think, assure the Ministry that they will have the support of the House in carrying out the various measures mentioned in the budget. Sir, the Ministry have just assumed office; let us wish them all good luck and assure them of our fullest support and let us hope they will usher in an era of peace, prosperity and plenty."

M. A. SALAM SAHIB BAHADUR:—"Mr. Speaker, Sir, I should like to associate myself with what Mr. Abdul Hameed Khan and Mr. Baig said that this Government, in presenting this budget, has not been wholly responsible but only to some extent. This has to be said because the Prime Minister has taken pains to mention that it is a responsible Government that has occupied the Treasury Benches. I have to mention, Sir, that the Ministers have just returned to the Treasury Benches from jail, that they have put all their ideas here without putting them in proper form. They are in a hurry; they are every day passing executive orders without knowing even the opinions of their own partymen; for instance, Mr. Kumaraswami Raja is not to be seen here. Sir, the party to which I have the honour to belong is very anxious to support the Government; but the lesser Gods in the Congress Party, namely, individual Ministers are spoiling the Premier's efforts, and the more experienced of them are not allowing this party, by their very answers given on the floor of the House, to co-operate with them as far as possible.

[M. A. Salam Sahib Bahadur] [5th August 1946]

"Again, Sir, this House was very anxious to support the Ministry in the matter of prohibition; but again this morning the Premier comes up and announces that, not one or two but in four more districts prohibition will be introduced. In this way, where is the finality for any budget, I ask? A provincial budget is prepared and placed before the House with all seriousness. If the teachers in this Province or the scavengers of this Province can secure the support of a C. Rajagopalachariar of any other High Command God, the budget is sure to be changed again. What is the purpose of this budget; what is all this discussion useful for, for three days, if the budget is going to be changed overnight without any ceremony? The Premier has announced that he is going to have prohibition in four more districts, but he has not told us how he is going to find the money for it. I do not know what all changes are still going to be made. How are we to produce the money?"

* THE HON. SRI T. PRAKASAM:—"Fresh taxation is proposed, Sir."

M. A. SALAM SAHIB BAHADUR:—"Fresh taxation is not a news to be announced like this; it is a very important thing and the House should be taken into confidence. Why not the Premier postpone the introduction of prohibition in four more districts if fresh taxation is to be made? Will the Premier give an assurance that four more districts will be taken up only after having fresh taxation? The former Congress Government, under the so-called able guidance of Mr. C. Rajagopalachari, even though they were in power for three years, could introduce prohibition only in three districts then. Even though I belong to the party which supports prohibition, I ask where is the hurry? The previous Congress Government was able to introduce prohibition in three years only in three or four districts. Unless they have other motives or want to upset the budget . . ."

SRI P. NATESAN:—"On a point of information, Mr. Speaker, Sir. Is it in order to revise taxes or to arrange for fresh taxation when once the budget has been presented?"

* MR. SPEAKER:—"Are you raising a point of order?"

SRI P. NATESAN:—"On a point of information, Sir. For the information of the House, I would like to know if it is in order to say that fresh taxation will be resorted to when once the budget has been presented?"

* MR. SPEAKER:—"The Hon. the Premier will answer now."

* THE HON. SRI T. PRAKASAM:—"It is perfectly in order, if circumstances demand, and the House has to be informed about it."

M. A. SALAM SAHIB BAHADUR:—"I agree, Sir, that it is perfectly in order . . ."

* THE HON. SRI T. PRAKASAM:—"It is perfectly in order if circumstances demand it and the House has to be informed of it."

5th August 1946]

M. A. SALAM SAHIB BAHADUR:—"I agree that it is perfectly in order but when once such a demand is acceded to and as the Premier is known for his doggedness, anything can be done by him without reference to the House. I therefore appeal to the Premier that in future he will not have recourse to any fresh proposal for taxation without consulting the opinion of this House or the public. It really surprises me to see in the papers that one of the European officers has been appointed to control prohibition. Only the other day the Leader of the European Group said that they do not believe in prohibition and it really passes our comprehension to place an officer who comes from Europe to control prohibition. A question has already been sent for an answer on this matter whether this officer while working in the prohibition area will be given exemption from prohibition rules. Considering this matter, I would ask the Hon. the Minister whether he cannot find a suitable Indian who has got belief in it and not belief in his salary alone to do the job."

"Again, in the matter of education, Sir, it is a question which has been agitating the public of this province—not in regard to the policy laid down by the Minister who has agreed to send out a questionnaire but because of the haughty and absurd answers given by the Hon. Minister for Education. . . ." (Cries of 'Order, Order' from the Congress Benches.)

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"I do not know what the hon. Members mean when they say 'Order, Order.' The word 'absurd' is parliamentary."

SRI K. VARADACHARI:—"On a point of order, Sir. The use of the word 'absurd' is unparliamentary."

* MR. SPEAKER:—"Will you kindly withdraw the word, Mr. Salam?"

M. A. SALAM SAHIB BAHADUR:—"Mr. Speaker, Sir, I humbly submit that the word 'absurd' has been used in this House by the Hon. the Premier himself the other day."

* MR. SPEAKER:—"Simply because he has used the word, you should not repeat it. When I say it is an unparliamentary word, you should obey the Chair and withdraw the word."

M. A. SALAM SAHIB BAHADUR:—"Before obeying you, Sir, I would like to know . . ."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"No. No. We will withdraw from this House. You know, Mr. Speaker, that it is not an unparliamentary word."

M. A. SALAM SAHIB BAHADUR:—"If it is unparliamentary, it is unparliamentary for all. It was used by the Hon. the Premier the other day."

* MR. SPEAKER:—"If you had pointed that out to me then, I would have asked him to withdraw the word. Will you kindly withdraw it?"

SRI K. VARADACHARI:—"If he does not withdraw it, the Speaker must enforce it."

[5th August 1946]

* MR. SPEAKER:—"I know my duty. The hon. Member need not remind me about it."

M. A. SALAM SAHIB BAHADUR:—"Before I do anything let me explain. Yesterday there was a question whether manure has been given only for those persons who got permits from Congress officers. The Premier then said that it was absurd."

* MR. SPEAKER:—"Why did you not point that out to me then. I would have asked him to withdraw. Mr. Salam, please withdraw the word."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I request the Hon. Speaker to ascertain whether it is unparliamentary or not? As far as I know it is not unparliamentary."

* MR. SPEAKER:—"I know it is unparliamentary."

M. A. SALAM SAHIB BAHADUR:—"If the Premier assures the House that he will not use the word in future, I have no objection to withdraw it."

* MR. SPEAKER:—"The Premier will explain the position."

* THE HON. SRI T. PRAKASAM:—"Mr. Speaker, Sir, everything depends upon the emphasis laid upon the word. It will be perhaps one of the mildest expressions in certain circumstances if it is not coupled with so many other things with a view to make it more ridiculous. Therefore my submission is that as a matter of discipline when the Speaker says that the use of that word at present was unparliamentary, there is nothing lost if any of us should at once comply with his request and withdraw the word. Owing to the heat that was imported into the word and the manner and other circumstances, the Speaker was forced to say that it was unparliamentary. Ordinarily the word may not be unparliamentary."

* MR. SPEAKER:—"It is unparliamentary. Will you kindly withdraw and continue the speech?"

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Am I to understand that in obedience to the request of the Hon. Speaker, the Premier has withdrawn the word 'absurd'?"

* MR. SPEAKER:—"Yes."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"But I did not understand it so from the Hon. the Premier's explanation."

* MR. SPEAKER:—"If he has used it to wound the feelings of your block he will withdraw it."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Let the Premier say so, Sir."

* THE HON. SRI T. PRAKASAM:—"I must have used that word under a different set of circumstances which would not have given any offence to any one. That was why it passed on and if the Speaker had then called upon me to withdraw it, I would have withdrawn it unhesitatingly."

* MR. SPEAKER:—"Mr. Salam, will you please withdraw the word?"

[5th August 1946]

M. A. SALAM SAHIB BAHADUR:—"I withdraw the word, Sir, in obedience to your wishes."

"Sir, the Education Minister has answered certain questions from which it can be clearly seen that he was familiar with some ideas—we do not know where he got them from—very dogmatic ideas. He said he would send out a questionnaire and get answers and then initiate the policy. But I understand he has already passed some orders and it passes our comprehension to find out that orders have actually been passed though when a question was asked in the Assembly, he said that the answer was being prepared. One fine morning, we have seen in the papers that 20 per cent of seats are reserved for 'merit.' What does the Government mean by merit! Merit in England is different from what the Congress Party mean. I think many of the members on the Treasury Benches have got a crude conception of the word 'Merit.' They want to apply the rule only to one community which is only three per cent and which has monopolized during the last 150 years and got the benefit out of it. I know the Treasury Benches are anxious to help the Harijans by granting lakhs and crores of rupees for their uplift. Why not give more seats to the Harijans. On behalf of my party, I request the Hon. Minister to give an assurance to us if he is really anxious to do something for the uplift of the Harijans or whether this is going to be merely political propaganda. We must have a change of heart. Unless there is a change of heart among the caste-Hindus even if you uplift the Harijans, it is not going to do any real benefit to that community. Without a change of heart, and change of conscience on the part of your own people, nothing will happen. You want to give lakhs and crores simply as advertisement as it is being done in every other province. It is really on the authority of somebody else. I think one more crore is necessary to educate the caste-Hindus to behave properly towards the Harijans. (Hear, hear.) If you want to do real justice, have one more crore if you like for this purpose; tear all your Vedas and Bhagavat Gita where there are injunctions against Harijans; tear all your Sastras, so that you can do something for the Harijans. I shall then be very glad and I will be one with you."

"Again, Sir, our party has been very anxious to know whether we have a share in the Government of the country or not, to help the Government in the matter of food. Very crude ideas have been put forward about Charkas and village committees. We have sounded a note of warning already on this. We have gone to the constituencies and what we found there was only a political camouflage. Only local Congress M.L.As. go to the officers concerned and see that their own persons are included in those Committees. Let the Premier deny that there have been no complaints regarding this matter? Can he show any Muslims who are in power and who are returned as the representatives of the Muslim community and not as mere 'show-boys' given places in those Committees. We are not anxious for these seats even as we are not very anxious for the seats in the Central Government

[M. A. Salam Sahib Bahadur] [5th August 1946]

itself. But we are anxious that the show-boys who are there will not be in any real position. We know the real position. To-day I say on behalf of the Muslim community and also I know as a member of the All-India Muslim League that the mother-tongue of the Muslims of the Andhra Desa is Urdu and not Telugu though the Hon. Minister for Education may not know this.

"Again, three crores have been provided for Khadi. That really shows that the party which is in power is groping in the dark and trying to put the clock back. They are trying to manufacture as stated in the Textile Commissioner's report one lakh of Charkas. I do not know in what way these Charkas are going to be utilized. Then there will be compulsion. The other day, the Hon. the Premier, when a question was put to him, contradicted it by saying that there will be no compulsion. Now I find that there is compulsion in one form or another. It means that unless one learns the use of the Charka, there will be trouble. Otherwise, the only way to save myself is to find a substitute. Sir, is this not compulsion? Why compel people to do anything against their will. If you are going to compel—as you are adepts in doing that—we will adopt our own methods and I am sure we will succeed. Again, Sir, as regards Khadi . . ."

* THE HON. SRI T. PRAKASAM:—"I may tell the hon. Member that there is no element of compulsion in the scheme now placed in his hands and in the schemes that we are going to place in the hands of hon. Members. It is merely offering money to those who are not able to help themselves in return for considerations and there is no compulsion in it; it does not come in anywhere in the neighbourhood of the word 'Compulsion'."

M. A. SALAM SAHIB BAHADUR:—"I am glad to hear the Hon. the Premier's explanation of the word 'Compulsion'. When questions of Finance are taken up I ask why not give us an opportunity to find out ways and means of finding money for your schemes and not waste so much as you have done. You say you are going to introduce prohibition in four more districts. How are you going to find the additional three crores for this purpose? Are you going to select district after district without any reference to this house and without the consent of the public but only at your own party meetings? If we are also consulted about it, we can also play our part. As one belonging to Guntur, I would prefer Ongole being selected for this. Therefore, instead of wasting these three crores, we have no objection if you utilize these in the new districts selected for prohibition.

"Again, Sir, in regard to the question of financial corporations, no details are given but only the name is given. You are adepts at copying. The Congress has been condemning copying. They are constantly copying everything and Mr. Natesan has given facts and figures to show that this lump sum will not do. Is it Mr. N. S. Varadachariar or somebody else's affair? Is it just like the All-India Khaddar Association? Is it going to be a

[5th August 1946] [M. A. Salam Sahib Bahadur]

political monopoly on a very limited basis? Are Government going to waste money on political propaganda or are they going to invest their money on a sound financial basis? In spite of what Mr. Natesan has pointed out that no lump sum grants are made to such associations in England, are you going to waste money or are you going to place this Corporation on a sound financial basis. Before the Hon. the Minister in-charge replies to this, I hope the Hon. the Premier will come forward with the requisite details in the matter.

"Again, Sir, in regard to the Medical Department in almost all the departments, nothing has been said. In this matter, fortunately or unfortunately, we have a member in the Treasury Bench who believes in oldest things simply because he is himself old. If there are Ayurvedic and Unani hospitals, I ask, how many of us will go to those hospitals; how many members will go to the General Hospital? I do not understand the over-anxiety of the Hon. Minister in the matter; I was told that she has already appointed a special officer for Ayurveda who does not know anything about medicine."

* THE HON. MRS. LAKSHMIPATHI:—"On a point of explanation, Sir. It is said that a Special Officer has been appointed who is a non-Medical gentleman. This gentleman has been appointed purely for the purpose of reorganizing Indian Medicine, and for the purpose of reorganization, a medical man is not essential since his functions are merely in connexion with starting of colleges and schools and research institutions."

M. A. SALAM SAHIB BAHADUR:—"The explanation of the Hon. Minister is self-explanatory. It is stated that a non-Medical man has been appointed to start Medical colleges but he does not know medicine. I am told he has been imported from a State. I request the Hon. Minister to provide more beds in some of the hospitals instead of going back to antiquated methods.

"As regards the separation of the Judiciary from the Executive, no doubt attempts have been made and statements issued without any idea. It is a pity that I have to say that steps taken by the Law Minister are intended simply to create a body to go into the matter of separation of Judiciary from the Executive. I do not know why he has not chosen to include members of my community on the committee appointed to go into this question. In such circumstances, it is impossible for us to co-operate and it is impossible for anybody to understand the policy. You have a non-official private body—a sovereign body just like the Constituent Assembly though some of my friends do not believe it to be sovereign—created by you to go into the question and to submit its report. In that body, you have not included even one Muslim. When such is the case, how do you expect co-operation from us? Separation of the Judiciary from the Executive is a very special matter and we hope that our rights will not be safe in the hands of any Committee in which no Muslim is included. I hope the Hon. Premier will take early steps to remedy this defect.

[M. A. Salam Sahib Bahadur] [5th August 1946]

"One word more and I have done. Sir, the entire Andhra members have been disappointed to see that only five lakhs have been provided in the Budget for the Andhra University and ten lakhs for the Annamalai University. Is it for this that we have been sitting all these days? No step-motherly treatment should be meted out to the Andhra institutions. Sir, some money has been allotted for the Financial Corporation. I ask the Premier why some more money is not spent on the appointment of a Fact Finding Committee in regard to the separation of the Andhra Province. If the Ministry is really sincere about it, this Budget should have done something for the appointment of a Fact Finding Committee in pursuance of the resolution passed in conference after conference demanding a separate Andhra Province. I ask the Government why they have not done anything in the matter. Will they kindly include some provision in this Budget for this as they have found money overnight for prohibition.

"Again, Sir, I want to close with a wish which the Leader of the Independent Party expressed and that is, we cannot be quarrelling always and if opportunity is given everybody will rise to the occasion. We must close our ranks soon before something happens, before things take a different turn. As stated by Mr. Hameed Khan we have to close our ranks and do something beneficial to the Province instead of frittering away the finances of the Province day in and day out in a very hasty and crude manner."

* SRI A. B. SHETTY:—"Mr. Speaker, Sir, the framing of the Budget on an occasion like this could not have been a light task for the Ministry. The Minister for Finance has to grapple with several difficult post-war problems which require urgent and serious consideration. The chief among these are first, the three shortages that have emerged out of the war—the shortage of food, shortage of cloth and shortage of housing. Second, the demand for increased wages, salaries and allowances as a result of the high prices and increased cost of living that we are having at present. Third, unemployment due to the cessation of war-time activities. In addition to these, the Budget has to provide for the first instalment of post-war schemes of reform and reconstruction. New and additional sources of revenue have to be found to meet the pressing needs of the present and for the large-scale demands of the future in regard to post-war schemes of development. I think, Sir, these are the essential tasks which face the Ministry at this juncture. Let us briefly consider how they have been tackled in the budget. Regarding shortage of food and cloth, the Ministry have taken several measures and the success of these measures are being watched with anxious interest all over the Province. It is our duty to give our hearty co-operation to the Ministry in the efforts they are making to tackle these two difficult questions.

"Regarding shortage of housing, the matter is still under consideration. The acute shortage of houses is one of the difficulties created by the war. Though it is nearly a year since the

[5th August 1946] [Sri A. B. Shetty]

war came to a close, the difficulty is still there. Now nobody can deny the fact that provision of adequate housing, especially for the poorer section of the people, for the industrial workers, is very necessary for their health and well-being. Government have taken little interest in this matter so far. The Bhore Committee has rightly said that the programme of housing is one of the major problems in this country and Government, both Central and Provincial, should attack it with all the resources at their disposal. They have suggested the creation of a separate Ministry in each province for Housing and Town and Village-planning. We have thirteen Ministers at present. One of these Ministers can be put on this important job of carrying out a provincewide housing and planning policy. If this is done, Madras will be giving a very good lead to the other Provinces. Government ought to see that a comprehensive programme of house construction is launched upon by local authorities, improvement trusts and co-operative housing societies. Financial assistance should be given to them in the form of grants-in-aid and loans at easy rates of interest for this purpose. The provision of adequate housing, especially for the lower income groups in cities and industrial areas, will meet a keenly felt want of the people and it will also provide work during these difficult times and serve to maintain employment at a desirable level.

"The next matter that needs urgent attention is the demand for increased salaries, wages and allowances which is coming from all quarters. Strikes have become the order of the day. This demand is the natural outcome of the high prices and increased cost of living that we are having at present. Government must take prompt steps to control prices of all essential articles of daily necessity and reduce the cost of living. Otherwise they must be prepared to spend large sums of money to satisfy the legitimate demand of the men in the lower grades of service as the Central Government have had to do in meeting the demands of the railway people and the postal employees. If Government do not control prices, they will have to incur huge expenditure for raising the salaries and allowances of their low-paid employees. By doing so, they will be depleting the Budget and they will find it very very difficult to provide sufficient finances for the many schemes of post-war reconstruction and development which are so vital to the welfare of our country.

"Labour unrest has become a grave menace to the peace and prosperity of the country at present. Some of the labour leaders are exploiting the economic grievances of the workers and are creating quite a dangerous situation. All the same, this Ministry must remember its obligation to labour and they must fulfil our party's election pledge to improve the lot of the common man. The Ministry must see that in this Province we have an Industrial Disputes Act as they are having in Bombay. Strikes should be averted and not allowed to occur. We must have an effective machinery of conciliation to deal with disputes as they arise. More than that we must try to prevent strikes by promoting well-considered schemes of labour welfare.

1-15
p.m.

[Sri A. B. Shetty] [5th August 1946]

"It is said, Sir, that the two main causes for many of the ills from which we are suffering are overpopulation and under-production. We must take measures to restrict the growth of population and see that it does not grow beyond the means of subsistence. We must also take necessary steps to develop the resources of the country, both agricultural and industrial. Post-war planning and development is meant to increase production and to provide a higher proportion of employment. It is the duty of the Ministry to increase production, to develop national income, to augment the resources of the State and to spend increasing sums of money in expanding education, in extending medical relief and in such other ways as will raise the level of life, both material and cultural, of the people of the country, and particularly the masses inhabiting the rural areas. This should be the acid test by which we are to judge the merit of the budget and the success of the present administration.

"Before I conclude my remarks, I wish to say a word concerning my district of South Kanara. It is a district whose interests have been neglected for a very long time. Our cry has been a cry in the wilderness. South Kanara is at the tail-end of the Province and its needs are not given the attention that they deserve. We have long been making a demand for establishing in our district a number of minor irrigation works and for the supply to cheap electricity. But our interests have been neglected. I trust that the Hon. the Premier will be pleased to pay more heed to the needs and demands of this backward district at least in future."

* SRI PILLALAMARRI VENKATESWARLU:—"Mr. Speaker, we have not had an opportunity all these years for scrutinizing the budget. We have now before us the budget of a popular Ministry. In offering our remarks regarding the details of the budget, we have to take into consideration the purposes for which provision has been made and the schemes that have been adumbrated, and we have to remember the circumstances under which the budget has been prepared. We must take into consideration the growing unrest amongst the people of our country, the grievances of the workers and the resulting strikes. Up till now, the Advisers' Government did not care to take into account the grievances of the people and they merely carried on the administration. But now we have got the opportunity of giving expression to our views. The popular Ministry is in power and the people are anxiously waiting to see the solution of their problems. There is the problem of food and cloth. But I am sorry to say that the people's Government have not cared to solve the problem in the people's way, that is, in the interests of the people. There is the question of irrigation facilities, the abolition of the zamindari system and developing the industrial resources of the country. None of these, I fear, has been tackled in a satisfactory manner.

"Now let us take the question of the food policy of the Government. During the last session of the Assembly, the Hon.

5th August 1946] [Sri Pillalamarri Venkateswarlu]

the Premier promised that he was going to set up Food Committees which would revolutionize the whole situation. What has happened? He said that Food Committees were not a party affair and that they would be non-partisan bodies. But most of the committees have become partisan affair filled with Congressmen. How are they? A number of representations were made to the Hon. the Premier about abuses but they have been thrown into the waste-paper-basket and none of them were replied to. It looks as if such things will be going on for ever. I can give you, Sir, a catalogue of event after event, particularly with reference to Kistna district, of Congressmen intervening over the head of officials in effecting the formation of Food Committees in their own way. In Gannavaram taluk for instance of the 278 members of the various Food Committees, it will be amusing to know that only 12 men are non-Congressmen. Many instances of this nature can be brought to the notice of the House if given time. These committees, if anything, seem to be partisan committees where Congressmen only can serve and it is nothing more than this, Sir, that they are carrying out their own programme. The unsocial elements like black-marketeers and greedy capitalists and landlords are not wanting who take advantage of the partisan attitude of the Committees and they try to sabotage the work of the Food Committees and sabotage procurement. Let me give you another instance of intervention of Congressmen in the formation of committees. The presiding officer in Bhatlapenumarru with the consent and unanimous decision of all present, formed the committee but in spite of that overnight the whole list was revised to give room for the names recommended by the local Congressmen. I am not so much complaining of the absence of the members of my party on these committees, though they have a right to be there by virtue of our services to the people and next to Congress for its influence among the masses. But what do we see there? The plan seems to be to shut out all people belonging to any other party except the Congress and the local Congress bosses see to it that their henchmen get in. I do not know if this will help rationing or procurement. I fear that a partisan outlook will not solve the problem. Just now we have had a cut in ration and I do not know if in the next session the Hon. the Premier will announce yet another cut of 2 or 3 ounces. If the present policy is not going to be changed, I do not think there is any possibility of restoring the cut in rations. I appeal to the Hon. the Premier and to the other members of the Treasury Benches to reverse the present policy of adopting a partisan attitude in the formation of Food Committees. Let the members of other political parties serve on the committees. There is no harm in obtaining their co-operation in the formation of the Food Committees. If that is done, I assure you that procurement will be speeded up; hoarding will be checked and hoarded food will be unearthed and the cut in ration will be restored. Unless this is done, there is no possibility of a satisfactory solution of the food problem. I feel, Sir, unless there is total procurement in all the

[Sri Pillalamarri Venkateswarlu] [5th August 1946]

districts, there will be no proper distribution and unless there is total procurement there seems to be no meaning in imposing a cut in rations. So far as Rayalaseema is concerned there is no total procurement and without introducing it I do not know why the Premier announced a cut in rations. Then there is the non-statutory rationing. It is no ration at all. The ration shops open only on certain days; every week for two or three days the shops are closed. My suggestion is that there should be statutory rationing in all areas both deficit areas and surplus areas and in villages also and there should be total procurement everywhere. Then only there is a possibility of acquiring enough for our food and not till then.

"The Advisers' regime launched a campaign of 'Grow More Food' and introduced the system of grants for sinking wells. The test by which the present policy and success of the Government of the day is to be judged is by the further steps they have taken to bring more waste lands under cultivation. The Ministry, I am sorry to say, did not introduce any further measure than to merely sanction a subsidy of Rs. 500 for wells sunk within a certain period. It is common knowledge that a well costs more than Rs. 2,000 in the Rayalaseema districts and against this what is the grant that the cultivator receives? Rupees 500 only and even this amount will not reach his hands in full. Everybody knows that a portion of this goes into the pockets of Government officials in charge of this department. What the poor ryot will be able to do with Rs. 200 or Rs. 300 when more than two thousand rupees are required is beyond my understanding? Government must boldly come forward with a more substantial subsidy. Another point which I wish to raise is: 'Why not the Military personnel be employed to sink these wells?' They could during this peace time with profit to the country make use of their powder for blasting stones and providing water for the people to carry on agricultural operations rather than use them for practice purposes and breaking the skulls of the people. I request the Hon. the Premier to arrange that Military personnel are made use of for sinking our wells."

* MR. SPEAKER:—"The hon. Member can resume his speech after the House re-assembles after lunch. The House will now adjourn till 2-30 p.m."

(After lunch.)

2-30
p.m.

* SRI PILLALAMARRI VENKATESWARLU:—"I was telling, Sir, about the cut in ration when the Assembly adjourned for lunch. We should have a sound procurement policy. The Government have practically done nothing so far as regards procurement. Can the Government place on the table of the House from how many merchants they were able to get stocks of paddy? Can they say how many blackmarketeers they were able to book? There is no information on this score also. In fact, Government have done nothing so far. First of all, before introducing the

[Sri Pillalamarri Venkateswarlu] 5th August 1946]

ration cut, I would suggest there should be effective procurement of foodstuffs. Then only we should think of a ration cut. I know in Gudivada taluk, there is enough stock of paddy with grain merchants; they are all stored in godowns. So I suggest the whole food policy of the Government should be re-organized; and black-marketing should be detected and put down with an effective hand.

"In regard to the cultivation of waste lands, I want to say a few words. In this presidency there are hundreds of acres of waste lands. In Andhra Desa alone there are forty lakhs of acres of waste land. What is the Government going to do with them? Are they going to wait till this province also is devastated by famine as Bengal! I hope the Hon. Premier will take immediate steps to prevent famine in this presidency.

"As regards Minor Irrigation Scheme, the policy of the Government is only halting. For instance, I will bring to the notice of the Government two instances. For the Pedalanka channel the estimated cost is Rs. 13.18 lakhs, but Government have allotted only Rs. 3.5 lakhs. For the Romperu Drainage Scheme the estimate is Rs. 92 lakhs but the amount provided for is only five lakhs. I ask, 'for how many years does this Government propose to pull on in this way?'

"In the zamindari area, tobacco is being cultivated on paddy fields even though there is a ban on such cultivation. Most of the tanks in the zamindari area are not repaired. Thus Grow More Food is seriously affected. Now is the time to abolish the zamindari system. It is a welcome sign from the Government bench to hear from Mr. N. S. Varadachari that they are willing to abolish the zamindari system. I am for abolishing zamindari system without compensation. Unless the zamindari system is abolished there is no hope for solving the problem of food shortage. If there are any obstacles in the way, we, people are willing to back up the Hon. Premier in his scheme.

"As regards provision for minor irrigation schemes only Rs. 1.62 crores are provided, which is thoroughly inadequate. Of this amount, a major portion will go to the Tungabhadra Project, and the balance of Rs. 27 lakhs will remain for the rest of the schemes. Unless the Sangameswaram Project and the Middle Pennar Project are completed, we cannot save Rayalaseema from famine. To complete these schemes, even if all the Reserve Fund is to be exhausted I do not mind it.

"During the last session, Government said that they are offering bonus to peasants to induce them to sell their paddy stock. I have to say the peasant could not get this bonus because the merchant came in his way, and he brought so many hindrances. I can give several such instances if only the Hon. Premier is prepared to listen. Another important factor which could not be found in the budget is about fodder. Everybody knows that cattle are dying in Rayalaseema on account of scarcity of fodder.

[Sri Pillalamarri Venkateswarlu] [5th August 1946]

The Kistna Ryots' Association are offering to supply fodder; but there is nobody to take it up and implement. There is inordinate delay on the part of Government to move in the matter. The Association now tells me that their offer has not been accepted by Government. Even now, the Provincial Government has not taken any steps to secure fodder for Rayalaseema. As regards the transport question, why not Government commandeered military lorries and vehicles and solve that problem?

"Another important thing I want to mention is about our industrial development. Everybody knows that unless our country is developed industrially there can be no salvation for our people. To solve unemployment problem, to develop our agriculture on scientific lines, industrial development is the best solution. I find nothing in the budget about this. I find only a mention about the manufacture of bangles. I do not know who is anxious to have these glass bangles nowadays. In Rayalaseema, where cotton is grown in abundance, any number of textile mills can be started, both spinning and weaving. How is it Government are keeping mum in this matter? In Bombay, Bengal and other provinces we find new textile mills and industries springing up in spite of the fact they are vociferous about Khaddar production and Khaddar is encouraged by leaders. What I suggest is, why not Government come forward with new textile mills, particularly in Rayalaseema, and save our country from unemployment. We see several weavers starving. Even yarn is going into blackmarket. The Government to-day have no plan to supply yarn to weavers. Of course they have the Khaddar programme. I do not want our province to be experimented upon in this venture. The scheme is bound to fail and it will be all a waste of money. In other provinces where there are mills even big leaders of people have shares in them. Why not our province too have industrial development? So what I suggest is our country must be industrialized forthwith.

2-45
p.m.

"Our country must manufacture not bangles. We must have industries which will clothe our people and provide our other needs. So, I suggest that industrialization is a most important thing. Unless our country is industrialized, our agriculture will not develop. To develop our agriculture and to make it more scientific, I say that the country must be industrialized immediately. It cannot be delayed. In to-day's paper we see that the Central Government have raised a loan of 20 crores. Why should not this Provincial Government raise a similar loan? The people will come forward boldly to subscribe to the loans. So let us come forward with a scheme immediately and see that all these things are done here and now.

"As regards Harijan uplift, we wholeheartedly support everything done for Harijans. During the election time, I saw with my own eyes in Chirala the people of this community were not allowed to go to the hotels. We have to know this fact to our disappointment. Will the Government come forward with

[5th August 1946] [Sri Pillalamarri Venkateswarlu]

measures to effectively punish the people who prohibit this community from entering hotels? The Harijans are backward. Unless their social status and economic conditions are improved, there is no hope for them. The Congress particularly should see that their social position and economic condition are improved. There must be a living wage fixed for them. Unless waste lands are given to them for cultivation and also help is given for cultivating the lands their position will not improve, and untouchability will not go. Educationally also, they are backward. They must be educated more. May I ask the Education Minister here and now whether he is prepared to do anything to uproot illiteracy from this backward community? There is not a single satisfactory answer that he has given except that the people of this community will be given as much opportunities as are given to other communities. That is not at all a satisfactory reply. What I suggest is that this community must be shown special favour. Special provision must be made for the education of this community. Unless they do this, there is nothing else that the Government can do to uplift the condition of this community. So immediately provision should be made for their education, and the Government must see that they are given special privileges. They must also be paid stipends. Unless the Government come forward with a plan, they cannot carry on the programme of Harijan uplift. Now the Government have got a chance to spend one crore of rupees. If necessary more sums must be provided, but we must see that these sums are expended in a manner that will not create suspicion. The Government must come forward to appoint a committee consisting of members of all parties to see that this money is spent in a proper manner, instead of giving it to the Harijan Sevak Sangh or any other political organization.

"As regards education in general, everybody knows that the country is backward. What is being done for education? The educational policy is intimately connected with industrialization and the development of agriculture. Of course the Government have said that the Hindustani Talimi Singh's policy is going to be adopted. It is not going to be of any use. It is not going to give people scientific education. The Government will be taking our children back to two thousand years. In these days of radios and atom bombs and advanced scientific inventions, what is the use of going back to two thousand years? I suggest that this policy of basic education must change, and a more scientific view must be taken as regards this.

"Then I would like to bring to the notice of this House one of the greatest injustices prevalent in the whole province. I do not know why preferential treatment should be shown to these Europeans whom we have asked so many times to go away. In spite of that, they are still here. Rs. 12 lakhs have been allotted for their education. What for? For the whole Province, the Government have provided 25 lakhs for secondary education; out of this, 12 lakhs are allotted for European education. Why? I ask the Prime Minister to cancel this just as he has changed his

[Sri Pillalamarri Venkateswarlu] [5th August 1946]

prohibition policy by adding four more districts. I request the Prime Minister to cancel this item of the budget. Moreover, the Europeans are rich, they can afford to educate their children, and they can have their own schools and colleges with their own funds. Why should they want our colleges, they who are not at all wanted in our province?

"I want to bring to the notice of this House another injustice done particularly to the Andhras. It is my duty to bring to the notice to this House that the Andhras are not satisfied merely because of an Andhra becoming their Prime Minister. It is nothing for us to have an Andhra Prime Minister. Because he is a great leader he has sacrificed much, we want him to continue in his Prime Ministership. We want more than that. What we want is that an equitable distribution at least should be given to the Andhras also. Now as regards education, I wish to bring to the notice of this House that for the Andhra University only 5½ lakhs have been provided, and for the Annamalai University 12½ lakhs. Why this disparity?"

* MR. SPEAKER:—"Mr. Salam stated that particular point, and the hon. Member need not repeat it."

* SRI PILLALAMARRI VENKATESWARLU:—"I am putting it from an entirely different angle."

"Why this disparity? In Andhra Desa most of the colleges are in the mofussal. If he is going to allot any more, are we not entitled to it? The Hon. the Minister for Education, since the last two or three days, has refused to answer a definite question. He is unwilling to take the whole House into his confidence in a manner perhaps insulting to the House. The Madras University is given 8½ lakhs. About 20 to 22½ lakhs are being spent in Tamil Nad, and only 5½ lakhs for the Andhra University. Moreover, is not the Andhra paying revenue at least sufficient to meet its expenditure? This is a problem which every leader has to face. So much of Provincial quarrels are going on nowadays. All this can easily be avoided if the budget provision is distributed equitably, and provision is made for the formation of a separate Andhra Province now and here itself."

"I will just mention a word or two about the subjects I have to deal with."

"Coming to medical budget, I have to congratulate the Minister for Education for providing one college for the Guntur district. In Rayalaseema there is no medical college. They have to go to Vizagapatam or Madras. Instead of giving grants to other colleges, why cannot he start colleges at least where there is none. Instead of building more colleges in Madras itself, I suggest that some of the colleges should be in the farther corners of the province, so that they will be nearer to the people so that much money need not go to the hotel-keepers and so much room rent need not be spent in Madras. I suggest a fair distribution of educational institutions. At the same time I would like to bring to the notice of the House an injustice. The provision for the Vizagapatam Medical College was not properly made. I do

[Sri A. S. Sahajananda]

not know why the Government did not give permission to raise the number of seats in the Vizagapatam College. Our ration has been cut down, and the health of our people is deteriorating. In the circumstances we will require more doctors. Then why should not the Government permit raising the number of seats in the Vizagapatam Medical College, and thus help to produce more doctors? The Government must immediately see that the number of seats is raised and more opportunities given to students to study in the medical college."

"A word on public health. Public health is almost non-existent. Where is public health? All our people are dying like flies. From the Government reports I can quote here:—

It is a melancholy fact that every country in the world is afraid of India because of infectious diseases. India has the highest death rate in the world, the highest infant mortality, and the lowest expectation of life.

Even though they are afraid to come to India, yet they are coming to rob us. They are robbing us. There is no public health in India, and the money allotted to safeguard our public health is only one-sixtieth of the budget. Police is given four times this amount. One-sixtieth of the budget has been allotted for public health, where there is no public health at all!

"Now a word about local bodies. It is long since elections were held. The Congress, the Muslim League and every other party believes (At this stage the Hon. Speaker sounded the bell). Another member of our party is absent. So I must be allowed some more time."

* MR. SPEAKER:—"If he is absent, it is not my concern. I will give one more minute."

* SRI PILLALAMARRI VENKATESWARLU:—"The Congress believes in adult franchise. There is no question of time. The lists can be prepared. It will not take much time. Just as my hon. Friend Mr. Varadachariar was saying that they can do propaganda for prohibition and other things, why not you do propaganda for general franchise? Then everybody will co-operate with you."

"Coming to prohibition which is the most important subject here, the Communist Party firmly believes in the complete eradication of the drink evil."

SRI A. S. SAHAJANANDA:—"தலைவர் அவர்களே, இன்று நம்முன் பாக இருக்கும் வரவு செலவு கணக்கில் முக்கியமாக ஹரிஜனங்களின் நன்மைக்காக 1 கோடி ரூபாய் ஒதுக்கி வைத்திருப்பதற்காக நான் வந்தேன். இது வரை ஹரிஜனங்கள் விஷயமாக இவ்வளவு பணம் ஒதுக்கியது கிடையாது. இப்பொழுது ஒரு கோடி ரூபாய் ஒதுக்கியிருக்கிறார்கள். ஆனால் அவர்களுக்கு இந்த ஒரு கோடி ரூபாய் போதுமா என்பது சந்தேகம். அவர்கள் முன்னேற்றத்திற்கு ஒரு கோடி ரூபாய் போதாது. ஏனெனில் அவர்கள் மிகவும் கேவலமான நிலைமையில் இருக்கிறார்கள். அவர்கள் முன்னேற்றம் அடைந்து வர முடியாத இந்த நிலைமையில் அவர்களை பாதுகாக்க வேண்டியதவசியம்; ஹரிஜனங்களுக்காக இன்று 50 கோடி ரூபாய் கொடுக்கவேண்டுமென்றும் சொன்னார்கள். அப்படி 50 கோடி ரூபாய் கொடுக்காவிட்டாலும் 10 கோடி ரூபாயாவது

[Sri A. S. Sahajanandan] [5th August 1946]

கொடுக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன். இன்னும் கேட்கவேண்டுமானால் அரசாங்கத்தார் எவ்வளவோ கடன் வாங்குகிறார்கள். அதைப் போலவே ஹரிஜனங்களின் முன்னேற்றத்திற்காக 500 கோடி ரூபாய் கடன் வாங்கி ஹரிஜனங்களின் முன்னேற்றத்திற்காக செலவு செய்யவேண்டியது நியாயம். 50 கோடி ரூபாய் கடன் வாங்கிக்கொடுக்க வேண்டிய சமயத்தில் ஒரு கோடி ரூபாய் அவ்வளவு விசேஷமானதல்ல. ஹரிஜனங்களுக்கு இன்னும் அநேக இன்னல்கள் இருக்கிறது. ஆலய பிரவேசம் இல்லாமல் இருக்கிறார்கள். ஒவ்வொரு ஹரிஜனுக்கும் ந.ருக்கு 2 ஏக்கர் பூமியாவது இருக்கவேண்டும். ஒரு கிராமத்தில் 1,000 ஏக்கர் நிலம் இருந்தால் அந்த நிலத்தை சர்க்கார் விலைக்கு வாங்கி ஹரிஜனங்களுக்கு கொடுக்கவேண்டும். அது மிகவும் நியாயம். இன்று பாருங்கள், விவசாயிகள் வேலை நிறுத்தம் செய்வதாக சொல்கிறார்கள். இந்த முறையில் ஹரிஜனங்களின் சேவை அத்தியாவசியமாகியிருக்கக்கூடிய காலத்தில் அவர்களுக்காக 2 ஏக்கர் நிலமாவது ஒவ்வொருவருக்கும் இருக்கவேண்டும். சொந்த நிலம் இல்லாததினால்தான் அவர்கள் நிலைமை அவ்வளவு கேவலமாயிருக்கிறது. இந்த நிலையில் அவர்கள் விமோசனம் அடைய முடியாது. அதற்காக 50 கோடி ரூபாய் கடன் வாங்கியாவது கொடுக்கவேண்டும். சர்க்கார் வருஷா வருஷம் எவ்வளவோ கடன் வாங்குகிறார்கள். அப்படியிருக்கும்போது சர்க்கார் ஹரிஜனங்களுக்காக 500 கோடி ரூபாய் கடன் வாங்கியாவது செலவு செய்யும்படி கேட்டுக் கொள்ளுகிறேன். இந்த நிலைமையில் ஒன்று சொல்ல விரும்புகிறேன். மனிதர்கள் மனிதர்களாக வாழவேண்டும். இப்பொழுது பூரண மதுவிலக்கு அமுலுக்கு வரவேண்டுமென்று சொல்லுகிறார்கள். ஆனால் ஒரு வார்த்தை சொல்ல விரும்புகிறேன். ஆலயப் பிரவேசம் இப்பொழுது வேண்டாம்; பூரண மது விலக்கு மட்டும் இருந்தால் போதும் என்று சொல்கிறார்கள். அது சரியல்ல. ஆலய பிரவேசம் வந்தால் ஹரிஜனங்கள் வியாபார துறையையும் கல்விற்றுறையிலும் முன்னேற்றம் அடையலாம். ஒன்று வேண்டும்; மற்றொன்று வேண்டியதில்லை என்று சொல்வது சரியில்லை. பூரண மது விலக்கு ஏற்பட்டால் சர்க்கார் அதை ஒழுங்கான முறையில் நடத்த முடியுமா? சந்தேகமாக இருக்கிறது. ஏற்கனவே மது விலக்கு நான்கு ஜில்லாக்களில் ஏற்பட்டிருக்கிறது. இந்த நான்கு ஜில்லாக்களில் பூரணமாக நடத்திவைப்பதற்காக ஒரு கோடி ரூபாய் கடன் வாங்கினார்கள். பூரண மது விலக்கு ஏற்பட்டாலும் அதை ஒழுங்கான முறையில் நடத்த வேண்டும். அடுத்தாற்போல் இது ஒழுங்கான முறையில் நடைபெற முடியுமா? இந்த சமயத்தில் உணவுப்பொருள் பஞ்சம் என்ன. இன்னும் பலவிதமான கஷ்டங்களை சர்க்கார் ஏற்றுக்கொண்டிருக்கிறார்கள். இந்த காலத்தில் பூரண மது விலக்கை சமாளிக்க முடியுமா என்பதுதான் கேள்வி. கொஞ்சம் கொஞ்சமாக ஒழுங்கான முறையில் செய்யும்படி கேட்டுக்கொள்கிறேன். முன்னால் ஒரு பெரியோர் சொன்னார். 15 கோடி ரூபாய் மது விலக்கினால் வருகிறது. ஏழைகள் தான் அந்தப் பணத்தைக் கொடுக்கிறார்கள். மாகாணம் முழுவதிலும் உள்ள 4 கோடி ஜனங்களுக்கு எவ்வளவு வேண்டுமோ அவ்வளவையும் 5 சத விதிக் வேரிடமிருந்து வசூல் செய்து செலவு செய்யவேண்டுமென்று சொன்னால் சரி. 15 கோடி ரூபாய் எங்கிருந்து வசூல் செய்வது. அது நியாயமான கேள்வி. இப்பொழுது கள்ளுக்கடையை சர்க்கார் நான்கு ஜில்லாக்களில் எடுத்து விட்டார்கள். மற்றொரு 4 ஜில்லாக்களுக்கும் மது விலக்கை அனுமதிக்கப்போகிறார்கள். இந்த மாதிரி செய்தால் நன்றாய் இருக்கும். இதற்குமேல் ஒன்றும் செய்யவேண்டியதில்லை. ஆகவே மேலும் தொழிலாளிகள் வேலை நிறுத்தம் செய்தால் அவர்களுக்கு சாப்பாடு இல்லாமல் போய் விடும். சர்க்கார் கள்ளமார்க்கேட் விஷயத்தில் கடுமையாய் தண்டிக்க வேண்டும். அவர்களை சுட்டு விட்டாலும் பரவாயில்லை. இதற்குக் காரணம் கிழ்தர சிப்பந்திகள் தான். எங்கள் ஜில்லா வில் ஒரு தாசில் தார் இருந்தார். அவரிடம் கள்ள சேமிப்பு எங்காவது இருக்கிறது என்று சொன்னால் உடனே அந்தக் கடையில் சோதனை போட ஆரம்பித்தார். இந்த மாதிரி ஒவ்வொரு தாலுக்காவிலும் செய்தால் (black market) கண்டு பிடிக்கவேண்டுமென்று கங்கணம் கட்டிக்கொண்டிருந்தால் அதை ஒழித்து விடலாம். ஆனால் அவர்கள் அதைப்பற்றி கவலையில்லாமல் இருப்பதினால் அது வளர்ந்து வருகிறது. மற்ற களவு

[5th August 1946] [Sri A. S. Sahajananda]

case களை கண்டு பிடிக்கவில்லையானால் அவர்களை மாற்றி விடுகிறார்கள். போலீஸ் சாதாரணமாக இல்லாத case களையும் உண்டாக்கி விடுகிறார்கள். இவர்கள் இஷ்டப்பட்டு பிடிக்கவேண்டுமானால் அவர்கள் பிடிக்கலாம். இந்த சந்தர்ப்பத்தினால் அந்த மாதிரி செய்யவில்லையானால் அவர்களை dismiss செய்யவேண்டியதுதான். இந்த black marketஐ ஒழிக்கவேண்டுமானால் தாசில்தார்களும் இன்ஸ்பெக்டர்களும் தீவிர நடவடிக்கை எடுத்துக் கொள்ளவேண்டும். பிரதம மந்திரியையும் black market விஷயத்தில் நடவடிக்கை எடுக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.

“இன்னொரு விஷயம். போலீசார் பெரிய அகரமம் செய்கிறார்கள். ஹரிஜனங்கள் வீடுகளில் புகுந்து குழந்தைகளைப் பிடித்துக்கொண்டு போகிறார்கள். பெண்களையும் அப்படி பிடித்துக்கொண்டு போகிறார்கள். இன்றைய தினம் நடந்த சம்பவம். இந்த மாதிரி போலீசார் ஜனங்களுக்கு அட்பீடியம் செய்யாமல் அவர்களை தங்கள் எஜமானர்கள் என்று கருதி நடந்துகொள்ளும்படி கற்றுக்கொள்ளவேண்டும். குற்றங்களை கண்டு பிடிக்கத்தான் அவர்கள் இருக்கிறார்கள் என்பதை அவர்கள் உணர்ந்து கொள்ளும்படி கேட்டுக்கொள்ளுகிறேன். சாதாரணமாக எல்லாரும் பூரண மது விலக்கு ஏற்படவேண்டுமென்று நினைக்கிறார்கள். அவர்கள் எல்லாரும் ஒன்று சேர்ந்து எல்லா ஆலயங்களையும் திறக்கும்படி கேட்டுக் கொள்கிறேன். முன் இருந்த மாதிரி மக்களுடைய மனதைத் திருப்திப் படுத்தி ஆலயங்களை திறக்கவேண்டுமென்று சொன்னார்கள். அது மிகவும் அவசியம். அதனால் எங்களுக்கு என்ன நன்மை என்று சிலர் கேட்கிறார்கள். ஆலய பிரவேசத்தினால் வியாபாரத்துறையிலும் பொருளாதாரத்துறையிலும் அவர்களுக்கு சௌகரியம் ஏற்படுகிறது. அது மிகவும் முக்கியமானது. வரவு செலவு திட்டத்தில் அதிகமாக செலவியம் செய்திருக்கிறார்கள். மேலும் சர்க்கார் சாமானை அதிக விலைக்கு வாங்கி ஹரிஜனங்களுக்கு சொற்ப விலைக்கு கொடுக்கவேண்டுமென்று கேட்டுக்கொள்கிறேன்.”

* Mr. SPEAKER:—“More than 30 members want to take part in the debate. I request all members to be as brief as possible. I will allow 10 minutes for each speaker.”

* MAHIN SCHAMNAD SAHIB BAHADUR:—“Mr. Speaker, Sir, I congratulate the Hon. the Premier for the measures taken to meet the present food crisis. In his speech presenting the budget, the Prime Minister says ‘As part of their measures for meeting the food crisis, the Government have launched a vigorous procurement drive throughout the Province.’ You all know that the South Kanara district is full of Muslims. The Hon. the Revenue Minister who is from South Kanara knows how many Muslims there are in the district. It is a pity that in the South Kanara district, there is not a single Muslim in any of the taluk committees. This is due to the poor representation of the Muslims in the village committees as the selections are not made by the Revenue authorities according to the strength of the Muslim population. There are many Muslim villages in the district where not a single Muslim was taken on the village committees. There are also many panchayat boards in the district. The Government Order says that if there is a panchayat board in a village, it should undertake the work if it is willing.

“But in actual practice, in my taluk, even though the panchayat boards are working efficiently, the food administration is not entrusted to them. The reason for this is that in these village panchayat boards, the Muslims and the Hindus are in equal proportion. It is to avoid the Muslims from being represented on the village committees, that separate village committees

[Mahin Schammad Sahib] [5th August 1946]

are constituted, by the revenue authorities. Thus the Muslim community is entirely shut out from both the district and taluk committees. The District Committee has been empowered to co-opt one member from outside. We discussed the matter with the authorities and we stated that there should be some Muslims on the District Committee to deal with Muslim questions, but as there are none on the committee to support the Muslim claims, the District Committee as at present constituted has no elected Muslim representation. These are the measures taken for meeting the present food crises, and I ask the Hon. the Premier, how far such measures are going to be successful, and how corruption is going to be put down under such circumstances?

“Referring to corruption in general, I must say that the ordinary Government machinery will not be sufficient to put down corruption. Now I take the Police department in which I have served once before. The investigating officer is only the Sub-Inspector, and all other superior officers, viz., the Inspectors, Deputy Superintendent of Police, District Superintendent of Police and the Inspector-General, etc., are inspecting officers. So only the Sub-Inspector has much scope for corruption. Now, if an Inspector happens to be honest and if he wants to stop corruption, it will not be possible for him to do so. The Sub-Inspector will say that the Inspector has a grudge against him and that he wants to put him into trouble and that he has made a false report against him. The Sub-Inspector will have many supporters, and those who have actually bribed him will not come forward and support him, and the Inspectors will have no support and will be found inefficient to deal with the subordinates. Those who have any grievance against him will complain that the Sub-Inspector has done them an injustice by taking money from the other party. Those who have actually given him money will have done so by going to the Sub-Inspector's house and handing over the money to his wife. The wife will not naturally give evidence against her husband. The result will be that the petitioners who complained against him will not be able to prove their allegations and the prosecution will be launched against the petitioners by the Police under the Police Act. That will be a lesson for others also. What is wanted is, that everything should go on smoothly. Even if the Sub-Inspector takes money, he should not give any room for the superior officers to hold any enquiry. If he can manage thus, he can pull on well even if he takes bribes and his superior officers will not interfere with him.

“But the minor and innocent mistakes will be made much of. If an officer goes on camp, he takes the Government samans and records with him and engages a coolie for carrying them. For each payment he is required to obtain a voucher, from the coolie. The peons or constables who accompany the officers bring coolies who will carry the samans and receive the charges and go away, but they will get the vouchers marked or signed by some passers-by, say for instance Rama or Dooma. If any conscientious officer wants to avoid this practice, he engages a permanent coolie

[Mahin Schammad Sahib] [5th August 1946]

and takes him with him wherever he goes and all vouchers will be signed by him. Thus the coolie is treated as a servant of the officer and he will be punished for paying his servant from Government money. What I wish to say by these instances is, that serious mistakes are overlooked and minor mistakes are taken serious notice of, and this happens not only in the Police Department, but in other departments as well.

“Similarly in the case of the distribution of kerosene and sugar in the villages by the Co-operative Society, the revenue officials, who are expected to see to the proper distribution of these articles in the villages, are not above board. When a Revenue Inspector goes into a village, he does not get much respect from the co-operators and so he goes to the salesman, and tells him that sugar and kerosene are not distributed fairly, and directs him not to distribute them until he issues ration cards. The salesman, afraid of the revenue official, stops distribution and keep the house dark and created much hubub in the matter. By the time the President goes to the village and orders distribution and avoids danger. The Tahsildar sends a note to the President, asking him why the licence to the society in regard to the distribution of sugar should not be cancelled for contravening the orders of the competent authority. Thus, the Revenue officials who are there to do good to the people, actually do more harm than good. What I therefore wish to say is that to put down corruption, the ordinary machinery of the Government is not enough. An extraordinary machinery is required. With these remarks, I resume my seat.”

SRI R. V. SWAMINATHAN :—“Mr. Speaker, இப்போது நமக்கு முன்னால் வைக்கப்பட்டிருக்கும் இந்த பட்ஜெட்டானது மந்திரி சபை வந்து சிறிது காலத்திற்குள்ளாகவே சமர்ப்பித்துள்ளனர். இதை நான் பாராட்டுகிறேன். ஆனால், சில விஷயங்களை நான் சொல்லாமலிருக்க முடியாது. இந்த பட்ஜெட்டிலே அநேகம் ஜில்லாக்களுக்கு விகிதாசாரப்படி பணம் ஒதுக்கப்படவில்லை. ராமநாதபுரம் ஜில்லாவை யெடுத்துக்கொண்டால், அங்கே தண்ணீர் வசதி கொண்டு வருவதைப்பற்றி எவ்வித திட்டமும் போடப்படவில்லை.

“Land rent ஐப்பற்றி ஒரு வார்த்தை சொல்ல விரும்புகிறேன். இந்த நிலவரி நம்முடைய தேசத்தில் மாத்திரம் போடப்பட்டிருக்கிறது. இந்த வரியை எடுத்துவிடவேண்டுமென்று நீண்டகாலமாக நாம் கிளர்ச்சி செய்து வந்திருக்கிறோம். மேனாடுகளிலெல்லாம், சமீபத்திலுள்ள சிலோனை எடுத்துக்கொண்டாலும் அங்கேயெல்லாம் நிலவரி போடுவது கிடையாது. முற்காலத்தில் நம் நாட்டில் ஆறில் ஒரு பாகத்தான் நிலவரியாக வசூல் செய்யப்பட்டது. ஆனால், இப்போதோ, **resettlement** முறைப்படி அந்தந்தக் காலத்தில் விளையும் விளைவுப்படி நிலவரி மாற்றியமைக்கப் படுகிறது. இதுமாதிரி செய்வது சரியல்ல. **Permanent Settlement** செய்ய வேண்டியது அவசியமென்று நான் சொல்ல விரும்புகிறேன். அட்வைசர் ஆக்ஷியிருந்த காலத்தில் **Agricultural income tax** ஒன்றைப்போட திட்டம் போட்டிருந்தார்கள். அவ்விதம் போடுவது தப்பு என்று நாங்கள் சொன்னோம். நிலத்திலிருந்து வரும் வருமானத்திலே ஒரு **minimum** விகிதத்தை ஏற்படுத்தி அதற்கு மேலுள்ள வருமானத்திற்கு வரி போடுவது நியாயமே தவிர, நிலத்தை வைத்துக் கொண்டிருக்கும் எல்லோருக்கும் இந்த வரி போடுவது சரியல்லவென்று நாங்கள் சொன்னோம். கடைசியாக, இப்போதுள்ள நிலவரி முறையை யெடுத்துவிடவேண்டுமென்று நான் சொல்ல விரும்புகிறேன்.

[Sri R. V. Swaminathan] [5th August 1946]

“அடுத்தபடியாக, இந்த தேசத்திலுள்ள போலீஸாரின் நடத்தைப்பற்றி நான் சொல்ல விரும்புகிறேன். போலீஸாரிலே நல்லவர்களும் சில ரிடுக்கிறார்கள். ஆனால், அவர்களில் பெரும்பாலும் தப்பு செய்திருவர்களாகவே யிருக்கிறார்கள். ஆனால், அவர்களும் நம்முடைய சகோதரர்கள்தான். அவர்கள் பொது ஜனங்களிடத்தில் அநாகரீகமாக நடந்து கொள்ளுகிறார்கள். அவர்களை ஆடுமாடுகளைப்போல நினைக்கிறார்கள். இந்த மனப்பான்மை போய், அவர்கள் ஜனங்களுடைய ஊழியர்கள் என்பதை உணரவேண்டும். அவ்விதம் அவர்களை இந்த மந்திரி சபை திருத்தியமைக்கவேண்டும்.

“அடுத்தபடியாக, 1942-ம் வருஷத்திலே நாம் ஒரு போராட்டத்தை நடத்திய காலத்தில் போலீஸார் ஹத்து மீறி அநேக அக்கிரமங்களைச் செய்திருக்கிறார்கள். என்னுடைய ஜில்லாவில், திருவாடானையிலே போலீஸார் சகிக்க முடியாத அக்கிரமங்களைச் செய்திருக்கிறார்கள். வட இந்தியாவில், சீமூர், அஷ்டி முதலிய இடங்களிலே போலீஸார் பெரிய அக்கிரமங்கள் செய்ததாகப் பத்திரிகைகளிலே படித்திருக்கிறோம். ஆனால், இவைகளை யெல்லாம் தூக்கி எறியும் முறையிலே திருவாடானையிலே போலீஸார் நடந்து கொண்டார்கள். அவர்கள் எவ்வித காரணமில்லாமல் ஜனங்களைச் சுட்டுத்தள்ளினார்கள். பெண்களையெல்லாம் molest செய்தார்கள். Popular Ministry என்று சொல்லிக்கொள்ளும் இந்த மந்திரி சபையானது, 1942-ம் வருஷத்திலே போலீஸார் செய்த அக்கிரமங்களைப் பரிசீலனை செய்வதற்காக ஒரு கமிட்டியை நியமிக்கவேண்டுமென்று நான் கேட்டுக்கொள்ளுகிறேன். இந்த மாதிரி ஒரு கமிட்டி நியமிக்கப்படாவிட்டால், Popular Ministry என்று சொல்லப்படுவது கேலிப் பேச்சாகிவிடும். நாங்கள், காங்கிரஸ்காரர்களாக விருப்பதால், நாங்கள் போலீஸாருக்கு விரோதமாக நடந்துகொள்ளுவதாக நினைக்கக்கூடாது. அவர்கள் ஹத்து மீறி சட்டத்திற்குப் புறம்பாக நடந்துகொண்டதினால்தான், நான் இவ்விதம் ஒரு விசாரணைக் கமிட்டியை நியமிக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.

“அடுத்தபடியாக, கிரிமினல் Tribes Actஐ ஒழிக்கவேண்டும். இந்த சட்டமானது மனிதர்களும், அரசாங்கமும் நாகரீக மடையாத காலத்தில் செய்யப்பட்டது. அந்தச் சட்டம் இன்னும் இருந்து வருவது எவ்வளவு கேவலமென்று பாருங்கள். இந்தச் சட்டத்தை உடனே எடுத்துவிடவேண்டுமென்று நான் கேட்டுக்கொள்ளுகிறேன்.

“இன்னொரு முக்கியமான விஷயம் இருக்கிறது. இப்போது ஆந்திர மாகாணம் வேண்டுமென்று அநேகம்பேர்கள் பேசியிருக்கிறார்கள். களா வெங்கடராவ், சுப்பாராவ் முதலியவர்கள் பேசினார்கள். அதேபோல தமிழ் மாகாணம் வேண்டுமென்று நான் கேட்கிறேன். தமிழ் மாகாணம் தனியாகப் பிரிக்கப்படாதினால், எங்களுக்குப் பல கஷ்டங்களிருக்கின்றன. நாங்கள் இப்போது ஏன் சும்மாக இருக்கிறோமென்றால், ஆந்திரர்களுக்கு ஆந்திர மாகாணம் வந்தால், எங்களுக்குத் தமிழ் மாகாணம் தானாக வருமென்று நினைத்து நாங்கள் சும்மாவிருக்கிறோம். அவ்விதம் நமக்கு வராவிட்டால், ‘we will fight to the last’ நாங்கள் சும்மா இருக்கப் போவதில்லை.

“Blackmarketஐப்பற்றி ஒரு விஷயம். இப்போது எங்கே பார்த்தாலும் blackmarket நடந்து கொண்டிருக்கிறது. மதுரையிலே ஒருவன் சாகுந் தருவாயிலிருந்தாலுங்கூட Glucose வேண்டுமென்று கேட்டால் கடைகளில் கிடைப்பதில்லை. அங்கே T. N. C. நாகலிங்கம் கடையொன்றிருக்கிறது. அது ஒரு பெரிய blackmarket கடை. அங்கே சமூகநீருந்தாலும், அவைகள் விலைக்குக் கிடைப்பதில்லை. என்ன அக்கிரமம் பாருங்கள். இந்த யுத்தம் ஆரம்பித்த பிறகு பெரிய வியாபாரிகள் இந்த மாதிரி கொள்ளையடித்துப் பணத்தைச் சம்பாதித்திருக்கிறார்கள். இதற்காகவென்று ஒரு கமிட்டியை வைத்து அவர்கள் யுத்த காலத்தில் எவ்வளவு பணத்தைச் சம்பாதித்திருக்கிறார்கள்; நியாயமாகச் சம்பாதித்திருந்தால் எவ்வளவு பணம் சம்பாதித்திருக்கமுடியும் என்று கணக்கிட்டு, அதிகமாகச் சம்பாதித்த பணத்தைச் சர்க்கார் பறி முதல் செய்யவேண்டும்.

[Sri R. V. Swaminathan] [5th August 1946]

“இன்னுமொரு விஷயத்தை நான் சொல்ல விரும்புகிறேன். உத்யோகஸ்தர்கள் retire ஆகும்போது அவர்களுக்குப் பாதி சம்பளம் பென்ஷனாகக் கொடுக்கப்படுகிறது. சர்க்கார் வேலையிலிருந்து விலகிய பிறகு வாழ்க்கையை நடத்துவதற்காக இது கொடுக்கப்படுகிறது. இப்போது ஒரு கான்ஸ்டேபில் யெடுத்துக் கொள்ளுங்கள். அவர்களுக்கு retire ஆகும்போது ரூ. 12 தான் பென்ஷனாகக் கிடைக்கிறது. ஆனால், அதே சமயத்தில் ஒரு I.G. retire ஆனால் அவருக்கு ஆயிரம் ரூபாய் பென்ஷன் கொடுக்கப்படுகிறது. ஆனால், அதிகச் சம்பளம் வாங்குகிறவர்களுக்கு ஏன் அதிகம் பென்ஷனைக் கொடுக்கவேண்டும்? குறைந்த சம்பளத்தை வாங்கி retire ஆகிறவர்களுக்குத்தான் அதிக பென்ஷனைக் கொடுக்கவேண்டும். லக்ஷம் லக்ஷமாகச் சம்பாதித்து வைத்திருக்கிறவர்களுக்கு ஏன் பெரிய பென்ஷனைக் கொடுக்கவேண்டுமென்று கேட்கிறேன். ‘பெரிய உத்தியோகஸ்தர்களைப் பற்றிய விஷயம் நம்முடையதல்ல; Government of Indiaவின் வேலையென்று சொல்லலாம்.’ ஆனால் இந்த விஷயத்தைப்பற்றி நம்முடைய மாகாண அரசாங்கம் Central Government உடன் சண்டை போட்டு, இந்தப் பெரிய உத்தியோகஸ்தர்களுடைய பென்ஷனைக் குறைக்கவேண்டுமென்று நான் கேட்டுக்கொள்ளுகிறேன்.”

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—“Mr. Speaker, Sir, I rise to join in the chorus of tributes paid to the Hon. the Prime Minister for the presentation of his first budget. I am amazed at his marvellous courage in his old age to withstand the stress and strain of comment and controversy where weaker mortals would have succumbed to a sense of despair and would have well said: ‘Better die in the midst of alarms than reign in a horrible place.’ But he has presented his first budget within three months of his regime and no small wonder if an unfriendly critic should discover in the purple patches of his budget probatory exploits of an adventurous promotee. What should be the criterion of a Budget? Sure and certain it should mirror the needs of the people, and, viewed from this standpoint, I must say that this Budget caters considerably to the demands of the masses. It is only in that light that I take his professions for Harijan uplift and for rural reconstruction. These are but two aspects of his mass upliftment programme. After all, I feel ours is a country which lives in the village and the village depends upon agriculture and agriculture depends upon monsoons and so it has been well-said ‘Agriculture, our economics, is a gamble in monsoons.’ I ask the Hon. the Prime Minister whether his measures for rural reconstruction will be enough to satisfy the needs of the masses, short-term and long-term, against this gamble in monsoon? What do we want? We want that we must have not only a Budget that will meet our problem of to-day, but a Budget that will provide for insurance against the risks of the morrow.”

“Sir, the countryside has been suffering for many decades and generations from cyclicity of famines. What is the provision in the Budget that we see against such famines? True, Sir, there is ample provision in order to maintain the supply and demand of food at a precarious equilibrium this year. But, when all is said and done, it is only a problem for this year; but the State is not merely the custodian of the present, but the trustee and custodian of the future. I ask what steps have been taken in this direction to provide for the risks of the morrow. Therefore it is feel that it is no good that we attempt at window-dressing

3-30
p.m.

[N. Muhammad Anwar Sahib Bahadur] [5th August 1946]

and provide for ephemeral measures for this year or that, but we should launch upon a very ambitious scheme for reconstruction. I believe it has been the bane of many members in charge of Finance that they should try to infuse their flesh and blood into the dry bones of public finance based on the principles of orthodox budget-balancing. The time has come when we must cry halt to balance budgeting. We have got, even as it was revealed to us the other day, the glorious examples where great peoples have advanced by vast strides through five-year or ten-year plans, to wit, the examples of Russia and the United States. I need not go far beyond than to illustrate now how it was that during the regime of Roosevelt there had been ever so many schemes to provide for long-term planning. But, judged from this standpoint, what is it that we see in the Budget to-day? I am afraid there has been a considerable drain upon the reserves and upon the revenues of our exchequer, all to meet only the needs of the moment. It is true, extraordinary times require extraordinary measures. I do not question the technique of the Finance Minister that he should have taken steps to drain the reserve of the Province. But I ask how long are you going to keep us in suspense and in a precarious position without insuring against risks of famine? We have got vast tracts, particularly in the Ceded districts. He who runs can read that people have been thrown into the mercies of providence from year to year and there is, on that score, terrible drain upon the revenues of the province; but so far no bold steps have been taken in order to meet the demands of such tracts in this province.

“ Now, I wish to say, ‘ Let us not classify Harijans as a separate element. If really the Congress party desires to consider the Harijans as part and parcel of Hindu Society, let it give the Harijans all the shares in the Province in so far as such shares that belong to the Hindus are concerned and let it try to give every amenity, not only in the administration, not only in the revenues of the Province, but in every walk of life, for the scheduled castes. I say the mere allotment of one crore of rupees will not do. I am very happy to hear that the Hon. the Premier has got at the back of his mind the idea of providing for the construction of houses for the Harijans. But I would say, inasmuch as it would be a fairly productive plan of construction, let there be a much bigger allotment in that direction. We would like to see not one crore or five crores, but if necessary 20 crores if only we can alleviate the distress of the down-trodden. We have to confess to our shame that we have allowed this community to live in this condition for centuries. We have got now to make good at least by carrying through drastic measures by which we can bring up the Harijans to the level of the common run of mankind. It is there I join issue with another member of this House when he said even 20 per cent priority reservation for Harijans is not sufficient in the matter of admission to colleges and other educational institutions. Let more seats, as a matter of duty towards the Harijans, be ear-marked for the Harijans. It is only in that direction we can welcome these

5th August 1946]

[N. Muhammad Anwar Sahib Bahadur]

steps. We have to repair the damage done by our forefathers to these down-trodden people. I would only wish that with our watchwords in the two words ‘ Harijan Uplift ’, the Harijans will come in for a considerable degree of uplift. The pace of their recovery must be accelerated and that must be better done under the auspices of the State. Let every pie that is ear-marked towards mass uplift and towards rural reconstruction go to contribute its utmost towards Harijan uplift. It is only in that sense I believe that we can try and effect, in letter and in spirit, Harijan uplift in this Province. I must congratulate the Hon. the Premier that he has been a pioneer in this field to undertake, under State auspices, Harijan uplift as part and parcel of a programme of reconstruction.

“ Apart from this mass uplift programme there is a very excellent feature that I see in his scheme of Prohibition. I should like to see the day very soon—I do realize the difficulties of administration that stand in his way—when the Excise Department will go lock, stock and barrel. I do not want to see, that Department continuing to exist under State auspices. It is a sin and the wages of sin is Death. I do want to emphasize with all the religious fervour I can command that the Excise Department should not be allowed to continue a day longer and I do not want that drink should continue, to do harm to the people of the country side any more.

“ Everytime I have been asking for definitions, even in my interpellations, it is not without meaning. Sir, we have got in our country for every policy, however broad-based, different definitions and different interpretations. When I asked for a definition of ‘ literacy ’ I had only that in mind. Literacy may be all right. One will be out for cent per cent literacy, but we should like to know what provision there is for religious instruction, because we know full-well that education is not worth having if it fails to inculcate in us a spirit of service and a fear of God.

“ But I would equally like to ask, why should we confine this Prohibition only to elimination of liquor. I was rather amused the other day when an hon. Member of the European Group, I believe it was Mr. Ferrelly, cited the analogy of the United States, but I should seize this opportunity to expose the anomaly of his analogy. I think drink is not racy of the soil. It is, even from the standpoint of religion, taboo. It may be that in the West there may be limited sanction for it in religion in its article of transubstantiation, but here we have none of its kind. In our country our morals are against drink and we would not like to see that there should be drink any longer.

“ But prohibition of drink is not the only thing that we should have at the back of our mind. We want prohibition of all social evils. I was also amused at another argument that the hon. Member of the European Group had used. He sought shelter behind the time-worn, but long exploded theory of *laissez faire*.

[5th August 1946]

[N. Muhammad Anwar Sahib Bahadur]

When to-day the State has advanced farthest from individualism to Social Service and is trying to see that it touches the circumference of life at every point and wants to do the utmost in order to repair the harm that has been done to several sections of society, it is indeed a cry in the wilderness now to say that you should not meddle with the liberties of the people. But if such liberties are going to be licentious we have got every right to use the long arm of the State and see that the down-trodden are rescued from the clutches of degeneracy. Therefore we want prohibition of prostitution, prohibition of racing, prohibition of betting, prohibition of gambling, prohibition of Bombay shows, indeed there should be prohibition of every social scandal. It is no good simply crying halt to drink. More harm has been done not only to the masses but even to cultured classes in our society where the flower of our youth has wasted its talents in direction which are detrimental to the progress of society. If really the Ministry wants to have its policy broad-based here is an opportunity where they could try to do justice and try to see that we shall wipe out all the scandals of society. Sir, the racing season is going to come. It is going to bring into our provincial metropolis men from all directions who will be a curse on society. They are going to waste and squander thousands in their speculations of unearned incomes and they are going to add to the burdens of our rationing. I want that before the licence is renewed, the State should think twice and see that racing is not allowed. Sir, it is a sin and a sin that should not be allowed under State auspices. (Hear, hear.)

“There should not only be prohibition of all these intoxicants but there should be prohibition of the worst of all intoxicants—power.” It was Lord Acton who said ‘Power corrupts and absolute power corrupts absolutely.’ This is where, Sir, I feel that a change in the regime has brought about a tyranny of the majority. We have had the other day at one of the nerve centres of this province—Vaniyambadi—incendiarism by hooligans. It was very good of the Hon. the Premier when representations were made to him to have come to the rescue of the minority, the Muslims. We felt the greatest pride and satisfaction when the Hon. the Premier, the Leader of the Opposition and so many hon. Members of this House went out to see for themselves the diabolic demonstrations of deliberate and indiscriminate destruction of private property. I want, Sir, that if your Ministry is a popular ministry, it should put a stop to this rioting. I say, Sir, it is a sad commentary that there should be within three months of your regime so many riots when during the six long years of the Advisers’ regime there was not even a single riot. The riots, let me tell you, are a question mark to your popularity and a foot-note to the problem of your authority. It is high time that you infused confidence in the minority, the Muslims. We do not form part and parcel of your administration. We are not trying to get the loaves and fishes of office. We do not want them. We are here for service and sacrifice, but what we want is justice and fairplay.

5th August 1946] [N. Muhammad Anwar Sahib Bahadur]

Even though there is the best of intentions in the higher circles of society, we see in the countryside, the majority community, which appears to be obsessed with a superiority complex is out to seek opportunities for tyranny and try to do harm to peace. What we as a minority want to-day is not so much prosperity for the minority, as peace, peace and peace.

“I would like to make one suggestion in order that there shall be preservation of peace. On the analogy of the War Risks Insurance Scheme that was in existence during the pendency of the War, there should be a State Security Scheme for the protection of person and property of minorities. I wish that even in this matter a lead is given by this Province to other Provinces and mutual understanding is effected at once. I want to see a statutory obligation on the part of the State to protect the person and property of minorities which will infuse confidence in the minority and put a restraint on the majority if it should think in terms of tyranny. I want that there should be no more room for majority tyranny and for recrudescence of incendiarism and that there should be safeguards against intolerance towards the minority.

“Sir, we have the greatest faith in the Hon. the Premier. We have seen the excellent way in which he conducted himself with regard to the Vaniyambadi riots: he went there to understand things for himself and gave us assurances for the protection of the minority. We are confident he will redress our grievances and give proof of his assurances. We know that even though we are not part of his administration we are assured that he is not against us. But the proof of the pudding is in the eating of it. Let us wait and see. We want to see that the Hon. the Premier should go ahead well and high up with his programme of reconstruction. Let him at the same time give us the assurance that the minority will be free from the tyranny of the majority and from damage to its property.”

* MR. SPEAKER:—“The hon. Member will please resume his seat. He has exceeded his time-limit.”

* SRI D. S. RAMACHANDRA RAO:—“Sir, it is with considerable diffidence that I rise to speak after the torrential eloquence poured out by the previous speaker. It seems almost needless for me to say anything. First of all, Sir, the Hon. the Premier and the Ministry ought to be congratulated on the democratic budget which has been presented to the House. No doubt there are controversial points; no doubt there are things which cannot be realised in the immediate future. But it is essentially a democratic budget for which the Ministry and the Premier deserve our congratulations. Sir, within the limited time at my disposal, I can only touch on one or two most important aspects. As a medical man I may be expected to touch on the medical aspect of the budget. Sir, in this connexion I am greatly relieved by the realization that the Minister in charge of the portfolio of medicine is not a medical person. We have been trained as medical men to look at things from our own point of view. We

[Sri D. S. Ramachandra Rao] [5th August 1946]

have been trained to look at things through the microscope and the test-tube, and we are prone to imagine that what is true of the microscope and the test-tube must be true of the whole world. I am therefore glad that the Minister in charge of the medical portfolio, although she is connected with a medical family, is not hampered by herself being a medical person. Also she can, by the right of her office and by the right of her sex, always have the last word on the subject. Therefore my sense of responsibility is considerably relieved.

"There are two things which the Government seem to have before them with regard to medical education in this Province. For one thing, they realize that so far as the allopathic system of medicine is concerned, the existing hospitals and the colleges are not sufficient to meet the requirements of the present day. Therefore they propose to start two more colleges, one at Guntur and the other at Madura. If they want to equip the colleges completely it would cost the State two crores of rupees for the two institutions. But there are real difficulties sometimes for which India is not responsible. If we are enamoured of recognition by the British Medical Council and by the All-India Medical Council we will not get them unless our institutions are up to a particular standard. If their recognition is absolutely necessary I suppose the Government must face the music and provide the necessary equipment, if not immediately, at least during the next 4, 5 or 6 years at a cost of something like Rs. 2 crores to make those institutions up-to-date and modern. That is one aspect of the question.

"Sir, we realize that all medical systems have come to stay in this country. Millions of rupees have been spent to make the allopathic institutions up-to-date and provided with the most modern equipments. We have also realised that the indigenous systems of medicine have also to be recognized and encouraged. The Ayurvedic, Unani and Siddha systems of medicine have to be recognized and encouraged. I have myself been brought up to recognize the value of the indigenous systems of medicine. I had the honour of being elected a few years ago as the President of an Association of an indigenous systems of medicine. In the early part of my life I came in contact with a good many Ayurvedic and Unani physicians and their sympathy, good-will and desire to resuscitate all that is true and great in our country impressed me considerably. Therefore, I am, if at all, only prejudiced in favour of resuscitation of the indigenous systems of medicine in this country. But, Sir, there are practical difficulties in the way, which I want the Government to take note of. I may not be able to offer any suggestions to meet these difficulties but the Government, with their experience and greater facilities, may be able to solve them in a more satisfactory way than I may be able to do with my suggestions.

"Sir, we have come to a point where we have to decide between the two systems. I have not the necessary authority to decide in favour of the one or the other, but I have my own

5th August 1946] [Sri D. S. Ramachandra Rao]

doubts whether you can really run the two systems together parallel for any length of time. Because in the modern world, which is essentially scientific you cannot develop science compartmentally. Truth is universal and there cannot be an Indian truth as against a European truth. The discovery in one part of the world is a discovery for the whole world. We are now face to face with the problem whether what we consider to be the truth of Ayurveda or Unani is really different from the truth brought out by the system known as Allopathy or for the matter of that the system known as Homeopathy. But, Sir, there may be different ways of approach to the question. You may look at it from different points of view. Some years ago, Ross discovered the malarial germ; he discovered it in India, under Indian conditions, but it became a truth for the whole world. Dr. Elliot discovered trephining for the eye. It was done in a hospital, but it became the truth of the whole world. In the same way the other truth discovered with regard to the cataract operation of the eye by H. Smith at Jallundar became the truth for the whole world. Therefore we should realise that we cannot keep things in water-tight compartments. On the other hand, would it not be better to pool our resources and see that all that is best in the country is brought together? It may not be Ayurveda or Allopathy, but it may be an Indian method of approach to the treatment of disease in which all that is best and modern and up-to-date in the treatment of disease has been incorporated. Therefore I venture to make two suggestions. Instead of starting separate hospitals, can you not so equip the many hospitals that you have at present that students who have been trained in the Allopathic system may undergo post-graduate courses of study in Ayurveda and then go out into the world and practise whatever system they think best and appropriate to a particular disease at a particular time? Another thing is that if you think that allopathy is not sufficient, certainly go to Ayurveda, but you cannot run these two systems together and spend large sums of money of the tax-payers needlessly. As we have to face the music of large expenditure, I ask the Government to consider whether it would be wise to proceed with their proposals. Of course, I may have other opportunities to raise this question in connection with the voting of grants, but in the meantime I request the Government to review the matter of their own accord, take the points raised here into their consideration, keep an open mind on the matter and not take drastic steps without taking sufficient time to consider the question."

SRI N. VENKATASUBBAYYA:—"Mr. Speaker, I rise to offer my hearty congratulations to our worthy Premier for the able manner in which he has prepared the budget and placed it before us. There is the Prakasam touch about it. It is a good budget and the announcement that he made this morning that the Prohibition scheme will be extended to 4 more districts has rendered it a better budget. I would wish that it were the

[Sri N. Venkatasubbayya] [5th August 1946]

best budget that he could possibly have presented to us. Considered against the background of the economic distress that we are experiencing on all sides, the all-enveloping and ever-deepening economic crisis that is overtaking us, these strikes in factories and the strikes of the agricultural workers in the fields and the inevitable effect they will have on the economic life of the Province when I consider the budget against this background, I must say that it leaves room for disappointment, because we live in a world where hunger, poverty, disease and all other evils of maladjustment of the economic system have a tremendous effect on the psychology of the people. I should therefore have expected the best budget and by the best budget I mean that we should have emboldened ourselves to start what I may call a socialist programme in the Province, the socialization of industry and such other things. We who have been nurtured in the womb of revolutionary thought, and see people live in squalour, dirt and disease, we who are working amidst a suffering and discontented population, see plainly the writing on the walls. That writing on the wall is clear and unmistakable. The other day my hon. Friend the Maharaja of Pithapuram saw this writing on the wall and he said that he was prepared to give up his zamindari. In the same way I should have expected our Hon. Premier also to see the writing on the wall and launch as is characteristic of him, a bold programme of socialistic economics.

“Having said that, I cannot shut my eyes to the very good provisions which he has made in his budget. I may specify the one crore of rupees he has set apart for the Harijan uplift and the three crores for Rural Reconstruction. Prohibition also he has extended to four more districts. The benefit of this could have been enhanced if he had also placed before us a clear-cut policy and programme of what he would do to remedy some of the more urgent evils that we are suffering from.

“The labourers are on strike everywhere. I cannot believe that it is the result of the work of one Party which has its own axe to grind. It is the symptom of a more deep-seated disease and we must attack it where it begins. It begins at that point where the huge disparity between the rich capitalist and the poor labourer in the factory and the field begins. Therefore I should have expected in this budget or in the speech of the Hon. the Premier an indication of what he would do to treat the disease. I would suggest in this connection that the labourers might be promised—the labourers in the field or in the factory—50 per cent of share in the profits that go to the landlord or the millowner or the capitalist who owns the industry. He would have also done well if he had announced that in future there would be no private enterprise in the Province and that all the industries would be taken over by the Provincial Government, so that the workers might get their due share. Similarly I would have expected him to enunciate a policy of abolition of the zamindari system. Also there is a large disparity in the holdings

[5th August 1946] [Sri N. Venkatasubbayya]

of land. Apart from the zamindari system there are rich landholders owning one thousand, two thousand or three thousand acres and there are people, 80 per cent of them, who have no land at all. He must think about these also and see if he cannot remove this disparity. The tillers of the soil must be made owners of the soil and we must also abolish absentee-landlordism. Some of these are vital and urgent reforms and we must have been quick enough to have thought about these so that the workers in the factories and the labourers in the fields might get an assurance from us that we have not neglected them and that we are alive to their needs. That assurance from the head of this Government would have electrified them and we would have heard a different story altogether from them, we would have assured them of decent life and we would have assured them that this Government means business.

“Then let me Sir, come to my own unfortunate districts. Many speakers on the floor of this House were good enough to refer to the economic disabilities of Rayalaseema. We are very thankful to all of them. We members from Rayalaseema are very thankful to them for the case they have made out for the immediate economic uplift of Rayalaseema. In this connection, I would like to place before the Hon. the Premier a definite concrete programme of action so that the economic disabilities may be removed as speedily as possible. I note with gratitude the attention that has been paid by the Government to this subject; but pious resolutions or speeches have done us no good in the past and unfortunately the indications are that this year also our case may be neglected unless it is drilled into the ears of the Government. The one way by which the economic rehabilitation of Rayalaseema might be assured is to create a Reserve Fund for the economic development of Rayalaseema, called the Rayalaseema Reserve Fund, with say Rs. 5 crores or Rs. 10 crores to begin with. That will be the best assurance to the people of Rayalaseema that this Government means business and their disabilities are being investigated and will be removed. I would suggest the constitution of an economic enquiry committee so that they may as quickly as possible draw up a report and place it before the Government for being adopted. For this purpose a concrete programme may be drawn up for removing all these disabilities by a progressive and well-planned action. The irrigational problems of Rayalaseema calls for immediate attention. In this connection, I must with great regret refer to the sort of neglect that Rayalaseema has been receiving at the hands of the Government. I admire the knack with which my friends from the Circars and from Tamil Nad manage to get their things done; but unfortunately we the people from Rayalaseema, somewhat reserved and unsophisticated, have not been successful in pushing our case forward. I take this opportunity, though with great regret, to bring to the notice of this Government and this House that in matters irrigational the case of Rayalaseema has been neglected before. The Mettur Project which was conceived long after many of the projects in the Ceded

4-15
p.m.

[Sri N. Venkatasubbayya] [5th August 1946]

Districts were thought of, is now an accomplished fact. Why, recently, an Adviser to the Governor initiated the Ramapadasagar Project and about Rs. 19 lakhs have been allotted for it in this budget. I ask the Hon. the Premier why there has not been sufficient attention given to the Sangameswaram Project and whether it is at all proposed to carry out the project. After all, it is a project best suited for our districts, and I do not understand why it should have been neglected. You know Rayalaseema is a famine-stricken area; thousands of people die every year; may be they are not dying before our very eyes, but they are dying in thousands next door, as a result of famine and the abundant hunger and poverty and disease. And yet you are not taking sufficient notice of it. Therefore, I ask why the Sangameswaram Project which would remove these evils has not been investigated at all. I was discussing this problem with the P.W.D. Minister the other day, but I was not able to get an assurance. Therefore, I take this opportunity of placing before this House my views. There are many projects to be investigated, the Sangameswaram Project, the Gandikota Project, the Devanahalli, Valgode and Pennar-Kumudavati Project, and others. They must all be investigated and started as early as possible, and particularly the Sangameswaram Project which will irrigate 25 lakhs of acres and is as big as the Ramapadasagar Project. The latter, although of recent origin, has attracted the attention of the Government while the Sangameswaram Project has been shelved. Sir, when I look at the poverty and misery of my people, my heart burns and I am here giving out my feelings without any reserve. I urge that the Government must take the earliest opportunity to investigate and execute this project. Sir, there are numerous other (At this stage, the Hon. Speaker sounded the gong and the Member resumed his seat.)"

* M. S. ABDUL MAJEED SAHIB BAHADUR:—"Mr. Speaker, Sir, before I make my remarks on the budget proposals, I should like to make a request to the Hon. Speaker of the House on behalf of my party. I request that he in conjunction with the Leader of the House should allow the Members of the Opposition more opportunity, more chances . . ."

* MR. SPEAKER:—"I am giving you more opportunities than to the other members; your leader also knows that."

* M. S. ABDUL MAJEED SAHIB BAHADUR:—"I am making this request because you are aware that the budget which is now before the House has already passed through the party machine of the party in power; and I wonder why the party members should rise up and speak on the budget now. Therefore, Sir, it is right and fair that I make a demand like this on behalf of my party."

"Mr. Speaker, Sir, the exposition of the financial position and prospects of a Province like Madras even on ordinary occasions offers abundant material of interest, not only to this Honourable

[5th August 1946] [M. S. Abdul Majeed Sahib Bahadur]

House but also to the public of this province and also anxiety to the persons who are charged with the preparation of the proposals. Particularly on this occasion perhaps that interest and that anxiety are all the greater due to several reasons. The Hon. the Premier represents a party which has been for years indulging in activities which are far removed from responsibility. To-day they have taken upon themselves the responsibility of governance and administration. The party has assumed charge of the governance of this Province with all their utopian ideals and ideologies and it becomes the grave responsibility of the Hon. the Premier to crystallise into realities those ideals and ideologies. He has to perform the task however impossible it may be; and if he does not perform it, he must incur the indignation of an intolerant deity. Therefore, Sir, the budget that is now for the consideration of this Honourable House reflects the attempts of the Hon. the Premier in trying to capture and give shape to those ideals and ideas. Taking the question of the food problem, I would like to remind the House about a statement which the Hon. the Premier made when he placed the draft proposals for the consideration of the House. He said he was inaugurating the village committees, the taluk committees and the district committees with a view to arrange for proper procurement and equitable distribution of food supplies in this province and he said that these committees would be elected or selected irrespective of parties and creeds and affiliations. You are aware, Sir, of what is happening in the districts when these committees are being formed. I represent the South Arcot and Chingleput districts. I had no occasion to meet the Collector of Chingleput; but I had an occasion to meet the Collector of South Arcot. When I went to him and asked "What have you done with regard to representation of Muslims in the district on these village committees?" he simply produced before me a Government Order, wherein he pointed out the sentence "consult the local M.L.As." He meant by that he had to consult the Congress M.L.As. and the local Muslim M.L.As. were 'nobodys' in his eyes. When the draft proposals came before the House, the Hon. the Premier gave an assurance that whenever these committees were constituted, the local M.L.As. would be consulted and he would consider the question of including all M.L.As. Therefore, Sir, I do not know whether there is any special instruction issued about it; I do not however think so; for I believe in the sincerity of the expressions of the Hon. the Premier. And if no instruction has already been issued, I would like the Hon. the Premier to immediately issue instructions to the District Collectors and the District officials that whenever"

* THE HON. SRI T. PRAKASAM:—"No such instructions were ever issued. Hon. Members must take a little care whenever they give expression to such doubts and suspicions and charges, as it were. It is not fair at all in the least. The Government Order simply said "M.L.As." and the hon. Member himself admitted it included "M.L.As." and he himself is

[Hon. Sri T. Prakasam] [5th August 1946]

an M.L.A. On that basis, he should have asked the District Collector and the Government and not drawn adverse inferences."

* M. S. ABDUL MAJEED SAHIB BAHADUR:—"I am really sorry for that expression; but I am saying this simply because the Collector told me that he had got to consult the Congress M.L.As. and not the Muslim M.L.As. That was why I brought it to the notice of this House. Sir, in the constitution of these village committees, it is just and fair that we the Muslim League Party in this House should demand that the Muslim League's representatives in the districts and villages should be put in these committees. For, when you believe that a Congress representative is the real representative of the caste-Hindus or the Hindus of this province, I believe that the Muslim League M.L.As. of the Muslim League representatives are the real representatives of the Muslims of this province. This is only just and fair and I only demand that justice should be done."

"Sir, with regard to prohibition, I need not say much. I believe that by mere legislation you are not going to eradicate a moral evil. I always believe that this reformation must come from within and not without. I do not here propose to consider the advisability of introducing prohibition or preventing people trying to undermine the introduction of prohibition. It is going to be a costly affair, particularly when you are creating islands of prohibition areas. The frontiers must be guarded and you will require enormous sums of money to prevent smuggling and illicit brewing of liquor. I believe that with all the powerful engines of propaganda, with all the power the Congress Party and the Ministry command in this province, they will contrive to do propaganda among the masses and see that a moral reformation comes within and not without; for, I know if it is going to be enforced, it will last only as long as the Ministry is in power; and as soon as the power is removed, it will also go. We know how as soon as prohibition was removed from the four districts in which it was last introduced, by the Congress Ministry some years ago, the public of Salem and of the other districts took to drinks and other evils. Therefore I plead that when undertaking such reformation, alongside the introduction of prohibition, they should try to use their engines of propaganda for bringing moral reformation among the people of this province."

"Then, Sir, coming to the question of khadi production, I would like to recall to this Honourable House the statement which the Hon. the Premier has made this morning. He said that there is not going to be compulsion. I accept it. But, taking the scheme itself—I have gone through the note submitted by the Provincial Textile Commissioner—I find he is going to select a firka and in that firka no mill-made yarn, will be supplied, only khadar yarn will be supplied and the result is, a weaver who has been weaving not only to-day or yesterday but from time immemorial, with mill-made yarn, he has to weave only khadar from hand-spun yarn. If it is not 'compulsion,' I ask, what else is compulsion. Leave the choice to the people

5th August 1946] [M. S. Abdul Majeed Sahib Bahadur]

and announce to them that those weavers who wish to take to hand-spun yarn they may do so. That will be the better way of industrialising khadar production in this province. This sort of choosing a firka to see that khadi is woven in that firka is, I say nothing but compulsion."

"Further, I would say that there are several companies which have been recently organized asking for Government permission to register themselves so that they can import machinery, but on the plea of no spindle, these permissions are not granted. I would therefore request the Government to organize more mills, so that there may be more production of yarn and so that we can solve the problem of the weavers themselves. This will be a step in the right direction rather than to introduce the khadar scheme into this province. Sir, I know that it has been the policy of the Congress, not only to-day, but for the last so many years, to try to introduce khadi and they even spent lakhs and crores for capturing the imagination of the public to this, but they have not achieved their object to the extent they wished. Therefore, Sir, the production of khadar should also be left to the sweet will and pleasure of the people of this province instead of trying to introduce it with the finances of the province."

"Then Sir, with regard to Harijan uplift, I welcome the allotment that has been already made, but how that is going to be used, is a question to be considered. As a matter of fact, there are already comments in this province, not only by great statesmen but also by the leading newspapers in the country to the effect that the provision of lump-sum allotment is something objectionable and is contrary to the highest principles of budgeting. You are taking nearly 300 lakhs of rupees of the people to be spent for the uplift of the Harijans and after all what are you going to do to help them in the villages where they live. A Harijan might go to a public well, but he will not be allowed to draw water from that well by the caste-Hindus and then you will construct a separate well for him to avoid it. By this you will again be perpetuating the separation and segregation of these people as it has already been existing for centuries. How are you going to help Harijan uplift? I would put it to you, why not inter-dine with the Harijans, inter-marry with them and see that they become part and parcel of your own religion. This sort of window-dressing as one hon. Member put it, is not going to help the Harijans."

"Then, Sir, with regard to the question of education, Sir, when there is so much of illiteracy in this province, no attempt has been made to wipe it out. On the other hand, we are talking of basic education and Hindustani Talimi Sangh and so on. I have read the famous novel of H. G. Wells "The First Men in the Moon." I think hon. Members would also have read it. In that book, we find that coolies developed their hands; Minister had his head developed and people developed that part which is actually to be put into use. If it is a question of brain and mind, mind is developed and if it is a question of hand, the hands are developed."

[M. S. Abdul Majeed Sahib Bahadur] [5th August 1946]

"Then, Talimi Sanghs or Talimi khanas are going to create a peculiar sort of people in this province. There must be absolute freedom but this is almost copying the totalitarian ideas and you are going to suppress the individuality of the individual and to suppress the growth of the brain and scientific knowledge of the people of this province. Let us not import foreign ideals. Let us try to eradicate illiteracy from this land. There is stagnation in elementary schools; children relapse into illiteracy and all public finance is being wasted on higher education. I hope the Hon. Minister for Education will see that illiteracy is removed rather than trying to import new-fangled ideas into the educational system of this province.

"Sir, you are aware that for years there has been an agitation for a Communications and Highways Department in this province and this has been done with a view to see that the villages are connected with urban centres of commerce and industries so that through these channels of roads knowledge can be imported from the urban centres to the villages. I say that the roads and highways are almost the life-lines of our own industries and commerce. But, I find that the department which has come into existence after years of agitation has been reduced almost to a skeleton. I dare say the Hon. the Premier will see that in this country of villages, villages are connected with urban centres of civilization where a villager can get anything he wants. The roads in these darkened villages, backward villages where still there is ignorance and poverty, should be maintained properly by Government. Though it may perhaps be necessary to reduce the Highways Department owing to financial necessity, I hope Government will not lose sight of the importance of the development of the roads and highways in this province.

"Again, Sir, when in this House the Salary Amendment Bill was proposed a note of warning was given in this House that this is going to rouse the people, Government servants, teachers and others who are receiving low salaries and it has done so. To-day we find, everybody is clamouring for higher salaries and it is a legitimate clamour. There is the low-paid Government servant, there is the low-paid teacher: there are munshis and pandits. At a time when the cost of living is very high, at a time when even the rich people are not able to carry on their daily existence, how these poor teachers, pandits and munshis and these low-paid Government servants are going to carry on. Therefore, Sir, when my own salary has been raised from Rs. 75 to Rs. 150, I would demand that the salaries of these people also are immediately raised and the Government would consider question of revising the salaries of the low-paid Government servants. Then only you can satisfy the people of this province. Otherwise, the strikes, hartals and processions are going to be a daily sight in this province.

"Again, Sir, the Province is suffering from want of houses. There is already the food crisis; there is already the cloth famine.

[5th August 1946] [M. S. Abdul Majeed Sahib Bahadur]

There is also the housing problem and nobody is able to get any house in this Province; not only in this City but in all the towns of the Province. I hope the Government will soon come forward with schemes for more houses so that they can house the wandering M.L.As., the wandering Ministers and the people of this Province. My time is already over. Therefore, I would request the Hon. the Premier to see that relief in this direction is given as early as possible."

* SRI M. S. PATTABHIRAMIAH:—"Mr. Speaker, Sir, I congratulate the Hon. Premier on his courage for adding four more districts for prohibition in this Presidency this year. Sir, I admire the courage and steadiness with which he took the criticisms of the Opposition and he deserves the congratulations of the people of this Province in his intention to give effect to the policy of the Congress. You have been listening to long speeches from the Opposition benches and while they congratulated and admired the Premier, they forget that they are criticising the policy of the Congress too much. They should know that the Congress is in power and that the Congress has come to enforce its policy and that the Congress represents the people. Let there be no doubt about it. But Sir, I may point out certain features of the Budget. The total expenditure of the Province is 57 crores 42 lakhs but the amount set apart out of this for nation-building services is only 15 crores 99 lakhs while for civil administration, which was a prerequisite of the former Government, the imperialistic Government, almost double the amount has been set apart for such Departments as the Police Department, maintenance of law and order, judiciary, jails and such other things. But the pledge of the Congress was to introduce total prohibition. Now our Provincial Government can and should introduce total prohibition as early as possible. We are quite sure and I hope the Hon. the Premier will have the courage to say at the end of the session in his reply to the debate that he would assure the House that he would introduce total prohibition all over the Province from the beginning of the next official year. In answer to a question, the Premier said this morning that he would impose such taxation for enforcing prohibition in these four new districts. I would like to suggest that if at all taxation is to be resorted to, that taxation should be on a graduated scale and that it should fall upon only the rich people and as pointed out by some of the Hon. Members, on black-marketeers, profiteers and hoarders who have made enormous amounts of money during the war period. If it is possible to tax them without an investigation, it will be good. I would also suggest that the nationalization of transport will help our Government in adding to the revenues of our Province. The adjoining States of Travancore and Hyderabad are earning very good sums from this source and we can also take a lesson from them and thus try a plan before the end of the year to take up the transport services and serve the people by such nationalization—nationalization will not only help the people living in outlying parts which are not served by railways but will also add to the resources of the Province.

[Sri M. S. Pattabhiramiah] [5th August 1946]

"Coming to Education, too much stress was laid for the improvement of education in the various parts of the Province and attention was focussed upon Rayalseema for grants to the Arts Colleges, Engineering Colleges, Medical Colleges and for higher education but in the case of those living in mufassal areas, I am very sorry to say that students are unable to get admission into the secondary schools as most of the schools are overcrowded. Students in the villages are going to those schools from a radius of five miles—not one or two but hundreds of students—who run about from place to place where high schools are situated are refused admission and they have absolutely no other go and they have no remedy; and there is none to voice their grievances. Therefore, the number of secondary schools should be increased before the Arts Colleges are encouraged by money grants. We are talking of improvement of primary education. You are paying so much money to the Arts Colleges but secondary schools are not correspondingly increased and I wish to place this before the Hon. the Prime Minister that while those Colleges require equipment, for these schools not so much money is required. At least some huts may be improvised and as many students as seek admission may be admitted and given education.

"Sir, this is the usual time for ventilating local grievances also. Here I may mention about the Madura district which is very much affected by the Criminal Tribes Act because most of the Kallars are living in that area. Madura has two Superintendents of Police and only very recently, Vizagapatam police district has been bifurcated not because there are Kallars there but because the area was too large. I think, the Police Department itself is responsible for so much of crime in the Madura district. From a perusal of last year's report it is seen that the population is only 5 per cent of the Presidency and the grave crimes committed there are 10 per cent and one of the main causes for that is drinking. Kallars were not drunkards formerly, but now they are tempted to drink. Kallar schools which are opened and maintained by the Police Department are not controlled by the Education Department. Why? Since the Police themselves are creating conditions for crimes, crimes have not decreased. Therefore I suggest that the system of administration pursued by the Police Department should be scrapped because it is rotten and the Criminal Tribes Act must go.

"Coming to zamindari, they pay a peishkush of 47 lakhs but they get a revenue of three crores. Why not try to abolish them immediately by merely paying them a nominal compensation, and you will get 250 lakhs for nation-building services."

* P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"Mr. Speaker, Sir, repeated references have been made to the popular character of the present Ministry. In this connexion, I want to remind the Hon. the Premier—though reminding him is unnecessary, that it is not completely correct. We, on this side of the House who represent, as my hon. Friend, Gopal Reddi said, the Muslim nation in this province, are not represented on the Treasury Benches. Probably it was not possible under the circumstances. I am not complaining about that, but I want to request

[5th August 1946] [P. K. Moideen Kutti Sahib Bahadur]

the Hon. the Premier, owing to that very fact, that in matters affecting the Muslim nation he has to be a little more considerate. I have known the Hon. the Premier for some time and I know he has a very large heart and sympathy for the under-dogs and down-trodden.

"Now, Sir, as far as this Budget is concerned, I am not going to deal with it in any detail, because I have already been anticipated in many things by previous speakers. On this question of prohibition, I am told some hon. Members went up to the point of shaking the Treasury Benches a little. But I am glad that the apple-cart has not been upset. Even prohibition, I assert, could wait for a year or so. At a time when we have to avert an impending calamity, I would like the Premier had been given a free hand in this affair. We are all agreed on this matter of prohibition but a more urgent and dire necessity is the giving of food and cloth to the citizens of this Province. The Hon. Premier introduced a scheme for better procurement in this province. In fact, I was one of those who was enamoured, I might even say, in love with the scheme when the Premier drew a very rosy picture as to how that scheme will work. I know it is a favourite scheme of the Hon. the Premier and I was also one of those who liked it very much. Some hon. Friends in my party had real fears that it would work to the detriment of the other parties and interests in the country. Even though I did not share that view at the time, I find that all their fears have come true and too true. With regard to Malabar, I hope the Hon. the Prime Minister will listen to what I have to say because I am very much agitated over things that are happening there. I was one with the Hon. the Premier with regard to the scheme that he introduced, but when I went to my own district, and saw the actual working of the scheme it simply irritated me. I do not think I can find enough words to express my grievances. With regard to my own constituency, what happened was this. My own taluk of Ponnani was subdivided for the purpose of selection of members to village committees into three sub-taluks which were presided over by three Deputy Tahsildars. These Subordinate Officials, I am sorry to say, however well-intentioned you may be—are simply spoiling the thing. In fact, it has been the case even in the matter of religions. The purohits, the pandits and the priests, being over-zealous about their religious beliefs, have ruined even religions. Within such a short time, they have done such a havoc in the working of it and we are feeling, as if we the Muslims are simply not in existence in the district of Malabar. The Deputy Tahsildars have not the courtesy and fairness to care for the Government Order which has been issued and they ignore and simply overlook the Muslim M.L.As. The Deputy Tahsildar, Chawghat, did not consult me at all and asked him why he did not consult us. His explanation was that he heard that I was away in Madras and the Tahsildar who was in charge of Ponnani sub-taluk in spite of the telegram I sent to him that I would meet him on the 14th expedited sending of the list to the Revenue Divisional Officer, Palghat, as if to avoid me. His explanation was that the Revenue Divisional Officer wired to him to send up the list by 13th and when I met the Revenue Divisional Officer himself

[P. K. Moideen Kutti Sahib Bahadur] [5th August 1946]

later on he contradicted it. The Deputy Tahsildar, Tirur, concerned consulted us and we drew up an agreed list. But the list was altered overnight when the list came up to the Revenue Divisional Officer. We protested against such things but our protests were of no avail because we were overruled on account of the presence of the gentlemen who represented the Hindu Constituency. Even the gentlemen who represented the entire West Coast in the Legislative Council and who were even mentioned for Premierships and Ministerships were there and opposed us even in the matter of selection of Muslim Members. In this connection, my hon. Friend from Guntur says that he managed everything very well there. But unfortunately every place is not Guntur and all are not Salams. In the face of strong opposition from persons who were even mentioned for Premiership and Ministerships, the Revenue Divisional Officer did not agree and we could only register our protest and we were entirely helpless. I have written down a long memorandum to the Hon. the Premier in the matter. I believe the Premier with his large heart will look into the matter sympathetically. As far as the Ponnani taluk is concerned the Muslims are about 50 per cent there. In the Taluk Committee of the seven firkas, which have sent fourteen members, only three Muslims have come in and one of whom alone is a Muslim Leaguer and that a doubtful Leaguer and they have manipulated it in such a manner that there is no real and adequate representation of Muslims. As far as the Palghat taluk is concerned, we were not even consulted on this matter. I would earnestly request the Hon. Premier to see that due representation is given to Mussalmans on these committees.

“With regard to the educational policy of the Government, I take the Hon. Minister for Education at his word. I would wait for the proposals which he said would be placed before the Members of the House. There is one thing I want to request the Hon. Minister for Finance and Minister for Education, and it is this. We are very glad that you have set apart one crore of rupees for Harijans. We request the Hon. the Premier to set apart at least half the amount for Moplah education. At least for the present, I would be content with having two colleges. We have already two Government schools, one for Moplah boys and the other for Moplah girls. I would request the Minister to see that very early steps are taken in that matter.

“The Hon. the Premier and the Hon. the Minister for Agriculture said that we are living in better times. I think it is only in better times that we should concentrate our attention on the achievement of quick results. My suggestion to the Hon. the Premier is that the idle and useless Agriculture Department and the Veterinary Department which again is useless by itself should be amalgamated, so that they may yield better results and some useful work might be turned out in the matter of the long range programme of this Province with its self-sufficiency objective. It must be the primary and chief concern of any Government to see that such allied departments function as one unit and their activities are co-ordinated.

5th August 1946]

[P. K. Moideen Kutti Sahib Bahadur]

“So far as food is concerned, whatever inducement you may offer by way of bonus to speed up procurement it does not solve the question of food. We must see that we are self-sufficient in the matter of food and we should not afterwards go about begging for food.

“In the matter of corruption, I had very high hopes upon this Government when they took up the reins of office. Later in the course of the debate I shall deal at length with it. But for the present I would content myself with suggesting that past deeds of corruption committed by officials be condoned. We know that you have already taken some steps. We are quite in the dark as to what exactly the measures are that have been taken by the Government. A thick veil seems to have been drawn over it. We know that you have simply established an organization; what it is and how it works is all behind ‘purdah.’ I wish the Hon. the Premier takes us more into his confidence.”

* SRI P. KANDASWAMI PILLAI :—“Mr. Speaker, Sir, I am thankful to you for having given me an opportunity to thank on the floor of the House the Hon. the Premier and the Ministry for their patriotic and generous announcement regarding the introduction of prohibition in eight districts as against the four districts they had originally fixed upon. As you are aware, the scheme of prohibition was only to work in four districts. When the hon. Members of this House suggested and requested him, he was kind enough to extend prohibition for four more districts. For this I specially thank the Hon. the Premier and the Ministry.

“Coming to the Budget Estimates, I am not going to deal in detail with the amounts allotted to various departments. I shall deal only with the major policy of the Government which should be adopted in future for the welfare of the province. In the sphere of education which could be put down under three categories, namely, college education, high school education and primary education. There is famine of teachers even as we have with regard to food and cloth; especially it is found so far as the secondary grade trained teacher is concerned. In my own district, in the Salem Municipality they advertised for a teacher; but what was the use? The secondary grade teacher is able to get a salary ranging from Rs. 80 to 100 elsewhere but in a municipality he is paid only Rs. 25. In order that there may not be any dearth for teachers, and to eradicate this evil, I suggest that the minimum salary for a teacher should be Rs. 40 per mensem. Along with the paucity of teachers, we also see there is insufficient equipment by way of building accommodation also. The suggestion has been made by some hon. Members that the number of pupils to be managed by one teacher should be increased. I think the better course would be to introduce the shift system so that another shift of boys might also receive education without constructing new buildings. In a school building which can ordinarily accommodate 1,000 pupils, we can have 2,000 pupils without constructing new buildings. I made mention of this to the Hon. Minister for Education also and I hope he will give his consideration to it. If

[Sri P. Kandaswami Pillai] [5th August 1946]

that is adopted, we need not bother about the construction of new buildings immediately. Of course for permanent institutions, we can build but according to the convenience of the finance of the Government. It may be also noted that the system of shift in the matter of education is being adopted in Western countries also.

"I wish to say a word about land revenue and agriculture. The Cauvery is running through or beside my district, Coimbatore, Trichinopoly and other districts. There you have what is known as padugai lands which are considered to be forest lands. Several departmental officers have even during the Advisors' regime recommended that these lands be converted into wet lands. It is capable of yielding first-class paddy every season. There will be no need for the grant of any subsidy. If you only dig four or five feet, you are able to get fine water very easily. I strongly recommended to Government that this may be considered immediately so that more than ten thousand acres may be brought under cultivation as wet lands.

"I am sorry to say that the health of the people does not receive so much attention as it ought to. The Medical Department, if I may say so, seems to be an agent for the distribution of foreign pharmaceutical preparations and they recommend foreign medicines to everybody, irrespective of their capacity to buy—I do not blame them for it. I do not mean to suggest that the Western system of medicine is bad. We can have the allopathic system for diagnosis and for surgical treatment and for medical treatment people can adopt either the homoeopathic system or our own Indian system, which will be more useful and economical than allopathic medicines and will be suited to conditions in our province.

"Everybody speaks about corruption and I am also equally emphatic that it ought to be put down. But when the question of proof arises, nobody is willing to take responsibility. Therefore, I suggest that the procedure should be swift and should be gone through with lightning rapidity such as being done in the Military Departments. Formal enquiries, reference to higher authorities and such other things retard serious action and all enquiries ultimately end in the concerned person getting away unpunished and justice is defeated. I, therefore, request that special arrangements be made to find out and deal quickly and efficiently with culprits. Then only people will be satisfied. There is no use merely saying that corruption is rampant. People for their part must also take their share of responsibility and be prepared to give evidence in open court. I know several people have expressed their unwillingness to give evidence in open court concerning bribes taken by the karnam and Revenue Inspectors out of subsidies for wells, though they would tell me in person that they had taken bribes from them. When asked whether they would make a complaint to that effect to the Tahsildar, they will not do it for they fear that the Revenue Inspector would ruin them. This attitude cannot take us far and people must come forward to prove cases of corruption.

[Sri P. Kandaswami Pillai] 5th August 1946]

"Regarding food procurement and village committees, I am sorry to say that hon. Members in opposite benches have not taken kindly to them; they have been finding fault with it from the beginning. One hon. Member even pointed out that a Collector said that the Government Order required him to consult M.L.As. which inferentially meant that they were excluded from membership. I am afraid it is impossible and no Collector will say that the Government Order will be used to exclude the Members. It is not at all so; we are all welcome and every aspect of human life will have some contribution for solving the problems of human life. Regarding Harijan uplift, an hon. Member even suggested that if we are so earnest about it, we might just as well intermarry. I assure him that when the occasion comes, we will do it and we will certainly consult him and even we will ask him to solemnize the marriage if necessary.

"Sir, I would request Government to do everything in an urgent manner and not in the usual moderate speed of the previous Government. We have told our people that we are capable of doing everything very urgently. Now we have taken charge of Government it is up to us to do things urgently, as our problems are most pressing, irrespective of attacks from the opposition quarters.

"Regarding Industries, I wish to say only one thing."

* MR. SPEAKER:—"The hon Member has exceeded his time already."

* SRI P. KANDASWAMI PILLAI:—"I will only say one word, Sir, Salem is a very rich district in iron ore. Even from England, from Sheffield, it is certified, that Salem has the best iron ore in the whole of India. Till now nobody had taken care to explore this. If any hon. Member has any doubt about the potentiality of Salem iron ores, I will ask him to refer into Government records and satisfy himself. I would request Government to appoint a committee to inquire into this to see whether it will be profitable to start work. Therefore, Sir, . . ."

* MR. SPEAKER:—(The hon. Member has exceeded his time-limit and he will resume his seat.)

* SRIMATHI LAKSHMI AMMAL:—"அக்ரானர் அவர்களே, 15 நிமிஷம் இந்த சபையார் பேச அனுமதி கொடுத்து இருந்தபோதிலும் எனக்கு பல விஷயங்களைப் பற்றி பேச ஆசை உண்டு. கடைசியில் இப்பொழுது 10 நிமிஷம் கொடுத்திருக்கிறது. அவ்வளவாவது எனக்கு பேச அனுமதித்ததற்காக சந்தோஷப்படுகிறேன். எழு வருஷம் அட்வைசர் ஆட்சி நடந்த பிறகு காங்கிரஸ் மெஜாரிட்டியாக வந்து காங்கிரஸ் மந்திரி பதவி எற்றுக்கொண்டு பிரதம மந்திரி அவர்கள் Budget வரவு செலவு திட்டத்தை இங்கே சமர்ப்பித்து இருப்பதை நான் மனப்பூர்வமாக ஆதரிக்கிறேன். இந்த வருஷம் வரவு செலவு திட்டத்தில் ஜனங்களுடைய மந்திரி சபை என்பதைக்காட்டக்கூடிய அநேக மாறுதல்கள் இருக்கிறதை எல்லாரும் அறிந்த விஷயம். அதைப்பற்றிய வாதாவாதத்தை இது வரை கேட்டோம். அதில் இரண்டு மூன்று திட்டங்கள் மிகவும் ஜனங்களால் வறவேற்கத்தக்கது என்பதை நான் உறுதியாகக் கூறவேண்டும். முக்கியமாக இப்பொழுது இருக்கும் உணவு பிரச்சனைக்காக தாராளமாக ரூபாய் ஒதுக்கி

5-16
p.m.

[5th August 1946]

[Srimathi V. Lakshmi Ammal]

ஜனங்களுக்கு உணவு சம்பாதித்து கொடுப்பதற்காக 4 கோடி ரூபாய் ஒதுக்கி வைத்திருப்பது குறிப்பிடத்தக்கது. இன்னும் ஒன்று அந்த விஷயத்தைப்பற்றி சொல்ல விரும்புகிறேன். நாலு நாட்களுக்கு முன் இந்த சபையில் நம் எல்லாருக்கும் ஓர் அறிக்கை கொடுக்கப்பட்டது. அதாவது சர்க்கார் எதிர் பார்த்ததுபோல் மற்ற விடங்களிலிருந்து அரிசி வராததினால் இருக்கிற அரிசியை ஏற்கனவே அறிவித்திருக்கிறபடி 10 oz. கொடுத்தால் சீக்கிரம் ஆகிவிடும் 8 oz. கொடுத்து இரண்டு மாதங்களுக்கு சமாளிக்கலாம் என்பதாக 8 oz. ஆக மாற்றப்பட்டிருக்கிறது. அதை என்னுடைய குமாரராஜா Muthiah செட்டியார் காலையில் குறிப்பிட்டார்கள். அது மிகவும் வறவேற்கத்தக்கது. அதாவது நம் மாகாணத்திற்குத் தான் அரிசி மிகவும் முக்கியமான ஆகாரம். மற்ற மாகாணங்களில் கோதுமை முக்கியமான ஆகாரம். இந்த உணவு பிரச்சனை அகில இந்திய பிரச்சனையாக இருக்கிறது நாம் பாராட்டுகிறோம். அகில இந்திய பிரச்சனையாக இருப்பதனால் கோதுமை அவர்களுக்கு முக்கிய ஆகாரமாக இருப்பதனால் கோதுமையை அவர்கள் ஆகாரமாக எடுத்துக்கொண்டு நம்மாகாணத்திற்கு முக்கிய உணவாகிய அரிசியைக் கொடுக்கவேண்டும். அதற்காக 9-ம் தேதி Delhi-ல் கூட இருக்கும் அகில இந்திய உணவு கமிட்டிக்கு Chief Secretary போவார் என்று நினைக்கிறேன். அவர்கள் போனால் 10 oz. அரிசி கொடுக்கவேண்டும் என்பதாகவும் அவர்கள் கோதுமையை எடுத்துக்கொண்டு நம்மாகாணத்திற்கு அரிசியை அதிகமாக கொடுக்கும்படி வற்புறுத்த வேண்டும் என்றும் கேட்டுக்கொள்கிறேன். அடுத்தபடியாக உணவு கமிட்டி அமைப்பதைப்பற்றி பேசியாகிவிட்டது. அதைப்பற்றி அதிகமாக ஒன்றும் சொல்லவில்லை. உணவு கமிட்டி அமைக்கும் திட்டத்தில் குறைபாடுகள் இல்லை. உணவு கமிட்டி அமைத்து இருப்பதில் என்ன காரணங்களினால் குறைபாடுகள் இருக்கிறது என்பதைக் கவனிக்கவேண்டும். கிராமாந்திரங்களில் சென்ற சில வருஷ காலமாக ஜனங்களுக்குள்ளே அநேக தப்பான எண்ணம் உண்டு. அவர்களுடைய சீர்கேட்டுக்கு அது தான் காரணம் என்பதைக் கவனிக்கவேண்டும். யுத்தம் நடந்துகொண்டு இருந்த காலத்தில் யுத்த நிதி திரட்டுவதற்காகவேண்டி அதிகாரிகள் கட்டாயப்படுத்தி ஒவ்வொருவரையும் யுத்த நிதிக்கு பணம் கொடுக்கவேண்டும் என்பதாக வற்புறுத்தியதின் பேரில் கிராமாந்திரங்களிலுள்ள ஜனங்கள் ஏராளமாக பணம் கொடுக்கவேண்டி வந்து விட்டது. யுத்த நிதி திரட்டுகிற காலத்தில் ராஜாஜி அவர்கள் ஒரு இடத்தில் குறிப்பிட்டிருக்கிறார்கள். வரியைக் கொடுக்கிறவர்களிடம் யுத்த நிதி வேண்டுமென்று அதிகாரிகள் கேட்பது மிகவும் தவறு என்று பேசியிருக்கிறார்கள். தமிழில் ஒரு குறள் இருக்கிறது. அதிகாரவர்க்கம் கட்டாயப்படுத்தி நன்கொடை வசூலிக்கக் கூடாது. அந்த மாதிரி கிராமத்திலுள்ள விவசாயிகளை கட்டாயப்படுத்தி அங்குள்ள ஜனங்களிடம் ஏராளமாக சர்க்கார் யுத்த நிதியை திரட்டிவந்த கேட்டினால் இந்த கமிட்டிகள் சீர்கேடாக அமைக்கப்பட்டிருப்பதற்கு காரணம். ஆகையினால் கமிட்டி அமைப்பதில் அதிகாரிகளுக்கும் கிராம ஜனங்களுக்கும் விரோதம் ஏற்படுகிறது. ஆகையால் அதிகாரிகளை அதாவது Revenue, Police Department-களில் உள்ள மேல் அதிகாரிகளை மாற்றவேண்டும். அப்படிச் செய்தால் இந்தக் குறைபாடுகள் கொஞ்சம் குறையும் ஜில்லாவில் லஞ்சம் குறையும் என்று உறுதியாக கூறுகிறேன். அங்கு உள்ள அதிகாரிகள் தாக்கூண்யத்தினால் சில பேர்களை கமிட்டிகளில் போடவேண்டி வருகிறது. இரண்டு மூன்று ஜில்லாக்களுக்கு அப்பாலுள்ள ஜில்லாக்களில் மாற்றுதல் செய்தால் இந்த மாதிரியான லஞ்சத்தை ஒழித்து கிராமத்திலுள்ள ஜனங்கள் நல்ல நிலைமைக்கு வருவார்கள். பயப்படமாட்டார்கள். அவர்கள் இப்பொழுது என்ன சொல்கிறார்கள் யுத்த நிதிக்குப் பணம் கொடுத்திருக்கிறேன் என்னேக் கமிட்டியில் போடவேண்டும் என்று சொல்கிறார்கள். மூன்று ஜில்லாக்களுக்கு வெளியே ஜில்லா Collectors உள்பட மாற்றுதல் செய்யவேண்டும். இதே சமயத்தில் உணவு பிரச்சனை சம்பந்தமாக ஒரு Point குறிப்பிட விரும்புகிறேன். Advisory சர்க்கார் தயாரித்த வரவு செலவு திட்டத்திலே சென்னையில் ரோடுகள் போடுவதற்காக நிறைய பணம் ஒதுக்கி வைத்தார்கள். அதை மாற்றி நீர் பாசன வசதிக்காகவும் நம் காவிரி மந்திரிகள் அதிகமாக ஒதுக்கிவைத்திருப்பது வரவேற்கத்தக்கது. உணவு

5th August 1946] [Srimathi V. Lakshmi Ammal]

கஷ்டம் காரணமாக ஏராளமாக நமக்கு நீர்பாசன வசதிகள் செய்ய வேண்டும். Advisor ஆட்சியில் ஏராளமான கிணறுகள் வெட்ட ரூபா கொடுக்கப்பட்டது. அந்த ரூபாய்கள் பணக்காரர்களுக்குதான் பிரயோஜனப்பட்டிருக்கிறதாகத் தெரிகிறது. அதைப்பற்றி இங்கு கவனிக்க வேண்டாம். அதில் எவ்வளவு கிணறுகள் வெட்டப்பட்டிருக்கிறது என்றும் சர்க்கார் குறிப்பிட்டிருக்கிறார்கள். மொத்தத்தில் எவ்வளவு கிணறுகள் வெட்டப்பட்டிருக்கிறது. அதிலிருந்து எவ்வளவு சாகுபடி ஆகியிருக்கிறது என்பதைப்பற்றி இன்னும் இரண்டு மூன்று மாதங்களில் ஒரு அறிக்கை சர்க்கார் தயாரித்து அனுப்பினால் எவ்வளவு உற்பத்தியாகியிருக்கிறது என்று ஜனங்களுக்குத் தெரியும். கால் நடை விஷயமாக ஒன்று இரண்டு சொல்ல விரும்புகிறேன். ஏராளமான மாடுகள் இருந்தால்தான் வயல்களுக்கு உற்போட முடியும். மாடுகளை வைத்துக்கொண்டு அவைகளுக்கு தீனி போடுவது அதிக கஷ்டமாக இருக்கிறது. பருத்திக்கொட்டை புண்ணாக்கு ரொம்ப அதிக விலையாக இருக்கிறது. Control விலை சட்டத்தில் இருக்கிறதெயொழிய அமுலில் நடப்பதில்லை. அதைச் சட்டத்திற்குள் கொண்டு வரவேண்டும். எனவே அரிசிக்கு எப்படி Ration ஏற்பட்டிருக்கிறதோ அதே மாதிரி பருத்திக்கொட்டை புண்ணாக்குக்கும் Ration ஏற்படவேண்டும். மாடுகளை வைத்திருந்தால்தான் ஏராளமான உரம் கிடைக்கும். அதிலிருந்து விவசாயம் நன்றாக நடக்கும். அதையும் மந்திரிகள் கவனிக்கவேண்டுமென்று கேட்டுக்கொள்கிறேன். அடுத்தபடியாக எங்கள் ஊரில் தீர்வை அசாத்தியமாக இருக்கிறது. எல்லா ஜில்லாக்களையும் விட திருநெல்வேலியில் acre-க்கு ரூ. 22-8-0. இந்தத் தீர்வையை குறைக்க வேண்டும். நம்முடைய நாட்டிலிருந்து கள்ளுக்கடையை ஒழித்து ஏழைகளைக் காப்பாற்றவேண்டும். அதே மாதிரியாக விவசாயிகளின் கஷ்டத்தையும் நிவர்த்திக்கவேண்டும். இல்லாவிட்டால் விவசாயிகள் கிராமங்களிலிருந்து ஓடிப்போகவேண்டியிருக்கும். அதற்காக விவசாய இலாகாவிலிருந்து வேண்டிய உரம் அதற்கு வேண்டிய கருவிகள் கொடுக்க முன் வரவேண்டும். தீர்வை குறைக்கப்படவேண்டும். அதற்காக Electricity எவ்வளவு தூரம் உபயோகப்படுத்த முடியுமோ அவ்வளவு தூரம் உபயோகப்படுத்தவேண்டும். வைத்திய இலாக்காவுக்கு ஒன்று சொல்ல விரும்புகிறேன். வைத்தியம் விஷயமாக எல்லாரும் பேசிவிட்டார்கள். ஒரு விஷயத்தை மாதிரம் குறிப்பிடவேண்டும். இந்த வருஷத்தில் 200 மருத்துவஸ்திரிகளைப் பயிற்சி பண்ணப்போவதாக சுகாதார மந்திரி சொன்னார்கள். இது போதாது. கிராமாந்திரங்களிலுள்ள ஸ்திரீகள் மருத்துவ உதவியில்லாமல் தினம் செத்துக்கொண்டு வருகிறார்கள் என்பதைக் கவனிக்கவேண்டும். மருத்துவ உதவியில்லாமல் உயிருடன் போராடிக்கொண்டிருக்கும் காலத்தில் இந்த வருஷம் 200 அடுத்த வருஷம் 200 என்று நியமித்தல் கூடாது. ஒவ்வொரு Panchayat-லும் Health visitor நியமிக்கவேண்டியதவசியம். அடுத்த வருஷம் அடுத்த வருஷம் தள்ளிக் கொண்டுபோனால் பெண்களும் செத்துக்கொண்டு போவார்கள். ஆகையால் ஒவ்வொரு Panchayat-லும் Health visitor-ஐ நியமிக்கவேண்டும். கல்வி விஷயத்திலும் இந்த மாகாணம் பூராவும் தமிழில் போதும்படி ஏற்பாடு செய்திருப்பது வறவேற்கத்தக்கது. அந்த முறையில் அதை சர்க்கார் நடத்தவேண்டும். பள்ளிக்கூட மாணவர்களுக்கு பள்ளி கூடங்களில் தமிழில் Pass செய்தால் தங்களுக்கு உத்தியோகம் கிடைக்கும் என்ற நம்பிக்கை உண்டாகவேண்டும். அப்படி இருந்தால்தான் English-ன் மேல் உள்ள மோகம் போகும். இந்தச் சபையிலும் எல்லாருக்கும் அறிக்கை English-ல் கொடுக்கப்படுகிறது. அநேகம் பேருக்கு English வாசிக்கத் தெரியாது. இது வியர்த்தமாகப் போகிறது. அவைகளை தமிழில் கொடுத்தால் அவர்களுக்கு நன்றாக விளங்கும். தெலுங்கர்களுக்கு தெலுங்கிலும் தமிழர்களுக்கு தமிழிலும் மொழி பெயர்க்கப்பட்டிருக்க வேண்டும். இதற்காக எவ்வளவு பேர் வேலை செய்தாலும் வியர்த்தமாகாது. ஆயிரக்கணக்காய் ரூபாய் செலவு செய்தாலும் அது வீண் போகாது.”

* Sri M. KANNIAPPAN :—“கனம் தலைவர் அவர்களே, நான் தொழிலாளர்களுடைய பிரதிநிதி. இன்று தொழிலாளர்களுடைய குறைகளை அரசாங்கத்திற்கு எடுத்துச் சொல்லவேண்டியது என்னுடைய கடமை. அரசாங்கத்தால் நடத்தப்படும் தொழிற்சாலைகளிலே வேலை செய்யும்

[Sri M. Kanniappan] [5th August 1946]

தொழிலாளர்கள் எவ்வளவு சம்பளம் பெறுகிறார்களென்பதை நீங்கள் தெரிந்துகொள்ளவேண்டும். வெளியிலே கொடுக்கப்படும் சம்பளத்தைவிட நிரம்பவும் கேவலமான சம்பளத்தை அரசாங்கத்தால் நடத்தப்படும் தொழிற்சாலைகளிலே சிப்பந்திகளுக்குக் கொடுக்கப்படுகிறது. இந்த மாதிரி நிலைமையை உடனடியாகப் போக்கவேண்டியது நம்முடைய கடமை. அவர்களும் இந்த நாட்டில் சுகமாக வாழவேண்டும். அவர்களுக்கு உணவு உணவும், உடுக்க உடையும், இருக்க இடமும் வேண்டும். அரசாங்கத்தாரால் நடத்தப்படுகிற எந்த டிபார்ட்மென்டாக விருந்த போதிலும், அவர்களுக்கு நியாயமான சம்பளத்தைக் கொடுக்கவேண்டியது நம்முடைய கடமை. ஆனால், தொழிலாளர்களுக்கு அதிக சம்பளத்தைக் கொடுக்கப் போதுமான வருமானம் இல்லையென்று சொல்லப்படுகிறது. ஆனால், இன்று தனிப்பட்ட முதலாளிகள் மிஸ்கனையும், இதர தொழிற்சாலைகளையும் வைத்து நடத்துகிறார்கள். அவைகளின் மூலம் லக்ஷக்கணக்கான, கோடிக்கணக்கான ரூபாய் லாபம் அடைகின்றார்கள். இந்தத் தொழிற்சாலைகளை நம்முடைய அரசாங்கமே எடுத்துக்கொண்டு நடத்தினால், அவைகளிலிருந்து வரக்கூடிய பணத்தை நம்முடைய அரசாங்க சிப்பந்திகளுக்கு நல்ல முறையிலே அதிக சம்பளத்தைக் கொடுக்க முடியும். இன்று நம்முடைய சென்னையை எடுத்துக்கொள்ளுங்கள். இங்கே ஆயிரக்கணக்கான பஸ்கள் ஓடுகின்றன. இவற்றின் சொந்தக்காரர்களான முதலாளிகள் லக்ஷக்கணக்கான ரூபாய் லாபமடைகிறார்கள். போக்குவரத்து சாதனத்தை தனிப்பட்ட முதலாளிகளிடமிருந்து அரசாங்கம் எடுத்துக் கொண்டு, அதைத் தானே நடத்தவேண்டும். சினிமா கொட்டகைகளின் மூலமாக ஆயிரக்கணக்கான ரூபாய் லாபம் கிடைக்கின்றது. அவைகளையும் அரசாங்கத்தாரே யெடுத்துக்கொண்டு நடத்தவேண்டும்.

“அடுத்தபடியாக அரசாங்கத்தாரால் நடத்தப்படும் ஆஸ்பத்திரிகளிலேயுள்ள சிப்பந்திகளை யெடுத்துக்கொள்ளுங்கள். அவர்களுக்கு மாதம் ரூ. 12 சம்பளம் கொடுக்கப்படுகிறது. இவ்வளவு குறைந்த சம்பளத்தை வாங்கிக்கொண்டு அவர்கள் எப்படி வாழக்கை நடத்த முடியும்? ஆகவே, ஆஸ்பத்திரிகளுக்கு சிகிச்சைக்கு யாராவது போனால், இந்தச் சிப்பந்திகள் அவர்களிடமிருந்து லஞ்சம் வாங்கிக்கொள்ளுகிறார்கள். கேட்டால், அவர்கள் இந்த 12 ரூபாய் சம்பளம் போதவில்லை யென்று சொல்லுகிறார்கள். அவர்கள் சொல்லுவதும் நியாயமாகத்தானிருக்கிறது. இன்னும், என்னுடைய தொழில் வர்க்கத்திற்கு வேண்டிய வசதிகளிருக்கின்றனவா? அவர்கள் வசிக்கக்கூடிய இடம் எப்படியிருக்குறது என்று பார்த்தால், அவர்கள் குடியிருக்க வீடில்லாமல் மிகவும் கஷ்டப்பட்டுவருகிறார்கள். அவர்களுக்கு சர்க்காரே நல்ல வீடுகள் கட்டிக்கொடுக்கவேண்டுமென்று சொன்னால், சர்க்காரில் அதற்கும் பணமில்லையென்று சொல்லப்படுகிறது. ஏதோ ஒரு திட்டம் போடுவதாகச் சொல்லப்படுகிறது. ஆனால் இதை உடனடியாகச் செய்யவேண்டும்.”

“அடுத்தபடியாக குடிசைத் தொழிலை அபிவிருத்தி செய்யவேண்டுமென்று மகாத்மா காந்தியவர்கள் அடிக்கடி சொல்லி வருகிறார்கள். இதற்காக நம்முடைய பிரதம மந்திரியார் மூன்று கோடி ரூபாயை ஒதுக்கியிருப்பதைப் பார்த்து நான் மிகவும் சந்தோஷ மடைகின்றேன். இந்த நாட்டிலிருந்து வெள்ளைக்கார அரசாங்கம் ஒழிய வேண்டுமென்று நாம் சொல்லுகிறோம். அதே சமயத்தில் மக்களின் வாழ்க்கை நிலையை உயர்த்தவேண்டுமென்று நாங்கள் சொல்லுகிறோம். இதன் பொருட்டு குடிசைத் தொழில்களை அபிவிருத்தி செய்ய வேண்டும். இதே சமயத்தில் கள் குடியையும் நாம் ஒழிக்கவேண்டும். அதற்காக நான்கு ஜில்லாக்களில் கள் குடியை யொழிப்பதாகச் சொல்லப்பட்டது. இப்போதும் இன்னும் நான்கு ஜில்லாக்களிலே குடியை எடுக்கப்போவதாக பிரதம மந்திரியவர்கள் கூறியுள்ளார். சென்னையிலேயும், மதுரை, கோயம்புத்தூரிலேயும் அநேகம் மில் தொழிலாளர்கள் வசிக்கிறார்கள். அவர்கள் குடித்து விட்டு மில்களுக்குப் போனால், அங்கே இயந்திரத்திலே அவர்களுடைய கை, கால்கள் அகப்பட்டுக் கொண்டு கஷ்டப்படுகிறார்கள். இதைத் தடுக்க வேண்டுமானால், முக்கியமாக மதுரை, கோயம்புத்தூர், சென்னை இந்த யிடங்களிலே உடனடியாக கள் குடியை எடுக்க வேண்டியது தர்மமென்று என்னுகிறேன்.

[Sri M. Kanniappan] [5th August 1946]

“அடுத்தபடியாக, நாம் ஜமீன்தாரி முறையை ஒழிக்கவேண்டுமென்று சொல்லி வருகிறோம். இதையும் நாம் உடனடியாகச் செய்யவேண்டும். இப்போது கொஞ்சம் நிலம் வைத்திருக்கும் விவசாயிகளுக்கும் வரி போடப்பட்டிருக்கிறது. அவர்களுக்குப் போடப்பட்டிருக்கும் வரியைத் தள்ளுபடி செய்து விட்டு, 10 அல்லது 15 ஏக்கர் வைத்திருக்கும் பெரிய நிலச் சுவான்களுக்கு மாதந்திரம் நிலவரி போடவேண்டும்.

“கடைசியாக, நாம் பெரிய ஜமீன்தாரர்களை யொழித்த பிறகும், சில குட்டி ஜமீன்தார்களிருப்பார்கள். மடாதிபதிகள் என்று சொல்லிக் கொள்ளும் ஒரு கூட்டம், ஆண்டவன் பெயரால் பல கிராமங்களை வைத்துக் கொண்டு அனுபவித்து வருகிறார்கள். இந்த மடாதிபதிகள் செய்யும் அக்கிரமங்களை நம்முடைய வாயால் சொல்ல முடியாது. இது எல்லோரும் அறிந்த விஷயம். இதை பிரதம மந்திரியாவர்கள் கவனித்து சரிவர திருத்தியமைக்கவேண்டும்.

“அடுத்ததாக, வரி போட வேண்டிய அவசியமிருந்தால், அதை பிரதம மந்திரி பணக்காரர்களுக்கும் போட வேண்டும். அப்போது தான் சர்க்காருக்குத் தேவையான பணம் சலபமாகக் கிடைக்கும். எழுகளுக்கு எவ்வித வரியையும் விதிக்கக்கூடாதென்று நான் கேட்டுக்கொள்ளுகிறேன்.

“கடைசியாக ஒன்று சொல்லிக்கொள்ள விரும்புகிறேன். நான் ஒரு தொழிலாளி. எனக்கு முன்னால் பலர் 25, 30 நிமிஷம் வரையில் பேசினார்கள். அதைவிட அதிகமாகக் கூட சிலர் பேசினார்கள். அவர்களுக்கெல்லாம் பேச இடமிருக்கிறது. ஆனால் எங்களுக்குமட்டும் 10 நிமிஷம் மட்டும் கொடுத்து அதற்குள்ளாகப் பேச வேண்டுமென்று சொன்னால், எப்படி முடியும்? எங்களுக்கும் பேச அதிகமான நேரத்தைக் கொடுக்க வேண்டுமென்று இந்த சந்தர்ப்பத்தில் கேட்டுக்கொண்டு, என்னை பேச அனுமதித்ததற்காக தலைவர்வர்களுக்கு என்னுடைய வந்தனத்தைத் தெரிவித்துக்கொள்ளுகிறேன்.”

* SRI P. M. VELAYUTHAPANI.—“சபாநாயகர் அவர்களே வரவு செலவு திட்டத்தை தயாரித்த பிரதமர் அவர்களுக்கு என் வந்தனத்தை தெரிவித்துக்கொள்ளுகிறேன். அதோடு கூட அவர்களுக்கு உதவியாக இந்த திட்டத்தில் கலந்து உதவி செய்த எல்லா மந்திரிகளுக்கும் என் பாராட்டு தலைத்தெரிவித்துக்கொள்ளுகிறேன். சபாநாயகர் அவர்களே, Adviser அரசாங்கம் இருந்த காலத்தில் அல்லது அதற்கு முன் நீதிக்கூடியார் இருந்த காலத்திலாவது ஹரிஜனங்களுக்கு இந்த விதமான சலுகை செய்ய வில்லை என்று நான் சொல்ல விரும்புகிறேன். இப்பொழுது சர்க்கார், மக்களுடைய அரசாங்கம் இங்கு வந்த காலத்தில் முதல் முதலாக ஒரு கோடி ரூபாய் ஹரிஜனங்களுக்காக ஒதுக்கப்பட்டிருக்கிறது. சபாநாயகர் அவர்களே அது போதுமா என்று கேட்டால், போதுமா என்று தான் சொல்ல வேண்டும். எனது தோழர் அண்ணாமலைப் பிள்ளை பேசியபடி மதுவிலக்கு விஷயமாக இந்த ஒரு கோடியில் பேர் பாதி ஹரிஜனங்கள் குடிசைகள் இருக்கிறார்கள் என்று சொல்லுகிறேன். பிற்கால புனருத்தாரணத்திற்காக நிறுத்தப்பட்டிருக்கும் 30 கோடி ரூபாயில் 15 கோடி ரூபாய் ஹரிஜனங்களுக்காக வரவு செலவு கணக்கில் ஒதுக்கியிருக்கவேண்டுமென்று சொல்லவிரும்புகிறேன். எங்களுக்குக் கொடுக்கவேண்டியது ஒரு கோடி ரூபாய்தான்? சஹஜானந்தம் சொன்னது போல் சர்க்கார் 50 கோடி ரூபாய் கடன் வாங்கி ஹரிஜனங்களின் முன்னேற்றத்திற்காக செலவு செய்ய வேண்டுமென்று சொல்லுகிறேன். இதில் தாமதம் இருக்குமானாலும் சொந்த பணம் இருக்கிறது, அதிலிருந்து செலவு செய்யுமாறு சொல்லிக்கொள்ள விரும்புகிறேன். அது மாதந்திரமல்ல, சபாநாயகர் அவர்களே 3 கோடி ரூபாயை குடிசைத் தொழிலுக்காகவும் கதருக்காகவும் வைத்திருக்கிறார்கள். ஆனால் இந்த கதரை முதல் முதலாக ஆரம்பித்தவர் திருவள்ளுவர்தான். எனக்கு ஒரு பாடல் ஞாபகம் வருகிறது. “நாவில் இழை நல்கி நூல் விரிக்கும் ஏழை அறிவே இதை குழை நல்கும் பிஞ்சுதன் தன் கூத்து.” அதைத்தான் மகாத்மா இந்த காலத்தில் கொஞ்சம் கொஞ்சமாக அமுலுக்கு கொண்டு வந்திருக்கிறார்கள். ஆகையினால் மகாத்மாவின் வேலையினால் கிடைத்த ரூபா ஒரு கோடியை ஹரிஜனங்களுக்காக செலவு செய்யுமாறு கேட்டுக்கொள்ளுகிறேன். சபாநாயகர் அவர்களே,

[Sri P. M. Velayuthapani]. [5th August 1946]

கடந்த மந்திரி சபை இருந்த காலத்தில் ஆலயபிரவேசத்தை ஆரம்பித்து சில ஜில்லாக்களில் வெற்றிகரமாக நடந்தது. ஆனால் இப்பொழுது எல்லா ஜில்லாக்களுக்கும் ஏக காலத்தில் மாகாணம் பூராவும் மது விலக்கைக் கொண்டுவரவேண்டுமென்று சொல்லுகிறார்கள். நான் ஒப்புக்கொள்ளுகிறேன். அதுபோலவே ஆலயப்பிரவேசத்தையும் எல்லோரும் ஒன்று சேர்ந்து ஒரே அடியாக மாகாணம் பூராவும் இந்த ஆலயப்பிரவேசம் உண்டா குமாறு திட்டம் வகுக்குமாறு கேட்டுக்கொள்ளுகிறேன். ஆதிதிராவிடரை ஒரு வகுப்பாரும் தீண்டக்கூடாது என்று சொல்லுகிறார்கள். ஆனால் செத்த பிணம்! கூட ஜாதி பேதமா என்று கேட்கிறேன். செத்த பிணத்தைச் சுடக்கூடிய மண்ணுக்கும் ஜாதி பேதமா என்று கேட்கிறேன். சில மாதங்களுக்கு முன் மதுரையில் ஒரு ஆதிதிராவிட பிணத்தை புதைத்ததற்காக அவர்களைக் கோர்ட்டுக்கு கொண்டுவர **Case** போட்டு **Jail**-க்கு அனுப்பி விட்டார்கள். ஆனால் சர்க்கார் அந்த நபரை சீக்கிரத்தில் விடுமபடி நேர்ந்தது. ஆகையினால் இந்த விதமாக சுடுசாட்டில் கூட ஜாதி பேதம் கூடாது என்று சட்டம் கொண்டுவர வேண்டுமென்று கேட்டுக்கொள்ளுகிறேன். அதைத் தவிர ஸ்தல ஸ்தாபனங்களிலும் எங்கள் ஜாதியில் எவ்வளவு ஜனங்கள் அவர்கள் எண்ணிக்கைக்குத்தகுந்தவாறு பிரதிநிதித்துவம் கொடுக்க வேண்டுமென்று கேட்டுக்கொள்கிறேன். பதினெட்டு அல்லது பத்தொன்பது வருஷங்களுக்கு முன் இருந்த சட்டம் தான் இப்பொழுதும் இருக்கிறது. சீக்கிரத்தில் ஸ்தல ஸ்தாபனங்களில் இந்த சமயத்தில் பிரதம மந்திரி அவர்கள் எங்கள் எண்ணிக்கைக்குத் தகுந்தவாறு பிரதிநிதித்துவம் அளிக்குமாறு கேட்டுக்கொள்ளுகிறேன். ராவ் பகதூர் சீனிவாசன் சட்டசபையில் இருந்த காலத்தில் எங்கள் ஜாதியினருக்கு **Village Munsif, Karnam** வேலைகள் கொடுக்க வேண்டுமென்று பேசியிருக்கிறார்கள். எங்களுடைய மக்கள் ஒருவர் உதவி வேண்டுமென்று போனால் அவர்கள் முன்பாக எவ்வளவோ நாள் காத்து நிற்க வேண்டியிருக்கிறது. இந்த மாதிரி கஷ்டப்படுகிறார்கள். இப்படி கஷ்டப்பாட்டாலும் அவர்களுக்கு ஞாயம் வழங்குவது கிடையாது. ஆகையினால் அந்த உத்தியோகங்களுக்கு எம் ஜாதியினரைச் சேர்த்துக்கொள்ளுமாறு கேட்டுக்கொள்ளுகிறேன். சென்னையில் எங்கள் ஜாதி பிள்ளைகளுக்காக ஒரு **Padison** ஹாஸ்டல் இருந்தது. **Adviser** அரசாங்கம் அதைப் பிடிங்கிவிட்டது. அந்த **Hostel**-ல் படித்தவர்கள் இப்பொழுது பெரிய உத்தியோகத்தில் இருக்கிறார்கள். ஆனால் இப்பொழுது எங்கள் மாணவர்களுக்கு எவ்வளவோ கஷ்டம். அவர்களுக்காக **Hostel**-களும் **College**-களும் எங்கள் ஹரிஜனங்களை மதிப்பிட்டு மாகாணத்தில் தாலுகாவாரியாகவும் ஜில்லாவாரியாகவும் **Hostel** அமைக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன். இன்னும் இப்பொழுது ராணிப்பேட்டை, வாலாஜா, ஆற்காடு இந்த பஞ்சாயத்து போர்ட் இடங்களில் பொது ஜனங்கள் ஜல் வசதி மிகவும் குறைவு. குடி தண்ணீர் இல்லை. மந்திரிகள் போனால் பார்க்கலாம். காவிரிப்பாக்கத்தில் ஒரு ஏரி இருக்கிறது. அது 4 Mile நீளம் இருக்கிறது. அங்குக் கட்டியிருக்கிற அணைக்கள் மிகவும் கெட்டுப்போய் இருக்கிறது. அதைப்பற்றி கனம் மந்திரி அவர்களுக்கு மனு கொடுக்கப்பட்டிருக்கிறது. அதை பார்வையிடுவதாயும் சொல்லியிருக்கிறார்கள். இந்த விஷயத்தையும் உடனே கவனிக்கவேண்டுமென்று கேட்டுக்கொள்கிறேன். பக்கத்தில் அரசர்கோணம் இருக்கிறது. அங்கே எங்கள் ஜாதியார் அதிகமாகயிருக்கிறார்கள். அவர்கள் எல்லோரும் தொழிலாளர்கள். அந்த இடத்தில் சுகாதார வசதி இருக்கிறதா என்று பார்த்தால் தெரியும். எங்கு பார்த்தாலும் கொசு அதிகமாக யிருக்கிறது. ஆஸ்பத்திரிகள் அதிக கேவலமாக இருக்கிறது. தொழிலாளர்கள் வசிக்கக்கூடிய இடம். சென்னையிருந்தும் 40 மைல் தூரத்தில் இருக்கிறது. இந்த இடத்தில் இவ்வளவு கேவலமாக இருந்தால் அதிக தூரத்திலுள்ள இடங்கள் எந்த நிலையில் யிருக்கக்கூடும் என்று நீங்கள் தெரிந்துக்கொள்ள வேண்டும். திண்டிவனம் சேரியில் 1,000 ஹரிஜனங்கள் இருக்கிறார்கள். அங்கே 20 வருஷத்துக்கு முன் ரோடு போட்டார்களோ என்று சந்தேகப்பட வேண்டியிருக்கிறது. அவர்கள் திண்டிவனம் பஞ்சாயத்து போர்டுக்கு வரி செலுத்துகிறார்கள். இந்த காரியங்களையெல்லாம் சரிப்படுத்திக் கொடுக்க வேண்டும். வாலாஜா பேட்டை பக்கத்தில் புதுப்பாடி என்னும் ஒரு சேரியிருக்கிறது. அங்கே ஒரு போஸ்ட் ஆபீஸ்

5th August 1946] [Sri P. M. Velayuthapani]

இருக்கிறது. அக்கிராமத்தின் அருகே என்னு நண்பர்கள் 15 குடும்பங்கள் இருக்கிறது. அவர்கள் பக்கத்தில் எங்கள் ஜாதியாரின் 300 குடிசைகள் இருந்தபோதிலும் அக்குள்ளே போஸ்ட் ஆபீஸ் ஜாதி ஒந்துக்கள் இருக்கக் கூடிய விடத்தில் இருக்கிறது. போஸ்ட் ஆபீஸுக்குப் பொவதற்கு கூட எங்கள் ஜாதியார் ரொம்ப கஷ்டப்படுகிறார்கள். காங்கிரஸ் அரசாங்கம் மகாத்மா காந்தி மகான் வார்த்தையால் நடக்கக்கூடிய அரசாங்கம் இப்பொழுது ராஜ்யபாரம் நடக்கிற காலத்திலும் ஜாதி வித்தியாசம் இருக்கிறது என்பதைத் தெரிவித்துக்கொள்ளுகிறேன். இந்த விஷயத்தில் பிரதம மந்திரி அவர்களும் மற்றவர்களும் இந்த காங்கிரஸ் அரசாங்கம் ஆதி திராவிடர் முன்னேற்றத்திற்கு எவ்வளவு தூரம் பாடுபட வேண்டுமோ அவ்வளவு தூரம் பாடுபட்டு எங்கள் ஜாதியரை முன்னேற்றத்திற்குக் கொண்டுவரும்படி கேட்டுக்கொள்கிறேன்.

* DR. M. J. SAMUEL:—“ Mr. Speaker, Sir, I am very grateful to you for 1 caught the eye of the Speaker after two days of waiting and watching. Many members have already spoken before me. I wish to congratulate the Hon. the Premier on this very liberal and memorable budget. I call it a liberal budget because one crore of rupees has been allotted for Harijans. In the previous budgets, we have never seen such a figure as this. One crore is a colossal sum and the Government are going to do something tangible for the uplift of this unfortunate class of people. But I am very sorry to notice the other day one of the hon. Members adversely remarked that this fund should not be utilized for Harijan converts to Christianity and other religious faiths. In this connexion, Sir, coming as I do from a backward area comprising the Ceded districts, Chittoor and North Arcot representing the Indian Christian community of that area I would like to bring to the notice of the House that there are many Christians in that area who have been drawn from the backward classes, mainly the Harijans. I agree with the other members of the Opposition that this sum of money should be utilized for all these classes of men who have been down-trodden all these years. I request the Hon. the Premier to extend to these converts to Christianity all educational concessions and other amenities as it is done in the case of Harijans. 5-30 p.m.

“ Sir, coming to the food problem, the Government is going to spend a considerable sum of Rs. 30 lakhs for fertilizers and sinking of wells under the Grow More Food Scheme. This scheme has already taken root in the rural areas. One of the European Members, Mr. Ferrelly, has remarked whether this sum is going to the actual sinking of wells, or disappear in the thin air. I must say that every pie of this money is going to be spent for sinking more wells for growing more food.

“ With regard to the other points I would like to say a word or two. In regard to the educational demand I am reminded that the poor teachers' grievances have been well represented by the hon. Member for the Anglo-Indian community and I agree with him in saying especially the teacher who is working in the aided schools is very badly treated. This Government have made provision for an increase of Rs. 2 for a teacher of higher or secondary grade. This is insufficient. I plead with the Education Minister to enhance this to at least Rs. 5, making it either equal or on a par

[Dr. M. J. Samuel] [5th August 1946]

with the other teachers in the district board. I know they are given a dearness allowance which is inadequate. I would urge on the Government to make a provision for at least five rupees increment on this account. I do not want to dilate on other matters because members have already spoken. I would like to say a word about the sub-assistant surgeons. The sub-assistant surgeons (the L.M.P. cadre) have been demobilized on the different theatres of war. As you all know this class of men have been entertained in the war as temporary Commissioned Officers on Rs. 500 per mensem. When they return back to their positions in the local boards, they will be reverted as local fund sub-assistant surgeons on Rs. 100 or less. I would like to request the Hon. Minister for Public Health to consider the cases of the few men—it may be half a dozen or a dozen—to provincialize their service and incorporate them in the Government dispensaries. In this connexion I would like to bring home to this House that this cadre should be abolished. The Hon. Dr. Rajan (the former Public Health Minister) has been kind enough to abolish the medical school. But I would ask the present Minister to abolish this cadre also and give a chance for these men to occupy places equal to the Assistant Surgeons,; because in the late war there was no cadre as sub-assistant surgeon. There was only one cadre for all medical men. They were given temporary Commissions. Therefore I request that this matter may be considered by the Minister at an early date.

6 p.m. "Now, Sir, I wish to say a word about the representation of my community in the services. My community is a very small community and it has been tacked on to so many other minority communities in the matter of communal representation. We all know, because of our religion, the Indian Christian community has been clubbed with the Anglo-Indian community, European and non-Asiatic and has been asked to share two out of the twelve places. That is the proportionate representation granted by Government. Sir, I would request this House to note the fact that our community is a fairly growing community. We are nearly 24 lakhs now and this grant of two seats for all the minority communities together leaves us only one seat out of every twelve in the gazetted ranks. I would plead that this matter may be considered by the Hon. the Premier and my community be granted 2 seats out of 12 in the services. As I go around the districts, I find that the Indian Christian community is not properly or adequately represented in the lower services. In certain cadres, for instance in the cadres of Deputy Tahsildars and Tahsildars, the Indian Christian is rarely to be found. Even though there are qualified men among us, men who have passed the B.A. and also the departmental tests, adequate representation has not been given to us. Therefore I request the Hon. the Revenue Minister to look into the matter and do justice."

SREE VEERANNA PADEL:—“అయ్యా, విశాఖపట్టణం, గోదావరి జిల్లాలకు చెందిన మనమిత్రులకుండ ప్రాంతముల, తెనుగుభిన్న జాతుల ప్రజ వేలకొది ఆనెక కష్టాలకు గురి అవుతున్నారు. వీరికి నూటికి నూరు పాళ్లు చదువులేక, వైద్య సహాయం లేక, అనేక రోగబీదలకు లె తినటానికి లిండి లేక, కష్టబుట్టులేక హీనులైయ్యన్నారు.

5th August 1946] . [Sri Veeranna Padal]

వీరిచే విజేస్సీ కొండ ప్రాంతాల్లో ఫారెస్టు డిపార్టుమెంటువారు టేకు తోటలు వేయించి తోటలకు ఆయిన మరాఠత్తు కనులు చేయించుకొని పూటకూలి లేక పూటబత్తము లేక, వెట్టి చాకీరీ చేయిస్తున్నారు. ఇందువల్ల వారు స్వంత వ్యవసాయం కనులు చేసుకొనుటకు వ్యవధిలేక, పంటలు లేనందున లెనుటకు అన్నములేక మలమల చూడుచున్నారు. అడవి జంతువులనుండి రక్షించుకునే నిమిత్తము తుపాకులు పెట్టుకొనగా 43 నువీ లైసెన్సులు పంపిణీరెపని నిర్బంధం పెట్టారు. లైసెన్సు క్రమము వినియోగించుకొన తెలియని అమాయకులపై కేసులు పెట్టి విమోచనాలు విధిస్తూ ఉన్నారు. ఈ దిక్కులేని ప్రజను ఒక కంట దూడాలని ప్రభుత్వానికి విన్నపిస్తున్నాను.

“మా ప్రాంతముల మలేరియా బాగా న్యాపించి వుంది. నిహరణ కార్యాలను ఈ సీబ్బంది అధికారులు క్యాంపులువేసే చోట రోడ్ల దగ్గరనే చేస్తున్నారు. అది మారాలి. వ్యవసాయం పెంపొందించాలి. రోడ్లు వేయించాలి. దక్షిణాది సీబ్బంది గిరిల ప్రాంతాల వెచ్చించినట్లు మన్యం ప్రాంతాల కొండ భనవ్యయం జరిపితే లాభపాటి కాగలదు. మరికనుల మాదిరిగానే వెళ్ళి జీవన జాతులకు కూడా సహాయాన్ని కోరుతున్నారు.”

SRIMATHI ANJALAI ANMAL:—“கனம். தலைவரவர்களே, இப்போது கங்குடியை யொழிப்பதற்காக லக்ஷக்கணக்கான ரூபாய் ஒதுக்கப்பட்டிருக்கிறது. கங்குடியை யொழிப்பதில் தஞ்சாவூர், தென் ஆற்காடு, திருநெல்வேலி, ராமநாதபுரம் ஜில்லாக்களையும் சேர்க்கும்படியாக நான் கனம். பிரதம மந்திரியவர்களைக் கேட்டுக்கொள்ளுகிறேன். கள்ளுக்கடைகள் அடியோடு தொலைந்ததால் தான் நம்முடைய ஜனங்கள் சந்தோஷமாகவிருப்பார்கள். சாதாரணமாக ஹரிஜனங்கள் தான் கள் சாப்பிடுவதாகச் சொல்லப்படுகிறது. மற்றவர்களும் அதிகமாகச் சாப்பிடுகிறார்கள். முக்கியமாக குடியாவைவர்கள் தங்களுடைய வேலையைச் செய்துவிட்டு, சம்பாதிக்கும் பணத்தை யெல்லாம் கள்ளுக் கடைகளில் கொட்டிவிடுகிறார்கள். வீட்டுக்கு வந்து பெண்களையும், பிள்ளைகளையும் அடித்துத் தொந்திரவு செய்கிறார்கள். அதோடு, சூடிக்கிறவர்களுக்கு பணக்காரர்கள் பணத்தைக்கொடுத்து, தங்களுக்கு யார் வேண்டாதவர்களோ, அவர்களை அடிக்கும்படியாகவும், துன்பம் செய்யும்படியாகவும் செய்துவிடுகிறார்கள்.

“ வெள்ளையர் ஆகழியில் சில ஜனங்களை குற்ற பரம்பரை ஜாதியினராகக் குறிப்பிட்டிருந்தாலும், நம்முடைய ஆகழியிலே அந்தமாதிரி யிருக்கக்கூடா தென்று நான் கேட்டுக்கொள்ளுகிறேன். அந்த ஜாதியினருக்கு சம்பள மில்லாமல் படிப்பு வசதி செய்து தரவேண்டும். குழந்தைகள் 4, 5 மைல் தூரத்திலிருந்து படிப்பதற்காக பள்ளிக்கூடங்களுக்கு வருகின்றனர். அவர் களுக்கு அங்கேயே சாப்பிடுவதற்கு வசதி செய்து கொடுத்தால், நன்றி யிருக்கும்.

“ கள்ளமார்கெட்டுகளை நாம் கட்டாயம் ஒழிக்கவேண்டும். ஆனால் இப்போது கள்ளமார்கெட்டுகளை நடத்துகிறவர்களையே கமிட்டியிலே மெம்பர்களாகப் போடுகிறார்கள். இப்போது கடைகளிலே 5 பலம் சர்க்கரை கேட்டால் கூடக் கிடைப்பதில்லை. ஆனால் ராத்திரியிலே மூட்டை மூட்டையாக சர்க்கரை கொண்டுபோகப்படுகிறது. ஹோட்டல்களிலே யெல்லாம் பக்கணங்கள் செய்யப்படுகின்றன. ஒவ்வொரு கமிட்டியிலும் உண்மையான ஷாழியர்களைப் போட்டால்தான், ஏழை ஜனங்கள் சுகமாக வாழமுடியும். இப்போது நமக்குக் கொடுக்கப்படும் அரிசி மிகவும் கேலவமாக விருக்கிறது. அதைக் கையிலே யெடுத்தால், மாவாகப் போய்விடுகிறது. அதை மாடுகளுக்குப் போடுவதற்குத்தான் உபயோகப்படும்படியாக விருக்கிறது.

“நேற்று நான் கோஷா ஆஸ்பத்திரிக்கும் போயிருந்தேன். அங்கே சரஸ்வதி பாண்டோங்கம் அவர்களுக்கு வயிறு “operation” செய்தார்கள். நோயாளியின் பக்கத்திலே யாரும் வரக்கூடாதென்று அங்குள்ள டாக்டர்கள் விரட்டிவிடுகிறார்கள். சொந்தக்காரர்கள் யாராவது இருந்தால்

[Srimathi Anjalai Ammal] [5th August 1946]

தானே நோயாளிகளுக்குச் சொறு, தண்ணீர் கொடுக்கமுடியும். பணத்தைக்கொடுத்தால் உன்னையிருக்க அனுமதிக்கிறார்கள். இதையெல்லாம் நீங்கள் சீர்திருத்தம் செய்யவேண்டுமென்று நான் கேட்டுக்கொள்ளுகிறேன்.

“கடைசியாக என்ஜினியரிங் கலாசாலைகளைப்பற்றி ஒரு விஷயம் கூற விரும்புகிறேன். வாயு செலவு திட்டத்தில் புதிதாக ஆந்திர ஜில்லாக் களுக்காக ஒரு என்ஜினியரிங் கலாசாலையை ஏற்படுத்துவதற்கு பணம் ஒதுக்கப்பட்டிருக்கிறது. அதே விதமாக தமிழ் ஜில்லாக்களுக்காக ஒரு என்ஜினியரிங் கலாசாலை தமிழ் ஜில்லாக்களில் ஏதாவதொன்றில் ஏற்படுத்தும் படியாக நான் கேட்டுக்கொள்ளுகிறேன்.”

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“Mr. Speaker, Sir, several of my friends who spoke before me congratulated the Hon. the Premier on the presentation of his budget. I also want to congratulate him and I congratulate him on the fact that he has formulated his budget within the short time which he had at his disposal after assuming office.

“Presently I will have to refer to certain points in the budget on which I have to congratulate him; but in the meantime I want to refer to certain features of the budget which reference may perhaps not be palatable to our friends on the other side. But, before that, Mr. Speaker, I have to say something with reference to the appeal made by the hon. Friend the Leader of the Independents with regard to the unity of the various communities in the province and the country. I did not intend to touch on politics on this occasion, but since my friend has chosen to refer to the subject, I think I cannot but say a few words on the matter. He says ‘Unity.’ What is meant by ‘Unity,’ Mr. Speaker, I am not sure. This is a country and this is also a province wherein we have got a population which is multi-racial, multi-lingual, multi-religious and multi-so-many other things. By unity I do not think that anybody means or proposes that all these elements of the population should fuse together into one homogenous people. That is a physical impossibility. But, however, that is no reason why there should be disharmony, there should be heart-burning and there should be quarrel in this country. What our friends really want is amicability and cordiality between the various sections and elements of the population. If we had those qualities with us, I think the province can go on smoothly and happily. So far as the Muslim League is concerned, particularly during the recent few months, it has done all it can to make such an amicable settlement possible. It has tried its best to usher in cordiality and thereby bring in the much-needed freedom and independence to this country. The Muslim League has made concession after concession for an amicable settlement, but the party of the friends on the other side—the Congress side—did not budge an inch, as has been pointed out by our revered leader, the Qaid-e-Azam, from the position which they took originally. Under these circumstances, it is deplorable that we cannot have the much-desired amicable settlement and the Muslim League was left with no other choice but to come to the decision which it has come to in Bombay a few days ago. I do not want to say more on the subject, Mr. Speaker. There are other occasions and other platforms on which we can give expression to these ideas.

[5th August 1946] [M. Muhammad Ismail Sahib Bahadur]

“Now coming to the budget, so much has been said about the demands for a lump sum. The Government tried to meet that objection by saying that it is not really a demand for a lump sum that has been made, and that it is not an estimate, but a fund that has been constituted. For this purpose, the analogy of the water-supply fund has been invoked. I say there is no analogy between the water-supply fund and this fund. Water-supply is a definite item in the scheme of village welfare, prosperity or reconstruction or whatever else you may call it. We all know what that item is. We all know what a huge amount is required for fulfilling the object of the water-supply schemes. But here this is a subject which has not yet been defined. We are not yet given details of the sort of rural reconstruction which they have in view. We do not know yet whether the rural reconstruction which they are aiming is going to be practicable and of real benefit to the people. So I think there is no real analogy between the water-supply fund referred to and the fund which is being constituted now by the present budget. Even this argument of a fund has been given away in the same breath by transferring or withdrawing a sum of Rs. 200 lakhs for khaddar. The round figure of a lump sum of Rs. 200 lakhs has been allotted for khaddar. Therefore I do not think there is in reality even an appearance of a fund in this matter.

“Again, Sir, I want to refer to another feature of the budget, i.e., the loan. The Government say that it is not the practice to include the loans that they may float in the feature in the Budget Estimates. I do not know why it should not be the practice to include loans in the Budget Estimates. It may be said that the Government will resort to the flotation of loans, if there is easy money in the market at the time. But it is also open to the other objection that the Government will always be left with a temptation of making use of that resort and spending as they please.

“Then, the Hon. the Premier in his budget speech says that the Government have made certain changes in order to give effect to the policy of the Congress. ‘The policy of the Congress’; says the Premier, Sir. As I have already told you, Sir, this is a Province which is multi-so-many-things. A party programme being put into force in a country like England may be one thing, because there is a homogeneity of population and interest. But here such a homogeneity is absent. There are different peoples having fundamental differences from each other. They have got fundamental interests, distinct from those of the other elements of the population. A Government which is responsible to every section of the people must take into account these factors. Then alone it can be called good Government and it can give satisfaction to the people. The policy and the programme which the Government adopts for the benefit of the Province must be formulated in consultation with all the elements of the population and must be conducive to the protection and advancement of all the interests.

“Regarding Prohibition, it is indeed a welcome measure. My hon. Friend Mr. Ferrelly said that this is not a practicable

[M. Muhammad Ismail Sahib Bahadur] [5th August 1946]

step. He pointed out that the United States of America and China made a similar attempt, but failed. I do not know about China, but I happen to know something about the United States of America. That country passed a Prohibition measure as an amendment to the Constitution. But they did not seriously and rigorously enforce their Prohibition measure. Therefore it was that the attempt at Prohibition failed in the United States of America. But whatever may be the result and condition in other countries, we know the conditions prevailing in our Province and in our country. While it is prudish to refuse to learn from history to learn the lessons taught by history, it is mental slavishness and intellectual slavery to look for precedents in every case. We know our conditions here and know that our conditions demand the enforcement of prohibition immediately. We also know that it is going to be of immense benefit to the people of the Province. That will do for us and the Government has done well in bringing forward this prohibition measure. Only we wish that they had resorted to wholesale prohibition. In reply to that, it is said that there are difficulties like the frontier question and that the adjoining Indian States have to be consulted. But even in the matter of partial prohibition there are such difficulties. You have to erect barriers between prohibition districts and non-prohibition districts. That means so much money and so much effort. All these can be saved if wholesale prohibition is introduced straightaway in the province.

"I have to refer, Sir, to the fund of a crore of rupees that has been allotted for the Harijans. When I mentioned my objection to the constitution of a fund, it should not be taken to mean that I object to the expenditure of an amount on the Harijans. After all, the amount allotted for the purpose is small. It is only a crore of rupees for eight millions of people. (The Hon. the Premier, *hear, hear.*) It works out only at Rs. 1-4-0 per year per head of the Harijan population. That is to say, one anna and eight pies per month. This is not at all sufficient to bring up these people who have been kept down ruthlessly and mercilessly for generations and centuries. (A voice—*hear, hear.*) (By whom?) I do not think there can be any controversy as to the party that kept them so long under this subjection. Therefore, there is no necessity for any argument on the subject. Now that party, for atoning for what they have done during all these centuries, must come forward much more generously than they have done now. (Mr. Abdul Hameed Khan—*Liberally, not generously.*) 'Generous', Sir, means more than 'liberal'. Ten lakhs of rupees or even twenty lakhs would not have been considered too much in spending for such a purpose as this. This forms part perhaps of the rural reconstruction, too.

"Referring to another item of rural reconstruction"

* THE HON. MR. SPEAKER:—"Mr. Ismail, can you finish your speech within five minutes? You have already taken 20 minutes within which you said that you will finish your speech."

5th August 1946]

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I cannot finish within five minutes. I have just begun, Sir."

* THE HON. MR. SPEAKER:—"I have no objection to your speaking till 6-40 p.m. if you can finish your speech by that time. You can break your fast after that and after half-an-hour's interval, the Hon. the Premier will make his reply."

* HAMEED KHAN SAHIB BAHADUR:—"I would suggest, Sir, that the Leader of the Opposition might continue his speech after we meet again after breaking fast, if he could not finish it now."

* THE HON. MR. SPEAKER:—"I shall give you five more minutes, if you can finish now."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I will at least require 20 minutes more, Sir."

* THE HON. MR. SPEAKER:—"It is you who have asked me 20 minutes. You have already taken that time."

B. POCKER SAHIB BAHADUR:—"Mr. Speaker, you ought to allow the Leader of the Opposition, to take as much time as he requires to finish his speech."

THE HON. MR. SPEAKER:—"It is the Leader of the Opposition who said that he would finish his speech within 20 minutes. He will bear witness to that."

B. POCKER SAHIB BAHADUR:—"I do agree, Sir, that he wanted only 20 minutes. But you know Sir, that leaders of parties cannot limit their speeches to the exact minutes like that. It is for the Hon. the Speaker to allow him to continue after breaking his fast." (Cries of 'Order, Order'.)

THE HON. MR. SPEAKER:—"I have no objection to allow one or two minutes more if the Leader of the Opposition could finish it now."

"The Leader of the Opposition will please continue his speech. (Interruption.)"

B. POCKER SAHIB BAHADUR:—"May I suggest, Sir, that we may adjourn the House now and when we meet again after breaking fast, the Leader of the Opposition may continue his speech?"

HAMEED KHAN SAHIB BAHADUR:—"I entirely agree to the suggestion, if the Hon. the Speaker has no objection." (Interruption.)

THE HON. MR. SPEAKER:—"The House is adjourned for 45 minutes from now, and will meet again at quarter-past seven when the Leader of the Opposition will continue his speech and the Hon. the Premier will then reply."

The House adjourned at 6-30 p.m.

[5th August 1946]

The House re-assembled at 7-15 p.m.)

7-15 p.m. * M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“ Mr. Speaker, Sir, at the outset now I have to say in fairness to the Chair that I originally said that 20 minutes might do for me. But my party wanted to get the right for its Leader of being allotted more time and there are occasions when the Leader has to submit to be led by his followers. Anyway I am thankful to you, Sir, for the way in which you settled this little storm in the tea cup.

“ I was saying, Sir, that the Rural Construction Scheme is indeed an important programme which any Government in this country must undertake. But what is to be the aim and object of rural reconstruction. We find from the budget speech of the Hon. the Premier that at the outset self-sufficiency in the matter of cloth and food would be the aim of his rural reconstruction scheme and from his remarks in other places and according to Gandhiji's pronouncements we find that village autonomy is going to be the ultimate object of the rural reconstruction scheme. As a concrete item in that programme the Hon. the Premier has mentioned the scheme for the production of khaddar cloth. Sir, by reconstruction we mean something progressive, something forward; but I want to know whether this programme of popularising khaddar is really such a progressive measure as that. There may be a sentimental aspect attached to it, but let us look at it from a common sense point of view. Take khaddar and see what is happening even to-day. There is the charka. What we find is that people are trying to improve the charka more and more and to produce yarn of finer and still finer counts. That means that you are set on improving the instrument, the charka with which you are starting and finally, I tell you, Sir, to be short, you will end in machinery. This is how 500 years ago other countries started and our country also started and they have ended in machinery. Therefore, I ask, is it worthwhile, is it beneficial to the country to wipe out all the experience which the nations have got during these 500 years and go back and begin once again at the very beginning? What I want to say, Sir, is let us learn from the experience of other countries. Let us adopt industrialization as it is being understood in the modern world. There are good aspects as well as bad aspects of it. Fortunately for us we have got all these things before us. What we should do is to try and adopt the good aspects and try to eliminate the bad aspects of modern industrialism and try to adjust it and adapt it to our own conditions. I think therein lies the way of wisdom.

“ Then I come to village autonomy. I ask our friends on the other side whether they really and seriously think that such an idea is possible at all in the 20th century. The days of Greek City States are gone and they have never been revived or restored during all these 2,000 years at any time either in the history of Greece or in that of any other country. Moreover is it also possible from the nature of things to restore village autonomy? Don't you want to set up big factories and plants, say, for producing aeroplanes and locomotives? Then what will be your position?

5th August 1946] [Mr. Muhammad Ismail Sahib Bahadur]

You will draw your men from villages. When they have contributed their men, when you are speaking in terms of village autonomy, to which of those villages will these men and factories be taken to belong? Therefore, I say, adapt your measure to the present-day requirements. Let us not go and knock our heads against the inevitable wall and then learn the lesson the other nations have learnt long ago. Sir, Village Autonomy is not possible. The forces of nature and the circumstances which are ruling to-day are not going to allow us to do that experiment successfully.

“ Again, our hon. Friend, the Premier has said that he is going to make a firka in each district self-sufficient for food and self-sufficient for cloth. That means he is going to compel every firka to produce the food that is necessary for it and every firka to produce the cloth that is necessary for it. Suppose in a firka there is a tract of land which is more suitable for the production of groundnuts. Is he going to compel the people there to give up producing groundnuts and to produce paddy? Again in another firka there are lands which will produce a very good amount of paddy. Is he going to restrict the amount of paddy which that firka is going to produce so that it may not be put to the necessity of exporting paddy to another firka or another territory. Are these things possible, this village self-sufficiency in food and self-sufficiency in cloth? (At this stage half the lights and fans in the Chamber went out.) The forces of nature also say that it is not possible.

“ I only want to say a few words indicating my ideas about these things. Perhaps on other occasions, I will have to deal with these subjects at greater length.

“ Coming to Education, the Hon. the Premier in answer to one of the questions put in the House said that the Government have not yet settled their Educational policy. But what do we find in reality? The Hon. Minister for Education is introducing change after change. One fine morning he issued an order, or whatever it may be, by word of mouth or by a stroke of the pen, saying that merit shall be the criterion for admission into the professional colleges to the extent of 20 per cent. Sir, the previous arrangement which is known by the name of the ‘ Communal G.O.’ was evolved as a result of thought and experience ranging over more than a quarter of a century. It was evolved by representatives of the people amongst others. When abrogating such a policy as that, it was due to the Members of the Opposition to be consulted. It was an important step that the Education Minister took in abrogating or modifying the policy which was in existence in this Province for about 20 or 25 years. To simply wipe out such a system is to act like an iconoclast. I must remind him that one iconoclast will produce other iconoclasts. Therefore it is not good to anybody to be dealing with the education of the people in this way, education which affects the people of the Province very intimately and very vitally.

[M. Muhammad Ismail Sahib Bahadur] [5th August 1946]

"Then there is the talk of regional language. That very word implies that matters are not easy in this Province. As I have already pointed out this is a multi-lingual Province and circumstances arising out of that fact must be taken into consideration in matters educational. The Hon. Minister without paying close and careful attention to the representations made to him on the matter insists on pursuing his own policy. He goes even so far as to deny the very fact that a particular language, namely, Urdu is the mother-tongue of a particular community, the Muslims of Madras.

"Then, Sir, there is the Wardha Scheme. The Hon. Premier said that the Wardha Scheme, the scheme formulated by the Hindustani Talimi Sangh or Basic Education Scheme will be the system that will be adopted in this Province in the future. One of the fundamental features of this scheme was said previously to be the teaching through some handicraft. But fortunately even the Congress National Planning Committee has found out the grave defect attached to this kind of teaching. The other day the Committee is said to have decided that it was spiritually harmful to the children to be taught through handicrafts. These handicrafts deaden the minds of the pupils. It is no good to children to be pressed into the drudgery or routine of a handicraft even from the tender age when they go to the primary schools. Then they will fall into a groove out of which they will never be able to get out later on in their life. They will be pressed to learn a handicraft of which they know nothing at the time, and of which we their elders have some idea or liking. It is not fair to them to subject their life to such an experiment as this. Anyway, the Mussalmans, I want to make it clear, cannot agree to the Wardha Scheme being introduced for the education of their children. Our main reason for that objection is the lack of religious instruction. We know that the Mussalmans were backward in the matter of education when the English system was introduced. The main reason for that was not only that it was an alien system, but that it made no provision for religious instruction. Later on, we know from history as and when provision for religious instruction was being extended, the Muslims took more and more to education. This I tell you, Sir, only to let you know how the Muslims attach vital importance to religious instruction being provided for in the syllabus of the schools to which they have to send their children. I have to make it clear that this is a matter of vital importance to Muslims. The Mussalmans of this Province can never agree to an educational system which neglects the provision of religious instruction and they will have to resist such a system being imposed upon them.

"Sir, the Hon. the Premier is saying that he is abolishing the Road Development Department."

AN HON. MEMBER:—"Not completely, but only to some extent."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I mean the department which has been created, the Highways Department."

5th August 1946]

AN HON. MEMBER:—"They are only curtailing the programme of this Department."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"In this connexion I only want the Hon. the Premier to see that the development of roads has a vital connexion with the production of food and cloth. Therefore, the matter should be dealt with carefully so as not to injure the economic interests of the Province.

"Then, Sir, the Hon. the Premier has made himself responsible for an unfortunate statement in his budget speech regarding trade and commerce. He says: 'the kind of business so far has largely been of the type which takes no risks, does not add to the real wealth of the Province and aims at making money in easy ways like commission agency, money-lending, etc.' I say, Sir, that every idea conveyed by this sentence is to say the least thoroughly and completely inaccurate. I have heard recently men expressing similar views, men who have the least knowledge or competence to express them; but I was surprised to find such a sentence finding a place in a budget speech of a Finance Minister. He says, trade takes no risks. The Hon. Premier has seen many places and has seen many businessmen and he ought to have known how many businessmen have been ruined, or have sustained colossal losses and yet people are going on with trade and commerce. I do not know if that is not taking risks, what else is. Then he says, it does not add to the real wealth of the Province. Now take for instance, cotton and also skins and hides. All the cotton that can be produced in this Province or the country and all the hides and skins which are being produced in this country cannot find consumption within the country itself. Then what happens; if there is no trade and commerce to take the surplus quantities of these articles to the countries which need them, they will be wasted here. That means so much loss of wealth, national wealth to the country. Again, trade and commerce is the channel which takes the products and produce from the point of production to the point of consumption. For industry, for production of articles from raw materials or for the manufacture of articles, trade and commerce is a necessary adjunct. The channel may have defects, but that is no reason why that channel must be done away with altogether. We have heard so many of our friends speak of the corruption of the rank and file of the Government services. That is no reason why Government should be abolished altogether and anarchy introduced into the country. This channel of trade and commerce is of fundamental importance and necessity to the development of industries in the Province. Then the next sentence made us expect that the Government were going to show the Province some new lines along which trade and commerce might prosper but the subsequent sentence belied such an expectation by saying that they were thinking of industries and not trade and commerce, and as a measure of development of trade and commerce they were going to set up an Industrial Finance Corporation."

[5th August 1946]

MD. ABDUL SALAM SAHIB BAHADUR:—"On a point of order, Sir. Can the Parliamentary Secretary go on reading a newspaper in the House?"

* MR. SPEAKER:—"The hon. Member should not read the newspaper in the House."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I hope, Sir, that the Government will give facilities that are necessary for the further development of trade and commerce of the Province."

"Speaking about the housing problem, we are not given any indication as to how and on what lines the Government propose to solve this problem. They only say it is possible that legislation might be brought forward for continuing the Rent Control Order. Sir, people must be encouraged and given facilities for constructing new houses and more and more houses. Above all, the slums and cheries which are a blot on humanity must be abolished altogether and decent houses must be provided for these unfortunate people who have to live in these rat-holes which we find in the slums and cheries."

"It is regrettable, Sir, that the other day, the Corporation of Madras has denied the right to the Muslims of having their own representatives elected to the Corporation through separate electorates and they have also refused to allot adequate representation for the Muslims in the Corporation. That is an important matter, Sir, affecting the very existence of the Muslim nation. Not only to the Corporation of Madras, but also to all the local bodies in the Province the principle of separate electorate must be extended. It is on a misunderstanding and a prejudice, Sir, that so many ills which we find in the body politic of our Province are laid at the door of the separate electorate. Separate electorate really contributes to the harmonious working, harmonious coming together of communities, because it recognises the rights and the privileges of different communities to speak for themselves and to send their own and real representatives."

"Now, we find, during the last few months after the Congress Government came into being in this Province riots and communal troubles have occurred in several places. Properties have been destroyed and valuable goods have been looted; people have been killed and injured. I do not know why such things should have happened at this juncture. If anybody thinks that in that way any community, however small they may be, much less the Muslims, can be cowed down and brow-beaten, they are very much in the wrong. I think and hope that the Government will impress upon the people concerned that it is not going to be so."

"Here, I have to acknowledge with appreciation that the Hon. Premier has always listened with courtesy and with due attention to the representations made to him on these several happenings in the several places of the Province and he has been ready, ever-ready, during night and day to do all that he can for the pacification of the Province and I am sure that he will continue the same attitude and impress upon the people that it

[5th August 1946] [M. Muhammad Ismail Sahib Bahadur]

does not pay anybody to indulge in such acts of vandalism, because such acts produce consequences which are good to nobody."

"Then, Sir, representations I think have been received by the Government for compensating the people who have suffered losses of property during these riots. I expect that the Government will give careful consideration to those representations and grant them compensation, because it will, as nothing else will, reassure the people and will impress upon them that the Government is out for securing the life and property of the people in all possible ways."

"With regard to the village and other committees which were decided to be formed as soon as the Congress Government came into being we made representations even at the First Session of this Assembly that they were going to create trouble. The Hon. Premier says in his statement that the procurement drive made by the Government has borne results beyond their expectations. What I say is, if they had continued the agency which was already in existence, the agency which had defects at the beginning but which in course of time had attained a state of tolerable perfection, the results would have been still better. However, I suppose they won't go back upon what they have done. But this much at least is expected of them, that the claims of all the communities, particularly, the Muslim community, must be respected and must be restored, where it has not been respected so far. (Hear, hear.) In the matter of the formation of these village committees and taluk committees, I have received reports from several places saying that the Muslims were not given proper representation in those committees. In some places no Muslims were included; in other places Muslims were not included in proportion to their population in the particular locality and in some other cases, representatives who were not real representatives of the Muslim community have been included. The Government, I hope, will look into the matter and rectify the defects as soon as possible before they also become a source of trouble."

"Sir, It is a welcome proposal that the Government make for 7-45 p.m. the separation of the Judiciary from the Executive. It is a long-felt need of the Province and I congratulate the Government and the Hon. the Premier on having taken it up as one of the first measures they are going to inaugurate in the Province."

"We hear so much of corruption. Immediate action has indeed to be taken to eradicate that evil. Corruption corrodes and eats into the vitals of society. It should not be tolerated, but at the same time I also want to urge upon the Government that they must side by side with adopting measures for eradicating this evil, take immediate steps to remunerate Government servants, particularly in the lower ranks, in a sufficient measure. It is really merciless and cruel to expect these low-paid men to work day and night with the starvation salaries which they are receiving at present. It is these low salaries that have to a very great extent led to corruption. Therefore, if you want effectively to eliminate this evil, you must at once raise the salaries of the low-paid Government servants."

[M. Muhammad Ismail Sahib Bahadur] [5th August 1946]

"Sir, in the midst of the liberal allotments that have been made for various purposes in the Budget, I do not find any allotment at all particularly for Muslim education except perhaps an item for the establishment of a college for Muslim women, which was already inaugurated in the previous regime. The Muslims of this Province, Sir, are backward in the matter of education and it is the duty of the Government to do all that is possible and to make special efforts and to provide ample and liberal funds for making them come abreast of the other communities.

"There are complaints, Sir, from Malabar and elsewhere that amounts which were sanctioned even by the previous regime have not been provided for in this Budget. For example, an amount of about Rs. 2 lakhs was sanctioned for a hostel for the Malappuram High School in Malabar; no provision has been made in the present Budget for that purpose. There are various other items about which we shall deal in the course of further debate in the House on the cut motions. I do not therefore propose to take any more of the time of the House now."

* MR. SPEAKER:—"The Hon. the Premier will now make his reply."

* THE HON. SRI T. PRAKASAM:—"Sir, the hon. the Leader of the Opposition spoke at the end and he has given a picture of his own to this House with regard to society, with regard to reconstruction of villages, with regard to the educational system, and with regard to the claim for separate electorates, which was said to have been disallowed by the Corporation of Madras recently. Sir, a late friend of mine, Muhammad Ali, who was leading the Congress and the country until his death (Mr. Abdul Hameed Khan: No, Sir.) I am corrected by saying 'no.' Perhaps my friend is right when he said that he was not actually leading at the time of his death. But it must be admitted that at least for some time before his death, he was leading this country. He was the President of the Congress, not once but twice and thrice. He was the person who along with his deceased brother Shaukat Ali started this new movement of Gandhiji in 1920 and 1921. That great friend was not merely a politician, he knew everything about the Muslim community and about the other communities. He was evolving a system of joint electorates for Muslims and the Hindus, so that these Hindu-Muslim differences and troubles would be put an end to. The separation has brought the ruin upon this land, and upon all the communities. I have no doubt about that. It is now for all the communities to draw together, to work together and live together. Village reconstruction was taken up by the Congress, not for the sake of any particular community, but for the sake of all the communities. If the Leader of the Opposition and my friend Mr. Abdul Hameed Khan who is sitting, waiting for an opportunity to contradict me if possible (Laughter), can go together with me into certain villages which are dominated by the Muslim population, others being in a minority, they will see how they are living, what they are doing and how they will live hereafter also. They

5th August 1946] [Hon. Sri T. Prakasam]

will be able to see everything for themselves. You can see in the streets of the Madras City pavements people lying with rags, without having sufficient clothing, all communities there, they lie together, they sleep together, they starve together, they beg together. What are we doing at the top? For the last so many years, this wretched thing has gone on with regard to offices and appointments, and it is that, that has brought all the trouble in this country. How many people can be provided for under any Government, whatever it is? I have known, Sir, the origin, the growth and the death of this communal movement in our Province and in other Provinces also. Yet, we are not able to shake ourselves out of that groove and come together. There was a time when people believed that real power rested round the appointments which some of the people were holding under this Government—appointments high or low, clerks, peons or anything—it was believed that all these appointments were carrying real power with them and the competition came for the whole of these appointments and all the trouble during the last thirty years here in the City of Madras has been round the seeking of these appointments here, there or anywhere else. Sir, it is not in that way that nations can be built, that nations can come into existence and take charge of the destinies of the people. For my part, allow me to tell my friends they said something pertinently, they felt it and they said, that they won't accept any system of education which does not give religious education. I will add to it—if I am a free man to do it—and tell you that every Muhammadan, every Hindu, every Christian and every other boy, all these students must be taught all the four religions side by side (Hear, hear). I am only looking for the time when such a thing could happen. When you go into the whole thing, you will understand from the beginning to the end; if they study all these religious books from the very beginning, they will be able to understand what the whole thing is about. One God, all the religions are worshipping. Everything is common to humanity. It is by some chance that divisions came up and these divisions could be maintained just as they are maintained in a single family where father is of one religion, one son is of another religion, another son is of another religion and a third son is of another religion—all the four belonging to different sections with regard to the worship, the method of worship of the same God. What on earth has been happening in this world of ours? I am not marking out the one or the other. Every one of us has gone wrong to such an extent that we are fighting for trivialities. So, in the reform of education, if we can all pull together, if we can make it possible for all young ones, boys and girls, to understand the truth of all these religions from the very beginning, not one trouble will there be.

"We will then be doing the greatest service to ourselves and to this country. I never knew that Mr. Pocker, such a quiet gentleman—I know him from the time I was practising as an Advocate of the High Court—I never knew this gentleman has so much anger in him. After knowing him now, I have left

[Hon. Sri T. Prakasam] [5th August 1946]

him off as a hopeless man. (Laughter.) I scouted him up to a certain extent and left him off, but I am still hoping that he will recover and every one of us will recover.

“ Sir, coming to education, you were all very much worried and the Education Minister, I know, has been working very hard, from the day he took charge of his office, until now, at the question of regional languages. That is not properly understood and that is perhaps the reason why serious objection was taken to it. I say no serious objection can be taken to the use of the expression ‘regional language.’ You must have been reading what is happening in other parts of India. There, there is no question of congressman or others in the matter of education and there is nothing like Congress or non-Congress in education. Recently, they passed a resolution to the effect that the regional language must be adopted hereafter. Why did they say that. Because, we all believe that so far as the Provincial Governments are concerned today, they are in the hands of the representatives of the people and these subjects will be handled by the Governments concerned and the representatives of the Assembly and also by the people who sent those representatives. (B. Pocker Sahib Bahadur: Even the Congress resolution says mother tongue?) Yes, regional language only means the language that is used by the people living in the particular regions. (Abdul Hameed Khan Sahib Bahadur: ‘When several languages are used there?’) Yes, they will become regional language when there are several languages in the same region. (Abdul Hameed Khan Sahib Bahadur: ‘Not one language, but several languages?’) Certainly, I agree, Sir, that if there are people living in a particular area and speaking in different languages, provision must certainly be made for them (Hear, hear from Muslim Members). I will not hesitate to do it. (Abdul Hameed Khan Sahib Bahadur: ‘But the Education Minister refused’) Nobody refused. That is the very cardinal principle of the existence of all humanity. So, there is no reason to be offended with the words used. Wherever it is necessary to provide for others living within the same region, it has to be done and it will be done so far as our Government is concerned. I do not think that my Hon. Friend, the Minister for Education, ever intended to say that there will be no provision to that effect. You should not misunderstand and you should not carry a wrong impression in your minds. Separation, separation, you say. I say that during the last hundred years of English education in our own country, Hindus, Mussalmans, Christians and all others have been educated in the same colleges; have been learning and passing out and going out of those institutions into the world to adopt different professions. That has been our position and it cannot be different even hereafter so far as I can understand it. Therefore, Sir, in the matter of education, you should not say each time, everything must be separate, everything must be denominated, everything must be ear-marked and so on. That should not be your policy or the policy of anybody living in this country of ours. (Muhammad Ismail Sahib Bahadur: ‘Then, what about the

5th August 1946] [Hon. Sri T. Prakasam]

requirements of each community?’) No requirement of each community; all the communities have been there as I told you already for at least 100 years, let us take it and even then, all those requirements and all those institutions have been run and all of them have been educated in those institutions. Sir, I have myself been a student with some of my best Mussalman friends and most of them were my good friends and we never found this sort of difference between the communities. (Muhammad M. Ismail Sahib Bahadur: ‘You were all very good people then.’) No, this wretchedness has come up only on account of the jobs and offices. I am asking the Leader of the Opposition and all my other hon. Friends that if each one of us should say, ‘my community, my community, I must have everything for my community in this manner and in that manner,’ how can you do justice to the people. As a matter of fact, there are Muhammadan High Court Judges sitting there and dispensing justice to all people without caring to which of the communities the parties to the dispute belong. You have got Muslim and Hindu Magistrates and Judges scattered all over the country having received the same education in the Colleges and having got appointment under this Government, each one of them is dispensing justice without caring whether one man is a Hindu or a Muhammadan. (Muhammad M. Ismail Sahib Bahadur: We want only such opportunities to be given to them.) Yes, that is why I say we should not be laying stress upon differences between this community and that community. We must not allow any such thing. If tomorrow my hon. Friend the leader of the Opposition, Mr. Ismail becomes the ruler of this country, does he not represent all the people here and can he talk then, ‘I am a Muhammadan, I do not care for others, whether alive or dead’. No, certainly, you will not say so and no one will say that. (Muhammad M. Ismail Sahib Bahadur: I do not think there is any such prospect for me.) (Laughter.) Sir, let us not digress on this aspect. Consciously or unconsciously, owing to circumstances that envelope us, we commit such mistakes. I am only appealing to all my friends not to have these differences in their minds and wherever there are differences to be recognized, they will be recognized and we will take care of them without any difficulty. And so, as far as education is concerned, there is nothing; if the educational system has to be altered tomorrow, can it be stated that a different system should be given for Christians, a different system for the Parsees and a different system for the Hindus? There will be no such thing at all. We are going to have the educational system under which we are living; recast it and there will be a replanning of the educational system. We have seen the working of these universities, we have seen the working of these colleges and the working of elementary education for such a long period. We have not been able to get free and compulsory education even though we have been agitating for the last sixty years. Now we have an opportunity to replan the whole system of education and we have to sit together and carry it out when the time comes. Therefore, so far as the educational policy is concerned it

[Hon. Sri T. Prakasam] [5th August 1946]

is a common thing for all of us and there is no cause for any difference or disagreement except where certain special provisions have to be made. (B. Pocker Sahib Bahadur: Will the opposition be consulted.) That is why I said that Mr. Pocker has become bad. Let that come. If you will work it, it will come; but if you are in that despondent state, it will not come. (Muhammad Ismail Sahib Bahadur: There can be nothing like village autonomy.) You are cruel, Mr. Ismail, when you say that there can be no village autonomy that there can be no freedom for the people in the villages, who pay you the Government taxes, who maintain you all here. To say let them go and shift for themselves, is cruel. We are now in an age of machines and mills and all those things. We should not drag them down to a degenerated state by talking of village reconstruction and autonomy. (Muhammad Ismail Sahib Bahadur: Autonomy is different from freedom.) Let us wait and see. With your co-operation and good sense, I hope that as we progress, and before the end of the year, we shall see what will happen; then, we shall go together to each one of the Firkas at the end of March next or at the beginning of April and then see what the Firkas are before that date. (Muhammad Ismail Sahib Bahadur: Development of Villages.) Yes. That is why I say there will be no quarrel about the word 'Khaddar'. When it is said, sometimes it troubles some people. My friend Mr. Nagaraja Manigar from Salem is the only man who answered this question. He said 'don't call it Khadi; call it spinning; call it hand-spinning and hand-weaving.' I like that expression very much. This Khaddar has been associated with our struggle with the British Government for the last 25 years. Leave that aside, and let us talk of it only as spinning and weaving. The whole attack was made against us, this Government, that no scheme was given a lump sum and is it legal? they ask. All those questions were considered properly and what should have been done was done. Because it could not be voted as a lump sum it was separated, and earmarked so that money might be drawn from it from time to time for such schemes as may be prepared and put into operation. It is to demonstrate that, I asked the department which was at it, to prepare a scheme for the spinning and weaving which consumes so much money and place it before this House, because so many friends are not able to understand the real significance of it. The friends who have been working the Textile Department of this Government all along were asked to undertake this business. With what remarkable quickness, they have gone through the whole thing, covered the whole area in the Presidency, consulted all possible people and prepared a scheme and placed it in your hands. (Abdul Hameed Khan Sahib Bahadur: They have been known to be very clever always.) Mr. Hameed Khan is somewhat tired of himself. He cannot feel happy. (Abdul Hameed Khan Sahib Bahadur: I am always happy.) It is not throwing away all the money but only one crore for weaving. Go through that scheme calmly if you have not done so already. It is a scheme under which one crore had to be spent straightaway, and it is possible to allot rupees ten thousand

5th August 1946] [Hon. Sri T. Prakasam]

to this or that particular item; it is not squandering all the money. On the other hand, it is a scheme which is calculated and prepared as an investment scheme. Government have kept one crore for investment in Charkas, cotton and all other things because those unfortunate villagers who were flourishing in every way at one time, who were living happily at one time, today they have become broken. Even the thatched roofing upon their houses could not be put up because they have no money. For the last 25 years under the leadership of one great man this work has been carried on. I have seen from the first day until now that it has been physically impossible for that business to flourish. The other day I told you how many bales of yarn have to be procured by the All-India Spinners' Association for making liberal allowances. It could not progress because it got mixed up although we took particular care to see that it did not get mixed up with the All-India Spinners' Association and that this must be worked up as a separate question in order to supply cloth to our people. That was our idea. But unfortunately some people who were connected with that department and with politics got into jails and again the whole thing was shelved. Now this scheme has come about. Whatever money is going to be spent on the scheme, and how much money we are going to waste in the first year, you have only to look into the last pages of the pamphlet supplied to you, where figures are given in detail. Only five lakhs go as subsidy. We invest money and get back the money, after deducting the money we invested from the money that we got it will be seen at the end of March 1947 the amount that would be given by this Government as subsidy would be only five lakhs. (Abdul Hameed Khan Sahib Bahadur: Ten yards per head.) No. You and I are going to live, when you will see that we give under this scheme twenty yards instead of five yards per head as at present. So this is a scientific scheme. I may tell the Leader of the Opposition, that during the last 25 or 30 years we have made a new political economy, we have made a new political science. Although it could not come to the top, to be demonstrated all these years we are now going to demonstrate to the whole world and also to those who are not able to believe in this village economy and in these village reconstruction schemes, how this village autonomy will work. Macaulay and other great historians in the past had laid down that no nation can have the strength to fight out to earn political freedom unless it has got a standing army, it has got one common knowledge and one common effort to make. We have proved all that. Although we have failed in the past because among ourselves we have not been able to pull together, work together, yet to some extent, we have proved that all those things must be brushed aside and new doctrines have been created by us. Leave aside political dogmas. Take to this village economy business so that you will know how this is going to save this country. You say what is the meaning of this business. Rich people there are. Some of them will lose their monies and so forth. You all know what happened some years back in this very city. I do not know whether you are old enough to remember that—that in his very

[Hon. Sri T. Prakasam] [5th August 1946]

City, when we, sitting in the Central Assembly, passed the Exchange Currency Act and increased the ratio from one shilling four pence to one shilling six pence,—Do you know what the effect of that shange was. In Periamet and in other places, some of the biggest Mussalmans became absolute bankrupts in a single day and they lost all their credit. (Muhammad Ismail Sahib Bahadur: Poor people would suffer from it.) So long as Hindus and Mussalmans go on quarrelling like this without knowing the reason . . . (Muhammad Ismail Sahib Bahadur: Recognition of each other's views will lead to personal understanding.) I am only telling you how the currency trouble will be solved by the village reconstruction scheme. I may tell you it is called only a Firka. On an average we have calculated on the basis of 25 villages for a district and for all the 24 districts, you will have about 500 villages. I have not worked on any single village after I became a Minister. How these things will work, you will understand in due course. (Muhammad Ismail Sahib Bahadur: We do not want big industries. I do have it there.) It will be evident from the fact that provision has been made for an Industrial Financial Corporation. It is a big institution which you and I cannot ordinarily establish because we do not know the working of it, the secret of it, and it is only the British people and the Americans who are notorious for all kinds of institutions which bring in money to themselves and ruin to others (Laughter). Now, we have provided for big industries. Under the village reconstruction scheme, if this Firka becomes complete as I understand it, I may tell you that you must have the cloth, you must have the food within our limits. You must have bulls, ploughs, water, etc., so that they can cultivate and produce their own vegetables in the country-side. Everything will be got within a radius of ten miles especially because under the scheme we have rural roads. There is no compulsion. Every provision is there. They will have merely to use the whole thing. They will grow their own vegetables, their own paddy and every other thing required for them.

“With regard to cloth, I may tell you old women of 80 and 90 are spinning. When some collectors paid surprise visits to some villages, they were astonished at the way this was going on because some gentleman reported to them that it is all a bogus affair and that nothing was going on. When the particular Collector along with his Deputy Collector went there without notice, they found to their surprise it was a creation by itself. Even with 25 years of preaching by the greatest man of the world who has himself been spinning whether inside or outside the jail, whatever the way the world was going about and he has been doing it still, we are not able to understand the spirit of it and follow what he has been stating. Now, so far as this reconstruction is concerned, you would not be sorry. Public money is not being wasted. We are giving two crores. But the officers are already sitting over the money. They will only be taking the money into the Firkas to all the poor houses and provide Charkas where there is none. We are not also doing it

5th August 1946] [Hon. Sri T. Prakasam]

free of cost. We have divided them into three classes: one, those who can pay away the cost readily, those who would be able to pay the cost, not the whole of it but only a part of it and those poor people who cannot pay anything. Even in the case of the last category, we have provided for an instalment system.

“Even for the poor people who cannot pay, the instalment system has been prescribed. As they earn money, they must pay from their earnings. There is thus no wastage of funds and not a pie is being frittered away. You are not alone in your doubts; the learned Secretary of the Development Department also had such doubts and the scheme became clear when it was explained to him that he himself would have to render accounts for the monies passing through him and recoveries thereof. I appeal to Hon. Members not to labour under any mistaken impression about the scheme. There is no wastage about it. S-30 P.m.

“I like to tell the House that another scheme will be presented to the House as we are proceeding with our business. Under that scheme—I shall explain it to you only in bare outline—other cottage industries will be established; they will be bodily fitted into the firka scheme, and people will be made to work there. Our endeavour is to see that the activity of every Department of Government should be carried down straightaway into that firka to establish itself there for the benefit of the masses. I was astonished some time ago to hear when I was discussing the situation with the Director of Public Health and the Sanitary Engineer that they have been preparing a scheme not under the present regime or under the auspices of the present Government but even before that, regarding sanitation, hospitals and other things whereby they would be developed and established in villages. Personally, I say, Sir, I am confident of the success of the scheme. You know, Sir, that we are people who would destroy our own efforts and that is why I was cautious. (Mr. Abdul Hameed Khan: What about the position of Muslims in the scheme?) I assure the Hon. Member that he will be one of the officers entrusted with the execution of the scheme. I am so confident of the scheme that even at the outset I want to associate members of other communities with that scheme and I am on the lookout for Muslim officers for the firka scheme. I think, Sir, I have explained in brief sketch the scheme and I shall now take up the question of food and cloth.

“Mr. Ferrelly said that State Trading Schemes are not run for profit but to ensure steady supplies and keep the cost to the consumer as low as possible. In the case of imports from outside the Province, all food grains are sold at subsidized rates. The State Trading Scheme will necessarily show a loss, and this loss is the result of subsidizing, as the prices of food grains are to be kept within the means of the poor. This point is conceded by Mr. Ferrelly himself whose objection is that the cost of living continues to go up and should be kept down. There are very slight variations in the price of food grains. The rise in the cost of living from time to time is due to the rise in the prices of other minor commodities like chillies, onions, oils and pulses. Control

[Hon. Sri T. Prakasam] [5th August 1946]

over the entire field of consumption articles and services is an unmanageable undertaking, but wherever it is found that the price of any particular commodity has gone unduly high, Government will take immediate steps to bring it down.

"It is true that the price of Sind wheat products was higher than the price of wheat products imported from Australia. Allotments are made by the Government of India, and Madras, in view of its urgent need of food grains, is not in a position to dictate terms. Our difficulty has been this. The Government of India take particular care to have the whole control in their own hands. The scheme is so designed that everything procured is drawn towards the centre—collection is done from all the outside world and they are doled out to us as we are starving here. The whole system has become much involved. Even to-day you might see that rice, which is wanted here, is, going elsewhere, and wheat comes to us, and that is not so much in want here. They know that we protest—we have protested not once but thrice or four times. They also know that we are people who are protesting without any sanction behind us. In order that we may not go by default, I am requesting the Food Secretary and the Additional Food Minister, Mr. Raghava Menon, to proceed to Delhi to explain the whole position and to make them treat us better. I hope we shall be getting better facilities in future. That is being done now, because till now we have not had our own representatives there. There was none there to urge the requirements of Madras and to tell them what people here liked and hence some mistakes have occurred in the past. That is why we are pressing the Government of India to allow our representative there so that what we want may be directed to this place without allowing it to be taken to any other place where they would not eat it. I have been contacting the Central Provinces to let us have rice in exchange for wheat of which we have got a good supply; but we are not able to consume it for our people are not used to it. That is why all this propaganda for wheat, and we are also obliged to spend on that account. To meet the situation and to urge our needs, we are requesting them to let us have our own men there.

"I was speaking about the price of wheat products charged by Sind. The grains have to be purchased at the rate charged by the supplying Governments. As the price was very high in some cases, the Government of India have fixed statutory maximum prices for wheat in supplying provinces. But that is not going to affect us, as Sind has ceased to supply any wheat products for us, and all the allotments in recent months of wheat products are from imports overseas.

"There has been some criticism that minority communities have not been properly represented in Village Committees, and that Muslims have not secured adequate representation (particularly in Malabar). Instructions have already been issued to all the Collectors to see that the officers in charge of the constitution of these committees take care to see that all communities are

5th August 1946] [Hon. Sri T. Prakasam]

properly represented. Special instruction has been issued in the case of Malabar to see that there is adequate Muslim representation in the Village Committees."

B. POCKER SAHIB BAHADUR:—"In case any injustice is done?"

* THE HON. SRI T. PRAKASAM:—"I will go personally into any case of injustice that may be brought to my notice.

It is understood that in Ernad and Walluvanad taluks large numbers of Moplahs have taken shares in the Producer cum Consumer Co-operative Societies, and everywhere the election of the directors was unanimous. In two places Moplahs have been elected Presidents. In Ernad and Walluvanad, Congress and Muslim League M.L.As. sat together, and the decision in the representation of communities was unanimous, and the Muslim League has been given representation.

"There have been complaints from some districts against the constitution of the committees. Parliamentary Secretaries are being deputed to examine these reports and settle the disputes in consultation with the local authorities. I hope that when the selection of the committees is finally completed, all interests will be satisfied. If there are still any glaring inequalities or injustice, the Government will set them right. These committees have a very important part to play in the distribution schemes and all other matters affecting the village welfare. As these committees are only just being formed, it is too soon to express an opinion about their work. I suggest that they be given a fair chance before they are judged.

"The Government of India have called for a Conference of Food Ministers on the 9th and 10th of this month to survey the food position. Every effort will be made to secure from the Government of India as large a share of imports of rice from overseas as possible to improve the rice position in the Province.

"Coming to the cloth situation, I have been anxious to do something useful. There is no good merely pointing out to one or two isolated orders and then struggling hard with consequent waste of time. I stayed in Ooty for a few days, and some time ago I went down to Coimbatore. We invited the mill-owners to a conference at the Collector's office, and the representatives of the Labour Unions also attended. I thank God that I did not miss that opportunity of getting real information as the weak points and how to meet the situation. Since returning to this place, we have been putting our heads together with a view to evolve a method by which we will be able to get sufficient cloth for the poor people."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Is the Hon. the Premier establishing a permanent agency for the purpose of getting more quota for yarn and cloth for the Province?"

[5th August 1946]

THE HON. SRI T. PRAKASAM:—"We have suffered a lot by default. Now I shall tell you what we are thinking of doing with regard to the cloth situation.

Government will be putting into effect very shortly a scheme for preventing unscrupulous mills from diverting into the black market yarn and cloth not shown by them in their return to the Textile Control authorities. Steps are also being taken to ensure that no yarn or cloth is moved from mills in violation or evasion of the control measures.

"Government expect blackmarketing in yarn and cloth at other stages to be put down to a considerable extent with the assistance of the Village and Town Committees constituted under their recent orders. It is also proposed to eliminate blackmarketing in yarn by weavers by adopting the following measures, as far as possible:—

(a) organizing co-operative societies for weavers which will see to the conversion of all the yarn given to them into cloth and to the marketing of the cloth at reasonable prices; and

"(b) by making arrangements under which every weaver or master-weaver will have to account for all the yarn received by him before he can get the next supply of yarn.

"Government propose to pursue a policy of eliminating unnecessary middlemen as the effective way of putting down violations and evasions of the textile control measures. Government would issue orders shortly for the issue of ration cards for mill yarn to cooly weavers, who have left their master-weavers, and have acquired looms on which they can work as genuine independent weavers. I am not inclined to give out more details just now. Our idea is to check the flow of mill yarn into black-market at the mill gate itself. There are certain constitutional difficulties in the rules framed by the Government of India. We are trying to make all yarn supplied in the market converted into cloth so that there would be no black market business at all.

"My Hon. Friend, Mr. Bhaktavatsalam, who has been in charge of Public Works, has been doing so much from day to day even without rest. He told you about the policy Government have been adopting with regard to various schemes. Some criticism has been levelled in the course of the debate against his department, and in reply to that I may tell this."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Before you go to the next subject, may I know what provision has been made for the supply of cloth during Ramzan festival?"

* THE HON. SRI T. PRAKASAM:—"Special arrangements have been made in that behalf."

THE HON. SRI K. BHASHYAM:—"Will similar arrangements be made also for the Pongal festival? (Laughter.)"

* THE HON. SRI T. PRAKASAM:—"Yes, Sir. Criticism was made with regard to the Highways Department. There is no question of scraping the Highways. The Highways Department has

[5th August 1946] [Hon. Sri T. Prakasam]

been formed with a view to enable local bodies to devote better attention to the roads in their charge which have been neglected so far. The Government have taken up the Highways so as to maintain the main trunk roads and the marketing roads at a uniform standard. Government do realize the importance of roads for the development of industry and agriculture. They may not take up big schemes presently in view of the urgent need to concentrate on new irrigation projects. But necessary attention will be bestowed particularly in areas like South Kanara and Malabar which have been neglected. The Government will give every facility to the District Boards to develop rural communications. Necessary attention will be bestowed on improving irrigation facilities, particularly in areas neglected so far. Government do realize that the Tungabhadra Project alone will not cover the famine-ridden Rayalaseema. We are taking necessary steps in each of the districts to take up new schemes. The Pennar-Kumudavati Project will be taken up soon, in spite of the hurdles referred to, for solving which necessary steps will be taken, as also several other projects, which are now being examined. The taking up of the Vaigai scheme so as to expand irrigation under Periyar which would cover the dry Tirumangalam taluk, the Lower Bhavani Project which should cover the dry area of Coimbatore district and the Sathanur scheme under the Pennar which would cover parts of the North and South Arcot districts, referred to by hon. Members are under the active consideration of the Government, as also several schemes in other districts including South Kanara and Malabar.

"The Government are also bestowing necessary attention on the drainage question in the matter of irrigation facilities in the delta areas, as was pointed out about the Guntur district. The Romperu Drainage Scheme has been already taken up, and we shall be examining other similar schemes also. Regarding the neglect in the matter of repairs to irrigation tanks in the zamindari areas, Government are quite well aware of the complaints, and are taking necessary steps to have the repairs executed without delay.

"The question of improvement of Minor Ports in this Province is also being examined by the Government. The suggestion to develop the Port Trust Fund with contributions from the Government of India will be taken up for consideration. Sri Venkateswarlu complained against a provision in the budget of only five lakhs of rupees for the Romperu Drainage Scheme and wanted completion of projects within the year. Apart from the question of finance, it would be physically impossible to complete the execution of projects within a short period.

"Another subject that agitated the minds of hon. Members was about Prohibition. On Prohibition, all hon. Members on the Opposition Bench, from the leader to the last member, levelled a terrible attack against the Government, saying the whole province must be brought under Prohibition at once. Mr. Ismail and others sitting with the Leader of the Opposition may talk like that, because they are not sitting on this side.

[Hon. Sri T. Prakasam] [5th August 1946]

(Laughter.) If they have been sitting on this side, they would have had an opportunity of seeing the debit side and credit side of details, and how sometimes things go wrong. Amongst us, Congressmen, there was a difference of opinion on the question of Prohibition. But I was always confident, whenever such differences existed, they would disappear on our re-examining the situation. Those friends who took a different view from me, even went to the length of saying 'Let us not have any Prohibition for any district this year; let us have it all over the province in one sweep next year.' But we had to look into the whole situation and do the right thing. I discussed the matter with our friends once, twice; and this morning, with His Excellency the Governor presiding, I had this discussed in the Cabinet, and we came to the conclusion that since there is a strong feeling in the country, Prohibition should be extended to four more districts. When I had been to Coimbatore I saw what was happening there, particularly labour troubles. All the mills struck work during the last war; then everybody was pleading his inability to supply you cloth; the only thing you can get was five yards of cloth per head per year. The two contending parties in Coimbatore, communists and non-communists, lost their heads in such a way that murders were committed in front of mills in drunken brawls. At a glance I found out who was responsible for it. The last election also created a situation there. Therefore, I thought, Coimbatore district must be included in the Prohibition area. I saw mill workers going every evening into toddy shops, coming out fully drunk and creating scenes and troubles. Of course we made the necessary Police bandobust to prevent the recurrence of such scenes. So we have included Coimbatore district in the Prohibition area. The inclusion of the other three districts of Bellary, Kurnool and Anantapur, cost us only 40 lakhs of rupees each, aggregating to 120 lakhs of rupees, while Coimbatore district alone costs over one crore and forty lakhs of rupees. In the beginning we did not see how we could meet this expenditure. We thought we could introduce some new measure of taxation to cover up the expenditure. There is one Agricultural Income-tax Bill ready. It was got ready in the Advisers' regime. Mr. Strathie, when he handed over charge to me, put that file in the drawer and drawing my attention to it said, 'I tried hard with the Governor for his sanction for introducing the Bill, but failed. So, you try your luck.' "

MR. F. FERRELLY:—"That is Strathie's legacy. (Laughter.)"

* THE HON. T. PRAKASAM:—"Yes. And then by increasing sales tax by half a per cent we propose to get more revenue. That is how we were able to satisfy our friends. I am not a doubter; I am one who would plump for the whole thing if circumstances permitted. That is why I said to my friends 'we should not make fools of ourselves.' That shows our *bona fides* in the matter. At the end of the year we have to settle about other districts for Prohibition. We will meet, discuss and decide, up to what extent we should go next year. We must all do the right thing in a right manner and in a successful

5th August 1946] [Hon. Sri T. Prakasam]

manner. The belief among some friends is that this Prohibition will be a total failure. I do not believe in it. Its success is in our hands. It is in the hands of our own people to make it a success or failure. I know practically all the districts in the province. I know the people there. I know they have not been tainted in the least. Only when circumstances changed during the Advisers' regime there was a relaxation. As regards illicit distillation, I don't believe it will disappear; because from the beginning of the universe, when God created this world, there were people who were prepared to say to God, 'You are not God. (laughter)'; in spite of them God had to create this world. Similarly we have to make the whole thing a success ourselves. That is about prohibition."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"What 9 p.m. about the peons and other poor people of the Excise Department who will be displaced?"

* THE HON. SRI T. PRAKASAM:—"For that the Excise Department people came and gave a written memorandum. They said: 'we should not be left out. We worked in that department for one purpose as the Government directed. For the other purpose also, we are the best people, and not the new people. So you should not desert us.' We are considering the question of rooting out the evil of Drink now. We are asking the Excise people to destroy the evil, as they will be the best people to do it."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Are the Government thinking of schemes to convert the coconut juice into jaggery?"

* THE HON. SRI T. PRAKASAM:—"Certainly, Sir. Schemes like this will be coming now under 'other cottage industries'. How jaggery could be made, and how alternative employment would be found for our people will be looked into, if not by the Director of Industries, by an assistant under him, who will be asked to get all these things done. This is not an orthodox scheme. This is not the bullock cart scheme which Mr. Salami referred to. We have selected firkas also to put in electricity where there is no water. If there is no irrigation facility, we will be sinking wells and water will be lifted with electricity. We all know what difference it will make to cultivate with water lifted with electricity and with bullocks. That is how an honest effort is being made by all of us in order to show that an arid area will be converted into a fertile land."

"I will only tell you something so far as the educational matter is concerned. Apart from the additional provision of grants to managements of aided primary schools, to enable them to pay higher dearness allowance at Rs. 16 per mensem to their teaching staff and for the supply of midday meals to poor children attending primary schools in selected areas, the budget includes a provision of Rs. 22 lakhs for the extension of compulsory primary education to further selected areas in the current year. To provide teachers for the increasing number of primary schools, the

[Hon. Sri T. Prakasam] [5th August 1946]

Government have also planned to train 4,000 additional teachers and have arranged for the payment of enhanced rates of stipends to teachers undergoing training. The Government are aware of the need for raising the status of the teachers and are actively considering proposals with regard to raising their status. As a token of their sympathy towards the low paid teachers in aided primary schools, the Government have decided to give from 1st August 1946 an increment of two rupees a month on the grant paid in respect of each teacher in the aided primary schools because these teachers are about the lowest paid in the ladder. This decision was taken after the budget estimate was fixed and involves an extra cost of Rs. 7½ lakhs in the current year and Rs. 13 lakhs in a full year. Having regard to all these schemes, we have put in only four districts in the original proposals. Now we have increased that.

“The educational system will have to be thoroughly overhauled so far as I understand. The University Act must undergo a thorough revision, and the Universities must be converted into a different type of Universities which will be really serviceable and useful to students. Therefore so much waste we have got in the educational system. I do not wish to deal with all the details of that. The idea is to get rid of all this waste and produce really useful people. The people and the Government have been simply following the old system that has been introduced long ago without caring for the consequences. So, about that also you will hear more very soon, and the educational system will have to be recast and all of us will have to put our heads together. There is no question of one doing it and others keeping quiet.

“Then about this fund and the lump sum provision. If only what the office have given to us in their note for the Cabinet meeting of 2nd July 1946 had been put into my budget speech, all this attack would not have been made at all against the Government that the Government were foolish fellows who did not know the difference between lump-sum voting, and the rules relating to lump-sum provision. The arguments were like that, because they were not told what was put in the note for the Cabinet by the office on the 2nd of July. I will just read that in order to remove any misunderstanding that may still be lurking in the minds of hon. Members and its validity. ‘A provision of one crore may be made for the removal of general disabilities and the uplift of Harijans in selected areas of each district. A scheme for this will be made ready very shortly. A copy of the Prime Minister’s note explaining the general scope of the scheme is circulated with this note.’ Look at the note of the Finance Department. ‘If a provision of four crores is made in the revised budget for 1946-47 for the above two schemes, it is likely that a large portion of it will lapse and it is also against the spirit of the rules to make large lump-sum provisions for schemes, the financial implications of which have not been fully considered.’ That is the office note. I could not obstruct you at that time when you were speaking. You did not know all these. We knew and we deliberately arrived at that decision. In this form it

5th August 1946] [Hon. Sri T. Prakasam]

was not put in my speech. That was your handicap. ‘It is therefore suggested that to give effect to the policy of the Ministry, a special fund may be constituted for village reconstruction and Harijan uplift, and a sum of Rs. 4 crores may be transferred to it from the revenue account. If such a fund is opened, the Government could draw upon the fund as and when necessary, and the unspent balance will be available for expenditure in future years.’ Suppose by the end of March, only 5 lakhs of rupees is spent, the balance will be available for expenditure in future years. There could be no legal or constitutional objection to that. Because it is a recognized method, that procedure was adopted, and not out of stupidity. (Laughter.) ‘The present large balance in the Revenue Reserve Fund makes this an appropriate time for constituting such a fund.’ This is a thing which was not placed before you.

“Let me tell you one thing, Sir. One crore of rupees for the Harijan Fund has somewhat shocked. The Leader of the Opposition said that this was too small an amount to lift up any community and to have any effective reform. Let me tell you how many crores of rupees are being lost through this currency and exchange policy of the British Government ever since it was established in 1803. Until 1803 the East India Company was maintaining their accounts in gold coins. It was in 1803 that the accounts were converted into silver coins. While moneys were sent for payment there, the whole process changed. From 1803 the country has been bled white. Unless and until you control that currency policy, you can never see freedom in this country. We may all talk of threats of rivers of blood. You will get everything else in the name of constitution, saying this is right and that is right. In the Constituent Assembly you have to know what you have to do. You have to provide yourself against this currency. How can you make a constitution in such a manner that the currency does not do that. With your co-operation within one or two years, when firkas are reconstructed, you will find that the people are doing everything without your currency note. They will manage things as if on a barter system. Long ago I wrote to a Congress leader about adopting the barter system. Why are we going each time to jail. Put that jail programme along with the economic programme also. Of course it was not possible by that time.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“Do the Government propose to introduce barter system in future?”

* THE HON. SRI T. PRAKASAM:—“If I say that, Mr. Salam will at once get up. He is a lawyer. He will ask, ‘is it legal, can you do it.’ I am doing it. I am requesting you to do it. It is the duty of everybody to do it.”

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“If it is beneficial to our people.”

* THE HON. SRI T. PRAKASAM:—“That is all. No question of compulsion or any such thing. I am only suggesting to you. I will have a grain bank in each village if everything goes well.

[Hon. Sri T. Prakasam] [5th August 1946]

I will have a yarn bank for those people who are spinning yarn—those old women of 80 and 90 years—and they will thus be enabled to get sufficient wages. If with that yarn they go in the evening, they can come back with grain. If you want some other commodity, it will come. These are what are called multi-purpose societies. We are not creating them for ourselves alone. It is out of these multi-purpose society schemes that the idea of self-sufficiency suggests itself. If you work like that, the villager would not be put to the necessity of going to the sowcar of the village or the outside marwari. All problems will be solved in such a manner if we work this out. I assure you we have started it, and within eight or nine months we shall be able to know where we stand.

“About the Harijan, I have so many schemes in my head. The Finance Department said, ‘you need not send any scheme.’ I scribbled something from Ootacamund, and I sent these schemes. It was with break-neck speed, they were rushing to have these few pages printed. They would have done it leisurely according to the Secretariat principles. When I became Finance Minister, who was always on their throats and troubling them without giving them the least time for doing anything at leisure, such people had to undergo all these difficulties. I sent my own schemes for Harijans as I had in my head. They are being developed now. To uplift the Harijans from their present level of untouchability, what has been employed hitherto? They are separated and put in cheries or some such thing. If you wish to lift them up and make them live like other peoples in a neat style, you require money. Gandhiji has gone to the length of saying that you must go and live inside these cheris.”

* M. MUHAMMAD ISMAIL SAHIB BAHADUR :—“ They must be made to live in your village agra-haram.”

* THE HON. SRI T. PRAKASAM :—“ Both ways, I say, according to circumstances and conditions. This money would not be wasted. That is in the hands of the Government and the Secretariat. We have to work out the whole thing, and see the result after the whole work is done. It pains every one to see people live in those cheris. How can you possibly bring a reform? It cannot be done ordinarily by ordinary methods. That is why this one crore of rupees fund. If it had been made into 5 crores, it would have been a better fund to make those people understand that their sufferings are nearing the end.”

* MR. SPEAKER :—“ May I know when will that scheme be ready?”

* THE HON. SRI T. PRAKASAM :—“ It is being prepared. It will come as early as possible. Apart from our country, there are other countries where this untouchability prevails. Schemes are being prepared by them—not dark men like us, but white men. In what manner, have you any idea? They built houses without making any distinction of caste or religion—One Hindu house, one Harijan house, one other caste-gentleman house; all people put together and a common school will be established there to which all students must go and study. There will be a hospital

[5th August 1946] [Hon. Sri T. Prakasam]

there to which all people must go and receive treatment. I prepared colonization schemes before we resigned in 1939. They were left on the tables of the Secretariat, and we have to trace them again. I have asked for them. There are so many ways of evolving schemes through which you can serve these Harijan friends. All these are big gentlemen—this Nagappa, this Shanmugam and others. They have become big gentlemen already because they have become M.L.As. and they can plead, fight and argue here. For those fellows in the cheries, how will you do service? I know what those people are giving them. (Laughter.) I know what treatment they get when they go there. Such was the difficulty of their own people. They could not go and do real service. This problem we are trying to solve in all possible ways. The money will not be distributed in hundreds and thousands for all and sundry. Nothing of that sort will happen. They must be made human beings. They must be made to feel with you and work with you. That is the object of the Harijan fund and the Harijan scheme.

“ There are other points which I have not covered. It is 9-30 now. I think you will excuse me.”

* MR. SPEAKER :—“ I adjourn the House to meet again at 11 a.m. on the 14th of this month.”

The House then adjourned.

[5th August 1946]

ANNEXURE

[Vide answer to Starred question No. 64 asked by Sri K. Ananda Nambiyar at the meeting of the Legislative Assembly held on 5th August 1946, page 213 supra.]

List of political prisoners released since 30th April 1946.

THE MADRAS LEGISLATIVE ASSEMBLY.

Wednesday, the 14th August 1946.

The House met in the Assembly Chamber, Fort St. George, at eleven of the clock, Mr. Speaker (THE HON. SRI J. SIVASHANMUKHAM PILLAI) in the Chair.

I.—QUESTIONS AND ANSWERS.

STARRED QUESTIONS.

MR. SPEAKER :—“ Question No. 72. The Hon. Member is not in his place. The answer will be printed in the proceedings.”

Assault on Police Sub-Inspector at Lakshmangudi (Tanjore district) during communal riot.

* 72 Q.—SRI A. VEDARATNAM PILLAI: Will the Hon. the Prime Minister be pleased to state—

(a) whether the Police Sub-Inspector and others at Lakshmangudi (Tanjore district) were beaten during communal riot between League Muslims and Majlis Muslims and Hindus on 7th March 1946;

(b) whether the Government received any report from local Revenue and Police authorities regarding the abovesaid communal riot;

(c) if so, whether the Government will place copies of such reports received on the table of the House; and

(d) what steps were taken by the Government on the reports?

THE HON. SRI T. PRAKASAM :—“ (a) On 7th March 1946 certain Congressmen arranged an election propaganda meeting with members of the Muslim Majlis as the principal speakers. Some Muslim Leaguers objected to the Muslim Majlis taking part and there was a disturbance. The Police Sub-Inspector intervened but he was assaulted. Some of the people assembled also received injuries.

“ (b) Yes.

“ (c) The Government do not consider it necessary to publish the reports. They will be shown to the hon. Member, if he wishes to see them.

“ (d) The Government accepted the District Magistrate's opinion that in the darkness and confusion no individual was identified satisfactorily as having done any particular act.”

[14th August 1946]

Cars for the use of Hon. the Ministers, Hon. the President and Hon. the Speaker.

* 73 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Prime Minister be pleased to state—

(a) how many cars have been purchased by the Government for the use of the Hon. the Prime Minister and other Ministers and for the President of the Legislative Council and Speaker of the Legislative Assembly; and

(b) what is the make of each of those cars?

THE HON. SRI T. PRAKASAM:—“(a) Twenty-one cars have so far been purchased by the Government. Of these fifteen cars are retained for the use of the Hon. Prime Minister, other Hon. Ministers, Hon. the President, Madras Legislative Council and Hon. Speaker, Madras Legislative Assembly and the remaining six cars will be sold and sale-proceeds credited to the Government.

“(b) One Chevrolet Master Deluxe 1941;

One Hindustan Ten;

One Citroen;

Six Studebakers; and

Six Ford V8s.”

BEGUM SULTAN MIR AMIRUDDIN:—“May I inquire from the Hon. Premier how many cars were sold after the cars were purchased, and other cars bought instead?

THE HON. SRI T. PRAKASAM:—“Notice.”

H. S. HUSSAIN SAHIB BAHADUR:—“May I know what is the price of these cars? How much money was invested in these cars?

THE HON. SRI T. PRAKASAM:—“A separate question may be put.”

BEGUM SULTAN MIR AMIRUDDIN:—“May I inquire whether the Hon. Ministers are not interested in encouraging indigenous industries, and if so, why more Hindustan Ten cars were not purchased for the Ministers?”

THE HON. SRI T. PRAKASAM:—“Sir, I do not know whether even Hindustan Ten cars do constitute ‘indigenous industry’.”

BEGUM SULTAN MIR AMIRUDDIN:—“At least, as the parts are assembled here, they are more indigenous than Studebakers and Chevrolets.”

MR. SPEAKER:—“That is your view. It is not a supplementary question.”

MUHAMMAD RAFFEEUDIN AHMAD ANSARI SAHIB BAHADUR:—“Will the Hon. Prime Minister consider the question of issuing permits for new cars to the Members of the Legislature?”

THE HON. SRI T. PRAKASAM:—“Certainly.”

[14th August 1946]

N. MUHAMMAD ANWAR SAHIB BAHADUR:—“Will Members of the Legislature have the highest priority in the matter of permits?”

THE HON. SRI T. PRAKASAM:—“They do have a priority over all others. There is no doubt about it.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“May I ask whether these cars were got free, or any amount paid for them?”

THE HON. T. PRAKASAM:—“The question must be more clear than what it is.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“May I respectfully put to the Hon. the Prime Minister, whether the cars were got free or any amount paid for them?”

THE HON. SRI T. PRAKASAM:—“It is difficult to understand Mr. Hameed Khan. Free from whom, and for whom? I have not been able to understand still.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“Sir, I have put a question. My question to the Hon. Finance Minister is, for how much the cars were bought. The Finance Minister's reply is that he wants notice. I thought as this was an important question of finance, the Minister for Finance would know whether any amount was paid for it from the coffers of the Government, and if so, how much?”

THE HON. SRI T. PRAKASAM:—“I said ‘notice.’ The Finance Minister is not expected to note the price of each car purchased and carry it in his memory. It is a difficult question even for the Finance Minister.”

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—“Is it a fact that the Leader of the Opposition was refused permit to purchase a new car?”

THE HON. SRI T. PRAKASAM:—“I have not got the information; yet, I take note of it. I shall go into it.”

SRI P. NATESAN:—“Will the Leader of the Opposition have any preference over other members of the Legislature?”

THE HON. SRI T. PRAKASAM:—“He will have equal right with other members.”

BEGUM SULTAN MIR AMIRUDDIN:—“May I inquire how many legislators have been given permits for new cars?”

THE HON. SRI T. PRAKASAM:—“Even this question should be more clear, and there must be notice to enable Government to place the information before the House.”

Re-employment of superannuated men in the medical services.

* 74 Q.—SRI N. S. VARADACHARI: Will the Hon. the Minister for Public Health and Medicine be pleased to state—

(a) how many superannuated men are re-employed in the medical services;

[14th August 1946]

(b) how many extensions of service have been given to the Personal Assistant to the Surgeon-General; and

(c) whether the Government are contemplating to adopt the policy of terminating re-employment of superannuated men in the medical service?

THE HON. MRS. LAKSHMIPATHI:—“(a) There are on the whole 15 superannuated men re-employed in the Madras Medical Provincial and Subordinate Services.

“(b) Khan Bahadur Dr. Allam Sahib Bahadur, L.M.S., Personal Assistant to the Surgeon-General has not been granted any extension of service. He has been re-employed with effect from 11th September 1943.

“(c) The policy of the Government is that no person who has been retired from service should be re-employed unless there are exceptional circumstances justifying such a step. Under instructions from the Government, Civil Assistant Surgeons and two Civil Surgeons in the general line including the officer referred to at (b) who have been re-employed have been given notice of discharge and have been relieved. The question of retaining the services of Specialists who have been re-employed and who cannot be easily replaced will be considered on receipt of the Surgeon-General's report.”

SRI N. S. VARADACHARI:—“Are Government aware that if re-employment of superannuated men is made even in a few cases, it blocks the promotion of junior men?”

THE HON. MRS. LAKSHMIPATHI:—“Yes, Sir; I am aware of it.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“Will the Hon. Minister be kind enough to give the names of the other officers who have been given such extension or who have been re-employed?”

THE HON. MRS. LAKSHMIPATHI:—“Dr. Madhavan's services have been dispensed with along with the services of Dr. Allam, and notices will be given in the case of others.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“Who are the others?”

THE HON. MRS. LAKSHMIPATHI:—“Notice.”

SRI N. S. VARADACHARI:—“Will Government take note that even in cases where ‘exceptional qualifications’ are pleaded, there are many civilian doctors who have returned from army services, who are qualified to do this ‘exceptional’ work?”

THE HON. MRS. LAKSHMIPATHI:—“When specialists are available and when they are demobilized, their cases will certainly be considered.”

BEGUM SULTAN MIR AMIRUDDIN:—“May I ask whether the Hon. Minister is aware that now that the war is over it is

[14th August 1946]

high time that superannuated men should be substituted by young officers, and that the former should no longer be allowed to block the promotion of junior men?”

THE HON. MRS. LAKSHMIPATHI:—“That is the policy of Government.”

SRI K. ANANDA NAMBIYAR:—“May I ask the Hon. Minister whether it is not detrimental to the interests of the public to appoint old men in service?”

THE HON. MRS. LAKSHMIPATHI:—“It is certainly against the interests of the public, I admit.”

SRI K. ANANDA NAMBIYAR:—“So, will that mistake be corrected?”

THE HON. MRS. LAKSHMIPATHI:—“Yes, when suitable men are available. The previous Government appointed superannuated men. Therefore, in that sense, the mistake will be corrected.”

SRI N. SANJEEVI REDDI:—“Is there any proposal to appoint a Lay Secretary to the General Hospital?”

THE HON. MRS. LAKSHMIPATHI:—“No, Sir; not that I am aware of.”

N. MUHAMMAD ANWAR SAHIB BAHADUR:—“May I ask the Hon. Minister whether the age-limit for superannuation applies in the case of women doctors in the department?”

THE HON. MRS. LAKSHMIPATHI:—“There will be no exception in the case of women. The same principle will be applied.”

Supply of electricity from the Gersoppa Hydro-Electric Works.

* 75 Q.—H. S. HUSSAIN SAHIB BAHADUR: Will the Hon. the Minister for Industries and Labour be pleased to state whether the Government have approached the Government of Mysore for the supply of electricity from the Gersoppa Hydro-Electric Works in the Mysore State to the neighbouring districts in the Madras Province, and if so, with what results?”

THE HON. SRI V. V. GIRI:—“Yes; for supply to the Ceded Districts Grid of this Government. The Mysore Government have agreed to afford the supply required. The Ceded Districts Scheme has been sanctioned by this Government at an estimated cost of Rs. 50 lakhs. The agreement with the Mysore Government is expected to be completed shortly.”

Textile Control Board's decision to increase the price of textiles.

* 76 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Industries and Labour be pleased to state—

(a) whether the Government of Madras have protested to the Central Government against the Textile Control Board's decision to increase the price of textiles; and

[14th August 1946]

(b) if the answer to (a) is in the affirmative, what reply has been received from the Central Government in regard to the matter?

THE HON. SRI V. V. GIRI:—“(a) As the Government of India have themselves deferred the introduction of the new prices pending a re-examination of the whole question, it has not been considered necessary to enter a protest against the proposal of the Textile Control Board to enhance the prices of cotton textiles.

“(b) Does not arise.”

ABDUL MAJEED SAHIB BAHADUR:—“As most of the representatives on the Textile Control Board represent only vested interests, will the Hon. Minister see that the Board is reconstituted with popular representatives?”

THE HON. SRI V. V. GIRI:—“I am not aware of the fact. I shall take the information from the hon. Member.”

BEGUM SULTAN MIR AMIRUDDIN:—“Is the Hon. Minister aware that the Government of Bombay protested to the Central Government with reference to this matter?”

THE HON. SRI V. V. GIRI:—“I am not aware, Sir.”

SRI K. ANANDA NAMBIYAR:—“Cannot this Government recommend to the Central Government to reconstitute this Board?”

THE HON. SRI V. V. GIRI:—“I shall look into this matter.”

MR. SPEAKER:—“Question No. 77. Mr. A. B. Shetty is not in his place, and so the answer will be printed in the proceedings.”

Steps for bringing down the price of hand-loom cloth.

* 77 Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Industries and Labour be pleased to state whether Government have taken any steps to bring down the price of hand-loom cloth?

THE HON. SRI V. V. GIRI:—“The answer is in the affirmative.”

Revival of taluk boards and reconstitution of the Malabar District Board.

* 78 Q.—P. K. MOIDEEN KUTTY SAHIB BAHADUR: Will the Hon. the Minister for Local Administration be pleased to state—

(a) whether there is any proposal to revive taluk boards; and

(b) when the Government propose to reconstitute the Malabar District Board?

THE HON. MR. DANIEL THOMAS:—“(a) Not at present.

