

been referred to the Pakistan Government and the reply was awaited. May I know whether the reply has since been received?

**The Honourable Shri N. Gopalaswami Ayyangar:** So far as I know, it has not yet been received.

**Shri R. K. Sidhva:** What steps do Government intend to take to have the matter expeditiously disposed of?

**Mr. Speaker:** Further representations will, I suppose, be made.

**The Honourable Shri N. Gopalaswami Ayyangar:** We will press them to send a reply as early as possible.

#### NEGOTIATIONS WITH CEYLON RE-RIGHTS OF INDIANS

**\*206. Seth Govind Das:** (a) Will the Honourable the Prime Minister be pleased to state what is the latest arrangement agreed upon by the Governments of India and Ceylon on the question of rights and privileges of Indians living in Ceylon, in view of the two Bills passed in Ceylon affecting Indians living there?

(b) Is it a fact that the Government of India are still carrying on negotiations with the Government of Ceylon on this question?

(c) If the answer to part (b) above be in the affirmative, what is the result of such negotiations?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) The citizenship rights for Indians resident in Ceylon will be governed by the provisions of (i) the Ceylon Citizenship Act No. 18 of 1948 and (ii) the Indian Residents (Citizenship) Bill which is now before the Ceylon Parliament. The Act and the Bill appear respectively as Annexures III and II to the published correspondence on the subject between the Governments of India and Ceylon. Copies of this correspondence have been supplied to all honourable members of this House. It will be seen from the published correspondence that the Government of India have not been able to agree with several important provisions in the Ceylon legislation.

(b) and (c). No negotiations on this subject are at present being carried on between the Government of India and the Government of Ceylon.

**Seth Govind Das:** Is it not a fact that some of our labourers who are working in Ceylon want to be repatriated to India?

**Dr. B. V. Keskar:** Some might want to be repatriated.

**Seth Govind Das:** Have the Government of India received any such applications recently?

**Dr. B. V. Keskar:** I will make enquiries.

#### RECORDS OF SERVICE OF REFUGEE GOVERNMENT OFFICIALS

**\*207. Giani Gurmukh Singh Musafir:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether Government are aware that the Government of Pakistan in spite of repeated requests by the heads of Departments in the Indian Dominion, calling for the records of service of absorbed Refugee Government Officials, have not been supplying any records, especially those of Sikh Government Officials?

(b) If so, do Government propose to take steps to get the service records, General Provident Funds and other due emoluments of the Government Officials from Pakistan now absorbed temporarily in services in the Indian Dominion.

<sup>†</sup>Answer to this question laid on the table, the questioner being absent.

**The Honourable Shri Mohan Lal Saksena:** (a) Yes.

(b) Yes, action is being taken under the Agreement recently reached with the Pakistan Government for the exchange of records and payment of dues such as pay, leave allowances and provident funds etc. of Government officials who have come to the Indian Dominion.

#### PARTITION OF ASSETS OF CO-OPERATIVE BANKS BETWEEN INDIA AND PAKISTAN

**\*208. Sardar Bhopinder Singh Man:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state the decisions arrived at between Pakistan and India regarding the partition of the assets of Co-operative Banks?

(b) What is the total amount of money left behind by Hindus and Sikhs in West Punjab Co-operative Banks and the amount left by Muslims in East Punjab Co-operative Banks?

(c) Is it a fact that so far no payment has been made by the Co-operative Banks to any Hindu or Sikh depositor who has come from Pakistan and if so, why?

**The Honourable Shri Mohan Lal Saksena:** (a) Some details of the issues involved have been worked out and the matter is now being taken up with the Pakistan Government.

(b) The total amount left by Hindus and Sikhs in West Punjab Co-operative Banks is Rs. 3,54,54,746 against corresponding amount of Rs. 1,23,90,387 left by Muslims in East Punjab. In addition claims of Hindus and Sikhs against West Punjab to the extent of Rs. 75 Lakhs have yet to be verified.

(c) Yes.

**Sardar Bhopinder Singh Man:** Is it a fact that the Punjab Co-operative Bank now in Pakistan has got certain securities deposited with the Reserve Bank of India? If so, what is the amount?

**The Honourable Shri Mohan Lal Saksena:** I will require notice of that question.

**Sardar Bhopinder Singh Man:** In case there are certain such securities do Government propose to utilise them or withhold them, unless the Pakistan Government allowed the West Punjab Co-operative Banks to pay the money to their Hindu and Sikh depositors?

**Mr. Speaker:** It would be hypothetical at this stage.

#### IMPORT OF PLASTIC MATERIALS

**\*209. Shri B. P. Jhunjhunwala:** (a) Will the Honourable Minister of Commerce be pleased to state the policy of Government with regard to the import of plastic material, (i) raw product, e.g., plastic sheets, etc. and (ii) manufactured goods?

(b) Have Government examined the comparative prices of imported raw materials and imported manufactured goods?

(c) What is the difference between the price of imported manufactured plastic goods and that of indigenous manufactured plastic goods?

(d) What is the total quantity of plastic materials imported (i) raw materials and (ii) manufactured materials—and what is their value (under two separate heads)?

**The Honourable Shri K. C. Neogy:** (a) With regard to the Raw Product, such as moulding powders, plastic sheets, rods, etc., licences for imports from the U.S.A. and other hard currency countries were granted to regular importers on the basis of their past imports and to actual users on the basis of their requirements. Import of these goods from the U. K. and other soft currency

402

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [8TH FEB. 1949]

countries are covered by Open General Licence No. XI and no licences are required for their import from those countries. Imports from Switzerland shipped up to 31st January 1949 and from Japan shipped upto 31st March 1949, will not also require a licence as they are covered by the Open General Licence Nos. XII and XIII respectively.

As regards Plastic manufactures like plastic belting, straps, plastic shades, ashtrays, wallets, handbags, etc., no licences are being granted for importation from the U.S.A. and other hard currency countries. Licences for importation from U. K. and other soft currency countries are being granted on a restricted basis. Electrical accessories including those made of plastic material are, however, on Open General Licence for Soft Currency areas, whereas they are prohibited for imports from dollar and hard currency areas.

(b) Yes.

(c) Generally speaking, the prices of the indigenous articles are about the same as those of the imported goods, but the finish of the indigenous manufactures is often of a lower standard.

(d) Figures in quantity, are not available. I lay on the table a statement showing the figures in value, which are available, of the imports made in the five years from 1944-45 to 1948-49.

*Statement showing the figures in value of import of Plastic materials (i) Raw and manufactured, under two separate heads for the five years from 1944-45 to 1948-49.*

(Figures in Rs. 000.)

| Description.             | 1944-45 | 1945-46 | 1946-47 | 1947-48                   | 1948-49 | Remarks                                                                                            |
|--------------------------|---------|---------|---------|---------------------------|---------|----------------------------------------------------------------------------------------------------|
| <i>Plastic material.</i> |         |         |         |                           |         |                                                                                                    |
| (i) Raw                  | ...     | ...     | 25      | ...                       | ...     | The figures relate to imports made at Bombay. The import figures at other ports are not available. |
| (ii) Manufactured.       | 34      | 221     | 17,80   | 25,05                     | 398     |                                                                                                    |
|                          |         |         |         | (upto November 1945 only) |         |                                                                                                    |

**Shri B. P. Jhunjhunwala:** What is the criterion on the basis of which quantitative restriction is imposed by the Government on imported manufactured goods?

**The Honourable Shri K. C. Neogy:** Will the honourable member refer to the particular point in my own reply? Is it a general question, or is it with reference to plastic goods?

**Shri B. P. Jhunjhunwala:** My question is regarding plastic goods. The Honourable Minister has stated that restrictions are put on the importation of manufactured goods from the sterling areas. What is the criterion on which this restriction is put?

**The Honourable Shri K. C. Neogy:** The restriction is mainly determined by the availability of the required article in India out of local manufacture. This is the principal consideration.

**Shri T. T. Krishnamachari:** May I know whether there has been any examination of this question, whether the matter has been referred to the

Tariff Board to determine if the industry needs protection and if protection should be given to this industry?

**The Honourable Shri K. C. Neogy:** That is so. The whole question of the plastic industry is being examined by the Tariff Board at the moment.

**Shri T. T. Krishnamachari:** Am I to understand that this quantitative restriction on goods from the sterling area is a temporary arrangement?

**The Honourable Shri K. C. Neogy:** It is not intended to operate as a protective measure at all, temporary or otherwise.

**Shri T. T. Krishnamachari:** What is the idea really behind this quantitative restriction?

**The Honourable Shri K. C. Neogy:** The idea is conservation of our foreign exchange as far as possible, that is to say, we are not expected to utilise our foreign exchange for the purpose of importation of articles which can be had within the country out of local manufacture in sufficient quantities.

#### INFLUX OF REFUGEES FROM PAKISTAN

**\*210. Shri B. P. Jhunjhunwala:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) the total influx of population from Pakistan, (i) Eastern Pakistan and (ii) Western Pakistan, into India till 31st December 1948; and

(b) the financial burden of such influx on the Public Exchequer till that date?

**The Honourable Shri Mohan Lal Saksena:** (a) The honourable member is referred to the reply given by me to part (a) of Starred Question No. 400 by Shri Biswanath Das on the 3rd February, 1949.

(b) The total expenditure so far reported on relief and rehabilitation is about 2166 lakhs.

#### OBJECTIONS BY WHISKY MANUFACTURERS ASSOCIATION, LONDON FOR PLACING ORDERS WITH MR. BUTLER

**\*211. Shri Lakshminarayan Sahu:** (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that the High Commissioner for India in the U.K., placed an order for whisky for the Indian Army with one Mr. Butler?

(b) If so, is it a fact that the Whisky Manufacturers Association represented the matter to the Director General of Supply in India Office in London and asked the reason for giving higher rates for whisky than the market price prevailing in London?

(c) Did they state that if this contract were given to Mr. Butler, the Association would refuse to supply whisky in future to the Indian Army?

(d) What action did the High Commissioner in consequence take in respect of the said contract?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) to (d). No order for whisky was placed with anyone of the name of Butler. The transaction was a normal one conducted on behalf of the Defence Ministry through normal channels. An order for the supply of whisky was placed, in accordance with the prescribed rules for the placing of Government contracts, with H. Bensons Ltd. The High Commissioner's attention being drawn to it, he succeeded later, through the good offices of the Scotch Whisky Association, who are not traders but an association

controlling the market, in securing the entire supply at a lower price. This effected a saving of approximately £6,000. Legal opinion was received that the contract with Bensons having been completed, could not be terminated. The matter was thereupon compromised by the payment of £400 to Bensons Ltd., which was the amount actually expended by them in their attempts to secure supplies. Even so, there was a net saving to Government of nearly £5,600.

**Shri H. V. Kamath:** Are all our purchases there made through the Director-General of Stores and Supply in the India Office?

**Dr. B. V. Keskar:** There is a fixed procedure for securing such supplies and that procedure was followed in this instance also.

**Shri H. V. Kamath:** Who is the purchasing agent with the Government of India in England?

**Dr. B. V. Keskar:** I require notice of that question.

**Shri H. V. Kamath:** Is he a Britisher?

**The Honourable Shri Jawaharlal Nehru:** No, Sir.

**Shri H. V. Kamath:** Has the Honourable the Prime Minister's attention been drawn to the latest statement of Shri Sarat Chandra Bose wherein he says that the purchasing agent with the Government of India in England is one Mr. Cleminson who had appointed on behalf of the Government of India one Mr. Potter as official broker; and may I know whether it is true that purchases which are made through the Director General of Stores are in actual fact only nominally so made?

**The Honourable Shri Jawaharlal Nehru:** As a matter of fact I ventured to give a reply to most of the points raised by the honourable member a few days ago in answer to a question. With regard to the further statement purporting to come from Mr. Sarat Chandra Bose I can only regret that statements are made which have extraordinarily little relation to facts. It amazes me that any person who in the faintest degree considers himself responsible should make such statements without the slightest reference to anybody. Mr. Sarat Chandra Bose was in London and on arrival in India he did not try even to verify the statements which he had made; on arrival in India he did not try to put himself in touch with anybody and find out whether his statements were correct or not. He could have done that. In fact most of the statements that he has made are, like this present one, incorrect and completely baseless.

May I inform the House in this connection that India House in London is a very big organisation which not only carries out its old functions such as they were but carries on all the functions of India Office which ceased to exist and which were transferred to India House. Further, now—since the last year and half—it is on a par with one of our principal Embassies. It carries on, in addition to its own functions, the old functions of the India Office which are still continued, as well as diplomatic and consular functions, with the result it is a very big establishment now. Many of the people employed there have been employed previously, that is from the previous regime. Some have come over from India Office—old hands with fifteen or twenty years service. What we have attempted to do is naturally to change the heads of departments and the principal officers, and we have succeeded in doing that. The heads of departments and principal officers, I believe, are Indian now. Most of the English staff are clerical staff and the lower staff. Even in regard to those it is our ceaseless attempt to change them. But may

I mention to the House one or two matters in this connection? First of all it is not a particularly easy matter to send there large numbers of clerks from India for the clerical work. Apart from the expense involved it is not easy to find suitable men—suitable not from the point of view of competence of doing the work; that we will find no doubt—but suitable from the point of view of being able easily to fit in there. This is a difficulty not only for the clerks themselves but even greater for their families. We cannot send them for long periods without the families also being sent. So it is not an easy matter. But we are sending them more and more. Many fit in; many do not fit in and we have to bring them back. All these difficulties have to be considered. As a matter of fact a large number of people employed there—old employees—have been replaced by Indians who have been sent there. But, as I said, we have started at the top and we have succeeded in that. We now propose as an efficiency measure, which may also of course bring about economy to overhaul the whole staff with the help of the High Commissioner there and with the help of some officer sent from here, so that we can make the working more efficient than it is at present. My own personal experience of its work during the last two or three years as a result of watching it from here and also during my last visit to England was that there has been a great improvement in the efficiency of the work there generally speaking and a general co-ordination of an extraordinarily complicated structure.

**Shri M. Ananthasayanam Ayyangar:** May I know what are the more important India Office functions which still continue after the Independence Act was passed?

**The Honourable Shri Jawaharlal Nehru:** Mostly pensions etc.—payments of that type which are pretty extensive.

**Srijut Rohini Kumar Chaudhuri:** May I ask for whom this whisky is intended? Is it for the entire Indian Army or for non-Indian officers of the Army?

**Dr. B. V. Keskar:** That question should be addressed to the Defence Department.

**The Honourable Shri Jawaharlal Nehru:** No, no. I will answer it. I regret the habit to refer questioners to other Departments. In so far as we can we should answer the questions. If there is anything that remains it can be asked from the other Department.

With regard to the present question, it is meant for the Indian Army, both Indian and non-Indian.

**Shri B. Das:** Has the Honourable the Prime Minister examined with the help of the Honourable Minister for Industry and Supply the files dealing with the scope of purchases in London, and has he also come to know that there are various cases where the High Commissioner in London has himself taken personal interest in the placing of orders, which was not the practice even with the former Government which the Honourable the Prime Minister has succeeded?

**The Honourable Shri Jawaharlal Nehru:** I do not know which matters the honourable member is referring to. If it is relating to this whisky...

**Shri B. Das:** Not about whisky.

**The Honourable Shri Jawaharlal Nehru:** How can I answer about odd questions. In this particular matter, because this question was put we took

special interest and we found that the High Commissioner knew nothing about it till he was directly approached by the Defence Ministry to intervene and help them.

**Mr. Tajamul Husain:** Do Government propose to take action against those people who make false and reckless statements against Government, and if not, why not?

**The Honourable Shri Jawaharlal Nehru:** We will have to have a separate Ministry for that.

**Mr. Speaker:** The question hour is over.

### (b) WRITTEN ANSWERS.

#### GAZETTED OFFICERS IN AND WORKING OF LABOUR BUREAU

**\*212. Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Labour be pleased to state:

- the number of Gazetted Officers in the Labour Bureau; and
- the nature of the work of the Bureau?

**The Honourable Shri N. V. Gadgil** (Minister for Works, Mines and Power):

(a) Seven.

(b) The Labour Bureau is responsible for (i) collection and compilation of statistics under various Labour Acts (ii) conduct of research into specific labour problems with a view to furnishing data required by Government for the formulation of policy and (iii) publication of intelligence regarding labour matters through the media of a monthly Labour Gazette, Labour Year Books monographs, etc.

#### FOREIGN INSURANCE COMPANIES

**\*213. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Commerce be pleased to state the number of foreign Insurance Companies carrying on business in India?

(b) Are there any restrictions placed upon such Companies?

(c) If so, what are they?

(d) Have Government information regarding the extent of business done by Indian Insurance Companies in foreign countries?

**The Honourable Shri K. C. Neogy:** (a) 107.

(b) and (c). There are no restrictions placed upon such companies other than those provided for in the Insurance Act, 1938. I would invite special attention to the following: (i) Section 27(2) which requires investments in Government and approved securities to cover the full adjusted life policy liabilities in India; (ii) Section 27(4) which requires that these investments should be kept in trust in India; (iii) Section 62 which empowers the Government of India to impose such further special requirements as may be considered necessary having regard to the treatment meted out in the country outside India in which the non-Indian Company may be incorporated to Indian companies carrying on insurance business there; and (iv) Section 64 which requires the books of account and registers of such companies to be maintained at the company's principal office in India.

(d) Yes. I lay on the table a statement giving the requisite information.

### STATEMENT

The figures for 1947 are as follows

(excluding those relating to Pakistan) :—

(i) Life business (1) affected in 1947 and (2) in force on 31st December 1947.

| Number of Policies |           | Sum insured including Bonuses |               | Annual Premium income |              |
|--------------------|-----------|-------------------------------|---------------|-----------------------|--------------|
| New (1)            | Total (2) | New (1)                       | Total (2)     | New (1)               | Total (2)    |
| 16,500             | 840       | 5.51 crores.                  | 25.35 crores. | 35 crores.            | 1.43 crores. |

|                     |                                      |
|---------------------|--------------------------------------|
| (ii) Fire Insurance | Net Premium in 1947 Rs. 1.50 crores. |
| (iii) Marine        | " " " " 0.46 crores.                 |
| (iv) Misc.          | " " " " 0.15 crores.                 |

#### RECIPROCAL RIGHTS FOR INDIANS TO DO BUSINESS IN FOREIGN COUNTRIES

**\*214. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Commerce be pleased to state whether we have secured any reciprocal rights of doing business in any foreign countries whose nationals are being permitted to do business in India?

(b) Has this matter been recently examined?

(c) If so, what are the conclusions reached in this matter?

**The Honourable Shri K. C. Neogy:** (a) to (c). I would invite the honourable member's attention in this connection to his starred question No. 230 answered by my predecessor on the 11th February 1948, regarding the facilities offered to Indians in foreign countries for the opening of and establishment of commercial concerns. The information so far collected from our Embassies and Trade Commissioners abroad regarding the restrictions placed on Indian businessmen setting up business concerns in foreign countries, is laid on the table of the House. This information reveals that some foreign Governments have imposed certain restrictions, and the question of removing these disabilities is now engaging Government's attention, particularly having regard to the fact that no restrictions have so far been imposed on any foreigner carrying on lawful trade or business in this country.

*Statement showing the restrictions on the activities of the Indians engaged in trade and commerce in the countries abroad*

#### COUNTRIES AND THEIR RESTRICTIONS ON THE ACTIVITIES OF FOREIGN BUSINESSMEN

**France.**—There are no restrictions on the activities of Indian traders as such but all foreign nationals are subject to the following regulations in trade matters:

- They have to secure businessman's identity card which specifies the profession or professions chosen, the Department or Departments where they can do business and their rights and obligations in the conduction of their business. They cannot engage in any commerce or trade other than that specified in the card or outside the territorial limits indicated therein.

- (ii) The businessman's identity card cannot be issued to them, except in exceptional cases, unless they have received authorisation to reside in France and are not in that country only temporarily or without an identity card. It is also not issued to those who have declared that they have come to that country for a reason other than that of engaging in trade.
- (iii) The businessman's identity card can be withdrawn if false reasons have been given to obtain it or if the holder is declared bankrupt or condemned for crime, without prejudice to any expulsion order which may be served on him.
- (iv) The identity card prescribed for (a) partners held jointly and severally responsible for the company's debts, (b) presidents of board of directors of a limited company, (c) administrators of limited companies, (d) persons managing a branch or agency is the businessman's identity card. A managing director is considered a businessman only if he is the chairman of the board of directors and in such cases he must hold a businessman's identity card. In the case of general director or administrator the identity card should bear the mention of president or administrator as the case may be. If the businessman in question already possesses a foreign businessman's card "no purpose is served", i.e., he must obtain the identity card prescribed for a general director or administrator in addition.
- (v) The fact that an alien has been residing in that country for a great many years does not dispense him with securing the businessman's identity card in order to operate a business.
- (vi) Business undertakings relating to road transportation, travel agencies, wheat trade and especially canvassing (bank canvassing) are closed to foreigners. Employment of alien workers is permitted only upto the prescribed percentage for the profession. Alien workers have to obtain worker's permit.

It may be added that the French Law provides that aliens wishing to exercise a commercial or industrial occupation will be accorded the same treatment as that in force for Frenchmen of the same profession in their respective country.

*United States of America.*—The principal and real disadvantage from which the Indian businessmen there actually suffer and from which all their present disabilities evidently accrue arises from their insecure status under the immigration laws of that country. The Indian businessmen established in or visiting that country do not have the same status as the American businessmen established in or visiting India have, i.e., they are not allowed to stay there as long as they wish or their business demands. Indians desirous of acquiring technological training in the U. S. industry, private firms and business as private individuals are not permitted to stay there for a period necessary for them to learn and acquire the desired technological experience and training for their chosen vocation. Even those who are now eligible for U. S. citizenship are not, in a commercial sense, treated on equal terms with the businessmen of many other countries. The following disabilities also attaching to other aliens apply to Indians in addition :

- (i) In the establishment of the corporate form of business it is required that of the minimum number of three directors at least one must be a U. S. citizen and resident of the particular state.
- (ii) The non-resident alien who is not engaged in business in the United States but derives an income from sources in that country of \$ 15,400 or less is taxed at the rate of 30 per cent. thereof and is given a personal exemption of \$ 500 only so that he pays a higher rate of income-tax than a resident alien or a citizen. Residence is a matter of intention but where the alien is under compulsion of leaving the country upon the expiration of his visa period he is regarded as a non-resident, at least for purposes of income-tax.

*United Kingdom.*—There is no anti-Indian legislation, regulation or notification in that country, but apparently they are subjected to the restrictions that apply to other foreigners in U. K., though this has not been definitely stated by the Trade Commissioner.

*South American countries and Argentine.*—There are financial restrictions governing the entry of foreign money and controls and the movement of funds, and remittances of profits and dividends. There has also been a proposal to compel employment of Argentine nationals as clerical staff but no orders to this effect have yet been issued.

*Uruguay.*—There is no discrimination against foreign nationals.

*Venezuela.*—In general terms, the Constitution guarantees to foreigners resident there, without prejudice to inter-national agreements, equal rights as nationals of that country. Restrictions may, however, be imposed upon the exercise of the rights enjoyed by all foreigners, or by a certain class thereof, whenever called for by grave reasons of internal or external security, or of public health and welfare. As far as immigration is concerned, no persons are accepted except those of the white races. Foreigners wishing to enter that

country must apply for a permit from the Ministry of Foreign Affairs (in Caracas), giving certain particulars including those relating to professional activities and capital or means of livelihood.

*Honduras.*—Foreign firms desirous of establishing branches in Honduras have to submit for record in the Register, maintained for private traders and firms or companies, recognition of their legal status and certificate of the Honduranian Consul as to their constitution and authorisation under the laws of their respective countries, in addition to the particulars required from Honduranian nationals.

*Bolivia.*—There are no restrictions other than those applicable to Bolivians themselves.

*Panama.*—There are no discriminatory restrictions. The retail trade is, however, restricted to the following classes of foreigners :

- (i) Those who on the coming into force of the present Constitution were naturalised Panamenians and married to Panamanian nationals or have children of Panamenian nationality.
- (ii) Naturalised Panamenians not included in the preceding item 5 years after having obtained definite citizenship.
- (iii) Naturalised Panamenians not included in the preceding items who at the time of the enforcement of the present Constitution were engaged in retail trade according to the law; and also foreigners in similar circumstances.
- (iv) Legally constituted companies or associations of persons consisting of foreigners so empowered individually and also those who, while not so constituted, were legally engaged in retail trade on the coming into force of the present constitution. Foreigners not authorised to engage in retail may however, participate in companies which sell products of their own manufacture. Nationals of those States having enterprises or organisations in the Isthmus of Panama in which Panamenians are employed, may engage in retail trade, always provided that such nationals are legally domiciled in territory under the jurisdiction of the Republic of Panama.

*El Salvador.*—Persons of Arab, Palestinian, Turkish, Chinese, Lebanese, Syrian, Egyptian, Persian, Indian and Armenian races—irrespective of the nationality they may possess or have acquired—cannot indulge in any commercial or industrial activities or participate as partners in commercial or industrial concerns.

*Ceylon.*—There are no restrictions on the activities of Indian traders as such. They are, however, subjected to the following restrictions, as any other foreign national :

- (i) They cannot fish in Ceylon waters for profit.
- (ii) Every road service licence issued to a company is subject to the condition that the licence will be revoked if at least eighty-five per cent. of the share capital of the company is not held by persons who are Ceylonese. "Ceylonese" means a person domiciled in Ceylon and possessing a Ceylon domicile of origin.
- (iii) In accepting tenders for Government contracts preference is given to the tenderer who specifies the lowest percentage of non-Ceylonese labour which he proposes to employ for the purpose.

*Iran.*—The foreign businessmen including Indians are subjected to the following restrictions :

- (i) They cannot become members of local Chambers of Commerce.
- (ii) They cannot become Directors of Companies with monopoly rights, such as Telephone Co. and other public utility services organisations.
- (iii) They cannot act as Brokers or Clearing Agents.
- (iv) They cannot operate hotels, garages, cinemas, theatres, etc.
- (v) They cannot own agricultural land or properties, except those required for their business and residence.
- (vi) The foreign exchange regulations hit hard the Indians in particular. They are not allowed to remit money to India to meet the family expenses, insurance premia, etc. Even for their air passage to India they have to get money from India as it has to be paid in sterling and the Iranian Government do not give it.
- (vii) Foreigners desirous of staying there for more than a month have to obtain residential permit on payment. Even travelling from one town to the other is subject to permit system.
- (viii) They are not permitted to leave that country unless they have produced clearance certificates from the Exchange Control Department, Income-tax Department, Bank Melli and the Police Department.

- (ix) Indian traders are not allowed visa for that country unless they have an established business house there or intend to go there for touring. Even for the old traders it is difficult to obtain visas. New traders are not normally granted visas.
- (x) They cannot reside in frontier towns. This law has not yet been enforced strictly. There is a large number of Indian merchants in Zahidan and Khorramshahr which are on the frontier.
- (xi) They have to obtain a special licence for trading.

Iranian Government have also enacted a law which would root out foreigners from the import trade of that country and also drastically curtail their other trading activities. Full details have not yet become available.

*Canada.*—The principal and real disadvantage from which Indian businessmen actually suffer is the lack of their status there under the immigration laws of that country. Although there are no statutory restrictions on the conduct of trade by Indians, the temporary non-immigrant visa which is usually granted to them makes it not only impossible for them to stay there for any length of time to carry on their business but also strictly speaking, it does not, in effect, even permit them, under the immigration laws, to engage in business other than that of a transitory nature.

Although there are no legal restrictions on the activities of Indian businessmen in Canada apart from those accruing from Immigration Laws, it is understood that in the province of British Columbia where the majority of Indians reside, there has always been a certain amount of unwillingness on the part of some municipal organisations to grant licences to Indians to do business.

*Countries within the jurisdiction of the Trade Commissioner at Alexandria, viz., Egypt, Turkey, Syria, Palestine, Trans Jordan, Saudia Arabia, Iraq, Arab shore of Persian Gulf including Bahrain and Kuwait, Muscat, Sudan and Yeman.*—There are no exclusive legal restrictions against Indians as such. Whatever regulations there are, they apply to all foreigners equally. Information regarding the restrictions on foreigners in these countries has been promised by the Indian Trade Commissioner and may be awaited.

*Australia.*—Indian businessmen permanently domiciled in Western Australia cannot be registered as owners or occupiers of a factory nor can they be employed or engaged by the occupier of a factory unless they were so registered or employed, as the case may be, by 1st November, 1903. They cannot also be registered as occupiers of or assistants in a small shop. Thus Indians are clearly prevented from working in or owning a shop or a factory in Western Australia.

The case of Indian nationals not permanently domiciled in Australia is covered by an agreement between the Governments of India and Australia concluded in 1904. Under that agreement Indians are not eligible to enter Australia for the purpose of settling there permanently and following any occupation they may choose. *Bona fide* merchants may however go and remain there indefinitely provided they retain their status as merchants, i.e., they engage in promoting trade between the two countries on a wholesale basis and to the extent of not less than £ 500 per year. The term 'merchant' does not apply to retail shop-keepers and hawkers. An established house in India can also send a representative to that country to open a Branch there provided the above-mentioned condition is satisfied. If the volume of trade exceeds £ 1,000 in value, the representative would be permitted to import an assistant from India. The manager would be entitled to introduce his wife and minor children with him.

If an established firm in India doing overseas trade wishes to send a representative to Australia to inspect conditions or book orders there will be no objection to their doing so. Previous authority to land is not necessary but it is understood that it is desirable that the representative should hold some credentials in addition to a valid passport.

*Colony and Protectorate of Kenya.*—There are several ordinances which do not contain any provisions discriminating against Indians but their administration has shown that their operation in majority of cases and their continuance is directed against both the Indians and Africans in particular.

*Tanganyika Territory.*—There is no anti-Indian legislation there, in particular. Restrictions applying to other foreigners which may *inter alia* apply to the Indians residing in Tanganyika have not been indicated.

*New Zealand.*—They are not subject to any disabilities.

*French Establishments in India.*—There are no restrictions.

*Belgium.*—Establishment of a foreign business concerns is subject to permits. Applications are examined with a view to seeing whether the applicants meet the requirements laid down for the exercise of their professions and whether their activity would benefit national economy.

*Indonesia.*—In theory Indians are subject to the same trade regulations which apply to other foreign nationals. Difficulties experienced by them in the matter of import and export trade are mentioned below.

*Import Trade.*—All imports are effected through Government organisations. Restrictions on the issue of licences for private imports apply to all.

*Export Trade.*—Although there are no regulations discriminating against Indians, it is alleged that in practice all the better qualities of exportable commodities are made available mainly to European and American concerns while others are allotted comparatively small quantities of such commodities.

*Nepal.*—Foreigners are not allowed to establish commercial concerns except when they are clearly to the benefit of that country.

In the case of concerns of limited liability financed jointly by Nepalese and non-Nepalese nationals, the voting strength in the meeting of the Boards of Directors is always ensured in favour of Nepalese nationals irrespective of the proportion of investments among Nepalese and non-Nepalese.

Customs duty is charged from foreigners in monthly instalments whereas Nepalese subjects can pay it annually.

*Switzerland.*—Character, health and integrity of foreign nationals, the line chosen and the kind of activity to be pursued by them are investigated before granting business permits to them.

*Siam.*—There are no restrictions.

*Netherlands.*—Establishment of foreign commercial undertakings is subject to licences the issue of which is governed by various factors including investment of *ad hoc* proportions of Netherlands capital and constitution of the Board of Directors. Employment of foreign labour by foreign business concerns is also subject to licence and permission for employing foreign clerical staff is usually refused.

*Burma.*—Starting of new foreign enterprises is disfavoured particularly by refusing emigration and immigration facilities to personnel of new firms. Matters in regard to re-entry into Burma of non-evacuee personnel of even old established concerns have been made difficult frequently. Entry and duration of stay of foreigners in Burma are strictly regulated. Although there is no statutory discrimination against commercial concerns having foreigners in their employ or having foreign capital in their investments in the matter of import licences preference is given to indigenous Burmese concerns.

*Afghanistan.*—(i) Foreigners desirous of doing business have to secure a trading permit. The permit has to be renewed annually and a fee is levied depending upon the amount of customs duty paid during the preceding year. If a trader has paid no customs duty during the preceding year, the duty paid during the year before is taken to determine the fee. Should a trader pay no duty for 3 years, he is considered unfit for trade unless he gives a substantial reason for not doing so and invariably his trading licence is not renewed. The Government has full authority to cancel the permit once granted at any time, should the behaviour of the person concerned is found objectionable. In the case of fresh applicants, it is left to them to determine the class in which they wish to be put for the payment of fees for the trading permit.

(ii) Foreign nationals can maintain their accounts in their own language but they have to produce a true copy thereof in Persian while submitting them to the Income-tax Commissioner at the end of every year or to courts or other departments of the Afghan Government. The responsibility for the accuracy of the translations lies on the trader concerned.

(iii) In assessment of income-tax in the case of foreign traders normal expenses of trade are not allowed beyond a certain minimum for calculating net profits.

(iv) No joint stock companies with foreign investments can be formed except with the permission of Afghan Government. There is no proper company law in operation. Each case is considered on its merits. In no case is a foreign company permitted to invest fully its capital in any industrial concern unless it is to explore the possibilities of mining oil, etc. Foreign business concerns doing business on a large scale can be successful only if the local administration is entrusted to the Afghans. The composition of Directorates between foreigners and Afghans should be such as to give them almost equal representation. The Chairman should be an Afghan.

(v) Although there is no law discriminating between Afghan and foreign traders, the former are given preference over the latter by the officials.

(vi) Foreign nationals cannot engage themselves in the profession of brokery.

(vii) Foreigners are not eligible for election as members of 'Chambers of Commerce' one of the functions of which is to hear appeals against decisions relating to trade disputes. The 'Chambers of Commerce' also introduce traders and commercial institutions in Afghanistan to those in foreign countries. They are also consulted, when necessary, by the Government in regard to matters relating to trade and commerce.

*Norway.*—(i) Only those are granted permits, called "letter of commerce", for doing business who are residing and have resided in Norway for not less than two years. Persons not fulfilling this condition but wishing to obtain orders for foreign merchandise—for their own account or for some one else's account—can obtain a special permit called "Handelpass" for this purpose on payment of 50 Kr. This permit remains valid for 15 days from the date of issue. Directors and officers of non-resident firms working through a representative holding a business permit need not obtain "Handelpass".

(ii) The Administrators and Directors of joint stock companies established by foreign nationals must be residing in and must have resided for not less than the last two years. The permanent Director of such a company must secure a "letter of commerce". If the Director is not a member of the Board of the Company, the member of the Board must secure the "letter of commerce".

(iii) For the purpose of issue of import licences firms employing aliens or whose capital is partly or entirely foreign are grouped together according to category.

*Sweden.*—Foreigners wishing to engage themselves in business have to obtain a permit from the Government. Even those holding such a permit cannot engage themselves in travelling salesman trade or bargain sales. An alien wishing to act as travelling salesman, for his own account or some one else's in connection with the sale of merchandise for delayed delivery can do so by paying a special tax. An alien cannot be the principal ship-builder of a Swedish vessel. An alien cannot become a member of the Board or Managing Director, holder of a power of attorney, auditor or liquidator of a limited company.

#### DIRECT CONTROL OF CENTRE OVER MINERAL RESOURCES IN PROVINCES

\*215. **Shri S. Nagappa:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether there is any proposal from the Government of India to bring the mineral resources of the provinces under their direct control?

(b) Is there any foreign investment in any of the mineral resources of the country; and if so, on what understanding has such investment been permitted?

**The Honourable Shri N. V. Gadgil:** (a) The question of framing rules under the Mines and Minerals (Regulation and Development) Act, 1948, is at present under consideration of Government.

(b) A considerable amount of foreign capital has been invested in the Indian mining industry, particularly in petroleum, gold, copper, manganese and coal. The whole question of participation of foreign capital in Indian industry is separately under consideration of Government.

#### SHORTAGE OF PETROL SUPPLY

\*216. **Shri S. Nagappa:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that there is shortage of petrol supply in the country?

(b) If so, what steps have been taken to meet the deficiency?

(c) Have the experts discovered any other fluid to use in place of petrol? If so, what is it?

**The Honourable Shri N. V. Gadgil:** (a) Yes.

(b) Government have been trying to get larger quantities of petrol from foreign countries and developing our own resources, Government are also considering the possibility of increasing the production of power alcohol to be used for admixture with petrol, as well as the possibility of manufacturing synthetic oil from coal. Steps are also being taken to augment the tank wagon fleet in order to facilitate the transport of petrol to distant places in the country.

(c) No.

#### HIDES AND SKIN SHOPS LEFT BY MUSLIMS IN DELHI

\*217. **Master Nand Lal:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state how many shops and godowns in Delhi evacuated by Muslims trading in Skin and Hides are in the possession of the Custodian of Evacuees Property?

(b) How many of these shops and godowns have been allotted to refugee traders in Skin and Hides and how many to others?

**The Honourable Shri Mohan Lal Saksena:** (a) and (b). Nine such premises are in the possession of the Custodian of Evacuee Property. Seven of these premises, including two houses are occupied by 42 refugee families and the remaining two are used as business premises by three refugees. Confirmatory allotments have been made in four cases. In the two shops used for business purposes trades other than hides and skins are being carried on.

#### EXCHANGE OF URBAN IMMOVABLE PROPERTY OF REFUGEES

\*218. **Giani Gurmukh Singh Musafir:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether an agreement has been reached between the Dominions of India and Pakistan regarding the exchange of urban immovable property of refugees?

(b) If the answer to part (a) above be in the affirmative, have Government considered the difference between the value of such property in one dominion and that in the other dominion, and also the difference between the purchasing power of an average citizen of one dominion and that of the other dominion?

**The Honourable Shri Mohan Lal Saksena:** (a) Yes.

(b) Yes.

#### RESTRICTIONS ON VISITORS TO KOHIMA AND IMPHAL

\*219. **Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that people from the Province of Assam are not allowed to visit Kohima in Naga Hills (Indian Dominion) and Imphal in Manipur State without obtaining previous permission from the Deputy Commissioner of Naga Hills and Chief Minister of the State respectively?

(b) Have the restrictions referred to above been continued from the days of the British regime or have they been reintroduced recently?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) and (b). It is a fact that under the Eastern Frontier Regulation of 1873 no one other than an officer on Government duty and Indian residents of Manipur and Naga Hills may go beyond a certain line in the Naga Hills and Imphal in Manipur State without a pass.

These restrictions have been in existence from the time of the British regime.

A similar question was asked by the honourable member in November 1946. Enquiries were thereupon made from the Governor of Assam and a Conference of officers serving in Tribal territory was held. The tribal people themselves are reported to have expressed themselves vigorously in favour of the retention of the regulations because they were afraid that an unrestricted movement might lead people to go there for the purpose of exploiting them. Thereupon the retention of the regulations was included in an understanding which the Governor reached with the Nagas. It was however arranged that facilities should be easily available in special cases.

As regards Manipur the retention of the permit system was approved by the Government of India in response to a representation from the Chief Minister of the State, who urged that the system had worked very well in the past and that its abolition would adversely affect the interests of the Manipuris.

In view of the strong views held by the people resident in these tribal areas on this subject and their apprehension that unrestricted movement might adversely affect their interests, the Government of India have been reluctant to remove these restrictions. They desire to proceed with the goodwill of the inhabitants of these areas and having due regard to their sentiments and customs. For other reasons also these frontier areas require special care.

#### UPLIFT OF PEOPLE IN ASSAM TRIBAL AREAS

**\*220. Srijut Rohini Kumar Chaudhuri:** Will the Honourable the Prime Minister be pleased to lay a statement on the table indicating what steps have been taken after 15th August, 1947:

- to ameliorate the condition of the people of the Tribal areas of Assam;
- to improve their economic condition;
- to grant educational facilities; and
- for better administration of Justice?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): A statement is laid on the table of the House showing the staff and works sanctioned and the budget provision made for improving the condition of the people of the Tribal Areas of Assam.

An Education Officer and an Assistant Education Officer have already been appointed to do the ground work before opening schools and a training school for training primary school teachers has also been opened at Sadiya. Two Additional Assistant Educational Officers have been appointed to the Subansari Area and the Tirap Frontier Tract to study Tribal customs and language. More Officers will be employed as opportunity occurs.

As some of the Tribal Areas of Assam are populated by tribes which have special customs of their own and which are not easily accessible, no changes have been made in the administration of justice. Tribal disputes are settled by Political Officers according to local custom and the prevailing circumstances.

#### STATEMENT

*Detailed statement of provision sanctioned for Development of Tribal Areas.*

**HYDRO-ELECTRIC SCHEME FOR ASSAM**

**\*221. Srijut Rohini Kumar Chaudhuri:** Will the Honourable Minister of Works, Mines and Power be pleased to state whether Government have approved of any Hydro-Electric Scheme for the Province of Assam and if so, to what extent they have agreed to finance the same?

**The Honourable Shri N. V. Gadgil:** No. But Government have sanctioned preliminary investigations of two sites at Manas and Dihang at an estimated cost of Rs. 90.74 lakhs on the understanding that (i) if the projects materialize, the cost of investigations now proposed, will be debited to the project estimates and (ii) if the projects do not materialize, the cost of the investigations will be debited to the post-war development grant by the Central Government to the Government of Assam.

**BHORALI RIVER SCHEME IN DARRANG DISTRICT, ASSAM**

**\*222. Srijut Rohini Kumar Chaudhuri:** Will the Honourable Minister of Works, Mines and Power be pleased to state what progress has been made in the matter of the Bhorali River Scheme in the District of Darrang in Assam?

**The Honourable Shri N. V. Gadgil:** Training of river Jia Bhorali is under the administrative control of the Government of Assam, and as such the question can be best answered by that Government in the Provincial Legislative Assembly.

**LABOUR WELFARE OFFICERS FOR ASSAM**

**\*223. Srijut Rohini Kumar Chaudhuri:** Will the Honourable Minister of Labour be pleased to state how many Labour Welfare Officers have been appointed for the Province of Assam?

**The Honourable Shri N. V. Gadgil** (Minister for Works, Mines and Power): So far as Central Government undertakings are concerned, there is no whole-time Labour Welfare Officer appointed for Assam. The Ministry of Railways have an Assistant Welfare Officer employed at the headquarters of the Assam Railways and one Divisional Personnel Officer and four Assistant Personnel Officers also look after the welfare of labour employed by the Assam Railways

The Ministry of Defence and the Posts and Telegraphs and Central Public Works Departments have part-time officers attending to labour matters so far as they are concerned.

Government have no information regarding the number of Labour Welfare Officers employed by the Government of Assam or private concerns.

**SHORT NOTICE QUESTION AND ANSWER**

**INDIANS IN COMMUNIST-OCCUPIED CHINA**

**Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) the number of Indian nationals in Communist-occupied China, and the rest of China respectively;

(b) the nature and value of the property held by them; and

(c) the measures, if any, that have been taken to safeguard the lives and property of our nationals there?

**The Honourable Shri Jawaharlal Nehru:** (a) The number of Indian nationals in areas occupied by the Communist forces in China is estimated at about 60. In the rest of China, there are about 770 Indians.

(b) The nature and value of the property held by them cannot be estimated. Indians are generally concentrated in the principal cities of China. In Peiping and Tientsin they hold considerable landed and commercial properties. In Shanghai, old established families hold urban landed property, and the Sikhs, previously employed in the Shanghai Police, own a few houses.

(c) Local arrangements were made in co-operation with other Consuls in different cities to evacuate Indians in case of emergency. Most of the Indian residents in China have been established there for 30 to 40 years and were not willing to be evacuated. No need has been felt to press for evacuation as the lives and properties of foreigners have not been threatened by any party so far.

**Shri H. V. Kamath:** Have the Koumintang and the Communist authorities agreed to provide adequate facilities for such of our nationals as like to return home?

**The Honourable Shri Jawaharlal Nehru:** No such question has arisen. Nobody has interfered with our nationals there.

**Shri H. V. Kamath:** Does our Ambassador there furnish reports on the fast-developing situation daily or at less frequent intervals?

**The Honourable Shri Jawaharlal Nehru:** Normally every day or every second day, sometimes twice a day.

**Shri H. V. Kamath:** Are the postal, telegraph and telephone communications between India and China intact?

**The Honourable Shri Jawaharlal Nehru:** Yes, Sir, they are functioning. I am not quite certain about the postal delays, but letters come and telegrams certainly come in good time.

**Shri H. V. Kamath:** Has our Ambassador in China been instructed to remain at his post no matter what happens?

**The Honourable Shri Jawaharlal Nehru:** Our Ambassador in China, in common with other Ambassadors there, has been asked to stay on there for the present and to report. We cannot say definitely what future developments might be, but our present intention is that he should stay on there. We have asked him to send a senior official, a Counsellor, to Canton when need arises.

**Shri H. V. Kamath:** How many students are there in China; and how many labourers, if any?

**The Honourable Shri Jawaharlal Nehru:** I cannot answer that.

**Seth Govind Das:** Has our Ambassador approached the Government of India with respect to those 60 Indians who are living in the territory which has been occupied by the Communists, with respect to their evacuation or anything of that kind?

**The Honourable Shri Jawaharlal Nehru:** I have just answered that question. The question has not arisen. We have made arrangements for those who want to come; they do not want to come and apparently they do not fear any untoward developments.

**Shri H. V. Kamath:** Have our nationals expressed a desire to come over from the Communist-occupied zone to the Koumintang zone?

**Mr. Speaker:** I think it has been answered already.

**Shri H. V. Kamath:** It has not been answered, Sir.

**Mr. Speaker:** Yes, it has been answered.

## CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES

### (PART I --QUESTIONS AND ANSWERS)

*Wednesday, 9th February, 1949,*

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS

#### (a) ORAL ANSWERS

#### THEFT OF ARMS AND AMMUNITION FROM ORDNANCE FACTORIES AND DEPOTS

\*224. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Defence be pleased to state whether it is a fact that a large quantity of Arms and Ammunition is being stolen from the Ordnance Factory and depots at Kirkee (Poona)?

(b) Is it a fact that recently 26 brand new sten guns from the Central Ordnance Depot at Jubbulpore were stolen?

(c) Were these guns under safe custody, where were they stored and how did the theft take place?

(d) Has any enquiry been instituted and if so, with what result?

(e) What steps have Government taken to check the thefts of arms from Ordnance Depots and Factories?

**The Honourable Sardar Baldev Singh:** (a) and (b). No.

(c) and (d). Do not arise in view of the answer to part (b).

(e) Government are fully conscious of the necessity for the enforcement of the strictest measures for the prevention of thefts from Ordnance installations, and all possible steps have been taken in this direction. Regulations exist to prevent all conceivable opportunities for theft, and Ordnance Establishments have been enjoined to observe them strictly. Disciplinary action is being taken in cases where laxity of security measures is detected.

**Shri R. K. Sidhva:** Is it not a fact, Sir, that an open statement was made by a witness in the Mahatma Gandhi murder trial that he stole certain number of the guns and arms from the Kirkee Factory? Is it a fact that that statement has been recorded in the Court? If that is so, may I know whether it is true?

**The Honourable Sardar Baldev Singh:** Sir, there was a report about the loss of 26 sten guns. It was investigated and found to be incorrect.

**Shri R. K. Sidhva:** Arising out of part (b) is it a fact that the police made enquiries and they found, when opening the room, that out of twenty-six brand new sten guns only six were there? May I know how the discrepancy of twenty was accounted for?

**The Honourable Sardar Baldev Singh:** I cannot say what the honourable member is aiming at, but as far as the theft of twenty-six sten guns reported from the Jubbulpore Ordnance Depot is concerned, an enquiry was made and the report was founded to be incorrect.

**Shri R. K. Sidhva:** I am driving at this fact, Sir. A search was made by the police on behalf either the Provincial Government or the Government of India.

424

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [9TH FEB. 1949]

and while opening the room the following day in which these twenty-six guns were kept, six were found and twenty were missing. I want to know whether it is a fact and if that is so, what happened to the twenty guns.

**The Honourable Sardar Baldev Singh:** I cannot say what the result of this search was, but as far as these twenty-six guns were concerned they were found there and the report was incorrect. As regards the police search it is difficult for me to say anything offhand; we can make enquiries.

**Shri H. V. Kamath:** During the last eighteen months what quantity of arms and ammunition have been irretrievably lost by theft from the various Ordnance Factories and Depots, and how much stolen property has been recovered?

**The Honourable Sardar Baldev Singh:** I have got no information. I think information to this effect was given in the last Session of the House, but if the honourable member would put a question I would be prepared to answer it.

**Shri R. K. Sidhva:** May I know whether in the Kanpore Factory some of the arms were actually stolen and a report was made to the Central Government?

**Mr. Speaker:** I do not think this question need be put.

**Shri R. K. Sidhva:** Sir, this relates to Kanpore, not to Jubbulpore.

**Mr. Speaker:** I see no point in putting these questions now. The police investigations have been there.

**Seth Govind Das:** As far as this question is concerned, the Defence Minister has accepted that there had been some stealth in the Jubbulpore Depot and so far we have not received any report from the Government as to what has happened.

**Mr. Speaker:** I do not think that question is worth pursuing.

#### SALE OF LAND FOR ICE FACTORY IN DELHI CANTONMENT

\*225. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Defence be pleased to state whether it is a fact that in the Delhi Cantonment area a contractor has been given land without auction, by private treaty, for constructing an Ice Factory and if so, on what terms?

(b) Is it a fact that under the Cantonment Land Administration Rules, land can be given only on premium obtained by auction?

(c) If so, why has there been an infringement of this rule?

(d) Have any other persons applied for land for constructing ice factories?

(e) Is it a fact that previously land for such purposes has been refused to refugees?

**The Honourable Sardar Baldev Singh:** (a) A contractor was given possession of certain land in the Delhi Cantonment during the war for an ice factory by the local military authorities. No lease of the land was however granted at that time. Government propose now to grant a lease on payment of the estimated market value. As the contractor is already in occupation the lease will be without auction.

(b) and (c). Land is normally given only on premium obtained by auction but land can also be given without auction by agreement, under rule 26 of the Cantonment Land Administration Rules, 1937, by special sanction of Government.

(d) Yes, one application was received.

(e) Yes, the applicant referred to in the answer to part (d) was a refugee. The application was rejected as the particular land applied for was required for the use of the Army.

**Shri R. K. Sidhva:** The Honourable Minister stated that the land was given before the lease was granted. By whom was it given against the rules of not giving land without lease?

**The Honourable Sardar Baldev Singh:** As I have already stated in my reply, this land was given in 1945.

**Shri R. K. Sidhva:** May I know if it is a fact that the Deputy Director of Military Lands and Cantonments of the Western Command had opposed this grant?

**The Honourable Sardar Baldev Singh:** As I have stated this land was given to this person in 1945 and he is in possession of the land. Everybody concerned was consulted, and in view of the difficulty that the person concerned is in possession of the land by agreement, it is now proposed to give this land after payment of the market value by the person concerned.

**Shri R. K. Sidhva:** What will be the market value? Has it been given, or has it been fixed or is it going to be fixed?

**The Honourable Sardar Baldev Singh:** I think it has been fixed. I can let the honourable member know what the value is.

#### SUBSCRIPTION OF LOAN ISSUED BY GOVERNMENT IN SEPTEMBER, 1948

\*226. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Finance be pleased to state whether the 2½ per cent. loan issued by Government in September, 1948 was fully subscribed?

(b) What is the total amount subscribed and were the tenders received at par or premium?

(c) What was the highest amount of loan subscribed by one individual, firm or corporation?

**The Honourable Dr. John Matthai:** (a) Yes.

(b) The total subscription amounted to Rs. 20,00,50,900 against the offer of Rs. 20 crores when the loan was closed. The loan was issued at par and no subscriptions at a premium were invited.

(c) It is not in the public interest to disclose this information.

#### HOUSES OF RULERS OF STATES IN DELHI AND BOMBAY

\*227. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of States be pleased to refer to the answer to my starred question No. 35, asked on the 10th August, 1948 regarding the ownership of houses of Rulers of States in Delhi and Bombay and state whether Government have collected the information promised therein?

(b) Do Government intend to acquire these houses and if not, why not?

**The Honourable Sardar Vallabhbhai Patel:** (a) I invite attention of the honourable member to the statements placed on the table of the House on 1st February 1949.

(b) The question is under consideration.

**Shri R. K. Sidhva:** The statement which has been supplied to the House indicates 23 States among which I do not find the names of the big States like Baroda, Hyderabad, Bhopal, Gwalior, Jamnagar and others. May I know why their names have been omitted and whether there is going to be a separate list?

**The Honourable Sardar Vallabhbhai Patel:** I will enquire about it. I am not in a position to say just now.

**Shri H. V. Kamath:** May I know whether the matter of the acquisition of these houses is still under consideration?

**The Honourable Sardar Vallabhbhai Patel:** Yes, it is under consideration.

**Shri H. V. Kamath:** Are most of these houses lying vacant?

**The Honourable Sardar Vallabhbhai Patel:** No, no. Most of them are occupied.

**Shri Deshbandhu Gupta:** May I know whether it is a fact that the sale of some of these houses is being negotiated by the parties concerned with some foreign embassies? If so, have Government taken any steps to stop it till Government takes any decision in the matter?

**The Honourable Sardar Vallabhbhai Patel:** Instructions have already been issued that no houses are to be sold except to Government. The Government is proposing to take over all the houses by purchase.

**Shri Deshbandhu Gupta:** Is it not a fact that the United Kingdom is purchasing or has already purchased the Jaipur House for Rs. 41 lakhs?

**The Honourable Sardar Vallabhbhai Patel:** No final decision has been reached.

**Shri H. V. Kamath:** Is there any proposal before Government to put these houses to some good use such as hospitals, sanatoria and museums?

**The Honourable Sardar Vallabhbhai Patel:** There are better uses for these houses than those proposed by the honourable member.

**Shri R. K. Sidhva:** May I know the total number of these palaces in Delhi?

**The Honourable Sardar Vallabhbhai Patel:** I am not in a position to give the total number just now, but I will give the information afterwards.

#### RESTORATION OF SOMNATH TEMPLE, JUNAGADH

**\*228. Shri R. K. Sidhva:** (a) Will the Honourable Minister of States be pleased to state whether it is a fact that a fund of one crore is being collected for restoring the Somnath Temple at Junagadh?

(b) If so, has the said sum been collected and have plans and estimates been prepared for the purpose?

(c) Has any money been contributed from the State?

(d) Is it a fact that the Government of India have been in communication with the Afghanistan Government to get back the golden doors of the temple carried away by Mahmood Ghazni?

(e) If so, what is the result of the negotiations?

**The Honourable Sardar Vallabhbhai Patel:** (a) to (c). No contribution is being made to the fund nor is Government in any way associated with any appeal for the collections to the fund which will be managed by a Board of Trustees. An appeal for rupees one crore for the restoration of Somnath temple and other sacred places in Prabhas Patan and for providing amenities and accommodation for pilgrims visiting these places has been made in a non-official capacity. Promises of donations of a sum of Rs. 25 lakhs have already been received.

(d) No.

(e) Does not arise.

**Shri R. K. Sidhva:** Arising out of answer to part (d), is it not a fact that Mr. Samaldas Gandhi made a statement that the Government of India has communicated with the Afghanistan Government for the restoration of this temple's golden doors carried away by Mahmood Ghazni?

**The Honourable Sardar Vallabhbhai Patel:** There is no truth in the statement and probably the report is incorrect.

**Shri Deshbandhu Gupta:** Will Government consider the desirability of making such a representation to the Afghanistan Government now?

**The Honourable Sardar Vallabhbhai Patel:** I do not think it is desirable.

**Mr. Speaker:** Order, order. This is a suggestion for action.

#### REPRESENTATION OF PHULKIAN UNION IN CONSTITUENT ASSEMBLY

**\*229. Pandit Mahant Bihari Lal Bhargava:** (a) Will the Honourable Minister of States be pleased to state whether any popular Ministry has been set up in the Phulkian Union to carry on the administration in the interim period and if not, why not?

(b) Is it a fact that the only representative from the Union to the Constituent Assembly is a close relative and a nominee of the Rajpramukh, who is the Ruler of Patiala?

(c) How many seats have been allotted to the Phulkian Union in the Constituent Assembly of India, and what steps, if any, have been taken or are being taken to fill up these seats?

(d) Is it a fact that no steps have been taken so far by the Rajpramukh to fill up these seats, notwithstanding the pressing popular demand from the public?

(e) If so, what steps have the authorities concerned taken or intend to take to secure the election of the representative of the people to the Constituent Assembly of India and will selection be held for all the seats?

**The Honourable Sardar Vallabhbhai Patel:** (a) The formation of a Popular Ministry was announced by the Raj Pramukh on the 13th January 1949.

(b) Sardar Jaidev Singh who is a Member of the Constituent Assembly is not a relative of the Rajpramukh and was a sitting member of the Constituent Assembly when the Union was formed. He is a nominee of the Ruler of Patiala who is the Rajpramukh of the Union.

(c) to (e). Three seats have been allotted to the Phulkian Union in the Constituent Assembly of India. Owing to difference of opinion between the political parties no suitable electoral college has been so far constituted. Now that a popular ministry has come into existence, the Raj Pramukh has been requested to send proposals in consultation with the Ministry.

**Shri H. V. Kamath:** Are there any other States or Unions of States which, despite their having acceded to India, are still unrepresented in the Constituent Assembly of India?

**The Honourable Sardar Vallabhbhai Patel:** There is Bhopal unrepresented in the Constituent Assembly. The other Unions are all represented.

**Shri H. V. Kamath:** What are the reasons for Bhopal's non-representation in the Constituent Assembly?

**The Honourable Sardar Vallabhbhai Patel:** The choice of the State.

**Shri H. V. Kamath:** Has the State not been called upon to send representatives to the Constituent Assembly?

**The Honourable Sardar Vallabhbhai Patel:** The State has been given an opportunity to send a representative.

**Shri H. V. Kamath:** Is it not mandatory upon the State to send representatives when the Government of India so directs?

**The Honourable Sardar Vallabhbhai Patel:** There is no obligation.

**Sardar Bhopinder Singh Man:** Has the attention of the Government been drawn to the unanimous decision of the Provincial Congress Committee in Patiala that they disown any responsibility for this popular government?

**Mr. Speaker:** Order, order. Identical questions have been dealt with previously about four days ago.

**Sardar Bhopinder Singh Man:** The Honourable Minister stated that there is some difference of opinion. So I want to ask him whether his attention has been drawn to the unanimous decision of the Provincial Congress Committee.

**The Honourable Sardar Vallabhbhai Patel:** Unanimous decision about what?

**Sardar Bhopinder Singh Man:** That they disown any responsibility for this popular Ministry.

**Shri Mahavir Tyagi:** On a point of order, Sir. Does that arise from this question?

**Mr. Speaker:** That will be a different matter again.

**Sardar Bhopinder Singh Man:** Since it is a popular Ministry I am entitled to know whom this popular Ministry represents.

**Mr. Speaker:** I think these questions have been answered.

**Seth Govind Das:** Is it not a fact that even Vindya Pradash is not represented in the Constituent Assembly? If it is a fact, is it due to the fact that there are differences of opinions there?

**The Honourable Sardar Vallabhbhai Patel:** I have no information on the subject. So far as I understand, all States are represented except Bhopal and Hyderabad. However, I will enquire now.

**Shri H. V. Kamath:** Has Hyderabad finally acceded or only provisionally acceded to India?

**The Honourable Sardar Vallabhbhai Patel:** Well, its final accession depends upon the will of the people. But under the temporary arrangements made with the Nizam the three subjects on which the accession is made are already with the Central Government.

**Mr. Tajamul Husain:** May I know how the question of accession of Hyderabad arises, since the Indian Army has conquered it?

**Mr. Speaker:** That is an expression of opinion.

#### ADMINISTRATION OF KOLHAPUR STATE

\*230. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of States be pleased to state whether any negotiations are going on between the Maharaja of Kolhapur and the Government of India as regards the merger of the State with the Province of Bombay or the bringing of the State under the direct control of the Government of India as a Centrally Administered Area and if so, with what results?

(b) Has anything been settled in respect of the privy purse of the Maharaja and if so, what?

(c) Is there any truth in the news that the Maharaja himself is being appointed as the Chief Administrator of the State in the event of its being

brought under the direct control of the Government of India as a Centrally Administered Area and if so, on what terms will such appointment be made?

(d) Will any popular ministry be set up there to carry on the administration, and if so, what will be the position of such popular ministry vis-a-vis the Administrator and the Government of India and if not, why not?

**The Honourable Sardar Vallabhbhai Patel:** (a) As would be clear from the Press communique issued on the 1st February, 1949, His Highness the Maharaja has decided to merge his state with the Bombay Province.

(b) A privy purse of Rs. 10 lakhs has been fixed for His Highness of Kohapur and his successors.

(c) and (d). Do not arise.

#### CONFISCATION OF NIZAM'S BOMBERS AND FIGHTERS BY PAKISTAN

\*231. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of States be pleased to state whether it is a fact that the Nizam's Government during the Laik Ali regime had purchased a squadron of bombers and fighters for the defence of Hyderabad and if so, what was the number of such bombers and fighters and at what cost were they purchased and from which countries?

(b) Is it a fact that the said squadron of bombers and fighters were confiscated by the Government of Pakistan at Karachi on the day on which the Nizam surrendered?

(c) If so, what steps have the Military Administration in the Hyderabad State or the Government of India taken to demand and recover these planes from the Government of Pakistan?

(d) Has any correspondence passed with the Government of Pakistan and if so, with what results and if not, why not?

**The Honourable Sardar Vallabhbhai Patel:** (a) In September 1947, the then Hyderabad Government deputed an officer to the United Kingdom to ascertain the possibility of purchasing aircraft for transport purposes, with a view to forming an Air Transport Command for the Hyderabad Army. As a result one Halifax fighter was purchased from one Mr. R. M. Heyes, Director, European Aviation Company in Paris. No information is available if any other bombers or fighters were purchased by Hyderabad Government.

(b) Government have no information.

(c) and (d). Do not arise.

**Prof. N. G. Ranga:** What has happened to the Halifax fighter? Has the Government of India acquired it or is it still with the Hyderabad Government?

**The Honourable Sardar Vallabhbhai Patel:** There is no question of acquiring it. Whatever there is in Hyderabad is there.

**Prof. N. G. Ranga:** Do Government propose to leave it in the possession of the Nizam's Government?

**The Honourable Sardar Vallabhbhai Patel:** The property of the Hyderabad Government must remain with the Hyderabad Government.

**Prof. N. G. Ranga:** But what is the policy of the Government in regard to allowing any of the States to possess these fighter bombers?

**The Honourable Sardar Vallabhbhai Patel:** As property of the State it will be in the State but it will come under the control of Defence.

## DETENTION OF EX-MAHARAJA OF REWA

\*232. Pandit Mukut Bihari Lal Bhargava: Will the Honourable Minister of States be pleased to state whether the late Maharaja of Rewa is under detention under the orders of the Government of India and if so, what are the reasons for and the conditions of his detention?

The Honourable Sardar Vallabhbhai Patel: It is presumed that the Honourable member is referring to the ex-Maharaja of Rewa, Sir Gulab Singh. I invite the attention of the honourable member to the reply given by me to question No. 839 by Shri Damodar Swarup Seth at the meeting held on 3rd September 1948.

Mr. Tajamul Husain: May I know how long will the Maharaja remain under detention?

The Honourable Sardar Vallabhbhai Patel: As long as the necessity remains.

Mr. Tajamul Husain: How long will the necessity remain?

The Honourable Sardar Vallabhbhai Patel: It depends upon the circumstances.

## LOAN FROM INTERNATIONAL MONETARY FUND

\*233. Pandit Mukut Bihari Lal Bhargava: (a) Will the Honourable Minister of Finance be pleased to state whether the Government of India have opened any negotiations for taking a loan from the International Monetary Fund and if so, what will be the extent and terms of such loan?

(b) With what object or objects are the said borrowings being made and will the loan be utilised for the purpose of importing capital goods and if so, what will be the nature of such goods?

The Honourable Dr. John Matthai: (a) and (b). I would refer the honourable member to the statement I made in the House on this subject on 1st February, 1949.

## TREATMENT OF LEPERS AND MEASURES TO CHECK LEPROSY

\*234. Dr. V. Subramaniam: (a) Will the Honourable Minister of Health be pleased to state whether it is a fact that no proper comprehensive health statistics are maintained in India and particularly statistics regarding the total number of lepers in India?

(b) Is it a fact that the most infectious cases among them are on the increase in the country? What is their number?

(c) Do Government propose to prepare new statistics if no actual figures are available?

(d) What are the facilities given by Provincial Governments and States and the Government of India for the treatment of lepers, more especially of the infectious types?

(e) How many leper asylums are there in India?

(f) Are there proper segregation arrangements for highly infectious cases? If not, what is the proposal of Government to meet this need? If there are proper arrangements, what are they?

(g) What are the preventive measures in vogue or proposed to be taken by Government to combat the spread of the disease?

The Honourable Rajkumari Amrit Kaur: (a) Yes, unfortunately it is a fact that health statistics in this country are defective.

(b) There is no information whether the incidence of leprosy is on the increase. The number of infective cases of leprosy in India is estimated to be about 250,000.

(c) The question of having a leprosy survey will be considered.

(d) and (e). In the provinces of Madras, Central Provinces and Berar, Bihar, Orissa and East Punjab leprosy patients are treated in general hospitals, the non-infective cases in general wards and the infective cases in special wards. There are also special leprosy hospitals and clinics in different parts of the country. A statement containing particulars of leprosy hospitals and clinics is laid on the table of the House. Information regarding such institutions in the Indian States is not available.

(f) and (g). Provision of arrangements for the prevention and treatment of leprosy is primarily the responsibility of the Provinces. Provincial Governments are doing what is possible with their available resources for the relief of leprosy. They are directing their efforts mainly towards establishing self-contained leprosy colonies and providing clinics for the treatment of leprosy. The Government of India have appointed a Committee to report on the question regarding the establishment of a Central Leprosy Research and Teaching Institute.

Statement showing the total number of Leprosy Hospitals, Homes, etc., in 1947.

| At the end of 1947. |           |              |         |       |                       |

| Total               | 25        | 6            | 354     | 68    | 11,893                |

**Shri H. V. Kamath:** Is it not a fact that in Berar, where the incidence of leprosy is very high, the number of leper asylums is not commensurate with the number of patients?

**The Honourable Rajkumari Amrit Kaur:** In Berar, there are 57 clinics, 7 homes and 2,000 beds. But I admit that the number of beds available for patients is not commensurate in any province with the number of patients. We are looking into the matter and doing what we can.

**Shri Mihir Lal Chattopadhyay:** May I know in which province the incidence of leprosy is the highest?

**The Honourable Rajkumari Amrit Kaur:** In Madras and in Orissa.

**Shri Mihir Lal Chattopadhyay:** May I know whether the Government give any subvention to the provinces for the treatment of leprosy?

**The Honourable Rajkumari Amrit Kaur:** Government do not give special grants for any purpose. It is in the hands of the provinces to allocate grants according to their needs.

**Shri Mihir Lal Chattopadhyay:** May I know whether there is any arrangement for the segregation of these persons from public places?

**The Honourable Rajkumari Amrit Kaur:** The Provinces, as I have said in my answer, are taking steps to segregate persons suffering from leprosy.

**Shri Mihir Lal Chattopadhyay:** May I know whether there is any legislation in any province for the segregation of lepers?

**The Honourable Rajkumari Amrit Kaur:** No, Sir.

**Shrimati G. Durgabai:** May I know what preventive steps are being taken in the provinces where this disease is very much prevalent?

**The Honourable Rajkumari Amrit Kaur:** I have answered that question fully. The preventive steps naturally take the form of provision of clinics for patients suffering from leprosy and the opening of special wards for infective cases.

**Shri T. T. Krishnamachari:** May I ask the Honourable Minister whether she is aware that in one province where a Public Health Act was passed providing for compulsory segregation of lepers, that provision had to be later eliminated?

**The Honourable Rajkumari Amrit Kaur:** I am not aware of it.

**Dr. V. Subramaniam:** May I ask whether the treatment of leper patients in general hospitals, though they are in special wards, will they not cause inconvenience to the other patients therein and if so, whether the Government will provide separate hospitals for leprosy patients in district headquarters?

**The Honourable Rajkumari Amrit Kaur:** Government would be prepared to take them to separate hospitals as soon as such hospitals are available.

**Shri M. Ananthasayanam Ayyangar:** May I ask whether there is any All-India Anti-Leprosy Committee in which the Government are taking interest?

**The Honourable Rajkumari Amrit Kaur:** The Government are taking a very keen interest in anti-leprosy work. The Committee that has been formed is to consider the suitability of establishing a leprosy institute where very valuable research work could be done. We are doing what we can for the treatment of this disease.

**Shri M. Ananthasayanam Ayyangar:** May I know whether the Government are making efforts to find out from Russia what discovery they are said to have made for the prompt cure of leprosy?

**The Honourable Rajkumari Amrit Kaur:** I am not aware of any research or discovery in regard to the treatment of leprosy in Russia.

**Shri B. P. Jhunjhunwala:** Have the provincial Government taken any steps to segregate beggars who are suffering from leprosy and go about the public streets?

**The Honourable Rajkumari Amrit Kaur:** The provincial Governments are doing all they can. I do not know whether in the matter of beggars any special attention has been paid to them.

**Shri B. P. Jhunjhunwala:** Will the Honourable Minister bring to the notice of the provincial Governments the need for taking special measures to segregate beggars suffering from leprosy?

**The Honourable Rajkumari Amrit Kaur:** That will be done.

#### TUBERCULOSIS CLINICS

**\*235. Dr. V. Subramaniam:** Will the Honourable Minister of Health be pleased to state what is the existing number of tuberculosis clinics in India and the total number of beds therein? How many are Government managed and how many private?

**The Honourable Rajkumari Amrit Kaur:** The detailed information asked for is being collected and will be laid on the table of the House, as soon as it is ready.

**Shrimati Ammu Swaminadhan:** Will the Honourable Minister be pleased to give a rough idea of the number of beds in the different hospitals in India today?

**The Honourable Rajkumari Amrit Kaur:** Such information as I have at the moment is that there are about 7,291 beds available. But it is difficult to give the accurate number, in view of the fact that this disease is spreading very rapidly and increasing.

**Shri H. V. Kamath:** May I know, as part of the curative treatment of this disease, how far has India gone in the manufacture of B. C. G. vaccine?

**The Honourable Rajkumari Amrit Kaur:** India is manufacturing B. C. G. vaccine at the moment in Madras and it is going to be manufactured in other centres also. We have enough for our needs at the moment.

**Shri H. V. Kamath:** Are Government paying attention to the Ayurvedic treatment of T. B.?

**The Honourable Rajkumari Amrit Kaur:** The Government are not aware of any special treatment that Ayurveda has for T. B.

**Seth Govind Das:** Are the Government making the vaidas furnish them with any special treatment which Ayurveda may have for this disease?

**The Honourable Rajkumari Amrit Kaur:** That is going beyond the scope of this question.

**Shri Deshbandhu Gupta:** In Delhi particularly, the number of beds in the general wards is far less than the demand. Are the Government taking any steps to improve the position?

**The Honourable Rajkumari Amrit Kaur:** The Government are aware of the position. The question of increasing the number of beds in these clinics is under the active consideration of Government.

#### REGIONAL LANGUAGE IN DEVANAGARI SCRIPT AS UNIVERSITY LANGUAGE

**\*235. Seth Govind Das:** (a) Will the Honourable Minister of Education be pleased to state whether the attention of Government has been drawn to the resolution passed by the All India University Teachers' Convention held in Delhi in the first week of December 1948, on the use of the regional language in Devanagari script as the University language?

(b) If so, what steps do the Government of India propose to take to implement the resolution of the Convention?

**آنریبل مولانا ابوالکلام آزاد:** (a) آل انڈیا یونیورسٹی ٹیچرس کنونشن نے اس منسٹری کو کوئی ریزولوشن نہیں بھیجا ہے۔ لیکن منسٹری کو یہ معلوم ہوا ہے کہ ایک تجویز اس طرح کی منظور کی گئی ہے۔

(b) چونکہ یونیورسٹی کمیشن نے اپنا کام شروع کر دیا ہے اور وہ یونیورسٹی ایجوکیشن کے تمام پہلوؤں پر غور کرنے والا ہے اس لئے سنٹرل ایڈوائزی برورڈ نے اپنی آخری میٹنگ میں یہ سفارش کی ہے کہ یہ فیصلہ اس وقت تک ملتوی کیا جائے جب تک کہ کمیشن اپنی رپورٹ پیش کرے۔

**The Honourable Maulana Abul Kalam Azad:** (a) The All India University Teachers' Convention did not send to this Ministry copies of any of the resolutions passed by them, but the Ministry are aware of the resolutions that were passed.

(b) In view of the fact that the Universities Commission is engaged in looking into all aspects of University Education, the Central Advisory Board of Education at their last meeting have recommended that a decision on this matter may be deferred till the Commission has submitted their report.

**सेठ गोविन्द दास:** कमीशन की रिपोर्ट का कब तक जाने की उम्मीद है।

**Seth Govind Das:** When the Report of the commission is expected?

**آنریبل مولانا ابوالکلام آزاد:** اُمید کی جاتی ہے کہ وہ نو مہینے کے اندر اپنا کام پورا کرے گا۔

**The Honourable Maulana Abul Kalam Azad:** It is expected that the commission would take nine months to complete its work.

**सेठ गोविन्द दास:** मैं यह जानना चाहता हूँ कि जब तक इन ९ महीनों के अन्दर यह रिपोर्ट आने वाली नहीं है क्या तब तक यह मामला जो इस सवाल के पार्ट (ए) में पुछा गया है मूलतः रखा जायेगा।

**Seth Govind Das:** I wish to ascertain that if the Report of the Commission is not expected before nine months then will the matter referred to in part (a) of the question be kept pending.

**آنریبل مولانا ابوالکلام آزاد:** میں نے ابھی عرض کیا ہے کہ ایڈوائزی برورڈ نے یہ سفارش کی ہے کہ جب کمیشن کی رپورٹ آنیگی اس وقت معامہ کا فیصلہ کیا جائیگا۔ اس لئے قدرتی طور پر اس کا انتظار کیا جائیگا۔

**The Honourable Maulana Abul Kalam Azad:** I have just submitted that the Advisory Board has recommended that this matter would be settled when the said report is out. So naturally the report will be awaited.

**सेठ गोविन्द दास:** क्या माननिय वजीर साहब इस बात को जानते हैं कि जहां तक इस मामले का सम्बन्ध है वहां एडवाइजरी काउंसिल ने ऐसी कोई रिकमेंडेशन नहीं की है।

**Seth Govind Das:** Is the Honourable Minister aware of the fact that as far as this question is concerned the Advisory Council has made no such recommendations?

**Mr. Speaker:** The honourable member is going into argument.

**Mr. Frank Anthony:** Is it not a fact that at a Vice-Chancellors' meeting held sometime back, it was unanimously agreed to defer any change in the media of instruction for a certain number of years?

آنریبل مولانا ابوالکلام آزاد: ہاں ان کی سفارش یہ تھی کہ پانچ برس تک یونیورسٹی سٹیج میں انگریزی دہنی چاہئے اور اس کے بعد تبدیلی ہونی چاہئے۔

**The Honourable Maulana Abul Kalam Azad:** Yes, the recommendation was that for five years the medium of instruction in the University stage should be English, and change may be made afterwards.

**Mr. Frank Anthony:** Are the Government aware that hasty policies on the part of certain provincial Government are causing considerable hardships to linguistic minorities?

**Mr. Speaker:** Order, order.

**Shri O. V. Alagesan:** Will Government make it clear that they have no intention of abolishing the Provincial scripts and set at rest all doubts in the matter?

آنریبل مولانا ابوالکلام آزاد: گورنمنٹ پوری طرح اس معاملے پر غور کریگی۔ ظاہر ہے کہ اس معاملہ کے بہت سے پہلو ہیں۔ گورنمنٹ ہر پہلو پر سوچ بچار کریگی۔

**The Honourable Maulana Abul Kalam Azad:** Government will thoroughly go into the question. It is clear that there are many aspects of this problem. The Government will take into consideration every aspect.

شری دیش بندھو گپتا: کیا آنریبل منسٹر کے پاس اس بارے میں چیف کمشنرس اینڈوائزی کونسل کی کوئی سفارش آئی ہے۔

**Shri Deshbandhu Gupta:** Has the Honourable Minister received any recommendations in this connection from the Chief Commissioner's Advisory Council?

آنریبل مولانا ابوالکلام آزاد: نہیں کوئی ایسی سفارش نہیں آئی ہے۔

**The Honourable Maulana Abul Kalam Azad:** No, I am not in receipt of any such recommendations.

**Shri O. V. Alagesan:** May I have a translation of the answer given to my question?

**Mr. Speaker:** He will get in due course.

**Dr. Mono Mohon Das:** May I know, Sir, whether it is a fact that the Central Government do not like to interfere in the regional languages and scripts so far as administration and education in Universities are concerned?

آنریبل مولانا ابوالکلام آزاد: اس میں مداخلت کا سوال نہیں ہے۔ وہ اس لئے کہ سنٹرل اینڈوائزی بورڈ جو ہے اس میں تمام پرائیویٹ کے نمائندے موجود ہیں۔ اور جو فیصلہ ہوگا وہ ان سب کے مشورے سے ہوگا۔

**The Honourable Maulana Abul Kalam Azad:** The question of interference does not arise because the Central Advisory Board consists of representatives of all the Provinces and whatever decisions would be arrived at will be with their consultation.

#### PAY OF LANGUAGE TEACHERS IN DELHI PROVINCE

\*237. **Seth Govind Das:** (a) Will the Honourable Minister of Education be pleased to state whether it is a fact that the Government of India, in sanctioning new grades of pay for teachers in Delhi Province, have shown discrimination between Hindi-Urdu teachers, Sanskrit-Persian teachers and English teachers in Higher Secondary schools?

(b) Do Government propose to give the new grades of pay sanctioned for the three categories of teachers?

(c) In view of the growing importance of Indian languages, do Government propose to consider the advisability of removing any such discrimination in the grades of pay of language teachers?

آنریبل مولانا ابوالکلام آزاد: (a) نہیں ٹیچرس کی تنخواہ کا جو سکیل تیار کیا ہے اسکا بندھاؤ صرف کوالیفیکیشن ہے۔ اور کسی طرح کی اونچ نیچ نہیں رکھی گئی ہے ایک سٹیٹمنٹ ہاؤس کے ٹیبل پر دیکھ دیا جاتا ہے جس سے تنخواہ کے نئے سکیل معلوم ہونگے۔

(b) ہاں جو سکیل تیار کئے گئے ہیں وہ سب کے لئے ہیں۔

(c) یہ سوال پیدا نہیں ہوتا ہے۔

**The Honourable Maulana Abul Kalam Azad:** (a) No. The scales of pay prescribed for different categories of teachers are based on their qualifications. A statement showing the revised scales of pay is laid on the table.

(b) Yes. The scales prescribed will be applied to the different grades.

(c) The question does not arise as there is no discrimination in the grade pay of teachers.

*Statement showing scales of pay prescribed for different categories of staff in Government Schools, Delhi Province.*

| Name of post                                                                                                 | Existing scale                                                                                                          | Prescribed scale                                                                    | Remarks                                                    |

## INDIAN HISTORICAL AND ART RELICS IN FOREIGN COUNTRIES

\*238. **Seth Govind Das:** (a) Will the Honourable Minister of Education be pleased to state whether Government are aware of the desire among Indians to get back their historical and art relics taken away by foreigners?

(b) Is it a fact that Government propose to appoint a Committee to prepare a list of such relics in various countries?

(c) What steps do Government propose to take to bring such relics back to India?

آنریبل مولانا ابوالکلام آزاد: (a) ہاں

اور (b) اور (c) گورنمنٹ کے سامنے یہ تجویز موجود ہے کہ تمام ایسی تواریخی اور سکالپچرل ریلیکس جو دوسرے ملکوں کے میوزیمز میں ہیں یا وہاں پر لوگوں کے ہس ہیں ان کے متعلق پوری اور صحیح اطلاع بہم ہو جائے۔ اور گورنمنٹ اس بارے میں ضروری کارروائی کرنے کا انتظام کریگی۔

**The Honourable Maulana Abul Kalam Azad:** (a) Yes, Sir.

(b) and (c). Government have before them the plan to have full and correct information about the historical and sculptural relics which are in the Museums of the foreign countries or which may be in the possession of individuals there. Government will take necessary action in the matter.

**سٹھ گوویند داس :** کیا ماننیز مंत्री इस बात को जानते हैं कि जब पिछली मर्तवा भी में ने यह सवाल पूछा था तो मुझे यही जवाब मिला था और इस हालत में क्या मैं यह जान सकता हूँ कि इस मामले में गवर्नमेंट की रिपोर्ट कितने दिनों में तयार हो जायगी ?

**Seth Govind Das:** Is the Honourable Minister aware of the fact that when I had put this question on the previous occasion I was given the same reply. In the circumstances may I know when the Government Report would be ready?

آنریبل مولانا ابوالکلام آزاد : امید ہے کہ اس سال کے اندر کارروائی پوری کی جاسکے گی

**The Honourable Maulana Abul Kalam Azad:** It is expected that the deliberations of the Committee will be finished within this year.

**سٹھ گوویند داس :** پیچلی مورتوا میں نے سوال دیا تھا کہ جہاں تک ان چیزوں کا بریٹش میوزیم سے سمبندھ ہے وہاں تک یہاں سے کوئی آدمی بھجوا جانے والا ہے جو ان چیزوں کو ہندوستان واپس لے آوے۔

**Seth Govind Das:** On the last occasion the reply was given that as far as the British Museum is concerned with these things someone is to be sent from here so that he may bring these things back to India.

آنریبل مولانا ابوالکلام آزاد : ہاں۔ لیکن پھر یہ تجویز ملتوی کر دی گئی کیونکہ

یہ خیال کیا گیا کہ کام بہت وسیع ہے اور بہت سے ملکوں سے تعلق رکھتا ہے اسلئے بہتر ہوگا دو تین آدمیوں کی ایک کمیٹی اس غرض سے مقرر کی جائے۔

**The Honourable Maulana Abul Kalam Azad:** Yes, but later on this proposal was postponed, as it was thought that the work was a stupendous one and involved many countries. So it would be better to appoint a committee of 2-3 members for this purpose.

**شری اچ۔ و۔ کامت :** کیا حکومت کے پیشے نجر ان ہستوریکل چیزوں کا ایک نیشنل میوزیم بنانے کی توجہ ہے ؟

**Shri H. V. Kamath:** Do the Government propose to establish a museum of all these historical things?

آنریبل مولانا ابوالکلام آزاد: ہاں ہے۔

**The Honourable Maulana Abul Kalam Azad:** Yes.

شری ایچ۔ وی۔ کامت: क्या उसके लिये देहली गवर्नमेंट हाऊस का कोई हिस्सा काम में लाया जायगा?

**Shri H. V. Kamath:** Will some part of the Government House at Delhi utilized for this purpose?

آنریبل مولانا ابوالکلام آزاد: اس بارے میں ابھی کچھ نہیں کہا جا سکتا۔

**The Honourable Maulana Abul Kalam Azad:** For the present nothing can be said in this respect.

شری دیش بندھو گپتا: کیا آنریبل منسٹر اپنا ذاتی رسوخ استعمال کر کے اس بات کی کوشش کریں گے کہ سومناتھ کے مندر کے دروازے کو واپس ہندوستان میں لایا جائے۔

**Shri Deshbandhu Gupta:** Will the Honourable Minister utilising his personal influence try to bring the doors of the Somnath Temple back to India?

آنریبل مولانا ابوالکلام آزاد: ایک مرتبہ تو وہ دروازہ آچکا ہے اور شاید آگرہ کے قلعہ میں ابھی پڑا ہے۔

**The Honourable Maulana Abul Kalam Azad:** These doors have once been brought back to India and are probably still lying in the Agra Fort.

مسٹر تجمل حسین: چونکہ ہستاریکل چیزوں کے متعلق جو کہ فارن کنٹریز میں ہیں اسوقت سوالات کئے جارہے ہیں مجھے حکومت سے دریافت کرنا ہے کہ کوہ نور ڈائنمڈ کے واپس لانے کے بارے میں حکومت نے کوئی ایکشن لیا ہے یا نہیں؟

**Mr. Tajamul Husain:** As the questions regarding historical things lying in foreign countries are being put I wish to ask the Government whether the Government have taken any action for retrieving the famous diamond Kohinoor?

آنریبل مولانا ابوالکلام آزاد: نہیں اسطرح کی کوئی کارروائی نہیں کی گئی۔

**The Honourable Maulana Abul Kalam Azad:** No, no action has been taken.

مسٹر تجمل حسین: میں جاننا چاہتا ہوں کہ کارروائی کیوں نہیں کی گئی

**Mr. Tajamul Husain:** I wish to ascertain why no action has been taken?

**Mr. Speaker:** Order, order. Reply has been given.

#### NATIONAL CADET CORPS

\*239. **Shri V. C. Kesava Rao:** Will the Honourable Minister of Defence be pleased to state the progress made in the organisation of the National Cadet Corps?

**The Honourable Sardar Baldev Singh:** The University Officers' Training Corps was disbanded on the 15th July 1948, and, in its place, National Cadet Corps units were raised in the various Provinces and States. Considerable progress has been made in this direction and, while the strength of the U. O. T. C. was only 6,000, that of the National Cadet Corps at present in the Senior Division is 15,000 and in the Junior Division 20,000. The units raised include Armoured Corps, Artillery, Infantry, Engineer, Signal and Medical Units. All

these units began functioning at the beginning of the College or school term in August 1948 and members of the teaching staff who have become officers in the N. C. C. units were trained with regular army units for periods extending from two to four months during the vacation in 1948. A total of 850 professors and school-teachers were trained in this manner in that year and those who were successful have been commissioned in the Corps. Training for those who are to be commissioned as officers in units being raised in 1949 will commence in April 1949. The response from students has been very good. Plans for the further expansion of the Corps are in hand and it is hoped, to increase the strength of the Senior and Junior Divisions to 25,000 and 50,000 respectively. The question of raising Naval, Air Force and Girls' Units is also under consideration and it is hoped to raise some of them during the year.

**Shri V. C. Kesava Rao:** May I know, Sir, how many cadets were trained in Madras?

**The Honourable Sardar Baldev Singh:** 1,310 were trained in Madras.

**Shrimati Renuka Ray:** In view of the reply of the Honourable Minister regarding Girls' Units, does this mean that no attempt has yet been made to start any units of the National Cadet Corps for girls and when are they likely to be started?

**The Honourable Sardar Baldev Singh:** As I have stated in reply to this question, an attempt is being made this year. In the first year, no attempt was made.

**Shrimati G. Durgabai:** May I ask the Honourable Minister whether any attempt has been made to seek the co-operation of private women's organizations in the enlistment of girls for this training?

**The Honourable Sardar Baldev Singh:** No. The Provincial Governments are concerned and they are consulted in this matter.

**Prof. N. G. Ranga:** Have all universities come within this system and what percentage of the high schools have so far been pressed into this?

**The Honourable Sardar Baldev Singh:** It is difficult for me to give this information off hand, but all the provinces have joined this scheme and most of the acceding states also are very much interested and we hope that all of them will come in.

**Shri H. V. Kamath:** Have the various Provincial Governments, Sir, raised units of the National Cadet Corps according to the quotas assigned to them by the Central Government?

**The Honourable Sardar Baldev Singh:** Yes, Sir.

**Shri Mahavir Tyagi:** Are these Provincial Governments contributing towards the expenditure of these National Cadet Corps also?

**The Honourable Sardar Baldev Singh:** Yes, Sir.

**Shrimati G. Durgabai:** Is the Government aware of the fact that there are more women and girls who are anxious to undergo this training, who do not strictly belong to any particular school or college?

**The Honourable Sardar Baldev Singh:** There is provision in the Act, but we have made no attempt so far. We want to make a start with the universities first and when we have made progress in that direction, we will take up the question of expansion in other directions.

**Shrimati G. Durgabai:** Will Government consider it desirable to consult the women's organizations?

**Mr. Speaker:** This is a suggestion for action. Next question.

## RECOGNITION OF AN INDIAN LANGUAGE BY UNESCO

**\*240. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Education be pleased to state whether any Indian language has been officially recognised by the UNESCO?

(b) If the answer to part (a) above be in the negative, have any representations been made to have one of the Indian languages so recognised?

آنریبل مولانا ابوالکلام آزاد : (a) ہندوستانی زبان اپنی آفیشیل زبانوں میں رکنائز کر لیا ہے -  
(b) یہ سوال پیدا نہیں ہوتا -

**The Honourable Maulana Abul Kalam Azad:** (a) Hindustani has been recognised as one of the official language of UNESCO.

(b) Does not arise.

سےث گوویند داس : यह हिन्दुस्तानी ज़बान कौन सी है मैं जानना चाहता हूँ।

**Seth Govind Das:** I wish to know what language is this Hindustani?

آنریبل مولانا ابوالکلام آزاد : ہندوستانی زبان وہی ہے جو آنریبل ممبر اس وقت بول رہے ہیں

**The Honourable Maulana Abul Kalam Azad:** Hindustani is that very language which the honourable member is speaking at present.

**Mr. Speaker:** Order, order. It is getting into an argument.

## OUTPUT OF OPIUM ALKALOIDS AT GAZIPUR FACTORY

**\*241. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Finance be pleased to state the present out-put of opium alkaloids from the Gazipur Opium Factory?

(b) Is there any proposal to increase the out-put of this factory?

**The Honourable Dr. John Matthai:** (a) The output of opium alkaloids at the Alkaloids Works, Ghazipur, for the Opium year 1947-48 was 519 lbs. (The Opium year is from October in one year to September in the following year).

(b) Yes.

**Shri V. C. Kesava Rao:** May I know the capacity of production of opium alkaloids for one year?

**The Honourable Dr. John Matthai:** I think the best way in which I can answer that question is, that during the war when the demand was at its peak, this factory produced very nearly 1,500 lbs.

**Shri H. V. Kamath:** Arising out of answer to part (b) of the question, may I know, Sir, for whose benefit is this increase contemplated?

**The Honourable Dr. John Matthai:** We have a fairly large capacity, a good portion of it is lying un-utilized at present, and therefore, we are trying to make the fullest use of the capacity by developing a market abroad, which would be satisfied, after we have satisfied ourselves that the home consumption is fully met.

**Shri H. V. Kamath:** Which of the foreign markets are willing to accept opium from us?

**The Honourable Dr. John Matthai:** That question is under examination.

## R. S. S. SYMPATHISERS AMONG GOVERNMENT SERVANTS

**\*242. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether Government are aware that there are Rashtriya Swayam Sevak Sangh sympathisers in the offices of the Government of India?

(b) If the answer to part (a) above be in the affirmative, have any efforts been made to estimate their number?

(c) Has any action been taken against such persons for direct participation in anti-national activities?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes.

(b) It is not possible to estimate with any pretence to accuracy the number of 'mere' sympathisers but Government have information as regards the numbers of those who have taken part in the recent agitation.

(c) Yes; Instructions have been issued that departmental action should be taken promptly against such Government servants. A Government servant arrested and detained for participation in the Rashtriya Swayam Sevak Sangh activities is to be suspended from duty, and anyone convicted on account of such participation is to be dismissed, without any further inquiry, on the basis of facts which led to his conviction by a Court of law.

**Shri K. Hanumanthaiya:** How many of such people have been dismissed, Sir?

**The Honourable Sardar Vallabhbhai Patel:** The information received in the weekly returns up to 27th January shows that the total number of arrests of Central Government servants was 960. Out of this, 487 have been convicted in courts of law. Subsequent to their conviction, 316 employees have been dismissed from service so far.

**Prof. N. G. Ranga:** Have the Government issued departmental instructions that paying any subscriptions to the R.S.S. will also be treated as an offence?

**The Honourable Sardar Vallabhbhai Patel:** I do not know whether there is any list of subscriptions.

**Shri Deshbandhu Gupta:** Is there any truth in the report that some sort of negotiations have taken place between Guruji and the Deputy Prime Minister?

**The Honourable Sardar Vallabhbhai Patel:** No negotiations have taken place.

**Shri Deshbandhu Gupta:** Has he been brought down to Delhi?

**The Honourable Sardar Vallabhbhai Patel:** Not that I know of.

**Shri H. V. Kamath:** Will the Honourable Minister give a rough idea as to the number of Government servants arrested in connection with participation in the movement?

**Mr. Speaker:** Figures have already been given.

**Shri H. V. Kamath:** Is the Honourable Minister aware that among the Government servants there are Pakistani sympathisers?

**An Honourable Member:** What do you mean by Pakistani sympathiser?

**Shri H. V. Kamath:** Pro-Pakistan.

**Mr. Speaker:** The question does not arise.

**The Honourable Sardar Vallabhbhai Patel:** There are no Pakistani R.S.S.

**Shri H. V. Kamath:** My question was. . . . .

**Mr. Speaker:** Order, order.

**Shri M. Ananthasayanam Ayyangar:** May I ask the Honourable Minister if the number of these people who have been dismissed includes provincial Government employees also?

**The Honourable Sardar Vallabhbhai Patel:** No; these are Central Government and Centrally administered area Government servants.

**Shri M. Ananthasaynam Ayyangar:** May I know if the Honourable Minister has got statistics regarding provincial Government employees who were convicted and dismissed if any?

**The Honourable Sardar Vallabhbhai Patel:** Oh yes. We have got statistics. I have not got them now so far as other provinces are concerned.

**Dr. Mono Mohan Das:** May I know from the Honourable the Home Minister whether, as the leader of the R.S.S. has called off satyagraha unconditionally, the Government has got any intention in the near future of releasing all the people who have been convicted in connection with this movement?

**The Honourable Sardar Vallabhbhai Patel:** No, Sir.

**Shri K. Hanumanthaiya:** Are there any instances where Government servants participating in the satyagraha tendered apology and were excused?

**The Honourable Sardar Vallabhbhai Patel:** No; a Government servant who has participated in the activity will not be reinstated.

**Shri V. C. Kesava Rao:** Out of the 316 and odd, are there any officers who sympathised with the R.S.S. movement?

**The Honourable Sardar Vallabhbhai Patel:** It all depends on whom you call officers.

**Mr. Speaker:** He means Gazetted officers.

**The Honourable Sardar Vallabhbhai Patel:** No Gazetted officer.

**Shri L. Krishnaswami Bharathi:** Is it not a fact, Sir, that student R.S.S. were convicted and were directed to be released?

**The Honourable Sardar Vallabhbhai Patel:** Students either convicted or detained have been released.

**Shri H. V. Kamath:** Is there any truth in the press report that the Government of India is prepared to recognise the R.S.S. as one of India's political parties provided it draws up its written constitution, accepts the National Flag and gives up its under-ground activities?

**Mr. Speaker:** I am afraid the honourable member is going much beyond the scope of the question.

**Shrimati Dakshayani Velayudhan:** May I know, Sir, has any member of the Central Government come under the category of sympathisers?

**Mr. Speaker:** Order, order; next question.

#### GOVERNMENT ADVERTISEMENTS IN NEWSPAPERS

**\*243. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state whether advertisements of the Government of India are given directly to the newspapers or through the medium of advertising consultants?

(b) If it is given to the advertising consultants, are there any specific instructions regarding the newspapers in which these are to appear?

**The Honourable Shri R. R. Diwakar:** (a) Advertisements of the Government of India are given direct to the newspapers.

(b) Does not arise.

**Prof. N. G. Ranga:** What are the conditions subject to which these advertisements are given? Are these advertisements given to all the newspapers that ask for, it or do they stipulate any conditions?

**The Honourable Shri R. R. Diwakar:** Display advertisements, classified advertisements and casual advertisements, these are the three types of advertisements. So far as the newspapers are concerned, the importance of the newspapers, their circulation and standing are taken into consideration at the time of giving advertisements.

**Seth Govind Das:** Is it not a fact, Sir, that preference is always given to English newspapers and not to papers which are published in the Indian languages?

**The Honourable Shri R. R. Diwakar:** It is not so.

**Shri Deshbandhu Gupta:** Is it not a fact, Sir, that preference used to be given to certain papers on account of their political affiliations in the past does the same consideration continue to be shown to them even now?

**The Honourable Shri R. R. Diwakar:** Whatever might have been the case in the past, it is not so today.

**Shri H. V. Kamath:** On what basis, Sir, are newspapers placed on the black list so far as Government advertisements are concerned?

**The Honourable Shri R. R. Diwakar:** I do not know of any black list.

**Seth Govind Das:** Will the Honourable Minister please make enquiries and see the number of newspapers which are published in English and in other languages to which these advertisements are given?

**The Honourable Shri R. R. Diwakar:** I shall certainly enquire about it.

**Prof. N. G. Ranga:** Is any periodical review made as to the number as well as the names of these newspapers which are deemed to be qualified for this purpose?

**The Honourable Shri R. R. Diwakar:** I have already said that I shall enquire into the matter and get at the details.

**Shri Deshbandhu Gupta:** May I know whether it is correct that the Government have by experience found that placing advertisements directly by the Publicity Department of the Government is costlier than placing through advertising agencies?

**The Honourable Shri R. R. Diwakar:** I do not think so.

#### VISIT OF OFFICIALS OF INTERNATIONAL BANK TO INDIA

**\*244. Prof. N. G. Ranga:** (a) Will the Honourable Minister of Finance be pleased to state when officials of the International Bank are expected to come to India?

(b) In connection with which irrigation and flood control projects are they coming?

(c) What other developmental schemes are being referred to them?

(d) What is the approximate amount of loan for which the Bank is being approached?

**The Honourable Dr. John Matthai:** (a) to (d). I would refer the honourable member to the statement I made in the House on this subject on 1st February, 1949.

**Prof. N. G. Ranga:** In regard to part (d), we have not had so far any information either from his statement or from any answer.

**The Honourable Dr. John Matthai:** I have made it clear in my statement that the stage for determination of the amount of the loan would not arise for some time to come.

## RETIRING AGE OF GAZETTED OFFICERS OF THE GOVERNMENT OF INDIA

†\*245. **Giani Gurmukh Singh Musafir:** (a) Will the Honourable Minister of Finance be pleased to state whether it is a fact that the Government of India have recently issued orders regarding the raising of the age of retirement to 60 in the case of Ministerial Staff?

(b) Is it a fact that the age of retirement recommended by the Pay Commission in the case of Gazetted staff is 58 and if so, has any decision been reached in the matter?

(c) If not, how long is it likely to take to issue orders on this point?

**The Honourable Dr. John Matthai:** (a) No.

(b) and (c). The Commission's recommendation is under consideration and the Government hope to come to a decision shortly.

## ARREST OF R. S. S. VOLUNTEERS IN CENTRALLY ADMINISTERED AREAS

†\*246. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Home Affairs be pleased to state how many arrests of R. S. S. volunteers have been made up till now in the Centrally Administered areas?

(b) Is it a fact that many R. S. S. workers have gone on hunger strike in the Delhi Central Jail as a protest against bad treatment; such as *lathi* charge, caning, etc.?

(c) Are they treated as political prisoners?

**The Honourable Sardar Vallabhbhai Patel:** (a) 2,448.

(b) No *lathi* charge was made inside the Delhi jail nor was any R. S. S. prisoner caned. Some convicted R. S. S. workers however went on hunger strike demanding that they be treated as better class prisoners. The hunger strike was subsequently called off unconditionally.

(c) No. Under the Jail Rules there is no such category as political prisoners.

## APPOINTMENT OF ALL INDIA RADIO CORRESPONDENTS IN PROVINCES

†\*247. **Shri Lakshminarayan Sahu:** Will the Honourable Minister of Information and Broadcasting be pleased to state whether All India Radio Correspondents have been appointed at Provincial Centres?

**The Honourable Shri R. R. Diwakar:** No. Recruitment is being made through the Federal Public Service Commission.

## EXPENDITURE ON PROVINCIAL GOVERNORS

†\*248. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Home Affairs be pleased to state separately the amount of annual expenditure in respect of salaries and allowances of each of the provincial Governors since the 15th August 1947?

(b) Are the present scales of expenditures higher than similar expenses before the said date? If so, to what extent?

**The Honourable Sardar Vallabhbhai Patel:** (a) Governors of Provinces are entitled, under the Third Schedule to the Government of India Act, 1935, as adapted since August 1947, to a salary of Rs. 66,000 per annum each. They are also entitled to certain allowances and privileges which are prescribed in the Government of India (Governor's Allowances and Privileges) Order, 1936, a copy of which is placed on the table of the House.

† Answer to this question laid on the table, the questioner being absent.

(b) Prior to 15th August 1947, the salaries of the Governors of the several Provinces were as follows:

|                        |   |                         |
|------------------------|---|-------------------------|
| The Governor of Madras | } | Rs. 1,20,000 per annum. |
| The Governor of Bombay |   |                         |
| The Governor of Bengal | } | Rs. 1,00,000 per annum  |
| The Governor of U. P.  |   |                         |
| The Governor of Punjab | } | Rs. 72,000 per annum.   |
| The Governor of Bihar  |   |                         |
| The Governor of C. P.  | } | Rs. 66,000 per annum.   |
| The Governor of Assam  |   |                         |
| The Governor of Orissa |   |                         |

As regards their allowances, the Order referred to above has not been modified since the 15th August 1947, but it is probable that Governors have not availed themselves of the maximum allowances prescribed. No precise information on this point is available.

## THE GOVERNMENT OF INDIA (GOVERNORS' ALLOWANCES AND PRIVILEGES) ORDER, 1936

AT THE COURT AT BUCKINGHAM PALACE,

The 18th day of December, 1936.

Present

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by paragraphs two to four of the Third Schedule to the Government of India, Act, 1935, His Majesty in Council is empowered to determine the allowances and customs privileges of the Governors of Provinces and the provision which is to be made for enabling them to discharge conveniently and with dignity the duties of their offices:

AND WHEREAS it is provided by paragraph five of the said Schedule that any person appointed by His Majesty to act as a Governor shall, while he is so acting, be entitled, save as may be otherwise provided by His Majesty in Council, to the same allowances and privileges as that Governor:

AND WHEREAS a draft of this Order has been laid before Parliament in accordance with the provisions of sub-section (1) of Section three hundred and nine of the Act and an Address has been presented to His Majesty by both Houses of Parliament praying that an Order may be made in the terms of this Order:

Now, THEREFORE, His Majesty, in the exercise of the said powers and of all other powers enabling him in that behalf, is pleased by and with the advice of his Privy Council to order, and it is hereby ordered, as follows:—

## Introductory

1. This Order may be cited as "The Government of India (Governors' Allowances and Privileges) Order, 1936".
2. The Interpretation Act, 1889, applies for the interpretation of this Order as it applies for the interpretation of an Act of Parliament.
3. In this Order—

"official residences" in relation to the Governor of a Province mean the official residence or residences specified in the First Schedule to this Order in relation to that Province and include the staff quarters and other buildings appurtenant thereto and the gardens thereof;

"official railway saloons, river craft and aircraft" in relation to the Governor of a Province mean such railway saloons, river craft and aircraft, if any, as have been provided for his use or that of his predecessors with the sanction of the Secretary of State or of the Secretary of State in Council;

"maintenance" in relation to official residences includes the payment of local rates and taxes and the provision of electricity, gas, and water, and in relation to river craft, includes expenditure on the pay of the establishment maintained in connection therewith, and on their victualling while afloat, and expenditure on the purchase of marine stores and in relation to motor-cars and aircraft includes the pay and allowances of chauffeurs or pilots and the provision of oil and petrol;

"acting Governor" means a person appointed by His Majesty to act as Governor while the Governor is absent from India, or is for any reason unable to perform the duties of his office.

*Allowances, Privileges, etc*

4. (1) The allowances specified in the Second Schedule to this Order shall be paid to each Governor in connection with his appointment.

(2) This paragraph does not apply to acting Governors, but there shall be paid to an acting Governor an allowance equal to his actual expenses in travelling, within India, with his family, if any, and his family's effects, to take up his duties as acting Governor.

5. Each Governor throughout his term of office shall be entitled without payment of rent or hire to the use of his official residences and official railway saloons and river craft and aircraft and of the motor-cars provided for his use, and no charge shall fall on him personally in respect of the maintenance thereof.

6. (1) There shall be paid from time to time to each Governor an allowance equal to his actual expenses in renewing the furnishings of his official residences, so however, that the total amount paid to each person holding the office of Governor of a Province shall not exceed the maximum specified in the Third Schedule to this Order in relation to that Province:

1\* Provided that if, when the Governor assumes office, the period which has elapsed since his predecessor assumed office (Acting Governors being disregarded) falls short of five years, the maximum so specified shall be decreased by such amount as the Secretary of State may by special order determine.

(2) This paragraph does not apply to acting Governors.

7. (1) In order that the Governor may be enabled to discharge conveniently and with dignity the duties of his office there shall in each year be charged on and paid out of the revenues of each Province—

(a) for the purposes specified in the Fourth Schedule of this Order such amount, not exceeding the maximum amount specified in that Schedule, as the Governor may, subject to any general or special orders of the Secretary of State, consider to be necessary for that year;

(b) such further amount for the maintenance, improvement, renewal or replacement of the Governor's official residences and official railway saloons, river craft, and aircraft, and for the provision, if it is thought desirable, of official aircraft as the Secretary of State may by general or special order authorise:

1† Provided that the maximum amount specified in the said Fourth Schedule may in any year be increased by:—

(a) such amount as the Governor may consider necessary to defray the leave allowances and pension charges of the Military Secretary (or A.D.C.) and the surgeon, and of any officer on their establishments, and of the bodyguard; deferred pay due on his retirement to any member of the bodyguard; and the cost of providing such free passages, if any, as may be authorised from time to time by the Secretary of State for the Military Secretary and any officer on his establishment;

(b) such further amount as the Governor may, subject to any general or special orders of the Secretary of State, consider necessary to defray the cost of any extra allowance granted to meet the increased cost of living arising out of war conditions, or of any increases due to revision of scales of pay or to the grant of War Service Increments;

1 Substituted by the Government of India (Governors' Allowances and Privileges) (Amendment) Order, 1939, dated the 3rd November, 1939.

\* This proviso shall have effect from the 1st of November, 1939.

† These amendments shall have effect from the 1st of April, 1947.

† Substituted by the Government of India (Governors' Allowances and Privileges) (Amendment) Order, 1947, dated the 8th August, 1947.

(c) the amount not expended in previous years.

(2) The Governor shall exercise his individual judgment as respects the matters specified in this paragraph, and he shall also exercise his individual judgment as to the amount to be included in any year in the estimates of expenditure laid before the Provincial Legislature for the purpose of giving effect to the provisions of this paragraph.

8. (1) The leave allowances of Governors shall be at the following rates:—

|                                                                                  |                         |
|----------------------------------------------------------------------------------|-------------------------|
| Governors of Madras, Bengal, Bombay, the United Provinces, the Punjab and Bihar. | 4,000 rupees per month. |
| Governor of the Central Provinces and Berar.                                     | 3,000 rupees per month. |
| Governors of other Provinces.                                                    | 2,750 rupees per month. |

Provided that the Secretary of State may in any particular case, for special reasons to be recorded by him, increase the rate to such amount, not exceeding, 5,500 rupees per month, as appears to him just.

(2) Where payment is made in sterling the payment shall be made at the rate of one shilling and six pence per rupee, or, if any other rate of exchange is fixed by the Secretary of State for the payment of leave allowances of other persons in the service of the Crown in India, at that rate.

(3) An acting Governor shall not be entitled to any leave allowance.

9. No customs duties shall be levied in India on the following articles if imported or purchased out of bond by Governors on appointment or during their tenure of office:

(a) articles for the personal use, wear or consumption of the Governor or any member of his family;

(b) food, drink and tobacco for consumption by members of the Governor's household or by his guests, whether official or not;

(c) articles for the furnishing of any of the Governor's official residences;

(d) motor-cars provided for the Governor's use.

RUPERT B. HOWORTH.

FIRST SCHEDULE

*Official Residences.*

|                                  |                                                                                                                                                                                                  |
|----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Madras                           | The Government Houses at Madras, Guindy and Ootacamund.                                                                                                                                          |
| Bombay                           | The Government Houses at Bombay, Mahabaleshwar and Ganeshkind.                                                                                                                                   |
| Bengal                           | The Government Houses at Calcutta, Dacca, Darjeeling and Barrackpore.                                                                                                                            |
| The United Provinces             | The Government Houses at Allahabad, Lucknow and Naini Tal.                                                                                                                                       |
| The Punjab                       | Government House, Lahore and Barnes Court, Simla.                                                                                                                                                |
| Bihar                            | The Government Houses at Patna and Ranchi and the Chalet at Netarhat.                                                                                                                            |
| Central Provinces and Berar      | The Government Houses at Nagpur, Pachmari and Jubbulpore.                                                                                                                                        |
| Assam                            | Government House, Shillong (including Peak Cottage).                                                                                                                                             |
| The North-West Frontier Province | The Government Houses at Peshawar and Nathiagali.                                                                                                                                                |
| Sind                             | Government House, Karachi.                                                                                                                                                                       |
| Orissa                           | *The Government House, Puri, and, pending the construction of the Government House to be built at the new capital of the province, such other residence as the Secretary of State may designate. |

1 Substituted by the Government of India (Governors' Allowances and Privileges) (Amendment) Order, 1939, dated the 3rd November, 1939.

\* Substituted by the Government of India (Governors' Allowances and Privileges) (Amendment) Order, 1942, dated the 22nd May, 1942.

SECOND SCHEDULE  
ALLOWANCES ON APPOINTMENT.  
1. *Equipment and Travelling.*

|                                                                                                       | Governors of<br>Madras,<br>Bombay<br>and<br>Bengal.                                                                                                                                                                      | Governor<br>of the<br>United<br>Provinces | Governors<br>of the<br>Punjab &<br>Bihar | Governors<br>of other<br>Provinces |
|-------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------|------------------------------------------|------------------------------------|
|                                                                                                       | £                                                                                                                                                                                                                        | £                                         | £                                        | £                                  |
| If resident in Europe when appointed .                                                                | 2,000                                                                                                                                                                                                                    | 1,800                                     | 1,500                                    | 1,200                              |
| If resident in India or Ceylon when appointed, and not then in service of the Crown in India. . . . . | 750                                                                                                                                                                                                                      | 650                                       | 550                                      | 450                                |
| If resident elsewhere when appointed :<br>Equipment . . . . .                                         | 1,000                                                                                                                                                                                                                    | 900                                       | 750                                      | 600                                |
| Travelling† (to India) on appointment<br>(see note below) . . . . .                                   | 400<br>(maximum)                                                                                                                                                                                                         | 300<br>(maximum)                          | 300<br>(maximum)                         | 300<br>(maximum)                   |
| If in the service of the Crown in India when appointed (otherwise than as a Governor) . . . . .       | 500                                                                                                                                                                                                                      | 400                                       | 300                                      | 200                                |
| If transferred from the Governorship of another Province :—<br>Equipment . . . . .                    | 250                                                                                                                                                                                                                      | 200                                       | 160                                      | 120                                |
|                                                                                                       | if transferred<br>from Mad-<br>ras, Bengal<br>or Bombay ;<br>350 in<br>other cases.                                                                                                                                      |                                           |                                          |                                    |
| †Travelling in India on appointment. .                                                                | In each case there shall also be paid to the Governor an allowance equal to his actual expenses in travelling within India with his family, if any, and his and his family's effects, to take up his duties as Governor. |                                           |                                          |                                    |

NOTE.—The allowance for travelling <sup>1</sup>(to India) to be allowed to a Governor who is resident elsewhere than in Europe, India or Ceylon when he is appointed shall be as decided by the Secretary of State in each case, subject to the maxima specified above.

2. *Motor Cars*—Sum to be fixed from time to time by the Secretary of State and to be payable subject to such conditions as may be determined by him, to be spent in the purchase for the Province of suitable motor-cars for the use of the Governor; and the Government shall pay the expenses on freight and insurance in transporting those motor-cars to his Province.

### THIRD SCHEDULE.

<sup>\*1</sup>Maximum allowances to Governors for Renewals of Furnishings of Official Residences.

|                                  |          |        |
|----------------------------------|----------|--------|
| Madras                           | Rs.      | 87,500 |
| Bombay                           | 1,43,750 |        |
| Bengal                           | 1,28,125 |        |
| The United Provinces             | 25,000   |        |
| The Punjab                       | 18,750   |        |
| Bihar                            | 28,125   |        |
| The Central provinces and Berar  | 18,125   |        |
| Assam                            | 6,250    |        |
| The North-West Frontier Province | 10,950   |        |
| Orissa                           | 15,625   |        |
| Sind                             | 24,625   |        |

†Substituted by the Government of India (Governors' allowances & Privileges) (Amendment) Order, 1943, dated the 20th April 1943.

<sup>1</sup> Substituted by the Government of India (Governors' Allowances & Privileges) (Amendment) Order 1947, dated the 8th August, 1947.

\*These amendments will have effect from 1st April, 1947.

FOURTH SCHEDULE.

\* *Maximum yearly amounts (in rupees) charged on the Revenues of the Provinces in respect of certain matters*

[illegible]

1. Sumptuary allowance
2. Staff and Household  
(a) Military Secretary  
(or A.D.C. and his  
establishment).  
(b) Band  
(c) Bodyguard  
(d) Surgeon and his  
establishment.  
(e) Maintenance and  
repairs of furnish-  
ings of official  
residences.
3. Contract Allowance *i.e.*  
an allowance for mis-  
cellaneous expenses,  
including main-  
tenance of Motor-cars
4. Tour Expenses.

\*Substituted by the Government of India (Governor's allowances & Privileges) (Amendment) Order, 1947, dated the 8th August, 1947. These amendments will have effect from 1st April, 1947.

## ALL-INDIA NURSING COUNCIL

†\*249. **Shri Yudhishtir Mishra:** Will the Honourable Minister of Health be pleased to state:

- (a) when the All-India Nursing Council was set up;
- (b) the number and names of members constituting the Council;
- (c) the number of meetings of the council so far held; and
- (d) if no meeting has been held so far, the reasons therefor?

**The Honourable Rajkumari Amrit Kaur:** (a) to (d). The Indian Nursing Council has not yet been constituted as the elections to be held and nominations to be made have not yet been completed. It is hoped that it will be possible to set up the Council very shortly.

## CASH BALANCES AND RESERVES OF CHHATTISGARH STATES

\*250. **Shri Kishorimohan Tripathi:** (a) Will the Honourable Minister of States be pleased to state the total amount of cash, balances and reserves, which the Government of India took over while taking over charge of administration of the Central Provinces (Chhattisgarh) States on 1st January 1948?

(b) Has any part of the said amount been spent for the welfare of the said States' people?

(c) If the answer to part (b) above be in the affirmative, what is the total amount of money so spent and the purposes for which the same has been spent?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). I invite the attention of the honourable member to my reply to Shri Ramprasad Potai's question No. 876 of 19th March 1948 and the statement laid on the table of the House.

(c) Information is being collected and will be laid on the table of the House in due course.

## NAMING OF INDIAN ARMY REGIMENTS AFTER COMMUNITIES

†\*251. **Shri S. Nagappa:** (a) Will the Honourable Minister of Defence be pleased to state whether it is a fact that in the Indian Army the Regiments are named after the communities?

(b) Is there any proposal to change this practice?

**The Honourable Sardar Baldev Singh:** (a) Yes. Some Infantry Regiments are named after certain classes.

(b) Yes. This and other allied questions connected with the implementation of the policy to eliminate as far as possible communal and class differences in the Armed Forces are being examined.

## POPULATION OF BACKWARD TRIBES IN ANDAMAN AND NICOBAR ISLANDS

†\*252. **Shri S. Nagappa:** Will the Honourable Minister of Home Affairs be pleased to state what is the population of the Jarawas and other backward tribes of the Andaman and Nicobar Islands?

**The Honourable Sardar Vallabhbhai Patel:** The exact number of Jarawas in the Islands is not known. It is believed that the various aboriginal tribes of the Andaman Islands number between 2,000 and 5,000. The total number of Nicobarese is between 12,000 and 15,000.

† Answer to this question laid on the table, the questioner being absent.

## INTERIM MINISTRY FOR HYDERABAD

†\*253. **Shri S. Nagappa:** (a) Will the Honourable Minister of States be pleased to state when the Military Administration of Hyderabad is likely to end?

(b) Is there any proposal to form an Interim Ministry retaining the Indian Union Army in the State?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). I would invite the honourable member's attention to my reply to parts (a) and (c) of starred question No. 18 by Pandit Mukut Bihari Lal Bhargava on the 1st February 1949. I have nothing to add to it.

## WAR SERVICE CONCESSIONS FOR APPOINTMENT IN ALL INDIA SERVICES

\*254. **Srijut Rohini Kumar Chaudhuri:** Will the Honourable Minister of Home Affairs be pleased to state if War Service Concessions are still being granted for appointment in All-India Services?

**The Honourable Sardar Vallabhbhai Patel:** No.

**Shri H. V. Kamath:** Are any concessions being given to those who have rendered national service in the past, in the matter of appointments?

**Mr. Speaker:** How does this arise out of this question?

**Shri H. V. Kamath:** It is for you to decide, Sir.

**Mr. Speaker:** It does not arise.

**Srijut Rohini Kumar Chaudhuri:** Since when has the grant of concessions been stopped?

**The Honourable Sardar Vallabhbhai Patel:** I cannot give the date; they have already ceased to be given since a long time past.

## MERCY PETITIONS FROM CONDEMNED PERSONS

\*255. **Srijut Rohini Kumar Chaudhuri:** Will the Honourable Minister of Home Affairs be pleased to state how many petitions for mercy have been received from condemned persons during the years 1946, 1947 and 1948 and in how many cases was reprieve granted?

**The Honourable Sardar Vallabhbhai Patel:** The number of petitions dealt with by the Governor-General and the number in which the death sentence was commuted to transportation for life are as follows:

|      |                 |
|------|-----------------|
| 1946 | ... 438 and 13. |
| 1947 | ... 283 and 7.  |
| 1948 | ... 167 and 23. |

**Shri Deshbandhu Gupta:** May I know what is the procedure generally followed in dealing with these petitions? Is it at the recommendation of the Law Ministry that the Governor General takes action, or he does it in his own office?

**The Honourable Sardar Vallabhbhai Patel:** The present procedure is that the petitions are first received by the Provincial Governments and they deal with them. Subsequently, when petitions are received by the Central Government, it is the Home Department that deals with them and submits them for orders with recommendations to the Governor General.

† Answer to this question laid on the table, the questioner being absent.

**Shri M. Ananthasayanam Ayyangar:** Is the Law Minister not consulted in this matter?

**The Honourable Sardar Vallabhbhai Patel:** Up till now the Law Minister was consulted, but now we have agreed to a procedure in which the Home Department deals with this matter.

**Shri L. Krishnaswami Bharathi:** Has the Governor General any discretion in the matter? That is to say, does he decide matters for commutation in spite of the recommendations?

**The Honourable Sardar Vallabhbhai Patel:** The Governor General's opinion carries considerable weight.

**Shri M. Ananthasayanam Ayyangar:** May I know on what grounds the Law Minister's advice is not taken in this matter in each case? Why has the procedure been changed?

**The Honourable Sardar Vallabhbhai Patel:** It is in conformity with the procedure in the United Kingdom.

**Dr. V. Subramaniam:** Can State prisoners convicted of death sentences apply for mercy in the same way?

**The Honourable Sardar Vallabhbhai Patel:** We do not receive petitions from States.

**Shri H. V. Kamath:** Am I to understand that the Law Ministry is not consulted even about the legal implications?

**The Honourable Sardar Vallabhbhai Patel:** There are no legal implications in the matter.

**Mr. Speaker:** There is practically no question of law that arises in these matters.

#### PROGRAMMES FOR LABOURERS ON A. I. R.

**\*256. Prof. N. G. Ranga:** Will the Honourable Minister of Information and Broadcasting be pleased to state:

(a) whether the All India Radio broadcasts special programmes intended for industrial and agricultural labourers also;

(b) whether Government have installed any special community radio sets in the labour areas or quarters in towns and big villages; and

(c) if not, whether Government propose to instal any such sets in labour areas?

**The Honourable Shri R. R. Diwakar:** (a) Yes. Rural broadcasts from All India Radio stations are meant for the rural population including agricultural labourers. Calcutta All India Radio station broadcasts a special daily programme for industrial labourers.

(b) Community sets have been installed in a number of towns and villages by Provincial Governments. One of them have also installed some sets in labour areas.

(c) Provincial Governments are being approached with regard to installation of more community sets in labour areas.

**Shri H. V. Kamath:** In how many different languages all over India do these rural and urban broadcasts take place?

**The Honourable Shri R. R. Diwakar:** From all stations and I may say in almost all important languages.

#### CONSIGNMENT OF GOLD TO PAKISTAN BY THE RESERVE BANK OF INDIA

**\*257. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Finance be pleased to state whether the attention of Government has been drawn to the news item which appeared in the *Times of India*, Bombay, dated the 15th January, 1949, that fifty boxes containing 5,400 pounds of gold, valued at Rs. 2,48,40,000/- were flown to Karachi in a special plane from Bombay on the afternoon of Thursday, the 13th January, 1949 and that the gold was consigned by the Reserve Bank of India to Pakistan?

(b) Is the news item correct?

(c) Has there been any other similar consignment sent by the Reserve Bank of India to Pakistan since partition?

(d) If so, what are the dates on which such consignments were made and what is the value of gold involved?

**The Honourable Dr. John Matthai:** (a) Yes.

(b) to (d). Under the provisions of the Pakistan (Monetary System and Reserve Bank) Order, 1947, which embodies the agreed arrangements for the division of assets and liabilities of the Issue Department of the Reserve Bank between India and Pakistan, the Reserve Bank is required to transfer to the Pakistan Government assets, including gold, in proportion to the liability for note issue taken over by them. It is in pursuance of this agreement that gold is released to Pakistan from time to time and the State Bank of Pakistan makes its own arrangements for despatching it to Karachi. Up to the 13th January 1949, six instalments aggregating, 13,86,435 tolas in weight and Rs. 2,86,95,832 in value at the Reserve Bank's statutory rate have been released by the Reserve Bank to the Pakistan State Bank.

#### AUDIT CHECK ON INDIA'S EXPENDITURE ABROAD

**\*258. Shri B. Shiva Rao:** Will the Honourable Minister of Finance be pleased to state what steps, if any, have been taken in pursuance of an assurance given by his predecessor in the last session of the Assembly to impose an audit check on India's expenditure abroad?

**The Honourable Dr. John Matthai:** The matter is still under consideration.

**Shri M. Ananthasayanam Ayyangar:** Whether it ultimately be the Auditor General or any of his subordinates, are not the accounts of the Embassies abroad audited at all?

**The Honourable Dr. John Matthai:** They are not subject to the periodic audit which the honourable member has in view. Now since this question was raised by the honourable member in the course of the debate on the Budget early this year, we have taken in hand the question of instituting more effective and continuous audit in respect of expenditure in our Embassies and in the High Commissioners' offices, and the whole matter is now under active examination.

**Shri B. Shiva Rao:** In view of the very large amount of expenditure incurred abroad and the loopholes for extravagance, will the Honourable Minister expedite a decision?

**The Honourable Dr. John Matthai:** Certainly.

**Shri H. V. Kamath:** Is it a fact that our expenditure abroad has more than doubled itself during the last two or three years?

**Mr. Speaker:** Is the Honourable Minister in a position to answer that?

**The Honourable Dr. John Matthai:** I would rather not.

† Answer to this question laid on the table, the questioner being absent.

**Shri Deshbandhu Gupta:** Is it a fact that people living in Pakistan and who have sold their property there, cannot transmit any money from Pakistan to India?

**Mr. Speaker:** How does that question arise from this?

**Shri M. Ananthasayanam Ayyangar:** May I know if the proposal is to make those auditors subordinate to the Auditor General, or to create an independent agency to check and verify those accounts?

**The Honourable Dr. John Matthai:** It will be both.

**Mr. Homi Mody:** Whatever form the check audit may take, will the Honourable Minister see to it that whoever is appointed an auditor at any of the Embassies, he has an independent authority and is not subject to the orders of that particular Embassy?

**The Honourable Dr. John Matthai:** I may, Sir, if permitted explain the way in which my own mind is working on this question. I think we have to proceed in two directions. In the first place it is necessary to provide assistance in the form of officers trained in this kind of work and attached to these Embassies. At the same time it is necessary that the accounts are examined and audited also under the auspices of the Auditor General.

**Shri T. T. Krishnamachari:** May I ask if the proposal that the Honourable Minister is considering includes a check on the payments made by the Commonwealth Relations Office in London as our agents in the matter of payment pensions?

