THE MADRAS LEGISLATIVE COUNCIL.

Monday, the 22nd November 1948.

The House met in the Council Chamber, Fort St. George, at eleven of the clock, the Deputy President (SRI K. VENKATASAMI NAIDU) in the Chair.

I.—QUESTIONS AND ANSWERS.

STARRED QUESTIONS.

^a [* 85 Q.—Starred question from the list of 20th November 1948 for supplementary questions.]

SRI K. MANATHUNAINATHA DESIKAR :—“ With reference to the answer to clauses (b), (c), and (d), are the Government satisfied that the minimum quantity of foodgrains has been provided for during the decontrol period for the non-producers? ”

THE HON. DR. T. S. S. RAJAN :—“ The Government are satisfied that they have given all the quantity available with them for distribution. It may be that there are many people who have not got it. The Government could not do more. All the stocks available for the distribution were distributed through the Relief Shops. The stocks were distributed to all those who could be reached through relief shops.”

SRI K. MANATHUNAINATHA DESIKAR :—“ Is it not a fact that thousands of people have migrated from Ramnad to Tanjore district? ”

THE HON. DR. T. S. S. RAJAN :—“ No definite statistics are available, Sir, but it is just possible that some people might have migrated in search of food from one district to another knowing that Ramnad was a dry district and that there was failure of monsoon.”

SRI K. MANATHUNAINATHA DESIKAR :—“ Are the Government satisfied that the prices that prevailed during the decontrol period were within the means of the common man.”

THE HON. DR. T. S. S. RAJAN :—“ Yes, Sir.”

SRI K. MANATHUNAINATHA DESIKAR :—“ Can the common man of the rural area be rest assured of his ration at least hereafter? ”

THE HON. DR. T. S. S. RAJAN :—“ Yes, Sir, that is the object of re-introducing the control.”

SRI R. SURYANARAYANA RAO :—“ May I take it that during the decontrol period the common man was not receiving foodgrains at the rates at which he was entitled to? ”

THE HON. DR. T. S. S. RAJAN :—“ It is just possible; but Government are satisfied that they have given all that was at their disposal for these people.”

^a The question was answered on 20th November 1948.

[22nd November 1948]

Arrest of Sri Nippani Ranga Rao.

* 98 Q.—SRI B. BHIMA RAO : Will the Hon. the Premier be pleased to state—

(a) whether, after the reply given by the Government on 11th August 1948, with regard to interpellation No. 39, they have received any communication from the detenu to the effect that he has resigned from the Communist Party and communicated the same to the authorities of the said party; and

(b) whether the Government have considered the subject of his further detention and arrived at any decision, and if so, to what effect?

THE HON. DR. T. S. S. RAJAN :—“(a) Yes.

“(b) The matter is under consideration of the Government.”

SRI B. BHIMA RAO :—“Are the Government not aware that he was released on the 10th October 1948?”

THE HON. DR. T. S. S. RAJAN :—“It may be so, Sir.”

SRI B. BHIMA RAO :—“Are the Government aware that along with this gentleman about 20 others also offered to render their resignation of the Membership of the Communist Party and communicate the same to the Government?”

THE HON. DR. T. S. S. RAJAN :—“As often as petitions are received from these detenus they are placed before the Advisory Council and on the advice of the Council, the Government pass orders. It is just possible that these 20 peoples' representation is under the consideration of the Advisory Council and in due course they will be considered by the Government.”

SRI R. SURYANARAYANA RAO :—“Is it a fact that the Advisory Council has not met since the illness of the late Mr. V. Govindarajachari?”

THE HON. DR. T. S. S. RAJAN :—“I do not know the details; but it is just possible.”

THE HON. SRI K. MADHAVA MENON :—“Since the death of Sri Govindarajachari, the Advisory Council could not meet and Mr. Justice Subba Rao has been appointed in his place and the papers are with him.”

SRI R. SURYANARAYANA RAO :—“I meant the illness of Sri Govindarajachari and not the death.”

THE HON. DR. T. S. S. RAJAN :—“It means the same thing. Mr. Justice Subba Rao will be dealing with the papers now.”

SRI B. BHIMA RAO :—“May I take it that the Advisory Council has not met after the appointment of Mr. Justice Subba Rao in the Committee?”

[22nd November 1948]

THE HON. DR. T. S. S. RAJAN :—“It is only last week he was appointed and unless the papers go to him and he takes complete charge of the situation the Advisory Council cannot meet and I am sure the papers won't be held up.”

SRI T. PURUSHOTHAM :—“ఇప్పుడు శ్రీ భీమా రావుగారు వేసిన ప్రశ్నకు ప్రత్యుత్తరమిస్తూ డాక్టర్ రాజ్ గారు 1942 వ సంవత్సరంలో డిటెన్యూల విడుదల విషయంలో ఏ విధానమైతే అమలులో ఉన్నదో ఆ విధానమే ఇప్పుడు కూడా అమలులో ఉన్నట్లుగా చెప్పియున్నారు. ఆక్టోబరు మాసములో ఒక డిటెన్యూ విడుదల చేయఁజేసినప్పటికీ కూడా ఇంతవరకు ప్రభుత్వము వారికి ఈ విషయము తెలియనట్లున్నది. ఇదివరకొక సారి ఇటువంటి విషయమై చర్చ జరిగినప్పుడు ఈ డిటెన్యూ రిలీజు విధానాన్ని మార్చవలసినదిగా మంత్రిగారిని కోరియున్నాము. ఇకముందు అయినను డిటెన్యూ విడుదల విధానము సక్రమముగా సవరింపబడుతుందని ఆశించ వచ్చునా?”

THE HON. DR. T. S. S. RAJAN :—“As far as I am able to gather from the Telugu statement, Sir, I may say this :

For one thing it is not a supplementary question. It is a matter of expression of opinion which does not deserve any answer. But I may tell him that these questions were asked and put to Government months ago. These answers are relevant to the questions put at that time and is not in relation to what happened subsequently. Evidently the release has taken place.”

SRI B. BHIMA RAO :—“Assuming all the Communist members are resigning from that party and joining the Congress Party and pledging their loyalty to Pandit Nehru's Government will the Government consider the desirability of appointing an additional Regional Advisory Committee to take action in the matter. I saw in last night's 'Mail,' that four more members resigned from the Communist Party.”

THE HON. DR. T. S. S. RAJAN :—“In their anxiety to get release the detenus may say anything. But the Government before releasing every time go into the question and the Advisory Council has got to give its opinion. So a reference is made to the Police and the District Magistrate concerned before the Government take any action.”

SRI R. SURYANARAYANA RAO :—“May I take it that these statements of regret will be placed before the Advisory Council?”

THE HON. DR. T. S. S. RAJAN :—“Yes, they are all sent to the Advisory Council.”

Security deposit by Newspapers.

* 99 Q.—SRI S. B. ADITYAN : Will the Hon. the Premier be pleased to state—

(a) whether security deposits were demanded from any Newspaper from January to August 1948; and

(b) if so, (i) the names of such newspapers, (ii) the amounts demanded as security in each case, and (iii) whether the securities were paid?

[22nd November 1948]

THE HON. DR. T. S. S. RAJAN (on behalf of the Premier) :—
“A statement ^a is laid on the table of the House.”

High price of paddy in the West Godavari district.

* 100 Q.—SRI MOTHEY NARAYANA RAO : Will the Hon. the Minister for Food be pleased to state—

(a) whether the Government are aware of the fact that there has been continued rise (abnormal rise) in the price of the paddy and rice in West Godavari district including Ellore town and the rate at which the paddy and rice are being sold in the market;

(b) whether it is a fact that it is impossible to secure paddy or rice in the market at the controlled price or rate; and

(c) what action the Government propose to take to check the same?

THE HON. DR. T. S. S. RAJAN :—“(a) There has been some increase in the price. A statement ^b showing the prices of paddy and rice during the week ending 21st August 1948 in the important market centres of West Godavari district including Ellore as compared with those prevailing prior to derationing is placed on the table of the House.

“(b) No.

“(c) It will be observed from the statement ^b placed on the table of the House, the increase in the price of paddy and rice is not abnormal. However, during the period from 28th June 1948 to 14th July 1948, the Collector of West Godavari has requisitioned 27,309 tons of paddy and 5,235 tons of rice from banks, millers and merchants with a view to discourage any tendency to hoard stocks and put up prices. The Government feel that such judicious requisitioning wherever necessary coupled with the strict enforcement of the notified ceiling prices will help in stabilising prices at a reasonable level.”

SRI T. PURUSHOTHAM :—“మామూలీ గోదావరి జిల్లాలో రామచంద్రపురం, కాకినాడ తాలూకాల్లో black market ను అరికట్టుటకుగాను ధాన్య సేకరణ Producer-cum-Consumer Co-operative Societies కు అప్పగించినారనునది యధార్థమా?”

K. T. M. AHMED IBRAHIM SAHIB BAHADUR :—“Is there not a ruling that those people who can afford to speak in English should not speak in Telugu?”

DEPUTY PRESIDENT :—“The hon. Member has chosen to speak in Telugu.”

K. T. M. AHMED IBRAHIM SAHIB BAHADUR :—“Occasionally he speaks in English.”

DEPUTY PRESIDENT :—“He will have to choose and he has chosen to speak in Telugu hereafter.”

THE HON. DR. T. S. S. RAJAN :—“The Producer-cum-Consumer Co-operative Societies were carrying on procurement

^b Printed as Appendix II on page 374 infra.

[22nd November 1948]

and distribution work prior to the abandonment of the societies altogether for this kind of work. What has happened is that these societies have got plenty of money at their disposal and they still can carry on procurement and Government do hope that blackmarketing in these areas may be put an end to. So they have introduced in these two taluks.”

SRI T. PURUSHOTHAM :—“Producer-cum-Consumer Co-operative Societies కు ధాన్య సేకరణ అప్పగించడంలో అభిచారము black market ను అరికట్టుటానికి, ఈ సమయమున వాటి share capital ఉన్నట్లే కాక బాలవల్లి అయినట్లు లే రాష్ట్రమునంతటా ను ఈ విధానమునే ఆమలు చేస్తారా? ఈ సంఘాలవద్ద గానపు 10 కోట్ల రూపాయల ఫేర్ ధనము ఉన్నది. ఇంత డబ్బుతో ధాన్యపు వ్యాపారము చేయవచ్చునే కనుక, ధాన్యపు సేకరణ (procurement) ను ఈ సంఘాలకు విచ్చాటు చేయడం ప్రభుత్వ విధానమా?”

THE HON. DR. T. S. S. RAJAN :—“Sir, the hon. Member is not putting a supplementary question, but he is giving a long-winding explanation of his opinion.”

11-15
a.m.

DEPUTY PRESIDENT :—“The hon. Member should confine himself to his question and not deal with any explanation of it. He should put what he has to say shortly and crisply, and not indulge in explanation.”

SRI T. PURUSHOTHAM :—“No explanation, Sir. (Laughter) నేను వేయదలచుకొన్న ప్రశ్నలన్నిటని విడి విడిగా వేయటము నా ఆభ్యంతరము లేదు. కాని నాభయము కుట్రగా Question No. 101 అంటారేమిటని. అందుచేతనే ఈ చిన్నచిన్న ప్రశ్నలన్నీని చేర్చిచిన ప్రశ్నగా ఆడిగాను.”

DEPUTY PRESIDENT :—“I have no objection to your putting half a dozen questions; but put them one by one. What is your question?”

SRI T. PURUSHOTHAM :—“కంట్రోలు చేయబడిన సమయము ఆహార ధాన్యాలు కంట్రోలు ధరిలకు supply చేయించుటకుగాను ప్రభుత్వమువారు ధాన్య సేకరణను ఈ సంఘాలకు విచ్చాటుచేసినారనునది యధార్థమా?”

DEPUTY PRESIDENT (translated the question in English) :—“Are these procurement societies only intended to make foodstuffs available to the people at large at controlled rates?”

THE HON. DR. T. S. S. RAJAN :—“Those societies have been operating previously in some of the districts. It is open to them to apply to the Government for procurement permits and for giving them permission for distribution, and such of those societies that apply, will have their applications considered, and Government will assign to them permits if they are satisfied with their request that they would be able to discharge their duty satisfactorily.”

SRI T. PURUSHOTHAM :—“మామూలీ జిల్లాలో ధాన్య సేకరణ Producer-cum-Consumer Co-operative Societies సంఘాలకు ఇచ్చినందు కనుక ఆదంగా అన్ని జిల్లాల్లోనూ చేస్తారా?”

[22nd November 1948]

DEPUTY PRESIDENT :—“ The question is out of order, for we are here considering only West Godavari district. If you want to put a question relating to Malabar you should give a fresh question on it.”

SRI T. PURUSHOTHAM :—“ పశ్చిమ గోదావరి జిల్లాలోని ప్రజలకు ఆహార ధాన్యాల కొరతను తగ్గించు కొనుగోతుకు గాను Producer-cum-Consumer Co-operative Societies కు procurement ఇస్తారా? ”

DEPUTY PRESIDENT (translated into English) :—“ May I know why Government should not give all societies in West Godavari district those facilities? ”

THE HON. DR. T. S. S. RAJAN :—“ The Government have to be satisfied that those societies are willing to take up the work.”

SRI T. PURUSHOTHAM :—“ తగినంత షేర్ ధనము ఉన్న సంఘాలు తరఫును పెరికేవాటికి procurement అప్పగిస్తారా? ”

DEPUTY PRESIDENT :—“ He has already answered that question twice. I don't think you are at liberty to ask again.”

SRI T. PURUSHOTHAM :—“ ధాన్యమును కొంట్రాబు ధరలకు కొనుగోతు కావలసివంత డబ్బు ఉన్నటువంటి సంఘాలకు procurement ఇవ్వడం ప్రభుత్వ విధానమా? ”

DEPUTY PRESIDENT :—“ He has answered it already. You did not follow the answer.”

Permit given to Uravakonda Bus Company.

* 101 Q.—SRI B. BHIMA RAO : Will the Hon. the Minister for Finance be pleased to state—

(a) whether the Uravakonda Bus Company, Limited, applied for a permit for running a bus for hire on the route Adoni to Uravakonda via Aspari, Alur and Guntakal;

(b) whether the Regional Transport Authority granted the same in 1946;

(c) whether Sri Machani Somappa of Yemmiganur, Adoni taluk, appealed against the order to the Central Road Traffic Board, Madras, and whether the said authority confirmed the decision of the Regional Transport Authority;

(d) whether the Government interfered with the said decision in January 1947 and cancelled the permit issued to U.B.S. Company, Limited, and directed the Regional Transport Authority, Bellary, to reconsider the matter and granted a temporary permit to Sri Machani Somappa;

(e) whether the Madras High Court held in November 1947 that such interference by Government is *ultra vires*;

(f) whether the decision was shown to the Regional Transport Authority, Bellary, and a request was made to restore and confirm the permit previously granted in favour of Uravakonda Bus Company, Limited;

22nd November 1948]

(g) (1) whether the Regional Transport Authority, Bellary, applied to the Central Road Traffic Board, Madras, for instructions as to the procedure to be adopted;

(2) whether the Secretary sent a reply that the Regional Transport Authority should follow the Ruling of the Madras High Court; and if not, whether the Government will quote the exact terms of instructions sent to the Road Transport Authority, Bellary;

(h) whether the Regional Transport Authority, Bellary, then referred to the Government of Madras for instructions and whether the Government have not yet issued instructions to Regional Transport Authority, Bellary, and the reasons therefor; and whether the Regional Transport Authority, Bellary, have adjourned the subject *sine die*;

(i) if the Government have issued instructions, when they were issued and to what effect;

(j) what the reasons are for the extraordinary delay in disposing of the matter by the Regional Transport Authority, Bellary, for eighteen months since January 1947; and

(k) whether the Regional Transport Authority, Bellary, has been issuing temporary permits to Sri Machani Somappa these eighteen months and whether such action is regular?

THE HON. SRI B. GOPALA REDDI :—“ (a) & (b) The answers are in the affirmative.

“ (c) The appeal referred to was preferred by Sri Machani Gangappa and not Machani Somappa. The Central Road Traffic Board confirmed the decision of the Regional Transport Authority.

“ (d) The answer is in the affirmative but the Government ordered the grant of a temporary permit to Sri Machani Gangappa and not to Machani Somappa.

“ (e) & (f) The answers are in the affirmative.

“ (g) (1) The answer is in the affirmative.

(2) General instructions were issued by the Central Road Traffic Board to all Regional Transport Officers in the light of the High Court's judgment.

“ (h) & (i) The Regional Transport Authority, Bellary did not refer the matter to the Government for instructions nor have the Government issued any instructions to the Regional Transport Authority. It is true that the Regional Transport Authority, Bellary, has deferred consideration of the case.

“ (j) The case was entrusted to the Regional Transport Authority, Bellary, only towards the close of July 1947. The delay in disposing of the case was unavoidable.

“ (k) The Regional Transport Authority, Bellary, has been issuing temporary permits to Sri Machani Gangappa and not Machani Somappa and the action is regular.”

[22nd November 1948]

SRI B. BHIMA RAO :—“ Sir, have the Government since issued instructions to expunge the subject from the agenda of the Regional Transport Authority? ”

THE HON. SRI B. GOPALA REDDI :—“ Notice.”

SRI R. SURYANARAYANA RAO :—“ May I know whether the parties can be represented by Advocates before these Regional Transport Authorities? ”

THE HON. B. GOPALA REDDI :—“ Not ordinarily.”

SRI R. SURYANARAYANA RAO :—“ I would like to ask whether it is proper for Members of the Legislature to put questions in regard to petitions in which they appear as advocates before the Regional Transport Authority and when the decisions go against the clients? ”

THE HON. SRI B. GOPALA REDDI :—“ It is not at all desirable for members to put such questions.”

SRI T. PURUSHOTHAM :—“ మాచన రోమప్ప, మచిన గంగప్పలకు ఏ మైనా సంబంధమున్నదా? ”

THE HON. SRI B. GOPALA REDDI :—“ I am not here to trace the relationship of Somappa and Gangappa.”

SRI T. PURUSHOTHAM :—“ ఈ మాచన గంగప్ప అనే ఆసామి, ప్రామీక డిస్ట్రిక్టు కలెక్టరుకు Regional Transport Officer సామర్థ్యము ఉన్న Case ను రద్దు చేయించుకొనినా? Regional Transport Officer సామర్థ్యము లేకుండా నిర్ణయించినా? ఈ విధంగా చేయబడిన కారణం ప్రభుత్వం తెలుసునా? ”

THE HON. SRI B. GOPALA REDDI :—“ I do not know who he is and what influence he has exerted on the Regional Transport Authority.”

THE HON. DR. T. S. S. RAJAN :—“ Sir such questions are absolutely out of order; for the hon. Member first puts one question, then gives an explanation and argues his case on the reply given by Government. It is certainly out of order.”

SRI T. PURUSHOTHAM :—“ ఈ గంగప్ప అనే ఆసామిని ప్రభుత్వములో ఉన్న ఎవరికైనా సంబంధమున్నదా? ”

DEPUTY PRESIDENT :—“ I do not think I can allow all these questions.”

SRI B. BHIMA RAO :—“ Since the Central Road Traffic Board issued instructions to the Regional Transport Authority to follow the ruling of the Madras High Court and confirm their previous decision, why is it they have delayed so long and not carried out the instruction of the Central Road Traffic Board to follow up the Madras High Court ruling and act accordingly? ”

THE HON. SRI B. GOPALA REDDI :—“ As it is, it is a statutory body, and Government have no power to interfere

[22nd November 1948]

with the Regional Transport Authority. Of course the amending Act is pending assent of the Governor-General; till then we cannot take any further action.”

SRI B. BHIMA RAO :—“ May I know, Sir, why is it this subject has not been expunged from the agenda even after eight months after the High Court ruling and *status quo ante* restored? ”

THE HON. SRI B. GOPALA REDDI :—“ It is not a matter that can be inquired into by Government; for that body is a statutory body.”

Illicit transport of foodgrains by motor lorries.

* 102 Q.—SRI B. BHIMA RAO : Will the Hon. the Minister for Finance be pleased to state—

(a) whether action was being taken hitherto against the owners of motor lorries who were using them for illicit transport of foodgrains against the control orders and whether the permits were being cancelled or suspended;

(b) whether the Government have recently passed a specific rule to the effect that such licences cannot be cancelled or suspended unless there was an express condition therein to the effect that they should not be used for the purpose of illicit transport of foodgrains; and if so, whether the Government will place the full text of the new rule on the table of the House;

(c) whether Regional Transport Authority, Bellary, had taken proceedings against Sri Machani Somappa of Yemmiganur for cancellation or suspension of the permits in respect of his lorries for having transported foodgrains illegally in July 1947 and subsequently and whether the said proceedings were being adjourned from time to time;

(d) whether the said proceedings were dropped at a meeting of the Regional Transport Authority held on 2nd July 1948 on account of the new rule referred to above;

(e) what the reasons for the promulgation of the new rule are and whether there was any representation made for such promulgation, and if so, by whom; and

(f) whether the Government have taken any action for setting aside the forfeitures and suspensions of permits already made by the various Regional Transport Authorities before the promulgation of the new rule?

THE HON. SRI B. GOPALA REDDI :—“ (a) The answer is in the affirmative.

“ (b) No new rule was issued but only instructions clarifying the scope of the existing provisions of the Motor Vehicles Act relating to cancellation or suspension of permits were issued.

“ (c) The proceedings referred to were taken against one Machani Gangappa and not Machani Somappa.

[22nd November 1948]

- (d) The proceedings instituted against Sri Machani Gangappa were dropped by the R.T.A., Bellary, on 5—7—1948.
- (e) The question does not arise in view of the answer to clause (b).
- (f) The question does not arise in view of the answers to clauses (b) and (e)."

SRI B. BHIMA RAO :—" Sir, what was the necessity for the clarification when so many permits were being suspended and cancelled during the course of these two years after the control orders came into operation? "

THE HON. SRI B. GOPALA REDDI :—" When doubts were expressed by subordinate authorities, certainly clarifications have to be issued."

SRI R. SURYANARAYANA RAO :—" May I know if cases for illicit transport of foodgrains have been disposed of? "

THE HON. SRI B. GOPALA REDDI :—" I would request the hon. Member to put a separate question."

SRI B. BHIMA RAO :—" Is it not a fact that numerous permits were suspended and cancelled during the course of the last eighteen months? "

THE HON. SRI B. GOPALA REDDI :—" Presumably the hon. Member from Bellary knows more about it than Government."

SRI R. SURYANARAYANA RAO :—" Is it fair that the Regional Transport Authority should cancel or suspend a permit when a case against the holder thereof is pending? "

No answer.

Printing presses in the Presidency.

* 103 Q.—SRI S. B. ADITYAN : Will the Hon. the Minister for Industries be pleased to state—

(a) the number of printing presses (i) in Madras City and (ii) in the Presidency outside the City;

(b) whether there is any proposal before the Government at present not to grant permission for starting new printing presses and, if so, for what reasons; and

(c) whether there are any restrictions against existing printing presses from being removed from one locality to another?

THE HON. SRI H. SITARAMA REDDI :—" (a) 339 and 990 respectively.

(b) In view of the acute scarcity of white printing paper, in the Province due to short supplies made by Paper Mills in recent months, the Government decided early in July 1948, not to grant permission for operating new printing presses until the supply position of paper eased. The Government

[22nd November 1948]

have since reviewed the position and have permitted the Director of Controlled Commodities to consider, on their merits, the applications from persons or institutions who have already made commitments by way of having imported or purchased machinery, buildings, etc., and have incurred financial liabilities, and to grant permission wherever necessary.

(c) Under Clause 17 (b) of the Paper Control (Economy) Order, 1945, read with notification of the Government of India, Department of Industries and Civil Supplies, No. 370 P.A. (272)/45, dated 20th December 1945, as subsequently amended, no person shall, except with the permission of the Director of Controlled Commodities, Madras, change from one district to another district the location of a printing press."

SRI R. SURYANARAYANA RAO :—" May I know, Sir, if the reasons for the transfer are considered satisfactory, whether the Director of Controlled Commodities will generally agree to the transfer of the press from one place to another? "

THE HON. SRI H. SITARAMA REDDI :—" If there is a good case made out, that will be considered."

Enforcement of the Madras Shops and Establishments Act.

* 104 Q.—SRI R. SURYANARAYANA RAO : Will the Hon. the Minister for Industries be pleased to state—

11-30
a.m

(a) what arrangements have been made to give effect to the provisions of the Madras Shops and Establishments Act;

(b) whether the Government have exempted any shop or establishment from all or any of the provisions of the Act;

(c) if the answer to (b) is in the affirmative, what the grounds are for such exemption;

(d) the provision or provisions under which such exemptions have been granted;

(e) whether the shop assistants or the employees in exempted establishments were afforded reasonable opportunities to present their point of view before exemptions were granted; and

(f) whether the proposed intention of the Government to grant exemptions was notified and objections called for before passing final orders?

THE HON. SRI H. SITARAMA REDDI :—" (a) Officers of the Factories and Labour Departments, District Industries Officers, Commissioners of Municipalities, Executive Authorities of Panchayat Boards, Tahsildars and Deputy Tahsildars have been appointed ex-officio Inspectors to see that the provisions of the Act are given effect to. A full time Inspectorate will be set up shortly for this purpose.

(b) Yes, Sir. Some establishments have been exempted from all the provisions of the Act and some others from specified sections of the Act.

[22nd November 1948]

- (c) The exemptions have been granted to avoid inconvenience to the public and in view of the Special nature of certain employments.
- (d) The exemptions have been granted under sections 6 and 32 (3) of the Act.
- (e) No, Sir. The views of the employees were not ascertained but their interests were always kept in view.
- (f) No, Sir. The Act does not require previous publication of proposals for exemption."