“(b) Elections to the district boards including Malabar will be held in September and October 1946. The new boards will begin to function on and from 1st November 1946.”

[14th August 1946]

KUMARARAJA SIR MUTHIAH CHETTIAR OF CHETTINAD:—“Will Government consider the advisability of reviving taluk boards at an early date?”

THE HON. MR. DANIEL THOMAS:—“The question of revival may have to be considered after the reorganization of the village panchayats has been implemented.”

Punam cultivators of Kalliat and Patiyur amsams in North Malabar.

* 79 Q.—SRI K. ANANDA NAMBIYAR: Will the Hon. the Minister for Revenue be pleased to state—

(a) whether it is a fact that a memorandum on behalf of the Punam cultivators of Kalliat and Patiyur amsams in North Malabar was submitted to the Government on 23rd May 1946 and, if so, whether a copy of the same will be placed on the table of the House;

(b) whether the Government have considered this memorandum and if so, what action they have taken on it;

(c) whether it is a fact that there is a strong public feeling against the behaviour of the local police in the trouble in these two villages and if so, what action the Government propose to take in the matter; and

(d) whether it is a fact that, in March last, representations were made to Government regarding the oppression of the Kalliat janmi and if so, what action Government have taken thereon?

THE HON. SRI K. R. KARANTH:—“(a) & (b) The Government have received the memorandum, dated 23rd May 1946, referred to. The memorandum does not contain any new facts or circumstances and the Government do not consider that any action is called for on it. The Government do not consider it necessary to lay a copy of the memorandum on the table of the House.

“(c) The Government received telegrams from various associations and individuals alleging repression on the part of the police at Kalliat. They have obtained a report from the District Magistrate, Malabar. They find that there have been no cases of ill-treatment by the police.

“(d) In March last the Irikkur Firka Kisan Sangham and the Malabar Kisan Sangham represented to the Government that on account of the refusal of the Kalliat jenmi to lease out his lands to peasants for punam cultivation, a large extent of land would go uncultivated this year and a large number of peasant families would also be thrown out of employment and starve. They also complained that the jenmi caused criminal action to be taken against the peasants. The Government obtained a report from the Board of Revenue in the matter. The Board's report showed that the jenmi had leased out or was willing to lease out all the lands available for cultivation and that interference by the police

[14th August 1946]

was necessitated by the obstructive tactics adopted by some of the peasants. The Government found that there was no substance in the allegations. They accordingly refused to interfere in the matter."

SRI K. ANANDA NAMBIYAR:—"That means that the Government fully believes the reports of the Board and also the Police, and no action is taken by the Government."

THE HON. SRI K. R. KARANTH:—"That is not a question, Sir. It is a statement."

MR. SPEAKER:—"Question No. 80. Sri A. B. Shetty is not in his place. The answer will be printed in the proceedings."

Increase of pay and allowance for village officers.

* 80 Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Revenue be pleased to state—

- (a) whether the Government have considered the demands made by village officers for increase of pay and allowance; and
- (b) whether they have come to any decision in the matter?

THE HON. SRI K. R. KARANTH:—" (a) & (b) The Government hope to pass orders soon on the memorials of the village officers and servants asking for increased remuneration which are now under their active consideration."

MR. SPEAKER:—"Question No. 81. Sri A. B. Shetty is not in his place. The answer will be printed in the proceedings."

Tenancy legislation.

* 81 Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Revenue be pleased to state—

- (a) whether the Government propose to have tenancy legislation that will affect cultivators in ryotwari areas; and
- (b) if so, what the principal features of such legislation will be?

THE HON. SRI K. R. KARANTH:—" (a) & (b) The question of undertaking legislation to regulate the relationship between the landlords and the tenants in the ryotwari areas is under the consideration of the Government. The attention of the hon. Member is invited to the note issued to the Press on 27th June 1946 by the Hon. Minister (Revenue), a copy of which is laid on the table."

Cancellation of certificates of teachers for taking part in political activities.

* 82 Q.—P. K. MOIDEEN KUTTY SAHIB BAHADUR: Will the Hon. the Minister for Education be pleased to state—

- (a) how many certificates of school teachers have been cancelled for their taking part in political activities; and
- (b) whether any of them have been restored?

[14th August 1946]

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

" (a) The number of certificates cancelled by the Director of Public Instruction in 1942 movement is 31.

" (b) Eleven certificates have already been restored. The other certificates will be restored on receipt of applications."

Appointment of the Vice-Chancellor of the University of Madras.

* 83 Q.—SRI N. S. VARADACHARI: Will the Hon. the Minister for Education be pleased to state—

(a) whether the Vice-Chancellorship of the Madras University is a full-time appointment;

(b) if so, whether the Vice-Chancellor finds enough time to do his work as honorary physician in the hospital for women; and

(c) how many days he attends to the hospital work.

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

" (a) The answer is in the affirmative.

" (b) He apparently finds enough time for this.

" (c) On days when the Vice-Chancellor is in Madras, he attends hospital for about an hour or two in the forenoon."

THE HON. SRI K. R. KARANTH:—"I understand, Sir, that clauses (d) and (e) have since been withdrawn."

SRI N. S. VARADACHARI:—"Will the Government make it clear, Sir, that the Vice-Chancellorship of the University is a full-time appointment? The full-time appointment should be really made full-time."

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"That question has already been answered in clause (a)."

SRI N. S. VARADACHARI:—"Does Government think, Sir, that the work of the hospital will suffer greatly if the Vice-Chancellor attended full-time to his University work?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"The Government may not think that the work of the hospital will suffer greatly. The Government do not think that the work of the University has suffered."

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Is this question an offshoot of the Vice-Chancellor's speech in the Council, Sir?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"You may put that question to the Hon. Member himself."

BEGUM SULTAN MIR AMIRUDDIN:—"May I enquire whether the Government are intending to amend the Madras University Act?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"Yes, Sir."

[14th August 1946]

Educational facilities to the physically and mentally handicapped children in the province.

* 84 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Education be pleased to state—

(a) what steps the Government are taking or propose to take in the near future for providing suitable educational facilities for the physically handicapped and mentally handicapped children in the province; and

(b) whether the Government have collected or propose to collect at an early date statistics in regard to physically and mentally handicapped children in the province?

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

“(a) There are 14 special schools for the Blind, Deaf and Dumb and other defective children in this Province—Two under municipal and 12 under private management.

“Teaching grants are paid to the latter under the provisions of the Grant-in-Aid Code. The question of providing more facilities for the education of the defective children will be considered.

(b) No statistics has been taken in this regard till now but will be taken as soon as possible.”

BEGUM SULTAN MIR AMIRUDDIN:—“May I enquire whether the 14 institutions are Government institutions or aided institutions run by Missionary bodies or other Associations?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

“There are 14 schools for the Blind, Deaf and Dumb and other defective children in this Province. Out of the 14 schools, 2 are run by the Municipalities of Coimbatore and Karaikudi and the remaining 12 are under aided management.”

BEGUM SULTAN MIR AMIRUDDIN:—“Will the Government consider the desirability of establishing themselves, institutions for the benefit of the physically and mentally handicapped children in this Province?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

“The suggestion will be considered, Sir.”

BEGUM SULTAN MIR AMIRUDDIN:—“Is the Hon. Minister aware that both the Sargent Committee and the Post-War Reconstruction Committee on Education suggested that as a preliminary measure statistics should be taken about the number of mentally and physically handicapped children in the Province?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

“Yes, Sir.”

BEGUM SULTAN MIR AMIRUDDIN:—“Will the Hon. Minister expedite the matter so that something may be done for the defective children?”

[14th August 1946]

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

“We will do our best.”

[Note.—An asterisk (*) at the commencement of a speech indicates revision by the Member.]

II.—ADJOURNMENT MOTION *RE* SCAVENGERS' STRIKE.

* MR. SPEAKER:—“Sri P. Venkateswarlu has given notice of an urgent motion for the adjournment of the Assembly for the purpose of discussing a definite matter of urgent public importance. It is about the Scavengers' strike in the City of Madras and in Andhra Desa. Regarding this question, I wish to give my ruling. Rule 37 of the Assembly Rules says ‘The right to move the adjournment of the Assembly for the purpose of discussing a definite matter of urgent public importance shall be subject to the following restrictions, namely:—

“(iv) the motion must not anticipate a matter which has been previously appointed for consideration or with reference to which a notice of motion has been previously given, regard being had to the probability of the matter anticipated being brought before the House within a reasonable time.”

“The House will be aware that we are discussing the demands now. In a day or two, the Hon. Minister for Public Health will move the demand for Public Health. Then the House will be in a position to discuss the subject. I rule this motion out of order.”

SRI P. VENKATESWARLU:—“I request you to read the motion.”

* MR. SPEAKER:—“I need not read it.”

III.—ELECTION OF A MEMBER TO THE BOARD OF INDUSTRIES.

* MR. SPEAKER:—“I have to announce to the House that Sri R. V. Swaminathan is the only candidate duly nominated for a seat in the Board of Industries. I hereby declare him duly elected.”

IV.—ELECTION OF A MEMBER TO THE ADVISORY COMMITTEE OF THE MADRAS AND SOUTHERN MAHRATTA RAILWAY.

* MR. SPEAKER:—“I have to announce to the House that Sri Gopavaram Venkata Reddi is the only candidate duly nominated for a seat in the Advisory Committee of the Madras and Southern Mahratta Railway. I hereby declare him duly elected.”

V.—ELECTION OF MEMBERS TO THE HOUSE COMMITTEE.

* MR. SPEAKER:—“I have to announce to the House that the following candidates have been nominated for election to the House Committee:—

- (1) Sri K. Varadachari.
- (2) Sri R. S. Manickam.
- (3) Sri S. K. Govindaraja Naicker.
- (4) Sri A. Y. S. Parisutha Nadar.
- (5) Chinna Kaziari Haji S. A. F. Ibrahim Sahib Bahadur.
- (6) P. K. Mohideen Kutty Sahib Bahadur.

[Mr. Speaker.] [14th August 1946]

"As the number of candidates nominated is equal to the number of vacancies to be filled, namely, 6, I hereby declare them to have been duly elected to the House Committee.

"In addition to the above, under rule 152 of the Madras Assembly Rules, I nominate the following two members to be members of the said Committee:—

(1) Mr. A. E. Thompson.

(2) Srimathi K. Lakshmi Amal.

"Regarding the Public Accounts Committee I shall make an of the demand under discussion."

VI.—DEMANDS FOR GRANTS FOR 1946-47

DEMAND I—LAND REVENUE

MR. SPEAKER:—"The Demands for grants are before the House. I wish to bring to the notice of the House the rule on the voting of Demands:—

'127 (1) The voting of demands for grants shall take place on such days not exceeding fifteen as the Governor exercising his individual judgment may allot for the purpose.

'(2) Of the days so allotted, not more than four hours shall be taken up by the Assembly for the discussion of any one demand. As soon as the maximum limit of time for discussion is reached, the Speaker shall forthwith put every question necessary to dispose of the demand under discussion.'"

"The Speaker has been given the power to fix the time limit under rule 126 (3). I have fixed 15 minutes for the Mover of the cut motion and 10 minutes for other speakers. If need be I can allow one or two minutes for any member who wants it.

"The Hon. Sri K. R. Karanth will move the Revenue demand."

* THE HON. SRI K. R. KARANTH:—"On the recommendation of His Excellency the Governor, I move that the Assembly do assent . . ."

* MR. SPEAKER:—"You must address the Speaker."

* THE HON. SRI K. R. KARANTH:—"I am sorry, Sir. Mr. Speaker Sir, on the recommendation of His Excellency the Governor, I move—

'that the Assembly do assent to a demand which will come in course of payment, during the period from the 1st May 1946 to the 31st March 1947, of such sum as together with the expenditure already incurred in April 1946 will amount to Rs. 27,81,400 in respect of the head Land Revenue. The expenditure incurred in April 1946 is believed to be Rs. 3,26,400.'

Particulars of this demand are to be seen at page 57 of the Budget Memorandum and the details are all given there."

* MR. SPEAKER:—"M. Muhammad Ismail Sahib Bahadur and B. Pocker Sahib Bahadur are not in their places. Sri P. Venkateswarlu will move his cut motion."

Vide page 37 *infra*.

[14th August 1946]

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—"On a point of information; Sir, should we not wait for the full one hour . . . ?"

* MR. SPEAKER:—"As soon as answers are over, we can proceed to the next item on the agenda."

SRI PILLALAMARRI VENKATESWARLU:—"Mr. 11-30 Speaker, Sir, reorganization of the land tenure system has not yet received proper attention from the Treasury Benches. The Hon. Minister for Revenue says that he is still studying the problem when millions are dying for lack of food. The Ministry is still contemplating. To-day we are faced with such a serious food crisis that unless the whole system of land tenure is completely overhauled, there is very little scope to save our people from starvation. The main and worst feature of our land tenure system is the perpetuation of absentee landlordism and the zamindari system. But the Ministry is only contemplating to reform them, but has not taken proper steps. I fear they are not taking proper steps because they are afraid of the zamindari and vested interests who will put all obstacles in the way of the Ministry from going ahead. These vested interests must be fought out. Unless the zamindari system is abolished, we cannot overhaul our land revenue system entirely. Let us look at the historic role played by the zamindars, the creatures of British imperialism. During the last sixty years of our national fight these zamindars have always been siding with British imperialism. They have been on the side of the British imperialists and against the people ever since the Indian National Congress started the fight. Yet they are still there continuing the zamindari system, and the Ministry has not yet come forward to abolish that system. To-day they are sitting tight on their lands. The Advisers' regime tried to coax them. But these blood suckers do not yield. The Advisers' regime could not bring more land under cultivation because they did not take radical steps to reform the land revenue system by abolishing the zamindari system entirely. In the Andhra area alone, 88 lakhs or 23 per cent of the total acreage is under the zamindars and about 7 per cent of the land under the inamdars. This means 30 per cent of the lands is under the control of the parasites who do not raise their little finger to help production.

"The zamindari tenants are the most rack-rented and even the legal taxes they pay are many times higher than the ryotwari tenants are paying, and above that there are illegal exactions. These zamindars are killing the peasantry. More than this, huge acreage of kamatam lands is at their disposal which they would neither cultivate nor allow others to cultivate. The abolition of the zamindari system and landlordism means relief and rehabilitation to one-third of our peasantry and a tremendous impetus for the production of more food. No doubt it is a welcome feature with which everybody agrees. Some people and most of our friends here advocate abolition of the zamindari system after paying compensation. Paying compensation means perpetuation of the zamindari system in another form. So we advocate that

[Sri Pillalamarri Venkateswarlu] [14th August 1946]

the zamindari system must be abolished without any compensation being paid. These zamindars who have been up till now almost killing their peasants do not deserve any compensation at all. If at all compensation is to be paid to anybody, it should be to the tenants under the zamindars who have up till now sucked the very life blood of the peasantry. The zamindars are also making illegal exactions. All these things must be banned.

“Even from the point of view of revenue, what is it that the zamindars are paying? If you just refer to page 2 of the Detailed Budget Estimates of Revenue, you will find peshkash 47 lakhs and ryotwari revenue 900 lakhs, whereas the total income, both legal and illegal, of the zamindars is 900 lakhs. It is evident that the zamindars are paying a disproportionately small sum to the revenue, whereas they collect exorbitant rates from the tenants. What the 67 per cent of the ryotwari peasantry is paying to the land revenue, the zamindars are collecting from their tenants who form only 23 per cent of the population.

“I would like to bring to the notice of the House another glaring factor. Out of the total 47 lakhs of peshkash the zamindars are paying, about 42 lakhs are being expended by Government for the maintenance of village officers in the zamindari areas. Thus, the Government get only a revenue of 5 lakhs out of the 47 lakhs. So I say that unless the zamindari system is abolished we cannot increase our land revenue, the poor people will be unnecessarily taxed, and the poor peasants are hit hard. So, to improve the economic position of the tiller, to grow more food, to enhance the revenues of the State, to place our agriculture on a more scientific basis, we have to abolish the zamindari system without compensation immediately. In this connexion I would like to bring to the notice of the House a resolution passed in the United Provinces Legislative Assembly recommending the abolition of the zamindari system. The zamindar members who were opposed to the resolution walked out of the Assembly and the League Members also followed the walk-out. We can visualize the zamindars opposing such progressive measures and putting all obstacles in our way. The Popular Ministry must come forward with legislation in spite of the obstacles of the zamindars and their agents put in the way of the abolition of the zamindari system or any other progressive measure. We demand that the zamindari system must be abolished immediately without any compensation. I quite remember how in the previous debate our friend Mr. Kala Venkata Rao reported that even the Maharajah of Pithapuram was coming forward to give up his zamindari to the Government. It is a welcome sign. I want to know whether the Maharajah of Pithapuram is prepared to give up his zamindari without any compensation.

“As regards the ryotwari system, another obstacle for the growth of our agriculture is absentee landlordism. The absentee landlords hold a large percentage of acreage, and they live on rack-renting. In some cases as much as three-fourths of the produce is taken away by them. They charge exorbitant rates

14th August 1946] [Sri Pillalamarri Venkateswarlu]

from the tenants, and there is no fixity of tenure. When there is no fixity of tenure, there is no guarantee that the tenant, who applies fertilizers to the soil to produce more yield, will enjoy the fruits of his labour. When there is no guarantee that the tenant can maintain his family through his labour, how can you expect him to produce more food? So the question of the abolition of absentee landlordism must also be taken up immediately. Unless legislation is resorted to, we cannot have enough food. Ever since the outbreak of the war, we have been depending on other provinces and imports from outside countries for our rice, and the same thing will continue next year also. Why should it be so? We have got enough of waste land which can easily be brought under cultivation. Why cannot we take immediate steps to bring all this land under cultivation? That is why we want the abolition of the zamindari system and the absentee landlordism. Because absentee landlordism is there our agriculture is slowly deteriorating. The tenants must have guarantee of tenure. To-day absentee landlordism is very exacting. It must be done away with. In this connexion I suggest that no landlord should be allowed to have more than 100 acres, because it is impossible for any landlord to cultivate more. So land over and above 100 acres owned by individuals must be taken away and nationalized. The common people must be put in control of such land. A minimum acreage must also be fixed. I would suggest a minimum holding of 5 acres for a cultivator. Every landlord must cultivate the land himself. Unless he cultivates the land he shall not be the owner of the land.

“After the abolition of the absentee landlordism and the nationalization of land, free distribution of the land has to be taken up immediately. We must see that there is no accumulation of land, that is, if any man were to sell his property, only the State must be entitled to buy and not the greedy merchants. Unless this is done, absentee landlordism will revive.

“We have heard so many members speak in this House that they are for State farming and State control of the land. As far as I can understand from the speeches made, State farming and State control are suggested in order that the Government may come to the rescue of the mirasidars and big landlords to put down the unrest prevailing now-a-days among the agricultural labourers. This should not be done, and the Government should not accede to such requests. Government must come forward with proposals immediately to nationalize the land and put the peasants in charge of it.

“Another point which I want to bring to the notice of the House is that the zamindars, fearing legislation which may usurp their rights, are resorting to all sorts of illegal transactions. They are alienating their lands either to their relatives or friends. Such illegal transactions must be banned. It must be made clear that such alienations will not be accepted by the Government as lawful.

“One word about the agricultural labourer and especially the land. We know that the State itself is the biggest land-owner, because about one crore acre of waste land is under the

[Sri Pillalamarri Venkateswarlu] [14th August 1946]

control of the State. What is it that we are going to do with this land? Why cannot it be distributed among the agricultural labourers? Moreover, it is not an impossible thing to bring this waste land under cultivation. If we give a fillip to irrigation resources, all these waste lands can be brought under cultivation. The agricultural labourers and the Scheduled classes must be given a guarantee that there will be legislation for a minimum living wage and fixed hours of work. There are very many agricultural labourers who are employed as domestic servants, and there is no protection for them at all. The Government must come forward with legislation for guaranteeing a minimum wage and fixing the working hours. Unless this is done, there is no salvation for the agricultural labourers; they will be exploited all the more. After all, it is the agricultural labourers who are responsible for production. The agricultural labour is part and parcel of the article produced. Just as legislation for land reform is necessary, legislation for improving the position of the agricultural labourers is equally necessary. Their condition is very poor. They have no housing facilities. They are living in huts and under trees. The Government must immediately come forward to build houses for, and allot lands to them. The Government must also realize that to produce more, they must be supplied with manure and other agricultural implements. Instead of putting these waste lands to good use, there is a tendency on the part of the Government themselves to put them to auction. It is a wrong policy. If only all this waste land pass into the hands of the rich, the agricultural labourers and the poor peasants will be deprived of their rights. The Government must immediately see that all the waste lands are given to the needy peasantry, particularly to the agricultural labourers. Living wage must also be fixed and they should see that the domestic servants do also have holidays with pay.

"One word about the taxation principle and with that I will close. The present taxation system is very oppressive. The poor is bearing the heavy burden of taxation. The rich are not paying proportionate to their income, and they escape by all possible means. But the poor peasantry is forced to pay about 90 per cent of the land tax, and it is very hard that we should be collecting most of the land revenue from the peasantry. Hence, I suggest that this system of taxation must go, and it must give place to a steeply-graded agricultural income-tax, which our Hon. Premier was suggesting yesterday. It must be immediately resorted to. It should not be viewed as a mere expediency to have more revenue to make good the loss arising out of prohibition. It must be viewed from the point of view of the just demands of the peasantry. To get more tax from the rich, graded income-tax must be operated upon. Our land revenue system must be completely reorganized. Instead of land-tax, there must be agricultural income-tax. Peasants not having even a minimum living wage are forced to pay tax. Not satisfied with the already burdensome taxation, the Advisers' raj began collecting additional tax based upon the Marjoribanks

[14th August 1946] [Sri Pillalamarri Venkateswarlu]

Report. The last Congress Ministry suspended collection of this additional tax, but did not annul it. The Advisers' raj revived the tax. The Ministry must immediately come forward and annul the unjust enhancement without any delay. I know all this legislation will take a long time and perhaps there will be many hurdles for the Congress Ministry both from within and outside. What I suggest is that the people's need to-day demand that our land revenue system must be completely overhauled, that the basic principle should be that the rich should pay, that the zamindari system must be abolished without any compensation and that land should be nationalized and distributed to the needy peasantry. With these words, I move the cut motion standing in my name, namely—

'to reduce the allotment of Rs. 27,81,400 for Land Revenue by Rs. 100'."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Mr. Speaker, Sir, for a very long time I have been a member of this legislature (Kumararaja Sir Muthiah Chettiyar of Chettinad: 'The oldest member') representing the City of Madras. As a member representing the City of Madras, I did not interest myself in regard to what was happening in the country, as to how the land was divided, who were the owners of the land, how much cultivation was taking place, etc. Now that I represent a district, particularly belonging to the Andhra area ('Hear, hear') I have to say a few words on the land revenue system. Since we met last under the old Government, we have found a remarkable change so far as the amount of revenue we are able to collect from various sources. The amount of revenue that we were previously able to collect from land was the highest. But to-day we find that the highest revenue collected is from Excise. Perhaps there are very good reasons for such a change. But I wish to ask whether it is not also due to the fact that sufficient land has not been brought under cultivation and also because of the existence of the zamindari system which is holding under its control a good portion of the land for which Government have not been getting adequate revenue. Perhaps that is one of the reasons why Government have not been able to augment their resources so far as the revenues are concerned. There are hon. Members here who have been speaking very vehemently about the zamindari system and demanding its abolition. It is true that times have changed and that the way in which administration has been carried on and the revenues derived under various sources have also to change unless we choose to remain under the old system even to-day. The demand for the abolition of the zamindari system has been made for very cogent reasons. The main reason is that the administration of the province has not been able to get the revenue from the land, particularly from the zamindari land as they could have done if they had abolished the zamindari system. The second reason is that the ryots under the zamindari system are not as happy and contented as they are in the ryotwari system. These are the questions which have been investigated by various

[Abdul Hameed Khan Sahib Bahadur] [14th August 1946]

commissions and I remember the Hon. the Premier, when he was the Revenue Minister under the last Government, made an enormous study of the question and was prepared to come forward with a Bill for the abolition of the zamindari system. Now that this Government have come into being, I do not know what will be the attitude of the present Government with regard to that question. The abolition of the zamindari system as has been suggested by one hon. Member is not so easy as he would like it to be. Even the zamindars have their own rights accrued for a very long time. If at all the system has to be abolished, adequate compensations will have to be made. In what way, how and to what extent compensations have to be made will have to be considered. It will deprive the rights of a certain class of people who have been enjoying the rights for years, if the zamindaris were abolished and no compensations were given. While on this subject of the zamindari system and its abolition we have to emphasize the fact that if this Government wish to revolutionize so far as the economic condition of the people in this Province is concerned, there is should be no question of taking up the subject piecemeal. Unless Government are prepared to revolutionize the entire economic structure, there is no meaning in tackling the question of the zamindari. We have to take up the question in its entirety and deal with it and unless Government are prepared to do it, they will not be well advised in dealing with the question of the zamindari law. The zamindari system can be reformed and yet retained. The zamindars may be asked to pay more revenue to Government for one thing and secondly they may be asked to rectify things in their rent system and also in their dealings with the ryots. That is one of the ways in which the question may be solved.

“Then, Sir, for a very long time people have been asking for land revenue legislation. Land revenue legislation has been demanded for many years. The last Congress Government were not able to bring in legislation of that kind. I really do not know what the policy of the present Government is and in what period they will be able to bring forward such a measure for regularizing the land revenue system in this Province.

“While the Advisers' Government were functioning, they came forward with a Bill for taxing agricultural incomes. Well, we have not yet known what the policy of the present Government is on that question. It is true that while certain classes of people have to pay income-tax, another class of people who are also deriving vast incomes from land go scotfree. Why should they not also pay income-tax on their income? That seems to be the argument in favour of introducing legislation for taxing agricultural incomes. Well, various taxes are levied for various reasons, the main reason being to collect revenues for carrying on the administration. And so far as land is concerned, the land tax is already there. Would the Government be justified in levying another tax in addition to the land tax which is already there on the owners of land? If the Government are really desirous and

14th August 1946] [Abdul Hameed Khan Sahib Bahadur]

anxious to introduce a Bill for taxing agricultural incomes, I would suggest—and I am sure other hon. Members will also agree with me—that certain classes of agriculturists should be exempt from any tax. Land tax should be levied on owners of large tracts of land and not on small holders. The latter should be exempt from any tax.

“Sir, the third point that I should like to refer to, in this connexion is this. The Government during the past years—I do not say the present Government—have allowed vast tracts of arable land to remain uncultivated. They were not brought under cultivation and we now see the effect of such a neglect. We see to-day that our Province is famine-stricken. If cultivation had been increased, and if the Agricultural department had paid due attention to the needs of this Province and its growing population, we would not have been in the pitiable and deplorable plight in which we, the people of this Province, are to-day. Why are such vast tracts of land allowed to remain fallow, without being cultivated? What are the reasons? Why have the Government neglected their duty? Possibly one reason is that big landholders did not come forward to take over fallow lands for cultivation and the other is that they wanted to utilise the land for growing what are called ‘cash crops’ for they were getting a larger amount of income by cultivating cash crops than by growing foodgrains. A good portion of the land has now been utilized for cash crop cultivation with the result that to-day there is not enough food-grains raised from the land to feed the people. May I ask why such extensive lands, which could have been brought under food-crop cultivation, were neglected? Sir, the Government, I am sure, will be able to give reasons for such a neglect. If such neglect had not taken place, I am sure we would not have been in the plight in which we are to-day. The Hon. the Additional Minister for Food has already warned us that the ration is going to be reduced from 8 ounces to 6 ounces. (A voice: ‘To 4 ounces!’) I do not know what exactly the Minister intends to do, but I think that there is going to be a reduction from 8 ounces to a less quantity. Sir, our Province is one which wants rice and not wheat. It should have been the duty of the previous Government to have increased rice cultivation on a larger scale. On account of the neglect of the previous Government, the people of the Province are now suffering. What is the present Government going to do? There is no use our depending upon imports of foodgrains from outside, like Burma and Siam. That a country like India with its vast cultivable lands is not self-sufficient and should have to depend upon other countries for its foodgrains is a thing which one cannot understand and certainly the Government which was responsible for bringing about this deplorable plight deserves to be condemned.

“Then, Sir, I wish to say one thing in regard to the assignment of land to people who have returned from war. There are a large number of ex-soldiers who have no work to do and the Government want to provide them with work by assigning them

[Abdul Hameed Khan Sahib Bahadur] [14th August 1946]

lands for cultivation. What I want to say in this connexion is that the Government should see that only such extent of land as the ex-soldier could cultivate, is assigned to him and that he should not be allowed to become an absentee-landlord as many landlords are. He must be encouraged to devote personal attention to his land and carry on cultivation himself. It is on account of the fact that owners are not paying personal attention to the cultivation of their land that we have all this trouble. We know there are a number of big landlords and advocates in Madras who have acquired vast extents of lands in the Province, and who do not pay personal attention to the cultivation of their land.

“Sir, on the question of assignment of land, I know on the last occasion we did bring to the notice of the Hon. the Minister in charge of Land Revenue that Muslims have not been assigned lands when a demand was made by them. In many districts, there were requests made by poor Muslims who have no other profession, for assignment of land for cultivation, but they were refused. I hope, Sir, under the present condition, under the condition in which these poor Muslims are—I do not want to be a beggar again in this matter—the Government of the day will not follow the same policy, but see that when assignments are made, they do not neglect the rightful claims of the various communities in this Province.”

* H. S. HUSSAIN SAHIB BAHADUR :—“Mr. Speaker, Sir, there is no gainsaying the fact that God has created Mother Earth as the source of all prosperity for humanity. Therefore land is the permanent source of prosperity for us all. The Government might be having so many sources of revenue. But it is land that carries us through and that will not fail us. Therefore, I wish to say that the present Government which is a popular Government, established by the will of the people, should pay more attention to land and especially at a time when we are faced with a food crisis. There are ways and means of improving land and increasing the production of food. Therefore, Sir, I would first draw the attention of the Government to one important fact. While they are trying to find sources of income from land in so many ways, such as by the levy of agricultural income-tax, I would say that at the same time, they should also try to increase the production of land and the extent of land that has to be brought under cultivation. For this purpose, we can divide the subject into two or three parts. The most important of these is the provision of more facilities for irrigation by means of which the land can be made to yield more. For instance, a piece of land that is producing only one crop can, by the provision of irrigation facilities, be made into a double-crop land. In the same way, where lands have been abandoned and where cultivation has been given up for various reasons, the Government should help the agriculturists to bring such lands under cultivation again by providing all facilities. I know, Sir, there are vast tracts of land which are lying uncultivated in the sub-ghat areas and the ryots could not cultivate

14th August 1946] [H. S. Hussain Sahib Bahadur]

them, and hence they have been abandoned. There are two main reasons for it. One is the depredation of wild animals and the other is the prevalence of Malaria in those areas. The Government should remedy these things. They should take steps to eradicate the disease from those tracts or to mitigate it as far as possible and thus afford all facilities to the agriculturists to cultivate those lands. By that means alone could labour be made available. Otherwise it would be impossible for labourers to go to those areas and cultivate them. In the matter of depredation of wild animals, the Government should see that the agriculturists get gun licences to kill those depredators that come and destroy their crops. In that way, the produce can be increased and in such a case alone will the Government be justified in levying agricultural income-tax. Otherwise, there is no meaning in saying that they are going to increase the land-tax or impose fresh taxation called agricultural income-tax without taking sufficient steps to help the ryots and agriculturists to cultivate more land and without seeing that all impediments are removed as early as possible. Mr. Speaker, I know personally that large tracts of cultivable lands have been abandoned by the landlords. Some of these gentlemen, who pay an assessment of Rs. 500 and more, told me that they had to give up cultivation. How is it that it was possible to cultivate those holdings at one time and how is it and why is it that it is not possible to cultivate them now? Perhaps the Government have not been very careful in the matter or have not paid any attention to the matter. It had concerned itself mainly with the revenue it got. True, there is no doubt that it is the business of a Government to see that it gets as much revenue as possible; but, as the Government desire to increase production in this emergency, they may as well just overlook the revenue side. More attention should be paid to these matters when you are thinking of legislating for the levy of more tax and agricultural income-tax. I do not wish to take up the time of the House with more suggestions at this stage. When the Demands under the heads ‘Irrigation’ and ‘Electricity’ are moved, I shall deal with the other aspects of the question of cultivation, land revenue and so on.”

* MUHAMMAD REFEEUDIN AHMAD ANSARI SAHIB BAHADUR :—“Mr. Speaker, Sir, I rise to support the cut motion moved by my hon. Friend. The object of moving the cut motion is not to criticize the policy of the Government but, as is evident from the wording of the motion itself, it is to discuss the revenue policy of the Government.

“Sir, the first thing that strikes one’s attention, while considering the revenue policy of the Government, is the question of the zamindaris. Sir, while on this question, I wish to remove a misunderstanding on the part of some Members of this honourable House. One hon. Member said, just a few minutes back, that the Muslim League party in the United Provinces Assembly staged a walk-out against the zamindari policy of the Government there. This is incorrect. What happened was this: The Muslim League

12-15
p.m.

[14th August 1946]

[Muhammad Refeudin Ahmad Ansari Sahib Bahadur]

party in the Assembly found that the Government there did not agree with the amendment moved by them and so walked-out in protest. They did not join with the zamindars in staging the walk-out. I wish to draw the attention of the House to the amendment moved by the United Provinces Muslim League party which was the question at issue. The amendment was to the effect that not only should the zamindari system be abolished, but that all capitalist and vested interests should go along with the zamindari system. Sir, the zamindari system is a part of the economic problem that faces this country, the problem, viz., the existence of a vast difference between one strata of society and another. Sir, the Madras Government also, when legislating on the zamindari question, should have this in mind. They should see that all the causes that tend to make this inequality remain are removed. I, therefore, suggest that not only should the zamindari system should go, but that all capitalist systems and all vested interests should also go with it. This is the attitude of the Muslim League party in this matter.

"As regards the land revenue policy of the Government, the whole policy is a question of assessment. Now it is said that while prices have gone up very much, the income that the Government have derived from land has remained steady. For this, I suggest that, instead of taxing the agricultural income, the Government should levy the assessment in kind and not in cash. With these words, I support the cut motion before the House."

* SRI V. I. MUNISWAMI PILLAI:—"Mr. Speaker, if I rise on this occasion to speak on the revenue policy of the Government, it is on account of my humble desire to speak of the policy that is in vogue in this presidency and the connexion that there is between the land and the agricultural labourer. The existing system was brought into existence over a hundred years ago. Due to this system, large areas of land are held by landholders, zamindars and mirasidars and vast tracts have been endowed to very big temples. Unfortunately, the man who tills the soil and the man who brings the soil to a cultivable condition has no sort of right to the land. Whatever the land is made to yield by the worker is appropriated mostly by the landholder and the intermediary. The agricultural labourer who toils on the land night and day gets no share of the fruits of his own toil. I think the time has come for the Government to note this situation and take steps to let the tiller of the soil, the agricultural labourer, get some benefit. As we see to-day, the awakening is coming to the Harijans who are labouring in the fields that they have been ill-paid and that they have no protection whatever from either the landlords or the intermediaries. The recent events in Mannargudi taluk and in Tanjore have shown that unless some radical step is taken to remove the suspicion that has been aroused in the minds of the agricultural labourers, I feel that it would be a very hard job for the Government to see that all cultivable lands are cultivated. I appeal to the Government to bring in legislation as early as possible to remedy these matters.

14th August 1946] [Sri V. I. Muniswami Pillai]

"Moreover, most of the lands in some districts are held by absentee landlords. Some time back, I think, an enactment was contemplated for Malabar to wipe out this system of absentee landlords. We now see that a similar state of affairs exists in the other parts of the province also. I know, as a matter of fact, many of the big temples have got extensive lands. These are not made use of. Recently, the Government passed orders that such lands should be brought into use under the Grow More Food campaign. In this connexion, I suggest that permanent tenancy to such lands should be conferred on the actual labourers.

"Another thing I wish to impress upon the Hon. Minister in charge of Revenue is the need for granting more facilities to the Harijans in the matter of assignment of lands. To a question put in this House recently we elicited the answer that there are 748,556 acres of waste lands available for cultivation. On this point, the Administration Report for 1945 says that 185,207 acres were assigned for the Grow More Food campaign and that out of this only 167,073 acres were cultivated with food crops. What we wish to impress upon the Government is that only when we see that we are driven to difficulties by war and famine that we look about and arrange for lands being given to agricultural people who would cultivate them themselves. But the difficulties felt by Harijans are greater in the matter of getting lands. They appear before the monigar and the karnam asking for details about the lands available. Mostly these monigars and karnams live in aghrahams where Harijans could not approach. Even when the Harijans have access to those places, the information supplied is found to be insufficient or incorrect with regard to survey numbers and the like. Consequently, these people are driven from pillar to post in their search for correct information. I, therefore, suggest that the details concerning all available lands may be exhibited in a choultry or in a place to which all people have access. Such lists may be brought up to date once in six months so that the Harijans may know where the lands lie, what their correct survey numbers are and so on and apply for them for raising crops.

"Even in the matter of assignment of lands, I find from the Appropriation Accounts for 1944-45 that the Government were not able to spend much of the money that was allotted for the grant of land to the depressed classes. On page 145 it is said:

'Some of the land acquisition cases did not reach the stage of award. Though the Government made a grant of Rs. 15,100, they had to surrender Rs. 2,365.'

From this, it is clear that, under the rules obtaining for the assignment of lands, it is not easy for the unfortunate Harijans to get lands assigned to them. I hope the Hon. the Revenue Minister, in view of the state of affairs existing in the province due to the

[Sri V. I. Muniswami Pillai] [14th August 1946]

discontent of the labourers, will do something to enable the Harijans to get the lands easily. I hope the Harijans will get a large part of the area now set apart for the Grow More Food campaign."

12-20 p.m. Mr. Speaker called Mr. Sinna Kaziar Haji Moulvi S. A. F. Ibrahim Sahib. The hon. Member was not in his seat.

Swami A. S. Sahajananda was called and was found not in his seat.

Mr. M. A. Baig was called and found not in his seat.

* M. A. MUHAMMAD IBRAHIM SAHIB BAHADUR:—"Mr. Speaker, Sir, I want to bring to the notice of the Government the system of tenure that is obtaining in our Presidency in regard to land. Sir, there are a variety of tenures obtaining throughout the Presidency. There is the ryotwari system and the zamindari system. Even in the zamindari system, there are different varieties. There are the karaiedu villages and villages in which there is a rotation of crops. One block of land is cultivated with one crop in one particular year and another block is cultivated with another crop in another particular year, so much so one is not sure of the whole position. That is the condition prevailing throughout the Presidency. I want to press this aspect of the case, namely, the abolition of the various interests in land and create one sort of interest, namely, ownership or peasant-ownership. Each man should have full interest in his land. There cannot be any two interests in the same land. There should not be the occupancy right and the melvaram right in the zamindari system. Every man should have absolute right upon his piece of land and he should be the proprietor of his land. Of course, I grant that this would involve a great deal of legislation because it affects not only the present land revenue policy, but also the personal law of the various communities, namely, the Muslims, Christians and others also. It is a vast problem. But at the same time, I think, it is time for this popular Ministry to tackle this problem and simplify land tenure and place it on a uniform basis.

"The next point I wish to refer is the basis of land assessment and the necessity for a uniform basic rate with occasional surcharges and if necessity arises, income-tax also. Sir, the present assessment varies according to the places. So far as some places are concerned, they take the labour charges and other cultivating expenses into account in fixing the assessment; there is also a periodical rise in assessment and in some cases the rate proposed by Government is not uniformly adopted. In certain cases, Sir, the assessment is very heavy and the cultivation of one set of crop is not profitable. I, therefore, suggest that this popular Government should see that there is one basic rate as applied to all the land, i.e., Rs. 5 per acre or Rs. 3 per acre and if occasion arises at some critical time and prices of foodstuffs have gone up, the Government can come forward with proposals for surcharge on these pieces of land. Further, in the case of vast holdings they

[14th August 1946] [M. A. Muhammad Ibrahim Sahib Bahadur]

can levy income-tax also on agricultural income. I, therefore, want the Government to devote their attention to this problem and see that a uniform policy is adopted towards particular classes of lands. It will be better if the Government reduce all the taram class of lands into one simple category and introduce one basic rate for the taram class. There should not be any difference between the tax-payers in regard to the burden of the taxes, but at the same time the Government can levy surcharges occasionally and also agricultural income-tax in certain specific instances. To bring forward these points, Sir, I have given notice of my cut motion."

* SRI P. NATESAN:—"Mr. Speaker, Sir, I move the cut motion that stands in my name."

* MR. SPEAKER:—"The hon. Member need not move it. It has been agreed that only one Member will move the cut motion and other hon. Members will speak on the motion."

* SRI P. NATESAN:—"Sir, let me say, at the outset, that I do not wish to embarrass the present Government, a popular Government. (An hon. Member: 'Popular Government?') The Congress is supposed to be a popular party. . ."

* SRI KALA VENKATA RAO:—"Only supposed?"

* SRI P. NATESAN:—"I wish to draw the attention of this hon. House, Sir, to the serious discontent prevailing amongst the non-gazetted officers of the Government to-day."

* THE HON. SRI K. R. KARANTH:—"Sir, while I do not dispute the right of the hon. Member . . ."

* MR. SPEAKER:—"Will the Hon. Minister please speak through the mike?"

* THE HON. SRI K. R. KARANTH:—"What I want to submit, Sir, is that 'Heads of Provinces, Ministers and Headquarters staff' will be the demand that will be moved by the Hon. Prime Minister and—while I do not dispute the hon. Member's right—that this sort of motion which affects not merely the Revenue Department but others also would be more appropriately discussed then, than now . . ."

* THE HON. SRI T. PRAKASAM:—"Why not allow him to go on?" (Aside.)

* MR. SPEAKER:—"If the Hon. the Premier has anything to say, he may go to the mike and address the Chair."

* THE HON. SRI T. PRAKASAM:—"I must apologize to you, Sir."

* SRI P. NATESAN:—"May I proceed, Sir?"

* MR. SPEAKER:—"Yes, you can proceed."

* SRI P. NATESAN:—"Sir, this discontent is due to the high cost of living and the low salaries that the non-gazetted Government servants are getting. We have been reading of strikes all

[Sri P. Natesan] [14th August 1946]

over. Strikes are a sign of the times and show that there is something wrong and when we find the Government servants who have always been very calm, who never came anywhere near anybody, because they are Government servants, have also threatened a sort of direct action, I consider, Sir, that it is imperative that the House should take note of that fact. Sir, I have got here a sort of budget made out by a non-gazetted officer—we may call him a lower middle-class man with a wife and two children. It costs him Rs. 116 and odd to maintain himself and the family. This is with the minimum ration rice, dhol, salt, chillies, etc. I have got the prices of all these here and we know,—we have a number of lady members here and they will also certainly bear me out when I say that prices have gone up abnormally and it is time therefore that we looked into the cost of living of every individual. Sir, oil which used to sell at 10 annas per viss is now selling at Rs. 2-8-0 and ghee which used to sell at Rs. 1-12-0 and Rs. 2 per viss now costs three or four times more and sells at Rs. 6 or Rs. 7 per viss and even then we are not getting good ghee and as my hon. Friend says, it is adulterated. What about the rationed rice? Rotten stuff is being supplied to us now and again but we have to pay a much higher price to-day. Sir, the cost of living has gone up so much that it is absolutely impossible for Government servants to live with minimum comfort. You know, Sir, that the popular Ministry is very anxious to introduce prohibition. In the case of prohibition . . . (Interruption.) I am not talking of Excise. I just want to give it an example. In the case of prohibition, it was said, that the man who is supposed to get Rs. 2 per day spends 8 annas on drink and gets drunk and kicks up a row with his wife and starves his children. What about the non-gazetted Government servant? He is in the same position as a drunkard. (An hon. Member: 'Drunk with power.') He probably gets Rs. 80 a month, out of which he has to pay interest at the rate of 2 annas per rupee. There is the Pathan waiting at the door. He has to go home through the back-door. (Interruption.) I do not want to be interrupted, Sir. Sir, this Government servant gets Rs. 80 per month, out of which he gives 2 annas in the rupee as interest, i.e., Rs. 10 gone for interest; then he has to pay something for the capital, i.e., another Rs. 10 gone. With Rs. 60 the man goes home and kicks up a row with his wife. She says, 'How can I get on with this Rs. 60? There are the children waiting for medical treatment, there is no rice, no clothing.' The poor clerk behaves like a lunatic. Sir, I ask, what is the difference between this man and the drunkard? I only want the Hon. Premier to realize that men are all equal so far as living conditions are concerned. (Hear, hear.) It does not matter whether he is a poor man or whether he is a middle-class man. Every man has got his own demands. If the Government want to bring in prohibition to prevent the labourer from having his drink and to save him, the non-gazetted servants whose families are living miserably should also be given substantial relief to make

14th August 1946] [Sri P. Natesan]

them contented. Sir, they are the back bone of the Government. If these people non-co-operate, where will the Government offices be? What will the Secretariat do? Sir, the whole thing will go to pieces. That is why I say that the request of the non-gazetted officers should be thought of at once as seriously as possible. I know, Sir, that there was a Government communiqué this morning to say that one or two Cabinet Ministers and somebody else are going to form a sort of committee and that they will look into the matter and give their result as soon as possible. When is it going to be? This 'as-soon-as-possible' business may be months, it may be years. Sir, these people are threatening direct action. They are going to have a conference on the 25th at Saidapet. I want the Hon. the Premier to take notice of this attitude of the non-gazetted officers. Let us not make a mistake. It may be said that it will fizzle out. I do not think it will fizzle out. They are quite serious. Sir, this strike is a contagion. In Nagpur the Government officers have given notice of a strike. In Bombay the employees of the National Bank of India and in Bengal the Imperial Bank have gone on strike. All these people are having this contagion and they are quite right, because it is impossible for them to live comfortably.

"Sir, there is the Government Servants' Conduct Rules which says that insolvency or habitual indebtedness will entail the dismissal of a Government servant. If only this rule is strictly enforced, I am sure 75 per cent of the personnel will have to get out of Government service.

"Sir, during the Advisers' regime there was a proposal for building houses for these poor non-gazetted officers at Saidapet. The Advisers were good enough to provide as much as Rs. 17 lakhs for 162 buildings in Saidapet. The present Government has abandoned this scheme. (A voice: 'Shame.') I do not know why my hon. Friend says 'shame.' After all these were buildings urgently needed. It is alright for rich people who can afford bungalows. (Interruption.) I am told that the cry of 'shame' was in appreciation of my remarks. I really thought that the hon. Member was not in favour of the provision of Rs. 17 lakhs for these 162 buildings. I believe that tenders were invited for constructing these 162 buildings and that the work was about to be given on contract. Then it was withdrawn and God knows what happened to those tenders. I also understand that Collectors of various districts have given proposals for the construction of quarters in mufassal areas. Sir, I think it is necessary that we take all these matters into consideration and see what best can be done. Even in the case of the mufassal people it must be said without fear of contradiction that they form the very pivot of the administration and it is very necessary that their case also should be looked into. I need not take up the time of the House by putting forward a number of proposals and I only hope that the Hon. the Premier will take notice of the discontent at once and see that proper encouragement is given to the staff.

[Sri P. Natesan] [14th August 1946]

Even if it becomes necessary to increase the taxes, I say that the taxes will be paid by the very same Government servants although not directly by themselves but by their fathers or mothers or fathers-in-law. (Laughter.) I am sure, Sir, that the tax-payer will not grumble when he sees that the very foundation of Government is going to pieces. I am not saying that you should raise the taxes. I am only pointing it out to show that the prohibition and the khadi programmes are not so very urgent as this most important question. Because, if you are going to distribute khadi, etc., through these village officers and taluk officers, you must get the co-operation of all non-gazetted officers. Once they begin to non-co-operate, what happens to your schemes? I believe there are about 70 to 80 thousand non-gazetted officers and on an average if you give Rs. 5 to each one of them, the total cost would come to nearly a crore of rupees. But I am sure that that money can be found by the Treasury Benches. After all the very people who prepared this budget can prepare another budget providing for this increase in expenditure also. They know how to manipulate the figures. (Laughter.) Debit will go to the credit side and credit will go to the debit side and if the Premier asks, 'What is it you have done?' they will explain and say that this debit should have been a credit there and that this credit should have been a debit there, that there is nothing to worry and everything is all right. It is these non-gazetted officers who prepare the whole thing and pass it on through the Assistant Secretaries and Secretaries to the Hon. the Premier.

"Somebody has sent a chit here drawing my attention to the fact that the Government communiqué restricts the inquiry to people getting Rs. 200 and under and asks, 'What about the rest?' I consider that at least Rs. 200 is the minimum that one should get at the present moment. Well, people who draw more than Rs. 200 can manage for some time more. The poor Premier is pulled to pieces on all sides—strikes here and strikes there, murder here and looting there. I quite sympathise with him. But what can we do with these Government officers? We should give them some help. You see many of them wearing their 'distress' labels even here. You see them with their badges walking up and down under the very nose of the Premier, and they are thinking of taking drastic action. It is therefore time that we did something for them. I wish that the Hon. Premier should take my remarks in the spirit in which I have made them. I do not want to criticise his schemes; I only say that his schemes can wait and that these people should get their proper wages here and now."

* P. K. MOIDEEN KUTTY SAHIB BAHADUR:—"Mr. Speaker, Sir, I want to draw the attention of the Government to one or two points. I feel, Sir, that the whole land revenue system is rotten and the method of collecting the taxes is also rotten. First of all, Sir, the whole administration has become

[14th August 1946] [P. K. Moideen Kutty Sahib Bahadur]

top-heavy. I do not know what has happened to the pet theory of the abolition of the unwanted Board of Revenue. As far as the collection of taxes in the villages is concerned I think you may, in view of the threatened strike of the officers, try the experiment of collecting the taxes through the village committees about which you are so fond and thus lessen the cost of administration.

"The other point to which I want to draw the attention of the Government is the utter lack of representation of Muslims in the Revenue department in Malabar. Of course we have a Collector and he is a European. There are three Revenue Divisional Officers and none of them is a Muslim. There are ten taluks and one or two Muslims at the most we may have as Tahsildars at present. But as a result of the war we have had so many officers in the Revenue department—assistant tahsildars, deputy tahsildars and so on—and you will be surprised to know that in none of these cadres have we got Muslims. I request the Hon. Premier to see that justice is done.

"With regard to the salaries of non-gazetted officers I want to point out that this war has brought so many evils and corruption is one of them. The chief cause of corruption is mainly the poor remuneration that is paid to the non-gazetted officers and other low-paid officers. As far as officers who draw Rs. 250 or more are concerned, as my hon. Friend Mr. Natesan said, they can afford to wait for some time more. In this connection there is no use saying that there are not sufficient funds, because it is not like a family budget where you have to adjust your expenditure to your income. As far as Government is concerned it is their duty to find the necessary funds to run the administration. In fact you have what is called the Revenue Reserve Fund and you can draw on that Fund to meet very urgent demands like financing the increased cost of Government administration.

"There is another matter which is particular to Malabar district. There are lot of cases in the district of Malabar where superannuated men about to retire, have been given appointments by some corrupt Sarishtadar. Even lower division clerks have been directly promoted as deputy tahsildars. If you only enquire into the matter, you will come across a number of cases where the claims of very efficient and even upper division clerks have been overlooked and ignored simply because those old people who are about to retire want to get some more money by foul means and they were able to bribe these already corrupt superior officers like the Sarishtadar. These are the points which I wanted to bring to the notice of the Government."

* KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—"Mr. Speaker, Sir, it is customary in this House to have a serious important debate when the land revenue demand is moved. Sir, though I agree with the Hon. Minister for Revenue that it would be appropriate to raise the question of the pay of

[14th August 1946]

[Kumararaja Sir Muthiah Chettiyar of Chettinad]

the non-gazetted officers when the other demand is moved, I think that in view of the fact that a number of non-gazetted officers are working in the Revenue department, it will be equally appropriate to raise the question even on this demand. It will be particularly more appropriate at a time when the non-gazetted officers of this Province are greatly agitated if this question should be discussed on the first day itself. I think, Sir, that the House should be grateful to the Hon. the Premier, the Hon. Minister for Revenue and yourself for agreeing to allow hon. Members to express their views to-day on the question of the conditions of service of the non-gazetted officers. My hon. Friend Mr. Natesan has spoken wonderfully well on behalf of the non-gazetted officers and I do not think I will be able to improve upon the case he put forward. There is nobody in this House who wants to deny some help to the non-gazetted officers. I know the Ministry is anxious to give help, but how to give is probably engaging their attention. I am very glad that Government have already announced the appointment of a Committee. In the case of a labour union giving notice of strike, straightaway the Government appoint a conciliation board or arbitration court. But when the demand is made by the docile non-gazetted officers of Government even for their barest minimum needs, the thing is different. I am very glad that the Government have appointed a Committee of some Ministers to go into the question. The non-gazetted officers of this Presidency have earned a reputation for loyalty and efficiency for so many decades. Their reputation has spread not only in this Presidency but throughout the whole of India. Indeed the Madras Provincial Service and the Madras Subordinate Service are among the most efficient in the whole of India and I hope they will bear up with the administrators and the legislators of the country for some time more till they find out what are the proposals of Government with regard to their grievances. I am very glad, that very sensibly, they have, instead of giving a strike notice staged a mild demonstration, by wearing a badge which is of course a very effective demonstration. I do not think the Ministry and the legislators can have any grievance against the non-gazetted officers for wearing these badges which has helped to bring their grievances to the forefront.

"I need not take up the time of the House in dilating upon what should be a living wage and how the increased cost of living has made it difficult for the Government servants to make both ends meet. The whole thing centres round the cost of food and other necessities of life. The food crisis has come as a result of the war which has been going on for the last six years. There has been so much shortage of food throughout the world, more so in this part of the country. It is a well-known fact and we have had elaborate discussions on the floor of the House as to how to bring down the prices of foodstuffs and other necessities of life.

14th August 1946]

[Kumararaja Sir Muthiah Chettiyar of Chettinad]

"Sir, while Government should consider that it is their primary duty to look into the grievances of the non-gazetted officers, it is equally necessary that they should bring down the cost of foodstuffs and other necessities of life. It is only then that they will be able to have a balanced budget in the future. Otherwise, they will have to be only increasing their expenditure and increasing taxation. That we have got to subsidise food to the tune of so many crores is an index of the food problem. How serious the problem is can be seen from the fact that we have considered it necessary to subsidise food. It is absolutely necessary to subsidise food; otherwise, you will have to give more dearness allowance and more pay for the non-gazetted officers and the subordinate staff. Sir, I do hope that the non-gazetted staff of this Province will get a fair deal at the hands of this Government. They deserve all support; they deserve all consideration. Some members have also referred to housing schemes for Government servants. Sir, it is very essential that Government should provide houses for these people to live in until such time as they will save some money, probably at the end of their career, to build their own houses.

"Sir, while on the question of land revenue, I should certainly take this opportunity to mention what I feel about the present land tenure system. I see here a press note issued by the Hon. Minister for Land Revenue regarding the enquiry he has set on foot about ryotwari tenure. Sir, as for zamindari tenure, it is fresh in the memory of all of us here that there was an epoch-making report by our Hon. Prime Minister when he was Minister for Revenue nine years ago. Some members of this House who were members of the Assembly in 1937 to 1939 do remember vividly the discussion on the floor of the House over that Committee's report. Sir, much water has flown since those days and I do not think that to-day the zamindars are obstructive to any legislation that Government may bring forward. I am not here to put forward any special plea on behalf of the zamindars. But, Sir, it is not for the first time that I am saying this; on the floor of this House nine years ago, I asked the Government to consider the case of the zamindar and I do not therefore put any special plea to-day. The zamindars to-day are not asking for any special concessions. That is what I think. Let me not however take up the time of the House in going into the details of the zamindari legislation that is likely to come. Let me only hope that before any legislation is launched upon the Hon. the Premier will give the House full opportunity to have a full dress debate on the lines of the legislation that is to be thought of. I am very glad, Sir, that the Government are also considering the question of the other land tenures existing in the Province. I know, Sir, that when the Government take up the question of legislation relating to ryotwari tenure it will evoke more opposition from the mirasdars in the deltas of the Andhradesa and the Tamilnad than from the zamindars with

1 p.m.

[14th August 1946]

[Kumararaja Sir Muthiah Chettiyar of Chettinad]

regard to zamindari legislation. I am not able to know from this note, but I can imagine there must be many details to be gone through in the first instance. I am very glad that the Government are making this enquiry. Sir, I think it is very essential that an elaborate enquiry should be made even with regard to the ryotwari tenure before any legislation can be thought of. That is the only plea I would put forward to-day, and I think it is sufficient to stop there for the present.

“Sir, I heard a member suggesting the abolition of the Board of Revenue. It used to be said by the Congress Party for a long time before, that the Board of Revenue should be abolished, but they themselves did not abolish it. Sir, I am one of those who felt happy at the second decision of the Congress Party not to abolish the Board of Revenue. The Board of Revenue and the Revenue officials of this Province are about the best officials in the whole of the world, let alone India. It was said, when the Bengal famine took place, that it was mainly due to the inadequacy and inefficiency of the land revenue staff there. If we have been able to tide over the food crisis in this Province so far, the credit must go to a great extent to the land revenue staff who are carrying out the instructions of the Government of the day, whether it be the Advisers' regime or the present Ministry. We have an elaborate system of land revenue officials from the village karnam right up to the Hon. the Minister for Revenue; and it is a matter of gratification that this Province is fully equipped with such a staff. I think it will be a sad day when we give up the Board of Revenue; it may consist of three, four or five members, but that is a matter of detail; I will certainly put forward a plea for the existence and continuance of the Board of Revenue at least for the sake of efficiency and for the sake of carrying out the policy of the Government and the Legislature.

“Sir, let me wind up by saying that in respect of all proposals affecting the land tenures, whether it be zamindari or ryotwari, or relating to the amendment of the Malabar Tenancy Act, we do hope that the Ministry, before they actually bring forward Bills they would be good enough to put up a resolution on the subject for the discussion of this House, to elicit the opinions and views of the various interests and of members representing the various areas of this Province, so that Government may take note of the suggestions and consider useful amendments to the draft Bills which they may have in the archives of the Secretariat. I am sure that will go a great way to reduce discussion and amendments when such Bills are introduced in the Legislature.”

* SRI BOKKAI GOWDER:—“Mr. Speaker, Sir, in rising to speak on this Demand, I do not propose to speak on any cut motion that has been moved to-day; but I want to speak on the policy of the Government in regard to my native district.

[14th August 1946] [Sri K. Bokkai Gowder]

“Sir, the Nilgiris district has been entirely forgotten and neglected in regard to every aspect of the nation-building programme of the Government. The other districts are getting subsidies, grants, etc., but the Nilgiris district is ignored. The plight of potato on which most of the ryots subsist is miserable. The position is serious and the Government do not seem to give any heed to the representations made by the potato-growers and the ryots. It is just like Nero fiddling when Rome was burning.

“In regard to the marketing of potatoes, on the one hand there is control over the export of potatoes and on the other, there are no facilities given for marketing and transporting the produce to the various consuming districts. During the war years, the Government were advancing loans to the potato-growers which system has now been discontinued; and the result is that many of the potato-growers find it very difficult to continue their work and have gone into debts. I request Government that they should at least renew the practice of advancing loans for the cultivation of potato and other foodgrains. Sir, there is at present great distress in some of the districts which are deficit in rice. I suggest, Sir, that potato although it is a perishable foodstuff, is a substantial and valuable foodstuff; and so, it may be purchased by the Government and subsidised in the deficit districts of the Province. When the Government are subsidising food to the tune of about Rs. 10 crores, I think about 40,000 to 50,000 tons of potato may be purchased by the Government and subsidised and it may not be a great loss to the Government. I also request the Government to commandeer all the lorries, both private and public, to transport the potato from the Nilgiris to the various districts of the Province. With the threatened railway strike, the plight of the ryots will be worsening, and I therefore request the Government to see that this perishable foodstuff is moved to the consuming districts as early as possible and without any delay.

“Then again, Sir, I want to speak about soil conservation in the Nilgiris district. As you all know, the sub-soil is likely to be washed away during the time of floods. I therefore request the Government to see that some soil conservation scheme is initiated and carried out in this district.

“Again, Sir, there are about 24,000 acres of land lying idle in Ootacamund taluk known as Wenlock Downs which can be given over for cultivation, either by assignment or by lease. I hear the Government have reserved the land; for what purposes I do not know, if it is not for cultivation even in these days of “Grow more food” campaign. The Government should see that this land which is suitable for cultivation, is given over, either by assignment or by lease; or I suggest the Government may start sheep-breeding and cattle-farming in that area or see that a woollen industry is established there.

[Sri K. Bokkai Gowder] [14th August 1946]

“Sir, I want to say something about prohibition, but I shall wait for the Excise demand. With these words, I request the Government will consider the suggestions I have made just now.”

* SRI K. A. NACHIYAPPA GOUNDAR:—“Mr. Speaker, Sir, I rise to speak on this Demand with a view to draw the attention of the Government to the necessity for surveying all lands in the estates. As it is, most of the estates are not surveyed so much so the ryots are not able to have proper land records for their landed properties. This drives them to the necessity of going into good deal of litigation in which they are wasting a lot of money. Furthermore, these people are not able to get the benefit of loans from Land Mortgage Banks, because the Land Mortgage Bank loans are given only in places where there are proper survey and land records for the lands. Thus estate ryots who are a good many in number all over the Province, are put to great disadvantage on account of survey not being made in their areas. I therefore feel that the zamindars themselves should undertake a survey of their estates; and if they do not do it, the Government should press them and get it done. Irrespective of a decision on the question whether zamindari are to be left over with the Zamindars or taken over by Government, I wish that immediate steps should be taken by the Government to undertake a survey of zamin lands, and the ryots helped.

1-15 p.m. “Then, Sir, I would like to mention another point and that is in regard to the street survey in panchayat areas where we find a large number of buildings are constructed and the encroachments detected long after the construction and the buildings demolished, resulting in great inconvenience to the public in these areas. If action had been taken by the panchayat and the panchayat surveyors at the right moment, that is, when the buildings were taken up for construction, it would have avoided this sort of trouble. I would therefore suggest that an adequate number of surveyors should be employed under proper control and construction undertaken in these areas only after verification of the limits and on obtaining a licence for the construction of the building. In this way, the question of encroachments can be obviated to a very great extent and the people saved a good deal of trouble.

“Besides this point, Sir, I would like to say a few words on the question of land revenue. It has been found, Sir, that a good portion of the state revenue comes from the land in this country and that people who own the land are made to pay for all sorts of expenditure incurred in running the Government. Only during the last Congress regime, the Government had taken upon themselves to explore other avenues for increasing the revenue and brought in the sales tax. It was believed that this tax would bring some relief to the poor agriculturist who has been already groaning under taxation but it has not done so. We must at least hereafter give relief to the poor ryots who are unable to make their living by cutting down or even abolishing this tax on small and uneconomic holdings. As far as I know, I can say with confidence that if the sales tax is properly augmented and assessed by shutting out all the loopholes, it is bound to yield a very

[14th August 1946] [Sri K. A. Nachiyappa Gounder]

good income and from that Government can very well undertake major problems such as prohibition and the like and at the same time give some relief to the poor agriculturists as well. Furthermore, they can go a step further to tackle the problem of land revenue by converting this into one of agricultural income-tax to be paid by people who can afford to pay. In this way too great relief can be afforded to the poor agriculturist. I wish, Sir, that these things receive the consideration of Government.”

* SRI P. KAKKAN:—“சபா நாயகரவர்களே. ரெவினியூ டிபார்ட்மெண்டார் ஹரிஜனங்கள் விஷயத்தில் அதிக கவனஞ் செலுத்தினால்தான், ஹரிஜனங்கள் முன்னேற்றமடையமுடியும். இன்றைக்கு ரெவினியூ அதிகாரிகள் கிராமங்களிலேயுள்ள ஹரிஜனங்களைப்பற்றிக் கவனிப்பதே கிடையாது. கிராமங்களிலே ஹரிஜனங்களுக்காக ஒதுக்கப்பட்டுள்ள நிலத்திற்காக அவர்கள் பெடிஷன் (petition) போட்டால், அதை இந்த அதிகாரிகள் கவனிப்பதே கிடையாது. அது உங்களுக்காக ஒதுக்கப்படவில்லை. மற்றவர்களுக்காக ஒதுக்கப்பட்டிருக்கிறது,” என்று சொல்லிவிடுகிறார்கள். நன்கு வினியக் கூடிய நிலங்களை ஹரிஜனங்களுக்காக ஒதுக்கப்பட்டிருந்தும், அவைகளைக் கொடுக்க ரெவினியூ அதிகாரிகள் மறுத்துவிடுகிறார்கள். கனம் ரெவினியூ மந்திரியவர்களும், கலெக்டரவர்களும் இந்த விஷயத்தில் தகுந்த சிரத்தையெடுத்து கவனித்தால்தான், ஹரிஜனங்கள் முன்னேற்றமடைய முடியும்.

“இன்று கிராமங்களிலே நடப்பதற்குப் பாதை கிடையாது. இது விஷயமாக ரெவினியூ இன்ஸ்பெக்டர்ருக்குச் சொன்னால், அவர் ஊரார் மீது பழி சுமத்தி சுமமா இருந்து விடுகிறார். பிணம் சுவதற்குக்கூட சில கிராமங்களிலே சரியான மயாணக்கரைகள் கிடையாது. இந்த மாதிரி விஷயங்களையெல்லாம் ரெவினியூ டிபார்ட்மெண்டார் அதிக சிரத்தையுடன் கவனிக்கவேண்டும். இன்று ஹரிஜனங்கள் முக்கியமாக பொருளாதார விஷயத்திலே முன்னேற்றமடையவேண்டும். இது விஷயத்திலே ஜில்லா கலெக்டர்போன்ற பெரிய உத்தியோகஸ்தர்கள் சிரத்தையெடுத்துக்கொள்ள வேண்டும். இல்லாவிடில், கிராம உத்தியோகஸ்தர்கள் ஹரிஜனங்களுடைய நன்மையை நாடமாட்டார்கள்.

“இன்று எங்களுடைய தாலுகாவிலே ஒரு செட்டியாரின் நிலத்திலே அநேக ஹரிஜன விவசாயிகள் உழுகிறார்கள். அந்தச் செட்டியார் தன்னுடைய நிலத்தை “வாரத்திற்கு விட முடியாது; குத்தகைக்குத்தான் விடுவேன்,” என்று அவர்களுக்குச் சொல்லி வருகிறார். இத்தகைய விஷயங்களில் ரெவினியூ அதிகாரிகள் தலையிட்டு, ஹரிஜனங்களுடைய நன்மைக்கான காரியங்களைச் செய்யவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.

“அடுத்தபடியாக, நான்-கெஜட் ஆபீஸர்யைப்பற்றி ஒரு விஷயத்தைச் சொல்ல விரும்புகிறேன். நான் நேற்று அரியலூருக்குப் போயிருந்த போது, அங்கே அநேக சர்க்கார் உத்தியோகஸ்தர்கள் “பேட்ஜ்களைப் போட்டுக் கொண்டு ஆபீசுக்குப் போனார்கள். அவர்களைப்பார்த்து, “உங்களுக்குக் குறைகள் இருப்பது வாஸ்தவந்தான். ஆனால், இப்போது தான் ஜனநாயக அரசாங்கம் அதிகாரத்திற்கு வந்திருக்கிறது. ஆகவே நீங்கள் கொஞ்சம் பொறுத்துக்கொள்ளவேண்டும்.” என்று சொன்னேன். அரியலூரில் உள்ள ஒரு வக்கீல் ஆபீஸ்களிலே லஞ்சம் தாண்டவமாடுகிறது. அதை நாம் முதலில் ஒழிக்கவேண்டுமென்று பொதுக்கூட்டத்தில் சொன்னதற்காக அந்த வக்கீலை தம்முடைய ஆபீசுக்கு வரக்கூடாதென்று முன்சீப்கோர்ட் ஹெட்கிளாரிங் ப்யமுறுத்தினார். அவர்களில்லாவிட்டால் அந்த ஆபீஸை நடத்த முடியாதென்று இந்த உத்தியோகஸ்தர்கள் சொல்லுகிறார்கள். இவர்களுடைய மிரட்டலைக்கண்டு நாம் பயப்படப்போவதில்லை. அவர்களுடைய மிரட்டலுக்கு இடங்கொடுக்காமல் காரியங்களைச் செய்யவேண்டுமென்று அரசாங்கத்தைக் கேட்டுக்கொள்ளுகிறேன்.

* SRI M. G. NATESA CHETTIYAR:—“Mr. Speaker, Sir, I just want to speak on one or two facts in respect of the administration of the Zamindaris and the appointment of village officers and the collection of land revenue by the zamindars. I need

[Sri M. G. Natesa Chettiyar] [14th August 1946]

hardly mention to the House, Sir, that there are varieties of zamindari system. There is one variety which goes by the name of Zamindari Estates purely entrusted for revenue collection and there are certain other estates which were handed over by the British East India Company for reclaiming forest tracts and encouraging agricultural industry. A foreign Government or foreign company had arranged with such sets of people to fix their terms of payment of peshkush permanently and to get their revenue assessed. This was done merely to facilitate the collection of revenue easily and for other administrative conveniences. That set of people were asked to improve the lands by getting tenants from outside, finance them and make them settled in the tracts and estate villages, develop the land and add to the agricultural wealth of the country. It was done duly by these set of people and thus they helped the agricultural industry by investment of money, time and energy. Well, Sir, the commercial system on which the land revenue system of the country was based, was certainly a profitable concern not only administratively, but also executively and financially. Sir, these zamindars were asked to administer, to look into the assignments, look into the construction of tanks and buildings, look into repairs and other things pertaining to the agricultural industry; and they carried on certainly to our advantage as things stood then. It was for this purpose that the zamindari system was established and rightly or wrongly these set of people who got these estates treated it as property and hold it as such up-to-date and many investments had been made by money-lenders. Now the time has come—as the system has been played out—when the zamindari system must go. It must go, not because it is uneconomic for the Government but on economic grounds of tenancy and the growth of agricultural industry. We are now here, Sir, to administer them and bring into existence one system of land revenue throughout the Province. These zamindars who have been considering these estates as their own property, must also submit themselves to the interest of ryots for an uniform system of land revenue. I know some of them are prepared. That does not mean that they will be treated improperly; they are not foreigners; they are not our enemies, but they are our own people and if there is going to be any abolition of zamindari or any other vested interest, they must not be exploited by mere names and slogans and must be compensated for what they are entitled for their labour and interest.

“Again, Sir, in respect of the nomination of village officers, there is what is called the hereditary village officers and these nominations have to be proposed by zamindars. This hereditary system has been in vogue and usually followed even in the non-hereditary districts whether the village officers have passed their tests or not. I suggest that for better administration it is absolutely necessary that these village officers should not claim any hereditary right or plea unless they are trained and pass their tests. These details should be looked into by the Revenue officers when the nominations are proposed by the zamindars.

[14th August 1946] [Sri M. G. Natesa Chettiyar]

“In regard to survey of estates, I have very many things to say. No doubt we want to know what exactly is the area under cultivation, what are the porambokes in particular zamindari areas and so on. In order to give facilities for tenants in zamindari areas also as in the case of ryotwari tenants it is necessary that these estates must be immediately surveyed and the areas brought into account. The survey must be recognized so that, as my hon. Friend Mr. Nachiappa Goundar has pointed out, the ryots in the zamindari areas also may be enabled to obtain all the facilities from the Land Mortgage Banks and other institutions which are available to the ryotwari tenant.

“As regards collection of land revenue from the zamindari areas, I feel, Sir, that it is a great nuisance. I am one of these zamindars who directly deal with the tenants. They know me and I know their lands. They know my inclinations. In view of the personal attention and personal obligations which the zamindars and tenants owe to each other, the tenants should not be treated as servants. As a matter of fact, in my own house, I feed them as members of my household, and they are treated as cultivators of our own land and we gave them almost every facility that is required by them. Probably there are troubles in Northern Circars or in other rich zamindari tracts. Though I belong to that community, fortunately or unfortunately—I can say that many of the zamindars in southern districts consider the tenants as their equals and they are one among the tenants. There are no such differences in treatment and the tenants' lot is better and is not subject to treatment of the kind talked about on the floor of this House. In the collection of revenue, there is trouble, and suits have to be filed and the proceedings go on for months and years. . . .”

* Mr. SPEAKER:—“The hon. Member can continue his speech after lunch. The House will now adjourn for lunch and meet again at 2-30 p.m.”

(After lunch.)

VII. ELECTION OF MEMBERS TO PUBLIC ACCOUNTS COMMITTEE.

* Mr. SPEAKER:—“This morning I told you that I would make an announcement regarding the Public Accounts Committee.

“I have to inform the House that the following candidates have been nominated for election of nine Members of the Committee on Public Accounts for the first session of the Madras Legislative Assembly:—

1. Sri K. Raghavan.
2. Sri B. Anantachar.
3. Sri M. Bapineedu.
4. Sri N. S. Varadachari.
5. Sri K. A. Nachiappa Goundar.
6. Sri A. Aaron Rao.
7. Mr. W. J. Fernandez.
8. D. Abdul Rawoof Sahib Bahadur.
9. Abdul Hameed Khan Sahib Bahadur.

[Mr. Speaker] [14th August 1946]

“As the number of candidates is equal to the number of vacancies to be filled, namely, nine, I hereby decide them to have been duly elected to the Committee on Public Accounts.”

VI. DEMANDS FOR GRANTS FOR 1946-47—*cont.*

DEMAND I—LAND REVENUE—*cont.*

* SRI M. G. NATESA CHETTIYAR:—“Mr. Speaker, Sir, the matter of collection of land revenue has become a very difficult affair. It is not quite easy to collect the revenue directly unless these zamindars serve on every tenant a notice in writing but during the period of scarcity of paper, it has not been possible to do so and if and when resorted to courts for collections, it takes years and years. I have personal experience in this matter of revenue collections and I may tell you that in my own office there are decrees worth about Rs. 80,000 in an estate where the total annual revenue collection amounts to Rs. 40,000. Unless these revenue collections are made easier, I am afraid, payments to Government will also be affected. I know of several cases of default due to want of proper investment of power in respect of revenue collections, and their staff, every zamindar is involved in debt and the tenant is also subject to hardships. I may personally apprise the House that the zamindars of Tamilnad are not as leisure-loving as the zamindars of the other parts of this Presidency and their indebtedness is mostly due to difficulties in collecting the revenue from the tenants.”

* MR. SPEAKER:—“This morning you have taken more than ten minutes. I will give you only two more minutes to finish your speech.”

* SRI M. G. NATESA CHETTIYAR:—“I just want to impress on the House and on the Government about the handicaps in the matter of revenue collections. They should be immediately done away with and both in the interests of the zamindars and the tenants, compulsory survey should be introduced as early as possible.”

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—“On a point of order, Sir, the other day you asked the Parliamentary Secretary not to read newspapers in the House. Now, I find a member spinning in the Assembly.”

* MR. SPEAKER:—“Mr. Vaidyanatha Ayyar, will you kindly discontinue your spinning. You are here to listen to the speeches and this is not the place to do Thakli work.”

* SRI A. VAIDYANATHA AYYAR:—“Sir, I think it is not the hand that hears but the ear that hears.”

* MR. SPEAKER:—“Parliamentary etiquette requires that members should listen to the speeches and not do any other work.”

* SRI A. VAIDYANATHA AYYAR:—“Excuse me, Sir, I thought I was carrying out the Ministry's programme.”

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—“Mr. Speaker, Sir, the fact remains that the land revenue system as it exists to-day in our Province and in fact in some of the other

14th August 1946] [Muhammad Raza Khan Sahib Bahadur]

provinces in this country is a legacy left to us by the East India Company. In those days, as you are aware, their main concern was to collect taxes and do policing in this Province. Now things have changed and the present situation demands that the whole system should be overhauled and changed thoroughly and a new system introduced. No doubt attempts have been made during the past so many decades to make certain improvements but those improvements were not on a provincial basis but only on a district basis. The system in Tamilnad differs from what it is in Malabar. I do not know whether it is the same system or something different in other districts. Now that you are trying to change the whole system, we should remember that in regard to the question of land revenue, which has been the main source of revenue in this Province, we should see that the burden is shifted from this class of people to other classes who are in a much better position to pay. After all, in the course of a century, our main concern was to collect taxes from this class of people without giving them the benefit which they deserved. Therefore, Sir, I am sure the Hon. the Minister for Revenue, while introducing the Bill regarding the revision of land revenue system, will bear in mind that a new and thorough system is required which will be in keeping with the present situation.

“Sir, another point on which I would like to draw the attention of the House is in regard to the non-gazetted officers. True it is that the Hon. the Minister for Revenue has said that he is concerned only with Government servants in his department. Therefore, it will not be in the fitness of things to deal with that question as it affects the different departments. But, however, as the question has come up before the Assembly, I may say that we, members of the Muslim League, are one with you in seeing that justice is done to this class of servants. They deserve our sympathy, fullest sympathy. At the same time, we, the members of the opposition, do appreciate the fact that the Hon. the Premier and the Ministry are doing the best in the matter and they can see that justice is done to them. At the same time, whatever may be their rights, whatever may be their justification, we must not allow the non-gazetted officers to precipitate matters. They have submitted a memorandum; they have brought the matter to the notice of the Assembly; they have brought the matter to the notice of the Ministry and we can assure them that justice will be done to them, but for God's sake, let them not follow the methods adopted by other associations, organizations and other trade unions.

“Sir, in passing, I may say that although it does not deal with the subject, these are days when we are facing so many troubles, so many difficulties. Really we have sympathy with the Hon. Ministers and particularly with the Prime Minister. Now we see a number of strikes all over the Province. Of course troubles there may be. But those leaders who are engaged in these strikes instead of giving a sort of warning and drawing your attention to sufferings of the lower-paid classes and others, are fomenting some trouble or other in

[Muhammad Raza Khan Sahib Bahadur] [14th August 1946]

the services. They are not doing real service but they only want to make political capital out of this. It is not fair to make political capital out of miseries of the poor people. No doubt their demands may be justified and may be reasonable but there is a way of getting redress for them. Let them not feel that by launching out strikes their demands will be met; on the other hand, they are only doing a positive disservice to themselves. Therefore it is not playing a fair game.

“ Sir, I feel that the Hon. the Revenue Minister has to give us an indication of his policy clearly with regard to the land revenue system and what changes he contemplates in the policy, because this thing deserves the attention of the Ministry and something should be done in this connection. There is not much more to speak on this subject, except as I said in the earlier part of my speech that measures have to be undertaken to see that the class of persons do get what they have to and what they deserve.”

* SRI KALA VENKATA RAO:—“ Mr. Speaker, Sir, after hearing the speech made by my hon. Friend, Mr. Abdul Hameed Khan, I am glad to note that he has become rural-minded; but having become the representative of the rural areas, now, I am sorry to note that he has not changed his angle of vision. He more than once said that the present Government is bullock-cart minded. But when zamindars are themselves prepared and willing to part with their estates, Mr. Hameed Khan is so much bullock-cart minded that he wants to retain them and reform them. My hon. Camrade, Mr. Venkateswaralu said, that the top limit for owned land for the existing pattadar should be hundred acres. I do not know how many Communist friends do own hundred acres. But I own only 25 and so I do not fear much from that quarter also.

“ Well, Sir, in spite of these things, it is difficult to carry on the reform of land revenue. The agrarian policy of the state must combine and solve all the three problems together—the problem of tenure, the problem of tenancies and the problem of taxation—and unless all these are tackled together, there cannot be any desirable progress in the agrarian position in our country. The present system as is well-known, is exploitative and inefficient. The system saps initiative; it obstructs economic progress and leads to inequitable distribution. In India, we have got three systems—zamindari, ryotwari and Melguzari. All these systems resulted in destroying the communal responsibility in the village and brought about a revolution in rural economy which went against the tradition of this country, whose culture and tradition spread back to more than 3,000 or 4,000 years. After 150 years of this revolutionary change we have to aim at and bring about another revolution in land reform today. This revolution must suit our age and our needs. This must be directed towards sociological ends, and for creating happy homes in villages. Well, Sir, tenure is the relationship between the Government and the landlord—let it be the zamindar or the ryotwari pattadar. Regarding tenures, the latest position is the demand

14th August 1946] [Sri Kala Venkata Rao]

for the abolition of the zamindaris. I need not argue on this question. More than once it has been advocated by me and many others on the floor of this House.

“ The problem of tenancy arises when the land owner lets out his land to someone else (tenant) on terms defined by contract or custom. A tenant is his own manager, a little bit of an entrepreneur too. His reward fluctuates according to crop, outturns and prices. But the agricultural labourer receives a wage and works under another's supervision and control. He has no right to land like the landlord or to the product like the tenant. Tenancy legislation is the paramount need of the hour and such legislation must accomplish fixity of tenures, determine fair rents and also provide for free transfers of land. Till now all tenancy legislation has tried to do away with the gross abuses of the unprotected tenantry that were prevalent at the time. The legislation was not based on fundamental principles bearing on the questions I have referred to. The first item of the programme of the Ministry of whose party I am a member is to bring about tenancy reform that will be revolutionary in character. Lands should not be allowed to pass from the actual cultivators to mere rentiers. The urban man, the industrialist and the retired official, all try to invest their money on lands and try to deprive the cultivator of his land. Now, Sir, it is calculated that 70 per cent of the cultivated land in this country is being cultivated by people who do not actually own that land. This is a thing which requires quick reform. The owners, many of whom are absentee landlords do not discharge their economic functions. Tenancy is increasing and rents are increasing. Alienation is increasing and farming is rapidly becoming uneconomic and unremunerative. Therefore, I say that the system of ownership should be made the foundation of rural economy. It is useless and impossible to improve agricultural methods without introducing this reform. Mr. R. H. Tawney, speaking of China, which resembles our country in many ways, says:—

“ It is idle to preach that doctrine (the doctrine of improved agricultural methods) to cultivators so impoverished by the exactions of parasitic interests, that they do not possess the resources needed to apply it.”

Therefore, improved methods of agriculture which will bring about increased outturn must be preceded by the reconstruction of the entire land system of the Province and then modernization of both the technique and the business side would follow automatically. There should be no landlord and no agricultural labourer in future in this Province. There must be only the Government and the cultivating tenant and that cultivating tenant should be the owner, the manager and the labourer, all combined into one. Agrarian problems can be solved if this is brought about.

“ Now, I come to the question of land taxation. I stated when I spoke on the occasion of the general debate on the Budget, that land revenue should represent the share claimed by the State in

[Sri Kala Venkata Rao] [14th August 1946]

the yield of a land with due regard to the taxable capacity of the party paying it. This would imply that uneconomic holdings should be exempt from taxes and that the principle of progression should be introduced into the system. There should be elasticity of procedure and of making the burden equitable, taking in view diverse climatic conditions and price factors. In the Punjab, you know, Sir, a maximum tax is fixed on the land but that need not be paid every year as it will vary according to price levels obtaining in a particular year. This system is in vogue in the Canal Colonies of the Punjab. I think it would be better if we have a basic land tax, to which may be added the agricultural income-tax. Every piece of land will have to pay a basic land tax and in the case of a person with more land than a stated upward limit and an outturn exceeding a certain figure, he may be made to pay also on his agricultural income. I think this would suit the conditions of our country today. There is also a fear in certain quarters that, if an agricultural income-tax is introduced the burden will be shifted to the cultivating tenant by way of a higher rent. Legislation to meet this position must be undertaken and the share of produce that has to go to the actual cultivator will have to be fixed. We may remember that the previous Ministry gave remission to the tune of 75 lakhs of rupees in the land revenue assessment of the Province. This year's Budget does not contain such a provision—it ought to have found a place there—but let me hope that by the time the next Budget is introduced, I think the Hon. the Premier would try to announce a percentage cut in the present assessment. For my part I would suggest a cut of 33-1/3 per cent of the present tax schedule. I would plead that bits of land paying an assessment of one rupee or less should be exempt from assessment. I would like also to advocate the abolition of consolidated wet assessment. There should be a basic dry rate and the water-rate should be added to it. The water-rate should depend upon the amount invested upon that particular irrigation work if it can afford to bear it. Even as early as 17th December 1856, the Board of Directors decided in paragraph 13 of their report, that there should be a separate rate for water. This was approved by the Secretary of State on 18th December 1857. On 12th March 1858, the Government of Madras finally directed that a separate water-rate should be levied. But subsequently these two seem to have been combined and, therefore, we see that a number of difficulties have arisen. I would, therefore, plead that the water-rate should be a differential rate, added to the basic rate of land assessment.

“I wish to say a word or two about lanka lands. By their very situation, they are liable to erosion and the area under cultivation will not be the same always. There should be a comparative reduction in rates or bid amounts in case of erosion. I would plead for a comprehensive legislation for affecting the reforms I have mentioned. As an immediate measure, I would suggest the abolition of the Board's Standing Orders and with them their authors, the Board of Revenue. I am not sure of the grounds upon which my hon. Friend Mr. Muthiah Chettiyar wants this

[14th August 1946] [Sri Kala Venkata Rao]

archaeological find to be retained. I feel that there is no need for it. On the other hand more efficient work can be turned out and better administration can be ensured without the Board of Revenue.

“My feeling about departmental enquiries by individual officers is that they will be no good, however efficient they may have been as officers. One cannot expect them to be progressive. If any comprehensive legislation is wanted the departmental official's report would be found lacking in so many respects. How can you expect a Rao Bahadur to take a progressive view of things and look at them from the angle of an ordinary person demanding agrarian revolution? If reforms are contemplated on questions of taxation or of tenancy, what will serve the purpose will be a committee of the House or a committee appointed by the Government, which can report in a month or two. I plead for early legislation by the Government.

“I have to say a final word about the village officer. I am glad that the question of the salary of the village officers and servants is also under consideration and I plead that something should be done for them at an early date. I plead, Sir, for the welfare of the tenant, for the agricultural labourer, for the village and its officers and for the welfare of this country. Sir, I support the demand.”

* SRI S. NAGAPPA:—“Mr. Speaker, I rise to support the demand moved by the Hon. the Minister for Revenue and in supporting the demand, I have to make a very few suggestions. First of all, I would urge upon the Hon. the Minister the abolition of the Board of Revenue. It seems to me that this Board is functioning only as a sort of post office and every paper that is sent through it lies there for not less than three months. I can say and the experience of some of my hon. Friends bears this out that every paper that is sent through the Board lies there from three months to one year. In the interests of the Government as well as in the interests of the public as also for expediting disposal of pending matters, I suggest that the Board be abolished.

“The next point is the question of cultivable waste lands lying uncultivated. I come to understand from an answer given to my question No. 94 that the total area in compact blocks of 50 acres and above is about 748,000 acres. Of this an area of 94,000 acres only has been brought under cultivation in connection with the ‘Grow More Food Campaign’ during the Advisers' regime. I request the Hon. the Minister for Revenue and the Government to see that the whole of the waste lands is turned over to cultivation by distributing them among the landless poor. In view of the present food situation and the need for procuring more and more food, it is highly necessary that we entrust the cultivation of these lands to agricultural labourers and the landless poor.

“I have one thing to be brought to the notice of the Government in connexion with the lanka lands. I am thankful to my hon. Friend who preceded me (Sri Kala Venkata Rao) for having

[Sri S. Nagappa] [14th August 1946]

raised the question on the floor of the House. These lands were for the most part leased to Harijans but during the Advisers' regime orders seem to have been issued to the effect that fishermen also could be given the lands for purposes of cultivation. I bring to the notice of the Government that cultivation is not a thing to which anyone can take to with ease. One requires experience and a lot of it to make a successful cultivator. The work of the fishermen is not akin to agriculture and his profession is fishing, for he cannot make a successful cultivator. I suggest that instead of entrusting these people with lands for cultivation purposes, it would be better if the old system of giving the lands to Harijans is reverted to.

"Hon. Members have been urging that the zamindari system should be abolished and there is a great degree of unanimity about it. At the same time, I wish to urge upon the Government to see that the tiller of the soil becomes the owner of the soil also and enjoys absolute ownership of the soil. My hon. Friend is saying that it is so already; I do not know who the owner of the soil is in his zamindari; probably he means his farm-servant whom he is treating as his slave. My suggestion is that so long as he tills the soil and raises crops, he must be considered to be owner of the soil and he should be furnished with documents like the patta, etc., to show that he is the owner of the soil. It has also been stated by certain hon. Members that a man might be allowed to possess undisturbed about one hundred acres of land. In my opinion, it is not possible for any agricultural labourer to cultivate more than 20 acres of dry land and 5 to 10 acres of wet land. My contention is that no man should have more than 20 acres of dry land and 10 acres of wet land.

3 p.m. "I request Government to bring forward legislation to that effect. To-day agricultural labour is ill-paid; there is nobody to look after its interest, and so we have a number of strikes as regards wages. Whenever cash payment is beneficial to the landlord, he insists on cash payment to the tenant, and whenever payment in kind is beneficial to him he pays only in kind. I want Government to bring in legislation to regulate this payment. Government must also establish a wage board or arbitration board to settle disputes between the landlord and the agricultural labourer, so that the interests of both may be safe.

"Now, as regards revenue collection, it is now entrusted to village officers. We know the tyranny of these village officers. If I were to bring to the notice of Government their actions, they will be surprised to note them. For example, they do not inspect land at all. Without inspecting the land, they give accounts of land under cultivation. Actually several plots will not be under cultivation. If anybody asks them why they made that sort of report, they coolly would reply 'you cultivated it last year; you should have cultivated it this year also.' In the name of cultivation of poramboke land, hundreds and hundreds of poor peasants are penalized and asked to pay penalties. Last year, in

[14th August 1946] [Sri S. Nagappa]

Kurnool district, thousands of rupees were collected in the shape of penalties under this head. If you want really to prohibit cultivation of poramboke, why not do it in the beginning, that is, when the ryot begins cultivation, which usually happens at the commencement of the agricultural season.

"As regards the hereditary system of the village officers, it should be abolished. For you do not know what sort of tyranny and power these people are exercising. Now that village committees are formed, it would be better if the responsibility of the karnam is removed. At present what the karnam says about crop outturn is gospel truth. As it is, he is causing a good deal of trouble by giving a wrong estimate of the yield. Practically, what he calls a six anna crop, or eight anna crop, will be worth nothing at all. Government should see that the karnam is made to give a right estimate of the yield. Most of his reports are exaggerated reports. The village committees may be asked to attend to this work.

"Now, Sir, it would be better if the present system of land revenue is abolished; and in its place agricultural income-tax is levied. Thereby Government will be improving the lot of the ryots, especially those who are owning small extent of land. Ryots owning eight to ten acres should be exempted from any agricultural income-tax, as they are only leading a hand-to-mouth life. If you want to establish an equitable revenue system, you should abolish the present revenue system. Finally, Sir, I would appeal to Government to issue orders at least this year not to penalize people for cultivating poramboke lands. With these few words I urge on Government to bring in legislation to set up a wage board."

* SRI N. ANNAMALAI PILLAI:—"கனம் தலைவரவர்களே, கனம் அங்கத்தினர்களே, இன்றைக்கு ரெவினயூ மான்யத்தைப்பற்றி பேசுகின்ற நிலையில் நான் சில வார்த்தைகள் சொல்ல விரும்புகின்றேன். நெல் வருமானத்தைச் சரியாக சரிக்கட்டுவதற்கும் விருத்தி செய்வதற்கும் போதுமான வழியை இப்பொழுது உடனடியாக கண்டுபிடிக்க வேண்டியிருக்கிறது. இம்மாதிரி நெருக்கடியான சமயத்திலே காங்கிரஸ் மந்திரி சபையை ஏற்றுகொண்டிருக்கிறது. எங்கு பார்த்தாலும் பசி, பிணி, எங்கு பார்த்தாலும் கூட்டம், வேலை நிறுத்தம், ஒரே கூக்குரலாக இருந்துகொண்டிருக்கிறது. இந்த சமயத்தில் காங்கிரஸ் பதவியை எத்தகொண்ட வேலையை சமாளிப்பதற்கு இந்த சபையிலுள்ள அங்கத்தினர்கள் எல்லோரும் அதற்கு உதவி செய்தாலொழிய சரியாக நடைபெறுது. இப்பொழுது ஜனங்களுடைய தரித்திரத்தைப் போக்குவதற்கு தகுந்த வழியைத் தேட வேண்டும். இதைச் செய்வதற்கு பிரதம மந்திரியவர்கள் லாண்டு ரெவினயூ திட்டத்தை தயாரித்திருப்பதோடு கூட இன்னமும் அதில் மாறுதல்களைச் செய்வார்களானால் ரொம்ப சீக்கிரத்தில் இந்தக் கஷ்டம் தொலையும். இப்பொழுது நெல்லு கிடைப்பது கஷ்டமாக இருக்கிறது, விவசாயம் நடத்துவது கஷ்டமாக இருக்கிறது, விவசாயம் செய்யாமல் போனால் நெல்லு, கம்பு கிடைக்காது, விவசாயத்தைச் செய்வதற்கும் கிணறு வெட்டுவதற்கும் சர்க்கார் கிரான்ட் கொடுத்திருக்கிறார்கள். கிணறு வெட்டும் வேலை சரியாக நடைபெறாமல் ஸ்தம்பித்துப்போயிருக்கிறது. கிணர் வெட்டுவதற்கு ஆள் கிடைப்பது கஷ்டமாய்விட்டது. இப்பொழுது கொடுத்திருக்கும் கிரான்ட்களுக்கு கிணர் வெட்டி முடிய இன்னம் வெகுநாளாகும். கிணர் வெட்டி தான்யம் தயார் செய்து தற்போதுள்ள கஷ்டத்தை போக்குவதென்பது முடியாத காரியம். ஆகையால் விவசாயிகள் கிணறுவெட்டுவதற்கு முடியாத

[Sri N. Annamalai Pillai] [14th August 1946]

நிலைமையில் இருக்கிறார்கள் என்பதை நான் தெரிவிக்கின்றேன், கிணறு வெட்ட ஆள் கிடைக்கவில்லை. அரசாங்கத்தார் உடனே இந்தப் பொறுப்பை ஏற்றுக்கொண்டு கிணறு வெட்டுவதற்கு ஆட்களை அரசாங்கத்திலே வைத்து கிணறு வெட்டிக்கொடுத்தால் சீக்கிரத்தில் தானிய உற்பத்தியெய்ய முடியும். அதனால் கஷ்டம் நிவர்த்தியாகும். ஒரு உதாரணம் நான் உங்களுக்கு இப்பொழுது எடுத்துச் சொல்லுகிறேன். 2, 3 திணங்களுக்கு முன்னே ரெவின்யூ இலாக்காவிலுள்ளவர்கள் பிரசாம் செய்யப்படாத அதிகாரிகள் இந்த மாகாணம் பூராவிலும் ஒரு ஊர்வலம் நடத்தினார்கள். தங்களுக்குச் சம்பளம் போதவில்லை, கஷ்டம் அதிகரித்துவிட்டது; உணவு தானியங்கள் கிடைக்கவில்லை; அதனால் இனி சமூகிக் முடியாதென்பதாக தங்களுடைய கஷ்டத்தை வெளிப்படுத்தினார்கள். இது ஒரு வகையிலே காங்கிரஸினுடைய நிர்மாண திட்டத்தில் ஒரு வேலை வெற்றி பெருவதற்கு ஒரு படி மேலே போயிருக்கிறது. 1921-ம் வருஷத்திலே மகாத்மா காந்தி சட்ட மறுப்பு ஆரம்பிக்கிற காலத்தில் எட்டு திட்டங்களைச் சொன்னார். அதில் ஸர்க்காரிலுள்ள உத்தியோகஸ்தர்கள் வேலையை விடவேண்டுமென்று ஒரு திட்டமுண்டுருந்தது. அந்தக் காலத்திலெல்லாம் அதிகாரத்திலே இருந்தவர்கள் அது ஏதோ பைத்தியக்காரத்தனமான காரியம் ஏதோ காந்தி சொல்லுகிறார் அது பயனற்றதென்பதாக என்னம் செய்தார்கள். என்னி நகையாடினார்கள். அவ்வியக்கத்தை அடக்க சர்க்கார் பல மாறுதல்களைச் செய்துவைத்தார்கள். சர்க்கார் ஊழியர்களும் அதற்கு உதவியும் செய்துவந்தார்கள். ஆனால் இன்றைக்கு அவர்களே சத்யாக்ரகம் செய்கின்ற முறையிலே சாத்வீகமாக தங்களுடைய கஷ்டத்தைத் தெரிவிக்க வெளியே வந்து போர்களைக்கழுத்தில் மாட்டிக்கொண்டு நெருத்திக் வாசுச் சுற்றிவருகின்ற நிலைமை ஏற்பட்டிருக்கிறதென்றால் அதில் அதிகாரிகளைக் குறைவு படுத்தவோ அல்லது ஒருவித அதிகுப்தியைப் பறப்பவேண்டுமென்ற எண்ணத்தோடு அப்படி ஊர்வலம் வருகிறார்களென்று சொல்ல முடியாது. 'குடை நிழலிலிருந்து குஞ்சரமூர்த்தோர் நடை மெலிந்தோரார் நன்னிலும் நன்னுவர்' என்ற மாதிரி, யானைமீது குடை பிடித்துக்கொண்டு ஊர்வலம் வரக்கூடிய அரசனாக இருந்தாலும் ஒரு காலத்தில் கால் நட்டையாகப்போகும்படியான காலம் ஏற்படும் என்று ஒரு பெரியார் சொன்னார். அதுபோல இப்பொழுது இந்த ராஜதானியிலுள்ள விளம் பரம் செய்யப்படாத அதிகாரிகளெல்லாம் தங்களின் கஷ்டங்களை காங்கிரஸ் அரசாங்கத்திற்குத் தெரிவிக்கவேண்டி ஊர்வலம் நடத்தினார்கள். இந்த நிலைமை ஏற்படவேண்டுமென்றால் அதில் என்ன விசேஷமிருக்கிறது என்று கவனிக்கவேண்டும். சகிக்கமுடியாத கஷ்டம் நாட்டில் ஏற்பட்டு விட்டது. உயர்ந்த வாழ்க்கையில் இருக்கக்கூடியவர்கள் உத்தியோகத்தில் இருக்கக்கூடியவர்கள், நடு வீதியிலிருந்து பசி பசி என்று வெளியே கிளம்புவார்களானால் கிராமந்திரங்களில் இருக்கின்ற ஏழைகள் கோடிக் கணக்கில் மடிந்துக்கொண்டிருக்கிறார்களென்றதான் அருத்தம் செய்ய வேண்டும். இந்தக் கஷ்டத்தைப் போக்குவதற்கு வேண்டிய நடவடிக்கையை நாம் உடனே எடுத்துக்கொள்ளவேண்டும். பாரதியார் 'தனி ஒரு வனுக்கு உணவிலே யெனில் ஜகத்தினை அழித்திருவோம்' என்று சொன்னார். அதிகாரத்திலிருக்கின்ற, ரெவின்யூ இலாக்காவிலிருக்கின்ற உத்தியோகஸ்தர்கள் பல உயர்ந்த சம்பளம் வாங்கப்பட்டவர்கள் கூட அந்த ஊர்வலத்தில் வந்தார்களென்றால் அதனுடைய பொருள் என்ன? ரெவின்யூ இலாக்காவிலிருக்கின்ற தாழ்ந்த சம்பளக்காரர்களுக்கு இவ்வளவு கஷ்டமிருக்கிறது என்பதை காட்டவில்லையா? 2 படி 1½ படி அரிசியிலே உயிரை வைத்துக்கொண்டிருக்கிறார்கள். இது சகிக்கமுடியாததாக இருக்கிறது. அவர்களுக்கு சம்பளம் உயர்த்தி கொடுக்கவேண்டுமென்று ஊர்வலத்தில் கலந்துகொண்டிருக்கிறார்களென்று நாம் நினைக்க வேண்டும். பாரதியார் சொன்னதுபோல் ஒருவனுக்கு உணவிலேயென்றால் அவனை போஷிக்க நாங்கள் ஆதரிக்கத் தயாராக இருக்கிறோமென்று எடுத்துக் காட்டுவதாகத்தான் நினைக்கவேண்டும். அவர்களுடைய குறைகளை நிவர்த்தி செய்யவேண்டியது அரசாங்கத்தினுடைய கடமை. அவர்களுக்கு நிவர்த்தி செய்ய வேண்டுமானால் பணம் கொடுத்து உதவ வேண்டும், சம்பளத்தை உயர்த்தித்தான் ஆகவேண்டும், சம்பளத்தை உயர்த்துவதற்கு வருவாய் இல்லை ஜனங்கள் மீது வரி போடவேண்டியிருக்கும். வரி போட்டால் ஜனங்கள் கொடுக்கமாட்டார்களென்று கவலை

14th August 1946] [Sri N. Annamalai Pillai]

வருகிறது. ஆனால் அதிகாரிகளும் இப்பொழுது இருக்கின்ற மந்திரி சபையானதும் இன்னும் கொஞ்சம் கடுமையான நடவடிக்கை எடுத்துக் கொண்டால் தானியங்கள் நிறையவரும் என்பதாகத் தெரிவித்துக்கொள்ளுகிறேன். இன்னமும் பல பெரிய முதலாளிகள் 20,000, 10,000, 40,000, 30,000 ரூபட்டைகளைப் பதுக்கி வைத்திருக்கிறார்கள். இது விஷயம் ஸர்க்காருக்குத் தகவல் வந்திருக்கவேண்டும் அல்லது வரும். இந்த நிலைமையை மாற்றுவதற்கு அதிகாரிகள் இருக்கின்றார்கள், பிரதம மந்திரி இருக்கின்றார். நடவடிக்கை எடுத்துக்கொள்ளுவதுடன் வவசாயத்தை நடத்துவதையும் ஸர்க்காரே எடுத்துக்கொண்டு நடத்தவேண்டும். நிலச் சுவாந்தார்கள் பயிரிட்டு நமக்குக் கொடுப்பார்களென்று நங்கள் நினைக்கவே கூடாது. அப்பொழுது ரூ. 5, ரூ. 2, ரூ. 4, விற்பனை ஒரு கைம் நெல்லு இன்றைக்கு ரூ. 16, ரூ. 18, விற்கிறது. நாம் பதுக்கவைத்தால் இன்னும் கள்ள மார்க்கெட்டில் விற்கலாமே என்று அரசு போதும் வருகிறது. ஆகையால் அவர்கள் விளைந்தாலும் சரியாகக் கொடுக்கவே மாட்டார்கள். அரசாங்கத்தார் தாங்களே நிலச்சுவாந்தார்க்கிடத்திலிருந்து நிலத்தை எடுத்துக்கொண்டு ஒரு ஒப்பந்தத்தைச் செய்துகொண்டு பயிரிட வேலையை அரசாங்கமே மேற்கொண்டாலொழிய இந்த தரித்திரம் திரவே திராது. கஷ்டம் போகாது, கொள்ளை ஸாபம் அடிப்பவர்களும் மற்றவர்களும் மாறவே மாறாது. ஆகையால் பிரதம மந்திரியார் இதிலே கவனம் செலுத்தி அரசாங்கமே நிலங்களை எடுத்துக்கொண்டு பயிரிடுவதற்கு புதிய முறைகளை ஏற்பாடுசெய்யவேண்டும். இந்த வேலை செய்பவர்களுக்கு முன்னே இருந்த கூலி ஒரு ரூபாய் அதை ரூபாயிருந்தது, இப்பொழுது 10 அணு, 9 அணு, 11 அணு, 12 அணு, ஒரு ரூபாய், 1½ ரூபாய் கொடுக்கப்படுகிறது. ஆனால் அரிசியோ, கம்போ, கேரளா ரூபாய் ஒன்றுக்கு மூன்று மடங்கு இருந்தவை இப்பொழுது ஒருமடங்காய் விட்டது, அரிசி 6 படி இருந்தது 2 படி ஆய்விட்டது, ஒரு தூக்கு ஒரு ரூபாய் இருந்த மினகாய் 3 ரூபாய் ஆய்விட்டது. அப்படி யிருக்கும்போது நெற்று 16 ரூபாய் சம்பளம் வாங்கியவன் இன்றைக்கு அதேவே ஜீவப்பா எனென்று நினைப்பது முடியாத காரியம். ஒரு அளவுதான் ஜனங்கள் தாங்கமுடியும். அந்த அளவு முடிந்துவிட்டது, ஜனங்களுக்குக் கஷ்டம் அதிகம் ஏற்பட்டுவிட்டது. அதனால் எங்கும் கூட்டமும் குழப்பமும் இருந்து வருகிறது. இதை நிவர்த்திக்க அரசாங்கத்தார் உடனடியாக கைவசமிருக்கும் மூல தனத்திலிருந்து சில கோடி ரூபாயை எடுத்து தானியங்களை வாங்கி 2 படி அரிசி இருப்பதை 4 படியாகக் கொடுத்து அந்த நஷ்டத்தை ஏற்றுக்கொள்ளவேண்டும். இது பழைய தர்மம். முற்காலத்திலே அரசரது கேடும் நிதி என்று வைத்திருப்பார்கள், பஞ்சம் வந்துவிட்டால் ஜனங்களுக்குப் அந்நியை பகிர்ந்து கொடுத்துவிடுவார்கள். அதுதான் சரித்திரத்தில் எழுதப்பட்டிருக்கிறது. ஆகையால் இந்த அரசாங்கத்தார் தாங்களே விலைக்கு வாங்கி 2 படி அரிசி இருப்பதை 4 படியாகக் கொடுத்து இந்தப் பஞ்சத்திலே ஜனங்களைக் காப்பாற்றவேண்டும். இப்பொழுது எஸ்.ஜி. ரெயில்வேயில் 3½ படி அரிசி கொடுக்கிறார்கள், அவர்கள் 2 படி வாங்கி ரயில்வே ஊழியர்களுக்கு 3½ படி கொடுக்கிறார்கள் என்பதைத் தெரிவித்துக்கொள்ளுகின்றேன். இந்த மாகாணத்திலிருக்கின்ற 5 கோடி ஜனங்களாகிய, வரி கொடுக்கப்படுவார்களைக் காப்பாற்றுவதற்கு கேடும் நிதியில் உள்ள தொகையை எடுத்து தானியத்தை உயர்ந்த விலை கொடுத்து வாங்கி குறைந்த விலைக்கு கொடுக்கவேண்டும். இதை நாம் செய்தால் ஒரு வாராக நன்மை செய்தவர்களாவோம். ஸர்க்காரே நிலங்களை எடுத்துக்கொண்டு பயிரிடவேண்டும். நிலச் சுவாந்தார்களைப் பயிரிடவிட்டால் அவர்கள் விளைந்தவுடன் அதை மறைத்து வைத்துவிடுவார்கள் என்று தெரிவித்துக்கொள்ளுகின்றேன். உடனடியாக தானிய உற்பத்தி செய்யவேண்டிய வேலையிலே கவனம் செலுத்த வேண்டும், அதை ஸர்க்காரே செய்தால்தான் முடியுமென்று தெரிவித்துக் கொண்டு இந்த ரெவின்யூ, மானியத்தை ஆதரித்து இன்னமும் அதை தாராளப்படுத்தி கஷ்டத்தைப் போக்க வழி காண்பிக்கவேண்டுமென்று கேட்டுக்கொண்டு என்னுடைய வார்த்தையை முடித்துக்கொள்கிறேன்.

* SRI A. KAMESWARA RAO:—"Jai Hind! Mr. Speaker, Sir, the countryside is now brewing with an agrarian revolution. 3-15 p.m.

[Sri A. Kameswara Rao] [14th August 1946]

If not this Ministry, at least the British Government will have to face it one fine morning, because they want to be here and they do not want to go away. (Mr. F. Ferrelly: 'You want us to get out!') (Laughter.) ('How can you do it?') I know this Constituent Assembly or any reforms that they promise are not going to materialise. As a revolutionary, I would welcome an agrarian revolution or any revolution to overthrow this Imperialist Government by all revolutionary methods. It is because we have Mahatmaji who is giving a non-violent programme, I am following him. But if there is a leader that comes and says that these methods have failed and that we have to take up guns and fight, I will be the first man to take the gun and fight for my country, and I hope there are many such men who will take part in the agrarian revolution that is brewing in the country.

"The agriculturists are put to a lot of difficulties. The man owning under 5 acres is not able to feed his children and get them educated. That is why I propose that all those uneconomic holdings should be exempted from revenue taxation. I propose that a progressive taxation should be introduced. That is, a man who has got 20 or more acres and who is earning more must be taxed more and all those who have got less than 5 acres and have not an income to feed their children must be exempted completely from all taxation. Then I propose the agricultural income-tax, that is, the people that are earning more money in having 100 and more acres must be taxed more. When such taxation is introduced, I hope we will have more money for other ameliorative measures such as prohibition, free and compulsory education, and so on. I want the Revenue Department to take note that unless there is an intensification of agriculture we are not going to tide over the famine that is facing the country to-day. Intensive agriculture means that we should not keep quiet. The ryot should not be allowed to keep quiet. He should be shown how he should improve his land. He must be supplied manure free of cost. He must be supplied with agricultural implements and told that he should raise another crop also.

"Then, Sir, as regards the minor irrigation problems, there are many tanks in dry taluks where they have not been repaired at all for all these years. During the last cyclone many of them have been damaged and very few have been repaired. In spite of bringing this to the notice of the Revenue authorities, the tanks have not been repaired. One or two have been repaired this year, and others are expected to be repaired only next year. For this the Revenue authorities and our Ministry must immediately take steps and see that these minor irrigation works are repaired immediately. Now, look at Hyderabad. There are many tanks they have improved there. They are having more crops, more rice and more cholam. We see the same in Mysore State and in other places. But, here, in British India it is not the case, and nobody is taking any care of these minor irrigation schemes.

[14th August 1946] [Sri A. Kameswara Rao]

I had been to Sattenapalle taluk, and there I had seen some of the tanks and I am going to submit a report to the Hon. the Premier shortly about these things.

"Then, Sir, about village officers. The village officers are the men that are very poorly paid. Of course, the village officers are powerful in the villages in some places, but those days have gone. To-day a ryot does not care for a karnam or a munsif. Formerly, if you pay Rs. 2 for surveying the land or for writing a petition or for any other purpose, it will be done. On the contrary, now, the ryots threaten these village officers. These poorly paid (Rs. 15) village officers have to shoulder the burden of writing all the accounts and going door to door, and have to supply their corrupt higher officials with rations and other things when they visit those places. Their lot must be improved. They must be paid more. My time is up, and I am going to resume my seat. Before that I would like to advise the Ministry that they should at once purge these departments of corrupt officials. Unless you purge these departments of corrupt officials and put in good people, you cannot do anything, you cannot progress in any way, and you cannot introduce anything new. With these words, I support the Budget, and I resume my seat."

* SRI P. KANDASWAMI PILLAI:—"Mr. Speaker, Sir, I wish to say a few words regarding the revenue policy of the Government. Nowhere in the whole world, land revenue is so high as in India. Yet, our people, who are agriculturists, do not take proportionate advantage and proportionate facilities, for the tax they pay. Every member of this House wants to reduce this revenue. The departments think that the expenditure is an inconvenient drain for the Government. Governments in the world chiefly depend upon income-tax, profession tax, and commercial tax. (European benches: 'Excise?') These are all taxes useful to a country, and are got from those who get benefit from the State. These taxes will be perennially flowing into the Treasury, because the trade of a country will be bringing money into our land. The trade of a country should be so adjusted that it will fetch money from other lands. The industry of our country should be so developed that it will fetch money from other countries. Here, 80 per cent of the population are engaged in agriculture, and they are asked to pay the taxes without proportionate advantage. Therefore, Sir, I would suggest to Government to take away the whole land revenue. They can appoint a Committee of Experts to find out new taxes in its place and a new way of income for Government apart from the land revenue. We can levy taxes where crops are grown. Simply because a particular individual holds a number of acres, he should not be taxed more. We should take into consideration the yield of his land before we tax. Therefore, my humble suggestion to Government is that they must find out fresh taxes which will be more reasonable and more useful to the State, and which will be advantageous for the betterment of our country.

[Sri P. Kandaswami Pillai] [14th August 1946]

"Sir, if the industries of our country are developed, we can supply the requirements of the whole world. India is very rich in mineral resources and in electricity also. We have got the best iron and steel, coal mines and all kinds of things which are required for the best industry in the world. But the pity is that we do not pay any attention to this. We do not care to develop these industries. We simply follow what our elders have done. That is not sufficient. There should be revolutionary ideas even in the Budget estimate. I expected a revolutionary Budget. Our predecessors were simply forming, tabulating and calculating 'this is our income and this is our expenditure.' That is no good. We have to find out new ways. The world is moving rapidly. We were fighting all along with guns. Now the atom bomb has come. The western world has rapidly developed. We should copy them in all ways which are useful and profitable. West or East, it does not matter. We should take into consideration all the new things, essential and advantageous, for our betterment.

"One word regarding village officers. The lowest paid official in the Revenue department is the karnam. The whole responsibility of the department lies on him. He wants to be both an official and a non-official. He wants to be a non-official and at the same time he wants hereditary appointment. He wants to be a Government servant for enhancement of pay. He must be considered a Government servant for enhancement of pay. The karnams must qualify themselves for the post, and on merit they must get the appointment. They must serve well, and, of course, the Government must increase their pay according to their status.

"In India, only 13 per cent are literate. All the quarrels spring from the house of the village munsif and the karnam. So we must give them moral education. Now the Government are opening so many centres for training village munsifs. The chief thing to be taught there should be not to read and write. Moral education should be given to them, that they must think that they are there to serve the people honestly and sincerely and not to make money out of the villagers' ignorance or create trouble for the villagers. If we infuse this idea in the minds of the village munsifs, litigation will decrease and the courts will be free from congestion. Therefore, Sir, I would request Government to pay more attention to village munsifs, village karnams and village teachers. If these three classes of officers are given very good moral and religious education, a lot of trouble will be over and we need not spend so much money upon magistrates and police. Therefore, I would request the Government to change the land revenue policy, namely, to reduce land revenue as much as possible and increase other taxes like commercial-tax, profession-tax, etc., and new taxes may also be levied."

* SRI M. KANNIYAPPAN :—"கனம் தலைவரவர்களே, இப்போது விவசாயத்தைப்பற்றிப் பலர் பேசினார்கள். விவசாயம் இன்று எந்த நிலைமையிலேயிருந்துவருகிறதென்பதைப் பற்றி இங்குள்ள எல்லா அங்கத்தினர்களும் அறிவார்கள். விவசாயத்தைப் பெருக்காமல் இன்று நாட்டிலுள்ள பஞ்சத்தைப்போக்க முடியாது. பஞ்சத்தின் கொடுமையினால்

[14th August 1946] [Sri M. Kanniyappan]

மக்கள் வாடுவதை நாம் எங்கும் பார்க்கிறோம். இந்தப் பஞ்சத்தை ஒழிக்க விவசாயத்தை எப்படிப் பெருக்குவதென்பதில் நாம் முதலில் கவனஞ்செலுத்தவேண்டும்.

"விவசாயத்தின்மீது வருமானவரி போடவேண்டுமென்று இப்போது சொல்லப்படுகிறது. ஆனால், இந்த வரியை எப்படிப்போடுவது என்பதை யோசிக்கவேண்டும். அதிகமான நிலத்தை வைத்துக்கொண்டு ஏராளமான வருமானத்தையடையும் நிலச்சுவார்தார்கள், அல்லது ஜமீன்தாரர்களின்மீது இந்த வரியைப் போடவேண்டும். இல்லாவிட்டால், பெருத்த நிலம் படைத்த மடாதிபதிகளின்மீது இந்த வரியைப் போடவேண்டும். இதை எல்லாம் விட்டுவிட்டு குறைந்த அளவு நிலம் வைத்திருக்கும் விவசாயிகளின்மீது வரிப்போடுவதென்பதை எந்தமுறையிலும் நாம் அனுமதிக்க முடியாது. குறைந்த அளவு நிலம் வைத்துக்கொண்டு விவசாயம் செய்கிறவர்கள் தங்களுக்குப் போதுமான வருவாய்க்கிடைப்பதில்லையென்று இன்று ஒவ்வொரு கிராமத்திலுமுள்ள விவசாயிகள் கூக்குரலிடுகின்றனர்.

"இன்று விவசாயத்தில் ஈடுபட்டுள்ள தொழிலாளி எந்த நிலைமையிலே இருக்கிறான் என்று நாம் கவனிக்கவேண்டும். அவனுக்கு நிலத்திலிருந்து சரியான ஊதியம் கிடைப்பதில்லை. அவன் உழும் நிலத்திலிருந்து கிடைக்கும் ஊதியத்தை அனுபவிக்கிறவன் சாதாரணமாக ஒரு பெரிய ஜமீன்தாராக இருக்கிறான். இந்த நிலைமையிலே கொஞ்சம் நிலம் வைத்துக் கொண்டு விவசாயம் செய்கிறவர்களுக்கு வரி போடாமல், அதிகமான நிலம் வைத்துக்கொண்டு ஏழைத்தொழிலாளர்களுடைய ரத்தத்தை உறிஞ்சிக்கொண்டிருக்கும் முதலாளி வர்க்கத்திற்குத்தான் இந்த வருமான வரி போடவேண்டுமெனியொழிய ஏழை விவசாயிகளுக்கு இந்த வரி போடக்கூடாதென்று நான் கேட்டுக்கொள்ளுகிறேன்.

"அடுத்தபடியாக கிராம கர்ணத்தைப்பற்றி இப்போது பேசப்பட்டது. கிராம உத்தியோகஸ்தர்களுக்கு இன்று கொடுக்கப்படும் சம்பளம் ரூ. 5, ரூ. 7 அல்லது ரூ. 12 ஆக இருக்கிறது. இது அவர்களுடைய வாழ்க்கைக்குப் போதுமானவென்று கவனிக்கவேண்டும். ஆகையால், கிராமங்களிலேயிருக்கும் வெட்டியான், தலையாரி, கர்ணம் போன்றவர்களுக்கு உடனடியாக சம்பளத்தை ஏற்றவேண்டும். இது மிக மிக அவசியம். இவர்கள் தான் கிராமங்களிலேயுள்ள விவசாயிகளிடத்தில் சென்று வரி வசூல் செய்து அரசாங்கத்திற்கு அனுப்புகிறார்கள். பிரிடிஷ் ஏகாதிபत्यம் இந்த நாட்டில் ஆட்சியை நடத்துவதற்கு முக்கியகாரணஸ்தர்கள் இவர்கள்தான். இன்று நாம் அவர்களுக்கு அதிகமான சம்பளத்தைக் கொடுத்தால், அவர்கள் சமயம் வரும்போது நம் பக்கத்திலிருப்பார்கள். அந்தச் சமயத்தில் நாம் அவர்களை உபயோகப்படுத்திக்கொள்ளலாம். அப்போது நாம் இந்த வெட்டியான், தலையாரிகளைக் கூப்பிட்டு, 'இப்போது இங்கே இருப்பது பிரிடிஷ் ஏகாதிபत्यம். அதற்கு விரோதமாக உடனடியாக ஸ்டிரைக் செய்யவேண்டும்' என்று சொன்னால், அவர்களும் அவ்விதமே செய்வார்கள். அவர்களெல்லோரும் நம்பக்கம் வந்துவிடுவார்கள். ஆகவே, அவர்களுக்கு நாம் உடனே அதிகமான சம்பளத்தைக் கொடுக்கவேண்டும். 'அவர்கள் தொந்தரவு செய்கிறார்கள்; கூட்டம் கூட்டமாக வருகிறார்கள்; காங்கிரஸ் அரசாங்கத்தை பிரமிக்கச் செய்வதற்காகத்தான் இவ்விதம் செய்கிறார்கள்,' என்று யாராவது சொன்னால், அவர்கள் முதலாளி வர்க்கத்தைச் சேர்ந்தவர்களாகவே இருப்பார்கள். அவர்கள் விவசாயிகள், ஏழைமக்கள் இவர்களுடைய நன்மையைக் கருதுகிறவர்களாக இருக்க மாட்டார்கள். நாம் விவசாயத்தைப்பற்றி பேசும்போது கிராமங்களிலே வேலை செய்யும் பாட்டாளிமக்களுக்குச் சரியான சம்பளத்தைக் கொடுக்க தகுந்த நடவடிக்கைகளை எடுத்துக்கொள்ளவேண்டுமென்று சொல்லிக் கொண்டு என்னுடைய பேச்சை முடித்துக்கொள்ளுகிறேன்."

* SRI V. PONNUSWAMI GOUNDAR :—"கனம் சபாநாயகர் அவர்களே, அங்கத்தினர்களே, இப்பொழுது ரெவின்யூ இலாக்காவில் எந்தெந்தமாதிரி குறைத்தும் உயர்த்தியுமிருந்தால் நம் மாகாணத்தில் ரெவின்யூ நிலைமையும் விவசாயிகளுடைய நிலைமையும் சரியாயிருக்குமென அநேகம்பேர் சொல்லியிருக்கிறார்கள். ஏதோ நானும் சிலதை ஸர்க்கருக்குச் சொல்லிக்கொள்ள முன்வந்திருக்கிறேன்.

[Sri V. Ponnuswami Goundar] [14th August 1946]

“தலைவரவர்களே, நம் ரெவின்யூ இலாக்காவானது பணம் பெருத்த பொக்கிஷ சாலையாக இருக்கவேண்டும். அப்படி இல்லாவிட்டால் விவசாயிகளுடைய உயர்வும் மற்ற டிபார்ட்மெண்டுகளுடைய உயர்வும் ஒருக்காலும் ஏற்படமுடியாது. எப்படி இந்த ரெவின்யூ இலாக்காவில் அதிக வருவாயை ஸர்க்கார் எதிர்பார்க்கமுடியுமென்பதை இரண்டொரு விஷயங்களில் சொல்லிக்கொள்ள ஆசைப்படுகிறேன். ரெவின்யூ இலாக்காவுக்கு அதிக வருமானம் விவசாயிகளிடமிருந்து வந்துக்கொண்டிருக்கிறதென்பது எல்லோருக்கும் தெரியும். ஆனால் அந்த விவசாயிகளிடமிருந்து நாம் நிலவரியாக வாங்கும் அத்தனை பணமும் அவர்களுக்கு ஏதாவது ஒரு பாகமாவது பிரயோசனமான வழியிலாவது செலவழிக்கப்படுகிறதாவென்பதை முதலாவதாக கவனித்துக்கொள்ளவேண்டும்; ஒருக்காலும் இல்லவே யில்லை. விவசாயிகள் வரியைச் செலுத்துகிறார்கள், ஆனால் சர்க்கார் அவர்களுக்கான நன்மைகளைச் செய்யாமல் வேறு காரியத்துக்கு உபயோகிக்கிறார்கள். தவிர அவர்களுடைய குறைபாடுகளையும் இன்னல்களையும் அவர்கள் கூடித்தெரிவித்துக்கொள்ள வகையும் வசதியும் கிடையாது. சாதாரணமாக இப்பொழுது தொழில் வேலைகளிலெல்லாம் ஸ்டரைக்குகள் ஏற்பட்டுக்கொண்டிருக்கின்றன. நாங்கள் கஷ்டப்படுகின்றோம். எழைக்குடியானவர்கள் என்னோடு தினசரி வாழ்பவர்கள் என்னோடு சேர்ந்து பாடுபடவேண்டிய விவசாய இலாக்கைகள் என்பதாகக் கோட்டை வாயிலில் கூட்டமாகவந்து சர்க்காரிடம் முறையிட்டுக் கொள்ளவில்லையே என்று நான் வெட்கப்படுகிறேன். தலைவரவர்களே, விவசாயிகள்தான் ராஜாங்கத்தின் முதுகெலும்பு என்பதை ஸர்க்கார் உணரவேண்டும். அநியாயமாக நில வரியைச் செலுத்துகிறார்கள். எல்லா பிரஜைகளும் செலுத்துகிறமாதிரி மற்ற வரியையும் செலுத்துகிறார்கள். அதிகப்படியாகத்தான் நில வரியை செலுத்துகிறார்கள். அவர்கள் செலுத்தும் வரிகளுக்கு பிரதியுபகாரமாக ஸர்க்கார் எந்தவிதமான நன்மையையும் தருதபடி செய்து கொடுப்பதில்லை. ஸர்க்காருக்கும் விவசாயிகளுக்கும் இடையில் ஜமீந்தாரர்களும் மீட்டாதாரர்களும் ஒரு தடையாக இருக்கிறார்கள். இவர்கள் விவசாயிகளுக்கு வேண்டிய வசதியை ஏற்படுத்துவதற்கு குறுக்கே நிற்கிறார்கள். காட்டில் மாடுகளை மேய்க்க விவசாயி வரி செலுத்தவேண்டும். எருவுக்குத் தழைகளை உபயோகப்படுத்திக்கொள்ள விவசாயி வரி செலுத்தவேண்டும். கலப்பை முதலிய மரச் சாமான்களுக்கும் வரி செலுத்தவேண்டும். அதுவும் தவிர ஸர்க்காரில் விவசாயிகளுக்கு இரும்பு சாமான்கள் கிடைக்க வசதி செய்துகொடுப்பதும் கிடையாது. அப்படியிருக்கும்போது விவசாயி எப்படி அதிக வரி கொடுப்பான், எப்படி இந்த ரெவின்யூ இலாக்காவானது விவசாயியிடமிருந்து வரியை எதிர் பார்க்கமுடியுமென்று கேட்கின்றேன். பெரியோர்களே, நீங்கள் நன்றாக கவனித்துப்பாருங்கள். விவசாயிகள் அன்றாடம் செத்துக்கொண்டிருக்கிறார்கள். அவர்களுக்கு துணி இல்லை, உணவிலலை, கிராமங்களிலுள்ள ஒவ்வொருவரும் அதைத் தெரிந்துகொண்டிருக்கிறார்கள். நண்பர்களே, அதற்கு நாம் என்ன செய்தோம். கட்டாயமாக அவர்களுக்கு நாம் பாதுகாப்பளிக்கவேண்டும். அந்தப் பாதுகாப்பளிக்க இடைஞ்சலாயிருக்கும் இந்த ஜமீந்தாரி முறையை அறவே ஒழித்துவிட வேண்டும். அந்தத் தடை போனால் விவசாயிகள் தங்கள் இஷ்டம்போல் இருக்கவும், சர்க்காரை எஜமானாக வைத்துக் கொண்டும் தங்களுடைய வாழ்க்கையை உயர்த்திக்கொண்டு ஸர்க்காருக்கும் வரி செலுத்துவார்கள். விவசாயிக்கு மாடாவாது, உழவுக்கு அல்லது மற்ற எந்த வேலை செய்யவோ சரியான வசதியும் கிடையாது. இப்பொழுதுதான் இந்த யுத்தகாலத்திலே அதிகமாக இந்த நேரம் பறவி விட்டது, என்ன அது? அதுதான் மாடுகளை மனித உணவுக்காக அடிப்பது. இதிலோ ஸர்க்கார் முக்கியமாகப் பங்கு எடுத்துக்கொள்ள வேண்டும். அதாவது கோ சம்ரக்ஷணை; இதைச் சட்டமாக்கவேண்டும். இல்லையானால் விவசாயம் ஒருக்காலும் வளரவே முடியாது. நன்றாக வேலைக்கு உதவுவதும் உழுவதற்கு உபயோகமானதுமான மாடுகளை அடிக்கக்கூடாது. மாட்டை மனித உணவுக்காக அடிக்கிறதென்றால் இப்பொழுது ஸர்க்காரால் ஏற்பாடுசெய்யப்பட்டிருக்கும் உணவுக்கமிட்டி மூலமோ அல்லது பிரத்தியேகமான கிராமக் கமிட்டி ஏற்படுத்தி அதன் மூலமோ தாலுக்கா உணவுக் கமிட்டி மூலமோ வேலைக்கு உதவாத உணவு மாடு, என்று அவர்கள்

14th August 1946] [Sri V. Ponnuswami Goundar]

அபிப்பிராயம் தெரிவித்து அதன்பேரில் ஸர்க்கார் உத்தியோகஸ்தர்களை அல்லது தாலுக்காவின் பிரத்தியேகமான உத்தியோகஸ்தரோ ஸர்ட்டிபிகேட் கொடுத்தபின்புதான் அந்த மாட்டை அடிக்கவோ அல்லது அடிப்பவர்க்கு விற்கவோ ஏற்பாடுசெய்யவேண்டும். ஸர்க்கார் இதைச் சட்டமாகச் செய்ய வேண்டும். இல்லையானால் இப்பொழுது நீங்கள் சந்தைகளிலே அடிக்கடி போகிறவர்கள் பார்க்கலாம், அடிப்பதற்கு எப்பெரிக்கொத்த மாடுகளை வாங்கிக்கட்டுகிறார்களென்று, அந்த மாடுகளை யெல்லாம் அடிக்கக் கொடுக்கிறதினால் நம்முடைய இந்தியா தேசம், பசு வதை மஹா பாடம் என்ற நம் நாடு, பசுமாட்டைக்கூட ஏர், கவலை கட்டி அடிக்கிறார்கள். இப்படி நடக்கிறது நூற்றுக்கு 80 பங்கு பசுமாடுகளைத் தான். அந்த மாட்டைக் காப்பாற்றவேண்டும். கோ சம்ரக்ஷணை சாலைக்கு விலைக்குக் கொடுத்துவிடவாவது வேண்டும். தலைவரவர்களே, விவசாயிகளுக்குப் போதிய உதவி செய்யவேண்டும், மாட்டு வசதியும், எருவு வசதியும், மாட்டு வைத்திய வசதியும் இல்லையானால் அவர்கள் எப்படி சரியாக உணவு உற்பத்தி செய்யமுடியும், எப்படி விவசாயம் செய்யமுடியும். அவர்கள் செய்யும் விவசாயத்திலிருந்து எப்படி ஸர்க்கார் அதிக வருமானத்தை எதிர்பார்க்க முடியும், முடியவே முடியாது. சாதாரணமாக வரிச் சுமை விவசாயிகள் தாங்கமுடியாமலிருக்கிறது. விவசாயத்திற்குத் தேவையான வசதிகள் ஸர்க்கார் ஆதிக்கத்தில் கட்டாயமாக வந்துதீரவேண்டும். இல்லையெல் தானியம் உற்பத்தியாகாதென்பதைத் தெரிவித்துக்கொண்டு என்னுடைய சிற்றுறையை நிறுத்திக்கொள்கிறேன்.”

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“Mr. Speaker, Sir, I quite agree that the ryots of our Province particularly have got a good deal of complaint against the land revenue policy of the Government. The way in which this revenue has been levied and collected has been a sore, a pestering sore, on the agricultural economy of this Province, for many decades past. It is said that the Government are getting one-half of the net income which the ryot gets after deducting the outgoings and the cost of cultivation which the ryot has to defray. It is also said that that land revenue is nearly a fifth of the gross yield of the land. In this connexion, by the way, it will be very interesting to know what the Government think of this revenue—whether it is a tax or rent. Whatever it may be, it is said that Government get only a portion of the income of the poor ryot and the ryot is left with a good portion of the income which he derives from the land. But in very many cases, Sir, after the ryot pays his tax, precious little is left. I do not think any argument is necessary for impressing on the Government that relief and immediate relief must be given to the poor ryots of this Province in the matter of land revenue. Again they speak of remissions and concessions to the ryots in cases where they met with loss or partial loss owing to scarcity of rain, pests and diseases and other causes. But these concessions and remissions are very small and niggardly. They do not in reality and in substance give any relief to the suffering ryot, particularly when he needs relief most. In this connexion I would urge upon the Government to appoint a committee to entirely overhaul the present procedure of land revenue administration and revise the Board's Standing Orders so as to give substantial relief to the suffering ryots of this Province.

“Again and again, reference has been made to the low remuneration paid to the Government servants in the various departments.

[M. Muhammad Ismail Sahib Bahadur] [14th August 1946]

Very strong references have also been made to the corruption rampant among Government servants. But what I urge is that, before the Government take any measure to deal with corruption, they must in all humanity and in all fairness to the Government servants take steps to revise their salaries. I will say that all those salaries falling below one thousand rupees per mensem must be revised. If that is not possible at present, I would urge upon the Government to take immediate steps straightway to revise salaries of five hundred rupees and below. I do not know what has happened to the report and recommendations of the salaries committee which was appointed some time ago. I would like that the report of that committee is published and copies made available to the members of this hon. House. If the Government think that the recommendations of that committee do not go sufficiently far to remove the grievances of Government servants, particularly of the low paid Government servants, they must take steps to go further still.

“Then I have to make a complaint that the representation of the Mussalmans in this department is not adequate. The figures of course I cannot produce now, because the Government have ceased to publish figures regarding Government servants communitywar, which they were doing some time ago. It will be very useful to revive that publication so that we may know whether the rights and privileges of all the communities are being respected and maintained so far as services are concerned. It is said that under the communal Government Order the Mussalmans are to get 16½ of the total services. But I do not find anywhere that the Mussalmans are getting this share and it is so in the Revenue department also. If we put a question to the authorities that be at times, we are told that there is a Mussalman clerk here and he is set against a non-Muslim Tahsildar in the same department and then we are told that in the matter of numbers we have attained our proportion. Sir, that is very unfair and unreasonable. So far as representation is concerned, unit by unit if not cadre by cadre must be taken into consideration, and the total amount of salaries paid to these communities must also be taken into consideration if fair representation is to be given to the communities. One feature regarding this complaint is very striking. The Mappillas of Malabar form one-third of the population of that district and one-third of the Mussalman population of this Province. It will be very astonishing to you also when I tell you that there is no District Collector from among the Mappillas and there is only one Deputy Collector and one Tahsildar from among them. This is really a grievous injustice to the Mappillas of Malabar, and I hope the Government will take early steps to remedy this grievance of the Mussalmans.”

* THE HON. SRI K. R. KARANTH:—“Sir, I am thankful to hon. Members who have spoken to-day for the very helpful and constructive criticisms made by them on the various points raised which I shall try to answer as briefly as possible. It is true that the tax system in this Province about which many of the speeches have been made, is a bit antiquated. It is only now, Sir, when we have

[14th August 1946] [Hon. Sri K. R. Karanth]

got almost famine and scarcity of food that we have opened our eyes. Because till now when there was not that trouble and when we used to get cheap rice from foreign countries there was not much interest as to how our lands fared and what crops they grew. When outside supplies were cut off, we opened our eyes to see how it is that there is so much scarcity. There is no doubt that the present land system contributes a great deal to the present distress. On this question hon. Members are aware of the Famine Enquiry Commission in which there was a representative from the Madras Government, I refer to Sir S. V. Ramamurty. The commission went into this question. In their final report this question is dealt with at page 253 and this is what they say:—

‘On a review of the replies received from Provincial Governments we find that the problems requiring investigation may be classified under three heads:—

(i) *Size of holdings and fragmentation.*—It is well known that a large proportion of land is held in small holdings. There exists a tendency, directly relatable to the ryots of inheritance and the transfer of land, which, through subdivision, causes a progressive diminution in the size of holdings and their fragmentation. The need for legislative and administrative action in relation to this tendency is a matter for examination. This applies to all the different land systems.

(ii) *Occupancy right holder and non-occupancy tenant.*—Another class of problems is the tendency for land to be held by occupancy right holders who do not attend to its efficient cultivation, and who lease such lands to tenants on terms which inhibit such cultivation. This again is a matter for examination in respect of all the different land systems.

(iii) *The permanently settled estate system.*—There is a growing body of opinion that, apart from the defects already referred to, which are common to all the systems, there are defects peculiar to the permanently settled estate system which make it desirable that the system should be abolished and the ryotwari system introduced in its place.’

“Sir, referring to the various heads under which discussions proceeded in this House may I point out to hon. Members that the guiding principles of the Congress in regard to this land problem have been stated very clearly and definitely both at the election of 1937 and also in the last election. I would place them before the House.

“Soon after the elections of 1937, the policy in the legislature was laid down by the Congress Working Committee as follows:—

‘Congress members should press for the carrying out of the Congress programme as enunciated in the election manifesto and the Congress agrarian resolution. In particular, they should work for—

(1) a substantial reduction in rent and revenue;

[Hon. Sri K. R. Karanth] [14th August 1946]

(2) assessment of income-tax, on a progressive scale, on agricultural incomes, subject to a prescribed minimum;

(3) fixity of tenure.'

" At the last election it was further added as follows:—

' The reform of the land system, which is so urgently needed in India, involves the removal of intermediaries between the peasant and the State. The rights of such intermediaries should therefore be acquired on payment of equitable compensation. While individualist farming or peasant proprietorship should continue, progressive agriculture as well as the creation of new social values and incentives require some system of co-operative farming suited to Indian conditions. Any such change can, however, be made only with the goodwill and agreement of the peasantry concerned. It is desirable, therefore, that experimental co-operative farms should be organized with State help in various parts of India. There should also be large State farms for demonstrative and experimental purpose.'

With these as our guiding principles, we have tried in the short period of three months that we have been in office to tackle the various land problems.

4 p.m.

" Foremost among the questions that have been raised in the House to-day is that relating to the reform of the ryotwari system. With regard to this, hon. Members are aware that, about four-fifths of the area of this Province is governed by this system. I myself come from a district in which there is no zamindari system, but only the ryotwari system. And yet, with my experience of about 20 years and more, I have known that there is a good deal of rack-renting in respect of the cultivating classes. They have no security of tenure. They can be evicted at any time. While the landlords clamour for reduction of assessment, they are not prepared to show the same concession to their tenants and the assessment bears hardly any reasonable relation to the rents which they collect from their tenants. It is quite true that the cultivating classes can have no interest in the land in such circumstances. I know that in many cases the cultivating classes have to go as estate labourers to coffee plantations in Mysore in order to be able to pay the rent to their landlords. I know my district fairly well, but not the several other districts of the Province. Conditions vary from district to district. That being the case, it is felt that, before legislation is introduced in regard to the relationship between the landlord and the tenant in ryotwari tracts, it would be wiser for the Government to know the actual conditions in the various districts of the Province. It is for that purpose that, as soon as this Government took office, it set up machinery for investigation of the various factors. No such enquiry has been held in the past and therefore it would be helpful to us to know all the facts. The officer who has been put in charge of this work will also issue questionnaires and take the assistance of public bodies in this Province and of hon. Members and collect full facts. Armed with this data,

14th August 1946] [Hon. Sri K. R. Karanth]

we can take up legislation on proper lines and on safe ground. Hon. Members will, I hope, find this better than rushing in legislation in haste without knowing what sort of a new system we are substituting and what sort of people we are dealing with. This investigation also includes the amendments to be made to the Malabar Tenancy Act.

" As regards landless labourers, Sir, I quite realize the importance of this problem from what I saw recently in Anantapur and Bellary. From local enquiries made, particularly in the dry areas of this province and in the upland areas of Nellore, I find that, on account of the recurrence of famine from time to time, all those who were actual cultivators and owners were obliged in the past to sell their lands to Sowcars and big landlords. Almost all land is therefore now concentrated in the hands of a small percentage of the population and the rest of the people have become reduced to the position of agricultural labourers. The Government realize that they have to take up this question in the near future in the form of a Land Settlement Bill. Under this bill we intend to afford facilities for the landless to settle upon land and to see that the land does not remain only in the hands of large holders to the tune of several hundreds of acres which they themselves do not cultivate.

" Then, Sir, as regards the zamindari system, there have been speeches by several hon. Members in this House both to-day and on earlier occasions. Hon. Members are aware how in 1937-38 a full investigation of this problem was made. But even in this matter, hon. Members will realize that things have moved and are not in the same state as they were in 1937. I was very happy to see that more than one zamindar was kind enough to come and see me and say that they would rather have some compensation and give up the zamindari system now rather than that it should continue for some more years when it may disappear without any compensation at all. They were very prominent zamindars. They told me that ten years hence they expect to get no compensation whatever whereas under the existing conditions they expect a more equitable solution of the problem. They think it would be wiser to take what they may be now offered rather than wait for the time when they will be removed wholesale. These are aspects which have to be considered. During the short time I have been here I have seen myself the hardships of the zamindari tenants. In several districts I have seen their position with regard to rack-renting, with regard to tanks that have breached thirty years ago and more and so on. These are all questions which I dare say will be dealt with fully, always bearing in mind the happiness of the millions of tenants rather than the comforts and luxuries of the few zamindars who, I hope, will excuse my saying so.

" I come next to the question of the land-tax system. From 1928 to 1930 I myself have expressed strongly against this system both in the Old Legislative Council and elsewhere. This is an

[Hon. Sri K. R. Karanth] [14th August 1946]

oppressive system introduced by others long ago for the purpose of merely collecting land revenue. It has no consideration to the wellbeing of the people of this province. It has been moving on in an antediluvian fashion. But to-day it is up to us to revise it. I have heard several speeches by hon. Members that peasants form the backbone of the people of the province and that therefore the tax should sit very lightly on them. They have suggested—I have noted the suggestions of various hon. Members—a standard basic rate and said that agricultural income-tax should be levied from those who are getting high incomes from land. I believe hon. Members are aware that in the State of Travancore very recently a basic system has been introduced together with agricultural income-tax over a certain level. It may be that we may not be able to follow that system to the same extent; because, after all, the position of land revenue in the whole of our income has a material bearing on the question. I was told by the Dewan of that State whom I met a short while ago that out of a total income of 8 crores, only 80 lakhs are by way of land revenue. They have reduced the basic rate to 14 annas per acre. I am afraid I would be wrong if I give any such hopes in our province, because out of our total taxation of nearly 4,500 lakhs, land revenue is responsible for as much as 850 lakhs. But still that shows the way in which we shall have to work. Even here, in 1938-39 the previous Congress Ministry has done much spade-work. In fact they prepared a land revenue bill involving the increments of the various re-settlements. At that stage they had to go out of office. That bill involved a reduction of about 76 lakhs in the total land revenue amounting then to about 650 lakhs. But at that time I may also say the question of agricultural income-tax was considered almost unthinkable. To-day, however, we are in a different frame of mind. We have people who have made substantial sums from agricultural income and there is no reason why we should not have a graded and increasing taxation on such incomes. Of course any such taxation of higher incomes will involve the consideration of a system of a moderate levy of revenue on lower incomes.

“ Now, with regard to the total abolition of tax on small holdings I may just give one or two figures so that hon. Members might know what it would amount to. There is also this drawback that in any contemplated abolition of taxation altogether of small holdings, it is our experience elsewhere that the moment you say that for one rupee and less the tax will be remitted there will be a tendency to take out the pattas in the names of so many members of the family the revenue will vanish rapidly and the fragmentation of holdings, which it is the wish of every one to avoid will increase. Therefore, I understand that this total abolition was avoided in the basic system adopted in Travancore. If taxation is remitted on holdings paying one rupee and less of land revenue, it will amount to Rs. 9 lakhs; and if remission is granted to holdings on Rs. 10 and less, it will amount to Rs. 153 lakhs. I have already indicated the danger of fragmentation. Then there is this consideration that some system of land record at the cost of the

14th August 1946] [Hon. Sri K. R. Karanth]

State has to be kept even in regard to small holdings. My submission on this question is that the revision of land taxes will also be undertaken by this Government as early as possible.

“ On the question of lands for Harijans and the landless labourers, I notice a lot of misapprehension. I may remove it by stating that about 44 land colonization schemes are before the Government and 23 of these have been approved. In all these cases care is taken to see that land is assigned to co-operative societies so as to prevent alienation to third parties. All these lands are given to landless people, so that the claims of the Harijans will be fully met. There are I understand some separate schemes for Harijans only. Apart from these, as the House is aware, there is the lump sum of one crore of rupees set apart for Harijan uplift. The question of temple lands, so far as I know, has not been considered till now. The suggestion made, viz., that temple lands should also be given will be considered. The several suggestions made in regard to landless people will be duly considered before the lands are permitted to be assigned. All I can now say is that a ban has been put on the assignment of lands. There need be no apprehension that lands will be assigned to rich people. It has been decided that till the claims of various colonization schemes including the claims of the demobilized soldiers are considered and disposed of by Government no lands should be permanently assigned to anybody. Therefore there need be no fear that lands will not be given to deserving people or that the claims of the landless will not be met.

“ Then, Sir, as regards the complaint made by my hon. Friend 4 p.m. Mr. Nagappa that in the assignment of waste lands, the rights of Harijans have been neglected and that other communities have been given such lands, all I wish to say is that if he brings any particular case to the notice of the Government, Government will be only too glad to look into it.

“ With regard to Muslim representation in the services, so far as I know, I can say that the rule *re. communal rotation* (i.e., 2 out of 12) is being observed in the Revenue Subordinate Service, and among higher officers, I may inform the Hon. Leader of the Opposition that out of 217 Deputy Collectors in this Province, as many as 36 belong to the Muslim community, so that they have full representation in that service. If the point is to be stretched further that there should be a definite percentage of Moplah representation or that there should be so many Shias or Sunnis and so on, I would say, Sir, that it is carrying things too far. The community is taken as a whole and no discrimination is made within the community. This rule has been in operation for many years and I find at least in one cadre as I have already submitted there are 36 Muslims out of 217. My hon. Friend Mr. Nagappa wants to know how many Harijans there are. I have to say, Sir, that there are none, so far as listed posts are concerned. But amongst Deputy Collectors I know that there are more than one. If he puts down a separate question on this matter, I shall be only too glad to supply him the answer.

[Hon. Sri K. R. Karanth] [14th August 1946]

"Then as to the general question of revision of salaries, I may submit, Sir, that it should not at all be thought that the present Government are unmindful of their difficulties. It is not paying merely lip-service when I say, Sir, that the Government are aware of their difficulties and are giving the matter their fullest consideration. As the House is aware, a Committee of the Cabinet has been appointed yesterday itself and it will work as soon as possible so that the necessary relief might be afforded soon. The Government are well aware, Sir, that prices of things have gone up. I read only last week that the cost of living index is somewhere near 232 per cent in the Coimbatore district, where it seems to be the lowest, about 292 per cent in Ellore and about 243 per cent in Madras. Thus their difficulties are real and I can only request these services—and as was rightly stressed by some Members and particularly by the Leader of the Opposition and the Leader of the Independent group—not to indulge in any threat of strikes. After all, I may tell them and everybody else that if threats are given every day, they lose their value. We all realize their hardships; we shall bear them in mind and we shall do our utmost to see that their just grievances are redressed.

"Then let me come to the question of raising the pay of village officers which concerns my department immediately. We have gone into this question and the matter is under the immediate consideration of the Government and a decision will be come to in the next few days. There has been some delay, but I would request the House to give us some indulgence, because in these three months there were not one or two but dozens of urgent questions which have been engaging our attention and this one also will be settled soon. With respect to this question also, I must ask the village officers to be reasonable. Out of the land revenue of about Rs. 825 lakhs at present the salaries of the village establishments come to nearly Rs. 200 lakhs and if their present demands are to be fully met, it will come to about Rs. 420 lakhs. I would request the House to realize what this would mean. It would mean that out of the land revenue, we shall have to give half of it on salaries alone. A further consideration which the village officers should bear in mind is that when the system was introduced somewhere in 1800 or so, they were supposed to be honorary. Even to-day it is more or less an honorarium that is given to them. They are not in any regular or wholtime service. They want that the hereditary system should continue with all its privileges. Some hon. Members in this House have strongly expressed their objections to the retention of this system. Therefore I would request these village officers to have some consideration for the difficulties of the situation in meeting their demands.

"One other matter that was mentioned was about the corruption of Revenue officials. On this I will not say more than this. The Government are quite anxious that corruption should cease. I am myself personally aware that there is a good deal of corruption in the department. Before I took up office, as a non-official I have myself gone into villages and understood the difficulties of villagers in the matter of procurement and at every stage there used to be

14th August 1946] [Hon. Sri K. R. Karanth]

trouble. At the same time hon. Members are aware that a new department has been created to deal with corruption. It will help us and the Government if definite cases of corruption are brought to our notice. During the last three months a number of petitions were received by me with false names and false signatures. They were sent for enquiry and no such persons were traced and it is no use sending petitions in the name of 'Truth,' 'Anti-corruption' and so on. It will help us greatly if hon. Members and, more particularly, those outside could bring definite charges and be prepared to substantiate them. Otherwise it would be rather difficult to put down corruption though we are in duty bound to see that these corrupt practices do not continue any longer.

"I have tried, Sir, to deal with most of the points raised by hon. Members. I would request the House to remember that we are fully alive to the importance of questions regarding taxation, land tenures, fixation of reasonable rents and so on. The whole system has to be revised and I would only request hon. Members to give us a little more time so that we may bring forward measures which would be acceptable to the House and which would be reasonable and just. In the short time at our disposal it has not been possible to do more and I would therefore request the hon. Member who moved the cut motion not to press it."

* THE HON. SRI T. PRAKASAM :—"Sir, I would not have got up to offer any remarks on this item, but for the fact that it has become necessary to supplement the speech of the Hon. the Revenue Minister and to explain the policy of the Government on this subject a little more in detail with regard to certain items. On the question of the abolition of the zamindari system, most of the hon. Members who spoke are in favour. The abolition of the zamindari is not a step that could be taken immediately by this Government or by this House because of certain technical difficulties. During the time of the last Congress Government the question regarding the reduction of rent of the zamindari tenants was also considered by the Estates Land Act Committee. The Committee considered all aspects of the question including also the abolition of the zamindari system as it stood. Having regard to the technical difficulties of obtaining the assent of the Secretary of State, without which the abolition could not be effected, that Committee deliberately left out that course and then considered which was the best way of giving relief to the zamindari tenants who have been groaning under unbearable taxation. They examined the question from all sides. They took considerable time to investigate the whole question and the reason for not having brought forward that Bill to the Legislature was, to a large extent, due to the length of time taken up by the Committee in the investigation stages. It was least thought that the war would be coming upon this country and that the Government would be forced to go out of office. ((Mr. Hameed Khan : 'Who forced?'))

"Now what was considered then is also being considered by this present Government. What is the relief that the Government can give to those tenants, both in the zamindari areas and also to those

[Hon. Sri T. Prakasam] [14th August 1946]

in the governmental areas, by way of reduction of taxation in the one case and rent in the other. This is a matter that has been engaging our attention since we took up office. You will remember, Sir, that when this subject was taken up last time, it was explained in full, it was subjected to the criticism of the public and it was subjected to the criticism of those few members who took a different view in the Committee and recorded their dissenting minutes as well. The question was examined how when the zamindars were enhancing rents from time to time the Government also were enhancing the taxes on the ryotwari lands from time to time. These questions were discussed at great length during the period of the late Congress Government. So far as the Government jirayati lands were concerned, the policy of the Government with reference to the enhancements made by the Government from time to time was discussed and it was decided that all the resettlement enhancements made from time to time should be cancelled just as in regard to the zamindari areas all the enhancements made by the zamindars from time to time should be cancelled. It was decided that a proper rate of tax or rent to be paid by the tenants in both the cases should be fixed by the Government.

“With regard to the zamindari system, the Committee went to the very bottom of the whole matter and then it was ascertained that between the years 1802 and 1810 the permanent settlement was introduced into this country and the Government issued sanads or other documents to the zamindars in which they declared that the rents then fixed were permanently fixed and were unalterable. It was also ascertained from the permanent settlement deeds that were issued that these rents were fixed once for all and that there should be no enhancements in them in future. Therefore the Committee came to the conclusion that the rates fixed from 1802 to 1810—there were different dates for different zamins when permanent settlement sanads were issued—should be the rates which the tenants were bound to pay and all the enhancements made from that date by the zamindars were unauthorized and the tenants were not bound to pay the enhancements which should be cancelled.

“The Committee's report was published, thoroughly examined by the public, criticized by them and a Bill was prepared and it was ready for presentation to the House. But for some reason or other there was an unfortunate delay in introducing that Bill in the House. On account of that delay and on account of the declaration of war, the whole thing was dropped. Now, Sir, in the present Government myself and the Hon. Minister Mr. Giri are the only two connecting links between the old Government and the present Government. Both of us could perhaps say something about what happened at that time, what the policy of the Government was and how it was intended to carry it out. Now the Hon. Minister for Revenue has put the case very carefully and considerately. The whole question is again under the consideration of the present Government. They are examining how best to give relief to the tenants in the zamindari areas. I want to emphasize what the Hon. Minister for Revenue has said, that

[14th August 1946] [Hon. Sri T. Prakasam]

after what has been done in that period by way of preparing the report, drafting the Bill and making it ready for presentation to the House, we have not abandoned that policy and we stick to that policy now. Some hon. Members stated that the zamindari system should be abolished immediately. And some of the zamindars who were our old friends seeing that many long years had elapsed after the Committee had reported had been putting up a strenuous fight against even the reduction of rent on the basis proposed by the Committee. Now during this period the zamindars have understood that the country has taken up the whole matter into its hands and was pressing that the Bill should be passed into law. During all these years there has been an incessant demand all over the country that the rents of the zamindari lands should be reduced immediately, if the system itself could not be abolished. We cannot think of introducing a Bill for the abolition of the zamindari system even now. What the United Provinces Government have done is this: A resolution was moved to the effect that the zamindari system should be abolished and the resolution was passed. When that was passed, some Members walked out of the House. They are just beginning to tackle this question. We have taken up this question long ago and the unfortunate tenants of the zamindari areas would have been reaping the benefits of our legislation for the last 7 or 8 years if it had been an accomplished fact. The tenants have suffered immeasurably and it is not easy to describe their sufferings in a few words. During the last few months it has been made clear to every one that a zamindari legislation is coming in. Some of the careful zamindars have taken care, good care to see that certain rights which will devolve upon the tenants according to the proposals of the report could not possibly be exercised by them. They have been cutting the forests and encroaching upon other rights which have been declared in the report to belong to the tenants and not to the zamindars. The tenants who had been enjoying certain rights from very ancient times, such as rights over forest produce, grazing rights, etc., have been shut out from their enjoyment. But we cannot do anything straightaway with regard to this matter. I have consulted the Hon. the Revenue Minister and we think that it has become our duty before this session is over to introduce a Bill, a short Bill calling upon the zamindars not to continue their operations of denuding the forests and reducing all the rights that will belong to the tenants. It is our policy to adopt the best possible method to give immediate relief to the tenants. We cannot postpone these things until the zamindari system is abolished once for all. Before that date whatever relief we could give, we have to give them and that will be done by this Government and I hope this House also will support the Government in the matter. A small Bill will be introduced by the Hon. Revenue Minister calling upon the zamindars not to do anything which had been prohibited in that particular report on the basis of which a Bill has been prepared, and requesting them not to pursue that policy.

[Hon. Sri T. Prakasam] [14th August 1946]

“With regard to Government jirayati lands the Hon. Minister for Revenue has explained the position and the Government are considering how best the tax on ryotwari lands could be reduced and the ryots relieved of the burden. During the interval before legislation could be introduced remissions were given because legislation would have taken time. My hon. Friend Mr. Kala Venkata Rao said that the relief given during that period had not been mentioned in the budget. I may assure hon. Members that whatever can possibly be done by this Government by way of redemption or reduction of taxes on Government jirayati lands would be done. As Revenue Minister in the late Government I had considerable difficulty to have another committee formed through the legislature to consider the question of reducing the taxes on Government jirayati lands similar to the zamindari committee that was appointed. The Revenue department then decided that that department itself should undertake to produce a Bill and a Bill was actually prepared by me with the help of my good Friend Mr. Holdsworth, the then Revenue Secretary, a very able and conscientious man. With his help we thought we could do something by way of reduction of tax on Government jirayati lands in the same way in which it was proposed to be done in the case of the zamindari lands. At that time some of the zamindars were not in a good mood as they are today and they challenged me on the floor of the House: ‘You have undertaken legislation for zamindari areas, have you thought of doing a similar thing for the ryotwari areas?’ I told them: ‘Exactly the same thing I am going to adopt with regard to the Government jirayati lands.’ Just as in the case of zamindari lands the Government took as the basis the rents fixed in the period 1802 to 1810 so also in the case of the Government lands we went into the old records and decided that the 1810 rates were the proper rates for the Government lands also. It was on that basis that the Bill was prepared by myself and Mr. Holdsworth. That Bill is there. We have not examined it. Both these Bills will be placed before hon. Members and before yourself. We are hoping that the zamindari legislation will come very soon within the next two or three months. Whenever we go out to any part of the country, we hear one cry: ‘What about the zamindari legislation?’ Some people have come to think that this legislation would not come after such a long period. Some people may have thought that those who are responsible for this legislation have been locked up in jail and perhaps would never come back. Sir, we have come back not with a view to do any harm to zamindars or to any other person needlessly, but with a view to do our duty to the people of this country. That is the position so far as the two systems are concerned.

“The country demanded relief long ago and if proper arrangements had been made to prevent the agriculturists from becoming chronic and hopeless debtors, matters would have been quite different. But such a thing was not possible. My hon. Friend has spoken about the landless labourers. Let me tell you,

14th August 1946] [Hon. Sri T. Prakasam]

Sir, that the landless labourer was not a labourer from the very beginning. Most of the so-called landless labourers today were persons who, or whose ancestors, once possessed land in this country. But out of the wretchedness of their financial position they were obliged to borrow small sums from other persons and not being able to repay those small sums they had to abandon the land to the very persons who lent them money and become landless labourers on the same lands. That is the wretched system, the tragedy that has been enacted in this country. We are bent upon doing all that is possible to introduce necessary reforms and improve the lot of these people. My hon. Friend asked what would be the result if those who owned only one acre of land were exempt from taxation. If you take a little higher than that there may be a little difference. The whole matter will be examined. If it is only possible to get other sources of revenue and completely redeem the land from all taxation this Government would not hesitate to take that step also. But the system has become so involved that it is not easy to solve the problem in a few days or even one or two years. It will require good time to consider the whole thing not only by ourselves, the Ministers, but also with the help of the experts who could bring their knowledge to bear upon the subject.

“Therefore, Sir, so far as the criticisms of hon. Friends are concerned, they may take it that although the Government may not take their suggestions as they come bodily and try to put them into execution, the intention of the Government is to see that the whole thing becomes comfortable for all the sufferers in this land, particularly the land owners.

“I do not propose to deal with all the other items on which my hon. Friend has already spoken. With regard to these revenue matters, other systems of land revenue also are being examined. Even in those days, we appointed a Committee to go into the Malabar land tenure question, but it was not done to perfection. I myself was not very much satisfied with it. But I may say that whatever changes have to be made will be made. With regard to South Kanara there is a peculiar system and my hon. Friend the Revenue Minister will be able to put it in proper order. So far as the Revenue Department as a whole is concerned, the House may take it that the Hon. Minister in charge is such a capable man that he will give every bit of his energy for bringing the best possible reform in this direction.

“One thing was said about the Harijans. One crore of rupees the hon. Members of this House and yourself were good enough to keep aside for the uplift of the Harijans. But it was stated that the schemes had not come before this House. I say, Sir, that the schemes will come before this House and hon. Members will see how best the funds will be utilized for the benefit of the Harijans. There is a wrong impression in certain quarters that lump sums of Rs. 1,000, Rs. 5,000 and Rs. 10,000 would be put in the hands of various people to do what they liked with the

[Hon. Sri T. Prakasam] [14th August 1946]

money. Nothing of the sort will happen here under this Government. Under this system whatever might have been the drawbacks in the past every pie will be accounted for. This is only an investment and not anything given away to anybody in charity. In a couple of years you will see how this money has been invested to the benefit of the poorest of the villagers who have been abandoned for a long time. In the first year we will not be spending more than Rs. 5 lakhs as subsidy, i.e., the difference between what we spend and what we get back. In the second year it may go to more than a crore of rupees. All this will be spent for the benefit of the Harijans who should be entitled to what all others are entitled to have or are having in other parts. This money will be advanced for their uplift.

"I now come to the Muslim League claims. They should have no complaint, my hon. Friends on the other side, on this score. The Muslim community is so much on the higher plane than the Harijan community. If anything had been offered to them by way of setting apart Rs. 1 crore they would have asked me, 'What on earth are you doing? Are we going to take doles like this?' and hon. Members would have resented this."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"This is a very good way of explaining things."

* THE HON. SRI T. PRAKASAM:—"There is no question of explaining things. If Mr. Hameed Khan thinks that this is an excuse . . ."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"You can give it even now."

* SRI V. I. MUNISWAMI PILLAI:—"They are not depressed classes."

* THE HON. SRI T. PRAKASAM:—"They are not depressed classes, Sir. I will be able to show that they are the topmost class. All others are depressed classes."

"Hon. Members may take it from me that it is never the intention of the Government to treat one community differently from another community. As regards the Harijan community most of you admitted that something extraordinary had to be done for them. How that could be done you will see when the scheme is produced before you; not merely a paper scheme, but a scheme which can be put into execution. You will understand that it is not a scheme merely for Harijans. If a land colonization scheme is adopted for the Harijans, keeping them as the chief factor there, it will not be the Harijans only that will be enjoying the benefits but also the Muslims, the so-called Brahmans, the Non-Brahmans and all other names by which you may call the people. As far as possible they will be brought together and they will be made to work together. Not merely that. If we have a list of all the lands available . . ."

14th August 1946]

* MR. SPEAKER:—"There are only three minutes more."

* THE HON. SRI T. PRAKASAM:—"Yes, I know. I have seen the time, Sir."

* MR. SPEAKER:—"But you must give me some time to put the demand to the vote of the House."

THE HON. SRI T. PRAKASAM:—"In that statement I was not exhaustive. If I take an area of 1,000 acres of land and I put up a new colony there, all the wells, the schools, and the hospitals in the colony will be for the common use and the common enjoyment of everybody. Not only that; there will be land set apart for the common cultivation of the persons living in the colony. So many acres will be for the joint cultivation of the people. The joint income will be deposited and the taxation, the cost of schools, hospitals, etc., will be met out of that joint income. In addition we propose to make provision—because the joint ancestral property system has been abandoned by the people and they have got used to separate properties—a few acres will be set apart for separate cultivation. In that way we will try with your support and co-operation, perhaps in one or two years, to bring into existence some colonies. Then my hon. Friend Mr. Hameed Khan will go with me along with my Friend Mr. Ismail Sahib and others. This has nothing to do with the political question. All will be brought together."

* MUHAMMAD ISMAIL SAHIB BAHADUR:—"Brahmans also along with the Harijans?"

* THE HON. SRI T. PRAKASAM:—"Brahmans also will be with the Harijans . . ."

* MR. SPEAKER:—"The time is up."

Sri Pillalamarri Venkateswarlu's cut motion was by leave of the House withdrawn.

Demand I was put and carried and the grant was made.

The House adjourned to meet at 11 a.m. on Thursday, the 15th August 1946.

VIII.—PAPER LAID ON THE TABLE OF THE HOUSE.

Notification appended to G.O. No. 1224, L.A., dated the 15th July 1946, making certain alteration in the jurisdiction of the Madura and Ramnad District Boards.

[14th August 1946]

APPENDIX.

[Vide answer to starred question No. 81 asked by Sri A. B. Shetty at the meeting of the Madras Legislative Assembly held on 14th August 1946, vide page 324 supra.]

Enquiry into Land Tenure—Note issued to the Press on 27th June 1946.

With a view to implement the Election Manifesto of the Congress in regard to the reform of the land tenures in the ryotwari areas of this Province and with a view to bring in legislation on the matter as early as possible, this Government have sanctioned the appointment of an officer of the grade of a Collector to make the necessary investigation into the whole subject. It is well known that the tenancy conditions in the Province vary from district to district and some times even in one and the same district. In regard to the ryotwari areas there has been legislation only in Malabar. Before, however, any new legislation can be introduced to meet the needs of other ryotwari areas of the Province, it was thought desirable that a full and proper investigation should be made regarding the conditions of tenancy including security of tenure, duration of tenancy and fairness of rent. Sri Rao Bahadur N. Raghavendra Rao has been just appointed to the post and taken charge of his office. He will carry out the proposed investigation in detail in some of the typical districts of the Province and generally in other districts also. For the present the period of work has been sanctioned for three months. It will be extended if necessary. In the course of the enquiry which he will undertake, the assistance and co-operation of the public will also be sought.

In regard to the Malabar district, the public are aware that there has been a report submitted by the Committee appointed by the late Congress Government in 1939 on the working of the Malabar Tenancy Act. The report is at present under the examination of the Board of Revenue. The Special Officer referred to above will also go into the investigation of the conditions in Malabar in the light of the said report.

THE MADRAS LEGISLATIVE ASSEMBLY.

Thursday, the 15th August 1946.

The House met at the Assembly Chamber at eleven of the clock on Thursday, the 15th August 1946, Mr. Speaker (THE HON. SRI J. SIVASHANMUKHAM PILLAI) in the Chair.

I.—QUESTIONS AND ANSWERS.

STARRED QUESTIONS.

Re-employment of Sir Sidney Burn to the post of Chairmanship of the Public Service Commission, Madras.

* 85 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Prime Minister be pleased to state—

(a) whether it is a fact that the public are much dissatisfied that Sir Sidney Burn has been recently re-employed after retirement and appointed to the post of the Chairmanship of the Public Service Commission, Madras;

(b) what is the exact age of Sir Sidney Burn and that of his immediate predecessor, Sir John Hall, who has just retired; and

(c) up to what age the Chairman and members of the Public Service Commission can be retained in their posts?

THE HON. SRI T. PRAKASAM:—“(a) The Government have no information.

“(b) Sir Sidney Burn has completed 65 years and Sir John Hall, 64 years.

“(c) No age limit has been prescribed.”

BEGUM SULTAN MIR AMIRUDDIN:—“Are the Government aware that the insistence of some European civilians to cling to jobs in India in this manner serves as a hardship on Indians and has given rise to the demand that Britishers should leave this country?”

THE HON. SRI T. PRAKASAM:—“I may answer this question by saying that it is not due to the mere holding on to offices that has produced the present atmosphere and the demand made by the people of the country. Several other causes have contributed towards that.”

BEGUM SULTAN MIR AMIRUDDIN:—“When the age of retirement even for the Judges of the Federal Court has been fixed by the Government of India Act at 65, is there any justification that a man who has attained the age of 65, which is the maximum age that has been prescribed for people in this country to serve, should be appointed to any post?”

THE HON. SRI T. PRAKASAM:—“I hope this question would be considered by the authorities concerned.”

[15th August 1946]

SRI S. NAGAPPA:—"In view of the fact that so much of dissatisfaction is prevailing in the public mind as regards the Service Commission and its functions, will the Government consider it desirable to abolish the Service Commission and appoint a Board consisting of all classes and interests?"

THE HON. SRI T. PRAKASAM:—"The hon. Member may note that there are limitations for the exercising of the authority of the Provincial Government; and sometimes some things are not within the scope of the Provincial Government."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know, Sir, whether any period has been fixed during which Sir Sidney Burn has been appointed?"

THE HON. SRI T. PRAKASAM:—"I will get the information and tell the hon. Member."

BEGUM SULTAN MIR AMIRUDDIN:—"Since aged people cannot be very efficient, will the Government consider the desirability of imposing some age-limit for the retirement of the Chairman and the Members of the Public Service Commission?"

AN HON. MEMBER: "What about the Premier?" (Laughter.)

THE HON. SRI T. PRAKASAM:—"I think such limit has already been fixed in most cases; and it was not fixed only in cases where that could not be done."

DR. S. SUBRAHMANYA AYYAR:—"In view of the fact that the present Service Commission is to select only candidates for the Provincial Services, will the Government think of the desirability of abolishing the recruitment of Europeans to the Public Service Commission?"

ABDUL HAMEED KHAN SAHIB BAHADUR: "On a point of order, Mr. Speaker; this question does not arise."

MR. SPEAKER:—"Let him answer."

THE HON. SRI T. PRAKASAM:—"The question does not arise, and the hon. Member should be looking to somewhere else."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Is the Hon. the Premier aware that there is a considerable feeling among the minorities that there is a combination between the Congress and the Europeans in this country?"

MR. SPEAKER:—"What has that got to do with this question? I rule it out of order."

DR. S. SUBRAHMANYA AYYAR:—"Sir, what are the principles underlying the selection of the personnel of the Public Service Commission?"

THE HON. SRI T. PRAKASAM:—"That question also does not arise out of this; information could be supplied to the hon. Member later."

[15th August 1946]

SRI S. NAGAPPA:—"Will the Government consider the desirability of appointing a Harijan in the next vacancy?"

THE HON. SRI T. PRAKASAM:—"No such undertaking will be given to the hon. Member or to anybody else."

Export licences for handloom cloth.

* 86 Q.—SRI N. S. VARADACHARI: Will the Hon. the Minister for Industries and Labour be pleased to state—

(a) the policy underlying the issue of export licences for handloom cloth; and

(b) whether in the past such export permits were issued to persons unconnected with the handloom industry?

THE HON. SRI V. V. GIRI:—" (a) The attention of the hon. Member is invited to the Press note issued by the Provincial Textile Commissioner on 5th July 1945. Four copies of the note are placed in the Legislative Assembly Library.

" (b) The question is being examined."

SRI N. S. VARADACHARI:—"Are the Government aware that these permits are being sold after being reduced into half or a third or a fourth of the quantities?"

THE HON. SRI V. V. GIRI:—"I shall be delighted to have the information from the hon. Member; and if it is so, the question will certainly be examined."

DR. S. SUBRAHMANYA AYYAR:—"Will the Government consider the desirability of controlling the export of handloom cloth through the medium of the Provincial Co-operative Handloom Weavers' Society?"

THE HON. SRI V. V. GIRI:—"We will consider."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Will the Minister explain what are *ex-gratia* permits?"

THE HON. SRI V. V. GIRI:—"Ex-gratia is ex-gratia."

SRI PILLALAMARRI VENKATESWARLU:—"Does the Minister propose to ban all exports of handloom cloth?"

THE HON. SRI V. V. GIRI:—"No."

SRI N. S. VARADACHARI:—"Will the Government consider the desirability of restricting the issue of permits to those who organize production and not to those who want to sell these permits in public auction?"

THE HON. SRI V. V. GIRI:—"Certainly it will be considered."

SRI GUNTUR NARASIMHA RAO:—"Is the Hon. Minister aware that the Madras Provincial Handloom Weavers' Society are asking for tenders for handloom cloth and exporting it at enormous price?"

THE HON. SRI V. V. GIRI:—"I am not aware, Sir."

[15th August 1946]

SRI N. S. VARADACHARI:—"Are the Government aware that in most of these cases where permits have been issued, a quantity above the quota permitted under the licence is being exported, and have Government recently captured any such cases?"

THE HON. SRI V. V. GIRI :—"Notice, Sir."

SRI GUNTUR NARASIMHA RAO:—"Are the Government aware that some of these licences have been restored to the parties and that on some ground, several licences have not been restored to the parties?"

THE HON. SRI V. V. GIRI:—"Notice."

SRI N. S. VARADACHARI:—"Is the Hon. Minister aware that because of the indiscriminate issue of licences to non-producers, the production of handloom cloth available for local consumption is being reduced?"

THE HON. SRI V. V. GIRI:—"The matter will be gone into."

SRI S. NAGAPPA:—"May I know, when our province is experiencing an acute scarcity, what is the policy of the Government in issuing licences in order to export cloth outside the province?"

THE HON. SRI V. V. GIRI:—"In order to maintain the custom."

SRI N. S. VARADACHARI:—"Will the Government guarantee that a uniform policy will be pursued in respect of the cancellation of licences in respect of those who have not fulfilled the terms of the licence?"

THE HON. SRI V. V. GIRI:—"Certainly the matter will be considered."

SRI S. NAGAPPA:—"Do the Government want to keep the custom in spite of the acute scarcity in the province?"

THE HON. SRI V. V. GIRI:—"It might become necessary."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know why some of the members on the Treasury Benches are becoming members of the Opposition?" (Laughter.)

SRI N. S. VARADACHARI:—"Will the Government consider the advisability of restricting the issue of the permits to the producers?"

THE HON. SRI V. V. GIRI:—"The hon. Member has already asked the question twice."

SRI V. I. MUNISWAMI PILLAI:—"May I know from the Hon. Minister the number of export licences issued?"

THE HON. SRI V. V. GIRI:—"Notice."

[15th August 1946]

Muslim women teachers in the mufassal.

* 87 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Education be pleased to state what steps have been taken to relieve Muslim women teachers of the hardships that they suffer in the mufassal because residential quarters are not provided for them?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

"Instructions have been issued that accommodation should be reserved for Muslim women teachers in all hostels attached to the Government educational institutions for Muslim girls in which they serve. Inspectresses and heads of institutions have also been circularized to make all possible arrangements to provide residence for women teachers who are in need of it, in the hostels attached to schools. The Director of Public Instruction has also been asked to submit proposals for providing staff quarters attached to Government schools for Muslim girls, as and when such provision becomes practicable."

BEGUM SULTAN MIR AMIRUDDIN: Is the Hon. Minister aware that provision of accommodation for Muslim women teachers in hostels has not proved very satisfactory, and will the Government be pleased to consider the desirability of providing these teachers with separate accommodation?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

"I wish, Sir, the hon. Member puts each question separately instead of joining them all together?"

SRI P. NATESAN:—"Are other than women teachers also provided with residential quarters in the mufassal?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

"This question refers only to women teachers."

BEGUM SULTAN MIR AMIRUDDIN:—"Is the Hon. Minister aware that the provision of accommodation for women teachers in the hostels has not proved satisfactory?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

"No."

SRI P. NATESAN:—"May I point out, Sir . . ."

MR. SPEAKER:—"You cannot point out."

SRI P. NATESAN:—"My question was: are other than Muslim women teachers provided with residential quarters in the mufassal?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

"This question refers only to the housing of Muslim women; if the hon. Member wants to put a question regarding other than Muslim women teachers, I shall answer it."

[15th August 1946]

BEGUM SULTAN MIR AMIRUDDIN:—"Will the Hon. Minister enquire into the matter and if necessary provide separate accommodation for Muslim women teachers?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The hon. Member will kindly look at the latter part of the answer."

II.—DEMANDS FOR GRANTS FOR 1946-47.

DEMAND II—PROVINCIAL EXCISE.

[Note.—An asterisk (*) at the commencement of a speech indicates revision by the Member.]

* THE HON. SRI K. KOTI REDDI:—"Mr. Speaker, Sir, on the recommendation of His Excellency the Governor, I move—*'that the Assembly do assent to a Demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as, together with the expenditure already incurred in April 1946, will amount to Rs. 48,64,700 in respect of the head "Provincial Excise". The expenditure incurred in April 1946 is believed to be Rs. 3,23,662.'*"

* MR. SPEAKER:—"The motion before the House has been moved by the Hon. the Minister for Excise. Mr. Muhammad Ismail, the Leader of the Opposition, will now move his cut motion."

11-15 a.m. M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Mr. Speaker, Sir, I have the honour to move the motion standing in my name, i.e.,—

'to reduce the allotment of Rs. 48,64,700 for Provincial Excise by Rs. 100.'

At the outset, Sir, I have once again to congratulate the Government on the prohibition policy which they have introduced in the Province, though partial this year. I hope and expect that the whole Province will be brought under prohibition very soon. If the matter is tackled properly and judiciously, I am sure that it will prove not only a success but will also prove a very good precedent to the other parts of the world in the matter of prohibition. It is said, Sir, that this prohibition ought to have been preceded by education, both propagandist and general, literary education. That will simply mean, according to me shelving, the question for ever, because people are never going to be educated in the matter before they are going to accept it. That it is not possible can be seen from the fact that the Americans and other Western nations though they are as fully educated to-day as they can be under conditions prevailing in their countries, have not introduced prohibition and even people there are not for prohibition, if what I am told is correct. Therefore, Sir, I say education need not necessarily go before the introduction of prohibition. On the other hand, education—general as well as propagandist education—in favour of prohibition might go hand in hand with the execution of the prohibition policy.

15th August 1946] [M. Muhammad Ismail Sahib Bahadur]

"Again, it is said that toddy and certain other drinks in this country have got a nutritional value and that prohibition would deprive the people of their food value which they get through toddy and it is also said that drink gives them relief from weariness, and so people who take to it as a matter of recreation and to forget their weariness must be allowed to do so. Much has been said on this question. But I would simply point out that there may be food value in toddy as there is in many other things but this food value is much more than counter-balanced by the evils which attend the drink habit of the people. It undermines the mind, and the mental vigour and the health of the people. Any amount of food value cannot compensate the evils which the drink perpetrates on the mind and the health of the people.

"Again, it is urged that prohibition is a matter which interferes with the individual liberty of the people. Individual liberty of course is a sacred thing but it is not an absolute thing; as everything else, it is also a relative term. A man is not free to do anything he chooses. His liberty should be exercised in justice to society and in justice to himself. But I may say that one is not free to do anything he pleases. He is not even free to injure himself. He owes it to society that he should not injure himself. In his own interest and in the interests of society certain curtailments and restrictions have to be placed upon individual liberty. If I remember correctly, it is Tenyson that said: 'Freedom bound is freedom gained'. Therefore, it is in the interests of the individual as well as in the interests of the society at large that certain restrictions have perforce to be placed on individual liberty and it is particularly so in the matter of this drink habit. Sir, this is an important item in the welfare of the people the Government have taken up; I mean this prohibition. They must see that it is a success and a very good success; if not, it will be worse than their not having introduced prohibition. While they must enforce it in all earnestness, they must at the same time see that in such enforcement the people are not harassed. They must steer clear between these two evils—indifferent enforcement and harassment. Otherwise, the success that we all expect and which we all want out of this policy might not be attained.

"Sir, there is the Excise staff who have been carrying out the Excise policy of the Government for so long. They know this field thoroughly well. They know the habits of the people; they know the activities of those who are engaged in this field and also those who are engaged in the illicit manufacture of liquors and they also know how to prevent such illicit activities. Therefore, I say in the name of the success of prohibition, the enforcement of prohibition law must be entrusted to the Excise staff rather than to the Police.

"Another important factor which I would urge and that too for the success of this policy is that the people who are now engaged in tapping the trees and who deal in toddy and liquors

[M. Muhammad Ismail Sahib Bahadur] [15th August 1946]

must be provided for. Very earnest attention should be paid to see that they are not thrown out of employment for that will produce a clamour and induce them to indulge in activities which will go against the success of prohibition. Therefore, Government must seriously think of measures to absorb them in other fields of employment; for example, they may encourage very vigorously the manufacture of jaggery. There is of course some jaggery manufacture in the Province and the Government also is paying some attention to the matter but I say that is not sufficient. Jaggery must be manufactured out of all the juice that is tapped now; and many other products can be manufactured out of jaggery. Even though private effort may not be so very enthusiastic as is necessary, I think Government must give all active and enthusiastic support to the advancement of this industry which is only in its nascent and initial stage just at present.

"In this connection, I would like to point out that the Inspectors, Assistant Inspectors and Sub-Inspectors of the department are not given time-scales in the matter of their salaries. It is not at all fair to deny them this facility which the Government servants of other departments enjoy. It is not fair that they should be asked to remain on the same salary for years together until they are promoted to the higher ranks. It is therefore really a serious matter which ought to engage the attention of the Government. Again in regard to the peons of the Excise department I am told that their pension is only one-third of their salary while the pension of the other Government servants is half their salary. The Salaries Commission, the result of whose activities I do not know, I understand have recommended that these peons also might be given half their salary as pension. Equity demands that these poor Government servants also must be placed on the same level as the others. Apart from this, there is the question of lowness of the pay of the servants of this department as well. The whole service must be reviewed from the point of view of raising their salaries.

"Finally, Sir, I would mention that the Muslims are not having their adequate representation in this department. I hope that Government will look into the matter and redress this grievance of the Muslims. With these words, I move the motion."

SRI PILLALAMARRI VENKATESWARLU:—"Mr. Speaker, Sir, in regard to prohibition, there is a controversy raging as to in how many districts it has to be introduced or whether total prohibition should be introduced or not. But the Government have decided that eight districts should have it now. As a matter of fact, Sir, when every one of us, particularly our party, wholeheartedly supported the demand for the introduction of total prohibition to root out the drink-evil from our land, we viewed it entirely from a different angle. It is not because that prohibition is a panacea for all evils. By itself it is not going to solve the

15th August 1946] [Sri Pillalamarri Venkateswarlu]

problem. To-day the country is facing other problems much more vital to us, and we expect the Congress Party and other responsible leaders to give more attention to such problems instead of going on with prohibition—partial or total—in eight, twelve or twenty-four districts. Apart from the issue facing us we have to look to the grievances of the workers and the people as a whole. Sir, with prohibition, another question arises. Prohibition creates another problem, the question of finding employment for the toddy-tappers. Even the previous Congress Government did not do much in the case of toddy-tappers and did not solve their problem. It did not provide alternative employment to these toddy-tappers. The Leader of the Opposition has suggested that enforcement of this Act should not be entrusted to the police. Sir, we know how the police are doing the jobs entrusted to them in other spheres and how they are merely arresting people and breaking the heads of people. For instance, we are seeing the Madras City Police breaking the heads of people when they are going on peaceful strikes. To-day, I have received reports that a Sub-Inspector beat people who were sitting in a line and peacefully picketing. I would therefore request the Hon. the Prime Minister not to entrust this duty in regard to this department to the police but to accept the suggestion of the Leader of the Opposition in order to avoid violent means and harassment of these people."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"On a point of order, Sir. Does the hon. Member mean to suggest that by bringing this matter under discussion on prohibition, the people assembled there were drunk?"

SRI PILLALAMARRI VENKATESWARLU:—"I did not hear the hon. Member properly."

* MR. SPEAKER:—"You told the House that the police gave trouble; were the people drunk at that time?"

SRI PILLALAMARRI VENKATESWARLU:—"The people were quite sober; they do not drink in morning hours; they were peaceful. Perhaps the police might have been drunk. (Laughter.)

"Now, Sir, as regards providing alternative employment to these toddy-tappers, manufacture of jaggery and other industries can be developed, though these by themselves cannot solve the problem of unemployment of the toddy-tappers. I therefore suggest the starting of other separate industries to help these people. It is unfortunate that no provision has been made in the Budget for the development of jaggery and other industries. I request the Hon. the Prime Minister to take some amount from out of the village reconstruction fund for the development of these industries so that these toddy-tappers may be provided with alternative employment and saved from starvation.

"Apart from providing employment for these people, their welfare also should be looked after. It should be noted, Sir, that it is not for the sake of pleasure that they resort to drink; on the

[Sri Pillalamarri Venkateswarlu] [15th August 1946]

other hand, it is due to their ignorance and lack of other recreation. No propaganda has been carried on; they are not at all educated. Educated people, because of their education and training and because they move in other spheres do not frequent these toddy shops. If these workers are also educated and if propaganda is carried on among them and if facilities are given to them by means of other recreations, I am sure this evil will be rooted out, instead of taking the help of the police for this purpose. In this connexion, I would like to bring to the notice of the House the suggestion made in the papers regarding the opening of banks for the workers to enable them to save money. I am amazed at the idea. I do not know how workers can be expected to save money and invest it in banks. How much they are getting now? I do not know whether those responsible leaders who have made the suggestion, have ever gone into the family budget of the workers, to see how much they get, and how much they could save after spending for their necessities of life. That is a question which requires an answer. I am sure the Government are aware that the worker has not got enough money to save and to invest it in banks or to utilize it for his own needs.

“In this connexion, I would like to bring to the attention of the House another aspect of the question and that is in regard to the question of increased tax on foreign liquors. Since it is only the rich that resort to foreign liquors they can easily afford to pay the increased tax. Sir, it will be seen that out of a total of 13.6 crores of revenue, we are getting only 54 lakhs from foreign liquors and last year it was 74 lakhs. I am sure, Sir, that if the tax on foreign liquors is increased, we will be getting a greater revenue.

“Here, Sir, I would like to refer to another question and that is in regard to the question of opium. At present, the Government themselves are trading in opium; they purchase it, sell it and make a profit out of it. Only the poor people resort to this opium habit and it should therefore be banned by the Government, because they cannot stop it at their own will. In the rural areas, owing to lack of knowledge and education, the native doctors have been using opium as medicine and thus spoiling the health of the people. So, Sir, it is necessary that this trade in opium must be stopped altogether. As a matter of fact, I find opium worth about 6 lakhs of rupees was purchased last year by the Government and this year they propose to purchase about 8 lakhs worth of it. Whereas the revenue from this source last year was 57 lakhs, it is hoped to get about 60 lakhs this year. After all, we are not getting much revenue from this source and for the sake of the health of the people, I suggest this trade in opium should be stopped at once.

“There is another evil allied to opium and it is ganja. It has also become a trade. It must also be banned because of its evil effects on the health of the people. I need not expatiate on the harmful effects of ganja.

[Sri Pillalamarri Venkateswarlu] [15th August 1946]

“In conclusion, I would suggest to Government that while introducing prohibition, they must take care to see that the toddy-tappers are provided with alternative employment, because they have no money left with them to stand on their own legs, and that recreations and other alternative drinks are provided for the drinkers, so that they do not resort to the liquor habit again. With these words, I resume my seat, Sir.”

* ABDUL HAMEED KHAN SAHIB BAHADUR:—“Mr. Speaker, Sir, in supporting the motion that is before the House, I wish to ask the Hon. the Minister in charge of this subject whether he does not think it feasible to pay a little more attention to the prohibition policy of the Government. I know that in the beginning this Government sought to introduce prohibition in only four districts, but how did it happen that instead of four districts, it is sought to be introduced in eight districts? Did not the Government, in the first instance, consider that policy demanded that prohibition should be introduced not only in four districts but throughout the Province? Did they examine that question at all and what is the result of their examination? I thought the House would have been taken into confidence by the Hon. the Minister in charge of the subject. He could have told us in the beginning itself so that the discussion that is now taking place would be on more important lines. He could have told us that the question of introducing prohibition throughout the Province was examined and on what grounds the Government gave up the idea and why they limited its scope only to four districts. On what basis were these four districts chosen? What is sacrosanct about these four districts? Is it because the last Congress Government selected those districts or is it for any other reason? What is the principle on which they selected these districts? Subsequently, what exactly was the basis on which the other four districts were selected? These are the things on which I thought, the Opposition, at any rate, if not the whole House, deserves to be taken into confidence and given information. Sir, there has been a demand from all sides of the House with the honourable exception of my European friends that prohibition should be introduced throughout the whole Province but the Government have thought for reasons best known to themselves that prohibition could not be introduced in the whole Province at the present stage and therefore they have restricted its scope only to eight districts this year. They have not also told us—although in the statement of the Premier, there was some such suggestion that prohibition would be completed throughout the Province within the course of the next three years—they have not told us how and when, in what stages, in which districts and in what manner they propose to introduce prohibition in the rest of the districts. They have not also told us whom they are going to employ on this business, whether the Police or the Excise staff as suggested by our Leader or whether they propose to employ both the Police and the Excise people. Have they examined the question? I think, Sir, that a combination of these two sets of people would certainly be far better than handing over the work

[Abdul Hameed Khan Sahib Bahadur] [15th August 1946]

entirely to the Police or to the Excise people. Perhaps if the police are not to be relied upon, police powers may be given to the Excise officers—powers more than what they at present possess. I know that even the Excise officers have certain powers which are almost like that of the police, but, Sir, in order to make prohibition a success, possibly they will have to be empowered, to a larger extent, so that illicit distillation and many other evils may be prevented.

“Now, Sir, prohibition is sought to be introduced in eight districts. I want to know from the Hon. Minister, if his party really, honestly and sincerely believe in the efficacy and usefulness of prohibition and the need for removing the drink evil throughout the Province, whether they have considered the question of doing something for the rest of the Province. Are they satisfied with merely introducing prohibition in eight districts and sitting quiet and allowing people to drink more and more in the other districts of the Province? Why do you allow other people in the rest of the Province not only to drink but drink more and more? What steps have you taken to see that along with the eradication of this evil in the prohibited area, people in the adjoining districts are prevented from drink? In the districts round about prohibition districts, surely the sale of toddy and other drinks will certainly go up. Even from past experience, we have seen that sales went up higher and even contractors doing their job in the prohibition districts had a very good business in the adjoining districts.

11-45 a.m. “What have the Government done in order to prevent such a catastrophe? I ask, Sir, again whether it is not necessary for this Government to prepare the other districts to be ready for prohibition in the coming year. I would like to know what they have done so far and what they propose to do in the future. Do they want to bring in prohibition suddenly, which is bound to fail? Until and unless precautionary measures are taken and the districts prepared for prohibition, there is a possibility of failure. It is not enough if you merely introduce prohibition as you have to carry out your policy of prohibition. My point is if you are really going to do some good to the people by redeeming them from this evil of drink and not merely introduce the thing which forms part of your election programme, then very many more things than are done at present have to be carried out. It is no good saying ‘We will allow people in the non-prohibition districts to go on merrily with their drinks.’ There is no use merely paying lip sympathy to our people. Something good in reality must be done and it should be practical and useful. I wish that this evil should be mitigated and with that end in view, I should like to know whether to prepare the other districts for prohibition, there is any proposal for limiting the quantity of toddy to be sold or for reducing the number of shops so that those who are accustomed to this baneful habit may not feel it in case prohibition is introduced at a later date. This is a subject which requires

15th August 1946] [Abdul Hameed Khan Sahib Bahadur]

thorough examination on the part of the Government so that whatever steps they might take might be real and effective and not merely formal.”

* BRIGUM SULTAN MIR AMIRUDDIN:—“Mr. Speaker, Sir, I am sorry that as I have been ill all these days, I was unable to participate in the general discussion of the budget. I am glad it is now possible for me to express my views on this Demand. At the outset, I wish to make it clear that as a Muslim I lend my whole-hearted support to the policy of prohibition, seeking as it does to implement one of the fundamental principles of Islam. Of all religions, Islam has been most emphatic in its condemnation of intoxicants, it having been enjoined in the Holy Quran

‘يَا أَيُّهَا الَّذِينَ آمَنُوا إِنَّمَا الْخَمْرُ وَالْأَيْصَابُ وَالْأَخْلَامُ رَجَسٌ
مِنْ عَمَلِ الشَّيْطَانِ فَاجْتَنِبُوا لَعَلَّكُمْ تَتَّقُونَ *’

which means:

‘O you who believe, intoxicants and games of chance are only an uncleanness, the devil's work; shun them so that you may be successful.’

It is narrated in that famous book the Sahib of Bokhari that when this verse was revealed, a crier proclaimed in the streets of Medina that wine had been prohibited. Thereupon, every jar of wine in a Muslim household was emptied in response so that the streets of Medina were soon over-flooded with wine. Never in the history of man kind has such a deep-rooted evil as drink been so suddenly yet so completely eradicated as was the case in Arabia during the time of the Holy Prophet Muhammad. Hence, Mr. Speaker, no Muslim can ever conceive of deprecating the policy of prohibition. Again as a woman, the cause of prohibition intensely appeals to me, for as a matter of fact, the curse of drink lies more heavily on women than on the addicts themselves. It is women who have to bear the brunt of this evil which converts men into brutes; it is women whose homes are rendered miserable and cheerless; it is women who are subjected to agonies and tortures, both mental and physical. One of the attacks levelled against womanhood by that misogynist, the late Signor Mussolini was that the women of America were partly responsible for the failure of prohibition in that land. But it must be remembered that the women of India are different. Indian women, whether Hindu or Muslim, are united in their demand to stamp out drunkenness. (Hear, hear.) It is usual for those who hold a brief for intoxicants to declare that it is a mistake to import ethical standards in administrative matters. But I wish to emphasize that it is the lack of ethical standards in politics and political administration that has reduced the world to its present plight. I submit, Mr. Speaker, that the well-being of humanity and the resuscitation of this dying world of ours depend upon the pumping of the oxygen of ethics into every department

[Begum Sultan Mir Amiruddin] [15th August 1946]

of human life and above all into the sphere of politics; otherwise the future of this country, the future of humanity will be dark and black. There can be no gainsaying the fact that of all measures for the poor man's benefit, of all schemes to promote his well-being, to mitigate his misery and squalor, few can equal prohibition. Hence, Mr. Speaker, I wish to urge that prohibition be proceeded with apace and extended to the entire Province. I am sorry to find that the present Government are intending to introduce prohibition only in eight districts and not in the whole Province. For the success of prohibition it would have been easier if the scheme were made operative province-wide. It is inconsistent to have prohibition in some districts and legalized drinks in others. (Hear, hear.) Prohibition is fraught, I am afraid with possibilities of failure because it is to be only partial and not total. The happy position in which this Province is placed financially at present did warrant the introduction of total prohibition straightaway. When the last Congress Government initiated this reform, the revenues of this Province were only 16 crores of rupees. To-day it has mounted up to 48 crores of rupees. In order to meet the cost of prohibition, the last Congress Government introduced the sales tax and the proceeds of this tax, I understand, have now accumulated to 31.40 crores. This should legitimately be spent on promoting the cause of prohibition. I wish to urge that the commercial taxes should be earmarked for meeting the cost of prohibition and not utilized for any other expenditure. I think it is right to demand this because the commercial taxes were introduced for furthering the cause of prohibition. I understand that the commercial taxes yield an annual revenue of 7 crores of rupees. If the commission agency frauds are detected and prevented, I understand that the yield will be still higher. I should like the Government to maintain separate accounts showing the amount realized from commercial taxes on the one hand, and the loss sustained by the Government on account of the reduction in the Excise revenue on the other. Since the Government get an income of 7 crores of rupees per annum from the commercial taxes, during the next five years the proceeds from these taxes would amount to 35 crores of rupees. This together with the amount in the Revenue Reserve Fund would make a total of 65 crores of rupees. Hence it would be possible to have total prohibition for five years without resorting to further taxation as the annual loss of revenue that would be incurred by the Government, from total prohibition would be about 13 crores of rupees. I am surprised to learn that for introducing prohibition in four more districts, the Government are contemplating additional taxation. There seems to be no justification for this, having regard to the satisfactory finances of the Province at present. The Adviser administration, Mr. Speaker, left this Province with its revenues expanded by nearly 300 per cent and left a revenue reserve balance exceeding the total revenues of the last budget year of the 1937-38 Ministry. I mention this not by way of compliment to the Advisers, because I am aware that the accumulation of reserves was the outcome of

15th August 1946] [Begum Sultan Mir Amiruddin]

the adoption by them of an apathetic and indifferent attitude towards nation-building activities. My purpose is merely to point out that the Adviser regime left a big legacy to its successor, the present Congress Government, which should enable the latter to initiate and undertake many beneficent schemes without having recourse to taxation.

"We find that during the past two years the average expenditure of this Province has been nearly 30 crores. But for 1946-47 according to the Budget of the present Ministry the expenditure is estimated to be 57.5 crores. Now when there is an abnormally huge addition of 27.5 crores to the current expenditure it should be possible for the present Government to carry on prohibition in four more districts without raising the burden of tax on the people. We find that in the Budget, the expenditure has been overestimated under many heads. If this is rectified, if the lump sum grant for khadi production is reduced and other adjustments made, surely it should be possible for the present Government to carry on prohibition in eight districts without having recourse to additional taxation. I notice, Mr. Speaker, that the task of implementing prohibition in this Province has been entrusted to a European official. This seems to be a paradox, in view of the adverse attitude of the European residents in this country towards prohibition, strong expression to which was given the other day by Mr. Ferrelly. It may be pointed out that the gentleman is one who has had actual experience of the work. That may be so; but unless experience is fortified by faith one cannot achieve the requisite amount of success."

* MR. SPEAKER:—"The hon. Member has already exceeded the time-limit."

* BEGUM SULTAN MIR AMIRUDDIN:—"I am speaking rather slowly as I was not well recently. It is one thing, Mr. Speaker, to feel compelled to perform a certain act for the sake of one's bread and butter and quite a different thing to undertake a measure by reason of the faith that one has in it. It is faith, it is conviction in the utility of the scheme that one launches upon that can evolve the necessary amount of enthusiasm, call forth the requisite effort and inspire one with the utmost zeal. Surely, Sir, more things are wrought by faith than this world dreams of. I am aware that the gentleman in question is a competent officer. I myself had occasion once to pay a compliment to his ability at one of the meetings of the Post-war Reconstruction Committee. But, what I say is, why subject the poor Britisher to the taunts and ridicule of his countrymen; why make him get the appellation of Dr. Cove; why not spare him all those taunts and torments and entrust the work to some one else, for instance, to a devout and competent Muslim officer (hear, hear, from Muslim benches) who will not merely put his head into the work but his heart and soul as well. Another point that I should like to mention is that the Government should launch upon the scheme not merely for satisfying

12 noon.

[Begum Sultan Mir Amiruddin] [15th August 1946]

the electorate, but in real earnestness, so that there may be no increase of revenue from the evil source of drink in those districts which do not come within the purview of the prohibition scheme. What happened on the last occasion was that while there was a reduction in excise revenue in the districts which were declared dry there was an increase of excise revenue in other districts. To prevent this, some restrictive methods should be adopted, such as the reduction in the number of toddy shops in the non-dry areas and the removal of the toddy shops to the outskirts of the towns and villages. Further, the prohibition staff should be sufficient. There must be co-operation between the Police and Excise officials and special raiding parties should be kept in reserve at district headquarters for the purpose of detection. Moreover, it is necessary that village vigilance committees should be formed, so that there may be no illicit distillation within the limits of the village and also to carry on propaganda about the evils of drink. Finally, side by side with prohibition steps should be taken to provide in the dry areas suitable recreation, like games, cinemas and radios, so that people may not brood during their leisure hours. Further, it is necessary to devise some savings bank scheme for these people, so that the money that they may be saving as a result of prohibition may not be squandered away by them on another evil, namely, gambling, which is also making much headway in this province, nor on ceremonies or festivities. With these words, Sir, I support the cut motion."

* H. S. HUSSAIN SAHIB BAHADUR:—"Mr. Speaker, Sir, drink is a sin, and that it is an unmixed evil is admitted by all, even by nations with whom it is not merely a habit but an essential item of food in their luncheon, dinner and cocktail parties. Therefore, Sir, from all points of view drink is bad for the moral and material well-being of a people. Now, Sir, I would like to ask the present Ministry, why it did not find it convenient to introduce prohibition throughout the Province? Let them reflect and find out what the position was before the War, when prohibition was introduced in this Province for the first time. That was in the year 1938, if I am not mistaken. If the War had not intervened what would have happened? I am sure the policy of prohibition would have been pursued, and the whole Province would have gone dry by now. And what would have been the state of revenue? They would have the same revenue as it was before the war. So, would it not have been possible to extend prohibition to the whole Province? Yes, it would have been done. Therefore I say, it should not be difficult for this Government, with an inflated budget on account of war conditions and inflated revenue, now to introduce prohibition throughout the Province at once. I say, it should have been much more easy and convenient for this Government to introduce total prohibition. There is no justification at all to say that there are practical difficulties in the way, and also to say that our finances will suffer on account of loss of revenue. I may tell the present Ministry that if they only made up their mind to accede to the united demand of the whole country

[15th August 1946] [H. S. Hussain Sahib Bahadur]

they could have done it and they should have done it. Now, from the moral or ethical point of view, if you look at the problem, what is it that the present Government is doing? If prohibition is for the good of the people, to improve the lot of the people and to improve the moral and material well-being of the people, then they should not discriminate. All are equal to them. All people should improve equally and at the same time they should all be given equal opportunities. Why this discrimination? Why should the people of the eight districts alone be favoured, while those of the remaining sixteen districts suffer?

"Then, Sir, what is it that we find in the Budget Memorandum? It is stated that the increase in excise revenue of 268.68 lakhs was, to quote the very words of the Budget Memorandum, 'mainly the result of increased consumption'. That is not a very happy state of things to be placed before this House or the country outside. It is also stated that the increase is due to larger receipts from tree tax and higher rentals realized from arrack and toddy shops due to keen competition among bidders. That statement is rather damaging; it is derogatory to a popular Government which seeks to look to the welfare of the people. Therefore, I would earnestly ask this Government to introduce total prohibition throughout the Province at once and not by stages. Had the previous Ministry continued in office and had the war not intervened, we would have by now total prohibition with the same revenue as we had before the war. Therefore, I ask, instead of setting apart huge funds for Harijan uplift and village reconstruction, could they not introduce prohibition by creating, if necessary, a sinking fund, like the Famine Fund. I hope they can adopt some such measure. If they make up their mind they can do it. So, I say, the prohibition policy pursued by this Government is not at all satisfactory. It is half-hearted and halting. They may make up their mind and introduce total prohibition by the end of this year. That is what I appeal to them on this occasion.

"Now, Sir, as I said, drink is a sin, and it is said that it is the mother of all evils. If the present Government want to have village reconstruction and Harijan uplift, the very first thing they should do is to make prohibition the basis of it. If they want to have real reconstruction in all our villages, the first step to that is to introduce prohibition; and if they want to uplift the Harijans the first step to that is complete stoppage of drink among that particular community.

"I know, Sir, Harijans are addicted to drink. Not only the Harijans, even the other classes of people, including the upper 12-1 p.m. classes are taking to drink more and more. In these days it has become a sort of fashion. If you attend parties in higher circles, you will find drinks provided. Is it a satisfactory state of affairs? Therefore, I say, that the first stepping stone for village reconstruction and Harijan uplift should be prohibition, and unless you introduce prohibition throughout the Province at once, I do not know how you can build up a nation of happy people in this Province. Having said so much about total prohibition and the

[H. S. Hussain Sahib Bahadur] [15th August 1946]

need for introducing it throughout the Province at once, I would like to suggest a few ways of preventing the manufacture of illicit arrack and toddy entirely. When you have got dry areas in eight districts, these areas will be surrounded by a larger wet area all round. Naturally there should be a belt area where you should have sufficient vigilance and where you should post men and chowkidars for patrol duty. For this purpose, I will suggest that the men of the Excise department would be most competent. Of course, they may have Police aid whenever necessary. It is the men of the Excise department who will do it best. That is my view. They know the secrets and the ins and outs of the Excise department, and they also know the people who are in the habit of manufacturing liquor stealthily. It would be easier for them to detect cases and prevent this. I would also suggest that in the surrounding belt areas the number of shops should be reduced gradually and the number of trees that have to be tapped should also be gradually decreased. If all these measures are taken in the area round about the prohibition areas, I am sure, we can prevent the illicit manufacture of arrack and toddy to a great extent, and at the same time, if you find that it is not possible for you to introduce prohibition at once throughout the Province, you will be preparing the ground in the wet areas for future prohibition by reducing the number of arrack and toddy shops, and also by reducing the number of trees that are to be tapped. That is my suggestion, Sir, I do not want to say anything more except to press once again on the present Government the need for total prohibition throughout the Province in a very short time."

* MR. SPEAKER:—"This question has been discussed threadbare during the general discussion of the budget. Here I wish to bring to the notice of the hon. Members that we have still got 39 demands and 12 days have been allotted by His Excellency the Governor. So, I would request hon. Members to be as brief as possible."

* MUHAMMAD RAFEEUDIN AHMAD ANSARI SAHIB BAHADUR:—"Mr. Speaker, Sir, this question of prohibition, I may say, is purely academic so far as the Muslims are concerned. It is a well known fact that our religion enjoins prohibition, and in actual fact also, I feel that this question of prohibition does not affect the Muslims very greatly. In fact, I may say that this question of prohibition affects perhaps one per cent of the population. But if we are to urge prohibition on the ground that it is enjoined on us by our religion, perhaps, Sir, Government may not feel inclined to acknowledge that principle, because if that were so, it would be establishing 'Pakistan' in the Madras Province. But if it is viewed from the point of view of a social evil, even then I feel, Sir, that the Government is treading upon dangerous ground because the policy of social reform, if taken to its logical conclusion, would lead to so many other matters which require reform. For instance, it is well known that the increase in our population is a growing menace to our economic society. Therefore, is the Government going to enact a measure for birth control? Then again, Sir, it is well known that much domestic

15th August 1946]

[Muhammad Rafeeudin Ahmad Ansari Sahib Bahadur]

unhappiness is caused by polygamy. Is the Government going to enact a law prohibiting polygamy? Of course, I know, Sir, that most people think that the best punishment for having two wives is to have two mothers-in-law. (Laughter.) Still I feel that if the Government were to adopt"

* MR. SPEAKER:—"May I know the connexion between mothers-in-law and wine?"

* MUHAMMAD RAFEEUDIN AHMAD ANSARI SAHIB BAHADUR:—"I say prohibition should be taken as a social reform; and one of the matters that affects social life is polygamy. So, Sir, I do not want to admit as a Muslim that we should submit to any law restricting the having of more than one wife. Then again there are other social evils, for instance, smoking, prostitution, and snuff taking, once the Government take upon themselves the role of a social reformer. I feel, Sir, that the present Ministry has enacted this prohibition legislation more out of compulsion than out of their willingness. It is, I think, a liability which the present Ministry has inherited from the previous Congress Ministry. But when once the Congress Ministry decides to adopt this measure why should they do it piecemeal? After all it is wrong in principle to enact a legislation and restrict it only to a few districts. The people of the districts which are affected by prohibition may feel that they have been unnecessarily victimised or, conversely, they may feel that they have been unnecessarily favoured and the people of the districts who have not been included in the prohibition programme may feel in the same way that they have been neglected by the Government or that they have been denied the favour. Therefore, I urge on the Ministry, as a good principle, that if they want to introduce prohibition at all, let them introduce it in all the districts. With these words, Sir, I support the cut motion moved by the Leader of the Opposition."

* M. S. ABDUL MAJEED SAHIB BAHADUR:—"Mr. Speaker, Sir, in supporting the cut motion on the Provincial Excise, I, on the one hand, feel happy that the Hon. the Premier has agreed to extend prohibition to four more districts in addition to the four districts which he has already included in his original budget. On the other hand, I feel sorry that he has not extended prohibition throughout the Province. While saying this, I am not unaware of the difficulties of the Hon. the Premier, the insurmountable difficulties, namely, to try to compensate for the big financial gap that would result if the whole Province becomes dry. Knowing this, it would be sheer irresponsibility on my part or on the part of my party to urge complete prohibition. Therefore, when I urge complete prohibition I must make proposals for new sources of revenue. Mr. Speaker, Sir, I shall just place for the consideration of this Honourable House and also for the consideration of the Hon. the Premier certain proposals which are sure to yield him much revenue by which he can introduce complete prohibition in this Province. At one time the handloom industry

[M. S. Abdul Majeed Sahib Bahadur] [15th August 1946]

and trade required all the support, assistance and protection of the Government; and when normal conditions prevail and when the textile mills, not only in this country, but also in other countries, come to work full blast, I think those assistance and protections may be required. But at present they are having, if I may say so, I mean the handloom industry and trade, a boom. This can be seen from the high ruling prices of handloom products. When the industry was in dire need of help, Government gave that help in several ways. Besides subsidies and subventions, Government removed the once existed excise duty on yarn and also gave exemption to the handloom products from the operation of the sales tax. In order to fill up the huge gap that would be created by the introduction of complete prohibition, I suggest the imposition of an excise duty on yarn and the levy of sales tax on handloom products. I have figures available with me to work out the financial effect of such an action. What is the effect of the imposition of an excise duty on yarn? Government are fully aware of the fact that Madras produces nearly 42,000 bales of yarn."

* MR. SPEAKER:—"We are on the subject of Provincial Excise."

* M. S. ABDUL MAJEED SAHIB BAHADUR:—"I am just showing the effect of collecting excise duty and how complete prohibition can be introduced in this Province. As I said, the Government are aware of the fact that Madras produces 42,000 bales of cotton yarn per mensem. Of this, 8,000 bales are diverted to weaving sections of the mills. For purposes of calculation of excise duty, I think even this 8,000 bales must be brought under excise duty. Therefore, I am calculating the excise duty on the total yarn produced, which is 42,000 bales. The duty may be worked out on the basis of lb. and each bale contents 400 lb. of yarn. The duty may be collected on the value of yarn. You are aware, Sir, that the value of yarn differs from counts to counts. Of the total production, about 20,000 bales are 20 to 26 counts, 5,000 bales 30s, 12,000 bales 40s, 1,300 bales 60-100, and 3,200 bales 20s. The total value of yarn calculated on ex-mill rates, as fixed by Government count-war, is Rs. 256 lakhs. If one anna per bale is levied as excise duty, Government would get yearly Rs. 192 lakhs. If the calculation of excise duty is by weight, the effect of that will be this. If we impose a duty of 2 annas per pound, the total yearly income works out to Rs. 250 lakhs. Some of the hon. Members would think that this excise duty would increase the price of handloom cloth. I would like to point out to you, Sir, that the increase, compared to the huge margin of profit that the handloom industry is earning to-day, is almost nothing. Every pound of yarn yields 4.57 yards of cloth, and the duty will work out to 5½ pies per yard.

"Coming to the imposition of sales tax on handloom products, I shall in as brief a compass as possible show its effects. Madras produces about 366 million yards of handloom cloth. The average cost per yard is Re. 1-4-0. The total turnover of the producers of

15th August 1946] [M. S. Abdul Majeed Sahib Bahadur]

this cloth is about Rs. 450 lakhs per month. Sales tax at the rate of 6 pies in the rupee yields a revenue of Rs. 168 lakhs. While proposing this tax, I suggest that its imposition should be only at one stage, that is, at the stage of production. Then I suggest that if the sales tax is to be levied at three stages of the transaction as contemplated . . ."

SRI P. NATESAN:—"On a point of order, Sir, I find the hon. Member is making reference to sales tax and excise duty on textile goods and not to prohibition."

* MR. SPEAKER:—"To introduce prohibition throughout this Presidency, we can have money by these ways. That is his argument."

* M. S. ABDUL MAJEED SAHIB BAHADUR:—"Therefore, Sir, by imposing an excise duty on yarn and bringing handloom products within the operation of the Sales Tax Act, Madras Province will get about 300 or 350 lakhs of rupees. This amount can be used to introduce complete prohibition in this Province. I am making this suggestion in the confident hope that the Hon. Premier will introduce complete prohibition in the Province and thus set an example to the whole of this country and the world. With regard to the question of prohibition, we, on this side of the House, feel that it is almost an article of faith with us. Perhaps it, to the party in power, may be a political creed, but to us, as I have already said, it is almost an article of faith. Therefore, Sir, I make an appeal, in the name of humanity and in the name of all that is sacred, to the Hon. Premier, in view of the suggestions which I have made with regard to new sources of revenue to try to introduce complete prohibition as early as possible and thus bring health and happiness, sanity and sobriety to tens of thousands of darkened and desolate homes of families in this Province. With these words, I support the cut motion."

* SRI A. B. SHETTY:—"Mr. Speaker, while supporting the demand made by the Hon. Minister, I wish to make a few observations."

* D. ABDUL RAWOOF SAHIB BAHADUR:—"On a point of information, Sir. May I know whether the hon. Member is moving a cut motion or whether he is supporting the demand?"

* MR. SPEAKER:—"Allow some time so that he himself will answer that question."

* SRI A. B. SHETTY:—"I have already said that I am supporting the demand. I want to make a few observations as to how prohibition can be made a success. The hon. Leader of the Opposition observed that no preliminary educative campaign is necessary before prohibition is actually introduced in any area. I am afraid few will agree with him in this matter. No administrative or legislative measure can achieve the desired goal unless it enlists public opinion in support of it. Therefore, it seems to me quite necessary that, in the districts in which the Government propose to introduce prohibition in future, they must conduct a preliminary campaign to educate the people and see that public opinion

[Sri A. B. Shetty] [15th August 1946]

is created in favour of the measures they propose to introduce. Propaganda is an essential part of any campaign against drink evil. As my hon. friend Mr. Abdul Hameed Khan observed, it is necessary to prepare the ground before we introduce prohibition in any part of the Province.

“With this in view, I think it would be wise on the part of Government to exercise stricter control over the existing liquor shops and to prevent the opening of new shops particularly in places where the poorer section of the people and industrial workers live. They will also be wise if they restrict the hours of sale of drink and also reduce the alcoholic content of the beverages and take such other steps as would prepare the people for total prohibition when it comes. The Government should also provide alternative refreshments. They can arrange to supply non-alcoholic beverages either near the toddy or liquor shops or in the shops themselves. They should also make suitable provision for the treatment and rehabilitation of confirmed and habitual drinkers.

“Doubts have been expressed by a certain section in this House regarding the wisdom of introducing prohibition. I think the Government will do well to conduct a survey in select towns and villages both before introducing prohibition and also some time after prohibition is in operation to find out its effects on the health of the habitual drinkers and on the economic condition of the drinker and the members of the family who are depending on them. If such a survey can be made, then the Government will be in a position to say how far prohibition has been really useful. With these words, I support the demand.”

* MR. W. J. FERNANDEZ:—“Mr. Speaker, Sir, I support the cut motion for two reasons. The first is to discuss the prohibition policy, and the second is to specially urge upon the Government the necessity for exempting mass wine from the provisions of the Prohibition Act. I have already stated that I agree with the rest of this House in the desire to alleviate the miserable condition of the masses who are the unfortunate victims of drink, and of the wives of the drunkards who suffer anguish and torment. But I differ from the rest of this House in that I question the propriety of forcing total prohibition on the people in this Province. Notwithstanding all that has been said by advocates of total prohibition, I still maintain that total prohibition is neither necessary for the attainment of your goal nor practicable nor justifiable. The object underlying the prohibition move is, I presume, to save the masses from the evil effects of excessive drink. If that is so, then by all means stop the sale of arrack and fermented toddy which the masses apparently drink as the bulk of the excise revenue comes from this source. Other liquors are obviously beyond the purchasing capacity of the masses, then why seek to introduce total prohibition? It is obviously unnecessary. Secondly total prohibition is an impracticable proposition. It has been tried elsewhere and has failed. Illicit distillation will arise and drunkards will still get their drink though not

15th August 1946] [Mr. W. J. Fernandez]

perhaps as extensively and easily as they now do. Lastly I say that prohibition is not justifiable. I maintain that the state has no right to impose restrictions on, or curtail the liberties of, the individual citizen who knows how to exercise his rights within reasonable limits. It is on this score that I oppose total prohibition with all the emphasis I can command. Temperance among the masses cannot be achieved by a sudden stoppage of the supply of liquor and toddy or even by coercion and penal laws. Temperance can be achieved to a considerable extent by a gradual process, by peaceful persuasion, by educating the masses to the evils of excessive drink, by restricting the quantity of liquor saleable to individuals, and lastly by restricting the number of hours during which liquors and toddy may be sold in the taverns. By these means, you can gradually wean the drunkard away from the drink habit.

“I come now to my second point. The Catholic Church teaches temperance and imposes it on its faith. She will always collaborate in any work which has for its aim the betterment of the people, especially the poor. Without discussing the principle of prohibition which can be challenged, she looks upon it as a temperance movement and although it may seem drastic in the way in which it is conducted, she will always co-operate with the authorities in helping to make it a success. This should not however interfere with divine worship. All know that in the Catholic Church the principal act of worship is the daily mass where each priest is required to use every day a small quantity of wine called mass wine or sacramental wine which is made from fermented grape juice. This cannot be called either liquor or alcoholic beverage. The quantity required also excludes it from the scope of the Prohibition Act. We feel, Sir, that by including mass wine within the provision of the Act, the civil authorities are interfering in a religious sphere which is outside their Province and are encroaching on the fundamental rights of a minority who seem to be penalised in what is most sacred to them the daily mass service. True, on the last occasion, arrangements were made for the grant of permits, but all the same this was an infringement of rights. It would seem wise to come to an understanding with the Ecclesiastical authorities and allow the Bishop in every diocese to supply, under his direct responsibility, the quantity of wine required for the year. This will avoid hurting the religious feelings of a minority who feel that their rights are not considered. I suggest this for the consideration of the Government, and trust that they will give it the attention and consideration which it deserves.”

* D. ABDUL RAWOOF SAHIB BAHADUR:—“Mr. Speaker, Sir, I am thankful to the Hon. the Premier for introducing prohibition in the famine stricken districts of Bellary, Anantapur and Kurnool though it may be on some pressure being brought by members of his party. They have always suffered on account of recurring famines and this reform which has been introduced,

[D. Abdul Rawoof Sahib Bahadur] [15th August 1946]

I am sure, will go a great way to help the poor and suffering population of these districts. I know, Sir, there are people who think otherwise but it really is to the benefit of the lower class and a percentage of the upper middle class. For the information of these hon. Members who do not seem to have an idea of the amount spent on this drink, I may inform them that even at a place like Bellary with a population of 58,000 persons the amount realised by the sale of toddy and arrack alone comes to about Rs. 2,000 per day or Rs. 60,000 per month or seven lakhs and odd per year. This is speaking of one town like Bellary. I know in the Ceded districts there are places like Kurnool where the sale-proceeds of these intoxicants come to more than that of Bellary. There are smaller places in the district. If prohibition is introduced and worked as it should be worked and made a success all this amount would go to improve our national economy. At this stage let me make a suggestion. If this prohibition policy is to be a success the Government may have to be stringent and I submit it is absolutely necessary that stringent measures must be enforced. Just before this party assumed office for the information of the Government let me say that expecting the Government to introduce prohibition people in the districts started purchasing jaggery in large quantities and stored them hoping that they will be able to start illicit distillation and make huge profits. Very stringent measures will be necessary as otherwise every house in this area will be converted into a distillery. Figures relating to illicit distillation and conversion are not generally correct. As a highly placed friend once observed when a report is called for by the Government it is sent to the Collector who sends it to the Tahsildar and he sends it to the Revenue Inspector who sends it to the karnam and village munsif and it finally goes to the talayari who asks his sister to take statistics. This is the story relating to the statistics. During the time prohibition was introduced in Salem I was deputed to collect figures. At the time when I toured the Salem district I found illicit liquor was everywhere and I found a large number of people who were drunk. Well, Sir, there is a snag in the Act which has got to be remedied. I wish to suggest that in the area you introduce prohibition it is impossible to detect or get evidence or proof that a man is taking arrack and to prove that arrack is being sold in particular places. If you make it an offence for a man to be found drunk I think you will succeed. That is a thing which has not been done in the previous regime. Well, Sir, with regard to Bellary district in particular, I may bring to the notice of the Government that the Nizam's State and the Mysore State being on the borders, there is always the possibility of smuggling of intoxicants into the district. Even now I know people from Hospet walk across the district to have their drink just because toddy is sold quarter anna less than what it is sold at Hospet town. I am supporting prohibition, Mr. Varadachari, and that is why I am making a very strong case in regard to the border villages to prevent illicit distillation. It is absolutely necessary that we should take very stringent measures and see that while we lose a large portion of our revenue, a corresponding benefit to

15th August 1946] [D. Abdul Rawoof Sahib Bahadur]

the people must be the result. Let us not lose revenue without its benefit intended. At the same time let us allow this crime to continue.

"I know, Sir, some hon. Members of the House have said that the State is encroaching on individual liberty. Another hon. Friend made reference to other countries. I do not think our country can be tested by their standards. Their standard of morality, as Mr. Varadachariar put it, is quite different from ours. What we need is total prohibition here. I support the policy of prohibition of Government and make this suggestion."

* M. A. MUHAMMAD IBRAHIM SAHIB BAHADUR:—"Mr. Speaker, Sir, in supporting the cut motion under Demand II—Provincial Excise, I want to discuss the necessity for introducing total prohibition throughout the Presidency. The problem, Sir, can be viewed from two aspects. One is that prohibition is one of the important items in the programme. If the party in power has given some importance to this item in their programme and if they had given real importance, they should come forward with total prohibition policy throughout the Presidency. The question of cost does not count here. Prohibition is a social measure. It is, I think, second to law and order or defence or the salaries of Ministers. Therefore the Ministry should view this social measure as of very great importance and if they so view it, they should introduce this social measure at once without looking into cost. From the other point of view, viz., the cost to be reckoned with, I shall here point out to the House the real nature of public finance. In public finance, the programme of the party determines the actual estimate of the expenditure but not expenditure that determines the programme of the party. If really the party in power wishes to have this measure adopted, they have to give up other schemes and introduce this measure first. Coming to the financial point of view, I say this programme of total prohibition is feasible within our limited resources. Our own provincial resources are inelastic. We have to reckon with the 13 crores of revenue. Nevertheless, if we look into the financial aspect, I say this programme is still possible. Our revenue reserve fund amounts to 31.4 crores. It is rather satisfactory that the Provincial Government are being paid by the Central Government under income-tax about 4.85 crores whereas last year we have been given only 3 crores and odd. It is also satisfactory that Government of India will be contributing adequately or substantially towards our own revenue resources. Further, in this connexion. I remind the Ministry that the Government of India should be asked to contribute much more than what they are actually paying, because we get this portion from the income-tax income of the Government of India which has risen from 60 to 300 crores. It is time for us to cry for an adequate quota out of the revenues derived from income-tax. Then there is another source, viz., retrenchment which is also possible in highly paid services. If Government adopt a measure to retrench highly paid services to the extent of 2 to 3 per cent, it is possible to have some more amounts with which to launch this policy of prohibition.

[M. A. Muhammad Ibrahim Sahib Bahadur] [15th August 1946]

"Another thing I suggest is that a little scrutiny over the budget estimate would give possibilities of economy in various directions. As illustrations, I will give one or two instances. Under Demand XIV—Police, the actuals for last year was 2.95 crores, whereas the budget estimate for this year (1946-7) is 3.82 crores. Under Demand XI—District Administration, the demand has increased from 2.8 crores to 3.85 crores. Under Demand XIII—Miscellaneous, the demand has increased from 68 lakhs to 95 lakhs. Under Demand XIV, the estimate has increased from 1.28 crores to 3.29 crores, and under Demand XXV, the increase is from 80 lakhs to 2.64 crores. I only point out all these things to the House in order to show that if a little scrutiny is made over all these items of the budget, it is possible that Government might have funds from various resources and they may launch the prohibition scheme without any fresh taxation.

1 p.m. "Sir, I do not say that all the other schemes are not so important or that expenditure should not be incurred on them. But prohibition is comparatively far more important and urgent than others and I submit that one or two or even four of the new schemes may be deferred for the present and the prohibition scheme given effect to immediately throughout the whole Province. If this is done, no question of finance will arise, and there will be no need to impose fresh taxation.

"The point that I wish to place before the House is that by adopting the various suggestions I have made above, the Ministry can secure Rs. 32 and 8 or 9 crores. Altogether they may be able to make up about Rs. 40 crores for launching prohibition immediately and they can carry on prohibition for two years without any fresh taxation. Calculating it from this point of view the loss of revenue from Provincial Excise would be about Rs. 13 crores and charges on administration, about Rs. 3 crores. Altogether the total amount that would be required for enforcing prohibition would be Rs. 16 or 17 crores. Out of the 40 crores mentioned above, wholesale prohibition can be carried on for two years successfully.

"Another consideration that I should like to place before the House is that while prohibition is in force, the purchasing power of the masses would increase considerably. The Provincial Excise Revenue Rs. 13 crores, represents more or less 20 per cent of the actual amount spent by the people on liquor and other intoxicants. That is to say, if total prohibition is enforced, about Rs. 100 crores would be distributed in the hands of the labouring and other poorer classes of population and their purchasing power would correspondingly increase to 5 times. Naturally the economic activities of the people of the country would also increase with corresponding increased returns from Sales Tax. Thus, from these points of view, I submit that even without any fresh taxation, the total prohibition policy would be quite successful. With these words, I move my cut motion."

* SRI V. I. MUNISWAMI PILLAI:—"Mr. Speaker, Sir, I rise from my place to thank the Hon. the Premier for the great

15th August 1946] [Sri V. I. Muniswami Pillai]

gesture he has made in bringing four more districts into the area of prohibition. It is not myself alone, but all those who seek to raise the moral and economic condition of the Harijans would welcome this beneficent act on the part of the Ministry. Sir, I have been in this House from 1926 and year in and year out I have been pleading for total prohibition in this Province. I think Sir, that this may be my last appeal to this Government to see that the whole Province is brought under total prohibition. Whether we go to urban area or to rural parts, the economic condition of Harijans and the poorer classes is so appalling that no sane man can feel complacent over their lot or stand in the way of the reform. Sir, one of the hon. Members representing the Anglo-Indian Community sitting close to me said that total prohibition will mean interfering with the liberty of the minorities. Representing as I do, an important minority community, I say, Sir, without fear of contradiction, that it is the duty of the State to see that the moral and economic condition of the citizens is improved. My late lamented friend Mr. J. A. Davies, who happened to be a member of this Council representing Anglo-Indians for many years, had been advocating total prohibition during all his lifetime. With the co-operation of some good friends, it was possible for introducing partial prohibition, to save the hill-tribes, in the Nilgiris. Unfortunately, Sir, the reform that was brought into force, did not bring all that we wanted, because there was a flaw in the application of the rules relating to partial prohibition in the Nilgiris. The man who possessed intoxicant drinks was not penalised. The only thing that a man should not drink in an arrack shop, was all that was enforced. Sir, the Nilgiris has a population of about 209,000, but the income derived from Excise to-day according to the last year's figures is Rs. 28,56,884. I submit, Sir, that the Hon. the Premier and the Hon. Minister in charge of Excise should see that possession of liquor is made a penal offence.

"Sir, I also represent a portion of the South Arcot district. The condition there is also appalling. The population of the district is about 18 lakhs and odd and the revenue derived from Excise is about 94 lakhs in 1945-6. There also, illicit distillation is very prevalent. During my tour in that district, cases of illicit distillation used to come to my notice very often and this has been going on in spite of the efforts of Excise officers. I feel Sir, that something should be done to stop this curse of illicit distillation, though the district is not under prohibition.

"Sir, going through the figures, I find that before the war the total revenue by way of Excise was only Rs. 3 crores and odd, but the latest figure is given as Rs. 16 crores and odd. The burden of this indirect taxation is not on the rich, but it is weighing heavily on the poor and the depressed. About a third of the total revenues of the Province is derived from Excise and to utilise this tainted revenue towards education, towards the maintenance of dispensaries and welfare associations, will not earn a good name for any Government. I feel Sir, that the earlier this curse

[Sri V. I. Muniswami Pillai] [15th August 1946]

is removed from this country, the better. As I have already pointed out, this matter was discussed threadbare in various places and I know from the speeches and assurances of the Hon. the Prime Minister, the whole of this Province will go dry in the course of next year. I appeal to Government, Sir, on behalf of Harijans and the poorer classes of this Province who have ruined themselves and their families by this drink habit, to stop this evil at any cost.

“ One more point, Sir, and I shall be done. My hon. Friend Mr. Venkateswarlu referred to the problem of unemployment that would be caused by the introduction of total prohibition. Reading through the Report of the Administration of the Excise Revenue in the Province for 1939-40, I find the following statement bearing on this point. It says—

‘ There is no indication of the existence of any acute problem of unemployment among the ex-tappers in the prohibition districts. In Salem district, most of the tappers were employed in the tapping of sweet toddy. Considerable progress was made in connexion with the land colonization scheme for tappers in the Salem district. Orders were issued permitting the assignment of lands to the Kanavoidpudur-Kothunayakampatti Land Colonization Co-operative Society. The extent assigned was 430.36 acres.

“ It is possible, Sir, by diverting them to such colonization schemes or absorbing them in several other industries, to solve the problem of unemployment among tappers.

“ Sir, during the war the Government instituted what is called a savings drive and I would like to know if such scheme has helped the Harijans and the poorer classes to save anything at all. I am sure prohibition will go a long way towards improving the moral and economic condition of Harijans. I feel sure, Sir, that the Hon. the Premier with the co-operation of the other Hon. Ministers will bring about total prohibition in this Province at least by 1947.”

* SRI A. VAIDYANATHA AYYAR:—“ Mr. Speaker, Sir, I rise to oppose the cut motion moved by an hon. Friend who did not want prohibition. On the other hand, along with my hon. Friend who spoke before me just now, I must thank Government not merely for their expressed policy of prohibition starting with four districts but also for promising to extend it to eight districts even in this budget year itself. But I would urge further that there should be total prohibition and that immediately and now. The reasons why it should be so have been urged again and again on this occasion by almost all sections of the House, with very insignificant exceptions. In the first place, so far as the Ministry itself is concerned, it is formed by a party which has got a long and honourable record, and which has the greatest stake in this country. And so far as that party is concerned, it has, since it began to acquire strength, taken prohibition as one of the strongest

[15th August 1946] [Sri A. Vaidyanatha Ayyar]

planks, as the most immediate plank, not merely as a political plank but as a plank intended for the social and moral uplift of the whole country. It is because of the immense power that was afforded by this particular plank in its programme that the Congress is now so strongly entrenched in the minds of the people and is beloved by the people. Any scheme of popular reform that is envisaged by any party now-a-days also falls in with total prohibition.

“ Mr. Speaker, Sir, after waging war for a century, when we are well in the saddle, when the British have promised to quit and P.m. are quitting, when we are safely in power, if we do not fulfil our promise that we would bring about total prohibition at the first opportunity, we will not be satisfying the hopes that have been raised by us.

“ So far as the difficulties against the introduction of prohibition are concerned, it will be seen first that what is urged is that there is illicit distillation and that every step taken to enforce prohibition is followed or even anticipated with counter-measures on the part of people engaged in illicit distillation. That is hardly an answer. We have not repealed the provisions of the Indian Penal Code because crime has increased. We have not dropped the sections relating to murder from the Code because murders have increased; nor have we scrapped the sections relating to riots because riots are on the increase. The enforcement of law is more important than any other thing. If there are faults and irregularities, they should be dealt with as such. That is my answer.

“ The next thing is the fear that the finances of the province cannot bear this sacrifice of income. Several answers have been given in this House with regard to that. Of these, two or three answers deserve to be considered. The first is that we are talking now of eliminating the zamindaris by paying compensation. If you really want money, if your finances are not in healthy state, there are sources which will give you almost unlimited income. To-day, the persons who are making phenomenal gains from mills and machinery are the greatest stumbling block in the path of progress. Why not, as a matter of fact, nationalise all the spinning and weaving mills and collect for the State the crores and crores that now go into the pockets of people who are responsible for raising the prices in the country, and who happen to be the economic ‘ Old Man of the Sea ’ twisting themselves round the neck of the poor people? It would be a beneficial act if the Government nationalise all the mills and it would, at the same time, enrich the coffers of the State.

“ I now come to deal with the second item. Sir, the question of transport has not received the attention it deserves. The transport problem in the country is in a sad state and requires immediate attention. In all countries having a popular programme, nationalisation of transport is being treated as an

[Sri A. Vaidyanatha Ayyar] [15th August 1946]

important question. We all know that transport owners make enormous profit. Why not nationalise transports by taking charge of all the buses and the bus companies? You will find the income from this source very satisfactory.

“Now, the other argument against prohibition is that to give effect to it you require some crores and that we have no money on hand. The argument is that you do require some money for some other kind of constructive programme. Let us leave alone the food programme and the cloth programme both of which require money. After meeting the charges on these programmes, we have still allotted sums for constructive schemes. These schemes, I suggest, can afford to wait and give precedence to prohibition. So far as prohibition is concerned, the drink evil is like a vital disease. It is like cancer affecting the most important parts of the body-politic. The community depends for its well-being mainly upon the workers and among the workers, the Harijans form the great majority. So far as these people are concerned, what is the use of trying to raise their wages whether in towns or in villages, when you are certain that they will directly go to the toddy shops and empty their pockets and enrich the exploiters? Therefore, I tell you that, instead of seeking to raise the wages and meeting with strikes all around you, if you stop the big gap through which all the resources of the State and the poor are flowing out, the Harijans and workers will be in a position to take care of themselves and not feel any inferiority complex in having to look up to you for this and that help. They will become self-sufficient and strong. Therefore my suggestion is that all the other reconstruction works may wait. Looked at from a long range point of view, how are these construction works going to help our people? You are going to invest a crore and the utmost you will get in return is 5 per cent on the investment. On the other hand, if you invest this crore also on total prohibition, you will not only save the moral worth of the community, but will save also six times the money you will give up in the shape of excise revenue. It is not a better investment to get 600 per cent return for the poor rather than get 5 per cent for yourself by way of taxation? I put it to you, looked at from the moral point of view, the social point of view and the political point of view, the endeavour to make the communities look after themselves and to see that they do not get submerged in drinks, total prohibition is the best reconstruction programme that can hold the field to-day. Therefore I am appealing to the Ministry, Sir, to take courage in both hands and undaunted by figures go ahead. We have got absolute autonomy and we are aiming at sovereign status. It is for us to lay down the policy. If you say that you will have total prohibition to-day or to-morrow, you will get the necessary help.

“Then, Sir, there is the much more fundamental objection to drink. It is this: we have all been feeling for the last 25 years and preaching from public platforms led by the Saint at Wardha that to encourage drink is a sin. Sir, so far as India is concerned,

15th August 1946] [Sri A. Vaidyanatha Ayyar]

the position is utterly different from the other countries in respect of prohibition. In India, the arrack distillation is a monopoly; opium is a monopoly and ganja is a monopoly—and all of the Government. Now, as a matter of fact, we are ourselves the Government responsible for these monopolies and for these sins. It is likely to be said that we ourselves are parties to these sins. It is not a question of politics purely. It is a question of conscience. For years we have been saying that we would not be parties to this sin and yet, in the budget presented what do we see? At page 6 of the Detailed Budget Estimates of the Government of Madras for the year 1946–47 we find the following account:—

Cost price of opium, Rs. 7,51,500.

Duty on opium, Rs. 23,26,100.

Licence fee for the sale of opium, Rs. 29,70,900.