**The Honourable Dr. John Matthai:** Yes.

**Shri B. Das:** Has the audit establishment, formerly known as the Home Auditor, London, been brought under the jurisdiction of the Auditor General, and has this audit staff in London been Indianised, particularly in view of the large commitments of expenditure in the United Kingdom?

**The Honourable Dr. John Matthai:** That is one of the matters under consideration.

#### EXPENDITURE ON ALL INDIA COUNCIL FOR HIGHER TECHNICAL EDUCATION

†\*259. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Education be pleased to state the date on which the All India Council for Higher Technical Education was established and started working?

(b) What is the total amount spent on this up to December, 1948?

(c) Have any institutions for Higher Technical Education been brought into existence?

(d) If not, when and where is it likely to be established?

**The Honourable Maulana Abul Kalam Azad:** (a) The All-India Council for Technical Education was set up by a resolution of the Government dated the 30th November 1945. Its composition was announced on the 12th April, 1946 and the first meeting was held on the 30th April, the 1st and the 2nd May, 1946.

(b) Rs. 1,09,315-10-0.

(c) The Higher Technical Institutions recommended by the Higher Technical Education Committee (Sarkar Committee) and subsequently by the All India Council for Technical Education, have not yet been brought into existence. However much of the preliminary work in connection with the setting up of the Eastern Higher Technical Institution has been done.

† Answer to this question laid on the table, the questioner being absent.

(d) Government have decided to locate this Institute at Hijli, District Kharagpur, in West Bengal. The Institution is expected to start functioning during the course of the year.

#### RULES FOR EMPLOYMENT OF FOREIGNERS

\*260. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Home Affairs be pleased to state if any rules and regulations have been framed for the employment of foreigners in India?

(b) What is the number of foreigners at present employed in India and what are their nationalities?

**The Honourable Sardar Vallabhbhai Patel:** (a) The policy of the Government is not to employ foreigners in Government Service except where suitable Indians are not available and even these cases, such employment is to last for the minimum period necessary to train suitable Indians. This policy is being enforced through suitable executive instructions and no rules and regulations are necessary for the purpose. No such rules and regulations have been framed for the employment of foreigners in non-Government establishments.

(b) The information is being collected and will be placed on the table of the House in due course.

#### BENEFITS TO I. N. A. PERSONNEL

\*261. **Srijut Rohini Kumar Chaudhuri:** Will the Honourable Minister of Defence be pleased to state whether it is a fact that I.N.A. men have been recognised as eligible to all benefits accorded to retired and discharged servicemen and if so, what is the total amount of money paid to them out of different funds up to 31st December, 1948 and what amount remains still to be paid?

**The Honourable Sardar Baldev Singh:** As regards the benefits to which ex-Indian Army personnel who had joined the I. N. A. and who are now nationals of the Dominion of India or of any State which has acceded to the Indian Dominion and have not migrated to Pakistan have been admitted, I would refer the honourable member to the press-note issued on September 17, 1948 which contains a summary of the various decisions taken by Government with regard to the treatment of such personnel. Of the Rs. 30 lakhs set aside by Government for this purpose, a sum of approximately Rs. 16 lakhs was spent up to the 31st December 1948, leaving a balance of about Rs. 14 lakhs still to be disbursed. The cost of service pension/gratuity admissible to these personnel under the normal rules is not included in the amount of Rs. 30 lakhs set apart for them.

**Shri H. V. Kamath:** Have any payments been made to the families and dependents of those killed in action?

**The Honourable Sardar Baldev Singh:** Yes. Out of the Rs. 30 lakhs as much as Rs. 16 lakhs have been spent for this purpose. But it is difficult to give the details.

**Shri H. V. Kamath:** Is it a fact that this sum is so small that when it is disbursed it comes to hardly Rs. 100 per head?

**The Honourable Sardar Baldev Singh:** Whatever it is, we cannot go outside the amount that has been agreed to by Government.

† Answer to this question laid on the table, the questioner being absent.

## DEREQUISITIONING OF LANDS AND BUILDINGS IN ASSAM

**\*262. Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Defence be pleased to state whether it is a fact that a large number of buildings and plots of lands requisitioned by the Defence Department in the Province of Assam have not yet been released?

(b) Have compensation and rent payable for buildings and lands which have been de-requisitioned in the Province of Assam been fully paid up and if not, why not?

(c) Are the Provincial Committees set up by the Defence Department sometime in 1947, for the purpose of determining questions regarding the de-requisitioning of lands, houses, etc., still functioning and if not, why not?

**The Honourable Sardar Baldev Singh:** (a) No. Out of 834 buildings requisitioned for the Defence Services under the Defence of India Rules, 833 buildings have so far been released and out of 1,174 requisitioned plots of land measuring 61,436 acres, 1,096 plots measuring 55,575 acres have since been released, thus leaving 78 plots measuring 5,861 acres still under requisition.

(b) Yes, except in the case of 55 buildings and 301 plots of land, where the owners have refused to accept the assessed compensation. Efforts are being made to reach an early settlement.

(c) Committees were set up at Bombay, Calcutta, Delhi and Dibrugarh. The Committee at Dibrugarh was abolished on 21 August 1947 on the recommendation of the Government of Assam in view of the small number of properties remaining to be de-requisitioned. The others are functioning.

## (b) WRITTEN ANSWERS

## ABORIGINES IN CENTRALLY ADMINISTERED AREAS

**\*263. Lala Raj Kanwar:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) the total number of aborigines in the Centrally Administered Areas; and

(b) the names of places or centres in the Centrally Administered Areas where any special officers have been appointed to promote their welfare and look after their interests?

**The Honourable Sardar Vallabhbhai Patel:** (a) One lakh twenty-six thousand and seven were recorded under 'Tribes' according to the 1941 census.

(b) Government have not appointed any special officers for the purpose.

## PARTITION OF ASSETS OF PUNJAB LIBRARIES

**\*264. Giani Gurmukh Singh Musafir:** Will the Honourable Minister of Education be pleased to state whether, at the various Inter-Dominion Conferences between India and Pakistan, the question of partition of Library books and assets of the Punjab Library, University Library and Press Branch Library was discussed; if so, with what results, and if not, why not?

**The Honourable Maulana Abul Kalam Azad:** The answer to the honourable member's question is in the negative. These are essentially provincial matters and were not taken up at the Inter-Dominion Conferences in the absence of a request from either of the two Provincial Governments concerned for such discussion at the Dominion level.

REQUEST FOR ENGLISH TRANSLATIONS OF ANSWERS TO  
SUPPLEMENTARY QUESTIONS PUT IN HINDUSTANI

**Shri O. V. Alagesan:** Sir, I wish to raise a matter of some importance and seek the ruling of the Chair on it. The right of putting questions and eliciting answers is a very important right of the members of the House which should not be tampered with. In the House as at present constituted there are unfortunately some members who are not able to follow the answers in Hindustani, Urdu or Hindi and when they are unable to follow the answers they are also not able to put supplementaries and that would take away a very important right of the members of this House. For instance, to-day when myself and another honourable member from Bengal put supplementary questions the answers were given in Hindustani which we were unable to follow nor could we even have an idea of the nature of the answer and we were placed in the dark as to how to proceed further. At least in such cases when a specific demand is made that the translation of the answer should be given in English, will the Honourable the Speaker consider this suggestion and make arrangements in future at least to have translations given to members then and there, so that they will be able to put further supplementary questions and elicit answers. I should like to have a ruling from the Chair on this very specific matter of very great importance to the House.

**Shri K. Hanumanthaiya rose—**

**Mr. Speaker:** I do not propose to have any discussion on this. This matter has been dealt with in the House more than once. I have already made it clear that in cases where a person putting questions is unable to follow the answers in Hindustani I have been giving them the help of translations which are kept ready by my side. The honourable member's request is that translations of answers to supplementary questions should also be provided there and then, so as to enable him to put further supplementaries on those supplementaries. That is entirely a different proposition. Still, if the question was really of such importance, I should have considered even that suggestion. But I do not think it is possible to comply with the request of the honourable member that every supplementary answer will have its translation read there and then. That means the business of the House must be suspended or the answers to the supplementaries to that question will have to be held up till the translations are ready. The best course in view of the new set up of things now, is for honourable members to try their best to be conversant with the Hindustani language rather than expect translations in English. I do not propose to have any arguments over these points.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

(PART I—QUESTIONS AND ANSWERS).

*Thursday, 10th February, 1949.*

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

STARRED QUESTIONS AND ANSWERS

(a) ORAL ANSWERS.

AMOUNT REALISED BY DISPOSALS DIRECTORATE FROM SALES

**\*265. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what was the amount of sales by the Disposals realised from July 1948 to date month by month?

(b) What is the amount from disposals still remaining to be realised and when are all articles likely to be disposed of?

(c) What is the total amount so far realised from the beginning to date?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The amounts realised from sale of surplus stores and salvage are as under:

|                 |                |
|-----------------|----------------|
| July, 1948      | 1,20.50 lakhs. |
| August, 1948    | 1,30.32 lakhs. |
| September, 1948 | 1,68.01 lakhs. |
| October, 1948   | 1,09.23 lakhs. |
| November, 1948  | 88.06 lakhs.   |
| December, 1948  | 86.44 lakhs.   |

(b) The book value of surplus stores awaiting disposal at the end of December, 1948 was Rs. 141.31 crores. In addition, there were 1,13,190 tons of military salvage and process scrap to be disposed of.

At the moment the disposal of certain stores is under an embargo pending an examination of the requirements of the ministries of Defence and of Relief and Rehabilitation. It is, therefore, not possible to forecast at this stage when the balances are likely to be disposed of. If the embargoes are lifted, about 75 per cent. of the stores can probably be disposed of in a year.

(c) The total sale value of surplus stores and military salvage and process scrap sold upto the end of December, 1948, amounts to Rs. 145.18 crores.

**Shri R. K. Sidhva:** Is there any likelihood of removing this embargo of Government whereby this Rs. 145 crores of goods can be disposed of easily?

**The Honourable Dr. Syama Prasad Mookerjee:** The Ministry of Defence has agreed that the embargo will be lifted and we are now completing our discussions with the Ministry of Relief and Rehabilitation.

**Shri R. K. Sidhva:** May I know how many agencies operate in each region for the disposal of these articles?

**The Honourable Dr. Syama Prasad Mookerjee:** There are mainly half a dozen main centres in different parts of the country, and there are officers selected in relation to the quantities that are to be disposed of in the depots.

**Shri R. K. Sidhva:** My question was that in one region, for instance, Bombay, who is the authority to dispose of articles? Is it a fact that not only regional officers decide certain things but the disposal of certain other articles are decided by the Iron and Steel Commissioner? Is this a practical proposition?

**Mr. Speaker:** The last part of the question is a matter of opinion. That need not be answered. The information asked for in the first part may be given.

**The Honourable Dr. Syama Prasad Mookerjee:** The policy is laid down by Government. It is implemented under the authority of the Director-General who is in Delhi. There are Regional Commissioners such as in Calcutta, Bombay and Madras and there are Directors serving under the Regional Commissioners. There are officers who are placed in charge of each depot, but all work under the directive policy of the Director General.

**Shri R. K. Sidhva:** That is all right. But may I know whether Regional Commissioners can dispose of certain articles which are in the jurisdiction of say, Delhi?

**The Honourable Dr. Syama Prasad Mookerjee:** I do not understand what the honourable member means.

**Shri R. K. Sidhva:** My point was whether the Regional Officer has an authority to dispose of goods lying in that region, say Bombay: or has he to take permission of the Iron and Steel Commissioner from the Head Office here?

**The Honourable Dr. Syama Prasad Mookerjee:** So far as Iron and Steel are concerned, we put the entire stocks in the common pool and they are not allowed to be sold by the Regional Commissioner except under the authority of the Iron and Steel Controller in accordance with the All-India programme.

**Shri B. Shiva Rao:** Has my honourable friend a complete inventory of all the articles in the disposals?

**The Honourable Dr. Syama Prasad Mookerjee:** Well, we have prepared an inventory and we have tried to make it as complete as possible.

**Shri B. Shiva Rao:** Is it not a fact that there are many cases lying unopened in Bengal and his Ministry is ignorant of the contents of those cases?

**The Honourable Dr. Syama Prasad Mookerjee:** I think the contents are known but some cases are unopened because if you open them they may be completely spoilt.

**Shri T. T. Krishnamachari:** May I know if all the goods which are to be transferred to the Disposals by the Defence Department have been transferred, or does the Honourable Minister expect further transfers from the Defence Department?

**The Honourable Dr. Syama Prasad Mookerjee:** The Defence Department has now agreed that there will be quicker sales. There are certain things which they want for their own use. But so far as the bulk of the stock is concerned, they are now prepared to release them.

**Shri V. C. Kesava Rao:** How much time will the Ministry take to dispose of these articles?

**The Honourable Dr. Syama Prasad Mookerjee:** If the embargoes are lifted, 75 per cent. should be disposed of in the course of 1949.

**Shri T. A. Ramalingam Chettiar:** Have not all these articles deteriorated, being exposed to sun and air?

**The Honourable Dr. Syama Prasad Mookerjee:** Of course some of these stocks are deteriorating. There is no doubt about it.

**Prof. N. G. Ranga:** Have Government begun to implement the recommendations of the Defence Department that whenever any department wants any popular machine or goods, and it makes an enquiry to the disposals, the Disposals Officer who is in charge of it should certify that that particular commodity or machine is not available with him?

**The Honourable Dr. Syama Prasad Mookerjee:** What we have now done is this. Our priority indentors are the Central and Provincial Governments and the States. With regard to the next indentors, we have decided that we will give preference to organized industries so that the goods may not pass into the hands of middlemen and speculators and they may be utilised to the best advantage of the country. That policy is now being pursued.

**Seth Govind Das:** Is proper care taken to see that only such articles are disposed of which are not required by the Government in future?

**The Honourable Dr. Syama Prasad Mookerjee:** I think I have just answered that the first priority indentors are the Central Government, the State Governments and Provincial Governments; next comes the organised industry, before we sell them to the ordinary traders. If the organised industry can use them to their best advantage we give them preference.

**Shri B. Das:** Is the Honourable Minister not changing his time-table of winding up the Directorate of Disposals from six months to one year from now? Will the Honourable Minister consider handing over the different stores to the various Ministries concerned according to their needs and wind up the Directorate of Disposals?

**Mr. Speaker:** Order. order.

**Pandit Hirday Nath Kunzru:** Since the publication of the report of the Disposals Utilization Committee, what steps have been taken by the various Ministries to see what material would be useful to them?

**The Honourable Dr. Syama Prasad Mookerjee:** We have circularised the list to all the Ministries and the delay that has occurred is mainly due to the time which various indentors under the Government took for the purpose of determining how quickly they can utilise it. That stage is over and we have their replies more or less complete.

**Pandit Hirday Nath Kunzru:** Will the Honourable Minister please tell us what proportion of the material will be utilised by these Departments of the Government of India put together, and what will remain to be disposed of?

**The Honourable Dr. Syama Prasad Mookerjee:** I suppose about 20 to 25 per cent. should be utilised by the Government departments and the Provincial Governments.

**Pandit Hirday Nath Kunzru:** Does that include the Defence Department?

**The Honourable Dr. Syama Prasad Mookerjee:** I am excluding the Defence Department.

**Pandit Hirday Nath Kunzru:** Why has the Defence Department been so dilatory in making an examination?

**Shri R. K. Sidhva:** May I know whether the retail shops opened in certain cities are continuing? Are they also experiencing delays?

**The Honourable Dr. Syama Prasad Mookerjee:** They are continuing in some places. There is one in Connaught Circus in Delhi. I will give the honourable member the address in case he desire to make some purchases.

## ANIMALS FROM PAKISTAN FOR GOVERNMENT DAIRY FARMS

\*266. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that Government obtained a permit last year to import animals from Pakistan for Government Dairy Farms?

(b) Have the animals been purchased?

(c) If so, at what price were they purchased and were enquiries made from various concerns before making the purchases?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes. Permit for importing 550 animals from Pakistan was obtained last year—which is valid upto the 30th June, 1949.

(b) Only 150 animals have been purchased so far, and brought to the Cattle Breeding Research Station, Jubbulpore. The purchase of the rest is under consideration.

(c) The animals were purchased at a contracted price of Rs. 700 F.O.R. Jubbulpore for each cow yielding 15 lbs. of milk per day. The price was increased or decreased by Rs. 10 per lb. according as the milk yield, which was taken at Jubbulpore, was more or less than 15 lbs. Five of these cows, which were dry at the time of purchase, were purchased at Rs. 700 per head F.O.R. Jubbulpore. Two bulls were purchased at Rs. 700 F.O.R. Jubbulpore while one pedigree bull was purchased at Rs. 800 F.O.R. Jubbulpore.

Necessary enquiries were made before fixing up two contractors viz., (i) M/s. J. R. Patel & Sons, and (ii) All India Livestock Supply Agency, Karachi, which are the only two firms in Sind who could undertake supplies of large number of cattle.

**Shri R. K. Sidhva:** Have I clearly understood the Honourable Minister that the lowest price for an animal was Rs. 700?

**The Honourable Shri Jairamdas Doulatram:** Yes.

**Shri R. K. Sidhva:** May I know whether quotations were invited from the two firms mentioned by the Honourable Minister and whether this was the lowest quotation?

**The Honourable Shri Jairamdas Doulatram:** It was not a question of the lowest: it was also a question of the yield of the cow.

**Shri R. K. Sidhva:** Consistent with the yield may I know whether any other firms in Karachi quoted rates lower than Rs. 700?

**The Honourable Shri Jairamdas Doulatram:** Not, so far as I know.

**Shri R. K. Sidhva:** May I know who went to make the purchase?

**The Honourable Shri Jairamdas Doulatram:** Sir Datar Singh, the Vice-Chairman of the Indian Council of Agricultural Research.

**Shri R. K. Sidhva:** May I know why the Dairy Development Officer, who has been making purchases of cattle, was not sent?

**The Honourable Shri Jairamdas Doulatram:** In this matter, because we were dealing not with any part of India but we were dealing with Pakistan, special arrangements had to be made and we wanted some man of influence. And because of his personal intimacy with a number of men in Pakistan, both official and non-official, we selected Sir Datar Singh deliberately.

**Shri R. K. Sidhva:** Why could not the Dairy Development Officer be sent to Pakistan as had been done before?

**The Honourable Shri Jairamdas Doulatram:** He might have gone there before but under the new set up it was felt that Sir Datar Singh was a particularly influential man who would secure a good bargain.

**Shri V. C. Kesava Rao:** Out of the 150 animals imported may I know how many were cows and how many stud bulls?

**The Honourable Shri Jairamdas Doulatram:** Two or three were bulls and the rest were cows.

**Seth Govind Das:** Out of 550 cattle which were going to be purchased only 150 have been actually purchased. Is it not a fact that on account of the small number the work at the Jubbulpore Dairy Farm is being hampered and is not in full swing?

**The Honourable Shri Jairamdas Doulatram:** We wanted to purchase more—150 from Karachi and 250 from Lahore. But now on account of famine conditions in Cutch we find that we will be able to purchase similar cows at Rs. 100 to 150 per cow. Therefore the intention is to purchase them now from Cutch.

**Seth Govind Das:** Is it not a fact that at the time when this permit was taken from the Pakistan Government there was no famine in Cutch? I want to know why at that time these cattle were not purchased and only about 150 were purchased from that side.

**The Honourable Shri Jairamdas Doulatram:** As I said, it was felt that they would be able to supply the pure breed of Sindhi but later on it was found that from Cutch also we would be able to get a fairly good supply of cattle.

**Sardar Bhopinder Singh Man:** Out of these purchases made, did Sir Datar Singh purchase any of his own cattle?

**The Honourable Shri Jairamdas Doulatram:** No, he has no cows at Karachi.

**Prof. N. G. Ranga:** Is it not a fact that this officer used to be the Dairy Expert of the Government of India and more than 1,000 pedigree cattle of his own were confiscated by the Pakistan Government?

**The Honourable Shri Jairamdas Doulatram:** Yes.

**Shri R. K. Sidhva:** May I know whether the Government have got receipts from the company from which these animals were purchased? Have the Government obtained receipts for the payment of the price of these animals from the company, from whom they were purchased?

**Mr. Speaker:** What is the suggestion behind the question?

**Shri R. K. Sidhva:** I want to know whether vouchers were obtained for payment of the price of these animals.

**Mr. Speaker:** What is the suggestion of the honourable member? He is going into unnecessary administrative details.

**Shri R. K. Sidhva:** I want to know whether the company which actually sold the animals issued the receipts in their own name.

**Mr. Speaker:** I do not think the Honourable Minister need answer the question.

**Shri Mihir Lal Chattopadhyay:** What are the different breeds of cattle that have been purchased?

**The Honourable Shri Jairamdas Doulatram:** I will not be able to say definitely. There are two breeds called the Sindhi and Tharapad breeds. I will not be able to say definitely how many of each of these two breeds have been purchased.

**Shri R. K. Sidhva:** Sir, I only wanted to know whether the company which sold the animals issued the receipts.

**Mr. Speaker:** The question goes into unnecessary administrative details and it is therefore disallowed.

### FOOD GRAINS IMPORTED FROM FOREIGN COUNTRIES

**\*267. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Food be pleased to state the quantity and price of all kinds of cereals purchased from various countries and total amount paid for them—each item separately with the names of countries from where they were purchased each year—for the years 1945, 1946, 1947 and 1948?

(b) How many delegations were sent to foreign countries to make such purchases?

(c) What are their names (for each year separately) and what is the total amount of expenses incurred on such missions?

(d) Has any transaction been made by correspondence during these years with any foreign countries by the Government of India? If so, what are the details thereof?

**The Honourable Shri Jairamdas Doulatram:** (a) to (c). Two statements giving the requisite information are laid on the table of the House.

(d) The purchase of foodgrains from abroad is a continuing process and some transaction or the other is pursued through correspondence every day. It is only when there is a big deal being negotiated and the purchase necessitates a negotiation at the spot that a delegation is sent.

### STATEMENT I

*Particulars of food delegations sent abroad for making purchases of foodgrains during the years 1945—48*

| Serial No. | Year in which delegation was sent | Object of delegation                                                                                                | Name of the member of the delegation.                                                                                                                                                                                        | Place of meeting                  | Estimated cost |
|------------|-----------------------------------|---------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|----------------|
| 1          | 1946 (Sept.-November)             | To obtain export licences from Argentina Government in respect of food grains purchased by the Government of India. | Devan Chaman Lal (Leader)<br>Mrs. Chamanlal (Non-official)<br>Mr. J. R. Modi (I.T.C. Buenos Aires).<br>Kunwar Jit Singh Secretary of delegation.<br>Mr. M. D. Appostolides, O. S.D. and Technical Adviser to the delegation. | Argentina                         | Rs. 72,000/-   |
| 2          | 1946 (October-November)           | To explore possibilities of obtaining food grains from Middle East.                                                 | Mr. Ijaz Ahmed                                                                                                                                                                                                               | Middle East countries             | Rs. 6,500/-    |
| 3          | 1947 (January-February)           | Procurement of food grains from Turkey.                                                                             | Major General A. C. **Shri R. K. Sidhva:** Out of the four years, during which year the lowest price was paid for wheat and rice?

**The Honourable Shri Jairamdas Doulatram:** I am afraid I will require notice of that.

**Shri R. K. Sidhva:** The Honourable Minister has said that the information called for by me is placed for information on the table of the House.

**Mr. Speaker:** The honourable member may read that statement.

**Shri R. K. Sidhva:** The Honourable Minister can give me the answer from the statement.

**Mr. Speaker:** The Honourable Minister need not go into the statement at all. I do not propose to encourage the practice of getting statements read out here, the effect of which would be that, the particular question would continue for a long time and further questions for oral answer would be barred.

**Shri R. K. Sidhva:** May I submit in that case the statement should be supplied to the members one hour in advance?

**Mr. Speaker:** That is a different matter which I shall have to consider.

**Shri Biswanath Das:** The difficulty of honourable members here is that the statements are not read but they are placed on the table of the House, and it is not possible for us to make them available for months together. How are we under the circumstances to frame supplementary questions?

**Mr. Speaker:** The first difficulty is created by the nature of the questions. If a question requires a statement of information, then necessarily a statement has to be made, if full information is to be given.

As regards the other point, namely the difficulty of members in getting the statements, a set of statements together with the answers is on the table of the House and another set of the statements and answers is placed in the library, so that any honourable member who wishes to see any answer or statement given to a question on a particular date can easily have access to them. I quite agree that the official publication of the debate takes a long time. I do not, however, see any present or immediate prospects of our being able to expedite the publication of these questions and answers so long as this House does not possess a press of its own. As I have already stated, so far as the other facilities are concerned, a set of answers is always placed on the table of the library immediately they are laid on the table here. It is available here too with the Secretary during the course of the day.

**Shri Biswanath Das:** May I make another submission? It is not correct to . . .

**Mr. Speaker:** The honourable member can do so after the question hour is over.

**Shri H. V. Kamath:** In view of the fact that India has been able to obtain considerable quantities of wheat from the U.S.S.R. without a delegation or a mission being sent there, why was it considered necessary by Government to send missions and delegations to other countries to negotiate the purchase of these cereals?

**The Honourable Shri Jairamdas Doulatram:** We did not get the entire amount of wheat from Russia. I might explain that negotiations are conducted at different times and at each time it is not that the country with which we negotiate is prepared to give the maximum amount. Therefore in the case of U.S.S.R. we had to undertake negotiations on two different occasions. On the first occasion we were able to secure 50,000 tons. Later, after about three or four months they were able to make us another offer. So the entire

472 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [10TH FEB. 1949]

amount is not negotiated at one particular time. We had to negotiate with Australia also; the demand for wheat is much more than we have been able to secure from these two countries.

**Shri H. V. Kamath:** My question was why did Government consider it necessary to send delegations to other countries to negotiate the deal while Government did not send one to Russia but in spite of that we got wheat from Russia.

**The Honourable Shri Jairamdas Doulatram:** That happens in the case of other countries also. We do not always send a delegation. Delegations are sent only where other contacts are not available.

**Shri B. P. Jhunjhunwala:** Apart from the food grains purchased through the negotiation of delegations from Governments, were any food grains purchased through private parties during any of the years and if so at what rates? What is the difference between the rates offered by private parties and the rates at which food grains were purchased through the delegation?

**Mr. Speaker:** I am afraid the loud consultations inside the House disturb the proceedings.

**An Honourable Member:** They are more on the Treasury Benches. Sir.

**Mr. Speaker:** Will the honourable member please repeat his question?

**Shri B. P. Jhunjhunwala:** I want to know whether any offers for the supply of foodgrains were received from private parties and if so at what rates; and whether any offers were refused though they were at cheaper rates.

**The Honourable Shri Jairamdas Doulatram:** I think a few thousand tons in all have been purchased through private trade in some of the East African countries. There are cases where we have refused to accept the offers though at reduced prices. The reason is this. Some grain was offered through the Government and we found the grain rotten and unusable, and therefore rejected those Government offers. The same grain was offered to us through private trade and we had to refuse it.

**Shri Mahavir Tyagi:** What is the method whereby the Ministry decides upon the prices of various grains which are had from different countries?

**Mr. Speaker:** I am afraid it is too vague a question to be answered.

**Shri S. V. Krishnamoorthy Rao:** Cannot these purchases be made through the Commercial Attaches of our Embassies so as to save the cost involved in sending these delegations?

**The Honourable Shri Jairamdas Doulatram:** The purchases for instance in the United States and Canada are conducted through the Indian Supply Mission who represent the Government of India. In regard to most of the East Asian countries these are done through our own Embassies who represent our country there. In regard to these transactions there are consultations held by the Food Ministry with the Ministry of Finance, and sometimes with the Ministry of Commerce and the Ministry of Industry and Supply also, because there are certain barter transactions and therefore in regard to fixing up of these rates more than one Ministry has a hand. In the case of the main purchases it is done through our own official organisations.

**Seth Govind Das:** Is it not a fact that the grain which was supplied by private parties from East Africa was satisfactory and is it not also a fact that they were ready to supply more at reasonable prices?

**The Honourable Shri Jairamdas Doulatram:** Wherever the grain is satisfactory and the price also is satisfactory we do accept the offers. There can be no reason for rejecting them because we do want foodgrains. But where the quality or the rate is unfavourable we do not accept the offers.

**Seth Govind Das:** The Honourable Minister stated that the grain which was received from private parties was rotten. I want to know whether it is not a fact that the grain received from East Africa from private parties was satisfactory and whether it is not also a fact that they were ready to supply more grain of the same quality at reasonable prices?

**The Honourable Shri Jairamdas Doulatram:** If the honourable member has got any particular instance of this in view I am prepared to go into it. But so far as I know the rejection was only on the ground that it was not acceptable because of quality, and may be also because of the price.

**Shri Mahavir Tyagi:** Has any instance come to the notice of the Honourable Minister of refusal by his secretariat to accept many thousand tons of wheat from Australia at much cheaper rates offered by a private person?

**The Honourable Shri Jairamdas Doulatram:** I am not aware, but I will enquire into that.

**Shri R. K. Sidhva:** May I know whether the quality received is identical with the quality for which contract is made from time to time?

**The Honourable Shri Jairamdas Doulatram:** This is normally so, but the contracts provide also for the occasion when we find that the quality is not as contracted for, and a provision is made for a different rate being paid on that ground. Normally the quality is what has been contracted for. In Australia and in some of the European countries there are established organisations recognized by all Governments which test the quality.

**Prof. N. G. Ranga:** In the light of the information given by the Honourable Minister and the supplementaries put, may I ask the Honourable Minister whether he would consider the advisability of himself personally going into these various transactions and of seeing to it that everything is all right, or if there is anything wrong it is put right?

**Mr. Speaker:** It is a suggestion for action.

**Shri Mahavir Tyagi:** What is the policy with regard to private persons who offer to import wheat and other grains at much cheaper rates from foreign countries? Are Government prepared to accept such offers?

**The Honourable Shri Jairamdas Doulatram:** Government is always prepared to accept such offers. But honourable members may realize that in most cases it is a government to government deal. In most of the countries sales outside are controlled. When we purchase from America for instance, we do not purchase directly from private traders. It is Government which controls transactions.

#### LANDING FEES RECOVERED FROM AIRWAYS COMPANIES

\*268. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state the total amount of landing fee at various aerodromes recovered during the years 1947 and 1948 from all airways companies, giving the figure for each company separately?

(b) Are the companies required to pay the said fees in advance and if not, within what period?

(c) Is there any landing fee, outstanding against any company and if so, what are the names of the companies and what is the amount due from each?

(d) Were any efforts made to recover the dues and if so, with what result?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) and (c). I lay on the table of the House two statements giving the required information.

(b) The landing fees are payable at the time of use of the aerodromes, or, in the case of approved regular users, on demand at the end of each calendar month.

(d) There are only three cases in which the arrears are at all considerable. Efforts are being made to recover the arrears and it is expected that the matter will be settled at an early date.

## STATEMENT I.

*Amount recovered from various airline companies in 1947 and 1948 on account of landing charges.*

\*Includes bills upto December, 1948.

**Shri R. K. Sidhva:** If the answer to part (b) is that the fees are paid in advance, may I know why exceptions were made in the three cases?

**Shri Khurshed Lal:** As I have said they are not always payable in advance. In the case of approved regular users they are payable on demand at the end of each calendar month.

**Shri R. K. Sidhva:** What is the system now? Is it payable at the end of the month or in advance?

**Shri Khurshed Lal:** The fees are payable in advance, but in the case of regular users they are payable at the end of each calendar month. Both the systems prevail.

**Shri R. K. Sidhva:** Is the Government likely to recover the arrears in these three cases?

**Shri Khurshed Lal:** I hope so.

**Shri R. K. Sidhva:** Is it not a fact that Ambica Airways has already gone into liquidation?

**Shri Khurshed Lal:** Yes, they have gone into liquidation. But my information is that Government also owe them money for operations in Kashmir.

## AUTOMATIC MACHINE FOR SORTING AND STAMPING LETTERS

\*269. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state whether it is a fact that the British Post Offices have introduced a machine which automatically sorts, arranges and post marks letters?

(b) Is it a fact that this machine can pass 600 letters in a minute?

(c) Do Government intend to introduce such machines in India?

(d) What is the cost of the machine and have the Postal authorities in India made any experiment in this regard?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) and (b). As far as I am aware the British Post Offices have not yet introduced any machine of the kind mentioned, but they are reported to be working on experiments in this direction.

(c) Government will certainly consider the introduction of such a machine in India if the experiments prove successful.

(d) As no such machine has yet been manufactured it is too early to say what it will cost or to make experiments.

**Shri R. K. Sidhva**: Is it not a fact that the British Post Office research station engineers have announced that such a machine does exist?

**Shri Khurshed Lal**: As far as my information goes they are only on an experimental stage yet.

**Shri H. V. Kamath**: Before thinking of introducing such a machine in India will Government bear in mind that the introduction of such a machine might lead to unemployment on a large scale?

**Mr. Speaker**: Order, order.

#### COLLECTION OF RENT FOR TELEPHONES FROM SUBSCRIBERS IN DELHI

\*270. **Dr. V. Subramaniam**: (a) Will the Honourable Minister of Communications be pleased to state whether it is a fact that in the Delhi Telephone District, Telephone rent bills are sent to the telephone subscribers by ordinary post, and that there is a general complaint by the subscribers that the bills were not received by them in time?

(b) Has any arrangement been made so far by the Telephone Revenue Branch for handing over the bills direct to the subscribers and collecting the amount direct or to receive the bill amount through counters opened at convenient places in Delhi?

(c) Is it a fact that payment of telephone rent bills can be made at any Post office by cheque or cash but when paid, the Post offices take a long time to intimate the receipt of payment to the Telephone District, New Delhi?

(d) Do Government propose to lay on the table of the House a statement containing a dozen cases at least in any one month in 1948 (say November, 1948 or December, 1948), giving particulars as to when the bills were sent, when the amounts were paid by the subscribers in different Post offices and in how many days the Post Offices concerned intimated the matter to the New Delhi Telephone District?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) Yes. Telephone bills are generally sent to subscribers only by post. Occasionally complaints regarding non-receipt of bills are received from some subscribers but there is no such general complaint.

(b) and (c). Subscribers are allowed to pay their telephone bills in cash or by cheque at any post office in Delhi or New Delhi. There is a post office in Eastern Court next door to the office of the Telephone District, New Delhi. In a few cases the intimation of payment has been received late in the Telephone District and suitable action has been taken against the officials at fault.

(d) A statement is laid on the table of the House.

#### STATEMENT

*Particulars of a dozen telephone bills of Delhi Telephone District paid to post offices in November 1948*

| Serial No. | Name of Subscriber                                          | No. and date of Bill. (The date of bill shows the date of despatch) | Bill paid at Post Office on (Name) | Date on which Intimation of payment was received in Telephone Revenue Branch | Delay     |

| 12         | Mr. B. Seshwar Nath, Government Contractor, New Delhi.      | 7932 dated 28-10-48                                                 | Connaught Place                    | 6-11-48                                                                      | Do.       |

**Shri H. V. Kamath:** Have any cases come to the notice of the Honourable Minister where telephones were disconnected merely because bills sent by post were not paid?

**Shri Khurshed Lal:** I do not recollect having seen any such case.

**Prof. N. G. Ranga:** Is the Honourable Minister aware of the fact that the names of several subscribers, including members of this House, do not appear in the latest Directory although they are still on the list of their subscribers?

**Shri Khurshed Lal:** I am not aware of any such case but if the honourable member would bring it to my notice I will look into it.

**Shri Deshbandhu Gupta:** Is it not a fact, Sir, that after August 1947 it was found that the accounts in the Telephone Office were in a hopeless condition and bills were therefore sent indiscriminately even to people who had already paid their dues and on that account some telephones were disconnected and people put to inconvenience?

**Shri Khurshed Lal:** That was so, but we have taken steps to put the matters right.

**Prof. N. G. Ranga:** Is any effort being made to reprint this new Directory in order to make it more correct than it is today?

**Shri Khurshed Lal:** I am not yet aware that the directory is not correct, but if the honourable member brings any cases to my notice I will see to it.

**Mr. Frank Anthony:** Is Government aware of the considerable confusion in this Department and the inconvenience caused by the delay in sending telephone bills which are usually received about 24 hours before the time limit set for their payment and the fact that reminders and threats of disconnection are sent long after bills have been paid?

**Shri Khurshed Lal:** We are taking steps to eliminate all such cases, and if the honourable member brings to my notice any such cases I will take action.

**Dr. V. Subramaniam:** Are the accounts checked very often to see that the bills have been paid?

**Shri Khurshed Lal:** Now they are.

**Prof. N. G. Ranga:** Are we to understand, Sir, that the Ministry has not received any complaints at all of the kind that have been just now made by Mr. Frank Anthony? That has been the case with so many of us, members of this House.

**Shri Khurshed Lal:** In all complaints which were received action was taken.

#### TELEPHONE EXCHANGES IN DELHI

\*271. **Dr. V. Subramaniam:** (a) Will the Honourable Minister of Communications be pleased to state how many Telephone Exchanges there are in Delhi and New Delhi and what their capacity is?

(b) How many telephone subscribers are there in Delhi and how many of the machines are new ones?

(c) Will all the old machines be renewed and if so, when?

**Shri Khurshed Lal (Deputy Minister for Communications):** (a) Eleven Main Telephone Exchanges and fifty-three Private Branch Exchanges.

A list giving the names and capacity of the various exchanges and P. B. Xs is laid on the table of the House.

(b) 1804 and 553 respectively.

(c) Yes; by 1949-50.

## STATEMENT

### Names of Exchanges and Private Branch Exchanges

| Name                                                      | Capacity of Exchange |

**Sardar Hukam Singh:** Is the Government aware that under these new exchanges, frequently subscribers do not get the numbers that they want?

**Shri Khurshed Lal:** In the new exchanges?

**Sardar Hukam Singh:** Yes, Sir.

**Shri Khurshed Lal:** No instance has come to my knowledge of such troubles in the new exchange, but there are troubles on the old exchange.

**Prof. N. G. Ranga:** This Ministry seems to be strangely ignorant of everything.

**Mr. Speaker:** Order, order.

**Sardar Hukam Singh:** Has the Government noted a suggestion in a weekly that Government should prepare a new directory giving wrong numbers so that the subscribers may get the correct ones?

**Mr. Speaker:** Order, order.

**Shri H. V. Kamath:** Is the number of operators in every exchange adequate to their task? Are there a sufficient number of operators?

**Shri Khurshed Lal:** The automatic exchanges do not require many operators. At the manual exchanges we have as many operators as are necessary.

**Shri H. V. Kamath:** Is the Minister aware that in the Constitution House exchange there is only one operator at times who is not very mindful of his task?

**Mr. Speaker:** Order, order.

#### PRODUCTION AND IMPORT OF FOODGRAINS

\*272. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Food be pleased to state the estimated internal production of foodgrains for the year 1947-48, the actual procurement and the reasons for the difference?

(b) Was there any increase in the quantity and price of imported foodgrains as compared to the previous year, and if so, what are the reasons for the same?

(c) What amount, if any, was spent by the Government of India in subsidizing imported foodgrains to make them available at lower prices to the consumers?

(d) What were the prices of wheat, rice, other coarse grains and pulses in March 1948 and what are their present prices? What are the causes of their increase and what steps are Government taking to bring down these prices?

**The Honourable Shri Jairamdas Doulatram:** (a) The total internal production of the major foodgrains during the year 1947-48 was 42.6 million tons. The actual procurement amounted to 2.5 million tons. The comparative failure of the large rice crop in Madras, damage by floods in other areas and the rise in prices prevented procurement reaching the target of 3.8 million tons fixed for the year 1947-48.

(b) There was an increase in imports during the year 1947-48 as compared to the year 1946-47; and this, along with increase in the world price of imported grains, led to increase in the price paid for imported foodgrains. The increase in imports was partly due to crop failure in Madras, and partly to the extension of the system of Relief Quota Shops to protect the weaker section of the people against the effect of high prices.

(c) Rs. 17.12 crores.

(d) A statement showing the average wholesale prices of cereals and pulses at the end of March 1948 and December 1948 is laid on the table of the House. The main factors which influenced the price position during 1948 were: (i) the general inflationary situation, (ii) the overall shortage of foodgrains in the country, (iii) the shortfall in the out-turn of rice and millets in Madras during 1947-48, (iv) the below average crop of wheat in the country during 1947-48, and (v) the abandonment of control.

In order to check any further rise in prices of foodgrains, the Government of India have adopted the policy of progressive re-control which has, as its objective, the achievement, under Central direction and co-ordination, by October 1949, of the same position regarding monopoly procurement and extent of rationing as existed in November 1947.

#### STATEMENT

*Average wholesale prices of cereals and pulses at the end of March and December 1948*

(In rupees per maund)

**Shri Deshbandhu Gupta:** May I know if gram is included in the list of foodgrains which have been procured?

**The Honourable Shri Jairamdas Doulatram:** This year it has been included.

**Shri Deshbandhu Gupta:** May I know if the Honourable Minister is aware of the fact that lakhs and lakhs of maunds of gram is lying waste in East Punjab and the Patiala States and there is nobody to take it?

**The Honourable Shri Jairamdas Doulatram:** There are large quantities of gram available in East Punjab and now we have included in our basic plan that it is one of the grains which will be distributed through rationing.

**Shri Deshbandhu Gupta:** Will the Honourable Minister satisfy himself that by including it in the basic plan the large stocks of gram which are rotting will be purchased and made use of?

**The Honourable Shri Jairamdas Doulatram:** Arrangements are being made to purchase and prices have been fixed both for East Punjab and for the East Punjab States with a view to procurement of the gram and distribution to such parts of India as would consume it.

**Prof. N. G. Ranga:** Are arrangements being made to provide adequate transport facilities to move this gram from East Punjab to the other parts of India?

**The Honourable Shri Jairamdas Doulatram:** The maximum amount of transport facilities are being made available.

**Shri S. V. Krishnamoorthy Rao:** Has it come to the notice of the Government that the prices of foodstuffs have gone up after rationing has been re-introduced?

**The Honourable Shri Jairamdas Doulatram:** They have gone up slightly last month.

**Shri S. V. Krishnamoorthy Rao:** Were the Provincial Governments consulted before rationing was re-introduced?

**The Honourable Shri Jairamdas Doulatram:** Yes, there was a conference at which all the Provincial Premiers and the Ministers concerned were invited.

I think it took place in September last. In consultation with them the control was re-imposed.

**Shri O. V. Alagesan:** Who fixes the wholesale and retail prices in the Provinces?

**The Honourable Shri Jairamdas Doulatram:** The Centre fixes the issue prices after getting proposals from the Provinces.

**Shri L. Krishnaswami Bharathi:** Is it not a fact that the Madras Government or the Madras Premier was against the introduction of rationing and control?

**Mr. Speaker:** I do not think the question can be permitted.

**Shri S. V. Krishnamoorthy Rao:** May I know what steps are being taken to bring down the cost of foodstuffs?

**The Honourable Shri Jairamdas Doulatram:** I have stated it in my reply. The best step is control and we are re-introducing control.

**Shri O. V. Alagesan:** Are Government aware that there is a large margin of difference between the procurement prices and the retail prices, in some cases even to the extent even of 48 per cent., and that is the real cause for the increased price? Will Government take steps to bring down the margin to as small an extent as possible?

**The Honourable Shri Jairamdas Doulatram:** The difficulty is that if procurement prices are high, obviously we cannot reduce the prices through rationing. If our procurement price is too low there is difficulty with regard to securing foodgrains through procurement. We are trying to strike a proper mean in consultation with the Provinces.

**Shri K. Hanumanthaiya:** Is it a fact that the Government is paying higher rates for imported foodgrains than for internally procured foodgrains?

**The Honourable Shri Jairamdas Doulatram:** I could not say straight off, it may be possible that in some regions the prices may be lower. But it is all a question of being able to procure.

**Shri Mihir Lal Chattopadhyay:** The Honourable Minister stated just now that in view of the fact that the procurement price is higher, the rationing prices are higher.

**The Honourable Shri Jairamdas Doulatram:** Not the high price of procurement, but the complaint is that the procurement prices are low and if we raise that with a view to tally with the prices in the market, then we would not be able to reduce the prices for the people.

**Mr. Speaker:** I am afraid we are entering into arguments. I do not propose to allow questions by way of arguments. What is the information which the honourable members want?

**Shri Mihir Lal Chattopadhyay:** I should like to know the reason why the procurement price of rice in Bengal being Rs. 12-12-0 the sale price by Government is Rs. 19-0-0?

**The Honourable Shri Jairamdas Doulatram:** I will require notice for that.

**Ch. Ranbir Singh:** Has the procurement price of gram been fixed for East Punjab and East Punjab States?

**The Honourable Shri Jairamdas Doulatram:** Yes.

**Ch. Ranbir Singh:** May I know what the price is?

**The Honourable Shri Jairamdas Doulatram:** I could not tell you from memory, because prices are fixed for so many centres.

## IMPORT OF FOOD GRAINS BESIDES ALLOTMENTS BY F. A. O.

\*273. **Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Food be pleased to state whether the Government of India are negotiating for the import of foodgrains independently of the allotment made by the F.A.O. and if so, from which countries, in what quantities and on what terms?

**The Honourable Shri Jairamdas Doulatram:** The F.A.O. does not make allotments of foodgrains directly. The I.E.F.C. which works under its auspices is concerned with allotments and it makes certain recommendations regarding cereals other than rice which may be imported by member countries. Thereupon it is left for the importing country and the exporting country to negotiate terms and quantities within the broad pattern laid down by the I.E.F.C. As regards rice the I.E.F.C. makes specific allocations detailing the quantity which may be imported by each member country and in respect of this commodity there are no negotiations regarding quantities but only those about terms. Negotiations to secure the quantities recommended by the I.E.F.C. are a continuing process and the possibilities in all exporting countries are under continuous consideration. A decision as to terms has to be taken on each occasion on the circumstances of the case. I regret it would not be in the public interest to give a description of the terms on which we are making negotiations with each country.

**Prof. N. G. Ranga:** Is there any chance of the International Wheat Agreement coming to be accepted and the price of wheat being brought down?

**The Honourable Shri Jairamdas Doulatram:** There is every chance.

**Prof. N. G. Ranga:** What is it that the Government of India is doing in order to promote the acceptance of this Agreement?

**The Honourable Shri Jairamdas Doulatram:** Government of India have got their representatives at the Conference and they are trying their best to see that the Agreement goes through.

**Shri Mihir Lal Chattopadhyay:** May I know what was the lowest rate at which rice was purchased from outside last year?

**The Honourable Shri Jairamdas Doulatram:** I would not be able to give the figures straightaway. There are so many separate transactions.

**Prof. N. G. Ranga:** Have Government any information when this Agreement is going to be placed before the American Congress for its acceptance?

**The Honourable Shri Jairamdas Doulatram:** It would be placed after it is concluded. It is not yet concluded.

## FOOD GRAINS RESERVE AT CENTRE

\*274. **Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Food be pleased to state whether the Government of India intend to stick to their previous policy of building up a reserve stock of food grains at the Centre according to the recommendations of the Foodgrains Policy Committee to meet the demand from the Provinces and if so, what steps have been taken in that direction?

**The Honourable Shri Jairamdas Doulatram:** Yes, it is still the Government of India's policy of building up a central reserve of foodgrains. In 1948, however, a central reserve could not be built up as supplies to deficit provinces and states had to be increased beyond the figures suggested by the Foodgrains Policy Committee. As the honourable member is aware, prices began to rise during 1948 and to keep the situation under check relief quota shops had to be set up necessitating additional supplies from the Centre. An attempt will be made during 1949 to build up reserves if price and other considerations are favourable.

**Shri L. Krishnaswami Bharathi:** What is the present stock position? Is there any stock at the Centre? Has it been built up?

**The Honourable Shri Jairamdas Doulatram:** We have got a stock in the Centre.

**Shri L. Krishnaswami Bharathi:** What is exactly the position? What is the total amount in stock at the Centre?

**The Honourable Shri Jairamdas Doulatram:** At present it may be round about ten to twenty thousand tons, but it is a continuing process; foodgrains are coming in and are being distributed.

**Prof. N. G. Ranga:** What steps do Government of India take in order to see that all the foodgrains which the peasants are prepared to place in the market are purchased on Government account in all the provinces as and when they are coming in soon after the harvest?

**The Honourable Shri Jairamdas Doulatram:** That is a matter for the Provincial Governments and I expect the Provincial Governments are making their best efforts to procure, but it is also true that in some parts of the country the cultivators are not co-operating.

**Prof. N. G. Ranga:** Have Government any information that some of the Provincial Governments have given instructions to some of their officers that they need not be in any great haste in purchasing foodgrains just now, because peasants are too anxious to supply them at as low a price as possible?

**The Honourable Shri Jairamdas Doulatram:** Government are not aware.

**Prof. N. G. Ranga:** Will Government enquire?

**The Honourable Shri Jairamdas Doulatram:** Certainly, if the reference is to Madras.

**Prof. N. G. Ranga:** But is it not a fact that Government of India have received representations from various organisations, including the organisation which I myself represent, that that is being done in Madras.

**The Honourable Shri Jairamdas Doulatram:** Government have received their representations.

**Prof. N. G. Ranga:** What action have Government taken?

**Mr. Speaker:** Let him not pursue his representations here.

**Shri H. V. Kamath:** What is the reserve contemplated? Is any target fixed by Government?

**The Honourable Shri Jairamdas Doulatram:** No definite target is fixed for this particular year. It will depend on how much we are able to procure from the country and how much we are able to import from outside. We do contemplate building reserves.

## EXTENSION OF RATIONING SYSTEM

\*275. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Food be pleased to state what are the future plans of the Government of India in respect of the extension of rationing—complete or partial—in the different provinces and by which time is this likely to be carried out completely?

(b) What area and what extent of population are likely to remain outside the proposed system of rationing and what steps have Government taken or are intending to take to ensure supply of food to the areas not covered by the rationing system?

**The Honourable Shri Jairamdas Doulatram:** (a) The future plan of the Government of India in respect of the extension of rationing is embodied in the decision taken in September, 1948, to achieve by October, 1949, the same position in regard to food control and rationing that existed in November, 1947,

prior to the adoption of the policy of decontrol. This policy of extending rationing will obviously depend on the stock position in the different areas, and for this reason the period of time taken by different Provinces and States to extend rationing is likely to vary. A statement is laid on the table of the House, indicating the position in regard to extension of rationing in each Province and State.

(b) The information required is contained in the Statement I have laid on the table of the House. For areas not covered by the rationing system, Governments will adopt a system of relief quota shops, and supplies through these shops will be made according to requirements as far as available resources of grains permit.

#### STATEMENT

*Present position of rationing in different Provinces/States*

| Serial No. | Province/ Administration | Position regarding re-introduction of rationing                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|------------|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1          | Assam                    | Before decontrol, Assam had statutory rationing in 13 towns, but during the period of decontrol rationing continued only in 4 towns (Shillong, Gauhati, Dibrugarh and Tinsukia) and controlled distribution in 8 towns. Statutory rationing has now been extended to one more town and will be extended to one more town if considered necessary.<br>The organised industries (viz. the Tea Industry) and Railways have their own scheme of rationed distribution.<br>Controlled distribution is in force in the deficit areas not under statutory rationing.                                                                                                                                                                 |
| 2          | West Bengal              | Before decontrol, West Bengal had statutory rationing in 14 towns, including the Calcutta Industrial Area, Darjeeling, Kurseong and Kalimpong and non-statutory rationing and controlled distribution in 12 towns and deficit rural areas. During the period of decontrol rationing continued in these 4 towns. Statutory rationing may be extended to 10 more towns from February, 1949, thereby bringing the statutory rationed population to the same level as it was before decontrol. These ten towns are: Jalpaiguri, Asansol, Kharagpur, Nabidwip, Shantipur, Ranaghat, Krishnagar, Basirhat, Midnapore and Berhampore.<br>There are Relief Shops in 22 towns and 5,377 villages, covering a population of 28.9 lakhs. |
| 3          | Bihar                    | Bihar had statutory rationing in 8 towns and in some rural areas and controlled distribution in 23 towns. These were derationed during decontrol. Rationing has been reimposed in Jamshedpur from 3rd November 1948.<br>There are Relief Quota Shops in 51 towns and 4,589 villages, covering a population of 23½ lakhs.                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4          | Bombay                   | Before decontrol, Bombay had statutory rationing in 8 cities, and 111 towns, and non-statutory rationing practically in the rest of the Province. During the period of decontrol, statutory rationing continued in 4 cities, i.e., Greater Bombay, Ahmedabad, Poona and Sholapur. Other rationing commitments were withdrawn, but Relief Quota Shops were opened. Statutory rationing has been reimposed in 47 villages of the Bombay Suburban Districts from 19th December 1948, Surat from 26th December 1948, and Balsar, Godhra, Toldad and Thana towns from 1st January 1949.                                                                                                                                            |

| Serial No. | Province/ Administration | Position regarding re-introduction of rationing                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|------------|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            |                          | Rationing will be introduced according to the following programme:—<br>First-grade derationed towns, viz., Galgaon, Bhugwal, Dhulia, Malegaon, Bijapur, Dharwar and Gadag by 15th February 1949 (covering a population of 5 lakhs).<br>The remaining derationed towns by 15th March 1949 (covering a population of about 11.75 lakhs).<br>At present no partial rationing exists anywhere but the eligible population of the province, viz., 70 lakhs having those under statutory rationing are being catered for by Rural Distribution Centres (previously Relief Quota Shops).                                                                                                                                                                                                                                          |
| 5          | C. P.                    | Had statutory rationing in 2 towns, and non-statutory rationing and controlled distribution in 62 towns before decontrol but these were derationed during the period of decontrol.<br>C. P. originally decided not to reintroduce rationing in the Province, but due to the heavy rains in November 1948, and damaged crops, they are re-examining the position and the question of introducing monopoly procurement and statutory rationing.<br>At present about 1670 Fair Price Shops function throughout the province except in the merged States and foodgrains are distributed especially to needy and poor consumers which are nearly 56 lakhs.                                                                                                                                                                      |
| 6          | Madras                   | Before decontrol, Madras had statutory rationing in 85 towns and rural areas of the Malabar District, and non-statutory rationing in the rest of the Province of which all except 18 towns and 2 rural districts were derationed during decontrol. Statutory rationing has been introduced from 5th December 1948 in the 7 districts of Cuddapah, Kurnool, Bellary, Anantapur, South Arcot, South Kanara, and Tiruchirappalli.<br>Rationing may not be introduced in the surplus districts like Tanjore, East and West Godavari, unless it is found necessary to do so, owing to unforeseen circumstances.<br>The remaining parts of the Province will be under rationing by 1st April 1949.<br>There are Relief Quota Shops in 27 towns and some villages, covering a population of about 143 lakhs (in terms of adults). |
| 7          | Orissa                   | Before decontrol, Orissa had 18 towns under non-statutory rationing, and wheat and rice were the only rationed articles. At present only wheat is issued to habitual wheat-eaters in all towns on the basis of ration cards. As there is no town of any magnitude in Orissa, the local Government do not consider necessary to have regular rationing of rice or paddy in which the province is surplus:—                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 8          | East Punjab              | Before decontrol, East Punjab had statutory rationing in 16 towns, and non-statutory rationing and controlled distribution in some areas. All these were derationed during decontrol.<br>East Punjab has introduced statutory rationing in the following 10 towns from 1st January 1949:—<br>Amritsar, Jullundar, Hoshiarpur, Ferozepur (Cantt. and City), Ludhiana, Ambala (Cantt. and City), Gurdaspur, Batala, Pathankot and Dharamsala.<br>There are Relief Quota Shops in 17 towns, from which Government stocks are distributed, covering a population of about 7.7 lakhs. Supplies are also being made to deficit rural areas from Government stocks to a limited extent.                                                                                                                                           |

| Serial No. | Province/ Administration | Position regarding reintroduction of rationing                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| 9          | U. P.                    | <p>Before decontrol, U. P. had statutory rationing in 52 towns and controlled distribution in 19 towns and rural areas. These were derationed during the period of decontrol, and partial rationing was introduced through Relief Quota Shops. Now there are Relief Quota Shops in 33 towns, covering a population of about 40 lakhs.</p> <p>From 16th January 1949, ration is being issued to the whole of the population of the rationed towns, instead of to persons drawing Rs. 100/ or less per month, under the partial rationing scheme which will not cover rationing of Establishments, Bakers and Visitors, and the open market will not be closed. As the rationing commitments depend on imports from outside the Province, the rationing arrangements as before can be made only as soon as the resources permit, but no major step can be taken until U. P.'s Rabi procurement by May 1949.</p> |
| 10         | Ajmer-Merwara            | <p>Before decontrol, there was statutory rationing in 3 towns, non-statutory rationing in 2 towns and controlled distribution in 2 towns but during the period of decontrol only one (Ajmer City) continued to remain under rationing.</p> <p>Statutory rationing has been reintroduced in Beawar on 18th October 1948, and in Nasirabad from 29th November 1948, and non-statutory rationing in Pushkar from 1st November 1948.</p> <p>From November 1948, supply of Government stocks of food-grains (Barley) is also being made to the rural areas of Beawar and Ajmer sub-Divisions where famine conditions prevail due to failure of Kharif Crop.</p> <p>Non-statutory rationing has been introduced in Bijainagar.</p>                                                                                                                                                                                  |
| 11         | Delhi                    | <p>Before decontrol, there was statutory rationing in 3 towns, i.e., Delhi, New Delhi and Delhi Cantt., and 4 rural areas. During the period of decontrol, statutory rationing continued only in Delhi urban area, Shahdara and Mehrauli.</p> <p>It has been proposed that rationing should be introduced immediately in Narela and Najafgarh villages from where it was withdrawn during the decontrol period, and also in other rural areas where rationing is considered necessary.</p> <p>There are Relief Quota Shops in villages, covering a population of about 18,000. These grain shops will be allowed to function in the non-rationed areas.</p>                                                                                                                                                                                                                                                   |
| 12         | Coorg                    | The Coorg Government propose to reintroduce from 1st March 1949 the same non-statutory system of rationing which was in force before the decontrol.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 13         | Himachal Pradesh         | Out of 21 States comprising the Himachal Pradesh, there was statutory rationing only in one place (Nahan) in Sirmur State, and non-statutory rationing and controlled distribution in 2 places (Solon and Chamba) and some rural areas. Statutory rationing has been introduced in 4 towns from 8th January 1949 and partial rationing in 6 towns.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 14         | Kutch                    | There is no statutory rationing in Kutch but there is controlled distribution in 4 towns of Bhuj, Mandvi, Anjar and Mundra (with a population of 1 lakh), and foodgrain is issued on the basis of family ration cards. Controlled distribution also exists in rural areas (with a population of 5 lakhs).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 15         | Andaman & Nicobar        | Statutory rationing was not discontinued during the period of decontrol, and still continues.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| Serial No. | States     | Position regarding reintroduction of rationing                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 1          | Mysore     | <p>Before decontrol, Mysore had statutory rationing in 19 towns, but during decontrol statutory rationing continued only in 4 towns (Bangalore City including Bangalore Civil Station Mysore City, Kolar Gold-fields and Davangere).</p> <p>There is "Informal rationing" of controlled foodgrains in other parts of the State, and the old ration shops are operating as Relief Shops, issuing to consumers to the extent absolutely necessary subject to stocks being available.</p> <p>It is proposed to reintroduce complete rationing on predecontrol lines in the whole of the State before October 1949.</p> |
| 2          | Travancore | Statewide statutory rationing, which was in force before the decontrol, still continues.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 3          | Cochin     | Ditto                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 4          | Baroda     | <p>Before decontrol, it had statutory rationing in 2 towns and some rural areas, and non-statutory rationing in 5 towns and some rural areas, and controlled distribution in 42 towns and rural areas. Statutory rationing still continues in 2 towns and some rural areas (in Baroda City and Okhamandal District). Proposed to extend rationing in big towns when stock position permits.</p> <p>Relief quota shops are functioning in 4 districts covering a population of about 27 lakhs.</p>                                                                                                                   |
| 5          | Kashmir    | <p>There was non-statutory rationing in Srinagar and Jammu, and controlled distribution in 6 towns and 13 rural areas before the decontrol period. Rationing was not discontinued during the decontrol period.</p> <p>Steps are being taken to improve the system of rationing as in other parts of India and to ensure supplies to all needy areas.</p>                                                                                                                                                                                                                                                            |
| 6          | Rampur     | <p>Before decontrol, there was only controlled distribution (partial rationing) in Rampur Town, which was withdrawn during the decontrol and Relief Quota Shops were opened.</p> <p>Rampur Government is closely following the U. P. Government. Partial rationing (Relief Quota Shops) has been introduced in Rampur Towns for persons with a monthly income of Rs. 100 and less.</p>                                                                                                                                                                                                                              |
| 7          | Sirohi     | <p>Before decontrol statutory rationing existed in 4 towns, and controlled distribution in 25 rural areas. All these, except Abu (leased area) were derationed.</p> <p>Rationing continues in 4 towns and will be shortly extended to more towns. Further extension of rationing will depend on improvement in the local stock position.</p> <p>Sirohi has now merged in Bombay Province.</p>                                                                                                                                                                                                                       |
| 8          | Junagadh   | <p>Before decontrol there was statutory rationing in 2 towns and controlled distribution in 9 towns and some rural areas. During decontrol Relief Quota Shops were opened. Now there are Relief Quota Shops in 15 towns and 813 villages covering a population of about 3 lakhs.</p> <p>This State has now merged into Saurashtra.</p>                                                                                                                                                                                                                                                                              |
| 9          | Saurashtra | <p>Necessary steps are being taken to start rationing in four district towns of Rajkot, Bhavnagar, Jamnagar and Wadhwan. It will be gradually extended to towns having a population of 10,000. There are Relief Quota Shops in 30 towns and 4,000 villages, covering a population of 25 lakhs.</p>                                                                                                                                                                                                                                                                                                                  |

| Serial No. | State           | Position regarding re-introduction of rationing                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 10         | Hyderabad(Dn).  | Before decontrol, there was statutory rationing in 22 towns, and controlled distribution in some rural areas. Even during the decontrol period, rationing continued in the cities of Hyderabad, Secunderabad, Warangal, and the urban areas of Khammam, Singreni and Bellampally Collieries.<br>Proposal to extend rationing in all towns with a population of 20,000 or over is under consideration.                                                                                                                                                                                                                                                                                                                                      |
| 11         | Madhya Bharat   | Indore City—the largest town in the Madhya Bharat—continues to be statutorily rationed from the pre-decontrol period. At present partial rationing also exists in 3 towns and Relief Quota Shops in 7 towns.<br>It is proposed to extend gradually statutory rationing to 4 more important towns (viz. Gwalior, Ujjain, Mhow and Ratlam) and, if found necessary, also in towns with a population of 40,000. (This will be done cautiously as the Madhya Bharat Government have no surplus stocks. They hope that they will be able to produce their own consumption requirements by the end of this Faslī year.)                                                                                                                          |
| 12         | Jaipur          | Before decontrol there was statutory rationing in Jaipur City only. At present there is only controlled distribution (through Government Grain Shops) in Jaipur City and 10 districts, Sheikwati Districts, Khetri and Sikar, and other deficit parts, but not statutory rationing for want of sufficient stocks. It was understood from their representative that statutory rationing will be introduced in Jaipur City by the end of July 1949 and that it will be extended gradually to other big towns.<br>Cheap Grain Shops exist in Jaipur City and 10 districts, covering a population of 16 lakhs.                                                                                                                                 |
| 13         | Jodhpur         | Before decontrol Jodhpur City was under statutory rationing and there was controlled distribution in 29 other towns. All rationing was withdrawn during the decontrol but controlled distribution was introduced in Jodhpur City from June 1948 which was gradually extended. At present there is controlled distribution in Jodhpur City and 12 towns, and to all Central Government servants in P. & T. Offices, etc. The intention is to reintroduce statutory rationing in Jodhpur City during February 1949 and to extend the controlled distribution to other areas subject to availability of stocks.<br>Due to damage to crops famine conditions prevail in certain areas (12 districts) which are fed through Relief Quota Shops. |
| 14         | Bikaner         | Before decontrol there was statutory rationing in Bikaner Town and controlled distribution in 14 towns and some rural areas. It was derationed during the period of decontrol. Controlled distribution in Bikaner has since been taken in hand.<br>It is proposed to start statutory rationing in Bikaner Town and its suburbs with immediate effect and when this is completed statutory rationing will be extended to other urban areas.                                                                                                                                                                                                                                                                                                 |
| 15         | Jaisalmer       | There is controlled distribution of imported foodgrains in Jaisalmer Town, and it has been extended throughout the State.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 16         | Rajasthan Union | Before decontrol, statutory rationing existed in 11 towns, non-statutory rationing in 6 towns and some rural areas, and controlled distribution in 33 towns and some rural areas. These were derationed during the period of decontrol.<br>Proposals for re-rationing are awaited.                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 17         | Matsya Union    | Before decontrol, there was statutory rationing in one town (Bharatpur), and non-statutory rationing in one town (Alwar) which were derationed during the period of decontrol.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| Serial No. | States                    | Position regarding re-introduction of rationing                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 18         | Vindhya Pradesh           | Rationing of imported foodgrains has been enforced with effect from 1st November 1948 but this was restricted to Government servants as the stocks of imported wheat were insufficient for rationing of the general public.<br>Partial rationing now exists in 7 towns.<br>Before decontrol, there was statutory rationing in 6 towns and rural areas, non-statutory rationing in one town and controlled distribution in 5 towns and rural areas. Being a surplus area, Vindhya Pradesh do not propose to introduce rationing.<br>Controlled distribution exists in 2 towns. |
| 19         | Kolhapur                  | Before decontrol, there was statutory rationing in 4 towns, and non-statutory rationing in rural areas. Statutory rationing continues in Kolhapur City.<br>Fair price shops (foodgrains) are being opened in the District areas of the State.                                                                                                                                                                                                                                                                                                                                 |
| 20         | Patiala and E. P. States. | Before decontrol, there was non-statutory rationing in 4 towns and rural areas, and controlled distribution in 3 towns.<br>The East Punjab States Union have agreed to impose price control as obtaining in East Punjab. They are also considering the proposal of opening Relief Quota Shops in deficit urban areas.<br>The Patiala Union is introducing partial rationing in 11 towns of the Union.                                                                                                                                                                         |
| 21         | Tehri-Garhwal             | Before decontrol, they had statutory rationing in 4 towns, and non-statutory rationing in 22 towns. Partial rationing is being introduced in 5 towns.                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 22         | Benaras                   | Had originally non-statutory rationing in 2 towns. Have agreed to have maximum rationing. Details of their programme are awaited.                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 23         | Cooch Behar               | Before decontrol, the State had statutory rationing in 5 towns, non-statutory rationing in 90 villages and controlled distribution in rural areas.<br>Propose to introduce rationing for nearly 50,000 persons living in the urban areas. Further details awaited.                                                                                                                                                                                                                                                                                                            |

**Seth Govind Das:** Is it not a fact that there are some provinces, for instance, my own province, which do not want rationing, and is rationing going to be imposed on those provinces also who do not want any rationing?

**The Honourable Shri Jairamdas Doulatram:** We have not decided to impose rationing on C. P.

**Seth Govind Das:** I wanted to know if rationing would be imposed on C. P. or on similar provinces who do not want to have any rationing?

**The Honourable Shri Jairamdas Doulatram:** As I said, C. P. has desired that they do not want to ration the population and we are not imposing our view on them.

**Seth Govind Das:** Is there any other province like C. P. which does not want rationing?

**The Honourable Shri Jairamdas Doulatram:** I think there is possibly Orissa.

## TEXTILE PRODUCTION CONTROL COMMITTEE

\*276. Pandit Mukut Bihari Lal Bhargava: (a) Will the Honourable Minister of Industry and Supply be pleased to state whether any Textile Production Control Committee was formed; and, if so, what are the details of its functions and constitution?

(b) Has it submitted its report and have the recommendations made by it been partially or wholly accepted and implemented by the Government of India?

(c) What role, if any, is this body likely to play in the future determination of the textile policy of Government?

The Honourable Dr. Syama Prasad Mookerjee: (a) Yes, Sir. The functions and the constitution of the Committee are given in the Government of India, Ministry of Industry and Supply, Resolution No. 80 (3)-Tex. I/48, dated the 22nd October 1948, a copy of which is placed on the table of the House.

(b) The report submitted by the Committee is now under examination of the Government.

(c) The Committee was appointed for the specific purpose of going into certain problems connected with the production of cotton textiles in the country. Having submitted its report, the committee has performed the task allotted to it, though it will be open to Government to consult it further on any point arising out of its report or connected with its terms of reference.

No. 80(3)-Tex. I/48  
GOVERNMENT OF INDIA

## MINISTRY OF INDUSTRY AND SUPPLY

## RESOLUTION

New Delhi, the 22nd October, 1948.

The Government of India have had under consideration the question of introducing a measure of technical control over the production of cloth in mills. This question was discussed with the Textile Advisory Committee at its meeting held on the 24th September, 1948. In accordance with the advice given by the Committee, Government propose to introduce immediately certain tentative measures of control intended to secure the production of durable varieties of cloth. Government have also accepted the recommendation of the Textile Advisory Committee that a special committee should be set up to examine these tentative measures as also other suggested steps and to advise the Government on the measures of technical control which should be adopted.

2. In accordance with this decision the Government of India have constituted a Committee, consisting of the following:

- (1) Mr. T. Sivasankar, I.C.S., Director General of Disposals—*Chairman*.
- (2) Mr. Ambalal Sarabhai (Member, Textile Advisory Committee).
- (3) Sir James Doak (Member, Textile Advisory Committee).
- (4) Mr. Neville Wadia (Member, Textile Advisory Committee).
- (5) Mr. S. C. Roy (Member, Textile Advisory Committee).
- (6) Mr. Khandubhai Desai, M.C.A. (Member, Textile Advisory Committee).
- (7) Mr. Chandulal P. Parikh, M.L.A. (Bombay).
- (8) Mr. T. P. Barat, M.B.E., Textile Commissioner.
- (9) Mr. B. D. Pande, I.C.S., Provincial Textile Controller of Bihar—*Members*.

3. Mr. S. N. Das Gupta, Director of Textile Production, will act as Secretary to the Committee.

4. The terms of reference of the Committee will be as follows:

- (a) To examine the tentative measures of control over production, which have been introduced, and to advise Government as to the measures necessary for securing the production of durable varieties of cloth.

(b) To examine proposals for the restriction or prohibition of the production of fine and superfine varieties of cloth and to advise Government on the following matters:

- (i) whether restriction or prohibition of superfine and fine varieties will increase total production of cloth, and, if so, to what extent;
  - (ii) whether and to what extent demand for cloth will be reduced and controlled distribution facilitated by the restriction or prohibition of the production of fine and superfine varieties;
  - (iii) whether restriction or prohibition of the manufacture of fine and superfine varieties is practicable in view of the present and prospective supplies of cotton;
  - (iv) what the effect of such restriction or prohibition would be on the progress and development of the textile industry in India;
  - (v) whether the spinning of finer yarn should be in any case for meeting the requirements of the handloom industry;
- (c) Whether it is desirable and practicable to rationalise and restrict the varieties of cloth produced, and, if so, what the varieties produced should be.

5. The Committee will submit their report to the Government of India by the 31st December, 1948.

S. A. VENKATARAMAN,  
*Secretary to the Government of India.*

## TECHNICAL MISSIONS FROM CZECHOSLOVAKIA AND BELGIUM

\*277. Prof. N. G. Ranga: (a) Will the Honourable Minister of Industry and Supply be pleased to state whether the Technical Missions from Czechoslovakia and Belgium have submitted any reports to Government?

(b) For how long did they study our technical equipment, organisation and possibilities?

(c) What are their main recommendations?

The Honourable Dr. Syama Prasad Mookerjee: (a) The Czechoslovakian Technical Mission submitted a report to the Government of India.

The Belgian Mission was not a technical mission but only a fact-finding trade mission sent by the Belgian Government to enquire into the possibilities of obtaining their requirements from India and to ascertain the nature of India's requirements which Belgium could meet. This Mission was, however, given an opportunity to visit certain factories in this country.

(b) The former studied the industrial conditions in India for about six weeks. The Belgian Mission stayed in India for about seven weeks.

(c) The Czechoslovakian Technical Mission's main recommendations relate to the utilisation of low-grade coal in boilers and for the production of synthetic fuels and fertilizers. The other Mission did not make any recommendations.

Shri H. V. Kamath: Did these missions come to India at the invitation of Government?

The Honourable Dr. Syama Prasad Mookerjee: We did not extend the invitation but we were informed that they were willing to come and we gave them the facilities as I have described.

Shri H. V. Kamath: Informed by whom?

The Honourable Dr. Syama Prasad Mookerjee: In one case by the Belgian Government and in the other case by the Synthetic Metal and Engineering Works, Prague, which is the top co-ordinating organization of Mechanical and Electrical companies in that country.

Prof. N. G. Ranga: Are any negotiations being carried on in the light of their recommendations with the Czechoslovakian firm in order to establish in this country at an early date a synthetic fuel and fertiliser plant?

**The Honourable Dr. Syama Prasad Mookerjee:** We were particularly attracted by their proposal for the utilization of low grade coal and at their suggestion, we have sent sample quantities of low grade Indian coal to Czechoslovakia which has arrived there and I am expecting that the report will be in our hands in the course of the next few weeks. We have got certain alternative offers from Switzerland as well and both these are now under examination.

**Shri H. V. Kamath:** Have they offered any assistance in the establishment of steel factories under contemplation?

**The Honourable Dr. Syama Prasad Mookerjee:** So far as steel factories are concerned, we are awaiting the report of the three consultants which we had appointed and after we receive them in the course of this month, we will be able to decide whose help we will require for the purpose of establishing the steel factories.

**Shri H. V. Kamath:** Will that report be placed on the table of this House?

**The Honourable Dr. Syama Prasad Mookerjee:** Yes, in due course.

#### CO-OPERATIVE SOCIETIES OF SALT PRODUCERS

**\*278. Prof. N. G. Ranga:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the number of licences which have been given to co-operative societies of salt producers and the names of the provinces to which such societies belong?

(b) What encouragement is being given by Government to these co-operative societies?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The total number of licences issued so far to co-operative societies of salt producers, since 1945 is as under:

|                  |   |
|------------------|---|
| Orissa . . . . . | 2 |
| Madras . . . . . | 2 |
| Bombay . . . . . | 1 |

(b) As a normal rule preference is now given to co-operative societies over all others in the allotment of salt lands for starting new factories. Lands are normally assigned to co-operative societies free of any lease money. Requests coming from co-operative societies for technical guidance about process of manufacture, for transport facilities, etc., are given special attention.

**Prof. N. G. Ranga:** Are Government considering giving any financial credit facilities also?

**The Honourable Dr. Syama Prasad Mookerjee:** We refer those cases to the Provincial Governments but we have not yet considered the question of granting financial facilities from the Centre.

**Shri O. V. Alagesan:** After the announcement of the new policy, what is the additional acreage that has been brought under salt production?

**The Honourable Dr. Syama Prasad Mookerjee:** I have not got the additional acreage figure here but the production of salt in 1948 has gone up by nearly about 20 per cent. and the other directions which we have issued will help India in becoming self-sufficient in the course of 1951.

**Dr. Mono Mohan Das:** What is the amount of salt imported into India during the current year?

**The Honourable Dr. Syama Prasad Mookerjee:** I suppose the honourable member refers to 1948?

**Dr. Mono Mohan Das:** Yes.

**The Honourable Dr. Syama Prasad Mookerjee:** About 75 lakh of maunds in the course of 1948.

**Dr. Mono Mohan Das:** What steps have been taken or proposed to be taken by Government to make this country self-sufficient in salt?

**The Honourable Dr. Syama Prasad Mookerjee:** As I have said just now, in the course of 1948 we were definitely able to increase salt production by 20 per cent. and all the other steps that we have taken will help us in making India self-sufficient by 1951. Also we have reduced imports from foreign countries. We are having large imports from Indian provinces and places such as Tuticorin.

**Dr. V. Subramaniam:** What is the quantity of rock salt dug out or manufactured in India?

**The Honourable Dr. Syama Prasad Mookerjee:** No rock salt.

**Prof. N. G. Ranga:** Have any new applications been granted after the announcement of the new policy?

**The Honourable Dr. Syama Prasad Mookerjee:** We have a number of cases now under examination but in some cases the parties were not recommended by the Provincial Governments. As I have already stated, it is the policy of the Government to encourage the grant of new licenses to co-operative societies particularly those organised by workers themselves.

**Prof. N. G. Ranga:** Is it a fact that some of these cases have been and are being considered for the last one year?

**The Honourable Dr. Syama Prasad Mookerjee:** We have disposed of a number of cases. The Orissa Government itself opposed the grant of license to a co-operative society and recommended the name of another party which we have accepted.

**Seth Govind Das:** Is it a fact that in spite of the increase of salt production in many provinces the prices go up considerably on account of want of supply and what steps Government are going to take to increase the transport facilities so that the salt may reach in all the places at proper time?

**The Honourable Dr. Syama Prasad Mookerjee:** So far as prices are concerned, they did go up early in 1948 but in the course of the year prices have definitely come down. The transport arrangements also have considerably improved. What we have done in consultation with the Transport Ministry is to have a scheme for regional distribution so that the supply is made by the producing centres to as near the distributing centres as possible.

**Seth Govind Das:** Is it a fact that even in the end of 1948 the prices of salt had gone up in several places, especially in C. P.?

**The Honourable Dr. Syama Prasad Mookerjee:** Prices have gone down. If there are any particular areas where the honourable Member specially refers, I shall be prepared to consider but I am in constant touch with the Provincial Governments and we have received no complaints from them for the last six months.

**Shri Biswanath Das:** Arising out of the statement made by the Honourable the Minister regarding the Government point of view and the steps being taken to encourage co-operative salt manufacture, may I know how long since that representations have been made by people from Orissa from different areas, to increase production and to increase manufacture of salt and with what result?

**The Honourable Dr. Syama Prasad Mookerjee:** As I have stated Sir, the application which we received for a large allotment was in respect of 1,200 acres from a co-operative society but that application was definitely opposed by the Provincial Government and we made the allotment to another private firm which was willing to help the Orissa Government in their scheme for heavy chemical industry. So far as the other application was concerned, that

was received too late but so far as the future possibility is concerned, the honourable member is himself in touch with my Department and we have promised all possible help to future applicants.

**Shri Biswanath Das:** Arising out of the reply just now emanated from the Minister, may I inform him that I am myself . . . .

**Mr. Speaker:** Order, order.

**Shri Biswanath Das:** May I know what definite steps are being taken by the Central Government to take care to see that the person that is proposed to be given monopoly in lease is able to put up the plant and factories that he has undertaken?

**Mr. Speaker:** The question hour is over.

### (b) WRITTEN ANSWERS

#### INDIA'S REQUIREMENTS OF FOODGRAINS

**\*279. Shri Upendranath Barman:** (a) Will the Honourable Minister of Agriculture be pleased to state what is the average per capita normal requirement of foodgrains?

(b) What is the total estimated production of foodgrains for 1949?

(c) What is the average wastage due to unsatisfactory storage conditions?

(d) How do Government propose to meet the estimated deficit in foodgrains for the year 1949, taking into account the average increase of population?

**The Honourable Shri Jairamdas Doulatram:** (a) The requirements are generally calculated on the basis of 16 ozs. per adult per day for the farm population which is 70 per cent. of the total population and 12 ozs. per day for the non-farm population equal to 30 per cent. of the total population. On this basis, total requirement of cereals in 1949 will be 45.4 million tons.

(b) It is not possible just now to make a reliable estimate of total production of foodgrains in 1948-49. Final figures have not yet been received. The estimates sent by Provinces and States indicate that subject to favourable season the production would be on the increase over the previous three years and would be 46.9 million tons for all cereals and gram including minor millets.

(c) The wastage varies from grain to grain. On an average an allowance of 2½ per cent. of the gross production is made as wastage on account of unsatisfactory storage.

(d) Government propose to meet the deficit by accelerating the implementation of the recommendations of the Food Grains Policy Committee in regard to improved farming, reclamation of waste-lands and multi-purpose irrigation projects and also by increase in tubewells. These all schemes are estimated to yield an additional annual yield of 9½ million tons. Besides these steps it is intended to increase the production of partially substitute foods like sweet potatoes and other root crops.

#### RECOMMENDATIONS OF DEVELOPMENT COMMITTEE FOR HEAVY CHEMICAL INDUSTRIES

**\*280. Prof. N. G. Ranga:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) what action has so far been taken on the recommendations of the Development Committee for heavy chemical industries;

(b) how much of our requirements are being produced by Indian enterprise; and

(c) whether there are any schemes, Government or otherwise, for expansion of these industries?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). Three statements giving the required information are laid on the table of the House.

(c) The only scheme that the Government of India has, is for the utilisation of calcium carbonate sludge which would be obtained as a by-product at the Sindri Fertiliser Factory, for the production of Soda Ash. As regards private schemes, Government have no ready information.

#### STATEMENT I

*Recommendations made at the first meeting of the Development Committee for the Heavy Chemical Industries held on 30th August, 1948 and action taken thereon.*

| Recommendations                                                                                                                                                                                                   | Action taken                                                                                                                                                                                                                                                                                   |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. The firms who hold licences for the import of Caustic Soda or Sulphuric Acid plant to be notified that their licences are likely to be cancelled if they do not show interest and place orders for equipments. | The firms have been notified and replies from some of them are still awaited.                                                                                                                                                                                                                  |
| 2. A plant for the production of acetic acid should be located in U. P. which is the centre of Alcohol production.                                                                                                | The U. P. Government has been addressed in the matter.                                                                                                                                                                                                                                         |
| 3. Standard for glue should be drawn up.                                                                                                                                                                          | Some members of the Committee have agreed to draw up the specification. Their suggestions are awaited.                                                                                                                                                                                         |
| 4. Production of carbon black and activated carbon should be taken up immediately.                                                                                                                                | A firm Messrs. Cochin Chemical Industries Ernakulam have reported that they have produced trial samples and normal production will be taken up shortly. A sample of activated carbon from the firm is being tested.                                                                            |
| 5. The question of utilisation of waste sulphur dioxide should be taken up with the India Copper Corporation.                                                                                                     | The matter has been investigated and it has been found that this sulphur dioxide waste cannot be utilised for the production of sulphuric acid due to want of market nearby and difficulties in the transport. The question of its utilisation in the production of sulphur is being explored. |
| 6. The question of using ammonium chloride as fertiliser should be taken up with the Ministry of Agriculture.                                                                                                     | This is being explored.                                                                                                                                                                                                                                                                        |

#### STATEMENT II

*Recommendations made at the second meeting of the Development Committee for the Heavy Chemical Industries held on 22nd January, 1949 and action taken thereon.*

| Recommendations                                                                                                                                                                                                                       | Action taken                                              |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|
| 1. Increased production of Sulphuric Acid is based on possible expansion in Health activities in the Provinces and States, hence the Ministry of Health should be advised to increase the consumption of alum for water purification. | The matter is being taken up with the Ministry of Health. |

## STATEMENT II—contd.

| Recommendations                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Action taken                                                                                                                              |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| 2. The Committee recommended that the Railways should be requested to provide adequate tank wagon facilities for the movement of Sulphuric Acid.                                                                                                                                                                                                                                                                                                                                                                                                            | The matter is being taken up with the Railway authorities.                                                                                |
| 3. The production of industrial salt may have to be subsidised and for the total industrial requirements of half a million tons of salt the cost to the Government on this account would be something like Rs. 1.5 crores per annum. This would be very considerably reduced if the location of the future industries were judiciously selected so that as little transport as possible of salt was involved, in which case the Committee felt that the total cost to the Government would perhaps be not more than half a crore of Rupees.                 | The question is being examined.                                                                                                           |
| 4. In view of the present stock of imported Soda ash, the Committee felt that the manufacturers would be unable to market their product unless some sort of control were exercised over the distribution of soda ash. It was, therefore, felt that either a system of 'Pool' should be created for soda ash as had been done in the case of Superphosphate or the Government, should restrict imports (as some members suggested) by insisting on a certain amount of purchase of indigenous soda ash as a condition precedent to granting future licences. | The matter is under consideration.                                                                                                        |
| 5. Increased use of Chlorine should be immediately found. No further licences for the production of Caustic Soda by electrolytic means should be given unless proper disposal arrangement for chlorine had been made. The Committee also felt that more emphasis should be laid on the production of caustic soda by causticising process till such time as the industry would be able to dispose of the entire amount of chlorine produced.                                                                                                                | The Committee was informed that (I. & S.) was following this policy and the committee approved the policy pursued by the D. G. (I. & S.). |
| 6. Bleaching powder manufactured at present is not of sufficient high strength and is further likely to deteriorate. All efforts should be made to develop manufacture of high based hypochlorate for utilising fully all the available free chlorine resources.                                                                                                                                                                                                                                                                                            | The industry is being advised accordingly. Some firms have already made enquiries about equipment from manufacturers abroad.              |
| 7. In view of the importance of Sodium Sulphide to various consuming industries, it was imperative that a definite decision should be taken by Jodhpur Darbar as early as possible regarding the availability of Sodium Sulphate at a reasonable price so that production of Sodium Sulphide could be stepped up.                                                                                                                                                                                                                                           | The matter has already been taken up with the Jodhpur Darbar who have been asked to expedite their decision.                              |

## STATEMENT III

Requirements and indigenous production of major heavy chemicals.

| Chemical                      | Annual Estimated requirements                                    | Quantity met by indigenous production |
|-------------------------------|------------------------------------------------------------------|---------------------------------------|
|                               | Tons.                                                            | Tons.                                 |
| 1. Sulphuric Acid . . . . .   | 80,000*                                                          | 80,000                                |
| 2. Caustic Soda . . . . .     | 70,000                                                           | 4,383                                 |
| 3. Soda Ash . . . . .         | 1,20,000                                                         | 28,200                                |
| 4. Liquid Chlorine . . . . .  | 1,800                                                            | 1,800                                 |
| 5. Bleaching Powder . . . . . | 15,000                                                           | 2,936                                 |
| 6. Bichromates . . . . .      | There is surplus production, 1,000 tons being exported annually. |                                       |

\*The deficiency in requirements of the above chemicals are met by imports.

## RELEASE OF IRON FOR MANUFACTURE OF AGRICULTURAL IMPLEMENTS

\*281. Prof. N. G. Ranga: Will the Honourable Minister of Industry and Supply be pleased to state:

(a) what accumulated stocks of iron were found with stockholders as at the end of December, 1948;

(b) whether such stocks would be released for the manufacture of agricultural implements; and

(c) whether such of the Rolling Mills as are willing to turn over their quota of iron for the production of agricultural implements, at prices slightly higher than the controlled prices but which are mutually agreed upon between the mills and the Kisan Congress, will be allowed to do so instead of using it for household purposes?

The Honourable Dr. Syama Prasad Mookerjee: (a) and (b). The stocks of steel held by controlled stockholders and registered stockholders at the end of December, 1948 amounted to 69,399 tons and 18,000 tons respectively. A part of the stock held by the controlled stockists is already earmarked against quota certificates issued by the Iron and Steel Controller and the balance is held as their working stock. The stocks held by registered stockists form part of the Provincial quota and are released by Provincial Governments, both for agricultural and non-agricultural purposes.

(c) Whether unregistered Re-rolling Mills can be permitted to use their products for fabrication of agricultural implements or their products should be distributed to other fabricators engaged in the manufacture of agricultural implements is a matter entirely for Provincial Governments to decide, as the control over distribution of the products of unregistered Re-rollers rests with the Provincial Governments in whose area the Re-rolling Mills are located.

Products manufactured by registered re-rollers who are controlled by the Central Government are distributed both for fabrication of agricultural implements as well as house building and other purposes and it is not possible to earmark the entire production of these Mills for fabricating agricultural implements only.

The question whether registered re-rollers should be permitted to fabricate from out of their products and if so, to what extent, is engaging the attention of Government.

## CLOSING OF COAL MINES IN BENGAL AND BIHAR

\*282. Prof. N. G. Ranga: Will the Honourable Minister of Industry and Supply be pleased to state:

(a) how many mines in Bengal and Bihar had to be closed on account of uneconomic working;

- (b) what is their usual capacity to yield coal;
- (c) whether anything is being done to bring them back into economic working;
- (d) why the total production of coal has gone down and pit-head stocks have gone up in 1948 as compared to 1947; and
- (e) what is being done to improve the situation?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) According to the information so far available, only one private colliery, namely, Bhaga, belonging to Messrs. Lodna Colliery Company, closed down during 1948 on account of un-economic working.

(b) 4,000 tons per month.

(c) The owners are reported to be contemplating to work two seams in the Bhaga Colliery from another colliery by arranging underground haulage.

The report of the Committee appointed by the Ministry of Labour to enquire *inter alia* into the causes of closure of collieries when received will throw further light in the matter.

(d) and (e): The total coal production in 1948 as compared to 1947 has not gone down. This will be evident from the following figures:

1947 ... 29,793,146 tons (excluding 280,000 tons being the output from January to August of the collieries now in Pakistan).

1948 ... 29,822,257 tons (excluding the output of the collieries now in Pakistan).

The Pit-head stocks at the end of December, 1948 were 1,730,000 tons as against 2,025,695 tons at the end of December, 1947.

The following measures which have been taken by Government will further reduce the stocks to the normal level *viz.*, 750,000 tons in a few months time:

(i) establishment of a Coal Transport Advisory Committee to review the day-to-day transport position in Bengal/Bihar; (ii) setting up of an *ad hoc* Committee to look into the question of special assistance for Transport to the over-stocked collieries; and (iii) stepping up of coastal shipments and exports.

#### FIXATION OF PRICE AND INTER-PROVINCIAL MOVEMENT OF *Gur*

**\*283. Prof. N. G. Ranga:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether any studies were made as to how to regulate the relative prices of sugar and *gur* (jaggery) in order to protect the growers of sugarcane;

(b) whether Government propose to fix minimum price for *gur*, in addition to the present fixation of a ceiling price;

(c) whether any special steps are being taken to facilitate the movement of *gur* from Chittoor, Vizagapatam and Godavari Districts in the Madras Province and Bareilly and other Districts of U. P. to consuming centres in other provinces or states; and

(d) what other steps are being taken to protect the interests of *gur* producers?

**The Honourable Shri Jairamdas Doulatram:** (a) *Gur* as also sugar, has been decontrolled since December, 1947. During the period of control, sugar and *gur* prices were both being fixed after considering the cost of production of each. Owing to transport difficulties, however, and difficulties inherent in controlling a widely manufactured commodity like *gur* on a cottage industry scale, it was not found possible to effectively enforce the prices of *gur*. Since decontrol, sugar prices have risen while *gur* prices have fallen. Last year the prices of *gur* in U.P. were prevented from falling below the economic level by providing special transport.

(b) As stated above, there is at present no control over the price of *gur*. Provincial Governments have not, therefore, fixed any ceiling price for *gur* nor is it proposed to fix any statutory minimum price in the absence of control. Experience has shown that it is not possible to exercise price control over *gur* without monopoly procurement and controlled distribution which is administratively not feasible. Although, no minimum prices for *gur* are fixed, the Government will make every effort to prevent prices falling unduly in a surplus area by giving extra facilities for movement.

(c) *Gur* has been placed for rail movement under priority class 2 (a). No special complaints about accumulation of *gur* or transport difficulties in Madras province have been reported, while for the movement of the U.P. *gur*, the Government of India in consultation with the U.P. Government, are trying to work a phased programme of despatches by producers' Co-operative Societies.

(d) No other steps to protect the interests of *gur* producers against financial loss seem to be necessary in view of the policy of decontrol. Government, will however, consider the matter further if any suggestions are made to them.

#### INDIAN FRUIT PRESERVATION AND CANNING INDUSTRY

**\*284. Prof. N. G. Ranga:** Will the Honourable Minister of Agriculture be pleased to state:

(a) what steps are being taken to increase the production and preservation of fruit;

(b) whether Government are aware that fruit is one of the most important protective foods which should be developed;

(c) whether Government are aware that the Indian Fruit Preservation and Canning Industry is in an infant condition; and

(d) if so, whether Government propose to give it adequate protection from cheaper imports or to subsidise it or to give it any other special encouragement?

**The Honourable Shri Jairamdas Doulatram:** (a) The Government of India, the Indian Council of Agricultural Research and the Provincial and State Governments have been financing several schemes for Fruit Research, increased production of fruits, marketing of fruit and training of technical personnel. The Research Schemes aim at evolving suitable varieties of fruit plants with a view to effect improvement in their quality and yield, and are also concerned with control of pests and diseases. The Production Schemes aim at bringing more area under quick-yielding fruit plants and improving the yield by the use of manures, irrigation facilities and control of diseases. Some of the Provincial Schemes were being financed from the Grow More Food Grant so far. They will now be financed by the Provinces from the Block Grant for development placed at their disposal by the Central Government. The total grants made out of the G.M.F. Fund amounted to 8.43 lakhs from 1945-46 to 1947-48. The Indian Council of Agricultural Research Schemes involve an expenditure of about 19 lakhs of rupees out of which about 13 lakhs were spent upto the end of 1947-48.

As regards preservation of fruits, it has been decided to set up, in due course, an Indian Institute of Fruit Technology at Nagpur. A beginning has already been made by opening training classes for persons candidates recruited from Provinces and States at this Institute which is at present located in Delhi. The shifting of this Institute to Nagpur and providing it with full equipment for research, however, has been held in abeyance till 1950-51 on account of the present need for economy.

A Fruit Products Order is in force which was promulgated by the Government of India in 1946 in consultation with the Industry. The object of the

Order is to ensure that the fruit products manufactured in India conform to certain minimum standards regarding composition, handling and hygienic conditions. It is expected that the proper enforcement of this Order, which it has now been decided to entrust to the Provincial and State Governments, will lead to a gradual and systematic improvement in the conditions of the Industry and help in the regular collection of statistics regarding production.

To encourage the growth of the Preserved Fruit Industry in the country, high tariff protection against cheaper foreign imports has been afforded to it for three years with effect from the 1st January, 1948. The question of further protection if required by the Industry and the form it should take is at present under consideration of the Tariff Board.

(b) Yes.

(c) Yes.

(d) As mentioned in answer to part (a) of the question, protection in the form of high *ad valorem* duties on imported fruit products was granted to the Industry for three years beginning from 1948. The question whether this protection needs any further revision or substitution, wholly or in part, by a direct subsidy or other form of aid, was recently considered by the Tariff Board whose recommendations are awaited. The existing protection is as follows:

40 per cent. *ad valorem* on fruit squashes,

60 per cent. *ad valorem* on fruits and syrups,

80 per cent. *ad valorem* on jams and jellies.

Assistance is also afforded to the Industry by release of controlled materials such as tin-plate, coal, cement, etc.

#### PRICE OF SUGAR

\*285. **Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that the price of sugar in our country is double the world price of sugar?

(b) If so, what are the reasons for the same?

(c) What steps do Government propose to take to bring down the present price of sugar?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes, very nearly so.

(b) The high price of sugar in India is mainly due to (1) the high price of sugarcane (2) increased cost of labour, and higher manufacturing expenses.

(c) A twenty per cent. reduction in the price of sugar has already been effected for the current year compared to last year's price. No further reduction was considered practicable. The present ex-factory price of sugar is Rs. 23/8/- per maund for D-24 quality against Rs. 35/7/- last year.

Sugarcane is the major item in the cost of production of sugar and for any appreciable reduction in the cost of production of sugar, cost of sugarcane has to be substantially reduced by encouraging growth of improved varieties, yielding more cane per acre and more sugar per maund of cane. This is being done by the Provinces and State under a five year scheme of intensive research, sponsored and financed by the Indian Central Sugarcane Committee. Certain schemes which are expected to cost Rs. 75 lakhs have already been initiated in United Provinces, Bihar, Bombay, Central Provinces, Madras and Orissa. The cost of manufacturing sugar has also to be lowered by increasing manufacturing efficiency and utilization of bye-products of the sugar-industry. These matters are also receiving attention.

#### PRODUCTION OF SUGAR

\*286. **Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Agriculture be pleased to state the number of sugar mills in the country?

(b) What is their total annual output?

(c) What is the total requirement of sugar per year in the country?

(d) If the total production of sugar is not sufficient to meet the needs of the country, what are the measures taken to remedy the same?

**The Honourable Shri Jairamdas Doulatram:** (a) The number of sugar mills in the Indian Union is 155.

(b) The annual production of sugar in the Union is about a million tons.

(c) The target of production for the Indian Union per year has been placed at sixteen lakh tons which includes one lakh tons for export.

(d) To achieve this target the Government of India have planned the expansion of the sugar industry by the installation of about 45 factories of a daily crushing capacity of 800 to 1,000 tons at suitable locations.

#### PRODUCTION AND IMPORT OF POTATOES

\*287. **Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Agriculture be pleased to state the total production of potato in the country per year?

(b) Is potato imported from any country and if so, from what countries?

(c) What was the quantity so imported in 1948 and what was the amount spent for the same?

(d) Is it a fact that potato growers are not given any facilities by Government to dispose of their produce?

**The Honourable Shri Jairamdas Doulatram:** (a) The average annual production of potatoes in the Indian Dominion is estimated at 470 lakh maunds.

(b) Potatoes are imported into India mainly from Italy, Burma, Australia, Netherlands and Kenya Colony.

(c) The total quantity imported in 1948 was 4.13 lakh maunds and the total value of the imports was Rs. 54.9 lakhs.

(d) Government are not aware of any difficulty in the disposal of potatoes due to over-production or absence of suitable markets. The only difficulty that the growers experience is in regard to the transport of their produce from the growing areas to the consuming centres. For the purpose of providing adequate facilities in this direction, potatoes along with other foodstuffs have been allotted priority I (b) when the movement is sponsored and priority II (a) for unsponsored movements. In addition, whenever any request either from the growers themselves or from the Provincial Governments for the speedy movement of accumulated stocks is received, steps are taken to provide necessary assistance in consultation and collaboration with the Transport Ministry.

#### TELEPHONE CONNECTIONS FOR ALL DISTRICT HEADQUARTERS IN BIHAR

\*288. **Shri Amiyo Kumar Ghosh:** (a) Will the Honourable Minister of Communications be pleased to state which district headquarters in the Province of Bihar do not have telephonic connection?

(b) Are Government aware of the urgency of providing telephonic connection between the Capital of the Province and all district headquarters for administrative purpose?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) Purnea, Daltonganj and Dumka.

(b) Yes, but as the Department is short of stores and telephone equipment, priority is given to places where the demand is of a more urgent nature. Telephone Exchanges are expected to be opened at Purnea and Dumka during 1949-50.

## CULTIVATION BY TRACTORS

\*289. **Shri B. N. Munavalli:** (a) Will the Honourable Minister of Agriculture be pleased to state what is the total number of heavy tractors in the possession of the Central Tractor Organisation of the Ministry of Agriculture, Government of India?

(b) Has it loaned heavy tractors to the Provinces and if so, how many tractors have been loaned to each province?

(c) What is the area of land benefitted by these tractors in each province in the years 1947-48, and 1948-49?

(d) Was there any improvement in the yield of the areas benefitted by these heavy tractors in each province and if so, to what extent?

**The Honourable Shri Jairamdas Doulatram:** (a) The total number of heavy tractors in the possession of the Central Tractor Organisation under the Ministry of Agriculture is 160.

(b) The tractors of the Central Tractor Organisation were allotted as follows:

1947-48.

|       |     |     |     |    |          |
|-------|-----|-----|-----|----|----------|
| U.P.  | ... | ... | ... | 64 | Tractors |
| C.P.  | ... | ... | ... | 32 | "        |
| Total |     |     |     | 96 | "        |

1948-49.

|                       |     |     |     |     |          |
|-----------------------|-----|-----|-----|-----|----------|
| U.P.                  | ... | ... | ... | 48  | Tractors |
| C.P.                  | ... | ... | ... | 96  | "        |
| Madhya Bharat (Union) | ... | ... | ... | 16  | "        |
| Total                 |     |     |     | 160 | "        |

(c) During 1947-48 the following areas were reclaimed by these tractors:

|       |     |     |     |        |        |
|-------|-----|-----|-----|--------|--------|
| U.P.  | ... | ... | ... | 24,806 | Acres. |
| C.P.  | ... | ... | ... | 7,500  | "      |
| Total |     |     |     | 32,306 | "      |

Out of these, an area of 18,428 acres was new land and the remaining 13,878 acres were 'Kans' infested land.

During 1948-49 these tractors are expected to reclaim 1,00,000 acres as detailed below:

|                       |     |     |     |        |       |
|-----------------------|-----|-----|-----|--------|-------|
| U.P.                  | ... | ... | ... | 30,000 | Acres |
| C.P.                  | ... | ... | ... | 60,000 | "     |
| Madhya Bharat (Union) | ... | ... | ... | 10,000 | "     |

Out of these 20,000 acres will be new land and the remaining 80,000 acres Kans infested land.

(d) The Provincial Governments expect to harvest a good crop from the areas reclaimed by these tractors. In the case of new lands a yield of at least 12 maunds per acre and in the case of weed-infested lands an extra yield of 6 maunds over and above the usual two or three maunds per acre is anticipated. In U.P. it has been estimated crops worth Rs. 16 lakhs were harvested in 1948.

\*290. [WITHDRAWN.]

## RESIDENTIAL QUARTERS AND OFFICE BUILDINGS IN ORISSA POSTAL CIRCLE

\*291. **Shri Yudhishtir Mishra:** Will the Honourable Minister of Communications be pleased to state:

(a) the number of units of residential quarters provided in the Orissa Postal Circle to Gazetted and non-gazetted officers;

(b) the number of departmental Post Offices in Orissa Circle accommodated in rented buildings;

(c) the number of departmental buildings for providing accommodation to departmental post offices in Orissa Circle constructed during the last five years, and the number of such buildings proposed to be constructed during the year 1949-50; and

(d) the number of units of residential quarters constructed in Orissa Circle for non-gazetted postal staff during the last three years and the number of such quarters proposed to be constructed during the year 1949-50?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) Number of units of residential quarters provided in Orissa Circle: Gazetted five; Non-gazetted 134.

(b) Number of departmental Post Offices in Orissa Circle accommodated in rented buildings—86.

(c) Number of departmental buildings for Post Offices in Orissa Circle: constructed during last 5 years nil; proposed to be constructed during 1949-50 nil.

(d) Number of units of residential quarters constructed for non-gazetted staff: during last three years nil; Number of staff quarters proposed to be constructed in 1949-50 nil.

## CULTIVATION OF RECLAIMED LAND

\*292. **Shri Kishorimohan Tripathi:** (a) Will the Honourable Minister of Agriculture be pleased to state the total area of land reclaimed for cultivation and growing Crops during the Calendar year 1948?

(b) What was the total expenditure incurred on the different reclamation schemes?

(c) What was the net value of crops raised on the reclaimed lands?

(d) Was the cultivation of the reclaimed land undertaken by private individuals, collective or co-operative groups of persons or by Government?

**The Honourable Shri Jairamdas Doulatram:** (a) Total area of land reclaimed in 1948 for cultivation was 4,45,833 acres.

(b) The total expenditure incurred was Rs. 2,14,65,453.

(c) Reports from Provinces of Orissa, Bombay, and West Bengal have not been received, as the crops have not been harvested. The net value of crops raised on the reclaimed lands in the Provinces of Bihar, United Provinces, Central Provinces, Assam, Madras and East Punjab was Rs. 3,44,01,010.

(d) In United Provinces the Kans infested land reclaimed already belonging to individuals was cultivated by the owners. But the new land reclaimed is partly to be settled with persons who will form Co-operative Societies and partly converted into State-farm and collective farms. In all other Provinces the reclaimed land was cultivated by private individuals.

## LAND RECLAMATION FOR CULTIVATION DURING 1949

\*293. **Shri Kishorimohan Tripathi:** (a) Will the Honourable Minister of Agriculture be pleased to state the total acreage of land that Government propose to reclaim during the calendar year 1949?

(b) In which provinces is the reclamation going to be carried out?

(c) Have Government considered the desirability of opening large scale State-Farms on reclaimed land in each of the Indian Union Provinces?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). The Central Tractor Organisation of the Government of India propose to reclaim 1,00,000 acres during the season December, 1948 to June, 1949 as indicated below:

|                              |          |       |
|------------------------------|----------|-------|
| United Provinces             | 30,000   | Acres |
| Central Provinces and Berar. | 60,000   | "     |
| Madhya Bharat Union          | 10,000   | "     |
| Total                        | 1,00,000 | "     |

The programme for the season 1949-50 has not yet been finalised.

(c) Out of the 1,00,000 acres to be reclaimed about 80,000 acres belong to small cultivators who will farm this area themselves. It is a matter for the Provincial Governments concerned to decide whether the balance of 20,000 acres will be cultivated as State-farms or otherwise.

## INSTALLATION OF TELEPHONES IN RURAL AREAS

\*294. **Shri S. Nagappa:** Will the Honourable Minister of Communications be pleased to state:

(a) the total number of telephones in use in India; and

(b) how long it will take Government to introduce the system in the rural areas?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) 1,14,922 on 31st March, 1948.

(b) Telephones will be introduced in rural areas when such introduction becomes economically practicable.

## AEROPLANE CRASHES

\*295. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Communications be pleased to state how many aeroplane crashes have taken place in India from 1st April, 1948 up to now?

(b) How many people have been killed and how many injured in such accidents?

(c) What compensation altogether has been given by Government to the bereaved families so far?

(d) What compensation altogether has been given by private Aeroplane Companies to them?

(e) What are the precautions now taken to avoid such accidents?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) The total number of aircraft accidents during the period from the 1st April, 1948 to the 25th January, 1949, was 52, out of which 36 involved major damage to aircraft or injury to the occupants and of these only one accident involving loss of life to occupants occurred to a schedule service, namely the loss of a Dakota with all its passengers between Jammu to Srinagar last month.

(b) Eighteen killed and twenty-one injured.

(c) No compensation has been given by Government.

(d) Government is not aware of any compensation having been paid by the Air Transport Companies.

(e) Precautionary measures have been laid down in the Indian Aircraft Act and the rules thereunder relating to airworthiness and inspection of aircraft, licensing of operating personnel and air traffic control and strict and careful observance of these regulations is enforced. The safety measures are constantly under review. Accidents when they occur are carefully investigated and if they reveal the need for any new regulations or tightening up of any existing regulations, necessary action for the purpose is immediately taken.

## OVERCROWDING IN RAILWAY TRAINS

\*296. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Railways be pleased to state what is the total carrying capacity of all Railway coaches for passengers?

(b) How many persons have been carried during the financial years 1947-48 and 1948-49?

(c) What was the percentage of overcrowding to regular accommodation?

(d) How many deaths have occurred during the year 1948-49 on account of people hanging outside or sitting on the tops of carriages?

(e) What is the deficit in the number of carriages now?

(f) How many new or additional carriages and having what capacity were put on the rails during the year 1948-49 and what is the target for the year 1949-50?

(g) What steps are Government proposing to take to remove overcrowding?

(h) Is it a fact that overcrowding has increased since the abolition of the Inter class?

**The Honourable Shri K. Santhanam:** (a) to (h). A statement giving the information asked for by the honourable member is placed on the table of the House.

## STATEMENT

(a) The total number of seats in all the carriages available for carrying passengers, on the 31st March, 1948 was as under:

|             |         |
|-------------|---------|
| Broad Gauge | 512,912 |
| Metre Gauge | 259,038 |

NOTE.—The latest corrected figures available are those for 1947-48 which are therefore given above. These relate to all Class I Railways excluding E. P. and Assam Railways.

(b) The following are the figures in thousands showing the number of passengers carried on Class I Railways (excluding Eastern Punjab and Assam) during the years 1947-48 and 1948-49:

|             | 1947-48. | 1948-49<br>(anticipated). |
|-------------|----------|---------------------------|
| Broad Gauge | 644,634  | 729,382                   |
| Metre Gauge | 328,450  | 374,696                   |

(c) The usual method of estimating the extent of overcrowding is by reference to the occupation ratio which is expressed by the percentage ratio of passenger miles to seat miles per day. For the year 1947-48 this ratio works out to 70 per cent. for B. G. and 85 per cent. for M. G. The Indian Railway Enquiry Committee, 1947 who have commented on this subject considered that an occupation ratio of 50 per cent. should be aimed at this would avoid any serious overcrowding. In view of the occupation ratio standing at 70 per cent. for B. G. and 85 per cent. for M. G. perhaps a reduction to 60 per cent. should be taken as the immediate target.

(d) The information so far available indicates that during the period 1st January, 1948 to 31st January, 1949 there have been 67 deaths and 49 cases of injury over the Indian Government Railways due to travelling on footboards and 4 cases resulting in loss of life

due to travelling on roofs of carriages. Footboards deaths occurred mainly on the B.B. & C.I. Railway electrified suburban sections. There were 27 fatal accidents of this description during the period reviewed, and in 23 cases it was established that overcrowding was not the cause. There are certain passengers who persist in travelling on footboards, even when accommodation is available in the train. This is prevented at stations, but passengers leave their compartments whilst trains are in motion. Prosecutions are now undertaken whenever there is a possibility of a conviction being obtained.

(e) It is estimated that about 2,700 more coaches than were available on 1st April, 1948 are required to meet the increased traffic requirements.

(f) During the year 1948-49, it is expected that about 214 passenger coaches with seating capacity of approximately 20,758 passengers, will be put on line. Since 1st April, 1948 251 passenger coaches have been returned by the Ministry of Defence. Seating capacity is approximately 21,586. The target for the year 1949-50 is approximately 460 coaches.

(g) The steps being taken include placing new coaching stock on line, strengthening passenger train services by attaching extra carriages as far as available within the permissible hauling capacity of the engine, best possible utilisation of all available coaching stock, vigorous efforts to prevent ticketless travel and increasing efficiency all-round.

(h) There has been no reduction in the total carrying capacity which has, on the contrary, increased slightly as a result of the reduction in the number of classes from 1st January, 1949 and therefore no increase in overcrowding can be attributed to the change in classes.

#### SHORT DISTANCE AIR SERVICES

**\*297. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Communications be pleased to state what steps Government are taking to organise short distance Air Services in India?

(b) Are there any applications for starting new services, which Government have not approved?

(c) If so, what was the reason therefor?

(d) Are Government contemplating any new Services during the course of the next financial year?

(e) If so, what are they?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) The initiative for the operation of air services (including short distance air services) lies with the air operating companies. Government provides the ground organisation and navigational facilities at specified stations which are selected having regard to their traffic potential. Consistent with the country's present resources in funds, technical personnel and equipment, the Government of India's plan is largely confined to the development of trunk routes; but facilities for the operation of short distance services are also provided where traffic demand is sufficiently high to justify this.

(b) The statutory authority for the grant of licences for operation of scheduled air services is the Air Transport Licensing Board. The Board has rejected quite a number of applications for licences.

(c) In granting licenses, the Board is guided by the provisions of Part XIII of the Indian Aircraft Rules, 1937, relating to the requirements to be fulfilled before a license can be issued. The applications that do not satisfy the requirements are rejected by the Board.

(d) and (e). It is expected that the following services, for which provisional licenses have been granted will commence operation during the next financial year:

- (1) Bombay-Karachi-Zahidan-Tehran.
- (2) Calcutta-Bangkok-Saigon-Hongkong-Shanghai.
- (3) Calcutta-Bangkok-Singapore-Batavia-Sourabaya-Darwin-Sydney.
- (4) Madras-Bezwada.

(5) Hyderabad-Bezwada-Vizagapatam.

(6) Nagpur-Jubbulpore.

#### ASSEMBLY AND MANUFACTURE OF AEROPLANES IN INDIA

**\*298. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the number of aeroplanes assembled in India up to the end of the year 1948?

(b) What is the number of aeroplanes proposed to be assembled and manufactured in India during the year 1949-50?

(c) What is the estimated number of aeroplanes that would be required by Government for civil air services in India during 1949-50?

(d) How are these planes going to be obtained?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Hindustan Aircraft Limited, Bangalore, assembled up to the end of 1948, 148 aeroplanes. Eleven aeroplanes were also partly manufactured and partly assembled there.

(b) Hindustan Aircraft Limited is at present engaged in the Assembly and manufacture of fifty Prentice Trainer aircraft under assistance arrangement with Messrs. Percival Aircraft Company, England. The number of Prentices expected to be assembled or manufactured during 1949-50 is 47.

Hindustan is also designing three indigenous types of Trainer aircraft for the R.I.A.F. and Flying Clubs, etc. Manufacture of two prototypes will be taken up in 1949-50. These will be ready for flight test the next year. Research is proceeding on the development of one or two additional types.

(c) Aircraft required for the operation of Civil Air services in India are purchased by the operating companies. It is estimated that about twelve new aircraft will be required for this purpose during 1949-50.

(d) The aircraft will have to be imported from abroad.

#### DELAYS IN DELIVERY OF MONEY ORDERS AND PARCELS AT GAUHATI

**\*299. Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Communications be pleased to state whether Government are aware that money orders sent from Shillong are not ordinarily delivered at Gauhati before 10 days?

(b) Are Government aware that the Registered Parcels Nos. 302 and 312 posted by the Deputy Commissioner of Goalpara at Dhubri on the 12th January, 1949 were not received by the Sessions Judge at Gauhati till the 22nd January, 1949 and that only, when a special request was made to the Superintendent of Post Offices of the Division?

(c) Are Government aware that similar cases have occurred on various occasions, and that Government records had to be brought by special messengers to Gauhati from the neighbouring towns, and that some Sessions trials had to be put off by Sessions Judges of A. V. Districts on account of delays in receiving the records sent by post?

(d) Is it a fact that registered packets and parcels are kept in open enclosures in the main Post Office of Gauhati, as there is no room in the building to keep them?

(e) If so, for how long have they been so kept?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) The facts are not as stated. Money Orders issued in Shillong are ordinarily paid at Gauhati on the third day but arrangements are being made to have them paid the next day.

(b) Yes, Sir. The delay referred to is under departmental investigation.

(c) No other case of the kind has come to the notice of Government. Cases of delays are normally investigated by the local head of the circle. Government have also no information regarding the postponement of any sessions trials on account of postal delays.

(d) Yes, but they are kept under Police-guard. Proper sheds for storage of such bags are under construction and are expected to be completed shortly.

(e) From the 13th December, 1948.

**Shri Biswanath Das:** Sir, I have to make a representation regarding supplementary questions and the replies to questions that are laid on the table of the House, such as statements, etc.

**Mr. Speaker:** He may do so after the short notice question is put and answered.

### SHORT NOTICE QUESTION AND ANSWER

#### RAILWAY ACCIDENT ON BINA-BHOPAL SECTION

**Shri H. V. Kamath:** Will the Honourable Minister of Railways be pleased to state:

(a) whether it is a fact that the 3 Up Punjab Mail met with an accident on the Bina-Bhopal section, on the 1st February, 1949;

(b) if so, the nature and number of casualties;

(c) the damage to rolling stock; and

(d) the cause of the accident?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes.

(b) Three passengers sustained simple injuries.

(c) The engine and three bogies behind it were derailed, the estimated cost of the damage being Rs. 13,600.

(d) An enquiry is being held to determine the cause of the accident.

**Shri H. V. Kamath:** Is this, Sir, the first accident on the Bina-Bhopal section during the last eighteen months?

**The Honourable Shri N. Gopalaswami Ayyangar:** I cannot give a definite answer to that question.

**Shri H. V. Kamath:** Did this accident take place within Bhopal State territory or outside?

**The Honourable Shri N. Gopalaswami Ayyangar:** Within the State territory.

**Shri H. V. Kamath:** Has there been a press report that sabotage is suspected?

**The Honourable Shri N. Gopalaswami Ayyangar:** Sabotage is suspected, I know.

**Shri H. V. Kamath:** Did this accident occur before or after the dissolution of the Bhopal Ministry?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I am not aware of the exact date on which that ministry was dissolved.

**Shri H. V. Kamath:** Were not some important persons, or some very important persons—V.I.P. in official parlance—travelling or expected to travel by that train?

**The Honourable Shri N. Gopalaswami Ayyangar:** An Executive Engineer of the G.I.P. was travelling by that train.

**Shri H. V. Kamath:** When did the P.W.I. or his staff inspect the line before that accident?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not know if they made any inspection in anticipation of this accident, not likely.

**Shri H. V. Kamath:** Sir, is not inspection done every day?

**The Honourable Shri N. Gopalaswami Ayyangar:** Inspection is done.

**Mr. Speaker:** There is no use pursuing these questions. An enquiry has been set up and all these questions will be gone into by this enquiry.

**Seth Govind Das:** Is it not a fact that after two or three days of that accident, another accident took place near Itarsi, and is it not suspected that the same gang of saboteurs is working throughout that area?

**The Honourable Shri N. Gopalaswami Ayyangar:** The suspicion as regards sabotage is being investigated now.

### PREMATURE PUBLICATION OF SHORT NOTICE QUESTION IN NEWSPAPERS

**Shri H. V. Kamath:** Sir, before we proceed to the business of the day, may I invite your attention to the publication of a news item in one of the local dailies regarding a question which I am alleged to have given short notice of? I do not know where and how that leakage has occurred, and I am very well aware that it is contrary to all the rules of business and propriety of our Parliament. I am very anxious, Sir, that the direction which you gave last year in connection with some adjournment motion must be observed by all concerned. I only wish here to disown all responsibility for this incident, and I would request you, Sir, to take such action as you may deem fit in this matter.

**Mr. Speaker:** I entirely concur with the honourable member that, the practice of giving publicity whether through the initiative of members or otherwise, to questions, motions or resolutions before they are admitted in the House, and so far as questions are concerned, even before they are answered, is not a desirable one. Last time, I expressed my disapproval of this procedure and said that I may be constrained to consider what steps might be taken in case a repetition takes place. Since then, there has been a change in the constitutional and legal position which perhaps honourable members and also the Press might know. The privileges of this House to-day are identical with those of the House of Commons in England, and any contempt by such pre-publication or any other manner is liable to be punished with such punishment as the House may decide. People guilty of violation are liable to be committed for contempt of the House. I hope that all concerned will take note of this and that there will not be a repetition of this kind, in future.

On the present occasion, as it is the first of its type, after the enlargement of the privileges of the House, I do not think we should take any more serious notice of it than this.

### SUPPLY OF ADVANCE COPIES OF ANSWERS TO QUESTIONS, ETC., TO MEMBERS

**Shri Biswanath Das:** Sir, you were good enough to state that replies and statements that are furnished by the Honourable Ministers are supplied to the library, soon after they are given here. I may, however, be permitted to bring to your notice that I am a regular reader of these replies and I have found that even by the mid-day of the same day, or even by 1 o'clock or even by 2-30 P.M. they are not supplied to the library. The result is that we have to wait till the next day to see them. Even if these statements are supplied in due course, they will not be useful to us or helpful to us in framing supplementary questions arising out of the replies and statements supplied. They are not helpful for

the purpose of supplementary questions for the day. This creates two difficulties. Firstly, it prevents honourable members from putting supplementary questions. Secondly, it leads to members framing other questions and thus adds to the number of questions to be asked in the House. With a view to avoid both these difficulties, may I suggest to you the procedure that is being followed in the Provinces, namely, replies are being printed and circulated to all the honourable members, and they are fully prepared, being in the know of the replies. Therefore the supplementary questions that are framed by them are apt and to the point, this also minimises the number of unnecessary questions, and also makes it possible for the House to finish the questions for the day. I request this practice may kindly be considered and if possible, accepted.

**Shri R. K. Sidhva:** Sir, I also endorse the remarks made by my friend Mr. Biswanath Das. It becomes very difficult for us to put our questions because we do not get these statements in time. I do not entirely agree with his suggestion that every member should be given a printed copy in advance. I think, the member concerned at least should be given the statement, at least one hour in advance, or at least half-an-hour in advance. To-day I had to ask a very important question about prices and which actually involved crores of rupees, but you prevented me, Sir saying that I could study the statement. But when will I get the opportunity to put the supplementary question on the statement I may get it only next August or September. Therefore I would request you to give consideration to this matter, which actually relates to the rights of the members of this House, and not wait till the rules are considered.

**Mr. Speaker:** I do not think we need take any more time arguing over this matter.

**Prof. N. G. Ranga:** But it comes up over and over again. We must decide something.

**Mr. Speaker:** A decision was taken; perhaps it is not clear to some members as to what decision was taken. The question of printing the answers and supplying them to the members was considered fully in the new set-up of things, and it was felt that it was not a good practice to follow, for various reasons. I need not go into the reasons at present.

As regards the questions themselves, I do think that interpellations are important, and the question hour is the most lively one in the House. But honourable members will see that it is desirable that each individual member gets a fair opportunity to put supplementary questions. It is also the duty of each member to see that he does not go into such details in the supplementary questions, as to bar a lot of subsequent questions coming from other Members. In fact, the time taken over supplementary questions in this House is, to my mind, inordinately long. In the House of Commons, about 50 questions are disposed of in one hour, and here, though I have given, sometimes, as long as 10 minutes to a particular question in view of its importance, members seem to be dissatisfied and want to put more and more questions. They do not take into consideration the fact that by dwelling rather too long on certain questions they leave very little time for the remaining questions on the Order Paper which are of equal importance. Today, for example, when the List of Questions contains 34 questions, only 14 were answered, and the remaining 20 have gone into the proceedings, without any chance for putting supplementary questions on them. Really it is a question of some balance. If statements are to be gone through in this House, I am afraid, hardly three questions can be considered and the rest will remain as they are. So, the position is that Members themselves have to see that they put in as few supplementary questions as possible.

I find that the rules as regards questions are also not properly either studied or put into practice by Members. For example, questions suggesting action,

questions containing inferences, questions which are argumentative, etc., are all, not permissible and still such questions are being put as supplementaries and a lot of time is taken. My difficulty is that, when supplementary questions are put, I cannot come to a conclusion as to whether they are admissible or not, unless they are actually put. Then, by the time they are put, perhaps they are answered also in some cases, before a ruling is given as to whether a question is admissible or not; and a good deal of time is thus lost.

A good deal of time is also lost by long preambles to questions, such as, 'whereas the Honourable Minister for so and so', and 'in view of the statement made by' and so on and so forth. Sometimes the valuable one hour of question time is lost in repeating the phrase "May I know from the Honourable Minister" and so on. If the questions are put in a short sentence and to the point, I think we would be able to do full justice to the whole Question hour and the important right of interpellations could be exercised more usefully. That is how I feel about these questions.

As regards placing the answers to the questions in the Library, there was a slight mistake in what I said before. Up to one o'clock, they are placed on the Secretary's table and then they are taken to the Library. There, from one o'clock onwards, they are available. I do not think anything further is now necessary to be said by me and I do not think anything more can be done in this matter.

**Shri Mahavir Tyagi:** Would it not be convenient if typed copies are given to members who have given notice of questions so that at least the member concerned may be satisfied?

**Mr. Speaker:** Does the honourable member mean to say that this should be done before the Question hour begins?

**Shri Mahavir Tyagi:** Yes.

**Mr. Speaker:** Yes, that is done in the provinces. I know it. I was myself a member of a Provincial Assembly and its Speaker for nearly 2½ years before the Constitution was suspended. In the old set up, that was the procedure. But in the new set-up, the House is sovereign and it cannot afford to be dealing with small matters. It has to deal with matters of great importance and matters of international importance. I may here give an illustration. I remember to have admitted a question asking whether there was sufficient number of ration shops opened in Delhi. Such a question will not be obviously admissible now. The House has to deal with important matters and questions concerning ration shops and the like ought not to come before it. The practice in the House of Commons is that, honourable members who want information, approach the Ministers concerned privately and get it. It is only matters of public importance that are brought to the notice of the entire House and questions are put. In all these small matters, the best thing to do is to write to the Honourable Minister concerned and if no information is available, to exercise the right to come before the House. This is the only way in which the House will be enabled to deal with really important matters. This is my reaction to the various suggestions made.

**Shri R. K. Sidhva:** Is it not a matter.....

**Mr. Speaker:** I do not propose to go further into this matter.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

(PART I—QUESTIONS AND ANSWERS)

Friday, 11th February 1949.

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

DECLARATION BY MEMBER

The following member made the Declaration under Rule 4:  
Shri Kala Venkata Rao (Madras: General).

STARRED QUESTIONS AND ANSWERS

ORAL ANSWERS

IMPORT OF TEXTILE MACHINERY FROM JAPAN

\*300 Shri R. K. Sidhva: (a) Will the Honourable Minister of Commerce be pleased to state whether it is a fact that Japan textile machinery was imported in large quantities during the year 1948?

(b) If so, what is the number of spindles and looms and at what port were they landed?

(c) What was the total value of these imports and has all this machinery been installed?

(d) What is the total amount of orders placed by Indians in Japan for textile machinery?