SRI R. SURYANARAYANA RAO :—" In view of the fact that exemptions granted at the request of employers are likely to lead to strikes and other forms of protest by employees, will the Government consider the desirability of affording reasonable opportunity to the employees to present their case before passing orders granting exemption? "

THE HON. SRI H. SITARAMA REDDI :—" Certain establishments like the advocates' chambers, doctors' consulting rooms, and dispensaries and hospitals have been exempted. In cases where exemptions have been granted, the interests of workers have always been kept in view and sufficient safeguards have been taken to see that the interests of workers do not in the least suffer."

Royalaseema Co-operative Enquiry Committee.

* 105 Q.—SRI R. SURYANARAYANA RAO: Will the Hon. the Minister for Local Administration be pleased to state whether the Government have arrived at decisions on the various recommendations of the Royalaseema Co-operative Enquiry Committee?

THE HON. SRI K. CHANDRAMOULI :—" (a) The recommendations of the Committee relating to the financing of agriculturists for long and short terms and the reorganization and supervision of the village primary societies in Royalaseema are still under the consideration of the Government. As regards the other recommendations, orders have already been issued by the Government."

Action taken against the Panchayat Board, Buchireddipalayam.

* 106 Q.—SRI L. SUBBARAMA REDDI: Will the Hon. the Minister for Local Administration be pleased to state—

(a) whether any petitions have been received by the Government alleging mismanagement and misuse of the funds of the Panchayat Board, Buchireddipalayam in Nellore district;

(b) if so, what steps have been taken by the Government to enquire into those petitions; and

(c) if a report is received, what action the Government propose to take?

22nd November 1948]

THE HON. SRI K. CHANDRAMOULI :—" (a) Yes; a petition from the hon. Member was received by the Inspector of Municipal Councils and Local Boards.

" (b) The allegations made in the petition have been inquired into and a report of the enquiry has been received.

" (c) The nature of the action to be taken is under consideration."

Proposal to close down the museum in the Pudukottai State.

* 107 Q.—SRI C. N. MUTHURANGA MUDALIYAR: Will the Hon. the Minister for Education be pleased to state—

(a) whether it is a fact that there is a museum in the Pudukottai State which has since been merged in the Madras Province;

(b) whether it is a fact that there is a proposal to close down the museum;

(c) if so, what arrangements are proposed to be made to safeguard the antiquities and where they are proposed to be kept;

(d) whether it is a fact that they are archæologically very valuable for the study of monuments in the State; and

(e) what facilities are being offered to scholars who wish to study these antiquities in relation to the monuments?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR :—

" (a) Yes.

" (b) The answer is in the negative.

" (c) Does not arise.

" (d) The antiquities no doubt serve to create interest in the monuments of Pudukkottai.

" (e) The Government of India will give the scholars all the facilities which they give in other parts of India to study the ancient monuments and the antiquities relating to them, when the ancient monuments of Pudukottai are taken over by the Department of Archaeology of the Government of India. The Government are not aware whether any scholar has applied for such facilities in the transitional period."

Hostels for the students in the City.

* 108 Q.—SRI B. BHIMA RAO: Will the Hon. the Minister for Education be pleased to state—

(a) the steps taken by the Government in order to implement the recommendation of the Housing Committee to establish hostels for the students studying in the City of Madras;

(b) whether the Government are aware of the fact that the accommodation provided for in the hostels attached to some of the colleges is quite insufficient for all the students studying therein; and

[22nd November 1948]

(c) whether the Government are taking any steps to construct hostels or for securing accommodation and boarding to those students who are not able to secure admission into hostels attached to colleges?

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR :—

“(a) Government have decided that the question of implementing the recommendation of the Committee as far as they relate to hostels should be deferred.

“(b) So far as aided colleges in the City are concerned, there is no definite information about the sufficiency or otherwise of the accommodation provided for students in the respective hostels. In the case of Government colleges in the City it is true that accommodation in the hostels attached to some of these colleges falls short of the needs of the students.

“(c) There is no proposal to construct hostels for men students studying in Government colleges in the city. A proposal to acquire the building of the Lady Willingdon Nursing Home for purpose of a hostel for men is under consideration. Recently, the Government have started a hostel in “Amir Manzil” in Mount Road, for city college students who are not able to get accommodation in hostels attached to colleges in which they are studying.

“As regards women students, there is a proposal to construct a hostel in the compound of the Lady Willingdon Training College for Women. The Government have also opened a hostel for women in the ‘Retreat,’ Kilpauk.”

SRI B. BHIMA RAO :—“Are the Government aware that several students in the city colleges experience considerable difficulty in securing hostel accommodation?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR :—

“Yes, there is difficulty for hostel accommodation in the city.”

SRI B. BHIMA RAO :—“Will the Government secure more buildings for use as hostels?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR :—

“The Government have already taken the ‘Amir Manzil’ in Mount Road and are on the look-out for suitable buildings. If any of the aided colleges in the city are anxious to start hostels, the Government will help them.”

SRI R. SURYANARAYANA RAO :—“Will the Government find out whether there is sufficient hostel accommodation for students of aided colleges in the city?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR :—

“Generally there is insufficiency of hostel accommodation. But Government have not got the exact particulars.”

SRI R. SURYANARAYANA RAO :—“Is it not the duty of the Government to provide adequate hostel accommodation as the students are put to great inconvenience?”

22nd November 1948]

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR :—

“The Government are trying to do what all they can in the matter.”

SRI R. SURYANARAYANA RAO :—“Is there a system by which accommodation is guaranteed to a certain number of students depending on the strength of the colleges?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR :—

“No, Sir. When aided colleges want to build hostels and apply to the Government for aid, the Government render help wherever possible.”

SRI R. SURYANARAYANA RAO :—“Has the University sent any report about the insufficiency of hostel accommodation for students?”

THE HON. SRI T. S. AVINASHILINGAM CHETTIYAR :—

“It is difficult to answer the question without notice. But we have not got any such report as far as I know.”

Marking and grading of ghee.

* 109 Q.—SRI MOTHEY NARAYANA RAO : Will the Hon. the Minister for Agriculture be pleased to state—

(a) whether anyone is given permission in this Province for marking and grading of ghee on actual values of genuine ghee; and if not, why;

(b) whether anyone has asked for such permission;

(c) what are the actual R.M. and B.R., etc., values of genuine ghee in each district, seasonwar, found by the Government; and if not, why;

(d) whether the Government are aware of the figures given by the Indian Institute of Science, Bangalore, and the Imperial Dairy Export, Bangalore, on the examination of genuine general ghee in the Andhra districts; and

(e) if so, why marking and grading is not being done on the actual values?

THE HON. SRI K. MADHAVA MENON :—“(a) Permission is being given in this Province to mark and grade ghee with a minimum Reichert Meissel (R.M.) value of 28. Permission is not given for grading ghee having a lower value than R.M. 28 although it may be genuine ghee. The reason is that while ghee with an R.M. value of over 28 can be considered genuine, samples with lower value may or may not be pure.

“(b) Applications have been received from the following areas for grading ghee with a minimum R.M. value of 28 :—

Tirupur (Coimbatore District)	From 1 merchant.
Golaprolu (East Godavari District)	From 1 do.
Guntur (Guntur District)	From 4 merchants.
Madras (Madras City)	From 1 merchant.

[22nd November 1948]

(c) The minimum values now accepted by the Madras Government and the Agricultural Marketing Adviser to the Government of India are as follows for Agmark ghee :—

Reichert Meissel value (R.M. value)	Not less than 28.
Butyro refractometer reading at 40 degrees C (B.R.)	40.5 to 42.5.

The above is based on the results of actual tests of genuine ghee got from a number of areas such as Coimbatore, Tirupur, Rasipuram, Prodattur, Guntur, Ellore and other parts of the Presidency.

(d) In fixing the value of Agmark ghee, the Government have taken into consideration figures given by the Institute of Science, Bangalore, and also results of subsequent tests made in the Presidency through the Government Analyst and the marketing staff. Although in some cases in the Andhra districts a lower R.M. value than 28 was recorded, the Government Analyst was of opinion that during the year 1948, 60 per cent of the genuine samples analysed gave an R.M. value of over 28, and ghee of such value can be considered unquestionably genuine and unadulterated.

(e) Marking and grading of ghee are done under a higher standard of 28 R.M. because 'agmark' is the quality mark sponsored under Government auspices and therefore should be restricted to unquestionably high quality genuine unadulterated ghee."

SRI B. BHIMA RAO :—" May I know what is meant by R.M. value, as I am a layman and do not know the meaning? "

THE HON. SRI K. MADHAVA MENON :—" I am also as much a layman as the hon. Member. The letters R.M. represent Reichert Meissel, who is perhaps the founder of the value."

SRI B. BHIMA RAO :—" Is it a fact that it is mentioned in the last year's Administration Report that the ghee generally available is adulterated to the extent of 40 per cent and, if so, what steps the Government are taking to see that pure ghee is available? "

THE HON. SRI K. MADHAVA MENON :—" If it is found in the Administration Report, there is no point in asking whether it is a fact. We don't publish in the Administration Reports things which are not facts. As regards the steps taken, the Government are prosecuting the persons who sell adulterated ghee and getting them convicted if there is sufficient evidence."

SRI M. NARAYANA RAO :—" Is it a fact that ghee from Andhra parts has a maximum of 24 R.M. value and that it is pure."

[22nd November 1948]

THE HON. SRI K. MADHAVA MENON :—" If the R.M. value is not less than 28, there is no possibility of there being any impurity."

SRI M. NARAYANA RAO :—" If ghee without R.M. value of 24 also is pure why can it not be accepted."

THE HON. SRI K. MADHAVA MENON :—" Ghee with an R.M. value of over 28 alone can be considered genuine. Therefore the Government have accepted that standard."

SRI M. NARAYANA RAO :—" May I know why, when a Bombay firm is permitted to mark and grade ghee, an Andhra firm is not permitted to do so? "

THE HON. SRI K. MADHAVA MENON :—" If my Friend will give me more particulars, I shall ascertain and let him know."

Total value of the manure coupons issued in 1946-47.

* 110 Q.—SRI B. NARAYANASWAMI NAYUDU : "Will the Hon. the Minister for Agriculture be pleased to state—

(a) the total value of the manure coupons issued in the Presidency for the Kareef year 1946-47; the total value of the said coupons issued for each district in 1947;

(b) how much of groundnut cake and fertilizers, (i.e., quantity and value) were issued in each district so far against the coupons issued in 1947 and how much is outstanding in each district; and

(c) what amount (the quantity and value) of the above articles was procured and distributed by the Government in the several districts in 1945-46 and 1946-47 and what the quantity is that the Government will be able to procure and distribute against the coupons issued in 1947?

THE HON. SRI K. MADHAVA MENON :—" (a) to (c) The answer* is placed on the table of the House."

Recommendations of the Water-supply and Drainage Committee.

* 111 Q.—SRI R. SURYANARAYANA RAO : Will the Hon. the Minister for Public Health be pleased to state—

(a) whether all or any of the recommendations of the Water-supply and Drainage Committee have been given effect to;

(b) whether it is proposed to introduce Public Health Engineer course in the Engineering College;

(c) whether the Government have under consideration water-supply schemes for Uruvakonda and Penukonda in Anantapur district;

(d) whether a Geologist was deputed by the Geological Survey of India in connection with water-supply scheme to Penukonda;

[22nd November 1948]

(e) what the scheme is which required geological survey and what the findings of the Geologist are; and

(f) when the Government propose to tackle seriously the question of water-supply to Penukonda?

THE HON. SRI A. B. SHETTY :—“(a) All the recommendations are under the active consideration of the Government. No final orders have been passed on any of them.

“(b) The question is under consideration.

“(c) Yes.

“(d) Yes.

“(e) A well was ordered to be sunk at a cost of Rs. 10,200 in 1946 but the work was not proceeded with as sufficient water was not tapped at a depth of about 63 feet. The Geologist was deputed to see whether this well could not be improved and also to explore other ways of affording water-supply. His finding was that the well under construction was useless. He suggested three alternative proposals for affording supply of water to Penukonda :—

(1) Wells to be sunk between Islapuram and Timmapuram villages;

(2) wells to be sunk near Ramapuram; and

(3) wells to be sunk in Pennar river either near Roddam village or between Dondapalli and Peddamanathuru.

“(f) The Government have recently asked the Sanitary Engineer to go and inspect the locality himself or to depute the Executive Engineer (Public Health) for the purpose, and submit detailed proposals and estimates for the provision of drinking water for Penukonda and neighbouring villages. His report is awaited.”

SRI B. BHIMA RAO :—“Are the Government aware that water is not available in Penukonda and that the people have to wait at the draw wells throughout the night to take water?”

THE HON. SRI A. B. SHETTY :—“Yes, Sir, during the dry season water is not available and it is brought from the neighbouring villages.”

SRI B. BHIMA RAO :—“Why do not the Government give priority to sinking wells in villages within two or three miles of Penukonda and provide water for the town?”

THE HON. SRI A. B. SHETTY :—“An officer is investigating a scheme in the bed of the river Hagari. It is estimated to cost about 8 lakhs.”

SRI R. SURYANARAYANA RAO :—“In view of the scarcity of water in Penukonda, will the Government give the highest priority to the scheme as soon as the investigating officer's report is received?”

[22nd November 1948]

THE HON. SRI A. B. SHETTY :—“There is scarcity of water in many places. The scheme will be given as high a priority as possible.”

SRI T. PURUSHOTHAM :—“తాగుటకు మంచిరు బొయకక ప్రజలు వాడవడమన్న ప్రదేశాలలో మంచిటి నూతును త్రవ్వించునపుడు అనుభవముగలిగినటువంటి water diviners యొక్క సహాయమును పొందటానికి ప్రభుత్వమువారు ప్రయత్నము చేస్తారా?”

DEPUTY PRESIDENT :—“The hon. Member's question is whether the Government will utilize the services of water diviners to find out the existence of subterranean water in that place.”

THE HON. SRI A. B. SHETTY :—“I am not sure whether the employment of water diviners will serve any useful purpose.”

SRI T. PURUSHOTHAM :—“నైదావేట తాలుకాలో రాలిముత్తు అనే water diviner ఉన్నాడని, అవసరమైనచో అతని services ఉపయోగించుకొనవచ్చునని ప్రభుత్వమువారు తెల్ల కార్టర్లకు ఒక communication పంపినారా?”

DEPUTY PRESIDENT :—“The hon. Member wants to know whether the Government have sent a communication to a water diviner by name Kali Muthu to find out the existence of water in different places.”

THE HON. SRI A. B. SHETTY :—“I cannot give a reply off-hand. A separate question may be put.”

SRI R. SURYANARAYANA RAO :—“May I know whether this Government believe in water divining?”

THE HON. SRI A. B. SHETTY :—“I do not think the Government have any opinion on the subject.”

SRI R. SURYANARAYANA RAO :—“Are the Government aware that in the Bombay Province water diviners are engaged?”

THE HON. SRI A. B. SHETTY :—“That is an information which will have to be verified.”

SRI B. BHIMA RAO :—“Are the Government aware that a water diviner was engaged in the Bellary district in 1935 and that the water he struck in twelve places was brackish and unfit for human consumption?”

THE HON. SRI A. B. SHETTY :—“I am thankful to the hon. Member for the very valuable information.”

Steps taken to ward off malaria in the Tungabhadra Project area.

* 112 Q.—SRI R. SURYANARAYANA RAO : Will the Hon. the Minister for Public Health be pleased to state—

(a) what active steps are being taken by the Government to ward off malaria in the Tungabhadra Project area;

[22nd November 1948]

(b) whether there are other towns and villages in Bellary district especially in the western taluks of the district where malaria is prevalent throughout the year;

(c) whether the Government have advised the municipalities and panchayat boards in these taluks to undertake anti-malarial operations promising all possible assistance;

(d) whether actually anti-malarial measures have been formulated for the Panchayat Board area of Harpanahalli;

(e) whether the District Board, Bellary, has expressed its inability to bear the expenditure;

(f) whether the Government have under consideration any proposals to assist the local bodies to promote anti-malarial measures where they already exist and to compel other local bodies to start them; and

(g) what the areas in the Province are in which anti-malarial measures are being actually undertaken?

THE HON. SRI A. B. SHETTY:—“(a) Tungabhadra Project Antimalarial Scheme was started in the Project area in 1945 with one first-class Health Officer and necessary staff in charge of the scheme. Anti-malarial operations are being carried out since then in the Dam-site, Hospet Municipality, Canal camps and in 88 endemic villages in the Project area. The operations consist of Paris-greening of breeding places of carrier species of mosquitoes, clean-weeding of channels and vankas, minor engineering works like closing of burrow pits and draining of water stagnations. Spraying with pyrethrum mixture and DDT emulsion are also being carried out. Free distribution of quinine and quinine substitutes is done in the whole project area. Antimosquito repellent cream was distributed recently in certain parts of the area as an experimental measure and found to be very effective. Larvicidal fish are introduced in the wells where there is breeding of mosquitoes. The incidence of Malaria has been considerably reduced in the area.

“(b) Yes. In many places malaria is found to be seasonal, the malaria transmission season usually being August to February. Heavy rainfall in any year is usually followed by a greatly increased incidence of malaria.

“(c) No specific advice has been given to the local bodies in the matter—Anti-malarial measures have already been sanctioned for Bellary Municipality and Hirehal Panchayat. A scheme for the Harpanahalli Panchayat Board has been deferred as the Bellary District Board and the Panchayat Board expressed their inability to find funds for carrying out the scheme. In Hospet Municipality a scheme of anti-malaria measures is being carried out from Provincial funds as part of the Tungabhadra Project Scheme. The Government's financial aid to the local bodies for Anti-malaria Schemes is usually one-third of the actual cost of the schemes provided that such aid is justified taking into account the financial position of the local bodies concerned.

22nd November 1948]

“(d) Yes. A scheme of anti-malaria measures was formulated embodying proposals for permanent measures at a cost of Rs. 25,000 and temporary recurrent measures at a cost of Rs. 660 per annum.

“(e) Yes. Not only the District Board but also the Harpanahalli Panchayat Board have expressed their inability to meet any portion of the cost of the scheme. The scheme has therefore been deferred till such time as the Bellary District Board is in a position to meet its share of the cost.

“(f) The Government are already giving financial assistance wherever necessary equal to one-third of the actual expenditure on the scheme. In special cases, where a particular scheme is considered imperative and the local body concerned is unable to fully meet its share of the cost, a more liberal assistance is given by the Government. There is no proposal to compel a local body to start anti-malarial measures. Necessary provision for doing so, however, exists in the Madras Public Health Act, 1939.

“(g) Anti-malaria measures are now being carried out in the following areas:—

- (1) A. Sundajious scheme in North Vizagapatam district.
- (2) Krishnadevipeta and extension schemes, South Vizagapatam district.
- (3) Chintapalle Anti-malaria Scheme—South Vizagapatam district.
- (4) Araku Valley Land Colonization Scheme, Vizagapatam Agency.
- (5) Polavaram Investigation Centre with four sub-stations (East and West Godavari districts).
- (6) Nellore District Anti-malaria Scheme.
- (7) Gunfur District Anti-malaria Scheme.
- (8) Cuddapah Municipality Anti-malaria Scheme.
- (9) Wynaad Land Colonization Scheme.
- (10) Tungabhadra Project Anti-malaria Scheme.
- (11) Chittoor District Board Anti-malaria Scheme.
- (12) Kurnool Municipality Anti-malaria Scheme.
- (13) Anantapur District—Kadiri Taluk Scheme.
- (14) Ramapadasagar Project Scheme.
- (15) Machkund Hydro-Electric Scheme.
- (16) North Arcot District—Chengam Taluk Scheme.
- (17) Salem District—Harur Taluk Scheme.
- (18) Nugur Anti-malaria Scheme, East Godavari Agency.
- (19) Paderu Anti-malaria Scheme, Vizagapatam Agency.
- (20) Coimbatore District Scheme.
- (21) Puttur taluk—South Kanara district.
- (22) Lower Bhavani Project.

[22nd November 1948]

(23) Cinchona Plantation—Anamalais Hills (Coimbatore district).

(24) Malabar District—New Settlers' Colonies.

(25) Kodaikanal and Palni Hills, Madura district."

SRI R. SURYANARAYANA RAO :—" Sir, may I know in the long list which the Hon. Minister was good enough to read, whether in all cases the Government are only meeting one-third of the cost? "

THE HON. SRI A. B. SHETTY :—" Sir, as I have already said where the District Board finances do not permit sufficient contribution for the scheme and when the scheme is very urgent and necessary, the Government give larger grants for the scheme."

SRI R. SURYANARAYANA RAO :—" Sir, may I know whether the case of Harpanahalli does not come under that category? "

THE HON. SRI A. B. SHETTY :—" The District Board as well as the Panchayat Board said that they are unable to meet any portion of the cost."

SRI R. SURYANARAYANA RAO :—" If the District Board is really poor and if the Government are satisfied and if the Panchayat Board is also equally so, in view of the ravages of Malaria, do not the Government consider it necessary to waive in such cases insistence on contributing their portion of the cost? "

THE HON. SRI A. B. SHETTY :—" Such matters will be considered on their merit."

SRI R. SURYANARAYANA RAO :—" Sir, will the case of Harpanahalli be considered on its merit? "

THE HON. SRI A. B. SHETTY :—" Yes, Sir."

GOVERNMENT BILL.

II.—THE MADRAS ESTATES (REPEAL AND CONVERSION INTO RYOTWARI) BILL, 1947 (L.A. BILL No. 37 OF 1947)—*cont.*

DEPUTY PRESIDENT :—" Now, we shall resume discussion on the Zamindari Abolition Bill. Already we took three days to discuss this Bill. To-day we shall finish the general discussion and I am going to fix a time-limit of 30 minutes as per rule 64 (2) which says—

(2) *The President may, by general order, prescribe a time-limit for speeches on Bills or resolutions or amendments to a Bill or resolution, or on adjournment motions under rule 36.*

Therefore, I request hon. Members to confine their speeches within 30 minutes. Now, Mr. Natarajan will continue his speech."

* SRI K. NATARAJAN :—" Mr. Deputy President, Sir, I was myself feeling that I was somehow not in order in taking up so much time of the House the other day and I also now feel I must, as far as possible, stick up to the time-limit imposed by the Deputy

[22nd November 1948] [Sri K. Natarajan]

President. I know that many of these memorials are communicated to all members of the Legislature—both Assembly and Council. In my case it so happens that because from the very beginning Tanjore has not at all been given good prominence in the discussions so far made, many people have sent special letters asking me to make representations on their behalf. Therefore, I crave your indulgence, Sir, to extend the time-limit of 30 minutes by two or three minutes more.

" Sir, I shall begin where I left. From what I read in the 'Indian Express' to-day, I see that the same difficulty which I felt, in the Bill is attempted to be met. I find that the Hon. Minister in an interview has stated that steps would be taken to have Section 299 of the Government of India Act, 1935, amended and I am satisfied with that. Fortunately enough, I find in the newspapers that even the Deputy Prime Minister of India, Sardar Patel, with reference to other points, is going to move an amendment to the Government of India Act of 1935. I believe, this is an opportune time when this amendment also may be brought to his notice and he may be requested to have this suitably amended. But I am not so much for the amendment being carried and stopping there. I am more satisfied with the answer which the Hon. Revenue Minister gave that payment in cash is not difficult or impossible. If money is paid in hard cash, it will assuage to a certain extent the feelings of the zamindars, palayamdars and to a greater extent the poor inamdars who are overburdened with debt. This payment of money will be certainly a welcome relief to them. Therefore, I would request, on behalf of all those affected by this Bill, the Hon. Revenue Minister to see that somehow or other these people are paid in cash so that they may not be put to unnecessary hardship.

" Sir, the other day I was dealing with the Palace Estate of Tanjore. As I said, this Palace Estate consisting, in the main, of about 150 villages is included in the category of Inams. The fact, that one's own property has been treated as inam, is no doubt a paradox. The law has its paradox. Therefore, I request that so far as compensation is concerned, the owners of the Palace Estate, whoever they may be, may be treated on a more liberal footing. Tanjore presents difficulties of its own in the matter of this legislation.

" Sir, there is also one other difficulty. Although it is a private estate of the Raja and although the landholders are owners of the property, certain people have got decrees in the court recognizing them as occupancy tenants, by reason of this property being treated as inam. Therefore, they are considered to be ryots now in the matter of granting ryotwari pattas. Here the difficulty comes in. Though these persons are owners of the property, they are treated as melvaramdars. But they must be treated as ryotwari pattadars. So far as those persons who have got occupancy rights and have been in possession of the property are concerned, they must be given ryotwari patta also but their position will be that of an under-tenure holder. At the same time what I want is that the persons who are interested in the administration of this Act must be

[Sri K. Natarajan] [22nd November 1948]

persons who are more acquainted with all these complicated judicial ideas. Therefore, the Palace Estate must be treated on a more liberal footing in the matter of compensation. Secondly, those persons who have got occupancy rights must be treated as persons who are entitled to an under-tenure patta. This is my conclusion. I do not want to dilate upon that matter any further.

"Then, I come to the next complicated thing. In Tanjore, there are, what are called, Palace Chatrams. After the then Raja's death in 1852, these Chatrams were taken over under the management of the Collector under Regulation VII of 1813. What happened afterwards was, that the Collector under the District Boards' Act transferred these chatrams to the management of the District Board of Tanjore. If you are going to appoint Collectors to take possession of the property after the notified date, what is to be done with this property that is now managed by the District Board?