And, as the Government has the sole monopoly, they propose to take Rs. 60,49,600 out of the poverty of the people. Then we have ganja and bhang. As you know, if a man takes these drugs, he becomes a nerveless wreck and yet, what do we find further down page 6 of the Budget Estimates? ‘Ganja, Rs. 20,09,500 and bhang, Rs. 80,200.’ Are we to be parties to these transactions? Are we to sanction the purchase and sale of these drugs for consumption by our people? Sir, now look at page 4. We have budgeted for an income of Rs. 2,22,29,600 from the duty on distillery spirits and of Rs. 3,88,34,700 from licence fees for the sale of distillery spirits. Then again, from country fermented liquor we propose to make Rs. 5,34,25,500. Now, Sir, should there not be a difference in this respect between our own people running the Government and the Britishers running the administration? We have been saying that it is a sin for any Government to be a party to these transactions. And now, to-day, when we are in power, we are daunted by Secretariat figures. We are to-day going to distil liquor and sell both ganja and bhang. I say, as a man of conscience, as people who have protested against the Government action in this matter, let the Government ask for double the demand under other heads, we are prepared to pass it. But let opium be substituted by machinery for prohibition and let ganja be substituted by total prohibition.

“Sir, I heard friends on this side of the House treating this subject as a mere political question. To me it is a question of faith. It is purely, totally, a cent per cent question of faith. It is not as a question of politics that we treat the matter. Sometime back we introduced prohibition in a village. It was not a scheme of the Government. We persuaded the Harijans to completely stop drinking. They stopped for one year. But in the next year the toddy shops were opened. The renter was a casteman and straightaway people began to indulge in drink. I was ashamed to go again amongst those people, my constituents, lest they come to me and say ‘Let us have total prohibition. It was promised by you last time.’ Sir, when the Government tried to repeal the

[Sri A. Vaidyanatha Ayyar] [15th August 1946]

prohibition but maintain the sales-tax, there were protests by speeches at Madras to the Governor that he had to ear-mark the tax towards prohibition as the continuation of the tax would otherwise be wrong. Therefore, I request you to carry out our promise to the people.

“One other point I want to mention. To-day the whole country is rocking with any amount of trouble. There are strikes everywhere. There are blackmarkets in every business. I do not know of a single article that does not find its way into the blackmarket. Corruption is there right through. To eradicate this, it is not figures that are wanted. It is the heart that is wanted to root out corruption. It is rare to find a good merchant. All that is required to put an end to the blackmarkets is moral pressure. This moral pressure you cannot secure unless there is absolute prohibition. On my knees I entreat the Hon. the Premier to see that total prohibition is introduced.”

* SRIMATHI VALLABHANENI SITAMAHALAKSHMIAMMA:—“అధ్యక్షా, ఈ నాడు మన రాష్ట్రములో మద్యపాన నిషేధమును 8 జిల్లాలలో అమలు జరిపేటట్లు మన ప్రధాన మంత్రిగారు బడ్జెటులో ఏర్పాటు చేసివున్నారు. దీనివలన మన రాష్ట్రములో ప్రజలు సంతోషించుచున్నారు. అంతేకాకుండా, దీనిలో ముఖ్యముగా భాగస్వాములై యీ మద్యపానమువల్ల బాధపడే వారందరు దీనివలన ముఖ్యముగా సంతోషిస్తున్నారు. విందునల్లనంటే, యీ మద్యపానము దురభ్యాసము వలన అనేక కుటుంబాలు యీ విపాసకులైనై, చాల దరిద్రములో మునిగివున్నాయి.

కాంగ్రెసు యీ దురభ్యాసాన్ని తొలగించటానికిగాను యిప్పటికి దాదాపు 20 సంవత్సరములనుండి కృషిచేస్తూ వచ్చింది. దానికే, 1937 వ సంవత్సరములో మన కాంగ్రెసు ప్రభుత్వము వచ్చినప్పుడు, యీ రాష్ట్రములో 4 జిల్లాలలో మద్యపాన నిషేధాన్ని అమలు జరిపింది. కాని, అంతలో ముఠావర్తము కదవీ పరిత్యాగము చేయవలసివచ్చింది. అందువల్ల యీ మద్యపాన నిషేధాన్ని వారు పూర్తిగా సాగించలేకపోయినారు కాని, యీనాడు, కాంగ్రెసు ప్రభుత్వము అధికారానికి వచ్చిన వెంటనే, దీనిని కొనసాగించి, 8 జిల్లాలలో పెట్టినారు.

మొన్న జరిగిన ఎన్నికలలో కాంగ్రెసుకు అకుంతిత విజయముచేసారనిదంటే, యీ మద్యపాననిషేధము కాంగ్రెసుయొక్క ఎన్నిక ప్రణాళికలో ఒక అంశమై వున్నందువల్లనే నేను యీ ఎన్నికలైన తర్వాత బందరు వెళ్లినప్పుడు, ఒక యాదవ శ్రీ నావద్దకు వచ్చి, “మా వోట్లు అన్నికూడా కాంగ్రెసుకే యిచ్చి, దిగ్విజయము ఎందుకు చేకూర్చినామా తెలుసునా” అని అడిగింది. ఎందుకను అని అడిగితే, ఆమె యీ విధముగా చెప్పింది. “మన రాష్ట్రములో కాంగ్రెసు ప్రభుత్వము అధికారమునకు రాగానే, వీలైనంత త్వరలో రాష్ట్రములో మద్యపాన నిషేధమును అమలుజరిపి, మా కష్టములను హృదయములో పెట్టుకొని, మాకు సహాయముచేస్తారనే భుత్యాహముతో మా వోట్లు యిచ్చినాము. ప్రతిరోజు, నా భర్త కష్టపడి, సాయంకాలానికి ఒక రూపాయ సంపాదించుతాడు. కాని, నేను, నా నలుగురు పిల్లలకూడా తిండిలేక వున్నాము. ఈ రోజులలో, ఆ వచ్చిన రూపాయకూడా మద్యపానానికి భుజయోగించినట్లులైతే, ఏ పావలా డబ్బులో మిగులుతే, యీనాటికి దానికి నూకలుకూడా దొరకవు. కనుక, వెంటనే యీ ప్రభుత్వము మద్యపాన నిషేధమును వీలైనంత త్వరలో అమలు జరిపేటట్లు చూడవలసినదని ఆమె కోరినది.

[Vallabhaneni Sitamahalakshmiamma]

15th August 1946] 15th August 1946] [Vallabhaneni Sitamahalakshmiamma]

“మన ప్రధాన మంత్రిగారు చాలా శ్రద్ధవహించి, క్రజల కష్టములను తెలుసుకొని, ముఖ్యముగా శ్రీలయొక్క బాధలను తెలుసుకొని, యిప్పుడు 8 జిల్లాలలో మద్యపాన నిషేధమును అమలు జరుపుచున్నందులకు వారికి వందనములు సమర్పించుచున్నాను.”

(After Lunch—2-30 p.m.)

* Mr. H. S. TOWN:—“Mr. Speaker, Sir, I gathered from one or two speakers this morning that they would have no objection to excluding Europeans from any prohibition programme of the Government. The kindly thought behind this seems to be that alcoholic liquors sap the strength, waste one's money and generally bring about degeneration of the intelligence and rapid death. I thank them for this and I am quite sure that my community and the members of my group in particular will be pleased to be the guinea pigs for experiments on this subject. Other speakers have given one the impression that it is only the poor and the working classes of this country who are addicted to drink. We are given to understand, so I gather, that most of the working classes are drunkards. On behalf of the working classes I must repudiate any such charge. I have many employees and it is a very very rare thing to see any of them under the influence of liquor. I know the large majority of them take their glass of toddy when they want it, but I do not think there is any excessive drinking amongst them. It may be that in the villages there are men who drink to excess, but of course everywhere there are bound to be a few who drink to excess in any country. But the vast majority of the working classes are not drunkards and it is an insult and a slander to pretend that they are.

“Now, Sir, we are talking about prohibition. What is prohibition? It is a wholly negative programme. It is a command not to do a thing. It will lead you nowhere. ‘Thou shall not’ never led anybody anywhere. Every man with any spirit in him, when you say to him ‘Thou shall not’, will reply ‘I will’. Whether you like it or not enforce prohibition as much as you like, every man who wants to drink will drink.

“Sir, here we have a great political party which claims that it can lead the masses. It has led them some say astray and some say in the right direction. But this great political party cannot lead the masses into reasonable and limited drinking! It must start with a ‘Thou shalt not’ programme. I say, Sir, that no amount of expenditure can ever lead the masses where the masses do not want to go.

“In the forty years that has passed since my childhood, I have seen a great and mighty nation deal with its drink problem and deal with it effectively. As a schoolboy I had to pass along two miles of one of London's biggest high roads every Saturday

[Mr. H. S. Town] [15th August 1946]

afternoon and I can assure you that for a boy of the age of 14, it was a most terrible and terrifying experience. When the factories closed, one could see large number of drunken and reeling men about and I was terribly afraid. But to-day any child can walk along these same streets. There are more working men in that district, but there will never be seen or only very very rarely indeed will one meet a drunken man. Now, Sir, that was not due to any policy of prohibition. It was the result of a policy of education, of gradually weaning people away from the dangers of excessive drinking. Not only has Great Britain done this, she has gained increased revenue from the sale of liquor. Last year it was 600 million pounds every bit of which was used to reduce other taxes. This has been achieved by very simple methods and I see no reason why similar methods should not succeed in this country.

“ Now we are told openly by the advocates of prohibition that we will have to pay other taxes. In other words those who do not believe or follow the ideals of the Congress are to be taxed for the pleasure of enforcing those ideals upon unwilling people. Sir, during question time recently, some hon. Members sought to get the prices of second-hand cars controlled and a Member of the Cabinet three times mentioned ‘ If there are people who are fools enough to pay the prices, let them.’ Now, Sir, why does not that Member adopt the same principle with reference to drink and say ‘ People who are fools enough to drink to excess, let them.’ ”

“ I know it is quite useless for me to ask this Government to give up its policy of prohibition. Even if it wanted to, the Cabinet could not, for the power behind the throne insists and whatever happens that power will go forward with its insistence. I cannot, however, view without considerable fear, the re-introduction of prohibition, for I have seen the benefits accruing to North Arcot district from the abolition of prohibition, definite benefits. During the war I had to move a portion of my workshops out of Madras and we unfortunately went to North Arcot. We were appalled at the drunkenness amongst our people. We had greater absenteeism, more drunkenness and less efficient work than we had among our people in Madras. Even the work people we took from Madras fell a victim to the evil. Their health broke down and they became drunkards which they were not while in Madras. Immediately prohibition was removed in North Arcot, we saw improvement in the health of the work people. We had better work in our factories and less absenteeism. This is evidence given to me by a life-long teetotaler, a man who would not do anything to forward the cause of drink. This was forced upon him willy-nilly. These are facts and cannot be gainsaid and I have learnt a lesson from them. I have heard about prohibition, I have read about prohibition but North Arcot was where I saw it at work and I tell this House prohibition will not work. We know that large sums of money were spent in the past to enforce prohibition and every one knows in spite of Government reports to the contrary that it was a miserable failure. Prohibition has been a failure wherever tried. It was a failure in India well over two thousand years ago.

15th August 1946] [Mr. H. S. Town]

It has been a failure everywhere. And wherever prohibition came in, the man who has been told ‘ thou shalt not do this ’ has always found means of doing the very thing he was prohibited from doing. In this country where the raw materials of alcoholic drink are on everybody's doorstep, you cannot enforce prohibition. It is impossible.

“ Now, Sir, the drink problem has to be tackled. Let us tackle it in another way. Let the Government consider teaching people temperance and moderation in their drink. There is no use telling a man not to touch the first glass of drink. What you have got to teach a man is to stop with the first drink. If you will only do that, Sir, it will go a long way. You can keep your revenue and will have a contented working class free from the wiles of the racketeer and the illicit distiller. I know it is a forlorn hope but this House shall not get away without my expressing even a forlorn hope. I suggest that Government should now immediately take up one of the non-prohibition areas and set up standards whereby the toddy shop will be a clean, airy and well-lit place where a man can go openly in broad daylight and get alcoholic drink, where he can also, if he wants take his family with him. It should be made compulsory on the toddy shop to sell non-alcoholic drinks as well. There is no reason why the toddy shop should not sell non-alcoholic drink as well. If a man is going for a glass of toddy or arrack and if he finds that his wife can also take a glass of milk at the place, it is far more likely that the man will come back a sober man than if he had to leave his wife at home and secretly go to a toddy shop in a dark, dirty and dim corner. Let him go where everybody can see him. Sir, by this means the income you will get will be increased and you can devote a proportionately large share to teaching the people temperance and the rest to education. Educated men do not as a rule drink to excess. It is the uneducated who do not see that it is a disgrace to be a drunkard. There is no harm in drink as drink; there is harm in excess and therein lies the disgrace.

“ Sir, I am sure that the Government will go forward with their prohibition policy. The cost of the enforcement will more than swallow up any new taxes you may impose, and it will be beyond the capacity of this Presidency to impose prohibition and also carry out any social work for the uplift of the underprivileged. Sir I have stated that I have no hope of getting my words listened to by the Government. But they shall be on record, because I am certain that prohibition, though imposed, will not last long. I have put my suggestion forward, Sir, because this Government shall not go forward with this policy without being told that it will do calamitous damage to this Presidency and that all the social work will stagnate, and that we shall in a few years be farther behind than we are to-day. I am confident that the cost not only of imposing prohibition, but of enforcing law and order will increase at a terrific pace. Once a man realises that prohibition is not very effective and that any man who wants to have his drink can have it, law and order will be disregarded in this

[Mr. H. S. Town] [15th August 1946]

province and the Government will eventually have to give up its prohibition policy. You will recognize the failure in ten or fifteen years. In the meantime you will be behind-hand in your uplift programme, in your education programme and everything that goes towards the improvement of the conditions of life of millions of people in this province. Sir, let Government regulate the hours at which drink can be obtained, regulate the alcoholic content of drink, make it a punishable crime to be drunk and then allow a man to have his drink in moderation. But let not the people be made pawns in the game of a political party which wants to enforce its programme."

* Dr. D. S. RAMACHANDRA RAO:—"Mr. Speaker, Sir, it is with considerable diffidence that I rise to oppose the cut motion. In doing so, I recall an instance in my life that occurred over a decade ago. It was during the Second Round Table Conference in which Mahatma Gandhi was taking part in London. America was then on the tip-toe of expectation. One group wanted him to visit America and another was against his visit to the United States. At that juncture a friend of mine cabled to me to go over to America and place before the American public the Indian national aspirations. Within a month I was able to find my way into the United States. I believe it was in New York that a large meeting was held where several of the prominent and experienced men of the city were present. A dinner was organized and I was to speak about India after dinner. Suddenly somebody got up and said 'If India is to become free to-day, what will she do to-morrow?' I was at my wits end. I did not know what to say and how to begin. A young American woman, very cultured and abreast of modern ideas, rose up and flung at me a helpful suggestion. She said: 'I know what India will do if she becomes free to-day. She will go dry to-morrow.' And that gave me an opportunity to speak about Indian aspirations after dinner.

"Sir, this question of prohibition has been thrashed out threadbare from many points of view. A great deal of emotion on both sides has been introduced into the discussion. I think we have to look at it from the scientific point of view. We have been told that statistics could be manufactured to prove either point of view. Sir, it is perfectly true that we want to reach our objective, namely, prohibition. It has been proved over and over again that small quantities of alcohol imbibed continuously would create physical, mental and moral degeneration more insidious than occasional excesses would. I therefore tell my hon. Friends who say that prohibition will not help to make India sober but that it will only make India more alcoholic and that drink will become illicit, that all their arguments are untenable. Sir, we have found by experiments that when once small doses of alcohol are introduced into the body, it gets into the nerves and the nerves crave for it, and rightly or wrongly, the nerves demand satisfaction. There are two ways of meeting such demands; either you must have counter attractions which will take away the craving, or when a person makes up his

15th August 1946] [Dr. D. S. Ramachandra Rao]

mind to drink, he will drink at any cost. But that does not mean that the State has no obligations of its own. It should not lie supine and allow people to do what they like. Even Shakespeare, the poet belonging to the country from which my hon. Friend Mr. Town hails, said:

'Oh, that men should put

An enemy into their mouth

To steal away their brains.'

It is the social conditions of today that make people drink; it is because of the hopeless and helpless conditions in which we compel great masses of people to live that this vice thrives. The great palaces which we have built for ourselves are out of the labour of these millions. Sir, their status must be improved. I do not hold that prohibition is a simple thing by any means. It is a gigantic task. I wonder whether the Government really realize the enormity of the problem and the responsibility that they have undertaken on their shoulders. (Some hon. Members: 'No, no.') Sir, I want the Government to realize that America has tried it and America has failed. Of course there were many reasons for it. There, far from being purely a social question, it got mixed up with politics. But whatever it be, prohibition has created expectations in this Presidency; the whole of India is looking up to Madras; nor is the interest confined to Madras, it has spread to the whole of the country. Everybody is hoping that if prohibition should ever be a success anywhere in the world, it would be in India. Therefore, Sir, it is up to the Government to take their time, and see things in all their bearings; once it is decided to introduce prohibition, they should see that it becomes a success. Otherwise, if it is allowed to become a failure, they will be only playing into the hands of those who do not want prohibition.

"One word more, Sir. My hon. Friend said that if prohibition is introduced, the Catholic Church should be protected by permitting the mass wine. I believe it is exempted. They should be allowed a very small quantity only. It is only an emblem, and it is symbolic of the recognition or remembrance of the passion and the crucifixion of Christ. The wine is really unfermented and it is diluted to the extent necessary. Sir, it is not only the Catholic Church that uses the wine, but the Protestants also use it sacramentally. It is only a very small quantity that they require. If you ask the church leaders what is the smallest quantity they require they will co-operate with you by asking for as small a quantity as they deem absolutely necessary. Sir, this is a great and vast problem, and I would only suggest that the Government should look before they leap."

Mr. SPEAKER:—"The House has already taken two hours and forty-five minutes over this demand. I am going to allow discussion on this demand till 3-30 p.m. and then the hon. Minister will make his reply. I am going to allow 5 minutes for each speaker."

[15th August 1946]

* SRI N. S. VARADACHARI:—"Mr. Speaker, Sir, in spite of the mournful note or should I say lugubrious note Mr. Town has struck, I speak to-day on prohibition with the same confidence and the same conviction with which I spoke the other day. Public opinion, Sir, demands that there should be total prohibition throughout this province. It is the most urgent task that faces Government. It is the best form of post-war reconstruction if you like so to call it. In fact, it will leave every poor man's home clean and dry, so that he may live in conditions of security, health and happiness in his own immediate neighbourhood. I do not propose, Sir, to urge arguments in favour of prohibition to-day. Prohibition is past the stage of argument. But I propose, Sir, to deal with one or two new-fangled notions so sedulously circulated in the press and outside, that the Revenue Reserve Fund is something sacred which should not be touched for prohibition. I propose to deal with that aspect of the question now. The very name "Revenue Reserve Fund" indicates that it is a reserve intended to be drawn upon when revenues are insufficient to meet expenditure. If, for instance, Government could use up Rs. 10 crores of that Revenue Reserve Fund for food subsidies in a year of famine, is Government going to call this post-war reconstruction? Famine is stark reality. It has to be met. Expenditure has to be incurred and I take it that Government has with open eyes sanctioned all the expenditure and debited it to this Revenue Reserve Fund. There is nothing sacred about this Revenue Reserve Fund. In fact, all Government revenue is a fund from which all expenditure, legitimate, is met. If famine exists to-day, we do not hesitate to touch current revenues, and even put down this overwhelming burden of Rs. 9 crores in one year and charge it to revenue and not even spread it over successive years as it ought to be done on principles of sound budgeting. I go further, Sir, and say that prohibition is a policy and even as we would not allow people to starve and die if there was famine in this country, we should not allow this imposed cruelty upon poor people to remain a minute longer even if it costs Rs. 10 or Rs. 15 crores in this very year. Suppose for instance we did propaganda so effectively throughout the country and stopped the sale of drink even without the help of the Act. Does Government propose to go round from house to house and ask everybody to drink because it found its revenues were diminishing? Certainly not. Take it for the purpose of argument that such a position can be attained even without the force of law; what would happen then to the Revenue Reserve Fund? I say that this Revenue Reserve Fund is a first charge upon prohibition and only after that a charge for other reconstruction work. Congress Ministries must have a continuity of policy. It may not be right to say that all this Revenue Reserve Fund is an accumulation of all the commercial taxes collected from year to year; and yet all the same, this Revenue Reserve Fund should and ought to have been drawn upon to enforce prohibition throughout this province.

"I may give you, Sir, some figures . . ."

* MR. SPEAKER:—"You have got only one minute more."

[15th August 1946]

* SRI N. S. VARADACHARI:—"I will give you some figures which will show the astonishing rate at which expenditure has grown in this province. In 1944-45, it was Rs. 29 crores, in 1945-46 it was Rs. 30 crores and in the coming year 1946-47, it is to be Rs. 57 crores, because we have included extraordinary items like food famine in the budget which according to the theory propounded in unofficial notes, should never have been debited to the Revenue Reserve Fund. In effect, I wish to say this. I cannot be a party to new taxation unless all expenditure is gone into and this House is satisfied that there is need for fresh taxation for particular programmes. (Abdul Hameed Khan Sahib Bahadur: 'Threatening rebellion!') it is not rebellion. What is needed is swift relief for people suffering under this evil of drink. In fact, Sir, it is just restitution to our poor people. We have taken last year Rs. 16 crores from these very people and year after year, we are taking huge sums of money which ought to be restored to them. That in short is my case for total prohibition."

* MR. SPEAKER:—"I am sorry, I cannot allow any more time."

* SRI G. KUMARASWAMI:—"Mr. Speaker, Sir, I rise to support the Government demand for grant under the head 'Provincial Excise.' It is certainly most welcome to work up, especially for those people who picketted some time ago these toddy and arrack shops and sales as well, and went to jails several times—it is certainly welcome for them to see that total prohibition is introduced in the whole province. Sir, introduction of total prohibition will be welcome by one and all in the country, but the difficulties which lie in the way of the Ministry ought also to be considered. Sir, 'He who controls the finances of the State controls also the destiny and policy of the nation.' That is what a high budget authority has stated. If to-day a Pitt or a Peel or a Palmerston is still remembered, it is because they were able to steer the ship of Great Britain out of financial stringency to a position of financial security and safety. We know, Sir, when Cobden had to fight against the Corn-Laws, he had to stake everything for the country and he and his party men were the benefactors. Similarly our able Premier who like Cobden staked everything for the freedom of his country, has with his ripe experience presented the budget to both the Houses of Legislature and won the universal applause of the whole country. We know that the income of the Madras Government is about Rs. 57 crores and the income from the Provincial Excise is Rs. 13.61 crores. Of course, from the commercial taxes we get about Rs. 7½ crores and from the sales tax alone we get Rs. 5½ crores. But what about all the other departments for which money is to be spent? We see, there is marked improvement in Medicine, Public Health, in rural reconstruction, in famine relief, etc. Changes are being introduced in regard to land tenure and so many other departments. It is no joke to tackle all such problems as these. As I said, the budget that has been presented by the Premier which has won the applause of the whole country must be supported here not only by the Congress Party but by the Opposition as well. Now, Sir, I am happy to congratulate the Hon. the

[Sri G. Kumaraswami] [15th August 1946]

Premier once more on what he has achieved. I am glad he has assured us that in three years' time he is going to introduce total prohibition in the whole province. Originally it was introduced in only four districts and the Prime Minister made a statement the other day that in four more districts prohibition would be introduced this year, and he has done it. It is certainly a marked improvement. Now, I would suggest that we must prepare all the districts in the province for the introduction of total prohibition next year. What is required is intense propaganda in the country side of the various districts of the province. We must go to the villages, talk to the people and show them by magic lantern lectures and other things what great advantage will accrue as a result of prohibition. The Government must also appoint special and additional staff to get the country prepared for the introduction of total prohibition in the coming years."

* **SRI M. GOVINDASWAMI**:—"அக்கிராசார் அவர்களுக்கும் சபையில் வீற்றிருக்கும் எல்லோருக்கும் நான் தெரிவித்துக்கொள்ளுவதென்னவென்றால், இந்த நெருக்கடியான காலத்தில் கள்ளுக்கடை முதலிய கலால் விஷயங்கள் எடுத்துவிட முடிவு செய்ததற்காக நான் மத்திய சபைக்கு என்னுடைய வந்தனத்தைத் தெரிவித்துக்கொள்ளுகிறேன். நமது தேசத்தில் பஞ்சம் தலைகாட்டி நிமிர்ந்து நிற்கும் இந்தக் காலத்தில், பஞ்சத்தையொழிக்க நாம் முற்படவேண்டியது அவசியமாகும். இருந்தாலும், கள் குடியானது அதிக காலமாக நம் எதிரியாக இருப்பதால், அதையும் உடனடியாக நாம் ஒழிக்கவேண்டும். மக்களிடையே கல்வியறிவு இருந்தால்தான் கள் குடி முதலிய கலால் உபயோகத்திலே ஒழிக்கமுடியுமென்று பலர் பேசியுள்ளார்கள். ஆனால், கள் குடியினால் மக்களில் பலர் கஷ்டப்படுவதைப் பார்த்து வருகிறோம். ஆகவே கள் குடியை ஒழிப்பதை நாம் தள்ளிப்போட முடியாது. இன்று முதலாவதாக நமது மாகாணத்திலே 8 ஜில்லாக்களில் மதுவிலக்கு கொண்டுவரப்படுகிறது. கள்ளுக்கடைகள் எடுக்கப்படுவதினால் ஏழைகள் பெருந்த நன்மை அடைவார்கள். ஏழைகள் என்று சொன்னால், அவர்களில் பெரும்பான்மையினர் தொழிலாளர்கள் தான். அவர்களுக்குக் கள் குடிதான் முதல் எதிரியாக இருக்கிறது. கள், சாராயம், கஞ்சா முதலிய போதைப்பொருள்களை ஒழிப்பதற்காக இந்த மாகாணம் முழுவதும் பிரச்சாரம் செய்ய ஏற்பாடு செய்யவேண்டும். இதுதான் நாம் இப்போது ஜனங்களுக்குப் போதிக்கக்கூடிய கல்வியாகும். இதைவிட முதலில் கல்வியை அளித்து, பிறகு போதைப்பொருள்களை ஒழிக்கலாமென்றால், அது முடியாததாரியம். புதைப்படிமம், நாடகம், பிரச்சாரம் முதலியவைகளினால் நாம் கள்ளுடியின் பாதகத்தை ஜனங்களுக்கு எடுத்து விளக்கவேண்டும். பள்ளிக்கூடங்களில் மாணவர்களுக்கு இது விஷயமாகக் கற்பிக்கவேண்டும். உபாத்தியாயர்கள் இப்போது அதிகசம்பளம் வேண்டுமென்று கேட்கிறார்கள். அவர்களுக்கு இப்போது நாம் அதிகச் சம்பளத்தைக் கொடுத்து அவர்கள் மூலமாக கள் குடியை ஒழிக்க நாம் பிரச்சாரம் செய்தால், அதை நாம் வெற்றிகரமாக ஒழிக்கமுடியும். கடைசியாக இப்போது 8 ஜில்லாக்களில் மதுவிலக்குத் திட்டத்தைக் கொண்டு வந்திருப்பதை இந்த மாகாண முழுவதும் பூர்த்தியாகும்படியாகச் செய்ய வேண்டுமென்று நான் கேட்டுக்கொள்ளுகிறேன்."

3.15 P.M. * **SRI K. CHANDRAMOULI**:—"Mr. Speaker, Sir, I congratulate the Ministry for introducing prohibition in eight districts. Still I feel if they had to introduce complete prohibition, it would go a long way to relieve the sufferings of the masses. Prohibition introduced piece-meal may have more impediments, more obstacles than prohibition introduced in all the districts."

15th August 1946] [Sri K. Chandramouli]

That is the only point upon which I want to dilate for a few minutes. There was one point that has been raised by my hon. Friend, Mr. Fernandez, and that is that individual liberty should not be interfered with when a social reform or any other thing is coming before us. At times, it is but proper, right and also just that individual liberty should be subordinated to the higher interests of the people and the society at large. In every reform or in every act that we are doing, it is true that we are interfering at every stage with individual liberty. I do not know when prohibition, especially complete prohibition, is sought for by the people and wanted by almost all sections of the people irrespective of creed and caste, why should this bogey of individual liberty be brought forward. Can there be any reform that can be done with this argument. I think it is not proper on the part of members to argue in that way; it is neither proper, nor rational. I want to say one more point. So long as there is no prohibition in this country, there cannot be better economy; there cannot be an upward movement in the moral direction. Especially when the country as at present is in need of food and is hungering for food, prohibition comes partly to its rescue, because you are poisoning the better and valuable food by converting it into alcoholic and highly harmful liquors. Even in the interests of the ordinary people, to save these people from this hunger, it is but proper and right that we should introduce prohibition in all the other districts also. Therefore, I appeal to the Ministry to take this step and go forward especially when all sections of the people are wanting it and are ready to make it a complete success."

* **DR. M. J. SAMUEL**:—"Sir, I rise to speak on this occasion to support the prohibition policy of this Government, but I am surprised to hear members both from the Opposition and from the ministerial benches speaking vehemently on total prohibition. I come from a district, Sir, where prohibition was introduced last time and I know what amount of trouble the Government and the supervising staff had in putting it down in seeing that drink does not get into adjoining districts. The trouble that we are going to have in introducing prohibition throughout the Province is, untold. I fully agree with the present Ministry in introducing prohibition by stages. Sir, some of the members remarked that by introducing prohibition they will put down black-marketing and profiteering. I do not know how the member has arrived at this view. Prohibition is quite different from black-marketing, because there is no black-marketing in liquors, toddy and other substances as it is in foodstuffs, cloth, yarn and other articles necessary for life. In this connexion, I would like to raise a point which some hon. Members from the opposition, especially from the Anglo-Indian community, raised. On the previous occasion they were very keen on amending the Prohibition Act by changing the word 'permit' into 'authority' for taking mass wine by the priests and bishops in Catholic and other Churches. I would request the present Ministry to go a little

[M. J. Samuel] [15th August 1946]

further and remove that 'authority' even. You know in India, every religion is against drink; drink is an offence and it is considered a sin and more so by Christian religion. (Hear, hear.) Therefore, Sir, this clause in the Prohibition Act must be deleted and more freedom should be given for the priests and bishops to take this wine for their sacramental purposes. Again, Sir, in this connexion, I would ask the Hon. Minister for Religious Endowments who is also in charge of Excise, what arrangements Government are going to make in regard to the neighbouring States in the Royalseema area. For example, the Banganapalle State is a small one in Kurnool district; and this Government is catering to its needs in regard to alcohol and other things. The Banganapalle State is paid Rs. 80,000 as compensation for the suppression of the ganja plantation. I would like to know what the Ministry is going to do in this matter in regard to prohibition."

* SRI N. M. R. SUBBARAMAN—"அக்கிராசனாதிபதியவர்களே, எக்ஸைஸ் இலாகாவுக்கு கேட்டுள்ள மான்யத்தை ஆதரிக்கையில் சில விஷயங்களைப் பேச விரும்புகின்றேன். இப்போது 8 ஜில்லாக்களிலே மது விலக்கை கொண்டுவருவதாகவும் கூடிய சீக்கிரம் மாகாணம் பூராவும் கொண்டுவரப்படுமென்பதையும் கேட்டு மகிழ்ச்சியடைகிறேன். சென்ற கூட்டத்திலே பிரதமாவர்கள் சொன்னார்கள்: "பூரண மதுவிலக்குத் தான் எங்களுடைய கொள்கை. அதை விரைவிலே கொண்டுவரப் போகின்றோம். அதற்காக ஏற்படுத்தப்பட்டிருக்கின்ற விற்பனை வரியை அதற்காகவே ஒதுக்கி வைக்கின்றோம்" என்று. இதைக் கேட்டு எல்லோருக்கும் திருப்தியளித்திருக்கிறது. முன்னாலேயே மதுவிலக்கை நம் முடைய பிரதான கொள்கையாக அமைத்திருக்கின்றோம். ஆகவே இப்பொழுது எவ்வளவு சீக்கிரம் மாகாணம் பூராவும் கொண்டுவருகிறோமோ அவ்வளவு சீக்கிரம் நம்முடைய வாக்கை நாம் காப்பாற்றியவர்களாவோம். மதுவிலக்கின் அவசியத்தைப்பற்றி இந்தக் காலத்திலே சொல்லவேண்டிய அவசியமில்லை. வாதிக்கவேண்டிய அவசியம் ஒன்றுமில்லை. எல்லோரும் நன்றாக அறிவார்கள். அதை எவ்விதம் அமுலுக்குக் கொண்டு வருவது என்பது தான் பிரச்சனை. இப்பொழுது மதுவிலக்கு பூரணமாகக் கொண்டுவந்துவிட்டேண்டுமென்றும் ஆனால் அதனால் ஏற்படக்கூடிய கஷ்டம் பணக்கஷ்டத்தோடு அமுலுக்குக் கொண்டுவரும் கஷ்டம்தான் பிரதானமென்று பிரதமர் சொன்னார்கள். அது மிகவும் உண்மை. கொஞ்சநாள் கழித்து நாம் கொண்டுவந்தாலும் மதுவிலக்கை திறமையுடன் அமுலுக்குக் கொண்டுவரவேண்டும். இப்பொழுது எவ்விதக் குறைவுமில்லாமல் கொண்டுவந்தால்தான் பயன்படும். சென்ற தடவை மதுவிலக்கு கொண்டுவந்த காலத்தில் குறைபாடுகள் இருந்ததாகப் பேசியிருக்கிறார்கள். அந்த மாதிரி நிலைமை வராமல் பார்த்துக்கொள்ள வேண்டும். எப்படியும் சில தவறுகள் ஏற்படத்தான் செய்யும், ஆனால் நாம் முன் ஜாக்கிரதையாக என்னென்ன ஏற்பாடு செய்யவேண்டுமோ அவ்வளவையும் செய்யவேண்டுமென்று கேட்டுக்கொள்ளுகின்றேன். இப்பொழுது மதுவிலக்குக்கு இருந்துவரும் கஷ்டங்களை நாம் ஒவ்வொருவரும் அறிகிறோம். அந்தக் கஷ்டங்களைப் பார்த்து மதுவிலக்கைக் கொண்டுவராமல் தள்ளிப்போடக்கூடாதென்று நான் கேட்டுக்கொள்ளுகிறேன். அந்தக் கஷ்டங்களை நீக்குவதற்குத்தான் நாம் முற்படவேண்டும். ஒவ்வொரு ஜில்லாவிலும், எப்பொழுது மது விலக்கு வருகிறதென்று கேட்கிறார்கள். கோயமுத்தூருக்கு வந்துவிட்டதால் மதுரைக்கு எப்பொழுது வருமோவென்று ஆசையோடு இருக்கிறார்கள். அந்த ஆசை விரைவில் பூர்த்தியாகுமென்று நம்புகின்றேன். ஒவ்வொரு ஜில்லாவிற்கும் இந்த விஷயம் மிகவும் அவசியம். அடுத்த பட்ஜெட்டுக்குள் பூரண மதுவிலக்கை நம் மாகாணத்தில் கொண்டுவரும்படி கேட்டுக் கொள்ளுகின்றேன். மதுவிலக்கைக் கொண்டுவருவதற்கு வேறு விதமான ஏற்பாடுகளைச் செய்யவேண்டுமென்பதைப்பற்றி எனக்கு முன்னால் பேசின

15th August 1946] [Sri N. M. R. Subbaraman]

வர்கள் சொன்னார்கள். மனதைக் கவரச் செய்யும் வேறு வழிகளைக் கண்டுபிடிக்கவேண்டும். விளையாட்டுக்கள், நாடகங்கள், போட்டிகள் முதலியவைகளை ஆரம்பித்துக்கொடுத்து அவர்கள் மனதைத் திரும்பும்படி செய்யவேண்டும்.

இந்த மதுவிலக்கினால் ஏற்படும் நஷ்டத்தை ஈடு செய்வதற்கு சிலர் சிலவழிகளைச் சொன்னார்கள். கைத்தறிக்கு வரிபோடவேண்டுமென்றும் சொன்னார்கள். கைத்தறி இப்பொழுதுதான் ஏதோ கொஞ்சம் நல்ல நிலைக்கு வந்திருக்கிறது. மறுபடியும் அந்த நிலைமை மாறினால் மீண்டும் கஷ்டப்பட நேரிடும். ஆகையால் அந்த நிலைமை வரும்படித்தான் இன்னும் வரிபோடுவதென்றால் இருக்கிற கைத்தறி நெசவாளர்கள் தொகை குறைந்துவிடும்; நெசவுத் தொழில் மிகவும் பாதிக்கப்படும். ஆகையால் நஷ்டத்தை ஈடு செய்ய வேறு வழியைத் தான் பார்க்கவேண்டும்."

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Mr. Speaker, Sir, most probably I am going to be the last Speaker on this side of the House. (Mr. Speaker: 'You are.') Therefore, I deem it my duty to join the other members in congratulating the Hon. the Premier for having given a lead to the other Provinces in the matter of prohibition. It is now too late in the day to go into the question of not introducing total prohibition or for its introduction only in eight districts, but the one thing on which we are all agreed is total prohibition and the Premier has given us an assurance that total prohibition will be introduced within the course of the next three years or so. I, therefore, feel that no purpose will be served in going into the matter at this stage and arguing that point again and again. However, Sir, as has been said by the Leader of the Opposition and other Members of the Muslim League, if we support total prohibition, it is mostly out of our religious viewpoint because Islam stands for that. My hon. Friend, Mr. Vaidyanatha Ayyar, was making a reference—I do not grudge it—that this policy was enunciated by the Congress during the last 25 years. But I may bring to the notice of the House that this was the thing taught by Islam more than 1300 years ago. Let me take this opportunity to assure the Hon. the Premier that in regard to his policy of introducing prohibition in eight districts, with a desire to introduce it in the other districts of the Province within the next three years—its introduction in other districts will no doubt depend upon its success in these eight districts—we, the members of the Muslim League and the whole Muslim public, will give our support and render all help and co-operation to the Government so that this scheme may be a success and that it may be introduced in the other districts of the Province as early as possible. Sir, we are not here to make political capital out of it. I would not have referred to this matter but for the fact that during the course of the debate, it was found difficult to find who is the Member of the Opposition and who is the member of the Treasury Benches. We find, in regard to this demand, that some members while supporting the demand for Excise were actually opposing it. We do not want to do any such thing. Let us be fair. We support the ministerial policy and there will be no playing such a game so far as we are concerned and that is the one thing for which we take credit.

[Muhammad Raza Khan Sahib Bahadur] [15th August 1946]

"Now, Sir, in regard to the question of taxation, it is not for me to suggest ways and means. It is your duty to find out ways and means. When a lot of agitation is going on all over the country, about new taxation, we are not going to shift the burden on our shoulders and we cannot take up the responsibility. Of course my hon. Friend Mr. Vaidyanatha Ayyar has given a very good suggestion and that is the nationalization of important industries such as transport and other things. But he has forgotten one thing. I may add—the nationalization of the legal profession—(laughter) because there is no point in making thousands in that profession. Therefore, I hope the Hon. the Prime Minister will keep that in mind, i.e., the nationalization of the legal profession, if that is possible. Sir, as I have said, there may be illicit distillation and boot-legging, because people will be preparing themselves even from now. Therefore, I hope Government will adopt suitable measures to prevent this. I also hope that Government will take necessary and proper steps to prevent drinking and illicit manufacture in the neighbouring States so as to make it a complete success."

* THE HON. SRI K. KOTI REDDI:—"Sir, my task today has become easier because barring two exceptions, every member of the House has supported the Government in its policy of bringing about total prohibition in this Presidency. Any attempt on my part to convince the two gentlemen that it is the duty of the society and the Government to infringe on the liberty of the individual in cases where it is considered necessary in the interests of society, will not prove successful and so, I shall not make any attempt to do so. Suffice it to say, that so far as this country is concerned, 99 per cent—probably, I might even say 99.9 recurring per cent—are in favour of introducing total prohibition at the earliest time possible. I will only say this, that the tendency in the modern world is to the effect that, wherever society considers that in the interests of society, if it becomes necessary to curtail individual liberty, it does not hesitate to do so. I need not go to the extent of citing the example of Russia in regard to the interference in individual liberty in many directions. Time there was, mainly in the western world, when interference with the liberty of the individual was considered very obnoxious and even in that country, it is now considered necessary in certain cases to do so. What is after all this penal code and penal law which are enforced everywhere? If this idea of individual liberty is driven to its logical conclusion, society cannot exist and there will be anarchy everywhere. If to-day liberty is given to you to kill your neighbour and you cannot be prevented or punished for it, because you must exercise your individual liberty, is the society going to allow it? Certainly it cannot. That may be an extreme example but it shows that in certain cases where it is very necessary to curtail liberty it has to be done."

"Sir, having the example of many people in the world addicted to drink and who in doing so, are not only harming

15th August 1946] [Hon. Sri K. Koti Reddi]

themselves but are harming others, what else can society do but curtail their liberty? Even if it is only a case of not hurting himself, even then I say society has a right to interfere with individual liberty in order to prevent him from doing a thing which is ultimately harmful to society. You have the standing example of one of the greatest men, one of the greatest commanders of the world, one of the greatest kings in the world, who met his death at the early age of 33, after having conquered half of the then known world merely on account of drink. I refer to Alexander the Great. Sir, I do not want to cite another example I have in my mind, because it moves my feelings. Whenever I think of prohibition and drunkenness, it always comes to my mind—I mean the example of a revered professor of mine in Oxford who later became the Chief Justice of this High Court. He was one of the greatest legal luminaries and he met his death on account of this drinking habit. Coming down to the ranks of the lower order, I would like to quote one or two examples to my hon. Friends in order to show them the evil effects of this drunkenness. We had a servant of ours who served my father-in-law for some time; he got from him something like Rs. 15,000 worth of property and in the course of two years he sold away most of it on drink without paying any consideration for his family. Not only that, but what did he do? The man who owed practically everything to the family, used to steal money in the evenings in order to satisfy his own hunger: not only stealing money but stealing even little trinkets including clothing of the family and such other things on which he could lay his hands. I know another gentleman, a neighbour of mine, earning Rs. 2 to Rs. 3 per day as a carpenter and when his wife died he had not even a pie to bury the body. Thousands of instances like this can be quoted. I only say, Sir, that in this country people believe in preventing such cases at least in future. Sir, I have been feeling that there is one difficulty in this. Whatever you may say, whatever you may talk of temperance and things like that, one finds it not easy to maintain a golden mean. Everyone of you can find examples in your own life, how it is not easy to maintain that golden mean. I, for one, would not consider it, as my hon. Friend, Mr. Vaidyanatha Ayyar, would put it, a matter of conscience that we should prohibit drinks altogether. I find, Sir, that in a majority of cases, however much we may try, this drink habit, which begins in a temperate manner easily leads to excess. It is why therefore that we have been trying to find a way out of this demon of drunkenness by bringing in this enactment."

"My Friends in the Opposition have questioned the sincerity of the Government in trying to introduce prohibition in this Presidency but I may assure them that we on this side are as keen as my hon. Friends of the Muslim community in regard to this matter. It may be that prohibition according to Hindu Sastras is not of the same type as prohibition under Islamic religion, but most of us, if not all of us, do believe that it is a sin;

[Hon. Sri K. Koti Reddi] [15th August 1946]

at any rate, Hindu society abhors drink. With that before us, I have no hesitation in saying that apart from the policy that the Congress has adopted, everyone in the country is as keen as anybody else to effect prohibition. If today we have taken up this programme, it is not on account of any slogan as our friends may say,—it is not a fashion as one member of the Opposition would like to call it—but it is on account of our sincere conviction that prohibition is in the interests of the people and that whatever may be the sacrifices, financial or otherwise, it has to be brought about at the earliest possible moment. The question whether prohibition could not be immediately introduced or not throughout, owing to financial reasons, will probably be dealt with by the Hon. the Premier who is in charge of Finance. I will only say this that we sincerely believe in it even though it may involve loss of revenue to Government. Though it may mean a loss of revenue to Government it will mean a lot of saving to the people in the shape of energy that is now being spent uselessly in tapping, transport, and selling. Those who are now engaged in this trade can be usefully employed. But is it possible within the short time at our disposal to find sources of revenue, to see that the revenue we lose by this will be got back by the Government? It is only on account of such considerations and other administrative difficulties that Government were forced to adopt the decision they have arrived at, namely, so far as this year is concerned, they could not introduce it in more than eight districts. If and when financial and other administrative difficulties are got over, it will be necessary to see that prohibition is brought about throughout the whole Presidency. It is not so very easy to brush aside some of the administrative difficulties that we have to encounter in introducing total prohibition immediately. For instance, there are States round about our Presidency who may not be prepared to introduce prohibition simultaneously with us. Some negotiations have to be carried on with them to see that they also follow our example in order to make prohibition effective. Then there is the question of the preventive staff, for instance; whether immediately on the introduction of total prohibition we can get sufficient staff either from the Police Department or from the Excise Department in order to enforce it effectively. Some hon. Members raised the question whether the enforcement of prohibition will be entrusted to the Excise or to the Police Department. I know, Sir, there is a difference of opinion on this point. Last time when it was introduced by the Congress Ministry, the whole work was entrusted to the Police, but since prohibition was introduced last time district by district the difficulty of absorbing the excess staff in other departments was not felt to be so great as it is now. We are going to do it in eight districts this year and probably throughout the Presidency in the next year.

3-45 p.m. “If total prohibition is to be introduced in the next year or two, and if the Excise staff is not given a chance to work out the scheme of prohibition, it may not be an easy thing for the

[15th August 1946] [Hon. Sri K. Koti Reddi]

Government to find work for them, as it would be unfair to disperse with their services altogether. It is also doubtful if the Excise Department cannot take up this responsibility and there is a keen desire on the part of the Excise staff that they should at least be given a chance this year. The Government have now decided that this year the chance may be given to the Excise staff in some districts. After studying the working of this system till the next financial year, we may decide whether the responsibility could not be taken over by the Excise Department themselves. If unfortunately they are not able to enforce prohibition effectively, we have to think of other departments and probably the Police Department may have to take it up.

“I am glad to see that many hon. Members of the House are very anxious to see that prohibition is enforced effectively. It is true that we much rather have no prohibition at all unless we are convinced and we are sure that it can be effectively enforced. There may be some doubts in the minds of some hon. Members. I come from a district where prohibition was in force for some time and I can testify to the fact that so long as the Government was run by the Congress, we had no trouble at all regarding illicit distillation in the district. From my own experience, I entertain no doubt that prohibition in this district can be enforced effectively. If there is one country in the world where prohibition could be enforced, it is India. It is our bounden duty on that ground alone to show to the world that total prohibition is possible. The example of America was cited by some hon. Members. I know the habits of the people of that country and if they failed in the matter of prohibition, it ought not to be considered that we shall also fail. Conditions differ. We are a people the majority of whom are not accustomed to drink. Here are people whose religious sentiment forbids drinking and people are ashamed to go and drink in public. Conditions are so congenial to the introduction of prohibition and it is from that alone I am very keen and I feel quite confident about it that we can show this country of ours to the world as the one in which prohibition worked successfully. In spite of the habit of drinking having been here for some years, prohibition is possible and prohibition could be effectively enforced. My hon. Friend, Mr. Abdul Rawoof, said that in Bellary district in expectation of the introduction of prohibition they have stored large quantities of jaggery and I had a communication from one of my friends suggesting to me the idea of rationing of jaggery. If rationing of jaggery could be introduced, a good deal of the trouble on account of illicit distillation of arrack will vanish. I am investigating how far it is possible to ration jaggery. I am sure it would be really good if it can be done.

“The question was raised as to what the Government proposed to do in the areas round about a prohibition district. When prohibition was introduced in certain districts last time there were some arrangements by which liquor was not supplied in

[Hon. Sri. K. Koti Reddi] [15th August 1946]

larger quantities than were supplied on an average for the last three years. The same was the case with regard to the number of trees which are tapped for toddy. Any other suggestion regarding any measures to be taken in the belt areas will certainly be considered by the Government. Whatever may be the steps taken by the Government for enforcing prohibition, in the end the responsibility and the success of enforcing prohibition would depend upon public co-operation and I have no doubt that public support will be forthcoming. It was said that public support was not forthcoming during the time when the administration was being carried on by Advisers. I have reason to believe that the public were not at all apathetic. It must be due to some peculiar conditions at that time. It is admitted that public support was forthcoming in a large measure during the time when the Congress Government was in power and why was it not forthcoming during the Advisers' Government? Now that we are here, I am confident that public support will be available and we can show to the world and to the people who have no faith in its success that we in this country can effectively enforce prohibition. My appeal to every hon. Member of every section of the House is that he should take as much interest as it is possible and devote his time and energy to see that this experiment is a success. The whole world is looking up to this country to find out whether even as an experiment it could be tried in their country. We have no doubt about our success and it is our bounden duty to show that it is possible. We have shown to the world that we can advance in certain directions in which they could not and this is really one of them.

"The Leader of the Opposition raised the question of the pension of the excise peons. I may tell him that orders have been issued according to which peons will get not one-third of average emoluments by way of pensions but one-half, just like what others get.

"He also raised the question why the grade system was introduced and not the incremental system. Recruits were forthcoming not from the highly educated classes but from those having school final qualifications and the work that was required of them was of a special nature. It was considered necessary that the grade system must be introduced so that people who were found successful in their work and were intelligent and keen might be given some encouragement by way of promotion to the higher grade rather than merely advance by annual increments. But now since we intend introducing prohibition throughout the whole country, the question of the grade system may not call for examination.

"With regard to the representation of Muslims in the Excise staff, I feel that the Muslims have no cause for complaint as will be evident from the statistics which I shall presently give. In a cadre of 517 Sub-Inspectors 75 are Muslims, out of 57 Assistant Inspectors, 4 are Muslims; out of 53 Inspectors, 5 are

15th August 1946] [Hon. Sri. K. Koti Reddi]

Muslims; out of 10 Assistant Commissioners, 2 are Muslims; and in the cadre of Deputy Commissioners which comprises two posts only, there are no Muslims. Their representation works to 15 per cent in the case of Sub-Inspectors, 7 per cent in the case of Assistant Inspectors, 9 per cent in the case of Inspectors and 20 per cent in the case of Assistant Commissioners. The representation is not unfair when you remember that the Muslim population forms only 8 per cent of this Province. (Mr. Abdul Hameed Khan: '20 per cent.') If my hon. Friend would show that the population figure as it pertains to Muslims is 20 per cent, he can take it from me that his community will be given 25 per cent representation, but I challenge my friend to give me figures. Even according to the communal Government Order, the Muslim community has been given two out of every twelve posts and it is more than that here in some cases. It would be unworkable if in the higher ranks which consist of one or two posts you demand that there should be a representation for the Muslim community. When their chance comes they get it and you cannot ask that the communal proportion should be observed. (Mr. Abdul Hameed Khan: 'It will apply in the case of appointments to the category of peons. In their case the representation percentage will be higher.') I have a word to say with regard to the point raised by my hon. Friend Begum Amiruddin. She raised the question why a European should be entrusted with the work of prohibition. Personally I see no objection and I say that such appointments must be welcome. Here is a European gentleman who from his past work and vast experience has shown his aptitude for the work and it would be uncharitable now to say that he ought not to have been given that place, because he is a European.

"A question was raised regarding alternative employment to the people who are at present employed in this trade. The question is engaging the attention of the Government and Government will do what is possible for them. The question of finding recreation for the erstwhile drinkers was also raised. It is a thing which is under the consideration of Government.

"Once more, I appeal to hon. Members to see that this experiment—we have indeed crossed the point and we have definitely taken long strides towards the accomplishment of our object of prohibition—is made a success and I appeal to them to devote a part of their time and energy for this very laudable purpose. For those that have any doubts on this question, I can assure them that in the course of two or three years we will bring about total prohibition and there is absolutely no foundation for doubts and fears. Doubts and fears will exist as long as this world exists. Regarding those that have raised the question of the exercise of individual liberty, I say that in the interests of society some curtailment is necessary and without that there cannot be liberty itself."

MR. SPEAKER:—"At the end of the peroration, it is usual for the Minister to appeal to the Member who has moved the cut motion to withdraw his motion."

[15th August 1946]

* THE HON. SRI K. KOTI REDDI:—"In view of the replies to the various points raised in the course of the debate, I appeal to my hon. Friend to withdraw his cut motion."

4 p.m. The Hon. SRI T. PRAKASAM:—"Mr. Speaker, Sir, I have not got much to say on this matter because, as you all know, this matter was debated at great length before. The question was raised 'when you first fixed four districts for prohibition, why did you increase it to eight districts, and when you increased it to eight districts why should you not increase it to sixteen districts, and why should you not increase it to 24 districts?' We had to do our duty, Sir, by this House and to all those who are behind the hon. Members of this House. Government represent all the hon. Members of this House and all the people who sent these representatives to this House. Under democratic Government although power rests in the electors, and in the people generally, they are not expected to come together to one place and discuss matters but appoint their own Ministers. That is why elections are held and representative Governments are established. That was why hon. Members of this House were elected, and the Ministry had come to be formed. It is not humanly possible for millions of people to carry on the administration. If they were to gather together and begin to argue, there would be no longer any Government, but there would be a situation, where each one would not agree with the other and finally the gathering dispersing, not in non-violence but in violence. That is why a constitution has been framed and Ministers have come into existence. When we were put in this place by you on your behalf, it became our duty to work according to the constitution and the rules laid down thereunder. We prepared the budget providing for prohibition for four districts. You ask 'why did you change it to eight districts?' We changed it because we were appointed as Ministers on behalf of this House and on behalf of the people who sent all hon. Members into this House. But I may tell you, Sir, that all, in any part of the world, are not aware, how budgets are prepared, how administration is carried on, whose is the responsibility to prepare the budget and whose is the responsibility to carry it out. We had to prepare the budget very cautiously, not with the belief that we were masters of the situation, that we could write whatever we liked and that we could force it upon this House or upon the people generally. As representatives of the House and people, as servants of the people and members of the House, we had to keep to rules and regulations with regard to the formulation of the budget. Now, Sir, sometimes people outside, I mean the voters who sent hon. Members to this House, might be feeling, 'we gave the vote, we are the electors, we are the persons who formed this Government; these people are doing things in their own way, so we are the people who can do anything with them.' Such wrong ideas will be lurking in the minds of many people who cannot be expected to know all the details and technical part of the duties of the ministerial Government. Therefore, Sir, originally we thought we could omit this prohibition altogether this

[15th August 1946]

[Hon. Sri T. Prakasam]

year, because we had to take charge of Government in the middle of the year. So I thought 'why not we postpone it to next year.' That was in my mind. But I was inclined to suggest that only one district which was chosen first by my hon. Friend in the last Government, Salem, alone be brought under prohibition. But as we sat together and discussed all the aspects, we realized the scheme was in force in four districts when the last Congress Government came out of office and the Advisers' regime stepped in. The latter after some time decided to cancel the Prohibition scheme. Naturally the Congress felt a wrong step had been taken by the Advisers' Government. All of us who were in jail then felt the same. We, the representatives of this House, had to discuss all this and decide as to the minimum that we could do, namely, 'is it only Salem district, or the four districts that were worked by the previous Congress Ministry that should be brought under prohibition this year?' For the sake of honour and prestige we decided to restore the four districts. That is how four districts came to be included. We knew our difficulties. We are all not experts in the art of government or in the art of finance or in the art of attending to so many things that are woven round a constitution such as ours. We had to look into all these matters; and we had expert advice. I do not condemn the experts of the Finance Department, who had bestowed their full thought and who had advised, as some of our own friends later on advised us that we might drop it altogether this year. 'Let us have prohibition for all the twenty-four districts next year.' But our feelings were swayed by the feelings of others. So we said 'we will start prohibition this year.' Originally we decided four districts should go dry. Later on agitation was started by people who honestly believed, that 'because there are so many crores of rupees in the reserve fund, why not we use up that money and start prohibition in all the twenty-four districts simultaneously.' That was their honest belief, and they naturally agitated. Whether they were from our own party or from outside, it made no difference; because it is a question in which everyone was entitled to give his thought for the benefit of the country.

"We thought that however much we tried we would not be 4-15
in a position to convince some of our own friends. I have no p.m.
quarrel with those friends who differed from us on an important matter like this. So, we had to consider the whole matter and when the feeling was growing more and more we thought that we should take necessary steps to satisfy the feelings of those friends who put this Government in office here. They may not have understood the difficulties of the Government from the executive point of view, but still we have to satisfy them. Unless we satisfy them there is no good for the Prohibition scheme in the four districts. Therefore, Sir, it was decided to discuss it again in the Cabinet. Fortunately for us, the Governor, who is at the head of this Government, is one who has been taking an independent and liberal view with regard to any matter that came up before the Cabinet over which he was presiding. We discussed the whole matter. What is it that we should do to appease the

[Hon. Sri T. Prakasam]

[15th August 1946]

feeling in the minds of the people? Even though it may be difficult for us to do anything effective in this half-year, we agreed and decided. I was not sure, because I did not believe at any time after the budget was prepared and placed before the House, and when discussion started, that there was any occasion when the whole thing could be revised in the manner it had been done by us. We have done it because we felt that it was our duty to do it although technically it may not have been in order. Nowhere perhaps under the British Constitution was such a question raised during recent years. Nowhere under the British Constitution was a budget prepared by the Chancellor and by the Ministry. It was done here because we are building our own constitution. We are trying to pull through this chariot as well as possible, understanding our own position and difficulties. That is why it came about. Nobody need be surprised or be under any mistaken impression that it was done out of any extraneous pressure. What is the extraneous pressure so far as the present Government is concerned and so far as all the hon. Members of this House are concerned? It is a pressure, a legitimate pressure that was put upon the executive. It may be that those who are putting pressure are not aware of the constitutional rules and regulations that are adopted in all parts of the world, and particularly in Great Britain, whose constitution we have adopted and are trying to work out. It may be that even under this constitution it was our duty to make it clear and we have done that. Therefore, nothing wrong has been done. I only wanted to express my thanks to all hon. Members who at one time were not in a calm mood to consider what could have actuated the Ministry to extend prohibition to four more districts. As time passed on and as we were able to understand one another, things have become calmer and quieter, and to-day, although some friends expressed their views strongly and vehemently, we have no reason to grumble about it. I am very much thankful to all hon. Members of this House for the way in which they have received this demand and for the manner in which they have given their support to Government. Some things have been said, Sir, about opium, ganja and perhaps horse races also. All these things have been put forward in the course of the debate. I may assure hon. Members of this House that so far as this Government is concerned, the opium trade would not be allowed to be carried on. At one time, opium revenue formed the biggest item of Government receipts. Now, we will not have, I think, opium revenue or ganja revenue or any tainted revenue, as far as possible. Mr. Fernandez raised the question of mass wine. That will be attended to. No difficulty will be caused. Everything that is necessary will be done and the suggestions made will be noted, and I have no doubt that they will be carried out.

“It was said, Sir, that expenditure had increased. Yes. Has the expenditure increased as soon as you put us in office? If the expenditure had increased before we came into office, before you put your men into office, what was it due to? One must consider that dispassionately. We saw sometime back how people

15th August 1946] [Hon. Sri T. Prakasam]

died of starvation in Bengal. You found dead bodies all round because of starvation. Starvation was there even though there was available stuff locked up on account of maladministration and maldistribution. All that is a matter of history now. The Advisers' Government came. The Advisers' Government should not be condemned merely because they have been Advisers. When they were faced with a famine, food crisis and cloth crisis, when they were unable to procure enough for eating or produce cloth for wearing, what is it they have done? They formed the Food department. The Food department is a very big department, which undertook the task of getting food, not raised here on this soil, but from outside and distributing it. When I looked at the map soon after I assumed office, I found how it was planned. It was an enormous thing. If we had not been in prison but in office some reduction in expenditure could have been made. Later on we saw one or two items of very high expenditure. Milk, for instance, had to be got in tins from America and other places, and the charges were so heavy that under one head was put two and a half crores of rupees. When we found this out we stopped this, but so far as those goods that were already shipped we could not curtail. We have been going into the question of the Food department. As a matter of fact, the Food department has been shifted from the Board of Revenue to the Secretariat. We have been trying to solve these problems, slowly, as we are all new men and the time at our disposal is short. If expenditure during the Advisers' regime had increased it was not your fault, or our fault, or anybody's fault.

“We have to reduce expenditure as far as possible. We have decided upon a committee of members in order to make arrangements to find moneys for the non-gazetted officers, teachers, and all others who have been agitating. This is a period of strikes. A strike wave has been going on in the country from the Himalayas to Cape Camorin. All other agitations have gone out of the field. One starts a strike, because in one place it was started and some little good result came out of it. Others say ‘some compromise was effected, so, let us follow it up.’ In that way, knowingly or unknowingly a continuous wave of strikes has been going on in the country. I am appealing to this House and to all hon. Members who, without knowing the results and consequences of strikes, think that strikes alone will solve grievances, not to think that the whole Government will collapse and everybody who is opposing an increase of salaries will collapse. Let there be no such feeling in the minds of the people. It will come on the head of everybody in this House. I have been telling this to my friends in the districts, and after I came here I have been telling every one that any word that comes from the lips of hon. Members of this House or even from a Minister will work greater havoc than the agitation started by Sri P. Venkateswarlu or Sri K. Anandan Nambiyar.”

SRI PILLALAMARRI VENKATESWARLU:—“We are not the only two members who started it.”

[Hon. Sri T. Prakasam] [15th August 1946]

THE HON. SRI T. PRAKASAM:—"I am saying that every one must be careful with regard to these matters. This is a people's Government. This Government is backed up by the people. No one can break the back of this Government merely by making them trip here and there. (Hear, hear.) Even if we go out, the Government that must be set up in its place must be a people's Government. Breaking the back of the Government means breaking the back of the people. Millions of people must understand that people's back cannot be broken. I have become used to all kinds of threats within this short time."

MR. SPEAKER:—"Your speech is not audible. You should speak through the mike."

THE HON. SRI T. PRAKASAM:—"I am trying. I shall adjust myself. I have heard complaints that, even though I am talking face to face, sometimes my speech is not audible. There must be something wrong in the mike. (Laughter.) I am going to get it overhauled for the benefit of all so that there may be no difficulty about hearing. I do not think, Sir, I need keep the House any longer. I thank all hon. Members and I thank you, Sir, for the way in which you have been managing us all. (Laughter.)"

4-30 p.m. The motion was by leave withdrawn.
Demand II was put and carried and the grant was made.

DEMAND III—STAMPS.

THE HON. SRI K. R. KARANTH:—"Mr. Speaker, Sir, on the recommendation of His Excellency the Governor, I move—

'that the Assembly do assent to a demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as together with the expenditure already incurred in April 1946, will amount to Rs. 12,32,000 in respect of the head Stamps. The expenditure incurred in April 1946 is believed to be Rs. 1,18,375.

This demand relates only to the expenditure connected with the manufacture and sale of stamps and the particulars are given at page 59 of the Budget Memorandum."

* M. A. MUHAMMAD IBRAHIM SAHIB BAHADUR:—"Mr. Speaker, Sir, in moving the cut motion under Demand III—Stamps, I want to draw the attention of the House to the necessity for lowering the stamp duty on both judicial and non-judicial stamps. The House is aware that so far as judicial stamps are concerned, the rate of duty changes from $7\frac{1}{2}$ to $11\frac{1}{4}$ per cent. and in the case of non-judicial stamps it changes from 1 to 5 per cent. upon the various instruments or deeds. I want to draw the attention of the House to one consideration that should prevail in fixing the

15th August 1946]

[M. A. Muhammad Ibrahim Sahib Bahadur]

duty on stamps. The rates of duty should be fixed in such a manner that the levy should not be oppressive on *bona fide* litigants and *bona fide* people who conduct transactions in mortgages, sales, etc. I submit that the present rate is a high one, and it cannot be justified on any possible ground. Here I should not be misunderstood that, in asking for lowering the stamp duty. I am advocating increase of litigation in this province. There are ever so many ways for the Ministry and this House to adopt to put down litigation. By splitting up the jurisdiction of the courts by giving power to panchayats and other village bodies, a large percentage of litigation may be put down. What I am now suggesting is that the tax as levied at present has become oppressive to the public.

"Another consideration in this connection is that the increase in stamp duty recently made was explained away as a measure of anti-inflationary nature. During war time currency circulation amounted to thousands of crores and there was a tendency on the part of the Government of India to increase their currency circulation. As a measure to counteract this inflationary tendency, they decided upon the increase of duty on non-judicial stamps. Since the war is over, the defence expenses of the Government of India have fallen considerably. The question for the Government to consider is whether the revenues they have estimated under this head will be derived in future. My submission is that it is generally oppressive upon the public, that lowering is desirable and that it should be lowered to a certain extent. There may not be such a large expenditure in the country because the defence services are being disbanded, and possibly they may not be there within a short time. There is expansion of trade and industry to cope up with the large currency circulation in the country and therefore I would say that it is desirable to devote some attention to this part of the programme and lower the stamp duty so that it may not be oppressive on the public. With these words, I move the cut motion, i.e.,

'To reduce the allotment of Rs. 12,32,000 for stamps by Rs. 100.'

SRI K. VARADACHARI:—"Mr. Speaker, Sir, I am impelled to make a few general suggestions in the matter of the sale of stamps especially the court-fee stamps. We find that stamp vendors are not allowed to purchase and sell stamps of higher denominations, and the legal profession is put to the necessity of waiting on the taluk officers from morning till evening and sometimes for days together to get these stamps, and a lot of inconvenience is being caused to the litigants in filing their claims in time. The danger of losing their claims by way of bar by limitation is an ordinary feature as a consequence of the non-availability of stamps in time in the taluk offices. At present the taluk officers are loaded with so much work which is not legitimately their own. Work connected with food, cloth and several other things is being foisted upon them and that is taken as an excuse for their absence from the office for a long time. It is an ordinary experience of

[Sri K. Varadachari]

[15th August 1946]

lawyers to suffer inconvenience in the matter of purchase of stamps. I therefore suggest that stamps of higher denominations—it has been recently raised from Rs. 100 to Rs. 200 and that too is not enough—should be available with the stamp vendors so that they can easily vend them to the public in time.

“One other thing, and that is a matter of local interest, I have to suggest. Sometimes taluk offices are situated at very long distances from the seats of the courts. Take for instance the District Munsif's Court at Tirupati. The taluk office is located at Chandragiri, and for every little thing, the litigant has to go there to get stamps. Stamp vendors themselves have to go long distances to provide the litigant public with the necessary stamps. I request that the Deputy Tahsildar at Tirupati may be empowered to keep stamps in his custody and vend them to the public then and there.”

THE HON. SRI K. R. KARANTH:—“Sir, two points have been raised. One is with regard to the raising of the rate which was made in 1943 by an Act of the Governor-General. That was done in order to reduce and check the inflationary effect at the time. It was urged by the hon. the Mover that the war was over and that there was no longer any inflation. I believe it is not quite a correct statement. Though the war is over, we still find that the prices are going up. Anyway I can assure that the effect of this measure by which the stamp duty on business transactions was doubled that is by 100 per cent and 50 per cent in the case of non-business transactions, has been asked to be examined by the Board of Revenue and reported upon. Anyway at present it is bringing in good revenue and the effect will be seen and the matter will be considered.

“With regard to the Court Fees Act, I may submit that the previous Government appointed a special officer Mr. Satyamurthi who is unhappily no more. He has prepared a report on the overhauling of the whole Act. The Act was made in 1870 or so, that is more than 70 years ago and there are lots of anomalies; some litigants go up to the High Court on eight annas whereas in some other cases, very heavy penalties have been paid. This was published in 1939. But the matter was not proceeded with by the then Government on account of pre-occupation with the war as we were told. It is the intention of the Government to consider the matter to see in what way the whole Act can be overhauled so that the difficulty in working might be remedied. In regard to the other points, already a section of the department has been detailed to find out in what way this report could be implemented.

“With regard to the points raised by the hon. Member from Chittoor, I can say that the difficulties of getting Court-fee stamps will be looked into. More than 20 years ago the limit was only Rs. 50; and on a motion brought by me in the Council of 1926–29 it was raised to Rs. 100; now we are told it is Rs. 200. I am quite aware as a lawyer of the difficulties of obtaining stamps when money will have to be paid before 12 o'clock on the last day of limitation but court-fee stamps cannot be obtained till 5-30. It is a matter which will be looked into. So also the other matter—

[15th August 1946] [Hon. Sri K. R. Karanth]

the Tahsildar's office being at Chandragiri and the court being at Tirupati. With that assurance, I hope the hon. Member will not find it difficult to withdraw the motion.”

The motion was by leave withdrawn.

Demand III was put and carried and the grant was made.

DEMAND IV.—FOREST.

THE HON. SRI B. VEERASWAMI:—“Mr. Speaker, Sir, on the recommendation of His Excellency the Governor, I move—

‘that the Assembly do assent to a demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as together with the expenditure already incurred in April 1946, will amount to Rs. 74,60,100 in respect of the head Forest. The expenditure incurred in April 1946 is believed to be Rs. 4,69,801.’”

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“I move the cut motion standing in my name, i.e.,

‘to reduce the allotment of Rs. 74,60,100 for forest by Rs. 100.’

“In doing so, I have to draw the attention of the Government to the fact that the valuable resources of the forests in this province have been depleted to a great extent. This can be seen by the figures given in the Administration Reports for timber. In the year 1914–15, the yield of timber was 32,000 and odd tons. In 1943–44, the yield was 104,000 and odd tons. In 1944–45, the yield was 87,840 tons. This shows that in spite of the vast pressure that was put upon the production of timber, the forests do not yield so much as they yielded in the year 1914–15. That shows that the wealth of the forests is being over-exploited and depleted rapidly. In other ways too, for example in the matter of fuel, we find that over-exploitation is taking place. At the same time, we do not find measures commensurate with this over-exploitation for restocking the forests. The Forest Utilization Department might do so many things to make our forests more useful and to reserve the wealth of the forests not only for us, but also for the future generations. The Government speak of certain compensatory measures for restocking the forests with timber. But I find these measures are meagre. Again, we do not know anything about such forest products as tanning bark, honey, lac, sandalwood, etc. Of course, they say something about sandalwood. The price of sandalwood has gone very high, even twenty-times of what it was some years back. Nowadays we hear so much about sandalwood from Mysore and other places. We hear only very little about sandalwood and sandalwood products of our own province. For example, we do not know how much of sandalwood oil and sandalwood soap are being produced in our province, whereas we hear of sandalwood soap produced in neighbouring provinces.

“Tanning bark is an important material required by a premier industry of this province. One of the standing ingredients, wattle

[M. Muhammad Ismail Sahib Bahadur] [15th August 1946]

bark, is being imported from South Africa in large quantities year after year. Our Forest Department might have gone into this matter and might have tried to cultivate or plant wattle-bark trees in our forests the extent of which is more than 18,000 square miles in our province alone. I find from the Administration Report that only a few hundred acres have been planted with wattle-bark trees. Much more might have been done. There is another tanning bark yielding plant called avaram. It is a very valuable and precious plant yielding one of the best tanning ingredients in the world. It is on account of that tanning ingredient that the Madras tanneries command very high prices in the foreign markets of the world. The Forest Department might have paid some attention to the production of this bark in the forests. These plants might have been planted as undergrowths in forests containing big trees. Then again, they might have also paid some attention to the production of lac, and vegetables and plants yielding dyes. The department might have also tried to find out whether there are other barks which are suitable for tanning. All these would have augmented the wealth accruing to the country from the forests.

“ Finally, Sir, I come to the question of Muslim representation. The Hon. Minister who spoke said that the Muslims had sufficient representation in the Excise Department, but the figures he produced did not prove that. With regard to this department, I have got a few figures, which also tell the same tale of inadequate representation of Muslims. Of the total number of Deputy Conservators of Forests which is given as 33, the Muslims are only 2 in number; Assistant Conservators of Forests are 14 in number, and the Muslim is only one. If figures for other cadres and ranks of the Forest Department are available, I think the same story will be revealed. I hope the Government will pay some attention to this matter, redress the inequality and maintain the communal ratio in this department as well.

III.—ADJOURNMENT OF THE HOUSE.

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“ I move, Sir, that the House might not sit to-morrow and that it may be adjourned to the 17th. We, the Muslim members of the Assembly, cannot attend to-morrow because of the celebration of the Direct Action Day. Therefore I request you to adjourn the House, in deference to the feelings of the Muslim members of the House, to the 17th.”

MR. SPEAKER:—“ The hon. Leader of the Opposition has moved a motion that this House be adjourned to the 17th. I wish to inform the House that this meeting which is called the “ Budget session ” has been convened under rule 124 by His Excellency the Governor. Regarding adjournment of the budget session, the rule is clear. Rule 63 says:

“ A motion that any meeting or business be adjourned or postponed or that the House pass to the business next in order in the list of business may be moved at any time and without previous notice as a distinct question, but not so as to

15th August 1946]

[Mr. Speaker]

interrupt a speech. If the motion is carried, the meeting or business shall, subject to the provisions of sub-rule (3) of rule 15, be adjourned or postponed accordingly, or if the motion carried be that the House pass to the business next in order in the list of business, the business then under discussion shall be considered to be disposed of:

“ Provided that nothing in this rule shall enable a member to move that any meeting or business fixed by a special order of the Speaker or the Governor for a purpose for which they have power to appoint a day under the Act, or rules, shall be adjourned or postponed.”

So, I rule the motion out of order.”

The House adjourned to meet again at 11 a.m. the next day.

THE MADRAS LEGISLATIVE ASSEMBLY.

Friday, the 16th August 1946.

The House met at the Assembly Chamber at eleven of the clock on Friday, the 16th August 1946, Mr. Speaker (THE HON. SRI J. SIVASHANMUKHAM PILLAI) in the Chair.

I.—QUESTIONS AND ANSWERS.

STARRED QUESTIONS.

Irrigation wells sunk in Malabar and South Kanara.

* 88 Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Revenue be pleased to state—

(a) how many irrigation wells have been sunk this year with the aid of the subsidy given by Government to help 'The Grow More Food' campaign;

(b) how many such wells have been sunk in Malabar and in South Kanara; and

(c) whether Government intend to continue this form of aid and if so, till what period?

THE HON. SRI K. R. KARANTH:—“(a) (i) The Government have sanctioned several schemes for subsidizing the sinking and repairing of irrigation wells. The first scheme was introduced in 1944 in the districts of Chingleput, North Arcot, Chittoor, Salem, Madura, Ramnad and Tinnevely and in the Ceded Districts. The second scheme—called the Accelerated Scheme for the sinking of wells—was sanctioned in February-March 1946 for all the districts of the province except the Nilgiris. The third is the modified scheme sanctioned in June 1946 specially for the Ceded Districts.

“(ii) Under the first scheme, 41 wells were sunk during the quarter ending with 31st March 1946. From the commencement of the scheme up to 31st March 1946, 65 wells were sunk, out of 403 wells for which subsidies were granted. Later figures are not yet available.

“(iii) Under the Accelerated Scheme, time has been given up to 30th September 1946 for completion of wells. On 30th June 1946, 3,177 new wells were completed and the sinking of 41,365 wells was in progress. The number of old wells repaired by that date was 1,797 and the number in the process of repair was 15,756.

“(iv) As the third scheme, i.e., the Modified Scheme for the Ceded Districts, came into force only from 24th June 1946, no wells would have yet been sunk under that scheme.

[16th August 1946]

“(b) The figures of well works completed and in progress, as on 30th June 1946, are given below:—

	New wells.		Old wells.	
	Completed.	In progress.	Completed.	In progress.
Malabar ..	58	150	14	62
South Kanara ..	4	45	3	9

“These wells come under the Accelerated Scheme.

“(c) The first scheme will be in force till the end of March 1947. The Accelerated Scheme, i.e., the second scheme, has practically ended as no fresh subsidies will be sanctioned after 15th June 1946. As regards the third scheme, i.e., the Modified Scheme for the Ceded Districts, it will be in force till 30th June 1947. The Government have under consideration a new and a separate general scheme for the grant of subsidies for sinking and repairing irrigation wells during the next two years. In view of the fact that the Accelerated Scheme was of little value in South Kanara and Malabar owing to the south-west monsoon, provision will be made for those districts in the general or special scheme for giving subsidies not only for irrigation wells but also for irrigation tanks, in the coming year. Details of these schemes have not yet been settled.”

SRI K. VARADACHARI:—“May I know why Chittoor has been excluded from the Modified Scheme, Sir?”

THE HON. SRI K. R. KARANTH:—“Because Chittoor is not in the Ceded Districts.”

SRI V. I. MUNISWAMI PILLAI:—“May I know, Sir, why the Nilgiris was left out of the scheme?”

THE HON. SRI K. R. KARANTH:—“I made enquiries and I understood that there was no need for wells in the Nilgiris.”

SRI K. VARADACHARI:—“Does the Hon. Revenue Minister know that the whole of Madanapalle revenue division was added on to the Chittoor district from Cuddapah, and will he consider the question of extending the scheme to the Madanapalle area also?”

THE HON. SRI K. R. KARANTH:—“I was told, so, Sir, and the question is under consideration.”

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTI-NAD:—“Will the Hon. Minister place on the Table of the House a districtwar statement of the new wells sunk?”

THE HON. SRI K. R. KARANTH:—“Yes, Sir, that will be done.”

SRI V. I. MUNISWAMI PILLAI:—“As a third of the Nilgiris is situated in the plains, will the Government consider the need for irrigation facilities to these areas also?”

THE HON. SRI K. R. KARANTH:—“It will also be considered.”

[16th August 1946]

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTI-NAD:—“Will the Government also consider the question of sinking tube wells?”

THE HON. SRI K. R. KARANTH:—“These wells are intended for irrigation purposes and not for rural water-supply. I do not know how far the tube wells will go into this picture.”

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTI-NAD:—“If the Hon. the Minister will make enquiries in other provinces, he will find that tube wells are also resorted to for irrigation purposes.”

THE HON. SRI K. R. KARANTH:—“I will have that point considered, Sir.”

SRI N. S. VARADACHARI:—“Will the Hon. Minister be pleased to show me where the provision for the sinking of wells be found in the budget?”

THE HON. SRI K. R. KARANTH:—“At the appropriate time when that demand comes.”

SRI N. VENKATASUBBAYYA:—“In view of the rocky nature of the soil of the Ceded districts, will the Hon. Minister consider the question of increasing the amount of subsidy for sinking wells?”

THE HON. SRI K. R. KARANTH:—“The subsidy has already been increased from Rs. 300 to Rs. 500 per well, Sir.”

SRI N. VENKATASUBBAYYA:—“May I submit, Sir, that this amount is not sufficient and that it should be increased?”

THE HON. SRI K. R. KARANTH:—“I am afraid, I cannot agree to that suggestion. After all, it is only a subsidy and we are not prepared to meet the entire cost of sinking the wells.”

SRI KALLUR SUBBA RAO:—“May I know, Sir, from the Hon. Minister whether representations were made by the districts for increasing the subsidy?”

THE HON. SRI K. R. KARANTH:—“Yes, Sir, they have been made.”

SRI P. VENKATESWARLU:—“Will the Government be prepared to give the technical help that will be necessary for people to sink wells?”

THE HON. SRI K. R. KARANTH:—“It may not be possible, Sir, because there are more than 40,000 or 50,000 wells being sunk.”

SRI N. VENKATASUBBAYYA:—“Is the Hon. Minister aware that the Collector of Kurnool has estimated that the minimum that is required to sink a well in that district is about Rs. 2,000 and that Rs. 1,000 should be given as subsidy?”

THE HON. SRI K. R. KARANTH:—“I am not aware of that, Sir. A general statement like that may not be correct.”

[16th August 1946]

SRI P. VENKATESWARLU:—"Have the Government considered the question of employing the Military personnel for sinking wells?"

THE HON. SRI K. R. KARANTH:—"Yes, Sir, it is being tried in the Salem district."

MR. F. FERRELLY:—"In view of the statement made by the Hon. Minister on the grant of subsidy for sinking wells, will he give us an assurance that no further funds will be spent in repairing the new wells which are just being sunk?" (Laughter.)

THE HON. SRI K. R. KARANTH:—"That assurance can be readily given."

SRI N. S. VARADACHARI:—"Is the Government satisfied that most of the wells sunk with the aid of Government subsidy are being used for raising food-crops? Will this question be investigated?"

THE HON. SRI K. R. KARANTH:—"That is one of the conditions for granting the subsidy. To some extent, it has been a success."

SRI K. VARADACHARI:—"May I know, Sir, whether the Government have in mind any scheme of intensified sub-soil survey in the deficit districts?"

THE HON. SRI K. R. KARANTH:—"A separate question should be put for that, Sir."

SRI A. B. SHETTY:—"May I know whether the Government will consider the desirability of providing a special staff for giving technical advice and assistance to people who sink new wells or repair old wells?"

THE HON. SRI K. R. KARANTH:—"I have already answered a similar question, that it may not be possible."

SRI N. S. VARADACHARI:—"Will the Government give an assurance, before proceeding with the scheme, that the wells sunk with the aid of the subsidy will be used for the purpose of raising food-crops?"

THE HON. SRI K. R. KARANTH:—"No such assurance can be given when there are thousands of wells being sunk."

SRI V. C. PALANISWAMI GOUNDER:—"Is the Government aware that in Northern India in the Gangetic plains a number of tube wells have been sunk for supplementing irrigation purposes? Will the Government consider the feasibility of sinking such tube wells in the Cauvery delta and other suitable areas?"

THE HON. SRI K. R. KARANTH:—"That matter will be considered, Sir. I can say nothing more than that."

SRI N. S. VARADACHARI:—"Do not the Government consider the advisability of not spending any more money on the scheme unless the assurance is forthcoming that these wells will be used only for raising food-crops?"

[16th August 1946]

THE HON. MR. SPEAKER:—"Are you making a statement or are you putting a question?"

SRI N. S. VARADACHARI:—"It is only question, Sir. I shall put it this way. Are the Government satisfying themselves before proceeding with the extended scheme, that the wells sunk with the aid of the subsidy will be used for raising food-crops?"

THE HON. SRI K. R. KARANTH:—"I have already said that that is one of the conditions of the grant. I have personally seen a large number of such wells being used for raising food-crops, and there is no reason to suppose that they are not being used for that purpose."

SRI M. S. PATTABHIRAMA AYYAR:—"Is the Hon. Minister aware that hundreds of applications for sinking wells under the scheme from Dindigul have been rejected without any explanation?"

THE HON. SRI K. R. KARANTH:—"A separate question may be put, Sir."

SRI V. C. PALANISWAMI GOUNDER:—"As there is a difference of opinion regarding the full utility of the grant under the accelerated scheme of sinking wells, may I request the Government to strengthen the Minor Irrigation department, and make it supervise the scheme and make suggestions for putting the scheme into effective use?"

THE HON. SRI K. R. KARANTH:—"A separate question is needed, Sir."

DR. R. SUBRAHMANYA AYYAR:—"Will the Government extend the Ceded districts scheme to the Ramnad district in view of the peculiar conditions of that district?"

THE HON. SRI K. R. KARANTH:—"Sir, the Ceded districts are far away from Ramnad and it will not be possible to extend that scheme." (Laughter.)

Salaries of village officers and servants.

* 89 Q.—SRI D. DORAIRAJA PANDIAN: Will the Hon. the Minister for Revenue be pleased to state—

(a) whether the Government propose to increase the salaries of the village officers, talayaris and vettians; and

(b) whether they propose to abolish the hereditary system?

THE HON. SRI K. R. KARANTH:—" (a) Certain memorials of village officers and servants asking for increased remuneration are under the consideration of the Government.

" (b) There is no such proposal at present."

SRI A. KALESWARA RAO:—"May I know from the Hon. the Minister whether it is the hereditary character of these appointments that make these village officers and village servants stick to their jobs, in spite of their low salaries and that these village officials are also efficient on that account?"

[16th August 1946]

THE HON. SRI K. R. KARANTH:—"I cannot say, Sir."

SRI P. VENKATESWARLU:—"Do the Government propose to consider the salaries question before these people resort to strike?"

THE HON. SRI K. R. KARANTH:—"As I said, the matter is under the consideration of Government now."

SRI P. VENKATESWARLU:—"May I ask how many months will the Government take to complete the consideration of this question?"

THE HON. SRI K. R. KARANTH:—"Not many months."

SRI P. VENKATESWARLU:—"Will it be days?"

THE HON. SRI K. R. KARANTH:—"I can give no undertaking, Sir."

SRI P. VENKATESWARLU:—"Are the Government aware that it is this hereditary system that is responsible for the tyranny under which the villagers suffer, and if so, whether the Government propose to abolish the hereditary system?"

THE HON. SRI K. R. KARANTH:—"I do not agree that the hereditary system has anything to do with the alleged tyranny."

SRI KALLURI SUBBA RAO:—"May I ask whether the question of amalgamating the village offices in the coming 'Rural Republic Legislation' will be considered?"

THE HON. SRI K. R. KARANTH:—"The suggestion is very useful. It will be considered at the proper time."

SRI K. VARADACHARI:—"May I ask whether the Hon. the Minister is aware of the fact that the real grievance of the village officers is that in recent times they have been experiencing visitations by several officers which means great inconvenience for them?"

THE HON. SRI K. R. KARANTH:—"I suppose such visits have been there all the time."

SRI R. V. SWAMINATHAN:—"May I ask whether the Communists are dominating the Village Officers' Association?"

THE HON. SRI K. R. KARANTH:—"I cannot say."

MR. SPEAKER:—"I cannot allow that question."

SRI D. DORAIRAJA PANDIAN:—"With reference to clause (a), may I know what scale of salaries is proposed for the village officers?"

THE HON. SRI K. R. KARANTH:—"I submit, Sir, that is anticipating what is going to be done hereafter."

SRI V. I. MUNISWAMI PILLAI:—"May I ask, Sir, whether the Government are considering the question of the abolition of the hereditary system?"

THE HON. SRI K. R. KARANTH:—"I have already answered that there is no such proposal under the consideration of Government at present."

[16th August 1946]

SRI V. I. MUNISWAMI PILLAI:—"May I know why the hereditary system obtains only in some districts?"

THE HON. SRI K. R. KARANTH:—"It is difficult to answer that question now."

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—"Will the Hon. the Minister consider the undesirability of giving up the hereditary system?"

THE HON. SRI K. R. KARANTH:—"I can give no such assurance. If need arises we may have to change the present policy."

SRI K. VARADACHARI:—"May I know whether the Government consider it advisable to fix salaries to village officers in zamindari areas also?"

THE HON. SRI K. R. KARANTH:—"That is also under consideration."

SRI T. K. T. N. R. TATACHARI:—"Are the Government aware that there are village officers in zamindari areas who do work for the Government but do not receive any pay or allowance?"

THE HON. SRI K. R. KARANTH:—"I am not aware of that."

SRI P. KANDASWAMI PILLAI:—"Will the Government treat the village officers as Government servants and give them certain scales of pay and introduce religious and moral education as part of the study in centres meant for village officers?"

THE HON. SRI K. R. KARANTH:—"The question may be split up and put separately."

SRI T. K. T. N. R. TATACHARI:—"Will the Government consider the cases of those village officers who do not receive pay now?"

THE HON. SRI K. R. KARANTH:—"That will be done."

SRI W. S. SRINIVASA RAO:—"Will the Government introduce the system of transfers of these village officers?"

THE HON. SRI K. R. KARANTH:—"That can be done only when the hereditary system of village officers is scrapped."

SRI V. V. PALANISWAMI GOUNDAR:—"Do the Government propose to place these village officers on a permanent footing or is it their proposal to keep them as part-time officers?"

THE HON. SRI K. R. KARANTH:—"Under the present system if they insist upon keeping them on a fulltime basis and qualifications, they must be willing to give up the hereditary system."

SRI M. S. PATTABHIRAMA AYYAR:—"What is the policy of the present Government in continuing the schools for the education of the village officers by the former bureaucratic Government?"

THE HON. SRI K. R. KARANTH:—"The hon. Member will have an opportunity to raise the question when this demand is under discussion."

[16th August 1946]

SRI M. S. PATTABHIRAMA AYYAR:—"May I ask whether a uniform policy cannot be followed for all districts by appointing hereditary officers for all village offices?"

THE HON. SRI K. R. KARANTH:—"The matter will be considered when the system is to be changed."

SRI A. KALESWARA RAO:—"May I enquire whether the Government are aware that if they abolish the hereditary system it will be costlier?"

THE HON. SRI K. R. KARANTH:—"I do not agree. I believe that if the hereditary system goes we can have less officers, less cost and better efficiency."

II.—DEMANDS FOR GRANTS FOR THE YEAR 1946-47.

DEMAND IV—FOREST—cont.

[Note.—An asterisk (*) at the commencement of a speech indicates revision by the Member.]

* MR. SPEAKER:—"As the Hon. the Minister for Forests is not keeping good health, the Hon. the Minister for Revenue will deputise for him."

* SRI PILLALAMARRI VENKATESWARLU:—"Sir, our Province with 20,793 square miles of forests has the largest forest area in all India, and yet, I am sorry to see we have not derived as much benefit from it as we could especially in the matter of the supply of fuel and food to our people. What we expect the Military to do is to immediately take steps to improve by the exploitation of our forests, the food and fuel position. In this connexion I wish to bring to the notice of the House how some of the zamindars are carrying on disafforestation in their estates. The zamindars of Mutyala and Munagala are felling the forest trees in large number and trading in charcoal. The Hon. the Prime Minister has given a promise that he will bring in a Bill to prevent such things. Unless this legislation is passed very soon, the forests in Munagala estate will be completely mowed down. Forestry is closely linked to agriculture and the existence of forests influences the climatic conditions. That being so we should see to the regeneration of the forests."

"Sir, now I wish to congratulate the Ministry for restarting the Forest College. If our forest wealth is increased economically our position will be better. As a matter of fact our province grows very little teakwood. We are at present getting this valuable timber from other provinces. If we could start teakwood plantations in our forests the income from forests would greatly increase."

"In this connexion I wish to point out that the administrative charges of this department seem to be heavy. This I notice is due to the fact that the officers at the top, just as in other departments, draw huge salaries. Not content with this they take also bribes from the poor people. They fine very heavily the poor peasants if their cattle strays into the forests in search of fodder. I suggest that the peasantry in the neighbourhood of forests should

[16th August 1946] [Sri Pillalamarri Venkateswarlu]

be allowed to graze their cattle there without hindrance. Not only that. The peasantry should be allowed to remove from the forests fuel for their personal needs, though not for trade. These facilities must be immediately given to the poor people."

"Regarding the forest panchayats, it seems there is a proposal to abolish them. That will be a very undemocratic step to take. It should not be done. Instead of abolishing the forest panchayats, you should democratise them by having elections held for them. (A voice: They are even now elected bodies.) The forest range officers have extraordinary powers. Their powers must be curtailed and they must be made subordinates to the forest panchayats."

"There are tanks in the forests in a bad state of disrepair. If these are promptly repaired it will be of immense help to the people of the neighbourhood and production of food will also be increased."

"The question of fodder should also engage our attention. In Rayalaseema there is scarcity of fodder. In our forests there are vast tracts which could supply fodder for the needy districts. This may be looked into."

"You now make a revenue of Rs. 2.81 lakhs from forests under the care of the forest panchayats. This revenue should be returned to the respective forest panchayats to be made use of for the benefit of the people of the neighbourhood."

"I desire in this connexion to refer to the question of the salaries of the low-paid staff. The disparity in the salaries paid to the highest officer of the department is very striking."

"The Chief Conservator of Forests is paid from Rs. 2,500 to Rs. 2,750 and his Personal Assistant gets more than Rs. 300, whereas these peons are paid from Rs. 12 to Rs. 20. Sir, see the disparity between the pay of people who do little work and the pay of the persons who do much work. I would therefore request the Ministry to take up this problem immediately without hesitation. It is the disparity in these salaries that leads to strikes. It is because of the very low pay that they are getting, these people are resorting to strikes, such as the one we are seeing in the Madras City itself to-day. Sir, they are not able to make a living. The strike wave has spread throughout the Andhradesa. There the municipal workers are going on strike. The Health Officers, the Chairmen and the Commissioners have gone to the extent of engaging the Police and rowdies. I want to bring to the notice of the House an incident which had taken place . . ."

* MR. SPEAKER:—"We are now in the Forest Demand. The hon. Member must confine his remarks to that Demand. I cannot allow him to speak on other subjects, such as the salaries of other workers. He must speak on the Forest Demand alone."

* SRI PILLALAMARRI VENKATESWARLU:—"I am talking about the question of salaries . . ."

* MR. SPEAKER:—"Whose salaries?"

[16th August 1946]

* SRI PILLALAMARRI VENKATESWARLU :—“ The salaries of the forest peons and guards, Sir.”

* MR. SPEAKER :—“ The hon. Member may continue.”

* SRI PILLALAMARRI VENKATESWARLU :—“ Now, Sir, the salaries of the forest guards are very low and for the same reason the municipal employees also are going on strike. When these incidents take place rowdies are engaged by the Health Officers and Commissioners and they are resorting, for instance, in Bezvada . . .”

* MR. SPEAKER :—“ Order, order. I wish to know whether forest peons were beaten by the police.”

* SRI PILLALAMARRI VENKATESWARLU :—“ It is not the forest peons that I am referring to. The municipal workers . . .”

* MR. SPEAKER :—“ The hon. Member cannot refer to municipal workers on this Demand. We are in the Forest Demand and he must confine his remarks to that Demand.”

* SRI PILLALAMARRI VENKATESWARLU :—“ I regret I am not allowed to give a comparative picture, Sir, how because of their low pay the staff are resorting to strikes and how these atrocities are being committed by the rowdies and the police. Anyway I will confine myself to the conditions of the staff, particularly the guards and peons, working in the Forest department. I request the Ministry to raise their salaries immediately so that they may not go on strike and so that they may not be treated like this.”

* SRI K. VARADACHARI :—“ On a point of order, Sir. Can a Member incite public servants to go on strikes?”

* MR. SPEAKER :—“ The hon. Member is simply giving information to the hon. Minister. He can continue his speech.”

SRI KALA VENKATA RAO :—“ It is future information, Sir.”

* MR. SPEAKER :—“ I have already given my ruling. The hon. Member may go on.”

* SRI PILLALAMARRI VENKATESWARLU :—“ So, my suggestion is that the salaries question must be immediately taken up without any delay and hesitation before any such agitation which is taking place before our eyes and before our nose in the City of Madras takes place there also. Their salaries must be raised at least to a minimum living wage. The Ministry must come forward boldly with a statement as to what extent they are going to raise the salaries. Otherwise a repetition of what is happening here may take place in the distant forest villages among the people who have voted for us and who have put this Government in charge.”

* SRI KALA VENKATA RAO :—“ I consider there are no Communists in the forests.”

[16th August 1946]

* SRI A. B. SHETTY :—“ Mr. Speaker, Sir, the hon. Member who moved the cut motion yesterday spoke of the exploitation of forests that has gone on during the war time. It is true that in Government-managed forests there has been advance-felling and over-felling due to war demands and even in the private forests there have been excess fellings during the war time on account of the high prices offered for timber. I think, Sir, the Government have recognized how our forests have suffered on account of this over-felling and they have laid down two matters as the objective of their post-war forest policy. One is the rehabilitation of the existing reserved forests and of other forests and the second is the extension of afforestation. I think, Sir, the officers of the Forest department are already attending to the first task, namely, the restoration of the forests, which have been denuded on account of advance-felling and over-felling. Regarding the second matter, namely, the extension of afforestation, the Government of India have said that in every province we must aim at having 20 to 25 per cent of the area under forests. In this Province, I understand that we have got 18,000 and odd square miles of forests covering about 15 per cent of the area. We would like to know what programme the Government have in view for the extension of forest areas, whether they propose to acquire private forests or to take over control of those forests for their better management.

“ Sir, it is considered desirable that village forests should be formed with a view to supply the needs of the agriculturists in the matter of fuel, timber, fodder and manure leaves. We would like also to know what the Government are doing in this matter of creating village forests for the purposes of meeting the needs of the agriculturists.

“ Next, Sir, the Government have had a proposal to extend casuarina plantation to about 150,000 acres with a view to increase the supply of fuel and divert cattle dung which is now used as fuel, for the more useful purpose of manure. We would like to know in which all districts this casuarina plantation scheme is being worked or whether they are having it in all the districts.

“ There is also a proposal to investigate the possibility of developing industries by utilizing the minor forest produce. I should like to know what investigation is being done in the matter.

“ Sir, the forests exist for two purposes, one for protective purposes, such as the prevention of floods and soil erosion. This is a matter which can well be left to the technical men of the department and I believe they are paying due attention to it. The second object is to utilize forests for the purpose of meeting the needs of the village agriculturists in the matter of fuel, timber, manure leaves and fodder, as I have already said. Sir, it seems desirable that a belt of one or two furlongs should be demarcated and set apart in all places where cultivated lands lie close to reserved forests and the ryots belonging to those particular

[Sri A. B. Shetty] [16th August 1946]

villages should be allowed to remove from the belt area the undergrowth and manure leaves for agricultural purposes. I know that this concession is being given in certain areas but it is desirable to extend this concession to all places where it is required. In the matter of grazing, it is necessary that the grazing area which is available should be divided into blocks and the rotational grazing system should be introduced.

“One great trouble arising from the proximity of forests to the cultivated land is the damage done to crops and the destruction of cattle by wild animals. The number of wild animals has increased of late due to the reduction of gun licences and the difficulty of getting gunpowder, shots and cartridges. It is desirable and necessary to give gun licences on a more liberal scale to villagers for the purpose of protection of crops. The supply of gunpowder, shots and cartridges also should be made on a quota basis for gun licence-holders in villages lying near the reserved forests. At present it so happens that the people in the towns are mostly supplied with these materials. The stringent forest game rules should also be relaxed to encourage people to shoot wild animals in larger numbers in the interests of crop protection and also in the interests of the Grow More Food campaign.

“Another great trouble that is due to the proximity of forests to cultivated lands is Malaria. Malaria of course we know is a very widespread disease that takes a very heavy toll of life. The adverse effect of Malaria on the health of agricultural labourers is very well recognized and cultivation work in lands near the reserved forests suffers much. The malaria problem has become one of the serious economic problems that we have to face. All possible measures for the control of malaria should be taken. The Forest Department, the Agricultural Department and the Public Health Department must act together in this matter. We know that during war time the Allied Forces who were fighting in malarial tracts were effectively protected by the measures taken for the control of malaria. New discoveries have been made. More effective remedies for malaria have come into use such as mepacrine and paludrine and wonderful insecticides such as the D.D.T. have been also used with good effect in the malaria-infested places during war-time. War-time experience in the control of malaria may very well be used to reduce the ravages of this scourge, particularly in cultivated lands near reserved forests. The control and eradication of malaria in those areas is very necessary in the interests of agriculture and whatever money the Government may spend on this will be very good investment.”

11-45 a.m. * SRI V. I. MUNISWAMI PILLAI:—“Mr. Speaker, Sir, in supporting the demand moved by the Hon. Minister in charge of Forests, I should like to offer some suggestions in the interests of the Forest Administration. I find from the budget that the Government expect to get Rs. 117 lakhs from Forests and they expect to spend about Rs. 74 lakhs under the Administration of Forests. As has been explained by my hon. Friend Mr. Shetty, there has been

[16th August 1946] [Sri V. I. Muniswami Pillai]

an over-exploitation of our forests recently for getting fuel for the cities and also for meeting the needs of the Military and the Railways.

“Sir, a sum of Rs. 8,66,700 has been earmarked for regeneration. Out of this a sum of Rs. 1,35,400 is intended for casuarina plantations and for all other regeneration they have allotted Rs. 2,08,900 leaving the entire balance for salaries and allowances and so forth. Taking regeneration alone, I do not see any proper proportion between the amount allotted for regeneration proper and the amount they are going to spend on salaries.

“Some years ago a thorough investigation was made as to the number of District Forest Officers and Conservators of Forests that were required for the department and it was found that there were more than 20 officers in the cadre of District Forest Officers in excess of the requirements. Recommendations were made to retrench these officers. During the war, many officers have been appointed for various purposes such as the cultivation of pyrethrum and the supply of fodder, fuel and timber to the military soil erosion and so many other things. The Government should see whether we are still in need of these officers. Taking the case of pyrethrum cultivation in the Nilgiris, they have got 2,300 odd acres under cultivation, but they have been able to produce only 67 tons of flowers. What I suggest is that pyrethrum cultivation can be converted into a village industry and the ordinary ryot without much of exertion and cost can raise this flower and supply it to the Government if the Government fixes a reasonable rate.

“Sir, in an agricultural country like ours, it is very necessary that forests must be preserved. After all, our province has only a very small area under forests as compared with the other provinces. It has been stated in the report that we are having only 15 per cent of the area under forests. But this includes the area that comes under village panchayats also. From our experience, we have seen that owing to the war during the last 6 or 7 years there has been a great exploitation of the forests and most of them have been denuded. Whether near the town or in the interior, we find that most of the lands have been set apart for the grow-more-food purposes, and in the course of bringing the lands under cultivation most of the trees have been cut away. The result is the moisture could not be preserved and the villages could not get the fuel they want. It is high time that a big amount is spent on a go-back-to-the-forest campaign so that the forests may be set right and the villages improved.

“There is one other item in the budget under Post-war schemes. A sum of Rs. 1,34,400 has been provided for the Madras Forest College. Some years back when the old Madras Forest College was closed down, it was found that there was a large number of students in the college from other provinces and that there were only a few students from this province. Taking into account the facilities available at the Imperial Forest College at Dehra Dun, the Government decided to send out students to that college and closed down the Madras College. But during the Advisers' regime we do

[Sri V. I. Muniswami Pillai] [16th August 1946]

not know what reasons there were to bring back this Forest College once more. I would like to know from the Hon. Minister how many students from this province have been selected to undergo training in this Forest College. If there are enough students from this province there could be no opposition of any sort for running a college of this kind.

"Sir, I find in the budget that provision has been made for researches in pyrethrum and such things, and for the appointment of special officers for such purposes. When we are having a separate college for this purpose, I do not know why separate officers should be maintained for research work as this could very well be done in the college itself.

"The Hon. the Leader of the House speaking on this demand yesterday brought home to us the necessity of improving wattle cultivation. I do quite agree with him, Sir. We have been importing into this province wattle bark or essence of wattle bark to the tune of Rs. 25 lakhs. As the country is interested in the tanning industry, it is highly necessary that the improvement of the wattle bark cultivation must be taken up. For this purpose, several experimental plots or nurseries were started and I know as a matter of fact they came up very well. Even the ordinary ryots were allowed land some eight years ago to undertake potato and wattle cultivation. When the wattle plant grows up, after 3 or 4 years, potatoes and other things are lifted and the wattle trees are left on the land. It is therefore highly necessary, Sir, that wattle cultivation should be extended so that our tanneries may be given the necessary bark for tanning purposes.

"Sir, there is also necessity to produce more lac to meet the demands of the various offices. Experiments were carried on in Madura, South Kanara and some of the Andhra districts and it was found that they yielded good results. I do not know, Sir, what has happened to the lac experiment carried on in 1938-39 in Andhra desa.

"Sir, another thing is about camphor which we have been importing from Japan and Formosa to the tune of Rs. 20 lakhs every year. Some time back we ordered a camphor nursery in the cinchona plantations in order to see whether camphor plants can be produced. I know as a matter of fact, it was possible to produce camphor plants. In some parts of the Nilgiris we see traces of camphor trees; we also find them in one or two plantations near Coonoor; in the Hallakurai Estate where there are about sixty acres of camphor plantation. It has given very good results and it has been possible to produce camphor and camphor camphorodine oil. As the province is becoming more and more self-sufficient and as camphor is required for all the ceremonial purposes and for worship in the temples and as we should also see that our people should take to camphor cultivation in these hard days, I would request the Government to give subsidies to the people who undertake camphor cultivation, because camphor is not a short crop as it will take at least 9 to 10 years to come to maturity.

[Sri V. I. Muniswami Pillai] 16th August 1946]

"The next point, Mr. Speaker, which I want to urge upon the Hon. Minister is with regard to the welfare of the people inhabiting these forests—the aborigines, the hill tribes and so on. These people have helped the Forest department in various ways—in putting out fires, attending to various regeneration operations and so on. But they have no medical aid, no maternity facilities for their women and no veterinary aid even for the small number of cattle they have. No agricultural demonstrators visit these people. I request the Hon. Minister to see that these unfortunate people are given some medical aid, maternity facilities and similar things. The Hon. the Prime Minister knows, Sir, that during 1938 when we traversed the whole of the agency we came across hundreds of Koyas and other hill tribes of the district who were in very bad health due to malaria and some other diseases. At that time efforts were made to give some assistance to these people. Further, Sir, these people have been collecting the minor produce from the forests especially tamarind, but the middlemen have been exploiting them by not giving them what is actually their due. It was then ordered to have a special forest officer who would work out a scheme of collecting the tamarind on a co-operative basis and give the benefit of the same to the people. I do not know, Sir, what is the position to-day.

"Coming now to the Nilgiris, Sir, the hill tribes, the aborigines, known as the Todas, have been enjoying what is called the Toda patta land for a long time; but of late most of the land has been taken away from these people and given to others on leases. These people who form a pastoral community have been devoid of all facilities, with the result that they are now driven to the towns for eking out their livelihood, leaving the rural areas. Sir, it is highly necessary that such a picturesque community should be encouraged and given necessary facilities. I would also like to impress upon the Government the necessity to look to the welfare of the communities known as Irulars, Kurumbar and Panniers in the Nilgiris and in the various areas of the Coimbatore district, especially the Attapadi valley. These people were given facilities at one time by way of Kumuri cultivation. I feel, Sir, the time has now come when the Government should look after the interests of the aborigines, the hill tribes and the depressed classes. These communities should not be neglected.

"Again, the forests form the backbone for the grazing of cattle both in towns and in villages. Of late much of the forest land has been utilized for other purposes, with the result that now there is practically no grazing ground at all. I should like that some provision is made to see that we have more grazing areas.

"Sir, it has been found that the forests in this province can produce many kinds of useful medicinal herbs. On an examination conducted at Dehra Dun, it was found that this province could supply many of the herbs. An investigation was started in the year 1938. I do not know with what result. I should like the Hon. Minister to examine the question, because we have

[Sri V. I. Muniswami Pillai] [16th August 1946]

been getting extracts of these herbs from foreign countries to the tune of many lakhs of rupees. I would also urge upon the Government to see what arrangements can be made to have more fuel available to the villagers from the forests and to make this one of the primary duties of the District Forest Officers.

“I want to point out, Sir, the paucity of men of the depressed classes in the Forest department. Service in this department does not require much of collegiate education or any high standard of education. The only thing required is a certain amount of intelligence. An examination will show that you can get any number of people from the depressed communities for working in forest areas. I would request the Hon. Minister to consider this question. With these words, I support the Demand.”

* MR. SPEAKER:—“I wish to inform the House that the hon. the Leader of the Muslim Group told me yesterday that the Muslim members of the Opposition would not be present in the House to-day. So, our interval for lunch to-day will be from 1-30 p.m. to 2-30 p.m. and not from 1 p.m. to 3 p.m.”

* SRI P. NATESAN:—“Sir, my object in supporting the cut motion is to bring to the notice of the Hon. the Minister for Forests, who unfortunately is indisposed to-day, the urgent necessity for finding wooden poles for electric purposes. (An hon. Member: ‘What about white ants?’) We have of course to keep in mind the danger from white ants. There is the Forest Research Institute at Dehra Dun which has made any amount of research into this matter and has come to the conclusion that creosote and ascu treatment are fairly good protection against white ants. I myself, as a licensee, have used more than a thousand casuarina posts, which according to the Forest department split sometimes, but which after treatment, are found to be quite as satisfactory as any other poles. Every hon. Member in this House has been asking for electricity. ‘Sir, when is electricity coming to my place, why has it not come; what is the trouble’ and all such questions are put. If you really want to help the rural population by giving them electricity, you will have to make necessary arrangements for felling poles. I cannot understand what the Forest department does here. Of course, many hon. Members have spoken about the way in which forests have to be conserved or improved. I say that with a bit of drive in the Forest department, trees can be felled, I mean trees which can be found to be useful for transmission and distribution line purposes. Here the Department of Electricity also must co-operate; or it may be the other way. The Department of Electricity may be asked to give its programme of work so far as rural distribution is concerned and the Forest department may see that the necessary poles are felled and got ready. Sir, in England, for all purposes for which we use steel poles here, they use wooden poles. The same thing is happening to-day in the United Provinces where more than a thousand miles of transmission lines have been laid with the help of wooden poles. The Government of Mysore have done the same thing; you

[Sri P. Natesan] 16th August 1946]

have only to go to Mysore and Bangalore to see the enormous number of wooden poles which carry the transmission lines. Go to Travancore State again and see what the Forest department has done there. They have a regular department there to fell trees year after year, get them treated by the Government department itself and the Forest department issues them to the Electricity department for use as transmission poles. What have we done here? Sir, this is an important matter. I just want to impress on the Cabinet that there must be a policy as to how the Government should help the users of electricity. You must know, Sir, that about 75 per cent of the cost of supply of electricity is on account of the high cost of distribution mains. When they find the capital outlay becoming a little too big, both the Government department and the Electrical licensee think that the scheme is not a paying one. So what happens is that the agriculturists in a certain area are told that the capital cost is too much and it is not possible to bring the line to that particular area. If you only revise your policy and say ‘We shall hereafter, in addition to the rails or steel poles that are used, use wooden poles also’ and if you can make it a policy, the Forest department can go ahead in this respect and the Electricity department can take advantage of it.

“Then again, Sir, so far as technical advice against white ants is concerned, there is the Forest Research Institute at Dehra Dun who will be willing to give you any amount of advice. I only want you to follow what is being done elsewhere. In our forests there is any amount of timber available—there is the pali, the irul, the ventek and other varieties. I have no doubt that with the help of the so-called technical people in the Forest department, you must be able to find out exactly what poles would be useful for electrical purposes. I myself have taken the trouble on my own, to use (No. 1) untreated poles, (No. 2) poles treated with ascu; now I am experimenting with cashewnut oil application. If we people take this trouble, why should not the Government take the trouble and do something by way of reducing the capital cost? In pre-war days, I think during the days of the late Yakub Hasan, an attempt was made to introduce wooden poles, but with what result I do not know. In the olden days, 41½ lb. South Indian Railway rails (28 feet) used to cost 8 annas a foot, and that means Rs. 14 a rail, and the Madras and Southern Mahratta Railway 50 lb. rails cost 12 annas a foot, i.e., Rs. 21 a rail. Even in those days, we used to go in for wooden poles. To-day these rails are at least four times as costly as they were in pre-war days. Getting steel tubular poles is absolutely out of the question now. In such circumstances, how will electricity progress? Licensees are being asked what about electricity to a particular village? Can they take electricity there and all that? What help are you going to give not only to the licensees but also to the Government departments? In the Chief Engineer for Electricity to-day, you have an excellent man who will give you ideas. I want the Electricity department and the Forest department to make use of him and ask him what exactly is wanted and what should be done. I do not want all that I

[Sri P. Natesan] [16th August 1946]

say to be brushed aside, because I am sure that during these budget debates many things are spoken here, they go on record, but nothing happens. If you really want to help the rural population, I would only say that the Forest department must be asked to do its best and the Electricity department also must be asked to take advantage of what the Forest department can do in this respect. I want both the Hon. Ministers to sit together and see how best they can improve the rural electrification schemes that are sponsored by the Hon. the Premier. Of course the Premier is anxious that everybody must get electricity. You are giving so much subsidy for wells; the water in them must be lifted; how are you going to do it? If you depend on electricity, give wooden poles and make special efforts to get them in sufficient quantities. I would be very anxious to know next year what attempt the Government have made during this year in this respect."

* SRI A. KALESWARA RAO:—"Mr. Speaker, Sir, I want to urge on the Government one or two important points. Of course I support the demand and oppose the cut motions. The greatest hardship that the peasants in proprietary villages experience under tyranny of the zamindars, aghaharamdars and mokasadors and other proprietors is with reference to forests. Forests are considered by these proprietors as their own private property. The peasants are not allowed to graze free their cattle therein, to get fuel, brushwood, thatch materials and timbers, etc., for constructing houses. All these are very necessary amenities for rural life, for peasant life. So, the struggle between the proprietors and the peasants has been going on ever since the permanent settlement was introduced by the East India Company in about a third of the area of this province.

12-15 P.M. "Before that, Sir, every inch of land in the village, not only the cultivated land but the forest pastures, hills, tanks, porambokes, the river sources and everything else belonged to the village community and in the words of Justice Fielding, every village was a republic. It is the village community, the village industry and the village panchayat that maintained the prosperity, the Dharma and the civilization of this ancient country for centuries whatever might have been the changes in the dynasties at Delhi. These institutions have been ruthlessly destroyed after the advent of the British East India Company, because these three do not find a place in their mode of administration. So, Sir, ever since that time, the zamindars, who are called proprietors in their Sanads of 1802, began to think that they were the owners of the soil. When they went to Courts in the early days the English judges gave decisions in their favour but later on some changes in the ideas of the judges also have come about, for instance, in 20 Madras and 23 Madras and so on. Then, Sir, some illustrious Indian judges, like Sir Subrahmanya Ayyar, began to say that this proprietorship in the permanent settlement is not the same as that prevailing in England. In England it is the feudal system whereas here it is the village community system. The villagers—the cultivators have their rights, and the permanent settlement has not specifically destroyed them. But the zamindars have

[16th August 1946] [Sri A. Kaleswara Rao]

become too powerful and begun to suppress the rights of the villagers and have taken possession of all the forests, tanks, etc., in the village so much so, the peasants, artisans and others became helpless. After 106 years, the Estates Land Act has come but it has only conferred permanent occupancy right with the existing rates of rent on the cultivating ryot for cultivating land. In regard to the other things under the Estates Land Act, it is extremely doubtful whether the peasants had any rights in regard to grazing and other amenities in the forests. Pastures and forests have been practically given over to the zamindars; mines also were given to the zamindars—zamindars, aghaharamdars and mokhasadors have all been given the same tenures under the permanent settlement. So in all these states or proprietary villages, the condition of the ryots is very miserable; in regard to their amenities, they have to depend upon the mercies of these proprietors; sometimes they take money and give permits; but they are not allowed to use them and that is the precarious condition these ryots live under. Later on, when the ryots became conscious of their political, economic and social values in society, they began to assert themselves and so on. Now, Sir, it is the declared policy of the Congress Government as per the Election Manifesto, to remove all these intermediaries between the peasant and the state—the zamindars, the aghaharamdars, the mokhasadors, jagirdars and all these dars—who are between the State and the peasant. And who the peasant is, should be a matter to be thought of later on—whether he is actually a cultivator or a pattadar. . . . I would urge on the Hon. Revenue Minister . . . "

* MR. F. FERRELLY:—"On a point of order, Mr. Speaker, may I know whether my hon. Friend is speaking on agriculture, land revenue or forests?"

* SRI A. KALESWARA RAO:—"Forest is the fulcrum round which the whole of our Estates Land Act has to be built up. Forests, tanks and all these things go together. They are the amenities without which lands are useless and cultivation worthless. Therefore, I am speaking on forests and forests alone. That is the reply that I can give to my European Friend.

"Sir, there is the question of absentee ryots, etc., which might be taken up later on. But I would urge upon the Hon. Revenue Minister to take up this question of the peasants in proprietary villages immediately because it is an urgent problem. No doubt, I think he is also in a hurry about it. Now I want to draw his pointed attention to an emergent situation that has arisen in Kistna and in the other neighbouring districts. The position is that in all proprietary villages whether they are zamindaris, or aghaharams, including the zamindari of Mukhtiyal about which my hon. Friend, Pillamarri Venkateswarlu seems to be keen the proprietors are in a hurry and because they know they are going to be removed, they therefore cut down trees and sell them away, and they take the help of new-comers to remove the forests and cultivate the land. As a result of this, there are incessant quarrels between the zamindars and the peasants, resulting in riots and bloodshed. This is the emergent situation to which I want to draw

[Sri A. Kaleswara Rao] [16th August 1946]

the attention of the Government, and I want them to take emergency measures to stop all this."

* SRI M. BAPINEEDU:—"Mr. Speaker, Sir, I rise to support the demand. Forests are the natural and the national assets of any country and upon forests depend rainfall, control of floods, and pasture. So far as our province is concerned, we never had any policy regarding forest control and forest administration, but we are having only deforestation of the forests and not reforestation. It was more so during war years when petrol had become insufficient and when it was used only for war purposes, the forests were used for supply charcoal to run buses and for fuel. I would therefore urge on the Government to chalk out a definite policy or a plan so that they can get facts and figures to show what varieties of timber are available in our forests and how much of fuel can be made available and for how many years they can supply. Sir, in the United States of America they have a plan according to which they can give you the total number of trees in all their forests and the amount of timber that they can supply. In the same manner, I would like our Government also to chalk out a plan in regard to forests, because they are an important factor and as I pointed out already, on them depend rainfall, prevention of floods and many other things. My friend Mr. Shetty has already pointed out the immediate necessity of introducing rotational grazing and I heartily support it because grazing is at present neglected. In the Ceded districts, Sir, we are not having fodder and I am told by my friends that as a result of this cattle are being sold away to the neighbouring districts. If only we have systematised and scientific pastures for a block of 500 acres with tanks, bulls, etc., and the dry cattle being brought in during the off-season, what amount of food and wealth could they contribute to society? You know, Sir, in a country like China, it is only after the denudation of the forests, floods came in and ruined the country; forests control the flood and the current and it is the forests that supply green manure. As such, we must have a systematic plan for the improvement of the forest wealth to enable greater supply of green manure. In western countries at present, there is a cry for green manures because scientific manures, such as sulphate of ammonia and other artificial manures are not found useful for the land but on the other hand detrimental. It is green manure that gives natural manure to the land. In these circumstances, we must apply our mind to see that green manure is supplied in more quantities to the farmers.

"We must also have what is called the 'tree-planting days' and everyone must plant trees on a particular day each year in the wider interests of the nation and that day should be fixed for the whole Province. This tree-planting will naturally lead to the improvement of other allied materials also.

"My hon. Friend, Mr. Muniswami Pillai, has pointed out many other aspects of the forests problem. He drew particular attention to the preparation of camphor. When he was Minister, I remember with what great enthusiasm he brought a piece of camphor prepared from the leaves that were grown in his district. So, there is also a prospect in that direction.

16th August 1946] [Sri M. Bapineedu]

"Another point, Sir, is that in the Agencies they are cutting down a lot of trees but not growing trees again. I suggest that the Government should take up a survey of the whole range of forests and find out what new trees we can introduce into this Province. In the United States, they send their men all over the world to find out what new trees they can import and grow in particular lands and in particular areas. Similarly, we must send our men from the Forest Department to other countries for the introduction of new trees and other new methods that are followed in those countries for the development of forests so that our forests may be improved a great deal.

"Sir, for teak and other important timber, we have at present to depend upon Burma. Burma to-day may be friendly with us. But since we are aiming at self-sufficiency we must try to be self-sufficient in the matter of good timber for our Province.

"In the agencies, we must pay particular attention to the hill tribes in the forests. Attention has been drawn by my hon. Friend, Mr. Muniswami Pillai, to this aspect of the question and I do heartily endorse what he has said in that direction.

"I once more urge on the Government to have a definite policy in regard to the Forest department and also in regard to planting trees because you find almost all the hills in the Province have been denuded of all trees, thus affecting the climate of the country, reducing rainfall and increasing the temperature of the land. With these few words, I once more support the demand."

* SRI PYDAH VENKATANARAYANA:—"Mr. Speaker, Sir, I find that Government are spending large amounts on milk powder and allied preserved foods. May I request the concerned Minister—I am sorry he is not here, rather the Hon. Revenue Minister is acting for the Hon. Forest Minister—to extend the necessary concessions and facilities to the public to get more grass, green leaves and other foliage to supplement the food for the cattle so that the milk-yielding capacity of the cattle will be greatly enhanced. Further, we need not waste large amounts on these preserved foods as the nutritional value in natural foods is much more than in preserved foods. I am also told that during war time forests were greatly disturbed and unless Government take immediate precautionary measures to preserve the forests and pursue a policy of re-afforestation, I am afraid the present resources may not be able to meet the public demand even for a few years to come. There is one more point, Sir, and that is in regard to certain hill tract areas in the forests of the Vizagapatam district. I mean Chintapalli and Lambasingi should be converted into summer resorts and Government should take necessary action on this matter. In order to give effect to that, they should bring forward anti-malarial operations and other things. Sir, the altitude of these places is between 2,000 and 3,000 feet above sea-level. The need for such health resorts is greatly felt in the northern districts."

* SRI K. T. KOSALARAMA NADAR:—"தலைவர் அவர்களே, இப்போது கொண்டுவரப்பட்டிருக்கும் டி.மாண்டை ஆதரித்து நான் பேச விரும்புகிறேன். யுத்த நெருக்கடியின் காரணமாகவும், விறகு பஞ்சத்தின் காரணமாகவும், 12-30 p.m.

[Sri K. T. Kosalarama Nadar] [16th August 1946]

மாகவும், காடுகளில் மரங்கள் வெட்டவேண்டிய நிர்ப்பந்தம் ஏற்பட்டதினால், விவசாயத்திற்கு மழை இல்லாமல் தண்ணீரில்லாமல் கஷ்டம் ஏற்பட்டிருக்கிறது என்பதை நாம் அறிவோம். இந்த நிலைமையில் கரியினால் ஓடும் மோட்டார் வண்டிகளுக்கு அதிகமாக பெட்ரோலைச் சேகரித்துக்கொடுத்து கரிக்காகக் காடுகளிலுள்ள மரங்களை வெட்டி நாசஞ் செய்யாமலிருக்கும்படி ஏற்பாடு செய்யவேண்டியது அத்தியாவசியமாகும். எனது நண்பர் ஸ்ரீ வி. ஜி. முனுசாமி பிள்ளையவர்கள் முன்பு பாரஸ்ட் மந்திரியாக இருந்தபோது திருநெல்வேலி ஜில்லாவுக்கு வந்திருந்தார்கள். அங்கே திருச்செந்தூர் தாலுக்காவில் ரிசர்வ் பாரஸ்ட் குதிரை மொழித் தேரியிருக்கிறது. அது ஒரு மணற்பாங்கான பிரதேசம். அந்தப் பிரதேசத்தைச் சுற்றியுள்ள இடத்தில், அரைமைலுக்குள்ளாகவே, பல ஏரிகளிருக்கின்றன. அங்கே விவசாயத்திற்கேற்ற நல்ல நிலம் இருக்கிறது. அதை ஸ்ரீ முனுசாமி பிள்ளையவர்கள் முன்பு பார்த்தார்கள். அந்த நிலத்தை அந்தப் பிரதேசத்திலுள்ள ஏழை ஜனங்களுக்கு எலத்தின் பேரிலோ, அல்லது நீண்டகால குத்தகையின் பேரிலோ கொடுத்தால், விவசாயத்தை அதிகரிக்கமுடியுமென்று அப்போது அவர்கள் உணர்ந்தார்கள். அப்போதே அவ்விதம் கொடுக்கப் படவேண்டுமென்று உத்தரவு போடப்பட்டது. ஆனால், துரப்பாக்கியவசமாக அட்வைசர் அரசாங்கத்திலே அந்த உத்தரவு காற்றில் புறந்து விட்டது. இன்று அங்குள்ள ஜனங்கள் விவசாயம் செய்வதற்கு எவ்வளவோ முன்னுக்கு வருகிறார்கள். ஆனால், சர்க்கார் அதற்கு இணங்கவில்லை. இப்போதும் அந்த ஜனங்கள் மனுக்கள் போட்டுக்கொண்டிருக்கிறார்கள். “நாங்கள் அங்கு விவசாயம் செய்யச் சித்தமாக இருக்கிறோம். எங்களுக்கு நீண்டகால குத்தகைக்கு அந்த நிலத்தைக் கொடுங்கள்; அல்லது அதை எலத்திலே விடுங்கள்” என்று அவர்கள் சொல்லுகிறார்கள். இவ்விதம் செய்வதினால், சர்க்காருக்கு எவ்வித நஷ்டமும் இல்லை. இன்னும், அந்தப் பக்கத்திலே சவுக்கு மரத்தைப் பயிர் செய்ய ஜனங்கள் சித்தமாக இருக்கிறார்கள். முன்னால், கொடுக்கப்பட்ட ஒரு இடத்திலே வெகு அழகாக சவுக்கு மரத்தை ஜனங்கள் பயிர் செய்திருக்கின்றனர். ஆகவே, நீண்டகால குத்தகைக்கு அல்லது எலத்தின்மூலம் அந்த இடத்தைக் கொடுத்துவிடுவதன் விஷயமாக சர்க்கார் அதன் பாலிசியை உடனடியாகப் பிரகடனம் செய்யவேண்டும்.

“அடுத்தாற்போல், மலைகளிலேயுள்ள மரங்களை யுத்தத்தின் காரணமாக வெட்டி நாசஞ் செய்ததினால் இன்று குற்றலத்திலே season எவ்வளவு மோசமாகப் போய்க்கொண்டு வருகிறது என்பது எல்லோருக்கும் தெரியும். இன்று விறகு பஞ்சம் காரணமாக மலைகளிலேயுள்ள மரங்களை யெல்லாம் வெட்டுகிறார்கள். இதனால், அந்த இடங்களில் மழையின்றி விவசாயம் பாதிக்கப்படுகிறது. ஆகவே, மலைகளின் மீதிருக்கும் மரங்கள் எந்தக்காரணத்தினாலும் வெட்டப்படக்கூடா தென்று சர்க்கார் உத்தரவு போடவேண்டும். விறகு, கரி பஞ்சத்தை நாம் எலெக்டிரிசிட்டி மூலமாகவோ, அல்லது வேறு வழிகளிலோ சரிப்படுத்திக் கொள்ளலாம்.

“அடுத்தபடியாக, பல அதிகாரிகள் அநேக வருஷங்கள் ஒரே ஜில்லாவிலே வேலை பாக்கிரார்கள். அவ்விதம் அவர்கள் தொடர்ச்சியாக அதிக காலம் இருப்பதால், பொதுஜனங்களுடைய நன்மைக்கு எந்தக் காரியத்தையும் செய்வதாக எனக்கு தோன்றவில்லை.

“மற்றொரு விஷயம், எங்கள் ஜில்லாவில் குற்றலத்திற்குப் பக்கத்தில் பாரெஸ்ட் ஏலம் 1943-ம் வருஷத்திலே விடப்பட்டது. 300 ரூபாய்க்கு அதிகமாக ஏலம்கேட்ட ஒரு நபருக்கு அந்த எலத்தைவிடாமல், 134 ரூபாய்க்கு ஏலம் கேட்ட ஹார்வி மில் எஜெண்டுக்கு அது விடப்பட்டது. ஏலம் அதிகமான தொகையைக் கொடுக்கிறவர்களுக்குத்தான் கொடுக்கப்படவேண்டும். ஆனால் இவ்விஷயத்தில் அவ்விதம் செய்யப்படவில்லை. அவ்விதம் குறைந்த தொகைக்கு எலத்திற்கு விடவந்தான் இன்னும் அங்கே பாரெஸ்ட் ஆபீஸராக இருக்கிறார். ஆகையால், ஆங்காங்குள்ள ஒன்று, இரண்டு வருஷங்களுக்குமேல் ஒரே இடத்திலுள்ள எல்லா அதிகாரிகளையும் மாற்றிவிடவேண்டுமென்று நான் சர்க்காரைக் கேட்டுக்கொண்டு என்னுடைய பேச்சை முடித்துக்கொள்ளுகிறேன்.”

16th August 1946] [Sri A. Rayappa]

* SRI A. RAYAPPA:—“Mr. Speaker, Sir, I rise to support the demand brought forward by the Hon. Minister for Forests. Sir, we should not forget the fact that forests stand as the backbone for several industries in India. In Southern India, tanning industry is one of the most important industries. For tanning skins, we require raila bark and tangedu bark. We have been tanning skins by means of these barks. In the meantime, there came the wattle bark from South Africa and thousands of bales of this bark are being imported every year into India; because the essence of this bark is proved to be practically stronger than the essence of the tangedu and the raila barks put together. The price of wattle bark to-day is considerably cheaper because Government have controlled its price. Though it has been controlled at Rs. 225 per ton—I am telling you from yesterday's report—it was sold in the black-market at Rs. 600 odd in Periamet, Madras. In order to help the tanning industry, Government should arrange for the plantation of these wattle trees in forests wherever possible in India and particularly in this Province, and if we do not take to it in time, I am afraid we have to fall back on the indigenous tangedu and raila bark and we have to depend upon foreign material. Therefore, I suggest to the Government to plant wattle bark trees and thus enable the tanneries to improve in Southern India.

“In the Anantapur district, Sir, there are two forests, one is at Nagasamudram, in the Gooty taluk, and the other at Bukkapatnam in the Penukonda taluk. Originally, they were decorated with all sorts of plants and trees but now you see mere stones and earth in the hills and the forests. The Forest department should plant all sorts of trees, so that when they grow up, they will be of immense help to the ryots. They may also attract clouds which will bring more rainfall. Sir, the banks of the river Pennar in our district are being washed away year after year and the lands on either side of the river there become unfit for cultivation due to deposit of sand drifts. I therefore suggest to Government that big trees may be arranged to be planted on either side of the river bank so that the lands may be destroyed but brought always under cultivation.”

* SRI N. S. VARADACHARI:—“Sir, I wish to make a few observations with this request to you, Sir, that we should be helped in our debates on the demands in the following days if Ministers will come forward with positive statements of policy. I want them to state, for instance, what are the targets they have fixed for themselves for achievement, so that we might, in the coming year, measure the achievement against the effort. Let them now give us on this demand the information as to what amount of work they are going to put on teak or wattle plantations and I would even say, on small things like tamarind, which are as important as teak and which are likely to be forgotten. Sir, I want also to draw the attention of the House to the fact that it is far more easy to assess and judge the result of the work only if a constructive policy is placed before us.

[Sri N. S. Varadachari]

[16th August 1946]

“Regarding forests, generally, I have only a few words to say. War has come upon the forests as a big scourge and it has helped to bring about a tremendous denudation of forests, which has taken place during the last four or five years; immature teak has had ruthlessly to be cut down in areas which were not easily traversed even on elephant's back; areas have been exploited in a manner that would have been impossible to think of before the war. It is therefore our duty to put back all the wealth that we have stolen from these forests for the sake of carrying on the war. I want Government to show the same zeal and industry which they have shown in denuding these forests in the matter of re-planting and re-afforestation of these areas. The problem to-day does not merely affect timber but affects also fuel. There are very many fuel forests in our country which can supply big cities like Madras, Madura and Cocanada, for instance. We must therefore pay immediate attention to this aspect of the problem. The expedition with which coupes are cut and the rapidity with which supplies are rushed to the cities make it impossible to keep pace with afforestation. In this matter we have to acquire new areas. Forests in panchayat areas should be immediately taken over by the Forest department for this very purpose of improving our fuel position. They may not perhaps be suitable for being converted into timber forests but they may be eminently suitable for purposes of fuel forests. I would suggest vast areas of casuarina plantations being undertaken along our coastal belt beginning in the area round about Madras and extending up to Vedaranyam in the Tanjore district. Let casuarina be planted on a large scale so as to help the fuel supply of this Province. That is a very important need.

“There is the second thing to be attended to, namely, the collection of hay and fodder for the use of cattle. It is more important than fuel supply but it is likely to be forgotten. The policy of the Government concerning fodder and hay must be stated in this House here and now. I would like to know what the Forest department is doing to collect hay and fodder and keep them in reserve for use during scarcity seasons and that is a question which demands our immediate attention.

“The only thing that has to be done to rehabilitate our forest wealth is first to extend the areas under forests. With that end in view, I suggest to the Hon. the Premier that he takes over to the State all the zamindari forests in this country and particularly those which are easily available, namely those in the hands of public institutions. The Tirupati Devasthanam's forests, for example, would be valuable for the fuel supply for the City of Madras, in the future and these must be forthwith taken over. We should not allow in these areas a single tree to be cut; and people must not be allowed to get away saying that the trees are in the area in which they live and that they might cut them for making ploughs with or for making rafters for their houses. Forests have suffered dreadfully during the past because of our utter neglect. I made a suggestion years ago that areas suitable

[16th August 1946]

[Sri N. S. Varadachari]

for teak plantation in the Tinnevely and Malabar districts under the zamindaris there might be immediately taken over. Mr. Speaker, the area under forests differ considerably. Those who know forestry will tell you that areas in the south are far more fitted for being developed into timber forests than, say, the areas in the Ceded districts or in Chittoor district which are eminently fit for raising fuel coupes. We must put back into the forests what we have taken from them and no purpose will be served by saying that people's rights are there and nothing could be done. If each man in a zamindari area begins to cut a tree for his use, the result will be dreadful. Unless the State takes over all the forests and works them on a systematic and scientific plan, there will never be any hope of adding more areas under forests.

“I wish to say a few words upon expenditure on forests. I notice, Sir, that all the forest divisions that we had cut down have been restored; I do not know if all the Conservators' divisions have been restored. I understand the importance of retaining certain divisions, for instance, the Working Plans Division and I, for one, would maintain it. There are several items of expenditure which are being added from year to year and I am asked in this House to vote 74 lakhs of rupees for Forests. I want a thorough scrutiny of this expenditure and I wish to know if the staff employed is commensurate with the work set before them. I do not mind one crore of rupees being spent upon Forests, but I wish to know if it is all for enriching our forests; I wish to know your programme; how much fuel you are going to raise; how many timber plantations you are going to maintain and how much bamboo you are going to raise in the forests. Bamboo has been much in requisition in the war years for it was required for war purposes. My hon. Friend Mr. Natesan complained that he has not been able to get wooden poles. At one time he did not take so much interest in wooden poles; he is now unable to obtain metal poles and that is why he comes to the forest for wooden poles. I want him and other people to take a pledge from now that hereafter they will largely use wooden poles for electricity transmission lines. If the programmes, I have briefly outlined were put into effect, forest would be a source of inexhaustible source of national wealth. You can take something out of it year after year. Look after this hen laying eggs with care and it will give you eggs; but if you kill it, the eggs too will disappear; and the whole country will suffer.”

* MR. SPEAKER:—“Mr. Ponnuswami Goundar.”

* SRI V. C. PALANISWAMI GOWNDER:—“Mr. Speaker, looking at this Forest Budget, under the major head, I find there are a number of minor items (a) to (d). I cannot understand why more details have not been given.”

* MR. SPEAKER:—“I called upon Mr. Ponnuswami Gounder to speak.”

[16th August 1946]

* **SRI V. PONNUSWAMI GOUNDER** :—“ தலைவரவர்களே, இப்பொழுது யுத்தம் முடிந்த இந்தக் காலத்திலும்கூட காடுகளிலிருந்து சர்க்காருக்கு திருப்திகரமான வருமானமோ விவசாயிகளுக்கு உபயோகமோ கிடைக்காமலிருக்கின்றது. காரணம் என்னவெனில் முன்பு ஸ்ரீமான் கோசல்ராம் அவர்களுக்கூட தெரிவித்தார்கள்; யுத்தம் காரணமாக மரங்களை வெட்டிக்கொண்ட உற்பத்தி செய்து காட்டை அழித்துவிட்டார்களென்று; அது மட்டுமல்ல இப்பொழுதும் கூட அதே மாதிரிதான் நடந்துவருகிறது. அதனால் காடு அநியாயமாக அழிந்தேபோய்விடுகிறது. நம் காட்டிலுள்ள உபயோகமான விருகங்கள் அதாவது புங்கைமரம், புளியமரம், விளாமரம், பூவாங்காய்மரம், சாய மரங்கள், இவைகளெல்லாம் வெட்டப்படுகின்றன. அந்த மரங்களை வெட்டி நஷ்டத்தை ஏற்படுத்திக்கொள்வதுடன் காடும் அழிந்துவிடுகின்றது, ஆகவே அந்தப் பிரயோசனமான மரங்களை வெட்டக் கூடாதென ஏற்பாடு செய்ய சர்க்கார் முன்வரவேண்டும்.

“இன்னொரு விசேஷம், எங்கள் தாலுகாவில், அதாவது திருப்பத்தூர் தாலுகாவில் கங்குந்தி சமஸ்தானத்தைச் சேர்ந்த காடு பரவி இருக்கிறது. அந்தக் காடு அநேகமாக இப்பொழுது அழிந்தேபோயிருக்கிறது. எங்கும் அழிக்கப்பட்டிருக்கிறது. அது அழிந்ததிலிருந்து அநேக நஷ்டம் என்பதை சர்க்காருடைய கவனத்திற்குக் கொண்டுவருகிறேன். முன்பு சர்க்கார் உத்தியோகஸ்தர்கள் பாலாற்றுத்தண்ணீர் குறைந்திருப்பதற்குக் காரணம் என்னவென்று விசாரணைக் கமிட்டி ஏற்படுத்திச் செய்த காலத்தில் மைசூர் சமஸ்தானத்தில் தடைப்பட்டிருக்கும் தண்ணீர் தடை மட்டுமல்ல கங்குந்தி ஜமீன் காட்டில் காடு அழிக்கப்பட்டதிலிருந்தும் அந்தத் தடை ஏற்பட்டிருக்கிறது. அதுதான் தண்ணீர்ப்பஞ்சத்திற்கு முக்கியமான காரணமாயுள்ளது. அதனால் அந்தக் காட்டை ஸ்மரகூளை செய்யவேண்டுமென்றும் தெரிவித்திருக்கிறார்கள். காட்டு அடி பாகங்களில், அதாவது காடு ஓரங்களில் சாகுபடிக்கு நிலங்களைப் பட்டாக் கொடுத்திருக்கிறார்கள். அவர்கள் என்ன செய்துகொண்டிருக்கிறார்களென்றால் காடு ஓரங்களிலிருக்கும் கால் நடைகள் மேச்சலுக்குப் போய்க்கொண்டிருந்த வழிகளெல்லாம் அடைப்பட்டுப்போய்க்கொண்டிருக்கின்றன. அது எல்லாவற்றையும் அந்தப் பட்டாதார்கள் ஆக்கிரமித்துக்கொண்டிருக்கிறார்கள். அவைகளை அவர்கள் சுவாதீனம் செய்துகொள்ளாதவாறு ஏற்பாடு செய்துகொள்ள வேண்டும். இல்லையெல் அந்தக் காட்டு அடிவாரங்களிலிருக்கும் பட்டாதார்கள் ஜனங்கள் பிரவேசிக்க முடியாமல் வழியை அடைத்துவைத்து விடுவார்கள். திருப்பத்தூர் தாலுகாவில் சில கிராமங்களில் காடு களைல்லாம் தரிசாகக் கிடைக்கின்றன. எப்படித் தரிசாய்க்கக்கூடுமென்றால் காட்டிலிருந்து எந்தவிதமான வருமானமும் இல்லாமல் எந்த விதமான ஒரு மேய்ச்சலுக்கும் புல்லுகூட இல்லாமல் லாயக்கற்றிருக்கும் இடங்களைச் சொல்லுகிறேன். சர்க்காருக்குச் சொந்தமான காடுகளை சர்க்கார் பார்வையிடும் ஜமீன்தார், மிட்டாதார் இவர்களுக்குச் சொந்தமான காடுகளைச் சொல்லுகிறேன். மிட்டாதார் என்றால் மிராசுதார் அல்ல, சின்ன ஜமீன்தாரர்களென்று அர்த்தம். தலைவரவர்களே, அந்த இடங்களை பக்கத்து கிராமங்களில் நிலமே இல்லாத விவசாயிகளுக்கும், குறிப்பாக ஹரி ஜனங்களுக்கும், பட்டாக் கொடுத்தால் நிலவரியாவது கிடைக்கும். நிலவரி கிடைப்பது மட்டுமல்ல, உணவுப் பஞ்சமும் ஒரு வகையில் நிவர்த்தியாகும். ஆகவே அந்தக்காடு விஷயத்தைப்பற்றி சர்க்கார் இவை எல்லாவற்றையும் செய்யவேண்டுமென்று கேட்டுக் கொண்டு இதை நான் நிறுத்துக்கொள்ளுகின்றேன்.”

* **SRI V. C. PALANISWAMI GOWNDER** :—“ Sir, I began with the suggestion to the Hon. the Minister for Forests that some more details might be given, so that the revenue derived from fuel and coupe may be separately shown and the public may be in a position to understand where they stand in the matter of the sale of fuel and the revenue derived therefrom and so also from grazing, etc. Timber supply is an important matter but I feel that the supply of fuel is equally, if not more, important.

[16th August 1946]

[Sri V. C. Palaniswami Gounder]

We know the acute position about fuel; we can live without timber but we cannot live without fuel. Grazing is equally important for it is connected with cattle and manure. Manure is a great problem nowadays. Of course, the Government are making arrangements for the supply of groundnut cakes and sulphate of ammonia and such other chemical manures. But the Department of Agriculture does not minimize the importance of farm-yard manure as it is also very suitable for agriculture. In order to improve the manure position, an agriculturist has to maintain several heads of cattle and for grazing them, he must have vast areas of grazing lands. He cannot afford to feed all his cattle on fodder. There are certain areas where to a limited extent fodder can be grown for maintaining the cattle with; but there are other areas where he cannot command all the facilities, namely grazing lands. For maintaining the cattle in such cases, grazing lands are absolutely necessary. In these days of increased population and diminishing supply of food crops, we look upon the forest to help the ryot in the matter of grazing lands. Government must make special arrangements for grazing facilities for cattle without detriment to fuel coupes and timber plantations. Now, Sir, graziers are put to a lot of inconvenience and trouble at the hands of forest subordinates. I request the Hon. Minister in charge of Forest to levy only a small grazing or fuel fee. I also plead for improving grazing areas by allotting special areas 1 p.m. for the purpose of rotational grazing and for water-supply to the cattle. I know in Coimbatore district, in Satyamangalam forest area, there are plenty of dry lands, where during summer, graziers are not able to find water for their cattle. The Forest Department must make it a point, wherever possible, to dig wells or tanks and thus afford water supply for cattle.

“ Now, Sir, the Forest Department is following a policy of regeneration. Of course, regeneration is absolutely necessary. There are vast tracts of hills and plains, where you can do away with shrubs and jungles and carry on afforestation, planting with such forest species which will serve both as fuel as well as green-leaf-manure. At present, the Forest Department lease out these areas on a contract system for cutting leaves for green-leaf-manure to contractors. Sir, the period of contract should be so adjusted as to be helpful to the ryot in the matter of utilizing green leaves as manure in the proper cultivation season. This is my own humble suggestion, Sir, and I hope it will receive sympathetic consideration. (At this stage the Speaker rang the bell.) Another point, Sir, as regards manure, of course compost manure can be very easily made in forest areas, where lot of green and dry leaves go to waste and where they could be easily collected and converted into compost manure. At present collection of leaves, both green and dry, is not freely allowed in forest areas. I understand, Sir, in South Kanara, from what my friend Sri A. B. Shetty said, that ryots have been given concessions there. From the forest point of view, I do not know whether the Forest Department will generally approve of that.”

[Mr. V. C. Palaniswami Gounder] [16th August 1946]

* MR. SPEAKER:—"You have taken more than the allotted time. Please resume your seat."

* SRI V. C. PALANISWAMI GOWNDER:—"With these few words, Sir, I resume my seat."

* SRI N. VENKATASUBBAYYA:—"Mr. Speaker, Sir, I rise to make a few observations on the administration of Forest Department. Of course I support the demand under this head. However, with the meagre information that is placed before us, it is difficult to assess the work of the department. The Forest Department, as it is constituted to-day, is one of the most idle and corrupt departments that I can specify. I think the Forest Act was framed in 1882, and the antediluvian character of that Act has to be closely scrutinized, and a new orientation of our forest policy has to be urgently enunciated. Unless this is speedily done, I am afraid, we cannot get any useful and efficient work done by that department. As it is, the Forest Department consists of officials who are not only idle, but more tyrannical than zamindars, against whom some of my friends complained the other day on the floor of this house. Without the enunciation of a clear cut policy and programme, it is very difficult to say whether the sums that have been allotted under this demand will be usefully spent for the good of the people. It is for this reason, Sir, I said that the antediluvian character of the Forest Act, under which this department now works, should be scrutinized."

"Sir, I come from the unfortunate Ceded districts, which have been experiencing, for the last century and more, continuous famine on account of dis-afforestation of forests. I think it was in 1902-03 that the Indian Irrigation Commission visited Madras and conducted an enquiry into the irrigation conditions in this Province. As a result, they remarked that the continual failure of rainfall in the Deccan, was partly due to the dis-afforestation of forests in the Ceded districts. Sandur State and large areas in Bellary district had vast forests, but on account of indiscriminate dis-afforestation Bellary district is subject to frequent famines. Fortunately, in Kurnool district we are still left with very good forest and that is the reason why we see portions of Kurnool district free from famine now, whereas Anantapur and Bellary districts are experiencing famine. The fact that we are continually subject to famines must be an eye-opener to Government to see the urgent need for a reform in forest administration. So, I submit Government must take up an active programme of afforestation immediately and thereby promote increased rainfall. Unless this is done, I am afraid, the Ceded districts cannot be protected from famine. There is another method of protecting those districts from famine, and that is by irrigation. Increased rainfall and irrigation constitute the two ways by which these districts can be protected from famine. Without sufficient rainfall we cannot have any useful irrigation schemes. So the two aspects of the problem are intertwined and must be carefully borne in mind."

16th August 1946]

[Sri N. Venkatasubbayya]

"Having said that, I cannot omit certain other aspects of the problem also that need immediate attention. Forests form the backbone of our existence, economic as well as agricultural, and therefore the wealth of the forests must be closely and carefully protected. Supply of fuel and green-leaf-manure and such other articles as are of help to the ryots in their day-to-day agricultural operations must be ensured so that we can get from forests the maximum benefit possible . . ."

* MR. SPEAKER:—"The hon. Member has exceeded his time limit. He will please resume his seat."

* SRI N. VENKATASUBBAYYA:—"With these few words, Sir, I resume my seat."

SRIMATHI LAKSHMI AMMAL:—"அக்கிராசனாதிபதியவர்களே, காட்டிலாகா விஷயத்தில் நான் அதிகம் பேசவேண்டுமென்று நினைக்கவில்லை. இருந்தாலும் ஒன்றிரண்டு விஷயங்களைமாதிரம் சொல்லிவிட்டு நிறுத்திக்கொள்ளுகிறேன். எனது நண்பர் ஸ்ரீமான் கோசல்ராம் அவர்கள் பேசும்போது, விறகுக்காகக் காட்டிலே அநேக மரங்கள் வெட்டப்படுகின்றன என்று சொன்னார் அதுபோல அம்மாதிரி அனுமதிக்கக் கூடாதென்பதையும் எடுத்துச் சொன்னார்கள். இப்போது எப்படி உணவுப் பஞ்சம் இருக்கிறதோ, உணவுக்காக நாம் எவ்வளவு கஷ்டப்படுகின்றோமோ, அவ்வளவு கஷ்டம் விறகு விஷயத்திலும் இன்று இருக்கிறதென்பதை சர்க்கார் தெரிந்துகொள்ளவேண்டும். இன்று விறகு கள்ளமார்க்கெட்டிலே அதிகமாக விற்கப்படுகிறதென்பதையும் சர்க்கார் தெரிந்துகொள்ள வேண்டும். நம்முடைய மாகாணத்திலே அதிலும் முக்கியமாக திருநெல்வேலி ஜில்லாவிலே மலைகள் அதிகம் இருக்கின்றன. அப்படிப்பட்ட ஜில்லாவில் டன் ஒன்றுக்கு ரூ. 40, ரூ. 45 என்று விறகு விற்கப்படுகிறது. 'கவர்ன்மென்டார் நிர்ணயித்துள்ள விலை ரூ. 26 ஆக இருக்கும்போது ஏன் அதிக விலைக்கு விற்கிறார்கள்,' என்று கேட்டால், 'நாங்கள் அதிக தொகைக்கு ஏலம் எடுத்திருக்கிறோம். அதிக விலைக்கு விற்காவிட்டால் நஷ்டமாகிவிடுகிறது,' என்று அவர்கள் சொல்லுகிறார்கள். அங்கேயுள்ள பாரஸ்ட் ஆபீஸர் யார் அதிகமான தொகையைக் கொடுக்கிறார்களோ அவர்களுக்கு ஏலத்தை விடுவதாகச் சொல்லப்படுகிறது. ஆனால், இதே சமயத்தில் என்னுடைய நண்பர் கோசல்ராம் அவர்கள் சொன்னபடி ரூ. 300-க்கு ஏலம் கேட்டவருக்கு விடாமல் ரூ. 134-க்கு ஹார்வி மில்லுக்கு விட்டிருப்பது வாஸ்தவம். அம்மாதிரி அனுமதித்தது தப்பென்று நான் தெரிவித்துக்கொள்ளுகிறேன். ஆகையால் ஹார்வி மில்லுக்கு விட்ட மாதிரியே குறைந்த தொகைக்கு ஏலத்தைப் பொது ஜனங்களுக்கு விட்டிருந்தால், விறகை அதிக விலைக்கு கள்ள மார்க்கெட்டில் விற்காதபடி சர்க்கார் நிர்ணயித்துள்ள ரூ. 26-க்கே விற்கும்படியாகச் செய்திருக்கலாம். இதைக் காட்டிலாகா மந்திரி அவர்கள் முக்கியமாகக் கவனிக்கவேண்டுமென்று நான் தெரிவித்துக்கொள்ளுகிறேன். எனது நண்பர் ஸ்ரீமான் பழனிசாமி கவுண்டர் அவர்களும் இந்த விறகு விஷயத்தைப் பற்றிக் கூறியுள்ளார். இன்றைக்கு எங்கும் விறகு பஞ்சம் ஏற்பட்டிருக்கிறது. எங்களுடைய ஜில்லாவில் சென்ற வாரத்திலே 400 ஏக்கர் ஏலத்திற்கு விட்டார்கள். அதை இப்போது கவர்ன்மென்ட் மதிப்பு போட்டிருப்பதுபடி ஏலத்திற்கு விட்டால் 'Contractor'-கள் ஜனங்களுக்கு சௌகரியமாக விறகை வெட்டிக்கொடுக்க முடியும் என்று நான் தெரிவித்துக்கொள்கிறேன்."

"அதோடு கால் நடைகளுக்கு மேய்ச்சலைப்பற்றி நாம் கவனிக்க வேண்டியது மிகவும் அவசியம். இதைப்பற்றி அநேக நண்பர்கள் இங்கே தெரிவித்துவிட்டார்கள். கால் நடைகள் விவசாயத்திற்கு அத்தியாவசியம். ஆகவே மேய்ச்சலுக்கென்று தனியாக நிலம் ஒதுக்கப்படவேண்டும். இது விஷயத்தை காட்டிலாகா பஞ்சாயத்து போர்டின் அதிகாரத்திற்கு விட்டால், அவர்கள் காடுகளில் மேயும் மாடுகளை பவுண்டில் (pound) அடைத்து விடுகிறார்கள். மாடுகள் மேய்வதற்கு வேண்டிய சௌகரியம் செய்து கொடுக்கவேண்டியது அரசாங்கத்தின் கடமையாகும்."

[Srimathi Lakshmi Ammal]

[16th August 1946]

“யுத்த காலத்தில் மரங்களை வெட்டி எவ்வளவோ காடுகளை அழித்திருக்கிறார்கள். அவசியம் நேரும்போது, காடுகளிலே மரங்களை வெட்ட வேண்டியதுதான். ஆனால், அவைகள் வெட்டப்பட்ட இடங்களில் புதிதாக நடவேண்டும். ‘விறகுக்காக எந்தமாதிரியான மரத்தை வெட்டவேண்டும், இந்த மரத்தை வெட்டு, அந்த மரத்தை வெட்டக்கூடாது,’ என்று சொல்லுவது கூடாது. எந்த மரத்தை வெட்டினாலும், புது மரங்களை நடவேண்டும். ஏராளமான காடுகளிலுக்கும் நம் நாட்டில், விறகுப் பஞ்சம் ஏற்படவேண்டிய அவசியமே இல்லை. இதைக் காட்டிலாகா மந்திரி முக்கியமாகக் கவனிக்க வேண்டுமென்று தெரிவித்துக்கொண்டு நான் முடித்துக்கொள்ளுகிறேன்.”

* **SRI P. S. VELUSWAMI GOUNDAR** :—“ஸபாநாயகரவர்களே, பாரஸ்ட் மான்யத்தை ஆதரிக்கும் முறையில் பேசுகிறேன். இந்த தேசம் 5 விதமான இயற்கைச் செல்வங்களைக்கொண்டது, மலைபடு திரவியம், கடல்படு திரவியம், காடுபடு திரவியம், நாடுபடு திரவியம், நகர்படு திரவியம், இவைகளைக் கொண்டது. காடு, பாரஸ்டிலே மலையும் அடங்கியிருக்கிறது. அந்த மலையைப்பற்றி நம் பெரியவர்கள் நூல்களிலே சொல்லியிருக்கிறார்கள்

‘அளக்கலாகா அளவும் பொருளும்
துளக்கலாகா நிலையும் தோற்றமும்
வறப்பிலும் வளந்தரு உம் வண்மையு மலைக்கே’

(நன்னூல்)

என்று சொல்லியுள்ள அப்பேர்ப்பட்ட மலைகள் இன்றைக்கு எப்படி இருக்கின்றனவென்றால், இந்த பிரிட்டிஷ் ஏகாதிபத்திய காலத்திலே குமிக் கையெல்லாம் மொட்டையடித்துக்கொண்டு நாம் கிராப்பு வைத்துக்கொண்டிருக்கிறமாதிரி அந்த மலைகள் இருக்கின்றன. அதற்கும் மேலாக பசு மாடுகள் எங்கள் பாகத்திலே வீடுதவராமல் 100, 150 மாடுகள் இருந்தன. தற்சமயம் கொஞ்சம் பணக்காரர்களிடத்தில்தான் இருக்கின்றனவே தவிர பாக்கியையெல்லாம் மாட்டுத் தீர்வைக்காக விற்பனையாக விற்பனையாக விட்டார்கள். பசுக்களெல்லாம் ஸர்க்கார் கொடுக்கக்கூடிய பொலிகளை களின் பலத்தைத் தாங்கக்கூடிய நிலைமையிலில்லை, அவைகள் வத்தலும் தொத்தலுமாக இருக்கின்றன. நம் மலைகளிலே உள்ள குழை, நார், கலப்பை, தடி, புல், இவைகளை எடுக்க மக்களுக்கு உரிமையிலில்லை. தவிரவும் மரங்களை வெட்டும் விஷயமாக லெக்ஸிமியம்மாள் சொன்னார்கள், பச்சை மரத்தை வெட்டுவது பச்சைக் குழந்தையை வெட்டுவதற்கொப்பாகும் பச்சை மரங்களை வெட்டக்கூடாது. பட்ட மரங்களை வெட்டி எடுத்து விறகுக்கு உபயோகிக்கவேண்டும். பட்ட மரங்களை ஸர்க்காரில் சேகரித்து அதை விற்பனைக்குக் கொடுக்கவேண்டும். தலைச்சமையில் எடுத்துச் செல்லு கிறவர்களுக்கு இனம் உரிமை கொடுக்கவேண்டும். யுத்த காலத்திலே அங்கே வீடுகளுக்கு கம்பங்களுக்காக மரங்களை வெட்டியும் கால் பிளாண்ட் மோட்டாருக்காக மரங்களை வெட்டிக்கறியாக்கியதனாலும் மரங்கள் குறைந்து அதனால் மழை குறைந்து இப்பொழுது நாம் பஞ்சத்தினால் வாடக்கூடிய நிலைமையில் இருந்துகொண்டிருக்கிறோம். இந்த மலைகள் இருக்கக்கூடிய இடங்களிலெல்லாம் மலேரியா இருக்கிறது. எங்கள் பக்கத்திலே கம்பம் ரேஞ்சிலே பாரஸ்ட் இலாகாவிலே சம்பந்தப்பட்டவர்கள் உத்யோகஸ்தர்கள் முதல் குடியானவர்கள் வரை வீட்டிலே பெண்ணாதி, குழந்தைகள் முதல் கொண்டு இந்த வியாதியில் அடிக்கடி படுத்திருக்கிறார்கள். இவைகளை யெல்லாம் சீர்திருத்தம் செய்யவேண்டும். அந்த மலைகளிலிருந்து எங்கள் பக்கத்தில் யானை கூட்டமாகவந்து விவசாயத்தை அழிக்கிறது. மராமத்து இலாகா மந்திரி கனம் பக்தவத்சலம் அவர்களும், ஸ்ரீ ராஜாராம் அவர்களும் நானும் ஒரு வாரத்துக்கு முன் பெரியார் அனைக் கட்டுக்குப் போனோம் யானைக்கூட்டங்கள், எருமைக்கூட்டங்கள், மான் கூட்டங்கள் வந்ததை அவர்களும் நானும் நேரில் பார்த்தோம் அந்த விவசாயிகளுக்கு துப்பாக்கி லைசென்ஸ் இருக்கவேண்டும், இருந்தால்தான் யானைகளை அடித்துத் தூரத்தலாம். எங்கள் பக்கத்திலே வண்ணாத்திப் பாதை ஓரத்தில் கப்பவா மடை பிளாக் வேலாந் துண்டு புலத்தில் 900 ஏக்கர் காடு இருக்கிறது அதிலே 300 ஏக்கர் பட்டாளத்தில் சேர்ந்தவர் களுக்கு ஜாரி செய்யப்பட்டிருக்கிறது, பாக்கி 600 ஏக்கரை ஜாதி, மத பேதமின்றி

[16th August 1946] [Sri P. S. Veluswami Goundar]

நிலமில்லாத ஏழை விவசாயிகளுக்குக் கொடுத்தால் அவர்கள் விவசாயம் பண்ணி அதிக உணவு உற்பத்தி செய்வார்கள். பாரஸ்ட் இலாகாவில் சில்லரை மகசூல் என்று இருக்கிறது. அரப்பு, பழரகங்கள், தேன், சீயக்காய் இவைகளைச் சில்லரை மகசூல் குத்தகையாக விடுவதினால் ஸர்க்காருக்கு வரக்கூடிய லாபம் கொஞ்சம். ஆகையால் ஏழைக் குடிகள் மலைக்குச் சென்று இவைகளை எடுத்துவந்து விற்பனை வயிற்றுப் பிழைப்பு ஜீவனம் பண்ண இலவச சலுகைவேண்டும். ஒரு சமயம் அவர்கள் ராத்திரியிலே மலையிலே ஏறிச் சென்றார்கள் ஒரு பாரஸ்ட் ஆபீசர் அவர்களைக்கண்டு பிடித்துச் சென்றபோது ராத்திரி வேளை அவருடைய கைகளைப் பின் கட்டாகக் கட்டி நீ என்ன சொல்லுகிறாய் கேஸ் போடுகிறதில்லையென்று சொல்லு என்று சொன்னதாகவும் சொல்லப்பட்டது. அந்த கேஸ் நடந்தது, என்னுடைய தொகுதி நாலு பக்கமும் மலைகள் சூழ்ந்தது தெற்குப்புறம் ஒன்று மேற்குப் புறம் ஒன்று புலம் தெற்கேபோனால் 6 அணு மேற்கே போனால் 6 அணு தீர்வை மாட்டுக்கு மாசி, பங்குனியில் திருவாங்கூர் ராஜ்யத்தில் மேயப்போகும்போது 8 அணு. ஆகவே விவசாயிகளுக்கு மாடு 1-க்கு ரூ. 1-4-0 தீர்வை அதிகம் ஆகையால் மாட்டுத் தீர்வையை ரத்து செய்து விவசாயிகளுக்கு ஷே விஷயங்களிலும் ஒத்தாசை புரியும்படி கேட்டுக் கொண்டு முடித்துக்கொள்ளுகிறேன்.”

* **SRI P. KAKKAN** :—“கனம் தலைவரவர்களே, பாரெஸ்ட் டிபார்ட்மென்டார் ஹரிஜன முன்னேற்ற விஷயத்தில் இன்னும் அதிக சிரத்தையெடுத்துக்கொள்ளவில்லையென்றே சொல்லவேண்டும். Forest பஞ்சாயத்துக்களில் ஹரிஜனங்களுக்கு ஸ்தானம் கொடுக்கவேண்டும். அவர்களுக்குத்தான் ஹரிஜனங்களுடைய குறைகள் நன்கு தெரியும். ஹரிஜனங்கள் பெண்கள் பகல் முழுவதும் நடடோ, அல்லது வேறு வேலை செய்து விட்டோ பட்ட சள்ளிகளை எடுத்தால் அங்கேயுள்ள watchman லஞ்சம் கேட்கிறான். அப்படி கொடுக்காவிட்டால், பச்சை மரத்தை வெட்டியதாகச் சொல்லி Forest பஞ்சாயத்துகளின் முன்பு கொண்டுவந்து விடுவான். இந்தப் பஞ்சாயத்துக்களில் watchmen சொல்லுவதைக் கேட்பார்களே தவிர விறகு வெட்டும் ஏழை பெண் பிள்ளை சொல்லுவதைக் கேட்கமாட்டார்கள். உடனே மேஜிஸ்திரேட் கோர்ட்டுக்கு அனுப்பிவிடுகிறார்கள். மேஜிஸ்திரேட் 10 ரூபாய் fine அல்லது ஒரு வாரம் ஜெயில் தண்டனை என்று சொல்லி விடுகிறார்கள். ஆகவே, ஒவ்வொரு Forest panchayat-லும் ஒரு ஹரிஜனப் பிரதிநிதி இருந்தால்தான், பட்ட சள்ளியை எடுத்தார்களா, அல்லது பச்சை மரத்தை வெட்டினார்களா வென்று உண்மை தெரிந்துகொள்ள முடியும். கையினால் செய்யப் படும் காகிதத்திற்குவேண்டிய புல், மூங்கில் இவைகள் சுலபமாகக் கிடைக்கும்படி செய்யவேண்டும். இதற்காக காகிதம் செய்யும் ஸ்தாபனங்களுக்கு Free licence கொடுத்தாலும் காகித உற்பத்தியைப் பெருக்க ஏற்பாடு செய்யவேண்டும். 1937-ம் வருஷத்திலே காங்கிரஸ் மந்திரி சபை இருந்த காலத்தில், மலை அடிவாரங்களில் உள்ள விவசாயிகளும் அவர்களின் ஆடுமாடுகளும் செழிப்பாக இருந்தன. ஆனால், இப்போது மலை அடிவாரங்களில் மாடுகளை மேய விடுவதில்லை. இது விஷயத்தில் அரசாங்கம் செளகரியம் செய்துகொடுக்கவேண்டும். அப்போதுதான் சமுசாரிகள் சுகமாக வாழமுடியும்.”

“இன்றைக்குக் கிராமங்களிலெல்லாம் உணவு கமிட்டிகளை ஏற்படுத்தியிருக்கிறோம். இந்த Forest panchayat-களில் இந்த உணவுக் கமிட்டி மெம்பர்களில் ஒருவரை நியமித்தால் நன்றாகவிருக்கும். அவருக்குத் தான் விவசாயிகளுடைய கஷ்டம் நன்கு தெரியும் அவர்களுடைய தேவைகள் என்னவென்பதும் தெரியும்.

SRI KANKIPATI VEERANNA PADAL :—“అధ్యక్షా, మన రాజధానిలో 7,46,000 రూపాయలు ఫారెస్టు డిపార్టుమెంటువారికి ఆలాటుమెంటు యిచ్చినారు. ఇందులో విశాఖకుట్నం జిల్లా మనస్సు కొండ, పాంచకు లంబింగు, చింతలపల్లి గ్రామాదులలో టేకు ప్లాంట్షనులు డిమాండ్షనులైనవి క్రియింగు నిమిత్తం ఆయాన లేదు వాళ్ల ఇన్వెస్టుండ్ల ప్రజలవద్దను ననలు చేయించుకుంటున్నట్లు చాలామంది ప్రజలవద్దనిన్నాను.

* MR. SPEAKER:—“The House will now adjourn for lunch. As soon as it reassembles after lunch the Hon. Minister for Revenue will reply.”

(After Lunch.)

* THE HON. SRI K. R. KARANTH:—“Mr. Speaker, Sir, the Government are thankful to the hon. Members for having offered so many suggestions on the working of the Forest Department. It was asked, or rather doubted, by my hon. Friend Mr. Bapineedu whether we have any forest policy at all, and another hon. Friend on this side—I find that he is not in his place; I am referring to Mr. N. S. Varadachari—said that we must not merely state the policy, but also all the details as to what we are going to do *here and now*. I may tell him, Sir, that when he and I accepted office as members of Government in 1937, we took a little time to consider things. Therefore, what he is now asking is a little too much, for we have been in office only for a short period and we are asked to give all the details of all that we are going to do. I can assure him, Sir, that in the next budget all the details of our programme will be laid before the House. Now, so far as the main policies are concerned, I can say what they are going to be.

“The forest area in this Province is only 13.2 per cent, not even 15 per cent as was stated by some hon. Members. It has been recognized all over that at least 20 per cent of the area in a country should be under forests in order to meet the demands of its people. The Government accept this figure as the minimum required. It is quite a fact that there has been a great denudation of forests in this Province. It is largely due to the last war in which timber had been exploited for various purposes. This denudation has been going on in all districts, and if one were to see some of the areas, one has to feel very sorry about the denudation that has taken place. It was said by an hon. Member that the constant famine in the Ceded districts, particularly in Bellary and Anantapur, is due to the destruction of forests. Having personally seen some of those areas, I believe that is so. The same process is going on in the district of Chittoor which I toured recently. The forest in the Kangundi zamindari near Kuppam was referred to particularly by one hon. Member. I was told that for about ten years past the cutting of this forest has been

16th August 1946]

[Hon. Sri K. R. Karanth]

going on. I myself went about ten miles into the forest. Shortly after my return, the zamindar, of his own accord, was pleased to write to me that the cutting now going on is without his notice and against his wishes, though, I am told, Sir, that there is an agreement regarding the sale of fuel entered into by him. Again, I went to another forest in the Punganoor zamindari in the same district about 22 miles from Chittoor town, where similar cutting of forest was going on. The position in regard to the cutting of forests is everywhere the same and more particularly in the zamindaris where probably due to a feeling that some legislation might be passed and that they must make the utmost during this hour, forests are being cut with great harm and danger to the future of this Province. As was announced by the Hon. Premier two days back, I can assure the House that before hon. Members go home at the end of this session, legislation will be introduced which will contain stringent provisions to prevent the further denudation of these forests.

“With regard to reafforestation policy, the matter is under the immediate consideration of Government. Mr. Sathe, who was a Conservator of Forests, was appointed as a special officer. He has produced an exhaustive report in which various suggestions have been made regarding the future policy and reafforestation in this Province. One of them is to acquire forests. That, however, may not be possible in all cases, because acquisition of all private forests means a lot of money. But an easier and more effective way will be to control all forests including those in private lands. Already there are provisions in Chapter IV of the Madras Forest Act, 1882, which enables the Government to control the cutting of forests even in private lands. But there are no penal provisions therein under which an owner who disobeys can be punished or proceeded against. In this matter also, it has been suggested in the report that the control of forests should be made more stringent.

“Then there is the other matter which also is being investigated into as to what all extra lands should be brought under forest management. This is receiving the immediate attention of the Government.

“A fourth point upon which there was criticism by my hon. Friend Mr. Venkateswarlu relates to the panchayat forests which are under the immediate control of the Revenue Department. In 1912, it was suggested by a forest committee appointed at that time that certain of the village forests should be transferred to the villagers, and so this transfer of management took place. Though a final decision has not yet been taken, the matter is being reviewed because it has been the experience that these forests are not being managed properly. There also a great deal of cutting is going on and no attempts to check this are being made by those in charge of the forests. So, whether, in the interests of the forests themselves and the needs of the people as a whole, the panchayat forests should be taken over by the Forest Department is one of the points that is being considered by the Government.

[Hon. Sri K. R. Karanth]

[16th August 1946]

"I may also say one thing, Sir. While a great deal has to be done by the Government themselves, I wish to say that the people themselves have to change their outlook on forests. It was quite rightly said here by an hon. Member that they should not cut forests and that tree-planting should also be undertaken. After travelling through some of the Ceded districts, I found that the people were most apathetic and were themselves cutting trees recklessly. When I went along the road from Bellary towards Hospet for a distance of 5 or 6 miles, I found that the avenue trees reared and maintained by the Local Boards Department are being cut wholesale one after another by peeling off the bark at night so that the trees may die and be available for cutting for fuel. It almost breaks one's heart to see that these avenue trees should be so cut. Everywhere else I was conscious of a feeling that the people who clamour that there should be no famine do not realize that famine is the direct result of their own action in cutting the tree growth. The sooner they realize this, the better for all those not merely in that area, but also everywhere else. I myself come from a district, which is the heaviest district of the Province from the forest point of view barring perhaps the Agency Tracts of the Andhra country. By reason of a large afforestation policy there extending over a period of 40 or 50 years, there has been so much of rainfall that sometimes we feel there had been less of afforestation. I may tell hon. Members that the rainfall in my district ranges from 120 inches in Mangalore in the sea coast to about 250 to 280 inches in the Ghat section which is only 50 miles away. There is so much of surplus rain water which we can easily transfer to other areas if only our scientists can find out some way for it. The poor Ceded Districts hardly have 6 or 8 inches of rainfall a year, whereas elsewhere, as in my own district, we have more rain than we need and the waters of which we cannot ever fully utilize and which result in reducing the fertility of the soil. So with regard to the policy of afforestation, I can assure hon. Members that very early steps will be taken for the adoption of a systematic reafforestation on an examination of all the aspects in the report of Mr. Sathe.

"Then with regard to the question of casuarina plantation which was raised by my hon. Friend Mr. A. B. Shetty and others. Something is being done here also. Whether this is enough or something more could be done in order to supply fuel from the forests to towns and cities is also engaging the earnest consideration of Government. The target for casuarina plantation in this Province has been fixed in the past at 150,000 acres, and the area under cultivation up to January 1946 was only 5,244 acres. Proposals are under immediate consideration for adding another 79,934 acres. It will be examined whether more cannot be done.

"Then with regard to exploitation of the forests and the timber supply, the hon. Leader of the Opposition, who spoke yesterday, gave certain figures and said that our forests were yielding much less than what they did in the past. Though he is not here to-day, I may state that the figures which he seems to have got are not

[16th August 1946]

[Hon. Sri K. R. Karanth]

quite accurate. He said that in 1914-15 the yield of timber was 132,000 and odd tons, in 1943-44 104,000 and odd tons and in 1944-45 87,840 tons. The figures which we have got show that the figures are not declining as was stated, but are increasing. In 1941-42, the total was 125,780 tons and in 1942-43 it was 195,320. (A voice: Overworked.) The hon. Member was not here when I said that every step will be taken to see that they will not be overworked so that there need be no apprehension on that score.

"Then with regard to the supply of certain essentials required. We do feel that the policy has to be changed and made more progressive than in the past. I can assure this House that this Government have a different and a newer policy than what was followed for years past. I have known a little of this department having myself been agitating all along against its activities in not supplying many of our requirements, and I can say that a good 'shake-up' is required in this department as in so many other departments as well. We are here for that. We have our own ideas and we shall try to carry them out.

"One point was raised by the hon. Leader of the Opposition yesterday and also by Mr. Rayappa to-day. That is with regard to the supply of wattle bark for tanning. This, I understand, Sir, was being planted formerly in pursuance of the previous Congress Government's policy. But it had to be stopped during the war, as all labour was diverted to planting pyrethrum. The question of immediately undertaking the production of so essential an ingredient for the tanning industry will be considered, especially when it is found that crores of rupees are going out of the country for its purchase now.

"About the cultivation of pyrethrum itself, I understand that this was undertaken at the instance of the Government of India for the war which was going on in Burma at that time, as they could not get other insecticides. My hon. Friend Mr. Ferrelly told me this morning that pyrethrum was now no longer considered good for use as an insecticide. Probably D.D.T. is considered more efficacious. Anyway the matter will be considered.

"With regard to the question raised as to why our own department is simply content with selling sandalwood, whereas neighbouring states like Travancore and Mysore are having so many sandalwood industries and are making profit, I may tell the House that this matter also will be looked into very carefully in the interests of the Province.

"Regarding the useful suggestions made by my hon. Friends the production of more lac, minor produces including camphor and medicinal herbs, they also will be considered.

"Then with regard to the question of fodder supply. It is quite a good thing, Sir, that this should be looked into from the point of view of the needs of agriculturists. Suggestions have been made in regard to this. A special feature of this year has been the lack of fodder supply to the famine or semi-famine areas of the Ceded Districts (interruption by Sri K. Varadachariar). My

[Hon. Sri K. R. Karanth] [16th August 1946]

hon. Friend from Chittoor is always trying to bring in Chittoor into the Ceded Districts though only two or three taluks of that district formerly were in them. The Government have been trying to do their best in the matter, and I may explain the position clearly. Even recently orders were passed for engaging special trains at our own cost without charging the ryots for transshipping fodder because it was realized that the position in those areas was serious, as I myself saw. But the difficulty has been that the Railway Administration have not been able to supply the wagons as we wanted. So that a lot of fodder which has been cut from the forests is awaiting to be put into trains in Bezwada and the Nallamalai hills in the Kurnool district. By reason of this, an official was recently appointed to take special charge of this fodder business. If we run special trains, the food requirements of the Province will be very seriously interfered with so that we are between two dangers. It is a question also of getting the necessary wagons.

"The general question of grazing will also be looked into. One of the suggestions is rotational grazing. So far as this is concerned, orders have been passed in the past to enforce it. Another thing asked was that whilst during the war the Forest Department sold hay and made money out of it to the tune of several lakhs of rupees from the War Department, why should not people be supplied in the same manner? That is also a matter which will be looked into to see if the supply cannot be made as during the war.

"The next question is one of fuel. Government are aware of the great scarcity with regard to fuel. One matter which was mentioned was regarding high cost of fuel in the Tinnevely district as mentioned by the hon. Member from that area. She said that a hundred acres were sold at the low rate Rs. 134 per acre to a certain company, whilst other areas were auctioned for excessive amounts. We have not got any information about this. The information will be got and the matter will be scrutinized as to why it was that when high rates prevailed preferential treatment was given to a particular company.

"Another matter with regard to which the hon. Mr. P. Natesan spoke was about wood poles. On this, Sir, I must confess that all that could have been done has not been done. In 1938-39 during the time of the last Congress Ministry, orders were passed that as far as possible the Forest Department should supply wood poles treated by either Ascu or Creosite. In 1939-40, the number of poles supplied was 931, in 1940-41 it was 987 and in 1941-42 it was 1,453. Later on, nothing has been done. I quite realize that it is insufficient for a department with about 20,000 square miles of forests under its management in this Province when it is found that in the neighbouring state of Mysore wooden poles are being used almost everywhere and the clamour for extension of electricity is being made in every district. Whether this department will be able to supply the requirements of the local industrialists in this behalf is a point which will be considered.

16th August 1946] [Hon. Sri K. R. Karanth]

"Then another matter that was made by hon. Friend Mr. Muni-swami Pillai is the top-heavy nature of the department. Here also, Sir, we shall see what can be done. He made reference also to the question of research. These are matters that require further thought and consideration.

"Then as regards the inadequacy of the Harijans and the Muslims in the services (the latter point was raised by the Leader of the Opposition yesterday and as regards Harijans to-day), I must say that as regards Harijans the numbers are very few. In the low-paid menial establishments, certainly they could be taken in as it does not require much training as was stressed by the hon. Member. Government will look into this matter. As regards the higher posts, there is the communal representation fixed and the only reason could be that sufficient numbers are not forthcoming. With regard to Muslims, I will give a few figures for the information of the Members of the Muslim Party though they are not here to-day. In the permanent gazetted appointments, out of 49 only three are held by Muslims, the percentage being six. The figures are all for old appointments and not for recent ones. Recently in the Madras Forest Service from 1943-46, 14 candidates were taken and out of these four were Muhammadans. That is more than the usual rate of 2 out of 12. So that the figure must be encouraging to my hon. Friends of the Muslim community.

"Then with regard to points which were raised by the hon. Member Mr. Shetty as to whether people should be allowed to remove the undergrowth, etc., he is aware that this is allowed in the district of South Kanara. Whether this may be adopted in other places also without detriment to the forests will be looked into. With regard to the question of Malaria in the forest areas of our Province raised by him the matter will engage the attention of the Health Department.

"Another point raised by another Member was the welfare of the aborigines who are working in the Forest Department and the way in which the forest areas and lands of the Todas in the Nilgiris are being taken away by others. These, Sir, will also be considered by the Government and the necessary steps taken. I think, Sir, I have dealt with most of the points raised and considering, Sir, that Government have not had much time to look into all matters in the short time at their disposal, I hope hon. Members will show their indulgence and not press the cut motion, so that before we come with the next budget our plans will be as full as possible."

As the hon. the Leader of the Opposition was not in his seat, the motion was deemed to have been withdrawn.

Demand IV was put and carried and the grant was made.

DEMAND V—REGISTRATION.

* THE HON SRI K. BHASHYAM:—"Mr. Speaker, Sir, on the recommendation of His Excellency the Governor, I move—

[Hon. Sri K. Bhashyam]

[16th August 1946]

'that the Assembly do assent to a demand which will come in course of payment during the period from 1st May 1946 to the 31st March 1947 of such sum as together with the expenditure already incurred in April 1947, will amount to Rs. 41,17,600 in respect of the head Registration. The expenditure incurred in April 1946 is believed to be Rs. 3,41,974.'

"Particulars relating to this demand will be found on page 61 of the Budget Memorandum."

"SRI PILLALAMARRI VENKATESWARLU:—" Mr. Speaker, Sir, I beg to move my cut motion and in doing so, I want to speak only from the common man's point of view. Here also I feel generally for the poor people of the country and what I want to suggest is that the registration fees must be reduced on documents relating to transactions below Rs. 1,000.

"Another point I want to refer to is the corruption prevailing in the Registration department. This is more prevalent in this department than in others. Poor people come to the registration offices from distant villages and they have to wait for long hours before they could get their documents registered. Unless they give some bribes to these officers, they cannot easily or quickly get their work done. I think the Government must take serious action in this matter and put a stop to such corrupt practices without any delay.

"As regards registration fees, what I want to suggest is that there must be a graded scale of registration fees and that the fees for documents involving transactions below Rs. 1,000 should be considerably reduced and for those above Rs. 1,000 the scale of fees should be on the increase in proportion to the amount involved. Thus the department will be able to derive its revenue on a graded scale, in accordance with the value of documents involved.

"Another point I want to refer to is the frequent transfers of lands. These transfers are taking place because of the present system of land-ownership. If the Government introduce such reforms as the nationalization of lands, then there will be no transactions in land and the Registration Department can easily be dispensed with, at least so far as that portion of the work is concerned. Not only that, the peasantry is now forced to sell its little bits of land to the merchants and richer landlords, because it is involved in debts under the present cheap debt facilities afforded by the latter class of people. These will be saved from debts and their properties will be safe, if lands are nationalized.

"I may bring to the notice of this House that in this department too there is a great disparity between the pay of the highest official and that of the lowest-paid one. I may be a bit hard, but being a representative of labour and the poorer classes of the population, it is my duty at every stage of the debate and in every cut motion to bring this aspect of the matter to the notice of the Government, until such disparity is remedied. The lower-paid staff, as will be seen from the budget, is getting only Rs. 12, 13 and 15 whereas

16th August 1946]

[Sri Pillalamarri Venkateswarlu]

the higher officials are getting Rs. 1,000 and Rs. 2,000 per month. The highest official in this Province, that is, the Governor is getting Rs. 12,000 per month. I am ashamed to see these figures in the pages of the Budget prepared by the Congress Ministry. The Congressmen made very huge promises to the lower-paid staff before they came to office, but what do we find in the budget that is presented? Only the same Rs. 10 and Rs. 12 for the under-dogs! I do not know when the Congress Ministry is going to rectify these hardships. We are seeing before our very eyes in this very building clerks and peons wearing badges and carrying placards, saying how ill-paid, ill-clothed and over-worked they are. It is high time that the Congress Ministry comes forward and raises the salaries of these poor people and imposes necessary cuts on the salaries of those who draw Rs. 500 and more so as to meet the demands of the budget.

"While on this question of salaries, I should like to refer to the unrest everywhere. In every department including the Registration Department, there is this unrest. We may not be able to see it here before our very eyes. But when I go to my constituency, the first question that people put to me is this:—'What have you done about our salaries? You have raised your salary from Rs. 75 to Rs. 150; what have you done for us? We are ashamed to show our faces to them. Even the Ministers, if they go to the public will be put the same kind of question. We see before our eyes how the strikes are developing, and how the Government is meeting them. In Vizagapatam, all the public meetings and demonstration parties have been banned and the Secretary of the Union has been arrested. This is how things are going on even under the present Congress regime. I expected a change in their policy, but to my surprise and disappointment I see none. I have waited and waited in vain to see any change. I remember how under the previous Congress Ministry these things were happening.

"And now, so far as the Registration department is concerned, I once again request the Hon. Minister to come forward at once and let us know what reply he is going to give to these starving and poor people. I request the Government with all respect—I have the greatest respect for the Members of the Treasury Bench; I admire them and I love them as I love my co-workers—I request them with all respect to come forward and do something for these suffering people. At the same time, I would sound a note of warning that these poorly paid people and these workers cannot wait for long. They have waited for this budget and these figures can give no satisfaction to them."

* MR. SPEAKER:—"Mr. Venkateswarlu, please do not repeat the same thing again and again."

* SRI PILLALAMARRI VENKATESWARLU:—"Well Sir, these figures have been printed and when we go back, we have to say to our constituents with shame that we have done nothing and could do nothing. Now at least I hope that the Hon. Minister will see that something is done either by legislation or by other

[Sri Pillalamarri Venkateswarlu] [16th August 1946]

means to satisfy these poor people and the working classes of this country. With these words, Sir, I move my cut motion, namely,
(To reduce the allotment of Rs. 41,17,600 for Registration by Rs. 100.)

"SRI A. B. SHETTY:—“ Mr. Speaker, Sir, some years ago during the budget debate, I had occasion to draw the attention of the Government to the need for giving some training to document writers. The then Minister promised to look into the matter, but though several years have elapsed since then nothing seems to have been done. I believe, Sir, that there are nearly 600 sub-registry offices in this Presidency. There must therefore be at least 10,000 to 12,000 document writers attached to these offices. Most of these men have little or no education. They are not properly qualified. They have no sort of training given for doing this responsible work. In fact, many of them do not know enough of the Stamp Act or the Registration Act or any of the rules. The result is that documents are not properly written. This often gives rise to law suits and the poor people who engage the services of these incompetent document writers are made to suffer in various ways. I understand that recently the Travancore Government have introduced licence rule for document writers. They give licences only to qualified people to set up practice as document writers. They have prescribed certain tests which a candidate should pass before he is given the licence. I think it is high time that this Government should copy the example of the Travancore Government and introduce a similar system in this Province also. They may also prescribe a suitable test for these people. It would be a wise and desirable thing to do. It is very necessary in the interests of the poor and illiterate people who go to the registration offices frequently that they should have the services of competent and properly qualified document writers. It will help these poor people and at the same time facilitate the work of the registration officers.

“ Then, Sir, I find in the Budget that there is a proposal to create six new registration districts. I should like to know where these registration offices are proposed to be opened. There has been a complaint for a considerably long time from South Kanara that there are not sufficient number of registration offices there. There are villages from which people have to walk 15 to 30 miles to go to registration offices. A demand has been made that one office should be opened at Mangalore, two offices in Udupi and two more offices in the Kasaragod taluk. I hope that the Hon. Minister will give his attention to this very legitimate demand of the people of South Kanara.”

* MR. SPEAKER:—“ Those who have already given notice of cut motions have spoken. Now, any other hon. Members who want to speak on the motion may address the House.”

* SRI A. VAIDYANATHA AYYAR:—“ Mr. Speaker, Sir, I am not a communist, but, if things are allowed to go on as they are there is every likelihood that some time or other most of us

16th August 1946] [Sri A. Vaidyanatha Ayyar]

would find ourselves in the camp of Mr. Venkateswarlu. (Hear, hear.) We have been, for a long time, led to believe that public service is one that is intended to be done in the interests of the community and that remuneration therefor is to be expected as a subsidiary thing, that what really counts is service, even in the Government. That, at any rate, is the kind of thing which we, the Congress people, have been asked to propagate and we have been doing propaganda likewise, and I suppose it necessarily follows that we ourselves should only plan on that basis. You find that again and again; from Wardha comes the mandate ‘ You must really try to eliminate the wide distinctions between the highest officials and those who work down below.’ Now we are in office, and once we are in, we must necessarily take courage in our hands. ‘ We must kill the cat on the wedding day,’ otherwise we may never have the chance at all to do it. Once you are in, and put in a budget, you will find it difficult to change and you will be only following it year after year. What do we find now? The Inspector-General gets Rs. 1,200 to 1,400 and his personal assistant gets Rs. 250—400. Down below on the same page of the Budget, you have three attenders each getting Rs. 19—30 and one peon on Rs. 12—17—a magnificent sum. Similarly in every department the disparity in pay is very noticeable. All the pages of this bulky volume reveal the same state of affairs, viz., the pay of the top man is in four digits while the pay of the man at the bottom in the official ladder is only in one digit, Rs. 6 and so on. I am putting it to you whether it is not time for you to lay down your policy in regard to this matter. Perhaps three months time is not enough to give effect to your policy. But should not these three months be sufficient time for you to enunciate your policy? The Ministry may now give an assurance that in times to come the disparity will be removed and things will be adjusted properly by raising the pay of the lower man and lowering the pay of the higher man. It should be the aim of the Ministry not to leave a big gap between the scales of pay of these services. The Ministry could have given in this Budget a general indication of the lines on which it is going to adjust the salaries of its officials. People have for long been accustomed to having three grades in the official ranks, those at the top living in the land of luxury, those at the centre having a fair amount of conveniences and those at the bottom having to serve everybody above them. Sir, this division is fast giving way. In the cities and even in the countryside the people have awakened. Unless therefore we give them an assurance that their status will be raised and that the status of those higher up will be correspondingly lowered, it will be very difficult to satisfy the people. I wish to invite the attention of the Ministry to this need.

“ I wish next to refer to the assurance if not promise made that at the earliest possible opportunity this sinful revenue from excise will be wiped out. The Hon. Minister almost gave an assurance that, if possible, it will be done in the next budget. That is the impression I gathered from the speech of the Hon. the Premier on the excise debate. That would cut off 16 crores. You

3-15
p.m.

[Sri A. Vaidyaantha Ayyar] [16th August 1946]

would not have a budget with a reserve fund from which you can replenish your resources in the years to come. Further you have schemes on hand. Therefore if you are going to take up the examination of the pay of the services it is time you think of it and calculate from now and plan accordingly. We ought not to go on spending on the lines and to the extent laid down by the previous administration. Here we are supposed to work according to popular notions. If in your attempt at carrying out your policy you have got to be unpopular with this or that class, you should not mind it. This is my request to you."

* Mr. SPEAKER:—"I have fixed 5 minutes for each speaker."

* Sri M. P. PERIASWAMI:—"கனம் தலைவரவர்களே. எந்த சர்க்கார் டிபார்ட்மென்டை எடுத்துக்கொண்டாலும் ஹரிஜனங்களுக்கு 12-ல் ஒன்று உத்யோகம் சாதாரணமாகக் கொடுக்கப்படுகிறது. ஆனால் இந்த ரெஜிஸ்ட்ரேஷன் டிபார்ட்மென்ட்டில் ஹரிஜனங்களை அதிகமாக வேலைக்கு எடுத்துக்கொள்ளுவதில்லை. 12-ல் 2-கொடுப்பதாகச் சொல்லப்பட்டுக்கூட ஹரிஜனங்களில் ஒருவர்தான் ஜில்லா ரெஜிஸ்ட்ராராகவிருக்கிறார். ஆனால், அவரை மேலே போகாமற்படி தடுத்து அவர்பேரில் ஏதோ பொய் சாക്ഷியத்தைக் கொண்டு வந்து, அவரை மாற்றி விடுகிறார்கள். ராமநாதபுரம் ஜில்லாவில் ரெஜிஸ்ட்ராராக விருந்த ஸ்ரீ செல்லசாமி அவர்களைக் குறிப்பிடுகிறேன். அவரை அங்கிருந்து ஒரு ஆந்திர ஜில்லாவுக்கு மாற்றிவிட்டார்கள். மந்திரி கனம் கூர்மையா அவர்களுக்கும் ராமநாதபுரம் ஜில்லா ஹரிஜனங்களின் தீண்டாமை விஷயம் நன்றாய்த் தெரிந்திருக்கிறார் அவரும் இன்னும் பல M.L.A.-க்களும் செல்லச்சாமி அவர்களை ஆந்திர ஜில்லாவுக்கு மாற்றக்கூடாது. தமிழ் நாட்டிலேயே வைத்துக்கொள்ளவேண்டுமென்று சொன்னார்கள். அப்படியிருந்தும் அவரை ஆந்திர மாகாணத்திற்கு மாற்றிவிட்டார்கள். ஒவ்வொரு டிபார்ட்மென்ட்டிலும் இப்போது இருப்பதைக் காட்டிலும் அதிக சலுகை எங்களுக்குக் கொடுக்கவேண்டும். முக்கியமாக ரெஜிஸ்ட்ரேஷன் டிபார்ட்மென்ட்டிலே ஹரிஜனங்களுக்குத் தகுந்த பிரதிநிதித்துவம் கொடுக்கப்படவேண்டும். அப்போதுதான் ரெஜிஸ்ட்ரேஷனுக்கு வரும் ஹரிஜனங்களுடைய நன்மையைக் கவனித்துச் சரியாகக் காரியங்களைச் செய்வார்கள். எங்களுக்கு உத்யோகத்திலே 12-ல் ஒன்று என்ற விகிதாசாரம் போதாது. 12-யிலே 3-வது கொடுக்கப்படவேண்டும். அப்போதுதான் எங்களுடைய சமூகம் முன்னேற்றமடைய முடியும். அப்போதுதான் காங்கிரஸ் மந்திரி சபை எங்களுடைய சமூகத்திற்கு அதிக நன்மை செய்தவர்களாவர்கள். காங்கிரஸ் மந்திரி சபை ஹரிஜனங்களுக்கு உத்யோகத்தில் அதிக பிரதிநிதித்துவம் கொடுத்து ஆதரித்தால் நலமாயிருக்குமென்று சொல்லிமுடித்துக்கொள்ளுகிறேன்."

* Sri N. VENKATA SUBBAIYA:—"Sir, I have only one point to refer to on this demand and that is about the prevalence of corruption in this department. It is very regrettable to make reference to the existence of corruption every time a demand is moved. Sir, corruption spoils the fair name of the administration. It is well known that the Registration Department is the most corrupt one. I have visited some of the Registration offices. During the off-season when the ryots are free from work they attend to the business connected with registration. As they cannot attend to this work during the agricultural season, hundreds of them go there for registration of their documents during the off-season. Seeing such big crowds the Registration staff take full advantage and get from the poor villagers double or treble the Government fees by way of bribes. This could be put an end to by asking the Sub-Registrars like Revenue Inspectors to

[Sri N. Venkata Subbaiya] [16th August 1946]

tour in the villages for receiving applications for registry. If this is done the ten or fifteen witnesses and others who usually go with the persons who want to get documents registered would be saved the need to travel long distances to the sub-registry office spending Rs. 30 to Rs. 40 on hotels and the like there. I request the Government to consider this suggestion. It will be a great improvement upon the existing arrangement and put an end to corruption. If the Government could pay travelling allowance to the Sub-Registrar when he tours in the villages the problem won't be solved. I hope the Government will consider this suggestion, of making Sub-Registrars, touring officers."

* THE HON. SRI K. BHASHYAM:—"Mr. Speaker, Sir, so far as this demand is concerned, the point made against the department is mainly about corruption. All that I can say in respect of that matter is that if any case of corruption is brought to the notice to the head of the department or the Government it will receive immediate attention. I wish to say, however, that if any general charge of corruption is made it will not be possible for the Government to take any action. Therefore I ask the public and the persons who have business at the registration offices to come forward with specific cases and with proof to enable the Government to take action."

"The question of providing conveniences and amenities for persons who visit the sub-registry offices on business will be certainly looked into. As may be noticed, the Government have already sanctioned about six more districts and 7 or 8 new offices have already been opened. Proposals to open 9 more sub-registry offices are on hand and some 17 proposals are under examination in addition. Therefore wherever necessary more sub-registry offices will be opened. In this way we hope to meet the demand of the public and obviate the need for waiting at the offices to get their registration work done promptly."

"The suggestion to get the Sub-Registrars' tour in the villages is an interesting one and perhaps somewhat attractive. But there are immense difficulties in the way of accepting the suggestion. The carrying of various registers and other books of the office to the villages is a difficult problem."

"I come next to the demand made for raising the salaries of officers in the department. It was pointed out that there is great disparity between the salaries of the Inspector-General and of his subordinates. We are aware of this. The Congress has committed itself to see that the salaries are not pitched high in view of the poverty in the country. So far as this matter is concerned it is a question of policy affecting not only this department but every department of the administration. That being the case this suggestion will be considered when chalking out a policy for all departments."

"So far as the question of raising the pay of the lower officers is concerned, there is already a proposal before the Government for raising the salary of the low-paid staff. I think there is a proposal to raise it from Rs. 30 to Rs. 50 and for the Sub-Registrar from

[Hon. Sri K. Bhashyam] [16th August 1946]

Rs. 60 to Rs. 90. So far as this is concerned it is being looked into and a sub-committee of the Cabinet has been formed for the purpose of looking into the question of salaries of the staff. They are dealing with cases of officers below Rs. 200 and will do justice to the low-paid officers of Government. But I should like to mention one thing in this connexion. If all the demands of the subordinate and other officers are to be met perhaps the revenue we derive will not be enough to meet the demands in full.

3-30 P.M. "The leaders must have some responsibility in the matter. It is not enough if they put forward the demand, but they must show how the demand can be met with the resources that we have. It should not be merely for the purpose of demonstrating in the streets and before the Secretariat as if the Government can be coerced to do something which they do not consider reasonable. It is not just not only to the persons concerned but to the other sections of the population. Therefore I would like the leaders of the movements and the men who are at the bottom of these demonstrations to take note that if they really want to represent anything, they should do so in a constitutional and peaceful manner so that the matter may be gone into. We as Congressmen are sympathetic and in favour of raising the salaries of the lower-paid staff and equalizing to the greatest possible extent the salaries of the higher-paid staff to those of the lower-paid staff. I am therefore appealing to these leaders not only to be more reasonable in their demand but also to be reasonable in the way of demonstrating their demand for higher salaries."

* SRI PILLALAMARRI VENKATESWARLU:—"As regards the question . . ."

* MR. SPEAKER:—"Is it on a point of information that the hon. Member is rising? If it is on a point of information, he can go on."

* SRI PILLALAMARRI VENKATESWARLU:—"On a point of information, Sir. Does the Hon. Minister think the demands are not reasonable?"

* THE HON. SRI K. BHASHYAM:—"So far as the Registration department is concerned proposals have already been made and I cannot say anything till the Cabinet Committee meets. So far as other departments are concerned I should like the leaders of these movements to be more reasonable. Whether they are reasonable or not in a particular case is a matter for the Cabinet Committee to decide.

"So far as the question of high salaries is concerned, it is a matter of policy which as I said will have to be dealt with separately in its proper place.

"As regards the question of training document-writers, Sir, there has been a demand about this. But I should certainly advise persons who want their documents written to give them to trained lawyers instead of these untrained, ill-equipped . . ."

* MR. H. S. TOWN:—"Trade unionism!"

16th August 1946]

* THE HON. SRI K. BHASHYAM:—"I am accused of being partial to my own profession. But they had served a very useful purpose and if they are employed in these matters, there will be less trouble and litigation that arise out of documents prepared by ill-equipped persons. On the suggestion of some Members, some years past, there was a proposal for licensing these document-writers. There is a big report on that which had been shelved during the period of the war and so far as this matter is concerned, I shall take it up and if anything can be done, I shall do it.

"Then comes the Harijan problem, just like the Muslim problem, in the case of Government jobs. This is of course a matter to be considered very sympathetically, no doubt. But what I would like to point out is this. So far as the Harijans are concerned, I have got the figures here. Out of 25 permanent appointments, there are three Harijans. Of course, more than the proportion they are entitled to . . ."

* MR. SPEAKER:—"The Hon. Minister has not told the House to which appointments he is referring."

* THE HON. SRI K. BHASHYAM:—"I am referring to District Registrars, Sir. I am thankful to you for reminding me about it. Out of 25 District Registrars now filled up there are 3 Harijans. As regards the First-grade Sub-Registrars, there is nobody, yet in that department. As regards Second-grade Sub-Registrars there are 492 posts of which 24 are occupied by Harijans, permanent and acting. Of course, this figure is not much. But, Sir, I have to point out that so far as initial recruitment is concerned there are not enough Harijan candidates coming forward for the purpose of being recruited, in spite of the fact that the minimum qualification prescribed for the Harijan community to be entertained in this department is S.S.L.C., while for the other communities it is B.A. and B.Sc. In spite of this there are not enough candidates coming from the Harijan community. That is why their percentage in the Registration department is somewhat low. Perhaps the Harijan thinks that the prospects are not very bright in this department and therefore Harijans with S.S.L.C. qualification go elsewhere for getting employed. Indeed his value in other departments is certainly much higher than it is in this department. Therefore, if the leaders of the Harijan community will induce a greater number of people belonging to the community to offer themselves for being recruited into the Registration department, nobody will be more happy than myself. The question of Harijans being properly represented in this department certainly depends upon the community itself and the candidates coming forward for recruitment.

"As regards the treatment of Harijans in the service a case has been brought to the notice of the House by my hon. Friend, namely, the question of Mr. Chellaswami, a District Registrar in Ramnad who has been transferred to Bellary. It was complained to me by this friend that a Tamilian should not be transferred to Bellary and that there was some difficulty about his going there.

[Hon. Sri K. Bhashyam] [16th August 1946]

Being a Harijan, a privileged class, I thought I could interfere and if I could manage, see that the transfer was stopped. But on fully looking into the papers, the question of stopping that transfer involved so many complicated further transfers which made the position very difficult and this fact was communicated to the friends who interceded with me on behalf of Mr. Chellawami and I thought they were satisfied. I have to make mention of these, Sir, as the matter has been brought specially before the House and for special mention.

“Then, precedence to Harijans in the matter of registration. No complaint has come to me so far about this matter and I do not know if there should be precedence for Harijans over other classes in the matter of registration. That may not be the proper procedure to adopt. The documents must be taken in the order in which they are presented for registration. The Harijan must take their turn along with other classes and they cannot be treated as superior to others.

“I think, Sir, I have answered all the points raised so far as this demand is concerned. In view of what I have said, Sir, I ask the hon. Member who moved the cut motion to withdraw it.”

The motion moved by Sri Pillalamarri Venkateswarlu was by leave of the House withdrawn.

The demand was put and carried and the grant was made.

DEMAND VI—MOTOR VEHICLES ACTS.

THE HON. SRI R. RAGHAVA MENON:—“Mr. Speaker, Sir, on the recommendation of His Excellency the Governor, I move—
‘that the Assembly do assent to a demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as together with the expenditure already incurred in April 1946, will amount to Rs. 3,54,300 in respect of the head Motor Vehicles Acts. The expenditure incurred in April 1946, is believed to be Rs. 38,646.’”

* SRI PILLALAMARRI VENKATESWARLU:—“Mr. Speaker, Sir, I move—

‘that the allotment of Rs. 3,54,300 for Motor Vehicles Acts be reduced by Rs. 100.’

“First of all, Sir, I must refer to the fact that this Motor Transport is in the hands of private and individual owners. I propose to suggest that this Motor Transport including the Tramways must be given to the local bodies and they must be run by the local bodies. Just now we heard from the Hon. Minister for Revenue and the Hon. Minister for Law that there are not enough funds to meet all the demands. If these transport systems, namely, the Motor Transport as well as the Tramways, were taken away by the Corporation and other local bodies I think the municipalities and the Corporation will have enough funds. They can also run the transports efficiently and in the interests of the public and not for private profit. That is why I suggest that the Government must immediately recommend to the local bodies that the motor

16th August 1946] [Sri Pillalamarri Venkateswarlu]

and other transports must be immediately taken up by them and run only by them. Only recently in Bezwada, wherefrom I am coming, and where motor transport is being started, it was given to a private individual. Sir, if the municipality were to take up this motor transport and run it in the interests of the public, it will have enough funds and individual profiteers will not have the opportunity of exploiting the people as they had done. I would request the Government in the interests of both the people as well as their revenue—of which they are so fond and of which they make so much and say that their revenue is exhausted—they should hand over the motor transport and the tramway transport to the Corporation as well as the local bodies and then the question of raising funds for the local bodies will be solved in a way.

“Then, Sir, what is happening in the districts? How is the motor transport run? They are run in a most awkward manner and it is very difficult to get a seat there. Bribery is going on. The drivers and conductors are the worst paid. They are not getting even a minimum living wage. The Hon. Minister for Industries said that the motor transport workers will be included in the Wages Act. Until then this condition will continue.

“In certain places there is the Police control. How is it working? Everybody knows the Police, including the Hon. Prime Minister and how bribery and other things are going on, how they are behaving, everybody knows that. Passengers have been hit and everybody has been hit, by this Police. In this connexion I have to bring to the notice of the House an incident that took place at Gannavaram. It was because the police refused to pay the fare. Everything has been spoiled there by this police, special police, who are stationed there. So much havoc has been done. This is how this motor transport system is being controlled by the police zoolum and how people are being hit.

“In Nellore the workers are on strike and adjudication is going on. I do not know for how long it is going to be like that. It is therefore we say that under private management workers are suffering and people are suffering for lack of seats and other things.

“Then there is another point. Till now vehicles supplied were 1937 models. In spite of the fact that the war is over none of these new vehicles has been brought on our district. Old vehicles are being supplied and therefore transport difficulty is growing from bad to worse.

“Another thing is about the lorries. Even just now we heard the Hon. Minister for Revenue saying that because there were no waggons they could not transport fodder to the famine districts. I suggest that if these lorries were to be taken over by the Government on requisition there will be no hardship in taking fodder to those areas. This lorry trade is also under private management. There again blackmarketing is going in broad daylight and during night. All these things can be prevented if this trade in lorry traffic is controlled and taken over by the Government or by the local bodies.

[Sri Pillalamarri Venkateswarlu] [16th August 1946]

“One more point and that is with regard to the Motor Vehicles Act. Sir, quite often the drivers and the conductors are put to lot of difficulties by policemen and they are even charged unnecessarily for the mistakes committed by the owners or somebody else. They are even beaten sometimes. The Government must rectify all these things at once. We are said to have a people's government with a people's leader at the head and with so much popular backing. I agree that the Government has much popular backing. Therefore we expect the popular demands to be met and any impediments which come in the way of meeting the popular demands should be removed. It is no use merely saying that the Government revenue cannot meet the expenditure. If the industries are taxed or taken over by the Government, if the high salaries are reduced, is it difficult to get revenues? If really the imperialistic framework is broken, it is not difficult to get revenues. There are revenues and we can get them. It is not the Governor that stands in the way. I can remember pretty well the Hon. Prime Minister saying that the Secretary of State may not give permission for the abolition of the zamindari system. If the Secretary of State will not give permission, the Prime Minister with the backing of the people behind him will not have anything to do with him. But of late it has been said that the Secretary of State has given independence to this country. I cannot reconcile both points of view. If the British have given independence, then how can the Secretary of State or the Viceroy or the Governor stand in the way of fulfilling our people's demands? What is there to prevent this Government from nationalizing the lands, taking over the industries and so on? There is no question of revenue at all and I cannot understand any question of revenue standing in the way of meeting the just demands of the workers and the peasants. I request him not to raise any questions of revenue but meet the just demands of the people. The people's leader should not stand before the people who are asking him to fulfil certain just demands and say that somebody is provoking trouble and somebody is promoting strikes. Sir, everybody is behind him and everybody wants that he should fulfil the just demands of the people.”

* SRI V. I. MUNISWAMI PILLAI:—“Mr. Speaker, Sir, while supporting this demand I should like to say one or two points in connexion with motor vehicles. The motor transport is the poor man's facility for going from place to place in addition to the train which is always over-crowded. With regard to the composition of the Road Traffic Boards . . . (Interruption.) I hear from my hon. Friend that the Boards have been abolished. With regard to the Regional Road Traffic Board, I urge that some people from the country-side who know the difficulties in motor transport, and the passengers could be usefully added to the Board so that what is actually happening in the district parts may be brought before the Board. Wherever we travel in the interior, as has already been pointed out by the mover of the cut motion, there is great difficulty. People have to stand in queues for hours together and even the very vehicle in which they have

16th August 1946] [Sri V. I. Muniswami Pillai]

to travel is in a very bad state. It is not at all comfortable even though the maximum fares fixed by the Government are collected. Further, Sir, the way in which permits for the motor transport is granted; they mostly go to a few rich people who monopolise this traffic. The time has come for Government themselves or Government through the agency of the local boards to undertake the motor transport business. Sir, during the war many motor vehicles could not be imported and what were available in the country were used and these people who owned these motor transports have made enough and more money over this business. At the same time, I must here join my hon. Friend who said that the motor drivers, the conductors and the cleaners are not well paid. When the owners make huge profits, it is but reasonable that they must see to the comforts of the poor people.

“Moreover, Sir, in the case of getting G permits for the lorries undue inconvenience is caused to those who go in for these permits. I think a simpler method must be found so that there may not be much of inconvenience for these people who apply for permits for their motor lorries either for hire or for their own purposes. In some places, Sir, the route through which motor buses go is fixed with the object of giving facilities for certain privileged communities. I may cite a case, Sir, where the children of the District Superintendent of Police had to go to school and so the motor bus had to go through a particular route and the motor bus used to be stopped on Saturdays and Sundays when there is no school for the children. I think, Sir, that this invidious distinction must disappear even now. With these few words, Sir, I support the Demand.”

* MR. SPEAKER:—“Those who have given notice of cut motions have already spoken. If there are other hon. Members who wish to speak, I am prepared to allow five minutes for each.”

* SRI V. C. PALANISWAMI GOUNDER:—“Mr. Speaker, Sir, the previous speakers have already spoken about the necessity of these motor services being taken over by the local bodies. There is every justification for the local bodies taking over this responsibility. It is high time that the public interest should be considered before any private interest. The present system is only one of giving monopolies to certain individuals in every district. It should be done away with at once. The local bodies are making the roads and maintaining them in the interests of the public. They spend the money and here are the vested interests and monopolists who reap the benefits of the services rendered to the public by the local bodies. Among the local bodies the Coimbatore District Board was the pioneer in taking over the motor transport services during the last Congress Ministry. They had a very good case for taking over the services under that management. The Coimbatore District Board had then a railway running from Coimbatore to Pollachi and the former motor service owners were competitors to this railway and they were running their service to the detriment of the railway. Therefore the then Coimbatore District Board moved the Government and succeeded in

[Sri V. C. Palaniswami Gounder] [16th August 1946]

getting permission for running the bus services. Unfortunately owing to certain changes in the administration and owing to the war conditions the District Board Bus services had to be stopped and some other monopolists have come in their place. Now the Coimbatore Municipality, District Board—of course it is not a popular body now—has given the licence to private owners. There too the monopoly system comes in. Therefore it is high time the monopoly system should go and the interests of private individuals give place to those of the general public. I therefore strongly support the proposition that the motor transport services should be taken over by the local bodies if not by the Government."

* SRI B. GOPAL REDDI:—"Mr. Speaker, Sir, I rise to oppose the cut motion and in doing so I wish to impress upon the Government the necessity for their taking over the motor transport services themselves. We all know that road-making is in charge of the Highways Department. Previously it was in charge of the local boards and the recent changes in the organization have given it over to the Highways Department. Sir, I urge on the Government that there is need for a separate Communications Department. Instead of calling the department a Highways Department, it must be called a Communications Department and Motor Transport added to that department. In the Government of India, all communications including radio and the railway are under one department, and I also request this Government to see whether they cannot constitute a Communications Department with the Motor department also added on to it. A small beginning was made in 1937-38 and the necessary legislation was undertaken by the previous Congress Government in order to enable local bodies to run their own motor transport. There was vehement opposition to the proposal, but in spite of that opposition, the Coimbatore District Board was given permission to run its own motor buses from Coimbatore to Pollachi. The district board could not immediately undertake to run all the buses required for the purpose, and it entered into a contract with a company. The company ran the buses and the collection was made by the district board. Within less than twelve months, the district board was making over Rs. 2,000 over a mileage of 27 miles a month. From Coimbatore to Pollachi the distance being 27 miles the board was able to make that Rs. 2,000 on that one route. So, if the district board had taken over the entire district, the income of the board would have been much more. I find, Sir, in the neighbouring States of Hyderabad and Travancore, the entire motor transport is being taken over by the Government and I do not see why the Madras Government cannot also take over the entire motor transport and take all the profits out of the road. By transferring road-making to the Highways Department, they have taken a huge responsibility. What they were spending on the trunk roads has been trebled and quadrupled: where they were spending Rs. 500, they are now going to spend Rs. 2,000 and more. That is a step in the right direction; but they must make up the loss. He who is making the road must

[16th August 1946] [Sri B. Gopal Reddi]

also be able to take away the profits from the road. So, nationalization of transport, whether it is given to the local boards and the municipal councils or is taken over by the Government, is one to be considered by the Government. I therefore urge upon the Government to take early steps to see that the entire motor transport in the Province is taken over by them.

"Sir, the recent act of the Advisers in abolishing the District Traffic Boards is, in my opinion, a retrograde step. They abhorred non-officials' association in these matters and they have scrapped the District Traffic Boards which were working for five or six years. They have now instituted what is called the Regional Transport Board where, I think, non-officials are not given any place. It is entirely administered by an officer of the rank of a District Superintendent of Police. I do not know, Sir, why this monopoly of the police with regard to motor transport. Is it necessary that the whole thing should be administered by Police officers and nobody else? I do not know; it is a matter for the Minister to say whether the police alone are competent in regulating motor transport in these five or six regions. I do not know how many retired people also are employed in this department, and I want the Minister to tell us when the petrol rationing is going to be abolished."

* SRI A. SUBRAHMANYAM:—"கனம் தலைவரவர்களே, தற்போது மந்திரியவர்கள் கொண்டு வந்திருக்கும் மோட்டார் வாகன மானியம் சம்பந்தமாக நான் சில வார்த்தைகள் சொல்ல விரும்புகின்றேன். தற்போது இந்த மோட்டார் பஸ்களுக்குப் பர்மிட் கொடுக்கும்படியான விஷயத்தில் சில மாறுதல்கள் செய்யவேண்டுமென்று விரும்புகின்றேன். அதாவது 20 பஸ்கள் வைத்திருக்கும்படியான ஒரு முதலாளிக்கே பஸ்களை ஒட்டுவதற்கு பர்மிட் கொடுக்கப்படும் என்பதாக இப்பொழுது அரசாங்கத்தாரால் ஒப்புக்கொள்ளப்பட்டிருக்கின்றது. அந்த முறையிலே ஜனங்களுக்குப் பெரிய கஷ்டம் ஏற்பட்டிருக்கின்றது. இன்று அவர்கள் 20 பஸ்களுக்கு பர்மிட்டை வாங்கிக்கொண்டு 7 அல்லது 8 பஸ்களைத் தான் விடுகிறார்கள். மற்ற பஸ்கள் கெட்டுப் போனதாகவோ, அல்லது எந்தக் காரணத்தினாலோ அவர்கள் விடுவதில்லை, அந்த 20 பஸ்களில் பிரயாணம் செய்யக்கூடிய அத்தனை பேர்களையும் இந்த 7, 8 பஸ்களிலே கொண்டு போய் நிறைத்து விடுகிறார்கள். இன்னும் கிராமங்களிலோ, அல்லது, சற்று பொது ஜன சஞ்சாரம் அதிகமில்லாத வழிகளில் டாபு மீது கூட ஜனங்களை உட்கார வைத்துக்கொண்டு போகும் நிலைமையை ஏற்படுத்தி விடுகிறார்கள். ஆகையால் இந்த முறையை அடியோடு மாற்றிக் கொள்ள வேண்டும்.

"மற்றொரு விஷயம் சின்ன முதலாளிகளுக்கு அதில் பங்கு கிடையாது. பெரிய முதலாளிகளுக்கு இந்த சட்டம் உதவி செய்கிறதே யொழிய சின்ன முதலாளிகளுக்கு கிடையாது. பெரிய முதலாளிகளுக்கு நன்மை தேடிக்கொள்ளுவதற்கு அது வசதியாக இருக்கிறது. ஆகவே 20 பஸ்கள் வைத்திருப்பவர்களுக்குத்தான் பர்மிட் கொடுக்கிறதென்ற முறையை மாற்றிக் குறைந்தது 5 பஸ்களை வைத்திருக்கக்கூடிய ஒரு முதலாளிக்கு பர்மிட் கொடுக்கலாமென்கிற சட்டத்தை கனம் மந்திரியவர்கள் செய்வார்களானால் அது பொது ஜனங்களுக்கும் மற்றும் எல்லா ஏழை முதலாளிகளுக்கும் ஒரு நல்ல வழி காட்டியாக இருக்குமென்று நான் தெரிவித்துக் கொள்ளுகிறேன்.

"அடுத்தபடியாக இந்த பஸ்களிலே front seat என்று சொல்லுகிறானே அதிலே போலீஸ் உத்யோகஸ்தருக்கு ரிஸர்வ் செய்து இருப்பதாகச் சொல்லுகிறார்கள். இதை எல்லோரும் ஞாபகத்தில் வைத்துக் கொள்ளவேண்டும். "திடீரென்று காலையில் போய் ஒரு போலீஸ் உத"

[Sri A. Subrahmanyam] [16th August 1946]

யோகஸ்தர் அந்த பஸ்வில வருகிறேனென்று சொல்லிவிடுவாரானால் அதில் யாருமே உட்கார முடியாது. அவர் வருவதாயிருந்தாலும் சரி வராவிட்டாலும் சரி நாம் டிக்கட்டு வாங்கிக்கொண்டு உட்காருகிறோமென்றால் அது ரிஸர்வ் செய்யப்பட்டிருக்கிறதென்றும், யாருக்கு என்றால் சொல்லமுடியாதென்றும் சொல்லுகிறான் கண்டக்டர். எங்களுக்கு போலீஸ் என்றால் பயமென்று அந்த மோட்டார் டிரைவரும் கண்டக்டரும் சொந்தக்காரர்கள் உள்பட சொல்லுகிறார்கள். மற்றொரு விஷயம் மோட்டார் டிரைவர் ஒரு வழியை விட்டு மற்றொரு வழியில் திடீரென்று ஓட்டிக் கொண்டே போகிறான். ஒரு தெருவிலே புகுந்து ஒரு வீட்டை பஸ்ஸை நிறுத்திவிடுகிறான், என்ன அப்பா நான் அவசரமாகப் போக வேண்டியிருக்கிறது இங்கு நிறுத்தி வைத்திருக்கிறேயென்றால் ஸ்ப் இனிஸ்பெக்டர் வருகிறார் சம்மா இருங்கள் என்கிறான். நான் அவசரமாகப் போக வேண்டுமென்று சொன்னால், முடியாது நீ வேண்டுமானால் இறங்கிப் போ என்கிறான். ஆகவே, இவ்விதமான ஒரு காரியம் இனி நடைபெறாதவாறு மந்திரிகள் கவனித்துக்கொள்ளவேண்டும். போலீஸ் காரர்கள் பிராயாணம் செய்யும்போது ஜனங்களுக்குச் சேவை செய்பவர்கள் என்பதை அவர்களுக்கு உணர்த்தி உடனடியாக உத்தரவு போடவேண்டுமென்று நான் கேட்டுக்கொள்ளுகிறேன்.

“அடுத்தபடியாக இந்த டிரைவர் கண்டக்டர்கள் போலீஸ் காரர்களிடத்தில் பயப்படுகிறார்கள். பஸ்ஸை விட்டுக்கொண்டு போய்க்கொண்டே இருக்கிறார்கள் திடீரென்று நிறுத்துகிறார்கள், ஏனென்றால் ஸ்ப் இனிஸ்பெக்டர் வருகிறாரென்கிறார்கள். அவசரமாகப் போகவேண்டுமென்று ஒரு வழிப்போக்கர் நிறுத்தச் சொன்னால் stopping place கிடையாது நிறுத்த முடியாதென்கிறார்கள். ஆனால், ஒரு போலீஸ் உத்தியோகஸ்தர் அல்லது ஒரு Head Constableயை இருப்பவர் நிறுத்திவிடுவார்கள். பஸ்களிலே ‘standing’ நின்று கொண்டிருப்போக வேண்டியதாயிருக்கிறதே, அதில் ரொம்ப சிரமம் இருக்கிறது. உடனடியாக அதை நிறுத்திவிடவேண்டும். அதற்கு பதில் அதிக பஸ்களை விடுவதற்கு பர்மிட் கொடுக்கவேண்டும். இந்தக் காரியங்களைச் செய்யவேண்டுமென்று நான் கேட்டுக்கொண்டு நான் முடித்துக் கொள்ளுகிறேன்.”

* SRI A. KALESWARA RAO:—“ Mr. Speaker, Sir, I wish only to say that it is high time that the Government should take up public transport under its own management. In the election manifesto, we have told the people that we shall nationalize the railways, shipping, public transport, mines, mineral resources, forests, waterways and all things which help the moral and material development of the people. There are two reasons, very important, for doing all this; firstly, to prevent the growth of a capitalistic class in this country. Capitalism is growing; we must put a check to it as soon as possible. If we allow capitalism to grow, communism is bound to come. In order to prevent communism also, we must adopt this policy of socialism which will nationalize the key industries, the important industries of the country and the means of production and distribution, banks, currency and insurance, and all these things. The second reason is that this Provincial Government should augment its revenues considerably. Hereafter, the Provincial Governments will have all the departments under them except a few departments that are allotted to the Central Government. We are at the threshold of getting complete independence. We must begin administration with that vision. All departments are coming to us and more or less they have come. Therefore the Ministry must not go in the old rut, on the old lines of the bureaucratic budgets. It is time that all these things are nationalized.

[16th August 1946] [Sri A. Kaleswara Rao]

“ There is only one point I wish to refer to. If the Government wants to augment its revenues by taking up industries, by trading, by nationalizing means of production, transport and such things, then it will not on every occasion when new schemes like prohibition are introduced, create a scare that it is going to tax the people. Why should we tax the people? As far as possible, new taxation must be avoided and augmentation of revenues must be made by these means, from now onwards.

“ With these words, Sir, I am not supporting the cut motion, but I am supporting the ideas given by my friends, Messrs. Muniswami Pillai and Gopal Reddi.”

* SRI K. VARADACHARI:—“ Mr. Speaker, Sir . . . (An hon. Member: ‘ Mike, please.’) Sir, why I am afraid to speak in the mike is that I may injure my good self. The space between the mike and the seat is so small that I have to stand at great inconvenience.

“ I rise to speak on this Demand and in supporting the motion made by the Hon. Minister for Motor Transport, I am simply rising to support the suggestions made by several members, members with experience, with regard to the need for nationalizing motor transport. It is an urgent necessity. The Government makes the road, some other man uses it for remunerative purposes. It is the most uneconomic and improper use we can allow to be made by monopolists or capitalists or by middlemen. This venture will have to be considered in all its bearings by reason of the fact that in this matter we are not completely masters of the situation. The Provincial Government, I presume, has its powers limited by the control which the Government of India exercises in the matter of motor vehicles, taxation, and all such things.

“ My friend does not know there is a control. Mr. N. S. Varadachari will bear with me and I shall develop the subject later on. (Interruption.) I am addressing the Speaker, Sir. (Laughter.) There is a principle enunciated by the Central Government with regard to the co-ordination between rail and road transport. The Provincial Government has to bear this in mind because railways also are a national asset. We cannot ruin the railways for the purpose of encouraging motor transport; one acts and reacts on the other and a policy has to be evolved to see that this principle of co-ordination between motor transport and rail transport is observed and the maximum benefit is derived from both and public conveniences secured to the maximum extent possible. The way in which the motor transport administration in this Province is being run is on the lines of co-ordination. Licences and permits are being granted with a view to see that the railways will not suffer from other transport by means of motors on the roads either for passengers or for goods. I am therefore convinced that my Friend Mr. N. S. Varadachari will now see the point that I was making with regard to the control by the Government of India and that he will not disturb me any further.”

4-15
p.m.

[16th August 1946]

* **MR. SPEAKER**:—"He will not disturb you. I will not allow disturbance; I am here to give you protection."

* **SRI K. VARADACHARI**:—"Therefore, Sir, while there is need for urgent nationalization of this motor transport business, I also wish to warn the Government against accepting the suggestion made by some of our friends on the other side that this nationalization may be utilized for the purpose of conferring the privilege of running this business on the local bodies. It is my firm conviction that such a thing should not be entrusted to the local bodies or municipalities except perhaps in the City of Madras where the need for enhancing the revenues of the Corporation should be the major consideration for handing over the transport completely to the Corporation of Madras. (Mr. H. S. Town: 'Including trams.') Including trams or even aeroplane service if we require it. I strongly object to the nationalization for the purpose of diverting to local bodies or municipalities. It must be national enterprise and the provincial administration should have complete control and should be the sole recipient of all the revenue derived from motor transport business. The second thing is this. While my friend Mr. Subrahmanyam on the other side was expatiating on the grievances of passengers, I felt that he was anticipating me and that I was prevented from making a point out of that class of grievances but any way the grievance that has been mentioned is a real grievance. Unless this department is taken over by the Government, this grievance will never vanish. We find that in spite of representations made to the district officials in the Police department—Circle Inspector, Sub-Inspector and others—a lot of overloading is going on. Sometimes, buses which have a capacity of 20 to 30 are loaded up to 60 or 70. I have seen this with my own eyes. In my own constituency, there is a small route between Pallipat and Nagari. Between these two places two buses are running from morning till evening, every hour or every two hours and the two buses are said to be part of a fleet. In that small route of ten miles, we have got heavy traffic which is resulting in the overloading of buses to a very dangerous extent, people on the top, people on the mudguards, people on the side-boards and so on—and this large number of people are put into the buses like cotton being stuffed into pillow cases. Any amount of representation to the Police department never has any avail or any result, the simple reason being, as my friend Subrahmanyam said, that even a constable gets a lift whenever he wants it at his sweet will and pleasure; the bus has to be stopped anywhere he wants to get down and he therefore shuts his eyes to whatever is being done. These two or three buses which I have mentioned are said to be affiliated to a fleet company but it is so only in name. The proprietors of these buses are still running them by themselves collecting money and controlling them, though in name they are called part of a fleet. Such anomalies are taking place. Therefore I submit that with regard to the question of redressing these grievances, the only remedy is nationalization. No departmental checks or any other contrivances within the present system will

[16th August 1946] [Sri K. Varadachari]

be of any use. I therefore request the Government to take up this question as soon as possible and take away motor services from the middlemen."

* **SRI K. A. NACHIAPPA GOUNDER**:—"Mr. Speaker, Sir, I rise to support the motion moved by my hon. Friend the Minister for Motor Transport and in doing so, I would like to make a few observations with regard to the management of motor transport. During the time of the last Congress Ministry, there was an attempt made to take over the motor transport to the district boards and as a matter of fact some of the presidents of district boards and the representatives of other interests connected with it met at a conference and discussed the matter but unfortunately, it had been left at that stage of discussion and I do not know what became of it further. Previously local bodies were realising the fees from the motor vehicles direct and the same is now being collected by the Government and only a certain amount of it is paid to local bodies. The district boards and municipalities which are the beneficiaries of this tax have no scrutiny to make in the collection and expenditure and so much so the income derived from this source was not up to the expectations and so they were obliged to find more funds from other sources. As soon as the Congress first came into power, the Ministry originally adopted a policy of allowing the district boards to undertake running of motor vehicles. At that time, the Coimbatore District Board took up one route as an experimental measure and they got a very good profit. They got more than Rs. 15,000 per year by allowing the bus route for running on a contract basis to some company. In that way, it was expected that more money could be got from this source, but unfortunately the system of allowing the routes to be run by the district boards was put an end to on some plea or other. If the motor transport is taken over by the local bodies, I am sure, it will go a long way to help their revenues and relieve the financial difficulties from which they are suffering now. Even supposing these local bodies are not able to run the service by owning the vehicles for themselves they can auction the runnings in each route and get good money as they do in the case of markets, ferries, etc. If this is done, it is possible to solve the financial problem of the local bodies to a great extent. Even if the Government think that the local bodies cannot manage it well, it is up to them to take this under their own management and control and realize good money out of it besides affording facilities and convenience to the travelling public. In the matter of management of motor transport by private individuals, I would say that they are not run on efficient lines but if they are managed by local bodies or by Government, this sort of inefficiency also can be put an end to and much of public good and convenience can be brought about. Now under the present rules and instructions, the buses in a route are obliged to be run on a monopoly basis and if additional buses are to be introduced in that route the same persons will have to be given preference.

[Sri K. A. Nachiappa Gounder] [16th August 1946]

Thus there is only one bus service in each route. It is resulting in a lot of inefficiency. Originally this rule was brought into force since each bus owner was having one or two buses and they did not have any steadiness due to unhealthy competition. Now under the present arrangement only owners of twenty buses and more are recognized to run a bus service and allowed licences to run on specified routes. Such being the case, two or more services having convenient headquarters may be allowed to run to timings one after another on each route, and it will certainly create a healthy competition and it will also achieve good results, and the public will be greatly benefited by this course. Hence I urge upon the Government that they must pursue a policy of breaking this monopoly in the good interest and welfare of the public. With regard to lorry transport, Sir, on the instructions of the Central Road Traffic Board as they exist at present, the lorry owners also should have a number of lorries to continue in that profession and the owners of one or two lorries and those who have a little capital and want to run a lorry for their livelihood are not given permits to run their lorries as public carriers. This makes the individuals with a small capital suffer a great deal. If these people are allowed to run under public carrier permits given to them, it will enable the running of lorries at a cheaper rate and afford greater transport facilities. A number of lorries will also come into existence and be of much use to the public to transport their goods easily. So, I urge on the Minister to see to this aspect of the question also."

* **SRI M. KANNIYAPPAN** :—"கனம் தலைவர் அவர்களே. போக்குவரத்து சாதனங்களைப் பற்றி இப்போது பலர் பேசினார்கள். இது விஷயத்தில் அவைகளை ஒட்டக் கூடிய தொழிலாளர்களைப் பற்றித்தான் நீங்கள் முதலில் சிந்திக்கவேண்டும். ஒரு பஸ் டிரைவர் ஒரு நாளைக்கு 100 மைல் அல்லது 200 மைல் போகின்றான். அவர்கள் இத்தனை மணி நேரத்தான் வேலை செய்வது என்ற ஒரு நிர்ணயமில்லாமல் கஷ்டப்படும் நிலைமையை ஊன்றி நோக்கினால், உடனடியாக அவர்களுக்கு வேலை நேரம் நிர்ணயம் செய்யப்பட வேண்டிய முடிவுக்கு எல்லோரும் வரவேண்டியதாகவிருக்கும். ஒரு மோட்டார் டிரைவர் 200 மைல் 300 மைல் வண்டியை ஒட்டினால், அவனுடைய உடல் நிலைகுன்றி விடுவதால் அவன் அதிகநாள் ஜீவித்திருக்கமுடியுமாவென்று பாருங்கள். ஆகவே அவனுடைய நிலைமையை நீங்கள் முக்கியமாகக் கவனிக்கவேண்டும்."

"இன்று பஸ்களில் பிரயாணம் செய்கிறவர்களுக்கு அதிலுள்ள கஷ்டங்கள் நன்றாய் தெரியும். ஜனங்களை ஒருவர்மேல் ஒருவரை புனி மூட்டைகள் போல அடுக்கிக்கொண்டு போகப்படும் நிலைமையைப் பார்க்கிறோம். பஸ்களில் இத்தனை பேர்கள் தான் ஏற்றவேண்டுமென்ற சட்டம் இருந்த போதிலும், பல சமயங்களிலே அதை மீறி, மோசமான நிலைமையிலே பஸ்கள் ஒட்டப்படுவதை நாம் பார்க்கிறோம். இங்கே மந்திரிகள் இருக்கின்றனர். அவர்களும் இந்தக் கஷ்டங்களை அனுபவித்தவர்கள்தான். ஆகவே, பஸ் தொழிலாளர்களுடைய கஷ்டங்களை உணர்ந்து அவைகளை உடனடியாகப் போக்கவேண்டுமென்பதற்காகத் தான் நான் அவைகளைப் பற்றி இங்கே பேசுகிறேன்."

"இரண்டாவதாக, பஸ் முதலிய போக்குவரத்து சாதனங்கள் அனைத்தையும் இந்த அரசாங்கமே எடுத்துக்கொண்டு நடத்தவேண்டுமென்பது என்னுடைய அபிப்பிராயம். இன்று தனிப்பட்டவர்கள் அவைகளை நடத்தி வருவதால், ஜனங்களுடைய நன்மையைக் கவனிக்காமல், அதிக

[Sri M. Kaniyappan] [16th August 1946]

மான லாபத்தை அடைவதையே நோக்கமாகக் கொண்டிருக்கின்றனர். இந்த நிலைமையை உடனடியாக நீக்கிவிட்டு, இப்போதைய மக்களுடைய அரசாங்கம் போக்குவரத்து சாதனங்களைத் தாங்களே யெடுத்துக்கொண்டு நடத்தினால், அதிலிருந்து கிடைக்கும் வருமானத்தைக் கொண்டு பெருந்த ஜனங்களுக்கு வேண்டிய நன்மைகளைச் செய்யலாம். மற்றும், பஸ்களிலே இவ்வளவு பேர்களைத்தான் ஏற்றவேண்டுமென்று அப்போது கட்டியிட்டால், தொழிலாளர்களும் அதன்படி நஷ்டபாக்கள் அல்லாத மில்லாமல், இன்று முதலாளிகளே போக்குவரத்து சாதனங்களை நடத்துவதால், மக்கள் அதிகம் கஷ்டப்படுகிறார்கள். இது விஷயத்தை அரசாங்கத்தார் உடனடியாகக் கவனிக்கவேண்டும்."

"அடுத்தபடியாக, பஸ்களிலே முன் சீட்டிலே பேர்லீஸ் சப் இன்ஸ் பெக்டர்களுக்கோ, அல்லது வேறு அதிகாரிகளுக்கோ இடம் கொடுக்கப் படுவதாக தோழர் சுப்பிரமணியம் அவர்கள் இப்போது சொன்னார்கள். அது வாஸ்தவம். இல்லையென்று யாரும் மறுக்கமுடியாது. சாதாரணமாக ஜனங்கள் வண்டியில் ஏறியவுடன் சப் இன்ஸ்பெக்டர் வீட்டுக்கு டிரைவர் பஸ்ஸை ஒட்டிக்கொண்டு போகிறான்."

* **MR. SPEAKER** :—"அந்த விஷயத்தையே திருப்பித்திருப்பிச் சொல்லக்கூடாது."

* **SRI M. KANNIYAPPAN** :—"ஏன் இதை நான் சொல்லுகிறேனென்றால், இந்த நிலைமையை நாம் இன்று எங்கும் பார்த்து வருகிறோம்."

"உண்மையாக தொழிலாளர்களுக்கு நன்மை செய்யக்கூடிய முறையிலே போக்குவரத்துச் சாதனங்களைத் திருத்தியமைக்க வேண்டுமென்று நான் அரசாங்கத்தைக் கேட்டுக்கொள்ளுகிறேன். அந்தத் தொழிலாளர்களுடைய வேலை நேரத்தை நிர்ணயம் செய்யவேண்டும். அத்துடன் போக்குவரத்துச் சாதனங்களை அரசாங்கமே நடத்துவதென்ற உன்னத லக்ஷியத்தையும் கைக்கொள்ளவேண்டுமென்று சொல்லிக்கொண்டு, என்னுடைய வார்த்தையை முடித்துக்கொள்ளுகிறேன்."

* **SRI A. VAIDYANATHA AYYAR** :—"Mr. Speaker, Sir, in opposing the cut motion, I have got to add one or two observations. First is, I not only appeal but I urge that the motor transport should, as a matter of fact, be taken over by the Government. As I said, the one subject which will ever and ever be dropped upon this House is prohibition and this will form a very important accessory and help with a view to introducing total prohibition. Secondly, in so taking over, I heartily agree with the hon. Member, Mr. Varadachari, that it is the Provincial Government that must take it up and that this should not be allowed to be handed over to local bodies. Of recent years, as on all other departments in this country, the war has had its repercussions mainly on transport. Owing to the exigencies of the war and the difficulty of obtaining petrol it was found necessary, as far as possible, to reduce the overhead cost, by having companies owning more than twenty buses each while all the other small individual owners were asked to go. Now, Sir, that necessity has ceased. On the other hand, we find from Tuticorin to Nellore the motor transport is centred round three companies and they are like whales which have swallowed all the other smaller fish. This sort of thing should not be allowed and you must take them over and run them under Government management. Then, you also find that so far as motor transport is concerned, at present, it is the one machinery which is doing and aiding the greatest evil. In several cases,

[Sri A. Vaidyanatha Ayyar] [16th August 1946]

I know, where there has been black-marketing of yarn in Coimbatore and Madura, these motor lorries were helping yarn to be taken out of the mills direct. As a matter of fact, these mills themselves are causing a considerable amount of trouble about distribution. Recently some black-marketing where lorries were used had been discovered but we do not know what the Ministers are going to do in regard to them and what is to become of these motor transport services which serve as an effective instrument in aiding black-marketing? In my own district, Madura, much trouble has been caused by lorries which were used to transport yarn for black-marketing. When this was taken to the notice of the District Supply Officer, he said it was too late and the lorries went beyond the border of the district thus defying control and he could not do anything in the matter. In these circumstances, it is much better that the lorry transport are brought under the management of the Government itself. There were also cases of motor lorries having been used for transporting palm-jaggery from Tinnevely to be sold in black-market and the result was, the prices of palm-jaggery at once rose from Rs. 2 to Rs. 10 in the course of ten days and that is the situation, so far as this is concerned.