The Honourable Shri K. C. Neogy: (a) Textile machinery worth about Rs. 50 lakhs was imported from Japan during 1948.

(b) There were no imports of spindles but 2,246 looms were imported. 2,236 looms were landed at Bombay and 10 at Calcutta.

(c) The value of the looms imported was Rs. 32 lakhs approximately. Out of the 840 cotton textile looms imported, 400 have been installed already and the balance is under erection. Information is not readily available regarding silk, rayon and wire cloth looms, whose number was 1406.

(d) The total value of orders for textile machinery placed by India in Japan upto December, 1948 amounts to Rs. 2 crores and 40 lakhs approximately.

Dr. V. Subramaniam: Are they likely to get any spindles or looms this year from Japan?

The Honourable Shri K. C. Neogy: Yes. I hope that some will come this year.

Dr. V. Subramaniam: May I know approximately what number?

The Honourable Shri K. C. Neogy: It is very difficult to say exactly.

Shri H. V. Kamath: Are the import negotiations with Japan conducted through the SCAP authorities?

**The Honourable Shri K. C. Neogy:** I do not know what negotiations my honourable friend has in view. There is an agreement between India and a few other sterling countries and SCAP authorities in regard to the importation of certain commodities. Within the framework of that agreement, private enterprise operates for the purpose of making the importation subject of course, to approval by SCAP of definite orders.

**Srijut Rohini Kumar Chaudhuri:** May I know, Sir, if any of these machineries and looms were imported for any Provincial Government, for instance, Assam, which province has decided to nationalize the Textile industry?

**The Honourable Shri K. C. Neogy:** I am afraid I have not got the information here with me at the moment, and if the honourable member will put down a question, I will certainly answer it.

**Shri T. A. Ramalingam Chettiar:** Is the total number of spindles and looms that are to be exported settled between the two Governments?

**The Honourable Shri K. C. Neogy:** There are two periods which have to be taken into account in this connection, the period that preceded the agreement with the SCAP authorities and the period that succeeded it. So far as the previous agreement goes, it was a Government to Government sort of agreement, and the subsequent agreement is operated by private trade. In both these cases, the quantities are subject to approval of SCAP authorities.

**Mr. Homi Mody:** Are these imports part of an arrangement for the exchange of goods between the two countries or are they independent of the agreement?

**The Honourable Shri K. C. Neogy:** They are parts of that agreement. As I have said there are two different periods in which the agreement would be operating somewhat on different lines.

#### ACQUISITION OF LAND FOR BUILDING HOUSES FOR REFUGEES

**\*301. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether any land has been acquired from private sources for building houses for refugees and if so, what is the total amount paid by Government in respect of this?

(b) How many houses for refugees have been actually built, how many occupied and how many more are under process of construction?

(c) Have Government given any land to co-operative societies of refugees and if not, what are the reasons for refusal?

**The Honourable Shri Mohan Lal Saksena:** (a) No.

(b) The honourable member is referred to the reply given by me to part (b) of Starred Question No. 104 by Dr. V. Subramanian on the 3rd February, 1949.

(c) No; the policy in regard to co-operative building societies in Centrally Administered areas is under consideration. A decision will be announced shortly.

**Shri R. K. Sidhva:** May I ask if any co-operative societies have so far been registered for the building of houses and whether any land has been given to them? If not, when the Government are likely to consider action to relieve this congestion and solve this housing problem?

**The Honourable Shri Mohan Lal Saksena:** I do not know if the honourable member refers to co-operative societies registered in Delhi or registered elsewhere.

**Shri R. K. Sidhva:** I am talking of Delhi.

**The Honourable Shri Mohan Lal Saksena:** As regards Delhi, no land has been given to any co-operative societies so far.

**Shri R. K. Sidhva:** May I ask if any societies have been registered for that purpose?

**The Honourable Shri Mohan Lal Saksena:** Yes. Societies have been registered.

**Prof. N. G. Ranga:** Is it a fact that some societies, not co-operative societies of all these refugees, which possess the advantages of the services of a number of retired Chief Engineers and Superintending Engineers have applied for land, have not been given any land till now nor any other facilities?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact, they have applied for land, but besides that they wanted also expenditure for improvement of land, which the Government has already undertaken.

**Prof. N. G. Ranga:** Is it a fact, Sir, that these societies have been seeking the assistance of Government during the last fourteen months, and nothing so far has been done in a tangible manner to help them?

**The Honourable Shri Mohan Lal Saksena:** The fact of the matter is that there are 4,50,000 refugees in Delhi, and out of them only 2,50,000 have to be rehabilitated, and, therefore, the Government cannot give land to these refugee societies, which have been formed *ad hoc*, because Government have fixed a certain proportion for the other provinces and these societies do not come under that. Therefore, while making allotments, we take into consideration the claims of individuals, and members of co-operative societies are allotted adjacent plots.

**Shri R. K. Sidhva:** May I know whether some refugee societies have registered with the object of building houses at their own cost and ask the Government only to grant land at concessional rates? As they are very anxious to have these houses built themselves, may I know whether Government are going to consider that favourably? Have they made out any policy? May I know whether they want to help them also or not in this direction?

**The Honourable Shri Mohan Lal Saksena:** I am not aware of any society which has been registered, which is prepared to build houses at its own cost.

**Shri R. K. Sidhva:** Is it not a fact that a society which has been registered last month and of which I am the President.....

**Mr. Speaker:** Order, order.

**The Honourable Shri Mohan Lal Saksena:** I have not the honour of having any conversation with the President of the society, so far.

**Sardar Hukam Singh:** Is there any percentage quota fixed for the allotment of these houses to different provinces now in Pakistan?

**The Honourable Shri Mohan Lal Saksena:** I do not know what has happened in Pakistan, but so far as Delhi is concerned, we have fixed a quota.

**Sardar Hukam Singh:** I did not say what has happened in Pakistan. I wanted to enquire whether any percentage quota has been fixed for allotment to refugees coming from Provinces that are now in Pakistan and who have settled now here in Delhi.

**The Honourable Shri Mohan Lal Saksena:** Yes. A quota has been fixed for different provinces.

**Dr. V. Subramaniam:** Are the Government going to build prefabricated houses for the refugees?

**The Honourable Shri Mohan Lal Saksena:** I think the honourable member must be aware that there is a scheme for setting up a factory for the manufacture of prefabricated houses. It will take some time before the factory is set up.

**Shri H. V. Kamath:** May I know, Sir?

**Mr. Speaker:** Order, order, I am calling the next question.

#### DELAY IN ISSUING PERMITS TO ENTER PAKISTAN

**\*302. Shri R. K. Sidhva:** (a) Will the Honourable the Prime Minister be pleased to state whether the attention of Government has been drawn to the abnormal delay in getting temporary permits for Indian nationals to enter Pakistan from the Pakistan High Commissioner's Office in Delhi and Bombay?

(b) Are Government aware that permits are not issued for weeks although all formalities are complied with?

(c) Do Government propose to take steps to see that such permits are issued promptly by Pakistan authorities in India?

**The Honourable Shri N. Gopalaswami Ayyangar** (Minister for Railways and Transport): (a) and (b). Government have seen reports of delay in the issue of permits.

(c) The responsibility for the issue of permits is that of the Pakistan Government. If any specific complaint is made it will be forwarded to the Pakistan authorities.

**Shri R. K. Sidhva:** Is it not a fact, Sir, that some of the nationals of India who have come out from Pakistan are experiencing great difficulty in getting no objection certificates? That means that they can go and come back from Pakistan after visiting. Is it not a fact that they have to wait for three months to obtain the no objection permits?

**The Honourable Shri N. Gopalaswami Ayyangar:** As a matter of fact, instructions were issued, I think about the beginning of December, that before a temporary permit was issued by our Deputy High Commissioner to enable a person to go to India, that person should produce a no objection certificate from the Deputy Commissioner of his District and that being obtained, the delay has been greatly minimised since.

**Shri R. K. Sidhva:** Is it not a fact that such complaints have been made in the Relief and Rehabilitation Ministry and a reference has been made by that Ministry to the Bombay Government to see that such delay is not caused, and may I know what steps have been taken?

**The Honourable Shri N. Gopalaswami Ayyangar:** Yes, I understand it is so.

**Sardar Hukam Singh:** What is the total number of permits issued so far?

**The Honourable Shri N. Gopalaswami Ayyangar:** I should like to have notice of that question.

**Shri H. V. Kamath:** Was the working of this permit system examined and discussed at any of the Inter-Dominion Conferences that took place recently?

**The Honourable Shri N. Gopalaswami Ayyangar:** Not in the Delhi or the Karachi Conferences held in December and January last, but at a previous conference, it was discussed.

**Lala Achint Ram:** May I know, Sir, to how many people who applied permits have been refused?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I want notice of that question.

**Sardar Hukam Singh:** Have any Sikhs applied for it and gone out to Pakistan with these permits?

**The Honourable Shri N. Gopalaswami Ayyangar:** Notice again, please.

**Shri R. K. Sidhva:** On an average, how much time is taken to get these permits?

**The Honourable Shri N. Gopalaswami Ayyangar:** Some permits are obtained the same day; others are obtained on different dates, sometimes at long intervals too. It all depends on the particular circumstances of each application.

**Shri R. K. Sidhva:** Is the Honourable Minister very sure that permits are obtained on the same day? Is it not a fact that complaints are made?

**Mr. Speaker:** This is not asking for information. Next question.

#### APPOINTMENTS THROUGH EMPLOYMENT EXCHANGE

**\*303. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Labour be pleased to state the total number of applications registered in Delhi at the Employment Exchange during the year 1948 and how many were provided with employment?

(b) Is it a fact that in various Ministries names sent by the Employment Exchange are not accepted and other persons not registered in the Exchange are appointed?

**The Honourable Shri N. V. Gadgil** (Minister for Works, Mines and Power): (a) The Regional Employment Exchange at Delhi registered 60,634 applicants during the year 1948 and found employment for 8,561 applicants during the same period.

(b) No machinery exists to discover with accuracy how many persons, not submitted by Exchanges are interviewed and employed by the Ministries of the Central Government. It is known, however, that 9,248 vacancies were notified to the Regional Employment Exchange, Delhi, by the Ministries during the year 1948. Against these vacancies, 30,092 applicants were submitted and proof of placings was received in respect of 5,959 of them. It is also known that almost as many vacancies, which should have been notified to the Employment Exchanges were not notified at all. Details are not available as to how these latter vacancies as also the 3,284 vacancies about which no proof of placings was received, were actually filled by the Ministries concerned.

**Shri R. K. Sidhva:** How many candidates were sent from the Employment Exchange to the various Ministries, how many were refused any post, and how many were taken.

**The Honourable Shri N. V. Gadgil:** As regards the number taken, it is already contained in the reply just given. As regards employment offered

and refused, 7,960 people were offered appointments, but they refused, during the course of 1948.

**Shri R. K. Sidhva:** What were the grounds on which 7,960 people refused?

**The Honourable Shri N. V. Gadgil:** They are within their knowledge.

**Mr. Speaker:** I think it is hardly admissible to ask for reasons in detail as to why 7,000 and odd number of people refused.

**Shri R. K. Sidhva:** From the very fact that such a large number of people who wanted service did not want to accept appointments, I wanted to know any particular reason for this.

**Mr. Speaker:** How can one state one general reason applicable to all.

**The Honourable Shri N. V. Gadgil:** I can give only one general answer; probably they wanted more pay which was not justified by the post offered.

**Shri V. C. Kesava Rao:** Out of these people, how many are refugees, how many are I.N.A. men and how many ex-servicemen?

**The Honourable Shri N. V. Gadgil:** Registration of ex-servicemen was 26,988; others 94,000; refugees 54,239. Among the placements for the year 1948, ex-servicemen were 1,595, others 6,966, total, 8,561. Refugees, 4,087.

**Shrimati Renuka Ray:** How many of these are refugees from East Bengal?

**The Honourable Shri N. V. Gadgil:** I want notice.

**Shri V. C. Kesava Rao:** May I know how many are I.N.A. men?

**The Honourable Shri N. V. Gadgil:** I want notice of that question.

**Prof. N. G. Ranga:** Is any effort made to give preference to these people who come through the Employment Exchange in preference to those who come independently?

**The Honourable Shri N. V. Gadgil:** I also want notice of this question.

**Dr. V. Subramaniam:** Is it the policy of the Government to recruit only through this agency?

**The Honourable Shri N. V. Gadgil:** It is so obvious from the figures supplied that as many were recruited from outside also.

**Shri B. P. Jhunjhunwala:** Were there any applicants for military service also and were there ex-servicemen also?

**The Honourable Shri N. V. Gadgil:** From all Ministries; possibly Defence Ministry also included.

**Shri O. V. Alagesan:** Is it a fact, Sir, that in the provinces only such candidates as come through the Employment Exchange are accepted and others are not accepted?

**The Honourable Shri N. V. Gadgil:** I cannot say what is happening in the provinces.

**Begum Aizaz Rasul:** Are women registered in the Employment Exchanges and if so, how many of them have been given employment?

**The Honourable Shri N. V. Gadgil:** I want notice. They cannot be excluded anywhere now.

# COMMERCIAL PUBLICITY FOR INDIAN GOODS IN FOREIGN COUNTRIES

**\*304. Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Commerce be pleased to state whether the Government of India have any plans for organising commercial publicity for Indian goods in foreign countries and if so, what has been done in that direction and with what results?

**The Honourable Shri K. C. Neogy:** With a view to publicising Indian goods abroad, Government have issued instructions to their commercial representatives abroad as follows:

- (1) to maintain a library of Indian trade publications available for consultation by interested local traders;
- (2) to organise exhibits of Indian goods at local exhibitions or fairs; and
- (3) to represent the possibilities of Indian trade by means of lectures, the display of films and other suitable methods.

They have also participated directly in the following international fairs and exhibitions during the last two years:

- (1) British Empire Exhibition, Sydney, held from 31st March to 9th April 1947;
- (2) British Industries Fair, London, held from 5th to 14th May 1947.
- (3) Canadian National Exhibition, Toronto, held from 22nd August to 6th September 1947;
- (4) Milan Fair, Italy, held from 29th April to 16th May 1948;
- (5) Canadian National Exhibition, Toronto, held from 26th August to 11th September 1948;
- (6) Indian Trade Exhibition, London, held from 8th May to 30th June 1947; and
- (7) Indian Trade Exhibition, Singapore held from 21st to 29th February 1948.

The Indian pavillion at these exhibitions included various items of Indian goods particularly handicrafts and small scale and cottage industry products.

While it is not possible to assess the exact results of Government's activities in this regard, it may be assumed that as these exhibits attracted a great deal of attention and hundreds of trade enquiries were handled at these exhibitions, that the publicity so given has resulted in the improvement of India's trade in these and other commodities.

I may add for the honourable member's information that Government are also considering in this connection proposals made in the Shri Ram Committee's report—

- (1) to set up showrooms in Trade Commissioners' offices, and
- (2) to despatch delegations to America and Canada with a view to acquainting those countries with the quality and availability of the products of India's arts and handicrafts.

**Pandit Mukut Bihari Lal Bhargava:** What is the amount of expenditure incurred annually by the Government of India in this connection?

**The Honourable Shri K. C. Neogy:** I am afraid I will ask for notice of that.

**Shri H. V. Kamath:** Have any steps been taken for proper advertisement of Ayurvedic medicines in foreign countries?

**Mr. Speaker:** Need not be answered.

**Prof. N. G. Ranga:** Has the attention of the Ministry been drawn to the Resolution passed by the Cottage Industries Board at its first meeting to the effect that a Central Emporium should be established here and Directories of Cottage Industrial products which may be suitable for other countries should be published and a Committee to be appointed to recommend to Government what commodities should be encouraged for export from this country?

**The Honourable Shri K. C. Neogy:** Yes, and the matter is under examination.

**Shri H. V. Kamath:** Is it a fact that the Honourable Minister recently said that the Ayurvedic system is held in high esteem in foreign countries, and in the light of that would he not take steps for advertising the same in foreign countries?

**Mr. Speaker:** It is a suggestion for action.

**Shri S. V. Krishnamoorthy Rao:** Are there any Information Services attached to our Embassies to advertise information regarding our production in India, as the American Information Service is doing here?

**The Honourable Shri K. C. Neogy:** Yes, I have stated what is being done in the foreign countries where we have trade organizations.

**Shri S. V. Krishnamoorthy Rao:** Have they show rooms attached?

**The Honourable Shri K. C. Neogy:** I do not think so, but they are going to be started.

**Shri Deshbandhu Gupta:** Will Government encourage private efforts in publicising Indian products in foreign countries?

**The Honourable Shri K. C. Neogy:** If private organizations are set up for publicising Indian products, Government will help them.

**Shri Mihir Lal Chattopadhyay:** May I know the total number of countries in which we have Trade Commissioners?

**Dr. V. Subramaniam:** Is there any publicity given for Khadi and Indian Sarees in foreign countries?

**Mr. Speaker:** I do not think it need be answered.

#### ISSUE OF IMPORT AND EXPORT LICENCES

**\*305. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Commerce be pleased to state the basis and principles on which the Government of India are issuing Import and Export licences in favour of different applicants at present?

(b) What percentage of such licences goes to those who have already been in the field and what percentage goes to the new-comers?

(c) What change in policy do Government of India intend to make in order to ensure a fair deal to all and to create greater confidence and satisfaction in the general public?

**The Honourable Shri K. C. Neogy:** (a) and (b). I lay on the table a statement giving the requisite information.

(c) Government of India consider that the present policy followed in respect of both import and export trade control is working satisfactorily and as such they do not contemplate any change in the policy for the present.

*Statement showing the basis and the principles on which the Government of India are issuing Import and Export Licences in favour of different applicants*

**Imports.**—All commodities are classified under the following four categories for I.T.C. purposes:

- (1) Those covered by Open General Licence.
- (2) Those that are licensed liberally.
- (3) Those that are licensed subject to monetary ceilings.
- (4) Those for which no licences are issued.

2. At the beginning of every half year a review is made of our foreign exchange position and the distribution of commodities between the above four categories is based on this review. A notice is issued inviting applications for licences and the licensing policy for each commodity is clearly specified in this notice. I place below a copy of this notice issued for July-December, 1948 period which gives in detail the licensing procedure.

3. It will be noticed that, generally speaking, with respects to imports from soft currency countries, all essential articles are either on O.G.L. or on the liberally licensed list. These include capital goods and machinery, industrial raw materials like chemicals, coal tar dyes, petroleum and petroleum products, electrical goods and accessories and such essential consumer items as milk, drugs and medicines, hardware, paper and stationery, etc. The hard currency position being difficult, it has not been possible to issue licences liberally for imports from hard currency countries except in respect of capital goods and machinery and lubricating oils. As for other articles, imports from hard currency areas are far more restricted than those from soft currency countries.

Only a few articles like cut and polished diamonds and jewellery have been placed on the prohibited list even in respect of soft currency areas, whereas for hard currency imports a very large number of consumer goods have been placed on this list. For example, paper and stationery, fountain pens and thermos flasks, refrigerators and completely assembled cars, are prohibited from dollar areas. For items not falling in (1), (2) and (4) licences are issued subject to monetary ceilings.

4. In the actual issue of licences, applications are divided into three categories:

- (1) Applications from manufacturers requiring raw materials or semi-finished goods for their industries.
- (2) Applications from established importers.
- (3) Applications from new-comers.

5. In the case of actual consumers, licences are issued for raw materials and semi-finished articles required by them for their manufactures on the basis of their estimated requirements. The applicants are required to state the actual or estimated consumption of these raw materials, and licences are issued on the basis of these estimates.

6. For the purpose of licensing, established importers have been defined as those who have imported the commodity during any of the years between 1937-38 and 1947-48. Licences are issued to them on the basis of their past imports of that particular commodity. The applicants are required to furnish evidence of Customs bills of entry showing their actual import during any one year between 1937-38 and 1947-48.

7. In the case of actual consumers or established importers no specific time-limit is laid down for the receipt of applications from them. The applications are considered as and when they are received. New-comers applications are entertained only for those commodities for which there is a substantial monetary ceiling fixed. The commodities for which new-comer licences are issued are specified in the notice issued at the beginning of the half year. Licences are issued to new-comers liberally for those articles which are to be liberally licensed. Applications for these liberally licensed items can be made at any time. In the case of articles restricted by monetary ceilings applications are invited up to a prescribed date. Generally speaking, 10 per cent. of the monetary ceiling is reserved for new-comers in respect of those restricted items for which the monetary ceiling fixed exceeds Rs. 10 lakhs. Licences to new-comers have been issued during July-December, 1948 mainly on the following principles:

- (1) The applicants were dealers (although not importers) in the same line of trade for which they apply for import licences or in an allied line.
- (2) There was evidence to show that they were in touch with foreign suppliers.

(3) That the applicants have paid income-tax and therefore presumed to have sufficient financial standing to make use of the new-comer licences.

8. The procedure stated in the above paragraphs applies generally to all commodities with two exceptions:

(i) Licences for capital goods for specific projects are issued in consultation with other Ministries responsible for the planned development of the industry concerned or after discussion at a fortnightly inter-Ministerial meeting in the case of unplanned industries.

(ii) Licences for steel, non-ferrous metals and machine tools are issued by officers of the Ministry of Industry and Supply, mainly:

(1) on the basis of offers of supply from foreign countries and

(2) after consideration of supply position in as well as the internal distribution of these commodities in India.

9. A further change recently made in the licensing procedure is that except in the case of licences for liberally licenced commodities, the applicant is required to produce a certificate from the Income-tax Department, that he has been regularly making his returns of income and giving all reasonable facilities for the assessment and collection of income-tax to which he is liable.

**Exports.**—For the purposes of licensing of exports, the controlled commodities, as enumerated in the Schedule annexed to the Export Trade Control Notification, consist of four parts—(A), (B), (C) and (D). Articles in part (A) are in extreme short supply in the country and are not allowed to be exported. Those in part (B) and (C) are at present controlled by the Ministries of Food and Industry and Supply respectively and licences are granted by them. Those covered by part (D) are controlled by the Ministry of Commerce.

2. The general policy for allowing exports of controlled commodities in part (D) is to grant licences on the established shippers' basis, i.e., on the basis of exports of the commodity effected by the applicant to the destination concerned during a fixed basic period. In the exportable surplus of which has fallen considerably in respect of such commodities, except raw jute since (the Partition of the country), a percentage of the total quota available for export is reserved for new-comers, i.e. those intending exporters who have connexion with the commodity concerned but who have not effected any exports during the basic period. The percentage reserved for new-comers depends upon (a) the nature of the commodity, i.e. whether it is a commodity in the export of which a large number of new-comers connected with it have not yet entered and deserve encouragement, (b) the total quota available for export, i.e. whether the quantity available is sufficiently large to accommodate the selected percentage of new-comers, and (c) the nature of the basic period fixed, i.e. whether the basic period fixed is fairly old so that a larger number of new-comers who would have normally entered trade since then have to be accommodated. The basic period fixed for oils and oilseeds as well as for jute goods in January, 1947 to June, 1948. In view of the late period selected as well as in view of the fact that in case of oils and oilseeds the total quotas available have been reduced considerably, while in the case of jute goods, most of the traders connected with the jute goods business have already entered into export trade, the share reserved for new-comers is 10 per cent. In the case of cloth, however, where the basic period is generally 1941-42, the percentage reserved for new-comers is 25.

3. Apart from commodities which are licensed on an established shippers' basis, there are other commodities which are either allowed to be exported by manufacturers on the basis of their production or freely on the basis of business done with overseas buyers. There are other commodities, e.g., hosiery which are allowed to be exported by established shippers, by new-comers and by manufacturers. The general policy in regard to export of several commodities to hard-currency areas is to allow exports freely on the basis of business done with overseas buyers.

4. Exports to Pakistan are also licensed within the broad framework of this policy, i.e., exports are either allowed freely as in the case of jute goods or under special Governmental arrangements as in the case of cotton cloth, or on the established shippers—new-comers principle as in the case of matches and mustard oil, which are also exported by manufacturers. There are two outstanding features of licensing of exports to Pakistan. Firstly, the volume is very large, as can be seen from the fact that the total volume of work at the Headquarters on account of Pakistan so far since the 1st March, 1948, has exceeded the total volume of work in respect of all other countries put together. Secondly, there are no independent and reliable records of pre-partition exports and exporters, apart from the fact that there was no clearly defined class of pure exporters as in the case of other countries.

## STARRED QUESTIONS AND ANSWERS

The licensing policy has, therefore, to be somewhat elastic. For example, in the case of mustard oil 40 per cent. of the quota is reserved for crushers, who had exported the oil to Eastern Pakistan before the imposition of control, 50 per cent. for established exporters who had exported mustard oil to Eastern Pakistan prior to the imposition of control and 10 per cent. to other new exporters who had exported mustard oil to Eastern Pakistan after the imposition of the control against licences issued to them as new-comers.

5. Recently it has also been decided that licences should not be granted to those firms who have been evading income-tax or are not regularly submitting income-tax returns. Applicants for licences, therefore, have to produce certificates of Income-tax Verification in the prescribed form before the licensing authorities. Those classes of applicants, however, who are specifically exempt from income-tax are also exempt from this requirement.

**Shri H. V. Kamath:** Are any of our art treasures being exported to foreign countries?

**The Honourable Shri K. C. Neogy:** I am afraid I have no information.

**Shri Mahavir Tyagi:** What authority issues these licenses and at what places? Where are these offices located?

**The Honourable Shri K. C. Neogy:** The principal offices are at Delhi. We have two Chief Controllers, one on the Exports and the other on Imports side. Then at three port towns of Bombay, Calcutta and Madras there are Officers and organizations who also issue licenses.

**Shri Mahavir Tyagi:** Is it a fact that permits and licenses to those persons who have not been importing for the last 11 years have been refused?

**The Honourable Shri K. C. Neogy:** If the honourable member would bring these facts to my notice, I will examine them.

There may have been occasions for such refusal.

**Shri Mahavir Tyagi:** I want to know if it is the policy of the Government to allow imports to those persons who are dealing in the trade?

**The Honourable Shri K. C. Neogy:** That is the general policy.

**Prof. N. G. Ranga:** When was this policy according to which these licenses are being issued last reviewed and were any changes made?

**The Honourable Shri K. C. Neogy:** The policy comes up for revision every six months.

**Shri Mahavir Tyagi:** Have any cases of corruption come to the notice of the Honourable Minister from Calcutta or other Port Offices?

**The Honourable Shri K. C. Neogy:** Allegations were received and certain cases were taken up by the Police.

**Shri Mahavir Tyagi:** Why did the Government not think it feasible to allot this work to a Board or Committee to decide the cases.

**Mr. Speaker:** He is arguing it.

**Pandit Mukut Bihari Lal Bhargava:** I want to know whether any percentage is fixed in respect of import licenses of luxury goods, consumer goods and capital goods—I mean percentage of imports made in India?

**The Honourable Shri K. C. Neogy:** This is too general a question. Certain percentages are fixed for certain classes of commodities. If my honourable friend wants any definite information, I hope he will give me notice.

**Shri Raj Bahadur:** Will the Honourable Minister state the number of licenses given to newcomers during last year?

**The Honourable Shri K. C. Neogy:** I am afraid I require notice.

**Shri Raj Bahadur:** What are the criteria discriminating one application from another?

**Mr. Speaker:** Need not be answered.

**Prof. N. G. Ranga:** Is it a fact that the 10 per cent. that has been reserved for new-comers has been completely allotted to those applicants who have applied for it or was there any lacunae in it?

**The Honourable Shri K. C. Neogy:** I think the entire quantity was allotted as far as I remember, subject of course to certain conditions being satisfied by individual applicants.

#### VIOLATION BY SHIPPERS OF BAN ON EXPORT OF GUNNY SACKS TO SOUTH AFRICA

**\*306. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Commerce be pleased to state whether Government are aware that the Shippers have broken the Indian and Ceylonese ban on the export of gunny sacks to South Africa by re-exporting them from Singapore and Hong Kong in the months of September and November, 1948?

(b) Have the Government of India made any enquiries into the matter and if so, with what results?

(c) What steps have so far been taken by the Government of India against such shippers with a view to avoid a recurrence of such events?

(d) What measures have the Government of India taken or intend to take to ensure that such events do not occur in future?

**The Honourable Shri K. C. Neogy:** (a) and (b). Reports have been received from time to time that jute goods have reached South Africa from Italy, Singapore and Hong Kong. Enquiries are being made through the various appropriate channels with a view to verifying these reports.

(c) Government are investigating whether any Indian exporters have been responsible for the shipments of jute goods which were alleged to have taken place from Italy, Hong Kong and Singapore to South Africa. Meanwhile, exports of jute goods to Singapore and Hong Kong have been restricted and firms suspected of having taken part in such activities in India have been blacklisted.

(d) The following measures have been adopted to ensure that jute goods exported from India to various countries are not subsequently re-exported to South Africa:

(1) Before quotas for various importing countries are released, the Governments of those countries are asked to give a guarantee that the goods will not in any circumstances be allowed to be re-exported to South Africa;

(2) In fixing destination quotas, care is taken to see—

(i) that the quantities fixed for individual destinations are just sufficient to meet their own domestic requirements; and

(ii) that these countries receive only the quantities which they were accustomed to take in the past.

(3) In regard to allocations in excess of the destination quota, a guarantee is taken from the importing government that the consignment will be used for home consumption and not for re-export. A bond is also required to be executed by the export-

er undertaking the production of a certified copy of the Bill of Entry from the appropriate authorities of the importing country; and

(4) any failure on the part of an exporter to comply with these conditions is met by condign punishment in the shape of cancellation of his quotas and his being made ineligible for any further quotas for the rest of the year.

**Pandit Mukut Bihari Lal Bhargava:** May I know what has been the consequence of this?

**The Honourable Shri K. C. Neogy:** I suppose we have succeeded in a large measure in preventing further shipments reaching South Africa.

**Shri R. K. Sidhva:** May I know since when they have been successful?

**The Honourable Shri K. C. Neogy:** It is a matter of inference.

**Shri K. Hanumanthaiya:** How many such firms are there in the black list?

**The Honourable Shri K. C. Neogy:** There are about seven firms, two of them operating from San Francisco and New York respectively. The other five are in India.

**Shri Deshbandhu Gupta:** Have Government given sufficient publicity to the names of these firms?

**The Honourable Shri K. C. Neogy:** In some cases at least enquiries are pending and it would not be fair to give wide publicity at this stage to all the names.

**Shri T. T. Krishnamachari:** May I ask the Honourable Minister if he is considering the desirability of restricting export transactions of this nature to a Government to Government basis?

**The Honourable Shri K. C. Neogy:** Does the honourable member mean that the jute trade as a whole should be taken over?

**Shri T. T. Krishnamachari:** Jute manufactured goods.

**The Honourable Shri K. C. Neogy:** Yes, as a class, that is rather too wide a proposition. As a matter of fact, we want to stimulate our exports, particularly to hard currency areas, and for that purpose we have to be very liberal, at least in regard to the hard currency countries, and we should like to stimulate these exports through private agencies which would be more effective specially by way of earning dollars for us.

#### HOUSE PURCHASED IN NEW YORK FOR INDIAN EMBASSY

**\*307. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that the Government of India have purchased an old New York residence to be used as Headquarters of the Indian Embassy in the U.S.A. and if so, at what cost?

(b) What rent was being paid by the Government of India for accommodation for the staff of the Indian Embassy lodged at different places in New York?

(c) What are the reasons which prompted the Government of India to purchase the said building on payment of dollars, and how much saving do Government expect to make by having their own building?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) Yes a privately owned building has recently been purchased in New York at a cost of dollars 3,50,000 to provide accommodation for the Permanent Representative with the United Nations, the Indian Consulate General and other establishments of the Government of India which were located in rented buildings.

(b) Dollars 66,000 per annum.

(c) Offices of the permanent representative of the Government of India with United Nations, the Consul General for India, the Indian Seamen's Welfare Officer, the Indian Information Services, and part of Indian Supply Mission, were scattered in different parts of New York. The accommodation available for some of these offices was also inadequate. The building now purchased will provide accommodation for all offices in New York with the possible exception of the Seamen's Welfare Centre which, for the convenience of sailors, will have to be located near the docks.

Financially the purchase of this building will result in a recurring saving to Government as an amount representing only six years rental has been paid as the capital cost of acquisition. This scheme had the approval of the Standing Committee of the Legislature attached to the Ministry of External Affairs and Commonwealth Relations in February last.

**Shri H. V. Kamath:** Who was the owner of this property prior to our purchase?

**Dr. B. V. Keskar:** I have not the name of the owner with me. If the honourable member wants it I will supply it.

**Shri H. V. Kamath:** Who negotiated the purchase on behalf of India?

**Mr. Speaker:** What is the point of this question?

**Shri H. V. Kamath:** Because I am coming to the next one.

**Mr. Speaker:** Then he may put the next question straight away.

**Shri H. V. Kamath:** It might be rather abrupt.

**Mr. Speaker:** It takes a rather long time.

**Shri H. V. Kamath:** I would rather not put it, then.

**Prof. N. G. Ranga:** Why was this question not placed before the Standing Finance Committee before this expenditure was incurred?

**Dr. B. V. Keskar:** I think it must have come at some stage or other before the Standing Finance Committee.

**Prof. N. G. Ranga:** It has not come.

**Mr. Speaker:** He obviously does not know.

#### IMPORT OF RICE-BRAN FROM BURMA

**\*308. Prof. N. G. Ranga:** Will the Honourable Minister of Commerce be pleased to state:

(a) whether it is a fact that there is plenty of rice-bran in Burma, selling at low prices and not in demand for local needs;

(b) whether Government are aware of India's urgent need of it as cattle food; and

(c) if so, whether Government propose to take any special steps to facilitate its import into India?

**The Honourable Shri K. C. Neogy:** (a) There is an exportable surplus of rice-bran available in Burma. But the price would not appear to be low considering that sales have been made to the U.K. at £ 11 per ton.

(b) and (c). The Government of India are consulting the Provincial and State Governments in the matter, and if there is a sufficient demand for this cattle-feed, they will consider the question of taking special steps to facilitate its import into India.

#### INDIAN LABOURERS IN BURMA BEING THROWN OUT OF EMPLOYMENT

**\*309. Prof. N. G. Ranga:** Will the Honourable the Prime Minister be pleased to state:

(a) whether the attention of Government has been drawn to the A.P.I. press report of 23rd December, 1948 from Madras published in the *Statesman* dated the 25th December 1948 that nearly two lakhs of Indian labourers are likely to be thrown out of employment as a result of the nationalisation of land in Burma; and

(b) whether Government have advised the Indian Delegation going to Burma headed by Dr. Pattabhi Sitaramayya to study this matter and to persuade the Burmese Government to prepare schemes for providing these labourers with alternate employment?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) Yes, Sir.

(b) There is no reason to believe that this press report is true. It is not expected that the Land Nationalisation Act in itself will result in large scale unemployment of Indian labourers in Burma. The question of persuading the Burma Government to take the action suggested does not therefore arise. The Burma Government have in fact given an assurance that, in the distribution of resumed lands under the Act, no discrimination will be made against Indians, on grounds of nationality. The visit of the delegation led by Dr. Pattabhi Sitaramayya has been postponed indefinitely at the request of the Government of Burma.

**Prof. N. G. Ranga:** Is it a fact that a large number of our Indian workers has been anxious to come back to our Country, and they are only awaiting the necessary shipping facilities?

**Dr. B. V. Keskar:** I may inform my honourable friend that our Ambassador in Burma has standing orders that any Indian labourer or labourers who want to come to India shall be provided, if they are not able to afford it, with free passage and all other facilities.

**Shri M. Ananthasayanam Ayyangar:** May I know from the Honourable Minister if the news that appeared in this morning's papers that the Burma Government have postponed the question of the nationalization of land is correct?

**Dr. B. V. Keskar:** I have no information on the point.

#### TREATY WITH UNITED STATES OF AMERICA

**\*310. Seth Govind Das:** (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that a treaty with the United States of America is under discussion with the American Embassy officials?

(b) If so, what stage has it reached?

† Answer to this question laid on the table, the questioner being absent.

**The Honourable Shri Jawaharlal Nehru:** (a) Yes, a treaty of Friendship, Commerce and Navigation is being considered.

(b) A draft treaty presented by the American Embassy has been under discussion between the officers of the Ministries of Commerce, Finance and External Affairs and the appropriate officers of the American Embassy. A questionnaire was prepared in regard to the points on which clarification was considered necessary and presented to the American Embassy who referred it to Washington. Replies to these questions are awaited.

#### REPATRIATION OF UNEMPLOYED INDIAN LABOURERS FROM BURMA

\*311. **Seth Govind Das:** (a) Will the Honourable the Prime Minister be pleased to state whether Government are aware of a resolution passed by the All Burma Indian Congress urging the Government of India to formulate a scheme for the early repatriation of unemployed Indian labourers from Burma?

(b) If so, what action do the Government of India propose to take in that direction?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) Yes, Sir.

(b) No scheme for the early repatriation of unemployed Indian labourers from Burma is considered necessary. Our Ambassador is authorised to arrange for the return passages of such Indians in Burma as are found to be destitute and are unable to meet the expenses themselves.

#### PORTUGUESE POSSESSIONS IN INDIA

\*312. **Seth Govind Das:** (a) Will the Honourable the Prime Minister be pleased to state whether the attention of Government has been drawn to the statement recently made by the Governor of Portuguese Possessions in India, that Portuguese India will always be Portuguese?

(b) Is it a fact that there are negotiations going on between the two countries on this question?

(c) If so, what is the result of those negotiations?

**The Honourable Shri Jawaharlal Nehru:** (a) Yes.

(b) and (c). I regret to say that no progress has been made in this matter. The Government of India's policy in regard to foreign possessions in India, as has been stated previously, is wholly in consonance with the Jaipur Congress Resolution. We believe that for a variety of reasons it is natural and proper that all foreign possessions in India should be united to India. We propose to give effect to this policy through friendly discussions with the Foreign Powers concerned. It has been difficult to have direct communications with the Portuguese Government because there were no direct contacts between the two Governments. Now that diplomatic relations have been established, these negotiations will take place.

#### REVISION OF RULES OF ALLOTMENT OF GOVERNMENT QUARTERS

\*313. **Dr. V. Subramaniam:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that certain offices

† Answer to this question laid on the table, the questioner being absent.

were sent away from Delhi/Simla during the last war and that the lien of the staff of such offices on permanent Government quarters was forfeited as a result thereof?

(b) If the answer to part (a) above be in the affirmative, what steps have been taken to restore their lien?

(c) Is it a fact that those Government servants who were sent away to Calcutta with certain Secretariat offices were restored their seniority for purposes of eligibility to Government accommodation?

(d) Is it a fact that the Accommodation Advisory Committee decided that seniority of all Government servants who were affected as above should be revised with reference to their original date of appointment and if so, why have no orders been issued revising the entitlement rules?

**The Honourable Shri N. V. Gadgil:** (a) Yes.

(b) The matter is under active consideration in consultation with the Accommodation Advisory Committee and other Ministries.

(c) Yes. The concession was given only to those Government servants who were sent away on duty in a Secretariat office in Calcutta prior to 1st April 1945.

(d) No. The Accommodation Advisory Committee made certain suggestions for the consideration of this Ministry. After very careful consideration it has been decided to amend certain rules which are expected to be issued soon.

**Shri O. V. Alagesan:** Is not it a fact that these offices were removed at the instance of the Government of India and the officers are not responsible for this?

**The Honourable Shri N. V. Gadgil:** That is true.

**Dr. V. Subramaniam:** How many quarters are still necessary for Government officials?

**The Honourable Shri N. V. Gadgil:** All the buildings constructed by this Ministry are exclusively allotted to Government officials.

**Dr. V. Subramaniam:** My question is how many quarters are still necessary for allotment to Government officials?

**The Honourable Shri N. V. Gadgil:** There are yet 17,000 officers of all categories still to be accommodated.

**Shri O. V. Alagesan:** Will Government put the other officers on the same footing as the Secretariat officers?

**The Honourable Shri N. V. Gadgil:** Not exactly on the same footing but some equitable rules are being worked out and they will be issued shortly.

#### FACTORIES FOR MANUFACTURE OF BASIC POWER PLANTS

\*314. **Prof. N. G. Ranga:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) whether the Government of Madras has requested the Government of India to locate one of their basic power plant manufacturing factories in Madras; and

(b) what are the plans of the Government of India for starting such factories?

**The Honourable Shri N. V. Gadgil:** The question should have been addressed to the Honourable Minister of Industry and Supply. It has accordingly been transferred to the list of questions for 15th February, 1949 when the Honourable Minister of Industry and Supply will answer it.

#### AGREEMENTS BETWEEN INDIA AND PAKISTAN

**\*315. Prof. N. G. Ranga:** (a) Will the Honourable the Prime Minister be pleased to lay on the table of the House, copies of the Inter-Dominion Agreement so far reached after the division of the Country, regarding:

- (i) railway communications;
- (ii) refugees;
- (iii) evacuees' properties;
- (iv) abducted women; and
- (v) commerce and trade?

(b) Is there any officer or department or directorate specially entrusted with the task of watching the progress of the implementation of these agreements?

(c) Is such progress being periodically examined by the whole Cabinet or any sub-committee thereof?

**The Honourable Shri N. Gopaldaswami Ayyangar** (Minister for Railways and Transport): (a) A statement showing the Inter-Dominion Agreements reached with Pakistan together with copies of these agreements is placed on the table of the House.

(b) and (c). The Commonwealth Relations Wing in the Ministry of External Affairs and Commonwealth Relations is responsible for watching progress in the implementation of the Inter-Dominion Agreements and co-ordinating all action connected therewith. Matters requiring reference to the Cabinet are, in the first instance, examined by a Committee of Secretaries specially set up for the purpose, and later dealt with by the Cabinet as a whole or by a sub-committee of the Committee, depending on the nature of the cases concerned.

#### *Statement showing the Inter-Dominion agreements entered into with Pakistan*

1. Agreement reached in December, 1947 on matters relating to refugees.
2. Agreement reached in January, 1948 on food supplies.
3. Agreement reached in March, 1948 on food supplies.
4. Agreement reached in March, 1948 regarding recovery of abducted women, exchange of prisoners and other matters relating to refugees.
5. Agreement, dated 31st March, 1948 in regard to modifications in the monetary agreement between India and Pakistan.
6. Agreement reached at Calcutta in April, 1948 on all issues outstanding at that time between the two Dominions, particularly in regard to measures for stopping the flow of refugees from East Bengal to West Bengal and *vice versa*.
7. Agreement reached in May 1948 at Officers' Level Conference regarding outstanding financial matters.
8. Agreement reached at Karachi in May 1948 on mutual supply of essential commodities required by one from the other and further agreements on clarification and arrangements for fulfilment thereof entered into in October, 1948 and November, 1948.
9. Agreement, dated 30th June, 1948 relating to payments between the two Dominions.

\* Printed as Appendix to the day's Debate.

10. Agreement reached in July, 1948 regarding evacuees' property.

11. Agreement reached in July, 1948 on food supplies.

12. Agreement on recovery of abducted women reached in September, 1948 and modified further in November, 1948.

13. Agreement reached in November, 1948 at Officers' Level Conference regarding outstanding financial matters.

14. Agreement reached at New Delhi in December, 1948 on all outstanding issues between the two Dominions, political, economic, financial, boundary disputes, partition matters, division of stores, etc. (Copy already placed on the table of the House in reply to Shri R. K. Sidhva's question No. 85 on 3rd February, 1949.)

15. Karachi (January, 1949) agreement regarding evacuees' property and other issues arising out of the agreement reached in December, 1948.

**Shri H. V. Kamath:** Is it a fact that the work of rescue and restoration of abducted women has been for some time practically at a standstill?

**The Honourable Shri N. Gopaldaswami Ayyangar:** That is so. Very little has been done during the last two or three months.

**Prof. N. G. Ranga:** Why is it so?

**The Honourable Shri N. Gopaldaswami Ayyangar:** Because we were negotiating a new set of arrangements with Pakistan for the purpose of facilitating the work. The conclusions were reached only a few weeks ago.

#### GOVERNMENT QUARTERS OCCUPIED BY REFUGEES

**\*316. Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state the number of houses allotted to Government servants in the year 1948?

(b) How many of them are being occupied by the allottees?

(c) How many of them are not occupied by the allottees?

(d) Does the Estate Office enquire whether the houses are vacant before allotments are made?

(e) How many houses for Government servants under the Estate Office are being occupied by refugees?

(f) Has the Estate Office issued notices of eviction to these refugees?

(g) In how many cases has the Estate Office issued eviction notices more than once?

(h) Is rent being collected regularly from the occupants of these houses?

**The Honourable Shri N. V. Gadgil:** (a) Delhi 4,800, Simla 260, Bombay 168, Calcutta 409;

Total 5,697.

(b) Delhi 4,001, Simla 260, Bombay 167, Calcutta 409;

Total 4,837

(c) Delhi 859 Simla NIL, Bombay one, Calcutta NIL;

Total 860.

534

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [11TH FEB. 1949]

(d) During normal times allotment of houses is always made after they become vacant. At present, however, in order to avoid houses being occupied by unauthorised persons, allotments are made in advance of actual vacation.

(e) As in (c) above.

(f) The reply is in the affirmative so far as Delhi is concerned. As regards Bombay an ejectment suit has been filed.

(g) None.

(h) What is recoverable from refugees in unauthorised occupation of Government Quarters is damages and not rent. These are being recovered from them.

**Shri H. V. Kamath:** Does the Minister propose to utilise some of the houses of the Rulers of States which have been requisitioned by Government for this purpose?

**Mr. Speaker:** This question was put two days back.

**Shri H. V. Kamath:** I did not put it this way.

**Mr. Speaker:** Anyway it is a suggestion for action and not asking for information.

**Shrimati Dakshayani Velayudhan:** Is it not a fact that some of the officials of the Estate Office and even policemen approached the refugees, who occupied government quarters which are allotted to government servants, for eviction after issuing eviction notices?

**The Honourable Shri N. V. Gadgil:** What is the information asked for?

**Mr. Speaker:** In cases of houses allotted to government servants, the complaint seems to be that the Estate Office officials and policemen approached the occupants for evicting the refugee occupants.

**The Honourable Shri N. V. Gadgil:** That is not true. The houses are allotted to government servants but the government servants are permitted under the present circumstances to share their accommodation with refugees.

**Shrimati Dakshayani Velayudhan:** I want to know whether it is a fact that these people approached the refugees to get illegal gratification?

**The Honourable Shri N. V. Gadgil:** I cannot say how far it is true but if any complaint is brought to my notice I shall certainly consider it.

**Shri Mahavir Tyagi:** Have cases come to the notice of the Honourable Minister where even members of the Constituent Assembly have sublet their houses allotted to them?

**The Honourable Shri N. V. Gadgil:** I hope I will not be asked to give a frank, correct and complete answer to that question.

**Mr. Speaker:** It is a very inconvenient question.

#### COUNTRIES INVITED TO ASIAN CONFERENCE

**\*317. Shri Biswanath Das:** Will the Honourable the Prime Minister be pleased to state the number of countries that were invited and those that accepted India's invitation to the Asian Conference held in New Delhi in January 1949?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): Nineteen countries were invited to the Conference on Indonesia and eighteen of them whose names are given below accepted the invitation:

(1) Afghanistan. (2) Iran. (3) Egypt. (4) Ethiopia. (5) Saudi Arabia. (6) Syria. (7) Lebanon. (8) Iraq. (9) Yemen. (10) China. (11) Burma. (12) Siam. (13) Nepal. (14) Pakistan. (15) Ceylon. (16) Australia. (17) New Zealand. (18) Philippines.

**Shri H. V. Kamath:** Why were Japan and the U.S.S.R. excluded?

**Dr. B. V. Keskar:** Japan is not a country which can be taken to be free in its dealings with the outside world.

**Shri H. V. Kamath:** Why was the U.S.S.R. excluded then?

**The Honourable Shri Jawaharlal Nehru:** Neither the U.S.A. nor England nor the U.S.S.R. were invited. Countries directly concerned were invited. Though other countries like the U.S.A. and United Kingdom are interested, they are interests of outside powers in Asia. Only countries which are either neighbouring or directly concerned were invited. Apart from that the nature of the Conference would have become something quite different if we had invited all the nations of the world and converted it into some kind of United Nations Assembly here.

**Shri H. V. Kamath:** Is the Prime Minister aware that the U.S.S.R. Foreign Ministry, apparently in a fit of pique has made rather an undignified attack on the Asian Conference?

**The Honourable Shri Jawaharlal Nehru:** I have seen some kind of a press report.

**Shri Deshbandhu Gupta:** May I know whether Turkish Government gave any reasons for not accepting the invitation?

**The Honourable Shri Jawaharlal Nehru:** The Turkish Government expressed their entire goodwill for the Conference and for its objects and indeed afterwards for the results of the Conference, though, however, they said that they regretted greatly their inability to attend it.

**Shri H. V. Kamath:** Does India as the prime mover and sponsor of the Asian Conference on Indonesia propose to make a demarche in the next session of the General Assembly of the United Nations, in case the Netherlands pursued a stand-pat and stay-put policy in Indonesia?

**Mr. Speaker:** The question is hypothetical and therefore not permissible.

**Shri Biswanath Das:** May I know why countries like Egypt, New Zealand and Australia were invited to the Conference?

**The Honourable Shri Jawaharlal Nehru:** Because those countries were intimately interested in it. For instance, Australia is one of the countries which took considerable interest in the Indonesian problem at the United Nations.

**Shri H. V. Kamath:** Before the Soviet Foreign Ministry issued the statement to which I referred earlier, were there any diplomatic contacts or exchanges between the Soviet Ambassador here and our Foreign Minister on this issue?

**The Honourable Shri Jawaharlal Nehru:** No, Sir.

**Mr. Tajamul Husain:** Was any reason given by Turkey for not attending the Conference?

**Mr. Speaker:** That has been answered already.

**Mr. Tajamul Husain:** The Honourable the Prime Minister has not given the reason.

**The Honourable Shri Jawaharlal Nehru:** We cannot ask the reasons for another Government's action. In a very polite and friendly answer they said that they were entirely in agreement with the objects of the Conference but they regretted they could not attend it.

#### SHIFTING OFFICES OF CENTRAL WATER POWER, IRRIGATION AND NAVIGATION COMMISSION ETC. TO NASIK

**\*318. Shri B. N. Munavalli:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that Government propose to shift the offices of the Central Water Power, Irrigation and Navigation Commission, the Central Electricity Commission and the Central Board of Irrigation from Delhi to Nasik and if so, for what reasons?

(b) Have Government decided to construct buildings for the said offices and their staff in Nasik?

(c) If so, what is the estimate of expenditure towards the construction of the said buildings?

(d) Was the estimate of expenditure for the said buildings placed before the Standing Finance Committee and has its sanction been obtained?

**The Honourable Shri N. V. Gadgil:** (a) Yes. To ease the accommodation position in Delhi and Simla where these offices are located at present, it has been decided to shift these offices to Nasik.

(b) Yes.

(c) A rough preliminary estimate has been made.

(d) Not yet. The scheme will be placed before the Standing Finance Committee probably in March next when the detailed estimates have been fully worked out.

**Shri O. V. Alagesan:** Have Government in view the shifting of any other offices to important centres in the country?

**The Honourable Shri N. V. Gadgil:** The position is that the Government have appointed a sub-committee which is going into the question.

#### RECOMMENDATIONS OF PROFIT SHARING COMMITTEE

**\*319. Prof. N. G. Ranga:** Will the Honourable Minister of Labour be pleased to state:

(a) whether Government have adopted the recommendations of the Profit Sharing Committee; and

(b) what steps they propose to take to implement such of those recommendations as have been accepted?

**The Honourable Shri N. V. Gadgil (Minister for Works, Mines and Power):** (a) and (b). The recommendations of the Committee on Profit Sharing were placed before the Central Advisory Council of Labour which has been set up in accordance with Government's Industrial Policy Resolution of the 6th April 1948 to consider the question of Profit Sharing and other subjects arising from the Industrial Truce Resolution of December 1947. The Council considered the report and remitted it for further examination by the Committee on Fair Wages. Further action on the part of Government will be considered after the report of the Central Advisory Council is received.

**Shri M. Ananthasayanam Ayyangar:** May I ask if the Committee's report will be placed before the Standing Committee for Industries also as they are also interested?

**The Honourable Shri N. V. Gadgil:** This shall be noted.

**Shri V. C. Kesava Rao:** What are the industries that are asked by the Government to share their profits with labour?

**The Honourable Shri N. V. Gadgil:** The Government has appointed a Committee and all those matters are already there in the report of the Committee.

**Shri B. Das:** Will Government consult the Provincial Governments and the various industries affected before they come to any decision on the matter?

**The Honourable Shri N. V. Gadgil:** This will also be kept in mind.

**Prof. N. G. Ranga:** Were not the recommendations considered the other day at the recent Conference of Industrialists and others called by the Government?

**The Honourable Shri N. V. Gadgil:** I want notice of that.

**Shrimati Dakshayani Velayudhan:** Have these recommendations been made as an experimental measure?

**Mr. Speaker:** They are yet under investigation.

#### LABOUR WELFARE OFFICERS IN ASSAM

**\*320. Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Labour be pleased to state how many Labour Welfare Officers appointed by the Government of India are now functioning in Assam?

(b) What is the total approximate number of labourers, working in factories, plantations, Railways and Steamer Services in Assam?

**The Honourable Shri N. V. Gadgil (Minister for Works, Mines and Power):** (a) I would invite honourable member's attention to my reply to Question No. 223 put by him on the 8th February 1949.

|                          | Numbers employed |
|--------------------------|------------------|
| (b) Factories (1947)     | 56,119           |
| Plantation (1947)        | 492,512          |
| Assam Railways (1947-48) | 31,201           |

The number of labourers employed in the Steamer Services in Assam is not readily available.

**Srijut Rohini Kumar Chaudhuri:** Labour Officers appointed may not be Labour Welfare Officers. May I ask the Honourable Minister whether any Labour Officers appointed by the Government of India are working in Assam?

**The Honourable Shri N. V. Gadgil:** It does not arise out of this.

#### INDIAN CONSUL-GENERAL AT KASHGAR IN SINKIANG

**\*321. Shri Brajeshwar Prasad:** Will the Honourable the Prime Minister be pleased to state:

(a) the salary and emoluments fixed for our new Consul-General at Kashgar in Sinkiang; and

(b) whether the Consul-General is a permanent officer in the Ministry of External Affairs?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) Officiating pay ... Rs. 800 p.m. in the scale of Rs. 800-50-1150.

Foreign Allowance ... Rs. 700 p.m.

Free accommodation.

(b) He has been appointed on probation to a permanent post in the Indian Foreign Service on the recommendation of the Federal Public Service Commission. He was commissioned in the Army on 1st October, 1941 and his services were placed at the disposal of the late External Affairs Department from 4th June, 1945.

**Prof. N. G. Ranga:** Under whose control is this Sinkiang—under the Chinese Government or the Russian Government?

**Dr. B. V. Keskar:** Under the Chinese Government.

**Shri H. V. Kamath:** In what respects is this foreign allowance to which the Minister referred different from the representation allowance allowed to Ambassadors? Is it different in category or in name only?

**Dr. B. V. Keskar:** There is a sumptuary allowance allowed to Ambassadors, charge-d'affaires and such representatives and there is a foreign allowance for making up the difference in exchange and also probably the higher cost of living in foreign countries. Both are different things.

**Shri H. V. Kamath:** My reference was to representation allowance, not to sumptuary allowance. How far is it different from this foreign allowance? Is there a thing called representation allowance or not?

**Mr. Speaker:** Order, order. He probably wants notice.

**Prof. N. G. Ranga:** What is our means of communication with this place, Sinkiang? Is it by road or air?

**Mr. Speaker:** These are not matters within the special cognizance of the Minister.

**The Honourable Shri Jawaharlal Nehru:** We have had telegrams from there frequently.

#### GOVERNMENTS POLICY RE CONSTRUCTION OF MORE HOUSES

**\*323. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what is the policy of Government with regard to the construction of more houses?

+ Answer to this question laid on the table, the questioner being absent.

(b) What steps have they taken to encourage private persons in this regard?

(c) What facilities have Government given so far as availability of steel, cement, iron and wood are concerned to private individuals?

**The Honourable Shri N. V. Gadgil:** The question should have been addressed to the Honourable Minister of Health and that it has accordingly been transferred to the list of questions for 14th February, 1949 when the Honourable Minister of Health will answer it.

#### ALL-INDIA RESERVE POOL OF ELECTRICAL GENERATING PLANTS

**\*323. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what was the amount involved in the transactions concerning all India Reserve Pool of Electrical Generating Plants for the years 1947-48 and 1948-49?

(b) Was there any loss and if so, what is the amount involved?

(c) What is the value of the machinery made available to (i) Central and (ii) Provincial Governments?

(d) What is the value of machinery made available to (i) private firms and companies and (ii) private individuals during the years 1947-48 and 1948-49?

**The Honourable Shri N. V. Gadgil:** (a) The amount involved in the transactions concerning the Pool was as follows:

|         |                                    |
|---------|------------------------------------|
| 1947-48 | Rs. 46.31 lakhs                    |
| 1948-49 | Rs. 79.39 lakhs<br>(approximately) |

(b) There was a net loss of 3.19 lakhs during the year 1947-48, which is, however, likely to be more than offset by the profits that will be realized on the subsequent transactions.

(c) and (d). A statement showing the value of plant sold to Central Government, Provincial Government (including State Governments and statutory bodies) and private companies is laid on the table of the House. No plant was sold to any private individual.

#### STATEMENT

| Party to which<br>Plant was sold                                                                      | Value of plant sold during |             |
|-------------------------------------------------------------------------------------------------------|----------------------------|-------------|
|                                                                                                       | 1947-48                    | 1948-49     |
|                                                                                                       | Rs.                        | Rs.         |
| Central Government organisations                                                                      | 7.93 lakhs                 | 1.93 lakhs  |
| Provincial Governments, State Governments<br>and statutory bodies e. g. Damodar Valley<br>Corporation | 40.53 lakhs                | 14.62 lakhs |
| Private firms and Companies                                                                           | 14.34 lakhs                | 12 lakhs    |

#### PLANTERS ASSOCIATIONS AND LABOUR ORGANISATIONS OF TEA ESTATES

**\*324. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Commerce be pleased to state how many Tea Planters Associations exist in India?

(b) How many of them are registered bodies and what are their names?

(c) Are there any organisations of labourers working in the tea estates of India?

(d) If so, how many and what are their names?

+ Answer to this question laid on the table, the questioner being absent.

**The Honourable Shri K. C. Neogy:** (a) Thirty-three.

(b) The information called for by the honourable member is being collected and will be placed on the table of the House as soon as possible.

(c) Yes.

(d) Four, according to available information. They are (1) Darjeeling Chiya Kaman Workers Union, B. N. Darjeeling; (2) Labour Front of All India Gurkha League, Darjeeling; (3) Estate Staff Association, Hardypet Volparai, Madras; and (4) South India Planters' Workers' Union, Coonoor. Full information as to exact number and names of organisations is being collected and will be placed on the table of the House as soon as possible.

**Shri H. V. Kamath:** Has the Honourable Minister any proposal in view to nationalise our tea plantations?

**The Honourable Shri K. C. Neogy:** I am afraid that does not rise out of this question.

**Srijut Rohini Kumar Chaudhuri:** Does the Honourable Minister mean to say that there are no tea planters' associations in Assam?

**The Honourable Shri K. C. Neogy:** I did not say that. Actually I did not give the names of the tea planters' associations. I give the names only of the labour organisations.

**Shri Raj Bahadur:** Can the Honourable Minister tell the number and proportion of Europeans on these tea planters' associations?

**The Honourable Shri K. C. Neogy:** I am afraid I want notice.

#### DISPOSAL OF APPEALS PENDING BEFORE PRIVY COUNCIL

**\*325. Srijut Rohini Kumar Chaudhuri:** Will the Honourable Minister of Law be pleased to state why the appeals pending before the Privy Council could not be heard by the Federal Court of India?

**The Honourable Dr. B. R. Ambedkar:** Appeals pending before the Privy Council could not be heard by the Federal Court because that Court does not have the necessary jurisdiction. The appeals are before the Privy Council and not before the Federal Court.

**Srijut Rohini Kumar Chaudhuri:** Is it a fact that these appeals will be heard in India by the Privy Council?

**The Honourable Dr. B. R. Ambedkar:** I have no such information.

**Mr. Tajamul Husain:** By when will all the appeals that are pending with the Privy Council be heard in India?

**The Honourable Dr. B. R. Ambedkar:** I have said I have no such information.

**Mr. Tajamul Husain:** May I know if there are Indian Judges on the Privy Council now?

**The Honourable Dr. B. R. Ambedkar:** I do not know; I must have notice of that question.

**Mr. Tajamul Husain:** Does India pay anything now towards the maintenance of the Privy Council?

**The Honourable Dr. B. R. Ambedkar:** It used to pay the salary of the Indian Judges.

**Mr. Tajamul Husain:** I am asking now—after Independence.

**The Honourable Dr. B. R. Ambedkar:** I must have notice.

**Shri Deshbandhu Gupta:** What is the number of the pending appeals, may I know?

**The Honourable Dr. B. R. Ambedkar:** So far as my information goes the number of appeals pending before the Privy Council is 187.

**Shri L. Krishnaswami Bharathi:** Is it in consonance with the attainment of Independence that India should allow appeals to the Privy Council.....?

**Mr. Speaker:** He is asking for opinion and arguing.

**Pandit Thakur Das Bhargava:** May I know how many of these are criminal appeals and applications?

**The Honourable Dr. B. R. Ambedkar:** I want notice.

**Shri Mahavir Tyagi:** When do you intend to suspend the Privy Council?

**Mr. Speaker:** Order, order.

#### REVISION OF RULES OF ALLOTMENT OF GOVERNMENT QUARTERS

**\*326. Shri Damoder Swarup Seth:** Will the Honourable Minister of Works, Mines and Power be pleased to refer to the reply to my starred question No. 1045 asked on the 30th March, 1948 and state whether the rules of allotment of quarters to Government employees in Delhi have since been revised?

**The Honourable Shri N. V. Gadgil:** After very careful consideration it has been decided to make certain amendments to the Allotment Rules. These amendments were recently discussed at a meeting at which all the Ministries of the Government of India were represented. The further suggestions made at this meeting are now under consideration and orders will issue shortly.

**Shri H. V. Kamath:** Is any Priority or Procedure List maintained for allotment purposes?

**The Honourable Shri N. V. Gadgil:** What sort of priority, may I have some idea about it?

**Shri H. V. Kamath:** Any sort of priority.

**Mr. Speaker:** That will be vague enough.

**Shri H. V. Kamath:** Does he have a list before him, showing the order of priority?

**Mr. Speaker:** He has said the matter is under consideration.

**Shrimati Dakshayani Velayudhan:** Has the Government any idea of the number of government servants who are staying in hotels in Delhi?

**The Honourable Shri N. V. Gadgil:** There is no information immediately available of that, but there are 17,000 officers of all categories who are without government accommodation.

**Shri M. Ananthasayanam Ayyangar:** Has the Government considered the desirability of putting two Ministers into one house and two Secretaries into one house?

**Mr. Speaker:** It is a suggestion for action.

## DISPUTE BETWEEN AUTHORITIES AND EMPLOYEES OF TEZPUR BALIPARA RAILWAY IN ASSAM

\*327. **Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Labour be pleased to state whether the dispute between the authorities and the employees of the Tezpur Balipara Railway in Assam has been settled?

(b) If not, is it proposed to appoint a tribunal to inquire into and adjudicate in the dispute?

**The Honourable Shri N. V. Gadgil** (Minister for Works, Mines and Power): (a) The Regional Labour Commissioner, Calcutta, who undertook conciliation, succeeded in bringing about a settlement acceptable to both the parties on the major issues involved. Complaints have, however, been received recently from the Union that the Company has failed to give full effect to the terms of the settlement and that it has indulged in certain acts of victimisation against union workers. The matter is being further investigated.

(b) The question of appointing a tribunal will be examined after the report of the investigation is received.

**Srijut Rohini Kumar Chaudhuri:** May I know what is exactly standing in the way of appointing a tribunal to inquiry into the dispute? Is it a fact that Government is unwilling to appoint a tribunal because this wretched railway has not begun to function?

**Mr. Speaker:** Order, order. He should not argue.

**The Honourable Shri N. V. Gadgil:** The answer is that all means of reconciliation must be exhausted before a tribunal can be contemplated.

**Mr. Speaker:** The question hour is over.

**Some Honourable Members:** No, Sir, there is still one minute.

**Mr. Speaker:** I do not see so. It is the difference in the levels which makes for the difference in the clock. But if the House is agreed that there is one minute, I will call the next question.

## APPOINTMENT OF MR. S. S. BAJPAI TO INDIAN EMBASSY IN FRANCE

\*328. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Commerce be pleased to state whether Mr. S. S. Bajpai was removed from Government service and, if so, what were the reasons for his removal?

(b) Is Mr. Bajpai at present attached to the Indian Embassy in France?

**The Honourable Shri K. C. Neogy:** (a) Yes. Mr. S. S. Bajpai was removed from Government service in 1939 on grounds of chronic indebtedness, non-disclosure of certain items of debt and disregard of warnings previously given.

(b) Yes.

**Shri H. V. Kamath:** Why was such a man appointed at our Embassy in Paris?

**The Honourable Shri K. C. Neogy:** That would necessitate a study of past history for some years. He was re-appointed virtually by the Government that removed him. His initial re-appointment took place in 1942 in the Information and Broadcasting Department. He was thereafter transferred in 1945 to the Commerce Department for an overseas trade appointment. He was then appointed Indian Government Trade Commissioner in Paris on a contract basis for a period which expired in the autumn of 1948. The Special Selection Board which was set up to recruit over-age candidates for the Indian Foreign

Service recommended that his services should be continued on a contract basis. On the termination of this period Government decided that he might continue in his post without any fixed period being mentioned, that is to say, he has not been given any contract.

**Some Honourable Members rose—**

**Mr. Speaker:** No question now.

## UNSTARRED QUESTIONS AND ANSWERS.

## NAMES AND TITLES OF INDIAN AND FOREIGN AMBASSADORS

2. **Lala Raj Kanwar:** Will the Honourable the Prime Minister be pleased to state:

(a) the names of foreign countries which are represented by Ambassadors in India together with the names and courtesy and other titles, if any, of such Ambassadors; and

(b) the names with their courtesy and other titles, if any, of Ambassadors of India in foreign countries?

**The Honourable Shri Jawaharlal Nehru:** (a) and (b). I place a statement on the table of the House.

## STATEMENT

*Ambassadors of Foreign Countries in India.*

| S. No. | Name of the country       | Designation | Name and courtesy titles                                                          |
|--------|---------------------------|-------------|-----------------------------------------------------------------------------------|
| 1      | Afghanistan               | Ambassador  | His Excellency Sardar Nijibullah Khan.                                            |
| 2      | Belgium                   | Ambassador  | His Highness the Prince de Ligne.                                                 |
| 3      | China                     | Ambassador  | His Excellency Dr. Lo Chia-Luen.                                                  |
| 4      | Czechoslovakia            | Ambassador  | His Excellency Monsieur Jaroslav Sejnoha.                                         |
| 5      | Egypt                     | Ambassador  | His Excellency Monsieur Ismail Kamal Bey.                                         |
| 6      | France                    | Ambassador  | His Excellency Monsieur Daniel Levi.                                              |
| 7      | Iran                      | Ambassador  | His Excellency Monsieur Mussa Noury Esfandiari.                                   |
| 8      | Nepal                     | Ambassador  | His Excellency Commanding General Sir Shingha Shumshere Jung Bahadur Rana, K.B.E. |
| 9      | Netherlands               | Ambassador  | His Excellency Monsieur Arnold Theodor Lamping.                                   |
| 10     | Turkey                    | Ambassador  | His Excellency Monsieur Ali Turkgoldi.                                            |
| 11     | United States of America. | Ambassador  | His Excellency Mr. Loy W. Henderson.                                              |
| 12     | U.S.S.R.                  | Ambassador  | His Excellency Monsieur Kirill Vasilevitch Novikov.                               |

*Ambassadors of India in Foreign Countries.*

| S.No. | Name of The Country       | Disignation | Name and Courtesy titles                                        |
|-------|---------------------------|-------------|-----------------------------------------------------------------|
| 1     | Afghanistan               | Ambassador  | His Excellency Wing Commander Rup Chand.                        |
| 2     | Brazil                    | Ambassador  | His Excellency Mr. M. R. Masani.                                |
| 3     | Burma                     | Ambassador  | His Excellency Dr. M. A. Rauf, B.C.L. (Oxon), LL.D. Bar-at-Law. |
| 4     | China                     | Ambassador  | His Excellency Sardar K. M. Panikkar.                           |
| 5     | Czechoslovakia            | Ambassador  | His Excellency Mr. N. Raghavan, Bar-at-Law.                     |
| 6     | Egypt                     | Ambassador  | His Excellency Dr. Syud Hossain, Bar-at-Law.                    |
| 7     | Iran                      | Ambassador  | His Excellency Syed Ali Zaheer, Bar-at-Law.                     |
| 8     | Nepal                     | Ambassador  | His Excellency Wing Commander Sardar Surjit Singh Majithia.     |
| 9     | Turkey                    | Ambassador  | His Excellency Diwan Chaman Lall, Bar-at-Law.                   |
| 10    | United States of America. | Ambassador  | His Excellency Mr. B. Rama Rau.                                 |
| 11    | U.S.S.R.                  | Ambassador  | Her Excellency Shrimati Vijayalakshmi.                          |

## MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF EXTERNAL AFFAIRS AND COMMONWEALTH RELATIONS

3. **Shri R. K. Sidhva:** (a) Will the Honourable the Prime Minister be pleased to state the number of meetings of the Standing Committee for the Ministry of External Affairs and Commonwealth Relations held during the calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) Four.

(b) Total number of members of the Committee is ten. Four members attended the first meeting and nine members attended each of the remaining three meetings.

## MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF COMMERCE

4. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state the number of meetings of the Standing Committee for the Ministry of Commerce held during the calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Shri K. C. Neogy:** (a) and (b). I lay on the table of the House a statement showing the required information.

## STATEMENT

| Total number of meetings held | Dates   | Total number of members | Attendance at each meeting |
|-------------------------------|---------|-------------------------|----------------------------|
| 4 Four                        | 20-2-48 | Ten                     | Five.                      |
|                               | 4-4-48  | Ten                     | Five.                      |
|                               | 21-5-48 | Ten                     | Seven.                     |
|                               | 5-9-48  | Ten                     | Five.                      |

## MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF RELIEF AND REHABILITATION

5. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state the number of meetings of the Standing Committee for the Ministry of Relief and Rehabilitation held during the calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Shri Mohan Lal Saksena:** (a) Five.

(b) There are ten members of the Committee. The attendance at each meeting is as follows: 1st Meeting 7, 2nd Meeting 7, 3rd Meeting 6, 4th Meeting 6, 5th Meeting 6.

## MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF WORKS, MINES AND POWER

6. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state the number of meetings of the Standing Committee for the Ministry of Works, Mines and Power held during the calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Shri N. V. Gadgil:** (a) Five.

(b) There are ten members of the Standing Committee excluding the chairman. The first meeting was attended by all the ten members; the second by five; the third by eight; and the fourth and fifth by nine members.

## REHABILITATION OF REFUGEES FROM EAST BENGAL

7. **Shri Arun Chandra Guha:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state what is the approximate number of refugees from East Bengal?

(b) What is their distribution province-wise and also in the adjacent states?

(c) What steps have those provinces and states so far taken for the relief and rehabilitation of these refugees?

(d) Have the Government of India received any schemes for their rehabilitation from these provinces and states; and, if so, have they approved of any such scheme?

**The Honourable Shri Mohan Lal Saksena:** (a) The honourable member is referred to the reply given by me to part (a) of Starred Question No. 92 by Sardar Bhopinder Singh Man on the 3rd February, 1949.

(b) No census of refugees from East Pakistan has been taken so far. I am placing on the table of the House a statement of available tentative figures.

(c) and (d). The honourable member is referred to the reply given by me to part (c) of Starred Question No. 92 by Sardar Bhopinder Singh Man on the 3rd February, 1949.

Statement showing the number of refugees from Eastern Pakistan arrived in the Provinces and adjacent States

| Provinces      | Number of Refugees arrived from East Bengal |
|----------------|---------------------------------------------|
| 1. Assam       | 2,50,000                                    |
| 2. West Bengal | 15,60,000                                   |
| 3. C.P.        | 591                                         |
| 4. Bihar       | 2,234                                       |
| 5. U.P.        | 2,000                                       |
| 6. Orissa      | 542                                         |
| 7. East Punjab | ..                                          |
| 8. Madras      | ..                                          |
| 9. Bombay      | ..                                          |
| 10. Delhi      | ..                                          |
| 11. Ajmer      | 3                                           |
| 12. Tripura    | 45,000                                      |
| 13. Cooh Behar | 10,165                                      |
| Total          | 18,70,535                                   |

#### QUESTIONS WRONGLY ADDRESSED. TO OTHER MINISTER

श्री मोहन लाल गौतम: पेश्तर इसके कि आप आज का काम लें, मैं यह अर्ज करना चाहता हूँ कि जब सवाल पेश किये जाते हैं, तो अक्सर देखने में आता है कि जवाब में मिनिस्टर साहिब कह देते हैं कि इसका जवाब उनके बजाय फ़लां मिनिस्टर साहब देंगे। मेरे ख्याल में जब सवाल पहले जाता है, तभी उसको ठीक जगह वापिस कर दें और इसका इन्तजार न किया जाये कि उसकी वावत मिनिस्टर साहब हाऊस में जवाब दें, या वह मिनिस्टर साहब खुद उसको दूसरे मिनिस्टर साहब के पास भेज दें। इस तरीके से काफी वक्त खराब होता है और उस सवाल का जवाब कई महीनों तक के लिये मुलतवी हो जाता है। इसका जनाब कोई माकूल इलाज तजवीज फ़रमायें

(English translation of the above)

Shri Mohan Lal Gautam: Sir, before you proceed with the business of the day, I would like to submit that when questions are put, generally the Honourable Ministers say in reply that the question will be answered by some other Minister. In my opinion when the question is sent in the first instance, it should be returned then and there to the proper quarters without awaiting for the Honourable Minister to reply in the House; or the Honourable Minister should personally pass it on to the other Minister who is concerned. A good deal of time is wasted in this way and the reply to that question is postponed for months together. A proper remedy may kindly be found out.

Mr. Speaker: The honourable member is perhaps under a misapprehension. Whenever it is found that a Question is wrongly addressed, immediately the correction is made first in the Speaker's office. It is only in cases where the mistake is found at a very late stage—after the printing stage etc.—that such answers are given; not otherwise. Such cases are more or less by way of exception. In all human affairs, there might be some slip at some time or other. That is the whole position.

#### APPENDIX

(Vide answer to starred question No. 315).

#### AGREEMENT No. I—DECISIONS REACHED AT THE SECRETARIAT LEVEL MEETING OF THE INTER DOMINION REPRESENTATIVES ON 18TH, 19TH AND 20TH DECEMBER, 1947 AT NEW DELHI

##### ITEM No. I—INSURANCE COMPANIES

It is agreed that Companies which have moved their Head Offices to India will advise the Reserve Bank through the Government of India that 15 per cent. of the statutory deposits made by them with the Reserve Bank shall be deemed to be held on account of the policy holders now resident in Pakistan until the Superintendent of Insurance has determined the appropriate percentage of policy liability pertaining to persons at present resident in Pakistan.

2. The Superintendent of Insurance is to be requested to report the appropriate percentage figure by the 15th of January, if possible.

3. On behalf of the Companies which have moved their Head Offices to India, an undertaking is given that their assets, other than statutory deposits with the Reserve Bank of India, will not be reduced or withdrawn from Pakistan to the detriment of Pakistan policy holders.

4. Insurance Companies, in particular General Insurance Companies, will be accorded all reasonable facilities by the Pakistan Government in respect of protection and investigation of claims for their representatives who must go to investigate and appraise claims which have already arisen or may arise hereafter. The Government of India will accord reciprocal facilities. Agents of such companies should report to the Home Secretary, Government of West Punjab; and similarly agents of companies in Pakistan should report to the Home Secretary, East Punjab, Jullundur. Both Governments will advise the companies concerned to send out agents and investigators, as far as possible, belonging to communities which *prima facie* would not require protection.

5. In respect of investigation of claims in N.-W. F. P. and Sind, the procedure agreed upon in respect of West Punjab will apply and the agents of companies concerned will report to the Chief Secretary to the N.-W. F. P. and Home Secretary, Sind, for grant of necessary facilities. It is understood that reciprocal facilities will be accorded in the Delhi Province. Agents of Companies concerned will approach the Deputy Commissioner, Delhi, for grant of necessary facilities.

6. Complaints in regard to delay in settlement of claims will be referred by Pakistan to Mr. Ranganathan, Joint Secretary, Ministry of Commerce, Government of India and complaints from India will be referred to Mr. Karamatullah, Joint Secretary, Ministry of Commerce, Pakistan, Karachi. It is recognised, however, that settlement of claims can be expedited only after the companies concerned get their records, equipment, furniture, etc.

7. It is agreed that as soon as the provisional allocation under para. 1 has been made, the companies concerned may remove their Head Office records, equipment, furniture, fittings, etc., and for this purpose they should make application to the Custodian of Evacuee Property, West Punjab, Lahore.

8. The same procedure should apply in respect of any insurance companies in other parts of Pakistan, who may have removed their Head Offices to India.

## ITEM No. II—SUPPLEMENTARY—RESTORATION OF LICENSED ARMS AND AMMUNITION.

There are two categories here:

- (a) Persons who hold receipts for licensed arms and ammunition taken away from them;
- (b) persons who do not hold such receipts.

In regard to (a) the Conference is agreed that the two Dominion Governments should issue instructions to Provincial Governments to have such arms and ammunition restored. In regard to (b) it is agreed that the Dominion Governments should furnish lists of cases to each other and all such cases should be promptly investigated.

2. Pakistan representatives stated that lately there have been numerous complaints of Muslims being searched, presumably for fire arms, at various places, particularly in U. P. and the C. P. It is further stated that according to reports private property including cash, has been taken away during these searches. Mr. Grigson mentioned two particularly bad cases where girls travelling on refugee specials from Delhi are alleged to have been raped by soldiers of the escort. The Representatives of Government of India agreed that if particulars are given of these various incidents they would be fully investigated and the result of each communicated to Pakistan Government. The Pakistan representatives suggested that the Government of India should circularise Provincial Governments drawing their attention to the agreement regarding personal searches. Mr. Punjabi mentioned a recent case where non-Muslims, presumably cleared from pockets in West Punjab, are alleged to have been searched and all belongings except one trunk per person and a bedding between four persons are reported to have been taken away. The Conference agreed that any breaches of the agreement between the two Dominions in regard to searches should be reported to each other and promptly investigated and the results intimated. The Conference decided that the Secretaries of the Dominion Ministries of Relief and Rehabilitation should be the agencies for handling this category of cases.

## SUB ITEM (I) UNDER ITEM III.—ARTICLES HELD IN SAFE CUSTODY, SAFE DEPOSIT IN BANKS OR SAFE DEPOSIT ACCOUNTS

It is agreed that

- (a) the depositor must be deemed to be the person entitled to claim such property and take possession thereof; and
- (b) if any person other than the depositor claims the whole or part of the contents standing to the account of a depositor, either as a pawnor or a bailor, such claim must be lodged by a prescribed date.

In regard to Lahore it is understood that the District Magistrate fixed 15th of December 1947 as the last date by which such claims must be lodged. It is agreed that the last date for lodging of such claims in respect of other places in West Punjab shall be the 10th of January 1948.

2. In respect of deposits against which no claim is lodged by the prescribed date, depositors concerned will be allowed full facilities to operate the deposits or to withdraw them partly or completely. The procedure in this behalf will be that the depositor or his duly accredited agent will present an application to the

Custodian of Evacuee Property, West Punjab, who will grant the necessary permission as a matter of course. In districts of West Punjab, other than Lahore, such application will be made to the Deputy Custodian concerned, who again will grant permission as a matter of course. In the N.-W. F. P. such application will be made to the Controller appointed under Section 3 of Ordinance X of 1947 promulgated in that province.

3. As for deposits in respect of which a claim has been lodged, it is agreed that, when the depositor or his duly accredited agent presents an application to the Custodian of Evacuee Property or to the Deputy Custodian concerned in the West Punjab, or to the Controller concerned in N.-W. F. P., this officer will immediately release such part of the deposit as is not in dispute and against which there is no claim. In regard to the balance, a final decision shall be made as speedily as possible. The same procedure will apply in Baluchistan and applications will be made to the Custodian of Evacuee Property in that Province.

4. So far as the Custodian, Deputy Custodian, or Controller is concerned, a permit to operate a deposit will be issued in the name of the depositor and not his accredited agent. It will be for the bank etc. to satisfy itself that the person presenting the permit is the depositor himself or his duly accredited agent.

5. No restrictions on operation of vaults, bank deposits etc. have been imposed by India so far; but in the spirit of the agreement reached with Pakistan in this matter, if any person now resident in Pakistan has any difficulty whatsoever in regard to deposits of this nature, he or his accredited agent should apply to the Custodian of Evacuee Property, East Punjab or Delhi Province, as the case may be, who will give such assistance as may be necessary.

6. In regard to States in either Dominion, the Dominion Governments agree to endeavour to have the same procedure implemented.

7. If at any time hereafter restrictions on operation of safe deposit vaults etc. are imposed in the Indian Union, the Government of India agree to implement the same procedure as has now been agreed upon in respect of West Punjab, N.-W. F. P. and Baluchistan.

ADMITTED BY THE INTER-DOMINION SECRETARIAT LEVEL CONFERENCE HELD ON 18TH-20TH DECEMBER 1947

General Plan Regarding Treatment of Property left behind by Evacuees.  
Reported by Joint Sub-Committee.

Immovable Property:—

(1) It is agreed and re-affirmed that ownership of all immovable property left by an evacuee in either Dominion remains undisturbed and continues to vest in that evacuee.

(2) (a) It is agreed that out of the immovable property left by evacuees and vested in the Custodian, the Rehabilitation authorities of the Dominion concerned may take over for temporary use for a fixed period of years such property as is required by them *bona fide* for purposes of rehabilitation of refugees from the other Dominion, but not for other or collated purposes.

(b) The maximum period for which the Rehabilitation authorities may take over immovable evacuee property should not exceed the following:

- (i) Residential property—3 years.
- (ii) Commercial and Industrial undertaking—4 years.
- (iii) Agricultural property—3 years.

(iv) The question of properties owned by Institutions and Trusts would be considered later separately.

(c) In respect of property taken over by Rehabilitation authorities from the Custodian, the rentals payable by the Rehabilitation authorities to the Custodian should be determined by the Custodian, with reference to fair value and not with reference to the rents at which the Rehabilitation authorities decide to make available the user of those properties to refugees. It is the intention that concessions given to refugees should be at the cost of the Rehabilitation authorities and not of the evacuee owners.

(3) Where the property is not required by the Rehabilitation authorities, and if the owner makes his own arrangements for the proper management of such property on his application to the Custodian such property shall be restored to him for management and/or disposal as the owner may deem fit. Where the management has not yet been taken over by the Custodian, he may on the owner's application allow him to retain the management.

(4) Where property is taken over by the Rehabilitation authorities, the owner shall have full right and facilities to transfer, by sale, exchange or otherwise, such property subject to the retention of the property by the Rehabilitation authorities for the period of years mentioned in para. 2 (b).

(5) Where property has been returned to the owner for management or is not required by the Rehabilitation authorities, the owner shall be given full facilities for transfer of the property whether by sale, exchange or otherwise. These facilities will include the employment of private dealers and brokers to arrange exchanges or sales.

(6) Where the owner, in spite of the freedom and facilities to transfer his property, considers or finds himself unable to do so he may proceed in the following manner:—

(i) **Urban property:**—(a) He may at any time apply to the Government of the Dominion to which he has moved for transfer of the property through official agency.

(b) For dealing with such applications the two Dominions will set up a joint agency for the purpose of joint valuation of the property in question by means of assessors acting under the joint agency.

(c) The joint Inter-Dominion agency will take all possible steps to arrange for disposal of the property at or above the value arrived at by assessment by the joint agency. In this respect the joint Inter-Dominion agency will act merely as agents of the owner on each side. Neither Dominion, however, accepts responsibility for taking over urban property at the price assessed by joint evaluation.

(ii) **Agricultural property:**—(a) Any owner of agricultural property who considers or finds himself unable to arrange transfer of it, by sale, exchange or otherwise, by private means may apply to the Government of his Dominion requesting disposal through official agency.

(b) The two Dominions will set up a joint agency which will draw up a schedule of prices for agricultural property in both Dominions with reference to, firstly classification of different types of land such as homestead, chahi, nahri, barani, banjar, etc. and secondly with reference to territorial divisions which may be districts, subdivisions, tahsils or in any particular case other convenient territorial division.

(c) When the schedule of prices has been decided upon by the joint agency, all agricultural property in respect of which transfer through official channels has been applied for, will be valued and assessed with reference to such schedule. The particulars of holdings and rights therein will be determined from the prepartition village records.

(d) Each Dominion undertakes to take over at the value assessed in the above manner, all agricultural property lying in its territory and to make payment to the other Dominion of the said assessed value. After taking over the agricultural property at the assessed value, the Dominion concerned will be free to dispose of it in any manner it chooses and any profit or loss arising therefrom will not concern the other Dominion.

(e) Each Dominion, after taking over agricultural property in its territory in accordance with above, will arrange to pay to evacuee owners their territory the assessed value of their holdings in the other Dominion. Such payment may be by way of allotment of land or in cash or both.

(7) It is agreed that the basis for valuations as also for fixation of rentals will be "fair-value".

(8) It is agreed that no restrictions will be placed by either Dominion on remittances of sale proceeds of property or of cash differences in value in cases of exchanges of property.

(9) It is recognized that in respect of the Dominion to Dominion liability arising out of the taking over by each Dominion of agricultural property jointly valued, the Dominion owing a net amount after evaluation and adjustment may require time for payment. The period and method of payment may be determined by a further agreement between the Dominions after the amount payable have been estimated or determined.

**Movable Property.**—It was agreed that the right of ownership of any moveables continues to vest in the owner and that the owner should be given the right either to remove them or to dispose of them himself or to receive reasonable compensation therefor subject to the following:—

(a) Moveables required by Government for Governmental purposes *i.e.* in respect of administration:—the acquiring authority will acquire from the Custodian on payment of fair value.

(b) Moveables required by the rehabilitation authorities for purposes of rehabilitation of refugees may be acquired from the Custodian on payment of fair value.

(c) Moveables of a commercial or industrial undertaking where the owner at any time before disposal of such moveables applies to the Custodian for return of the undertaking to him for the purpose of his running it at its original site, may be restored to the owner by the Custodian on such conditions as he thinks fit. This permission may or may not include the permission to operate through agents.

(d) Moveables not comprised in (a), (b) and (c) above which nonetheless are considered essential to the life of the community and cannot, therefore, be allowed to go outside the Dominion—In this category will fall those moveables the export of which has been prohibited by a prohibitory order by the Dominion or the Provincial Government. In such cases on application from the owner the

Custodian will allow the owner to make his own arrangements for the disposal of the moveables within the Dominion.

- (e) As regards the balance the owner will be given the right and full facilities to deal with or dispose off as he thinks fit including permission to remove outside the Dominion.

2. Para. II (i) is subject to any agreements subsisting or to be made between the Dominions with regard either to export or import of articles or on other matters affecting moveables.

3. In respect of moveables comprised in commercial or industrial undertakings the following facilities will be given to owners in respect of inventories and valuation:

- (a) Within a period of one month of a date to be prescribed for the purposes, the owner may apply to the Custodian informing him that he will either appear personally or through a specified agent for the purpose of being present at the time of preparation of inventories or for being heard with regard to valuation of the moveables by the Custodian. During this period of one month no action to the prejudice of the owner will be taken.

- (b) Each Dominion may appoint Liaison Officers at such places as it may desire for the purpose of assisting evacuees who have moved to that Dominion in regard to preparation of inventories and valuation. It shall be open to the owner to appoint such Liaison Officer as his agent.

- (c) In regard to any undertaking in respect of which the owner has signified his desire to appear personally or be represented by his agent, the Custodian will arrange that freedom and facilities are given to the owner or his agent to be present at the time of preparation of inventories and at the time when the valuation is decided by the Custodian.

- (d) Where the orders passed by any officer under the Custodian require confirmation by the Custodian the owner or his agent shall be given an opportunity to be heard by the Custodian before the order confirming or varying valuation is passed.

- (e) Where an order of valuation has been passed by an authority subordinate to the Custodian himself, and the order does not require confirmation by the Custodian, the owner shall have the right to appeal to the Custodian.

4. (a) With regard to household effects, under the subsisting agreement between the Dominions the evacuee has a right to remove all his household effects. This right when exercised in relation to household effects in the meantime allotted to or taken possession of by a refugee tends to create a condition of insecurity for the refugee and hinders rehabilitation. Therefore, it is proposed that a list be drawn of articles of household goods which are required for rehabilitation and which the Rehabilitation department may ask the Custodian to retain for use of the refugee on full compensation in cash being paid. This cash value will be payable to the evacuee and he will be allowed to remove it outside the Dominions.

(b) It is agreed that in regard to the household effects owners on both sides should be expected to remove them as early as possible and should be required to do so within three months from the date of operation of arrangements to be made in that behalf. It was agreed that arrangements facilitating the removal of such goods should be made by the two Dominions.

(c) The household goods belonging to evacuees which are not removed by the evacuee by the end of the said three months may be disposed of by the Custodian to the best advantage and the money credited to the account of the evacuee.

5. Moveables which are known to be property of evacuees but which are not identifiable to particular evacuees will be sold by the Custodian to the best advantage and the amount kept under a separate account. The disposal of such monies will be discussed by the Dominions at a subsequent date.

6. The above principles will generally apply to moveable property. It is recognised that special categories or special articles will require special treatment, and each Dominion agrees at the suggestion of the other Dominion, to hold discussions to consider the establishment of special arrangements with regard to particular commodities or categories of articles.

HONOURABLE MR. JUSTICE REHMAN,

G. MUEENUDDIN

K. B. LALL.

Y. K. PURI.

#### Resolution

The Conference considered the joint plan regarding treatment of property left behind by evacuees, produced by the Sub-Committee consisting of:

- (1) Mr. Justice A. Rahman, Custodian of Evacuee Property, West Punjab,
- (2) Mr. Mueen-ud-din Commissioner of Rehabilitation, West Punjab,
- (3) Mr. Y. K. Puri, Deputy Secretary, Ministry Without Portfolio,
- (4) Mr. K. B. Lal Deputy Secretary, Partition Office.

It was agreed that this paper be considered by Governments on both sides and each Dominion furnish its own scheme for treatment of property both moveable and immoveable to a Joint Committee not later than 5th January 1948.

It was further agreed that the Joint Committee should report on the two schemes not later than the 12th January. This would probably give one week to the two Dominions to consider the report of the Joint Committee before the Inter-Dominion Ministers Conference which should meet as soon as possible after the 20th of January.

The Conference felt that the membership of the Joint Committee may well be increased. The consensus of opinion was that the membership should not exceed eight i.e., four representatives from each Dominion.

S. K. KIRPALANI,—19-12-47.

W. V. GRIGSON,—19-12-47.

#### INTERIM ARRANGEMENTS REGARDING PROPERTY

1. Sec. 4(3) (b) of the West Punjab Ordinance No. VII of 1947 will not be brought into operation until final decisions in an Inter-Dominion agreement have been reached.

2. Sec. 5(2). The intention is that Custodian will scrutinize the terms and conditions in arrangements made by the Rehabilitation Authorities and revise them where necessary with a view to bring them into conformity with the principles now agreed upon.

3. Sec. 9. A press note is to be issued to the effect that in regard to sec. 9 of the W. P. Ordinance VII of 1947, the question of permitting transfers etc. is under discussion between the two Dominions and it is the intention of the Government of Pakistan that until the conclusion of such discussions, no action will be taken under the provisions of this section to the prejudice of parties to the transfer of persons claiming under such transfers of property or rights. But such persons should nonetheless within the prescribed period apply to the Custodian for registration of such transfers.

4. Sec. 12(d) (ii). In the interim period action under this clause will not be taken and applications made will be kept pending.

5. Sec. 12(e). It was explained by the Custodian that it was not intended to make refugees a charge on evacuee property. Mr. Puri suggested that in order to avoid mixing up funds held for evacuees and funds disbursed for rehabilitation purposes the normal procedure of separate account heads for the two items—one of receipts and other of expenditure—should be adopted. Mr. Rahman and Mr. Mueen-ud-din promised to examine the matter.

6. Sec. 12(i). Refer to Note under Sec. 4(3) (b).

7. In the interim period, action regarding sales, allotments etc. of moveables forming part of commercial or industrial undertakings will be suspended, except in regard to essential industries and businesses. A list of such essential industries and business will be supplied by each Government immediately. Instructions will be issued that in regard to such a clear week's notice will be given certain predetermined papers. The Rehabilitation Department will not proceed to allot or make inventories till the week's notice has expired. Owners will in the interim period enjoy the right of representation at the time of making inventories and valuations.

#### INTERIM ARRANGEMENTS REGARDING PROPERTY.

The Conference considered the question of interim arrangements to be made regarding property until a long term settlement could be reached. The paper produced by the Sub-Committee "Interim arrangements regarding property" was adopted with the following modification:

In paragraph 3 pertaining to Section 9 of West Punjab Ordinance No. VII of 1947 the clause "No action will be taken under the provisions of this Section to the prejudice of persons claiming under such transfers of property or rights" was amended to read "No action will be taken under the provisions of this Section to the prejudice of parties to the transaction or of persons claiming under them".

In regard to paragraph 7, the Commissioner of Rehabilitation West Punjab explained that the list of essential industries and businesses may not be quite small because the procedure contemplated in paragraph 7 and the procedure contemplated in regard to the long term settlement would mean that the process of rehabilitation would probably be held up for quite two months, which in his opinion, would be unfortunate. The representatives of India pointed out that the procedure contemplated under paragraph 7 was intended to make immediate satisfactory arrangements for an interim period which period it was hoped would be a short one, and therefore pressed that the lists of essential industries and

businesses should be kept down to the minimum. After some discussion it was agreed that the lists would be made as short as possible.

The Pakistan representatives agreed that action contemplated in various paragraphs of this paper would be taken immediately.

The Government of India representatives drew attention of the Pakistan Government representatives to Ordinance No. IV of 1947 issued by the Governor General of Pakistan from Karachi on 10th December 1947 in regard to registration of documents pertaining to transfer of property. It was pointed out that the effect of this Ordinance was, practically, to stop all transfers of property and that this Ordinance operated very harshly against such non-Muslims as may be wishing to liquidate their properties in order to come over to India. The Pakistan representatives said that they had not been briefed on this point and that therefore they would like to receive a memorandum so that the matter may be examined on their side. It was agreed that this paragraph would be treated as the memorandum of India on the subject. The Pakistan representatives agreed to have the matter examined quickly and to send a reply as soon as possible.

#### GOVERNMENT OF PAKISTAN

#### MINISTRY OF LAW AND LABOUR.

Karachi, the 10th December 1947.

ORDINANCE No. IV OF 1947.

AN

#### ORDINANCE.

to provide for the payment of taxes before the recognition of transfer of property.

WHEREAS an emergency has arisen which makes it necessary to provide for the payment of taxes before the recognition of transfer of property.

Now therefore, in exercise of the powers conferred by section 42 of the Government of India Act, 1935 (26 Geo. 5, c. 2) as adapted by the Pakistan (Provincial Constitution) Order 1947, the Governor General is pleased to make and promulgate the following Ordinance:—

1. **Short title, extent, application and commencement.**—(1) This Ordinance may be called the Transfer of Property (Pakistan) Ordinance, 1947.

(2) It extends to all the provinces of Pakistan.

(3) It shall come into force at once in the Provinces of Sind, West Punjab, North-West Frontier and Baluchistan, and in other areas as and when the Government of Pakistan may direct.

2. **Effect of provisions inconsistent with other laws.**—Notwithstanding any other law for the time being in force the provisions of this ordinance shall have effect throughout the areas to which it applies.

3. **Registration of documents.**—No registering Officer, Revenue Officer, Custodian or other officer appointed to deal with property shall register any document, relating to property other than agricultural land, which is

required to be registered under the provisions of clause (a), (b), (c) or (e) of sub-section (1) of section 17 of the Indian Registration Act, 1908 (XVI of 1908), unless it is certified by an Inspecting Assistant Commissioner of Income-tax, in respect of every person whose right, title or interest in the property is or will be transferred, assigned, limited or extinguished under the terms of the document, either that such person is not liable to taxation under the Income-tax Act, 1922 (XI of 1922) the Excess Profits Tax Act, 1940 (XV of 1940) or the Business Profits Tax Act, 1947 (XXI of 1947), or that he has either paid or made satisfactory provision for the payment of all existing or anticipated liabilities under any of the said acts.

4. **Recovery Proceedings.**—If any right, title or interest in any property whether moveable or immoveable other than agricultural land, is, or has been transferred assigned, limited or extinguished after the 14th day of August 1947, an Income-tax officer may at any time issue a notice to all or any of the parties to the transaction requiring them to produce within one month the certificate prescribed by section 3; and if such certificate is not produced he may forward a statement to the Collector showing the existing and anticipated tax liabilities of each or any of the said parties. The Collector shall then proceed to recover the total amount shown in the statement as if it were an arrear of land revenue, and for the purpose of the recovery proceedings he may treat the said property as if it belonged to all or any of the persons named in the statement.

5. **Proceedings of suits.**—No suit, prosecution or other legal proceeding shall lie against the Dominion Government, any Provincial Government, any Income-Tax Officer or any other person or authority acting under his directions or in pursuance of any claim shown in the statement forwarded to the Collector under the preceding section, for anything which is in good faith done or intended to be done under this Ordinance.

M. A. JINNAH,

Governor-General

#### ITEM III—TREATMENT OF PROPERTY LEFT BEHIND BY EVACUEES

The Pakistan representatives suggested that the scope of agreements pertaining to the West Punjab and North-West Frontier Provinces on the one side and the East Punjab Province on the other regarding evacuee property and other connected matters, should be extended to States within East Punjab Province which have acceded to the Indian Union, and the States of Bharatpur and Alwar. The representatives of India thought that this request was reasonable and agreed to have the matter brought to the notice of Ministry of States, India. The representatives of India expressed the hope that there would be full reciprocity in this matter in regard to Bahawalpur, Khairpur and other States which had acceded to the Dominion of Pakistan.

#### ITEM IV—SAVINGS BANK DEPOSITS, POSTAL CASH CERTIFICATES AND OTHER CERTIFICATES E.G., NATIONAL SAVINGS.

(a) (1) In regard to Post Office Savings Bank Accounts it is recognised that there are two categories:

- (i) where the pass-books are available;
- (ii) where the pass-books have been lost or misplaced.

In regard to (i) it is understood that the Director General Posts and Telegraphs, Pakistan has been in correspondence with his opposite number in India and that a satisfactory procedure had been devised. It is agreed that the proper procedure should be for persons resident in Pakistan to hand over pass books at Pakistan Post Offices and that the D. G., Posts and Telegraphs, Pakistan, should consolidate such cases and forward a list to the D. G., P. & T., in India who would arrange transfer of accounts without insisting on production of passbooks or on verification of signatures.

As to (ii), where pass-books have been lost or misplaced, persons resident in either Dominion should apply to the D. G., P. & T. concerned giving particulars of post offices where they had savings bank accounts. Consolidated lists of such cases would be exchanged between the D. Gs. of the two Dominions, who would make the necessary investigations and have the accounts transferred. Once the accounts have been transferred, the responsibility of a particular Dominion towards the depositor will cease. The two D. Gs. should clear legal and procedural difficulties between themselves.

(2) It is agreed that the same procedure will apply to Post Office Five Year Cash Certificates, Defence Savings Certificates and National Savings Certificates.

It is agreed that consolidated lists on both these items, separately, should be exchanged by the two D. Gs. at regular intervals weekly or fortnightly. This is a matter for the two D. Gs. to arrange between themselves.

(b) **Deposits with Co-operative Societies, Central Co-operative Banks, Unions etc.**

The Conference is of opinion that the question of Deposits with these various Societies, Banks and Unions and of loans owing to these concerns is a complicated matter. It is, therefore, agreed that the Registrars, of Co-operative Societies, East and West Punjab, should discuss the matter and submit joint recommendations to their own Governments as soon as possible. The Conference trusts that the two Registrars will make joint recommendations not later than the 20th January, 1948.

#### ITEM V—PENSIONS.

It is agreed that all Provincial Governments in either Dominion should take definite measures to facilitate transfer of pension papers with the least possible delay. It is further agreed that all complaints of pensioners in either Dominion should be made to the Auditor General of the Dominion in which the pensioner is now residing and all such complaints will be cleared between the two Auditors General. Pending transfer of pension papers the Conference agrees to accept the suggestion made in the Pakistan Memorandum on this item. The agreement is as follows:

“When a pensioner presents his half of the Pension Payment Order, the A. G. concerned will, after obtaining the following documents, authorize a Treasury Officer or Post Master to make provisional payment:

- (a) A certificate from a Magistrate or a Gazetted Officer certifying the pensioner's identity.
- (b) An Indemnity bond from the pensioner, with two sureties, who should either be permanent Government servants or persons certified to be solvent by an Officer not below the rank of Tehsildar, agreeing to refund any amount wrongly paid.

2. Such payment should be authorized for pensions due for the period ending 31st March, 1948.”

3. In regard to pensioners who have lost their halves of the Pension Payment Order, the Conference agrees that following procedure be observed until the Treasury half of the Pension Order can be transferred from one Dominion to the other. It is understood that on receipt of the treasury part of the Pension Payment Order the A. G. concerned will issue a fresh Order. Meanwhile pensions should be paid for the period ending 31st March, 1948 on production of the following:

- (a) Certificate from a Magistrate or a Gazetted Officer certifying the pensioner's identity;
- (b) An Indemnity bond from the pensioner with two sureties, who should either be permanent Government servants or persons certified to be solvent by an Officer not below the rank of Tehsildar, agreeing to refund any amount wrongly paid;
- (c) Other corroborative evidence to show that he was in fact a pensioner and the Department and office from which he retired;
- (d) A declaration stating the amount of his monthly pension, the month upto which he had received payment and the name of the Treasury or Post Office from which he received payment;
- (e) The number of Pension Payment Order, if possible.

4. Under this procedure, pensions will be payable for the months of August 1947 to March 1948 inclusive.

5. In order that fresh permanent Payment Orders may be issued, the Auditors General of the two Dominions will collect all cases in which P. P. Os. have been lost by persons now resident in their territories and refer such lists to each other so that the Treasury Halves of the P. P. Os. may be quickly transferred.

6. The procedure agreed upon above will apply to all Provinces of either Dominion.

#### ITEM No. VII—REMOVAL OF ASSETS OF TRUSTS, EDUCATIONAL, CULTURAL, AND RELIGIOUS INSTITUTIONS.

The assets of the institutions concerned may be divided into two categories—  
(a) Moveable and (b) Immoveable.

2. In regard to Moveable assets, it is agreed that on application being presented to the Custodian of Evacuee Property, West Punjab, a quick decision shall be made in regard to equipment etc. which the Provincial Government wish to retain for their own purposes. In regard to the rest of the assets, the Custodian will grant a permit authorising removal by the party concerned. In making the decision for retention of a part of the Moveable assets, due regard will be paid to mutual needs of equipment, furniture, fittings, etc. Above all special consideration will be given to articles to which the institution attaches special cultural, sentimental, or religious importance and as far as possible such articles will be released.

3. In regard to immovable assets India requested that this category of property be taken up for special consideration apart from the general case of treatment of immovable property of non-Muslim evacuees and proposed that the Pakistan Government and Provincial Governments concerned consider the question of taking a quick decision in regard to acquisition of such property or its release so that the trustees or managers could liquidate it otherwise. The Pakistan representatives said that as India's original memorandum did not raise

this issue, there had been no occasion to consult the Governments concerned but agreed to put up India's suggestion and communicate a decision at an early date.

4. In regard to Nankana Sahib, at the request of Pakistan representatives, the representatives of India agreed to furnish a detailed memorandum. The Pakistan representatives agreed that they would endeavour to obtain a decision on the case before the Ministers' meeting sometime in January. The Pakistan representatives raised the question of Qadian and, while India's representatives maintained that the case of Qadian was not quite comparable to the case of Nankana Sahib, they agreed that if a memorandum containing definite suggestions regarding Qadian was furnished, a decision would be obtained and communicated as soon as possible.

#### ITEM VIII.—IMPLEMENTATION OF AGREED DECISIONS OF THE PARTITION COMMITTEE MADE PRIOR TO AUGUST, 15, 1947.

(a) The statement of fact made in the Pakistan Dominion Memorandum was noted and the East Punjab representatives agree to make necessary enquiries and take up the matter directly with the West Punjab Government.

(b) The Finance Secretary, East Punjab Government, stated that the rules which are now under consideration by the East Punjab cabinet will be shortly forwarded to the West Punjab Government. It is understood that whatever rules are mutually agreed upon, will be implemented in due course by both sides.

(Note 1).—The Conference agreed that the two Dominion Governments should recommend to their Provincial Governments that the arrangements made in respect of Government servants in this paragraph should apply to similar cases in their territories.

(Note 2).—The Conference agreed that the Dominion Governments themselves should sympathetically consider cases of Government servants who were killed or injured in similar circumstances between the 1st and the 15th of August 1947.

(c) The East Punjab representatives have taken note of the comments in the Pakistan Memorandum.

(d) The matter has been settled.

(e) This is covered by the agreement on pensions.

#### ITEM IX.—EXCHANGE OF UNDER-TRIAL PRISONERS.

The Pakistan representatives furnished copies of West Punjab Notification No. 507-Legislative, dated the 15th December 1947, which promulgates West Punjab Ordinance No. VIII of 1947.

2. In regard to Part II which covers transfer of persons in custody between the Provinces of West and East Punjab, it was agreed that the Home Secretaries of the two Governments should work out the mechanics. It was felt that the most convenient practice would be for the persons in custody to be collected at convenient centres from which they could be cleared. On the request of the representatives of India regarding clarification of the definition of "Hindu" in Section 19(c), the Pakistan representatives stated that the word includes members of the scheduled castes.

The representatives of India requested that the same arrangement may well be extended to the N.-W. F. P. The Pakistan representatives promised to consider the request and give a reply at an early date.

3. With regard to Part III of the Ordinance and the schedule under Section 19 pertaining to Pakistan employees of all Provinces of the Dominion of India and of States that have acceded to the Dominion of India and Muslim prisoners in the States of Alwar, Bharatpur and the States previously known as the Punjab States excluding Malerkotla, Bahawalpur and Khairpur, the representatives of India pointed out that the Government of India could not at this stage speak for the various Provinces and States, and at the request of the Pakistan representatives agreed that the Government of India will ascertain the views of the Provinces and States concerned in this matter. It was suggested that this matter would obviously have to be discussed and decided at a level higher than that of the present Conference and it was proposed that this matter should be placed on the Agenda of the Inter-Dominion Ministers' Conference to be held in January 1948.

#### ITEM XI—FACILITIES FOR REMOVAL OF RECORDS AND EQUIPMENT BY EAST PUNJAB GOVERNMENT.

(a) It was agreed that East and West Punjab Provinces should respectively nominate an officer who can clear outstanding matters between themselves.

(b) The Dominion Governments will likewise appoint officers to investigate the present position and have necessary records etc. transferred to Pakistan.

#### Item No. I of the Supplementary Agenda.—Companies (other than Insurance Companies and Banks) incorporated under the Indian Companies Act.

With regard to Companies (other than Insurance Companies and Banks) incorporated under the Indian Companies Act, the Dominion representatives agree to recommend to their respective Governments, the modification by Ordinance of the provisions of Section 76 and 131 of the Indian Companies Act to enable the Companies incorporated under the Act, which had their registered offices in their territories, but whose management has been mainly in the hands of persons who have now left those territories, to compile their accounts, file their balance sheets and profit and loss accounts and convene their General Body meetings up to 31st March 1948 or within a period of six months from the termination of the period permissible to each such company under the Act, whichever is later.

2. A draft of the Ordinance to be issued is attached for consideration by each Dominion Government.

(VIDE SUPPLEMENTARY ITEM I).

#### AN ORDINANCE.

*further to amend the Indian Companies Act, 1913.*

WHEREAS an emergency has arisen which makes it necessary further to amend the Indian Companies Act 1913 (VII of 1913), for the purposes herein-after appearing;

NOW, THEREFORE, in exercise of the powers conferred by section 42 of the Government of India Act, 1935 (26 Geo. 5, c. 2), as adapted by the Pakistan/

India (Provisional Constitution) Order, 1947, the Governor-General is pleased to make and promulgate the following ordinance:—

1. **Short title and commencement.**—(1) This Ordinance may be called the Indian Companies (Amendment) Ordinance, 1947.

(2) It shall come into force at once.

2. **Amendment of section 76, Act VII of 1913.**—To sub-section (1) of section 76 of the Indian Companies Act, 1913, the following proviso shall be added, namely:

“Provided that, in the case of a company whose directors, or the majority of whose directors, have during the year 1947 left for places in India/Pakistan on account of civil disturbances or the fear of such disturbances, the aforesaid period shall be deemed to have been extended by six months or up to the 31st day of March, 1948, whichever is later.”

3. **Amendment of section 131, Act VII of 1913.**—To sub-section (1) of section 131 of the Indian Companies Act, 1913, the following proviso shall be added, namely:

“Provided further that in the case of a company whose directors, or the majority of whose directors, have during the year 1947 left for places in India/Pakistan on account of civil disturbances or the fear of such disturbances, the period shall be deemed to have been extended by six months or up to the 31st day of March, 1948, whichever is later.

4. **Effect of expiry of Ordinance.**—On the expiry of this Ordinance, section 6 of the General Clauses Act, 1897 (X of 1897), shall apply as if this Ordinance were an enactment then repealed by a Central Act.

#### ITEM No. II—SUPPLEMENTARY—RESTORATION OF LICENSED ARMS AND AMMUNITION.

There are two categories here:

(a) Persons who hold receipts for licensed arms and ammunition taken away from them;

(b) persons who do not hold such receipts.

In regard to (a) the Conference is agreed that the two Dominion Governments should issue instructions to Provincial Governments to have such arms and ammunition restored. In regard to (b) it is agreed that the Dominion Governments should furnish lists of cases to each other and all such cases should be promptly investigated.

2. Pakistan representatives stated that lately there have been numerous complaints of Muslims being searched, presumably for fire arms, at various places, particularly in U. P. and the C. P. It is further stated that according to reports private property including cash has been taken away during these searches. Mr. Grigson mentioned two particularly bad cases where girls travelling on refugee specials from Delhi are alleged to have been raped by soldiers of the escort. The Representatives of Government of India agreed that if particulars are given of these various incidents they would be fully investigated and the result of each communicated to Pakistan Government. The Pakistan representatives suggested that the Government of India should circularise Provincial Governments drawing their attention to the agreement regarding personal searches. Mr. Punjabi mentioned a recent case where non-Muslims, presumably cleared from pockets in West Punjab, are alleged to have

been searched and all belongings except one trunk per person and a bedding between four persons are reported to have been taken away. The Conference agreed that any breaches of the agreement between the two Dominions in regard to searches should be reported to each other and promptly investigated and the results intimated. The Conference decided that the Secretaries of the Dominion Ministries of Relief and Rehabilitation should be the agencies for handling this category of cases.

#### ITEM IV OF THE SUPPLEMENTARY AGENDA.

Taxation of all property to be paid by Custodian of Evacuee Property in respect of properties left behind in Pakistan.

The representatives of India put forward the following proposals:

- (1) That all tax demands against evacuees which remain unsatisfied should be paid by the Custodian of Evacuee Property, either from the income of the property of the evacuee or, if there is no income, from his pool, provided that the total charge so raised does not exceed 50 per cent. of the Custodian's own evaluation of that property. It is suggested that if this proposal were accepted the Custodian would be amply covered for the charge so raised against the property. The Pakistan representatives agreed that this request was not unreasonable and that they would be prepared to recommend it to their Government.
- (2) The representatives of India also proposed that the provision in the Income Tax Act for the levy of penalty in the event of an assessed tax not being paid should be waived up to the end of the year 1948 in the case of non-Muslim evacuees. The Pakistan representatives said that the request was reasonable but that they were unable to commit themselves without consultation with their Government.

#### SUPPLEMENTARY ITEM No. VIII.—REMOVAL OF HOLY VOLUMES OF GRANTH SAHIB AND OTHER HOLY BOOKS.

The Pakistan representatives agree that facilities will be accorded for the removal of all Birs of Shri Guru Granth Sahib and all other religious books and books on the history of religion. India agrees to accord reciprocal facilities.

#### SUPPLEMENTARY ITEM No. IX.—UNPAID BILLS OF CONTRACTORS.

The Finance Secretary East Punjab explained that an agreement had already been reached between the Governments of East and West Punjab and a satisfactory procedure devised. A claimant puts in a claim in duplicate to the Chief Secretary of the Province where he is resident. The Chief Secretary forwards one copy of the claim to his opposite number who after having the necessary verification made replies whether payment may be made. Action is then taken accordingly. The principle is clear that authority to pay the claim must be given by the Government in whose territory the service or supply in respect of which the claim arises, was rendered or made. The Conference agrees that this principle and practice are satisfactory and should be extended to all Provinces of either Dominion. In all Provinces the Officer to whom correspondence should be addressed is the Chief Secretary, unless the Provincial Government nominates someone else.

#### ITEM No. XI—SUPPLEMENTARY—TREATMENT OF NON-MUSLIMS IN WEST PUNJAB AND N.-W. F. P.

It was agreed that item XI should not be discussed in detail. But it was recognised on both sides that if there were any individual cases of mal-treatment and they are brought to notice, suitable action will be taken.

**AGREEMENT NO. II.—MEMORANDUM OF AGREEMENT BETWEEN THE MINISTRY OF FOOD, AGRICULTURE AND LIVELIHOOD, GOVERNMENT OF PAKISTAN AND THE MINISTRY OF FOOD, GOVERNMENT OF INDIA.**

*New Delhi 23rd January, 1948.*

**I. INDIA will, as early as possible, and in any event before the 31st March 1948 supply to PAKISTAN:**

- (i) 22053 tons of Australian wheat of fair average quality of the country of origin at the following price:  
Rs. 10-3-0 (Rupees ten and annas three only) per maund delivered CIF Karachi in bulk.  
If delivery is of bagged grain, the price will be for net grain and one anna more per maund, i.e., Rs. 10-4-0 per maund for net grain.
- (ii) 1,500 tons of Australian wheat of fair average quality of the country of origin at the following price:  
Rs. 9-9-0 (Rupees nine and annas nine only) per maund CIF Karachi in bulk.  
If delivery is of bagged grain, the price will be for net grain and one anna more per maund.
- (iii) In respect of supplies mentioned in (i) and (ii) above, new bags at the rate of eleven bags per ton will be supplied by the Government of India at Karachi in time to enable clearance of the grain from the steamers free of charge in case delivery is made in bulk. Delivery of the bags already in Government of India's Storage Depot at Karachi will be given at site, and the delivery of the remaining bags to be supplied will be given CIF Karachi.
- (iv) 4,447 tons of Australian wheat of fair average quality of the country of origin to be delivered CIF Karachi at Rs. 15-13-8 (Rupees fifteen annas thirteen and pies eight only) per maund if in bulk or Rs. 16-11-6 (Rupees sixteen annas eleven and pies six only) if shipped from South Australia, Vic or N. S. W. Australia, and Rs. 15-9-3 (Rupees fifteen annas nine and pies three only) per maund (net grain) if in bulk and Rs. 16-7-5 (Rupees sixteen annas seven and pies five only) per maund if the grain is shipped from West Australia in bags.
- (v) 3,000 tons of U.P. barley at present lying in West Punjab at Rs. 14-6-0 (Rupees fourteen and annas six only) per maund of fair average quality LESS annas six only (Rs. 0-6-0) per maund for bags and bagging in case the expenditure incurred by the U.P. Government for bags and bagging is made good to them separately by PAKISTAN.
- (vi) 9,000 tons of imported barley of fair average quality of the country of origin CIF Karachi at Rs. 15-10-6 (Rupees fifteen annas ten and pies six only) per maund of naked barley.
- (vii) In respect of the supplies referred to in (iv) and (vi) above, new bags at the rate of eleven bags per ton will be supplied by the

Government of India at Karachi and paid for by Pakistan at the rate of Rs. 105 (Rupees one hundred and five only) per 100 bags (one hundred bags). Delivery will be made as indicated in (iii) above.

**SUGAR.**

- (viii) 10,000 tons of crystal Indian sugar of a middle quality F.O.B. Bombay on the basis of the pre-decontrol ex-mill prices shown in Annexure IV.
- (ix) 5,000 tons of Cuban refined sugar ex site in Calcutta at Rs. 20-6-3 (Rupees twenty annas six and pies three only) per maund plus import duty plus incidentals at annas eight per maund.

**II. PAKISTAN will, as early as possible, and in any event before the 31st March, 1948 supply to INDIA:**

- (i) 30,000 tons of rice of fair average quality from Sind of which not more than 20,000 tons will be broken. The price payable will be as in Annexure I to this Agreement, according to the specifications attached herewith.
- (ii) 19,000 tons of whole rice of fair average quality of West Punjab origin F.O.R. Station of despatch in East Punjab. The price payable will be as in Annexure II to this Agreement according to the specifications attached herewith.
- (iii) PAKISTAN retains the option of supply whole Sind rice instead of Punjab rice.

**III. In case the Government of India finds it possible to supply 9,000 tons of Australian wheat to Pakistan (which will be confirmed in February 1948) PAKISTAN will supply 9,000 tons of whole rice to INDIA. The question of price will be decided if the arrangement is confirmed.**

**IV. Method of Payment:—**

- (i) In respect of the imported wheat and barley to be received by the Government of PAKISTAN from the Government of India and detailed above, payment will be made by the Government of Pakistan to the Government of India against delivery of goods. The Bill of Lading duly endorsed by the Government of India in favour of the Government of Pakistan will be delivered to the latter. In case the Bill of Lading is delayed, the Government of India will intimate the arrival of the ship to the Government of Pakistan telegraphically and will also issue necessary authority in favour of the Government of Pakistan to enable them to take delivery of the goods on their arrival in Karachi. The payment in respect of these supplies will be made to the account of the Government of India at the Central Office of the Reserve Bank of India before the Bill of Lading is delivered or the authority for delivery of grains is issued.
- (ii) In respect of the Indian sugar to be received by the Government of Pakistan as detailed above, payment will be made by them at the Reserve Bank of India, Bombay, in favour of the Deputy Accountant General (Food) New Delhi on presentation of Shipping documents.

(iii) In respect of the Cuban sugar to be received by the Government of Pakistan from the Government of India, payment will be made by the former or their nominee to the Regional Food Commissioner, Calcutta, against delivery of goods.

(iv) The Government of India or their nominees will make payment in respect of the supplies of rice to be received by them to the Sind Government or the Government of West Punjab, as the case may be, according to the procedure in force in those Provinces before the 15th of August 1947.

V. The programme of supplies to be made by INDIA to PAKISTAN and by PAKISTAN to INDIA will be as shown in Annexure III to this Agreement.

VI. If in spite of best efforts on both sides, delivery of any quantity referred to in this Agreement is delayed beyond the 31st March 1948, the undespached balances will be delivered as soon after the 31st March 1948 as possible, and this agreement will cover such deferred deliveries.

VII. The tons referred to in this Agreement are of 2,240 lbs. each and maunds of 32·2/7 lbs. each.

N.B.—For Sela varieties of Parmal and Basmati add As. 0-8-0 per maund.

The above prices and incidentals are the same as West Punjab are or will be charging any recipient areas in Pakistan itself.

H. S. M. ISHAQUE.

23-1-48.

### ANNEXURE III

#### PROGRAMME OF SUPPLIES

#### JANUARY:

- (1) Pakistan will release 20,000 tons of rice before end of January.
- (2) India has nominated ship Indian Trader carrying 8,400 tons due to arrive at Karachi about 31st January.
- (3) India has released 5,000 tons of Cuban sugar at Calcutta.
- (4) India has released 3,000 tons of U.P. barley at present in West Punjab.
- (5) India has nominated ship Vallisdis carrying 9,000 tons of barley due to reach Karachi before end of January.

#### FEBRUARY:

- (1) Pakistan will release in the first fortnight 10,000 tons of rice.
- (2) India has nominated ship Bert Williams carrying 9,500 tons of USA wheat which sailed on the 1st of January and is expected to reach Karachi about 12th of February.
- (3) Pakistan will make available a further 7,000 tons of rice by end of February and will endeavour to increase this quantity.

## APPENDIX

AGREEMENT NO. III—MEMORANDUM OF AGREEMENT BETWEEN  
THE MINISTRY OF FOOD, AGRICULTURE AND HEALTH, PAKISTAN  
GOVERNMENT AND THE MINISTRY OF FOOD, INDIA.

*New Delhi, dated the 24th March, 1948.*

*Para I. Wheat-rice.—*

India will supply 9,000 tons (one ship load of Australian wheat of fair average quality) to Pakistan and will also supply free of cost new B-twill gunnies (11 for one ton) for such quantity of the above wheat which is un-bagged.

II. In return for the above wheat and bags Pakistan will supply an equal quantity ton per ton of Sind 'Kangni' rice of fair average quality in bags.

*III. Maize-rice.—*

India will supply 12,000 tons Argentine maize of fair average quality to Pakistan and will also supply new B-twill gunnies (13 for one ton) for such quantity of the above maize which is un-bagged.

IV. For the bags for maize Pakistan will pay India Rs. 115 for 100 bags and in return for the above referred quantity of maize Pakistan will supply India 10,000 tons of Sind 'Kangni' rice of fair average quality in bags.

*V. Barley-rice.—*

India will supply 1,500 tons Argentine barley in bags of fair average quality to Pakistan and in return Pakistan will supply India 1,150 tons of Sind 'Kangni' rice of fair average quality in bags.

*VI. General.—*

Delivery by India of wheat, maize and barley will be C.I.F. Karachi and bags will also be delivered in Karachi. Delivery of rice by Pakistan will be F.O.B. Karachi.

VII. As regards weight and quality of maize, wheat and barley at the time of despatch, the usual certificate of the Argentine/Australian authorities will be accepted as final. The loss or damage (not including normal deterioration) during transit as certified by a licensed surveyor shall be on India's account.

VIII. Pakistan will endeavour to raise the quantity of rice referred to in para IV to 16,000 tons in which case the equivalent quantity of maize to be delivered by India will be 19,000 tons and the bags to be supplied by India at Rs. 115 per 100 bags for the un-bagged quantity out of 19,000 tons.

IX. The programme of deliveries will as far as possible be as shown in annexure into this Agreement.

X. The tons referred to in this Agreement are of 2,240 pounds each.

XI. If the export quota of 50,000 tons of sugar and 10,000 tons of gur allowed by India to Pakistan in January, 1948 is not availed by the 31st March, 1948, Pakistan can avail of it if desired by them by the 31st July, 1948.

IJAZ AHMED,

24-3-48

*for the Govt. of Pakistan.*

*Secy. to the Govt. of India,  
Ministry of Food.*

AGREEMENT NO. IV—MINUTES OF INTER-DOMINION DISCUSSIONS AT LAHORE ON 13TH, 14TH AND 15TH MARCH 1948, BETWEEN PAKISTAN MINISTER FOR REFUGEES, EVACUATION AND REHABILITATION AND THE INDIAN MINISTER FOR RELIEF AND REHABILITATION ACCOMPANIED BY OFFICIALS OF THEIR MINISTRIES AND OF THE EAST AND WEST PUNJAB GOVERNMENTS.

I. Recovery of Abducted Women.

1. The working of the agreement of 6th December 1947 on the recovery of abducted women was reviewed. It was agreed that the results had fallen short of expectations. India claimed that this was due to the limited role assigned to the troops in the recovery work and pressed that, under the agreement, the recovery parties visiting the villages should also include troops of both the Dominions. Pakistan did not agree with this interpretation of the agreement and in fact considered that the hostile feeling engendered in villages of one Dominion by the visit of troops of the other Dominion, militated against success in recovery. In their view, troops of one Dominion were, under the agreement, to be employed only as guards on transit camps and for escort duty. The difference of opinion remained unresolved.