12 noon. "Now in so far as this is concerned, there is one difficulty which we feel and which I hope, the Hon. Minister will kindly consider. Even in the Prakasam Committee's Report, which has dealt with this Estate in particular, the Committee has come to only a very dubious conclusion in regard to the legal status of the chatrams in the Tanjore district and I shall read the concerned paragraph from that Report which gives us only a very vague idea of the same. This is what the Report says at page 108, Part II:—

'Tanjore Chatram Estate had, notwithstanding the fact that it was originally an inam long ago became the property of the Government after the death of the last of the rulers of Tanjore.'

"With due respect, Sir, I may submit that this statement is not correct and it did not become the property of the Government. The Report further states:—

'The Board of Revenue managed the estate on behalf of the Government and later transferred it to the District Board. The District Board became the proprietor of the estate. It is therefore an estate and not an inam and for that reason it has been included amongst the Southern Estates, and the evidence considered along with other estates.'

"This statement, I submit, Sir, is not also correct. If it became the property of the District Board, how could the Government claim it now and include it as an estate? The legal status of these chatrams in the Tanjore district is very dubious and now I only wish to point out to the Hon. Minister for Revenue to go into the matter again and see that they are properly defined, before the Collector is asked to proceed under this Bill after it becomes law. As I have just now stated, in respect of this species of property in the Tanjore district there is still some doubt, and I hope, that later on when rules under sections 67 and 68 are going to be made, this question will be considered again by the

22nd November 1948] [Sri K. Natarajan]

Government and suitable instructions issued to the District Collector or to the authority who is to proceed to act under this Act and see that this difficulty is resolved and the exact position of these chatrams correctly defined, so that their work could be carried on in a well-regulated manner.

"Sir, there is also another complication which is peculiar to the Tanjore district alone and I think that the draftsman of this Bill has not apparently given due attention to this aspect of the question, in drafting this Bill. Here I refer to the Devasthanam temples and choultries. There are about 130 temples in the Tanjore district, which are known as Palace Devasthanams and they have got a number of villages, as endowments granted by the ancient rulers. So far as these devasthanam temples are concerned, the Religious Endowments Board has been exercising general control and supervision over them, and a scheme has been framed by the Religious Endowments Board, whereby persons have been appointed to manage their affairs under a trustee of the temple, who is a descendant of the Rajah. Now what is the legal position of these Palace Devasthanams? The trustee is a descendant of the Rajah and he is appointed to that post under a scheme framed by the Hindu Religious Endowments Board. What is to become of these Palace devasthanams under this Act, when it is enforced? That has not been made clear and we are still in doubt as to what exactly is going to happen to them. I would therefore request the Hon. Minister for Revenue before enforcing this Act, when it is passed, to visit these institutions and cause inquiries to be made into their legal position and define their status under this Bill and see that their work is not interrupted.

"There is another question which has also to be settled in regard to religious institutions. When these religious inams are taken over by the Government, a tasdik allowance is proposed to be given to these institutions under clause 38. As I have already said, so far as many of these temples are concerned, their work is being carried on under a scheme framed at the instance of the Religious Endowments Board and persons are already in possession of the temples. Now these properties are earmarked for certain purposes for each temple. In Tanjore we have got so many temples, wherein so many festivals are conducted during the year and expenses for these festivals are earmarked and paid out of the income from such properties. There are what are called grain expenses. I do not think that this Act makes any provision for such a thing when referring to the tasdik allowance to be paid under section 38. Are these things to be paid in cash hereafter? I hope that clear and suitable instructions will be given to the authorities concerned in regard to this matter, when the Act is enforced. As I just now referred, there are now two statutory authorities over these temple properties, namely, the Collector and the Religious Endowments Board and the Government are going to introduce another authority under this Act. It is very necessary to clarify the functions of these three authorities under the Bill.

"Sir, now let me come to the question of the ordinary inams. I understand from the hon. Friend Mr. Ramanatham Chettiyar

[Sri K. Natarajan] [22nd November 1948]

that he intends to speak on this subject, and I will be providing some time for him, if I mention only this, with special reference to the Tanjore district. So far as inamdars and zamindars are concerned, there are alienees from both of them. What is their position? If you completely wipe off these alienees from the purview of this Bill, then there will be no difficulty. But this Bill has given one indication in regard to these alienees. Taking the definition of zamindari estate if they had registered themselves separately, I think, they will be exempt from the operation of this Act. I do not know whether I am correct, but this point has been puzzling to me and it is a point which has to be dealt with by the Legislature itself. But I shall not take up the time of this House by raising what may be considered legal conundrums.

"Sir, one instance of a rather inattentive drafting, I may mention here. In the definition section, various terms coming under this Bill have been defined and there are three definitions with which we are immediately concerned. Clause 2, sub-clause (7), defines an inam estate and it says that "an inam estate" means an estate within the meaning of section 3, clause (2) (d), of the Estates Land Act, but does not include an inam village which became an estate by virtue of the Madras Estates Land (Third Amendment) Act, 1936." Then again "an under-tenure estate" is defined to mean an estate within the meaning of section 3, clause (2) (e), of the Estates Land Act. Now we shall see what section 3 (2) of the Estates Land Act says. The definition of an under-tenure estate in the old Act is, 'any portion consisting of one or more villages of any of the estates specified above in clauses (a), (b) and (c) which is held on a permanent under-tenure.' In effect the definition given here for an under-tenure estate is, 'an under-tenure means an under-tenure.' Does this make any sense and will this be clear to the ordinary person. I would request the Hon. Minister for Revenue to look into these definitions once again and see whether they cannot be made more understandable and clearer to the reader.

"Then take again the definition of the term Inam Estate. It is a negative definition. It does not say which is an inam estate. It is like defining a cat as that which is not a dog. The Hon. Minister is apparently anxious to get this Bill through without any amendment or alteration in this House. If he is satisfied with these definitions, then of course, I have nothing to say. But with all our experience here for the last so many years, I think it will not be very complementary, if the Hon. Minister for Revenue accepts these definitions as very accurate definitions.

"Then let us take up the definition of a zamindari estate as given under clause 2, sub-clause (16). It says, that 'zamindari estate' means—

- (1) an estate within the meaning of section 3, clause (2) (a) of the Estates Land Act, after excluding therefrom every portion which is itself an estate under section 3, clause (2) (b) or (2) (e), of that Act; or

22nd November 1948] [Sri K. Natarajan]

- (2) an estate within the meaning of section 3, clause (2) (b) or (2) (c) of the Estates Land Act, after excluding therefrom every portion which is itself an estate under section 3, clause (2) (e) of that Act.'

"I have tried to understand this definition with the best of my ability, by making all these plus and minus calculations, mentioned therein, but I must say, I am at a loss to understand what exactly a zamindari estate is, according to this definition. Perhaps my arithmetical knowledge may be defective or my understanding of the English language may be very deficient. But at the same time, I submit that when definitions are given to terms which are to be used in everyday life, they must be a little more understandable by the common people who have to deal with them and whose interests are affected by such measures. If the Hon. Minister considers these things again and makes them clearer, I shall be happy.

"Sir, now after making these arithmetical calculations, and going through the various provisions of this Bill, I have come to the conclusion that whoever had purchased properties from the zamindars at any time and had them registered in their names and such entries are found in the Collector's records, then such owners of properties will be exempted from the operation of this enactment. I should like to know whether this conclusion of mine is correct. If not, I hope the Government will consider this matter again and issue clear instructions to the authorities who are to work this Act after taking competent legal advice. Otherwise various legal complications would arise, giving place to endless litigations, which sometimes would be taken up to the Privy Council. We must not give room to such things.

"There were many amendments of the Madras Estates Land Act from 1908 to 1936 numbering about 15. There were many pronouncements that the Madras Estates Land Act was very badly drafted and probably it is the fate of this Bill also. I request the Hon. the Revenue Minister, because he is very well acquainted with all these difficulties, to make the provisions of the Bill precise. Let the inamdars and the zamindars be at any rate satisfied with regard to the provisions of the Bill so that they may not be tempted to resort to courts with regard to them. That is my submission to the Hon. Minister, Sir.

"Then I come to another question. What about the purchasers from the inamdars? I wish to state one thing regarding this. The next portion of it I shall leave to my hon. Friend Mr. Chettivar. Of course the original inamdars were mostly Brahmans. But even at the time of the inam settlement in 1862 in Tanjore the original grantees had disappeared, i.e., most of the inamdars had sold away their properties for valuable consideration. The inam title deed is granted to the effect that it is their freehold and they can alienate the inam or do whatever they like. It is alienable, it is transferable, it is heritable. That is the wording of the inam title. So the inams have now passed through the hands of several generations from 1862, at least five generations, namely,

12-15
p.m.

[Sri K. Natarajan] [22nd November 1948]

from the purchasers to their sons and their heirs. They have purchased the inams even before 1862 and the purchase was always for valuable consideration in the bona fide belief that nobody would interfere with the state of affairs. Now how are we going to act? I say: Once for all deal with the matter in a separate legislation. But for the present openly declare by putting in a provision that so far as alienees from the inamdars and the alienees from the zamindars are concerned, they would be dealt with in a separate legislation, and that for the present you will keep the matter in suspense as in the case of the 1936 inams. Whether the Government are going to accept this or not, this is my submission. Otherwise there will be a lot of litigation. If there is one case now, there will be one hundred cases in its place. That is the difficulty I wanted to point out, Sir, and I want the matter should be settled now. In these unsettled times no litigation must be allowed and people must not be put to further expense. In one way they are ousting the jurisdiction of the Courts and in another they are opening the flood gates of litigation for the courts.

"Another thing which I want to refer to is about clause 55 of the Bill. Clause 55 says:

'After the notified date, the landholder shall not be entitled to collect any rent which accrued due to him from any ryot before, and is outstanding on, that date; but the manager appointed under section 6 shall be entitled to collect as such rent . . .'

"I shall stop with this portion. Sir, I submit the notified date will not be the same everywhere. And it will not be immediately after the passing of the Act. There are so many districts in the Presidency and the Bill will not apply to all the districts at once but will only apply to particular localities on a notified date. The date of notification may vary from one to three years. What does the clause say? After the notified date the landholder shall not be entitled to collect. What is to become of the arrears which will be accruing to him or which have accrued to him already? So far as Tanjore is concerned the notified date may be after two years, say in 1950. Now the landholder will be entitled to collect rents due to him for the years which are not barred by limitation. In the Tanjore district it so happens suits under section 77 of the Estates Land Act for recovery of rents have been kept pending without any *vimochanam* for these people. Some Deputy Collectors have disposed of the cases and some have kept them pending. Now the proviso to clause 55 says:

'Provided that any such rent, which accrued due in respect of the fasli year 1356 and earlier fastis, shall be reduced on the basis that the landholder is entitled in respect of each of those fastis, only to the rent as determined under the Madras Estates Land (Reduction of Rent) Act, 1947.'

It is also said that if the ryot has paid before the notified date or pays within two years of that the rent due for the fasli years 1356 and 1357, etc., then all arrears of rent due from him shall be deemed to have been completely discharged. Suppose a ryot is due to pay

22nd November 1948] [Sri K. Natarajan]

rent for five faslis and I am not barred from recovering it, and I have instituted a suit and the suits are pending. They will notify the estate in 1950. Now they say that if the rents for the faslis 1356 and 1357 are paid then all arrears of rent due from such ryots will be deemed to have been completely discharged. So if the ryot pays the arrears of rent for 1356 and 1357 in the year 1952, two years after the notified date, what happens to the rents previously due, which are not barred by limitation and where there is a competent decree. I wish this state of affairs must be contemplated. I have read the Agricultural Debt Relief Act, Sir, and I see that provision has been made for such contingencies. The Act which was introduced by Rajaji, the present Governor-General, fixed a certain date for the payment of arrears for certain faslis. In section 15 of the Agricultural Relief Act this is what is stated—

'If anybody pays on the 30th of September 1939 the arrears accrued due for two faslis then the whole arrears will be wiped out.'

Therefore a certain definite date should be put. Never mind the notified date, because it will be varying and it may not be uniform. There must be some provision to the effect that all the persons in the presidency who are in arrears to the landholder must pay on such and such a date, say 1st of July 1949 the arrears for these two faslis and then they will be discharged from all arrears of rent. He also issued a moratorium that no suits could be filed. Here nothing of that sort has been done. They have stated that eviction proceedings may be stayed. For suits under section 55 they have not issued a moratorium. If suits against the tenants are barred to-morrow I must file a suit for arrears, because I do not know the notified date and I do not know when he will pay the arrears. I cannot allow it to get time-barred and therefore I have to file a suit. If the Hon. Minister still persists that simply because the payments for faslis 1356 and 1357 are made the whole thing can be wiped out, if he continues to believe that it is moral, if he continues to believe that the landlord must lose not only *melwaram* or the *kudawaram* but also the arrears of rent due to him, although he has been paying the tax, I request him to at least save the inamdar and the landlord from the necessity of further suits. Let him issue an ordinance namely that no further suits should be filed regarding the arrears of rent in a particular locality till the notified date. This will save the proceedings that are pending and it will save a lot of time and energy and expense. I do not know, Sir, whether I have made myself clear to the Hon. the Minister regarding this point which has to be taken into consideration. There is this difficulty for thousands of people who are at the mercy of the courts. It is no use to be told in 1952, two years after the notified date, that two years' rent will be paid. Till then they will be going on instituting suits. This is also an instance of rather bad drafting in this legislation. This is all I have to submit, Sir.

"Unless they pay adequate and equitable compensation it will not satisfy the people who are affected by this measure. There

[Sri K. Natarajan] [22nd November 1948]

is no use getting the Act alone amended. That will not satisfy them. It was given to a Justice Government, Sir, to deprive the zamindar of their rights and it was left to the Congress Government to deprive the landholders of their kudiwaram and melwaram rights and there is still something left, namely, the 1936 inams. The Hon. the Minister is saying that he will introduce legislation. He is one of those gentlemen who will keep their word. The zamindar has been deprived of the melwaram and the kudiwaram rights, the inamdar has been deprived of his kudiwaram right and now you are taking away his melwaram right also, so far as the 1908 inams are concerned and then so far as the rest are concerned there is the promised legislation. I therefore request the Hon. Minister to consider these points. As regards the definition of the 1936 inams, the Hon. Minister's definition does not satisfy us. It must be as in the old Act, namely: "An estate means all those lands which were granted to a landholder, he being not already the owner of the kudiwaram". That will be the correct definition.

12-30 p.m. "Sir, I take strong exception to the fact that the burden of proving that the estate is not 1936 inam is laid on the person who has to assert it. What is the procedure? They issue notices to the people who are lulled in the belief that the 1936 inams will not be affected and want them to inquire: What are the notices on the boards? What are the notifications in the gazettes? Does it affect me? There is only one appeal to the Tribunal. The whole thing is final there and you cannot appeal to a Court of Law. Then what is to be done. Please define it as correctly as possible. I know that a correct definition of the holder and other things is not possible. But, this kind of elimination definition, negative definition and subtractive definition are very very rare in legislations. If he gives a correct definition, then the Hon. Minister's name would be worshipped as one who stands for the amelioration of the tillers of the soil. By doing this, the Hon. Minister will also avoid a crop of litigations. Therefore, in his own behalf, I say he should give a correct definition. We are satisfied with the underlying principle of this Bill and it is also the tendency of modern times that the Government of the people should be agreed that these intermediaries should be removed and that the so-called tillers of the soil must be benefited. We support that object but we are here to see that no unnecessary litigations crop up on account of this measure.

"Then, Sir, so far as the objection taken by my hon. Friend and such an eminent gentleman as Dr. Lakshmanaswami Mudaliyar, is concerned, I fully and respectfully support what he said. Why should the rules be placed before the Legislative Assembly and not before the Legislative Council also? He asked, 'what is the meaning of saying that only the Legislative Assembly shall go into those rules.' He also asked why 1939 should be taken as the basis, and then there is the lacuna in adopting a later date. In these things, I fully agree with him and if the Government think fit, they can accept some of the amendments proposed to be moved

22nd November 1948] [Sri K. Natarajan]

in this Council with regard to these things. The Minister should not say, that we have again to take this Bill to the Legislative Assembly if we pass some amendments here by a majority. If it is necessary, he should take it again to the Legislative Assembly and should not rush through this important legislation."

THE HON. SRI KALA VENKATA RAO:—"After fourteen months!"

SRI K. NATARAJAN:—"Sir, I know in another Act of 1934, though the Act was passed in the year 1934 by the Legislative Council, the then Governor said that in view of the complexity, he would not give his consent. It was pending for nine months. There were amendments placed on the table after the Bill was passed into law by the Legislative Council. The members said that though these amendments were brought to their consideration, at any rate, they were not fully conversant with the scope of those amendments. This is what the Governor said with reference to them."

THE HON. SRI KALA VENKATA RAO:—"Now-a-days he has no powers."

* SRI K. NATARAJAN:—"That is not the question, Sir. I do not want to invoke anybody's powers. I only want to invoke the power of the Hon. Minister and also to invoke his discretion. Therefore, Sir, in 1934 the Governor said that the measure was a complicated thing, and although there were amendments placed on the Table of the Council when that legislation was considered and everything about the pros and cons, the effects, the consequences and the import of the legislation were known, still he said it was a very very complicated legislation and therefore he would not give his consent. He said, 'Better have it reconsidered and re-examined by the Council.' That is why there was a delay of two years and then the Act was passed only in 1936. Similarly now, I request the Hon. Minister to wait and to settle all the complications.

"Only one word, Sir, before I sit down. Nobody need be surprised that I support this Bill. As I began, I end. The trend of modern times and the trend of modern ideas is such that if you want to get rid of the zamindars—the Hon. Dr. Lakshmanaswami Mudaliyar also put it in so many eloquent words—if you want to get rid of these zamindars, you will have to get rid of them in as harmless a way as possible. Therefore, if this Bill is passed into law, due compensation should be given to those people so that there may be an end of these matters and an end of these litigations. I finally apologise to you, Mr. Deputy President and the Hon. Minister and the Council for having taken so much of the time of the House. But, because I had so many things and because I had a duty to discharge towards my constituents who have placed specifically certain matters in my hands, I had to take so much

[Sri K. Natarajan] [22nd November 1948]

time. As the Hon. Dr. Lakshmanaswami Mudaliyar gave a certificate yesterday, I also say that the Hon. Minister who is well-versed, is entitled to be a doctor."

* S. K. SHAIK ROWTHER SAHIB BAHADUR:—" Mr. Deputy President, Sir, at the outset, I would like to consider the objects and reasons which prompted the Government to bring in this Zamindari Abolition Bill. The Hon. the Minister for Revenue while moving this Bill said that one of the reasons is that the electors have returned their Party to this House on the promise of the abolition of the zamindaris and so they are just implementing the election manifesto in seeking to abolish the zamindaris now. The other reason for bringing this measure, the Hon. the Revenue Minister said, is to better the economic condition of the tenants in the zamindari area, who have been rack-rented by the zamindars.

" Sir, considering the first point, that is, that the Government have to implement the election manifesto, I have to point out that every promise made during the time of election cannot be carried out. It was a kind of slogan when the Congress was preparing for a fight for freedom. Now, freedom has been won. Therefore, the slogan must be changed and problems that are in urgent need must receive greater attention of the Government than they did before. Will the abolition of the zamindaris really contribute to the good of the country? Will it help us to increase the production of foodgrains? We are asked to grow more food and the Government are busy with the abolition of the zamindaris. Sir, the effect of this legislation will be to postpone the nation-building schemes, such as irrigation, development of industries and other things, for want of money. Sir, previous Governments were indifferent to undertake any nation-building schemes and thereby they made us depend on foreign countries for our food and cloth. We thought that our popular Government would immediately take up such schemes as will increase the supply of food and cloth and thus bring contentment to the people. But the actions of the Government, such as the introduction of prohibition and the payment of compensation to the zamindars, have depleted their resources and made them unable to undertake any nation-building schemes.

" Sir, one important point to be considered is that the zamindars who are capitalists invested their money and improved their lands and this helped us to grow more food. Therefore, in future also, if they are allowed to exist, they can improve the existing lands and also reclaim new lands and make them fit for cultivation and help us to increase the production of foodgrains which we are badly in need of. It will be difficult and impossible for the small tenants, to whom you are going to give lands, to find the necessary capital for improving the lands and thereby increase the production.

22nd November 1948] [S. K. Shaik Rowther Sahib Bahadur]

" Sir, why not grant ryotwari pattas to zamindars themselves for their lands and allow them to cultivate their lands and to maintain their livelihood honourably and comfortably? Are there not several ryots under the present landowners owning hundreds of acres of lands cultivating and leasing them out to tenants under them? When there are so many big tenants, I do not see why the Government should say that the zamindar should not be given any land. Why not allow him to cultivate his own lands and make him one of your ryots as in the ryotwari areas?

" Then, Sir, the zamindar's proprietary rights had been recognized by the 1802 regulation and also by successive decisions of the law courts and so adequate compensation should be paid to the zamindars who are dispossessed of their property. Sir, the compensation proposed by the Government is inadequate. Government should also pay the compensation before the estates are taken over so that the zamindar can invest the compensation money on some shares or business and try to live in a comfortable manner, instead of paying compensation after a long period thus making it difficult for him to make arrangements for his maintenance.

" Sir, the zamindars have remained as a sort of well-established institution in the Province for quite a number of years and, therefore, when you want to take away their lands and bring them under State control, you must do it in a manner which would be both just and equitable. The Board of Revenue has been made the final authority to fix up the compensation. Opportunity should be given to those affected to go to the highest court in the land to decide whether the compensation paid is equitable or not.

" Sir, the other reason, given by the Government for bringing in this legislation, is to improve the economic condition of the tenants in the zamindari areas who have been rack-rented by the zamindars, and to do their best for the tillers of the soil, whose welfare is the Government's concern. The Revenue Minister further said that the dream of the present Government is to give adequate food to everybody by adopting new methods to increase food production. But, Sir, I do not know how the Government can increase food production by the abolition of the zamindaris. So far as the economic condition of the tenant is concerned, much can be done without abolishing the zamindaris. By the Rent Reduction Act itself, the tenants and cultivators of the land are benefited to a great extent. If the Government bring in a comprehensive legislation, the interests of the tenants can be safeguarded by granting them permanent occupancy rights and fixing a fair rent for the lands which they cultivate. The condition of the agricultural labourers can also be improved by fixing a minimum wage. Therefore, Sir, it is not essential that, for improving the condition of the tenants, the zamindaris should be abolished.

" Lastly, I would suggest that this is not the proper time for the Government to pass this enactment. The Government would

[S. K. Shaik Rowther Sahib Bahadur] [22nd November 1948]

have done well to postpone this legislation for a period of two or three years, because the Government are not in a position to finance the scheme."

“ఇంకొకవిషయమేమంటే, ఈ జమీందారీలలో చాలాభాగము survey కావడం లేదు. ఈ భాగములను survey చేస్తేనేగాని జమీందారులను compensation ఇవ్వలేదు. ఈ పద్ధతి శ్రీ వెంకట్రావుగారు జమీందారీలకు ఒక సంవత్సరంలో survey చేయిస్తామని చెప్పినట్లు విన్నాము. ఇటువంటిమాట వారు ఎలాచెప్పారో అని చాలా ఆశ్చర్యముకలిగింది.”

THE HON. SRI KALA VENKATA RAO:—“అన్నిటిని ఒక సంవత్సరంలో survey చేయిస్తామని చెప్పలేదు.”

THE HON. SRI KALA VENKATA RAO:—“విడు సంవత్సరాలలో survey చేయించడానికి ప్రభుత్వంవారు విధానముచేస్తున్నారు.”

SRI M. * K. T. M. AHMED IBRAHIM SAHIB BAHADUR :—“ Mr. President, Sir, originally I had no intention at all to intervene in this debate. But when I find member after member from the opposite benches speaking against this Bill, I think it is necessary that I should also speak a few words. (The Hon. Sri K. Madhava Menon; it has become a contagion, perhaps.) It is not a contagion. Sir, I consider it my duty, to speak on this Bill. Whether the Bill is going to be passed or not is quite a different question. But we do know that this House is not going to be allowed to alter a single comma or a colon in the Bill, as it has been presented before us. However, we on this side of the House also have to discharge our duties; though the brains, hearts and tongues of members opposite are with us now, still when it comes to a question of lifting their hands during voting time, the hand will be ‘that of Esau, and not that of Jacob’.

22nd November 1948]

[K. T. M. Ahmed Ibrahim Sahib Bahadur]

“Sir, I expected that the Hon. Revenue Minister when he introduced the Bill before us, would explain the necessity for the measure, and give some reasons for having brought forward such a far-reaching legislation. I am sorry to say, Sir, that he did not say a word about it at all. I do admit, that he explained the changes that were made in the original Bill by the Select Committee, and by the Legislative Assembly, but he did not go to the root of the matter, i.e., to explain the necessity for this Bill. I am also quite conscious that a resolution regarding this matter was passed by this House. But that does not in any way absolve him of the duty of explaining why the Bill has been brought forward.”

THE HON. SRI KALA VENKATA RAO :—“ Sir, when I moved earlier that the original Bill might be referred to a Select Committee, I explained the reason for introducing the Bill, as is the usual convention to explain the objects and reasons of the Bill at the time of introduction of the Bill. I am sure I did so in this House. Perhaps my hon. Friend has forgotten it.”

* K. T. M. AHMED IBRAHIM SAHIB BAHADUR :—“ Probably I was not here at that time. I was at Delhi perhaps.