“Then again, Sir, in spite of all our pious wish to the contrary, there is a tendency to see that as a matter of fact, monopoly is formed. When the matter is brought to the notice of the Government, they say, ‘we are against monopoly.’ Take the instance of Kodai Union Motor Service. The said motor transport company alone can go near them because it is again a monopoly, by whatever name they may be called. You will find that the rates quoted by them are actually much higher than the rates permitted by the rules. Nobody is able to enquire into the matter; people are suffering and there is no alternative.

“Another matter in this connexion is, on account of want of a sufficient number of buses you find black-marketing has started in motor tickets also. People take a number of tickets at each mufassal station, as in the case of railways. Now, Sir, people are supposed to have purchased the tickets but they have to pay one or two rupees extra in order to get accommodation in the buses. The best way to remedy this evil is to see that more buses are immediately put on the road.

“Sir, there is one other danger which the Government should guard against in taking over the transport services. The transport companies are demanding a much higher price for their vehicles. There was also an article about this recently in the papers. Government tried to take over some vehicles from some company, but found that the purchase price put up by the company for buses which had been running for several years was nearly three times the original cost price. If therefore Government propose to take over these vehicles, there should be no question of applying the present black-marketing condition in regard to prices, but in so taking them over, you will have to fix

[16th August 1946] [Sri A. Vaidyanatha Ayyar]

the price after taking into consideration the depreciation value also. That is how it will at all be possible to do justice to the Government itself.

“There is one other matter, Sir and I have done. You will find that out of the many difficult pieces of ordinances under which rules have been issued, there are certain complicated rules put in there and the people who administer them seem to think that they should merely deal with the rules without due care and not look to the conveniences or facilities for the people at large. There is a rule that in cases where Government want to put buses to be run elsewhere in the interests of the public, orders should be given for the purpose, but if these orders are disobeyed by the transport companies, Government may stop the service. While so in the case of a company without any such direction, the authorities immediately pass orders stopping the service. What happens is, the motor owners are really dependent upon the police for the supervision of the permits and licences and also on the other authorities concerned. There is therefore a likelihood of difficulties since they have to submit to the authorities without being able to get justice. I hope that Government will take note of all these things and see that this department is administered in the interests of the country at large.”

* SRIMATHI V. LAKSHMI AMMAL :—“அக்கிராசனாதிபதி அவர்களே, மோட்டார் சாதனங்கள் விஷயமாக இரண்டொரு வார்த்தை நான் சொல்லிவிட்டு நிறுத்திக்கொள்ளுகிறேன். எல்லா ஊர்களிலும் பஸ்களைப் பற்றித் தான் இப்பொழுது பேசப்பட்டது. பஸ்களில் ஏராளமாக overload போடுகிறார்களென்றும் பஸ்களை நல்ல நிலைமையில் நடத்துவதில்லை யென்றும் கவர்ன்மெண்டார் பஸ்களை எடுத்துக்கொள்ள வேண்டும் அல்லது ஸ்தலஸ்தாபனங்கள் எடுத்துக்கொள்ளவேண்டுமென்று சொல்லப்பட்டது. அதை நானும் ஆதரிக்கின்றேன். ஆனால் ஸ்தலஸ்தாபனங்கள் எடுத்துக்கொண்டு நடத்துவதை விட இப்பொழுது திருவாங்கூரில் கவர்ன்மெண்டாரே எடுத்து நடத்துகிறார்கள். அது மாதிரி கவர்ன்மெண்டாரே அதை ஒரு தனி டிபார்ட்மெண்டாக வைத்து நடத்தினால் ஒரே மாதிரியான நிலைமையில் அதில் வேலை செய்யக்கூடியவர்களுக்குச் சம்பளம் கொடுக்கவும் எல்லா ஊர்களிலும் ஒரே மாதிரியாக overload போடாமல் பாஸஞ்சர்களை எற்றிக்கொள்ளுவதற்கும் சாதகமாக இருக்கும்.

“இதைத் தவிர பிளெஷர்கார் வைத்திருப்பவர்கள்பால் அநேக தவறுகள் இருக்கின்றன. ஒருவர் இரண்டு, மூன்று, அல்லது ஒரு பிளெஷர்காருக்கு லைசென்ஸ் வாங்கி விட்டு லைசென்சில்லாமல் 7, 8, 10 கார்களைச் சேர்ந்தார்ப் போல் வைத்திருக்கிறார்கள். இப்பொழுது என்னுடைய ஜில்லாவை எடுத்துக்கொண்டால் நூற்றுக் கணக்கான பிளெஷர்கார்கள் லைசென்சில்லாமல் ஓடிக்கொண்டிருக்கின்றன, அது போலீஸ் அதிகாரிகளுக்கு நன்றாகத் தெரியும். அவசர நேரப்படம் ஏற்பட்டால் அதே காரில் போலீஸ் அதிகாரிகளும் ஓடுகிறார்கள். இவை மந்திரியவர்களுடைய கவனத்திற்கு நான் கொண்டு வருகிறேன்.

“இரண்டாவதாக இந்த பஸ்களிலெல்லாம் ஓடிப்போய் ஏறவேண்டியதாயிருக்கிறது. ஸ்திரீக்களால் அம்மாதிரி புருஷர்களுடன் சண்டை போட்டுக்கொண்டு ஏறி உட்கார் முடியவில்லை. நம்முடைய ஊரிலே chivalry என்பது கொஞ்சங்கூட அனுஷ்டிப்பதாகத் தெரியவில்லை. ஆனதால் கண்டக்டர்கள் ஸ்திரீகள் இருந்தால் அவர்களுக்கு முதலில்

[Srimathi V. Lakshmi Ammal] [16th August 1946]

இடம் கொடுத்து ஏறவிட்டு பிறகு புருஷர்களை ஏற விடவேண்டுமென்று ஒரு திட்டம் வேண்டுமென்பதாகக் கேட்டுக்கொண்டு நிறுத்திக் கொள்ளுகிறேன்.”

* SRI P. KANDASWAMI PILLAI:—“ Mr. Speaker, Sir, I am glad that I am the last speaker on this subject . . .”

* MR. SPEAKER:—“ You are not the last speaker; there are also others who want to speak on this demand.”

* SRI P. KANDASWAMI PILLAI:—“ Sir, the hon. the Speaker can of course allow any number of speakers and allow any amount of time. I was thinking that I was the last speaker in view of the opinions already expressed by several members on this demand.

“Coming to the question of motor transport, Sir, I wish to say what all members have said about overloading of buses, is true; cent per cent it is correct. Motor owners do not deserve any sympathy. When a police officer wants to travel in a bus or his servant, the police officer can command much more control over the buses and lorries than the owners themselves. If the servant of a police officer comes and tells the driver of a bus that it is wanted by a particular sub-inspector in a particular street, he will first go there and ask all the passengers to keep quiet and wait for hours together. Once in my own district, Salem, I had to complain about this to the Superintendent of Police and there the passengers were asked to wait for more than an hour and when the Superintendent of Police was asked why they were made to wait for such a long time, he excused himself by saying ‘I am very sorry’. ‘Please take your bus’ he said to the driver. The bus man thanked me very much, saying that they wanted to put a heavy box on the top of the bus, which would have crushed the top and that on account of me his bus was saved. Not that the trouble arises only on account of the police. There is too much congestion of traffic and the bus people are not slow to take advantage of it. If the bus rate is one rupee, they will demand two rupees as soon as the bus has passed the municipal limit. There is no use merely saying that these things are there. Some remedies should be found. So far as I am concerned, I would suggest that powers should be given to important public workers at district and taluk centres to take cognizance of bus offences. At present passengers have to prefer their complaint to the Regional Inspector and he seldom takes note of the complaints. Bus owners are generally rich people and in case any complaint is made, they are able to employ lawyers to argue their case and manage to get away scot free. So I suggest that in district and taluk centres, powers should be vested in public men for dealing with bus complaints and in the villages the members of food committees may be entrusted with such powers. It is no use the Superintendent of Police or his subordinates or the Collector and his subordinates dealing with bus complaints. Cases enquired into by them will always end in nothing. Whenever any complaint is received from a member of

[16th August 1946] [Sri P. Kandaswami Pillai]

the public with or without evidence, they must straightway enquire and try to find out themselves whether there is any foundation for the complaint. You are aware that in the Excise Department if a complaint is made, they do not wait to ask for evidence in support of the complaint. They employ their own special staff to find out whether a forbidden article is sold or not. In a like manner all bus complaints should be enquired into and on the basis of the investigation the magistrate must take immediate action, so that the trouble might be immediately put down.

“I have to utter a word of caution regarding the suggestion made by some hon. Members that buses should be taken over by the Government and run, so that it might yield some profit. My fear is that whenever an institution is taken over by the Government, that is the time that the employees think of striking and they do strike. You know, Sir, what the Railway men did. Though well paid and well looked after, as soon as the Government took over the Railways, they said that they had been under-paid and wanted better conditions on pain of strike. Similarly also, the bus men are likely to strike and paralyse passenger traffic and our people will be at their mercy. I would, therefore, ask the Government to think a hundred times before they decide upon taking over bus transport or for that matter any institution conducted by private individuals. Instead, for the better comforts of the passengers and for their safety as also for regulating the pay of the staff, rules and regulations might be made. One line in which Government might intervene is with regard to auctioning of timings. If this is done with reference to the trips performed by a bus from morning to evening, I assure you, Sir, you will be able to clear as large sums of money as you are getting by way of commercial taxes. I suggest that Government take up this question immediately.

“There is another thing I have to say with reference to the emoluments of the drivers, conductors and other employees of bus companies. They are working all the twenty-four hours and they are giving their life to their work. I would suggest a scheme of insurance for them and the system of provident fund should be instituted and by that means they must be made to take more interest in their work. Otherwise, it is likely they lose interest in their work and do their work in a haphazard manner. I would request the Government to make necessary arrangements to provide safeguards for the workers in the bus services of the Province.”

* SRI KALLURI SUBBA RAO:—“ Mr. Speaker, in supporting the Demand, I wish to say a few words about the grievances of the motor transport trade. The motor transport administration is run by the Regional Traffic Board which is a new organization and you do not know the difficulty that is experienced by motor owners. I wish to bring to your notice and through you to the notice of the Hon. Minister in charge of the subject that the whole of the Andhra area is divided into two regions and you can just

[Sri Kalluri Subba Rao] [16th August 1946]

imagine the difficulty in going to Rajahmundry or Cuddapah as the case may be even for getting a permit. Though the Regional Transport Authority is functioning for all the districts, it so happens that only such of the members as belong to the particular districts attend when it is held at a particular district headquarters and they have to decide questions for all the districts of the region. The other difficulty is that in case the consideration of the subjects is postponed from one meeting to the other, though it is the same authority, a different set of members attend and the result is that the voice of the Regional Transport Officer is the deciding factor. members have already requested that the Board must be reconstituted, one for each district and that on the recommendation of the Board, the Inspector or Regional Transport Officer must act.

“Another grievance of the fleet owners is that they are the heaviest taxed in the whole of the country. For a 21-seater bus, the fleet owner of Madras pays Rs. 1,400 against Bombay Rs. 392, Bengal Rs. 114, Bihar Rs. 380, Orissa Rs. 358, Central Provinces and Berar Rs. 352, the Punjab Urban Rs. 165, Rural Rs. 56, Assam Rs. 150, North-West Frontier Province Rs. 44 and Sind Rs. 114. Having regard to the high rates of taxation that our motor owners are subject to, I would plead that the minimum rate per ticket might be fixed at 4 annas. This will be to the benefit of long distance travellers. Supposing a bus starts in the morning, any and everybody who is prepared to pay the rate for the first station can board the bus and to that extent a person wishing to travel to the terminus of the bus is denied room for want of space, which is occupied by a person travelling a short distance. Then, Sir, if you want to have an honest and efficient administration, the mileage rate should be put up to at least 9 pies, though there is a strong case for raising it to 1 anna. The present position is that twenty buses form one fleet. I suggest that it would be better if five could make one fleet so that it would be compact and could run efficiently as long as it is on the road. I for one am not against nationalization of bus transport, if it is profitable to the State, but I feel it is not advantageous. After having investigated into the question, the Government may take over the same. I am surprised, Sir, that even now prosecutions are being launched under the Defence of India Rules. There is nothing to be defended, now that the war has ended; and I plead that any action if it is warranted must be taken under the ordinary law of the land.

“There are a number of suggestions that have been made from time to time on the question of motor transport. I suggest, therefore, that a committee might go into the rules so that they might be reviewed and any objectionable features removed.”

The House adjourned to meet again at 11 a.m. the next day.

THE MADRAS LEGISLATIVE ASSEMBLY.

Saturday, the 17th August 1946.

The House met at the Assembly Chamber at eleven of the clock on Saturday, the 17th August 1946, Mr. Speaker (THE HON. SRI J. SIVASHANMUKHAM PILLAI) in the Chair.

I.—QUESTIONS AND ANSWERS.

STARRED QUESTIONS.

Temples in the Province thrown open to Harijans.

* 90 Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Hindu Religious Endowments be pleased to state—

(a) all the temples in this province which have so far been thrown open to Harijan worshippers; and

(b) whether the Government propose to take any further steps to facilitate the spread of temple entry?

THE HON. SRI K. KOTI REDDI:—“(a) Twelve temples have been thrown open and a list ^a is placed on the table of the House.

“(b) The trustees or other persons in charge of temples are being persuaded to take advantage of section 3 of the Temple Entry Authorization and Indemnity Act (Act XXII of 1939) to throw open temples. The Government are considering whether any and what further steps are necessary to attain the object.”

SRI A. B. SHETTY:—“May I know, Sir, whether to the temples now thrown open, Harijans are freely going?”

THE HON. SRI K. KOTI REDDI:—“I expect so.”

SRI V. I. MUNISWAMI PILLAI:—“May I know whether the Hindu Religious Endowments Board has been doing any propaganda for temple entry?”

THE HON. SRI K. KOTI REDDI:—“Yes, Sir, I have asked the President to do so.”

SRI M. G. NATESA CHETTIYAR:—“May I know, Sir, if there are any other classes of people who are not allowed entry into temples among Hindus?”

THE HON. SRI K. KOTI REDDI:—“I think there are other classes also; I believe in the Tamilnad, Nadars are not allowed; so far as Andhradesa is concerned all except Harijans are allowed.”

[17th August 1946]

SRI PILLALAMARRI VENKATESWARLU :—“ Will Government consider promulgation by legislation to make untouchability criminally punishable? ” (Laughter.)

THE HON. SRI K. KOTI REDDI :—“ It will be considered.”

SRI K. SUBBA RAO :—“ May I know, Sir, whether it is a fact that in the Sangameswaram temple, Kurnool district, an hon. Harijan Member of this House entered the temple without the permission of the temple authorities along with the Hon. Minister in charge of temples? ”

THE HON. SRI K. KOTI REDDI :—“ It is so, Sir.”

H. S. HUSSAIN SAHIB BAHADUR :—“ May I know, Sir, how many more temples there are in this province yet to be thrown open to Harijans? ”

THE HON. SRI K. KOTI REDDI :—“ Notice.”

N. MUHAMMAD ANWAR SAHIB BAHADUR :—“ Will the Hon. Minister explain, if Harijans are considered as children of God, what are Muslims? ” (Laughter.)

THE HON. SRI K. KOTI REDDI :—“ Muslims are also children of God.” (Laughter.)

SRI M. G. NATESA CHETTIYAR :—“ May I know, Sir, whether the Hon. Minister is aware that one community, Vaniya Vysias, are not also allowed into the temples in Tamilnad, Malabar, etc., in South? ”

THE HON. SRI K. KOTI REDDI :—“ I am glad for the information furnished.”

SRI K. VARADACHARI :—“ May I inquire, Sir, whether the Temple Entry Authorization and Indemnity Act is sought to be amended to facilitate more Harijans entering temples? ”

THE HON. SRI K. KOTI REDDI :—“ It is under consideration.”

SRI V. I. MUNISWAMI PILLAI :—“ Will the Hon. Minister direct the Hindu Religious Endowments Board to submit periodical report as to the steps they have taken in the matter.”

THE HON. SRI K. KOTI REDDI :—“ Yes.”

SRI S. NAGAPPA :—“ May I know, Sir, whether there was any representation received from the Sangameswaram temple authorities as regards the entering of Harijans into the temple? ”

THE HON. SRI K. KOTI REDDI :—“ No representation has been received.”

SRI M. G. NATESA CHETTIYAR :—“ Will Government be pleased to set up a committee of enquiry to collect information as to the communities of people who are not allowed entry into public temples? ”

THE HON. SRI K. KOTI REDDI :—“ It is not necessary, Sir.”

[17th August 1946]

SRI A. B. SHETTY :—“ May I know, Sir, how many temples were thrown open to Harijans after the Ministry came into office? ”

THE HON. SRI K. KOTI REDDI :—“ Two temples; and sanction has been given to one more temple in Nellore district.”

SRI K. VARADACHARI :—“ May I know, Sir, whether any representations were received from the Tirupathi Devasthanam in respect of this matter? ”

THE HON. SRI K. KOTI REDDI :—“ No, Sir.”

SRI V. I. MUNISWAMI PILLAI :—“ May I know, Sir, whether any attempts have been made to throw open the temple at Tirupathi? ”

THE HON. SRI K. KOTI REDDI :—“ I am not aware.”

SRI N. VENKATASUBBAYYA :—“ May I know, Sir, whether the Hon. Minister will consider the desirability of appointing Harijans as temple trustees for all temples, if possible? ”

THE HON. SRI K. KOTI REDDI :—“ It will be considered.”

SRI V. I. MUNISWAMI PILLAI :—“ Sir, in reply to clause (b), it is said that the trustees or other persons in charge of temples are being persuaded to take advantage of section 3 of the Act. May I know, Sir, whether any steps have been taken to throw open the temple at Tirupathi by the Hindu Religious Endowments Board or by the temple authorities? ”

THE HON. SRI K. KOTI REDDI :—“ I am not aware of any such steps, except that I myself in an open public meeting appealed to the public to try to see if the temple cannot be thrown open.”

SRI PILLALAMARRI VENKATESWARLU :—“ Are the Government aware that section 144 order had been issued ordering the Harijans of Mundukur village, Repalle taluk, Guntur district, not to enter the main temple street of that village? ”

THE HON. SRI K. KOTI REDDI :—“ I have no information.”

SRI S. NAGAPPA :—“ May I know, Sir, whether Government will consider the desirability of appointing Harijans as commissioners of temples? ”

THE HON. SRI K. KOTI REDDI :—“ It will be considered.”

KUMARARAJA SIR MUTHIAH CHETTIAR OF CHETTINAD :—“ Sir, will the Hon. Minister tell the House whether there is any special difficulty in throwing open the Tirupathi temple to Harijans? ”

THE HON. SRI K. KOTI REDDI :—“ I am not aware of any special difficulty. But for a very long time no other community except caste Hindus were allowed not only into the temple but even into the precincts of the Tirupathi hill, where in a certain area of about twenty-five square miles, no other community except caste Hindus is, by custom and usage, allowed to enter.”

[17th August 1946]

KUMARARAJA SIR MUTHIAH CHETTIAR OF CHETTINAD:—“ Sir, if there is no special difficulty, will Government consider the desirability of opening that temple as early as possible? ”

THE HON. SRI K. KOTI REDDI:—“ Certainly.”

N. MUHAMMAD ANWAR SAHIB BAHADUR:—“ Will the Hon. Minister explain, if Europeans are admitted into the precincts of Tirupathi Devasthanam, why should not Muslims be admitted? ” (Laughter.)

THE HON. SRI K. KOTI REDDI:—“ Even to-day there is no prohibition of Muslims as such. Under certain circumstances Muslims also are allowed on the same basis as Europeans.”

H. S. HUSSAIN SAHIB BAHADUR:—“ Will Government adopt a definite programme for throwing open all the temples to Harijans, i.e., according to a settled plan within a prescribed period? ”

THE HON. SRI K. KOTI REDDI:—“ We have some plan. But what further steps should be taken to attain the object is under the consideration of Government.”

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—“ Will the Hon. Minister be pleased to state whether there is a ban on communists entering temples? ” (Laughter.)

THE HON. SRI K. KOTI REDDI:—“ Not that I know of.”

SRI N. S. VARADACHARI:—“ Is the Hon. Minister aware that even as early as eight years ago, the most orthodox section of the people of Tirupathi declared in favour of throwing open the Tirupathi temple to Harijans? ”

THE HON. SRI K. KOTI REDDI:—“ I am glad for the information.”

SRI N. SANJEEVI REDDI:—“ Will Government consider the desirability of giving freedom to the Gods in these temples and then convert these temples into schools? ” (Laughter.)

THE HON. SRI K. KOTI REDDI:—“ I cannot answer that question.”

M. S. ABDUL MAJEED SAHIB BAHADUR:—“ Will the Hon. Minister be pleased to consider a change of the very foundation of Hindu society, so that the Harijan temple-entry problem may be solved once for ever? ” (Laughter.)

THE HON. SRI K. KOTI REDDI:—“ This question does not arise out of the present question.”

SRI PILLALAMARRI VENKATESWARLU:—“ Is it a fact, Sir, that Harijans are allowed into the Simbachalam temple only on one day in the year and banned on the rest of the days? ”

THE HON. SRI K. KOTI REDDI:—“ Notice.”

SRI K. SUBBA RAO:—“ May I know from the Hon. Minister whether it is a fact that the temples thrown open are intended only for those who believe in idol worship, and not for those who have no belief in God? ” (Laughter.)

THE HON. SRI K. KOTI REDDI:—“ I expect so.”

[17th August 1946]

SRI K. SUBBA RAO:—“ Then, are those who have no faith in God allowed to go into temples to break the idols? ” (Laughter.)

THE HON. SRI K. KOTI REDDI:—“ They are allowed to go in there, but not allowed to break the idols.” (Laughter.)

SRI S. NAGAPPA:—“ May I know whether the Commissioner's post of these temples is vacant and whether a Harijan will be appointed in that place? ”

THE HON. SRI K. KOTI REDDI:—“ Notice.”

SRI K. T. KOSALARAMA NADAR:—“ Will the Hon. Minister consider the desirability of throwing open all the temples in the province by an executive order? ”

THE HON. SRI K. KOTI REDDI:—“ It cannot be done by an executive order.”

SRI PILLALAMARRI VENKATESWARLU:—“ Will Government furnish figures regarding the percentage of population that are going to the temples after this temple entry agitation started? ”

THE HON. SRI K. KOTI REDDI:—“ It is not possible to collect this information.”

SRI S. C. BALAKRISHNAN:—“ May I know whether Government have any information from the Sivaganga Estate authority who is prepared to throw open temples there? ”

THE HON. SRI K. KOTI REDDI:—“ No, I am glad for the latter information.”

SRI N. BAPINEEDU:—“ Is the Hon. Minister aware that in West Godavari a vast number of Harijans are priests? ”

THE HON. SRI K. KOTI REDDI:—“ I am glad for the information.”

SRI P. R. KANDASWAMI GOUNDER:—“ Is it a fact, Sir, that Government have received representation asking for permission to open a temple at Coimbatore, and if so, will they sanction it at an early date? ”

THE HON. SRI K. KOTI REDDI:—“ No permission has been asked for, Sir.”

SRI S. NAGAPPA:—“ May I know, Sir, whether the temple at Nellore has been thrown open? ”

THE HON. SRI K. KOTI REDDI:—“ Sanction has been given, and I do not know whether it has been thrown open.”

SRI S. NAGAPPA:—“ Will Government be pleased to remind the trustees, Sir? ”

THE HON. SRI K. KOTI REDDI:—“ I don't think it is necessary.”

SRI N. M. R. SUBBARAMAN:—“ If the executive officer or the Devasthanam Committee recommends to throw open temples, will Government pass orders to throw them open? ”

[17th August 1946]

THE HON. SRI K. KOTI REDDI:—"Under the present law it is not enough if executive officers ask for permission; they must also say that the people who worship are generally not against it. Provided that condition is fulfilled, Government do not have any objection in the matter."

Bifurcation of the Hindu Religious Endowments Board.

MR. SPEAKER:—"Mr. Salam is not in his place. The answer will be printed in the proceedings."

* 91 Q.—M. A. SALAM SAHIB BAHADUR: Will the Hon. the Minister for Hindu Religious Endowments be pleased to state whether any representations have been made to the Government regarding the advisability of bifurcating the Hindu Religious Endowments Board into one for Andhra and one for Tamilnad?

THE HON. SRI K. KOTI REDDI:—"The answer is in the negative."

Government Islamiah High School, Trichinopoly.

* 92 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Education be pleased to state what scheme the Government have for providing the Government Islamiah High School of Trichinopoly with a suitable building?

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"The site for the construction of buildings and the provision of a playground for the school has been selected and its acquisition is under consideration. Instructions have been issued for the preparation of plans and estimates for the construction of buildings on the site proposed to be acquired."

BEGUM SULTAN MIR AMIRUDDIN:—"Is the Government aware that as early as 1924 estimates were prepared and even allotments made in the budget for providing the school with a building?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"I am not aware."

BEGUM SULTAN MIR AMIRUDDIN:—"In view of the fact that the matter had been delayed for nearly a quarter of a century will the Government expedite the matter and see that this school is provided with a suitable building at a very early date?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"While the Government cannot agree to the first part of the question, Government will do what they can to expedite the matter."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Is the Hon. Minister aware that the present District Educational Officer of that district has recommended against the construction of the building?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"The Principal of the Holy Cross College, which is a college for women, has objected, that because they have a Women's

[17th August 1946]

college nearby this plot, it may not be given to the Muhammadan school. The objection is from the Principal as far as I see."

BEGUM SULTAN MIR AMIRUDDIN:—"Has a site been selected for the school?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"Not yet."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know, Sir, whether this objection has emanated only very recently?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"I understand, Sir, this objection has been there for some time."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know for how long, Sir?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"It had existed even before we came into office."

BEGUM SULTAN MIR AMIRUDDIN:—"Will the Hon. Minister be pleased to visit Trichinopoly and assign a suitable site for the building of this school?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"Yes, Sir, I am going there, and I will look into this site."

II.—VOTING OF DEMANDS FOR GRANTS FOR 1946-47.

DEMAND VI—MOTOR VEHICLES ACTS—cont.

* MR. SPEAKER:—"For the information of the Muslim Members I shall inform the House that we are now on Demand VI—Motor Vehicles."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Mr. Speaker, Sir, this is a very popular demand. I find from the reports of the debate in the press that hon. Members have taken a very keen interest in this demand. Naturally because every one wants transport. We have to-day become used to transport system to such an extent that every one wants transport to a very large extent and to a very satisfactory extent. But things are very different in our province to-day and particularly in this city. Perhaps the war has been responsible for the present conditions. To a certain extent it is true that the war has been responsible because motor vehicles have not been available to the same extent to which they were available in the past. But that excuse does not exist now and should not exist now. If the Government has any imagination, it should plan even from now for making transport means easy. Not only transport facilities are inadequate but the position is really, I would not say disgraceful, ludicrous. I shall deal with the conditions in the city first. Every hon. Member who runs may see how the people of the city, and to what extent they are put to many difficulties for want of adequate number of vehicles plying in the City of Madras. The Tramway Company has been there for a long time, and I think

[Abdul Hameed Khan Sahib Bahadur] [17th August 1946]

it has become so old that the time has come for retiring that service altogether. The cars are old and rickety. They could not be changed because the war intervened. The war is over and at least some of the cars could have been changed. But I know that the proprietors of that concern would not spend more capital on that because they know that their period of licence is coming very nearly to a close. The Corporation wanted to take over that concern and run it. But the amount that they demand is so colossal that the Corporation, even with the aid of Government, will not be in a position to pay the cost."

* MR. H. S. TOWN:—"May I just rise to contradict that statement? No price has been quoted by the Tramway or by the Government and therefore we cannot say that the price is colossal."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"My hon. friend may try to contradict me but from my information I can authoritatively say that the price that has been asked for is colossal—not official information. But I know as a matter of fact that it is colossal. Mr. Speaker, Sir, I believe the time has come to eradicate this system of tram-cars and the way in which they are run in the City of Madras. They are too antediluvian and antiquated. We must have what are called trolley buses as we have in other more advanced countries. Having these tram lines in the middle of the road is objectionable from many points of view, and most objectionable from the traffic point of view. Therefore, the tram lines should be removed and trolley system should be introduced. It should have been done long ago. The way in which passengers are allowed to get into a tram-car is certainly most disgraceful. Perhaps the Tramway Company will say that they are not responsible for it. It is on account of the fact that the number of cars is so limited that a large number of passengers get in, get on and get under and even hang on not only to the sides but also . . ."

* MR. H. S. TOWN:—"Free ride!"

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"No question of free ride is allowed. I know that the Tramway servants are so vigilant, and not only vigilant but they have to answer to others. Those poorly-paid tram-car conductors will not allow a single passenger to go free. They themselves come and hang on not only to the tram-car but also to the passengers hanging on to the tram-cars, so that they can demand the fare from them. They would not allow anybody to go free. Perhaps, there may be some very limited number of passengers, who do not do it intentionally, but on account of the fact that the conductor cannot find his way to them in order to demand the tram fare. This is not due to the dishonesty on the part of the passenger. This is so far as tram-cars are concerned.

"The buses that are run in the city are few in number. The Government which is responsible for all these things and licensing these companies, has been so niggardly in giving licences and in providing sufficient number of buses in the City. The old system has given place to new so far as the proprietorship of these concerns is concerned. Sir, I know there has been a considerable improvement in the traffic system not only in the city but also in the

17th August 1946] [Abdul Hameed Khan Sahib Bahadur]

province. Time was when passengers were finding great difficulty in many ways. Time was when there was such a cut-throat competition between one bus and another that there used to be accidents and dislocation in services. But now, although in certain respects improvements had been effected, on account of the fact that the number of buses is limited other difficulties have arisen. With regard to the ownership of these transport services not only in the City but also in the mufassal hon. Members have suggested various things. Some of them have suggested nationalization. Some have suggested the handing over to the local bodies, and some have suggested the formation of big companies. Sir, so far as I am concerned, I would wait for the day when nationalization can be achieved. Nationalization is the goal, but nationalization only with regard to certain services and not others will not do. Nationalization must come on a large scale. Only then we will succeed. If nationalization should come only with regard to select matters and not all, such action will be ineffective and will not succeed. Therefore, Sir, I would wait for the day when we have a definite policy and we are in a position to nationalize all these things to a very large extent. (A voice: 'For how long?') As early as possible. Hon. Members have suggested the handing over of these services to local bodies. I may, perhaps, say, Sir, that I would not agree to any local body being empowered to run these services. These local bodies will not be in a position to run these services satisfactorily and efficiently. Therefore Government must run an organization of its own. To give the control of motor services to large companies displaces small owners to such an extent that livelihood is denied to a large number of people. This monopoly should go. This monopoly has gone to such an extent that it has put out of job a large number of small owners. I know in certain areas there are twenty buses. In another area, sufficient number is not available, and therefore, it is not possible to combine into a company. So, I would urge the Government to reduce the number of buses required to form into companies to such number as occasion requires, because it sometimes happens that in certain places there are not more than three or four buses. I say this because there is a tendency to increase the number. Two or three concerns are becoming monopolistic so far as transport in the City is concerned. That tendency should be put a stop to. That is making the rich richer. I do not think the Congress would allow this monopolization to continue. I hope the Government will come forward with a policy so far as this is concerned.

"I will just say a word with regard to the department which is granting permits for motor cars for persons who are in need of them in the City of Madras and elsewhere. For some time, after my Hon. Friend the Minister for Transport assumed office, the position has been really bad. There was complete monopolization by the officials so far as permits were concerned. Now I believe that some opportunity should be given to non-officials even. Even non-officials engaged in very highly essential works have been denied ownership of cars. Secondly, there are some among Government servants who own almost new cars purchased only the other day;

11-30
a.m.

[Abdul Hameed Khan Sahib Bahadur] [17th August 1946]

but as soon as a new model comes, they get a desire or a weakness to exchange or sell away that car so that they may have a new one. I do not know how the Controller of Transport in this province is allowing this to take place. If a gentleman owns a car which has defects, he should take it to a firm and get it repaired, instead of himself selling away that car and making money. These are some of the reforms which I hope the Hon. Minister will kindly make and see that non-officials who are in need of cars are given permits."

* MR. H. S. TOWN:—"Mr. Speaker, Sir, I did not intend to speak on this cut motion but the last speech made was so misleading to the members of this House that I rise for a few moments. I speak particularly about the transport in the City of Madras. When the Government of Madras under the Advisers' regime suggested the Improvement Trust I immediately went to them and said: 'If your Improvement Trust is to be a success it must have money. One of the ways in which you can get money is to put all the transport of the City under one control.' I pointed out that prior to the war, trams and buses vied with one another for the very few passengers that there were with the result that neither the tramway company nor the bus companies was running at a profit. Owing to the war, trams had not had the complete overhaul that they were entitled to. I also pointed out that the Improvement Trust could have plenty of money for its use if the transport of the City be run by it or for its benefit properly and without undue competition. I would point out to the Members of the House that fares on the trams are much less than on the buses. I must also point out that the trams have carried a large number of passengers. No system of trolley buses or motor vehicles with so few vehicles could possibly have carried the traffic. There is a police regulation that there shall not be more than ten people standing on the tram. The paucity of buses made the people swarm to the tram and I said that I would willingly enforce the rule regarding standing as this overloading of the trams is damaging the trams themselves, they are not meant to carry the weight they are carrying to-day. I was however requested for the benefit of the public of Madras not to worry about a few more people standing on the trams, and was told that the police would wink at it, and very rightly too. People had to be carried somehow. Gradually overloading became more and more and to-day we know we are carrying a lot of people who do not pay. People have to travel, so we do not complain but if Government like to enforce the rule that not more than ten people shall be carried standing in the tram, I am willing to agree to allow that to be done. (Hear, hear.) But the gentlemen living in Triplicane area will mostly walk home. They cannot get any other means of transport. Now, Sir, I am not here to defend the tramway company. We are working under licence and until that licence expires we shall continue to work. When the time comes for the licence to be renewed we will discuss the terms. To-day we have offered to sell at considerably below the price we are entitled to demand under the

17th August 1946] [Mr. H. S. Town]

licence. Now, Sir, let us get back to motor vehicles and transport of passengers from place to place. If you have dozens of small men particularly in the cities running buses or even trams they will run only mainly on the paying routes. A big body like the London Transport Board which runs buses, trams and underground trains runs thousands of miles of non-paying routes. It does that as a public service. Until you get a co-ordinated scheme and until you get a powerful body running your City transport, you cannot give the public the service they are entitled to. People who want to get across from one part of the country to another find it very difficult without a change of buses. Buses should be run even at a loss on certain routes and the loss made up by paying routes. One thing Government must do, particularly in this City, is to see that the transport system is co-ordinated. If they like to keep the tramway company and the bus company separate, let there be an understanding as to how they run, but I would impress upon the Government that already a large sum of money has been lost to them because they refused my offer in 1941. I told them they would lose money and they have lost it. If they wait they will lose more. If Government will co-ordinate the traffic system in this town and if they buy up at reasonable price, everybody connected with the transport system, we can have a better system than we have to-day. We can have a paying system and lakhs and lakhs of rupees every year for the improvement of this City. I would like to point out to the members of the Madras City Corporation that one-third of 27 miles of their roads are kept up for them free of charge by the tramway company and over large areas of their track most traffic runs between the tram-lines because they get a better surface along the tram-lines."

* M. A. MUHAMMAD IBRAHIM SAHIB BAHADUR:—"Sir, in supporting the cut motion under Demand VI—Motor Vehicles Acts, I want to bring home to this House the desirability of the Government themselves running the motor transport services. The provincial revenues are not elastic. Except the sales tax or commercial tax, all other resources of the Provincial Government are not elastic. We have to find ways to augment our resources to launch upon so many other policies and programmes. Stamp Act, registration, irrigation, provincial excise are not elastic. Even if the Government increase sales tax, they will find that the burden ultimately falls on the poor consumer who has to purchase the necessities of life. Therefore, I say some other new source where elasticity is maintained should be found, and I suggested public utility services. Like electricity, this public utility service of transport is also a very good item for augmenting the resources. Therefore, I suggest to the Government that this source should be explored and that they should come forward within a short time for running the motor transport business throughout the Presidency. From the point of view of the Highways Department also, it is desirable to have this transport business through its co-operation. The Highways Department have 10,000 miles of roads under their control, and they are spending a large amount

[M. A. Muhammad Ibrahim Sahib Bahadur] [17th August 1946]

from the Provincial revenues and the Imperial grants on the maintenance of the roads. They must see that transport also is added to augment their resources. Therefore, this is a fit time for the Government to explore and investigate the possibility of running the transport business throughout the Presidency to augment their financial resources. With these words, I support the cut motion."

* M. S. ABDUL MAJEED SAHIB BAHADUR:—"Mr. Speaker, Sir, the hon. Mr. Town, when referring to the congestion in City trams, said that people had to be carried. I would like to tell him and the other hon. Members of this House that people should be carried as human beings and not as cattle. It is unfortunate that the hon. Mr. Town has not actually travelled in a City tram. If only he has done that, he would realize how bad these trams are. They are rotten and I would even say they are ante-diluvian and antiquated. If he is really interested in providing better travelling facilities to the ratepayers of this City, he must see that these trams are immediately improved.

"While referring to the congestion in traffic in the City I may also be permitted to refer to the congestion in the buses that are plying in the mufassal areas of this province. I really wonder why a rule has been made that only owners of a fleet of twenty buses should be provided with licences. I would like to tell you, Sir, that all these twenty buses are not actually plying. These owners, who have a fleet of twenty buses, are actually running only ten buses, and the rest are lying in their workshop. In the ten buses that ply, the people are being crowded and crushed. I wish that if only the Minister in charge would go into the mufassal areas and see these atrocities, these brutalities, he would realize that this system of issuing licences only to owners of a fleet of twenty buses or more should be immediately removed, because this is giving a sort of monopoly, and the owners of these monopolies are not carrying on their trade in the best interests of the people who actually pay for the maintenance of these bus-owners. Again, Sir, in the mufassal areas, the buses seem to be almost the privilege of Government servants and the police people. The front seats are always reserved for Government officials, particularly policemen, and whenever a passenger wants to get into the front seat, he is simply driven out. These buses are actually taken to the very doors of these officers causing delay and inconvenience to the passengers. Are these the servants of the people or are we the masters of these servants? If really the masters are not allowed to sit on the front seats of these buses, I wonder how the administration of this country is going to be carried on.

"Lastly, Sir, I would like to make a few remarks on the nationalization of transport. Hon. Members who have spoken on this particular demand and also the hon. Members who have spoken on the other demands have referred to the nationalization of transport and also the other industries of this province. I would like to inform you, Sir, that most of us are having several ideas. Several isms seem to rule the ideas and thoughts of many

17th August 1946] [M. S. Abdul Majeed Sahib Bahadur]

of us—communism, socialism, nationalism, syndicalism and all other isms. We are trying to create some sort of cocktail. It is often said that cocktail is an invigorating and refreshing beverage, but I have no experience, Sir (Laughter). I would say that if only, out of this mixture of isms, we can create a synthesis, it will be a happy thing not only for this province, but for the whole of this country. Unfortunately it is not so. If we want that the industries, trade and commerce and the other developments of this country should go ahead, we must give liberty, individual liberty. The other day the Hon. Minister for Excise said that if individual liberty is allowed to be taken to its logical conclusion, it will only result in anarchism. But I say that individual liberty may be given with State supervision. If you are going to suppress individual liberty, you are suppressing everything that is beautiful, good and happy in this world. Therefore, in all departments of human activity, there must be individual liberty. I always feel that individual liberty, individual freedom, is the spring of all progress and the fountainhead of all advancement, and the State must encourage this individual liberty and not try to suppress it as they do in totalitarian States. Again, Sir, only through individual liberty, we can improve, we can develop the industries and commerce of this province. Therefore, Sir, I am entirely against this nationalization of industries, and in trying to bring about nationalization, the Government are trying to suppress individual freedom and thereby all that is beautiful in this world."

* H. S. HUSSAIN SAHIB BAHADUR:—"Mr. Speaker, Sir, monopolistic tendencies in all matters should always be checked and controlled, and the more so in the matter of public utility services like the motor transport service. In this connexion, I would like to say on this occasion that it would be right and proper on the part of the Government not only to restrict monopolistic tendencies in transport services, but also to abolish at once the rule of twenty buses. That rule is working a great hardship. I emphasize this point for two very good reasons. Firstly, we have to see that these transport services are made available in all our rural areas, especially in those parts of the province where there is no railway communication. In my own district of South Kanara there is very little rural communication. The railway comes up to Mangalore and stops there. We experience great difficulties in the interior parts. Therefore I would strongly urge that several village centres must be connected by these motor transport services. So, many routes will have to be found and lists of them maintained for running the rural motor transport services. If we allow more latitude and facilities for individual enterprise and give more liberty to individuals to start motor bus services in the rural area I am sure we can have a net-work of motor services in all the rural parts of this province. Therefore, I strongly urge the abolition of this rule which kills and smothers individual liberty and individual enterprise. Therefore, I say, there is no meaning in perpetuating this rule and concentrating the motor transport industry in the hands of a few monopolists

[H. S. Hussain Sahib Bahadur] [17th August 1946]

who become richer and richer at the cost of large majorities of the people. Individuals who compose society have got a right to urge to be permitted to start buses themselves. Sir, I would also urge the Government on this occasion to consider the advisability of reviving the old district road traffic boards. That is quite necessary if this public utility service is to be extended to the rural areas in the interior parts. The district road traffic board is the proper authority which could go into the question and find out the needs and also the facilities that should be provided and the individuals or companies that should be licensed to run this transport service. Therefore, Sir, I do not know why it is that regional transport authorities have been established in the place of the old district traffic boards. There is no point in that. I do not see what public purpose will be served unless we have the district road traffic boards for promoting the transport industry and knowing the local conditions and to meet the particular demands of particular districts in particular areas. Therefore, Sir, I take this opportunity to urge on the attention of the Government these two very important points. If they mean real business they must issue necessary orders immediately for rectifying these two defects as early as possible."

* SRI A. DEVANAYAKAYYA:—"கனம் தலைவரவர்களே. இப்போதைய Motor Transport Act-ஐ நாம் உடனே திருத்தியாகவேண்டியிருக்கிறது. அதிலும், முக்கியமாக அந்தத் தொழிலாளர்களுக்குள்ள குறைகளை நீக்கும் முறையில் நாம் அதைத் திருத்தியமைக்கவேண்டும். அவர்களுடைய நிலைமை நாளுக்கு நாள் மோசமாகிக்கொண்டேவருகிறது. அவர்கள் எவ்வளவு கஷ்டப்படுகிறார்களென்பதும், அவர்களுடைய கஷ்டங்களைக் கவனிக்காமல் எப்படி முதலாளிகள் அதிகமான வேலையை வாங்குகிறார்களென்பதும் நமக்கு நன்றாய்த் தெரியும். முதலாளிகள் அவர்களுக்கு வேலை நேரத்தைக் குறிப்பிடுவதே வழக்கம் கிடையாது. ஆகவே, அவர்கள் அதிகநேரம் வேலை செய்துவருகின்றனர். இன்று 10 அல்லது 12 மணி நேர வேலைகூட சில இடங்களில் அவர்களிடமிருந்து வாங்கப்படுகிறது. இவ்வளவு வேலை செய்துக்கூட, அவர்கள் வியாதியின் காரணமாக படுத்து விட்டாலும், அல்லது வேலைசெய்யும்போது திடீரென்று அகல்மாத்தாய் ஏற்பட்ட காயம் காரணமாகப் படுத்துவிட்டாலும், அந்தக் காலத்தில் முகலாளிகள் அவர்களைக் கவனிப்பதே கிடையாது. இந்த நிலைமையிலேயுள்ள ஏழைத்தொழிலாளர்களைக் கவனிக்கும்படியான முறையில் சட்டத்தைத் திருத்தியமைத்தாலொழிய, ஏழைகளுக்கு நன்மை ஏற்படமுடியாது. தவிர தொழிலாளர்கள் தங்களுடைய முழுநேரமும் வேலைசெய்யும்போது, அவர்களுடைய லீட்டிலே பிரசவம் ஏற்பட்டால், முதலாளிகள் அவர்களுக்கு வேண்டிய உதவியைக் கொடுக்கும்படியாகச் செய்யவேண்டுமென்று கேட்டுக் கொள்ளுகிறேன்."

* MR. SPEAKER:—"நீங்கள் motor vehicles-ஐப்பற்றித்தான் பேச வேண்டும்."

* SRI A. DEVANAYAKAYYA:—"மோட்டார் தொழிலாளர்கள் வேலையிலிருந்து விலகும்போது அவர்களுக்கு உபகாரச் சம்பளமும் கொடுக்க ஏற்பாடு செய்யவேண்டும். இப்போதுள்ள நிலைமையில் அவர்கள் பல வருஷங்கள் வேலைசெய்துவிட்டு விலகும்போது, அவர்களுடைய பிற்கால வாழ்க்கைக்குவேண்டிய வசதியில்லாமல் கஷ்டப்படுகிறார்கள். இன்னும், அவர்கள் வியாதியின் காரணமாக வேலையிலிருந்து விலகும் காலத்திலும், அவர்களுடைய நிலைமை மிகவும் மோசமாயிருக்கிறது. அவர்களில் அநேகம் பேர்கள் பிச்சையெடுத்து சிரமப்பட்டு, கடைசியில் மரணமடைய வேண்டிய நிலைமையிலே இருக்கின்றனர். ஆகையால், இவர்களுக்கு உதவி செய்யக்கூடிய முறையிலே, வைத்திய வசதி, பிற்கால வாழ்க்கைக்கான சுகம் நிதி இவைகளை ஏற்படுத்தவேண்டும்."

17th August 1946]

[Sri A. Devanayakayya]

"மோட்டார் தொழிலாளர்கள் பல்களிலே overload ஏற்றுவதாகக் குறை கூறப்படுகிறது. ஆனால், அவர்களுடைய சம்பளம் இன்று மிகவும் குறைவாக இருக்கிறது. அதனால் அவர்கள் திருட்டுத்தனமாக பல்களில் overload ஏற்றி அதிக வருவாயை அடையப் பார்க்கிறார்கள். அதோடு, அவர்களுக்கு வேலையிலிருக்கும்போது உணவு சாப்பிடுவதற்காகக் கொடுக்கப்படும் allowance-ம் மிகக் குறைவு. இந்த விஷயங்களையெல்லாம் கவனித்தாலொழிய தொழிலாளர்களுக்கு நன்மை ஏற்படாது. மோட்டார் தொழிலாளர்களுடைய நிலைமை உயர்ந்தால்தான் அந்தத் தொழில் விருத்தியடைய முடியும். ஏழைத் தொழிலாளர்களின் நன்மையை உத்தேசித்து இந்த சட்டத்தை உடனே திருத்தியமைக்கவேண்டுமென்று நான் கேட்டுக் கொள்ளுகிறேன்."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Sir, in the Administration Report for 1944-45 certain figures for motor vehicles are given. I find that though the new buses have increased from 170 in 1944 to 490 in 1945, the total number of buses are considerably less than what they were in 1940-41. That is to say, in 1940-41 the total number of buses were nearly 4,000; in 1944-45 they are only 3,091. This explains the difficulty which people in the City as well as in the mufassal feel in the matter of transport. It is said in another place in this report that from the point of view of the number of buses and the length of metalled roads for bus traffic, the City of Madras is best served. But what do we actually find in the City? We find that the buses in the City are being overcrowded. Particularly in certain routes like Perambur, we find that people have to wait and lose three or four buses before they can get any standing accommodation in one of the buses. In the mufassal the situation is worse. One cannot imagine, how so many people are being packed into so much space as is provided in the buses. The report itself says that the number of buses was not equal to the demand, which increased greatly on account of the curtailment of train services. It is not only due to the curtailment of train services that the demand for motor traffic has increased, but it is also due to the increase in the habit of travelling in these days. Our Congress friends, Sir, might say that under village autonomy and the self-sufficiency scheme which they are going to bring about, people might not be required to travel from village to village. However, I submit, Sir, that people are travelling and will continue to travel and they are not going to be confined to the village, even under the system of village autonomy. Therefore, Government must make all efforts to provide them with sufficient means of transport."

12 noon.

"Though the report says that the City is best served as compared with the other parts of the Province, we feel great difficulties here too in the matter of travel. The tramway service must be improved and also extended to such parts as Perambur. (Mr. H. S. Town: Hear, hear.) My hon. Friend Mr. Town appreciates my remarks, but I do not think he will appreciate me when I say that the present condition of the tramway service is, to say the least, disgraceful. (Laughter.) And I hope that he will co-operate with the authorities in improving the condition of the tramway service and also in giving better service to the people."

[M. Muhammad Ismail Sahib Bahadur] [17th August 1946]

“ Sir, with regard to the present licensing system in vogue for buses, I say that it is not fair to the bus owning people and it is not fair to the public that there should be the stipulation that only operators having a fleet of 20 buses and more should be given the licence. I agree with my other hon. friends who have spoken before me that it creates a monopoly which is not good to the people. It is said that people will get more amenities under such monopolistic condition, but I say that if owners of a less number of buses are given licence, a larger number of owners will come forward, there will be competition amongst them to give more and more amenities to the people and the facilities for the travelling public will increase. I, therefore, reiterate that this rule of ‘ fleet of 20 buses ’ should be scrapped or the number must be considerably reduced. It must at least be reduced to 5.

“ Then Sir, with regard to motor cars, here again the number in 1944-5 is less than what it was in 1940-41. The figure for 1940-41 is given as 13,526 and that for 1944-45, as 10,430. There has not only been no replacement, but there has been a reduction. In this connexion also, I wish to join with my other friends in voicing the complaint that the non-officials have not been properly served. Again among the non-officials who have had the advantage and favour of getting a permit, there are people who are given permits while they are having one or two cars already. In this connexion, Sir, I should like to know how many applications for cars were received from private persons during the last twelve months, how many of them have been complied with and also how many applications there were from officials and how many were given permits. I am sure the answer would not be satisfactory and would confirm the complaint which non-officials are making at present.

“ In this connexion, Sir, I should like to give a bit of advice, if I may, without offence to anybody. If it were an offence to others, it may be an offence to me also. What I want to say is this, that we Madrassesees are taken to be a tame and docile people and that we are satisfied if we are told that the position with reference to motor cars or any other articles is this or that. But what we have to do is, we must fight for our rights. They may say that the quota which is given to this province was based on the figures of basic period and certain basic consumption and so on. It might have been true that we were satisfied with less in the past, but that is no reason why the same thing must continue now. The quota which we get must be equitable from the point of view of the population of this province and from the point of view of the extent of the province. But equity must be assisted by the Government by the fight which they have particularly to put up in this matter; otherwise they will not fight for our rights and we are not going to be able to get our due share of the amenities and to rectify the present conditions and the same unsatisfactory conditions will then continue. With these words, Sir, I support the cut motion.”

17th August 1946]

B. POCKER SAHIB BAHADUR:—“ Mr. Speaker, Sir, at the fag end of the discussion of this demand I should like to emphasise one or two points which were referred to by the hon. the Leader of the Opposition, and some other members of my party. I do not want to enter into the general discussion on the advisability of the nationalization of transport. Personally I would agree with others that it would be advisable for the Government to take over all these buses and run them on proper lines. Well, if that is done, I personally feel, that it is well and good. But if that is not possible or practicable, all I would say is, ‘ please do not interfere with private enterprises ’. It would be unjust for the Government to interfere with the individual liberties and individual enterprises.”

* Mr. SPEAKER:—“ Please raise your voice.”

B. POCKER SAHIB BAHADUR:—“ If anybody says that the safety and happiness and the convenience of the people lie in giving monopolies to a few individuals, I emphatically repudiate that statement. As a matter of fact, it is the monopoly that was given in the past that has created a lot of havoc in this country and ruined the national life. But I do agree with other hon. Members that the Government should purchase all the tram-cars and run them themselves. In the absence of that, individual enterprise should be encouraged, and individual liberties should not be curtailed. It is in this connexion, Sir, that I want to emphasise what many hon. Friends on this side have stated that, the rule laying down that there must be at least 20 buses owned by a man to entitle him to get a licence, is quite unjust and it ought to be scrapped as soon as possible.

“ Another point I want to mention is the overcrowding in tramcars. Restrictions have been placed on the number of passengers that should travel in buses, but no such restrictions are imposed in the case of tramcars. I do not think there is anybody in this House who has not seen the miserable plight in which people are huddled together in tram-cars in the City in the mornings and evenings. It is only good luck if people do not meet with accidents by hundreds. It is a most inhuman sight and it is high time that it is put an end to. Then the question arises, how are the people to travel while there are not sufficient conveyances. I ask, is it not the duty of the Government to provide sufficient facilities for the travelling public. Is it not their duty to fulfil this need? It is up to Mr. Town to see that tram-cars are increased and the people in the City are provided with better facilities for travelling.

“ Now, Sir, while on this subject I should like to make one remark to Mr. Town on the question of the large number of passengers. If Mr. Town thinks that this large number resorting to trams is due to the inducement offered by him in the shape of comfort and ease in travel at present he is entirely mistaken. People are prepared to pay not only the present rates but even higher rates if proper facilities would be given to them on these trams. As a matter of fact I admit that so many people travel

12-15
p.m.

[B. Pocker Sahib Bahadur]

[17th August 1946]

in the trams without paying the fare but that is because the company, out of stinginess, does not employ sufficient number of conductors. If Mr. Town will employ more conductors and thereby also give employment for some more people, no passenger will get a free ride. The present policy of the company is bad, it is inhuman and it is brutal. They should run more cars and cars in good condition."

* SRI K. VARADACHARI:—"Sir, may I raise a point of order? Is it proper for the hon. Member who is speaking to go on speaking with both his hands in his pockets?" (Laughter.)

* MR. SPEAKER:—"The point of order raised by my hon. Friend from Chittoor is a very interesting one, viz., whether an hon. Member can speak with his hands in his pockets."

* MR. H. S. TOWN:—"He does so because he has not got a belt on."

* MR. SPEAKER:—"In this connexion I shall read out, for the information of the house a passage from the Hansard. Mr. HOLLIS, on 19th February 1946, when speaking in the House of Commons was having his hands in his pocket. Thereupon Mr. Hughes rose to a point of order. (Mr. Hameed Khan: "Mr. Varadachari was not in the House of Commons.") At that time the Deputy Speaker was occupying the Chair. Mr. Hughes asked whether it was in order for a member to address the House with his hands in his pockets or one of them. The ruling given by the Deputy Speaker (Major Milner) was this: "This is a question of good taste and not a point of order." (Loud laughter.)

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Was this point of order raised according to a pre-arranged plan?"

* MR. SPEAKER:—"Nothing of the kind. Simply the point of order was raised and I gave the ruling."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"You said, Sir, it is a question of good taste. May I ask you whether it is so with reference to the point of order raised or with reference to the action of the member who was speaking?" (Loud laughter.)

* SRI K. VARADACHARI:—"I am willing to have it both ways, Sir."

B. POCKER SAHIB BAHADUR:—"No doubt my mannerism has given some cause for amusement in this House. But I cannot change the mannerism to which I have been accustomed and shall continue to adopt it, whatever way my taste is judged by my hon. Friend, Mr. Varadachari, or the other Members of the House. I take it that Mr. Varadachari's object was more to interrupt my speech than to raise any point of order. Whether we belong to the same profession or not, that was his intention in raising the point of order. (Mr. N. S. Varadachari: "It is Mr. K. Varadachari who raised the point of order.") (Renewed laughter.) I stand corrected. The interruption did not come from Mr. N. S. Varadachari."

[17th August 1946] [B. Pocker Sahib Bahadur]

"Resuming my speech, Sir, seeing the miserable plight of those who have to travel in tram-cars, I wish to emphasise the need for immediate steps being taken to remove the difficulties. Before concluding I wish to repeat that it is not on account of any idea on the part of the passengers to have a free ride on tram-cars that sometimes there are many free passengers, but it is on account of want of proper policy on the part of the tramway company to employ more conductors to collect the fares."

* SRI P. NATESAN:—"Sir, I rise to ask the Government to let the House know what their policy in regard to rail-road co-ordination is. I believe the Madras Government favoured rail-road co-ordination with the bulk of shares in the hands of railways and forwarded their proposals to the Centre. This decision, I believe, was taken on the recommendation of the Madras Post-war Reconstruction Planning Committee. (Kumararaja Sir M. A. Muthiah Chettiyar: 'By a majority.') Yes, by a majority. My hon. Friend, the Kumararaja of Chettinad was a member of the Committee. I understand that in the Central Assembly they have refused to vote for the grant submitted by the Government to implement the rail-road co-ordination scheme. As a result there is a feeling of uncertainty in certain Provinces about the future of the proposed scheme. That is why I am anxious to know from the present Government what its policy is going to be."

"Sir, I consider that, while we should keep nationalization as the goal for transport services, we ought to proceed very cautiously. I advise caution because of our experience of the working of the Madras Telephone Company under Government auspices. Ever since the Government took over this Telephone system, the service has been unsatisfactory. I say this is due to the fact that the concern is now being run by Government. In a business run by Government, the management will not take as much interest as business people do. If I manage a company I have got to be responsible not only to my own shareholders but also to the public who are the consumers. In the case of the Madras Telephone system, it now happens that you have to ring up four times before getting an effective call and pay for all the four calls, though the effective call is only one. Everytime you ring you get a wrong number and therefore you have to pay. But if it is an ineffective call there is no charge. We pay therefore four times for an effective call and 33-1/3 per cent surcharge. I give this as an example to show that Government-managed institutions are inefficient. It is too early for the Government therefore to take over these transport and public utility services."

"In this Presidency we have adopted a fleet of 20-bus system, i.e., a company should have 20 buses to be eligible for licence. Under this scheme you may be able to put more buses on the road, but you will be eliminating the man with a smaller number of buses. I suggest that the small man should also be there. You may ask him to have not less than 5 buses and not as many as 20. This may be done in order to help the poor people who have been in the trade and who cannot afford to run 20 buses at a time."

[Sri P. Natesan] [17th August 1946]

"In the case of the permit system—I believe it is going to be given up shortly—I wish to point out that it has not been working fairly in the interests of the public. The Motor Transport Controller thinks that if a person happens to have more than one car, he is not entitled to a permit. But in the case of Government servants, who somehow or other dispose of their cars at a very high price, this officer thinks they are essential people and should be given a permit for a car straightaway. Sir, I am a businessman in charge of five concerns. I have got a car in the name of each company I am managing, because each concern has its own need for a car. It is no good therefore saying that as I have got four cars in my name I am not entitled to another car. All my cars have done five or six years' service and have begun to give trouble. Therefore I say this official control ought to be relaxed a bit. The officer in charge must take into consideration the importance of the people who apply for permits. I say that the merchant classes are as much entitled to preference as anybody else, if not more.

"I read in this morning's papers that legislation is contemplated by the Minister for Motor Transport for control over the sale and price of cars. I can understand your having control over prices. But where is the need for control over sale? The Government of India themselves I understand are withdrawing the permit system for motor cars. I should like to know why the Government of Madras are contemplating legislation in the matter. To sum up, I must say that the Government ought not to take over the Transport services, because, as usual, the cost of running transports will be very high and because, once you start a new department, you have a knack of keeping it on. The numerous new offices that have come into existence during war are all there even now. When it comes to a question of dispensing with the people employed in these new offices all sorts of complications such as service, etc., arise. Therefore, as Mr. Town suggested, it may be probably convenient if you have in Madras a sort of Board, which will be above party politics, to control motor transport and give directions as to the working. It must be an independent body and not subject to party politics. (Mr. Kala Venkata Rao: 'Independent party'?) I do not think the Independent Group in the House has any axe to grind. Though we are participating in the debates we have raised no questions. All the interpellations are raised by members of the Congress Party."

* MR. SPEAKER:—"Before the Hon. Minister for Transport replies, the Hon. Mr. Daniel Thomas, in whose portfolio the tramways are, might reply."

12-30 p.m. * THE HON. MR. DANIEL THOMAS:—"Mr. Speaker, Sir, we have listened to a very interesting discussion on the question of tramways in the City of Madras. Many of us have had experience of travelling in these trams in Madras. You may remember, Sir, the tramcars came into existence in Madras at a time which was very different from the present times. The conditions of living in Madras, the traffic in Madras and the population of

[17th August 1946] [Hon. Mr. Daniel Thomas]

Madras were all far different in the days when the trams were introduced. However unsatisfactory the trams are at present in Madras, it must be admitted that they have done good service in the past and during the difficult war years they have been greatly helpful in easing the transport situation. No doubt it is true that at the present time the tram-cars are not in an ideal state. We are thankful to the hon. Member, Mr. Town, for the various suggestions made by him with regard to the running of the tram cars. He has very kindly agreed to hand over the tramways to the Government at the end of the period of licence. (Mr. Abdul Hamid Khan: 'Free?') No, for a price. As regards the price he considers it modest as it is far below the existing cost of materials. But of course the point of view of the seller is bound to be far different from the point of view of the purchaser. Any way the question does not arise now. I should like to say on behalf of the Government that at any rate there are certain routes in Madras in which both the trams and buses cannot run simultaneously. For instance the road between Periamet and Chintadripet, all will agree, is not a road on which both the buses and trams can ply side by side.

"My hon. Friend the Leader of the Opposition suggested that the tramways should be extended in certain directions and he mentioned Perambur. The Government will have to consider the question whether the tramways will have to be scrapped in certain parts of Madras City so that transport may be improved and pedestrian traffic in certain parts may not become a dangerous proposition. I agree that conditions ought to be imposed for the provision of better facilities in tramway traffic and that the question will be considered by the Government. Overloading in tram-cars has also been mentioned. That no doubt is an unfortunate fact. It has been due to a large extent to the conditions in which we have been living in the past years. We have to consider ways and means by which restrictions can be imposed on the tramway traffic so as to maintain decent and comfortable conditions of travel for the people of Madras City.

"The Tramway Company has recently put some new types of cars on the line. I saw some of them on the Rayapuram and Mylapore lines. These cars are of a better type than the old ones. Some of the old cars are in such a state that they are not fit for modern conditions of travel. I believe the Tramway Company is making efforts to scrap these cars and replace them by new ones.

"Then, Sir, there was the question of nationalization, that is to say, taking over the tramways and handing them over to the Corporation of Madras or to the City Improvement Trust. That point has been mentioned by Mr. Town. That is a point which the Government will in due course examine. A good transport system is one of the main needs for a comfortable life and for business. I can only say that the Government will devote its best attention to the matter and see that conditions in Madras are improved and made convenient and comfortable for the citizens of this great City."

[17th August 1946]

THE HON. SRI R. RAGHAVA MENON:—"Mr. Speaker, Sir, the Government are thankful to the hon. Members for the various criticisms and suggestions that have been offered in moving their cut motions. There are two or three main heads under which these criticisms fall. One is the defects that are found now in the existing system of motor transport; the second is the extension that is necessary in motor transport to serve the public in an efficient way; and thirdly the nationalization of the services, if it is found advisable. I am totally in favour, pending nationalization, of control being introduced into this motor transport business. I can at once assure hon. Members who, I take it, have been very sympathetic, in spite of all their sufferings, that these defects do exist in the motor transport system to-day, namely, the overcrowding in the buses, the utter indifference of the bus owners, the preference given not only to Police officials but to some other officials also and the charges that are taken for longer distances than necessary; and some sort of indifference which is shown in some cases,—all these more or less exist and the Government are aware of them. And the Government is certainly considering how best to introduce effective control in these matters. Here it is not a question of any mistake in the system but only a mistake in the control. For remedying these defects stricter control is necessary, which the Government intend to introduce as early as possible.

"As regards, for instance, the point of corruption I have got a very interesting case placed before me by my hon. Friend Mr. N. S. Varadachari where there is a lot of photo evidence. The Government are investigating matters. There are so many other cases also of corruption. But corruption is a thing which is so rampant that nobody takes it as a mistake. That is the trouble, because it is so common. (Interruption.) I do not know whether it is modern . . .

"With regard to the extension of the services one of the points that have been emphasized by hon. Members is that the small persons who are having a limited number of buses and who are not the so-called 'fleet owners' having 20 buses must not be given permits. There is a Government Order also. It is true. That says, that before a particular date all small owners must amalgamate and come to the standard of 'fleet owners' that is 20 buses; then they would be granted permits. It is true. But this Government, after we took up office, is considering the question of cancelling or modifying the Government Order and I can assure hon. Members that nobody has suffered as a result of the existence of this Government Order, I mean any small owner. Everybody has been given time. The Government is aware that there is a vicious circle; they are threatened that their licences will be cancelled within a given time if they did not become fleet owners, which they cannot do, because no permits could be given to these small owners to buy more cars. Therefore the Government is considering the question of modifying that Government Order or scrapping it. The policy of the Government is as far as possible to see that private small owners will not be shut out provided they

[17th August 1946] [Hon. Sri R. Raghava Menon]

are efficient and they will abide by the Motor Vehicles Rules. Because of the mere fact that they are small owners they ought not to run vehicles in any line or would not be given permits is a thing which this Government cannot agree to.

"As regards the increase of buses and lorries the Government is actively considering this question. It is the intention of this Government to have a regular map of the various districts and to give permits so that the routes that are not now being operated will have preference and more permits will be given without any clash with the existing routes. These questions are being considered and they will be duly attended to.

"Then with regard to the question of nationalization which many of our hon. Friends wanted, that question is also being actively considered by the Government. We have moved in the matter. I am glad that most of the hon. Members want nationalization of these services. My hon. Friend, Mr. Natesan referred to the policy of the previous Government, namely, that they wanted to have rail motor co-ordination, that the Central Government members did not want it and therefore it was stopped. In consultation with the Central Government, this Government will consider the question of nationalization of motor transport. But it will take some more time. We cannot rush the matter. Perhaps in due course this question will be discussed and conclusions arrived at."

* DR. V. SUBRAMANYAM:—"Can we have it before the next budget?"

THE HON. SRI R. RAGHAVA MENON:—"Let us hope so. Provided the Government have the co-operation of hon. Members, within this long period, something effective can be done.

"Then with regard to control, one hon. Member said: 'Why should this Department have any connection with the Police Department?' That is a point that is already engaging the attention of the Government. It is very difficult to find the relationship. The Government will consider whether they are necessary, and if not, whether other agencies can be employed. What the Government wants is to have effective control of all these systems.

"About the police zoomum we have had various complaints. In this country police zoomum is not the only thing. My hon. Friends appear to be smarting under the excesses that are being carried out not only by the police. . . (Hon. Premier: 'There is a separate demand for it.') There is a separate demand under which we can freely discuss this. As far as this Department is concerned, I can say, that the Government will see its way to stop all these things. I have already admitted that there are certain defects. I can also point out more defects in this than hon. Members have shown. (Laughter.) I am fully aware of them.

"I want to say a few words about the distribution of cars. That is a point on which the Leader of the Opposition and one or two hon. Members spoke. It is true that some big officials sold

[Hon. Sri R. Raghava Menon] [17th August 1946]

their cars for high prices and then applied for permits. But the difficulty is this. The Motor Transport Controller is after all human. There is a word which has become very current among the motor-owners; 'undependable'. Just as the doctor cannot find out 'headache' it is very difficult to find out what is an undependable car. It is a term which is very difficult to analyse. When big persons say 'undependable cars' certainly nobody can deny it. This Government has given strict instructions in the matter and non-officials are getting more cars, not only 51 per cent but more than that. Blackmarketing in those is going out gradually, because we have asked the Motor Transport Controller, though the order has been cancelled, the principle is being applied and even used cars cannot be sold—to take over these cars. All the feeling expressed by hon. Members in regard to this have already been taken into account.

"Government are considering the policy regarding the opening of new companies, namely, whether new permits must be given to the existing companies or to new companies or whether the Government must undertake the business of buses. That question is being considered. I am not committing the Government to anything. We are considering these things.

"Then regarding congestion in the buses as well as in the trams I would say that our Friends seem to like a little bit of push and crowding, because I see there is so much of avoidable crowding. I would say to our people in the City that a little bit of walking would be very nice. (An hon. Member: 'Mr. Speaker, I am not able to hear anything at all'.) There is something wrong with the hall."

* MR. SPEAKER:—"The Hon. Minister may please speak through the mike."

THE HON. SRI R. RAGHAVA MENON:—"What I say is that people who have to move about in the City of Madras must also avoid unnecessary travel, and they must avoid trams and buses for short distances. It has become a fashion not to stir from their houses unless they can go by a tram or a bus. They may say that it is not the Minister's business to advise what they should do. Because they come with criticisms that there is overcrowding in the trams and buses I say that everybody should help to reduce the congestion. I appeal to my young friends that they must not make it a fashion to go in the evening in trams and buses."

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—"On a point of order, Sir, that is a reflection upon youth, I mean his appealing to the young friends."

THE HON. SRI R. RAGHAVA MENON:—"That is a great compliment. They must take regular exercise in the evening and they must avoid getting into trams and buses unnecessarily when they can walk and better their constitution.

"Another point has been raised about legislation for the betterment of the workers in the Motor Transport Services. That does not strictly come under the Motor Vehicles Rules. I suppose my hon. Friend, Mr. Giri, who is in charge of the Labour

[17th August 1946] [Hon. Sri R. Raghava Menon]

Department will bring in his legislation and I am sure that that legislation will include the condition of the workers in this motor transport also.

"Then with regard to the treatment given to the ladies there is some difficulty. I do not know whether the buses must be waiting till ladies come. Then it was said that they must be given preference. The authorities concerned in bus traffic are surely giving preference to the ladies. But they must not cause inconvenience to the public. They cannot wait for ladies to come; but they can conveniently carry ladies who are there at the time. In Madras I find a large number of ladies are waiting for buses in the queue system. That is a thing which requires immediate remedy and the Government is considering that also.

"Some reference was made to the regional traffic boards that are constituted for 4 or 5 districts in place of the district traffic boards that were in existence and that these boards are not serving the needs of the public efficiency. This question is also being considered in introducing effective control over the motor transport in case it is not nationalized. If necessary the Government will take measures to restore the district traffic boards or introduce more non-official elements in the Regional Transport Boards so that they may serve efficiently.

"I suppose, Sir, in view of the answers given by me the cut motion will be withdrawn by the hon. Member and the grant will be made."

The motion moved by Sri P. Venkateswarlu was by leave of the House withdrawn.

Demand VI was put and carried and the grant was made.

DEMAND VII—OTHER TAXES AND DUTIES.

* THE HON. SRI K. R. KARANTH:—"Sir, on the recommendation of His Excellency the Governor I move—

"that the Assembly do assent to a demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as together with the expenditure already incurred in April 1946, will amount to Rs. 59,93,900 in respect of the head "Other Taxes and Duties". The expenditure incurred in April 1946 is believed to be Rs. 2,15,251."

"Sir, the detailed figures regarding this Demand may be seen on page 62 of the Budget Memorandum, but there is one point which I want to bring to the notice of hon. Members; though the amount of about Rs. 60 lakhs looks quite a large one, as much as Rs. 38.12 lakhs out of it relating to the Entertainments Tax is

[Hon. Sri K. R. Karanth] [17th August 1946]

not really expenditure but money to be collected and made over to the local bodies in the Province. The net expenditure is only about Rs. 22 lakhs."

*M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Mr. Speaker, Sir, I move the cut motion standing in my name, namely:—

'To reduce the allotment of Rs. 59,93,900 for Other Taxes and Duties by Rs. 100.'

"Sir, once more I have to refer to the Administration Report for 1944-45. Under Commercial Taxes, I find the following sentence. Speaking about the increase in the revenue under the head of Commercial Taxes the Report says:—

'Exhibition of popular films and larger collections at the races were responsible for the increase of Rs. 11 lakhs and odd under the Madras Entertainment Act and the Betting Tax Act. This can be explained by the growing tendency of the average person especially in the urban areas to indulge in such pleasures.'

"It is funny that the report clubs the exhibition of popular films with betting. It is a different kind of feeling which people get out of betting; it is not really pleasure. The report would have us believe that it is a desirable sort of pleasure that people get out of the habit of betting, but it is really an intoxication, Sir. Now this Government has set about abolishing things which create intoxication and I say, Sir, that racing and betting are things which create intoxication and upset the minds of the people and ruin the lives of many men, especially the poor people. So, Sir, I think that immediate action must be taken to put an end to this evil. In a neighbouring State, I am told that action has already been taken, that is, with reference to the last racing season and I do not know what is the intention of the Government of this Province in this matter, whether they propose to give licences for the races or not. In the interests of the people, particularly the poorer classes, I think the licence should not be given from this year forward for racing.

"There is another very important reason for the proposal which I am making to the Government. During the racing season large number of people temporarily migrate into this Province from outside. During these days of food crisis when the Government is straining every nerve to find adequate supplies of food and has had to cut the ration even for the people living in the Province, it is not fair for the Government to be put to the necessity of finding food for the people who are brought into this Province from outside on account of the intoxication of the evil which I have referred to. Therefore I urge upon the Government to take immediate action in the matter and see that licence is not granted for racing this year."

*SRI P. NATESAN:—"Sir, on a point of information. If what the hon. Member suggests comes to pass, it will mean a large number of Muslims being thrown out of their legitimate jobs."

17th August 1946]

*M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I do not know, Sir, whether I am to be obliged for this information or not. (Laughter.) I have already said that this is an evil. Let him be a Muslim, let him be anybody else who ekes out a living out of such an evil. He must pay for it, he must find other employment. This is ruining the lives of thousands and lakhs of people and therefore I say, Sir, it must be put an end to.

"It may be urged that breeding of good horses is a good thing and developing the habit of horse riding is a good thing and these good things are encouraged by the institution of racing. But these things may be encouraged in other ways. There may be prizes set for breeding good horses and for horse riding. There is no reason why people should be allowed to go mad to go intoxicated over this present form of racing and indulge in betting. (Sri P. Natesan: 'Personal liberty of people'.) Personal liberty, Sir, should be curtailed in the interest of the person himself and also in the interest of Society. A man is not allowed to kill himself. As one of the Hon. Ministers pointed out the Penal Code itself is a restriction on individual liberty and because it is a restriction on individual liberty you cannot plead that the Penal Code should be straightway scrapped. In such matters as this, I submit, Sir, it is good for the individual to have his liberty curtailed and it is also good for the other human beings. Recreation he may have in other ways; there are recreations plenty of them, which will do good to the individual as well as to society. 1 p.m.

"Now, Sir, with regard to the Sales Tax Act itself, I was one of those who spoke for the people who opposed this form of taxation when it was first levied in this Province. I am not going to rake up that question just at present; but I only want to draw the attention of Government to one or two points with reference to the administration of this Act. This Act taxes certain trades and industries only at one stage, for example, the tanning industry is being taxed according to the Act, only at one stage, but the Act is now so administered and so managed by the officials responsible for its administration, that the spirit and the intention of the Legislature and of the Government are given the go-by. They ignore the fact that it was for very good and sound reasons that the Government and the Legislature have provided for the exemption of certain industries from being taxed at more than one stage. In the guise of technical reasons, on account of some technical mistakes committed by the people engaged in these industries, they are being sought to be taxed at all stages. This matter has to be gone into seriously and the people concerned must be given the advantage which is provided for in the Act.

"Secondly, Sir, at the time when the Act was passed I pleaded that the people, particularly the smaller traders, should not be harassed in the course of administration of this Act, and I also pleaded that the rules might be so framed as not to be a source of harassment to the people. But the rules were not framed likewise. Now, what I feared has come to pass. Many small traders are being harassed every day almost, and one of them, is

[M. Muhammad Ismail Sahib Bahadur] [17th August 1946]

particularly the small retail dealer in mutton. Mutton, Sir, is an article of food which is perishable in nature. It shrinks from time to time; what it weighed in the morning, it does not weigh in the evening and what it weighs in the evening it does not weigh the next morning. Another important point in this connection is that the people who are engaged in this retail trade are uneducated, ignorant people; they are small people as well. They cannot afford to engage accountants and clerks to keep accounts for them. But clause 13 of the Act requires every retailer to keep accounts. The Madras Mutton Retail Dealers Union have been agitating for its members being exempted from this clause and also from being exempted from the levy of the Sales Tax; but they have not succeeded so far. So far as the keeping of account is concerned, the Government in another department have exempted them from keeping accounts. There was an order called the Meat Dealers Control Order in existence up to October last year; on the representation of these small retailers, that order was withdrawn, and it was substituted by another order known as the Meat Dealers Control Order No. 2. Under this order, they were not obliged to keep accounts; but yet, the Government in the department of 'Other Taxes including Commercial Taxes' still persist that they must keep accounts of some sort or other. Again, the union made representations to the Government and in February 1946 they were informed that they need not keep complete accounts, but that it would do if they gave in their accounts the number of animals purchased, the amount of the purchase price and the total sale proceeds. This also means keeping accounts. This these poor people cannot do, neither can they employ a clerk to maintain such accounts for them. Moreover, if such incomplete and rough accounts are kept, the officials are not satisfied. They find some fault or some loop-hole in the accounts and proceed against the retailers. The retailers have been put to trouble again and again and some of them have even been fined to the extent of Rs. 50 which is too large an amount to be paid by such small people as these. Therefore, I request the Government not to drive these poor people to spend their time in making appeals to the officials, leaving their trade and their livelihood on that account, but to exempt them from the operation of the sales-tax. But this mutton trade is being taxed at too higher stages also, the wholesaler and the commission agent are being taxed. I do not say anything about it. I only want exemption for these small retailers. If however the Government think it is not possible, I say they may collect the tax in some other form. Now, the Corporation of Madras levies a cess of annas 3 per animal. They may make it annas 4 and may get that additional one anna in lieu of the Sales Tax. By this arrangement, even those retailers who do not come up to the taxable level of Rs. 10,000 may be taxed; but still, it will give them a much-needed relief from the trouble which they are now put to at the hands of the officials. Therefore, Sir, I strongly plead the cause of these poor people and hope that the Government will exempt them from the tax, or if it is not possible for the present to adopt the other form of taxation which I have suggested.

17th August 1946] [M. Muhammad Ismail Sahib Bahadur]

"With these words, Sir, I move the cut motion."

B. POCKER SAHIB BAHADUR:—"Mr. Speaker, Sir, I rise to support the motion moved by my leader. First of all, the question is as to the advisability of granting licences for racing. So far as Muslims are concerned, it is well-known and I need not repeat to the House—that racing or betting which amounts to making profit by chance at the expense of others, is prohibited and it is *haram* and I have no doubt—though I cannot speak with the same confidence—the Hindu theory also is in the same strain. I remember, if I am not mistaken, that the Congress policy also was against it; at any rate, when the Congress was in the Opposition, I remember their vigorous opposition to this racing business. I do not think the Congress has changed its policy since it has come into office. You may also remember under what circumstances the present site for the racing ground was got, how all the difficulties were overcome and what all miseries were caused to people at the time the site was obtained for the purpose. (Sri P. Natesan:—'When was it?') When this was started: it was long ago, you may look into its history; perhaps you were a little boy at the time (Laughter). Now, Sir, I do not think it is advisable for me to dwell on all those circumstances, though I know something about it; and I won't be justified in taking up the time of the House, particularly when I know that the policy of the Congress was always against it in the past, and I am entitled to presume that the policy of this Government will be the same now. Anyhow, as I said, it is *haram* for Muslims and I take it that it will be the same for the Hindus also. This vice, my European friends will believe me, began to thrive along with the vice of drinking which was introduced by our former friends who came here and took the administration of the country and began to rule over us. Whatever might have been their ideas about administration, these ideas they brought in, and we were caught in the trap and many a large number of families, both rich and poor, are being ruined by this. My hon. friend Mr. Natesan interrupted the previous speaker by twitting and saying that Mussalman employees will go out of job. Now, Sir, let me tell the hon. Mr. Natesan that Islam is not a religion which cares for profits; it first of all cares for its principles and for its ideals; and not only will Muslims be ready to forego all the profits or benefits; which they may get, but they will be ready even to give up their lives for the sake of their principles. Therefore, the temptation that some Muslims are having some employment on account of this most admittedly immoral traffic will not induce us to refrain from getting off this vice."

* SRI P. NATESAN:—"Let me tell my hon. Friend that there are more Muslim race-horse owners than others."

B. POCKER SAHIB BAHADUR:—"Whether it is Muslim race-horse owners or Muslim employees, it does not matter. They are still Muslims and I may assure my hon. friend that they are Muslims first and everything else next. Money is nothing to them, employment is nothing to them, where it is a principle of religion. Therefore, on their behalf, on behalf of the Muslim race-horse

[B. Pocker Sahib Bahadur] [17th August 1946]

owners and the Muslim employees, I assure him, they do not want this vice to continue. They are now taking part in it because it is going on along with others. That is human nature. Let us put a stop to it; no Muslim will come and say "Because I am a Muslim, therefore in order to preserve my employment, you must continue this vice."

1-15 p.m. "Now, Sir, I would like to refer only to one other point and that is as regards the administration of the sales-tax. Personally I feel that this tax is a very pernicious one. It was introduced by the predecessors of this very same Government in their anxiety to get more revenue, but even they could have found some other methods to find funds for their schemes. No doubt they have introduced it and it is a fact that it was taken advantage of by their successors for purposes which were not dreamt of by the Government that introduced it. Anyhow it is a matter of past history. We are only concerned with the present and the future. I say Sir this incidence of tax on sales weighs very heavily on very many poor people, the consumers. To say that the tax falls only on merchants and the middle-class people is a myth because it ultimately falls on the consumer and the poorest of them. Even for salt they have to pay sales-tax now. In this connexion, what I wish to point out is this. If I say that it should be abolished, at once you will ask me, 'What is the substitute for it?' I do not know. I do not wish to take up the time of the House by saying things which are not of practical use but I would only request Government to see that the poor people are not taxed and to consider the advisability of raising the minimum amount below which no tax will be leviable. Now I understand that the tax is payable on a turnover of over Rs. 10,000. I would request Government to consider raising this from Rs. 10,000 to Rs. 20,000 and so on, to enable the poor who are already groaning under this tax and who have a great grievance in this respect. This is a matter which I would like the Government to consider very seriously."

"Now, Sir, there is only one more point and that is about the representation of Muslims in this department. As my Leader has pointed out the other day while discussing another cut motion, the Government has stopped issuing the communal statement in regard to the staff of the Government departments. They were issuing such statements communalwar in previous years. That has afforded some information to the Members of this House. No doubt I know Government will say, we do not want to encourage communalism by issuing these statements. Communalism is there and I can tell the House that it has come to stay and will continue to stay until such time as it is abolished. At present Government has therefore to admit that there is communalism and that they should afford facilities to hon. Members of the House and publish the statements to enable them to know the state of affairs. In the absence of any such statement, it is not possible for me to go into facts and figures. I request Government to examine the question of representation of the Muslims in this department and to see that they get their proper quota. I would therefore request Government to consider this aspect of the matter also seriously."

17th August 1946]

* MR. D. G. LEONARD:—"Mr. Speaker, Sir, I rise to support the cut motion with the object of drawing the attention of the House, to what appears to me to be a thoroughly unhealthy aspect of the administration of the Sales Tax Act. The Prime Minister, Sir, made slighting reference in his Budget speech to those who, according to him, make easy money as commission agents. I must remind him that cheap distribution means cheap goods to the people and distribution through commission agents is the cheapest method yet devised. It is no use Government ignoring existing facts for the sake of expensive essays in idealism."

"Now, Sir, it is in regard to the manner in which sales-tax is, or perhaps I should say, will be collected from one particular class of so-called commission agents that I wish to speak. Possibly they might be better described, I refer to those merchants who distribute, on behalf of known principal specified in their accounts, goods which were supplied to them on what are commonly known as consignment terms, i.e., for sale or return. These goods remain the property of the principals until they are delivered to the ultimate consumer or possibly to other merchants. Now, Sir, the essential of a sale is a transfer in the property of the goods. There is no need to tell my hon. Friend on the Treasury Bench that. Therefore, there can be no sale by merchants who distribute and where there is no sale, there can be no sales tax. Yet, Sir, what do we find? We find that the small merchant who does his business on these terms, is either being mulcted in excessive licence fees under section 8 of the Act, or he is being pressed by the local Commercial Tax Officer to pay the tax on turnover in respect of goods which he never owns. It is perfectly true that it is customary, in such circumstances for the merchant to draw a commission for the services he renders to his principals. This Commission is not however by way of being a normal trading profit on outlay of which there is none but it is merely his remuneration for distributing the goods of his principal. In other words, Sir, these merchants render exactly the same service to their principals as would the staff employed by the principals for the purpose. In such a case there would be no liability under the Act and there is no valid reason why the distributing merchant should be liable either. It follows, Sir, that Government are illegally demanding a thing to which they have no vestige of right, and in this case, they are in no position to put forward the plea that the Adviser regime are responsible. This ill-drafted measure was the creation of the previous Congress Ministry. Sir, we have been told by the Minister for Commercial Taxes that collection of tax on the commission agency business was being stayed, while the whole matter was being investigated. Not only that. He went further: He said categorically that the tax would be collected. That is a pretty state of affairs. Government have been aware; I think they have been aware since the beginning of May—that the collection of the tax on these transactions was illegal and all they could do about it was to stay collection leaving the merchants concerned completely in the air. Worse still, they say that sales-tax will be collected, when they have no right to a penny of it."

[Mr. D. G. Leonard] [17th August 1946]

“ Another point I would like to make in regard to the administration of the sales-tax is about appeals. You may appeal against your assessment; your appeal will be heard but when you will get a decision, Mr. Speaker, I cannot tell you. I know appeals have been pending for months; meanwhile nobody knows where they are. I should be glad, Sir, if it had been sufficient for me to rest content with drawing the attention of the House to the oppressive and illegitimate manner in which Government are administering their own legislation. Unfortunately, it is necessary for me also to draw the attention of hon. Members to the fact that Government are allowing the sales-tax to increase the cost of people's food. If this is one of the methods by which they intend to meet the cost of prohibition, then I cannot command it. It is not a simple matter of one per cent on the prices of goods but the tax is a cumulative tax. It may be from five per cent. We hear a lot about subsidized food imports but it is not much good subsidizing with one hand and taxing with the other. There is the case too of fertilisers which are required for helping the production of more food. The Central Government subsidises imports, and the Provincial Government make revenue on every bag sold to the consumer. This state of affairs is absurd. I believe that members in all parts of the House will be with me when I say that the sales-tax on the staple foods of the people and anything that goes to produce them, must go. If this motion goes to the vote, members opposite may refuse to vote for it, but I believe, Sir, they will do so against their better judgment.”

The House then adjourned to meet again at 2-30 p.m.

(After lunch—2-30 p.m.)

* SRI PILLALAMARRI VENKATESWARLU:—“ Mr. Speaker, Sir, I wish to speak on the cut motion to express my opinion on the general policy of taxation in respect of ‘ Other Taxes and Duties.’ If we go through the Budget under the Revenue Estimates of 1945-46 and that of 1938-39, we find particularly that it is a repetition of the same items under minor heads and sub-minor heads. I would point out to the House how many such things are there. Before the advent of the Congress Ministry, it was the Imperial Government that was running the administration of our Province to its own advantage and taxed the people, the brunt of which fell on the poor people while the rich were allowed to go scot free. I tried to find whether there is any change in the policy of the present Government regarding these taxes. In this connexion, I wish to refer to the estimates for 1938-39 and compare that with the estimates for 1945-46 and you will be surprised to know that there is practically no change at all and that the same old policy is being continued, with only minor changes here and there. Whenever the Government found it necessary to raise revenues, it resorted to fresh taxation—I mean the previous Government, the Adviser Government as well as the Government that was running our Province before the advent of the Congress Ministry. They taxed only the poor people who were worst hit

[17th August 1946] [Sri Pillalamarri Venkateswarlu]

by this taxation policy. In 1937, due to the introduction of prohibition, the sales tax was introduced. I will dilate upon this tax afterwards, but as my hon. Friend, the Leader of the Opposition pointed out the Congress Ministry introduced this sales tax only for the purpose of meeting the revenue that was lost to them due to prohibition. The same policy was pursued in regard to other matters also, for instance, whenever revenues fell short, they resorted to new taxation. Evidently there is no fixed policy in regard to taxation up till now. So, I would urge on the Government that they must evolve a sound taxation policy in order to see that the poor people are not hit but only the rich.

“ As regards the sales tax, Sir, it affects mostly the consumer. Sir, recently the Hon. the Prime Minister stated that he is going to raise the sales tax by half per cent. It has already hit the consumer; now if you are going to raise it, it will hit him still more. Some Members of the House may say that merchants also may find some difficulty due to the increased sales tax and that they may find it difficult to maintain accounts and other things. Again, it is not the merchant that is hit but it is the consumer that is hit. For the merchant, it becomes only another source of income, an addition to the already existing sales tax.

“ If you take the estimates under revenue for 1938-39, you find item (a) Taxes on luxuries including taxes on entertainments, amusements, betting, totalizator and gambling’ and the same items are repeated in the 1946-47 Budget and even in regard to these minor items, the same policy is being continued. What I say is there must be a departure from this policy. If the Government want to run the administration more efficiently and effectively, the present taxation policy must be completely reversed and in its place a new taxation policy must be introduced wherein the main feature should be the policy of taxing the rich by way of death, duties and other similar taxes. Government must also see that they do not stop with this but they should also start new industries and try to enrich the revenue resources of the Government. For instance, in Guntur, there is the Chari and Chari Electric Company and if the Government takes over this company, it will get much income which will go a long way to enhance the revenues. Moreover, as regards sales tax, it should not be levied upon the necessities of life, but should be levied only upon luxuries including jewelleryes and so on.

“ Now, coming to the Entertainment Tax, we find that local bodies are getting a revenue of about Rs. 42 lakhs from this source. In this connexion, Sir, I would like to bring to the attention of the House what is exactly happening in the local boards. Some of the merchants under the guise of entertainments have started gambling dens. The police knows it, but wantonly they shut their eyes and allow these things to go on; they do not care to ban these gambling dens and so they do not even touch them or even say a word against them. On account of these gambling dens, no doubt the municipalities may get a few rupees to add to their revenues but the poor people who are duped into these dens

[Sri Pillalamarri Venkateswarlu] [17th August 1946]

contribute a large portion of the profit derived by the municipalities from this source. You know, Sir, there was Telugu drama *Mundadugu* portraying the life of the Kisans under the zamindaris. It has been published in the form of a book. Though the book is not banned, the performance of it was banned; the book can be read by each individual and there has been no banning of this reading. So, I say, Sir, the municipalities have lost a source of income by banning the performance. I do not know whether it was done during the Adviser regime. Sir, so many representations were made to the Hon. the Prime Minister and to the Minister for Law and Order in regard to the removal of the ban but with no avail. Eminent scholars and writers in Madras including some literary men and editors of newspapers have appealed for the removal of this ban but I am sorry to say that the Government have not moved in this matter so far. The reply we have received on the application is that they want a translation of the whole drama. I do not know whether the banning of the performance of drama took place after they had a translation of it or before. Now, I do not know why they did not have translation before they banned it. Moreover, in the Cabinet, there are eminent Parliamentary Secretaries who are also Telugu scholars, for example, my hon. Friend Mr. Lingaraju, who can help the Minister for Law; if the Minister himself does not know Telugu and tell him what particular portions in it are objectionable. I do not know how when the book itself is not banned, the performance could be banned."

* MR. SPEAKER:—"The Hon. Member should not repeat the same argument."

* SRI PILLALAMARRI VENKATESWARLU:—"I only wish to point out to the Hon. Minister the fact that the municipalities are losing enormous profits in view of the fact that this drama has been banned and I only wish to stress the point that when the book has not been banned, there is no need to ban the performance."

"Sir, these cinema companies are making enormous profits. If the cinema proprietors are taxed, Government may get large income. We find also so many Government officials drawing from Rs. 3,000 to Rs. 5,000 per month and they are paying only meagre taxes. I therefore suggest that Government servants as well as those people earning better salaries of just as Rs. 1,000, Rs. 2,000 can be taxed and for this purpose they should devise some means of taxing these people."

"Regarding race course, Sir, of course it is not a making of the people of the soil but it has however come into existence, and so many middle-class people are being duped and robbed. If you go through the accounts year by year, you will see the revenue under this item is increasing by leaps and bounds. This race-course must be banned; it is a shame to us to allow it. Individuals are making enormous profits out of it whereas the Government get very little out of it."

"Just a word about motor vehicles, Sir."

[17th August 1946]

* MR. SPEAKER:—"We have already passed that demand."

* SRI PILLALAMARRI VENKATESWARLU:—"I am not going to speak on motor vehicles but I wish to speak on the taxing of motor companies. From the discussion on the subject of motor vehicles, I came to understand that hon. Members were demanding that there should be small private individual owners running motor transport. I think it will be to the disadvantage both to the individual as well as to the State since it will help neither. I therefore request Government that instead of allowing these individuals to go on, they should start larger companies so that both the people as well as the Government may be benefited. These individual owners can then join a concern and get their share of the profit. Sir, I have already spoken on the subject of municipalities taking over motor transport and until that is done, I would suggest motor companies being taxed to enable the State to make additional revenue out of them."

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Mr. Speaker, Sir, time and again, the Hon. the Premier has been harping upon his regime as a people's Government. That constant repetition should strike as a mockery of expression for Muslims, but I do concede it is a good man's Government (laughter); we know the Premier is a gentleman but how can we consider him to be a gentleman *par excellence* when he allows under the auspices of his regime gambling of all sorts? He has, of course, introduced Puritan principles into this domain of politics and we, on this side, have given him whole-hearted support in his introduction of prohibition but we would like to tell him that there are many more social evils—with due deference to my hon. Friend Mr. Netesan, who seems to feel that such restrictions on social evils are inroads into his private domain of individual liberty; all the same, I feel that the State must now take up Social Reform and see that it should touch the circumference of life at every point and root out all evils that now menace society."

"Racing is not racy of our soil but it was imported from 2-45 Europe (Mr. H. S. Town: 'No, surely not'), to please the p.m. luxury of the European aristocracy here. And I must confess to a sense of shame that our people have aped the standards of European indolence. We want racing to be condemned through and through. It was Sir George O'Sullivan who said that 'game-money is a prostitution of all games and anybody who wants to have a spectacle of this prostitution' need only visit Guindy and he can see there how overnight comedies are turned into tragedies for thousands upon thousands of middle-class men. It was usually said of the Central Government in our country that its finances are a gamble in exchange and we know only too well that on so many occasions the Hon. the Premier has laid most of our miseries in our Province, at the door of the exchange policy of the Central Government. Let me say, Sir, that ever since the stabilization of the purchasing power parity of the rupee we do not suffer from the vicissitudes of exchange. But instead, here in

[N. Muhammad Anwar Sahib Bahadur] [17th August 1946]

our Province, our provincial revenues have been a gamble in monsoons and I am glad that adequate measures are being taken to see that there shall no more be any risks from monsoons. But yet, what do we see here? There is a gambling in morals and the State wants to take a share in that gamble by levying a tax on what, ironically enough are called entertainments. I do not know for whom such entertainments are intended. Is it, I ask, for the people who have elected this Government? I am very sorry, I have to request them to cry a halt to this crime against society. Otherwise, let them withdraw this expression from their vocabulary and never repeat it *ad nauseum* at any rate to the Muslims.

"We tell you, Sir, that racing has been developed as a gamble to a fine art and the time is coming soon when, I am afraid it is going to be given a new lease of life under licensing. We want this Government if it has got the courage of its morals to stop this menace to society.

"As for the sales tax, Mr. Speaker, lend me your ears." (Laughter.)

* MR. SPEAKER:—"I am hearing."

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—"We have a wonderful paradox with reference to the administration of the sales tax. I am only sorry that my hon. Friend of the European Group (Mr. D. G. Leonard) has anticipated me in levelling this attack against the Government. What is the fun of saying that you are subsidising essential food-stuffs and at the same time subjecting them to the inhibitions of the sales tax operations? Do not take away by the left hand what you are giving by the right hand and still pretend that you are encouraging food-stuffs by subsidising them? I wish the Hon. the Premier realizes the irony of the situation and sees that he does not submit essential food-stuffs to sales tax operations.

"I would like to add that in this country, we have not devised any measures how best to put down prostitution. It is the greatest evil, practised under our very nose, which we have to confess to our shame. I do not find under what demand I can discuss that subject except to take shelter behind 'other taxes' which forms the subject-matter of this demand. The People's Government is providing the people with entertainments of all sorts and evidently they would not allow this prostitution to go on as amounting to an entertainment. If you do not want the people to suffer from the evils of prostitution, please come forward with legislation. Already you have got the example in the City of Madras. Please apply the long arm of the State to see that the fair womanhood of this country is free from that menace of prostitution. I grant that it is quite possible that ever so many inroads will be made upon the revenues of this Province and the Popular Government would feel that they should not rush measures and involve themselves in liabilities. Let them not claim that they have set puritanical standards because they have stopped the evil of drink. They shall not claim to be puritans unless they have wiped out this evil of prostitution. Many good families have gone to

17th August 1946] [N. Muhammad Anwar Sahib Bahadur]

rack and ruin on account of racing and prostitution. If the Hon. the Premier who has earned the praise of our minority in this province wants really to add a feather to his cap—I am sorry he has no cap—or to gain laurels for his regime and to go down into history as the greatest Prime Minister that the province has produced, here is the opportunity."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Mr. Speaker, much of the ground that I wished to traverse has been covered at length by previous speakers and so I do not wish to say much on this demand. I shall say a few words on the question of betting. Many hon. Members have drawn the attention of the Government to the imperative necessity of legislation to put down racing, at any rate, betting and racing in Madras and Madras Province. If I remember aright it was in the days of the last Congress Government that I introduced a Bill seeking to put down racing in Guindy and other places. But the Minister in charge of the subject would not even consent to leave to introduce the Bill being granted. I hope at least now the Government will see the need for putting down this evil with a strong hand. I know that hon. Members of the Treasury Benches have certain difficulties in putting this down. I think the plea that was raised on the last occasion was that if racing in Guindy or Ootacamund was to be put down you will be encroaching upon the special rights of the European community. That is, what I think, was the plea put forward then when leave was not granted to make this motion. I think that that argument does not hold much water now. It might have been that Europeans did contribute to the growth of racing and a certain amount of impetus was afforded by them in this line, but to-day the number of Europeans who indulge in racing or betting is very small. It is Indians who are mostly affected and it is they who suffer very heavily. It is not even the rich that suffer except it be the younger people who inherited their money from their elders and so did not know its value and lost their all either at one stretch or in the course of one season. I will not be sorry for people who do not know the value of money. But the people about whom I am concerned are those of the middle class or the lower middle class. These are the people who visit the races in the three rupee enclosure and lose their all. I think some time ago one of them even committed suicide and I know quite a number of them have been ruined. This betting is not confined to the race course in Guindy only. Betting has become very common and there are betting houses in the City of Madras and elsewhere who receive betting throughout the whole year for all the races going on in all parts of India. I understand they cannot do it publicly as it is against the law but somehow it is being carried on by many as a business and it is going on without proper police control. A large number of gullible, innocent persons who have a few annas saved from their earnings bet and not only do they lose their savings but they lose their all including their clothes and their family is left in the lurch. I expect that this Government will undertake early legislation to put down this evil on

[Abdul Hameed Khan Sahib Bahadur] [17th August 1946]

moral and ethical grounds. They must rescue the unfortunate people from this evil habit; they do it without knowing what they are doing and in that way it is something like the drink evil. The ruin of one person does not serve as an example to the other and the desire for excitement and for making easy money gets the upper hand and families are ruined and the effects on the victim are much more than the effect of drink upon the addict. The Government of the day would, I hope, take early steps not only to do away with racing within the province but any sort of betting on any races.

"The Government are collecting the entertainments tax for the various local bodies. In the beginning they were collecting for the Corporation of Madras; but subsequently they have taken over the entire collection appropriating ten per cent of the entire proceeds to themselves and distributing the balance to the various local bodies. I do not know why the right of the Corporation of Madras must have been taken over; I presume it was because they wanted to make this a provincial concern. I do not know why the Government expect a smaller return next year. I believe it is due to their fear that people who rush with money got in war conditions for entertainments, cinemas, shows, etc., may not be able to do so with the advent of settled conditions. I do not agree to it. The people have fallen into the habit of regaling themselves with entertainments in the evenings and their number is on the increase. I am unable to see why a decreased return should be anticipated. I hope, Sir, Government will see that there is no increase in rate.

3 p.m.

"Then, Sir, as regards sales tax. This is a tax, which, although brought into being for a good purpose, namely, introduction of prohibition in certain districts, has done a good deal of harm to business generally in the province. It was pointed out to the authors of the Bill at the time of its introduction how it will affect business, but it was said then that the tax will go down to the consumer and that the consumer will pay. But the consumer pays, and in fact he pays more than the tax. In some cases, on account of the fact that this tax is levied at various stages of sale and on certain amounts of turnover, the tax ultimately accumulates to a large extent. It has increased manifold; it is beyond the intention of the original authors of the measure.

"Besides, Sir, the administration of this tax has been entrusted to a separate department, and there I find in the gazetted rank not even a single Muslim. Perhaps I may be wrong, and I shall be glad to be corrected. If the Government find that there is not a single Muslim in that cadre, I hope that will be rectified. (Interruption from European Benches). Sir, my hon. Friends are very much surprised, I should say, rather shocked, whenever one of us here comes forward with a suggestion for due representation of our community. Sir, until the day when every one of us feels that we do not make any distinction between man and man, and between community and community, in meting out justice, until that day comes, it will be

[17th August 1946] [Abdul Hameed Khan Sahib Bahadur]

absolutely necessary for every one of us to make our demand and ask for any inequity to be rectified. My friends on the European Benches perhaps do not understand our difficulty although they have been here sufficiently long, or they may be thinking it is all frivolous. I do not think they recognize the conditions obtaining here demand it. I know we feel somewhat ashamed to do it sometimes."

* MR. F. FERRELLY:—"On every Demand you want to deal with it?"

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Not on every Demand, but on every cut motion until that moment comes when everyone is prepared to do justice, and particularly when we come into power, we must develop that mentality which will not recognize the distinction that has been existing in this country on account of various causes. Perhaps this Government may not be responsible for it; the previous Government may be responsible. I ask this Government, so that this Government may rectify this mistake. Perhaps they may say, 'look here, we have given you representation here, we have given you representation there.' Of course the largest representation is in the menials and among peons. It is true we get large representation there. And it is shown to us in a magnified manner.

"The other thing I want to deal is about cloth control. Cloth control was a subject of wide discussion at the time of general discussion of the budget. So I do not wish to take much time on that subject except to say that that department requires thorough reorganization. It is with regard to the way in which the control act is administered that I wish to say a few words. . . ."

* THE HON. SRI K. R. KARANTH:—"I submit, Sir, cloth control does not come under this Demand."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Then, Sir, I shall await another opportunity to deal with it. With these remarks I support the cut motion."

* H. S. HUSSAIN SAHIB BAHADUR:—"Mr. Speaker, Sir, licensed gambling is in no way less harmful than licensed drinking. Therefore Government should not encourage gambling and betting, and that too regulating it by licensing. I would suggest that the Government should bring gambling and betting under the scheme of prohibition. Unless they do that, I do not think, they will be able by means of prohibition alone, to better the condition of the people. Therefore, Sir, I have to suggest on this occasion, that whatever might be the need for imposing fresh taxes, Government will take the earliest opportunity to draw up a scheme combined with the scheme of prohibition for stopping betting and gambling and games of chance.

"Now, Sir, I would like to say one word with regard to the levy of the general sales tax. We all know that the last Ministry intended that this tax should bring in revenue that Government would be losing on account of introduction of prohibition. At the time when that Bill was before this House, we protested and

[H. S. Hussain Sahib Bahadur] [17th August 1946]

said that this tax should follow only in the wake of prohibition; it should not be levied throughout the Province, while prohibition was being introduced by stages. It does not stand to reason that when you are introducing prohibition in a limited area you should levy this tax in the other areas along with the revenue that you are getting from Excise and say that 'We are levying this tax to make up the loss that we have to incur on account of introduction of prohibition.' From that point of view, the levy of sales tax can be regarded only as an iniquitous impost. Even apart from this aspect of the question, there is the other aspect also, namely, 'on whom does the burden fall ultimately, when you tax goods at every stage of their turnover?' It falls heavily on the consumer. So that point has to be considered. Therefore if the Government are not in a position to levy this tax only in places where prohibition has been introduced, I would suggest that they should at least levy it only at one stage, and I would suggest that that stage should be the initial stage and not the subsequent stages. Then, Sir, the tax is really weighing so heavily on the ordinary consumers that it is high time we reconsider the whole situation. During the war no doubt there was inflation and business was going on merrily. There was a large turnover of business and the Advisers' regime not only levied the tax throughout the Province but increased the rate too. And what did they do. They abolished prohibition at the same time, and this aspect of it has made it more iniquitous. But now, after the war, the period of inflation has come to an end and we shall be facing a period of deflation when business will suffer, and consumers also will suffer as their income will go down. Under such circumstances, I would urge this Government to reduce the tax to its original rate and at the same time levy it only at one stage. Otherwise it will press hard on the common people. Therefore I appeal to the present Ministry, on these strong grounds, to take up the reconsideration of the whole question of sales tax and see that it falls as lightly as possible on the common man."

3-15
p.m.

* **SRI A. S. SAHAJANANDA** :—"கனம் சபாநாயகர் அவர்களே, நம் அரசாங்கத்திற்கு செலவினங்கள் அதிகமாக இருக்கிறபடியால் வரி விதிக்க வேண்டியது அவசியம்தான். ஆனால் அந்த வரியானது ஏழைகளை பாதிக்காமலும் அதோடு கூட இன்றியமையாத விஷயங்களிலே வரி விதிக்காமலும் அனாவசியமான வழிகளில் செலவழிக்கும் பணங்களுக்கு வரி விதிக்கலாம். ஸர்க்கார் தன் பொருளாதார விஷயங்களை மற்ற கம்பெனிகளுக்கு விட்டிருப்பதால் அவர்கள் பணம் சம்பாதித்துக்கொண்டு போகிறார்கள். அவற்றை ஸர்க்கார் எடுத்துக்கொண்டால் அதன்மூலமாக பணம் சம்பாதிக்கலாம். இந்த மான்யம் விஷயமாக நான் 78-வது cut motion விற்பனை வரி விஷயமாகவும், 83-வது cut motion மின்சாரம் விஷயமாகவும், 85-வது cut motion சினிமா விஷயமாகவும் கொடுத்திருக்கிறேன். ஆகையால் எல்லாவற்றையும் ஒரே விஷயமாகப் பேச உத்தேசிக்கிறேன். விற்பனை வரி நூற்றுக்கு ஒன்று வீதம் வரி ஏற்கலவே விதித்திருக்கிறார்கள். இந்த வரியை 1½-யாக அதிகரிக்க ஸர்க்கார் எண்ணம் கொண்டிருப்பதாக அறிகிறேன். ஆனால் பஞ்சாப், சிந்து, பம்பாய் முதலிய மற்ற மாகாணங்களிலே முதலில் போடும் ஒரு வரிதான் இருக்கிறதே தவிர மற்றப்படி அவர்களுக்கு இந்த மாதிரி தொடர்ந்து வரி போடுகிற முறை அனுஷ்டிக்கப்படவில்லை. ஆனால் நம்முடைய மாகாணத்திலே

[17th August 1946] [Sri A. S. Sahajanandam]

வரி விதிக்கும் முறை இன்றைக்கு பல மடங்கு பெருகியிருக்கிறது. எத்தனை மடங்கு பெருகியிருந்தாலும் கூட அவ்வளவையும் முதலிலே எந்த இடத்திலிருந்து வாங்குகிறார்களோ அந்த இடத்திலே இந்த வரியை விதித்துவிட்டால் அதை மதிப்பெடுக்க வசதியாயிருக்கும். எந்த ஒரு இடத்தில் கண்டுமுதல் செய்கிறார்களோ அந்த இடத்தில் முதல் வரி விதிக்கிறார்கள். பிறகு வாங்கும்போது அதற்கு விற்பனை வரி விதிக்கிறார்கள். இந்த வரி ஏழைகளிடத்தில் வாங்கப்படுகிறது. சில்லரை வியாபாரிகளுக்கு வரி விதிக்கப்படுகிறது. பல வியாபாரிகளும் கணக்கு கொடுக்க வேண்டியதாயிருக்கிறது. கணக்குத் தவறிவிட்டால் கேஸ் போடுகிறார்கள். இதனால் பல வியாபாரிகளுக்கும் கஷ்டமுண்டாகிறது. வேண்டுமானால் இந்த வரி எல்லாவற்றையும் ஒரே இடத்தில் ஒன்றுக்கு 1½, இரண்டாகப் போட்டாலும்கூட பறவாயில்லை. அப்படிப்போட்டுவிட்டால் சில்லரை வியாபாரிகளுக்குத் தொந்தரவே இல்லை. ஆகையால் அந்த வரியை முதலிலேயே போடும்படியாகக் கேட்டுக்கொள்ளுகிறேன்.

"இரண்டாவது, சர்க்காருக்கு அதிகப் பணம் வேண்டியதாயிருக்கிறது. நம்முடைய மாகாணத்திலே பைக்காரா ஹைட்ரோ-எலக்ட்ரிக் ஸ்கீம் என்று சொல்லக்கூடிய இந்த மின்சார நிலையங்களிலிருந்து உண்டாகும் மின்சாரத்தை வேறு கம்பெனிக்கு சர்க்கார் அரையணுவுக்கு விற்கிறார்கள். அதை அவர்கள் ஒரு யூனிட் 6 அணுவுக்கு விற்கிறார்கள். அதனால் எவ்வளவு பணம் ஜனங்களுக்கு நஷ்டமுண்டாகிறது பாருங்கள். ஆகையால் அதை ஸர்க்கார் எடுத்துக்கொண்டு நடத்துவார்களானால் ஸர்க்காருக்கு அதிகமான பணம் வரும். மின்சார சக்தி உற்பத்தி நிலையம் விற்கின்ற முறையை ஸர்க்காரே எடுத்துக்கொண்டு அதன் மூலமாக வரும் பணங்களை ஸர்க்கார் தங்களுடைய செலவுகளுக்கு வைத்துக்கொள்ளவேண்டும். அதோடு கூட அனாவசியமான வாழ்க்கையாக விலிமா இருக்கிறதே அதைப் பார்க்காமல் போனால் மானம் போவதில்லை. யாருக்கும் சாப்பாடில்லாமல் போய்விடப்போகிறதில்லை. ஆனால் சிலர் விலிமாவானது அது ஒரு கலை, போய்ப் பார்க்கலாமென்று சொல்லுவார்கள். ஆனால் மேல் நாட்டு விலிமாக்களெல்லாம் நிர்வாணமான படங்களாகத்தான் இருக்கின்றன. அநாகரிகமான விலிமாக்களைப் பார்த்துவிட்டு ஜனங்கள் கெட்டுப்போவதை விட அந்த விலிமாக்களையே அடியோடு மூடிவிடலாம். விலிமா இருக்கத் தான்வேண்டுமென்று ஸர்க்கார் சொன்னால் அவ்வளவையும் ஸர்க்கார் எடுத்துக்கொள்ளவேண்டும்.

"இப்போது பிராட்வேயில் 'ஹரிதாஸ்' என்ற விலிமா நடக்கிறது. போய்ப்பார்க்கலாம். நிறைய ஜனங்கள் குவிந்து கொண்டிருக்கிறார்கள். 6 மாதத்துக்குமுன் பார்த்தேன். அப்பொழுது எவ்வளவு ஜனங்கள் கூடியிருந்தார்களோ அவ்வளவு ஜனங்கள் இன்றைக்கும் போகிறார்கள். கள்ளுக்கடைக்கு போகிறதாயிருந்தால் தனியாகப் போவான். விலிமா போகிறதாயிருந்தால் பெண்கள்தான், பிள்ளை உள்ளபட எல்லோரும் சந்தோஷமாகப் போகிறார்கள். அந்தப் பண செலவை தடுப்பதற்கு முயற்சி செய்யவேண்டும். ஆகையால் விலிமாவை அடியோடு எடுத்துவிடவேண்டும். இல்லாவிட்டால் ஸர்க்காரே அதை எடுத்துக்கொண்டு அந்தப் பணத்தைப் பொது ஜனங்களுக்குப் பகிர்ந்து கொடுக்கவேண்டும்.

"குதிரைப் பந்தயத்தில் ஆயிரக்கணக்கான பணங்களைக் கொட்டுகிறார்கள். இந்தமாதிரி அனாவசியமான வழிகளில் போகும் பணத்தைத் திருப்பிக்கொண்டுவருவார்களானால் பூரண மதுவிலக்கல்ல, ஹரி ஜனங்களுக்கு ஒரு கோடியல்ல, 50 கோடி கூட கொடுக்கலாம். ஆகையால் விலிமா, மின்சார சக்தி வியாபாரத்தை ஸர்க்காரே எடுத்துக்கொண்டு இந்த வரிகளைப் போடலாமென்று கேட்டுக்கொள்ளுகிறேன்."

* **M. A. MUHAMMAD IBRAHIM SAHIB BAHADUR** :—"Mr. Speaker, Sir, in supporting the cut motion under Demand VII—Other taxes and duties—I want to point out that the sales tax adversely affects certain struggling traders, and in the circumstances, a reduction of the sales tax is absolutely necessary."

[M. A. Muhammad Ibrahim Sahib Bahadur] [17th August 1946]

Before I point out the effect of commercial taxes or sales tax upon the public, I want to make a general remark upon the basis of commercial taxes. Of course sales tax or commercial tax is an elastic source of revenue by which the Ministry can obtain an enormous income. I wish to utter a note of warning here that by an increase of sales tax they are taxing the poor without any sort of justification, because ultimately the tax falls upon the poor. When you analyse the whole turnover of the sales tax I say that 75 per cent of the sales tax is in relation to necessities, foodstuffs, and only 25 per cent or less than 25 per cent cover luxuries. Therefore, until the Ministry, or the Government, is prepared to bifurcate the turnover of tax into two classes, namely, necessary foodstuffs and luxuries, and levy different rates of tax on luxuries and necessary foodstuffs, I appeal to the Government not to resort to additional taxation on sales of actual foodstuffs and necessary supplies.

"Coming now to sales tax administration, the minimum turnover beyond which the tax is levied is fixed at Rs. 10,000. Sir, the amount was fixed about six years ago when the tax was introduced. Now conditions have changed. Prices have increased by 400 to 500 per cent. Compared to the transactions of Rs. 10,000 in 1939, the utility with regard to the same amount at the present day is one-fourth of such a number. Therefore, one-fourth of that number for which the tax is levied is Rs. 96, which generally hits the poor struggling traders. Of course, I am here in a paradox when I say that the taxes first hit the consumers. I do not say it absolutely; because cases have arisen where petty traders, who have no account whatever and who are having dealings of Rs. 30 per day, are asked to pay Rs. 96 by way of taxes. If they are flourishing traders, they can shift the burden on to the consumer. But when they are struggling, naturally they limit their profits and incur the taxes themselves. Therefore, I say that the cases of persons having transactions over or a little above Rs. 10,000 should be reconsidered.

"There is also another aspect of the administration of the Sales Tax Department. That is, persons having small transactions generally do not keep accounts. In India, especially in Madras, petty shop vendors, vegetable auctioneers, or those having retail shops in mutton and meat market, and also in fish market, do not have accounts. It is impossible for them to have any accounts of their own to note their transactions. Their sales cannot, by any commutation, exceed Rs. 30 per day. The authorities, especially the lower grade staff of the Sales Tax Department, in their enthusiasm to show increased return of income, tax these poor people simply on the ground that they do not keep accounts. I bring this aspect of the case to the notice of this House. These are all cases that should be viewed not only on the question of account but also on the attendant circumstances, that is to say, their method of living, their position and status in life. This aspect should also be considered whenever all these petty shop-keepers are assessed on the simple ground of having no account.

17th August 1946] [M. A. Muhammad Ibrahim Sahib Bahadur]

"Another aspect which I bring to the notice of this Ministry is with regard to assessing the so-called agencies on commission basis. Of course in India, especially in our Province, the agents have been appointed by the firms or small firms for purchases or sales. They do not, as a precaution, enter into a written contract with them. They purchase on commission basis. Their commission is entered in the accounts of the firm from whom they have purchased or to whom they have sold. But the authorities, especially the lower authorities, do not take all those things into account, before assessing, as a valuable or as a sufficient evidence; and they seize the licensed permits. They go on on the simple ground that that evidence is not sufficient, and assess every one of them on turnover basis. Sir, in these circumstances, I only suggest the Ministry should raise the minimum of the assessment rate to about Rs. 15,000; and the turnover from Rs. 15,000 to Rs. 20,000 should be assessed at a flat rate of Rs. 25 per year. If this method is adopted, I do not think they will suffer anything from the financial point of view, because these assessment cases form only a negligible percentage of the total income of sales tax. Therefore, it is high time to reconsider the whole basis of minimum assessment. They may increase it to a certain high level and also decrease the fixed rate from Rs. 96 to Rs. 25.

"I join with our Leader and also with every other speaker in pointing out the necessity of abolishing the horse races. I need not say that it is a bad evil, and that the time has come when the Ministry should come forth with a social measure to abolish the horse race altogether. One argument was raised by a certain gentleman that it infringes on personal liberties. I say, Sir, that when society is conscious of its own obligation towards a section of society, and it is determined to do a certain thing in the interests of society, it can do many things. Therefore, this sort of argument cannot hold water. Will the hon. Member raise this sort of objection in the case of the Defence of India Rules or the Defence of the Realm Ordinance obtaining in England? Therefore, these arguments cannot be advanced. Society is conscious that it is an evil, and it should be put an end to. Government should put an end to it. With these words, I support the cut motion."

*M. S. ABDUL MAJEED SAHIB BAHADUR:—"Mr. 3-3
Speaker, Sir, I do not think that it is necessary for me to elaborate P.m.
on the evils of racing. But I would on an occasion like this bring to the notice of this hon. House an offshoot of racing, namely, bucket shop. The tentacles of this giant reach the very homes of the poor, particularly in the City of Madras. The rich people may go to the race course and indulge in what my European friends in this House might call the 'king of sports'. But the poor people are drawn to this evil through the bucket shop. Government have banned bucket shops. But that ban is honoured more in its breach than in its observance. Even the poorest of the poor, the lowest of the low resort to these bucket shops that are run perhaps under cover of darkness, perhaps with the connivance

[M. S. Abdul Majeed Sahib Bahadur] [17th August 1946]

of the police itself, and thousands and thousands of rupees are being spent. I know of cases of poor people pledging the jewels and sarees of their wives and the garments of their children in order that they may stake at the bucket shop. This is a very dangerous evil, because it is able to catch even the poorest of the poor. Therefore, Sir, I would make an appeal to the Government to see that these bucket shops are closed immediately, that the police officials who are conniving at this crime are booked and removed, so that the poor starving people of this City, the poor starving people of this Province may be saved from this curse of bucket shopping or racing.

“Coming to commercial taxes, I think I can also expatiate on some of the disabilities of the public and the hardships they are undergoing as a result of the operation of the Sales Tax Act. As the hon. the Leader of the Opposition has said, petty shop-keepers and small traders should be exempted from the operation of the commercial tax. To-day, Sir, the commercial tax officials, perhaps with ulterior motives, issue notice to people who, they know, do not come within the taxable limits. This is being done, perhaps with a view to extract money from these poor people. Monies are collected; corruption rages in this department. If commercial tax is not paid within time, even if there is a delay of two or three days, prosecution is launched and the public are harassed. Therefore, Sir, in the interest of trade and commerce, in the interest of people who are involved in this tax, steps must be taken to see that harassment is not meted out to people.

“There is provision for appeals in income-tax. Suppose I am taxed heavily, I can appeal to higher authorities. I can get redress through my appeal. But under this Act, there is no appellate court. Therefore I would urge upon this Government that they should immediately institute, as they have instituted an income-tax tribunal, a commercial tax tribunal, so that we traders may appeal to that tribunal and get redress. To-day, appealing from the decision of one to another is something like appealing from Phillip Sober to Phillip Drunk, because we know, Sir, that our appeals almost fall on deaf ears, that it is almost like preaching silence to the waves of a mad ocean, that we are breaking our heads against rocks. Therefore, Sir, Government must immediately provide relief in the form of a commercial tax tribunal.

“Coming next to the question of electricity, I would like to bring to the notice of Government the hardships which the people are undergoing for lack of electrical energy. People are not given sufficient electrical energy. Families are suffering due to the allotment of a very meagre quota. I would like that the benefit of the Pykara Scheme is also extended to the City. Depending upon mere dynamos for electric current is of no use. They say that the load position is very bad, and under that pretext, electric fans are not allowed to run in houses even at times when members of families are actually ill. Therefore, Sir, I would make an appeal to the Government that they institute an enquiry into this

17th August 1946] [M. S. Abdul Majeed Sahib Bahadur]

matter and see that electricity, which is almost the poor man's energy, is supplied to the people of this Province immediately. With these few words, I support the cut motion.”

* SRI P. NATESAN:—“Sir, after hearing the speeches of the hon. Members on the other side (A voice: ‘On your side.’) or on my side, I feel as if hon. Members of this House are going to be the custodians of public morals. Sir, from time immemorial, we have had gambling in some form or other, and I cannot understand why in the year of grace 1946 it has suddenly dawned on our friends to attack racing. (M. Muhammad Ismail Sahib Bahadur: ‘On a point of information, Sir. We have heard of stealing also from time immemorial.’) Well, Sir, I cannot understand how it has suddenly dawned . . . (N. Muhammad Anwar Sahib Bahadur: ‘Even as prohibition has dawned on us.’) Yes, but prohibition has been talked about for years. In fact, I remember the days when Pussyfoot Johnson arrived in Madras and made a big temperance propaganda. We have had cockfighting here. I know in the old days we used to have cockfighting in Tondiarpet at which there used to be mild gambling on the part of a number of people. (Mr. H. S. Town: ‘It has been stopped.’) It might have been stopped, but I am simply trying to tell you that man as a man requires some sort of recreation (N. Muhammad Anwar Sahib Bahadur: ‘Even the devil quotes the scriptures.’) and that is the reason for the existence of Polo, dog racing, etc., in the past. Well, Sir, on racing depends the horse breeding industry. We must understand there is an industry called the horse breeding industry. We import Indian-bred horses. We allow some English horses to cross the Indian-bred horses here. (Interruption.) We talk about Englishmen every time; anything we do not like, we put it on the poor Englishman's head. I am not holding a brief for them. (Interruption.) It is all tall talk in the Assembly, but in your heart of hearts you realize that the Englishman is not to be blamed. (A voice from Congress benches: ‘When did you discover this?’) Right from the day I came into politics. I was a member of the Congress Party, I was loyal as long as I was there, and even to-day I am loyal to the biggest organization in the country. Let me tell you that.

“Coming to the question of gambling, don't think that it is only the poor man who indulges in gambling. About 75 per cent of the betting tax—the Government got about Rs. 20 lakhs from betting-tax last year—comes from rich men, because particularly in war time, people found that they had too much money to spend, more especially because blackmarketing has been flourishing and there was no proper Government in the country to check corruption and blackmarketing.

“I do not want the Government to curtail civil liberties. At this rate, to-morrow smoking has got to be prohibited. Don't have the beedi industry; you better close it down. Do not have the cinema. One hon. Member has just said ‘All cinemas should be closed down.’ I find queues of people standing there. That is a thing that has got to be looked into. I tell you, Sir, that

[Sri P. Natesan] [17th August 1946]

racing is a thing which you ought to encourage. Do not gamble; gambling is an evil. We have been taught in our schools that gambling is an evil. Why not you go and do propaganda among the people? Instead of doing that preventive work, you come here and say that gambling is an evil and racing should be stopped. After all, it all depends on how you view things. What about the number of skins and hides merchants who take their chance in sending consignment stocks? They lose lakhs and lakhs. Is it not gamble? Are there not people who gamble on mills and on Bombay cotton prices? You just go to the Marwari bazaar every evening. You will find people gambling on figures. You say that on a particular morning the figure is, say 4, and you invest Rs. 10 on it. If to-morrow the number is 4, you get 50 times more. I am only pointing out that gambling has been there from the beginning of creation and that those who can afford can gamble. I do not know how the civil liberties of a man can be curtailed. (N. Muhammad Anwar Sahib Bahadur: 'What about prostitution?') We can argue both for and against. That is why lawyers exist. (Laughter.) (Mr. Speaker: 'Please don't interrupt the hon. Member.') I enjoy interruptions, Sir. (Abdul Hameed Khan Sahib Bahadur: 'He grows eloquent.')

"Coming now to sales tax, there is a belief even in the minds of the hon. Members of this House that sales tax was imposed mainly to carry out the Prohibition policy of the Congress Government. Sir, it is not a fact. It is true that sales tax was introduced at the time when Prohibition was also introduced. To say that the proceeds of the sales tax are earmarked for making good the loss in revenue due to the enforcement of Prohibition is a very unscientific view to take. There can be no earmarking of the proceeds of the sales tax to finance Prohibition. You frame the budget on the total revenue capacity and the total expenses that you are likely to incur during the year. Therefore, Sir, I consider that it is confused talking to say that sales tax revenue is a particular revenue only intended to make up the decline in excise revenue. Sir, there is probably an attempt to raise the sales tax. I say, as another hon. Member pointed out, it is a cumulative tax. By the time it reaches the consumer, the consumer would have paid five times what was intended. I consider that it offends the fundamental principle of taxation, viz., ability to pay. What the poor man is not able to pay, perhaps, I am able to pay. I am taxed one anna on an article. To the poor man that one anna is too much to pay. That is how it affects the poor man. I understand sales tax is imposed here even on grains. In Bombay and Calcutta, I believe that although tax in Bombay is six pies and the tax in Bengal nine pies they are not cumulative. They are collected at only one stage. That has to be looked into. Here, this is a multiple tax and is levied at every stage. An article changes hands five to six times and becomes very costly to the consumer. Sir, I understand recently that without giving any prior intimation merchants who effected sales by V.P.P. were asked to pay sales tax on these sales. Perhaps, the merchants were wrong in not

[17th August 1946] [Sri P. Natesan]

getting acquainted with the rules. Perhaps the Commercial Tax Officers did not understand the working of the rules. But to pay the taxes with retrospective effect is hard to the dealers. If what the tax collectors are doing is correct, they can proceed from now onwards without asking for retrospective payment.

"There is also a complaint in the rural parts that officers are not courteous to the merchants. Well, it is possible that in the interpretation of the Act subordinate officials are inclined to be too strict. I would like the Government to look into this and see if the officers cannot be instructed to be more liberal in the interpretation of the Act. Sir, I think you will have a great complaint from the merchant community if you begin to raise the sales tax further. You started with half per cent. Then it came to quarter and again it is half per cent. If you say it is only to meet Prohibition I can only say it is not correct and there is no doubt it will be resented by the merchant community. Already in Calcutta while an attempt was made to enhance the rate there was complete *hartal*. I only want to tell you that you must not brush away consumers who are after all the real class that is affected by this tax.

"There is one more point and I am done. I believe the tax is levied for the financial year and no option is given to the merchants as in the case of the income-tax. You must know, Sir, that merchants in this country follow their own national calendar. Some of them start with Deepavali, some with Chitrai month and probably there are many more customs. I suggest you do not insist on their keeping accounts for the financial year, but you will try to extend the privilege to calendar year or any other year according to the manner in which Income-tax authorities collect their taxes."

* SRI A. VAIDYANATHA AYYAR:—"Mr. Speaker, Sir, the first point that I have to mention in talking of this demand is about the way in which electricity administration is carried on. In later years it has been realized that electricity plays an important part with regard to cultivation and the production of more food. While it is so, somehow or other an idea has gathered as in the case of some of those rare departments that it is a special concern which has to be kept safely in the hands and not easily made accessible to the people at large. As recent instance I can cite the case of a big landowner of Bodinayakkanoor who had 500 acres to be brought under cultivation and had all the necessary machinery ready at this time of scarcity for the production of food. While so, time and again he addressed the electricity authorities and the Government and could hardly get a reply. The matter was so bad that ultimately I referred the matter to the Minister in charge.

"Then again, with regard to the entertainments tax on the cinemas, hon. Members of the House had several suggestions to make. It is undoubtedly true that cinema could as a matter of fact be used both for moral propaganda and educative purposes. But at the same time it cannot be denied that the use to which

[Sri A. Vaidyanatha Ayyar] [17th August 1946]

it is put to in the Madras Presidency, at any rate, as at present we see, is that there is 90 per cent harm. Many families are ruined and much harm is caused by exhibiting films which should have been banned and censored. (Hear, hear.) As a matter of fact some of the films that were referred to by one of the speakers are such that no person would allow any member of his family to see them. Yet what we have objection to see outside, we have no objection to see when it is put in cinema and that is the reason why these films run for months and months. As a matter of fact one producer told me that bhakthi films did not draw crowds and were not as paying, as they did not contain vulgar scenes as were ordinarily found and deliberately put in most of the films. Personally if I were a dictator, I would first close down all the cinemas at least as a preventive measure. (Hear, hear.) The question is whether a thing is to be continued because it has some elements of good though at present it is bad. If it is used for perverse purposes it ought to be put an end to at least for the time being. If the Government think of still keeping these shows the only course is to exercise a very rigorous censorship so that only good things can be allowed to be exhibited.

“ Even with regard to betting I am very much surprised at this time of the day that an hon. Member of this House could be found to put in a very strong plea on the ground that it is a civil right which has been exercised all along. I am afraid that this argument can hardly hold water. The ten commandments in the Bible are there, because people used to commit offences before. Therefore is there no necessity for the commandments, because the offences preceded the commandments? Can you argue that the only thing you can do is to do propaganda against the evil? Unfortunately even with regard to gambling it will be found that with the exception of horse racing all other kinds of gambling are made penal. Perhaps horse race alone is exempted from the Indian Penal Code, probably as a concession to those who made the law at the time. Therefore, it is not a right to run a gambling house and there is no civil liberty involved therein. If you say that you must do propaganda and yet gamble, why should there be a law in the Indian Penal Code against it? If ‘Thou shalt not steal’ is only to be a moral precept and you have to go and do propaganda about morality, why do you find the provisions against theft in the Penal Code? Therefore, I respectfully state that as a matter of fact that argument can hardly be accepted. The difficult position is this. Here is an exotic plant, this horse racing that has been put into our country. The plea that the hon. Member has used that racing is useful for breeding good horses will hardly pass muster. Because, do you create good race horse breed with a view to draw carriages for the military? Breeding is for racing and not for any other purpose. I can understand the Pattaigar of Palayakottai breeding bulls. That is for the purpose of doing work.

“ Then when you come to betting, I am afraid, I must place my strong protest against betting forming one of the items of

17th August 1946] [Sri A. Vaidyanatha Ayyar]

income for this administration. Exactly like Prohibition it has been regarded as one of the *Pancha Maha Pathakas*. So far as the Hindus are concerned gambling was akin to *Madhupanam*. Every child in the Hindu household knows Mahabharatha and Nala Charitram where it has been put as a lesson what gambling is likely to prove to be. Therefore, my submission is it is very wrong for a popular administration, though it comes in the middle of the year, to include it as one of the items. Even if it has come in the middle, it is much better to go and apply the axe at once than to wait for the morrow. Once it is installed it is never likely to go. Evil is a thing which, once left alone, grows into a small plant and strikes its roots deeply. With regard to this betting tax if you extend the least tolerance to it, it will never go. The other hon. gentlemen stated the extent to which poor families are ruined. You might have known not only poor families ruined, but zamindars are unfortunately brought to these race courses and as a result they are in dire troubles. Further along with the betting tax, particularly when it is tolerated by Government, there is a subsidiary growth of persons like bucket-shop keepers and brokers. So far as betting tax is concerned people hardly know the actual receipts. The expenses are shown as Rs. 4,000. But when you come to the receipts as shown in the budget memorandum you find ‘totalizator Rs. 7.17 lakhs, book-makers Rs. 3 lakhs or a total income of Rs. 10 lakhs’ from betting alone. What rate is fixed as tax at Guindy is found in page 33 of the budget memorandum. It is $6\frac{1}{4}$ per cent on the bet.

“ With regard to Ootacamund, it is $3\frac{1}{8}$ per cent or $3\frac{1}{2}$ per cent on the average. Twenty-four times Rs. 10 lakhs would give you 2.4 crores. All this money passes from one to another. Is it a thing that the Government should encourage and say we have got $3\frac{1}{2}$ or $7\frac{1}{2}$ per cent? This money, every pie of it, that goes to whatever department will spell its undoing. That is my objection. That is my feeling. Even now big changes can be made in the budget, and I request the Minister to cut off this remnant of sin. 4 p.m.

“ One observation which was made by an hon. Member about sales tax was this. He said that unfortunately poor people are being fleeced and that consumers are being fleeced. These tears come from merchants who collect the sales tax from the consumer. Until this day, not a single protest has come from the consumers. It is the merchant who collects the tax from the people and the whole protest against the sales tax comes from him. I do not at all understand the meaning of these protests. To-day the merchants are not ashamed to sell articles at ten times their cost price. I know there are chemical goods and dyes which were sold at Rs. 120 under Government control. They are sold in black-market at Rs. 4,000 or Rs. 5,000 now. Yet these people protest against the pie in the rupee which they do not part with but collect it from the people. I submit, Sir, that it is all crocodile tears and there is no sincerity about it. The consumers are prepared to pay the pie in the rupee as sales tax.

[Sri A. Vaidyanatha Ayyar] [17th August 1946]

"Another argument used against sales tax was this. It was said that as this tax is to be used for enforcing prohibition, let the tax be confined to those districts where prohibition is introduced. Look at the generosity of these people! But I say, let us reverse the process; instead of confining sales tax to Prohibition districts, let us extend Prohibition to the whole of the Province and let the sales tax remain as it is. That would be the correct position.

"Lastly, Sir, my submission to the Government is this. We are now making this budget and this will stand till next year. Every time we are making this budget, we are introducing this sinful item of revenue, with promises that it will be remedied next year. If you do not remedy it to-day, this evil tax has a tendency to strike root, and it may be difficult to put an end to it later even as the administration which originally introduced it, feared. Therefore, take courage in your hands. The nine months before you is a sufficiently long time for the evil to take root and so I request the Minister and say 'Cut out all evils straightaway and now'."

* SRI K. VARADACHARI:—"Mr. Speaker, Sir, if there is one department in which corruption is less rampant than others, it is the Commercial Tax department. That is my experience. In my profession as a lawyer, I have come across with so many cases in this department and I know that really smart young men with enthusiasm for honest work are employed in the department. I do not know much about the men at the top, but so far as the Assistant Commercial Tax Officers are concerned, many of them are smart young graduates and most of them are doing their work honestly and conscientiously. Therefore, whatever may be said with regard to the alleged corruption in that department from the other side—it may be inspired by the merchant classes—we ought not to rely too much upon them. (A voice: 'Question.')

"The second thing is—and there is no doubt in this matter—the merchant classes are more at fault than the department itself. The several devices which are employed by the merchants for evading the taxes are only too well-known. I have had to defend such people before these officers. As a professional man, I know from experience that the devices employed by the merchants are so clever and so skillful that even the ablest of the officers in the Government are not able to detect them. In my place jaggery is procured in large quantities. These procurers supply jaggery to the tune of lakhs of rupees. Their accounts are made up in the names of hundreds of persons who are really nominees. Thus these merchants evade the sales tax. But the poor public who purchase the jaggery from shops will have to pay the sales tax in advance. I therefore submit that it is the merchant classes that are more corrupt in this matter than the officials."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"On a point of order, Sir, can a lawyer reveal the tricks of trade of his clients?"

SRI K. VARADACHARI:—"I may not be right in revealing the secrets of an individual trader, but I can refer to the secrets of a class of people in general."

[17th August 1946] [Sri K. Varadachari]

"Sir, conditions in Madras may be different. Mr. H. S. Town need not complain against me. I am only making my remarks so far as my experience in the Chittoor district is concerned. (Interruption again . . .) (Mr. Speaker:—'Order, order.')

"Then I have got another suggestion to make in regard to this department. This is a new department. It is manned by people lent from the Revenue department. The Assistant Commercial Tax Officers, the clerical staff and all these people are supplied by the Revenue department. With the depletion of men in the Revenue department who are constantly drafted for other purposes during these days, there is a corresponding depletion of men in this department also, with the result that the Revenue department and this department are suffering from lack of competent men. Apart from that, I would urge that this department should be manned by people who are well-educated and can understand the meaning of and can give interpretation to the various clauses of the enactments relating to the commercial taxes. For this purpose I would suggest that none but graduates or members of the legal profession who are rotting on account of lack of work should be appointed in this department. (An hon. Member from the Muslim League benches: 'Is it for opening another field for lawyers?') Yes, Sir, it should be a field for lawyers including Muslim lawyers also. (A voice: 'No canvassing for jobs please!') (Interruption.) Well, Sir, it is very essential in the interests of the Government and in view of the very large amount of revenue involved in this department that really capable and honest men should be employed for running this department and if this is done, I am sure you will find that even that little amount of corruption that is alleged will vanish in no time.

"The next thing that I want to refer to is this; several other taxes which may appropriately be entrusted to this department are not included. For instance, I do not know why the motor vehicles tax should not be entrusted to this department. The collection of this tax need not be in the hands of Police officials or those of anybody else. Licences for many other things are issued by the Commercial Tax department, but I do not know why motor vehicles licences alone are excluded. I suggest that these motor vehicles tax should be collected by this department, so that this department may also be acquainted with what is being done in the Motor Transport department.

"One other remark I wish to make is that the sales tax enactment is not yet perfect. It must be amended. If you want to increase the revenue from the sales tax for financing Prohibition, you must reduce the taxable limit of the turnover to Rs. 5,000. I am also unable to understand why tax on bullion is exempted. I suggest that bullion transactions should come within the purview of this Act. The official agents are really the persons who are dealing in this business, but if there is a real case that they simply act as commission agents and that no transactions pass through them, then they may be exempted. But, as a matter of fact, in most cases, their true accounts will reveal that they are real purchasers and sellers. (Interruption.)"

[17th August 1946]

* MR. SPEAKER:—"Only one minute more."

* SRI K. VARADACHARI:—"I shall finish within two minutes, Sir."

"The next suggestion I should like to make is that apart from the minimum tax that is being levied on food stuffs and other necessities of life, the tax on luxuries should be raised. A separate schedule of rates at a higher percentage should be introduced according to the nature of the luxury article. But it does not mean that the tax should be exempt on any other class of goods that are considered necessities. This will bring in a very lump sum revenue."

"Then, Sir, in this connexion, I would suggest that the tax on foreign liquor should be raised to 25 per cent. (Laughter.) Even so, a 25 per cent tax should be levied on the licence-holders. Those people must be discouraged to take up licences by such a heavy tax. Officials in the departments who are addicted to drink foreign liquors should not also be given permits."

"Finally, Sir, with this remark, I shall finish my speech. In the interpretation of the Sales Tax Act, we have a very curious application of the rules framed under the Act. While agricultural products are exempt from the sales tax, forest products are not. I do not know how agricultural products are different from horticultural products. During the period of war people converted forest wood into charcoal. When this charcoal was put in the market, it was considered to be a sale coming within the purview of the Sales Tax Act. Prosecutions were also launched by Government in certain cases for evasion of tax. I do not think there is any meaning in levying an additional sales tax on the forest produce. I wish to bring this to the notice of the hon. Minister for Revenue so that he may consider the question in all its legal bearings."

4-15
p.m.

* SRI K. SUBBA RAO:—"May I know from the hon. Member whether any of his relations, his son-in-law for instance, is employed in a Commercial Tax Office?"

* SRI K. VARADACHARI:—"My son-in-law, my brother-in-law and my uncle's son-in-law are all there." (Loud laughter.)

* SRI N. S. VARADACHARI:—"Mr. Speaker, it was very difficult to follow my hon. Friend, my name sake, Mr. K. Varadachari. The discussion on the subject of commercial and other taxes has ranged from the subject of the abolition of the race course, perhaps due to the fact of the presence before me of these very refractory but enlightened gamblers (A voice: 'Is it a parliamentary expression, Sir?') to nibbling at the sales tax even at its roots. I will put it that way."

"Now, let me examine the question of betting. Nobody has stressed the real evil and the way of putting down that evil. I consider betting an evil. The easiest method of putting down betting in the bucket shops and in the race course is to prevent all publication in the newspapers and in booklets and in leaflets

[17th August 1946] [Sri N. S. Varadachari]

about race courses, about pedigree horses, about racing astrology and so on. I do not want on this account that my hon. Friends on the opposite side should call me kill-joy. I do not belong to that class. (Mr. H. S. Town: 'I do not go to the race course.') All right then, I will allow my hon. Friend Mr. P. Natesan to enter the first enclosure, pay very handsome taxes to the State and yet say that poor people do not go to the race course for the simple reason that they have no information about the race course or about the horses running there or about the totalizators set up. That is the real point. I know . . . (A Voice: 'How do you know about the pedigree of horses?') I know it from Mr. Natesan himself. An administrative order may immediately be issued prohibiting the issue of these publications and stopping the racing advertisements that appear in the daily newspapers. That would put an end to almost the entire evil and we would still be getting a good share of the tax if Mr. Natesan would go to the race course and help Government in his own way."

"I shall next come to the subject of the sales tax and press only one point relating to the administration of the sales tax. On this matter, I put a number of supplementary questions the other day in order to elicit answers from Government. The way the sales tax is administered keeps me on to this subject. I understand that by a simple administrative order revenue of nearly half a crore has been suspended. This procedure is somewhat strange and wholly unorthodox. It would never be adopted in any other democratic country. The only way that complaints of harassments or allegations of wrong collections or assessments should be met is by adopting the procedure laid down in the case of income-tax, viz., that the tax collected should be refunded if mistakes are found later. Every case has to be examined on its merits. That is my point. There should be nothing to be found fault with in our procedure. For procedural errors, our record is hard to beat. The Congress Government has to set a high standard. I believe that Caesar's wife must be above suspicion. We must not lend ourselves to the charge that we are interfering with the just, or the unjust let it be said for the purpose of argument, administration of the sales tax. These very people having collected the sales tax have not remitted it to Government. Let me here quote what the High Court, in a recent decision, have observed: 'Offenders with regard to payment of sales tax are persons for whom there should be absolutely no sympathy. They receive the tax from the consumers at the time of purchase and are only trustees to remit the money to the treasury.' In fact every merchant—Mr. Natesan, Mr. Town and everybody who collects sales tax—is a trustee who retains money only to be remitted to the treasury. That is the position with regard to sales tax. When people collect taxes to pay into the hands of the Government and do not deliver it to Government, I would suggest that is a serious matter that must be looked into and proper administrative procedure enforced."

[Sri N. S. Varadachari] [17th August 1946]

"In this connexion I have another point to mention. We have exempted, for instance, several people from the scope of the tax who have a turnover of less than 10,000 rupees. But if these people have received as a matter of fact sales tax from the consumers and have retained it as evidenced by their accounts, they should also be treated as trustees and the sum collected should escheat to the State, to use a technical legal term. That is my case for the administration of the sales tax. It should be tightened up and not nibbled away at the roots, or, as some hon. Member suggested, it should not be levied. If you go on present suggestions, the tax will be nullified by exemptions. If suggestions that necessities of life should not be taxed are adopted, you will have nothing to go by. The suggestion I want to press on the attention of the Hon. Minister who agreed the other day to give me an opportunity for raising a discussion on this matter is that I want the sales tax administration should be strictly and properly controlled. I do not mean to suggest that harassment should be the rule. On the other hand there should be strict administration without harassment. My friend Mr. K. Varadachari speaks of the efficiency of the sales tax administration. I cannot say this as I have no first-hand knowledge on this point. But I can tell you, Sir, I am not one of those who wish to cry 'Wolf, wolf' and create a scare in the country circulating the impression everywhere that everybody in my country is corrupt, every Police officer is corrupt, every revenue officer is corrupt and that all who enforce law under our administration are corrupt. I wish that talk of corruption is restrained. People can prevent corruption by ceasing to talk about it publicly and especially in this House. I say, Sir, that corruption can best be put down when we make up our minds that our own people who are in the services—your son and my son—are after all honest and good people and intend to serve the country. I can tell you from my own experience that out of 10 officers who served the Government from my immediate surroundings, nine of them died in penury without any property left on retirement. Is this not a tribute to this band of officers who are found fault with at every turn? There is corruption I admit. There is 10 per cent corruption, but that is so much exaggerated that you get into a cloud and then begin to talk of it all the time like my friend who becomes suddenly antipuritan and says that to kill joy in all places is wrong. Just as the Muslim will seek pleasure on the fumes coming out of his hooka, so too Mr. Natesan wants innocent pleasure in the race course events. Mr. Town said that Shajehan started the race craze. I leave him with that statement. I really raise my hat off to Shajehan. (Loud laughter.) But Shajehan did not introduce betting for fleecing the poor people. He did not encourage publications for quarter of an anna and so on on race events and the like in every street corner bordered by a bucket shop which by the way is a standing invitation to corruption. The best thing would be to stop all publications regarding race course and put into the administration of the sales tax more vigour and energy."

[17th August 1946]

* SRI M. G. NATESA CHETTIYAR:—"Sir, I feel that the Sales Tax Act is not being administered according to the intentions of the framers of the Act. It is now merely as imposition on the consumers, collected by the merchants and paid into the treasury. The intention of the framers of the Act, if I have understood it correctly, was that it should be collected from the merchants directly. Now, as it is, every merchant has, instead of paying the tax himself, become a tax-gatherer. This is wrong. The merchant is profiting by this tax, instead of paying anything himself. Take for instance a bill for annas twelve. The sales tax is collected for Re. 1. Whereas the tax that he pays is on the total turnover at so many pies a rupee, he gains something in this case because he has collected so many pies on so many As. 12 bills. This source of income which was to have replaced the excise revenue on the adoption of Prohibition should continue to come in to enable us to have complete Prohibition sooner or later. That being the case and especially when it is the consumers that pay the tax, the tears of the merchants, as my hon. Friend said, are merely crocodile tears."

"As I said, Sir, the sales tax was introduced for the purpose of balancing the loss of revenue anticipated by the introduction of Prohibition. Prohibition has been introduced only in some districts. What about the other districts? The intention was to make the whole Province completely dry and this I hope will be achieved as soon as possible and as quickly as possible. It is certainly a trust which we will forfeit if we do not carry out the programme. Sir, I have a scheme to prepare the ground before introducing Prohibition. I want at the outset that the Government itself should keep the toddy shops and collect all the revenue without letting a bidder or renter share it. Government officials should run the shops. The shops should be made clean and neat and people should come and drink there itself and should not be allowed to take out for drinking. They may also publish a list of people who visit the grog shop with the quantity each visitor consumes each day as if it is an account of drink bill. Again month after month try to reduce the quantity of drink which you offer each person. Ration it completely by reducing it week by week and then try to bring in your Prohibition within a specified period. The proceeds of the sales tax must be used particularly for this purpose. Even as at present arranged, I want that Government should at once place some officer in charge of every toddy shop to sell toddy to persons who want to drink."

AN HON. MEMBER:—"Is the hon. Member talking about Prohibition or sales tax?"

* SRI M. G. NATESA CHETTIYAR:—"I am talking of the sales tax and how it should be utilized for the particular purpose for which it was introduced. It was to enable Prohibition to be introduced that the sales tax was levied. What some members of the other Party and the public ask is this: 'You have imposed the sales tax for a certain purpose and when you are not giving effect to that purpose why should you collect the tax?' By

[Sri M. G. Natesa Chettiyar] [17th August 1946]

prescriptive right the tax-payer is entitled to ask. If the Government is to answer it, it must be answered by utilizing a major portion of the tax for preparing other districts also for Prohibition. I therefore earnestly urge on the Government to amend the Act in such a way that the tax becomes a direct tax on the merchants and not on the consumers and utilise the produce of this particular tax for enforcing Prohibition throughout the Province. Then alone the party in Government and representatives of this House would discharge the confidence of the voters and citizens of this Province."

* SRI V. I. MUNISWAMI PILLAI:—"Mr. Speaker, Sir, having said so much and pressed the Ministry that there should be Prohibition, it will be unfair and unjust on the part of any member of this House now to rise up and say that sales tax should not be increased. I, for one, feel that we should support any measure brought before the House for increasing the sales tax.

"Sir, much has been said about horse races and the betting that goes along with it. Those people who were responsible for arranging horse races might have done that with very good intentions. I know as my hon. Friend Mr. Natesan reminded us there was the horse-breeding industry. But it is an industry which was required in those days when there were no motor cars and other forms of conveyance. To-day horse races are a false affair and we do not see really the horses running in the race course but fat ponies. What we also see is the poorest of the poor running from plains to hills. I may say, Sir, that so far as Ootacamund races are concerned, people come from Trichinopoly, Madura and all the surrounding districts. They do not come alone, they bring all sorts of epidemic diseases. In Ooty, cholera was unknown. The people who come there do not go to see the horse races but just to put all money they have on the horses for betting. It is a most depressing scene—people who have no clothes to put on their bodies standing there and betting on horses. What I would urge on the Ministry is this: 'Increase the betting tax from the present 3½ per cent to the maximum extent, so that those who are responsible for the horse races may themselves give up this thing.

"Secondly, Sir, much has been said about cinemas. I do admit that they are not conducted on proper lines. There is not much of morality or any virtue in going to cinemas. In the country-side we see travelling cinemas which run their shows in tents which leak badly and do not prevent rainwater falling in. These cater to the poorest of the poor and even the people who are engaged on the fields go there and spend what little they have. I think the Government have got a Cinema Board to scrutinize the films before they are allowed to be screened. I do not know the composition of the Board and with what authority and what object they pass films which bring not morality but immorality not only to the towns but to the village parts also. I appeal to the Hon. Minister who is responsible for the composition of the Board to see that responsible people who could understand things better are appointed to the Board. With these few words, Sir, I support the demand."

17th August 1946]

* SRI G. NARASIMHA RAO:—"Mr. Speaker, Sir, in supporting the demand which has been moved by the Hon. Minister I should like to say a few words. On behalf of the mercantile community I may say that the merchants are not averse to paying the sales tax which is popularly known as the poll-tax, because it has to be paid by every human being who buys something. But I have got to say something about the administration of the sales tax by the department concerned. If this tax is imposed more on the luxuries than on the necessities, then it will be less unpopular and will not be called a poll-tax. With regard to the behaviour of the Assistant Commercial Tax Officers, I should like to bring to the notice of the Government that the merchants are not treated well. They are not given proper directions to maintain accounts and they are not given a chance to prepare a proper statement of accounts. On the other hand, they are simply harassed and whatever orders they want to pass they pass with much of *jubberdust*. That is the only complaint of the merchants and they have no grievance to pay the tax which they have collected from the public.

"My hon. Friend, Mr. Varadachari referred to commission agents. Commission agents have been paying licence fees under section 8 of the Sales Tax Act. The Commercial Tax Officers in various districts have given various interpretations for this section. In various places the taxes have been collected and merchants had to pay as much as Rs. 3,000 which they had not collected. When a stay is applied for, the merchants are told: 'You obtain orders from the Board of Revenue later on.' It is something like a man being hanged even before the judgment is delivered.

"As a matter of fact at present whatever tax is assessed by the Commercial Tax Officers, the Revenue Board is the only final authority. I suggest, Sir, that there should be an appellate authority like Income-tax Tribunal. Some assurance must be given to the merchants and they should not be harassed to pay the taxes unnecessarily. I suggest also as you have got several advisory boards in the districts and at the provincial headquarters with regard to other matters, there should be district and provincial advisory boards with regard to Sales Tax also. If interpretations of the Act given by the Commercial Tax Officers are not correct, the advisory board will be able to give proper advice. I request the Hon. Minister to see that necessary orders are passed bringing into existence these advisory boards.

"Some hon. Members have referred to the tax on bullion. Originally there was no tax on bullion. It was levied only recently with the result that most of the business in the Madras City was transferred to Pudukottah. The Bombay people imported silver and gold to Pudukottah and other States eliminating the merchants in the Madras Presidency.

"With regard to the recruitment of Assistant Commercial Tax Officers, at present it is done from the Excise department.

[Sri G. Narasimha Rao] [17th August 1946]

I suggest, Sir, that people who have been working in this department can better understand the work of that department and therefore the Assistant Commercial Tax Officers should be recruited from the Commercial Tax department as well as the Civil Supplies department."

* SRI K. T. KOSALARAMA NADAR:—"Mr. Speaker, Sir, இப்போது போடப்பட்டிருக்கும் Sales Tax-ஐ நமது அதிகாரிகள் சரியாக வசூலிக்கிறார்களாவென்று நாம் முதன் முதலாகப் பரிசீலனை செய்ய வேண்டும். இப்போது ஆந்திரா தேசத்திலே 50 லக்ஷம் ரூபாய். இந்த வரியில் வசூலிக்கவேண்டாமென்று நிறுத்திவைத்திருப்பதின் காரணத்தை நாம் அறிந்துகொள்ளவேண்டியது அவசியமாகவிருக்கிறது. இந்த விஷயத்தை சர்க்கார் உடனே பரிசீலனை செய்ய வேண்டும்."

"இரண்டாவதாக, கமிஷன் எஜெண்டுகளை அதிகப்படுத்துவதில், Sales Tax வருமானம் எவ்வளவு குறைந்துவிடுகிறதென்பதையும் சர்க்கார் உணரவேண்டும். எந்த காரணத்தினால்கமிஷன் எஜெண்டுகளிடமிருந்து Sales Tax வசூல் செய்யப்படாமலே இன்னும் இருந்து வருகிறதென்பதை சர்க்கார் உணரவேண்டும்."

"அடுத்தபடியாக, மோட்டார் கார்களை ஆங்கிலேயர்கள் இங்கிலாந்தில் குறைந்த விலைக்கு வாங்கி, அவைகள் அவர்களுக்குச் சொந்தத்திற்கு என்ற பெயரால் நம்முடைய நாட்டிலே வந்திருக்கின்றன. அவைகளுக்கு நாம் Sales Tax போடமுடியாமலிருப்பதும்மட்டும்ல்லாமல் சாதாரணமாக அவைகளுக்குப் போடவேண்டிய கஸ்டம்ஸ் வரியையும் நாம் இழந்து விடுகிறோம். சொந்தத்திற்கு என்று தருவிக்கப்பட்டு விற்கப்படுகிறது. இந்தமாதிரி விஷயங்களை நாம் சரிவர கவனித்தால், இன்னும் பல கோடிக்கணக்கான ரூபாய் Sales Tax வருமானம் கிடைக்கும்படி செய்யலாமென்று நினைக்கிறேன். உதாரணமாக, விப்டன்ஸ் கம்பெனி முன்னால் 2 லக்ஷம் ரூபாய்தான் வரியாகக் கொடுத்தார்கள். ஆனால், காங்கிரஸ் அரசாங்கம் ஏற்பட்ட பிறகு 10 லக்ஷம் ரூபாய் நாம் அவர்களிடமிருந்து வரியாக வசூலிக்கிறோம். ஆகவே, இப்போதைய Sales Tax-ஐ வசூலிப்பதில் அரசாங்கம் ஓரளவு கவனஞ்செலுத்தினால், இப்போது கிடைப்பதைக் காட்டிலும் அதிகமான அளவுக்கு வரி வசூலிக்கமுடியும். இந்த வரி வசூல் விஷயத்தில் ஆந்திர தேசத்திற்கும், தமிழ் தேசத்திற்கும் ஒரு வித்தியாசமிருக்கிறது.. தமிழ் நாட்டிலே கமிஷன் எஜெண்டுகள் என்ற பெயரால் Sales Tax கொடுக்காதவர்களின் தொகை மிகவும் குறைவு. ஆனால், ஆந்திர நாட்டிலே இவர்களின் தொகை மிகவும் அதிகமாக இருக்கிறது. அதிகாரிகளின் சித்ததைக்குறைவினால் அவர்களிடமிருந்து வரி சரியாக வசூலிக்கப்படுவதில்லை. அதிகாரிகள் இவ்வித வித்தியாசத்திற்கு இடம் கொடுக்காமல் பார்த்துக்கொள்ளவேண்டும். அதோடு தங்கத்திற்கும் நாம் Sales Tax போடவேண்டும். வாழ்க்கையிலே அதிகமான சுகபோகங்களை அனுபவிக்கும் பணக்காரர்கள் அனுபவிக்கும் சாமான்களுக்கு Sales Tax போடாமல் ஏழைகளுக்கும்மட்டும் இந்த வரி போடுவது மிகவும் விநோதமாகவிருக்கிறது. இனிமேலாவது தங்கம், மோட்டார்கார் வாங்குகிறவர்களுக்கு Sales Tax போட்டால், இப்போது இருக்கும் விகிதத்தைக் காட்டிலும் அதிகமாக இந்த வரியை உயர்த்தவேண்டிய அவசியம் இல்லை யென்று நான் நினைக்கிறேன்."

MR. SPEAKER:—"During the last three days we have finished only six demands and we have 34 demands to be finished. We have got only 8 days more. Therefore with the consent of the Hon. the Premier and the Leader of the Opposition, I am going to ask the House to sit till 6 p.m. from Monday onwards. To-day we will sit till 5-30 p.m."

"The Hon. the Minister for Revenue will now reply. Afterwards the Hon. Premier will make a short reply also."

[17th August 1946]

* THE HON. SRI K. R. KARANTH:—"Mr. Speaker, Sir, we have had a most interesting debate ranging from the highest ethical standards to the fundamentals of economics. I shall not enter into the heat of the controversy but shall try to speak on some of the important points raised. Some hon. Members would wish for the abolition of all taxes. Of course, if a Government could be run without any taxes, it would be quite possible. But since we have to run a Government with some taxation, I may say, that of all the taxes, with which we are dealing to-day, particularly, the sales tax is one which we can ill afford to lose."

"Certain charges have been made that we should not take sinful money and so on. The hon. Member from Madura called the betting tax as *pancha maha pathakam*. May I remind him that this *pancha maha pathakam* was in existence before? The Act was passed in 1935 and was used from 1937 to 1939 when there was also a Congress Ministry in office. ('Hear, hear.') And therefore, if all at once, his vision has become broadened to-day and he says, it is a deadly sin . . ."

* DR. V. SUBRAHMANYAM:—"He was not there in the last Assembly."

* THE HON. SRI K. R. KARANTH:—"He was not there of course. On the other hand we have it from another hon. Member, Mr. N. S. Varadachariar, who takes generally the same lines of argument as my hon. Friend, that he is prepared to allow one enclosure and no more. And another hon. Friend, Mr. Muniswami Pillai, is prepared to have the tax raised to a higher figure. So far as the betting tax is concerned, about which the Hon. Premier will also reply, I will say this, that we shall try our very best to have this matter considered. We shall not take shelter under any arguments like the benefit conferred by racing on the breeding of horses. We shall make a proper approach to the question and see if we can do something in the matter before long. That much, I feel, I can assure the House. I have consulted the Hon. Premier on the question and we realize that though we get an income of Rs. 18 lakhs per annum, the evil is there. There is no denying the existence of the evil and the fact that people are unable to control themselves and that even the poor are suffering alongside the rich."

Sri A. Vaidyanatha Ayyar rose to speak.

* MR. SPEAKER:—"Is it on a point of order or on a point of information that the hon. Member wants to speak?"

* SRI A. VAIDYANATHA AYYAR:—"There was a point made out, Sir, that no objection was raised to this tax during the period of the previous Congress Ministry. What I want to point out is that now the Madura Member's objection has been recognized by the present Ministry."

* THE HON. SRI K. R. KARANTH:—"What I was saying was only this. We need not magnify these things. What was not *pancha maha pathakam* then is not worse to-day. The same

[Hon. Sri K. R. Karanth] [17th August 1946]

measuring stick, the same yard stick which was used to measure the Congress Ministry at that time may be used to measure the Ministry which is in office to-day. We need not use different yardsticks. That is my point." ('Hear, hear.')

* MUHAMMAD ISMAIL SAHIB BAHADUR:—"On a point of information, Mr. Speaker. Is the word *pancha maha pathakam* parliamentary?"

* MR. SPEAKER:—"It is parliamentary."

* THE HON. SRI K. R. KARANTH:—"I may assure the Leader of the Opposition that it is a perfectly parliamentary word. Otherwise my hon. Friend would not have used it."

* SRI A. KALESWARA RAO:—"Is it right for the Hon. Minister to condemn the previous Congress Ministry and also

* MR. SPEAKER:—"He is not condemning the previous Ministry."

* THE HON. SRI K. R. KARANTH:—"I quite realize the feelings of my hon. Friend, who was then Chief Parliamentary Secretary. I am not condemning, I only say, judge us by the same standard by which you judged another Ministry. (Abdul Hameed Khan Sahib Bahadur: 'Only by the same standard?')

"Well, Sir, on the question of betting tax, we realise the significance of all that has been said on the other side and we shall be glad to consider the whole question (interruption) including the question of publication of race news or the stopping of the whole affair of betting itself. This will come up for consideration by the Government and we shall give our best attention to it. We are not in a position to say more at present, because we really have not had the time to consider the question."

"With regard to the sales tax, I say this, that this is a tax which we cannot afford to lose. We have to carry on prohibition which will cost us to the tune of Rs. 15 crores very shortly and then there are ever so many undertakings of a social nature. Therefore if anybody says that this tax should be given up, it is very difficult for the Government to do so."

* SRI P. NATESAN:—"Nobody said so; but we do not want any increase."

* THE HON. SRI K. R. KARANTH:—"There were some speeches made to the effect that the sales tax might be abolished. Probably the hon. Member Mr. Natesan was not here at the time. We give no undertaking that there will be no increase, but when there is to be an increase, certainly we shall come before the House because it will require an amendment of the Act. At present it is only one per cent. On the sales under the existing Act and therefore, if we have to increase it, we shall have to come before you and the House will have an opportunity to consider the question. If not only then that the rates could be increased."

[17th August 1946] [Hon. Sri K. R. Karanth]

"Now, Sir, when I say that the sales tax is a revenue which ought to be increased and implemented, I may also make some general observations. This Act was passed long ago, about 8 or 9 years ago. It has been worked till now. We are now aware that there are many loopholes under which people who ought to pay the tax do not pay it. They are trying all evasions. There are also exemptions as my hon. Friend said, such as cotton yarn, bullion and other things. We shall try to stop all loopholes, shut all doors so that the maximum revenue can be got for the State from all honest dealers . . . (An hon. Member: 'Only honest dealers?') honest and dishonest dealers, both."

"Even before this debate was ever thought of, nearly six weeks ago, when we received a number of representations from all over the country and when there were deputations on every section of the Act, a Special Officer was appointed to go through all the memoranda on the question and find out ways in which the Act could be best administered. I do realize, Sir, that in a measure of this sort where the discretion of the taxing officer is very large, where probably appeals are not as efficient as in the civil courts, we ought to make things as fair and just as possible. It is for that very purpose that we are trying to look into every aspect of the Act and then bring not merely an amendment for the increase of the percentage but also for dealing with the exemptions and other provisions under which there is said to be harassment. I do not deny that there is some sort of harassment in some way or other, because when the thing has been going on without the necessary overhauling of the Act having taken place, there is bound to be some harassment or other. It is with a view to look into all these matters that we shall devote all our attention. Whilst we have every right to collect as much tax as possible, certainly the public is entitled to say 'Do it fairly and properly. Let us know what we have to pay and not merely depend upon the individual whim and discretion of the officers.' We shall try to see that there will be no unnecessary injustice in the matter of its administration."

"On the question of appeals for instance, the hon. Member, Mr. Leonard, said: 'Appeals are filed, we do not know when they are disposed of.' These are all aspects which we shall go into thoroughly and whatever amendments are necessary we shall very soon come before the House with for amending the Act."

"With regard to one particular section of the Act, speeches were made, and if I understood rightly, it was even suggested that some sort of preference had been shown or distinction made between Tamilnad and the Andhra Desa. I submit, Sir, that in the matter of taxation at least there was one sphere where we could be free from provincial differences. (Hear, hear.) What happened was this. Before I actually took charge of the portfolio of commercial taxes there had been made lots of representations, not that people had collected money under section 8 of the Act as commission agents and then kept the money in their own pockets, as one of the speakers suggested, but that their claim was that they were only commission agents and nothing more and that they were harassed with prosecutions in which large amounts

[Hon. Sri K. R. Karanth] [17th August 1946]

of Rs. 50,000 and Rs. 60,000 were involved. When these representations came, those who were in charge thought, that here was a case which should not be pressed and prosecutions should not be proceeded with and money collected at the point of bayonet as it were. He held that even though large amounts were involved their collection should be stayed and that the whole matter should be looked into. All these things will be looked into by the Special Officer in the interests of the collection of the tax itself and if it is rightly due it will be collected.

"The hon. Mr. Leonard is not right in saying that in one breath I said that it would be stayed and in another that it would be collected. It will be collected if it is found rightly due from the particular persons concerned and it will not be collected if it is found that it is not rightly due. Under section 8, Sir, with my little knowledge, I can say that there are all sorts of cases. There are some cases of honest commission agents; there are also others who are pretending to be commission agents but who are really purchasers and sellers. Nobody will deny that there are such cases. Every one of these cases will be gone into. The Special Officer has been asked to see these cases under section 8 so that we may deal with them without delay as large amounts are involved. So it is with the other aspects of the Act.

"It was suggested, Sir, that this Act should be amended, so that differential rates should be considered. This is also one of the points in which direction has been given to the Special Officer. There is no reason why it should be a uniform tax on all, namely, on foodstuffs as well as on luxuries or foreign liquor, as was suggested by one hon. Member. It is a case which deserves consideration that luxurious articles should be taxed at a higher percentage than ordinary articles. These are all aspects in which an amendment to the Act may be necessary and it will be brought in at the right time.

"I can only give this assurance, Sir, to hon. Members of this House that we shall try our best to see that the Act is sought to be amended in a reasonable way so that its provisions are clear and there is no harassment at the hands of officials, and as regards appeals, to see that they are not merely illusory as they were suggested to be.

"Then, Sir, as regards sales-tax on petty traders my submission is this that there is not much justice in the criticisms. The hon. the Leader of the Opposition and some other speakers said that the poor petty trader was hard hit and that he could not keep accounts and so on. I submit, Sir, that in the case of those people who are selling mutton, their case was actually brought before previous Government who went thoroughly into the matter and found that in the case of people with a turnover of over Rs. 10,000 per annum the exemption could not be granted. As a rule they cannot be called petty traders. If their turnover is Rs. 30 per day, I do not think, they should grudge paying Re. 1 per day for keeping a proper clerk

17th August 1946] [Hon. Sri K. R. Karanth]

"It is no excuse saying 'I am an illiterate man'. Ignorance 5 p.m. of traders is not certainly an excuse or reason on which we can exempt any class of people. I may also say that as far as possible in a tax like this, we should not give any exemptions. Recently, even sales to the Government of India have been brought under this tax, so that we may get the maximum revenue possible.

"Then it was said that the tax works heavily on the poor people. The very fact that the merchant classes are so vociferous in their criticism of the Act leads me to suspect that some portion of it is touching their pockets now; otherwise, they would not be saying all this. The collection is from the consumers; but I have reason to believe that though in the beginning of this Act, it fell largely on the consumers, now probably the merchants also are out of pocket; otherwise, they would not be sending so many deputations and making so many representations. (An hon. Member: 'No'.) In that case, I can tell the hon. Friend who says so that they need have no grievance at all and need not waste our time by coming on deputations and making applications. One of the speakers suggested that it was not the consumer that was making so much agitation about this Act as the merchant classes. Let me assure the hon. Mr. Venkateswarlu that we on this side of the House are as much interested, if not more than he, in the poor people. On every question he has been talking of the poor, the poor, and the poor. I can assure him that while he is only one member that represents the poor in that section, we are hundreds of members here on this side, who also represent the very same poor. Talking of the poor on each and every question, I do not know what it all means. It means only propaganda and nothing more." ('Hear, hear.')

* DR. S. SUBRAHMANYA AYYAR:—"I wish the hon. the Speaker will give us, members of the Ministerial Party, an opportunity to answer this point. I do not want to make any aspersions; but we may also be allowed to answer this point."

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Mr. Speaker, is this a tyranny of the majority over an individual who is in a minority of one?"

* THE HON. SRI K. R. KARANTH:—"Then, Sir, one charge was made that the officers of the Commercial Taxes department are not very courteous. I can assure hon. Members that the moment we received this representation—in fact this was one of the charges made by a deputation when I met them in the Andhra Chamber of Commerce—the very next day, we issued an order to all the commercial tax department officers that they should be courteous in their treatment of those who unfortunately have to be taxed. We recognise that the officers of the commercial taxes department must all of them be courteous, and we will see that they collect the taxes in as pleasant a way as possible. If there are any commercial tax officers who do not behave properly, I request hon. Members to bring it to my notice, so that they may be dealt with properly.

[Hon. Sri K. R. Karanth] [17th August 1946]

"Then as regards recruitment and representation in those services, it was said there was a great paucity of Muslims. I recognize it is so; that is due to the fact that this department has been on a temporary basis all along. At present, the Board of Revenue is engaged in the task of placing it on a permanent footing. Till now, the method of recruitment was that people were taken in from several departments under a Government order passed several years back. It was not a first recruitment, people were not taken directly into that service at all, but were taken from the Revenue department, the Abkari department—that was a time when Prohibition had been introduced and lots of them were out of employment—and also from the Registration department. Hon. Members are aware how even in those days and now people are taken on the communal ratio in all those three departments. But I do see from the figures that there is not enough representation of the Muslims. I can give figures if my hon. friends want; but I recognize it is not sufficient. This will be a matter which will be looked into when the department is placed on a permanent footing, which will be done after the Board of Revenue frames its proposals. The claim of the Harijans also will be considered in this respect. My friend Mr. Nagappa is rightly insisting upon greater recruitment of Harijans. I can say the Harijans can never be forgotten when the Muslims are being mentioned in this connexion.

"Then Sir, some mention was made about the Electricity department. There is a little misconception here because the only amount included in this demand is the pay of the Chief Electrical Inspector to Government and his staff who are engaged in working the Electricity Act. This department's work is to see whether the provisions of the Act are properly adhered to by the licensee concerns. It is only that section that this demand deals with and it has nothing to do with the supply of electricity to the several areas of the province. I therefore request hon. Members to press their charges, if they desire to do so, when the demand for Electricity comes up and not under this demand.

"There was one thing mentioned about the Entertainments Act, about the bad nature of the films and so on. This also concerns another department altogether. We are now on this demand which concerns the collection of the entertainments tax, which, after keeping 10 per cent of it for collection charges for the Government, is made over to the local bodies including the Corporation of Madras. Therefore, their finances are being enriched to that extent by the increase of 50 per cent in these rates. The question of the proper censoring of the films is a matter, which concerns, as far as I can see, the Police Demand which will come up before the House. That is the proper occasion.

"I submit, Sir, that I have tried to deal as best as I can with the various suggestions and criticisms made. I do not see any connexion between the imposing of a ban on some drama as mentioned by the member Mr. Venkateswarlu and the entertainments tax; there is no connexion. Sir, I have finished."

[17th August 1946]

* **MR. SPEAKER**:—"The House will remember that just now Dr. Subrahmanyam remarked that the Ministerialists also should be given a chance to speak. In all Legislatures not only in India but even in Europe and in the House of Commons, it is the Opposition that is given more chances than the Ministerialists. I have been giving chances even to the Ministerialists here; but the more important thing is, it should be realized that we have still about 33 Demands more before us, with only eight days for discussing and voting upon them. I hope all of you will co-operate with me and see that all the Demands are taken up and disposed of.

"I now call upon the Hon. the Premier to make a short reply."

THE HON. SRI T. PRAKASAM:—"Sir, I did not wish to say anything now on this Demand, but a few words might help in understanding the position of the Government. About the race course, much has been said, almost with one voice. We in this Government would not hesitate to remove all taxes of that kind, provided you have sufficient scope and strength to get along with the administration. It was said this is a sin money, you must stop it immediately. Sir, this sin money has been collected for such a long time and this country of ours has been getting along with that with protests and even without protests for a good many years. The only consideration, so far as we are concerned, is: if we cut away all the taxes referred to in the debate by hon. Members, what will be the position of the Government? That is the only question that we have to consider. Hon. Members of the House may take it that we are not taking a different view from those who have been urging upon us the removal of this race course business altogether. Personally, I will be the first man to do away with it without taking any other thought if I were alone and if I were free to take any decision. With the help of you all, we are trying to get on with this administration, and I know, however strongly you may criticize, you have also got in your minds the troubles which we on this side are going through and have to go through with your help. Therefore, leave us there and do not press us more just at this moment. As soon as possible, we will be able to do something about this race course business.

"Then about gambling, no sane man will ever support the gambling trade. I know the different places in the City itself where this trade is run, where this gambling is going on, detected or undetected. There are some cases detected, but undetected this trade has been going on on a very large scale in so many places. I may tell you all that we will do our best to put a stop to this gambling business in the City.

"Next about the entertainments tax, these entertainments puzzle some of us at times,—as to how this entertainment business has developed, how it has spread from the city to the remotest villages in the country. You do not know, Sir, how I have been

[Hon. Sri T. Prakasam] [17th August 1946]

feeling when I came across these entertainment buildings, huge buildings built at enormous cost, not in the City, but in the outlying villages in the countryside, not only in towns but in the villages also. And what is the entertainment that is being given in these places? I do not know how far we have been able to regulate this entertainment business in the past. Any regulation to be applied to entertainments should be for entertainments intended for the education and the benefit of the people in the land. On the other hand, it should not be the kind of entertainment we see nowadays, going the wrong way, producing very dangerous results, both in young minds and in the minds of the old.

5-15
p.m.

"Therefore, I may assure you on behalf of all of us that we will look into this entertainment business also. There are entertainments given for educating the masses. Sometimes, these schemes will be very helpful if they are properly regulated and if the masses are given proper education; but you find no such thing. Really you find that some of them will be engaged in entertainments of that sort but the rest will be going on in other directions which must be corrected and regulated as far as possible.

"Sir, we are not for destroying everything, and especially those buildings that are existing to-day. Our anxiety is to see that everything that has been built up must be utilized for the best use of the people and the country in general. That is our desire. It is our desire, Sir, that these buildings that have been built up by the Military during the last so many years for the purpose of carrying on the war should not be disturbed or sold away for a song by the Military authorities or by any higher authorities or by the Government of India; they should not be sold for a cheap price. They are all things that should be first put in the hands of the Provincial Governments ('Hear, hear.') and the Provincial Government must be asked to decide whether they are going to take them up. We want every building and every material that is in Avadi or in every other place in our Province. Therefore, whatever work may have been turned out in those buildings for the future, we would like to do the work which would be most beneficial for the men and women, young and old, of this country. That is our idea about them.

"In regard to entertainments, they have also come up and are functioning to-day. Some of us perhaps would never like them or tolerate them. Those who like to be absolutely puritan may like to pull them down all at once; but we will gradually take up everything and utilize them for the benefit of the people. ('Hear, hear.')

"Then about the sales-tax, Sir. Under the most extraordinary circumstances, the Sales Tax Bill was introduced and the Sales Tax Act was passed and the desire of the then Government was that the sales tax might yield the income required for starting Prohibition in the districts. That was the intention.

[17th August 1946] [Hon. Sri T. Prakasam]

Technically, whether it was earmarked or not, whether it was entered in the registers or not, it makes no difference. That that was the intention is quite clear and that it was intended to be kept apart also is clear; because at one time it was so stated in the records themselves that that money would be set apart for Prohibition. Later on that was changed. As I understood it, the whole thing got mixed up with the general finances. I thoroughly investigated into the matter and so far as I can gather, that is the material that I got in this connexion. In any case, it was the money that was originally intended for Prohibition and we give you an undertaking—as I told you once before on the floor of this House,—we give you an undertaking, that so far as the sales tax money is concerned, we shall try to keep it separate, so that for the future work there will be no difficulty. Though we have started Prohibition—not in four districts but in eight districts—and we are allowing that to be mixed up, there will be a direction that that money from sales tax should be set apart—because the year is coming to an end and the next year, again we have to take up the business—as it was originally intended, and used up for the purpose for which it was originally meant.

"So far as this sales tax is concerned, I tried to know how exactly it works. I also wanted to know simultaneously the working of the tobacco tax. I went to a village some eight miles from Vizianagram. We were talking with the villagers there, about the question of sales tax, how it affected not only big merchants but the consumers in the ordinary sense. There we saw a poor old woman who was sitting there with a little basket in which she was selling cigars and eking out her livelihood. We saw how that woman's business was affected. Since then, I was thinking that the sales tax is an Act in the working of which we must be very careful and wherever difficulties are noticed, they should be removed and wherever there are no difficulties, we can go straight on with the business, because it was intended to affect only those who are in a position to earn and pay. As my hon. Friend, Mr. Karanth has said, the trouble is not so much in the paying of the tax, but those merchants who are called upon to pay do not pay the tax themselves. The difficulty, as I have been able to understand it, not as Minister after I have taken charge here, but even before it, is that the poor people have to pay it.

"Even during these few months, people are running up to me with petitions and say 'we must face facts'. Whenever such cases come up, not one of us in this Government would leave it off; but we are going to the very bottom of it and doing our best to ascertain the exact trouble and to remedy the defects. My own feeling has been, and it has not been removed from my mind, that in the working of the sales tax the trouble is that which those have actually to pay the tax are put to. That has been the real trouble. My hon. Friend has not been able to express in clear terms what the real trouble was. It is not the tax that is due to

[Hon. Sri T. Prakasam] [17th August 1946]

the Government that causes trouble, but the 'other taxes' which he has to pay. I was very sorry to hear that. It will be our endeavour to put a stop to all such things as we go along with this business. We would make a straight taxation which will enable Government to collect straight from those people who are earning money on their own account and there will be no double-accounts and treble-accounts, written by themselves, to deceive themselves, deceive the Government and deceive the people also. These things have been going on. Therefore, Sir, the sales tax has given trouble which cannot be described by those people who have been called upon to pay. There is no question about it. It is just like the black-marketing of the bales of yarn and the bales of cloth which has been going on in another way in this country ever since the food famine and the cloth famine have come into existence. We are doing our best to checkmate these things. In the same manner, we are taking good care to see that so far as the sales tax administration is concerned, it will be done in such a manner that those who have to pay do not suffer. They are not even grumbling to pay these taxes; they say honestly: 'We mean to pay these taxes if we are left alone'. So, it is for us to find out ways and means by which we can give them protection and enable them to pay the tax—not only the $\frac{1}{4}$ per cent or $\frac{1}{2}$ per cent and if conditions demand, it may be even more—because, they earn money for their own sake; they earn money for the sake of their brethren in the country and they earn money for the sake of maintaining the State which gives them protection. Therefore, Sir, we will try to do our best with regard to this matter. No doubt, these are social reform matters; and social reform matters must naturally be solved by the people and the leaders themselves. For everything, the leaders, the party leaders and the leaders of the Unions should not come down upon the Government saying 'You are responsible for all these yourself'. On the other hand, to-day, Sir, matters are reaching a climax. I have been giving warnings whenever I went outside and even on the floor of the House. If the people are not going to take the warnings and feel themselves responsible to help the State but go on creating trouble and making it impossible for the Government to get along, then Government will take care of itself. I may assure those friends,—who are misguided friends—who are the people who think that by this strike or that strike they can floor this Government, they can make it impossible for the Government to run, and that they will be able to occupy the seat of the Government themselves and carry on the administration, let them not go under any such mistaken impression. That is why I stated to some hon. Friends who told me 'You have got the backing', that whether the backing is there or not, it will come when the time comes and that will be shown by the people themselves. Therefore, I appeal to everyone not to run away with that idea. I have been very careful in my expression. I have been very careful in the treatment which the Government gives to others. We have been very careful with these things, and these should not be misjudged as a token of weakness. They

[17th August 1946] [Hon. Sri T. Prakasam]

should not go on creating trouble for themselves and for others also. Every trouble that is created in the country to-day is not a trouble simply for the Government. Government have got its resources; it has got its powers; it has got everything to set right matters if they go wrong. But our anxiety has been not to do things in a careless manner, in a reckless manner but in a measured way. We are giving every opportunity to those who are bent upon creating this trouble. I grant the masses of the people are ignorant. Sometimes those poor people are put to trouble. When the trouble actually comes, there is nobody to give them protection. I am sorry the time is already over. Thank you very much Mr. Speaker, I am finishing my speech.

"In conclusion, I would appeal to all the hon. Members without any exception to give this Government as much help as possible as they have been endeavouring to do hitherto."

MR. SPEAKER:—"I hope the Leader of the Opposition will withdraw the cut motion."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"If I am asked expressly by the Hon. the Prime Minister, to withdraw the cut motion, I shall do so."

THE HON. SRI T. PRAKASAM:—"I ask the hon. the Leader of the Opposition to withdraw his cut motion."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I have great pleasure, Sir, to withdraw the cut motion standing in my name."

The motion was, by leave, withdrawn.

Demand VII was put and carried and the grant was made.

MR. SPEAKER:—"Before we disperse, I wish to remind hon. Members that from Monday onwards, the Assembly will sit till 6 o'clock and if the progress is not satisfactory, I am afraid, the Assembly will have to sit till 7 o'clock or 8 o'clock. It can be done only with the co-operation of the House. (Some hon. Members of the Opposition: 'Cut down the number of speakers.') I appeal to the Hon. the Premier, the hon. the Leader of the Opposition, the Leader of the Independent Party, and the Leader of the European Group, to co-operate with me in this matter."

The House then adjourned to meet again at 11 a.m. on Monday the 19th August 1946.

[17th August 1946]

APPENDIX.

[Vide answer to starred question No. 90 asked by Sri A. B. Shetty at the meeting of the Legislative Assembly held on 17th August 1946, page 507 supra.]

List of temples thrown open to Harijans—Vide clause (a) of question No. 83 by Sri A. B. Shetty.

- 1 Sri Anjaneyaswami and Chennakesavaswami temple, Nandikotkur, Kurnool district.
- 2 Sri Anjaneyaswami temple, Bollavaram, Kurnool district.
- 3 Sri Brahadeswarar temple, Tanjore.
- 4 Sri Viswanathaswamy temple, Malapakkam, Mayavaram taluk, Tanjore district.
- 5 Sri Meenakshisundareswarar temple, Madura.
- 6 Sri Kudalagar temple, Madura.
- 7 Sri Sundararajaperumal temple, Valayapatti, Melur taluk, Madura district.
- 8 Sri Kalamoghapurumal temple, Tirumohur, Madura taluk and district.
- 9 Sri Kambaroyaperumal, etc., temples, Cumbum, Periyakulam taluk, Madura district.
- 10 Sri Chockanathaswami temple, Golwarpatti, Sattur taluk, Ramnad district.
- 11 Sri Kuthalanathaswami Devasthanam, Courtallam, Tenkasi taluk, Tinnevely district.
- 12 Sri Kasiviswanathaswami Devasthanam, Tenkasi, Tinnevely district.

THE MADRAS LEGISLATIVE ASSEMBLY.

Monday, the 19th August 1946.

The House met in the Assembly Chamber, Fort St. George, at eleven of the clock, Mr. Speaker (THE HON. SRI J. SIVASHAN-MUKHAM PILLAI) in the Chair.

I.—QUESTIONS AND ANSWERS.

STARRED QUESTIONS.

Anti-corruption officers.

* 93 Q.—B. POCKER SAHIB BAHADUR (on behalf of M. A. Salam Sahib Bahadur): Will the Hon. the Prime Minister be pleased to state whether the local M.L.As. or at least the M.L.As. of the district will be allowed to know the activities of the anti-corruption officers so that they may help the Government to root out corruption?

THE HON. SRI T. PRAKASAM:—"The activities of the anti-corruption officers must necessarily be confidential as there is danger of their work being frustrated if there is any publicity."

B. POCKER SAHIB BAHADUR:—"Which is the machinery which the Government have set up for this anti-corruption work, Sir?"

THE HON. SRI T. PRAKASAM:—"We cannot disclose that either now."

SRI S. NAGAPPA:—"May I know, Sir, the number of cases so far booked by this Committee?"

THE HON. SRI T. PRAKASAM:—"Certainly this cannot be given now."

SRI B. ANANTACHAR:—"How should the public get into touch with the Anti-Corruption Committee, Sir?"

THE HON. SRI T. PRAKASAM:—"Arrangements are being made to set up non-official district committees who would get into touch with this machinery."

SRI N. VENKATASUBBAYYA:—"Is it a fact that only members of the Police Department are chosen as anti-corruption officers; and if so, whether it is not a case of robbers being asked to watch robbers?"

THE HON. SRI T. PRAKASAM:—"Information cannot be given more than what I have said."

MR. F. FERRELLY:—"Is the Prime Minister satisfied that these matters can be kept confidential if non-official committees are taken into their confidence?"

THE HON. SRI T. PRAKASAM:—"We have taken time to decide that aspect of it and finally we have come to the decision that we must choose non-official committees which will consist of members who will keep confidence and help Government and this House."

[19th August 1946]

MR. F. FERRELLY:—"Is it the intention of Government that non-official committees shall, in effect, have powers which ought to be properly let to the Police?"

THE HON. SRI T. PRAKASAM:—"They shall have no powers of their own in the matter."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know what procedure has been laid down for members of the public other than the members of the committee to make complaints with regard to any corruption that has taken place?"

THE HON. SRI T. PRAKASAM:—"The public can give the information to the local non-official committee without losing any time and without waiting for the arrival of the official committee."

B. POCKER SAHIB BAHADUR:—"May I know, Sir, whether it is not practical for the Government to take this House into its confidence by putting some of us also in that non-official committee?"

THE HON. SRI T. PRAKASAM:—"I did not expect such a question from my hon. Friend Mr. Pocker. This House has a right and authority and it must have the patience and get the work done."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know if everything is kept confidential, how the members of the public may know what they have to do in regard to this matter?"

THE HON. SRI T. PRAKASAM:—"When it is announced that non-official committees will come into existence, the public will be free to give the information to them, as I have been getting information from the non-official public from day to day, which I have been keeping with me and transmitting to the official machinery."

BEGUM SULTAN MIR AMIRUDDIN:—"May I know whether Muslims will also be appointed on those non-official committees?"

THE HON. SRI T. PRAKASAM:—"The hon. Member may know once for all that Muslims will not be excluded from any committee intentionally."

SRI A. KALESWARA RAO:—"May I know, Sir, whether the Government Order that an official whose reputation is consistently bad wherever he serves, can be punished, will be put into force?"

THE HON. SRI T. PRAKASAM:—"Every Government Order which will be of use will certainly be put into force."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"May I know, Sir, when these committees are expected to be constituted and to function?"

THE HON. SRI T. PRAKASAM:—"The hon. Member and others may know that in a way they have already commenced their work, I should say, but you cannot take it that all the other committees have come into existence. There is some delay."

[19th August 1946]

SRI N. S. VARADACHARI:—"Will these anti-corruption officers bear identification cards on themselves to show that they are officers intended for work on this purpose in order that other members of the public posing as such may not cheat other people?"

THE HON. SRI T. PRAKASAM:—"They may not be carrying on badges on their foreheads or on their chests, but there will be sufficient identification."

SRI GUNTUR NARASIMHA RAO:—"May I know whether anti-corruption officers who have been appointed now have been previously corrupt?"

THE HON. SRI T. PRAKASAM:—"I do not understand the hon. Member. He may go to the microphone and speak more clearly?"

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"How does this confidential machinery differ from the Gestapo, Sir?"

THE HON. SRI T. PRAKASAM:—"My hon. Friend must know it for himself."

SRI S. NAGARAJA MANIGAR:—"May I know, Sir, when the anti-corruption machinery has been set to work and whether the progress made by it so far is satisfactory?"

THE HON. SRI T. PRAKASAM:—"The progress made may be taken as satisfactory even though it has not properly commenced its work."

SRI A. KALESWARA RAO:—"Has it been brought to the notice of Government that on account of inefficiency and corruption on the part of police officials in the Kistna district a serious situation has arisen and have Government taken any action on it?"

THE HON. SRI T. PRAKASAM:—"Every action has been taken. Perhaps the final stages have not been reached. An enquiry has been set on foot."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Am I to understand that Government have taken measures to prevent any temptation being placed in the way of individuals in order that a case can be made?"

THE HON. SRI T. PRAKASAM:—"Those who offer temptations will not be protected."

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Is it a fact that retired police officials have been appointed as anti-corruption officers?"

THE HON. SRI T. PRAKASAM:—"As I said previously, this information cannot be given now."

B. POCKER SAHIB BAHADUR:—"May I know whether this anti-corruption committee is a committee or a single officer?"

THE HON. SRI T. PRAKASAM:—"It is rather a big machinery. It does not consist of a single officer."

[19th August 1946]

SRI NEELAM SANJEEVA REDDI:—"Is it a fact, Sir, that one Ganesa Rao, a retired Police officer, who has no honest record of past service has been appointed to this committee?"

THE HON. SRI T. PRAKASAM:—"No information can be given and no hon. Member will be entitled to reflect upon the character of any persons."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"May I know, Sir, whether it is true that members of this House are interfering with the administration of justice in the Kistna district and are bringing pressure upon police officers and intimidating them?"

THE HON. SRI T. PRAKASAM:—"I have no information. Perhaps I may modify the statement and say that several complaints came from several districts and these matters are being investigated into."

SRI V. I. MUNISWAMI PILLAI:—"Will the Government give an undertaking that the names of the informants who give information about corruption to these non-official committees, will not be revealed?"

THE HON. SRI T. PRAKASAM:—"Whose names, the names of the Committee Members or the names of those who give information?"

SRI V. I. MUNISWAMI PILLAI:—"The names of those non-officials who come forward to give the names of the people who are corrupt."

THE HON. SRI T. PRAKASAM:—"Certainly. They would be asked not to disclose the information."

SRI M. S. PATTABHIRAMA AYYAR:—"May I know what are the powers delegated to the anti-corruption officers; are they given magisterial powers or do they act as the Scotland Yard Officers in England in detecting crime?"

THE HON. SRI T. PRAKASAM:—"The hon. Member may wait for some more time before any information can be given on this subject either. He will have every information when the time comes."

M. S. ABDUL MAJEED SAHIB BAHADUR:—"Will the Hon. the Premier be pleased to state whether a machinery has been evolved to prevent corruption among anti-corruption officers?"

THE HON. SRI T. PRAKASAM:—"Every care has been taken and necessary action will be taken if any specific information is forthcoming."

B. POCKER SAHIB BAHADUR:—"May I know, Sir, when the report of this anti-corruption committee will be made available to this House?"

THE HON. SRI T. PRAKASAM:—"As soon as the work is completed."

[19th August 1946]

MAHBOOB ALI BAIG SAHIB BAHADUR:—"May I know whether the procedure for detecting crime by these anti-corruption officers will differ in any way from the procedure laid down in the Criminal Procedure Code and other departmental rules and orders?"

THE HON. SRI T. PRAKASAM:—"Every care will be taken to see that the procedure adopted will not be inconsistent with the procedure under law, either under the Criminal Procedure Code or the several other Acts and Codes that are in existence."

SRI P. VENKATESWARLU:—"Will the Government assure the House that the non-official committee will not consist of persons having political prejudices against other political parties?"

THE HON. SRI T. PRAKASAM:—"Good care will be taken to see that no distinction will be made between offender and offender."

SRI K. SUBBA RAO:—"Will the Government assure the public that people who give evidence will be protected?"

MR. SPEAKER:—"We now pass on to the next question."

Poor patients from mufassal.

* 94 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Public Health and Medicine be pleased to state—

(a) whether it is a fact that a number of poor patients belonging to the mufassal when they are discharged from the hospitals are compelled by sheer poverty to go about begging during their convalescence because there is no Convalescent Home for them; and

(b) the measures that the Government propose to take to help such unfortunate persons?

THE HON. MRS. LAKSHMIPATHI:—" (a) The answer is in the negative.

" (b) Sufficient care is taken to see that poor patients are properly cared for, on discharge from the Government hospitals in the city. When destitute patients are not likely to benefit by further medical treatment and yet are too infirm to earn a livelihood in Madras, the Medical Officer in charge of the hospital reports the matter to the Police who provide a conveyance and detail a constable to accompany European and Anglo-Indian paupers to the Friend-in-need Society's Home and Indian paupers to the Monegar Choultry after the Medical Officer had previously ascertained that accommodation is available for the patients. Sick paupers found in a state of exhaustion due to starvation and requiring help are admitted to the nearest hospital. The Medical Officers in charge should admit them and hand them over to the Police when they are in a fit state to be discharged. Poor patients in the mufassal requiring special treatment are sent to Madras and after the treatment is over they are sent back to

[19th August 1946]

the mufassal, their to and fro charges being met by Government. The question of providing additional accommodation for destitutes suffering from incurable diseases is under consideration."

BEGUM SULTAN MIR AMIRUDDIN:—"Will the Hon. the Minister consider the desirability of establishing a convalescent home for these unfortunate people?"

THE HON. MRS. LAKSHMIPATHI:—"The suggestion will be considered."

SRI T. S. PATTABHIRAMAN:—"Will the Government arrange for opening poor houses throughout the Presidency?"

MR. SPEAKER:—"That question does not arise."

Labour disputes settled by the present Ministry.

* 95 Q.—SRI A. B. SHETTY: Will the Hon. the Minister for Industries and Labour be pleased to state the number of labour disputes which have been settled since the present Ministry assumed office?

THE HON. SRI V. V. GIRI:—"Eighty-six trade disputes have been settled since the present Ministry assumed office. These include 13 cases in which conciliation or adjudication was ordered."

SRI A. B. SHETTY:—"May I know, Sir, whether the Government are proposing to introduce any legislative measures for the settlement of industrial disputes like the one they have in Bombay?"

THE HON. SRI V. V. GIRI:—"Yes, Sir."

SRI S. NAGAPPA:—"May I know, Sir, whether the number given in the answer includes the dispute that arose between landlords and agriculturists in Tanjore?"

THE HON. SRI V. V. GIRI:—"Yes, Sir."

SRI S. NAGAPPA:—"Will the Hon. the Minister for Industries and Labour be pleased to state if in any of the cases the Government was not able to accept the report of the conciliator?"

THE HON. SRI V. V. GIRI:—"Generally in all cases the report of the conciliator has been accepted."

M. A. SALAM SAHIB BAHADUR:—"May I know in how many cases the Government have rejected the conciliator's report?"

THE HON. SRI V. V. GIRI:—"None, Sir."

SRI S. NAGAPPA:—"May I know, Sir, why the recommendation of the adjudicator was not enforced in the dispute in Tanjore?"

THE HON. SRI V. V. GIRI:—"There were some legal difficulties."

M. A. SALAM SAHIB BAHADUR:—"May I know, Sir, whether in regard to the Spencer dispute the Government was able to accept the report of the conciliator?"

THE HON. SRI V. V. GIRI:—"Exactly."

[19th August 1946]

SRI P. VENKATESWARLU:—"May I know, Sir, what action has been taken by the Government to settle the dispute between the municipal workers and the Madras Corporation?"

THE HON. SRI V. V. GIRI:—"The Government have appointed a conciliation board."

SRI S. NAGAPPA:—"May I know, Sir, when the award has been given by the adjudicator and the Government does not enforce the adjudication, what is the purpose of appointing the adjudicator?"

THE HON. SRI V. V. GIRI:—"Ordinarily the adjudication is accepted and executed unless there are legal difficulties."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"When there is a possibility of not accepting the conciliator's findings, is it not always better that an adjudicator should be appointed so that both the parties may be bound by it?"

THE HON. SRI V. V. GIRI:—"It is generally accepted."

SRI N. VENKATASUBBAYYA:—"May I know, Sir, whether considering the fact that the roots of these troubles are traceable to the economic order of the present-day life, there is any proposal for socialising industries?"

THE HON. SRI V. V. GIRI:—"That is too big a question to be answered at question time."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"May I know, Sir, whether it is not advisable, instead of making the parties impatient and wasting time by appointing a conciliator, even in the first instance, to appoint an adjudicator?"

THE HON. SRI V. V. GIRI:—"Settlement of disputes by conciliation is better than settling them by adjudication."

SRI R. V. SWAMINATHAN:—"May I know why the Government moved so slowly in the matter of appointing a conciliator in connexion with the scavengers strike, in that the conciliator was appointed 29 days after the notice had been given?"

THE HON. SRI V. V. GIRI:—"We do not accept the statement."

SRI P. VENKATESWARLU:—"Is it a fact that Guntur Municipality had agreed to Rs. 21 per mensem as wages excluding other allowances in order to effect a settlement of the strike of the municipal workers there?"

THE HON. SRI V. V. GIRI:—"We have no information."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"May I know whether the Government have considered whether there is any real reason besides the ostensible ones that are being put forward by labourites?"

THE HON. SRI V. V. GIRI:—"I am thankful to the Hon. Member for the information."

[19th August 1946]

SRI A. KALESWARA RAO:—"Is it not a fact that Communists are behind most of these strikes and are making conciliation impossible by putting up impossible demands?"

THE HON. SRI V. V. GIRI:—"I take the information from the hon. Member."

SRI P. VENKATESWARLU:—"May I know what has become of the adjudication in the dispute between the Pallavaram tannery workers and the management?"

THE HON. SRI V. V. GIRI:—"I do not know if it is an adjudicator's award. It is a conciliator's report."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"May I know whether the Hon. Minister knows that labour which is led by so-called Communists to-day were led by Congressmen themselves during the Adviser's regime?"

MR. SPEAKER:—"That question does not arise."

SRI P. VENKATESWARLU:—"Seeing that the owners of the Pallavaram tannery are not respecting the report of the conciliator and the fact has come to the notice of the Government, may I know what action the Government are taking to settle the dispute?"

THE HON. SRI V. V. GIRI:—"We are trying to see how the settlement can be effected."

B. POCKER SAHIB BAHADUR:—"May I know, Sir, whether the decision of the conciliator is not heeded by the workmen and not by the owners?"

THE HON. SRI V. V. GIRI:—"I think the information is correct."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"In view of the experience of the Hon. Minister ever since he assumed office of the numerous strikes that have been taking place, is the Hon. Minister considering any legislative measure in order to prevent the epidemic of strikes?"

THE HON. SRI V. V. GIRI:—"Yes, Sir."

SRI P. VENKATESWARLU:—"Do the Government propose to fix a decent minimum wage level by means of legislation so that strikes may be avoided?"

THE HON. SRI V. V. GIRI:—"We are considering that question as well."

MR. H. S. TOWN:—"Will the Hon. the Minister let us know Government's view on the provision of funds for the strikers by the Corporation?"

THE HON. SRI V. V. GIRI:—"Notice."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Is the Hon. Minister aware that as early as January this year, there was a

[19th August 1946]

notice of strike by the scavengers and the Civic Committee addressed the Government on the appointment of a conciliator?"

THE HON. SRI V. V. GIRI:—"We were not in office then. But a month's notice was given recently."

SRI P. VENKATESWARLU:—"Are the Government aware that the wages of the tannery workers are scandalously low?"

THE HON. SRI V. V. GIRI:—"I cannot say."

SRI S. NAGAPPA:—"In regard to the Tanjore dispute may I know, Sir, whether the Government have been able to overcome the legal difficulties at least now?"

THE HON. SRI V. V. GIRI:—"We are thinking of it."

SRI V. C. PALANISWAMI GOWNDER:—"May I know, Sir, whether in view of the introduction of Prohibition in Coimbatore and other districts, labour trouble is brewing between the toddy tappers and the contractors?"

THE HON. SRI V. V. GIRI:—"We must face the problem as it arises."

SRI V. C. PALANISWAMI GOWNDER:—"May I know Sir, whether the Government would forestall the trouble by taking immediate action?"

THE HON. SRI V. V. GIRI:—"When we know what the trouble is, certainly we shall do everything possible even to forestall it."

M. A. SALAM SAHIB BAHADUR:—"May I know, Sir, whether some of the Members of the Treasury Benches were themselves leaders of strikes in the past?"

THE HON. SRI V. V. GIRI:—"I do not know anything about it."

M. A. SALAM SAHIB BAHADUR:—"May I know if the Labour Minister was not himself leader in the Railwaymen's strike?"

THE HON. SRI V. V. GIRI:—"I am not sorry for it, Sir."

M. A. SALAM SAHIB BAHADUR:—"May I know, Sir, whether legislation concerning agrarian and industrial labour also is before the Government?"

THE HON. SRI V. V. GIRI:—"Yes, Sir."

M. A. SALAM SAHIB BAHADUR:—"May I know how many days after strike notice a conciliator was appointed regarding the scavenger dispute?"

THE HON. SRI V. V. GIRI:—"As soon as the strike notice was given, there was a conference of three Ministers, myself, the Minister for Local Self-Government and Public Health. We have had discussions about it and we also consulted our hon. Friend opposite Mr. Venkateswarlu."

"As regards the number of days we have taken, I may say we have taken only so many days as were necessary."

[19th August 1946]

SRI P. VENKATESWARLU:—"May I know if in the Andhra area the conciliator was appointed after twenty-nine days of the strike notice?"

THE HON. SRI V. V. GIRI:—"The hon. Member must understand that so far as the scavengers dispute is concerned, it is a thing extending from Madras to Ganjam."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"May I know whether in the matter of the tannery dispute such legislators as are interested in tanneries will be taken into consultation?"

THE HON. SRI V. V. GIRI:—"Yes, certainly."

Bifurcation of studies.

* 96 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Minister for Education be pleased to state—

(a) in what stage the question of bifurcation of studies is at present;

(b) whether the recommendations of the Education Sub-Committee of the Post-war Reconstruction Committee in regard to bifurcation of studies will be implemented; and

(c) whether the Government have considered the desirability of framing suitable rules and regulations in regard to appointments in schools?

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"(a) The details of the scheme are being worked out.

"(b) They will be considered when the detailed scheme is submitted to Government for approval.

"(c) No. The question will be taken up after the detailed scheme is drawn up."

BEGUM SULTAN MIR AMIRUDDIN:—"Mr. Speaker, the following words, 'so as to encourage more students to take to the arts courses of study' appear to have been omitted. I am not sure if it is a printing mistake and I wish to bring it to your notice."

MR. SPEAKER:—"Questions as they are admitted appear in the order paper. It is possible that that portion might have been disallowed by me as containing an argument or as contravening the rules bearing on the admission of starred questions. I shall look into the question."

SRI A. KALESWARA RAO:—"May I know, Sir, whether it is a fact that the Wardha Scheme is much more useful and is much cheaper than the scheme of bifurcation recommended by the previous Government?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"This is a post-Wardha scheme education."

BEGUM SULTAN MIR AMIRUDDIN:—"May I know whether it is a fact that the scheme has been prepared and has been ready for the past several years?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

No, Sir."

[19th August 1946]

BEGUM SULTAN MIR AMIRUDDIN:—"Is it not a fact that the late Sir Meveral Statham prepared a comprehensive scheme about the bifurcation of studies?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"Not so far as I am aware."

B. POCKER SAHIB BAHADUR:—"May I know in what stage the report of the Education Sub-Committee of the Post-War Reconstruction Committee is; whether it has been submitted to the Government and with whom the report is pending consideration? What decision the Government have taken on it?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"Outlines of the scheme have been submitted and the details are being worked out."

KUMARARAJA SIR MUTHIAH CHETTIAR OF CHETTINAD:—

"Arising out of the answer to clause (b) of the question, Sir, may I ask the Hon. Minister for Education to place on the table of the House a copy of the report?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"It can be had in the library."

SRI A. KALESWARA RAO:—"May I know, Sir, whether it is not a fact that the Wardha Scheme covers both primary, secondary and high-school education so that a girl or boy will get Matriculation knowledge by seven years' training and also have a good knowledge of Hindustani?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"No, Sir. As far as I am aware, the Wardha Scheme has been worked only up to the basic education, that is, up to 14 years."

B. POCKER SAHIB BAHADUR:—"May I know, Sir, whether it would not be advantageous if Government placed on the table of the House the recommendation of the Education Sub-Committee and also the Wardha Scheme, so that members of the House may know what is what?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"It is not necessary, Sir. They are available in the Library of the Legislature and they can be had for the mere asking."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Will the Hon. Minister consider the advisability of consulting such interests as would be able to help him in coming to a decision which will be satisfactory to those interests before Government take steps, so that there may not be the necessity of withdrawing it afterwards?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—

"I do not know what the hon. Member means. If he means public opinion should be taken in the matter, the suggestion will be considered."

[19th August 1946]

BEGUM SULTAN MIR AMIRUDDIN:—" May I know, Sir, by what time the Scheme will be ready and whether the Scheme will be placed before the House? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—" It is expected that the Scheme will be ready before the next budget is framed."

BEGUM SULTAN MIR AMIRUDDIN:—" May I know, Sir, whether the Government are training the necessary personnel for introducing the bifurcation of studies? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—" The scheme must be ready before we know what training should be given to the personnel."

B. POCKER SAHIB BAHADUR:—" Will Government be pleased to appoint a committee of expert educationists and consult them before coming to a conclusion on an important subject like education? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—" I am at a loss to understand the difficulty of my hon. Friend. The expert committee has already submitted the report. It is available in the Library, and he can see it for himself."

MAHBOOB ALI BAIG SAHIB BAHADUR:—" May I know what objection has the Hon. Education Minister to associate or consult Members of this House, who represent different interests or different cultures? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—" I have absolutely no objection to consult them on such an important point when necessary."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—" Will the Hon. Minister for Education accept our heartiest congratulations for that statement? " (Laughter.)

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—" I must congratulate the hon. Member for coming forward with that now." (Laughter.)

BEGUM SULTAN MIR AMIRUDDIN:—" With reference to (c), Sir, may I know whether the Government are aware that one of the chief reasons for congestion in colleges is that a majority of students take to science courses? "

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—" I do not understand the relevancy of that question to this."

M. S. ABDUL MAJEED SAHIB BAHADUR:—" On a point of order, Sir, in view of his age, would it not be in order to permit the Hon. Premier to sit and answer questions and reply to debate? " (Laughter.)

MR. SPEAKER:—" If the Hon. Premier wants permission to sit and answer questions, I have no objection. Any Member, if he is sick, may apply for permission and I have no objection to give it."

[19th August 1946]

N. MUHAMMAD ANWAR SAHIB BAHADUR:—" As Members of the Opposition, we want to be most considerate to the Hon. Premier, who is now in the winter of his old age." (Laughter.)

MR. SPEAKER:—" I have no objection to give, if he wants."

THE HON. SRI T. PRAKASAM:—" I may assure hon. Members that the Prime Minister would not be in need of the concession or the privilege of sitting and answering questions before any of the other younger Members of the House requires it." (Laughter.)

[N.B.—An asterisk (*) at the commencement of a speech indicates revision by the member.]

II.—DEMANDS FOR GRANTS FOR 1946-47.

DEMAND VIII—IRRIGATION.

* THE HON. SRI M. BHAKTHAVATSALAM:—" Mr. Speaker, Sir, on the recommendation of His Excellency the Governor, I move—

"that the Assembly do assent to a demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as together with the expenditure already incurred in April 1946, will amount to Rs. 1,60,68,700 in respect of the head Irrigation. The expenditure incurred in April 1946 is believed to be Rs. 5,78,016."

"As hon. Members would have noted, particulars about this demand are to be found in pages 64-67 of the Budget Memorandum and in pages 47-55 of the Detailed Budget Estimate."

B. POCKER SAHIB BAHADUR:—" Mr. Speaker, Sir, on behalf of M. Muhammad Ismail Sahib, I move—

"to reduce the allotment of Rs. 1,60,68,700 for Irrigation by Rs. 100."

In doing so, I wish to restrict my speech to only one grievance, namely, the urgent necessity for providing irrigation facilities to the West Coast area. For the last decade or even a century, I may say, proper attention has not been paid to Malabar with regard to irrigation; because there was a wrong belief that Malabar was favoured by the monsoon and so it does not need any attention in the matter of irrigation. In fact, while crores and crores were spent. I do not say, they are sufficient, on other parts of the Province, both Tamil and Andhra districts, not a pie was spent on Malabar previously. It is all due to the wrong belief that Malabar does not require any attention under irrigation. In fact, even this theory has been exploded long ago; investigation has already been made on the advisability or necessity of irrigation facilities in Malabar, and those reports are now lying dust-laden in the shelves of the Secretariat. Of course, the previous Government had entirely neglected Malabar. When

[B. Pocker Sahib Bahadur] [19th August 1946]

the Congress Ministry came into power in 1937 some further inquiries were made, and I understand that not less than ten schemes were prepared but no effect was given to them. I understood the other day the Hon. Minister for Public Works was taking up some of these schemes and paying some attention to them. I would request special attention should be bestowed on the West Coast in view of the fact that it had been neglected in the past.

"The other point which I would like to mention is about the inadequacy of Muslim representation in the Public Works Department. Of course, this is a matter about which we, on this side, have to repeat on every cut motion. In view of the fact that figures are not available on this subject I am unable to make any detailed criticism. So I would content myself by urging that adequate representation should be given to Muslims in the Public Works Department as per the communal Government Order. With these few words, Sir, I move the cut motion."

* ABDUL HAMEED KHAN SAHIB BAHADUR :—"Mr. Speaker, Sir, in supporting the cut motion that has been moved by Mr. Pocker I wish to say just a few words on a very important thing that affects both the City of Madras and the District of Kurnool. Before I do so, I wish to state that the Government of Madras have not been giving that amount of attention to the question of irrigation, and particularly, to major works in this Province, which they ought to. Year after year a major portion of the allotment under Irrigation has been spent on maintenance and on small improvements. I find from the Budget, if my calculation is correct, even this year, the amount allotted for major works does not go beyond 20 per cent of the total amount under the Demand. As I said, most of the amount is sought to be spent on maintenance and minor improvements. A good portion of the amount that is spent on Irrigation is productive; for Government get back the amount invested by way of land revenue under another account. So I do not see any reason why, particularly in view of the fact that we have such bumper revenues in the recent few years, Government should not allot more money for major works which have been awaiting completion for years and years.

"There is no work of the type of Mettur or of similar works so far as the Ceded Districts are concerned. It is true that after many years of dispute and negotiations, the Tungabhadra Project has been undertaken. That project is likely to help only a portion of the Ceded districts. There are other districts in that very unfortunate area in this Presidency which require the attention of Government in order that those districts will be improved to such an extent that they will not any longer be famine areas as they have been in the past. I hope, Sir, that this Government, unlike the previous Government, will take a bold step and venture and try to see something done radically in order to save these districts from the famine that has been there in the past years. On account of the peculiar nature

[19th August 1946] [Abdul Hameed Khan Sahib Bahadur]

of these districts, the irrigation works that have to be undertaken and completed in these districts will be very different from those in other areas. We have delta areas where the Government finds it easy to carry out irrigation works. Whatever undertaking is found difficult that is kept off for a future date. That ought not to be the policy. Major projects in Kurnool and other Ceded districts should be taken up so that they may help the people of those areas in the most adequate manner. In the neighbouring areas, for instance, Nizam's Dominions, the Government knows that colossal amounts have been spent on major irrigation projects, on sagars which have been very useful in cultivation and other things so far as the Nizam's Dominions are concerned, during the last ten years. We cannot say the same with regard to the neighbouring areas in the Ceded districts so far as the Madras Government is concerned."

(At this stage, Begum Sultan Mir Amiruddin assumed the Chair.)

"Coming to the City of Madras, it is indeed very unfortunate that we have the rotten Buckingham Canal passing through the City, and no notice has been taken so far of this Buckingham Canal, which is supposed to be a navigable canal. Anybody who lives in Triplicane, or anybody, who passes along the new road that is put up by the side of the Women's Hospital, will know the awful and deplorable condition in which this canal has been allowed to lie all these years. It is not only a very old type of canal in the big, advanced City of Madras, but it is responsible for emanating odours which are very objectionable and unwholesome particularly to the patients who are in the Gosha Hospital. Then we have got the famous Cooum. This is an eye-sore and a thing which will be a disgrace to any civilized Government or to any city. It has been allowed to lie like this for ages, and the view that the Government of Madras has been taking that it is the duty of the Madras Corporation to attend to it is wrong. On the other hand, the Cooum has to be attended to by the Provincial Government itself. Although that was the case, the Madras Corporation has spent a couple of lakhs of rupees in order to excavate certain places and tried to see whether it cannot be improved. I do not know to what extent that improvement will be lasting and effective, but yet I believe that it is the duty of the Government of Madras to see that this very urgent, and important, and necessary matter is attended to without any further delay.

"So far as the district of Kurnool is concerned, there are four or five important projects which are unattended to for many years, and which, I hope, the Government of Madras will see that they are taken up as early as possible.

"The question of representation of Muslims in the Irrigation department has been referred to by Mr. Pocker already. Although the number of qualified Muslims in engineering has increased, on account of the various rules that have been made regarding the recruitment, it has not been possible for the Government to

[Abdul Hameed Khan Sahib Bahadur] [19th August 1946]

entertain qualified Muslims in the services. In the case of Muslims and Scheduled classes, this department of engineering ought to give a helping hand and so that they may come up, and inequalities that exist in the department between one community and another may be removed as soon as possible.

“With these words, Madam Chairman, I support the cut motion.”

* H. S. HUSSAIN SAHIB BAHADUR:—“Madam Chairman, if the war has done one good thing, it is the fact that on account of food shortage our eyes have been sufficiently opened, wide enough, to realize the urgent need for the extension of irrigation in this Province. This Government has taken this matter in right earnest, and we are glad to see that the Minister concerned is taking a very active and keen interest not only in the matter of major irrigation projects, but in extending the minor irrigation projects all over the Province. In this connexion I would like to draw the attention of the Hon. Minister pointedly to the fact that apart from this question of major irrigation projects, South Kanara has been neglected all along even in the matter of minor irrigation projects. I do not know why all the Governments in the past have neglected this district and have, so to say, completely forgotten its irrigational needs. Before the war, Government was under the wrong impression that South Kanara district was a surplus district. That myth has now become exploded, and to-day the district of South Kanara is not at all a surplus district and not even a self-sufficient district, but a deficit district. That is the real position of South Kanara. But what has been done so far with regard to the problem of irrigational facilities, even the smallest irrigational facilities in the district of South Kanara? So far as I know there is not one single minor irrigation project that has been put through by the Government so far. I feel hopeful that this Government will pay the attention that is necessary to this district in the matter of extending the irrigational facilities. It is at the tail end of the Presidency and no doubt it is impotent and powerless. But that does not mean that Government should neglect it. It is a narrow strip of territory lying between the Western Ghats and the sea. From the ghats to the sea it is 25 to 30 miles wide. The rivers flow down into the sea. There is heavy rainfall no doubt, but all the rain water goes to the sea and goes to waste. There are many catchment areas between the hills and on the hill-sides. If the Government should only make up its mind to dam these rivers and to bund up the catchment areas, we can have reservoirs of water for not only extending the area of cultivation in the district but also for growing double crops. All these possibilities are there if only the Government would pay a little attention to this district which is far away from the headquarters of the Province. I would, therefore, request the Public Works Minister to pay a visit to this district and find out for himself by visiting certain areas the possibility of pushing through the minor irrigation projects. There is one irrigation scheme before the Government

19th August 1946] [H. S. Hussain Sahib Bahadur]

now, and that is what is called the Shiriyas Irrigation Scheme. It is in the Kasargod taluk. The original estimate prepared by the Engineer, I am told is Rs. 7,00,000, and I am also told that it is possible to reduce this estimate to half the amount. I am sure the Minister and the Government as a whole will interest themselves in this scheme and see that the project is put through within the shortest time, at any rate by the end of 1947. I do not wish to say anything more with regard to this matter. I support the cut motion moved by my hon. Friend Mr. Pocker.”

* MUHAMMAD RAFAEUDIN AHMED ANSARI SAHIB BAHADUR:—“Madam Chairman, I would like to endorse the statement made by my hon. Friend Mr. Abdul Hameed Khan that the Government is not paying as much attention to this department as it ought to. It is quite possible that this matter may not be of the same propaganda value as subjects like rural reconstruction, khadi, or Harijan uplift, but I may assure the House that it is of the greatest importance to the agriculturists who form the backbone of this Province. Therefore, I would urge upon the Government to pay more attention to this subject than it has hitherto done. The state in which the irrigation canals are kept, particularly in Nellore district is, to say the least, scandalous. They are overgrown with weeds and are silted up, and whatever water is allowed through these canals does not reach the fields on account of the neglected way in which these canals are kept. I would like the Hon. Minister to pay special attention to the proper upkeep of the irrigation canals. The Kanigiri reservoir is now silted up to an extent of more than 9 feet. The Nellore tank is in the same bad condition. I emphasize the fact that Government, instead of embarking upon new projects, should pay more attention to the existing sources of irrigation and keep them in proper repair. I also would like to draw the attention of Government to the Mopad Project in the Kandukur Division of the Nellore district. We were told that that project had been a failure. We do not know why that has been a failure. I would like the Minister to examine it and let us know what was the real reason for the failure and whether it is not really possible to improve the project and make it really successful. With these words, I support the cut motion.”

* SRI P. VENKATESWARLU:—“Madam Chairman, in supporting the cut motion, I want to bring to the notice of the House that we have to consider irrigation in the light of the food scarcity that is facing us. We were told times out of number that our food problem had become serious. Our Food Minister is going from Madras to Delhi and Delhi to Madras to get supplies. What about the irrigation projects? How far have we fulfilled our duty? You are aware that no fresh land has been brought under cultivation. At least after the next two years, can we have our 16 ounces of ration, which has been cut to 8 ounces now? These are problems which we have to take into consideration when we are planning our irrigation budget. That is why the first item on the agenda should be the irrigation problem. Unless it is solved

12
noon

[Sri P. Venkateswarlu] [19th August 1946]

satisfactorily, our food problem will become worse. So my humble suggestion is that the Ministry must give immediate consideration to the carrying out of minor irrigation schemes. As my hon. Friend Mr. Pocker has pointed out, not a single scheme has been taken up in the Malabar district. This is a sorrowful state of things. Even schemes for which estimates were ready were not taken up, but left in the lurch, and the schemes that were actually taken up were not fulfilled. For schemes that have been accepted, all the required funds are not being reserved, that is we are adopting the same old policy of doing bit by bit. This policy must go. The Ministry must come forward boldly to take up all the minor irrigation schemes at least, so that we may be able to produce sufficient food not only for us but also for the starving people in other parts of the country. For that, all the minor irrigation schemes must be taken up.

As regards taking up of irrigation schemes, I remember very well the Hon. Prime Minister saying in his reply to the general discussion on the Budget that it was humanly impossible to finish the Kamapadasagara Scheme. If the Government have a mind to finish it, we are prepared to supply all the human labour. (The Hon. Sri T. Prakasam: 'Who said, Sir, that it was humanly impossible to finish that project?') The Hon. Premier said that it was humanly impossible, when I suggested that these schemes must be taken up and finished. That was the reply that I got. Whether that has been put in the paper, I cannot now say. Apart from that, if you agree that it is humanly possible, what I suggest is that it must be taken up immediately and finished without any further delay. In this connexion, I would like to bring to the notice of the House a statement made by Sir S. V. Ramamurti, then an Adviser of the Madras Government, that the Government had up till then spent 200 crores of rupees on famine relief in the Rayalaseema districts, whereas had the construction of the Tungabhadra Project been taken up in 1857, about two crores of rupees would have been sufficient. So much money has been wasted, and people are still dying of famine. What I wish to bring to the notice of the House, is by this piecemeal policy of not taking up any schemes completely, not only can we not save our people from starvation and death, but our money will also be wasted. About one crore of rupees is going to be spent for famine relief. What I suggest is that this one crore of rupees be expended upon minor irrigation works in Rayalaseema, so that we can help the people there, instead of spending it for breaking stones in Rayalaseema hillocks. I like to bring to the notice of the House cases where estimates having been prepared provision was not made, or where provision was made, it was in a halting manner. For instance, the Pedalanka Scheme was estimated to cost Rs. 13,80,000 whereas only Rs. 3,50,000 was provided. At this rate of providing Rs. 3,50,000 every year, I do not know how many years it will take to finish the scheme, and how long the famine, which is staring at us, is going to last. Famine is not going to wait; it will kill us if we do not finish our schemes quickly and save our people. The Komaragiripatnam Scheme had been

[19th August 1946] [Sri P. Venkateswarlu]

estimated to cost Rs. 85,000, but only Rs. 20,000 had been spent. So many similar schemes can be brought to the notice of the House, but I will mention only one more. That is in Penukonda which is declared as a famine area. It is the Kanduleru Project which the officers promised would be taken up but it has not at all been taken up. I suggest that the Government must take up all these schemes immediately and then only we can feed our people well and save them."

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Madam Chairman, I hail from a district which suffers from the paralysis of the Palar. For generations ours has been a cry in the wilderness, and I believe Heaven only knows when the Palar will discover its godfather. Will that distinction be reserved for the Hon. Minister for Public Works now, who passes through my constituency ever so many times, even though the Palar looks down upon him with contempt (laughter). If only he pays his attention to this need which is long overdue, all the agriculturists of the North Arcot district will be bound in deep debt of gratitude to him for ever and ever. To them, the Palar is their life blood. I am only sorry to say that all these generations, we have been having only lip sympathies. We do not think that there is any such thing as irrigation so long as we see that the Palar is as dry as dryness can be.

"Every time we offer suggestions from this side of the House, we always get this retort from the other side that they have no finance. It has been the bane of our public finance that every scheme of reconstruction is allowed to shipwreck on the rock of finance. We have no bold ventures. We always aim at conservative principles of balanced budgeting and we want to confine within the four corners of that balanced budget, all our schemes for uplift. I would only urge upon this Ministry, that if they have the interests of the people in the countryside at heart, they should by borrowing go ahead with schemes particularly with such productive irrigation schemes as the Palar and give us their blessings and see that our constituencies smile with plenty. I see that, with all their enthusiasm for rural uplift, they are always feeling that they cannot go one step further beyond their balanced budget. I want that they should banish from their thoughts this restrictionist mentality and see that they really try to implement the programme which they have offered to the electorate."

(At this stage Mr. Speaker resumed the Chair.)

"Mr. Sneaker, Sir, I only suggest that, particularly when the Ceded Districts have been given the alluring prospects of the Tungabhadra Project, there should be no step-motherly treatment so far as North Arcot is concerned.

"We would like to see a really bold step for economic self-sufficiency taken by this Ministry by encouraging major irrigation schemes such as the Palar. When I go to constituencies round about North Arcot, I always feel as an eye-sore that unfortunately the benefits of such wonderful irrigation facilities should have been denied to my district all these generations. I only want

[N. Muhammad Anwar Sahib Bahadur] [19th August 1946]

a specific pronouncement from the Hon. Minister for Public Works that he will give us during his regime the fruits of his endeavours. We shall welcome him with all our hearts into our district only when that Palar is in full swing. Not until then. We would ask him to get back, clear out, never come, unless he gives us the Palar which is the life blood of our agriculturists!"

* K. M. SEETHI SAHIB BAHADUR:—"Mr. Speaker Sir, I rise to speak in support of the cut motion moved by the hon. Member, Mr. Pocker, though there is an almost identical motion standing in my name to urge on the attention of the Government the necessity for irrigation works in the taluks of Ernad and Walluvanad in Malabar. I avail myself of this opportunity to make my observations on this subject without moving the cut motion standing in my name. As my hon. Friend, Mr. Pocker, has said, West Coast has been very much neglected in the matter of irrigation. As far as Malabar is concerned, I understand that some time back there was even a superstition that there was no scope for any irrigation work in the district. The last Congress Ministry had overcome that superstition, and I understand that they were having as many as ten irrigation projects for Malabar. Not one of these has been put into operation till now, and it is a very very sad commentary on the policy of the Government in carrying out schemes which they devised after representations from the people for a long time. In fact, the taluks of Ernad and Walluvanad account for a very high percentage of population in the Malabar district, and there are considerable areas under cultivation of paddy which require minor irrigation facilities, particularly in the matter of construction of anicuts for storing water and putting up of bunds for preventing the salt water entering the upper courses of the rivers and contaminating the water and damaging all attempts at effective cultivation. In the Kadalundi river for example, on account of the onrush of salt water through the Canoly river, great difficulties are experienced by the ryots with the result that they are compelled to make their own arrangements for putting up bunds in the Canoly canal and preventing salt water from damaging their crops. Even last year, I understand, the ryots had to make their own arrangements without any assistance from the Government. These are matters in which by the Government extending help to the ryots, the productive capacity of the area under cultivation can be multiplied. When I tried to elicit information by means of an interpellation as to whether there were early possibilities of irrigation facilities being extended to Malabar, the answer which I got was that the matter was under investigation. When I enquired about the agency doing the investigation, I was told that it was the Public Works Department. I was not satisfied with the reply because if the Public Works Department were to do the investigation in its own time-honoured way, there was no prospect of any immediate or useful result coming out of such investigation. Unless the investigation is entrusted to a special agency created for the purpose, there is no prospect of any immediate or useful recommendations

19th August 1946] [K. M. Seethi Sahib Bahadur]

being submitted to the Government. In fact, every river in Malabar has possibilities of minor irrigation works. Bunds, anicuts and such other works might be constructed by the Government. The result will be that the paddy produce that we are now having in Ernad and Walluvanad can be multiplied tenfold or even more. There is a crying need for increasing the output of foodgrains in every district. The fact that Malabar is a deficit area in the matter of food, depending for its foodgrains on outside districts and Provinces, and an area where famine was threatened are well-known. Conditions in Malabar attracted the attention of the Central Government, with the result that rationing of foodgrains was introduced in that district much earlier than in other districts. Considering all these facts, in the matter of irrigation, Malabar should certainly come in for the careful consideration of the Government. There should be no delay in deciding upon and executing the necessary works. As I have said before, there were as many as ten schemes for Malabar up the sleeves of the last Congress Ministry. I do not know whether they exhausted the schemes that will benefit Ernad and Walluvanad taluks. In fact, in Ernad and Walluvanad taluks, the productive capacity of the land has attained its maximum level by the operation of the inexorable laws of economics. No further production can be expected from the lands there except by the provision of extra irrigation facilities by the Government or by the adoption of scientific methods of cultivation, which the authorities must propagate in the district. The yielding capacity of the land has come to stay. If any further produce is to be expected irrigation facilities of a major or minor kind to improve cultivation have to be provided. With these observations, I would urge again on the Government the necessity of taking up works of irrigation in Malabar immediately, particular consideration being given to the needs of the taluks of Ernad and Walluvanad. What I understood from the statement of the Hon. Minister was, that there was a scheme of irrigation for the Palghat taluk, but I never heard anything relating to Ernad and Walluvanad. If Government has already not got any idea of extending irrigation facilities to Ernad and Walluvanad, it is high time that the matter should come up for the attention of the Government. I also urge upon the Government, the necessity for appointing more Muslims in this department. I have regretfully to say that here as in other departments, the Muslim representation has to be made adequate."

* MAHBOOB ALI BAIG SAHIB BAHADUR:—"Mr. Speaker, Sir, we are very grateful to the Premier for his observations in regard to the question of irrigation during his budget speech. It is stated that the Government are considering the revision of their irrigation policy. We take it that this is an earnest of what they would do in the matter of irrigation. It is stated in the speech of the Premier, that the Government are examining certain projects which were abandoned by the previous Government on the ground that they were not yielding the minimum return. It was also stated that minor irrigation works would be

[Mahboob Ali Baig Sahib Bahadur] [19th August 1946]

attended to. We therefore take it that the revised policy would be to extend irrigation projects all over the country. We have not been told the scope and the extent of this revised policy definitely. If only we could utilize 30 or 40 per cent of the water that falls in the form of rain in this Presidency we could extend cultivation of food crops. It is too late in the day to delay taking steps to provide sufficient food to make the Presidency self-sufficient. In the past, on account of some imports in this Presidency, we neglected the cultivation of land and there were no comprehensive schemes in the past. It was only in 1850 there were some major irrigation works especially in Godavari and Kistna. A tribute is due to that Engineer, Sir Arthur Cotton, whose vision brought these two river systems into existence which are responsible for feeding the other districts. What is necessary now for this Government is to take a bold and comprehensive policy, make a survey of the entire province, and estimate the probable expenditure. Most of the expenditure is going to be very profitable as the projects of Kistna and Godavari are. Those are paying I am told 18 per cent now. It would not be against rules to borrow money—perhaps you can spend the accumulated balances also. I do not know why this Government should fight shy of raising loans even to the extent of 500 lakhs, if necessary. A bold policy like that to augment water-sources and extend irrigation in such a way that there will be no scarcity of food is very necessary and urgent. The Government have been in office only for the last three months. But the Prime Minister has given a sort of idea of what he along with the Minister for Public Works is going to do. When I went through the pages of his speech and the Memorandum of the Secretary and the detailed Irrigation Budget I do not think there was any indication that their policy was on these lines. I wish I were wrong. I would like the Irrigation Minister to come out and give an assurance that he would pursue a very bold policy in this connexion so that we may not depend upon other foreign countries including other provinces. That should be the aim. Everybody should pursue that aim. I take it that they want to revise the irrigation policy. Their ideas are tending towards that. One particular point with regard to my district I wish to mention is about a small stream called Godameru.

12-30
p.m.

“Sir, we have got there a small stream named Buddameru, but all the same, it is so wild that if it is not controlled it would create havoc and destroy the lands on either side of it during the rainy season. During floods, it not only inundates the adjoining fields, but also interferes with the drainage works down below. It empties itself into the Kollar lake, in a way that the lake swells to such a height that it is impossible for it to drain off the water from the fields, so much so that a good portion of the Kistna district gets flooded. As you know, Sir, irrigation without drainage facilities will not help cultivation of lands. I was told some four or five years ago that the Government were contemplating a scheme known as the Kolleru Lake Drainage Scheme by which it was intended to shut out the Buddameru river flowing into the Kolleru lake and also to harness its waters for purposes of irrigation. If

[19th August 1946] [Mahboob Ali Baig Sahib Bahadur]

that is done, many thousands of acres of land will not get inundated and will be made fit for cultivation. I was also told that that scheme would be very remunerative. There is no mention of that scheme at all in the Budget. It is high time, Sir, that this scheme is taken up, which would not only prevent the scourge of inundation, but will also bring a large extent of land under cultivation.

“I am very glad to note that the Pollavaram or the Ramapadasagara Project is going to be taken up. My only request to the Government is that this should be speeded up. I also congratulate the Ministry for taking up a number of other irrigation projects in the near future and for their bold policy of extending irrigation facilities throughout the length and breadth of this province. If this is done, there is no reason why we should suffer for want of food in future.”

* SRI A. B. SHETTY:—“Mr. Speaker, Sir, the announcement made by the Prime Minister the other day in his Budget speech that the Government are considering the revision of their irrigation policy, must have been welcomed by all sections of this House. It is very necessary that the Government should consider the desirability of taking up irrigation schemes from the point of view of the benefit that they confer on the ryots, even though such schemes may not bring a sufficient financial return to the Government. The other day at question time it was asked whether tube-wells are being put up under the subsidy scheme for purposes of irrigation. We were told that the tube-well irrigation schemes have been tried with good results in the United Provinces. It is necessary that this Government should investigate whether conditions are favourable in this province for installing tube-wells for irrigation purposes. The Famine Enquiry Commission, in their report, have drawn attention to the fact that in the United Provinces they have found it economically feasible to lift water from deep-set rivers on to higher ground by means of pumps worked by electricity and take the water to lower areas for irrigation purposes. Projects of this nature may be found particularly suitable in places like Malabar and South Kanara where the land is uneven and obstructed by hills and dales. Private wells and tanks, as we all know, form an important source of irrigation. There is great scope for increasing the number of such wells and tanks. The present subsidy scheme is meant to be only a short-term measure. It would be very desirable to have a long-term project for increasing the number of wells and tanks for irrigation purposes with Government help. It would also be very useful if a sub-soil water-supply investigation is made. Then the Government will be in a position to give technical advice to ryots who want to construct wells and tanks as to where they can dig such wells and tanks with greater probability of finding water. The Government should employ a special staff for this purpose. This staff should not wait for the agriculturists to come and ask for advice in the matter of sinking wells and tanks, but should go to the people in the villages and offer all the technical advice and assistance they can and thus encourage the ryots to construct more wells and tanks for irrigation purposes.