2. In Pakistan's view it was not therefore possible in any circumstances to permit troops of one Dominion to form part of village recovery parties in the other Dominion; they would however continue the present arrangements for recovering abducted women, namely recovery parties consisting of Police, social workers and D.L.Os of the two Dominions. The function of the troops would, as at present, be confined to guarding Transit Camps to which recovered women are brought to escorting parties of recovered women from one Dominion to the other or from one camp to another.

3. At the suggestion of the Inspector-General of Police, West Punjab, it was agreed between the two Dominions that the Police Officers of West Punjab, deputed for recovery work will nominate as colleagues for operations in East Punjab those officers of the East Punjab Police who in their opinion will be most effective for this type of work. A similar right of nomination of West Punjab Police officers will be accorded to the East Punjab Police officers deputed for recovery work in West Punjab. The head of the West Punjab Police staff working in Pakistan for the recovery of abducted women will be nominated by the Inspector General of Police, East Punjab, and *vice versa*. It was agreed that this arrangement for selection of Police staff in East Punjab and West Punjab would not apply to States.

4. Pakistan pressed that it was high time that the East Punjab States and the States of Alwar and Bharatpur should arrange to set up an organisation for the recovery of women on the same lines as had been working in East Punjab and should agree to receive detachments of Pakistan troops (for guard and escort duty) accompanied by Pakistan Police parties, Liaison Officers and social workers. Transit camps should be set up, though the location of each camp will be left to the States' discretion. If for any reason it was not possible to do so, Pakistan felt that they had no alternative but to withdraw all troops from East Punjab and to ask that all Indian troops should be withdrawn forthwith from Pakistan territory. Pakistan added that the States that had acceded to

Pakistan would adopt the arrangements now in force in the districts of West Punjab.

5. India said that they would consult their States immediately and send a reply on this point but pointed out that as already intimated, the Pakistan troops going into the States would be under the command of the Commander of the State forces and that the Police parties would work under the direction of the Inspector-General of Police of the States concerned.

6. In Pakistan's opinion further consultation with Indian States was unnecessary as their assent had been obtained and communicated in the Prime Minister of India's telegram No. 947, dated the 8th March 1948. India could not accept the view that the proposition put forward in that telegram was the same as the arrangement now proposed. Therefore, consultation with Indian States was essential, but every effort would be made to get an immediate decision.

7. Pakistan felt that the stage had been reached when troops could be gradually withdrawn from this work and said that they had decided in any case that no more Pakistan troops should operate with the MEO in the districts of East Punjab after 31st March, all being withdrawn on 1st April, and in the States of East Punjab, after 15th April, all being withdrawn on 16th April. The reason for the later withdrawal from the States was that the work had been started there at a much later date. The corollary of this decision would be that no Indian troops should remain in Western Pakistan after the 16th April. Pakistan also intended to limit their troops employed for this purpose in the States to 2 companies, and asked that the strength of the Indian troops should be reduced proportionately.

8. Pakistan made it clear that even after the withdrawal of the troops, the work of recovery of abducted women and clearance of pockets would continue through joint parties of police, liaison officers and social workers. The M.E.O. Headquarters would continue for liaison work but would have no troops under its control. The troops of the Dominion in which the recovery work and clearance of pockets was to be continued would replace the troops withdrawn by the other Dominion.

9. India considered that for inspiring confidence among the women to be recovered and converted persons to be evacuated, it was desirable to retain the present arrangements whereby the troops of the Dominion to which the persons belonged participated in this work. They were, therefore, of opinion that the proposed withdrawal dates were premature and would adversely affect the work of recovery. Pakistan said that these dates were final; India took note of this statement.

10 It was agreed as under:

(a) Civil road transport (together with drivers) required for actual recovery operations in West Punjab will be furnished by the East Punjab Government and *vice versa*. Those vehicles will be provided on payment with petrol, etc., by the Dominion in which they operate.

(b) For movement from district to district or from one Dominion to another civil or military transport may be employed as convenient.

(c) In no case will customs duty be charged by either Dominion in respect of vehicles used for rescue, district liaison or other evacuation work. In order to avoid disputes such vehicles will be specially listed and the drivers will be furnished with special permits.

(d) Existing arrangements will continue until the new arrangements be implemented.

11. The Conference considered the question of recovered women who are unwilling to be restored to their people in the other Dominion. It was agreed that special camps should be established for such women, one in West Punjab and one in East Punjab. Non-Muslim women recovered in Pakistan who are unwilling to be transferred to India will be taken to the special camp in East Punjab. Similarly Muslim women recovered in India will be taken to the special West Punjab Camp. After a period not exceeding a fortnight the wishes of these recovered women will be ascertained by social workers of both Dominions acting jointly and action will be taken in accordance with their wishes. Pakistan urged that such camps should be managed by a neutral organisation. India agreed to the scheme except to management of the camps by a neutral organisation. Pakistan attached considerable importance to this and intimated that they would pursue the matter, further but meanwhile agreed to the special camp being set up in India in the manner desired by India.

12. It was agreed that any dispute as to whether a woman or child was abducted or forcibly converted before or after 1st March 1947 shall be determined by a joint enquiry held in Lahore or Jullundur, as the case may be, by the two seniormost police officers of the special recovery staff of the two Dominions.

13. It was felt that the decision now taken would improve the present arrangements for recovery. It was realised that the basis of all efforts so far made for recovering abducted women had been voluntary in character. Both Governments agreed that if despite the improvements in arrangements effected by the decision recorded above quicker and better results were not achieved, stern legislation might have to be enacted to deal with offenders.

## II. Exchange of Prisoners.

14. India pointed out that the delay in implementing the agreement reached in the December 18th-20th, 1947 Conference at Delhi and later ratified by both Governments was due only to Pakistan having informed India of their inability to implement the agreement because of a legal defect in the West Punjab Legislation. Pakistan had been advised that central legislation was essential. The Pakistan representatives stated that a Central Ordinance was under issue and that the text, when received, would at once be communicated to India; it was hoped to implement exchange on the basis of that Ordinance, provided that agreement was reached in respect of Delhi Province, as to which Pakistan awaited a reply to their proposal that exchange of prisoners from Delhi Province should be limited to persons under trial or convicted on or after 15th August 1947, and to their request for information as to the numbers of prisoners in each State and in Delhi Province. India suggested immediate start of exchange of prisoners between East and West Punjab, as agreed in December last; Pakistan did not agree in the absence of a reply to their proposal about Delhi. India said that the Delhi question was under consideration and enquired whether Sind prisoners would be transferable under the Pakistan Ordinance. The Pakistan reply was that this, if desired, was unlikely to present any difficulty as it would be possible to extend the Ordinance to Sind.

15. Both Dominions desired that actual exchange of prisoners should start in the near future. Meanwhile it was agreed that the Provincial and State Governments concerned should issue instructions to ensure that the prisoners affected should be given adequate food and clothing and proper treatment.

## III. Evacuation of Muslim ex-Servicemen from Patiala State.

16. Pakistan pressed for early decision as to the evacuation of discharged Muslim soldiers of the Patiala State Forces and their families. India agreed to use their good offices to secure that these persons should be removed from

Patiala State at a very early date and given the option of staying in India or going to Pakistan. The Hon'ble Mr. Neogy assured the Hon'ble Raja Ghazanfar Ali Khan that he would have this matter treated as one of the top priority.

## IV. Joint Enquiry into Incidents.—

17. Certain instances were discussed in which one Dominion was dissatisfied with the finding of fact by the other Dominion on complaints arising out of incidents involving hardship and injustice to individuals. It was agreed that in future, wherever possible, such matters could best be resolved by speedy joint enquiry. The Dominion in whose territory the cause of action had arisen would hold an enquiry and request the other Dominion to nominate a representative to assist in the enquiry. It was agreed that drastic and exemplary action must be taken against offenders, particularly those guilty of offences against women.

## V. Possible effect of currency and exchange regulations, etc., on transfer of evacuee property.—

18. India suggested that an assurance should be given by both Dominions that no legislative or administrative action would be taken to prejudice transfer of property or proceeds of the property of evacuees from one Dominion to the other; this was particularly necessary in view of possible developments in regard to currency exchange and restriction of movement of precious metals.

19. The Minister for Refugees, Pakistan, expressed his inability to deal with this matter, but promised to refer it for urgent consideration to the Finance Minister of Pakistan.

20. India requested that a very early decision should be taken on this matter, if possible within a week or so.

## VI. Vaults and Safe Deposits with Banks.

21. India pointed out that in previous discussion emphasis had been laid on clearing the vaults and deposits in Lahore in Pakistan, and in Delhi, Jullundur and Amritsar in India. It was suggested that arrangements should be made by Lahore Banks with their outlying branches in Pakistan for the contents of local vaults and safe-deposits belonging to non-Muslims now resident in India to be transferred to Lahore. Similar arrangements should be made on the other side at Jullundur, Delhi or any other convenient place.

22. Secondly India suggested that instead of all individual evacuees having to come to Lahore Pakistan should agree to hand over safe deposits and contents of vaults to an India governmental agency holding powers of attorney from evacuee depositors in India. Individuals would still be free to come themselves if they did not wish to use this agency. India assured Pakistan of complete reciprocity. Both Dominions accepted these suggestions. Pakistan suggested that Indian States should be brought within the scope of the proposed arrangement. India agreed to advise the Indian States to accept this arrangement and promised to use their good offices to secure their early consent.

23. India pointed out that there were over 4,000 lockers and safe deposits still to be cleared in West Punjab and pressed that the numbers of permits to be granted should be substantially increased to a minimum of 250 permits per day. The Minister for Refugees, Pakistan, was of the opinion that this was not practicable, but promised to use his good offices with the Custodian to increase substantially the number of permits to be granted. Pakistan requested that permits to be issued freely by the East Punjab Custodian, and India agreed that results in West Punjab in regard to the two suggestions made would be influenced by the measure of reciprocity in East Punjab. The Chief Secretary, East

Punjab Government, stated that he undertook to secure that no applications were left unattended to and that every application for a permit would be promptly dealt with.

#### VII. Restoration of licensed arms.

24. It was agreed that licensed arms of evacuees hold by each Dominion will be restored to licensees on their application, or to such governmental agencies as the other Dominion may appoint.

25. For the purpose of this agreement every license that was valid on 14th August, 1947 shall be deemed to be still valid.

26. Pakistan suggested that this agreement should be applied to States also, and both Dominions agreed to use their good offices to secure the consent of their states.

#### VIII. Personal belongings of evacuees seized during Evacuation, For which receipts have been given.

27. It was agreed that such property should be restored by both Dominions on presentation of the receipts. Property may be claimed by individual owners or by a Government agency on production of receipts issued by Government officials. Where personal belongings cannot be restored in conformity with any inter-Dominion Agreement, compensation will be paid for them directly to the owners or to the Government agency acting on their behalf.

28. Both Dominions agreed to use their good offices to secure the consent of their States to similar arrangements.

#### IX. Government Securities, Certificates, Bonds, Debentures and shares of Joint Stock Companies.

29. The Conference considered the Joint report of Mr. K. J. Headington (Pakistan) and Mr. Sachdeva (India), embodying Mr. Headington's note regarding transfer of Government Securities between the two Dominions dated the 9th March, 1948, and their joint addendum to the note in substitution for its original final paragraph (see Appendix A).

30. Both Dominions accepted the proposals contained therein and agreed to implement them with immediate effect. They also agreed to use their good offices to secure the consent of their States to similar arrangements.

#### X. Funds of Cooperative Societies etc.

31. The Registrar of Cooperative Societies West and East Punjab, presented their joint report in pursuance of the decision IV(b) of the Delhi Inter-Dominion Conference of December 19-20, 1947, endorsed also by Mr. Headington (Pakistan) Mr. M. R. Sachdeva (India) and Mr. P. K. Kaul (India) (See Appendix B).

32. The Conference approved the recommendations made in the joint report, subject to the concurrence of the Government of West Punjab; the concurrence of the Government of East Punjab was conveyed to the Conference by the Chief Secretary (Mr. Sachdeva).

#### XI. Treatment of Property as abandoned which has never been abandoned.

33. It was agreed that such cases in Pakistan should be brought to the notice of the Refugees Ministry of Pakistan by the High Commissioner. The

Refugee Minister of Pakistan stated that he would take up these cases personally and see that immediate orders were issued. India agreed to take similar action.

#### XII. Miscellaneous.

34. The questions of transfer of securities and other assets of the Trusts etc., and the restoration of property to evacuees who wish to return to their homes were postponed for consideration by the Inter-Dominions Subcommittee which is to meet on the 22nd March.

35. The agreed Press Statement signed by both Ministers and released after the Conference is appended (Appendix C).

### APPENDIX A

(See para 29 of the Minutes)

#### NOTE REGARDING TRANSFER OF GOVERNMENT SECURITIES BETWEEN THE TWO DOMINIONS.

The ownership of Government securities and Provincial loans can, in the majority of cases, be ascertained from a scrutiny of the endorsements on the reverse of the notes, and I am of a opinion that a large proportion of such securities held by Banks can be released without endangering the rights of the proper owner who might have pledged his securities to some other person. The transfer of Government securities between the two Dominions has been withheld to ensure that the interests of nationals of both Dominions are fully protected but as a result much inconvenience has been caused to the rightful owners of such securities due to this ban, and the matter has now become of great urgency by reason of the fact that, after the 31st March, 1948, restrictions will be placed by each Dominion on the encashment of such securities for the payment of interest at treasuries in the other Dominion.

2. The following classes of Government securities and Provincial loans could, in my opinion be released at once:—

(a) *Clean Government Securities* (i.e. securities which bear no endorsements on the reverse)—Government securities falling in the above category usually stand in the name of the holding bank to facilitate the collection of interest, and the question of a pledge does not, therefore, arise. Even where such securities stand in the name of an individual, there can also be no question of a pledge in the absence of an endorsement on the reverse. Such Government securities, could, therefore, be released at once.

(b) *Government Securities bearing a last endorsement from a recognised firm of brokers in favour of the holding bank or an individual*.—Government Securities falling under the above category have obviously been purchased through a firm of brokers and represent a genuine purchase in the open market. The question of a pledge cannot arise in such cases, as it is obvious that the selling broker has endorsed the securities to the genuine buyer. These securities could, therefore, be released at once.

(c) *Government securities held by a Branch of a Bank on behalf of another Branch of the same bank*.—Government securities falling under the above category have been transferred from one Branch of a bank to another Branch to facilitate the collection of interest as, for example, in the case of Punjab Government Loans, a large number of which are held in the West Punjab to

facilitate the collection of interest. There can be no question of a pledge in such cases, as the last endorsement has been made by one Branch of the Bank in favour of another. These securities should, therefore, be released at once.

3. There remains for consideration those securities which have been endorsed by one individual to another individual, and it is in such cases that doubts regarding the actual ownership has been established after a reference to the Custodian.

4. To summarise my proposals, I would recommend that, as regards securities, including Provincial Loans, in the first three categories mentioned above, banks should be allowed to transfer them in the ordinary course of business, if necessary, under the supervision of a Government official. As regards those securities endorsed by one individual to another, these should not be transferred but should be set aside pending receipt of further instructions from the Custodian.

After securities in the first three categories have been released, lists of those securities which have not been transferred should be prepared by the Banks and submitted to the Custodian for his scrutiny and further orders. Such securities should form a very small portion of the whole, and my proposals, if approved, will relieve the Custodian of a great deal of work which would arise if he is called upon to examine all securities now in the possession of Banks.

Suitable instructions will be issued to the banks on the lines indicated above, and it is recommended that similar action be taken by the Indian Dominion.

5. It is suggested that Government securities should also include Post Office Cash Certificates, which are not transferable and in connection with which the question of ownership is undisputed.

6. (Deleted).

K. HEADINGTON,  
Banking Adviser to Government  
West Punjab 9-3-48.

M. R. SACHDEVA.  
15-3-48.

K. HEADINGTON.  
15-3-48.

Addendum to the note of Mr. Headington dated 9-3-48.

*To be substituted for the deleted paragraph 6*

There is no objection to the removal from either Dominion of Joint Stock Co. shares and debentures or of bonds issued by individual banks or of National or War Savings Certificates.

The reason for this decision is that in the case of Joint Stock Cos., Shares, the holder only derives his title by the express consent in writing of both parties—so that if the owner has not received full value of his shares, he can refuse to sign this transfer deed; in which case the holder cannot get any benefit out of the transfer.

In the case of bonds issued by individual banks or National or War Saving Certificates, and there is no point in their removal being disallowed.

K. HEADINGTON,  
15-3-48.

M. R. SACHDEVA.  
15-3-48.

## APPENDIX B

(See paragraph 31 of the Minutes)

A conference between the representatives of the Cooperative Departments of the West Punjab and the East Punjab was held at 10 A.M. on the 15th March 1948 in the room of Mr. K. Headington and was attended by the following:—

- (a) P. K. Kaul Esq., I.C.S., F.C.D. East Punjab.
- (b) Mr. R. Sachdev Esq., I.C.S., Chief Secretary to Government East Punjab.
- (c) Ch. Ram Sarup, Registrar, C.S. East Punjab.
- (d) R. S. Ram Rattan, Chief Liaison Officer, East Punjab.
- (e) Mr. K. Headington, Banking Adviser, West Punjab, Lahore.
- (f) Khan Bahadur Sh. Fazal-i-Illahi, Registrar, C.S., West Punjab.
- (g) Syed Zahur Hussain, Deputy Registrar, C.S., West Punjab.

2. The following decisions were agreed to:—

- (i) All Government Securities belonging to East Punjab Cooperative institutions and lodged with the Punjab Provincial Cooperative Bank Ltd., Lahore, either for safe custody or for purposes of overdraft or collection of interest, will be transferred by the Punjab Provincial Cooperative Bank Ltd. Lahore, before 31-3-48, to the Ambala Central Cooperative Bank, which has been declared by the East Punjab Government as their Provincial Cooperative Bank, provided that the East Punjab Central Cooperative Banks concerned owing to the Government Securities, are under no obligation to the Punjab Provincial Cooperative Bank Ltd., Lahore, and provided also that such institutions repay the deposits of their evacuee individual depositors, the evacuee individual depositors of their constituent societies and societies whose membership consists entirely of Muslims and have evacuated.

The Central Banks in the West Punjab will also repay the deposits of their individual evacuees depositors the deposits of the evacuee individual of their constituent societies and of the societies which consisted wholly of non-Muslim evacuees.

The East Punjab Cooperative institutions owning Government securities will send to the Punjab Provincial Cooperative Bank Ltd., Lahore, their authority for getting their securities transferred to the Ambala Central Cooperative Bank.

(2) In order to execute the above decision, the two Registrars should immediately exchange lists of deposits and have the balances adjusted before 31-3-48.

(3) In the case of primary societies of which the membership is mixed, no division of assets will be undertaken, but it is understood that deposits of individuals of such societies who have evacuated will be repaid before 31-3-48.

(4) In the case of societies whose membership consisted entirely of evacuees, all assets will be transferred to the dominion to which the evacuees have migrated and the Registrar concerned will register necessary amendments in their by-laws making such change of address permissible.

5 The debts owed by the societies which, as a result of partition, have now gone over to the other Dominion will be paid to the creditor Central Bank by the Provincial Bank of the Dominion concerned by adjustment or otherwise as may be agreed to by both the Registrar.

6. The amounts paid by the Industrial Societies in the advertisement fund of the Amritsar Industrial Bank will be paid back by the Industrial Bank to the Punjab Provincial Bank Lahore.

7. All amounts received by the Industrial Cooperative Bank, Amritsar, on account of war supply orders will be adjusted or paid by the Industrial Bank to the societies concerned, as may be settled by the two Registrars.

8. All amounts belonging to employees of cooperative institutions by way of salary, provident fund, security deposits, etc. will be repaid by institutions of both the dominions through their respective Provincial Bank before 31-3-48.

9. The question of the division of assets of

(i) Punjab Provincial Cooperative Bank Ltd., Lahore.

(ii) Punjab Cooperative Union, Lahore.

(iii) N.W.R. Cooperative Society, Lahore.

(iv) Industrial Cooperative Bank Ltd., Amritsar.

was considered, but it was pointed out that since the matter was before the Arbitration Tribunal, it could not be discussed, being *subjudice*.

10. All decisions arrived at will be implemented by the Governments of the West Punjab and the East Punjab.

11. It is recommended that the date 31-3-48 may be extended to 30-4-48 in regard to all the decisions referred to above, provided the two Dominions extend the date of enforcement of securities for payment of interest to 30-4-48.

12. Shares and interest of members of Transport Societies and Ex-soldiers' Goods Transport Societies will be transferred to the Dominion concerned. The Registrars will arrange this.

## APPENDIX C

### AGREED PRESS STATEMENT

The Refugee Ministers for Pakistan and India have been holding discussions at Lahore for three days and have examined a great many matters outstanding between the two Dominions, with the assistance of administrative officers concerned.

2. Three important considerations have influenced the discussions and the decisions taken. The first is that there should be reciprocity on both sides in full and generous measure so that an atmosphere of lasting good-will may be created. The second is that, in so far as possible, both Dominions will use their good offices to persuade States that have acceded to either Dominion to fall in line with the decisions taken during this meeting. The third is that from time to time, complaints have been made by one Dominion to the other in regard to incidents involving hardship and injustice to individuals. It has been agreed that in future, whenever there is a complaint, the Dominion concerned will promptly make arrangements to investigate the incident and ask for association with the enquiry of a representative of the other Dominion. The two Ministers have agreed that drastic and exemplary action will be taken against offenders.

3. The Ministers feel that one of the most important matters which must be dealt with very quickly, concerns the recovery and restoration of abducted women. The machinery that exists for the purpose and results achieved so far have been reviewed and it is recognised that results have fallen short of expectations. An improved machinery is being set up and an all-out effort is called for and will be made. The basis of all efforts hitherto made for the recovery of abducted women has been voluntary in character. If despite the improved new machinery, quick and satisfactory results are not achieved, stern legislation may have to be enacted to deal with the situation.

4. Exchange of prisoners has been delayed owing to certain legal technicalities. The Pakistan Government is enacting almost immediately a Central Ordinance and it is expected that India will enact similar legislation as soon as the text of the Pakistan Ordinance is available. The Pakistan Government have emphasised the importance of bringing the Delhi Province within the scope of the scheme for exchange of prisoners in respect of cases arising after the 15th of August, 1947. The Government of India are examining the question in relation to Delhi Province and a decision may be expected shortly. It is hoped that actual exchange of prisoners will be started in the near future. Meanwhile, instructions are being issued to ensure that the prisoners concerned will be treated well and taken care of in the jails of the two Dominions.

5. The Government of Pakistan have specially raised the question of discharged Muslim soldiers of the Patiala forces and their families. The Government of India agreed to use their good offices to secure that these persons are removed from Patiala at a very early date and given the option of staying in India or going to Pakistan. The Hon'ble Mr. Neogy has assured the Hon'ble Raja Ghazanfar Ali Khan that he will have this matter treated as one of top priority.

6. The decision regarding recovery of contents of vaults and safe deposits with banks has been reviewed. It is felt that the work should be expedited and steps are being taken to secure this.

7. A satisfactory agreement has been reached in regard to transfer of Government securities, certificates, bonds, debentures and shares of Joint Stock Companies held by evacuees in the two Dominions. It is expected that the work of transfer will be expedited.

8. It has been agreed that licensed arms detained by either Dominion during the process of evacuation will be restored to owners. Machinery has been set up to expedite the restoration and it has been decided that arms licenses of evacuees which were valid on 14th August 1947 will be deemed to be valid for this purpose.

9. It has been agreed that property of evacuees which has been detained in either Dominion during searches or otherwise and for which receipts have been issued by Government officials will be restored to the owners on production of such receipts.

10. As regards funds of co-operative banks in East and West Punjab Province, the Registrars of Co-operative Societies of the two Governments have evolved an agreed scheme in pursuance of a decision taken at the Conference held in December, 1947. It is hoped that the scheme will be implemented immediately. Although the matter is not directly concerned with the agreement between East Punjab and West Punjab Provinces, both Dominions have agreed to use their good offices to secure substantial application of principles of the scheme to States on either side.

11. Among other matters discussed were Provident Fund of Government and non-Government employees, including teachers, settlement of contractors dues, extension period of validity of cheques issued to such contractors and exemption from Customs search and duty of personal belongings of evacuees. For most of these matters, satisfactory solutions have been reached and it is expected that others will be settled shortly.

12 Three important questions pertaining to property will be discussed by a Committee of Administrative Officers of the two Dominions on the 22nd March. These are:—

- (1) transfer of moveable property of evacuees,
- (2) restoration of property to evacuees who wish to return to their homes, and
- (3) an Inter-Dominion settlement in regard to immoveable property.

GHAZANFAR ALIKHAN

16-8-48

#### AGREEMENT No. V.—AGREEMENT IN REGARD TO MODIFICATIONS IN THE MONETARY ARRANGEMENTS BETWEEN INDIA AND PAKISTAN

In modification of the provisions of the Pakistan (Monetary System and Reserve Bank) Order, 1947, and the agreement made in December 1947, regarding the division of sterling balances, the Governments of India and Pakistan agree as follows:—

(1) *Date of termination of Reserve Bank's functions in Pakistan.*—The Reserve Bank will continue to function in Pakistan up to the 30th June 1948 in all respects as at present, i.e. as the currency authority, the banker of Government, agents for the management of public debt and for the exercise of exchange control.

(2) *Reduction of currency chest balances in Pakistan.*—The work of destruction or removal to India of India notes and coin held in currency chests in Pakistan will be accelerated so that the balances left over on 30th June 1948 will be reduced to the minimum possible. The Pakistan Government will ensure that all possible facilities are provided to the Reserve Bank for this purpose.

(3) *Mode of transfer of assets of the Issue Department.*—(a) If at the close of business on the 30th day of June 1948, the currency chests in Pakistan contain an excess of India notes and India or Pakistan rupee coins over the amount of Pakistan notes put into circulation up to that date, the Pakistan Government undertakes the obligation to return as expeditiously as possible to the Reserve Bank of India such excess unconditionally and shall not be entitled to receive any assets of the Issue Department of the Reserve Bank in respect thereof. All the currency chests in Pakistan shall be deemed to be transferred from the Reserve Bank to the Pakistan State Bank at the close of business on 30th June 1948 and the State Bank shall give a certificate to the Reserve Bank acknowledging the value of the excess as stated above and the obligation to return it unconditionally.

(b) The Pakistan Government undertakes that no Indian notes shall be put into circulation from the currency chests after the 30th June 1948.

(c) If at the close of business on the 30th day of June 1948, the value of Pakistan notes put into circulation exceeds the value of India notes and India or Pakistan coin held in the currency chests in Pakistan, the Reserve Bank of India will give to the State Bank of Pakistan a certificate acknowledging the value of the deficiency and the obligation to transfer to the Pakistan State Bank equivalent assets of the Issue Department of the Reserve Bank on the surrender of the certificate.

(d) Except in regard to the assets equivalent to the deficiency mentioned in (c) above, which will be transferred as soon after 1st July 1948 as possible, the physical transfer of assets of the Reserve Bank to the Pakistan State Bank shall be made only after the return to the Reserve Bank of India of the excess specified in the certificate referred to in sub-paragraph (a) and shall be subject to the procedure outlined in the next succeeding sub-paragraphs.

(e) As on the 1st July 1948 the Reserve Bank will issue a certificate recognizing the obligation of the Bank to deliver to the Pakistan State Bank assets equivalent to the Pakistan notes in circulation on 30th June 1948 on discharge by the Government of Pakistan of the liability to return the excess in currency chests as on 30th June 1948 in terms of sub-paragraph (a). The certificate will give particulars of the assets to be delivered.

(f) After the Pakistan State Bank has completed the return of the excess specified in sub paragraph (a), any further delivery of India notes and coins from the currency chests as on 30th June 1948, will entitle the Pakistan State Bank to proportionate assets of the Issue Department in respect of the notes. Such delivery shall be made to the Reserve Bank of India at any office in India in multiples of Rs. five crores except in the last instalment, and the Reserve Bank will transfer as early as possible proportionate assets except that in the case of gold the transfer will take place in not less than a complete bar, any excess being met in subsequent instalment. The certificate issued under (c) above will be modified from time to time as transfer of assets takes place.

(g) After the completion of the delivery of India notes and coins from the currency chests equal to the Pakistan notes in circulation on 30th June 1948, the Pakistan State Bank will deliver to the Reserve Bank, in the manner as stated in (f) above, India notes returning from circulation after the 30th day of June 1948. Pending physical transfer of the assets the Reserve Bank will issue a certificate to the State Bank of Pakistan that assets equivalent to the amount so delivered are held by them on behalf of the State Bank and these certificates will be amended or cancelled from time to time on physical transfer of the assets.

(h) The State Bank of Pakistan will transfer India notes to India only by sea. If the State Bank of Pakistan makes a claim that any consignment of India notes has been irretrievably lost in transit from Pakistan to India, the Reserve Bank of India shall accept liability for the value of notes which it is satisfied have in fact been irretrievably lost.

(4) *Return of India notes.*—India notes withdrawn from circulation in Pakistan up to 30th June 1949 and delivered to the Reserve Bank by the State Bank of Pakistan will count for sharing in the profits, of the Reserve Bank up to 30th June 1948 and the division of the assets of the Issue Department as on 30th June 1948.

(5) *Cost of remittance.*—The cost of remittance from Pakistan to India of India notes and coins held in currency chests on 30th June 1948 shall be borne by the Reserve Bank. The cost of remittance of India notes and Government of India one rupee notes and coins withdrawn from circulation and delivered to the Reserve Bank shall be borne by the State Bank of Pakistan. The cost of transfer of gold and other assets from India to Pakistan shall also be borne by the State Bank of Pakistan.

(6) *Mode of transfer of Pakistan Government cash balances and bank deposits.*—The amount standing to the credit of Pakistan's Central and Provincial Governments at the Reserve Bank on 30th June 1948 and the amounts required for meeting the Reserve Bank's liabilities to banks in Pakistan on 30th June 1948 shall be paid (a) in Pakistan currency to the extent that such currency is available with the Reserve Bank in the Banking Department on that date; (b) by transfer of the balance in the Reserve Bank's Pakistan account with the Bank of England to the credit of the State Bank of Pakistan Account with the Bank of England; and (c) the balance by transfer from the Reserve Bank's No. II Account to a similar account of the State Bank of Pakistan with the Bank of England.

(7) *Allocation of sterling balances.*—(i) For the purpose of determining Pakistan's share in the assets of the Issue Department, the amount of sterling in the Issue Department will be notionally decreased by an amount which together with the amount of sterling in the Banking Department will be sufficient for the following liabilities:—

- (a) The lump sum payable to His Majesty's Government at the time of the final settlement of the sterling balances on account of the capitalisation of the pensionary liability, for H.M.G.'s military stores and fixed assets as on 1st April 1947 in India, etc.
- (b) The cash balances of the Central and Provincial Governments of Pakistan to the extent they are payable in sterling as provided in paragraph (6)
- (c) The amounts required by the Reserve Bank to meet its liabilities towards banks in Pakistan; and
- (d) The amount equal to the balance at the credit of the Reserve Bank's Account No. I with the Bank of England.

(ii) The deficiency left in the Issue Department by the above notional transfer of sterling to the Banking Department will be notionally filled by an increase in the Government of India's securities held in the Issue Department. The increase of each kind of security will be proportionate to the amounts of those securities held in the Issue Department on 30th June 1948.

(iii) To the extent considered necessary by the two Governments His Majesty's Government will be advised of the above arrangements.

(8) *Liability for one-rupee notes.*—The Pakistan Government will assume liability for the Pakistan inscribed one-rupee notes issued up to 30th June 1948. In addition, the Pakistan Government will assume liability towards the Government of India in respect of the Government of India one-rupee notes in circulation in Pakistan on 1st July 1948. The latter liability will be taken to be equal to the amount of Pakistan inscribed one-rupee notes put into circulation up to that date and this amount shall be added to Pakistan's debt to India. The Government of Pakistan shall be entitled to receive abatement of the debt so added equal to the amount of one-rupee Government of India notes returned by them up to 30th June 1949. It will be open to the Government of India to impose a ban on the import of such notes into India after 30th June 1948.

(9) *Provision for Burma's claim.*—The transfer of profits and assets of the Reserve Bank to Pakistan will be provisional pending the settlement of Burma's claim to its share of these profits and assets, subject to readjustment when Burma's claim is settled.

(10) *Exchange Control.*—Until 30th June 1948 there will be no exchange control as between India and Pakistan, nor will any restrictions be placed on the transfer of funds or securities from one Dominion to the other, whether such transfers are on capital account or current account.

(11) *Amendments to Monetary Order.*—Necessary amendments in the Pakistan (Monetary System and Reserve Bank) Order, 1947 will be made to give legal effect to this agreement.

(12) *Pakistan Coinage.*—The Government of India will furnish to the Government of Pakistan figures for the production and supply of Pakistan coins by India mints for each category of coin for the period up to the 31st March, 1948. On the basis of these figures the Government of Pakistan will determine their

further requirements from India mints and will intimate them to the Government of India. Should the Government of Pakistan decide that India mints should cease to produce Pakistan coins, they will give a notice of one month to the Government of India. If the Government of Pakistan decide not to employ the India mints for Pakistan coinage for the period originally agreed upon, the Government of India will be prepared to consider requests for helping the Lahore Mint in the matter of supply of stores.

FOR THE GOVERNMENT OF PAKISTAN.

# AGREEMENT No. VI.—INTER-DOMINION CONFERENCE HELD AT CALCUTTA (15-4-48 to 18-4-48)

Whereas the Governments of the two Dominions agree that mass exodus of minorities is not in the interest of either Dominion and they are determined to take very possible step to discourage such exodus and to create such conditions as would check mass exodus to either direction and would encourage and facilitate, as far as possible, return of Evacuees to their ancestral homes, the two Dominions agree as follows:

## SECTION I

(1) The responsibility for protecting the lives and property of the minority communities and for ensuring that they receive justice and that their civic rights are fully safeguarded rests on the Government of the Dominion in which the minorities reside.

(2) In Pakistan and in India every citizen shall have equal rights, opportunities, privileges and obligations; and there shall be no discrimination against the minorities whose cultural and religious rights shall be fully safe-guarded.

N.B.—“Cultural” rights include “educational” rights.

(3) Any propaganda for the amalgamation of Pakistan and India or of portions thereof including East Bengal on the one hand and West Bengal or Assam or Cooch Behar or Tripura on the other, shall be discouraged.

N.B.—The word propaganda shall be taken as including any organisation which might be set up for the purpose.

Both Governments recognise that the wholehearted co-operation of the Press is essential for creating a better atmosphere and therefore agree that every effort should be made, in consultation with the representatives of the Press, wherever possible, to ensure that the Press in each Dominion does not

(a) indulge in propaganda against the other Dominion.

(b) publish exaggerated versions of the news of a character likely to inflame, or cause fear or alarm to, the population or a section of the population in either Dominion.

(c) publish material likely to be construed as advocating a declaration of war by one Dominion against the other Dominion or suggesting the inevitability of war between the two Dominions.

(5) Complaints from minorities in both the Dominions that action is not taken on their reports against oppression or unfair treatment, should be promptly and fairly looked into and early remedial measures taken.

(6) Both in East Bengal and in West Bengal there shall be set up a Provincial Minorities Board and under the Provincial Board, District Minorities Boards for the express object of protecting the interests of the minorities, removing fear from their minds and inspiring confidence in them. These Boards shall ensure that the grievances of the minorities are promptly brought to the notice of the authorities and that they are satisfactorily and promptly dealt with.

It is suggested that the Provincial Minorities Board should be composed of five members, three of whom atleast belonging to the major minority community to be selected by the members of the Provincial Legislature belonging to

the minority communities. The remaining two shall be persons of influence and shall be nominated by the Provincial Government. The District Magistrate shall be the Chairman of the District Minorities Board and a Minister to be nominated by the Provincial Government shall be the Chairman of the Provincial Board.

(7) The two Dominions and their Provincial Governments shall declare and make it widely known to their officers and other employees that any Government servant proved to have been guilty either of dereliction of duty in protecting the lives and properties of the members of the minority community or of directly or indirectly illtreating the members of the minority community or showing prejudice against the minority community in the discharge of his duties, shall receive exemplary and deterrent punishment.

(8) Severe action shall be taken against any person or group of persons creating or attempting to create any apprehension or fear or insecurity or alarm in the minds of the minority communities.

(9) (i) The two Dominions shall take adequate steps to remove complaints regarding—

(a) discrimination in the grant of export and import licences and railway priorities to members of the minority community as such;

(b) to curb all tendencies towards an economic boycott of minorities or strangulation of their normal economic life.

(ii) The two Dominion Governments shall request their respective Provincial Governments to observe the same principles in their own sphere.

(10) The Government of East Bengal and West Bengal will promote legislation providing for the setting up of Evacuees property Management Boards in districts or areas from where a substantial exodus has taken place. These Boards will be set up only when it is established that there is a demand for their establishment. These Boards will assume management of properties only on the definite request of their owners. Their functions will be of a managerial character and they will not have the power to alienate the property entrusted to them for management. These Boards shall be composed of members of the Minority Community.

N.B.—For this purpose "Evacuee" shall be defined as a person who has left the Province in question on or after 1-6-1947 and who declares his intention to return as soon as normal conditions are restored.

A committee of officers will be appointed immediately by the two Governments to draw up detailed proposals for the necessary legislation.

## SECTION II

To ensure the implementation of this Agreement, the representatives of the two Dominions shall meet at least once in two months so as to bring to the notice of each other any instances of the non-observance of the above principles in either Dominion. In the case of East Bengal and West Bengal, where the situation requires more urgent measures, the Premiers of the two Provinces shall meet once every month for the same purpose; and in addition, to begin with, the Chief Secretaries of the two Provinces shall meet once a fortnight. Whenever matters concerning Assam, Cooch Behar and Tripura are likely to be discussed, the Chief Secretary West Bengal, shall arrange for their representatives to be present.

## SECTION III

(i) This Conference recommends that another Inter-Dominion Conference should be called at a very early date to which representatives of other Provinces

and States (except East and West Punjab and N.W.F.P.) from which exodus has taken place on a large scale, or is likely to take place should be invited to consider action on lines similar to those proposed above or on any other suitable lines in respect of:

(a) Protection and other safeguards for the property of refugees who have gone out from one Dominion to the other temporarily or otherwise, and

(b) creation of conditions in any affected area which will reassure the minorities that their interest and rights are fully safeguarded and will prevent exodus or will induce evacuees to return to their homes.

(2) It is further understood that a separate conference as already agreed to is to be held to consider the special problems relating to East and West Punjab and N.W.F.P. It is recommended that this Conference should also be held at a very early date.

(3) It is further recommended that a separate Inter-Dominion Conference should be called at an early date, at which representatives of East Bengal and Assam are present, to discuss the question of migration of Muslims from East Bengal to Assam and the migration of Muslims who have been in Assam prior to partition into East Bengal. Pending this Conference, both sides agree not to take any action to force or precipitate migration from one Province to the other on a mass scale. While both the Dominion Governments agree to this arrangement, Mr. Bardoloi wished to place the matter before his Cabinet.

## SECTION IV.

The report of the Expert Committee appointed by the Inter-Dominion Conference to consider certain economic issues was discussed and the two Dominions agreed to give immediate effect to the recommendations made therein subject to the modifications described in the Addendum appended thereto. The report of the Committee is annexed.

K. C. NEOGY.

GHULAM MOHAMMAD.

Calcutta, 19th April, 1948.

## MINUTES OF THE OFFICERS COMMITTEE APPOINTED TO THE INTER-DOMINION CONFERENCE

### PRESENT

#### India

Mr. V. Narahari Rao—*Chairman*  
Mr. H. M. Patel  
Mr. C. C. Desai  
Mr. Vishnu Sahay  
Mr. L. K. Jha  
Mr. A. B. Chatterji  
Mr. S. K. Chatterji  
Mr. S. K. Dutt  
Mr. Himmat Singh K. Maheshwari  
Mr. B. Dass Gupta

and also Advisers.

#### Pakistan

Mr. G. Farouque—*Leader*  
Mr. Nasir Ahmad  
Mr. S. A. Hasnie  
Mr. Shearer  
Mr. N. M. Khan

Mr. Farouque proposed and Mr. Hasnie seconded that Mr. Narahari Rao should take the chair during the proceedings of the Committee. This was unanimously agreed to.

2. The Committee unanimously agreed that such practical recommendations and proposals as they were to put forward with a view to removing the economic hardships and grievances resulting from the termination of the standstill agreements and the imposition of customs barriers must be as smooth and simple as possible, while ensuring at the same time the genuine and legitimate interests of both the Dominions. One of the principal factors to be kept in the background of these recommendations was that the additional irritants which gave an impetus to the exodus of minorities should be removed.

3. The items of the agenda specifically referred to this Committee were Nos. (1), (2) and (5) of the main agenda which are stated below:—

- (1) To discuss situation caused by termination of Standstill Agreement between India and Pakistan and imposition of restriction on movement of goods and to find ways and means of facilitating movement under existing conditions.
- (2) Pending a final Trade Agreement between India and Pakistan, to arrive at some arrangement regarding the supply by each Dominion of essential requirements of the other.
- (3) Implementation all levels of Interim Agreement confirmed in PAK-REW telegram No. 169/Cus/47 of March 13th and Indian Ministry of Finance telegram No. 204 (C) (CUS-1)/48, of March 31st regarding free transit from one another through Pakistan territory and vice versa.

A few other items were also added later on and have been dealt with:

In regard to item (1) of the agenda, the Committee recommends as follows:

(1) Both Dominions must strive to reduce to the minimum the restrictions which hamper the free movement of passengers between the two Dominions and for this purpose, the following measures are recommended:—

- (a) The Customs authorities of the two Dominions should together work out a common set of simple baggage rules applicable on both sides to passengers travelling from one Dominion to the other.
- (b) The application of the baggage rules should be made with due consideration so as to avoid irksome restrictions and unnecessary harassment of passengers.
- (c) Passenger's baggage should be checked only by duly authorised Customs staff and no one else.
- (d) Personal searches should as a rule be avoided, and only carried out in cases where there is genuine suspicion of smuggling. In such cases, the search should only be conducted under the personal orders of the senior-most Customs official present and a record of all searches made should be maintained. Liaison Officers should be allowed facilities to ensure a fair application of the rules.
- (e) The personal search of women passengers, if at all made, should be carried out only by Women Officers, as provided for by the Sea Customs Act.
- (f) Both Dominions should re-examine their Tariff Schedules and their Import and Export Control Notifications to see what relaxations

are possible with a view to minimise or render unnecessary any Customs formalities in regard to the personal effects of passengers.

- (g) Passengers should be shown every consideration and as far as possible suitable arrangements should be made to facilitate the easy movement of through-passengers without needless examination and harassment.
  - (h) No person other than an authorised Government servant, e.g., a Police Officer duly authorised may hold up any person crossing the frontier on the ground that he is carrying or suspected to be carrying contraband goods or is smuggling. Such a person should be taken or directed to the nearest Customs post by such officer for examination and no examination of his luggage or person should be made by any one who does not belong to the Customs staff. All such authorised officers should wear distinctive badges.
  - (i) All authorised Customs officers should carry suitable badges or other means of identification.
  - (j) Once a passenger has passed the Customs frontier, no further search or examination of his luggage or person should be made.
- (2) In order to facilitate the movement of goods and commodities in general the Committee makes the following recommendations:—
- (a) As far as possible, the two Dominions should set up parallel Customs posts as near to each other as possible so that for each Customs post in one Dominion there is an opposite number.
  - (b) Having regard to economic considerations, both Dominions should try to reduce the number of commodities which when moving from one Dominion to the other, shall be subject to an import or export duty. In fact only specified articles should be liable to duty and the rest should be free. This would obviate the absurd difficulties which have arisen in regard to perishables such as fish, fresh fruit, etc.
  - (c) A similar examination or the Export Trade Control Notification should be made by both Dominions. There is no import control between the two Dominions at the moment.
  - (d) The Pakistan representatives claimed that if the Havana Charter is ratified, each Dominion will become entitled to "most favoured nation" treatment in respect of rebates of exise duties and urged that in the interests of Inter-Dominion trade such treatment should be authorised by both Dominions without further delay. The Indian representatives stated that the present practice is not, in fact, uniform and that this is due to certain practical difficulties and other circumstances. The Pakistan representatives expressed their willingness to co-operate in removing any practical difficulties and requested that a final decision on the claim clearly put forward officially should be reached within a month in order to enable them to settle their import policy. India promised to reach a decision at an early date.
  - (e) Where any cultivator living in a border village of one Dominion has land in a border village in the other Dominion he should be permitted within a reasonable period after the harvest, to take across the border to his residence reasonable quantities of any controlled commodities produced by him for his domestic consumption with the minimum of restriction and formalities.

The Committee adopted the following recommendations in regard to item (5) of the agenda for the approval of the two Governments:—

### (1) Transit

(a) Each Dominion should take effective measures for the smooth implementation of transit facilities to the other Dominion in accordance with the provisions of International Agreements governing such transit.

(b) The foreign exchange earning or liability for any transit cargo moving in bond shall belong to the Dominion of origin or destination as the case may be and not to the Dominion of transit.

(c) Transit cargo should in general be given the same transport priority as is accorded to similar cargo moving internally.

(d) The Customs experts of the two Dominions should get together to evolve a procedure for transit which should be as simple as possible and take into account the peculiar difficulties arising on account of geographical and transport considerations, e.g., the need of transshipment and the location of transport heads at points different from the Inter-Dominion boundary. The procedure already introduced by the two Dominions should be reviewed.

(e) The production of a certificate from a Customs Officer of the Dominion from which the goods are being sent should ordinarily be taken as conclusive evidence of the origin of such commodities at the point of entry for transit and transit facilities shall not be denied on the ground that there is any suspicion that the goods might have originally come from the other Dominion.

(f) In order to ensure the smooth working of the transit arrangements the officers of each Dominion should receive suitable instructions to co-operate with the officers of the other Dominion to avoid disputes and difficulties.

(g) Each Dominion should post Liaison Officers at important Customs outposts and important points *en route* selected by agreement in the other Dominion so as to facilitate the removal of any difficulties that might crop up. These Liaison officers should be persons specially selected for their capacity to smoothen difficulties. These Liaison Officers will also have other functions in connection with the removal of difficulties of travellers and movement of goods and baggage.

(h) Where road or river transport is involved by itself or in combination with any other form of transport, arrangements should be made for transit facilities by establishing suitable outagencies.

### (2) Transport

(a) To ensure that transport bottlenecks and congestion are avoided mutual contacts are necessary at operational levels between the railways of the two Dominions. Operational committees consisting of representatives of the three railways in the Eastern Region and the two railways in the Western Region should be set up to deal with difficulties relating to rail transport including in particular:—

- (i) delay in the turn round of wagons,
- (ii) discriminatory treatment in the allotment of wagons or charging of freight,
- (iii) matters affecting priorities.

(b) It is further recommended that a Railway Operational Committee be established on an inter-dominion basis which could settle broad principles of Inter-Dominion rail transport.

### (3) Facilities for Repairs

The movement of machinery, etc. sent from one Dominion to the other for repairs and return should be dealt with under the arrangements normally provided for under the import and re-export rules. To cover, however, past cases of machinery sent before the establishment of a Customs frontier reasonable latitude shall be given for a matter of three months in the application of the rules.

(a) In order to ensure the avoidance of undue hardship resulting from the switch-over from the standstill to the new situation, the two Dominions will consider sympathetically applications for the issue of export licences for goods which were imported from overseas specially to meet orders placed by customers in the other Dominion. This is only for a short period of transition and will apply generally to shipments made and paid for before 31-12-1947. Commodities specifically ordered by dealers in one Dominion through the Ports of the other Dominion should be covered by the Standstill Agreement or the transit arrangements as the case may be and should not be denied to the persons who have ordered, paid or will pay for the goods.

(b) In view of the recent conclusions at Havana to extend transit procedure to vehicles assembled in bond in the country of transit, India will extend transit facilities for motor vehicles specifically assembled in bond in India for Pakistan subject to the foreign exchange being the liability of Pakistan. In this connection Pakistan requested that until transit arrangements become effective, a number of assembled cars considered fair by India should be allowed for re-export to Pakistan. This was accepted subject to the liability for foreign exchange being examined further.

### (4) Miscellaneous Points

*Item 2 of the Agenda.*—It was recognised that regular terms of Trade Agreement could not be negotiated in Calcutta by this Committee. What this Committee was to take note of was the economic background and the pre-partition relationship between what are now two different Dominions and pending the shaping of long-term policies and adjustments, to arrive at some arrangement regarding the supply by each Dominion of the essential requirements of the other. The aggravation of the situation caused by the termination of the standstill agreement and the introduction of Customs Barriers was also to be taken note of. This had created, especially in the Eastern zone grievous hardships in the day to day life of the common man. Parts of one Dominion are dependent on the border areas of the other Dominion for daily necessities such as, fish, fresh fruit, milk products and vegetables and firewood.

The Committee agreed also that matters connected with the formulation of the terms of a possible Customs Union were outside their function and that they would have to be examined by the officers of both the Dominions on a later occasion.

At this stage of the discussions, India suggested that one way of overcoming the various difficulties would perhaps be to revive the Standstill Agreement for 3 or 6 months at the outside. This interval could then be utilised for arriving at an agreement relating to Customs union and Trade to suit the special requirements of the two Dominions. While recognising that such a procedure might have certain advantages, Pakistan representatives felt that it would not be possible to revive the Standstill Agreement.

After considering the views put forward by the representatives of the several Governments, the Committee recommended that the restrictions whether imposed by a Central or Provincial Government on the movement between the

two Dominions of commodities such as fresh fruit vegetables, fresh milk and its products, poultry and eggs, local spices, bamboo and firewood, and any customs duties thereon must be removed.

That the India Government agree to discuss the supply of mustard oil to East Bengal to be decided at a meeting to be arranged within the next 3 weeks. Until then the Pakistan Government shall continue to allow the free movement of fish without any duty.

The Committee considered that it would be in the interests of both the Dominions if an agreement or agreements could be reached in the near future for the mutual supply of commodities essential for each others economy. Such agreements and their implementation would promote the continuance of the close economic relationships which have existed in the past between the areas now included in the two Dominions. The time for the commencement of discussions on this and other connected matters should be settled between the two Governments at an early date. Meanwhile a list of commodities, the supply of which to Pakistan is considered essential by Pakistan, was considered. In view of short notice and inadequate information available at Calcutta the Pakistan representatives agreed to accept provisional replies covering at least their immediate requirements if final answers could not be given across the table. The list of commodities and the estimated annual requirements and the agreed conclusions of the Committee are shown in the Annexure to this report.

As regards the commodities the supply of which India would require from Pakistan, India's representatives stated that as detailed discussions were not anticipated, they could not put forward their full requirements under all headings. Discussions will have to take place subsequently. Meanwhile the following agreed conclusions were reached:—

- (1) Pakistan should supply India's requirements of rock salt and gypsum.
- (2) Pakistan should give priority to the requirements of cotton for Indian Textile Industry before exporting elsewhere except when such export is necessary for earning hard currency or for obtaining essential supplies of cotton textiles and yarns which cannot be met by India. Details would have to be settled at the forthcoming discussions for reaching a Trade agreement.
- (3) Jute is of course one of the principal commodities required by India from Pakistan. Since there was no immediate difficulty in respect of jute supplies it was agreed that there was no need to bring up the matter at this stage especially as this committee were dealing primarily with items in respect of which difficulties of supplies were being experienced, but the long-term aspect of this question should be considered by the two Governments at an early date.
- (4) Among the other commodities which Pakistan could supply to India were foodgrains, cement and hides and skins. It was agreed that the Government of India will prepare a quantitative statement of their requirements and communicate them to the Pakistan Government as soon as possible.

#### *Additional Matters*

A number of other miscellaneous points were discussed. These are summarised below:—

(a) Pakistan representatives suggested that in order to keep down prices the Government of India should not levy any export duty on cotton textiles

going to Pakistan and that Pakistan should not levy the export duty on raw cotton exported to India. The Committee agreed that this matter should be further considered by the two Governments.

#### *(b) Insurance Companies*

It was agreed that difficulties experienced by the Insurance Companies owing to the partition should be examined in detail. Discussions between the representatives of the two Dominions had already been arranged.

#### *(c) Postal, telegraphic and telephone rates*

It was agreed that this question, as well as the question of simplifying the movements of letters and postcards so as to reduce the delays which now arise by passing them through the exchanges should be examined urgently by experts of both the Dominions. Arrangements were already in train for these discussions. The question of parcels which are subject to customs duty, might require a different treatment.

#### *(d) Partition stores*

To facilitate the movement of stores between the Dominions, which were covered by the orders of appropriate authorities dealing with the division of assets as a Partition matter, it was agreed that such movement should be exempt from the normal export and import control and customs duties. Both the Governments, should introduce at an early date an agreed procedure for simplifying the formalities relating to their movement. It was considered that in certain cases powers would have to be delegated by the Central Governments to officers of the Provincial Governments in regard to such movements.

(e) The Pakistan representatives complained that no accounts had been received for the cross railway traffic. The Indian Delegation agreed to take up the matter with the appropriate authorities in Delhi. The Indian Delegation pointed out that accounts were similarly wanting in respect of interchange of traffic.

(f) In regard to the general complaint that there had been discriminatory practices against minorities in India in respect of the grant of export and import licenses and assessment of Income tax and similar matters, the Indian Delegation pointed out that it was impossible to deal with vague and general accusations of this nature. Indeed there were grave allegations of discrimination and injustice against minorities in Pakistan and specific cases had been brought to the notice of the Government of India. So far as India was concerned there was no question of discrimination against any minority, and individuals with concrete grievances had the right of redress at the hands of the highest authorities. The Government of India would deal sternly with any genuine cases of injustice or oppression. The Pakistan representatives agreed that their Government would do likewise.

(g) The non-receipt by the Pakistan Railways of their share of the supply of railway stores ordered prior to the 15th August 1947, and the non-receipt by the Eastern Punjab Railway of its share of stores from the North Western Railway were mentioned.

The Committee could not settle these issues, but recommended that this matter should be considered at a meeting of the representatives of the Railway Boards of the two Dominions and the other officers concerned.

They further recommended that in order to provide for a smoother working, a close liaison should be established between the two Railway Boards.

(h) In regard to the complaint about the non-payment of the sum of Rupees Five Crores, it was stated that the views of the Government of India

had been explained by Mr. H. M. Patel in a letter addressed to the Hon'ble the Finance Minister, Pakistan.

(i) The Committee agreed that orders should be issued by both the Governments to the authorities concerned for terminating forthwith the unauthorised hold-up of goods, including personal effects, which had occurred in the past between the two Dominions in the light of the conclusions now reached. The articles which were already in movement through recognised carriers before the termination of the Standstill Agreement should be let through with the minimum of formalities.

#### LIAISON AND CO-ORDINATION

The Committee considered that it is a matter of paramount importance that there should be liaison between the officers of the two Dominions at all levels for ensuring close co-ordination and freedom from harassment and delays of every kind. Apart from the system of the appointment of special Liaison Officers of suitable grades wherever the volume and nature of the work justified, the officers of the Provincial Governments and the Central Governments of the two Dominions should make it a point of maintaining mutual contact and goodwill with their opposite numbers with a view to the removal of each others difficulties. The successful implementation of any agreement, or rules, largely depends upon the goodwill and co-operation of officials at all levels, and the highest administrative officers of the two Dominions should endeavour to instill this spirit amongst their officers and sub-ordinates of every grade.

V. NARAHARI RAO.

18-4-48.

AGREEMENT NO. VII.—RECORD NOTE OF THE MEETING HELD  
ON 3RD AND 4TH MAY, 1948, BETWEEN THE REPRESENTA-  
TIVES OF INDIA AND PAKISTAN.

The Pakistan representatives first raised the question of the payment by India of the sum of Rs. 6 crores which India had agreed to make available to Pakistan for the setting up of Ordnance Factories and other unique institutions. It was explained by the Indian delegation that the agreement was to make this money available only as and when required and the mere fact that a provision of Rs. 6 crores had been included in the Pakistan budget did not mean, particularly in the present difficult supply conditions, that the money was immediately required. The Pakistan representatives pointed out that a part of the expenditure had already been incurred whereas the rest was to be incurred shortly and firm indents had already been placed. In view of the December agreement payment was to be made on the basis of requirements and not after actual disbursement. It was agreed that the necessary funds will be placed at Pakistan's disposal for meeting the expenditure to be incurred by them in the near future including the expenditure already incurred. The Pakistan delegation agreed to review the position once again and intimate their requirements to India.

2. The payment of the balance of Rs. 5 crores out of the allocation of Rs. 75 crores as Pakistan's share of the cash balance of the undivided Government was next raised. It was explained by the India representatives that Pakistan's share of the joint military expenditure after the partition was certain to exceed Rs. 5 crores and since Pakistan had provided no finance for meeting this joint expenditure and India had carried this expenditure for months, this amount should be treated as an on account payment for Pakistan's share. Pakistan contended that the allocation of the cash balance was a separate transaction and should not be mixed up with the recovery of Pakistan's share of the joint military expenditure, the adjustment of which should be left to take its course in accordance with the prescribed procedure. The Pakistan representatives suggested that the adjustment of joint military expenditure could be expedited by the Military Financial Advisers or Auditors General of the two Dominions working in consultation in the immediate future. India could not accept this contention for the reasons already mentioned.

3. The payment of the pro-partition liabilities still outstanding was then considered. The Pakistan delegation proposed that the joint account of the undivided Government should be kept open for a further three months. The Indian delegation made it clear that they could not accept this and the viewpoints of the respective Governments in this matter, as set out in the correspondence between them, were restated. The Pakistan delegation contended that as the Government of India would not agree last December to reimburse the payments made on account of the prepartition liabilities Pakistan had actually made no payments between then and the 24th March when they were resumed on India agreeing to accept the debits for payments made till the 31st March and that they only asked to be placed in the same position as if this interruption had not actually occurred. The Indian delegation pointed out that there was an earlier agreement that till 31st March each Government will pay the claims arising in its area pending subsequent adjustment, that Pakistan had no justification for stopping payments and that such stoppage did not by itself confer any right to Pakistan for an extension of the date.

(593)

The India delegation also pointed out that after the unconditional allocation of the available cash balance of the undivided Government the fact that India agreed to pay from its cash balance the prepartition liabilities upto the 31st March was in itself a concession and that the current sharing of the outstanding liabilities was the only fair and equitable arrangement. The Pakistan representatives pointed out that the fact that there was an agreement whereby India was to reimburse Pakistan in respect of pre-partition claims, clearly recognised that this was to be done in spite of the allocation of the cash balances. The agreement on prepartition liabilities, therefore, stood by itself and required to be fully implemented. In view of the fact that its working had been considerably impaired by India's attitude, the only way of implementing it now was to extend the period upto which the joint account would remain open by three months from the date of decision by the conference.

Asked about how the liabilities still remaining after the joint account was closed, even an Pakistan's proposal would be met the Pakistan representatives suggested that after the closing of the joint account each Dominion should take final liability for the outstanding claims in its area.

The Pakistan delegation made it clear that they could not discuss the problem further unless an agreement was reached on the question of extending the period of the joint account.

The India Delegation stated that as it had not been possible to reach any settlement, India would meet the legal liability to third parties for supplies and services rendered to the undivided Government before partition and Pakistan's share of this would be added to its debt. Asked if the Pakistan authorities would be prepared to check the claims arising in their area and pass them on to India for payment the Pakistan representatives replied in the affirmative.

The Indian delegation pointed out that if this position was reached it would follow, as a corollary, that there will be no sharing of any further prepartition receipts. The Pakistan representatives could not agree to this as in their view any specific decisions already taken must be implemented by themselves.

The point was also made by India that any cash realisations from the disposal of surplus military stores and any receipts from H.M.G. as a result of the final allocation of the defence expenditure would not also be shareable and would be set off against the payment to H.M.G. on account of surplus Stores and installations for which the rupee finance will be found by India. The Pakistan representatives stated that this was a new point and would have to be further considered by them.

4. The payment to the Provinces of the provincial share of the income tax upto the 15th of August 1947 and other similar payments that the old Central Government would have been made but for the partition was then raised. The India representatives pointed out that this was in a category different from that of the claims of third parties like contractors. Those could reasonably be considered as so many promises by the old Government to the provinces and it was for the dominion Government concerned to pay (or not to pay) to the provinces now in its area the amount which would have been paid by the old undivided Government. Obviously, the India dominion could not be expected to pay anything on this account to the provinces in Pakistan after the available cash balance of the undivided Government, from which these payments would have been met by that Government had been allocated between the two Governments and Pakistan had received something like 23 per cent. of the available cash balance. The Pakistan representatives strongly refuted this suggestion and maintained that no

distinction could possibly be drawn between claims of Provincial Governments and third parties. The legal position in this respect was clear beyond doubt. They also pointed out that this view was being advanced by India for the first time for ever since the question of the payment of the Provincial share of Income Tax to the Provinces was taken up with India in November 1947, India had always pointed out that payment could not be made as the accounts figures were not yet available and had at no stage questioned the propriety of such payments being made by the Dominion of India. India did not accept this contention.

5. The Pakistan delegation then raised the question of paying the Pakistan opted staff arrears following the implementation by India of the Pay Commission's recommendations. It was argued that the undivided Government had more than once announced its intention to give effect to the Commission's recommendations and that irrespective of what Pakistan did after the partition, the employees who had opted for Pakistan should get their arrears as employees, till partition, of the undivided Government of India. The employees had a perfectly valid claim against the Government of India for the period from 1st January 1947 to the 14th August 1947 and this claim was supported by the local provision. The India delegation could not accept this view. The Indian Dominion alone had decided to implement the Commission's recommendations and would root the entire bill for it. The Pakistan Government had not only not implemented the recommendations of the Pay Commission but had on the other hand objected to the Indian Government implementing the recommendations in respect of their own staff in a joint establishment. The Pakistan delegation held that the non-acceptance by the Pakistan Government of the Indian Pay Commission's recommendations was not very relevant for even if the recommendations had been accepted, the arrear liability for the period from the 1st January 1947 to the 14th August 1947 would have in any case devolved on the Government of India.

6. The question of adjusting the debits raised by the Pakistan Accounts Officers in respect of payments made up to the 31st March was then discussed. The Pakistan representatives contended that the reversal of these debits was unjustified and said that the correctness of these was under examination. They reiterated their offer to withdraw such of the debits as they may find to be unjustified. The Indian delegation pointed out that the amounts involved were of an improbable magnitude and there was clear evidence that substantial amounts had been debited on account of book adjustments for which there was no authority. It also appeared that in East Bengal debits had been raised, not for actual payments, but for lump sum imprests with disbursing officers, like Collectors, for payment of claims. In view of these obvious irregularities India could not, even provisionally, accept these debits but the undertaking that debits for actual payments would be accepted, subject to subsequent verification by audit, would be honoured.

7. The Pakistan representatives then mentioned a number of points about the Railways. Their first complaint was that the East Bengal Railway had not been receiving the share of revenue due to it for cross traffic. It was pointed out that the normal process of adjustment between Railways through the exchange of Division Sheets had not been functioning properly, and the Indian Railways on their part had also not received their share of the receipts in respect of traffic originating in Pakistan Railways. It was agreed that the Railway Boards of the two Dominions should get together and revolve a suitable procedure for expediting these adjustments. The Pakistan representatives also complained that the Jodhpur State had demanded advance payments before transferring a section of the railway line to Pakistan and that this did not conform to the normal arrangements between the Dominions.

It was explained that the assets in question for which payment had been claimed belonged to the Jodhpur State and not to the Indian Dominion and that workable arrangement could best be devised in discussion with the authorities concerned instead of importing the inter-dominion procedure into the matter. It was, however, agreed that Pakistan Railway Board might address the Railway Board India in this matter who would take up this matter with the Jodhpur State through the States Ministry. Similarly with regard to a complaint that the E. I. Railway was asking for an advance payment in respect of supplies of boulders it was agreed that the system of advance payments was irksome and that the procedure for supplies and payments should be discussed between the Railway Boards and settled.

8. A number of miscellaneous points were then discussed. It was mentioned that a number of employees who had either retired or were on leave pending retirement without opting for either Dominion could not get their dues settled. The problems mainly concerned the Secretary of States Services, the Railways and Defence Services and it was agreed that the authorities concerned in both dominions should in mutual consultation evolve a common procedure for the verification and early payments of the claims. It was also agreed that the Auditors General of the two dominions should discuss and settle the procedure for the settlement of the accounts between the two dominions at a very early date. The existing procedure had not worked well and the matter was of some urgency as the Reserve Bank would cease to be the common banker from the 1st July 1948. Another outstanding point was also mentioned, viz. the procedure for the transfer of pensions between the dominions and the financial adjustments between them. This still remained to be discussed and the meeting decided that this should be taken up as early as possible.

The meeting also discussed the question of the audit of Joint Account and it was agreed that the audit of these accounts should be expedited and the respective Auditors General should make arrangements to that effect.

# AGREEMENT NO. VIII.—AGREEMENT BETWEEN INDIA AND PAKISTAN FOR THE MUTUAL SUPPLY OF CERTAIN ESSENTIAL COMMODITIES.

The representatives of the Government of India and the Government of Pakistan having considered the requirements of essential commodities which each Dominion needs from the other have, subject to ratification by their respective Governments, agreed as hereunder:

1. The quantities of each commodity which each Dominion undertakes to make available to the other are stated in Annexures I and II. The Annexures also indicate the demands made by each Dominion in respect of each commodity and special features, if any.

2. Apart from the commodities listed in the annexures I and II it was agreed to show the maximum consideration in facilitating the export of goods from one Dominion to the other. It was agreed that imported goods which had been shipped and paid for in either Dominion before the 31st of December 1947 out of the undivided exchange account will be allowed to be re-exported to the other Dominion wherever it is established that the goods were originally intended for consumption in that Dominion.

3. The period of the agreement will be one year from 1st July 1948 to the 30th June of 1949 except as regards:

(a) raw cotton and cotton textiles, for which the agreement shall cover the period from 1st September 1948 to 31st August 1949; and

(b) food grains for which the agreement will be for the period 1st June 1948 to 31st August 1949.

4. With such exceptions as may be mutually agreed upon supplies will ordinarily be made through commercial channels. Commodities which are not subject to any control either internally or for export present no problems. In the case of commodities which are not subject to internal control but are subject to export control, the supplying Dominion shall issue necessary export licences in such a manner that the export of the agreed quantities will be facilitated. In respect of commodities which are subject to internal as well as export control, the supplying Dominion shall either supply on a Government to Government basis or make specific allocations in conformity with their internal control as well as issue export licences.

5. In regard to raw jute, India agrees to restrict her exports of raw jute from the Indian Dominion to 9 lakhs of bales predominantly of the Indian varieties the bulk of which is not suitable for use in Indian Mills and is usually exported.

6. It is agreed that neither Dominion will re-export to any country any commodity imported from the other Dominion in the form in which it was imported.

7. Pakistan agrees to supply foodgrains to India at the same rate as is charged for supplies to its own deficit Provinces. India agrees to supply steel f.o.b. Calcutta at f.o.b. Calcutta prices. The freight will be borne by the buyers. India also agrees that the internal controlled price of coal and paper will continue to be charged for sales to Pakistan also. Supplies of coal to the Government of Pakistan will be paid for out of irrevocable credits to be

(602)

opened by the Pakistan Government. Other supplies of coal to Pakistan will be made on pre-payment by the purchasers in the usual manner. The prices indicated are exclusive of any export or import duties that may be levied by either Dominion.

8. It was agreed that subject to seasonal considerations each Dominion should spread its purchases as uniformly and conveniently as possible.

9. In order to implement the Agreement in a smooth and orderly way, it was agreed that monthly progress reports should be exchanged between the two Dominions, and that meetings between representatives of the two Dominions should be held every other month for this purpose.

10 During the currency of this agreement items may be added to or taken away from the lists of commodities included in the annexures by mutual agreement between the two Dominions.

C. C. DESAI

MOHD. ALI

Karachi, dated the 26th May 1948.

## ANNEXURE No. 1

### Requirements of Pakistan

| Sl. No. | Commodity                  | Pakistan's stated annual requirements | Quantity agreed to by India                                                                                            | Remarks                                                                                                                                                                                                                                  |
|---------|----------------------------|---------------------------------------|------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1       | 2                          | 3                                     | 4                                                                                                                      | 5                                                                                                                                                                                                                                        |
| 1       | Coal                       | 3,400,000 tons.                       | 183,000 tons per month (including as far as possible 5000 tons of hard coke).                                          | 160,000 tons per month are firm. As for the balance of 23,000 tons, India will make every effort to move this quantity, subject to adequate transport being available, and will also invite the co-operation of Pakistan in this matter. |
| 2       | Cloth and Yarn             | 400,000 bales.                        | 400,000 bales.                                                                                                         | One fourth of this total quantity would be in the form of yarn.                                                                                                                                                                          |
| 3       | Steel, pig iron and scrap. | 319,720 tons.                         | 15,000 tons per quarter plus 1,000 tons per quarter of corrugated iron sheets plus 4,000 tons of pig iron per quarter. |                                                                                                                                                                                                                                          |

In order to facilitate proper fulfilment of the Agreement entered into between the two Dominions at Karachi in May 1948, the Delegations of the two Dominions have, after full discussion, agreed subject to ratification by the respective Governments, on the following clarifications and arrangements.

**Cotton.**—The Indian Delegation stated that the fixation of monthly quotas for the supply of cotton with a lapsing clause was not acceptable and should be reviewed. The representatives of the Pakistan Government agreed to fix an export quota of 360,000 bales for India for the period ending 31st January, 1949, provided that if Indian purchases during the period fell below 325,000 bales such shortfall will be liable to lapse. The Pakistan Government representatives agreed that export quotas to other countries and purchases by them and for internal consumption in Pakistan will not together exceed 360,000 bales during the same period. Pakistan representatives further agreed that consideration of fixation of quotas on a monthly or quarterly basis for subsequent periods be postponed and examined in due course by prior consultation in the light of working of this arrangement as a whole.

**Foodgrains.**—At the concern expressed by the Government of India at the inability of Pakistan to supply foodgrains as a result of unexpected floods during the current crop season, the representatives of Pakistan assured the Indian Delegation that they were most anxious to implement the Agreement and that they would make their best endeavours to supply the stipulated quantity of foodgrains from their next Rabi crop.

**Coal.**—Pakistan's representatives emphasised their inability to move cotton without supply of coal from India. They stated that hitherto they have not received the full quantity which India had promised to supply. At the same time Pakistan appreciated the difficulties which India had to encounter in supplying the full quantity of coal. The Indian Delegation assured the representatives of Pakistan that realising the importance of coal to Pakistan, they would take steps to ensure that full quantity of coal is supplied every month.

**Other Commodities.**—The representatives of Pakistan stated that nothing has been received from India against the quotas of steel, asbestos cement sheets, sulphuric acid, tyres and tubes, etc.

The Indian Delegation reiterated that they have every intention of fulfilling the terms of the Agreement. In this connection the Indian Delegation

agreed that steel will be supplied on F.O.B. Calcutta basis as contemplated in the Inter-Dominion Agreement.

**Jute.**—Both parties agreed that there was no occasion to change the existing policy in regard to export of jute to India. It was further agreed that should circumstances otherwise warrant, India will be consulted before any change is effected. At any rate, no change will be effected till the 31st December 1948.

**Cloth.**—The Indian Delegation agreed that they will make arrangements which would enable Pakistan to obtain regular supplies of cloth to Pakistan from India. The exact details of the arrangement will be settled at an early date by mutual consultation.

**General.**—Both Government recognise that the Agreement must be regarded as a whole and implemented in full; and for this purpose the arrangements for the export of commodities concerned must be devised in such a manner as to satisfy both Government that the goods would move in accordance with the terms and intentions of the Agreement.

Signed in Karachi,  
20th October 1948.

# MINUTES OF AN INTER-DOMINION CONFERENCE HELD IN THE OFFICE OF THE TEXTILE COMMISSIONER, BOMBAY ON TUESDAY THE 9TH NOVEMBER, 1948.

## PRESENT

### Government of Pakistan

1. G. Faruque, Esquire, Secretary to the Government of Pakistan, Ministry of Industry and Supplies.
2. A. B. Habibullah, Esquire, Textile Commissioner, Pakistan.
3. G. M. Mozaffar, Esquire, Deputy Secretary to the Government of Pakistan, Ministry of Finance.
4. M. H. Rahman, Esquire, Director of Textiles, East Bengal.

### Government of India

1. C. C. Desai, Esquire, C.I.E., I.C.S., Secretary to the Government of India, Ministry of Commerce.
2. A. K. Roy, Esquire, Joint Secretary to the Government of India, Ministry of Finance (I & C Division).
3. T. P. Barat, Esquire, M.B.E., Textile Commissioner to the Government of India.
4. K. Sen, Esquire, I.C.S., Deputy Secretary to the Government of India, Ministry of Industry and Supply.
5. R. Srinivasamurti, Esquire, Under Secretary to the Government of India, Ministry of Finance (I & C Division).

(Neville Wadia Esquire, by special invitation.)

In attendance.—R. K. Tandon, Esquire, Deputy Chief Controller of Imports and Exports, Bombay.

P. M. Mukherji, Esquire, Deputy Chief Controller of Imports, Delhi.

It was agreed that the supply of cloth and yarn to Pakistan by India will be on Government of India account. For this purpose, Government of India will use such agencies as they consider necessary. The Government of Pakistan will be free to use any agencies they consider necessary—a Government agency or a private trade agency—but there should be no more than one such agency for East Bengal and another for the rest of Pakistan.

2. For cloth supplied to them, Pakistan will pay to the Government of India the Controlled ex-mill price plus the fixed exporter's margin of 15 per cent. plus an export duty of 10 per cent. This will be in modification of the present scale of export duty.

3. It was agreed that any increase of export duty or of the exporter's margin by the Government of India would not affect the present agreement. On the other hand, if the Government of India reduced the general export duty below 10 per cent. or exporter's margin for the above countries below 20 per cent. Pakistan would get the benefit of such a reduction.

4. It was agreed that for yarn supplied to them, Pakistan would pay the Controlled ex-mill price plus an exporter's margin of 10 per cent. This percentage will be subject to reconsideration between the two Governments should Government of India propose to impose an export duty on yarn.

5. All the above prices would be for cloth or yarn F.O.B. Indian ports or F.O.R. in case of despatches from mills by all rail route.

6. For cloth and yarn purchased by them, Pakistan would pay by Irrevocable Letters of Credit payable to the Government of India.

7. Existing or future restrictions as regards widths applicable to exports to other countries will not apply to cloth supplied to Pakistan.

8. The Government of Pakistan will be given facilities for the inspection of cloth and yarn at godowns or docks before shipment takes place. The inspection will be on the basis of a maximum of 2 per cent. examination of each variety in every consignment. Disputes, if any, will be dealt with jointly by the Textile Commissioner of India and the Textile Commissioner of Pakistan.

9. Pakistan desired that the cloth supplied to them should be price-stamped in the same manner as cloth for internal consumption in India. This was agreed to.

10. It was agreed that cloth supplied to Pakistan should be in the following proportions:—

Superfine—5 per cent.

Fine—10 per cent.

Medium—50 per cent.

Coarse—35 per cent.

Within these ranges, the qualities and varieties of cloth to be supplied to Pakistan will be settled by agreement between Textile Commissioner, India, and Textile Commissioner, Pakistan. Textile Commissioner, India, will also consult Textile Commissioner, Pakistan, about the mills from which supplies to Pakistan will be drawn.

11. It was agreed that Pakistan would endeavour to purchase 75,000 bales of cloth and 25,000 bales of yarn before the 31st of December, 1948. Thereafter, during the months of January to June 1949, Pakistan will be entitled to purchase cloth and yarn on a monthly average basis of 37,500 bales of cloth and 12,500 bales of yarn subject to a maximum of 45,000 bales of cloth and

15,000 bales of yarn in any one month. The balance of purchase, if any, will be completed before the end of August, 1949. The Textile Commissioner, Pakistan, will intimate to the Textile Commissioner, India, his firm demand for every month before the end of the previous month.

12. If purchase of cloth by Pakistan during any month falls short of 37,500 bales, the difference between 37,500 bales and the quantity actually purchased will be carried forward, subject to the proviso that the quantity carried forward from one month to another will not exceed 7,500 bales and subject also to the limit of maximum purchase in any one month mentioned in para. 11 above.

13. Where any part of Pakistan quota lapses due to the operation of this provision, Government of India will attempt to supply cloth against such lapsed quota during July-August, 1949 to the extent possible, if requested to do so by the Government of Pakistan.

14. These conclusions are subject to approval by the two Governments.

C. C. DESAI

10-11-48.

G. FARUQUE,

10-11-48.

AGREEMENT NO. IX—AGREEMENT MADE THIS THIRTIETH DAY OF JUNE, 1948 BETWEEN THE DOMINION OF INDIA AND THE DOMINION OF PAKISTAN.

Whereas the provision contained in Section 13 of Part IV of the Pakistan (Monetary System and Reserve Bank) Order, 1947, as subsequently amended, which prohibits exchange control as between India and Pakistan and any restrictions on the transfer of funds or securities from one Dominion to the other, is due to expire on the thirtieth day of June 1948:

And whereas it is to the advantage of both the Dominions that no unnecessary restrictions should be placed on exchange transactions and the transfer of funds and securities between the two Dominions;

It is hereby agreed as follows:—

ARTICLE I

The official rate of exchange as between the India rupee and the Pakistan rupee will continue to be at par, and will not be altered by either Government except after due notice and mutual consultation.

ARTICLE II

As soon as the necessary arrangements can be made the Government of Pakistan will become a member of the International Monetary Fund, and for that purpose will declare the par value of the Pakistan rupee to be equal to 0.268601 grammes of fine gold.

It is assumed for the purposes of this Agreement that this parity will be accepted by the authorities of the Fund.

ARTICLE III.

(1) There shall be no exchange control as between India and Pakistan, nor shall any restrictions be placed on the transfer of funds or securities from one Dominion to the other, whether such transfers are on capital account or current account. In particular there shall be no restrictions on transfer of evacuee funds in private hands. The transfer of evacuee funds in the hands of Custodians of Evacuee Property will be arranged after mutual consultation between the Reserve Bank of India and the State Bank of Pakistan (hereinafter referred to as "the Reserve Bank" and "the State Bank", respectively) in order to ensure orderly transfer without undue strain on exchange resources.

(2) Nothing contained in the preceding paragraph shall apply in relation to the transfer of gold or silver (in whatever form) between the two Dominions. Either Government may impose restrictions on such transfer, subject to such exemptions in regard to evacuee property as may be agreed upon by the two Governments.

ARTICLE IV.

(1) The Reserve Bank, acting as agents of the Government of India, shall sell to the State Bank, acting as agents of the Government of Pakistan, India rupees to such extent as may be required for payments which persons in

Pakistan are permitted under the exchange regulations in force in Pakistan to make to India; and such sale shall be—

(a) against Pakistan rupees to be credited at the official rate of exchange to the Reserve Bank's account with the State Bank, provided that the balance standing to the credit of that account is not thereby increased above a maximum of fifteen crores of Pakistan rupees; and thereafter

(b) against sterling to be credited at the official sterling parity to the Reserve Bank's No. I Account with the Bank of England, provided that the total amount of sterling so transferred shall not exceed seven and a half million pounds; and thereafter

(c) against sterling to be credited at the official sterling parity to the Reserve Bank's No. II Account with the Bank of England.

(2) The State Bank, acting as agents of the Government of Pakistan, shall sell to the Reserve Bank, acting as agents of the Government of India, Pakistan rupees to such extent as may be required for payments which persons in India are permitted under the exchange regulations in force in India to make to Pakistan; and such sale shall be—

(a) against India rupees to be credited at the official rate of exchange to the State Bank's account with the Reserve Bank, provided that the balance standing to the credit of that account is not thereby increased above a maximum of fifteen crores of India rupees; and thereafter

(b) against sterling to be credited at the official sterling parity to the State Bank's No. I Account with the Bank of England, provided that the total amount of sterling so transferred shall not exceed seven and a half million pounds; and thereafter

(c) against sterling to be credited at the official sterling parity to the State Bank's No. II Account with the Bank of England.

ARTICLE V.

(1) The Reserve Bank shall have the right at any time to sell to the State Bank against all or part of the India rupees held by that Bank either Pakistan rupees at the official rate of exchange or sterling from the Reserve Bank's No. I Account with the Bank of England at the official sterling parity.

(2) The State Bank shall have the right at any time to sell to the Reserve Bank against all or part of the Pakistan rupees held by that Bank either India rupees at the official rate of Exchange or sterling from the State Bank's No. I Account with the Bank of England at the official sterling parity.

ARTICLE VI.

In the event of either Government taking action which results in a depreciation of its currency in terms of the currency of the other Dominion, India rupees held by the State Bank, or, as the case may be, Pakistan rupees held by the Reserve Bank, shall be revalued on the basis of the new parity, and the account of whichever Bank incurs a loss as a result of such revaluation shall be written up by the credit of additional India rupees or Pakistan rupees, as the case may be.

ARTICLE VII

The Reserve Bank and the State Bank will collaborate to maintain the India and Pakistan rupees at parity with each other and to that end will take

steps to enforce the use of the official rate as the basis of all transactions involving a relationship between the two currencies in the markets under their control.

## ARTICLE VIII.

Any India rupees held by the State Bank shall be held and invested only as may be agreed by the Reserve Bank and any Pakistan rupees held by the Reserve Bank shall be held and invested only as be agreed by the State Bank.

## ARTICLE IX.

The Reserve Bank and the State Bank shall maintain close contact on all technical questions arising out of the present Agreement.

## ARTICLE X

This Agreement shall come into force on the first day of July 1948 and shall remain in force for a period of one year, but shall be reviewed three months before the date of its termination;

Provided that if during the currency of this Agreement the transfer of funds from one Dominion to the other assumes such large proportions as to involve undue strain on the foreign exchange reserves of that Dominion, the two Governments shall consult together with a view to modifying the Agreement:

And Provided always that in the event of either of the two Dominions ceasing to be a member of "the scheduled territories" as defined in the Exchange Control Act, 1947, of the United Kingdom, the provisions of this Agreement shall be in abeyance pending consultation between the two Governments.

In witness whereof the Secretary to the Government of India in the Ministry of Finance, and the Secretary to the Government of Pakistan in the Ministry of Finance, having been duly authorised by their respective Governments, have appended their signatures.

Done in duplicate at Karachi this Thirtieth day of June 1948.

For the Government of India

Secretary to the Govt. of Pakistan,  
Ministry of Finance.

# AGREEMENT NO. X—MINUTES OF THE INTER-DOMINION CONFERENCE HELD IN LAHORE ON JULY 22nd, 1948.

## ITEM I OF THE AGENDA

(1) The draft scheme for Inter-Dominion Evacuee Property Agreement prepared by the Joint Official Committee at Lahore (March 22nd to 25th 1948) was considered by the Conference, and the following decisions were reached:

## PART I. GENERAL.—I. AREA TO WHICH APPLICABLE

(2) It was agreed that the areas should be extended to include in India, Ajmer-Merwara, Malerkotla State, the Matsya and Rajasthan Unions, Saurashtra, Jaipur State, Jodhpur State, and Western Districts of the United Provinces (which shall in any case include the districts of Saharanpur, Dehra Dun, Meerut and Muzaffarnagar). Pakistan was to forward a list of any further areas which they might wish to be included, for India's consideration.

## II. GENERAL PRINCIPLES

(3) The following new sub-section (4) should be added to section 2 as follows:

"Throughout this agreement whatever has been laid down as applicable to any Province or to its Government shall be applicable to any States or to the Government of any such States as have acceded to either Dominion and are included in the area to which this agreement now becomes or hereafter becomes applicable".

(4) India said that evacuees had been moving from all parts of one Dominion to all parts of the other and in so far as India was concerned, they were prepared to extend the agreed area to cover the whole of both Dominions. Pakistan agreed to consider this proposal.

## PART II. AGRICULTURAL PROPERTY

(5) The main question to be decided in this part was whether the settlement should be as between the Governments of the two Dominions or as between individual evacuees. Pakistan were of the view that no definite decision could be taken on this point until more data were available. For this purpose special Revenue Officers were to be appointed by both Dominions. Copying of revenue records should start forthwith. A special Joint Committee should be set up to supervise and expedite the whole work.

(6) It was further agreed that with a view to ensuring more equitable management of evacuee properties and the early payment of rents due to evacuee owners during the interim period, an officer of the other Dominion should be associated with the Custodians of Evacuee Property of each Dominion.

## PART III. URBAN IMMOVABLE PROPERTY

(7) Here again the main question to be decided was whether the settlement of this type of property should be on a Governmental or an individual basis. India felt that it might be advantageous to pool for purposes of exchange on a Governmental basis all properties valued below a certain figure to be agreed.

upon between the two Dominions property above that value would be open to unrestricted private sale and exchange. With this end in view it would be necessary to collect more data in regard to urban property.

(8) Pakistan's view was that, while the suggestion might prove practicable, it certainly presented enormous difficulties and would probably take an unduly long period to put into operation.

(9) It was finally agreed that the Joint Urban Assessment Board contemplated in Section 7 of this part should be set up and its functions enlarged to include assessment of the value of property. It was further agreed that an officer of the other Dominion should be associated with the Custodians of Evacuee Property of each Dominion with a view to ensuring equitable management and early payment of rents due to evacuee owners. India suggested that pending a final settlement it might be advisable to allow freely exchanges of Urban Immovable Property. Pakistan agreed to consider this proposal.

#### PART IV. HOUSES AND SHOPS IN RURAL AREAS

(10) It was decided that whatever decisions were finally taken in regard to Parts II and III should be made to apply to Part IV also, according to the category of property concerned.

#### PART V. MOVABLE PROPERTY

(11) The proposals were accepted by both Dominions subject to the following modifications:—

The Joint Government Agency to be set up under sub-section (5) of section 6 should deal with all matters and complaints arising out of the working of this part.

#### PART VI. CUSTOMS, EXPORT AND IMPORT CONTROLS

(12) The proposals as contained in Pakistan's redraft of this part dated 21st July, 1948, were accepted by both Dominions.

#### PART VII. INTER-DOMINION COMMISSION

(13) The proposals as contained in the draft agreement were accepted.

#### ITEM 2 OF THE AGENDA.—TRUST PROPERTY.

(14) It was decided to postpone consideration of this item.

#### ITEM 3 OF THE AGENDA.—DAMAGED URBAN IMMOVABLE PROPERTY.

(15) India was unable to accept Pakistan's proposals as they stood. They had no objection to demolitions or repairs necessary for ensuring safety, protecting health and the life but they could not agree to sales by the Custodians of Evacuee Property. Pakistan undertook to consider India's counter-proposals.

#### ADDITIONAL ITEM 3-A. NOT ON THE AGENDA. INCOME-TAX ASSESSMENT.

(16) There was at present an agreement between the two Dominions under which no *ex-parte* assessment of income-tax could take place in the West Punjab until 31st July, 1948.

(17) In view of the postponement of Evacuee Property settlement it was suggested by India that the agreement should be further extended up to 31st December, 1948, and should include the N.W.F.P. and Sind.

(18) Pakistan agreed to extend the present date upto 31st August, 1948, and pointed out that its present scope already covered the N.W.F.P. Pakistan was not prepared to extend the agreement to Sind. They would, however, consider the definite proposals from India as contained in Appendix A.

(19) Pakistan stated that no sales against realization of income-tax had taken place either in the West Punjab or the N.W.F.P. so far and they undertook that no such sales would take place at least until 31st August 1948, in any part of West Pakistan.

#### ITEM 4 OF THE AGENDA EXCHANGE OF PRISONERS

(20) The question of resuming the exchange of prisoners between the two Dominions which has stood suspended from the 27th April, 1948 was discussed. Pakistan handed over the following draft of what they desired in this connection:

"The exchange of Prisoners between the Dominion of Pakistan and the Dominion of India, which was suspended on the 27th April, will be resumed as soon as a satisfactory agreement has been arrived at with regard to Muslim prisoners of Delhi, whose families have migrated to Pakistan, on the same terms and under the same conditions as applied to the exchange of prisoners from East—and West Punjab."

India undertook to consider this and send a reply as early as possible.

#### ITEM 5 OF THE AGENDA. INDIA'S "PERMIT" SYSTEM.

(21) India explained their reasons for introducing a system of permits, but were prepared to consider its withdrawal if the two Dominions could evolve some system of regulating a two-way, as opposed to one-way, traffic. Pakistan was not satisfied that there was a case for introducing a permit system nor for any form of traffic regulation in either direction and stated that in difference to public opinion they would be obliged to introduce a similar permit system in West Pakistan, which would have to be extended to cover also, movement between East and West Bengal, if India could not see their way to withdrawing their "permit" system forthwith.

V. D. DANTYAGI,

Joint Secretary,

Ministry Without Portfolio,

Government of India.

23-7-48.

E. de V. MOSS,

Secretary,

Ministry of Refugees,

Government of Pakistan,

23-7-48.

#### NOTE DATED 22-7-48 BY INDIA ON INCOME-TAX ASSESSMENT

#### APPENDIX A. REFERRED TO IN PARAGRAPH (18) OF THE MINUTES

There is at present an agreement between the two Dominion Governments governing the East and West Punjab under which no *ex-parte* assessment of Income-Tax can take place. This agreement which expired on the 30th June 1948, has been extended up to the 31st July, 1948.

We suggest that this agreement should be extended further up to 31st December, 1948, in regard to time and should be covered to include Sind and N.W.F.P. in addition to West Punjab.

Meanwhile the work of assessment can be done either by deputing Pakistan officials to the Indian Dominion and *vice versa* under the guard and protection of the Dominion concerned; or notice in regard to all evacuees should be served on the High Commissioner of the Dominion concerned who should arrange for the defence of the case in consultation with the evacuee.

Once the assessment is made the Dominion to which the evacuee has gone may collect the Income-Tax and remit it to the originating Dominion or intimate its inability to do so. In the latter event, or at the option of the assessee the origination Dominion will have the right to dispose of the evacuee's property in fulfilment of the Income-Tax demand.

Pending consideration of this proposal we suggest that no sale of evacuee property should take place in either Dominion in fulfilment of the Income-Tax demands.

AGREEMENT NO. XI—MEMORANDUM OF AGREEMENT BETWEEN THE GOVERNMENT OF PAKISTAN (MINISTRY OF FOOD, AGRICULTURE & HEALTH) AND THE GOVERNMENT OF INDIA (MINISTRY OF FOOD) MADE ON 28TH JULY 1948

1. 1. Pakistan will supply to India 11,000 tons of fair average quality wheat in new gunny bags, suitable for seed purposes. Pakistan will try to supply as much of this wheat as possible of C591 variety.

2. Nominees of India will have the right to inspect for weight and quality and reject this wheat before despatch at despatching points.

3. Delivery will be made f.o.r. station of despatch.

4. In exchange India will deliver 4,000 tons of fair average quality wheat bagged in new gunny bags C.I.F. Chittagong and 105,000 tons of fair average quality gram of the current crop in new gunny bags f.o.r. stations in East Punjab.

5. The wheat will be imported wheat supplied from Government of India's depots in Calcutta and the nominees of Pakistan will have the right to select the best available stocks and to inspect them for weight and quality and reject this wheat before despatch. This wheat will be shipped from Calcutta by India for Chittagong and freight and insurance will be payable by India. In case the consignment is lost, India will replace the consignment in kind on the same terms.

6. Nominees of Pakistan will have the right to inspect for weight and quality and reject the gram which will be supplied in East Punjab stations f.o.r.

7. In respect of the exchange of 4,000 tons of wheat India will pay to Pakistan three annas per maund on full 4,000 tons plus 8 annas per maund for wheat certified by the West Punjab Agriculture Department as seed wheat, and 12 annas per maund of seed wheat certified to be of C591 variety.

II. India will allow export of 2,000 tons of vanaspati to Pakistan on an *ad hoc* basis. Pakistan may raise the question of supply of larger quantities at an Inter-Dominion meeting.

III. Unless Pakistan indicates to the contrary within a month from date, India will deliver to Pakistan 6,500 tons of Burma rice in bags f.o.b. the loading port in Burma. Shipping to Chittagong will be arranged by India. Freight from Burma to Chittagong and insurance will be payable by Pakistan. In exchange Pakistan will deliver to India the following quantities of rice in bags f.o.b. Karachi:

Sind Sugdasi (while) 4,000 tons

Baluchistan Kangni & Joshi 2,500 tons

The Bill of Lading weight and the certificate for quality issued by the Burma Authorities will be considered final in respect of weight and quality, but India will sponsor a visit of Pakistan representative to ensure quality and correct weight and to supervise the loading of rice from Burma if so desired. India will inspect Pakistan rice at Karachi and will have the right of rejection.

IV. Under the Inter-Dominion Agreement arrived at in Karachi, Pakistan has to deliver 175,000 tons of foodgrains to India up to August 1949. Out of

this quantity Pakistan will deliver the following quantities of rice f.o.b. Karachi at prices indicated below, which are the rates at which Pakistan supplies rice to its own units:—

Sind Sugdasi (whole), if offered 4,000 tons at Rs. 20/8/- per maund  
Sind Sugdasi brokens 7,000 to 8,000 tons at Rs. 17/5/- per maund Kangni brokens 10,000-11,000 tons at Rs. 12/8/- per maund. Baluchistan Sagdasi Joshi 1,500 tons at Rs. 27/15/- per maund Baluchistan, Kangni and Joshi 8,000-9,000 tons plus (2,500 tons if offered Kangni and Joshi) Rs. 21/8/- per maund.

Nominees of India will have the right to reject any of the above quantities after inspection at Karachi, provided that total quantity offered would be debitable to the quota of 175,000 tons referred to above irrespective of the quantity not accepted.

V. India will permit export of 2 lakhs maunds of onion to Pakistan for the winter season 1948-49. This includes the one lakh maunds for which permits were said to have been issued recently.

VI. Pakistan and India will be responsible for arranging movements of grains and their safe transit within their respective territories wherever rail movements of foodgrains are involved.

VII. A statement of amount claimed by India to be due to them from Pakistan is attached. Pakistan agrees to examine this statement at an early date and to expedite payment of any amount admitted to be due in respect of transactions arising out of the last two Food Agreements and the Cuban Sugar ex-Benjamin Bestow. In respect of the claim regarding supplies purporting to have been made to Pakistan Defence Forces, Pakistan will examine the claim with a view to very early settlement.

VISHNU SAHAY,

Secretary,

Ministry of Food, Government of India.

H. S. M. ISHAQUE,

Joint Secretary,  
Ministry of Food,  
Agriculture & Health,  
Government of Pakistan

New De'hi, the 28th of July 1948.

#### ANNEXURE

#### INDO-PAKISTAN FOOD AGREEMENT

##### First Agreement—

Following quantities of foodgrains were delivered to Pakistan:—

##### Wheat—

|                          |                                                   |
|--------------------------|---------------------------------------------------|
| Ex. s. s. INDIAN TRADER. | Tons 8,280-8-1-3 (bagged) at Rs. 10/4/- per md.   |
| Ex. s. s. BERT WILLIAM.  | Tons 9,500-0-0-0 (bulk) at Rs. 10/3/- per md.     |
| Ex. s. s. DERRY CUNNY    | Tons 4,272-11-2-25 (bulk) at Rs. 10/3/- per md.   |
| Do.                      | Tons 1,500-0-0-0 (bulk) at Rs. 9/9/- per md.      |
| Do.                      | Tons 2,091-11-0-19 (bulk) at Rs. 15/13/- per md.  |
| Do.                      | Tons 1,297-4-1-16 (bagged) at Rs. 16/11/8 per md. |

#### APPENDIX

##### Barley—

Ex. s. s. VASSILIDES . . . Tons 9,700-0-0-0 at Rs. 15-10-6 per md.

The value of the above is as follows:—

|                              | Rs.       | a. | p. |
|------------------------------|-----------|----|----|
| INDIAN TRADER . . . . .      | 23,10,465 | 8  | 0  |
| BERT WILLIAM . . . . .       | 26,34,600 | 11 | 0  |
| Less (for damaged) . . . . . | 6,449     | 5  | 0  |
|                              | 26,28,151 | 6  | 0  |

|                       | Rs.       | a. | p. |
|-----------------------|-----------|----|----|
| DERRY CUNNY . . . . . | 11,84,900 | 14 | 0  |
| " . . . . .           | 3,90,468  | 12 | 0  |
| " . . . . .           | 9,02,686  | 10 | 0  |
| " . . . . .           | 5,90,392  | 9  | 0  |
| VASSILIDES . . . . .  | 41,34,119 | 13 | 0  |

1,21,40,185 8 0

Less credited by Pakistan to the account  
of Govt. of India. . . . . 1,21,23,235 0 0

16,950 8 0

Barley from U.P. . . . . Tons 3,000 at Rs. 14 per md.  
Rs. 11,44,333-5-0.

This figures will be increased by Rs. 30,625 in case U.P. has not been paid for bags and bagging separately.

The quantity of gunnies delivered under this agreement was 3,11,466 new and 28,007 second hand. The gunnies to be provided free of cost under the agreement were 1,67,679 new only. Pakistan has, therefore, to pay for 1,43,787 new bags and 28,007 minus 18,543 second hand bags the latter having been received back from the supply made from s.s. Vassilides, i.e. net quantity of 9,464 second hand bags. Under the agreement we are to give 1,29,707 new gunnies at Rs. 105/- per 100 bags, the remaining bags had to be locally purchased in Karachi and are, therefore, being billed for at the rates actually paid. The following amount is, therefore, payable for gunnies:

|                               | Rs.      | a. | p. |
|-------------------------------|----------|----|----|
| 1,29,707 Bags @ Rs. 105 0 0   | 1,36,192 | 6  | 0  |
| 14,080 " @ Rs. 149 2 0        | 20,996   | 13 | 0  |
| 9,646 S. H. Bags @ Rs. 80 0 0 | 7,671    | 3  | 0  |
|                               | 1,64,760 | 6  | 0  |

*Second Agreement.*—The total number of bags supplied was 1,87,460 out of which 99,330 were to be supplied free in respect of the consignment of wheat sent per s.s. Hoperidge. The balance of 88,130 has to be paid for at Rs. 115/- per 100 and the amount due on this account works up to Rs. 1,01,349/8/-.

*Cuban sugar supplied before the first agreement.*—The total quantity of Cuban sugar supplied to Pakistan was Tons 9,771,32 the cost of which as intimated by the India Supply Mission is Rs. 53,97,188/8/-. The amount paid by Pakistan is Rs. 52,60,157/11/- leaving a balance of Rs. 1,37,030/13/-.

The total amount due from Pakistan is therefore as under:—

First Agreement:—

|                                               | Rs.       | a. | p. |
|-----------------------------------------------|-----------|----|----|
| 1. Imported Foodgrains. . . . .               | 16,950    | 8  | 0  |
| 2. U. P. Barley : . . . . .                   | 11,44,333 | 5  | 0  |
| 3. Gunnies : . . . . .                        | 1,64,760  | 6  | 0  |
| Agreements : (Gunnies) . . . . .              | 1,01,349  | 8  | 0  |
| 5. Cuban Sugar : (before agreement) . . . . . | 1,37,030  | 13 | 0  |
| Total                                         | 15,64,424 | 8  | 0  |

AGREEMENT NO. XII—AGREEMENT FOR RECOVERIES, DATED 23RD SEPTEMBER 1948 AS MODIFIED AT THE MEETING ON 11TH NOVEMBER 1948.

The new proposals will result in the following procedure being adopted in the matter of Recovery of Abducted women and children.

1. The responsibility for the recovery of abducted women will hereafter be that of the police and civil authorities of the Dominion in which the abducted women are known to be residing.

2. The recovered non-Muslim women from Pakistan will be handed over to the Provincial Transit Camp maintained for the purpose at Lahore, which will be under the control of two Indian women social workers; and recovered Muslim women from India will be handed over to the Provincial Transit Camp maintained at Jullunder, under the control of two Pakistan women social workers. Women recovered in Sind shall be handed over to the High Commissioner for India in Karachi. Receipts in a prescribed form will be given for all women handed over to these camps or to the High Commissioner.

3. The only police personnel to be maintained by one Dominion in the territory of the other Dominion for the purposes of this work, shall consist of two platoons, with officers, who shall form a static guard at the recovered women's camp mentioned in para. 2 above, and also provide escorts from the Camp to the other Dominion.

4. The responsibility for obtaining information in respect of abducted persons will be that of the recovery squad of the Dominion in which the abducted persons are known to be residing. Each Dominion, however, may furnish such information as may be available to the other, in respect of abducted cases known to be in the other Dominion.

5. In the case of women recovered in one Dominion unwilling to proceed to the other Dominion, the S.P. of the recovery squad of the Dominion in which the woman was recovered may permit the relatives of the recovered woman to visit her in the camp located in Lahore or Jullunder, as the case may be.

6. The propaganda to be conducted in favour of recoveries will hereafter be the responsibility of each Dominion in its own territory.

7. Transport required for affecting recoveries in each Dominion will be the responsibility of the Dominion from which the recovery is to be made except that transport for sending recovered women from the Jullundur Camp to Lahore will be that of Pakistan and that for sending them from Lahore to Jullundur will be that of India. Transport for women social workers will be provided by the Dominion to which they belong.

8. Any difficulties or legal complications arising in the process of recovery will be resolved by the Dominion making the recovery. Even in doubtful or resisting cases no recovered woman will be given up or released without being brought to the Provincial Transit Camp at Lahore or Jullundur, except where the Provincial Organiser of the other Dominion agrees to such a course, in any

special case. After the recovered women is brought to the Provincial Transit Camp at Lahore or Jullundur each doubtful or resisting case will be enquired into and resolved by the S.Ps. of the two Dominions jointly. In the event of disagreement between the two S.Ps. the case will be referred to High Powered Officers of the two Dominions for resolution.

9 The two High Powered Officers nominated by the two Dominions shall continue to rectify the breaches, if any, of Inter Dominion agreements on recovery work.

10. Shrinati Bhag Mehta, as India's Provincial Organiser in West Punjab, will be allowed to tour West Punjab and West Punjab, States in company with Muslim women social workers, and Miss Qari, as Pakistan's Provincial Organiser in India, will be allowed to tour East Punjab and East Punjab States in company with Indian women social workers.

11. There will be no neutral camps in either Dominion in future. Cases of girls who were in the neutral camp at Jullundur, till recently, have been disposed of. Cases of those who remain in any similar camp in Lahore should be disposed of in the next few days.

12. Women bailed out or released on bonds, when recovered, will be brought to the Provincial Transit Camp in Lahore or Jullundur as the case may be and their cases re-examined by the two S.Ps.

13. In order to avoid unnecessary obstructions in the movements of women social workers, in transit from one Dominion to the other or otherwise each Dominion should arrange to issue special permits, and facilitate the movements of women social workers in the other Dominion.

# AGREEMENT NO. XIII—FINAL AGENDA FOR THE INTER-DOMINION CONFERENCE ON 22ND TO 25TH NOVEMBER, 1948.

(1) Pre-partition claims arising in East and West Pakistan for compensation against Defence Services.

(2) Payments by Pakistan under Karachi agreement for Defence fixed assets and stores acquired from the United Kingdom.

(3) Non-acceptance by Pakistan of debit for Rs. 12.73 crores raised by India on account of postal and other transactions and complaints by Pakistan of a similar nature.

(4) Payment by Pakistan for Savings Bank accounts transferred from Pakistan to India—question of extension of period of transfer of postal accounts.

(5) Non-payment by Pakistan of other dues.

(6) Procedure for adjustment of provisional pension payments made by one dominion on behalf of another—question of extending the arrangements.

(7) Adjustment of Pakistan Suspense.

(8) Payment of dues of Provincial Government servants who have migrated from Pakistan such as leave salary, Provident Funds, etc.

(9) Transfer of Provident Fund accounts.

(10) Pakistan's share of the profits of the Reserve Bank.

(11) Pensions and Provident Funds payable by Indian States and local bodies.

(12) Payment to Pakistan's nationals for pre-partition claims submitted to the Government of India under the May 1948 Press Communiqué.

(13) Settlement of Railway compensation claims on account of prepartition consignments.

(14) Demand of India for current payment for carrier systems due to Pakistan.

(15) Transfer of Bank accounts.

(16) Pre-partition claims against undivided Bengal.

(17) Pre-partition claims against undivided Punjab.

(18) Progress regarding provincial partition matters.

(19) Sums payable by undivided India to the then provinces for the period ending 15th August, 1947.

I. Statement showing Amounts due from Pakistan in Regard to Military Stores.  
(In crores of Rs.)

A. Amounted from Pakistan on account of—

|                                                                                                                                        |              |
|----------------------------------------------------------------------------------------------------------------------------------------|--------------|
| (i) Stores (including unit equipment) taken over from UK and located in Pakistan on 15-8-47                                            | 11.38        |
| (ii) Fixed assets taken over from UK and located in Pakistan as on 15-8-47                                                             | 2.35         |
| (iii) Stores despatched from India to Pakistan between 15-8-47 to 31-7-48                                                              | 4.21         |
| (iv) Transportation charges on stores sent to Pakistan                                                                                 | 0.18         |
| (v) Estimated amount to be paid by Pakistan on account of net sale proceeds of UK owned surpluses located in Pakistan                  | 2.21         |
| (vi) Pakistan's share of joint expenditure booked in the Indian Accounts—                                                              |              |
| (a) Compiled during 15-8-47 to 30-11-47 on account of debit already intimated to Pakistan                                              | 4.20         |
| (b) Further debit on account of joint expenditure (mostly arrears charges pertaining to the period 15-8-47 to 30-11-47)—rough estimate | 2.00         |
| (vii) Payments due to Indian High Commissioner in UK for stores supplied by DG,ISD, to Pakistan (Centre and Provinces)                 | 1.43         |
| <b>TOTAL</b>                                                                                                                           | <b>27.96</b> |

RECORD OF DISCUSSIONS

Item (1)—It was agreed that in dealing with pre-partition claims arising in East Bengal the Government of India will commence work with the claims relating to properties which have been collected and scrutinised by the Government of East Bengal and amount to a little over Rs. 5 crores. This latter Government would arrange to furnish to the Financial Adviser, Military Finance of the Government of India the information mentioned below separately by each of the following three categories:

- Housing property;
- Factories;
- Agricultural land (including huts farms etc.)

The particulars which will be furnished project by project are name and description of project, location, particulars of property, the name of claimant, summary of the claim and amount of claim. Further information regarding the date on which the property was requisitioned and the date on which it was derequisitioned and reference to official letters on the authority of which action was taken would also be given to the extent that this is available at provincial headquarters. In the case of agricultural land it was agreed that names of claimants need not be given provided the description of the property is such that the property is clearly identifiable and the total number of claims is given.

The East Bengal Government will send this information project by project and the Government of India will begin their preliminary work of examination as soon as the first instalment of this information is received. After this preliminary check the Government of India will arrange to make a detailed check of the claim with a view to payment. This detailed check will commence, if possible, within two months after the receipt of the first instalment of information and in any case within two months of the receipt of the last instalment of information from the East Bengal Government.

It was also agreed that an officer would be deputed by the Government of India to whom suitable powers will be delegated to make detailed and final scrutiny of these claims at the Provincial Headquarters of East Bengal and that this officer would receive the assistance of an officer of the Provincial Government. Where any estimates made by the Provincial Government are rejected or modified by the officer deputed by the Government of India, the Provincial Government will naturally be free to refer the cases for review to the Government of India who will also receive a report on the matter from their own officer. The estimates finally passed will be accepted by the Government of India for authorising payments.

In the case of all properties, claims in respect of which have been scrutinised by East Bengal and which are eventually accepted by the Government of India, it was understood that no further claims of any kind whatsoever relating to those items of property will be entertained. The procedure for the entertainment and payment of claims already received which arise in other Pakistan provinces will approximate as far as possible to that in East Bengal.

Reference was made by India's representatives to the virtual lack of progress in Punjab, and to a lesser extent in Bengal, in recent months in the matter of scrutinising and accepting claims against undivided Punjab and Bengal. Pakistan representatives stated that they did not approve of any attitude by a Provincial Government of indifference in the matter of settling pre-partition claims. They were as anxious as India was that claims against undivided Punjab and Bengal should be settled expeditiously just as they were anxious regarding the claims against the Central Government arising in East Bengal.

India's representative explained that it would be India's endeavour to examine and deal with claims as expeditiously as possible and that India trusts that as regards both Punjab and Bengal, the Pakistan Provinces would co-operate in full to ensure that claims were dealt with in their sphere as speedily as the Government of India was dealing with the Central claims.

*Items (2).*—Pakistan desired that this item should be taken up at Karachi on the 26th.

*Item (3).*—The items which make up this debit were considered separately. The portion relating to Money Orders and claims for Inter-Dominion Railway traffic is not questioned by Pakistan in principle. It was explained by Pakistan representatives that such delays as have occurred have been due to a variety of reasons including the absence of vouchers. Pakistan representatives added that they had similar counter-claims in regard to these items against India. It was agreed that a suitable machinery should be devised for eliminating delays on both sides in making available to the other Dominion the necessary documents and particulars on the basis of which Audit has to accept debits. Pakistan also agreed that for outstanding money orders on the 31st March 1948, but issued before the partition, each Dominion should accept liability for money orders issued from Post Offices now located in that Dominion. The portions of the debit relating to (a) the Postal Savings Banks; (b) the clearing of Pakistan Suspense and (c) the claims of Indian Railways arising from through traffic were taken up separately in connection with items (4), (7) and (5) respectively.

*Item (4).*—With reference to non-acceptance by Pakistan of the debit and Mr. Mohamad Ali's telegram of September 1948 on the subject to which the Pakistan representatives made a reference India's representatives stated that the matter in question was covered by the decisions of the Partition Council of August 1947 and December 1947. Further the question whether in view of the mass movement of population the August decision in respect of Postal Savings Bank should be modified in the same way as the decision regarding postal certificates was modified was specifically discussed more than once in November-December 1947 and a decision was taken not to effect such a modification. The basis of further discussion on this point could only be that Pakistan now wish to suggest a modification in which case it was for them to put forward the proposition. The Pakistan representatives considered that the fact was that in effect each Dominion had undertaken direct liability for the Savings Bank balances of its nationals, and in view of the large scale transfer of population it was only natural that, as in the case of Cash Certificates, the liability for the Savings Bank accounts of persons who had migrated from one Dominion to the other should be assumed by the Dominion to which the depositors had migrated after partition. After discussion agreement was reached on the following formula:—

In regard to similar deposits the application for transfer of which are made prior to 1st April 1948, no cash adjustment will be made. These deposits will be treated as transferred from one Dominion to the other and the necessary adjustments will be made through the debt settlement. This adjustment through the debt settlement will be limited to the outstanding balance on the 14th August 1947, and the difference will be adjusted in cash.

In regard to similar deposits the application for transfer of which are made by the account holders between 1st April 1948 and the 31st March 1949, the deposits will be treated as formally transferred and each Dominion will pay the other in cash for the amounts so transferred.

In the course of the discussions on the Savings Bank accounts it appeared that Pakistan was of the view that the transfers of Cash Certificates between the 31st of March 1948 and 30th of September 1948 were covered by the agreement said to have been reached between the Directors General, Posts and Telegraphs, of the two Dominions some time in March 1948. This agreement is supposed by them to cover the transfer of Cash Certificates on the same terms and conditions and affecting financial adjustments in the same way as transfers prior to that date. The India representatives considered this view to be incorrect and that so far as their D.G. was concerned he was not competent to negotiate an agreement in regard to financial aspects of the transfer and he was and could only be concerned with the mechanical aspects of the transfer of Cash Certificates from one Dominion to the other. The position, therefore, from India's point of view is that the necessary adjustments in regard to transfers of such certificates from one Dominion to the other up to 31st March 1948 will be made through debt settlement and transfers subsequent to that date on a cash basis. As a result of subsequent discussion the Pakistan representatives were prepared to accept the following alternative, namely, in respect of Postal Cash, Defence and National Savings Certificates registered in Post Offices in one Dominion before the 15th August 1947 and transferred to the other Dominion on or after the 1st July 1948 the liability will continue to be that of the Dominion in which the Certificate was registered and the Dominion Paying the Certificate on maturity or earlier will recover the payment currently from the other Dominion.

The India representatives considered that the adjustment through the debt settlement should be as agreed in the Partition Council in respect of Certificates transferred up to the 31st of March 1948 and a settlement made by cash payment in respect of certificates transferred between 31st March 1948 and 31st March, 1949. For the latter India was, however, prepared to accept the procedure suggested by Pakistan of current recoveries in cash as certificates were discharged.

The Pakistan representatives undertook to put this matter before their Government and to intimate their final views on this subject before the Inter-Dominion Conference at which it would be taken up if no agreement was reached in the meantime.

*Items (3) and (5).*—Non-payment by Pakistan of dues to India so far as they relate to claim made by Indian railways against Pakistan railways on account of through traffic.—The delay in settling through traffic accounts by Pakistan Railways was referred to. The procedure accepted by both parties was that either party should send a schedule to the other showing payments made and money realised on behalf of the other which should be accepted, if in order, within one month of its receipt; thereafter net payments due to either party should be made by means of a bank draft. If any items which cannot be checked within the above period of one month, they should be accepted provisionally subject to re-adjustment being made on their behalf subsequently within two months. Pakistan representatives stated that that procedure had been agreed upon between the two Auditors General and would be followed. They further stated that if there are any debits raised by Pakistan which have not yet been accepted by India Pakistan will furnish relevant particulars. India's representatives explained that the Railway Board attached even more importance to the fact that Pakistan railways were not accounting for Inter-Dominion traffic for which under the present rules responsibility for accounting rests on them. In particular the case of coal traffic was mentioned. India had to point out about 95 thousand items which Pakistan Railways had not

accounted for during the last year. There was the further difficulty that if any claim was not raised within six months, it would become time-barred. India did not consider the position satisfactory under which they have to point out such a large number of unaccounted for items. The Pakistan representatives said that owing to the disorganization following on the division of Railways there would be a number of unaccounted for items in the Division Sheet and that it would be reasonable in the present conditions that the time limit of six months should be relaxed.

India agreed that the two Railway Boards should examine this point expeditiously and reach a decision within a month.

*Item 12.*—India's representatives furnished to Pakistan representatives a statement showing the number of claims that have been referred to the Accountant General, Pakistan Revenues, for verification and the small number that have been received back with reports. It was agreed that Pakistan would examine claims referred to them as speedily as possible. India for her part would similarly examine claims received by them speedily.

Regarding the special case of claims of railway contractors, the Financial Commissioner read out a ruling stated to have been given by the Auditor General of Pakistan that the Pakistan Government would only make over to the officers deputed by India to Lahore and Chittagong, bills which were verified by Pakistan but not any records for checking these bills as certified. Pakistan representatives at the meeting pointed out that the Auditor General's objection was apparently to the transfer of records, but they agreed that such officers deputed by India to Pakistan offices will be shown the relevant record and given all facilities for checking. The necessity for creating a machinery to deal with these claims was stressed by the India representatives. India also raised the question whether Pakistan had sufficient staff in E.B.R. to check the claims in the first instance. Pakistan representatives said that they had adequate staff and that even if this was not the position, they would sanction more staff.

*Item 13.*—Further to what has been stated regarding payment of compensation claims under item 12 above, India's representatives stated that they had been advised that the legal position is that where the claim for compensation relates to a consignment which began and ended at stations both of which now lie in Pakistan, the initial liability rests on the Government of Pakistan. It is only when both the stations of origin and destination lie in India or one of these two lies in India that the Rights, Property and Liabilities Order places the initial liability on India. Pakistan representatives agreed to this. They also agreed to make available all files relating to such claims.

*Item 16.*—*Pre-partition claims against undivided Bengal.*—It was pointed out by East Bengal that there was delay in departments returning the passed bills which have been passed by the Application Committee to the Accountant General, East Bengal, for payment and that as far as the Accountant General, East Bengal, was concerned almost all claims received in his office had already been paid. The East Bengal representative explained that his Government had no objection to the prompt payment of such claims. The East and West Bengal representatives agreed to co-operate with each other on the Application Committee with a view to disposing of all the claims against undivided Bengal rapidly, and paying the claims thus passed within a period of three months from now, if possible, and in any case within 4 months.

The question was raised by the East Bengal representatives that any recoveries made by the West Bengal Government from contractors should be applied towards the payment of claims against undivided Bengal. After

discussion between the representatives of East and West Bengal Governments the following agreement was reached:—

"It was decided that amounts due from contractors (including dealers of cloth mil's etc. relating to pre-partition period) who have bills pending before the Application Committee should be first adjusted against the claims and the net sum if any recoverable from the contractor according to the finding of the Application Committee should be realised by the Government of the Province in which they are located and should be available for payments of pre-partition contractual liabilities. The Application Committee shall determine the amounts already recovered or which may be recovered henceforth and to the extent to which such recoveries are made by West Bengal, the Accountant General East Bengal, may authorise payments on the Accountant General, West Bengal."

A further point was made by India that when Pakistan accepts and pays a claim to an individual who has now migrated to India, Pakistan should not require that this payment should be frozen with the Custodian of Evacuee Property. Pakistan representatives pointed out that India had issued some orders under which payments due to evacuees made in the East Punjab by the Central Government would vest in the Custodian. India's representatives agreed to examine whether such orders had been issued and suggested that, after such examination, India and Pakistan should come to some agreement which would govern such payments.

*Item 17.*—*Claims against undivided Punjab.*—The East Punjab representatives explained that representatives of the East Punjab Government, Food Department, had gone to Lahore to meet representatives of the West Punjab Food Department. They had however not been able to induce the latter to deal with all claims against undivided Punjab on items concerning food articles. As regards other claims also East Punjab had tried to get West Punjab to a joint examination on the basis that East and West Punjab would contribute in the proportion decided by the Arbitral Tribunal to pay all these claims. West Punjab however refused to discuss unless the East Punjab Government agreed to West Punjab's proposition that the joint account should be kept open for purposes of expenditure and not for purposes of receipts. India stated that neither the East Punjab nor the Government of India could follow this proposal about a joint account being kept open when there was no joint cash balance and the two Governments were now separate in all respects.

India's representatives requested and Mr. Qadir for the Pakistan Government agreed to obtain a report from the West Punjab relating to the hold-up in settling claims and use Pakistan Government's good offices in promoting a settlement of this matter.

*Item No. 9.*—*Transfer of Provident Fund Accounts.*—Pakistan referred to the agreements between the two Auditors General that even incomplete Provident Fund accounts might be transferred as they were and said that this had not been implemented. The F. C., Railways, pointed out that on the Pakistan Railways there had been practically no progress, especially as far as E. B. Railway was concerned. Over one lac of Provident Fund Accounts of Railway Servants were due from Pakistan to India but the progress so far was that 4,622 accounts had been transferred to Pakistan and only 1472 received from Pakistan of which only about 14 were received from E.B. Railway. Pakistan representatives pointed out that Pakistan Railways had more or less a similar complaint.

India representatives agreed that both sides should take steps to secure the implementation of the agreement. It was pointed out that it must be clearly

understood that if an incomplete account is transferred in respect of a Pakistan opted Government servant, Pakistan would have to accept not merely the amount so transferred as their liability but also any further credits relating to the pre-partition period that were later traced and ultimately adjusted in the Provident Fund account of that Government servant. It was agreed that what each side required at this stage was that a certified statement should be given to them showing the balance in each individual account, it being understood that statements would not in all cases be up to date.

It was also agreed that it was very important to have progress reports. India would obtain progress reports from the A.G.C.R. and the other Accounts Officers in India and Pakistan would do the same in respect of its Officers and the two Dominions would periodically exchange these reports. The aim would be to secure an even flow of transfers both ways. While our aim should be to ensure that maximum number of accounts are transferred each month on both sides, the achievement should not fall below the transfer of a thousand accounts each way each month. This work should in any case be completed by the 31st March, 1949.

Connected with this question is the transfer of policies financed from the Provident Funds which have been assigned to the Secretary of State or the Governor General. It was agreed that Accounts Officers should be instructed by both the Dominions to transfer them within a month.

*Item 5.—Non-payment by Pakistan of other dues: Food items. Reference statement on the agenda.*—On item (i) it was stated that Pakistan had certain comments on merits to offer. India's representatives pointed out that they had not received any reply at all to the claims made by them and this was the reason for putting such a relatively small item on the agenda for these talks.

On item (ii) Pakistan representatives said that from enquiries they understood that the West Punjab Government had not paid up since they had some claims against the U.P. Government. They undertook to persuade the Government of West Punjab to pay up the dues without delay. The general question of such claims by provinces in one Dominion against provinces in the other was discussed and Mr. Qadir for the Pakistan Government agreed with India that the Dominion concerned must take responsibility for the payment being made by the Province concerned once the Dominion agreed that the claims were reasonable.

On items (iii) and (iv) India's representatives pointed out that even if the position was that in Pakistan's view the amount due was slightly smaller, Pakistan should have replied accordingly. Further in India's view, in appropriate cases, part payments should be made by Pakistan. On these two items as well as on item (v) India had heard nothing in reply from Pakistan, whereas the position now appears to be that Pakistan wished to discuss them.

As regards item (vi) Pakistan's representatives (who were drawn from the Finance Ministry) said that they did not have any information regarding this item. India's representatives explained how the claim arose and desired that the Finance Ministry Pakistan should examine this matter with a view to an early settlement between the two Dominions. Other items on this statement were also discussed. It was also stated by India's representatives that as regards part II of the statement (sums owed by Pakistan Provinces and States) item (i) was in fact much larger than one lac and item (ii) was at present only about 1.79 lacs instead of 2.23.

The Pakistan representatives stated that the Provincial Governments in Pakistan had supplied foodgrains to the Indian Provinces payment for which was still outstanding.

In regard to all these items generally it was agreed that the Food Ministry, Pakistan, should first discuss these items speedily with the Food Ministry of India. A Special Officer of the Pakistan Government would shortly be coming to Delhi and he would take the opportunity to examine all these claims and take them back to Karachi for further examination, if necessary. An attempt should be made to reduce the field of difference to the maximum extent possible before the Inter-Dominion Conference to be held on the 6th December.

The question of payments due to the Indian High Commissioner in United Kingdom for stores purchased by him on behalf of the Pakistan Government was also discussed. The Indian representatives pointed out that the Pakistan Government had already been addressed suggesting that for payments due up to the 1st January, 1948, reimbursement may be made in rupees and for subsequent purchases reimbursement should be made in sterling or other foreign currency in which the expenditure had been incurred. India had also suggested that Pakistan should pay in advance for stores purchased in U.K. The Pakistan representatives pointed out that so far as payments in U.K. were concerned there was already a revolving credit of £1,00,000/- for financing these payments. They agreed that the necessary funds should be made available for keeping these credits moving so that the necessary funds could always be available at the disposal of the High Commissioner. In regard to the purchases in the United States they were prepared to make similar arrangements. It was agreed that the two Dominions should instruct their High Commissioners and Embassies in Washington to discuss the matter further and settle the procedure locally.

Pakistan representatives also suggested that the outstanding contracts which were wholly for purposes of the Pakistan Dominion or Provinces should, if possible, be transferred to Pakistan Government. Similarly, the possibility of splitting up contracts so as to isolate supplies relating to Pakistan should also be considered. The Indian representatives had no objection in principle to this, if suppliers had no objection and such transfer was legally possible. They would pursue this further with their High Commissioner in London.

*Item 7.*—India's representatives explained their point of view that expenditure incurred on behalf of Pakistan which had been debited to Pakistan suspense should be treated as an advance of cash balance made for purposes of the Pakistan Dominion and that these advances were therefore recoverable by India from Pakistan. Pakistan's representatives stated their view that as these advances were made before 15/8/47, the adjustment in respect of expenditure booked to Pakistan suspense should be through the debt settlement. No agreement could be reached on this point.

*Item 8 and 11.—(a) Pensions payable by Provinces, (other than partitioned Provinces) and States*

#### (i) Sanctioned pensions

Payment will be made in the first instance by the Province in which the pensioner is residing and the Accounts Officer of that Province will recover it currently from the Accounts Officer of the Province sanctioning the pension. Such payments will only be made on the authority of the Accounts Officer of the Province to which the pension is debitable.

In the case of pensioners of States which have acceded to either Dominion, the necessary authority will be issued by the A.G.P.R. or the A.G.C.R. as the case may be on the basis of a certificate of the acceding State concerned and the necessary recoveries will be effected by the paying Accounts Officers of the Dominion concerned from the other Dominion. It will be the responsibility

of the Dominion to which the State has acceded to make the necessary recovery from the State concerned.

(ii) *Pending applications for sanction of pensions*

The two Dominions will ask their Provinces and States to expedite the sanction of pensions for which applications are pending.

(b) *Provident Funds of those who retired and then migrated and of those who have migrated before the date of retirement*

Payments of Provident Funds whether of people who have retired from service and then migrated, or have migrated before earning their pension will be made on the authority of the Accounts Officer of the Province maintaining the Fund account. In the case of States, payment will be made on the authority of the A.G.P.R. or A.G.C.R. as the case may be who will get the necessary information for themselves from the State concerned.