“ I may say, Sir, that I am not at all convinced that there is any necessity for this Bill. The history of these zamindars has been very often dilated upon, and the Hon. Revenue Minister when he introduced the Bill here as passed by the Assembly, referred to zamindars as commission agents. I want to know whether all the zamindars are commission agents, and tax-collectors or descendants of tax-collectors. History will show that not all these zamindars were tax-collectors or descendants of tax-collectors. There are zamindars who are really descendants of ruling princes, sovereigns and chieftains. There is also another kind of zamindars. At the time when the East India Company introduced the Permanent Settlement the company parcelled out the lands in their possession into mittas; zamins and estates, and sold them to the highest bidders in auction; the persons who purchased the estates thus from the East India Company cannot by any stretch of imagination be called tax-collectors at all. But yet by one stroke of the pen, all of them have been clubbed together, and have been asked to get out. Then there is also the case of persons who have purchased these zamindaris for valuable consideration, with their hard-earned money, from these tax-collectors or descendants of ruling princes or chieftains. Really they have been induced to do so, by the treatment according to these zamindars by successive Governments which have recognized that the zamindars of every class are owners of the soil. Thus they have been, to the knowledge, and with the consent of the Government of the day, ostensible owners of the estates. Thus in a way the Government themselves are responsible for the sales and purchases of these estates on the basis that the zamindars are the owners thereof. Therefore it is not proper to dispossess them now by making the simple statement that they have been commission agents, or tax-collectors, and that their services can be dispensed with, at any moment at the

[22nd November 1948]

[K. T. M. Ahmed Ibrahim Sahib Bahadur]

discretion of the principal, i.e., the Government. I would only submit that if at all Government want to take possession of the zamindari estates, they must pay the owners a fair and equitable compensation. And this compensation should not be fixed in any arbitrary manner as it is proposed in this Bill. The market value has to be paid. Of course, I do understand the difficulties of Government; it cannot afford to pay the huge sums that would be involved if these estates have to be valued at the prevailing market prices. In such a case, they ought not to have ventured upon such a legislation as this, but should have deferred it, until they have the money for the purpose.

“ So far as these zamindars are concerned, they are in a hopeless minority in the province and there is no representative of theirs in this House. Simply because they are in such a minority, they should not be treated in the manner in which the majority party pleases to treat them. The minorities should be treated in the proper manner, and justice should be meted out to them, and they must be made to feel that the Government are doing them justice. The Government should not deal with these zamindars in this manner, simply because they have got a majority in this House. (Interruption.) It is very necessary that they should be treated in a just and fair manner. As they are in a minority, the duty devolves all the more on Government to vouchsafe justice to them. As was pointed out by the ex-Governor of Madras, such action as this on the part of the majority is likely to react on them like a boomerang.

“ Then, Sir, question after question was put by my hon. Friend Mr. Bhima Rao, asking for certain statistics about the extent of land involved in this Bill, the amount of compensation, etc. To none of these, could we get any concrete reply from the Hon. Revenue Minister, who stated that these estates have yet to be surveyed, and therefore exact figures could not be given. So this legislation seems like putting the cart before the horse. We do not know where we are and what our commitments are going to be. Only if we are in the know of these things, we could launch upon a measure of this nature. But the position now is, without knowing the implications of the Bill fully, we are embarking on an adventurous scheme. For instance, when a question was put to the Hon. Revenue Minister as to the total extent of the inams which will come within the purview of this legislation, we only got the reply that it cannot be said. The same is the case as regards the amount of compensation payable to these charitable, religious and educational institutions. We do not know where we are, but yet, we are simply launching on this adventure, without knowing the full details of the same.

“ One important reason that was given for the proposed enactment was that it was included in the election manifesto of the Congress. Some of the dates occurring in the Bill have also been fixed with reference to that manifesto. And the entire populace

22nd November 1948]

[K. T. M. Ahmed Ibrahim Sahib Bahadur]

of this Province is expected to know what the election manifesto promised some time ago. The argument that is advanced is that these people know what the Congress was going to do, and that is why this Bill has been brought forward. I wonder, whether any appreciable portion of the population of this Province ever knew anything about the contents of the election manifesto. During the last elections people went to the polls not on the basis of the election manifesto but on the one single issue of the freedom of the country. I have gone throughout the Province in these days and have been to the remotest corners of the country, but no voter put to me a single question about the election manifesto, but the one thing which agitated the minds of the people then was the freedom of the country. (An hon. Member: “ Pakistan ”) The Pakistan issue need not come in here. No enlightened Hindu put to me a question about the election manifesto.”

1-15
p.m.

THE HON. SRI O. P. RAMASWAMI REDDIYAR :—“ But the election manifesto of the Congress was there before the people.”

* K. T. M. AHMED IBRAHIM SAHIB BAHADUR :—“ It was a sealed book to the generality of the voters. What percentage of the voters voted on the basis of the election manifesto? I know of instances where voters said that they were voting for Mahatma Gandhi. They did not even know the name of the candidate and in some cases they had to go back without recording their votes as they wanted to vote only for Mahatma Gandhi and the polling officers concerned told them that there was no such candidate.”

THE HON. SRI KALA VENKATA RAO :—“ The hon. Member was returned by voters who all knew his name, knew the programme of the party and the election manifesto of the Party. Is that so? ”

(An hon. Member : They all voted for Jinnah Saheb.)

* K. T. M. AHMED IBRAHIM SAHIB BAHADUR :—“ I only ask what percentage of the voters actually knew that they were voting for the things mentioned in the election manifesto of the Congress when the main objective was the freedom of the country. If the Government want to bring forward measures like this which are of far-reaching importance, they should place them before the electorate as specific issues in a general election.

“ Sir, so far as the details of the Bill are concerned, I have not much to say as other hon. Members have covered the ground already. With regard to inams, whatever may be done with regard to personal inams, I want to say a word about the inams granted to religious and charitable institutions. These endowments were given by the sovereigns to the zamindars for their spiritual benefit. When once a particular piece of land is endowed to a religious or charitable institution, the ownership of the donor is extinguished and it vests in God. Under Muhammadan Law such wakfs cannot be revoked. To cancel such religious and charitable endowments is an act of great sacrilege and doing wrong to the memory of the

[22nd November 1948]

[K. T. M. Ahmed Ibrahim Sahib Bahadur]

great benefactors who endowed these inams for their own spiritual benefit and for the spiritual benefit of their descendants. No doubt, the Government have taken the responsibility for giving a certain portion of the income for the purpose of these institutions, but I do not think it is in conformity with the intentions of the original donors.

“Then, Sir, when one goes through the provisions of the Bill one is struck with this astounding provision, namely, whenever there is a dispute between the Government and the citizen, the decision of the Government or that of the subordinate authorities of the Government is said to be final. The Government in such cases desire to be both a judge and a prosecutor. In clause 39 (7) it is said that no order passed by the Board of Revenue under sub-section (5) or (6) shall be liable to be cancelled or modified by the Government or any other authority or be questioned in any Court of Law. Even the Government are prepared to abdicate in favour of the Board of Revenue. But in the case of disputes among the citizens themselves as in the case of distribution of compensation provision is made for tribunals, appeal to the Special Tribunals consisting of High Court Judges and second appeals to the *persona designata*. I cannot understand the discrimination here. On the other hand, if justice is to be done, such provisions for judicial determination must be made more for the determination of disputes between the Government and the citizens than for cases between citizens themselves. But the position is reversed here. I do not see why the Government should fight shy of courts and judicial tribunals in matters which are in dispute between themselves and the citizens.

“Sir, we find that in certain clauses the lands purchased by the landholders in auction sales have been excluded and the landholders will not have any right over those lands. I do not see why it should be so unless the Government feel that all auction sales under the Estates Land Act, are collusive or *mala fide*. These sales have been held by Revenue Divisional Officers, and such officers of the cadre of the same Revenue Divisional Officers are now going to be appointed to tribunals to be formed under the Act and invested with such arbitrary powers. How can we say that the sales conducted by this same class of officers have been collusive or *mala fide* in effect? It is said that for the lands purchased in auction sales ryotwari pattas will not be issued to the landholders. Then to whom will the pattas be issued? There is a gap here. Nothing is mentioned here about the persons to whom pattas will be issued for these lands. As Mr. Ranga Reddi pointed out the other day there will be many false claims and endless litigation. He was trying to answer the point raised by hon. Dr. Lakshmanaswami Mudaliyar, but the reasons he gave on the other hand confirmed the shrewd suspicions of the doctor. On account of the confusion in the grant of ryotwari pattas, many lands may lie fallow especially at a critical time like this when

[22nd November 1948].

[K. T. M. Ahmed Ibrahim Sahib Bahadur]

we want to push the Grow More Food campaign. I think, Sir, until the matter is settled, somebody must be asked to cultivate the land.

“Then, Sir, with regard to the procedure to be adopted by the Tribunal and the Director of Settlements, everything is left vague. Only in clause 8 (4) there is the following provision:—

“(4) Every Tribunal shall have all the powers of a civil court to compel the attendance of witnesses and the production of documents.”

Is the procedure to be a summary procedure? These are cases where properties owned by persons for generations have to be dealt with. Should there not be proper procedure so that the people may at least have confidence that they are dealt with according to law and in a judicial manner? Why not we say that the Civil Procedure Code will apply in regard to all proceedings before Settlement Officers, Director of Settlements, Tribunals and Special Tribunals.

“Again, Sir, in clause 18 (6) it is stated—

“(6) If any question arises whether any building or land falls or does not fall within the scope of sub-sections (1), (2), (3), (4) or (5), it shall be referred to the Government whose decision shall be final, and not be liable to be questioned in any Court of Law.”

In whose mind should such a question arise and who should refer such questions to the Government? Perhaps, as the Hon. the Revenue Minister said to me in private just now all these things will be clarified in the rules. Probably some Revenue Inspector who will be asked to take over the estate will have to do all these things.

“Then, Sir, I want to say one word about the Revenue Board. From the beginning the Congress has been passing resolution after resolution and crying hoarse for the abolition of the Revenue Board. But now the Revenue Board is made omnipotent. We know how matters are being dealt with by the Revenue Board. We know, Sir, that orders passed by Collectors after personal inspection have been reversed by the Revenue Board, because some clerk put up a note to that effect. Here it is stated that there is no appeal even to the Government against the orders of the Revenue Board. What is going to happen to the poor zamindars. Heaven alone knows.”

At this stage the House adjourned for lunch.

SRI L. SUBBARAMA REDDI:—“ఉపాధ్యక్ష, గౌరవనీయులగు శ్రీ కళా వెంకటాచార్యులు తెచ్చిన బిల్లును నేను వివరిస్తున్నాను. ఈ బిల్లు ఇంతకుముందు ఎప్పుడో కొద్దమందికి తెలిసినది కాని ఇంతవరకు ఎవరూ కొంత అలెక్కలేవని. శ్రీ వెంకటాచార్యులు ఈ విషయములూ చాలా శ్రద్ధవహించి పట్టుదతో ఈ బిల్లును

[Sri L. Subbarama Reddi] [22nd November 1948]

ఈ స్థితికి తీసుకొనివచ్చినందులకు వారిని నేను అభినందించుచున్నాను. ఈ బిల్లు రాకుండా ఉంటే, జమీందారులలోని రైతులు పడే బాధలు చెప్పవలసినంతవిగా ఉంటాయి. ప్రక్కన ఉండే రైత్వారీ గ్రామంలో ఉండే రైతులను జమీందారీ గ్రామాలలో ఉండే రైతులను చూచినట్లయితే, జమీందారీ రైతులు హెచ్చు శిస్తును ఇవ్వలేక ఎంత బాధపడుతున్నారో బోధపడుతుంది. దేవుని మధ్య భక్తుని మధ్య పూజారి ఎంత అడ్డమో గవర్నమెంటు మధ్య రైతుల మధ్య మధ్యవర్తులగు జమీందారులు, ఇనాందారులు అభివృద్ధికి అంత అటంకము, అనేక సంవత్సరాలనుంచి జమీందారులు ప్రభుత్వము మధ్య, రైతుల మధ్య మధ్యవర్తులుగా ఉండి హెచ్చు శిస్తులు వసూలుచేస్తూ జమీందారీ రైతుల అభివృద్ధికి అటంకముగావున్నారు. కాబట్టి వాటిని తగ్గించి విమోచము తప్పింకరముగా లేదు. జమీందారీ రైతులు బాగుపడాలంటే అభివృద్ధి చెందాలంటే ఈ జమీందారీలను రద్దు చేయడం, జమీందారులనే మధ్యవర్తులను తొలగించడం ఎంతో మంచిది.

“మా నెల్లూరు జిల్లాలో ఏ వ పంతు వెంకటగిరి జమీందారీలో ఉన్నది. అందు లోని చెరువులుగాని, కాలువలుగాని, దొరువులుగాని మరమ్మత్తులు లేక చాలా పాడై పోయియున్నవి. రైతులకు వ్యవసాయం చేసుకోవడమే చాలా కష్టమైపోతోంది. పంటపండక రైతులు చాలా బాధలుపడుతున్నారు. ఈ విధంగా చెరువులు, కాలువలు, దొరువులు మరమ్మత్తులు చేయించక రైతులకు నష్టము, కష్టము కలిగించుట మాత్రమే కాక అధిక అపరాధత్వంతో కూడా వీరు అటంకముకలిగించినారు. కాబట్టి ఈ జమీందారీ రద్దు బిల్లువల్ల రైతుల కష్టములు తొలుగుటే కాక అధిక ఆహారోత్పత్తి కూడా ఎక్కువ అవకాశము కలుగుతుందని మనవిచేస్తున్నాను. మా నెల్లూరు జిల్లాలో జమీందారులు రైతుల వద్దనుంచి రైత్వారీ రేట్లకన్న చాలాకాలకునుంచి హెచ్చుశిస్తులు వసూలు చేస్తున్నారు. అనేకచోట్ల ఎక్కడానికి రూ 20 ల రూ 30 లు వరకు కూడా శిస్తు వసూలుచేస్తున్నారు. ఇంత హెచ్చుశిస్తులు వసూలుచేస్తున్నా కూడా జలానా లకు వివిధంగాను మరమ్మత్తులు చేయించటంలేదు. రైతు వ్యవసాయం సాగించుకోలేక చాలాపీనస్థితిలో ఉన్నాడు. ఇటువంటి క్లిష్టపరిస్థితులలో రైతును బాగుపరచడానికి ఈ బిల్లును తీసుకొనివచ్చినందులకు రెవెన్యూ మంత్రిగారిని అభినందించవలసియున్నది.

“ఈ బిల్లును విమర్శించుచు కొంతమంది గౌరవ సభ్యులు ఈ బిల్లువల్ల మధ్య వర్తులకే లాభము జరుగుతోంది కాని నిజమైన రైతుకు లాభము లేదని చెప్పి ఉన్నారు. ఇది ఎంతమాత్రము సరైనదిగా లేదు. ఈ బిల్లువల్ల యదార్థముగా హెచ్చుతుంది జమీందారీ రైతులు బాగుపడుతున్నారు. జమీందారీ గ్రామాలలో నూటికి బాదాలి 60, 70 మంది స్వంత నేడ్యము చేసుకొనేటటువంటివారు ఉన్నారు. గ్రామాలలో తమ భూములను ఇతరులకు మక్కుకు ఇచ్చినవారు ఏ 10, 20 మంది మాత్రమే ఉంటారు కాని ఎక్కువమంది ఉండరు. అందువల్ల ఈ బిల్లువల్ల చాలా హెచ్చుమంది నిజమైన జమీందారీ రైతులకే లాభము జరుగుతుంది.

“ఈనాం గ్రామములలోని రైతుల పరిస్థితులకూడా చాలా దుర్భరముగా ఉన్నది. వారుకూడా హెచ్చు శిస్తులు ఇవ్వకపోలేక చాలా బాధలుపడుతున్నారు. కాబట్టి సాధ్యమైనంత త్వరలో ఈనాం రైతులను సూక్ష్మంగా శ్రద్ధవహించవలసినదిగా మంత్రి గారిని కోరుచున్నాను.

“ఈనాము గ్రామములు మొదట ఇచ్చేటప్పుడు రెండు వరములు ఈనాందారుకు ఇచ్చి ఉండరు. సహజంగా ఒక వరము (శిస్తు వసూలు చేసుకొనే హక్కు) మాత్రమే ఈనాందారులకు ఇచ్చి ఉంటారు. రెండవ వరము ఎప్పుడు రైతులదే అయ్యి ఉంటుంది. ఈ భూములనే రైతులు నేడ్యముచేసి అనుభవించే హక్కు ఉంటుంది.

22nd November 1948] [Sri L. Subbarama Reddi]

అంతే కాని చిన్న ఖండ్రికలు గ్రామముగాని యినాములు మాత్రము రెండువారములు అనుభవమునకు హక్కు ఉండునుగాని చిన్న ఖండ్రికలు గ్రామములుగాని ఈనాందారు లకు రెండు వారములు ఉన్నవనడానికి ఏలండదు.

“Compensation విషయంలో కూడా ప్రభుత్వమువారు ఈనాందారులకు, జమీందారులకు చాలా సమంజసంగా ఇచ్చి ఉన్నారు. ఇది వారికి చాలా అనుకూలంగా ఉన్నది. అందువల్ల గవర్నమెంటువారు ఇవ్వదలచిన compensation ను గురించి విమోచము ఆలోచించవలసిన పనిలేదు.

“ఇంకొక విషయమేమిటంటే ఈ compensation రైత్వారీ రైతులు కట్టిన వన్న లలోనుంచి ఇవ్వవలసి వస్తోంది, ఇది గవర్నమెంటుకు దండగ వస్తుంది, కాబట్టి ఈ డబ్బు జమీందారీ రైతులవద్దనుంచి వసూలు చేయవలసినదని కొందరు గౌరవ సభ్యులు చూచించినారు, ఇది ఎంతమాత్రము సజబుగాదు. ఇప్పుడు జమీందారులు ప్రభుత్వము వారికి 47 లక్షల రూపాయలు పేషిక్స్ కడుతున్నారు. జమీందారీలను రద్దుచేసి రైత్వారీ పద్ధతి అమలు జరిపినట్లైతే సుమారు ఒక కోటికంటే పైగా రూపాయల ఆదాయము వస్తుంది. అంటే గవర్నమెంటుకు పరిపాలనా అన్ని ఖర్చులుపోను, ఒక కోటి రూపాయల అదనపు ఆదాయము వస్తుంది. గవర్నమెంటువారు ఖర్చు పెట్టదలచిన, 12 కోట్ల, 17 కోట్ల రూపాయలకు ఇది చాలామంచి ఆదాయము. ఈ డబ్బు ప్రభుత్వమువారు ఋణముమీద తీసుకొనివచ్చినా దానిని 15, 20 సంవత్సరములలో తీర్చివేయగలరు. తరువాత గవర్నమెంటువారికి సంవత్సరానికి ఒక కోటి రూపాయల నికర ఆదాయము వచ్చును. అందువల్ల ఈ జమీందారీ రద్దువల్ల గవర్నమెంటుకు ఎక్కువగా లాభమేకాని నష్టము విమోచము రాదని మనవి చేస్తున్నాను. కాబట్టి ఈ జమీందారీ పద్ధతిని వెంటనే రద్దుచేసి ఈ వేద రైతులను అభివృద్ధి పరచడానికి పట్టుదలతో పనిచేయుచున్న రెవెన్యూ మంత్రి శ్రీ వెంకట్రావు గారిని అభినందిస్తూ ఈ బిల్లును నేను support చేస్తున్నాను.”

* SRI M. D. T. KUMARASWAMI MUDALIYAR:—“Mr. Deputy President, Sir, one reason for the Government introducing this Bill is that the zamindar has been rackrenting the tenants and does not attend to repairs of the tanks and other irrigation works. Of course, they do not attend to such things as they ought to do. But for such an act, should you cut away the head? Are the Government attending to irrigation schemes and other works in the proper manner in spite of their having enormous official staff? They are not. So, what is to be done, and who is to do it? Sir, abolition of zamindaris will only add to the financial burden of the Government. This step which has been postponed for years is now to come to pass at all costs, irrespective of consequences. Let not the zamindars go without the legitimate amount due to them being given to them, and let not the abolition be postponed. It is quite clear that expert advice from above and the opinion of the financial experts are not going to be heeded. The fate of the zamindars should be assured, and that of the inamdars also. It would have been wiser on the part of the Government if they had tried to remedy the defects instead of aggravating the financial deficit. Thank you, Sir.”

SRI T. PURUSHOTHAM :—“ఉపాధ్యక్షా, సోదరసభ్యులారా, ఈ జమీందారీ రద్దు బిల్లును ప్రభుత్వ పక్ష సభ్యులమైన మేము ఏ సంకల్పముతో, ఏ ఆశలతో విమర్శించుచున్నామో సరిగా అర్థమవుచున్నానోక ప్రతిపక్షమువారు ప్రభుత్వపక్ష సభ్యులే దీనిని విలకరచుట లేదని మమ్ములను విమర్శిస్తున్నారు. ప్రభుత్వపక్ష సభ్యులమగు మేము ఈ బిల్లులోని కొన్ని లోటుపాట్లకు సవరించే నిమిత్తమే విమర్శలు చేస్తున్నామని కాని, ప్రతిపక్ష సభ్యులవలె ఈ బిల్లును పూర్తిగా తోసివేయవలెనని జమీందారీలు రద్దుకాకుండా ఉండాలనిమాత్రము కోరుచున్నారని గ్రహించగోరూను. ప్రభుత్వపక్షములో ఉన్న కాంగ్రెస్ సభ్యులమైన మేము ఒక క్రమ శిక్షణకు అలవాటు పడినవారము. ఒక నాయకత్వముక్రింద ఉండి గత 25 సంవత్సరములనుంచి క్రమ శిక్షణ 150 సంవత్సరములనుంచి ఈ దేశమును పాలించుచున్న బ్రిటిష్ ప్రభుత్వాన్ని ఎదిరించి వారిని ఇచ్చటనుంచి పంపించగలిగినటువంటి కాంగ్రెస్ పక్షమునకు చెందిన వారము మేము. ఈ పక్షములో ఉండే క్రమశిక్షణ ఇందులకు కారణము. మేము ఈ బిల్లును కొన్ని సంతర్భములలో విమర్శిస్తున్నామంటే, అత్త విమర్శన చేసుకుంటున్నామని, పిల్లనా లోటుపాట్లుంటే సరిదిద్దకోటానికి మాత్రమేకాని వేరుకాదు. ఈ అత్త విమర్శన, ఈ క్రమశిక్షణ మాకు మా నాయకుడు నేర్పినాడు. అందుచేతనే మేము ఆజ్ఞాపనని తోచినపుడు విమర్శలు చేసుకుంటాము. దీనిని ప్రతిపక్ష సభ్యులు అవ్యధా భావించడానికి ఏ మాత్రము అవకాశము లేదని మనవి చేస్తున్నాను (hear hear). ఈ బిల్లునైనా మా పార్టీ సభ్యులు కొంతమంది విమర్శన చేస్తున్నారంటే చాలాని లోటు పాటులను విమర్శనచేసుకొని తప్పులను సవరించుకొనుటకేకాని బిల్లును పూర్తిగా తోసి వుచ్చుటకు కాదు కా బట్టి మా విమర్శనలవల్ల ఏమీ నష్టములేదు. మా విమర్శనలు అత్త విమర్శనలు మాత్రమేనని మరల తెలుసు ఈ బిల్లునుగురించి వర్చువారింభిస్తున్నాను.

“ఈ జమీందారీ రద్దు బిల్లును ఇప్పటికి ఈసభకు తీసుకొని రాగలిగినందులకు నాచిర కాల మిత్రుడు గౌరవనీయులు కళా వెంకట్రావుగారిని హృదయపూర్వకంగా ఆభినందిస్తున్నాను. ఈ జమీందారీల రద్దు జరుగుతోందని జమీందారీ రైతు లోకము ఎక్కడ ఆశలతో గత 10 సంవత్సరములనుంచి ఉర్రూతలూగుతూ ఉన్నది. ఇప్పటికి రెండు ప్రభుత్వములను పొట్టునుబెట్టుకొని ఇప్పటికైనా ఈ ప్రభుత్వకాలములో జమీందారీ రద్దు అనే తీవ్రము విషయముండని ఆమెకొని చాలామంది జమీందారీ రైతులు సంతోషిస్తున్నారు. ఇంతవరకైనా అట్టి తట్టుదలతో, శ్రద్ధతో ఈ జమీందారీ రద్దు అనేటటువంటి దానిని తీసుకొని వచ్చినందులకు ప్రభుత్వమువారిని మరల ఆభినందిస్తున్నాను. అయినా ఈ బిల్లులో కొన్ని లోపములు లేకపోలేదు. ఈ బిల్లులో ‘రంగే’ గాని ‘పింగు’ లేదని అనేకమంది ప్రతిపక్ష సభ్యులు చెప్పి ఉన్నారు. మరికొంతమంది ఈ నాడు రాష్ట్ర ఆర్థిక పరిస్థితులు కాగుండలేదని, ఇటువంటి పరిస్థితులలో ఇ.న హెచ్చు Compensation ఉన్నదేమని, అంతేకాకుండా ఇండియా ప్రభుత్వ చట్టము 299 వ Section ప్రకారము ప్రభుత్వమువారు ఇవ్వవలసిన Compensation సక్రమముగా లేదనే కారణముచేత ఈ బిల్లుకు గవర్నరు-జెనరల్ ఎనెంటు (Assent) ఇస్తారా లేదా అనే సందేహము తెలియజేశారు. ఇటువంటి సందేహము ప్రజలలోనునూడా లేకపోలేదు. ఇట్టి సందేహములతోనూ, భయముతోనూ మనకు నిమిత్తములేదు. ఇటువంటి సందేహములకు తొలిచ్చినట్లైతే మనము రైతులొకానికి ఏ మాత్రము ఉపకారముచేయలేము. దక్షిణాది జమీందారీల గురించి వారు హెచ్చు తెలియదుగాని మా ఉత్తరాది జిల్లాలలోని జమీందారీలలోని రైతులొకాని హెచ్చుపన్ను కట్టవలసివచ్చుచున్న సంగతూ అంతరకు తెలిసినదే. ఈనాడు జమీందారులు వసూలుచేయున్న పన్నులు 1802 వ సంవత్సరములో పట్ట

యించినరేట్లకన్న అనేకరెట్లు హెచ్చుగా ఉన్నది. ఇటువంటి హెచ్చింపులు దక్షిణాది జమీందారీలలో జరుగలేదని అందరకు తెలిసిన విషయమే. నేను ఈ విషయాన్ని చూచు తున్నానంటే ఉత్తరాదిని ఉన్నటివంటి జమీందారులందరూ హెచ్చుచేసినాదని కాదు గాని, హెచ్చు సందర్భములో జమీందారీలలో ఈనాడు వసూలుచేయబడుచున్న పన్నులు 1802 వ సంవత్సరపు పన్నుకన్న అనేకరెట్లు ఎక్కువగా ఉన్నాయని వేసు చెప్పగలను.