[Sri A. B. Shetty] [19th August 1946]

"The hon. Members representing Malabar have put in a strong plea for government undertaking at least minor irrigation works in that district. South Kanara has also been suffering along with Malabar in this respect. The Government have not paid sufficient heed to the demands made by these two districts for a long time. Not even the emergency schemes sanctioned by the Central Government for irrigation purposes in connexion with the 'Grow More Food' campaign have been taken up in these two districts. Of course, the usual plea put forward by Government is that we are having abundant rainfall and therefore there is no necessity for irrigation works in these districts. Abundant rainfall, Mr. Speaker, often does more harm than good. The lands lying on either side of rivers get often flooded during heavy rains, with the result that the crops are destroyed. Heavy rains coming down the ghats bring with them a huge mass of silt and this has resulted in raising the level of the river-beds. For instance, in Mangalore, for a considerable distance from the sea, the level of the river-beds has been steadily rising year after year and whenever we get heavy rains, there is now increasing danger of floods overflowing the cultivated lands on either side of the river. Not only that, soon after the monsoon is over, we find it difficult to ply boats and bring clay, rice and other materials to Mangalore. Dredging will have to be done to remove the danger of floods and make navigation easier. An assurance has been given by the Hon. Minister on the floor of this House that the demands made on behalf of these two districts for establishing at least minor irrigation works would soon be attended to and that a survey would be made to find out what works could be undertaken to conserve rain-water and utilize river-water. I hope, Sir, that the assurance given in this respect will be fulfilled at no distant date."

* D. ABDUL RAWOOF SAHIB BAHADUR:—"Mr. Speaker, Sir, as I have observed once before on the floor of this House, I think it is time that this Government once for all change their policy of classifying irrigation works as remunerative and unremunerative. I have never been able to understand the principle underlying this policy particularly when we have got a large number of rivers that flow across our province and when we are faced with this acute food problem. Sir, the neighbouring State of Mysore which has got equal rights with us to the waters of the rivers that flow through the two territories has been taking up project after project and we have been looking on without doing much. I am afraid, Sir, this Government have been very sensitive about the treaty rights of Mysore to the waters of these rivers. The Mysore Government have been either taking up projects or contemplating taking up projects, and I wonder whether this Government are being consulted at all. I am told, Sir, that the Mysore Government have two projects in view, one the Tungabhadra Project and the other the Bhadrachalam Project. I request the Hon. Minister for Irrigation to tell the House whether this Government have been consulted about these projects and if they have not been consulted, what is it that this Government propose to do. If these two projects are going to be taken up

19th August 1946] [D. Abdul Rawoof Sahib Bahadur]

by the Mysore Government, then the Mysore Government will seriously affect the Tungabhadra Project. Will the Hon. the Minister in charge of irrigation kindly tell us what the fate of the Tungabhadra Project will be, if the Mysore Government intend upon executing these two projects.

"Then, Sir, I am also made to understand that there are proposals by the Mysore Government to harness the sources of water-supply of a number of tanks in the Anantapur district and in this connexion there is a proposal to bund the waters of the Chitravathi river. These proposals are going to seriously affect the water-supply to Dharmavaram, Agali and Bukkapatnam tanks in the Anantapur district. May I request the Government to examine these schemes thoroughly before they are executed, and see that the already suffering famine-stricken tracts of the Ceded districts are not made to suffer more by the execution of these projects.

"I have also another suggestion to make in this connexion. It is high time that this Government re-examines all its treaties with the Mysore Government and comes to some final settlement with regard to the sharing of the waters of the projects not only on hand, but also in respect of the projects that may be taken up in the future.

"Sir, I shall be failing in my duty if I do not thank the Hon. Minister for Irrigation for all the trouble he took in inspecting the Bhayravanthippa Project over which we have been clamouring for so many years.

"Times out of number we failed to convince the previous Government about the usefulness of that project. We are glad to note that the Hon. the Minister with his staff has been pleased to inspect it. I hope it will soon be taken up. I hope, Sir, that steps will be taken to see that the Mysore Government does not prove a stumbling block in the carrying out of this project. 12-45 p.m.

"Sir, the same remarks apply to the Pennar-Kumudavati Project. At the time of the last Congress Ministry, the Hon. the Premier who was then the Revenue Minister assured us that this project will be included under Part I schemes; eight years have elapsed since then. I know that the Hon. the Premier is not responsible for the delay. The other Ministers too are not responsible for the delay. Now I expect the Hon. the Premier to push through this scheme.

"With regard to the cry we have always heard that there is paucity of engineers in the Irrigation Department, I have got to make one observation and that is that when the Highways Department was proposed to be established, it was said that the District Board Engineering service would form the nucleus of that department. But what do we find now? A number of officers from the Public Works Department have been transferred to the Highways Department to the detriment of the interests of the officers of the District Board Engineering service and of the Irrigation Department. Sir, I think it is high time that this question is examined and such of the engineers of the Public Works Department who have, advertently or inadvertently slipped into the Highways

[D. Abdul Rawoof Sahib Bahadur] [19th August 1946]

Department are taken back to their own department so that the cry of insufficiency of engineers in the Irrigation Department is not heard again.

“With these few words I support the cut motion.”

* **SRI N. GOVINDASWAMI NAYUDU** :—“ஸ்பா நாயகரே, இந்த நீர்ப்பாசன விஷயமாக இன்று நமது பிரதம மந்திரிகொண்டு வருவதை நான் வரவேற்கிறேன். ஆனாலும் நம் தேசத்திலே ஜீவ நதிகள் இருக்கின்றன. இந்த ஐந்தைக்கொண்டு நம் தேசத்துப் பஞ்சத்தை சமாளித்து விட முடியும். ஆயினும் இப்பொழுது ஆரம்பத்தில் சென்னை அரசாங்கத்தார் கால்வாய்களைச் சீர்படுத்தி மதகுக்களை கவனித்து இன்னும் அவசியமான, அத்தனை ஏற்பாடுகளையும் செய்யவேண்டுமென்று கேட்டுக் கொள்ளுகிறேன். நம் மந்திரி சபை ஏற்பட்டு மூன்று மாதங்களாகியும் நாட்டுப்புறங்களிலே போய்ப் பார்த்தால் வேண்டிய அளவு விவசாயிகளுக்கு உதவி ஏற்பட்டதாகத் தெரியவில்லை. அப்படி யிருக்குமானால் இந்த மாதத்திலேயே நமக்கு வேண்டிய அளவு நெல் விளையும். நான் நேற்றைய தினம் ஓரிடம் பார்த்தேன். அந்த இடத்திலே கால்வாய்கள் அபிவிருத்தி இல்லை, அவர்களுக்குப் போதிய விதை நெல்லு கிடைக்கவில்லை, 6 மாதத்துக்கு விளைய வேண்டிய விதை நெல்லு தான் கொடுக்கப்படுகிறது, ஆனால் மூன்று மாதப் பயிருக்கு வேண்டிய நெல்லைக் கொடுப்பதில்லையென்று சொல்லுகிறார்கள். அதோடு கூட அவர்களுக்கு வேண்டிய கலப்பை கார், மமிட்டி முதலியவை கொடுப்பதில்லை என சொல்லப்படுகிறது. நமது கவர்ன்மென்டாரவர்கள் நீர்ப்பாசன வசதிகளைச் செய்து கொடுத்து கட்டாயம் இந்தப் பஞ்சத்தை ஒழிக்கவேண்டும். அதோடு கிணறு வெட்டுவதற்கு பணம் கொடுத்து உதவுவதாகத் தெரிகிறது, ஆனால் கொடுத்து வரும் பணம் ரூ. 310 அதற்குப் போதியதல்ல. எலக்ட்ரிசிட்டி இருக்கும்மட்டத்தில் விவசாயிகளுக்குக் கூடுதல் பம்பு முதலியவைகளை சப்ளை செய்து அதற்கு வேண்டிய பணத்தை பிரதி வருஷமும் அவர்களிடத்திலிருந்து வசூலித்துத்துக் கொண்டால் அவர்களின் நீர்ப்பாசனத்திற்கு வேண்டியதைச் சலபமாகச் செய்துக்கொள்ள முடியும். ஆனால் கவர்ன்மென்டார் அவ்விதம் செய்திருப்பதாகத் தெரியவில்லை.

“அதோடு ஏரிகள் கலங்கல் போகும்படியான முறையிலே போகாமல் ஆழப்படுத்தவேண்டும். இப்பொழுது யுத்தத்தின் காரணமாக நம் தேசத்தில் வந்திருக்கும் பள்ளம் வெட்டும் மெஷின்களை நாட்டுப்புறங்களுக்கு அனுப்பி எரிகளைப் பள்ளமாக்குவதால் தண்ணீர் தேங்கும், தண்ணீர் தேங்கினால்தான் தண்ணீர் தேவையான காலத்தில்கூட மில்லாமல் இறைத்துக்கொள்ளக்கூடும். ஷே சொன்ன மெஷின்கள் நாட்டுப்புறம் செல்லவேண்டும். இப்பொழுது மழையில்லாத காலத்தில்தான் ஏரிகளைப் பள்ளமாக்க சந்தர்ப்பம். அப்பொழுதுதான் தண்ணீர் தேங்கும். நம் முடைய ஊரிலிருக்கும் பஞ்ச நதிகளை கிராமங்களுக்குத் திருப்பவேண்டும். ஆரம்பத்தில் செய்யவேண்டியது சிறு சிறு கால்வாய்களைச் செப்பனிடவே தோடு அதற்கான மதகுக்களைச் சீர்படுத்திவிட்டால் கஷ்டமில்லாமல் தண்ணீர் தங்கும். இப்பொழுது விவசாயிகள் வேலையில்லாமலிருக்கும் இக்காலத்திலே வெட்டுவதற்கு அதிக வசதி இருக்கிறது. அவர்களுக்குப் போதிய உதவி செய்தால் அவர்கள் வெட்டுவார்கள். கால்வாயைச் சீர்ப்படுத்தியாகவேண்டும். மழையில்லாத காலத்திலே இதை அவசியம் செய்ய வேண்டுமென்று கேட்டுக்கொண்டு என் சொற்பொழிவைத் திறுத்திக் கொள்ளுகிறேன்

* **M. A. MUHAMMAD IBRAHIM SAHIB BAHADUR** :—“Sir, in supporting the cut motion under this Demand I wish to point out to the Government the need for speeding up the irrigation projects throughout the Presidency. Irrigation is a vital factor for agriculture and agriculture, as the Government are aware, is a staple industry and through it alone the province can be made self-sufficient in the matter of food stuffs. In these critical times

19th August 1946] [M. A. Muhammad Ibrahim Sahib Bahadur]

attention has therefore to be specially concentrated on the provision of more and more irrigation facilities. The irrigation policy of the Government should be based on this prime factor. I am very glad that the Hon. the Premier has promised to pay special attention to the restoration of minor irrigation works, in his speech introducing the Budget. He has also stated: ‘Several proposed irrigation schemes were abandoned in the past on the ground that they would not yield a minimum financial return, although they were otherwise considered to be sound.’ My submission to that would be that in framing the irrigation policy, care should no doubt be taken about the return, but the important thing to be remembered is that the productivity of the land has in any case to be increased by the opening of large irrigation projects without delay. It has been stated on page 235 of the Administration Report for 1944-45 that the return on the capital outlay on productive works was 9 per cent. The net revenue due to improvement of irrigation is 9 per cent on the capital outlay of Rs. 15.46 crores, according to the report. Therefore in these matters what has to be done is to treat all the projects as one and whatever schemes are beneficial to the country should be taken on hand and executed. On page 238 of the Administration Report for 1944-45 we find: ‘The major schemes under investigation during the year are given below. . . 5. The Grand Anicut Canal Scheme beyond Narasingh Cauvery is designed to bring 15,000 acres under irrigation. . . .’ This is a fairly big scheme and yet I do not find any provision for it in the Budget. Under the head ‘C. New schemes proposed by the Ministry’ at page 141 of the Budget Memorandum a few irrigation schemes have been mentioned, but this one is not there. I hope this scheme will be taken on hand at an early date.”

* **SRI A. S. SAHAJANANDA** :—“தலைவரவர்களே, சிதம்பரத்தை ‘அன்னம் வழங்கும் தில்லைச் சிதம்பரம்’ என்று சொல்லுவது வழக்கம். சென்ற வருஷம் மழை சரியாக பெய்யாததாலும், மேட்டூரிலிருந்து தண்ணீர் சரியாக வராமையாலும், சிதம்பரத்துக்குப் பக்கத்திலுள்ள கிராமங்களில் பஞ்சம் ஏற்பட்டிருக்கிறது. சிதம்பரத்திலே யும் சரியான முறையிலே தண்ணீர் விடாததினால், அங்கேயுள்ள பயிர்களுக்கு மிகுந்த கஷ்டம் ஏற்பட்டிருக்கிறது. சிதம்பரம் தாலுகாவில் கட வாச்சேரி, உசப்பூர், சிவபுரி, சாலியந்தோப்பு, நெல்லூர், கூத்தங்கோவில், செட்டிமுட்டு, இளவாங்கல், நாஞ்சலூர், வக்காரமாரி, மடப்பூரம் முதலிய 11 கிராமங்களில் விவசாயிகள் நீர் பாசனக் குறைவால், பயிர் செய்ய முடியாமல் மிகக் கஷ்டப்படுகிறார்கள். சிதம்பரம் தாலுகாவில், ராஜன் வாய்க்கால், கான்சாஹேப் வாய்க்கால் என்று இரண்டு வாய்க்கால்கள் உண்டு. ராஜன் வாய்க்கால் பாய வேண்டிய கிராமங்களுக்கு தண்ணீர் விடாமலிருப்பதால், அங்கு வெகு நாட்களாகத் தண்ணீரில்லாமலிருக்கிறது. இவ்விதம் சாகுபடி மாழலுக்கு விரோதமாக ஏற்பாடு செய்திருக்கிறார்கள். அப்படிச் செய்திருக்கும் ஏற்பாடானது மேற்கூறிய 11 கிராமங்களுக்கும் பெரிய கஷ்டத்தை ஏற்படுத்துவதினால், காலா காலத்தில் குடிகளுக்கு ஜலத்தைக் கொடுத்தால் தான் அவர்கள் சரிவர பயிர் செய்ய முடியும். இந்த விஷயத்தைப் பற்றி கனம் மந்திரியவர்களுக்கும், என் ஜினியரவர்களும் ஏழை குடியானவர்களின் நன்மையைக் கவனித்து கான்சாஹேப் வாய்க்கால் தலைப்பு அடைத்திருப்பதைத் திறந்து மாழல்படி கவரப்பட்டு வாய்க்காலில் தண்ணீர் விடும்படியாகக் கேட்டுக்கொள்கிறேன். அப்படிச் செய்வதனால் மேற்கூறிய 11 கிராமங்களுக்கும் பாய்ச்சலை ஏற்படுத்த முடியும். கான்சாஹேப் மதகிற்கு மேலே ராஜன் வாய்க்கால்

[Sri A. S. Sahajananda] [19th August 1946]

போகிறது. கீழே இருக்கும் ஆற்றுக்கும் அதற்கும் 18 அடி ஆழம் இருக்கிறது. அதைத் திறந்த வடிக் குழாய் தண்ணீர் சப்ளை ஒரே அடியாகச் சரியாகப் பாய்வதில்லை. ராஜன் வாய்க்காலிலிருந்து கவரப்பட்டு வாய்க்காலுக்கு ஜலம் போகாமற்படி, வழக்கப்படி கான் சாஹேப் வாய்க்காலிலிருந்து பாயும் அடியாகச் செய்யவேண்டும்.

“அடுத்தபடியாக சிதம்பரம் தாலுகா வீராணம் ஏரியிலிருந்து ஒரு வாய்க்காலில் தண்ணீர் வந்து பொன்னேரியில் நிரம்பும். பொன்னேரியிலிருந்து பல மதகுகள் வாயிலாகச் சிதம்பரம் நகரைச்சுற்றியுள்ள சில கிராமங்களுக்குப் பாயும். பொன்னேரியில் தண்ணீர் அதிகப்பட்டால், அதை பாசி முகத்தான் ஓடை மூலமாக வெள்ளாற்றில் வடியச் செய்வார்கள். தற்போது குருவை சாகுபடிக்கு நாற்றுக்கள் விட்டிருந்தும் லஸ்கர்கள் பொன்னேரி தண்ணீரைப் பாசி முகத்தான் ஓடை மூலம் வடிய விட்டு விடுகிறார்கள். அதனால் நிலங்களைச் சாகுபடி செய்ய முடியவில்லை. லஸ்கர்களைக் கேட்டால், இன்ஜினியர் உத்தரவென்று சொல்லுகிறார்கள். இவ்விஷயங்களை விசாரித்து, அதிகாரிகள் தான் தோன்றித் தனமாக நடந்து கொள்ளாதபடி பார்த்துக்கொள்ள வேண்டுமென்று மராமத்திலாக மந்திரியவர்களைக் கேட்டுக் கொள்ளுகிறேன்.”

1 p.m.

* SRI N. VENKATASUBBAYYA:—“Mr. Speaker, Sir, the problem of irrigation is one of the most vital problems that must occupy the mind of the Government, because it affects not only the peasants and the agricultural population generally, but it affects particularly the people afflicted by the famine. Therefore it is very important that adequate irrigational facilities should be provided.

“Sir, the Indian Irrigation Commission which was appointed in 1902 and which toured the Madras Presidency in 1903 made certain recommendations for protecting the famine-affected districts in this Presidency with more and more irrigation facilities. Their report constitutes a very valuable document and I am sure that the Minister for Irrigation would have read it. It has made certain recommendations, especially to protect the famine-affected Ceded Districts. One of the main recommendations they made was that wherever possible major projects should be constructed by bunding up the rivers that flow through or on the borders of these districts. The Tungabhadra, Sir, is a great river and I am glad that the Tungabhadra project is being pushed through as rapidly as possible. But there are other rivers like the Pennar, the Kistna, the Papaghni, the Handri, etc., whose waters flow wastefully to the sea. It is very regrettable that in spite of continued agitation for over half a century nothing has been done to impound and use their waters. Our cry has been a cry in the wilderness. But I hope at least now it will be possible for the Government to take up these important projects and convert the land of famine into a land flowing with milk and honey.

“Sir, I referred to the recommendations of the Indian Irrigation Commission. One of the important recommendations they made was the construction of a reservoir in the upper reaches of the Kistna river. In the Godavari delta, nearly 8 lakhs of acres are under irrigation for the first crop and 3 lakhs under the second crop. Now it is proposed to construct another project across the Godavari, the Ramapadasagar project, while the recommendation of the Indian Irrigation Commission to construct a reservoir across

[19th August 1946] [Sri N. Venkatasubbayya]

the Kistna has been neglected. The reason why the Kistna Reservoir project should have the highest priority over other projects in this presidency is this. The Kistna delta system has nearly 8 lakhs of acres under first crop cultivation and practically no area at all under the second crop cultivation. If the Kistna reservoir is constructed, the acreage under Kistna could be easily doubled, or at least 4 lakhs of acres will be brought under second crop cultivation besides providing irrigational facilities for Kurnool, Nellore, Guntur and Cuddapah districts. This is what the Indian Irrigation Commission wrote (page 102, Part II, Volume II of their report).

“The question of providing a storage reservoir on the Kistna has also been frequently mooted. The second crop cultivation on the Kistna canal is practically nil, although on the Godavari over 14 per cent of the annual irrigation is second crop. The absence of a second crop on the Kistna has been explained as due partly to the insufficiency or irregularity of the supply after December. There appears also to be room for a considerable extension of first crop cultivation if a full supply at the end of the monsoon could be assured. A storage reservoir on the Kistna would permit the development of the Kistna canal to its fullest capacity and would at the same time render it independent of the supplies now brought down by the Tungabhadra.”

“Sir, I have had occasion to visit the proposed site for this project with the Hon. Minister, Sri K. Koti Reddi when he toured the district sometime back. A very suitable site can be provided for the project at Sangameswaram in Nandikotkur taluk. Here the Kistna flows between two hills through a narrow valley which can easily be banded up. There will be a narrow water shed between the Kistna basin and the kundur basin forming part of the Pennar basin. The watershed can be broken by a cutting and the two basins can be thus connected easily. The Kistna waters also could be made available throughout the Guntur district across the Cumbum and Markapur taluks also by taking the waters through the gorge in the Nallamalai hills. Thus, we would have converted the Cuddapah, Kurnool, Guntur and Nellore districts into a vast Kistna delta. Unfortunately this recommendation of the Indian Irrigation Commission to construct the Kistna reservoir has not been taken up at all. Therefore I would with particular emphasis bring it to the notice of the Hon. Minister and ask him to see how far this scheme would be feasible.

“I do not believe that the construction of great reservoirs the Tungabhadra or the Gandikota reservoirs would entirely solve our irrigation problems. There are numerous tanks which have breached and been abandoned. Some of them are in a condition that they can be restored to usefulness at the expense of only a few thousand rupees. All these tanks, which number about 400 or 500 in my own district of Kurnool, if they can be restored, can irrigate a large acreage. I have computed roughly that if these abandoned tanks can be renovated, about 50,000 or even a lakh of acres can be brought under cultivation. The Hon. Minister for Public Works was good enough to grant me an interview some

[Sri N. Venkatasubbayya] [19th August 1946]

time back when I submitted to him a list of 25 important smaller works, tanks and repairs to distributory and supply channels. If these 25 works can be taken up immediately, they can bring, at the expense of about Rs. 5 lakhs, some 50,000 acres under wet cultivation. Unfortunately, though the Public Works Department says that the question of return on outlay will not be the criterion hereafter, I find on a very close study of the works that have already been examined, that most of them have been dropped on the ground that they will not bring to the Government the return that is commensurate with the expenditure. This practice of dropping works because they do not bring sufficient return must be abandoned altogether. I say this, because, even now I find it is the practice in the Irrigation Department to classify projects into three classes, A, B and C on the basis of the return that they give. Each work must be examined purely on its own merits and if they are able to bring additional acreage under irrigation and particularly if the works are in a famine district, they must be readily taken up. I therefore submit that financial gain should not be the criterion at all while examining the works that have been suggested for Rayalaseema.

"Then, Sir, I feel sorry to say we do not have a specific irrigation policy nor a definite programme for taking up these works. That is why this Presidency has not developed so far as irrigation is concerned. Throughout their report the Indian Irrigation Commission have repeatedly laid stress on this fact. They have also stressed more than once that the famine-stricken Ceded Districts should receive special attention. I therefore urge upon the Government that this recommendation made 45 years ago by the Indian Irrigation Commission should be an important guide in taking up works of irrigation in Rayalaseema.

"Sir, the Cuddapah-Kurnool canal is usually dubbed as an unproductive work. General Fisher, a high irrigation official giving evidence before the Indian Irrigation Commission, exposed the entire fraud behind the construction of this canal, how the contractors were paid heavily, how the work was redone, once, twice or thrice and then how the Government, when buying it from the Indian Irrigation Company who constructed it, paid more than 200 per cent of the cost of its construction. I should like to say that the entire problem should be re-examined and a proper assessment of the actual capital concerning the canal should be specified so that the work may not suffer from being dubbed as an unproductive work."

* **MR. SPEAKER:**—"The hon. Member has taken more than his allotted time."

* **SRI N. VENKATASUBBAYYA:**—"One more minute, Sir, and I have done. I was referring to the Irrigation Commission's report made about 45 years ago. They have said that there appears also to be room for considerable extension of irrigation under the Kurnool-Cuddapah canal. We consider that whether or not it is decided to create storage reservoirs in the upper Tungabhadra, the Kurnool-Cuddapah canal should be placed in

[19th August 1946] [Sri N. Venkatasubbayya]

thorough order, its capacity should be increased and extensions should be made into adjacent tracts which are more suited for irrigation than much of the area at present under command. The state of inefficiency into which this work has been allowed to fall is mainly due to the laziness of the Public Works Department officials. If irrigational development should be properly planned I would say, Sir, that Government should have a target for irrigation, the proportion of land to be irrigated to the land already cultivated. I would fix it at least 50 per cent so that there may be adequate protection for famine districts of Rayalaseema. We can take up the projects I have suggested as well as the smaller tanks and see that this 50 per cent target is reached within five or at the most ten years. The Central Government also may be approached for adequate subsidies for the Ceded Districts so that this programme can be put through. Separate Public Works Department Divisions should be created for each district and they should be put in charge of these projects as the existing Public Works Department officials cannot take up these in addition to their normal duties. With these words, Sir, I support the demand."

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—"Mr. Speaker, Sir, following just after the speech of the hon. Member who has just finished—he spoke in a very very informed manner—I am rather at a disadvantage, as you will presently see. I only wish I had studied the subject as my hon. Friend who has just spoken. Sir, it is very refreshing to hear such speeches during this debate.

"Sir, the subject of irrigation has naturally assumed such large proportions now in view of the food situation in the country. Before I deal, Sir, with some suggestions, I want to make to the Ministry, it will not be out of place if I say a word or two of tribute about that Adviser who was in charge of Irrigation and who conducted the negotiations with regard to the Tungabhadra and Ramapadasagara projects to success. I mean Sir S. V. Ramamurti. He worked very vigorously and put the schemes into operation and let us hope that the Ministry will push on with the schemes and other big schemes. Sir, the good that will result out of such big schemes cannot be seen immediately, much less during the lifetime of this Assembly, namely, five years. But it is the duty of the Legislature to give its full support to the Government in such big measures. That we are well behind other provinces in regard to irrigation schemes needs no special mention, except perhaps the Punjab and Sind to some extent. I have no doubt that the big schemes like the Tungabhadra and the Ramapadasagar schemes would be of great benefit to this country.

"My object in trying to speak on this occasion is to refer to one or two matters of a more or less parochial nature. I know the enthusiasm which my hon. Friend the Minister in charge of Public Works has shown even in the short time he has been in office. Sir, we have seen his tour programme and his activities

[19th August 1946]

[Kumararaja Sir Muthiah Chettiyar of Chettinad]

regarding irrigation schemes. I am glad that he has not lost sight of minor irrigation schemes such as the restoration of tanks while he is seriously engaged in major irrigation schemes. I should like to remind the House of one district, which now occupies a very prominent place in regard to famine conditions, that is the district from which I come, the Ramnad district. It perhaps occupies the topmost place in Tamilnad with regard to the famine conditions. Famine conditions would never exist there but for the fact that it has not even one irrigation scheme there, not even a minor irrigation scheme. It is a dry plain, not a hilly tract. It is very easy to dig a canal from the Mettur Reservoir. As a matter of fact, I cannot see who was responsible for the failure of the proposal to excavate a canal from Trichinopoly through the Pudukottah State to the Ramnad district. I have no doubt that to-day when there is plenty of cheap money it should not be difficult to finance a scheme like that even if it should cost one crore of rupees at 3 per cent interest. Probably the interest may be less and it will certainly pay its way to have a scheme like that. I would, therefore, urge on the Hon. Minister for Public Works to seriously take up the proposal which I just made. Sir, even if such a scheme is put through, I feel that the whole of Ramnad may not get the benefit of the scheme. I would request the Government to consider whether it is possible to increase the supply of water that is impounded in the Periyar and dig another canal for other parts of Ramnad. I suggest these two schemes for the consideration of the Government. I shall not take up the time of the House, Sir, except to say that all irrigation schemes, whether major or minor, or the restoration of tanks deserve the full support of this House."

* MR. SPEAKER:—"All hon. Members who have given notice of cut motions have already spoken. Now other hon. Members may speak and I fix a time-limit of five minutes for each speaker."

* SRI V. I. MUNISWAMI PILLAI:—"Mr. Speaker, Sir, much has been said about major irrigation works. Knowing as I do that the Ministry has taken in right earnest the reconstruction of the villages, it follows that minor irrigation, especially in the rural areas, must be attended to also. I find, Sir, from the budget that only Rs. 17 lakhs and odd have been set apart for minor irrigation which covers many items. The portion of the district which I represent, in South Arcot, namely, Tirukkoyilur, had many minor irrigation tanks but due to cyclones and drought they have practically become useless. In these days of famine and pestilence I would urge on the Hon. Minister for Irrigation to take some real interest in the matter of setting these irrigation tanks in order. I have already spoken to the Hon. Minister in regard to three minor irrigation works. First of all there is a place known as Manalurpet. The people of this place took upon themselves to cut a channel from Pennar to their tank-bed. Unfortunately though they spent Rs. 2,000 and employed 4,000 labourers they were not able to bring the channel to the bed of the tank.

[19th August 1946]

[Sri V. I. Muniswami Pillai]

Consequently they could not get any benefit out of the money spent and the labour given. I myself went there and saw the channel. If the Government comes to the rescue of the poor people it will be possible to bring water to the tank. This will irrigate nearly 300 acres. It will also be an advantage to the Government itself because the lands are assessed for dry crops now, and once irrigation is given, the Government can change the dry assessment into wet assessment.

"There is a second one near Kallakurichi, a town growing in importance in regard to cultivation and marketing of groundnuts. There is no irrigation facility there at all. Even the minor irrigation works, Manimutha and Gomugi, have been in a bad condition for years. I understand the minor irrigation overseers have travelled over these places and made recommendations to the Government but these recommendations have not been given effect to during the past six or seven years.

"There is another small irrigation work known as C. Maiyoor about which both the people of the village and myself have made representations to the Government. I would request the Hon. Minister to take note of these three cases at least for the present year and do something for them. Later the Government may undertake the repair of minor irrigation channels and tanks. With these few words, I support the Demand moved by the Hon. Minister."

* SRIMATHI VALLABHANENI SITHAMAHALAKSHMI AMMA:—"అధ్యక్షా, రిమాడలింగు తూములవల్ల నీరు సరిగ్గా సప్లయి కాక, గండ్లు కొట్టి సాగుచేయుటయు, అందుమీద పి.డబ్ల్యు.డి. (P.W.D.) వాళ్లు లంచములు పట్టుటకు మార్గములు ఏర్పడుచున్నవి. ప్రత్యేకముగా, కైకలూరు తాలూకాలో, చేపూరు గ్రామస్థలమీద 80 ఎకరముల భూమికి పెనాల్టీ కట్టి, అక్కడి వర్షోగస్థులు దానిని రైతులనుండి వసూలుచేయుటకు ప్రయత్నిస్తూ వున్నారు. దీనికి మనస్సు ఆ రైతులు ఇక్కడకువచ్చి మన రివిన్యూ మంత్రిగారికి కూడా, వారు పిటిషన్ (petition) పెట్టుకొన్నారు.

"గాన, ప్రస్తుతపు రిమాడలింగు తూములు పెద్దవి చేయటం అవసరము. అట్లు పెద్దవిగా చేసినట్లుతే, యీలాంటి కష్టములు తొలగి, సక్రమముగా నీటి సప్లయి అవడానికి అదను ఏర్పడుతుంది.

"అదే కాకుండా, మురుగు కాలువలు లేకపోవుటవల్ల, అప్పుడప్పుడు రెమిషన్లు (remissions) యివ్వవలసివచ్చుట చే, గవర్నమెంటువారి ఆదాయముకూడ తగ్గుచున్నది. భూములసారము తగ్గి, రైతుకు ప్రతి సంవత్సరము ఆదాయముకూడ తగ్గుతూ వుంటుంది. కావున, వెంటనే మురుగుకాలువల సౌకర్యములు చేయవలయును.

"మా కృష్ణా జిల్లాలో (Kistna district) కైకలూరు (Kaikalur) తాలూకాకు ప్రతి సంవత్సరము గవర్నమెంటువారు రెమిషన్ యిస్తూ వున్నారు. అక్కడ బుడమేరు, కొల్లేరు ముంపులవల్ల, ఆ తాలూకా రైతులు ప్రతి సంవత్సరము కొన్ని వందల ఎకరముల భూములు మురుగుపోక, బాధపడుచున్నారు. దీనివల్ల గవర్నమెంటు ఆదాయములోను లోటువచ్చుచున్నది. అందువల్ల, లోగడనే, యీ మురుగు సముదానికి పోవుటకుగాన గవర్నమెంటువారు ఓకీ స్కీమును ఆలోచించి వున్నారు.

[Sri B. Ananthachar] [19th August 1946]

by the Mysore Government. I do not know if the Madras Government have been consulted on this matter. There are several schemes, already examined by the Irrigation department. The Chikkanagari may be dammed, for instance, in more than one place, and it is sure to benefit the people of the constituency which I have the honour to represent.

"One other point I would like to impress upon the present Ministry is the taking up of the tank restoration scheme in my district. Let the abandoned tanks be taken up, tanks which have not been very useful because the streams or the feeders have not been repaired for a long time and have been silted up. A separate subdivision may be formed for this purpose and they may examine this question. I am sure as a result of such examination, something useful will be done for the benefit of my constituency.

"Thank you, Sir; I wish I had spoken for a longer time and spoken in Kannada, but as you have willed it otherwise, I have spoken the few words."

* SRI N. SANJEEVI REDDI:—"Mr. Speaker, Sir, a number of friends from Rayalaseema have already spoken about the position there and the famine conditions existing. Many people believe that if the Tungabhadra Project is completed, the famine conditions in Rayalaseema would cease to exist. I am afraid it is a misconception. The Tungabhadra Project can give water only to six taluks in two different districts. We want many more irrigation schemes to be taken up, particularly in Anantapur district. The Pennar river flows in seven taluks, but nowhere is its water being used up for giving irrigational facilities to the people. The Pennar flows only for 23 days out of 365, but it comes all in a flood and every drop of the water goes to the ocean without being used. If some dams are put up here and there, water can be conserved and used up for giving irrigational facilities. There are two or three projects under contemplation; they have been there for a number of years, but not taken up. For instance, the Pennar-Kumudavathi project for which the investigation is over but which has not yet been taken up because the Mysore Government objects to something or other. There are other projects at least which may be taken up without any objection from the Mysore Government, such as the Upper Pennar Project at Perur, for which also the investigation is almost over. The mid-Pennar project also can be taken up. In addition to those projects which can be taken up at an early date, there are a number of tanks which have been neglected; hundreds of them can be repaired and thousands of acres can be brought under cultivation. This is the only way to help Anantapur and the only way to improve the condition of the ryots of that district. Hundreds of tanks constructed in the days of Krishnadeva Raya are now in ruin, and with a few thousand rupees many can be repaired if only immediate investigation and repair works are undertaken. A number of engineers come and go. They investigate about the width of a bridge one day, the number of stones necessary on another day

19th August 1946] [Sri N. Sanjeevi Reddi]

and like that, the investigation goes on for years and years. Of course, much sympathy has been expressed by the Governments that have gone by; and if only sympathy can fill our bellies, we have been overfed already. I now request the Hon. Minister to start the many irrigation schemes that are already there. I know the Hon. Minister has a soft corner in his heart for Anantapur district, having seen for himself conditions there and the suffering of the people there. He understands the situation; I would only request him to put it into some useful shape by extending the investigations and taking up the works at least by March next year. I do not think any provision has been made for Anantapur in the present Budget. Not even one tank is to be repaired, not one tank is to be constructed. There is one new tank in Thitakal in Anantapur district which was recently seen by the Hon. Minister and that was the only one good and useful work done since the advent of the British to this country. I hope the Hon. Minister will take up many other tanks and by spending a few thousand rupees for each, he can improve these tanks and make the people believe that the Congress Government is by far better than any previous Governments and that they are sincerely in favour of improving the condition of the people in Anantapur district. My Friend Mr. Anwar spoke about the Palar. But the Pennar is much worse. I would request the Hon. Minister to see that the Pennar schemes are speeded up and the people of Anantapur benefited thereby. The two schemes which I have put forward now, viz., the mid-Pennar and Upper Pennar projects may be taken up immediately and may be completed in about a year or two. My Friend Mr. Rawoof mentioned about Bhairavanthippa project between Rayadrug and Kalyandrug. In regard to this also, investigation can be completed very early and the work may be begun. In regard to investigation, Sir, I would suggest that a time-limit should be fixed. Unless a time-limit is fixed, e.g., six months or a year, you can never get the schemes completed, the investigation will go on from year to year and no conclusion can be reached. So, I request the Hon. Minister to see that whenever a project is sanctioned, a time-limit is fixed and that the work is finished within the specified period.

"There are many more things I have to say about Anantapur and particularly about tanks; but for the present I will be satisfied with these two projects, the Upper Pennar and the mid-Pennar and the tanks I have mentioned. That will satisfy me for the present, though it will not solve the irrigation problem of my district. I suggest that at the time of the Budget every year, you must set apart some money for the Rayalaseema and for Anantapur in particular. Otherwise, my district is likely to be neglected and people who are already getting better facilities will naturally try to get more and more facilities, such as for instance, the people in the Kistna, Godavari and the Tanjore delta areas."

* SRI B. S. MALLIKARJUNA RAO:—"Mr. Speaker, Sir, I would like to grant more than what is really asked for in this Demand by Government because irrigation is a very vital and important question in this Province. And in view of the

[Sri B. S. Mallikarjuna Rao] [19th August 1946]

present distress and famine conditions in some parts of the Province, I consider the Demand for grant is too low. In this connexion, Sir, after so many speakers have dwelt on the subject, I wish to confine myself to my district of Vizagapatam. That is a famine area, and on this occasion, I am reminded of my late lamented friend K. S. Gupta who died on the floor of the Central Assembly speaking of the famine conditions in the Vizagapatam district and pleading for timely supply of food, clothing and medicine for the district. Such a district, Sir, we find to-day is not having any provision made for it in this Budget. It may be due no doubt to other exigencies that the present Government has not provided anything, but I appeal, in view of the declared policy of the Government, that they are for furthering the 'Grow More Food' Campaign. I appeal that a few lakhs may be allotted to my district for this purpose. It is a dry area. So far as irrigation schemes are concerned, we do not find either major or minor schemes sanctioned here at present. I find some amount is being allotted for the Nagavalli project and the Vamsadhara project, but they are negligible sums. We are more or less in the zamindari area. From south to north we find a series of zamindaris, e.g., Tuni, Kasimkota, Vizianagram, Chemudu, Bobbili, Parlakimedi, Mandasa, Jeypore, etc., and these cover practically the whole district. I wish the Government at least to concentrate this year on a few minor irrigation sources and see that the tanks and channels in the various zamindaris are repaired and properly kept up. That would help the people a great deal in the present distress. There is a provision in the Estates Land Act enabling the Government to press upon the zamindars to do this. The Government, also, can advance money and recover the same from the zamindars. I appeal to the Government to take the necessary steps in the matter and help the famine area of Vizagapatam district. Moreover, Sir, there are very many rivers which if properly exploited would have completely converted the district into a wet area, but up till now nothing has been done. Previously, we had the Advisers' regime and during that period what was the plight of the people? God alone knows that. The previous Government did not take any steps whatever, though thousands and thousands of people were dying for want of food, clothing and medicine. We entirely look to the Congress regime to alleviate their condition very soon. Every year people of my district have been looking forward to schemes that may be brought forward for improving the agricultural position and to our surprise, even this year, we do not find any provision in the Budget under this item. In these circumstances, Sir, I would appeal to the present Ministry to earmark a reasonable sum out of the grant of 27 lakhs allotted for the Grow More Food Campaign, for the digging of wells or extensive repairs to minor irrigation works in the zamindari areas so that the condition of the cultivators may be improved. The amount expended in the zamindari areas should be re-imbursed to Government, and if this is done, it will not be a loss to Government but will be productive of income."

19th August 1946]

* MUHAMMAD HUSSAIN SAHIB BAHADUR:—"Mr. Speaker, Sir, I wish to support the cut motion in order to bring to the notice of Government the grievances of the public in regard to irrigation. Sir, in the budget statement, it is vaguely mentioned that Government intend to pay more attention to the improvement, repairs and maintenance of the irrigation channels and the irrigation sources, but I find no specific proposals as to what they are going to do for improving and affording irrigation facilities. It is a well-known fact, Sir, that many of these irrigation channels have been neglected during the past, as a result of which they are in a very bad condition to-day. The channels which convey water to the tanks and fields have been neglected and are not in a sound condition now. The tanks have become shallow and their capacity has dropped and they are no longer capable of holding water sufficient for the life of a crop. You know, Sir, that the life of a rice crop is five months and unless there is a continuous supply of water for the whole of the five months, the paddy crop will fail; it is so even if there is no water for 10 or 15 days. Therefore, unless a good supply of water throughout the five months is secured, there is no hope of getting a harvest. I, therefore, request Government to take speedy and expeditious steps in regard to the repair of these tanks so that they may be made to hold water for five months. Otherwise, there will be no salvation for the future of this paddy cultivation.

"I learn, Sir, that there was a special section in the Irrigation Department which paid special attention to the repair of these channels and tanks and now I find it has been abolished. If that is so, I would urge on the Minister for Irrigation to see his way to re-introduce that section so that attention may be concentrated on this most important and vital aspect of this irrigation. Sir, in many of these channels, when freshes come, breaches occur owing to weak bunds and these breaches are not quickly attended to, and if further freshes pass through these breaches, they carry sand and deposit to the fertile fields up to a height of 2 or 3 feet and thus render the fertile field a waste. Especially at this critical juncture, when there is a great dearth of foodgrains, if this state of affairs is allowed to continue, certainly it will greatly affect food production. Therefore, Sir, I request wherever there are breaches, the Irrigation Department must take immediate steps to set things right. I know, Sir, in Tinnevely district, there are many channels wherein breaches have occurred and they have not been attended to in time and the consequence is the peasants and farmers have been put to a very great loss.

"I also wish to bring to the attention of the Hon. Minister a scheme which was recently investigated but abandoned. During the regime of the late Hon. Mr. Yakub Hassan, the then Minister for Irrigation, representations were made by the people of Kadayanallur in Tenkasi taluk in regard to a urani kattu in Kottamalai in the Western Ghats. It is about 200 feet in length and 150 feet

[Muhammad Hussain Sahib Bahadur] [19th August 1946]

in breadth. If some excavation is made and it is connected with the neighbouring channels, I am sure copious water supply will be available to irrigate about 2,000 acres. I understand that a party of engineering experts investigated the matter in 1939 and reported that there was a very great possibility for the future of the taluks of Tenkasi, Sankarankoil and Koilpatti in the Tinnevely district, if this scheme were carried out. But unfortunately, it was left there and there is no knowing whether that scheme is going to be carried out at all or not. I, therefore, request the Hon. Minister for Irrigation to see that the scheme is carried out now especially when the need for improving irrigation and production of foodgrains is urgent.

"I close, Sir, with one word of request. I understand that the Papanasam Electric Scheme was started originally as an irrigation scheme, but during the process of investigation, for reasons best known to the Government, that was converted into an electric scheme and because of that conversion, the present position is, fields under the Tambraparni are not getting sufficient water during scarcity and if the original irrigation scheme was carried out in the Papanasam scheme, it would have been a great boon to the most fertile fields in the Tinnevely district. I, therefore, request Hon. Minister to carry out this scheme at an early date."

"ప్రత్యేకముగా పూర్తి భూములు ఇంకా వ్యవసాయము కాకుండా ఉన్న భూములు (Grow More Food Campaign) క్రింద అనేకమంది భాగ్యవంతులు కాజేస్తున్నారు. వేదలకు భూమి దొరకడం లేదు. ఆ భూములను వ్యవసాయముమీద ఎక్కువ కట్టపడి పనిచేసే అక్కడి కూలివానికి ఇచ్చినట్లైతే భూమిని ఎక్కువ శ్రద్ధతో సారవంతము చేసి పంటల అభివృద్ధికి అన్ని విధముల కాగుండును. వారు కట్టపడి పనిచేస్తారు. ఎక్కువ ఆహారము పండించడానికి అవకాశము ఉంటుంది. ఔను నివారణకు కూడా సహాయపడుతుంది అని మనవి చేస్తున్నాను."

SRI S. C. BALAKRISHNAN :—“తలైవరవరంగణే, వివశాయమ్ 3 p.m
ஒன்றையே நம்பி வாழும் நம் நாட்டிற்கு துரப்பாக்கிய வசமாக நீர்ப்பாசன வசதியை அதிகரிக்கச் செய்ய முடியவில்லை. அதன் காரண மென்னவென்றால், நம் நாட்டில் நம் மக்களால் நடத்தப்படும் பொது ஜன சர்க்கார் இல்லாமலிருந்ததேயாகும். நம் தேசத்தில் எத்தனையோ பெரிய ஆறுகளிருக்கின்றன. பாலாறு மாத்திரமல்ல, அது போன்ற பல ஆறுகளிருக்கின்றன. ஆனால், அத்தனை ஆறுகளில் பல ஆறுகள் விவசாயத்திற்காக தேக்கி வைத்து வசதி செய்து கொள்ளாமற்படி அனாவசியமாகச் சமுத்திரத்தில் பாய விடுகிறோம். மற்ற நாடுகளுடன் நம் நாட்டை ஒப்பிட்டுப் பார்த்தால், நம் நாட்டில் விவசாய அபிவிருத்திக்கு எவ்வளவோ வசதிகளிருக்கின்றன. அப்படியிருந்தும், துரப்பாக்கிய வசமாக நாம் விவசாய அபிவிருத்திக்கு கேற்ற நீர்ப்பாசனத்தை இது வரையிலும் செய்யவில்லை. நம் நாட்டிலே விவசாயம் செய்யப்படும் நிலமோ மிகவும் குறைவு. மற்ற நாடுகளை எடுத்துக்கொண்டால், அங்கெல்லாம் விவசாயம் செய்யப்படும் நிலம் மிகவும் அதிகமாகவிருக்கிறது. உதாரணமாக ஆஸ்திரேலியாவை எடுத்துக்கொண்டால், அங்கே விவசாயிகள் தலை ஒன்றுக்கு 150 ஏக்கர வரையிலும் விவசாயம் செய்வதாகக் கணக்கிடப்பட்டிருக்கிறது. நம்முடைய நாட்டிலோ வென்றால் 1 முதல் 3 ஏக்கர வரையிலுந் தான் தலை ஒன்றுக்கு விவசாயம் செய்வதாகச் சொல்லப்படுகிறது. 40 கோடி மக்கள் வாழும் நம் நாட்டிலே, இந்தப் பஞ்ச காலத்தில் கொஞ்சம் அதிகமாக விவசாயத்தைப் பெருக்கிக்கொள்ள வசதிகள் செய்துகொள்ளலாம். எத்தனையோ விவசாயிகளுக்கு ஏராளமான நிலங்கள் பண் படுத்தப்படாது, விவசாயத்திற்கு லாயக்கில்லாமலிருக்கின்றன. இவற்றை நம்முடைய மாகாண சர்க்கார் உடனே கவனித்து விவசாயத்திற்குக் கொண்டுவரத்தக்க ஏற்பாடுகளைச் செய்ய வேண்டும். ஹரி ஜனங்களின் சார்பாக நான் கேட்டுக் கொள்ளுவதென்னவென்றால், இனிமேல் சர்க்காரால் புதிதாக விவசாயத்திற்குச் கொண்டு வரப்படும் நிலங்களை யெல்லாம் தயவு செய்து ஹரிஜனங்களுக்குக் கொடுக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன். தஞ்சை ஜில்லாவிலே ஒவ்வொரு வருஷமும் 1,000 முதல் 2,000 ஏக்கர்கள் வரையிலும் நிலம்

[Sri Kala Venkata Rao] [19th August 1946]

either party must abide by the decision of the National Authority or abdicate its rights. For a working arrangement, I would suggest the formation of district irrigation committees consisting of local legislators, P.W.D. officers and some co-opted public men. I agree with the previous speaker that there should be a target of one crore for each district. I urge further schemes should be for a duration of five years and the schemes must be prepared within six months. You should also have a Provincial authority or if you prefer two Regional authorities for the Province. The Regional or Provincial authority as the case may be must consist of the Minister in charge of the subject, the Chief Engineer, one or two retired Chief Engineers and two or three important non-officials who are interested in these problems. This authority must scrutinize all major schemes and sanction minor irrigation schemes, as prepared by the district committees. We cannot create irrigation schemes without a plan and it is necessary to remember that we have only five years before us even if we are to serve the whole of our period. I would appeal to the hon. the Minister to take up the work immediately and proceed. Survey with definite ends in view is itself a form of research and provides knowledge which dictates action. Finally, I would say, Sir, that big dams are static affairs. But those static moulds of concrete will come into being only through dynamic action. I wish the Hon. Minister God-speed and good-speed."

* SRI K. A. NACHİYAPPA GOUNDER:—"Mr. Speaker, Sir, a country like ours which is chiefly an agricultural one requires irrigational facilities and we must pay considerable attention to it."

* MR. SPEAKER:—"That is why I have allowed four hours for this Demand."

* SRI K. A. NACHİYAPPA GOUNDER:—"Thank you very much, Mr. Speaker. A good deal of work requires to be done in this direction. I may tell the Government that they need not be anxious about funds as most of these schemes would be productive and would yield good returns. Hence these schemes can very well be financed from borrowed money. Such schemes can be straightway started with loan funds. Not only would such schemes be useful for irrigation purposes but hydro-electric power could also be generated and harnessed by industrial advancement of the country and we can derive much profit in this way also. So, I would urge that the Government takes up special steps in this direction."

"So far as my district of Salem is concerned, I wish within the short time at my disposal to mention a few of the schemes which could be taken up with profit both to the people as well as to the Government. Even as early as 1878, some schemes seemed to have been investigated and they were found to be quite useful and very profitable too. I wish to draw the attention of the House to the Preliminary Report on the Unification of Protective Works and Irrigation in the Madras Presidency. The construction of a reservoir has been suggested there across Pennar about 6 miles south-west of Kanigiri and it would irrigate a very

[19th August 1946] [Sri K. A. Nachiyappa Gounder]

large portion of Krishnagiri, Dharmapuri and Harur taluks, the extent running to the tune of about 50,000 acres and the return was said to be somewhere about 9 per cent. One other scheme is the Vaniar Project which would irrigate a portion of Salem and Harur taluks and it was said to yield 6½ per cent or so. Further I understand that there is the Thoppiyar Project scheme which is under investigation. So far as the authorities are concerned, they expect about 3,000 acres to be served by this Project. I believe that it is capable of irrigating many more thousands of acres, if it is diverted into Omalur and Tiruchengodu taluks by linking it up to Gudukal tank in Melur taluk by means of a cantour channel. There is another scheme by which both Salem and Coimbatore districts would be served by taking channels from Mettur Reservoir and this is said to irrigate about 45,000 acres and is capable of commanding more area also. The existing irrigation work in Namakkal taluk by the Jedarpalayam Korambu channel, has not been found to be quite useful and dependable. The ryots are obliged to meet with disappointments often times as their crops are destroyed on account of the Korambu being washed away every now and then. A proper bed regulator at a suitable place higher up will overcome the handicap besides irrigating more lands. There is great need for improving the existing channels in order that better facilities for irrigation may be made available to the people. There are many other schemes which for want of time I am not able to place before the House but I shall take the earliest opportunity to place them before the Government. I agree with my hon. friend Mr. Kala Venkata Rao that the Government must constitute a committee for each district, so that the various schemes that may be useful to the district might be considered and investigated. On the basis of the investigations of all the district schemes a comprehensive scheme for the entire Province could be drawn and the work taken up on hand all simultaneously from loan funds so that we might tackle the question of food all over the Province in a thorough manner."

* SRI K. SUBBA RAO:—"సభాధ్యక్షా, నీటిపారుదల మంత్రిగారు కోరిన మొత్తము సంతోష పూర్వకముగా అందరు అంగీకరించవలెనని కోరుచూ, ఆ మొత్తము నిజముగా యీ రాష్ట్రములో నీటిపారుదల సౌకర్యములు ప్రజలకు ఎక్కువ చేయవలయునంటే చాలదని మనవిచేయుచున్నాను."

"ముఖ్యముగా, మనిషికి నీరే ప్రాణాధారము కనుక, జలవనరులేర్పాటుచేసిన ప్రభుత్వమే ప్రజాప్రభుత్వము; కాని, పేరుకు ప్రభుత్వమనుకొన్నది ప్రజాప్రభుత్వము కానేరదు. ముఖ్యముగా, యీ జలవనరులను గురించి కాంగ్రెసు ప్రభుత్వమువారు ఆధికారము తీసుకున్నప్పటినుండియు కృషిచేస్తూవున్నారని నాకు తెలుసును. మన మంత్రిగారు ముఖ్యముగా అనంతపురం జిల్లాలో ఏ ప్రాంతములో ఏ జలవనరులు ఏర్పాటుచేస్తే సౌకర్యములు పెరచుతుందో తెలుసుకొనివచ్చినారు అందుకు వారిని అభినందిస్తున్నాను; గాన, యీ ప్రాజెక్టులవిషయమై కొన్ని సలహాలు నేను చేయుచు ఉన్నాను"

"అనంతపురం, జిల్లా ప్రాంతములోని పెన్నారు, కముద్వతీ ప్రాజెక్టు నిర్మాణము నకు మైసూరు (Mysore) ప్రభుత్వమువారు అడ్డంకులు చేస్తూవున్నారని చెప్పుదు

3-30 p.m. *SRI N. ANNAMALAI PILLAI:—“கனம் சபா நாயகரவர்களே,
கனம் அங்கத்தினர்களே, வட ஆற்காடு, தென்னாற்காடு ஜில்லாக்களைச்
சேர்ந்தார்போல் தென் பெண்ணையாறு ஓடிக்கொண்டிருக்கிறது. இந்தத்
தென் பெண்ணையாற்றுக்கு அணைகட்டுவதற்காகப் பல வருஷங்களாகச்
சர்க்கார் முயற்சித்து வந்திருக்கிறார்கள். வட ஆற்காடு ஜில்லா, செங்கம்
தாலுகா, சாத்தனூருக்குச் சமீபத்திலுள்ள இரண்டு மலைகளின் சந்திப்
பில் அந்த ஆறு ஓடுகிறது. அதை அணைக்கட்டி உபயோகப்படுத்தினால்,
திருக்கோவிலூர் தாலுக்கா, விழுப்புறம் தாலுக்கா, செங்கம் தாலுக்கா,
திருவண்ணாமலை தாலுக்கா, செய்யார் தாலுக்கா, வந்தவாசி தாலுக்கா,
ஆகிய ஊர்களில் நீர்ப்பாசன வசதி உண்டுபண்ணி விடலாம். இதைக்
கொண்டு ஏராளமான புஞ்சை நிலங்களை நஞ்சை நிலங்களாகச் செய்து
விட முடியும். எனது ஜில்லாவானது மிகவும் வரண்டுபோன ஜில்லா;
பஞ்சத்தில் முழுகிப்போன ஜில்லா; புஞ்சை நிலங்கள் நிறைந்த ஜில்லா;
மானம் பார்த்துத் பயிரிட்டு ஜீவிக்விருவர்கள் வாழ்கப்படுகிற ஜில்லா. முக்கிய
மாக செங்கம், திருவண்ணாமலை தாலுக்காக்களில் விவசாயிகள் நீர் வசதி
யில்லாமல் மிகவும் கஷ்டப்பட்டுக் கொண்டிருக்கின்றனர். பல வருஷங்
களுக்கு முன்பே பெண்ணையாற்றில் சாத்தனூருக்குப் பக்கத்தில் அணை
கட்டுவதென்று சர்க்கார் திட்டம் போட்டிருந்தனர். ஒவ்வொரு வருஷமும்
பட்டுட்டில் போட்டும், அந்தத் திட்டத்தை அமுலுக்குக் கொண்டு

[19th August 1946] [Sri N. Annamalai Pillai]

வராமலே இருந்திருக்கிறார்கள். ஒவ்வொரு வருஷம் பட்டுட்டிலும்
அதற்கான தொகை ஒதுக்கப்பட்டிருக்கும். ஆனால், கடைசியில் செலவு
செய்யப்படாமல் விடப்பட்டிருக்கும். காங்கிரஸ் மந்திரி சபை ஏற்பட்டி
ருக்கும் இந்தச் சமயத்திலும் அதே மாதிரியான நிலைமை ஏற்படாம
லிருக்கவேண்டுமென்று ஜனங்கள் எதிர் பார்க்கின்றார்கள். நானும் அவ்
விதமே எதிர் பார்க்கின்றேன். விவசாயத்தை அதிகரிக்க வேண்டு
மென்று சொல்லும் இந்தச் சமயத்தில் இந்த ஆற்றில் அணைக்கட்டினால்
விவசாயத்திற்கு உதவுவதோடு கூட, அதிலிருந்து electric current
கூட எடுக்க முடியும். காங்கிரஸ் சர்க்கார் உடனடியாக இத்திட்டத்தை
ஆரம்பித்து வைப்பார்களானால், special staff ஒன்றை வைத்து
வேலையை உடனே துவக்குவார்களானால், அது மிகவும் நன்றாயிருக்கு
மென்று நான் தெரிவித்துக்கொள்ளுகிறேன்.

“செய்யாது அணைக்கட்டும் ரிப்பேர் செய்யப்படாமல் உடைந்து போய்க்
கிடக்கிறது. துறஞ்சிலார் அணையெல்லாம் கூட உடைந்து போய்க் கிடக்கின்
றது. இவைகளை உடனடியாக ரிப்பேர் செய்யவேண்டும்.

“போனார் தாலுக்காவில், படவெட்டு கிராமத்திற்குச் சமீபத்தில்
குப்பம் என்ற ஏரி இரண்டு மலைகளுக்கு நடுவே கட்டப்பட்டிருக்கிறது.
அந்த ஏரி உடைந்து அநேக வருஷங்களாகியும், இன்னும் கவனிக்கப்
படாமலும் கட்டப்படாமலேயே இருந்து வருகிறது. அதை உடனே
கட்டவேண்டுமென்று நான் கேட்டுக்கொள்ளுகிறேன். ஜில்லார் (திருவண்
ணாமலை தாலுக்காவில்) துரு வாரப்படாமலேயே இருந்து வருகிறது.
அதுவே போல் சமுத்திரமேரியும் மண் துந்துபோய்க் கிடக்கிறது. வெள்
ளத்தினால் உடைந்து போன பல ஏரிகள் என்னுடைய தொகுதியில்
இன்னும் ரிப்பேர் செய்யப்படாமலே இருக்கின்றன. இந்த வருஷத்திலே
யாவது அவைகளைக் கட்டிக்கொடுக்கவேண்டுமென்று கேட்டுக் கொள்ளு
கிறேன். இப்போதுள்ள பஞ்ச காலத்தில் இந்த ஏரிகளை யெல்லாம்
உடனடியாக ரிப்பேர் செய்தால், விவசாயத்தை அதிகப்படுத்தி, தானி
யங்களை அதிகமாகக் கொண்டு வரமுடியுமென்று தெரிவித்துக் கொள்ளு
கிறேன். முக்கியமாக, பெண்ணையாற்றில் அணைக்கட்டும் வேலையை உடனே
துவக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.”

*SRI K. CHANDRAMOULI:—“Mr. Speaker, Sir, this pro
vince is rich in supply of water, both by rainfall and by peren
nial rivers. And yet there is a great cry everywhere for water
and more water. So it means there must be something wrong in
the policy of the Government that was in existence previously.
Instead of conserving water, when it was available in plenty, it
was allowed to flow freely and run to waste, leaving men and
crops to their fate. So I am submitting to the Hon. Minister in
charge of Irrigation that he should take this problem on a broad
basis, instead of dealing with it piecemeal, and see that rivers are
properly dammed and water let into channels. Of the Kistna river,
88 per cent of its water is wasted into the sea; only 12 per cent
of the water is utilized at present by the Government for irrigation
purposes. If the Kistna anicut is properly raised to a higher level
and if more shutters were fixed, there will be more water impound
ed, which can be let into a net-work of canals, and which in their
turn will serve also as a means of communication. We cannot solve
our transport problem in any other way. Even for transporting
food there are no waggons nowadays.

“Now coming to the district from which I come, the Guntur
district, only one-sixth of the district is irrigated, and the remain
ing five-sixth of the area is dry. Even in that one-sixth area, all

[Sri K. Chandramouli] [19th August 1946]

the crops have no proper supply of water. Repalle taluk is suffering from this, as it is at the tail-end of the irrigation system. There is not even sufficient provision for drainage of water. Unless the drainage system is improved irrigation can never be availed of satisfactorily.

"I would make one more appeal, and that is with regard to the Kandleru project, which costs only 3½ lakhs but irrigates more than three thousand acres and feeds about six lakhs of people. Now, Sir, it is a well-known fact that this province is famous for tank irrigation. Unless rain water and surplus water are conserved, no tank or irrigation scheme can be worked satisfactorily, and no Grow More Food Campaign will be successful, so that the whole province may have abundant food, or I would say, enough and to spare. With these words I resume my seat."

* SRI P. VENKATARAMA AYYAR:—"கனம் தலைவரவர்களே, நீர்ப்பாசன சம்பந்தமாக நான் பேச எழுந்ததும் தஞ்சாவூர் ஜில்லா வாசி கொழுத்த நீரரைமத்திலிருந்து வந்து பேசுகிறேனே என்று சபையினுள்ளவர்களுக்கு வியப்பாயிருக்கலாம். உண்மையிலேயே ஜலம் சரியாக பாய்கிறதில்லை. தஞ்சாவூர் ஜில்லா இயற்கை நீர் ரொம்பம் ஆனதால் மேட்டூர் ரிசர்வாயர் கட்டினாலுங் கூட ஆறு பள்ளத்திலிருந்து நிலம் மேடாக இருப்பதால் வாய்க்காலிலே போகும் ஜலம் வயல்களுக்கு ஏறிப் பாய முடியவில்லை. வெண்ணாறு, வெட்டாறு பிராந்தியங்களிலுள்ள நிலங்கள் மேட்டுப்பாங்கானது. ஜலம் ஏறிப் பாய்வதில்லை. நீடாமங்கலத்துக்கு மேற்கே மைனர் இரிகேஷன் வாய்க்கால் எல்லாம் வெட்டப்படாமலிருக்கின்றன. வாய்க்கால் "எ" கிளாஸ், "பி" கிளாஸ் என்று பிரிக்கப்பட்டிருக்கிறது. "எ" கிளாஸ் சானல்கள் சர்க்காரால் பராமரிக்கப்பட வேண்டியது. ஆனால் 5, 6 வருஷத்துக்கு ஒரு தரம் வாய்க்கால் மதகுகள் ரிப்பேர் சம்பந்தமாகவும், shutters போடவேண்டியிருந்தால் போடுகிறதைத் தவிர வேறொன்றும் செய்யப்பட்டதாகத் தெரியவில்லை. குடிமராமத்து ஆக்ட் ஒரு வேலையும் செய்ய முடியாத நிலைமையில் ஒவ்வொரு வாய்க்காலும் வெட்டமுடியாமலிருக்கிறது. சட்டமந்திரி "Grow More Food Campaign" விஷயமாக தஞ்சை ஜில்லாவிற்கு வந்த எல்லா இடங்களிலும் இதே கூக்குரல்தான். கிராமாந்திரங்களிலே வாய்க்கால் வெட்டப்படாமல் பாழாய்க் கிடக்கிறது. நன்றாய் விவசாயம் செய்ய முடியாமலிருக்கிறது. இதற்காக பட்ஜெட்டில் பெரிய தொகை ஒதுக்கவேண்டும். இப்பொழுது அதிக உணவு சாகுபடிக்கு போனஸ் கொடுக்கிறதைக் காட்டிலும் வாய்க்கால் வெட்டி சாகுபடிக்கு வேண்டிய சவுகரியத்தைச் செய்து கொடுக்கும் பக்கத்தில் இப்பொழுது விளைச்சலைக் காட்டிலும் அதிக விளைச்சலை ஏற்படுத்த முடியும். இதனால் 30, 35 பர்செண்டு அதிகம் விளையும். இன்றைய தினம் ஸ்யாம், அமெரிக்காவிலிருந்து தானியங்களைக் கொண்டு வருவதைக்காட்டிலும் விவசாயத்திற்கான பாசன, வடிகால், ஏரு முதலிய வசதிகளைச் செய்துகொடுக்கும் பக்கத்தில் தஞ்சாவூர் ஜில்லாவிலேயே நாம் அதிக தானியத்தை அடைய முடியும். வாய்க்கால்களை வெட்டவேண்டியது மிகவும் அவசியம். அதோடு தஞ்சை ஜில்லாவில் வடிகால் வசதி சரியாக இல்லை. இது நீண்ட நாள் குறை. இதனால் மழைக்காலத்தில் எங்கு பார்த்தாலும் ஜலம் தேங்கி விடுகிறது. அழுதி கெட்டு இளம் நடவானால் முழுதி அதிலும் ரயில்வே லயனுக்குக் கிழக்கே இரு புறங்களிலும் ஒரே தண்ணீர் மயமாகவே இருக்கும். வரப்பு என்றும் வாய்க்கால் என்றும் தெரியாது. அங்கே இருக்கும் மரங்களெல்லாம் ஜலத்திலே மிதப்பது போலத் தோன்றும். இசற்குக் காரணம் அங்கு வடிகால் வசதி மிகவும் குறைவு. சர்க்கார் இதை உடனே செய்து கொடுக்க வேண்டும்.

[19th August 1946] [Sri P. Venkatarama Ayyar]

"இரண்டாவதாக தஞ்சை ஜில்லா இயற்கை நீர்வள முள்ள பூமியானதினால் பாய்கால் வடிகால் ஒரே வழியாகத் தான் போகவேண்டியதாக இருக்கிறது. இக்காரணத்தினால் ஜலம் சீக்கிரம் வடிய முடியாமல் தேங்கி விடுகிறது. முக்கியமாக கார்த்திகை, மார்க்கழி மாதங்களில் கதிர் புரப்படும் சமயத்தில் மழை பெய்தால் வடிகால் வசதி இல்லாமை யால் அது முழுதி போய் முற்றும் பதராகி கெட்டுப் போய் விடுகிறது. ஆகவே தஞ்சை ஜில்லாவில் பாய்கால் வடிகால் அபிவிருத்தி செய்வதற்காக எஸ்டிமேட்டுகள் தயாரிக்கும்படி செய்தால் அடுத்த வருஷத்திய பட்ஜெட்டிலாவது, கவர்ன்மெண்டார் வசதி செய்து கொடுப்பார்களென்ற நம்பிக்கையுடன் நான் இந்த மான்யத்தை ஆதரிக்கிறேன்."

* SRI K. RAGHAVAN:—"Mr. Speaker, Sir, I intervene in this debate to call upon the Government the great necessity to undertake some minor irrigation works in the district of Malabar. It is a long-felt want of the people and I call upon the Government to undertake some minor irrigation works. Because of heavy rainfall in Malabar, there is an impression that the district flows with milk and honey and there is no need for minor irrigation works. To-day it is an exploded theory and I must, with all the emphasis at my command, say that Malabar stands very much in need of minor irrigation works. The Hon Minister in charge of Revenue who visited Malabar a couple of months ago, has stressed the imperative need for minor irrigation in South Kanara and Malabar. The realization of the Kundacheru project in Kottayam taluk has been a crying demand for the last so many years. Representations were made from time to time to the previous Government. Chirakkal and Kottayam, being the deficit area, some irrigation scheme should be undertaken forthwith. I would like to draw the attention of Government to the loss of crops in Malabar due to excessive rain this year. Proper compensation should be given to the agriculturists. Lastly, I trust that the Government will draw up a comprehensive scheme of minor irrigation works in Malabar and execute them as early as possible."

SRI V. C. PALANISWAMI GOUNDAR:—"Mr. Speaker, Sir, coming as I do from Coimbatore district which is adjoining Salem, these two districts are interior districts. They are mainly dry areas. The geographical position of Coimbatore is unfortunate, being centrally situated. It is benefited neither by the north-east monsoon nor by the south-west monsoon. Therefore its condition is very deplorable. Of course, Coimbatore cannot boast of big rivers or any perennial stream or of any big reservoirs. Coimbatore and Salem districts are adjoining Mettur Reservoir. But both the districts, unfortunately, are not benefited by it. Anyhow, Sir, the situation in Coimbatore can be improved by developing the existing rivers, namely, Amaravathi on the south, Bhavani on the north, and the Noyal in the centre. The Noyal water is used for all purposes. As we know, it runs through the centre of the district, starting from the Vellingiri hills and ending in Cauvery in Dharmapuram taluk. This system is peculiar by itself. It has got nearly 32 anicuts, and at every third mile there is an anicut and a channel, and at the end of each channel there is an irrigation tank. But unfortunately, Sir, owing to the defective rainfall and the frequent failure of the monsoon, almost every

[Sri V. C. Palaniswami Goundar] [19th August 1946]

year these tanks do not get filled. The ayacutdars get a satisfactory crop only once in every three years. Therefore, Sir, the Noyal river has to be improved by the irrigation scheme that was originally contemplated by the Engineering Department at the time the Coimbatore Municipal Water-Supply Scheme was designed. If you go into the history of the Siruvani Scheme you will find it has three aspects, namely, (1) augmenting the water-supply in Noyal river, (2) giving additional water-supply for increased ayacut, and (3) developing hydro-electric supply. At that time the Pykara Hydro-Electric Scheme did not come into existence. Therefore, Siruvani Scheme received a prominent place in the scheme of irrigation water supply and hydro-electric developments. But for some reason or other these two schemes were dropped, and the Coimbatore Municipal Water-Supply Scheme alone came into existence. Of course, we are now in a favourable position. The Coimbatore Municipal Water Works have done pioneer work, and if the Irrigation department takes into consideration the diversion of the Siruvani water into the Noyal and form a big reservoir at the head of the river, the original plan will be accomplished.

"Another important point I would like to mention is the Bhavani Project. It is as old as the Tungabhadra Project, but for some reason or other, this project was postponed. During the Advisers' regime we were told that the Bhavani Project was sanctioned, but somehow it has receded in the programme. I request Government to take up the Bhavani Project now. As there is no time for me to deal with other matters, I resume my seat."

* P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"Mr. Speaker, Sir, I would not have risen to support this cut motion but for one local matter that I want to bring to the attention of the Government. Before that I would like to ask the Government whether they have any long range plan with regard to the irrigation schemes in the Province. There is no use of tinkering with this problem at this time when all the attention of the Government has to be concentrated on the food question. We would have to take a long range view of these things and plan accordingly. In fact if the Advisers' regime was alert enough it could have made a plan and could certainly have averted the impending calamity that is threatening us to-day. But there is no use of crying over spilt milk. I would request this popular Government to see that they have a definite plan with regard to the irrigation projects in this Province so that this food problem may be solved once for all in this country. I would request the Government to see whether they can appoint a committee, if they are very nervous about appointing a committee, at least an officer, an expert officer, to go into this question. In fact I have been anticipated by my hon. Friend Mr. Kala Venkata Rao about the necessity for constituting an Irrigation Advisory Committee, for the Province as well as for each district. I strongly endorse his suggestion.

"Coming to Malabar, that unfortunate piece of land has been misrepresented for a long time, I think, owing to the ignorance of the administration run by the Britisher who took only a casual

19th August 1946] [P. K. Moideen Kutti Sahib Bahadur]

glance of the localities. Malabar looks beautiful. Its scenery is splendid. So the Britisher goes away with the idea that it is flowing with milk and honey. That legacy has been handed down from generation to generation with the result Malabar has been neglected for a number of years, and it has culminated in that unhappy tragedy that was witnessed in 1943 which resulted in a famine which was responsible for a casualty of about one lakh. I know the Hon. Premier knows something and a good deal, if not more than many of us know, about Malabar, and I know he has great sympathy for Malabar district. I need not add much about the claims of Malabar because my hon. Friends, Mr. Pocker and Mr. Seethi Sahib, have very ably pressed the claim of Malabar in the matter of irrigation. I will add one thing more, that is with regard to my taluk, Ponnani. In fact, during the last Congress regime, the present Additional Minister for Food, I remember, was pleading very strongly for some irrigational projects in the Palghat and Ponnani taluks. I will draw the attention of the Government to the fact that we have a perennial river which runs right across the Palghat division and wastes its water into the sea. In this connexion I may say that I had an occasion to talk to a high officer in the Engineering Department who was simply struck with the immense possibilities of the taluk in the matter of irrigational facilities. I would request the Minister for Irrigation to see that that water is not wasted, but utilized for irrigational purposes. In fact, it has been an yearly occurrence in that part of Malabar to hear of the failure of second crops. If only the Engineering Department are prepared to look into the question and make the water of the Bharathapuzha useful for irrigation purposes it would greatly add to the solution of the present food problem in that taluk. With these words, Sir, I resume my seat."

* THE HON. SRI M. BHAKTHAVATSALAM:—"Mr. Speaker, 4 p.m.
Sir, I am extremely obliged to hon. Members on the other side as well as those on this side for the very valuable and friendly contribution which they have made to this debate. There is practically no difference between the Government and the Members of the Opposition on the other side on this question of irrigation. Government are fully aware of the importance of this question of irrigation during the present food crisis. Even for improving the economic condition of this poor country, we have to devote sufficient attention to develop agriculture, and to develop agriculture, we must have a long range programme and an immediate programme for expanding irrigation. And the food situation that is facing the Government and this House impels us to devote necessary attention to this question of expansion of irrigation. Even on the question of inadequacy of representation of Muslims in this department, I do not demur, Sir. I want my hon. Friends on the other side to give me qualified men for proceeding with our expansion activities. We want more men, we are short of men. We are at our wit's end to find qualified men to carry out our programme. We have been sanctioning special staff in every district

[Hon. Sri M. Bhakthavatsalam] [19th August 1946]

to investigate and carry out new works that are proposed. We are short of men and if only my hon. Friends on the other side would help me with a supply of qualified men, I shall be extremely grateful to them. There was a suggestion that we could take in some qualified men from the Highways section. I have been considering that question. We have taken up the reorganization of the Highways section, and I am in a position to say that we shall be able to spare a few superintending engineers, a few divisional engineers, a number of assistant engineers, and a good number of supervisors who are now in the Highways section. We propose to draft them to irrigation work without the least prejudice to the need for maintenance of the roads in this province. In this connexion, I must also point out that so far as the ryots are concerned, they are more interested in having new works, and necessary repairs being executed expeditiously than in having men of their own communities represented in the Irrigation department. Anyhow, I am for removing all inequalities, all under-representation, and only I must have qualified men. If I can get qualified men from the Muslim community or from the community to which Mr. Nagappa belongs, I would even give over-representation to these communities. I only want qualified men.

“Regarding the programme, I can give you the programme that I am framing and the plan that I am preparing. We are analysing the various schemes and works that we can take up in each district under three heads. One is the short-term plan. Under this plan come schemes and measures which can be executed within the shortest possible time and which will be productive of almost immediate results, preferably before the end of the year. Under this head, we are attending to the clearing of silt in supply channels and canals so as to supply adequate water. We are immediately attending to this in every district. Wherever it is not properly attended to, if the Government's attention could only be drawn to it, we would take necessary steps to have these repairs carried out expeditiously. Under the short-term plan, we propose to increase the ayacut of channels to a limit of 5 to 10 per cent as a temporary measure by running extra depths of flow wherever possible. This would be possible in the Kistna, Godavari and Cauvery deltas where irrigation of new areas may be permitted to some extent. Then again, under the short-term plan, we propose to arrange for pumping water wherever it is found feasible and desirable. Again, under this short-term plan, we propose to extend the existing channels and excavate their links to new channels for providing irrigation facilities to new lands.

“Then under the middle-term plans, come new irrigation schemes and measures which can be executed, the effects of which can be felt within one or two years. That will extend from 200 to 5,000 acres.

“Then again, I have got the third head, long term plans, for big projects. Some projects we have already taken up. Some projects have been sanctioned already. The Hon. Premier referred to some big projects like the Vaigai project, the Lower

19th August 1946] [Hon. Sri M. Bhakthavatsalam]

Bhavani project, Sathanoor scheme for the North and South Arcot districts, Pennar Kumudavathi project, and so many other projects. These projects come under the long-term plans. We shall take up these works also early. We must begin some time; particularly because it will take a long time to yield results, we should not delay it. Government fully realize it. These may yield results after a period of three years.

“Then again, there is the fourth item. That is the question of minor irrigation works. We have asked the Collectors to devote all their attention to improve minor irrigation works. Under this head we propose to carry out our expansion activity.

“I have got in my hand proposals for each district under these three heads. I have become fairly acquainted with the several projects—as many as 33—hon. Members referred to these in the course of the debate on this demand for grant on irrigation. I have asked the department to examine them as expeditiously as possible. Investigation has to be done, but investigation, I assure the House, will be done as expeditiously as possible. When the investigation is complete, the works will have to be taken up for execution. Even for executing works within a short time, there is really technical difficulty, practical difficulty and I say even physical difficulty, in spite of what my hon. Friend Mr. Venkateswarlu observed this morning. For a project, it is true 30 lakhs or 40 lakhs or one crore is allotted. There may not be any difficulty in allotting the one crore in the budget for one year. But the work has to be executed. I might have the necessary labour through the kind efforts of my Friend Mr. Venkateswarlu, but mere labour will not do. There are technical difficulties. Of course, we had expedited work in the Rumperu drainage scheme in Guntur district, for which the previous Government allotted only one lakh of rupees. With a view to accelerate the execution of the scheme, we have this year raised it to five lakhs. We can raise it to as much as possible, we can expedite it as much as possible, but it is not possible to complete the works with any number of men within a shorter time than what is required for completing works like them. Of course in the past, irrigation was not given the necessary attention. There was the old criterion, as was referred to by hon. Members in this House. If a new project was to be taken up, they used to calculate what would be the capital outlay, what would be the return, whether it would satisfy the prescribed limit, etc. Schemes were abandoned even after investigation. Even after months of labour by engineers, several schemes have now been abandoned. As the Hon. Premier referred to in the course of his budget speech, we propose to take up several of the abandoned schemes. Our present criterion would be the extra acreage that would be brought under cultivation. Of course priority would be given in taking up the works considering the extent of additional cultivation we can bring under a particular project. With that idea in view, we are re-examining several of the schemes that had been found useless and abandoned in the past. We now realize—I entirely agree with the observations made by some hon. Members

[Hon. Sri M. Bhakthavatsalam] [19th August 1946]

—that rather than spending crores of rupees on famine relief works, we can as well spend large amounts of money on irrigation projects, expand irrigation and permanently do away with famine. It is with that idea that this Government have been examining schemes not for one district, not for two districts, but for every district. Even for the Nilgiris, although no hon. Member referred to the needs of that district, I can tell this House we have got on hand four schemes. One cannot imagine whether there can be any irrigation scheme in the Nilgiris district. We have got on hand four irrigation schemes, it may be minor schemes, but still we have on hand those schemes, and we shall try to execute them.

“ Then reference was made to the neglect of the West Coast. It is true the West Coast has been neglected. But it must also be pointed out that there have been natural difficulties and legal difficulties in the matter of taking up and executing schemes. Anyhow we shall get over all these difficulties. We propose to have necessary legislation before long in order to get over the legal difficulties in the matter of expansion of irrigation activities in the West Coast. We have been examining schemes for Malabar, and I have got on hand nearly 25 schemes. For South Kanara, I have got on hand 20 schemes which have to be examined and taken up. Even for the Vizagapatam district, I have got as many as 32 schemes. Of course in the past necessary attention was not bestowed and several districts were neglected, and now I am anxious that we must take up every district. It is also my personal ambition that, apart from the major works for which we would be spending large amounts of money, we should not mind spending a crore of rupees on an average for each district on minor irrigation works. Why one crore? We can spend even more. We are examining all possible schemes that could be taken up, all schemes that could be considered feasible from the engineering point of view, all schemes that would really result in substantial additional acreage under cultivation. When we take up the schemes, we do not mind the expenditure; we would be satisfied if, by carrying out a programme like this, this country can be made self-sufficient in the matter of food. Reference was made to the condition of Rayalaseema. We are quite aware that the Tungabhadra scheme would benefit only seven taluks in the whole area. We have got schemes on hand which would cost—I have not got figures for Bellary district on hand—Rs. 206.17 lakhs which would bring under cultivation 46,755 acres. We have been sanctioning special staff for taking up works. Reference was made by the hon. Member for Anantapur in regard to the delay in the matter of investigation of schemes. Investigations will be expedited. The special staff has already been sanctioned to examine the possibilities of the Upper Pennar projects. Reference was made by the hon. Member for Bellary to the Bhairavana-Tippa project. It will be investigated. Of course there may be difficulties which were pointed out. I would not deal with such difficulties. We hope to get over these difficulties and bring them into realities. I hope to complete this Bhairavana-Tippa project about which the people of Bellary and Anantapur are so anxious. Then reference was made to the Pennar-

19th August 1946] [Hon. Sri M. Bhakthavatsalam]

Kumudavathi project. It is a pity as pointed out by hon. Members. Even during the last ministry when the present Revenue Minister who was then the Parliamentary Secretary visited the place, Government included it in the Part I Scheme; and still it is there. Investigation is completed but there are hurdles as pointed out by the Hon. Premier in the course of his reply to the general budget discussion. But we do hope to get over these difficulties and before long the Pennar-Kumudavathi project will come into existence. Then, Sir, as pointed out by the hon. Member for Tanjore wherever I go, I see this. It is the same grievance whether it is in the dry famine ridden area or the delta area, whether in Kistna delta or Cauveri delta or the Periyar delta. Though they have plenty of water they suffer so much damage. Therefore we have taken up drainage schemes for Guntur and Kistna on hand. Reference was made to the needs of the dry area in Guntur district. We shall certainly examine the Kanduleru scheme. We have first to examine the possibility and then it will take at least six months as mentioned by the hon. Member for Anantapur. After the investigation is completed we shall not hesitate to take up such works for execution. Then the hon. Member for Tiruvannamalai referred to that one project which everybody refers to in the North Arcot district, that is the Sathanoor scheme which was already referred to by the Hon. Premier in his reply. That too is being examined. Then my hon. Friend the Kumara Raja of Chettinad referred to the conditions in the Ramnad district. At least in districts like Anantapur, Bellary and Kurnool people talk of some projects although they have had no benefit from them. But in Ramnad the Public Works Department has been so far only attending to buildings and there is no large irrigation although there are two taluks where there are some irrigation works worth mentioning. Even there when I recently visited I had particulars about a project in the Srivilliputtur taluk. I am examining the scheme. And particularly in neglected districts like Ramnad or Vizagapatam, or South Kanara or Malabar or any other neglected district, I shall give necessary attention. I do not omit intentionally any neglected district which requires our sympathy. My hon. Friend Mr. Moideen Kutty referred to the conditions in Ponnani. We have examined some schemes in Palghat and Ponnani and we shall certainly take up one or two major projects and also as many minor works as possible. Regarding South Kanara, I answered interpellations in this House that two schemes were being investigated. As pointed out by my hon. Friend for Kasaragod that Sheriar scheme which is a very good scheme in South Kanara is being revised and if possibly the estimate can be reduced it will be quite possible to take up that scheme. My hon. Friend Swami Sahajananda referred to certain difficulties in the Chidambaram taluk. The report I have received is that some improvements to the North Rajan channel are being proposed and if these improvements are executed the grievances referred to by Swami Sahajananda would disappear. But I had a talk with Swami Sahajananda this morning. He told me that even if those improvements were carried out the difficulties would not be removed. I would have the question examined again

[Hon. Sri M. Bhakthavatsalam] [19th August 1946]

and see what relief may be given to the ryots of these areas. My hon. Friend for North Arcot made an eloquent appeal to consider the interests of North Arcot. In 1931 the Palar Irrigation Committee, specially appointed to investigate the matter, considered the question and it was found that it would not be possible to extend the area beyond what it is now in the Palar basin. It was found that no extension of existing work for increasing the amount of water impounded was drawn up by them. Government directed that no dry land should be registered wet and no single-crop land should be registered as wet. In 1939 the late lamented Minister for Public Works while replying to the debate had to confess: 'I must confess I feel helpless, not only myself but my department also feels helpless.' But the eloquence of my hon. Friend gives me a ray of hope. If the previous Government had found it helpless the eloquence of my hon. Friend does give me hope that something may still be done. There is the other difficulty with Mysore also. I shall not discuss that question. We are examining the whole question and we will see to what extent relief is possible under the Palar area. Then my hon. Friend from Nellore referred to the Mopad project. He wanted information about the position. It is a famine protective work which was designed to bring under irrigation 12,500 acres of dry land. It was completed in 1920. In 1943 there has been development only in 6,400 acres. The reasons given by the Collector in 1923-24 were the defect of salinity in the land, the lateness of water and the backwardness and poverty of the people. These were examined by the Chief Engineer and the reason given was the slope of the country and the lack of adequate water-supply. Government have considered several measures for improving the project and after careful consideration have decided that it was suitable to supplement from Pillapuram. An anicut has been constructed and its waters have been diverted in the existing Mopad channel to enable regular supply. This work has been recently completed at a cost of 1.3 lakhs. My hon. Friend from Dharapuram referred to the conditions of that famine-ridden area. I could give him some hope. We shall be taking up the lower Bhavani project so as to extend irrigation to parts of Dharapuram. We shall also consider every possibility of extending irrigation to that dry area. Ever since we took up office we have been attending to the immediate repairs to existing supply channels and canals. We have even temporarily dispensed with Kudimaramath regulations so that the repairs might be executed expeditiously without delay or defect. We are examining the whole question of Kudimaramath regulation. We would see how best we should revise that old system. My hon. Friend from Narasapur referred to the defects in his taluk how with a little expenditure large benefits could grow. We shall certainly examine this question and we shall try to give the necessary relief at the earliest possible time. My hon. Friend also referred to the prevalence of corruption among subordinate officials. Hon. Members of this House would remember the Press Note issued two months ago regarding corruption reported to be existing among subordinate officials who are in charge of letting water out. I want the

19th August 1946] [Hon. Sri M. Bhakthavatsalam]

co-operation of ryots in this respect. One Superintending Engineer told me that he went to a village where corruption was rampant. He collected the villagers—the village was in delta area in the Andhra Desa—and said: 'I shall be camping here for a month. I shall see that you are not put to any inconvenience.' But the villagers told him: 'You will be here now. Next year we shall have to carry on with the old overseer. So we shall not do anything.' Is that the co-operation which would help us to get rid of corruption? I want unstinted co-operation, from the ryots, from the public and from the hon. Members of this House to remove corruption. If corruption is bad elsewhere it is hopelessly bad in irrigation. We are really anxious to root out corruption and I do expect your unstinted co-operation in that respect.

"Then my hon. Friend Mr. Kala Venkatarao who is one of the specialists on irrigation matters in this House has made very valuable suggestions. All these suggestions will be considered. He suggested the formation of District Irrigation Committees. I am already considering the question of organizing a regular quarterly irrigation conference consisting of the members of the Legislature, the Revenue officers, the Irrigation officers and certain other representatives of the district. That will be a regular conference. I am afraid the present Irrigation Committees in the districts have not been working quite satisfactorily. So, before long, we would arrange for a regular quarterly conference of the representatives of the district.

4-30 p.m.

"Then my hon. Friend Mr. Seethi Sahib referred to the conditions in Ernad and Walluvanad taluks in the Malabar district. The Postwar Reconstruction Sub-Committee on Irrigation went through the various irrigation schemes, including the postwar schemes of the Malabar district. They have suggested a number of works for investigation in the Malabar district. The Government understand that the whole of the unoccupied lands of the Walluvanad taluk northward with very rare exceptions consist of laterite hill tops to which water cannot be easily lifted for irrigation purposes and these are too porous to retain water even if it is provided. The problem is one of storage of water in such areas without excessive loss on account of seepage. Certain schemes were considered in 1939 but investigation was postponed in view of the legal difficulties on account of the peculiar conditions prevailing in the Malabar district. The question of passing necessary legislation for meeting the difficulties is under the consideration of the Government. After legislation is passed, necessary further action will be taken.

"Then, Sir, certain hon. Members suggested that if we want money for new irrigation works, we should resort to borrowing. Yes, it is a very valuable suggestion. We shall certainly take up that suggestion, if we have your support.

"Several hon. Friends pointed out that our policy as enunciated by the Hon. the Premier is all right but that there was no evidence of it in the budget. Well, Sir, we have enunciated our policy. We

[Hon. Sri M. Bhakthavatsalam] [19th August 1946]

have also framed certain projects but we cannot get them ready for execution within a month or two. They have to be examined. If after examination they are found to be satisfactory, plans and estimates have to be prepared. It is only then that the Government can accord its sanction to the scheme and then only is the scheme taken up for execution, after including necessary funds in the budget. But Sir, even before the budget year, if any scheme is got ready for immediately taking up for execution, I shall not hesitate to go to you for any supplementary grant that will be found necessary. Let not therefore hon. Members be anxious that this or that item should be taken first, or that this project or that project or that this district or that district should be given preference. There is no preference at all in this matter. Whenever a work is ready for execution, we shall go to you for necessary funds.

"In this connection I may also assure the House that we are simultaneously examining the possibility of new schemes in every district in the Province. We are not neglecting any particular district, and we shall bear in mind the districts that have been neglected so far.

"My hon. friend Mr. Abdul Hameed Khan referred to the condition of the Buckingham Canal and the Cooum in the City of Madras and suggested how to improve them. This matter will be examined by the Government with a view to see what improvements can be effected.

"Then reference was made to the condition of irrigation works in zamindari areas. There was a legislation passed by the Advisers' Government in 1943 which empowered the Collectors to take up the works after giving due notice to the zamindars and to execute them and recover the cost from the zamindars.

"But when this Government took up office, it found that that legislation remained rather a dead letter. We have now asked the Collectors to take necessary steps to repair the irrigation works which have been hopelessly neglected in the zamindari areas. We shall, in due course, place that legislation before this House for discussion and approval.

"As regards the Tungabhadra Project, it is being executed as expeditiously as possible. Reference was also made to the Ramapadasagar Project. Investigation is going on and we are devoting all our attention to it. I hope the investigation will be completed in a few months and then we shall be able to take up that big project for immediate execution.

"Then reference was also made to the Sangameswaram Project. Long ago, this project was considered feasible the question of sharing not having been considered; but the Government later did not proceed with it, as the question of sharing the waters between the Hyderabad State and the Madras Government had not been settled. The Engineer also who originally recommended the project gave his advice against it later. So the Government had to give it up as not a feasible project and the matter was left at that stage. But I am not going to leave it at that. My Hon.

19th August 1946] [Hon. Sri M. Bhakthavatsalam]

Colleague, the Minister for Hindu Religious Endowments, had recently been to the place and inspected the spot. He is also, I know, very particular that we should take up that big scheme. I am getting the scheme examined again. If it is found feasible, as I hope it will be, we shall take up that project also.

"I need not, however, refer to the various other suggestions which hon. Members of this House have made on this very important question of irrigation. It is because of its importance that you, Sir, have allowed as much as four hours for this demand. When everybody realizes the importance of irrigation and when the Government is one with the opposition and other Members of the House, I do not think it is necessary for me to take up any more time of the House. With these words, Sir, I appeal to the hon. Member on the opposite side to withdraw his cut motion, and support the grant."

* D. ABDUL RAWOOF SAHIB BAHADUR:—"What about the treaty rights between the Mysore State and this Government, Sir?"

* THE HON. SRI M. BHAKTHAVATSALAM:—"About this question, Sir, I think it would be advisable for us not to discuss it now on the floor of this House. But I can give this assurance to the hon. Member that we are examining the question and we shall do everything we can in the interests of this Province."

THE HON. SRI T. PRAKASAM:—"Sir, this Demand has been dealt with by the Hon. Minister for Public Works exhaustively. I have, therefore, got to say only a few words by way of supplementing what he said regarding our irrigation policy. In regard to this also he has covered the ground to a very great extent. Still, I wish to say a few words.

"Sir, it is expected that at least one crore of rupees would have to be allotted to each district if the irrigation facilities of each district are to be substantially improved so as to give relief to the people. You will see in the whole Presidency from one end to the other each district has to some extent lands irrigated by water either through rivers or tanks. In most places also you will find what are called uplands or dry lands where nothing green meets the eye and no crop is grown. There is scarcity of water even for drinking purposes. It is a sad picture which one cannot adequately describe in a debate of this kind. It would tax all the energies and the resources of this House to describe those areas and to bring them to the level of areas lower down where there is ordinary irrigation.

"Sir, about eight years ago myself and my friend Mr. T. Viswanathan took a journey while we were in office to the Punjab attracted by a scheme which that Government was carrying out at that time with regard to the regulation of rent collection. We stayed there and we were helped by the Punjab Government of the day in every possible way. What did we find there within the borders of India and how the conditions in our own Province stood in comparison? There the canal development had been

4-45
p.m.

[Hon. Sri T. Prakasam] [19th August 1946]

completed at a cost of about Rs. 49 crores. And what had our Province done? The amount spent by this Government here for a similar purpose was about Rs. 2 crores. What could you expect under such conditions? How could anybody have thought of finding this Province on a level with or even approaching the level of the Punjab? You could see then that because that Government had the vision and the sense and the wisdom to find the money and to invest it on the most profitable business for the benefit of the people, that scheme was completed. We went round the whole area with Sir Sunder Singh Majithia who was then the Minister for Revenue and Public Works. Here we are now confronted with the food problem, whereas the Punjab has been in a different condition. The Punjab has been able to send some food to us in the worst days of food famine from their stocks. We should have been better than the Punjab or any other Province in India.

"Sir, look at the number of rivers referred to by hon. Members in the House to-day. I must congratulate every Member who in his own way referred to the rivers or projects or works that have to be attended to by Government. Hon. Members drew up a complete map of the whole Province in the matter of irrigation works. I thank every one of them for that. We should make it our duty to see that everything that has been demanded of this Government is attended to before long. Sir, as I was saying, in the Punjab we learnt everything about their irrigation arrangements and since then we have been thinking whether there would be any chance for us to come to power so that we may be able to follow the example of the Punjab in the matter of irrigation developments. The late Mr. S. Srinivasa Ayyangar who was a good friend of mine used to think in his free moments about the potentiality of Indian rivers and the potentiality of the irrigation projects. His brain used always to work at top speed and he used to have flights of imagination. He suggested at one time: 'Well, Mr. Prakasam, look at our country; what are we doing here; how many rivers are there in our Presidency? Why could we not connect the Ganges water, the Brahmaputra water and the other waters of the rivers in the North with the waters of the Godavari, the Kistna, the Cauvery and the Tambraparni?' That was his idea. (The hon. Sri K. Bhashyam: 'He called it "The Great Waterway"'.) Yes, as Mr. Bhashyam, my Hon. Colleague who was a great friend of the late Mr. S. Srinivasa Ayyangar, says, he used to call it 'The Great Waterway'. He had been thinking whether any such chance can come to us. It is a tragedy, Sir, that with so many rivers, with so much water flowing into the sea, this country should have been left in this condition. Of course the tests for starting any irrigation work applied by the previous Government were whether a scheme was productive or not and so on and if they were advised that a scheme was unproductive they would simply put it aside. There were schemes which could have been completed within 12 months such as the Gundukoru Scheme in Guntur district. It is a very small scheme. We are taking it on hand and hope to do our best to restore all that has been lost to us by not developing the irrigation projects.

19th August 1946] [Hon. Sri T. Prakasam]

We would appoint a committee of experts to examine the whole situation with regard to our irrigation policy and take their advice and help as to how best we should carry out the whole scheme from one end of the province to the other without omitting anything. We will have the question of cost examined and then get the best advice for the execution.

"As my Hon. Colleague has already stated, borrowing for this purpose is not a bad policy. Borrowing will be resorted to after taking expert advice upon these matters and we will push through the whole programme as quickly as possible.

"We are all living in the City of Madras with the Cooum in the neighbourhood referred to by Mr. Abdul Hameed Khan who was once Mayor of the Madras Corporation. (Laughter.) He must have suffered considerably from this Cooum river nuisance. The question is how to remove this nuisance. It is not possible to remove this nuisance from our midst with our slender resources and with the aid we are at present getting from the Engineering department. The Engineering department of the whole of this presidency, as my Hon. Colleague has stated, would not be able to cope with this work. We want specialists skilled in carrying out such works that pertain to the Cooum river business. If we could get the help of such specialists we could consider whether it is possible to divert the course of the Cooum.

"Some hon. Members referred to a lake called Kolleru in the West Godavari district. This is a peculiar lake. Its waters could not be drained and has the accumulated filth of years. To this lake used to go the hon. Members of the Madras Government and also Members of the Board of Revenue for shikari when the lake was full. I have myself gone to that place but not for the purpose of sharing in the game. I went there for the purpose of finding out lands for cultivation near the Kolleru drain. I know what the soil there is like. When there is no water the size of the lake would be greatly reduced, but when there is water it would inundate a pretty large area of the plains. We should sometime solve the problem of this lake.

"My hon. Friend Mr. Mahboob Ali Baig referred to the Budameru. It is a rivulet and when it is in floods, it overflows the neighbouring lands. This problem has not been attended to by anyone. All the engineering skill would be required in order to find out the way to check its power for mischief. There are very many things in different districts requiring solution with great patience and with the available funds. We shall do all that is possible. We, therefore, request hon. Members to give us time and have patience to see how things are done."

The cut motion was by leave withdrawn.

Demand VIII was put and carried and the grant was made.

[19th August 1946]

DEMAND IX—HEADS OF PROVINCES, MINISTERS AND
HEADQUARTERS STAFF.

THE HON. SRI T. PRAKASAM:—"Mr. Speaker, Sir, on the recommendation of His Excellency the Governor, I move—

that the Assembly do assent to a demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as together with expenditure already incurred in April 1946, will amount to Rs. 32,64,900 in respect of the head "Heads of Provinces, Ministers and Headquarters Staff." The expenditure incurred in April 1946 is believed to be Rs. 3,02,219."

* MR. SPEAKER:—"I call upon the Leader of the Opposition to move the cut motion standing in his name."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Sir, I am only sorry that such an important Demand as the one under consideration at present has come at the fag-end of the day."

* MR. SPEAKER:—"It will be continued to-morrow also."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"But so far as I am concerned, it is the fag-end of the day. At the very outset, in moving the cut motion standing in my name, viz., to reduce the allotment of Rs. 32,64,900 for Heads of Provinces, Ministers and Headquarters Staff by Rs. 100, I have to register my protest, my emphatic protest and that of my party for the manner in which my party, the Muslim League Party, has been treated in the matter of the formation of the present Ministry. It was due to our party that we ought to have been consulted at every stage with reference to the formation of the Ministry. It may be said that the majority party had the right to do as it pleased and to form the Ministry as it pleased. It may be so in countries like England and other Western countries where we do not have the conditions which we find in this country and in this Province. I want to mention only one of the factors, Sir; so far as the Muslims are concerned, they had nothing to do with the election of members of the majority party. Therefore, if the Muslims had to be taken into the consideration by the majority party as they ought to have been, it was only through their own elected representatives that such a thing could be done.

5 p.m. "It might be said that the Muslim League might not have agreed to come into the Ministry. But that is a different question altogether. Whether they would have gone into the Ministry or not would have depended upon the instructions which my party would have received from the Muslim League High Command. But whether we agreed to form part of the Ministry or not we had a right to be consulted, whatever might have been the result of that consultation; and we were not extended that courtesy. That is the basis for my protest and strong complaint.

"Another important point I want to urge is that the principle of separate electorate should be extended to the Corporation of Madras and also with reference to the election to the local and municipal bodies in the districts. On a previous day when I mentioned this question of separate electorate, the Hon. Premier

[19th August 1946] [M. Muhammad Ismail Sahib Bahadur]

spoke of the late lamented Moulana Muhammad Ali and said that he was for joint electorate in the years 1920-21. The Hon. Premier is perfectly correct, Sir, in making that statement. Not only Moulana Muhammad Ali, but there were a host of others amongst the Muslims who thought likewise and even in this House there are some hon. Members in my Party who thought at that time that joint electorate might be a good thing. There was a time when Quaide Azam Jinnah also thought that joint electorate might be a solution for some of the evils of the country. But, Sir, Moulana Muhammad Ali himself had to change his view soon after the time when he was entertaining views in favour of joint electorate, when he saw the spirit and basis of the Nehru Report and when he saw the conditions which were prevailing after 1921. He had to change his views and he was one of the stoutest champions of separate electorate. He wrote a series of articles in 1925 in which he proved that separate electorate only would satisfy the demands of the Muslims and that it was the only solution for many of the political ills of the country. It was he, Sir, who used the words that through the joint electorate it was only men of straw amongst the Muslims that could be elected to the Legislature.

"When our Friends speak of joint electorate they also speak of the reservation of seats for Muslims. For what purpose such a reservation should be made? The evident answer is that for the purpose of giving representation to the Muslims and that representation is for voicing forth the views of the Muslims. Now, Sir, under joint electorate those who would be supposed to voice forth the views of the Muslims won't be the real representatives of the Muslims. They will be mainly and chiefly the representatives of the majority community. Asking the Muslims to be satisfied with joint electorate is like asking a defendant or a plaintiff to agree to setting up a lawyer in consultation and in agreement with the other party. That is not a feasible proposal, Sir. When the Muslims want representation and real representation it must be given through separate electorates. They want this, so that they may speak their mind openly and clearly and it is only through their own representatives elected through separate electorates that such voicing forth of the views and feelings of the Muslims is possible. If through joint electorate their voice is shut up then the result will be, that their feelings will be smouldering and grievances will be growing. Therefore, in the interests of all concerned, it is highly desirable that the Muslims are given separate electorate in the local and municipal bodies as well.

"It is, as I said on a previous occasion, a sheer prejudice and misunderstanding to think that separate electorate will create and perpetuate a misunderstanding between the Muslims and others. I earnestly request the Hon. Ministers to see, Sir, that it is not really so. It is only when the Muslim or any other community gets what it wants, only when their legitimate rights are met; and only when they are satisfied that these misunderstandings and

[M. Muhammad Ismail Sahib Bahadur] [19th August 1946]

ill-will will not have any fertile field to grow. Therefore, I earnestly request the Hon. Ministers and their friends to revise their views drastically and to introduce separate electorate for the elections to the Corporation of Madras and other local bodies."

* MR. SPEAKER:—"For the information of the hon. the Leader of the Opposition and the House, I wish to say that the Hon. Minister for Local Administration will bring an amendment to the City Municipal Act on the 6th September 1946."

AN HON. MEMBER:—"Will this point be carried out there?"

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"May I know if the Government are going to bring an amendment for the purpose of introducing separate electorates? Will the Hon. Minister for Local Self-Government announce that?"

THE HON. MR. DANIEL THOMAS:—"I may say for the information of the hon. the Leader of the Opposition and other hon. Members that the proposed legislation will be for the purpose of extending the number of divisions in the City of Madras and consequential amendments and reserving certain number of seats for certain communities."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"What about separate electorates?"

THE HON. MR. DANIEL THOMAS:—"The question whether there should be joint or separate electorates could be discussed in connexion with the relevant measures."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Thank you very much. Sir, I have to thank you for drawing my attention to the fact that an amendment is going to be introduced and my words are very opportune and I hope the Hon. Minister will include my proposal in the amendment that he proposes to bring. ('Hear, hear.')

"Then with regard to the representation of Muslims in the service, first I shall take the Secretariat. As I said on a previous occasion, the figures about the Muslims in the various ranks of Government service and of other communities are not available. But, however, I have made an effort and obtained certain figures. Here there are figures as they were in 1938.

"In the Secretariat there were 27 gazetted officers. Out of that figure in 1938 only one was a Muslim and even that one Muslim has disappeared now. There is not even one Assistant Secretary, not even one Superintendent in the whole . . ."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"There are a number of superintendents."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Sir, there is not even one Assistant Secretary in the Secretariat. In this connexion it will be interesting to note that the percentage of Muslims in all the ranks of Government service, I mean gazetted ranks, is only 9.5, whereas according to the communal Government Order it ought to be 16½ per cent. It will be also interesting to note

19th August 1946] [M. Muhammad Ismail Sahib Bahadur]

the percentage of the other communities in the same ranks. The percentage of Brahmans comes to 27.9; the percentage of the Non-Brahman Hindus is 29.4; Europeans 8.4, and of the other communities 24.8.

"Under this Demand for 'General Administration' I do not think it will be out of place for me to place some figures before you and this Honourable House so that the Ministers might take the earliest opportunity of rectifying the inadequacy of Muslim representation in the various ranks of Government service.

"Out of 19 posts of officiating Excise Inspectors, 11 are Brahmans, 5 Non-Brahman Hindus, 1 European, 1 Christian and only 1 Muslim.

"Out of 17 Excise Officers on probation, 8 are Brahmans, 7 Non-Brahmans, 1 European and 1 Muslim.

"In the Judicial department, out of 13 High Court Judges, there are 3 Brahmans, 3 Non-Brahmans, 6 Europeans and only 1 Muslim. Besides this, there are 2 temporary High Court Judges one of whom is a Brahman and the other a Muslim.

"Then there are 9 officers in the High Court . . ."

(Interruption.)

* MR. SPEAKER:—"Please do not disturb him."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Of these 5 are Brahmans, 3 Non-Brahmans, 1 Christian and no Muslim at all.

"Out of the 37 Subordinate Judges and 29 acting Subordinate Judges, 31 are Brahmans, 21 Non-Brahmans, 1 Christian, 1 European and only 4 Muslims.

"There are also vacancies in this department and I hope the Government will see whether they cannot rectify the inadequacy of Muslim representation at the time when they fill up these vacancies.

"Out of 141 District Munsifs, 50 are Brahmans, 57 Non-Brahmans, 5 Christians, 2 Europeans and only 7 are Muslims. There are 20 vacancies and 62 acting District Munsifs; out of this only 10 are Muslims.

"There are in this Province 6 Deputy Inspectors-General of Police. Four of them are Europeans, 1 Brahman and 1 a Non-Brahman.

"Out of the 42 Deputy Superintendents of Police, 6 are Brahmans, 26 Non-Brahmans and only 4 are Muslims.

"Out of 4 Deputy Commissioners of Police in the City, 1 is a Brahman, 1 a Non-Brahman and 2 are Europeans. No Muslim occupies any of these posts.

"There are 32 Assistant Superintendents of Police, out of whom only 2 are Muslims. There are 12 vacancies and I hope the cause of the Muslims will be considered at the time of filling up of these vacancies.

[M. Muhammad Ismail Sahib Bahadur] [19th August 1946]

" Out of 22 officers in the Jail department and certified schools, 12 are Europeans, one of the posts is vacant, 6 are Hindus and only 1 is a Muslim.

" In the Educational department, in the Engineering College at Guindy, there are 5 officers and 7 gazetted lecturers and instructors. Of these 5 are Brahmans, 1 a Christian, 4 non-Brahmans and 2 Anglo-Indians and there is no Muslim at all.

" There are 30 District Medical Officers, of whom 12 are Brahmans, 9 Non-Brahmans, 7 belong to other communities and only 2 are Muslims.

" In the Agricultural department again there are 36 officers of the ordinary category, of whom 11 are Brahmans, 15 Non-Brahmans, 10 Christians and only 3 are Muslims.

" There are 33 Deputy Conservators of Forests, out of whom only 2 are Muslims.

" Amongst the 14 Assistant Conservators of Forests, only 1 is a Muslim.

" Among the 24 Engineering Officers, 12 are Brahmans, 2 are Non-Brahmans, 8 Europeans, 2 Christians and no Muslim at all.

" Out of 84 Assistant Engineers, only 4 are Muslims against 22 Brahmans, 28 Non-Brahmans and 30 belonging to other communities.

" These figures may be correct or may not be correct in certain respects. (Laughter.) If they are not correct I am not responsible for it. The Government ought to have continued to supply us with these figures as they were doing up to 1938. I have done my best in securing these figures and all these refer to the gazetted ranks. If the figures for the other ranks are available, I think, the same story will be revealed there also, perhaps a worse story as I am reminded by my hon. Friend Mr. Pocker. I request and urge on the Government to pay adequate attention to these inequalities and grievances of the Muslims in the various departments of the Government and rectify them as soon as possible.

" Finally, Sir, under this head, I should like to say a few words regarding post-war reconstruction schemes. I do not know what are the ideas of the Government on the subject. What they propose to do, we are not given to understand clearly. For one thing we were told that they were curtailing the activities of the Highways Department. What other curtailments and improvements they are going to do, we do not know. But one thing, Sir, we find is that they are very much given to the scheme of rural reconstruction. It is really a good thing. Rural reconstruction is the crying need of the Province as well as of the whole country. The people in the rural parts, the people who till the land in the villages are not merely the backbone as we all say it, but they are the body, the life and the spirit of the country. Their prosperity, happiness and strength are really the happiness, prosperity and strength of the whole country. There is no doubt about it. There need be no question about it at all. But what is it that we

19th August 1946] [M. Muhammad Ismail Sahib Bahadur]

are going to do for these people? That is the question. And also whether what we intend doing for them will really achieve the object which we have got in view. We all know, Sir, that these people in the villages must get a higher income, a much higher income than they are getting to-day. They must get sufficient food and clothing and a more comfortable shelter. All these are agreed and there is no doubt or objection or difference of opinion about these matters. But how are you going to achieve all these things? That is the question.

" Here again we are told that the scheme of village autonomy will achieve these things. What is village autonomy again is not clear to us. Do they mean that every village must be autonomous and self-sufficient in every way? If that is so, is it practicable? Can they do it now? Or on the other hand do they want that every village must get as easily as possible all the necessities of life in the village itself? If the latter is the case, no one need have any difference from the Hon. Minister. That can be done easily and I think that is the right way of going about the thing. Take for example, Sir, I avoid the word khaddar as advised by the Hon. Premier—take for example hand-spinning hand-weaving. (Mr. Mahboob Ali Baig: The scheme is called the khadi scheme.) We shall eschew that word for the moment. Is it the idea of the Government to make every village produce its own cloth through this means of hand-spinning and hand-weaving? Or is it the object of the Government to supply sufficient cloth to every village and see that it is produced in this province somehow or other? Sir, there may be a village whose inhabitants might be engaged almost exclusively in the production of yarn and handloom cloth. All the cloth they are producing might not be consumed by them. Then are they not to find sales for them in the other villages? If the other villages are to be self-sufficient in the matter of cloth then what are these villagers going to do? Are you going to put a ban on this village of weavers and say that they ought not to produce more than so much of cloth and that a number of weavers should take to agriculture and other things so that that village might get the necessary food, etc.? These are ordinary points which any man of commonsense would like to understand, Sir. It is these things which I want to be explained by the Hon. the Prime Minister. By all means we want a drive for prosperity to be carried on by this Government, but in what way are they going to do it? It is there I have got my misgivings. I want them to reconsider these schemes and see whether they are suitable for the conditions as they exist in the Province and also in other parts of the country. With these words, Sir, I move my cut motion."

B. POCKER SAHIB BAHADUR:—" Mr. Speaker, Sir, I support this motion on various grounds. In the first place, Sir, I wish to raise a very important point, namely, the right of this legislature to be consulted when the Government modify or cancel the decision of this House. Sir, this House spent several days in discussing the food question and in spite of great opposition from this section of the House it was decided to approve the proposals of the Government to form certain village committees to carry out the food and

[B. Pocker Sahib Bahadur] [19th August 1946]

cloth administration in the villages. Whatever the merits or the demerits of that system may be, I am not entering into them now, because this House has already discussed and decided the matter. Of course, it was predicted then that so many serious consequences would follow and I do say that these serious consequences have followed. Because what is it that you find? Soon after the proposal of the Government to entrust the administration of food to these village committees, taluk committees and district committees was passed, just two days afterwards, you find in the press that certain gentlemen from Malabar, the President of the Kerala Provincial Congress Committee and certain M.L.As. of Malabar, met the Premier and placed certain proposals before the Government, proposals which were entirely different, substantially and fundamentally different from the proposals that had been placed by the Government before the House and passed by the House. They proposed to entrust the matter to certain co-operative societies formed by whomsoever it may be—I do not know because the scheme itself is not clear to me. The responsibility of carrying on the food administration was expected to be vested not in the village committees to be nominated by the Tahsildar from among the people gathered for the purpose. The proposal made by the Kerala Provincial Congress Committee wanted to have the matter entrusted to co-operative societies organized and carried on by themselves. In fact the impression created in the district of Malabar was that the administration of food was handed over by this Government to the Kerala Provincial Congress Committee. This impression has created great havoc and is continuing to create great havoc.

“ Now, Sir, is it proper or just on the part of the Government to have deviated from the proposal accepted by this House and entrusted the administration of food in Malabar to the Kerala Provincial Congress Committee? The proposal went to this extent that applications for the post of inspectors ought to be forwarded to the President of the Kerala Provincial Congress Committee. It was even said that the appointment of inspectors was entrusted to the President of the Kerala Provincial Congress Committee. No doubt it is the Congress Party that is in power, but that is no reason why the Government as such should entrust these matters to a private body like that. After all it is a private body.

“ Sir, this matter has been brought to the notice of the Hon. Premier. No doubt, in the carrying out of that policy there have been ever so many complaints and they have been placed before him and he has been kind enough to promise to go to Malabar and see the thing for himself. But what I am now objecting to is the principle that when once a matter has been passed by this House, the Government have no business to alter it to any extent without consulting this House or any party in this House. I certainly enter my emphatic protest against it; it has caused very great havoc in Malabar, and it is only for avoiding further trouble that I have said this. The result of transferring this food administration to the Kerala Congress Committee is that the authorities of the

19th August 1946] [B. Pocker Sahib Bahadur]

Kerala Congress Committee can go and form co-operative societies in their own way without even giving a sufficient and proper opportunity for the other people. These instances have been brought to the notice of the Hon. the Minister. Now, Sir, if you just go to Malabar and make enquiries, you will find the impression has gone round that the Government, so far as food administration is concerned, are not doing well, that Government as such is being carried on by the Kerala Congress Committee. This is an impression that ought to be removed and I say it is dangerous to allow things to continue like this.

“ I need not refer, Sir, to the various instances in which committees have been formed in a hole-and-corner manner without allowing other people to have their say in the matter. In the course of the general discussions, it has been brought to the notice of the Government that in many of the village committees that have been formed, even Muslims representing the Muslim League have been excluded. I hope the Hon. the Premier will carry out the promise he has made on the floor of this House that he would look into these matters, and wherever he finds it necessary, he would be wise to abolish and reconstitute these committees. I say, Sir, once again, that unless these matters are fully enquired into and justice is done, it will become dangerous.

“ Now, Sir, I would like to refer to one other subject referred to by my hon. Friend, the Leader of the Opposition, viz., the question of separate electorates. I would only like to add this, i.e., from my experience, I can state with confidence that so far as the relationship between Hindus and Muslims is concerned, what I have learned is that separate electorate is the best solution and joint electorates would be only creating troubles between one community and another. I shall just explain to you why I have come to that conclusion. Take the question of elections to the Legislature where separate electorates have been prescribed. There is absolutely no trouble or misunderstanding, each legislator goes on with his work and there is absolutely no trouble at all. But if you go into the question of joint electorates now existing so far as local bodies are concerned, there is so much of trouble and misunderstanding and bad blood there between Hindus and Muslims. In a joint electorate when a Muslim and a non-Muslim stand for election, the attitude of the non-Muslims towards the Muslim candidate becomes a source of trouble and misunderstanding and creates many hardships. When a Muslim stands, the Hindus of the locality set up a non-entity as a Muslim figurehead, and there is consequent trouble which at all times ends in ill-feelings. If there is some kind of cordiality between the communities in all matters, there will be no necessity for even reservation. On the other hand, when it is conceded that it is necessary to give opportunity for the representation of Muslim interests, the only next question is, which is the best way to give effect to that intention? That is all that has to be considered, and the only way is that a Muslim who would represent the Muslim opinion should alone be returned. You have now a joint electorate in which

[B. Pocker Sahib Bahadur] [19th August 1946]

the Muslims are in a small minority. This amounts to taking away by one hand what is given by the other, i.e., the right you have given to the Muslim of separate representation. Therefore, I submit it amounts to a negation of the right of the Muslim to have a separate electorate even when you agree that there should be special representation of their interests. You can as well say that there need be no special representation for anybody. Sir, all are human beings on the face of the earth and if you think there should be representation of only human beings and there is no necessity for representation of the several communities, then say so, and then all special representation will go. But when you concede that there are separate interests to be represented, you cannot deny separate electorates. There is no doubt that this system of separate electorates is working very well in regard to elections to the Legislature, because you find there has been absolutely no trouble between Hindus and Muslims in the elections to the Legislature. That is why you find 29 Muslims have been returned to this House to represent real Muslim interests in this Province. You have never heard of any trouble as regards their election. But every day we hear of all kinds of misunderstanding and trouble in regard to elections to local bodies both in the municipalities and in the local boards. After all, if you recognize the right of representation of Muslims you should adopt the best method of giving effect to that representation. (Sri Kala Venkata Rao:—‘Separate or joint electorate in Calcutta?’) (Mr. Speaker:—‘Let us leave aside Calcutta now, let us come to the point.’) My hon. Friend wants to quote the example of Calcutta for Madras. Let him have our own province in view rather than go to Calcutta. When we have set an example in Madras which you may well follow in many other respects—it is an example of which we are proud, and you too should be proud of the example we have set—why go to Calcutta and other places? We are able to have this result only because we have separate electorates, and it is for this very reason that I say separate electorates should be extended to elections to the Corporation and to the municipal and local bodies. That follows logically. I do not know on what principle the Government can deny us this right. What is happening so far as the scheduled classes are concerned? In their case also, the trouble is that you are taking away by one hand what you are giving by the other. (Sri Kala Venkata Rao:—‘But they do not complain.’) If you say so, I say it is absolutely unknown to me indeed, how many of them complain is a matter for your consideration; but to say that they do not complain is a travesty of truth, even to my knowledge. I say, either you maintain that no separate interests need be represented, or if you once recognize that they have to be represented separately, give effect to it in the most efficient manner, and that is by accepting separate electorates. After all, what do you do? Nothing.

“Sir, I do not want to take up more time of the House. I would strongly urge on the Government to consider this question very seriously at the earliest opportunity, i.e., at the time when the Hon. Minister for Local Administration is bringing forward

19th August 1946] [B. Pocker Sahib Bahadur]

an amending Bill—no doubt it is intended for some other purpose—for legalizing the new divisions which are being added to the present Corporation limits.

“There is one other point, Sir, to which my hon. Friend the Leader of the Opposition has referred, viz., the representation of Mussalmans in the various departments. He has given so many figures as regards that, but I would only mention one word about that subject. So far as the Secretariat is concerned, it is rather deplorable that there is not one Assistant Secretary, not one gazetted Muslim official anywhere in the Secretariat. (An hon. Member:—‘Mr. Kudva.’) Mr. Speaker, Sir, I am told there is one Secretary, Mr. Kudva. This is just another reason for my pressing for separate electorates. This is the extent of knowledge exhibited, so far as Muslims are concerned. When I say with all knowledge and on enquiry, that there is not a single Muslim as Assistant or other Secretary, an hon. Member says I am wrong because he thinks some gentleman—from whose name he could not understand whether he is a Parsee or a Christian—is there, and he concludes he must be a Muslim. That shows the extent of his knowledge and also the extent to which a non-Muslim can represent the interests of the Muslims. (‘Hear, hear.’) This colossal ignorance of the needs and the culture of the Muslims is a fact and we say it is not only the non-Muslims that are colossally ignorant of the needs and requirements of the Muslims, but the Muslims also are colossally ignorant of the needs and requirements of the Hindus. I must confess that as an honest man. Therefore, let us be honest and let us take facts as they are, and recognize them and see whether we cannot come to an understanding on these real facts. I am therefore very thankful to my hon. friend for giving me an additional reason in support of my proposition.

“Now, Sir, I may point out that as early as 1920 when perhaps the Justice Ministry was in power, or about that time, the Government recognized the right of communal representation and some gentleman was brought into the Secretariat from outside as Assistant Secretary. Thereafter too, it was understood that at least one gentleman should be an Assistant Secretary, although I was aware of more than one in those days. Now, all of them have retired and it is not possible for Government to say there are no qualified men among Muslims who can occupy the post of Assistant Secretary in the Secretariat. Can the Government seriously maintain that they cannot find in the whole province a Muslim gentleman who has the capacity to be an Assistant Secretary here? Certainly not. The Muslims have proved themselves to be much more efficient than they are considered to be and they yield to none in efficiency. If you want, you may test them. I may say even very recently, injustice has been done in this connexion. Even though a Muslim Superintendent was available and qualified and had every right to be appointed as Assistant Secretary, his claim has been overlooked and some non-Muslim has been appointed. I refer to the Finance Department, it is a matter of very recent occurrence. Even after this Government came into power, this is what we see.

[B. Pocker Sahib Bahadur] [19th August 1946]

After all, what we are asking is nothing, we have been deprived of all our rights for ever so many years, decades and decades, and it is because we have been neglected in education, and that is why we did not find many qualified men. But now when there are qualified men coming forward, is it not proper that you should do justice to them? He is there in the Secretariat, and God-father for him, there is none, it is only when there is a God-father that he can get anything. What we want is therefore pure justice and nothing else. I do not want to take up more time of the House, Sir, I have finished."

5-45
p.m.

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Mr. Speaker, Sir, two hon. Members of the League Party have already spoken on this very important demand in the whole of the Budget of this year. Sir, to-day in this country, we are placed in a very critical position. In a country inhabited by various nationalities, we have not been able to devise a plan which will enable us to work together, harmoniously for the benefit of all concerned. As a result of our failure and to our great misfortune, we are faced with a very serious situation. I thought, Sir, that the two great wars that were fought during the short period of a quarter of a century had a lesson for the world, but to our great disappointment and dismay, we have to admit that wars may come and wars may go but man continues to be selfish to the core. He does not understand that he has to serve humanity, his fellowmen and fellow-beings. Even to-day, leaving aside our own country, those nations which have been belligerent countries during the war, have not learnt that lesson and therefore peace has not been established in the land, anywhere in the world, and that the very atmosphere of domination, and selfishness seems to have affected our country also, with the result that to-day there are people who ought to have been generous in their attitude towards others who are less in number and those people who should have had an outlook, wide and liberal, have taken a very different attitude. The result is that the same spirit of domination overrules them and to-day unfortunately in this country, the two great nationalities, Hindus and Muslims, are pitted one against the other. I am very sorry, Sir, that it is so, for I believe, both the Muslims and the Hindus, for circumstances over which we have no control, have lived together in this country for centuries and lived together as brothers. Although we belong to different communities yet circumstances forced us to live together and as a matter of fact even to-day we live together as brothers. We thought that the fact that we had to live together as brothers in this country would be recognized by the people who were in power and who ruled over this country with some amount of vision. But no, to our great disappointment that was not be. What do you find on the other hand? There is the spirit of domination ruling over them and we are here in an unfortunate situation. My hon. Friend, Mr. Kala Venkata Rao, while my friend Mr. Pocker Sahib was speaking, drew his attention to the unfortunate situation in Calcutta. I would like him and other hon. Members to know that it was wrong on the part of Mr. Venkata Rao and others to believe

19th August 1946] [Abdul Hameed Khan Sahib Bahadur]

that it was all one-sided as the report tried to make it out otherwise. The way in which some of the news service in the country are flashing out news, betray their partisanship to our great disappointment. I must say, Sir, not only these services but also some of the pressmen have been responsible for widening the gulf between these two communities and they are still persisting in their nefarious methods of flashing out news. Mr. Speaker, Sir, I refrain from mentioning the names of papers but my hon. Friend cannot restrain himself."

* MAHBOOB ALI BAIG SAHIB BAHADUR:—"Reference to Calcutta ought not to have been made here, Sir."

* MR. SPEAKER:—"I have already put a stop to it."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"We are sorry, but since correct news has not been vouchsafed to us, we ought not to refer to the unfortunate situation that has arisen there. Therefore, Sir, I shall stop there so far as Calcutta is concerned."

"Sir, so far as our Province is concerned, elections were held under separate electorates; the two major organizations in this country, the Congress and the Muslim League, conducted their elections without any untoward incident anywhere in the Province, the Congress set up its candidates and the Muslim League set up its candidates; we succeeded in capturing cent. per cent. of the seats, and the Congress succeeded in capturing 98 or 99 per cent. of the seats. Sir, this was due to the fact, as my hon. Friend, Mr. Pocker rightly emphasised, that we had elections on the basis of separate electorates. The Muslim Leaguers could have set up some friendly Hindus as candidates against the Congress candidates, but we did not do that because we thought that we had come to an understanding and that so far as Muslims were concerned, they should confine themselves to the Muslims alone, but my Friends of the Congress Party did not keep quiet. Even though, we had separate electorates, they wanted to try their hand here and there by setting up some Congress candidates or some other candidates in the name of nationalist Muslims, poor fellows. (Interruption.) I am a nationalist Muslim even to-day, even more than a nationalist, but not in the way you set up nationalist Muslims. Sir, I was not set up any time against the Muslim League at all and my hon. Friend is entirely mistaken. He reads history wrongly. I do not want to use words 'colossal ignorance' because they are unparliamentary; although one may be colossally ignorant, I do not want to use the words here, Sir. My Friends would like to confront me in regard to my past connexions with the Congress. Yes, I remember those days; I remember the leaders of the Congress at that time; I remember too who it was that made the Congress of those days what it is to-day. I remember here the name of the late Mr. Srinivasa Ayyangar. I remember the name of Hakim Ajmal Khan and Dr. Ansari, Moulana Muhammad Ali and Moulana Shoukat Ali, who made the Congress what it is to-day but they were mistaken; so was I. (Laughter.) Now, Sir, I stand here, wiser than what I was before. (Laughter.) I stand here completely disillusioned. One Leader after another was driven out from the Congress. Even the late Moulana Muhammad Ali whose

[Abdul Hameed Khan Sahib Bahadur] [19th August 1946]

memory was remembered even by our revered Premier the other day, and whose method of election was referred to,—no greater Congressman than he existed at the time—he had no other alternative but to leave the Congress as a result of the Nehru Report which went against Muslims thoroughly; when even Leaders like him left the Congress, to my great shame, I must say, I stuck to the Congress in the year 1937 when, without any reason or rhyme, I was also sent out. I must make it clear here, Sir, that I was sent out and what was my offence? The last elections were fought under some understanding—the last elections previous to this were fought under some understanding between the Muslims and the Hindus between the Muslim League and the Congress, Congress Leaders and Muslim Leaders jointly set up Muslim League candidates. At that time even Congress Muslims were sent to me and some of the Muslim Leaguers also were sent to me by the Congress leaders—the Hon. Premier was also one of them—I have even to-day letters from Congress leaders asking the Muslim League to set up some Congressmen on the Muslim League ticket. We were asked to stand on the Muslim League ticket and and so I did. I was a Muslim Leaguer in the Legislature and when the Quaid-e-Izam Muhammad Ali Jinnah for very good reasons sent out the late Mr. Yakub Hasan from the League the late Mr. Satyamurthi wanted to take revenge on me for what has been done to Mr. Yakub Hasan. Unfortunately, though I do not want to go too much into those details, yet the fact remains that that was the treatment meted out to the Muslims. Even in regard to the membership of the Congress—and here again my hon. Friend may confront me with the fact that I was still in the Congress. I am a Nationalist and I have been a Nationalist all my life and shall continue to be so all my life; so also every Muslim. What does nationalism mean? Does it mean merely domination of one community over another and trying to destroy one community for the sake of advantages to the other community? That is not so, Sir. My nationalism means democracy, where every one belonging to this democracy should have his rightful place and should enjoy all the benefits in this world and the world to come. (Interruption.) Sir, that should not be the attitude. I say, next world, because the Hon. the Minister for Education and other Hon. Ministers on the Treasury Bench do not believe in religious education and therefore I referred to the next world also. Therefore they must remember that there is the next world to come. Mr. Speaker, Sir, we talk of Hindu-Muslim unity. Many people have lip sympathy for the Muslim community when they talk most vociferously of Hindu-Muslim unity. If there is any nationality and if there are any who are really anxious to work for Hindu-Muslim unity, it is we."

* MR. SPEAKER:—"The hon. Member may continue his speech tomorrow. The House will now adjourn and meet at 11 a.m. tomorrow."

III.—PAPER LAID ON THE TABLE OF THE HOUSE.

Notification issued with G.O. Ms. No. 1923, Home, dated 28th June 1946, making certain amendment to the Madras Motor Vehicules Rules, 1940, published with Home Department Notification No. 357, dated the 29th March 1940, as subsequently amended.

THE MADRAS LEGISLATIVE ASSEMBLY.

Tuesday, the 20th August 1946.

The House met in the Assembly Chamber, Fort St. George, at eleven of the clock, Mr. Speaker (THE HON. SRI J. SIVASHAN-MUKHAM PILLAI) in the Chair.

I.—QUESTIONS AND ANSWERS.

STARRED QUESTIONS.

Removal of Hitchcock Memorial in Malabar.

* 97 Q.—P. K. MOIDEEN KUTTI SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

(a) whether the Government are aware of the strong public demand for the removal of the Hitchcock Memorial in Malabar; and

(b) whether the Government will consider the question of its early removal?

THE HON. SRI T. PRAKASAM:—" (a) & (b) The Kerala Provincial Congress Committee made a representation. The matter is under consideration."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—" May I know, Sir, whether the Government is aware that this is a matter which has been pending very long and about which representations were made even during the last Congress Government? "

THE HON. SRI T. PRAKASAM:—" Yes. The matter will be considered by this Government."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—" Will the Government consider the advisability of removing all statues of Europeans in this Province? "

THE HON. SRI T. PRAKASAM:—" The hon. Member may not be so vehement over any particular class of statues. Perhaps it is better if there are no statues at all." (Hear, hear from the Muslim Group).

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—" Is the Government aware that this is a standing monument of police zoolum in the Malabar district during the Moplah rebellion and in view of the fact that it is a constant reminder to the people of the district, will the Government be pleased to order the removal of the memorial as expeditiously and as dramatically as it was done in the case of the Neill Statue? "

THE HON. SRI T. PRAKASAM:—" The present Government may not be aware of all the conditions and circumstances that existed prior to the Moplah Rebellion, during the rebellion and after the rebellion. However, all the facts will be taken into account."

[20th August 1946]

B. POCKER SAHIB BAHADUR:—"Where is the necessity to take so much time to come to a decision on a simple question like this about which the Congress policy was decided long ago?"

THE HON. SRI T. PRAKASAM:—"The present Government does not know when the Congress policy over this matter was decided."

MR. F. FERRELLY:—"Is it not a fact, Sir, that a considerable amount of money subscribed to the memorial to this gallant police officer came from the Muhammadans in Malabar?"

THE HON. SRI T. PRAKASAM:—"The Government is not aware of it, Sir."

B. POCKER SAHIB BAHADUR:—"Is the Government aware that the subscriptions were collected by the then authorities in Malabar by means of official coercion?"

THE HON. SRI T. PRAKASAM:—"The Government is not aware of it either."

B. POCKER SAHIB BAHADUR:—"If the Government is not aware of it, is not the Hon. Premier at least personally aware of it, Sir?"

THE HON. SRI T. PRAKASAM:—"The Premier knows a lot of things; he knows not some things; but they cannot be imported into a matter like this."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"Is not the Government aware, Sir, that these subscriptions were mere extortions by the Police?"

THE HON. SRI T. PRAKASAM:—"Surely not, Sir. The hon. Member should have known it for himself."

Haji K. M. AHMAD KUTTI SAHIB BAHADUR:—"Are the Government aware that the Moplahs were coerced by the Police officials in Malabar to subscribe for raising this monument?"

MR. SPEAKER:—"The question has already been answered."

B. POCKER SAHIB BAHADUR:—"Is the Government aware that this officer whom my hon. Friend called a gallant police officer was really responsible to a large extent for the rebellion on account of his treatment of the non-co-operators at the time?"

THE HON. SRI T. PRAKASAM:—"There is no official record for that." (Laughter.)

Storage of tobacco in residential buildings in Guntur.

* 98 Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Minister for Public Health and Medicine be pleased to state—

(a) whether any representations have been made to the Government to prohibit the storage of tobacco in the residential buildings within the municipal limits of Guntur;

20th August 1946] [Muhammad Abdul Salam Sahib Bahadur.]

(b) if the answer is in the affirmative, whether the Government have taken any, and what action in the matter; and

(c, if not, why not?

THE HON. MRS. LAKSHMIPATHI:—" (a) A petition signed by the residents of Guntur, dated 11th June 1946, was received by the Director of Public Health.

" (b) & (c) The Assistant Director of Public Health was sent to Guntur to investigate and submit a report. A report was submitted to the effect that in 180 houses in residential quarters, tobacco was stocked and cured and tobacco was also stocked in residential quarters in the extension. Tobacco is an offensive trade but it is not included in the schedule to the District Municipalities Act. The schedule has to be amended before action could be taken."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Will the Government consider the advisability of amending the schedule?"

THE HON. MRS. LAKSHMIPATHI:—"The Government will certainly consider the suggestion made by the hon. Member."

SRI PILLALAMARRI VENKATESWARLU:—"Is the Government aware that the health of the women workers in Tobacco Works is deteriorating every day as there is no proper protection for their health?"

THE HON. MRS. LAKSHMIPATHI:—"Perhaps so. This supplementary question does not arise out of the main question."

SRI PILLALAMARRI VENKATESWARLU:—"Do Government propose to take proper measures to protect the health of these workers?"

MR. SPEAKER:—"You may put that as a separate question to the Hon. Minister for Labour."

SRI PILLALAMARRI VENKATESWARLU:—"My question is in regard to the health of the workers, Sir."

THE HON. MRS. LAKSHMIPATHI:—"Necessary protection will be given to guarantee the health of the women workers."

H. S. HUSSAIN SAHIB BAHADUR:—"Is the Hon. Minister aware that tobacco is injurious to health?"

THE HON. MRS. LAKSHMIPATHI:—"Yes. It is."

SRI N. VENKATA SUBBAYYA:—"Will the health of the tobacco workers be protected in the form of legislation, Sir?"

THE HON. MRS. LAKSHMIPATHI:—"I do not think any legislation is necessary for this but the schedule may be amended or modified."

SRI PILLALAMARRI VENKATESWARLU:—"Is the Government aware that the health of the workers in the municipalities is going worse day by day due to the scandalous negligence? . . ."

MR. SPEAKER:—"The question does not arise."

[20th August 1946]

SRI N. VENKATA SUBBAYYA:—"Is the Government aware that children are employed on tobacco piece works and may I ask whether the Health Minister will be pleased to bring in suitable legislation to prevent employment of child labour?"

THE HON. MRS. LAKSHMIPATHI:—"I am afraid this question does not arise out of the main question."

Post of Deputy Directress of Public Instruction.

* 99 Q.—B. POCKER SAHIB BAHADUR (on behalf of Begum Sultan Mir Amiruddin): Will the Hon. the Minister for Education be pleased to state when the office of the Deputy Directress of Public Instruction which has been held in abeyance is to be filled up?

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"The post of Deputy Directress of Public Instruction in the Indian Educational Service which had been kept in abeyance from time to time was abolished in May 1945. But the post in the Madras Educational Service exists and remains vacant. The Government have now under consideration a proposal to appoint a Gazetted woman officer in the office of the Director of Public Instruction."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Will the Government be pleased to state how long will this matter be under the consideration of the Government?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"Till the consideration is finished."

SRI A. S. SAHAJANANDA:—"டிப்டி டைரக்டர்ஸ்தான் திருக்கு ஹரிஜனைப் போடக்கூடுமா?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"Yes. Surely." (In Tamil).

SRI PILLALAMARRI VENKATESWARLU:—"I want a translation of both the question and the answer, since I have not understood both as they were in Tamil."

MR. SPEAKER:—"The question is whether Government will appoint a member of the depressed class for the post and the answer is in the affirmative."

SRI A. KALESWARA RAO:—"Whether the Government will consider the abolition of the post of Deputy Directors and bifurcate the Province into Andhra area and non-Andhra area and appoint two Directors of Public Instruction even on a lower salary as a precursor to the formation of a separate Andhra Province?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIAR:—"No, Sir."

[20th August 1946]

Registration of Allied Automobiles (India), Limited.

* 100 Q.—SRI N. S. VARADACHARI: Will the Hon. the Minister for Motor Transport and Food be pleased to state—

(a) whether the Regional Transport Officer at Coimbatore has recommended to the Examiner of Capital Issues the registration of a motor firm styled as Allied Automobiles (India), Limited, knowing full well that its managing agent is a dismissed sub-inspector of police;

(b) whether it is a fact that this managing agent is prosecuted for certain offences in Cochin State and is now on bail; and

(c) whether it is a fact that the Regional Transport Officer served in the same district as sub-inspector when the said managing agent was dismissed from his post which he then held as sub-inspector?

THE HON. SRI R. RAGHAVA MENON:—" (a) The answer is in the affirmative.

" (b) This Government have no information.

" (c) The answer is in the negative."

SRI N. S. VARADACHARI:—"Arising out of the answer to (b), will this Government pass on the information to the Government of India?"

THE HON. SRI R. RAGHAVA MENON:—"Government will consider whether it is necessary to do so."

SRI P. NATESAN:—"May I know what is the capital of the Allied Automobiles (India), Limited?"

THE HON. SRI R. RAGHAVA MENON:—"I have no information. If it is necessary we shall get the information from the Government of India."

SRI P. NATESAN:—"Where is the necessity for recommendation to the Examiner of Capital Issues?"

THE HON. SRI R. RAGHAVA MENON:—"This was not done by this Government. If the hon. Member wants an answer, I require notice of it."

SRI N. S. VARADACHARI:—"Is it good public policy to recommend people against whom proceedings are pending especially in a matter which involves collection of public money in the form of shares from various interests?"

THE HON. SRI R. RAGHAVA MENON:—"It is not a subject matter relating to this question but it is a question of policy."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"May I know whether it is the policy of Government to restrain the ordinary rights of a citizen including dismissed Government servants in the matter of embarking on business enterprise?"

THE HON. SRI R. RAGHAVA MENON:—"It cannot be the policy of any Government to restrain the liberty of any individual if that individual has got the right to do a particular thing."

[20th August 1946]

SRI N. S. VARADACHARI:—"Would not Government recognize it as the duty of the Regional Transport Officer who was asked to make a recommendation, that he should furnish full information to the Government of India and not withhold relevant information?"

THE HON. SRI R. RAGHAVA MENON:—"This question also is not definite and so I cannot say what is the exact quantum of information which the Regional Officer should give the Government of India. That would depend on circumstances and this is not relevant here."

SRI N. S. VARADACHARI:—"Will the Government now enquire whether full information was given and if it was found that full information was not given, or part of the information was withheld, will the Government be pleased to furnish and forward that information to the proper authorities?"

THE HON. SRI R. RAGHAVA MENON:—"The Government cannot give any such undertaking but if that matter requires further investigation, the Government may do it."

SRI N. VENKATA SUBBAYYA:—"Is it a fact that this Government has a soft corner for dismissed police officials?"

THE HON. SRI R. RAGHAVA MENON:—"I may assure my hon. Friend that this question is quite unwarranted and irrelevant and my hon. Friend would never have thought that the Government have any soft corner for any particular person in a particular way."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"May I know, Sir, whether it is the intention of the Government to enquire into the conduct of every individual when they embark on business enterprise?"

THE HON. SRI R. RAGHAVA MENON:—"Certainly it cannot be done; Government has got other business."

SRI N. VENKATA SUBBAYYA:—"May I draw the attention of the Hon. Speaker to the remark made by the Hon. Minister that my question is irrelevant and whether that remark of the Minister is not unparliamentary?"

THE HON. SRI R. RAGHAVA MENON:—"I am very sorry that my hon. Friend did not properly hear me. I said that no Government will have any particular affection for any police official, worse than that, a dismissed police official. I thought that the question was meant as a joke, and so my reply is not unparliamentary."

[Note.—An asterisk (*) At the commencement of a speech indicates revision by the Member.]

II.—DEMANDS FOR GRANTS FOR THE YEAR 1946-47.

DEMAND IX—HEADS OF PROVINCES, MINISTERS AND HEADQUARTERS STAFF.

11-15 a.m. KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—"Mr. Speaker, with your leave I have a very small suggestion

[20th August 1946] [Kumararaja Sir Muthiah Chettiyar]

to make. I find that the only occasion on which the question of the allotment of rice for this Province could be raised is on Demand XXXI—Miscellaneous. I wonder whether it would be possible at the present rate of progress to reach that demand. Now that there is no likelihood of that demand being reached, can you kindly indicate to us whether we can raise that question in the discussions pertaining to this Demand."

* MR. SPEAKER:—"I suggest to the hon. Member that a discussion on the rice allotment to the Province can also take place on the Demand for Famine."

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—"But my doubt is, Sir, whether that Demand will be reached at all. Famine is Demand XXVIII."

* MR. SPEAKER:—"It depends on hon. Members; if they cut short their speeches, it may be reached."

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—"My object in making the suggestion, Mr. Speaker is to strengthen the hands of the Ministry to get more rice allotment from the Government of India. We have read from the papers the statement made by the Hon. the Minister for Food after his return from Delhi where he had gone for the Conference of Food Ministers. I thought the House would be given an opportunity of hearing his statements so that an opportunity might be provided for the House to impress upon the Government of India the necessity for more rice allotment for this Province. I do not know whether you would consider my suggestion to advance that demand not to-day, at any rate, but on a latter day before the session closes."

B. POCKER SAHIB BAHADUR:—"May I request the treasury benches to advise their party to speak less, Sir?"

* MR. SPEAKER:—"At the end of the discussion, when the Hon. the Premier replies, he will also make a statement regarding the visit of the Hon. Minister for Food to Delhi. I wish to see that the work is expedited so that we can cover as many demands as possible and reach Demand XXXI in a day or two."

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—"Demand XXXI, Sir?"

* MR. SPEAKER:—"If hon. Members cut short their speeches, we may perhaps have the demand day after to-morrow."

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Mr. Speaker, should the members of the Ministerialist party participate in the discussion of Budget demands?"

* MR. SPEAKER:—"There is no objection to their participating in the discussions relating to the Budget Demands."

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—"It will only prolong the time. It also seems supererogatory seeing that they stand committed to certain policies and the only effect of their speeches will be to stand in our way of full discussion."

[20th August 1946]

* **MR. SPEAKER**:—"I suggest to the hon. Member to appeal to them not to speak."

B. POCKER SAHIB BAHADUR:—"We have appealed to them but without any effect."

* **ABDUL HAMEED KHAN SAHIB BAHADUR**:—"I ended, Mr. Speaker, last evening by referring to the question of Hindu-Muslim unity. This has been an old question which has been agitating the mind of the thinking people of this country for the last one thousand years and more particularly so for the last two hundred years. Sincere efforts were made to bring about that understanding and various leaders and particularly of my nationality made honest and sincere attempts in bringing about unity and understanding but failed and if there was one gentleman who made the greatest effort this was Quaide Azam Muhammad Ali Jinnah. From time to time, he made efforts; but he failed. We here in this Province have been anxious to carry on in a peaceful and amicable manner so that the Government of the Province might go on, for it must be admitted no Government, whether it is a Government of the past or the present Government, whether of this Province or of Bengal, can be carried on when a section of the people organize themselves fully with bags of ill-gotten money and equip themselves thoroughly to rise in rebellion against the Government of the day. There can be no peace and no established Government unless all sections of the people are contented and happy. I am sorry that so far as this Government is concerned, at any rate as could be judged from the Budget, this Government has also started to function in a partisan manner. What do we find in the Budget? We find funds provided for consolidating their party—the Congress party. The Hon. the Premier smiles; but I may tell him that there is not only provision in the Budget but there are also schemes that the Hon. the Premier has been adumbrating to the House of which he has been speaking with some amount of feeling in this House, schemes for evolving things from the village at the bottom upwards. All these things, I say, have been formulated with a view to consolidate the Congress Party in this Province. We are not merely theorising; we have known it from the way in which village committees have been constituted, from the way in which the khadder organization has been set up, initiated, organized and spread, from the way in which the poor Scheduled Classes are sought to be roped in by a charity gift of one crore of rupees. So far as the Scheduled Classes are concerned, this Government of the Caste Hindus in this Province would have done their duty and sheer duty had they but appointed five Ministers instead of one from that community and that too without any portfolio and all the rest are having important portfolios in their hands; I do not want any generosity on their part to the Scheduled Classes. I tell them: 'Appoint five ministers from that community with important portfolios in their hands.' It would be equal not to one or two crores of rupees but to ten or twenty crores of rupees. They would have consolidated their position and their position would be much better than under the

[20th August 1946] [Abdul Hameed Khan Sahib Bahadur]

charity gift scheme that you have propounded. The thing I have suggested would be much better than throwing a crore of rupees in their face and saying 'Here is the crore of rupees that has been provided especially for you; this is all that we can do for you.' This is the way that the Scheduled Classes have been treated. But so far as the Muslims are concerned, nothing has been done. The Government do know that we Muslims constitute the main opposition and that the Muslims have a separate culture and their education has to be separate and based on their own culture and requirements. We do not see anything in the Budget indicating their policy in regard to Muslim education. If there is any indication from the Ministry, that frightens us and continues to frighten us unless and until we have an assurance from the Hon. the Premier and the Hon. Minister for Education that what they said was not all they meant to do and that they mean to do something else. The fright is not confined to the ordinary Muslims only. Anybody who knows what is happening among Muslim officials ever since the present Congress Government has come into existence, not so much the past Government as this one—will say that they are not sure of their security. Is it not a fact, Sir, that some of the Muslim officials have been posted from post to pillar in order to satisfy the predilections of the Congress party? I have two instances of the transfer of District Collectors to show that the present Government is acting most injudiciously and communally. Muslim officials do not know where they stand. The Leader of the Opposition has explained the position of the Muslims in Government service. Their position is bad enough; not only their position, the position of Non-Brahmans and that of the Scheduled Classes is equally bad. The Non-Brahmans in this Province are in a majority but when it comes to a question of offices, they are always in a minority and I leave the Non-Brahman friends of the Congress party to take care of themselves if they are strong enough and are self-respecting enough to see that their interests are not affected and that they are not in the party for their own sake. So far as the Muslims are concerned, I say that their position is very bad. I am not going to ask the Government to appoint Muslims here and there; I am not going to beg for anything; I want it as a matter of right for it is the duty of every Government to recognize the rights of the various sections of the community for a share in the Government of the country. If the Government of the day recognizes that there are various sections requiring various kinds of satisfaction, then that Government continues in office. I can assure the Hon. the Premier that so long as he is just to the Muslims their fullest co-operation and help will always be there. He must not only be just but should also satisfy them so far as their culture, education and religion are concerned. I must on this occasion say that I have been able to observe a silver lining in the otherwise sable cloud and that was the way in which the Hon. the Premier acted so far as the riot situation in the Province is concerned. It was a satisfactory

[Abdul Hameed Khan Sahib Bahadur] [20th August 1946]

gesture that without caring for his comforts he went to Vaniyambadi, Ramnad and Madura and other places but I am not sure that the Government as a whole are inspired by such feelings and whether they are following his example, whether they have a policy of that kind and whether they are going to implement that policy in everything they are going to do concerning the Muslims. If they do, they will be there; if they do not, they will not be there. (Interruption.) Some of my hon. Friends want me to answer certain questions and the same gentlemen do not want me to answer them. Do you and I not know how the present Government came into existence and what its present position is with regard to their own internal position. I do not wish to say more than that. Do we not know how divided you are."

THE HON. SRI T. PRAKASAM:—"I would request the hon. Member not to attempt to divide us."

SRI KALA VENKATA RAO:—"We are one hundred and five with reference to my hon. Friends opposite."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"No action of an outsider can divide a party. It is impossible for anybody, however strong he may be, to divide others; but when it is already divided, the position is different."

11-30 a.m. "Sir, I now proceed to another subject. My hon. Friend the Leader of the Opposition referred to various departments where the Muslims are in a minority, and he also made a specific reference to the Textile Department, which is entirely managed by a particular sect. All the heads of the department there belong to one sect, and you will find the same story repeated in all the other departments. I understand, Sir, some district officers are going to be appointed. What is the Government going to do with regard to that? Are they going to recognize the claims of Muslims and other minorities? Let us wait and see. All this will show what the Policy of Government is towards Muslims and members of other minorities."

"I will finish, Sir, by referring to one very important subject, and that is the prayer of the non-gazetted officials. They have made a very legitimate demand on this Government. I understand that this Government has appointed a committee of its own consisting of a few Ministers with the Revenue Minister as Chairman of the Committee. I do not know whether there was need for constituting the committee while the whole Cabinet could have called an urgent meeting, wherein they could have decided this very important issue. It is not only important but it is urgent, for you cannot carry on your Government without giving contentment and satisfaction to the real Government who are the Executive, the people who prepare everything for you. Without non-gazetted services Government cannot be carried on. They should have realized that this question was urgent, immediate and important. They have shelved this. If I am not incorrect, in my own view, by the appointment of the committee, this Government has shelved the issue. I wish they had realized that it was an urgent

20th August 1946] [Abdul Hameed Khan Sahib Bahadur]

matter. This is not anything like the strike of labourers. This is a matter which requires immediate attention. How can these people carry on under very difficult and impossible conditions?"

* MR. H. S. TOWN:—"How has the Corporation helped the non-gazetted staff?"

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"My hon. Friend Mr. Town is a very humorous gentleman. Occasionally he butts in with humorous remarks. On this occasion he knows the financial position of the Corporation, and to what extent it can help its staff in spite of the fact that he pays one lakh of rupees to that body; and he expects us to come to the rescue of the non-gazetted officials. That is a joke. Apart from that joke, to come back to the real position, I hope the present Government for its own safety will tackle this question immediately and not shelve it, but give the people relief so that they may be satisfied and will carry on their work in a contented manner. With these words, I support the motion."

* MR. F. FERRELLY:—"On a point of information, Sir, the hon. Member who has just spoken, in the earlier part of his speech, referred to members of his nationality. Can you tell me, Sir, how that nationality differs from the nationality of the Treasury Bench?"

* MR. SPEAKER:—"Mr. Hameed Khan need not answer that question."

At this stage several hon. Members in the opposition benches rose up to speak, and the Speaker called them to order.

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"I rise on a point of order. One hon. Member has asked a question, and it pertains to the remarks that have been made by me, and I think it is rather appropriate that I am given an opportunity, to reply."

* MR. SPEAKER:—"I will give you an opportunity in the next cut motion."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"That will be too late for him."

* MR. SPEAKER:—"No, it will not be too late."

* MR. H. S. TOWN:—"I am not speaking on this Demand, Sir."

* MR. F. FERRELLY:—"I do not want to waste the time of the House, Sir."

* MAHBOOB ALI BAIG SAHIB BAHADUR:—"Mr. Speaker, Sir, if my voice and the voices of 29 Muslim Members of this House can help to dispel the misconception that Mr. Muhammad Ali Jinnah and the Muslim League have been intransigent, unreasonable and obstructive, it would be a great service done for promotion of harmony and goodwill among Hindus and Muslims. There must be some intellectual integrity at least among the educated and intelligent men, to have a fair mind to look at the course of events that have taken place from March 1946 impartially. If that is done, I am sure, the charge against the

[Mahboob Ali Baig Sahib Bahadur] [20th August 1946]

League would be found to have no foundation at all. As we know, Sir, the Congress and the Muslim League could not come to a mutual agreement, so a third party who holds the reins of Government in this country, made recommendations embodied in the State paper, dated 16th May 1946. It contains two parts, long term proposals and interim proposals, which are indivisible and inter-dependent. The proposals for interim Government were amplified in the State paper of 16th June. The two parties, or I may call the three parties, to this transaction, are first the British Government, second the Congress and the third the Muslim League. What have they done in the matter? That party that accepted the terms at the earliest possible moment was the Muslim League. So, can any one with any reason say that the Muslim League obstructed the plans prepared by the Cabinet Mission. To start with, let us see which is the party that was anxious to accept the proposals so that the freedom of this country may no longer be delayed. It is the League that accepted the proposals set forth in the State paper of 16th May 1946. What did the other party do? The Congress, after a long time after having elicited information in regard to some matters, finally rejected the interim proposals."

* SRI T. VISWANATHAM:—"I rise on a point of order, Sir, we had pretty long discussions on Hindu-Muslim problems which have nothing to do with the administration of this Province. I thought members will confine themselves to purely matters of administration. My hon. Friend Mr. Baig is raising questions on matters the parties to which none of them, are here. It is impossible, if we stray outside the scope of the budget discussion, for us to have any intelligent discussion. May I request you, Sir, to ask the members to confine themselves to the administration of this Province."

* MAHBOOB ALI BAIG SAHIB BAHADUR:—"It is wrong to say that none of us were parties to these transactions. My hon. Friends on the Treasury Benches who are Congressites belong to the Congress Party and we on the opposition belong to the Muslim League Party, which are the two important parties."

* SRI T. VISWANATHAM:—"May I explain, Sir. When I was saying 'parties to the transaction' I was referring to particular transactions of the Cabinet Mission and its negotiations. I said and meant that none of the parties to the negotiations are here. So, I say it is irrelevant to raise that question here."

* MAHBOOB ALI BAIG SAHIB BAHADUR:—"There is authentic record for whatever I have said."

* MR. SPEAKER:—"But anyhow, please confine your speech to the subject before us. Do not take much of the time of the House by dealing with politics."

* MAHBOOB ALI BAIG SAHIB BAHADUR:—"Sir, I thought this is the occasion, if it is possible, to create mutual understanding and set forth our case before the representatives of the majority in this Province, and tell them how in spite of the fact that

[20th August 1946] [Mahboob Ali Baig Sahib Bahadur]

the League was for co-operation, was out for the freedom of this country, and was the first to accept the proposals—how it has all been maligned and misrepresented. That is my purpose. There cannot be a worthier purpose than to promote understanding between parties in this country."

* MR. SPEAKER:—"Do so, but without wounding the feelings of others."

* MAHBOOB ALI BAIG SAHIB BAHADUR:—"Let an impartial critic scan the evidence and let him judge and pass the verdict. If that is done, nobody will say that we were obstructive, or unreasonable. (A voice from Government Benches: 'Absolutely.') No. If my Friend is of that opinion I am trying to ask him to be fair-minded, just and honest. Can he say that the League did not accept the proposals? I must say, Sir, nobody who is not obsessed with party politics can deny it. The League accepted the proposals in toto. Nobody can deny that. Now who are the other parties. The Congress did not accept the interim proposals, but with regard to long-term proposals it accepted on its own interpretation. This interpretation was at variance with the interpretation of Lord Wavell given on 25th May, and that is with regard to a Province opting itself out. And what did the third party do? It scrapped the interim proposals, and in order to say that the Mission did some work, it gave out that, the Congress accepted the long-term proposals, which in reality was no acceptance at all, as it was at variance with the original interpretation of the Cabinet Mission."

* MR. SPEAKER:—"There must be somebody to answer this question. None of the people sitting on the Treasury Benches will be in a position to reply. What is the use of dealing with these points?"

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Will they declare that they are not in a position to answer?"

* MAHBOOB ALI BAIG SAHIB BAHADUR:—"I am making this appeal to all Congress people, and through you Sir, to the people at large in this Presidency, to see our case and understand it. That is my purpose. There would be frequent reference to these proceedings. I am trying to promote understanding. I do not know whether anybody would take any objection to it."

"Now I come to an important point and it is this. The League has accepted both the proposals in toto. The Congress did not accept the interim proposals; it accepted the long-term proposals with its own interpretation, which is no acceptance at all. The British Government scrapped the interim proposals. Now let us see who is to be blamed. Is the League to be blamed? Can it be said to be obstructive or unreasonable? No doubt, on 29th June, we had to cancel our previous resolution. The whole world knows there is justification for it. As Qaidi-Azam M. A. Jinnah has said, we were let down; there was breach of plighted word by the Viceroy and the Cabinet Mission. The Congress were trying to manœuvre in such a manner that the Cabinet Mission did not

[Mahboob Ali Baig Sahib Bahadur] [20th August 1946]

feel inclined to call upon the Muslim League, to form the Government, the only party that has accepted both the proposals, to form the interim Government. As there was the threat of civil disobedience by Congress, the British Government yielded to it, and hence necessarily our resolution accepting the proposals of the Cabinet Mission on the 6th June had to be cancelled on the 29th June. This is the position. So, I am appealing to the intellectual integrity and to the intelligent educated men of this House, outside this House, and to the world to answer the question 'whether you can charge the Muslim League of being obstructive, unreasonable and unpatriotic?' I think it is a good purpose for which I have taken about five minutes (laughter).

"I now come to the cut motion of which I have given notice. The first cut motion I have given notice of is to elicit the policy of Government in regard to the safeguarding of language, culture, and religion of Muslims and their adequate and effective share in the services of this Province. I will only content myself by stating that it is very necessary that the Government should safeguard the culture, religion and language of the Muslims who are in a minority of 8 to 10 per cent in this Presidency. I do not want to lay more stress on this. I will do it when the proper time comes. The second cut motion is with regard to the communal Government Order. I want a reassurance that the communal Government Order will not be disturbed, amended, or modified. I hope this Government will take the House into its confidence, and will not swerve from the application of the communal Government Order. I am afraid already here and there this is sought to be circumvented by some methods. I am told, Sir, in Public Works Department there used to be, and I know it as a matter of fact, direct recruitment of Assistant Engineers. Six out of twelve vacancies were filled by direct recruitment. I am told that that rule has been suspended now. I am told some temporary posts are being created to which this communal Government Order is not applicable. If that is so, I appeal to the Premier to see that the spirit of the Government Order is not violated.

"The other cut motion I have given notice of is to elicit information with regard to the activities of Congress Committees in the Province seeking to interfere with the administration. This is a very very bad thing. A party might have its members, and its leaders as members of the Cabinet. But that does not mean that the members of that party should go about interfering with administration. Many a Government servant has told me 'What can I do in the matter? Mr. So and So, who is a Congressman is the Secretary of the Committee and he insists that the thing should be done in such and such a way.' I am sorry to mention there are parties even among Congressmen themselves. One party calls itself 'Prakasam Party' and another party calls itself 'Anti-Prakasam Party,' and each party insists on their partymen being appointed in the village committees. That is exactly what a responsible man told me. If that is so, it will undermine the administration. We want an administration that is pure. We will

[20th August 1946] [Mahboob Ali Baig Sahib Bahadur]

support any just measure that is brought before this House. I was very sorry to hear yesterday the Hon. Minister referring to the communal tension in Patna and Calcutta. If any such thing takes place here, let us put it down. I will certainly support this Government in putting it down. I submit, in the country, administration is being undermined. I am not anxious to create splits. It is there already. To add to it there are Congress, Muslim League and Communist parties. It is very difficult to carry on administration for an honest officer. As far as we can see, responsible Ministers have not been giving any support to it.

"As regards representation of Muslims on Food Committees I am glad to say as far as our districts are concerned, our district officers are trying to revise the committees and that goes a very long way to improve matters. I am thankful to the Premier for having taken steps in the formation of Textile Committees. The last thing I want to say is about adequate Muslim representation in the departments of the Secretariat, especially the higher officers. The Leader of the Muslim League Party and others have spoken about it. I plead that immediately, or as soon any occasion arises, Muslims be appointed. I am told, two Assistant Secretaries in the Civil Supplies Department of the Board of Revenue, have been appointed, but not a single one is a Muslim. That is very regrettable. The last thing I want to refer to is to invite the attention of Government to the activities of the Rashtriya Swayam Sevak Sangam and to ask what steps the Government have taken against the institution and the steps it proposes to take against it. I am not going to say very much; for I know it is a matter which ought not to be mentioned very much in public. But one thing, I may say, and that is this institution is being financed by some people. And the worst thing is that children of tender years in schools belonging to municipalities and district boards are being taught to hate Muslims. I do not know whether the Premier knows it. I have got a book taught in these schools, which I got with very great difficulty. If the Premier wants it, I will hand it over to him. If the idea is to train them so as to form into a national militia, there can be no objection. But it is not so. What is the background? It is the hatred of Muslims that is taught. How is it that the boys are being taught in the Sangam? Exactly like what Hitler did in Germany. The minds of boys of tender age are being poisoned by communal propaganda.

"I thank you very much. My last submission is that we in this House are for an efficient, fair and just administration. I would only appeal to the hon. Members to consider what I have said dispassionately without prejudice in their minds, and see whether the attitude taken up by the Muslim League is not just and fair."

* SRI S. NAGARAJA MANIGAR:—"On a point of information, Sir. I want to know whether the Muslim League will be satisfied with anything short of Pakistan, if due consideration is given to the points he raised?"

12
noon.

[20th August 1946]

THE HON. SRI T. PRAKASAM:—" I am sorry that a question has been put by the hon. Member. I request him not to press it."

* BEGUM SULTAN MIR AMIRUDDIN:—" Mr. Speaker, Sir, I have given notice of three cut motions under this demand. The first item deals with the portfolio of public information. What I wish to know is: what is the purpose of this portfolio, what is the motivating force behind it, and what is the scope of its activities. I had never heard of such a portfolio until I went to Germany in 1937. There I found such a portfolio existing under the direction of raucous Dr. Goebbels, who made much noise and indulged in unheard of propaganda for Nazi ideas and ideals. When from Germany, I crossed over to that land of liberty, France, I noticed that the infection for propaganda had spread to that beautiful country as well, and that a similar portfolio had been created there also. And when I returned home to India, to my surprise I discovered that the Congress Government, which had assumed power in this Province, had also fallen in line with the above Nazi method and established a similar portfolio of public information. Those were days when totalitarian ideas were becoming popular in many places because of the growing power of totalitarian countries at the time. But we are living in a different age at present. We are living in an age when happily totalitarianism has been wiped out from the face of the earth. Hence it is hardly becoming of modern times to preserve a relic of totalitarian days. During war time, a public information department was created in many countries, but now that the war is over, there is no need for such a department. What I wish to know is what is the publicity which the Minister of Public Information intends to launch upon? Evidently his portfolio is intended to propagate the ideals of the Congress Party, to eulogize the services of the Congress Government, and to impress upon the people what a boon it is that the Congress are in power, and what a calamity it will be if any other party steps in. But, Mr. Speaker, good wine needs no bush. If the Congress Government will engage themselves in beneficent activities and will launch upon measures intended to ameliorate the present miserable plight of the masses, these will come to light by themselves by the effect that they will produce on the condition of the people and there is no need to trumpet about them. It is deeds, not words, that will make their impression upon the people, and there is no necessity for self-advertisement on the part of the Government. As regards informing people about the future intentions of the Government, that task is being already performed in an abundant measure by the Hon. the Ministers themselves through their innumerable speeches and their ceaseless tours. When the Congress were last in power, one of the Ministerialists described the Congress Ministers as the 'movies and the talkies' of the Province. No doubt, this is true. Hence my submission is that the portfolio of public information is superfluous and redundant and as such it should be abolished, and instead another portfolio for Housing be created. There is much greater need these days for providing people with houses to

[20th August 1946] [Begum Sultan Mir Amiruddin]

live in than injecting them with unwanted information. Let the Hon. the Minister-in-charge of Public Information be placed in charge of housing, and let him plan out a well-thought-out scheme for providing homes and shelter for the homeless and give effect to the same at an early date.

" The other subject to which I wish to draw attention is the work of Parliamentary Secretaries.— Although three months have elapsed, the duties, activities, powers, and responsibilities of Parliamentary Secretaries have yet to be completely specified and defined. There can be no reason for this other than the fact that there are no substantial duties to entrust them with. The other day when the Hon. the Minister for Education was away, it was evident from the answers given by his Parliamentary Secretary that the latter was not fully informed of facts. When the last Congress Government were in power, the Parliamentary Secretaries had very meagre functions to perform, with the result that one of them resigned his post. In this Province, I think, the posts of Parliamentary Secretaries are intended by the Congress Government for the purpose of providing jobs for their party men. But it is not at all desirable that public funds should be frittered away in this manner in providing party men with sinecure jobs. It may be pointed out that the practice of having Parliamentary Secretaries is prevalent in Britain. That is so because Britain has need for them there on account of the heavy pressure of work that Britain has, especially in maintaining a big empire. But this Province has no empire. I wish to submit that the administration of every country should be in keeping with its finances and should not be made too heavy in imitation of countries which are financially much better placed. All these years the Congress has been vociferous in condemning the British Government for their top-heavy administration and has levelled severe attacks against the British for their extravagant expenditure on Government Departments. Let us see what the Congress itself is doing now that it has assumed power. Has there been any reduction in expenditure to any extent since the Congress Government took charge of the administration? The answer is a clear negative. I do not see any signs in this direction either. Taking for instance only one head, namely, the Advisers' salaries as against the salaries of the Hon. the Ministers and their Parliamentary Secretaries, we will find that the present machinery is much costlier than that prevalent during the Advisers' regime. The salaries of the Advisers who were but four in number came to Rs. 1,92,000 per annum as against the sum of Rs. 2,34,000 per annum, the salary of the present thirteen Ministers. If we add to the salary of the Ministers the salary of their Parliamentary Secretaries, the cost to the Exchequer comes up to Rs. 3,52,200 as against Rs. 1,92,000 during the Advisers' regime. This must be a disappointment to the tax payer. Therefore, Mr. Speaker, I consider that it is very desirable that there should be curtailment in expenditure, and sinecure posts should not be allowed to remain. Hence my suggestion is that the posts of Parliamentary Secretaries be abolished in this Province.

[Begum Sultan Mir Amiruddin] [20th August 1946]

"The third and the last point to which I wish to refer is the necessity of replacing by younger officers the superannuated men who have been re-employed by the Government. Considerations of the health of the individual, considerations of efficiency of administration, and above all considerations of providing the people of the land with employment have necessitated the age of 55 being fixed for retirement from Government service. In a country like India which has an enervating climate, from the health point of view it is desirable that one should discontinue to serve after 55. Again, from the point of view of efficiency of administration, 55 is the correct age for retirement because, generally speaking, after that age one cannot be as vigilant and as hard-working as the employer would expect one to be. After that age, everything becomes routine and one is inclined to take the line of least resistance. Hence it is desirable that after that age one should enjoy repose and retirement. Apart from this, justice to the youth of the land demands that the old should make room for the employment of the young. In the olden days, extensions used to be granted to superannuated men only under special circumstances. I understand even this was abolished some time before the war broke out. But after the outbreak of the war, there has been a considerable inroad of superannuated men into the various departments. I grant that there was need for superannuated men during war time, but now that thousands of young men are being demobilized, there is no necessity whatsoever to retain superannuated men in any department. In a country like India where life is short, the old should not be allowed to block the promotion of the young. If the superannuated men are not relieved immediately, I am afraid there will arise much discontent and dissatisfaction in the services. In the interests not merely of efficiency of administration but also of satisfaction in the services, I urge that the superannuated men in every department of service be relieved at once. I know that there is a great desire on the part of many people to continue to earn money as long as possible. But it must be impressed on the superannuated man that there should be a limit to one's serving merely for the sake of monetary gain, that he must make room for, and give an opportunity to, his sons and sons-in-law to earn, that he should learn to enjoy the felicity of retirement as Lamb did and to engage himself in useful and beneficent voluntary work in the service of God and man.

"These are the three points that I wanted to dwell upon. With these words I support the cut motion. Before I close, may I be permitted to briefly reply to the point that has been raised by Mr. Ferrelly?

"In reply to the question that was asked by Mr. Ferrelly a little while ago, I should like to draw his attention to books on political science and political philosophy of Renan, Gilchrist, Gettell and others. If Mr. Ferrelly would go through these books he would know what constitutes a nation. Among the factors that have been mentioned in those books as constituting a nation,

20th August 1946] [Begum Sultan Mir Amiruddin]

an important one is culture. I am afraid in regard to this factor the difference between the members of my party and those on the other side is considerable. An instance of that I may point out. An hon. Member of this House is present here bare body without a shirt. Now this is distinctly contrary to all conceptions of Muslim culture; a Muslim would never dream of appearing thus in public (Hear, hear). There are many other points of difference. If Mr. Ferrelly would come, and have a talk with me, I would dwell on this subject in detail."

AN HON. MEMBER:—"On a point of order, Sir. There is not one; there are three or four members without shirts."

* MR. SPEAKER:—"It is not a point of order."

* SRI PILLALAMARRI VENKATESWARLU:—"Sir, many speakers from the League Benches have addressed on this motion regarding various points bearing directly or indirectly on this head. Mr. Abdul Hameed Khan started giving his narration from 1906 and led to the events of 1946. I want to bring to the notice of the House an important question agitating a greater part of the Madras Presidency. Our Presidency does not consist of one nation or one caste or one creed. It consists of four nations. They are the Keralas, the Andhras, the Tamils and the Canarese. These four nations constitute the Madras Presidency. This is an unnatural combination created by British Imperialism only to divide us and perpetuate their rule. There is a demand for separation not only from the day of the formation of this ministry only but from the days of the previous ministry also. Even in the days of the previous ministry there was a strong agitation for the separation of the Andhra Province. Discussion went on; strong and bitter feelings were roused. Perhaps in the days of the previous ministry there might have been some opposition from certain quarters but to-day I am sure that throughout the Presidency there is no opposition for the formation of provinces on linguistic basis. But that is not to be found in the Congress budget. The necessity for having a separate province is quite evident from this fact, that when Swami Sahajananda put a question in Tamil and the Minister gave the answer in Tamil the whole thing had to be translated in English for me to understand. So also very many excellent speeches are made in Tamil and it is only when they are made in English we understand. Such is the state in which we are. Such was the Madras Province created by British Imperialism. It is the British Government that formed the Madras Presidency consisting of so many nationalities so that if we go on perpetually quarrelling among ourselves the Governor who is over the head of the Speaker, may lord over all. It is high time for the ministry to come forward and divide the Presidency into four linguistic provinces. I know perfectly well that is the feeling everywhere. I know in Kerala also there is a demand for the formation of a united Kerala Province. We cannot achieve this separation of provinces by the grace of the Governor, or the

[Sri Pillalamarri Venkateswarlu] [20th August 1946]

Viceroy or the Secretary of State. I know they will come in our way. I remember the previous Prime Minister saying that there may be some objection and that the Viceroy or the Secretary of State may not agree to the formation of separate provinces. We have to fight out this veto right and exercise our rights. To-day the British Government and the Secretary of State are not so powerful as to veto the demand of the people to have their own provinces in their own country. I think they cannot stand in the way. We have to put our heads together and plan to have our own province in our own way to unite all our people. Take the question of the Andhras. We are three crores with a culture of our own diffused in so many provinces who do not speak the same language and there are so many quarrels. How many jealousies there are among ourselves without knowing ourselves. We cannot accuse the leaders for this factionalism. Every leader is sincere in his own way. Because the question of nationality is not settled and there is no separate province there is all this quarrel. We can solve our own problems if we form ourselves into separate provinces. We have got Andhras in the Nizam's State already. I know it is not an easy job to get back our Andhra land from the Nizam. But we are sure to get it and we will get it in spite of anybody that can stand in our way. So also in other Native States, there are Andhras. I know the Maharajas are very powerful. I know there are very big Congress and League leaders behind these Maharajas and Nawabs. (A voice: 'Not the League leaders'.) At least our League leaders sitting with us, are not behind them. But we have been hearing that the greatest leaders are supporting the Maharajas. I say this because I have got that doubt, and I put it before this House. These Maharajas and the Nizam must be fought out. These are the puppets created by British Imperialism. Unless we liquidate them, there will be no salvation for our country. The Britishers have devised the Constituent Assembly. It is nothing but a trap and a sham to make ourselves quarrel perpetually, so that British Imperialism can remain and rule over us. The position of British Imperialism is shaking, their throne in Delhi is in flames. The great mass struggles in States like Kashmir, the general strike wave that is spreading among all sections of the toiling millions, the unrest among the military and the police, the upsurge among the peasants point the way in which the wind is blowing. It is almost burning on account of the mass movements that are going ahead in this Province among the labourers and the kisans in this country. There are political differences in our country. Taking into consideration the political factors and the times through which we are passing, we will have to solve our problem. The question of nationalities must be solved. The only way to solve the problem is by accepting the right of self determination for all nationalities in our country. This is a democratic approach. If there had been a redistribution of provinces not only in Madras but throughout the country based on a linguistic basis and on a cultural basis, I am sure most of the quarrels and most of the problems would have been solved, and there might have been greater agreement than it is to-day. Moreover because there is no

20th August 1946] [Sri Pillalamarri Venkateswarlu]

separate Andhra Province, you know how the Andhras are suffering. Most of these scavengers are Andhras. Wherever we go, we are looked down upon. I am really ashamed of this thing. I am not at all satisfied with this, even though there is an Andhra as our Premier for whom I have great respect, (Interruption.) I want a separate province or you also. Since the question has been put, I want to make it clear that the demand I am putting forward is not only for the Andhras; it is also for our Tamilian friends who are experiencing the same difficulty, and also for our Malabar friends. This is the united demand of all the people throughout our country, and there is no need for anybody to suspect me when I say that we must have a separate province for the Andhras. This cannot be achieved by pitting Andhras against Tamilians and against Malayalees. It is only by uniting all our people we will be able to achieve our demand. All of us must fight jointly against our rulers who are responsible for this state of affairs. I will fight for the Tamil friends also. I have a good number of friends among them. As a matter of fact, I am going to fight for the Tamilian friends who are involved in the South Indian Railway strike. I am not going to keep quiet when 5,000 workers are going to be crushed by the Malabar Special Police and I request my hon. friends to join shoulder to shoulder to fight the common enemy.

"I am not going to keep quiet because I am an Andhra, and they are not Andhras. I cannot keep quiet when people are shot and workers fight their masters wherever they may be, to what religion, caste or race they may belong. I will fight for them both inside the house and outside. I will extend my hand of friendship to the members on the other side and be prepared to fight shoulder to shoulder in the interest of the people. I cannot be heartless as my friends on the other side who will not lift their little fingers for the sake of the South Indian Railway workers. I will fight for the demand of the workers wherever they are. I will stand by them. My demand for the separation of the Andhras does not mean that the workers in the other areas will not have my support. We will all stand united and solve our problems permanently.

"I will now take up the question of salaries. Let us take the Budget and you know what the Governor and his Bodyguard establishments cost to this Province? We find it is Rs. 11,69,600."

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"On a point of order, Sir, may I know whether the salary of the Governor can be debated in this House?"

* MR. SPEAKER:—"No, it is not debatable."

* SRI PILLALAMARRI VENKATESWARLU:—"I am not debating it, Sir. I am only expressing my opinion about the huge salary he is paid."

* MR. SPEAKER:—"You cannot refer to it."

* SRI P. NATESAN:—"On a point of information, Sir, I think the grant under the Governor and his establishments is only not votable, but nothing can prevent us from discussing it."

[20th August 1946]

* MR. SPEAKER:—"But he is criticising it!"

* SRI PILLALAMARRI VENKATESWARLU:—"I do not want to reduce it. Sir, but I only want to express my opinion on it. Even though I cannot criticise it, I think I have got a right to express my opinion on the salaries of the Governor and his staff."

* MR. SPEAKER:—"The Governor's salary is not included in this demand."

* SRI PILLALAMARRI VENKATESWARLU:—"It is in this demand, I think, Sir."

* MR. SPEAKER:—"No. It is not under this demand."

* SRI PILLALAMARRI VENKATESWARLU:—"Now Sir, it seems, I cannot comment on the salary of the Governor, but any one who glances at these tables in the Budget will see how much he is costing us. (Laughter.) (Interruption.) I do not want to incur the displeasure of the hon. Mr. Speaker, even though I feel I have got the right to make mention of this. But when you compare it with the salaries that are paid to the lower-paid staff, you will find that there is a great disparity between them. Because you are paying such high salaries to these high officials, you have no money to pay the subordinate staff. About one-fourth of the total salaries go to the pockets of these high officials. Why should this thing go on? It is said that this Congress Government has appointed a Cabinet Committee to examine the question of raising the salaries of the subordinate officers. I hope they will take this opportunity of reducing the salaries of the high officials, including the highest, and the highest of the highest officials. (Loud laughter.)

"In this connexion may I put forward a suggestion to the Hon. the Premier? In order to induce the highly-paid officers to reduce their salaries, voluntarily, will he cut down his salary voluntarily say, to Rs. 500, and then appeal to the other high officials to cut their salaries by 50 per cent? If he makes such an appeal to the most highly-paid officer (Governor) in the words of the Hon. the Prime Minister who is a very reasonable man, probably he would respond to his call. We cannot tolerate such high salaries being paid to these officers. There should not be such great disparity between the pay of the high officials and the subordinate staff.

"Moreover, if you turn over the pages of the Budget, you will find that in every department there are a handful of very high officials drawing Rs. 1,500, Rs. 2,500 and so on. If you take the Chief Secretariat, for example, there are on the whole about half-a-dozen officers drawing more than Rs. 500 and yet they appropriate about Re. 1.1 lakhs by way of salaries. If you compare it with the 'Pay of establishments', i.e., of 101 men in the same department, you find that it is only Rs. 1.00 lakh. That is to say, about half-a-dozen officers draw Rs. 1.1 lakhs; the rest, viz., 101 subordinates draw Rs. 1.0 lakh. That is how our budget is framed! I want there should be a radical change in

[20th August 1946] [Sri Pillalamarri Venkateswarlu]

"Another point in favour of reducing the salaries of the Ministers is this. I happen to know from my talk in the streets, and it also appeared in the papers that the Hon. Minister for Local Administration was out in the streets to help the people and to show that he is one of the workers. Let him remove the two zeros from his pay, i.e., let him reduce his salaries from Rs. 1,500 to Rs. 15 then he would know how difficult it is to meet his expenses. If all the Ministers are asked to live on that salary, I am sure they will all go on strike and perhaps they will then realize the difficulties of these workers and I may be asked to lead them to victory. (Loud laughter.) (Interruption.)

"So what I suggest is that it is time for us to adjust the salaries of officials in such a way that there is no great disparity between the highest officers and the lowest-paid men and thus meet the demands of the budget.

"Now let me take up the case of Parliamentary Secretaries. The appointment of these Parliamentary Secretaries is superfluous. The previous Congress Ministry did not give them any work. The present Congress Ministry has not only revived that system, but has also increased the status of the Chief Parliamentary Secretary. The Hon. the Premier has announced that he is going to give definite work to them. If Parliamentary Secretaries are to be allotted definite duties, then some of the heads of departments can be dispensed with and these Parliamentary Secretaries can take up their place. We can thus save the salaries of the officials. We shall also in course of time, have honorary Parliamentary Secretaries.

"Another point which I am anxious to bring to the notice of the House is about the tours of the Ministers. I have often observed that the Ministers pay frequent visits to all places, for instance, to Bezwada, without staying there even for a short time. Of course, they have got their own engagements; they have their own tea parties and associations. I do not object to it. But what I want them to do, if they really want to study the situation in the districts, is that they must stay for a sufficiently long time, say 5 days or 10 days, call for the people who have any grievances, inspect the places, if necessary and so on, and thus make a thorough and exhaustive study of the conditions in the districts during their tours. I have had a personal experience in this connexion. When an Hon. Minister visited my place, I brought to his notice the strike that was taking place among the municipal workers there and requested him to look into the matter. He said that he had full of engagements and that he could spare no time. That is how responsible Ministers are planning their tours! What I want to state is that they should make a definite tour programme to visit a particular place, stay there sufficiently long, look into the people's grievances and redress them then and there, if possible. I hope that the Hon. Ministers who are popular leaders will take up this suggestion into consideration or else their tours will be like that of Governors.

[Sri Pillalamarri Venkateswarlu] [20th August 1946]

"Then I come to the question of elections to municipalities and other bodies. In the debates, yesterday and to-day, so much has been said about separate electorates and joint electorates and from the Muslim League Benches it was argued that separate electorates is the panacea or all evils. I am sorry I cannot accept that statement. Separate electorates have been in existence all these days and so many members have been returned to this House by that method of election irrespective of the wishes of the people concerned. Have we solved all our problems? Separate electorates have not at all solved our problems. They have only aggravated them by developing separatist tendencies. But it does not mean that because separate electorates have failed to solve our problems, we must have joint electorates. Nor can I accept that joint electorate is the solution. There is a *via media* between these two for the solution of all our difficulties which I would request the hon. Members on the Muslim League Benches and the Treasury Benches to give their careful consideration. Now there is separate electorates. But yet there is so much injustice done to the minority communities, particularly regarding appointments in services. They must be given their due quota of appointments. Those injustices must be immediately removed. Our Hon. Premier has promised to consider them and I am sure he will carry out his promise. Now there is the separate electorate and there is a tendency growing that nobody should contest the Muslim seats."

MR. SPEAKER:—"You have already taken 20 minutes."

(A Voice: "He is a leader without a party, Sir!")

SRI PILLALAMARRI VENKATESWARLU:—"I may not have a party within this House, but outside this House, do you know how strong we are?" (Interruption.)

"Before these interruptions, Sir, I was saying that these separate electorates have not solved any of our problems. It is because of our dissensions, so much quarrels and so much bloodshed have taken place. What do we see in Bengal at this very moment? In Calcutta itself there are 2,000 deaths. I do not think hon. Members of the Muslim League would want this to be perpetuated for ever."

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Sir, is the hon. Member in order, in inferring that the Muslim League is responsible for the happenings in Calcutta? Is he trying to become friendly with the Congress and turning against us?"

SRI PILLALAMARRI VENKATESWARLU:—"I am not saying that the Muslim League is responsible for what is happening in Calcutta. Perhaps it may be that the Muslim League has no hand at all." (Interruption.)

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Our information is that Communists are responsible."

MR. SPEAKER:—"Please do not disturb him; let him continue his speech."

20th August 1946]

SRI PILLALAMARRI VENKATESWARLU:—"I never said, Sir, that the Muslim League leaders are responsible for the 2,000 deaths, that have occurred in Calcutta. I do not know if the Muslim League Benches have contradicted it. Nor do I say that the Muslim League leaders went to the extent of provoking the people, to commit such murders."

MR. H. S. TOWN:—"May I suggest Sir, that this matter be kept out of this debate."

MR. SPEAKER:—"I too am of the same opinion. Perhaps the hon. Member is of the opinion that it is due to the separate electorates that this thing has happened. Mr. Venkateswarlu, may go on with his speech and finish it as quickly as possible."

SRI PILLALAMARRI VENKATESWARLU:—"I do not throw the blame either on the Muslim League or on any of the leaders." (Interruption.)

MR. SPEAKER:—"The hon. Member should not go on repeating it over and over again. You say that these disturbances are due to separate electorates. Then please go on further with your speech, to any other point. (Interruption again.) Please do not interrupt him."

SRI PILLALAMARRI VENKATESWARLU:—"Interruption necessitates repetition." (Loud laughter.) 12 45 p.m.

MR. SPEAKER:—"I will allow the hon. Member two more minutes."

SRI PILLALAMARRI VENKATESWARLU:—"Three minutes of my time have already been taken by my friends. (Loud laughter.) There are differences in our country. I should like to go into this question now. In my opinion all these differences will vanish if adult franchise is given to every community and every religion. After introducing adult franchise, joint electorates with proportional representation should be introduced and elections should be conducted on the abovementioned basis. I am sure if this is done Muslims need not object. They will get as much advantage then as they are having it now. They will have their representatives and there will be unity. So I suggest adult franchise and proportional representation as the only solution for our province. Apart from this I will make an appeal to the Muslim League. They feel that 99 per cent of their population are with them. If proportional representation with adult franchise is granted to them in the elections to local bodies on the joint electorate system they will get their quota returned. Let us start this experiment of joint electorates. I appeal to them to accept this and I appeal to the Congress to hold elections on the basis of adult franchise and joint electorates, with proportional representation. That is the only way to solve our differences. Our differences cannot be solved by pointing out any split in the Congress party. If unfortunately there is a split in the Congress party it will never do any good to the country. On the contrary it will split our country and the national movement. I do not

[Sri Pillalamarri Venkateswarlu] [20th August 1946]

want any dissensions in that party. I wish the Congress party to work as a united team."

* MR. SPEAKER:—"The hon. Member will please resume his seat."

* SRI PILLALAMARRI VENKATESWARLU:—"One more minute, Sir."

* MR. SPEAKER:—"I cannot allow any more time, please. I call upon Khan Sahib H. S. Hussain Sahib to speak next. (A Voice: 'No "Khan Sahib", Sir. He has renounced his title'.) But it is found here in the Order Paper."

H. S. HUSSAIN SAHIB BAHADUR:—"Sir, this is an opportunity for the House to review the actions of the Ministry. We have to judge them by the result of their actions. For this purpose I would say that they should be given full opportunity to prove their worth, their sense of impartiality and fairmindedness. Then alone we shall be in a position to say that they have done their duty by the people of the country. But, in the meanwhile, as the previous speakers from my Party have pointed out, there are some symptoms and indications discernible which really disconcert us and that is why we have taken the earliest opportunity to sound a note of warning. This should put the Ministry on its guard and persuade it to do justice to every section of the people of this province.

"Many matters have been discussed by the previous speakers. It is needless for me to go into them once again. But one thing which I would like to emphasize is the question of the pay of the non-gazetted services. I am told, Sir, and I read about it in the papers, that a sub-committee of the Cabinet has already been appointed and that it will take a period of two months to decide the question. But, Sir, was there not a committee already appointed before this to go into this question? What has happened to its findings? That committee has submitted a report. Has it reached the Government and have the Government gone into that report and studied it to remedy the grievances? Sir, this question or a decision on this question cannot wait. It is a humanitarian problem. It is a question of life and death for the miserable ill-paid servants of this Government. We are seeing the badges on their breasts. They remind us day in and day out of their sad plight. Is it not up to this Government to take up this question immediately and decide it speedily? It is in a position to do that. When a Bill for increasing the salaries of Ministers and Members of this House could be rushed through within an hour or two, is it not possible to solve this question within a week or two? Why do you require two months to decide this question. I would earnestly request the Government on this occasion not to procrastinate this question. Procrastination is the thief of time and the enemy of good deeds.

"Sir, the other question which I wanted to discuss and of which I have given notice in my cut motion has already been referred to and very exhaustively dealt with by my hon. Friend

[20th August 1946] [H. S. Hussain Sahib Bahadur]

Begum Sultan Mir Amiruddin. She has pleaded that the portfolio of Public Information should be abolished and that the posts of Parliamentary Secretaries also should be abolished. If, for any reason, this Government finds itself unable to agree to this suggestion, I would ask that specific duties should be assigned to them immediately. In his reply to the General Discussion, the Hon. the Prime Minister told us that the Government were soon going to assign duties and responsibilities to Parliamentary Secretaries and inform this House. I hope and trust that he is going to do it on this occasion. If he is going to allot duties and responsibilities to Parliamentary Secretaries I suggest that they may be deputed to go to the districts along with the experts and look into the irrigation problems and the problem of growing more food. That would be a very good part of the work that they could do. They could bring firsthand information to the Ministers. When they have collected all this information, it would be the duty of the Minister in charge of Public Information to compile a report and prepare pamphlets and leaflets for broadcast to the public and to the Members of this House. Sir, I hope the Minister concerned and especially the Hon. the Premier will take up the consideration of this aspect of the question while fixing the duties and responsibilities of the Minister for Public Information and Parliamentary Secretaries. With these few words I support the cut motion."

* MR. T. JOHN MOSES WILSON:—"Mr. Speaker, Sir, I rise to support the cut motion. In doing so, I shall confine myself mainly to its constitutional aspect.

"The first thing I remind this House about is the choice and selection of the Leader of this House under the circumstances under which it took place; I mean the way in which the people of this province, through their accredited representatives in legislature, have made their own choice without listening to the superimposition from outside the Province. From a layman's point of view, even at this short distance of time, it may look a very insignificant event. But, from a constitutional point of view, it is an event of supreme importance which any party or any Government, that will come to power in any part of this country or even in other countries, will draw its inspiration from and every historian shall record as a landmark in the history of democratic Government in this country.

"In this connexion, I would make another observation. It would have been an act of statesmanship on the part of the Leader of this House if he had found in the Cabinet a place for Members of the Opposition belonging to the Muslim League especially. (A Voice: 'Also for the Independent Party'.) I do not plead for the Independent Party. To say in one breath that the Hindus and Muslims are one and the same belonging to the same nation, who can live and who are living together as brothers and sisters and in the same breath that the Congress cannot work in

[Mr. T. John Moses Wilson] [20th August 1946]

coalition with the Members of the Muslim League who are no more than representatives of those Muslims who, you say, are members of the same family, is an argument in which I see neither non-violence, nor truth nor even consistency (Hear, hear) from whatever high a quarter it may be advanced and whatever practical difficulties there may be in running a coalition Government. But, that apart, I plead for Coalition Ministry because it is a logical necessity, and the necessary corollary of separate electorates that not only the legislature but the executive should represent this separate element. I know, Sir, that separate electorates are considered an impediment and obstacle in the way of a democratic parliamentary system of Government of the type obtaining in England. And it is true that this has been apprehended and recognized by the framers of the Constitution under which we are now working. And that is the very reason why I urge for Coalition Government though it would be difficult for the parliamentary type of Government obtaining in England. Not that I am not conscious of the difficulties of the actual working of a Coalition Government, but because I am conscious and I am sure and confident that it would be a success at least in this province mainly for two reasons; first because the people in this Province, especially Muslims and Hindus live like almost brothers and sisters with a commonness which is lacking in the other provinces, and secondly the respect and the reverence and affection with which the Hon. the Premier is looked upon by all sections of the people of this province and especially as we see on the floor of this House by the Muslim League party in the Opposition. I am therefore confident that he would have been able to steer the Government of this Province as efficiently with component elements in it as he has been doing now without them.

1 p.m.

"I now raise the function and the constitutional position of the executive. I raise this point not without purpose. I raise this to discuss the question whether the recent orders that were passed by the executive were constitutional, whether it was proper for the Government to have passed the orders relating to the admission into the Engineering and Medical Colleges and also the order regarding instruction in schools in the regional languages without consultation with or even knowledge of the legislature. I do not bank upon the argument which has been put forward by eminent constitutionalists and which has been even put forward by Ramsay Muir that after all the executive is a creature of the Legislature, that it is responsible to it and therefore it is subordinate to it. I do not take that view. But I take it that the two organs of Government are interlocked and they would in fact aid each other. Sir, it is the function of the legislature to discuss and lay down the policy of the Government and determine the conduct of the administration in the matter of the execution of the rules of law that are made by the legislature. I do not draw a line and say to the executive, 'so far and no further'. It is the duty of the executive even to aid the legislature; for example, it proposes legislation and puts them before the House for passage

20th August 1946] [Mr. T. John Moses Wilson]

by the Legislature. What I now mean to say is that the executive cannot take away from the legislature its legitimate right of discussing the policy that is to be adopted in the execution of a particular thing. When it takes away, deprives the legislature and robs the legislature of, this right to at least discuss and lay down the policy and determine the spirit and the way in which they should execute, it is certainly acting in an unconstitutional manner. I don't say it is merely trespassing upon the powers of the legislature but I should say it is robbing it of its entire privilege. Sir, the legislature has got at once a right and a duty to discuss policy. It is a particular organ in democratic Government and it is a particular stage by which the democratic Government is run and to by-pass this organ or stage is to act undemocratically. The legislature owes a duty to the people at large in the Province and if they have not exercised that duty they shall have betrayed the interests of the people, consisting of various elements in the Province which the Members sitting here represent.

"Fourthly, I may just refer to the assurance that has been given recently by the Hon. Minister regarding Harijan uplift, namely, that the Government are intending to make untouchability an offence. I take it, in view of the principle of collective responsibility, that this is an assurance given by the particular Minister on behalf of the whole Government and I hope that the Government is intending to bring forth the necessary legislation. As soon as it was seen in the papers, people received the news with very much hope and they are looking forward to the translation of this assurance into an act. I would therefore request the Hon. Premier to let us know when he is going to bring forward the legislation before this House.

"Next, Sir, I refer to a point raised by an hon. Member on this side that the higher paid officials may be removed and the Parliamentary Secretaries, if they are given salaries, may be placed in the place of permanent secretaries. Sir, to the suggestion made by Mr. Venkateswarlu, I may say, there is absolutely no scope for any such interchange. Parliamentary Secretaries are people belonging to the party, who carry on the policy of the Government, whereas the permanent secretaries and the high officials in the Province stand entirely on a different footing. Whatever party may come into power, they have to be there and there cannot be any question of interchange between these two people.

"Then I want to say a word regarding proportional representation. The suggestion was made that proportional representation would solve and settle the differences between the Hindus and Muslims. I do not know if anybody who has made an intelligent study of proportional representation working in other countries would say that this would bring about communal harmony. This has been introduced in other countries because it would give a definite proportion of strength in legislature to every party in order to perpetuate that party. It was only for that

[Mr. T. John Moses Wilson] [20th August 1946]

that proportional representation was tried in other countries. Whether it may be advisable for other reasons is out of place here. But, that it would solve the differences between the Hindus and Muslims, passes my comprehension.

“With these words, Sir, I support the cut motion.”

SRI A. S. SAHAJANANDA:—“கனம் தலைவரவர்களே, நம்முடைய இந்த மாகாணத் தலைவர் தக்க மந்திரிகளைத் தேர்ந்தெடுத்தார்கள். ஒரு ஹரிஜனரை மந்திரியாகவும் தேர்ந்தெடுத்தார்கள். அதிலும் முக்கியமாக இந்த சபைக்கு ஒரு ஹரிஜனரை சபாநாயகராகவும் இரண்டு ஹரிஜனர்களுக்கு பார்லிமெண்டரி ஸெக்ரிடரி பதவி கொடுத்ததற்கும் கனம் முதன் மந்திரி அவர்களுக்கு வந்தனமளிக்கின்றேன். ஆனால் ஜனத் தொகைக்கேற்றவாறு மந்திரிசபையில் தமிழ் நாட்டிலே இன்னுமொரு ஹரிஜன் மந்திரியைக் கொடுத்திருந்தால் அதற்கு நாங்கள் ரொம்பவும் சந்தோஷப்பட்டிருப்போம். அது ஒன்றுதான் குறை. முக்கியமாக முன் இருந்த காங்கிரஸ் மந்திரி சபை பிரதம மந்திரியவர்கள் ஹரிஜனங்கள் சுமார் 11 பேர்களுக்கு டிப்டி கலெக்டர் வேலை கொடுத்திருக்கிறார். 4, 5 பேர்களுக்கு டிப்டி சூப்பிரின்டெண்டெண்டு உத்தியோகங்களும் கொடுத்தார்கள். இப்பொழுதுள்ள பிரதம மந்திரியார் முந்தி 11 ஸ்தானங்கள் ஹரிஜனங்களுக்குக் கொடுத்ததுபோல் இன்னும் சிலபேர்களை டிப்டி கலெக்டராகத் தேர்ந்தெடுக்கும்படி பிரதம மந்திரியைக்கேட்டுக்கொள்வதோடு சில ஹரிஜன் சீனியர் டிப்டி கலெக்டர்களுக்கு ஜில்லா கலெக்டர் பதவியளிக்க வேண்டுகிறேன்.

“மேலும் தற்போதுள்ள வகுப்புவாரி கொடுத்ததிலே, உத்தியோகமுறையானது 12 பேருக்கு இரண்டு பேராக இருக்கிறது. ஆனால் என்னுடைய கோரிக்கை தற்போது உத்தியோகத்திலுள்ளவரை வகுப்புவாரியாகக் கணக்கெடுத்து மற்றவர்களுக்குச் சமமான அந்தஸ்தை ஹரிஜனங்கள் பெறும்படி உத்தியோகம் கொடுக்கவேண்டும். தற்போதுள்ள அதிகாரிகளின் எண்ணிக்கையைக் கணக்கிட்டு குறைவை நிறைவாக்க ஹரிஜனங்களுக்கேற்ற உத்தியோகத்தைக் கொடுக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.

“மேலும் பப்ளிக் ஸர்வீஸ் கமிஷன் சபையில் பல வகுப்பினரும் இருக்கவேண்டும். முஸ்லீம்கள் மற்றெல்லா வகுப்பினரும் அதில் ஸ்தானம் பெற்றிருக்கிறார்கள். ஆனால் ஹரிஜனங்களுக்கு பப்ளிக் ஸர்வீஸ் கமிஷன் சபையில் ஒரு ஸ்தானம்கூட கொடுக்கவில்லை. ஒரு சமயம் கவர்னருடைய நியமனமென்று சொல்லலாம். ஆனால் பிரதம மந்திரியவர்கள் ஒரு ஹரிஜன் மெம்பரை நியமிக்கும்படி அவரிடம் கூறும்படிக்கேட்டுக்கொள்ளுகிறேன்.

“தற்போது ஹரிஜனப் பிள்ளைகள் நிறைய B.A., M.A., படித்தவர்கள் இருக்கிறார்கள். அவர்களுக்கு ஏற்ற உத்தியோகத்தை அந்தந்த ஜில்லாக்களில் கொடுக்கும்படி கேட்டுக்கொள்ளுகிறேன்.

“மேலும் ஹரிஜனங்களுடைய குறைகளை ஆராய்ச்சி செய்யும்படியாக இதற்கு முன் 1920-ம் ஆண்டில் சென்னை கவர்னர் லார்டு வெல்லிங்டன் ஒரு போர்டு மெம்பரை நியமித்து அவர்களுக்கு எந்தெந்த இடங்களிலே என்னென்ன குறைகளிருக்கிறதென்று ஆராய்ச்சி செய்து அக்குறைகளை நீக்க லேபர் டிபார்ட்மெண்டு ஏற்படுத்தினார்கள். அந்த லேபர் டிபார்ட்மெண்டு தமிழ் நாட்டிலே யாவராலும் தொடக்கூடாத ஜனங்களுக்காகத் தான் ஏற்படுத்தினார்கள். அதன் மூலமாக பள்ளிக்கூடங்களும் மற்றப்படியான சவுகரியங்களும் செய்து கொடுத்து வந்தார்கள். ஆனால் அப்பறம் கனம் பன்னீர்செல்வம் ஹோம்மெம்பராகவிருந்தபோது இந்த டிபார்ட்மெண்டு அவர் கையில் இருந்தது. அந்த சமயத்தில் லேபர் டிபார்ட்மெண்டு பணத்தில் கிருஸ்தவ ஹரிஜனங்களுக்கும் கொடுக்கும்படியாக ஏற்பாடு செய்தார். அது வரவர அதிகமாகி மூன்றில் ஒரு பங்கு அவர்களுக்குப் பேர்கும்படியான நிலைமை ஏற்பட்டிருக்கிறது. ஸர்க்கார் ஷெட்யூல் காஸ்ட் என்ற வார்த்தையை எடுத்துவிட்டு உதவிபெறத் தகுதியுள்ள வகுப்பு என்று அழைக்கின்றார்கள். அந்த முறையிலே எல்லா ஜில்லா

[20th August 1946] [Sri A. S. Sahajananda]

களிலும் ஒரு சமயம் ஹரிஜனங்களுக்கு ஏற்பட்ட அந்த சுதந்திரம் தடையுற்று பிற வகுப்பினர்க்கும் ஏற்றதாகி சங்கடமாக இருக்கிறது. ஆகையால் ஸர்க்கார் ஹரிஜனங்களென்று சொல்லக்கூடிய இந்த சமூகத்தின்பேரால் கிருஸ்தவர்கள் மற்ற சமூகத்தினர்களுக்கு உத்தியோகம் கொடுக்கக்கூடாது. கல்லி இலாகா போர்டிங் கிராண்டு சுமார் 8 லக்ஷம் ரூபாய் கொடுத்திருக்கிறார்கள். மற்றவர்களுக்கு அந்த 8 லட்சத்தில் கொடுக்கட்டும். ஹரிஜனங்களுக்காக ஏற்பட்டுள்ள லேபர் டிபார்ட்மெண்டில் ஹரிஜனங்களுக்கு உதவி செய்யவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.

“நாட்டில் வேலை நிறுத்தமும் பெரிய கிளர்ச்சியுமாக இருந்து கொண்டிருக்கிறது. எங்கு பார்த்தாலும் ஸர்க்கார் சிப்பந்திகளிடம்கூட Black-market இருக்கிறது. நமது காங்கிரஸ் மந்திரி சபையானது எவ்வளவோ பாடுபடுவருகிறது. இப்பொழுது பணமுடை அதிகமாக இருக்கிறது. கீழ்த்தர ஸர்க்கார் உத்தியோகஸ்தர்கள் அவர்கள் குறைகளைத் தெரிவிப்பதற்கான முறையிலே ஒரு பாட்டை அணிந்துகொண்டிருக்கிறார்கள். அவர்கள் சுமார் லட்சத்திற்குமேல் இருக்கிறார்கள். அவர்களுக்கு வேண்டிய மாதிரி உதவி செய்வதாயிருந்தால் நிலவருமானம் ஐந்து கோடியும் செலவழியும். ஆதலால் பணம் அதிகமாக வேண்டியதாயிருக்கிறது. அந்த சிப்பந்திகளுடைய சம்பளத்தைக் கூடியவரையில் உயர்த்தித்தான் தீர்வேண்டியதாயிருக்கிறது. எந்தவேலையையும் அவர்கள் மூலமாகத்தான் செய்யவேண்டியதாயிருக்கிறது. முக்கியமான ஒரு பேப்பர் இருக்கிறதென்றால் முதலில் மந்திரிக்கும் பிறகு அது ஸெக்ரிடரிக்குப் போகும். பிறகு சூப்பிரெண்டுக்கும் பின் கிளார்க்குக்குப் போகும். கிளார்க்கு கள்தான் எழுதி வைப்பார்கள். கிளார்க்குள் அளர்களுடைய கடமையைச் சரிவர நடத்துகின்றவர்கள். ஸர்க்கார் அவர்களுக்குப் போதிய உதவி செய்யவேண்டியது கடமையாக இருக்கிறது. ஒருவன் முதலிலே வேலையில் சேர்ந்த காலத்திலே ஸர்க்கார் ரூ. 30 கொடுக்கிறார்கள். பிறகு கலியாணம் செய்துகொண்ட பிறகு ஸர்க்கார் அதற்கேற்ற increment கொடுப்பதில்லை. ஏதோ ஒரு தொகைகொடுத்துவருகிறார்கள். ஒரு புருஷனும் மனைவியும் இரண்டு குழந்தைகளும் கொண்ட குடும்பம் ஜீவிக் வேண்டுமென்றால் ரூ. 89 ஆகிறதென்று கணக்குப் போட்டுள்ளார்கள். ஸர்க்கார் பஞ்சப்படி ரூ. 16 கொடுக்கிறார்கள். 1921-ல் நிர்ணயித்த சம்பள திட்டம் இதுவரைக்கும்மாற்றப்படாமல் அப்படியே இருக்கிறது. ஆனால் விலைவாசியோ 4, 5 மடங்கு அதிகரித்திருக்கிறது. அவர்களுக்குக் கொடுக்கப்படும் பஞ்சப்படி மிகக் குறைவு. 1944-ல் சம்பளக் கமிஷன் வைத்தார்கள். ஆனால் அவர்கள் கீழ்த்தர சிப்பந்திகள் சங்கத்தைக் கலவாமல் ரிப்போர்ட் செய்தார்கள். ஒரு குடும்பத்தை நடத்த ரூ. 89க்குக் குறையாமல் வேண்டுமென்று கணக்குப் போட்டார்கள். அதிலும் தேவையான சாமானை வாங்கமுடியாமலிருக்கும்போது ஸர்க்கார் பஞ்சப்படியோடு ரூ. 46 தான் கொடுக்கிறார்கள். மாதம் ரூ. 43-க்கு லஞ்சம் வாங்கவேண்டும் அல்லது அழிவு அடையவேண்டும். லஞ்சத்திற்குக் குறைந்த சம்பளமே காரணம். ஆகவே Black-market-க்கு இடமிருக்கிறது. Black-market ஐ ஒழிக்கவேண்டுமென்றால் கூடியவரையில் சிப்பந்திகளுக்கு உயர்ந்த சம்பளம் கொடுக்கத் தயாராயிருக்கவேண்டும். ஸர்க்கார் இந்த சிப்பந்திகளுடைய சம்பளத்தை உயர்த்துவது நியாயமென்று தெரிவித்துக்கொள்கிறேன். அதற்கு வரவு செலவு திட்டத்தில் பணம் காணாவிட்டால் கேஷம் நிதியிலிருந்து செலவிடலாம்.”

* Mr. W. J. FERNANDEZ:—“Mr. Speaker, Sir, I am afraid I have been somewhat anticipated by the hon. Members Begum Sultan Mir Amiruddin and Mr. Venkateswarlu in what I have to say on the question of retrenchment of establishments. Nevertheless the subject is of such importance in view of the possibility of a very great rise in the cost of administration of this country that I think it bears some repetition. The Government have hinted that they have under contemplation the question of an increase in the general sales tax, and are considering

[Mr. W. J. Fernandez] [20th August 1946]

proposals or the introduction of new taxes in order to compensate for the heavy loss of revenues consequent on their decision to introduce prohibition in eight districts of the Province from October next, and perhaps, throughout the whole province within the next two years. I should submit that in fairness to the people on whose shoulders the burden of the taxes is likely to fall, the Government should simultaneously consider the question of effecting a drastic retrenchment in the expenditure on the administrative machinery of this province which is very very costly. Opinion is fairly general that the administration is top-heavy. Commencing from the topmost rung of the official ladder, we find that whereas the Government was being carried on by four Advisers at a cost of about Rs. 2 lakhs a year, we now have thirteen Ministers with fourteen Parliamentary Secretaries draining the exchequer to the extent of nearly Rs. 4 lakhs a year. The necessity for this large increase in expenditure under this head is not apparent. I should imagine that it should be possible to reduce the number of Ministers from 13 to say 10. There are several capable Members in the Ministry who can, I feel, very well take on a few more subjects and thus pave the way for the proposed reduction in their number. I realise that the Hon. the Prime Minister has not had sufficient time to study his bearings in this respect. I hope however that with experience gained by the time he comes before the House next March with his Budget proposals, he will see his way to consider and possibly adopt the suggestion which will result in a reduction by 25 per cent of the expenditure under this head. Such a gesture on his part will, I am sure, be greatly appreciated.

"We next find that out of 9 Secretaries to Government no less than 7 of them are drawing salaries in excess of Rs. 2,000. Now, Sir, these salaries were fixed at a time when the appointments were mainly if not entirely filled by European Civilians who were fairly senior. The European Civilian is fast disappearing from the public service and there seems to be no conceivable reason why these high salaries should still prevail. In my opinion the maximum salary of the Secretaries should be fixed at Rs. 1,000. I trust that this question will also be considered by the Government.

"We next come to Under Secretaries and Deputy Secretaries all drawing between Rs. 1,000 and Rs. 2,000. I wonder again if it is necessary to pay these men such high salaries for their services. I now come to the most fruitful source of retrenchment and that is gazetted and non-gazetted members—who are drawing from Rs. 200. In this connection, I would suggest the desirability of Government carefully scrutinizing the necessity for the large establishments in each Government department and office in this presidency. Heads of departments have a knack of always asking for extra staff and holding out a veiled threat that if they do not get what they want they will not be responsible for inefficiency in their department. If this question is gone into carefully, the Government will find that there is surplus staff in almost every Government office in this province.

20th August 1946] [Mr. W. J. Fernandez]

"It is also necessary to effect retrenchment because quite a large number of people who have served in the war at great personal risk to themselves have come back to their homes only to find that they are jobless. I would go a step further than the hon. Member Begum Sultan Mir Amiruddin in suggesting that not only should all superannuated men be sent away but that Government should issue an order compulsorily retiring all officials who have put in 25 years service giving them full pensionary benefits of the service they have put in. This would I think release a large number of appointments which can be given to men who have rendered war service and have returned to their homes to find they have no work to do.

"Sir, I wish also to impress upon the Government the necessity for preserving the religion, culture and education and language of my community, the Anglo-Indian community. I am here at one with my Friends of the Muslim Group in asking that whatever changes you may make we have a right to our culture, our religion and our learning and language. We trust that Government will take the necessary steps to safeguard these rights.

"With regard to employment, the Communal Government Order gives the Anglo-Indians 1 in every 18 appointments. I have no figures before me but I think the general view is that the representation of Anglo-Indians in the services is not up to the standard. There are a good many Anglo-Indians who are qualified; I hope that their claims will be considered when vacancies are being filled.

"On the question of the salaries of teachers, my Friend Mr. Fowler pleaded for the teachers the other day during the general discussion. He is not here to plead their cause once again and I do it for him. I am glad that the Government are considering the question and I hope they will be able to give them adequate compensation which would make it possible for them to live a decent life.

"Lastly, I would ask that the claims of Anglo-Indians who have put in war service and who have been demobilized—quite a large number of them—will be considered in making appointments in the Police Department and the Excise Department. Recruitment in the past has been confined to ex-soldiers. I notice that applications have been called for from Anglo-Indians and I hope that suitable candidates who are not wanting will be taken into the department. With these remarks, Sir, I support the cut motion."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Mr. Speaker, Sir, I am glad that the Hon. Premier has gone out of the way on this most important demand to allow me to speak, because it is the only subject in which many . . ."

* MR. SPEAKER:—"The Hon. Premier has nothing to do in allowing the hon. Member to speak. It is the Chair that allows him to speak."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"I am glad, Sir, that I have been allowed by you to speak now on this important subject, since most of us were not here as we were busy

[Muhammad Abdul Salam Sahib Bahadur] [20th August 1946]

in taking part in the 'Direct Action Day' as expounded by the All-India Muslim League on the 16th August 1946.

"Again the question has been raised, Sir, by one or two European Members of this House whether the Muslims sitting here on these Benches belong to the same nation as Members sitting on the Front Benches opposite. It is a pity, Sir, that the Britisher, not only in this House but outside, is not able to understand the nationalities of this country. I have to tell him, Sir, and through him his community that we, the Muslims of this country, wherever we are, whether in a minority province or in a majority province—we all belong to one nation—a nation different from that of the Hon. the Premier.

"Again, Sir, I have to take this opportunity to say that we, the Members of the Opposition, are depending more on newspapers than on information given to us in this House by Hon. Ministers on any question of legislation, or on matters of State policy. Sir, it is in the newspapers that we see that Government is considering the possibility of holding elections for all the local boards; it is in the newspapers we have seen about the reservation of 20 per cent of seats in some colleges for merit. If information is received in this House, it is only after questions are raised that replies come forward and come forward very haltingly and very slowly and yet no full scope is given.

"Sir, as regards legislation, I may say that we have been accustomed to legislation of the past Congress Ministry. They used to go forward with them very speedily. We do not expect the same thing from this Ministry and I ask them to give us as much information as possible about the legislation that they want to bring forward in future. It was the practice in this House to give information to the Opposition just when the Premier was about to speak on very important matters, namely, about the food committees and the textile committees. Sir, the Hon. Premier should not proceed with any matter until all the Members of the House have got the information. It must be possible for them before they give out information or pass administrative orders, to consult leaders. The question of the reservation of 20 per cent of the seats for merit in the colleges has resulted in a community representing 3 per cent of the population monopolising the seats. Out of 69 seats reserved for the Engineering Colleges, 59 have been filled on the basis of that 'merit' and by 'Brahmins.' I know that the Congress Party is predominantly Non-Brahmin, but there is the question of discipline. Sir, this is a very important matter and some legislation must be brought forward to know the minds of the public and the House before anything can be done in regard to the communal Government Order.

"This aspect of communal representation is only the first attempt to undo what has been done in the past by previous Ministers and please take it from me that if the parties concerned are not consulted in future in regard to these matters and if they are not properly treated, they may resort to methods which are not constitutional.

20th August 1946] [Muhammad Abdul Salam Sahib Bahadur]

"Sir, whenever a question is put the Government say that they are coming forward with legislation. I say, Sir, that this side of the House may be given some information direct instead of giving it through the Press.

"As regards the questions that are answered here, Sir, I have to say that only a few questions are coming up for answer during question time every day. The other day there were only 3 questions and today there were only 4 questions. I hope that there would be more facilities for answering more questions.

"As regards short notice questions, I say this from personal experience, it appears that the Hon. Ministers have made it a point not to answer them at all. They have got the power not to waive notice and they have the choice either to answer or refuse to answer those questions. This means that very important questions can be answered only after a very long time. For instance, I have given notice of a question regarding the nomination to the Upper House which may not require much time to answer. But the Hon. Premier has not taken care to answer it at all. Yesterday the question of Parliamentary Secretaries was raised. The Secretaries have been paid and money has been spent but the Hon. Premier has not taken care to define their duties. Madras is famous for many things and Madras will become famous again due to Mr. T. Viswanadham, who is the Chief Parliamentary Secretary, but not responsible to any Minister. He is a Parliamentary Secretary all by himself. He is secretary to nobody. We have heard of Ministers without portfolio but here we have a Parliamentary Secretary without a Minister . . ."

* MR. SPEAKER:—"Will the hon. Member finish in a minute or two?"

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"I will require a few more minutes, Sir."

* MR. SPEAKER:—"The hon. Member may continue his speech after lunch."

(After lunch—2-30 p.m.)

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"I was saying, Sir, that there should be no red-tapism in the matter of answering questions. Apart from the delay in answering questions, the Ministers are pursuing a policy of boycotting all short notice questions. For instance, only yesterday I sent two questions which neither require any time nor enquiry to answer. One of them was regarding the direct action day, as to what precautions were taken by Government, whether directions were received from the Central Government; the other question was whether there was any direction received from the All-India Congress Committee regarding the reorganization of the work of a particular Minister of this Government. Both the questions have not been allowed, and they are going to be answered, we do not know when, probably after two or three months. Sir, it is only from these questions and answers that the province knows something about the activities of this Government: and instead of following what the bureaucracy has been

[Muhammad Abdul Salam Sahib Bahadur] [20th August 1946]

doing all these years, I expect popular Ministers not to take shelter under this or that rule but come forward with any explanation, if at all they have any, for their actions.

“Again, Sir, the one thing that has struck anybody who has seen the work of this Ministry is their attitude towards strikes. This Ministry does not seem to have any policy regarding strikes. They have not succeeded in the case of any strike; their policy seems to be barren in this matter. That is because the Members now on the Treasury Benches, when they were agitators themselves, were inciting people and showing great sympathy for the workers, but now they are not able to meet them. The Ministry is now reaping the fruits of what they have sown; leaders like Mr. Prakasam and Mr. Giri, when they were leaders of strikes, have sown the seeds, the fruits of which they are reaping now. They must realise these things have always been there and they have become normal now; and unless they change their very mentality, they will not be able to stop these strikes. But my opinion in this matter is that this Government's policy cannot settle strikes at all. Let the Minister say whether in one strike at least he has succeeded. In one particular case relating to the scavengers' strike in Andhra, they have moved after twenty days. They have sent a conciliator there after twenty days and they have also appointed a Board or a Cabinet Committee or Cabinet delegation—they have copied it from the Parliament—consisting of two or three Ministers to look after the matter. We do not know whether they are doing anything at all. Members of this House and the public are being deceived by their using big words.

“Again, Sir, they are doing so many administrative acts without informing this House or anybody. For example, the reservation of 20 per cent of seats, which has been very well discussed already. That is a matter on which I am sure the Government will have a defeat if opinion is taken on this matter in the country. I ask the Government to show us how they think the public wants this 20 per cent reservation. If there is a vote taken in their own party, of course by ballot, this reservation of 20 per cent will not be accepted, I know. By these actions alone and by the policy of the All-India Congress Committee, it has been proved that you have driven us to go to the policy of Pakistan and if you still persist in this Brahmin percentage, nobody need be surprised if there is a demand for Dravidistan and anything more. Simply because you have discipline, simply because you have votes, you should not pursue the present policy but must come forward with statistics for your administrative acts when you come forward with legislation on these matters before this House.

“Again, Sir, it is a well-known fact that the Ministries in the provinces are working directly under the direction of the Congress High Command. Very recently it appeared in the papers—this is an important matter—that Mr. Jawaharlal Nehru, no less than the President of the Congress, has written to the Premier that the work of the Ministry for Public Information should be so organized that the Congress ideology should be propagated very effectively. I do not know whether the Congress wants the finances of this province

20th August 1946] [Muhammad Abdul Salam Sahib Bahadur]

to be spent on spreading the ideologies of a particular political party. If it is not a fact, let him deny it . . .”

THE HON. SRI T. PRAKASAM:—“Hon. Members must take care to make sure of their facts before they go on haranging in the manner in which this hon. Member is attempting to do. It is not a fact, what he has stated.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“I am glad, Sir, it is not a fact; but I depend upon paper information; it appeared both in the *Hindu* and the *Express*. I am glad it is not true; but it appeared in the papers, Sir, and I depend upon the paper for information . . .”

THE HON. SRI T. PRAKASAM:—“Newspaper reports should not be taken as truth, and hon. Members should not plunge into criticism on the basis of such reports.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“Sir, one fine morning you see the Minister for Local Boards announcing that he is considering the postponement of elections for local boards and municipalities. Representations were made to him to postpone the elections—resolutions were passed by the district boards and municipalities to that effect—so that there may be a division of wards; but he said ‘No., these elections have not been held for the past eight years; now there should be elections’—that is what he said. But now he comes forward with an announcement that he is considering the postponement of these elections. The reason obviously is that the District Congress Committee elections have not been finished; in cases where elections have been finished, there have been petitions and re-elections and conciliators have been appointed by the High Command to go into these questions. So, because these Congress Committees which are to set up the candidates are not ready, you want to postpone the elections. What has the Minister to say to all this and why is the Minister who has already refused to dissolve these local bodies now coming forward with the statement that the elections are to be postponed? My reply to it is that your Congress Committees are not ready to set up candidates; they are not ready with the Parliamentary Boards for the districts and villages, and so you are thinking of postponing the elections. You had better say that you want adult franchise and until then these will be postponed; or you postpone it until the redivision of the wards has taken place; but do not postpone them for this flimsy reason because you will have to answer for it.

“Again, Sir, the Leader of the Opposition yesterday was giving facts and figures to show how certain particular communities have been neglected in the past. If the Ministry . . .”

THE HON. SRI T. PRAKASAM:—“I may inform the hon. Member that no such announcement was made by the Hon. the Minister for Local Administration.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—
“Again, Sir, it is said that no postponement is made . . .”

THE HON. SRI T. PRAKASAM:—“What the hon. Member spoke he must remember; he must not go on at a tangent leaving

[Hon. Sri T. Prakasam] [20th August 1946]

what he said, to itself. Sir, is the hon. Member right in cross-examining like this?"

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Sir, this is the only occasion when an hon. Member can find out what the Government are doing. In the absence of any information given in this House, I am asking the Minister concerned to give a specific answer to my question. It is not cross-examination. I want to know whether you are postponing the elections; if so, give us a proper reply and give us the reasons . . ."

THE HON. SRI T. PRAKASAM:—"Mr. Speaker, Sir, you must exercise some control over hon. Members who persist in repeating a statement even after it is denied. I stated definitely, after talking to my hon. Friend here that no such announcement was made. Is he justified in persisting in arguing on the same point presuming the same thing to be true?"

* MR. SPEAKER:—"Please do not repeat that thing. The answer has been given by the Minister concerned. Mr. Salam, you have already taken nearly 20 minutes. I will allow you one or two more minutes."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"I am the last speaker on this side, Sir; I may be given a few more minutes."

* MR. SPEAKER:—"No other speaker on your side is going to speak? Alright then."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Again Sir, let there be no misunderstanding when I say this about administrative orders. If at all any administrative orders are to be passed, the necessary legislation should come first and then only the administrative orders should be passed. Yesterday the Leader of the Opposition was able to show by facts and figures how particular communities have been treated in the matter of the services."

* MR. SPEAKER:—"Not only the Leader but other two gentlemen, Mr. Hameed Khan and another, have said about the inadequate representation of the Muslims, so please do not repeat it."

THE HON. SRI T. PRAKASAM:—"I want to say, Sir, that even the Leader of the Opposition, after reading the figures one after another, finally stated: 'These are the figures which I am placing before you, I cannot say anything about the truth of the figure'."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"In some respects."

THE HON. SRI T. PRAKASAM:—"Very good, Sir."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"I am not concerned as to how far the figures read out by the Leader of the Opposition are true; but if the Government differ from what he has said, let them come forward with their own figures as soon as possible. The figures, according to the Ministry, will come very soon and I am sure

[20th August 1946] [Muhammad Abdul Salam Sahib Bahadur]

when they come, they will also show that some of the minorities have not been properly treated. The Government may say they are not wholly responsible. But I ask, Sir, from what they have done in these three months—such as reserving seats in the Medical and Engineering Colleges—it is quite clear they want to stop the recruitment of those communities in the future also. If they now reserve seats in the colleges and afterwards say that no qualified persons are coming forward from these particular communities—that argument can be used by others in the future, as you and others have used in the past. Unless you give facilities to these communities even now, how can you have qualified persons in the future? This fact that you block our way into the professional colleges is going to be used by you for saying in future that no qualified persons are coming forward. I think you are responsible for all that has been done during these three months, and you cannot say again that you are not wholly responsible for the neglect of these communities. Again, Sir . . ."

* MR. SPEAKER:—"Be brief and finish your speech in a minute or two. You have already taken twenty minutes."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Again, Sir, we cannot accept the proposal of the member of the Communist Party that we should not accept separate electorates. We stand for separate electorates, we demand it; our demand is there and nothing short of it will be accepted to us . . ."

* MR. SPEAKER:—"I have already allowed you twenty minutes, you cannot take up all the time of the House. Mr. V. I. Muniswami Pillai will speak now."

* SRI V. I. MUNISWAMI PILLAI:—"Mr. Speaker, Sir, in the course of his speech yesterday, the Leader of the Opposition, and some others too, have referred to separate electorates. I do not object, Sir, to their referring to the communities to which they belong; but they took the opportunity to refer to the Scheduled Castes also. They said that great havoc has been done by the Scheduled Castes resorting to separate electorates. You know, Sir, and some members of this Honourable House know, that out of the 30 members that have been elected to this Assembly, practically all come under the Congress Party and they have all come under the Joint Electorate system."

"Sir, this system and the system of joint electorates were matters of great discussion in Poona in the year 1932 and in practice we have seen what this joint electorate has done. Sir, the Harijans had been suffering from social and economic backwardness for centuries together and they felt that by joint electorates and by co-operating and working in unison with the other communities in the land there will be salvation and I feel honestly, as a member who has been in this House from 1926, that my community, whether in the towns or in the urban areas, have felt the necessity for joint electorates and expressed so in unequivocal terms. (A voice from the Muslim group: 'Question.') That has been proved by the joint electorate, not only here in this province, Sir, but

[Sri V. I. Muniswami Pillai] [20th August 1946]

even in the other provinces where the members of my community have been returned in large numbers. It should certainly be an eye-opener not only to my Muslim friends, but also to those friends who have been advocating separate electorates for themselves. I have certainly no objection to any community asking for reservation of seats, but in regard to the mode of election I honestly feel that all communities who feel for the freedom of the country, must stand together and work together under the joint electorate system.

"Sir, one point I wish to bring to the notice of the Hon. the Prime Minister and that is in regard to the Public Service Commission. In all the demands that have been passed in this House, we have been agitating for the proper representation of the Harijans. If you take the statistics of the number of Harijans that are employed in the services under Government, you will find them only in the lower rungs of the ladder. What really happens is, the Public Service Commission have got a certain set of rigid rules according to which even if any slight mistake is made in the application of the Harijan candidates, these applications are merely thrown out. (Abdul Hameed Khan Sahib Bahadur: 'Has the joint electorate changed that?') I therefore request the Hon. the Prime Minister to see that some pressure is brought to bear on the Public Service Commission to give certain allowances for the Harijan candidates, so that more and more candidates from this community may get themselves equipped and qualified for service under Government.

"Another important point which I would like to urge on the Hon. the Prime Minister is this. Going through the Budget I find that the Harijan community has been included and classed under communities eligible for help. If you take the Act of 1919 and even later on, you will find that certain specific classes of untouchables have been mentioned as Depressed Classes and even the 1935 Act gives a clear definition about Scheduled Classes. But, I now find the expression 'Scheduled Caste' has been omitted and 'communities eligible for help' is inserted. I do not know what communities come under this category. So, Sir, I feel—not only myself, but all the members of the Harijan community feel alarmed and get nervous as to what is going to happen to them in the future in regard to this omission. Sir, though we form one-sixth of the population, we are afraid that what little facilities we are entitled to, will be taken away from us.

"There is another point which I would like to mention here. When the Poona Pact was enacted, one of the conditions laid down in it was that a specific amount must be ear-marked for the education of the Harijans, but I am sorry to note that only a very small amount has been provided in the Budget—so much for converts and so much for non-converts. I was told that out of the 300 scholarships set aside, 100 are ear-marked for Christians. I have no objection to either the Christians or the Muslims or any other community demanding special facilities from Government either for their education or for scholarships. But, what I ask is, that by taking away what is allotted for the Harijans by way of such little

[20th August 1946]. [Sri V. I. Muniswami Pillai]

facilities, they should not be deprived of such facilities and concessions which are already promised to them. Otherwise, you are going against the very Poona Pact itself, or what you will be giving us under joint electorates or even against what the High Command intended. If such deviations are made in the Budget, it will be a serious matter. I, therefore, request the Hon. the Premier to give us an assurance to the effect that whatever amount is ear-marked for the Harijans will not be used otherwise.

"Sir, coming to the Secretariat proper, I find there are a large number of men at the top; Secretaries, Joint Secretaries, Deputy Secretaries and so on. Of course, there may be justification for such appointments during the war period. Now that the war has ended, I request the Hon. the Prime Minister to go through the whole thing and see that all the posts which are surplus are wiped out. With these words, I support the demand, Sir."

* SRI S. NAGAPPA:—"Mr. Speaker, Sir, I rise to support the demand made by the Hon. the Prime Minister and in doing so, I wish to bring to the notice of the Government some of the important points that are to be considered by the Government and to see that those points are given effect to as early as possible. Now, Sir, as the whole House is aware, there is only one Harijan Minister and that Minister has been given a portfolio without any department of his own ('Hear, hear' from the Opposition benches.) I therefore request the Hon. the Prime Minister to increase the number of Harijan Ministers in the Cabinet, if necessary by increasing the total number of Ministers. Since we form about one-fifth of the population, we expect at least a minimum of three Ministers at the hands of the Congress Government. I hope Government will consider this aspect of the question and do justice to our community.

"Sir, you will see that there are many graduates hailing from the Harijan community but most of them have been rotting either as lower division clerks or as upper division clerks only in so many departments of Government. If only Government makes an effort to comb the whole province and collect a list of graduates of this community, they will find a large number of them available for service under Government. I request the Government to appoint such men directly to gazetted posts and this will go a long way in meeting a long-felt grievance of the community. Here, Sir, I would like to refer to the agitation of my friends, particularly my Muslim friends, for a greater share of representation in the services for the members of their community. What about us, Sir? According to the communal Government Order only one out of 12 seats is given to the members of my community. I request the Government to see that that communal Government Order is reasonably amended, so that we get least three places and for this purpose the total may be increased to 14, if necessary.

"There is another handicap under which our men suffer and that is the question of seniority which stands in the way of the Harijan community. Sir, you are well aware that most of the

[Sri S. Nagappa] [20th August 1946]

officers in Government service sit tight over the Harijan subordinates, ill-treat them, give them trouble of all sorts and even send them out as soon as they can. These are the things that are happening at present.

"I wish to bring to the notice of the Government another kind of suffering by the Harijans. Now, there are so many Harijan S.S.L.C. candidates, passed and unpassed. Of course, I do not see there is any difference between a passed candidate and a failed candidate. (Laughter from the Muslim group.) I request, Sir, that at least so far as the Harijans are concerned, these failed S.S.L.C. candidates may also be taken into account in regard to appointments.

"Sir, Government have been kind enough to entrust the work of Harijan uplift to the Harijan Minister, though he has no department of his own. I therefore request the Government to see that a separate department is created and placed under his charge. I suggest that it should also be possible for the Government to employ almost all the qualified Harijans; if possible at least one Harijan for every taluk should be appointed for looking after the interests of the community, because it is only they that can understand the grievances of the members of their community. In this way only they can redress the grievances of the Harijans.

"Sir, my hon. Friend, I think it was Mr. Salam, who wanted to know whether the elections in the local bodies are going to be postponed and whether it was going to be on the population basis. I do not know what is the policy that is going to be adopted in this matter. Sir, at present the representation of Harijans in the local bodies is very meagre. I urge on the Government to see that at least in the future, they take suitable steps to see that proper representation is given to the Harijans in the local bodies, district boards and municipalities, on the basis of population. I also request Government to see that a convention is set up by which Harijans are given posts as chairmen of the district boards, municipalities or even panchayats and that chairmanships are given to them by rotation at least once in four terms.

"Again, Sir, there is another grievance under which men of my community have been suffering. There are men serving in various departments but because they are failed S.S.L.C. men they do not get chances of promotion. There is also the other handicap, to which I have already referred, namely, the question of seniority which stands against their way of promotion to higher ranks. I therefore suggest that in future wherever there are vacancies, they should be reserved to Harijan candidates.

"I do not wish to go into the question of whether separate electorates or joint electorates are good. But, as a man with some experience in regard to this matter I can say that it is also the view of some of my friends who have hitherto been favouring separate electorates, that joint electorate is a good thing. When I asked some of my Christian friends, they told me that they would prefer joint electorates rather than separate electorates for them.

[Sri S. Nagappa] [20th August 1946]

But, what is required is there should be a different method of election. We must sit together, have a committee to go into the matter, consider the question and then come to the conclusion as to which community will have its say in electing its community man.

"In conclusion, I hope, Sir, that Government will give due consideration to all the points I have raised and will come forward and increase the number of Harijan Ministers within a very short time.

"One word more, Sir, and that is in regard to the representation of the Harijan community in the services. At present we have only one out of 12 seats, whereas the Central Government have already given 18½ per cent in services under them. I will therefore urge that, if not 20 per cent, this Government will see their way at least to set apart 18½ per cent for Harijans.

"I once again appeal to the Government to issue orders to see that the officers who have been bossing over the Harijan subordinates and ill-treating them and even dismissing them, are not allowed to do so in future, but should give every encouragement to them as far as possible.

"With these few words, Sir, I once again appeal to the Hon. the Prime Minister to increase the number of Harijan Ministers and entrust him with responsible portfolios so that he can look to the interests of the Harijans better."

THE HON. SRI T. PRAKASAM:—"Sir, I must think that all the hon. Members who have moved their cut motions have spoken on the Demand. Almost all standpoints from which they could attack this Demand had been covered by them. The main opposition has been from the Leader of the Opposition and the members of his party. The hon. Mr. Ismail stated at the very beginning of his comments that this Government was not justified in having formed this Government without giving due intimation to himself and his party and without consulting him and his party. Some other hon. Members also supported the same view. The Hon. the Leader of the Opposition himself admitted in the course of his speech that he could not move in all the matters himself because of the High Commands to whose directions we are subordinates. Before the formation of this Government, Sir, there were talks between myself and some of my friends on that side and some other friends also when the question was considered whether we could extend the invitation to the Leader of the Opposition and the other members of his party, even though there has been no settlement or agreement at the top between the Congress High Command and the League High Command. Because that agreement was not existing, we on this side were obliged to take the course which we took without consulting the Hon. the Leader of the Opposition and the members of his Party. Beyond that, there was no motive, there was no discourtesy intended to the hon. Members and the Leader of the Opposition. As a matter of fact, Sir, I had some discussion with some high personages as well in this connexion. There also we came to the conclusion that we

[Hon. Sri T. Prakasam] [20th August 1946]

would not be free, on this side, to move, especially when there was no agreement reached though discussions were going on. Above all, Sir, I may mention without disclosing any secrets, that I had a discussion with the Leaders of the Congress, and with the President of the Congress as well on this matter, if not exactly before establishing this Government, at least soon afterwards. The President expected—I have been also expecting—that there would be a settlement between the two sections, but for years together we have been going on like that and nobody can be sure of the results, that followed the discussions.

“I have known this Hindu-Muslim dispute, Sir, for over twenty-five years. From the beginning of this trouble, I have been in touch with the developments in different parts of the country. I have known how we had not been careful enough in the very beginning to prevent the spread of this difference between the two communities. Let me tell you and the hon. Members that the freedom movement, which is a new movement of Gandhiji, was based upon Hindu-Muslim unity. On the one side, the late Moulana Mohammad Ali and on the other, Moulana Shoukat Ali, these two brothers, were the persons who started this new movement in the past; it was based upon a new foundation and a new policy which had not been known for over thirty-five years in the history of the Congress. I do not hesitate to admit that it was this combination that laid the foundation of this movement (hear, hear) and the whole thing was started on that basis. But having regard to the time at our disposal, I should not go at any length about these matters but briefly I would refer to them. The first struggle was when the Prince of Wales arrived in India. The movement started and spread all over the country within twelve months and that was first non-violent fight in which Moulana Mohammad Ali, Moulana Showkat Ali and other Muslim leaders and various leaders of various communities went into jails under the Congress leadership. It was during the regime of Lord Reading whom I had known even as he was practising as an ordinary Rufus Isaacs in the English Courts. He was Viceroy in India at that time and he declared openly, ‘I am puzzled and perplexed. What is it that India wants?’ Then he started negotiations. Those negotiations failed. Since then, Sir, this country has been carrying on this fight. Moulana Mohammad Ali and Moulana Shoukat Ali made very great contribution at that time as my hon. Friends on the other side said, but later on, they did not agree; they differed and they wanted separate electorates. It is unfortunate that they had taken that line, having laid the foundation, and having started the country and put it on its legs, they felt compelled to go in the opposite direction.”

* ABDUL HAMEED KHAN SAHIB BAHADUR:—“Opposite to whom?”

THE HON. SRI T. PRAKASAM:—“Opposite to the decisions. They went also in the opposite direction because they could not get over the human weakness which prevails upon the higher nature even in the greatest of the human beings in this world at a most critical time.”

20th August 1946]

* ABDUL HAMEED KHAN SAHIB BAHADUR:—“Question.”