It was agreed that the two Dominions should instruct the Provinces and States to authorise payment as quickly as possible to avoid hardship to refugees.

(c) *Arrears of pay and leave salary of Provincial Government servants who have migrated*

Each Dominion will help in the speedy settlement of such cases by issuing the necessary instructions.

(d) *Part pensions of Provincial Government servants of Provinces not partitioned, who migrated without completing service for pension*

India stated that her Ministry of Relief and Rehabilitation had addressed the corresponding Pakistan Ministry as long ago as February 1948 suggesting a basis for recognising the claims of these officers. Pakistan representatives undertook to examine this.

(e) (i) *Claims for Pensions and Provident Funds from servants of local bodies*

Regarding the claims for pensions and provident funds from servants of local bodies it was felt that the two Dominions could only use their good offices and it was agreed that machinery should be set up for this purpose which may be as follows:—

All applications for these pensions or provident fund balances from servants of local bodies should be sent to the Chief Secretary of the Province in which they are residing. It would be the responsibility of the Chief Secretaries to see that these applications are complete in all material respects. They must then forward them to their Ministry of External Affairs who will in their turn transmit them to their High Commissioner in the other Dominion. The High Commissioner will then take up the matter with the other Dominion. Each Dominion will do its best to ensure speedy sanction and payment by the local bodies concerned.

(ii) *Arrears of Leave Salary and Pay*

The procedure for receiving and transmitting such claims will be the same as for pensions and provident funds of local bodies.

*Item 18.—Progress regarding provincial partition matters.*—Pakistan representatives agreed that this item ought to come on the agenda for the meeting on the 6th December as they had already suggested in their telegram. India's

representatives requested and Pakistan representatives agreed to send a telegram requesting the West Punjab to meet East Punjab in advance of the December Conference and to report the matters on which they could not come to an agreement.

*Item 14.*—Pakistan representatives stated that they had been informed that the carriers in question should be deemed to be the property of undivided India on 14th August, 1947, since the transfer of these stores to the P. and T. had virtually taken place before that date. India stated that these carriers system were on 14th July 1948 Defence stores for which payment had yet to be made to H.M.G. (There was the further fact that the P. and T. Sub-Committee had specially considered the question of Army Signal Stores and agreed that the Dominion taking them had to pay for them). Pakistan agreed with India that the question was one of fact. Subject to the verification of the statement that the stores had not been paid for by India on 14th August 1947, Pakistan agreed that their objection should be dropped.

*Item 6.*—Under the partition arrangements Central pensions in payment in either Dominion on the date of the partition became the final liability of that Dominion subject to the overall financial settlement in respect of all the pensionary liabilities on a capitalised basis. Transfer of these pensions had been allowed and following the movements of population both Dominions were paying the pensions on behalf of the other on a provisional basis. The question of financial adjustment was not decided. Pakistan representatives suggested that the appropriate course would be to decide upon a suitable date and say that all pensions in payment in either Dominion on that date should for the purpose of the financial settlement be treated as having been in payment in that Dominion on the 15th August 1947. They also mentioned that this would eliminate the accounting difficulties attaching to a system of current recoveries. India's representative pointed out that this problem cannot be decided on academic considerations but against the background of the various modifications made under the partition agreements which in his view had so far been in the direction adding to India's liability to the benefit of Pakistan. Pakistan's suggestion would add to India's current burden. The number of pensions involved in the transfer was bound to be much smaller than the total number of all pensions in the context of which at the time of partition it was emphasised that there would be difficulty in settling on a current basis.

In the case of Provincial pensions it has been agreed by the Pakistan representatives that the settlement would be on a current basis. The accounting complications involved in having similar arrangements in respect of transfers after 15th August would be no greater than in the case of Provincial pensions. India's representative therefore suggested that for the purposes of financial settlement all transfers between the two Dominions after the partition should be dealt with in the same way as Provincial pensions.

In spite of considerable further discussion no agreement could be reached. It was agreed, therefore, that this item should be placed on the agenda for consideration at the Inter-Dominion Ministers' Conference which is to begin on the 6th December.

*Item 10.—Payment of Pakistan Government's share of the surplus profits of the Reserve Bank.*—The representatives of India stated that the request amounted to an advance payment for which there was no provision in the Monetary Arrangements Order. The Pakistan representatives contended that there should be no objection to payment of the amount which could be definitely ascertained as Pakistan's share on the basis of India notes which had already come out of circulation from Pakistan up to date. According to them, the Monetary Arrangement Order did not prohibit such payment. India representatives pointed out that the Order provided for the payment of an amount in proportion to the total value of Pakistan and India notes in circulation in

Pakistan and did not stipulate for such payments being made by instalments. If the payment was to be made in this case, the principle of making advance payments in respect of other claims of each Dominion on the other would have to be conceded. The question of part payment had not even been raised during the discussions in the Expert Committee and any modification in the arrangement as incorporated in the Order could not now be accepted. The Pakistan representatives stated that it would help them in the budgetary position if they could get their share now. The India representatives pointed out that India had even greater budgetary difficulties. In the case of Burma, the practice adopted was to pay such profits in the next year and the proper course for Pakistan was to take credit for the amount in the next year's budget. The India representatives regretted their inability to accede to Pakistan's request.

*Item 15.—Transfer of Bank Accounts.*—The Pakistan representatives stated that there was a number of cases in which Muslim depositors were finding it difficult to get their accounts transferred to Pakistan. The India representatives stated that all individual complaints which had been forwarded to them by Pakistan Government were investigated and attended to. According to the information received by them from the Bankers, a major portion of the accounts had already been transferred. As regards the suggestion to transfer *en bloc* all Muslim depositors' accounts from East Punjab and East Punjab States, the banks had pointed out that they could not transfer an account without the authority of the depositor as they would be liable for damages in the case the depositor claimed this amount in India. According to them some of the Muslim depositors had gone to other places in India and not to West Punjab, and some of them wanted to continue to operate their accounts in India.

As regards the alleged transfer of all non-Muslim accounts from West Punjab, the actual position was that the banks had only brought copies of balances and were transferring accounts only on actual application. They had to do this because most of their branches in West Pakistan had been closed down and those working there had only a skeleton staff while their branches in India were functioning properly with the full complement of staff. The Pakistan representatives stated that in fact several banks had taken all their records to India so that it was not a case of mere copies of balances being maintained in India. It was agreed that the following suggestions made by the Pakistan representatives should be put to the bankers:

- (i) The accounts which Muslim depositors had previously in branches of the banks in West Pakistan should be maintained in Pakistan at a branch of the bank or arrangements should be made to pay these accounts through a Bank in West Pakistan.
- (ii) In regard to the Muslim depositors on the books of the banks in East Punjab and East Punjab States the same procedure should be adopted as was done by the banks in the case of non-Muslim depositors in West Punjab. That is to say a branch in West Pakistan or if there is no branch some other bank in Pakistan should have copies of balances of such depositors so that when a claim is made, it could be either settled by that branch or it could get it cleared by reference to the branch in India.
- (iii) In regard to deposits of Muslims who had gone to West Pakistan from areas other than East Punjab, the record relating to the account should be transferred to a branch in Pakistan and it should be for that branch to settle the claim after compliance with the usual formalities.

When any bank enters into an arrangement with its creditors with the consent of the High Court in India, the Muslim creditors in Pakistan should not be put to a disadvantage. In this connection it was mentioned by Pakistan

representatives that the payment in shares of the bank would be a handicap to Pakistan depositors but India representatives pointed out that in the case of a bank which had come into difficulties it will not be practicable to make cash payments to Pakistan creditors only. It was agreed after discussion that it will be reasonable in the case of Muslim depositors in Pakistan that the entire payment should, if possible, be made in cash and not in the form of shares. It was suggested by Pakistan that in all cases where banks apply for liquidation there should be an arrangement for pooling the assets in both the Dominions and proportionate payments made to creditors on both sides and that application for arrangement with creditors should be made by the Bank to the High Courts in both the Dominions.

The following was also agreed:

- (a) Complaints in regard to objections to transfer of accounts by bank on frivolous grounds should be referred to the Finance Ministry of the Government of India.
- (b) In regard to the difficulties of heirs of deceased depositors in the matter of obtaining succession certificates, the India representatives pointed out that the Government of India had already addressed the Pakistan Government through the Indian High Commissioner at Karachi to agree to the amendment of Succession Acts on reciprocal basis. It was agreed that this matter should be expedited.
- (c) In regard to the complaint of Pakistan representatives that the East Punjab States were not transferring bank accounts, Indian representatives explained that the States Ministry had already taken up this matter with the States concerned. It was agreed that both Governments should take steps to expedite settlement of these claims.
- (d) In regard to deposits of Muslims in Co-operative banks in the East Punjab States, it was decided that the matter should be taken up separately along with the general question of the claims of the co-operative institutions in East Punjab on West Punjab.

India's representatives mentioned the following matters in which Banks had complained of difficulties in their business in Pakistan:

- (i) Neither the West Punjab nor the East Punjab Government are meeting the claims of Banks on account of the guarantee given by the undivided Punjab Government in respect of advances against wheat made to Traders and Syndicates acting on behalf of the Provincial Government.
- (ii) Banks are not getting payment for sugar stocks in their possession against which they had made advances which were taken over by local authorities.
- (iii) The Custodian, West Punjab, requires Banks to obtain decrees in all cases where the banks have made advances against mortgages of property.
- (iv) The Custodian requires the banks to intimate to him the daily cash position at the various branches in Pakistan.
- (v) The Custodian has posted at each bank an officer to whom the Bank has to pay a salary of Rs. 500 p. m. with first class travelling allowances, for supervising sales of stocks in the possession of banks against their advances. The Banks are required to deposit the entire proceeds of such sales with the Custodian and then to put in claims for their dues.

- (vi) The Banks are not allowed to reimburse themselves in respect of charges incurred for removal and disposal of stores.
- (vii) The Punjab National Bank is not allowed to remove its surplus stationery bearing the name of the Bank.
- (viii) No payment is made by Government in respect of stores of iron goods and machinery pledged to the Banks lying in the mills allotted to refugees.
- (ix) Where stocks of food grains on the security of which banks have made advances are sold, the banks' claims are not met.
- (x) Harrassment of non-Muslims staff.
- (xi) Threat to requisition Punjab National Bank's premises in Karachi.
- (xii) The prohibition imposed on Laxmi Commercial Bank to operate its current account with the Imperial Bank at Lahore.

The Pakistan representatives mentioned a case where the Custodian at Simla had prohibited the removal of shares scrips, prize bonds etc. It was stated that there were some other complaints of a similar nature.

It was agreed that these points, including a review of the implementation of the present decisions, should be taken up for consideration at an Inter-Dominion Meeting to be held in Lahore about the 27th of December at which the representatives of the two Central Governments, the East and West Punjab Provincial Governments, the Custodians in these two Provinces, the Reserve Bank of India, the State Bank of Pakistan and the representatives of the other banks should be invited to attend.

*Item 19.—Sums payable by undivided India to the then provinces for the period ending 15th August, 1948.*—Pakistan representatives raised the question of the sums payable by the undivided Government of India for the period ending 14th August, 1947 to the provinces now in Pakistan, on account of income-tax proceeds, development grants etc., as according to them these were the legal responsibility of the Dominion of India.

India's representatives said that their position had been made clear at the Inter-Dominion Conference in May, 1948. In their view India was not now liable for these payments.

## AGREEMENT NO. XV.—MINUTES OF THE INTER-DOMINION CONFERENCE (KARACHI: 10-13 JANUARY 1949).

### SECTION I.

1. *Items (1), (2), (3), (4), (5) and (8).*—The Conference examined the draft scheme for Inter-Dominion Evacuee Property Agreement prepared by the Joint Official Committee at Lahore (22-25 March, 1948), as well as the decisions reached at the Inter-Dominion Conferences held in Lahore on 22nd July 1948, and in Delhi in December 1948, and reached decisions which are set out in Appendix I.

2. *Item (6) —Consideration of the question of Trust Property.*—The Conference considered the question of Trust Property and, in view of the complexity of the problems involved, agreed that a committee consisting of three members from each Dominion should be appointed to consider:

- (a) the report of the Inter-Dominion Committee on Trusts submitted on 6th April 1948, and
- (b) any other suggestion that may be received in this connection and to make recommendations.

The Conference suggested that the committee should be constituted by the 31st January 1949 and should submit its report within three months thereafter.

3. *Item (7).—Consideration of the question of Jagirs and Maufias.*—This item did not come up for consideration.

4. It was also agreed that the following problem should be referred to the Inter-Dominion Commission for consideration: "The problem of the treatment to be accorded to sites and lands allotted on instalment basis in respect of which all the instalments were not paid by evacuee owners prior to the date of evacuation."

### SECTION III.

1. Pakistan had suggested the discussion of the following items:—

*Item 1.—Violation of 'Most Favoured Nation' treatment clause by India affecting Pakistan.*—(a) *Refusal to grant to Pakistan rebates of excise duty connected with importation and exportation of goods.*—The Indian representatives stated that in their view the "Most Favoured Nation" clause of the General Agreement on Tariffs and Trade does not apply to rebates of excise duties and they could not agree to consider this question in isolation. They could consider it only as part of a comprehensive arrangement between the two Dominions. This proposal had been made by India to Pakistan at the Conference in Delhi in December last, and at the request of the Leader of the Pakistan Delegation a copy of the statement made by the Leader of Indian Delegation on the subject was furnished to him. The Pakistan representatives could not accept India's interpretation of the "Most Favoured Nation" clause and considered that since there is a dispute regarding the rights and obligations on each side the question should be settled independently, without reference to any comprehensive arrangement which might ultimately be reached. In view of this difference of opinion the question could not be further discussed.

(b) *Grant of better treatment than Most Favoured Nation treatment to a country which is not a contracting party.*—The Indian representatives explained that Pakistan's information, that while duty was levied on dried fruit imported from Pakistan into India, no duty was levied on such fruit imported from Afghanistan, is not correct. It was explained that duty is charged at the same rate in both cases.

*Item 2.—Interim arrangements regarding duty on tobacco*

and

*Item 3.—India's export duty on mustard oil.*—The Indian representatives stated that the view which they had expressed with regard to item 1(a) applied also to these items, and they were not prepared to consider them separately. In the circumstances these items also could not be discussed.

*Item 4.—Violation of Baggage rules.*—This item was referred to the Economic Committee whose report (which is at Appendix II) was accepted.

*Item 5.—Condition of mosques, tombs and shrines.*—This item could not be discussed in full for lack of time. Each side agreed to look into specific cases brought to its notice, of places of religious worship used for purposes not consistent with their use as places of worship.

*Item 6.—Objectionable public utterances by leaders.*—It was agreed that this item should be discussed informally between the leaders of the two delegations.

*Item 7.—Division of Survey of India Assets.*—This item was referred to a committee, whose report (which is at Appendix III) was accepted. It was agreed, however, that if, on the reconsideration referred to in para. 6 of the recommendations of the report, India desired to hold back any of the items, the matter would be placed again before the next Inter-Dominion Conference.

*Item 8.—Return of exhibits belonging to Pakistan Museums.*—The item was postponed for consideration at the next Conference.

2. The following items were suggested by India:—

*Item 9.—Supply of raw cotton from Pakistan.*—This item was referred to the Economic Committee, whose report, which is at Appendix II, was accepted.

*Item 10.—The five outstanding financial issues between India and Pakistan.*—This item was postponed.

*Item 11.—Movement of petrol from Karachi to India.*—The item was referred to a committee, whose report, which is at Appendix IV, was accepted.

Zafurulla Khan,  
January 13, 1949.

N. Gopalaswami,  
January 13, 1949.

# APPENDIX I.—DECISIONS OF THE INTER-DOMINION CONFERENCE HELD AT KARACHI ON THE 10TH TO 13TH JANUARY 1949 ON THE DRAFT SCHEME FOR INTER-DOMINION EVACUEE PROPERTY AGREEMENT.

## PART I—GENERAL

1. *Areas to which applicable.*—(a) In regard to agricultural property, the areas in Pakistan would be West Punjab, Sind, N. W. F. P. and Baluchistan, and the States of Bahawalpur and Khairpur (N. W. F. P. and Baluchistan should be taken to include States which have acceded to Pakistan and to exclude un-Administered Agency Areas). In India, the areas would be the Provinces of East Punjab and Delhi, Province of Himachal Pradesh, the Patiala and the East Punjab States Union, and the States of Bharatpur, Alwar and Bikaner.

(b) In regard to urban immovable property the areas in Pakistan would be the same as for agricultural property but in regard to India, the areas would be extended to include Ajmer Merwara, Dholpur and Karauli States (now included in the Matsya Union), the Rajasthan Union, Saurashtra (as both these Unions stood on 22nd July 1948) and the States of Jaipur and Jodhpur, and the districts of Saharanpur, Dehra Dun, Meerut and Muzaffarnagar in the United Provinces.

*N.B.*—Pakistan further suggested that while it was not agreeable to the area in India being extended to the whole of the country, it was prepared to agree to the area being so extended in regard to Government servants and persons holding office under the Crown in either Dominion. India thought it would not be justifiable to make this distinction and suggested that the areas might well be extended to cover the whole of the Dominion. India further suggested that in addition to the 4 districts of the U. P. mentioned above, namely Saharanpur, Dehra Dun, Meerut and Muzaffarnagar, 8 more districts should be added, namely, Aligarh, Mathura, Agra, Mainpuri, Etah, Bareilly, Moradabad and Budaun, all of which are ordinarily described as Western Districts of the U. P. Pakistan after consideration stated that it was not prepared to accept the extension to these 8 districts.

2. *General Principles.*—(1) Except in accordance with the terms of this agreement the evacuee's rights in his immovable property shall not be affected by reason of the vesting of his property in the Custodian.

(2) In the evacuee's absence, the duty of preserving his property and safeguarding his rights and interests therein shall devolve upon the Government concerned.

(3) "Evacuee Property" shall be so defined as to exclude from its operation property belonging to Joint Stock Companies with Head Offices in India, maintaining branches in Pakistan and *vice versa*:

Provided that where the Custodian or the Rehabilitation Authorities have already taken over the property, which owing to the disturbances was wholly or partially abandoned, such occupation shall continue, if so desired by the Government concerned for the following periods:—

(a) agricultural, commercial and residential property, 3 years and (b) industrial property, 5 years.

*Note.*—The position of Joint Stock Companies which claim to have transferred their head offices from one Dominion to the other after the 15th August 1947 may have to be examined separately.

(4) Throughout this agreement whatever has been laid down as applicable to a Dominion or to its Government shall be applicable to any States or to the Government of any such States as have acceded to the Dominion and are included in the area to which this agreement now becomes or hereafter becomes applicable.

3. *Administration of Evacuee Property.*—(1) There shall be appointed one or more Custodians of Evacuee Property in each Dominion.

(2) Evacuee property situated within the jurisdiction of a Custodian shall, for purposes of management, be vested in him.

(3) It shall be the duty of the Government concerned to take all necessary action for the preservation of evacuee property and for safeguarding all the evacuee's rights and interests therein. In particular the Government concerned shall require its Custodian or Custodians of Evacuee Property to:—

- (a) compile and maintain full and complete record of all evacuee immovable property, separately for each town and village;
- (b) make arrangements to be in a position as soon as possible to furnish to the evacuee (on demand by him) information in respect of administration of his property;
- (c) take into consideration such information as the evacuee may give him regarding his property while dealing with matters connected with the administration of the property concerned;
- (d) keep the interests of the evacuees paramount save in accordance with the provision of any law for the time being in force;
- (e) provide full facilities to the other Dominion or its representatives to represent to the Custodian the view-point and interests of any evacuee.

4.(a) A Liaison Officer of the one Dominion should be appointed to be in close touch with the Custodian of the Evacuee Property of the other Dominion for the purpose of—

- (i) obtaining information on general principles being followed with regard to management of evacuee property;
- (ii) making representations—general or in respect of cases of particular evacuees or properties—for the consideration of the Custodian;
- (iii) obtaining information regarding demand statements and account statements regarding properties of evacuees, and generally to expedite by references to the Custodian the implementation of sections (8) and (9) of Part III.

(b) The Liaison Officer will be attached to the High or Deputy High Commissioner of the Dominion to which he belongs, but will have office accommodation in the office of the Custodian to which he is attached;

(c) Pakistan agreed to the above on the condition that the office of the Custodian of Evacuee Property, East Punjab, was and would remain at Jullundur.

## PART II—AGRICULTURAL PROPERTY

1. *Definitions.*—(1) “Agricultural Property” means:—

- (a) all land not included within the limits of a Corporation, Municipal Committee, Notified Area Committee, Town area, Small Town Committee and Cantonment as those limits stood on the 15th August 1947;
- (b) buildings and other structures (including wells) erected on such land, (excluding industrial and commercial buildings, such as factories, workshops and the sites thereof);

- (c) other rights and interests in lands, buildings and structures referred to in (a) and (b) above, e.g. rights of a lessee, grantee, mortgagee etc., but not including assignments of land revenue.

*Note.*—The problem of substantial houses and shops in rural areas has been dealt with in Part IV.

(2) “Evacuee owner” in this Part means an owner of evacuee agricultural property or a holder of any rights or interests therein.

2. The consideration of sections 1(3), 2, 3, 4, 5, 6, 7 and 8 of the Draft Scheme was deferred. With a view, however, to collecting data which would enable an early decision to be reached regarding the disposal of agricultural property, it was agreed to exchange copies of revenue records and of existing records bearing on the question of land prices. It was also agreed that for expediting this work, three joint committees should be appointed. One of these three committees will be composed of the Deputy High Commissioner (Pakistan) at Jullundur; and the Deputy High Commissioner (India) at Lahore, who will be concerned with the agreed areas of Western Pakistan less Sind, Baluchistan and Khairpur and with the agreed areas in India less Delhi and the States of Bharatpur, Alwar and Bikaner. The second committee will be composed of the High Commissioner for Pakistan in Delhi or an officer nominated by him and an officer of the Ministry of Relief and Rehabilitation (India) for areas Delhi and the States of Bharatpur, Alwar and Bikaner; and the third committee will be composed of the High Commissioner for India in Pakistan at Karachi or an officer nominated by him and an officer of the Ministry of Refugees and Rehabilitation (Pakistan) for Sind and Baluchistan and the State of Khairpur.

3. *Section 9.—Applicability of certain provisions of Part III to this Part.*—Until a scheme is agreed to for the disposal of agricultural property, the following provisions shall apply to such property:—

- (a) Section 2 of Part III (*mutatis mutandis*), provided that the maximum period for which agricultural property may be requisitioned shall be three years;
- (b) Clause (a) of sub-section (1) of section 7 of Part III;
- (c) Sections 8 and 9 of Part III (*mutatis mutandis*).

## PART III—URBAN IMMOVABLE PROPERTY

1. *Definitions.*—(1) “Urban Immovable Property” means—

- (a) all immovable property situated within the limits of a Corporation, a Municipal Committee, a Notified Area Committee, a Town Area, a Small Town Committee and a Cantonment as those limits existed on the 15th August 1947;
- (b) other rights or interests in such property, e.g., rights of a lessee or a mortgagee;
- (c) commercial and industrial structures, such as factories, workshops outside the limits referred to in (a) above and sites thereof;
- (d) commercial and industrial undertakings including goodwill of such undertakings.

*Note.*—1. The township known as Model Town in the vicinity of Lahore is an urban area and shall be deemed to be included within the municipal limits of Lahore.

*Note.*—2. The question of including “substantial” houses and shops in rural areas as urban immovable property was deferred.

(2) "Evacuee Owner" means an owner of evacuee urban immovable property or a holder of any rights and interests therein.

(N.B.—Pakistan suggested that 'evacuee' should be defined as a person who has moved over from one Dominion to the other before 30th September 1948 and the property belonging to such a person should be defined as "evacuee property". India was of the view that the fixation of a date in this way, particularly one which would have to be given effect to retrospectively, would be unfair to persons who will have left one or the other Dominion after the fixed date; the position would be different if some suitable date in the future were to be fixed. Pakistan stated that they would consider this point further and see what action on their own side would be feasible).

2. *Rights of Provincial Government.*—(a) The Government of the Province in which evacuee urban immovable property is situated shall have the right to acquire such property as it may need for a public purpose, which may include the rehabilitation of refugees or the economic rehabilitation of the Province, on payment of fair compensation to be determined in accordance with the principles laid down in the Land Acquisition Act or any other law which is applicable as it stood on August 15, 1947. The amount of compensation would be determined in the following way:—

The administrative Officer who would ordinarily be charged with the duty of making an award for the acquired land would instead of making an award himself submit a report to the Court of the District Judge which for this purpose will consist of two members, one from each Dominion. If the two members are agreed they will make an award which will be final. If they disagree, a reference shall be made to the High Court of the Dominion in which the property in question is situated. The decision of the High Court shall be final.

(b) The Government of the Province in which evacuee urban immovable property is situated shall have the right to requisition such property as it may need for a public purpose which may include rehabilitation of refugees or the economic rehabilitation of the Province on payment of a fair compensation. The maximum period for which the Provincial Government is entitled to requisition shall be limited in the case of—

- (i) residential property to 3 years;
- (ii) commercial property to 3 years; and
- (iii) industrial establishments to 5 years.

The fair compensation shall be assessed in accordance with the principles laid down in the law in force at the time of requisitioning, or in accordance with any modification or amendment of that law or any substitution of it, or promulgation of a new law. The draft of any law, or any new rule shall, however, be communicated to the Inter-Dominion Commission (Part VII) and any recommendation made by that Commission shall be taken into consideration.

*Note 1.*—The term "requisition" shall include taking over and assuming control of evacuee property for the purpose of rehabilitation under any law for the time being in force.

*Note 2.*—Property owned by institutions and trusts will also be governed by this paragraph unless and until a separate agreement is arrived at regarding such property.

*Note 3.*—Copies of all orders passed requisitioning any property and fixing compensation therefor shall be furnished by the officer requisitioning the property to the Liaison Officer attached to the Custodian.

3. *Conditions of Leases.*—(1) The conditions on which such requisitioned property is leased out shall be such as to cast upon the lessee an obligation to:—

- (a) safeguard and preserve the leased property;

- (b) give full facilities to the proprietor or his duly authorised agent to arrange for inspection and to take all such action as may be necessary for canvassing buyers and for effecting sales or exchanges.

(2) In the case of industrial and commercial undertakings the lease conditions may also provide for depositing security against loss or damage.

(3) The conditions shall provide for the imposition of a penalty for any breach thereof.

4. *Responsibility of Dominion Government.*—(1) The Government of the Dominion in which the evacuee immovable property is situated shall provide facilities (i) to evacuees (as also to private agencies working on their behalf) to enable transfers to be effected by sale, exchange, or otherwise, (ii) for the registration of the exchanges and sales of evacuee property, as well as for special concessions relating to registration fees and stamp duties. It was agreed that the details of these concessions and facilities should be worked out by the Inter Dominion Commission.

(2) It shall be the duty of the Custodian plus the Liaison Officer attached to him to give property owners such information as might assist them in the disposal of their property. Such staff as the Custodian and the Liaison Officer may require for this purpose shall be provided.

5. *Rights of Evacuees.*—(1) The evacuee owner shall have the right to transfer his property by sale, exchange or otherwise, subject to such right as may have been acquired by the Provincial or the Dominion Government as the case may be (or by other persons claiming through the Provincial or the Dominion Government as the case may be) as a result of the exercise of powers referred to in section (2) above.

(2) All such transfers shall be registered with the Custodian of the area concerned, who shall register the transfer unless:

- (a) the transferer fails to produce a certificate signed by the prescribed income tax authority certifying that the transferer has paid all taxes due from him to the Income Tax Department in respect of his property, business or undertaking, or has made satisfactory arrangements for the payment thereof; or
- (b) he has failed to pay any other dues outstanding against him in the Custodian's registers in respect of (i) his own property; (ii) third party claims recognised ex-parte by the Custodian:

Provided that provision is made for review by the Custodian of third party claims thus recognised.

*Note.*—Taxes due from him in (a) means 'taxes assessed but not paid' and also 'taxes not yet assessed' provided that in the latter case the transferer shall be permitted to obtain registration of his transfer if he deposits with the Custodian in respect of each year for which assessment is pending an amount equal to the average of the tax assessed for the last three years for which assessment has been made.

In considering the question of satisfactory arrangements for payment as in clause (a) the income-tax authorities shall consider the value of other immovable property owned by the transferer in that Dominion.

6. *Responsibility of Governments.*—(1) The Government shall manage, through the Custodian appointed by it for the purpose, such evacuee urban immovable property as has not been acquired or requisitioned by it.

(2) The Custodian shall be free to take such action as he may deem fit in the interest of efficient management of such property.

(3) The provisions of Section (2) and (3) of this Part shall apply *mutatis mutandis* to the leases given by the Custodian.

7. *Deductions from lease money.*—(1) From the lease money, assessed and realised in accordance with the provisions of this part, the Custodian will be entitled to make the following deductions:—

- (a) 10 percent of the realised rents for management, and
- (b) 10 percent of the assessed rents for normal repairs.

(2) In the case of special repairs, the Custodian will be entitled to incur expenditure against the capital value of the property.

8. *Returns of rental collection information.*—The Custodian shall prepare for the six monthly periods ending 30th June and 31st December each year, lists in duplicate for each locality, giving particulars of evacuee urban immovable property situated therein, the names of evacuee owners, and the lease money assessed, with additional columns showing the rents collected, deductions made therefrom and the balance payable to each evacuee owner.

9. *Inter-Dominion Adjustment.*—The Custodians in each Dominion will send the lists thus prepared in duplicate to the Auditor General of their Dominion Government. That officer will forthwith forward one copy of each list to the Auditor General of the other Dominion and proceed to consolidate the amounts in these lists. The two Auditors-General will adjust the net amount payable by one Dominion to the other through the Exchange Accounts of the two Dominions. If all the lists are not received within two months of the prescribed dates, namely, 30th June and 31 December, by the Auditor General of the other Dominion, adjustment shall be made to the extent of 50 percent of the total amounts in the lists received at the expiry of the said two months, the balance being credited to the account of the Dominion to which it is due as soon as the outstanding lists from that Dominion are received.

*Note.*—This procedure is provisional and will be reviewed as soon as after the 1st adjustment.

10. *Restoration.*—Where the owner of any evacuee urban immovable property produces a certificate from the Rehabilitation Commissioner or an authority empowered by the Rehabilitation Department in this behalf that the property is not required for the purpose of rehabilitation of refugees or the economic rehabilitation of the Province, restore the property to the owner or his agent for management or disposal. Where the management has not been taken over by the Custodian, and the owner produces the above certificate, the Custodian may, on the owner's request, allow him to retain or assume management of such property.

11. *Prevention of Attempts to prevent unfair fall of prices.*—The Dominion and the Provincial Governments in whose area the property is situated will do everything in their power to see that no organised attempts are made to keep the prices of evacuee property below the market level by forming rings, syndicates, boycotting or otherwise.

#### PART IV. HOUSES AND SUBSTANTIAL SHOPS IN RURAL AREAS

The question of whether Substantial Houses and Substantial shops in rural areas should be treated as urban immovable property or otherwise should be examined by the Inter-Dominion Commission.

#### PART V—MOVABLE PROPERTY

1. *General Provisions.*—(1) Except in accordance with the terms of this agreement, the evacuee's right in his movable property shall not be affected by reason of the vesting of his property in the Custodian.

(2) In the evacuee's absence, the duty of preserving his property and safeguarding his rights and interests therein shall be entrusted by the Government concerned to the Custodian of the Province in which the property is situated.

(3) It shall be the duty of the Custodian to:—

- (a) take all possible precautions for the proper and safe keeping of evacuee movable property;
- (b) ensure that full compensation is recovered for movable requisitioned by the Provincial Government or their officers for a public purpose, which may include the rehabilitation of refugees or of the economic life of the Province;

*Explanation.*—The term "requisitioning" includes taking over for purposes of the rehabilitation of refugees or the economic life of the Province.

- (c) make arrangements for the disposal of such movables as cannot be preserved to the best advantage of the evacuee owner;
- (d) restore on application to the evacuee owners their movables and to give facilities to them to dispose of or remove the movables so restored;
- (e) on application by an evacuee owner, arrange for the disposal of his movable at the best possible price.

2. *Rights of Government.*—(1) *Provincial Government.*—The Government of the Province in which evacuee movable property is situated shall have the right to acquire or requisition such movable property as it may need for a public purpose, which may include rehabilitation of refugees or the economic life of the Province, on payment of a fair compensation to be determined in accordance with Sub-Section (6) of Section 4.

(2) *Dominion Government.*—The Government of one Dominion shall have the right to prohibit or restrict the export of items of evacuee movable property which may be essential for the life of the community after giving notice to the other Dominion of their intention to do so.

3. *Procedure for Acquisition or Requisition or sale.*—(1) A record will be kept of the goods acquired, requisitioned or sold by the Provincial Government or its officers, including the Custodian and officers subordinate to him. The record shall include separately for each evacuee owner an inventory of the items and quantities acquired, requisitioned or sold, the name and designation of the officers making the order and the price payable or paid.

(2) Reasonable facilities shall be given to evacuee owners and their representatives to inspect the entries concerning them in this record.

(3) The general procedure for preparation of inventories and fixation of prices shall be in accordance with the provisions of Section 4 of this Part.

(4) A nominal roll giving the name of the each evacuee owner and the total amount due to him on account of goods acquired, requisitioned or sold, shall be compiled and furnished every six months by the Custodian to the Auditor-General of his Dominion. The Inter-Dominion settlement will be made in the manner prescribed in Section 10 of Part III.

(5) Opportunity shall be given to evacuee owners or their authorised agents to bring to the notice of the Provincial Government or the Custodian concerned instances of:

- (i) deliberate misdescription of goods sold;
- (ii) gross undervaluation.

(6) The Custodian may effect the sale of evacuee movable property:

- (i) on application by the evacuee himself;

- (ii) after adequate notice (not less than a month) to the evacuee owner individually or to a general class of evacuee owners.

*N.B.*—If in response to the notice the evacuee owner desires to make arrangements to dispose of his property himself or through his agent, the Custodian will normally accord permission to do so.

- (iii) without notice, in cases in which, for reasons to be recorded in writing he holds:

- (a) the interest of the evacuee owner is best served by the sale, or
- (b) the sale is necessitated by requirements of rehabilitation.

*N.B.*—The sale of movable property shall, as far as possible, be by auction. The evacuee owner or the representative of the Dominion to which he has evacuated will be given an opportunity to be present at the sale.

(7) Abandoned movables which cannot be assigned to any particular evacuee shall be disposed of according to the law for the time being in force for the disposal of unclaimed property.

4. *Procedure for Preparation of Inventories and Valuation.*—Evacuee owners of movables, especially those forming assets of commercial or industrial undertakings, will be given the following facilities in respect of inventories and valuation:

- (1) Each Government will have the right to appoint representatives acceptable to the other Dominion in such local areas of the other Dominion as they deem fit. The rehabilitation authorities will inform those representatives whenever possession of a commercial or industrial undertaking is to be taken over by them giving not less than a week's notice. The representatives will have the right to be present either personally or by an authorised agent at the time of the preparation of the inventory.
- (2) If the owner wishes to be present either personally or by an authorised agent at the time of the preparation of the inventory, his presence will not be objected to, provided that the preparation of the inventory shall not be delayed merely to ensure his presence.
- (3) After the preparation of the inventory a date shall be fixed for the valuation of the property and the representative or owner or agent who has been present at the preparation of the inventory shall be informed of that date by the officer preparing the inventory. On the date fixed, the representative of the Dominion, the owner or his agent shall have the right to be heard.
- (4) Where an order of valuation has been passed by an authority subordinate to the Custodian and the order requires confirmation by the Custodian, the representative of the Dominion or the owner may signify his desire to be heard before the order is confirmed, and the Custodian will give him an opportunity to be so heard.

The Custodian shall not pass an order of confirmation until 10 days have elapsed from the decision of the subordinate officer.

- (5) Where an order of valuation has been passed by an authority subordinate to the Custodian himself, and the order does not require confirmation by the Custodian, the owner shall have the right to appeal to the Custodian within 10 days of the passing of the order by the subordinate officer. It shall not be necessary to give any notice to the representatives of the Dominion or the owner regarding the fixation of value by the subordinate authority.

- (6) The rate of compensation will be on the basis of fair value, that is, the price which the property would fetch in the open market under the present conditions provided that no organised attempt is made to keep it low by forming a ring or syndicate, or by boycott or otherwise.

5. *Rights of Evacuees.*—(1) The evacuee owner shall have the right to apply for restoration of his movable property. This application shall be normally granted except in cases in which the property in question has been acquired or requisitioned by the Provincial Government or taken over by the Rehabilitation authorities.

(2) The evacuee shall have the right to apply to the Custodian requesting him to sell or dispose of his movable property in accordance with the procedure outlined in sections 3 and 4.

(3) On restoration, the evacuee shall have the right to manage or dispose of his movable property by himself or through his agent, which term may include Liaison Officers appointed by the Dominion to which he has been compelled to migrate, in any manner he deems fit, including export to any destination in the other Dominion, subject to any export restrictions that may be imposed under sub-section (2) of section 2 of this Part.

(4) The evacuee shall on application be given permission and facilities to inspect his movables held in the charge of the Custodian or persons claiming through him or any other person.

(5) Evacuee owners who before the evacuation were engaged in organised trades, such as timber, grain, cotton, sugar, iron and steel non-ferrous metals, etc., shall have the right to form syndicates and to depute small representative committees, on behalf of the owners to various localities to arrange for the restoration and, subject to the permission of the Custodian, for the disposal or management of the stock in trade belonging to the members of such syndicates.

(6). *Responsibility of Governments.*—(1) The Government concerned shall be responsible for taking all steps necessary to ensure the safety of the evacuee owners and their agents engaged in managing, disposing of or removing their movables.

(2) The Government concerned shall also give to evacuee owners and their agents all possible assistance, including, wherever necessary, police protection, to dispose of their movables or to dispatch them by rail or road to any destination in the other Dominion.

(3) The Dominion Governments shall also give all possible transport facilities, including provision of petrol on payment, and grant, wherever necessary, a sufficiently high priority for transport by rail.

(4) There should be set up joint committees as for the exchange of revenue and other records in para. 3 of Part II, for the purpose of removal and disposal of evacuee property. It will be the function of these committees:—

- (a) to supervise the working of the agreed arrangements in regard to evacuee movable property and in particular, to assist evacuee owners in the expeditious disposal of their requests for help for police protection or special transport facilities,
- (b) to set up an organisation for facilitating movement by rail or road (This Committee will run its own trucks and secure special booking facilities and, whenever possible and necessary, run special goods-trains for the movement of evacuee movable property);

- (c) to receive complaints and arrange for the redress of grievances of evacuees in the disposal or transport of their movables.

*Note.*—The two Dominion Governments shall make available all reasonable facilities to these joint committees to enable them to discharge their functions effectively.

(5) The Committees will pay particular attention to facilities being provided for the disposal, recovery, restoration and movement of: (a) goods lying pledged with banks; (b) goods lying at railway stations; (c) goods lying at docks; (d) parcels and money orders lying undelivered or unremitted at the post offices.

(6) The Committees will also pay special attention to assisting evacuee owners in the recovery and removal of movables and buried underground.

7. *Special Categories of Movable Property.*—(1) The previous sections of this Part will apply generally to all movable property.

(2) Without prejudice to this generality, both Dominions recognise that certain special categories or special articles may require special additional treatment and each Dominion will, if requested by the other Dominion, refer to the Inter-Dominion Secretariat Level Commission proposed in Section I of Part VII of this Scheme or, if necessary, to an *ad hoc* meeting, any case requiring such treatment.

(3) The following special additional treatment is hereby agreed upon in respect of the special categories hereinunder specified:

- (a) *House-hold goods.*—(i) The evacuee owner shall be given permission and facilities to remove all items of sentimental, literary and professional value and such personal effects as beddings, personal clothing, radio sets, gramophones, musical instruments, sewing machines, refrigerators, carpets and rugs etc.
- (ii) Refugees at present residing in the houses vacated by evacuees will have the first claim for the purchase or hiring of all items which are not covered by (a) above, on payment of fair price.
- (iii) A list of the items required by the refugees at present residing in the evacuee's house shall be prepared. This list shall so far as is possible be prepared in the presence of the evacuee or his authorised representative and as far as possible in the manner laid down in Section 4 of this part.
- (iv) For the items required by him, the refugee shall pay to the evacuee fair compensation calculated in accordance with the provisions of sub-section (6) of Section 4 of this part.
- (v) The evacuee shall be given permission and facilities to remove all items which are not required by the refugee or for which he is not prepared to pay or does not pay fair compensation.
- (vi) Facilities will be made available to the evacuee or the representative of the Dominion to which he has evacuated, to represent to the Custodian cases of misappropriation of the evacuee's house-hold goods.
- (b) *Goods buried underground.*—(i) The evacuee owner wishing to recover buried valuable shall apply for facilities to the Liaison Officer of the Dominion to which he has evacuated.
- (ii) It will be the duty of Liaison Officer to arrange in consultation with the local Custodian and Police Officers for the search of buried valuables being conducted under conditions of secrecy and security.
- (iii) Police protection will be provided by the local authorities.

- (iv) Supervision of the arrangements in this connection will be a special responsibility of the Joint Committees set up under sub-section (4) of Section 6 of this Part.

(c) *Motor Vehicles.*—As soon as possible after this agreement is concluded, the Governments concerned on both sides must implement the provisions of Sections 2 and 3, sub-section (4), (5) and (6) of Section 4 and Section 6 of this Part in regard to acquisition, requisitioning, sale, valuation, payment of compensation and release of motor vehicles. If either Dominion considers any further special arrangements to be necessary, it shall without delay refer its proposals to the Inter-Dominion Secretariat Level Commission mentioned in Section I of Part VII.

#### PART VI.—REMITTANCE FACILITIES—CUSTOMS AND EXPORT AND IMPORT CONTROLS

Both Dominions will provide reasonable exchange facilities for remittances arising out of this agreement if and when foreign exchange control between India and Pakistan is instituted.

2. The Pakistan representatives expressed the view that such facilities would be governed by the separate agreement which is at present under negotiations between the two Dominions regarding the terminating of the Reserve Bank of India's functions as the exchange and currency authority in Pakistan.

3. The representatives of India, however, were of the view that some special provision would have to be made whether in the agreement referred to by the Pakistan representatives or in an agreement ancillary thereto, in view of the special character and magnitude of remittances arising out of this agreement.

4. In regard to Customs and Export and Import Controls, arrangements should be made in accordance with the agreement set out in Annexure A.

#### ANNEXURE A.—AGREEMENT REGARDING CUSTOMS AND EXPORT AND IMPORT CONTROLS IN RESPECT OF EVACUEE PROPERTY AND GOVERNMENT STORES AND VEHICLES

1. It is agreed that goods which are allowed to be moved by evacuees from one Dominion to the other in pursuance of the arrangements arrived at between the two Dominions shall be exempt from export and import trade regulations as well as from export and import duties. Such goods will cover the following:—

- (i) Goods carried in evacuee special trains;
- (ii) persons and household effects intended for personal and household use, including articles like motor cars, cycles, gramophones, radios and radiograms, electrical goods, musical instruments, sewing machines, typewriters, private libraries, professional instruments, apparatus and equipment, cattle and other animals, jewellery, currency notes, shares, bond securities, and licensed arms and ammunition. This exemption will cover accompanied as well as unaccompanied goods, provided that such goods shall be covered by a permit granted by an authority to be designated in this behalf by each Dominion;
- (iii) goods carried by evacuees proceeding by motor convoys straight from district camps in one Dominion to the other. This exemption will also cover vehicles forming such convoys; and
- (iv) trade goods and merchandise including stock in trade belonging to an evacuee excluding gold and silver bullion provided that they are covered by a permit granted by an authority to be designated in this behalf by each Dominion.

2. Evacuees travelling by evacuee special trains or road convoys should be made to declare whether they have with them any bullion. Searches should be restricted to suspicious cases and should be conducted by Customs officials only in the presence of a responsible officer.

3. It is agreed that military stores consigned by one Dominion Government to the other, or carried by the M.P.O. or vehicles under the command of the M.P.O. whether carrying such stores or not, shall be exempt from export and import trade regulations as well as from export and import duties if any, on production of a certificate from the Ministry of Defence of the Dominion from which they are being exported, or from an officer authorised by such Ministry in this behalf that they are such stores or vehicles.

4. It is agreed that all Government stores other than those covered by paragraph 3 above, e.g., Railway and P. and T. stores, allocated to each of the two Dominions as a result of partition shall be exempt from export and import trade regulations as well as from export and import duties, if any, on production of a certificate from the Ministry concerned of the Dominion from which they are being exported, or from an officer authorised by such Ministry in this behalf that they are such stores. This exemption will also cover vehicles carrying such stores.

5. It is agreed that all vehicles crossing the border if covered by Movement Orders issued by the Joint M.E.O. shall be exempt from export and import trade regulations as well as from export and import duties. This exemption does not apply to the goods carried in such vehicles.

6. It is agreed that all vehicles used by officers of either Dominion in the discharge of their duties and crossing the border shall be exempt from export and import trade regulations as well as from export and import duties on production of a certificate from the High Commissioner or the Deputy High Commissioner of the Dominion to which the officer belongs, or from an officer authorised by them in this behalf that the vehicle is so employed.

7. Subject to the conditions specified in paragraph 2 above, it is agreed that the Customs authorities will conduct a search on the border only in cases where the import or export of goods is, under the aforesaid provisions, required to be covered by a certificate or permit from an appropriate authority. No searches will however be undertaken in cases covered by paragraphs 3 and 4 above.

8. It is agreed that if, for any reason, any articles are detained by the Customs authorities, a receipt giving details of the articles detained shall be furnished by these authorities to the owner of the articles.

9. It is agreed that adequate publicity should be given to the arrangements in both Dominions and machinery set up for receiving complaints of alleged violations and their investigation.

#### PART VII

1. *Inter-Dominion Commission.*—(1) A permanent inter-Dominion Commission shall be set up at Secretariat level, which will meet at regular intervals, or according to the urgency of the work before it, in each Dominion in turn.

(2) The functions of the Commission will, *inter alia*, include:—

(a) Review and supervision of the working of the agreed arrangements in regard to:—

(i) the administration, sale and transfer of evacuee property in both Dominions, and

(ii) the payment and remission of moneys etc., connected therewith.

(b) Consideration of matters other than important questions of policy, that may arise in regard to refugees and evacuees between the two Dominions.

(c) Consideration of other matters referred to it by the Government of either Dominion.

(3) The Commission shall consist of the Secretary and one other officer of the two Dominion Ministries dealing with Refugees, with the addition of such officers as it may be necessary to include for the purpose of any meeting.

2. *Inter-Dominion Refugees and Evacuees Council.*—In addition an Inter-Dominion Refugees and Evacuees Council shall be set up, composed ordinarily of two Ministers each from India and Pakistan. This Council will meet, whenever necessary, to resolve matters on which the Inter-Dominion Commission is unable to agree or to consider questions of policy which require settlement at Ministerial level.

E. de. V. MOSS,

13-1-49.

H. M. PATEL,

13-1-49.

#### APPENDIX II.—REPORT OF THE COMMITTEE APPOINTED TO CONSIDER ITEMS 4 AND 9 IN SECTION II OF THE AGENDA FOR THE INTER-DOMINION CONFERENCE.

##### MEMBERS

##### *Representatives of India*

1. Mr. K. R. P. Aiyangar.
2. Mr. M. V. Rangachari.
3. Mr. B. N. Banerjee.
4. Mr. L. R. Singh.

##### *Representatives of Pakistan*

1. Mr. J. B. Shearer.
2. Mr. S. A. Hasnie.
3. Mr. G. Faruque.
4. Dr. Nazir Ahmed.

The Committee met on the 10th, 11th and 12th of January, 1949. On the 11th and 12th Mr. MacFarquhar, Commerce Secretary, and Mr. Karamatullah, Chief Controller of Imports and Exports, Pakistan, also attended by invitation.

##### *Item 4.—Violation of Baggage Rules.*

The Pakistan representatives drew attention to a report that certain gold ornaments belonging to passengers returning to Pakistan had been detained by the Indian customs authorities. The Indian representatives said that enquiries had been made about this case and that the incident had in fact occurred before the revised baggage rules had been published and that the ornaments had since been returned to the owners.

The Pakistan representatives also stated that complaints were still being received regarding harassment of passengers entering Pakistan from Jodhpur State, and they considered it essential that, in accordance with the decision reached at the Delhi Conference, liaison officers should be appointed on that frontier without further delay. It had also been agreed at Delhi that the

Collectors of Customs should have regular meetings with their opposite numbers in the other Dominion, but the Karachi Collector had so far been unable to obtain any response to his proposals for a meeting with the Jodhpur Collector. The Indian representatives agreed to look into these points immediately on their return to Delhi and to take steps to secure expeditious action by the Jodhpur authorities.

*Item 9.—Supply of raw cotton from Pakistan.*

It was agreed that:—

- (1) The validity for the first period of cotton licences to India is extended to 28th February, 1949.
- (2) Pakistan will license an additional 74,467 bales already purchased by India (subject in the case of 4,650 bales to proof of exporter's qualifications).
- (3) The maximum quantity that has to be purchased by India up to the end of February 1949 is 4,34,467 bales, and a minimum of 3,99,467 bales shall be purchased. Any quantity unbought below 3,99,467 bales will be liable to lapse.
- (4) The Government of Pakistan will be free to issue additional licences in the period ending 28th February, 1949, to other countries for a number of bales equal to the additional quantity licensed for India, thereby raising the total for internal consumption and foreign export (other than to India) to 4,34,467 bales.

K. R. P. AIYANGAR,  
12-1-49.

J. B. SHEARER,  
12-1-49.

**APPENDIX III.—INTER-DOMINION CONFERENCE HELD AT KARACHI  
ON 10TH TO 12TH JANUARY, 1949.**

**SUBJECT.—***Division of Survey of India assets between Pakistan and India.*

The Conference appointed a sub-committee consisting of the following to go into the question:

- (1) Mr. K. L. Panjabi, Secretary, Ministry of Agriculture (India).
- (2) Mr. H. S. M. Ishaque, Joint-Secretary, Ministry of Food, Agriculture and Health (Pakistan); and
- (3) Major R. C. A. Edge, Director-General, Survey of Pakistan.

The sub-committee met on the 11th and 12th January, 1949. Mr. S. S. Haidar, Under Secretary, Ministry of Food, Agriculture and Health (Pakistan) was also present.

The facts of the case may briefly be stated as follows:

(1) The Departmental Partition Sub-Committee recommended that stores and equipment shall be divided in accordance with the following formula:

“Pakistan will be given the stores and equipment required by it provided—

- (i) that the Indian Survey Department is not embarrassed in respect of any particular item; and
- (ii) that the overall share of Pakistan does not exceed 4/15th of the total stores and equipment now owned by the Survey

of India; the area of British India to be surveyed in Pakistan being 4/15th of that in the rest of India.

Col. G. W. Gemmell will prepare a detailed list of all stores and equipment. In doing so, he will be assisted by one Hindu and one Muslim officer. When this list is ready, the Surveyors General of Pakistan and India will jointly frame proposals for the division of the stores and equipment as between India and Pakistan in accordance with the above formula. Actual division will take place as soon as these proposals are approved by the two Governments.

The preparation of the detailed list may take up to two or three months. Meantime should any stores and equipment now lying in India or Pakistan be urgently required by either Government for carrying on its survey work, the Surveyor General concerned will permit the transfer of such stores or equipment, but the stores and equipment so moved will be debited against the share of the Government receiving them, as determined by the above formula. It is also agreed that pending the removal to Pakistan of Pakistan's share of stores and equipment, such stores and equipment may be stored in Survey Department godowns in India, custody of which will remain with the Pakistan Government.

(2) Preparation of lists of assets by the representatives of the two Governments continued till October, 1947, whereafter the Muslim member (Pakistan's representative) due to communal disturbances had to be withdrawn from Dehra Dun. About the same time, the neutral chairman, Col. G. W. Gemmell, also proceeded on leave preparatory to retirement. In consequence, lists and recommendations prepared fall under two categories, viz.:—

- (a) lists of assets and recommendations prepared and agreed to jointly by the representatives of the two Governments and by Col. Gemmell; and
- (b) lists and recommendations which were prepared by Survey of India officers but not finally scrutinised nor agreed to by a Pakistani representative.

(3) Pending the completion and examination of the lists of assets and in accordance with the provision in the Partition Sub-Committee's decision mentioned above, the Director-General, Survey of Pakistan sent a list of immediate requirements to the Surveyor General of India on the 21st of May, 1948, and Government of India agreed to the despatch of those with minor modifications. These were estimated to constitute about 26 wagon-loads, out of which only 4 wagons have so far been received. The movement of the balance is held up. The total number of wagon-loads due for transfer from India to Pakistan is estimated by both India and Pakistan to be 40. The total number of wagon-loads due for transfer from Pakistan to India is estimated by Pakistan as about 3 and by India as about 10. Out of this, Pakistan has already sent one wagon.

**AGREEMENT**

1. That the two Governments should take immediate steps to scrutinise and approve the lists of assets and recommendations contained in partition appendices with a view to their finalisation, acceptance and implementation by both sides.

2. That a fresh committee, consisting of representatives of the Survey Departments of India and Pakistan, be constituted for further consideration of partition appendices mentioned in para. (2) (b) above.

3. That points on which India and Pakistan representatives fail to agree, be referred to the Surveyor General of India and the Director General, Survey of Pakistan, to resolve by mutual consultation, and that if they also fail to

arrive at an agreed recommendation, the matter be referred to the two Governments for settlement provided that such differences shall not be allowed to hold up progress of scrutiny and of making of recommendations regarding other items not in dispute.

4. That India would forthwith send the appendices which have not so far been received by Pakistan.

5. That the Pakistani and Indian representatives in the proposed committee should be empowered to recommend suitable adjustments in physical transfers of expendable items and other items of which physical transfer for any reason is not in the best mutual interest of India and Pakistan, e.g. bulky items of furniture, and record the book values of the assets so adjusted.

6. That both sides will do their best to meet forthwith each other's immediate requirements, in the case of Pakistan, these requirements having been already stated and accepted by Indian with minor modifications on 21st May, 1948. According to representation of Pakistan the bulk of these assets have already been packed for transfer at the expense of the Government of Pakistan. However, in view of the lapse of time, India desired to re-examine the above list of requirements in the light of the recommendations of the Partition Sub-Committee mentioned in (i) above and agree to communicate their decision to Pakistan by the 31st January, 1949. In the meantime, four additional wagon-loads of stores have already been permitted to be moved from India to Pakistan.

7. That reciprocity, both in the qualitative and quantitative sense, in the movement of assets between the two Dominions shall be maintained as far as possible in proportion to the total assets due to be transferred by either side.

8. That in the event of any dispute arising out of this agreement regarding the application of any of its provisions or of the recommendations of the Departmental Partition Sub-Committee, the matter should be referred for decision to the next Inter-Dominion Conference.

#### APPENDIX IV.—A COMMITTEE COMPRISING OF MR. H. M. PATEL AND MR. NIZAMUD DIN ARRIVED AT THE FOLLOWING DECISION.

##### Item 11.—Movement of petrol from Karachi to India.

1. It is agreed that there should be an uninterrupted flow of petrol and other oil traffic from Karachi to stations on the East Punjab Railway, and to ensure this:—

- (a) the East Punjab Railway should see that all N.W. Railway oil tank wagons are returned back to the N.W.R. immediately after being emptied and normal turn round is maintained.
- (b) the N.W. Railway will continue to provide tank wagons for loading this traffic as hitherto;
- (c) the N.W. Railway in consultation with the E.P. Railway should work out the total number of tank wagons required for this service on the basis of the normal turn round, and the number of tank wagons which would ordinarily remain in the E.P. area at any one time. This would facilitate a check at short notice as to where there is hold up, if such a hold up occurs.

H. M. PATEL,

11-1-49.

NIZAMUD DIN,

11-1-49.

## CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES.

### (PART I—QUESTIONS AND ANSWERS).

Monday, 14th February, 1949.

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS

#### (a) ORAL ANSWERS

#### BORDER RAIDS BY PAKISTAN TROOPS IN ASSAM.

\*329. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Defence be pleased to state whether it is a fact that Pakistan troops have recently crossed the Indian border on the Indo-Pakistan frontier on the Sylhet side near Dewkivarea and attacked the civil population of India?

(b) Is it a fact that in one instance the Indian Posts and Telegraphs men working in the Indian area were attacked by Pakistan troops?

(c) Is it a fact that they have crossed our border several times?

(d) If so, what action have Government taken in the matter?

**The Honourable Sardar Baldev Singh:** (a) and (c). Yes, there have been a few incidents in which members of the Pakistan Army and Police trespassed into Indian territory and intimidated the local inhabitants with the result that the villagers temporarily abandoned their homes and took refuge elsewhere.

(b) Yes, a telegraph lineman and three line coolies of the Indian Posts and Telegraphs Department were assaulted by some Pakistan armed guards on the 23rd October 1948, while they were working on a telegraph post with a view to terminating the Shillong-Sylhet telegraph line on the Indo-Pakistan border.

(d) As I stated previously in answer to a question by another honourable member, it is not always possible to prevent minor raids even across the best guarded frontier in any country, but I should like to assure the House that Government are fully alive to their responsibilities in this regard and are taking all possible steps to prevent a recurrence of such incidents.

**Shri R. K. Sidhva:** May I know whether Government had drawn the attention of the Pakistan Government to the incidents and if so, with what result?

**The Honourable Sardar Baldev Singh:** The attention of the Pakistan Government was drawn but I cannot say with what result.

**Shri R. K. Sidhva:** Is it a fact that besides these attacks on the Indian Posts and Telegraphs employees some of the fishermen who were selling their catch on the Indian side were attacked and injured and those injured persons were taken from the Indian area to the Pakistan area?

**The Honourable Sardar Baldev Singh:** I am afraid I am not in a position to give a definite reply to the question of my honourable friend. As I said, there have been incidents and it is just possible that some fishermen may have been injured.

**Pandit Lakshmi Kanta Maitra:** Is it not a fact that on several occasions telegraph lines from frontier posts and telegraph and telephone posts were removed and on the last occasion when resistance was offered by our men they were attacked?

**The Honourable Sardar Baldev Singh:** I have got no definite information on the point but as I have stated there have been incidents and it is just possible that the honourable member's information is correct.

**Shri V. C. Kesava Rao:** May I know whether there has been any loss of lives due to these attacks?

**The Honourable Sardar Baldev Singh:** Yes, there has been loss of life.

**Srijut Rohini Kumar Chaudhuri:** What was the last occasion when the Pakistan troops crossed the Indian border and which part of India did they trespass?

**The Honourable Sardar Baldev Singh:** According to the information that I have got the last incident took place sometime in November, last year.

**Mr. Speaker:** The honourable member also asked at what place?

**The Honourable Sardar Baldev Singh:** I have not got that information.

**Shri H. V. Kamath:** How many fortified outposts are there on the Indo-Pakistan frontier in the East and at what distance between one another?

**Mr. Speaker:** The question may be relevant but does not arise out of this question.

**Shri H. V. Kamath:** If it is relevant, how does it not arise?

**Shri R. K. Sidhva:** The Honourable Minister stated that some people lost their lives. May I know the number?

**The Honourable Sardar Baldev Singh:** I require notice.

**Srijut Rohini Kumar Chaudhuri:** Did the Honourable Minister receive this information from the Government of Assam?

**The Honourable Sardar Baldev Singh:** Yes, the information was received from the Government of Assam.

**Pandit Lakshmi Kanta Maitra:** Is it not a fact that shots were fired from the Pakistan side?

**The Honourable Sardar Baldev Singh:** Yes. As I mentioned the incidents did take place and the shots were fired from the Pakistan side..

#### FOREIGN INVESTMENTS IN INDIA AND INDIAN ASSETS ABROAD

**\*330. Shri R. K. Sidhva:** Will the Honourable Minister of Finance be pleased to state:

(a) the volume of British and other foreign investments in India and Indian assets abroad; and

(b) the nature of such investments i.e., whether they are Government securities, shares, debenture, landed property or cash in Banks?

**The Honourable Dr. John Matthai:** (a) and (b). The information required by the honourable member is not available. The Reserve Bank of India are now conducting a census of foreign investments in India and of Indian investments abroad and the information asked for in parts (a) and (b) will be available when that census has been completed.

**Shri R. K. Sidhva:** Is it not a fact that the Reserve Bank sent a questionnaire to all these concerns in October last and, if so, may I know whether the information is now available with the Reserve Bank or it is still under examination?

**Mr. Speaker:** The question has been replied already. The Honourable Minister has said that the investigation is not yet complete.

**Shri R. K. Sidhva:** My question was that the questionnaire was sent in October and why it has taken so much time as six months.

**The Honourable Dr. John Matthai:** The first date we gave for the reception of the replies was the 31st December. Since then various companies asked for an extension of time and the time was extended until the 15th February. I expect that most of the information is now completed and it is only a matter of compilation now and I hope that sometime about June we should be in a position to get all the information.

**Prof. N. G. Ranga:** Is any effort being made to accelerate the process of purchasing foreign investments in India?

**The Honourable Dr. John Matthai:** That question would not arise out of this.

**Shri H. V. Kamath:** Arising out of part (a) of the question, since the Honourable Minister made his recent speech in Calcutta, have foreigners offered more capital for investment in India?

**Mr. Speaker:** Order, order. The Honourable Minister has said that the information is not yet complete, in which case how could he reply? It is obvious.

**Shri M. Ananthasayanam Ayyangar:** Was any estimate made of the British assets in India before our delegation went to England to settle the sterling balances?

**The Honourable Dr. John Matthai:** What we are trying to do now is to compile actual information; we are not trying to make estimates.

#### MANUFACTURE OF PRE-FABRICATED HOUSES

**\*331. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Health be pleased to refer to the answer given to my Starred Question No. 284 asked on the 18th August, 1948 regarding the construction of pre-fabricated houses and state whether the arrangements for starting a factory in India for the manufacture of pre-fabricated houses is complete and whether an agreement has been definitely arrived at with any company and if so, what are the terms and conditions thereof?

(b) Will the houses manufactured in this factory be available to the public or will they be confined to Government use only?

(c) Have Government any control over the factory as regards finance and administration?

**The Honourable Rajkumari Amrit Kaur:** (a) Yes. Arrangements have been completed for the establishment of a Factory in Delhi, planned for the production of 5,000 houses per year. A few sample houses will be ready by the end of March 1949 and regular production is scheduled to start in the second half of 1949. An agreement has been signed in this connection with Messrs. Structural and Mechanical Development Engineers Ltd., Slough, Bucks U.K. Under the agreement, the firm will supply designs and plans and provide technical personnel and facilities for training technicians. Government will bear the expenditure involved and also pay a royalty for the use of the patents of Messrs. Structural and Mechanical Development Engineers Ltd., proportionate to the output of the Factory.

658

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [14TH FEB. 1949]

(b) The present intention is that the houses manufactured should be made available to refugees, the poorer sections of the general public, and for the urgent needs of the Government.

(c) Yes. The factory will be entirely owned and run by Government.

**Shri R. K. Sidhva:** What is the cost of each house made of pre-fabricated material?

**The Honourable Rajkumari Amrit Kaur:** The cost of each house will be approximately Rs. 2,500.

**Prof. N. G. Ranga:** How much is being invested on this factory?

**The Honourable Rajkumari Amrit Kaur:** Between Rs. 60 and 70 lakhs.

**Mr. Homi Mody:** What are the materials which are going to be employed in the construction of these houses? To what extent will scarce materials like cement and steel need to be used?

**The Honourable Rajkumari Amrit Kaur:** Very little cement and very little steel will be required for them. The fabrication is called "Allcrete."

**Shri Arun Chandra Guha:** Have Government any idea of making arrangements with Indian companies to get pre-fabricated houses manufactured or have they any idea of starting a Government factory for the purpose?

**The Honourable Rajkumari Amrit Kaur:** That question will be considered when it is possible to do it.

**Lala Achint Ram:** How many such factories will be needed now to meet the situation in the country and what is the programme of the Government in this regard?

**The Honourable Rajkumari Amrit Kaur:** I am sorry I cannot give the information to the honourable member.

**Shri H. V. Kamath:** Is Dr. Koenigsberger still in charge?

**The Honourable Rajkumari Amrit Kaur:** Dr. Koenigsberger is the Director of Housing in the Ministry of Health.

**Shri S. V. Krishnamoorthy Rao:** The Honourable Minister was pleased to say that the cost of each house would be Rs. 2,500. May I know what is the floor space of each house?

**The Honourable Rajkumari Amrit Kaur:** I would like to have notice of that question.

**Mr. Tajamul Husain:** The Honourable Minister said that the cost of each house will be Rs. 2,500. How many rooms will there be in each house?

**The Honourable Rajkumari Amrit Kaur:** There will be two rooms plus. . . .

**Pandit Lakshmi Kanta Maitra:** What would be the approximate output of this factory in the initial stages?

**The Honourable Rajkumari Amrit Kaur:** I have already said 100 houses per week, i.e. 5,000 houses per year.

**Shri H. V. Kamath:** What are Dr. Koenigsberger's qualifications for his capacity as Adviser to the Ministry of Housing?

**Mr. Speaker:** That is going too much into detail.

**Shri M. Ananthasayanam Ayyangar:** What is the amount of living space that will be available in each house?

**The Honourable Rajkumari Amrit Kaur:** I have already answered that question.

**Shri O. V. Alagesan:** Has any Indian company offered to manufacture the houses at a lesser cost than Rs. 2,500—say at Rs. 1,500 or 1,800?

**The Honourable Rajkumari Amrit Kaur:** No, Sir.

NEW OFFICERS IN VARIOUS MINISTRIES GETTING RS. 1,000 AND OVER

**\*332: Shri R. K. Sidhva:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) the designations of new persons employed in various Ministries drawing salary of Rs. 1,000 and over from 1st August, 1948 to date;

(b) the designations of superannuated persons drawing salary as above for the same period and the names of Ministries in which they were employed before superannuation and are now re-employed?

(c) whether all these appointments have been made in conformity with the Rules of the Ministries concerned and subject to the approval of the Ministry of Finance; and

(d) the number of officers drawing Rs. 1,000 and over who retired or died during the said period?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). Two statements containing the required information are laid on the table of the House.

(c) Yes.

(d) Twenty.

## STATEMENT I.

*Showing the designations of new recruits drawing salaries of Rs. 1000 and over, appointed in various Ministries of the Government of India during the period from the 1st August, 1948 to 31st December 1948.*

| S. No. | Designation                                                        | Name of the Ministry in which employed.   |
|--------|--------------------------------------------------------------------|-------------------------------------------|
| 1.     | Deputy Educational Adviser to the Govt. of India                   | Ministry of Education.                    |
| 2.     | Economic Adviser, Railway Board                                    | Ministry of Railways.                     |
| 3.     | Officer on Special Duty                                            | Ministers Secretariat                     |
| 4.     | Deputy Secretary                                                   | Ministry of W. M. & P.                    |
| 5.     | Under Secretary                                                    | Department of Scientific Research.        |
| 6.     | Research Officer (National income)                                 | Ministry of Finance.                      |
| 7.     | Additional Consulting Engineer to the Government of India (Roads). | Ministry of Transport                     |
| 8.     | Two Deputy Secretaries.                                            | Ministry of I & S.                        |
| 9.     | Director of Enforcement (Textiles)                                 | Ministry of I. & S.                       |
| 10.    | Officer on Special Duty                                            | Ministry of E.A. & C.W.R. (E.W.A. Wing)   |
| 11.    | Director of Housing                                                | Ministry of Health.                       |
| 12.    | Two Regional Directors                                             | Ministry of Relief & Rehabilitation.      |
| 13.    | Deputy Controller, (Newsreels) Films Division                      | Ministry of Information and Broadcasting. |
| 14.    | Deputy Controller (Documentaries) Films Division                   | Ministry of Information and Broadcasting. |
| 15.    | Officer on special Duty (Crop & Cattle Insurance)                  | Ministry of Agriculture.                  |
| 16.    | Deputy Secretary                                                   | Ministry of Agriculture.                  |

## STATEMENT II.

*Showing the designation of superannuated person drawing salaries of Rs. 1000 and over appointed in various Ministries of the Government of India during the period from the 1st August, 1948 to 31st December, 1948.*

| S. No. | Designation                                                                                 | Ministry or office in which employed before superannuation. | Ministry in which re-employed.           |
|--------|---------------------------------------------------------------------------------------------|-------------------------------------------------------------|------------------------------------------|
| 1.     | Officer on Special Duty                                                                     | Bihar Educational Service                                   | Prime Minister's Secretariat.            |
| 2.     | Deputy Secretary                                                                            | Ministry of W.M. & Power                                    | Ministry of W. M. & P.                   |
| 3.     | Officer on Special Duty                                                                     | Ministry of Finance (Defence)                               | Ministry of W. M. & P.                   |
| 4.     | Assistant Secretary                                                                         | Ministry of W.M. & P.                                       | Ministry of W. M. & P.                   |
| 5.     | Member, Central Board of Revenue and ex officio Joint Secretary to the Government of India. | Ministry of Finance (Revenue Division).                     | Ministry of Finance (Revenue Division.)  |
| 6.     | Officer on Special Duty                                                                     | Allahabad High Court and Ministry of Law.                   | Ministry of Home Affairs.                |
| 7.     | Joint Secretary (States & E. A. Divn. of the Ministry of Finance).                          | Ministry of Finance.                                        | Ministry of Finance                      |
| 9.     | Additional Consulting Engineer (Bridges).                                                   | Ministry of Transport.                                      | Ministry of Transport.                   |
| 9.     | Officer on Special Duty Patents                                                             | Ministry of I. & S.                                         | Ministry of I. & S.                      |
| 10.    | Officer on Special Duty (Silk Board)                                                        | Ministry of I. & S.                                         | Ministry of I. & S.                      |
| 11.    | Director, Historical and Research Division                                                  | Federal Public Service Commission.                          | Ministry of E. A. & C.W.R. (E. A. Wing). |
| 12.    | Regional Director, Ministry of R. & R.                                                      | Punjab Government                                           | Ministry of Relief and Rehabilitation    |
| 13.    | Additional Agriculture Development Commissioner                                             | United Provinces Government                                 | Ministry of Agriculture.                 |

**Shri H. V. Kamath:** May I know which Ministry has created the largest number of new posts since the 1st August 1948?

**The Honourable Sardar Vallabhbhai Patel:** That Ministry which was in need of employing larger number of persons.

**Shri H. V. Kamath:** But which Ministry actually?

**Mr. Speaker:** He may better read the statement.

**Shri M. Ananthasayanam Ayyangar:** May I know the extent of additional expenditure to the exchequer as a result of the employment of these persons?

**The Honourable Sardar Vallabhbhai Patel:** That question would require notice.

**Shri R. K. Sidhva:** May I know the total number of such persons under (a) and (b) that is, persons who have been employed drawing Rs. 1,000 and above?

**The Honourable Sardar Vallabhbhai Patel:** In one list of officers given in the statement the number is sixteen; in the other thirteen.

#### APPOINTMENT OF OFFICIALS AS ADVISERS BY CENTRAL GOVERNMENT TO STATES UNIONS.

**\*333. Shri R. K. Sidhva:** (a) Will the Honourable Minister of States be pleased to state whether it is a fact that some of the Governments of the newly formed Unions of States have opposed the appointment by the Government of India of advisers from among officials?

(b) If so, which of the Unions have so objected and do Government intend to reconsider their decision?

(c) What are the functions of such advisers and do they take orders from the Constitutional Governments of the Unions or are they directly responsible to the Government of India?

**The Honourable Sardar Vallabhbhai Patel:** (a) No.

(b) Does not arise.

(c) The functions of the Advisers are to advise the Ministries of the Union and to assist the Rajpramukh in the administration of subjects over which he has exclusive jurisdiction.

**Shri H. V. Kamath:** Have the Advisers any executive or judicial functions at all?

**The Honourable Sardar Vallabhbhai Patel:** They have no executive functions.

**Shri H. V. Kamath:** Any judicial functions?

**The Honourable Sardar Vallabhbhai Patel:** No judicial functions either.

#### STATES UNDER ADMINISTRATIVE CONTROL OF CENTRE

**\*334. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of States be pleased to state whether the Government of India have taken over any States or group of States under their direct administrative control and if so, which are they?

(b) Have any popular Ministries been set up in any such areas and if not, why not?

(c) Have the Rulers themselves been appointed as the Chief Administrators or the Chief Commissioners in these areas and are the salaries paid to them in addition to the privy purse fixed for them?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes. Kutch, Bilaspur and Himachal Pradesh have been taken over under the direct control of the Central Government and are administered on the lines of a Chief Commissioner's Province.

(b) No. But an Advisory Council has been or is being set up in all these areas in order to aid and advise the Chief Commissioner in the administration of the area.

(c) In Bilaspur the Ruler has been appointed Chief Commissioner as a temporary measure. No salary is paid to him in addition to his privy purse.

#### ADMINISTRATION OF BILASPUR STATE

**\*335. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of States be pleased to state whether it is a fact that Bilaspur State is not a viable unit but has been kept as a separate entity and not amalgamated with Himachal Pradesh, notwithstanding the wishes of the people of the State?

(b) Are Government aware that there is a strong popular feeling against the appointment of the Raja of Bilaspur as the Chief Administrator of the State?

(c) Do Government propose to reconsider their decision and effect immediate changes in the existing administrative set up on popular lines and if not, why not?

**The Honourable Sardar Vallabhbhai Patel:** (a) Bilaspur is not a viable unit but it was considered that in the public interest it should be kept as a separate entity and administered on the lines of a Chief Commissioner's Province.

(b) and (c). His Highness the Raja of Bilaspur has been appointed as the Chief Commissioner only as a temporary measure and permanent arrangement is under consideration of the Government of India.

**Shri H. V. Kamath:** How long will this temporary arrangement continue?

**The Honourable Sardar Vallabhbhai Patel:** As long as it is considered necessary in the public interest.

**Shri H. V. Kamath:** Is not the Raja of Bilaspur, the temporary Commissioner of Bilaspur, the very person who carried on brutal repression against the national freedom movement in Bilaspur till some months ago—till Bilaspur acceded to India?

**The Honourable Sardar Vallabhbhai Patel:** I have no information on the subject.

#### CONVENTION OF STATES REPRESENTATIVES IN CONSTITUENT ASSEMBLY

**\*236. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of States be pleased to state whether the attention of the Government of India has been drawn to the Convention of the members of the Indian States in the Constituent Assembly of India held in the third week of November 1948 at New Delhi, and to the various resolutions passed by the said Convention?

(b) Are Government of India in agreement with the proposals incorporated in these resolutions and what steps do they intend to take to remove the existing distinctions between the Unions of States and the Provinces?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes.

(b) Even before the Convention met, the Government of India had recognised the desirability of approximating the position of States to that of Provinces and to this end had taken appropriate steps which have met with some success.

**Prof. N. G. Ranga:** Have any Unions been recently constituted whose political position approximates to that of Indian Provinces?

**The Honourable Sardar Vallabhbhai Patel:** In all these Unions the new Covenant contains a clause in which they have agreed to fall in line with the Provinces.

**Shri R. K. Sidhva:** Do Government contemplate framing a model constitution for all the States to come into line with the Provinces?

**The Honourable Sardar Vallabhbhai Patel:** We have appointed a Committee to draft a Constitution which will be circulated to the States and Unions and it will be for them to accept as much as it suits them.

#### CONCESSION OF PREMATURE RETIREMENT TO EUROPEAN OFFICERS OF NON-SECRETARY OF STATE SERVICES

**\*337. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether any concession of

premature retirement has been extended to European officers of the non-Secretary of State services and if so, on what terms?

(b) Has this arrangement been accepted by His Majesty's Government in the U. K., and if so, on what conditions?

(c) What is the number of European officers who have availed of this concession or are likely to avail of this concession?

(d) What is the total number of such non-domiciled European officers who are still in the service of the Government of India?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes. The terms are that officers retiring under the scheme will receive such proportionate pension or gratuity or provident fund benefits, as the case may be, as would have been admissible to them in the event of their discharge from service on the abolition of their posts. The pension admissible in such cases normally bears the same proportion to the full pension as the years of qualifying service actually rendered bear to the years of qualifying service necessary to earn the full pension. In addition, the officers concerned will receive free repatriation passages and railway fares for themselves and the members of their families.

(b) Yes; the condition is that the extra cost involved in the arrangement will be borne by H. M. G.

(c) 79.

(d) 975.

#### MEASURES TO CHECK INFLATION

**\*338. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Finance be pleased to state whether the attention of the Government of India has been drawn to the views on the question of fighting inflation expressed by Shri Manu Subedar on the 30th November, 1948 and published in different newspapers?

(b) If so, do the Government of India agree with the suggestions made therein?

(c) What steps have so far been taken by the Government of India to fight inflation and how far have these measures proved effective?

(d) What percentage of increase has there been in the prices of all essential commodities like foodgrains, cloth, etc., during the last six months?

**The Honourable Dr. John Matthai:** (a) Yes.

(b) The suggestions made by Mr. Manu Subedar are that currency should be contracted in a spectacular manner and that Provincial Ministries should be abolished. Government naturally do not agree with these suggestions.

(c) I would invite the attention of the honourable member to the reply given to Question No. 33 on 1st February, 1949.

(d) Except over short periods, there has been a slight decrease in food-grain and cloth prices during the last six months. A statement showing the wholesale price indices of certain essential commodities is laid on the table of the House.

## STATEMENT

*Wholesale Price Indices of essential Commodities in India*

(Base Year ended August 39-100)

|                                     | July<br>1948 | August<br>1948 | Sept.<br>1948 | Oct.<br>1948 | Nov.<br>1948 | Dec.<br>1948 | Jan.<br>1949 |
|-------------------------------------|--------------|----------------|---------------|--------------|--------------|--------------|--------------|
| (1) Cereals . . . . .               | 473          | 475            | 475           | 470          | 481          | 490          | 478          |
| (2) Pulses . . . . .                | 440          | 440            | 454           | 458          | 462          | 454          | 445          |
| (3) Sugar . . . . .                 | 366          | 362            | 360           | 356          | 323          | 309          | 307          |
| (4) Gur . . . . .                   | 190          | 212            | 205           | 197          | 197          | 195          | 173          |
| (5) Salt . . . . .                  | 104          | 105            | 104           | 106          | 104          | 110          | 105          |
| (6) Spices and Condiments . . . . . | 485          | 500            | 494           | 503          | 506          | 537          | 516          |
| (7) Vegetable Oils . . . . .        | 548          | 548            | 543           | 553          | 560          | 563          | 565          |
| (8) Oil Cakes . . . . .             | 404          | 401            | 406           | 379          | 395          | 389          | 379          |
| (9) Cotton manufactures . . . . .   | 420          | 375            | 363           | 361          | 359          | 359          | 347          |
| (10) Footwear . . . . .             | 266          | 266            | 266           | 266          | 266          | 266          | 267          |
| (11) Kerosene . . . . .             | 186          | 188            | 188           | 188          | 188          | 188          | 188          |

**Shri H. V. Kamath:** With reference to part (d) of the question is the Honourable Minister aware that the black-market in food and cloth has still not been eliminated?

(No answer was given.)

**Shri H. V. Kamath:** No answer?

**Mr. Speaker:** It could be answered, but the question is not relevant.

**Pandit Hirday Nath Kunzru:** In which parts of India have prices of food-grains and other commodities come down?

**The Honourable Dr. John Matthai:** I am laying a statement on the table of the House. The honourable member would have an opportunity of examining the figures.

**Pandit Lakshmi Kanta Maitra:** Do Government think that inflation is checked or is on the decrease? What is the considered opinion of Government?

**Mr. Speaker:** It is a matter of opinion.

**Pandit Lakshmi Kanta Maitra:** Government must have come to some decision whether as a result of the anti-inflationary measures they have taken the results have in their opinion justified the actions taken and that inflation is on the decrease. I want to know whether Government have applied their mind at all to this.

**The Honourable Dr. John Matthai:** My honourable friend has raised very big issue on which I would not like to commit myself to an answer at this stage. But the position broadly is this, that as far as the level of wholesale prices is concerned there has been—I would not say a definite fall in prices but there has been—a downward trend. That statement does not altogether apply in regard to cost of living where the position is that between 50 to 60 per cent. of the cost is the price of foodgrains and I personally do not expect there would be any perceptible downward trend in regard to foodgrain prices until the next *rabi* crop comes in. It is only then that control would become operative.

**Shri K. Hanumanthaiya:** Have Government taken steps to stop further issue of currency notes?

**The Honourable Dr. John Matthai:** Well, Sir, the issue of currency notes depends on the amount of expenditure, public and private, that is going on in the country.

**Dr. Mono Mohan Das:** May I know what anti-inflationary steps have been adopted by Government?

**The Honourable Dr. John Matthai:** I would refer the honourable member to the statement that Government issued on the 4th of October.

**Prof. N. G. Ranga:** Sir, the supplementary put by my honourable friend has not been answered. Have Government stopped any further issue of currency notes? There has been no answer at all. It must be possible to say, Yes or No because they are in possession of the information.

**The Honourable Dr. John Matthai:** Well, Sir, if the honourable member is in the habit of reading statements issued by the Reserve Bank, the honourable member would know that quite recently there has been a substantial drop in the amount of currency notes, although I notice last week there has been a slight increase. But the point is somewhat irrelevant to the question of inflation for this reason, that the amount of currency is more a secondary cause than a primary cause—it is more a symptom than a cause.

**Shri S. V. Krishnamoorthy Rao:** Very recently the Honourable the Food Minister told us that after the re-introduction of control as an anti-inflationary measure, the prices of foodgrains had gone up. Just now the Honourable the Finance Minister told us that there is a downward tendency in the prices. Which of these statements is correct?

**Mr. Speaker:** He did not say downward tendency for foodgrains.

**Several Honourable Members:** No, for wholesale prices.

**The Honourable Dr. John Matthai:** Sir, I am taking a period of six months. The procurement prices that were fixed by Government are of the order of 25 to 50 per cent. higher than the pre-decontrol prices of December 1947. On the whole there has been no perceptible reduction in regard to foodgrain prices.

## REPORT OF COMMITTEE OF CENTRAL INSTITUTE OF LEPROSY RESEARCH

\*339. **Shri O. V. Alagesan:** Will the Honourable Minister of Health be pleased to state:

(a) whether the committee appointed to report on the establishment of a Central Institute of Leprosy Research has submitted its report to Government, and

(b) if so, what action has been taken thereon?

**The Honourable Rajkumari Amrit Kaur:** (a) and (b). The Committee referred to by the honourable member was appointed in November, 1948. It has not yet submitted its report to Government.

**Shri O. V. Alagesan:** In the matter of the location of the Institute, will Government take into consideration the existing facilities and not be swayed by provincial or other considerations?

**The Honourable Rajkumari Amrit Kaur:** Government will never be guided by any considerations except what are best for the subject in hand.

## FACILITIES FOR HIGHER EDUCATION IN PHARMACEUTICAL SCIENCE

**\*340. Shri O. V. Alagesan:** Will the Honourable Minister of Health be pleased to state what are the facilities for higher education in pharmaceutical science obtaining in the country at present?

**The Honourable Rajkumari Amrit Kaur:** Facilities for studies in pharmaceutical science are provided by the Universities of Banares, Madras, Bombay and Agra.

**Prof. N. G. Ranga:** Is it true that it is proposed by Government to start a Research Institute for pharmaceutical science?

**The Honourable Rajkumari Amrit Kaur:** All these matters will be taken into consideration when the Pharmacy Council comes into being and begins to function.

**Shri H. V. Kamath:** Does the Honourable Minister propose to provide any facilities for the research and development of Ayurvedic pharmaceutical science?

**The Honourable Rajkumari Amrit Kaur:** When the policy of Government is decided in the matter, it will be time to consider that question.

**Shri O. V. Alagesan:** Is it not a fact that for want of facilities the industry is lagging behind? What steps do Government propose to take to advance the industry?

**Mr. Speaker:** The first part involves an opinion. Next question.

**Prof. N. G. Ranga:** Are Government maintaining any list of those experts who have studied pharmaceutical science in England and America and are they trying to make use of their services?

**The Honourable Rajkumari Amrit Kaur:** I would have to have notice of that question.

**Shri H. V. Kamath:** Is the Honourable Minister aware that in a number of cases which Allopathy gave up as hopeless, Ayurveda has effected remarkable cures?

## CONTROL OVER COMMUNICATIONS IN HYDERABAD STATE

**\*341. Prof. N. G. Ranga:** Will the Honourable Minister of States be pleased to state:

(a) whether the Hyderabad State is still being allowed to have its own coins and control over its posts and telegraphs and railways;

(b) whether similar rights have been conceded to any other State; and

(c) whether any efforts are being made to bring Hyderabad in line with other States in these matters?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes except that Hyderabad had no telegraph system of its own.

(b) Yes.

(c) Government have appointed a Committee to go into the question of integration of States. Finances and these matters would arise in connection with such integration.

**Shri M. Ananthasayanam Ayyangar:** With reference to answer to part (b), may I know what the other States are?

**The Honourable Sardar Vallabhbhai Patel:** The other States which maintain separate coinage and postal systems are Travancore and Cochin. There are also States which maintain their own Railways, such as Baroda.

**Shri M. Ananthasayanam Ayyangar:** Is any attempt made to bring in line not only Hyderabad but the other States also, with the rest of India in these matters?

**The Honourable Sardar Vallabhbhai Patel:** That is the aim with which we are working.

## EXPENDITURE ON POLICE ACTION IN HYDERABAD

**\*342. Prof. N. G. Ranga:** Will the Honourable Minister of States be pleased to state:

(a) whether the amount spent on the 'Police Action' in Hyderabad is to be recovered from Hyderabad; and

(b) whether any sum is being demanded from the State for the losses sustained by the Indian Army and Indian Police during the 'Police Action'?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). These matters are under consideration.

## LOCATION OF A BRANCH OFFICE OF CONTROLLER OF MILITARY ACCOUNTS, SOUTHERN COMMAND

**\*343. Dr. V. Subramaniam:** Will the Honourable Minister of Finance be pleased to refer to the answer to my starred question No. 61 asked on the 10th August, 1948 and state that at what stage the proposal to locate a Branch of the office of the Controller of Military Accounts, Southern Command, in the South now stands?

**The Honourable Dr. John Matthai:** The proposal is still under consideration. I might add that it would be difficult to come to a final decision in the matter until the permanent strength and location of the Army is settled.

## SELECTIONS MADE BY F. P. S. C. FOR GAZETTED POSTS

**\*344. Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) the number of Gazetted posts that were filled up by selection by the Federal Public Service Commission in the years 1947 and 1948;

(b) the number of gazetted posts for which the Federal Public Service Commission advertised in the years 1947 and 1948;

(c) the number of Gazetted posts that were filled up by old incumbents by selection through the Federal Public Service Commission in 1947 and 1948;

(d) the number of fresh hands that were chosen for Gazetted posts in 1947 and 1948; and

(e) the number of old incumbents who were rejected by the Federal Public Service Commission in 1947 and 1948?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). Separate figures for gazetted posts are not readily available but the combined figures regarding gazetted and non-gazetted posts are as under:

|     | 1947.                                                                                              | 1948.                                                                                              |
|-----|----------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------|
| (a) | 675                                                                                                | 1267                                                                                               |
|     | (including 447 posts, proceedings for recruitment for which had been initiated in previous years). | (including 658 posts, proceedings for recruitment for which had been initiated in previous years). |
| (b) | 722                                                                                                | 1069                                                                                               |

633 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [14TH FEB. 1949]

(c) to (e). The information is not readily available with the Federal Public Service Commission and the time and labour involved in collecting it would not be commensurate with the results to be obtained.

**Shri H. V. Kamath:** Have there been any instances where posts were advertised by the Federal Public Service Commission but such posts were filled ultimately by persons other than those recommended by the Federal Public Service Commission?

**Mr. Speaker:** I am afraid it is too general a question.

**Shrimati Dakshayani Velayudhan:** When a candidate who is already in service appears before the Public Service Commission, is it a practice that a confidential report is asked for by the F.P.S.C. from the Department concerned?

**The Honourable Sardar Vallabhbhai Patel:** I want notice of that question; I have no knowledge about it.

**Shri V. C. Kesava Rao:** May I know how many out of these figures are Harijans?

**Mr. Speaker:** Order, order.

**Shri M. Ananthasayanam Ayyangar:** The Honourable Minister was not able to say how many are old incumbents and how many are new incumbents. May I ask him if the number of old incumbents is as large as the new incumbents who were not able to get over the F.P.S.C. examination? Persons are appointed temporarily and ultimately they themselves are selected.

**Mr. Speaker:** Order, order. I am afraid these are all inferences.

**Shri M. Ananthasayanam Ayyangar:** May I ask the Honourable Minister if in cases where the F.P.S.C. has to intervene or select, the Departments have been authorised to make appointments temporarily and those persons are also allowed to sit for the F.P.S.C. examination?

**The Honourable Sardar Vallabhbhai Patel:** There are rules to that effect. It is allowed in special cases for sufficient reasons.

**Shri M. Ananthasayanam Ayyangar:** Is it a fact that in all cases temporary appointments can be made by the various Departments even before the F.P.S.C. examination and it is only in case of permanent appointment the F.P.S.C. has to be consulted.

**The Honourable Sardar Vallabhbhai Patel:** Not in all cases.

**Srijut Rohini Kumar Chaudhuri:** May I venture to ask the Honourable Minister whether any of these figures include any one from the province of Assam?

**Mr. Speaker:** I do not propose to allow this question.

**Shrimati Dakshayani Velayudhan:** Are representatives of the Department asked to be present when a candidate of that Department is appearing for interview?

**The Honourable Sardar Vallabhbhai Patel:** Yes.

**Shri M. Ananthasayanam Ayyangar:** Has it come to the notice of the Honourable Minister—I will give a particular instance—in a case where students who have passed degrees in Geology were selected, first class M.As. were rejected and second-class people were selected recently, and complaints have come to the notice of the Honourable Minister regarding the manner in which selection has been made by F.P.S.C.?

**The Honourable Sardar Vallabhbhai Patel:** I cannot say that it is the case with regard to the selection made by the F.P.S.C.

**Prof. N. G. Ranga:** Are Government aware of the fact that there is a considerable amount of dissatisfaction prevailing at the manner in which F.P.S.C. itself is working?

**The Honourable Sardar Vallabhbhai Patel:** The general dissatisfaction is always there when selections are made, because those who are rejected are always dissatisfied.

#### RAIDS BY PAKISTAN NATIONALS ON INDIAN BORDER

**\*345. Sardar Bhopinder Singh Man:** Will the Honourable Minister of Defence be pleased to state:

(a) the number of raids by Pakistan Nationals into Indian territory since August, 1947;

(b) the total loss of property involved in these raids;

(c) the total loss of life involved in these raids; and

(d) what arrangements have been made to stop recurrence of these raids?

**The Honourable Sardar Baldev Singh:** (a) 234.

(b) Rs. 5 lakhs approximately.

(c) 41 lives were lost. In addition 7 women and 47 men were kidnapped and have not yet been returned.

(d) I would refer the honourable member to my reply to part (d) of Starred Question No. 329, asked by Shri Sidhva a short while ago.

**Sardar Bhopinder Singh Man:** Do these Pakistan nationals who have been raiding Indian territory include any of Pakistan's armed soldiers or police constables?

**The Honourable Sardar Baldev Singh:** It is difficult to say whether they belong to the Army or Police, but they are all armed.

**Sardar Bhopinder Singh Man:** Do these casualties that you have referred to include any of our Armed Forces or Police constables?

**The Honourable Sardar Baldev Singh:** It is difficult for me to reply to this question, but most probably some police or members of the armed constabulary may be included in this.

**Shri Deshbandhu Gupta:** May I know whether it is a fact that sometimes our own nationals settle accounts on the spot by indulging in counter-raids?

**The Honourable Sardar Baldev Singh:** There have been raids from our side also.

**Shri Mohan Lal Gautam:** How many of these armed people who raided our territories were arrested and has the Government been able to find out that they belong to the Pakistan Army or Police Force?

**The Honourable Sardar Baldev Singh:** I have not got the information, but if the honourable member wants I can give him details.

**Shri Krishna Chandra Sharma:** Have any damages been claimed by the Government of India for the casualties, from the Pakistan Government?

670

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [14TH FEB. 1949]

**The Honourable Sardar Baldev Singh:** Yes, Sir. All these damages are always reported to the Government of Pakistan.

**Shri H. V. Kamath:** Apart from Armed Forces, have there been any incursions by Pakistani spies into Indian territory?

**Mr. Speaker:** Even about Armed Forces he was not able to say. They are all Pakistan nationals, whether spies or Armed Forces.

**Shri H. V. Kamath:** But is the Minister aware that there is a school for the training of spies at Kasur just across the Indo-Pakistan border?

**The Honourable Sardar Baldev Singh:** It may be so but I have no information.

#### REPRESENTATIONS OF EAST PUNJAB STATES IN CONSTITUENT ASSEMBLY

**\*346. Sardar Bhopinder Singh Man:** Will the Honourable Minister of States be pleased to state whether it is a fact that the East Punjab States other than the Patiala State had a representative in the Constituent Assembly before the inauguration of the East Punjab States Union and that thereafter that seat, having fallen vacant, has not been filled up so far?

**The Honourable Sardar Vallabhbhai Patel:** Before the formation of the Patiala and East Punjab States Union, Patiala had two representatives in the Constituent Assembly and Nabha, Kapurthala, Jind, Faridkot, Malerkotla and Kalsia along with 8 other States of Mandi, Bilaspur, Suket, Tehri-Garhwal, Sirmur, Chamba, Loharu and Bashahr had three representatives. After the formation of the Union the number of seats allotted to the Union is three. Regarding the filling up of these seats, the honourable member's attention is invited to my reply to question No. 229 on 9th February, 1949.

**Shri H. V. Kamath:** Does the Honourable Minister propose to call upon all the unrepresented States or Unions of States to elect their representatives and send them in time for taking their seats at the next session of the Constituent Assembly?

**Mr. Speaker:** This question has been replied to more than once. I have clear memory that it has been replied to.

**Shri H. V. Kamath:** Not about all the States, Sir.

**Mr. Speaker:** Yes, about all.

#### PRIVATE PROPERTIES OF RULERS OF INDIAN STATES

**\*347. Shri Lakshminarayan Sahu:** Will the Honourable Minister of States be pleased to state the final decision made by Government regarding the private properties of the Rulers of Indian States and particularly of the Rulers of Orissa States?

**The Honourable Sardar Vallabhbhai Patel:** Except in regard to the Rulers of Chhattisgarh States, whose claims to private property have been settled by the Government of India in consultation with the Provincial Government, the claims of other Rulers of States which have merged in Provinces are still under consideration and an early settlement is expected.

**Shri H. V. Kamath:** Is it a fact that the Nizam has given up almost all his private property, otherwise known as *Sarfi Khas*?

**The Honourable Sardar Vallabhbhai Patel:** How does it arise from this question?

**Shri H. V. Kamath:** The question relates to the private properties of the Rulers of Indian States.

#### EXPENDITURE AND CASUALTIES IN KASHMIR OPERATIONS

**\*348. Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Finance be pleased to state what is the amount of money so far spent on Kashmir operations?

(b) What are the casualties so far dead and wounded?

(c) How much money are we saving per day by the cease fire?

**The Honourable Dr. John Matthai:** (a) and (c). It will not be in the public interest to disclose this information at present.

(b) The number of wounded and killed in the Kashmir operations, is as follows:

Number killed—1,795 all ranks.

Number wounded—4,109 all ranks.

#### LOANS TO JAMMU AND KASHMIR STATE

**\*349. Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of States be pleased to state what is the total amount of loans so far given to the Government of Jammu and Kashmir State?

(b) What are the terms of these loans?

**The Honourable Sardar Vallabhbhai Patel:** (a) Two loans of Rs. 1 crore each were granted to the Jammu and Kashmir State in 1947-48, and a further loan of Rs. 1.20 crores was granted in the current year, making a total of Rs. 3.20 crores.

Besides this, all expenditure incurred on Aid to Kashmir will be treated as a loan to the Jammu and Kashmir State. Since replying to starred question No. 29 on the 1st February, 1949, further figures have been received, and the total estimated expenditure in this respect up to the end of the current year (including the expenditure on the Jammu Pathankot Road) now comes to Rs. 2,36,30,000.

(b) The two loans of Rs. 1 crore each granted last year, and the loan of Rs. 1.20 crores granted this year carry interest at 2½ per cent. and are repayable in five years or earlier. Interest is calculated from the date each instalment of the loans was actually drawn by the Jammu and Kashmir Government.

The terms on which the expenditure on Aid to Kashmir is to be treated as a loan have not yet been settled.

**Shri Mahavir Tyagi:** What is the security for the loan?

**The Honourable Sardar Vallabhbhai Patel:** Well, a large part of it is covered by substantial securities.

**Shri Mahavir Tyagi:** I wanted to know what are the securities.

**The Honourable Sardar Vallabhbhai Patel:** Government securities.

#### ILLITERACY IN INDIA

**\*350. Shri S. Nagappa:** Will the Honourable Minister of Education be pleased to state:

(a) what the actual percentage of illiteracy in the country is; and

(b) whether there is any scheme under the Government of India to organize special classes to enable people in Services to study for Arts and Science Subjects?

† Answer to this question laid on the table, the questioner being absent.

**The Honourable Maulana Abul Kalam Azad:** (a) As no census has been taken after 1941, exact figure is not available but it can be assumed to be between 83 and 84 per cent. for the whole of India (excluding States) and between 85 and 86 per cent. for Indian States.

(b) Arrangements exist in the Navy, Army and Air Force to provide general education to Service personnel.

**RANK OF DEPUTY MINISTER IN MINISTRY OF EXTERNAL AFFAIRS AND COMMONWEALTH RELATIONS IN THE WARRANT OF PRECEDENCE**

\*351. **Shri Mahavir Tyagi:** (a) Will the Honourable Minister of Home Affairs be pleased to state if in accordance with the "Table of Rank and Precedence" as approved by His Majesty King George the VI, the post of the Secretary-General of External Affairs and Commonwealth Relations is ranked as higher than the office of the Deputy Minister in the Ministry of External Affairs and Commonwealth Relations?

(b) Is it further a fact that according to the same table the Deputy Minister will rank below the Secretary-General only for so long as Shri Girja Shankar Bajpai occupies the post?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes.

(b) In the table of Precedence foreign Ambassadors in India are given a very high place. In accordance with the usual practice elsewhere, Indian Ambassadors and those who have the rank of Ambassadors and who have to deal with foreign Ambassadors have to be given a correspondingly high place in the table of Precedence. This is in accordance with practice in other countries. All our Ambassadors have this position. The Secretary-General as the permanent head of the Foreign Office is in the same category.

**Shri Mahavir Tyagi:** I wanted to know whether the position given to the Secretary-General of External Affairs and Commonwealth Relations, Shri Girja Shankar Bajpai is higher than the position given to the Deputy Minister of the same Ministry?

**The Honourable Sardar Vallabhbhai Patel:** That is what I have said. The Secretary-General, being the permanent head of the Foreign Office, is in the same category as an Ambassador.

**Shri H. V. Kamath:** The Honourable Minister referred to the practice obtaining in other countries. Is it a fact that the Secretary-General of the Foreign Ministry in other countries is assigned the same position, *vis-a-vis* the Deputy Foreign Minister of those countries?

**The Honourable Sardar Vallabhbhai Patel:** I have said so; it has been ascertained.

**Shri H. V. Kamath:** Is there any Warrant or list of Precedence for members of Parliament, *vis-a-vis* permanent servants in the Foreign Office and other Ministries?

**The Honourable Sardar Vallabhbhai Patel:** Members of Parliament have a much higher position; being free men they can go about wherever they want.

**Shri H. V. Kamath:** Higher than what?

**Mr. Speaker:** Higher than what the member had in mind.

**Shri Mahavir Tyagi:** Is this office has been mentioned by the name of the individual—Shri Girja Shankar Bajpai—is there a note that this higher position will remain so long only as Shri Girja Shankar Bajpai occupies this office?

**The Honourable Sardar Vallabhbhai Patel:** As I have already stated, this is in accordance with the practice in other countries.

**Shri Mahavir Tyagi:** Is it mentioned in the Warrant of.....

**Mr. Speaker:** These are matters of detail into which we need not go.

**Shri M. Ananthasayanam Ayyangar:** May I ask the Honourable Minister if this precedence of the Secretary-General over the Deputy Minister extends to the work in the Department also?

**The Honourable Sardar Vallabhbhai Patel:** No.

**Shri H. V. Kamath:** Has the Secretary-General to carry out the orders of the Deputy Minister?

**The Honourable Sardar Vallabhbhai Patel:** It depends upon the nature of the work; and there is always the Chief Minister.

**Shri M. Ananthasayanam Ayyangar:** Is not the Secretary-General considered to be subordinate to the Deputy Minister of that Department?

**Mr. Speaker:** Order, order.

**Shri Mahavir Tyagi:** Is it a fact that in the column of Secretary-General it is mentioned that this position will continue so long as Shri Girja Shankar Bajpai occupies that office? Is this position given to the person of Shri Girja Shankar Bajpai or to the office of Secretary-General?

**The Honourable Sardar Vallabhbhai Patel:** As I have already stated, this is in accordance with the practice in other countries, so far as that office is concerned.

**Shri H. V. Kamath:** Is the Secretary of any other Ministry assigned a higher place in the Order of Precedence, than the Deputy Minister?

**The Honourable Sardar Vallabhbhai Patel:** No.

**ARCHAEOLOGICAL EXCAVATIONS**

\*352. **Srijat Rohini Kumar Chaudhuri:** Will the Honourable Minister of Education be pleased to state:

(a) whether any excavation has been conducted by the Archaeological or Anthropological Department of the Government of India for purposes of research and discovery within recent years and if so, when and with what result; and

(b) whether any assistance, monetary and otherwise, has been given by the Government of India to Kamrup Museum in Gauhati for this purpose and if so, what?

آنریبل مولانا ابوالکلام آزاد: (a) ہاں۔ پچھلے چار برسوں کے اندر کئی کام کھدائی کے کئے گئے ہیں۔ ۱۹۴۵ میں پانڈیچری کے پاس ایک جگہ کھدائی کی گئی۔ وہاں سے جو چیزیں نکلی ہیں ان سے معلوم ہوتا ہے کہ یہاں پہلی اور دوسری صدی اے۔ ق۔ میں ایک ایک اندو۔ رومن تجارتی اسٹیشن تھا۔ پرانی عمارتوں کے ڈھانچے بھی پائے گئے ہیں۔ ان میں ایک ایسا ہے جیسے ایک بڑی فیکٹری وہاں بنائی گئی ہو۔ ایک دوسرا اس طرح کا ہے جیسے وہاں تجارتی چیزیں رکھی جاتی ہوں۔ اس کھدائی سے اس کام میں بھی بہت مدد ملی کہ برتن بنانے کی جو لوکل انڈسٹری ہے اس کے الگ الگ قسموں اور وقتوں کا تزئین کار جو لگایا جائے۔

۱۹۴۶ - ہرآپا (پنجاب) میں کھدائی کا کام ہوا - یہاں ایک قلعہ کے نشان پائے گئے ہیں اور ایک ایسی جگہ بھی ملی ہے جہاں مردے گاڑے جاتے تھے -

۱۹۴۷ - برہما گری اور چندراوالی میں کھدائی کا کام ہوا جو میسور استیت کے دکھنی حصے میں ہے - یہاں پہلی مرتبہ یہ بات روشنی میں آئی کہ پتھر کی چٹانیں جو یہاں تراشی گئی ہیں انکا زمانہ دوسو - بی - سی - سے پہلی صدی اے - قی - کے شروع تک لے جایا جا سکتا ہے -

۱۹۴۸ - سیسو پال گڑھ ازیسہ - میں کام ہوا اور ایک چوکور قلعہ کے نشان ملے جو ہر طرف تین چوتھائی میل تک چلا گیا ہے - انکا زمانہ دوسو بی - سی - سے تین سو اے - قی - تک کا خیال کیا گیا ہے -

(b) گٹھتی کے کام روپ میوزیم کو گورنمنٹ آف انڈیا سے کوئی روپیہ کی مدد نہیں دی گئی - کیونکہ وہ ایک پراونشیل میوزیم ہے - لیکن آرکیالاجیکل ڈیپارٹمنٹ ہمیشہ اس طرح کی ادوائس دیتا رہتا ہے جو میوزیم کا کام بڑھانے کے لئے ضروری ہے - اس میوزیم کو پرانی چیزوں کے دو ست بھی دئے گئے ہیں - ایک مہنجدارو کی چیزوں کا - دوسرا ہراپا کا -

**The Honourable Maulana Abul Kalam Azad:** (a) Yes; the following excavations were carried out by the Department of Archaeology during the past four years of which the results are briefly indicated below:

1945.—During April-June, 1945, excavations were conducted at a site called Arikamedu near Pondicherry, the capital of French India. Here an Indo-Roman trading station belong to the 1st-2nd centuries A.D. was brought to light. Of the structures discovered, a ware-house and a large factory-area deserve special notice. The excavations helped a great deal in chronologically classifying the local ceramic industry.

1946.—During April-June, 1946, excavations were conducted at the well-known site of Harappa in the Punjab. Here a citadel of outstanding importance was brought to light. Besides, a cemetery belonging to the Harappa culture was also discovered.

1947.—During March-May, 1947, excavations were undertaken at sites called Brahmagiri and Chandravalli in the Northern part of the Mysore State and it was here for the first time that the local megaliths were dated from circa 200 B.C. to the beginning of the Christian era.

1948.—During April-June, 1948, the site of Sisupalgarh near Bhubaneswar in Orissa was excavated and a squarish fort measuring about 3/4ths of a mile each way, with an excellent lay-out and elaborate system of gateways ranging in date from circa 200 B.C. to A.D. 300 was brought to light.

(b) No monetary assistance for purposes of research has been given by the Government of India to Kamrup Museum in Gauhati which is a provincial museum. The Department of Archaeology has, however, made always available such advice as was possible for the development of the Museum. The Museum has also been presented with a representative set of Mohenjodaro antiquities and a representative set of painted potsherds from Harappa.

**Srijut Rohini Kumar Chaudhuri:** I would like to get this answer translated into English as it is in Urdu.

**Mr. Speaker:** Not necessary, I believe the honourable member understands Hindustani.

**Srijut Rohini Kumar Chaudhuri:** No, I did not understand some of the words, such as 'Khudayagaya' 'Jamana', etc.

**Mr. Speaker:** It seems to me, we are turning the occasion of the questions for a controversy about Hindi, Urdu and all that. I do not propose to allow it. If the honourable member has not really understood the answer, then of course, I would request him to study the same.

**Srijut Rohini Kumar Chaudhuri:** I could understand the answer in a way, but not fully.

**Mr. Speaker:** Then we may proceed with the supplementary questions.

**Srijut Rohini Kumar Chaudhuri:** Sir, I want to know whether since the establishment of the two Departments, any excavation has been done by the Archaeological Department in the province of Assam?

آنریبل مولانا ابوالکلام آزاد : نہیں -

**The Honourable Maulana Abul Kalam Azad:** No.

**Srijut Kuladhar Chaliha:** After the discovery made by Dr. Hutton, has any scholar been deputed to carry out investigations in Assam in the field of anthropology?

آنریبل مولانا ابوالکلام آزاد : اس کیلئے نوٹس کی ضرورت ہے -

**The Honourable Maulana Abul Kalam Azad:** I would like to have notice of that question.

**Shri O. V. Alagesan:** Will Government consider the desirability of taking under the control of the Archaeological Department, in addition to important ancient monuments, important sites also like the birth place of Shri Krishna in Mathura?

**Mr. Speaker:** The honourable member need not proceed with the question, because it is a suggestion for action.

श्रीमती जी दुर्गाबाई : क्या मैं आनरेबल मिनिस्टर से यह जान सकती हूँ कि जो चीजें इन पांच छः जगहों में मिली हैं वे सब इक्ठ्ठा की गयी हैं और की गयी हैं तो कहाँ रखी गयी हैं ?

**Shrimati G. Durgabai:** May I know from the Honourable Minister whether all the articles which have been excavated from these five places have been collected at one place; and if so, at what place?

آنریبل مولانا ابوالکلام آزاد : مختلف جگہوں میں ان کا کام جاری ہے آخری انتظام انکا ابھی تک نہیں ہو سکا ہے -

**The Honourable Maulana Abul Kalam Azad:** The work in this direction is already in progress at different places. No final arrangements in this respect could however, possibly be made by this time.

**Srijut Rohini Kumar Chaudhuri:** Is it a fact that Dr. Girja Shankar Guha visited Assam and he had reported that there was a large field for research in anthropology in Assam?

آنریبل مولانا ابوالکلام آزاد : یہ میرے عام میں نہیں ہے - اس کے لئے نوٹس کی ضرورت ہے -

**The Honourable Maulana Abul Kalam Azad:** This is not within my knowledge. I would like to have a notice for that.

श्री एच० वी० कामत : क्या इन तमाम खुदाई के कामों को स्थगित करके जो वचत हो उसको जनता के अन्न और वस्त्र के प्रबन्ध के लिये उपयोग में लाने की तजवीज माननीय शिक्षामंत्री के.....

**Shri H. V. Kamath:** Has the Honourable Minister in view any such proposal for the postponement of all these excavation works and utilize the amount thus saved for the provision of food and clothing for the masses?

**Mr. Speaker:** It is only a suggestion for action.

**Shri H. V. Kamath:** The question is, whether there is such a proposal before Government?

**Mr. Speaker:** Whatever the form of it, in substance it is a suggestion for action.

#### LOANS TO JAMMU AND KASHMIR STATE

\*353 { **Shri Lakshminarayan Sahu**  
**Sardar Hukam Singh**  
**Shri Satis Chandra Samanta**

(a) Will the Honourable Minister of States be pleased to state the amount of money that has been advanced as loan to the Government of Jammu and Kashmir by the Government of India?

(b) Do Government contemplate to advance any further loans to the Government of Jammu and Kashmir and if so, what is the amount proposed to be advanced as loan?

**The Honourable Sardar Vallabhbhai Patel:** (a) I invite the honourable member's attention to the reply I gave earlier to Shri M. Ananthasayanam Ayyangar on the same subject.

(b) It is impossible to anticipate the demands that may arise.

#### LOSS OF LIFE AND PROPERTY IN KASHMIR

\*354 { **Shri Lakshminarayan Sahu**  
**Sardar Hukam Singh**  
**Shri Satis Chandra Samanta**

(a) Will the Honourable Minister of Defence be pleased to state the date on which military operations by the Indian forces started in Kashmir?

(b) What was the date on which these operations came to a close?

(c) How many citizens of the Indian Dominion were (i) killed and (ii) injured?

(d) What is the value of the property burnt, looted and destroyed by the tribal raiders and the Pakistan Army?

(e) What is the number of houses looted and destroyed by the raiders and the regular Army of Pakistan?

(f) What is the number of men and women kidnapped?

(g) What steps are the Government of India taking to recover these abducted men and women?

**The Honourable Sardar Baldev Singh:** (a) 27th October, 1947.

(b) The cease fire order was carried out by Indian troops all along the front in Jammu and Kashmir on the midnight of January 1, 1949.

(c) As regards the figures of military casualties, I would refer the honourable member to the answer given by my colleague the Honourable Finance Minister to Starred Question No. 343, asked by Shri M. Ananthasayanam Ayyangar a short while ago. As regards civilians, although it is known that a large number of them were either killed or wounded, exact figures are not readily available.

(d) and (e). I regret information in the detail required is not available at present.

(f) I would refer the honourable member to the answer given by my colleague the Honourable the Minister for Transport to Starred Question No. 77 asked by Shri M. Ananthasayanam Ayyangar on the 2nd February, 1949.

(g) Through the good offices of the International Red Cross, a number of these persons have already been recovered. The question of establishing a separate Search Service Organisation for this area is under consideration.

#### ARREARS OF INCOME-TAX

\*355. **Prof. K. T. Shah:** (a) Will the Honourable Minister of Finance be pleased to state how much of Income-tax, Supertax and Corporation Tax is in arrears since 1944-45, 1945-46, 1946-47 and 1947-48?

(b) How many assesseees are involved in such arrears as individual tax payers, undivided joint Hindu families, partnership concerns and corporations?

(c) How many of such assesseees have left the Union of India for Pakistan and are not now chargeable to the tax by the Government of India, and how much amount is due from them on account of such arrears?

(d) What arrangements, if any, have been made between the Government of India and the Government of Pakistan for the collection of all such arrears, and their being credited to the Governments concerned?

**The Honourable Dr. John Matthai:** (a) The demand for income-tax, super-tax, and corporation tax levied in 1947-48 and all earlier years outstanding on 1st April, 1948, less amount pending settlement of double income tax relief claim is about Rs. 38 crores. Separate figures for 1944-45 to 1947-48 are not available.

(b) The information asked for is not readily available and cannot be compiled without an examination of the assessment records of the assesseees concerned.

(c) The number of assesseees who have left the Union of India for Pakistan is 1,351 and the amount of tax due from them on account of arrears is Rs. 83 lakhs.

(d) A reciprocal arrangement exists between the two Dominions where under a Collector in one Dominion shall on receipt of a certificate from an Income-tax Officer in the other, recover the amount specified in the certificate and remit it to the Income-tax Officer after deducting his expenses in connection with the recover proceedings. The honourable member is referred to sub-sections (8) to (10) of section 46 of the Indian Income-tax Act, which give effect to this arrangement.

**Prof. K. T. Shah:** May I ask, if the amount outstanding is so large as 38 crores for a period stretching over four years, is there not a danger that, in view of the great depression in the security market, there may be a serious

loss to Government in this regard, and, if so, what steps the Government are taking to safeguard against this loss?

**The Honourable Dr. John Matthai:** That is the subject of next question of my honourable friend.

**Fandit Lakshmi Kanta Maitra:** May I ask whether these 38 crores represent the total demand or does that figure represent the amount outstanding? This point was not made in the answer.

**The Honourable Dr. John Matthai:** It is the amount outstanding. It is the arrears.

**Shri L. Krishnaswami Bharathi:** As regards part (d) of the answer regarding the arrangement that exists between the two Dominions, may I know how much of this amount has been recovered under this arrangement so far and how much have we collected for the Pakistan Government?

**The Honourable Dr. John Matthai:** I knew that this question would be put to me and I examined the papers. I find that on both sides the arrangement has worked unsatisfactorily.

**Shri B. Das:** May I enquire how much of these arrears is confined to those who have declared themselves bankrupt and have left since 1947-48?

**The Honourable Dr. John Matthai:** I have no information.

**Mr. Homi Mody:** In view of the admitted delays in finalising the assessments, is the Honourable Minister prepared to consider the necessity of adequately manning the Department.

**The Honourable Dr. John Matthai:** That is a matter which is under consideration.

**Shri M. Ananthasayanam Ayyangar:** May I know, on an average, what percentage of the demand of each year is left over as arrears for the next year?

**The Honourable Dr. John Matthai:** It is very difficult to state the average figure in a matter of this kind.

**Pandit Hirday Nath Kunzru:** May I know to what extent the Income-tax Department has been strengthened in the course of this year in order to deal adequately with its duties?

**The Honourable Dr. John Matthai:** I have at present under consideration a scheme for immediately strengthening the staff of the Income-tax Department. How many have been recruited quite recently, I am not in a position to say. But I expect in the course of a month or two to be able to strengthen the Income-tax Department in a manner that would enable them to deal with this work satisfactorily.

**Shri B. P. Jhunjhunwala:** May I ask whether the assesseees have any objection to the estimated assessment of 38 crores as income-tax due from them or whether they have agreed to the assessment?

**The Honourable Dr. John Matthai:** This is our estimate of what is outstanding.

**Shri L. Krishnaswami Bharathi:** May I take that out of the 38 lakhs shown as due from those who have gone away to Pakistan, nothing has been recovered under the mutual arrangement?

**The Honourable Dr. John Matthai:** No, very little.

**Shri Deshbandhu Gupta:** May I know if Government have got figures of the debts which the Pakistan nationals who have left India owe to the nationals of India?

**The Honourable Dr. John Matthai:** I understand, no.

**Shri Deshbandhu Gupta:** Has any attempt been made to compile these figures or have Government received representations in this matter from creditors in India?

**The Honourable Dr. John Matthai:** I understand it has not been done so far.

**Shri Kishori Mohan Tripathi:** May I enquire whether out of the total income-tax demanded every year, only 10 per cent. is actually collected?

**The Honourable Dr. John Matthai:** I would like to have that looked into. I have not seen a figure of that kind so far.

**Mr. Naziruddin Ahmad:** May I know what amount out of the huge arrears has been realised since 1st April 1948?

**The Honourable Dr. John Matthai:** In view of these various questions on the subject of outstandings and the speed with which we are collecting them, probably the best way in which I can answer them is this: during the months under consideration, that is to say from April to December, 1948, our collection of outstandings has been considerably better than the collection during the corresponding period of the previous year.

#### COLLECTION OF ARREARS OF INCOME-TAX

**\*356. Prof. K. T. Shah:** (a) Will the Honourable Minister of Finance be pleased to state what steps, if any, have been taken to secure the payment of Income-tax, Supertax and Corporation Tax, which have fallen into arrears or are due for collection, and how far those arrangements have proved effective?

(b) What are the reasons for the existence of such arrears?

**The Honourable Dr. John Matthai:** (a) Steps taken to collect taxes in arrear—  
(1) Penalties under section 46 (1) were imposed at progressive rates where demands were not paid in time and certificates under section 46 (2) were issued to the Collectors where the demands were still unpaid.

(2) Provincial Governments were addressed by this Ministry to issue instructions to the Collectors to expedite the recovery of taxes in cases covered by the certificates mentioned above.

(3) The Indian Income-tax Act was amended in 1948 to enable Income-tax Officers without the intervention of any revenue authority or a court to collect the taxes direct from the defaulter's debtors; and this provision has been made use of in several cases.

(4) Action was taken in several cases under the Payment of taxes (Transfer of Property) Ordinance, 1948 (XXI of 1948) issued in 1948.

(5) The Central Board of Revenue specially deputed the officers of the Directorate of Inspection to the various provinces to speed up collection and to see that coercive measures had been taken in appropriate cases.

A sum of 15.76 crores was collected on account of arrears between the months of April, 1948 and December, 1948.

(b) The existence of arrears is due, to the collection of taxes having to be kept in abeyance pending the disposal of appeals, to the migration of Muslim assesseees to Pakistan, to the migration of assesseees to States, to the voluntary liquidation of private companies, and to non-resident assesseees not possessing in India sufficient assets from which the tax demanded from them could be easily collected.

**Prof. K. T. Shah:** May I ask if the Honourable Minister will tell us what, if any, loss has so far been incurred to the knowledge of the Department out of the assesseees having failed or been unable to pay their arrears?

**The Honourable Dr. John Matthai:** I would like to have notice of that question.

**Prof. K. T. Shah:** Is he aware that there is a chance, in view of the serious situation that has occurred in the last two years of outstandings being impossible to be recovered from the assesseees?

**The Honourable Dr. John Matthai:** I am very well aware of that problem, Sir.

**Mr. Speaker:** The question hour is over.

### (B) WRITTEN ANSWERS

#### R. S. S. VOLUNTEERS ARRESTED, DETAINED AND CONVICTED IN CENTRALLY ADMINISTERED AREAS

**\*357. Shri Mahavir Tyagi:** (a) Will the Honourable Minister of Home Affairs be pleased to state the total number of persons arrested, detained or convicted in the Centrally Administered Areas in connection with the movement started recently by the R. S. S.?

(b) Is it a fact that the said movement has now been withdrawn?

(c) If so, what is the policy of Government with regard to the release of the persons under arrest?

**The Honourable Sardar Vallabhbhai Patel:** (a) 2,200, 185 and 1,814 respectively.

(b) Yes.

(c) The following policy is being followed:

(i) All students, whether detenus or convicts, should be released with the exception of only those who were actively organising the Sangh activities. In the case of those who were convicted, the sentences should be remitted, and not merely suspended.

(ii) No consideration whatsoever should be shown to Government servants involved in R.S.S. activities.

(iii) In respect of other categories of prisoners including detenus, there should be no general jail delivery, but those who give an undertaking of good behaviour for the future should be released. Also, those below the age of 18 should be released even without an undertaking (their sentences being either remitted or suspended at the discretion of the Provincial Government).

(iv) Pending trials should be completed in the normal course except in the case of students in whose cases the prosecution should be withdrawn.

#### UTILISATION OF BUILDING MATERIALS OF UNOCCUPIED MILITARY BARRACKS AND OTHER STRUCTURES

**\*358. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Defence be pleased to state whether Government are aware that a large quantity of cement and corrugated iron sheets are lying unused in military barracks and other structures built for Defence Department which are lying unoccupied?

(b) What is the total area of the building space thus lying unused?

(c) What steps have Government taken for the early utilization of all the building material which is lying unused in this way?

**The Honourable Sardar Baldev Singh:** (a) There is always a certain amount of cement and corrugated iron sheets in stock in various places awaiting to be

used on some work or other. The exact quantities are not readily available but I have no reason to believe that they are excessive.

(b) The question is not clear. If the honourable member wishes to know how much space is used for storing cement and corrugated sheets I am sorry the information is not available.

(c) Building materials are bought and used as and when required. Construction cannot be undertaken simply because building materials may be available. Any material which is not likely to be required in the near future is disposed of. For example some unwanted black corrugated iron sheets have been declared surplus to the Director General of Disposals for sale.

#### PLOTS OF LAND TO GOVERNMENT SERVANTS' CO-OPERATIVE SOCIETIES

**\*359. Giani Gurmukh Singh Musafir:** (a) Will the Honourable Minister of Health be pleased to state whether Government are aware that questions have been asked in the Constituent Assembly (Legislative) during the last two years regarding the grant of plots of land to Government Servants Co-operative Societies for building residential quarters?

(b) Are Government also aware that in about 1940-41 the late Education, Health and Lands Department sanctioned a scheme for the sale of 400 or 500 plots of lands near Old Fort to Government servants at reasonable rates, which was postponed for the duration of the war and has not been revived?

(c) Are Government further aware that Provincial Governments (e.g., United Provinces, Bombay and Madras) have given great relief to their Government servants by allotting them plots of land on concessional rates for residential purposes alongwith their refugees whereas the Government of India have done nothing so far for their Government servants?

(d) Have Government come to any decision on the question of granting plots of land in New Delhi for residential purposes to Government Servants Co-operative Societies?

**The Honourable Rajkumari Amrit Kaur:** (a) Yes.

(b) No such order appears to have been issued by Government.

(c) It is understood that the Government of the United Provinces have not allotted plots of land at concessional rates to Government servants for residential purposes. The Governments of Bombay and Madras, who have also been addressed for information on this point have not yet replied.

(d) The Delhi Improvement Trust has under consideration schemes for the allotment of land to Co-operative Housing Societies including those of Government servants. They will be asked to expedite a decision but I may mention that developed land at present available with the Improvement Trust for allotment is limited.

#### PUBLICITY AMONG VILLAGERS OF GOVERNMENT'S PRESENT POLICY REGARDING RECRUITMENT TO ARMY

**\*360. Babu Ramnarayan Singh:** Will the Honourable Minister of Defence be pleased to state whether Government have acquainted the people in the villages with Government's present policy of opening military service to all classes of Indian nationals without any distinction, and if so, how?

**The Honourable Sardar Baldev Singh:** Yes, Government have given wide publicity to the policy of admitting all classes of people without any distinction whatsoever to the Armed Forces of this country. This has been done through the press and recruiting organisations. Publicity to this policy is also given

682

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [14TH FEB. 1949]

at the Recruiting Rallies and ex-servicemen's Re-unions. Government have also opened additional recruiting centres in the areas which have, in the past, contributed only a small number of recruits to the Armed Forces.

#### AGENCY COLLECTING INFORMATION RE GRIEVANCES OF EX-MILITARY MEN

**\*361. Babu Ramnarayan Singh:** Will the Honourable Minister of Defence be pleased to state whether there is any official or non-official agency or agencies to collect information regarding the grievances of ex-military men and to forward it to Government and if so, how is the agency constituted?

**The Honourable Sardar Baldev Singh:** As the House is no doubt aware, there is the Sailors', Soldiers' and Airmen's Board Organisation the main task of which is to look after the interests of ex-servicemen and their families. This organisation consists of a Central Board, 9 Provincial Boards, 136 District Boards and 30 State Boards. Brief details of this organisation are given in a pamphlet recently published by the Indian Sailors', Soldiers', and Airmen's Board, a copy of which is available in the library of the House.