“ఈ బిల్లు ప్రకారము, ఇందులో ఉదహరించిన నెక్స్టుల ప్రకారము ఇకముందు జమీందారీ రైతులునూడా ప్రక్కన ఉన్న రైత్యులగ్రామాలలోని రైతులు ఏ తరము పన్నులు ఇస్తున్నారో అతరము పన్నులనే ఇవ్వవలసి ఉంటుంది. దీనివల్ల ఇప్పుడు రైత్యులరేట్లకన్న హెచ్చుపన్నులు ఇస్తున్న రైతులకు పన్ను తగ్గించబడుతుంది. అంత వరకు వారికి లాభము కలుగుతుంది, కాని కొన్ని జమీందారీ గ్రామాలలో ముఖ్యంగా మా తూర్పు గోదావరి జిల్లాలోని పితాపురం లోని కొన్ని చాలాచాలలోని గ్రామాలలో ప్రక్కన ఉన్న రైత్యులగ్రామాలలోని రేట్లకన్న తక్కువగా ఉన్నవి. ఈ బిల్లు ప్రకారము ఈ గ్రామాలలోని తక్కువ పన్నులు రైత్యులరేట్లకు హెచ్చింప గలతాయి. కాబట్టి ఈ బిల్లువల్ల ఈనాడు హెచ్చుపన్ను ఇస్తున్నటువంటి రైతులకే ఉపకారము జరుగుతుందికాని, తక్కువపన్ను ఇచ్చేటటువంటికి ఏ మాత్రము ఉపకారము జరుగదు. ప్రకాశం కమిటీవారు రిపోర్టు ఇచ్చినతరువాత రాష్ట్రంలోని రైతులు తమకు హెచ్చుపన్నులు ఇచ్చుకోవలసిన అవసరము ఇకముందు ఉండదని, పన్ను 1802 వ సంవత్సరంనాటి రేట్లకు తగ్గించబడుతుందని ఎంతో ఆశించారు. కాని 10 సంవత్సరాలు జరిగిన తరువాత ఈ ప్రభుత్వమువారు రైత్యులరేట్లనే ప్రమాణము లుగా తీసుకొని ప్రక్కనున్న రైత్యులరేట్లకే ఈ జమీందారీ గ్రామాలలో పన్నును నిర్ణయించదలచినారు. ఈ విధానంవలన రైతుకు న్యాయంగాను, ధర్మంగాను జరుగవలసిన అన్యాయము జరిగిందంటే. Permanent Settlement నాడు 1802లో జమీందారులు వసూలుచేయవలసిన పన్నునే న్యాయమైనది. కాని ఇప్పుడు 1802 నాటిరేట్లను అమలుచేయటానికి ఈ జమీందారీలూ survey settlementలు చేయబడలేదు కనుక కష్టమువుతుంది, అ కష్టతి మంచికష్టతికాదని ఒక విమర్శనచేసినది. ఆ కారణాన్ని వేసు అంగీకరించజాలను. ఇప్పుడు మనము చర్చించుచున్న ఈ బిల్లు చట్టమయిన తరువాత ఈ జమీందారీల నన్నింటిని survey settlement లు చేయించటానికి చాలా కాలమువడుతుంది. వీటిని నన్నింటిని ఏ సంవత్సరములలో survey settlement లు చేయించదలచినట్లుగా రెవెన్యూ మంత్రిగారు అంటున్నారు. Board of Revenue వారు ఇందుకు ఏ సంవత్సరములు పట్టవచ్చునని అంతనా వేస్తున్నారు. కొందరు ఇతరులు అభయము 10 సంవత్సరములైనను పట్టవచ్చు వనకొనుచున్నారు. నామెట్టుకు నేను ఈ భాములనన్నింటిని survey చేయించటానికి 10 విండ్లకు తక్కువపట్టదని నమ్ముచున్నాను. ఇటువంటి పరిస్థితులలో ఈ 10 విండ్లకాలములలో జమీందారీల నన్నింటిని survey చేయించి వాటిపైన 1802 వ సంవత్సరపు permanent settlement రేట్లను నిర్ణయించినట్లైయితే రైతులకు చాలా ఉపయోగముగా ఉండుందని ప్రకాశం వెంకట్రావుగారికి తెలియజేస్తున్నాను. ఈ విషయాన్ని చెప్పడం ‘కర్విత కార్వణం’ అవుతుందని నాకు తెలుసును కనుక గతముగూర్చి ఇక చెప్పి లాభములేదని ఈ విషయాన్ని మంత్రిగారి పరిశీలనకు వదిలివేస్తున్నాను.

“1987 వ సంవత్సరములో మొదట జమీందారీరద్దు తలపెట్టినపుడు అనాటి ప్రభుత్వమువారు ఒక జమీందారీలనే వారి సరికల్పములో ఉంచుకొన్నారు. కాని, 1947 వ సంవత్సరము వచ్చేసరికి ఈ ప్రభుత్వమువారు జమీందారీలతోపాటు ఈ

నాందారీలను కూడా ఇందులో చేర్చినారు. ఈ బిల్లులో ఈనామాల వివిధంగాను
పూరించబడినందుననే జమీందారీలతో జతపరుచబడినవి. ఈ బిల్లుయొక్క
Statement of Objects and Reasonsలో కాంగ్రెస్ Working Committee వారి
ఆ దేశ ప్రకారము ఈనామాల కూడా చేర్చినామని అంటున్నారు. ఇది యధావిధము
కాదని కాంగ్రెస్ Working Committee వారు ఈనామాలను పూర్తిగా ఈ బిల్లులో
నుంచి మినహాయించవలసినదిగా ఆ దేశించినట్లు నామితుడు గోవిందాచార్యులు గారు
చెప్పినారు. ఆయన చెప్పినదానిలో కొంతసత్యమున్నదని నేనూ కూడా అనుకొంటు
న్నాను. మొట్టమొదట ఈనామాలను కూడా ఇందులో రెవిన్యూ మంత్రిగారు చేర్చినారు.
తరువాత కాంగ్రెస్ పెద్దల ఆభిప్రాయానుగుణ్యంగా కొన్ని రకముల ఈ నామాలను
ఈ బిల్లులోనుంచి తొలగించినట్లుగా రెవిన్యూ మంత్రిగారు అన్నారు. ఈనామాలను
ఈ బిల్లులో చేర్చుట తప్పు. ఈ నామాలను కూడా రద్దుచేస్తామని కాంగ్రెస్ వారు
ఎప్పుడూ చెప్పలేదు. ఈ నామాలను గురించి ఇదివరకు ఏ విధమైన విచారణ జరిగి ఉండ
లేదు. ఈ కారణాలచేతనే వీటిని ప్రకాశం కమిటీలోపేర్చుట చేర్చలేదు. ఈనామాలను
జమీందారులకు వరసే ఒక ప్రత్యేక చరిత్ర ఉన్నది. ఈ భూములు 1936 వ
సంవత్సరం వరకు ఈనాందారులు సర్వహక్కులతోను అనుభవించారు. ఆ సంవత్స
రంలో Justice Party వారు వీటిని కూడా కొన్ని రాజకీయ కారణాలచేత estate క్రింద
చేర్చించారు. తరువాత 1937 వ సంవత్సరములో కాంగ్రెస్ ప్రభుత్వమువారు
వచ్చిన తరువాత జమీందారిరద్దుకు మాత్రమే నిశ్చయించి ఒక రిపోర్టు తయారు చేశారు.
అందులో ఈనామాల విషయము ఎక్కడా ఉడవబడినదిలేదు. ఏ విధమైన విచారణ
జరుగకుండా ఈ రోజున రెవిన్యూ మంత్రిగారు ఈనామాలను రద్దుచేస్తామంటే అనేక
వేల వేల ఈనాందారుల కుటుంబాలకు అపారమైన నష్టము కలుగుతుంది. ఏదో వేరు
ప్రతిష్టలతోనూ ఈనామాలను కూడా రద్దుచేయటానికి ప్రభుత్వమువారు నిర్ణయించినారే
కాని న్యాయాన్వయాన్ని వివక్షించేయలేదని మాత్రము చెప్పగలను. ఈనాందారులను
కూడా జమీందారులవలె శిస్తు వసూలు చేసేటటువంటి agent లు అని అనడం ఏ
మాత్రము యధార్థముకాదు. జమీందారీలవలె కాక ఈనాందారీల సంఘముయొక్క
పురోధిత్వద్విగాను ఏర్పాటుచేయబడినవి. పూర్వపు ప్రభువులు, చక్రవర్తులు, కళింగ
ఇతర సాంఘిక ఆధిపత్యములకుగాను ఈనామాలను ఏర్పాటుచేశారు. సంఘముయొక్క
అధిపతిగాను అనేక మందిని నియమించి వారికి చిన్న చిన్న గ్రామములను ఈనామాలగా
ఇచ్చినారు. అటువంటివారివద్దనుంచి ఈ భూములను తీసికొని, ఈనాందారులకు శిస్తు
వసూలు చేసేటటువంటి మధ్యవర్తిని, భూమిని సాగుచేసుటానికి, అనుభవించడా
నికి వారికి హక్కులేదని అనడంచూస్తే ప్రభుత్వమువారి ఆభిప్రాయము బాధపడుట
లేదు. ఈ బిల్లు సందర్భంలో 1937 వ సంవత్సరంలో ఉన్న కాంగ్రెస్ ప్రభుత్వా
భిప్రాయానికి, 1947 వ సంవత్సరంలో ఉన్న కాంగ్రెస్ ప్రభుత్వాభిప్రాయానికీ
తేడా ఉన్నది. ఈనాడు ఈ ప్రభుత్వమువారు పూర్వంనుండి ఉన్నటువంటి భద్రా
దాయాలని దేవాదాయాలని కూడా రద్దు చేయదలచుకున్నారు. ఈ గత 10 సంవత్స
రాలలో ఈ కాంగ్రెస్ ప్రభుత్వమువారి వ్యూహంలోకిన మార్పు ఇది. అంతే
కాకుండా ఈ బిల్లులోని 9వ section చాలా అన్యాయంగా ఉన్నది. ప్రభుత్వమువారి
ఆభిప్రాయ ప్రకారము ఏది 1936 ఈనామాల, ఏది 1908 ఈనామాల, ఏది
1867 ఈనామాల నిశ్చయించుటకు ఆధారములు చూపవలసిన వాధ్యత ఈనాం
దారులైన ఉన్నది. వీటికి కావలసిన ఆధారములన్నియు గవర్నమెంటువారి ఆధీనములో
ఉన్నాయి. Document లు వారి వద్దంలేకుండా ఈనాందారులు వినిచేయలేరు. ఇక
న్యాయాన్వయాలు Special Officer యొక్క, Board of Revenue యొక్క,
Tribunal యొక్క వయాదర్శాలమీద ఆధారపడి ఉంటాయి. వీరి తీర్పులపై

అపీలుచేసు కొనే అవకాశముకలగ జేయబడలేదు. దీనివల్ల కొన్ని సందర్భములలో
ఈనాందారులకు అన్యాయం జరుగటానికి అవకాశాలు అనేకమున్నాయి. ఇటువంటివి
జరుగకుండా Judicial గా తీర్పు ఇచ్చేటటువంటి కోర్టువారిలకు ఈ అధికారము ఇస్తే
ఈనాందారులు, రైతులు ఉభయులు సంతోషిస్తారు.

“ఇంక దేవాదాయ భర్తాదాయాలను గురించికొంత మనవిచేస్తాను. ఈ దేవా

* THE HON. SRI K. MADHAVA MENON :—“Sir, I am interceding in this debate not because I can speak much about the intrinsic merits of the Bill as much as the Hon. Revenue Minister can; and I am sure he will certainly deal with it. But, as I said on a former occasion, I was provoked by certain remarks of the hon. Leader of the Opposition about the legal aspects of the Bill. Sir, besides the hon. Leader of the Opposition, there were other hon. Members who indulged in very big imprecations, curses or deprecations, saying ‘you do not know what is going to be the result of this Bill; wait and see what it is going to be; this Bill will never be put into practice.’ Such were the remarks made, and if I may use the word, even curses were hurled at this Bill.”

DR. V. K. JOHN :—“Does he refer to the Congress Party members or to the Opposition?”

* THE HON. SRI K. MADHAVA MENON :—“If my hon. Friend thinks the cap fits him, let him take it also, Sir. Hon. Ministers have been always here, and if by some accident and due to circumstances, once we are late by two minutes, charges are being levelled against us though as a matter of fact some of us are sitting here so continuously that we are part of the furniture here. So, hon. Members know to whom I refer. About those curses and imprecations and deprecations and declamations against this Bill, I can only exclaim with the Lord ‘Oh Father, forgive them; they do not know what they say.’ (Laughter.) Let us not curse or think ill of the Bill; we have done everything with the best of motives, and let us all pray that this Bill will bring good to the country; let there be no curses which will only bring considerable harm to the country.

“Sir, I was rather perplexed when Mr. Ibrahim Sahib said: ‘Whether you have mentioned it in the Congress election pledge or not, whether this was part of your election manifesto or not,

[Sri K. Madhava Menon] [22nd November 1948]

whoever cared to look into your manifesto or to know what it was about.' I can only say, Sir, that everything seems yellow to the jaundiced eye, that Mr. Ibrahim Sahib and his party had. Only one election cry, viz., Pakistan or nothing, they had; and no other cry before the country to enable either their followers or the people to know the real truth as to whether they stood for anything or nothing. But that was not the case with the people who have voted for us and sent us here; they have thoroughly understood our manifesto; and that is why we are here to-day. I could gather only four points out of Dr. John's very long and learned speech. One was 'why should you pay money from the common taxpayers' money? Does it give the greatest benefit to everybody? Evidently you want to please those who have put you in power.' Yes, Sir; we do want to please and do good to the people who have put us in power; and what are we here for if we are not able to do so? I do not at all fight shy of saying that. If Dr. John thinks it is a big crime, then I plead guilty to the charge that we are here to-day not only to do good to those who have put us in power but also to the people who did not want us to be in power. It does not mean that we should do harm to those who did not want us here just because they did not vote for us; but we cannot give up the idea of doing good to the general body of the people. It is the people as a whole who have put us here and it is their good that we mind. That is my answer, Sir, to Mr. Ibrahim Sahib and Dr. John.

"Dr. John asked: 'why should you pay from the public funds; are you not wasting the amount of peshkash you are now getting, i.e., Rs. 47 lakhs; what are you going to gain by taking away this property from the zamindars and giving it to the pattadars without making them pay for it.' Sir, I am sorry, my arithmetic and my knowledge of arithmetical calculations is a little bit different from that of Dr. John. The total land revenue, excluding the irrigation cess, that we get is about Rs. 4½ crores; the peshkash comes to only Rs. 47 lakhs, not even half a crore. The remaining 4 crores is the land revenue or rent paid by the remaining two-thirds of the entire Province. We are just going to convert this 1/3rd into ryotwari area and reduce the rent to the level of the ryotwari areas, so that when 2/3rds at present pay Rs. 4 crores, the remaining 1/3rd may at least pay Rs. 1½ crores. The Hon. Revenue Minister has given the approximate administration charges; and it will be found there is going to be no waste of money at all. Even if you are thinking of the interest on the investment of Rs. 17 crores, it is not going to be a loss to us. When the ryotwari tenant is paying a particular rent, there is no meaning in asking the zamindari tenant "you are going to be given a ryotwari patta, so you must pay more." Dr. John appeared to be not very much against the abolition or liquidation of zamindaris; but he was obsessed with two or three things like the tiller of the soil, the disregard for the courts and the Permanent Settlement Regulation of 1802. He said "you are doing a thing which

[22nd November 1948] [Sri K. Madhava Menon]

has been condemned before." Brandishing a big book of Civil Courts Manual, Dr. John said: "Here is Regulation II" as if we are doing a very great legal blunder. He said: "the zamindar's proprietary right has been established once for all; you are doing a thing which has been condemned." Sir, it is the usual practice of clever advocates; it requires a bit of art to take up a case, imagine that it is a very big case and make other people realise that a huge blunder is being committed and thus speak on nothing. Dr. John said that the Preamble of Regulation II of 1802 stated that the zamindar had proprietary rights. On the question of actual merits or demerits, the Hon. Revenue Minister will reply in due course, but I am now only replying to Dr. John who gave the idea that we are doing some illegal thing. "The Regulation II does say by implication that the zamindar is a proprietor and now what is the meaning of your saying he is a rent collector and all that" he asked. Sir, the Preamble to the Bill says: "A Bill to provide for the repeal of the permanent settlement," and that is what the law can do. And then it says, "the acquisition of the rights of landholders"; yes, it means we are legislating for taking back what they own. Moreover, there is a definite section in this Bill which says that this repeals the permanent settlement of 1802. I cannot really understand what is the very grave mistake we are committing. Dr. John was harping upon the words "you are doing a condemned act." I do not know who condemned it; we are not doing any such thing here. There is Regulation II of 1802 staring us in the face; we want to repeal it. Of course I can appreciate a criticism of the provisions of the Bill on intrinsic merits. Many members like Mr. Suryanarayana Rao, Dr. Lakshmanaswami Mudaliyar, Mr. Narayanaswami Nayudu and others have gone into the provisions, dissected certain portions of the Bill and stated that such and such provisions were wrong. I can understand those differences of opinion. I may hold a particular view about the abolition of the zamindaris; another person cannot be expected to hold the same view; or I may think this is the right method while it is open to another person to say it is wrong and suggest a better method. But to say that some huge illegal thing is being done is not correct. This Bill does not hide the fact that the zamindars have been declared as proprietary owners; and what is done now is to acquire those rights, and nothing more.

"Again, Dr. John and some other hon. Members said: "you have no regard for the courts; it has become a normal thing for you to say that your acts should not be questioned in courts of law." Sir, there are three places in this Bill where the question of courts comes in. Time is the essence of the actual work to be done under this Act. If we allow every work to be held up by a suit every day or an injunction, then the people who are to work the Act can never work and the imprecations and curses hurled by some people now might become true. We want work to be done by the tribunal in respect of the investigation of inams; we

[Sri K. Madhava Menon] [22nd November 1948]

have also said that one District Judge, a lawyer of such and such standing and a Deputy Collector of standing should form the tribunal to decide questions in that regard. If we allow appeals and counter-appeals to be made indefinitely, how is work to go on? In such a case, we must go on till eternity. As I said, time is the essence of the whole thing. In regard to decisions as to compensation, an appeal is provided for to a Division Bench; but we did not want to go further than that, to the Supreme Court or the Privy Council, because one party may be rich and the other party may be poor and the amount concerned may be small. So we wanted to stop somewhere and that is why we have stopped with two Judges of the High Court. Dr. John says: "Here is section 65 (1) under which all courts go out." Sir, clause 65 (1) says: "No suit or other proceeding shall lie against the Government for any act done or purported to be done under this Act or any rule made thereunder." That is a provision generally made in every law; there is no law in which I have not seen such a provision made in this Province. This is an attempt at land reform and if every act of every officer under this Act is to be questioned in a court of law, where is the end, I ask.

3-30 p.m. "But provision has been made for action being taken against the Government in certain cases; that is if officers of Government have done anything in bad faith, there is provision for taking action. But it must be taken within six months. Therefore, Sir, I do not know where is this bogey of disregard for courts of law. I am sorry it has become a sort of fashion to say that the Government want to disregard courts of law. I beg to say that it is not so.

"Now I come to the fourth point raised by my Hon. Friend, Dr. John. He asked what we have done for the tiller of the soil. I for myself, feel it is very difficult to understand who the tiller of the soil is. I do not know whether it is the pattadar who along with hired labour works on his field or whether it is the day labourer who ploughs the land and receives wages for his labour from the pattadar. I do not know whether he means to suggest that a pattadar owning say ten or five acres of land who works on his plot of land along with labour hired by him is not a tiller of the soil. If that is the point, the motor chauffeur must become the owner of the car and not the person who has purchased it. To say that the pattadar must go and the patta is to be transferred from him is rather unfair. Supposing I have a garden and I employ some men for labour and I work there along with them; of course I pay them wages for their labour. After all that, would I agree to transfer the patta to them and make them the owners? To merely harp upon the tiller of the soil is just using it as a catchword."

DR. V. K. JOHN:—"What about lessees?"

THE HON. SRI K. MADHAVA MENON:—"They will be cultivating the land themselves or with the help of hired labour and

22nd November 1948] [Sri K. Madhava Menon]

they will be paying rents in accordance with the rents fixed in the lease deed. It is not a thing confined to the zamindari areas only; there are lessees in ryotwari areas also.

"It is not a condemnation of the Act to say that nothing has been done to the tillers of the soil; my answer is that there are also many pattadars who are also tillers of the soil. I do not know how Dr. John would put in this Act a provision to the effect that the tillers of the soil alone would be entitled to the benefit of this Act, if there is any benefit under this Act, when along with the wage-earner who works on the field, the pattadar also works along with him and is also the tiller of the soil."

DR. V. K. JOHN:—"I used the words 'cultivating tenant'."

* THE HON. SRI K. MADHAVA MENON:—"The hon. Member has got the proceedings in his hand and he could see what words he used and further Dr. Lakshmanaswami Mudaliyar in the course of his speech touched upon the reference made by Dr. John to tillers of the soil."

"So, Sir, it is very difficult to answer the point."

DR. V. K. JOHN:—"It is, therefore, better not to answer."

* THE HON. SRI K. MADHAVA MENON:—"But there is nothing to answer and that is what I say.

"I have not anything more to say because my Hon. Friend the Revenue Minister is ready to answer the other points. But before I close I wish to disabuse members of the idea that we are doing a very illegal thing; on the contrary, we are enacting this Bill to avoid any illegality and we are trying to do our best.

"Dr. Lakshmanaswami Mudaliyar said that the inequity in the matter of payment of compensation is improper. He said: you are taking away certain vested rights and why should you make any difference when the result of your actions is the same? On a strict rational principle, he is right; there is no difference between the zamindar owning thousands of acres and the other owning a few hundreds of acres. Unfortunately, now the principle of taxation is regressive and the tax is the same per acre, whether one owns ten acres of land or one acre of land. If a man owns ten acres and if another owns five hundred, the man owning five hundred acres pays just fifty times the tax paid by the other man. It is on that basis that I say that the point made by him is quite rational. But my reply is that in the case of the bigger zamindar he will not feel his loss to the extent that the other smaller zamindar will feel his and it is on that ground that the sliding scale can be justified. Though rationally it is all right, we cannot do everything rationally and we have to take account of practical considerations and that is why the sliding scale has been adopted."

தும் பெரிய ஜமீந்தாருக்கு அதை விட குறைந்த மடங்கும் கொடுப்பதாக சொல்லப்படுகிறது. அந்தந்த ஜமீந்தாருக்குத் தகுந்தார்போல் கொடுக்க வேண்டுமென்று சட்டத்தில் சொல்லப்பட்டிருக்கிறது. இந்த முறையை ஒழிக்கும்போது அவரவர்களிடத்திலிருந்து வாங்கும் சொத்தைப் பொறுத்து அதனுடைய market valueக்குத் தக்கபடி compensation கொடுக்கவேண்டும். இதனால் இன்னும் அதிகமான பணக்காரர்களை உற்பத்தி செய்யக்கூடாது என்ற எண்ணங்கொண்டு சிறிய ஜமீந்தார்களுக்கு ஒரு வித ஜால்தி மடங்கு தொகையும் பெரிய ஜமீந்தார்களுக்கு குறைந்த மடங்கு தொகையும் கொடுப்பதாக சொல்லப்படுகிறது. இது ஒரு நல்ல எண்ணம். நான் இதை எல்லோரும் ஆதரிக்கவேண்டுமென்று கேட்டுக் கொள்ளுகிறேன். ஆகையால் இந்த மசோதாவை எவ்வளவு சீக்கிரத்தில் நிறைவேற்றிக் கொடுக்கவேண்டுமோ அவ்வளவு சீக்கிரத்தில் நிறைவேற்றி ஆதரவு கொடுக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன். சிலதுகள் பூராவும் நியாயமாக இருக்க முடியாது என்று கனம் மந்தவ மேனன் சொன்னார். இதில் பலவித அபிப்பிராயம் இருக்கிறது என்றும் சொன்னார். ஆகையால் இதை சந்தர்ப்பம் சமயம் பார்த்து செய்யவேண்டும் என்று கேட்டுக்கொள்ளுகிறேன்.