THE HON. SRI T. PRAKASAM:—“My hon. Friend says question. I will ask him only to look back into the history of this country of ours during the last twenty-five years. Because differences arose between the two leaders, no one leader would be entitled to cut away and go in the opposite direction and attack the very foundations of the house which he began to build. It is because of that weakness in us, it is because we have not been able to follow the Englishman whom we have been fighting and whom we have been criticising for over twenty-six years, more directly, it is because of that weakness in us that we have been in this struggle for such a long time; otherwise, we should not have been carrying on this fight until to-day. If only we had imbibed the characteristics of the Englishman, we would not have been in the present condition, divided as we are to-day. Englishmen fight among themselves, they fight to the finish, but when a fight comes with any other people, they join. That was shown by Mr. Churchill himself and by all the members of all parties in Britain during the last war, before the war and even after the war. It has been my desire, Sir, that we should, irrespective of the weakness of the Englishmen who have been ruling over us for such a long time, imbibe their virtues: if we had only copied them from the very beginning and strengthened our position, we would not have been in our present position, divided as we are, none on earth would have been able to resist us.

“Even though we have been divided, Sir, we have still been united. If one looks into that squarely, one will know that. In spite of the differences between the Muslim League and the Congress, the Muslims did not abandon the idea of freedom. They did not say that they did not want freedom for this country: but they adopted a particular method which was not helpful for immediate success; they saw that the Congress had gone a long way and that they were in the right path. If the country had adopted their method and policy, we would not have made any progress. Englishmen are men who would fight; they are men who would appreciate their opponents, develop their strength and would give a fight; they are not men who would respect those who are cowards and who flee from fight. If we also do not develop their quality, we would be in the same position in which we were for the past 25 years or even 200 years before this great movement was started. At that time only men and women were made to realize how they should carry on their fight, without hitting others, without killing others, without doing anything but suffering at the hands of others. There may be mistakes and exceptions on such occasions but in that way this whole thing has been carried on. Let us think so now about negotiations in the top.

“We were not there but that is how things must have ended there. Both sides must have gone through many difficulties: and they must have come to the decision that they cannot agree for the time. But still, I may say that the manner in which...”

3-15
p.m.

[Hon. Sri T. Prakasam] [20th August 1946]

fight was carried on was remarkable although I have not been in entire agreement with the programme of the Muslim League. They have been carrying on in their own way and they have been trying to establish a two-nation theory and they have been trying to establish Pakistan in this country of ours. In facts and figures, history and culture and other circumstances would warrant, nobody need question that there should be Pakistan. But if it is against facts and figures and ancestral traditions and institutions, Pakistan can have no justification for existence. (An hon. Member: 'Is it the personal opinion of the Premier?') Mr. Salam can never be tolerant. It is the Premier's opinion, it is my opinion and it is the opinion of the Government because it is the opinion of the masses of people of this country. I can stand a test and even face a Court of law if it becomes necessary to prove that facts are there, history is there, nobody can invent and create things which never existed and should not exist. I am trying to appeal just as you are trying to convince me, that though of different temperaments we have to try to understand one another and to work together as far as possible.

"When the question of joint electorates and separate electorates was discussed here, the most vehement protest came from my hon. Friend Mr. Hameed Khan—Mr. Hameed Khan an innocent child. (Laughter.) But he had to change and has changed. I was his canvasser in the last municipal elections which was on the basis of joint electorates and he was returned from a joint electorate on the Congress ticket and he became the President of the Corporation. Even now he stands on that ticket since no elections have been held. (Mr. Abdul Hameed Khan: 'I will be returned again without your help.') I did not say that my help was needed by my hon. Friend for all time. He was occupying a dubious position; he was returned to the Corporation through a joint electorate and for the Legislative Assembly, he was returned through a separate electorate. His membership was poised on two legs as it were one on a joint electorate and the other on a separate electorate. (Mr. B. Pocker: 'Now those anomalies do not exist.') We have to deal with anomalies and inconsistencies and for these I am not blaming Mr. Hameed Khan or anybody else. As men we become wiser and wiser and we are able to know which is an inconsistency and which is not. I thank my hon. Friend Mr. Muniswami Pillai for the way in which he presented the case for joint electorate with reference to Harijans. There was the preliminary election and there was the final election through the joint electorate and it is pleasing to see that the Harijans have been able to get along quite happily in the system of joint electorates.

"Coming to the differences between the Muslim and the Congress, there were differences and their differences could not be reconciled even when the fight was going on. But I am still hoping that a time will come when these differences between the League and others will disappear. Mr. Hameed Khan says it is not so soon to be. But I am confident and hopeful. These differences that have arisen out of political struggle with regard to

[20th August 1946] [Hon. Sri T. Prakasam]

offices and places are bound to disappear if not to-day, some time very soon and I am hopeful of seeing it myself. How can this continue? The question has been raised in place and out of place on every cut motion as to the number of posts set apart for the Muslim community and representations are made that the representation is not sufficient. (An hon. Member: 'That is a fact.') But for that fact, we must have to get back to old history. I wish to impress upon your minds and wish you to realize that when once the human mind has taken an obstinate course, be it on the Muslim League or the Congress side, it will not easily be deflected to the proper and better course. The dispute has arisen because of the distribution of offices resultant from the taking over of power from the Englishman who had been ruling this country all these years. Once again let me declare on the floor of this House that it is not offices that we want as these are bonds of servitude but freedom for the country. So far as this Province is concerned, let me trace the history of disputes on the question of offices. I have seen the origin of the Brahman-non-Brahman problem; I have seen its growth and I have seen how it has disappeared though there may still here and there be some lingering traces of it. Let me tell you something about the Brahman-non-Brahman movement. The Brahman, I must concede, was the first offender because it is he that led the van in the race for servitude; it was the Brahman that led the way to get into service both under the East India Company and latterly under the Government and created a glamour for service by the promotions that came in his way, from a clerkship to high posts like the High Court Judges and Executive Councillors. It is the Brahman that made a serious mistake in the beginning in having taken to servitude. Others naturally thought that the Brahman got it, and he must possess much power and in a like manner they should also have power and capture all power. All places of power, Corporation Council—Yes; Legislative Council—Yes, everything must be captured and by capturing these places it was thought they could get power. That was the idea behind the movement at the beginning. (Abdul Hameed Khan Sahib Bahadur: 'They wanted just a share.') I am explaining to my hon. Friend Mr. Hameed Khan that offices do not represent real power and it is real power which the masses of our people require and struggle for. What is wanted is real power; offices and the rest are mere shadows and people have been mistaking the shadows for the real things and before the Muslim League trouble started, things were like this, just the same as they are to-day. How long did it go on? For a short while only. Unfortunately in the beginning, in the legislative elections, there was a contest between some Brahmans and the stalwart leaders of the Non-Brahman movement and the Non-Brahman leaders were all defeated. That was the beginning of the whole trouble. They took the defeat to heart and said that these things must be put down. Mr. Town is smiling but let me tell him that I am giving expression to my experiences dating back to several years. The Non-Brahman leaders were my best friends. A commission visited us because a dispute was going on

[Hon. Sri T. Prakasam] [20th August 1946]

about the number of seats to be reserved to Brahmans. I had then a talk with Mr. Ramaswami Mudaliyar, who is now the Dewan of Mysore, and other leaders of that side as also with Mr. Kasturiranga Ayyangar, Mr. Ramachandrarao and others.

3-30 p.m. I told both Mr. Kasturiranga Ayyangar and Mr. Ramachandra Rao, 'This Commission is coming, we are going to give evidence; don't claim anything in the nature of opposition to Theagaraya Chetti's claim; he wants reservation. Tell him, let him have as many seats as he wants.' But they would not agree, even like hon. Members here. (Laughter.) My point is this: I am trying to concentrate on a scheme where the Non-Brahmans could not have to raise their voice against the so-called Brahmans, and say, we have been defeated by Brahmans, and so we must have a Non-Brahman Party. The whole province is Non-Brahman. As was pointed out, only three per cent are Brahmans, just as the Muslim friends to-day are only 7.9 per cent in South India.'

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Wrong figure."

THE HON. SRI T. PRAKASAM:—"If it is wrong, I will take the correct figure. So, Sir, at that time, I told Sir Ramaswami Mudaliyar and other friends, 'don't have this trouble; the country is Non-Brahman; they must vote for Non-Brahmans, if they have got any such feeling in the province.' But it was not needed. I was considered a very small man. That was the Meston Commission. The Non-Brahman Party claimed 28 seats reservation. It was contested, and finally they were allowed 28 seats reservation. I wrote against it in my paper, as I was then editor-in-charge. After that, the election came in. In the elections the Non-Brahmans gave up 28 per cent of their seats. That itself proved that the claim of reservation, or anything like that, should not exist. In that way, Sir, the whole thing came out. After some time, a few years later, this reservation was abandoned, and the Non-Brahmans stood on their own legs. I have known Non-Brahman leaders, Non-Brahman heroes and pandits in this province for a very long time. They were never behind on merit to Brahmans of highest repute. It was a pity, it was tragic that for the sake of a few jobs, they should have degenerated to this extent, and then one section should be saying that because a few seats were lost here or there, it is a business of merit. Merit must find a place everywhere. Merit there was among Non-Brahmans, merit there was among Muslims and merit there has been in all communities. But you say, merit should be abandoned, and you must have a communal Government Order which will give a certain proportion of posts to this community and that community. I am thinking of the broadest possible lines when there will be no communal Government Order at all. Let me declare once again, even as Prime Minister,—but that does not mean that I want to destroy it immediately, when so many are swearing by it (laughter). I am considering how this communal Government Order could be dealt with so that it might cease to exist. (Interruption by Sri S. Nagappa.) The hon.

20th August 1946] [Hon. Sri T. Prakasam]

Member, Mr. Nagappa, is a person whom I cannot reach sometimes (laughter). So he must excuse me."

* BEGUM SULTAN MIR AMIRUDDIN:—"Should not merit govern Legislature as well."

THE HON. SRI T. PRAKASAM:—"I never expected a question of that nature to come from that graceful lady. I have got such a high regard for her and for her husband; I am sorry a question of that nature should be put to me by her. There was a time when Muslims were appointed on merit and not on the basis of any recommendation, or caste or creed or any such thing. 'Legislature', the hon. Lady asks me, 'is there no question of merit here?' I may inform her, the members of this House have come in, in exercise of the franchise given to the electorate in the general election. Where is the question of merit here? Men of merit, affluence and wealth have been thrown aside in the elections. Those who secure the majority of votes get into the Legislature. The question of merit does not come in, unless the question of appointment comes in. However, let that remain there; I have got patience; I have survived communal differences, communal divisions, and I am still hoping that the difference between the Muslim League and the Congress would not remain for ever. It would disappear; and it ought to disappear. I would close this Brahman chapter by telling something about Brahmanism. Brahman was not born with a sacred thread on his shoulders, Brahman was not born as a member of a particular caste. There was no caste, Sir, in this country a long time back; there was only one caste, there was only one creed, there was only one religion that all the people observed in this land of ours. I am not talking from my own imagination or narrating stories handed down by orthodox gentlemen. I am saying this from history. The Brahmans and the other peoples as well did not belong to any caste. All the human population existing at that time divided itself into four societies, so that each one might take up one part of the duty for the protection of all human beings. Thus Brahmans' business came into existence and it has come into being from generation to generation. The term 'Brahman' as per the original text, means 'a person who is devoting himself to solve the question of God and preach that to other human beings.' That is the position of Brahmans. Brahman now is one who has earned an unfortunate position, which can be attacked by other friends, because of the servitude, which he has got upon his shoulders. I would advise every Brahman—they have already begun it—not to put himself into the unfortunate position into which their ancestors put themselves. This world is not getting through merely by office or employment secured by a few individuals under Government employ, or under companies or business concerns. Take the census, and you will find they are a drop in the ocean. They are doing their work and they are earning their livelihood. 'Brahman' means one who devotes himself, not by caste, not by any separate religion, to 'Para Brahman.' 'Para Brahman' is God, impersonal God, God who has no human body, no eyes, no ears, no nose, one pervading unit of energy all over

[Hon. Sri T. Prakasam] [20th August 1946]

the universe. That is the interpretation put by Sri Sankaracharya in his Bhashyam. God means energy, a power that spreads all over the earth, over animate and inanimate objects, a power that is found in all human beings; that is God. To understand that, it is not easy, and therefore it is that these people are asked to devote their time and preach to others about it. It is that unfortunate position that has brought them to their present position."

B. POCKER SAHIB BAHADUR:—"I want to know, Sir, how many Brahmans of the description, which you suggest, are there now?"

THE HON. SRI T. PRAKASAM:—"Because you have not been able to find that Brahman, you have been able to attack that Brahman now. That is the only reason; there is no other reason; and very few people can understand this. However, we are concerned here with politics and power. And I have tried to point out to you and through you to the people in the country that nothing should turn upon the question whether one is a Brahman or belongs to this caste or that caste."

3-15
p.m.

"Sir, I have been considering how to enforce the communal Government Order. I am trying to evolve a method or a formula under which what is laid down in the communal Government Order is applied to every one in this Presidency. After coming into office, and while I was functioning as Prime Minister, two boys ran up to me—not Brahman boys. One toddy tapper boy came from Cuddapah. He wanted admission in the Engineering College here. He did not succeed; I could not succeed. I did not interfere directly. I did not ask the Education Minister. I did not ask the Principal, who was asked to enforce certain rules. That boy could not get admission. He was running for that here and there. When the Education Secretary happened to be present in my room, this boy suddenly came up saying 'I have been disappointed once, twice and thrice.' Then the Education Secretary was good enough to suggest to him that he might run up to Cocanada because 5 or 6 seats were available there. The boy could not get a place there also, and ultimately, he wrote to me two days before that he had joined the Vizagapatam College. Similarly with regard to medical colleges nothing could be done. I am thinking if we can join together and do our best to solve this problem in what best way can we give education to every one who seeks education in the colleges or schools. We must regulate our people in such a manner that no young man is shut out from the Universities or from the colleges or from the schools. I am not a specialist in Education. I am thinking myself of calling an expert meeting, to solve our troubles, from outside this Province also. I am inviting leaders like Sir Radhakrishnan, twice Vice-Chancellor of the Benares University and Professor Radhakumud Mookerji of Bengal, ex-Vice-Chancellor of the Allahabad University, to come and help us by becoming members of a committee along with specialists of this Province. I hope, Sir, that we will arrive at some decision by which we can allow our young men to

20th August 1946] [Hon. Sri T. Prakasam]

get themselves admitted and get University education for what it is worth. I would even go to the length of saying that those who are anxious to learn and those who are prepared to go up, in their anxiety to rush in for offices, will be allowed to get in. For officers we may make a special provision. For services also we may make a similar provision. Let us not shut out the younger generation from higher education. All boys will be ensured their education. If we shut out our boys from education, then we are doing nothing, Sir, in this world, so far as the administration of this Province is concerned."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"May I rise on a point of information, Sir. The Premier has just now suggested the abolition of the communal Government Order."

THE HON. SRI T. PRAKASAM:—"No, not yet. I said I am just considering."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Will he consult this House before passing administrative orders on it?"

THE HON. SRI T. PRAKASAM:—"He is very anxious. Personally, I do not like the communal Government Order. My idea of nationalism is different from that dictated by the communal Government Order, and by others who are for the communal Government Order. This is my personal opinion. Mr. Salam should have a little patience to understand and talk."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Does the Hon. Premier know that in his Utopian theory he is in a minority of one?"

THE HON. SRI T. PRAKASAM:—"I am not in a minority. When the vote is taken in the country my hon. Friend will find himself in a minority. Hon. Members from the mufassal may approach their electorates on this."

"I know how public opinion has to be canvassed. I know how the public should be given an opportunity to understand which is right and which is wrong. As I told the hon. Member. Sir, at one time, if I have got full freedom for myself, I will see that the youths of all communities learn in one educational institution, and make them study all the four religions (hear, hear) that prevail in the country. Islamism, Hinduism, Christianity and Buddhism. In that way, I have been feeling that perhaps there will come a day when our generations will be able to understand that all the four religions are one, and they point to one God and point to one worship. All difficulties will then disappear."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"That is Islam."

THE HON. SRI T. PRAKASAM:—"Yes; Islam is that; Hinduism is that; Christianity is that; and Buddhism is that. Every other religion is that. There may be lack of opportunity of studying and understanding them in their proper spirit. Therefore, I appeal to hon. Members who have been talking and criticizing on the basis of caste and religion with regard to the

[Hon Sri T. Prakasam] [20th August 1946]

distribution of appointments not to be under that mistaken impression. I am a man who has travelled, to some extent, overseas also. I know the Hindu and Muslim traders in different parts of the overseas countries, and even in India for the matter of that, carry on their business like brothers. The other day I was at Vaniyambadi. Some of my friends went to a place where a man had been violently assaulted. He continued to remain in his place without going to the hospital even though he was bleeding. I went there and I told him 'You are a foolish man; why do you lie down here; you will get treatment in the hospital if you go.' That man said 'No I would rather die here', and then he added 'My Muslim brother died here, we have been brothers all along.' All these relations among them have been destroyed by political agitation on all sides. That is my personal submission. Therefore, I hope, Sir, that a day will come when all will understand the real import of this communal distribution of offices, when this communal Government Order will cease to exist, and when all will work together. I have known the years and the age in which Muslims and Hindus were like brothers. It is they who laid the foundation of freedom movement in this country, not to talk of Gandhian movement. Go to the earliest period, and you will find that Muslim leaders and other leaders started this Congress movement, and that has been going on very well. I appeal to hon. Members, therefore, not to waste our time on the distribution of offices and other things.

"The Hon. Leader of the Opposition, Mr. Ismail, gave some figures of the number of posts of officers held by Muslims in particular areas, and asked how they were not continued in later years. I was really wondering if the figures given by the hon. Member cannot be accurate and correct. He may ask 'how can you say your figures are correct.' It is because my position is different from the position of others. I have the Government office recording figures. It is in that way I can quote from the official records and show that the figures read out by the Hon. Leader of the Opposition are not correct.

"All-India Services relating to I.C.S. Officers: The total number is 186 out of which Muslims are 18.

"Indian Police service. Permanent posts 59 out of which 6 are Muslims.

"With regard to I.M.S. and other services; the numbers have been dwindling with the retirement or exit or otherwise of existing members. New ones are not forthcoming.

"Provincial and Subordinate services:—Here the percentage of the Muslim population given is 7.9. According to population basis for every 12 seats they will get 1."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"May I rise on a point of information, Sir. I understood the Hon. Premier to say that he was considering the question of abrogating or changing the communal Government Order. Has he actually changed the communal Government Order now? Is he applying

[20th August 1946] [M. Muhammad Ismail Sahib Bahadur]

the 7.9 per cent to the Muslims with reference to officers when the communal Government Order puts it at 16-2/3 per cent."

THE HON. SRI T. PRAKASAM:—"I am coming to that, if my hon. Friend will have a little patience. I have told hon. Members of this House that the question of cancelling the communal Government Order is not before the House, and is not proposed by me now. We are not discussing the cancellation of the communal Government Order, but we are applying the communal Government Order to find out how does the position stand with regard to Muslims as a whole. That is what I have been saying. The question of abolition of the communal Government Order is not before us now. Anyhow, no one need be under any misapprehension. I said, while applying the communal Government Order, one must apply it to be just to all people in the country. The communal Government Order should not be confined to a few people of higher classes even among those mentioned in that community. That must extend. I shall have it worked out. I shall place before hon. Members of this House one day how, when it is worked out literally, it will apply to all the sub-communities, sub-castes and all people. No one will be exempted from the distribution—scheduled classes or whatever you call. The distribution will be among all people who will be entitled to vote; I mean with regard to the merit which they have acquired by their own effort. In that way you may picture to yourself, Sir, how many communities and sub-communities there are, and how many educated young men there are. You must distribute among all the classes of people whatever offices come into existence. I am trying to work it out and place it before hon. Members of this House. Let us try to enforce that communal Government Order in favour of all those who will be named there and then we shall cancel this communal Government Order. I have mentioned the population, but some hon. Member contradicted me. I am willing to accept the figures that I have got from our office. 7.9 per cent is the proportion of Muslims in the population of South India. According to population basis, for every 12 seats, they will get 1 seat. But according to G.O. No. 3297, Public (Services), dated 15th November 1944, pages 59 to 61, they will get 2 out of every 12 seats, that is double that of population basis. The communal Government Order has been in force not for one year or two, but for nearly 16 years."

* SRI S. NAGAPPA:—"What about the Harijans?"

THE HON. SRI T. PRAKASAM:—"That you can have separately, when we come to Harijans.

"While on the population basis, the Mussalman friends will get 1 seat out of every 12 seats, on the basis of the Government Order they are getting 2 out of every 12 seats. This has been going on for sixteen years. If for any reasons Muslims are under-represented, it can be attributed only to lack of qualified and suitable candidates.

"The hon. Leader of the Opposition complained that for some years, the numbers had not been published in the registers."

[Hon. Sri T. Prakasam] [20th August 1946]

they had been published in the past. To-day, Sir, we have no information about the number of Muslims employed in the various provincial and subordinate services. Up to 1941, the numbers were published. Only to meet economy of paper, publication of the numbers had been discontinued. It would be revived as soon as the paper position improves. Figures regarding the proportion of the Muslim community in all the services mentioned above were available up to 1938. Since 1938, the statements are not available. For 1940-41, the statement was not prepared for want of paper. Since 1939, there had been no change in Government policy. There is no reason to believe that their number is less than what it was in 1937-38. That is the position with regard to numbers."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"On a point of information, Sir. In view of the fact that the Hon. Premier considers that, as no qualified persons are available, the number remains static, from what record has the Hon. Premier been able to get this information? If he can get that information, I dare say there must be some record of appointments made year after year on the communal basis according to the communal Government Order. From that record, he could have got the up-to-date figures."

THE HON. SRI T. PRAKASAM:—"This is the information from the accounts and registers maintained in the Secretariat. With regard to the basis of the figures, we will have to search here, there and everywhere, and it will take a long time. It has not been done now, and these things are expected to be revived as soon as the paper position improves."

"Since 1939, there had been no change in Government policy. Therefore there is no reason to believe that their number is less than what it was in 1938."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"My complaint was that even the figure as it existed in 1938 was unsatisfactory and that the same unsatisfactory condition continued up till now."

THE HON. SRI T. PRAKASAM:—"It is to controvert that position that this statement has been prepared and presented to the hon. Members of this House, Sir. Unless, you can state that you have taken account of this department or that department year after year and given the correct figures, it cannot be said that the statement prepared by the Secretariat is not correct."

"Some complaint was made about the appointment of superintendents. Out of 142 posts of superintendents in the Secretariat, 8 are Muslims. In 1944, there were 5 Muslim superintendents. Now in 1946, there are 12. 16-2/3 per cent are Muslim upper division clerks. That is the position so far as the accounts maintained in the Secretariat go. But the inference drawn by the hon. Leader of the Opposition was that in 1938 there was a particular number, that number has not been given in subsequent years, and that therefore it is not the same. In 1944, there were 5, to-day there are 12 superintendents. You can verify now whether the figures given by the Government are correct or not."

20th August 1946]

B. POCKER SAHIB BAHADUR:—"It was stated categorically that there was not a single Muslim Assistant Secretary in the whole Secretariat."

THE HON. SRI T. PRAKASAM:—"The hon. Member has some impatience. Having regard to the time, I have to be brief, but I do not wish to avoid any question or to make any wrong statement. So far as the superintendents and the other categories referred to by the hon. Members are concerned, the figures were given. Now we come to the question of a superintendent being promoted to an Assistant Secretary's place in the Secretariat. That will have to be dealt with separately and that will be given to the hon. Members."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"On a point of information, Sir. The Hon. Premier stated that there were 12 Muslim superintendents in 1946. May I know the total number of superintendents in that year?"

THE HON. SRI T. PRAKASAM:—"I will get the figures for the hon. Member, if not to-day, to-morrow or before the session is over. The figures made out by the hon. Leader of the Opposition are not correct."

"Then I will take up the point urged by the hon. Mr. Pocker. He said that the Food Committees were formed and asked to deal with the question of procurement and distribution."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"On a point of information, Sir. Before the Hon. Premier goes to the other subject, may I ask him, if my figures are not correct, what are the correct figures? For saying that my figures are not correct, he must have some basis. Will he furnish this basis?"

THE HON. SRI T. PRAKASAM:—"I have said, Sir, I am not going to take up so much time of the hon. Members of the House by reading the notes from the beginning to the end. I repeat it in the hope that the hon. Leader of the Opposition and those who think with him will be able to understand that the figures given by me from the long list will not be found in the Government books. That is one evidence to show that the figures given by the hon. Leader of the Opposition cannot be taken as authentic. He took them as they were given to him by some source. Let us examine further. If there are any mistakes, we shall discover them and correct those mistakes. Because there is evidence here which I can prove with some authority and certainty, I say that all these figures have to be taken as facts."

"I next come to the hon. Member Mr. Pocker. Mr. Pocker is a lawyer as much as I. Lawyers are a most dangerous people in the world. That is my firm conviction. But the lawyers in India and the British Courts of Justice in India, notwithstanding the advice given by the best of the Englishmen in those days, are having their own system. Let them continue. It was forced upon this country, and I am one of those products who made a lot of money. But that should not be the criterion for me to understand things and judge. I have to understand Mr. Town from the position which he now occupies."

[Hon. Sri T. Prakasam] [20th August 1946]

“ Now let me come to another point, Sir. Mr. Pocker said that the Food Committees were appointed, but that, so far as Malabar was concerned, the Government did not stick to the Food Committee business. Leaving off the Food Committees, the Government assigned the whole work of the Food Committees to the Kerala Provincial Congress Committee. I may tell the hon. Member straightway that it is not so. The hon. Member was not perhaps able to follow the answer given about the formation of Food Committees and how they should work. When we proposed that the Food Committees would be formed and that middlemen would be eliminated, the question came up for discussion on the floor of the House. The question had to be considered: what about the money required for these Food Committees. All of a sudden, you are forming these Food Committees. Wherefrom will the poor villagers get the money to go and purchase paddy? Where is the storehouse for them to store this paddy or any other grain? This point was raised at that time. It was in the light of the criticisms and the points raised that we were enabled to sit down and formulate the whole thing. From the beginning we said that there was no money for these Food Committees. If there are people who cannot find money, if they cannot carry on the business themselves, wherever there are co-operative societies, those co-operative societies would be requested to back them up and help them. That is all what is happening in Malabar. Malabar is a very big country where the man-power and all other energies are there, never mind whether they are Moplahs or whether they are Hindus or Pattars or any other community. This proposal came to us just when we were in serious trouble with regard to the formation of the Food Committees. We were thinking how best these co-operative societies could help these poor Food Committees consisting of poor villagers. At that time from Malabar alone, and not from any other district, a requisition came saying that they were willing to form co-operative societies for procurement and distribution and for everything. Only from the department, let me tell hon. Members, there was resistance. They asked ‘ Could these things come into existence? You have to collect so much money; Malabar is not the country where so much money will be forthcoming and where you can have trained men to undertake this task of co-operative work.’ This resistance came from our own department. Because I have known Malabar more than any one of the members of this department of ours as constituted to-day, because I know Malabar personally for over thirty years more than my own district, I told them straightway: ‘ Money will be forthcoming if only you go there. Man-power is available. Only we have to take them and train them as an emergency measure and put them on.’ All these things were said. They went there. Could anybody have imagined that they would have collected something like 30 lakhs of rupees within a short time? The co-operative bank existing there was not sufficiently strong to receive those moneys and keep them. Their capacity is only 4 or 5 lakhs. Therefore it was that they had to come to the Madras City and seek the help of the Madras Provincial Co-operative Bank which has got tons of money in its treasury.

20th August 1946] [Hon. Sri T. Prakasam]

Therefore there is nothing wrong done with regard to Food Committees, with regard to the formation of the co-operative organization. Malabar alone has to its credit that it could jump into the breach and say ‘ We will organize, we will secure money, we will function.’ We agreed with that proposal because we were in need of help. Just as any other big district like Trichinopoly or Tanjore, Malabar is a district by itself with such a vast population. It has become a very great success only now. I therefore appeal to hon. Mr. Pocker and other friends to have some patience. If anything wrong has been done in forming these co-operative societies, I shall go there and set matters right for the benefit of all. It is not for you or me or for any particular class. Our Government is only longing in other districts where the co-operative societies are not strong enough, to jump in and organize co-operative societies. It was the co-operative organization that made the old Denmark, the old Germany, that was responsible for the prosperity of Germany even after Germany became bankrupt in 1931 after the world economic distress. So whatever defects may be pointed out by hon. Members in the village committees or any other committees, they will be enquired into and set right.

“ Now, Sir, I come to the question of separate electorates. I spoke sufficiently on the efficacy of joint electorates. Whether joint electorates or even separate electorates or any other electorate we will not function properly unless our hearts are cleared up and all misunderstandings and bitterness are removed. Even among the same set of people, either lawyers or non-lawyers, Hindus or their rivals, whoever they are, elections are fought out on different lines. Nothing will be noticed by them except their own self-interest and securing some votes for themselves when the elections are fought out. Whether separate electorate is good or joint electorate is good, you are determined to remind us that separate electorate alone should function. We are convinced that joint electorate alone can bring the two communities together, and sooner or later bring about the required amity between them. We have to function not merely through these offices about which we are examining to-day either in the Secretariat or outside. We are concerned with the hon. Mr. Ismail and other hon. Members of all parties, with the country which consists of so many millions of people of all castes and communities. Trade, agriculture and other works, it is these things that maintain the nation, whether you call yourselves one nation or two nations or so many nations. It is for that purpose I am so pleased that the hon. Members of the Muslim League have been doing their best to make their contribution with regard to every demand, economic question or any other question, that comes up before the House. That itself is an assurance that we are on the right track, and that we may not be very long separate. (Abdul Hameed Khan Sahib Bahadur: ‘ Thanks to the separate electorates.’) Hon. Mr. Hameed Khan says ‘ Thanks to the separate electorates.’ We will discover one night that separate electorate was very bad and that it was a mistake on our part. We have separate electorate against our own will when we were adhering to the joint electorate. We can change from

[Hon. Sri T. Prakasam] [20th August 1946]

separate electorate to joint electorate, but that would take much time. (Abdul Hameed Khan Sahib Bahadur: 'Never, never.') Mr. Hameed Khan supported Mr. Pocker and Mr. Ismail and he referred to two nationalities. I do not want to join issue with him. That is a bigger question on which the battle has been fought and the battle is still being fought from the higher circle. But we can say—all of us know that to some extent or other according to our own experience and according to our own age and knowledge—that it is wrong to say that there are two nationalities, merely because Muslims are Muslims and the others are non-Muslims. Muslims are Muslims and they are anxious that their culture should be protected, that their religion should be protected, and that their all other interests should be protected. Any government is bound to protect not only the religion of Islam, but also the religion of all other communities. I have known how from out of this Hinduism religion after religion was turned out as time progressed, how Guru Nanak formed a community of his own and called it the Sikh community, as they say it to-day. Who was Guru Nanak? He was a member of the Hindu community. Read the books written by him. What induced Guru Nanak to get away from the Hindu community and establish the Sikh religion? I do not wish to go into the origin and the sources of these religions and then enter into a controversy with the hon. Members of Islam or any other community. Religion is religion and let it be there. If you have culture, don't think it is everything. But at the same time don't leave away others who have come out of the same original sources. From religion all of us have come into existence.

4-30 p.m. "We must live together, we must work together, we must trade together and do everything jointly and thus carry on our business in this world. Not only that, we must also help other people and carry them along with us. Therefore it is, Sir, I say that joint electorate is the best thing in this world. It is only by constant association that differences among people can be settled and it is only by joint electorate that different communities can be fused together. We have taken a long time to realise this fact and if we want to pull together, we must open our eyes at least now.

"Now, Sir, let me come to the Harijan Uplift Fund. Some hon. Members asked 'How are you going to spend the amount?'"

* SRI PILLALAMARRI VENKATESWARLU:—"May I know, Sir, . . ."

* MR. SPEAKER:—"The Hon. Premier is on his legs now. He will not give way."

THE HON. SRI T. PRAKASAM:—"There need not be any apprehensions in the minds of hon. Members that this Harijan Uplift Fund for which one crore of rupees has been set apart, would be diverted for any other purpose. That is to say, no amount out of this Fund will be utilized for any purpose other than the benefit of the Harijan community and for removing the differences that exist between Harijans and others. The amount will not be

[20th August 1946] [Hon. Sri T. Prakasam]

utilized for any other common purpose or for any other community. The huts they live in, the food they eat, the cloth they wear, all these things will have to be reformed in order to lift them up from the depths into which they have fallen, to the level of the other communities.

"My hon. Friend Mr. Nagappa was rather overzealous. He wants that there should be three Harijan Ministers in the Cabinet. He has no idea of what difficulties I had after appointing one Harijan Minister, how I had to satisfy the other communities and the claims of several regions of the Province and how as Prime Minister I had to receive friends and explain to them the exact position. Even now he has written to me a complaint against this Government that we have not given something straightaway to those scavengers in the City. Should we be told, Sir, what we should do for these poor sweepers and scavengers? Should not these people understand what we are, where we are and what are we struggling for? These poor people, these scavengers are made to walk long distances through streets in procession under the hot sun and are brought before us. The leaders who accompany these people come to us and ask us that something should be done immediately. When we explain to them that we are looking into the very matter and that we would do something as quickly as possible, they would not be convinced and ask for assurances."

* SRI PILLALAMARRI VENKATESWARLU:—"What is the assurance you have given, Sir?"

THE HON. SRI T. PRAKASAM:—"The assurance which these leaders want will never be given by this Government. We have known who is who. We have no complaint, Sir, against those poor sweepers who are made to suffer like this by their leaders. I have travelled the whole of South India and wherever there have been troubles, I have enquired into them and have seen them for myself. There have been no complaints by people anywhere. It is the leaders who are complaining. It is they that demand us 'Say something now and at once. Put your finger on the foot and give us something immediately.' That is the sort of demand that the leaders are making. That is the leadership we are dealing with."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"They are the Communists, Sir."

THE HON. SRI T. PRAKASAM:—"If this leadership is bent upon creating trouble to the Government, and if the Government cannot resist such leadership and make them understand their position, Government will not carry on; it will not exist even for a single second. ('Hear, hear.')

"One hon. Member from the Muslim Benches said 'You have given one crore of rupees to the Harijans and nothing to the Muslims. I had not expected this sort of complaint from the Muslims. I would not have hesitated to do something more, when I am dealing with those 4 crores of rupees. Why one crore only; I could have given the entire sum, for it is all their money.'"

[20th August 1946]

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"It is only Re. 0-2-8 per head, Sir."

* MUHAMMAD ISMAIL SAHIB BAHADUR:—"On a point of explanation, Sir, I do not think that any of my friends on this side of the House has made the remark in that spirit. We have already made it clear that we do not grudge the grant made for the uplift of Harijans. On the other hand we made it perfectly clear that the amount set apart for them is not sufficient." ('Hear, hear.')

THE HON. SRI T. PRAKASAM:—"The hon. the Leader of the Opposition did not say that but some other hon. Members did. There is no question of doing something for one and not doing something for another. It is the duty of this Government to do everything possible for every class and every section of the community in this Province."

* MR. SPEAKER:—"I shall now put the demand to the vote of the House, and then the Hon. Premier can make his statement regarding the Food Conference held at Delhi."

THE HON. SRI T. PRAKASAM:—"May I request the hon. the Mover of the cut motion to withdraw the same?"

* MUHAMMAD ISMAIL SAHIB BAHADUR:—"I am sorry, Sir, I am not able to withdraw my cut motion; it is an important question and the Hon. Premier's reply has not satisfied me."

The cut motion was put and lost.

Demand IX was put and carried and the Grant was made.

STATEMENT BY HON. THE PREMIER ON THE FOOD CONFERENCE
AT DELHI.

* MR. SPEAKER:—"The Hon. the Premier will now make a statement regarding the recent Food Conference at Delhi."

THE HON. SRI T. PRAKASAM:—"Although Providence has been kind enough to give us as much help as possible by way of rains in the different parts of the Province, including the Western districts and the Ceded districts of Cuddapah, Kurnool, Bellary and Anantapur, yet our food situation in this Province cannot be said to have improved in any real measure, because the time is not sufficient. The Additional Minister for Food, the Hon. Sri R. Raghava Menon, accompanied by the Chief Secretary and also the Food Secretary went to Delhi and placed the case of Madras before the Conference there. And although some of them saw the Viceroy himself personally and explained the whole situation to him, the reply they got from the Viceroy was only good words and nothing more. Therefore in the end the situation was allowed to drift for itself by the Government of India. That is the long and short of this matter. I shall now give in detail the whole position.

"The Food Conference held at Delhi on the 9th and 10th of this month was attended by the Hon. Minister for Food (Additional), the Chief Secretary to Government and the Food Secretary.

[20th August 1946] [Hon. Sri T. Prakasam]

The Conference was convened to survey the food position in the country and to consider whether there should be an overall reduction in the scale of rations. The position as regards Madras was explained to the Conference. It was pointed out that rice was the staple food of the Province and the rice portion of the ration was gradually reduced to 12 ounces in February, 10 ounces in May and 8 ounces from 4th August 1946. Though wheat and wheat products were included in the ration to make up an overall 12 ounces ration, the people in general are not able to make use of these additional foodgrains as they were unaccustomed to them and they were subsisting mainly on the 8 ounces portion of ration. This 8 ounces ration is utterly inadequate to sustain any person in normal health and any further reduction would only result in slow starvation and an outbreak of epidemics. The Madras Province had done all that was humanly possible by introducing universal procurement and rationing. She would require about 500,000 tons of rice more to carry her through till the next January when the main harvest would begin to be available. Since Madras had put forth the utmost efforts to help herself she should be given the bulk of the allotment of rice imported from overseas. The Conference resolved that the overall ration of 12 ounces was already inadequate and should not be further reduced. The Government of India were urged to redouble their efforts to secure additional supplies from overseas without which a breakdown on a wide scale could not be avoided. The Conference also adopted a resolution urging that every Province and State should adopt Government monopoly procurement of rice and wheat compulsorily where necessary.

"The Hon. Member for Food and Agriculture, Sir Robert Hutchings, and the Viceroy were also interviewed and the difficult position of Madras was explained to them. All help possible was promised. The net result of the Conference however is that except a hope that we might get further assistance when paddy from Java and Burma becomes available there is nothing tangible to say.

"Meantime I must mention that the assistance we have so far received has fallen far short of even the allotments made by the Government of India. From May to July, against an allotment of 55,656 tons the quantity actually received up to the end of July was only 34,718 tons. An allotment of 39,500 tons of overseas rice has been made for August. But so far only 13,900 tons have been received and there is a prospect of receiving only 2,000 tons more before the end of this month. These short arrivals have been due in part to the diversions by the Government of India of the originally allotted quota to this Province to other deficit areas. A strong protest is being made to the Government of India urging that the full allotments to Madras should be sent without fail. Every effort possible on our part has been and is being made. I may also mention that Mr. Dixon has been deputed to visit Burma to accelerate despatches and find out whether there is any truth in the information given to the Government of Madras that large

[Hon. Sri T. Prakasam] [20th August 1946]

stocks are available in the interior. We have promised 12,000 tons of groundnut oil to Burma as it was represented that Burma was short of edible oil as an inducement to export more rice.

4-45 P.m. "That is the position, Sir. I may add a few words here.

The Government of India and the Viceroy may not have known exactly how shipments that were arriving and that should have been sent to Madras were being diverted to Calcutta. I do not charge the Centre with knowledge of this happening. But when the Chief Secretary, the Additional Food Secretary and the Additional Food Minister, all three of them had gone there and explained to the Conference and also met the Viceroy and others separately and told them, is there any reason for their forgetting the critical position here? If people begin to die here in the same manner in which they died in Bengal on whose head would all that come? (A voice: 'Government of India.') The Government of India, and Lord Wavell who might be an innocent man after all. Therefore it is I wanted to place this before hon. Members of this House and make it known to Lord Wavell and others concerned in this respect, to make them understand that things would become very serious and that there is no good regretting when it is too late over the dead bodies of people who die of starvation here."

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—
"Mr. Speaker, I am much obliged to the Hon. the Premier for the very useful statement. In view of the grave situation likely to arise even from the present position, may I beg leave to suggest, in consultation with the Leader of the House, the Leader of the Opposition and the Leader of the European Group, that Demand XXXI may be advanced and discussed on Thursday, the 22nd instant so that the House may have an opportunity to express in no unmistakable terms the strong feelings in this country and in this House that the Government of India should not shirk their duty."

* MR. SPEAKER:—"Which Demand you suggest?"

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—
"Any Demand you consider proper and suitable."

DEMAND XXXI—MISCELLANEOUS.

* MR. SPEAKER:—"I wish to know from the Hon. the Premier whether we can take up Demand XXXI on Thursday."

THE HON. SRI T. PRAKASAM:—"In view of the grave food situation, I have no objection to taking up Demand XXXI on Thursday."

"I move—

'that Demand XXXI be taken on Thursday as the first item.'"

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"On this motion of the Hon. Premier, Sir, may I know whether there will be any specific resolution moved by the Hon. Premier or by the Leader of the Opposition? As far as I can see there is no specific resolution to be moved in connexion with the Demand under the

20th August 1946] [Abdul Hameed Khan Sahib Bahadur]

Head 'Famine' calling upon the Government of India to take any specific action. Demand XXXI is a 'Miscellaneous' Demand. There is no scope under that Demand for a resolution to be moved stating the entire case and telling the Government of India our position. Therefore I hope the Hon. the Premier will come forward with a resolution so that we can pass it unanimously."

* MR. SPEAKER:—"If it is the desire of the House, we can have a separate day allotted for adopting a resolution on the subject."

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—
"As far as this is concerned, we may not reach Demand XXXI at all before the expiry of the time allotted for the discussion of the Budget, i.e., 24th August. Therefore it is I suggested taking up that Demand on Thursday."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"A mere discussion in this House and sending a copy of the proceedings to the Government of India will not suffice in this case. We have to make a categorical demand and a statement of the case and make representation to the Government of India on the seriousness of the situation here."

* MR. SPEAKER:—"But the House cannot make a demand or pass a resolution during the Budget discussion."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"But if the Hon. the Premier agrees . . ."

* MR. SPEAKER:—"If the Hon. the Premier wants I can allot a day to move a motion."

THE HON. SRI T. PRAKASAM:—"I do not think there is any need for a separate resolution passed by this House on a subject of this magnitude condemning the conduct of the Government of India on this important question. I think that a debate itself would be sufficient. I shall consider the question whether any separate resolution can be introduced during the Budget debate."

The motion that on Thursday the House do take up Demand XXXI for consideration was then put and carried.

* MR. H. S. TOWN:—"Sir, would it be possible to have a copy of that statement for us to study?"

THE HON. SRI T. PRAKASAM:—"Certainly, Sir, copies will be made available."

DEMAND X—LEGISLATIVE BODIES.

* MR. SPEAKER:—"This is not an important Demand. If the leaders of parties would agree, the Demand could be discussed and passed in an hour, before we adjourn, to-day itself. If three Members from Muslim League party, one Member from the Independent Group and one Member from the European Group only would speak, the Hon. the Premier will reply briefly and the Demand could be finished to-day."

[20th August 1946]

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—"Sir, you may fix a shorter time for each Member. More than one Member from each group might desire to speak on this Demand. For my part I want to speak on the subject of the Speaker going to England."

* MR. SPEAKER:—"Then it will be impossible to finish this Demand in one hour."

* SRI R. V. SWAMINATHAN:—"Sir, this is an important Demand. Some of us want to participate in the discussion."

* MR. SPEAKER:—"I wish to know the views of the Leader of the Opposition on this matter."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I have no objection to have the Demand finished to-day, if possible."

* MR. SPEAKER:—"The Hon. the Premier may now move the Demand."

THE HON. SRI T. PRAKASAM:—"Sir, on the recommendation of His Excellency the Governor I move—

'that the Assembly do assent to a demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as together with the expenditure already incurred in April 1946, will amount to Rs. 9,39,700 in respect of the head Legislative Bodies. The expenditure incurred in April 1946 is believed to be Rs. 1,07,278.'"

B. POCKER SAHIB BAHADUR:—"Mr. Speaker, I move the cut motion standing in my name, namely—

'to reduce the allotment of Rs. 9,39,700 for Legislative Bodies by Rs. 100,'

with a view to invite the attention of the Hon. the Speaker and also the Government to two or three matters.

"The first matter to which I want to draw the attention of the Hon. the Speaker and of the Premier is that of accommodation of hon. Members of this House. I need not say much on this question because most of the Members feel the difficulty about accommodation. By accommodation I mean not only of this House but also outside for the residence of mufassal Members. So far as accommodation of this House is concerned, to put it very mildly, I feel I am in a prison room while I am compelled to sit here for discharging my duties. I do hope that further efforts will be made by the Hon. the Speaker and the Hon. the Premier and also the other Ministers to shift it to a more ventilated and spacious place.

"Now, coming to the question of residences, I must say that in spite of all the efforts made by the Hon. the Speaker and also the Government I do feel that Members who come from the mufassal are feeling the greatest difficulty in finding residence for themselves. I shall quote one case that happened recently. My hon. Friend Mr. K. Uppi Sahib, a Member of the Legislative Council, was residing in one of the hotels intended for the Members of the Legislature. I am sorry to say, having heard that he was

[20th August 1946] [B. Pocker Sahib Bahadur]

suffering from fever, I had occasion to go and see him. I found the place nothing but a dungeon and that it was responsible for the fever he had contracted. I had to take him away from that place at once to my house where he recovered soon and returned to his place in Malabar two days later. Most of the Members coming from the mufassal feel very great difficulty of accommodation and the sooner this problem is solved the better.

"Another point which I wish to mention, Sir, relates to the 5 p.m. convenience for the Muslim Members in this House and in the Upper House regarding their prayer room. It is well known, Sir, that it is compulsory for Muslims to pray five times in the day and two such prayers fall during the time when the House is in session. The Secretary and staff of the Legislature are doing their very best to accommodate us in this matter, but in spite of their efforts, I am sorry to say that the room that has been allotted to us as prayer room looks like a dungeon without any ventilation and it is not suitable for purposes of prayer. Of course the Secretary tried his very best to give us a better room for this, but it is found that it is not possible for him to find better accommodation. So, it is for the Government to find ways and means to provide us with a better room.

"Apart from the room, we require sufficient convenience for performing our ablutions which are preliminary to the prayers and sufficient arrangements have not been made. I hope that also will be made.

"The last point on which I would like to say a word is this. The demand includes the salary for the Members and also the salary for the staff of this Legislative Department. I must refer, Sir, to the indecent haste with which the salaries of Hon. Ministers have been trebled and that of the Members doubled. It is rather very painful for us, the Members of the Legislature—and I have no doubt that all the Members of the Legislature would share the feeling with me—to have doubled our salaries and left the staff to starve as they have been starving all along. No doubt we have been assured that a Committee has been appointed to consider the question of salary of non-gazetted officers. I must say, Sir, that there is no necessity to resort to this Committee at all. There is in the records of the Secretariat a report submitted by the Committee which was appointed by the Advisers' Government some two years ago and that Committee has gone into the whole matter. I do say that it is up to the Government to act according to that report immediately and give immediate relief to the staff of not only this Legislature but also all the officials of the other departments. It is cruel on the part of the Government to allow these poor-paid and ill-paid starved clerks and other members of the staff to continue to starve while we, the Members of the Legislature and Hon. Ministers have doubled and trebled our salaries. I am sure, neither the Hon. Ministers nor the Members would have felt it at all if their salaries were not increased, while these poor-paid staff do feel and they are groaning under heavy debts and they are practically verging on insolvency. I would, therefore,

[B. Pocker Sahib Bahadur] [20th August 1946]

request the Government to consider this question as a very urgent matter and give relief to them without waiting for the report of the Committee they have appointed but by giving effect to the report of the Committee that has already investigated the matter presided over by Sir Hugh Hood and later by Sir Norman Strathie. This is a thing which can be done immediately. If we are going to leave things to themselves, I am afraid, they may lead to further complications and greater difficulties."

* MR. H. S. TOWN:—"Mr. Speaker, Sir, I shall not be very long because I have only one or two points to put forward. Hon. Members of this House take considerable care in collecting their facts. At least, I hope they do. I try to check my facts before I make a speech in this House. Some 24 hours later I get a piece of paper, I read it and I wonder what on earth it is all about. I would like to suggest that Government overhaul the reporting in this Assembly."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Bad audition is responsible for it."

* MR. H. S. TOWN:—"Bad audition cannot produce some of the stuff that one gets, and particularly if one understands shorthand, one realizes that the quality of the high-speed abbreviations used by the reporters is considerably below the standard that should be attained. In the House of Commons, Sir, you make your speech and it is printed that night itself in the *Hansard* and is published to the public the following morning. We here, Sir, have to wait some three to six weeks to get the official report. Newspaper-reporting, the Hon. the Premier himself has told us to-day, is so inaccurate that when Members on the Opposition say they saw things in the Press, he says, 'Don't believe them.' Therefore, when I have to answer in this House, some remarks made by the Hon. the Premier the previous day, I have to rely on newspapers and I shall be told by him that they are all wrong. Therefore, Sir, I would like to see the speeding up of the printing of the reports of the debates in this House."

* BEGUM SULTAN MIR AMIRUDDIN:—"Mr. Speaker, Sir, the object of my cut motion on this demand is to suggest the desirability of printing and circulating written answers to starred questions. One of the reasons for my suggestion is that there would be saving of time, as according to the current procedure much of the time of the House is taken up in reading out the answers and statements. Another reason for my suggestion is that the Members would be enabled to know the correct answers to their questions, which they are not always able to do at present, because very often Members are unable to hear the Hon. the Ministers. Especially when a question contains a number of clauses, very often Members are not able to follow the answers that are given to the various clauses. Of course those who occupy the front benches are in an advantageous position, but those who are in distant seats have to strain their ears and even despite that, very often they are unable to hear. It is because of this that we

20th August 1946] [Begum Sultan Mir Amiruddin]

find that those who occupy the front benches are able to put more supplementary questions than others.

"The object of interpellations, Mr. Speaker, is to elicit information for the benefit of the public. Hence I suggest that every opportunity should be granted to members to elicit as much information as possible by enabling them to frame more supplementary questions, which they will be able to do if they have in their hands the written answers a little while before the meeting. Hon. Ministers need not be scared away by the thought that the Members will combine together and prepare a volley of supplementary questions to put to them. There need be no fear on that score, because the Hon. Ministers can always plead want of notice, as they are doing even now, if they are unable to answer a question. As far as I am able to see, the Hon. Ministers will not be handicapped in any manner, because even now, I understand, they prepare answers to the questions and keep them ready beforehand. Hence, they will not be inconvenienced.

"It may be pointed out that there will be some increase in printing work. I grant that it would, but that is a very minor consideration. As for increase in stationery, I am of opinion that there need not be much increase in this regard. If printing is done economically and not in the extravagant manner as at present, I do not think much stationery will be required for this purpose.

"In the old Legislative Council, I understand the procedure was to print and circulate the answers to starred questions about half an hour before the meeting began. I consider that to have been a sound procedure and I wish to suggest that that procedure be adopted in this House. It may be pointed out that such a procedure does not prevail in other Legislative bodies at present. But, I submit, Sir, that it is not necessary for us to follow and copy others in every respect. To follow others in regard to every matter will denote intellectual bankruptcy. After all why should not we in this Province give a lead in regard to certain matters to other Provinces? I, therefore, suggest that the old procedure be revived. There is an Arabic proverb which says:

ما كبر خدما صفاق ماکبر which means: 'Retain that which is good and reject that which is evil.' The old procedure of printing and circulating answers which was a sound procedure should have been retained and it should now be revived, as it would be more advantageous both to the Members of this House and to the Press.

"Another matter to which I wish to draw attention is the inconvenience experienced by the Press in this House. The fourth estate in the Realm, namely, the Reporters' Gallery whom Burke described to be more important than the other three estates, namely, the Lords Temporal, the Lords Spiritual and the Commons, I am afraid, is very much cramped here, with the result that the Press are exceedingly handicapped in the discharge of their duties. The Press, Mr. Speaker, require every consideration, having regard to the importance of the duties that they have to

[Begum Sultan Mir Amiruddin] [20th August 1946]

perform. In the words of Carlyle: 'The importance of the Press is not a figure of speech or a pithy saying, but a literal fact very momentous to us in these times.' I therefore wish to put in a plea on behalf of the Fourth Estate and I request that they be afforded more elbow room to carry on their work. I suggest that the gallery that is reserved for the officials be also given to the members of the Press, because usually I find this gallery either empty or occupied by one or two secretaries. The latter can be accommodated elsewhere. Further I find that the members of the Press have a very small room to themselves in which they are all cramped up. The numerous reporters with their numerous typewriters find it absolutely difficult to carry on their onerous and difficult duties. So I wish to suggest that a bigger and better room be given to the Press—the Fourth Estate of the Realm. I now support the cut motion."

* SRI A. B. SHETTY:—"Mr. Speaker, Sir, Members of this House are thankful to you for the opportunities given to participate in this Debate, not only to the Members of the Opposition, but also to the Members belonging to the Ministerial Party. If Members are to speak with knowledge and authority and do effective work in this Assembly they must have full and up-to-date information on the work of the different departments. The Administration Reports that are given to us become a year or more old at the time of the Budget Debate and therefore it will be very useful if some arrangement is made for posting Members with up-to-date information, because, we must know what has happened in the different departments since the publication of the reports and what is proposed to be done in the future."

"During the previous Congress Ministry at the time of the budget demands the Minister moving the demand often used to make a statement as to what was being done in the department and what was proposed to be done. Such an arrangement will be very helpful to the Members because they can speak with knowledge of what is taking place."

"I need hardly say that a well-stocked and well-arranged library is very useful to Members. The number of books in our library has increased to 25,000 volumes and the allotment given for the library has this time been doubled. While the library has grown in size there has been no corresponding increase in the staff of the library. We have a librarian here with only one attender to assist him. When Members go to the library it must be possible for the librarian to attend to them, to give them the books they need on the different subjects, to indicate to them the sources from which they could get information on the various matters that come up for debate before this House. It is very necessary that the librarian should have sufficient leisure to acquaint himself with the contents of books and help Members in getting the information they want. In the Secretariat Library next door they have a Librarian of the rank of a Superintendent with 3 clerks and 5 attenders to assist him while here in this Library, we have only one librarian and one attender. I therefore

20th August 1946]

[Sri A. B. Shetty]

suggest Sir, that it is very necessary that we should have at least one clerk to help the librarian in his work and relieve him of the ordinary routine work, so that he may be able to devote more attention to the Members who go there. We must also create a special post of librarian and give the librarian sufficient status. I believe the present librarian has been trained for his work and it is necessary that we should give him proper pay and also the needed assistance to enable him to help Members in their work."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Mr. Speaker, Sir, it has been accepted that the positions of the Hon. Speaker of this House and the Hon. the President of the Legislative Council are the same both in the matter of responsibility and dignity but we see a disparity in their salaries. While the Speaker gets Rs. 1,500 all told, the President is getting only Rs. 1,000. There is no need for this disparity and I hope that the President of the Council will hereafter get Rs. 1,500."

"Again, Sir, the duties of Parliamentary Secretaries have not been defined. One of the Parliamentary Secretaries though not attached to any Minister gets Rs. 850, whereas the Deputy Speaker and the Deputy President get only Rs. 300. Here is great disparity. If the posts of Parliamentary Secretaries are given to these Members because they could not get anything else, why not reduce their salaries or increase the salaries of the Deputy Speaker and the Deputy President who have their responsibility and dignity from Rs. 300 to anything like Rs. 700?"

"Again, Sir, I have to join Mr. Pocker in his complaint that the mufassal Members of the House experience many difficulties in finding accommodation in this City. No arrangement has been made by the Government even though something was promised long ago according to the papers, but we cannot depend on the papers according to the Premier. Sir, we saw in the papers that the Governor had offered the Government House estate of 100 acres on Mount Road for the Legislature, but even to-day we do not know whether it is true or not. We do not know whether the Government are using it for the Parliamentary Secretaries and the Ministers and whether the Members also will have accommodation there. I request the Government to provide accommodation for the members in the same compound if possible."

"Again Sir, I see in the papers that the Party meetings of the Ministerial Party are summoned there, then cancelled and then summoned. If it is true that the offer has been made by His Excellency and if it is true that the Government are going to use it, I trust, Sir, that accommodation may also be made available for the Members of this House."

"Sir, hon. Members find it very difficult to carry on their work for want of a typist or clerk to assist them. Notice of motions has to be given before certain hours, and notice of questions for instance has to be handed over to the Speaker before 3 o'clock every day. The same is the case with adjournment and other motions and we find it very difficult for want of clerks and

[Muhammad Abdul Salam Sahib Bahadur] [20th August 1946]

typists to type these things. I suggest that 2 or 3 clerks may be made available to each Party during the sessions. When there is no session they may be given work in the Secretariat.

"Sir, I have to state that we find it very difficult to take part in the Assembly as our rights and responsibilities have not been defined. We do not know our own privileges in this House; it depends upon various things, upon the whims and fancies of the various persons here. I suggest that an Act should be passed defining the rights, responsibilities and the privileges of the members and suitable rules framed under the Act. Unless our rights and privileges are defined, it is very difficult for us to play our parts in this House.

"Sir, if an adjournment has to be moved in this House 35 Members have to rise in support of the motion. But as we are constituted at present, it is not possible for us to get this number as it is well known that one Party alone can carry the day for some reason or other. Is it not therefore possible, Sir, for the rules to be amended so that the number of Members required to support an adjournment motion may be reduced? Adjournment motions are intended to raise very important and urgent matters and if it is not possible to bring them forward in this House it will not be possible to have those matters discussed. It is true that the hon. Minister concerned may agree to take up the adjournment motion but it all depends upon the sweet will and pleasure of the particular Minister. In view of the importance of adjournment motions, I suggest that the rules may be amended so that the support of only 15 or 20 Members might be enough for the motion to be taken up.

"We have seen at question time that there are some Ministers who are not giving the answers in the spirit in which the Hon. the Premier wants them to give the answers. This morning Mr. A. Kaleswara Rao asked the Minister for Education whether he would appoint two Directors of Public Instruction in view of the increase in the number of schools. The Hon. the Minister for Education replied that he was not prepared to consider the matter. He said he would never do it, never even consider the matter. In view of the fact that we Andhras want a separate Andhra Province, the Hon. the Minister has probably not cared to consider. At question time the only thing that we want is information. The Ministers may be considerate in giving their reply and not be so dogmatic. The Minister may have said for instance that the matter was not under consideration instead of having given his reply in such a dogmatic manner that it was not possible to ask further questions."

* SRI P. NATESAN :—"Mr. Speaker, the object of my motion is to discuss the desirability of the hon. Speaker visiting all the Legislatures in India and also the Houses of Parliament in England. I have also given notice of another motion to discuss the provision of amenities to the Members of the Legislature.

20th August 1946]

[Sri P. Natesan]

I do not want to take up much of the time of the House except to suggest to hon. Members the desirability of requesting the hon. Speaker to visit the various Legislatures in India and the Houses of Parliament in England. There are, Sir, precedents when Speakers were deputed by this Government. I remember the late Mr. L. D. Swamikannu Pillai, when he was Secretary to the Legislative Council, was so deputed. Then Mr. Raghava Varma, our Secretary, was also deputed to study Parliamentary procedure. As late as 1938 when we had the Congress Ministry the Government of Madras obtained a grant from the Legislature for deputing the then Speaker Mr. Sambamurti for a similar purpose. But somehow it failed and the gentleman never visited England. Sir, when we put you into that exalted Chair all of us joined in congratulating you and said that you would maintain the traditions of this House and create an atmosphere of goodwill. Hon. Members having seen you in the Chair for the past three months have nothing but admiration for you. You have been kind and courteous. You have given certain rulings, although not very important. You have been able to pull up Members of the House sometimes and you have been very liberal in giving extension of time as Members began speaking with a sort of vehemence in their own particular subjects."

* ABDUL HAMEED KHAN SAHIB BAHADUR :—"More time is guaranteed for you in future." (Laughter.)

* SRI P. NATESAN :—"If you go to Europe now you will find the dictatorship countries have all disappeared and new Parliaments are coming into being in all those defeated countries. In England itself, the great Labour party is in power; you will find how the Labour Ministry is tackling the minority members in the Parliament. I consider that your visit to England will be of very great use. You have the education, you have the pleasant manners to conduct yourself, and I have no doubt that if you go to the Parliamentary Houses and watch, staying there, the Speaker's behaviour and probably some of the rulings that might be given when you are there, it will be of great advantage to this institution. We are just going to have a Constituent Assembly; political conditions are changing here rapidly and it is possible that the Government of India will be entirely manned by Indians in about a few days' time. All these things, Sir, are very important reasons for your going to England, because on your return I expect you will be of very great use to this House. It is really a novelty, Sir, because all our elected members to-day are Indians. I therefore commend my suggestion to the unanimous acceptance of this House.

"Next, Sir, as regards the provision of amenities to the Members of the Legislature, I want to know from the Government if they have decided about moving the Legislature from this place. There was a talk that the Banqueting Hall was to be taken over and the Minister for Public Works and the Chief Engineer were there to have a look at the buildings and see whether they could be converted for the use of the Legislature.

5-30
p.m.

[Sri P. Natesan] [20th August 1946]

I for one won't like to leave the Fort because there is a history about this place; if, for some reason or other, it is not possible to shift the Legislature, I would like this place to be air-conditioned. It is really hot in the hot days with the fans moving and the House crowded. It is for the experts to say whether this can be remodelled or air-conditioned. Sir, it is not possible to get a cup of good tea, nor a tumbler of cold water, except the water that you get in the Secretariat which passes through half a dozen tumblers before it reaches you. I want you to modernize this House, if possible. We should have a lounge where we can rest for a time. I believe the present Legislative Council hall used to be used as a lounge in the former days, and beyond that hall there used to be a place for catering. I want to know if the Premier cannot make it possible for us to get better tea and better drinks and better comforts—by better drinks I mean cold drinks. (Laughter.) Probably some of my friends would like to have a cold beer on a hot day. (Laughter.) The Speaker and the Premier are not going to object if friends are going to have a cold beer. (Laughter.)

“Sir, I wish to say a few words about the duties of the Parliamentary Secretaries. We have no idea yet as to what their duties are going to be. The Hon. the Premier told us that he would acquaint the House with what their duties were going to be. I now find it is three months since they took up their work, they are being paid Rs. 750 per month without absolutely any work to do. I wish, Sir, they are given some responsible work. I want Rs. 750 worth of work to be turned out by them. I am not grumbling against the salary, but I grumble against want of work. I am sure the Parliamentary Secretaries themselves would like to have something to attend to when they get to office, by way of work. They must be given some responsible work by the Ministers; I do not want them to be a sort of glorified head clerks, let them at least do parliamentary work, by which I mean the drafting of bills, the answering of questions, interviewing the M.L.As. who may have some difficulty in reaching the Premier or the other Ministers sometimes, or things like that.

“In this connexion, I would also like to suggest a small thing in regard to the Deputy Speaker of this Assembly. I am afraid the salary of Rs. 300 that has been fixed for her is not commensurate with the status she occupies. We are not going to pay for real work in this case; it is for the responsibility that we pay. When the Speaker gets Rs. 1,500, I think she must get at least Rs. 750 per month so that we may keep her on a par with the Parliamentary Secretaries at least. Sir, the Deputy Speaker's job is really an onerous job. If for some reason or other the Speaker is not in a position to attend the Legislature for a few days, it will be a difficult job for the Deputy Speaker without any experience of the people in the Opposition rising up now and again asking for rulings, particularly at times when the Speaker is away for a long interval. I trust therefore it will be possible for the Leader of the House to provide a higher salary in the case

20th August 1946] [Sri P. Natesan]

of the Deputy Speaker and to see what best can be done to provide work for Parliamentary Secretaries.”

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—
“Sir, this is the occasion for us to speak about our rights and privileges. I have no grievance so far after this Assembly met, to say that any of our rights have been denied. If I rise to speak on this occasion, it is more to speak about certain conveniences which hon. Members would like to have and to make some suggestions in the way of improvement.

“Sir, it was very refreshing to hear my hon. Friend Mr. P. Natesan who gave notice of cut motion, to bring to the notice of the House the desirability of requesting the Government to depute our popular Speaker to go to England. By using one word ‘popular’ I endorse what all my hon. Friend Mr. Natesan spoke for the way in which you have conducted the proceedings of the House in the last two or three months. Sir, rightly or wrongly, whether due to imperialism or whether due to our own emulation of the British system of Parliament, we Indians have adopted this system of Legislature; and more than the Britisher, I think, we are getting more and more accustomed to this kind of Legislature. I do not think the Indian politician will ever give up this kind of Parliamentary debate and this kind of Parliamentary House for all time to come. The Britishers might leave this country, but no matter whatever the differences may be between the communities for some time—I am sure, all communities and all parties will insist on continuing legislative work on the lines we are having, probably only making improvements from time to time. Parliamentary life has come to stay in our country; that being so and ourselves modelling upon the Mother of Parliaments in England, it is but right that we should keep in line with the various changes that are taking place in the Houses of Parliament in England. And the only person who can represent this House is your Honourable self, Sir. So, if you study the working of the Houses of Parliament, it will be a great advantage to all of us. More than being advantageous to you personally, on your return, we will have the great benefit of your advice on parliamentary work. It was only the other day we were glad to hear you saying that you intended publishing periodically a pamphlet containing important rulings and standing orders in Parliament and I do hope you will be including in that pamphlet certain points of order and the rulings in cases similar to the one which you gave the other day, i.e., the point of order raised regarding Mr. Pocker's mannerisms in this House. Sir, the House of Parliament in England has got a great tradition behind it going back to hundreds of years and it will always be worth while for the Speaker of this House to visit Parliament and come back to guide us.

“Sir, I shall not take up more time of the House except to say that we want more convenience, especially when we have got to be here for the whole day, if it is for a few days, it might be easy, but if it is to be for 15 or 20 days in the month, it is very difficult to be here all along. We want conveniences here while

[Kumararaja Sir Muthiah Chettiar] [20th August 1946]

we are here; we want a place here for getting cool soda. Ordinarily at 4-30 I would like to have a cup of tea; sometimes I come here in the afternoon after I take a cup of tea and there is no good tea available here by that time.

"Sir, I should be failing in my duty if I do not refer to the Legislative buildings proposal. I was glad you and the Premier took some interest and visited the other day the Government House estate. It is a matter of great satisfaction that the head of the Province has been generous enough to offer the estate to the Ministry for such use as they may put it to. I have no doubt with your enthusiasm and with the keen interest which the Hon. the Premier is taking in the matter, you will evolve a good scheme for the improvement of the estate with the construction of nice and new buildings. I won't take up more time of the House in this connexion, for, I believe, it is time for you and the Premier to consult Members of the Legislature in an informal or formal way or by appointing a committee for suggesting improvements that may be necessary. Suffice it to say that the building that should be built for housing the Legislature should be an imposing and dignified one, which should stand for hundreds of years, which should go on adding traditions to it. I cannot say whether two Houses are necessary, probably the Constituent Assembly may say the new Provincial Legislatures of India may contain only one and not two chambers, or they may say two; for myself, I am very sceptical of the usefulness of the two Chambers. I am not sure whether the Ministers themselves who have to carry on their work to-day will say that two chambers are necessary or whether the second will be unnecessary addition and can be avoided.

"I find, Sir, some Members have stated that Members' hostels should be there; when the new buildings are built up, I have no doubt that one of the buildings to be built will be a nice Members' hostel which will be a place well worth staying in.

"Sir, it is very refreshing to find one of the Members referring to the inadequacy of the pay of the Deputy Speaker of the House. It is very interesting because probably the holder of the office is a lady but otherwise also, I think, we should consider the question of raising the salary, whether it is a lady or a gentleman that occupies the post of Deputy Speaker. When reference was made to the Deputy Speaker, a large number of members here sympathized with the suggestion; and, therefore, I am voicing the views of several Members here when I say that the salary and the status of the Deputy Speaker should be put on a higher level.

"There is one other important privilege of hon. Members of this House which I would like to draw attention to on this occasion. We are accustomed in this House, I cannot say by way of right but by way of tradition and custom, to have advisory committees appointed to various nation-building departments. In the past, the several groups of members in the Legislature were associated with the Ministry by way of these Advisory

20th August 1946] [Kumararaja Sir Muthiah Chettiar]

Committees—please mark the word 'Advisory'. It is not for all departments, it is only for certain departments that we used to have them. I shall not give details, I may be wrong in naming, but, I think, I may be right if I say about two or three of such committees used to be there, on Education, Public Health and Medicine and one or two other subjects. I would like to leave it to the Hon. the Premier to consider what steps he would like to take to associate the Members of this House in an advisory capacity, with the administration, by constituting advisory committees."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Mr. 5-45
Speaker, Sir, I will not take much of the time of the House, p.m.
except to state a few things which appear to me to be very necessary in order to suit the convenience of the Members of this august body. Reference was made to the Assembly hall. This hall is certainly too small for accommodating a large number of Members and as such we require a hall at least three times the size of the present hall for accommodating all the Members conveniently. The acoustics of this hall are very bad indeed, even though you have provided mikes. But I think some of the mikes are too short and some are too tall, probably they too are not tall enough for tall gentlemen like Mr. Town. He has made a complaint that the reports of his speeches are not satisfactory; perhaps it was due to the fact that he was not able to reach the mike and so was not audible. It was probably because of this difficulty that some of the reporters also are not able to catch him.

"Then, Sir, the Assembly hall is not also situated in a central place and the Government House estate in Mount Road will certainly be a very central place, because that is in the centre of the City. But the Banqueting Hall there as at present will not be suitable and it will not also accommodate all the Members, because the pillars there will come in the way. So, I do not think it will be a satisfactory arrangement to hold the meetings, unless it is suitably altered. What has to be done is, we must here and now allot money for constructing a beautiful hall sufficiently large to accommodate this House and also another hall for accommodating the Legislative Council. As I have already pointed out, the acoustics of this hall are very bad.

"Sir, accommodation for the residence of the mufassal Members should also be found in the same Mount Road Government House estate. At present, the mufassal Members are experiencing great hardship in view of the fact that there are not a sufficient number of hotels in the city which can accommodate all the Members with ease and comfort. As a matter of fact, the hotels are costly and the hon. Members are not given as much money as it is necessary in order that they can go and stay in rich hotels. For instance, the Connemara hotel charge about Rs. 20 per day; the Bosotto also charge as much and the Woodlands do not charge any the less. For any member to live a decent life and remain in the City of Madras and for engaging

[Abdul Hameed Khan Sahib Bahadur] [20th August 1946]

a taxi for the purpose of attending meetings, it will certainly cost at least Rs. 30 per day. It would therefore be very much more convenient and economic for the members coming from the mufassal if they reside very close to the Assembly hall and in a central place. I therefore suggest that along with accommodation for the Members, they must also have a sufficiently large hall with all the appurtenances for being used as a lounge room and other necessary accommodation should also be built for the convenience of hon. Members coming from the mufassal.

"Then, Sir, we are thankful for the efficient manner in which not only the superior staff of the Legislature office, but also all the other members of the staff down to the peons are helpful to the members of this House, but their salaries, particularly the salaries of the clerks and peons are certainly not satisfactory. I believe, Sir, in other provinces, they are given allowances throughout the period of the sessions. I, therefore, suggest that at any rate, the poorly paid clerks and peons should be paid separate allowances on days when the legislature meets. If such additional allowances are paid to them, I think it will go a long way to meet their demands. As a matter of fact, they have to stay very late in the evenings, come very early in the mornings; for instance, some persons and clerks come at 9 o'clock in the morning and stay on till the House goes on according to the work on hand—sometimes we go on till 6 or 7 p.m. I must say here, Sir, we are lucky we have not got a Speaker who will make us sit till 10-30 or even 12 at night as we were used to in the past; thus making the peons and clerks stay on till late in the night and when they return home after that, what do they find? Their food gets cooled and the children in the house have gone to sleep."

* MR. SPEAKER:—"If the progress is going to be like this, I am afraid, we will have to sit here till 10 o'clock also in the end."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"I know, Sir, you will say so, but I am sure you won't do it. We are all here to co-operate with you in trying to expedite the business of the House."

"I said, Sir, about the mike and with regard to answers to supplementary questions, the hon. the Lady member has made sufficient reference. With regard to the press, Sir, I think, I agree entirely with what the Begum Saheb has said. I think they are people who are very hard put in regard to the accommodation provided for them—they are all huddled up—and are experiencing great difficulty in discharging their duties satisfactorily. Even as things stand at present, I think something must be done in order to see that they are given some better facilities."

"Then, Sir, with regard to the various buffets that we have, I must say a word. We have one for vegetarian and another for non-vegetarian food. Well, Sir, so far as the non-vegetarian buffet is concerned, it is wrongly believed that it is only intended

20th August 1946] [Abdul Hameed Khan Sahib Bahadur]

for Mussalmans, but I find it is open to all classes; it is an international buffet, because I find every member of every community goes there. I do not know the reason for it; perhaps Pulav is such an international and palatable dish that hardly any member of the other communities can resist the temptation and so they go there and at least have a plate of Pulav. Why I have mentioned this is because, I want to tell you that it is very badly crowded in the afternoons. It is therefore necessary, Sir, that we the Muslim members should have a large accommodation at least in the future. Before this, Sir, we used to have a big room for us, but this time we have been given only a very small room, with the result that we have our food served at times even in the verandah. That difficulty should be rectified as soon as possible.

"Sir, there is another difficulty. There is no arrangement for Urdu reporting. Arrangement should be made for Urdu reporting and there must also be a Urdu typist and a typewriter too. It is because there is no arrangement here for Urdu reporting, some of us are not able to speak in Urdu; otherwise we would only speak in the Urdu language."

"Sir, the party rooms are not sufficiently large enough, but I know it is all due to the fact that the accommodation here is very limited."

"Then, Sir, hon. Members should be able to get reports of the working of the various departments from time to time and that in time. It is some time since we received the report of the working of the Public Services Commission and we do not know what that august body is doing. There was a time when it not only gave reports, but also good matter for mirth and pleasure. I think that they will be revived soon and we will be able to get their reports periodically as before. Statistics also should be supplied with regard to the appointments made."

"The last thing I would like to mention is in regard to the books in the Legislature Library. Although we are having additions made to the Library from time to time, the variety seems to me to be not satisfactory. Formerly, Sir, there used to be a Committee for this purpose . . ."

* MR. SPEAKER:—"We have a provision of Rs. 10,000 for Library books. I have appointed a Committee and also included on it one member from the Muslim group and one from the Independent group."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"I am glad, Sir, you have appointed a Library Committee and I hope it will begin to function soon and it will be augmented with such books that are useful to members. One thing I find, Sir, is the absence of Urdu newspapers in the Reading room. There must be Urdu papers and also books in Urdu should be purchased for the Library, for there are many hon. Members who are interested in Urdu literature and would like to be benefited by them."

"My hon. Colleague, Mr. Natesan, has moved a very specific motion requesting the Government to see that arrangements are

[Abdul Hameed Khan Sahib Bahadur] [20th August 1946]

made as early as possible to enable the hon. the Speaker to go not only to other important centres in the country but also to England so that he can enlarge his knowledge of parliamentary practice and see how parliaments are working in different parts of the world. Sir, I shall not be satisfied with your going only to England; I should like very much that you go to Russia, France, America, Switzerland and all other places . . .”

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—
“Why not to Japan?”

* ABDUL HAMEED KHAN SAHIB BAHADUR:—“I do not know about Japan; perhaps it may take some time before he can go to Japan. I hope, Sir, it will be possible for the hon. Speaker and the House to accept the proposition of my hon. Friend Mr. Natesan and see that arrangements are made very soon for the consummation of that desire. With these words, Sir, I resume my seat.”

* MR. SPEAKER:—“The Hon. the Premier wants only 10 minutes for his reply. I think we can sit for 10 more minutes and finish the Demand.”

* ABDUL HAMEED KHAN SAHIB BAHADUR:—“Some hon. Members of the Muslim group have to move the cut motions given notice of by them.”

* MR. SPEAKER:—“I have the statement of your Leader that only two or three members from his side would speak.”

* MR. H. S. TOWN:—“How long are you going to sit to-day, Sir?”

* MR. SPEAKER:—“The Hon. the Premier will take only 10 minutes for his reply. Now the time is 6 o'clock.”

Sri R. V. Swaminathan rose to speak in Tamil.

* MR. SPEAKER:—“The hon. Member will be given only one or two minutes, within which he should finish his speech.”

* SRI R. V. SWAMINATHAN:—“Mr. Speaker, Sir, இப்பொழுது நான் பேசவேண்டிய முக்கியமான விஷயம் மெம்பர்களுடைய குறைகளைத் தெரியப்படுத்துவதற்காக. எங்களுக்கு இருக்கக்கூடிய முக்கியமான கஷ்டங்களை Debate நடக்கும் சந்தர்ப்பங்களில் உங்களுடைய கவனத்திற்குக் கொண்டுவருவதற்காகப் பேசுகிறேன். நான் இங்கு நடைபெறும் Debate-ல் கலந்துகொள்வதற்குத் தலைவரவர்கள் எதிர்க்கட்சி மெம்பர்களுக்கு அதிக சந்தர்ப்பம் கொடுக்கப்படவேண்டுமென்பதை ஒப்புக்கொள்ளுகிறேன். ஆனால் அதே சந்தர்ப்பத்தில் மந்திரி சபைக் கச்சியைச் சேர்ந்த அங்கத்தினர்கள் ஒரு சிலருக்கே சந்தர்ப்பம் கொடுத்துக்கொண்டு வருகிறார்கள். அதை நான் பார்த்துக்கொண்டு வருகிறேன். ஆனால் தாங்கள் சிலருக்குச் சரியானபடி சந்தர்ப்பம் கொடுக்கவில்லை யென்பதாக அநேகர் அபிப்பிராயப்படுகிறார்களென்பதை உங்கள் கவனத்திற்குக் கொண்டுவர விரும்புகிறேன். கனம் தலைவரவர்கள் இந்த விஷயத்தை ஞாபகத்தில் வைத்துக்கொள்ளவேண்டும். ஒரு விஷயத்தை நீங்கள் கவனிக்கவேண்டும். நாங்கள் ஜனங்கள் பிரதிநிதிகளாக இருக்கிறோம். நாங்கள் குறிப்பிட்ட காரியங்களை செய்வதற்காகவும் எங்கள் தொகுதியில் நிவர்த்திக்கவேண்டிய கஷ்டங்கள் அங்கு செய்யவேண்டிய முக்கிய விஷயங்களை யெல்லாம் எடுத்துச்சொல்லுவதற்காகவும் வந்திருக்கிறோம். ஜனங்களுக்கு செய்யவேண்டிய எங்களுடைய கடமை இருக்கிற படியால் நாங்கள் இங்கு பேசாவிட்டால் நாங்கள் ஒன்றுமே செய்யவில்லை யென்று எங்களைத் தேர்ந்தெடுத்த ஜனங்கள் நினைப்பார்கள்.”

20th August 1946]

*MR. SPEAKER:—“Cut motion கொண்டுவருகிற எதிர் கச்சியினருக்கும் மற்றவர்களுக்கும் பேச முதலில் இடம் கொடுக்கப்படும்.”

* SRI R. V. SWAMINATHAN:—“எதிர்க்கட்சியைப் பற்றி ஒரு வார்த்தை சொல்ல விரும்புகிறேன். அவர்களுக்கு எவ்வளவு நேரம் வேண்டுமானாலும் கொடுக்கட்டும். எவ்வளவோ Demand வருகின்றன. ஒரே Demand-ல் பல பேர்களுக்கு இடம் கொடுக்காமல் குறிப்பிட்ட டிமாண்டில் யார் பேசவில்லையோ அவர்களுக்கு இடம் கொடுப்பதுதான் நியாயம்.”

“இந்த சந்தர்ப்பத்தில் ஒரு முக்கியமான விஷயத்தை சொல்லியாக வேண்டும். மெம்பர்களாகிய நாங்கள் எங்களுடைய கடமையைச் செய்ய வில்லை யென்றால் பொதுஜனங்கள் குறை சொல்லுவார்கள். வாக்காளர்கள் எங்களுடைய உழைப்பின் காரணமாக எங்களைப் பிரதிநிதிகளாக அனுப்பியிருக்கிறார்கள். மைனாரிட்டி என்ற காரணத்தாலோ அல்லது வேறு சந்தர்ப்பங்களினாலோ நாங்கள் இங்கு ஸ்தானம் வகிக்கவில்லை யென்பதைத் தலைவரவர்களுக்குத் தெரியப்படுத்திக்கொள்ளுகிறேன். இந்த சபையில் எங்களுக்குள்ள கடமையை நிறைவேற்ற நீங்கள் உதவி செய்ய வேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.”

“தமிழ் பத்திரிகைப் பிரதிநிதிகள் இருக்கிறோம். இடத்தில் அமைத்துள்ள Loud Speaker சரியாக கேழ்க்கவில்லை என்றும், தாய்பாஷை பத்திரிகை ரிப்போர்ட்டர்களுக்கு சரியானபடி வசதி செய்து கொடுக்க வில்லையென்றும் சொல்லுகிறார்கள். ஆங்கிலப் பத்திரிகை ரிப்போர்ட்டர்களுக்கு கொடுத்திருக்கும் நியாயமான முக்கியத்துவம் தாய் பாஷை பத்திரிகைகாரர்களாகிய இவர்களுக்கும் செய்து கொடுக்கவேண்டும். இந்த லீஷ் ரிப்போர்ட்டர்களுக்கு எத்தகைய வசதி இருக்கிறதோ அத்தகைய வசதி இவர்களுக்கும் செய்துகொடுக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.”

“இங்கு சட்டசபை கூட்டத்திற்கு வரும் மெம்பர்களாகிய, நாங்கள் தங்குவதற்கு இடமில்லாமல் கஷ்டப்படுகிறோம். எங்களுக்கு ஏற்பாடு செய்திருக்கும் ஹோட்டலில் சரியான வசதியில்லாததுடன், போதாமலுமிருக்கிறது. நாங்கள் எல்லோரும் சென்னையில் தங்குவதற்கு சவுகரியமுள்ள வேறு ஒரு கட்டிடத்திற்கு ஏற்பாடு செய்யவேண்டுமென்று கேட்டுக் கொள்ளுகிறேன்.”

“நாங்கள் பிரயாணம் செய்வதற்கு ரயில்வே வசதியைப்பற்றி முன்பு சொன்னோம். ஏதோ ஸர்க்குலர் விட்டார்கள். 15 நாளைக்கு முன்னதாக information கொடுத்தால்தான் முடியுமென்று சொன்னார்கள். இது பிரயோஜனமற்ற ஏற்பாடு. ஆகையால் மெம்பர்களுக்கு முதல் preference கொடுக்கும்படியான முறையில் ரயில்வே ஆபீஸர்களிடம் ஏற்பாடு செய்து கொடுக்க வேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.”

“காங்கிரஸ் பார்ட்டிக்கு கொடுத்திருக்கும் ரூமில் ஒருவிதமான வசதியுமில்லை, போதிய அளவு chairs-களும் இல்லை. ஆகையால் காங்கிரஸ் பார்ட்டி ரூமில் வேண்டிய வசதிகளைச் செய்துகொடுக்கவேண்டுமென்ற விஷயத்தை உங்கள் கவனத்திற்குக் கொண்டுவருகிறேன். இன்னொரு முக்கியமான விஷயத்தைச் சொல்லவேண்டும். என்னுடைய ஜில்லாவில், என்னுடைய தொகுதியில் நீர்ப்பாசன வசதி இல்லாமலிருக்கிறது. Irrigation Demand வரும்போது பேசுவதாக இருந்தேன். ஆனால் எனக்கு பேசுவதற்கு சந்தர்ப்பம் கிடைக்கவில்லை. என் கச்சியைச் சேர்ந்த மெம்பர்களில் சிலர்கள் மட்டும் ஒரே நாளில் மூன்று டிமாண்டு வந்தபோதிலும் எல்லா டிமாண்டிலும் பேசும்படியான சந்தர்ப்பம் அளிக்கப்பட்டிருக்கிறது.”

* MR. SPEAKER:—“உங்களுக்குள்ளே organized ஆக இன்னார் இன்னார் பேசுவோமென்று சொல்லவேண்டும்.”

* SRI R. V. SWAMINATHAN:—ஆகையால் இந்த மாதிரி சந்தர்ப்பத்தில் பேசுவதற்குச் சந்தர்ப்பமளிக்கும் முறையிலே தலைவரவர்கள் எங்களுக்கு கவரவத்தைக்கொடுக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.”

* MR. SPEAKER:—“முதலிலே Opposition-க்குக் கொடுத்த cut motion-லே பேசின பிறகு அந்த இலாக்கா மந்திரி பேசவேண்டும். டைம் இருந்தால் உங்களுக்குக் கொடுக்கிறேன். யார் யார் பேசவேண்டுமென்று

[Mr. Speaker]

[20th August 1946]

லிஸ்ட்டு கொடுத்தால் அதன் பிரகாரம் நான் செய்கிறேன். நீங்கள் எல்லோரும் பேசமுடியாது. எல்லோருக்கும் கொடுக்க இந்த 4 மணி நேரத்தில் முடியாது.”

* ABDUL HAMEED KHAN SAHIB BAHADUR:—“ There is only one speaker in our group who wants to speak only for a few minutes on a specific motion.”

* MR. SPEAKER:—“ Hon. Members must realize my difficulty also. We have only four hours for each Demand; preference should be given to those who have given notice of cut motions. I have only a very limited time before me for putting the Demand to vote and how can I give a chance to any one at this stage? Moreover, the Muslim members want to go away soon, because they are fasting.”

* MR. H. S. TOWN:—“ How long are you going to sit to-day, Sir? Is it going to be a late night sitting? ”

* MUHAMMAD ISMAIL SAHIB BAHADUR:—“ Sir, there is only one more speaker from my group.”

* MR. H. S. TOWN:—“ It will be one from the Muslim group now and another member from some other group may like to speak, then it will go on in a revolution and there will be no knowing when we finish.”

* MR. SPEAKER:—“ I will allow only one minute more and Mr. Seethi Sahib may speak on his motion.”

* K. M. SEETHI SAHIB BAHADUR:—“ Mr. Speaker, Sir, I do not want to inflict myself either on this House or on the Speaker, but there is a specific cut motion standing in my name and I feel it my duty to move it and it relates to this matter. The Library of the Legislature should be equipped with a Malayalam newspaper also for the use of about twenty members of the Madras Legislature who are expected to keep themselves informed of the happenings in their constituencies. I have made this suggestion and leave the matter to Government. That is the purport of my cut motion, Sir.”

THE HON. SRI T. PRAKASAM:—“ Malayalam newspaper can be had.”

* ABDUL HAMEED KHAN SAHIB BAHADUR:—“ What about Urdu paper? ”

THE HON. SRI T. PRAKASAM:—“ Urdu paper also can be had.”

“ Sir, Mr. Salam complains that he could not move adjournment motions because short-notice questions were not accepted by those Ministers upon whom notices were served. He cannot be angry with them for not waiving their right to notices. The hon. Member may not know what information would have to be got by way of reply, how it has to be got and what amount of time it will take to get it. Therefore, with little patience, hon. Mr. Salam may wait and judge things for himself. It is no use flying at random imagining that there is something behind the mind of those who do not accept short-notice questions.

20th August 1946] [Hon. Sri T. Prakasam]

“ About the Speaker's trip to England, Sir, I do not wish to say much in your favour by way of flattery or any such thing. Any Speaker, it is only natural, should be anxious to go and see how things are done in places like England and other countries; it is a study by itself. A mere visit could be a study, apart from all that one can learn. Looking at the places, looking at the Speakers in other countries, and the manner in which the business is done by those Speakers is a great study. Certainly it is necessary and the Speaker should be entitled to go and visit all those places, and not only study about the Speaker's duties, but, if I may point out to you, Sir, you will also be able to learn how the members are conducting themselves in those places and how the Speaker will have to control and regulate the conduct of the Members of this House (laughter)—in that way it is a very great educative programme. I, for my part, would certainly support your visit to Britain and the Government as a whole, and other hon. Members and the Party members also would wholeheartedly support this item of the business.

“ Coming to the question of the Legislature being removed to the Banqueting Hall, Sir, we have been considering that question and we knew in our visit to the place that the big pillars stood in our way and it was believed by the Engineering Department, at first sight, that with those pillars on, it might not be possible to convert that hall for our use. But later, on a second visit that we paid with Engineering experts, it was believed possible to remove the pillars and make the hall sufficiently big for the purpose of the Assembly without waiting for the construction of a new building. Constructing of a new building will take two or three years. If we wish to go there and use it for the better enjoyment, coupled with duty, we are considering what arrangements we should make with regard to the use of that hall.

“ Then, it was pointed that the members have no accommodation and it is necessary that accommodation must be found for them. We knew some accommodation was found in some hotel during the last session here. We know how members are undergoing difficulties. We are trying to find out what accommodation could be found in the Government House Estate which was placed at our disposal by His Excellency the Governor so kindly. From the latest report that I got which is not yet confirmed, it may be possible to find room for a good number of members, something like hundred members. I am not satisfied with the report and unless I go and see the place myself, it will not be possible to tell hon. Members of this House whether that is coming into shape. The moment it is coming, of course, hon. Members will get the chance. I have no doubt about that. But one thing; when the Governor was good enough to place this big property at our disposal for whatever use we could put it, there were certain conditions and naturally we were bound to accept them; those who are living in some of those buildings are members of the staff of His Excellency the Governor and they cannot be expected to leave their residences all on a sudden, until alternative accommodation is found

[Hon. Sri T. Prakasam] [20th August 1946]

for them. Arrangements are being made for this purpose and as and when they fall vacant they will come into our possession and they can be utilized by our members. There is no distinction, Sir, between one section and another section with regard to accommodation in the new buildings. They are intended for the enjoyment of the members without any difference or distinction and they will be put entirely at our disposal.

6-15 p.m. "Some remarks were made about the work of Parliamentary Secretaries. The Parliamentary Secretaries are not sitting idle, nor are they earning their money without any labour. My brother Ministers and I have been at considerable pains to find time to discuss the question of the duties and rights of Parliamentary Secretaries amongst ourselves. Last time I promised that we would be soon settling the rights and duties of Parliamentary Secretaries. It is in the stage of circulation and the office has also made its notes upon it; it will be settled soon and Parliamentary Secretaries will be at the service of all the members of the House. You should not suppose that Parliamentary Secretaries would be attached to the Ministers though that is the Parliamentary convention. The service which they render is common service to the members of the Assembly and to the people outside. Hon. Members are aware that some trouble arose in regard to Food Committees. Complaints and appeals were received in that connexion and we were obliged to request Parliamentary Secretaries each to run to particular districts in order to receive complaints and bring a report to us so that we might do the needful to settle the disputes. I assure hon. Members that no one is idle. Of course some are busy with files and some are doing work connected with the whole House and connected with all of us. You will learn very soon how the Parliamentary Secretaries will be employed in carrying out the programme chalked out for them for the benefit of the people at large whom we have all to serve.

"Mention was made about the salary of the Deputy Speaker. It is noted and whatever is possible will be done in the near future. (Hear, hear.) Although the question of the salary of the Hon. President of the Legislative Council has not been referred to here, I made a statement already in the other House that the question is under consideration and that will also be decided very soon.

"My hon. friend, the Kumararaja of Chettinad, said that we have to work this democratic constitution and that whatever may happen we are bound to see that this constitution works and that we are bound to work it out. I thought that the Kumararaja was thinking that the democratic constitution was given to us by the British Government. It is not so. A democratic constitution was in existence thousands of years ago in this country. If you go from here to Uttiramerur, 20 miles away from Conjeevaram, you will find inscriptions upon stone walls giving a description of the system of adult suffrage at that time in existence; the whole procedure of elections has been explained. Pots were converted into ballot boxes; their mouths were being tied up. Cadjan leaves served as ballot papers. I say it is on account of this

[20th August 1946] [Hon. Sri T. Prakasam]

inheritance that even the illiterate person in the villages is able to understand and take part in our elections. It is on account of the inherent intelligence in the people that they understand their business pertaining to election; that they were able to take part in the elections, rendering an account to the whole country and to the world. It is not a new thing. The constitution has come and we must only understand it. In our own history there was adult suffrage in every village, even in Uttiramerur itself. Without any distinction of caste or creed, they voted and elected members for each ward—there were six wards—and the elected members carried on the administration of that village. Therefore, it is, Sir, we are competent to carry on the administration on the basis of this constitution—which constitution had been handed over to other countries when we fell on evil days."

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Mr. Speaker, on a point of information, will the Hon. the Premier arrange for a visit to that village because it will be of immense research value and especially as it has roused the curiosity of many members on this side of the House?"

THE HON. SRI T. PRAKASAM:—"If I can only find time, I do not mind having an excursion to that place.

"Much has been said about the Public Information portfolio. The Public Information Minister has got a big portfolio and he is not a Minister without a portfolio. It is a mistake to suppose that we have been very slow in adjusting ourselves to our work. When the Public Information office is fully equipped and when the work is started, you will find that it will give one of the biggest portfolios to the Minister in charge and it would be more serviceable to all the members of the House and also to the people outside. We have also appointed a Director of Publicity. We have chosen the best possible man available for the job under the circumstances. We have not been able to give him proper office and equipment, but very soon he will be provided with the necessary equipment. Hon. Members have been complaining that there are no typewriters and no staff. Necessary arrangements will be made to remedy all these wants.

"A reference was made to the letter written by the Congress President, Pandit Jawaharlal Nehru to me. I do not know who could have given information about a private letter written to me. I do not know how even the Publicity Department could have done it. A statement to this effect appeared in the press. Press friends should not misunderstand me. They try to gather information and they get information from here, there and everywhere. Even our own representatives have to give information under certain limitations as to what they can say and what they are not to say. Therefore, you should not rush to conclusions about what was written in the letter and I have to contradict it; there was nothing like it. He is a man who knows things; he is a man who can give his directions at the proper time and has promised to give us help if wanted with regard to any of our schemes and programmes."

[20th August 1946]

* SRI KALLURI SUBBA RAO:—"In the press the statement was attributed to the newly appointed Director of Publicity."

THE HON. SRI T. PRAKASAM:—"Even Cabinet proceedings appeared in the press and they appeared in such a hopeless manner that some of us got into trouble. That is why I have cautioned you. It is not only in this country; even in England where everything is in best form and everything is up to date, it occurred. It is no wonder it happened here and that is why I do not quarrel with my friends for this small mistake, as all of us are adjusting ourselves. Mr. Town says that we will reach a stage when everything will be perfect. I hope so and that very soon and that perfection will be reached even with regard to the functioning of the microphone. A lot of trouble has been caused on account of the microphone not functioning properly and not responding properly in time. We are bound to attend to all these things."

"I have tried to cover the various points raised in the course of the discussion on the cut motions. I therefore appeal to hon. Members to withdraw their motions if they like."

* MR. SPEAKER:—"The hon. Member who has moved the cut motion is not in his place. I take it he has withdrawn it. Before I put the original motion to the vote of the House, I wish to thank the gentlemen who spoke such kind words about me."

Demand No. X was put and carried and the Grant was made.

The House then adjourned to meet at 11 a.m. on the 22nd August 1946.

THE MADRAS LEGISLATIVE ASSEMBLY.

Thursday, the 22nd August 1946.

The House met in the Assembly Chamber, Fort St. George, at eleven of the clock, Mr. Speaker (THE HON. SRI J. SIVASHAN-MUKHAM PILLAI) in the Chair.

I.—QUESTIONS AND ANSWERS.

STARRED QUESTIONS.

Recruitment of Sergeants.

* 101 Q.—SRI D. DORAIRAJA PANDIAN: Will the Hon. the Prime Minister be pleased to state—

(a) whether it is a fact that the Government propose to recruit Sergeants in the Province only from the Anglo-Indian community;

(b) if so, why; and

(c) whether there is any distinction as regards grades and salary between Indian and non-Indian Sergeants?

THE HON. SRI T. PRAKASAM:—" (a) The answer is in the negative.

" (b) Does not arise.

" (c) There is no distinction between Indian and Anglo-Indian Sergeants in the matter of grade and salary. There is a scale of pay for European Sergeants."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Will the Hon. Premier be pleased to state whether he will abolish the distinction between the European and Indian grades of pay?"

THE HON. SRI T. PRAKASAM:—"That will be considered, Sir, in due course."

SRI KALLURI SUBBA RAO:—"May I ask the Hon. Premier whether the term 'non-Indian' includes Anglo-Indians?"

THE HON. SRI T. PRAKASAM:—"Sir, I do not know whether the hon. Member who put the question has understood the question himself. (Laughter.) He may, if he likes, make it clear."

SRI N. VENKATASUBBIAH:—"May I know, Sir, if the Government will be pleased to prefer I.N.A. men for these posts in future?"

THE HON. SRI T. PRAKASAM:—"The matter relating to I.N.A. men is under consideration."

SRI KALLURI SUBBA RAO:—"May I know from the Hon. Premier whether it is a fact that only Anglo-Indians are recruited to Sergeants' posts in the city?"

MR. SPEAKER:—"It has already been answered."

[22nd August 1946]

Betting in the Madras Race Course.

* 102 Q.—SRI N. S. VARADACHARI: Will the Hon. the Minister for Law be pleased to state whether the Government have under contemplation any measure to make betting in the Madras Race Course an offence?

THE HON. SRI K. BHASHYAM:—"The question has not been taken up for consideration. They will do so as soon as business permits."

SRI N. S. VARADACHARI:—"Will Government consider the advisability of stopping at once the second enclosure in the race course?"

THE HON. SRI K. BHASHYAM:—"The matter is engaging the attention of the Government."

MUHAMMAD RAFEEUDIN AHMAD ANSARI SAHIB BAHADUR:—"May I know how long that engagement will take place?" (Laughter.)

THE HON. SRI K. BHASHYAM:—"As long as it is necessary." (Laughter.)

SRI N. S. VARADACHARI:—"May I know whether Government will consider the desirability of at once banning all publication of race tips and other literature connected with the race course?"

THE HON. SRI K. BHASHYAM:—"That also is being considered."

B. POCKER SAHIB BAHADUR:—"Will Government consider the question of making betting an offence or not?"

THE HON. SRI K. BHASHYAM:—"Betting is already an offence except at horse races."

B. POCKER SAHIB BAHADUR:—"May I know with reference to this question, whether betting in race course is to be made an offence or not?"

THE HON. SRI K. BHASHYAM:—"That also is being considered, Sir."

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Are Government aware that betting shops are thriving in the Madras City?"

THE HON. SRI K. BHASHYAM:—"It will be considered by Government."

B. POCKER SAHIB BAHADUR:—"Do Government contemplate any legislation on this matter?"

THE HON. SRI K. BHASHYAM:—"Whether by legislation or withdrawal of licence or by any other means, these are under consideration."

SRI P. NATESAN:—"Does betting take place only in the Madras Race Course?"

THE HON. SRI K. BHASHYAM:—"The hon. Member knows much better about it." (Laughter.)

22nd August 1946]

Abolition of Revenue Board.

* 103 Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Minister for Revenue be pleased to state whether the abolition of the Board of Revenue is under the consideration of this Government?"

THE HON. SRI K. R. KARANTH:—"No proposal relating to the abolition of the Board of Revenue is under the consideration of the Government."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"May I know, Sir, from the Minister for Revenue, whether during the the last Congress Ministry, there was a proposal to abolish the Board of Revenue?"

THE HON. SRI K. R. KARANTH:—"I am not aware of that."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"May I know, Sir, whether the abolition of the Board of Revenue was one of the promises given by the Congress Party before the elections?"

THE HON. SRI K. R. KARANTH:—"I am not aware, Sir."

H. S. HUSSAIN SAHIB BAHADUR:—"Do Government think that the continuance of the Board of Revenue is necessary?"

THE HON. SRI K. R. KARANTH:—"The matter is not under consideration. No further information can be given."

P. POCKER SAHIB BAHADUR:—"May I know what is the present Government's view as to the necessity or continuance of the Board of Revenue so far as revenue administration is concerned?"

THE HON. SRI K. R. KARANTH:—"I have answered that. I said it is not engaging the attention of the Government at present."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"May I know whether the Government will be pleased to consider that question?" (Laughter.)

THE HON. SRI K. R. KARANTH:—"When the occasion arises." (Laughter.)

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"May I know when will that occasion arise?"

THE HON. SRI K. R. KARANTH:—"I am not in a position to say at present, when."

B. POCKER SAHIB BAHADUR:—"Will Government be pleased to consider the necessity of the continuance of the Board of Revenue as matters stand at present?"

THE HON. SRI K. R. KARANTH:—"As I said, it will be considered when the occasion arises."

[22nd August 1946]

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Is not the Hon. Minister aware that speaker after speaker under Revenue Demand agitated for the abolition of the Board of Revenue?"

THE HON. SRI K. R. KARANTH:—"There were some speeches made; I am aware of them."

B. POCKER SAHIB BAHADUR:—"Does it give rise to an occasion for this Government to consider that question?"

THE HON. SRI K. R. KARANTH:—"I promised, when the occasion arises it will be considered."

B. POCKER SAHIB BAHADUR:—"Has it arisen? Let me have a direct answer to my question."

THE HON. SRI K. R. KARANTH:—"The very direct answer is, it has not arisen."

H. S. HUSSAIN SAHIB BAHADUR:—"Do Government require the assistance of the Board of Revenue?"

THE HON. SRI K. R. KARANTH:—"Sir, they have been having the assistance of the Board of Revenue for over a century and forty years. It has been in existence from before 1800 A.D."

B. POCKER SAHIB BAHADUR:—"Is it the policy of Government to continue everything that is ancient?" (Laughter.)

THE HON. SRI K. R. KARANTH:—"Certainly, until it is proved to be bad."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"May I know whether it is not a fact that when the present Premier was the Minister for Land Revenue in the last Congress Ministry he entertained the idea of abolishing the Board of Revenue?"

THE HON. SRI K. R. KARANTH:—"That question may be put to the Hon. Premier, Sir."

THE HON. SRI T. PRAKASAM:—"Sir, it did not engage the attention of the Revenue Minister in the last Ministry. Even now, it is a matter that will be considered. (Muhammad Abdul Salam Sahib Bahadur: 'Hear, hear.') When the occasion arises, as the Hon. Revenue Minister has stated, it will be considered. Personally, I am hoping, Sir, that something will come about that in due course. (Muhammad Abdul Salam Sahib Bahadur: 'Thank you, Sir.')

MR. SPEAKER:—"In view of that answer I now pass on to the next question."

Highways Department.

* 104 Q.—SRI M. S. PATTABHIRAMAYYA: Will the Hon. the Minister for Public Works be pleased to state—

(a) why the Highways Department was formed; and

[22nd August 1946]

(b) what additional annual expenditure, both recurring and non-recurring, the Government incur consequent upon the formation of that department?

THE HON. SRI M. BHAKTHAVATSALAM:—" (a) In spite of the best intentions of the presidents of district boards and their engineers, district boards were not able to maintain their roads to the requisite standard mainly due to the inelasticity of their revenues and the necessity of incurring increasing expenditure on public health, education, etc. The Advisers' Government also observed that the system under which parts of arterial roads were maintained and developed by different local bodies was inherently defective and that the transfer of the roads to Government would facilitate the execution of post-war road development plan which, on account of its magnitude and importance, called for a centralized administration of roads. About 10,000 miles of roads which are of inter-district and provincial importance were, therefore, taken over from local bodies by Government from 1st April 1946. The Highways Department was constituted with effect from that date, to maintain these roads. This does not in any way affect the contribution payable to local bodies under the Madras Motor Vehicles Taxation Act for loss of income from tolls and licence fees on motor buses and lorries. It is, therefore, expected that the transfer of the important lines of communication to the Highways Department will enable local bodies to devote better attention to roads left in their charge.

" (b) The additional recurring expenditure consequent on the formation of the Highways Department has been estimated at Rs. 104 lakhs. This includes a provision of Rs. 1.13 lakhs for payment of dearness allowance to the staff, Rs. 54.80 lakhs to meet the increased cost of materials and labour due to present conditions for the maintenance of roads, and Rs. 31 lakhs at the present inflated rates (Rs. 17 lakhs at pre-war rates) for the maintenance of National Highways which are expected to be taken over by the Central Government from 1st April 1947. Thus, the net additional expenditure to this Government will be about Rs. 31 lakhs only ultimately when conditions become normal.

" No provision has at present been made for any additional non-recurring expenditure consequent on the formation of the Highways Department."

D. ABDUL RAWOOF SAHIB BAHADUR:—"Is it a fact that this department started work without anything in the way of furniture and estimate?"

THE HON. SRI M. BHAKTHAVATSALAM:—"Want of furniture is not a big thing, and the department has been carrying on all right. So far as I know, there has been no difficulty."

[22nd August 1946]

D. ABDUL RAWOOF SAHIB BAHADUR:—" May I know if the Highways Department has done any work all these five months? "

THE HON. SRI M. BHAKTHAVATSALAM:—" All these five months whatever can be done by way of maintenance of roads has been done."

D. ABDUL RAWOOF SAHIB BAHADUR:—" Any new roads laid at all, all these five months? "

THE HON. SRI M. BHAKTHAVATSALAM:—" There has been no programme for laying down new roads. We have been maintaining those roads which are already there."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—" Will the Hon. Minister be pleased to state whether all highway transactions come under this department? "

A VOICE:—" Highway robbers." (Laughter.)

THE HON. SRI M. BHAKTHAVATSALAM:—" I am not able to understand what my hon. Friend means by highway transactions." (Laughter.)

D. ABDUL RAWOOF SAHIB BAHADUR:—" May I know, Sir, whether it is a fact that the District Board Engineering services formed the nucleus of this department? "

THE HON. SRI M. BHAKTHAVATSALAM:—" Yes, Sir."

D. ABDUL RAWOOF SAHIB BAHADUR:—" Is it being given effect to, Sir? "

THE HON. SRI M. BHAKTHAVATSALAM:—" Yes, Sir."

Strike in Pallavaram Tanneries.

* 104-A Q.—M. MUHAMMAD ISMAIL SAHIB BAHADUR: Will the Hon. the Minister for Industries and Labour be pleased state—

(a) what action has been taken with regard to strike in Pallavaram tanneries;

(b) whether it is true that the tannery owners did not accept any settlement arrived at in the presence of the Labour Commissioner or any other Government official; and

(c) if it is not true, what are the facts?

THE HON. SRI V. V. GIRI:—" (a) The workers in Pallavaram tanneries struck work without notice on 6th August 1946 demanding payment of dearness allowance. As the Commissioner of Labour was then on tour in Tinnevely district, the Deputy Chief Inspector of Factories and the Labour Officer, Madras, visited the tanneries on 7th August 1946 on receipt of representation from the employers, and advised the workers to resume work immediately pending consideration of their demand. The workers refused to return to work unless their demand was conceded. On the evening of 7th August 1946 after a good deal of discussion between the representatives of the workers and the employers,

[22nd August 1946]

a settlement was reached in the presence of Sri Rao Bahadur M. Venkataramayya. The following were the terms:—

(1) With effect from 1st August 1946, the workmen in the tanneries in Pallavaram and Chromepet area shall be paid a monthly wage of Rs. 21 and a dearness allowance of Rs. 14 per male adult worker. The wages and dearness allowance may be paid fortnightly.

(2) The hours of work in the tanneries shall not exceed nine hours a day and/or 48 hours a week.

(3) The workers will resume work forthwith.

(4) The workers will not stop work without due notice and prior representation of their grievances through the Union.

(5) There shall be no victimization.

" Negotiations however failed as the workers demanded the payment of dearness allowance in advance. Fresh terms were suggested by the Commissioner to the parties on 21st August 1946. The parties have accepted the terms and have agreed to resume work on 22nd August 1946.

" (b) No. The tannery owners were, on the other hand, prepared to accept the terms suggested by the Labour department.

" (c) The facts are as stated in the answer to clause (a)."

SRI S. NAGAPPA:—" May I know, Sir, whether the Minister will consider the desirability of forming co-operative societies for these tanneries? "

THE HON. SRI V. V. GIRI:—" That question does not arise."

II.—ADJOURNMENT MOTION TO DISCUSS THE CONDUCT OF POLICE IN SAIDAPET AND OTHER PLACES.

* MR. SPEAKER:—" Mr. Venkateswarlu has given notice of an adjournment motion to discuss a definite matter of urgent public importance. It is about the conduct of the Police in Saidapet and in other places. The Police Demand will be before the House to-morrow or the day after to-morrow. In view of that fact, I am ruling the motion out of order."

* SRI PILLALAMARRI VENKATESWARLU:—" On a point of information, Sir. When the Leader of the Opposition moved an adjournment motion regarding the ' Direct Action Day ', the Leader of the Opposition was allowed to say a few words."

* MR. PEAKER:—" He was not allowed to speak. The motion is now closed."

(At this stage Sri Pillalamarri Venkateswarlu repeatedly stood up in his seat to speak. He was called to order.)

* MR. SPEAKER:—" We will now pass on to the next item in the agenda."

[22nd August 1946]

III.—DEMANDS FOR GRANTS FOR 1946-47.

DEMAND XXXI—MISCELLANEOUS.

THE HON. SRI T. PRAKASAM:—"Mr. Speaker, Sir, on the recommendation of His Excellency the Governor I move—

"that the Assembly do assent to a demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as together with the expenditure already incurred in April 1946, will amount to Rs. 15,57,86,300 in respect of the head Miscellaneous. The expenditure incurred in April 1946 is believed to be Rs. 7,52,259."

* MR. SPEAKER:—"I have allowed the maximum of four hours for this demand. Three Ministers, Food Minister, Prime Minister and Minister for Public Works wish to take part in this debate. Mr. Town has given notice of a cut motion to discuss the policy of Government with regard to Minor Ports. I call upon Mr. Ismail to move his cut motion."

* MR. F. FERRELLY:—"On a point of information, Sir. Did you say that Minor Ports come under this demand?"

* MR. SPEAKER:—"I said Mr. Town has given notice of a cut motion to discuss the policy of Government with regard to Minor Ports. If you want, you can speak."

* MR. F. FERRELLY:—"Thank you. Sir."

* SRI N. S. VARADACHARI:—"On a point of information, Sir. The demand just moved is for Rs. 15 crores and odd. It includes, may I take it, Sir, Rs. 11 crores for expenditure and Rs. 4 crores for the fund to be constituted for the village reconstruction."

* MR. SPEAKER:—"I will allow you to speak. The Hon. the Premier will give the answer. Mr. Ismail will now move his cut motion."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Mr. Speaker, Sir, I have the honour to move the cut motion standing in my name. Before I actually come to the motion, Sir, I would like to say a few words on the food position, about which the Hon. Premier made a statement the day before yesterday. The position as described by him is really disquieting. In spite of the efforts made by the Provincial Government, the Government of India have not done the proper thing by this Government and the people of Madras. It is really deplorable and regrettable that the Government of India should persist in this attitude in spite of the persistent efforts made by our Prime Minister to get adequate supplies. Not even adequate supplies we want. We want the bare necessity of our Province. We do not want to see the ghastly scene of starvation and famine enacted in this Province as it was enacted a few years ago in a sister Province. Even the small quotas that have been promised to our Province have not been delivered so far. For this month 40,000 tons of foodgrains were promised and we are told that only 13,000 tons have reached us so far. It is very unfair and improper on the part of the Government of India to

22nd August 1946] [M. Muhammad Ismail Sahib Bahadur]

divert a small shipment amounting to about 6,000 tons, which ought to have come to us according to the arrangement and promise, to another Province. We know the vitality of Bengal has been much reduced owing to the recent famine. She must be supplied with her necessities, but that is no reason why Madras must be denied even the scanty supplies she had been promised from time to time. The Province itself is helpless. We cannot find grains in the Province. We have to depend upon imports. The Government of India have been apprised of these facts very emphatically and clearly, and yet the Government of India are continuing in this nonchalant and indifferent way. I do not think that that is the proper attitude to be adopted towards the lives and conditions of 5 crores of people. I hope that the Government of India will adopt a fairer attitude towards our Province in the very near future.

"In this connexion, Sir, I have been urging repeatedly that it is of no use to send paper representations and attend periodical conferences to impress on the Government of India the difficulties of our Province. I have been urging, Sir, that a permanent agency must be stationed in Delhi so that it may take up the question relating to our Province then and there, and it may very effectively impress upon the Government of India the question in which our Province is interested. I think the Government of Madras will pay attention to this suggestion and do what is necessary in the interests of our Province.

"Now, Sir, coming to the demand under discussion, I find under this head, there is an item of Rs. 2,30,29,000 for the free distribution of milk to school children and priority consumers in the mufassal. So far as the City is concerned, there is an item under another head which serves the same purpose. Under Demand 'XX—Co-operation,' an item of Rs. 5,52,300 is included for free distribution of milk for priority consumers. With regard to milk, there are one or two other items also included under other heads, but I shall confine myself to these two items. The difference between these two items is that the distribution in the City is mentioned only as for priority consumers, and the City school children are not mentioned against this item. Is it deliberate or accidental, I do not know. Is it the intention of the Government not to give any free milk to the school children in Madras? Another difference so far as the City consumers are concerned is that a provision seems to have been made for the supply of fresh milk, but with regard to mufassal consumers it is skimmed milk powder and whole cream powder imported from New Zealand that they are supplied with. Yet another difference is that the supply of milk to the City consumers is included under Demand XX, and the mufassal item is included under Demand XXXI, and under 'extraordinary charges'. I was curious to know, Sir, more about this item, and I turned some pages of the Budget Memorandum of the Finance Department with a view to finding out the difference between these two items. I could not find it out. The only thing I was able to make out was that these 2 crores 30 lakhs and odd rupees are mentioned as extraordinary charges as distinguished

[M. Muhammad Ismail Sahib Bahadur] [22nd August 1946]

11.30 a.m. from the ordinary expenses of the Province. I do not know whether this item in Demand XXXI represents a regular feature of the Budget which will continue in the future also, or whether it is intended as an extraordinary expenditure only for this year. Any way, this is a big item 2 crores and odd rupees, more than double the amount that has been provided for Harijan uplift. What is the machinery the Government are going to devise to see that the best use is made of this expenditure? Are they going to devise any new machinery or are they going to make use of the old machinery? Are they going to give this milk as they receive it from the foreign countries, or are they going to subject it to other processes and distribute it to the consumers? I know in certain other places of the country, this milk powder is not liked by the people and they say also that it is not good for health. This is probably taken as an item of food with a view to relieving the food crisis, and I am sure that the Government will take all necessary steps to see that, in relieving the crisis, it does not produce any diseases or injure the health of the people. In this connexion, I may be permitted to advert to another demand by way of reference, that is, Demand XXXVIII wherein I find an item of Rupees 51,25,000 for subsidies for loss in the production and sale of dehydrated potatoes, etc. That again seems to be an item for relieving the food position and I take it that it refers to transactions in indigenous products. Have the Government considered the possibility of finding other indigenous products before they went in for this foreign product of milk powder? That is one of the questions which I want to put to the Hon. Minister concerned.

“Regarding price control, there is a licensing system in vogue, and that system is for the purpose of restricting the number of people engaged in a trade so that they may be amenable to control, and another object of the control is said to be the prevention of carpet-bagging, that is to say not to allow mere speculators and exploiters to get into a particular line of business and create confusion. At the same time, Sir, even in the ordinary course of things, people who are already in existence in a particular line of business disappear and new men come in. That is a very natural state of affairs. If the Government in recognition of this fact bring in new men who had nothing to do with the trade—I can understand if they say that it is in the natural course of things by which new people come and old people get out—they give licences to new men, then they must see equity and justice is done to all the people concerned in the matter. Then again, Sir, people who are already in the trade must not be victimized and made to go out of business. In that case they will have to lose employment. That will affect their consumers also, because consumers also have got a voice in saying who shall be their caterers and who shall not be. One instance, Sir, I may point out. In Coimbatore there are now about eleven licensed dealers in potatoes. One of these dealers was given notice the other day by the licensing authority saying that his name was removed from the list of licensees. No reason whatever was given for such removal, and no correspondence took place before he received the

22nd August 1946] [M. Muhammad Ismail Sahib Bahadur]

notice as to why the removal of his name was ordered. He has now appealed to the Government to rectify the injustice done to him. This may be said to be an individual case, but it is a typical case. That is why I brought this to the attention of this honourable House. People should not be brushed away in this fashion in a summary way. There must be some justice, some reason. We must be given the reason why this action was taken against him. Otherwise, the confidence of the people in the control system will be affected.

“Now, Sir, with regard to procurement, we had so much to say on this subject on a previous occasion. When the Government, the previous regime, thought that they must take up the procurement of foodgrains in their own hands, they said that they would employ their own agency for the purpose. They did not want to make use of the machinery that was already in existence—the merchants and the dealers. They did not even take measures by which the benefit of the advice of the people who had experience in the various lines might be availed of by the Government. They adopted their own course and thought that it was a simple matter and that their officials also could learn the business. How they learnt the business, I shall show you by an instance. In Karachi, the Government bought a lot of wheat flour. The Government agents employed for the purpose did not know evidently what were the qualities of the wheat flour under different conditions. Therefore they were not anxious about the shipment of that flour to Madras as soon as possible. That was a simple thing, but they did not know. The result was the flour came to Madras after a long time. By that time it became worm-infested. The dealers were compelled to take delivery of the wheat flour. It was not suitable for human consumption, and I may tell you, Sir, that it was not suitable even for cattle consumption. So much so, it had to be disposed of for pasting purposes and making kanjee for cloth and other things. This I mention to illustrate at what great cost the Government agency learnt the work of procurement, and when that agency had gained experience and was working almost efficiently, that was scrapped by the present Government. We protested against it. They said that the village committees, taluk committees and the district committees they were setting up would do the work more efficiently. We said that such machinery was not suitable for meeting a crisis. What we said on that occasion is proving true, and it is one of the factors which has affected the effective tackling of the food problem now. We are receiving complaints from various communities saying that they, particularly the Muslims, are not properly represented on these committees. Instead of people doing everything for relieving the food crisis, the people have to speak about their rights and privileges with regard to these committees. These committees have yet to be trained for the work. I am mentioning these not with a view to discouraging any attempt on the part of the Government to give power to the villagers. It is very necessary that they must have all the necessary powers. The fear-complex they are having and the harassment which they are experiencing must be removed.

[M. Muhammad Ismail Sahib Bahadur] [22nd August 1946]

There is no question or doubt about it. But the only thing is that the present scheme adumbrated by the Government is not suitable for meeting the crisis for which it was primarily intended. However, we want to co-operate with the Government in working this scheme, and we only want the Government to do all that is necessary to remove the dissatisfaction among the people by giving due representation to all communities, and to the Muslims in particular.

“ Sir, Muslim representation in the departments of Food, Price Control, Motor Spirit and Tyre Rationing is not satisfactory. Muslims are conspicuous by the paucity of their number in these services.

“ Speaking of Burma evacuees, I want to mention that the Government should see that the allowances paid to the Burma evacuees who are still in need of same are continued. In this connexion, I would like to draw the attention of the Provincial Government to the hardships which the people in Burma, Malaya and other eastern countries are put to in the matter of passage home. They have been waiting during the war, but even after the war they are waiting for months and months. Now I am told that there is only one steamer touching the port of Madras once in 29 days, and even in this one steamer many people cannot find their way home. The Government should make representations and proper arrangements to see that these people are allowed to return home as speedily as possible.

“ Another point that I want to mention is that the agents of the Government of India in Burma and other eastern countries are almost always non-Madrasis. You know, Sir, that a very large proportion of the emigrants from India to the eastern countries are Madrassis, and in certain places they form the majority. Therefore it is only fair that these agents must be drawn from Madras, though not always, at least, as frequently as possible, and I urge upon this Government to take up this question with the Government of India.

“ Then, Sir, with regard to the Minor Ports Fund, I do not think that it will see in the future a depredation such as was made on it during the time of the last Congress Ministry. The development of these minor ports must form an important part of the post-war development schemes. Ample provision must be made for their development and improvement.

“ I once again urge upon the Government to see that the dissatisfaction among the Muslims in regard to the constitution of the village, taluk and district committees is removed as speedily as possible in the interests of the smooth-working of the procurement scheme. I stress once again the paucity of Muslim representation in the services of the various departments which come under this head, and suggest that the early attention of the Government be given to this subject. With these words, I move the cut motion—

‘To reduce the allotment of Rs. 15,57,86,300 for Miscellaneous by Rs. 100’.”

22nd August 1946]

* MR. F. FERRELLY :—“ Mr. Speaker, Sir, I rise on behalf of our group to support this cut motion in order that we can avail ourselves of the opportunity which the Leader of the House so promptly gave to discuss this Grant XXXI, more particularly food and also on minor ports. It is necessary, Sir, that I again state that the members of my group when they offer criticism, offer criticism of a constructive character. I find it necessary to say this because on the last occasion on which I spoke on food the Prime Minister chastised me. He said: ‘I have dealt with the objections raised by Mr. Ferrelly that well-informed gentleman who wanted to show us how we did not understand the situation properly’. I would like to say, Sir, that that well-informed gentleman secured his information from the Prime Minister’s own figures and I am afraid in what I am going to say again this morning I may incur still further his chastisement but it will be from his own figures. We are at one with this Government, Sir, in condemning the attitude of the Central Government towards the Province of Madras. A shortage of 44,000 tons of rice between May and the end of August is not a large figure. But it is not a small figure. It is moreover a broken promise and that we ought not to have from any Government. Now, Sir, one thing with which the Prime Minister prefaced his remarks shows more clearly than anything is that a very bad distribution system exists in regard to foodstuffs throughout India. We were told that the head of the Food Department in Delhi was not aware of ships which were going to Madras being diverted to Calcutta. I am afraid we cannot let the Madras Government to get away with that entirely. If they knew that those ships were coming here and if they knew that they were being diverted they had three days in which to telephone or telegraph and turn those ships back from Calcutta. I can only say that as the heads of departments in Delhi were unaware of the diversion of the ships so also the Madras Government were unaware. Otherwise they must have taken action and informed them. As businessmen we have contributed to the social, economic and industrial development of his country. I can tell you, Sir, that if a businessman of South India, whether Indian or any other nationality, had made such an unholy mess of food as the officials of the Government have done in the last two or three years, there will be no business in South India and the people responsible would have been sacked. Is it yet too late Sir, to put food both at the Centre and the Provinces in the hands of a single executive, one who is not worried by officialdom or tied down by red tape? Well, Sir, in condemning the Centre, it is always safe, it is always advisable to see that everything is in good order within our own Government. The position given to us in May shows that, after promises of 146,000 tons of imports, after an expected procurement of 3,36,000 tons, the Prime Minister anticipated a shortage of 268,000 tons. We now see a new picture. The 268,000 tons shortage was between the months of May and end of October. We are now told that from now, let me say from the first of September to the end of January, there will be a shortage of 500,000 tons of rice. How can 268,000 tons shortage to the six months ending October, that is an average of 47,000 tons per

[Mr. F. Ferrelly] [22nd August 1946]

month, how can this now have accumulated to 500,000 tons shortage by the end of January, that is an average of 100,000 tons per month? I say here and now that that has not arisen by the short shipment of 44,000 tons of rice by the Central Government. Therefore, we have still to go a little further. Again, in April, the Hon. Prime Minister said 'It is vital for our existence that the target for procurement of 336,000 tons is reached and exceeded as far as possible.' In the brief statement now before the House, we are told of the shortcomings of the Centre. We are not told what Madras has done towards attaining that target of 336,000 tons. I agree that there are still two months ahead, but in the four months which have elapsed, surely some headway must have been made towards attaining the target of 336,000 tons. If not, why have we sunk thousands of wells and why have we offered bonuses, etc. I invite the Prime Minister to take the House further into his confidence and let us know exactly how far our own Presidency has gone towards that target of 336,000 tons. Now, Sir, I ask that question in all seriousness, and I ask it on behalf of 21,400,000 people.

"A few days ago I was accused by a friend on my right in that we Europeans in Malabar enjoyed the beauties of the country and knew nothing. Let me tell him, Sir, that after twenty years of living and working in Malabar and South Kanara, I do know something. I see a poor aged weaver, a man who has grown grey in the service of my company, a man with whose son I have played hockey and football. During the twenty years he comes to me as to a father, he comes for assistance in times of trouble, for loans in times of adversity, and says with pleasure that his son has just passed the S.S.L.C. examination. I ask how can it be said that we know nothing of what is going on around. One thing which upsets me more than anything is, this old man now comes to me and says: 'Give me rice,' and for once in my lifetime I have to disappoint him, because I cannot give him rice. Eight ounces per day is entirely insufficient, no matter how many canteens you open, no matter, however much you teach the people the various processes of cooking wheat, blackgram, greengram and horsegram. It is not enough. He wants rice. I can tell you, Sir, that there are hundreds of tons of horsegram being consumed in Malabar among the labour classes. As for this awful groundnut, I would like to know whether the food official, who suggested that groundnuts should form a dish, has ever tried to make a meal of groundnuts and seen the results for himself.

12 noon "Now, Sir, you may ask why do I speak with such vehemence on this point. I speak so because they are my workers and my friends. These are the people who are getting only 8 ounces of rice per day. They are part of the 21½ million people who are brought under the rationing system in the Madras Province at the present time. Can I now tell you, Sir, what these 21½ million people have done in the last six months, and will do till the end of October? The original scheme of rations was based at 12 ounces per head. A cut of 2 ounces of rice was made in May and another 2 ounces from the 4th August. You

22nd August 1946] [Mr. F. Ferrelly]

may think, Sir, that I am juggling with figures. I am not. Anyone can check them up. Those 21½ million people, by this forcible cut in rice, have saved in this Presidency 286,000 tons of rice. Two lakhs and eighty-six thousand tons is greater than 268,000 tons of deficiency. Where then is the shortage now? I repeat only those figures which the Hon. Additional Minister for Food, Mr. Raghava Menon, has given. I repeat, Sir, that if the saving in rice by cutting 2 ounces in May and another 2 ounces in August continues till the end of October there will have been saved for this Presidency about 286,000 tons of rice. Two lakhs and eighty-six thousand tons is in excess of 268,000 tons which is the shortage as given by the Hon. the Prime Minister in May. When this quantity has been saved and we are only getting 44,000 tons short from the anticipated imports of the Government, where is the scarcity? We can only talk about what we know. This morning's paper reports that the Hon. the Minister for Food has stated ships would be coming to Madras next month. What is still due from the Government of India is 51,000 tons for September and 44,000 tons for October, that is, 95,000 tons in all. In spite of that, how can you say that this Presidency is now behind to the tune of 500,000 tons by the end of January, when as I have shown above by facts and figures the shortage you have in May has been covered by cuts in rice which you have made.

"Sir, there is something wrong. I hope it is not anything wrong with the Government's figures. I assure you there is nothing wrong with mine which are based on Government's figures. What I should like to say is this. In May last, we appealed to the Hon. the Premier to make a cut in the rations of those 23½ million people for whom he reserved 1 lb. of rice per day. At the moment 21½ millions get 8 ounces and 23½ millions get 16 ounces per day which they are permitted to reserve by the Government. In view of the uneasiness which people feel about the Government procurement scheme, we do not think that the present policy is a sound one. We do not think, Sir, that it is good government. I must warn the Government that if they persist in pursuing their present policy, they will be sowing seeds of trouble which this Government will reap and not the Central Government. ('Hear, hear.')

"I suggest here and now that one of the main contributory causes of the strikes which you have to put up with since you came into office is partly due to the fact that you cannot get rice. You do not have any strikes among the agriculturists with 16 ounces ration. It is always the person who has less food that is resorting to strikes. The reason behind that is not that he must have now more money. What he really wants is more rice for his belly. If you cannot give it, you say 'Eat wheat.' If he eats wheat, he wants ghee and he wants other things which are more expensive than the ordinary fare which he has been accustomed to. I suggest that if the Prime Minister would take courage in his hands and ask these village committees and district

[Mr. F. Ferrelly] [22nd August 1946]

committees, on which have been showered such encomiums of praise to persuade the producer to reserve only 14 ounces, if he can unite these people so that those who can save can share with those who have not, he will have made one of the greatest political successes that has ever been made in this country. I would remind him, Sir, that only a few years ago, in my own country people were faced with total destruction. The success with which that country withstood the fire rained down from heaven was due to the unitedness of the people. Why then cannot this Government with such a terrific majority behind them,—if the majority are united behind the Prime Minister—say to these producers ‘You shall have only 14 ounces; by that you will be helping the other people, your brothers.’ Let me tell you, Sir, that if the producer will give up only 2 ounces of rice per day from the 1st September to the end of January, you will have a saving of 200,000 tons and these 200,000 tons at the present ration of 8 ounces will feed the other 21½ million people for six weeks.

“Now, Sir, let me for a few moments turn to the question of Minor Ports. This is a matter which particularly affects us in the West Coast. I want in particular to mention the case of Ponnani, Beypore, Calicut, Tellicherry, Cannanore, Kasaragod, Mangalore and Malpe. We cannot forget that the last Congress Government dipped their hands into the reserve fund of the Minor Ports to the tune of Rs. 55 lakhs. Neither can we forget at the moment that there is a Central Government Commission sitting and that Commission is endeavouring to lay stress that overseas trade should go to the larger ports of India. Now, Sir, I can tell you, that the Calicut Port alone in 1938–39 handled imports to the extent of Rs. 129 lakhs. It handled foreign exports to the extent of Rs. 223 lakhs, and the total tonnage handled in that port in the year 1939–40 was 615,000 tons. It is hardly a minor port, but it is still considered so by the Government. At that port the facilities for handling cargoes are entirely insufficient. My friends, of the Indian Chamber of Commerce, the Malabar Chamber of Commerce and the European Chamber of Commerce have all just met together and have submitted or are in the course of submitting a memorandum to the Government on this subject. The ports there require considerable renovation. In Calicut, a third pier has to be constructed, warehouses are required and certain improvements have to be effected to the northern pier. In Ponnani, at one time small native crafts would enter the estuary of the river. Now it is impossible because of the silting up. At Beypore there is a big rock in the entrance to the channel, and the mouth is silted up with only 3 feet of water at low tide. When you remember that the average rise between high and low tide on our coast is only 6 feet, we are only getting a maximum of 9 feet of water at Beypore. We have done dredging in the past. The silt should be removed. But we have not got anywhere. I am pleased to see that the Hon. Minister for Public Works is making copious notes on my remarks and I hope that they will not find their usual resting place.

22nd August 1946] [Mr. F. Ferrelly]

“The same complaint can be made in regard to Tellicherry. In Mangalore, you have got a large dredger and a small one. Unfortunately there again at the port, the height of water at low tide is 6 feet and the height at a high tide is only 12 feet. Why is it not possible that with proper piloting to get in 150 or 200 tonnage vessels into the waters of Mangalore? The hon. Friend Mr. Shetty knows this so well, and I think he will bear me out in this statement.

“The same thing can be said of Malpe also. Why should this Government lose money, lose productive efforts and wages to these minor port workers by insisting on sending everything to Cochin? Let me tell you that Cochin is a very expensive port indeed and if the foreign imports from the West coming to the hinterland are to go to Cochin, the prices would be higher than in the minor ports. That, Sir, is not a little item. I am not belittling Cochin. It is a marvellous port now handling all the coastal trade. There is no reason why, with the industrial expansion, and with the supply of electricity from Pykara in full and proper measure, these minor ports of Malabar and South Kanara should not play an important part which they have done in the past.”

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—“Sir, in this important debate, a number of speakers want to participate. Now that the Leader of the Opposition has spoken and a Member of the European Group has spoken, those who are going to follow now are only persons who do not have a party. Therefore I suggest that there should be a time-limit imposed on speeches hereafter.”

12-15
p.m.

* MR. SPEAKER:—“Yes, I shall allow ten minutes to each member who wants to speak.”

* SRI PILLALAMARRI VENKATESWARLU:—“First of all I must thank the Hon. the Premier for bringing forward this most important Demand for discussion to-day. This Demand concerns the very life of the different classes of people in our society including the blackmarketeers and the municipal workers who work under the local bodies. This Demand covers so many subjects and people with different political opinions. While I express my feelings frankly in regard to this matter, I request the Treasur Benches to note the points and give clear-cut answers to them without any political prejudices.

“The first point on which already some Members have spoken is food. Of course the Central Government which did not take proper interest to protect the lives of the people have really played havoc with our food problem. They did not care to divert to our shores the food to which we are accustomed and instead they have sent us wheat. It is in this way things have been going on all these years. Luckily, we have now got a popular Ministry to look after our welfare. But we have to condemn the callous negligence on the part of the Central Government for our food problem. My suggestion to the Hon. the Premier is that the procurement policy is not working satisfactorily. It is defective.

[Sri Pillalamarri Venkateswarlu] [22nd August 1946]

Merchants are not coming out with their rice stocks. They are still secreting their stocks. Towards these people, the Government must employ the same methods, viz., shooting, that they employ against workers. They should adopt stringent measures against blackmarketeers and, if necessary, to quote the words of Pandit Nehru, 'go to the extent of shooting them down.' Then only we can save the country from disaster. The Government should put down blackmarketeers with an iron hand.

"Under this Demand again, I wish to point out to the Government the great disparity between the salaries of the top men and the men in the bottom of the official ladder. Where is Rs. 2,500 and where is Rs. 15 for peons and Rs. 35 and Rs. 40 for clerks? This disparity must be immediately removed. There are about 16 officers drawing in all Rs. 18 lakhs and 8 officers on Rs. 500 and above drawing one lakh of rupees. More than 90 per cent of the establishment charges go to their share and only the balance is available to the 9,183 clerks and peons whom we see standing before us. The Department of Food is top heavy and there is room for retrenchment. When we have an Additional Minister for Food, it should be possible to bring down the burdensome top Secretaries in this Department.

"As regards the Food Committees, the Hon. the Premier has promised that they would be non-partisan and that no political party will be eliminated from them. But what is really happening is that political parties have been purposely eliminated from these bodies. In this connexion, I have forwarded a petition to the Hon. the Premier complaining about the remark by a responsible Congressman sitting before us that a particular party must be eliminated from these committees. I have also sent him a paper cutting in support of the petition. I have not so far received any reply. This sort of thing is going on. Out of 283 members in the Kistna district, only a dozen or so are communists. All the rest are Congressmen or their henchmen.

"Next I have a strong protest to make about the paper quota granted by the Industrial department. Vernacular papers are not given sufficient paper. It is a pity the authorities have not realized that it is the vernacular paper that circulates in the villages and that it is therefore the vernacular paper that helps in educating the people in the villages. This fact may now at least be recognized and the quota for vernacular papers increased, if necessary, by reducing the quota for the English papers. In this connexion, I wish to bring to notice the injustice done to 'Praja Sakthi,' our party paper. Because of paper shortage we have to reduce our circulation. We are unable to meet the demands of the people. I request the Hon. Minister to increase the quota.

"As regards the State Trading schemes, I am of the opinion that it is all to the good that the Government have taken the initiative in this matter and started the business. But if the scheme is not to become useless, the Government should not allow the blackmarketeers or big merchants to have anything to do with it. These should be put in charge of the reconstituted

[22nd August 1946] [Sri Pillalamarri Venkateswarlu]

food committees if they are not to fall into the hands of the unsocial elements of the population. But care should be taken to see that these committees consist of representatives of all political parties in the country. Another thing is that the cry of 'Danger to normal trade channels' should be ignored and the conventions started by the Advisers' regime respecting the trade channels should be abolished and fresh convention in the interest of the people should be adopted.

"As regards village reconstruction and Harijan uplift schemes as yet we have only lump sum provision in the Budget. The Hon. Premier has, however, issued a statement that the plans are ready and will be published. I trust that the necessary details for the expenditure of these four crores of rupees will be given. I have my own doubts about the success of the Rural Reconstruction Scheme and I even feel that the Khadi Scheme is bound to fail. With the support of Gandhiji and the A.I.S.A., it is doubtful if this scheme could succeed at all. But we are going to spend crores of rupees on it. Let it be a warning to Government that this Khadi programme is going to fail and we are going to suffer for it. We know, as a matter of fact, that Khadi cannot totally displace the mill cloth. In view of the scientific advance, I cannot understand why we should go back to the old times and resort to handspinning and so on? We should go ahead and nationalize all land if we want to increase our agricultural wealth and nationalize industries also.

"As regards Harijan uplift, Sir, our first care should be to house decently the poor agricultural labourers. They have no homes. For the industrial labourer, there are at least some labour laws but to the agricultural labourer there are none. Labour legislation secures for the industrial labourer compensation in certain eventualities, whereas the agricultural labourer has no such protection. They too should be given the protection that is enjoyed by the industrial labourers. You should give them lands also for living. The village uplift scheme must start with housing the agricultural labourers. The case of domestic servants must be taken up and privileges should be created for by means of laws.

"Another thing that suggests itself to me in this connexion is the need to uproot untouchability. The educational needs of these labourers also must be attended to. These people have a very restricted franchise. Adult franchise should be introduced for them. Then they can protect themselves."

* MR. SPEAKER:—"The hon. Member has one more minute."

* SRI PILLALAMARRI VENKATESWARLU:—"Another thing I want to point out relates to contribution to local bodies. In framing their Budget for this year, the Government have unfortunately not done anything in this respect. In the Budget for 1945-46, there was a provision for Rs. 23 lakhs for contribution to local bodies. This was meant to meet the cost of dearness allowance of the employees. We find that this year it has been

[Sri Pillalamarri Venkateswarlu] [22nd August 1946]

reduced by Rs. 3 lakhs. I do not know why there has been reduction in this item. Do the Government feel that the local bodies are now financially better off? We are now witnessing in the City Corporation the workers dying in the streets for the simple reason that they demand higher dearness allowance and wages.

12-30 P.m. "If their conditions were properly taken into consideration, we need not have seen these poor Harijan men and women who were living peacefully till yesterday subjected to policeraj . . ."

* MR. SPEAKER:—"The hon. Member has taken more than his allotted time."

* SRI PILLALAMARRI VENKATESWARLU:—"Because I am the only Member who can speak for these people . . ."

* MR. SPEAKER:—"I have given the hon. Member more than 15 minutes. He must please resume his seat."

* H. S. HUSSAIN SAHIB BAHADUR:—"Mr. Speaker, Sir; our Hon. Minister for Food and others journeyed all the way to far off Delhi which is the capital city of the British Indian Empire. There he attended the Food Conference and he has now returned, but he has returned with empty hands and pockets; he has returned with some promises that are all in the air, promises that are being honoured more in the breach than in the observance. Considering the critical food situation in our Province, it is but right and proper on the part of this House to support the demand of the Government and strengthen the hands of the Hon. Prime Minister and the Food Minister to get the promised rice at least from the Government of India. Because, the Government of India is callous and has not the imagination enough to realize our needs and understand that our people have been reduced to the state in which they are to-day. Therefore, it is our bounden duty to bring this state of affairs pointedly to the notice of the Government of India and see that that Government which ought to save the lives of millions of people in this Province shares the responsibility. This House might remember that in the Central Provinces where the people eat more wheat than rice at a time, there was at one time more rice and less wheat, and whereas in this Province where we eat more rice than wheat, we had more wheat and less rice. I am quoting this instance just to show the vagaries of the Government of India. Therefore, Sir, unless we bring home to the Government of India these facts, there will be no salvation for us. We on this side, particularly the Muslim League section of the House, will always be ready to co-operate with this Government in procuring food supplies from outside the Province to meet the critical situation here. This is what the Hon. Premier has stated in the statement which he made on the 20th instant:

'Though wheat and wheat products were included in the ration to make up an overall 12 ounces ration, the people in general are not able to make use of these additional foodgrains as they were unaccustomed to them and they were subsisting mainly on the 8 ounces portion of ration. This 8 ounces ration is utterly inadequate to sustain any person in normal health and any further reduction would only result in slow starvation and an outbreak of epidemics.'

[22nd August 1946] [H. S. Hussain Sahib Bahadur]

"Sir, this is an alarming statement and it has fallen from the lips of the highest executive of this province and we have to take his statement very seriously. No doubt, Sir, this 8 ounces is not enough. We cannot reduce it further but on the other hand, if possible, we have to increase it. No wonder that the Hon. Prime Minister estimated the shortage at 5 lakhs of tons of rice. My hon. Friend, Mr. Ferrelly, said that at one time the Prime Minister put it down at 268,000 tons. Mr. Ferrelly should remember that the Prime Minister is making his best efforts to increase the rice portion of the ration and if the whole ration is to be in rice—the quantity come to 500,000 tons—we have a right to demand it in rice. Therefore, Sir, this must be very carefully considered and we must take the statement very seriously. That is what I would urge on the hon. Members of this House. Sir, we cannot dole out rice in ounces as we dole out medicine. Is it medicine that is being supplied to be given in ounces? If that is so, we have to provide them with ounce glasses also. Sir, this is a very serious matter. Unless we put our shoulders to the wheel and direct it to the proper sphere, I am sure millions of people in this province will be faced with starvation and death.

"While we should support the Government wholeheartedly in their efforts, I would also like to say a word or two about the internal policy of the Provincial Government. So far as I can see, the scheme of these food committees is very complicated. At the same time, I also feel that, if there are any useful schemes which are placed before the Government for the production of rice, in as short a time as possible, the Government should consider those schemes earnestly. They should not judge those schemes as impracticable without even examining them. Therefore, I would urge upon the Government not to be self-opinionated and not to think themselves too wise, because it is a question that concerns the life and safety of every one of us. There are other persons outside the Government circles, who have offered very reasonable suggestions and one of the suggestions, I think, is to grow a crop which can give a return within a period of three months. This short term cultivation should be tried wherever possible by the Government itself. They can take lands on lease and see that they are cultivated by the Government direct and even at considerable cost. It is not a question of getting a return for the investment. Government should be prepared to spend without expecting any return; the only return to expect should be the preservation of the life of the people. Such a return is worth its weight in gold. The Government should be prepared to undertake even unproductive schemes if they would only increase the production of food crops. That should be the policy that this Government should adopt immediately and not go about tinkering with the scheme of village committees, taluk committees and district committees, which are, I think, giving enough trouble to the Government every hour of the day, on account of the petitions and telegrams that are pouring into the Secretariat.

[H. S. Hussain Sahib Bahadur] [22nd August 1946]

"While I am on this subject, I must say something very severe about the working and functioning of these committees. I am told that these committees were formed to look after the needs of the people both in regard to cloth and food and also other necessities of life. When it is found that these committees are not able to function properly, they must have been scrapped. At a time of emergency like this, it is dictatorship that we want. Take power in your hands to provide food and cloth to every section of the population in the province. This time of national emergency is no time for experimenting with your committees all over the province. The committees may be good by themselves, but they must be taken up only at the proper time. I would, therefore, urge upon the Government to take the whole matter in their own hands and see that food and cloth reach every nook and corner of this province within as short a time and as speedily as possible.

"As regards the constitution of these committees, Sir, there have been many complaints. I hope the complaints have been attended to by the Government. Sir, these committees should be as representative as possible. As far as I have been able to see, in many places, the local Congress committees or the secretaries of the local Congress committees think they have a voice in the matter and dictate to the officers. In many instances, the officers succumb to the requests, which they take as a sort of threat, and agree to the demands of the local Congress committee, town or taluk Congress committee as it is called. This ought not to happen. Sir, the Government servants are there. They know the people. Let them decide according to their own discretion. Why should anybody, even a Member of the Legislature, interfere unless there is a grave miscarriage of justice or great hardship has been created? Only in such circumstances, these people can interfere and they should not be allowed to do so at every stage. The Tahsildar knows the people, the Revenue Divisional Officer knows the people, the Collector knows the people and they can do these things in the proper manner. That is why I say that there should be a sort of dictatorship outlook. I have finished my speech, Sir."

* M. S. ABDUL MAJEED SAHIB BAHADUR:—"Mr. Speaker, Sir, let me at the outset lodge a protest with all the vehemence I can command on the reduction of the quantity of ration of rice to 8 ounces. The Hon. Premier in his statement has said that this reduction will only result in slow starvation and outbreak of epidemics. But I would like to bring to the notice of the hon. Members of this House that starvation has already started and epidemics have already entered the homes of our poor people. The Hon. the Food Minister after returning from Delhi said that at present the Government of India is not prepared to give us more rice. Sir, in northern India, people live entirely upon wheat and therefore rice is almost unnecessary for them. At present, Sir, in northern India, rice is being used as a sort of supplementary food, particularly as a dessert that comes after a regular wheat

22nd August 1946] [M. S. Abdul Majeed Sahib Bahadur]

diet. Therefore we must urge upon the Government of India to see that rice is not consumed in those areas and that it is exported to our province which entirely lives upon rice. Conversely, I would say that all the wheat that we are having at present may be exported to northern India.

"Again, Sir, in this province, there is a considerable number of North Indians. Rice need not be issued to those people. In the rationing scheme whenever there is shortage of rice there is a uniform reduction in the rice quota. It is necessary that, whenever reduction is made, the reduction should not affect the poor labourers of this province, because they live entirely upon rice and any other food would be injurious to their health.

"The Hon. Premier also said that officials are being sent to Burma to procure rice. I would say that men may be sent to places like Java and Sumatra also, because those are centres where large quantities of rice would be easily available.

"Speaking about the Burma evacuees about whom the Leader of the Opposition has made a reference, I would make a request to the Government. Sir, as soon as these Burma evacuees left Burma as a result of the extension of hostilities into those areas, they were provided not only with allowances, but these traders from Burma who had actually lost their trade in the country were provided with what are called export licences, particularly to Ceylon. Now, the Government is aware that trade has been extended to Burma also. I would request them to issue export licences to those people who hold licences for trading with Ceylon to enable them to trade with Burma also. If such facilities are afforded to these people through the efforts of the Government of Madras, it would be a very great relief to these people who have suffered heavy losses in Burma as a result of bombardment and who have been subjected to privations and hardships when they returned from that country.

"Then with reference to paper quota, I would bring to the notice of the House the fact that in Madras we do not have a Tamil daily for Muslims. Several applications have been made to the Government of India for permission to start a Tamil daily paper, particularly for the Muslims, so that their views and news could easily pervade. Unfortunately, till now the Government of India have not seen their way to provide the applicants with a permit and quota of paper. I would request the Hon. Premier who is interested in the advancement of every community in this province to see that the Muslims get paper and permit to start the paper.

"Coming to the village committees, Sir, during the discussion on the proposals for the constitution of these committees, I have already warned the Government that these committees were going to be more an impediment than an assistance in the procurement and distribution of foodstuffs. The other day I read in the papers about the Taluk Committee of Chingleput. They have decided that all procurement operations should be postponed to some time

[M. S. Abdul Majeed Sahib Bahadur] [22nd August 1946]

after December. These committees were constituted for procurement work and in Chingleput taluk they have actually decided to postpone procurement. From this, it can be readily seen that procurement is not easily possible for these village committees. At the time of the introduction of the draft proposals in this hon. House, the Hon. Premier brought to our notice the glorious pages of the history of India, particularly the period of Chandragupta Maurya and told us that village committees were working in a perfect manner. I would like to tell hon. Members of this House that our villages are not like the small independent villages of those times. Our life to-day is complex. We have several ideologies in these villages. These are not like the city states of Athens and Sparta. In the circumstances, it is impossible to carry on any food administration or cloth administration through these village committees. Therefore, Sir, I would say that these village committees may be constituted, but that the question of procurement and distribution of food may be entrusted to them after December, when we will have tided over our food famine.

"Lastly, Sir, I would invite the attention of the House to the paucity of representation of Muslims under this Demand. Perhaps some hon. Members would think that we are simply harping upon this question. I am not really very happy when I talk about Muslim representation, because I feel it is almost a vain mean struggle for the loaves and fishes of office. I am forced to refer to this point, because I feel that whenever I speak about Muslim representation in a department, I logically speak upon the representation of all communities in this province. Therefore, I would request that social justice may be done to all communities in this province, so that every one may be happy. With these few words, Sir, I support the cut motion."

B. POCKER SAHIB BAHADUR:—"Mr. Speaker, Sir, I beg to support this motion. When we had a discussion on the food question at the first session of this House it was pointed out emphatically by Members on this side of the House that the Ministers had not paid sufficiently serious attention to solving the food problem but on the other hand had devoted their attention more seriously to their own political propaganda and that the scheme they placed before the House was intended to strengthen their already strong political party. Now, Sir, every word of what we said on that occasion has turned out to be true in the short time, and efforts have been made to give effect to their scheme. The principle on which their scheme was based was that the middlemen who had been carrying on the work of procurement and distribution should be done away with. It was even then pointed out that it was a very unsound policy to do away with the agencies which had been catering to the needs of the people without much complaint and that it was very unwise to do especially in an emergency like this. But in spite of the sound advice given by this side of the House, the Government persisted in sticking to their policy, which I attribute more to their political motives than to any motive of carrying on the administration of food more efficiently and justly. Anyhow, I do not want to say more on this

22nd August 1946] [B. Pocker Sahib Bahadur]

point except to repeat that even now we do firmly believe that the Government is wrong in that policy and that the working of it during this short period has proved what we all said only to be too true. How many hundreds and thousands of protests have come to the Government as regards the working of that policy and how much precious time of the Government has to be devoted now to answering those complaints rather than solving the question of food itself!

"In this connexion, Sir, I would just like to invite the attention of the House to a circular which has been issued by the District Supply Officer, South Malabar, to the Taluk Supply Officers of Ernad, Walluvanad and Ottapalam. The circular runs—

"Representations have been made by the public of Ernad and Walluvanad taluks to the Hon. the Premier that most of the retailers in these taluks are Muslim Leaguers and that they are carrying on political propaganda especially of the reactionary type. The Taluk Supply Officer and the Assistant Taluk Supply Officer are requested to report at once whether there is any truth in this representation. If so, the names of such retailers should be reported and an enquiry should be conducted as far as possible by the Taluk Supply Officer, the Assistant Taluk Supply Officer and the District Supply Officer."

"I have put a copy of this circular in the hands of the Hon. the Premier and I do not know what action he has taken on that and what has been the result of that. Now, Sir, do you require any further proof in justification of what we stated while the proposals were before the House? I do not want to comment on this further as the time at my disposal is very short, and as I want to touch on some other subjects also.

"Sir, another thing which was predicted then has also come true, and that is the enormous delay in the food reaching retailers and the consumers. It was even then predicted that a great deal of delay would be caused by the retailers, because if the agency happened to be a Government agency it must necessarily involve delay. I understand that in Calicut the retailers had to wait for two or three days without getting a supply. It is only after a long time that they first of all get the permit and then the delivery of the goods. It takes a very long time for the food to reach the consumer—three to five days and even a week—and during this week the only alternative for these consumers is to starve. Well, Sir, I ask: is this the time to give effect to our political ideas in the administration of food?

"Sir, I join the previous speakers in appealing to the Government to scrap these food committees at once and resort to efficient methods if the Government feel that this method is not working efficiently and delay is caused in the distribution of food to the consumers. I say, Sir, it is the bounden duty of the Government to resort to the most efficient, the most effective and the most speedy methods of making food available to the consumers, if they are convinced that delay is caused in the present system.

[B. Pocker Sahib Bahadur] [22nd August 1946]

Sir, many complaints from Malabar have been placed before the Hon. the Prime Minister about the constitution of these committees and he has promised to go there and satisfy himself about these irregularities and I am sure he will see them for himself and rectify matters and see that justice is done.

"Mr. Speaker, Sir, I am very much obliged to Mr. Ferrelly for the contribution he has made to the discussion of this question. I do not know who it was who said that Mr. Ferrelly did not know anything about Malabar. I for myself dissociate myself completely from such remarks. I entirely support every word of what he said about the minor ports and I request the Government to pay special attention to the improvement of the minor ports of Tellicherry, Calicut, and Ponnani in Malabar and also the minor port of Malpe in South Kanara.

1 p.m.

"Another important matter on which I would like to say a word is about the evacuees from Burma. It is rather a very sad thing to find that even after Burma is available for these evacuees to go back, there is no means for them to go back. I understand there is only one steamer which starts from Rangoon, goes to Vizagapatam, then comes to Madras and then again goes to Burma. Once a month it reaches here, and on that account thousands of evacuees are not able to return to Burma and resume their work there.

"One other subject on which I want to say a word is this: a suggestion has been made to the Hon. the Additional Food Minister that some inducement may be given to the punam cultivators on the West Coast. I think, Sir, some inducement should be given to these people by supplying them with a large quantity of materials which they require for cultivation purposes. It is a very risky business, and if they do not take to cultivation sufficiently, it is due to want of sufficient inducement being offered to them, especially under present conditions when they are unable to get the necessary facilities. It is time, Sir, to encourage these people."

* SRI A. B. SHETTY:—"Sir, I heartily agree with my hon. Friend Mr. Ferrelly's remarks regarding the necessity to improve the minor ports of Malabar and South Kanara. The members of the West Coast districts are indeed fortunate, Sir, to have their case presented by a person who is well acquainted with the peculiar difficulties and needs of these two unfortunate districts, and we trust that he will continue to press the claims of these districts whenever occasion arises.

"Sir, I should confine my remarks to the food situation. It is true that we have to rely upon imports from outside for tiding over the present crisis. But we shall not rest satisfied with merely pressing the Central Government to send us more imports of rice. What are we trying to do to increase production of food in our province? Among the short-term measures which this Government can take for increasing the food production immediately, we must give the place of first importance to the larger supply and use of manures and appliances. We are told that sulphate

22nd August 1946] [Sri A. B. Shetty]

of ammonia is most useful in increasing the yield of paddy. Government must try to get imports of sufficient quantities of chemical fertilizers and there must be an intense drive all over the province to make the ryots use more of these manures and fertilizers for the crops to be grown this year. Let Government also take steps to see that the price of these things is kept as low as possible.

"Another suggestion that may be made in this connexion is to increase the production of crops like potatoes, sweet potatoes, tapioca and plantains, which give a larger return of calories per unit area than cereals. More extensive and increased production of these crops will serve to release land for growing more of pulses, vegetables and fruits which are protective foods and therefore more helpful from the point of view of improving the nutrition of the people.

"I find, Sir, we have a wheat propaganda officer. I do not know to what extent he has been successful in persuading people to take to more of wheat and wheat products as a substitute for rice. Is it enough if we simply cry out all the time that we have not got sufficient rice for our purpose and therefore we should get more imports of rice? Why not make a province-wide and determined campaign to change the dietary habits of the people at this time of rice shortage. Wheat is more desirable from the point of view of improving nutrition. Let the village and taluk committees make wheat propaganda a part of their business; let all the Health staff also carry on propaganda for this purpose. Let there be actual demonstrations of the various preparations that can be made of wheat, in our hotels and industrial canteens and wherever else it is possible to do it. In this way, we can succeed to some extent at least in meeting the present rice situation.

"I find, Sir, there is an establishment for price control under this Demand. I should like to know the price of which articles they are trying to control. Is it only rationed articles like rice and wheat? We find for instance that the price of other articles of food such as coconuts, blackgram, greengram, onions, etc., has gone up much above the level of the price of rice. It is necessary to establish price control over the whole range of food articles and not merely try to control the price of cereals like rice and wheat. I hope, Sir, this aspect of the question will be borne in mind. Any attempt to stabilize the agricultural prices will not succeed unless it is made a part of the plan to bring about general price stability. Prices are rising; there is an increasing demand for more wages and salaries. This goes on in a vicious circle. The British Government in England have been successful in keeping down their domestic price level even in the troublesome times of the War and afterwards, for the last several years. The Provincial Governments and the Central Government in our country should act together and see that they exercise an effective control over the prices of all essential commodities and not merely over the price of rationed articles of food. The index of wholesale prices according to the Economic Adviser is about 250 over

[Sri A. B. Shetty] [22nd August 1946]

the 1939 figure. But the actual rise is much higher than that. It is no use simply appointing adjudicators and pay commissions. It is like putting the cart before the horse. I should think that the most important work which this Government can take up at present is to have an intensive drive for increased food production and an effective machinery for price control. Other beneficial schemes like village reconstruction, however desirable they may be, must be subordinated to this all important task which the present situation calls for.

"Before I sit down, Sir, I want to ask one question about the threatened South Indian Railway strike. What action are this Government taking in this matter? Unless this strike is prevented by an amicable settlement, I am afraid it will dislocate transport and create a dangerous situation in this time of food scarcity."

* MAHIN SCHAMNAD SAHIB BAHADUR:—"Mr. Speaker, Sir, the first thing I have to say is that there is not a single Muslim on any of the Taluk committees of the South Kanara district. The reason is that the selection of members was not made according to the strength of the Muslim population. There are many villages in the Kasaragod taluk, viz., Changala, etc., where the Muslims are in a majority, but members were not selected according to the strength of the Muslim population. There are many Muslim villages, viz., Kuchulamodu and others; and yet from these villages, not a single Muslim member has been selected as a member of the village committee. There are panchayat boards in many of the villages and these boards have been approved by the Panchayat Officer as efficient, but yet, this work is not entrusted to the boards. The reason is that in these panchayat boards there are equal numbers of Muslims and Hindus. To avoid the Muslims, separate village committees are appointed in these villages, even though there are panchayat boards. I attended a meeting convened by the Revenue Divisional Officer for the approval of the selection of the members of these village committees. I asked the Tahsildar why the members were not selected according to the strength of the population of Muslims. The Tahsildar told me that that was not the direction given to him, but he was to select according to capacity. Perhaps the Tahsildar thought he was the best judge in this matter. What happens is, the Tahsildar goes to the villages, gives previous intimation to the people before going; when he goes there, there will be some people who will go and see him; there will be some people who will naturally be present. He selects members from among those who are present. He should have ascertained locally who are the important men and the influential men in the village and then should have sent for them and taken their consent and afterwards chosen as members from among them, men who are the best men. In most of the village committees most of the members are quite useless and worthless. This is what happens."

* SRI A. S. SAHAJANANDA:—கனம் தலைவரவர்களே. நம் முடைய கனம் முதல் மந்திரியாரவர்களுடைய 75-வது ஆண்டு நிறைவு விழா நாளைய தினம் நடக்கப்போகிறது. இவ்வளவு வயதாகியுங்கூட

[22nd August 1946] [Sri A. S. Sahajananda]

நம்முடைய பிரதம மந்திரியாரவர்கள் உணவுப் பொருள் விஷயமாக எடுத்துக்கொண்ட முயற்சிக்காக நான் அவர்களைப் பாராட்டுகிறேன். கண்ட ரோல்கள் வைத்திருந்தும் வாழ்க்கைக்கு இன்றியமையாத உணவுப்பொருள்களான சர்க்கரை, மிளகாய், துணி முதலானவை தாழ்த்தப்பட்ட பாட்டாளி மக்களுக்குக் கிராமங்களில் கிடைப்பதில்லை. முக்கியமாக சேரிகளில் வாழும் மக்களுக்குக் கிடைப்பதில்லை. அவர்கள் பகலெல்லாம் உழைத்து விட்டு இரவு 8 மணிக்கு மேல் வீட்டுக்கு வருகிறார்கள். அதற்குள்ளாக கிராமங்களில் கடைகளைச் சாத்திவிடுகிறார்கள். ஒரு கிராமத்தில் ஒரு சமயம் 9 மணிக்கு மேல் இரண்டு பெண்கள் உணவுப் பொருள் ஷாப்புக்குப் போய், அரிசி கிடைக்காமற்படி பக்கத்து கிராமத்திலிருந்து கால் படி அரிசியை வாங்கிக்கொண்டு வந்தார்கள். அப்படி அரிசி கொண்டுவந்த தற்காக அவர்களை 1½ மாதம் ஜெயிலுக்கு அனுப்பினார்கள். ஆகவே, சேரிகளில் உள்ளவர்களுக்கு ராத்திரியிலே உணவுப் பொருள்கள் எளிதாகக் கிடைக்கும்படியாகச் செய்யவேண்டும். அவர்களுக்கென்று தனியாக கடைகளைத் திறந்து வைக்கும்படியாகக் கேட்டுக்கொள்ளுகிறேன். அதோடு கிராமங்களிலே துணிக்கஷ்டம் மிகவும் அதிகமாகவிருக்கிறது. சில இடங்களில் சணல் நார் அல்லது கோணிகூட கட்டிக்கொள்ளுவதற்குக் கிடைப்பதில்லை. பெரிய டவுன்களிலுள்ள ஷாப்புகளில் அதிகத் துணி கிடைக்கிறது. ஆனால், கிராமங்களிலேயுள்ள ஹரிஜனப் பெண்களுக்குத் துணி கிடைப்பதில்லை. சர்க்கரை, மண்ணெண்ணெய் இவைகளுங் கிடைப்பதில்லை. அத்துடன் சமையல் செய்வதற்கு எண்ணெய் கூட கிடைக்காமல் கஷ்டப்படுகிறார்கள். கிராமங்களுக்குத் தேவையான உணவுப்பொருள், துணி இவைகளை சேரி ஜனங்களுக்கென ஒரு கோட்டா (quota) ஆகத் தொகுத்து சுலபமாக கிடைக்கும்படியாகச் செய்யவேண்டும். கிராமங்களிலுள்ள சேரிகளுக்கென்று தனிக் கமிட்டிகளை நியமிக்கவேண்டும். சாதாரணமாக உணவுப்பொருள், துணி முதலியவைகள் மிராசதாரர்களுக்கு வேண்டிய ஆட்களுக்குத் தான் கிடைக்கின்றனவே யொழிய, எல்லோருக்கும் அவை கிடைப்பதில்லை. ஆகையால், ஒவ்வொரு சேரிக்கும் ஒரு ஸ்டோரை ஏற்படுத்தவேண்டியதவசியம். சேரிகளிலேயுள்ளவர்கள் ஸ்டோருக்கான ஷேக்கை வாங்க முன் பணம் கொடுக்கமாட்டார்களென்று சொல்லலாம். ஆகவே, சர்க்காரே மேற்படி ஸ்டோர்களை ஏற்படுத்தும் விஷயத்தில் முன் பணம் கொடுத்துப் பின்னர் எடுத்துக் கொள்ளலாம். இந்த விஷயத்திலே முதல் மந்திரியாரவர்கள் தீவிரமாக கவனஞ் செலுத்தவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன். ஆனால், நான் தமிழிலே பேசுவதினால், முதல் மந்திரியாரவர்கள் நோட்டஸ் எடுப்பது வழக்கமில்லை. ஏழைகளுடைய கஷ்டங்களைப்பற்றி நான் தமிழ் மொழியிலே பேசுவதை தயவு செய்து குறித்துக்கொள்ளவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.

"மேலும் சர்க்கார் உத்தரவுபடி கப்பல் தொழிலாளர்கள் முதல் ரயில்வே போர்டர்கள் வரையில் பாட்டாளி மக்களுக்கு அதிக உணவு கொடுக்கும்படியாக ரேஷன் உத்தரவுகளில் குறிக்கப்பட்டிருக்கின்றதே யொழிய பயிர்த் தொழில் செய்யும் கிராம ஜனங்களுக்கு உணவுப்பொருள் அதிகப்படி கிடைப்பதில்லை. ஆகவே, பயிர்த் தொழில் செய்யும் பாட்டாளி மக்களுக்குக்கூட அதிக உணவு கொடுக்கும்படி உத்தரவு செய்ய வேண்டுமென்று நான் உணவு மந்திரியவர்களைக் கேட்டுக்கொள்கிறேன். சேரியிலேயுள்ளவர்களுக்கு உணவுப் பொருள், துணி இவைகள் செளகரியமாகக் கிடைக்கும்படியாகச் செய்யவேண்டும். இவர்கள் இன்றைக்கு இருப் பதைப்போல சாமான்கள் வாங்குவதற்காக நான் முழுவதும் கடைகள் முன்பு காத்துக்கொண்டிருக்கவேண்டுமானால், அவர்கள் எப்போது தங்களுடைய காரியங்களைச் செய்ய முடியும். ஆகவே ஏழை மக்களுக்குச் சாமான்களைச் செளகரியமாக அடைவதற்கான வசதிகளை சர்க்கார் செய்து கொடுப்பார்களென்று நம்புகிறேன்."

* BEGUM SULTAN MIR AMIRUDDIN:—"Mr. Speaker, Sir, I wish to draw the attention of the Government to the necessity of taking over and provincialising the vigilance work which is now being performed by the Madras Vigilance Association. For nearly the past decade, this Association has been doing very useful

[Begum Sultan Mir Amiruddin] [22nd August 1946]

work in suppressing immoral traffic in women both in Madras City and the mufassal. In Madras City, it has been maintaining a Rescue Home which is called the Stri Sadana Training and Rescue Home for girls, which has at present 216 inmates. Besides this, the Association has been organising welfare work in the mufassal through the medium of similar associations which have been formed there and of auxiliary homes or centres which have been established in all places where the Suppression of Immoral Traffic Act has come into force. Towards this work done by the Association, the Government has been contributing a sum of Rs. 21,400 per annum, as is evident from the Budget. With this help together with the grant that is being given to the Association by the Corporation of Madras and particularly with the help of the public, this Association has been able to carry on its useful work for the past several years. But now, I understand, the Association is faced with an acute financial crisis, so much so that it is feared that it will not be able to carry on for long. Having regard to the humanitarian nature of the work, it behoves the Government to come forward now to take up this work and provincialise it. The canker of the commercialised vice is the remnant of barbarism and of all evils existing in society at present, there is nothing so debasing or so degrading as this. In the interests of the moral uplift of society, I consider that it is the duty of the Government to take steps to eradicate this evil on the one hand and to lend a helping hand towards the reclamation and reformation of the unfortunate victims on the other. I know that this Government are interested in the moral uplift of society, as is evident from the fact that they are introducing prohibition. Vigilance work is a necessary corollary to prohibition and I would request the Government to take up this work as well. In this connection, I may point out that there is need for three more Rescue Homes, one each at Coimbatore, Madura and Nellore. Besides this, there is a great necessity for establishing a training institute for women welfare workers in the City of Madras, which can have the Stri Sadana Home as a model centre. It is also very necessary that the Government should introduce the principal clauses of the Madras Suppression of Immoral Traffic Act in all those towns and areas of the Presidency where the Act is not now in force and should also extend to all those places where the Act is in operation at present section 8 (1) (a) of the Act, penalising those who live on the immoral earnings of others. These are essential items for the consideration of Government for the moral uplift of society. As I said before, since this Government is interested in the moral uplift of society, I have no doubt that they will do their utmost to promote vigilance work and remove this canker from society. I venture to express the hope that the Government will give due consideration to the points raised by me. With these few words, I support the cut motion."

SRI A. VAIDYANATHA AYYAR:—"Mr. Speaker, Sir, in dealing with the question of price control, we have an extreme anomaly, that while the agriculturist is paid probably about twice the price which he originally got for his produce, when he has

[22nd August 1946] [Sri A. Vaidyanatha Ayyar]

himself to purchase necessary articles, he has to pay four or five times the prices for those articles. With regard to cloth, and with regard to all other necessities which the villager has to purchase he has to pay four to five times. Price control is thus an absolute mockery. If it is to be confined to the producer of the foodstuff alone, why the man who is the actual producer and the maintainer of the community at large—I mean the labourer—is left to languish at the mercy of others who are making money by charging him more for other kinds of commodities, I cannot understand. For God's sake, try to bring control on all other similar articles which the actual producer has to purchase.

"Then again, Sir, we find there is another gap in the whole system. The villager, not the producer, but the village labourer, gets his wage in kind. There is no system by which he can have other articles, for instance, salt, fuel, kerosene and other necessities of life for which he has to sell his little stock. He is not the producer in the real sense of the term. He has to sell his meagre stock to somebody and so far as he is concerned, his position is therefore anomalous.

"Then with regard to foodstuffs. There is a wholesale black-marketing going on, but it is now difficult to say which item is not the subject of black-market at all. Take for instance, bengalgram. It is sold to the wholesaler at the controlled price at Rs. 28-14-0 per bag of 2½ maunds. But he sells it at Rs. 86 per bag. Similarly you find when according to controlled price, broken gram could easily be sold at 1½ measures per rupee, in the actual market, it is being sold at half a measure or 5/8 of a measure per rupee. It is a source of great complaint. While the whole blackgram is got at a controlled price and the person to whom it is supplied can easily sell it at one or 1½ measure per rupee, he actually sells broken gram at half a measure per rupee.

"Again, you find the system of licensing is very very unsatisfactory. It is a matter of common knowledge that in the mufassal when once a man gets his licence for sugar, he is a millionaire in the course of a year and why is this system perpetuated, it is difficult to understand. We find nevertheless people including respectable and influential men get their demands satisfied, by passing round a chit and getting four or five bags. Thus, the big men are satisfied and the poor have to go to the wall. Throughout it brings about a policy of co-ordinate corruption in the entire Department. On account of the Department not having been in existence before, all kinds of people are pitchforked into it for instance you find Supply Officers, Deputy Tahsildars, Firka Officers, Taluk Supply Officers and so on in charge of the work. When you complain to the Collector about this, he says he has not got efficient staff for it and as a result it is found that in the system of getting licences, some few unscrupulous people alone are favoured. As a matter of fact, as I said before, a man with efficient means gets what he requires. Now, this broken blackgram is supplied by Government at 1½ measures per rupee and even though the Department issues licences to 24 people, they actually sell it at half a

[Sri A. Vaidyanatha Ayyar] [22nd August 1946]

measure per rupee. Why this is perpetuated is not known. Time has to come and very quickly to remove all these inequalities. On account of the several Departments, the Supply Department, the Food Department and various other new Departments which have arisen on account of the war and on account of the distress of the people, you find suddenly some persons becoming rich and getting lakhs and lakhs overnight. There are no doubt honourable exceptions, gentlemen, whose names are guaranteed for honesty, but they are only very few. Generally, Sir, you find among the staff, from the Revenue Inspector and village officers upwards, people have amassed fortunes. For instance you suddenly find very poor fathers-in-law are giving fortunes by way of stridhan to their daughters and brothers-in-law acquiring property. If you really want to put an end to this system of black-marketing, you must first of all take a stock of all property, property which existed before the system actually came in and the property owned at present. This will enable the Government to know the *binami* transactions carried on in the name of brother, brother-in-law or wife."

* MR. SPEAKER:—"The hon. Member may continue his speech after lunch. The House will now adjourn to meet again at 2-30 p.m. to-day."

(After lunch.)

* MUHAMMAD ISMAIL SAHIB BAHADUR:—"Mr. Speaker, Sir, you know there is the bus and tram strike to-day and many hon. Members of the House are anxious to go home before it gets dark. Therefore may I request you to allow the House to rise to-day at 5 o'clock instead of at 6 o'clock."

* MR. SPEAKER:—"I shall consult the Hon. the Premier and also the Leaders of other Parties in regard to the matter of adjourning the House at 5 o'clock."

SRI A. VAIDYANATHA AYYAR:—"Mr. Speaker, Sir, I was mentioning this morning of cases where the officers of the Supply Department have suddenly placed themselves in possession of property. Not only that. I have known instances of even servants suddenly having got possession of property. Apart from all that, with regard to the distribution of rava for instance, Sir, coffee hotel-keepers seem to be the most favoured persons. They are getting rava from the Government at the rate of 2-7/8 measures per rupee. The actual rate for that article in the open market is Re. 1 per measure. They are thus making enormous profits thereby. In the Madras City, people who are generally taking meals in hotels have to starve under present conditions. The wheat food that is supplied is so bad that people prefer not to take it. They would rather go without it with the result that the surplus wheat is actually made into sweetmeats and given over to the same people, the customers, and again it is a source of fresh profit for them. I would suggest here also that some kind of investigation into the accounts of the officers connected with the Supply Department may be necessary. I would also suggest a

22nd August 1946] [Sri A. Vaidyanatha Ayyar]

further wholesale remedy for this to prevent persons who have been actually selling these articles in the black-market and making money. Even though they get huge amounts in black-marketing to which they are not entitled, it is seen they are also making large profits by such methods, which merely pass from hand to hand. I would, therefore, suggest to the Hon. the Premier to bring in legislation as soon as possible in order to take an account of the assets of the merchants in 1939 and their assets to-day, after making due allowance at 6 or 9 per cent and to treat the rest of the money as belonging to the poor consumer and setting apart a certain amount for the relief of the poor. That is the only way by which you can discourage black-marketing going on in the future. Further, with regard to the actual complaints about black-marketing, there is a great deal of difficulty in the mufassal. There are complaints that the richer fry go scot-free while the poorer people get caught. A poor woman who takes one rupee worth of rice at the black-market rate is given three months whereas a Chetti who sells three cart-loads through his servants is let off but the poor cartman is caught and tried. That is the way in which people get into an awkward situation. Further, people have got a notion that as soon as the Congress Government came in, all black-marketing would stop. As a matter of fact, on account of some influence, there are cases pending investigation and there is a feeling that justice is long delayed. I know of cases of persons in Ramnad district against whom proceedings are kept in abeyance for nearly two months. In Coimbatore, there is a case where a lorry was caught with loads of yarn. In Madras it is the same. A general feeling has come over the people that in the case of a private offender who is rich enough, justice is being delayed and obstructed in whatever way possible and in spite of the assurance of the Ministers. even now there are grave rumours going about in the City in the very Textile Department itself where some of the staff were brought before criminal courts; but as a matter of fact, departmental enquiries are substituted instead of regular enquiries in law courts.

"Further, with regard to the distribution of food, I may point out that it is really a great hardship for the villagers on account of wheat being given to people who are accustomed only to rice. According to existing ration people get five day-wheat and one day-rice and unfortunately, these poor people do not know how to convert wheat into material which they can consume. As a result of this, many people go starving. There are instances of acute distress among the people which I know of.

"One more matter which I wish to place before the Ministry. The constitution of the village committees is no doubt commendable but there are one or two difficulties which, I hope, the Ministry will look into. The number of village committees is about 36,000 for all the 24 districts and each village committee is expected to be a co-operative society and they get loans from Government. I consulted the Registrar of Co-operative Societies. For each village co-operative society, they say a limit of Rs. 5,000

[Sri A. Vaidyanatha Ayyar] [22nd August 1946]

would be necessary before Rs. 30,000 could be granted as loan. At least Rs. 30,000 is necessary for each village co-operative society. The result is that within the course of the next one month, the 36,000 societies have to collect Rs. 5,000 each. That means 18 crores have to be collected by the people themselves from villagers for the purpose. The net result will be Government should procure money and give them at the rate of six to eight times the amount as loan. This will work out to a modest sum of 108 crores of rupees. So, so far as the village committees are concerned, if they really ought to acquire foodstuffs, Government have to lend them such a large sum as 108 crores during the next six months. I hope Government will take note of this difficulty also."

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—

"Mr. Speaker, Sir, we are glad an opportunity has been provided to discuss in greater detail about food earlier in the debate by taking up this demand now. The debate has become absolutely necessary in view of the grave situation depicted to us by the Hon. the Prime Minister yesterday. Sir, as you are aware, this is the third occasion when we are having a full-dressed debate on the food situation ever since the Ministry took over. It is a matter of great gratification that this has become the first care of His Excellency the Governor and the new Ministry which has come into office now. Sir, members of the House and the public while appreciating the good efforts of the Ministry and the Department concerned in regard to the way in which they are tackling the food problem, also feel that they should have from time to time a review of the situation. From the review that we had so far, Sir, and from what has happened now in the country, we can certainly take credit for monopoly procurement and universal rationing and both of them are credited with success to-day. Now, Sir, we have got the right to know from the Government of India through the Madras Government, I mean this House has got the right to know through this Government from the Government of India whether these are merely high-sounding phrases or whether the quality of sacrifice has been practised throughout India in the right manner, and whether there have been universal rationing and procurement throughout India. Sir, a few days ago, I found a statement issued by the Government in which it was said that it was only recently at the Delhi conference that the Punjab Minister said that they were all agreed to monopoly procurement. That is in the year of grace 1946. When we have been agitating for monopoly procurement, in that part of the country, as you know there are other areas in India where there is enormous amount of paddy cultivation area, we would like to know whether there has been intensive procurement of paddy and rice in those areas and whether there is strict enforcement of rationing in those areas. If it is done, imports may be coming in and it will be possible to give better rationing to the people. Now, as we are mainly concerned with a reduced cut and with possible cuts in store in future, if no imports are forthcoming, that is a more serious situation we have to face than anything else.

22nd August 1946] [Kumararaja Sir Muthiah Chettiyar]

Sir, when I am on the question of rice, I am bound to refer to the promised imports and the actual imports. We were told that out of the 270,000 tons of rice expected in December, we could expect most of them—even the 270,000 tons is a reduced figure from what was originally anticipated. Now, in the statement of the Hon. Premier made the other day, we find that up to August we were promised 95,000 tons but we received only 50,000 tons. Regarding Siam rice, we were told a lot about it, but it has become clear on account of the way in which the Government dealt with the matter and on account of the way in which they were not prepared to face it, that there has been no move in the matter of getting rice from Siam. A few days ago, we found mention of a tall figure of twelve lakhs of tons of import of Siam rice. Subsequently, from this morning's paper, I find that only about 5 lakhs of tons of rice may be expected from Siam.

"We do not know what arrangements the Government of India have made with regard to this rice, which we have been led to expect for a long time. And now we are told that rice is coming from Indonasia; that is probably about 6 lakhs of tons and it is also stated that only 23 per cent of it is allotted to Madras. I ask, Sir, whether it is not possible for the Government of India to give all that comes from Indonasia to Madras and to give wheat to the other parts of India. You know that there are many areas where mixed diet is taken and people there had been accustomed to take wheat for centuries and they would without any inconvenience take more wheat and give us more rice. Hence I say, Sir, that all rice should be sent to this part of the country. I am not feeling for middle class people. I am only feeling for the poor people who used to talk of famine in those golden days if they had to pay more for their rice. Now it is not a question of paying more but it is now a question of being not able to get enough, so that from 12 ounces, we have come down to 10; and from ten, we have come down to eight. God forbid a further cut.

"It is very distressing to hear of the diversion of rice to other parts of India. I think we should voice forth our united protest against the diversion of rice to other parts in the country to Delhi and say that rice landed in other parts in India should be brought back here or if they are on their way, they should be directed to Madras.

"When I am on the question of rice, you will certainly expect me to say something with my personal knowledge of Burma, about the rice position of Burma. I shall not take up the time of the House with other questions but shall confine my remarks to that part of the subject which pertains to the question of our getting rice from that country. You know, Sir, that on account of unsettled conditions on account of lack of law and order in that country, about which Burmese politicians and the Burma Government are more anxious than ourselves, there has not been a sufficient procurement of paddy and rice. It is a well known fact that in various parts of Burma large stocks of paddy and rice have been still left and it will not be possible to get at them. At my

2-45
p.m.

[Kumararaja Sir Muthiah Chettiyar] [22nd August 1946]

instance a representation was made by the Southern India Chamber of Commerce about seven weeks ago and it has only just now been possible to send the former Commissioner of Civil Supplies to Burma. It has taken six weeks for the Burma Government to receive one of our officers. Let us wait for some time. I would like to impress upon the Ministry that it is absolutely essential that a permanent Madras Purchasing Mission should be set up in that country. I advisely use the words 'Madras Purchasing Mission' for two reasons. Firstly whatever is got in that country should reach this country and whatever that is purchased should be done by the Madras officers who may be temporarily placed under the Government of India for technical reasons. There should be several officers stationed in Burma and I would even go to the extent of suggesting that a purchasing mission in Indonesia and Siam should also consist of officers, if not wholly of Madrasis, at least partly of Madrasis. It is the Madras officers who would feel for the South Indian who is accustomed to eat rice and it is he who would feel how the South Indian cannot live without rice. I suggest that an efficient machinery should be set up at an early date; otherwise I am sorry to say that you may not be able to get any quantity for the next three years. If normal conditions are established in Burma, thirty lakhs of tons is her exportable surplus and that after all is the world's shortage of rice with which we are now confronted. I would appeal to the Viceroy to see that arrangements are made to help the Burmese tenants more than either the Burmese landlord or the Indian landlord, so that cultivation of lands may go apace and to procure paddy and rice, mill them and send to this part of the country. I have no doubt that if they come to know that the united voice of the august body of representatives of this Province demands more rice for their people, it will strengthen them to their efforts at all times. In addition to the Purchasing Mission to be stationed in those countries, I would also urge upon the Government to send a food mission headed by one of your Ministers during the interval between Assembly sessions to visit Burma, Indonesia and Assam. The Mission might consist of a few members of the Legislature and one or two non-officials and they might contact with public men of those countries and impress upon them the necessity for good feeling and for speedy procurement and early despatch. I have no doubt that personal contacts will go a long way to solve our problems not only those concerning the immediate question of food. I will only remind the House how nine years ago, I suggested, the despatch of a goodwill mission led by one of the Ministers to Burma; that occasion was slightly different for it was with reference to labour and I suggested that the Labour Minister might lead the delegation. If the goodwill delegation had started, I have not the least doubt we would have achieved our purpose. It will be essential for Indian Ministers to go to that country; probably that will cheer up Indian labour as well as Burmese labour and they will be very glad to meet them.

"From the statements made by the Hon. the Premier and the Hon. the Minister for Food in the Assembly and through the

22nd August 1946] [Kumararaja Sir Muthiah Chettiyar]

papers we see we are threatened with starvation followed by epidemic diseases, if enough rice does not reach us in time to this part of the country. If all the rice that India is going to get comes to this part of the country, I do not think there need be any starvation and the disastrous consequences attendant upon it. The only question is that whatever rice that is available for India should be brought here in time. Meanwhile this House does by its proceedings send its united voice in support of this Government and asks the Government of India and Lord Wavell to see that they mean to translate into what they have promised us."

MR. SPEAKER:—"All the members who have given notice of cut motions on this Demand have participated in the discussions. I suggest to the other speakers that they take up only five minutes for their speeches."

M. V. HYDROSS SAHIB BAHADUR:—"Mr. Speaker, I am glad that now at least we have realized that the food problem is an international problem and not confined to a small area or territory. We are also convinced that sin of our fathers have descended upon our heads. I say this because there was a time when our political leaders were asked to co-operate in the matter of obtaining food for India. That was a time when Provincial Ministers were not functioning in the various provinces and the Government of India wanted the co-operation of all parties in the country but it was refused by the major political party on the ground that some of the members of the delegation that were expected to go round the world were responsible for the Bengal famine. I am sorry that the major political party in India refused to co-operate and we are now faced with difficulties. Especially in provinces where undiluted Congress Ministries are working, we find that they are not favourably treated. Our Minister had been to Delhi and now he has returned with an empty hand and it would appear as if it were the revenge for their not co-operating with the Government at the initial stages. Anyhow we are not far late and we should try to explore all methods by which we can obtain better supply. Now there is the care-taker Government who might take care of us for some time. But what I say is that with the co-operation of all parties we should have at least one Central Government or two Central Governments in India which can find out methods of solving this problem.

"I wish to say a few words about the difficulties experienced by people in my district of Malabar. You know, Sir, that the stock held in Government depots are being distributed to retail merchants. The Food Minister who comes from Malabar knows the quality of rice that is being distributed in Malabar. No doubt, he comes from the surplus taluk of Palghat but at any rate he knows that there are 9 or 10 taluks which are deficit in rice and the rice distributed in those taluks is not fit for human consumption; I can even say that it is not fit even for cattle. I have seen the quality of rice distributed in Madras and I have seen the sort of rice distributed in Malabar and I still feel that rice supplied in Malabar is of a very low quality."

[22nd August 1946]

* **MR. SPEAKER** (addressing an outsider sitting on the benches intended for the Members of the Legislative Council):—
“The gentleman sitting in the place intended for the Members of the Council does not belong to this House or to the Council. He will please leave the House. This seems to be pretty common.”

* **M. V. HYDROSS SAHIB BAHADUR**:—“I believe the two Ministers who are expected in Malabar very shortly will be satisfied that it is so.

“In Malabar the month of Karkkatakam is the most dangerous season of the year for that is the rainy season and people are subject to starvation and misery. Rice supplied in Malabar is raw rice when the majority of people of Malabar take boiled rice. While this is the position here, I find that in some parts of the Ceded districts where the majority of people take raw rice, boiled rice is supplied. I suggest that this arrangement must be put down. It is as funny as supplying women with trousers and men with blouses and saris. That is the kind of distribution that we are having and I appeal to the Hon. Minister for Food to see that proper things are supplied to the people according as they are used to.

“Then in the matter of obtaining the required quantity from wholesale depots, great difficulty is experienced by merchants. Unless the merchant is prepared to adopt the old method of getting into the favour of the clerk in charge of the godown, he is not able to get the required quantity in time. I know cases where some people at Aricode and had been to Kallai to bring their quota of rice and they were not able to get rice for three days with the result that people of Aricode had to go without rice for two days. I would request the Hon. Minister to look into the matter and do the needful.”

3 p.m. * **SRI S. PARAMANANDAV RAYAR**.—“தலைவரவர்களே, இன்று நாம் இங்கு அரிசி குறைவு விஷயமாகப் பேசிக்கொண்டிருந்தோம். ஆனால் இப்பொழுது இந்த மாகாணத்திலிருந்து சிலேன் முதலிய தேசங்களுக்கு அரிசி கள்ளத்தனமாக ஏற்றுமதி செய்யப்படுகிறதென்று சர்க்கார் கவனத்திற்கு கொண்டுவருகின்றேன். ஒவ்வொரு துறைமுகங்களிலிருந்தும் அதாவது கடலூர், போர்டோனோவோ, திருமுல்லையாயல், வேளாங்கண்ணி, குலசேகரப்பட்டணம், தொண்டி, பாயிண்ட் காலிமர் முதலிய துறைமுகங்களிலிருந்து ஒவ்வொரு வாரமும் ஒரு வாரத்துக்கு 500 மூட்டை வதம் ஏற்றுப்பட்டு வருகிறது. இது சர்க்காருக்குத் தெரியாமலிருக்கின்றது. கள்ளத்தனமாக அரிசி கொண்டு போய் சேகரம் செய்து ஒவ்வொரு வாரமும் 500 மூட்டைகள் ஏற்றுப்பட்டு வருகிறது. மிராசதாரர்களும் இதர ஜனங்களும் சேர்ந்து இந்த விதமாக ஏற்றுமதி செய்கிறார்கள். இதை அவசியம் சர்க்கார் கவனிக்கவேண்டுமென்று தெரிவித்துக்கொள்ளுகின்றேன்.

“அடுத்தபடியாக Procurement அதாவது நெல்லு கொள் முதல் செய்யும் விஷயமாக சர்க்கார் அதிகாரிகள் சரியான கவனம் செலுத்துவதாகத் தெரியவில்லை. சிதம்பரம், விருத்தாசலம் தாலுக்காக்களில் ஒவ்வொரு மிராசதாரர்களும் ஏராளமான நெல்லை சுமமா கட்டிப்போட்டுக்கொண்டிருக்கிறார்கள். Grain purchase ஆபீசரிடம் முறையிட்டு நெல்லை எடுத்துக்கொள்ளவேண்டுமென்று கேட்டால் சரியாக உத்தரவு கொடுப்பதில்லை. மேலும் அவர்கள் மில் ஒளர்க்களிடம் நெல்லை வாங்கும்படி சொல்லுகிறார்கள். அவர்கள் வாங்குவதில்லை. பணக்கஷ்டத்தினால் அவர்கள் வாங்காமல் அப்படியே விட்டு விடுகிறார்கள். அதனால் விவசாயி

[22nd August 1946] [Sri S. Paramananda Rayar]

களுக்கு அதிகமாக கஷ்டம் ஏற்பட்டு நெல்லு வீணாக விறையமாகிறது. இந்தப் பஞ்ச காலத்தில் நெல்லு இல்லையென்று தவிக்கும்போது ஏராளமான நெல்லை வீணாகப் போவதையும் நான் சர்க்காருக்குத் தெரிவித்துக் கொள்ளுகிறேன்.

“மேலும் சில கிராமங்களில் ஏராளமாக தானியங்கள் பதுக்கி வைக்கப் பட்டிருக்கிறது. சுமார் 2,000, 3,000 மூட்டை வரையில் இருக்கின்றன. இது விஷயமாக கலெக்டரிடம் அனுகி இதற்குத் தகுந்த நடவடிக்கை எடுக்க வேண்டுமென்று சொன்னேன். அதற்கு அவர் டிஸ்ட்ரிக்ட் சப்ளை ஆபீசரிடம் சொன்னார், அவர் கவனிக்கிறேன் என்று சொன்னார். ஆனால் அவர் ஒன்றும் செய்யவில்லை. மறுபடியும் சொன்னேன், அடுத்த தடவை பார்க்கிறேனென்று சொன்னார், பிறகு அவர் லீவில் போய்விட்டார், இந்த மாதிரியாக 3,000 முதல் 5,000 மூட்டைகள் வரையில் கள்ளத்தனமாகச் சேகரித்துப் பதுக்கி வைத்திருக்கிறார்கள். இதையும் சர்க்கார் கவனத்திற்குக் கொண்டுவருகிறேன். இதைத் தக்கபடி கவனித்து அந்தந்த இடங்களில் அதிகமாகத் தானியங்கள் வைத்திருப்பவர்களிடமிருந்து உடனடியாக கொள்முதல் செய்யும்படி கேட்டுக்கொள்ளுகிறேன். இப்பொழுது ஒவ்வொருவருக்கும் 12 அவுன்சுதான் உணவுப் பங்கி கொடுக்கப்பட்டிருக்கிறது. விவசாயிகளுக்கு அதிக உணவு கொடுத்தால்தான் கஷ்டப்பட்டு வேலை செய்து அதிகமாக உணவு பயிரிட்டுக் கொடுக்க முடியும். அவசியமான அரிசியைக் கொடுக்க முடியாவிட்டால் அவர்களுக்குக் கேழ்வரகு மற்ற தானியமாவது அதிகமாகக் கொடுத்தால்தான் அவர்கள் கஷ்டப்பட்டு உழவு செய்து அதிக தானியத்தைக் கொடுப்பார்கள். கிராமத்தில் விவசாயிகளுக்கு மட்டும் அதிகமாக உணவுப் பங்கி செய்யவேண்டுமென்று கேட்டுக் கொள்ளுகிறேன்.

“இவாக்குவீசக்காக 5,60,000 ரூபாய் பட்ஜெட்டில் ஒதுக்கியிருப்பதாகத் தெரிகிறது. அது சரியாக அவர்களுக்கு போய்ச் சேருவதில்லை. பர்மா, மலேயா அகதிகளுக்குப் பணம் கொடுக்கப்பட்டு வருகிறது. பர்மா விலிருந்தும் மலேயாவிலிருந்தும் அநேகமாகச் சிலர் திரும்பிவிட்டார்கள். அவர்கள் திரும்பி வந்த பிறகும் கூட அவர்கள் உறவினர்கள் ஊரிலிலை யென்று பொய் சொல்லி பணம் வாங்கி வருகிறார்கள். இதை சர்க்கார் சரியாய் கவனித்து நிர்வகிக்கும்படி கேட்டுக்கொள்ளுகிறேன். இது விஷயமாக சர்க்கார் அவசியமான நடவடிக்கை எடுத்தால் இந்த 5,60,000 ரூபாய் செலவு செய்யவேண்டிய அவசியமில்லை. இதை மீண்டும் பரிசீலனை செய்து கணக்கு எடுத்தால் தற்சமயம் அதிக பணம் செலவு செய்ய வேண்டியதில்லை. அநேகமாக சில லக்ஷ ரூபாய்கள் சர்க்காருக்கு மீதம் ஏற்படும். இந்த முறைகளை கையாளும்படியாக சர்க்காரை கேட்டுக்கொள்ளுகிறேன்.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“Mr. Speaker, Sir, it was Mr. Ferrelly who said that one of the aims of this debate is to impress upon the Central Government the need to give a better quota for this Province. And he also said that before we ask something from the Central Government, let us be sure, whether we have done everything in our power to do, to deserve anything from the Central Government. To us, Sir, it has been clear that instead of putting things in order, the Government that is now functioning, have already begun to disturb things in order and they are also showing signs that they are going to disturb things furthermore. For example, it was doubted here, that these village committees will not be able to take up the responsibility for which they are intended. It has been shown and demonstrated; that even to-day, that no village committee has been properly constituted and taken up responsibility. It is for the Hon. Minister for Food to tell us, whether any village committee has been constituted and taken up responsibility. They are all in the initial

[22nd August 1946]

[Muhammad Abdul Salam Sahib Bahadur]

stage, of appeals asking the Collector, M.L.As. and Parliamentary Secretaries to interfere. Every day there is an appeal, and even to-day it has not been completed. It has been shown, that these committees have been constituted in such a way that village politics will not fail to interfere with the responsible work. Again, it has been suggested to the House that in future, commercial crops may be curtailed. But on the other hand we find that more licences to start Vanaspathi factories have been given for very mysterious reasons. In the Ceded districts, licence to start a Vanaspathi factory has been given not to a native of this Province, but to a northern God who happens to control a very big organization. It has been brought to notice that Mr. Birla has been given licence to start a Vanaspathi factory in the Ceded districts in spite of the fact that the Mysore Government refused him licence to start a factory in Mysore on the ground that no flag of the other Province should be flown in their territory. Even though the Advisors' Government refused permission to Mr. Birla, the people's Government have given him licence! The only reason that we can hear is that it will create an impetus to grow more groundnut. Will Government tell us why licence to an outsider was given? What will happen is instead of conserving the wealth of this Province for consumption by the people of this Province, it will be lost for our people. For it is very well known, that Mr. Birla is a capitalist of all-India fame, and he will take the entire stock out of the Province. What guarantee is there that the entire stock will be used for consumption in this Province? We expect a reply from Government on this subject.

"Again, Sir, nothing has been done to collect correct statistics to base calculations. The Opposition Benches have been told that their statistics are not correct. Only two months back, the Commissioner of Textiles, Mr. S. Venkateswaran, said that it is not possible to have cloth ration, to which the Muslim League brought forward an amendment that they want a ration, and that it is possible to have ration, and now the department has opened its eyes and it has brought forward cloth ration.

"Again, Sir, the Food Department, which is working by the side of the Assembly building is creating trouble in settling this food problem. Because the department has been created overnight, and many people are posted there, even though they do not know any work. Naturally it is not functioning properly.

"There is a department of food publicity in each district. Perhaps members may not be aware of it. There is one lecturer and there is a lady who is to prepare wheat food and demonstrate it to others. Are we Indians to be told how to cook food? I am told an American lady has been appointed to prepare food and demonstrate cooking in villages. I am told, Sir, the Board of Revenue, for whose abolition the Premier is personally inclined, has prepared a scheme costing six lakhs to demonstrate better cooking in villages. I say this advertisement on food is entirely a waste. It is beneficial only for the newspaper. The department itself is useless. I have with me a lot of literature, leaflets and

[22nd August 1946] [Muhammad Abdul Salam Sahib Bahadur]

pamphlets about wheat products, which is all one entire waste. All this advertisement, bands, in fact the entire department should go before we can do something. Again, Sir, for demonstrating cooking, a lot of stuff is given but no account is given (laughter) and when account is asked, they say, it is all demonstrated. Again, Sir, there is a demand for $2\frac{1}{2}$ crores for supply of milk powder. I ask: 'Why are not Indian products acceptable?' Why waste money on that? What is that powder food and non-powder food? Who is responsible for this? Who is going to use it? There is no mention as to whom it is to be distributed. Again, there is no information as to why Government have not cancelled that contract, even after assuming office. I say, this contract should be cancelled at once. Again, Sir, under Demand XXXI, 51 lakhs have been asked for sweet potatoes. So far nothing is known about it. No literature is supplied and no potatoes seen in this province. I ask for more details under this head. About dehydrogenation of sweet potatoes, I do not know what machinery is available for this Government to do this job.

"Again, Sir, it is said Government are concentrating on manure. Our information is some of the members of this House got permission to import manure, groundnut cake from Calcutta. After the permit was given, Government have asked the Agriculture Department to purchase groundnut cake from the factory owners in Hyderabad and other places. Why this circumvention and showing favour to some members? Unless you devote more attention to these matters it is not possible to solve the problem."

* SRI T. VISWANATHAM:—"Sir, I would not have intervened in this debate at this stage but for the very general remarks which my hon. Friend, Mr. Salam, has been accustomed to make, and which have once more been made during his speech. He has said, that in the formation of village committees, Parliamentary Secretaries have been going on interfering. It is a very general statement, a very misleading statement and if I may say so, a statement which need not have been made after the speech of the Hon. Premier in this connexion. The Hon. Premier told the House that on account of various complaints received in the formation of the village committees, the Government have directed Parliamentary Secretaries to tour in the districts, inquire into these complaints and try to get things amicably settled. It is only on the direction of the Government that Parliamentary Secretaries have gone into districts and still will go, and in spite of my hon. Friend, Mr. Salam, they will amicably settle all the complaints. This is all I have to say on the point."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"On a 3-15 p.m. point of information, Sir, when I spoke about interference, it was from personal experience. It was the Parliamentary Secretary to the Hon. Premier who came to Guntur and interfered after the entire process of forming committees has been finished. The Tahsildar sent up proposals, the Deputy Collector approved, and the Collector and Members of the Legislative Assembly approved, and then the Parliamentary Secretary came and interfered."

[22nd August 1946]

* MR. SPEAKER:—"The Minister will remember this when he answers."

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Mr. Speaker, Sir, it has always been the unfortunate lot of our province that we do not get justice from the Central Government. Many instances of this can be quoted. We are now facing a very serious problem as has been indicated by the Premier's statement. It looks as if that we shall not get even the necessary supplies. Then Madras Province has to face a very serious problem. What happened in Bengal will be repeated here. I feel that the Hon. Premier must himself rush to Delhi, and preferably he may take the Leader of the Opposition also along with him, in order to impress on Lord Wavell, the urgent necessity to send adequate quantities of rice to this province, failing which he should adopt measures against the Central Government, and even if it comes to a question of non-co-operation, he should say: 'we are ready.' After all we are responsible for the lives of 5 crores of people, and there is no point that the Central Government should treat this province in such a contemptuous manner. It looks as if the provinces who are more vociferous and who can bring pressure to bear upon the Central Government are having the day. Therefore, Sir, we should not take this lying down. We should also retaliate in whatever manner possible. Of course, it is the fashion of the day to launch strikes. Even if it comes to a question of retaliation by the Provincial Government against the Central Government, I would say 'Go ahead.' That is my suggestion."

"A number of speakers and particularly Mr. Shetty have been right in saying that the Government should come out with strong measures to control prices of foodstuffs. Unless and until it is done, the whole scheme will fail. The cost of living index not only in Madras City, but also in the mufassal, has gone up to 300 or 400 or even 700 per cent as was stated by some members regarding coconut. Therefore unless there is proper and effective control, it will not be possible for people who have been accustomed to use rice to take to other things. Government should urgently and immediately take steps to properly control prices so that instead of rice other things can be taken. Mr. Salam has rightly said that all the money that is spent on propaganda for encouraging people to take to wheat and other things, is a colossal waste. After all, what is this demonstration? The Premier himself has admitted that people, in spite of the publicity, have failed to take advantage of the availability of wheat. He has to admit that it is the fault of the department."

"Much has been said in the past with regard to rice supply to the Military department. Are we still supplying rice to the Military authorities? If that is so, we should stop it at once as that rice is required for our own province."

"Another point is with regard to the number of canteens that we are having in the province. There is a good deal of waste there. The Government should adopt strong measures to see that they are put an end to."

[22nd August 1946] [Muhammad Raza Khan Sahib Bahadur]

"Sir, the other day, a communiqué was issued by the Government of Madras with regard to the control of dinner and other parties in our province, and I want to know how many prosecutions have taken place. In spite of this communiqué, it is a common thing to see big dinner parties and other parties are being held in Madras. Why have these people not been prosecuted or at least warned? We have not been given any instances of prosecution or punishment for violation of these rules. You are allowing these people to contemptuously treat your rules and regulations. It is your duty to enforce them particularly when you are confronted with a serious problem. I appeal to the Hon. Premier that he must go to Delhi and impress on Lord Wavell. As I said, in the earlier part of my speech, he should take the Leader of the Opposition and the Leader of the European Group also because these are the only three parties in the Assembly although there are several members who are leaders without a party. With these words, I resume my seat."

SRI V. I. MUNISWAMI PILLAI:—"Mr. Speaker, Sir, we have seen in the press, after the return of my hon. Friend from Delhi, what this province will get. We were thinking that Madras Province was going to get its quota so that we may tide over the difficulty during the next three months. But, Sir, the statement that has been made by the Hon. Premier day before yesterday has cast a gloom on the representatives of the people in this Assembly, more so on all those members who represent the poorer classes and the depressed. Sir, it is the poor people, who are in the interior of the rural areas, that are exposed to all difficulties. My hon. Friend Mr. A. S. Sahajananda gave certain instances of how Harijan women had to starve and die. I specially plead, Sir, that the several committees that have been formed in the taluks and villages should look to the interests of these poor people so that when hard times come, these people survive. The Government have been able to have a chain of ration shops in the villages, and for want of paddy and rice coming to our province, the whole structure will break down causing great loss, damage and loss of life also. I think, Sir, great stress must be laid on the Government of India that the entire quota which was given for this province should on no account be taken away to other provinces. The agricultural labourers who do not get their share of wages in kind will also be exposed to the difficulty if rice were not to be given to them. It is not in all districts that have cultivation that agricultural labourers receive wages in kind. Take for instance South Arcot. Most parts of South Arcot depend on rain, and unless there is rain, I am afraid the people will find it rather hard. I understand, Sir, the Government of India has forced this Government to take 2,000 tons of dehydrated sweet potatoes. When this Government has got to fulfil this obligation, and when the Government of India is not supplying a bigger quota of rice for this province, why should this Government take 2,000 tons of dehydrated sweet potatoes? Not only that, Sir, I understand that the Government of India are trying to impose another 4,000 tons of dehydrated potatoes on

[Sri V. I. Muniswami Pillai] [22nd August 1946]

this unfortunate province. Whoever that may go to Delhi and make any representation, he must make it a point to impress this on the Government of India. We have any amount of potatoes to give to our people. Why should the Government of India encourage some foreign companies to have these potatoes dehydrated and thrust them on the people of this province?

"Sir, wheat that is given is not the kind of wheat that can be used in place of rice. There are two kinds. One is purely for making eatables, and for the villager it is impossible to make eatables without ghee or oil. The Government must bear this in mind and send to the villages only such kind of wheat that the ordinary agricultural labourer who returns after 8 or 9 in the night, may be able to prepare and which is something like rice.

"Sir, the potato control has played havoc in the village. My hon. Friend Mr. Bokkai Gowder has been pressing upon the Government that this control should go. The Hon. Prime Minister, when he was in the Nilgiris, was kind enough to see godowns after godowns where potatoes are stored. Under the control, potatoes could not reach the villages or towns. The potatoes are rotting there. I ask with all respect to the Government: 'Why should we not take immediate steps to do away with this control and let potatoes go to the villages and towns direct from the growers.' During the time of 'Grow More Food' campaign people took it in right earnest and raised potatoes. Now they do not find a market. A man from Ootacamund came here yesterday, and informed me that there is a large stock of potatoes unsold. Some time back the Hon. Minister for Food informed me that the Government will be buying the potatoes themselves, but nothing has so far come about. I think the control must be lifted.

"Another thing, Sir. The Government has been giving Rs. 80,000 as a matter of contribution to the Nilgiri District Board. I do not know whether the affairs of the district board are in a sound position. I wish Government take stock of what is going on there and set it right. I support the cut motion."

* P. K. MOIDEEN KUTTI SAHIB BAHADUR:—"Mr. Speaker, Sir, in rising to support the cut motion I have to thank and congratulate the Ministry for things that they had done and also for things that they had not done. I know that they are trying to do certain things for the benefit of the people—and they are very sincere people. But I feel, Sir, that their programme and plan are being upset by subordinate officers.

"Coming to the burning topic of the day, the problem of food, we are told that the Hon. Additional Minister for Food went to Delhi and represented matters to the Government of India. He went. He saw, but he did not conquer and I hope he was not conquered. There is no use of lip sympathy as the Hon. Premier put it. We cannot expect anything better from the Government of India, we all know, of which the Soldier-Viceroy, who is not a believer in words but a man of action, is the head. I would strongly urge upon this Government to appoint their own agents and send them on to different countries where rice is produced.

[22nd August 1946] [P. K. Moideen Kutti Sahib Bahadur]

"I said I was glad that this Government was trying to do certain good things, but in one matter I feel I am disappointed and that is the subject of the anti-corruption department. I have never found the Hon. Premier so firm as he was when answering questions about this department. I would request him to lift the veil of this gosha lady. I ask him: 'Why this secrecy about this department.' Let there be no secrecy about this, because it is all becoming a Gestapo affair. With regard to corruption, I will request you, Sir, to appoint a committee to go into the thing that has already been done. It is no use dealing with things that may be done or are being done hereafter. I have again to advert to that calamity that occurred in Malabar in the year of grace 1942-43 which was certainly, partly at least, official-made, and we know of officers who have amassed fortunes amounting to lakhs and even crores, who were responsible for sending rice to the States of Travancore and Cochin getting large sums of money, while the poor people of Malabar were dying of starvation.

"Another matter I want to urge upon the Government is to see that the communal rule is observed in all departments. There are departments which certain communities have monopolised. For example, the textile department is there. I know it is a department which works very unsatisfactorily. Just like this, there are many other departments where a just distribution to the communities is very much needed.

"Another matter is what we call the 'key posts.' I am told these posts are occupied by more than ordinary people, almost demi-gods, who can make or mar the career of so many people. As an example, I will only refer to the post of the Secretary to the Board of Revenue. I understand that this post has been filled all along by a particular community, and the same thing happens even in the districts. I want the Government to see that these key posts are also justly distributed.

"Another matter that I want to refer to is with regard to district administration. We find very many of the rules are being broken every day by the officials of the district. I would request the Government to appoint—they are very nervous about appointing committees—at least an officer to report cases of violation of the rules to the detriment of some communities."

* SRI P. NATESAN:—"If I rise to speak on this motion, it is because I want to express on behalf of my constituency the Southern India Chamber of Commerce, their keen disappointment and dissatisfaction at the manner in which the Government of India are handling the food situation to-day, and in particular so far as rice position is concerned. Sir, we sent a telegram on the 2nd of July to the Government of India about the availability of rice reported by people coming from Burma, and I understand that only recently the Government of Madras have decided to send Mr. Dixon to go and study the position there. I want to know if this subject came up before the Food Conference which the Hon. Food Minister attended. No good will result in sending Mr. Dixon all the way to Burma if we do not make arrangements

[Sri P. Natesan] [22nd August 1946]

to assist him by way of getting rice or paddy which is available in the interior to the port of destination, that is Rangoon. It may come by rail or by boat up to Rangoon. Any help we give to Mr. Dixon, I am sure will be greatly appreciated by him. Sir, I find that the Premier has given in his statement that, against an allotment of 55,656 tons promised up to the end of July, the quantity actually received was only 34,718 tons. I want to ask whether, when he found out that the full allotment was not likely to be received here, the Hon. Food Minister took up this question at the Food Conference itself. When an allotment is made, we are supposed to be confident that that particular allotment would come. But now we see that only 50 per cent of the allotment from May to August has come so far, and this is said to be due to the diversion of the steamers. I want to know why it is that the Government of Madras did not take steps to see that the steamers were not diverted. It is very necessary that we should go and sit on the Government of India and get things done. Otherwise, they will not move. The Minister in charge here ought to be in close touch over the trunk telephone day after day. Sir, I understand that 270,000 tons of rice was the allotment made by the Emergency Food Council, the stock being expected from Siam, Burma and Brazil, and that some negotiations have been going on with Indonesia for a number of months as a result of which the Prime Minister of Indonesia seems to have promised 700,000 tons of rice. I would like to know what steps the Government of Madras are taking to see that whatever rice is available from Java is brought to India. I consider that the transport problem must not be very difficult if only the Ministers will take energetic steps. I do not see any reason why rice should not be flown to India, when motor vehicles and animals can be flown by aeroplanes. When we are experiencing so much trouble in this country, I do not see why we should not arrange for aerial transport. I think the whole thing is due to the shipping position in the various countries. So it is no good sending deputations to the Government of India. It is the duty of both the Government of Madras and the Government of India to work in close conjunction and see that transport is effected.

"I would like to ask the Hon. Minister about the Food Conference which he attended. I see from financial journals that Bihar wanted more supplies of wheat, Central Provinces wanted wheat, and Siam said that she can export as much rice as possible to the deficit areas in return for mustard oil or some such thing. This is a thing which has got to be done in a businesslike manner. Somebody has got to be at it all the time; otherwise you would never get the rice that is intended for you. Sir, I would like to ask the Premier what he thinks of the rice situation during the next harvest season. He says: we can carry on with about 500,000 tons more till next January. Does he think that the prospects are brighter for the next year? Sir, I would like the Hon. Minister for Food to take particular interest and see that the name of present Government is not spoiled owing to some mistake on the part of the Government of India."

22nd August 1946]

* SRI A. VEDARATHANAM PILLAI :—"கனம் தலைவரவர்களே இந்த டிமாண்டில் மைனர் போர்ட்ஸ் சம்பந்தமாகச் சில வார்த்தைகளைப் பேச விரும்புகிறேன். முந்தின காங்கிரஸ் மந்திரி சபை இருந்தகாலத்தில் மைனர் போர்ட்ஸ் சம்பந்தமாக ஏராளமான தொகை இருந்ததைப் பொது நிதிக்காக எடுத்துக்கொண்ட காலத்தில் அவைகளின் அபிவிருத்திக்காக எவ்வளவு செலவாகுமோ அதற்கு திட்டம் தயாரித்து, நிதிக்களையும் ஒதுக்கி வைத்தனர். பாக்கியிருந்த தொகைதான் பொதுநிதிக்கு எடுத்துக்கொள்ளப்பட்டது. அந்த ஒதுக்கப்பட்ட தொகையின் மூலம் என்ன அபிவிருத்தி நடந்திருக்கிறது, என்ன செலவாகியிருக்கிறதென்ற விவரம் தெரியவில்லை. ஆனால், அந்த மைனர் போர்ட்ஸ்களெல்லாம் எந்த விதமான அபிவிருத்தியும் இல்லாத நிலைமையிலேதான் இன்னும் இருந்து வருகின்றன.

"தஞ்சாவூர் ஜில்லாவில் பல சிறு துறைமுகங்களுக்குள்ளே உதாரணமாக கோடிக்கரை துறைமுகத்திலிருந்து இலங்கைக்கு சுமார் 30 மைல் தூரத்தானிருக்கிறது. நாட்டுப்படங்களின் மூலம் செல்வதானால், 6 மணி நேரத்திலே செல்லமுடியும். புகைப் படகுகளிலே செல்வதானால் 2 மணி நேரத்திலே செல்லலாம். ஆனால் இன்று இந்தத் துறைமுகங்களெல்லாம் மூடப்பட்டிருப்பதால் அனாவசியமாக 600, 700 மைல் தூரம் பிரயாணஞ் செய்ய வேண்டியதாயிருக்கிறது. இவ்விதம் போவதால் 50 ரூபாய்க்கு அதிகமாக 3-வது வகுப்புப் பிரயாணி செலவு செய்யவேண்டியிருக்கிறது. அதோடு மண்புத்திலேயிருக்கும் க்வாரண்டின் சிறையிலே ஒரு வாரம் அடைக்கப்பட்ட பிறகு அனுப்பப்படுகிறார்கள். ஆனால் இதே பிரயாணி 2-வது வகுப்பிலே பிரயாணஞ் செய்வானால், அவர் மண்புத்திலே நிறுத்தப்படாமல் அனுப்பப்படுகின்றார். மூன்றாவது வகுப்பிலே செல்லுகிறவர்கள் வியாதியைக் கொண்டுபோவதாகச் சொல்லப்படுகிறது. ஆனால், அதே பிரயாணி 2-வது வகுப்பிலே பிரயாணஞ் செய்தால் வியாதியைக் கொண்டுபோவதாகக் கருதப்படுவதில்லை. கோடிக்கரையிலிருந்து சிலோன் 30 மைல் தூரத்திலிருப்பதால் இலங்கையிலிருந்து குடியேறியவர்கள் சுமார் 300 வீட்டுக்கு அதிகமாக எங்களுடில் வசிக்கின்றனர். இப்போதிருக்கும் பிரயாண திட்டத்தின் காரணமாக இங்கிருந்து அங்கே செல்ல முடியாமற்படி இவர்களுக்கும் இலங்கையிலுள்ள இவர்களுடைய உறவினருக்கு மிருந்த தொடர்பு 35 வருஷங்களுக்கு அதிகமாக அறுந்து விட்டது. ஏனெனில் இந்த 35 வருஷங்களாக கோடிக்கரை துறைமுகம் மூடப்பட்டிருக்கிறது. இவ்விதமுள்ள துறைமுகங்களை காங்கிரஸ் அரசாங்கம் உடனே திறந்துவிட்டால், ஏழைகளுக்கு எவ்வளவோ நன்மையாகவிருக்கும்.

"அடுத்தபடியாக இந்த துறைமுகத்துக்கு எவ்வித பாதுகாப்பும் இன்று இல்லாமலிருப்பதால், அங்கிருந்து இலங்கைக்குக் கள்ளத்தனமாக எவ்வளவோ நெல், அரிசி மூட்டைகள் ஏற்றுமதி செய்யப்படும் வழக்கம் இப்போது சர்வ சாதாரணமாகிவிட்டது. இந்தியாவிலே இந்த உணவுப்பொருள்கள் விற்கப்படும் விலையைக்காட்டிலும் எத்தனையோ மடங்கு அதிகமான விலைக்கு அங்கே விற்கப்படுகிறது. அங்கே ஒரு மூட்டை அரிசி 250 ரூபாய் வரையில் விற்கப்படுகிறது. ஒரு படி அரிசி சுமார் 2-8-0 ரூபாய்க்கு விற்கப்படுவதால், எவ்வளவுதான் பாதுகாப்புச் செய்ய முயற்சித்தாலும், கள்ளத்தனமாக ஏற்றுமதி செய்கிறவர்கள் ஏராளமான பணத்தை லஞ்சங்கொடுத்து ஏற்றுமதி செய்துகொண்டே வருகிறார்கள். ஆகையால் இந்தத் துறைமுகத்தைத் திறந்து வைத்து அங்கே சரியானபடி பாதுகாப்பு செய்தால் இந்தக் கள்ள ஏற்றுமதியை யொழிக்க முடியும். ஏராளமான பணத்தைச் சம்பாதித்துவிட்டதால், இந்த கள்ள ஏற்றுமதி செய்கிறவர்கள் லஞ்சத்தைக் கொடுத்துத் தப்பித்துக்கொண்டுவருகிறார்கள். இவர்களைக் கண்டுபிடித்து, கடுமையான தண்டனைக்கு உட்படுத்தவேண்டியது அவசியம்.

"இப்போது உணவு விஷயத்தைப்பற்றி அதிகமாகக் கூறப்பட்டது. எனக்கு அவகாசம் இல்லாததினால் அதைப்பற்றி அதிகம் பேசாமல் நிறுத்திக்கொள்ள வேண்டியிருக்கிறது. எங்கள் பிரி்காவில் 50,792 ஏக்கர நஞ்சை நிலமிருக்கிறது. கடலில் வீணாகப் பாயும் ஜலத்தைத் திருப்பித் தகுந்த நீர்ப்பாசன வசதியைச் சர்க்கார் செய்துகொடுத்தால், இன்னும் 2, 3 மாதங்களில் 50,000 டன்னுக்கு அதிகமாக அரிசியை உற்பத்தி செய்யமுடியும். இப்போது ஆமை வேகத்தில் போய்க்கொண்டிருக்கும் மராமத்து இலாகா பயர் பிரிகேட் (Fire Brigade) மாதிரி வேகமாக

[Sri A. Vedarathanam Pillai] [22nd August 1946]

வேலை செய்தால் இப்போது குறைவுபடும் 50,000 டன் அரிசியை இந்த ஒரு ஜில்லாவிலிருந்து உற்பத்தி செய்து கொடுக்க முடியுமென்று நான் சொல்லி முடித்துக்கொள்கிறேன்.”

* SRI B. ANANTHACHAR:—“ Sir, I shall just mention two matters for the consideration of the Government. One is the want of scheme or policy in regard to the absorption of the Indian National Army men and women. We learn that other Governments have taken forward steps with regard to the absorption of these men and women in various departments. We fail to see any indication from this Government. We have been promised many times. I am sure this promise will be fulfilled very early.

“ The other point is with regard to the Kannadigas. We Kannadigas have been distributed all over the Presidency and huddled in small portions beyond recognition. It is something like the most unfortunate China in the comity of nations. Even in conferences this linguistic group seems to be ignored and its existence too is not recognized. Many wrongs have been done to them, the latest being the election to the Constituent Assembly. In spite of all that, let me plead with one voice, on behalf of all the Kannadigas though a solitary voice here, let me with my feeble voice plead that something should be done to redress their grievances. Let us be treated as belonging to parts of the Madras Province; let us be given fair opportunities to do our share of work; let these younger brothers be not left all alone forlorn into the streets of the Madras Province. I want to impress upon this Government that something definite should be done to make the Kannadigas feel that they are a part of the Province and that they are being governed by the Congress Ministry in Madras. Thank you, Sir, I wish I had said all these things in Kannada.”

A number of members wanted to speak but due to the general desire of the House that they should rise at 5 p.m. due to tramway strike the Speaker called upon the Hon. Minister for Public Works to reply.

* THE HON. SRI M. BHAKTAVATHSALAM:—“ With reference to the remarks, Sir, made by hon. Members I have only to refer to the observations made by the Premier in the course of his reply to the general budget debate, that the question of minor ports is being considered by this Government. This Government are only too well aware of the importance of minor ports for the future trade of this Province. I recently visited the Tuticorin port and found how certain improvements which were suggested by the Port Trust were necessary and urgent. They recommended certain improvements which would cost 9.46 lakhs. This was approved by the ports technical committee and the Government have also agreed to the above works being carried out. Besides that, certain other important minor ports have also been examined by the Government. Recently the Presidency Port Officer and the Chairman of the Tuticorin Port Trust were asked to re-examine all the post-war schemes regarding minor ports and have recommended improvements to these ports: Ucanada, Masulipatam, Negapatam, Cuddalore, Adirampatnam, Calicut, Tellicherry, Mangalore, Malpe

[22nd August 1946] [Hon. Sri M. Bhaktavathsalam]

Coondapoor and Kalingapatam. This Government will do everything to effect the improvements. My hon. Friend, Sri Vedaratnam, asked whether any improvements had been effected to these ports already. I am not in a position to say that improvements have been effected already. Regarding his suggestion about traffic between Point Calimere and Ceylon, I have already suggested in reply to a supplementary question in this House that the previous ministry did take up this question for consideration and ultimately the Ports Technical Committee considered it was not a feasible proposition. Anyhow I am taking up the question now and shall see whether we cannot re-open the traffic. It is true that there was a large accumulation of 60 lakhs in the Minor Ports Fund in 1939. In the absence of a definite programme, the previous ministry decided to divert this large balance into the general revenue. Accordingly it was done. The previous Government, when they took for execution the three-year programme, found that the amount in the Minor Ports Fund was not sufficient. Sir, the previous Government gave a subsidy of 5.30 lakhs in 1944-45 and 1945-46. Subsequently that Government decided to retransfer the entire amount taken from the Minor Ports Fund with compound interest at 3 per cent less the subsidy of 5.30 lakhs already given. In pursuance of this, this Government, hon. Members would have noted, provided the sum of 2.08 lakhs for retransfer in this budget which is being discussed.”

THE HON. SRI R. RAGHAVA MENON:—“ Mr. Speaker, Sir, the food situation of this Province this year was very gloomy even at the outset, so much so that this Government had applied to the Central Government for allotment from imports, not only from foreign countries but also from the excess provinces of this country. The situation was very unsatisfactory, not due to the fault of the present Government. We were all dependent upon Burma rice which used to come to this Province and to other provinces without any difficulty, so much so the previous Government did not care to make this Province self-sufficient. There was nobody also to impress upon them the necessity of making this Province self-sufficient. Nobody thought of war and the chaos that will come in the wake of a war. When Japan invaded Burma, Malaya, Indo-China and Java the difficulty arose of getting rice as we wanted and hence we are in this position. Another fact that we have to note is that this Province is not independent in her action regarding procurement of food from abroad. Whatever can be got from our sister provinces that can spare in food-grains and whatever we have to get by way of import from abroad they have to come through the Central Government. Not only this year, if we do not become self-sufficient by the short-term irrigation works that we are doing, by the subsidies for sinking wells that we are giving and all other exertions that we are making on this grow more food campaign, we will have to depend next year also on the Central Government. The Central Government manipulates the whole imports and quotas of this Province as far as rice, wheat products and other millets are concerned.

[Hon. Sri R. Raghava Menon] [22nd August 1946]

The figures given by Mr. Ferrelly were not till the end of December. They were till October. The deficit that was mentioned till 31st October was 239,362 tons of rice and the rest millet coming to a total of 268,000 tons. This is a rice-eating Province and only a small portion of the educated people are able to take wheat. People are not taking up to the millet coming from abroad in spite of the propaganda which this Government have been doing. Psychologically it is difficult to change the kind of food and it is difficult for us to make them eat products such as millets and American millets. We are essentially lacking in rice, and the rice deficit up to the end of October is 239,260 tons. This quantity took into account also 300,000 tons of rice and 36,000 tons of millet which we thought we would be able to procure in this Province. As for procurement as a result of the subsidies, as a result of the bonuses and as a result of the grow more food campaign, we have been able to procure more than 300,000 tons of rice. Till 8th August of this month we have been able to procure 360,393 tons of rice, 369,000 tons of millet. So procurement in this Province was more than satisfactory and has gone beyond the target. We have till 31st October a few more weeks ahead. So taking all these into account, we must say that procurement was all right and the organization quite satisfactory and we have not wasted any money in giving subsidies or spending on grow more food. The difficulty is we have to take into account the maximum procurement because essentially this Province is a deficit Province.

4 p.m. "Therefore we have to depend upon the Central Government and the Central Government's behaviour towards us has not been satisfactory as all hon. Members of this House are now fully aware. In the Food Conference which I attended we pressed all these facts. We explained to them that our Province is mainly a rice-eating one, that our people could not eat wheat or millet and that the rice portion of the rations were reduced from 12 ounces to 10 ounces in May and from 10 ounces to 8 ounces in August. We further expressed to them that we wanted 500 thousand tons and odd till the end of October. We have been given only 119 plus 40 or 159 thousand tons of rice till 30th October. We also pointed out to them that while other States and Provinces were given more quantities, Madras was not treated fairly because we were given 159,000 tons when we wanted 600,000 tons.

"Taking into account the procurement till December, we calculated that there will be a deficit of about 571,813 tons of rice and deducting from that 277,000 tons which is the buffer for six weeks, the actual quantity that will be necessary till the 1st January 1947 will be about 295,000 tons. This we require in rice and cereals from the Central Government and foreign imports. We placed these facts before the Conference and pleaded that while our Province has already reduced the rice rations to 8 ounces, all other provinces still continue to give the 12 ounces of rice to their people although they are not ordinarily rice-eating people. The curious fact is that for the Punjab and Central Provinces the same scale of rice is allotted while the people require

22nd August 1946] [Hon. Sri R. Raghava Menon]

wheat. The Central Provinces is prepared to take up 10,000 tons of wheat from us in exchange for rice, but this has to be done only by the Government of India. We have asked the Central Government to permit this exchange and we shall see what they are going to do.

"As hon. Members are already aware, both the Conference and the Viceroy expressed their sympathy, but did nothing more. What I now say is that out of the 49,000 tons of rice that were allotted by the Central Government for this Province, we have got so far, i.e., till to-day, 13,000 tons. Now, 19,000 tons of rice intended for this Province coming in three ships have been diverted, one to Bengal, one to Bihar and the other to Ceylon. That is now our primary grievance. If these 19,000 tons had come over here, we would have been able to get through our present difficulties. Another steamer for August allotment will be reaching Madras only in September. So it is, Sir, that I submit that the present position of rice in this Province is unsatisfactory. Who is responsible for this? I do not know whether this Government can repose confidence on the future allotments. Perhaps the fact that civilians who are in the Food Department of the Government of India do not belong to Madras or that Madras is not represented in the Food Secretariat may be responsible for this. Probably they are Bengal civilians who do not know the conditions in Madras and we know that they are not very famous for their sympathies towards other provinces. I am not therefore able to locate who is responsible for this diversion of stocks on which we were pinning our faith for taking our Province through this month. For next month we have been given our proper share. As a matter of fact, I want to take hon. Members into confidence and tell them this. One of the Secretariat members who is responsible for distribution sent me a chit saying, 'Look here, Madras is going to get 40,000 out of 49,000.' Though this is rather overpitched, at least we may be sure of getting 30,000 tons. But I do not know what is in the mind of the Government of India. I do not know why they are treating Madras like this. The cry from Madras is from a little distance. But this Government is seriously considering the question of placing a responsible full-time official at Delhi for the purpose of putting forth our case before the Government of India and seeing that allotments are properly made. Even then, it will be difficult for us to know if supplies are diverted from Madras to other provinces. The hon. Mr. Natesan asked, 'Why don't you countermand?' How can we know it, Sir? In the present case it is only after diversion has taken place that the information came to us by telegram. We expected that the Central Government would be impartial in this matter. Of course we have done what little we could. We have made every effort possible to get immediate relief. That is where the matter stands regarding these diversions. Again I say that it is the Central Government that has put us into these difficulties. Instead of coming to our rescue by allotting greater quantities going to become a permanent feature of the Budget but is

[Hon. Sri R. Raghava Menon] [22nd August 1946]

and instead of appreciating how we have done everything that is humanly possible to perfect our procurement system, they are keeping quiet. Hon. Members may be interested to know that at the Delhi Conference it was revealed to us by the Bengal Minister that out of a procurement programme of 9,400,000 tons, the quantity that they were able to procure was only 600,000 tons. That is how Bengal stands in the matter of procurement. On the other hand, in this Province both procurement and distribution of grains are carried out through the official agency. There may be mistakes and shortcomings in individual cases; sometimes the rice supplied may be bad. These are things which the Government will look into and the officials responsible will be properly dealt with. I do not say that there are not bad officials; nor do I claim that everything is perfect in our procurement system. But all the same we have brought into existence a system which is very fine and very satisfactory. That has also been admitted by very responsible persons in Delhi and in foreign countries. They said, 'You have done everything you could. You deserve our sympathies and we shall do all we can to help you.' That was the promise that was made. Now it is true that I have come with empty hands. But I hope my hands will not remain empty for a long time. I expect the Central Government is bound to move. If the present Central Government does not move, in the very near future there will be another Government in its place which will treat all provinces equally and equitably and in a way that no Province shall suffer.

"Meanwhile this Government will do its best to take all measures to see that the quantity diverted is restored to us. In the coming months, which are lean months, procurement will not be as simple as it is and our long-term crops will be available only in January or February next. I hope that the Government of India will not treat us in these lean months in the same way that they have treated us in August.

"In this connexion, Sir, I want the co-operation of all hon. Members of this House on this important question. The producers in this Province are now having 16 ounces of rice which the Government have allowed to them. Some hon. Members suggested that they may be asked to surrender a portion of it, either 2 ounces or 4 ounces. I therefore request all hon. Members of the House, whether they belong to the Congress Party or the Muslim League or the Independent group—and I know they are all men with great influence among their constituents—to go round their constituencies and tell their people, 'This Government does not want forcibly to take back 2 ounces or 4 ounces of your rations. Please surrender 2 or 4 ounces of yours.' If they do so, and if they take also the help of the village committees, I am sure they will be able to secure large quantities of rice and they can also do a great deal in the matter of distribution of food and other essential articles that people need. These village committees are hereafter going to be the village executive and they will be of great help in this matter. I wish that hon. Members, as soon as they

[22nd August 1946] [Hon. Sri R. Raghava Menon]

return to their constituencies will persuade the producers to surrender as much quantity as possible and if in addition they would ask the producers to take the trouble to search their homes, they will find a little extra quantity of rice which they would have laid by for a rainy day. We know that many of these producers, fearing that there would be famine this year, would have stored some quantities of rice here and there. With a little persuasion, they may be able to spare us something. They may also be told that this Government would not take any action against them, because we are concerned more with procurement. I once again request hon. Members to take these hints when they go back to their constituencies and do all they can to help the Government to ease the situation.

"Another thing I wish to mention is this. There are complaints that sometimes raw rice is supplied when boiled rice is required and *vice versa*. I may state that this is all due to the difficulty of having to rush up stocks. When stocks are not available and when transport is difficult, these things are inevitable. It is always difficult to get boiled rice. But those are small inconveniences which people must be prepared to put up with at this time of food crisis.

"One of the hon. Members suggested that we must control all articles of food which are essential. That is perfectly right and this Government is considering the question. But you must remember that once we begin to control, difficulties crop up. Recently when we wanted to control the price of coconut oil, there were cries from every quarter, from Cochin, from Travancore, etc., where the price of coconut and coconut oil has risen by 600 to 700 per cent. When the question of control affects any of the producers, they are up against the Government. But all the same the Government are seriously thinking of controlling certain essential articles of food and they will take proper steps in the matter.

"I want to say a word about sugar and other necessary things. The Government are aware of the unsatisfactory working of the sugar rationing system. But the system has come into force only just now and whatever defects there may be, steps will be taken by the Government to remedy them and ensure equitable distribution."

* SRI R. V. SWAMINATHAN:—"On a point of order, Sir. 4-15
Am I not right when I say that the hon. the Speaker should not p.m.
be giving false hopes to Members?"

* MR. SPEAKER:—"It was not a case of giving false hope at all. If time permitted, I would have given the hon. Member a chance to speak on this Demand."

THE HON. SRI T. PRAKASAM:—"Mr. Speaker, Sir, in regard to this Demand for well over Rs. 15 crores, I may at the very outset explain how this figure has been arrived at.

Ports and Pilotage, Rs. 2,00,000.

Miscellaneous, Rs. 5,20,04,600.

[Hon. Sri T. Prakasam] [22nd August 1946]

Expenditure on account of State Prisoners and Detenus—

- Cost of Books and Periodicals.
- Donations for Charitable purposes.
- Irrecoverable temporary loans and advances written off.
- Rents, Rates and Taxes.
- Contributions.
- Miscellaneous compensations.
- Demands for Members of the Fighting Services for conspicuous Gallantry in the Field.
- Miscellaneous and Unforeseen charges.
- Charges in connexion with the visit of High Personages.
- Rewards for Destruction of wild animals.
- Miscellaneous charges for the treatment of patients at the Pasteur Institute.
- Demarcation of boundaries.
- Relief Measures—Test Works for Burma Evacuees.
- Compensation paid out of collective fines.
- Staff cars for the use of officers.
- Charges in connexion with State functions.
- Transfer to the Fund for Village Reconstruction and Harijan Uplift, Rs. 4,00,00,000.
- Miscellaneous charges.
- Extraordinary charges.
- Madras Savings Schemes.
- Small Savings Schemes.
- Motor Spirit and Tyre Rationing Schemes.
- Establishment for Price Control (Civil Supplies).
- Free distribution of milk to school children and priority consumers in the mufassal.

“ This single item which was criticized by some hon. Members comes to Rs. 2,30,29,000. The Madras Provincial Soldiers', Sailors' and Airmen's Board, and the amounts transferred from 85-A Capital Outlay on Provincial State Trading Schemes total Rs. 15,57,86,300. Of these items, 4 crores are earmarked for Village Reconstruction and Harijan Uplift. Under Demand XI on page 124 of the Budget one crore has been provided for Village Reconstruction. Under Demand XXI, on page 376, two crores have been allotted for spinning and weaving and other cottage industries. These two Demands are included in Post-war Reconstruction. They are recoverable from the Government of India with reference to paragraph 4 (2) of their letter No. D-2056-P/45, dated 24th November 1945. Therefore, Sir, these items we are now spending on the reconstruction of the villages. These two demands are under the post-war schemes. If we start work on post-war schemes, according to rules, we will get the amount back from the Government of India. This will not be exclusively our own item of expenditure. We will get a proper share from the Government of India. Under Demand XXIII there is one crore provision for Harijan Uplift Fund. These are the details with regard to these 15 crores odd about which I have now furnished particulars.

22nd August 1946] [Hon. Sri T. Prakasam]

“ Mr. Ferrelly tried to establish that there was a discrepancy in the figures quoted by me. When I spoke in May last I said that taking into account a procurement of 300,000 tons of rice and 36,000 tons of millets, there will still be a deficit of 268,000 tons. That figure related to the end of October 1946. Please note that these figures relate to the end of October 1946. I mentioned on that occasion that we shall require further considerable assistance to see us through till the next main crop becomes available in January 1947. Estimates have been revised for the period from 1st of July to the 31st of December. Please note that this is the estimate till the end of December, allowing for a buffer stock of six weeks. The further assistance that we shall require, excluding the allotments for July to August, amount to about 563,000 tons. It will thus be seen that there is really no discrepancy and the difference in the figures is due to the fact that they relate to different periods.

“ Mr. Ferrelly went on to argue that by the reduction in the rice portion of the ration there should have been a saving enough to cover the deficit. The facts are that when the rice portion of the ration is high, the percentage of purchases to requirements is low and that they rise with the reduction in the ration. In the statutory rationed areas the percentage of purchase was 61 in January and in July it has risen to 80. There is no appreciable reduction in the quantity purchased. In January the quantity purchased by the card-holders was 75,000 tons and in June it was 74,000 tons. It will thus be seen that the saving by the reduction of ration is not proportionate to the cut and is not enough to make up for the deficit. It has been suggested that the share of the producers who have been allowed to keep one pound per adult should be reduced to 14 ounces and the balance should be taken from them. It has been the experience in all places that the producers on whom the future crops depend should be kept contented. The complaint is that even this one pound is not enough for them. Further procurement operations have been carried on for eight months and this is nearly the end of the season. If further collection from them is to be started, it cannot be completed in sufficient time to help us during the crisis.