In addition, a Defence Organisation has now been set up in the Ministry of Relief and Rehabilitation for looking after the interests of all displaced service and ex-service personnel. Regimental Centres and personnel of the Recruiting Organisation also keep in touch with ex-servicemen and afford them all possible assistance and advice. Cases requiring the attention of Government are referred to the proper authorities.

#### CANTONMENT BOARD AT RAMGARH, BIHAR

**\*362. Babu Ramnarayan Singh:** Will the Honourable Minister of Defence be pleased to state whether any Cantonment Board has been established at Ramgarh in the district of Hazaribagh, Bihar and if so, what is the constitution of the same, and if not, why not?

**The Honourable Sardar Baldev Singh:** Yes. As regards the composition of the Board, I lay a statement on the table of the House.

#### STATEMENT

The Cantonment Board at Ramgarh consists of the members :—

- (a) The Officer Commanding the Station;
- (b) A Magistrate of the First Class nominated by the District Magistrate;
- (c) The Health Officer;
- (d) The Executive Engineer;
- (e) Four military officers nominated by the Officer Commanding the Station;
- (f) Six elected members; and
- \*(g) One non-Official nominated by the Central Government under Section 17(2)(c) of the Cantonment Act.

\*This was necessitated by the fact that no valid nomination papers were filed by one of the wards in Ramgarh at the election.

#### MILITARY RECRUITING CENTRES IN BIHAR

**\*363. Babu Ramnarayan Singh:** Will the Honourable Minister of Defence be pleased to state whether there are any military recruiting centres in Bihar and if so, how many and where?

**The Honourable Sardar Baldev Singh:** There are three Recruiting Centres in Bihar, one each at Patna, Ranchi and Muzaffarpur.

#### REMOVAL OF MONEY FROM HYDERABAD BY MR. SYDNEY COTTON

**\*364. Shri Biswanath Das:** Will the Honourable Minister of States be pleased to state:

- (a) whether Government have made any investigation as to:
  - (i) the total amount of money spent by Laik Ali Ministry in Hyderabad in the course of its year of existence for war preparations, for propaganda within India and outside India; and if so what; and
  - (ii) the persons as also agencies or institutions or firms, if any, who have received such sums of money each separately under the above three heads; and
- (b) whether Government have inquired about the truth of the allegation that a large amount of money, including gold and silver, was removed from Hyderabad by Mr. Sydney Cotton in his return flights to Karachi?

**The Honourable Sardar Vallabhbhai Patel:** (a) (i) Yes. From the information so far available, a total of about Halli Sicca Rupees 9 crores and fifteen lakhs was spent. (H.S. Rs. 116-10-8 is equivalent to I.G. Rs. 100).

(ii) It is not in the public interest to disclose this information.

(b) A physical remittance of I.G. Rs. one crore from the State paper Currency Reserve, was effected to Karachi through Mr. Cotton in September, 1948. No other information is available.

#### POLICY RE CONSTRUCTION OF MORE HOUSES

**\*365. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Health be pleased to state what is the policy of Government with regard to the construction of more houses?

(b) What steps have they taken to encourage private persons in this regard?

(c) What facilities have Government given so far as availability of steel, cement, iron and wood are concerned to private individuals?

**The Honourable Rajkumari Amrit Kaur:** (a) Government desire the largest possible number of houses to be constructed and made available as soon as possible to the public on reasonable rent.

(b) The question of encouraging private persons in the matter of construction of more houses is primarily the responsibility of the Provincial Government. Details of the steps taken by Provinces in this regard are not readily available. Private schemes for the provision of healthy houses at a reasonable rent which come to the notice of the Government of India receive assistance from the Department of Housing in the form of technical advice and recommendations to the appropriate authorities for the allotment of materials in short supply.

(c) The responsibility for making these materials available to private individuals for building houses rests with the Provincial Governments. Quotas of these articles are placed at the disposal of the Provincial Governments and the distribution of these quotas to private individuals is entirely at their discretion.

#### UNSTARRED QUESTIONS AND ANSWERS

##### MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF DEFENCE

**8. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Defence be pleased to state the number of meetings of the Standing Committee for the Ministry of Defence held during the calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Sardar Baldev Singh:** (a) Seven.

(b) I lay a statement on the table of the House.

#### STATEMENT

The total number of members is ten. The attendance at each meeting is as follows:

|             |   |
|-------------|---|
| I meeting   | 5 |
| II meeting  | 6 |
| III meeting | 6 |
| IV meeting  | 9 |
| V meeting   | 6 |
| VI meeting  | 7 |
| VII meeting | 6 |

#### MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF EDUCATION

**9. Mr. R. K. Sidhva:** (a) Will the Honourable Minister of Education be pleased to state the number of meetings of the Standing Committee for the Ministry of Education held during the calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Maulana Abul Kalam Azad:** (a) Two.

(b) Total number of members on the Standing Committee of the Legislature on Education is ten, out of which seven attended the first meeting held in April and eight attended the second meeting held in August, 1948.

#### MEETINGS OF STANDING FINANCE COMMITTEE

**10. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Finance be pleased to state the number of Standing Finance Committee meetings held during the calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Dr. John Matthai:** (a) and (b). A statement showing the particulars asked for is laid on the table of the House.

#### STATEMENT

*Finance Committee were held and the number of members who attended the Meeting.*

| S. No. | Date        | Number of members present out of the total of 14. |
|--------|-------------|---------------------------------------------------|
| 1      | January 26  | 9                                                 |
| 2      | January 29  | 12                                                |
| 3      | February 24 | 6                                                 |
| 4      | February 25 | 10                                                |
| 5      | March 7     | 7                                                 |
| 6      | March 21    | 12                                                |
| 7      | March 22    | 9                                                 |
| 8      | March 31    | 9                                                 |
| 9      | April 7     | 11                                                |
| 10     | May 21      | 13                                                |
| 11     | August 14   | 13                                                |

#### MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF HEALTH

**11. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Health be pleased to state the number of meetings of the Standing Committee for the Ministry of Health held during the calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Rajkumari Amrit Kaur:** (a) Four. On 6th March, 1948, 8th August, 1948, 6th September, 1948 and 5th December, 1948.

(b) The total number of members is ten. There has never been a full attendance at meetings of the Committee. The attendance at the first meeting was six, at the second four, at the third four and at the fourth five.

#### MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF INFORMATION AND BROADCASTING

**12. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state the number of meetings of the Standing Committee for the Ministry of Information and Broadcasting held during the calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Shri R. R. Diwakar:** (a) Three.

(b) The total number of members is 10. Attendance at each meeting was as follows:

1st meeting—six.

2nd meeting—seven.

3rd meeting—eight.

#### MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF STATES

**13. Shri R. K. Sidhva:** (a) Will the Honourable Minister of States be pleased to state the number of meetings of the Standing Committee for the Ministry of States held during the calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Sardar Vallabhbhai Patel:** (a) Two.

(b) The total number of members is Ten. The attendance was three at the first meeting and six at the second meeting.

#### EXPENDITURE ON POST-WAR RECONSTRUCTION SCHEMES

**14. Shri Lakshminarayan Sahu:** Will the Honourable Minister of Finance be pleased to state what is the total amount of money spent on each item of work under Post-war Re-construction Schemes during the year 1948 and the previous year under the following heads and in what places or provinces the works were undertaken: (i) Railways; (ii) Roads; (iii) Irrigation Projects; (iv) Hydro-electric Projects; (v) Capital construction; (vi) Ship-building yards; (vii) Aerodromes; (viii) Agricultural farms; and (ix) Scientific Research?

**The Honourable Dr. John Matthai:** The necessary information is being collected and will be laid on the table of the House in due course.

#### EXPENDITURE ON CONFERENCES, COMMITTEE MEETINGS AND DELEGATIONS

**15. Prof. K. T. Shah:** Will the Honourable Minister of Finance be pleased to state what was the actual expenditure incurred in respect of (i) officials and (ii) non-officials on account of their attending Conferences or Committee Meetings or Delegations of the Government of India in or outside India in the years 1945-46, 1946-47 and 1947-48?

**The Honourable Dr. John Matthai:** The information asked for is being collected from the various Ministries. A statement will be laid on the table of the House as soon as information received is complete.

#### BOOK VALUE OF STORES IN VARIOUS MINISTRIES

**16. Prof. K. T. Shah:** Will the Honourable Minister of Finance be pleased to state what is the book value of the Stores in the several Ministries of the Government of India?

**The Honourable Dr. John Matthai:** The effort involved in collecting the figures will not be commensurate with the advantage gained.

#### SHORT NOTICE QUESTION AND ANSWER

##### SHRI C. RAJAGOPALACHARI'S OPINION AND APPEN. FROM ALL-INDIA ANTI-HINDU CODE COMMITTEE

**Shri L. Krishnaswami Bharathi:** Will the Honourable the Prime Minister be pleased to state:

(a) whether the attention of Government has been drawn to a printed appeal from the All-India Anti-Hindu Code Committee, Calcutta, received by the honourable members of the House, containing what purports to be the 'opinion' of His Excellency Sri C. Rajagopalachari, Governor General of India, against the Hindu Code Bill; and

(b) whether the whole or any part of the said opinion was made by H.E. Sri C. Rajagopalachari, at any time?

**The Honourable Sardar Vallabhbhai Patel** (Minister for Home Affairs and the States): (a) Yes.

(b) The Governor General has expressed no such opinion as is attributed to him. In fact, on Saturday last, we have received a telegram from the Secretary of the All-India Anti-Hindu Code Committee, Calcutta, which reads as follows:

Opinion of C. R. Rajagopalachari, Advocate, Madras mistaken for present Governor General's opinion. No fraud meant. Misrepresentation regretted.

Since then a detailed letter confirming the telegram was received by the Honourable Whip, which he will read to the House.

**The Honourable Shri Satyanarayan Sinha:** With your permission Sir, this is the letter which I have received from the Secretary in reply to the statement which I had issued the other day and honourable members must have seen it. He says:

"Dear Sir, with reference to the statement issued by you on the 11th of February, regarding the alleged opinion of His Excellency the Governor General on the Hindu Code Bill, I beg to explain that the mistake arose out of the fact that on page 370 of the written statement submitted to the Hindu Law Committee, Volume 2, printed by the Superintendent, Government Press, Madras, the opinion of Mr. C. R. Rajagopalachari, Advocate, Madras, was printed. From the similarity of name, a mistake was made that it was the opinion of the present Governor-General before he was appointed as such. It was a *bona fide* mistake and not a case of fraud. The mistake is greatly regretted.

Yours sincerely".

**Shri Deshbandhu Gupta:** May I know, Sir, if Government are satisfied that other opinions that are being circulated by this organisation.....

**Mr. Speaker:** Order, order.

## CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES.

### (PART I QUESTIONS AND ANSWERS).

Tuesday, 15th February, 1949.

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS.

#### (a) ORAL ANSWERS.

##### PURCHASE OF FOREIGN TINNED FOODSTUFFS

**\*366. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Food be pleased to refer to the answer to part (b) of my starred question No. 222 asked on the 16th August, 1948, regarding the purchase of tinned vegetables, fruit and milk powder from foreign countries and state whether efforts have been made to procure such articles from India?

(b) Is it a fact that sufficient quantity of tinned vegetables and food products are manufactured in India and sold at cheaper prices than foreign articles?

(c) What was the total quantity of such food products purchased by Government during 1948 and what was the cost thereof?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes.

(b) No.

(c) The total quantities of tinned vegetables, tinned fruits and milk powder accepted for Defence Services during 1948 were as under:

*Tinned vegetables including potatoes.*—About 650 tons valued at approximately Rs. 9 lakhs.

*Tinned fruit.*—About 150 tons valued at approximately Rs. 3 lakhs.

*Milk Powder.*—About 200 tons valued at approximately Rs. 2 lakhs.

**Shri R. K. Sidhva:** Arising out of part (b), may I know, Sir, whether the All India Fruit Preservers Association had made representation to the Government that they can supply these tinned fruits in any quantity as they wanted?

**The Honourable Shri Jairamdas Doulatram:** They had made a representation; but they were not able to come up to the specification of quality required by the Defence Services. We placed an order for 818 tons with them; but they were able to supply only 288 tons of the requisite quality.

**Shri R. K. Sidhva:** Is it not a fact that they stated that they can comply with the Indian Army specification and if so may I know whether that offer was accepted or rejected?

**The Honourable Shri Jairamdas Doulatram:** The Health Specialist of the Army tests the quality of the stuff which they accept. They did not accept

that as coming up to the specification. As a matter of fact, we have to pay, a higher price for the Indian product. We had to pay five lakhs of Rupees for the 288 tons which we accepted from the Indian manufacturers. For the 363 tons which we had to import from outside, a larger quantity, we paid four lakhs of Rupees.

**Seth Govind Das:** Are the Government contemplating to stop the import of milk powder from foreign countries?

**The Honourable Shri Jairamdas Doulatram:** No.

**Seth Govind Das:** Have they received any representation in this respect from the different dairy farms and different *goshalas* that import of foreign milk powder should be stopped?

**The Honourable Shri Jairamdas Doulatram:** Yes. But the defence services requirements are for what is called the spray drying process powder; they do not accept what is called roller drying process which is at present used in India. Spray drying processed powder is more soluble in water and therefore the defence services requirements cannot be met from what is produced in this country.

**Seth Govind Das:** Is there any factory in India which can prepare such milk powder here?

**The Honourable Shri Jairamdas Doulatram:** Not at present in any large quantity.

**Prof. N. G. Ranga:** Have the Government of India considered the possibility of starting a factory like that?

**The Honourable Shri Jairamdas Doulatram:** The Government have not considered.

**Shri R. K. Sidhva:** Is it not a fact, Sir, that this Association told the Government that they are prepared to give all facilities to the Government if they are prepared to start a factory?

**The Honourable Shri Jairamdas Doulatram:** In this matter we are entirely in the hands of the Health Specialist of the Defence Department.

**Shri H. V. Kamath:** Are even such fruits and vegetables imported from abroad, as are grown abundantly in India?

**The Honourable Shri Jairamdas Doulatram:** No such fruits and vegetables are imported into India by Government.

#### ISSUE OF LICENCES BY AIR TRANSPORT LICENSING BOARD

\*367. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state the procedure adopted by the Air Transport and Licensing Board while considering the applications of various airways companies for grant of licences?

(b) Is the concerned party called in person to explain in case of doubts?

(c) Who holds the licence for Bombay/Bangalore service, when was it granted and since when is the service actually in operation?

(d) What is the total number of passengers carried by the licensee and what is the percentage of passengers carried as compared with the capacity of the planes during the year 1948?

(e) Is it a fact that the Air Services of India refused to accept a provisional licence for the said route? If so, what are the reasons for refusal?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) The procedure adopted by the Air Transport Licensing Board for considering the

applications of various companies for the grant of licences for the operation of air services is laid down in Part XIII of the Indian Aircraft Rules, 1937, particularly rules 137 to 148.

(b) Yes, Sir.

(c) A licence for the operation of the Bombay-Bangalore service was granted to Messrs. Ambica Airlines on the 5th June, 1948. The service commenced operation on the 8th July, 1948.

(d) The total number of passengers carried by the licensee during 1948 was 3046. This was 77 per cent. of the capacity of the aircraft operated on the service.

(e) Yes, Sir. The Air Services of India Limited, considered the volume of traffic offering on the route to be inadequate for economic operation having regard to the frequencies already operated on the route by other companies.

**Shri R. K. Sidhva:** May I know whether any favouritism or consideration was shown by this Licensing Board in granting licence to a particular firm?

**Shri Khurshed Lal:** No, Sir. The Air Transport Licensing Board is a statutory Board and they conduct their proceedings according to rules.

**Shri R. K. Sidhva:** May I know whether any official was offered a motor car for the purpose of granting a licence?

**The Honourable Mr. Rafi Ahmad Kidwai:** That may come out in the proceedings.....

**Mr. Speaker:** Order order.

**Shri R. K. Sidhva:** I am putting a direct question, Sir.

**Mr. Speaker:** The question may be a direct one; but it contains an allegation. The honourable member must hold himself responsible for what he says and he must also remember that the person against whom the allegation is made is not present here.

**Shri R. K. Sidhva:** His name is not mentioned. It is a fact, Sir, let the Honourable Minister deny it.

**Mr. Speaker:** If it is a fact, he must go to the Honourable Minister and ascertain the facts and proceed with the enquiry. It is very easy to spread allegations of various types in this House under cover of the protection which the honourable member and others get. It is not a proper practice to put any question like that unless the honourable member has ample evidence in his possession, has seen the Honourable Minister on the point, and has satisfied himself about the truth or falsehood of the allegation.

**Shri R. K. Sidhva:** Is it not a fact, Sir, that the Government have taken steps in this direction?

**Mr. Speaker:** In what direction?

**Shri R. K. Sidhva:** They have prosecuted somebody.

**Mr. Speaker:** Then, he may ask that question.

**Shri R. K. Sidhva:** Has the Government prosecuted any officer of the Licensing Board?

**Shri Khurshed Lal:** The Secretary of the Air Transport Licensing Board has been prosecuted. The case is *sub-judice*. I cannot say anything more about it, now.

**Mr. Frank Anthony:** Have any Air Transport licences been cancelled recently?

**Shri Khurshed Lal:** I do not know.

**Pandit Lakshmi Kanta Maitra:** In granting licences, what are the conditions that weigh with the Government? What are the factors taken into consideration before a licence is issued?

**Shri Khurshed Lal:** All that is contained in the Rules.

**Pandit Lakshmi Kanta Maitra:** What are the conditions? I want to know whether the fact that a particular line is not remunerative is a consideration?

**Shri Khurshed Lal:** That is one of the considerations which the Air Transport Licensing Board takes into account.

**Pandit Lakshmi Kanta Maitra:** Is it the policy of the Government that in matters of civil aviation, the Government grants some form of subsidy for such air routes as is done in all countries, particularly the United Kingdom and the United States of America?

**Shri Khurshed Lal:** No subsidies are granted at present.

**Mr. Speaker:** Next question.

**Babu Ramnarayan Singh:** Only one question, Sir. In matters of ascertaining truth about corruption, may I know whether we can get facilities from the Ministries to get at the truth?

**Mr. Speaker:** Order, order. Next question.

#### ALL INDIA MAIN WIRELESS CONTROL CENTRE FOR AEROPLANES

**\*363. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state whether it is a fact that before partition, Karachi civil aerodrome was considered as the main centre for wireless control of movements of aeroplanes for all India?

(b) Is it a fact that the Karachi Wireless station still functions for such purposes for both India and Pakistan?

(c) Do Government, in view of partition, intend to have their own separate All-India Main Centre for wireless control of the movements of aeroplanes for commercial civil aviation?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) No, Sir. Karachi was the centre for wireless transmissions from points in India intended for countries in the Middle East only. The messages originating in India and destined for countries in the Far and North East were directed via Calcutta.

(b) Messages intended to points in the Middle East are still routed through Karachi. A direct link exists between Bombay and Dahrán and a link between Bombay and Cairo will be opened shortly.

(c) For purposes of commercial civil aviation, Wireless networks emanating from a particular airport are planned in consideration of the pattern of air routes served by that airport. A single main centre for wireless movement would not therefore serve the purpose adequately. Based on this principle, Calcutta has been provided with the necessary links with countries in the Far and North East. As stated in reply to part (a), Bombay has already a link with Dahrán and it is proposed to connect it with Cairo shortly. It is considered that these links would adequately serve the air routes to the West.

**Shri H. V. Kamath:** What attempts have been made by the Ministry to obtain the latest and most up-to-date radar apparatus?

**Shri Khurshed Lal:** Does that arise of this, Sir?

**Shri H. V. Kamath:** It is to control movements of aeroplanes, Sir, if the Minister knows about it.

**Mr. Speaker:** Order, order. Next question.

#### REPORTING BY PUBLIC OF CASES OF CORRUPTION ON RAILWAYS

**\*369. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that at the G. I. P. Railway Advisory Committee meeting held at Kanpur on the 19th October 1948, a member stated that the public and traders would be prepared to report specific and concrete cases of bribery and corruption provided the Chairman guaranteed protection to the giver of bribes?

(b) Is it a fact that the Chairman refused to give such a guarantee?

**The Honourable Shri K. Santhanam:** (a) Yes.

(b) Yes, for obvious reasons such a guarantee could not be given. After a general discussion of the subject at the meeting, it was, however, agreed that any concrete cases reported by any member of the Local Advisory Committee would be dealt with in such manner as will not place that member in an embarrassing position. A general assurance has also been given to the trading community through the Press that those who assist the Railway in their campaign against corruption will in no way be harassed.

**Dr. P. S. Deshmukh:** Is there any guarantee for protection available to takers of bribe?

**Mr. Speaker:** Order, order.

**Shri R. K. Sidhva:** The Honourable Minister stated that for obvious reasons it could not be given. May I know what these obvious reasons are?

**The Honourable Shri K. Santhanam:** The reason is he could not give complete immunity for all people who gave bribes.

**Shri H. V. Kamath:** Was the refusal on the part of the Chairman dictated by the consideration that in law the giving of a bribe is as much an offence as the taking of it?

**The Honourable Shri K. Santhanam:** Obviously, yes.

**Shri R. K. Sidhva:** Is it a fact that two members of this Committee—Mr. Shanti Narain and Mr. Hiranmanik definitely made definite allegations about corruption before the Committee and the Chairman refused to take any notice of it in view of the promise they wanted that the bribe givers should be exempted and may I know under these circumstances do Government intend to see that public co-operation is forthcoming whether they want to take advantage or not?

**Mr. Speaker:** Is the question clear to the Honourable Minister?

**Shri R. K. Sidhva:** May I know whether in view of the two members of the Advisory Committee having made definite statement at the Committee meeting of the G. I. P. Railway Advisory Committee that they are prepared to give evidence to the effect that bribe has been taken and in view of that the Chairman stated that he is not going to give any kind of guarantee for the person who has given bribe, do Government still insist from the public co-operation that they demand.

**Mr. Speaker:** The honourable member is putting too general a question. If the member of the Committee had made any allegations, the Chairman could not give any general guarantee that the givers of bribes will be exempted.

**Shri M. Tirumala Rao:** Is there any agency attached to each Railway to detect the crimes secretly and if so, is it working in conjunction with the Railway Police?

**The Honourable Shri K. Santhanam:** There is a Department attached to each Railway and when cases occur, both departmental action as well as prosecution is taken against the person alleged.

**Srijit Rohini Kumar Chaudhuri:** Has the Honourable Minister ascertained the legal position whether protected or not, the evidence of the bribe giver will be the evidence of an accomplice?

**Mr. Speaker:** We are entering into a discussion. Next question.

#### CLOTH CONTROL POLICY

**\*370. Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Industry and Supply be pleased to state how far the policy in respect of control of cloth announced by the Government of India during the last session of the Legislature has been implemented in the different Provinces and States of India?

**The Honourable Dr. Syama Prasad Mookerjee:** The policy of control announced in July last had the concurrence of all Provincial and State Governments. All Provincial and State Governments are giving effect to that policy. Under the policy in force at present control over production and ex-mill prices rests with the Central Government while the fixation of retail prices of cloth and yarn within 20 per cent. of ex-mill prices and their distribution to the consumers within their respective jurisdictions are the responsibility of the Provincial and State Governments concerned. All of them have appointed agents to purchase and lift their quotas from production centres and have taken necessary action for the fixation of retail prices. They have also arranged for the controlled distribution of cloth and yarn to consumers through licensed trade channels and Co-operative Societies.

**Seth Govind Das:** Is it a fact that since the control of cloth, great accumulations of cloth have occurred in various places and what the Government are doing to remove those accumulations?

**Mr. Speaker:** The matter was answered I believe about four days back. Perhaps the honourable member was not present then.

**Shri H. V. Kamath:** What steps have been taken by Government to eliminate blackmarketing in cloth which seems to be an inevitable concomitant of control?

**Pandit Lakshmi Kanta Maltra:** May I ask in the case of Provincial Governments not taking this quota, what was the way by which the mill owner was to dispose of this stock which was earmarked for particular provinces?

**Mr. Speaker:** I think it would be hypothetical in view of the answer already given and the figures supplied.

**Shri R. K. Sidhva:** May I know whether he has considered the question of giving more licenses so that stocks could be released?

**The Honourable Dr. Syama Prasad Mookerjee:** Instructions have been issued to Provincial Governments that they should grant more licenses so that there may not be any accumulation of cloth within the province and I am receiving replies from the Premiers which show that necessary steps are being taken.

**Shri B. P. Jhunjhunwala:** What is the margin of profit the Government allows in fixing the prices of cloth to mill-owners?

**The Honourable Dr. Syama Prasad Mookerjee:** According to the Tariff Board Report I think it is about 6 per cent. profit and the usual depreciation charges on the written value of the stocks.

**Prof. N. G. Ranga:** What has been the experience of the Government with the Co-operative Societies? Have they been able to take all the cloth that has been allotted to them?

**The Honourable Dr. Syama Prasad Mookerjee:** The experience of Government is of a mixed character.

**Seth Govind Das:** Is the rumour in the markets that the Government is going to remove this cloth control true in any way?

**The Honourable Dr. Syama Prasad Mookerjee:** There is no intention to remove the cloth control.

#### FIXATION OF PRICES OF CLOTH

**\*371. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Industry and Supply be pleased to state when and on what basis the *ad hoc* prices for super-fine, fine, medium and coarse cloth were fixed by the Government of India?

(b) Why were these prices fixed at a very high level and are Government aware that there is strong resentment among the public against this?

(c) Do Government contemplate to revise these rates and bring them down to a reasonably low level and if so, when and on what basis?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The *ad hoc* prices were fixed from the 1st August 1948 simultaneously with the reimposition of control on textiles. The recommendations of the Tariff Board had not been fully examined at that stage. The prices were fixed on the basis of the cotton prices and the costs of production prevailing at that time. They correspond very closely with the Tariff Board's recommendations. Since then, the recommendations of the Tariff Board have been received and prices have been revised in accordance with their recommendations.

(b) I cannot agree that the *ad hoc* prices were unreasonably high, particularly in view of the fact that the prices had to be based on the very high price at which Mills had had to purchase cotton during the period of decontrol.

I am not aware that there is any resentment among the people.

(c) The price of cloth depends largely on the price of raw cotton, and to a smaller extent, on wages, fuel and mill-stores. The profit element in the prices fixed by the Tariff Board is small and not capable of reduction. A fall in cloth prices will therefore follow only on a fall of raw cotton prices, and wage levels.

**Dr. P. S. Deshmukh:** Is the Honourable Minister aware that the cotton growers are complaining of unusually low prices as compared with the prices which are charged for the cloth?

**The Honourable Dr. Syama Prasad Mookerjee:** Will it be relevant?

**Mr. Speaker:** Yes.

**The Honourable Dr. Syama Prasad Mookerjee:** I have received some complaints that the ceiling and floor prices of cotton fixed by Government are not quite fair. We have considered the matter very carefully and we do not propose to make any readjustments so far as the present year stocks are concerned but the matter will be examined before the next sowing season starts and we shall consult the Provincial Governments and producers interests as well.

**Shri T. A. Ramalingam Chettiar:** Is the Government aware that the areas under cotton have been reduced this year?

**The Honourable Dr. Syama Prasad Mookerjee:** The area has not been reduced but unfortunately the forecast is while about 28 lakhs of bales were expected, we expect about 22 to 23 lakhs of bales only.

**Pandit Hirday Nath Kunzru:** Are Government already considering proposals for raising cotton prices?

**The Honourable Dr. Syama Prasad Mookerjee:** No.

**Shri H. V. Kamath:** Have any representations been received from cotton growers of C.P. and Berar or from C.P. Government in this regard?

**The Honourable Dr. Syama Prasad Mookerjee:** So far as prices of *Kapas* is concerned, it is not controlled. The control relates to the cotton after it has been ginned. In C.P. *Kapas* is being sold at prices which is considered to be fairly high.

**Prof. N. G. Ranga:** Is not it a fact that the Indian Central Cotton Committee itself has protested against the present policy of Government in regard to the cotton price?

**The Honourable Dr. Syama Prasad Mookerjee:** We have received certain representations from the Indian Central Cotton Committee and those have been taken into consideration.

**Pandit Lakshmi Kanta Maitra:** Is the price of Indian cotton lower than the price of cotton from Pakistan?

**The Honourable Dr. Syama Prasad Mookerjee:** In Pakistan of course the price is much higher than in India because there is no control in the other Dominion.

**Seth Govind Das:** Are Government aware that the price of *kapas* depends on the price of cotton?

**Mr. Speaker:** This is an argument.

**Shri Mahavir Tyagi:** What is the percent of margin allowed between the cost price of cloth and the market price?

**Mr. Speaker:** That is what he has stated—six per cent.

**Shri Mahavir Tyagi:** Between cost price and market price?

**The Honourable Dr. Syama Prasad Mookerjee:** There is a margin of 20 per cent. between ex-mill price and the price at which consumers pay, and the actual fixation is left to Provincial Governments.

**Shri Mahavir Tyagi:** Does the whole of this 20 per cent. profit go to the mill-owners or to the selling agents also?

**Mr. Speaker:** How can it be?

**Shri Mahavir Tyagi:** How are the profits distributed between the different categories of middlemen?

**Mr. Speaker:** I believe the millowner is out of the picture. It is only the further distribution.

**Shri Mahavir Tyagi:** The millowner also charges some profit over and above his cost price. After the six per cent. twenty per cent. more is left. I want to know where this twenty per cent. goes.

**The Honourable Dr. Syama Prasad Mookerjee:** So far as the margin between ex-mill price and the actual price fixed within this twenty per cent. is concerned, it is distributed amongst the agents who purchase and lift the stocks from the mills, amongst the agents who receive the stocks within the provinces, amongst the wholesalers and retailers through whom the stocks are distributed.

**Shri Mahavir Tyagi:** Are these agents appointed by Government or by the mills themselves?

**The Honourable Dr. Syama Prasad Mookerjee:** No agents are appointed by the mills. The Provincial Governments appoint their agents. With regard to surplus stocks, we propose to allow the mills to appoint their agents subject to previous consultations with the Provincial Government concerned.

**Prof. N. G. Ranga:** What percentage of the yarn price is accounted for by the price paid for cotton?

**The Honourable Dr. Syama Prasad Mookerjee:** I cannot give the actual figure, but it will be somewhere between 70 per cent. and 75 per cent. so far as the production of yarn is concerned.

**Shri T. A. Ramalingam Chettiar:** Have Government received the report of the Indian Central Cotton Committee meeting held at the beginning of this month?

**The Honourable Dr. Syama Prasad Mookerjee:** It has not reached me yet, but I have seen it in the papers.

**Shri Sita Ram S. Jajoo:** Are Government aware that the movement of cotton and *kapas* is restricted between certain Indian States and Provinces?

**The Honourable Dr. Syama Prasad Mookerjee:** That is so. Some provinces and States have put artificial barriers and we have pointed out to them that this should not be so and that there must be freer movement, subject to the general policy enunciated by Government.

**Shri T. A. Ramalingam Chettiar:** Has not the Indian Central Cotton Committee said that the price fixed for cotton is low and the acreage has gone down?

**The Honourable Dr. Syama Prasad Mookerjee:** I do not think, Sir, that the acreage could have gone down by the fixation of the price, because this acreage was fixed long before the prices were fixed.

**Shri Krishna Chandra Sharma:** What is the quantity of surplus stock for which millowners have appointed agents?

**The Honourable Dr. Syama Prasad Mookerjee:** There is no fixed quantity. Whatever is allotted to a particular province, that province must purchase by the end of the month following, and the surplus left will be sold through agents nominated by mills subject to consultation with the Provincial Government.

#### ALLOTMENT OF QUOTAS OF CLOTH TO PROVINCES AND STATES.

**\*372. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what basis was adopted by the Government of India in allotting quotas of different quantities of super-fine, fine, medium and coarse cloth to the various provinces and states, and what were the quotas of the different qualities of cloth allotted to each of the provinces and states?

(b) Was the basis uniformly adopted on population basis in respect of all the provinces or was any distinction made and if so, on what principle?

(c) Has the scheme for distribution of cloth in various provinces been adopted and brought into force with the approval of the Government of India and if so, are Government aware that some of the provinces have introduced rationing of cloth while others have not?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The allotment of super-fine, fine, medium and coarse cloth to Provinces and States is based on the total production of these qualities in the country and each Province and State.

is expected to take its requirements in terms of a reasonable cross section of the total production. In the actual allocations made from August 1948 to January 1949 the average percentage of the various qualities of cloth was as follows:

|           |      |
|-----------|------|
| Superfine | 5.7  |
| Fine      | 10.4 |
| Medium    | 65.0 |
| Coarse    | 14.3 |
| Fents     | 4.6  |

(b) The basis adopted is uniform and no distinction is made in any case.

(c) The internal distribution of cloth in Provinces and States is the responsibility of the Provincial and State Governments who have been left free to decide whether or not any scheme of rationing should be introduced.

#### MANUFACTURE OF WIRELESS TRANSMITTERS AND RADIO EQUIPMENTS

\*373. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether there are any factories in India manufacturing wireless transmitters, radio valves, radio equipments, etc.?

(b) If so, how many are there and what is their total annual output and if not, what steps are the Government of India taking to bring into existence such factories?

(c) Are there any proposals before the Government of India to start such factories and if so, will they be State-owned or private?

(d) Are there any negotiations going on with any foreign companies to start such factories in India, and if so, what are those companies, and by which date are they likely to commence working?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) to (c). No, Sir. Only broadcast radio receivers and a few radio components such as transformers, paper condensers and chokes are manufactured by some firms. Four firms are manufacturing radio receivers and their combined output is about 25,000 Units per annum.

Government is exploring the possibility of establishing a State owned factory for the manufacture of wireless transmitters, radio valves, radar equipment excluding domestic receiver sets.

(d) Yes, Sir. Government is negotiating with four foreign concerns for preparing a project report on the establishment in India of a factory for the manufacture of wireless and radar equipment etc. The project report, which is likely to take four to six months to prepare will *inter alia*, deal with the facilities which are necessary for the proper location of the factory, capital cost involved, raw materials required, cost of production etc. It is hoped to enter into agreements in the next 3 or 4 weeks with one or more firms, as considered necessary, for preparing the project report.

**Seth Govind Das:** Where are these factories to be located? Have any places been fixed?

**The Honourable Dr. Syama Prasad Mookerjee:** That has not been decided yet.

**Seth Govind Das:** How many places are under contemplation?

**The Honourable Dr. Syama Prasad Mookerjee:** No particular place is under contemplation just now.

**Prof. N. G. Ranga:** Why are they excluding the possibility of manufacturing domestic radio sets in their own factories?

**The Honourable Dr. Syama Prasad Mookerjee:** We did not wish to compete with private firms which are already doing this kind of work.

**Prof. N. G. Ranga:** Is any effort being made to get these community sets manufactured by Government?

**The Honourable Dr. Syama Prasad Mookerjee:** Well, that might be considered. In fact as I have said, we are calling for the detailed project report from one or two firms of repute and all those matters will be considered.

**Seth Govind Das:** Are Government aware that last year when the Honourable Minister for Communications wanted to establish a telephone factory, Jubbulpore was one of the places where it was contemplated to be fixed? Will Government consider that place again when fixing the places for these factories?

**Mr. Speaker:** Order, order.

**Shri H. V. Kamath:** What are the names of the four or five firms that the Honourable Minister said are manufacturing the miscellaneous tit-bits to which he referred?

**The Honourable Dr. Syama Prasad Mookerjee:** Not miscellaneous!

**Shri H. V. Kamath:** The little things to which he referred? What are the names of the firms?

**The Honourable Dr. Syama Prasad Mookerjee:** We have—The Standard Telephones and Cables, London; The Marconi Wireless Telegraph Company, U.K.; The Radio Corporation of America, New York; The Campagne Generale Telegraphie Sans Fil, Paris.

**Shri H. V. Kamath:** No Indian firm?

**The Honourable Dr. Syama Prasad Mookerjee:** I read out names of foreign firms whom we may consult. Shall I read out the eleven names of Indian firms, manufacturing here?

**Shri H. V. Kamath:** No, four names!

**The Honourable Dr. Syama Prasad Mookerjee:** They are—The Philips Electrical Co. (I.) Ltd., Calcutta; The I.R.P. Radio Ltd., Calcutta; The Supreme Electrical Engineering Co., Bombay; The Patiala Electronics Ltd., Patiala and several other firms.

**Shri H. V. Kamath:** Are they all owned by Indians and with Indian capital? Or is foreign capital invested in them?

**The Honourable Dr. Syama Prasad Mookerjee:** I am not sure whether there is any foreign capital but they are mostly controlled by Indians.

#### MEASURES TO INCREASE YIELD OF EXISTING CROPS AND IMPORT OF FOODGRAINS

\*374. **Shri Upendranath Barman:** (a) Will the Honourable Minister of Agriculture be pleased to state what increase in production Government expect from existing sown area by application of concentrates, green manure, compost and chemical manure, and what would be the probable cost of such an undertaking?

(b) What would be the probable cost of foodgrains intended to be imported to India in the year 1949, for meeting the deficit?

**The Honourable Shri Jairamdas Doulatram:** (a) It is difficult to calculate the increased yield separately by the application of each kind of manure as this depends on the quantity applied and the nitrogen percentage. On this basis and information given by the Provinces, the additional increased yield of foodgrains from the existing sown area during the year 1st July, 1948 to 30th

June, 1949 is expected to be 5,33,961 tons. The total estimated cost of such an undertaking is likely to be in the neighbourhood of Rs. 5,58,31,096.

(b) Foodgrains worth about Rs. 130 crores are expected to be imported in 1949.

**Shri H. V. Kamath:** How much land is proposed to be reclaimed during 1949 by the Ministry?

**Mr. Speaker:** All the relevant figures were given during the debate on food.

#### WITHDRAWAL OF FRUIT PRODUCTS CONTROL ORDER

**\*375. Prof. N. G. Ranga:** Will the Honourable Minister of Agriculture be pleased to state:

(a) when and why the Fruit Products Control Order was withdrawn;

(b) what steps are being taken by Government in its absence to ensure the quality of the products of the fruit preservation and canning industries; and

(c) what steps are being taken to encourage the fruit preservation and canning industries?

**The Honourable Shri Jai Ramdas Doulatram:** (a) The Fruit Products Control Order has not been withdrawn but has been renamed as the Fruit Products Order. Experience has shown that the enforcement provisions of this Order can be administered more economically by the Provincial Governments. It has, therefore, been decided to transfer enforcement functions under the Order to the Provincial and State Governments. The responsibility for laying down the standards and for issuing the licences will remain with the Central Government.

(b) Does not arise.

(c) Attention is invited to my reply to parts (a) and (d) of Starred Question No. 284, answered on the 10th February, 1949.

#### PRODUCTION OF PHOSPHORUS, CALCIUM CARBIDE, CYNAMIDE AND HALOGENATED SOLVENTS

**\*376. Prof. N. G. Ranga:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) why the production of phosphorus, calcium carbide, cynamide and halogenated solvents has not yet been started;

(b) what steps are being taken to start their production; and

(c) whether any plans have been prepared for their development?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). Production of these chemicals in India has not been started so far for the following reasons:

**Phosphorous.**—The demand for phosphorous being only about 150 tons per annum, a small plant will not be an economic unit. However, the question of its production in India is now being examined.

**Calcium Carbide.**—The chief difficulty in the production of Calcium Carbide is the non-availability of good quality of limestone and low ash coke. Raw materials of similar poor quality were being used in Japan for the production of Calcium Carbide before the war. Facilities are now being offered to some Chemical firms to depute expert to Japan to study their methods of manufacture of carbide for the benefit of the Indian Industries generally.

**Cynamide.**—The production of Cynamide depends on the availability of cheap Calcium Carbide.

**Halogenated solvents.**—At present the demand for Halogenated solvents is very small as the organic industries like dyestuffs, plastics etc., are not yet developed.

(c) No.

**Pandit Lakshmi Kanta Maitra:** With regard to carbide of calcium has Government got any estimate of the requirements of this country of this chemical?

**The Honourable Dr. Syama Prasad Mookerjee:** I have not got the figure. We know what the requirements are and we are in negotiation with Japan and we propose to send out some experts for the purpose of studying conditions there.

**Pandit Lakshmi Kanta Maitra:** Have Government considered the desirability of consulting the Norwegian experts on this matter, because that is a product which is specialised in Norway?

**The Honourable Dr. Syama Prasad Mookerjee:** We are prepared to consider the suggestion. The difficulty is with regard to the poor quality of the raw material available in India. This experiment has been made in Japan and we are already negotiating with some experts there.

**Shri R. K. Sidhva:** What is Halogenated solvents?

**Mr. Speaker:** It will be explained to the honourable member outside the House.

#### INDIAN POWER ALCOHOL ACT

**\*377. Prof. N. G. Ranga:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) when the provisions of the Indian Power Alcohol Act, 1948 will be enforced;

(b) whether the proposed Conference of Provincial and State Governments has been held to advance the process of admixture of power alcohol; and

(c) what assistance is proposed to be given by Government to the Power Alcohol Industry?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The Governments of U. P. and Bihar have enacted legislation for the utilisation of Power Alcohol produced in those Provinces. Under these Acts, whatever power alcohol is produced at present is being utilised already. Production at present is 3.54 million gallons against production of 2.20 million gallons last year. Steps are being taken in consultation with the Governments of U.P. and Bihar to frame rules under the Indian Power Alcohol Act. These rules will take care of production, surplus to the needs of the U.P. and Bihar, as it arises. So far as the U.P. is concerned, we hope to notify the central Power Alcohol Act to it within the next 3/4 months. Meanwhile, a scheme for the setting up of mixing plants is being drawn up to meet an anticipated increase to about 12 million gallons over the next two years.

(b) A conference of Governments has not been found necessary so far.

(c) Government are prepared to afford such reasonable assistance as the Industry may ask for. Such assistance in the shape of allotment of steel materials and coal has already been given to various distilleries during the last year. A claim for a reduction of excise duty is now under examination.

**Prof. N. G. Ranga:** What about the Madras Presidency where also there is an idea for the manufacture of power alcohol?

**The Honourable Dr. Syama Prasad Mookerjee:** We will examine for plans from the Madras Government.

**Dr. P. S. Deshmukh:** Are the requirements of the power alcohol industry being met so far as fuel is concerned?

**The Honourable Dr. Syama Prasad Mookerjee:** As far as possible.

**Prof. N. G. Ranga:** What percentage of the total molasses available are being utilised so far for the manufacture of power alcohol? Can the Honourable Minister give any idea?

**The Honourable Dr. Syama Prasad Mookerjee:** I have not got the figures. I think nearly about 60 to 70 per cent. we are utilising already.

**Shri B. P. Jhunjhunwala:** What is the basis on which these licenses are granted? Have Government got anything in view as to the quantity of production which the different distilleries should manufacture?

**The Honourable Dr. Syama Prasad Mookerjee:** We want to reach the target of 12 million gallons as soon as possible and while granting licenses we bear in mind the availability of raw materials, transport facilities and so on, in consultation with the provincial governments.

**Shri B. P. Jhunjhunwala:** If all these things are available, are licenses granted freely or.....

**Mr. Speaker:** Order, order. The question is hypothetical.

**Prof. N. G. Ranga:** Will all the molasses available in U.P. and Bihar be utilised by producing the proposed target of 12 million gallons of power alcohol?

**The Honourable Dr. Syama Prasad Mookerjee:** I believe so.

**Shri Sita Ram S. Jajoo:** Have any Provinces and States asked for assistance for the production of power alcohol?

**The Honourable Dr. Syama Prasad Mookerjee:** They have asked for facilities for the supply of raw materials but not financial assistance.

**Shri Sita Ram S. Jajoo:** Have any Provinces and States asked for assistance that have asked for such assistance?

**The Honourable Dr. Syama Prasad Mookerjee:** I have not got the names.

**Shri H. V. Kamath:** In view of the fact that the power alcohol question is related to the petrol problem, may I know if India's share of the world's total production of petrol has increased or decreased of late?

**Mr. Speaker:** That would be going beyond the question.

**Shri H. V. Kamath:** It is intimately related to the question.

**Mr. Speaker:** Next question.

#### INDIAN INSTITUTE OF FRUIT TECHNOLOGY

**\*378. Prof. N. G. Ranga:** Will the Honourable Minister of Agriculture be pleased to state:

- when the Indian Institute of Fruit Technology was founded;
- how many students have been admitted thereto;
- what is the period of the course of training;
- whether any scholars from provincial governments are admitted into the Institute;
- whether any complaints have been received from students regarding (i) the inadequacy of laboratory equipment, (ii) the fees charged (Rs. 25 per mensem) and (iii) the failure of Government to give diplomas to the students on the completion of their course; and if so, how often;

(f) whether Government have any plans for the improvement of this Institute;

(g) whether Government propose to issue diplomas to the present set of students on the completion of their training; and

(h) whether Government propose to find employment for the trainees in the Fruit Preservation and Canning Industry?

**The Honourable Shri Jairamdas Doulatram:** (a) A full-fledged Institute of Fruit Technology has not so far been set up and in view of the financial stringency the proposal has been further postponed to 1950-51.

The Non-Muslim Staff of the Research Section relating to Fruit Preservation which was attached to the Agriculture College at Lyallpore in the Punjab was, after the Partition accommodated at Delhi where the Section is functioning since August, 1947. A class for imparting post-Graduate training in Horticulture, Fruit Preservation and allied subjects is being run by the staff in addition to their duties.

(b) Seventeen.

(c) Fifteen months including three months practical training.

(d) Yes.

(e) Yes. On two or three occasions.

(f) Yes. It is the intention of the Government to locate and develop the Institute permanently at Nagpur or some other suitable centre as soon as funds permit.

(g) Diploma will be issued to students who complete the Course.

(h) Yes. The Government will assist the qualified trainees to get suitable employment.

**Prof. N. G. Ranga:** Are Government satisfied that there is adequate staff in the Research Institute?

**The Honourable Shri Jairamdas Doulatram:** Government are not satisfied.

**Prof. N. G. Ranga:** When will Government provide it with adequate staff?

**The Honourable Shri Jairamdas Doulatram:** As I said, in view of the financial stringency we are not able to set up that Institute on a permanent basis. So we are trying to carry on on a temporary basis.

**Prof. N. G. Ranga:** Is it not a fact that there are not even lecturers in certain subjects and as a result the scholars are suffering?

**The Honourable Shri Jairamdas Doulatram:** To some extent the students are suffering. Government will re-examine the matter with a view to improving the staff.

**Shrimati G. Durgabai:** What is the total number of qualified trainees who are yet to be employed? Are there any women among them and if so, how many?

**The Honourable Shri Jairamdas Doulatram:** I would not be able to answer that question straightaway.

#### EXPORT OF HANDLOOM CLOTH TO SOFT CURRENCY AREAS

**\*379. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether Government have received any representation from the Government of Madras to allow free export of handloom cloth to soft currency areas?

(b) If the answer to part (a) above be in the affirmative, what action has been taken in the matter?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes.

(b) Government have announced the decision that for a temporary period, which will not extend beyond the 30th June, 1949, licences for the export of handloom cloth will be freely issued subject to a ceiling of 50 million yards to Pakistan and lower ceilings for other areas. In this connection I would refer the honourable member to the Press Note which was recently issued by the Ministry of Commerce. A copy of the Press Note has been placed on the Library table.

**Shri V. C. Kesava Rao:** Will Government consider the question of helping the handloom industry by permanently permitting free exports of handloom cloth?

**The Honourable Dr. Syama Prasad Mookerjee:** I do not know whether it will be in the interests of the handloom industry to allow free exports of handloom cloth permanently.

**Shri M. Ananthasayanam Ayyangar:** May I know how the quantity that has now been permitted to be exported to Pakistan and other countries stands in relation to the quantity that was exported before 1939? Has the Honourable Minister any idea of it?

**The Honourable Dr. Syama Prasad Mookerjee:** I have not got the figures for 1939.

**Prof. N. G. Ranga:** Is it a fact that the Pakistan Government had made it clear to the Government of India that the quota that has been fixed for the export of cotton cloth from India is to be restricted only to mill-made cloth and does not include handloom cloth?

**The Honourable Dr. Syama Prasad Mookerjee:** They have not in any way made such a thing clear yet. But perhaps if the honourable member goes on asking questions they will make it clear tomorrow.

**Shri L. Krishnaswami Bharathi:** Have Government received any information to the effect that there is a very large stock of handloom cloth lying unsold in Madras?

**The Honourable Dr. Syama Prasad Mookerjee:** That is why we are taking this step.

**Prof. N. G. Ranga:** Is it a fact that Pakistan has raised no objection to the export of handloom-woven cloth?

**The Honourable Dr. Syama Prasad Mookerjee:** We have not received any notice of objection.

**Shri M. Ananthasayanam Ayyangar:** Is it not a fact that the neighbouring countries both to the east and west of India are dependent on handloom cloth from India and would not this market be diverted if exports are not allowed freely?

**The Honourable Dr. Syama Prasad Mookerjee:** We would like India also to depend a little more on handloom cloth for her own requirements.

#### FOREIGN TOURIST TRAFFIC

**\*380. Shri V. C. Kesava Rao:** Will the Honourable Minister of Transport be pleased to state what steps are being taken to attract foreign Tourist Traffic?

**The Honourable Shri K. Santhanam:** The steps immediately considered necessary for the development of foreign tourist traffic are:

(i) improvements in arrangements regarding catering at points of arrival and departure;

(ii) provision of better facilities at important centres in the matter of accommodation, transport, guides, etc.;

(iii) simplification of passport and customs regulations, wherever necessary; and

(iv) publicity in other countries.

An *ad hoc* Tourist Traffic Advisory Committee consisting of officials and non-officials interested in the matter has been set up to make practical recommendations in regard to these matters urgently and also regarding the kind of permanent organisation necessary for the development of tourist traffic. A full time officer will be placed at the disposal of the Committee. The recommendations of the Committee are awaited.

**Mr. Homi Mody:** Do prohibition in third-class hotels and indifferent accommodation in trains constitute an attraction for tourist traffic?

**Mr. Speaker:** Order, order.

**Shri H. V. Kamath:** With reference to the provision of proper amenities and facilities to which the Honourable Minister referred and with which the foreign tourist traffic is intimately connected, has the Honourable Minister's attention been drawn to a slogan raised in the Indian Railway Magazine to the effect that "Mahashivaratri is coming, travel third-class on Indian Railways and attain Heaven"?

**Mr. Speaker:** Order, order.

**Shri M. Tirumala Rao:** Does the Ministry of Railways maintain an advertising agency in London still to attract tourist traffic?

**The Honourable Shri K. Santhanam:** No such agency has yet been started.

**Pandit Hirday Nath Kunzru:** Are special carriages being built for tourist traffic or will the tourists be expected to be content with the accommodation provided in class I?

**The Honourable Shri K. Santhanam:** All these matters are under consideration?

**Shri Deshbandhu Gupta:** Who are the non-official members of the *ad hoc* Committee?

**The Honourable Shri K. Santhanam:** I require notice of that question.

#### IMPORT AND MANUFACTURE OF LOCOMOTIVES

**\*381. Shri O. V. Alagesan:** (a) Will the Honourable Minister of Railways be pleased to state what is the number of broad gauge and metre gauge locomotives for which government placed orders with the United States, Canadian and United Kingdom firms up till now?

(b) What is the cost of such orders?

(c) How many locomotives, broad gauge and metre gauge, have been delivered so far?

(d) Have Government any proposals for the manufacture of locomotives in India?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) to (d). The information required by the honourable member is laid on the table.

## STATEMENT

(a) to (c).—Orders for the following locomotives had either actually been placed or were projected at the time of partition:—

| Type                     | No. | Country                       |
|--------------------------|-----|-------------------------------|
| <i>Broad Gauge</i>       |     |                               |
| XD . . . . .             | 6   | UK                            |

2. As the delivery schedule quoted by the UK builders for the 300 WP Passenger locos did not suit the urgent need for new locomotives on Indian Railways, enquiries were made in North America. The deliveries promised from Canada and USA were much better and it was decided to place an order for at least 100 WPs in North America. Tenders called in North America however, showed that deliveries could commence in early 1949 and it was finally decided to place an order for 200 WP locos in North America while reducing the number to be ordered in UK from 300 to 200 diverting the capacity for the third 100 WP locos to the manufacture of another type of locomotive.

3. As a result of the Chief Commissioner's tour in Europe and America to seek capacity for the manufacture of locomotives, it was decided that North America should build 300 Ps instead of the 200 already arranged, while UK would build only 100 WG type goods locos.

This reduction of order on U.K. builders was made in view of their delivery date being postponed and also their quotations being almost the same as for American builders without the advantage of getting early delivery.

4. Thus the final position of the orders placed for new locos since partition is as under. The main consideration for placing orders for the new locomotives was to obtain the quickest possible deliveries consistent with prices being reasonable.—

| Number and type of locos. | Orders placed on          | Country | Delivery schedule Ex-Works.                                                                                       | Total expenditure expected (in thousands of Rupees) |

6. Thus the total number of locos on order abroad on 1-1-1949, including the MAWD locos which were still being placed on line, were 640 BG, 203 MG. and 20 Narrow Gauge.

Of these locos, 13 BG and 33 MG locomotives have arrived in India since 1st April 1948. (These do not include 16 WP locos received by December 1947). A further 126 BG engines are expected to be received by the 31st March 1949, the total receipts in 1948-49 being 139 BG and 33 MG locos. During 1949-50 a further 337 BG and 170 MG locos are expected to be received from abroad.

7. The allotment of these new BG and MG locos ordered abroad has been made as under:—

| Railway | B.G. | M.G. |
|---------|------|------|
| Assam   | —    | —    |
| BB & CI | 43   | 33   |
| BN      | 126  | —    |
| EI      | 249  | —    |
| EP      | 35   | —    |
| GIP     | 136  | —    |
| MSM     | 31   | 34   |
| OT      | —    | 72   |
| SI      | 20   | 64   |
|         | 640  | 203  |

No allotment has yet been made of the Narrow Gauge locos.

8. Of the balance, 164 BG and 16 NG locomotives are expected to be delivered in India during 1950-51 and the remaining 4 N. G. locos during 1951-52.

(d) *Mihijam Shops*.—Consequent on the announcement in June, 1947 of the proposed constitutional changes and pending the Boundary Commission's award, orders were issued to suspend all constructional work at Kanchrapara. Though as a result of the Boundary Commission's award Kanchrapara North, the site selected for Locomotive Building Work-

shop, fell in India, the Government decided that a workshop of this importance should not be located close to the frontier. It was, therefore, decided that the new workshop should be located at Mihijam in West Bengal. Indents for machinery and Plant have already been placed.

The scheme is estimated to cost approximately Rs. 14 crores. The workshop is designed for the manufacture of 120 steam locomotives and 50 additional boilers per year. It is hoped that the smaller shops for the manufacture of component parts of the locomotives together with adequate number of quarters for the workmen and the staff likely to be employed in these shops will be ready by early 1950 and that the Main Assembly Shop for the manufacture of locomotives complete, will be ready by early 1951.

**Singhbhum Shops.**—This shop was sold to Messrs. Tatas on the 1st June, 1945 who have entered into an agreement with the Government for the manufacture of 50 locos and 50 additional boilers per annum in this shop. An order for 100 loco boilers was placed on this Firm, out of which 56 have been completed upto the 6th January, 1949.

TELCO have recently intimated that their buildings will be completed and the Loco Plant and Machinery received at site by December, 1951 from which date they would be in a position to start manufacture of locos. They anticipated that the first loco would be turned out by December, 1953.

**Shri O. V. Alagesan:** Have Government applied to the International Monetary Bank for purchasing railway equipment like locomotives, rails, etc.?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not think the Bank sells engines or locomotives.

**Shri O. V. Alagesan:** For a loan?

#### RESTORATION OF DISMANTLED RAILWAY LINES IN MADRAS

**\*382. Prof. N. G. Ranga:** Will the Honourable Minister of Railways be pleased to state:

(a) what are the dismantled railway lines which the Government of Madras have recommended to be restored at their interview with him on the 20th December, 1948;

(b) whether it is a fact that the Government of Madras have also made representations against the removal of 'deckings' on the Krishna and Pennar bridges; and

(c) whether Government have taken any decisions regarding the matters referred to in parts (a) and (b) above and if so, what these decisions are?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) At the meeting held on 28th December, 1948, the Government of Madras recommended the restoration of the Shoranur-Nilambur and Madura-Bodinayakanur Railway lines.

(b) Yes.

(c) The question of guarantee payable by the Madras Government in the event of the Shoranur-Nilambur line being restored is under consideration. It was agreed at the meeting that the traffic prospects of restoring the entire Madura-Bodinayakanur section should be worked out afresh.

As regards the Madras Government's representation that the road decking on the Kistna and Pennar bridges should not be removed, the matter is still under consideration.

**Shri M. Tirumala Rao:** Have not the Madras Government recommended the restoration of the Coimada-Waltair railway line which was dismantled during the war?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not think so.

**Dr. P. S. Deshmukh:** Is the Honourable Minister trying to instil a new spirit in regard to projects for construction of new lines, since he has taken office?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am trying to instil such spirit as I can in conjunction with the Central Board of Transport.

**Shri T. A. Ramalingam Chettiyar:** May I ask what decision was taken regarding the restoration of the Dharmapuri-Hosur railway line?

**The Honourable Shri N. Gopalaswami Ayyangar:** The question of restoration of these various lines which were dismantled sometime ago is being examined, and the entire set-up of such lines in the Madras Province will come up for consideration before the Central Board of Transport soon.

#### PRODUCTION AND EXPORT OF VEGETABLE OILS

**\*383. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Agriculture be pleased to state the installed and crushing capacity of factories for vegetable oil products in various provinces, and what is their total production in a year?

(b) In which provinces are new factories being installed and when are they expected to be completed?

(c) What will be the production from the new factories?

(d) What is the estimated annual consumption of vegetable oil products in the country?

(e) Are vegetable oil products allowed to be exported out of the country and if so, to which destinations and how much during the last year?

**The Honourable Shri Jairamdas Doulatram:** Presumably by crushing capacity the honourable member means planned capacity.

(a) The total installed and planned capacity in the various Provinces and States is as under:

| Province                      | Installed capacity | Planned capacity |
|-------------------------------|--------------------|------------------|
| 1. Bombay . . . . .           | 108,500 tons.      | 116,000 tons.    |
| 2. Delhi . . . . .            | 13,500 ..          | 13,500 ..        |
| 3. United Provinces . . . . . | 42,470 ..          | 42,470 ..        |
| 4. West Bengal . . . . .      | 23,000 ..          | 53,000 ..        |
| 5. Orissa . . . . .           | ..                 | 7,500 ..         |
| 6. Madras . . . . .           | 4,900 tons         | 52,900 ..        |
| 7. C. P. and Berar . . . . .  | ..                 | 16,500 ..        |
| 8. Bihar . . . . .            | 4,960 tons         | 4,960 ..         |
| Total . . . . .               | 197,330 tons.      | 306,830 tons.    |

| States                                    | Installed capacity | Planned capacity |
|-------------------------------------------|--------------------|------------------|
| 1. Mysore . . . . .                       | 4,800 tons.        | 4,800 tons.      |
| 2. Cochin . . . . .                       | 1,200 ..           | 1,200 ..         |
| 3. Baroda . . . . .                       | 12,000 ..          | 12,000 ..        |
| 4. Saurashtra . . . . .                   | 9,000 ..           | 21,000 ..        |
| 5. Junagadh . . . . .                     | ..                 | 7,500 ..         |
| 6. Madhyabharat . . . . .                 | ..                 | 19,500 ..        |
| 7. Kolhapur . . . . .                     | ..                 | 3,000 ..         |
| 8. Patiala & East Punjab States . . . . . | ..                 | 3,000 ..         |
| Total . . . . .                           | 27,000 tons.       | 63,000 tons.     |
| Grand Total . . . . .                     | 227,330 tons.      | 369,830 tons.    |

The total production in 1947 was approximately 95,000 tons and in 1948, 129,000 tons.

(b) New factories are being installed as under and most of them are expected to be completed by the end of 1949.

|                             |    |
|-----------------------------|----|
| 1. West Bengal . . . . .    | 6  |
| 2. Orissa . . . . .         | 1  |
| 3. C.P. and Berar . . . . . | 2  |
| 4. Madras . . . . .         | 10 |
| 5. Bombay . . . . .         | 3  |

(c) The increased production from the new factories is expected to be 145,530 tons per annum.

(d) It is difficult to give an accurate estimate, but the Vanaspati Advisory Committee set up by Government in 1945 estimated total requirements by 1950 at 240,000 tons for internal consumption in United India, 35,000 tons for industrial purposes and 50,000 tons for export. Adding an extra 15 per cent. to allow for the difference between maximum capacity and actual production the Committee recommended a target production of 400,000 tons. The annual internal consumption of Vanaspati for India alone may not be put at about 200,000 tons excluding that required for export and industrial purposes.

(e) Yes, only to a limited extent as the production is not adequate. The quantities exported in 1948 were:

|                                   |           |
|-----------------------------------|-----------|
| Pakistan . . . . .                | 700 tons. |
| Persian Gulf Sheikhdoms . . . . . | 75 tons.  |

**Seth Govind Das:** Are Government contemplating to do something by which this vegetable ghee may be distinguished from the ordinary ghee? Is any research being made in this respect?

**The Honourable Shri Jairamdas Doulatram:** Yes, efforts are being made in that direction. But I do not think there is any question of vegetable ghee. There is difference between Vanaspati and ghee. And as honourable members are aware, various steps have been taken to make adulteration difficult.

**Prof. N. G. Ranga:** Is it not a fact that Government have stated that they are conducting investigations into the utility or otherwise of Vanaspati and pending that they would stop any further expansion of this industry?

**The Honourable Shri Jairamdas Doulatram:** That is so and the factories functioning are those in respect of which Government have committed themselves. The Government declaration was that beyond those to which they have made a commitment there would be no further expansion of the industry.

**Seth Govind Das:** Is it a fact that no licences for fresh factories will be given as far as vanaspati production is concerned?

**The Honourable Shri Jairamdas Doulatram:** That is so.

**Prof. N. G. Ranga:** Have Government given any notice to such of the licensees who have not yet taken any steps to start any factory?

**The Honourable Shri Jairamdas Doulatram:** Notices have been given. In the case of some the applications were rejected and the rest have been informed.

**Shri H. V. Kamath:** Have Government by law prohibited the use of the description 'vegetable ghee' which is in fact a misnomer for vegetable oil?

**The Honourable Shri Jairamdas Doulatram:** Yes.

**Shri Raj Bahadur:** Is it not a fact that all attempts to prevent adulteration of pure ghee with Vanaspati ghee have totally failed?

**Mr. Speaker:** Order, order. It is a question of opinion.

**Pandit Thakur Das Bhargava:** Is it a fact that Government ordered that 5 per cent. of sesamum oil should be mixed with Vanaspati before it is sold?

**The Honourable Shri Jairamdas Doulatram:** Yes.

**Pandit Thakur Das Bhargava:** Is it a fact that this is more violated in practice than.....

**Mr. Speaker:** Order, order.

**Shri S. V. Krishnamoorthy Rao:** What is the result of enquiry as to the food value of Vanaspati?

**The Honourable Shri Jairamdas Doulatram:** The scientists have not yet given us the final report. It is expected they will complete their investigations by the middle of 1949.

**Pandit Lakshmi Kanta Maitra:** May I know whether, for the manufacture of these hydrogenated edible oils known as Vanaspati, Government has prescribed the category of special vegetable oils which would be suitable and nutritious for this purpose?

**The Honourable Shri Jairamdas Doulatram:** There are certain specifications for the purpose of manufacturing hydrogenated oil, and also a rule that a certain amount of sesamum oil has to be mixed to prevent adulteration.

**Seth Govind Das:** Are the Government contemplating to stop this hydrogenation of vegetable products?

**The Honourable Shri Jairamdas Doulatram:** This matter has been considered and discussed. Government have not yet come to a decision.

#### PRODUCTION OF GLYCERINE

**\*384. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the quantity of Glycerine produced in the country in various provinces?

(b) Have any new Glycerine Recovery Plants been installed during 1948? If so, what is their capacity and what is the total investment thereon?

(c) Is the country self-sufficient so far as Glycerine is concerned? If it is importing or exporting the same, what is the quantity and total value of the imports or exports as the case may be.

**The Honourable Dr. Syama Prasad Mookerjee:** (a) During 1948, 2,000 tons of refined glycerine were produced in Bombay and 150 tons in U.P. Glycerine is not produced in any other province at present.

(b) No new plant was installed during 1948.

(c) India's requirement is met from indigenous sources and there is no import of glycerine. In 1948, an export quota of 350 tons was fixed for crude glycerine (80 per cent.). No refined glycerine was exported.

#### MALPRACTICES IN PRODUCTION OF BOILED RICE

**\*385. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Food be pleased to state whether Government are aware that Millowners, who are generally the whole-sale dealers, while converting paddy into boiled rice, in order to have increased weight, soak the paddy for too long a time never changing the water, boil it more than necessary, hull it before it is dry and then stock and supply it to the ration shops with a bad smell and in clotted condition?

(b) Has it been brought to the notice of Government that by doing so, often large stocks get rejected thereby increasing the food shortage?

(c) Do the district authorities take any undertaking from the millers that they will produce rice of a quality that Government require?

† Answer to this question laid on the table, the questioner having exhausted his quota.

(d) If not have Government any arrangement to cancel the licence of the miller and for the management of the mills to be taken over by the District Magistrate of the District as an emergency measure to supply good rice and avoid wastage?

**The Honourable Shri Jairamdas Doulatram:** (a) Reports of such complaints have been received by the Governments of the provinces of Madras, Bihar and Assam.

(b) The fact has not been brought to the notice of the Central Government. Government is inquiring into the matter with a view to effective steps being taken in regard to milling process.

(c) and (d). The millers are required under the license issued to them to offer for sale rice of a standard specification laid down by the Provincial Governments and either the price is cut or rice rejected if it does not satisfy the specification or the licence cancelled.

A statement showing the action taken by the Provinces in the event of rice of standard quality not being offered, is laid on the table of the House.

#### Statement

*showing action taken by Governments if rice offered for sale does not answer the standard specifications*

**C. P.**—Deductions are made for deviations from the tolerance limits prescribed for the various quality factor. The Government have authority to cancel or suspend the licence issued to rice mills under the Rice Mills Licensing Order, 1943. There is no arrangement at present to take over the management of a mill by the District authorities nor has such a necessity so far arisen.

**Orissa.**—Mills are controlled under the Orissa Rice Mills Licensing Order, 1943 and continuance of the mills in the trade depends on the ability to maintain standard. Although powers exist, no occasion has arisen to cancel the licence of a miller or take over the management of a mill.

**Madras.**—Either a cut is made in the price of rice or the stock is rejected. The Madras Rice Mills Licensing Order provides for the cancellation of the licences. But mills are not taken over by Government.

**East Punjab.**—Licences of dealers or rice millers are cancelled.

**Bihar.**—The Government have issued Quality Control Instructions and suitable action is taken to prevent bad milling of rice.

**Assam.**—Action against rice millers who do not comply with the Qualities Standard Order is taken by suspension or cancellation of their licenses under the Assam Foodgrains Control Order.

**U. P.**—Hulling takes place under the supervision of Government staff and delivery of rice from the hullers is taken strictly in accordance with the quality specifications fixed by Government. If the quality is inferior heavy deductions are made. Government can also suspend or cancel the licence.

There is no arrangement for taking over the management of rice mills by Government but there are enough hullers to take over the work of any one whose licence has been suspended or cancelled.

**West Bengal.**—Deductions in prices are made for rice not up to Government specification. Licences of mills found corrupt or otherwise delinquent can also be cancelled under the Provincial Rice Mills Control Order. Government can also take over management of rice mills if circumstances justify such a course.

**Prof. N. G. Ranga:** How do Government account for the very bad smell and bad quality of rice that is being actually supplied to the consumer, in the light of the precautions taken by Government?

**The Honourable Shri Jairamdas Doulatram:** As I have said there are areas where the proper methods are not being used and Government are taking steps to see that those methods are used there.

**Prof. N. G. Ranga:** Have Government any inspection staffs to visit these factories, where this boiled rice is prepared, from time to time in order to see that they follow the proper methods?

**The Honourable Shri Jairamdas Doulatram:** That is for the Provincial Governments to arrange.

**Shri H. V. Kamath:** In connection with the reorientation of their food policy, do Government propose to prohibit the milling and polishing of rice?

**The Honourable Shri Jairamdas Doulatram:** Government have sent instructions preventing the polishing of rice.

#### STOCKING OF CENTRAL RESERVE OF FOOD GRAINS

**\*386. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Food be pleased to state whether Government are aware that the Central Reserve of grains kept in provinces get damaged owing to careless storage, storage for a long time and delayed distribution?

(b) If so, what are the steps taken to preserve and distribute the grains in time if the custodian finds any traces of degeneration?

(c) What is the approximate tonnage of such stocks condemned as unfit for human consumption?

(d) What are the directions issued by the Government of India to the provinces in this matter?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes, the grain gets occasionally damaged owing to long storage and delayed distribution.

(b) To prevent this damage technical staff has now been appointed at Bombay, Maunad and Calcutta depots which are directly under the charge of the Central Government. The depots in the Madras region, i.e., at Madras, Vizagapatam and Coimbatore are managed by the Provincial Government who have engaged their own technical staff. Cochin depot is managed by the State Government. The technical staff carries out disinfection operations such as fumigation, dusting of gammexane. The stocks are inspected every fortnight and quantities which are in danger of degeneration if stored for longer time are issued out.

(c) The approximate tonnage is 5½ thousand tons out of a total 28 lakh tons imported. Out of 5½ thousand tons, 3,062 tons were of maize which could not be distributed from Bombay in time in April, 1948 as several provinces did not want to use this grain. A statement is laid on the table of the House giving details for each grain at each depot.

(d) The directions issued are—to disinfest the godowns before storage, to disinfest the bags, to fumigate the grain if infested, to carry out fortnightly inspection of the stocks and to make issues on the basis of the condition of the grain.

*Statement showing approximate tonnage of grains condemned as unfit for human consumption during the years 1947-48 and 1948-49.*

| Place         | Grains | Period  | Quantity condemned in tons | Remarks                                                                 |
|---------------|--------|---------|----------------------------|-------------------------------------------------------------------------|
| Madras Region | Rice   | 1947-48 | 2                          |                                                                         |
|               | Maize  | "       | 18                         | 20 tons received in damaged condition out of which 18 tons found unfit. |

| Place    | Grains                        | Period  | Quantity condemned in tons | Remarks                                                                                                                                              |

**Prof. N. G. Ranga:** Has the loss been decreasing in the light of experience Government have been gaining during the last six years in storing food grains?

**The Honourable Shri Jairamdas Doulatram:** I think it is about the same.

**Prof. N. G. Ranga:** Then what is the advantage that Government have been gaining by maintaining a special staff for proper storage and carrying on researches during the last six years?

**The Honourable Shri Jairamdas Doulatram:** This loss of about 5,000 tons was due to the quality of maize which we had received, and because it was not of good quality and Provinces did not want to take it, it naturally deteriorated. That was the reason for the higher figure last year.

#### SUPPLY OF BAD RICE TO SOUTH INDIAN STATES

**\*387. Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Food be pleased to state whether Government are aware that rice allotted to some South Indian States is unfit for human consumption?

(b) Have Government received any representation from any of the States about the continuous supply of a very bad variety of rice to that State by the Centre?

(c) Are Government aware that the people of those States express great resentment at their failure to get good rice from the Centre?

(d) What steps do Government propose to take to see that good rice is supplied to those States?

**The Honourable Shri Jairamdas Doulatram:** (a) to (d). Presumably the honourable member is referring to supplies made to Travancore and Cochin. The bulk of the rice supplied to them is of good quality. Representations have been received from these States about the quality of certain consignments of rice to them. One complaint referred to a consignment of glutinous Siam rice and the other was about certain quantities of broken rice from Pakistan which were sent to these areas. Government greatly regret having to send such rice anywhere but in present circumstances there is no help. As the Honourable

Member is aware, our allocations from the International Emergency Food Committee meet only a portion of our requirements. We have to import some quantity from Siam. The Siam rice has to contain 15 per cent. of the variety known as glutinous, i.e., sticky in cooking, and this quality of rice is sent to all the countries. It is sweeter and softer than ordinary rice, but it is not unhealthy. Considering our relatively great deficit in rice, it is not advisable to refuse to buy any quantities of edible rice which can be obtained at reasonable prices. The alternative would be that even less acceptable grain like maize will have to be supplied instead. The Rice supplied to deficit areas must therefore include a portion of the less popular types, but it is not correct to assume that these qualities go only to the Southern States. The distribution of available supplies is primarily made on considerations of transport and that is why Travancore and Cochin get most of their supplies of rice from imports. The position has undergone an important change since Partition; the more acceptable types of rice from what is now Western Pakistan are no longer freely available to us and supplies now have got to be mostly from imported rice.

Prior to 1946 when allotments to Madras were very small,—and these were years when rice imports from abroad were negligible,—Government used to meet part of the requirements of Travancore and Cochin from the surpluses of C.P. and Orissa by allocating part of these surpluses to Madras as exchange quota for Travancore and Cochin. Madras used to release an equal quantity for Travancore and Cochin from nearer sources. The position has since changed in the following respects:

(i) Madras itself is now depending on the Centre for very large allocations;

(ii) Imports from abroad have increased considerably; and

(iii) The surpluses from C.P. have decreased. The exchange quota arrangements had to be discontinued in the changed circumstances. Besides, in order to meet Travancore and Cochin's requirements, no other arrangements than those by which supplies are given direct from the ships at Cochin and other convenient ports, would prove more satisfactory.

#### (b) WRITTEN ANSWERS

##### MANUFACTURE OF SYNTHETIC OIL FROM COAL

**\*388. Shri B. N. Munavalli:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether the technicians of the firm named Messrs. Kopper and Company Inc. of Pittsburgh, United States of America, engaged in investigations in India as to the possibilities of manufacture of synthetic oil from coal, have submitted a report to the Government of India?

(b) If so, do Government propose to place a copy of that report on the table of the House?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The Firm have submitted a Preliminary Report.

(b) The Report contains description of certain Processes and includes some Blue Prints and designs for which "Patent" rights have yet to be taken out. It cannot, therefore, be made public at this stage.

##### BHUBANESWAR AS A HALTING STATION FOR CALCUTTA—MADRAS AIR SERVICE

**\*389. Shri Lakshminarayan Sahu:** Will the Honourable Minister of Communications be pleased to state:

(a) whether Government propose to make Bhubaneswar aerodrome a halting station for the daily air service between Calcutta and Madras and if so, when; and

(b) whether Government propose to have a direct air line between Bhubaneswar and Delhi?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) There is at present an air service operated by Airways (India) Limited between Calcutta and Bangalore via Madras, which calls at Bhubaneswar on three days of the week. The frequency of this halt will be progressively increased as the traffic to and from Bhubaneswar justifies it.

(b) There is no such proposal at present.

#### KALINGA AIR LINES

**\*390. Shri Lakshmi Narayan Sahu:** Will the Honourable Minister of Communications be pleased to state:

(a) who finances the Kalinga Air lines; and

(b) what interest the Government of India have in this concern and what the functions of this company are?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) Kalinga Airways is a privately owned company managed by a Board of Directors.

(b) Government of India have no interest in this Company. The Company is at present engaged in operating charter and other non-scheduled flights.

#### MEASURES TO CHECK SPECULATION IN COTTON

**\*391. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether Government have fixed floor and ceiling prices of cotton to avoid speculation and if so, what are the prices?

(b) Has Dr. Thomas made a report as to how speculative sales or purchases are to be controlled and if so, what are those recommendations and do Government intend to implement them?

(c) Have Government any proposal to control the speculative tendencies of Cotton Exchange?

(d) Do Government intend introducing legislation to check frivolous Hedge and Forward contracts of cotton?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir. A copy of the Notification No. TCS-1/48, dated the 1st September, 1948, fixing floors and ceiling prices of cotton is placed on the table.

(b) The report referred to by the honourable member is in regard to regulations of speculation in stock Exchanges and has nothing to do with regulations of speculations in any controlled commodities.

(c) and (d). Cotton is a controlled commodity. Under the Indian Cotton (Control) Order, 1945 and the Notifications and Press notes issued thereunder speculation by the medium of cotton options has been banned. Forward (Hedge) Trading in cotton is also banned except in the official ring of the East India Cotton Association, Bombay, and that too within the Floors and Ceilings fixed by the Government and in conformity with the conditions mentioned in the 'General Permission' under the Indian Cotton (Control) Order, 1945, No. TCS-1/48, dated the 1st September, 1948.

#### GOVERNMENT OF INDIA MINISTRY OF INDUSTRY AND SUPPLY

##### OFFICE OF THE TEXTILE COMMISSIONER

##### NOTIFICATION

Bombay, the 1st September, 1948

General Permission under the Indian Cotton (Control) Order, 1945

No. TCS-1/48.—In pursuance of Clause 5 of the Indian Cotton (Control) Order, 1945 and in supersession of the Notification of the Textile Commissioner No. 214-T.A./45 (ii), dated the 19th January, 1946, I hereby declare that subject to the provisions of paragraph

2 below of this Provision the following contracts relating to the cotton of the year 1948-49 or earlier seasons shall be excluded from the provisions of the said order, namely:—

(i) Ready Contracts.

(ii) Delivery Contracts: that is to say Forward Contracts for Kapas or Cotton (full-pressed, half-pressed or loose) of specific qualities or types and for specific delivery at a specified price, delivery orders, railway receipts or bills of lading against which Contracts are not transferable to third parties.

(iii) Hedge Contracts: that is to say Forward Contracts entered into by members of the East India Cotton Association Limited entitled to the use of the Clearing House of the Association where such Contracts are made in accordance with the rules and by-laws of the Association in the official markets of the Association.

2. (1) Nothing in this Permission shall apply in relation to any Contract for the sale or purchase of any cotton of the description specified in Columns 1 and 2 of the Schedule hereto annexed wherein the price stipulated is less than the floor price specified in Column 3 of the Schedule or more than the ceiling price specified in Column 4 of the Schedule, as applicable to the subject-matter of the Contract having regard to the place of delivery:

Provided that where the cotton, the subject-matter of the Contract, is of a quality either inferior or superior to the basic referred to in Columns 1 and 2 of the Schedule, the floor or the ceiling price shall be decreased or increased as the case may be by an amount specified in columns 5 to 7 of the Schedule.

(2) Every Contract in which the final price is not named shall be read as if the following clause were inserted therein: "The price payable shall be within the range of the floor and ceiling prices under the Schedule to the textile Commissioner's General Permission No. TCS-1/48, dated the 1st September, 1948".

(3) Nothing in this permission shall apply in relation to any contract of sale by a cotton textile mill.

3. (1) The prices specified in the Schedule are in Rupees per candy of 784 lbs. nett for delivery in full-pressed bales ex-seller's godown, Bombay, and include  $\frac{1}{4}$  per cent. brokerage payable by the seller to the buyer and the usual sample and stone allowances.

(2) The floor and ceiling prices shall be the floor and ceiling prices specified in the Schedule reduced by the sum equivalent to the freight from the place of origin to Bombay and Rs. 10 per candy and increased by the sum, if any, equivalent to the railway freight from the place of origin to the place of delivery to the buyer and Rs. 10 per candy.

*Explanation.*—Place of origin means the railway station nearest the Press Factory where the cotton was pressed.

(3) Where any Contract is made with reference to a standard of weight other than the candy of 784 lbs., the ceiling and floor prices applicable thereto under sub-paragraph (2) above shall be as increased or reduced, as the case may be, in proportion.

4. For the purposes of this Permission,

(a) "Jarilla" means cotton from any place in the District of Nasik or of East and West Khandesh in the Province of Bombay, Central Province and Berar, Central India, or any of the States of Hyderabad, Gwalior, Jhalawar, Pratagarh and Sironj or in Chhabra or Pirawa Parganas of Tonk State; and includes "Verum", "Cambodia", "Buri", "Farm", "Upland", "Gaorani", "Parbhani Seed" and "American Seed".

(b) "Broach" means cotton from any place in the district of Kaira or Broach or Panch Mahals (excluding Ankleshwar Taluka) in the Province of Bombay or in any of the States of Balasinor, Baria, Cambay, Chhota Udepur, Lunawada, Jambughoda, Kadan Mandwa and Vajiria, Bhaderwa, Baroda District of Baroda State and Talod; and includes "Farm", "Vijay", "B.D. 8", "B. 9" and "1027".

(c) "Surti" means cotton from any place in the Ankleshwar Taluka of the Broach District, or in the Surat District of the Province of Bombay or the Navapur Taluka of the West Khandesh District or in any of the States of Rajpipla, Sachin, Bansa or Dharampur or in the Navsari District of the Baroda State.

(d) "R. G. American description" means cotton from any place in the East Punjab Province, or in any of the States of Faridkot, Jind, Malerkotla, Nabha, or Patiala.

(e) "Dhollera" means cotton other than Kalagin and Muttia from any place in Kathiawar, or in any State of the Former Western India States, or in the district of Ahmedabad in the Bombay Province, or in Mehsana or Amreli

Districts of Baroda State or in Cambay State or Vaktapur Taluka of the former Gujrat States or Petlad; and includes "1027", "Kadi/Virangaon", "Kadaya" and "Vagad".

- (f) "Kalagin" means cotton other than Dholera and Muttia from any place in Kathiawar.
- (g) "Bengal Deshi" means cotton from any place in the East Punjab, or the United Provinces, Rajputana or any Indian State in any of these areas.
- (h) "Oomra Deshi" means cotton from any place in Berar and C. P., Khandesh Districts in the Bombay Province, Central India, or from Burhanpur, Barwaha, Harda, Khandwa, Sanavad, and includes cotton known as Muttia in Kathiawar.
- (i) "Coompta" means cotton from any place in any of the districts of Dharwar, Belgaum, Bijapur or Satara in the Bombay Province or in any of the States of Jath, Aundh, Phaltan, Kolhapur, Sangli, Miraj Senior, Miraj Junior, Kurundwad Senior, Kurundwad Junior, Savannur, Jamkhandi, Mudhol, Ramdurg, Mysore (excluding the districts of Mysore and Bangalore) or from the Raichur Protected Area in Raichur District of Hyderabad State; and includes "Farm", "Jawari", and "Jaywant".
- (j) "Upland" means cotton from any place as given above for Coompta; and includes "Farm".
- (k) "Westerns" means cotton from any place in Bellary, Anantpur, and Cuddapah districts, or in Pattkonda Taluka or Kurnool District of Madras Province or Raichur District (excluding Raichur Protected area) or Gulbarga District in the Hyderabad State; and includes "Farm", "Bagalkot" and "Jaywant".
- (l) "Cambodia" means cotton from any place in any of the districts of North Arcot, South Arcot, Coimbatore, Salem, Trichinopoly (including Pudukotai State, Madura, Ramnad, Tinnevely, Chittoor and Chingleput in the Madras Province; and includes "Farm" and "Avanashi".
- (m) "Karunganni" means cotton from any place in any of the districts of Coimbatore, Madura, Ramnad and Tinnevely in the Madras Province; and includes "Tinnevely".
- (n) "C. P. I, C. P. II and Central India" means cotton from Central Provinces (excluding Nimar and Hoshangabad districts); Yeotmal district; Morsi (Chief Centre Warud) and Chandur (Chief Centre Dhamangaon) talukas of Amraoti district of Berar; Central India (except Bundelkhand States and Rewa State); Jhalawar, Mewar and Partabgarh States and Siroj, Chhabra and Pirawa Parganas of Tonk State of Rajputana and includes Malvi.

## SCHEDULE

| Description of Cotton | Basic staple length inches | Basic Floor Price |              | Basic Ceiling Price |              | "On" and "On" Allowances for class other than basic class |      |      |         |  |               |        |       |     |       | "On" allowances for staple below basic staple |       |     |       |     |       |     |       |     |       | "On" Allowances for staple above the basic staple |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |       |     |         |

Bombay,  
14 September 1948.

T. P. BARAT,  
Textile Commissioner.

## CRASH OF AN I. N. A. AEROPLANE IN KASHMIR

\*392. **Shri Brajeshwar Prasad:** (a) Will the Honourable Minister of Communications be pleased to state whether any passenger plane belonging to the Indian National Airways crashed in Kashmir on the 16th January, 1949?

(b) What was the cause of the disaster?

(c) How many persons were killed?

(d) Have compensations been paid by the Indian National Airways to the dependents of the victims?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) A passenger plane belonging to Dalmia Jain Airways crashed in Kashmir on the 16th January, 1949.

(b) According to a preliminary report of investigation of the accident, it appears that the pilot encountered exceptionally bad weather conditions and the aircraft flew into the side of the mountain on the east side of the Banihal Pass through the pilot miscalculating his position. There is also the possibility that icing conditions affected the control of the aircraft. The aerodromes at Srinagar and Jammu, from where the aircraft last took off, are under the operational control of the Royal Indian Air Force. The cause of the accident is under enquiry and the question whether on the basis of the information about weather conditions, the Aerodrome officer should have prevented the aircraft from proceeding, can be determined after the enquiry has been completed.

(c) Thirteen.

(d) As far as Government is aware, no compensation has so far been paid, but Dalmia Jain Airways are covered by insurance against risks to passengers, and claims by persons who may be entitled to compensation will no doubt be considered when lodged. The Government have no liability for payment of compensation.

## EXPENDITURE ON AND EXPANSION OF CIVIL AVIATION

\*393. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Communications be pleased to state what was the amount set apart for civil aviation work during the years 1947-48 and 1948-49?

(b) How much of this amount has been spent, for what purpose was it spent and at what places?

(c) Have Government any plan for expansion of civil aviation?

(d) If so, do Government propose to lay a copy of their plan on the table of the House?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) and (b). The amounts originally set apart for Civil Aviation work during the years 1947-48 (post-partition) and 1948-49 were Rs. 2,67,27,000 and Rs. 6,22,82,000 respectively. These were however subsequently revised to Rs. 3,31,53,000 and Rs. 4,93,00,000. Information in regard to the actual amount spent is not available as the accounts for these years have not yet been finally closed. Two statements, one showing the distribution of the estimated expenditure for these two years under the various Schemes and the other showing the expenditure incurred on capital works at various aerodromes during the year 1947-48 and upto the 31st December, 1948 are laid on the table of the House. The expenditure on civil aviation activities other than capital works is incurred on an All-India basis and it is not possible to give figures for each place separately.

(c) and (d). Post-war plans for the development of Civil Aviation in India were formulated by Government in 1945-46. Copies of these plans are available in the library of the House.

## STATEMENT I

*Expenditure incurred on capital works during the year 1948.*

| Serial No.                               | Name of Work                                                                                                                                           | Grant sanctioned | Expenditure incurred upto December, 1948 |

## CONSTRUCTION OF NEW RUNWAYS

\*394. Dr. P. S. Deshmukh: (a) Will the Honourable Minister of Communications be pleased to state whether any new runways are proposed to be built?

(b) If so, where and what is the cost proposed to be incurred?

Shri Khurshed Lal (Deputy Minister for Communications): (a) Yes, Sir.

(b) New runways are proposed to be constructed at Calcutta (Dum Dum), Gauhati, Ajmer, Mangalore and Siliguri (Bagdogra) within the next two years. It is estimated that an expenditure of Rs. 90.5 lakhs will be incurred on the construction of these runways.

## PATENTS TAKEN UNDER INDIAN PATENTS AND DESIGNS ACT

\*395 { Shri Lakshminarayan Sahu  
Shri Brajeshwar Prasad  
Shri Satis Chandra Samanta  
Sardar Hukam Singh

Will the Honourable Minister of Industry and Supply be pleased to state:

(a) the number of those who have represented to the Government that relief should be given to owners of patents who were prevented from exploiting their patents on account of the war or the abnormal circumstances during the Post-war period; and

(b) the number of patents taken under the Indian Patents and Designs Act, 1911 which are about to expire or which expired recently?

The Honourable Dr. Syama Prasad Mookerjee: (a) Four patent agents, one firm and one individual have represented to the Government that relief should be given to these classes of patents. The patent agents represent the interests of a large number of patentees; about 90 per cent. of all applications are filed by these agents.

(b) About 926 patents are about to expire or have expired recently.

## DEVELOPMENT OF BALASORE PORT IN ORISSA

\*396. Shri Lakshminarayan Sahu: (a) Will the Honourable Minister of Transport be pleased to state the present condition of the Port of Balasore in Orissa?

(b) Will Government consider the question of developing it for merchant shipping?

The Honourable Shri N. Gopalaswami Ayyangar: (a) Balasore being a minor port administered by the Government of Orissa, no information about its present condition is available with the Government of India.

(b) No. The port has neither sufficient depth of water nor other facilities to warrant its development for commercial purposes.

## GUNNY BAGS LYING UNUSED IN JUTE FACTORIES AND ORDNANCE INSTALLATIONS

\*397. Shri Biswanath Das: Will the Honourable Minister of Industry and Supply be pleased to state:

(a) whether it is a fact that a large surplus of gunny bags to the extent of a few crores, intended to be used as sand bags during the war, are lying unused in certain jute factories of Calcutta and also in certain Ordnance Installations;

(b) if so, the total number of such bags as also the number in each jute mill and Ordnance Installation and the present condition of such bags;

(c) how many of these bags belong to British disposals which were purchased by India; and

(d) the rate at which these are purchased from the mills, the rate at which they were purchased from British disposals and the rate at which these are offered for sale?

The Honourable Dr. Syama Prasad Mookerjee: (a) and (b). Fifty-nine million sand bags were reported by the Defence Authorities in 1946 for disposal, including 39 million unproofed and 16 million proofed sand bags. The entire quantity of 39 million of unproofed sand bags has been sold. Of the 16 million rot-proofed bags, 13.1 million have been sold. There are now 29 lakhs rot-proofed sand bags lying with some jute mills in Calcutta. 1,35,000

unproofed bags are also lying at the Naval Stores Depot, Avadi. The exact quantity of gunny bags lying with various jute mills separately is not readily available.

The condition of the bags is reported as serviceable.

(c) All these bags originally belonged to British Disposals. They along with other stores, were acquired by the Government of India from H.M.G.

(d) The Ministry of Industry and Supply have not purchased any gunny bags after the last War. During the War, the prices paid were Rs. 11 to Rs. 12/4/- per 100 bags ordinary and Rs. 14/6/- to Rs. 15/4/- per 100 rot-proofed bags.

As stated above, these bags formed part of the bulk purchased from the British Disposals and hence separate rates of purchase for them are not available.

The quantities for disposal are being advertised for sale with a guarantee for export—unproofed bags at a reserve price of Rs. 15 per 100 bags and the rot-proofed at Rs. 13 per 100.

## MANUFACTURE AND IMPORT OF RAW FILMS AND OTHER ACCESSORIES

\*398. Shri Arun Chandra Guha: (a) Will the Honourable Minister of Industry and Supply be pleased to state whether any raw films for cinematograph are manufactured in India?

(b) If not, what steps do Government intend to take to foster this industry?

(c) What other film accessories are manufactured in India?

(d) What is the price and quantity of raw films and other film accessories imported into India?

The Honourable Dr. Syama Prasad Mookerjee: (a) No, Sir.

(b) Government will be prepared to render necessary technical assistance in connection with the importation of plant, foreign exchange, construction of factory to those enterprises who propose to start manufacture of raw film for cinematograph purposes.

(c) None, except simple spare parts for recording and reproducing machines

(d) A statement is laid on the table of the House.

## STATEMENT

|                                                       | Quantity       |            | Value in Rs.   |           |
|-------------------------------------------------------|----------------|------------|----------------|-----------|
|                                                       | 1947-48        | 1948       | 1947-48        | 1948      |
|                                                       | April-November |            | April-November |           |
| Cinema talkie apparatus and equipment                 |                |            |                |           |
| Cinema Projecting apparatus and parts and accessories |                |            | 62,07,947      | 25,84,717 |
| Sound recording apparatus and parts and accessories   |                |            | 84,63,968      | 17,01,235 |
| Cinematograph films Raw (length in feet)              | 174,200,351    | 70,900,630 | 79,96,320      | 34,35,605 |
| † Total                                               |                |            | 226,68,235     | 77,21,557 |

† Exclusive of import of Cinematograph films exposed accounting for 15,088,317 feet and 8,701,362 feet in length in 1947-48 and April to November 1948 valued at Rs. 19,98,280 and Rs. 21,36,195 respectively.

## SLEEPING BERTHS IN SECOND CLASS COMPARTMENTS

\*399. **Shri P. Kunhiraman:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that, while a certain number of sleeping berths are provided for Class II passengers of some railways and trains this amenity is not yet extended to a few other Railways and trains?

(b) If the answer to part (a) above be in the affirmative, what are the reasons for making this distinction?

**The Honourable Shri K. Santhanam:** (a) and (b). On all Indian Government Railways except the Assam Railway, arrangements have been made for the provision of sleeping accommodation in Class II in as many long distance trains as possible. That the Assam Railway has not so far been able to make similar provision is due to an acute shortage of rolling stock, but steps are being taken to see what can be done to remedy matters in this respect. The extension of Class II sleeping arrangements to more trains is a matter which Indian Government Railways have been directed to keep under constant review in the light of experience gained and of public demand.

## INTRODUCTION OF NIGHT AIR MAIL SERVICE

\*400. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state whether night air mail service between Delhi, Bombay, Calcutta, Madras and Nagpur have been introduced from 1st February, 1949 and if so, what are the terms on which the service has been undertaken and which Company has undertaken it?

(b) Have Government given any subsidy to the Company or made any financial commitment?

(c) How many Companies were consulted and has the Company which now operates given the most favourable terms?

(d) What are the charges for carrying parcels?

(e) Are passengers allowed to fly by these night planes and if not, why not?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) Indian Overseas Airlines Limited commenced operation of night airmail services between Delhi, Bombay, Calcutta and Madras via Nagpur on the 30th January, 1949, I lay on the table a statement giving the terms of operation.

(b) No subsidy is being given by Government to the company nor is there any financial commitment beyond that mentioned in the statement of terms.

(c) Government had been considering for some time the possibility of conveyance of air mails between the four principal cities of India by services operated during night. Under their instructions, the Director General of Posts and Telegraphs investigated the question after getting the reactions of some Air Operating Companies. When, as a result of these investigations, Government felt satisfied that the scheme was feasible, they requested the Air Transport Licensing Board to grant a licence to the Indian Overseas Airlines Limited which had offered very favourable terms. The Board in accordance with the prescribed procedure, circulated the scheme to all the Companies in India and invited them to put forward their views at a meeting held on the 29th January. None of the Companies excepting the Indian Overseas Airlines Limited was prepared to operate the services on the terms proposed, on the ground that it would be uneconomic.

(d) The charges paid to the company for carrying air parcels are the freight rates approved by the Air Transport Licensing Board for the direct routes, less 2.5 per cent.

(e) Passengers are not allowed to fly by these night services, since the aerodromes on the routes over which these services operate are not yet equipped to the standard required for the carriage of passengers from the point of view of safety.

## STATEMENT

1. The services shall start from the four cities (Delhi, Bombay, Madras and Calcutta) at about 9 P.M. every day, reaching Nagpur by about 1 A.M. and leaving Nagpur by about 2 A.M. arrive at the four terminal stations by about 6 A.M.

2. The Posts and Telegraphs Department will make available to the services to carry—

(a) such air mails as in their opinion could, with advantage, be sent by them on the routes mentioned, and

(b) all air parcels to places served by the services. The services will also be free to carry freight but will not be permitted to carry passengers.

3. The rate for the carriage of air mails will be the rate approved, from time to time, by the Air Transport Licensing Board (the current rate is Rs. 1-8-0 per lb.) and this rate will also cover the conveyance charges payable to the company for transmission by all connecting services operated by the same company.

4. The rates for the carriage of air parcels will be the rates approved by the Air Transport Licensing Board for the carriage of freight for the direct routes, less 25 per cent.

5. The rates for the carriage of freight will be those approved by the Air Transport Licensing Board.

6. The Posts and Telegraphs Department will not guarantee any minimum load either in respect of air mails or of air parcels for the carriage by the services.

## BOMBAY TELEPHONE WORKSHOP

\*401. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state when the Bombay Telephone Workshop was started and what kinds of articles and equipments are manufactured in this workshop?

(b) What is the total number of articles manufactured by this workshop during the last five years, each year separately?

(c) Is it a fact that Government contemplate to close down this workshop and if so, why?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) In 1917-18. This Workshop manufactures manual telephone switchboards, including trunk switchboards, Private Branch Exchanges, cords and various parts required for telephone instruments and switchboards.

(b) A statement is laid on the table of the House.

(c) No.

*Statement showing the principal items manufactured during the past five years.*

|         |                                                                                                       |
|---------|-------------------------------------------------------------------------------------------------------|
| 1944-45 | 29 switchboards and 75 P.B.Xs. for 2,616 lines and 24,394 cords.                                      |
| 1945-46 | 50 switchboards and 83 P.B.Xs. for 5,286 lines and 52,759 cords.                                      |
| 1946-47 | 8 switchboards and 29 P.B.Xs. for 1,246 lines and 41,078 cords.                                       |
| 1947-48 | 24 switchboards and 80 P.B.Xs. for 1,770 lines and 85,201 cords.                                      |
| 1948-49 | 140 switchboards and 533 P.B.Xs. switchboards with a total capacity of 29,721 lines and 97,946 cords. |

## CIVIL OR MILITARY STORES SUPPLIED TO JAMMU AND KASHMIR

**\*402. Prof. K. T. Shah:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what is the value of the Civil or Military Stores supplied to the Government of Jammu and Kashmir?

(b) Were any tenders invited for the supply of such stores and other requirements of the Government of Jammu and Kashmir sent from this country?

(c) Has any payment been made by the State Government for any such stores supplied by the Government of India?

(d) What measures, if any, are adopted to recover the amount outstanding on account of stores supplied to the Government of Jammu and Kashmir?

**The Honourable Dr. Syama Prasad Mookerjee:** The question should have been addressed to the Honourable Minister of States. It has accordingly been transferred to the list of questions for 17th February, 1949 when the Honourable Minister of States will answer it.

## DELAY IN TRANSIT OF SURFACE MAIL TO U. S. A. AND U. K.

**\*403. Shri Ari Bahadur Gurung:** (a) Will the Honourable Minister of Communications be pleased to state whether Government are aware of the complaints from the Press and the public, about the delay now occurring in the despatch to and receipt in the United States of America of surface mail from India?

(b) How many days does it take for surface mails to reach the United States of America and the United Kingdom from Bombay?

(c) What are the reasons for the delay of nearly two months, and do Government propose to take any steps in the matter?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) No. Government have not seen any complaints in the press about this matter, but a couple of complaints from individual members of the public have been received.

(b) Normally about 22 to 31 days to the U.S.A. and 18 to 21 days to the U.K. from Bombay.

(c) There are at present no regular scheduled sailings between India and the U.S.A. and India and the U.K. Such passenger and fast cargo steamers as are available, are utilised for despatch of mails to the U.K. and the U.S.A. Mails for the U.S.A. are sent by American steamers which also do not sail to any regular schedule. Mails for the U.S.A. are also sent via U.K. and on such occasions, it takes about 36 days to reach destination. No definite improvement is possible unless there is an improvement in the present shipping position and the countries concerned re-introduce regular sailings.

## IMPORT OF SUGAR FROM JAVA

**\*404. Shri Ari Bahadur Gurung:** (a) Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that sugar has been imported from Java at Rs. 26 per maund, and that the same sugar is being sold here in the market at Re. 1 per seer?

(b) If so, how many maunds have thus been imported during the year 1948, and how was the difference between the buying and selling prices distributed?

**The Honourable Shri Jai Ramdas Doulatram:** (a) and (b). No sugar was imported last year from Java.

## NUMBER OF MILLS AND PRODUCTION OF CLOTH

**\*405. Shri Ari Bahadur Gurung:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) the number of cloth mills operating in the country and their outturn during the year 1948;

(b) the number of mills which existed before the 15th August, 1947, with their annual production; and

(c) whether any steps are being taken to speed up production with a view to achieve self-sufficiency in the near future?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) There are 356 spinning and composite Mills. Their production in the year 1948 was:

Yarn—1,442,757,000 lbs.

Cloth—4,321,000,000 yds.

In addition there are 107 weaving factories each with 25 powerlooms or more. In 1948 they produced about 50 million yards of cloth.

(b) Before partition there were 371 spinning and composite Mills. The average annual production in the three years before the partition (1944, 1945 and 1946) was:

Yarn—1,564,699,000 lbs.

Cloth—4,500,649,000 yds.

In addition there were 123 weaving factories with an annual production of about 65 million yards of cloth.

(c) India now exports about 750 million yards of cloth and 40 million lbs. of yarn, mostly of coarse and medium varieties, to Pakistan and other countries. We are now importing about 35 million yards of cloth, mostly of fine and superfine varieties. I would not say that we are not virtually self-sufficient. We could, however, use more cloth if we produced more.

Increase of production, however, involves better utilisation of existing capacity, installation of additional capacity and production of more cotton in the country.

The production in 1948 was about 85 per cent. of the maximum possible output, which was higher than most other industries. Government however appointed an expert Committee to recommend ways for the better utilisation of the existing capacity and are now considering the Report.

As for additional capacity the Textile Expansion Plan contemplates a 25 per cent. increase of capacity during the next few years. One new Mill under the Textile Expansion Plan has already started working and two more will begin to work in the course of the next few months.

## FOOD DELEGATIONS SENT ABROAD

**\*406. Shri Satish Chandra:** Will the Honourable Minister of Food be pleased to state:

(a) the names of the members of each food delegation sent abroad since 15th August, 1947;

(b) the names of the countries to which they were sent;

(c) which of those countries have Food Attaches of the Government of India posted in Indian Embassies there;

(d) the purpose of each delegation and the precise achievement in each case;

- (e) the expenditure incurred each time;  
 (f) similar details about the delegations proposed to be sent abroad in the near future, if any; and  
 (g) the steps contemplated to curtail expenditure in this respect?

**The Honourable Shri Jairamdas Doulatram:** (a), (b), (d) and (e). A statement is laid on the table of the House.

(c) There is no Food Attache in any of these countries except the U.S.A.

(f) No such proposal is at present under consideration.

(g) A delegation is sent abroad only after the most careful consideration and only in special circumstances when the Ministry of Finance is also satisfied that the proposed business can best be negotiated by negotiations on the spot. The deals which these delegations negotiated ran into very large sums of money and personal negotiation and personal supervision on the spot has saved Government moneys infinitely greater than the expenditure involved.

*Statement showing particulars of Food Delegations sent abroad for making purchases of foodgrains during the period 15.8.47 to date.*

| Serial No. | Month and year in which the delegation was sent | Object of the delegation                                                         | Names of members of the delegation                                                                              | Approximate cost of the delegation                                                                                              | Result achieved                                                                                                              |
|------------|-------------------------------------------------|----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|

Bhojwani                                                                          | About 2,500/-                              | Ditto.                                                                                                                                                                                                                                                                                                |

## PURCHASE AND SALE OF FOOD STUFFS

\*407. **Babu Ramnarayan Singh:** Will the Honourable Minister of Food be pleased to state:

- (a) the amount of money realised from sale of cereals to the people in the year 1947-48;
- (b) the amount of money considered as loss and paid by Government in 1947-48 in order to make up the difference between the purchase price and the amount realised from sale of cereals;
- (c) the quantity of cereals actually consumed in 1947-48 and the quantity kept in reserve; and
- (d) the quantity of cereals treated as waste?

**The Honourable Shri Jai Ramdas Doulatram:** The honourable member is presumably referring to cereals which are imported by the Government of India for distribution to Provinces/States. In addition, there is also internal procurement of grains by Provinces and States who issue it to consumers within their areas or export it to other deficit Provinces/States under allocations made by the Food Ministry on a "no profit no loss" basis. Information about the price of these supplies is not readily available and is being collected.

The information in regard to imported foodgrains is as follows:

- (a) The total amount realised from Provinces/States amounted to 91.68 crore rupees.
- (b) The loss to the Government of India in the distribution of imported foodgrains consisted mainly of subsidy paid to Provincial Governments. The total expenditure on this account during 1947-48 amounted to 17.12 crore rupees.
- (c) The total quantity of cereals issued to Provinces/States during 1947-48 was 23.73 lakhs tons. The quantity kept in reserve in the Central Government godowns on the 31st March, 1948 was 1.17 lakh tons.
- (d) The quantity condemned as unfit for human consumption during 1947-48 in the Central Storage Depots totalled 232 tons.

## TELEPHONES FOR RURAL AREAS

\*408. **Babu Ramnarayan Singh:** Will the Honourable Minister of Communications be pleased to state whether telephone facilities are still confined to the urban areas and if so, when Government will consider the question of extending these facilities to the rural areas?

**Shri Khurshed Lal (Deputy Minister for Communications):** The reply to the first part of the question is in the affirmative. As regards the second part, telephones will be introduced in rural areas when such introduction becomes economically practicable.

## FACTORIES FOR MANUFACTURE OF BASIC POWER PLANTS

\*409. **Prof. N. G. Ranga:** Will the Honourable Minister of Industry and Supply be pleased to state:

- (a) whether the Government of Madras has requested the Government of India to locate one of their basic power plant manufacturing factories in Madras; and
- (b) what are the plans of the Government of India for starting such factories?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir.

(b) Two consulting firms have been appointed to prepare project reports which will, among other matters, deal with possible sites for the location of the factory, capital cost involved, categories of plant to be manufactured, raw materials required and cost of production. On receipt of these reports, which are expected within the next six months, Government will take a decision.

## UNSTARRED QUESTIONS AND ANSWERS.

## MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF AGRICULTURE

17. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Agriculture be pleased to state the number of meetings of the Standing Committee for the Ministry of Agriculture held during the Calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Shri Jai Ramdas Doulatram:** (a) Two.

(b) The total number of members is ten of which seven members attended each of the meetings.

## MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF COMMUNICATIONS

18. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state the number of meetings of the Standing Committee for the Ministry of Communications held during the Calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**Shri Khurshed Lal (Deputy Minister for Communications):** (a) Four.

(b) The number of members on the Committee is ten and the attendance at the meetings was four, five, four and seven respectively. I must add that notice given for one of the meetings was unavoidably too short for a majority of the members to attend.

## MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF INDUSTRY AND SUPPLY

19. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the number of meetings of the Standing Committee for the Ministry of Industry and Supply held during the Calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Ten meetings were held in 1948, the first one on the 3rd February, and the last one on the 30th December.

(b) The total number of non-official members is ten. Attendance varied between five and seven. A detailed statement is laid on the table of the House.

*Statement showing the number of meetings of the Standing Committee of the Legislature attached to the Ministry of Industry and Supply held in the year 1948.*

| Number of meetings held during 1948, i.e. January to December 1948 | Dates on which these meetings were held | Total number of non-official members of the Committee | Number of non-official members that attended the meetings |
|--------------------------------------------------------------------|-----------------------------------------|-------------------------------------------------------|-----------------------------------------------------------|
| 10                                                                 | 3-2-48                                  | 10                                                    | 5                                                         |
|                                                                    | 6-2-48                                  |                                                       | 6                                                         |
|                                                                    | 29-3-48                                 |                                                       | 6                                                         |
|                                                                    | 3-4-48                                  |                                                       | 7                                                         |
|                                                                    | 16-8-48                                 |                                                       | 5                                                         |
|                                                                    | 19-8-48                                 |                                                       | 5                                                         |
|                                                                    | 21-8-48                                 |                                                       | 6                                                         |
|                                                                    | 24-8-48                                 |                                                       | 5                                                         |
|                                                                    | 30-8-48                                 |                                                       | 6                                                         |
|                                                                    | 30-12-48                                |                                                       | 5                                                         |

## MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF TRANSPORT

20. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Transport be pleased to state the number of meetings of the Standing Committee for the Ministry of Transport held during the Calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) There are two Standing Committees of the Legislature attached to the Ministry of Transport, viz., Standing Committee for Roads and Standing Committee for subjects other than Roads. Each of these Committees met twice during the year 1948.

(b) The required information is given below:

| Name of the Standing Committee                       | Total No. of Members                                                 | Attendance at each of the Meetings |
|------------------------------------------------------|----------------------------------------------------------------------|------------------------------------|
| 1. Standing Committee for Roads                      | 14 (including the Chairman and the Chief Commissioners of Railways). | 7, 12.                             |
| 2. Standing Committee for subjects other than Roads. | 11 (including the Chairman)                                          | 4, 5.                              |

## MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF RAILWAYS

21. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state the number of meetings of the Standing Committee for the Ministry of Railways held during the Calendar year 1948?

(b) What is the total number of members of the Committee and what was the attendance at each meeting?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The numbers of meetings of the Standing Committees of this Ministry held during the calendar year 1948 were:

Central Advisory Council for Railways—4.  
Standing Finance Committee for Railways—9.

(b) The number of members present at the meetings of the Standing Committees is given below:

|                                          |                                      |                                   |
|------------------------------------------|--------------------------------------|-----------------------------------|
| Central Advisory Council for Railways    | Total membership                     | 20.                               |
|                                          | Attendance at the different meetings | 20, 17, 14 and 19.                |
| Standing Finance Committee for Railways. | Total membership                     | 12.                               |
|                                          | Attendance at the different meetings | 10, 7, 5, 7, 5, 10, 9, 10, and 9. |

## PURCHASE OF TRACTORS

22. **Srijut Rohini Kumar Chaudhuri:** Will the Honourable Minister of Agriculture be pleased to state:

(a) the number of tractors purchased by the Government of India in 1948, their total value and the name of the firm or firms who supplied them;

(b) how many tractors have been lent or given to the provinces; and

(c) how many tractors have been used by the Ministry of Agriculture of the Government of India itself and where have they been so used?

**The Honourable Shri Jairamdas Doulatram:** (a) 418 tractors were purchased by the Ministry of Agriculture during 1948. The total value of these tractors is Rs. 48,30,000 approximately. Of the 418 tractors 207 were purchased in

the United States of America through the India Supply Mission, Washington, from the following firms:

146 from the Allis-Chalmers Manufacturing Co., Spring-Field, Illinois.

25 from the Intercontinent Corporation, New York.

6 from the Caterpillar Tractors Co., Peoria, Illinois.

30 from Messrs. Volkart Bros., New York.

The remaining 211 tractors were purchased in India through the Director General of Industries and Supplies, from the undermentioned firms:

110 from Messrs. Ford Motor Co. (India) Ltd., Calcutta.

42 from Messrs. Construction Equipment Co., Bombay.

10 from Messrs. Marshall, Sons & Co. (India), Ltd., Madras.

25 from Messrs. Willcox Marshall, (Buckwell-India) Ltd., New Delhi.

24 from Messrs. Volkart Bros., Bombay.

(b) 170 tractors were purchased for and supplied to the Provincial Governments against their indents. No tractors have been lent to them.

(c) The Ministry of Agriculture of the Government of India is using on behalf of the Provincial and State Governments. 248 light tractors in connection with mechanical cultivation operations. The distribution of these tractors is as follows:

|              |         |
|--------------|---------|
| Matsya Union | ... 125 |
| East Punjab  | ... 120 |
| Delhi        | ... 3   |

## CENTRAL BOARD OF COTTAGE INDUSTRIES

23. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what are the functions of the newly formed Central Board of Cottage Industries?

(b) What are the cottage industries that are proposed to be developed?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The attention of the honourable member is invited to Government Resolution, No. I-4(5)/1/48, dated the 10th August, 1948, a copy of which is placed on the table of the House. Briefly, the functions of the Cottage Industries Board are:

(i) to advise and assist Government on the organisation and development of cottage and small-scale industries;

(ii) to examine and advise how cottage and small-scale industries can be co-ordinated with large-scale industries;

(iii) to examine the schemes of the Provincial and State Governments for the promotion of cottage and small-scale industries and to assist in co-ordinating them; and

(iv) to advise the Government on the marketing of the products of cottage and small-scale industries in India and abroad.

(b) The only cottage industries which will not come under the scope of the Board are sericulture, silk-reeling and silk-weaving. That is because these industries will be dealt with by a separate statutory Silk Board. The primary responsibility for the development of cottage industries lies with the provincial and the State Governments, and the All-India Board will assist and co-ordinate their efforts. At their first meeting the Board decided to set up Sub-Committees to deal with the handspinning and the handloom weaving industries, the metal industry and the leather industry. Other activities of the Board such as the organising of Instructor's and mastercraftsmen's training, experimental work as regards utilisation of small machines and tools, central salves emporium and stimulation of exports will benefit all cottage industries.

GOVERNMENT OF INDIA  
MINISTRY OF INDUSTRY AND SUPPLY

## RESOLUTION

*New Delhi, the 10th August, 1948*

No. I-4(5)/1/48.—In accordance with the announcement in paragraph 8 of the Government of India Resolution on Industrial Policy, dated 6th April, 1948, the Central Government have decided to constitute a Cottage Industries Board consisting of :—

- (1) The Minister for Industry and Supply—*Chairman*.
- (2) One representative each from the provinces of Assam, Bengal, Bihar, Bombay, Central Provinces, East Punjab, Madras, Orissa and the United Provinces, and the following major States and Unions :

Baroda,  
Bikaner,  
Cochin,  
Jaipur,  
Jammu and Kashmir,  
Jodhpur,  
Madhya Bharat (Gwalior-Indore-Malwa Union),  
Matsya,  
Mysore,  
Patiala and East Punjab States,  
Rajasthan,  
Saurashtra,  
Travancore,  
Vindhya Pradesh,

- (3) One representative each of the Ministries of Finance, Agriculture and Relief and Rehabilitation.
- (4) Two representatives of the Ministry of Industry and Supply.
- (5) One representative each of the All-India Spinners' Association, All-India Handloom Weavers' Congress, All-India Village Industries Association, Visva-Bharati, West Bengal, and Dayal Bagh, Agra.
- (6) Seven non-officials nominated by the Central Government inclusive of two from the Standing Committee of the Legislature advising the Ministry of Industry and Supply.
- (7) The Director in charge of the Cottage Industries Directorate in the Directorate General of Industry and Supply will be the Member-Secretary.

## 2. The Board will have the following functions :—

- (i) To advise and assist Government on the organisation and development of cottage and small-scale industries.
- (ii) To examine and advise how cottage and small-scale industries can be co-ordinated with large-scale industries.
- (iii) To examine the schemes of the Provincial and State Governments for the promotion of cottage and small-scale industries and to assist in co-ordinating them.
- (iv) To advise the Government on the marketing of the products of cottage and small-scale industries in India and abroad.

The Board will appoint sub-committees for particular purposes. One such Committee will deal with handloom production.

3. Though representatives of the smaller States and of Chief Commissioner's Provinces have not been included in the Board, the interests of the cottage and small-scale industries of these areas will also be given due attention by the Board. The Governments of these areas will be kept informed of the transactions of the Board and they will be invited to depute their representatives to participate in its proceedings whenever this is considered desirable.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

## (PART I—QUESTIONS AND ANSWERS)

*Wednesday, 16th February, 1949*

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

## STARRED QUESTIONS AND ANSWERS

## (a) ORAL ANSWERS

## TRAINING OF OFFICERS FOR INDIAN MERCHANT NAVY

\*410. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state whether the committee appointed by Government in the year 1947 to report on the problem of shortage of Merchant Navy Officers has submitted its report?

(b) Is it a fact that no facility exists for the Merchant Navy to train Merchant Navy Officers in India?

(c) Is it a fact that duly qualified students could not get admission in any Indian Merchant ship for such training for want of accommodation?

(d) How many cadets were taken by the shipping companies for training every year during the last five years?

(e) Is it a fact that a Nautical College has been opened in Bombay and if so, what would be the period of the course and what are the qualifications prescribed for admitting students?

(f) How many students have so far been admitted in this College?

(g) How many had applied, how many were rejected for want of suitable qualification and how many were rejected for want of accommodation?

**The Honourable Shri K. C. Neogy:** (a) Yes, the Committee has so far submitted five interim reports.

(b) and (c). No. The Merchant Navy has been training a certain number of boys every year.

| (d) Year | Executive Branch | Engineering Branch |
|----------|------------------|--------------------|
| 1944     | 24               | 29                 |
| 1945     | 23               | 27                 |
| 1946     | 30               | 42                 |
| 1947     | 64               | 61                 |
| 1948     | 74               | 78                 |

(e) (i) Yes.

(ii) The College is primarily for imparting post-sea technical instruction to candidates preparing for the Commerce Ministry's examinations for Certificates of Competency as Merchant Navy Officers both executive and engineering. All persons qualified to sit for such examination by virtue of having undergone the prescribed practical training on board ships, and, in the case of Engineer Officers also in Marine Engineering Workshops, can be admitted to the College. The duration of the course is three months for each examination.

(iii) As a special measure, the College will also impart pre-sea training both for the executive and engineering branches, to boys between the ages of 16 and 18 years who have passed the Matriculation Examination, for the executive branch, and to those that have acquired the necessary practical engineering experience, without any age limit, for the engineering branch.

|                              |    |                                                                  |
|------------------------------|----|------------------------------------------------------------------|
| (f) (i) For post-sea courses | 54 | 19 for the executive side and 35 for the engineering side.       |
| (ii) For pre-sea courses     | 32 | were admitted all for the executive side but one withdrew later. |

Total on 1st February 1948 85

(g) (i) For post-sea courses on both sides, executive and engineering, all boys possessing the requisite practical experience who applied were admitted.

(ii) For pre-sea training, selections were to be made for 32 vacancies in the Executive Branch. About 300 applications were received. Fourteen were rejected for want of the requisite academic qualifications (Matriculation Examination) and none for want of accommodation in the College.

**Shri R. K. Sidhva:** May I know whether the Committee reported that a large number of persons holding the requisite qualifications are available but in the absence of advance post-technical institutions they could not be admitted? If that is so, may I know what steps Government intend to take to see that the students are trained in some institution?

**The Honourable Shri K. C. Neogy:** I have before me the recommendations of this Committee summarized. I do not know whether my honourable friend is quite correct in what he has stated. But I should like to make it clear that training at an institution is not compulsory in any case. It is only for the purpose of assisting these boys to get through their examination on the theoretical side that these training classes have been opened.

**Shri R. K. Sidhva:** I have got also the Committee report before me and what I stated is correct. I would therefore like to know whether my report is correct or the Honourable Minister's report is correct.

**Mr. Speaker:** Order, order. It is a matter of referring to the report.

**Shri R. K. Sidhva:** May I know whether shipping companies are insisted to accept people for training officers for administrative and engineering purposes? If so, which shipping companies have been asked to take a certain number of students for such training?

**The Honourable Shri K. C. Neogy:** There is no question of insistence. They are being freely taken.

**Shri R. K. Sidhva:** May I know whether the Dufferin imparts sea training and if so what is the number? Has the Committee also made a recommendation that improvement should be made in the training of Dufferin cadets?

**The Honourable Shri K. C. Neogy:** I am afraid my honourable friend is not quite accurate. The report is a rather complicated matter and it deals with certain technical points; so I should not like to say off-hand anything in reply to such questions. But the report is available in the library.

**Shri V. C. Kesava Rao:** May I know whether any officers were sent to foreign countries for advanced training?

**The Honourable Shri K. C. Neogy:** I do not think so.

**Mr. Frank Anthony:** The Honourable Minister has mentioned that the Matriculation Examination is part of the prescribed qualification. Am I to understand that other examinations which are regarded as equivalent to the Matriculation Examination such as the School Certificate are not accepted?

**The Honourable Shri K. C. Neogy:** I think so, but I should like to make sure of that.

**Shri B. N. Munavalli:** May I know when the Nautical College was started and how many students have obtained degrees so far?

**The Honourable Shri K. C. Neogy:** It was started very recently.

**Shri Biswanath Das:** May I know whether the call for applications has been duly and properly advertised in provincial newspapers, and if so, whether it was also advertised in vernacular newspapers?

**The Honourable Shri K. C. Neogy:** I do not know about the vernacular papers, but I am told that the matter has been given due publicity.

**Pandit Lakshmi Kanta Maitra:** What is the number of students that this College can take in any particular term?—I want to know the capacity of the college.

**The Honourable Shri K. C. Neogy:** The capacity of the Nautical College is I think 90 in a year, for the executive pre-sea training, and on the engineering side it is proposed to arrange for the training of 40 students.

**Pandit Lakshmi Kanta Maitra:** What is the number of terms in the course of a year?

**The Honourable Shri K. C. Neogy:** Three months constitute a term in one case, and in the case of engineering it is four months.

**Shri B. Das:** What steps have been taken to open a complementary technical nautical college in Calcutta, and will it be available for training of Merchant Navy officers?

**The Honourable Shri K. C. Neogy:** That proposal is under consideration.

**Seth Govind Das:** Is the Honourable Minister aware that there are some institutions like Gurukul Kangri and Kashi Vidyapeeth and their degrees are equivalent to Matriculation, and is that qualification also taken into consideration when taking boys in the college?

**The Honourable Shri K. C. Neogy:** As far as I am aware, it is not so.

**Shri R. K. Sidhva:** Is it a fact that the Committee has made the following report, and if so, what steps have Government taken in this direction?:

"They could perhaps be justified in the past when the demand for Merchant Navy Officers was small, but now that there is urgent need for the training of such officers in larger numbers the system of training on the ship must be re-organised with a view to converting it into a purely vocational institution and thereby increasing its intake."

**The Honourable Shri K. C. Neogy:** Their recommendation has been accepted and it is being given effect to.

#### COLLECTION OF FUNDS IN U. S. A. AND U. K. FOR REHABILITATION OF REFUGEES

\*411. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether any money has been collected from the Anglican, Methodist and Presbyterian Churches in the United States of America and the United Kingdom for rehabilitating refugees from Pakistan?

(b) If so, what is the scheme for which such collection has been made and have Government been approached in this connection by those concerned in the collection of the funds?

(c) Has any other agency in foreign countries sent money to India for rehabilitation work? If so, what are the details?

**The Honourable Shri Mohan Lal Saksena:** (a) No.

(b) Does not arise.

(c) A statement giving the information is placed on the table of the House.

## STERLING BALANCES ACCOUNT AND IMPORT AND EXPORT TRADE

**\*412. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Commerce be pleased to state how the account of Sterling balances with the Bank of England stands as at the end of January, 1949, what amount of sterling balances was liquidated during the period commencing from 1st April, 1948 up to date and for what specific purposes the amount was utilized?

(b) What is the total value of imports from and exports to the soft and hard currency areas during the period from 1st April, 1948 up to this day?

(c) What is the dollar earnings made by India from month to month during this period and what is the cause of decrease, if any?

(d) What is the total cost of imports of consumers goods and capital goods separately from soft and hard currency areas and what is the percentage of the capital goods imported as compared to the total imports?

**The Honourable Shri K. C. Neogy:** (a) and (c). I would be grateful if the honourable member does not press for an answer to these parts of the question as my honourable colleague in charge of Finance proposes to deal with this matter in detail in his forthcoming budget speech.

(b) and (d). I lay on the table two statements giving the requisite information for the period April to October, 1948 as available at present.

## STATEMENT I

Total value of imports from and exports to hard and soft currency areas for seven months from the 1st April 1948 to 31st October 1948.

(Figures in crores of rupees)

| Currency Areas                 | Imports | Exports |
|--------------------------------|---------|---------|
| Dollar and Hard Currency Areas | 73      | 68      |
| *Soft Currency Areas           | 194     | 171     |
| TOTAL                          | 267     | 239     |

\*Inclusive of Imports from/Exports to Sweden and Switzerland.

## STATEMENT II

Total cost of consumers goods and Capital goods from soft and hard currency areas imported during the seven months from 1st April 1948 to 31st October 1948, and percentage of Capital goods imported as compared to total imports.

(figures in crores of rupees)

| Currency Areas.                 | Capital Goods. | Consumer Goods. |
|---------------------------------|----------------|-----------------|
| Dollar and Hard Currency Areas. | 12             | 32              |
| * Soft Currency areas.          | 31             | 87              |
| Total                           | 43             | 119             |

\* Inclusive of Imports from Exports to Sweden and Switzerland.

NOTE: (1) Grand total of all imports 267 (includes import of industrial goods, raw materials and accessories needed by industries from all sources amounting to 1050).

(2) Percentage of Capital Goods imported as compared to total imports: 16.1

**Shri B. Das:** May I know whether the United Kingdom deputation to negotiate the settlement of the Sterling Balances has left India?

**The Honourable Shri K. C. Neogy:** I do not know how that arises out of this question.

**Mr. Speaker:** It arises because there is mention of Sterling balances in the question!

**Shri B. Das:** The Honourable Minister can at least tell us if the deputation is in India?

**The Honourable Shri K. C. Neogy:** I do not know what significance is to be attached to the departure of the Delegation.