"இன்னும் reserve fund விஷயமாக கனம் மந்திரியவர்கள் சொன்னார். Development Scheme மாதிரியாக இதைக் கொண்டு வந்து போடுகிறதா என்று கேட்கிறார்கள். வேறு இடங்களில் நல்ல காரியங்கள் செய்திருக்கிறார்கள். இப்பொழுது அந்திாமகாணம் பிரயப்போகிறது. இராமபாதசாருக்காக ரூ. 120 கோடி செலவு செய்யவேண்டியிருக்கிறது. அதனால் தமிழ் நாட்டிற்கு ஒன்றும் பிரயோஜனம் இல்லை. ஆனால் ஆந்திர நாட்டிற்கும் நன்மைகள் செய்யவேண்டும். இப்பொழுது ரூ. 2.47 லட்சம் வருவதில் ரூ. 47 லட்சம் பேஷ் குஷ் முதலிய செலவுகள் போக வருஷம் ஒரு கோடி ரூபாய் மிச்சம் வரும். ஆகையால் reserve bank-ல் ஏதாவது loan float பண்ணி 3 per cent வீதம் கொடுத்து இப்பொழுது compensationக்குக் கொடுக்கப்போகும் தொகைக்கு ஈடு செய்யலாம். இவ்விதம் செய்தால் நாம் 12 கோடி ரூபாய் கொடுத்து போக 18 கோடி ரூபாய் மிச்சம் காட்டலாம். இந்த பேஷ் குஷ் கொடுத்துவிட்டு மிச்சம் ஒரு கோடி ரூபாய் வருவதிலிருந்து இந்த loan-ஐ repay பண்ணலாம். எவ்வளவோ பிரதேசங்களில் ரயத்துகளுக்கு சௌகரியம் செய்து ருக்கிறார்கள். இராமபாதபுரம் ஜில்லாவில் பார்த்தால் அங்கே பஞ்சாயத்து பண்ணி ஜமீன்களுக்கும் ரயத்துகளுக்கும் தகராறு இல்லாமல் செய்திருக்கிறார்கள். அங்கே ரயத்துகள் விளைந்த நெல்லை சாப்பிட்டு விட்டார்கள். ஒரு இடத்தில் 120 ரூபாயும் இன்னொரு இடத்தில் 6½ ரூபாய் மாக இருக்கிறது. சில இடங்களில் நஞ்சையை விட புஞ்சைக்கு தீர்வை குறைவாக இருக்கிறது என்று கனம் புருஷோத்தமன் சொன்னார். ஒருவன் நஞ்சை நிலம் 2 ஏக்கர் வைத்திருந்தால் அதில் நூறு ஏக்கர் புஞ்சைக்கு சமமாக இருக்கிறது. ஆகையால் நிலங்களை மதித்து அதற்குத் தகுந்தார்போல் compensation கொடுக்கவேண்டியது நியாயமாக இருக்கிறது. இன்னும் இராமபாதபுரம் ஜில்லாவில் சச்சிம் சங்கம் முதலியவைகள் ஏற்படுத்தி ஜமீந்தார்கள் நல்ல காரியங்கள் செய்திருக்கிறார்கள் என்று சொல்லப்படுகிறது. இந்த மாதிரி ஜமீந்தார்கள் ஜனங்களுடைய நன்மைகளை கவனித்திருந்தால் இந்த மாதிரி பிரச்சனைகளை வந்திருக்காது. இன்னும் ரயத்துகள் இருக்கும் இடத்தில் போய் மக்களிடத்தில் என்ன எண்ணம் இருக்கிறது என்று பார்த்தால் இப்பொழுது ஜமீன் முறையை ஒழிக்கவேண்டுமென்று சொல்வதை யாராவது எதிர்த்தால் அவர்களுக்கு அடுத்த எலெக்ஷனில் வோட்டுப்போட ஆட்கள் இருக்கவே இருக்காது. Constituent Assumbly-யில் செக்ஷன் 299-ஐ போட்டிருப்பதைப்பற்றி கனம் லெட்சுமணசுவாமி முதலியார் சொன்னார். இப்பொழுது Adult suffrage வரப்போகிறது. எழுதப்படிக்கத் தெரியாதவர்களுக்குக்கூட வோட்டுரிமை வழங்கப்படப் போகிறது என்று இராஜேந்திர பிரசாத் கூட சொன்னார். அப்படி இருக்கும்போது யார் election-ல் ஜெயித்து வருவார்கள் என்று சாதாரணமாக யோசித்துப்

பார்க்கவேண்டும். அந்த மாதிரி வோட்டுமை வகைப்போது இந்த ஊரின் முறை ஒழிப்பை எதிர்க்கிறவர்களுக்கு எவ்விதம் வோட்டுகள் கிடைக்கும் என்று பார்க்கவேண்டும். நாம் இப்பொழுது negotiable bonds ஆக கொடுக்க வேண்டுமென்று சொல்லுகிறோம். அடுத்த எலெக்ஷனில் எப்படிப்பட்டவர்கள் வோட்டுப்பெற்று வருவார்கள் என்று யோசித்துப் பார்த்து அது போன்றவர்களுக்கு இந்த சட்டத்தை Privy Council Federal Court வகுதிய இடங்களுக்கும் போகும்படியான தீர்மானம் வரும்படி இடம் கொடுக்காமல் மரியாதையாக கொடுக்கும் பணத்தை வாக்ஷிக் கொள்ளவேண்டும். அப்படி வாங்கி நாட்டிற்கு நன்மையைச் செய்ய வேண்டுமென்று சொல்லிக்கொண்டு இந்த மாதிரிதான் ஆதரித்து நிறைவேற்றிக் கொடுக்கவேண்டுமென்று கேட்டுக்கொள்ளுகிறேன்.

3-45 * ABDUL LATIF FAROOKHI SAHIB BAHADUR:—" Mr. p.m. President, Sir, let me first of all, pay my humble tribute to the laborious work that has been done by the Hon. Revenue Minister with regard to this Bill. Even his better critics would not deny him the credit of masterly knowledge with regard to the subject and the great pains that he has taken at the cost of his health. But the question is not what a particular Minister is sincerely doing with regard to a particular measure but to what extent that measure is to be utilized for the good of the public. From that point of view, Sir, one fails to see how this Zamindari Bill can be really useful to the people in its present form. Now, Sir, my hon. friend who spoke just before me, said, 'If you go to the villages and find the mentality of the people or the views of the people, you will see that you will not get a single vote in the next general election if you oppose the Zamindari Bill.' That is, all those who are in favour of the Zamindari Bill will certainly get votes but those who are against it will not be elected. Is that the reason, I ask the Congress Party, why they should bring this legislation? Is it because they want to just catch the imagination of the ignorant people and get into legislature again? I say, that this should not be the criterion. This should not be the principle on which any legislation should be based. Of course, I give credit to the Hon. Minister and I know he may not be anxious to be returned to the legislature again. He sincerely believes that this piece of legislation should be placed on the statute book. But I say, he is grievously mistaken.

"Now, Sir, reference was made in this House to the Congress manifesto. I feel that the Working Committee of the Congress drew up that manifesto certainly for the good of the people. But, I ask, was it the manifesto drawn up by the Working Committee or the Madras Provincial Congress Committee or was it the manifesto drawn up by the Working Committee of the All-India Congress Committee? If that is the manifesto drawn up by the All-India Congress Committee, then either we should feel that this Province is very enthusiastic and is trying to follow the principles of the Congress or more wisdom has dawned upon other provinces to defer legislation of this kind. I think this is the first province that has got a piece of legislation of this type. In no other province has the Zamindari Bill been passed."

22nd November 1948]

THE HON. SRI KALA VENKATA RAO:—"It was passed in Bihar."

ABDUL LATIF FAROOKHI SAHIB BAHADUR:—"Has this Bill been passed in Bihar?"

THE HON. SRI KALA VENKATA RAO:—"This has already been passed in Bihar."

* ABDUL LATIF FAROOKHI SAHIB BAHADUR:—"But no date has been fixed. Whatever may be the views of the people outside this province, I am certain that for this Zamindari Bill, no date will be fixed either by this province or by any other province. Most probably, any other party that may come into power after the next general election may scrap this piece of legislation. Sir, I am not in sympathy with the zamindars. I am not a zamindar. Certainly, I am not. I thank God for it. But there are zamindars and zamindars. There are good zamindars and bad zamindars as the hon. Dr. Sir Lakshmanaswami Mudaliyar pointed out. Whether anybody is a zamindar or not, he should not, on account of the fact that he belongs to a particular class of people, be shown any lack of sympathy. Our Province, Sir, has certainly been very forward. We passed the Prohibition Act—I do not know whether the Prohibition Act has been passed by any other province in India.

"Sir, apart from the legality of any Act to which my hon. Friend, Mr. Madhava Menon referred to in his speech and criticised our Leader, Dr. John, there is also a moral aspect of it. Any law, which is not based upon morality, is no law. Therefore, whatever Act you may pass or whatever act you may place on the statute book, if that is not based on morality, I would only say that the public are hoodwinked and that the law which is placed on the statute book is, after all, worth nothing. Now we have passed the Prohibition Act. Even now, there is a Bill before the legislature, Sir, by which the Government want to enrich its coffers by getting excise revenue on importation of liquor, preparation of liquor, export of liquor and so on and so forth. Therefore, what I feel is that our people here—I mean the Congress people here—should rather look to the moral aspect of the question than to the cheap popularity which they hope to get by going to the electorate and saying, 'We have passed the Prohibition Act. We have passed the Zamindari Act.' But there is no use in passing Acts like this unless you really probe into the root of the question and see how far we are morally helping the people.

"Sir, let me now come to the question of morality based on law. What does section 3 (b) of this Zamindari Bill say? It says—

'(b) the entire estate (including all communal lands and porambokees; other non-ryoti lands; waste lands; pasture lands; tanka lands; forests; mines and minerals; quarries;

22nd November 1948] [Abdul Latif Farookhi Sahib Bahadur]

rivers and streams, tanks and irrigation works; fisheries; and ferries), shall stand transferred to the Government and vest in them, free of all encumbrances: . . .

Now, Sir, the Government by a stroke of the pen, without having regard to the moral aspect of the question, say, "Well, all zamindari lands will vest in the Government. I can understand people opposed to zamindars saying like this because they feel that the zamindars are not the real owners of the property; they are not landholders; and they were people who were merely rent Collectors and afterwards, usurped those lands and became proprietors. You see, you not only deprive the zamindars of their lands, but you also deprive those people who—based upon the law of the land standing as it was on that occasion—paid money to certain zamindars thinking that their zamindari lands would be a security for their money and believing that they were acting under the law. They have paid money to the zamindars. Now what is going to happen to their money. Are you not going to confiscate and take over that money illegally by an Act of legislature? You make an illegal act legal by an Act of Legislature and you are depriving those people of their hard-earned money. I can understand your saying that the zamindar is only an ijaradar and rent collector and he has no right over the land and he has no business to get the land and therefore we have no sympathy with the zamindar. I can certainly endorse your opinion with regard to this matter. But what will happen to men who paid their hard-earned money? For instance, I earned money by my hard labour or by carrying on trade or by taking up any legitimate occupation. I wanted to invest that money in a safe security. As a safe security, I gave money to a zamindar according to the law as it stood at that time. Now, according to the present Bill, whatever money I might have given to the zamindar, that money is gone. I have no right to that money.

"Now, there is the other legal aspect. What is the difference between anybody entering my house and taking possession of it and the Government entering and taking possession of all lands and all the mortgage rights. The Hon. Revenue Minister might say that there will be a committee appointed and rules will be framed and will be brought before legislature. But what is the use of such a procedure. The legislature, as it is constituted at present, is subject to certain discipline."

THE HON. SRI KALA VENKATA RAO :—"Is there any other legislature in the world not subject to discipline."

ABDUL LATIF FAROOKHI SAHIB BAHADUR :—"I am referring to the discipline in the party in power. In spite of that, the Hon. Revenue Minister knows that on his side there are people whose hearts are with us, whose tongues are with us and whose feelings are with us but not their votes. (Interruption.) Well.

[Abdul Latif Farookhi Sahib Bahadur] [22nd November 1948]

Sir, I have no sympathy for the inamdars as well. What I say is that if you will only give freedom of vote, you will certainly see that all those people will vote with us and not with you. Therefore, there is a certain discipline to which they are subjected."

DR. V. K. JOHN :—"Does the hon. Member suggest that their conscience is suppressed?"

THE HON. SRI KALA VENKATA RAO :—"There are also certain people on the other side who will vote with us."

DR. V. K. JOHN :—"Let us have a free vote on this Bill."

THE HON. SRI KALA VENKATA RAO :—"This is a democratic Government and democracy has got its own functions and conventions."

ABDUL LATIF FAROOKHI SAHIB BAHADUR :—"Sir, democracy has also its defects. One of the defects is that people cannot express their views and vote according to their own conscience."

THE HON. SRI KALA VENKATA RAO :—"It is also in the League Party."

* ABDUL LATIF FAROOKHI SAHIB BAHADUR :—"Sir, that is one of the defects in democracy, whether it is in the Congress Party or in the League Party or in the United Democratic Party. We are unable to rise above that defect. Therefore, what I say is that certain people are not able to vote with us and they feel that they are really deprived of their legitimate due.

"I have already said that I have no sympathy for the zamindars. But I will certainly take objection if you say that all the money that has been paid must go and that you will fix the compensation. Who are you to fix the compensation? Let the compensation be fixed by an impartial tribunal, or by a court. Let the compensation be fixed according to the law of the land as it obtains to-day. But you put the cart before the horse. You must fix the compensation first. You must also fix the value of the land. You must also see whether a particular land was given on mortgage and whether there was any interest due to that mortgage. After taking all these into consideration, you can say, 'Well, we take this land.' Then it will be quite in order and strictly legal and also according to principles of morality. I am not a lawyer as Mr. Madhava Menon is. He said that lawyers can make out a very good case even on a matter which is very shallow. Lawyers can make out very good cases but I am not able to do it."

SRI MOTHEY NARAYANA RAO :—"Is it a good case you 4 p.m. are advocating?"

* ABDUL LATIF FAROOKHI SAHIB BAHADUR :—"My friend asks 'It is a good case?' That is why I say, there are people on the other side whose sympathy is with us on this measure."

[22nd November 1948]

SRI MOTHY NARAYANA RAO :—" I am referring to your arguments."

* ABDUL LATIF FAROOKHI SAHIB BAHADUR :—" Sir, if I am able to make out a good case, it is not because of my ability, but it is because of the justice of the cause, which lies on this side and not on the other side of the House. Therefore, I say, Sir, this clause 3 (b) should not find a place in this Bill.

" Now, Sir, when zamindaris are to be abolished, who is the man to be benefited by this Bill? Under this Bill you are going to deprive the zamindar of his entire land. A man who possessed hundreds and thousands of acres of land, who was called a zamindar, a respectable man, sometime back, now becomes a landless man, a landless landlord or a landless zamindar; not even an inch of land is to be left to him. This measure does not say, at least, fifteen acres or twenty acres will be left to him. You say all his lands, forest lands, waste lands, pasture lands, lanka lands, every sort of land that he possessed, will be taken away from him. Can want of sympathy and mercy go any further? You are making him a pauper. And what compensation are you going to give him? Supposing you give compensation in the shape of bonds, well, some other party will come to power; who knows, the Communist Party or the Socialist Party may come to power to-morrow and say, 'What else can be done; those bonds were given to you by the then Government under an Act of Legislature; now the legal course for this Government is to pass a legislation and say "all those bonds are hereby cancelled"'. Are you going to give hard cash now? A bird in the hand is worth two in the bush. I can appreciate your saying to the zamindar 'you should also work like us and earn your bread; it is no use eating on another's labour.' You say, 'we will give you compensation; but wait till such time as we are able to pay you.' When is that day to come; nobody knows when it will come. Are they to wait till the Doomsday? Therefore, Sir, I rather feel, this is a sort of hard-heartedness and want of sympathy for the people whom you are going to dispossess by this legislation."

DR. V. K. JOHN :—" Political expediency."

* ABDUL LATIF FAROOKHI SAHIB BAHADUR :—" I have already said this is political expediency, because there is a race going on between political parties as to who will be returned in large numbers to the legislature in the coming elections. Sir, I did not want to mention that word here. Races are still going on with us; and we must pay compliments to our Government for that! Though they have been saying, races should be abolished, they are allowing it to go on still; and they will go on for the next ten years, twenty years or more. I myself brought a Bill based upon the Government bill, but Government said, 'let not this private member have the credit for himself'."

SRI T. PURUSHOTHAM :—" Sir, may I request the hon. Member to confine himself to the Bill and not refer to races."

22nd November 1948]

ABDUL LATIF FAROOKHI SAHIB BAHADUR :—" I wish he had himself followed that when he spoke on this Bill. (Laughter.) Any way, I shall follow his advice, though he had not set an example himself." (Laughter.)

DEPUTY PRESIDENT :—" In view of the shortness of time at our disposal, I would request the hon. Member to confine himself to the Bill."

ABDUL LATIF FAROOKHI SAHIB BAHADUR :—" I shall obey you, Sir. So, Sir, under political expediency, or political need or political necessity this thing is sought to be done. Apart from that, Sir, we have to look at this question in a dispassionate manner.

" I ask, for whose benefit is this legislation going to be passed? Is it for the benefit of the zamindar? No, he is going to be wiped off. The Hon. Revenue Minister, with all his ability, I must confess, has not said in so many words as to whom this Bill will benefit. May I ask, who is the man, or the person, or the class of persons, or which is the party which is going to be benefited by this measure? I hardly think it will be the tiller of the soil. The Hon. Minister for Agriculture, who, one would naturally expect, must have care and sympathy for the tiller of the soil remarked 'what has he to do with this legislation?' It is just like saying, there is a driver, but what has he to do with the car? Here is the tiller of the soil, and what has he got to care as to who is the owner of the land? I am not speaking of inams; I am speaking of land. Are you not going to give the land to the tiller of the soil; and if not, for whose benefit are you going to deprive the zamindar of his land? That is the question which has not been answered by the Hon. Revenue Minister, either in this House or in the other House. Sir, it is tiller of the soil who should be benefited by this legislation, and not the pattadar. For, who are the pattadars? They must have got lands from the zamindar or they must have purchased them from somebody else. Therefore all these people are drones who have no business, if the spirit of this legislation is to be taken into account. And in this, unwillingly, unwittingly and unknowingly you are adopting Communist principles."

THE HON. SRI KALA VENKATA RAO :—" You want the land to be given to the tiller of the soil and at the same time you do not want to dispossess the zamindar!"

* ABDUL LATIF FAROOKHI SAHIB BAHADUR :—" There must be logical conclusion to your action. Either the zamindar should be deprived for the sake of the poor people or he should not. If you say the zamindars are to be dispossessed to give their lands to the pattadars, that means you want to retain pattadars, and so I say, this Bill is of no avail."

DEPUTY PRESIDENT :—" You are repeating arguments."

[22nd November 1948]

ABDUL LATIF FAROOKHI SAHIB BAHADUR:—“ I shall finish in five minutes.

“ Then, Sir, with regard to buildings in estates, I want to say a few words. There is one peculiarity with regard to these buildings. Clause 18 (1) says :

‘ Every building situated within the limits of an estate, which immediately before the notified date, belonged to any landholder thereof and was then being used by him as an office in connexion with its administration and for no other purpose, shall vest in the Government, free of all encumbrances.’

“ Sir, mark the words, ‘ free of all encumbrances ’. This means the man who paid money on loan against the building loses his money and he is finished. Then, Sir, the most dangerous portion of that clause is contained in sub-clause (2), which is as follows :—

‘ (2) Every building so situated which, immediately before the notified date, belonged to any such landholder and the whole or principal part whereof was then in the occupation of any religious, educational or charitable institution, shall also vest in the Government, free of all encumbrances, with effect on and from the notified date.’

“ Now, Sir, what I submit is there are religious and charitable institutions which may be running schools or which may have places of religious worship in certain places ; and these people might have collected money from the public and might have acquired such buildings on mortgage and carrying on these institutions in the belief that the money they had given was quite safe and that they could not be ousted from their buildings. Now what this clause says is ‘ the whole or principal part whereof was then in occupation of any religious, educational or charitable institution, shall also vest in the Government.’

“ Sir, I ask, is it not a sort of public disservice. Are you not creating a want of confidence in you, in the whole legislature and the whole Congress Party by doing acts which people thought you would not do? People have certain notions of morality and legality. People thought that according to law certain rights are safe, but by this legislation you say ‘ we are making laws and according to that you will have no such rights.’ Is this not a public disservice you are doing? At least the clause relating to charitable institutions and religious institutions might have been omitted. Sir, I do not want to prolong my speech. I only say in all our doings, in all the Acts we are passing one thing should be made plain to the people and that is that we are not out to estrange their confidence. We should not create a sense of insecurity in the minds of the people. Nobody knows what will happen tomorrow. Dr. John may not be allowed to live in his palatial bungalow with an extensive lawn. Excuse me, Mr. Deputy President, I will not refer to your bungalow. To-morrow a Bill may be brought before the Legislature saying that the lands in

4-15
p.m.

[22nd November 1948] - [Abdul Latif Farookhi Sahib Bahadur]

excess of two grounds in every house should be taken over and given to the landless. If such a Bill is passed, the housing problem in the City will disappear. Many people have got very big bungalows with extensive lawns. The lawns are not used and they are there for satisfying the pleasure of a few people.”

DR. V. K. JOHN:—“ Why should my hon. Friend put this idea into the head of our Government, as they may take our lands without compensation? ”

* ABDUL LATIF FAROOKHI SAHIB BAHADUR:—“ I do not say that such an act is justified.

“ In a bungalow which can accommodate fifty families, why should there be a single family consisting of one husband, one wife and two or three children? (Interruption.) I can have four wives, but unfortunately my age does not permit. (The Hon. Dr. T. S. S. Rajan : ‘ Age has nothing to do.’) There is the doctor who says that age has nothing to do. I am glad I have got a medical certificate. Perhaps it is as true in my case as in the case of Dr. Rajan because both of us are more or less of the same age. I only submit that a sense of insecurity should not be created in the minds of the people. Respect for the law of the land must be maintained. People should not be under the impression that overnight the Government may deprive them of their property. I feel that this legislation, as it stands at present, creates a sense of insecurity in the minds of the people. I have never doubted the sincerity of the Hon. Revenue Minister and I have always had the highest appreciation for his hard work and the masterly manner in which he has piloted the Bill in this House and in the other House. But I submit that for the sake of justice and equity, let him accept at least some amendments. Some amendments have been given notice of by the hon. Leader of the Opposition. If at least one or two amendments are accepted, it will go a long way to show that the Government yield to public demand. If this Bill is passed by dint of party discipline and party strength, I certainly feel that the majority party will be prostituting its powers. Posterity and the historian of the future will not praise Acts of the legislature which are passed in this haphazard manner.”

Sri Rao Bahadur D. Krishnamurthi rose to speak.

DEPUTY PRESIDENT:—“ The hon. Member should finish his speech by 4-30 p.m. as the Hon. Revenue Minister will commence his reply at that time.”

* SRI RAO BAHADUR D. KRISHNAMURTHI:—“ Mr. Deputy President, Sir, this Bill has been subjected to very violent virulent criticism. But there is a larger aspect from which we have to consider the implications of the measure. Tenants cultivating about 128 lakhs of acres in this province are going to be affected by this Bill. That it is a very important aspect has to be always borne in mind. If the Bill does nothing else, it at least brings the land tenure affecting tenants cultivating thousands of acres in the

[Sri D. Krishnamurthi] - [22nd November 1948]

estates into line with the jirayati system obtaining in ryotwari areas. The Hon. Revenue Minister has been performing a tremendous task for which he deserves our unstinted praise.

"The subject-matter of this Bill has been under discussion on public platforms for over a decade. The Bill should have seen the light of day in 1938 but for certain adverse circumstances. It has taken as long a period as ten years to reach this stage. The implications of the Bill will be clear if we understand the following facts. The peishkush paid by zamindars is in all about Rupees 47,00,000. The rent roll in the zamindari areas comes to about Rs. 2,40,00,000 and under the Rent Reduction Act it will be reduced perhaps by a fourth of that figure. Calculating this figure is a simple arithmetic. It can be seen then there will be a residue of Rs. 1,10,00,000 and this amount after reduction of rent will go into the coffers of the Madras Government. This is a fact which even the Hon. Revenue Minister will not seriously dispute. As against an annual revenue of Rs. 1,33,00,000, the Government are going to pay a sum of 17½ crores of rupees as compensation. Much criticism has been directed against the method of fixing the compensation. It is a complex question, and within the limited time at my disposal, it is not possible for me to examine it in detail. I will content myself with placing one or two salient points before the House. There is always the right accruing from adverse possession for sixty years even against the Government and there is the limitation of twelve years by way of adverse possession of the property. Whether the zamindars have got proprietary right in the land or whether they have got only the right to collect the rents is a matter for competent courts to decide, should they choose to do so. But certainly the legislature has got the power to legislate and it is legislating to the best of its ability and knowledge. Whether the compensation that is provided for in the Bill is adequate or inadequate is a matter for consideration. The parties that are going to be affected by this Bill, particularly the zamindars, are going to lose a considerable amount of revenue, and in fairness to them some fair compensation has got to be paid. The Hon. Revenue Minister has accepted several suggestions made in the Select Committee and has given advisedly a slab rate of compensation. It works out to 12 crores of rupees in the case of zamindars and 5 crores in the case of inamdars. While agreeing with the principle of the legislation, I wish to make a very earnest appeal to the Hon. Revenue Minister to be more liberal in the payment of compensation. The Government have brought forward this measure in order to ameliorate the condition of the tenants. In his talk through the All-India Radio the other day, the Hon. Revenue Minister envisaged a very ambitious scheme for the codification of land tenures in this province and adverted to the possibility of several schemes which he was going to introduce in the near future. I take it that this is only the beginning and that the other Acts would follow leading to codification of the land tenures, a task which has not been accomplished by anybody since the days of Manu. Leaving that apart, certainly it is the duty of the Government to pay to the person or persons from whom they

22nd November 1948] [Sri D. Krishnamurthi]

acquire certain rights something by way of compensation which should be adequate or at least satisfactory to the general public. There are two things, the quantum of compensation and the method of payment. About the quantum of compensation, the Bill gives some details. If we take the normal rent roll after applying the Rent Reduction Act at 1 crore and multiply by twenty times, it comes to 20 crores. The compensation provided for in the Bill comes to about 17½ crores and the Government have met this fairly well. With regard to the payment of the amount, the position is very indefinite. Subsequent to the introduction of this Bill, an unforeseen situation has arisen in the country and that is the existence of inflation. The Central Government have been advising this Government as well as the Governments of the other provinces to see that inflation is not given rise to by this method. This Government, who have taken up the abolition of zamindaris with the object of ameliorating the condition of the tenants, must behave in a just and equitable manner in the payment of compensation to the persons affected by this provision. To pay them a nominal compensation or ask them to wait indefinitely for the balance is neither just nor equitable. I hope that when the time comes, the Revenue Minister will be sympathetic and understand the view point of those who really suffer. The more we delay the Bill, the more difficult it will be for the people concerned, both tenants as well as the zamindars. Many zamindars have told me that they feel it very difficult to pay even the peishkush as the ryots, under the belief that this Bill would come into force soon, have not been paying the rent that is due. They have been finding it so difficult that time and again they have been approaching the Hon. Minister for extension of time. So far as the ryots are concerned, they are not in a position to understand what their rights would be. There are people who circulate exaggerated and false reports from interested motives and a difficult situation has thus arisen. The sooner the Bill is passed and the notifications under the Act issued, the better. With regard to arrears of rent, there seems to be considerable misunderstanding. Strictly speaking, arrears are only accumulations of dues. If the rents had been collected in due time, they would have formed part and parcel of the property of the proprietor of the estate. Even now equity is in favour of them and I trust the Hon. Minister will help them.