“ I took credit for a procurement of 300,000 tons of rice and 36,000 tons of millets from 1st of May to 31st of October. The actual quantity procured up to the week ending 8th August 1946 are 360,966 tons of rice and 51,789 tons of millets. With yet two months and three weeks to go, the response has been splendid due, no doubt, partly to the bonuses sanctioned by the Government. I am confident that producers will continue to show the same measure of co-operation and spare all the grains that they can to help us through the crisis. An appeal will also be made to them to reduce their portion of the ration to 14 ounces and sell the balance to the Government agents.

“ The figures of procurement are a striking commentary on the criticism that the setting up of these village, taluk and district committees would impede the procurement operations of this

[Hon. Sri T. Prakasam] [22nd August 1946]

Government. When these committees were proposed by me there was that criticism in the House just as there has been now, though not on a large scale, that these were unnecessary and were not likely to be of much use to the Government. But from the present criticism from the various quarters that certain communities and interests have not been adequately represented in the committees, it is evident that all classes have come to realise that these committees have come to play a useful part. I have already said that instructions have been issued to all the officers that adequate representation should be given to all the interests. The 30th of August has been fixed as the last date for receipt of complaints and they will all be examined by the Parliamentary Secretaries. After these complaints are enquired into and the committees are formed, if it is still found there are inequities in representation, I repeat my assurance that I shall take steps to set them right.

“There has been some amount of criticism that price control has not been effective and black-marketing continues to flourish on a large scale. The Government are aware that black-marketing does continue and are taking steps to put it down. I have already said that a special staff is at work on it. I only crave the patience of the hon. Members and also the public in regard to this matter.

“In regard to milk and milk powder the position is this. There was considerable excitement when we considered a single item of milk powder coming from foreign countries valued to the extent of two crores and thirty lakhs of rupees. I am trying to explain that matter. In March last when the position seemed alarming and there was no promise of assistance from abroad, the previous Government placed an order for 10,000 tons of milk powder, 6,000 tons of skimmed milk powder and 4,000 tons of whole milk powder—at an estimated cost of 234 lakhs of rupees. When this Government took charge, they felt that there was no sufficient justification for such a huge expenditure on this one item alone, and they started negotiations with the Government of India to cancel as large a portion of the order as possible. The Government of India had already placed orders with the United States of America. We have to note here the large interval between the order and the supply due to uncertain and difficult conditions of transport. The Government of India have finally said that orders have already been placed, it was not practicable to cancel the order and that this Madras Government must take at least 6,025 tons of skimmed milk powder and 1,500 tons of whole milk powder estimated to cost 145 lakhs. Out of this, 1,320 tons is likely to be taken by the adjoining States. It is expected that the total commitment of this Government will be reduced to 122 lakhs. As this is a special item of expenditure, the Government of India have been addressed to make a two-thirds grant and the result is awaited. Even with regard to this amount to which we are liable, we are negotiating with the Government of India and requesting them to bear at least two-thirds of the cost, so that we may be left with the minimum expenditure. This reconstituted milk powder is intended to be distributed to school children attending elementary schools in the worst affected districts. As regards

[22nd August 1946] [Hon. Sri T. Prakasam]

Madras City, the distribution will be made through the headmasters of the institutions who will be entrusted with the duty of converting this powder into milk and distributing it to school children. The Friends Service Unit of America has placed the services of two officers who have considerable experience of this work in Bengal to supervise this distribution. As regards the Madras City the children attending the Corporation schools are being given free supply of fresh milk. When this scheme is completed towards the end of the year, it is proposed to supply them also with reconstituted milk. Nutritional experts have held that during the time of food shortage, children, the future citizens, should be protected by such supplementary foods. This is not certainly going to become a permanent feature of the Budget but is a special measure of relief due to the present food crisis.

“Similarly in regard to potatoes an order for 5 million pounds was placed with the United States of America in February and March last year, when the situation was very dark indeed. Since this commitment had been entered into by the previous Government this province will have to accept it. This again will not be a permanent feature.

“I have been for a few days on the top of the Ooty hills and I happened to see the condition of the potatoes that were stocked there and heard the complaints of the producers. The hon. Member, Mr. Munuswami Pillai, has referred to this matter and made his own suggestions. I may assure the hon. Member and other hon. Members also that every attention will be paid, if not already done, to this item as well and relief extended to producers of potatoes in our own country.

“With regard to minor ports, criticism has been made here that in the past a good amount from the funds relating to the minor ports had been taken away by the Government when some of us were in office in those days. Much time has passed now and we have reached one definite stage, at any rate, and we are awaiting another stage before long. I only hope, Sir, with Pandit Jawaharlal Nehru, the President of the Congress, who has been making supreme efforts to get the co-operation and support of those friends who were differing from the Congress, that these differences will soon disappear. We have come to a stage, Sir, when we have to take good care about these minor ports. We had been peculiarly placed with regard to these minor ports. They have been there, but we have not been in the habit of considering what those ports had been doing, how we were all interested in them and how ultimately we would be obliged to use these ports to our best advantage with regard to all our future work. Now, every one realises, at least with regard to these minor ports all along the coast, the experiences and the sufferings undergone by our capitalists and our commercial magnates, which is all a matter of history now. We will not be obliged any longer to ignore the minor ports. We have to develop them alongside the major ports. We must also develop the coastal trade and the shipping business which

[Hon. Sri T. Prakasam] [22nd August 1946]

must be taken up by the merchants and capitalists of this country. No one need have any fear that minor ports would be a neglected item hereafter. They will receive the best attention. If everything goes well at the top, if a National Government comes into existence, whatever might be its character on the constitutional plane, if power is put into the hands of the Members of the National Government, this will mark a definite stage in the future of India and everything will change along with that.

“With regard to the blackmarketing business, Sir, the Government have been attacked that substantial results have not been achieved. We have been on this work only for two months or at the most for three months. During the first month, out of the three months, we could do nothing as we were not able to locate the places where this blackmarketing had been going on. This blackmarketing has been handed down to us who formed this new Government by the previous Government and by the conditions that existed previously. Before we came into office, Sir, when we were talking of blackmarketing and trying to understand its nature, we were all bewildered as to what this blackmarketing was about. There was not a single item in which you could not find blackmarketing, including even the purchase of railway tickets.”

* SRI KALLURI SUBBA RAO:—“On a point of information, Sir.”

* MR. SPEAKER:—“The Hon. Premier has not given way. The Hon. Member may resume his seat.”

THE HON. SRI T. PRAKASAM:—“Hon. Members may take it from me, Sir,—it may be a repetition of what I have already stated—that I have been trying to study and understand, from the reports and complaints and other literature coming into my hands, what this blackmarketing is. I was an ignorant man, I was not able to understand the import and the secret of this blackmarketing science. It had become a science, Sir! It is not a matter of one day, but it has been going on in that manner for a very long time.”

* MR. SPEAKER:—“What is the point of information, Mr. Subbarao, which you wanted to raise?”

* SRI KALLURI SUBBA RAO:—“I wanted to say that we cannot enter even the Revenue Board office without paying Re. 1 as gate fee.”

THE HON. SRI T. PRAKASAM:—“Nothing new, Sir. (Laughter.) The system of Government has been such that those who are on the top were not able to understand what has been going on at the bottom. The whole thing became rotten from the bottom. And the Collectors or superior officers—the top men—were not able to understand it. Hon. Member, Mr. Subbarao, said that he was not able to enter a particular office without paying ‘gate fee.’ But I may say that not only in this country but even in the most advanced countries this thing has been going on, but not in the worst possible manner in which it has been going

22nd August 1946] [Hon. Sri T. Prakasam]

on here. If we endeavour by constructing from the bottom this opportunity for corruption, for blackmarketing, will not come into existence again. Only we must have your support from the beginning to the end, and then you may judge us after a couple of years whether this blackmarketing and bribe taking by the officials would not disappear altogether when the constructive work which we have started is completed. There are friends, friends who have got certain preconceived ideas and they cannot reconcile themselves. There are friends now here where we are sitting who imagine that all that is done from the bottom is useless waste. They say: ‘We have got mills and we have only to work up on those mills.’ The mills have not been proved to be invulnerable, that whatever happened to the rest of the world the mills would stand alone and would supply cloth. That thing has been thoroughly disproved on account of the conditions of the last war. The mills have become the weakest things. How was it going on when we were getting cloth from Manchester, from Japan and from America? The whole thing collapsed in one second. There was one Secretary of State in America who said: ‘You may build houses hundred storeys high so that they may touch the Heavens, but all will collapse at a touch.’ (Interruption.) ‘Why not?’, says my hon. Friend Mr. Town. Certainly, Sir. These mills are not the security, the palaces are not the security, the engines are not the security, the human race will go on living in its own way even when all these things go to ashes. I notice my hon. Friend laughing and enjoying because he has not been affected, being in India. He would have been affected if he had been anywhere else in the world near the belligerent countries. He need not have been in a belligerent country itself. All the innocent countries that had been independent and established their own trade, business, navy and army and were in every respect considered absolutely independent countries, where are they to-day? How could people who understand these things say that we are doing anything wrong or anything out of date? Sir, we are doing just the right thing now, at this time.

“Then I come to wheat propaganda. Wheat has been known in this country and maize also has come recently from America and other places to our country. The people, out of ignorance, are refusing the two ounces of wheat or the two ounces of maize given to them. They must be made to understand that they are eatable things, much better things than the rice, which is worse than wheat or maize when the kanji or the essence is drained away. That sort of education was intended to be given by our propaganda. The Food Commissioner and myself discussed this matter. He had some ideas of his own. After some discussion, we came to the decision that instead of sending cooks and propagandists from place to place to teach the people the method of cooking these things, it would be better to send for some individuals from the various villages, firkas or taluks, to a central place, make them see how wheat and maize can be cooked, so that they may teach the people in their own localities to use these things and not refuse the maize portion of the ration. Maize has been

[Hon. Sri T. Prakasam] [22nd August 1946]

the staple food of the working classes in this country. It is to educate the people and remove the prejudice that has been created in their minds on account of 'higher civilization' that this propaganda was intended. We are not spending anything on any objectionable scheme.

"I told the labourers in Pykara who had been taking only the rice portion of the ration and leaving out the wheat portion, that I myself had been eating wheat. I told the officers there that each one of them should take one or two workmen into his house and show them how to prepare these things and let them understand how they were themselves eating those things. It is this sort of education which we have to give to our people who do not understand these things.

"Sir, many other valuable suggestions have been made by hon. Friends here. I have made a note of them and we shall do our best to give effect to those suggestions if we have not already adopted them.

"Now, Sir, this debate has become very important on account of the latest developments in the food situation of the province. My hon. Friend Mr. Raghava Menon gave you a graphic description of what happened at the Delhi Conference which he attended along with the Chief Secretary, Sir S. V. Ramamurthi and the Food Secretary, Mr. P. V. Subba Rao. They tried to prevail upon the Government to do justice to Madras, but in spite of that, the moment they came away from Delhi, the food that was expected to come to Madras was diverted elsewhere. By whom was it diverted? By Lord Wavell? I cannot reconcile myself that Lord Wavell would have become a party to any such action." ('Hear, hear.')

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"He does it in everything."

THE HON. SRI T. PRAKASAM:—"My hon. Friend Mr. Hameed Khan should have the patience to hear me, understand the meaning of what I say and then interject."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Those words are enough for me."

THE HON. SRI T. PRAKASAM:—"What is his experience of the Viceroy?"

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"The world knows him."

THE HON. SRI T. PRAKASAM:—"The world knows him, he says. My hon. Friend should not be carried away by his impression of Lord Wavell who had been dealing with two sections in the matter of the formation of the Provisional Government or the Interim Government. We are not to judge him by such happenings or by the statements that have appeared in the Press. I am a great critic myself of the Press, but we are now on the food question."

22nd August 1946]

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"It is an alliance."

THE HON. SRI T. PRAKASAM:—"I do not really believe that Lord Wavell would have promised my hon. Friends: 'Your case is right, you deserve everything. I will give you every help' and then immediately they turned their backs dealt with them in a quite contrary fashion. He is not the man. But there are others who have done it."

* MR. SPEAKER:—"May I know how many more minutes the Hon. Premier wants?"

THE HON. SRI T. PRAKASAM:—"Not many minutes, Sir, I will close now. We should not blame the Viceroy as such, for what some others have done. This House has entered its protest in the strongest manner to make Lord Wavell and the Government that may come into existence understand that there are some men who do not hesitate to do a wrong thing and who would do wrong consciously. I hope this protest of ours will result in the mistake that has been made being corrected and in our getting the things that are due to us. We should make it known to the Viceroy and his Government that if anything wrong or untoward should not happen to us they should take good care to see that what is allotted to us reaches us and does not go to a wrong place.

"In the light of what I have endeavoured to place before the House may I request my hon. Friend to withdraw his cut motion?"

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Before the mover of the cut motion can withdraw his motion, may I know in what shape or form are we going to represent to the Government of India the point of view of this House on the food situation?"

* MR. SPEAKER:—"The whole proceedings will be sent to the Government of India."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"Is it going to be in that form or in the form of a resolution?"

MR. SPEAKER:—"The hon. Member is a good Parliamentarian and he must know that we cannot pass a resolution on a budget demand."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"I am not questioning your ruling, Sir. But I suggest that there must be some definite shape or form, something like a motion or resolution in which the protest of this House should be expressed."

* MR. SPEAKER:—"All the proceedings can be sent with the comment of the Hon. Premier."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"If the cut motion was withdrawn would it not appear as if the Opposition accepted the position of the Government on the food question in this Province?"

[22nd August 1946]

THE HON. SRI T. PRAKASAM:—"My hon. Friend is stretching a point too far. We are not on any legal position just now. The whole debate is intended to impress upon the mind of the Viceroy and that of his Government whoever they may be that this is not a matter that could be neglected by them any longer. I have expressed myself in strong terms on your behalf that the Viceroy and his Government should not be postponing these things and should not be allowing others to commit such wrongs against this Presidency. I hope it will make them realise that such action will in course of time make them deal not with living beings but dead bodies here. I have warned them and the whole proceedings containing everything that has been stated by hon. Members here will be a warning to Lord Wavell and his Government that they should not allow things to go wrong any further."

5 p.m. * MR. H. S. TOWN:—"How many weeks we will have to wait for these proceedings to be printed and sent to the Viceroy, Sir?"

* MR. SPEAKER:—"As soon as possible."

THE HON. SRI T. PRAKASAM:—"No long time will be taken; to that extent I can assure the hon. Mr. Town."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Do I understand the Hon. the Premier to say that he gives the undertaking or guarantee on behalf of Lord Wavell that things won't go wrong hereafter, as they have been going wrong in the past?"

THE HON. SRI T. PRAKASAM:—"Surely not, Sir. I have seen many things worse than this also. No such guarantee will be given. We will be prepared to fight every inch of it, until we establish what we want and we get what we want."

* ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I submit, Sir, for your consideration, that if the cut motion is withdrawn, it would be tantamount to the Opposition accepting the food situation in this province to the extent at least to which this present Government is responsible? Will it not be so, Sir? The question as to whether or not the Government of India is responsible is a separate thing. It is not by this motion or by this debate that we are going to set right things, at any rate so far as the Government of India are concerned. Therefore, if the cut motion is withdrawn, it would amount to this, that we accept the position that is held by the Government of Madras so far as the present position is concerned. For, we know that the rice quota has been reduced and the people of this province have been suffering. Is the Madras Government responsible or is the Government of India responsible wholly or in part—that I suppose will be the position, Sir? I do not know why the cut motion should be withdrawn."

THE HON. SRI T. PRAKASAM:—"Then it may not be withdrawn, if the hon. Member feels so strong about it. That is not the point here. The interpretation which he has tried to

[22nd August 1946] [Hon. Sri T. Prakasam]

put upon the proceedings that have taken place here and particularly upon the technical withdrawal of that cut motion is a wrong interpretation and he ought not to put such an interpretation. It is a formality that we are going through. The world knows, the Viceroy knows, the Viceroy's Council knows, everybody knows that we have entered a protest in the strongest terms possible. What the hon. Member says is that technically a cut motion is a protest against the demand; if that cut motion is withdrawn, the position will be that we are all agreed unanimously. That is what he says. No fear of that nature need be entertained. I can tell the hon. Member and all the hon. Members of this House that no one will put such a construction upon the speeches made by the hon. Members of this House; it is a mere technical form we are getting through with a view to get through our work; it will not affect in the least our work; it will not affect even a Court of law, you may take it."

* M. MUHAMMAD ANWAR SAHIB BAHADUR:—"Mr. Speaker, Sir, on a point of information. Will the Premier give an assurance to this House that if the Government of India do not guarantee our requirements, the Government of Madras will resort to direct action?" (Laughter.)

THE HON. SRI T. PRAKASAM:—"No such guarantee will be given; we should not use such expressions in such a lighthearted manner, because they would lose their charm."

* H. S. HUSSAIN SAHIB BAHADUR:—"On a point of information, Sir. May I know if a summary of the proceedings of this debate will be sent up . . ."

* MR. SPEAKER:—"Not the summary but the whole proceedings."

* H. S. HUSSAIN SAHIB BAHADUR:—"A summary could be telegraphically communicated in advance to the Viceroy."

THE HON. SRI T. PRAKASAM:—"The substance of it will be sent by telegram, as much of it as possible, Sir."

* MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Sir suggestions have been made that the Premier himself may visit New Delhi. May I know whether the Premier will visit New Delhi?"

THE HON. SRI T. PRAKASAM:—"I may assure the hon. Member that if I have to visit New Delhi, I should not hesitate even to fly to Delhi, instead of going by train which will take time."

* MR. SPEAKER:—"I wish to know from the Leader of the Opposition whether he is willing to withdraw the cut motion."

* MUHAMMAD ISMAIL SAHIB BAHADUR:—"In view of the assurance given by the Hon. the Premier, Sir, I beg to withdraw my cut motion."

* MR. SPEAKER:—"Before I put the cut motion as well as the original demand to the vote of the House, I wish to bring to

[Mr. Speaker] [22nd August 1946]

the notice of the House an incident that took place a few minutes ago. One member said that I was giving false hopes. I consider this expression as an insult to and as an aspersion on the Chair. I wish to know whether Mr. Swaminathan is in the House. (After a pause.) He has gone away. As soon as we assemble tomorrow, I am going to ask him about it. I am going to take action under rule 68 of the Assembly Rules.

"I now wish to know whether the House gives permission to Mr. Ismail to withdraw the cut motion."

The cut motion was, by leave, withdrawn.

* MR. SPEAKER:—"I now put the original Demand to the vote of the House."

Demand XXXI was put and carried and the Grant was made.

The House then adjourned to meet again at 11 a.m. the next day.

THE MADRAS LEGISLATIVE ASSEMBLY.

Friday, the 23rd August 1946.

The House met in the Assembly Chamber, Fort St. George, at eleven of the clock, Mr. Speaker (THE HON. SRI J. SIVASHANMUKHAM PILLAI) in the Chair.

SRI R. V. SWAMINATHAN:—"Mr. Speaker, Sir, I saw in to-day's paper that yesterday I was telling something which was intended to cast an aspersion on the Chair. I never meant any aspersion against the Chair, but I merely wanted to say . . ."

MR. SPEAKER:—"The hon. Member need not explain it."

SRI R. V. SWAMINATHAN:—"The only fact and it was also the view of some other members . . ."

MR. SPEAKER:—"The hon. Member need not explain these things."

SRI R. V. SWAMINATHAN:—"If the Hon. Speaker thinks so, I do not hesitate to withdraw what I said yesterday."

MR. SPEAKER:—"You must also apologise."

SRI R. V. SWAMINATHAN:—"I do not see any difference between withdrawing and apologising."

MR. SPEAKER:—"You must apologise for what has happened. That is the formal thing that is happening in all Parliaments."

SRI R. V. SWAMINATHAN:—"I won't do it."

THE HON. SRI T. PRAKASAM:—"I would request the hon. Member to withdraw and express apology. Every one of us would do it without looking into the question whether the ruling of the Chair is right or wrong. I would therefore request Mr. Swaminathan to obey the Chair."

SRI R. V. SWAMINATHAN:—"As the Hon. the Premier requests . . ."

MR. SPEAKER:—"Not on account of that . . ."

SRI R. V. SWAMINATHAN:—"I withdraw and apologise, Sir."

MR. SPEAKER:—"The matter is now closed."

I.—QUESTIONS AND ANSWERS.

STARRED QUESTIONS.

Malabar Special Police.

* 105 Q.—SRI A. VEDARATHNAM PILLAI (on behalf of Sri M. S. Pattabhiramiah): Will the Hon. the Prime Minister be pleased to state—

(a) the specific purposes for which the Malabar Special Police was instituted and is now generally used; and

[23rd August 1946]

(b) what special purposes the Malabar Special Police serves, which the ordinary or Reserve Police Force does not?

THE HON. SRI T. PRAKASAM:—“(a) & (b) The Malabar Special Police was formed in the days of the Mappilla Rebellion of 1921. Its principal duties were to clear up the rebellion areas in Malabar after the troops had dealt with any armed resistance found there and to maintain the internal security of the areas in which it was located. It is now used in districts other than Malabar also where abnormal conditions prevail and where the ordinary and reserve police is found inadequate to maintain law and order. It is distributed in strategic centres to be used as a second reserve.”

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—“May I know, Sir, whether there was any proposal to abolish this Malabar Special Police?”

THE HON. SRI T. PRAKASAM:—“I am sorry, I am not aware of it and I know about it only now on the information given by the hon. Member.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“Will the Government consider the advisability of abolishing the Special Police?”

THE HON. SRI T. PRAKASAM:—“My previous answer covers this question also, and when we go into the question, it will be decided.”

SRI PILLALAMARRI VENKATESWARLU:—“Is it a fact, Sir, that the Government is contemplating to start recruitment for the Special Police in each and every district of the Presidency?”

THE HON. SRI T. PRAKASAM:—“The question does not arise.”

Increase in the salary of the constabulary.

* 106 Q.—SRI D. DORAIRAJA PANDIAN: Will the Hon. the Prime Minister be pleased to state, whether there is any proposal to increase the salary of the constabulary so as to provide them with a living wage?

THE HON. SRI T. PRAKASAM:—“The salary of the constabulary was revised on 16th April 1946. A sub-committee of the Cabinet has been appointed to consider the question of rates of pay of all Government employees drawing Rs. 200 and below.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“In view of the general strikes in the Province, will the Government consider a further increase in the salary of the constabulary?”

[23rd August 1946]

THE HON. SRI T. PRAKASAM:—“I do not think that on that account the Government will think of revising the scales.”

SRI PILLALAMARRI VENKATESWARLU:—“Is it a fact the strength of the police staff is increased and if so, will Government explain the reason why?”

THE HON. SRI T. PRAKASAM:—“This does not arise out of the question.”

MUHAMMAD HUSSAIN SAHIB BAHADUR:—“Has the Government under contemplation any idea to reduce the salary of the police officers who draw greater salaries than that of Ministers, viz., Rs. 1,000 or Rs. 1,500?”

THE HON. SRI T. PRAKASAM:—“Not at present, and it is not the subject-matter of this question.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“Arising from the answer of the Hon. the Premier, may I ask whether he does not consider that an increase in salary of the constabulary should be treated separately from the increase of salary in the other departments?”

THE HON. SRI T. PRAKASAM:—“Yes, Sir, it may be that also has to be considered.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“May I request the Hon. the Premier to give some sort of priority to this question over others?”

THE HON. SRI T. PRAKASAM:—“No question of priority in the abstract sense of the term. Everything depends upon circumstances and conditions.”

SRI PILLALAMARRI VENKATESWARLU:—“Is the Government aware of the fact that the Malabar Special Police entered the Victoria Hostel yesterday evening and beat the students there?”

THE HON. SRI T. PRAKASAM:—“No information yet.”

SRI PILLALAMARRI VENKATESWARLU:—“Do Government propose to appoint an impartial enquiry committee to go into the conduct of the Malabar Special Police in regard to the strikes in the City?”

MR. SPEAKER:—“It does not arise.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“May I ask in view of the answer given by the Hon. the Premier to an earlier question, that he did consider that there must be some special consideration paid to the increase in the salary of the constabulary whether he was considering taking up this question earlier than the other questions and finish it soon?”

THE HON. SRI T. PRAKASAM:—“When circumstances demand, according to those circumstances decisions will be taken.”

[23rd August 1946]

SRI N. VENKATA SUBBAYYA:—"Is it a fact that in the 1942 August movement, certain police officers were granted special pay for life for the good work done by them to suppress this movement?"

THE HON. SRI T. PRAKASAM:—"I do not know, Sir; it may have been done."

SRI N. VENKATA SUBBAYYA:—"May I request the Hon. the Premier to investigate into the points raised in my supplementary question because I am sure of what I stated?"

THE HON. SRI T. PRAKASAM:—"We have to do something more before we begin investigation."

SRI PILLALAMARRI VENKATESWARLU:—"Is it a fact that a force of about 1,000 Malabar Special Police was sent to Golden Rock to suppress the workers and to help the General Manager?"

THE HON. SRI T. PRAKASAM:—"This does not arise out of this question."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"The Hon. the Premier stated that he has to do something more before he considers the suggestion made by hon. Friend. That is a frightening word, Sir. May I know what exactly he proposes to do in the matter?"

THE HON. SRI T. PRAKASAM:—"There is nothing to be frightened about it. Before actual investigation mentioned by the hon. Member is commenced, other matters have to be gone into."

MUHAMMAD HUSSAIN SAHIB BAHADUR:—"Will the Government keep in view the fact that but for the services of these police officers, the life of the public in 1942 would have been endangered?"

THE HON. SRI T. PRAKASAM:—"Well, Sir, that is a question which cannot be answered immediately without notice."

SRI N. VENKATA SUBBAYYA:—"May I ask for an assurance that if I am able to bring to the notice of the Government specific cases of special pay for life having been granted, will such grants be cancelled?"

THE HON. SRI T. PRAKASAM:—"It is too much to anticipate and put a question of that type. The answer may be given by the hon. Member himself."

Dietetic value of Indian food.

* 107 Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Minister for Public Health and Medicine be pleased to state whether she proposes to appoint a special staff to do some research into the dietetic value of Indian food?

THE HON. MRS. LAKSHMIPATHI:—"A special staff for the purpose has already been appointed."

[23rd August 1946]

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know under what system of medicine this enquiry is going to be conducted?"

THE HON. MRS. LAKSHMIPATHI:—"This has nothing to do with the system of medicine in vogue."

DR. M. J. SAMUEL:—"Has the Government come to any definite policy in their research laboratories at Coonoor as to the quantities of available foodstuffs to be given to different individuals of this Province to maintain normal standards of health?"

THE HON. MRS. LAKSHMIPATHI:—"There is no definite policy to determine it at present. It may do so in future."

DR. M. J. SAMUEL:—"Sir, in view of the protest made by Muslim Members yesterday that eight ounces is quite inadequate, may I ask the hon. Minister whether the Research Laboratories have recommended any other supplementary food to supplement rice diet?"

THE HON. MRS. LAKSHMIPATHI:—"Yes, wheat has been given as a supplementary food."

DR. M. J. SAMUEL:—"May I know from the Hon. Minister what are the quantities of wheat and other foodstuffs that are required for the supply of the calories required by the ordinary peasant or labourer? I want to know also the dietetic scale fixed by the Coonoor Research Laboratory for the foodstuffs available."

THE HON. MRS. LAKSHMIPATHI:—"Notice, Sir."

SRI V. I. MUNISWAMI PILLAI:—"Is not the Government aware that Dr. Aykroyd of the Pasteur Institute, Coonoor, has made an elaborate investigation in this connection and submitted a report?"

THE HON. MRS. LAKSHMIPATHI:—"I am not aware of the report, Sir."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I ask the Hon. Minister whether it is not a fact that the research into the dietetic value of Indian food can be approached from various standpoints, one of which is the allopathic, and the other the Indian standpoint?"

THE HON. MRS. LAKSHMIPATHI:—"I do not think any difference can be established so far as nutritional value of food is concerned from the allopathic point of view and from Indian medicine point of view."

BEGUM SULTAN MIR AMIRUDDIN:—"May I know the names of the members of the staff who have been appointed?"

THE HON. MRS. LAKSHMIPATHI:—"I am not aware of the names but only officers specially appointed have been mentioned—one Assistant Director of Health and two First-class Health Officers for the two regional units."

[23rd August 1946]

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Is the Hon. Minister aware that the present reduced ration have no caloric value but only choleric value?" (Laughter.)

THE HON. MRS. LAKSHMIPATHI:—"This does not arise out of this question. It may be having choleric value." (Laughter.)

SRI V. I. MUNISWAMI PILLAI:—"Arising out of the answer of the Hon. Minister, may I request her to state whether a committee has been appointed in this connection?"

THE HON. MRS. LAKSHMIPATHI:—"No committee has been appointed but the staff for this purpose has already been sanctioned."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Is any report to be published by the Research officers and if so, when?"

THE HON. MRS. LAKSHMIPATHI:—"I am afraid, Sir, the time cannot be specified, but anyway, the report will be published."

BEGUM SULTAN MIR AMIRUDDIN:—"May I enquire how the Health Officers who have been appointed are experts in this matter?"

THE HON. MRS. LAKSHMIPATHI:—"Perhaps, the hon. Member is aware that there is a Central Bureau of Nutrition Research located in the office of the Director of Public Health and these officers are trained there for the purpose."

H. S. HUSSAIN SAHIB BAHADUR:—"May I know what exactly is meant by Indian food?"

THE HON. MRS. LAKSHMIPATHI:—"There is no difference; there is only one Indian food and if any research work is to be carried on so far as nutritional value is concerned, there is no other food to be taken into consideration at all."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Is the Hon. Minister aware that there is a gentleman called Aykroyd who is a specialist in nutrition?"

THE HON. MRS. LAKSHMIPATHI:—"I am aware of it."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know, Sir, in view of the fact that the Hon. Minister is aware of the existence of the gentleman whether she is not aware of the report that he has prepared on the subject?"

THE HON. MRS. LAKSHMIPATHI:—"I have not seen it, Sir."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Will the Hon. Minister give us an assurance that a high priority will be given for iddlies in Indian food?" (Laughter.)

23rd August 1946]

THE HON. MRS. LAKSHMIPATHI:—"Iddly is an article of food and people appreciate eating it and priority may be given." (Laughter.)

SRI N. VENKATA SUBBAYYA:—"May I know, Sir, whether the Hon. Minister is aware that owing to perpetual famine in the Ceded districts, there is a very high death-rate and if so, whether she would take early steps to set right matters?"

THE HON. MRS. LAKSHMIPATHI:—"I am not aware of the fact that the death-rate is very high in the Ceded districts; however, Government will certainly consider the suggestion."

Instruction in schools through the medium of the mother-tongue.

* 108 Q.—H. S. HUSSAIN SAHIB BAHADUR: Will the Hon. the Minister for Education be pleased to state what the arrangements are for imparting instruction in schools through the medium of the mother-tongue to those students whose mother-tongue is other than Tamil, Telugu, Malayalam and Kanarese?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"These pupils are allowed to be taught wherever possible through their mother-tongue."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"May I know what the mother-tongue of the Muslims of this Province is according to the Government?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The mother-tongue of the Muslims is the mother-tongue of the locality wherever they are—in some parts it is Tamil, in some parts it is Telugu and in some other parts, I understand, their mother-tongue is Urdu."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Arising out of the answer given by the Hon. Minister, may I know, what exactly he means by saying 'wherever possible'?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"It means the Government must be in a position in view of the numbers and other conveniences necessary, it must be possible for them to provide this education."

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—"Arising out of the supplementary, may I ask whether the Hon. Minister is not aware that the mother-tongue of the Muslims is Urdu?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The mother-tongue of a few Muslims in Andhra is Urdu."

MUHAMMAD ISMAIL SAHIB BAHADUR:—"Has not yet the Hon. Minister ascertained the fact that the mother-tongue of all the Muslims in Andhra desa is Urdu?"

[23rd August 1946]

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“No. I have recently received reports from Andhra desa that the mother-tongue of some Muslims there is not Urdu.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“May I know, Sir, from the Hon. Minister whether he has not found it possible to thoroughly examine the question and tell us exactly whether it is not a fact and God's truth, that all the Mussalmans in Andhra desa speak Urdu and their mother-tongue is Urdu?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“I do not think I have anything more to say in the matter.”

D. ABDUL RAWOOF SAHIB BAHADUR:—“May I know from the Hon. Minister whether these protests which he referred to came from the Muslims of the Andhra districts or from non-Muslims?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“Mostly from non-Muslims.”

N. MUHAMMAD ANWAR SAHIB BAHADUR:—“When it is the opinion of the acknowledged spokesmen of the Muslims that Urdu is the mother-tongue of the Muslims of Andhra desa, will the Hon. the Minister for Education be pleased to confess that his understanding is a misunderstanding?” (Laughter.)

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“Opinions do not change facts.”

BEGUM SULTAN MIR AMIRUDDIN:—“May I enquire in what language Muslim students are being taught in Andhra desa?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“In Muslim schools, they are taught in Urdu, I understand; but in schools where the majority of the students are Hindus and there are only a few Muslim students, they are taught in the regional language.”

MUHAMMAD HUSSAIN SAHIB BAHADUR:—“Is the Government determined to decide the mother-tongue of Muslims by the opinion of non-Muslims?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“They do not judge on the opinions of anybody.”

SRI A. SATHYANARAYANARAJU:—“పదరాష్ట్రంలో పాఠ

శాలలలో సంవత్సరాల కెరబడి గాంధీగారు మొరపెట్టుచున్న హిందూస్థానీ భాషను బోధించే విషయంలో ప్రభుత్వంవారు విమిచిత్వాత్ము చేయవలసివున్నారు. ఆ విషయం ఎంతలోయిస్తుంది తెలుపగోరుచున్నాను.”

MR. SPEAKER:—“The question does not arise out of this question.”

[23rd August 1946]

BEGUM SULTAN MIR AMIRUDDIN:—“In places where the regional language is other than Urdu, will the Government be pleased to consider the desirability of opening common classes for Muslims either in Urdu or in English?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“The question has already been answered and I have nothing more to add to what has been said.”

MUHAMMAD ISMAIL SAHIB BAHADUR:—“From the fact that Muslim schools in Andhradesa have got Urdu as the medium of instruction, does not the Minister know that Urdu is the mother-tongue of the Muslims of Andhradesa?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“I do not think I can add anything more to what I have already said.”

N. MUHAMMAD ANWAR SAHIB BAHADUR:—“Will the Hon. the Minister for Education take it that it is the very essence of culture to respect the cultures of other communities?” (Laughter.)

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“It does not arise out of this question, Sir.”

SRI N. VENKATA SUBBAYYA:—“May I ask whether the Hon. Minister is aware that there are a number of Telugu Pandits among Muslims and one such Muslim Telugu Pandit was actually working in the Municipal High school, Nandyal?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“Quite possible.”

Pay of pandits in Government schools.

* 109 Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Minister for Education be pleased to state whether it is a fact that the scales of pay of pandits working in Government schools and colleges are far below the scales of pandits working under the local boards even though they possess the same qualifications?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

“Yes, the matter is under consideration.”

Increase of the sanctioned strength of buses.

* 110 Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Minister for Motor Transport and Food be pleased to state whether in view of the all-round increase of traffic the Government propose to increase the sanctioned number of buses in all routes in this Province?

THE HON. SRI R. RAGHAVA MENON:—“The number of buses will be increased as and when adequate number of vehicles become available.”

[23rd August 1946]

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I know what special effort the Hon. Minister has made to see that a sufficient number of vehicles is made available? "

THE HON. SRI R. RAGHAVA MENON:—" No effort can be made by a Provincial Government. The number of vehicles for each Province is allotted by the Central Government."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I know whether the Provincial Government cannot ask the Central Government to take further steps and even special steps in the matter, in view of the fact that things here are not satisfactory? "

THE HON. SRI R. RAGHAVA MENON:—" I do not think that things here are very unsatisfactory; this Government will however try to get more vehicles."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—" May I know whether the Hon. Minister is aware that there are many vehicles used as lorries can be run as buses and why the Government have not done so? "

THE HON. SRI R. RAGHAVA MENON:—" Before they are converted into buses, they can be used as lorries or before they are used as lorries, they can be used as buses. But once it is given as a lorry, it cannot be converted into a bus."

BEGUM SULTAN MIR AMIRUDDIN:—" Is the Government aware that the Post-war Reconstruction Committee decided that there should be nationalization of transport in this Province? "

THE HON. SRI R. RAGHAVA MENON:—" The matter has not yet been finally decided, if I remember correct."

SRI V. I. MUNISWAMI PILLAI:—" Is the Government aware that there are many lorries and buses belonging to the Military department kept idle and that the Government can negotiate with the Military department for putting them to use by the civil departments? "

THE HON. SRI R. RAGHAVA MENON:—" It is true that there are a number of vehicles now in the Military department kept practically idle, but the difficulty is in getting them. This Government are trying to move the Military authorities to see whether any vehicles can be bought. I understand that they are also auctioning the vehicles."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—" Will the Hon. the Minister for Transport seize this timely opportunity of making a strong representation to the Government of India, as otherwise there is a fear he will miss the bus? " (Laughter.)

THE HON. SRI R. RAGHAVA MENON:—" We need not be afraid of missing the bus. There are too many of them and this Government are fully aware, and are alive to the fact, that transport facilities should be improved in this Province."

[23rd August 1946]

AN HON. MEMBER:—" May I know the quota of motor vehicles allotted to this Government by the Central Government? "

THE HON. SRI R. RAGHAVA MENON:—" Notice, Sir."

H. S. HUSSAIN SAHIB BAHADUR:—" Will the Government take over the buses in the City of Madras? "

THE HON. SRI R. RAGHAVA MENON:—" The matter of running buses by Government in the City is under consideration."

BEGUM SULTAN MIR AMIRUDDIN:—" Is the Government aware that the public are very much inconvenienced for lack of sufficient motor transport in the City of Madras? "

THE HON. SRI R. RAGHAVA MENON:—" I am not in a position to say exactly whether the public are very much inconvenienced; but I understand that there is some sort of inconvenience."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" Will the Hon. Minister be pleased to take the trouble of going round the City of Madras, particularly in the morning and evening hours or during the whole day, for that matter, and see for himself the long queues, including large number of women, waiting for the buses? "

THE HON. SRI R. RAGHAVA MENON:—" I am aware of the conditions of motor transport in Madras and that there is some inconvenience."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—" Is the Hon. Minister for Motor Transport aware that many sitting members here are kept standing in the buses? " (Laughter.)

THE HON. SRI R. RAGHAVA MENON:—" They may be standing because they do not like to sit though standing causes them some inconvenience. I am glad that there are many members who stand and feel for the inconvenience caused to the public."

P. K. MOIDEEN KUTTI SAHIB BAHADUR:—" May I know, Sir, if the queue system will be introduced at all bus stands? "

THE HON. SRI R. RAGHAVA MENON:—" Sometimes you will find the queue system obtaining during certain hours; but I do not know if it is absolutely necessary to have the queue system always."

G permits to owners of lorries.

* 111 Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Minister for Motor Transport and Food be pleased to state—

(a) whether it is a fact that many Regional Transport authorities are refusing to grant G permits to owners of lorries without assigning reasons;

[23rd August 1946]

(b) what, according to the present Government, are the qualifications necessary to get the G permits of lorries; and

(c) the reasons for not granting G permits freely without imposing such qualifications?

THE HON. SRI R. RAGHAVA MENON:—“(a) It is not possible to say without detailed enquiry that many Regional Transport Authorities refuse to grant public and private carrier permits without assigning reasons. It may, however, be pointed out that out of a large number of appeals entertained by the Central Road Traffic Board, only a few were against refusal to grant public and private carrier permits. In some of them the Board had occasion to notice that the Regional Transport Authorities had failed to give reasons and this fact was considered by the Board when the appeals were decided. The Central Road Traffic Board has instructed the Regional Transport Authorities to assign reasons whenever such applications are rejected.

“(b) No qualifications have been prescribed by Government for the grant of public and private carrier permits. Such permits are granted or refused by the Regional Transport Authority in its discretion, subject to the conditions prescribed by the Motor Vehicles Act in this behalf.

“(c) Does not arise in view of the answer to clause (b).”

N. MUHAMMAD ANWAR SAHIB BAHADUR:—“May I know, Sir, when this question No. 111 was raised here?” (Laughter.)

THE HON. SRI R. RAGHAVA MENON:—“The question was put by the hon. Member in this Assembly now.” (Laughter.)

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“Arising out of answer to clause (b) may I ask, Sir, if political qualifications are also considered by the Regional Transport Authority?”

THE HON. SRI R. RAGHAVA MENON:—“It is clear from my answer that no such special qualifications have been prescribed.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“Are party affiliations considered in this matter?”

THE HON. SRI R. RAGHAVA MENON:—“That question does not arise at all in view of the previous answer given by me.”

DR. M. J. SAMUEL:—“May I know, Sir, if any special concession is shown to military personnel?”

THE HON. SRI R. RAGHAVA MENON:—“Till now such a case has not come to my notice.”

[23rd August 1946]

SRI S. NAGAPPA:—“May I know, Sir, if the Government have considered the desirability of granting G permits to mechanics themselves?”

THE HON. SRI R. RAGHAVA MENON:—“There is nothing in the law or practice to distinguish other persons from mechanics; they are also taken as applicants and their applications will be disposed of according to the general instructions and rules on the question.”

SRI S. NAGAPPA:—“May I know whether any preference will be given to those people?”

THE HON. SRI R. RAGHAVA MENON:—“Government had no occasion to give any preferential treatment or to take up this question.”

Export of fruits from this province.

* 112 Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Minister for Motor Transport and Food be pleased to state—

(a) whether fruits of any kind are being exported at present from this province to any other province;

(b) if the answer is in the affirmative, what those fruits are and what their quantity is; and

(c) whether in view of the present food position, the Government propose to stop the export at least for some time?

THE HON. SRI R. RAGHAVA MENON:—“(a) Yes.

“(b) The average exports of fresh fruit from the Province of Madras during the pre-war year were as follows:—

(1) *Plantains*.—9,184 tons (chiefly to Mysore, Hyderabad and Orissa).

(2) *Oranges*.—653 tons (chiefly to Mysore, Cochin, Hyderabad, Orissa and Northern India).

(3) *Mangoes*.—21,190 tons (chiefly to Rangoon, F.M.S., Straits Settlements and Northern India).

(4) *Pears*.—315 tons.

(5) *Limes*.—4,212 tons (chiefly to Mysore, Pondicherry, Puducottah and Northern India).

“Due to restricted transport facilities and due to the uncertainty of the consignments reaching their destinations in good condition even in cases where transport facilities were available the export of fruits from this province became considerably reduced during the war years and the present level of exports is likely to be only a fraction of the figures given above.

“(c) No.

“The question of imposing a ban on the export of fruits from this province was considered some time ago and dropped because fruits are perishable articles and any restriction on their movements would only result in large quantities of fruits rotting in areas which have an exportable surplus.

[23rd August 1946]

The Government have, however, banned the export of plantains, mangoes and jackfruits from the Malabar and South Kanara districts to places outside these districts so that the entire local production of these commodities may be conserved for consumption within these districts as supplemental food."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"In view of the fact that the food position of the Province is very precarious, will the Government avoid perishing of fruits by taking them over themselves and distributing them as part of food to the people who are in need of it?"

THE HON. SRI R. RAGHAVA MENON:—"It is a good suggestion; but the difficulty is that fruits being perishable, it is very difficult to procure and distribute them."

BEGUM SULTAN MIR AMIRUDDIN:—"Are the Government doing anything in the direction of preservation and canning of fruits?"

THE HON. SRI R. RAGHAVA MENON:—"As far as I know nothing in that line is being done; but the suggestion will be considered."

THE HON. SRI V. V. GIRI:—"That is being done, Sir."

THE HON. SRI R. RAGHAVA MENON:—"I stand corrected. I am sorry, Sir."

THE HON. SRI V. V. GIRI:—"I am the Minister concerned."

SRI V. I. MUNISWAMI PILLAI:—"May I know, Sir, that the machinery of the Jam factory at Coonoor is lying idle and whether anything will be done to revive the Jam factory?"

THE HON. SRI R. RAGHAVA MENON:—"I shall look into the matter."

H. S. HUSSAIN SAHIB BAHADUR:—"What are the kinds of fruits that are imported into this Province?"

THE HON. SRI R. RAGHAVA MENON:—"I require notice of that question."

N. MUHAMMAD ANWAR SAHIB BAHADUR:—"Will the Hon. Minister devise ways and means of providing for cold storage of fresh fruits?"

THE HON. SRI R. RAGHAVA MENON:—"I do not know whether the Government should consider the question. Any how, the question will be considered."

Selections of students for admission into colleges.

*112-A Q.—M. MUHAMMAD ISMAIL SAHIB BAHADUR: Will the Hon. the Minister for Education be pleased to—

(a) place on the table of the House the recent Government Order prescribing that the admission of 20 per cent of students in certain colleges and institutions should be based on merit;

[23rd August 1946]

(b) and state the object of issuing the said Government Order;

(c) the names of colleges and institutions in which the said Government Order was given effect to;

(d) how many Muslims, Brahmans, Non-Brahmans, Harijans, Christians and Anglo-Indians applied for admission in such colleges and institutions;

(e) how many students from each of the said communities were selected for admission in each such college or institution (i) on merit and (ii) otherwise than on merit in pursuance of the Government Order referred to in (a);

(f) how many of the selected students from each of the said communities actually joined the respective colleges and institutions and how and from what communities the vacancies which thus arose were filled up; and

(g) how many Muslims, Brahmans, Non-Brahmans, Harijans, Indian Christians and Anglo-Indians respectively were admitted in the Engineering and Medical Colleges of the Province during each of the last six academic years?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

"(a) A copy of the Government Memorandum No. 33199-A/46-1, Education, dated 21st June 1946, is placed on the table of the House.

"(b) It was considered necessary that some percentage of the seats in the Engineering Colleges and the Medical Colleges may be reserved to be filled on grounds of merit, in order to get the best possible candidates.

"(c) Government Engineering and Medical Colleges.

"(d) & (e)

	Number of students that applied.	Number selected.	
		On merit.	Otherwise.
<i>Medical Colleges.</i>			
Brahmans	403	47	49
Non-Brahmans	470	14	122
Scheduled Castes	2	..	2
Indian Christians	110	6	53
Muslims	44	..	43
Total	1,029	67	269
<i>Engineering Colleges.</i>			
Brahmans	609	57	26
Non-Brahmans	343	8	179
Scheduled Castes	8	..	8
Indian Christians	76	2	30
Muslims	44	2	30
Total	1,080	69	273

"(f) The information is not available and will be called for. The seats which fall vacant due to failure of students to join the colleges will be filled from a waiting list, care being taken to replace a candidate of a particular community and linguistic area, by a candidate of the same community and linguistic area.

[23rd August 1946]

"(g) Figures for four years, regarding Engineering Colleges and the Madras Medical College, which are available, are as below—

Name of College.	Year.	Number selected from				
		Brahmans.	Non-Brahmans.	Muslims.	Scheduled classes.	Indian Christians.
Medical College, Madras.	1945	26	52	14	1	21
	1944	24	52	16	1	20
	1943	20	50	8	3	23
Engineering Colleges.	1946	83	187	32	8	32
	1945	17	54	14	4	13
	1944	22	47	14	6	13
	1943	21	40	20	5	16

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Mr. Speaker, the Hon. Minister has read out to us so many figures; and since we have not had an opportunity to go through them just at present, will you kindly give us an opportunity of putting supplementary questions upon them to-morrow?"

MR. SPEAKER:—"I shall take up that question to-morrow; in the meanwhile the answer may be printed and given to Members."

Students for special study in Medicine and Surgery in foreign countries.

* 112-B Q.—**M. MUHAMMAD ISMAIL SAHIB BAHADUR:** Will the Hon. the Minister for Public Health and Medicine be pleased to state—

(a) the number of Muslims, Brahmans, Non-Brahmans, Harijans, Indian Christians and Anglo-Indians who applied for deputation to foreign countries for special study in Medicine and Surgery during the current year;

(b) the number of candidates recommended by the Provincial Government to the Selection Committee of the Government of India for such special study abroad in Medicine and Surgery, after the Ministry came into office;

(c) how many of the candidates recommended by the Provincial Government for the said special study are Brahmans, Non-Brahmans, Muslims, Christians, Anglo-Indians and Harijans respectively;

(d) whether the Surgeon-General or any other Experts were consulted in the selection of the candidates, and if so whether the Surgeon-General or the experts recommended any Muslim candidate or candidates for being recommended for special study in Medicine and Surgery abroad;

(e) whether the recommendations of the Surgeon-General relating to the Muslim candidates were accepted by the Provincial Government and if not why not; and

(f) whether it is a fact that some of the candidates recommended by the Government overruling the recommendations of the Surgeon-General do not possess any Research Degree or hold any permanent post in the Medical Department of this Province?

[23rd August 1946]

THE HON. MRS. LAKSHMIPATHI:—" (a) A report has been called for from the Surgeon-General who was the person who called for the applications.

" (b) Three—

One for Social Medicine.

One for General Medicine.

One for Orthopaedic Surgery.

" (c) One Brahman, one Non-Brahman and one Christian.

" (d) Surgeon-General and the Director of Public Health were consulted. No Muslim candidate was recommended for Medicine and Surgery.

" (e) The question does not arise.

" (f) No candidate was recommended by the Government overruling the Surgeon-General's recommendations."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know, Sir, from the Hon. Minister for Public Health, the qualifications of the applicants who were recommended by the Surgeon-General and the qualifications of the candidate who was selected by the Minister herself?"

THE HON. MRS. LAKSHMIPATHI:—"Notice."

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Is it a fact that a Muslim lady candidate in spite of a high qualification was not sent for foreign studies?"

THE HON. MRS. LAKSHMIPATHI:—"There was no application from any Muslim candidate so far as Medicine and Surgery are concerned."

BEGUM SULTAN MIR AMIRUDDIN:—"Did any Muslim lady candidate apply for Midwifery?"

THE HON. MRS. LAKSHMIPATHI:—"Yes."

BEGUM SULTAN MIR AMIRUDDIN:—"And what happened to her application?"

THE HON. MRS. LAKSHMIPATHI:—"It is confidential; and further no useful purpose is served in discussing merits of individual candidates on the floor of the House."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I inquire what is the qualification of the particular candidate who was not selected?"

THE HON. MRS. LAKSHMIPATHI:—"I am not aware."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Is she not an M.D.?"

THE HON. MRS. LAKSHMIPATHI:—"May be."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Is not that the highest qualification?"

THE HON. MRS. LAKSHMIPATHI:—"It may be."

[23rd August 1946]

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Then, may I know what is the meaning of saying that she is not aware of the qualification?"

THE HON. MRS. LAKSHMIPATHI:—"I said, 'it may be', I did not say, I am aware of the qualification. If I had said so, I am sorry for the mistake."

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Is the Hon. Minister aware that the lady candidate who was selected for higher studies has a lesser qualification than the Muslim lady candidate who was not selected?"

THE HON. MRS. LAKSHMIPATHI:—"The Surgeon-General is responsible for it. The selection took place in consultation with the Surgeon-General and the Director of Public Health."

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Will you give an assurance that you would inquire into the matter?"

THE HON. MRS. LAKSHMIPATHI:—"There is no necessity to go into the matter as the selection has been made already."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Is it a fact, Sir, that the Surgeon-General recommended the name of the candidate with the highest qualification, whereas the Minister selected the lady student who had the lesser qualification?"

THE HON. MRS. LAKSHMIPATHI:—"I did not select, Sir. The selection took place in consultation with the Surgeon-General and the Director of Public Health. All the three sat together and made the selection."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"In consultation? Who consulted? Did the Hon. Minister consult?"

THE HON. MRS. LAKSHMIPATHI:—"All the three of us consulted each other."

BEGUM SULTAN MIR AMIRUDDIN:—"May I inquire whether Government do not believe in merit?"

THE HON. MRS. LAKSHMIPATHI:—"We do believe in selecting candidates on merit."

BEGUM SULTAN MIR AMIRUDDIN:—"Why then that candidate with such high merit, as suggested, was not given the place she wanted?"

THE HON. MRS. LAKSHMIPATHI:—"It is for the Government to consider the relative merits of the candidates."

BEGUM SULTAN MIR AMIRUDDIN:—"Will Government be pleased to be consistent hereafter?"

THE HON. MRS. LAKSHMIPATHI:—"Nothing inconsistent has been done."

23rd August 1946]

SRI N. S. VARADACHARI:—"Will Government consider that it is wise policy to select candidates only on merit, when specialized studies are concerned, and that in foreign countries?"

THE HON. MRS. LAKSHMIPATHI:—"It may not be possible always, Sir."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"May I inquire whether Government have arrived at any right and accurate definition of the word 'merit'?"

THE HON. MRS. LAKSHMIPATHI:—"No; nothing except what is generally understood by the people."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I inquire whether it is not generally understood, even according to the Government Order that has been promulgated by the Minister herself so far as admission to Medical Colleges is concerned, that merit means University qualification?"

THE HON. MRS. LAKSHMIPATHI:—"The supplementary question put by the hon. Member does not arise out of this question."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know whether according to her, merit goes along with the University qualification?"

THE HON. MRS. LAKSHMIPATHI:—"That is also one of the considerations."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know what other considerations weighed with Government in selecting a candidate with a lesser qualification in preference to the lady with higher qualifications?"

MR. SPEAKER:—"She did not admit that a person with lesser qualification has been selected."

THE HON. MRS. LAKSHMIPATHI:—"Selection depends on the order of proficiency or merit."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Do I understand merit is not an absolute consideration?"

THE HON. MRS. LAKSHMIPATHI:—"Yes, Sir."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Are we to understand, merit meaning University qualification is not absolute?"

THE HON. MRS. LAKSHMIPATHI:—"Merit has also got to be taken into consideration. I have already given that answer."

[23rd August 1946]

UNSTARRED QUESTIONS.

Exemption of tuition fees to Harijan students in professional colleges.

20 Q.—SRI S. NAGAPPA: Will the Hon. the Minister for Education be pleased to state—

- (a) whether the Government have exempted the tuition fees in professional colleges to Harijan students;
- (b) if so, since when; and
- (c) if not, why not?

A.—(a) & (b) Harijan students were exempted from payment of tuition fees in professional colleges from 1938–39.

(c) Does not arise.

Employees in tanneries in Trichinopoly.

21 Q.—SRI K. ANANDA NAMBIYAR: Will the Hon. the Minister for Industries and Labour be pleased to state whether it is a fact that the Tannery Proprietors at Trichinopoly are forcing the employees to sign an agreement making them accept a lower scale of wage than they are receiving at present as a condition precedent for retaining them in service?

A.—So far as the Government are aware, there is no indication of compulsion on the part of the proprietors of tanneries to enforce wage reduction.

Refusal of the N.M. Tannery, Trichinopoly, to re-employ nine workers.

22 Q.—SRI K. ANANDA NAMBIYAR: Will the Hon. the Minister for Industries and Labour be pleased to state—

(a) whether it is a fact that the proprietor of the N.M. Tannery, Trichinopoly, has refused to re-employ nine workers in spite of the fact that the Labour Commissioner has got a promise from the proprietor that they would be taken back in the first week of January 1946; and

(b) what further action the Labour Commissioner has taken in this connexion?

A.—(a) & (b) The workers concerned were dismissed for misbehaviour; but the employer has not totally refused to re-employ them. As the tannery is being closed down at present the re-employment of the dismissed workers will be examined in case the tannery re-opens at a future date.

Refund of the deposit money to the Majlis candidate in the Malappuram (Rural) Muslim Constituency.

23 Q.—K. M. SEETHI SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

(a) whether the Government ordered the refund of the deposit money to the Majlis candidate in the Malappuram Rural Muslim Constituency in the last election to the Madras Legislative Assembly;

[23rd August 1946]

(b) when did the candidate apply for the refund;

(c) when were orders passed thereon;

(d) what is the rule followed by the Government in passing the orders permitting refund;

(e) what was the total number of votes polled by the candidates in that Constituency;

(f) how many votes were polled by the Majlis candidate;

(g) how many votes should he poll according to the relevant rules to keep his security;

(h) whether any doubt in the interpretation of the rules was felt by the Government; and

(i) whether any reference was made to the Law Member of the Government on the interpretation of the rules?

A.—(a) The Revenue Divisional Officer, Malappuram, who is the Returning Officer for the Malappuram Muhammadan (Rural) Constituency ordered the refund.

(b) On 3rd July 1946.

(c) On 12th July 1946.

(d) The candidate should obtain more than one-eighth of the number of votes polled, divided by the number of members to be elected.

(e) 77,268.

(f) 8,808.

(g) 4,830.

(h) None.

(i) No.

Repeal of the Criminal Tribes Act.

24 Q.—SRI D. V. RAMASWAMI: Will the Hon. the Minister for Law be pleased to state—

(a) whether representations have been made to abolish the Criminal Tribes Act;

(b) whether there is any organization in this Province to safeguard the welfare and interests of the three million Adivasis of Madras Presidency; and

(c) whether the Government have any proposal before them for appointing an experienced officer as Additional Labour Commissioner to organize schools, cottage industries, co-operative societies and collective farms, etc., wherever possible for their uplift?

A.—(a) The answer is in the affirmative. Several petitions and resolutions have been received.

(b) A private organization by name “Dakshina Bharat Adivasi Sangh” has been newly started at Nellore for the purpose of looking after the interests of Adivasis of the Madras Presidency. So far as the Government are concerned, the Labour Department

[23rd August 1946]

looks to the welfare of the communities eligible for help. There have been Kallar, Enady, Erukula and Konda Dora provincial organizations in the districts of Madura, Nellore, Guntur and East Godavari *cum* Vizagapatam, respectively, working for the welfare of these aboriginal tribes.

(c) The answer is in the negative.

Procurement and distribution of food in Malabar.

25 Q.—H. S. HUSSAIN SAHIB BAHADUR: Will the Hon. the Minister for Food be pleased to state whether the Government are following the same method for Malabar regarding procurement and distribution of food as it is followed in other districts?

A.—In Malabar, the Government have decided to entrust procurement to producers' co-operative societies which are in the process of formation. Till these societies are completely formed, procurement will be done by the Government agents as hitherto. The Government have decided to take over distribution of important food-grains from the wholesale merchants who were doing the work hitherto, and do the work themselves in so far as municipal towns and places connected with railways are concerned. For other places, distribution will be made through branches of co-operative societies. The system proposed to be adopted in Malabar is thus different from that adopted in other districts.

Amindivi islands.

26 Q.—H. S. HUSSAIN SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

(a) the total population of the Amindivi islands, attached to the district of South Kanara and the communities, with their numbers, to which the population belongs;

(b) what percentage of the population is literate in the islands;

(c) what are the industries in the islands;

(d) the ameliorative measures, if any, that the Government propose to take for improving conditions in the islands;

(e) whether the Government will appoint an officer of the grade of a Deputy Tahsildar for the better administration of the islands; and

(f) how long have these islands been attached to the administration of the district of South Kanara?

A.—(a) Total population according to the Census of 1941 is as follows:—

			Males.	Females.	Total.
Muslims	..	..	3,126	3,051	6,177
Others	..	..	Nil.	Nil.	Nil.

23rd August 1946]

(b) Literate population according to the Census of 1941—

Males.	Females.	Total.	Percentage.
469	19	488	7.9

(c) Coir-twisting, fishing, preparation of copra, jaggery and vinegar and boat-building.

(d) An Inspecting Officer is deputed to inspect the Islands once in two years and after his visit he reports what ameliorative measures are necessary for improving the conditions in the Islands. Action is then taken after considering his recommendations. The next inspection of the islands is due early in 1947. It is proposed this time that the Inspecting Officer should examine the possibility of setting up coir workshops for rope-making, manufacture of matting, etc.

(e) There is already the monegar, Amindivis, who exercises the powers of a Deputy Tahsildar. He also exercises third-class magisterial powers.

(f) Since 1799 when they passed over to the East India Company.

Basic education.

27 Q.—SRI N. M. R. SUBBARAMAN: Will the Hon. Minister for Education be pleased to state—

(a) the policy of the Government with regard to basic education;

(b) whether they have opened any training schools;

(c) whether the Government propose to give recognition and aid to the schools run by the private institutions or basic education societies;

(d) whether the Government have received any representation from the Tamil Nad Basic Education Society to give recognition and aid to the basic schools started and run by them in various parts of Tamil Nad;

(e) if so, what they have done for them;

(f) whether the Government have any programme for training of teachers for elementary schools;

(g) if so, what are the steps taken in the direction; and

(h) whether any new training schools have been opened and how many have applied for admission into those schools?

A.—(a) & (b) The Government propose to introduce the basic system of education in the Presidency when a sufficient number of teachers trained in that system becomes available. They have decided to open three basic training schools—one in the Tamil districts, another in the Telugu districts, and the third in West Coast districts. The opening of a basic training school at Periyannayakkanpalayam in the Coimbatore district has already been sanctioned. The question of opening the other two schools is under consideration.

[23rd August 1946]

- (c) Basic schools which are conducted efficiently according to the principles of the Wardha Scheme will be recognized and aided by the Educational Department in the same way as ordinary elementary schools.
- (d) & (e) The Government have received representation from the Tamil Nad Basic Education Society, the Government have instructed the Director of Public Instruction to recognize and aid the schools conducted by the Sangh like ordinary elementary schools.
- (f), (g) & (h) It is presumed that the hon. Member refers to training of teachers for ordinary elementary schools. The Government have sanctioned the opening of 100 additional training schools in 1946-47 with a view to meeting the probable demand for a large number of teachers in connection with the schemes of compulsory elementary education. The question of continuing these schools will be considered in due course. A report has been called for from the Director of Public Instruction as regards the actual number of schools opened and the number of candidates applied for admission and the number admitted into the training schools.

Improvement of the teachers' lot in high schools.

28 Q.—SRI G. KUMARASWAMI: Will the Hon. the Minister for Education be pleased to state—

(a) whether Government propose to introduce any system to improve the present lot of the teachers in High schools according to their service and academic qualifications; and

(b) whether the Government propose to introduce a uniform scale of pay in the whole Province for men of the same cadre?

A.—(a) & (b) The matter is under consideration.

Employment of the Malabar Wholesale Co-operative Society for procurement of paddy in Kottayam and Chirakkal taluks.

29 Q.—K. M. SEETHI SAHIB BAHADUR: Will the Hon. the Minister for Industries and Labour be pleased to state—

(a) whether the Government have appointed the Malabar Wholesale Co-operative Society for the procurement of paddy in Kottayam and Chirakkal taluks;

(b) the number of the shareholders in the said Malabar Wholesale Co-operative Society;

(c) the number of shares held by the Hindus and Muslims in the said society;

(d) the number of Hindu and Muslim directors in the society; and

23rd August 1946]

(e) the number of shareholders in Kottayam and Chirakkal taluks?

A.—(a) No.

(b) Individual shareholders	..	..	507
Society members	..	..	186
(c) Hindus	..	..	6,338 shares.
Muslims	..	..	649 "
(d) Hindu directors	..	..	15
Muslims	..	..	Nil.
(e) Kottayam	..	..	33
Chirakkal	..	..	27

[Note.—An asterisk (*) at the commencement of a speech indicates revision by the Member.]

II.—VOTING OF DEMANDS FOR GRANTS FOR THE YEAR 1946-47.

DEMAND XI—DISTRICT ADMINISTRATION AND MISCELLANEOUS.

THE HON. SRI K. R. KARANTH:—"Mr. Speaker, Sir, I move—

'on the recommendation of His Excellency the Governor, the Assembly do assent to a demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as together with the expenditure already incurred in April 1946 will amount to Rs. 3,69,69,300 in respect of the head District Administration and Miscellaneous. The expenditure incurred in April 1946 is believed to be Rs. 62,86,900. The particulars of this Demand are to be seen at pages 75-77 of the Budget Memorandum.'

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Mr. Speaker, Sir, I beg to move—

'to reduce the allotment of Rs. 3,69,69,300 for District Administration and Miscellaneous by Rs. 100 to discuss the necessity for revising the salary of the establishment and the inadequacy of representation of Muslims in the department.'

"Government servants in the districts are suffering a great deal for want of sufficient pay. Just now we heard from all sides that the Government must take immediate steps to improve their condition and increase their salary."

THE HON. SRI K. R. KARANTH:—"Sir, I rise to a point of order on the question of revision of salaries. On this question, a token cut motion was moved on the first day of the meeting, when I urged, that this motion might more appropriately be taken under the present demand, but you were pleased to allow that to be moved at that stage. The whole discussion went on that day and the cut motion was not pressed in view of the statement made on behalf of Government. Would it be right to discuss again on a point which has been debated in this House, a few days ago, on the question of salaries under 'General Administration?' I submit it would not be."

[23rd August 1946]

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Sir, does the fact that we were allowed to discuss this question under a different Demand, preclude us from referring to this question?"

* MR. SPEAKER:—"Yes, it precludes reference. The hon. Member will deal with other points."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"In District Administration, the representation of Muslims in the various services is inadequate. It may be true, Sir, that the Muslims are backward in education, but when they are educated, it cannot be said that they are not suitable for any service. 'Suitable' is a word which is very elastic, which can be interpreted in different ways according to circumstances and conditions, as the word 'merit' can be interpreted. But what I claim is, that Muslims, when educated, are, to say the least, as efficient as efficient men among any other community. Therefore, the exigency of office or suitability should not in any way affect the proper representation of the Muslims in the various services of district administration. I hope it will have the early attention of Government, and very soon we shall have no ground or room for complaint on this point."

"Sir, there is another point connected with this Demand on which I wish to say a few words, and that is with regard to weights and measures. You know, Sir, there are many standards of weights and measures prevalent in this Province, leave alone the country. There is difference in this matter within the same district, not to say, of difference between districts. This is one of the reforms which must engage the attention of the Government when they think of the progress of the masses. It creates a lot of confusion among the people and it affects their well-being as well. They ought to be well informed on matters which affect their life. At present, the people are not able to easily and readily understand the market conditions in various parts of the Province. Therefore I would suggest that the Government must take up this matter and see whether they cannot bring out unification of the standards of weights and measures. It may be said that it will be more desirable for the Government of India to take up this matter. But if it is reserved to be taken up by them, it will take a long time. So it is very desirable that the Provincial Government should take steps and go ahead with it, and if the Government of India want to take a share in the matter then they may also be allowed to do so and the whole matter can be co-ordinated."

12 noon. "Without waiting for the Government of India to move in this matter, I think the Government of Madras will be well advised to take steps to bring about the promulgation of one standard of weights and measures for the whole Province."

"Under this head, I would like to mention another point that is affecting the life of the people and which is a source of trouble between one community and another. I think I am right in referring to the subject under this head of 'District Administration.' I mean, Sir, the question of music before

[M. Muhammad Ismail Sahib Bahadur]

23rd August 1946]

mosque. That is a question that has been agitating the minds of the people for decades. No Government has so far taken any effective steps to put this question at rest. The Muslims complain that they are not given the right of saying their prayers undisturbed. They say at least the mosque may be left immune from these disturbances. According to the law laid down in certain cases by the Madras High Court, they are given the privilege of saying their prayers undisturbed during certain stated hours of congregational prayers; but, Sir, it is common knowledge that prayers, both individual and congregational, are offered in all mosques at all hours of the day and night, and it is generally conceded that playing of music does disturb the Muslims in their prayers. But the High Court of Madras has unfortunately restricted the application of this principle of avoidance of music only to public congregational prayers with the result that there have been frequent troubles between two communities on account of the playing of music in front of the mosque. In this connexion, Sir, I would like to draw the attention of the Government to certain remarks made by the Hon'ble Mr. Justice Panduranga Rao, which is reported in All-India Reporter, 1938, Madras 305. I would quote some of his words here. They are—

"It is clear that the playing of music when public congregational worship is going on in the mosque would practically amount to an offence under section 296, Indian Penal Code, and would certainly be a serious infraction of the Muhammadans' right to engage in public congregational prayer without disturbance."

Again he says, Sir, in reference to a particular case—

"The complaint of the Muhammadan respondents has no doubt a certain amount of practical common sense behind it in view of the fact that it would not be easy in a village like Muddanur to know exactly when public congregational worship is going on and there might be some difficulties in the way of the Police protecting the rights of the one community. Nevertheless though there is something to be said in support of the suggestion of the respondents, viz., to prohibit music in front of the mosque at all times as a practical solution of the ever recurring disputes that occur between the two communities, it is not possible to give a judicial imprimatur to such a solution as that would be inconsistent with the law as laid down for very many years."

"There again, Sir, he depends upon the law as laid down by the Judges. Therefore, the only solution of this question would be for Government to bring in legislation for prohibiting the playing of music before mosque at all times. I would suggest, Sir, that such a prohibition should be applied not only to mosques but to all places of worship, whether Muslim or non-Muslim. This is a matter which has been a source of much trouble in the Province as well as elsewhere. Therefore, the Government would do well to pay immediate attention to this subject."

"Though, Sir, I am not now to refer to the salaries of Government servants in the districts, I may be allowed to express the hope that the Cabinet Sub-Committee that has been appointed by Government to go into the matter will do justice to all

[M. Muhammad Ismail Sahib Bahadur]

[23rd August 1946]

Government servants and give them relief at an early date. With these words I move the cut motion."

* SRI PILLALAMARRI VENKATESWARLU:—" Mr. Speaker, Sir, under this head we are spending nearly 4 crores of rupees as salaries to officers. But, in spite of all these things, you find great corruption going on. Particularly, I would like to bring to the notice of this House the Textile Department, Textile Officers and others. In connexion with cloth and yarn, so many black markets are going on unchecked, and I would request the Minister to take proper steps to check this black market. If a committee is appointed to find out their total earnings, they will come to the conclusion that terrible bribes are being taken by these textile officials, which are really the money of the people. An enquiry committee should be appointed to find out the total earnings of these officers, and if the earnings are disproportionate to their salaries, they should be expropriated by the State and spent towards relief of the people.

" I would like to bring to the notice of this House the case of the Village Officers' Association. I am not speaking of salaries, but I want to say something about the bonus that had been granted and which had not been up till now paid to them. Last year, karnams were promised a bonus of Rs. 10 for the preparation of A, B and C registers. That bonus has not been paid up till now. It seems that the Deputy Secretary to Government, Food Department, wrote to the Secretary of the Andhra Provincial Village Officers' Association on 13th May 1946 saying that karnams who had prepared these registers for whom bonus had not been paid, might apply to the concerned Collectors for payment. Accordingly, applications were sent, and it seems no payment has been made to them. In view of the additional duties which the village officers are discharging regarding the procurement and rationing, Government has taken sympathy and has allotted Rs. 3 per karnam per month and about Rs. 6 per village headman. Everybody is agreed that it is a very small sum that we are paying to these people, and I request the Minister to see that this bonus is paid without delay. Only yesterday, I got a letter from a village officer that even this small bonus has not yet been paid.

" As regards Proprietary Estates, I bring to the notice of this House that zamindars are paying only 49 lakhs of rupees as revenue. Out of this 42 lakhs is being spent for the village officers there. What I would suggest is that for the work, the village officers perform in the zamindari area, the zamindar should be made to pay so that the general revenue of the Province may not be affected.

" Now with regard to our provincial broadcasting system, our Presidency consists of many nationalities and every nation wants that its own culture and other things must be developed. In connexion with this broadcasting system, we have broadcasting stations only at Madras and Trichinopoly. There is great

23rd August 1946] [Sri Pillalamarri Venkateswarlu]

desire among both the Andhra and Malabar population that they should have separate broadcasting stations in their provinces also. As a matter of fact, during the Advisers' regime, there was a proposal to have a separate broadcasting station at Rajahmundry, but for reasons best known to them, it was not up till now fulfilled. What I would suggest to the Hon. Minister is that he must take this into consideration immediately and start separate broadcasting stations for all these nationalities so that special opportunities to develop their own culture and their own art may be afforded. I request the Ministry to go into this question immediately and see that separate broadcasting stations are established in all the Malabar and Andhra areas. As a matter of fact, in Rajahmundry it was promised, and it was also agreed to start immediately. But it was unnecessarily delayed.

" There is another thing about the Rural Recreation Department. I do not know what sort of recreation will this department give to the people or how it will be useful to the people. I fear it is only a department to give some posts to a few individuals. Government spend about Rs. 63,000 over them. I feel it is unnecessary. We cannot create any recreation to the people. This department will not be useful to the people. The people must be trained, they must be educated and they must be diverted from their bad habits. Then only we can help them. We cannot help them simply by appointing an officer. So this department must be immediately abolished.

" I now come to the Estates Land Act Tribunal. Section 93-A of the Estates Land Act provides for the establishment of a Tribunal to decide the kudivaram and melvaram rights of the ryots with the idea of benefiting both the parties. In practice it had become a source of hardship. I would request the Hon. Minister to go into this and see that an effective remedy is provided for the cultivator.

" Now with regard to rural indebtedness. The previous Congress Ministry have passed legislation giving relief to agriculturists. This has helped greatly both the middle and the rich, but the position of the agricultural labourer was left untouched. I suggest to the Government that the condition of the agricultural labourer and the industrial labourer must be taken into consideration because most of them are highly indebted. The Kabuliwalahs are extracting exorbitant charges from these people. They even beat these people. These people do not receive even their wages, because the Kabulis surround them and take away all their salaries. I suggest that Government should bring in legislation to declare a moratorium in the case of agricultural labourer and industrial labourer.

" Regarding music before mosque, I think the Leader of the Opposition has given valuable suggestions to avoid all clashes between Hindus and Muslims. The Hon. Minister should prescribe a limit of space around mosques and see that no music is

[Sri Pillalamarri Venkateswarlu] [23rd August 1946]

played in those places so that we can avoid these communal clashes. With these words I support the cut motion."

12-15 p.m. * ABDUL HAMEED KHAN SAHIB BAHADUR:—"In supporting the cut motion, I wish to say this. Now that the Congress Party has come into office, we have been told that there are going to be considerable changes or more or less a revolution in the system of administration in the districts. There used to be a complaint in the past that the administration was concentrated at the top. With the formation of village committees and with the handing over to the villagers large powers in regard to the administration of the areas, I am afraid that the power and prestige of the head of the district have been considerably reduced. He will not enjoy that amount of power which is necessary for the proper administration of the district. I admit that there must be co-operation and collaboration between the non-officials and the head of the district. But if it is carried too far, if the non-officials gain the upper hand, or if a member belonging to a particular party or the secretary of that party were to become the super-collector of that district, I do not know what will be the position of district administration under those conditions. We have come to know of cases where individuals meddle with the district collectors in their administration. As a matter of fact, I understand there were cases of Secretaries of Congress Committees telling the District Magistrate to function in one way or another according to their dictates. This state of affairs should certainly be put a stop to. I know the Hon. the Premier will not tolerate such a thing, but whether he will succeed in putting down these things is a matter which we await with some amount of suspense. We are anxious that the district administration should not only be pure, but also that the head of the district should have sufficient authority, as he used to have before, to administer the district efficiently. That is what we have to try and attain.

"So far as Muslim officials are concerned, I do not wish to repeat what has already been said regarding their inadequacy. I certainly believe that it is my duty to bring to the notice of the Hon. Premier and the other members of the Government that in some cases both in the past and in the recent past the authority of the Muslim District Collectors has been interfered with. If a Muslim District Collector appoints a Muslim clerk or a Muslim peon, the appointment is not approved and it is even set aside by the Secretary to the Board of Revenue belonging to a particular community on the ground that that appointment had been made simply because the Collector was a Muslim. I do not think communalism can be carried further than this. There have been at least half a dozen cases where the Secretary to the Board of Revenue has interfered with such appointments. Such a state of affairs should be stopped in the interests of the proper administration of the district. Then, Sir, it is not possible for a district to have more than one Muslim officer for a long time. If two, three, or by chance even four Muslim officers are in a district, a hue and

[Abdul Hameed Khan Sahib Bahadur]
23rd August 1946]

cry is raised that that district has become a Pakistan with the result that the authorities try to destroy the Pakistan as they imagine it to be by removing one or two Muslim officials. If this is the view of a particular community in regard to another community, what is the use of the Hon. Premier preaching to us time and again that we are all one, whatever our religion may be, and that somehow or other we must get along as one. We are prepared to take his advice, but it must be implemented by action. We are looking forward to the time when the Hon. Premier will not give room for such grievances in the mind of the Muslim community.

"We have known the Hon. Premier as a great lawyer of eminence who had a very lucrative practice and which he gave up for the sake of the country. I have heard that he is also a great actor, and that for his good acting, he has earned many prizes. We have known him as the editor of the English daily *Swarajya* which had to be started because the Hindu in those days was anti-Congress. Perhaps hon. Members may feel that I am going off at a tangent. Because to-day is the birthday of the Hon. Premier, one is inclined to be in a somewhat autobiographical vein, and I have to say that in all these capacities he has done very real service. Whether he had been a teacher at some time or other, we do not know. At least he has been one in this House. We have great respect for him and listen with attention to the lessons which he teaches to some of us, and the whole House occasionally.

"With regard to the question of Muslim officials, I must draw the attention of the Hon. Premier to the fact that in Malabar where a third of the population is Muslim, there is hardly a Muslim official of position in the district. The figures may be staggering. The District Medical Officer is not a Muslim, the District Food Organization Officer is not a Muslim, the Deputy District Supply Officers are not Muslims, not one of all the Taluk Supply Officers is a Muslim, not one of the three Revenue Divisional Officers is a Muslim, 95 per cent of the Tahsildars are non-Muslims, and the District Veterinary Officer and the District Agricultural Officer are not Muslims. Almost all the officers, except the District Judge and District Superintendent of Police, are non-Muslims. While on this subject, I thought it advisable, in view of what is obtaining in certain districts, to impress on the Government that it will be a very good policy that, among the posts of district officers, at least one or two are given to Muslims. That will be conducive to the harmony that will have to be brought about in the district. I think the Government can pursue this policy to the benefit of all concerned.

"With regard to the question of village committees, hon. Members, while speaking on other demands, have already referred to this. I hope that hereafter the administration will not be lop-sided, that is in favour of one party or another. There

[Abdul Hameed Khan Sahib Bahadur]

[23rd August 1946]

must be no bias in favour of any party so far as district administration is concerned. All the communities in this Presidency should be assured that the administration is being carried on justly and based on truth and righteousness. If there is bias in favour of one community or other such an administration will not be a satisfactory and Godly administration. With these words, I support the motion."

H. S. Hussain Sahib Bahadur rose in his seat.

* MR. SPEAKER:—"Before the hon. Member begins to speak, I should like to draw his attention to cut motion No. 150 given notice of by him under Demand XI—District Administration and Miscellaneous, to discuss the administration of the Aminidivi Islands attached to the district of South Kanara. On this, I wish to say a few words. The Islands come under 'excluded areas.' According to sub-section (3) of section 92 of the Government of India Act, 1935, the Governor shall, as respects any area in a Province which is for the time being an excluded area exercise his functions in his discretion. So, His Excellency the Governor is responsible for the administration of the Aminidivi Islands, and not the Hon. Ministers."

H. S. HUSSAIN SAHIB BAHADUR:—"So I should not refer to that topic?"

* MR. SPEAKER:—"You can talk about it."

* H. S. HUSSAIN SAHIB BAHADUR:—"I am glad to know from my hon. Friend Mr. Abdul Hameed Khan who, on the occasion of the Prime Minister's 75th birthday, referred to his various activities—I did not know till to-day that the Hon. Premier is a versatile genius. He was referred to as a great lawyer, a great journalist, a great politician, and above all a great actor. I feel sure, Sir, that when we discuss matters like district administration, the Hon. Premier will accept our suggestions and, like a true actor, act up to them. Mr. Speaker, Sir, I know that the Government have recently passed an order to the effect that retired people should not be re-employed. On this occasion, I would like to know the attitude that the Government are going to adopt towards rule 9 (a) (i) employees who were recruited during war time indiscriminately for want of qualified hands. So far as I know, these employees do not possess the requisite qualifications, educational or otherwise. In some instances, I understand, these employees in the district offices have secured very rapid promotions and have even become Deputy Collectors. I do not know whether this Government, in the interests of efficiency, will adopt a definite policy to see that efficient and qualified men are secured to fill these posts. This is a point on which I would like to elicit definite information from the Government."

"Another point which I would like to bring to the notice of the Government is the lack of co-ordination among the departments in the district. Let me give an instance. The Revenue department officials issue a permit for sugar, the Commercial Tax department people do not know anything about it, and it so

[H. S. Hussain Sahib Bahadur]

[23rd August 1946]

happens that when they come for checking up, they find that a person who closed his business long ago—it may be a hotel or a tea-shop—is still continuing to use the permit for 2, 3 or 4 bags of sugar. This is because there is lack of co-ordination. If the Revenue department had only verified the thing in consultation with the Commercial Tax department, I believe these mistakes would not occur. Perhaps those bags of sugar found their way in the black-market; quite likely.

"Next, Sir, I wish to refer to the administration of Aminidivi Islands. It is only on a point of information that I want to discuss the administration of these islands. I do not mean that the Minister in charge of District Administration should be held responsible for anything that is happening in that excluded area. These Aminidivi Islands are inhabited by people whose number is, according to my information, 10,000. Their well-being and welfare are entrusted to the Administration of the district of South Kanara. Therefore, Sir, it would be better if the Government in consultation with His Excellency the Governor come out with a progress report on the administration of these islands for the benefit of all. I know, Sir, it is only a lower division clerk that is sent to these islands to take care of these people. Instead of sending a lower division clerk it is better to send an officer of the grade of deputy tahsildar. The population is big enough and I think a deputy tahsildar will be able to administer the area much better than a lower division clerk who is sent as a monegar. It happens that the monegar becomes the king and the pope. Therefore he must be a person who feels the responsibility and is well-trained in the art of administration. Therefore I would urge upon His Excellency the Governor and also on the Government that they in future should send only an officer of the grade of deputy tahsildar to administer these areas. The entire population is Muslim. We do not know what steps have been taken for their education, for maintaining their health and for promoting industries and enterprise in those islands. There is no cultivation there so far as I know. They have got only coconut and coir; and they prepare so many eatables from the coconut. They bring these articles to our district for sale or in exchange for rice which is not at all grown on these islands. They depend entirely on the district of South Kanara for their food. If the Government would take up the question of ameliorating the condition both economically and socially of these people and give them all encouragement in the matter of cottage industries such as the production of a jelly or jam which they prepare out of coconut and also many other things including articles which they make out of tortoise shells. These are all things to which any Government should pay some attention. Therefore I take this occasion only because this is the only occasion when we can speak about these areas. I would earnestly request the authorities concerned to see that an ordered type of administration is introduced in these small islands off the coast of South Kanara."

[H. S. Hussain Sahib Bahadur] [23rd August 1946]

"The next point I would like to refer to is the hardship of village officers. I do not want to refer to the low pay that they are getting. Apart from the low pay, I know, Sir, in any case they have to dance attendance on the touring Government officers who will be visiting their villages so often. They have at the same time to get the necessary supplies for them and in many cases, I know, they will be out of pocket. These things should not be allowed to occur in future in the village. The low paid people should not be compelled to dance attendance on the touring officers visiting the village. These officers belong to all departments and it makes no difference so far as the village officers are concerned. Otherwise a complaint is sent against them to the departmental head. Though this matter may appear to be very small, it is working a great hardship on the services.

"One other point. Apart from the monegar, there is a clerk and a doctor to take care of these people in the Aminidivi Islands. I should say they should open more dispensaries there. That is also necessary for the benefit of these people. This is yet another point which I wish to urge with regard to the administration of the Aminidivi islands. With these few words I support the cut motion."

* MUHAMMAD RAFAEUDIN AHMED ANSARI SAHIB BAHADUR :—"Mr. Speaker, Sir, the hon. the Leader of the Opposition has raised a very important point, namely, the question of music before the mosque. I wish to join the appeal made by him to the Government to examine this question afresh and pay attention to this very important question. This question, Sir, is all important to the Muslims and much more important to them than the question of representation in services or the question of bread and butter. This is a question, Sir, which touches their religion and their religious feelings. Therefore, I would earnestly appeal to the Government to go into the question as suggested by the hon. the Leader of the Opposition and devise ways and means to see that this question is amicably settled. I wish to add a few words with reference to Nellore. Hon. Members are aware of the unfortunate incidents that happened in that town three years ago and the communal riots that took place there during 1941-43. Sir, in Nellore all along till the year 1941 although there was a civil court decree in favour of the Hindus in existence even as long ago as 1918 the policy of the Government has been consistently to this effect that this decree should not be given effect to. In view of the grave happenings that are attendant upon this question it was decided that this decree should not be executed. This was the case till the Advisers' Government took up office in 1939. I may say that even though representations were made by the Hindus to the Congress Ministry between 1937 and 1939 still the then Congress Government thought fit to prohibit the playing of music before the mosque. But when the Advisers' Government came into power they reversed this policy, this policy which was in existence in Nellore from 1918 when the civil court decree came into existence.

[Muhammad Rafeudin Ahmed Ansari Sahib Bahadur]
23rd August 1946]

What followed after the reversal of that policy is a fact well-known to the Government and the hon. Members of this House. I do not think it is necessary for me to repeat that history. Now, Sir, we have been waiting till a popular Government came into power. When the war was on and when the bureaucratic Government were in power we urged them to have our grievances redressed, but without success. So we were waiting till the war was over and a popular Government came to power to renew our appeal. So I request Government to pay attention to this very important question and to examine the whole matter *de novo*. This is a matter which will go a very long way to promote communal harmony in this Province. If the Government feel that the declarations made by the High Court in this regard are an impediment to the Government then, Sir, I suggest that legislation be brought forward to get over that difficulty. After all this Government which is a popular Government can have that much courage. It can, I suppose, with confidence go ahead and enact legislation and the public will support it. After all this Government have enacted measures on questions like the Temple Entry. On this question of music before mosque the Government will have the support of all enlightened sections of the population if they introduce such a legislation.

"Sir, I wish to refer in passing, to the way in which this problem was handled in Nellore. Although it is the Advisory Government which was responsible for this policy, still, so long as the present Government think it fit to continue that policy, they must also accept responsibility. When this question came before the Advisory Government in 1942, a suggestion was made by them that the Muslims should give way on one important point, namely, the question of tiger disguises. Sir, in Nellore, the question of tiger disguises during Muhurram was also connected with the question of music before mosques. The trouble in Nellore arose on these two questions. The then Government suggested that the Muslims should give way on the question of tiger disguises. Acting on that advice, the Muslims in Nellore were willing to make a compromise on the question of tiger disguises and waived their objection to the Hindus putting on these disguises.

"When I am on the question of tiger disguises, I wish to say that this is a matter which concerns the masses. It is the masses and their mentality that we have to take into account. This matter may seem trivial and ridiculous to enlightened people like the hon. Members of the House, but it is not we who are concerned over this question. It is the general masses, both Hindus and Muslims who are worried over this question.

"The Muslims attach some amount of religious significance to the tiger disguises which they put on only during Muharram. But even though the tradition has been that the Muslims alone put on the disguise and the Hindus never put in this disguise, still, in view of the suggestion made by the Government, the Muslims were willing to waive their objection. But, in this respect, the Government went back upon their promises. The result of the Priestley Enquiry was that the Muslims were prohibited from

12-45
p.m.

[23rd August 1946]

[Muhammad Rafeeudin Ahmed Ansari Sahib Bahadur]

wearing these disguises and the Hindus were allowed to take out processions with music before mosques. However, that is past history. Now that a popular Government is in power, I would appeal to this Government to come forward and examine this question afresh in consultation with the Leader of the Opposition and other members on this side of the House and I do hope that the Government will give due attention to this very important problem."

M. S. ABDUL MAJEED SAHIB BAHADUR:—"Mr. Speaker, Sir, it is needless for me to refer to the question of salaries of Government servants in the districts. But I may be permitted to refer to another important aspect of the problem, namely, the question of providing houses for the Government servants living in the mufassal. The Government are fully aware of the fact that the sufferings and inconveniences of Government servants in districts are not less than the sufferings and inconveniences of Government servants living in the City. In this connexion, I should like to suggest that the Government may undertake a scheme of house construction so that they may provide accommodation for Government servants. A similar scheme is undertaken by the Government of India. Those of us who have visited New Delhi have found that several colonies have recently come into existence. These colonies were created and constructed by the Government of India. A similar scheme can be undertaken by the Government of Madras and I may point out that that undertaking will not be an unprofitable one.

"Sir, the House is aware of the fact that the educated men and men with best talents in the villages are migrating to the cities and towns, because the cities and towns with their Corporations and municipalities are providing conveniences and facilities and are thus making these urban centres really attractive. As such, the best talents are being attracted and they are migrating to the cities. This migration is accelerated by the backwardness of the rural centres.

"Mr. Speaker, Sir, the House is also aware of the fact that India is a country of villages and as long as agriculture is going to be the chief occupation of the people of this country, these villages must continue to exist for centuries to come. We have been hearing about rural reconstruction for the last two decades and till now nothing substantial has been done towards such rural reconstruction. Sir, there are in this Province tens and thousands of villages without panchayats and unions. Even in those places where there are panchayats and unions, those bodies are not able to do much because of their meagre finance to provide those villages with all facilities that are essential for their uplift. I find that panchayats and unions are not organized in several of the villages because of the apathy of the people in those places. I submit that this apathy is the virtual death of democracy. Therefore it becomes the duty and responsibility of a government that calls itself popular and democratic, to undertake extensive propaganda to dispel this apathy, so that it can convert this static life, galvanize this static life into a dynamic force which can

23rd August 1946] [M. S. Abdul Majeed Sahib Bahadur]

bring panchayats and unions to almost all the villages of this country so that they can help to lift the condition of our villages. The policy of the Government is to assist only such of those panchayats and unions which are financially stable. I would like to point out to this hon. House that if they only study the history of the development of local bodies in countries like the United Kingdom and the United States of America, they will find that the central organizations have always financed such of those smaller areas which are financially backward. By such financial assistance, particularly to poorer centres, you will find a uniform development of local institutions. Unfortunately in this Province a similar policy was not adopted. Therefore we find vast disparity between village and village. Therefore, Sir, on this occasion I shall urge upon the Government that they should institute an inquiry into this question and see that sufficient financial assistance is rendered to these rural centres and to bring happiness to these areas.

"You are aware, Sir, that in several of our villages there is no proper protected water-supply. Ever-increasing population, unhealthy surroundings, absence of sanitation, maternity and child-welfare centres and similar other things, all these are undermining our village life. I may almost say that they disrupt and destroy the very rural life. Therefore, Sir, in the name of the villages, in the name of the very poor people that are living in these villages, the Government must come forward with a scheme for assisting and helping these villages to come forward. This is one of the points I wish to urge under this Demand.

"I may in passing refer to another important point which the Leader of the Opposition has raised and it is the standardization of weights and measures. The Government are aware of the fact that the Government of India are just now considering the question of decimalization of coins and standardization of weights and measures. Sir, before the Government of India can introduce an Act on an All-India basis, I wish the Government of Madras to come forward with a scheme of standardization of these weights and measures. Because of the lack of such a scheme there is confusion in the commercial life of this Province. Therefore, Sir, I would also urge upon this Government to consider this point also.

"With these words I support the cut motion."

* MR. SPEAKER:—"To-day being Friday, the House will rise for lunch and again meet at 3 o'clock."

(After lunch—3½p.m.)

* MR. SPEAKER:—"Before the House resumes the discussion on the Demand, I wish to tell hon. Members that I have fixed a limit of five minutes for each speaker for this afternoon. To-day is the birthday of our Premier. Many hon. Members want to take part in the birthday celebration. So the House will adjourn at 5 o'clock. From 3 to 4 p.m. Members will speak on the Demand and at 4 the Hon. the Revenue Minister will reply. At 4-30 p.m. the Hon. the Premier will speak.

"In this connexion I wish to remind hon. Members that the rules which we are following in regard to the conduct of business

[Mr. Speaker] [23rd August 1946]

in the House to-day were those made at the time of the Montford Reforms. In those days there were only 100 and odd members in the Legislative Council. Also the revenue at that time was only Rs. 10 crores. It is now more than Rs. 49 crores and we have 215 members. Simply because we are following those rules I am obliged to limit the duration of speeches to five minutes on some occasions and I find that there is some slight dissatisfaction that I am not giving enough time for hon. Members to speak. To remove the cause for this feeling I have already appointed a committee to go into the rules and make suggestions. When the rules are ready, they will be placed before the House. It is my hope that more time will be allowed for each Demand thereafter. I could then give more time to hon. Members to speak. I hope the House will put up with these difficulties for the time being."

M. S. ABDUL MAJEED SAHIB BAILADUR:—" May I know, Sir, whether on the committee which you said you have constituted for framing rules, you have included the members of the Opposition also?"

* MR. SPEAKER:—" Yes, certainly. There are two members."

* BEGUM SULTAN MIR AMIRUDDIN:—" Mr. Speaker, Sir, at the outset I wish to offer my hearty congratulations to the Hon. the Premier on his 75th birthday to-day (Voices from all parts of the House: 'Hear, hear') and I wish him many happy returns of the day. The month of birth of the Hon. the Premier coincides with the month of that great man Napoleon. Napoleon was born on 15th of August and the Hon. the Premier was born on the 23rd of August. Like Napoleon, the Hon. Mr. Prakasam has been a great fighter, though with different weapons. Napoleon fought with bayonets, but the Hon. Mr. Prakasam fights with words. And, like Napoleon, the Hon. Mr. Prakasam has won for himself considerable fame and renown. I wish him long life and health, energy and vigour to continue his hard work. And I hope that he will work for the uplift, for the betterment, for the happiness of all sections of people in this Province irrespective of caste or creed.

" Coming now to the subject of my cut motion, Mr. Speaker, I find that I am not supposed to speak on the cut motion I have given notice in order to invite attention to the need for raising the pay of the non-gazetted officers. I shall not dwell on that subject. All that I wish to say is that I am glad that, at long last, the Government have appointed a committee to give relief to the hungry stomachs of the ill-paid employees of the Government. I hope this committee will speed up with its deliberations and not take months in arriving at a decision. For, the matter is urgent and cannot brook any delay.

" Coming now to District Administration, I find that side by side with giving satisfaction to the legitimate needs and aspirations of the ill-paid Government employees, the Government should give their immediate attention to improve matters and frame and plan out a definite policy with regard to the future price structure. They ought to give their immediate attention to the increase in

23rd August 1946] [Begum Sultan Mir Amiruddin]

the cost of living and introduce price control of all essential food-stuffs and other necessities and get rid of the cordon round us, viz., the black-market. Otherwise, the vast sums of money that the Government may be spending in securing satisfaction among the services will be of no avail. It is the upward trend in prices that gives rise to the demand for high wages. India is a happy haven to the most voracious species of inflation known within living memory and the most urgent of all tasks for the Government is to give their attention to this matter and check the process of inflation.

" Now, with reference to District Administration, the point to which I should like to draw attention is the need to reduce expenditure in administration. The Congress Government in the past years have condemned the British Government for their top-heavy administration. Now that they have assumed power, they should not fall in line with bureaucratic methods and bureaucratic ideas, but should reduce expenditure. It may be that the present Government feel that they are in a happy position financially. But the present state of affairs cannot continue and will not continue for long. According to the cycle of change, the present position is bound to change and depression is bound to set in in the course of a few years the consequences of which will be that there will be a shrinkage in the revenues of the Government. Therefore the Government should from now begin to plan out to reduce expenditure. Why should not the Board of Revenue which is a super-numerary body be abolished? Why should not the number of High Court Judges be reduced? Why should not the dearness allowance that is being paid to Government officers who are drawing over Rs. 1,000 be stopped? There are many ways and means in which Government can effect a reduction in the cost of the administration.

" Another point to which I wish to draw attention is the necessity of the Government appointing Muslim officers in large numbers in the Commercial Tax department. Now, this is a department in which there is considerable paucity of Muslims. This department has now come to stay in view of the introduction of partial prohibition now and the certain introduction of total prohibition in the years to come. Therefore, now that the department has been made permanent, the Government should take steps to see that sufficient number of Muslims are employed therein. Again, in the Textile department also there is considerable paucity of Muslims. This is a department which is now wielding much power. In this department also, the Government should see that Muslims are duly represented.

" Now, I would like to put in a word for the women of this Province. It is high time that all restrictions with regard to the employment of women are removed. Women are now being employed mainly in two departments, viz., the Medical and the Education departments. But I think the time has come when women should be employed in other departments as well. Sex disqualification, Mr. Speaker, is an unknown thing in the present age, both in society and in Government and it should be abolished.

23rd August 1946] [Begum Sultan Mir Amiruddin]

Women demand no favours. They ask for no concessions. They look forward to no privileges. All that they want is equality of treatment on the same terms and on similar qualifications as men. The present Government, by appointing a woman as Minister, have acknowledged that women are not inferior to men. The logical result of this will be that the Government should come forward to remove all sex disqualifications and appoint women in all departments of Government service.

“Coming next to my other cut motion which deals with village reconstruction. I find that in the Budget contrary to budgetary procedure, contrary to all canons of democracy, a lump-sum grant of 3 crores has been made for this purpose. True democracy requires that when a budget is framed and presented, the details of expenditure under each item should be set out. Now, the manner in which the Budget has been presented to us, viz., lump-sum grants, precludes the Legislature from exercising its due share of control over the finances of the Province. Hence I wish to express my disapproval with regard to this matter.

“Turning next to the provision of three crores of rupees for village reconstruction, the manner in which this amount is to be spent, namely, on khadi production, I am afraid, will be both unremunerative and unsuccessful. I am aware that whatever suggestions are made from this side of the House will be condemned as emanating from a spirit of opposition to the Treasury Benches. But I may point out that my scepticism in this regard is shared by a staunch adherent of the Congress itself, viz., by no less a person than Dr. Rajan, a former Minister and also by that powerful organ, *The Hindu*, which is known for its Congress sympathy.

3-15 P.M. “Apart from this, the financial implications of the schemes are so great that it is doubtful if the scheme will prove a profitable investment. But the main objection that we have to the scheme is that it involves compulsion and this is evident from the note of the Provincial Textile Commissioner, where he stated that if in a firka a person was not able to spin he must pay the penalty. Again it is said that the family cannot escape the compulsion to spin and that the family will not be granted any exemption from spinning except for very compelling reasons. All these indicate that there is compulsion involved in the scheme. The penalty that will be enforced is that people who do not spin will not be granted any khadi and at a time when province-wide rationing is to be introduced these people will have to go without cloth, as they will not be given any ration card either for mill cloth or for hand-woven cloth. Sir, we are living in days of individual liberty. Therefore, I think it is not at all desirable that individual liberties should be curtailed and a person compelled to undertake the monotonous task of spinning, if he or she does not wish to do so. The Hon. Premier has denied that there is to be compulsion. If there is really to be no compulsion I would request the Hon. Premier to declare that no penalty will be enforced against those who will not comply with the scheme. With these words, Sir, I support the cut motion.”

23rd August 1946]

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“Mr. Speaker, Sir, it is a good thing that as soon as this debate began the Hon. Minister for Revenue stated that the question of the salaries of the non-gazetted officers was under consideration and hence no time may be devoted here for discussing that question. Since that matter is under consideration, I have an appeal to make. The pay of scavengers and others is under consideration and we know the meaning of ‘under consideration’ by this Government. A lathi charge just under the portico of this building and using tear-gas in the Triplicane Beach and a host of other things. If ‘under consideration’ means all this, I ask the Government not to force the non-gazetted officers also to resort to strikes and then use force. I wish, Sir, that the demands of the non-gazetted officers are met very soon before they resort to some sort of action; let the Government decide soon instead of saying that the matter is under consideration.

“Since the advent of this Government, administrative orders have been passed in the Revenue Department asking the Collectors to do certain things only after consulting the M.L.As., such as in the matter of selection of firkas and in selecting firka officers. Collectors have been asked to consult local Congress Presidents and also M.L.As. I have contacted some Collectors and they say that they have much experience in the matter of consultation with M.L.As. First of all they have got divergent recommendations to make and they are not able to decide one way or the other. On account of such orders neither the M.L.As. nor the Collectors could be made responsible for a particular work.

“In my own district of Guntur, the Collector was asked to select a firka for development under the scheme in consultation with the M.L.As. The M.L.As. selected Mangalagiri and the Collector selected Nidubrolu. Finally, some other firka was selected, different from either. If the district officer is expected to do responsible work all this red-tape should not be there. The responsibility should be on a particular person.

“I am told by a District Collector that the M.L.As. belonging to the party in power had gone to him and said that such and such a Minister was visiting a place only at his instance. Instances there are where they have said ‘because you have not done this and you have not done that, I am asking the Minister to come here.’ I hope this matter will be investigated whether the Ministers are visiting districts only at the instance of the M.L.As. We have seen, Sir, that when Ministers go to districts they are completely under the control of the village and taluk Congress committees and even district officers and taluk Government officers have no opportunity of meeting them unless they have the permission from the big Congressman there. (The Hon. Speaker indicated that the hon. Member’s time was up.) ‘I have given notice of a cut motion, Sir, and therefore I must have 15 minutes. . .’

[23rd August 1946]

MR. SPEAKER:—"I have already consulted the Leaders of Parties and I have told them the difficulties. They have all agreed that 5 minutes should be allotted to each Member. The hon. Member will please resume his seat."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Mr. Speaker, Sir, I thank you for giving me a few minutes to speak on this Demand. The hon. the Leader of the Opposition and one or two members of the Muslim League and also the Member of the Communist Party have made an appeal to the Hon. the Premier to consider the advisability of bringing in legislation on the vexed question of music before mosques. During my last 25 years of legal practice I have had opportunities of appearing in cases between Muslims and Hindus in which this question of music before mosques was involved. Decisions have been given by executive officers and also by the courts. My long experience in this matter compels me to make a very earnest appeal to the present Government to set at rest all doubts on this question. In this Presidency, Sir, the relationship between the Muslims and the Hindus has been claimed to be very cordial except on the question of music before mosques and the Mohurram celebrations. These questions have been dealt with by the authorities in a way but the parties concerned are not satisfied. The executive authorities, the magistracy responsible for the maintenance of law and order have got their own whims in the matter. They have got to prevent breach of the peace and they pass a certain order irrespective of the fact whether injustice is done to one community or another. Naturally the parties have resorted to civil courts and the courts have passed their judgments according to the common law and according to precedents. From a perusal of the cases I find that many riots have taken place between Muslims and Hindus and they continue to take place where these questions arise. I think it is the duty of the popular Government to solve this question which is agitating the minds of the Hindus and the Muslims, by bringing forward legislation setting at rest all doubts on this question. I cannot emphasize too much the urgency of the matter in view of the number of cases pending before the civil courts. To my knowledge there are half a dozen cases arising out of executive orders passed by the magistrates one way or the other. These proceedings leave a bitterness behind them. As my hon. Friend Mr. Ansari said for the last twenty years there has been a dispute on this matter in Nellore. There are very many danger spots in the country. The same is the case in my district and in many other districts also. If people are sure about their rights in the matter, and if proper legislation is enacted due consideration being given to the religious feelings of both the parties, if there is a little sacrifice on the part of the parties concerned, I am sure we can come to some arrangement in the matter. I am sure the Muslim Members of this House will lend their helping hand in this matter, because if the cause of bitterness and hostility is once removed, other matters may be set right. This is such an important matter that the popular Government should take it up without delay."

[23rd August 1946] [Mahboob Ali Baig Sahib Bahadur]

"There was an attempt made to solve this question about 15 years ago and a Bill also was drafted. It was a non-official bill and the then Government would not take up the matter. There was a declaration of fundamental rights in the proceedings of the Conciliation Board at Delhi in 1928. The rights were laid down in the report of Pandit Motilal Nehru. I think this question was specifically raised and it was to some extent conceded that music before mosques should not be played. Reciprocally it was said that cow-killing should be stopped in the public as far as possible. Cow-killing does not very much affect us here but there is the other question of Mohurram celebrations. Sir, this question of music before mosques is so important to us that we shall help this Government in solving the problem by asking our community to make concessions in this matter."

* MR. W. J. FERNANDEZ:—"Mr. Speaker, Sir, I have given notice of this cut motion in order to draw the attention of the Government to the unfortunate plight of hundreds of Anglo-Indian young men who have been demobilized after rendering yeoman service in various capacities in the great world struggle which ended last year. Sir, the Anglo-Indian community has played a vital role in the development of the history of this country. It is a role of which any community may justly be proud. The part we played in the great world struggle was a heroic one. Our contribution to the fighting forces was out of proportion to our size in that 80 per cent of the available manpower of the community joined the different armed forces. The community claims that it has contributed comparatively more to the war effort than any other community in this country. Sir, because of our unrivalled contribution to the different military service, the community is faced as a result of demobilization with relatively greater unemployment than any other community. Here in Madras, Sir, about 2,000 able-bodied young Anglo-Indian men answered the call to service at the outbreak of the second world war in September 1939. In view of their past training and their proud military record they were entrusted with the responsible duty of garrisoning the Fort and manning the coastal battery at Casimode where they had to keep a careful and constant watch in order to prevent a repetition or recurrence of the Emden incident of the last war and possibly an invasion of the City from the sea. They stuck to their posts in spite of dangers from the air and the sea. When in 1942, Madras was on the brink of an invasion by the Japs and many of the citizens evacuated the City these men stuck to their posts ready to stay off the threat of invasion. I feel confident that if the Japs had attempted to effect a landing on our coast they would have given them a tough time of it. High military authorities have testified to the very efficient manner in which these men carried out their responsible duties, to their powers of endurance and to the excellent manner in which they maintained discipline and order. It is a tragedy, Sir, that after six years of loyal and faithful service to the King and the country in their hour of need, these men should have been turned adrift, because the military had no longer any use for them. This is the

[Mr. W. J. Fernandez]

[23rd August 1946]

second occasion on which the Government of India through the Military Department have treated the Anglo-Indian community shabbily by making a piece of convenience of its men in their hour of need, and just throwing them overboard when they are no longer required by them. Our leaders have been agitating for the formation of an Anglo-Indian regiment in which these men could be embodied and the question of unemployment solved, but in vain. I appeal to this Government to do something for these unfortunate men. Many of them provide excellent material for appointment in the Police and Jail departments by reason of their courage, powers of endurance and their ability to maintain discipline and order, qualities which should weigh in the selection of personnel for appointment in these departments. I trust that this Government will see their way to do something for these unfortunate men. In appealing to the Government on behalf of these men I wish it to be clearly understood that we Anglo-Indians do not seek privileges or preferential treatment. All we ask is that we should be accorded our rights in the mosaic of Indian life."

Sri A. S. SAHAJANANDA:—"கனம் தலைவரவர்களே; நான் இந்த மானியத்தைப்பற்றி 3 கட்ட மோஷன் கொண்டுவந்திருந்த போதிலும் என்னுடைய பேச்சை நான் வெகு சீக்கிரத்திலேயே முடித்துக்கொள்ளுகிறேன்."

"ஜில்லாக்களிலே ஆங்காங்கு ஹரிஜனப் பிள்ளைகள் கொஞ்சம் பேர்கள் படித்து இருக்கிறார்கள். அவர்களுடைய படிப்புக்கேற்ப கலெக்டர், டெபுடி கலெக்டர், மற்றுமுள்ள ஜில்லா அதிகாரிகளைப்போன்ற உத்தியோகங்களில் அவர்களுக்கு என்னென்ன உத்தியோகங்கள் கொடுக்க முடியுமோ அவைகளையெல்லாம் கொடுக்கும்படியாக கேட்டுக்கொள்ளுகிறேன்."

"இரண்டாவதாக, நீதி, நிர்வாகம் இரண்டையும் தனித்தனியாகப் பிரிக்கவேண்டுமென்ற நோக்கம் அரசாங்கத்திற்கு இருந்துகொண்டு வருகிறது. அவ்விதம் அவ்விரண்டையும் தனித்தனியே பிரிப்பதால் நாட்டில் நிர்வாகம் சரியாக நடைபெறுது. சாதாரணமாக சவுத் ஆற்காடு ஜில்லாவை எடுத்துக்கொண்டால் 4 டிபுடி கலெக்டர்கள் இருக்கிறார்கள். 12 டெபுடி தாசிஸ்தார்கள் இருக்கிறார்கள். இவர்கள் மாஜிஸ்ட்ரேட் வேலையும் பார்த்து வருகிறார்கள். அவர்களுடைய இடத்தில் மாஜிஸ்ட்ரேட்களை தனியாக நியமித்தால் ஜில்லாவின் நிர்வாகச் செலவு இரட்டிப்பாகும். இவ்விதம் நீதியையும் நிர்வாகத்தையும் பிரிப்பதனால் அந்த உத்தியோகஸ்தர்களுக்கு வேலையும் அதிகம் குறைந்து போகும். இப்போதே அவர்களுக்கு வேலை அதிகமில்லை. ஆகவே, நீதி, நிர்வாகம் இப்போதே போல் ஒன்றாகவே இருக்கவேண்டும். இன்னும் நீதி, நிர்வாகத்தை பிரித்துவிட்டால், போலீசாரையும், மாஜிஸ்ட்ரேட்டையும் கண்டு யாரும் பயப்படமாட்டார்கள். சாதாரணமாக இப்போது டிஸ்ட்ரிக்ட் லேபர் ஆபீசர்கள் கிராமங்களுக்குப் போனால் மணியக்காரர்களை அழைத்தால் அவர்கள் வருவதில்லை. காரணமென்ன வெனில் அவர்களுக்கு மாஜிஸ்ட்ரேட் பவர் இல்லாதபடியால் ஒருவரும் அவருடைய வார்த்தையை கேட்பதில்லை. ஆகவே நீதி, நிர்வாகத்தை பிரிக்கக்கூடாது என்று கேட்டுக்கொள்ளுகிறேன்."

"அடுத்தபடியாக இன்று கிராமத்தாருக்குள்ள குறைகளை அளவிட முடியாது. உழகிறவன் கணக்குப் பார்த்தால் உழவுகோலுக்குக் காணாது, என்று பழமொழி கூறுவார்கள். சாதாரணமாக, 5 காணி நில முடையவனுக்கு மிகுதியாக விளைந்தால் 150 கலம் நெல்தான் விளையும். தீர்வை, மராமத்து முதலியவற்றிற்கு 50 கலம் போகும். பண்ணையாளுக்கு 30 கலம் போகும். மாட்டுத் தீவனம் 20 கலம் போகும். மீதம் 50 கலத்தை வைத்துக்கொண்டு அவன் குடும்பத்தை நடத்த முடியாது."

[23rd August 1946] [Sri A. S. Sahajananda]

"மேலும் நிலமுடையவர்களை கல்வி வரி, ரோட் வரி முதலியன வருத்துகின்றன. கிராமங்களிலே பயிர் செய்யும் குடிகளுக்கு வருமான வரி போடவேண்டுமென்று ஒரு சொல் இருந்து வருகிறது. அது கூடாதென்று சொல்லுவேன். ஏற்கனவே அவர்களுக்கு அதிக செலவு ஏற்பட்டிருக்கிறது. ஆகவே, இந்த நிலைமையில் கிராமத்தார்களின்மேல் புதுவரி போடுவதாகவிருந்தால் பொன் முட்டைக்காக வாத்தை அறுத்த மாதிரி குடியானவன் ஒரேயடியாக அழிந்து விடுவான். மிராசதாரர்களுக்கு வரி போடக்கூடாது என்று கேட்டுக்கொள்ளுகிறேன்."

"மேலும் சர்க்கார் ஒரு தவறு செய்திருக்கிறார்கள். நெல் கொடுக்கிறவர்களுக்கு இப்போது போனஸ் கொடுக்கப்படுகிறது. அறுவடையானதும் நானும் சர்க்காருக்கு நெல் கொடுத்தேன். எனக்கும் போனஸ் கொடுத்திருந்தால் 300 ரூபாய் கிடைத்திருக்கும். ஆரம்பத்திலேயே நெல்லைக் கொடுத்துவிட்டதால் எனக்கு போனஸ் ஒன்றும் கொடுக்கப்படவில்லை. எனக்கே அவ்விதம் கொடுக்கப்படவில்லையென்றால் மற்ற கிராமத்தார்களின் நிலைமையைப்பற்றிச் சொல்லவேண்டுமா? சர்க்கார் ஆரம்பத்தில் ஒரு விலை கடைசியில் ஒரு விலையென்று போட்டால், ஜனங்கள் ஏமாந்து விடுவார்கள். ஆதலால் அறுவடை காலத்திலேயே தானியங்களுக்கு சரியான விலை நிர்ணயம் செய்து போனஸ் கொடுக்கும்படியாகச் செய்யவேண்டும்."

"இன்று சேரிகளின் நிலைமை மோசமாக இருக்கிறது. போவதற்குப் பாதை சரியாகவில்லை. பள்ளிக்கூடங்களில்லை. குடித்தண்ணீர் வசதியில்லை. போதுமான அளவுக்கு உணவுப்பொருள்கள் கிடைப்பதில்லை. செத்துப் போனால் பிணத்திற்கு மயானத்தில் இடங் கிடைப்பதில்லை. இந்த விஷயங்களை யெல்லாம் சர்க்கார் உடனடியாகக் கவனிக்கவேண்டும்."

"மேலும் இன்று கிராமங்கள் மிகவும் சீர்கேடான நிலைமையிலே இருந்து வருகின்றன. எல்லாப் பொறுப்பும் கிராம ஆபீசர்கள் மீதே விழுகிறது. எந்த உத்தியோகஸ்தர் வந்தாலும் அவருக்கு சப்ளை செய்ய வேண்டியிருக்கிறது. கிராம அதிகாரிகளுடைய சம்பளமோ மிகவும் சொற்பம். அவர்கள் மற்றவர்களைத் தொந்தரவு செய்து பணத்தை வாங்கிக் கொண்டு உத்தியோகஸ்தர்களுக்கு சப்ளை செய்யவேண்டியிருக்கிறது. உதாரணமாக சென்ற மாதத்தில் ஹரிஜன் ஒருவர் நிலத்தை விற்பதற்காக ஒரு கிராம அதிகாரியிடத்தில் போய் கையெழுத்து வாங்கினார். அது தவறாகப் போய்விட்டது. வேறு கையெழுத்துப் போடவேண்டுமென்று கேட்டதற்கு அந்த கிராம அதிகாரி 50 ரூபாய் கொடுக்கவேண்டுமென்று கேட்டார். அதோடு, கிராம அதிகாரிகள் டவுனுக்கு வந்தால் சாப்பாடில்லாமல் கஷ்டப்படுகிறார்கள். இந்த நிலைமையிலே அவர்களுக்கு D.A., T.A. முதலியவைகளைக் கொடுக்கவேண்டும்."

"கடைசியாக கிராம அதிகாரிகளுக்கு பரம்பரை பாத்தியதை யொழிய வேண்டும். அவர்களில் படிக்காதவர்களாகவிருந்தாலும் உத்தியோகம் கொடுக்கப்படுகிறது. ஹரிஜனங்கள் படித்தவர்களாகவிருந்தாலும் அந்த உத்தியோகம் கொடுக்கப்படுவதில்லை. பொதுவாகப் படித்த யோக்கியையுள்ளவர்களுக்கே அந்த உத்தியோகம் கொடுக்கப்படவேண்டுமென்று கேட்டுக்கொண்டு முடித்துக்கொள்ளுகிறேன்."

* **SRI V. I. MUNISWAMI PILLAI:**—"Mr. Speaker, Sir, while rising to support the Demand, I would like to bring to the notice of the Hon. Minister for Revenue the apathy of the village officers and more so of the district authorities. Sir, the district authorities are considered to be the real protectors of the Depressed Classes. But on an analysis we find in many cases that they have not that amount of sympathy required of them. Recently in Madura, we know what a sad thing took place when a Harijan corpse had to be taken to the cremation ground, and how after being half burnt the village talayari and the clerk there made the corpse to be taken away from that place, and then how they filed a complaint and the man had to be sent to jail. Thanks to the efforts of the Hon. Minister for Law who came to the rescue of the

[Sri V. I. Muniswami Pillai] [23rd August 1946]

man and saw that the conviction was not a correct one, the man was released. Not only that, in my own district of Nilgiris, the brick contractor had made a road right through the burial ground. The Harijans of my place were greatly disturbed. Application after application to the various district authorities has not brought any remedy. And if I want to mention the number of hardships caused to the Harijans it will be numerous. I appeal to the Hon. Revenue Minister to issue a circular to the district authorities asking them to give every facility to the Harijans in the matter of cremation grounds and convenience of paths for these people to pass through.

"There is a provision in the Budget for discretionary expenditure by the Collectors. It is high time that Collectors are asked to spend the amounts in giving facilities to the Harijans. There are some districts where there is no Labour department to spend the amounts that are budgeted. Collectors, Deputy Collectors and Revenue Divisional Officers must be asked to go to the cheries to give the people there some facilities and send reports to the Government. My hon. friend representing the Anglo-Indians was telling us that his community had given a large number of men for service in the war. It is not one community only but several communities have sent men for the purpose. The Harijans have sent the largest number. Now I find that funds have been provided for a colonization scheme in this budget. I would like to know from the Hon. Minister, Sir, whether these colonies are going to be in the malarial places like Wynaad or in places free from malaria. In this connexion I find on page 90 of the Administration Report for 1945 the following points regarding resettlement of ex-servicemen. It says: 'The co-operative inspector in charge will allot lots of land to each member who will then have the legal status of a permanent occupancy ryot. A member will have no right to sub-let, mortgage or otherwise encumber his holding. It will also be impartible and will on his death pass undivided to his nominee or his senior male heir.' I think it is a very safe provision and I hope the Hon. Minister will take note of it in regard to the colonization scheme he has under consideration for the Harijans.

3-45
p.m.

"Sir, as regards representation of my community in the services, it is very small. Though there are many deputy collectors belonging to my community there is not even a single Collector. You cannot find one member of my community as a Collector in any district; though in the Provincial Service you have some people who are Deputy Collectors. Even if you take the number of Deputy Collectors, it is very small as compared to the population.

"One word more, Sir. In the application of the Weights and Measures Act, I feel it is not properly administered. In my district, in the matter of potatoes, where the Provincial Marketing Committee have decided Rs. 25 for a bag of 200 lb. the merchants are now buying at the rate of Rs. 20 a bag of 200 lb."

MR. SPEAKER:—"I am sorry you have exceeded your five minutes."

23rd August 1946]

* SRI A. KALESWARA RAO:—"Mr. Speaker, Sir, at the outset, let me join my respected sister Begum Sultan Mir Amiruddin in offering my heartiest congratulations and felicitations to our revered leader Mr. Prakasam on his 75th birthday. May God grant him long life and sound health for doing greater service to the motherland.

"With regard to the Demand under discussion, I want to say one or two words. My hon. friend the representative of the Anglo-Indian community pleaded for special facilities to be given to the members of his community for having gone to the war and served there. I shall be glad to give special facilities to the Anglo-Indian community. It is the smallest minority in our country. They deserve special protection. I accede to them all that; I am extremely glad that a distinguished member of the Anglo-Indian community is being thought of for membership of the Provisional Central Government of India. I shall be glad if all the Indian Christians who belong to the depressed classes and who are also suffering under the curse of untouchability are also given special facilities, particularly in regard to the colonisation schemes, the co-operative schemes, training in cottage and village industries, etc. In respect of all these things, both these communities deserve some special treatment; but I am afraid they cannot plead for such facilities on the ground of their having gone to the war. They went to the war in spite of us; when the Congress was being suppressed, when our students were being shot by the Police, when they were being executed and when we were all in the jails on account of the resolution not to co-operate in war efforts and in the midst of the 1942 August revolution, these people went to the war. And therefore, I cannot for a moment agree to special facilities being given to anybody for having gone to the war. If they are poor people, they deserve them as citizens of this country, as citizens and as depressed classes for whom really concessions ought to be given. There are thousands of ex-army men in this Province, more than a lakh, and concessions are being given to them in the shape of colonisation and co-operative schemes; and if offices are reserved to Anglo-Indians and Depressed Classes none will remain for ex-army men. I find that in the Budget there is something like Rs. 10 lakhs reserved for the Special Revenue staff for the resettlement of the demobilised personnel and on land schemes and co-operative schemes for them. I cannot therefore agree to any special concession; on the other hand, I would like that in all these matters special facilities are given to the members of the Azad Hindu Foj who laid down their lives on behalf of the country under the leadership of Netaji Subash Chandra Bose. There have been two revolutions in this country, the August 1942 revolution in India and the revolution under the leadership of Netaji Subash Chandra Bose outside India. It is only on account of these two revolutions that the Cabinet Mission came to India and they have accepted the Quit India resolution, and they are carrying on negotiations and peace parleys with our leaders, so that they may quit India in as short a time as possible and in the most peaceful manner."

[23rd August 1946]

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—" Mr. Speaker, Sir, in further supporting what my friend Sir, Mr. Salam has stated, I wish to say that since the Congress Party assumed office in this Province, there has been a feeling in the rank and file of the party that it is a Government of Congressmen, for the Congressmen and by the Congressmen. It is leading to very bad blood in the villages, and I am sure, Sir, the Minister concerned will give sufficient consideration to it. Sir, arising out of the results of the last elections, I have also to bring to the notice of the Government, that a sort of social boycott by Hindus is launched in various places against the Muslims for no valid reason. I hope, Sir, the District authorities will go into this matter and see that such things are stopped and put an end to. It has already been brought to the notice of Government that the local members of the Congress party are interfering with the day to day administration in the districts; they are trying to bring pressure on the district authorities, making all sorts of recommendations, etc. If this tendency is allowed to continue, we do not know where it is going to lead. Further, attempts are being made to approach the Ministers with requests for the transfer of Muslim officials from particular posts. I wish to bring it to the notice of the House that a number of Muslim officials have been transferred for no valid reason recently. If it is in the usual course that the transfers are made, I have nothing to complain, but if it is done for any other purpose, I would strongly condemn it, and I want the Government to see that no such transfers are made, simply because certain people are not liked. I can give a number of instances where Muslim officials have been transferred for no valid reason.

" There is another important point I wish to refer to. The Secretary to the Board of Revenue belongs to a particular community and he has been continuing as such for a long time. It is reported that names suggested by the District Collectors for Deputy Tahsildars' posts are not included simply because those persons are not to the liking of the official concerned. I hope, Sir, the Minister concerned will look into this matter and see that justice is done to all sections of the services.

" As the item of broadcasting also is included here, I wish to say we support the idea of a new transmitter for the Andhra districts; but at the same time, I have to bring to the notice of the Government the fact that no encouragement is being given to the Urdu language. If you go through the records, you won't find any Urdu broadcast in the Madras station or the Trichy station. I am sure due encouragement will be given to the Urdu language, a language which is spoken of by 12 lakhs of people in this Province; particularly when it is the policy of the Government to encourage Hindi, I see no reason why Urdu which is spoken by so many people should be suppressed. I hope, Sir, facilities will be given to see that Urdu broadcast also is allowed in the future in good proportion.

" Sir, with regard to the item of grant for sinking wells, we find a sum of Rs. 7,600 is provided. I want to know the policy

23rd August 1946] [Muhammad Raza Khan Sahib Bahadur]

of the Government in this respect. Is this money to be spent on this item, an item on which we have already spoken in the earlier part of our debates? I would like to know from the Minister why this small amount of Rs. 7,600 is allotted here. I do not want to take up more time of the House, Sir."

SRI ROKKAM RAMAMURTHY:—" Mr. Speaker, Sir, I was given by you only five minutes' time; in these five minutes, I will not be able even to congratulate our Prime Minister. . . "

* MR. SPEAKER:—" You need not congratulate him. You come to the point."

SRI ROKKAM RAMAMURTHY:—" I have come with a cry for the Vizagapatam bifurcation, which has been under the contemplation of Government for a long time now. This bifurcation is necessary due to the reason that Vizagapatam is a big district; we cannot call it a district, it is a Province like Orissa. Having regard to its extent and so many other things, the Government must decide to bifurcate the district into two, and as I said, they have already taken it into consideration. I want to give you some figures and facts about the area and the population. The total area of the district is 9,107 square miles; we have got 22 taluks in the district; the total number of villages is 4,459. It has a population of 3,845,944. It has got 893,932 houses. It must be divided into two districts, into North Vizagapatam and South Vizagapatam districts; North Vizagapatam district consisting of Chatrapur division, Parvathipur division and Chipurupalle taluk. These two divisions and this taluk consist of 11 taluks, with 2,825 villages and 430,203 houses. These will have a population of 1,956,744. In South Vizagapatam district, you will have 7,000 square miles with similar population. North Vizagapatam will have an area of 6,010 square miles, and if we compare its area to that of other districts: Kistna has got only 3,402 square miles, West Godavari has got 2,434 square miles; Cuddapah has got 923 square miles. When we compare these districts with our bifurcated districts, the area of the latter will be greater than that of any other district in the Province. Therefore, it is highly essential that the present Vizagapatam district should be divided up into two separate districts both as a matter of convenience of administration and for the benefit of the people. The Government have already found it necessary for the purpose of civil administration, to divide so many departments in the present district. For instance, we have a special District Educational Office, we have a special District Health Office, a separate Agriculture Office, an Executive Engineer's Office, a Highway Engineer's Office. So many offices are already there in twos, and the offices to be divided are the Revenue, the Magisterial, the Co-operative and the Medical Departments. The Vizagapatam people in the border are finding it very difficult to go to the District Headquarters which is nearly 150 miles away from the border of North Vizagapatam. The Government must take the whole thing into consideration and treat it as an urgent affair and give it an urgent disposal in favour of immediate bifurcation. I therefore request the Government to see that the district is divided into two districts."

[23rd August 1946]

23rd August 1946]

[Sri K. Rajaram Nayudu]

4p.m.

*SRI K. RAJARAM NAYUDU:—“தலைவரவர்களே, வெட்டுப் பிரேரணையை நான் எதிர்ப்பதுடன் ஸர்க்காருக்கு இரண்டொரு யோசனைகளைச் சொல்ல விரும்புகிறேன். இப்பொழுது ஜில்லா நிர்வாகத்தில் டிவிஷன்களிலே டிவிஷனல் ஆபீசர்களும் தாசில்தாரர்களும் வந்து ஜமாபந்தி என்ற போரல் நடக்கும் கனியாட்டங்களை காங்கிரஸ் ஸர்க்கார் காலத்தில் இன்னமும் பார்த்துக்கொண்டிருக்க முடியாது. லஞ்சத்தை ஒழிக்கவேண்டுமென்று பிரதம மந்திரியவர்கள் சட்ட சபைக்கூட்டத்திலே பலமுறை கூறியிருக்கிறார்கள். ஆங்காங்கு பல இடங்களில் பேசியிருக்கிறார்கள். நீங்கள் லஞ்சத்தை ஒழிக்கவேண்டுமானால் முதலில் கிராம உத்தியோகஸ்தர்கள் ஒவ்வொரு ஜமாபந்திக்கும் ரூ. 20, 25 என்று வரி போட்டு அந்த ஜமாபந்திச் சட்டங்களில் செலவழிக்கப்படுவதும் இப்படிக்கறிபட்டவர்கள் அங்கே நடக்கின்ற விவகாரங்கள் இவைகள் உடனே ஒழிக்கப்படுவதற்கு ஏற்பாட்டைச் செய்துவிட்டுத்தான் மறு வேலை செய்ய வேண்டும். லஞ்சத்தை ஒழிப்பதற்கு இது முதல்படியாகும். இதையே காரணமாகக் கொண்டுதான் கிராம முனிசிப்புகள் பாமர ஜனங்களிடம் லஞ்சம் வாங்கி வருகிறார்கள்.

“இரண்டாவதாக இந்த கிராம முனிசிப்புகள் சம்பளத்தைக் கூட்டிக் கொடுக்கவேண்டுமென்று பல சர்ச்சைகளை எழுப்பியிருக்கிறார்கள், இது ஆலோசனையில் இருப்பதாக ரெவின்யூ மந்திரி கூறினார்கள்.

“பல அனுவசியமான செலவுகள் இப்பொழுது நடந்து வருகிறதென்பதை எடுத்தக்காட்ட விரும்புகிறேன். கிராம உத்தியோகஸ்தர்களுக்கும், பஞ்சாயத்து போர்டு பிரதிநிதிகளுக்கும் என்னுடைய தொகுதியான திரு மங்கலத்திலே இப்பொழுது ஒரு டிரெயினிங் ஸ்கூல் நடத்தப்பட்டு வருகிறது. அதற்கு 4,40,000 ரூபாய்போல் அரசாங்கத்தால் செலவு செய்யப்பட்டு வருகிறது, இந்தப் பணம் யாவும் வியர்த்தம்தான் என்பதை மந்திரி சபைக்கு எடுத்துக்காட்ட விரும்புகின்றேன். அதனால் ஒரு பிரயோசனமில்லை. ஆகையால் உடனடியாகச் செய்யவேண்டியது யாது? நானே தின்மே ரெவின்யூ மந்திரியவர்கள் இந்தப் பயிற்சிப் பாடசாலையை ரத்து செய்யும்படி கேட்டுக்கொள்ளுகிறேன். அந்தப் பாடசாலைகளில் அவர்களுக்குத் தெரியாத பாடமொன்றும் கற்பிக்கப்படவில்லை. வயது சென்ற கிராம முனிசிப்புகளுக்கும் கர்ணங்களுக்கும் ஸயன்ஸ், சரித்திரம், பூகோளம் இவைகள்தான் சொல்லிக்கொடுக்கப்படுகின்றன. இந்தப் பள்ளிக்கூடங்களை மூடிவிட்டு இந்த நாலு லெக்ஷம் ரூபாயையும் மிச்சப்படுத்தும்படியாகப் கேட்டுக்கொள்ளுகிறேன். அத்துடன் கிளார்க்கு கள் டிரெயினிங் ஸ்கூல்கள் நடத்தி வருகிறது மதுரையில், அந்தப் பள்ளிக்கூடத்தையும் ரத்து செய்யவேண்டும். கிளார்க்குகள் டிரெயினிங் ஆகவேண்டுமானால் தாலுக்காக் கச்சேரிகளுக்கு அனுப்பி ஆறு மாதம் அல்லது ஒரு வருஷம் Probationary period என்று வைத்து டிரெயினிங் கொடுத்தால் அதனால்பயனடைவார்கள். இந்தப் பள்ளிக்கூடங்களுக்குச் செலவழிக்கும் பணங்களை நிறுத்தலாம்.

“Rural Recreation Scheme என்று அரசாங்கத்தால் நடத்தப்பட்டு வருகிறது. அதில் இருப்பவர்கள் அந்த கிராமத்தில் சாதாரணமாக பிரயோசனகரமான வேலைகளைச் செய்வதில்லை. அந்த Recreation ஸ்கீம் இப்பொழுது ஆரம்பிக்கப்போகும் கிராம புனரூபத்தாரண திட்டத்தை உத்தேசித்து பழைய திட்டத்தை ரத்துசெய்து அதன் மூலம் ஒரு லெக்ஷம் ரூபாய் வரையில் நிறுத்த வழி ஏற்படுகிறது. அத்துடன் கிராமங்களில் பஞ்ச நிவாரணத்தின் நோக்கமாக கிணறு வெட்டுவதற்காக subsidy கொடுக்கப்பட்டு வருகிறது. அதில் தாண்டவமாடும் லஞ்சத்தைப்பற்றி சட்ட சபையில் கூறப்பட்டது. ஆனால் அந்த டிபார்ட்மெண்டு ரெவின்யூ மந்திரி நடவடிக்கை எடுத்ததாகத் தெரியவில்லை. எங்கள் தொகுதியிலே இந்த லஞ்சம் தாண்டவமாடுவதை கம்பளெயின்ட் செய்திருக்கிறோம், அதைப் பற்றி எந்த நடவடிக்கையும் எடுக்கவில்லை. அந்த விவகாரத்திலே இப்பொழுதாவது நடவடிக்கை எடுக்கும்படி கேட்டுக்கொள்ளுகிறேன். தெரிந்த விஷயங்களிலேயே கவனித்து நடவடிக்கை, எடுக்காதிருந்தால் இன்னும் தெரியாமல் தாண்டவமாடும் லஞ்சங்களை எவ்விதம் கண்டுபிடித்து ஒழிப்பது. ஆகையால் கம்பளெயின்ட் வந்த லஞ்சக் கேசுகளை கவனித்து

அவைகளை ஒழிக்கவும் அந்த உத்தியோகஸ்தர்கள் மீது நடவடிக்கை எடுக்கவும் முயற்சி செய்யும்படி மந்திரியைக் கேட்டுக் கொள்ளுகிறேன். நமது மந்திரி சபை ஏற்பட்டவுடன் ஜில்லா கலெக்டர்களையும் மாகாண உத்தியோகஸ்தர்களையும் மாற்றியிருந்தால் மிகவும் நலமாக இருந்திருக்கும். ஏனென்று கேட்டால் மந்திரி சபை ஏற்படுவதற்கு முன்னால் இருந்த அதிகார நோக்கமும் கொள்கையும் வேறு, இப்பொழுது இருக்கும்படியான நோக்கமும் கொள்கையும் வேறு. அவர் அவர்களுடைய கொள்கைக்குத் தகுந்தாப்போல்—உதாரணமாக கம்யூனிஸ்டுகளை எடுத்துக் கொள்ளுங்கள்.”

MR. SPEAKER:—“You have taken more than five minutes, The hon. Member will now resume his seat.”

THE HON. SRI K. R. KARANTH:—“Mr. Speaker, Sir, I will deal briefly with the various points that have been raised, leaving some of the important points like music before mosques, to the Hon. the Premier, because he will be able to deal with them much better than I can.

“On the question of the pay of the Services which was referred to to-day, let me give an assurance that we are trying to go through this thing as early and earnestly as it is possible. It has been said in some places, and even in this House, that the intention of having a Committee was simply to shelve the question. As a member of the Committee, I can say that nothing is farther from the truth. As all hon. Members in this House are aware, we are busy from morning till night on account of the work both in the session and our own other routine duties. In spite of it all, we have been trying to attend to this duty and as soon as the Legislative Session is over, which is expected to close on the 9th of next month, we have proposed to devote several days for this work and we have even decided to go out of Madras and be at Ooty for some days, so that we can consider the whole question and place it before the Cabinet without any loss of time.

“Then, Sir, with regard to the question of village officers, in particular, I may submit that the matter has been specially kept for the consideration of the Cabinet on the 26th instant. Several village officers and their representatives met me even to-day and expressed their hardships and I have assured them that their grievances will receive our best attention. My hon. Friend here referred to some hardships of these village officers and in particular about the sufferings they have to undergo in respect of jamabandi. The last speaker, my Friend Mr. Rajaram, mentioned about that. I am fully aware of all these difficulties but let me assure my hon. Friends that we cannot change everything overnight; I can only assure them that we are alive to the problem and we shall actively consider them. Take for instance the question of supplies. If one goes through the Budget Debates from 1926 to 1929, he will find that I have myself raised this question in the days of the old Council and yet they go on. I think we shall take up this question and see that while supplies may have been necessary to be made to officers in about 1800 or 1850, they may not be necessary in 1946 when there are shops in almost every village. It is a question we shall go into, unless it be, in some places like the Agency Tracts, where there may be some difficulty.

[Hon. Sri K. R. Karanth] [23rd August 1946]

"Then the question of travelling allowances for them has been raised. Something has been done in this respect but I can say I am not satisfied with that. The Taluk office clerks ask the village officers, times without number, to attend office because no batta is paid to them. Something must be done to check this sort of thing. I would only request hon. Members to give us a little time, so that we may look into them.

"Then, Sir, with regard to the classes for village officers. I know a little about them myself. These were started more than two or three years ago. We cannot abolish them all at once; and even here, we shall give our immediate attention. When I was at Nellore these gentlemen who were undergoing training came in a body—some of them I saw were village officers and karnams with twenty years of experience—and complained to me that they were compelled to live in a hotel chosen by some one, and they were not given freedom to go to any other hotels as they liked. Last week, I had a similar complaint from a place in Chingleput district called Thirukalukundram. I have requested the Collector to go directly to the place and hear the complaints of these people—because if it is to be done in a routine manner, by the time a report is received it will be nearly 30 or 40 days and the training course would have been over. In this matter also, I wish to see some of the classes myself and if Government find that the money spent on it is a waste, we shall have no hesitation to stop it.

"Then, with regard to the question of housing, Sir, it is a bigger question. Hon. Members are aware of the difficulty of putting up houses for Government servants all at once on account of high prices. This Province requires a housing policy and this is a matter on which I have no doubt the Hon. the Premier will speak, because it comes under Planning.

"Then, with regard to the other question which was raised and a particularly pertinent question also, of the interference with the officials by partymen, on which I wish to say something. I do not know what exactly is happening but if it is the idea that because we Congressmen are in office, partymen are at liberty to influence the officials in the manner in which allegations and suggestions have been made, for my part, I should say, it is very wrong. All of us who have taken up this Government here as Congressmen do not represent merely a party and we are not here running it merely for the benefit of our party and I assure you of this. When I was at Bellary some two months ago, I was asked by a Congress Secretary to settle my tour programme in consultation with him and do party work. I said, I regretted I could not do so. The result of it was he walked out, and it appeared in the Press also. Sir, we here feel we are trustees of all people and not of any particular section ('Hear, hear' from the Muslim Benches). We are here to carry out our election manifesto and the pledges we gave to the electorate and in achieving these, the official hierarchy has to be used and they should be accessible to all. That is the

23rd August 1946] [Hon. Sri K. R. Karanth]

highest tradition of any democracy as I understand it, and it is up to us to carry it out. More than that, I do not wish to say. On this also, I have no doubt the House will receive better enlightenment than what I have been able to give, from the Hon. Premier.

"It is also wrong to say that we go out to the mufassal at the bidding of any partymen. I can honestly say we do not do so. Invariably I make it a rule to give notice of my tour to all hon. Members of all other parties also, but I have found, however, that many of them have not turned up; probably they did not care. So, I would say it is their own fault if they did not turn up and represent grievances. In Nellore, in Anantapur and in Bellary I have given notice of my tours to all parties without any distinction whatever. Therefore, if they have not brought particular grievances to our notice but simply say that we are going about only with our partymen, may I say that the fault is somewhat with themselves.

"Then it was also said by my experienced and hon. Friend, Mr. Munuswami Pillai, that there is no change of heart on the part of the officials and that they are treating the people in the same old fashion, if I understood him aright. He said that instructions should be issued so that Harijans and other people are not ill-treated in any manner and that there should be a change in the spirit of the administration. In my several district tours, people have openly said this and I made enquiries also. I have told the officials present to realize that it is time enough for them to change their hearts and change their minds if they have not already done so. I have also tried to understand their difficulties; they have been so long under foreign administration that they feel probably that this present change may not last long. I have told them that it is not so; whether it is this particular Congress Ministry or any other Ministry that may be in office, it is no use their looking forward to foreign masters, when they themselves are prepared to quit. I said, Sir, that we shall try our best to see that the administration from the highest to the lowest change their heart, mind and spirit in regard to the people and feel, even as we do on this side, that they are the servants and not the masters of the people.

"Then, it was also said that certain Muslim officials have been transferred for no valid reason. I heard that with pain. It was stated that a Muslim District Collector was being transferred. This sort of inquisitiveness may not be very helpful. This was made out as a serious charge. It is not so; that particular gentleman was in the district for six or seven years and would it be right to say that he should not be shifted to some other place? If in every case, you look through a magnifying glass and try to collect the grievances and draw the attention of this House, my hon. Friends are doing the very thing they are accusing the Congress Party of, namely, interfering with officials. If the officials of a particular community know that they have always got advocates in this House, so that small things can be brought

[Hon. Sri K. R. Karanth] [23rd August 1946]

forward, I am afraid that it will not help the administration. We, on our part, must guarantee to officials, to whatever community they may belong, to look to us, so that we shall treat them without any distinction of caste or creed. That is our policy and our plain duty. If, on the other hand, there are really any injustices, I would ask hon. Members to bring them to our notice for being set right. It was that a Muslim officer was transferred with some object or that there was a district from which Muslim officials are banned. In several districts there are large Muslim populations, for example, in Ceded districts, where I have travelled with several Muslim officials. I think we should rise above all such suspicions. We shall not look at this official business as Muslim, Harijan or anything like that. We ought to be guided by higher motives. It was said that in the Board of Revenue, there was somebody of a particular community who is against the appointment of Muslims even as peons to Collectors. If my hon. Friend gives particular instances, we shall see that no such thing will be done and nobody, because he belongs to a particular community, is handicapped. We want to put an end to all such things. If we do not do it, we are not worth the posts we are holding here to-day ('hear, hear'). After all we have been here only for four months.

"Sir, I have dealt with the question of Muslims in general and about Harijans also I recognize what my hon. Friend has said that among the Harijans there is not a single Collector at present. Even there, we are trying our best to see that when we get a competent man, he gets the place and the Harijans also will have their share in the offices.

"My hon. Friend Mr. Hussain referred to several inefficient men recruited during the war who are now occupying several responsible places and who have not the required qualifications. I am thankful to him for having brought it to our notice. There are many other things going on which it is not possible for us to know and understand. We are always thankful for criticism. If there are such people and instances are given, we shall try to see that they are rectified.

"The other question that was referred to was in regard to subsidy for wells and of bribery. Here again, may I say, that a Press Communiqué was issued that in cases where there have been fraud, they would be suitably dealt with. This was brought to my notice from a Congress Committee in the Chingleput district. The matter was examined and a Press Communiqué was issued. The village committees have been requested to bring to our notice any such cases. Even two or three days ago, I had an instance in which one of the persons interested in a certain property where a well was supposed to have been sunk, came to me with the *adangal* that a well existed there long before and a subsidy was taken fraudulently for a well which had already been in existence. I have tried to inspect some of these wells personally and wherever I went I have seen more than one well without repairs having been made but for which subsidies had been taken fraudulently. It is of course not possible at this end

23rd August 1946] [Hon. Sri K. R. Karanth]

to know all that is happening in the districts. I therefore request hon. Members representing their constituencies and the public at large, to bring to our notice any such cases of fraud, so that we can deal with them suitably instead of dealing with charges of a general nature.

"With regard to the amount, it was stated that only a very small figure has been provided and that larger amounts are needed for the purpose. With regard to that, some time back, I answered it on the floor of this House as regards the various schemes that were in operation and I take it hon. Members are aware of it. These things began long before we took up office. A scheme was introduced in 1944 in eleven districts of the Province and according to this scheme a subsidy of Rs. 310 for a new well and Rs. 200 for an old well, was granted. May I submit, that in any scheme that we have under consideration we would take care to see (and I know of cases like this myself where no repairs have been done) that public money is not taken fraudulently in this way. In respect of the scheme of 1944 which was in vogue in eleven districts, two-fifths of the amount were met by the Government of India and three-fifths were borne by us. In February-March 1946, there was a new subsidy scheme for which we got a half grant from the Government of India instead of two-fifths and three-fifths. This half grant was given in view of the food scarcity. In respect of this scheme, as hon. Members are aware, we have extended the time till September next. On the whole, we have spent a total of nearly 232 lakhs odd in respect of this scheme. This expenditure has been incurred after March last. That was because the budget estimate required for the scheme did not come to Government from the Board of Revenue before the Budget was prepared. It is, therefore, proposed by the end of February next, to move for an additional demand for the purpose of the whole scheme. There is another scheme sanctioned in June last for the Ceded districts where the subsidy was raised to Rs. 500 in view of the difficult nature of the soil for digging wells. In respect of this also, certain hon. Members from Nellore and Chittoor have asked for a similar concession on account of certain other difficulties in their areas. That matter is under the consideration of the Government. That much is with regard to wells. In regard to the large expenditure that has been incurred and proposed to be incurred, an opportunity will be afforded to the hon. Members for discussion before this House when a separate demand is brought forward as mentioned above.

"One further point mentioned was about the menace of money-lenders, with regard to labour, both agricultural and industrial. This matter also will engage the consideration of the Government.

"Yet another matter, Sir, raised was with regard to the waste of money which was referred to previously by my hon. Friend, Mr. Rajaram, viz., about rural recreation. This is a matter which Government will look into and if we feel that it is a waste of money, we shall have it stopped.

[Hon. Sri K. R. Karanth] [23rd August 1946]

“Then one other matter which was referred to by my hon. Friend, Mr. Hussain, was in regard to Amin Divi and Laccadive islands off the west coast. As the House is aware and as mentioned by the Hon. the Speaker, these are excluded areas. The grievances in respect of these which have been mentioned by the hon. Member were that these areas are being governed by a sort of monigars or mere clerks with large powers in themselves, that the people are practically cut off and that their conditions are not very happy. It is also said that there is no sort of education and there are no institutions for medical relief, etc. These, Sir, will all be looked into after getting reports and if it is found that the condition of the islanders should be improved, it will be done.

“There was another matter which was referred to by the hon. the Leader of the Opposition and also by another hon. Member. It is the question of the standardization of weights and measures. I may say, Sir, that this matter also is under the active consideration of the Government at present. In regard to this, some suggestions were also made by the department. We are not satisfied with standardizing simply certain local measures and leaving numerous others unaffected. We are aware that in every district there are a number of measures in existence. In my own district, there are half-a-dozen measures in use. It will be worth while standardizing measures for the whole province and I can assure hon. Members that this is a thing which is under the active consideration of the Government and there is already a proposal for introducing a Bill which is now going round among the members of the Cabinet.

“Then there is the question of broadcasting. There is some misconception on this point. The question of having transmitters and spending for them, is a matter for the Government of India and it is only in the matter of providing certain programmes that the expenditure is met by this Government. Even here, the grievance mentioned is that not sufficient attention is being paid to Andhra, Malabar and to Urdu. There is a district from which I come which has been totally ignored in regard to this matter and that is the Kannada areas of this Province. When money from these districts is also coming in to the coffers of the Government, it is difficult to understand why the claims of these districts should be ignored. I can tell you that in the whole programme for one week given by the Madras Radio, Kannada is given only 15 minutes. Just imagine what it is. I can understand that so many things like this are going on and until people cry they will not get their grievances redressed. (An hon. Member from Muslim Group: ‘That is why we cry.’) (An hon. Member from Ministerialist Group: ‘Oh, you more than cry.’) (Laughter.) I venture to say that in season and out of season, I have heard in this House only about Malabar, Andhra and Tamil, but nothing about the Kannada people. I can tell you—and I always feel—that I do not belong to

23rd August 1946] [Hon. Sri K. R. Karanth]

any particular area and I do wish to think of a higher standard by which I can say and feel that I represent every area in this province.

“Then the question of the separation of the judiciary from the executive was raised by my hon. Friend Mr. Sahajananda. As he is fully aware, this matter also is under our active consideration and a committee has been appointed for the purpose. My hon. friend Begum Amiruddin made a speech regarding retrenchment. A number of new appointments have taken place during the war and even after the war we find them going on. Some of them might have escaped our attention. There is no time to look into all these things now and a little later after our hands are free, Government will look into the matter and see whether any and what retrenchment is possible.

“Then, the question of bifurcation of the Vizagapatam district was raised. This question is also under the consideration of the Government. I have agreed to answer a short notice question to-morrow on this and so I do not wish to go into greater details at present except to say that it is under the consideration of the Government. The Secretariat is looking into it just now and the matter has not come up for final consideration yet. I have no doubt that such an important matter will receive proper consideration at the hands of the Government.

“Last, with regard to the colonization scheme and the speech made by my hon. friend Mr. Kaleswara Rao about the need for helping the I.N.A. and how they should also be helped under this scheme, I should say, that out of the 44 schemes which are under the consideration of the Government, under which thousands of acres are made available for cultivation and for which relief will be given, nearly 23 schemes have been sanctioned while the others are under consideration. Particulars of these have been printed and are available to members. I can only assure my hon. friend Mr. Kaleswara Rao that the claims of the I.N.A. will receive due consideration at the hands of the Government.

“Then, Sir, there are other matters with which I do not wish to deal as the Hon. the Premier will deal with them.”

THE HON. SRI T. PRAKASAM:—“Mr. Speaker, I think I had better give some information regarding the strength of the district administration. 4.30 p.m.

		Revenue.
Strength—		
Collectors	50	
Deputy Collectors and Personal Assistants	170	
Tahsildars and Deputy Tahsildars	405	
Clerical establishment—		
Accountants and Sheristadars	6,652	
Rest of establishment	5,460	
Village service	107,602	

[Hon. Sri T. Prakasam] [23rd August 1946]

“The following will give you details of the village service establishment under the various categories:—

	Ryotwari area.	Proprietary estate.	Total.
Karnams	14,640	7,493	22,133
Munsiffs and headmen	16,030	8,308	24,338
Monegars	19	..	19
Vettis	27,238	1,199	28,437
Talayaris	20,962	10,484	31,446
Nirgantis	929	103	1,032
Water Superintendents, etc.	37	..	37
Total	79,915	27,587	107,502

“I shall now give the cost of the various establishments:—

	RS.
Collectors and Magistrates	26,78,400
Court of Wards	12,000
Laccadive and Amini Divi Establishments	2,21,700
Treasury establishment	11,45,300

Post-war reconstruction—

(i) Estimates by Public (Resettlement) Department; and	2,11,600
(ii) Estimates of Board of Revenue for demobilized personnel	

Total 42,69,000

Subdivisional establishment—

General	28,33,100
Debt conciliation	..
Total	28,33,100

	Ordinary areas.	Partially excluded areas.
	RS.	RS.
Other establishments—		
Taluk establishments	89,35,000	2,54,800
Ryotwari village service	1,58,56,200	50,500
Proprietary estate village service	41,72,000	38,000
Cattle pounds	2,50,800	..
Schools on account of revenue processes	2,15,200	..
Weights and measures	46,400	..
Schools for training village officers and presidents of panchayat boards	4,41,100	..

Post-war reconstruction—

(i) Ordinary areas, Wynaad Colonization, Ex-service Personnel Colonization	5,91,900
(ii) Partially excluded areas, Araku valley colonization	
Discretionary grants	60,000

[Hon. Sri T. Prakasam] 23rd August 1946]

“The following are the items pertaining to miscellaneous items:—

	RS.
Provincial broadcasting	1,93,000
District conferences	2,100
Rural recreation	86,100
Estates Land Act Tribunal	23,100
Scheme for grant of loans to repair houses	..
Buckingham Canal Transport	..
Rural indebtedness	4,600
Subsidy to ryots for reclamation of lands in Cauvery-Mettur Project area	4,800
Grants for sinking of wells for Grow More Food Scheme	12,700
Miscellaneous	10,000
Post-war reconstruction—	
Village reconstruction and Harijan uplift	One crore.
Expenditure from rural reconstruction	12,400
Charges in England	2,64,000

“These are the details of this Demand. In criticising this demand on the cut motion, it was stated that music before mosques has been causing considerable trouble in the country and that something should be done with regard to it. My hon. Friend the Leader of the Opposition (Mr. Ismail) in dealing with this question referred to the judgment of Mr. Justice Panduranga Rao in the High Court of Judicature of Madras and read out from the judgment of the learned Judge and suggested that this matter should be settled by means of legislation. This has been a very vexed question and has been agitating the Muslim community and also the Non-Muslim communities for a very long time. It has also been agitating the minds of all thinkers in the country. The position in the country is known to every one. It does not depend entirely upon statute, or code or rules of law laid down in the law courts. Cases came up before the law courts, judgments were given and matters had been taken to the Privy Council also. It has not been easy for the judges and courts to decide on the basis of any fixed legislation or code. This has been dependent upon custom that has been handed down from generation to generation for a long time. You know, Sir, how this country had been governed by Muslim rulers for hundreds of years. You will find that during the Muslim period also there were communal troubles on certain occasions. But the Muslim rulers were themselves very careful in regulating the conduct of all the communities under their rule. They were very anxious to see that no community was disturbed on any account so long as they were governing. The large extent of lands granted by Muslim rulers to non-Muslims bears evidence to this feeling of tolerance and co-operation on the part of the rulers and of the ruled. (‘Hear, hear.’) In Multan in the south of the Punjab the first Hindu-Muslim riot occurred in 1922 soon after the new movement started under the leadership of a single person but in fact under the leadership of the Congress.

[Hon. Sri T. Prakasam] [23rd August 1946]

4-45 P.m. " I do not propose to take the hon. Members of this House into the history of these incidents now. Only one incident I would like to mention, which I happened to witness in Multan. We saw many wretched acts done by the rioters, many sufferings on the part of the people also. I went there to see the temple in Multan, which is known as Prahladha temple. Multan is said to be the birthplace of Prahladha. That temple is there even to-day. If any one goes there, he can see it; because it is a thing that has not been removed or destroyed, even though many things happened during riots. Adjacent to that temple, divided only by one partition wall, there is a very big mosque. Prayers have been carried on there, I should say, in the mosque by the Muslim brothers, and in the temple by the non-Muslim brothers. That itself is a standing proof of the condition that is prevailing between the two communities. That is why we see on looking into history Muslim rulers had Hindu ministers, and if you look into the Revenue Code, the best part of it came up under the Muslim King who had Hindu Revenue Ministers. It is a misfortune that to-day things have changed very far and all these troubles have arisen. I am a bit cautious in my expression, because I am speaking about a custom in front of mosques which has been objected to by hon. Friends. Custom, according to Hindu Law or Muhammadan Law, gains superiority over even Statutes or Acts. That was the way in which this country had been governed time and again either by Englishmen or by Muslim or by any others who happened to rule over this country. Personally, I would be ready to respond to the appeal of my hon. Friends to consider this question for devising ways and means to an agreed programme. It takes you into matters relating to what are believed to be religious matters and religious customs. Such things are prevalent in every community and in every country. I have been in the know of the happenings of Hindu-Muslim strife from its very inception, which began from 1921 or 1922. It is a tragedy, a misfortune, for which every one of us should feel sorry for not having been able to bring matters to a settlement in some form or other. (Mr. Hameed Khan: 'Hear, hear.') I have been considering it myself, as also friends and fellow workers and all other people in this Presidency. They naturally feel that this matter should not go on as a matter of dispute. I am anxious that when one gives his personal opinion others should not be hurt, even though it is given in a representative capacity. Representative capacity may not be accepted when one touches a delicate ground of what is considered to be a religious matter. But, as the appeal has been made by my hon. Friends, and as it has been suggested that if this matter is attempted from one side, the other side also would be ready to make necessary concessions with a view to bringing about a settlement, I feel, Sir, that we should examine this position and approach this question from an altogether detached point of view to see how it can be settled. (N. Muhammad Anwar Sahib: 'Hear, hear.') For that I cannot make any promise straightway. I cannot even discuss the ideas I have got in my own mind, in this connection. Personal views one may have, but you will have to deal with the matter from an administrative point of view in quite a different way; and I have been considering what means and what methods we should

23rd August 1946] [Hon. Sri T. Prakasam]

devise in order to make the country itself understand the position as things had been there for centuries and even for *yugas*. Therefore, without making any definite statement with regard to how we are going to approach this, I feel that hon. Members who made this appeal will be able to place this matter before the people in the country whom they represent here and see in what way we can approach this in a satisfactory manner.

" With regard to broadcasting some criticism was made. In this Presidency there are only 2 broadcasting stations, one in Madras and the other in Trichinopoly. It was pointed out that the Andhras have been agitating for a broadcasting station, as well as our Malabar friends. One thing must be remembered, and that is that this broadcasting business is a subject of the Central Government. The Central Government was approached over and over again and sometimes it was felt that something might be done under the auspices of the Government of India, but all such hopes receded. As a matter of fact, we in the Madras Presidency have been ill-treated, insulted in regard to food and cloth, about which there has been the fullest debate. I may say, as I promised yesterday, I sent a telegram to the Viceroy about the debate in this House and about the state of feelings on the breach of faith on the part of the Food Department in the Centre. A reply has come; it is not a very encouraging reply. Mr. Hameed Khan wanted to have resolution on the subject, as he feared that there might not be a response unless there was a resolution moved in this House. (Mr. Abdul Hameed Khan: 'Hoping against hope.') Every thing depends upon the way in which you approach and you present the question. Every hon. Member of this House made no secret of his mind when this question was discussed. That has had some effect. Even there it is only half-hearted; for the Government of India have stated that they are diverting some food for this area; but it is not coming in the shape of full rice. They are going to send us only broken rice, because we have been complaining against wheat, maize and all those things already. 'If you want rice, we cannot give full rice. We are giving broken rice. Put it on your head, or put it in your mouth.' That is the way in which the Government of India, Food Department, have dealt with us. Even with regard to this we have sent a protest. (Mr. Abdul Hameed Khan: 'Hear, hear.')"

" Turning to broadcasting business, even though it is such a long period since the British established their rule in this country, in every respect we are behindhand; we are left out. The broadcasting business is not a thing that should be confined to Madras or to Trichinopoly. It is strange that they turn a deaf ear to our request even after so many representations made to them. Broadcasting stations are intended for what purpose? If they knew the purpose, they should not have hesitated to establish them in different parts of the Presidency, if not in every centre, at least in the best of centres. Therefore that matter will be pursued, Sir.

" As regards housing problem that question should have been dealt with by my hon. Friend Mr. Raghava Menon, if he had been here. He is obliged to be absent, and I may tell you, Sir, the housing problem has reached a very critical stage. We have been

[Hon. Sri T. Prakasam] [23rd August 1946]

talking of black-marketing, we have been talking of bribes and corruption; it may be possible for any human Government to take up any two things if they are the main things. That word 'corruption' is a very general word. It is not only when a man takes a bribe in lakhs of rupees or in any shape that he will be guilty of corruption. Anything done by him dishonestly with a view to gain unlawfully and illegitimately, profit or advantage over others, taking advantage of the weakness of others—it is all corruption. How to prevent it has been the problem over the whole world. It is not peculiar to us. Everywhere in the City of Madras you hear of complaints of crowded tenements and monopoly all round. We are going to introduce a bill to control rent at the end of the budget session. Therefore, with regard to the housing problem I do not like to discuss immediately telling you about all the happenings in the City itself, not to talk of the happenings in the districts. Very cruel treatment has been given by those who had amassed wealth during this war period and who had become rich people by getting every property, and getting complete control over properties, and making it impossible for common people with slender means to get accommodation, just as it has been made impossible to common people to get decent food even if money is paid. Therefore, we are thinking of having some interim machinery through legislation so that Government would be in a position to deal effectively with this problem.

"Sir, I do not wish to detain the House any longer by attempting to give replies to small matters. I thank the hon. Members of this House for the way in which they have been anxiously co-operating with the demands placed before them, no doubt expressing strongly their views. I thank hon. Members who had been saying so many good words about my birthday. I may say to hon. Members of this House that I have been avoiding this birthday business for a very long time. (Laughter.) Sixty years are supposed to be a landmark in a man's life. Fifteen years, Sir, I have spent without knowing when the year began and when the year ended. ('Hear, hear.') I am only hoping that until life gets out of this body I shall be able to do service to the country. ('Hear, hear.') According to all religions, service to the country is service to God. ('Hear, hear.') I thank all hon. Members."

* MR. SPEAKER:—"Does the Leader of the Opposition wish to press the cut motion?" (Voices: 'Withdraw, as it is the Premier's birthday.') (Laughter.)

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I withdraw the cut motion."

* N. MUHAMMAD ANWAR SAHIB BAHADUR:—"As a birthday gift, the cut motion is withdrawn unasked." (Laughter.)

The cut motion was by leave of the House withdrawn.

The Demand was put to vote and carried and the grant was made.

The House adjourned to meet again the next day at 11 o'clock.

III.—PAPERS LAID ON THE TABLE OF THE HOUSE.

Admission to Engineering and Medical Colleges, 1946-47.

THE MADRAS LEGISLATIVE ASSEMBLY.

Saturday, 24th August 1946.

The House met in the Legislative Assembly Chamber, Fort St. George, at eleven of the clock, Mr. Speaker (THE HON. SRI J. SIVASHANMUKHAM PILLAI) in the Chair.

I.—QUESTIONS AND ANSWERS.

MR. SPEAKER:—"Yesterday we have left a question unfinished. It was put by Mr. Muhammad Ismail. I postponed it to-day. It may be taken up now."

STARRED QUESTIONS.

Selection of students for admission into Colleges.

* 112-A Q.—M. MUHAMMAD ISMAIL SAHIB BAHADUR: Will the Hon. the Minister for Education be pleased to—

(a) place on the table of the House the recent Government Order prescribing that the admission of 20 per cent of students in certain colleges and institutions should be based on merit;

(b) and state the object of issuing the said Government Order;

(c) the names of colleges and institutions in which the said Government Order was given effect to;

(d) how many Muslims, Brahmans, Non-Brahmans, Harijans, Christians and Anglo-Indians applied for admission in such colleges and institutions;

(e) how many students from each of the said communities were selected for admission in each such college or institution (i) on merit and (ii) otherwise than on merit in pursuance of the Government Order referred to in (a);

(f) how many of the selected students from each of the said communities actually joined the respective colleges and institutions and how and from what communities the vacancies which thus arose were filled up; and

(g) how many Muslims, Brahmans, Non-Brahmans, Harijans, Indian Christians and Anglo-Indians respectively were admitted in the Engineering and Medical Colleges of the Province during each of the last six academic years?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

"(a) A copy of Government Memorandum No. 33199-A/46-1, Education, dated 21st June 1946, is placed on the table of the House.

"(b) It was considered necessary that some percentage of the seats in the Engineering Colleges and the Medical Colleges may be reserved to be filled on grounds of merit, in order to get the best possible candidates.

"(c) Government Engineering and Medical Colleges.

[24th August 1946]

“(d) & (e)—

	Number of students that applied.	Number selected.	
		On merit.	Otherwise.
Medical Colleges—			
Brahmans	403	47	49
Non-Brahmans	470	14	122
Scheduled Castes	2	..	2
Indian Christians	110	6	53
Muslims	44	..	43
Total ..	1,029	67	269
Engineering Colleges—			
Brahmans	608	57	26
Non-Brahmans	343	8	179
Scheduled Castes	8	..	8
Indian Christians	76	2	30
Muslims	41	2	30
Total ..	1,080	69	273

“(f) The information is not available and will be called for. The seats which fall vacant due to failure of students to join the Colleges will be filled from a waiting list, care being taken to replace a candidate of a particular community and linguistic area, by a candidate of the same community and linguistic area.

“(g) Figures for four years regarding Engineering Colleges and the Madras Medical College, which are available, are as below:

Name of College.	Year.	Number selected from				
		Brahmans.	Non-Brahmans.	Muslims.	Scheduled Castes.	Indian Christians.
Medical College, Madras ..	1945 ..	26	52	14	1	20

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“Sir, before the issue of the Government memorandum^a, a copy of which has been placed on the table of this House, did the Hon. Minister receive any representations on that matter?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—“On which matter, Sir?”

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“Regarding admission into the professional colleges.”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—“I have not understood him. The admissions have been over. If the hon. Member means representations after the admissions are over, yes.”

^a Printed as Appendix I on page 961 infra.

[24th August 1946]

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“No Sir. I mean any representations before the Government issued that memorandum a copy of which has been supplied to us.”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—“What is the Government memorandum, Sir?”

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“We are now putting supplementary question on the answer supplied by the Hon. Minister to my question put yesterday. The answer (a) refers to a Government memorandum. I want to know from the Hon. Minister whether he received any representations before issuing that memorandum. What was the immediate reason for issuing that memorandum?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—“Yes Sir, we have received some.”

B. POCKER SAHIB BAHADUR:—“From whom?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—“It is not possible to say it now. But we have received letters saying that some representations were received.”

B. POCKER SAHIB BAHADUR:—“I want to know whether the Government received any representations from the heads of the institutions concerned, namely, the Medical College and the Engineering College, to the effect that unless merit is made the basis for selections, these colleges will go to dogs?”

SRI T. VISWANATHAM:—“I think the expression ‘go to dogs’ is objectionable.”

MR. SPEAKER:—“Absolutely not. It is not applied to any Member.”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—“No Principal of any Government college has made any representation, Sir.”

B. POCKER SAHIB BAHADUR:—“What was the reason which induced the Government to issue this extraordinary memorandum?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—“The Bhore Committee has made certain recommendations in this regard.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“Not a dog.”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—“But a ‘Bhore’.”

SRI B. ANANTHACHAR:—“Although it is not a supplementary question, will the Hon. Minister be pleased to give figures of admission districtwar?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—“Not now. If the hon. Member puts a separate question, it can be done.”

[24th August 1946]

MR. W. J. FERNANDEZ:—"Will the Hon. Minister be pleased to state whether any, and if so how many, applications were received from Anglo-Indians for admission to the Engineering and Medical Colleges and how many candidates were actually admitted?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"No applications from Anglo-Indians were received. There were applications from Indian Christians. In the Medical College, their number was 110."

BEGUM SULTAN MIR AMIRUDDIN:—"Did the Bhore Committee make any recommendation with reference to the Engineering College?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"No, Sir."

SRI V. I. MUNISWAMI PILLAI:—"In view of the smallness of the number of Scheduled Castes in various colleges, will the Government consider the abolition of the merit that is required, and give facilities?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"That question does not arise with regard to Scheduled Castes at all, as every member of the Scheduled Castes that applied has been admitted."

B. POCKER SAHIB BAHADUR:—"May I know, Sir, whether the Government referred to the heads of these institutions the recommendation of the Bhore Committee that a certain percentage should be left for selection on merit?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Not now, Sir."

MR. W. J. FERNANDEZ:—"May I know, Sir, why, in view of the specific question asked by the Leader of the Opposition, the Government have not been able to give separate figures for Anglo-Indians?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I am sorry that separate figures are not available. If the hon. Member will put a separate question, this will be done."

SRIMATHI C. AMMANNA RAJA:—"May I know from the Hon. Minister how many lady students were admitted into the Medical College this year?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I am sorry that ladies have not been treated as a separate community. (Laughter.) If the hon. Member wants the information, I shall be glad to furnish."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know whether the Hon. Minister for Education has become the

[24th August 1946]

Minister for the Engineering College and the engineering portfolio?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Not the engineering portfolio, but the Engineering College."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Is the Engineering College under the Education Department, Sir?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Yes Sir."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"May I know, Sir, whether, before taking this important step of modifying the existing policy of the Government, the Hon. Minister consulted the Cabinet?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Not the whole Cabinet."

BEGUM SULTAN MIR AMIRUDDIN:—"Are the Government aware that the recommendations of the Bhore Committee were based on the proposed increase in the number of colleges in the Province?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The number of colleges has been increased."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"May I know from which community or communities representations were made that selection should be made on merit also?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I had no occasion to examine the communities of the persons who made representations."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know from the Hon. Minister for Medicine whether she realises that as a result of this innovation, one community has derived very great advantage?"

THE HON. MRS. LAKSHMIPATHI:—"The Minister for Public Health is not expected to give an answer to this supplementary question, because the Minister for Education is to answer it as the question has been put down in the agenda for him."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know whether medical colleges are not in the portfolio of the Minister for Public Health?"

THE HON. MRS. LAKSHMIPATHI:—"The hon. Member is requested to put a separate question."

SRI S. NAGAPPA:—"May I know from the Hon. Minister whether, if merit is taken into consideration, it will debar almost all the Harijan students from getting admission into the college?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"That is exactly the reason why merit is not the sole criterion for making the selection."

[24th August 1946]

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Will the Hon. Minister be pleased to state whether there was any inspiration or intuition at the time he passed the order that 20 per cent of the seats should be reserved for selection on merit?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"As a very prosaic man."

SRI S. NAGAPPA:—"Is the Hon. Minister aware that no Scheduled Caste candidate can get in within the 20 per cent reserved for merit?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"All the Scheduled Caste candidates, who have applied for, have been admitted."

SRI M. G. NATESA CHETTIYAR:—"Is it that the Muslim League members are concerned only with Muslim teachers and mistresses and not other community teachers and mistresses?"

(No answer.)

SRI N. S. VARADACHARI:—"Will the Hon. Minister be pleased to state whether, if the communal Government Order is worked on the lines laid down therein, no one community will get any advantage over the other in respect of Government service?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"It is not for me to reply to that question."

B. POCKER SAHIB BAHADUR:—"May I know whether the Government received at any time any report from the heads of these institutions, namely, the Medical College and the Engineering College, that on account of this communalwar selection, the efficiency of the institutions has suffered?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"That question has been answered."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Sir, Are there not minimum qualifications already prescribed for admission into these professional colleges?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The Hon. Member knows it as well as I do."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Did it not occur to the Hon. Minister before he made this innovation that the other communities, which are affected, also should be consulted beforehand?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I am of the opinion that there is really no difficulty if the community can come up to that standard."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"My question is not that."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I want to know from the Hon. Minister whether the minimum qualifications

[24th August 1946]

already prescribed do not represent the merit enough for admission into these colleges?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"As the hon. Member says, they are minimum qualifications."

MUHAMMAD HUSSAIN SAHIB BAHADUR:—"Do the Government make use of merit as an excuse to show favours to a particular community?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Does the hon. Member imagine that I belong to that community?"

SRI K. BOKKAI GOWDER:—"Will the Hon. Minister be pleased to state the number of students belonging to the backward communities admitted into these colleges?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Backward communities are not shown separately in this, but if the hon. Member puts a separate question, I shall give the answer."

SRI P. NATESAN:—"What is the meaning of 'merit'?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Just now as it has happened selections, it means more marks."

SRI P. NATESAN:—"If a student gets more marks, does it mean that he is good enough for any preferential treatment?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I do not say it is a perfect standard, but in the absence of anything better, we will follow it. If the Hon. Member will tell us something better, it will be adopted."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"May I know whether any Member of the Cabinet demurred to this innovation?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I cannot answer that question."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"May I know whether the Hon. Minister for Education stood first in all his classes?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Possibly, Sir, I might have stood last."

SRI P. NATESAN:—"Does the Hon. Minister realize that people who get the maximum number of marks may prove a failure in later life?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"Quite possible, Sir."

B. POCKER SAHIB BAHADUR:—"Are the Government aware that there are many gentlemen at the top of the professions whose marks in the colleges were very poor?"

(No answer.)

[24th August 1946]

MAHBOOB ALI BAIG SAHIB BAHADUR:—"May I know the reason why, when such an important innovation is being made, the matter was not placed before the entire Cabinet?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"That is a matter for the Government."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I know from the Hon. Minister whether he realizes that, by making this innovation although he has not materially affected some of the minority backward communities, if he persists in this policy, in later years it will affect them adversely and will add to the advantage of the community for which this innovation has been made?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The Government will consider the views that have been expressed by the House in the matter and, as the hon. Members know, this innovation is only for this year."

SRI B. ANANTACHAR:—"May I know whether any representations have been made that this consideration of merit has affected any community adversely?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"If the hon. Member means by that question whether any community has got least admission into the colleges because of merit, it is so, Sir."

SRI S. NAGAPPA:—"Will the Government consider the desirability of exempting the Scheduled Caste students from the question of merit?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I am one of those who believe that the Depressed Classes should not depend upon these things, that they must come up and that they can come up in the usual course."

SRI K. BOKKAI GOWDER:—"Are the Government aware that the backward communities suffer a handicap in being classified as a whole under Non-Brahman Hindus?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"In the matter of selection, they are classified as backward classes."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Did not the Hon. Minister consider that the innovation is such a serious departure affecting all communities, that it is necessary to place the matter before the whole Cabinet and a joint decision taken?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I have nothing more to add to what I have already said."

SRI N. VENKATASUBBAYYA:—"May I ask whether there are separate sections called Shiyas, Sunnis, Khans and Momins among the Muslims and that separate treatment will be given to Momins among the Muslims if they are backward?"

(No answer.)

[24th August 1946]

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I ask the Hon. Minister whether he realizes that, by this innovation, he has adversely affected the Non-Brahman community including the backward communities?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"That has been answered, Sir."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Is the Hon. Minister aware that by this merit policy, one community gets now five times the number of seats in the Engineering College which it got last year, while the other communities have not got the same proportion?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"No one community has got five times."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Let me bring to the notice of the Minister that members of the Brahman community admitted last year were 17, while the number is 83 this year in the Engineering College?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The number of colleges has increased and the number in other communities has also doubled."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"The number of other communities has increased to $3\frac{1}{2}$ times in the case of non-Brahmans, $2\frac{1}{4}$ times in the case of Muslims, 2 times in the case of Scheduled Castes and $2\frac{1}{2}$ times in the case of Indian Christians, while it is 5 times in the case of one particular community."

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The number admitted in the Engineering College last year was 102, and the number admitted this year is 342."

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I do not speak of the actual number, but only the proportion."

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"The number of Brahmans this year is 83 and Non-Brahmans 187."

B. POCKER SAHIB BAHADUR:—"Does the Hon. Education Minister realize that it was a hasty order that he issued, and will he candidly confess that to this House, Sir?"

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—"I am a very bad confessor, Sir."

Prohibitory order in Tuticorin.

* 113 Q.—SRI N. S. VARADACHARI: Will the Hon. the Prime Minister be pleased to state—

(a) whether it is a fact that a prohibitory order has been promulgated in Tuticorin banning all meetings and processions for two months; and

(b) whether the Government contemplate taking steps for its withdrawal?

THE HON. SRI T. PRAKASAM:—" (a) On the 26th June 1946 the Joint Magistrate, Tuticorin, issued an order under section

[24th August 1946]

144, Criminal Procedure Code, prohibiting the holding of any meetings, processions and demonstrations for a period of two months. On 1st July 1946 the above order was cancelled and a fresh one was issued relaxing the restrictions originally imposed, the order to remain in force for a period of one month. On 1st August 1946 another order was issued relaxing the restrictions still further. This order is to remain in force for a period of one month.

“(b) No.”

SRI PILLALAMARRI VENKATESWARLU:—“ May I know, Sir, whether the District Officers had consulted the Provincial Government before issuing such orders, and if not, what steps the Government propose to take to see that such orders are not issued before consulting the Government? ”

THE HON. SRI T. PRAKASAM:—“ No officer of the Government will be able to function, as the emergency arises, if he is to be restricted to put it to Government and obtain their orders. No such thing can happen.”

SRI K. T. KOSALRAMA NADAR:—“ May I know, Sir, whether the Hon. Minister will issue instructions to punish only the offenders and not the entire public? ”

THE HON. SRI T. PRAKASAM:—“ Certainly, Sir. The hon. Member may know that only offenders would be proceeded against and not those who are innocent.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“ May I know what circumstances made the Joint Magistrate change his policy from time to time? ”

THE HON. SRI T. PRAKASAM:—“ I should not have expected this question from the hon. Member. When he was relaxing the restrictions, he was noticing some improvement in the situation, and gradually he was attempting to relax the restrictions altogether.”

Amendment of communal Government Order.

* 114 Q.—SRI D. DORAIRAJA PANDIAN: Will the Hon. the Prime Minister be pleased to state whether the Government propose to amend the communal Government Order so as to give representation to the backward classes commensurate with the strength of their population? ”

THE HON. SRI T. PRAKASAM:—“ The question will be examined and considered.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“ Arising from the answer of the Hon. the Prime Minister, may I ask whether the Government have any ideas as to the manner in which they propose to amend this communal order, whether any representations have been made to them, and if so, what are those representations? ”

THE HON. SRI T. PRAKASAM:—“ I gave an answer already yesterday that the communal Government Order will be thoroughly examined afresh. The way in which the communal Government Order should really be applied to persons

24th August 1946]

covered by that Government Order and whether the communal Government Order should continue to remain or not—these questions will also be considered by the Government.”

SRI V. I. MUNISWAMI PILLAI:—“ Are the Government aware that the Government of India has increased the proportion of Harijan representation in their services to 18½ per cent and will this Government also follow suit? ”

THE HON. SRI T. PRAKASAM:—“ As circumstances might demand, this Government may go far in advance of the Government of India.”

ABDUL HAMEED KHAN SAHIB BAHADUR:—“ May I know from the Hon. the Premier, what are the facts that have necessitated the revision of the communal Government Order? ”

THE HON. SRI T. PRAKASAM:—“ That question does not arise in this connection.”

SRI M. G. NATESA CHETTIYAR:—“ May I know, Sir, what are the backward communities in this Province? ”

THE HON. SRI T. PRAKASAM:—“ A complete list of the backward communities and also the sub, and sub-sub communities has been prepared and it will be placed before this House.”

BEGUM SULTAN MIR AMIRUDDIN:—“ May I know, Sir, what are the reasons for the Government wanting to revise the communal Government Order? ”

THE HON. SRI T. PRAKASAM:—“ The reasons have already been stated. The reasons also will be further examined and also whether those reasons can be sustained or not.”

M. MUHAMMAD ISMAIL SAHIB BAHADUR:—“ Will the Hon. the Premier take this hon. House into confidence before he makes any change in their present policy in regard to the communal Government Order? ”

THE HON. SRI T. PRAKASAM:—“ Hon. Members may be expecting to know the manner in which the communal Government Order will be applied to all communities until it is reconsidered and revised. (Interruption.) I will make the position clear, Sir. As we apply the communal Government Order to the communities covered by the Government Order and as we unfold in what manner we propose to apply that Government Order to all the communities and not to a community which has been dominating hitherto—these will be known to the House.”

B. POCKER SAHIB BAHADUR:—“ The question was, whether the Hon. the Premier will take the House into confidence before coming to a conclusion with regard to the revision of the communal Government Order. That has not been answered, Sir.”

THE HON. SRI T. PRAKASAM:—“ I am not a witness in the box for being cross-examined in the manner in which the hon. Member has been following up the answer. I have told the

[24th August 1946]

hon. Member and other hon. Members also how the communal Government Order when it is revised will be worked and this will be known to the House from time to time. That is what I meant."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"On a point of order, may I submit, Sir, that if any hon. Member of the Treasury Bench is not in a position to give a categorical answer to a categorical question, he can say that he is not prepared to answer the question or say 'No.' But to say that he is being cross-examined, is, to my mind, not certainly correct, Sir."

MR. SPEAKER:—"It is not a point of order."

THE HON. SRI T. PRAKASAM:—"The hon. Member should not misunderstand the answer given by me. When I said that sometimes the questioning amounts to cross-examination, it meant no offence. But they may in the nature of things be cross-examination, but cross-examination has got a limitation so far as the Assembly is concerned. The hon. Member must, therefore, take it in the proper spirit in which it was offered."

Posting of police officials to places where big Government temples exist.

* 115 Q.—SRI K. T. KOSALRAMA NADAR: Will the Hon. the Minister for Hindu Religious Endowments be pleased to state—

(a) whether there is any Government Order to the effect that police officials belonging to castes prohibited from entering temples by Hindu Law and custom, should not be posted in places where big Government-controlled temples exist; and

(b) if so, whether the Government contemplate rescinding such a Government Order?

THE HON. SRI K. R. KARANTH (on behalf of Hon. Sri K. Koti Reddi:—" (a) The answer is in the negative.

" (b) Does not arise."

SRI K. T. KOSALRAMA NADAR:—"In view of the answer to clause (a), Sir, will the Government consider the question of appointing police officials from the Harijan community for the above temples?"

THE HON. SRI K. R. KARANTH:—"That question does not arise from the main question."

Complaint against the Commercial Tax Officer, Cuddapah.

* 116 Q.—SRI S. NAGAYYA: Will the Hon. the Minister for Revenue be pleased to state—

(a) whether he has received a specific complaint from Mr. S. Krishnaswami, Bar-at-Law, President, Journalists' Association, Cuddapah, against the Commercial Tax Officer, Cuddapah, alleging abuse of official power against the Hindu correspondent of Cuddapah; and

[24th August 1946]

(b) what action the Government propose to take in this matter and to put down such abuses of official power in future?

THE HON. SRI K. R. KARANTH:—" (a) Yes.

" (b) The Government have called for a report from the Board of Revenue in the matter and they will consider the action to be taken on receipt of the report."

MUHAMMAD HUSSAIN SAHIB BAHADUR:—"May I know, Sir, the community to which that officer belongs?"

THE HON. SRI K. R. KARANTH:—"I looked into the papers concerning the question some time ago, but I never looked into the community of the gentleman."

Bifurcation of the revenue district of Vizagapatam.

* 117 Q.—SRI G. KUMARASWAMI: Will the Hon. the Minister for Revenue be pleased to state—

(a) whether the Government have considered the proposals of the Board of Revenue in regard to the bifurcation of the revenue district of Vizagapatam and with what result;

(b) whether in doing so the Government have taken, or propose to take, into consideration the proposals of the People's Committee regarding the same; and

(c) when the bifurcation is likely to be effected?

THE HON. SRI K. R. KARANTH:—" (a) & (c) The proposals are under consideration of the Government and orders thereon will be passed as early as possible.

" (b) The proposals of the People's Committee, North Vizagapatam district, regarding the bifurcation of the Revenue district of Vizagapatam are before the Government and will be considered by the Government before orders are passed."

SRI M. G. NATESA CHETTIYAR:—"May I know, Sir, whether there are any bifurcation proposals in respect of any other district?"

THE HON. SRI K. R. KARANTH:—"That question does not arise from this question, Sir."

Committee on the separation of the Judiciary from the Executive.

* 118 Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

(a) why no Muslim was appointed as member of the committee constituted by the Government to go into the question of the separation of Judiciary from the Executive; and

(b) whether the Government will give an opportunity to this House to discuss this question before taking any action in the matter?

THE HON. SRI T. PRAKASAM:—" (a) The Committee referred to by the hon. Member is not, in the opinion of Government, one to which appointments should be made on the communal principle.

" (b) No."

[24th August 1946]

MR. SPEAKER:—"Mr. Salam, the next Demand we will be discussing is 'Administration of Justice'. We shall thoroughly discuss these questions under that Demand."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Only one question, Sir, May I know, Sir, on what principle the Committee was constituted?"

THE HON. SRI T. PRAKASAM:—"The Committee was appointed on the principle that experts should be its members and they are to report about the method of separating judiciary from the executive."

BEGUM SULTAN MIR AMIRUDDIN:—"May I know, Sir, whether the Hon. the Minister for Law is aware that under section 107 of the Government of India Act, it is not possible for the Provincial Government to amend the Criminal Procedure Code on obtaining the assent of the Governor-General in that regard and whether the Government of Madras have applied to the Governor-General for obtaining his assent?"

THE HON. SRI K. BHASHYAM:—"The point raised by the hon. Member is before the Committee and we are awaiting the advice of the Committee in the matter."

Reports on food procurement, etc.

* 119 Q.—H. S. HUSSAIN SAHIB BAHADUR: Will the Hon. the Minister for Motor Transport and Food be pleased to state—

(a) whether any reports on food procurement, food propaganda, formation of food committees under the Government scheme, ryotwari tenure, financial aid given by the Government in furtherance of the 'Grow More Food' campaign and minor irrigation works undertaken and proposed to be undertaken by the Government in the district of South Kanara have been called for or received by the Government; and

(b) what action, if any, has been taken on any such reports called for or received?

THE HON. SRI R. RAGHAVA MENON:—" (a) & (b) No special reports on food procurement, food propaganda, formation of food committees under the Government scheme and financial aid given by the Government in furtherance of the Grow More Food campaign, have been called for from the Collector of South Kanara. Only periodical reports are being received either by the Board of Revenue (Civil Supplies) or by Government from the Collector of this district as also from the Collectors of other districts regarding some of the above matters referred to. Appropriate action is being taken on these periodical reports.

"As regards minor irrigation works, the hon. Member is requested to refer to the answers already given in reply to Starred Legislative Assembly question Nos. 73, 57 and Unstarred question No. 17."

24th August 1946]

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I ask the Hon. Minister whether in view of the seriousness of the situation the Government are justified in not acting expeditiously, depending only upon the periodical returns from Collectors on these matters?"

THE HON. SRI R. RAGHAVA MENON:—"When the Government feel there is a necessity to call for a report from the Collectors, they will do so."

SRI PILLALAMARRI VENKATESWARLU:—"Will the Government consider the desirability of issuing weekly reports, regarding the stock position, imports, etc.?"

THE HON. SRI R. RAGHAVA MENON:—"If the Government see any necessity for it, they will do so."

MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Arising out of the previous answer of the Hon. Minister, may I ask the Government not to wait until something comes as an inspiration to the Government?"

THE HON. SRI R. RAGHAVA MENON:—"The question is not clear, Sir. But my hon. Friend must remember that the Government may call for information from the Collectors at any time and the Collectors will supply the necessary information."

Uniform for Bus and Motor Vehicle Inspectors.

* 120 Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Minister for Motor Transport and Food be pleased to state whether the Government propose to prescribe any uniform for bus and motor vehicle inspectors?

THE HON. SRI R. RAGHAVA MENON:—"The answer is in the negative."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I ask the Hon. Minister whether he realizes the danger that will rise if the people who are engaged in this activity do not know whether the person who acts in the capacity of an inspector is really the inspector?"

THE HON. SRI R. RAGHAVA MENON:—"If any such difficulty arises and if the Government think that confusion will arise as a result of not prescribing any uniform for these inspectors, they will immediately consider the question and do the needful."

H. S. HUSSAIN SAHIB BAHADUR:—"Have the Government not received any complaints so far in that matter?"

THE HON. SRI R. RAGHAVA MENON:—"I am not aware of any complaints."

Increase in the pay of non-gazetted officers.

* 121 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Prime Minister be pleased to state whether the Government are aware that the increase of 100 per cent in the salaries

[24th August 1946]

of the Hon. the Ministers over the salaries of the Ministers which they were receiving in the last Congress regime has raised a hope in the minds of menials, peons, clerical staff and other non-gazetted officers that their pay will also be substantially increased?"

THE HON. SRI T. PRAKASAM:—"The answer already given applies to this also. But I may say that the general question of revision of pay of non-gazetted services is being examined shortly by a Committee of Ministers and Government will pass orders on their recommendations at least as an interim measure."

BEGUM SULTAN MIR AMIRUDDIN:—"May I enquire, Sir, why no provision has been made in the Budget to give relief to the hungry stomachs of the low-paid employees?"

THE HON. SRI T. PRAKASAM:—"Whether an express provision has been made or not, there is sufficient indication in the answer that the subject would be taken up and disposed of before long."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Are the Government aware that the clamour for increased salaries is due directly to the increase in the salaries of Ministers?"

THE HON. SRI T. PRAKASAM:—"Sir, I may tell the hon. Member that there has been no such clamour. People have never become unreasonable. Some hon. Members of the House should be guarded in their expressions so as not to provoke people to put forward all sorts of claims without even understanding them." (Cries of 'hear, hear' from Ministerialists.)

B. POCKER SAHIB BAHADUR:—"May I know whether it is not a fact that there is already a report before the Government submitted by a committee appointed a year ago presided over by Sir H. M. Hood and by Sir Norman Strathie and that that report can be immediately given effect to without subjecting the question to a fresh examination by another committee?"

THE HON. SRI T. PRAKASAM:—"I may assure hon. Members and others that we will be doing something immediately without waiting for a final decision at a distant date."

AN HON. MEMBER:—"Thank you, Sir."

BEGUM SULTAN MIR AMIRUDDIN:—"May I know when the deliberations of the committee will be over and relief granted to the low-paid employees?"

THE HON. SRI T. PRAKASAM:—"As early as possible something will be done which will satisfy the hon. Member."

D. ABDUL RAWOOF KHAN SAHIB BAHADUR:—"May I know whether there are proposals to give relief to pensioners?"

THE HON. SRI T. PRAKASAM:—"The question does not arise."

[24th August 1946]

Increase in the salary of Government officials drawing a pay below Rs. 150.

* 122 Q.—BEGUM SULTAN MIR AMIRUDDIN: Will the Hon. the Prime Minister be pleased to state whether the Government are taking or propose to take any steps to increase the salary of all Government officials who are drawing a pay below Rs. 150?

THE HON. SRI T. PRAKASAM:—"The general question of revision of pay of non-gazetted services (servants drawing Rs. 200 per mensem and below) will be examined shortly by a committee of Ministers and Government will pass orders on their recommendation."

H. S. HUSSAIN SAHIB BAHADUR:—"May I know what the extent of the interim relief will be?"

THE HON. SRI T. PRAKASAM:—"I should not have expected such a question from Mr. H. S. Hussain."

MR. SPEAKER:—"As the answers to short-notice questions are not ready, they will not be taken up now."

THE HON. SRI T. PRAKASAM:—"I may mention, Sir, that because one of the hon. members was complaining that short notice questions are being rejected by us, I agreed to answer them though I had doubts about the sufficiency of the time allowed to the departments to get the answers ready. It now happens that the time allowed is not sufficient and the answers therefore are not ready."

Lathi charge by Police on scavengers.

*123 Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Premier be pleased to state—

- (a) whether the police have resorted to lathi charge to disperse the scavengers at Saidapet;
- (b) whether it is fact that ladies were molested before and after the lathi charge; and
- (c) will the Government be pleased to appoint a non-official committee to enquire into the matter?

Contemplated strike in South Indian Railway.

*124 Q.—MUHAMMAD ABDUL SALAM SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

- (a) whether it is a fact that the General Manager of South Indian Railway met the Premier;
- (b) whether the Premier has promised all support and all assistance to the Railway authorities in case there is a strike; and
- (c) if the answer to (b) is in affirmative in what way he proposes to render help to the railway authorities?

Kidnapping of children.

*125 Q.—SRI T. S. PATTABIRAMAN: Will the Hon. the Prime Minister be pleased to state—

- (a) whether the Government are aware of the wide spread panic among the public due to reported kidnapping of children throughout the Province;
- (b) whether it is fact that two cases of kidnapping of children occurred at Madras on 22nd August 1946; and
- (c) if so, what steps the Government have taken to prevent this crime wave and allay the fears of the public?

Note.—*Q. 124 Renumbered as 199 A is answered on 10th September 1946.

[24th August 1946]

UNSTARRED QUESTIONS.*Removal of Hitch-Cock Memorial at Mongam near Malappuram.*

30 Q.—K. M. SEETHI SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

(a) whether the last Congress Ministry received representations from Malabar for the removal of the Hitch-Cock Memorial at Mongam near Malappuram;

(b) whether Government took any action on such representations;

(c) whether representations for the removal of the said Memorial were received by the Government even after the last Congress Ministry went out of office; and

(d) what action the Government propose to take for its removal?

A.—(a) Yes.

(b) Government considered the matter and decided that no action was called for.

(c) & (d) The attention of the Hon. Member is invited to the answer given to the starred question No. 4.

Scheme for procurement and distribution of foodgrains by the Kerala Provincial Congress Committee and its introduction in Malabar.

31 Q.—K. M. SEETHI SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

(a) whether the Government accepted the scheme for procurement and distribution of foodgrains submitted by the Kerala Provincial Congress Committee and introduced it in Malabar;

(b) whether the Government consulted any other political parties before they accepted the said scheme;

(c) whether the scheme was published for public criticism before it was adopted; and

(d) if the answers to (b) and (c) are in the negative, what are the reasons for the acceptance and introduction of the scheme without reference to other political parties and without eliciting public criticism?

A.—(a) Yes.

(b) No.

(c) No.

(d) As the scheme is an ameliorative measure intended to benefit the people of Malabar district by improving the existing scheme of procurement and distribution of foodgrains in the district and as it had to be introduced and brought into force before the harvest commenced the Government did not consider it

24th August 1946]

necessary to consult any political party or invite public criticism on this scheme. However the Collector of Malabar issued a general invitation to all M.L.As., etc., and leaders of political parties to attend the conference of officials held at the Huzur office, Calicut, on 25th June 1946 to discuss the scheme of procurement and distribution of foodgrains adopted by the Government. It is open to the leaders of political parties to attend that Conference and put forth their views.

Vincent Soda Factory at Trichinopoly.

32 Q.—SRI K. ANANDA NAMBIYAR: Will the Hon. the Minister for Industries and Labour be pleased to state—

(a) whether, notwithstanding the fact that more than 50 workers are employed in the Vincent Soda Factory at Trichinopoly, the same has not been brought under the operation of the Factories Act; and

(b) why this has not been done in spite of the representations made by the Workers' Union to the Labour Commissioner in the month of May 1946?

A.—(a) & (b) The Soda Factory Workers' Union, Trichinopoly, represented to the Commissioner of Labour that the Vincent Bakery, Confectionery and Soda Factory and about a dozen other soda factories in Trichinopoly employing more than 20 persons should be brought under the Factories Act. The Inspector of Factories, Trichinopoly, inspected the Vincent & Co., Ltd. (Soda, Bakery and Confectioner), Trichinopoly, on 22nd May 1946 and found that the manufacturing processes were carried on without the aid of power. The bakery and confectionery sections of the factory were brought on to the register of factories. As aerated water factories have not yet been declared as factories under section 5 of the Factories Act, the aerated water section of the factory has not been brought to the register of factories.

Registration of Trichinopoly-Srirangam Municipal Workers Union.

33 Q.—SRI K. ANANDA NAMBIYAR: Will the Hon. the Minister for Industries and Labour be pleased to state—

(a) whether it is a fact that the Labour Commissioner has been withholding the registration of the Trichinopoly-Srirangam Municipal Workers Union under the plea that some amendments besides those contemplated by the Indian Trade Union Act of 1926 are necessary;

(b) if so, what they are; and

[24th August 1946]

(c) whether those conditions are imposed by the department without statutory sanction?

A.—(a) No, Sir. The Union was registered on the 8th July 1946.

(b) & (c) Does not arise.

The area under tobacco cultivation in the Madras Presidency during the years 1943 to 1945.

34 Q.—SRI A. VEDARATNAM PILLAI: Will the Hon. the Minister for Revenue be pleased to state—

(a) the area under tobacco cultivation in the Madras Presidency during the years 1943, 1944 and 1945, districtwar; and

(b) the estimated area of tobacco cultivation to be reduced by the proposed restriction on tobacco cultivation, districtwar?

A.—(a) The information is contained in the annual season and crop report of the Province for the years. A statement^a showing the extent of tobacco cultivation, districtwar during 1942-43 to 1944-45 is annexed.

(b) The proposed restriction on tobacco cultivation has not been enforced. It is not therefore possible to indicate now the extent to which the area under the crop will be reduced in each district.

Conference of officials at Huzur office, Calicut, to discuss procurement and distribution of foodgrains in Malabar.

35 Q.—K. M. SEETHI SAHIB BAHADUR: Will the Hon. the Prime Minister be pleased to state—

(a) whether there was a conference of the officials at the Huzur office, Calicut, on 25th June 1946 to discuss the scheme of procurement and distribution of foodgrains in Malabar adopted by the Government;

(b) whether Mr. K. Kelappan, President, Kerala Provincial Congress Committee, was present at the conference;

(c) whether he was invited to attend the conference, and by whom;

(d) whether the representatives of any other political organizations were invited for the conference; and

(e) if the reply to (d) is in the negative, the reason for not inviting them and inviting Mr. Kelappan alone?

A.—(a) Yes.

(b) Yes.

(c) & (d) Mr. Kelappan was not specially invited. He attended the meeting in response to a general invitation issued to all local M.L.As., etc., and leaders

[24th August 1946]

of political parties, by the Collector of Malabar one or two days previously to discuss the new scheme along with the taluk supply officers and assistant taluk supply officers. It was open to the leaders of the other political parties too to attend the conference in response to the general invitation.

(e) Does not arise.

Gosha Hospital at Vizagapatam.

36 Q.—SRI D. V. RAMASWAMI: Will the Hon. the Minister for Public Health and Medicine be pleased to state—

(a) whether any representations have been made regarding the Gosha Hospital at Vizagapatam about the inadequacy of beds for labour cases and other female complaints;

(b) what amounts have been given by Government as grants to the Gosha Hospital for the past five years, yearwar;

(c) whether there is heavy pressure on it of gosha patients from the city and the district of Vizagapatam; and

(d) whether the Government have considered the desirability of taking over its management with effect from 1947?

A.—(a) No representation has been received.

	RS.
(b) 1941-42	3,600
1942-43	4,586
1943-44	15,176
1944-45	5,000
1945-46	7,074

(c) No information is available as the institution is a private one.

(d) The reply is in the negative.

Abolition of the difference between ordinary areas and excluded and partially excluded areas of Godavari and Vizagapatam districts.

37 Q.—SRI D. V. RAMASWAMI: Will the Hon. the Prime Minister be pleased to state—

(a) whether representations have been made to the Hon. Premier for taking steps to abolish the difference between ordinary areas and excluded and partially excluded areas; and

(b) if so, what steps are proposed to be taken in that regard?

A.—(a) A representation has been received for abolishing the Polavaram agency taluk and transferring it to the ordinary civil administration.

[24th August 1946]

- (b) The question of abolishing the difference between ordinary areas and excluded and partially excluded areas is a matter for the Constituent Assembly to decide. But the question will be examined and considered.

Mass petition signed by the workers of Golden Rock (Railway).

38 Q.—SRI K. ANANDA NAMBIYAR: Will the Hon. the Minister for Law be pleased to—

(a) place before the House the mass petition, dated 14th May 1946, submitted to him signed by 4,000 workers of Golden Rock (Railway) for withdrawal of certain cases pending in the Trichinopoly Stationary Sub-Magistrate's Court against some workers and the hon. Member of this House, Sri K. Ananda Nambiyar;

(b) state whether it is a fact that this hon. Member and Railway Labour Union's Branch President were fined Rs. 50 each by the Stationary Sub-Magistrate on a complaint made by the Subdivisional Officer for the alleged offence of taking out a procession in defiance of section 144 said to have been promulgated in Trichinopoly in connexion with the murder of Singaravelu, a Communist worker; and

(c) state whether this case was considered as a political one for the consideration of withdrawal by the Government, and, if not, why not?

A.—(a) The Government consider that no useful purpose will be served by placing the petition on the table of the House.

(b) It is a fact that the hon. Member and another were convicted by the Stationary Sub-Magistrate, Trichinopoly, for an offence under section 188, Indian Penal Code. Government have no information regarding the actual sentence imposed.

(c) The case was not considered as political for the reason that the order under section 144, Criminal Procedure Code, had been passed in order to meet a very grave situation arising out of the death of Singaravelu and its deliberate contravention was fraught with great danger to public peace and tranquillity.

Seniority of Sri T. Srinivasachariyar in the Survey department.

39 Q.—SRI N. S. VARADACHARI: Will the Hon. the Minister for Revenue be pleased to state—

(a) whether in G.O. Ms. No. 1198, Revenue, dated 12th June 1937 and G.O. Ms. No. 1789, Revenue, dated 31st August 1937, and Board's Resolutions thereon Mr. T. Srinivasachariyar

[24th August 1946]

was ordered to be given seniority in the post of head surveyor by reverting the juniormost man;

(b) whether the abovementioned Government Orders were given effect to;

(c) whether the gentleman for whom the above Government Orders were issued, sent any petition to the Government subsequent to the dates of the Government Orders;

(d) what action have the Government taken on the petition; and

(e) whether it is the intention of the Government to reconsider the whole question?

A.—(a) In G.O. No. 1198, Revenue, dated 12th June 1937, the Government held that the reversion of Sri T. Srinivasachariar to the post of deputy surveyor on the ground that he did not possess the minimum general educational qualification was not regular and that he had a right to be reinstated as head-surveyor. They asked the Board of Revenue to take action accordingly. In G.O. No. 1789, Revenue, dated 31st August 1937, they informed the Board of Revenue that the orders in G.O. No. 1198, Revenue, dated 12th June 1937, did not require revision. The Board's Resolutions on the Government Orders are not available with the Government. Presumably in those resolutions the Board communicated the orders of the Government.

(b) Yes.

(c) & (d) In August 1938, Sri T. Srinivasachariar submitted a petition to the Government requesting that he may be permitted to count his seniority from 7th July 1917 for purposes of promotion as head surveyor and that his pay may be fixed in that post at Rs. 100 in the then time-scale of Rs. 75—5—125 so that he may get a slightly higher pension at the time of his retirement. Sri T. Srinivasachariar held the post of head surveyor for about two months in 1917. He was not promoted to that post again until 1924. Under the rules, the period of probation is two years within a continuous period of three years; and service which does not count for probation does not count also for seniority. His short service in 1917 did not therefore count for seniority. Sri Srinivasachariar held the post of head surveyor in 1917 only on a fixed rate of pay. He did not draw pay in the time-scale before 13th April 1933. He was therefore not eligible to draw pay in the old time-scale of pay. In G.O. No. 314, Revenue, dated 8th February 1939, the Government therefore declined to interfere on his behalf.

[24th August 1946]

In May 1939 Sri Srinivasachariar submitted a petition asking for a reconsideration of the orders in G.O. No. 314, Revenue, dated 8th February 1939. The Government did not see any grounds to reconsider the matter. In G.O. No. 2320, Revenue, dated 8th September 1939, they informed him accordingly. Subsequent to 1939, Sri Srinivasachariar submitted a number of petitions to the Provincial Government or His Excellency the Governor. A memorial which he submitted direct to His Excellency the Governor-General in Council in March 1943 was also transferred to the Provincial Government for disposal. The Provincial Government and His Excellency the Governor saw no fresh grounds which would justify a reconsideration of the orders already passed in the matter.

(e) No.

[Note.—An asterisk (*) at the commencement of a speech indicates revision by member.]

II.—NOTICE OF MOTION FOR ADJOURNMENT OF THE HOUSE.

* Mr. SPEAKER:—"Mr. P. Venkateswarlu has given notice of a motion for the adjournment of the business of the house to discuss a matter of urgent public importance. It reads thus:—

"This Assembly do discuss a question of urgent public importance, namely, the strike on the South Indian Railway and to demand the withdrawal of police and military assistance to the General Manager of the South Indian Railway and compel the General Manager to concede the just demands of the South Indian Railway workers and avert the strike."

"In this connection I wish to inform the House that, during the budget session, motions of this kind are not usually allowed. Secondly, as regards the question of the police assistance to the General Manager of the South Indian Railway, there is an opportunity coming next week under "Demand IV—Police" to offer criticisms. Everyday we are sitting till 6 p.m. to finish the budget. In the circumstances I cannot allow Mr. Venkateswarlu to move his motion for adjournment."

* SRI PILLALAMARRI VENKATESWARLU:—"I rise to a point of order."

Mr. SPEAKER:—"No point of order can be raised now."

III.—DEMANDS FOR GRANTS FOR THE YEAR 1946-47.

DEMAND XII—ADMINISTRATION OF JUSTICE.

* THE HON. SRI K. BHASHYAM:—"Mr. Speaker, Sir on the recommendation of His Excellency the Governor, I move that—

The Assembly do assent to a demand which will come in course of payment during the period from the 1st May 1946 to the

24th August 1946] [Hon. Sri K. Bhashyam]

31st March 1947 of such sum as together with the expenditure already incurred in April 1946, will amount to Rs. 1,11,32,800 in respect of the head "Administration of Justice." The expenditure incurred in April 1946 is believed to be Rs. 11,47,107.'"

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Mr. Speaker, Sir, I move the cut motion standing in my name, viz.—
"To reduce the allotment of Rs. 1,11,32,800 for Administration of Justice by Rs. 100."

"Now, with regard to the High Court of Madras, it has nowadays proved itself above the proverbial law's delays. I say this is due to the present strength of the High Court. Even though one of the results of the increase in the strength of the High Court, i.e., the consequent speeding up of the hearing of cases might have caused some inconvenience to the practitioners and litigants, it is really gratifying to find that arrears have gone down considerably and it is necessary that such a state of affairs must be continued and the present strength of the High Court maintained in order that the work of the High Court may be kept up-to-date. I do not know what the opinion of the High Court or of the Hon. the Chief Justice in the matter is; but if they think it desirable or necessary to keep up the present strength I think their opinion must surely count and it should be given effect to and respected properly.

"Now, Sir, turning to the representation of the Muslims on the High Court Bench, I say that the High Court is an important institution and so it must be taken separately and independently from other service and it should be seen whether the Muslims have got their due representation on the Bench. I say, Sir, on the present strength of the High Court, we ought to get three out of the present 16. In any event, at least the present number of Muslims must be kept up, otherwise it will produce great dissatisfaction and discontent among the Muslims. In this connexion I have to draw the attention of Government to the fact that years ago when Sir Abdur Rahim was on the Bench of the High Court, he had to serve for a time as a member of the Public Service Commission and then, in view of the recognition of the principle of Muslim representation on the Bench, the Government went to the extent of getting from Bombay a Muslim to officiate in the place of Sir Abdur Rahim. When Sir Abdur Rahim left this Province, no Muslim Judge was appointed for some time to the place vacated by him. Afterwards, as a result of earnest and strong representations and agitation on the part of the Muslim community, the present Muslim Judges of the High Court were appointed. I must say that the Government should not in any event disturb the present arrangement.

"Among the Law Officers of the High Court, there is not a single Muslim at present and there has not been one in the whole history of the High Court of Madras. This state of affairs is persisting in spite of the earnest representation of Muslims and the Muslim League. Is it possible to conceive that there has not

[M. Muhammad Ismail Sahib Bahadur] [24th August 1946]

been a single qualified Muslim at all all these years? Again, there are several officers in the High Court staff from the Registrar downwards and there is no Muslim at all among them. One Muslim acted several times as Second Assistant Registrar, but when a permanent vacancy occurred, his claim was ignored and the vacancy was given to a non-Muslim, perhaps on the plea that the vacancy had to be filled up by a war service man. Is it a fact that there were no applications from Muslims with war service? I ask Government, Sir, whether it is not a fact that there were applications from Muslims possessing war service also.

“There is another point over which the Muslim litigants, witnesses and legal practitioners and the Muslim public are sore about, and that point is that under the present system they are not able to perform their important compulsory religious duty of offering weekly congregational prayers on Fridays. During the half-hour interval allowed on Fridays as on other days, it is impossible for Muslims to go to the mosques and perform their religious duty. This matter was several times brought to the notice of the authorities that be and several earnest representations were made and yet there has been no effect or response. This is a very reasonable demand of the Muslims and quite a simple matter. This ought to have been attended to as a matter of course in the ordinary course of things. But even on such a matter as this the Muslims have to carry on an agitation for a long time. Is it at all surprising, then, Sir, that the Muslims feel exasperated at such treatment in regard to such reasonable demands? Fridays are considered to be holy days both by the Hindus and the Muslims. Therefore I will go even to the extent of saying that all courts and offices may be closed on Fridays instead of on Sundays, or on Fridays and Sundays instead of on Saturdays and Sundays in the case of those offices which are now closed on Saturdays and Sundays. For the present the Government must at least arrange for a recess of two hours between 1 and 3 p.m. with regard to the law courts as is being done in the case of this hon. House. In the case of mufassal courts the timings will have to be modified with regard to the conditions obtaining in the various localities.

“Then coming to the question of separation of Judiciary from the Executive, I have already indicated the view of my party, namely, that we are for such separation. We only say that such separation should go far enough. In this connexion I want to remind the Government that personal liberty and individual liberty are sacred and precious things. Therefore it must be dealt with only by officers of status and position. For that purpose I say the system of Munsif-Magistrates may be inaugurated in this Province and no criminal case should go to any officer below the rank of a Munsif-Magistrate. Some people have some misgivings about the results that will flow from such separation. They think that the collection of revenue will be affected by such separation. I may say, Sir, that during the time of the East India Company and even for a considerable time afterwards land revenue was the main revenue of the Province. But that is not the case any more. Now land revenue is comparatively a small

24th August 1946] [M. Muhammad Ismail Sahib Bahadur]

proportion of the revenue of the Province and therefore land revenue also might be collected in the way in which other taxes and revenues of the Government are collected. It is bad in principle to say that revenues must be collected with the help of terrorism. When people are sceptic about the proposed separation, they really mean that some sort of pressure, some sort of compulsion and fear ought to be brought to bear upon the people for making them part with the revenues which are due to the Government. That idea must go. That idea should not find a place in the minds of our people, particularly in view of the fact that other taxes are being efficiently collected by other means than giving judicial powers to the Collectors of revenue. With these words, Sir, I move the cut motion.”

SRI PILLALAMARRI VENKATESWARLU :—“Mr. Speaker, Sir, I rise to support the cut motion. As I have pointed out while speaking on other demands, I feel in this demand also that the department is top-heavy with overpaid officers, judges drawing Rs. 5,000 and above. Sir, justice has become very costly. The poor man is unable to get justice in spite of the fact that he contributes for it. I feel, Sir, that in these days of blackmarketing justice too might have simply crept into the blackmarket. Unless rectified, the name of ‘justice’ will vanish in due course.

“Sir, we find there are long delays. When a suit is filed by a man his grandsons carry on the struggle with one another. In the end both the parties become paupers though the lawyers might have earned a few chips and the clerks and others might have made some money. The judiciary has become top-heavy. The ordinary man in the street is not able to get justice and courts of law have become courts of injustice to the ordinary man in the street. This is more correct and will be nearer to truth in the case of criminal courts. In cases launched by the police, the police will easily influence the presiding officer and get people punished. Twice I have had bitter experience. I have heard from the so-called criminals, the society made them such, that they were sentenced to four years imprisonment for a theft of four annas. This is how justice is being administered. This is how police are bringing out criminals into the society. They are making ordinary people to become criminals.

“Sir, our law courts and the whole system of administering justice should be overhauled. It is high time that we took up the matter. After all this justice under the Criminal Procedure Code is century-old. These things must be scrapped and the whole system should be re-written. I therefore request the Hon. Minister for Law to appoint a Committee to investigate the matter in detail and bring out a judiciary which is in accordance with our native genius instead of depending upon a system which has been evolved to enslave us, to keep us down, by the British Government to maintain their own interests.

“Coming to the question of separation of the judiciary from the executive, I say it is a welcome sign. But we find the influence of the police everywhere and the police interfere with officials.

[Sri Pillalamarri Venkateswarlu] [24th August 1946]

We have experience of cases where innocent men also have been punished on account of interference by the police, in spite of the fact that the assessors, the public gentries, unanimously declared that the accused were not guilty. Even though the assessors, who are non-party and non-political men and are men who are above all the prejudices, gave a unanimous opinion that the accused were not guilty, their opinion was not at all cared for. There are instances also where these presiding officers will not care to hear what the other side lawyer has got to say. He sits in the chair and begins to write the judgment without hearing what the lawyer is telling him. This is how justice is being administered.

"Of course it may be said, Sir, that we are in a transitional stage. During the period of transition, Sir, the popular Ministry should have more powers to interfere with criminal justice, because we feel that in many cases these police officials interfere and innocent people are got punished. The popular Ministry must therefore reserve the right of interference in criminal cases. In this connexion, I would bring to the notice of the House the opinion expressed by a Congress leader, namely, the previous Congress Prime Minister, Sri C. Rajagopalachariar. He said:—

... In no country in the world can a Government relinquish the right to withdraw cases, entering *nulli prosequi*, discharging prisoners and setting aside from the executive side the final decrees of criminal courts. It is not possible for any Government to divide this responsibility to such an extent as to give up the right of interfering in prosecutions in regard to criminal justice."

"Even in England, the Crown claims the right to enter *nulli prosequi*. Even in independent countries like England there is provision for interfering in criminal cases. I therefore request the Ministry to have that provision in their hands, because we have not yet got independence and our system of justice is not overhauled, because the I.C.S. officers sitting there are administering justice against the will of our people, and because there are so many classes in our society and so many conflicting interests. The popular Government which is expected to be just must have the provision in its hands so that whenever it finds it necessary it can interfere and do justice to the people at large.

"I want to bring to the notice of the House an incident which has taken place in Guntur and which requires the intervention of the Ministry. That is the case which was launched against the trade union leaders in connexion with the Tobacco Workers' strike. The Tobacco Workers in Guntur after giving due notice went on strike on 25th March 1946. The Muslim management tried their level best to break their unity and brought police help—Subbarao—every one of the Congress Members have bitter experience of him, even leaders sitting before us might have had experience of him—Subbarao made all sorts of efforts to break this strike. He went even to the extent of showing a pistol against the workers. Yet the strike succeeded. When the strike was on, rowdies and goondas were engaged to disrupt the

[24th August 1946] [Sri Pillalamarri Venkateswarlu]

workers. As it was not possible they surrounded the house of one trade union leader. In that incident one old man died. Because of that death all the trade union leaders are included in that case and they were all imprisoned. I want to bring to the notice of the Hon. Minister for Law that on 1st April 1946 this thing happened at 10 p.m. Early next morning an inquest was started. During the inquest this Subbarao took away some witnesses and kept them in his custody for one or two hours and got those people to say that these trade union leaders were involved

* THE HON. SRI K. BHASHYAM:—"On a point of order, Sir. This is the subject matter of an appeal to be filed, Sir. Is it right that we should be discussing this on the floor of the House?"

* MR. SPEAKER:—"The matter is sub-judice. The hon. Member need not touch that point."

* SRI PILLALAMARRI VENKATESWARLU:—"In the District Court it has been disposed of. We have not . . ."

* MR. SPEAKER:—"The hon. Member will please leave that point and go to another point. I will not allow him to speak on that subject. I have given my ruling."

SRI PILLALAMARRI VENKATESWARLU:—"I am not questioning your ruling. But I am saying that it is not sub-judice, because it was not . . ."

* MR. SPEAKER:—"The hon. Minister told us that it is before a Court. It is enough."

* SRI PILLALAMARRI VENKATESWARLU:—"As a matter of legal opinion I will take the Hon. Minister's opinion. The Hon. Minister for Law is judging on what I should speak and on what I ought not to speak."

"My request is that in such cases where the assessors gave the opinion that they are not guilty the Hon. Ministers should interfere and see that justice is done. This is a fit case where justice must be done. In this connexion I should like to remind the House about the case against Justice Byers where he was granted bail then and let off. These trade union leaders were sentenced to jail for ten years. This is how justice has been administered in our country. This is a question of the rich versus the poor. Black-marketeers have been let off even though they were proved

* MR. SPEAKER:—"A number of Members have given notice of cut motions. Therefore I will not allow more than 10 minutes for any hon. Member. I will allow you one or two minutes more to finish. We must finish this demand to-day."

* SRI PILLALAMARRI VENKATESWARLU:—"You have given me only 10 minutes, Sir."

[24th August 1946]

* MR. SPEAKER:—"I will allow you one or two minutes more."

* SRI PILLALAMARRI VENKATESWARLU:—"Sir, I have three more points and I will finish in three minutes. In these blackmarketing cases, because these people are rich, they are left off Scotfree. One such instance is the case of Kothandarama Mudaliyar of Madura and Lakshmana Chettiyar of Ramnad. The proceedings against these people have been withdrawn in spite of representations that were made to the Hon. Minister for Law.

"I will give my points, Sir. Nobody should be arrested and remanded even for 24 hours without a charge-sheet being filed against the accused. The whole Criminal Procedure Code should be re-written and modern standards of justice provided. The provision for ordinances, section 124-A of the Penal Code, sections 107, 108, 110, etc., of the Criminal Procedure Code should all be repealed and re-written.

"Lastly, Sir, the Criminal Tribes Act which has agitated us more and under which innocent people are being . . ."

* MR. SPEAKER:—"The hon. Member's opinion is that it should be repealed?"

* SRI PILLALAMARRI VENKATESWARLU:—"Yes, repealed, Sir."

* MR. SPEAKER:—"The hon. Member's opinion is that it should be repealed. He may resume his seat."

* MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Sir, during question time when a simple question was asked whether the Government would give an opportunity to this House to discuss the separation of the judiciary from the executive before any action was taken in the matter, the answer given by this popular Government was 'No.' I may tell this House, Sir, that this answer is not expected even from a Nazi Government. The answer is given that a Committee has been appointed to go into the matter. Again when a question is put why certain communities are not taken in the Committee, they take shelter behind the words that it is a technical question, it is an expert committee and merit is the consideration. Now they say that it is an expert committee and merit is taken into consideration and if we ask them whether merit has been taken into consideration they say that it is a technical question. I do not understand why all the communities are not taken into confidence in this matter. We here in this House are the representatives of all the communities and the interests and we are here to safeguard their interests and we cannot expect justice from this Committee, this Pappu Somasundaram Committee containing members who belong to one community which has been monopolizing the posts in the past, Sir. Again, Sir, a question was asked about a week ago whether this Committee's report will be placed before this House before any action is taken.

[24th August 1946] [Muhammad Abdul Salam Sahib Bahadur]

The answer of the Law Minister was still more dogmatic. He said that the report of the Committee was intended for the Minister. We know, Sir, that the interests of all the communities will be affected by the separation of the judiciary from the executive and no action should be taken in this matter unless the House is given an opportunity of discussing the matter.

"Again Sir, we are surprised to hear that this Committee is framing rules in such a way that only one or two privileged communities will be benefited. For instance in the matter of the appointment of District Collectors and Deputy Collectors under the scheme of the separation of the judiciary from the executive, they are said to be framing such rules that any man who wants to be a Collector or Deputy Collector should have had 15 years' service at the bar and at the same time be less aged. This is only an illustration. Hence I suggest that nothing in this matter should be done before consulting this House. The answers given in this House clearly show that we have reason to doubt the intentions of this Government.

"Again, Sir, on the question of the appointment of Public Prosecutors, I am told that this Government has already appointed two Public Prosecutors for reasons well known to themselves. In the district of Kistna a man who is about to retire has been appointed, a man of 54 years of age. The present incumbent who generally will be given the next chance has not been given for reasons well known to the Government. Again Sir, political considerations, considerations of relations in the Congress High Command and other considerations have been taken into account. I want a categorical reply from the Government—they can do anything they like—I only want to know what considerations they are going to have in making these appointments. Will the Hon. Minister for Law be able to explain why he appointed a man over 54 years of age, who has had no criminal practice, who has not handled one sessions case in Kistna district, who has not seen what a sessions case is? Let us know where the Government are going and whether on merit or technical question or under what other word they are going to take shelter in this matter also. I have to say, Sir, that the appointment of Public Prosecutors is a game which the Government are going to follow. Hon. Members from these benches of the Muslim League want to see that justice is done to all the communities and that rules are framed for this purpose. The answers given in the other House by the Hon. Minister again create a suspicion in the public mind. When the hon. Member, Sri Suryanarayana Rao asked a question the answers given were dogmatic. The Minister has not based his answers on any logic. Is there any logic in this Government? I want to ask whether the Government have got any scheme in the matter of the appointment of Public Prosecutors and if so will they come forward with that scheme or is it going to be again a matter of showing favours to their own rank and file? I wish to say that since justice has to be done to all communities the Government should apply the communal Government Order to this matter.

[Muhammad Abdul Salam Sahib Bahadur] [24th August 1946]

"Again Sir, since I have already stated that nothing should be done in the matter of the separation of the judiciary from the executive unless this House has been consulted, I will be able to say more later on, because the Hon. Speaker has been pleased to give me only 15 minutes now. But I may suggest that Collectors under this scheme may be appointed on the same scale and with the same status as the present District Collectors. Information has been received by me, Sir, that one of the reasons for the appointment of the Public Prosecutor of Kistna by this Government is that he is a nephew of Sri A. Kaleswara Rao who happens to have got nothing from this Ministry."

THE HON. SRI T. PRAKASAM:—"Mr. Speaker, there is a limit for discussions and for imputing motives. Hon. Members must know that they should not transgress the limits and attribute motives to the Government and to the Minister for everything and every act that is done in their administrative and executive capacity. No Assembly can function, no Parliament can function, no Legislature can function if hon. Members could claim freedom to go on attributing motives and bringing all sorts of things as evidence. I would submit, Sir, that you may suggest to hon. Members—if authorities are wanted, they will be quoted in due course—you may suggest to hon. Members that they should not indulge in such sort of attacks, personal attacks, attributing motives for everything that is done by the Government. It is not within the province of the deliberations of an Assembly. Nowhere such a thing is recognized. Sir, I request you to give your ruling."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Under what rule, Sir, can a member not attribute motives to the Government?"

MR. SPEAKER:—"What the Hon. Premier says is that if for every action you attribute motives, then the Government cannot function."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"It is for the Government to say that there is no motive. This is the only time when we can speak."

* MR. SPEAKER:—"What the Hon. Prime Minister says is that if they attribute motives for everything the Government cannot function. If they want to substantiate anything they are at liberty to do so. Simply because they know something, they should not assume things and attribute motives to the Government for every thing they do."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"I am on my legs, Sir. It is for the Speaker to pull me up when I transgress the rules of the Assembly. The Premier cannot at every stage interfere and say you should do this and you should not do that. We are made of sterner stuff, Sir, and will not agree to do anything as they like. I am here giving some facts and figures and I take the responsibility for the statement that I am

24th August 1946] [Muhammad Abdul Salam Sahib Bahadur]

making. It is for the Government to say that there is no motive behind. It is not democracy if I am not allowed to have my say. The other day the Premier said: 'you cannot harangue'. He asked the Speaker to exercise discipline over me. It is not possible for him in a democracy. . ."

* MR. SPEAKER:—"He is simply cautions the hon. Member. The hon. Member need not be angry with the Prime Minister. He is simply saying that if for everything you attribute motives to the Government, the Government cannot function. The hon. Member cannot lose his temper. He may go on quietly."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I submit to you Mr. Speaker that the hon. Member has not said anything to which the Hon. the Premier should have taken exception. He was speaking of certain facts which came to his knowledge and in making a statement of facts he was not casting aspersions or even attributing motives to the Members of the Government. If the Hon. Minister for Law differs from him, he has got his turn to reply and he can repudiate that statement."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"May I ask, Sir—supposing what the hon. Member has stated in a fact, though it may be very unpalatable, a very bad thing, supposing it is a fact—then what happens if he is not allowed to state this fact?"

* MR. SPEAKER:—"What the Hon. Premier says is that the hon. Member need not attribute motives for everything done by the Government. Mr. Salam needs not lose his temper. Whatever he wants to say, he may say calmly."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Provided the Minister also does not lose his temper."

* MR. SPEAKER:—"He will be the last person to lose his temper."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"I happen to be a young man and he happens to be an old man."

"Again, Sir, the Hon. Minister for Law is going about giving some facts about one department and then entirely different facts at another time. I saw in the papers, Sir, that the Minister for Law was going to open child-welfare and maternity centres. I saw in the papers that he is not going to appoint lawyers for posts in the scheme of the separation of judiciary from the executive. Sir, instead of going about opening maternity and child-welfare centres, instead of giving facts and figures here and there, the Government can give a consolidated statement in the matter and see that no doubt enters the minds of certain communities as they fear very much because of the constitution of the Ministry here."

"Again, Sir, it has been a theory of the Congress that lawyers are the most fitted to occupy the posts in the judiciary and not the quill-drivers of the Revenue Department or the white men of

[Muhammad Abdul Salam Sahib Bahadur] [24th August 1946]

the I.C.S. They should be only lawyers who have got long training in this matter. I do not know how far it is true—whether the newspaper report is going to be denied by the Minister for Law—that he has reserved some posts only for lawyers, some 50 per cent of the posts, and the rest for the dummified clerks who happen to be in the Revenue Department for reasons well known to themselves.”

* THE HON. SRI K. BHASHYAM:—“ I think it is much better if we have got something to say we say it correctly. There is the claim made by the members of the Bar, the subordinate judiciary and other subordinate officers. Every claim is there and it will be considered by the Government. I have never stated that I have reserved any percentage for anybody in the matter.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“ It is a good thing that the Minister has not decided without consulting the House as has been done on other matters. As so many claims have been made, I hope the Minister will consult this House in this very important matter.

12-30 p.m. “ Again, Sir, in the matter of direct recruitment, it is better that in the place of people with no educational qualifications from the Revenue Department, who are taken, vakils and lawyers who happen to be experts in the subject, may be considered.

“ In the matter of justice done by the Honorary Magistrates, it is a well-known fact that no justice is done actually. It is better this Government abolishes the system of Honorary Magistrates completely, unless again they want to distribute favours to their own men and appoint them.”

THE HON. SRI T. PRAKASAM:—“ This is the sort of thing I must object to, that anything done is done with motive, for favouritism and all those things. Hon. Members must maintain the dignity of the House and the dignity of every one in this House.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“ I have facts, Sir. For instance, we see in the papers this morning that a Deputy Director of Industries has been appointed, and there is no reason given . . .”

* MR. SPEAKER:—“ You may give it as an example, but it has nothing to do with the question before us.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“ Only this morning, Sir, I saw the appointment in the papers of a Deputy Director of Industries, with no qualifications, one Mr. Chitra. Again, a dismissed Commissioner has been appointed to look after village industries. Hence, it is right and proper that members on this side of the House should know the reasons which prompted the Government to make such appointments.”

* MR. SPEAKER:—“ You have taken more than ten minutes.”

24th August 1946]

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—“ Some time has been taken by the Premier, Sir (laughter). Again, Sir, when appointments either in the Revenue Department or in the Judicial Department are made, the question of training and status are not taken into consideration at all by this Government. Will the Government declare that not only in the department of law, but in all departments, they will advertise beforehand for these posts and then only make appointments? If there is a post vacant, say of the Deputy Director of Industries or the Public Prosecutor in the Kistna district, unless the posts are advertised, unless they specify what qualifications are necessary, we won't know what is in the mind of the Revenue Minister or the Prime Minister. People have had no opportunity to apply for these posts; if advertisement had been made, it is possible you would have had better persons than those appointed. Take for instance, the post of Director of Publicity for which one Mr. Hanumantha Rao has been brought from the Punjab; if that post had been advertised properly, we would all have applied. In the matter of law, unless qualifications are prescribed for every post, unless vacant posts are advertised and everybody gets an opportunity to apply, the Government should not do anything, and if they make the appointment without doing so, I think, I am quite right in saying that there has been a motive or that there must be motive.”

BEGUM SULTAN MIR AMIRUDDIN:—“ Mr. Speaker, Sir, I wish to give expression to my views with regard to the proposed separation of the judiciary from the executive. This is a long-standing demand for which the public have been clamouring for nearly half a century; because by reason of the judicial and the executive powers being vested in one and the same functionary, the free and fair administration of justice has been prejudiced. All these years, the District Collector has been the District Magistrate as well, and as such, the head of the police as also the head of the magistracy in the district. According to criminal jurisprudence, the presumption is that the accused is innocent, but very often the prosecution has had facilities which have operated to the detriment and to the prejudice of the accused. In many prosecutions, the authority according sanction has been the District Magistrate, with the result that the subordinate magistrates trying those cases have very often found it difficult to arrive at a different conclusion. This unhappy and unsatisfactory state of affairs should have been remedied by the last Congress Government, but that Government did not undertake the reform, because it was loath to part with power. I am very glad, Sir, to find that the Minister for Law of the present Government has come forward to do something at least in regard to this matter, and has appointed a committee for the purpose. As this committee has not concluded its deliberations, we are not able to give our opinion on its decisions. However, we are in a position to express our views on what has appeared in the Press as being the intentions of the Hon. the Minister for Law. What he proposes to do, we find, is not to separate the judiciary

[Begum Sultan Mir Amiruddin] [24th August 1946]

from the executive, but merely to separate the judiciary from the revenue. He proposes to bifurcate the duties of the Collector and to appoint a separate District Magistrate under the Criminal Procedure Code. This District Magistrate would be entirely independent of the Collector and would have under him a number of additional first-class magistrates. By reason of this reform the subordinate judiciary would be saved from the tyrannies of the local police and the local officers. No doubt this would be good, but I must say that so far as the separation of the judiciary from the executive is concerned, a reform on the above lines would not go far enough, because the judiciary would still be under the control of the executive though not under the control of the Collector the immediate executive; it would still be under the control of the Provincial Government. Hence, it would be a misnomer to call the above reform a separation of the judiciary from the executive. Real separation of the judiciary from the executive will take place only when the judicial administration is rendered completely independent of the executive at all levels, —independent even of the Law Minister himself, and placed entirely under the jurisdiction of the High Court. The Hon. the Minister for Law seems to be of the opinion that this is not desirable, because the High Court is not under the control of the Provincial Government. But this should be no consideration whatsoever; on the other hand, this all the more betokens the independence of the highest judiciary in the land. I know, Mr. Speaker, that the executive is always disinclined to part with power. But I may point out that the Government should think not merely with reference to present times, they must visualise the future also. It is true that the Congress party is in power in this province to-day, but what will happen if their opponents, for instance, the Communists, seize that power to-morrow? If the Congress do not effect a real separation of the judiciary to-day, the result will be that to-morrow when their opponents come into power the latter will use the power vested in them to the detriment of the Congress. Therefore, I would say, it is best to act with vision and bring about now a complete separation of the judiciary from the executive.

“As regards technical difficulties, I may point out that these are not insurmountable from the practical point of view, as has been pointed out by that eminent jurist, Sir Tej Bahadur Sapru. Under section 107 of the Government of India Act, it is possible for the Provincial Government to make an amendment in the Criminal Procedure Code on obtaining the assent of the Governor-General in that regard. I would request the Hon. the Minister for Law to take early steps to obtain the permission of the Governor-General for the required amendment, which will enable him to effect a complete separation of the judiciary from the executive.

“The other point to which I wish to draw attention is the desirability of appointing only lawyers as judges and magistrates. The appointment of non-lawyers to these posts is a paradox of the Administration of Justice in this country. A Judge's work, whether on the criminal or on the civil side is of a specialized

[24th August 1946] [Begum Sultan Mir Amiruddin]

nature and only those who have obtained a degree in Law and practised law should be placed in the position of a judge or magistrate. Would it be wise, I ask, to place one who has not obtained a degree in Medicine, in charge of a hospital? There may be a number of successful quacks who may have acquired a good knowledge of medicine but would it be safe to entrust them with responsible posts? A man who has not acquired a degree in Law but who has learned some law after entering service is in the position of a quack. Sir, India is the one country in the whole world where lawless men are appointed as magistrates and judges, like the members of the I.C.S. and the revenue officials. Therefore, I would request the Hon. the Minister for Law to see that when recruitment is made in future to judicial posts only lawyers and those who have obtained a degree in Law are appointed thereto. Now that there is to be a separation of the judiciary from the executive, a number of magistrates will have to be appointed. In this connexion I may point out that the Government should pay due regard to the claims of Muslims for such posts, for there is no paucity of lawyers among the Muslims, as every year a number of Muslims pass out from the Law College. Hence I hope due consideration will be paid to the claims of Muslims when appointments are made to the Magistracy.

“With these words, Sir, I support the cut motion, moved by the Leader of the Opposition.”

“SRI N. GOVINDASWAMI NAYUDU :—“சபாநாயகரவர்களே. இப்போது நியாயத்தைப்பற்றி பேசவேண்டியிருப்பதால்—நியாயம் என்பது தேசமக்களுக்கு எல்லையாகவிருக்கிறது. நியாயாதிபதியும், நியாயத்திற்கு அடிப்படையாகவிருக்கிறார். போலீஸ் டிபார்ட்மென்டும்.”

* MR. SPEAKER.—“போலீஸ் விஷயம் மின்னாலே வருகிறது அப்போது அதைப்பற்றிப் பேசலாம்.”

* SRI N. GOVINDASWAMI NAYUDU :—“ஜனங்களின் நியாயத்திற்கு அடிப்படையாகவிருப்பதால், அதைப்பற்றியும் இப்போது சொல்லவேண்டியிருக்கிறது. போலீசார் நியாயத்தைக் கடைப்பிடிக்கவேண்டியவர்களாக விருப்பதாலும், அவர்களுக்கு நியாயத்தைப் போதிக்க வேண்டியது அவசியமாக இருக்கிறது. ஆகவே, அதிகப் பணம் செலவழிப்பதாக விருந்தாலும்கூட, அவர்களுக்கு நியாயத்தைப் போதிக்க ஒரு டிபார்ட்மென்டை ஏற்படுத்தியாகவேண்டும். இதைப்பற்றி நான் இவ்வளவு என் சொல்லுகிறேனென்றால், இன்று கோர்களைக் கண்டு ஜனங்கள் மிகவும் பயப்படுகிறார்கள். ஏனென்றால், அங்குபோனால், பணம் செலவாகிறதே யொழிய நியாயம் கிடைப்பதில்லை. இன்று பணம் வைத்திருக்கிறவன், தான் ஏதாவது தவறு செய்தாலும், தன்னுடைய பணச்சக்தியினால், தான் செய்த தவறை மறைத்து, தனக்கு கஷ்டம் வராது நன்மையைத் தேடிக்கொள்ள முயலப்படுகிறது. பண உதவியில்லாதவர்களுக்கு நியாயம் தேடிக்கொள்ள முடியாதென்ற பயம் இருந்து வருகிறது. இந்த டிபார்ட்மென்டை ஒரு ஒழுங்கான வ்தாபனமாக இருக்கும்படியானதும் பாதுகாக்கக்கூடியதாகக் வேண்டும். அந்த டிபார்ட்மென்டிலே படித்தவர்கள் என்ற ஒரே காரணத்தைக்கொண்டு உத்தியோகத்தில் நியமிக்கப்படக்கூடாது. அவர்களுடைய யோக்கியத்தைக் குறித்து அக்கம் பக்கம் உள்ளவர்களுடைய சர்டிபிகேட்டும் இருக்கவேண்டும். அப்படி பெற்றிருப்பவர்களை அந்த டிபார்ட்மென்டிலே நியமித்தால்தான், நியாயம் சரியாகக் கிடைக்கும். இப்போது ஜனநாயக கவர்ன்மென்ட் இருப்பதாலே இவ்விஷயங்களைப்பெல்லாம் கவனிக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன். சட்டம் தெரிந்தவர்களைத்தான் இந்த டிபார்ட்மென்ட்டுக்குத் தகுதியுள்ளவர்கள் என்று சொல்லக்கூடாது.”