## EXPORT OF COTTON CLOTH, CASTOR SEEDS AND OIL

**\*413. Pandit Makut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Commerce be pleased to state the total quantity of cotton cloth, castor seeds and oil produced in India during the years 1947-48 and 1948-49, and the stocks of these commodities accumulated till January, 1949?

(b) What is the quantity of castor seeds and oil exported during the year 1947-48 and in the year 1948-49 (up to date)?

(c) What are the reasons which led the Government of India to reduce export duty on cotton cloth, castor seeds and oil?

**The Honourable Shri K. C. Neogy:** (a) and (b). A statement giving the required information is placed on the table of the House.

(c) It was represented to Government by the interests concerned that the export duty levied on cotton textiles and castor seeds and oil had led to an increase in the Indian prices of these commodities to such a level as to render it difficult, if not impossible, for them to compete in foreign markets. The Government of India considered, after carefully examining the matter, that as the continued levy of these duties was likely to affect our export market in these commodities, the duty on cotton textiles should be reduced from 25 per cent. *ad valorem* to 10 per cent. *ad valorem* and that it should be removed altogether in the case of castor seed and oil.

*Production and export of cotton cloth, Castor seed and castor oil,*

|                                                                                   |        | Quantity                             |
|-----------------------------------------------------------------------------------|--------|--------------------------------------|
| I. Cotton Cloth—                                                                  |        |                                      |

**Shri B. P. Jhunjhunwala:** May I know what has been the effect on import after reducing this duty?

**The Honourable Shri K. C. Neogy:** It is too early yet to judge the effect. But I think so far as cotton textile trade is concerned, it has had an appreciable effect in improving the position.

## FOREIGN TRADE AND APPOINTMENT OF TRADE COMMISSIONERS

\*414. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Commerce be pleased to state what steps the Government of India have so far taken or intend to take in the near future to stimulate exports, with a view to improve India's international trade balance?

(b) In which countries have Trade Commissioners so far been appointed by the Government of India, and are there any proposals for the appointment of Trade Commissioners in other foreign countries and if so, when and in which countries?

(c) With which foreign countries have the Government of India, already entered into commercial agreements?

(d) Do Government propose to enter into negotiations and agreements with other countries and if so, with which, on what terms and in respect of which commodities?

**The Honourable Shri K. C. Neogy:** (a) Measures taken to stimulate exports with a view to improving India's trade balance fall into the following two general categories: (i) Measures to stimulate exports in general to all foreign countries, and (ii) Measures to stimulate exports to hard currency areas.

As regards (i), measures already taken include decontrol of the export of over 200 commodities since the termination of the war, strengthening of commercial representation abroad, participation in various national and international fairs and exhibitions with a view to publicising Indian commodities, affording priority assistance for movement of goods intended for export, despatch of trade delegations to various countries and negotiations for concluding trade agreements with various countries. Measures proposed to be taken further include the opening of show rooms in the offices of Trade Representatives abroad for exhibiting Indian commodities, the examination of proposals for setting up an organisation similar to the British Export Trade Research Organisation, the standardisation of goods intended for export so as to ensure a certain optimum standard.

As regards (ii), certain goods, the export of which to easy currency areas is controlled, are allowed to be exported freely to hard currency areas while quotas of certain other commodities like jute goods, oils and oil-seeds and cloth are fixed liberally for such areas.

(b) to (d). I lay on the table of the House a statement containing the requisite information.

## STATEMENT

(b) (i) The Government of India have appointed Commercial Representatives in the following countries:—

- (1) U. K. and Eire.
- (2) Australia and New Zealand.
- (3) Canada and Newfoundland.
- (4) East Africa.
- (5) Egypt.
- (6) Ceylon.
- (7) Pakistan.
- (8) Eastern Pakistan.
- (9) Brazil (for northern part of South America)
- (10) Iran.
- (11) France (for whole of Europe except Germany, Austria and Czechoslovakia).
- (12) Germany (for Germany, Austria and Czechoslovakia).
- (13) Japan.
- (14) Burma.
- (15) Afghanistan.

These Representatives are designated as Trade Commissioners and Assistant Trade Commissioners in Commonwealth countries and as Commercial Counsellors, Commercial Secretaries or Commercial Attaches in other countries.

(ii) It has been decided to appoint Commercial Representatives in the following countries and appointments will be made as soon as suitable incumbents are available.

- (1) Italy (for Italy, Greece and Balkan countries).
- (2) Iraq.
- (3) Aden.
- (4) Czechoslovakia.
- (5) West Canada.
- (6) Siam.
- (7) Switzerland.

(iii) Our trade interests in the following countries where we have no separate commercial representatives are watched by our diplomatic and consular officers.

- (1) U. S. A.
- (2) China.
- (3) Argentine (for Southern part of South America).
- (4) Sinkiang.

(5) West Indies.

(6) Fiji.

(7) Mauritius.

(iv) Proposals are at present under consideration for the appointment of commercial representatives in the following countries and appointments will be made as soon as necessary formalities have been completed.

(1) Hong Kong.

(2) Turkey.

(3) U. S. S. R.

(4) Belgium (for Belgium and Holland).

(5) Malaya.

(6) East U. S. A.

(7) Phillippines.

(c) Foreign countries with which the Government of India have already entered into Commercial agreements.

(i) Anglo-American Zone of Germany;

(ii) Yugoslavia;

(iii) Pakistan; and

(iv) Japan.

(d) Foreign countries with which the Government of India have in view trade negotiations.

(1) Italy.

(2) France.

(3) Belgium.

(4) Switzerland.

(5) U. S. S. R.

(6) Poland.

(7) Finland.

(8) Austria.

(9) Czechoslovakia.

(10) Soviet Zone of Germany.

(11) Hungary.

(12) Sweden.

(13) Afghanistan.

(14) Iran.

(15) Iraq.

(16) Egypt.

(17) Tibet.

(18) Siam.

(19) Ceylon.

(20) Burma.

Italy, France, Belgium, Switzerland, U. S. S. R., Poland, Finland, Austria, Czechoslovakia, Soviet zone of Germany, Hungary and Sweden.—During the last few months we have been carrying on negotiations with European countries mentioned above but it is premature to indicate the terms and commodities which will figure in the trade agreements, if any, that might be entered into with these countries. Currency considerations, the economic position of our country as well as that of the various European countries concerned, the need for speeding up India's programmes of post-war reconstruction and post-independence industrialization, our acute food shortage, prices and delivery dates and several other factors have to be taken into account before committing ourselves in regard to any items of export or import, especially the latter. All these factors make it difficult to make a categorical and unequivocal statement but generally speaking, it may be stated that while negotiating trade agreements with foreign countries, our endeavour is to import mostly such articles as are essential to our economy e.g. foodgrains, steel, machinery and instruments, fertilizers, chemicals and pharmaceuticals, and export as many of our commodities as we can e.g. tobacco, shellac, coir yarn and coir goods, spices, tea, jute goods, castor oil, pepper and niger and kurdi seeds, short staple cotton and cotton textiles.

Afghanistan.—Matters relating to trade in general were discussed with the Afghan Government by an Indian Trade Delegation which visited that country in October last.

The main commodities which will figure in the negotiations are Afghan fruits and raw cotton on the one hand and Indian cotton textiles, tea, sugar and Indian tobacco on the other. Further negotiations are at present in progress with the Afghanistan Delegation visiting this country.

Iran.—The Indian Trade Delegation which visited Afghanistan had also had general trade talks with the Iranian Government whose particular attention was invited to the various difficulties experienced by all foreigners including Indians in Iran who as a result of the Import Control Act enacted by the Iranian Government were prevented from taking part in the import trade. The Delegation were assured in general term that the Iranian Import Control Act would be amended suitably so as to remove this disability. India may receive from Iran supplies of agricultural products like dry fruits, medicinal herbs, hides and skins, wool, minerals like iron and copper, lead, manganese and red oxide and manufactured goods like carpets, shawls and silks. India's exports to Iran will be mainly cotton piecegoods, jute and jute goods.

Iraq.—An Iraq Trade Mission visited Delhi recently to hold discussions with the Government of India about expansion and development of her date trade and also about the possibilities of improvement in the transport facilities for movement of dates from Bombay. They also discussed the question of supply from India of commodities such as jute goods and cotton textiles. The Government of India have agreed to make certain allocations for Iraq of these commodities. In return the Iraq Delegation assured that Iraq's surplus of barley would be made available to India.

Egypt.—An Egyptian Trade Delegation is expected to arrive in India in March 1949 to conclude an agreement between India and Egypt for the exchange of commodities and also a Commercial treaty. The principal commodities that are likely to be exchanged are Egyptian cotton and rice on the one hand and Indian jute goods and cotton textiles, oil seeds, tea and tobacco on the other.

Tibet.—The Tibetan Trade Mission which visited Delhi last year for discussing certain trade matters have come back for pursuing those discussions with the Government of India. The discussions relating mainly to three issues, namely, (i) Release of 2 million dollars for the purchase of gold, (ii) retention of foreign exchange earned by exports of Tibetan wool to other countries and (iii) grant of free customs facilities on imports into Tibet through India.

In view of the acute shortage of dollars, the Government of India regretted their inability to accede to (i). As regards (ii), the Mission promised to examine the case more carefully and so far as (iii) is concerned the Government of India have promised to consider the case sympathetically provided adequate *quid pro quo* is forthcoming from Tibet.

Siam.—There is a proposal for entering into a bilateral trade agreement with Siam. The basis of the agreement will be somewhat on the following lines:

Supply by India.—Jute goods, Cotton textiles, Beehive coke, Pig iron, Linseed oil, diesel and steam road rollers, motor lorries and certain other manufactured goods.

Siam's supplies.—Rice, Tin, Railway sleepers and Teak wood.

Ceylon.—In 1948 a One-Man Delegation was sent to negotiate supplies of copra from that country but owing to the truculent attitude adopted by that Government this Mission was not successful. Intimation has just been received from the Indian Trade Commissioner, Colombo, to the effect that Ceylon is prepared to negotiate, on a reciprocal basis, the supply of copra against supply by India of such commodities as subsidiary foodstuffs, coal, jute and steel. This is under consideration at present.

Burma.—At present no negotiations are actively under consideration for the conclusion of a trade agreement with Burma in view of the unsettled conditions in that country. Recently, an officer was deputed to Burma to negotiate the supply of rice from that country but the attitude adopted by that Government was not favourable. They demanded a price of £ 5 per ton which was out of unison altogether with the current world prices of that commodity. The position is being closely watched and as soon as situation changes for the better, the question of negotiating a trade agreement with that country will be actively taken up.

Pandit Lakshmi Kanta Maitra: May I know what progress has so far been made with regard to the standardisation referred to?

The Honourable Shri K. C. Neogy: I am afraid nothing very much has yet been done. But the proposal is under active consideration.

Pandit Lakshmi Kanta Maitra: I take it that the activities initiated by the Ministry of Commerce will be co-ordinated to similar activities organised by the Ministry of Industries and Supply?

752

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [16TH FEB. 1949]

**The Honourable Shri K. C. Neogy:** Certainly. As a matter of fact, the Standardisation Institution of the Ministry of Industry and Supply will be a principal organisation for the purpose of standardisation of commodities for export.

#### ARREST OF MAHE MAHAJANA SABHA WORKERS BY FRENCH POLICE IN INDIAN TERRITORY

**\*415. Shri V. C. Kesava Rao:** (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that the French Police stationed at Mahe entered the Indian territory and arrested Mahe Mahajana Sabha workers?

(b) How many of them were arrested?

(c) Have the Indian Police rendered any help to the French Police to arrest Mahajana Sabha workers?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) and (b). According to information received from the Government of Madras no French Indian Policemen have at any time trespassed into Indian Union territory and arrested Mahe Mahajana Sabha workers.

(c) No.

#### REPATRIATION OF INDIANS FROM MALAYA

**\*416. Shri V. C. Kesava Rao:** (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that some Indian nationals have been repatriated from Malaya on the request of the Malayan authorities?

(b) Have Government examined their cases individually and satisfied themselves in respect of the complaints against them?

**The Honourable Shri Jawaharlal Nehru:** (a) Government are not aware that any Indian national was compulsorily repatriated from Malaya. The honourable member has, presumably, in mind a number of Indian nationals who were detained in Malaya under the Emergency Regulations and while in detention were given the option of repatriation to India by the Malayan authorities. 56 Indians returned to India under this arrangement.

(b) Government examine whatever material is available to see whether there was any ground for the arrest and detention in Malaya of the persons referred to in part (a) of the reply. Our representative in Malaya has been asked to send his own reports in regard to these Indians.

**Shri H. V. Kamath:** May I know whether the matter of the detention of Indian nationals is under enquiry? I could not quite catch the answer.

**The Honourable Shri Jawaharlal Nehru:** As I have stated, a number of Indians who were detained by the Malayan authorities in Malaya were given the option by the Malayan authorities to return to India. Fifty-six of them so returned. On their arrival at Madras, the Madras Government kept some of them in detention pending enquiry and some of them were immediately released. Some were subjects of enquiry and, after some enquiries, some further numbers were released. I am not quite sure, some of them might still be under detention. Thereupon, when we heard of this, we asked our representative in Malaya to send us information in regard to these Indian nationals.

**Shri H. V. Kamath:** Has he sent the information?

**The Honourable Shri Jawaharlal Nehru:** It is being received. As the enquiry is proceeding he sends us his opinion and it is acted upon.

**Shri H. V. Kamath:** Will the Honourable the Prime Minister tell us what were the grounds for the detention of the Indian nationals in Malaya?

**The Honourable Shri Jawaharlal Nehru:** In Malaya, presumably the grounds were that they were taking part in activities there which the Government of Malaya did not approve of.

**Shri H. V. Kamath:** Is it not a fact that the Malayan Indian Congress, presided over by Sardar Budh Singh, has expressed its sympathy with the present struggle of the people against the present Government of Malaya?

**The Honourable Shri Jawaharlal Nehru:** No. I am not aware of that except this: there is a slight difference, that is to say, they had expressed their sympathy with the various demands made, political and economic. They also expressed some resentment at certain activities of the Government there. But they have not expressed their sympathies in regard to many of the activities taking place there.

**Shri V. C. Kesava Rao:** May I know whether some of those who have returned to India are under detention of the Madras Government?

**The Honourable Shri Jawaharlal Nehru:** Yes; as they came from Malaya.

**Prof. N. G. Ranga:** Is it not a fact that the Indian Congress in Malaya had expressed complete disapproval of the violent activities pursued by the movement and its leaders in Malaya?

**The Honourable Shri Jawaharlal Nehru:** That is so.

#### IMPORT OF ISOTOPES FROM U. S. A.

**\*417. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Commerce be pleased to state whether India is allowed to import isotopes from the United States of America?

(b) If so, what is the quantity imported so far?

(c) How is it distributed to the various research institutions?

**The Honourable Shri K. C. Neogy:** (a) Yes.

(b) No imports of this article have so far been made.

(c) Does not arise.

**Shri V. C. Kesava Rao:** May I ask whether the import of isotopes is governed by any International Convention?

**The Honourable Shri K. C. Neogy:** I have no information, Sir.

#### MINIMUM WAGES FOR INDUSTRIAL LABOUR

**\*418. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Labour be pleased to state the industries for which a minimum wage for labour has been fixed?

(b) What is the minimum wage fixed in each industry?

(c) What are the industries in respect of which no final decision has yet been taken?

**The Honourable Shri Jagjivan Ram:** (a) to (c). Minimum wages have not yet been fixed under the Minimum Wages Act, 1948. They are due to be fixed before the 15th March 1950 in the case of all industries covered by the Act except agriculture and before the 15th March, 1951 in the case of agriculture. Minimum Wages in certain industries have, however, been fixed in some Provinces by Industrial Tribunals or by orders passed under the Provincial Industrial Disputes Act. A statement of the information received from Provinces in this respect is placed on the table.

## STATEMENT

| Provincial Government                      | Industries for which minimum wages fixed         | Wages fixed for each industry                                                                                                                                                                  | Dearness Allowance etc., if any                                                                                                                                                               | Industries for which no final decision taken                                                           |
|--------------------------------------------|--------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| (1)                                        | (2)                                              | (3)                                                                                                                                                                                            | (4)                                                                                                                                                                                           | (5)                                                                                                    |
| Madras Government                          | (a) Textile Industry                             | Rs. 26 p.m.                                                                                                                                                                                    |                                                                                                                                                                                               | D. A. at 3 annas and 2½ annas per point according to the cost of living index numbers in the locality. |

Ajmer-Merwara

Unskilled textile workers.  
1. Tobacco (including Bidi making) Manufactory.  
2. Employment under local authority.

**Prof. N. G. Ranga:** What is the relationship between the minimum wages and the Fair Wages Committee that the Government of India have appointed and is working at present?

**The Honourable Shri Jagjivan Ram:** I think the report of that Committee will also help in fixing the minimum wages in the scheduled industries.

**Shri B. P. Jhunjhunwala:** What is the basis by which these minimum wages are fixed and whether these vary from industry to industry and from place to place. If so, which is the industry where the highest minimum wages are fixed?

**The Honourable Shri Jagjivan Ram:** I would refer my honourable friend to the Minimum Wages Act. In the Act itself, he will find answers to all the questions that he has raised.

**Shri V. C. Kesava Rao:** May I know whether Government have received any representation for the non-payment of these wages?

**The Honourable Shri Jagjivan Ram:** As I have explained that under the Act, minimum wages have not been fixed, but some of the Provincial Governments have fixed minimum wages as a result of the recommendations of Tribunals in certain industries.

**Prof. N. G. Ranga:** What steps are being taken to appoint those committees, i.e., the minimum wage boards, which are to be established in different industries before the minimum wage comes to be fixed?

**The Honourable Shri Jagjivan Ram:** A few of the Provincial Governments have already set up Minimum Wages Boards and other Provincial Governments have been requested to expedite the setting up of such boards.

**Pandit Mukut Bihari Lal Bhargava:** May I know if any such boards are being appointed in the Centrally Administered Areas, such as, in Ajmer-Merwara?

**The Honourable Shri Jagjivan Ram:** It has not been appointed as yet, but it will be set up.

**Shri Sita Ram S. Jajoo:** Has any Indian State also fixed these minimum wages?

**The Honourable Shri Jagjivan Ram:** The information is not readily available.

#### RESETTLEMENT OF REFUGEE ENGINEERS

**\*419. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what is the number of refugee engineering personnel resettled after partition?

(b) What is the number yet to be provided with jobs?

(c) In what way are Government helping these engineers to secure jobs in non-Government institutions?

**The Honourable Shri N. V. Gadgil:** (a) 18,250 including Government servants and non-officials.

(b) 3,524, of which 482 are Government servants and the rest non-officials. The question of the employment of 478 of these Government servants is now under consideration.

(c) Officers of the Government of India have been visiting important Centres in India and contacting the more important Engineering and Commercial firms in order to induce them to use the Employment machinery set up by the Government.

**Shri Jainarain Vyas:** Arising out of the answer to part (a), does the figure include the Engineers employed in the Indian States also?

**The Honourable Shri N. V. Gadgil:** I would require notice for this.

**Pandit Lakshmi Kanta Maitra:** May I enquire of the Honourable Minister if by this engineering personnel, he also means and includes the engineering personnel who have opted out from Assam, but have not been provided and also the engineering personnel that have opted out from Eastern Pakistan, but have not been settled anywhere?

**The Honourable Shri N. V. Gadgil:** According to the policy of the Government, Government servants belonging to the Provinces of N.W.F.P., Baluchistan and Sind are given higher priority than non-Government servants of Bengal, Assam, and Punjab for purposes of re-employment.

**Prof. N. G. Ranga:** Have all the Public Works Departments of the provinces been notified of the fact that there are so many engineers who have specialised in irrigation?

**The Honourable Shri N. V. Gadgil:** I think Government do take notice of that.

**Pandit Lakshmi Kanta Maitra:** In view of the scarcity of engineering scientific personnel in this country, does the Honourable Minister consider the desirability of absorbing all the surplus engineering personnel, which are available and which are unemployed?

**Mr. Speaker:** Order, order.

#### MOBILE EMPLOYMENT EXCHANGES AND COTTAGE INDUSTRIES FOR REFUGEES

**\*420. Seth Govind Das:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether it is a fact that Government are contemplating to introduce mobile employment exchanges and cottage industries to help the rehabilitation of refugees?

(b) If so, what is the progress so far made in that direction?

**The Honourable Shri Mohan Lal Saksena:** (a) Yes.

(b) Thirty-eight Mobile sections attached to various Employment Exchanges in India have started to assist employment seekers including refugees. Five more Mobile sections are expected to start functioning in the near future.

As regards cottage industries, it has been suggested to Provincial and State Governments that: (i) they should start new townships round a number of cottage and small-scale industries at sites now occupied by Refugee Camps or elsewhere; (ii) refugees should be encouraged to form Industrial Cooperative Societies which should be given loans where necessary; (iii) workshop equipment should be provided at Refugee Camps so that refugees may have an opportunity to engage themselves in gainful occupation; and (iv) they should rapidly examine the possibility of expanding cottage and small scale industries or starting new ones from the point of view of refugee rehabilitation, without waiting for the preparation of long term plans.

**Seth Govind Das:** Has the Government received any report from any province where these refugees are being rehabilitated, whether they have started any cottage industries?

**The Honourable Shri Mohan Lal Saksena:** Yes. From certain provinces we have received reports that they have started work centres.

**Seth Govind Das:** Which are those provinces from which these reports have been received so far?

**The Honourable Shri Mohan Lal Saksena:** I would like to have notice of this question, but I can say that we have received reports from the United Provinces and from Bombay.

**Seth Govind Das:** Has the Government received any report as far as C.P. is concerned?

**The Honourable Shri Mohan Lal Saksena:** We have not yet received any report from C.P., but we have received certain schemes and I hope that these schemes must be in the course of implementation.

**Shri Raj Bahadur:** What is the total number of refugees employed through these employment exchanges?

**The Honourable Shri Mohan Lal Saksena:** I want notice of this question.

#### HYDRO-ELECTRIC POWER SCHEMES

**\*421. Prof. N. G. Ranga:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether Government are pursuing any five or ten year plan to generate the 14 million kwts of electric power that their leaflet No. 5 "Hydro Electric Development in India" envisages?

(b) Had any of their schemes to be postponed because of their anti-inflation policies?

(c) When do they expect to take up the schemes which are awaiting actual construction?

(d) Are any efforts being made to develop factories for the manufacture of equipment and appliances necessary for the implementation of the schemes?

**The Honourable Shri N. V. Gadgil:** (a) There is no clear-cut five or ten years Plan as such to generate the 14 million kwts of electrical power mentioned at page 19 of Leaflet No. 5 issued by the Central Board of Irrigation. That leaflet, however, gives all the available information about various projects which are at present in hand and others which are either projected or under investigation.

(b) Sanction to the investigation of some schemes was delayed by a few months pending consideration of the anti-inflationary policy of Government. The Economic position of the country and other factors such as the availability of material resources and technical manpower, have however, to be taken into consideration before sanction to construction of any project is finally accorded by Government.

(c) So far as the Central Government are concerned, the construction of the Damodar Valley Project and the Hirakud Dam Project have been taken in hand; other projects are being investigated. The Provincial Governments have also in hand, other projects, e.g., Bhakra and Nangal in the East Punjab; Rihand in the U.P., Mor Project in West Bengal, Tungabhadra in Madras, etc. etc. Each scheme has to be separately considered on merits and it is not possible to say how soon any particular scheme will be taken up for actual construction.

(d) Yes. The matter is under active consideration of the Ministry of Industry and Supply.

**Seth Govind Das:** Is the Government aware, Sir, about the hydro-electric scheme of Rewa State in Vindhya Pradesh and is Government aware that that scheme was prepared years ago, and is that scheme being considered by the Government?

**The Honourable Shri N. V. Gadgil:** I want notice of that question.

**Shri H. V. Kamath:** Arising out of answer to part (b) of this question, is India wholly dependent upon foreign countries in the matter of machinery and expert technicians needed for the development of the schemes?

**The Honourable Shri N. V. Gadgil:** To some extent, it is true.

**Mr. Naziruddin Ahmad:** Will the Honourable Minister be pleased to state with reference to answer to part (b), what progress has been made in the Damodar Valley Scheme?

**The Honourable Shri N. V. Gadgil:** It is a very big question and requires a detailed answer. I promise the honourable member that on the 27th of this month, a detailed report about the progress of the Damodar Valley scheme will be laid on the table of the House.

#### SHRI SARAT CHANDRA BOSE'S CRITICISM ON INDIA'S FOREIGN EMBASSIES

**\*422. Prof. N. G. Ranga:** Will the Honourable the Prime Minister be pleased to state:

(a) whether the attention of the Government has been drawn to the criticisms made by Shri Sarat Chandra Bose on our foreign Embassies and particularly of the Paris Embassy and the India House, published in the press on the 30th December, 1948;

(b) whether Government have found that any of his criticisms are based on facts and if so, whether any action has been taken to correct the ascertained defects in the working of our embassies; and

(c) whether Government have received similar or other complaints from other Indians visiting foreign countries?

**Mr. Speaker:** Does the honourable member wish to put it? Recently the subject was discussed in this House.

**Prof. N. G. Ranga:** I want to put part (c) of the question.

**The Honourable Shri Jawaharlal Nehru:** As you said, Sir, a similar question was answered by me a few days ago. As to part (c); no specific complaints have been brought to our notice.

**Shri H. V. Kamath:** Has the Prime Minister's attention been drawn to the very latest statement of Shri Sarat Chandra Bose wherein he declared that he is quite prepared to prove every one of his allegations against our embassies in London and Paris before an independent tribunal?

**The Honourable Shri Jawaharlal Nehru:** I have vaguely heard something about it. But, I am sorry. I have not been able to keep pace with the statements of Shri Sarat Chandra Bose.

**Shri H. V. Kamath:** Is it not a fact that the British Government recently appointed the Lynskey tribunal when grave allegations of nepotism, corruption.....

**Mr. Speaker:** Order, order. The question is out of order.

**Shri H. V. Kamath:** Does the Prime Minister propose to take a leaf from the British book so as to clear the air.....

**Mr. Speaker:** Order, order.

**The Honourable Shri Jawaharlal Nehru:** I do protest against such charges, allegations and insinuations made by the honourable member.

**Shri H. V. Kamath:** I have not made any charges or insinuations, Sir. I am referring to Shri Sarat Chandra Bose's statement.

**Mr. Speaker:** What the honourable member says is not quite proper or in good taste.

**Srijut Rohini Kumar Chaudhuri:** Has the attention of the Honourable the Prime Minister been drawn to the statement appearing in the *Daily Nation* of 5th February, 1949 which has given an answer to some of the observations made by the Honourable the Prime Minister?

**Mr. Speaker:** That has been answered already. That was the question put by Mr. Kamath.

**Srijut Rohini Kumar Chaudhuri:** I am referring to the *Daily Nation* published on the 5th February, where a statement of Mr. Sarat Chandra Bose has appeared.

**Mr. Speaker:** That is the statement referred to by Mr. Kamath. Next question.

#### REFINERIES FOR IMPORTED CRUDE OIL

**\*423. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether any experts to survey the possibilities of erecting refineries for manufacture of petroleum products from imported crude oil have arrived from Britain or the United States of America?

(b) If so, what are the details?

**The Honourable Shri N. V. Gadgil:** (a) A team of six British and American experts was sent out by the Oil Companies at our request in October, 1948 to survey the technical possibilities of setting up refineries in India for treating imported crude oil. They have completed their investigations, and left India by the middle of January, 1949.

(b) The experts will submit their report to the Oil Companies, who in turn are expected to send their reports to the Government of India. No details are yet available.

**Shri R. K. Sidhva:** Is it not a fact, Sir, that before their departure from India they stated that India's resources in crude oil are vast and if proper research is made, it could be self-supporting? In view of this report, what steps do the Government intend to take to expedite this matter? When is the report expected, Sir?

**The Honourable Shri N. V. Gadgil:** When the report is received, due steps will be taken after consideration.

**Shri R. K. Sidhva:** Have they given any time for the presentation of the report?

**The Honourable Shri N. V. Gadgil:** No specific time has been laid down. But, it is expected that the report will be submitted to the Government of India before June.

#### RESOURCES OF CRUDE OIL IN INDIA

**\*424. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether any effort has been made to prospect for crude oil in India?

(b) Is it a fact that there are vast resources of crude oil in India?

**The Honourable Shri N. V. Gadgil:** (a) Search for mineral oil has always formed an important part of the activities of the Geological Survey of India. The programme for 1948-49 includes a detailed geological and geophysical investigation for oil in Cutch and Kathiawar, as also in two other areas, viz. Subansiri and Khasimara valley in Assam and Jwalamukhi area in East Punjab.

(b) No Sir, Petroleum in commercial quantities has been found so far only in north east Assam, but the output has always been less than 10 per cent. of our demand.

**Dr. P. S. Deshmukh:** How many Survey Parties are actually working on these Projects?

**The Honourable Shri N. V. Gadgil:** I have already mentioned in my reply to part (a) that one Party is working in Cutch and Kathiawar and two other Parties are working; one in Assam and one in Jwalamukhi area in East Punjab.

**Shri R. K. Sidhva:** May I know whether it is a fact that Mr. Mellison of the L.O.C. arrived in India for this purpose and said that if the Government

of India were to establish two installations, they would give two million gallons of crude oil? May I know, if that is a fact, what steps in that direction, the Government intend to take?

**The Honourable Shri N. V. Gadgil:** I want notice of that question. I do not remember to have read the extract to which the honourable member is referring.

**Shri R. K. Sidhva:** I am not referring to any newspaper; he has sent a report to the Government.

**Mr. Speaker:** Any way, he does not remember it.

**Shri R. K. Sidhva:** Will he enquire from his office?

**Mr. Speaker:** Of course, that he will do.

**The Honourable Shri N. V. Gadgil:** Yes.

**Dr. P. S. Deshmukh:** Are there any foreign experts employed in these parties or survey groups?

**The Honourable Shri N. V. Gadgil:** There is one employed by the Geological Survey of India.

**Dr. P. S. Deshmukh:** Is there any proposal or correspondence for obtaining certain more experts from foreign countries for Geological Survey?

**The Honourable Shri N. V. Gadgil:** That will be taken into consideration.

**Srijut Kuladhar Chaliha:** Is it a fact, Sir, that oil is found in Patharia in Assam, about which also there is a dispute between us and Pakistan?

**The Honourable Shri N. V. Gadgil:** I want notice of that question.

**Shri R. K. Sidhva:** May I know whether oil is found in Tripura?

**The Honourable Shri N. V. Gadgil:** It is true; oil is found in Tripura.

**Pandit Lakshmi Kanta Maitra:** Is the Honourable Minister in a position to give an idea of India's requirements of crude oil?

**The Honourable Shri N. V. Gadgil:** I want notice; I have said it so often.

#### EXPENDITURE ON REHABILITATION OF EAST BENGAL REFUGEES

**\*425. Shri Arun Chandra Guha:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state what is the amount spent by the Government of India up to 31st December, 1948, for the relief and rehabilitation of refugees from East Bengal?

(b) How much of this has been for actual relief, how much for rehabilitation and for establishment charges of Governmental organisations?

(c) How many East Bengal refugees have so far been rehabilitated at Government cost?

**The Honourable Shri Mohan Lal Saksena:** (a) According to the Premier of West Bengal the total expenditure so far incurred is approximately Rs. 1 crore, 39 lakhs; and this is likely to increase to about Rs. 2 crores by 31st March 1949. Apart from this, the West Bengal Government have given loan to the extent of nearly Rs. 21 lakhs.

(b) Details are not yet available.

(c) 8,331.

**Shri Arun Chandra Guha:** Will the Honourable Minister be pleased to state how this money has been allocated province-wise? How much has been spent by the Central Government and in which of the provinces?

**The Honourable Shri Mohan Lal Saksena:** May I know how this arises out of the question?

**Mr. Speaker:** He means district-wise.

**Shri Arun Chandra Guha:** Province-wise.

**The Honourable Shri Mohan Lal Saksena:** How does that arise? The question relates to West Bengal.

**Shri Arun Chandra Guha:** Eastern Pakistan refugees have gone to different provinces. I want to know how much has been spent province-wise.

**The Honourable Shri Mohan Lal Saksena:** This amount has been spent by the West Bengal Government in West Bengal.

**Dr. Mono Mohan Das:** May I know, Sir, whether this expenditure has been made by the Central Government or the provincial Government?

**The Honourable Shri Mohan Lal Saksena:** It is a question of arrangement that this expenditure will be debited to the Central Government. As they go on spending, it is being debited.

**Pandit Lakshmi Kanta Maitra:** In view of the confusion that has been created by the questions and answers, I want a clear answer to a question which I want to put. The question I want to ask the Honourable Minister is this. Is the Honourable Minister in a position to tell us what exactly is the amount which the Central Government has spent for the rehabilitation and relief of refugees from Eastern Pakistan?

**The Honourable Shri Mohan Lal Saksena:** I want notice of that question.

**Pandit Lakshmi Kanta Maitra:** May I ask my honourable friend the Minister for Relief and Rehabilitation if he is aware that the amount of one crore and eighty lakhs he has referred to as spent by the West Bengal Government was promised to be paid by the Central Government and not a farthing has so far been spent?

**The Honourable Shri Mohan Lal Saksena:** I think it is not correct. As a matter of fact, orders have been issued and the Accountant General can always debit the money that is spent by the different Governments.

**Shri Arun Chandra Guha:** May I know, Sir, whether these orders have been issued?

**The Honourable Shri Mohan Lal Saksena:** Orders have already been issued.

**Shri Arun Chandra Guha:** When?

**The Honourable Shri Mohan Lal Saksena:** In December last.

**Mr. Speaker:** What is the necessity for going into all these controversies?

**Pandit Lakshmi Kanta Maitra:** I am not entering into any controversy. I want to know, is it not a fact that under the circular of 14th December last, all payments on account of rehabilitation and relief of refugees from Eastern Pakistan have been stopped?

**The Honourable Shri Mohan Lal Saksena:** It is not so. As a matter of fact, I have already informed the honourable member outside that it was a mis-reading of the circular referred to by him. As a matter of fact, it was stated that the expenditure on certain items could be debited to the Government of India straightaway while on others, it had to be approved previously.

**Pandit Lakshmi Kanta Maitra:** May I enquire of the Honourable Minister if the amount that has been spent by the Government of West Bengal on account of the relief and rehabilitation of the refugees from Eastern Pakistan, have been spent on the definite assurance and promise from the Central Government that the latter will honour this expenditure?

**Mr. Speaker:** I do not think such a question is a proper one.

**Shrimati Renuka Ray:** In connection with the two projects of Government at Chittaranjan and Hijli, around which townships are to grow so far as refugees are to be absorbed, has the Central Government decided that priority should be given to refugees from Eastern Pakistan?

**The Honourable Shri Mohan Lal Saksena:** I am afraid it does not arise from this question.

**Srijut Rohini Kumar Chaudhuri:** Has any amount been sent by the Central Government to the Government of Assam for the relief of the refugees in that province?

**The Honourable Shri Mohan Lal Saksena:** I have not been able to follow.

**Shri Arun Chandra Guha:** Will the Honourable Minister be pleased to procure the information asked for in part (b) of this question?

**The Honourable Shri Mohan Lal Saksena:** Yes. As a matter of fact we have already asked the different provinces to send monthly information, but we are not getting it.

**Prof. N. G. Ranga:** Has the Government of West Bengal expressed any satisfaction with the procedure that is being followed by the Government of India in this matter?

**Mr. Speaker:** Order, order. The question need not be answered. I am going to the next question.

#### SAFETY AND SANCTITY OF GURDWARAS IN PAKISTAN

\*426. **Sardar Bhopinder Singh Man:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether any negotiations have been carried on between Pakistan and India for the safety and sanctity of Gurdwaras in Pakistan and if so, with what results?

(b) What arrangements have been arrived at between Pakistan and India regarding the properties attached to Gurdwaras and especially Nankana Sahib in Pakistan?

**The Honourable Shri Mohan Lal Saksena:** (a) Yes; in the Inter-Dominion Conference held on 19th September, 1947, it was decided that places in either Dominion, regarded as sacred by any community, should not be allowed to be occupied by members of any other community and that particular care should be taken to preserve such places even if they remained vacant.

As a result of further negotiations it was agreed that all shrines, temples, Gurdwaras, mosques and other religious places which had been damaged during the last communal disturbances should be repaired and the hoisting of any emblem flag, other than that of the religion concerned, on any building or edifice be prohibited.

(b) The matter regarding property of shrines and trusts has been discussed but in view of the complexity of the problem involved it has not been possible to take any decision so far. At the Inter-Dominion Conference held during January, 1949 it has been agreed that a Joint Committee consisting of three members from each Dominion should be appointed to consider the question of trust property including Nankana Sahib. The Committee is expected to submit its report by the end of April, 1949.

**Sardar Bhopinder Singh Man:** The Honourable Minister has been pleased to refer to property of Gurdwaras and to say that they will not be occupied. Does he refer to the properties attached to the mosques and Gurdwaras?

**The Honourable Shri Mohan Lal Saksena:** That property is already occupied. It is with reference to other house property or agricultural property. It is only the shrines, the Gurdwaras and mosques that they will not occupy.

**Shri H. V. Kamath:** The Minister's statement referred to mosques, temples and Gurdwaras. Am I to understand that Christian Churches and Parsi.....

**Mr. Speaker:** Order, order.

**Shri H. V. Kamath:** Has it come to the notice of the Minister that since this Inter-Dominion agreement a temple in Karachi has been desecrated?

**The Honourable Shri Mohan Lal Saksena:** Yes, and a protest has been lodged.

**Shri H. V. Kamath:** What is the reply from the Government of Pakistan?

**Mr. Speaker:** Order, order.

**Shri Raj Bahadur:** What is the number of temples and Gurdwaras desecrated and is the Government prepared to get them re-consecrated and restored?

**The Honourable Shri Mohan Lal Saksena:** I shall require notice of that question as the information is not available.

#### \* INDO-BURMA TALKS ON BURMA LAND ACT

**\*427. Shri M. Ananthasayanam Ayyangar:** Will the Honourable the Prime Minister be pleased to state:

(a) what transpired at the Indo-Burma talks held in November 1948 on the Burma Land Act;

(b) what steps Government propose to take to safeguard the interests of Indian nationals in Burma; and

(c) whether the Government of Burma have assured the Government of India that Indian nationals will not be subjected to any discriminations?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) The honourable member presumably refers to the talks which took place on the 29th November, 1948, between a delegation from Burma led by the Honourable U Win, Minister for Education, Government of the Union of Burma, and the Ministry of External Affairs and Commonwealth Relations, at which Dr. Pattabhi Sitaramayya and the Honourable Shri B. Gopal Reddi, Finance Minister, Government of Madras, were present. The discussions were confined to a general statement of the points of view of the Governments of Burma and India. An invitation on behalf of the Prime Minister of Burma was extended to the Government of India, at this meeting, to send a delegation to Burma, for discussion on matters arising of the Land Nationalisation Act, passed by the Government of Burma.

(b) Representations to safeguard the legitimate interests of Indians in Burma have been made to the Government of Burma, from time to time. A delegation, led by Dr. Pattabhi Sitaramayya, was to have left for Rangoon on the 2nd February 1949, to discuss matters affecting Indian agricultural interests, as a result of the above mentioned legislation in Burma. Its departure has had to be postponed indefinitely, at the request of the Government of Burma, who are now pre-occupied with the maintenance of law and order in that country.

(c) Yes, Sir.

**Shri Mahavir Tyagi:** As a result of the negotiations, have there been any improvement in the condition of the Indians there?

**Mr. Speaker:** Order, order. He has not heard the answer. The question would not have arisen if the honourable member had heard the answer.

**Shri Mahavir Tyagi:** He said that invitations were sent from time to time to the Government of India. I want to know what were the results of these invitations?

**Mr. Speaker:** The final negotiations have yet to proceed and because of the situation in Burma Dr. Pattabhi Sitaramayya could not go.

**Prof. N. G. Ranga:** Is it not a fact that thousands of Indians are now asking for facilities to be repatriated to India?

**Dr. B. V. Keskar:** As far as our information goes, it is not so, and I may inform the honourable member that in a reply that I gave to another question on this subject with respect to Indians who want to be repatriated, our Ambassador in Burma has been given standing orders that all Indians who wish to return but cannot help themselves, will be helped by our Embassy in Burma.

**Shri M. Ananthasayanam Ayyangar:** Is the report true that the immediate effect of the Land Nationalisation Act of Burma has been temporarily suspended?

**Dr. B. V. Keskar:** It is so, but we have no official information about it.

#### GOLD FIELDS UNDER DIRECT CONTROL OF GOVERNMENT OF INDIA

**\*428. Shri S. Nagappa:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) the gold fields in the country that are directly under the control of the Government of India;

(b) how many of these are worked by foreign contractors; and

(c) what are the principles governing these contracts?

**The Honourable Shri N. V. Gadgil:** (a) to (c). No gold mines are directly under the control of the Government of India. Some mines in Mysore State have been leased to foreign concerns. The terms on which these leases have been granted are not readily available.

#### OFFICERS AND LABOURERS EMPLOYED IN DADUMA AND HIRAKUD PROJECTS

**\*429. Shri Lakshminarayan Sahu:** Will the Honourable Minister of Works, Mines and Power be pleased to state what is the total number of (i) officers and (ii) labourers employed in the Duduma and Hirakud Projects?

**The Honourable Shri N. V. Gadgil:** Information regarding the Daduma project is being called for from the Governments of Madras and Orissa and will be laid on the table of the House in due course.

As regards the Hirakud Dam Project, the number of officers and labourers employed is as follows:

Officers—34

Subordinates, Clerical and other staff—218

Labourers—4261

**Shri Lakshminarayan Sahu:** How many of the labourers are local men?

**The Honourable Shri N. V. Gadgil:** I require notice of that.

**Dr. Mono Mohan Das:** Is it a fact that a model colony has been constructed for the employees, a high school has been established for the sons of the employees and a cinema house is to be reconstructed for their recreation?

**The Honourable Shri N. V. Gadgil:** Whatever is necessary for the successful implementation of the project must have been done.

#### MEDICAL ATTACHES TO INDIAN EMBASSIES

**\*430. Shri Brajeshwar Prasad:** Will the Honourable the Prime Minister be pleased to state whether Indian doctors are attached to our Embassies abroad?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): Indian doctors are attached only to our Embassy in Nepal

† Answer to this question laid on the table, the questioner being absent.

at Kathmandu, the Consulate General at Kashghar and the Consulate at Jedda (Saudi Arabia). The two posts last named are at present vacant.

**Shri H. V. Kamath:** What are the qualifications prescribed for the Medical Attaches to our Embassies?

**Mr. Speaker:** I believe the usual qualifications!

**Shri H. V. Kamath:** What are the usual qualifications?

**Mr. Speaker:** Next question.

#### APPOINTMENT OF PRIVATE SECRETARIES TO AMBASSADORS

\*431. **Shri Brajeshwar Prasad:** (a) Will the Honourable the Prime Minister be pleased to state who appoints the Private Secretaries to our Ambassadors abroad?

(b) What salary is paid to a Private Secretary to an Ambassador?

(c) Is the post advertised in the *Gazette of India* and if not, why not?

**Dr. B. V. Keskar** (Minister for External Affairs and Commonwealth Relations): (a) Private Secretaries are appointed by the Ministry of External Affairs and Commonwealth Relations in consultation with the Ambassadors concerned.

(b) Service Officers receive their grade pay in the service to which they belong. The basic pay of persons not already in Government service appointed as Private Secretaries to Ambassadors is fixed *ad hoc*, usually at an amount ranging from Rs. 300 to Rs. 500. In addition they receive foreign allowances at rates prescribed for the particular country to which they are sent.

(c) The posts are not advertised, as the officers are either drawn from one of the permanent services under the Government of India, or, are appointed *ad hoc* on the recommendations of the Ambassadors concerned. *Ad hoc* appointments in the latter category are temporary and the incumbent's tenure is restricted to that of the Ambassador selecting him.

**Pandit Lakshmi Kanta Maitra:** With reference to the answer to part (b) of the question, do I take it that there is no scale of salaries prescribed for private secretaries and that they are left to the sweet will of the Ambassador himself to fix?

**Dr. B. V. Keskar:** No, Sir. When I referred to "an amount ranging from Rs. 300 to 500" these are the upper and lower limits. It does not mean that there is no scale fixed.

**Mr. Tajamul Husain:** Does the Ambassador make any appointment? If so, what?

**Dr. B. V. Keskar:** An Ambassador does not make any appointment.

**Mr. Speaker:** It is the External Affairs Ministry which makes appointments in consultation with the Ambassador concerned.

**Shri H. V. Kamath:** Is the Standing Committee of the Legislature relating to the External Affairs Ministry either consulted or informed about any appointments made in the foreign embassies?

**Mr. Speaker:** It is not their function to go into executive details.

#### PROPERTIES OF NON-MUSLIMS IN PAKISTAN

\*432. **Sardar Hukam Singh:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether it is a fact that in pursuance of the terms of agreement entered into at Karachi between India and Pakistan, the Muslims would be permitted to sell away their property in India freely?

(b) What proposals do Government have to safeguard the interests of those non-Muslims who have properties in Pakistan?

† Answer to this question laid on the table, the questioner being absent.

**The Honourable Shri Mohan Lal Saksena:** (a) The Karachi agreement provides for sale and exchanges of urban immovable property by evacuee owners of either Dominion and the facility of sale is not confined to Muslims only.

(b) It has been agreed that the Dominion and the Provincial Governments in whose area the property is situated will take all possible precautions to ensure that no organised attempts are made to keep the prices of evacuee property below the market level by forming rings, Syndicates, boycott or otherwise. The Agreement also provides that a liaison officer of one Dominion should be appointed to be in close touch with the custodian of Evacuee property of the other Dominion for safeguarding the interests of evacuee owners.

For further details the honourable member is referred to the Agreement, copies of which have already been placed in the Constituent Assembly Library.

#### EXCHANGE OF EVACUEE'S PROPERTIES IN INDIA AND PAKISTAN

\*433. **Sardar Hukam Singh:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether Government are aware of the propaganda carried on by the Pakistan press advising the Muslims not to exchange their properties, but to sell them for cash?

(b) What steps do Government propose to take to ensure that the exchanges take place freely?

**The Honourable Shri Mohan Lal Saksena:** (a) Some press reports have appeared of propaganda of the type mentioned by the honourable member. I have contacted the Honourable Minister for Refugees, Pakistan Government and both Governments agree that such propaganda should be avoided on either side.

(b) The honourable member is referred to my reply given to part (b) of his Starred Question No. 432.

#### APPOINTMENT OF A MINISTER FOR PLEBISCITE IN KASHMIR

**Shri Lakshminarayan Sahu:**

\*434. **Sardar Hukam Singh:**

**Shri Satis Chandra Samanta:**

Will the Honourable the Prime Minister be pleased to state:

(a) whether the attention of Government has been drawn to the news published in the *Statesman* dated the 29th January, 1949 to the effect that Mr. Mushtaq Ahmad Gurmani, Minister without Portfolio in Pakistan, has been entrusted with the work in connection with the plebiscite in Kashmir and that he has set up his office in Rawalpindi; and

(b) whether it is a fact that the Government of India are also contemplating to appoint a Minister who will be entrusted with the work in connection with the plebiscite in Kashmir and that his office will be set up in Srinagar?

**The Honourable Shri Jawaharlal Nehru:** (a) Yes.

(b) No, Sir.

#### OVERSEAS SHIPPING CORPORATIONS

\*435. **Prof. K. T. Shah:** Will the Honourable Minister of Commerce be pleased to state what progress has been made in the institution of the Overseas Shipping Corporations, and on what basis the agreement with the particular Corporation selected for the purpose was made?

† Answer to this question laid on the table, the questioner being absent.

**The Honourable Shri K. C. Neogy:** The negotiations with the Managing Agents selected for the first shipping corporation are in the final stages and the Corporation is expected to be registered in the near future. As regards the basis of agreement between Government and the shipping company selected for managing the Corporation which, I presume, is what the honourable member has in mind, I have placed in the library of the House a memorandum recently prepared for the Standing Finance Committee of the House which explains the scheme in full. Briefly, the issued capital of the Corporation will be Rs. 10 crores of which Government will subscribe for and take up 51 per cent., the Managing Agents 26 per cent. and the remaining 23 per cent. will be offered to the public. Government will further take up any portion of the capital not taken up by the public. Provision is made for effective Government control in the Directorate of the Corporation in which the Directors representing Government will be in a majority. The present target of tonnage for the Corporation is 1,00,000 gross tons.

**Prof. K. T. Shah:** I want to know if this corporation will be allowed any managing commission as managing agent on behalf of the State; and, if so, whether it would be on the basis of tonnage or mileage or volume of traffic or whatever else the basis may be?

**The Honourable Shri K. C. Neogy:** All this will be found in the agreement itself. I have already informally supplied my honourable friend with a copy of the agreement. However, I would just state for the information of the House that in the first place the managing agents would not receive any office expenses; secondly, no remuneration would be payable to the managing agents unless the Corporation earns a profit; and thirdly, the profit of the managing agents will be calculated at 10 per cent. of the net annual profits of the company, subject to 30 lakhs of such profits, and  $7\frac{1}{2}$  per cent. on the excess of such profits over 30 lakhs.

**Shri M. Tirumala Rao:** What is the machinery by which the Government propose to secure the majority of the directors on the Board?

**The Honourable Shri K. C. Neogy:** The machinery is the appointment of a majority of the directors.

**Shri M. Tirumala Rao:** By nomination?

**The Honourable Shri K. C. Neogy:** Yes, by nomination.

**Prof. K. T. Shah:** Is the agreement similar to the one with the Air-India International Corporation, where commission for managing agency and also subsidy for making good losses are allowed?

**The Honourable Shri K. C. Neogy:** As a matter of fact if my honourable friend were to compare the terms of the proposed agreement with this Corporation, along with the agreement entered into in the case of the Air-India International, he would find that interests of the Government are even better secured under the proposed agreement with the Shipping Corporation. Perhaps my honourable friend wants to know something about losses. The Government have not guaranteed any dividends, but they have undertaken to make good the losses, if any, incurred during the period of the first five years, the first year, beginning with the start of the accounting year of the company, in which the shipping services of the company commence. Such payments made by Government will, however, have to be repaid to Government from the profits made in subsequent years in accordance with the formula stated in the draft agreement. I think this marks a departure from the terms of the agreement with the Air-India International.

**Mr. Homi Mody:** I think it is the same.

# EVACUATION OF NON-MUSLIM MILITARY POLICEMEN FROM LAS-BELA STATE, BALUCHISTAN

†\*436. **Giani Gurmukh Singh Musafir:** (a) Will the Honourable Minister for Relief and Rehabilitation be pleased to state whether Government are aware that about 50 non-Muslim military policemen along with their families are still in Las-Bela State in Baluchistan, Pakistan?

(b) How many representations have so far been received from them?

(c) Are Government aware that they have been there for more than 1½ years and no steps have so far been taken for their evacuation?

(d) Have Government any proposal for their early evacuation?

**The Honourable Shri Mohan Lal Saksena:** (a) to (c). There are no non-Muslim Policemen or their families left in Las-Bela-State.

(d) Does not arise.

## EXPENDITURE ON RELIEF OF EAST BENGAL REFUGEES

\*437. **Shri Basanta Kumar Das:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) the amount of money spent for relief of refugees from East Bengal;

(b) the different heads under which the money has been spent with amounts under each head; and

(c) the amount of loan advanced to refugees through the Provincial Government or direct?

**The Honourable Shri Mohan Lal Saksena:** (a) and (c). The honourable member is referred to the reply given by me to part (a) of Starred Question No. 425, by Shri Arun Chandra Guha, earlier today.

(b) Details are not yet available.

**Srijut Rohini Kumar Chaudhuri:** May I know if any relief or rehabilitation work is being carried on in the province of Assam for the relief of the East Bengal refugees? If so, what amount, if any, has been spent by the Government of India?

**The Honourable Shri Mohan Lal Saksena:** As I have already stated before I shall require notice of this question.

**Srijut Rohini Kumar Chaudhuri:** The notice is already there.

**Mr. Speaker:** The Honourable Minister wants a specific question so that he could make an enquiry.

**Shri Mahavir Tyagi:** In view of the evasive replies always given regarding refugees from East Pakistan, may I know if the Government is not directly dealing with the question of the rehabilitation of the refugees from Eastern Pakistan?

**Mr. Speaker:** It does not follow like that.

**Shri Mahavir Tyagi:** I am anxious to know if the Central Government are directly doing anything towards the rehabilitation of refugees who come from Eastern Pakistan.

**The Honourable Shri Mohan Lal Saksena:** Yes, Sir.

**Pandit Lakshmi Kanta Maitra:** Will the Honourable Minister kindly let us know if it is the policy of the Government to treat the refugees from Eastern Pakistan on the same footing as refugees from the Western Pakistan in the matter of relief and rehabilitation?

† Answer to this question laid on the table, the questioner being absent.

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact so far as refugees from East Pakistan are concerned there is a slight difference. First of all the policy of the Government has been to create conditions in East Pakistan itself to stop the exodus of refugees from there and also to encourage those who have come to go back. After that as many as are left we are going to do all that we can to rehabilitate them.

**Sardar Bhopinder Singh Man:** What are those specific plans by which you are encouraging them to go back to East Pakistan?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact negotiations were undertaken between the two Dominions in December last. As a result of that joint property boards and minority boards have been established both in Eastern and Western Bengal, and I think in consequence of this the exodus has stopped to a considerable extent.

**The Honourable Shri Jawaharlal Nehru:** May I say a word about this question of helping refugees from Eastern Pakistan? Of course there can be no differentiation whatever in regard to the help given to any refugees, whether from the West or the East. There is none. But the question in regard to rehabilitation which arises has to be placed on a slightly different footing. That is we are rehabilitating people through the agency of the West Bengal Government. I cannot say what the Government of India is doing directly but naturally we are functioning as far as possible through the agency of the West Bengal Government. At the same time, we are trying, as the Honourable Minister for Relief and Rehabilitation has said, as far as possible not to encourage any large numbers migrating. Those who have come of course we shall help as far as we can. We could not really control that, because that depended so much on the policy of the East Bengal Government. However, recent events have shown that that migration has stopped practically completely in the last two or three months. Now we have a static problem, that is those who have already come over. Out of these some have gone back. I do not think any large numbers have gone back but a few have gone back and a few more may go. Meanwhile plans for rehabilitation are being considered. We hope that more will return. But naturally that would depend on circumstances on the other side too. Meanwhile large numbers are being provided for. The question of rehabilitation is being considered, but we always live in the hope that many of them may be able to go back because of conditions arising which would enable them to go back. If they do not, of course it is our responsibility and we are proceeding on those lines.

**Mr. Speaker:** The question hour is over.

### (b) WRITTEN ANSWERS

#### RECOGNITION OF ISRAEL STATE BY GREAT BRITAIN

**\*438. Shri Biswanath Das:** Will the Honourable the Prime Minister be pleased to state whether Great Britain consulted India before she decided to recognise Israel as an independent State?

**The Honourable Shri Jawaharlal Nehru:** Government of India were informed by the United Kingdom Government of the action they proposed to take.

#### INDIAN EMBASSY IN MOSCOW

**\*439. Shri Biswanath Das:** Will the Honourable the Prime Minister be pleased to state whether the Indian Embassy is located in a few rooms in the flat of a building in Moscow for which a heavy rent is charged by the Government of Soviet Russia?

**Dr. B. V. Keskar (Deputy Minister for External Affairs and Commonwealth Relations):** No; a fairly commodious building has now been allotted for our

embassy in which the Ambassador and non-diplomatic staff are housed. A monthly rent of Rs. 8,720 is being paid for this building.

#### CABINET LEVEL RELIEF AND REHABILITATION COMMITTEE

**\*440.** { **Giani Gurmukh Singh Musafir:**  
**Master Nand Lal:**  
**Lala Achint Ram:**  
**Pandit Thakur Das Bhargava:**

(a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state when the Cabinet level Relief and Rehabilitation Committee under the chairmanship of the Honourable the Prime Minister was constituted?

(b) What are the functions of this Committee?

**The Honourable Shri Mohan Lal Saksena:** (a) On the 24th November, 1948.

(b) To expedite policy decisions on matters relating to the relief and rehabilitation of refugees.

#### CONSTRUCTION OF HOUSES IN BASTI THAN SINGH NAGAR, KAROL BAGH, DELHI

**\*441. Shri Damoder Swarup Seth:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) whether it is a fact that plans for the building of houses in the area known as Basti Than-Singh-Nagar, near Anand Parbat, Karol Bagh, Delhi, are not being passed;

(b) whether the area referred to above has provision for streets, sanitation and roads in the existing sites; and

(c) whether Government propose to permit temporary constructions in the above-mentioned area to such of the legal holders of the building plots as are prepared either to pay to Government the costs of sanitary installations and other developments in the area or to demolish the temporary buildings without claiming for compensation when so required and if not, why not?

**The Honourable Shri N. V. Gadgil:** The question should have been addressed to the Honourable Minister of Health. It has accordingly been transferred to the list of questions for 22nd February, 1949 when the Honourable Minister for Health will answer it.

#### INDUSTRIES RECRUITING LABOUR THROUGH CONTRACTORS

**\*442. Shri Damoder Swarup Seth:** Will the Honourable Minister of Labour be pleased to state the names of the industries in which labour is still recruited through contractors or middle-men?

**The Honourable Shri Jagjivan Ram:** According to the information contained in the reports of the Labour Investigation Committee, labour is still recruited through contractors or middle-men in the following industries:

(1) Cement, (2) Coir Matting, (3) Cotton Ginning and Baling, (4) Mining, (5) Ports, (6) Dockyards, (7) Central Public Works Department, (8) Railways, (9) Tanneries, (10) Chemical, (11) Sugar Factories, (12) Plantations, (13) Engineering, (14) Mineral Oil, (15) Bidi Manufacture, (16) Carpet Weaving, (17) Cotton Textile (in certain areas) and (18) Paper Mills.

#### CONSTITUTION OF WORKS COMMITTEES OF FACTORIES

**\*443. Shri Damoder Swarup Seth:** Will the Honourable Minister of Labour be pleased to state:

(a) whether the Constitution of the Works Committees of factories is uniform in all the provinces of the Indian Union;

(b) the method by which the representatives of workers are elected or selected to sit in the Works Committees;

(c) how workers are permitted to elect their representatives to Works Committee in a factory in which there are more than one labour union; and

(d) whether workers representation is allowed on the strength of their union's membership or on the basis of the affiliation of unions to a particular trade union congress?

**The Honourable Shri Jagjivan Ram:** (a) So far as Works Committees constituted under the Industrial Disputes Act, 1947, are concerned, there is general uniformity but some provinces, namely, Bombay, United Provinces and Central Provinces and Berar, have enacted independent legislation governing industrial relations.

(b) In regard to central undertakings, attention is invited to Part V of the Industrial Disputes (Central) Rules, 1947 dealing with Works Committee. A copy of the Rules will be found in the Library of the Legislature. In the case of undertakings falling within the Provincial sphere, similar rules with minor changes have been framed by the Provincial Government under the Central Act.

(c) There is no specific provision relating to this in the Central or Provincial Rules framed under the Central Act—except in the case of Madras where the members of each registered union of workmen in an industrial establishment are allowed to elect at least one representative.

(d) Under the rules framed under the Central Act, representation to workers is allowed not on the basis of affiliation to any trade union congress but generally in accordance with rule 36 in Part V of the Industrial Disputes (Central) Rules mentioned above. In the case of the United Provinces, however, representation is restricted on the basis of affiliation of a registered trade union to an Organisation recognised by the Provincial Government. Where there is no such union, the representatives are elected at a meeting of all workmen.

#### UNSTARRED QUESTIONS AND ANSWERS

##### ALLOTMENTS BY CUSTODIAN OF EVACUEES PROPERTY.

**24. Master Nand Lal:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state how many applications were received by the Custodian of Evacuees Property in Delhi during the period from 1st September, 1947 to the 30th November 1947 for allotment of (i) houses; (ii) shops; and (iii) factories?

(b) How many of these applications were considered by the Department and how many were accepted and how many rejected?

(c) How many applications have been received during the period from 1st December, 1947 to 31st December, 1948 for allotment of (i) houses; (ii) shops; and (iii) factories?

(d) Out of these, how many have accepted?

**The Honourable Shri Mohan Lal Saksena:** (a) (i). Number of applications for allotment of houses received from 1st October to 13th October, 1947—17,408 (excluding 6,656 occupation reports received upto 8th October, 1947).

From 14th October, 1947 to 29th February, 1948—6,875.

(ii) Number of applications for allotment of shops received upto 13th October, 1947—nearly 11,000.

(iii) Number of applications for allotment of factories/workshops/industrial premises upto 3rd January, 1948—about 1,900.

Number of subsequent applications—about 200.

(b) (i) About half of the applications received upto 13th October, 1947 have been covered by fresh and confirmatory allotments and the exact number of those rejected cannot be given at this stage.

(ii) About 2,800 applications have been covered by fresh and confirmatory allotments, 1,000 applications are pending disposal and the remainder have been rejected.

(iii) Number of applications accepted—148.

Number rejected—1,743.

(c) (i) Number of applications for allotment of houses from 1st March, 1948 to 31st December, 1948—about 5,000.

(ii) Number of applications for allotment of shops received between December, 1947 and December, 1948—about 4,000.

(iii) Number of applications for allotment of factories/workshops/industrial premises received from 1st March, 1948 to 31st December, 1948—about 200.

(d) These figures are not readily available and it will take considerable time to extract the information from several thousand files. It is doubtful whether any useful purpose will be served by engaging extra staff for scrutinizing the files.

#### EXPENDITURE OF MINISTRY OF RELIEF AND REHABILITATION

**25. Master Nand Lal:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state the total amount actually spent by the Ministry of Relief and Rehabilitation from 1st January 1948 to 31st December 1948?

(b) Out of this, how much has been spent (i) on the Staff; (ii) as loan to refugees; (iii) on building quarters for refugees; (iv) on refugee camps; (v) on training centres for refugees; and (vi) on miscellaneous expenses?

**The Honourable Shri Mohan Lal Saksena:** (a) Figures of expenditure from 1st January, 1948 to 31st March, 1948 are not separately available. Expenditure from the inception of this Ministry, viz., 6th September, 1948 to 31st December, 1948 so far reported amounted to Rs. 22 crores 13 lakhs.

(b) (i) 57 lakhs and 21 thousands.

(ii) 2 crores, 85 lakhs and 85 thousands.

(iii) 1 crore, 52 lakhs and 44 thousands.

(iv) 13 crores, 64 lakhs and 76 thousands.

(v) 28 lakhs and 53 thousands.

(vi) 3 crores 24 lakhs and 21 thousands.

#### EMPLOYEES IN INDIAN HIGH COMMISSIONER'S OFFICE, LONDON

**26. Sardar Hukam Singh:** (a) Will the Honourable the Prime Minister be pleased to state what is the number of persons employed in the office of the High Commissioner for India in the U. K. ?

(b) How many of these are Britishers and how many are Indians?

**The Honourable Shri Jawaharlal Nehru:** (a) and (b). The statement below gives the information required by the honourable member:

## STATEMENT

*Distribution by categories of persons employed in the office of the High Commissioner for India in the United Kingdom*

| Nationality                          | Heads of Departments | Number of Higher Executive Officers and above | Number of Clerical Officers | Number of Messengers, etc. | Total |
|--------------------------------------|----------------------|-----------------------------------------------|-----------------------------|----------------------------|-------|
| (1) Indians                          | 12                   | 35                                            | 336                         | 2                          | 385   |
| (2) British Nationals                | 2                    | 50                                            | 384                         | 157                        | 593   |
| (3) Non-Indian non-British Nationals | ..                   | ..                                            | 4                           | 2                          | 6*    |
| TOTAL                                | 14                   | 85                                            | 724                         | 161                        | 984   |

\* Five are Burmese. Exact information is not available as regards the nationality of the sixth person.

## EMPLOYEES IN INDIAN EMBASSY IN PARIS

**27. Sardar Hukam Singh:** (a) Will the Honourable the Prime Minister be pleased to state how many persons are employed in our Embassy in Paris?

(b) Is it a fact that a non-Indian is placed in charge of Government's private code in that Embassy?

**The Honourable Shri Jawaharlal Nehru:** (a) Twenty-three as follows:

|                                   |    |
|-----------------------------------|----|
| Charge d' Affaires                | 1  |
| First Secretary                   | 1  |
| Second Secretary                  | 1  |
| Information Officer               | 1  |
| Registrar                         | 1  |
| Cypher Superintendent             | 1  |
| General Assistant                 | 1  |
| Stenographer (Personal Assistant) | 1  |
| Interpreter                       | 1  |
| Passport Assistant                | 1  |
| Accounts Assistant                | 1  |
| Typist Clerks                     | 1  |
| Class IV Servants                 | 3  |
| Total                             | 23 |

(b) No. He is an official of Indian domicile.

## SHORT NOTICE QUESTION AND ANSWER

## POLITICAL UNREST IN BURMA AND REPATRIATION OF INDIANS

**Shri R. K. Sidhva:** (a) Will the Honourable the Prime Minister be pleased to state how many Indians are in Burma in the vicinity of the area where Burmese and Karen Troops have come into clash?

(b) Has any arrangement been made for their evacuation and if so, what?

(c) What part of Burma, where Indians reside, is more affected?

(d) How many of the Indians are in Rangoon and are they safe there?

(e) Is it a fact that a large number of Indians are trapped in Insein (Burma)?

(f) If so, what is their condition?

**The Honourable Shri Jawaharlal Nehru:** (a) Accurate statistics are not available but the total Indian population in Burma is estimated to be about seven lakhs. The majority of them live in the delta area, where, in a number of districts, the Burmese troops have clashed with the Karens.

(b) The main clash with the Karens occurred in the Insein suburb of Rangoon, on the 1st February. When fighting was intensified, a temporary truce was specially arranged by our Embassy for the evacuation of Indians and, as a result, about 4,000 Indians were evacuated to safety in Rangoon. Intense fighting continues in villages around Insein, but not many Indians are believed to have been left behind in this area.

(c) The following districts of Burma are reported to have been affected, more or less, by the present revolt:

Insein, Pegu, Hanthawady, Prome, Tharawady, Toungoo, Maubin, Henzada, Bassein, Moulmein and Thaton.

Indians live in all these districts.

(d) The Indian population in Rangoon is roughly estimated to be about 2 lakhs. The law and order situation in the capital is reported to be practically normal.

(e) and (f). As stated in (b) above, the majority of the Indian population has been rescued to safety from the battle zone in and around Insein.

**Shri R. K. Sidhva:** Is it a fact that most of the refugees have appealed to the Indian Embassy for speedy repatriation, and if so may I ask whether Government have taken steps to repatriate them?

**The Honourable Shri Jawaharlal Nehru:** Most of the refugees have not so appealed, as far as I know. In a previous question some reference was also made to Indians in Burma wanting to come back. That was in connection with certain economic measures that the Burmese Government might be taking. As a matter of fact hardly anybody appealed to the Government of India to come back because of that. Now, because of this recent trouble in the last ten days, certainly some people have expressed a desire to come back, and as has been stated, our Embassy has been asked to make all necessary arrangements for those to come back and help them to do so.

**Shri H. V. Kamath:** How many among our nationals in Burma have been adversely affected by the Burma Government's recent decision to remove all non-Burmese nationals from Government service?

**Mr. Speaker:** I do not think it arises out of this question.

**Shri H. V. Kamath:** Are there any Indians serving in the Burmese Army?

**The Honourable Shri Jawaharlal Nehru:** I am not aware of it.

**Shri H. V. Kamath:** Has the Prime Minister's attention been drawn to a news report that one Captain Malhotra was Adjutant of the Kachin Rifles stationed at Moulmein?

**Mr. Speaker:** I do not think it arises.

**Shri Biswanath Das:** May I know whether Government are aware of the fact that very many people from Orissa, Orissa States and Andhra have been living in Burma and specially in the rebel area, as agriculturists and whether any steps have been taken by the Ambassador to protect their agricultural husbandry and the property that they have left in the rebel area?

**The Honourable Shri Jawaharlal Nehru:** Government is aware of the fact that many people from Orissa are there. I am not aware of any danger or any apprehension that they might suffer from in regard to their agricultural pursuits. Our Embassy naturally helps any person who comes there; but this particular

question has not arisen. In fact we have been assured both by the Burma Government and, I believe, by our Embassy that thus far their interests are not threatened.

**Shri Biswanath Das:** Have they seen the information published in today's papers.....

**Mr. Speaker:** Order, order. I may just invite the attention of the honourable member to the fact that the question relates to the situation created by the clash between the Burmese Government troops and the Karens. The honourable member is going much beyond the question and is referring to the permanent question affecting Indians there.

**Shri Biswanath Das:** I might in this connection state that I have given notice of an adjournment motion.

**Mr. Speaker:** That will be dealt with on a different occasion at the proper time. Because he has given notice of an adjournment motion it does not mean that any question contained therein will be taken up now.

**Shri Biswanath Das:** That is not my purpose. After that I had given notice also of a short notice question which you did not allow on the ground that one short notice question has already been accepted by the Honourable the Prime Minister. Therefore necessarily the points arising out of my question.....

**Mr. Speaker:** Order, order. The honourable member is arguing. That does not appear to be a proper argument.

**Shri L. Krishnaswami Bharathi:** Has the Honourable the Prime Minister seen the news that has appeared in the press that in the Insein area over 1,000 Indians have been trapped and it is not found possible to bring them to Rangoon?

**The Honourable Shri Jawaharlal Nehru:** I have just stated that practically all Indians in the Insein area have been brought to Rangoon. There may be a few but I am almost certain that there cannot be many.

**Shri Biswanath Das:** Has the Government seen the information published in the papers today that about 125 wardens in Insein jail have requested our Ambassador in Burma to take care to see that they are evacuated from the place, and have any steps been taken in that direction?

**The Honourable Shri Jawaharlal Nehru:** Yes, I have seen that in the papers and I am sure our Ambassador is dealing with this matter if he has been approached.

**Shri Biswanath Das:** Has he also seen the fact published in the papers today.....

**Mr. Speaker:** He has already said that the matter is left to the Ambassador and he will deal with these matters. That is a clear answer to every question of that type.

**Mr. Tajamul Husain:** May I ask one question?

**Mr. Speaker:** I am proceeding to the Legislative Business.

## CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES

### (PART I— QUESTIONS AND ANSWERS)

Thursday, 17th February, 1949.

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS. (a) ORAL ANSWERS

#### PAYMENT OF DEPOSIT AMOUNTS BY JWALA BANK LIMITED, AGRA

\*444. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Finance be pleased to refer to the reply to my starred question No. 614, asked on the 31st August, 1948 and state whether Government have made any efforts to see whether the Jwala Bank Limited, Agra, has paid the full amount of deposits to the depositors?

(b) What was the total amount of deposits when the Bank stopped receiving new deposits?

(c) How many deposits have been paid off and were they paid in full or in part?

(d) What is the present position of the Bank and are the depositors likely to get their deposits paid in full?

**The Honourable Dr. John Matthai:** (a) Government have no authority to ensure full payment to the depositors.

(b) to (d). Government have no information.

**Shri R. K. Sidhva:** May I know how many times the Reserve Bank inspected this Bank and at what stage they found that the bank was not sound?

**The Honourable Dr. John Matthai:** I think it was on the 12th April that this order was issued preventing the banking company from accepting fresh deposits.

**Shri R. K. Sidhva:** May I know how many times they inspected it?

**The Honourable Dr. John Matthai:** I have no information.

**Shri R. K. Sidhva:** May I know how much was the deposit of the public and whether it is a fact according to the management that Rs. 72 lakhs has been paid away within two months? May I know whether hundred per cent of the deposits has been refunded or whether they have paid less?

**The Honourable Dr. John Matthai:** The only information that I have is what is contained in the Weekly Statements submitted to the Reserve Bank and from these statements I find that a few days before this order was issued prohibiting the accepting of fresh deposits, the total amount of demand and time liabilities was somewhere about Rs. 88 lakhs. In the latest statement that we have received I think the total amount of liabilities is shown as Rs. 16 lakhs.

**Shri R. K. Sidhva:** Will the Honourable Minister enquire how many visits were paid by the Inspectors in view of the section in the Reserve Bank Act?

**The Honourable Dr. John Matthai:** I will make enquiries.

**Dr. P. S. Deshmukh:** Do Government keep in touch with the affairs of such crashing banks—banks which are falling or collapsing?

**The Honourable Dr. John Matthai:** Government have got authority, especially under the present Banking Ordinance, to take suitable steps; and the particular measure that was taken, preventing this bank from accepting deposits, was the most drastic step that could be taken under the present Ordinance.

**Dr. P. S. Deshmukh:** Are there any other banks in connection with whom such drastic steps have had to be taken?

**The Honourable Dr. John Matthai:** It is not in the public interest to disclose that.

**Shri R. K. Sidhva:** In this particular case may I ask whether Government took any special interest to see that the depositors' moneys are safe?

**The Honourable Dr. John Matthai:** The question of requiring the bank to make the payments due to the depositors is a matter that lies within the province of a court of law.

#### DELHI MUNICIPAL RE-ORGANISATION ENQUIRY COMMITTEE

**\*445. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Health be pleased to state whether Government have considered the report made by the Delhi Municipal Re-organisation Enquiry Committee?

(b) If so, what are their recommendations?

(c) When are Government likely to introduce legislation for amalgamating all local bodies?

(d) What are the reasons for the delay in putting the recommendations of the Committee into effect?

**The Honourable Rajkumari Amrit Kaur:** (a) to (c). The Report of the Delhi Municipal Organisation Enquiry Committee is still under the consideration of Government.

(d) As the honourable member is aware, considerable changes have taken place in the Delhi urban area since the Committee submitted their Report. Before final decisions are reached, therefore, Government would like to consider to what extent these changes have altered the basis of the main recommendations of the Committee, particularly in regard to the finances of the proposed Corporation. This is likely to take some time.

**Shrimati Renuka Ray:** Have Government taken any steps to appoint anybody to look into the financial aspects of the proposal?

**The Honourable Rajkumari Amrit Kaur:** That matter is under active consideration.

**Shri V. C. Kesava Rao:** May I know when the Report of this Committee was submitted to the Government?

**The Honourable Rajkumari Amrit Kaur:** The Report actually came into the hands of Government in May last year.

**Shri R. K. Sidhva:** May I know whether it is the intention of Government to amalgamate all these Municipal Committees into one Corporation?

**The Honourable Rajkumari Amrit Kaur:** That decision will have to be taken when the Report is considered.

**Shri Deshbandhu Gupta:** May I ask if the different Ministries have expressed their opinion on this Report?

**The Honourable Rajkumari Amrit Kaur:** It has been circulated to the different Ministries and they have not sent in any comments so far.

**Shri Deshbandhu Gupta:** Will the Honourable Minister take steps to see that the matter is not delayed on that account?

**The Honourable Rajkumari Amrit Kaur:** I am not going to delay the matter as far as it is in my power not to do so.

#### APPLICATIONS FOR I.A.S. AND I.P.S.

**\*446. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Home Affairs be pleased to state the total number of applications received for the I.A.S. and the I.P.S.?

(b) How many of them have been interviewed by the Special Recruitment Board and how many selected for the different services?

(c) How many will be appointed straightway?

(d) Have any women been selected and if so, for what service?

**The Honourable Sardar Vallabhbhai Patel:** (a) 16,850.

(b) and (c). 1038 candidates were interviewed by the Special Recruitment Board upto 31st January 1949. Further interviews are proceeding. As selections of candidates depend on positions obtained by them in the final all-India list no complete list of selected candidates is available yet. Candidates numbering sixteen for the Indian Administrative Service and twenty-five for the Indian Police Service, however, who have been placed so high by the Special Recruitment Board that their inclusion in the final list of selected candidates is reasonably certain have been offered appointments to these services as an interim measure.

(d) No woman candidate has so far been offered appointment either to the Indian Administrative Service or to the Indian Police Service.

**Shri R. K. Sidhva:** Has this Recruitment Board completed its interviews in all the Provinces?

**The Honourable Sardar Vallabhbhai Patel:** As I have said, interviews are still proceeding.

**Shri M. Tirumala Rao:** With regard to part (c), is there any proportion of provincial representation to be observed by the Board—that all the provinces will be proportionately represented provided duly qualified candidates are forthcoming?

**The Honourable Sardar Vallabhbhai Patel:** Of course so.

**Shri H. V. Kamath:** May I know how many women applied and how many were interviewed?

**The Honourable Sardar Vallabhbhai Patel:** As many as were available were interviewed.

**Shri Deshbandhu Gupta:** May I know whether it is a fact that at the time of interviews a representative of the different Provinces is also attached to the Selection Board?

**The Honourable Sardar Vallabhbhai Patel:** Yes, it is so.

**Shri Deshbandhu Gupta:** May I know whether it is also done in the case of Delhi?

**The Honourable Sardar Vallabhbhai Patel:** I do not know whether the Board has come to Delhi Province yet.

**Mr. Frank Anthony:** Is the Central Government's control of the I.P.S. the same as the Central Government's control of the I.A.S.?

**The Honourable Sardar Vallabhbhai Patel:** Yes.

**Shri L. Krishnaswami Bharathi:** With reference to the answer just now given that sixteen persons were selected for the I.A.S. and twenty-five for the I.P.S. may I ask how many of them have been obtained from those already in service and how many from what is called the open market, that is by direct recruitment?

**The Honourable Sardar Vallabhbhai Patel:** I am not in a position to say that.

**Shrimati G. Durgabai:** May I know whether no woman has offered herself for either of these categories of posts?

**The Honourable Sardar Vallabhbhai Patel:** I will enquire.

**Shri Sita Ram S. Jajoo:** May I know whether candidates from Indian States are treated on a par with candidates from the Provinces in this respect or not?

**The Honourable Sardar Vallabhbhai Patel:** Not yet.

**Shri Deshbandhu Gupta:** May I know whether the Honourable Minister's attention has been drawn to a resolution passed by the Chief Commissioner's Advisory Council requesting the Government that Delhi's representative should also be associated with the Selection Board when candidates from Delhi are interviewed?

**The Honourable Sardar Vallabhbhai Patel:** I am not aware of it.

**Shri L. Krishnaswami Bharathi:** How long will it take to complete the selections in view of the fact that it is an Emergency Selection Board and it is now nearly a year?

**The Honourable Sardar Vallabhbhai Patel:** I do not think the period has been so long as suggested, but they are nearing completion now.

**Prof. N. G. Ranga:** What is the total estimate of the number of officers whom Government wish to appoint for the time being in the I.A.S. as well as the I.P.S.?

**The Honourable Sardar Vallabhbhai Patel:** The number of vacancies in the I.A.S. in all the nine Provinces is estimated to be 251 and in the I.P.S. 293.

#### PUBLICATIONS OF MINISTRY OF INFORMATION AND BROADCASTING

**\*447. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state the number of publications published by his Ministry in various languages and the number of editors and sub-editors employed to edit such publications?

(b) Are the publications weekly or monthly?

(c) What is the total cost of all the publications and amongst whom are the said periodicals circulated?

(d) Is any subscription received for such publications?

**The Honourable Shri R. R. Diwakar:** (a) The number of publications issued by the Ministry of Information and Broadcasting is—

|               |             |   |
|---------------|-------------|---|
| Periodicals : | In English  | 6 |
|               | In Hindi    | 5 |
|               | In Urdu     | 5 |
|               | In Tamil    | 1 |
|               | In Bengali  | 1 |
|               | In Gujarati | 1 |
|               | In Arabic   | 1 |

#### STARRED QUESTIONS AND ANSWERS

|                         |            |    |
|-------------------------|------------|----|
| Pamphlets :             | In English | 22 |
| (from 1st January, 1948 | In Hindi   | 7  |
| to 31st December, 1948) | In Arabic  | 1  |
|                         | In Persian | 1  |

The number of editors and sub-editors employed to edit these publications is sixteen.

(b) The periodicals are published fortnightly, monthly, bimonthly and quarterly.

Pamphlets are *ad hoc* publications issued as necessary.

(c) The total cost of producing all these publications inclusive of the cost of paper and printing and despatch charges in 1948-49 is estimated as Rs. 19,21,996.

The periodicals are sold to subscribers and also circulated to Ministries of Government of India, Provincial and States Governments, Foreign Embassies and Consulates in India, Indian Embassies etc. abroad, Press Correspondents, Journalists, Libraries etc.

(d) Yes.

**Shri R. K. Sidhva:** What is the circulation of these publications? May I know how much amount is recovered from the subscribers?

**The Honourable Shri R. R. Diwakar:** As regards circulation I shall have to lay a statement on the table of the House, if all the details are required. As regards recovery, about ten lakhs are recovered from the subscribers.

**Shri R. K. Sidhva:** The Honourable Minister said that 19 lakhs was the cost of production of those publications. If that is so, may I know if 9 lakhs is the loss that is sustained by Government?

**Mr. Speaker:** I suppose that should be the presumption.

**The Honourable Shri R. R. Diwakar:** That is not the point.

**Shri R. K. Sidhva:** What then is the point?

**The Honourable Shri R. R. Diwakar:** What is the information wanted by the honourable member?

**Shri R. K. Sidhva:** I said that according to the figures given by the Honourable Minister Rs. 9 lakhs was the loss. Is that correct?

**The Honourable Shri R. R. Diwakar:** Yes.

**Seth Govind Das:** Is any consideration given, when these periodicals are published, with respect to the population which speaks particular languages?

**The Honourable Shri R. R. Diwakar:** I think generally that is taken into consideration.

**Seth Govind Das:** May I know why five periodicals are being published in Hindi and five in Urdu, when the Hindi-speaking population is much larger than the Urdu-speaking population?

**Mr. Speaker:** Order, order. The honourable member is entering into an argument. He can carry on the argument later.

**Dr. P. S. Deshmukh:** May I know, so far as languages are concerned, if the present list is the same as used to be in days and years gone by or has it been revised recently?

**Several Honourable Members rose —**

**Mr. Speaker:** Order, order. In that case I shall have to call the next question.

**Shri B. Shiva Rao:** Sir, it is an important question. . . .

**Mr. Speaker:** Honourable member must follow the answer and should not be in a hurry. If one member interrupts while another member's question is being answered the only course the Chair can adopt is to go to the next question.

**Dr. P. S. Deshmukh:** Sir, my question was whether the list according to languages of the publications now being issued is the same as it was before Independence or whether it has been revised recently.

**The Honourable Shri R. R. Diwakar:** It is being revised and it was revised also.

**Shri M. Tirumala Rao:** Will Government consider the desirability of issuing these publications in Telugu also, as the Telugu-speaking population is the third largest in the country?

**Mr. Speaker:** Order, order.

کیانی گورمکھ سنگھ مسافر : کیا پنجابی زبان اور پنجابی سکریٹ میں کوئی پبلیکیشن ہوئی ہیں ؟

**Giani Gurmukh Singh Musafir:** Have any publications been issued in the Punjabi language and Punjabi Script?

आनरेबल श्री आर० आर० दिवाकर : अभी तक तो नहीं हैं ।

**The Honourable Shri R. R. Diwakar:** Not yet.

**Shri Moturi Satyanarayana** May I know whether the Urdu circulation is not larger than the Hindi circulation? What exactly is the difference between the circulation of the two?

**The Honourable Shri R. R. Diwakar:** I have already stated that I shall lay a statement on the table as regards circulation of Hindi and Urdu publications. After the honourable member has seen that, he will get a better idea.

**Shri B. Shiva Rao:** May I know whether the total cost of the publications (which is 19 lakhs) also includes the salaries of the establishment on the publications editorial side?

**The Honourable Shri R. R. Diwakar:** The establishment is not included. It comes to about 3 lakhs and odd.

**Mr. Frank Anthony:** Is Government aware that the Indian Information is invariably received at least a month after its alleged date of publication?

**Mr. Speaker:** Order, order.

**Seth Govind Das:** Are Government contemplating to stop any publications in Hindi like *Bal Bharathi* in the near future?

**The Honourable Shri R. R. Diwakar:** No.

**Shri K. Hanumanthaiya:** In appointing editors and sub-editors are journalists given preference?

**The Honourable Shri R. R. Diwakar:** I think so.

**Pandit Lakshmi Kanta Maitra:** What happens to the copyright of the publications? Does it remain with the Government of India in the Information Department or there is no copyright observed?

**The Honourable Shri R. R. Diwakar:** It is with the Government of India.

**Shri Mahavir Tyagi:** May I know where these pamphlets are printed? Are they printed in the Government or in private presses? If they are printed in private presses I would also like to know as to whether tenders are invited or whether the officers of the Department exercise their discretion regarding the selection of the press for the work.

**The Honourable Shri R. R. Diwakar:** Some are printed in government press and some in private presses. As regards private presses, tenders are invited and the usual procedure followed.

**Ch. Ranbir Singh:** Are Government prepared to circulate these publications among the members of the House?

**The Honourable Shri R. R. Diwakar:** Those members who ask for them are supplied with these publications.

**Shri H. V. Kamath:** As regards editors and sub-editors are their appointments made through the Federal Public Service Commission or by a departmental selection board?

**The Honourable Shri R. R. Diwakar:** Certainly by the Federal Public Service Commission.

**Shri Deshbandhu Gupta:** May I know if Government is satisfied that the cost of producing all these publications is not more than what is incurred by private publishers?

**Mr. Speaker:** Order, order.

**Dr. P. S. Deshmukh:** The Honourable Minister has mentioned ten lakhs as the income from subscribers. What portion of this comes from private subscribers? I believe most of the subscriptions are from Government or from institutions which are compulsorily made to purchase them. Is that a fact?

**The Honourable Shri R. R. Diwakar:** I think the question requires notice.

#### PRIVY PURSES OF RULERS OF STATES

**\*448. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of States be pleased to state whether there is any uniform rule in respect of the fixation of privy purses for the rulers whose States have either merged with different Provinces or have been administratively integrated into Unions, and if so, whether this rule has been followed in respect of the rulers of all the States?

(b) Were the representatives of the people forming popular Ministries in the States consulted in the matter of fixation of the privy purses?

(c) What is the extent of privy purses fixed in the cases of the Maharajas of Gwalior, Indore, Bilaspore and Baroda and what percentage does the amount of privy purse form of the total revenue of these States?

**The Honourable Sardar Vallabhbhai Patel:** (a) to (c). As a general rule privy purses were calculated on the basis of fifteen per cent. on the first lakh of the revenues of the State, ten per cent. on the next four lakhs and seven and a half per cent. on the balance subject to a maximum of ten lakhs of rupees. In some cases exceptions have had to be made, but they apply only for the lifetime of the present Rulers and the question of fixation of their privy purses of their successors is yet to be settled. The privy purse fixed for His Highness the Maharaja of Gwalior is twenty-five lakhs of rupees and for His Highness the present Maharaja of Indore fifteen lakhs. This represents six per cent. of the revenues of the State in the case of Gwalior and five per cent. in the case of revenues of Indore. The privy purse for the Ruler of Bilaspur has not yet been fixed. That of Baroda has just been fixed at 26½ lakhs. As far as possible the popular leaders have been taken into consultation in fixing the privy purse.

**Shri H. V. Kamath:** In view of the statement that the Honourable Minister recently made on the floor of this House to the effect that the states are being brought into line with the provinces, does the Honourable Minister propose to fix privy purses at a higher level than the salary and emoluments of a provincial governor?

**The Honourable Sardar Vallabhbhai Patel:** I have not known any province in which there is a Rajpramukh.

**Shri H. V. Kamath:** Sir, I am asking. . . .

**Mr. Speaker:** The honourable member is making a suggestion in the guise of asking for information. Let him ask for information. He may comment later on.

**Dr. P. S. Deshmukh:** Is it a fact that some Rulers have left only nine annas six pies in their treasuries whereas other Rulers have left crores of rupees?

**The Honourable Sardar Vallabhbhai Patel:** All Rulers, it is well-known, have not got equal balances.

**Dr. P. S. Deshmukh:** May I know what amount was left in the Gwalior treasury?

**The Honourable Sardar Vallabhbhai Patel:** At the time of the formation of the Union, the income of the State handed over was Rs. 60 lakhs a year.

**Dr. P. S. Deshmukh:** But there was no balance in the treasury.

**Mr. Speaker:** Order, order.

**Shrimati G. Durgabai:** From what has appeared in the Press, it seems that an amount of one crore has been fixed as the privy purse to the Ruler of Hyderabad. Is it a fact?

**The Honourable Sardar Vallabhbhai Patel:** No, Sir.

**Shri H. V. Kamath:** How many Maharajas or Rajpramukhs of the States are assigned a privy purse higher than the salary and emoluments of the Provincial Governors?

**The Honourable Sardar Vallabhbhai Patel:** I cannot say. I want notice.

**Shri K. Hanumanthaiya:** Would the States Ministry welcome it if the Constituent Assembly of a State and the concerned Ruler come to an arrangement regarding the privy purse, that is by way of reducing the privy purse?

**Mr. Speaker:** This is not a proper question for information. Next question.

#### CURRENCY NOTES IN CIRCULATION

**\*449. Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Finance be pleased to state what was the amount of currency notes in circulation in the year 1940, and what was the extent of currency notes in circulation in the year 1948?

**The Honourable Dr. John Matthai:** Rs. 241.25 crores for the week ended the 27th December, 1940, and Rs. 1,188.20 crores for the week ended the 31st December, 1948.

#### COMPULSORY BORROWING BY GOVERNMENT AS AN ANTI-INFLATIONARY MEASURE

**\*450. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Finance be pleased to state whether Government have considered any compulsory borrowing programme as an effective step in their anti-inflation policy?

(b) Has the attention of the Government of India been drawn to certain suggestions published in the November, 1948 issue of the monthly magazine, *Science and Culture*, Volume 14, pages 167-171, regarding disinflation cum compulsory borrowing by Government, and if so, do Government intend to act on the various recommendations contained therein and if not, why not?

**The Honourable Dr. John Matthai:** (a) and (b). As the honourable member is aware, the whole question of anti-inflationary measures was discussed in detail in the House during the last session and after consideration of all the suggestions received from various quarters, Government adopted certain measures which were announced in the Press Communiques issued on the 4th and 22nd October 1948. The suggestions contained in the magazine article

referred to are not new and have already received consideration. I would invite, in particular, the honourable member's attention to the statement made by the Prime Minister in the House on the 3rd September 1948 in which it was made clear that Government had no intention to demonetise notes or to freeze any part of bank deposits.

#### INFILTRATION OF PAKISTAN ARMY INTO EAST PUNJAB

**\*451. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Defence be pleased to state whether there was any infiltration of the Baluchi Regiment of the Pakistan Army in the East Punjab border and whether they had any clash with the East Punjab Police and the Indian Military, and if so, with what result or casualties?

(b) What steps have Government taken to prevent the recurrence of such incidents?

**The Honourable Sardar Baldev Singh:** (a) No infiltration of Baluch troops of the Pakistan Army as such has been reported. Members of the Baluch Regiment have, however, occasionally fired at our villagers. Casualties on this account have been negligible.

(b) Government have taken all possible steps in this direction, but it will be appreciated that it is not always possible to prevent minor raids across a frontier of this length.

#### ACTION AGAINST PRINTING PRESSES, NEWS PAPERS, ETC. IN CONNECTION WITH R. S. S. MOVEMENT IN CENTRALLY ADMINISTERED AREAS

**\*452. Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Home Affairs be pleased to state the names of newspapers, pamphlets, booklets, etc., which were banned, seized and confiscated as directly or indirectly helping the Rashtriya Swayam Sevak Sangh movement in the Centrally Administered areas and the names of the different Printing Presses which were seized, closed or forfeited in these areas.

**The Honourable Sardar Vallabhbhai Patel:** I lay on the table of the House a statement showing the names of newspaper, pamphlets, etc., banned, seized or confiscated and the names of the printing Presses seized, closed or forfeited in the Centrally Administered Areas for helping the R.S.S. movement.

#### STATEMENT

*Names of newspapers, pamphlets, etc., banned, seized or confiscated in the centrally Administered areas and the names of the Printing Presses seized, closed or forfeited in those areas for helping the R. S. S. movement.*

#### DELHI

1. (a) The printing and publishing of the following papers were prohibited under section 6(1) of the Punjab Public Safety Act, 1947, as extended to the Delhi Province:

- (1) English Weekly *Organiser*.
- (2) Hindi Daily *Bharat Varsh*.

(b) The entry into Delhi Province of the following papers was prohibited under section

2. (1) of the Punjab Public Safety Act as extended to the Delhi Province:

- (1) Urdu Daily *Hindu* of Jullundur.
- (2) Hindi weekly *Akash Vani* of Jullundur.

(c) Copies of the following publications were declared forfeited under section 19 of the Indian Press (Emergency) Powers Act, 1931:

- (1) A poster in English beginning with the words "U.N.O. LOST" and ending with the words "IS IT DEMOCRACY" written by Narindra.
- (2) The book in English entitled "THE CRUCIFICATION AND AFTER" published by L. N. Vashisht and printed at Mahalaxmi Press, Delhi.

- (3) The document in English entitled "A plea to pause and ponder" beginning with the words "The Rashtriya Swayamsewak Sangh has been" and ending with the words "to lift it without any further delay".
- (4) A book in Hindi entitled "Wartman Shasan ke Fascist Pravertan" written by Shri Vidya Sagar Vidalankar, published by Pustak Sagar, 7 Kolhapur House, Subzimandi, Delhi, and printed at Arjun Press, Naya Bazar, Delhi.
- (5) A book in Hindi entitled "Pathick", written by Shri Guru Datt, published by Messrs. Vidya Mandir Limited, New Delhi, and printed at G.andal's Press, Connaught Circus, New Delhi.
- (d) The following presses were sealed or seized :
- The General Printing Works, Nai Sarak, Delhi.
  - Bharat Mudranalaya Press, Faiz Bazar, Delhi.
  - Vidaydhar Art Press, Bara Hindu Rao, Sadar Bazar, Delhi.

AJMER-MERWARA—Nil.

COORG—Nil.

**Dr. Mono Mohan Das:** May I know whether the Government has got any intention of returning in the near future the printing presses which have been confiscated?

**The Honourable Sardar Vallabhbhai Patel:** There is no such intention at present.

#### ARRANGEMENTS TO MAKE INDIA SELF-SUFFICIENT IN AMMUNITION

\*453. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Defence be pleased to state what arrangements have been made to make India self-sufficient in respect of the ammunition required for the army?

(b) When is India expected to be self-sufficient in this class of goods?

(c) What is the total cost of the armaments imported during the years 1946-47 and 1947-48?

**The Honourable Sardar Baldev Singh:** (a) The necessity for making India as self-sufficient as possible in the matter of ammunition is fully realised and various measures have been and are being taken towards that end. It is not, however, in the public interest to disclose the plans in detail.

(b) It is not possible to give an idea of the date by which it is hoped self-sufficiency will be achieved because there are so many uncertain factors. It should be appreciated that the production of armaments calls for a knowledge of closely guarded secrets in regard to some of the items, and even in regard to others, the development of various technological industries in the country is a pre-requisite for the attainment of self-sufficiency in the matter of production of armaments. Whatever is feasible is being done and the whole question is under constant review.

(c) The cost of armaments imported is not separately available as this is merged with the cost of other stores imported by the Armed Forces. The years 1946-47 and 1947-48 were also abnormal in certain respects. For example, in 1946-47 stores imported to India were initially paid for by the U.K. Government and were imported to India not only for India's use but also to meet the requirements of the U.K. Forces in the Far East as a result of which there was a good deal of movement of stores in and out of India. The figures for 1947-48 again include partly imports for the Dominion of India and partly for the requirements of the undivided India. However, even if the figures were available it would not be in the public interest to disclose them.

**Shri V. C. Kesava Rao:** May I know whether any factories manufacturing special type of ammunition were destroyed after the war?

**The Honourable Sardar Baldev Singh:** No, Sir.

**Seth Govind Das:** Is it not a fact that as one of the measures for making India self-sufficient as far as ammunition is concerned, it was proposed by the

Government to start certain Ordnance Factories which were closed down? Have all these factories been started?

**The Honourable Sardar Baldev Singh:** The proposal was examined in detail and all those factories which were considered necessary for the production of ammunition are being started.

**Seth Govind Das:** Does the Honourable Minister remember that as far as the Khamaria factory in the Central Provinces is concerned, the honourable member promised that it would be started, and does he know that it is not in full swing even now?

**The Honourable Sardar Baldev Singh:** What I have stated is that steps are being taken to start the Khamaria factory. I repeat again that arrangements are being made to start the factory. The honourable member will appreciate that it will take some time before the factory is actually started.

**Shri L. Krishnaswami Bharathi:** What is exactly meant by self-sufficiency in ammunition?

**Mr. Speaker:** That is not information within the special cognizance of the Minister.

**Shri Deshbandhu Gupta:** Has there been any increase in production in the year 1948 over that of 1947?

**The Honourable Sardar Baldev Singh:** Yes, Sir. There has been.

**Mr. Frank Anthony:** If the Defence Ministry takes protection or refuses to give information on this alleged plea of public interest, how are members of this House going to put a stop to inefficiency and incompetence which is generally known to the public?

**Mr. Speaker:** That is not asking for information, it is arguing. But the honourable member can approach the Defence Minister privately.

**Shri H. V. Kamath:** In view of the fact that the volume of armaments is dependent upon the size of the Army, has the size of free India's Army been finalized?

**The Honourable Sardar Baldev Singh:** No, Sir.

#### UNIVERSAL BASIC EDUCATION

\*454. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Education be pleased to state what progress has been made in the introduction of universal basic education?

(b) Are the Government of India in charge of the whole scheme or is it to be eventually entrusted to the Provincial Governments?

آنریبل مولانا ابوالکلام آزاد : (a) تمام پروانوں کی حکومتوں نے ایسے بچوں کیلئے

جو چھ سے گیارہ برس کی عمر کے ہوں بیسک اسکول کھول دیے ہیں۔ کہیں کہیں سینئر

بیسک اسکول بھی کھل گئے ہیں جنہیں گیارہ سے چودہ برس کے گروپ کی پروہائی کا

انتظام کیا گیا ہے۔ ٹیچروں کی تربیتنگ کا بھی کئی پروانوں میں کام ہو رہا ہے۔

سنٹرل گورنمنٹ کے ہاتھ میں جن جگہوں کا انتظام ہے انکا حال یہ ہے

۳۸-۳۹ میں ایک سو نئے بیسک اسکول دلی کی دیہاتی بستیوں میں بھی کھولے

گئے۔ دو تربیتنگ انسٹی ٹیوشن بیسک ٹیچروں کے لئے بھی کھولے گئے ہیں۔

ایک دلی میں ایک اجمیر میں۔ کورگ کے تین امیدوار الہ آباد کے تربیتنگ کالج

میں بھیجے گئے ہیں یہ اپنی پروہائی پوری کر کے کورگ جانینگے تو وہاں بیسک اسکول

اور ٹریننگ انسٹی ٹیوشن کا کام شروع کیا جائیگا۔

کئی دیسی ریاستوں میں بھی بیسک سسٹم شروع ہو رہا ہے جیسے میسور اور رامپور۔

(b) پرائونشل گورنمنٹیں اپنے اپنے پرائنٹوں میں بیسک ایجوکیشن کیلئے ڈائریکٹ ذمہ داری رکھتی ہیں لیکن وہ بیسک سسٹم کے اس جنرل آؤٹ لائن پر چلتی ہیں جو سنٹرل اتھارٹیز بورڈ نے تیار کیا ہے تمام پرائونشل گورنمنٹوں کو سنٹرل گورنمنٹ سے اس کام کیلئے گرانٹ ملتی ہے۔

سنٹرل گورنمنٹ پرائونشل گورنمنٹوں کو صرف گرانٹ ہی نہیں دیتی بلکہ اس سے زیادہ اس کام میں مدد دے رہی ہے۔ منسٹری آف ایجوکیشن نے ایک آل انڈیا اسکیم بنائی ہے جس کا مقصد یہ ہے کہ دس برس کے اندر تمام ملک میں جونیئر بیسک اسکیم یونیورسل اور کمپلسری کر دی جائے۔ سنٹرل اتھارٹیز بورڈ نے اس کے لئے اپنی رپورٹ ۲۴ میں چالیس برس کی مدت تھرائی تھی۔

یہ اسکیم اتھارٹیز بورڈ نے اپنی پچھلی میٹنگ میں منظور کر لی ہے اور اس مہینے میں تمام پرائنٹوں کے ایجوکیشن منسٹروں کی ایک کانفرنس دلی میں ہو رہی ہے جو اس بات پر سوچ وچار کریگی کہ کس طرح اسے فوراً کام میں لایا جائے۔ اسکیم کے چلانے میں سب سے بڑی رکاوٹ فنڈز کی کمی ہے لیکن بہر حال امید کیجاتی ہے۔ کہ ہم ایک نیا قدم اٹھا سکیں گے۔

**The Honourable Maulana Abul Kalam Azad:** (a) Almost all the Provincial Governments have opened Basic Schools for children of 6-11. Some of the Provinces, for example Bihar, have also started Senior Basic Schools for 11-14 age group. Several Provinces have made arrangements for training of teachers in Basic system.

In regard to Centrally administered Areas, during 1948-49, about 100 new Basic Schools were started in the rural areas of Delhi Province. Two Training Institutions for Basic Teachers, one in Delhi and the other in Ajmer, were started. Coorg has deputed three candidates for training in Basic Education to the Training College, Allahabad. After their return, Training College for Basic Teachers and Basic Schools for children will be started in Coorg.

Some of the States namely, Mysore, Rampur, etc. are also taking steps to introduce Basic system of education.

(b) The Provincial Governments are directly responsible for Basic Education in their respective areas, though they are following the general outline of the Basic System laid down by the Central Advisory Board of Education in their Report of 1944 as modified by the Board during 1948-49. All the Provincial Governments, however, get grants for Basic Education from the Centre.

The Centre's responsibility, however, does not end with giving grants to the Provinces. The Ministry of Education have prepared an All-India Scheme for introducing compulsion among all children of 6-11 in a period of 10 years as against a period of 40 years, previously envisaged by the Central Advisory Board of Education. This scheme has been accepted by the Board at its last meeting in January and immediate implementation of it will be discussed at a Conference of all Provincial Education Ministers to be held this month. The

main difficulty in implementation of the scheme is lack of funds but in spite of this, it is hoped that a beginning can be made in the coming academic year.

**Shrimati Renuka Ray:** In view of the fact. . .

**Shrimati Dakshayani Velayudhan:** I want translation.

**Mr. Speaker:** Let her put the question.

**Shrimati Renuka Ray:** In view of the fact that provincial governments spend a very small proportion of their Budget on education, has the Central Government taken steps to emphasize on them the necessity of allocating more funds for education and also refusing to give Central subsidies if they do not keep in touch with the programme of the Central Advisory Board and spend more money on education.

**Dr. P. S. Deshmukh:** On a point of order. The honourable Lady member on this side of the House was asking for a translation of the replies before any supplementaries were put. I think her request should be considered.

**Mr. Speaker:** That is not a point of order. I have heard that request and in due course of time, after seeing how the supplementaries are developing, I will see whether that request should or should not be granted. The difficulty, honourable members will realize, is this, that if on account of the request of any single individual member, I were to allow the translation of every question, then the proceedings must absolutely be conducted in English and there can never be any turn-over to Hindustani. So I request the honourable members to see that they try to follow Hindustani, particularly the replies of the Honourable Maulana Saheb which are in very simple Hindustani in this case, and for all the most important things, English words are used by him, but that is another matter. It is a matter of opinion.

**Shri Ramalingam Chettiar:** May I suggest that the Honourable the Education Minister may have a Deputy to him to answer in English?

**Shrimati Renuka Ray rose—**

**Mr. Speaker:** Order, order. Let us allow her to put her question.

**Shrimati Renuka Ray:** Have Central Government emphasized on the provincial governments the need for coming into line with the C.A.B. schemes and spending more money on education in provincial budgets and if they do not do so, will the Central Government be prepared not to give them subsidies for development schemes?

آنوربل مولانا ابوالکلام آزاد : سنٹرل گورنمنٹ اس کی پوری کوشش کرتی ہے مگر اس کے سامنے کوئی ایسی بات نہیں ہے جس کی وجہ سے وہ کسی پرائنٹ کی گرانٹ بند کرے۔

**The Honourable Maulana Abul Kalam Azad:** The Central Government does its best, but there is no such thing before it on account of which it should stop giving grant to any Provincial Government.

**Mr. Speaker:** Mr. Chettiar. He wanted to put a question.

**Shri T. A. Ramalingam Chettiar:** Not a question. I suggested with reference to the difficulties expressed regarding translation . . . . .

**Mr. Speaker:** That has been noted.

श्रीमती जी० दुर्गाबाई : क्या मैं यह जान सकती हूँ कि गवर्नमेंट द्वारा केंद्रीय या प्रांतीय जितने बेसिक स्कूल खोले गये हैं उनमें काम करने के लिये काफी (qualified hands) मौजूद हैं। क्या इसका कष्ट अब्दाजा है और इनके लिये गवर्नमेंट क्या कोशिश कर रही है।

**Shrimati G. Durgabai:** May I know if a sufficient number of qualified hands is available for employment in the Basic Schools opened both by the Central and Provincial Governments? Are any figures available? And what efforts are being made by Government in this respect?

آنریبل مولانا ابوالکلام آزاد : اس کے لئے پوری کوشش کی جا رہی ہے - لیکن میں اسکی پوری تفصیل ابھی نہیں دے سکتا -

**The Honourable Maulana Abul Kalam Azad:** Every effort is being made in this direction. But I cannot give its full details at the moment.

**Shri V. C. Kesava Rao:** How many teachers were given training in basic education during the last financial year?

آنریبل مولانا ابوالکلام آزاد : اس کے لئے نوٹس کی ضرورت ہے -

**The Honourable Maulana Abul Kalam Azad:** I would require notice for that.

श्री एच० वी० कामत : क्या माननीय शिक्षा मंत्री यह बतलाने की कृपा करेंगे कि गत वर्ष में दिल्ली, अजमेर-मेरवाड़ा और कुर्ग में बेसिक शिक्षा प्रचार के लिये कितने रुपये सरकार ने खर्च किये ?

**Shri H. V. Kamath:** Will the Honourable Minister of Education please state how much amount was spent by the Government during the past year on the introduction of basic education in Delhi, Ajmer-Merwara and Coorg?

آنریبل مولانا ابوالکلام آزاد : اس کے لئے نوٹس کی ضرورت ہے -

**The Honourable Maulana Abul Kalam Azad:** A notice for that is required.

ڈاکٹر وائی۔ ایس۔ پارمار : کیا میں دریافت کر سکتا ہوں کہ ہماچل پردیش میں

وٹمی بیسک اسکول کھولا گیا ہے - اور کیا ٹریلنگ کے لئے ٹیچرز بھیجے گئے ہیں ؟

**Dr. Y. S. Parmar:** May I know whether any basic school has been opened in Himachal Pradesh, and any teachers sent for receiving training?

آنریبل مولانا ابوالکلام آزاد : نہیں - جہاں تک مجھے معلوم ہوا ہے ابھی تک وہاں کام اس قدر شروع نہیں ہوا ہے -

**The Honourable Maulana Abul Kalam Azad:** No, as far as I am aware this work has not as yet been taken up there on these lines.

श्री मोटुरी सत्यनारायन : क्या मैं दरिवाफत कर सकता हूँ कि इस बात की जरूरत को महसूस करते हुए कि बुनियादी तालिम बहुत जरूरी है, ऊंची तालिम के लिये जो खर्चा किया जा रहा है वह बुनियादी तालिम में खर्च किया जाय ?

**Shri Moturi Satyanarayana:** May I know that considering the importance of basic education, the money being spent upon higher education should be spent towards basic education?

**Mr. Speaker:** Order, order. This is a suggestion for action.

بیگم اعجاز رسول : کیا میں یہ دریافت کر سکتی ہوں کہ کن صوبوں کو سنٹر کی

طرف سے امداد ملتی ہے - اور اس امداد کی رقم کس بل پر مقرر کی گئی ہے ؟

**Begum Aizaz Rasul:** May I know which of the Provinces are in receipt of grants from the Centre, and what are the basis on which the amount of these grants has been fixed?

آنریبل مولانا ابوالکلام آزاد : تقریباً تمام صوبوں کو مدد دی جا رہی ہے -

**The Honourable Maulana Abul Kalam Azad:** Grant is being given to almost all the Provinces.

شری دیش بندھو گپتا : کیا یہ امر واقع نہیں ہے کہ دہلی میں جو بیسک تعلیم کے اسکول کھولے گئے ہیں ان کی ضروریات ایک عرصہ تک مہیا نہیں کی گئیں تھیں نیز اس وقت بھی ان میں اطمینان بخش کام نہیں ہو رہا ہے ؟

**Shri Deshbandhu Gupta:** Is it not a fact that the requirements of the basic schools opened in Delhi were not met with for a long time and even at present these are not working satisfactorily?

آنریبل مولانا ابوالکلام آزاد : بہت سی دقتیں پیش آئی نہیں جتنے بہت سے اسباب

تھے - پوری کوشش کی جا رہی ہے کہ ان کو جلدی سے جلدی دور کیا جائے -

**The Honourable Maulana Abul Kalam Azad:** Many difficulties were felt which were the outcome of various reasons. Every effort is being made to remove these as early as possible.

सेठ गोविन्द दास : बुनियादी तालिम के मुताल्लिक क्या इस बात का भ सरकार ख्याल रखने की कोशिश करेगी कि सब प्रान्तों में यह बुनियादी तालिम एक सी हो और इस मामले में प्रान्तों की भी राय ले ली जाय ?

**Seth Govind Das:** Will Government also try to keep it in view that this basic education is made uniform in all the Provinces and that the opinion of the Provinces should also be obtained in this respect?

آنریبل مولانا ابوالکلام آزاد : اسی طریقہ پر کام ہو رہا ہے -

**The Honourable Maulana Abul Kalam Azad:** Action is being taken on these very lines.

**Shri Kishorimohan Tripathi:** May I know from the Honourable Minister the total number of schools opened in the different provinces and the amount of money spent towards them?

آنریبل مولانا ابوالکلام آزاد : نوٹس کی ضرورت ہے -

**The Honourable Maulana Abul Kalam Azad:** I would require notice.

**Shrimati Dakshayani Velayudhan:** How many candidates trained in basic education are unemployed at present?

آنریبل مولانا ابوالکلام آزاد : اس کے لئے نوٹس کی ضرورت ہے -

**The Honourable Maulana Abul Kalam Azad:** I would require notice for that.

श्रीमती जी दुर्गा बाई : जनाब, क्या मैं यह जान सकती हूँ कि इस गवर्नमेंट के द्वारा कस्तूरबा ट्रस्ट के अख्तियार में जितने बेसिक स्कूल खोले गए हैं उनको कुछ ग्रांट मिलती है या नहीं और अगर नहीं मिलती है तो देने की कृपा करेगी ?

**Shrimati G. Durgabai:** Sir, May I know whether any grant is being given by this Government to all the basic schools opened under the auspices of the Kasturba Trust, and if not, will it consider over the matter?

**Mr. Speaker:** Order, order. This is a suggestion for action.

**Dr. P. S. Deshmukh:** May I know if there were any experiments carried on with regard to the suitability of the basic education in any part of India; if so, what where those places and with what success were the experiments carried out?

آنریبل مولانا ابوالکلام آزاد : میں سمجھتا ہوں کہ معاملہ اس اسٹیج سے گذر چکا ہے اس وقت یہ ایکسپیریمینٹ نہیں ہے بلکہ یہ مان لیا گیا ہے کہ بیسک ایجوکیشن کو تمام ملک میں آگے بڑھانا چاہئے۔

**The Honourable Maulana Abul Kalam Azad:** I think the matter has passed this stage. At present this is no longer an experiment. On the contrary it has been admitted that basic education should be developed further throughout the whole of the country.

**Mr. Speaker:** I am proceeding to the next question.

#### EFFECTS OF PROHIBITION ON HEALTH

\*455. **Shri V. C. Kesava Rao:** Will the Honourable Minister of Health be pleased to state what are the diseases which are less prevalent due to the introduction of prohibition?

**The Honourable Rajkumari Amrit Kaur:** It is not possible at present to give any definite opinion regarding the effects of prohibition on health in areas where it has been introduced.

**Shri M. Tirumala Rao:** Is there any proposal with the Ministry of Health to watch the effects of prohibition on public health and gather some official statistics about them?

**The Honourable Rajkumari Amrit Kaur:** The Ministry of Health has asked the provinces where prohibition has been introduced to undertake scientific surveys in regard to the effects on the health of the population.

**Shri L. Krishnaswami Bharathi:** Has the attention of the Minister of Health been drawn to the book by Dr. H. C. Mookerjee regarding the effects of prohibition from the health point of view?

**Mr. Speaker:** That is not a question.

**Mr. Homi Mody:** Is the Honourable Minister in a position to state whether the health of the people has suffered through prohibition?

**Mr. Frank Anthony:** Is it a fact that recent official statistics in the U.P. show that, since the introduction of prohibition, the consumption of drugs and the incidence of crime have increased?

**The Honourable Rajkumari Amrit Kaur:** Government have no information on that point.

**Shri Deshbandhu Gupta:** May I know what is the policy of the Central Government with regard to prohibition in Delhi?

**The Honourable Rajkumari Amrit Kaur:** Government have not formed any policy with regard to prohibition in Delhi so far.

**Shri Deshbandhu Gupta:** Is it not a fact that in the last week a proposal has been accepted that liquor licence may be given to Coffee House in New Delhi?

**Mr. Speaker:** He is giving information, not obtaining information.

**Pandit Mukut Bihari Lal Bhargava:** To what extent has prohibition been introduced in Delhi and Ajmer?

**The Honourable Rajkumari Amrit Kaur:** Prohibition has not been introduced in the Centrally Administered Areas.

**Shri L. Krishnaswami Bharathi:** Have Government received any information from the Madras Government, where there is total prohibition, regarding the success of prohibition from the health point of view?

**The Honourable Rajkumari Amrit Kaur:** No reports have been received from Madras.

**Shri L. Krishnaswami Bharathi:** Will the Honourable Minister call for them? It is a very important matter.

**Mr. Speaker:** It may be very important, but honourable members are not asking for information. They are either making suggestions or arguing. Questions are to be put for the purpose of getting information and what I notice is that it seems, as it were, that rules about questions have to be suspended by me in respect of supplementary questions. I am not prepared to do that. Members will kindly see that they put questions for obtaining information and not for making suggestions or just for argument. They must ask for information only.

**Shri L. Krishnaswami Bharathi:** May I submit that this is asking for information. . . .

**Mr. Speaker:** I do not want to enter into any argument. I know the ingenuity of people, who put questions will turn anything into questions. The substance is that information has to be asked for; otherwise I find, in the long list of questions which are put, instead of obtaining the information and reaching the end of the whole list, only a few questions are touched and most of the time is taken either in comments, arguments or suggestions. That defeats the very object of the question hour.

**Shri L. Krishnaswami Bharathi:** This is valuable information from the point of view of the House: because in Madras. . . .

**Mr. Speaker:** He may put in a question.

#### PRIMARY EDUCATION IN DELHI AND AJMER-MERWARA

†\*456. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Education be pleased to state the approximate number of boys and girls between the ages of 5 and 14 in the Provinces of Delhi and Ajmer-Merwara?

(b) What is the approximate number of boys and girls of the above age group receiving education in the various institutions in these areas?

(c) Has any primary education expansion scheme been prepared for these Provinces and if so, by which year will Government be able to arrange for primary education of all such boys and girls?

(d) Have Government any intention to introduce free and compulsory primary education in these areas and if so, by what time and in what stages?

(e) Do Government intend to introduce legislation for the purpose, and if so, when and if not, why not?

**The Honourable Maulana Abul Kalam Azad:** (a) On account of influx of the refugees it is not possible to give accurate figures pending the undertaking of fresh census.

(b) Approximately 72,000 in Delhi and 80,000 in Ajmer-Merwara.

(c) Yes. As regards Delhi Province all pupils of the age group 6-11 in the rural area are scheduled to be in school by the year 1951-52. In Ajmer-Merwara the scheme is to be implemented from July 1949 in certain selected areas. The whole area is proposed to be covered within a period of five years.

(d) The scheme referred to in (c) above aims at giving free and compulsory basic education by 1951-52 in rural areas of Delhi and by 1954-55 in Ajmer-Merwara.

(e) The Punjab Compulsory Education Act with certain modifications has already been extended to the Delhi Province. Similar steps are proposed to be taken for Ajmer-Merwara in the course.

†Answer to this question laid on the table, the questioner having exhausted his quota.

## REVISION OF BLACK LIST MAINTAINED BY GOVERNMENT

\*457. **Giani Gurmukh Singh Musafir:** (a) Will the Honourable Minister of Home Affairs be pleased to state how many persons were there on the black list—debaring their entry into Government services because of their political activities—on the 15th August, 1947?

(b) Has that list been revised in order to get congressmen struck off from that list? How many names have been struck off so far?

**The Honourable Sardar Vallabhbhai Patel:** (a) About 461.

(b) Yes. 308.

## RESETTLEMENT OF DEMOBILISED MEDICAL PERSONNEL

\*458. **Dr. V. Subramaniam:** (a) Will the Honourable Minister of Health be pleased to state whether it is a fact that a large number of demobilised doctors, auxiliary medical men, midwives, and nurses are still to be resettled?

(b) If so, what are the latest figures?

**The Honourable Rajkumari Amrit Kaur:** (a) Yes.

(b) A statement containing the information is laid on the table of the House.

## STATEMENT

*Ex-service personnel who have applied to their Provincial/State Medical Employment Bureau for employment and who are still to be resettled*

| Category of personnel                                                                             | Number still to be resettled |
|---------------------------------------------------------------------------------------------------|------------------------------|
| Medical officers . . . . .                                                                        | 1632                         |
| Nursing personnel . . . . .                                                                       | 39                           |
| Nursing Orderlies of the I. A. M. C., Male Nurses of various categories and Technicians . . . . . | 3061                         |
| TOTAL                                                                                             | 4732                         |

**Shri H. V. Kamath:** How many doctors belonging formerly to the I.N.A. have been absorbed in Government service?

**The Honourable Rajkumari Amrit Kaur:** I would have to have notice of that question. The statement tells how many are still unemployed.

**Pandit Lakshmi Kanta Maitra:** Is there any ban on these I.N.A. doctors being absorbed in Government service?

**The Honourable Rajkumari Amrit Kaur:** There is no ban so far as I am aware.

**Dr. V. Subramaniam:** How many of these demobilized doctors have been given higher training?

**The Honourable Rajkumari Amrit Kaur:** I could not tell you the number without notice.

## NUTRITIVE VALUE OF BETEL LEAVES, BETEL NUTS AND LIME

\*459. **Dr. V. Subramaniam:** (a) Will the Honourable Minister of Health be pleased to refer to the answers to supplementaries raised on starred question No. 893, asked on the 19th March, 1948 and state whether any research regarding the nutritive value of betel leaves, nuts and "choona" (calcium carbonate) has been made as promised by Government?

(b) If not, do Government propose to look into the matter?

**The Honourable Rajkumari Amrit Kaur:** (a) and (b). An investigation was undertaken by the Indian Research Fund Association about nine years ago

regarding the supply of calcium to the human body by chewing betel leaves and lime and it was found that a certain amount of calcium taken in this form is assimilated by the human body. Information regarding this investigation will be found at page 43-44 of the Report of the Scientific Advisory Board of the Indian Research Fund Association for the year 1940 a copy of which is available in the library of the House. It is not considered necessary to have any further investigation in the matter.

**Prof. N. G. Ranga:** What about betel leaves and nuts? They are of nutritive value too.

**Mr. Speaker:** I could not follow the question.

**Prof. N. G. Ranga:** This question relates not only to calcium but to the nutritive value of betel leaves and nuts. There is no information about that.

**Mr. Speaker:** That question need not be answered.

**Shri H. V. Kamath:** Is there any evidence to show that the chewing of *pan* and *supari* predisposes the human system to dyspepsia and hyper-acidity?

**Mr. Speaker:** Order, order.

**Dr. P. S. Deshmukh:** What was the sum total of the advice received by the Honourable Minister so far as the chewing of these *pans* and betel nuts was concerned?

**Mr. Speaker:** Order, order.

## BEGGARS IN CENTRALLY ADMINISTERED AREAS

\*460. **Srijut Kuladhar Chaliha** (a) Will the Honourable Minister of Health be pleased to state the number of beggars in the Province of Delhi and other Centrally Administered Areas?

(b) Do Government propose to undertake necessary legislation to put them in poor asylums in different places and to make begging penal except for *Sadhus* and *Darveshes*?

**The Honourable Rajkumari Amrit Kaur:** (a) Information regarding the number of beggars in the Centrally Administered Areas is not available.

(b) In Delhi and Ajmer-Merwara begging is an offence under the Municipal Law. It is reported that in the other Centrally Administered Areas begging is not a serious problem. Government do not at present propose to undertake any further legislation in this respect.

## INDIA'S MEMBERSHIP OF INTERNATIONAL MONETARY FUND

\*461. **Shri K. Hanumanthaiya:** (a) Will the Honourable Minister of Finance be pleased to state whether India has become a member of the International Monetary Fund?

(b) If so, what is the quota fixed for India to pay into the Fund?

(c) Has the quota been fully paid up?

(d) What benefits have been, so far, derived by India by such membership?

**The Honourable Dr. John Matthai:** (a) to (d). I would draw the honourable member's attention to the statement I made in the House on this subject on 1st February, 1949.

**Shri K. Hanumanthaiya:** When was this agreement arrived at with the International Monetary Fund?

**The Honourable Dr. John Matthai:** I think in 1946.

**Shri K. Hanumanthaiya:** Is Government satisfied with its quota?

**The Honourable Dr. John Matthai:** It is not a question of the Government being satisfied with the quota. The distribution of the quota was done on a basis which was accepted by all the countries who are members of the International Monetary Fund.

**Shri K. Hanumanthaiya:** Is it true that the agreement was entered into with the reservation that the quota may be increased later?

**The Honourable Dr. John Matthai:** I would like notice of that question.

**Prof. N. G. Ranga:** So far as part (d) is concerned, the earlier answer never covered it.

**Mr. Speaker:** What benefits have been derived from such membership?

**The Honourable Dr. John Matthai:** The benefit is that at present in order to meet our requirements of dollar exchange, we are drawing upon the International Monetary Fund, which we are able to do because of the fact that we are members of it.

**Shri M. Ananthasayanam Ayyangar:** May I ask the Honourable Minister if a permanent seat has been given to India in the Fund's directorate?

**The Honourable Dr. John Matthai:** Yes.

**Shri Mahavir Tyagi:** To what extent have we drawn from this Fund?

**The Honourable Dr. John Matthai:** I think I gave the figures in my statement. There has been no substantial change since then.

**Shri K. Hanumanthaiya:** Has the Government made any effort after independence to improve the position regarding the quota, voting power and allied questions?

**The Honourable Dr. John Matthai:** The question of independence does not make any difference to the position of India's relation to the Fund.

**Shri K. Hanumanthaiya:** It does, because. . . . .

**Mr. Speaker:** Order, order.

**Shri Mahavir Tyagi:** Have they recently applied for any loans?

**Mr. Speaker:** That also has been dealt with.

**The Honourable Dr. John Matthai:** We have been drawing on the International Monetary Fund from time to time.

#### RECOMMENDATIONS OF PRIORITIES COMMITTEE

**\*462. Prof. N. G. Ranga:** Will the Honourable Minister of Finance be pleased to state:

(a) the principal recommendations of the Priorities Committee;

(b) what developmental schemes are unaffected and which have had to be postponed or abandoned as a result of its recommendations for this year as well as next year; and

(c) whether any of the irrigation and flood control schemes that Government intended to take up during this year and next year are being abandoned or postponed as a result of its recommendations?

**The Honourable Dr. John Matthai:** (a) The principal recommendations of the Priorities Committee were that the amount available to Central Government Ministries for Developmental and allied schemes included in the budget for 1948-49 and the grants and loans available to the Provinces for the same purpose in 1948-49 should be substantially reduced and that provisions on a reduced scale be made for 1949-50 as well.

(b) No developmental schemes are being abandoned but suitable adjustments are being made in the speed of implementation of the projects.

(c) No.

**Dr. Bakhshi Tek Chand:** Is the Government of India making any grant or loan to the East Punjab Government for the construction of the new capital in the current year or next year?

**The Honourable Dr. John Matthai:** That matter is still under examination.

**Pandit Lakshmi Kanta Maitra:** Has Government fixed its commitment under this head?

**The Honourable Dr. John Matthai:** A certain formula has been laid down with regard to the distribution of grants to the provinces, and on that basis certain allocations have been made.