"Between the date of notification and arriving at the figure for basis of actual compensation, I think a considerable period is bound to elapse. The period may even be three or four years as several complications may arise in the course of survey and settlement. Therefore I request the Hon. Minister to be sympathetic to the zamindars and pay them liberally. Unfortunately none of the elected representatives of the zamindars is in this House. The zamindars in the other House represented their case very strongly. Zamindars also have done some service to the country. They have played a dignified and useful part in the public life of the country, particularly in the northern districts. They have spent considerable sums in either endowing or maintaining several institutions

[Sri D. Krishnamurthi] [22nd November 1948]

like schools and colleges, hospitals, orphanages, charitable and religious endowments. It is neither fair, just nor even moral to make these zamindars suffer. Whatever the Government decide as the sum that is due, it should be paid irrespective of other considerations and paid as early as possible so that they may know where they stand and adjust themselves to altered conditions of life.

"Several other objections have been raised. I think it is not, necessary for me to go into them in detail. Whether this Bill does good or bad is a matter of opinion. When one understands its full implications, he cannot but come to the irresistible conclusion that it aims at a lofty purpose, namely, ameliorating the condition of the tenants living in the estates of this Province—a reform which is long overdue. No doubt an enactment of this type would adversely affect certain sections of the people. But when once we take into consideration the larger amount of good that it is going to do, we have to concede that the Bill is absolutely necessary. Besides appealing to the Hon. Revenue Minister to see that the notification is done as early as possible, that the compensation is paid liberally and promptly, and that the arrears are settled as early as possible, I request him to see that grass is not allowed to grow under the feet. There are various ways and means to put off this Bill. There is ample scope for litigation under the Bill, and interested parties will always be on the alert and foment litigation, thereby putting off the coming into operation of this Bill.

"Several of my friends said that this measure was a result of the pledge given in the Congress Election Manifesto. Apart from that, it is certainly necessary to have a uniform system of land tenures in the Province. This Bill is substituting for the land tenure system in the estates the jirayati system obtaining in the ryotwari areas. In such a comprehensive measure, there is bound to be loss or hardship to individuals or groups of persons. Persons, however exalted or great they may be, have to put up with it in the interests of the common good.

"I congratulate the Hon. Revenue Minister on the splendid work he has been able to accomplish and on piloting a Bill of this complicated nature with such colossal success. I heartily support the Bill."

* THE HON. SRI KALA VENKATA RAO :—"Mr. Deputy President, I am very thankful to the hon. Members of this House for the valuable criticisms they have offered with regard to this measure, and in particular, I am thankful for the very high level on which the debates have been kept up. Hardly has there been any personal reference by any one of the hon. Members and I am very glad indeed for it. After all, human beings as we are, we have differences of opinion with reference to many things in this world, particularly so, when a social revolution is attempted and an endeavour is made to bring about a new order of things in society to keep pace with the changing ideas and conditions of the world. It is therefore but natural that certain people should feel

22nd November 1948] [Sri Kala Venkata Rao]

one way, while certain others should feel the other way. Therefore I do not personally feel very much, Sir, when certain friends have taken an exactly opposite view to the one that I have taken and the Government which I represent have taken. I am thankful indeed to the members for the various suggestions they have made and I and the Government will keep them in our minds, when we will have to administer the Act, after it emerges from this House.

"Sir, the first and fundamental criticism that was made was that the fundamentals of the original Bill were changed by the Joint Select Committee. Sir, last night while I was reading the *Amrita Bazaar Patrika* under the heading 'Wit and Humour,' I came across a funny piece of conversation between two gentlemen, in which one gentleman made a charge against another, when he met him on the road. The first gentleman asked the other, 'How you have changed! You used to have thick black hair and now you are bald! You used to have a ruddy complexion and now you are pale. You used to be stocky and now you are thin. I am surprised, Mr. Gordon.' The other gentleman replied, 'But I am not Mr. Gordon.' 'Oh, you have even changed your name,' asked the first gentleman with surprise.' (Laughter.)

"Well Sir, this piece of conversation illustrates the nature of the change that has taken place in the complexion of the Bill of which my hon. Friend, Mr. Suryanarayana Rao, has complained. While he was accusing us that we have changed the fundamental principles of this Bill and was using only plural terms all through, I tried to interrupt and ask him in what way have the fundamental principles of the original Bill been changed after it had emerged from the Select Committee. He could quote only one instance, Sir, which I myself have referred to when I explained to this Hon. House the changes that had been made by the Select Committee on the Original Bill, namely, the deletion of the 1936 income from the scope of the present Bill. Except for that only fundamental change, I maintain, Sir, none of the other fundamental principles have been changed from last year until to-day. The other changes made are not fundamental and they are only either incidental or consequential ones. If we had laid down that the basic annual sum should represent 20 per cent, and if the Select Committee had changed it into 25 per cent, surely it cannot be said to be a fundamental change. If, as my hon. Friend, Dr. Sir A. Lakshmanaswami Mudaliar, narrated to the House, changes were made at his suggestions in the Select Committee to improve the quality of the Bill, if there were changes consequent upon discussions, consequent upon arguments and consequent upon our being convinced of the good intentions behind certain of the suggestions that were made, if we have changed certain provisions to make certain adjustments here and there to suit the occasion, if we have changed certain clauses and made certain compromises so as to secure a greater measure of agreement on the Bill, if we have made changes here and there so as to introduce an element

[Sri Kala Venkata Rao] [22nd November 1948.]

of justice to the parties affected, all these cannot be changes in the fundamental principles of the Bill—and you cannot say that the entire principle of the Bill has been changed. Therefore, Sir, my first submission to you is, that fundamental principle of the Bill has not been in any way altered, except perhaps in one respect, namely, the deletion of the 1936 inams from the scope of the present Bill. That, I have made clear to the House the other day and I have also categorically stated that that question will be taken up again by the Government shortly and that it will also come up before this House when hon. Members will naturally have an opportunity to have their say on that matter, because it will also go before a Joint Select Committee of both Houses.”

DR. V. K. JOHN :—“ That question is hanging fire.”

THE HON. SRI KALA VENKATA RAO :—“ It is not a question of hanging fire, Sir, because it is already in the fire, and we have only to pick it out of the fire so that it may be fit and ready to be made use of. We have to delay it for some time, because it was all raw till now and we have to put it under fire, so that it may get boiled and be ready to be eaten. Because we have been charged in this Bill that we have not proceeded on proper data, or collected sufficient statistics, or made requisite examination and study, we want to proceed rather cautiously with regard to that matter and we want to take the advice of all gentlemen who are present in this House, but I shall revert to it in detail, a little later.

“ Now, Sir, with regard to the scope of this Bill, there has been some criticism. The first criticism was from Dr. Sir A. Lakshmanaswami Mudaliar with reference to the question of the proprietorship of the soil. I thought, Sir, that this question was settled once for all long ago. The Prakasam Committee which went into this matter in 1937 made an elaborate inquiry and a thorough investigation into the whole question and after an exhaustive examination of all the old records, came to the conclusion in their report that the proprietorship of the soil vested in the ryot and not with the zamindar. Sir, I need not now quote all the authorities over again or cover the same ground again, because that report had relied upon all the authorities and decisions and had come to that conclusion. That report was also adopted by the legislature of 1939. But one thing I must say just at present. From time immemorial in India, the land belonged only to the man who tilled the soil and brought it under cultivation and not to the sovereign, because the sovereign's right was only to take a tribute or portion of the produce from the land, whether in cash or in kind and he had no further right. And when the successor Government, the East India Company came into the position of the ruler, they could have derived only the same right and nothing more. When the East India Company brought into existence the system of zamindaris simply for the purpose of collecting rent from the ryot, they could not have conferred any greater privileges than

22nd November 1948.] [Sri Kala Venkata Rao]

they themselves possessed upon these zamindars who are their own creation. Sir, it is an accepted principle of law that nobody can confer greater rights to another than what he himself possesses and therefore how could the East India Company, which did not itself possess any proprietary rights to the soil, have conferred the right of proprietorship to the zamindars, to whom they issued Sanad-i-Milikiat-Isthimarar and created them as an entity?

“ In this connexion, Sir, another aspect of the question was brought to my notice by certain hon. Members, who said that all the zamindars were not the creation of the East India Company and that some of them had descended from the ancient Rajas and they enjoyed certain special rights and privileges, which were not disputed. It may be true, Sir, that some of the present day zamindars might belong to the families of the ancient rulers of this part of the country. But when the foreign power came in and conquered them and took away or annexed their territories to themselves, they could not have given them back all the sovereign rights over those territories, even though some of them might have been retained in occupation of those lands either as hereditary chiefs, or farmers or as collectors of revenue. Subsequently when the East India Company brought into force the Permanent Settlement Regulations, there was no distinction drawn between the hereditary chiefs or descendants of ancient Rajas and farmers of revenue but all these people were treated as one category and brought under the same regulations and the same type of law that existed in this country at that time.

“ Then, Sir, another charge—and that was an important one—that was made against this measure was that we are creating a new type of intermediaries. I submit, Sir, that this is absolutely wrong. As far as the Madras Presidency is concerned, as I have already explained, there are only two main agencies, the Government and the pattadar that are in existence in the ryotwari areas to-day. In the case of the zamindaris, there are, the Government, the zamindar and the occupancy ryot. These are the only two systems that we have in this Presidency. We have one intermediary in the zamindari between the Government and the occupancy ryot, and that is the zamindar. The occupancy ryot in a zamindari estate has got all the important rights of property; he has got the right to sell, the right to gift away his land, the right to inherit and every other right, in the same way in which the ryotwari pattadar enjoys his property. I should therefore like to tell my hon. Friends Mr. Suryanarayana Rao and Dr. John, who made this charge, that they should read all the three measures, two of which we have already passed and this measure together, and not this Abolition Bill alone. I am sorry Sir, that this Bill was a bit delayed under circumstances beyond my control. We expected that the Prohibition of Alienation Bill, the Rent Reduction Bill and this Zamindari Abolition Bill would all come in quick succession. All these three measures form one whole scheme of our land reform. This is only a first step in our programme. These measures, in the first

356 THE MADRAS ESTATES (REPEAL AND CONVERSION INTO
RYOTWARI) BILL, 1947 (L.A. BILL NO. 37 OF 1947)

[Sri Kala Venkata Rao] [22nd November 1948]

instance, reduce the rents of the ryots and confer on them some immediate benefits, who according to us had been suffering under a rack-renting system from a very long time. Our next step is to abolish the present system of land tenure entirely and to bring about a uniform tenure throughout the whole Province, to which my hon. Friend Mr. Krishnamurthi referred. This is our present position and this is our plan. Having taken the first step, other things will naturally follow and this Zamindari Abolition Bill is only one of the logical processes in our scheme of land reform. That being so, I submit, Sir, that all criticisms in respect of this measure must have a bearing upon the other two measures as well, and therefore this Bill should not be taken in isolation for the purpose of general criticism of our land policy. That Sir is my submission, so far as our general policy in regard to land is concerned.

" Then Sir, with regard to this Abolition Bill certain criticisms have been made and certain points have been raised, and I will answer them categorically in a few minutes. But with regard to the contention of Dr. John and Mr. Suryanarayana Rao that we are creating a new set of intermediaries under this Bill, I must say that they are not at all correct, because there are not other intermediaries. But at the same time, I must point out that the pattadars in the ryotwari areas and the occupancy ryot in the zamindari areas are all there—you may call them intermediaries if you like—and we shall have to deal with them at the proper time. All the same, my contention is that we are not creating any new set of intermediaries by means of this measure, as my hon. Friends imagine.

" Then Sir, with regard to the various criticisms that have been made on the floor of this House, about the position of the cultivating tenant, the tiller of the soil, I have already made it clear that it is a matter for further legislation and this measure is only a prelude to the others that are going to follow. Sir, no doubt, the Congress election manifesto stated that all intermediaries between the peasant and the State will be removed. It never said that it would be possible to do so by a single stroke of the pen or by means of a single piece of legislation. The Congress has got an ideal and an idea in the matter of our land policy in this country and the election manifesto has only laid down that ideal and expressed the idea of the Congress and we have to bring about that ideal in due course and in proper time and in a legal and constitutional manner. It is a stupendous task and cannot be achieved in a single day or by means of a single measure, as my Hon. Colleague Mr. Madhava Menon has pointed out. Sir, I have the greatest sympathy for the tiller of the soil. But we must know who is the tiller of the soil. My hon. Friend Mr. Suryanarayana Rao is probably under the impression that there are a number of intermediaries between the tiller of the soil and the State and it is with that impression that he made his criticisms on this Bill. Probably he does not know the system that is in vogue in other provinces. Take for instance the Province of Bihar. There, between the

22nd November 1948] [Sri Kala Venkata Rao]

landholder and the last man who actually tills the soil, there are as many as 17 people, and all these 17 people have to share the rent or the melvaram that is collected from the tenant. We have got some such system in North Malabar to-day, about which we are going to introduce a legislation a few days later.

" First we have to understand the distinction between a tenancy and a tenure, because the question of tenancy reform is a very wide one and that question we have to tackle seriously and in all earnestness, and we are going to tackle it. It will come up before this House sometime later and hon. Members of this House will be requested to give their advice and their advice will have a great influence upon the decisions which the Government are going to take. But this much I must tell you. The whole problem is now being investigated by the Agrarian Reforms Committee appointed by the Congress President. They are sitting here to-day in this City and are examining witnesses. They are going to tour throughout the country studying the tenancy systems prevailing in the various parts of the country and are going to recommend a uniform and common system of land tenure throughout the whole country. As soon as their report is published, which will not take much time, we will have the benefit of their advice and suggestions and we are going to tackle this question in right earnest and I promise, if hon. Members who are very much interested in that aspect of the question, will wait a little longer to see the fulfilment of the ideas and the ideals for which the Congress stands and which are adumbrated in the Congress election manifesto.

" Sir, some hon. Friends on the other side are still arguing that the zamindar is the proprietor of the soil, although many legal decisions have been quoted and many authorities cited in the Prakasam Committee's Report, refuting such a suggestion. I shall not therefore take the trouble of citing those decisions. But I must say one thing that in any system of land reform, we must go step by step, and I am perfectly certain that once a uniform system of land tenure has been established in this Province, the question of tenancy will follow as a logical course and the problem of the tenants will be settled automatically. Let me here assure hon. Members one thing, that whatever it might have been in the past, this country is now being governed by middle-class men, whose representatives we are. There can be no gainsaying this fact. We must therefore do justice to the middle-class men and men below the middle class and we cannot simply belie their expectations or act in a manner prejudicial to their interests and welfare. We have to take into consideration their conditions of life, their manner of living, their method of occupation, and the manner in which they are investing in land and how they are eking out their livelihood from the land and how they are placed in society. We cannot ignore these facts. We cannot simply drive these people out from their lands and deprive them of their pattas. We cannot do anything which will touch their rights to property or affect their interests. It is only the rich, who possess vast extents of lands that

[Sri Kala Venkata Rao] [22nd November 1948]

4-45
p.m.

we can lay our hands upon, and it is only through them that we can solve this problem of the land and I am perfectly certain that the Government are keenly alive to this aspect of the question and are deeply concerned with this matter and will do the needful to the suffering man even in the remotest corner of this Province. I now come to the question of inams, Sir. This has been the subject of debate here, there and everywhere. I do not know, Sir, whether the United Democratic Party is after all so united over this matter. I am perfectly certain, Sir, that with the traditions of his family, the hon. Member, Sri B. Narayanaswami Nayudu, will never agree for the retention of the inams at any rate in the future."

DR. V. K. JOHN :—" We give freedom of expression and freedom to vote, unlike the Congress Party."

* THE HON. SRI KALA VENKATA RAO :—" But when I envisage the future of the party, Sir, as an astrologer, I must say that the Party cannot hold good for very long for the simple reason that it opened its doors for Mr. Farookhi, a very good friend of mine for over two and a half decades. He was in the League and to-day he is among United Democrats. In this way he cannot go on changing allegiance. They cannot hold together for long except through an ideology. I know their ideology. It is that they have been pledged for a good cause. It may keep them together now."

DR. V. K. JOHN :—" We have a progressive mind."

* THE HON. SRI KALA VENKATA RAO :—" I am very glad to hear that, Sir. I am not criticising any one, Sir. I am only saying that they must keep up the progressiveness and self-discipline that is absolutely necessary in running democratic political parties and administrations in any civilized nation."

ABDUL LATIF FAROOKHI SAHIB BAHADUR :—" I have followed the example of the Hon. the Revenue Minister, Sir. He was also with Mr. Prakasam and he left him to come over here."

* THE HON. SRI KALA VENKATA RAO :—" To-day the hon. Mr. Prakasam and I belong to the same Party, Sir. If Mr. Prakasam is to-day the Prime Minister, I will be his most beloved supporter, in the Legislature. Mr. Prakasam, Sir, is the biggest supporter of our Party and neither I nor he ever changed allegiance."

" Now I come to the question about the inams, Sir. The inams were given as grants. When I speak about this, I hope my hon. Friend Mr. Nayudu will never mistake me. He wanted to take away one important thing that is due to the Brahman, namely, the biksha patra. You can take away our land which our ancestors held and which some still retain. You cannot take away the biksha patra which is our inherent right. Though certain people do not believe in the Hindu religion, as long as the ladies are there in the houses they will give the biksha either from back

22nd November 1948] [Sri Kala Venkata Rao]

or front doors. Therefore Mr. Narayanaswami Nayudu cannot abolish the biksha patram inam. He may remember, Sir, what the two famous poets of the Andhra have said "మమ్మ చెయ్యన్ గాని బిక్షపత్రము వంతురాలిపా" which means ' You said, you do not give anything. You give me only the biksha patra. I will go and beg and live in the country.' Therefore Mr. Narayanaswami Nayudu cannot take away that inam which is our permanent possession. Sir, if he will exchange places with me, I have no objection to till the soil and he can take this patra.

" If you go to the Tanjore district, Sir, you find that the labourer, ' the Pannai Ali ' has got his ' Maniakolai.' A portion of land is given to him for cultivation and he is taking the yield from it as part of his wages. (Interruption.) I do not grudge the maniam to Mr. Narayanaswami Nayudu, Sir, provided he will put the biksha into my patra. Therefore, Sir, we need not go into these things. Unfortunately, both the original grantee of the inams as well as the purchaser of the inams are now not there, because the inams are not with those friends to whom those grants were made centuries ago. They have changed hands. To-day neither Mr. Purnushotham nor Mr. Govindacharyulu is owning them. They have been purchased by my hon. Friend Mr. Gopalakrishnayya. The ground that a particular section of people are holding the inams has long ago been exploded. They are in different hands now."

" Then, Sir, there was a particular criticism about clause 9. Clause 9 was introduced only as a consequence of the decision to drop the 1936 inams. Where is the thermometer, Sir, by which we can find out whether an inam is a 1936 inam or a 1908 inam. After all the difficult cases will be the marginal cases numbering a few hundreds. And those things will be gone into by the tribunals. What the tribunals are to be, we will decide later. There is no breach of faith. There is nothing mala fide about this. The Government will not gain Re. 1 or lose Re. 1 by declaring one a 1936 inam or as a 1908 inam. The Government have absolutely no interest in this. I can assure you, Sir, that all the records in the possession of the Government to-day with reference to all the inams will be placed at the disposal of the Settlement Officer and the tribunals so that a right decision may be arrived at. If there is any miscarriage of justice the Government are there to rectify it in proper time."

" Sir, the hon. Member, Mr. Natarajan, has referred to three important features, namely, the chatram villages, the palace estates and the palace devasthanams. Regarding the palace devasthanams, I may straightway say that they are being governed by the Religious Endowments Board and we will consult the Board when we frame the requisite rules for their future administration. Regarding the Tanjore Palace estates I would like to say that this question was already considered by the courts of law. The question was whether the villages originally forming part of the private estate of a Hindu King confiscated by the British Government can subsequently be

[Sri Kala Venkata Rao] [22nd November 1948]

regranted to his successors. The Tanjore Palace estate is a typical instance of this category of villages falling under section 3 (2) (d) of the Estates Land Act as amended. Explanation (2) to section 3 (2) (d) expressly includes such villages within the definition. The real controversy in regard to such estates was whether the villages can be said to have been granted in inam. The history of the Tanjore Palace estate is stated in *Sundaram Ayyar v. Ramachandra Ayyar* in (1917) 32, Madras Law Journal, page 333. Now, Sir, I need not go into the details. Nonetheless it was found in that year that 'These contentions were not accepted by the Full Bench and Wallis C.J. with whom Seshagiri Ayyar J. concurred opined that the term "Inam" as held by the Privy Council in *Raghoji Rao v. Lakshmana Rao Sahib* is a term of wide significance and it was not intended that irresumable grants should be excluded from the scope of the definition in section 3 (2) (d).' There was a difference of opinion about this again and it was finally settled that under the amended version of section 3 (2) (d) in 1936 all the villages in the palace estates would come under the definition of 'estates'. And this is a matter which will be taken into consideration by the Government and the Settlement Officer appointed by them when the matter of the determination of other categories of estates will have to be settled."

SRI K. NATARAJAN :—" Am I to understand, Sir, that so far as the Tanjore Palace estate is concerned they will definitely be classed as 1936 inams? "

* THE HON. SRI KALA VENKATA RAO :—" Sir, Mr. Natarajan would not like that the Government should give a judgment over the matter. The point of view that I have expressed will naturally be taken into consideration, if at all any enquiry is needed about this matter.

" I now come to the question of compensation, Sir. The basis of it has been questioned, namely, whether it should be on the present day income or whether it should be on the basis that is to be settled under the Bill. The other day I gave a detailed history of the whole question and described how the basis followed under the present Bill was the rational basis. But a question was raised : ' Why not apply the Land Acquisition Act? ' ' Are you free to assess the quantum of compensation? ' ' Is it not illusory? ' Sir, they have also raised the question of equity and justice and the question about the mode of payment, whether it should be in cash or in bonds. The question about the purchased estates was also raised. The other point was whether it is not a burden on the tax-payer. Then there is the pet scheme, namely, the German scheme of Dr. John. These were the important points, Sir, that were raised with reference to the question of compensation. In this matter, I should like to give you what the considered opinion of the Government is. With regard to the question of the application of the Land Acquisition Act I would like to point out that there is nothing in section 299 (2) of the Government of India Act

22nd November 1948] [Sri Kala Venkata Rao]

which compels the Government to proceed under the Land Acquisition Act or to determine compensation in the manner provided under the Land Acquisition Act. The Land Acquisition Act itself is a municipal law and it is quite competent to the Provincial Legislature to repeal the Land Acquisition Act itself or to make it inapplicable to any particular case. If the Government do not propose to exercise the powers vested in them under the Land Acquisition Act they are not bound to pay compensation in the manner determined by that Act. It is therefore up to the Government to undertake special legislation for the purpose of specifying the principles on which compensation is to be determined and the necessary implication of such legislation is that in regard to the acquisition contemplated, the provisions of the Land Acquisition Act can have no application.

" Now, let us take the other view. Even taking the narrower view, it is quite possible to sustain the validity of the present legislation from another point of view. The market value of a property essentially depends upon the nature of the interest in the property, the extent of the right and the quantum of income. In fact the commonest method of arriving at the market value is to capitalize the income. It is to be remembered that the particular legislation on hand deals with a special tenure of property which is unlike any known to the other systems of jurisprudence. Hence the decisions laying down how the market value has to be calculated with reference to a freehold property are entirely irrelevant for the present discussion. The estates which are proposed to be acquired have peculiar features of their own. They are governed by a special tenure and subject to the Estates Land Act. The income derived by the landholder at a given point of time consists of the rents then payable by the tenants and by its very nature the income would be enhanced by him at his sweet will and pleasure. On the contrary it is open to the Provincial Legislature to reduce the rent payable by the tenant to the landholder. The income derived by the landholder from the lands in his estate cannot be regarded as invariable and constant; and hence the basis with reference to which alone the market value has to be determined. The market value of the landholder's right in the estate is naturally relative to his income and if the rents are reduced thereby diminishing his own income, the market value correspondingly gets reduced. It therefore follows that if by independent legislation the Provincial Government fix the rent payable by the tenants in the estate at a very low level, and thereafter enacts a legislation for the acquisition of the estate, it will follow that the compensation that the landholder gets for the acquisition of his property will be very much less, though it is nevertheless a fair market value having regard to the ryots' income. Instead of undertaking two separate pieces of legislation to achieve that purpose this Bill achieves the same result by enacting the provisions by way of specifying the principles on which compensation is to be determined. This is the position as far as that matter goes.