[Sri N. Govindaswami Nayudu] [24th August 1946]

“இப்பொழுது நம்முடைய தேசத்திலே முதலாளி, தொழிலாளிகளுக்கும் சண்டையிருந்து வருகிறது. இதற்குக் காரணம் நியாயம் இல்லாமலிருப்பதேயாகும். தொழிலாளர்கள் நியாயத்தைத் தெரிந்துகொள்ளாமல் சண்டையிட்டாலுங்கூட அவர்களுக்கு நியாயம் போதிக்கப்படவேண்டும். இவ்விதம் முதலாளி தொழிலாளிகளுக்கிடையே நியாயத்தை ஏற்படுத்துவதற்காகத்தான் லேபர் டிபார்ட்மென்ட் ஏற்படுத்தப்பட்டிருக்கிறது. ஆனால் இதற்கான சட்டம் ஒன்றுமில்லை என சொல்லப்படுகிறது. ஆனால் நிரந்தரக் கோர்ட் ஏற்படுத்தினால், தொழிலாளர்களுக்கும் முதலாளிக்கும் சச்சரவு ஏற்படாது. இப்போது உலகத்தில் மக்கள் எல்லோரும் சுகமாக வாழ வேண்டுமென்ற நியாயந்தான் அடிப்படையானது. மக்களில் சிலர் சக்தியுள்ளவர்களிருப்பார்கள். சிலர் சக்தியற்றவர்களிருப்பார்கள். சக்தியுள்ளவர்கள் சக்தியற்றவர்களை அடக்கி ஆளுகிறார்கள். ஆகவே, நியாயமில்லாத இடத்தில் நியாயத்தை ஏற்படுத்த பிரசார வேலை செய்ய வேண்டுமென்று சொல்லி முடித்துக்கொள்ளுகிறேன்.”

12-45 p.m. * Mr. W. J. FERNANDEZ:—“ Mr. Speaker, Sir, I have to support this cut motion with a two-fold object; first, to urge on the Government the necessity for reducing expenditure on the High Court and in the offices of the Official Assignee and the Administrator-General; and secondly, to press the claims of Indian Christians to representation on the Bench of the High Court, the Small Causes Court and the City Civil Court. Consistently with the attitude I have taken on the general question of retrenchment of the abnormally heavy cost of the administrative machinery in this province, I wish to draw the attention of the Hon. Minister for Law to the necessity for drastically cutting down expenditure on the High Court and the offices I referred to. Let me preface what I am going to say by the observation that I view this question of retrenchment from a perfectly detached standpoint and with the conviction that communal consideration should not blind us to the interests of the tax-payer which we are equally here to safeguard. Sir, in my view, the pruning knife should be ruthlessly applied to the High Court and the two offices I have referred to. The axe should fall first of all on the two temporary additional Judges of the High Court. I know I am at variance with the hon. the Leader of the Opposition who has taken up the view that the strength should be kept at 16, but I think, Sir, opinion among the members of the Bar is fairly general that there are far too many judges in the High Court. (A Voice: ‘ Question.’) I said ‘ fairly general ’ and there is no doubt about it. Some years ago, the High Court applied for two additional Judges to clear arrears of work. Arrears have been cleared and the judges are there practically sleeping and the members of the Bar also feel that cases have been coming on the list much too rapidly for hearing. I think if you look at it from a disinterested point of view, nobody will support the retention of the additional judges for a moment longer than is necessary, i.e., they should be sent out on the expiry of their term of office which I believe will be some time next year. I go a step further; since the Hon. the Minister for Law knows the conditions in the High Court, I trust he will consider the desirability of reducing the strength of the High Court to its original strength of 12. I am quite in sympathy with the views expressed by my

[24th August 1946] [Mr. W. J. Fernandez]

hon. Friends from the Muslim group as regards the number of Muslim judges, but I say, let them press their claims for increasing the number of Muslim Judges among the permanent strength of the High Court—I do not grudge them getting more seats for the members of their community.

“ I now come to the office of the Official Assignee. Looking at the Budget, I find that the expenditure on this office is something like Rs. 84,700, whereas the estimated income is only Rupees 25,000. From the last Administration Report, I gather that, whereas in 1939 the Official Assignee had as many as 238 insolvencies to administer, in 1944 that number fell to 44; my information is that the average for the last three years is about 45 insolvencies. I question the necessity for such an expensive agency for looking after only about 45 insolvencies in a year. I see that the Official Assignee is drawing a salary of about Rs. 2,000 per month; he can easily make way for an advocate from the Bar, who will only be too glad to take up the post on a salary of Rs. 500 to Rs. 700. I hope the Hon. the Minister for Law will, when an opportunity offers itself, either push this gentleman up or send him out somewhere and replace him by a member of the Bar which will be a cheaper agency.

“ Then there is a Deputy Official Assignee on Rs. 500 to Rs. 750 for an office with about only one-fifth of the work they were doing five or seven years ago. I think that post should go. Again on the establishment of this office, the Government are incurring no less than Rs. 30,000 for an office which deals with only 45 insolvencies a year. I think that such a state of affairs is ridiculous, to say the least. I hope the Hon. the Minister for Law will go carefully into this question and see whether he cannot use his pruning knife ruthlessly and cut down the expenditure to reasonable limits.

“ Sir, I now come to the office of the Administrator-General. I have had experience of the work carried on by him for about 21 years. I question the propriety of public funds being spent to the extent of half a lakh of rupees on an office which exists purely for the benefit of the well-to-do people of this country. May I say that the Administrator-General administers the estates of deceased persons, apparently wealthy people, as Official Trustee; he acts as the trustee of charitable trusts, and of family settlements effected by well-to-do people who have money to spare. He also acts as the guardian of the property of minors whose fathers were apparently well-to-do and left their property without proper care; in such cases recourse has to be had to the Official Trustee for looking after the interests of such children during their minority. Now, Sir, since this office exists practically solely for the benefit of the well-to-do I feel that the estates and trusts concerned should pay the expenses for the maintenance of this office; there is no reason why public funds should be expended on that office. This can be achieved by one or two ways: either by raising the charges of administration of the estates concerned—which are already heavy—or by reducing the expenditure on the establishment. Well, Sir, during the last year, the establishment of this office has

[Mr. W. J. Fernandez] [24th August 1946]

been considerably increased through the representation of an acting Administrator-General, formerly a Secretary to Government, who made Government believe that a certain minimum staff was very necessary for the running of the office. I can say that if the Hon. the Minister for Law will only go into the question of the necessity for such a big staff as it exists, I am sure he will find a good few hands who are superfluous. To quote an instance, in 1944, the then Acting Administrator-General recommended to the Government the appointment of a supervisor in an honorary capacity; please mark the words 'in an honorary capacity'. He was of the opinion that there were many retired Executive Engineers who would do such honorary work as seeing that the buildings are kept in a good condition for the benefit of the people. Strangely enough, the Government took up the suggestion but wanted that applications should be called for from people on a remunerative basis. Now, there is an officer on Rs. 200 with a staff to assist him not for new construction work but merely for supervision of repairs. I consider this expenditure is unnecessary and should be cut out.

"I now turn to the last point. I wish to impress on the Hon. the Law Minister the necessity for representation—not adequate representation—as there is none at all, of Indian Christians on the High Court Bench, the Small Causes Court and in the City Civil Court. The Hon. the Minister for Revenue said here yesterday that unless you cry you won't get anything. Unfortunately even though the Indian Christians cry they cannot cry as loudly as the Muslims—who are in a much stronger minority—and so they don't get what they deserve. I hope the Minister for Law will hear the faint cries of the poor Indian Christians and give them due representation when an opportunity occurs."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"Mr. Speaker, Sir, let me, at the very outset, congratulate this Ministry on taking up the question of the Separation of the Judiciary from the Executive in right earnest. This reform is long overdue and the thanks of the country are due to this Government for taking up that matter. How it will take shape, it is too early for us to know. An expert committee is at work and the report of that committee will be examined by the Ministry and I hope it will then be placed before this House when it will be time enough for us to consider the report and make our suggestions in the right direction.

"My hon. Friend Mr. Fernandez said that there should be retrenchment in this department. With my experience as a lawyer for about 25 years, I can tell him that this is one of the departments which is overworked and my personal feeling is that there ought to be more judges, not only to give them breathing time and lead their lives properly and in a comfortable way but also to dispose of the cases to the satisfaction of all concerned. This department should not be considered on a profit and loss basis. You cannot sell justice; that is not the correct point of view from which it should be looked at. It might cost Government more than the income that is derived therefrom. A case might

24th August 1946] [Mahboob Ali Baig Sahib Bahadur]

no doubt involve a lot of time and energy on the part of persons who are presiding over and in order that justice may be done, any amount spent will not be spent in a wrong manner. The question of reduction of the number of High Court Judges is really agitating the minds of some members of this House, I know but the increase in the number on the High Court Bench has really to be done in the interests of the litigant public and if the number is reduced, I am afraid, we will again go back to the time when arrears accumulated to a large extent when there were cases having been pending for over twelve years, which were referred to by the Privy Council. We do not want to allow things like that to happen and unless we have more Judges, they will not dispose of cases soon.

"The next point I wish to refer to is with regard to the injury done to the machinery on account of the insistence on rapid disposal of cases. Especially the Subordinate Judges and Magistrates subordinate to the High Court or the District Magistrates, stand always in perpetual fear of being questioned by their superiors as to how many cases were disposed of by them. Because they are in such constant fear, the litigants suffer most; there is also what is called disposal mania because they have to account for the number of disposals to their superior officers and naturally they hasten the trial of the cases. I have known many cases where Judges have expressed, 'I have not finished my quota for this month'. They have always got to keep an eye on the disposal of the number required and not on the proper disposal of cases. I think this must be put a stop to; that does not mean that the Judges should be allowed to be lazy; they work from 11 a.m. to 5 p.m. and they go home and have to write judgments at night and in the morning too. I suppose they require relief. They should, therefore, not be troubled by their superior officers because they have not disposed of their cases according to the quota given to them.

"The third point I would like to refer to is this. Naturally these over-worked Judges and Magistrates become at times irritable because on the one hand, they will have to answer their superiors for the disposal of cases, and on the other, there are vakils who would like to do justice to their clients and to argue their case and place before them the points of view that should be taken into consideration by the Judges. Thus they are between two stools and they naturally lose time and temper. I have known of many Judges who have got, what is called judicial calmness, quietness and poise but some of them lose their temper because their work is not proceeding as quickly as their superiors or higher officers or the High Court expect of them. It may be a very good thing if a certain code of conduct is prescribed in regard to these matters. Of course, we know generally how a judicial officer should conduct himself. If you set forth such a rule of conduct, it will be a good guidance. As it is, the Judge is in a dominant position and the vakils and the litigants are certainly handicapped

[Mahboob Ali Baig Sahib Bahadur] [24th August 1946]

and they do not know what the Judge may say. I, therefore, suggest that a certain code of conduct may be prescribed, that under no circumstances they should give offence to vakils or to the litigant public. As a matter of fact, respectable people figure as witnesses and on account of irritability, if the Judges lose their temper and accuse the parties it is very bad indeed.

“Now, the last point I would like to urge is this. Some of us are lawyers and also Members of the Legislature. We are doing public duty here; we come here on public duty, no doubt; we owe a duty to our litigants also. We are placed in this predicament that for hours and days together we have to be here and we cannot attend to our work at the courts. I wish a certain rule, if possible, may be issued—if possible, I say advisedly—so that Members of the Legislature who are lawyers might be granted adjournment of cases more easily and if some sort of accommodation can be made for them in this regard it will greatly help us (hear, hear). It is not, I hope, too much to ask for this concession, since we are not coming here on our own private business. There may be some strict judges who may not be considerate in regard to this because there is always the number of disposals on their heads. Otherwise many Judges would oblige Members of the Legislature—it is to their advantage also—but for this phantom of disposal which is on their heads. They say, ‘Mr. Baig, I cannot help, this case must be disposed of because it is one-year old’. So, Sir, if such a rule as I have suggested before is put in, it will relax to some extent this hardship and it will also do credit to this Government. Apart from the technicalities in the matter of disposal of cases, I think, it is not the quantity of disposals but the quality that is wanted. Therefore, I appeal to the Ministry which has come forward with such a grand scheme such as the separation of Judiciary from the Executive—all honour to them—and I am sure the points raised by me are not unreasonable; they are practicable and necessary for the just administration of justice. They will also be doing justice to the Members of the Legislature who happen to be doing their public duty in the Legislature.”

B. POCKER SAHIB BAHADUR:—“Mr. Speaker, Sir, in supporting this cut motion, let me first of all say that I fully endorse the views expressed by the Leader of the Opposition as regards the necessity of maintaining the present strength of the High Court so as to keep the work of the High Court up-to-date. I do not want to say anything more about it within the short time allotted to me. My hon. Friend representing the Anglo-Indian community made a remark to the effect that members of the Bar are complaining about the speedy disposal of cases. I may say that the members of the Bar are also very glad that cases are disposed of speedily and that the work of the High Court is brought up-to-date. No doubt, it is true that some inconvenience is being caused by disposing cases more speedily than before. Of course, that was during a transition period when some difficulties have been felt but they can be got over. In any case, we have to fix our eye on to the ultimate benefit that is derived by the general public

24th August 1946] [B. Pocker Sahib Bahadur]

and the speedy disposal of cases is very highly necessary and whatever strength is necessary for that purpose must be kept up. I may also request Government to pay regard and respect to the opinions expressed by the High Court in this matter because it is the most competent authority to deal with that subject. I would like to say a word about another point which was stressed by the hon. the Leader of the Opposition and that is the necessity for adjournment of all courts, High Courts as well as all subordinate courts in the mufassal for a couple of hours between 1 p.m. and 3 p.m. on all Fridays just as this honourable House adjourns between 1 p.m. and 3 p.m. every Friday in order to enable the Muslim Members of this House to attend to their prayers. Now, Sir, it is a very reasonable request which has been made. I understand as a matter of fact that there is already a Government order enabling the Muslim Members of the Judiciary to be absent for about two hours so that they may attend to their private prayers, but that applies only to the Members of the staff and does not apply to the litigants or witnesses or parties who are put to a lot of difficulties on account of this. When a case comes up before a court, neither the advocate nor the party can put his finger on this Government Order and ask for adjournment and it is in order to facilitate the Muslim litigants, witnesses and also advocates to attend their Jumma prayer which is a compulsory religious duty on them that this request is made. I would, therefore, request the Hon. the Law Minister to take up this matter seriously and see that steps are taken by which all courts in the Presidency are adjourned for a couple of hours between 1 p.m. and 3 p.m. on every Friday which is a working day. It may, perhaps, be necessary to modify this Government Order according to the requirements in the mufassal where the time for Jumma prayer may be a little different from what it is in the city, namely, between 1 p.m. and 3 p.m. In the mufassal and far off places some slight adjustments in regard to the time for adjournment will have to be made. It is a very small matter and nobody suffers from this and it will be a good test how far the religious feelings of the Muslims are respected and they are enabled to perform their compulsory religious duty. I am speaking on this emphatically for the reason that I am one of those who personally suffered from it. For instance, even yesterday, I was not able to attend my Friday prayer, even though this House adjourned for two hours. Therefore, Mr. Speaker, it is a matter which must be very seriously taken into consideration by the Minister for Law and given effect to.

“Now, Sir, another point on which I would like to say a word—and that has already been referred to by my hon. Friend Mr. Baig—is in regard to the necessity for affording certain facilities for such of the Members of this honourable Body who belong to the legal profession. So long as there is no disability for lawyers becoming Members of this Legislature, there is a dual duty cast on them, to attend to their profession and also attend to their work in this Assembly. It is only reasonable that some facilities should be given to them to attend to both these duties. In any

[B. Pocker Sahib Bahadur] [24th August 1946]

case, this is a matter which will not prejudice the administration to any extent. After all such members are only very few and they too will ask for adjournment only in very important matters; otherwise, they will make their own arrangements. It is very necessary that such arrangements should also be made in the city to enable lawyers practising here. I am sure the Hon. the Minister for Law would have felt the same difficulty—not now, but when he was a Member of this House during the last Council—and from the experience of his practical difficulties, he will certainly sympathise with the object of these suggestions and I feel confident that he will pay some serious attention to this matter.

“I would just like to mention one or two small points. Arrangements should be made to afford facilities for the litigants, witnesses and even visitors to courts in the mufassal. In the mufassal courts, there is no provision made in regard to seating arrangements for such people while we have arrangements in the High Court here. I would request the Hon. Minister to take this into his consideration and afford facilities to the parties, witnesses and litigants and also to the visitors who have to go and attend the courts of law.

1-15 p.m. “Coming to the question of the separation of the Judiciary from the Executive, I would strongly urge upon the Government the necessity of really separating the Judiciary from the Executive in such a manner that even the Government as such has absolutely no kind of control. I would suggest that the Judiciary, both the administration of the Civil and Criminal law, should be entirely under the control of the High Court. If you do that, then alone the real purpose behind the separation of the Judiciary from the Executive will be served. For that purpose, I very strongly urge that the administration of the Civil and Criminal law might be entrusted to one and the same person; you may call him the munsif-magistrate or by whatever name you like. There is not much difficulty about this for there is not much of a difference in the matter of the Civil and Criminal law administration. The Hon. the Minister for Law nods his head and presumably expresses dissent. But I would ask him: ‘Is it not the same High Court Judge who is dispensing criminal and civil justice? Is it not the same Sessions Judge that deals with civil and criminal cases.’ If that is so, then where is the difficulty about the same person attending to civil and criminal cases. I know, Sir, that there are difficulties in the way and that it requires an amendment of the law on the point. But this should not be urged as an unsurmountable difficulty. A start may be made on the lines at present suggested but the real independence of the Judiciary from the Executive, independence even from the Government, must be kept in view.

“Sir, when at question time on a main question put by the Leader of the Opposition, I put a supplementary question to the Hon. the Premier on the ground that that particular point raised in my question had not been answered, the Hon. the Premier told the House that he was being subjected to cross-examination and

24th August 1946] [B. Pocker Sahib Bahadur]

that he would not stand it. On the subject of communal representation and the communal Government Order the Hon. the Premier also said that he was not going to allow the view of any particular section which dominates any part of the House. Also exception was taken to the way in which my hon. friend Mr. Salam was giving expression to his views. I wish he realises that our position in this House is very miserable; we are 29 in a House of 215 and we have no effective voice and the only reason we have come here is to give expression to our views and to give expression in a legal manner so that the Government in power may give consideration to it. If, Sir, in the expression of our views, obstacles and restrictions are sought to be put, it is unwarranted and I submit that if we are not allowed it, the only other course left to us is to keep away from the House.”

* H. S. HUSSAIN SAHIB BAHADUR:—“Mr. Speaker, Justice is sacred and it is an attribute of God; but justice is blind. Justice being sacred, it is the first duty of the Government to look to the better administration of justice. I am glad to say that this Government has taken a step in the right direction in appointing a Committee to go into the question of the separation of the Judiciary from the Executive and I congratulate the Hon. the Minister for Law upon it. I am told that it is an expert Committee. But I would like to ask the Hon. the Minister for Law why it could not have been a representative committee. No doubt, we want expert opinion but at the same time representative opinion should be focussed on the deliberations of a Committee that has been appointed to report on a very vital question like this. I hope even at this stage the Government will take the whole House, especially we on these benches, into confidence in coming to a final decision with regard to this very important matter. It is stated—it is at any rate my belief—that the main purpose or perhaps the sole object of the separation of the Judiciary from the Executive is to see that justice is meted out to all classes of people in the country unhindered, unimpeded by any authority in the land including the king himself. If that is the purpose, I would like to ask if there is any such proposal to place the judiciary after the separation under the machinery which will be controlled by my hon. friend Mr. K. Bhashyam. If it be the case, I would say, Sir, that justice in that event will not be unhindered or unimpeded for the simple reason that it is controlled by the Executive. I do not wish to say that Mr. Bhashyam is not an hon. gentleman; he knows his business as well as any one of us. But the principle cuts at the very root of the motive behind the separation and that is that even the King should not interfere with the administration of justice. The independence of the Judiciary should be respected by all. This is an important point and I believe the Hon. the Minister will keep it in mind.

“Some hon. Members raised the question of waste that has been going on in the Department; I do not wish to take up the question of retrenchment because I do not feel there is any need for retrenchment. But I understand that there has been some

24th August 1946] [H. S. Hussain Sahib Bahadur]

waste here and there and I shall point out an instance. In Devakottai and Sivaganga in Ramnad district, I understand there are three sub-judges and four munsifs and the distance between these two places is about thirty miles and the two places are connected by railway and bus service. I may tell you that these gentlemen or at any rate some of them have very little work to do. Perhaps it may not be more than an hour or two. If that is the case, I would like the Hon. Minister for Law to enquire if there is any real waste, and if two sub-judges and two munsifs will not be sufficient. If this will do, there will be a saving of Rs. 30,000 per year. This is a thing that has been put to me by some of my friends and I wish the Hon. Minister enquires and decides the question.

“Regarding the question of the separation of the Judiciary from the Executive, these are some of the important matters that the Hon. Minister will keep in view. I would suggest that instead of placing the Magistrates whom they are going to appoint under the Government, it would be better that control vests in the High Court. That would be a very good idea of keeping up the independence of the Judiciary. I would urge upon the Hon. Minister for Law that these officers who should see to the pure and undiluted administration of justice to all people, especially in the matter of criminal cases, should be under the High Court. I would, in this connection, like to ask, if it would be possible to appoint or rather give powers to District Munsifs themselves to try criminal cases of the major kind. As for the smaller cases, First-class Bench Courts may dispose of them. I think that this is the correct way of going about this matter. Then, Sir, the Munsifs or the Munsif-Magistrates should be under the District Judges and the District Judges will be under the High Court direct. If you want to preserve the independence of the Judiciary, this would be the proper way.

“About the question of recruitment, we have already recruited Assistant Public Prosecutors direct from the bar. I do not see any reason why preference should not be given to these gentlemen, who are qualified and have gained experience for appointment as Subdivisional Magistrates coming under the new order of things. I hope that this suggestion will be considered by the Expert Committee. I have also another request to make to the Hon. Minister for Law and that is that when the Report of the Expert Committee is ready, it may be placed in the hands of members of the House so that they may give expression to their views upon it and then, if possible, after having a debate upon it, the findings of the Committee can be improved upon wherever necessary.”

The House adjourned for lunch.

(After lunch—2-30 p.m.)

ABDUL HAMEED KHAN SAHIB BAHADUR:—“Mr. Speaker, Sir, I should like to say a few things on the cut motion moved by the Leader of the Opposition. In the first instance, I believe, it should be not only the desire but also the anxiety on

24th August 1946] [Abdul Hameed Khan Sahib Bahadur]

the part of the Government of to-day, whether it is a national Government or a coalition Government that is in power to see that nothing is done, either by themselves or by their agents or by anybody to try to interfere with pure justice, with party or communal bias.”

MR. H. S. TOWN:—“On a point of order, Sir; have we got the quorum?”

* MR. SPEAKER:—“We have no quorum.”

(The bell was rung. Several hon. Members entered the Chamber, and then discussion was resumed.)

ABDUL HAMEED KHAN SAHIB BAHADUR:—“Sir, I was saying that it ought to be the anxiety and care of any Government, whether it is a national Government or a coalition Government or any kind of government, to see that nothing is done to prevent pure justice being done. To-day we have Courts, which ought not to be interfered with either by way of appointment, or interference with or withdrawal of cases, in which Government may be interested for one reason or other. They should be above party politics. My own view is, perhaps I may be wrong, that in recent years, the amount of regard people had for courts of justice, is diminishing gradually. I do not know what exactly is the reason for that. Whether it is due to the fact that we are having, what is called, a popular Government, or national Government, or whether it is because we are in the midst of communal or party conflicts or civil commotion, I cannot say. I do not think the judges and magistrates are affected by what is happening around them generally. If they should be affected, or if their action is to be affected by outside influences, then it should be the day for which we should all be sorry. I hope it will be possible to maintain the status, prestige and integrity of the Judiciary as high as possible 'untarnished by outside influences as much as possible.

“There is another point to which I wish to refer, and it is this. Not only in the High Court but in most other courts, justice is of course given; but justice is delayed, and as a result of the delay, parties are not in a position to get the necessary evidence to the extent to which they wish and ought to bring, so much so that justice is denied them. Taking the case of the High Court, which is the highest judicial tribunal in this province, the judges, like Cæsar's wife, should be above suspicion; and I am sure that is the case. I hope it will be the case in the near future and for all time to come. But of one thing I must say, and that is, on account of the fact that there has been a large number of cases in arrears, it has taken all the judges a very long time to dispose of these cases, in spite of the fact that their number has been increased from ten to twelve, fourteen and sixteen. Some hon. Members are of the opinion—and I must say that they are wrongly of that opinion—that the number sixteen to-day is too large. Unless and until the judges are able to dispose of all cases quickly meting out justice, I believe it will be suicidal to try to reduce

[Abdul Hameed Khan Sahib Bahadur] [24th August 1946]

their number from what it is to-day. Reference was made by one hon. Member to the two additional judges in the High Court. They have been there to help the Court in the disposal of cases. They have been doing that. Possibly if the number of cases on the file has considerably reduced, they may not be required there. But litigation, which came down during the war and immediately after the war, is bound to increase on account of various legislations that have been passed and that will be passed both by the Provincial and Central Governments, like the proposed agricultural taxes and others, which will be opening the door for more and more litigation. When that is the case, I think, the number of cases will increase; and so I do not think it is necessary to reduce the number of High Court Judges from sixteen to fourteen.

“ Sir, appointment to the High Court and other judicial posts ought to be, in my opinion, made on merit and merit alone. (The Hon. Sri K. Bhashyam: Hear, hear.) I agree with my hon. Friend thoroughly. But whether merit is the monopoly of a section of the people, or community, or whether merit is found and can be found among all people is a question that has to be answered. The view that was taken till recently was that only one class of people are fit, and they are the only people who possess merit to be raised to the High Court Bench. That was a wrong notion which was held, not only by our Indian friends, but even by European Judges. Even the Chief Justice came under their wrong influence, and the European Judges too acted in that wrong manner till recently. But when they went out of their way they discovered men of merit in other classes, real gems thrown in the dust, whom they did not see till then because of the dust thrown in their eyes. Those gems on the High Court bench have shone and shone brightly. Therefore, this notion that merit is the monopoly of a few is wrong, and it has been exploded long ago, and I am sure that no longer will that view be held. Therefore, Government should try to find out fine gems among all communities and raise them to the bench. It is only when you satisfy all sections of the people that you can command their confidence in the highest judicial tribunal of the land. The same thing applies to the district and mufassal courts also. Therefore, the best policy for Government is to see that members of all communities who have had no chance, or who have not had adequate chance, should be raised to the bench. I do not think, so far, we have had a member of the scheduled classes on the High Court bench. I do not know why that has not been done. We have been talking a great deal of giving adequate representation to the scheduled classes. Why should not the Chief Justice go out of the way and appoint a member of that class to the bench? I am sure if that is done, the incumbent would do as well, if not better, than the other judges of the High Court. Sir, the wrong notion is still affecting some of the officers, who have been pursuing that policy, to the detriment of the equilibrium and popularity of this high tribunal. I said, Sir, there should be no party interference, and no attempt should be made, as was done in the past, on

[24th August 1946] [Abdul Hameed Khan Sahib Bahadur]

the part of the highest officer in the Government of Madras, to try to interfere with the judgment of High Court Judges, or District Judges or Magistrates, or influence the withdrawal of cases. Sir, withdrawal of cases took place in the past. I am saying this, so that such mistakes will not be repeated.

“ Then, on the question of representation of Muslims in the Judiciary, some hon. Members have said that every care should be taken to see that their number is not reduced. As a matter of fact, in the High Court bench, it was after a very long time, we had a Muslim Judge in Mr. Abdur Rahim. We know what amount of good work he did, and what a great Judge he made himself; and after that came others, and all of them did very well as High Court Judges. To-day, I am sure, that all those who sit on the High Court bench know, what merit their colleagues of the Muslim community possess, and how able and intelligent they are. I am afraid that attempts will be made—the air is thick with the rumour—by the present Government to do away with the two additional Judges and to send away the Muslim Judge who is there so that the number will be reduced. That will be wrong, Sir. I hope that will not be done.

2-45
p.m.

“ Regarding the staff in the High Court, Sir. Of course, the Hon. the Minister for Law will tell us that the Madras Government has nothing whatever to do with the staff of the High Court, or that he will not influence or interfere with what is happening in the High Court. But I can say this much. It is open to him to draw the attention of the Honourable the Chief Justice to the state of affairs. Among the fourteen Law Officers, if I am not mistaken, there is not a single Muslim. In the staff, from the top to the bottom, you will find only a handful of Muslims. How does it happen? Lawyers and advocates in the Muslim community, Depressed class community, and Non-Brahman community are on the increase. Why are they not appointed as officers? This ought to be attended to by the Hon. the Minister for Law. and I am sure he will.

“ The hon. the Leader of the Opposition raised the question of giving a short vacation on Fridays for Muslims, because they have to attend to their prayers. That, I am sure, will be attended to.

“ The separation of Judiciary from the Executive . . . ”

At this stage the Speaker rang the bell.

ABDUL HAMEED KHAN SAHIB BAHADUR:—“ One or two minutes more, Sir. This is an important subject, and I hope you will not mind it.”

“ Something has already been said about this subject. This is a very important subject. It has been agitating the mind of every one for a long time. The last Congress Ministry said that since the popular Government had come into office there was no need for the separation of the Judiciary from the Executive, because they were there to exercise check over the vagaries of the District Magistrates, and they wanted to prevent this separation.

[Abdul Hameed Khan Sahib Bahadur] [24th August 1946]

Whatever the Government, Sir, there is always the Opposition and there will be among the people many who may not see eye to eye with the Government in office. Therefore, it is always necessary that we should separate the Judiciary from the Executive. What is meant by separation of Judiciary from the Executive is not separation of Judiciary from the Executive by merely transferring certain departments and bringing into existence certain officers who will be serving the same Government. They ought not to be serving under the Government. They ought to be under the control of the High Court. Revenue cases and other criminal cases should be conducted not by an officer appointed by, and controlled by, the present Government. The real separation of the Judiciary from the Executive will be effected only when the whole department is under the charge of the High Court. With these words I support the cut motion."

* SRI A. S. SAHAJANANDA:—"கனம் தலைவரவர்களே, கிராமங்களிலே ஒருவருக்கொருவர் கலவரம் செய்து கொண்டு கேசுகளைப் போட்டுக்கொண்டு பெஞ்சு கோர்ட்டுக்கு வருகிறார்கள். பெஞ்சு கோர்ட்டு களிலே ஆங்காங்கு பெரிய பெரிய பணக்காரர்களை நியமிக்கிறார்கள். அவர்களில் சிலர் பொழுது போக்காகக் கழிக்கிறார்கள். சிலர் கோர்ட்டுக்கே வருவதில்லை. மேலும் ஒரு சிலர் பெஞ்சு கோர்ட்டை விட்டு 20, 25 வருஷங்களானாலும் நீங்குவதே இல்லை. பெஞ்சு கோர்ட்டுகளிலே ஹரிஜனங்களைச் சரியானபடி நியமனம் செய்வதில்லை. சில இடங்களில் தகுதியுடைய ஹரிஜனங்கள் இருந்துங்கூட அங்கிருக்கும் அதிகாரிகள் அவர்களை கவனிப்பதில்லை. அதற்குக் காரணம் உன்னார் பெரிய மனிதர்களிடம் சரி சமமாக உட்காரக்கூடாதென்ற எண்ணமும் உன்னார் பெரிய மனிதர்களுடைய வேண்டுகோளுந்தான். அதிலும் ஒரு பெஞ்சு கோர்ட்டுகளில் ஹரிஜனங்களுக்குச் சரியானபடி இடம் கிடைக்கிறதாவென்று பார்க்கும் போது காங்கிரஸ் கவர்ன்மெண்டிலே முக்கியமாக கவனிக்கவேண்டியதாயிருக்கிறது. முந்தியிருந்த கவர்ன்மெண்டிலே அவ்வித அக்கரை கிடையாது. கோர்ட்டுகளிலே ஹரிஜனங்கள் மாஜிஸ்ட்ரேட்டாகப் போவார்களானால் அதனால் தீண்டாமையை ஒழிப்பதற்கு வழியுண்டாகிறது. மேலும் ஹரிஜனங்களுக்கு நியாயம் கிடைக்கும். ஆகையால் பெஞ்சு கோர்ட்டுகளிலே ஹரிஜனங்களுக்கு அதிகமாகப் பிரதிநிதித்துவம் கொடுக்கும்படி மந்திரியவர்கள் செய்வார்களென்று நம்புகிறேன்."

"ஹைக்கோர்ட்டுகளிலே கேசுகள் வந்தால் விறைவில் பைசல் செய்வது கிடையாது. அவ்விதமிருந்தால் நியாயத்திற்கான பயனை எப்படி அனுபவிக்கமுடியும். கேசைப்போடுகிறவன், பயனை அனுபவிக்கவேண்டுமென்றால் சீக்கிரத்திலேயே அந்தக் கேசுகள் பைசலாக வேண்டும். அப்படி நடப்பதில்லை. பதினைந்து வருஷம், 20 வருஷம் ஹைக்கோர்ட்டுகளிலே கேசுகள் பெண்டிங்காக இருந்துகொண்டிருக்கின்றன."

"மேலும் ஹரிஜனப் பிள்ளைகள் சிலர் லா (Law) படித்திருக்கிறார்கள். அவர்களுக்கு டிஸ்ட்ரிக்ட் முன்சீப், ஸப்-ஜட்ஜ், ஜில்லா ஜட்ஜ் வேலை கொடுக்கலாம். லாக்காலேஜில் புரபராக இருந்தவர்கள் எத்தனையோ காலம் டிஸ்ட்ரிக்ட் முன்சீப்பாக இருந்தவர்கள் எல்லோரும் இப்போது இருக்கிறார்கள். ஸர்க்கார் ஹரிஜனங்களுக்கு ஒரு கவுரவம் கொடுக்கவேண்டுமென்றால் நல்ல வேலை கொடுக்கலாம். இதுவரையில் லா படிப்பதற்கு ஹரிஜனப் பிள்ளைகளுக்கு ஸர்க்கார் உதவி செய்வதில்லை. ஆனால் இந்த வருஷம் நம்முடைய முதல் மந்திரி இறக்கத்தோடு 5 பிள்ளைகளுக்கு ஸர்க்கார் உதவி செய்யும்படி ஆர்டர் போட்டார்கள். அதற்காக என் சமூகத்தின் சார்பாக காங்கிரஸ் கவர்ன்மெண்டுக்கு வந்தனம் செலுத்துகிறேன்."

[24th August 1946] [Sri A. S. Sahajananda]

"மேலும், ஹரிஜனப் பிள்ளைகளுக்கு கோர்ட்டுகளில் குமாஸ்தா வேலை, பியூன் வேலை, இதர வேலைகள் இருக்கின்றன. இந்த ஸ்தானங்களுக்கு ஹரிஜன மக்கள் வருவார்களானால் அவர்களுக்கு வேண்டியவரை வேலை கொடுக்கும்படி ஏற்பாடு செய்வார்களென்று நினைக்கின்றேன்."

"மேலும் ஜில்லா முன்சீப்பாக ஒரு ஹரிஜன் இருப்பாரானால் வெளியூருக்குப் போனால் வீட்டு வசதி இல்லாமல் சிரமப்படுகிறார்கள். அதனால் சீக்கிரமாக அவ்விடத்தை விட்டு மாற்றிக்கொண்டு போய்விடுகிறார்கள். ஜில்லா முன்சீப்பு, டிப்டி கலெக்டர்களைப் போன்றவர்களுக்கெல்லாம் ஸர்க்கார் விடுதி கட்டிக்கொடுக்கவேண்டுமென்று கேட்டுக்கொள்கிறேன்."

"பப்ளிக் பிராசிக்யூட்டர்களாயிருப்பவர்கள் அசிஸ்டண்டு பப்ளிக் பிராசிக்யூட்டர்கள் வேலையிலே இருக்கின்றார்கள். திருநெல்வேலியிலே ஒருவர் அசிஸ்டண்டு பப்ளிக் பிராசிக்யூட்டராயிருக்கிறார். வயதானவர். அப்படிப்பட்டவர்களையெல்லாம் கைதூக்கிவிடவேண்டியது நம் காங்கிரஸ் கவர்ன்மெண்டையே வேலை. இந்த விஷயத்தில் இந்த அரசாங்கத்தார் சட்ட மந்திரியாக இருக்கப்பட்டவர், இரக்கமுள்ளவர்; இதைப்பற்றி கவனிப்பாரென்று நினைக்கின்றேன். முக்கியமாக டிஸ்ட்ரிக்ட் முன்சீப்பு வேலையிலே என்னுடைய சமூகத்தினருக்குப் போதிய பிரதிநிதித்துவம் கொடுக்கவேண்டுமென்று கேட்டுக்கொள்கிறேன்."

* SRI B. S. MALLIKARJUNA RAO:—"Mr. Speaker, Sir, it 3 p.m. is really a matter for gratification to see that the Government are contemplating the separation of the Judiciary from the Executive. We find that the members of the Opposition are at one with us behind it, they want separation root and branch, and that it should be placed under such a system that it is absolutely under the control of the High Court. I really congratulate the Opposition on the stand they have taken. I personally feel that it should come directly under the control of the High Court, and if the Government feels that there is any impediment in the matter, legislation should be undertaken to see that it is so placed."

"With regard to the working of the administration of justice in the mufassal, I wish to say that there is a tendency to economise expenditure as far as possible, and see that no expenditure is incurred to cater to the convenience of the litigants or those that happen to take up work there. The Government have, so far, been niggardly in the matter. In the mufassal courts nothing is cared for so far as the convenience of the litigants and members of the Bar is concerned. There is no provision for resting places, for tiffin rooms, or for water-supply to the litigants, or for sheds for litigants. They are uncared for. Even the establishment that we find in the courts is all very scanty, and Government are not taking proper steps to put sufficient furniture. The condition of the Magistrates' Courts is really deplorable. In these circumstances, I wish to appeal that this is the proper occasion for the Government to go into this matter and see that every help is provided."

"My learned friend on the Opposition has rightly said that so far as the question of appointments is concerned, we must proceed upon the basis of merit. Personally I feel that it should be so. Otherwise, if it is based on any communal rotation or on the mere basis of gratifying a particular community or a particular class without considering the question of merit, then justice would be a failure, and it will be a perilous state to the

[Sri B. S. Mallikarjuna Rao] [24th August 1946]

society. In a civilised society we should see that merit is the criterion for drafting people to various appointments.

"With regard to the selection to courts, we have already seen that Government are only calculating the extent of economy. They are trying to have honorary magistrates for certain Bench Courts. The system of the Bench Courts should be abolished altogether; Government are calculating that these courts do not involve any expenditure whatever. The Bench Courts to-day are only a source of revenue to the Government; they collect fines, and, the persons that are selected for these Bench Courts are absolutely ignorant of law. If such people were to sit in the Bench Court it will only result in abuse of justice. Such people should not be appointed; people with sufficient legal qualifications only should be appointed.

"With regard to the staff that we find in these courts, I would like to suggest that they are ill-paid. Of course, this is not so much expressed as you find in the labour movement in the country. But that does not mean they are not discontented. There is sufficient discontent, and it has been given expression to through the Non-Gazetted Officers' Association. In the matter of revising the scales of pay, I would suggest that it is absolutely necessary that the scales of pay and dearness allowance are so revised that they are proof against corruption. There is no use complaining about corruption unless the salary of these ill-paid staff is revised.

"In regard to the disposals by the courts, it has previously been complained that there has been any amount of dilatoriness. The complaint is everywhere. They have been getting on with disposals only and not with dispensation of justice. It is all due to the fact that we have not got sufficient establishment so far as the judicial officers are concerned. One should not mind spending a few more rupees for having more judicial officers because the matter involves doing justice to the public. What is wanted is a sufficient number of judicial officers. If it is not possible to have speedy disposal, it is proof positive that the present staff is not able to cope up with the situation. There must be more judicial officers than at present. This idea of having a disposal for disposal's sake is jeopardising justice, and the litigants are not feeling confident that they will have justice from the present courts.

"It is really a matter for congratulation that members of the legal profession are being recruited for the posts of public prosecutors. With regard to their pay, I have to say something. They have left the legal profession and accepted the profession of public prosecutorship. To be a public prosecutor, a man must be placed in such a position that he is above board and above corruption. Otherwise he may not be able to discharge the function that is expected of him. In my opinion, the pay that is given to public prosecutors is very scanty. It is not enough. They must be paid sufficiently and must be started at least on Rs. 250 a month so that, in discharging their functions, they may be placed in such a position that they are above corruption and above board. It is on

[24th August 1946] [Sri B. S. Mallikarjuna Rao]

that ground that I request that the salary of the public prosecutors should be increased. The establishment at the top is paid very heavily and is most ill-paid at the bottom. If the Government feel that they are not able to do it on account of their present finances, I would rather wish, in the same way as the Congress Ministry reduced their salaries, that the officers at the head of affairs be asked to reduce their salaries, and those belonging to the subordinate staff be paid adequately.

"One thing more, Sir, and with that I will close my speech. That is with regard to court-fees which is so heavy in this province when compared to other provinces. There has been a cry for long, but we are trying to increase the court-fees instead of decreasing it up till now. Even during the war period, you will find that court-fees have been increased. By this we are doing a disservice to the poor litigants who are not able to pursue their cases to the logical end. In these circumstances, the Government must not care for revenue but should see that the poor litigants get justice at less expense. We feel strongly that in Madras Province the court-fees have to be lowered. Otherwise, it is not possible for the poor litigant public to go before the tribunals of justice."

* MUHAMMAD RAFEEUDIN AHMAD ANSARI SAHIB BAHADUR:—"Mr. Speaker, Sir, it is really fortunate that we are having on the Treasury Bench a person in charge of this portfolio who has till recently been a member of the Bar. Therefore he is more eminently fitted to take into consideration all aspects concerning this subject than anyone else. It is with confidence that I say a few words on this subject, because I am sure, being an advocate himself, he will pay all the attention and sympathy that they deserve.

"Firstly, much has been said about the delay which is caused in the disposal of cases. While much can be said about the amount of delay which is caused in the disposal of cases and the hardships caused to the litigants, much more can be said regarding the other side of the picture, namely, quick disposals in order to satisfy the orders of Judges for the speedy consideration of cases. In very many cases, it so happens that speedy disposal sacrifices the interests of justice and more often than not, the interests of the litigants. The only remedy to speed up the disposal of cases is to appoint more judges, more magistrates, and more district munsifs. It is well within the knowledge of everybody connected with this department that the present judicial officers, especially district munsifs, are over-worked, and the quantity of work they have to do is far out of proportion to the salary they draw. If it is wanted that efficiency should be maintained, that the litigants should have fair consideration and justice, that their cases should be gone into thoroughly and that greater attention should be devoted to the cases, it is necessary to increase the number of judges and district munsifs.

"With regard to Assistant Public Prosecutors, I wish to say that their present salary is very low compared with the amount of work they are called upon to do. I hope, Sir, that when the question of increase of salaries of other officers is considered, the case of Assistant Public Prosecutors will also be considered.

[24th August 1946]

[Muhammad Rafeedin Ahmad Ansari Sahib Bahadur]

"Then, Sir, this cadre is now thrown open to the members of the Bar. This cadre does not offer very bright prospects, because there is no automatic promotion from one grade to another except that the Assistant Public Prosecutors of the second class may be promoted to the first class. There is no hope for the Assistant Public Prosecutors to go higher up. Therefore it is necessary that at least recruitment to this cadre of Assistant Public Prosecutors should be restricted strictly to the members of the Bar. There have been cases where police officers, who are in service or who have retired from service, have been appointed to the posts of Assistant Public Prosecutors. This is an injustice to the members of the Bar.

"I would like to draw the attention of the Government to the attitude adopted by the magistrates towards advocates. They seem to think that the advocates are more a hindrance to the disposal of cases than an assistance. I wish, Sir, that the Government issue instructions to these magistrates to change their attitude towards the advocates. More often, the magistrates pursue a policy of causing as much embarrassment and inconvenience to the advocates as possible so that the advocates, out of sheer disgust, drop out of the cases, and thus help the speedy disposal of cases. In many cases, magistrates post the cases to camps which are not easily accessible either to the advocates or to the parties. Therefore, I say that the Government should issue instructions to the magistrates to treat advocates with courtesy to which they are entitled, and to consider them as assisting them in the administration of justice. They should also take into consideration the convenience of the advocates in adjourning cases. It is very often the case that when a magistrate adjourns a case to a particular date, the convenience of the advocate is not taken into consideration at all, and only the convenience of the police is taken into consideration. I wish that the Government issue instructions to the magistrates in this regard.

"It is a thing to be proud of that at least in this presidency the judicial department is above corruption. But in the lower ranks of this department, especially in the ranks of the magistrates, stationary sub-magistrates and first-class magistrates, signs of corruption are apparent of late—corruption either by way of undue influence or by way of bribery. I wish, Sir, that the Government take note of this fact and take steps to eradicate corruption from the lower ranks of the judiciary.

"In regard to the question of the separation of the judiciary from the executive, I think it is premature for us to offer any remarks. The matter is now before an expert committee, and I think we should await the recommendations of that expert committee before making any remarks on the subject. At this stage, I would only say that it will be very dangerous to hand over judicial functions to the village panchayat courts. It is apparent from the speeches of some hon. Members on the Treasury Benches that a portion of the judicial administration would be entrusted to the village panchayats. Everybody, including the Government, knows in what state these village panchayats are, how corrupt they are, and

[24th August 1946]

[Muhammad Rafeedin Ahmad Ansari Sahib Bahadur]

how much of factious spirit prevails among them. Therefore, it will be very dangerous to entrust the administration of justice to the village panchayats. Therefore, Sir, I wish the Government will think twice before taking any such step. With these words, I support the cut motion."

*SRI ALLURI SATYANARAYANA :—“సభాధ్యక్ష, సాధారణముగా మన శాసన సభలలోను మనము మాట్లాడుకొన్నప్పుడు, ఎవరి భాషలో వారు మాట్లాడడానికి చాలామంది సిగ్గుపడుచున్నారు. దానికి నేను చాలా దుఃఖిస్తున్నాను. అదే విధముగా న్యాయ శాఖకు సంబంధించిన విషయములలో మన కోర్టులలో తెలుగు దేశములో ఇంగ్లీషులోనే మాట్లాడుచున్నారు. న్యాయమూర్తులు ఇంగ్లీషులోనే తీర్పు చెప్పుచున్నారు. ఇంగ్లీషులోనే ఆలోచిస్తున్నారు; ఇంగ్లీషులోనే విచారణలు జరుపుచున్నారు. తమిళ దేశములోకి పోయినా ఇంగ్లీషు, మలయాళ దేశానికి కన్నడపు దేశానికి పోయినా ఇంగ్లీషు! ఎక్కడచూచినా ఇంగ్లీషు మయమే! మామూలు రైతు కూలీలు, చాడవడే నేరస్తులు తమకు న్యాయము జరుగవలెనన్నప్పుడు తమ న్యాయవాది ఏమి వాదిస్తున్నాడు అనే విషయము తెలుసుకునేదానికి అవకాశము లేకుండా పోతుంది. మేజిస్ట్రేటు ఏమి ఆలోచిస్తున్నాడో తెలియదు ఏమి తీర్పు చెప్తున్నాడో మళ్ళీ తిరిగి న్యాయవాది చాధితునికి చెప్పాలి. పురాతనమునంచి వస్తున్న ఈ విధానాన్ని బ్రీటిషు సామ్రాజ్యం మన దేశములో ప్రవేశపెట్టిన ఈ ఇంగ్లీషు విధానాన్ని ఇవారే రద్దుచెయ్యడానికి ప్రయత్నం చెయ్యవచ్చును. దేశములో పెద్దపెద్ద మార్పులు వచ్చాయి. ప్రజాప్రభుత్వం వచ్చింది. ప్రశంసలూకూడా పెద్ద మార్పులు వచ్చాయి. ఇతర దేశాలలో నాగరిక ప్రభుత్వాలు ఎవరి భాషలో వారు మాట్లాడడానికి సిగ్గుపడడంలేదు సరికదా గర్వపడుచున్నారు. అదేకాకుండా మన దేశములోవచ్చిన ఈ మార్పుకు తప్పకుండా ప్రతి మిషికి, రైతుకు కూలీకి సామాన్య పౌరులందరికీకూడా తమ భాషలో కోర్టులో విచారణ జరగడానికి, న్యాయము జరగడానికి, న్యాయశాఖ మంత్రిగారు ఏర్పాటు చేయవలెనని మరీమరీ నేను కోరుచున్నాను.

“అంతేకాకుండా నా సోదరులు మిత్రులు కార్మిక క్రమిణులు మల్లికార్జున రావుగారు చెప్పిన అన్ని విషయాలలో నేను విశేషమిస్తున్నాను. అవి అన్ని చాలా చక్కని విషయాలు. వాటిలోపాటు ఇంకా కొన్ని విషయాలు చెప్పవలసివచ్చినవి.

“ఉరి ఇంకా విధానమును తప్పకుండా ముగ్రాసు ప్రభుత్వంవారు రద్దుచేస్తారు అనే విషయాన్ని క్రితకాలా చదివేము. అది ఏమి జరిగిందో తెలియదు. ఇది చాలా అద్భుతమైన విషయము నిజముగా అన్ని ప్రభుత్వాలకు మన ముగ్రాసు ప్రభుత్వం మొట్టమొదట దారి చూపిస్తుంది అని ప్రజలందరూ ఎదురు చూస్తున్నారు. ఏ నాగరిక ప్రభుత్వమైనా ఈ ఘోరమైన పాతపద్ధతిని వెంటనే మార్పు చేయవలెను. మిషి హత్యచేస్తే ఆ హత్యకు తిరిగి హత్యచెయ్యడం న్యాయమైన నాగరికమైన పద్ధతి కాదు. ఫిక్సిడి పురాతనమైన పద్ధతి కనుక తప్పకుండా ఉరిఇంకను వెంటనే రద్దుచేసేదానికి కాంగ్రెసు ప్రభుత్వం ఘానుకొనవలెనని మళ్ళీ న్యాయశాఖా మంత్రిగారిని కోరుచున్నాను.

“అంతేకాకుండా ముఖ్యముగా విచారణ జరిగే సమయములో అనేకచోట్ల నేరస్తుని సబ్-జైలులో పెట్టినపుడు అతని నేరము ఏమో రుజువుకాకముందు అతడు నేరస్తుడా కాదా అని విచారించి న్యాయమూర్తి ఇంక చెప్పేదానికి ముందే అనేకమంది ఫిక్షి ఇంకపడిన తరువాత కంటే ఎక్కువగా అనుభవిస్తున్న హింస ఇంతంత అని చెప్పడానికి వీలులేదు. గుడ్డలకు, స్నానానికి, వేషధర్మకు, పుస్తకాలకు అవకాశము లేకుండావుంది. కాబట్టి ప్రభుత్వం వెంటనే చర్య తీసుకుని ఎవరైనా నేరస్తుడు అని

[24th August 1946]

3-30 p.m. KUMARARAJA SIR M. A. MUTHIAH CHETTIYAR OF CHETTI-
NAD:—"Mr. Speaker, Sir, very rarely on the floor of the House I have taken part in the demand for justice. I confess I am not one qualified or equipped with the knowledge of the intricacies of administration of justice and therefore I believed I ought not to dabble. But I have a special reason if I come to speak on this demand. The other day I said I was extremely happy that the Government have taken wise and bold steps in the separation of the executive from the judiciary. Sir, our British administration has won a very high place for efficiency in this part of the country.

"Sir, our judicial administration, from top to bottom, we can say with legitimate pride, has earned a reputation for its very high standard of efficiency and integrity. The Hon. the Law Minister, who was once the President of the Bar Association, has very rightly even within the first few months of his office, been able to persuade his colleagues and the Hon. the Prime Minister, who was also the head of the Bar for several years, to agree to the very valuable measure which he has brought forward.

"Sir, it will not be out of place if I trace here the history of the agitation for the separation of the judiciary from the executive. Ever since the East India Company took over the administration of this country, the tradition in this part of the country has been that the executive itself administered justice in certain departments. To-day I am not here blaming the officers who have administered justice occupying executive posts. But we are not satisfied with the system and that is why we want this change. There have been many executive officers who have administered justice most efficiently and justly. But there are also judicial officers who are not able to extricate themselves from their position as executive officers. We can only sympathise with them. Therefore, Sir, it is the system that has got to be changed. There are certain people who feel that the administration of departments cannot be carried on well without having judicial powers. But I would ask, 'Are there not several departments of Government where executive officers have no judicial functions at all?' Therefore, it will not be impossible for men in any department of Government to carry on without judicial powers.

"Sir, on the floor of this House in the previous Council every now and then, Members of the Legislature did not miss their opportunity to speak on the necessity for the separation of the judiciary from the executive. But the most interesting debate on the subject, which I cannot but refer to, is the one which took place during the last Congress Ministry in 1937-39. I shall not wax eloquent over the Congress programme of 1937 except to remind hon. Members of the House that this item in their programme was not carried into effect and the same was put forth in their election manifesto even during the last elections. Sir, during the last time when the Congress was in office, there was no attempt to bring about this reform. On the other hand, attempt was made to justify the existence of the old system. Now I shall not take up the time of the House by talking about the omissions of the previous Congress

24th August 1946]

[Kumararaja Sir M. A. Muthiah Chettiyar of Chettinad]

Ministry. I say that we are very happy that now at least the present Government have come forward with this measure and that a committee has been constituted with a non-civilian and eminent Advocate-General as its Chairman. Had an I.C.S. officer been appointed as Chairman of such a committee, it would have aroused suspicion. I am glad also that the Government have not done so. It augurs well for the move of the Government and let us all hope that very soon the report of the committee will be out and that the Government will take the House into their confidence and place before it the arrangements that they intend to make for actually separating the judiciary from the executive.

"Sir, I have nothing more to add to what I have said and my only purpose in joining in this debate is to impress upon the House the necessity for this great reform being brought about as early as possible."

* SRI K. BRAHMANANDAM REDDI:—"Mr. Speaker, Sir, it pleases us to see an eminent lawyer in charge of this portfolio, who is conversant with the defects in the existing law and system of administration of justice. So our task becomes easier.

"First, I plead for the abolition of the Criminal Tribes Act. It is a long-felt want. The untold sufferings of the criminal tribes of this country should be alleviated before long. This subject has received considerable attention at the hands of the press and public and I am sure it is engaging the attention of the Government as well. Sir, whatever justification there might have been for the introduction of this Act in the past, there is no justification whatsoever to continue it any longer. It is an insult to the fair name of this great Indian Nation, when we are on the threshold of complete freedom, to say that there still exist in this country, clans, classes and communities who by instinct or by habit commit such non-bailable offences. The sooner this Act is abolished, the better. It may be said that it is an Imperial Act and that this is a Provincial Legislature. But I submit, Sir, that under section 3 of the Criminal Tribes Act, it is the Provincial Government alone that classifies the communities as gangs and criminals by notification in the gazette. This same Provincial Government can, by the same process of notification, exclude the communities previously classified and thus, in effect, make the Criminal Tribes Act virtually useless and inoperative.

"The second point that I want to refer to is the separation of the judiciary from the executive. The Hon. the Minister rightly, and richly too, deserves our congratulations for taking steps to separate the judiciary from the executive. This is also a want which is long-felt. Though it falls short of the ideal that all of us have in mind, it still goes a long way to make the administration of criminal justice real. But we have seen a report in the press recently that this judiciary, that this criminal judiciary, will be manned by people recruited or absorbed from the Revenue staff. If that report conveys the real intention of the Government, then I submit, Sir, that we had better be left where we are. I crave your indulgence, Sir, for a minute, to refer to an incident which

[Sri K. Brahmanandam Reddi] [24th August 1946]

occurred in my own personal experience. I was arguing a criminal case before a senior Subdivisional Magistrate when I had an occasion to cite 25 Madras in that case. The learned magistrate took that to be the 25th case decided by the Madras High Court. (Laughter.) If that is going to be the state of affairs, then I say, Sir, 'Oh, God, save me and my clients from this judiciary.' I am sure, Sir, that many of the practising vakils would have experienced the very same thing. So I request that this new criminal judiciary should be manned completely by experienced people recruited from the Bar—of course from all communities—and if one more seat is allotted to a Harijan than is provided in the communal Government Order, then I shall be only too glad.

"The third thing I wish to impress upon the Hon. the Minister is, with reference to the Hindu Women's Rights to Properties Act of 1937. Of course, it is a much-needed legislation, but according to the decision of the Federal Court in the year 1941, agricultural land is excluded. I wish to say, Sir, that the Federal Court has decided that the Central Legislature has no right to legislate on matters which are within the control of the Provincial Legislature. If agricultural land is excluded from the women's right to inherit, then what else is left? It would be practically useless, because in villages, if the woman is to inherit any property at all, it is only the agricultural land and if this is excluded from inheritance, then there is nothing left for her to inherit. Therefore, Sir, I request the Provincial Government to bring in legislation to the effect that the Hindu women have the right to inherit agricultural land as well.

"The last thing that I wish to urge before this House is this. I request the Government to locate a Subordinate Judge's Court at Narasaraopet in the Guntur district. This is because, there are two District Munsifs' Courts in the two taluks near it, but there is no Subordinate Judge's Court. As a matter of fact, at Guntur there are two permanent Subordinate Judges' Courts and there are two more courts in the wet areas of Tenali and Bapatla. Hundreds of cases are being sent to Guntur and the litigant public is put to much trouble and expense. Moreover the location of a Subordinate Judge's Court at Narasaraopet does not mean any extra cost to Government at all. So, I request the Government to take early steps to locate one of the two courts of Guntur, at Narasaraopet. I wish the Hon. Minister for Law, in his reply, will make a definite statement on this point."

SRI P. KANDASWAMI PILLAI:—"Mr. Speaker, Sir, about this demand for about Rs. 111 lakhs under the head 'Administration of Justice' moved by the Hon. the Minister for Law, I wish to refer to a few points which I think, will be useful in his practical administration. As is also observed by one of my hon. Friends, in many of the mufassal courts, there is no sitting accommodation for people who go there either as defendants or plaintiffs or as witnesses. Even in certain Sub-Courts there is no room for vakils and clients to sit. Sir, I request the Hon. the Minister to see that these defects are remedied.

[24th August 1946] [Sri P. Kandaswami Pillai]

"Then, Sir, this question of the separation of the judiciary from the executive, is a long-cherished ideal of the Congress. In the history of the Congress from the ancient days, one of the foremost resolutions was that the first thing that the Congress should do, if it took up office, was to separate judiciary from the executive. This long-cherished ideal has materialised now during the period of the present Prime Minister who is a person who has literally sacrificed himself for the Congress. Therefore it is very pertinent on my part to congratulate this Ministry for the bold step they have taken at the earliest opportunity to separate the judiciary from the executive. Sir, when a political case comes up before a District Magistrate, he will be the prosecutor and the administrator of law. Therefore, people generally feel that they cannot get justice in the circumstances and have been agitating, if the separation is effected, there will be a separate officer to prosecute and another to decide the case on merits.

"Then, there are several panchayat courts in the mufassal. These are generally conducted with the help of the Tahsildar. The panchayatdars simply assemble and at the time of giving their verdict they lift up their hands on the side of the Tahsildar. Generally, illiterate people are there as members and as president. They do not know the law or the equity of the case when it is presented to them and they administer justice in the light of the opinions given to them by the touts. In these circumstances, people do not get justice. I suggest the constitution of a committee consisting of at least one or two lawyers and public workers and select persons for panchayat courts to administer them.

"In the nomination of honorary magistrates also, great injustice is done. Generally, the honorary magistrates are selected on the recommendation of the District Collector. They spend some money in the affair and get nomination. When such people sit and decide cases, it is not their decision that is given. They have a blank mind. They give their verdict according to their whims and fancies. I request the Hon. the Minister for Law to take into consideration all these factors and issue instructions to the subordinates to avoid these things when they make nominations for panchayat courts."

SRI T. S. PATTABHIRAMAN:—"Sir, I rise to support the demand moved by the Hon. the Minister for Law. I understand that the Government policy to-day is to withdraw all the cases that have been launched by Advisers' regime for political purposes. Unfortunately, that regime resorted to law to put down the trade union movement, the freedom movement and all political activities. But, fortunately, in consonance with their election pledges, the popular Ministry have decided to withdraw all pending political cases and release all political prisoners who had been convicted during the Advisers' regime in 1942 and subsequent years. But I have to point out one instance where the Hon. the Minister for Law has overlooked to do justice in spite of representations made. On behalf of the Mettur labourers, I may bring to his kind notice that in spite of the fact that representations made to him by the

[Sri T. S. Pattabhiraman] [24th August 1946]

Labour Association and Members of this honourable House, the cases against the Mettur labourers have not been withdrawn. I am referring to proceedings under section 107 of the Criminal Procedure Code, where nearly 20 Congressmen and trade union workers at Mettur have been prosecuted under the orders of the Adviser regime. I understand that the Collector of Salem has recommended that the cases should go on in the interests of peace and tranquillity of the district. I submit, Sir, that the opinion of the Collector should not weigh more with the Government than the opinion of the Members of the Assembly representing that district. The Adviser regime launched prosecution against those honest labourite workers, honest Congress workers who have absolutely no black record, under the Criminal Procedure Code and bound them over for one year or six months. Our popular Government have done nothing so far in the matter. I am therefore bringing this matter to the notice of the Hon. the Minister for Law. The people there and the trade union movement workers there are very much dejected because the popular Government have not taken any action and have extended, on the other hand, the life of the Sub-Inspector at Mettur. I hope that my appeal on behalf of the earnest Congressmen and labour workers will not fall on deaf ears and that the proceedings under section 107, Criminal Procedure Code, will be withdrawn despite the opinion of the District Collector or the Deputy Collector who have not changed their imperialist colours in spite of the change in the regime.

"I associate myself with the appeal made by the lawyer members of the Assembly, viz., that the courts should be instructed to give adjournments of cases to suit the convenience of Members who have to be present at the meetings of this honourable House. It is practically impossible for Members to be present at a mufassal court and here at the same time. So when the Assembly is in session, when Members as lawyers representing their parties, ask for adjournment of cases, there should be no difficulty for a judge or magistrate to grant the same. But they say that it is not a sufficient ground for granting an adjournment. I request the Hon. the Law Minister and the Prime Minister to see that instructions are sent to these officers not to refuse adjournment in such cases.

"Another point I wish to touch upon relates to the appointment of honorary bench magistrates. I submit that the Collectors and Deputy Collectors should not have the decisive voice in the selection of the bench magistrates. These people who have been supporters of the Government and of the officials in their repressive attitude in the past years and even the black-marketers and anti-social elements with their illgotten wealth are likely to be chosen as bench magistrates if the officialdom is to have its way. I submit that there must be a minimum qualification for bench magistrates and that the Members of the Assembly representing the respective districts should be asked for their opinion in the selection of the bench magistrates."

M. S. ABDUL MAJEED SAHIB BAHADUR:—"Mr. Speaker, while speaking on this cut motion, I do not propose to take much

[24th August 1946] [M. S. Abdul Majeed Sahib Bahadur]

time of the honourable House. I rise to bring to the notice of the Hon. the Minister for Law one important point. Recently a Government Order has been passed by the Government to the effect that ex-service men must be given preference with reference to the appointment of district munsifs. In this connection I wish to bring to the notice of the Government that they have already selected a number of persons as district munsifs and these people have already acted as such. Now, if ex-service men are given preference over these people, it would be a grave injustice. I am not against the ex-service men. I have got the highest respect and admiration for them. But I would urge upon the Government to see that the ex-service men are taken in only after the people who have already acted in the posts are provided for.

"Another matter to which I wish to draw attention relates to the interference of party men with the administration of justice in this province. An instance has been brought to my notice where, when investigation had been ordered and the offender had been apprehended, due to the interference of a very influential partyman the offender was released. This is a grave matter, Sir. Therefore, I would make an earnest appeal to the Hon. the Minister for Law and the Hon. the Premier to see that justice is placed, like the God of Olympus, on a very high pedestal where even the voice of influence and the hand of authority may not reach. I am making this appeal in the best interests of justice."

* MUHAMMAD HUSSAIN SAHIB BAHADUR:—"Mr. Speaker, Sir, it is a well-known proposition that the Bar and the Bench are but the two limbs of the Temple of Justice and yet, it is equally well known that the Bar is being treated by the Bench as school children. The Hon. the Minister for Law and the Hon. the Premier have declared more than once on the floor of the House that the Ministry and the services are but the servants of the people and yet the presiding officers of the courts treat the public, who go to them as litigants, as cattle. As an instance I shall mention an incident which will reveal the attitude of the presiding officers of Courts towards the advocates and the general public. Sir, once it so happened that the wife of a party died on the date of hearing of his case. The advocate, on receiving a wire from his client to this effect, represented to the court that his client's wife had died and therefore the case should be adjourned. To this, the presiding officer remarked: [Why should she choose that particular date to die? (Laughter.) This remark was in fact made by a Sub-Judge.] I only want to know whether the present Ministry is going to encourage this attitude towards the Bar, which is but another arm of the Temple of Justice and towards the people who are the real sovereigns of the land. Now, Sir, this attitude of the Bench is due partly to the existence of a rule in the judicial department which requires the courts to dispose of a certain number of cases in a fortnight or a month. In their anxiety not to incur the displeasure of their own superior officers, the judicial officers have been behaving like this.

"Sir, I wish also to mention that this vicious rule is also responsible for tempting these responsible officers of courts to become

[Muhammad Hussain Sahib Bahadur] [24th August 1946]

dishonest also to some extent. In their anxiety to dispose of a certain number of cases within a given period, the officers dismiss partition suits even before the preliminary decree is passed. Because, if a preliminary decree is passed, the final decree proceedings will take a very long time. Therefore they resort to this method of disposal. In the administration suits also the presiding officers are tempted to find a short circuit for disposal.

4 p.m. "Sir, there is another point. If any lawyer tries to raise any preliminary objection on the question of jurisdiction then the Judges seem to be very glad to dispose of cases saying that there is no jurisdiction. They want only some reasonable excuse to dismiss cases or return suits saying that there is no jurisdiction. If this is allowed to continue, will there be dispensation of justice or will there be failure of justice, I wish the Minister for Law to consider.

"Next, Sir, I wish to mention the treatment of the advocates by the magistrates. It is very deplorable. Some magistrates post cases on particular days without mentioning the time. The lawyers have got to go there and be waiting from 11 o'clock till 4 or 5 p.m. Till then the Divisional officers do not turn up at the place where the cases have been posted and afterwards they turn up and say that they have returned from a tour, that they are dead tired and therefore the cases are adjourned. I would therefore request the Hon. the Minister for Law to see such things do not occur.

"I wish also to bring to the notice of the House the wrong impression which prevails in the minds of the Ministry, as it has been prevailing in the minds of the previous Government that the clerks of the Revenue department are omnipotent and all wise and almighty who could rise equal to any occasion if they are appointed in any department. Sir, during the war time there have been many new departments created, for example the Commercial Taxes Department, the Rationing Officers, the Yarn Control and Textile Control and other offices. We know that the Sales Tax Rules, the Defence of India Act and the rules framed thereunder have got to be interpreted by these officers. I ask you whether lawyers are not the men better fitted for these posts than the clerks of the Revenue department. (Interruption.) If the hon. Member repeats his question I am ready to answer."

* MR. SPEAKER:—"I have allowed you one more minute."

* MUHAMMAD HUSSAIN SAHIB BAHADUR:—"I therefore request the Hon. Minister for Law to see that at least hereafter when a popular Ministry is in office, that lawyers who have been responsible for the achievement of freedom in this country are taken proper care of."

* SRI M. BAPINEEDU:—"Mr. Speaker, Sir, the long overdue reform of separation of the judiciary from the executive has at last come. It is but significant and natural that this radical reform should come during the regime of a Congress Ministry. On this occasion, Sir, it is superfluous to congratulate the Hon. the Prime Minister and the Minister for Law; this is a matter of

[24th August 1946] [Sri M. Bapineedu]

pride to all the Members of our Party. We also expect that the abolition of capital punishment which is also another radical reform will soon be undertaken.

"In supporting the demand, I wish to bring to the notice of this House the inconvenience caused to the clients in the courts. Almost all the hon. Members who spoke before me belong to the class of lawyers and I, Sir, belong to the class of the clientele. It is they, the clients' who pay for the maintenance of the courts, the lawyers and others, but still it is only the lawyers who have got well-furnished bar rooms and all the privileges of the lunch and other rooms. The poor clientele, who come in the hot sun and the rain have no resting place to sit. I hope special attention will be paid to the convenience of the clients.

"As regards decisions and adjournments of the Munsifs and District Judges, it is needless to add that a good many of them are slow and slow like snail. They adjourn and adjourn. In these days of rationing, in these days of crowded trains and impossible bus travel, they are giving long, long adjournments to the detriment of the clients. I hope, Sir, that the Government will take special care that early decisions are given and fewer adjournments.

"Then there are the cases of the Magistrates who sit late till 8, 9 or 10 p.m., and parties wait and wait only to be finally told to come next day. Sir, I hope this scandalous way of adjourning cases will not be allowed. Sir, I take great pride in supporting this demand."

* THE HON. SRI K. BHASHYAM:—"Mr. Speaker, Sir, I thank the hon. Members who have spoken on this motion for their very helpful criticisms and specially for their approval of the general policy underlying the separation of the judiciary from the executive. I am glad to note, Sir, that there has been a fairly general approval of the scheme that has been put forward from all sides of the House. I know there was some disappointment last time that this scheme was not put through. On the other hand, while there has been general approval, there has also been criticism in that the tentative proposals put forward by me in my own individual capacity did not mean complete separation. I admit it is not complete separation, but I had in mind two limitations. One was the fact, that there was the question of the amendment of the Criminal Procedure Code for which we have to go to the Government of India and the other question was the less formidable objection that the scheme would be creating a state within a state by putting the whole thing under the High Court. These were the two limitations to which the scheme I proposed was subject. I am glad however that the House approves of a wider scheme, a scheme which is more complete than the one which I have put forward. It is not that I did not realize that the scheme, I proposed was not a complete scheme of separation, but in order to get the thing through without delay, I wanted to set

[Hon. Sri K. Bhashyam] [24th August 1946]

up a scheme subject to the two limitations which I have mentioned above.

" Now, Sir, the Committee is sitting. It consists of eminent lawyers and experts who can give the Government advice as to how best this can be done. All the schemes, not only the scheme put forward by me, but also the scheme put forward in 1921, the scheme adumbrated some time ago in the United Provinces known as the Katju scheme, are being examined by the Committee. Twenty witnesses have been already examined. The hon. Member Mr. B. Pocker Sahib gave evidence. Mr. Ahmed Miran, one of the eminent lawyers of the High Court, and Mr. Hassan, the Chief Presidency Magistrate, have also given their evidence. Some members of the Indian Civil Service, both Indian and European, have also been examined by the Committee. The mufassal lawyers have placed their views before the Committee. A number of representations were received from individuals and associations during the month or two that preceded the appointment of the Committee. All these representations have been placed before the Committee and they are looking into them. I expect the Committee's recommendations very soon and so I do not want to go into the details mentioned by some of the hon. Members. It will be much better if I get the Committee's report first and discuss their recommendations with my colleagues before I think of discussing the matter on the floor of the House. So far as the question of placing the report before the House before any action is taken upon it by the Government is concerned, I cannot give any guarantee about it, because it depends on the Committee's recommendations. At present, all the various proposals and the various suggestions both from the communal point of view and other points of view have been placed before the Committee. I cannot say what the Government after full deliberation will decide about the matter and whether they will agree to place the report before the House before any decision is taken. While I do not commit myself on this matter, I will say that as a matter of fact some opportunity will be given to the House to criticize it at some time.

" The next point I should like to deal with is the question of the strength of the High Court. It is a very important matter. It is necessary that I should bring to the notice of the House, that the question of the appointment of judges and filling up temporary vacancies are matters beyond the jurisdiction of the Provincial Government. All that they can do is to give their advice or make their recommendations or make their views known on the subject if they are consulted in the matter. Therefore, the Local Government is in a peculiar position so far as the High Court is concerned. They are not able to commit themselves one way or the other. They can only tender advice to persons who have got the power of appointing the various judges. It is only in that capacity, I speak. One thing however must be said because 'Administration of Justice' is a provincial subject. We are all interested in the administration of justice in every way and the

24th August 1946] [Hon. Sri K. Bhashyam]

Provincial Government cannot keep quiet over these appointments, over the strength of the Madras High Court.

" My hon. Friends already know that the present strength of the High Court including the two temporary judges is sixteen. There is one vacancy now. I have been 40 years at the bar and I was there till recently. I can tell you that as a matter of fact in recent years there has been a decrease in litigation in the High Court and if you ask my personal opinion, I will certainly say that 14 Judges which is the permanent strength of the High Court are more than enough. (Interruption.) Sir, it is not within my power nor within the power of the local Government to deal with it at the present time. I can tell you that any proposal for increasing the strength will not be welcomed by this Government. I may also, point out, so far as I am informed, that the quality of the litigation now before the courts, including the courts in the mufassal, is not as it used to be. There were big litigations then; now there are only small ones, though the number may be there. The quantity may be there, but the quality is poor.

" It is also true that the file of cases is decreasing in the mufassal and so, for some years to come, I expect that there will not be much work by way of appeal or revision in the High Court to justify an increase. That is my view in this matter.

" One of the other matters which was referred to in the course of the discussion was about Muslim representation in the High Court and other places. Sir, so far as the present representation goes, there is not much room for complaint. Two judges out of 16 or 15 is a fairly good number and forms a good percentage. My hon. Friends have also been complaining about the Law Officers and the Crown Officers not being given to Muslims. I think, Sir, some offices are not in the gift of this Government and some are. I may tell you, Sir, that in fairness to the Government, the Muslim Members must recognize, and other hon. members also should know, that two key positions in the Madras City Judiciary, that of the Chief Judge of the Small Causes Court and the Chief Presidency Magistrateship are occupied by Muslims. That is a fact which they must remember in this connection. So far as Law Officers are concerned, it is not the policy of this Government to exclude any person who is qualified to occupy that place. (Mr. Abdul Hameed Khan Sahib: 'They are not Law Officers.') My hon. Friend says that they are not Law Officers. True. They are judicial officers.

" As regards District Judges, recruitment is governed by the Reserved Posts (I.C.S.) Rules. Even here though the communal rule does not apply, at present there are two permanent District Judges and one acting District Judge. Out of 26 posts of District Judges, 3 are held by Muslims, that is, nearly 12 per cent.

" As regards Sub-Judges they are appointed by promotion from District Munsifs. Out of a total number of 45 posts 5 posts are being held by Muslims.

[Hon. Sri K. Bhashyam] [24th August 1946]

"Regarding district munsifs, the communal rule is applied in recruiting. Two out of 12 posts go to the Muslims. Out of 161 posts 22 are held by Muslims. This shows only a small deficiency and it no doubt arises out of the fact that a sufficient number of qualified Muslims are not available for appointment even to the extent allowed for the community. (Interruption.) This is the explanation so far as I see from the papers.

"As regards the members of the Subordinate Judicial Service the communal rule applies. Exact details as to the number of Muslims is not known as the communal returns have been suspended for the duration of the war. The Madras Public Service Commission stated in its annual report for 1945 that the number of candidates available for selection from the Muslim community was less than the number required.

"I may tell my hon. Friends that the Madras High Court Service is under the control of the Hon'ble the Chief Justice and I am not sure whether the communal rule is applied there in all its rigour. I am told however that the community's claims are not neglected.

"Whatever inequality there is in the matter of representation of Muslims in the service it is not due to any policy pursued by the Government adverse to the community. I think it is due more to the fact that there are not sufficient number of qualified men coming forward. (The hon. the Leader of the Opposition: 'It is not correct'.) No qualified Muslim who applied for a District Munsif's post has been refused selection. (The hon. the Leader of the Opposition: 'No.'). You say no, I say yes."

B. POCKER SAHIB BAHADUR:—"May I know, Sir, what is the source of information of the Hon. Minister for Law that sufficient number of Muslim candidates were not available for appointment as District Munsifs?"

* THE HON. SRI K. BHASHYAM:—"The Annual Report of the Madras Public Service Commission, 1945, *re* Subordinate posts.

"The hon. the Leader of the Opposition was complaining about no facilities being granted to the Muslim litigants, witnesses and lawyers for prayers on Fridays. I think reference was also made to a Government Order whereby people in service are allowed on Fridays 2 hours' recess or so for the purpose of prayer. So far as Muslim litigants and lawyers are concerned, I think it is made a practice in the Courts—that whenever they apply to the Court that they have to attend the mosque for their prayers, they are allowed to do so. I am only saying this subject to correction because I have not had much experience of the mufassal courts. I think, Sir, that every consideration is being shown for the purpose of affording sufficient facilities for Muslim litigants, witnesses and lawyers in respect of this matter. If you really want that there should be an interregnum in the office hours, for 2 hours in the course of the day, I think it is unnecessary, because this concession is intended to apply to the Muslims only and they

[24th August 1946] [Hon. Sri K. Bhashyam]

are now entitled to take advantage of it. Otherwise every community will come forward and say that this thing or that is sacred to them and so they want a holiday. I think it is unnecessary to do so. Therefore, while I agree that this is a reasonable request, I say that this concession should apply only to the Muslims when they go for their prayers on Fridays and no more. I think the statement made by me on the floor of this House will certainly be taken notice of by the persons concerned and if the situation is really bad it will be improved."

B. POCKER SAHIB BAHADUR:—"On a point of information, Sir. May I know whether any community has made any application for adjournment on any such ground whatsoever?"

* THE HON. SRI K. BHASHYAM:—"I can quote from my own sphere, Sir. People have asked to be let off altogether on Krishna Jayanti day, and on *Amavasai* days they wanted cases to be taken up only in the afternoon. I do not know how these things go on in the mufassal. I think sometimes they adjust and sometimes they do not. It will be a very bad precedent, Sir, to make closing of the courts compulsory between these two hours for prayer which are wanted by Muslims only.

"As regards the points raised by Mr. Fernandez, about the two officers, the Official Assignee and the Official Trustee, I should like the position of these officers to be made a little more clear to hon. Members of this House. I think the impression gained by the Members by the speech of the hon. Member was that these offices were intended solely for the benefit of the richer people. I do not know if it is correct to say so. On the other hand, with some small experience of the office, I can tell him and the Members of this House that estates of minors left without any guardian, small or big, are all being entrusted to the Administrator-General. Besides, he is also administering charities bequeathed by will or constituted as trust by a deed. He is working not merely for the richer people but also for the benefit of the poor. I may state further that it is the bounden duty of the State to provide for an officer being placed in charge of the estates of deceased persons and also derelict estates where the minors are without a guardian. It is the duty of the State to do so. I am therefore justified in claiming that this office is doing useful work for the benefit of the general public. It cannot be said either that this department is costing the Government much. On the other hand it may be said that the administration is carried on without throwing any charge on the general tax-payer. I may mention to you, that sometime back the Government of India suggested that the cost of the administration of private estates should not be allowed to throw any charge on the general tax-payer. With a view to make it self-sufficient the rates of commission were increased in 1939 and since then the office has worked at a profit.

"It may be further pointed out that when the posts of Administrator-General and Official Trustee were provincialized in

[Hon. Sri K. Bhashyam] [24th August 1946]

1912, the total net balance at credit on the 1st April 1945 covering the entire period from 1912 to 1945 was Rs. 3,84,501-14-11. Thus it will be seen that the office has been working at a profit and the suggestion made by the hon. Member that it is working at a loss is inaccurate. But it does not mean that there have not been deficits. There have been deficits during 1913-20, 1928-30 and 1937-38."

* Mr. W. J. FERNANDEZ:—"I may mention for the information of the Hon. Minister for Law that the big figure shown as profit consists three-fourths of unclaimed assets of people who died intestate. That cannot be counted as revenue as this may be claimed by the beneficiaries turning up any time. We have to exclude that figure therefore from the revenue side. Of course there was a profit of about Rs. 27,000 in the year 1925. And I think if the Hon. Minister takes away last year's figure on this basis he will find the office has worked at a loss."

THE HON. SRI K. BHASHYAM:—"I am really thankful to the hon. Member for the information. I do admit that in the management of the estates there are things that lapse to the Government altogether. Of course there may be some cases at some distant time when a claim may be made by some persons and the Government in its generosity will not refuse to discharge them. But so far as this matter of administration of estates is concerned, the Government get money, though they may not be legitimately entitled to it but it is due to the lapses of persons who do not apply. Sir, this is the position so far as the Administrator-General is concerned."

"As regards the Official Assignee also I should like to say a word. The expenditure on this office is a charge on the revenues of the Province not subject to the vote of the Legislative Assembly. This department is treated as part of the High Court and the expenditure is under the control of the High Court. The High Court has to be addressed for reducing the expenditure of that office and their views taken. It may be pointed out in this connexion that this is a quasi-public utility office forming part of the administration of justice for the protection of honest insolvents from harassment and for the protection of creditors of dishonest and fraudulent insolvents. This office is necessary as part of the system of administration of justice in the country. There is no question at present therefore of abolishing it altogether."

"So far as the reorganization of the department is concerned, I may point out that on the 1st April 1943, this office was provincialized. Prior to 6th May 1940, this office was not a salaried office but one which was remunerated by commission earned by the officer at a certain percentage on the administration of estates. The entire commission earned was taken by the Official Assignee himself towards his remuneration and the salary of the Deputy Official Assignee and the office staff was met out of the 'Office Charges Fund' (which did not belong to Government) representing principally the accumulated interest earned on the bank

24th August 1946] [Hon. Sri K. Bhashyam]

amounts and deposits of the office. Subsequent to 6th May 1940 the Official Assignee became a salaried officer and his salary and the salary of the Deputy and the staff were met out of the said Office Charges Fund.

"On the provincialization of the office on 1st April 1943, the Government took over a sum of Rs. 4,76,700 being the Office Charges Fund and the amount has become merged into the Provincial Revenues. Interest alone thereon at 3 per cent comes to Rs. 14,301."

"In addition to the above, substantial amounts have lapsed to the Provincial Revenues as balances in old and inoperative estates and as unclaimed dividends. The amount thus lapsed comes to Rs. 3,83,000 and the interest alone on the abovesaid sum at 3 per cent is Rs. 11,490 per year."

"All this amount is kept with the Reserve Bank of India as part of the funds of the General Revenues at the disposal of the Government without any interest charges payable by Government."

"Thus, the following may be taken as the present position:—

	RS.
Collection account (out of which Rs. 3,83,000 was lapsed to Government)	6,87,900
Unclaimed dividend	3,87,168
Office Charges Fund	4,76,700
Total ..	15,51,768

	RS.
Interest thereon	46,500
EE Average amount earned by way of commission	18,000
Average annual unclaimed dividends deposited	10,000
Total ..	74,500

Therefore, Sir, we find really that there is not much difference between the expenditure and the interest on the amount as lapsed to the Government. Further, the office of the Official Receiver has now been attached to the Official Assignee and as against a commission of about Rs. 9,345 earned for seven months, the expenditure is only Rs. 3,255. It will thus be seen that so far as this matter is concerned, a large portion of the expenditure is being met by the income derived."

"Then, Sir, as regards Public Prosecutors, there was a suggestion made that practising persons alone should be appointed. They are being now appointed from members of the Bar. I want to point out to you the Government Order issued soon after this Government came into power. That Government Order has made the position quite clear. It says—

"The Government consider that vacancies in posts of Government Pleader, Public Prosecutor and Additional Public Prosecutor should be given sufficient

[Hon. Sri K. Bhashyam] [24th August 1946]

publicity. District Magistrates are therefore directed to follow the following procedure in future :—

In sufficient time before the occurrence of a vacancy, the District Magistrate concerned should cause a notice calling for applications giving full particulars of age, community, legal qualifications and standing, at the Bar of the applicants to be put on the notice board in his own office and in that of the District and Sessions Judge concerned. A date within which such applications should reach the District Magistrate should be specified in the notice and that date should be so fixed that applicants get at least two weeks to make their applications.

“ On this matter, there was a complaint that appointments were made without sufficient notice to the members of the Bar. If there was any such lapse before, I am sure the defect has been rectified by the issue of this Government Order.

“ There was some reference made, Sir, to some appointment in Kistna. I do not think it is necessary for me to go into details except to say that the gentleman was one of the persons recommended by the district authorities. Mr. Salam stated that this gentleman would not complete three years' period in his appointment before he was 55. He is 52 years and 4½ months old, and requires 7½ more months for completing three years and therefore, he said, he was disqualified. No, Sir, it is not so. It is not ruled out on that account that such people should not be appointed. He is one of the leading members of the Bezwada Bar and has both civil and criminal work. Therefore, Sir, any remarks made by the hon. Member on this matter are not accurate, and I have therefore given this information to correct him.

“ So far as Honorary Magistrates are concerned, I know there has been a good deal of difficulty experienced. Honorary magistrateship has been conferred in the past, or at least selection was made, as hon. Members may know, by District Magistrates or the Subdivisional Magistrates sitting along with the District Superintendent of Police or the Deputy Superintendent of Police and also a member of this Legislature selected for the purpose. The Selection Committee makes the selection and the appointment is made from out of the persons selected, by the District Magistrate of the place. The question whether the head of the police in the district should have a voice in the selection of the Honorary Magistrate is one of principle and it need not be pursued further just at this stage because just now the question how far the system of Honorary Magistrates will be affected by the proposed separation of the judiciary from the executive is also being considered by the committee already appointed.

“ The same remarks I have to make in respect of the appointment of Bench Magistrates.

“ Well, Sir, on the question of the pay of Public Prosecutors, it was stated that the pay was inadequate and should be increased. I want to point out to members of this Honourable House that Public Prosecutors are not whole-time officers of Government. They are lawyers engaged by Government for doing Government business; they are allowed to have their own practice; therefore, what they receive from Government is by way of retainer and not

[24th August 1946] [Hon. Sri K. Bhashyam]

regular pay. Whenever work is done for the Government, they get separately paid for it.

“ One other point I would like to touch on this occasion is about the rapid disposal of cases. There is a rule which requires the Judges not to allow any case to stand over for more than a year. There have been complaints in the past that the disposal of a case has been too rapid on the one side, and on the other side, that there has been undue delay. I do not know how to tackle this matter; but I may say this: that so far as the rule requiring that no case should really be allowed to stand over for more than a year, it has certainly worked some injustice in some of the cases. For we know, in our country, it is not as if the ordinary litigant is a man who generally throughout the year is overflowing with money; he is a man who ordinarily gets only seasonal income, at the time of the harvest; it may be difficult really for most of the litigants to get funds exactly at the time of the disposal of the cases. Some latitude may be shown to this aspect and I hope the Judges will look into this matter and do what may be necessary. So far as the one year rule for the disposal of cases is concerned, I think that may be slightly modified. As I said, there have been complaints on either side. If the year is fixed from the date of the settlement of the issues in the case, there will be greater satisfaction, I think, to the litigants and the members of the public. Because, the time taken from the institution of the suit up to the time the case is posted for the first hearing, is all the time taken for service of notice on the parties, and people generally take good care to get the summonses served as late as possible. Therefore, if this matter is taken up by the Bar Associations and by the Federation of Madras Bar Associations, it will be a very good thing. For, the Government can only state their views to the High Court and perhaps a representation from the Bar Associations and from the Federation of Bar Associations may be more appropriate.

“ With regard to the question of adjournment of cases for enabling Legislators to come here on public work, I thoroughly sympathize with their point of view. What I do want to point out is this: it is not a case really where the Government can say whether this is or is not a ground to dictate that there should be an adjournment; but I am sure with a little adjustment and accommodation between the Judge and the lawyer, this difficulty can be easily got over. Of course there are some cases, I know, where the litigant public, the parties to the suit, are adversely affected for having engaged a lawyer who has to be absent from the place on account of his being a Legislator; in that case, there may be some difficulty. But I am sure the Judges and Magistrates will agree that the Legislature members have also to be accommodated for the period of their absence at Madras in connexion with the sittings of the Assembly.”

B. POCKER SAHIB BAHADUR :—“ Will the Hon. Minister see that instructions are issued that cases should be adjourned in case the parties are not opposed to it? ”

[24th August 1946]

THE HON. SRI K. BHASHYAM:—“ If we are really in earnest about the separation of the judiciary from the executive, I am afraid I cannot do anything of the kind. I should rather think that the ventilation of the grievance in this House and the speeches that have been made here sympathizing with the grievance must have some psychological effect upon the Judges which will, I am sure, make them more inclined to give adjournments for the purpose of enabling members to attend the Assembly sittings.

“ As regards the suggestion about the too rapid disposal of cases and the disposal mania, it has certainly led to some difficulty between the Bench and the Bar; but I say again it is all a matter for easy adjustment and it is not a matter in which we can make a rule saying ‘you should not lose your temper on the Bench’, or some such thing; it is hardly a matter on which a rule could be made; it is a matter for the lawyers and the judicial officers to tackle between themselves. If there is anything serious about it, I think the Bar Association is the body to which representation can be made and relief sought.

“ Next, in respect of the facilities for litigants and their witnesses in the magistrates’ courts and other courts, I want to say this: This has been a matter of complaint in all the Lawyers’ conferences up to now and I think I myself moved more than one resolution on the subject. My friend Mr. Rajah Ayyar, the present Advocate-General, has also written a letter to me inviting my attention to my own resolution for the purpose of being acted upon, and I am taking up this matter with the Minister concerned. If it is possible to do anything between the time from now and the next Budget session, I shall try to do; if not, I am afraid we must possess our soul in patience for a few more months until I am in a position to take up the matter at the next Budget and see that it is achieved.

“ Some members of the House complained that the Court Fees Act works great hardship on the poor clients. This complaint has been there for a long time, ever since the days when amendments were made to the Act after the last war, increasing the amounts payable as fees for proceedings in courts. The lawyers have been agitating about it, the litigant public has been complaining about it; but successive Governments on account of financial pressure or for other reasons, have not been paying sufficient attention to it, except to refer the matter to a special officer, the late Mr. R. Satya-murthi, Deputy Registrar of the High Court, for going into it and making a report. It is a big report covering about a hundred pages; and as stated by the Hon. Minister for Revenue, it is a matter that has to be investigated; already there is a section in the Public Department working on this subject and giving some details for the Government to go upon.

“ One important point raised by my hon. friend is the court language. I sympathize with him thoroughly. I remember about sixty years back the judgments of the District Munsifs’

[24th August 1946] [Hon. Sri K. Bhashyam]

Courts used to be written only in Tamil and there was also an English translation afterwards. That was the case in the case of the Sub-Courts also. The language in those days was the regional language. I use the words for convenience of expression. The regional language was the language of the Court and it was adopted not only for arguments but also for writing out judgments in. But later on, English became the statutory language and lawyers’ arguments also were made in that language, so much so that the poor clients did not know what was going on, whether the case was properly placed by the lawyer to the Judge or Magistrate. I therefore thoroughly sympathize with the hon. Member, but what is the remedy, I ask? The remedy is naturally not to speak in any other language, not to pass our statutes in any other language. Shall we do it? (Mr. Abdul Hameed Khan: ‘Stautes in English.’) Then you will perpetuate the very mischief which the hon. Member complains against.

“ Then, Sir, another suggestion that has been made was about capital punishment. Of course, this was not a matter which has been before the Cabinet at all. I only looked into the files relating to this and I have also gone through a number of books to see how the subject is treated in other countries. The matter stops at that stage, and if anything has to be done it has to be worked out from the beginning to see what is being done in other countries and whether capital punishment has deterred people from committing murders and so on. All these things have to be considered before any steps can be taken. There was an influential public meeting held the other day in Madras where conflicting opinions were expressed in the matter. It may be of interest to Members of this House if I point out that already—this is the information found in the papers—that in England the Government have abolished capital punishment for five years as an experimental measure. If you follow the British precedent—as you are following it in other matters—possibly some such measure may be adopted here also and that too can be done only after very careful consideration, and also by taking the opinion of this and other Legislatures.

“ Well, Sir, so far as the Harijans are concerned, Mr. Nagappa made a very eloquent appeal for their being included in the judicial services. Of course, Sir, I agree with him: I have great sympathy for the Harijans; and it is because of that that we have made a special provision in the Budget for the uplift of Harijans. I must point out, however, that in regard to what he says about the doing away with the three years’ qualification, in doing justice, and even more than justice, to a particular community, we cannot omit to consider the case of a very large body of the public whose interests also come before Judges for decision. It is usual in our anxiety, in our not altogether unselfish desire for securing rights, and concessions for one community, to forget how the general public will be affected by pressing for the appointment of less qualified or not properly qualified persons to certain posts. This must be made clear, that after all any appointment is not for any particular community but it is for the general public. For the

4-45
p.m.

[Hon. Sri K. Bhashyam] [24th August 1946]

good of the general public, if a qualified person cannot be found from among a particular community, I feel justified in asking that community to forgive us if we take a member of any other community for a particular post that has fallen vacant. Therefore, I request Mr. Nagappa to see that more Harijans qualify themselves as lawyers, so that they can compete with other lawyers for posts in the Judicial department as District Munsifs and other judicial officers. For myself, I should think that since the Harijan community is in a hurry to uplift itself all of a sudden and come into line with other communities, surely, instead of waiting for three years to get these judicial appointments, this period can well be utilized by them in getting into other services. Whether they can afford to wait for this period of three years to get into the Judicial department, is a matter for very serious consideration by the Government itself.

"With regard to the point raised for exempting the Harijans from payment of enrolment fees, it is a good suggestion which Government may well look into and see if it can be accepted if and when the question arises.

"As regards the other jobs in the Judicial Department especially, process servers, amins, etc., in the panchayat courts and the bench courts, I think some steps may be taken for giving greater representation to the Harijans. We shall certainly do so.

"There has been some complaint or at least some hon. Members made the observation that the pay of the staff in these courts should be increased. As has been stated, the Government have already taken up the matter of reviewing the position as regards the pay of all non-gazetted officers and they are giving very careful consideration to the representations that have been made and their decision will be announced very soon, early enough.

"Then, suggestions were made by my hon. Friend Mr. Brahmanandam about the abolition of the Criminal Tribes Act. He also anticipated, in a way, the objection of mine by saying that it is an Imperial Act and cannot therefore be touched by us. In one sense, it is true. We cannot do anything with a subject included in the Concurrent List; two Parliamentary bodies cannot take action on a concurrent subject. It is likely that the Central Government may soon take up the question of abolishing or repealing this Act. In regard to the suggestion for taking away the names of all criminal tribes in the list by executive action, and taking action under section 3 relating to Classification Rules, it may have to be looked into carefully. As a matter of statistics, you find about 74,000 persons coming under the Criminal Tribes Act and action has to be taken in respect of all and each one of them. Therefore, it is not a matter which can be accomplished in a day or two because the case of each person should be looked into to see whether restrictions placed on them are for the safety of the public or not. Therefore, it will take time to go through the whole question.

[24th August 1946] [Hon. Sri K. Bhashyam]

"Coming to the suggestion made in regard to the Hindu Women's Property Act, I should say, this is a matter which can be put through only after the more urgent business on hand is disposed of. It cannot be done in a hurry but I assure hon. Members that it will be taken up as soon as other items of urgent business are finished.

"An earnest and urgent appeal was made by an hon. Member for establishing a Sub-Court at Narasaraopet. No assurance on the floor of the House can be given now; but I may assure him this much, that this request will certainly be considered in consultation with the High Court and after taking the statistics and the recommendation of the High Court into consideration. If Government consider it necessary, a court will be established.

"About panchayat courts also, the question will be considered.

"My hon. Friend Mr. Pattabiraman from Salem raised the question of withdrawing cases against Trade Union members and Freedom Movement members. It is in the common knowledge of this House that a number of persons connected with political cases have been set at liberty but there are also some other cases pending where the question has to be examined to decide in their case whether the offences committed are purely of a political character or not. If further representation is made in regard to any of them, we will look into them and pass necessary orders. If it is said that the Government must interfere and withdraw all the cases, I should consider it a difficult matter because it will be interfering with the administration of justice by the Magistrates. Therefore, I would like the hon. Member to make further representations, giving further details, as to what exactly he wants to be done in the matter.

"One point raised about the constitution of panchayat courts was, that the Collectors, Deputy Collectors and Judges should not have a voice in the selection of the personnel to these courts. Whether it is correct, or good or not, is a matter which will also be considered by the Committee. I do not therefore propose to say more about it now.

"One of the points mentioned by my hon. Friend, Mr. Majid, was in regard to the ex-Servicemen being given preference over persons already selected. Well, Sir, I know in our anxiety or eagerness to reward persons who have gone to the war, we should not do injustice to others, nor altogether ignore the interests of the people concerned. Consistent with that, something must be done in regard to ex-Servicemen also because after all that is the policy which has been adopted even before we came in and it has been acted upon evidently in pursuance of that policy. Whether we can interfere in this matter and if so, how far we can interfere in it, are matters which are to be considered before I can make any specific or definite answer to the point raised.

"Well, Sir, my hon. Friend Mr. Hussain complained of the treatment accorded to the members of the Bar by the Bench.

[Hon. Sri K. Bhashyam] [24th August 1946]

He instanced a case of the death of his client's wife and the Judge making a rather callous remark about that. I would venture in this connexion to refer to an incident which took place in the Madras High Court. The late Eardley Norton was appearing in a very heavy civil case and the matter was posted before two Judges constituted as a Special Bench. On that day, it happened the client died. Mr. Norton came up to the Court and said, 'My Lords, the case cannot go on to-day because my client is dead.' One of the Judges observed, 'It is all inconvenient; I came prepared for the case.' Mr. Norton said, 'My Lords, my client did not consult me and he died.' Then the matter passed off as a joke. The Judge in the case mentioned perhaps intended it as a joke, rather a grim one. It certainly shows a certain amount of callousness and does not look proper in judicial proceedings. I hope such cases will not recur. Of course, public references to these incidents will be a very great corrective.

"As regards rapid disposal of cases, Mr. Hussain pointed out that if any preliminary objection regarding jurisdiction was raised by any lawyer, the judges in their anxiety to dispose of cases in a hurry, pay great consideration to the objection raised. These are matters, Sir, where I feel myself incompetent to answer. In these matters, I think, lawyers are clever people and they should be able to manage the judges properly. They are persons who have trained themselves to do so and their business is to get round the judges both for the benefit of the parties and for the purpose of getting through the case. (Interruption.) As regards the rate of disposal, I have already suggested a *via media*.

"Then, as regards the complaint that clerks of the Revenue Department are being taken up as Revenue Divisional Officers and given first-class powers, I know where the fault lies. In these days where there is a rapid development going on in various departments and Deputy Collectors are found necessary for each department—like the I.C.S., Deputy Collectors are people who can be put in any department—there is naturally a rapid depletion of the senior Deputy Collectors and therefore junior men in the office are being promoted. Recently, I had a case brought to my notice of a person who had passed only the S.S.L.C. Examination having been appointed as a First-class Magistrate. Well, Sir, I do not know what to do; and this certainly is an argument, if I may say so, for the separation of the executive from the judiciary. I am sure that when the whole scheme which is now considered by a Committee comes up before the Government and when it is really put into force, all these difficulties may disappear.

"I think, Sir, I have met all the points referred to by my hon. Friends. I thank them for all the various constructive suggestions made by them and for pointing out the various irregularities occurring in the administration of justice and I thank

24th August 1946] [Hon. Sri K. Bhashyam]

them for all these. In view of this explanation, I request all the hon. Members who have moved cut motions to withdraw them."

* SRI B. S. MALLIKARJUNA RAO:—"On a point of information, Sir. The Hon. Minister while referring to Public Prosecutors has not understood the reference I have made which is in reference to Public Inspectors who are now Prosecutors recruited from the legal profession. They are whole-time members; they are asked to attend to this duty and not permitted to take up to their legal profession. They are not part-time officers and it is in reference to these people I said their scales should be raised."

* THE HON. SRI K. BHASHYAM:—"I am sorry, I did not catch the hon. Member correctly. With regard to them, Sir, their case also will be looked into."

THE HON. SRI T. PRAKASAM:—"Sir, the Hon. the Law Minister has argued, and has done his best on every point, I shall take it, without leaving anything. I wanted to say a few words with regard to this Demand. In this Demand, the total amount demanded is Rs. 1,11,32,800. Under the very first item, High Court Judges, Registrars, Translation and Printing Department, Sheriff and Madras Law Reports, etc., put together the total comes to Rs. 16,55,000; Law Officers, Advocate-General, Solicitors and Crown Prosecutors, Government Pleaders, etc., Rs. 3,17,000; Administrator-General, Rs. 52,500; Official Assignee, Rs. 84,700; Presidency Magistrates, Rs. 1,85,600; Civil and Sessions Courts, City and Mufassal, Rs. 83,90,800; Court of Small Causes, Rs. 1,13,000; Criminal Courts, Stationary Sub-Magistrates' Courts, Bench Magistrates' Courts, etc., Rs. 25,11,800; Charges in England, Rs. 1,28,000; Separation of the Judiciary and Executive, Rs. 2 lakhs provisionally. The total number of departmental officers is 288 and the rest of the establishment consists of 11,872 officers. These details constitute the total Demand. This accounts for the Demand made on behalf of the Government. Criticism was made in regard to the High Court Judges, etc. The Hon. the Leader of the Opposition raised the point about the adequacy of the number of Judges of the High Court. He said that the number should not be considered as too many but that it should be taken as a sufficient number required for the High Court at present. On this my hon. Friend, Mr. Fernandez, joined issue by stating that the strength of the High Court is too much; there is not enough work for 16 Judges—am I right?—and that the number should be reduced to 12. We have been considering this question for some time—it has been a somewhat difficult and delicate question as well. One would hesitate to say that the number of High Court Judges, namely 16, is too much, without getting at the facts and figures as they stand at present. To make any comments on the basis of insufficient data and to say, cut off so many Judges, is also a delicate matter. Sir, in view of the comments and criticisms that have been appearing occasionally, if not very frequently, on this matter, both in the Press and outside, I should have

[Hon. Sri T. Prakasam] [24th August 1946]

expected the High Court itself to take some steps to clear the doubts. The question may, of course, be asked as to how can that be done. The hon. Judges themselves would have discussed this matter in their meetings and appointed a committee of their own, if necessary, to collect all the facts and figures regarding the number of institutions, and the number of disposals under the various heads. It would have thus become easier for the Government and also for the public to understand whether there is really work for 16 Judges at present. Anyone who had known anything about the High Court and the file of the High Court, the number of cases disposed of on the Original side or on the appellate side, would be able to say, without taking much time, whether this number is too much or is equal to the work at present. I have been thinking in my own mind on this question whether it would not be good, perhaps as a member of the present Government, to have a Commission or a Committee appointed to enquire into the state of affairs with regard to the High Court, institutions and disposals—for this purpose it need not necessarily be a non-official Committee, excluding all the Judges of the High Court. If some of the Judges may be on the Committee, the matter can be disposed of very much quicker than otherwise. I am only hoping that it may become possible for us to get at the accurate figures without losing much time and then move in the direction of reducing the number of Judges or retaining the present number or increasing it, if necessary. Sir, I had been in that Court for a long time, but it is really long since I left it, but my hon. Friend, the Law Minister, has been in it right through and he, judging from his own point of view, estimated the correct number at 14. I do not say that I differ from him; I do not say that I agree with him either, because it is a very simple matter that can be disposed of by ascertaining how many files are there now pending on all sides of the High Court and it should not take any length of time for it. Therefore, I say that the safest course for us, without giving room for any offence to anybody, is to do our best to see that a Committee is appointed, on which hon. Judges of the High Court also will be members, because it is better if it is disposed of like that.

“ Sir, we are working from the top in regard to this matter; we are trying to find out what should be the strength of the High Court Judges, what should be the strength of the District Judges, and what should be the strength of the Sub-Judges. Time and again recommendations will be coming in for increasing the number of sub-Courts and the number of district munsif courts saying that the files have become very heavy and that the disposals could not be managed easily without the help of additional judges. That also has been going on. Now, having undertaken the task of managing this Government, it has become part of our essential duty to see that while we have been increasing our expenditure on one side from out of the revenue that has been available to us, we should also see to what extent we can reduce the expenditure that is being incurred by us, not merely on account of the High Court Judges but, on all others coming along with it,

24th August 1946] [Hon. Sri T. Prakasam]

making a total of Rs. 16,55,000. Under the head Advocate-General, Solicitors, Public and Crown Prosecutors, the amount put in is Rs. 3,17,000 and in regard to the Administrator-General Rs. 52,000—Mr. Fernandez suggested that this office might be dispensed with—am I right (Mr. W. J. Fernandez: ‘ I did not say it should be dispensed with; what I really said was, that it should be made self-supporting.’) He is a very constructive man, having served there for over 20 years. In the course of his comments he said that this Administrator-General and his office are intended only for rich men and not for ordinary people and so, in that way I thought, although he did not suggest its abolition, he was hinting at that. We shall go into that question as well and see to what extent this Administrator-General has been administering the estates of persons, which class of persons they are, whether he really administers the estates of those persons and whether the office of the Administrator-General will be required at all. These are all institutions that have been established long ago under the British Government and they have been going on until now. The time has now come, I think, to consider whether the Administrator-General’s office is really an office that is intended to serve the bulk of the people in the Province or that it is serving only a few vested interests, and if that be so, the Government will have to consider whether that office should continue only for the sake of a few people. I have taken the information from the comments of my hon. Friend Mr. Fernandez. Some of us have been contending that some other institutions attached to this Government should also be closely examined and should be done away with if really they are not institutions intended for the sake of the general public but for the sake of a few individuals or vested interests. We feel that such institutions should not continue at the cost of the general public.

“ Much has been said about the Stationary Sub-Magistrates, Sub-Magistrates and other magistrates that will come into existence after the separation of the judicial from the executive functions. Very much has been said about what would be coming after this reform has been introduced and suggestions have been made as to the various adjustments that would have to be made consequent upon the separation of these powers. All these things have been noted and everything will be considered. As was remarked by my hon. Friend Mr. Rafiuddin, this is too premature a stage for us to build up arguments upon a thing that is going to come into existence. Much good information has been given and many good suggestions have been made and all these have been noted. As I told you the fact is that they are now examining from the top and we are trying to go down to see to what extent we can eliminate the institutions that are not required and to what extent we might retain those necessary. I know that while doing this some hon. Friends are not in agreement with us, or at any rate they are not yet still convinced. But I tell them that so far as the construction of the new constitution for this Province at any rate is concerned, even when it is half way through, they will be in a position to know to what extent litigation in courts, from the munsif’s courts to the High Court, will be affected. If

5-15
p.m.

[Hon. Sri T. Prakasam] [24th August 1946]

the construction from the bottom is fully completed, it will mean a blessing to the unfortunate people who have been spending all their money in useless litigation. In my days, I was also a sinner in that respect and I did not know to what extent I was really giving trouble to the men who came to seek my help; it was cruel and merciless at times; but it was all in those days. Such things should not be possible now and people should not be allowed to go to Marwaris to raise money for their cases and finally get ruined even if they win their case. I could not in this connexion help thinking of the Panchayat Act. It has become an object of ridicule because when everything deteriorated that also deteriorated. People at the top deteriorated and people at the bottom also went down. There has been a talk of rooting out corruption. Can corruption be removed by prosecuting millions or by arresting a number of people? It can be removed only by reforming from the bottom and by making it impossible for the unfortunate men to practise corruption. In the good old days, there were honest men in the villages who could be trusted to act rightly in any case of any magnitude. That was the position when they were functioning well. But the system was altered and the power was taken away from the panchayats and given to Collectors and Tahsildars in the beginning of the establishment of the British rule in India. When these people took up the responsibility, some complicated cases came up and they could not understand the head or tail. It was then that Regulation of 1801 was brought on the Statute Book and it laid down that in complicated cases when the Collector was not able to understand a case and was not therefore able to dispose of it, he might refer the case to the old panchayat with instructions that within a certain period the case should be disposed of and be submitted to him for final ratification. The credit and honesty of the village panchayat were such. But with all that the panchayat was thrown aside when the Revenue Department with the Collector at its head stepped in. That is how the country had gone to ruins and the people had been much ruined by litigation. We consider it a daring attempt on our part but we think we shall succeed with the co-operation of my hon. Friends. Whatever may have been their views—I do not wish to flatter them—they are all men who are able to know things at a glance and who can give thought and consideration to anything that is placed before them and so I hope that their final decision will not be one at variance with ours. We have set apart three crores for village development for food and cloth business and another crore for Harijan uplift. We are trying to establish this without any inconvenience to anyone. There has been much cry about cloth; 'No cloth here; no yarn is available; there has been no import of cloth; five yards of cloth is the *per capita* allotment.' Therefore it is that we are constructing the whole of this village organisation. I did expect many difficulties. I never believed that when things at the top had deteriorated so much, the poor and neglected people would be ready to change themselves and adapt themselves to circumstances. It was refreshing to find that their commonsense remained untainted and they have not been tainted even to a hundredth part to which we had been at the top. In

24th August 1946] [Hon. Sri T. Prakasam]

spite of ignorance and human weakness here and there, the general picture is rosy and hopeful. It is not the desire of anybody that any one party or group or community should monopolize these things. All will be in it; all will do their best and we shall progress. We are trying to build up from the bottom; the co-operation of all is necessary and I appeal for it. I hope I have covered all the points and I believe the hon. Member will withdraw his cut motion."

* MR. SPEAKER:—"Before I put the cut motion to the vote of the House, I wish to know whether we can sit till 6-30 p.m. and finish the Jail Demand also. After all it is a small Demand."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"By the time we discuss, it will develop."

* MR. SPEAKER:—"I shall request hon. Members to take only five minutes for their speeches. There are many more Demands in front of us. We are going to sit again only on the 2nd September and thereafter the number of days allotted to us are very few. If we proceed at a greater speed taking less time each, I think it will be possible for hon. Members to discuss the various Demands."

KUMARARAJA SIR M. A. MUTHIAH CHETTIYAR OF CHETTINAD:—"Usually during Budget time, Mr. Speaker, time allowed to various Demands used to be four hours for certain Demands and two hours for the rest."

* MR. SPEAKER:—"Before comparison is made with things existing in the old days, I wish to say that the rules that we were following were made at the time of the Montague-Chelmsford Reforms. At that time there were only 150 members but now we are 215. At that time the revenues amounted to 10 crores only; whereas our revenues are 49 crores of rupees. Therefore, we cannot follow those rules now."

KUMARARAJA SIR M. A. MUTHIAH CHETTIYAR OF CHETTINAD:—"Sir, when the Speaker raises this question, we Members also wish to raise this question. I would only say if every member is allowed to speak on every demand I don't think there will time to cover all demands." 5-30 p.m.

* MR. SPEAKER:—"In spite of the fact that I am affording opportunities to several members on every demand there is already grumbling that I am not giving sufficient opportunity to speak to members."

KUMARARAJA SIR M. A. MUTHIAH CHETTIYAR OF CHETTINAD:—"I am not for curtailing the time of the House from four hours per demand. You have been indulgent to give us even five and a half hours sometimes; otherwise it would not be possible for members to get a full reply from the Treasury Benches. Probably this year it may not be possible for four hours to be given for all the demands. I fear even by allowing two hours for certain demands, certain heavy demands, for example, Industries, will not be reached at all, this year. Surely, members of the opposition and the Treasury would like to say something on all

[Kumararaja Sir M. A. Muthiah Chettiyar of Chettinad]
[24th August 1946]

demands. But in view of your generous remarks I find it very embarrassing to make further suggestions to curtail the hours of discussion. So I would suggest more days should be allotted for the budget. Already members are tired. So I would suggest a few more days be allotted after the fourth September."

* MR. SPEAKER:—"I wish to state that the House will sit till 8 o'clock on the 2nd, 3rd and 4th September."

KUMARARAJA SIR M. A. MUTHIAH CHETTIYAR OF CHETTINAD:—"Have you calculated how many demands there are still, and how it will be possible to cover all?"

* MR. SPEAKER:—"It is entirely in the hands of the members; if they decide not to speak on every demand, we can finish in one day all minor demands. A large number of members have given notice of cut motions on every demand and every member wants to speak on every demand. Of course, I know many of them represent a large number of people; so it is necessary they should be given a chance. But if the whips of both sides agree to give only a few names of members I would be very glad in that respect. I request both sides to help me in this matter."

"Does the Leader of the Opposition wish to press his cut motion? Or does he withdraw his motion?"

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Sir, I am sorry I am unable to withdraw the cut motion. Sir, the Hon. Minister for Law had not even some good words to say on the points raised by us. He did not treat us even with the usual sentences like 'We shall consider.' (Laughter.) Even on the simple point of affording recess to Muslims to say prayers on Fridays, he did not have any sympathetic words to say. In view of this and other points, I am sorry I am unable to withdraw my cut motion."

The cut motion was put to vote and lost.

The demand was put and carried and the grant was made.

DEMAND XIII—JAILS.

* MR. SPEAKER:—"We shall now take up the demand on Jails. Each member should not take more than five minutes to speak."

* THE HON. SRI K. BHASHYAM:—"Mr. Speaker, Sir, on the recommendation of His Excellency the Governor I move—

'that the Assembly do assent to a demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as together with the expenditure already incurred in April 1946, will amount to Rs. 62,62,800 in respect of the head "Jails." The expenditure incurred in April 1946 is believed to be Rs. 3,53,996.'"

* SRI PILLALAMARRI VENKATESWARLU:—"Mr. Speaker, Sir, I move the cut motion standing in my name—
'to reduce the allotment of Rs. 62,62,800 for Jails by Rs. 100.'"

24th August 1946] [Sri Pillalamarri Venkateswarlu]

"As there is not sufficient time to deal with all the points, I will confine myself only to the most important points. The present jail system is most antiquated and it should be overhauled and reformed. Particularly, when I was in jail, as most of you there would have observed, the cells are not fit even for pigs to get in, as there is neither light nor air; they are most rotten. The cells should be brought down and reconstructed in such a manner as to be healthy for prisoners. Jails have not reformed criminals; in fact they have made them worse criminals. The Jail Manual should be revised completely and redrafted so as to reform the prisoners."

"Another point is about education. There is a school run only in name. Nobody is instructed. The system should be reformed. The library attached to the jails exists only in name. Except in the library attached to the Rajahmundry jail, to which Mr. Lingaraju gave some books, the others have no books at all."

"Coming to facilities for prisoners—I am not talking of political prisoners alone but I am talking of ordinary prisoners—they are not allowed any facilities to read books or newspapers. I can give you a catalogue of such grievances. But I have no time to go into them at present. I request the Minister to reform this system radically. These jails are becoming a burden on our revenue, as so many people are kept there without doing any productive work. The only work now given them is sweeping. So some productive work which will be useful at least to the prisoners, so that they may be able to maintain themselves in jails, should be provided. Or else it is all useless; they are only a burden on society. For the productive work the prisoners do, they must be paid. After all, the prisoners are in jails as they are brought under criminal law. And invariably they are all poor people. Putting them in jail without looking after their families will not reform them. We can pay regular wages to their families out of the proceeds of the productive work prisoners do in jails and thus reform them completely. Our jail reform must be perfect and thorough. The previous Congress Ministry did not go into jail reform, as they had no time. This time a committee should be constituted to reform jail administration. Particularly those cells in jails should be demolished, because they are horrible to live in. People are convicted without letting them know the charge for which they are punished. Every prisoner, before conviction, should be given an opportunity to defend himself. People prefer to go to central jail in preference to district jail."

* MR. SPEAKER:—"Don't describe the condition in jails, because there are many people here who know much better about them than you." (Laughter.)

SRI PILLALAMARRI VENKATESWARLU:—"Now I come to the medical and sanitation aspect of jails. While under 'medical' Rs. 1,40,000 has been allotted last year, this year there is provision made for only Rs. 1,20,000. I do not know why. Medical and sanitary conditions must be taken care of. Our friends who have come out of jails will realize how their health has been impaired by jail life. I therefore suggest that

[Sri Pillalamarri Venkateswarlu] [24th August 1946]

proper facilities should be provided under medical and sanitary heads. As my time is up, Sir, with these words, I move my cut motion."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"Mr. Speaker, Sir, while we are on Jails and jail administration, I wish to say a few words. Jails are required in a country where society is not advanced. Perhaps, the Premier may correct me by saying, even countries which are supposed to be advanced have jails. But I hope in the country which the Premier is going to build from the bottom, that is, from the village, jails will be eliminated. Whatever it is, I believe, the number of prisoners has been increasing of late and there is need for more and more jails. This can be avoided if the Government is not only strong, but is built on justice and righteousness. If the Government of our Province is strong and just and built on righteousness, I am sure, to a very large extent, crimes could be eliminated. Not only that, our social order is to a very large extent responsible for a number of crimes and offences. That also has to be examined. If the social order is improved and if it is put on right lines, if the vast gulf that exists between the very rich and the very poor, the very poor being the largest—if that gulf is reduced, if there is levelling up and levelling down on a large scale, I am sure the number of offences will be considerably reduced.

"Then, Sir, the sort of education that is given in the Province should be considerably modified. There are hon. Members here, particularly the Hon. Minister for Law and some others, who say, that religious education is not necessary. On this demand I would like to emphasize the need for religious education to every community. If this is done, we will be mitigating crimes and offences which necessitate a large number of jails. In that education, we must be able to inculcate in people a proper value of things. That value of distinction between right and wrong has been lost sight of and we are therefore in the position which we are occupying to-day. Sir, conviction and sentence, and to jail life are, I believe, not intended merely as punishment. Punishment there is. The object is sentencing an offender, and a criminal, to jail life is to punish him. But the attitude must undergo a change. Punishment should not be merely for the sake of punishment but for reforming the criminal. What provision are we making, both in the jail as well as outside it after the prisoner is discharged for his education, so that he may be a better man and not be a criminal all his life? We will have to attend to that aspect of the question as soon as possible.

"Then, Sir, the Government, the magistracy and the people administering jails should have a humanitarian view of the whole thing. They should not treat offenders and convicts as worse than animals, which has been the attitude before. That attitude should undergo a thorough change so that these offenders could be reformed, and are made to become members of society after their discharge from the jails.

[24th August 1946] [Abdul Hameed Khan Sahib Bahadur]

"I believe it is necessary to have properly run schools in the jails where religious instruction should be given to persons belonging to various communities. Regarding improvement of the conditions and amenities in jails, the hon. Member who has spoken before me, has stated enough.

"So far as self-sufficiency is concerned, I would like to draw the attention of the Hon. Minister for Jails to the fact that it is high time that we made our jails as self-sufficient as possible. There is a big population in jails. If these people are trained to manufacture various things required in the Province, it will be remunerative, and then the demand could, to a very large extent, be reduced; and we will not be called upon to spend the huge sum of sixty-two lakhs of rupees and odd for maintaining the jails in this Province.

"Then there is the Probation of Offenders' Act, which is not given publicity. I hope, Sir, that the Hon. Minister for Law will see that this Act is properly worked, and see that the discharged prisoners are given sufficient help in order that they could be reformed after they are discharged. The Probation of Offenders' Act should be given effect to as widely and as much as possible.

"Sir, I understand from the Press that it is the idea of the Hon. Minister for Law, or the Government's—to cancel the classification of A, B and C so far as political prisoners are concerned. I saw only this morning that the classification A, B and C is to be removed. There is some family familiarity in these three classes as in the grouping of A, B and C in the Constituent Assembly scheme! (laughter). I hope, Sir, that that is not the idea with which this classification A, B and C is sought to be removed, but it should be consistent in removing these things in jails.

"I will conclude by suggesting that the jail warders are gentlemen, who require a lot of attention from the Government. They must be people who should be trained for the kind of work they have to do. Special training should be given for warders. Only people who are trained for that kind of work should be appointed. Special education must be given to them.

"I do not think, Sir, I can say anything more than to express the hope that the Government will examine this question of jails and see that the Jail Manual is thoroughly overhauled."

* MUHAMMAD RAFEEUDDIN AHMAD ANSARI SAHIB BAHADUR:—"Mr. Speaker, Sir, I think the Government and most of the hon. Members on the Treasury Benches are more competent to deal with this subject than members on this block, especially the Muslim Leaguers. In fact, Sir, we feel that we are like novices talking to experts. But the time has come when we, on the Muslim League Benches, have to take more than an academic interest in this matter. In fact, Sir, we feel that we must take personal interest now. (Laughter.) With the launching of direct action, which is bound to come in view of the political

[24th August 1946]

[Md. Rafeeuddin Ahmad Ansari Sahib Bahadur]

situation, we feel that this matter of jails assumes special significance to the Muslims.

“I am sure, Sir, that the Ministry will be very generous with regard to admission of Muslims in the Jails. (Laughter.) They have been very grudging, Sir, in giving admission to Muslims in Colleges and in sending up Muslims to foreign countries for studies. But in this respect I feel sure they will be more than generous and give us not only the proportion to which we are entitled according to our population, but also give us considerable weightage. (Laughter.) While we are still here in this House and not inside the jails, and while we have still the opportunity of making our voices heard by the Ministry, we say, Sir, that the jails require a lot of attention. At present they are not in any better position than were the jails in the mediaeval ages. In fact most of the jails in the Presidency are like the Bastille, the Inquisition Courts and Spanish Jails. It is high time that Government should pay attention to this matter, and I do hope, in conclusion, that the Government will not take advantage of the fact that we, on the Muslim League benches, are not present in this House but are in the jails. I do hope they will attend to what we now say at present and they will give us all the necessary supplies and facilities when we are inside the jails. Last, but not least, I would request the Government to give us facilities in jails to observe our religious practices, such as fast in the month of Ramzan, and various other things. When we are denied the opportunity of speaking through the mikes and denied the presence of the benevolent Speaker, who gives us more than our time, we hope that Government will not take advantage of these disabilities, but will pay due regard to our demands.”

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—“In further supporting my friend Mr. Rafeeuddin Ahmad Ansari, I would like to say that I do not entirely agree with him because I feel that there may be another start for Congressmen to go to jail after some time. We know they have been clamouring for reforms in jails and for providing more facilities. Now that they are running the Government, all feel that things will continue for ever and that there is nothing to be done.

“Some suggestions have been put forward by our friends particularly with regard to the classification of political prisoners. It is high time that we give up this classification. Of course, we had some reference that this matter is under the contemplation of the Government, and if so, I am sure they will do away with this classification. The whole purpose of the jail is not only to punish those who commit crimes, but to reform them. Therefore the training and other things in the jails should be such that when they come out of jails, they should be reformed citizens, and they should be given training in doing useful work to the society. That should be the main object in punishing people for crimes.

[24th August 1946] [Muhammad Raza Khan Sahib Bahadur]

“My friend Mr. Rafeeudin Ahmad Ansari has said, with regard to facilities for prisoners, particularly in the matter of festivals, that due provision should be made in the jail for Hindus and Muslims to observe their festivals.

“Another important thing, Sir, is the amending of the Probation of Offenders' Act. I feel that the Act should be so amended that the after-care of prisoners, who are released, should be undertaken more by the department of Government rather than by a non-official body. Non-official body is doing its work. Many things can be entrusted more and more to a department rather than to a non-official body. With these words, I support the cut motion.”

* SRI K. T. KOSALARAMA NADAR:—“நான் சர்க்கார் டிமாண்டை ஆதரித்துப்பேசுகின்றேன். கனம் சிறை மந்திரியவர்கள் வெகு நாளைக்குச் சிறையிலே இருந்தவர். ஆகையால் சென்ட்ரல் ஜெயில் அனுபவத்தைப் பற்றி நான் அவர்களுக்குச் சொல்லவெண்டிய அவசியமில்லையென்று நினைக்கின்றேன். ஆனாலும், சப்-ஜெயிலைப்பற்றி அவர்களுக்கு அதிகமாகத் தெரியாது. நான் 1942-ம் வருஷத்திலே 21 மாதங்கள் சப்-ஜெயிலில் இருந்தேன். ஆகையால் இந்த சப்-ஜெயில்களில் செய்ய வேண்டிய சீர்திருத்தங்களைப்பற்றி அந்த 21 மாதங்களில் ஒவ்வொரு நிமிஷமும் யோசித்துக்கொண்டுவந்திருக்கின்றேன். அங்கு போலீஸ்காரர்களைக் கொண்டு காட்டு செய்யப்பட்டுவருகிறது. சப்-ஜெயில் சாவி காட்டு ஆபீஸர் என்னப்பட்ட ஒரு ஹெட் கான்ஸ்டேபிள் கைவசம் கொடுக்கப்பட்டிருக்கிறது. எந்தக் கைதியாயிருந்தாலும் போலீஸ்காரர்கள் நினைத்தால் எந்த நிமிஷத்திலும் சிறைக்கூடத்தைத் திறந்து அவனை வெளியேகொண்டு வந்து என்னவேண்டுமானாலும் செய்யத் தயாராயிருக்கிறார்கள். உண்மையிலேயே நான் சப்-ஜெயிலில் இருக்கும்போது என் முன்னால் சிறைக் கதவைத்திறந்து பல கைதிகளை வெளியே கொண்டுவர அடித்து ஹிம்ஸை செய்திருக்கிறார்கள். ஆகையால் அதற்குக் காரணம் அடிப்படையிலே என்ன இருக்கிறதென்பதை சிறை மந்திரி யவர்கள் உட்கண் கவனிக்க வேண்டும். சிறை வார்டர்களைக்கொண்டும் ஜெயிலர்களைக்கொண்டும் அந்த டிபார்ட்மென்டை நடத்தவேண்டும், போலீஸ்காரர்கள் இன் வெஸ்டிகேஷன் பண்ணி தண்டனைக்குக் கொண்டுவருவதற்கு சகல விதங்களிலும் பிரயத்தனம் செய்பவர்கள். கைதிகளைப் பாதுகாப்பவர்கள் அவர்கள் என்ற முறையிலே அவர்களிடமே கைதிகளை ஒப்படைத்து விடுவதினால் அந்தக் கைதிகளுடைய நிலைமை எவ்வளவு படுமோசமாகி விட்டதென்பதை கனம் மந்திரியவர்கள் வக்கீல் என்ற முறையிலேயே அறிவார்கள். ஆகையால் உண்மையிலேயே போலீஸ் காரர்கள் கைதிகளை காட்டு செய்யும் உத்தியோகத்தை மாற்றிவிடவேண்டும். இந்த சப்-ஜெயிலிலே மூத்திரம் பெய்வதற்கு கக்கூசுக்குப் போக வேண்டுமென்றால் ஒரு சிறு மண் கலசம் கொடுக்கப்படுகிறது. அந்தக் கலசத்திலே தான் மூத்திரமும் பெய்யவேண்டும் கொல்லையும் கழிய வேண்டும். மணிதர்கள் பக்கத்திலே அவைகளை வைத்துக்கொள்ளவேண்டும். ஒரு ரூயில் 3 பேர் இருக்கலாமென்று போர்டு தொங்கிக்கொண்டிருந்தது. ஆனால், நான் இருக்கும்போது சில ரூம்களிலே 10, 12 பேர்களை அடைத்தார்கள். ஏன்? சிறையில் இடம் காணாததினால்.

“நான் தலைவரவர்களுக்குக் கூறுகின்றேன். இரண்டு நிமிஷம் அதிகமாகக் கொடுக்கவேண்டுமென்று சொல்லுகின்றேன்.

“21 மாதங்கள் சப்-ஜெயிலிலே தான் இருந்தேன். அங்கே என்னென்ன கஷ்டங்களிருக்கின்றன, என்னென்ன அக்கிரமங்கள் நடக்கின்றனவென்பது இங்கு வெளியில் இருக்கிறவர்களுக்குத் தெரியாது. சிறைக்குள்ளே போகிறதற்கு தனி மனிதனுக்கு அதிகாரம் கிடையாது. அடவைசரி அரசாங்கத்திலே ஜெயில் அவர்களில் தாசர்க்காகிய சில விசிப்டர்

[Sri K. T. Kosalarama Nadar] [24th August 1946]

களுக்குதான் அதிகாரமுண்டு. ஆகையால் பொது ஜனங்களுக்கு சிறையில் நடக்கும் அக்கிரமங்களைச் சொல்லவேண்டும். ஆகையால் தலைவரவர்கள் இன்னும் இரண்டு நிமிஷமும் அதிகமாகக் கொடுக்கும்படியாகக் கேட்டுக்கொள்ளுகிறேன். கனம் பிரதம மந்திரியவர்களுக்கு மற்றொன்று சொல்லுகிறேன். சப்-ஜெயில் சூப்பிரின்டெண்டண்டாக ஸ்டேஷனரி சப்-மாஜிஸ்ட்ரேட்டு இருக்கிறார். அவருக்கு ஜெயில் ரூல் ஒன்றும் தெரியாது. உண்மையிலேயே அவர்கள் கோர்ட்டை நடத்துவார்களே யல்லாது ஜெயிலில் என்ன நடக்கிறதென்று பார்ப்பார்களா? சப்-ஜெயிலில் 2 வாரத்திற்கு ஒரு முறைதான் ஸ்நானம் செய்ய அனுமதிக்கப்படுகிறார்கள். எந்த மேலதிகாரியும் வருவதில்லை. சூப்பிரின்டெண்டண்டோதான் அந்த சிறைக்கு மேலதிகாரி. அவர் கோர்ட்டு நடத்துகிறதைப்பார்த்துக்கொண்டிருக்கிறார். கைதிகளைப் பார்ப்பதில்லை. கைதிகளைப் போய்ப் பார்த்தால் தூர்நாற்றம் அடிக்கிறத. ஒரு மனிதன் உள்ளே போய்ப் பார்த்தால் அப்படியே மயங்கி விழுந்து விடுவான். அப்படிப்பட்ட தூர்நாற்றம் அடிக்கிறது. அதற்குக் காரணம் ஸ்நானம் செய்வதற்கு வசதியில்லை. எந்த போலீஸ்காரன் நினைத்தாலும் எந்தப் பெரிய மனிதனையும் ஒரு எப்.ஐ.ஆர். போட்டுக்கொண்டு ஒரு சாக்ஷியை விசாரித்ததாக 162 ஸ்டேட்மெண்டு ரிக்கார்டு செய்துவிட்டு அவனை ரிமாண்டுக்கு அனுப்பிவைக்கலாம். கோர்ட்டுக்குப் போனால் போலீஸ்காரர்களுக்கு நோட்டீஸ் அனுப்பி கேட்டுதான் ஜாமீனில் விடுவார்கள். பொய் தாவா செய்தால் 15 நாள் ரிமாண்டில் வைக்கின்றார்கள். நிரபராதியாயிருந்தாலும் 15 நாள் அவசியம் ரிமாண்டில் இருக்கின்றன. அதுவரையில் ஒரு பத்திரிகை கிடையாது. ஒரு புத்தகம் கிடையாது. இதைக் கலெக்டருக்கு எழுதினேன். கவர்ன்மெண்டுக்கு எழுதினேன். ஒன்றும் காணோம். நாள் இருந்தேன் 21 மாதங்கள். என்மேல் பல கேசுகள் போட்டார்கள். கடைசியில் ஒரு கேசிலாவது தண்டனை கொடுக்கவில்லை. என்னை டெட்டுனுவாக (Detenu) பின்னால் அனுப்பிவைத்தார்கள். சப்-ஜெயிலிலே 24 மணி நேரமும் அடைத்துவைக்கிறார்கள். குளிப்பதற்கு வசதி கிடையாது. புத்தகம் படிக்க வசதி கிடையாது. இவைகளையெல்லாம் சப்-ஜெயிலிலே சீர்திருத்தவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.”

6 p.m.

* SRI A. S. SAHAJANANDA :—“கனம் தலைவரவர்களே. ஜெயிலிலே இருக்கும் கைதிகளுக்கு அவரவர்கள் ஜாதிக்குத்தகுந்தபடி தொழில் கொடுக்கப்படுவதாகச் சொல்லப்படுகிறது. இவ்விதம் செய்வது மிகவும் பிசகான காரியம். ஜாதிக்கு ஏற்ற தொழில் என்று இருக்கக்கூடாது. ஹரி ஜனங்கள் ஜெயிலுக்குப்போனால் அவர்களுக்கு மலம் எடுக்கும் தொழில் கொடுக்கப்படுகிறதாம். அதோடு, ஹரிஜனங்கள் ஜெயிலுக்குப் போனால், அவர்களுக்குக் கடுமையான தண்டனை கொடுக்கப்படுவதாக ஜெயிலிலிருந்து வந்தவர்கள் என்னிடம் முறையிட்டிருக்கிறார்கள். இவ்விதம் பாகுபாடு செய்யக்கூடாதென்று தெரிவித்துக்கொள்ளுகிறேன். அதோடு ஜெயிலிலே, தோட்டிகளை வைத்து மலம் எடுக்கும் படியாகச் செய்யவேண்டும். மற்றபடி ஜெயிலிலே ஜாதி வித்தியாசத்தைக் காட்டக்கூடாதென்று கேட்டுக்கொள்ளுகிறேன்.”

MUHAMMAD ABDUL SALAM SAHIB BAHADUR :—“Mr. Speaker, in further supporting the cut motion, I have to say only one thing. There is a chronic complaint that the Government do not let us on this side of the House know anything, and that we are left to know something only from the papers. Only this morning we read that a move is seriously contemplated in regard to classification in the jails. Regarding the classification of prisoners, I may say that it was for some time followed, but given up now. The Government seem to have some notion of political prisoners, but they do not seem to apply it to other prisoners simply because they happen to be members of other political parties. People who go to jail are accustomed to a certain standard of life outside. When the classification is removed and they are

[24th August 1946] [Muhammad Abdul Salam Sahib Bahadur]

not treated properly, they will be greatly handicapped. The Government should therefore decide this matter only after consulting the House. From personal experience, it has been found that there is no space for children. Many magistrates have told me particularly that they have received instructions from the Government that there was no space for the children. Something to reform these children should be done, and I hope this popular Government will do it.

“Again, Sir, the condition in the local sub-jails is very bad. The local members of the Assembly and the Council should form a sub-committee, and they may be appointed as advisers to submit reports regarding the sub-jails. It has been a horrible sight to see the prisoners in the sub-jails locked up even in day time. Prisoners may be allowed to move about in the compound both day and night, and they should not be locked up. I hope the suggestion will be taken from me that at least in summer they will not be locked up in future in the sub-jails.

“I am told, Sir, that nothing is being done to reform the prisoners after their release. The Discharged Prisoners' Aid Society is doing some work. More liberal grants should be given to this Society, and the Act should be applied to all the districts, so that their activity may be extended throughout the Province.”

* MUHAMMAD HUSSAIN SAHIB BAHADUR :—“Mr. Speaker, Sir, under this demand I wish to point out only one fact and that is that there is great corruption going on in jail contracts. I am told that the contractor has got an understanding with the jail superintendent who is paid a certain percentage of the contract amount. Therefore the quality and quantity of the vegetables, curd and other supplies are not at all tested. I am told very reliably that the quality of these vegetables is very low, and that they are heaped in a most insanitary condition which is injurious to health. The doctors also, it seems, have complained many a time that this must be properly attended to, and yet the authorities concerned are not paying proper attention. This is said to be partly responsible for the deterioration of the health of the inmates in the jail. I therefore request that the Hon. Minister for Jails will take particular note of this fact and see that corruption is rooted out and that good quality vegetables, curd and other things are supplied, so that they do not affect the health of the prisoners. With these words, I support the cut motion.”

* SRI P. KAKKAN :—“தலைவரவர்களே, முக்கியமாக அரசியல் கைதிகளுக்குக் கொள்வனம் ஒரே கிளாசாக ஆக்கவேண்டும். எ. பி. சி. கிளாஸ்கள் இருக்கக்கூடாது. அரசியல் கைதிகள் என்றால் இந்த நாட்டின் சுதந்திரச் சண்டையிலே ஜாதி மத வித்தியாசமின்றி இந்த நாட்டின் சுதந்திரத்திற்குப் போராடியவர்கள். இவர்களுக்கு ஜெயிலிலே களிப்படி போடுகிறார்கள். அதை அரிசிபடியாகச் செய்யவேண்டும். நான் சிறையில் 1½ வருடம் களிப்படி சாப்பிட்டவன். அதனால் இதைச் சொல்லுகிறேன். ஜெயில் வார்டர்களுக்குக் குள்ளே களவு நடக்கிறது. ஒவ்வொரு வார்டரும் கிரிமினல் கைதிகளின் உதவியைக்கொண்டு தன்னுடைய தொப்பியிலே அரிசி காய்கறிகளைக் கொண்டு போகிறார்கள். அங்கு கிரிமினல் கைதிகளுக்கு இனிமேல் களவு செய்யா திருக்க நல்ல முறையிலே நூல் தூற்கவும் படிக்கவும் ஏற்ற சௌகரியங்களும் செய்துகொடுக்கவேண்டும். ஹரி ஜனங்கள் கிரிமினல் கைதிகளாக

[Sri P. Kakkan] [24th August 1946]

போனால் அவர்கள்தான் மூத்திரம், மலம் எடுக்கிறார்கள். அலிபுரம் சிரையில் அதைப் பார்த்தவுடனே மலமெடுக்கப்பிறந்தவர்கள் ஹரிஜனங்கள் தானா என்று எனக்குத் தோன்றிற்று. கிரிமினல் குற்றம் செய்தவர் யாராயிருந்தாலும் அத்தனை பேர்களும் மூத்திரம் மலம் எடுக்கவேண்டுமே யொழிய ஹரிஜனங்கள் மட்டும் மூத்திரம், மலம் எடுக்க ஜெயில் அதிகாரிகளால் உத்தரவிடக்கூடாது.”

SRIMATHI V. LAKSHMI AMMAL:—“அக்கிராசனாதிபதியவர்களே, இந்த ஜெயில் மானியத்தைப்பற்றிப் பேசுகையில் ஜெயில் நிர்வாகத்தைச் சீர்திருத்தவேண்டுமென்று மந்திரியவர்களைக் கேட்டுக்கொள்ளவேண்டிய அவசியமேயில்லை. ஏனென்றால் டிரஷரி பென்சிலேயிருக்கிறவர்களெல்லோரும் ஜெயிலுக்குப் போய்வந்தவர்கள். இருந்தாலும், ஒன்றிரண்டு விஷயங்களை அவர்களுக்கு ஞாபகப்படுத்த விரும்புகிறேன்.

“சமீபத்தில் ஜெயில் மந்திரியவர்கள் என்னுடைய ஜில்லாவுக்கு வந்திருந்தார்கள். அங்கே அவர்கள் பாரஸ்டல் ஸ்கூலைப் பார்வையிட்டார். அதிலேயுள்ள குழந்தைகள் டிரில் பழகிக் கொடுத்திருப்பதை மிகவும் நல்ல மாதிரியாக டெமன்ஸ்டிரேட் பண்ணிக்காண்பித்தார்கள். மற்ற ஜெயில்களிலேயுள்ள பெரியவர்களாயிருப்பவர்களுக்கும் அதேமாதிரி ஒரு ஒழுங்கான முறை ஏற்படுவதற்கு டிரில் பழகிக்கொடுக்கவேண்டுமென்று கேட்டுக்கொள்கிறேன்.

“சப்-ஜெயில்களிலே மிகவும் மோசமாகவிருக்கிறதென்று எனக்கு முன்பேயே ஸ்ரீ கோசலராம் அவர்கள் சொன்னார்கள். அதைப்பற்றி உடனே கவனிக்கவேண்டியது மிகவும் அவசியம். அதோடு சப்-ஜெயிலிலே இருக்கிறவர்களை ஆடுமாடுகளை நடத்துகிற மாதிரி நடத்துகிறார்கள். போலீஸாராக விருந்தாலும், ஜெயில் டிபார்ட்மெண்டைச் சேர்ந்தவர்களாகவிருந்தாலும் சரி, மனிதர்களை மனிதர்கள் மாதிரி நடத்தவேண்டுமே யொழிய ஆடுமாடுகளைப்போல் நடத்துவது தகாது. கோர்டிலே அவர்களுக்குத் தீர்ப்பு சொல்லும்பவரை அவர்களை கவுரவம் உடையவர்களாகக் கருதவேண்டும். ஆகவே சப்-ஜெயிலிலேயிருக்கையில் அவர்களைக் கவுரவமாகவே நடத்தவேண்டும்.

“இரண்டாவதாக, சப்-ஜெயிலிலே சரியான முறையிலே சாப்பாடு போடுவதில்லை. அங்கே கண்காணிக்கிறவர்களுக்கு பாதி சாப்பாடு போய் விடுகிறது. அதுவும் தவிர, ஜெயிலிலேயிருக்கிறவர்களுக்கு எடுக்கெஷன் வேண்டுமென்று நாம் சொல்லுகிறோம். ஒவ்வொரு ஜெயிலிலும் தினமும் குறைந்தது இரண்டு மணி நேரமாவது அந்தந்த பாஷைகளிலே அவர்களுக்குக் கற்றுக்கொடுக்கப்படவேண்டும். தமிழர்களுக்குத் தமிழிலேயும், தெலுங்குக்குத் தெலுங்கிலேயும், மலையாளம் தெரிந்தவர்களுக்கு மலையாளத்திலும் சொல்லிக்கொடுக்கவேண்டும். இன்னும் ஜெயில் லேப ரெகிகளிலே நல்ல புத்தகங்களை வைக்கவேண்டும். இப்போது அங்கே ஒன்றிரண்டு நல்ல புத்தகங்கள்தானிருக்கின்றன. வேலூரில் ஸ்திரீ களுடைய சிறையிலே நான் இருந்த காலத்தில், அந்த ஜெயில் லேப ரெகிலே வருஷம் துரைசாமி அய்யங்கார் நாவல்கள் போன்ற புத்தகங்களைப் பேருக்கு வைத்திருக்கிறார்கள். இந்த மாதிரியான புத்தகங்களை வைத்தால் ஜெயிலிலேயிருக்கிறவர்களை ஒரு நாளும் சீர்திருத்தமுடியாது. நல்ல விஷயங்களைப் போதிக்கும்படியான புத்தகங்களைத் தான் வைக்கவேண்டும். அங்குள்ள எல்லோருக்கும் எழுதப்படிக்கக் கற்றுக்கொடுக்கவேண்டும்.

“இன்னொரு விஷயம். நான் மூன்று முறை வேலூரிலே ஸ்திரீ களுடைய ஜெயிலிலேயிருந்திருக்கிறேன். இந்த மூன்று முறையும் ஸ்திரீகளுக்கு மரணதண்டனை கொடுக்கப்பட்டதைப் பார்க்கநேர்ந்தது. இவ்விதம் ஸ்திரீகளுக்கு மரணதண்டனை கொடுத்ததானது எங்களுக்கு மிகவும் கஷ்டமான காலட்சியாக இருந்தது. இந்த மரண தண்டனை கொடுக்கப்படும் நாளிலே நாங்களெல்லோரும் மிகவும் பயந்து இருந்தோம். இதே மாதிரி ஆண் கைதிகள் விஷயத்திலும் இருக்குமென்று நினைக்கிறேன். இந்த மரண தண்டனையை போக்கவேண்டுமென்பது என்னுடைய அபிப்பிராயம். மரண தண்டனை கூடாதென்று அநேக பெரியவர்கள் எழுதியிருக்கிறார்கள். அதை அடியோடு எடுப்பதற்கு நம்முடைய ஜெயிலில்

[24th August 1946] [Srimathi V. Lakshmi Ammal]

மந்திரி அவர்கள் வேண்டிய முயற்சி செய்வார்களென்று நம்புகிறேன். குற்றவாளிகளில் அநேகம் பேர்கள் கேட்டபோது குற்றத்தில் சம்பந்தப்படவில்லை யென்று சொல்லுகிறார்கள். சிலர் அவர்கள் குற்றஞ் செய்ததாகக் கூறுகிறார்கள். இந்த நிலைமையிலே குற்றவாளிகளாகக் கருதப்பட்டவர்களுக்கு ஆயுள் பரியந்தம் தண்டனையும் கொடுக்கப்படுகிறது. ஆகவே இனிமேல் மரண தண்டனை விதிக்கப்பட்டிருக்கும் குற்றங்களுக்குத் தீவரந்திர சிபைக் கொடுக்கும்படியாகச் சீர்திருத்தம் செய்யவேண்டுமென்று கேட்டுக் கொள்ளுகிறேன்.”

* **THE HON. SRI K. BHASHYAM:**—“Mr. Speaker, Sir, I may at once say that, as a person who had been in the jails some days, I agree with most of the observations that have been made in the House by the members. I agree that the system of jail administration to-day is one intended not for the reformation of the convict, but more to make him a sort of labouring animal inside the jail. Therefore the whole policy of jail administration has to be revised. But it certainly takes time to revise a policy which has been in force for 150 years. Therefore if this is to be done, it has to be done by stages and after some consideration, and perhaps considerable expense. Considerable expense is also a factor that has to be taken into consideration. I want to say one or two words in respect of each one of the matters that have been raised:

“So far as educational schools are concerned, they are there in some of the central jails. I do not think such schools exist in sub-jails or other jails. I do believe that some classes are conducted and other attempts are made. I cannot vouchsafe as to how far the education is really useful, but certainly I promise that I will look into the matter.

“As regards libraries, they are also being improved; I will look into them. Rs. 500 has been sanctioned for each central jail and a deputy jailor is in charge of them.

“So far as the Jail Manual and the revision thereof are concerned, the suggestion that a committee may be appointed was made by some members. I feel that instead of a committee which always takes time, if the Members of the House and those outside will communicate their suggestions directly to me, it will expedite matters. I promise that I will look into them as early as possible and see what steps can be taken.

“So far as classification of political prisoners is concerned, the whole House is agreed that the distinction must go, and it will go. (Hear, hear.)

“So far as the privileges and the amenities that the prisoners are entitled to are concerned, I think there ought to be improvement, but certainly it means the revision or amendment of certain rules. I am looking into the amendments; now they are on my table.

“One member complained that the medical expense had really come down this year. It is not due to the fact that medical attention is less to-day or that medical equipment is being conducted in a more economical manner, but it is because the jail

[Hon. Sri K. Bhashyam]

[24th August 1946]

population has come down from 16,000 to 12,000. I do not know what the reason is. The members themselves may verify this fact that, when a popular Government is in power, the jail population is less. That is, however, what the Inspector-General of Prisons tells me.

"As regards facilities for Muslims for worship, I must point out that all facilities are given not only to Muslim prisoners, but also to Sikh prisoners. Muslim prisoners are receiving the following special treatment inside the jail. Their religious susceptibilities are being strictly respected. Separate room is being set apart for their prayers and water is left therein for washing. Prayer mats are also given. Arrangements for a Khazi to come during Fridays are made."

ABDUL HAMEED KHAN SAHIB BAHADUR:—"May I correct a small mistake? There is no need for a Khazi to go. Khazi performs only marriages. Perhaps it is Pesh Imam."

* THE HON. SRI K. BHASHYAM:—"I thank the hon. Member for the correction, and I apologise for my ignorance of the technical word. Anyhow, if hon. Members understand it properly, there is no difficulty."

"During the Moharram and Ramzan, special arrangements are made for their food and rice ration is given to all, even to those to whom the convicting courts do not give this privilege. The quality given is also reasonable. Even as regards Sikh prisoners, I am told that they are allowed to wear the iron ring which their religion enjoins them to do."

"Some reference was made in the course of the discussion to the Discharged Prisoners Aid Society. The Society has got some functions to perform, but it has to be reformed before it can be really useful to the prisoners. I think the new policy of the Government in respect of provincialization of the probationers will make the Society work harder and more usefully than before. Fresh life has to be put into it, some fresh blood introduced. I am asking everyone who comes to me to become a member of the Society."

"As regards sub-jails, the conditions are woeful. There is no doubt about that. I have got a report on it. I have been trying my best to visit all sub-jails, even those in out of the way places. In fact, I have travelled miles to reach some of these sub-jails to see the conditions there myself. The conditions in sub-jails are no doubt bad. There is overcrowding and there is no proper arrangement for bathing or for latrine. This is especially hard on women prisoners. In one or two places, the cells are open to public view and there is no privacy if a woman prisoner is kept in jail. These things are being looked into and the sub-jails are being visited by the Minister to see for himself what improvements are necessary and to take necessary action. Already some action has been taken in the matter; a special provision of Rs. 1 lakh has been made. I promise that I will look into this matter and carry out the necessary improvements, especially as regards women prisoners."

[24th August 1946]

[Hon. Sri K. Bhashyam]

"As regards capital punishment, I have already mentioned about it and I do not think it is necessary for me to say anything at present."

"With this explanation, I request the hon. Member not to press his cut motion."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"On a point of information, may I ask the Hon. Minister whether there will be any distinction among political prisoners? You are going to abolish A and B classes. Will there be special treatment for these classes?"

* THE HON. SRI K. BHASHYAM:—"These are special classes of prisoners to whom special privileges may be prescribed."

MUHAMMAD ABDUL SALAM SAHIB BAHADUR:—"Will there be a classification based on age or what?"

* THE HON. SRI K. BHASHYAM:—"These political prisoners who get there for the sake of their political opinions will be a separate class."

The motion was by leave withdrawn.

The demand was put and carried and the grant was made.

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"On a point of information, Sir, may I know from the Hon. Premier whether he will make arrangements to pay the daily allowance to the members for the days they are compelled to stay in Madras on account of the railway strike or whether he will make arrangements to pay the railway fare for the circuitous route which they may be compelled to take on account of the strike?"

THE HON. SRI T. PRAKASAM:—"Sir, both the Opposition Leader and hon. Members and we on this side are expected to be reasonable persons. What may be done and what can be done is a matter that will be settled between the Leader of the Opposition and ourselves sitting here for some time, to see in what way we can get over this."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"I wanted this information not only for the benefit of the members on this side, who come from the mufassal, but for the benefit of all members, who come from the mufassal."

THE HON. SRI T. PRAKASAM:—"I understand that much. What I said covers all."

"Sir, a requisition came into my hands from the press on behalf of press proprietors asking me what arrangements could be made by the Government to enable their paper parcels to reach their destination in different directions, whether any special lorry arrangement will be made for carrying newspaper parcels and also some of their own men who might be going in the lorry. This question cannot be straightaway answered or even settled. If special arrangements have to be made, we have to make special arrangements with the help of other departments. I would therefore say just now that this matter will be consi-

[Hon. Sri T. Prakasam]

[24th August 1946]

dered, treating the same as very urgent. Possibly I would be able to issue a press communique to-morrow after consulting the authorities concerned, who will have to come to our help.

"In this connection, I would like to say that this strike is very inopportune and very ill-advised just at a time when we have been in a great crisis with regard to food. I, representing the other members of Government, went out of my way, when at Trichinopoly, to get into this matter with a view to know something about it and see that a settlement is made. I expected that it might be possible. But I do not wish to apportion blame or make any one responsible for this, but things have gone. So far as the Members of the Government are concerned, it has become our duty to interfere and do all that is possible with a view to preventing a strike of this nature. Workers should know and their leaders also should know that the responsibility for a strike of this nature at this juncture would be upon them. Everything went on in a manner that was not expected at a particular stage, and having taken matters to that limit, even now at this last hour, I am making an appeal to all the workers and their leaders to consider well before they start on this strike.

6 30 p.m. "Who are the people, they must know. Whatever the points in dispute may be, there are recognized methods of settlement, such as conciliation and adjudication. All these have not been exhausted. I will even now suggest to them that we are not committed to any one view. We are not committed to any one party. But when we are charged with the duty of carrying on this Government and when the whole railway line is situated within our jurisdiction and when the whole trouble is coming on the people south of Madras, it becomes our duty, Sir, to see that every help is given to enable food to be carried from Madras. Everything will become very serious. Therefore it is the duty of the Government to see that food is taken from one place to another however much the through-passenger traffic may be disturbed. The food must reach the respective places. For that purpose, we are obliged to make special arrangements. If for any reasons, the trains fail and foodstuffs cannot be carried, then special arrangements should be made to carry food by other means to their destination. We are driven to that stage. Next to food, people generally look to newspapers in the country. We have therefore to make some special arrangements for the newspapers as well. We shall do our best in a day or two to enable them to carry their parcels to their destination."

* M. MUHAMMAD ISMAIL SAHIB BAHADUR:—"Mr. Speaker, Sir, speaking from my place. I may endorse heartily the appeal made by the Hon. the Premier to the workers. I also request the workers to realise the gravity of the position which will be created by the action they intend to take. Even without such a strike and such an action, our Province is faced with a serious food crisis and the Government and the people are doing everything in their power to meet that crisis and to get over it. At such a time as this, the workers and labourers also must come

24th August 1946]

[M. Muhammad Ismail Sahib Bahadur]

with their hand of assistance and co-operation in the matter, particularly in view of the assurance given by the Government that they will do all in their power to remedy their grievance, to give them relief and to improve their condition. Therefore, Sir, I join with the Hon. the Premier in his appeal to the workers and once again earnestly request them in the interests of the Province and in the interests of humanity, to desist from the action which they propose to take."

KUMARARAJA SIR MUTHIAH CHETTIYAR OF CHETTINAD:—"Mr. Speaker, Sir. We are very grateful to the hon. the Leader of the House for taking this opportunity to express his views on the South Indian Railway strike situation and the appeal he has made in regard to the food situation. Sir, I join with great pleasure, with the Hon. the Premier and the hon. the Leader of the Opposition and endorse their appeal to the workers. After the unequivocal statement of the Hon. the Premier to-day that he is not here to apportion the blame on any one and that in the name of the food situation, he expects the workers to stand by the country's cause, I do not think, I need add anything more, except to say that I entirely endorse what he has said. I shall only remind the workers that they will have the greater sympathy of the public in this matter if they do desist from their action. I may also remind them of the very graceful attitude which the All-India Railway Federation took when the all-India railway strike threatened us. Sir, to-day more than ever, when the country is in the hands of our leaders and when particularly to-day at Delhi, we are having a National Government—though it may be the wish of everyone here that it were more fully representative than it has been possible so far—and while every one is wishing that the day is not far off when it shall be possible to have a fully representative Government containing all the national elements of the country—at such a time as this, it is essential that this appeal from this House should go forth to the workers. Everyone to-day in this Assembly and outside is very sympathetic towards the cause not only, of the railway workers, but also the workers in other fields—might I even add those who are toiling day in and day out in the District Collectorate. From all the discussions that have taken place in this House, it is evident that everyone of us is in favour of giving relief not only to the workers, but also those who are affected by the high cost of living. That being so, I have no doubt that the workers' demands will receive the best consideration from all concerned. If they co-operate with the people in easing the food situation. I am also very glad that the Hon. the Premier has been thinking of alternative ways of transporting food in case of emergency. I shall not take any more of the time of the House except to join with the hon. the Leader of the House and also the Leader of the Opposition in wishing that the situation should ease and I feel sure that the workers will respond to the call of this House and go to their work."

* SRI PILLAIAMARRI VENKATESWARLU:—"Sir, it is a very painful task that I have to perform now. On behalf of the

[Sri Pillalamarri Venkateswarlu] [24th August 1946]

workers, particularly of the South Indian Railway workers, I cannot give any assurance. But one thing I can say and that is that the workers or their leaders are not interested in inconveniencing the public. It is all false propaganda to say that the workers will throw stones or bombs. We do not believe in all such methods. (Cries of 'Hear, hear.') I can assure you, Sir, neither the Communist Party nor the S.I.R. Workers' Union are interested in these things and we will prevent such things as far as possible.

"One thing I would request the Hon. the Premier to note is that the whole question, as far as I understand it, is one of victimization of workers. The workers are not asking for higher wages or for better housing conditions. Only they do not want to submit to victimization. What happened is that some of the workers applied for leave and they availed the leave and when they returned, they were told that they had been dismissed. The whole trouble is due to this victimization. I request the Hon. the Premier to use his good offices and bring about a settlement and avert the strike. I assure him that our co-workers and party leaders are prepared to co-operate with him in his attempts to avert this strike.

"With these few words, I repeat my appeal to the Hon. the Premier."

THE HON. SRI T. PRAKASAM:—"I knew all about this matter in greater detail also. My hon. Friend, Mr. Venkateswarlu has put the case very briefly. The same thing was put to me by his friends and leaders of the workers. At that stage I wanted to do something by way of intervention. But the things drifted away and I do not want to tell hon. Members now how they drifted away. I do not wish to say anything which might put the blame on this side or that. That is why I have been very careful about this matter. I only want at this stage to make that position clear to hon. Members. I thought that the dispute was within reach of a settlement at one time; but the whole thing drifted away."

THE HON. MR. SPEAKER:—"The House will now adjourn and meet again at 11 o'clock on the 2nd September."

24th August 1946]

APPENDIX I.

[Vide answer to starred question No. 112 A asked by M. Muhammad Ismail Sahib Bahadur at the meeting of the Legislative Assembly held on 24th August 1946, page 864, supra.]

Admissions to Engineering and Medical Colleges, 1946-47.

The Government have decided that for the academic year 1946-47 admissions should be made to the Engineering and Medical Colleges, observing also the following rule:—

Twenty per cent of the total number of seats should be filled by students selected on merit irrespective of the existing orders fixing linguistic and communal ratios. The existing orders should be applied to the remaining seats.

The Director of Public Instruction/Surgeon-General is requested to instruct the Principals of the Colleges accordingly.

THE MADRAS LEGISLATIVE ASSEMBLY.

Monday, the 2nd September 1946.

The House met in the Assembly Chamber, Fort St. George, at eleven of the clock, Mr. Speaker (THE HON. SRI J. SIVASHAN-MUKHAM PILLAI) in the Chair.

1.—QUESTIONS AND ANSWERS.

STARRED QUESTIONS.

Conduct of some Members of the Malabar Special Police at Gannavaram (Kistna district).

* 126 Q.—MAHBOOB ALI BAIG SAHIB BAHADUR (on behalf of Muhammad Abdul Salam Sahib Bahadur): Will the Hon. the Prime Minister be pleased to state—

(a) whether the Government have received any representations requesting them to pay compensation to the victims to the excesses of the Malabar Special Police at Gannavaram (Kistna district);

(b) if the answer is in the affirmative whether the Government will be pleased to expedite the matter and pay compensation to the victims;

(c) whether the Government have received any representations requesting them to appoint a committee of non-officials to enquire into the Gannavaram incident;

(d) if the answer is in the affirmative why the Government failed to appoint a non-official committee so far; and

(e) whether it is the policy of the Government to appoint non-official committees in all matters relating to the excesses of the Police?

THE HON. SRI T. PRAKASAM:—“(a) The answer is in the affirmative.

“(b) The Government are considering the question of awarding compensation to an individual who received a serious injury.

“(c) The answer is in the affirmative.

“(d) Enquiries were made by the District Magistrate, Kistna, and the Deputy Inspector-General of Police, Northern Range, on which action was taken and further enquiry by a committee was not considered necessary.

“(e) The answer is in the negative.”

SRI S. NAGAPPA:—“In view of the reply given to clause (a) of the question, may I ask the Hon. the Prime Minister, what are the actual excesses which have resulted in crippling anybody?”

THE HON. SRI T. PRAKASAM:—“I do not quite follow the hon. Member. He may make another effort.”

[2nd September 1946]

SRI S. NAGAPPA:—"In view of the reply given to clause (a) may I ask the Hon. the Prime Minister, what are the actual excesses and whether these excesses have disabled anybody or killed anybody?"

THE HON. SRI T. PRAKASAM:—"All the excesses have been generally described in the Press at that time; now many of those who committed them or who were alleged to have committed those excesses are being prosecuted. Therefore, this question of appointing a committee was dropped."

SRI. PILLALAMARRI VENKATESWARLU:—"Will the Hon. the Prime Minister be pleased to state whether the Government have received any report regarding excesses by the Malabar Police in Madura, Madras and Golden Rock?"

MR. SPEAKER:—"The question does not arise."

SRI A. KALESWARA RAO:—"May I know whether the Government have dismissed or suspended any of the members of the Malabar Police who committed excesses at Gannavaram and if so, how many?"

THE HON. SRI T. PRAKASAM:—"Disciplinary action was originally thought of against some of the people involved in the affair; but disciplinary action, I speak subject to correction, is not being enforced because a good number of men had been ordered to be prosecuted and the prosecution is pending."

SRI S. NAGAPPA:—"In my previous question what I wanted to know was whether actually anybody was permanently disabled."

THE HON. SRI T. PRAKASAM:—"The words 'permanently disabled' are rather very vague in expression. 'Permanently disabled' means unfit for any work. So far as I can gather some people lost some teeth or had some limb broken which might come under 'grievous hurt' under the Penal Code."

SRI A. KALESWARA RAO:—"May I know whether the Government have received any report from the District Congress Committee which is a non-official body and which made an enquiry into the matter?"

THE HON. SRI T. PRAKASAM:—"Yes. Some report was received from the Congress Committee, but that report is there; it cannot be acted upon so long as there is a regular case conducted by the Government which is going on."

SRI S. NAGAPPA:—"May I know, Sir, what is the speciality attached to Malabar Special Police. Why not recruit people for the Special Police from all over the Province?"

MR. SPEAKER:—"The question does not arise."

2nd September 1946]

Sentences on four Communists of Guntur.

* 127 Q.—MAHBOOB ALI BAIG SAHIB BAHADUR (on behalf of Muhammad Abdul Salam Sahib Bahadur): Will the Hon. the Minister for Law be pleased to state—

(a) whether the Government have received any memoranda or representations requesting the Government to commute sentence passed on four communists of Guntur (Kattiah, Narasimha Rao and others);

(b) whether it is a fact that these communists have been convicted by the District Judge of Guntur even though there is a unanimous verdict of not guilty by the assessors;

(c) whether it is the policy of the Government to withdraw all prosecutions in political cases and to commute all sentences passed in those cases; and

(d) what action the Government have taken or propose to take in the case of these four communists of Guntur?

THE HON. SRI K. BHASHYAM:—" (a) Yes.

" (b) Yes.

" (c) No. In special cases, if any special grounds exist.

" (d) The convicted persons may seek such remedies as the law provides for them."

Representations from Guntur Municipal Council regarding general elections.

* 128 Q.—MAHBOOB ALI BAIG SAHIB BAHADUR (on behalf of Muhammad Abdul Salam Sahib Bahadur): Will the Hon. the Minister for Local Administration be pleased to state whether the Government have received any representation from the Guntur Municipal Council requesting the Government to hold the general elections only after the re-distribution of wards has been done?

THE HON. MR. DANIEL THOMAS:—"Yes; a representation has been received from the Council. Government have decided to postpone the elections."

SRI S. NAGAPPA:—"May I ask the Hon. Minister whether representations have been received from any municipality other than Guntur?"

THE HON. MR. DANIEL THOMAS:—"Certain other municipalities have also made representations to the Government."

SRI S. NAGAPPA:—"May I know what the Government propose to do with the representations that have been received?"

THE HON. MR. DANIEL THOMAS:—"They are under consideration."

[2nd September 1946]

D. ABDUL RAWOOF SAHIB BAHADUR:—" May I know whether orders have been issued to the Commissioners concerned to complete the re-distribution of wards, early? "

THE HON. MR. DANIEL THOMAS:—" No, Sir."

SRI N. VENKATASUBBAYYA:—" In view of the fact that the present rolls are defective and contains a number of omissions, may I ask whether some more time will be granted to new applicants for inclusion of their names? "

THE HON. MR. DANIEL THOMAS:—" Elections have been postponed sufficiently long and all that could be done before the elections will be done."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I know, Sir, whether the elections will be held only after the complete consolidated lists are published? "

THE HON. MR. DANIEL THOMAS:—" I believe, Sir, the consolidated lists will be published in time for the forthcoming elections."

SRI S. NAGAPPA:—" May I ask the Hon. Minister, whether he has received any representations from the Kurnool Municipality saying that the distribution of the wards is not fair? "

THE HON. MR. DANIEL THOMAS:—" Kurnool also comes under this category."

Non-availability of groundnut oil-cake in Kurnool district.

* 129 Q.—SRI S. NAGAPPA: Will the Hon. the Minister for Agriculture be pleased to state—

(a) whether it is a fact that the groundnut oil-cake is not available for the agriculturists in Kurnool district; and

(b) if so, what arrangements the Government propose to make for the availability of the groundnut cake and when?

THE HON. SRI P. S. KUMARASWAMI RAJA:—" (a) & (b) No.

"The stocks of groundnut cake in each taluk on 1st August 1946 and the quantity allotted from July to October 1946 are given below:—

Taluk.	Stocks of groundnut cake on 1st August 1946.	Quantity allotted July to October 1946.
	TONS.	TONS.
Allagada	110	200

Markapur.	
Nandyal.	

SRI S. NAGAPPA:—" May I know whether the Government are aware that the quantities allotted are insufficient and have been telling upon the production of foodgrains? "

THE HON. SRI P. S. KUMARASWAMI RAJA:—" We are allotting equitably to all the districts the quantity available in the Presidency."

SRI M. G. NATESA CHETTIYAR:—" May I know whether oil-cakes manufactured by country *chekkus* are also included in the quantity specified by the Hon. Minister? "

THE HON. SRI P. S. KUMARASWAMI RAJA:—" No, Sir."

SRI V. C. PALANISWAMI GOUNDER:—" May I know from the Hon. Minister, Sir, the quantity allotted to the Coimbatore and other districts? "

THE HON. SRI P. S. KUMARASWAMI RAJA:—" Notice, Sir."

ABDUL HAMEED KHAN SAHIB BAHADUR:—" May I ask the Hon. Minister, what percentage of the demand has been met in the allotment of oil-cakes? "

THE HON. SRI P. S. KUMARASWAMI RAJA:—" I want notice, Sir."

SRI V. C. PALANISWAMI GOUNDER:—" Will the Hon. Minister take care that other districts also get a sufficient quantity as this is the proper time for distribution of manure cake? "

THE HON. SRI P. S. KUMARASWAMI RAJA:—" Yes, Sir, we know that. We are distributing equitably."

SRI N. S. VARADACHARI:—" May I know whether the Hon. Minister is aware that many of the oil expellers in Kurnool have stopped work? "

THE HON. SRI P. S. KUMARASWAMI RAJA:—" I want notice, Sir."

SRI N. S. VARADACHARI:—" May I know if the Hon. Minister is aware of the fact that many of the oil-expellers in Kurnool district have stopped work for a considerable time now and so the production of oil cake has received a set back? "

THE HON. SRI P. S. KUMARASWAMI RAJA:—" I am not aware of it. I will enquire."

[2nd September 1946]

SRI M. G. NATESA CHETTIYAR:—" May I know if oil cakes manufactured by country *chekkus* are exempted from commandeering for manure purposes?"

THE HON. SRI P. S. KUMARASWAMI RAJA:—" Yes, Sir."

SRI S. NAGAPPA:—" May I know whether the Hon. Minister is aware that oil cakes is used not only for agricultural purposes but also for cattle?"

THE HON. SRI P. S. KUMARASWAMI RAJA:—" That we are aware of, Sir."

SRI N. S. VARADACHARI:—" Will the Government make arrangements to issue export licences for oil forthwith from the Kurnool district so that the production of cake may go ahead rapidly?"

THE HON. SRI P. S. KUMARASWAMI RAJA:—" It will be considered, but the hon. Member may address the Food Minister."

SRI V. C. PALANISWAMI GOUNDER:—" Is the Hon. Minister aware that owing to the introduction of compulsory requisitioning of oil-cake, some of the expellers in Coimbatore district have stopped work?"

THE HON. SRI P. S. KUMARASWAMI RAJA:—" I am not aware of it, Sir."

SRI M. G. NATESA CHETTIYAR:—" May I know if the Government are aware that in the case of oil-cakes manufactured by country *chekkus* also manufacturers are asked to declare their stocks and deliver the goods they have?"

THE HON. SRI P. S. KUMARASWAMI RAJA:—" The Government have not passed any orders on the subject."

SRI S. NAGAPPA:—" May I know whether the Hon. Minister is aware that the allotment to our district is inadequate and as a result much suffering is caused and whether he will be pleased to increase the quota next time at least?"

THE HON. SRI P. S. KUMARASWAMI RAJA:—" It is only a matter of opinion, Sir."

SRI N. VENKATASUBBAYYA:—" Considering the fact that groundnut cake is also used as animal food, may I ask the Hon. Minister if he will provide sufficient quantities for purposes of consumption by animals."

THE HON. SRI P. S. KUMARASWAMI RAJA:—" I will consider the question, Sir."

Headquarters of the Divisional Inspector of Schools, Guntur.

* 130 Q.—MAHBOOB ALI BAIG SAHIB BAHADUR (on behalf of Muhammad Abdul Salam Sahib Bahadur: Will the Hon. the Minister for Education be pleased to state—

(a) whether there are any proposals under the consideration of the Government to change the headquarters of the Divisional Inspector of Schools from Guntur to Cocanada;

[2nd September 1946]

(b) if so, for what reasons; and

(c) whether it is a fact that in Andhra area the largest number of high schools exist in Guntur district?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR:—

(a) No.

(b) The question does not arise.

(c) Yes."

Sandavasal Bamboo Coupe in North Arcot district.

* 131 Q.—SRI N. S. VARADACHARI: Will the Hon. the Minister for Forests, be pleased to state—

(a) why the rule of the highest tender being accepted was not given effect to in the case of Sandavasal Bamboo Coupe in North Arcot district;

(b) whether the Conservator concerned did not intimate the party that, if his tender was the highest, he would get the coupe in the normal course of things; and

(c) what reasons the Government assign for rejecting the highest bid in this case?

THE HON. SRI R. RAGHAVA MENON (on behalf of B. Veeraswami):—" (a) & (c) It was brought to the notice of Government in April last that certain bamboo coupes in the Santhavasal Range of Vellore East Division which were put to sale by auction by the Forest Department were not given on lease to the highest tenderer at the auction. A report was called for from the Chief Conservator and it was ascertained that in cases where the coupes were not allotted to the highest tenderer, they were given on lease to old and tried contractors but at the highest tender made for that particular unit. It was explained that this procedure was followed for the reason that the old contractors might otherwise find it difficult to recover the sums advanced by them to coolies and cartmen under the previous contract and that as the coupes were leased at the highest tendered rate there was no loss of revenue to the Government.

"The Government expressed their disapproval of the action of the Forest Department but did not order a reallocation of the coupes as the sale has already been confirmed.

"(b) The Conservator seems to have informed the interested merchants some time before the Chief Conservator's orders were received by him that the coupes would be given on lease normally to the highest tenderer."

SRI N. S. VARADACHARI:—" Arising out the answer given, will the Government give an assurance that hereafter no departure from this rule will be tolerated since it involves loss of revenue to Government?"

THE HON. SRI R. RAGHAVA MENON:—" As regards loss of revenue, I do not agree. But the Government will surely instruct that no departure should be made except where it is absolutely necessary."

[2nd September 1946]

MAHBOOB ALI BAIG SAHIB BAHADUR:—" May I know, Sir, whether it is open to an official to depart from the procedure laid down by the Government? "

THE HON. SRI R. RAGHAVA MENON:—" Generally speaking it is not open. But if there are extraordinary cases they are decided with reference to the circumstances. "

MAHBOOB ALI BAIG SAHIB BAHADUR:—" Did the Government take any action against the officials for having departed from the normal procedure laid down by the Government? "

THE HON. SRI R. RAGHAVA MENON:—" Government in this case has condemned the action of the department. "

SRI N. S. VARADACHARI:—" In view of the fact that the Conservator concerned approved of the original procedure what reason was there for the Chief Conservator to interfere and upset the normal procedure was observed? "

THE HON. SRI R. RAGHAVA MENON:—" The answer that I gave before the House is the answer to my Friend's question. "

SRI D. V. RAMASWAMI:—" May I know whether the rule in favour of the highest tenderer is mandatory? "

THE HON. SRI R. RAGHAVA MENON:—" No, it is not. "

SRI S. NAGAPPA:—" May I know if the Government will consider the desirability of organising wood cutters' and bamboo cutters' co-operative societies and entrust them with an average struck on the basis of the last 10 or 15 years, as has been done in some of the districts? "

THE HON. SRI R. RAGHAVA MENON:—" I may tell the hon. Member that there is absolutely no imaginable connection between his question and that under reply. "

SRI N. S. VARADACHARI:—" In view of the answer given will the Hon. Minister be pleased to state that in case of departure from the normal rule laid down for the conduct of Government business such departure will first be communicated to the Government and reasons specified for such departure and then only after approval is obtained from Government, the procedure will be departed from? "

THE HON. SRI R. RAGHAVA MENON:—" The general rule itself is that every departure from the ordinary rule should have the previous sanction of Government. So there is no force in this question. Instructions will again issue as to the intentions of Government that no departure must be made unless extraordinary circumstances prevail. "

N. MUHAMMAD ANWAR SAHIB BAHADUR:—" Does the Hon. Minister have any control over the wood cutters of the animal kingdom? "

THE HON. SRI R. RAGHAVA MENON:—" The question is not very clear. "

[2nd September 1946]

SRI N. S. VARADACHARI:—" Will the Government also note, Sir, that this is not the only case that has come to the notice of the Government, but there are several cases like this in that particular division? "

THE HON. SRI R. RAGHAVA MENON:—" The Government are not aware of a number of cases. "

SRI S. NAGAPPA:—" Are the Government aware that there are some places in this Province where wood cutting and bamboo cutting are entrusted to co-operative societies? "

THE HON. SRI R. RAGHAVA MENON:—" I am afraid my Friend is speaking on the basis that there is some connection between wood cutting and the question under reply. The question now is about the leasing of forests. "

SRI V. I. MUNISWAMI PILLAI:—" Will the Hon. Minister consider the necessity of making a strict rule so that in the future such things may not happen? "

THE HON. SRI R. RAGHAVA MENON:—" The Government will surely consider it. "

SRI N. S. VARADACHARI:—" Will the Government call for information in regard to this matter and find out the number of cases that have occurred where a deviation from the normal procedure has been made? "

THE HON. SRI R. RAGHAVA MENON:—" If the Government think it necessary they will call for a report. "

MAHBOOB ALI BAIG SAHIB BAHADUR:—" The Hon. Minister has said that he has condemned the action. Does that mean that disciplinary action has been taken against the official concerned? "

THE HON. SRI R. RAGHAVA MENON:—" Government have expressed their disapproval. That is what I meant. "

SRI A. KALESWARA RAO:—" May I know from the Hon. Minister whether, when a legislator, an hon. Member of this House, asserts that in a number of cases, such departures have been made, it is not a sufficient ground for Government to call for information and get a report about the whole situation? "

THE HON. SRI R. RAGHAVA MENON:—" For that matter, even if the hon. Members give particulars to the Government, that information can be acted upon. The question whether it is sufficient is a matter which does not arise. "

SRI N. S. VARADACHARI:—" There is another question standing in my name, which may not come up during this session in regard to this very matter . . . "

Mr. SPEAKER:—" That question does not arise now. "

[2nd September 1946]

SRI S. NAGAPPA:—"May I know whether the Hon. Minister is aware that the coupes are leased out to the wood-cutters' societies and bamboo-cutters' societies in this Province?"

THE HON. SRI R. RAGHAVA MENON:—"I am not aware, Sir."

Supply of drinking water in Guntakal and Timmancherla.

* 132 Q.—SRI A. RAYAPPA: Will the Hon. the Minister for Public Health and Medicine be pleased to state—

(a) Whether Government are aware of the acute suffering of 30,000 citizens of Guntakal and Timmancherla in Anantapur district for want of drinking water;

(b) how long the water scheme is pending with the Government;

(c) the stage at which the matter stands; and

(d) whether the Government will push on with the scheme at once as the suffering is very acute?

THE HON. MRS. LAKSHMIPATHI:—" (a) Certain representations were received about the inadequate supply of drinking water.

" (b) A scheme was first outlined in 1939 but the presence of flourides in the water made it difficult to get at a proper source of supply.

" (c) & (d) A source in the Timmapuram area has been selected. Even this is not free from flourides. No other better source can be found. The Chief Engineer has been asked to give a suitable priority for this scheme. On receipt of his report plans and estimates will be prepared and the scheme taken up for execution."

BEGUM SULTAN MIR AMIRUDDIN:—"May I know, Sir, how long it will take for the scheme to be ready?"

THE HON. MRS. LAKSHMIPATHI:—"It is for the Chief Engineer for Buildings to prepare these plans and estimates. I expect them to be submitted shortly."

H. S. HUSSAIN SAHIB BAHADUR:—"May I know, Sir, what arrangements are being made in the meanwhile for providing a sufficient quantity of drinking water for these people?"

THE HON. MRS. LAKSHMIPATHI:—"Until the plans and estimates are received, I do not think there is any possibility of taking up the works for execution."

SRI S. NAGAPPA:—"May I know whether it is the intention of the Government to allow whatever time the Chief Engineer requires to prepare these estimates and plans?"

THE HON. MRS. LAKSHMIPATHI:—"The Chief Engineer has been requested to attend to this early."

SRI P. NATESAN:—"In the meantime what happens to all these citizens who want drinking water?"

THE HON. MRS. LAKSHMIPATHI:—"The question of providing protected water-supply is a comprehensive one and is under the consideration of the Government."

[2nd September 1946]

BEGUM SULTAN MIR AMIRUDDIN:—"Will the Government be pleased to exercise due alacrity in regard to this matter as it is very urgent?"

THE HON. MRS. LAKSHMIPATHI:—"Yes, Sir."

M. S. ABDUL MAJEED SAHIB BAHADUR:—"If an epidemic breaks out in the meantime, may I know who will be responsible for it?"

THE HON. MRS. LAKSHMIPATHI:—"The public as well as the Government will be responsible."

SRI S. NAGAPPA:—"May I know whether the Hon. Minister in charge of the portfolio cannot direct and drive the Chief Engineer to speed up the matter?"

THE HON. MRS. LAKSHMIPATHI:—"Yes, Sir, it will be done."

MAHBOOB ALI BAIG SAHIB BAHADUR:—"May I know whether the consolidated scheme that is contemplated by the Government will be under the charge of the Government or of the village committees?"

THE HON. MRS. LAKSHMIPATHI:—"The Government will have to do it. In fact a compendium has been prepared and in accordance with that compendium for water-supply and drainage the works will be taken up."

D. ABDUL RAWOOF SAHIB BAHADUR:—"May I know whether it is not possible to make some arrangement to get water from the railway water-supply?"

THE HON. MRS. LAKSHMIPATHI:—"Notice, Sir."

Supply of drinking water in Gooty and Alur taluks.

* 133 Q.—SRI A. RAYAPPA: Will the Hon. the Minister for Public Health and Medicine be pleased to state—

(a) whether Government are aware of the fact that villagers in black cotton soil in Gooty and Alur taluks, Anantapur and Bellary districts, respectively, are suffering from want of drinking water and the wells in the area are all brackish; and

(b) if so, whether they propose to depute some officer concerned for investigation and report?

THE HON. MRS. LAKSHMIPATHI:—" (a) It is understood that the water-supply problem in black cotton soil areas is difficult.

" (b) An investigation of the problems concerning the provision of water-supply in black cotton soil areas of the Bellary district was by an Assistant Engineer of the Public Works Department in 1939—41. The investigation lasted for thirteen months. The report submitted by the Assistant Engineer as a result of his study showed that certain types of works should be undertaken in black cotton soil areas for the provision of water-supply in those areas. The Board of Revenue has been asked to take action accordingly."

[2nd September 1946]

D. ABDUL RAWOOF SAHIB BAHADUR:—" May I ask what action has been so far taken upon the recommendations made by the Assistant Engineer? "

THE HON. MRS. LAKSHMIPATHI:—" No action has been taken so far. But the Board of Revenue has been asked to take action in this matter accordingly."

D. ABDUL RAWOOF SAHIB BAHADUR:—" May I know what the Board of Revenue has done so far? "

THE HON. MRS. LAKSHMIPATHI:—" Notice Sir."

SRI N. VENKATASUBBAYYA:—" May I ask, Sir, considering that drinking water is the most pressing and urgent need if the Hon. Minister will take steps to expedite the matter? "

THE HON. MRS. LAKSHMIPATHI:—" Certainly, Sir."

[Note.—An asterisk (*) at the commencement of a speech indicates revision by the Member.]

II.—VOTING OF DEMANDS FOR GRANTS FOR 1946-47.

DEMAND XIV—POLICE.

11-30 a.m. THE HON. SRI T. PRAKASAM:—" Sir, on the recommendation of His Excellency the Governor, I move—

'that the Assembly do assent to a Demand which will come in course of payment during the period from the 1st May 1946 to the 31st March 1947 of such sum as together with the expenditure already incurred in April 1946, will amount to Rs. 3,70,77,600 in respect of the head "Police." The expenditure incurred in April 1946 is believed to be Rs. 24,18,041 '."

* M. MUHAMMAD ASMAIL SAHIB BAHADUR:—" Mr. Speaker, Sir, I beg to move the cut motion standing in my name, namely:—

'To reduce the allotment of Rs. 3,70,77,600 for Police by Rs. 100.'

" Sir, from the Administration Report, I find that in 1944 the number of police stations in the Presidency excluding the Madras City was 951. We may take the total number as 1,000 in all. That gives you one station for every 50,000 people. Taking it in another way there is one police station for every 200 square miles of the area of the Province, or 5 stations in a taluk. I think this is a small number for this Province. In many cases we find that the people of the village have to go many miles before they can reach a police station or before they can get the assistance of the police.

" Taking the police force, some figures I have taken from the budget itself. In the City, leaving alone the sub-inspectors and the inspectors, there are about 2,460 head constables and constables. That is the permanent police force. We have also got a temporary force which numbers 210. Altogether we have 2,670 constables

2nd September 1946] [M. Muhammad Ismail Sahib Bahadur.]

and head constables in the City. Coming to the districts, we have got 2,860 head constables in the permanent cadre and 631 head constables who are temporary. The Police constables in the districts are 23,353 in number who are permanent and 5,735 who are temporary. Thus the total number of constables and head constables in the districts is about 32,580. The total Police force throughout the Province including the City force is about 35,250. That gives us one constable or head constable for every 1,420 people in the Province. If you take the permanent Police force alone, it gives you one for 1,750 men. If you take the district Police force and the district population it works at one constable or head constable for every 1,470 people in the population. This, Sir, is really a very insufficient force to meet the requirements of this Province. Whatever may be the position in the other Provinces, the conditions of which I do not know intimately, we find that in our own Province this force is inadequate. Though in cases of trouble in any place, Police forces from more than one peaceful place are being rushed to and concentrated on the area which has been affected with any trouble or rioting, you find that even these forces are not adequate enough to deal with the situation in that place. So I think that the Government must pay proper attention to increasing the strength of the Police force adequately.

" In this connexion, Sir, I find under the sub-head 'village police', provision for 77 police talaiyaris with a basic salary of Rs. 9-8-0 and a dearness allowance of about Rs. 7. I do not know who these police talaiyaris are. There are, I know, talaiyaris in hundreds and thousands throughout the Province who help the Police in preventing and detecting crimes and in various other ways. What is the speciality about the police talaiyaris coming under this head, I do not know. However, when I saw this item I was reminded of a system which was in vogue in several villages and which I have myself seen with my own eyes. By that system, Sir, the landowners in a particular village pay a small fee to a group of people in that village and those people who receive the fee work as the watch and ward for the village. If there is any theft in the village, these people are responsible for detecting the theft and restoring the stolen property. In my own experience during those days, every property stolen was restored and every case of crime was detected by these people. I think the same system is in vogue even at present in some places. The Government might pay some consideration to this system of policing because, as I have stated, Sir, under that system detection of crime and recovery of stolen property was cent per cent. We may compare this with the figure given in the Police Administration Report. In the case of grave crimes the percentage of detection was roundly about 50. The figure for the year 1944 was about 47 per cent. The percentage of detection of all crimes seems to have been only 26 per cent in 1944, which year is said to have been more satisfactory than the previous one in the matter of detection. So far as the recovery of lost property by the police is concerned only about 34 per cent according to value of such lost properties has been recovered by the police in the year 1944 as well as in the

[M. Muhammad Ismail Sahib Bahadur] [2nd September 1946 year 1943. This compares very unfavourably with the state of affairs which prevailed and probably prevails even now under the village police to which I have referred. Therefore, Sir, I think that this matter requires some attention.

"There are, Sir, Village Vigilance Committees, but the Administration Report does not speak encouragingly of these committees. They are said to be useful only in a few districts and that too only when the members are encouraged with rewards. Speaking of rewards, I find that only about Rs. 4,018 have been given as rewards in 1944 to village officers and talaiyaris. It is not a big amount really. What is the amount paid to the vigilance committees we do not know. Whether these rewards have been included in the amount of Rs. 4,018, we do not know. Whatever it may be, if these committees are properly handled and given their due importance, I think, they will work satisfactorily in all the districts.

"Sir, speaking of detection of cases of crime, I am reminded of a story which happened several years ago. One day a number of carts were parked on the proper side of the road in a proper way for loading cargo for shipment. Then all on a sudden all these carts were taken away by the Police to the Police station. Then the maistri complained to the firm concerned which had requisitioned these carts. The firm made an enquiry about the incident. It was then learnt that the policemen had each to bring in a number of cases every week. These policemen had been lax throughout the week and at the end of the week they pounced upon the cartmen so that they might get a bunch of cases, all in a few minutes thereby discharging the duty allotted to them. But unluckily for them, as these cartmen had done nothing wrong they were given their carts back and they went about their work. But what I want to point out is that the system or arrangement seems to be whether there are real cases or not the Police officers or the policemen must bring in so many cases per week. I do not think that is a fair method. It means that the cases are there for your mere picking them up, as you would pick flowers in a garden. That ought not to be the method as it creates a sort of mentality in the policeman which makes him not to pay proper respect to the people concerned and not to pay proper attention to the cases he is expected to find out. Therefore, Sir, I think that such a system should be changed and there must be some other way, a more satisfactory way, a fairer way, of detecting and preventing crimes.

"Now, Sir, coming to the pay of the Police officers, I do not think anybody would contradict me when I say that they are very low-paid, particularly when compared with the arduous work they are doing. Constables, for example, get a basic pay of Rs. 18 in the mufassal and a special pay ranging from Rs. 1-8-0 to Rs. 3 each. In the City of Madras, the basic pay of a constable is Rs. 22 with a special pay of Rs. 4. There is really a miserable lot having to put up with such a low pay as this. People who are working hard and taking risks day in and day out should be remunerated more liberally and more

2nd September 1946] [M. Muhammad Ismail Sahib Bahadur] fairly. The lot of the Sub-Inspector seems to be the worst in the whole force, though the Sub-Inspectors are really the pivot on which the whole police system moves, the higher officers being merely inspecting and supervising officers and the constables and the head constables doing the bidding of the Sub-Inspectors. They work for fifteen or sixteen hours a day and they have no weekly rest day. With all that, the remuneration they get is really miserably low. To keep them and also the other policemen above temptation, it is necessary to give them adequate pay.

"As regards promotion, particularly of the Sub-Inspectors, I suggest that it should be based mainly on seniority. Their promotion must not depend generally on the discretion of their superior officers. If the officers are allowed discretion in the matter, extraneous considerations are liable to play a part and the Police officers' devotion to duty will be impaired and demoralization will result. Therefore, due consideration must be given to seniority in the matter of promotion.

"As regards the pay of the Inspectors, I wish to say only one word, and that is, that they must be given a time-scale. I was not impressed with the reason given by the Hon. Minister for Revenue for refusing to take similar action concerning the pay of the Excise Inspectors and Assistant Inspectors. They must really be given a time-scale so that they may feel sure and rest content that for their experience and seniority they will get proper return and reward from the Government.

"While on this subject, I wish to emphasize the need for making the Police officers and the policemen understand clearly that they exist for the benefit of the people, that they are primarily the servants of the people and that therefore they must treat the people with more consideration and respect and that they must not try to aggrandize over them.

"Now turning to the subject of representation of Muslims in the department, I have pointed out on previous occasions that among the Deputy Commissioners and the Deputy Inspectors-General there is no Muslim. In every district, there must be a gazetted Muslim official and the Inspector-General of Police must be assisted by a Muslim Deputy Inspector-General or at least Assistant Inspector-General. With regard to representation of Muslims in the Police force in general, I say that Muslims ought to be given more representation. This is a very important matter. Let me not be dubbed as communal for making this demand. I am making this plea, Sir, from the point of view of the general public as well. The Police is an important institution and it must be kept above communal considerations and communal influence. It is for this very purpose I say that Muslims must have more representation in the Police organization. It may look paradoxical, but it is not really so, because when the Police force is sufficiently mixed and consists of the members of different communities, the psychological effect of such a mixture will really make the force non-communal. One section will have an influence on the other section, so that they will go about their

duties in a non-communal manner

[M. Muhammad Ismail Sahib Bahadur] [2nd September 1946]

duties in a non-communal manner. Therefore I request the Government not to brush aside this point and this plea lightly and in a light-hearted manner, but to give their deep consideration to the suggestion and act accordingly. I suggest in particular that the Police force sent to troubled areas must necessarily be of this nature, i.e., of a mixed nature. Then alone it will have the confidence of the people concerned and it will be able to deal effectively and efficiently with the situation. With these few words, I move the cut motion standing in my name."

* MR. H. S. TOWN:—"Mr. Speaker, Sir, without a perfectly loyal Police force, no Government can command the respect of the masses, neither can it long remain in power.

"The maintenance of law and order is one of the primary duties of any Government and this duty cannot be discharged without the aid of a Police force that is not only loyal to the Government of the day but is also contented.

"We are indeed fortunate in this country in having a perfectly loyal Police force, brought up and nurtured in the highest traditions, splendidly led, loyal and fearless in the detection of crime and in the maintenance of law and order. Their loyalty is to the Government of the day; they have no politics. They serve the present Government with the same loyalty they rendered to the last Government and if we had a change of Government to-morrow they would serve with equal loyalty the new Government as they serve this one.

"I am sure, Sir, it is the silent prayer of all right-thinking men that, come what may, we shall always be blessed with a Police force having the proud record of our present one.

"Loyalty can take very hard knocks without wavering, but it cannot stand up long to continual and relentless pressure and it is a foolish master who, relying on his servants, loyalty fails to treat him with respect or gives him less favourable conditions of service than he does to his less loyal servants.

"Sometime back, I received hints that there was growing up in our Police force a small disgruntled element. Indications of late have confirmed the hints of the past and therefore I have considered it my duty to take this opportunity of expressing the views I have formed after a very careful consideration of this subject.

"Unfortunately, I have of late been closely connected with a small amount of labour trouble during which I had opportunities of studying the ordinary police constable at close quarters and I have learned of some of the thoughts which ran through their minds during those very distressing days for one or two of them managed to speak out from time to time.

"Sir, the average police constable to-day when on duty during a strike compares his lot, his pay and hours of work with those of the people whom he is controlling and generally comes to the correct conclusion that in the majority of cases he is not as well paid as those whom he is controlling and it is the constable who takes more of the risks of bodily harm during riots

2nd September 1946] [Mr. H. S. Town]

or disturbances. Sir, more than one constable mentioned this during the recent troubles in Perambur and it is a serious matter which demands the immediate attention of Government.

"The recent postal strike and the publication by Government of the rates of pay of postmen was a surprise to the majority of citizens of Madras who had little or no idea of the rates of pay of postmen. Now, Sir, the postman may be a little more educated than the average policeman, but I very much doubt it, for judging from the few postmen with whom I have come into contact, I cannot believe the policeman can be of a really lower educational standard. However, for the case let us agree that the postman has a higher standard of education; people are paid for other things than their education; take the case of certain scavengers who are paid extra because of the obnoxious nature of their employment.

"Now, Sir, the Police constable controls our traffic, a task of considerable importance to the safety of the users of our highways. The constable has to apprehend the wrongdoer, a task which involves at times risk to life and limb.

"From time to time we attend the annual Police parade and we see a few constables being decorated for outstanding deeds of bravery but let us not think that the only brave deeds of the Police force are those for which decorations are given; Sir, there are hundreds and hundreds of other equally brave police deeds, but they do not see the light of day and so fail to attract a decoration. I submit, Sir, that the constable who by his very occupation takes risks over and above those taken by other Government servants, is entitled to our respect for the risks he takes and he is entitled to special consideration in the matter of wages and terms of service.

"Sir, I have confined my remarks to the police constable, but if we study the wages of the head constable, the sergeant and those senior to them, we find the same reliance on loyalty, for they are all grossly underpaid. Let us not forget that the servant is worthy of his hire and the loyal servant is doubly worthy.

"When I studied the scale of pay of the Sub-Inspector, I pondered over it and came to the conclusion that these loyal and sincere men must be honorary workers receiving an honorarium to cover their expenses.

"Now, Sir, the most important asset any Government can have is a loyal and contented Police force. We have a loyal one but loyalty can be sorely tried if it has to stand up to a continual feeling of discontent. It only requires a few discontented men in any force to generally weaken the whole organization and therefore Government must give immediate attention to the terms and wages of our Police force and make substantial improvements in both; and this, Sir, applies to all grades from the bottom to the top.

[Mr. H. S. Town] [2nd September 1946]

"Next, Sir, I propose to speak on a very delicate subject and I do so after some hesitation but with the conviction that what I have to say must be said. A Police sergeant or head constable who at personal risk has apprehended a wrongdoer is inclined to feel a little upset when some Minister orders that no action shall be taken against the person arrested. This feeling of frustration becomes very strong when orders to withdraw prosecutions are given in a wholesale manner. Even the last joined constable realises that such wholesale orders must have been given without any consideration to the individual cases and I know of more than one head constable who has expressed the view that it was not worth the trouble of arresting as the offender would probably not be tried. If this opinion grows, then the law abiding citizen will lose the protection he is entitled to during disturbances and which he now gets from the Police force.

"Sir, if a constable arrests a person that person should be brought before the correct tribunal for trial. The magistrates of this Madras City and other Cities of this Presidency can be relied upon to see that a fair trial is given to anyone who is produced before them. If after trial and conviction Government decide to remit the sentence, they are fully entitled so to do. The Police will have no grounds for complaint, as they will have apprehended a wrongdoer and obtained a conviction. What happens after that is a matter of policy and our Police force, thank God, are not interested in the policy of politicians. The aggrieved party however takes a very dim view of this action by Government. The man who has been brutally accosted and sees his assailant taken to the Police station is entitled to expect that he will be given an opportunity to state his case and get redress but this is denied to him by the action of Government in ordering that the charge shall be withdrawn before trial.

"The loyalty of the Police force and its freedom from political partisanship can only be retained if it is a perfectly contented force. Up to the present we have had such a force; but I perceive a slight change and I have made careful enquiries. I have avoided the seniors for in the past I have always found them far too guarded in their replies. I can however assure this House that my enquiries among the other ranks force me to the conclusion that there are the beginnings of discontent to-day.

"Now, Sir, this must be checked at once by seeing that this most important branch of Government service is happy and contented and that it is fully backed up by the Cabinet. No Police force can be efficient if it is not sure at all times that it will receive the full support of Government, the public and the Press.

"In my own land on the rare occasions when the Police have to make a baton charge or lathi charge, the Press and the public back up the Police for they know that the Police is a disciplined force and it will only resort to such action when it is absolutely necessary. The Police force here are equally disciplined and

[2nd September 1946] [Mr. H. S. Town]

make a lathi charge only when there is no other method of maintaining law and order. I would suggest, Sir, that handbills, processions and speeches based on supposed Police excesses should be prohibited and that heavy punishments should be meted out to anyone responsible for public attacks on this loyal force in this manner.

"I now come, Sir, to the question of the strength of the Police force. We are woefully short. We have far too few Police to handle anything more than a very small disturbance. The people of this Province are entitled to a force sufficiently large to ensure to them protection from hooligans and lawbreakers and we have not sufficient Police to give this protection at present. When there are disturbances in Madras City, we find that our Police have to be at so many points that at no one point can they be sure of completely controlling the situation. When disturbances become widespread large stretches of our streets are left unguarded because the Police for this task just do not exist; thus the Government endanger the safety of the citizen. Sir, I submit that our Police force could be considerably increased in size.

"I understand that Government are having some difficulty in recruiting policemen. No industrial employer to-day is having any difficulty in recruiting his staff; so there must be some reason for the reluctance of suitable men to join the Police force and the reason, I would submit, is that the terms and conditions offered are not sufficiently attractive. The hours of work especially during disturbance are excessive and it is sufficient proof that we are woefully short of personnel, for I am told that well over twelve hours duty in one day is not uncommon.

"Sir, my closing remarks may seem to be a digression and perhaps not strictly within the subject under discussion, but I submit that they are part and parcel of the question.

"I have asked for reconsideration of the pay of the Police force but I fully realize that to give one section of the wage earning community an increase immediately invites comparisons, and therefore I suggest that it is necessary that the whole question of wages should receive immediate attention.

"The House may be aware that the Central Government has for a long time been toying with the idea of introducing some minimum wages legislation. Up to date, nothing has been done beyond talking and I suggest that we cannot wait until the Central Government has made up its mind. Therefore, this Government should at once constitute a Committee representative of the people who understand labour matters to consider the general level of wages in this Presidency. Such a committee could complete its work in about four months and it should be possible to have their report made available to members of this House some two months before Government introduces any legislation in this behalf. Sir, not only the Police but others are unsettled and it all gets back to the economics of living from day to day and no piecemeal patching by a conciliator here and

[Mr. H. S. Town] [2nd September 1946]

an adjudicator there will remedy this evil. Government itself has to tackle the question of economic distress as a whole but in so doing I do plead that this Government do not forget their most loyal servant—the constable. Sir, I support the cut motion.”

SRI K. ANANDA NAMBIYAR:—“While speaking on the Police Demand, I submit . . . ”

* MR. SPEAKER:—“The hon. Member should address the Chair.”

SRI K. ANANDA NAMBIAR:—“I submit to you, Sir, that just a few minutes ago, I received a telegram which I would like to read to the House. The telegram says that Narayanaswami was detained by the Police in Tinnevely. You know, Sir, the strike that is going on in the South Indian Railway and this gentleman is the Secretary of the Branch Union. He has been detained by the Police there. What I want to submit, Sir, is that the administration of the Police department has not at all improved even after the popular Ministry has taken over charge and I can say that it has gone worse in some respects. We have been witnessing, as a matter of fact, the atrocities committed by the Police recently, not only in the City but throughout South India. I saw from my own personal experience of what has happened in Trichinopoly that the workers there were coerced by the Malabar Special Police; they go into the houses of the strikers and ask them to join duty. I do not know whether it is the duty of the Police to see that the strike is broken; I do not know whether the Hon. the Leader of the House, the Prime Minister, has issued any instructions to the Police department to take charge of the work of the strikers. The Police is paid to maintain law and order but I do not know how the Police is now being used as a black-leg in this railway strike. If hon. Members here were to walk along the railway line, they will find that at every gate the Policemen are posted to do duty as gate-keepers. I say, Sir, if a policeman can do the duty of a gate-keeper, he can as well do the duty of a scavenger or the duty of any other person. Is it fair that an organized Police force should be utilized for the purpose of breaking a strike and not do its legitimate duty of keeping up law and order? This is what is going on to-day. I do not know who it was—whether it was any department of Government or the Hon. the Leader of the House—that created the scare that I was arrested. I do not know how the blessed All-India Radio announced that Mr. Ananda Nambiyar was arrested. I ask how it was done, I mean how this Radio came to announce this news.

“Again, Sir, when I was proceeding to attend this Assembly, a Police Sub-Inspector at Trichinopoly stopped me and said: ‘I am not going to allow you to go.’ I told him that I am Ananda Nambiyar, M.L.A., and I have to attend the meeting of the Assembly. He was not satisfied with this and said, ‘No, you are not Ananda Nambiyar; Ananda Nambiyar is in Coimbatore Jail; you are someone else.’ I was therefore prevented by the Police from attending the meetings of the Legislative Assembly last week. I therefore put the matter in writing

[2nd September 1946] [Sri K. Ananda Nambiyar]

pointing out the consequences if I were prevented from attending the Assembly session. We have heard of such things in the Hitlerite regime. The same thing is happening now under the regime of the Hon. Mr. T. Prakasam, which, we feel, is shameful. We do not like it. We do not want such a regime. The people are angry to-day and they do not want to see the popular Ministry allowing these things to continue. We are sorry because the workers have their rights; they have a right to strike; that is a legal right on the part of the workers. But attempts are being made to break these strikes with the help of the Police. While peaceful picketing has been allowed, it is not proper that the Police should break the strikes and not allow us to approach the workers. This has happened in Srirangam and Trichinopoly towns. I do not know what is meant by all these things happening in our country.”

* MR. SPEAKER:—“I find there is some disturbance; is it from the gallery? I have to warn the visitors in the galleries that if there is any such disturbance again, I will have to clear the gallery.”

SRI K. ANANDA NAMBIYAR:—“I want to tell you an instance for the information of my colleagues. Mr. Kalyanasundaram, President of the South Indian Railway Union, lost his child some ten days ago under dramatic circumstances; and the funeral took place in Trichinopoly. The District Superintendent of Police did not allow the funeral procession to proceed; on the other hand, he ordered a lathi charge and forced the dead body to be removed to a place on the road. This happened under a popular regime; we are ashamed of it and though we do not feel sorry for this, we consider that such things should not happen in our own country because these are days when the workers have a right to strike and that they should not be treated in such a manner.

“Again, Sir, harassment and other atrocities are daily increasing in Trichinopoly. The Malabar Special Police are beating everybody who goes through the streets of Golden Rock. My hon. Friend, Mr. Arunachalam, a Congress Member, who comes from Trichinopoly, will bear witness to what is happening to-day in Trichinopoly. Not only that. On the railway line and near the railway lines the same thing is going on. For instance, I know of the case of a stationmaster in Tiruppattur, who, while going along the railway line, was threatened by a Police Sub-Inspector that he would be shot if he went to the station. The fact was that he had his quarters near the railway station and he must have a right to go to his house. Simply because he is on strike he should not be threatened in this manner by the Police.

“While I was travelling in a motor car, at every Police station and at every Police post, I was detained and my car number was taken and in Tiruppattur, a police head constable harassed me by saying that my car should not proceed further; I do not

[Sri K. Ananda Nambiyar] [2nd September 1946]

know what the reason is behind all these things. Now, the Hon. the Leader of the House wants additional allotment to strengthen the Police force and my hon. Friend Mr. Town says that the Police force must be increased. But I do not understand whether the increase in Police force is for the purpose of breaking our skulls. That this is so, is a tragedy. We want to impress upon our colleagues that there is no further need for the retention of the Malabar Special Police even after the popular Government came to power. I do not know how he allows it to be used for things like this. Of course, there may be differences among political parties but it is not fair that one should be shot or killed or prosecuted because one has political leanings of a different nature. Several times I have submitted on the floor of this House that I, as representing the Communist party and the toilers of the country, would certainly abide by decisions and instructions—the records will prove this—but still we are suspected; and though the Hon. the Leader of the House has extended his helping hand to the General Manager of the South Indian Railway, Mr. Reynolds, he has been fooled by Mr. Reynolds. Excuse me, Sir, if I use that word; I say this because he said that he would run food specials in spite of the strike, but what we find is the Hon. the Leader of the House is striving to send out lorries carrying food-stuffs whereas no food specials were run by Mr. Reynolds. . . .”

SRI M. S. PATTABHIRAMA AYYAR:—“On a point of order, Sir. How is it that discussion on the railway is allowed under the Police Demand?”

* MR. SPEAKER:—“He is not talking on railways; the hon. Member was merely referring to the railway agent using the Police force to suppress the strike.”

* SRI A. KALESWARA RAO:—“I want to know, Sir, whether the use of word ‘fooled’ is not unparliamentary.”

SRI K. ANANDA NAMBIYAR:—“Not only that, Sir. He has promised to run food specials. Sir, I can assure you on the floor of this House that we are prepared to run more goods trains if this House will only take us or the workers into its confidence. I am not particular about my being taken into confidence but I would like you to take into your confidence the workers, to see for what the strike has been started. It is not as a fight against the Ministry—that is a misunderstanding—it is not so. It was because Mr. Reynolds curtailed our right, the right of enquiry, which is given even to the worst criminal before he is punished. This right was there for the last twenty or twenty-five years until the 9th May when it was withdrawn by Mr. Reynolds. We are not fighting for any monetary advantage; we are fighting merely for our rights.

“Sir, we are seeing that the Inspector-General of Police has been issuing communiqué after communiqué. There is the

2nd September 1946][Sri K. Ananda Nambiyar]

Minister for Information but he is keeping quiet and the Inspector-General of Police is doing this work. Is it right? Is it good that such a thing should be allowed to happen? It has not happened even during the Adviser regime. Information to the effect that ‘such and such a man came to the railway station and such and such fish-plate was removed’ is given out in the form of communiqués by the Inspector-General of Police. Is it to happen under a popular Ministry? I would go a step further and say, if you permit me, Sir, that the Hon. the Leader of the House has given a blank cheque to the Inspector-General of Police to break the skulls of everybody. We are being tortured. I am sorry that at a time when our great Leaders are going to sit on the Gadi in the Central Government, these things are happening here under a popular Government. What we say is, whether the grievance of the worker is right or wrong, it has to be decided by an impartial judicial tribunal. We know what the Railway administration is. It is a tail-end of the old bureaucratic regime. Mr. Reynolds . . .”

* MR. SPEAKER:—“The hon. Member should not refer to names.”

SRI K. ANANDA NAMBIYAR:—“Sir, the General Manager of the South Indian Railway continued to be the General Manager under the company system and continues to be the General Manager even under the State Railway establishment. He was also holding the same post under the Advisers’ regime and is still the General Manager under the popular Ministry. But yet he is the same old bureaucrat bent upon hitting the worker.”

* MR. SPEAKER:—“The hon. Member can refer to the Police only with reference to the strike.”

SRI K. ANANDA NAMBIYAR:—“I am referring to the repression part of the Police game and that it should be withdrawn. I therefore suggest that the Police must be more reasonable and more controllable. That is not the case now.

“If it is the intention that the ordinary policeman should be paid more, I will be the first person to support it because the poor police constable deserves more. Although he may break my skull, that does not mean he should suffer financially. Let him be paid more. At the same time, that money that is being asked for now should not be utilized for getting more machine-guns and to have more lorries to shoot people *en masse*. Here, Sir, I would like to give a warning to this House that if the Police force is increased like this without giving sufficient pay and wages to the policemen, and you get more lethal weapons for equipping the police, I will not be surprised if the skulls of our Members are also broken by the time we meet next. I was referring to this, Sir, from my personal experience. I may tell you, Sir, that I was not allowed to stand in the place where Mr. Kalyanasundaram’s child was kept. A Police Inspector came to me and told me, ‘You get away.’ Can anyone brook it? Can anyone

[Sri K. Ananda Nambiyar] [2nd September 1946]

who speaks of civil liberty brook it? It has happened in my own case and I was directly entangled with them so far as the South Indian Railway is concerned. It is really a race between the Police force and the workers. It is not a race between the General Manager of the Administration and the Minister. If the Ministry want to maintain law and order let them have law and order. I abide by that because I must abide by law but what I am keen about is that the repression part of the game should be withdrawn, and the management of the Police department must be properly controlled and the Inspector-General of Police, who, as I said already, is the tail-end of the good old bureaucratic regime should not be given a blank cheque as I understand the Hon. the Leader of the House had done so now."

* MR. SPEAKER:—"The hon. Member need not repeat that often. Simply because your colleague has moved for an adjournment the other day, I have allowed you to speak now on this demand. I will allow you two more minutes."

SRI K. ANANDA NAMBIYAR:—"What I submit is that the powers of the Police force should be restricted and the Malabar Special Police should be withdrawn from the strike area. The police should not be used as strike-breakers; the police constable should not be used as a gate-keeper. If the General Manager of the Railway Administration cannot run the railway, how can the Police constable run it; it is not also the duty of the police constable to do that. If the Hon. the Prime Minister continues to permit such a thing to go on, it is really a misfortune to the people. If the strike should unfortunately continue for a long time, the agony of the people will be more. The movement of foodstuffs will also be hampered. So, in order that justice is rendered to the people and that the people's interests are safeguarded, I appeal to the Hon. the Leader of the House to see that the repression part of the police administration is withdrawn early. No more money should be given to the police to increase lethal weapons. With these words, I resume my seat, and I thank you, Sir, for granting me more time to speak."

12-30 P.m. ABDUL HAMEED KHAN SAHIB BAHADUR:—"Mr. Speaker, in supporting the cut motion given notice of by the Leader of the Opposition, I wish to observe that no Government can be carried on without an efficient, loyal and contented Police force. We, in this country, have known that the Police force has been put to diverse uses. I believe the Police force is maintained by a government for the safety of person and property of the citizens. So far as the Police force of this Province is concerned, it has been stated and rightly stated that we do not have adequate Police force and it should be strengthened especially in village areas. Secondly, their pay has to be increased in proportion to the arduous nature of the work that they are called upon to discharge. It is wrongly believed in certain quarters that inasmuch as the policeman augments his income by other means,

[2nd September 1946] [Abdul Hameed Khan Sahib Bahadur]

his salary should not be increased. If this is so, it will amount to an admission on the part of the Government that they are at liberty to take *mamuls*. The only way of condemning the system of taking *mamuls* or bribery is to implement that condemnation by raising the salary of the force and side by side take drastic action in cases of proved delinquency. The other day, we were told that the Government have appointed a committee to go into the question of increasing the salaries of Government employees. I say that if there is any department which requires immediate attention of the Government, it is the Police department and I have various reasons for it. The Police force has to do many jobs; and like the I.C.S. man he is expected to do many things and he is believed to be fit for them. He has not only to keep law and order, to protect person and property but also to prevent offences. He has to control traffic and the most unpleasant task that he has to perform is to carry on repression that a Government orders against certain class of citizens who do not agree with them. In view of the various kinds of duty that he is expected to perform, I think it is high time that the Government ordered things in such a way as to see that the policeman is contented and happy and only when he is contented and happy that his loyalty can be brought up to the maximum level. It must be admitted that the Police department in this Province has been maintaining a very high standard and I believe in this country, Madras has scored a very high record for efficiency, and that efficiency and loyalty have to be maintained and kept up. If that has to be done, Government have a very great responsibility and that responsibility has to be implemented by raising the pay of the policeman from the constable to the Inspector-General of Police so that the force is made happy and contented. The salary of the policeman in the mufassal is Rs. 18 per month and that for 12 hours of difficult work. Very often, he has to work during the night. I repeat that attention has not been given to the salary of the constable, because Government somehow or other feel that his salary need not be augmented as somehow he gets on very well. I say, Sir, if there is corruption or bribery or *mamuls* on the part of the Police, to a very large extent Government are responsible and it is not the policeman who is responsible. If that system is to go, Government have to do a good deal to reform the existing order. It is from the standard of the Police that the standard of the Government can be judged. If there is any department of Government which can be an indicator of the high standard of Government, it is the Police department. The efficiency, impartiality, justness and righteousness of Government can be judged from the manner in which the Police conduct itself under that Government. If Government wishes to earn popularity and to be recognized as a good Government by the citizens and expect loyalty from citizens belonging to various classes, they should see that the high standard of morality of that force is maintained. That can be done not only by raising the salary of the Police force but also by making them feel that the Government will not interfere with their work in season and out of

[Abdul Hameed Khan Sahib Bahadur] [2nd September 1946]

season. I do not mean to suggest that the policeman is infallible. There is a lot that can be said about the vagaries of the Police administration and the mistakes and the wrongs that the policeman does in the ordinary performance of his duties. All these things can be prevented if the Government is strong, fair and just. The fairness, efficiency, strength and justice of the Government will be reflected by the Police force. Times are changing and have changed. Governments have changed and are changing. It will be wrong on the part of the Government to penalize the policeman for having served the past Government loyally and efficiently because the party that forms the present Government suffered at their hands till lately. That is wrong. He performed his duty loyally and efficiently under that Government and he will certainly do the same for the present Government and he must not be penalized for having efficiently and loyally served the past Government. The integrity of the Police force will be considerably affected, if, as my hon. Friend Mr. Town pointed out, either Hon. Ministers or top-ranking Congressmen make it possible either for the Police officials or the Government to withdraw pending cases. I believe that such a thing has not happened and will not happen, and I believe too that such occasions will be avoided and that the efficiency and integrity of the Police force will be maintained. My suggestion is that the salary of the Police force should be enhanced and the department should be considerably strengthened. It is necessary when we are having political differences that in every town and village we must have sufficient mixed Police force—I do not believe that the policeman will be affected by the political and communal differences that exists in various areas and I full well believe he will do his duty loyally in any such contingency. So, it is imperative that the Police force everywhere must be as much mixed as possible and in every town and every district there must at least be one gazetted official of the Muslim community. So far as the City of Madras is concerned, there have been no high Muslim officials in the Police force; for instance, in the cadre of Assistant Commissioners, only very recently a Muslim Assistant Commissioner of Police had been brought to the City. Up till now, not a single Muslim has been appointed as Deputy Commissioner of Police though there was a vacancy very recently. I expect the Madras Government to rectify these things and to see that no community will feel aggrieved on account of the policy which the Police department or the Government will be responsible for."

* H. S. HUSSAIN SAHIB BAHADUR:—"Mr. Speaker, in my view the Police force does not deserve wholesale condemnation. On the other hand, a word of praise and encouragement is always due to the Police. They have to act under difficult conditions; their duties are of an arduous nature and the danger to which their life and limb are exposed is very serious. While we consider the doings of the Police, we have to take all these into account.

2nd September 1946][H. S. Hussain Sahib Bahadur]

"Their life is regimented; so, whatever orders are issued by the Government, they have to be carried out by them with discipline and loyalty. They have to act on the spur of the moment. Therefore, their life is not an easy one. They are often accused of having committed excesses. But who is to judge, whether they are excesses or not? When they are faced with a furious mob they have to act on the spur of the moment. In case of danger to life and property they have to open fire. These are all occasions which they have to face. So I should say, no other department of civil power is put to such severe test as the Police. The Police form the second line of defence of any civilized Government in any country. Therefore it is the bounden duty of every citizen of the State to see that a proper Police force is maintained, and more than that, they are a contented and loyal force. In every department we find excesses are committed and bribery is rampant, and therefore we cannot single out this department and see that it is condemned. We have to be charitable in our judgment.

"In this connexion, I should like to say one other thing. There is an impression that the Police are overlording the subordinate magistracy. It may be true to a certain extent; but it is for the higher authorities to see that this state of things is removed. Now that the Government are thinking of separating the judiciary from the executive, I hope this impression will disappear soon.

"Then, Sir, it was stated, and it is a fact, which is known to all, that the Government which succeeds the previous Government, generally sets free all those prisoners—and also pays compensation for offences committed against the previous Government because of certain political views. It may be that those prisoners who have been released hold identical views with the party in power. But then, Sir, we have to take the other side of the question into consideration. The Police and the subordinate magistracy, who convicted these prisoners, acted under certain circumstances, i.e., they were convicted for offences against the previous Government. Because the previous Government considered their acts as offences against the State, the machinery of law and justice was set in motion against these people. Now, by releasing them, those offences are sought to be set at naught. Now I ask, whether it does not amount to contempt of law and order and administration of justice. Any Government has to respect what the Police should do and had to do under a previous Government, or for the matter of that, what the magistracy had to do under the previous Government. Apart from the political aspect, I am putting to the Government whether it will not amount to contempt of administration of justice and maintenance of law and order. Therefore we have to consider this aspect also, while strengthening the Police force and improving their service conditions. Supposing this Government is succeeded by another Government to-morrow, that other Government has to respect law and order and see that the administration of justice is not brought into contempt.

"Sir, while supporting the views put forward by the previous speakers of my party in the matter of increase of pay of the Police

12-45
p.m.

[H. S. Hussain Sahib Bahadur] [2nd September 1946]

force, I would urge the need to increase the Police force also. What I find in the rural parts is that the Police force there is very inadequate. While prohibition is being introduced it may be necessary to have more Police constables to assist the machinery to prevent boot-legging, illicit manufacture and smuggling of liquor into the prohibition area. So, from that point of view also, increase of Police force seems to be necessary.

"Then, Sir, the policeman's lot is very hard. We have to be sympathetic towards the Police. It is stated that the Police are always amenable to take bribes, and in prosecution cases they can be bribed to weaken the prosecution evidence. These are things which Government may look into and purify. The departmental head ought to see that their orders are carried out in the proper manner without the least harassment to the public. No doubt, in times of danger, the Police force is of great help to Government. It is said, 'the might of the Government is enshrined in the baton of the policeman,' or I should say, 'in the lathi of the policeman.' I know, hon. Members on the other side know what the might of the lathi is. It will come down on any person, whoever he might be, if he disturbs the peace or interferes with individual liberty or civil liberty or liberty of speech of any citizen. With these words, Sir, I support the cut motion."

* SRI A. B. SHETTY:—"Mr. Speaker, two of the hon. Members who spoke before me a little while ago presented different points of view. My hon. Friend, Mr. Town was all praise for the Police. He complimented them for their loyalty. He said the Police force should be kept contented and be given proper pay and allowances. He went further and said that there should be no interference on political grounds with the work of Police in regard to the maintenance of law and order. On the other side, our Communist friend, Mr. Ananda Nambiyar heaped a number of charges on the Police, particularly in connexion with the present railway strike. He painted them in the blackest colours. I think nobody can say the Police are either angels or devils. They are not free from fault; they do commit mistakes; but they have often to do very hard and unpleasant work under very difficult circumstances. We have to take note of these facts and change our attitude towards the Police. I think the time has come for the people to change their attitude towards the Police, the attitude of suspicion and hostility which many people entertain against them. The time also has come for the Police to change their behaviour towards the people. They must be more courteous; they must be more civil to people of all ranks and classes. If in England the Police have earned a large measure of trust and affection from the people, it is because of their courtesy and good behaviour. In India the Police are held in disfavour because they have been sometimes overbearing in their behaviour and they have at times been guilty of high-handed action. The highest Police officers, I would even say, the Inspectors also should set an example to the subordinate Police in this matter and see that they behave well and are courteous to the people. People are afraid to complain against the Police about

2nd September 1946] [Sri A. B. Shetty]

any corruption and misbehaviour, people are unwilling to come forth and give evidence, as they have no assurance of protection from future trouble.

"A statement of crime giving particulars about the incidence of crime per thousand of the population, the number of crimes reported and the percentage detected, the value of property lost and recovered—all these particulars—should be made available. These facts and figures would give us sufficient information to judge the efficiency of the Police. As everybody knows, prevention of crime and detection of crime are the two fundamental duties of the Police. Efficiency in detection work has a direct bearing on the efficiency in prevention of crime. I think if the Police are given better training in detection work, the work of detection can be improved. Sub-Inspectors form the backbone of the Police force. We must recruit the right type of men for this work and give them proper training. This class of Police officers have in their hands the honour, life and liberty of the people. It is said the promotion of Sub-Inspectors depends to some extent on the number of cases they book. There is a drive for statistical purposes starting from Deputy Inspector-General, 'Why no cases have been made under this Act or that?' This makes Sub-Inspectors put up even false cases. The state of affairs should not be allowed to continue. The Police have the power to book people under the security section and it is sometimes used unjustly. It is desirable that the District Superintendent of Police should scrutinize the charge-sheets in such cases before they are put up. The Subdivisional Magistrate, who has to approve the charge-sheets, feels bound to convict the accused.

"Again, in regard to betting on American cotton figures, we are told that this form of betting is prevalent to an alarming degree in Godavari and South Kanara districts. The amendment of the Gaming Act has brought these people under the clutches of law; but from the information I have, I understand that only petty people who act as the tools of real culprits are booked for this offence for statistical purposes, while big men, the principal offenders, are allowed to let go free. If proper action is taken by the Police, this form of betting, which is ruining poor people, can be put down.

"I agree with my hon. Friends who pleaded that the Police must be given a standard of pay and allowances which can attract really the best type of people for the Police force. The pay and allowances given to them must be adjusted to the cost of living index. Then only we can attract the best manhood of the country for this work and keep them above temptation. It is also our duty to give them better training, particularly for detection work. I am told, Sir, that the Police Inspectors merely act as post offices. They do not do original investigation work. They merely pass on cases to the Sub-Inspectors. The Inspectors must take up this responsibility and do investigation work in all important cases. I know that criminal investigation has become a specialized form of Police work, but with better training and recruitment of a better type of people, we can certainly raise the percentage of

[Sri A. B. Shetty] [2nd September 1946]

detection work. An honest and expert Police system will help in reducing the volume of crimes and no effort should be spared to increase the efficiency of the Police and keep up their morale."

* K. M. SEETHI SAHIB BAHADUR:—"Mr. Speaker, Sir, I rise to support this cut motion to discuss the general policy of the Police administration and also deal with the specific points relating to it. The question of the Police being kept absolutely contented by the emoluments which are paid to the various members of the Police department is one which deserves the attention of the Government, and as long as the poor and miserable pay which is now paid to the members of the Police department is kept up, and the grievances of the Police are not redressed, you cannot expect efficiency in the administration. The lot of the police constable is miserable indeed. In no part of the country there is such a miserable state of affairs with reference to the remuneration of the constables and the lower ranks of the Police department. You cannot expect efficiency and integrity from people who are so ill-paid and whose lot is so much ignored. Therefore, I wholeheartedly support the point raised by hon. Members of this House urging upon Government that the lot of the Police should be improved. I am at one with the hon. Member representing Communists in condemning the excesses committed by the Police, but I completely differ from him in saying that the Police should not interfere in the disruption and the disorder created by these strikers in the South Indian Railway supported by their Communist leaders. In fact it is a great disservice which the Communists, if they are really at the bottom of the strike, are rendering to this Province."

SRI K. ANANDAN NAMBIYAR:—"No, no."

* K. M. SEETHI SAHIB BAHADUR:—"They are doing a great disservice. In fact, the disservice rendered to the public is immense, and there is absolutely no justification for supporting it. It is criminal to create disorder in this Province. If a Communist leader is assaulted by the Police unnecessarily or without legal justification, I condemn it. At the same time, it is the duty of the Police to see that the public are not molested and inconvenienced. There is no point in calling a man a blackleg if he does timely and yeoman service to the public in time of need. But the people are thwarted from doing the duties which are assigned to them. A Policeman has to do the duties of a gate-keeper in certain situations and he should be congratulated on doing it. It is not only the constable that has to do it but even bigger people might have to do it. If the idea is that there should be disorganization in the Province, the public should be put to inconvenience, and the administration of the railways should be paralysed, then that move should be combated; it should be defeated by every right-minded man in the Presidency. (Interruption.) It is no use of interrupting me if I condemn the action of the Communists. In fact, I am sorry to say that the Communist Party is creating disorder and disruption in all places. (Hear, hear.) There is no point in crying down the administration as 'Hitlerite administration.' But Hitlerism is practised by the so-called strikers, and they really disturb the peace of the country, and the so-called blacklegs are tortured.

[2nd September 1946] [K. M. Seethi Sahib Bahadur]

Is it anything but Hitlerism? Nevertheless, when Hitlerism is practically combated in this Presidency there is an uproar. You cannot find fault with one agency for practising Hitlerism while the agency which is complaining against Hitlerism is itself practising that cult. I should say that the administration should certainly see to the preservation of proper order in this Presidency, especially in centres where strikes take place. There should be enlargement of the Police force. Police ranks should be further strengthened. No peaceful citizen should be molested and no illegal action should be taken by the Police. At the same time, adequate protection should be given to lawful and peaceful citizens. These strikers should never be allowed to disturb those who are carrying on their usual avocations. Railway employees should not be obstructed in availing themselves of the facilities afforded by the railway companies. I know instances which happened when the Postal strike was going on, of how people were put to absolute inconvenience by the strikers, and how the Communists, who were at the head of the processions of those days were calling out slogans and molesting peaceful people who went to the rescue of the Postal department to render timely service. That sort of intolerance and persecution by the strikers should never be tolerated. The Police should take legal action against them, and they should be prevented from continuing such persecution.

"The other point which I wish to emphasize about the Police administration is that proper representation in the Police department should be given to the various communities in the Province so as to ensure the confidence of those communities in the Police administration. I would urge that the communal ratio should not be taken into account in recruiting members of the Police force. As far as Muslims are concerned, I should say that there should be greater representation in the Police department, representation even in excess of the communal ratio to ensure proper administration of the Police department and to ensure public confidence.

"Another point which I want to bring to the notice of this House is that the Malabar Special Police, however useful it might be in keeping order and peace in certain localities and under certain conditions, have been accused of excesses in some centres where they have been stationed. I have given notice of a cut motion, Sir, making specific reference to two incidents which happened in Malabar. One is with reference to the excesses reported to have been committed by the Malabar Special Police stationed at Tallikulam in South Malabar and the other is with reference to the incident which took place in Kuthuparamba. With reference to these two incidents, representations were made to Government, and I should think that Government are in possession of relevant material regarding these incidents about which there was public agitation and public representation to Government. I would request Government that they should inform this House as to what has been done with regard to the complaints received by them about these incidents, and whether they are not taking vigilant steps to prevent a repetition of such incidents not only in Malabar but also in other parts of the Presidency.

[K. M. Seethi Sahib Bahadur] [2nd September 1946]

"Then, Sir, with reference to the constabulary of Malabar, I distinctly remember that, at the time when Mr. Cunningham was the Commissioner of Police, representations were made to him in the matter of recruitment of ordinary constables in Malabar that at least one-third of the recruits should be Muslims considering the fact that the Muslim population of the district is one-third of the district population. I do not know whether that convention was ever kept up. It is highly necessary and extremely beneficial that such a convention should be kept up so far as Malabar is concerned. With these words I support the cut motion."

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"Mr. Speaker, Sir, at the very outset I have to say that we the members of the Muslim League party really sympathise with the lot of the policemen. It is not only one thing that they have to do. To-day, as matters stand, they have to do everything on the face of the earth. They have to take proper steps with regard to the scavengers' strike here, Communist trouble in some parts of the Presidency, South Indian Railway strike, and so many other things. I may say that it is not only political developments which are responsible for all these, but the blame is also on the party which is in power to-day, because they had been carrying on propaganda adopting all sorts of means to undermine the prestige of the Police in this Province. To-day it is paradoxical that you are in power and you want their help. Your opponents are also adopting the same methods. Therefore, you yourself have to blame. When once it suited you, you resorted to these methods, but now when you are in power you want to prevent that method. Much has been said about the strike. As far as we members of the Muslim League party are concerned, we have said more than once on the floor of this House that we do sympathize with the lot of the labourers. (Hear, hear.) We want that justice should be done to them. We do stand for equitable pay and allowances to the labourers."

* MR. SPEAKER:—"This is Police Demand. The hon. Member should not dilate on the other point."

* MUHAMMAD RAZA KHAN SAHIB BAHADUR:—"The fact remains that my friends of the Communist party—not that I want to indulge in any attack on them—want to solve the problems, but I may tell them that they are really not serving the masses but only serving their own party interests. Unless there is a feeling that there is justification to resort to a strike, they must not put the general public of the Province to trouble. It may be scavengers' strike here, or some communal trouble, or the South Indian Railway strike. You simply put the people to suffer. Therefore, Government have to resort to all sorts of steps to maintain law and order, and there can be no objection to it. Law and order should be maintained at any cost. I am saying this with due sense of responsibility, because the air is thick with all sorts of rumours."

"Then, Sir, I like to make some general observations with regard to some of the important matters. No doubt, Sir, the Government has issued a communique with regard to the question of reappointing retired Police officers or giving them extensions."

2nd September 1946] [Muhammad Raza Khan Sahib Bahadur]

I have to bring to the notice of this House and the Hon. Premier that in spite of the communiqué, it has been reported that repeated extensions have been given to some of the high officials. It is not fair, and it is not just. After all, every officer wishes that he should be promoted to the higher ranks. There is no point in giving repeated extensions. Re-employment of retired officers should be put an end to, so that others in the service may have a fair chance of coming up to the higher ranks.

"The other day the Hon. Premier of Madras congratulated the Members of the Muslim League Party, particularly the President, for maintaining communal order in this Province. Let me take this opportunity, Sir, to say that communal peace has been maintained here not only because of the party which is in power, nor because of the arrangements made by the Hon. Premier. It is solely due to the Muslim League in this Province that communal order is maintained."

"I want to bring to the notice of the Hon. Premier and the other Members of this House that we of the Muslim League Party not only in the City of Madras but also in the other parts of the Province have been appealing to our co-religionists to maintain law and order even under provocation, and I am glad to say that it has been maintained as was said by the Hon. Premier the other day in his statement. At this time, in certain parts of the city like Choolai, there is no doubt some communal tension. I am glad to say that the police are really co-operating with the leaders of communities and making necessary police arrangements. But still there is tension and I myself, along with my colleagues, happened to be in that locality. I wish to bring to the notice of the Hon. Premier that most of the trouble in Choolai is brewing from labour quarters. A report was circulated in the City that the labourers of the B. & C. Mills were making some implements just to attack the Muslims. You can imagine what effect it will have on the public mind. I do not say that what I say is quite correct; it is only information which I heard when I was in the locality. I am sure the Hon. Premier will give due consideration to this question."

"The salary of the constables and other police officers was rightly referred to by a number of speakers, particularly the Leader of the Opposition. There is no point in our talking that there is some corruption here and there. You should see and satisfy yourself whether the salary which you are giving to the constables and the other lower ranks like the sub-inspectors is in keeping with the very responsible and onerous duties which they have to perform. It is a common sight to see a constable doing duty sometimes for 22 hours a day. Therefore it is in the fitness of things that the Government should try to increase their salaries. You cannot treat the police force on a par with the other departments, because they have to discharge onerous and responsible work particularly under very difficult conditions and trying circumstances. There is no point in my dilating more on the subject, as it has been repeated by a number of speakers, and as we also know that the Government themselves are bent upon doing something to them because their case deserves consideration, and good consideration indeed."

[11th September 1946]

THE HON. SRI R. RAGHAVA MENON:—"This amendment cannot be accepted. Definite provision is made that the tenant should pay the rent due within fifteen days after the expiry of the time fixed in the agreement of tenancy. Only if he fails to pay within fifteen days after the expiry of the due date, he is liable for eviction. In cases where there is no agreement, we have provided that the rent should be paid by the last day of the month next following that for which the rent is payable. Such a long period is given to the tenant, and the provision as it is is enough. If we introduce registered notice, complications will arise. The tenant must be protected; at the same time the convenience of poor landlords who live by the rent realized should also be taken into account. The Act must not be harsh to either party. The clause as it is is satisfactory and may be accepted by the House."

The amendment was put and lost.

THE HON. SRI R. RAGHAVA MENON:—"I move—
'in clause 7, sub-clause (3) (a) (i) for the words "same city, town or village," substitute the words "city, town or village concerned".'

The amendment is more or less verbal. The expression 'same city, town or village' may not be good from the point of view of drafting, and somebody may find fault.

"I also move—

'Omit the proviso to sub-clause (3) (a) (i) and add the following as the second proviso after the proviso to sub-clause (3) (a) (ii):—

"Provided further that where a landlord has obtained possession of a building under this clause, he shall not be entitled to apply again under this clause—

(i) in case he has obtained possession of a residential building, for possession of another residential building of his own;

(ii) in case he has obtained possession of a non-residential building, for possession of another non-residential building of his own."

The provisos are intended to make the clause clear."

The amendment was put and carried.

* SRI PILLALAMARRI VENKATESWARLU:—"I move—

'in clause 7 (4) after the words "within one month of the date of obtaining possession," the words "and continue to occupy the building for a period of at least six months" shall be added.'

Sir, the clause as worded gives a loophole for the landlord to dupe the tenant. The landlord may occupy the house within one month, stay for a few days, and lease it for rent once again. To avoid that it must be definitely stated that the landlord must stay in the house at least for a period of six months. This provision is necessary to save the tenant."

[11th September 1946]

B. POCKER SAHIB BAHADUR:—"I have great pleasure seconding this amendment. As a matter of fact, it was a lacu which I myself found, but I thought it would be too late to give amendment. I am glad my hon. friend Mr. Venkateswarlu moved the amendment. I do not know whether the Hon. Minis has followed his speech. I shall just explain the reason why I seconding the amendment. When a landlord, who has been ordered to take possession of his house, does not occupy it within one month certainly the tenant evicted can be restored. But if he takes possession within one month and stays there for a few days, there is no objection to his letting the house to some other persons the next day. He must be made to continue to occupy the building at least six months in order to satisfy that his claim is bona fide. I hope the Government will accept the amendment."

THE HON. SRI R. RAGHAVA MENON:—"The amendment that is proposed is that we must be following the course of the house. The landlord is expected to take possession of the house within one month from the date of the Controller's order. Otherwise the tenant evicted is entitled to be restored, as the clause stands. The amendment proposes that he should continue to occupy the building for at least six months. That will be too hard a condition. By this Act, we are controlling the liberty of the owner. When a landlord takes possession of his house, we expect him to live there. Suppose he has to go away for any reason or that he is an official who is transferred. He cannot be carrying the house with him. He will have to give it to another tenant. Further restrictions will work hardship on the landlord who wants to leave the station after two or three months on bona fide grounds. At all there is no difference in rent. The rent is fixed. If not a tenant, another tenant will get the same house for the same rent. I cannot accept this amendment."

B. POCKER SAHIB BAHADUR:—"Will the Hon. Minister accept the amendment if the period is reduced to two months?"

THE HON. SRI R. RAGHAVA MENON:—"It cannot be made. Some equitable provision has to be made. The provision as made is equitable both to the landlord and the tenant."

The amendment was put and lost.

Clause 7 as amended and clauses 8, 9 and 10 were put and carried.

Clause 11.

SRI K. VARADACHARI:—"Mr. Speaker, Sir, the amendment that I have given notice of is to the following effect:—

'After sub-clause (1) of clause 11, insert the following as clause (2) and renumber the existing sub-clause (2) as clause (3).

"(2) The executive authority of the Corporation of Madras or of a municipality may apply to the Controller to convert any residential building which has been converted into a non-residential one since the year 1944 to a residential one."