[Sri Kala Venkata Rao] [22nd November 1948]

"And then, there was another aspect which was also raised on the floor of the House and that is about the question, whether the quantum of compensation could be gone into by a court of law. This is an important question and I have got the opinion of an authority which I quoted in the other House. I would only refer to that here. Donald Kerr in his Law or Australian Constitution at page 199, paragraph 381 says similar things. And Wynes in his book on the Legislative and Executive Powers in Australia says these things at page 248. Both these I have already quoted and hon. Members might have read them in the papers.

5p.m. "Sir, I would also add that no measure of compensation that is to be paid is laid down under section 299 of the Government of India Act. It is not open for any court of law to question the validity or otherwise of any provision made by a Federal or Provincial Legislature by going into the question whether the compensation is adequate or not or whether it is fair and reasonable. It is left to the Legislature to determine and fix the mode of compensation and the principles on which and the manner in which it is to be determined. Sir, the Legislature is the sole judge to say what compensation is to be paid. To support this view, I would like to quote the opinion of the Attorney-General of England with reference to section 299 of the Government of India Act when the Indian Constitution Act was under discussion. In answer to a suggestion that it would be more satisfactory to have an independent body to assess the compensation, he said, 'The whole power vests in the sovereign Legislature to determine the quantity of compensation. Therefore, all that the Legislature has to say is that compensation shall be assessed on the basis of a certain percentage of the market value. If that is done, there would be a way out if there is to be any variation, but when you put an independent body to assess the compensation, you cannot find a way out of this difficulty. Vetoing on the part of the Governor-General is really the most effective proposal which has emerged from section 299 (3) of the original Government of India Act.' But, now, that section has been repealed and the power vests in the sovereign Legislature to determine the quantum of compensation. But, I do not say that simply because we have got the power of the giant, we should use it like a giant."

DR. V. K. JOHN:—"What about the Advocate-General (India)'s opinion?"

* THE HON. SRI KALA VENKATA RAO:—"The hon. Member can judge it for himself. Therefore, Sir, as I said, we cannot exercise such a power as that of the giant even though we possess it. I may also state here that the compensation which we are offering to-day is not illusory. It is a substantial amount. Already there is a strong criticism in the country and in the rural areas that a large amount of compensation is being paid—much more than what was needed. Of course, Sir, Sri Suryanarayana Rao also said that 12½ crores is too much. But, for the rights

22nd November 1948] [Sri Kala Venkata Rao]

which these estate holders are enjoying, the amount the Government are giving is equitable and just. It is wrong to say that we have decided first to pay only 12 crores as compensation and that we drafted the scheme of compensation later to suit that amount. The question has been engaging the attention of the Government for a number of years and we have come to the conclusion that for the rights enjoyed by the zamindars and also considering the fact that what is being done may not be questioned in any court of law hereafter, we should satisfy our feelings of justice and equity in respect of this matter and therefore we have arrived at the figure of 12½ crores as compensation to be paid to the zamindars. As a matter of fact, if you see the records of the Government you would find that for over five years, various plans have been discussed. From the time of the Advisers' regime, a proposal to take over the Tirumalai-Tirupati Devasthanams Estate was also under contemplation. The matter was discussed in a very meticulous manner and it was handled by the Advisers' Government and also by my predecessor, Mr. Karanth, with the result that we have arrived at a formula, which is liberal enough and according to that formula, we will be giving 12½ crores. Therefore, Sir, hon. Members may see that Government have inverted nothing but have proceeded in a logical manner in respect of this matter.

"Then, Sir, I come to the question of purchased estates. I have already met this point in two ways. One is, if you invest your money in the Reserve Bank, one day the share value may become Rs. 150 and another day, it may come to Rs. 85. Nobody can legislate for it. To-day prices are high. One acre costs Rs. 1,500 but five years ago, it was costing only Rs. 400. We cannot legislate for these things."

SRI B. NARAYANASWAMI NAYUDU:—"Economic laws."

* THE HON. SRI KALA VENKATA RAO:—"Economic laws will of course operate. I do not deny that. Further there is the question of competitive prices. There is a competition between one person and another to purchase a particular estate and one may pay a fancy price on account of competition but on that basis, we cannot assess the compensation. We should have some regulated basis on which we can proceed. We cannot make a distinction between one purchaser who is distinctly new and another old purchaser. If a person has purchased estates which have got certain rights, those rights are being compensated for to-day. The son of a Maharaja or his grandson or great grandson who has inherited an estate should not be treated differently from the man who has purchased an estate.

"Then, Sir, we come to the question of the mode of payment. Much criticism was made about this matter. Whether it should be paid in cash or in bonds is a matter to be decided by the Central Government. Then, Sir, I confess that section 40 of this Bill is fluid. It is particularly kept like that."

[22nd November 1948]

SRI B. NARAYANASWAMI NAYUDU :—“ Barren.”

* THE HON. SRI KALA VENKATA RAO :—“ It can never be barren because Government will have to pay 12 crores. Therefore, it would be a perversion to say that it would be barren. Sir, the question whether we should pay it in cash or in bonds is to be decided by the Central Government and if necessary, we can go in for a loan in the market. Sir, I am prepared to state that as far as this Government are concerned, 12½ crores is nothing. We can borrow that amount easily. But, for raising that loan in the market, we have to obtain the permission of the Central Government. As one hon. Member said, this Government would be gainers if we borrowed and paid off the compensation, and I can prove to the satisfaction of everyone that we would be gainers.

“ Then, Sir, another hon. Member said that it should not be a burden on the general tax-payer. In regard to this matter, I may tell you one thing, the more certain persons went to Delhi trying to bring pressure on the Government the more they would lose because as far as the Madras Government are concerned, we want to pay a reasonable compensation and we feel it is a debt to be discharged. If there is any personal debt for a private individual, he would not get sleep unless he discharges it. In the same manner, Government also feel that this compensation of 12 crores of rupees is a debt which should be discharged. We do not want to have promissory notes made to X or Y or Z, and then go to sleep. Until we manage the amount and clear that debt, we will not get sleep. As I said, Sir, whether the amount will be paid in cash or in bonds will have to be considered by the Central Government. I have promised this House that we will consider the whole matter from all points of view. I may tell you that there is just the possibility—I do not say definitely—there is the possibility that the matter may be referred to the Federal Court to ascertain whether it is permissible to pay the compensation in bonds. If the Federal Court wants us to pay it in cash, we will make requisite arrangements but if it is not necessary, we will adjust things in such a manner as will make things easy for us. Therefore, Sir, there is no intention at all of defrauding anybody in respect of this matter. We will pay what we promise to pay and pay it as early as possible.

“ Then, Sir, Dr. John referred to the German scheme of purchase. Sir, that may be a matter which prevailed in Germany decades ago. But, the situation in India is not such. The Indian tenant and the cultivating tenant have no occupancy right and the pattadar is not after all a rich man. In most cases, he owns less than ten acres of land. Therefore, it will be a heavy burden on his head if that system of purchase is adopted. The hon. Member may remember that in 1921-22, many Harijans were given houses and they were asked to pay Rs. 7 or Rs. 8 or Rs. 10, etc., for those houses. But, for these twenty years, hardly anyone paid even that small amount and even to-day I have got about ten applications with me asking for the writing off of those amounts.

22nd November 1948] [Sri Kala Venkata Rao]

They are so poor and therefore we cannot burden them further. I have already explained the other day how the ryot has been rack-rented. Further, in this transaction, Government do not lose anything and we need not use the revenue reserves or the money got from the general tax-payer. It will be something like liquidating those bonds for which the ryots will pay in the shape of land revenue in the future. Therefore, as far as the Madras Government are concerned, this matter need not worry us. The other day in reply to an interruption, I said that some proposal was put forward by the Bengal Government to have a co-operative scheme for the purchase of the zamindaris but it was however ruled out at the Revenue Ministers' Conference.

“ Then, Sir, I would like to state another important matter. The other day my hon. Friend, Mr. Narayanaswami Nayudu, raised two points : (1) that under clause 3 (b) of the Bill ryoti lands in the occupation of ryots will also stand transferred to the Government and vest in them free of all encumbrances and that there was no justification for taking away these ryoti lands; and (2) that under the proviso to clause 3 (d) the ryot will be dispossessed of the land in his possession if the Government are not convinced that he is *prima facie* entitled to a ryotwari patta in respect of that land and that this was improper.

“ As regards the first point, clause 3 (b) has to be read along with clause 3 (a) and clause 11. The estate vests in Government but subject to the right of ryots to continue in possession as ryotwari pattadars. It only enables the Government to acquire an absolute ownership in the lands which are to be converted into ryotwari. The transference and the conversion into ryotwari are simultaneous and there will be no gap in theory between the two processes. No rights of the ryots are acquired under this Bill and what is done under clause 3 (a) is that the rights, customary and others, which the ryots in estates might be exercising hitherto could not be exercised *in toto* when the lands come under the Government. The intention of the Government is that once the entire area is converted into ryotwari, the estate ryots who will become ryotwari pattadars after the notified date should have the same rights as their neighbouring ryotwari friends. Clause 11 completes the process by granting ryotwari patta to a ryot who is entitled to it. If any concessions have to be given for getting fuel loads, etc., from the forests free or otherwise, the Government are prepared to extend such concessions to the present and future ryotwari pattadars together.

“ As regards the second point, the object of the proviso to clause 3 (d) is to see that as far as possible, pending a thorough investigation into the relative claims of the landholder and the ryots to any particular piece of land, the person in possession on the notified date should not be disturbed, especially if he is a ryot. The decision by the Settlement Officer referred to in this proviso is the decision arrived at with reference to clause 11 relating to

[Sri Kala Venkata Rao] [22nd November 1948]

grant of ryotwari pattas to ryots and till the date of such decision, the ryot who is in occupation on the notified date will not be disturbed. The person who is now in possession will be protected against dispossession but no interloper who has *prima facie* no title to the land will be allowed to continue in possession to the detriment of a real ryot.

" Clause 1 (d) was introduced merely to get over the criticism of the kind referred to in the first point.

" Then, Sir, the hon. Dr. Lakshmanaswami Mudaliyar raised another important point, namely, about the lands brought under cultivation by the landholder after 1939. The Chair may remember that there was a very keen discussion on this matter and there was a lot of argument about the definition of private land under the Estates Land Act. It is because we felt the justice of the claims in this connexion that we have provided this that where the landlords have improved them—and these were never in possession of the occupancy tenants—they should be given to the zamindars. In fact, the requirements of the twelve years' previous possession provided under 1908 Act is not applied here and there is this concession of a shorter period in favour of the zamindar.

5-15
p.m.

" But we wanted to give a further concession, and therefore fixed the date as the beginning of fasli 1939, simply because at the beginning of that year, there was the publication and the discussion of the Prakasam Committee Report. More than that, an advantage has been given to the zamindar, in that the period of twelve years originally suggested has actually been reduced. The pertinent question is whether the lands that might have been brought under cultivation subsequent to that date by the zamindar will go to him or not. I may tell the House, Sir, that such lands will revert to the Government. In the matter of reassignment, if the land is very small in extent, and if the dispossessed zamindar has no other private land, we will enunciate a policy to see that a portion or the whole of it will be given to him. If on the other hand, the dispossessed gentleman is a rich person, and has got thousands of acres of land even under this definition, the lands will naturally revert to the Government. And here I must clear the point by saying that these lands will be assigned not to political sufferers, as Dr. John and Mr. B. Narayanaswami Nayudu apprehended, but to the ryots in those areas themselves. For after all, according to the latest figures available as regards the number of applications received by the Government from political sufferers, the number is roughly 13,900, of which about 4,000 or 5,000 applications are not valid. All of these applicants further do not live in zamindari tracts. Even supposing we are giving 5 acres of land to each of these political sufferers, the total acreage of land that will be required for reassignment to them will not exceed about 50,000 acres. And when we have lakhs of acres of land in our Presidency, certainly these 50,000 acres are nothing, and should not form the subject-matter of criticism in this House."

22nd November 1948]

DR. SIR A. LAKSHMANASWAMI MUDALIYAR :—" I am anxious to know, Sir, how these lands are going to be assigned . . ."

THE HON. SRI KALA VENKATA RAO :—" They will be assigned according to the land assignment policy that is being determined by Government for the ryotwari area. That Government Order has not yet been published, but I can tell the hon. Members of this House now that a decision has been reached by the Cabinet in the matter, that these lands will be distributed to the landless poor in the order of preference to Harijans, Backward Classes and the landless poor, residing in that village. Of course, preference will certainly be given to the local man, because a man from Madras should not be asked to go and cultivate a land near Masulipatam. We have passed similar orders recently. If there are two persons, one of them residing at a distance of ten miles from the place, and another at a distance of one mile, preference will be given to the 'one-mile-man' rather than to the 'ten-mile-man' because the cultivation of land is a biological process, which cannot be easily done by the pressing of a button.

" Another question that has been raised is with reference to the Hasambada village. Really it is a very peculiar case which came to my notice only just now. I am getting the matter legally examined and we shall do all that is possible to see that justice is done to the cause of the ryots in that village.

" Then comes the question of lands in exchange in Palivela. When the Amalapur canal was dug, those lands were not compensated for. So Government have a moral responsibility to see that the matter is examined, and justice is done to the parties that are involved in the matter.

" The provision in our Bill, as regards mines, etc., is a very simple and reasonable one, because no other Bill in India has provided for a similar concession. There was a suggestion that the period is limited to one year. But I would only say that that is to apply not to mines, but to other items, such as forests, etc. Where already a contract was given, we do not want to disturb it. With reference to the long-range contracts, we wanted to go still further, subject, however, to the fact that at some future date, the Government may take possession of them. If, however, Government decide upon any particular use of these lands, they have always the right to acquire them. But we definitely said that that could be done only on the payment of a compensation. We have mentioned the Board of Revenue here because there are the standing orders of the Board, with reference to the acquisition of mines, and other ordinary rights in regard to such lands, etc. I assure the House that the same rules that are in vogue now in the ryotwari areas will certainly be applied to these zamindari areas also, and we have no definite intention to disturb anybody who already has got a contract, or in any way favour or patronise anybody.

" Then, Sir, as regards the question of survey and settlement I can tell the House that we have taken adequate measures already

[Sri Kala Venkata Rao] [22nd November 1948]

and a number of survey parties have been trained, and the moment this Bill becomes law, we will put these survey parties into the field, and we shall take all possible measures to see that the work is finished at the earliest possible time. And our rough estimate is that the last estate will be surveyed within a period of five years. That does not mean that every estate will have to wait for five years to be surveyed. There are small estates as well as big estates. Some big estates have been surveyed already, as for instance the estate of Vijayanagaram, except in a few places. We will take advantage of the available records on the subject, and so we can easily finish the settlement, etc., within a period of five years.

“ My hon. Friend, Mr. Narayanaswami Nayudu, raised a point with regard to the Amarakam accounts, whether they should not be taken as the best information on the subject. Of course, they should certainly be one of the items on which our future policy has to depend. There is no doubt about that. But as is known very well, these accounts are not always correctly kept in a very large number of cases. There are to be found in these accounts the names of persons who lived some 100 years ago. For instance, in the Bubhandi accounts of Palivela village, the name of one Mr. Kala Narayanamurthi is found in these accounts. But there is no such Kala family person at all living within a radius of five miles from the village. The wording of the clause has been made definite having in view all such cases. We do not want to disturb the legal rights of those who have got a patta or an established right. Nor do we wish to create any gap between these ryots and the Government. All steps will be taken to see that the rights which are being enjoyed by a person now, continue to be enjoyed by him. However, if there is any wrong entry, the matter has got to be examined, and I hope these cases will be few and far between.

“ Next comes the question of levelling up of rents. A criticism has been made, why not level up the low rents also, when the high rents are to be reduced. And here I may say we have come into grips with some practical difficulties. I am getting all the notifications so far made under the Rent Reduction Act examined. Except in the case of some six villages, everywhere the rents have been brought down, and there was no need to level them up once again. I may also state that this present notification of rents is not a permanent feature either. I do not think that there will be many cases, according to present experience, where the rents will have to be levelled up. Exceptions there may be, like the very very dry and unapproachable areas like Bhadrachalam where there may be people paying a rent of four annas per acre. But such exceptions will not be many.

“ Then, Sir, coming to buildings in these estates, I may tell the House, that among these 2,810 zamindaris, we cannot find more than about 100 buildings worth mentioning. So, the provision in this Bill will apply only to these 100 buildings or so. In most of these places, there may be only a pial as an office, and in

22nd November 1948] [Sri Kala Venkata Rao]

the other portion of the building, the zamindar or the landlord may have his residence. We have made a provision in this Act to take away only buildings which have been used for the purpose of administration and collection of rents. Of course, the burden of collecting the rent has been placed upon the zamindar by the sanad; he cannot collect simply by sitting under a tree or in the air. There must be some place from which he could collect his rents. There must be some building for that purpose. That building is now sought to be taken over by Government for the same purpose. Except in very rare cases, I can assure the House, there are no office buildings at all. I have myself seen many of these estates. And there are no buildings at all, except in a few places. In Vijayanagaram, we may not want a building for our administrative purposes. We are not paying any compensation to the zamindar for these buildings because according to the sanad, he was using them exclusively for that purpose, and now we are taking them over for the same purpose. If we want any other building, we will pay compensation for the same, and take possession of it, as Government have always got the right to requisition and acquire buildings for any public purpose as they may think necessary.

“ I have now to answer another question about the Tribunals v. the Courts of Justice. I would only like to say this much about this matter. The Tribunal is after all only one form of a court and nothing else. If we allow free litigation it will take so many years—even now my hon. Friend Dr. John is still getting vakalaths under the 1908 Estates Land Act, after a period of 40 years. Just to avoid such a long litigation, these Tribunals are to be constituted. They will function exactly as a Court of Law, in that the personnel of these Tribunals will consist of a District Judge, a Subordinate Judge and a Deputy Collector, one set for each. I can assure the House that only people with a large amount of experience, and people who have been in the judicial service for a pretty long time will be appointed to these Tribunals.”

AN HON. MEMBER :—“ And honest too.”

* THE HON. SRI KALA VENKATA RAO :—“ Of course, that is a relative matter. If there is any dishonesty, it is open to my hon. Friend to bring it to the notice of the Government. And we will see that not only such dishonest persons cease to be on the Tribunal, but also cease to be District Judges in the future.

“ There was then a reference to the Board of Revenue. Personally, I am one of those who feel that the Board of Revenue should be abolished, the earlier the better. But as long as it is there, it has to perform certain functions; it is exclusively in charge of land records and settlements, etc. Wherever we have mentioned it, it is only related to the settlement business, and nothing else. The Government are not abrogating any of their rights in the matter. My hon. Friends may remember that when we were providing ‘ Government ’ as the appellate authority, there was pressure brought to bear upon us that the Board of Revenue should

[Sri Kala Venkata Rao] [22nd November 1948]

be mentioned, because many members of the Select Committee felt that it is more efficient than the Government, and will go into the question thoroughly; if on the other hand it is left to the Government, the Hon. Minister, who has got already so much work to do, may not be able to go into the matter so thoroughly. And many of the amendments given notice of by my hon. Friend Mr. Suryanarayana Rao go only that way. Hon. Members can feel rest assured that the Board of Revenue has been entrusted with nothing but arithmetical work and calculation, because the principles are already there."

DR. SIR A. LAKSHMANASWAMI MUDALIYAR :—" If the Board of Revenue acts as a Tribunal, will lawyers be allowed to appear before it? "

* THE HON. SRI KALA VENKATA RAO :—" If it is the view of hon. Members that there should be representation on behalf of the aggrieved parties, we can certainly provide for it in the rules."

SRI R. SURYANARAYANA RAO :—" If there is no belief in the Board of Revenue, why then clause 39? "

* THE HON. SRI KALA VENKATA RAO :—" The Board of Revenue is only an institution. To-day it is in my charge, and I am administering it. We can have an organization with the Presidency Administrative Officers instead of the Board as in other Provinces, or even in our own Presidency. But that is a matter of reform. Till then, the present set-up has to continue. To-morrow hon. Members may say that the Minister should be elected as in Ceylon; but till then, the present Ministry must continue in office. If the Board of Revenue goes, then the arrangement with reference to that also goes. I may say, for the information of the hon. Members of this House, that to-day in about 131 Statutes in our Province, the Board of Revenue is referred to in some form or other. When we eradicate all these things, we will also eradicate the provision in this Bill referring to it. As far as this Bill is concerned, what is entrusted to the Board is simply some piece of arithmetical work, and not any work of a judicial nature."

DR. V. K. JOHN :—" If it could be done by clerks, then why this Board of Revenue? "

* THE HON. SRI KALA VENKATA RAO :—" But, Sir, the Board of Revenue begins with the lower division clerk and ends with the First Member. The Government also begin with the lower division clerk and end with the Hon. Minister, as the Opposition here begins with the back-benchers and ends with the hon. Dr. John. So, the whole thing cannot run in any other way.

5-30 p.m. " Then, Sir, there was a reference to the new modes of agriculture by Dr. Sir A. Lakshmanaswami Mudaliyar. I am thankful to him for his advice to me to go to other countries and see them. With the blessing of the House and with his blessing I may go and see them. But that is only a future programme with reference to agriculture. Questions like fragmentation of holdings into small individual peasant holdings or consolidation of holdings

22nd November 1948] [Sri Kala Venkata Rao]

are all subjects of major reform which will be dealt with in other Bills. The hon. Member's sound advice that we should take advantage of scientific agricultural methods adopted in other countries will certainly be taken into account when the matter will be considered."

DR. V. K. JOHN :—" It is only after your tour in foreign countries."

* THE HON. SRI KALA VENKATA RAO :—" I may or may not be Minister here. You may come over here and take up the work.

" Sir, with regard to the rules made under clause 40, objection has been raised that there is provision only for placing them before the Legislative Assembly and getting their approval. In the original Bill the Government proposed that the rules should be placed before the Legislature, but it was the Select Committee which changed 'Legislature' into 'Legislative Assembly.' The Government have no objection to consult this House also about the rules. I do not know how it can be done and I shall consult Dr. John whether we can bring the rules before the House through a Government Motion or by some other method."

DR. SIR A. LAKSHMANASWAMI MUDALIYAR :—" It is not a question of the Hon. Minister having no objection to consult this House. If he attaches any value to the opinion of this House, he should on the other hand welcome such consultation."

* THE HON. SRI KALA VENKATA RAO :—" The simple fact that the original provision in the Bill was to the effect that the Legislature should be consulted shows the attitude of the Government from the beginning. It is our desire that the Legislature should be consulted. If necessary, as I told Dr. John, I will bring forward an amending Bill as soon as this is passed into law.

" Then, Sir, Dr. Sir A. Lakshmanaswami Mudaliyar said that there was an apprehension in the minds of some people that this Bill would be a dead letter. Two or three other hon. Members also criticised it in the same way. Without entering into detailed arguments, I may say that I have gone to various places and had the Bill examined. I have taken the best legal advice possible and contacted the ablest administrators. Though I am a layman, I may assure the House that this Bill will not fail in any Court of law. In the matter of enforcement, I assure the House that with the goodwill of all the hon. Members, the Government will certainly see that the Bill is brought into force as early as possible and administered in the best possible way.

" Sir, Dr. Lakshmanaswami Mudaliyar at the end of his speech appealed: 'Lead, kindly light; one step enough for me.' I agree with him completely, Sir. This is the first step and there are many other steps. Whether it will be given to me or to a

[Sri Kala Venkata Rao] [22nd November 1948]

different Minister or different Government, it does not matter. Let that kindly light lead us on, neither to the left nor to the right, but only forward."

DR. V. K. JOHN :—" I wanted to know, Sir, why compensation should be paid from public revenues and not by the pattadars themselves who are benefited."

* THE HON. SRI KALA VENKATA RAO :—" As I have explained already, eventually it will be paid by the pattadars. We are collecting land revenue from him. Wherefrom are we getting the public revenues?

" I will close my reply with this. One Mr. Markham wrote a small poem entitled ' The Man with the Hoe ' some years ago. It reads as follows :—

*' Bowed by the weight of centuries he leans
Upon his hoe and gazes on the ground.
The emptiness of ages on his face,
And on his back the burden of the world.*

*Through this dread shape the suffering ages look,
Time's tragedy is in that aching stoop,
Through this dread shape humanity betrayed,
Plundered, profaned and disinherited,
Cries protest to the powers that made the world
A protest that is also prophecy.'*

" Sir, let ' the man behind the hoe ' have his legitimate rights and get all the help from the peaceful social revolution which the Congress Party, maligned or applauded, wants to bring about in the land revenue administration of this country. Let us all help in this task. Let us take our forward steps united. In view of the high level of the discussions that we have had in this House, I would very much request the House to give their entire support to the Bill. If any difficulties are found in the working of it, we will be the first persons to rectify them at the earliest possible moment, because we never stand on prestige as we have demonstrated more than once. I move, Sir, that the Bill be taken into consideration."

The motion that the Bill be taken into consideration was put to the House and carried.

The House adjourned till 11 a.m. on Tuesday, 23rd November 1948.