**Shri M. Tirumala Rao:** With regard (b) what priority does the Ramapadasagar scheme get?

**Mr. Speaker:** That matter has been dealt with more than once and quite thoroughly.

**Shri M. Tirumala Rao:** Is the Honourable Minister prepared to give a reply?

**Mr. Speaker:** I am not prepared to allow repetitions.

**Pandit Lakshmi Kanta Maitra:** Is he prepared to give figures of the exact percentage of the funds that is being spent as a result of these priorities?

**The Honourable Dr. John Matthai:** I think that question could more conveniently be raised in the course of the discussion of the Budget.

#### DEFENCE OF EAST COAST OF INDIA AGAINST NAVAL ATTACKS

**\*463. Shri Lakshminarayan Sahu:** Will the Honourable Minister of Defence be pleased to state what measures have been taken to defend the East Coast of India specially the Orissa Coast against naval attack?

**The Honourable Sardar Baldev Singh:** The Naval defence of Orissa is part and parcel of the defence measures for the entire East Coast. It would not be in the public interest to disclose details.

#### CASES DECIDED BY INCOME-TAX INVESTIGATION COMMISSION

**\*464. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Finance be pleased to state how many cases have been decided by now by the Income-tax Investigation Commission?

(b) What is the total amount of Income-tax received so far as a result of the investigation?

(c) What is the total expenditure incurred so far on this investigation?

**The Honourable Dr. John Matthai:** (a) Four cases.

(b) As required by the Act, the report of the Commission is under the consideration of Government. Until this is completed, the amount of tax due cannot be ascertained. The Government will in due course pass orders thereon directing the Income Tax Authorities to take steps for the assessments and recovery of tax payable on the concealed amounts.

(c) The total expenditure so far incurred is Rs. 4,05,593.

**Shri M. Ananthasayanam Ayyangar:** Does the report confine itself to cases pending enquiry before them or does it also address itself to the general consideration of improving or amending the Income-tax Act?

**The Honourable Dr. John Matthai:** Well, the Income-tax Investigation Commission has prepared a report on that question also.

**Shri M. Ananthasayanam Ayyangar:** Will it be convenient for the Government to place in the hands of the members of the House that portion of the report relating to amendment of the Income-tax Act?

**The Honourable Dr. John Matthai:** I will consider the suggestion.

**Shri L. Krishnaswami Bharathi:** As only four out of the 1000 cases pending have been concluded, are the Government satisfied with the progress and if not, are they taking steps to expedite the matter?

**The Honourable Dr. John Matthai:** I am absolutely satisfied with the progress of the work. In fact in my budget speech, I propose to give the House a resume of the work done by the Investigation Commission so far.

**Shri S. V. Krishnamoorthy Rao:** How many persons does the Commission consist of?

**The Honourable Dr. John Matthai:** Three.

**Dr. P. S. Deshmukh:** What is the total number of cases pending?

**The Honourable Dr. John Matthai:** I gave the answer in reply to a question before.

**Dr. P. S. Deshmukh:** Is there any proposal to increase the number?

**The Honourable Dr. John Matthai:** Not as far as I am aware.

#### USE OF WORDS "ON HIS MAJESTY'S SERVICE"

†\*465. **Shri S. Nagappa:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether it is necessary even now to use the words "On His Majesty's Service"?

(b) If so, far how long will this be in practice?

(c) What are the reasons for continuing to use it?

(d) If the answer to part (a) be in the negative, has any alternative been decided upon?

**The Honourable Sardar Vallabhbhai Patel:** (a) to (d). Government have issued instructions that the inscription "O.H.M.S." should be replaced by "On India Government Service". This will come into force when the existing stock of envelopes with the inscription "O.H.M.S." is exhausted.

#### REVIVAL OF SANSKRIT LEARNING

†\*466. **Lala Raj Kanwar:** (a) Will the Honourable Minister of Education be pleased to state whether any institution for the study of Sanskrit receives financial assistance from the Government of India? If so, which and what is the amount of financial assistance?

(b) Do Government propose to take any special steps to promote the revival of Sanskrit learning?

**The Honourable Maulana Abul Kalam Azad:** (a) The Government of India are giving grants to the following four institutions:

(1) Bhandarkar Oriental Institute, Poona—Rs. 11,000.

(2) Prachyavani (Institute of Oriental Learning), Calcutta—Rs. 1,000.

(3) Deccan College—Post graduate and Research Institute, Poona—Rs. 8,000.

(4) Dharamkosha Mandal, Wai (Sitara)—Rs. 2,000.

The Government of India also propose to give a grant of Rs. 25,000 to the Gurukul University, Kangri.

(b) The Government of India realise the importance of the study of Sanskrit both from the historical and the cultural points of view. The Government of India have set up a University Commission which will, among other things,

†Answer to this question laid on the table, the questioner being absent.

also consider the question of Sanskrit studies at the University stage. Government will take necessary action in the matter after the report has been received and examined.

#### ADMINISTRATION OF CUTCH STATE

\*467. **Prof. K. T. Shah:** (a) Will the Honourable Minister of States be pleased to state what arrangements have been made for the administration of the State of Cutch?

(b) How are the Chief and other Administrative Officers selected for that Administration?

(c) Have any arrangements been made to allow an effective voice to the people of the State in the governance of that area?

**The Honourable Sardar Vallabhbhai Patel:** (a) The Administration of the State of Cutch has been taken over by the Central Government.

(b) The Chief Commissioner and Judicial Commissioner are appointed by the Central Government. Other officers are appointed by the Chief Commissioner or by other appointing authorities, subordinate to the Chief Commissioner, with the approval of the Central Government, where necessary. Under the agreement with the Ruler, such of the former permanent Cutch State servants as are properly qualified are being continued.

(c) An Advisory Council is being constituted for Cutch.

**Prof. K. T. Shah:** Is it a fact that the Chief Commissioner was once a member of the Indian Civil Service, and had been dealt with by the higher authorities in a disciplinary manner?

**The Honourable Sardar Vallabhbhai Patel:** Yes, Sir. But the disciplinary action was taken many years ago and the Government of the Province in which he was serving has revised that order.

**Prof. K. T. Shah:** May I enquire, if the disciplinary action amounted to dismissal, and, if so, during the many years he was out of employ, whether he has done anything by way of expiation of the offence?

**The Honourable Sardar Vallabhbhai Patel:** As I said, the order has been revised by the provincial Government concerned.

**Prof. K. T. Shah:** Do I understand that he has therefore been excused?

**Mr. Speaker:** That is a matter of inference.

**Shri H. V. Kamath:** What were the charges on which he was first removed from service and what were the grounds on which the order was revised?

**The Honourable Sardar Vallabhbhai Patel:** I do not know. It is the Provincial Government's order.

**Prof. K. T. Shah:** Has the Advisory Council mentioned by the Honourable Minister begun to function already, or is it likely to go into function before the end of the fiscal year?

**The Honourable Sardar Vallabhbhai Patel:** It will function before the end of the year.

#### FUTURE OF CUTCH STATE

\*468. **Prof. K. T. Shah:** Will the Honourable Minister of States be pleased to state:

(a) whether the State of Cutch will be maintained as a Centrally Administered area or whether it will be merged with any adjoining Union of States or Province; and

(b) whether any steps are or will be taken to set up any representative legislature for the State of Cutch?

**Mr. Speaker:** Order, order. That will be a subject for making suggestions, which he may make elsewhere. What is the information the honourable member wants?

**Prof. K. T. Shah:** I thought the question arose out of the previous question.

**Mr. Speaker:** If he wants to make a suggestion he may do so elsewhere.

**Shri Mahivir Tyagi:** In view of the discussion this House had about the deletion of the column "Caste" from the census registers have any instructions been issued in this connection?

**The Honourable Sardar Vallabhbhai Patel:** Well, the suggestion will be considered.

**Babu Ramnarayan Singh:** May I know whether people will be numbered as Indians only or as persons belonging to different communities and castes?

**The Honourable Sardar Vallabhbhai Patel:** That is what I answered just now.

#### AMALGAMATION OF HINDUSTAN SCOUTS ASSOCIATION AND BOY SCOUTS ASSOCIATION

**\*1009. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Education be pleased to state whether it is a fact that a joint conference of the Hindustan Scouts Association and the Boy Scouts Association for the amalgamation of both the Associations was held under his Chairmanship?

(b) If so, has the scheme for amalgamation been prepared?

(c) When will the new organisation come into being?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) Yes; a meeting of the representatives of the two organisations was held under the Education Minister's chairmanship on the 29th May, 1948.

(b) and (c). A large measure of agreement has been achieved. A Committee has been formed to go into details and settle them. It is hoped that the Committee will complete its work soon.

**Shri H. V. Kamath:** What steps do Government propose to take to encourage the Girl Guides or similar movements in this country?

**The Honourable Shri Satyanarayan Sinha:** I would like to have notice of the question.

**Shri R. K. Sidhva:** May I know whether this Committee is considering any scheme of amalgamating the Girl Guides also with this Association so that there will be one Association of both boys and girls?

**Mr. Speaker:** The honourable member is going beyond the scope of the question. This question is specifically about the Hindustan Scouts Association.

**Shri R. K. Sidhva:** The question is about Hindustan Scouts Association. I want to know whether both the sections are going to be combined under that scheme.

**Pandit Hriday Nath Kunzru:** May I give that information, Sir? It is intended to amalgamate both the Sections in the new Association.

**Shri R. K. Sidhva:** May I know when the Report of the Committee is likely to be presented to Government?

**The Honourable Shri Satyanarayan Sinha:** I said very shortly.

**Shri R. K. Sidhva:** Shortly means when?

**The Honourable Shri Satyanarayan Sinha:** It will be submitted very soon.

#### FACILITIES FOR PRACTICAL TECHNICAL EDUCATION

**\*1010. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Education be pleased to state what facility Government have provided for practical Technical Education in India besides giving grants to Technical Institutes in India?

(b) Have Government contemplated establishing any Institutions for higher technical education in the country and if so, at what places?

(c) Has any such institution been established and if not, why not?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) Besides giving grants to Engineering and Technological Institutions in India, Government have provided facilities for technical education and training at the Delhi Polytechnic and a large number of Technical and Vocational Centres all over the country. A Central Institute for the Training of Instructors has also been established at Koni, Bilaspur, to improve the standard of instruction at the Technical and Vocational Training Centres.

(b) Government contemplate establishing during the quinquennium 1947-52 two of the four Higher Technical Institutions recommended by the Higher Technological Education Committee (Sarkar Committee). It has been decided that the Eastern Higher Technical Institution shall be located at Hijli in District Kharagpur, West Bengal. The location of the Western Higher Technical Institution is under consideration.

(c) None of these institutions has yet been established. The main causes for the delay have been:

(i) uncertain conditions prevailing in the country for some time after the report of the Higher Technological Education Committee was submitted;

(ii) selection of suitable sites for the location of the institutions.

Government of West Bengal have promised a site measuring about 1,200 acres, free of cost for the location of Eastern Higher Technical Institution. Much of the preliminary work in connection with the setting up of this institution has been done and the institution is expected to start functioning during the course of the year.

**Shri R. K. Sidhva:** Can the Honourable Minister enlighten the House about these Higher Technical Institutes as to what kinds of higher technical education will be provided in them? Could he illustrate some of them?

**Mr. Speaker:** Does the honourable member mean what courses will be taught there?

**Shri R. K. Sidhva:** Not only the courses, I want to know whether it will be highest technical institute of electricity or any other high power type?

**The Honourable Shri Satyanarayan Sinha:** The Eastern Higher Technical Institution will impart the highest form of Engineering and Technological education in Civil, Chemical, Mechanical, Electrical and Aeronautical Engineering, Geology and Geophysics, Architecture and Town and Regional Planning, Naval Architecture and Marine Engineering and Textile Technology.

**Shri Brajeshwar Prasad:** How many Technical Institutes are there in this country?

**The Honourable Shri Satyanarayan Sinha:** I want notice.

**Dr. P. S. Deshmukh:** Is the Honourable Minister aware that the papers with regard to the establishment of these institutions are unnecessarily held up in the Finance Department and the delay is due to that?

**The Honourable Shri Satyanarayan Sinha:** The Finance Ministry always exercise their check in the prescribed manner, and delay is sometimes caused before the whole procedure is completed.

**Srijut Kuladhar Chaliha:** Is the Engineering Institute at Jadavpur going to be combined with the proposed Eastern Regional Institute?

**The Honourable Shri Satyanarayan Sinha:** There is no intention so far with Government, but if the honourable member desires this thing to be done this matter can be considered by Government.

**Mr. Frank Anthony:** Does the Central Government intend to set up any Technical institutions under its own supervision and control or is it intended to leave these new institutions under the supervision and control of the different Provincial Governments?

**The Honourable Shri Satyanarayan Sinha:** The four Higher Technical Institutions proposed to be set up will be under the supervision and control of the Government of India and not of the Provincial Governments.

**Shri B. N. Munavalli:** May I know whether any government aid is being given to the Bhumireddi Technical Institute at Hubli?

**The Honourable Shri Satyanarayan Sinha:** I want notice of the question.

**Shri R. K. Sidhva:** May I know what will be the approximate cost of these Institutes?

**The Honourable Shri Satyanarayan Sinha:** I would require notice.

**Shri B. Shiva Rao:** With reference to part (a) of the question may I know whether Government have any intention of giving things like machine tools either free or at concessional rates to private technical institutes when they apply for them?

**The Honourable Shri Satyanarayan Sinha:** It has been decided that educational institutions be given serviceable equipment of educational value at ten per cent. of the market rates and unserviceable stores free of cost. Official orders have, however, not been issued so far by the Ministry of Industry and Supply.

#### FOREIGNERS SERVING UNDER GOVERNMENT OF INDIA

\*1011. **Dr. Mono Mohan Das:** Will the Honourable the Minister of Home Affairs be pleased to state:

(a) the total number of foreigners who are serving under the Government of India at present; and

(b) the expenditure incurred by Government for them per month?

**The Honourable Sardar Vallabhbhai Patel:** (a) There are about 1,925 non-Indians serving in a civilian capacity under the Government of India.

(b) About Rs. 12,87,735.

**Dr. Mono Mohan Das:** What percentage of this number belong to the Defence Forces?

**The Honourable Sardar Vallabhbhai Patel:** This is not about the Defence Forces—Defence Forces are excluded from this; these figures are about the Ministry of Commerce, Ministry of Industry and Supply, Ministry of External Affairs and Ministry of Railways.

**Dr. Mono Mohan Das:** What number of this belong to nationalities other than the British?

**The Honourable Sardar Vallabhbhai Patel:** The number of foreigners who are not British is 25 in the Ministry of Commerce, 191 in the Ministry of External Affairs and Commonwealth Relations, 55 in the Ministry of Industry and Supply and 35 in the Ministry of Railways.

**Shri H. V. Kamath:** How many of these were employed after the 15th August 1947?

**The Honourable Sardar Vallabhbhai Patel:** Most of these people were employed before that.

†As revised by the Honourable Minister of Education.—Ed. of D.

**Shri Ajit Prasad Jain:** May I know whether any of these are nationals of South Africa, Ceylon or Burma?

**The Honourable Sardar Vallabhbhai Patel:** Some of them belong to Burma or Ceylon, none to South Africa.

**Dr. P. S. Deshmukh:** Is it not a fact that the Britisher is not counted as a foreigner?

**The Honourable Sardar Vallabhbhai Patel:** So long as we are not out of the Commonwealth they are not foreigners. But we have separated them as "non-Indians" and therefore my answer was with reference to non-Indians.

**Shri R. K. Sidhva:** Does this total of 1,925 non-Indians include officers out of India also or those only in India?

**The Honourable Sardar Vallabhbhai Patel:** Out of India also and therefore I mentioned External Affairs Ministry.

**Seth Govind Das:** Are the persons who are serving in our Embassies outside India also included in this list?

**Mr. Speaker:** That is what he answered.

**Shri S. V. Krishnamoorthy Rao:** How many of these are technicians and how many non-technicians?

**The Honourable Sardar Vallabhbhai Patel:** Mostly those who are employed in the Railway Ministry and Ministry of Industry and Supply are technicians, but in the Ministry of External Affairs where there is a large number of them employed, there will hardly be any technician.

**Shri A. V. Thakkar:** May I know how many non-Indians are employed in the Education Department?

**The Honourable Sardar Vallabhbhai Patel:** None in the Education Department.

**Seth Govind Das:** May I know how many of these non-Indians are working in India and how many outside India?

**The Honourable Sardar Vallabhbhai Patel:** In the External Affairs Ministry they are mostly working outside India, but those in the Ministries of Commerce, Industry and Supply, and Railways are in India.

**Shri Deshbandhu Gupta:** What is the duration of the contract of these people generally? Is it three years or four years or long-term contracts?

**The Honourable Sardar Vallabhbhai Patel:** I cannot give the periods of contracts for individuals nor is there any general rule, but they are on contract basis for as short a period as is required.

**Shri Mahavir Tyagi:** Are these foreigners spread over many countries wherever we have Legations or are they mostly in England alone?

**The Honourable Sardar Vallabhbhai Patel:** Well, some of them are in other countries but a large number is in England.

**Shri H. V. Kamath:** Does the term "non-Indian" include Pakistanis also?

**The Honourable Sardar Vallabhbhai Patel:** No, Sir, but we can consider that.

**Shrimati G. Durgabai:** May I know whether this number of non-Indians also includes the Judges of the various Provincial High Courts?

**The Honourable Sardar Vallabhbhai Patel:** Hardly any Judge is left now in the Provincial High Courts except two or three.

**Shri V. C. Kesava Rao:** May I know whether there are any South African Europeans employed by the Government?

**Mr. Speaker:** That has been replied to.

**Dr. Mono Mohan Das:** May I know whether any citizen of Pakistan is in the Indian Government service?

**The Honourable Sardar Vallabhbhai Patel:** Not so far as I know.

#### RECRUITING *Melas*

**\*1012. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Defence be pleased to state in which places in India recruiting *Melas* took place during the last six months?

(b) Are Government aware that there is a strong complaint that people in South India are not given adequate opportunities for enlisting themselves in the fighting services?

**The Honourable Sardar Baldev Singh:** (a) I lay a statement on the table of the House.

(b) No. There have been no such complaints. A large number of men have been recruited from South India in recent months.

#### STATEMENT

During the last six months five Recruiting *Melas* were held at the following places:—

- |               |                |
|---------------|----------------|
| (1) Kurad.    | (Bombay).      |
| (2) Satara.   | (Bombay).      |
| (3) Rohtak.   | (East Punjab). |
| (4) Kolhapur. |                |
| (5) Mahilpur. | (East Punjab). |

**Prof. N. G. Ranga:** Are these *mela*s also held in the South?

**The Honourable Sardar Baldev Singh:** Yes, Sir, I have stated that in the statement that I have laid on the Table in answer to the Question asking for information. In the last six months five *mela*s were held—two in Bombay, one in Rohtak, one in Kolhapur and one in Mahilpur.

**Prof. N. G. Ranga:** Why is it that no *mela* was held at all in the South during the last six months?

**The Honourable Sardar Baldev Singh:** *Melas* have been held all over the country and I have given the list of *mela*s held only during the last six months. If the honourable member wants a list of *mela*s held all over the country I can give it.

**Shri H. V. Kamath:** Which of these *mela*s yielded the best response.

**The Honourable Sardar Baldev Singh:** I want notice.

**Shri V. C. Kesava Rao:** May I know the number of persons recruited in these *mela*s?

**The Honourable Sardar Baldev Singh:** I have not got the number of recruits recruited in each one of these *mela*s but if the honourable member wants to know the percentage of recruits from South India I can give him that. During the last six months out of the total number, thirty-two per cent. were recruited from the South.

**Shri R. L. Malviya:** Will Government consider the advisability of holding such a *mela* in the Central Provinces?

**The Honourable Sardar Baldev Singh:** Certainly. But the initiative rests with the local people; if the local people want to have a recruiting *mela* and if all possible support is coming forward we hold it.

**Shri Raj Bahadur:** What is the total number of recruits enlisted in these *mela*s all over India?

**The Honourable Sardar Baldev Singh:** I want notice.

**Prof. N. G. Ranga:** Is it a fact that no *mela* has been held at all in the South even before the last six months?

**The Honourable Sardar Baldev Singh:** I cannot give this information straightaway but even if my honourable friend's information is correct that no *mela* has been held in the South, the number of recruits from the South is 32 per cent.

**Babu Ramnarayan Singh:** How many such *mela*s are held in Bihar throughout the year?

**The Honourable Sardar Baldev Singh:** I want notice.

**\*1013.** [POSTPONED TO BE ANSWERED ON THE 21ST MARCH 1949]

#### PROMOTIONS AND RECRUITMENTS IN ARMED FORCES

**\*1014. Seth Govind Das:** (a) Will the Honourable Minister of Defence be pleased to state what is the present proportion of other ranks promoted to the officers' cadre to the number of direct recruits to the officers' ranks in the Armed Forces?

(b) Is there any proportion fixed as between promotions to officers' ranks and direct recruitment to the same?

**The Honourable Sardar Baldev Singh:** (a) The proportion of officers promoted from ranks since August 1947 to those recruited direct, is—Indian Army 7 : 4, R.I.A.F. 1 : 4, R.I.N. 1 : 20.

(b) No such proportion has been fixed for the Indian Army and the Royal Indian Air Force, but in the Royal Indian Navy the ceiling for promotion from ranks is fixed at 12½ per cent. of the annual requirement.

**Dr. P. S. Deshmukh:** May I know if it is not a fact that disproportionate direct recruitment is detrimental to efficiency and discipline in the Army?

**The Honourable Sardar Baldev Singh:** It is very difficult for me to say that, but experience gained by other countries shows—and my information is dependent on that—that direct recruitment is far better than promotion from the ranks.

**Seth Govind Das:** When the direct recruitment takes place, is any proportion fixed for every province or the old policy of martial and non-martial still goes on?

**The Honourable Sardar Baldev Singh:** There is no distinction, nor is there any provincial barrier, nor any question of martial or non-martial.

#### RECRUITMENT TO OFFICERS' RANKS IN ARMED FORCES

**\*1015. Seth Govind Das:** (a) Will the Honourable Minister of Defence be pleased to state how many candidates have been called for interviews for appointment in officers' ranks in the Armed Forces during the year 1948, and how many of them have been selected?

(b) What is the total amount of money spent for recruitment to officers' ranks during 1948?

(c) Is it a fact that the Army Recruitment Board is calling for interview a number of candidates who have been previously rejected and if so, for what reasons?

**The Honourable Sardar Baldev Singh:** (a) 13,345 candidates were interviewed by the various Selection Boards, of whom 2,298 were selected.

(b) Rs. 24,60,000 approximately.

(c) Candidates once rejected are permitted to apply again after the expiry of six months provided they are eligible in all respects.

**Mr. Frank Anthony:** Is it intended to associate the Federal Public Service Commission with the recruitment of officers in the future?

**The Honourable Sardar Baldev Singh:** No, Sir.

#### VENEREAL DISEASE CLINICS

**\*1016. Seth Govind Das:** (a) Will the Honourable Minister of Health be pleased to state what is the incidence of Venereal diseases in India?

(b) How many Venereal disease clinics are there in India?

(c) Do Government propose to consider the advisability of organising free or cheap Venereal disease clinics in India on the lines of the British system of Venereal Disease clinics?

**The Honourable Rajkumari Amrit Kaur:** (a) No accurate estimate of the incidence of venereal disease is available, but it is estimated that 37 persons per thousand of the population are infected by venereal disease.

(b) A statement is laid on the table of the House.

(c) The matter will be taken up with the Provincial Governments who are primarily concerned.

#### STATEMENT

*Number of Venereal Diseases Clinics in India at the end of 1947*

|                  |    |
|------------------|----|
| Ajmer            | 1  |
| Assam (Shillong) | 1  |
| Bihar (Patna)    | 1  |
| Bombay           | 16 |
| West Bengal      | 10 |
| Delhi            | 3  |
| East Punjab      | 1  |
| Madras           | 17 |
| C. P. and Berar  | 2  |
| U. P.            | 6  |
| Total            | 58 |

#### FACILITIES FOR STUDY OF PSYCHOTHERAPY

**\*1017. Seth Govind Das:** (a) Will the Honourable Minister of Health be pleased to state how many Indians are qualified in Psychotherapy at present?

(b) Are there any facilities in medical colleges in India for the study of Psychotherapy?

**The Honourable Rajkumari Amrit Kaur:** (a) It is understood that there are twenty-four Indian Psychotherapists in India at present.

(b) The theory of Psychotherapy is taught by Lecturers in mental diseases in all medical colleges but the Government of India understand that there are no facilities for the practical study of Psychotherapy in any of the medical colleges.

**Shri H. V. Kamath:** In view of the fact that the Chopra Committee in its report published a few days ago has stressed the importance of meditational and intutional methods in medical treatment and research, I am quoting from the report itself—, do Government propose to give more importance to this branch of medical treatment and research and start institutes of this kind in India?

**The Honourable Rajkumari Amrit Kaur:** The Chopra Committee report is still under the consideration of Government. But Government is fully aware that more emphasis should be laid on the study of psychotherapy along modern scientific lines.

**Seth Govind Das:** Has this Chopra report been sent now to all the provinces for their opinion?

**The Honourable Rajkumari Amrit Kaur:** I do not know how this question arises from this, but the report has been circulated.

**Shri H. V. Kamath:** Is the Honourable Minister aware of an Institute in Lonavla called the Kaivalyadhama where psychotherapy is practised on a fairly large scale?

**The Honourable Rajkumari Amrit Kaur:** I am not aware.

**Dr. Mono Mohan Das:** Is there any hospital or hospitals, official or non-official where cases of psychotherapy are admitted and treated?

**The Honourable Rajkumari Amrit Kaur:** If the honourable member is referring to mental hospitals, yes, they exist.

#### MANUFACTURE OF PRE-FABRICATED HOUSES

**\*1018. Shri H. V. Kamath:** Will the Honourable Minister of Health be pleased to state:

(a) what progress has been made in the setting-up of the factory to manufacture pre fabricated houses;

(b) how many such houses are expected to be built during this year and at what cost; and

(c) what other plans, if any, Government have in view for relieving the acute shortage of housing in the country?

**The Honourable Rajkumari Amrit Kaur:** (a) The designs for the houses and plant have been completed. The required machinery has been ordered and is expected in India in the middle of the year. The Factory site and the aeroplane hangars which will house the main factory have been secured.

(b) Twelve sample houses which are being imported are expected to be set up in different parts of India in April, 1949 regular production in India is scheduled to begin some time in the second half of 1949. The rate of production is expected to be about 100 houses per week. The cost per house will be about Rs. 2,500 exclusive of the cost of land.

(c) Various housing schemes for refugees are already under execution or are under consideration. The Central Government are building houses for refugees in Delhi and Ajmer-Merwara, they have granted loans to the Provinces and States and are subsidising a scheme for the housing of colliery workers. Other housing schemes for refugees are also under consideration. As regards housing for the general public, the question of building factories in other parts of India for the mass production of pre-fabricated houses will be considered after experience has been gained of the working of the factory at Delhi. A scheme for the mass manufacture of roofing materials and cheap doors and windows for village houses is also under preparation.

**Shri H. V. Kamath:** Has the Honourable Minister any information as to the total number of people in India who are without a roof over their heads?

**The Honourable Rajkumari Amrit Kaur:** I have no information.

**Shri B. Shiva Rao:** May I ask whether my honourable friend has received any application for encouragement being given to co-operative house building societies in Delhi?

**The Honourable Rajkumari Amrit Kaur:** One or two applications have been received and as I have answered on the floor of the House more than once Government will always be prepared to consider starting co-operative societies for building houses.

**Dr. P. S. Deshmukh:** May I know if the Honourable Minister will consider a suggestion to hand over these sample pre-fabricated houses to members of the Constituent Assembly, because they are hard up for houses?

**Shri R. K. Sidhva:** What is the area of each house?

**The Honourable Rajkumari Amrit Kaur:** 500 sq. ft.

**Shri Arun Chandra Guha:** Will Government be prepared to subsidise private companies for the manufacture of pre-fabricated houses?

**The Honourable Rajkumari Amrit Kaur:** That matter will be considered when any private companies apply to Government.

**Begum Aizaz Rasul:** May I know what is the estimated life of these houses?

**The Honourable Rajkumari Amrit Kaur:** As far as the life of these houses in the U.K. is concerned, they are estimated to last about 75 years, but it remains to be seen how long that life will be in India. It is an experiment, but we certainly hope that it will be 50 years at any rate.

**Shri S. V. Krishnamoorthy Rao:** May I know what is the capital outlay on the factory for the manufacture of pre-fabricated houses?

**The Honourable Rajkumari Amrit Kaur:** Rs. 60 to 70 lakhs.

**Mr. Frank Anthony:** Before spending money on importing men and machinery, did Government explore the possibility of enlisting indigenous talent and material for building something in the nature of pre-fabricated houses?

**The Honourable Rajkumari Amrit Kaur:** Government took everything into consideration before starting this factory.

**Mr. Frank Anthony:** Is it not a fact that many people are today building houses on a wide scale without the use of either cement or steel all over the country?

**Mr. Speaker:** It is I think entering into arguments.

**Mr. Homi Mody:** Does the estimate of cost given by the Honourable Minister include the sanitary fittings?

**The Honourable Rajkumari Amrit Kaur:** No, Sir.

**Shri Ajit Prasad Jain:** May I know whether Government have ascertained whether these houses will be suited to the climatic conditions of India?

**The Honourable Rajkumari Amrit Kaur:** Yes, Sir.

**Begum Aizaz Rasul:** May I know what will be the accommodation in these houses?

**The Honourable Rajkumari Amrit Kaur:** There will be two rooms plus a kitchen and a bath room and a court-yard.

**Shri H. V. Kamath:** Were there any Indian housewives on the Committee which recommended and decided upon this scheme?

SEARCH OF A KARACHI-BOUND GREEK SHIP AT KIDDERPORE DOCKS, CALCUTTA.

**\*1019. Shri H. V. Kamath:** Will the Honourable Minister of Finance be pleased to state:

(a) whether a Karachi-bound Greek ship was recently searched at Kidderpore docks, Calcutta, by the Calcutta Port Police and customs authorities;

(b) if so, what articles were seized as a result of the search; and

(c) the subsequent action taken against the Captain and other officers of the ship?

**The Honourable Dr. John Matthai:** (a) Yes, Greek ship "Mount Kyllene" was searched by the Preventive staff of the Calcutta Customs House.

(b) The articles seized from various officers of the ship consisted of gold coins, Indian and foreign currency notes, cotton piece goods and small articles of gold jewellery.

(c) No action has been taken so far because investigations as to what penal action can be taken under the Sea Customs Act are not yet complete.

**Prof. N. G. Ranga:** What has happened to the Captain of this "Mount Kyllene"?

**The Honourable Dr. John Matthai:** The Captain has proceeded on his voyage, but we have seized the articles.

#### FINANCIAL HELP TO RELATIONS OF CREW OF THE DAKOTA LOST ON KASHMIR FRONT.

**\*1020. Shri Deshbandhu Gupta:** Will the Honourable Minister of Defence be pleased to state:

(a) whether any financial help has been given to the relations of the crew of a Dakota which was reported missing in October 1947 on the Kashmir front.

(b) whether it is a fact that Flight Sergeant H. K. Singh of the Royal Indian Air Force was one of the victims and that no help has so far been given to his mother in spite of her repeated representations and if so, the reasons for the same; and

(c) whether Government propose to give some help to her now?

**The Honourable Sardar Baldev Singh:** (a) Yes.

(b) and (c). Flight Sergeant H. K. Singh was one of the crew. No representation has been received from his mother. An allowance is being paid to her.

**Shri Deshbandhu Gupta:** What is the amount of allowance paid?

**The Honourable Sardar Baldev Singh:** Rs. 35 a month.

**Shri H. V. Kamath:** What about the victims of the air-crash which happened to a Dakota last month between Jammu and Srinagar over the Barilal Pass?

**The Honourable Sardar Baldev Singh:** I have no information about that. That is the concern of the Civil Aviation Department.

**Shri Deshbandhu Gupta:** Is that amount considered sufficient for the purpose?

**The Honourable Sardar Baldev Singh:** I could not say that. But that is the amount allowed under the rules at present.

## NAVAL RIVER CRAFTS ON BRAHMAPUTRA.

\*1021. **Srijut Kuladhar Chaliha:** Will the Honourable Minister of Defence be pleased to state whether there are any Naval River Crafts on the Brahmaputra?

**The Honourable Sardar Baldev Singh:** No.

**Shri G. S. Guha:** May I ask the Minister for Defence whether it will be possible to have a base for a Gun-boat there?

**Mr. Speaker:** That is a suggestion which he can make afterwards.

## PURCHASE OF SHIPS FOR R. I. N. FROM BRITAIN.

\*1022. **Shri K. Hanumanthaiya:** (a) Will the Honourable Minister of Finance be pleased to state how many ships were purchased for the Royal Indian Navy by the Government of India during 1948 from Britain?

(b) What was the cost of those ships?

(c) Was the purchase money paid out of our sterling balances and if not, why not?

**The Honourable Dr. John Matthai:** (a) Vessels acquired from H.M.G. during the year 1948 were:

(i) One Cruiser.

(ii) Two oil Barges.

(b) The cost of the above ships were (i) One Cruiser Rs. 98.20 lakhs. (ii) Two Oil Barges Rs. 16.00 lakhs.

(c) Yes, purchase money in both the cases was found from our Sterling Balances.

**Shri K. Hanumanthaiya:** Were these vessels bought from the blocked or released sterling balances?

**The Honourable Dr. John Matthai:** These were bought from Account No. II. We do not admit that the balances are blocked.

**Dr. P. S. Deshmukh:** Is the honourable Minister aware that some merchants have been saying that if the ships had been bought through them they would have got them at half the price?

**The Honourable Dr. John Matthai:** I have not heard of it.

**Dr. Mono Mohan Das:** Are all these ships old models and are of little value in modern naval warfare?

**The Honourable Dr. John Matthai:** These are questions which lie outside my province. But, subject to what the Honourable the Defence Minister may say, I think this cruiser was built in 1933. It is supposed to have a life of 27 years. Therefore our having bought it in 1948, I presume it has still 12 years of life.

**Shri V. C. Kesava Rao:** May I know whether it was in action during the war?

**The Honourable Dr. John Matthai:** Yes.

## MANUFACTURE OF CHOLERA VACCINE

\*1023. **Shri K. Hanumanthaiya:** Will the Honourable Minister of Health be pleased to state:

(a) how much Cholera Vaccine has been manufactured in India during the year 1948; and

(b) how much of this vaccine has been imported during the year 1948?

**The Honourable Rajkumari Amrit Kaur:** (a) 33½ million ccs of cholera vaccine were manufactured in the Central and Provincial Institutes during 1948. In addition to this a considerable quantity was manufactured by private firms in Calcutta.

(b) No cholera vaccine was imported from abroad during the year 1948.

**Shri H. V. Kamath:** May I know the annual number of deaths in this country from cholera, Sir?

**Mr. Speaker:** It does not arise from this question. This question referred to cholera vaccine from private as opposed to what is manufactured in Government institutions and not from outside the country.

**Dr. Mono Mohan Das:** What is the amount of vaccine we are manufacturing in Government laboratories and what quantity do we get from private laboratories?

**The Honourable Rajkumari Amrit Kaur:** It is difficult for me to give the proportion. But I may say that the vast bulk of it is manufactured in Government institutions.

**Begum Aizaz Rasul:** What is the total requirement of vaccine in India annually?

**The Honourable Rajkumari Amrit Kaur:** That depends on the prevalence of the disease each year.

**Shri G. S. Guha:** Out of the total quantity manufactured, how much is produced in Shillong?

**The Honourable Rajkumari Amrit Kaur:** I would like to have notice of the question.

**Shri Ajit Prasad Jain:** May I know whether any portion of this was exported to Pakistan and if so, how much?

**The Honourable Rajkumari Amrit Kaur:** I cannot give the exact quantity sent. But, during the disturbances, Pakistan did ask for vaccine and we exported a fair amount.

**Seth Govind Das:** Have the Government received reports from the provinces that they are not getting as much vaccine as required?

**The Honourable Rajkumari Amrit Kaur:** We have never had such complaints.

**Shri H. V. Kamath:** Have instances come to the notice of Government where vaccination has failed to confer immunity?

**Shri Basanta Kumar Das:** What would be the total value of the vaccine manufactured?

**The Honourable Rajkumari Amrit Kaur:** I could not give that information.

## CANDIDATES SELECTED FOR U. N. O. FELLOWSHIP?

\*1024. **Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Education be pleased to state:

(a) the number of students who were selected for the United Nations Organisation fellowship recently;

(b) the number of applicants for the same;

(c) on what basis the selection was made; and

(d) who were the selecting authorities for the same?

1426

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [10TH MARCH 1949]

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) In all twenty-five candidates have been recommended to the United Nations for about twelve Social Welfare Fellowships for 1949-50—seventeen (eight principal and nine alternate) jointly by Ministry of Education and Ministry of Health for eight fellowships in subjects relating to Education and Health and eight (four principal and four alternate) separately by Ministry of Labour for four Fellowships in subjects related to Labour.

(b) 142 applications were received by the Ministry of Education for subjects relating to Education and Health and 17 by the Ministry of Labour for subjects concerning them.

(c) Selection of candidates to be recommended to U.N.O. was made on the following basis:

- (i) Academic qualifications particularly in the subject of social sciences;
- (ii) Research Experience in social sciences;
- (iii) Practical experience in the relevant field of social welfare.
- (iv) Ability to utilise the training for the good of the country on return.

(d) For the educational and Health subjects applications were invited from all Provincial and State Governments and Universities etc., and recommendations were made by a Selection Committee, jointly set up by the Ministries of Education and Health, consisting of one representative of each of the two Ministries and the acting Director of the United Nations Information Centre, Delhi. For the Labour subjects applications were invited from the Provincial Governments and recommendations were made by the Honourable Minister for Labour.

**Shri Brajeshwar Prasad:** May I know how many were selected from Bihar?

**The Honourable Shri Satyanarayan Sinha:** I cannot give the information province-wise. But twenty-five have been selected.

**Begum Aizaz Rasul:** Of the total number, how many were women?

**The Honourable Shri Satyanarayan Sinha:** I would like to have notice.

#### FUNCTIONS OF THE TRANSFER BUREAU.

\*1025. **Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Home Affairs be pleased to state what are the functions of the Transfer Bureau?

(b) Is there any circular that refugees should be exempted from the Transfer Bureau rules?

(c) Are the scheduled castes exempted from the rules of the Transfer Bureau?

**The Honourable Sardar Vallabhbhai Patel:** (a) The Transfer Bureau assists in the resettlement in suitable posts under the Central Government of Central Government employees displaced on account of constitutional changes, refugee Government servants of the North West Frontier, Sind and Baluchistan Provinces and retrenched Central Government servants for whom a special provision has been made. The facilities of the Bureau have also been extended to certain highly qualified refugees recommended by the Employment Co-ordination Committee.

(b) No. Refugees other than those registered at the Transfer Bureau are not eligible for the posts referred to unless the Transfer Bureau is unable to nominate suitable candidates.

(c) The usual reservation of 16-2/3 per cent. of vacancies in favour of Scheduled Castes candidates applies to appointments made through the Transfer Bureau also. If there is no suitable Scheduled Castes candidate on the list of the Transfer Bureau, the Bureau will nominate a suitable candidate of any other community.

**Shrimati Dakshayani Velayudhan:** Is it a fact that discrimination is made against the Scheduled Castes in the matter of confirmation, promotion and recruitment?

**The Honourable Sardar Vallabhbhai Patel:** No discrimination.

#### STEPS TO IMPROVE CULTURAL RELATIONS WITH FOREIGN COUNTRIES.

\*1026. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Education be pleased to state:

(a) the steps so far taken for improving our cultural relations with other countries and the results thereof;

(b) whether any separate department exists for the promotion of cultural relations with foreign countries; and

(c) if so, what are the activities of this department?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) A statement has been placed on the table of the House.

(b) The Cultural Relations work is at present done in one of the Divisions of this Ministry which has an Arts and Cultural Relations Section attached to it.

(c) The Cultural Relations Section is engaged in activities for the promotion of art in the country and of cultural schemes within and outside the country.

#### STATEMENT

The Ministry of Education has so far established contacts with about 20 countries in connection with various cultural activities and it is expected that with the development of our new schemes, these contacts will greatly expand within the year 1949-50. The work may generally be placed under the following heads:

- (1) Cultural Missions to foreign countries;
- (2) Cultural displays and art exhibitions abroad;
- (3) Exchange of teachers and students;
- (4) Visits of distinguished educationists and others to India from foreign countries.
- (5) Deputation of eminent Indian scientists to other countries for study and research;
- (6) Participation in International cultural and learned conferences and the UNESCO, and invitations to neighbouring countries to send their representatives to attend conferences in India;
- (7) Supply of information, gifts of books and archaeological specimens to foreign countries, and exchange of publications;
- (8) Facilities for study in India to persons of Indian origin and other residents of foreign countries;
- (9) Scholarships and Fellowship awards offered by foreign countries and the UNESCO to Indian students and *ad hoc* scholarships offered by the Government of India to students of some foreign countries;
- (10) Award of scholarships to Indians and indigenous residents in Asian and foreign countries to study in Indian Educational institutions;

This scheme is expected to come into force from the academic year 1949-50;

- (11) Organisation of cultural Associations in India to promote cultural relations between India and other countries;

+ Answer to this question laid on the table, the questioner being absent.

- (12) Recruitment of Indian teachers for services in some foreign countries;  
 (13) Exchange of correspondence and cultural material between children of this country and abroad; and  
 (14) The organisation of cultural centres in foreign countries for the promotion of Indian culture abroad.

#### COMPENSATION TO JUDGES OF COMMON HIGH COURT OF EASTERN STATES GROUP

\*1027. **Lala Raj Kanwar:** Will the Honourable Minister of States be pleased to refer to the replies given to parts (c) and (d) of my starred question No. 497 asked on the 26th February, 1948, regarding payment of compensation to judges of the Common High Court of the Eastern States Group and state:

- (a) whether Government have since made an enquiry in the matter;  
 (b) if so, whether Government propose to compensate the Judges of that court for the unexpired term of their appointment; and  
 (c) if not, why not?

**The Honourable Sardar Valiabhbhai Patel:** (a) Yes.

(b) The Judges have already been paid compensation due to them.

(c) Does not arise.

#### PERCENTAGE OF LITERACY IN INDIA

\*1028. **Lala Raj Kanwar:** Will the Honourable Minister of Education be pleased to state:

- (a) the present percentage of literacy in each of the Provinces, Centrally Administered Areas and Major Indian States; and  
 (b) the probable period required to banish illiteracy from the country according to the schemes formulated or approved by Government?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) The honourable member's attention is drawn to the statement laid on the table.

(b) For children, the programme is to introduce compulsion among the age-group 6—11 within a period of ten years by two Five Year Plans. For adults, the scheme of Social (Adult) Education accepted by the Government of India envisages literacy of 50 per cent. population in a period of 5 years.

#### STATEMENT

*Percentage of literacy in Provinces, Centrally Administered Areas and Indian States*

|               | 1941  |         | All persons | At present                                                                                                                                                                                                 |
|---------------|-------|---------|-------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|               | Males | Females |             |                                                                                                                                                                                                            |
| Assam         | 21.5  | 4.4     | 13.5        | No Census after 1941 has so far been taken, so that exact figure is not known, but it can be assumed to be between 16 and 17 for the whole of India (Less States) and between 14 and 15 for Indian States. |
| Bengal        | 28.7  | 7.8     | 19.9        |                                                                                                                                                                                                            |
| Bihar         | 18.7  | 2.6     | 10.8        |                                                                                                                                                                                                            |
| Bombay        | 34.4  | 10.3    | 22.9        |                                                                                                                                                                                                            |
| C. P. & Berar | 22.5  | 5.6     | 14.1        |                                                                                                                                                                                                            |
| Madras        | 23.9  | 6.6     | 15.3        |                                                                                                                                                                                                            |
| Orissa        | 23.15 | 2.9     | 12.8        |                                                                                                                                                                                                            |
| Punjab        | 20.8  | 8.3     | 15.2        |                                                                                                                                                                                                            |

† Answer to this question laid on the table, the questioner being absent.

N.B. 1.—Figures in respect of Assam, West Bengal and East Punjab and Indian States as they stand after partition are not available.

N.B. 2.—Percentages for 1941 are calculated on persons aged over 5 years.

N.B. 3.—Percentage for India is in respect of the whole of India before partition.

#### PROHIBITION IN DELHI AND AJMER-MERWARA

\*1029. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Finance be pleased to state what measures have been taken so far to enforce prohibition in the Chief Commissioner's Provinces of Ajmer-Merwara and Delhi?

(b) Are Government aware that smuggling of liquor into Delhi Province from the adjoining States of Alwar, Pataudi and Bawal and the adjoining districts of Moradabad and Ghaziabad in the United Provinces has increased on a large scale during the last three months?

(c) If so, what steps have Government taken or intend to take to put an end to this smuggling and to make the policy of prohibition effective?

(d) By what time do Government intend to introduce complete prohibition in these areas? Do Government intend to introduce any legislation for the purpose and if so, by which date and if not, why not?

(e) Have the measures so far taken to enforce the policy of prohibition in any way affected the consumption of liquor in these areas and if so, to what extent?

**The Honourable Dr. John Matthai:** (a) Prohibition has not yet been introduced in these areas. Certain steps have been taken to reduce the consumption of liquor.

(b) Some cases of smuggling from these areas have been detected during three months.

(c) A special detective mobile Excise staff has been employed in addition to the permanent Excise staff.

(d) The matter is under consideration.

(e) In Delhi, the consumption of liquor during the last quarter of the year 1948 as compared with the corresponding period of the year 1947 has decreased by about 11 per cent. In Ajmer-Merwara, however, consumption on the whole has recorded a small increase.

**Mr. Frank Anthony:** What is the present total loss of revenue as a result of the introduction of prohibition in the different parts of the country?

**The Honourable Dr. John Matthai:** I should not like to commit myself to a definite figure. If the honourable member wants the figure, I would have it worked out.

**Shri H. V. Kamath:** Is it a fact that the Government's policy at present is to go slow in prohibition and have the Government advised the provinces accordingly?

**The Honourable Dr. John Matthai:** That is so.

**Pandit Mukut Bihari Lal Bhargava:** Has the Government accepted the policy of introducing prohibition in these areas?

**The Honourable Dr. John Matthai:** This matter is not really within my province. I would say that it is the intention of the Home Ministry who is in charge of these Centrally Administered areas to introduce complete prohibition within a short limited period.

**Pandit Mukut Bihari Lal Bhargava:** Is the Honourable Minister aware that his predecessor in the last session of the Assembly announced that the Government stands committed to the policy of introducing prohibition in these areas?

**The Honourable Dr. John Matthai:** Yes; that is really what I meant. As far as Ajmer Merwara is concerned, I believe the Home Ministry has laid down a policy under which prohibition would be completed, I believe, within a period of five years.

**Shri Mahavir Tyagi:** Are there any measures taken in the meantime with regard to temperance propaganda in these areas?

**The Honourable Dr. John Matthai:** I am not aware if there is any temperance propaganda. We expect un-official temperance propaganda to go on. As far as the Government are concerned, what the Government are trying to do is to reduce the consumption of liquor by such measures as curtailing the number of days, and the number of hours on which the shops are open, by putting down consumption, and various measures of that kind.

**Mr. Frank Anthony:** In the absence of concerted measures to provide housing facilities, and to educate public opinion, is it not a fact that the sudden introduction of prohibition has led to increase of crimes and to deterioration of health?

**Mr. Speaker:** Order, order.

**Mr. Homi Mody:** In view of what the Finance Minister has said about the intention of the Home Ministry, will the Home Ministry consider the advisability of consulting the patrons of hotels, clubs and bars before introducing prohibition?

**The Honourable Sardar Vallabhbhai Patel:** And also those who are addicted to drink.

**Shri Deshbandhu Gupta:** May I know whether the Government have seriously considered the desirability of bringing Delhi into line with at least Bombay, so far as prohibition is concerned?

**The Honourable Dr. John Matthai:** The matter will be examined.

**Shri O. V. Alagesan:** What is the total revenue derived from the sale of liquor by the Central Government?

**The Honourable Dr. John Matthai:** I want notice.

**Srijut Rohini Kumar Chaudhuri:** I want to know whether the representatives of these two provinces ever made a representation in favour of prohibition to the Government.

**The Honourable Dr. John Matthai:** So far as I know, they have not.

#### INDIAN UNIVERSITIES COMMISSION

\*1030. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Education be pleased to state whether the Government of India have appointed the Indian Universities Commission and if so, with what object in view?

(b) What are the terms of reference of this Commission and by which date is the said Commission expected to conclude its deliberations and to submit its report?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) and (b). Yes. A copy of the Government Resolution on the subject is laid on the table of the House. The report of the Commission is likely to be submitted to the Government during the middle of 1949-50.

No. F. 55-5/47-D.3.

GOVERNMENT OF INDIA  
MINISTRY OF EDUCATION

New Delhi, the 4th November, 1948

RESOLUTION (As amended subsequently).

The Government of India have considered the recommendation of the Inter-University Board, India, and the Central Advisory Board of Education (1946/47) that a University Commission consisting of eminent educationists from India and abroad should be appointed "to report on Indian University Education and suggest improvements and extensions that may be desirable to suit present and future requirements of the country" and are of the opinion that the vast changes which have taken place since these resolutions were passed have added to their urgency.

2. The importance of primary and secondary education for a democracy is obvious. Their quality, however, depends on the ultimate quality of higher and University education, and these can be produced only by a suitable system of higher and University education. Provision of extended facilities for higher education is, therefore necessary for the satisfactory functioning of democracy. A vast change has taken place in the country with the

achievement of independence. New vistas have open which necessitate a survey of education at all stages. The interests of the country require vast programmes of expansion in Agriculture, Industry and Commerce which, however, can be carried out only if a sufficient number of highly trained executives and artisans, craftsmen and skilled labour of all grades and types are available. The problems of Defence cannot be satisfactorily solved without the existence, within the country, of all facilities for technological and scientific studies of the highest order. Extension of the boundaries of knowledge and research is also essential if we are to improve the quality of education which is now available to us. There has been no detailed examination of the existing Universities and their work since the report of the Sadler Commission in 1917. All these factors demand a comprehensive enquiry into the question of our University and higher education.

3. The Government of India have, therefore, decided to set up a Commission to enquire into and report on the conditions and prospects of University education and advanced research in India and to recommend a constructive policy in relation to the problems they present and the needs of the country. The Commission will consist of the following members:

- (1) Dr. S. Radhakrishnan, Spalding Professor of Ethics and Eastern Religion at the University of Oxford.—*Chairman.*
- (2) Dr. Tara Chand, M.A., D. Phil. (Oxon.), Secretary and Educational Adviser to the Government of India.
- (3) \* Prof. G. D. H. Cole, Chichele Professor of Social and Political Theory, Oxford.
- (4) Dr. Zakir Hussain, M.A., Ph.D., Jamia Millia Islamia, Delhi.
- (5) Dr. Arthur E. Morgan, lately President of Antioch College and Chairman of the Board of Tennessee Valley Authority, U. S. A.
- (6) Dr. A. Lakshmanaswami Mudaliar, Vice-Chancellor, Madras University and Chairman, Inter-University Board, India.
- (7) Dr. Meghnad Saha, D.Sc., F.R.S., Dean, Faculty of Science, Calcutta University.
- (8) \* Dr. Birbal Sahni, M.A., D.Sc., F.R.S., Dean, Faculty of Science, Lucknow University.
- (9) Dr. John J. Tigert, lately Commissioner of Education, U. S. A., and President, Florida University.

4. The terms of reference of the Commission will be to consider and make recommendations in regard to:

- (i) The aims and objects of University Education and Research in India.
- (ii) The changes considered necessary and desirable in the constitution, control, functions and jurisdiction of Universities in India and their relations with Governments, Central and Provincial.
- (iii) The finance of Universities.
- (iv) The maintenance of the highest standards of teaching and examination in the Universities and Colleges under their control.
- (v) The courses of study in the Universities with special reference to the maintenance of a sound balance between the Humanities and the Sciences and between pure science and technological training and the duration of such courses.
- (vi) The standards of admission to University courses of study, with reference to the desirability of an independent University entrance examination and the avoidance of unfair discriminations which militate against Fundamental Right 23(2).
- (vii) The medium of instruction in the Universities.
- (viii) The provision for advanced study in Indian culture, history, literatures, language, philosophy and fine arts.
- (ix) The need for more Universities on a regional or other basis.
- (x) The organisation of advanced research in all branches of knowledge in the Universities and Institutes of high research in a well co-ordinated fashion avoiding waste of effort and resources.
- (xi) Religious instruction in the Universities.
- (xii) The special problems of the Benares Hindu University, the Aligarh Muslim University, the Delhi University and other institutions of an all India character.

\* Professor G. D. H. Cole and Dr. Birbal Sahni having declined membership, Dr. J. E. Duff, Vice-Chancellor, Durham University and Dr. K. N. Bahl, D.Phil. (Oxon.) D.Sc. (Punj.) Professor of Zoology, Lucknow University, have been appointed members of the University Education Commission in their places respectively.  
Professor N. K. Sidhanta, M.A. (Cantab.), Dean of the Faculty of Arts, Lucknow University, has been appointed member Secretary of the Commission.

- (xiii) The qualifications, conditions of service, salaries, privileges and functions of teachers and the encouragement of original research by teachers.
- (xiv) The discipline of students, hostels and the organisation of tutorial work and any other matter which is germane and essential to a complete and comprehensive enquiry into all aspects of University education and advanced research in India.

**Seth Govind Das:** May I know if one of the objects of this Commission has been to decide the question of the medium of instruction in this country and if so what language this Commission has recommended or what language has this Commission thought in connection with medium of instruction?

**Mr. Speaker:** He may better refer to the terms of reference; it is a matter of record.

**Shri Brajeshwar Prasad:** How much money has been spent over this Commission?

**The Honourable Shri Satyanarayan Sinha:** I want notice.

**Shrimati G. Durgabai:** May I know whether this Universities Commission has already submitted any preliminary report?

**The Honourable Shri Satyanarayan Sinha:** No.

**Shri Deshbandhu Gupta:** May I know whether the memorandum submitted by the Vice-Chancellor of the Delhi University states that there should be no representation of the Legislative Assembly in the Court?

**Mr. Speaker:** Order, order. That is a matter before the Commission for consideration.

**Shri Deshbandhu Gupta:** I want to know whether it is a fact.

**Mr. Speaker:** It is a matter of record.

**Seth Govind Das:** Has the Government asked this Commission to submit periodical reports, or has the report to come at the end of their work?

**The Honourable Shri Satyanarayan Sinha:** Only one final report.

**Shrimati G. Durgabai:** May I know whether the terms of reference to the Universities Commission include also a reference to review the working of High School and Secondary School Education?

**Mr. Speaker:** Order, order; It is a matter of record.

#### ESTABLISHMENT OF A NATIONAL CENTRAL LIBRARY

\*1031. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Education be pleased to state whether the Government of India intend to establish a National Central Library and a net work of libraries throughout the country in India on the lines suggested by Dr. Ranganathan in his Presidential address at the last session of the All India Library Conference at Nagpur?

(b) Do they intend to introduce any 'Library Legislation' and if not, why not?

(c) Do Government intend to recognise the Imperial Library at Calcutta as the National Central Library on the lines suggested by Dr. Ranganathan?

(d) Do Government intend to establish Indian Libraries in foreign countries for the promotion of cultural contact, true understanding and well-informed friendship?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) Yes, Sir. The Government of India have already set up an Expert Committee (of 6 members) to work out the details for the establishment of a Central Library in

Delhi with a Copyright Section attached to it. The Committee have not yet concluded their deliberations. The proposals of Dr. S. R. Ranganathan, who is also a member of the Expert Committee, will be considered by the Government in the light of the recommendations of the Expert Committee.

(b) This is also one of the terms of reference of the Expert Committee. The question of introducing a 'Library Legislation' will be considered by the Government after the Expert Committee have submitted their report.

(c) The National Library is already working on an All-India basis and proposals are under consideration to increase its utility.

(d) The Government of India are doing their best to promote cultural contacts and true understanding between India and foreign countries. They have already presented large number of books on Indian culture, history, literature and philosophy donated by learned societies and institutions in India to Universities in China and Indonesia. Subject to limitation of funds, they are also purchasing selected collection of books for donation to learned institutions in foreign countries. Besides this, a collection of about 100 books on Indian history, philosophy, culture and on the achievements of India's past and present are being sent to some 25 Information Centres abroad. Although these collections are meant primarily for the use of our Diplomatic Mission abroad, access is also allowed to the local public.

**Shri H. V. Kamath:** Does the Government propose to obtain the original Sanskrit and Pali texts of ancient Indian History for this library?

**The Honourable Shri Satyanarayan Sinha:** This matter will be considered by the Government.

**\*1032.** [POSTPONED TO BE ANSWERED ON THE 21ST MARCH, 1949.]

#### ADVANCES TO GOVERNMENT SERVANTS FOR PURCHASE OF MOTOR CARS

**\*1033. Sardar Hukam Singh:** (a) Will the Honourable Minister of Finance be pleased to state whether Government give advances to their servants for purchase of motor cars?

(b) If so, what type of officials and of what status or position are entitled to avail themselves of such advances?

(c) What policy has been followed by Government so far in allowing these advances?

(d) What is the number, separately of officers drawing salaries between Rupees 500/- and 1000/- and of those drawing more who have been given such advances during the last sixteen months?

**The Honourable Dr. John Matthai:** (a) Yes.

(b) and (c). An officer who is unable to invest a lump sum on the purchase of a car is granted the advance if there is a possibility of his recouping the advance from his savings in the immediate future. Such an advance is granted only to an officer in whose case Government is satisfied that the possession of a car is in the interest of public service and for the efficient discharge of his official duties.

(d) The information required is not readily available. The labour spent on collecting the information will not be commensurate with the real value of the information.

**Shri R. K. Sidhva:** What is the period allowed for the repayment of these loans?

**The Honourable Dr. John Matthai:** Speaking from recollection, 36 months.

**Shri Deshbandhu Gupta:** May I know whether it is a fact that quite a large number of Government servants indulged in the purchases and sales of motor

cars during the period when the sales of motor cars was controlled and when there was a big difference between the controlled prices and market prices of cars?

**The Honourable Dr. John Matthai:** Not to my knowledge.

**Shri Deshbandhu Gupta:** Will he enquire into it?

**The Honourable Dr. John Matthai:** I see no point in enquiring.

**Dr. P. S. Deshmukh:** May I know, in view of the inadequacy of transport of all kinds whether Government does not consider it advisable that every officer who can afford should purchase a motor car?

**Shri Mahavir Tyagi:** Is it a fact that staff cars are permitted to be used by Government servants?

**The Honourable Dr. John Matthai:** On official duty.

**Shri Mahavir Tyagi:** Do they not go on private business also in staff cars?

**The Honourable Dr. John Matthai:** I hope not.

**Shri Deshbandhu Gupta:** Is the Honourable Minister aware that such illegal use by Government servants brings bad name to the Government?

**Mr. Speaker:** He is arguing.

#### INCREASED SUBVENTION TO ORISSA GOVERNMENT

**\*1034. Shri Lakshminarayan Sahu:** (a) Will the Honourable the Minister of Finance be pleased to state whether the Government of Orissa has asked for increased subvention from the Government of India?

(b) If so, what have the Government of India done in this regard?

**The Honourable Dr. John Matthai:** (a) Yes.

(b) The matter is under correspondence with the Provincial Government.

**Prof. N. G. Ranga:** How much did they want?

**The Honourable Dr. John Matthai:** As the House knows under the Government of India Act the Centre gives a subvention of 40 lakhs to Orissa and recently as a result of merger of States and also because of the revised scale of salaries they have asked for a subvention of 125 lakhs.

**Shri H. V. Kamath:** Besides this, has the Government of Orissa asked for a loan or grant or subsidy for building their new capital at Bhubaneswar?

**The Honourable Dr. John Matthai:** Yes.

**Shri H. V. Kamath:** How much have they asked for?

**The Honourable Dr. John Matthai:** I do not know the exact figure.

**Shri Lakshminarayan Sahu:** Is it a fact that due to inflation the amount of present subvention which is given to Orissa is very small and inadequate?

**The Honourable Dr. John Matthai:** That is a matter of opinion.

**Shri R. K. Sidhva:** Is this subvention sanctioned when Orissa was separated from Bihar and if so for how many years this is to be continued?

**The Honourable Dr. John Matthai:** It is part of our existing Constitution.

**Dr. P. S. Deshmukh:** Is there any proposal to give a subvention to the Government of C.P. and Berar?

**Mr. Speaker:** Does not arise.

**Shri R. K. Sidhva:** Upto what period it is to be continued under the present Constitution. Is it without any limitation?

**The Honourable Dr. John Matthai:** It depends on when the new Constitution replaces the present Constitution.

**Shri B. Das:** Is it a fact that 40 lakhs granted as subvention was the cost of separation, for the paraphernalia of the Governor and the Executive Council?

**The Honourable Dr. John Matthai:** It was really fixed as far as I can remember in connection with Sir Otto Niemeyer's investigations and I think it was fixed on the basis of the actual deficit of 1936-37.

**Prof. N. G. Ranga:** Have not the revenues of Orissa gone up corresponding with the merger of all the States?

**The Honourable Dr. John Matthai:** Apparently the whole basis of contention is that while the revenues have increased, the expenses have increased more.

**Shri Biswanath Das:** May I know whether the subvention given to Orissa, is given only to Orissa or to many other provinces also in terms of the Niemeyer Award?

**The Honourable Dr. John Matthai:** Not only for Orissa.

**Dr. Monc Mohan Das:** What are the other provinces that receive subvention?

**Mr. Speaker:** It will be outside the scope of the original question.

#### ENGINEERING PERSONNEL IN M. E. S.

**\*1035. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Defence be pleased to state the total number of Engineering personnel in the Military Engineering Service in all the three commands (Southern Command, Western Command and Eastern Command)?

(b) How many of them are qualified as engineers or overseers, (Military and Civil)?

(c) What was the amount paid as salaries in the year 1947-48 to personnel of the Military Engineering Service?

**The Honourable Sardar Baldev Singh:** (a) 1974.

(b) The number of civilian and military officers qualified as Engineers and Overseers are 810 and 477 respectively.

(c) Rs. 29,81,300.

**Dr. V. Subramaniam:** Is it a fact that even unqualified persons are being promoted as Officers in the M.E.S.?

**The Honourable Sardar Baldev Singh:** I said there are unqualified people but the present rules lay down that they have to pass a qualifying test by 1950. They will be given three chances and those who do not qualify will have to revert.

**Dr. V. Subramaniam:** What are the opportunities given to them to have practical training in engineering and other matters?

**The Honourable Sardar Baldev Singh:** Every possible opportunity is given for practical training.

**Shri Ajit Prasad Jain:** Is there a dearth of trained personnel and for that reason untrained people are promoted?

**The Honourable Sardar Baldev Singh:** A few days ago I replied to another question on the subject that there is a shortage of officers.

**Dr. V. Subramaniam:** What is the qualification fixed for such soldiers before training is given to them?

**The Honourable Sardar Baldev Singh:** I cannot tell what the exact qualifications are but they are all laid down and if the honourable member wants that information, I could send it to him.

**Shri Ajit Prasad Jain:** May I know what efforts, if any, have been made to ascertain whether trained personnel are available?

**The Honourable Sardar Baldev Singh:** The jobs are advertised and those who are qualified apply for it and if we do not get requisite number of applications, then we assume that the requisite number is not available.

**Shri Ajit Prasad Jain:** How many times the posts were advertised since 15th August 1947 and what has been the response?

**The Honourable Sardar Baldev Singh:** I want notice of that.

**Dr. V. Subramaniam:** Was the Jammu-Pathankot Road built by the M.E.S.?

**The Honourable Sardar Baldev Singh:** No.

**Prof. Shibban Lal Saksena:** When there is shortage of trained people, why there is retrenchment?

**Mr. Speaker:** Retrenchment is of unnecessary people.

#### DEVELOPMENT OF ANDAMANS AS MILITARY OR NAVAL BASE

**\*1036. Shri H. V. Kamath:** Will the Honourable Minister of Defence be pleased to state whether there is any proposal before Government to develop the Andamans as a military or naval base?

**The Honourable Sardar Baldev Singh:** It would not be in the public interest to answer this question at present.

**Srijut Kuladhar Chaliha:** May I know whether there be a first class naval base in the Andamans?

**The Honourable Sardar Baldev Singh:** I am not in a position to disclose this.

#### GRANT TO BOMBAY BRANCH OF ROYAL ASIATIC SOCIETY

**\*1037. Shri H. V. Kamath:** Will the Honourable Minister of Education be pleased to state:

(a) whether it is a fact that the Calcutta Branch of the Royal Asiatic Society receives a grant of Rs. 30,000/- from the Central Government per annum;

(b) whether the Bombay branch of the Royal Asiatic Society has applied for an annual grant from the Central Government;

(c) if so, whether a grant has been sanctioned and how much; and

(d) if no grant has been made, the reasons therefor?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) The Royal Asiatic Society of Bengal is receiving a grant of Rs. 25,000 per annum from the Central Government. It is not a branch of the Royal Asiatic Society of Great Britain and Ireland.

(b) Yes. This body which is a branch of the Royal Asiatic Society of Great Britain and Ireland also applied for a grant from the Central Revenues.

(c) and (d). Owing to the prevailing need for economy it has not been possible to make any grant to the Bombay Branch of the Royal Asiatic Society for the present.

**Shri H. V. Kamath:** Does Government propose to make any grant in the near future to this Library which is in dire need of funds?

**The Honourable Shri Satyanarayan Sinha:** When the economic situation improves, it will be considered.

**Shri Arun Chandra Guha:** Will Government consider the desirability of deleting the word 'Royal' from the name of this Institution?

**The Honourable Shri Satyanarayan Sinha:** Government will consider the proposal.

**Shri H. V. Kamath:** Will Government change the word 'Asiatic' to 'Asian'?

**Mr. Speaker:** It is a suggestion for action.

#### THEFT OF HANDGRENADES FROM R.I.A.F. HEADQUARTERS AT PALAM

**\*1038. Shri H. V. Kamath:** Will the Honourable Minister of Defence be pleased to state:

(a) whether it is a fact that 34 handgrenades and 3 tins of detonators of handgrenades have recently been stolen from the Royal Indian Air Force Headquarters at Palam; and

(b) if so, what action has been or is being taken by Government in the matter?

**The Honourable Sardar Baldev Singh:** (a) Yes.

(b) An R.I.A.F. Court of Inquiry is at present investigating the theft. The matter has also been reported to the Civil Police for investigation.

**Prof. N. G. Ranga:** Have there been any such losses in other places also?

**The Honourable Sardar Baldev Singh:** I cannot say. I think I have stated in reply to a question the other day that there were thefts in one or two other places.

**Prof. N. G. Ranga:** Is such information ever been supplied to the Standing Committee attached to this Department?

**The Honourable Sardar Baldev Singh:** Whatever information is asked for by the Standing Committee is supplied.

**Shri R. K. Sidhva:** What was the date when it was notified and the date when it was reported to the Police?

**The Honourable Sardar Baldev Singh:** I am not in a position to give this information but I will enquire this.

**Shri Deshbandhu Gupta:** Is there any suspicion that there were some political parties behind this?

**The Honourable Sardar Baldev Singh:** Investigation is going on. Until the full report is received, it is difficult for me to say anything in the matter.

**Mr. Speaker:** The question hour is over.

#### (b) WRITTEN ANSWERS

##### TRAINING OF TEACHERS FOR BASIC EDUCATION

**\*1039. Shri Basanta Kumar Das:** Will the Honourable Minister of Education be pleased to state:

(a) what steps the Government of India or Provincial Governments have taken for the training of teachers for basic education;

(b) whether any estimate has been made of the number of teachers necessary for Basic Schools that may be started in different provinces during the current year; and

(c) what portion of this need is expected to be met from among the teachers trained in Wardha or other Basic teacher-training centres and how the rest of the requirement is proposed to be met?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) to (c). The Government of India have already arranged with the authorities of Jamia Millia, Delhi, and the Visva Bharati, Shantiniketan for the training of teachers for Basic Schools in the Centrally Administered Areas of Delhi and Ajmer. At Visva Bharati, arrangements have been made to train teachers in (a) Arts and Crafts and (b) Music and Dancing as well. Teachers are also sent by the Provincial Governments for training at Sevagram. In addition, two Training

Institutes for Delhi and Ajmer-Merwara were started last August one for men at Ajmer and the other for women at Delhi.

The Government have also provided a sum of Rs. 50,00,000 in next year's budget for grants to the Provinces for training of Basic teachers. Further information on the points raised by the honourable member is given in the statement laid on the table.

#### STATEMENT

| Province       | (a)                                                                    | (b)                                                                   | (c)                                                      |
|----------------|------------------------------------------------------------------------|-----------------------------------------------------------------------|----------------------------------------------------------|
| Assam          | Training Institutions at six different centres will be opened shortly. | 100 for 1948-49                                                       | All will be trained within the Province.                 |
| West Bengal    | There are Basic Training Schools.                                      | 50 for 1948-49                                                        | 36 trained at Balarampur.                                |
| Bihar          | There are Basic Training Schools.                                      | Yes, an estimate has been made, but the papers are not yet available. | Needs will be met from teachers trained in the Province. |
| Bombay         | There are Basic Training Schools.                                      | Ditto                                                                 | Necessary teachers are trained in the Province.          |
| C.P. and Berar | There are Basic Training Schools.                                      | 150 for 1948-49                                                       | Teachers will be trained within the Province.            |
| Madras         | There are Basic Training Schools.                                      | 672 teachers for 1949-50.                                             | Teachers will be trained within the Province.            |
| Orissa         | There are Basic Training Schools.                                      | 156 for 1948-49                                                       | Teachers will be trained within the Province.            |
| U.P.           | There are Basic Training Schools.                                      | 6700 for 1948-49                                                      | Teachers will be trained within the Province.            |

#### DEMOLITION OF HOUSES IN ANDAMAN ISLANDS

**\*1040. Shri Satis Chandra Samanta:** (a) Will the Honourable Minister of Home Affairs be pleased to state how many houses in Ross Island and other parts of the Andaman Islands including the building known as the Cellular Jail, have been demolished?

(b) How many of them were in good condition and fit for habitation?

(c) What is the reason for their demolition?

(d) Is demolition still going on?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). Only thirteen houses have been dismantled on Ross Island after reoccupation. Two out of seven wings of the Cellular Jail were almost destroyed during the Japanese occupation. One other wing which was in bad condition has been recently dismantled. Four other wings are intact but not in good condition.

In the opinion of the P.W.D. authorities, none of these buildings was in good condition and fit for habitation.

(c) It was considered uneconomic to maintain the small island of Ross which is separated from the main island by about one mile of sea, and where only a few Government officers used to live. The buildings had moreover been condemned

by the C.P.W.D. authorities. Materials salvaged from these buildings are being used for repair work and construction of new buildings on the main island.

(d) Dismantling has recently been stopped in order to make use of some of the buildings as transit accommodation for new settlers.

#### CONTROL OVER NUNCOWRY GROUP OF ISLANDS AND GREAT NICOBAR ISLANDS

**\*1041. Shri Satis Chandra Samanta:** Will the Honourable Minister of Home Affairs be pleased to state whether Nuncowry group of Islands and the Great Nicobar Islands are under the direct control of the Government of India?

**The Honourable Sardar Vallabhbhai Patel:** Yes.

#### PERSONS RETIRED AT THE AGE OF FIFTY-FIVE IN MINISTRY OF STATES

**\*1042. Pandit Thakur Das Bhargava:** Will the Honourable Minister of States be pleased to state how many persons serving in his Ministry have been retired under the old interpretation of Fundamental Rule 56(b) (i) in consequence of their having reached the age of 55 years after the said rule was interpreted differently by the Auditor General and Advocate General in 1946?

**The Honourable Sardar Vallabhbhai Patel:** Two in the Secretariat of the Ministry of States. Figures for the Attached and Subordinate offices are being collected and will be laid on the table in due course.

#### ISSUE OF INSTRUCTIONS *Re* AGE OF RETIREMENT

**\*1043. Pandit Thakur Das Bhargava:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether it is a fact that the Ministry of Home Affairs did not issue any instructions on the basis of the new interpretation of Fundamental Rule 56(b) (i) until the 8th September, 1948?

(b) Have the instructions regarding the new interpretation of 1946 now been sent to all Ministries and the Provincial Governments?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). Instructions were issued on 8th September, 1948. The honourable member's attention is invited to the reply given by the (then) Finance Minister to Starred Question No. 398 on the 23rd August 1948.

#### CONTINUITY OF SERVICE OF RETRENCHED PERSONS ON RE-EMPLOYMENT.

**\*1044. Shri Kishorimohan Tripathi:** (a) Will the Honourable Minister of Finance be pleased to state whether it is fact that the leave allowed to certain clerks of the Indian Audit and Accounts Offices under the retrenchment orders in 1931 has constituted a break in their service?

(b) Is it a fact that the persons affected were allowed only the 'leave due' under the retrenchment concessions?

(c) If so, why has the benefit of the continuity of service for the purposes of pay scales etc., been denied to those officials who secured re-employment either during the period of leave or immediately after its expiry?

(d) Do Government propose to reconsider these cases and if not, why not?

**The Honourable Dr. John Matthai:** (a) Yes.

(b) Yes.

(c) They were allowed certain leave and gratuity concessions at the time of their retrenchment which were to wipe out their claims on Government in respect of their past service.

(d) Government do not consider it necessary to revise the orders as the persons concerned were fully compensated for their past service.

#### PURCHASE OF LAND BY DISTRICT MAGISTRATE IN DELHI

**\*1045. Shri Damoder Swarup Seth:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) whether the district officers are authorised to purchase immovable property and land in their own names or that of their families or relatives in the districts in their charge;

(b) whether it is a fact that one of the District Magistrates posted at Delhi during the period from March, 1947 to October, 1948, acquired a piece of land near Mehrauli either in his own name or that of any member of his family or brother and if so, the area and the cost thereof?

(c) if the reply to part (b) above be in affirmative, whether the transaction had the approval of the competent authority and the special circumstances leading to the grant of the sanction; and

(d) whether Government propose to retake the land and take action against the officer if found guilty of infringement of the Government Servants Conduct Rules?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes, with the permission of a competent authority.

(b) and (c). The District Magistrate who was a refugee, having lost all his lands in Pakistan, entered into an exchange transaction with the permission of the Chief Commissioner. Subsequently on learning that such private exchanges were not likely to be recognised he applied for the reversion of the lands, measuring about 400 *bighas*, to the original holder. The property now vests in the Custodian of Evacuee's property.

(d) Does not arise.

#### REDUCTION OF INDIAN ARMY AND ESTABLISHMENT OF TERRITORIAL ARMY

**\*1046. Dr. Raghu Vira:** (a) Will the Honourable Minister of Defence be pleased to state whether it is intended to reduce the strength of the Indian army?

(b) How far has progress been made in the establishment of the territorial army?

**The Honourable Sardar Baldev Singh:** (a) and (b). I would refer the honourable member to my statement made in the House in the course of the debate on the Defence Services Estimates on the 7th March 1949.

#### CANTONMENTS ON NORTH-WEST FRONTIER

**\*1047. Dr. Raghu Vira:** Will the Honourable Minister of Defence be pleased to state whether it is intended to have more Cantonments on the North West Frontier of India?

**The Honourable Sardar Baldev Singh:** No.

#### EDITING AND PUBLICATION OF HISTORICAL INSCRIPTIONS

**\*1048. Dr. Raghu Vira:** Will the Honourable Minister of Education be pleased to state:

(a) how many inscriptions still lie undited and unpublished in the office of the Epigraphist of India at Octacamund as well as with the different Superintendents of the Archaeological Departments;

(b) for how many years past no inscriptions have been published; and

(c) whether Government propose to consider the desirability of employing more epigraphists for completing the publication of all the known inscriptions within a short time?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) 21,294 inscriptions, mostly belonging to South India, remain unpublished with the Government Epigraphist for India. Of these approximately 10,000 are worth publishing. Though most of these have been deciphered tentatively, they have not properly been edited and only a part is ready for the press. There are no estampages of unpublished inscriptions lying with the Superintendents of Archaeological Department.

(b) The last issue of the *Epigraphia Indica* was for January, 1942, when a ban was imposed on epigraphical publications. Since the lifting of the ban after the war, a number of parts of the *Epigraphia Indica* have been sent to the Press for publication. Three parts of the *Epigraphia Indica* and one volume of the *Epigraphia Indo-Moslemica* are expected to be published shortly. Besides these several other parts of the *Epigraphia Indica*, two volumes of the *Epigraphia Indo-Moslemica* and three volumes of South Indian Inscriptions are in the Press in various stages of printing.

(c) A proposal for strengthening the staff of the Epigraphical Branch of the Department of Archaeology is already under the active consideration of the Government of India. The slow progress is also due to the lack of printing facilities in India.

#### RATES FOR TEMPORARY INCREASES IN PENSIONS

**\*1049. Dr. Raghu Vira:** Will the Honourable Minister of Finance be pleased to state:

(a) the reasons why rates for temporary increases in pensions to Government pensioners are less than those for dearness allowances enjoyed by present Government servants; and

(b) whether the original reasons still exist; if not, whether Government intend to take any action in the matter?

**The Honourable Dr. John Matthai:** (a) and (b). The reason for this differentiation is that Government have a direct responsibility to maintain the services so as to enable them to discharge their duties to the best interests of the state. This consideration does not exist in the case of pensioners. Government do not propose to take any action in the matter.

#### FOREIGN TECHNICIANS EMPLOYED IN GOVERNMENT OF INDIA

**\*1050. Shri Ari Bahadur Gurung:** (a) Will the Honourable Minister of Home Affairs be pleased to state the number of foreign technicians, who have been employed by the Government of India since August, 1947?

(b) What is the nationality of these technicians mostly?

**The Honourable Sardar Vallabhbhai Patel:** (a) Fifty-one.

(b) Forty-one of them are British, four Germans, four Americans, one Polish and one North Rhodesian.

#### UNSTARRED QUESTION AND ANSWER

##### LITERATURE FOR IMPROVEMENT OF CULTURAL RELATIONS WITH FOREIGN COUNTRIES

**87. Shri Moturi Satyanaryana:** Will the Honourable Minister of Education be pleased to state:

(a) whether any literature prepared for circulation for the purpose of improving the cultural relations with other countries exists;

(b) if so, whether Government propose to make a list of such literature available to the members of the House;

(c) what is the amount spent on the preparation of this literature by Government; and

(d) in what languages this literature is available?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) and (b). The Ministry of Education has not published any particular literature for improving cultural relations with other countries. But as there is already a large amount of literature available in English on History, Philosophy and Culture of India, the existence of such literature has been availed of and complete sets of books on the above subjects have been purchased for the use of our Embassies' libraries abroad. These sets of books are sent to our Embassies whenever they are required by them. A list of such books is maintained in the Ministry.

(c) Nil.

(d) The list is mainly of books in English as it is meant for use in the Indian Embassies abroad.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

(PART I—QUESTIONS AND ANSWERS)

Friday, 11th March, 1949

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

STARRED QUESTIONS AND ANSWERS

(a) ORAL ANSWERS

STAFF CARS OWNED BY MINISTRIES OF FOOD AND AGRICULTURE

\*1051. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Food be pleased to state the number of staff cars owned by the Ministries of Food and Agriculture, together with their recurring and non-recurring expenditure?

(b) Was any new car purchased during the year 1948?

(c) What use is made of these cars?

**The Honourable Shri Jairamdas Doulatram:** (a) Three cars are owned by Ministries of Food and Agriculture. The recurring and non-recurring expenditure in respect of these cars is as follows:

Recurring—Rs. 1,350 including the pay and allowances of the drivers.

Non-recurring—Rs. 733-9-0.

(b) Yes, in the Ministry of Food one new car was purchased in August, 1948, against which two old cars were sold by public auction through the Director General Disposals, the sale proceeds realised being Rs. 4,400. The new car was purchased at a cost of Rs. 6,485/12/-.

(c) The cars are used by officers for journeys on official duty. The use of staff car is also permitted under rules prescribed by the Ministry of Finance to officers of certain status for non-duty purposes at a schedule rate provided such use does not interfere with official requirements.

**Shri R. K. Sidhva:** May I know whether the officers are entitled to car allowance even when they use the staff cars?

**The Honourable Shri Jairamdas Doulatram:** I shall enquire.

**Prof. N. G. Ranga:** The car allowance is made only for city movements. Is that so?

**The Honourable Shri Jairamdas Doulatram:** I would not be able to say that straight-off. They have to go on office duty, for example for inspection of food depots or they have to go to the station to receive people coming to attend various committees and conferences.

**Shri R. K. Sidhva:** My question was in respect of their coming to the office from home.

**The Honourable Shri Jairamdas Doulatram:** It is not intended for coming from residence to office.

**Dr. P. S. Deshmukh:** What were the years of the manufacture of the two cars sold?

**The Honourable Shri Jairamdas Doulatram:** I would not be able to say that, but they were purchased in 1944-45. One of the cars had run 42,000 miles and another 50,000 miles. For five months they were declared unfit and the repairers wanted Rs. 3,000 for their repairs without guaranteeing the period for which they will be serviceable.

#### LOSS TO GOVERNMENT IN SALE OF IMPORTED FOODGRAINS

\*1052. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Food be pleased to state what percentage of the loss sustained in 1948 in selling imported foodgrains to consumers was contributed by each Provincial Government?

(b) What was the total loss to Government in 1947 and what was the amount of loss contributed by Provincial Governments during 1947?

(c) What was the total quantity of grain produced from lands newly brought under cultivation in the years 1947 and 1948?

(d) How much money was spent by the Government of India and the various Provincial Governments for bringing this area under cultivation?

**The Honourable Shri Jairamdas Doulatram:** (a) The honourable member is presumably referring to the subsidy paid by the Government of India for providing for the sale of imported foodgrains to the public at lower rates than their cost. The subsidy on this account during the financial year 1948-49 (from 1st April, 1948 to 31st March, 1949) is estimated to be 26.52 crores of rupees. The subsidy was shared by the Central and Provincial Governments in the proportion of 2:1 upto 30th September, 1948; and in the proportion of 3:1 from 1st October, 1948 to 31st March, 1949. With effect from 1st October, 1949, the States were also admitted to the benefits of the subsidy on a 50:50 basis.

(b) The total subsidy paid by the Government of India in the Financial year 1947-48 (1st April, 1947 to 31st March, 1948) amounted to 17.12 crores of rupees. Upto 31st December, 1947, the entire subsidy was borne by the Central Government. During the period from 1st January, 1948 to 31st March, 1948, the subsidy was shared between the Central and the Provincial Governments in the proportion of 2:1.

(c) and (d). A statement is laid on the table of the House.

#### STATEMENT

*Province-wise acreage of cultivable waste land brought under cultivation during 1947 and 1948 and additional Food Grain produced therefrom.*

| Name of Province | Total quantity of food grains produced (in rounds). |               | Total expenditure incurred during 1947 and 1948 (in rupees.) |                    |

**Shri R. K. Sidhva:** May I know whether this proportion of 2:1 means 2 for the Central Government and 1 for the Provincial Government?

**The Honourable Shri Jairamdas Doulatram:** Yes.

**Shri R. K. Sidhva:** With reference to the statement laid on the table in respect of parts (c) and (d) of the question, may I know whether that statement includes both totally non-reported area and partially non-reported area?

**The Honourable Shri Jairamdas Doulatram:** It relates only to Provinces and in the case of Bombay we have not been able to receive the figures yet.

**Shri R. K. Sidhva:** Are there any figures available for the totally non-reported area?

**The Honourable Shri Jairamdas Doulatram:** No figures are available.

**Shri R. K. Sidhva:** May I know the reasons for their not being available?

**The Honourable Shri Jairamdas Doulatram:** Because non-reporting areas do not report.

**Shri R. K. Sidhva:** May I know whether any steps have been taken by Government to get reports as to what is the quantity grown there?

**The Honourable Shri Jairamdas Doulatram:** We wrote to the Provinces and States but the administration in some States is in such a condition that they are not able to give us the figures.

**Shri R. K. Sidhva:** Can Government enlighten the House as to the quantity grown there so that we may know the extent of the shortage?

**The Honourable Shri Jairamdas Doulatram:** It can be done if the Central Government sends its own agency in those States and the agency remains there for a number of months to make full inquiries and calculations. Where a particular State is at a low level of administration it is difficult to get proper figures. I may inform the House that over a number of years with regard to the non-reporting areas a certain figure is taken as the production from those areas. This figure is based on the results achieved in the neighbouring States. A kind of rough calculation is made.

**Shri R. K. Sidhva:** Who decides the subsidy? Is any bonus also given?

**The Honourable Shri Jairamdas Doulatram:** Bonus is given only in the case of a Province which procures grain from within its own area and also if a surplus Province exports grain for the use of a deficit area. The subsidy is given really to the consumer—that is, everybody who has a ration card is enabled to purchase from the ration shop at a certain controlled rate. So the benefit does not go to Government; it goes directly to the consumer.

**Dr. P. S. Deshmukh:** Who takes the decision with regard to the proportion of the subsidy; is it the Honourable Minister or the whole Cabinet?

**The Honourable Shri Jairamdas Doulatram:** This was approved by the Cabinet.

**Dr. P. S. Deshmukh:** Was the change that was made in the proportion of subsidies referred to this House at any time?

**The Honourable Shri Jairamdas Doulatram:** I do not know whether it was specifically referred, but all the statements have been placed before the House.

**Shri Mahavir Tyagi:** After giving subsidy is the cost of the food grain which is imported from foreign countries as much as the price of the food grain we pay to the cultivator here in procurement?

**The Honourable Shri Jairamdas Doulatram:** Between the price at which we have to purchase from outside countries and the price at which we sell at the ration shop is only included the expenses of landing, bagging and transporting.

**Shri Mahavir Tyagi:** What is the difference between the overall prices of the food grain when it is given to consumers and the prices we pay to cultivators when we procure their grain?

**The Honourable Shri Jairamdas Doulatram:** There are different prices in different Provinces. I am able to give the House a table giving all this information, as I have not got all the information with me now. There are different prices for different grains in different provinces.

**Shri B. P. Jhunjhunwala:** What is the approximate percentage of this rise in price when it is procured and when it is sold to the consumers?

**The Honourable Shri Jairamdas Doulatram:** I will not be able to give the percentage straight-off.

**Shri Mahavir Tyagi:** Did Government consider the possibility of adding to the procurement price by transferring the subsidy there, that is, instead of giving the subsidy to the consumer of giving it to the producer and thereby getting more grain from the producer?

**The Honourable Shri Jairamdas Doulatram:** Attempts are made by the Provinces to secure as much as possible and we cannot procure more. If we pay a higher rate it is possible that the producers will not immediately supply the grain to Government but wait for the higher rate. Therefore we have got the fixed rate and begun to procure from the producers.

**Dr. P. S. Deshmukh:** Will the Honourable Minister be pleased to place this question of subsidies before the Standing Committee so far as the next year's subsidy is concerned?

**The Honourable Shri Jairamdas Doulatram:** Yes, certainly.

**Shri O. V. Alagesan:** Are Government aware that the difference between the purchase price and the sale price of paddy in Madras is as much as 48 per cent., and will the Honourable Minister make enquiries into it and bring it down?

**The Honourable Shri Jairamdas Doulatram:** I will make enquiries.

**Shri Upendranath Barman:** Will the Honourable Minister please give us an idea as to the prices at which a Province procures and the prices at which it gives to the consumers—a rough idea?

**The Honourable Shri Jairamdas Doulatram:** It is very difficult to give an approximate figure. All that I can say is that in the case of different grains the prices are entirely different in the different Provinces. But what is included after purchasing from the producer is the expense incurred by the Government in procuring and storing and then again re-distributing. But I am prepared to give specific figures if enquiries are made about a particular Province.

#### HIGH PRICES OF SALT

\*1053. **Shri B. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether Government are aware that the price of salt in many parts of the country is very high and that in some places it is not available in sufficient quantity?

(b) What are the reasons for the high prices?

(c) Have Government taken steps to increase the number of salt pans under their control?

(d) What was the quantity of salt produced in the year 1948, as compared with the years 1946 and 1947 and what were the prices prevailing during these three years?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The price and stock situation is generally satisfactory in the major part of the country. But prices are on the high side in certain parts of Orissa, North Bihar and Bombay. Stocks in these areas are not as good as they should be.

(b) The high prices are mainly due to the following reasons:

(i) In Orissa—Low production in 1948, owing to bad weather.

(ii) In North Bihar—Transport difficulties via Pakistan.

(iii) In Bombay—High labour charges and the recent cyclone which badly damaged the salt works.

(c) Yes; the number of salt pans at Sambhar is being increased by 400, at Pachbhadra by 52 and at Kharagodha by 166.

(d) A statement is placed on the table of the House.

#### STATEMENT

*Production and price of salt during the years 1946, 1947 and 1948.*

| Production—          |          | Lakh                              |                           | Mds.                      |                                                 |

| 10. Delhi            | Delhi    | 3 13 0                            | 2 8 0                     | 1 12 0 to 2 2 0           |                                                 |
| 11. Coorg            | Mercara  | 4 0 0                             | 4 8 0 to 5 0 0            | 4 8 0 to 5 8 0            |                                                 |
| 12. Ajmer Merwar     | Ajmer    | 2 14 0                            | 1 10 0 to 1 14 0          | 1 10 0 to 1 13 0          |                                                 |

**Shri R. K. Sidhva:** May I know whether the Government have received any representation from the Salt Merchants Association of Sambhar Lake stating that they are prepared to reduce the prices if their scheme is accepted? If so, have Government considered that?

**The Honourable Dr. Syama Prasad Mookerjee:** They have sent a number of representations but we are not inclined to modify the zonal scheme just now.

**Shri R. K. Sidhva:** I am not referring to the zonal scheme, nor am I referring to a number of petitions—I am referring to the particular petition from the Merchants Association. Is it a fact that the Association represented saying that they are prepared to bring down the prices if the packing charge of one anna per maund given is withdrawn?

**The Honourable Dr. Syama Prasad Mookerjee:** I do not know how it refers to this question.

**Shri R. K. Sidhva:** Because it refers to the bringing down of prices.

**Mr. Speaker:** I gather from the Honourable Minister's reply that consideration of that question involves some interference with the zonal system. That is how I have followed that answer.

**Shri R. K. Sidhva:** Am I to understand, Sir, that this question will be held up until the zonal scheme comes into force?

**The Honourable Dr. Syama Prasad Mookerjee:** I am prepared to examine the matter in due course.

**Mr. Frank Anthony:** Is it not a fact, Sir, that the benefit of the abolition of the salt tax has not been passed on to the consumer, and that the consumer, in fact, now pays more than before the abolition of the salt tax?

**The Honourable Dr. Syama Prasad Mookerjee:** Not entirely. Cost of production, freight charges have increased. Owing to this the consumers have not been able to get the full advantage.

**Prof. N. G. Ranga:** Is it not a fact that the salt-producing capacity of Orissa and the Northern part of Madras Presidency bordering on Orissa is not fully exploited?

**The Honourable Dr. Syama Prasad Mookerjee:** That is true.

**Prof. N. G. Ranga:** What steps are Government taking in order to exploit it to the fullest extent so that the prices in Orissa can come down?

**The Honourable Dr. Syama Prasad Mookerjee:** Steps have been taken to increase the production of salt in Orissa in the course of 1949.

**Shri H. V. Kamath:** Is it not a fact that Honourable Ministers are the salt of the earth?

**Mr. Speaker:** Order, order.

**The Honourable Dr. Syama Prasad Mookerjee:** Honourable members of the House also are.

**Shrimati Dakshayani Velayudhan:** What are the restrictions that are placed on individual manufacturers of salt?

**The Honourable Dr. Syama Prasad Mookerjee:** Without licence we are now allowing people to manufacture salt up to ten acres—on that we are not putting any restrictions at all. Beyond that a licence is necessary.

**Shri R. K. Sidhva:** What is the total production of Sambhar Lake?

**The Honourable Dr. Syama Prasad Mookerjee:** The total production of Government factories in 1948 was 155 lakhs of maunds.

**Shri Lakshminarayan Sahu:** What are the causes of low production of salt in Orissa?

**Mr. Speaker:** The Honourable Minister has stated it in his Governments conference, whether the weather that the production in 1948 fell by 41 per cent. The Bombay

**The Honourable Dr. Syama Prasad Mookerjee:** It was mainly due to the weather that the production in 1948 fell by 41 per cent. The Bombay

**Shri Lakshminarayan Sahu:** Is it due to hoarding also?

**The Honourable Dr. Syama Prasad Mookerjee:** On account of hoarding of profit could not have been reduction in production. for the

**Shri Lakshminarayan Sahu:** But prices have gone up. with

**Mr. Speaker:** Order, order. I am calling the next question.

#### LEVY OF A CESS ON SUGAR CANE

\*1054. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Agriculture be pleased to state whether Government are aware that the Government of Bombay have levied a cess of six annas per Bengal Maund on sugarcane going into the sugar cane factory?

(b) Does similar cess exist in other provinces?

(c) What are the ceiling prices of sugar and sugar cane fixed by Industries?

(d) Are these ceiling prices strictly maintained in all provinces?

(e) What are the ruling rates of sugar in important towns in various provinces?

(f) Does this introduction of cess affect the consuming public in the rise of prices of sugar?

**The Honourable Shri Jai Ramdas Doulatram:** (a) No. The Government of Bombay have not levied a cess of six annas. They have enacted legislation authorising levy of a cess upto a maximum of six annas per maund of sugar cane going into the sugar factory. But they do not intend to levy this year a cess exceeding three annas per maund.

(b) In U.P. and Bihar provinces.

(c) The prices of sugarcane in most areas are not fixed by the Industry, but by the respective Provincial and State Governments. Only minimum prices for sugarcane are being fixed and not ceiling. A statement (No. I) showing the cane prices fixed by various Governments or paid by manufacturers is laid on the table.

As regards the price of sugar since de-control the ex-factory price of sugar is being fixed as a result of discussion between the Indian Sugar Syndicate and the Provincial Governments of U.P. and Bihar and the Government of India. As other areas in India are either deficit or just self-sufficient in sugar, the U.P. and Bihar ex-factory price becomes operative throughout India. For the current year the sugar price has been fixed at Rs. 28-12-0 ex-factory for D24 grade sugar against Rs. 35/7/- last year.

(d) The prices statutorily fixed for sugar cane and the ex-factory price for sugar are both being observed by the factories.

(e) A statement (No. II) showing the wholesale and retail prices of sugar in important markets in India is laid on the table of the House.

(f) Yes. The item of cess enters into the cost of production of sugar. In Bombay, however, the cess merely appropriates part of the margin between the cost of production of the Bombay factories and that of the U.P. and Bihar factories on which the all-India sugar price is based.

## STATEMENT I

Cane prices fixed by the various Governments or paid by the Manufacturers.

**Shri B. K. Sidhva:** May I know whether the Provincial Governments consult the Central Government before fixing this cess, and if so, whether the Central Government takes into consideration the high prices that prevail for the consumers?

**The Honourable Shri Jairamdas Doulatram:** We have asked the Bombay Government to consult us before they come to a decision.

**Mr. Frank Anthony:** Is it a fact that in view of the wide margin of profit enjoyed by those growing sugarcane, much of the land formerly used for the production of food grains is now being turned over to the growing of sugarcane?

**The Honourable Shri Jairamdas Doulatram:** This is the belief not with regard to all Provinces but possibly with respect to U.P.

**Dr. P. S. Deshmukh:** Have the Governments of Bombay and Madras fixed any sugarcane prices?

**The Honourable Shri Jairamdas Doulatram:** Yes, they have fixed them.

**Dr. P. S. Deshmukh:** What are those, Sir?

**The Honourable Shri Jairamdas Doulatram:** In the case of Bombay I think Bombay sugar factories have got their own sugarcane farms.

**Dr. P. S. Deshmukh:** They also buy from others.

**The Honourable Shri Jairamdas Doulatram:** That price I understand is Rs. 1-4-0. With regard to Madras the prices are Rs. 1-11-9 for factories which can crush over 1,200 tons and Rs. 1-11-0 for factories which have got a crushing capacity of 300 to 1,200 tons, and Rs. 1-8-8 for factories which have got less than 300 tons crushing capacity.

**Dr. P. S. Deshmukh:** Is it a fact that the Bombay rates are lower by nine annas per maund as compared with those prevailing in U.P. and Bihar?

**The Honourable Shri Jairamdas Doulatram:** I do not know whether it is nine annas, but it is certainly lower. As I said, many of the Bombay factories have got their own sugar-cane farms. But what I understand the honourable member to suggest is that sugar-cane is cheaper in Bombay than in U.P.—that certainly is so.

**Prof. N. G. Ranga:** What is the reason for fixation of three prices in Madras—the highest price for the smallest factories and the lowest price for the biggest factories?

**The Honourable Shri Jairamdas Doulatram:** No; it is just the opposite. It is Rs. 1-11-9 for the bigger factories, that is whose crushing capacity is over 1,200 tons, it is Rs. 1-11-0 for the medium size factories and Rs. 1-8-8 for small factories.

**Shri Mahavir Tyagi:** Is it a fact that owing to the high price of sugar, the Government of Pakistan has refused to purchase sugar from us this year?

**The Honourable Shri Jairamdas Doulatram:** The high price of sugar is a factor with regard to the purchase of sugar by Pakistan.

**Shri Mahavir Tyagi:** Can the Honourable Minister give an idea as to how much sugar used to go to Pakistan every year?

**The Honourable Shri Jairamdas Doulatram:** It is calculated that round about two lakhs of tons used to be consumed by the regions now constituting Pakistan.

**Shri B. P. Jhunjhunwala:** What was the object with which this levy of cess was conceived? Was it for revenue or for any other object?

**The Honourable Shri Jairamdas Doulatram:** The cess, was, I think intended for the purpose of increasing revenue resources. Because, between the price

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Not yet, but arrangements are in hand to make the country self-sufficient in two or three years' time.

(b) About one crore maunds.

(c) About sixteen lakh maunds.

(d) Yes. A Salt Experts Committee is recommending long-term measures to increase production. As a result mainly of short-term plans already implemented, production in 1948 was about twenty per cent. more than in 1947.

**Dr. Mono Mohan Das:** Is there any Government owned salt factory in West Bengal?

**The Honourable Dr. Syama Prasad Mookerjee:** No.

**Dr. Mono Mohan Das:** Is there any scheme for opening such a factory?

**The Honourable Dr. Syama Prasad Mookerjee:** I understand a scheme is under preparation which the West Bengal Government is supposed to initiate. It has not yet formally come to me.

**Dr. Mono Mohan Das:** What are the sources and the total quantity of production of rock salt in India?

**The Honourable Dr. Syama Prasad Mookerjee:** We do not produce any rock salt.

**Shri O. V. Alagesan:** Have the Government received any representation from the Gandhi Irwin Salt Manufacturers' Association, Tuticorin that small manufacturers who manufacture salt within ten acres are now asked to conform to the Factory Regulations, to take out licences and asked to pay salt duty?

**The Honourable Dr. Syama Prasad Mookerjee:** We have received some representations and the allegation referred to by the honourable member has been made. But, there have been some instances of evasion also. The matter is now under our examination.

**Shri O. V. Alagesan:** Since they have manufactured salt in terms of the communique issued by the Government last April, will the Honourable Minister see to it that no restrictions are imposed on them in order to expedite more production of salt?

**The Honourable Dr. Syama Prasad Mookerjee:** We will give all facilities to those who manufacture salt upto ten acres.

**Prof. N. G. Ranga:** What progress has been made since the Honourable Minister made the same statement that he has made in answer to part (a) during the last year, that arrangements are being made to make India self-sufficient in salt?

**The Honourable Dr. Syama Prasad Mookerjee:** Since last year, we have increased production by twenty per cent.

**Shrimati Dakshayani Velayudhan:** What is the difference in price between the salt imported into India and that exported to Pakistan?

**The Honourable Dr. Syama Prasad Mookerjee:** If it is imported salt which is exported to Pakistan, obviously there is no difference in price. I believe what the honourable member refers to is the difference in price between salt manufactured in India and salt which is imported into India.

**Mr. Speaker:** Is that what the honourable member wants? The honourable member is, I think, satisfied with the answer.

**Srijut Kuladhar Chaliha:** What is the price per maund of salt exported to Pakistan from the salt imported into India?

**The Honourable Dr. Syama Prasad Mookerjee:** The price of imported salt is about Rs. 225 per 100 maunds; cost of handling charges, bags and so on bring this up to about Rs. 300. Salt manufactured in India, should not be more than Rs. 100 to Rs. 150. The price of salt which is sent to Pakistan depends on the kind of salt which is sent.

**Srijut Kuladhar Chaliha:** What is the price charged for export to Pakistan?

**The Honourable Dr. Syama Prasad Mookerjee:** That depends on the merchants.

**Seth Govind Das:** In view of the fact that there is a large increase in production, is it due to transport difficulties that the provinces are not getting sufficient quantities?

**The Honourable Dr. Syama Prasad Mookerjee:** I have explained the position in answer to a previous question. There have been difficulties with regard to transport in some areas like Assam and Bihar where the line passes through Pakistan.

#### PLANS TO INCREASE PRODUCTION OF COCOANUTS

**\*1058. Shri V. O. Kesava Rao:** (a) Will the Honourable Minister of Agriculture be pleased to state what are the plans of the Central Indian Coconut Committee to grow more cocoanuts?

(b) What is the target figure fixed for coconut growing and when is it to be achieved?

(c) Has the proposed Regional Coconut Station in East Godavari District been opened and if not, when is it to be opened?

**The Honourable Shri Jairamdas Doulatram:** (a) A statement containing the required information is laid on the table of the House.

(b) A target of additional 1,000 million nuts to be achieved in five years but the period will actually depend on the response of a very large number of small growers.

(c) The proposed Station has not yet been opened. The scheme for starting this Regional Station in East Godavari has been approved by the Committee. A revised statement of expenditure has been called for from the Madras Government who have also been requested to acquire the site for the Regional Station. As soon as revised statements are available the necessary sanction will be obtained.

#### STATEMENT

*Plans of the Central Indian Coconut Committee to Grow More Coconuts and the target figure for coconut growing.*

The present production of coconuts in India is of the order of 3,000 million nuts, producing 1,08,000 tons of coconut oil per annum. It is estimated that in the next five years India will require an additional 1,02,000 tons of coconut oil. This will mean the production of 1,000 million nuts in addition to the present production of 3,000 million nuts.

The Committee has both short range and long range plans to achieve the above target. As the predominantly coconut growing areas are practically all fully planted up, and no new areas can be brought under coconut cultivation owing to the necessity of utilising such areas, if any, for growing food crops, the only way to increase the production under the short range plan is to give the existing trees proper care and thus increase the yield per tree. The following measures are being taken by the Committee in this connection:—

(1) Systematic propaganda through the monthly bulletin issued in English and Malayalam languages; the quarterly 'Indian Coconut Journal' in English, through demonstration plots on cultivators' lands and by personal contacts by the Officers of the nurseries with the cultivators regarding coconut culture with particular emphasis on the following:

(a) Regular Intercultivation.

(b) Manuring, particularly with green manure such as *Crotalaria Striata*, sunn-hemp, and leguminous cover crops.

(c) Adoption of prophylactic measures such as spraying with Bordeaux mixture against diseases.

(d) Adoption of measures against ravages by pests such as the Rhinoceros Beetle and rat.

(2) Schemes have been sanctioned for the multiplication and distribution among growers of seeds of *Crotalaria Striata*, a leguminous weed which has been found to be an excellent green manure for coconut gardens.

**Long range plans.**—The Committee has started coconut nurseries in collaboration with Provincial/States Governments with a view to supplying seedling of guaranteed quality to the growers. There are 15 such nurseries at present and seven more already sanctioned by the Committee will start functioning within a few months' time. There are two Central Coconut Research Stations, one at Kasaragod for undertaking fundamental research on coconut and the other at Kayamkulam to investigate the diseases of coconut. Three Regional Stations have been set up in Travancore and three more are being set up in Madras and one in Orissa to conduct experiments on the cultural and manurial aspects of coconut cultivation and to advise coconut growers on problems of local nature.

The target referred to above can be achieved in the course of five years also if all the coconut growers followed the methods of cultivation advocated by the Committee. But there are innumerable small farms who do not always follow the instructions of the Committee and so it may actually take long to achieve the target.

**Shri V. C. Kesava Rao:** May I know the total acreage under coconut cultivation?

**The Honourable Shri Jairamdas Doulatram:** About 15 lakhs of acres.

**Shri V. C. Kesava Rao:** May I know whether the introduction of prohibition has improved the production of cocoanuts?

**The Honourable Shri Jairamdas Doulatram:** I could not say.

**Shri A. Karunakara Menon:** Is the Honourable Minister aware that from this year onwards the Madras Government propose to treat cocoanut which is a food article as a commercial article and impose sales tax on the very first sale itself, by the producer, thereby retarding the cultivation of cocoanuts on the west coast?

**The Honourable Shri Jairamdas Doulatram:** The Government are aware of it.

**Shri Lakshminarayan Sahu:** Have the Government any plan for growing more cocoanuts in Bengal and Orissa?

**The Honourable Shri Jairamdas Doulatram:** I am not aware of any such plan for Orissa. But there are plans for expanding cultivation in Bengal. I find there is a proposal for having a research station for conducting experiments in coconut cultivation in Orissa.

**Shri H. V. Kamath:** In view of the large South Indian population here, do Government propose to see that cocoanuts are made available in Delhi all the year round?

#### CONTROL ON PAPER

**\*1059. Shri V. C. Kesava Rao:** Will the Honourable Minister of Industry and Supply be pleased to state whether there is any proposal to lift the control on paper?

**The Honourable Dr. Syama Prasad Mookerjee:** Yes, Sir. The question whether and to what extent the control on paper can be lifted in the present circumstances is under consideration in consultation with the Provinces and States.

**Shri Deshbandhu Gupta:** May I know whether the prices of paper are falling rapidly and that the imported paper is in some respects much better than what is produced here?

**The Honourable Dr. Syama Prasad Mookerjee:** The selling price of imported paper is Re. 0-15-6 and the price of Indian paper recently fixed is Re. 0-10-1.

**Seth Govind Das:** Is it a fact that in spite of the fixation of prices, the price of imported paper is lower than the prices of indigenous paper?

**The Honourable Dr. Syama Prasad Mookerjee:** Not in all cases. In some cases perhaps it is so.

**Shri R. K. Sidhva:** As the last stock of paper in Bombay has run out, has the Indian Merchants Chamber, Bombay made a representation to lift the ban on imports immediately?

**The Honourable Dr. Syama Prasad Mookerjee:** I do not think so. There is some representation about imported paper.

**Shri R. K. Sidhva:** What about the representation from the Bombay Merchants Chamber?

**The Honourable Dr. Syama Prasad Mookerjee:** There is no control over distribution of imported paper. It is only in regard to ceiling prices of such paper that there is control.

**Shri V. C. Kesava Rao:** May I have figures regarding the total production of paper in India?

**The Honourable Dr. Syama Prasad Mookerjee:** Total production last year was 74,912 tons. The maximum capacity of Indian production will be somewhere about 1,00,000.

**Mr. Frank Anthony:** Is it a fact that in spite of the availability of mill paper, the manufacturers in this country are not able to meet the demand on account of the complete uncertainty of rail transport?

**The Honourable Dr. Syama Prasad Mookerjee:** That is so.

**Shri V. C. Kesava Rao:** What about the production of paper in Government projects in this country?

**The Honourable Dr. Syama Prasad Mookerjee:** We have approved the establishment of a number of projects. We have approved the construction of eight more mills which will increase our production by about 70,000 tons. In the Central Provinces the mill will shortly start production.

**Seth Govind Das:** Out of the eight mills how many are for producing newsprint?

**The Honourable Dr. Syama Prasad Mookerjee:** Only one.

**Shri V. C. Kesava Rao:** May I know whether any factories have been sanctioned for Madras?

**The Honourable Dr. Syama Prasad Mookerjee:** We have sanctioned I think two for South India—one in Coorg and one in Papanasam.

**Shrimati G. Durgabai:** Will the Honourable Minister tell us what the total production of hand-made paper is and whether there are any hand-made paper manufacturing institutions under the control of Government?

**The Honourable Dr. Syama Prasad Mookerjee:** There is no control over hand-made paper.

**Seth Govind Das:** May I know how much newsprint is imported from outside and what efforts are made so as to make the country self-sufficient in this respect?

**The Honourable Dr. Syama Prasad Mookerjee:** I am prepared to give the answer. But I do not know whether it arises out of this question.

**Mr. Speaker:** If the information is readily available it may be supplied.

**The Honourable Dr. Syama Prasad Mookerjee:** So far as newsprint is concerned, the newsprint factory which is going to be established in the Central

Provinces will produce 30,000 per annum and we have allowed 88 lakhs of rupees worth of machinery to be imported for the purpose.

So far as newsprint import is concerned, we allow newsprint to be imported from non-Dollar areas freely. But we have imposed a limit with regard to Dollar-areas which are mostly confined to the use of newspapers. Here again we have a much larger supply now and we have permitted ordinary publications to be also printed on newsprint paper.

#### IMPORT AND MANUFACTURE OF BICYCLES

\*1060. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the number of bicycles imported into India during the years 1943, 1944, 1945, 1946, 1947 and 1948 each year separately and what is the total value of the same?

(b) What was the production of cycle factories in India during those years and what was the value thereof?

(c) What is the total annual requirement of this commodity in India?

(d) What is the manufacturing cost of a cycle in India and what is the selling price as compared with the prices of foreign cycles in India?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). Two statements are laid on the table of the House.

(c) About three lakhs.

(d) About Rs. 125. As regards price, I would refer the honourable member to the reply given by me to part (a) of starred question No. 644 on 23rd February, 1949.

#### STATEMENT I

*Number of cycles imported, entire or in sections*

| Financial year               | Number of cycles imported | Value in Rs. |
|------------------------------|---------------------------|--------------|
| 1943-44                      | 28,355                    | 18,82,365    |
| 1944-45                      | 37,391                    | 25,15,713    |
| 1945-46                      | 76,141                    | 54,77,298    |
| 1946-47                      | 212,654                   | 1,80,87,896  |
| 1947-48                      | 261,358                   | 2,49,59,340  |
| April 1948 to November 1948* | 96,007                    | 91,18,882    |

\*Figures for the month of December 1948 are not available at present.

Note.—Figures according to calendar year are not recorded in the Sea Borne Trade Returns.

#### STATEMENT II

*Production of bicycles in Indian factories*

| Year | Number | Value (including parts) in Rs. |
|------|--------|--------------------------------|
| 1943 | 12,000 | 15,00,000                      |
| 1944 | 15,000 | 18,15,000                      |
| 1945 | 18,500 | 21,35,000                      |
| 1946 | 30,000 | 36,00,000                      |
| 1947 | 48,827 | 48,82,682                      |
| 1948 | 64,740 | 64,73,959                      |

† Answer to this question laid on the table, the questioner having exhausted his quota.

#### THROUGH TRAINS FROM DELHI TO BOMBAY, CALCUTTA AND MADRAS.

\*1061. **Seth Govind Das:** (a) Will the Honourable Minister of Railways be pleased to state what is the number of through trains running from Delhi to Bombay, Calcutta and Madras?

(b) Have Government got any plan to increase the number of through trains to Madras?

(c) Do Government propose to consider the advisability of running sleeping cars for long journey passengers wherever there is more than one through train?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The number of through trains running from Delhi to Bombay is five, to Calcutta four, and to Madras one.

(b) This is not contemplated.

(c) In addition to Class I sleeping accommodation, Class II sleeping accommodation is available on a number of night trains and more is to be provided as circumstances permit. It is not possible at present to provide more sleeping cars owing to shortage of stock.

**Seth Govind Das:** Is it not a fact that sleeping accommodation in Class II can only be reserved from those stations from where the trains start and if so whether the Government propose to make such arrangements even on way-side stations if there is accommodation in that class?

**The Honourable Shri N. Gopalaswami Ayyangar:** It is always difficult to reserve accommodation in way-side stations. Wherever accommodation is available, passengers will be assisted to get the accommodation.

**Seth Govind Das:** Does the Honourable Minister not know that even if there is accommodation, and if a passenger wants to have reservation at way-side stations, the railway authorities do not permit it?

**Mr. Speaker:** I cannot allow that question.

**Shrimati G. Durgabai:** May I know whether there is any proposal to increase the number of through trains running from Delhi to Madras?

**The Honourable Shri N. Gopalaswami Ayyangar:** Unfortunately, from a statistical point of view, it does not seem to be justified at present.

**Shri Brajeshwar Prasad:** Is there any direct train from Delhi to Jubbulpore? If not, why not?

**The Honourable Shri N. Gopalaswami Ayyangar:** The matter is so serious that I want notice of the question.

**Dr. V. Subramaniam:** May I know how many carriages are reserved for through journey from Madras to Delhi in the G.T. Express?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I must ask for notice of that too.

#### FACILITIES FOR THIRD CLASS PASSENGERS

\*1062. **Seth Govind Das:** (a) Will the Honourable Minister of Railways be pleased to state what are the extra travel facilities given to third class passengers in the recent re-organisation of railway classes?

(b) What is the free luggage allowance given for lower and upper classes?

(c) What steps are being taken to improve third class travel?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) At important starting stations one compartment in every through train is provided for passengers travelling over 300 miles on the broad gauge and 200 miles on the metre gauge.

Provinces will produce 30,000 per annum and we have allowed 88 lakhs of rupees worth of machinery to be imported for the purpose.

So far as newsprint import is concerned, we allow newsprint to be imported from non-Dollar areas freely. But we have imposed a limit with regard to Dollar-areas which are mostly confined to the use of newspapers. Here again we have a much larger supply now and we have permitted ordinary publications to be also printed on newsprint paper.

#### IMPORT AND MANUFACTURE OF BICYCLES

\*1060. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the number of bicycles imported into India during the years 1943, 1944, 1945, 1946, 1947 and 1948 each year separately and what is the total value of the same?

(b) What was the production of cycle factories in India during those years and what was the value thereof?

(c) What is the total annual requirement of this commodity in India?

(d) What is the manufacturing cost of a cycle in India and what is the selling price as compared with the prices of foreign cycles in India?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). Two statements are laid on the table of the House.

(c) About three lakhs.

(d) About Rs. 125. As regards price, I would refer the honourable member to the reply given by me to part (a) of starred question No. 644 on 23rd February, 1949.

**The Honourable Shri N. Gopalaswami Ayyangar:** The matter is so serious that I want notice of the question.

**Dr. V. Subramaniam:** May I know how many carriages are reserved for through journey from Madras to Delhi in the G.T. Express?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I must ask for notice of that too.

#### FACILITIES FOR THIRD CLASS PASSENGERS

\*1062. **Seth Govind Das:** (a) Will the Honourable Minister of Railways be pleased to state what are the extra travel facilities given to third class passengers in the recent re-organisation of railway classes?

(b) What is the free luggage allowance given for lower and upper classes?

(c) What steps are being taken to improve third class travel?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) At important starting stations one compartment in every through train is provided for passengers travelling over 300 miles on the broad gauge and 200 miles on the metre gauge.

This is shortly to be increased to a separate bogie, and Conductor Guards will travel in these bogies to ensure that they are occupied only by those for whom they are intended. Separate booking office windows for the issue of tickets to long distance passengers, are also provided at important stations.

(b) The free luggage allowances for the new classes is as follows:

Class I—50 seers.

Class II—30 seers.

Class III—25 seers.

(c) The steps being taken to improve Class III travel include, in addition to what has been stated in reply to part (a) the reduction of overcrowding by the provision of additional rolling stock of improved design, details of which were given when the Railway budget was presented; the accelerated completion of works sanctioned under the Betterment Fund for the provision of amenities for passengers; the provision of fans in third class compartments, commencing with ladies' compartments, as materials become available; the introduction of express trains with Class III only as and when possible; and an examination of the extent to which it is possible at an early date to introduce advance booking for Class III passengers. The assistance provided by Social Guides is also mainly for the benefit of Class III passengers.

**Seth Govind Das:** With respect to part (c) of the question, may I know if any definite steps are being taken to provide greater facilities in the present coaches by having fans and improving the lavatories especially?

**The Honourable Shri N. Gopalaswami Ayyangar:** As regards the fans, I have already given the answer, that, as and when materials become available, fans will be provided in third-class compartments. Directions have been issued that these improvements should start in the ladies' compartments.

**Mr. Frank Anthony:** What is Government's estimate of the number of extra coaches that would be necessary to give third-class passengers at least seating accommodation?

**The Honourable Shri N. Gopalaswami Ayyangar:** It is difficult to give approximately an accurate estimate about it. But I think we shall have to add from 25 to 33 per cent. in the shape of coaches in order to make third-class travel comfortable in any proper sense.

**Mr. Frank Anthony:** How much of this percentage is it intended to make up in the coming year?

**The Honourable Shri N. Gopalaswami Ayyangar:** In the coming year, the number we propose to make up is 450 to 500 coaches.

**Mr. Frank Anthony:** What is the percentage?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think one-fifth of the requirements.

**Prof. N. G. Ranga:** Have the Government in the Railway Ministry been informed by the Ministry of Industry and Supply that there is much unused capacity for manufacturing these coaches in the Hindustan factory?

**The Honourable Shri N. Gopalaswami Ayyangar:** There may be capacity for manufacturing but we want raw materials as well.

**Seth Govind Das:** Is there any proposal to give sleeping accommodation to third-class passengers also for long journeys on extra payment?

**The Honourable Shri N. Gopalaswami Ayyangar:** At present there is no provision for that sort of thing but it is one of those problems which I propose to tackle as soon as conditions permit me to do so.

**Srijut Rohini Kumar Chaudhuri:** In view of the fact that a large number of third-class passengers do not get seating accommodation, is it under contemplation by Government to remove the benches altogether from the third-class compartments?

**Mr. Speaker:** Order, order.

**Shri H. V. Kamath:** Have instructions been issued to railway station authorities to stop the issue of third-class tickets when carriages are packed to capacity?

**The Honourable Shri N. Gopalaswami Ayyangar:** Station authorities are generally instructed not to issue tickets when they know that a train is coming over-crowded. But as the honourable members know, it is not always possible to enforce that very rigidly.

**Shri H. V. Kamath:** What is the difficulty in the way of its enforcement?

#### NEW WORKS ON SOUTH INDIAN RAILWAY

**\*1063. Shri O. V. Alagesan:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that provision to the extent of Rs. 23,60,000 was made for 18 new works on the South Indian Railway to be taken up in 1948-49 for which provision was also made in a previous budget?

(b) How many among the above works were actually taken up in 1948-49 and what is the amount spent on them up till now?

(c) If none, what are the reasons for not taking them up?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Provision was made in the Open Line Programme of the S.I. Railway in 1948-49 for 11 New Works costing more than Rs. 1 lakh each to the extent of Rs. 23.14 lakhs. These items had also been provided in 1947-48 Programme but the work could not be taken in hand in that year.

(b) None of these works is likely to be taken up before the end of the current financial year. Material for one work is being received and a sum of Rs. 15,000 is expected to be spent on this account before 31st March, 1949.

(c) A statement detailing the reasons is laid on the table of the House.

STATEMENT

*List of new works for which provision was made in 1948-49 budget and for which provision had also been made in a previous budget.*

| S. No. | Item No. in Pink Book for 1948-49 | Particulars of works                                                                                                                                                                                 | Anticipated cost | Outlay proposed for 1948-49 | Remarks                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| 2      | 6                                 | Improvements to watering arrangements at Dindigul Junction.                                                                                                                                          | 2,50,000         | 1,50,000                    | No reliable source of water supply satisfying the demands of yield and quality has yet been discovered. The Dindigul Municipality who have been engaged during the last several years to find out a source of water supply for their needs are making their investigations on a large scale through the Sanitary Engineer to the Government of Madras but they have not so far succeeded. Investigations are on hand by means of trial borings at suitable places to find out such a source. It is hoped that the trial borings will enable a fairly satisfactory scheme for the Railway needs to be evolved within the next six months. |
| 3      | 37                                | Remodelling Chingleput Junction                                                                                                                                                                      | 7,72,000         | 1,00,000                    | These works were programmed contingent on the proposed electrification between Tambaram and Chingleput and between Chingleput and Arkonam. A Preliminary report on the proposed electrification was received from the General Manager, S. I. Railway. The Board asked the Railway Administration to review the scheme and to submit a revised one which has just been received. As the proposed electrification will take time to materialise, these works have been deferred for the present.                                                                                                                                           |

NOTE.—Works under S. No. 1, 2 and 10 are included in the Budget for 1949-50 vide items 25, 8 and 22 respectively of the Pink Book for S. I. Railway.

**Shri O. V. Alagesan:** Why is it that these works which have been provided for in two or three consecutive budgets have not been provided for in the next year's budget?

**The Honourable Shri N. Gopalaswami Ayyangar:** So far as 1947-48 is concerned, it was due to causes over some of which we had no control. With regard to the others, the estimates were not ripe for execution. In 1948-49, also, as the honourable member will find from the statement given, there were adequate reasons as to why progress could not be made. I must point out that, towards the latter half of the year, it became necessary for us to curtail our programme of work in pursuance of the policy of fighting inflation—cutting down expenditure. As regards 1949-50, three of these works have been included in the budget for that year and every effort will be made to see that those three are carried out.

**Shri O. V. Alagesan:** In view of the great utility and small cost of these schemes, will Government see to it that they are provided for in the next year's budget and the works begun?

**The Honourable Shri N. Gopalaswami Ayyangar:** As a matter of fact, the budget for 1949-50 has already been settled. If it is possible in the course of the year to find more money for works of this sort, the honourable member's suggestion will be borne in mind.

**Prof. N. G. Ranga:** Are we to understand that although the schemes were included in the budget for 1947-48 the estimates for them were not ready even in 1948-49?

**The Honourable Shri N. Gopalaswami Ayyangar:** Some of them!

**Prof. N. G. Ranga:** How is that? What are the reasons for not providing the money?

**The Honourable Shri N. Gopalaswami Ayyangar:** I will mention one reason: for instance, the remodelling of the station yards at Chingleput and Arkonam. They were dependent on our coming to a conclusion about the electrification of the line between Madras and Chingleput and Chingleput and Arkonam. The electrification schemes themselves have not been settled. The estimates received have been sent back for revision and we will take them into consideration as soon as they are settled. We can then think of remodelling these yards.

**Prof. N. G. Ranga:** Isn't it the policy of the Government to make provision in the budget for these schemes for which estimates are ready?

**The Honourable Shri N. Gopalaswami Ayyangar:** That is I think the *Shastra* of budget-making. But as the honourable member knows, the actual making of the budget does not always conform to the precepts in the *Shastra*.

**Prof. N. G. Ranga:** That is wrong.

**Shri C. Subramaniam:** May I know whether the construction of overbridges in place of the level crossings in the Gengu Reddy Road and MacNicholl Road in the city of Madras is likely to be taken up during the course of the next year?

**The Honourable Shri N. Gopalaswami Ayyangar:** It does not seem likely in 1949-50. We will certainly consider that for 1950-51.

#### ELECTRIFICATION OF RAILWAY LINES BETWEEN TAMBARAM, CHINGLEPUT AND ARKONAM ON M. AND S. M. RAILWAY

\*1064. **Shri O. V. Alagesan:** (a) Will the Honourable Minister of Railways be pleased to state whether there is a proposal to electrify the Railway lines between Tambaram and Chingleput and Chingleput and Arkonam on the South Indian Railway and the line between Madras and Arkonam on the Madras and Southern Mahratta Railway?

(b) If so, when will the work be taken up and in what stages?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) There is a proposal to electrify the Railway lines from Tambaram to Chingleput and Chingleput to Arkonam on the S.I. Railway. There is no proposal, however, to electrify the line between Madras and Arkonam on the M. and S. M. Railway.

(b) The electrification scheme on the S.I. Railway is under investigation. A report on the electrification of Tambaram to Chingleput and Chingleput to Arkonam was received from the S.I. Railway. After scrutiny the Railway was asked to review the scheme and submit a revised report which is still awaited. It is not possible to say at present when the scheme will be taken up.

**Shri O. V. Alagesan:** Is it a fact that the South Indian Railway Administration has sent a revised estimate for 1½ crores for electrifying the railway line between Tambaram and Chingleput and if so, will Government consider taking up the work as soon as possible?

**The Honourable Shri N. Gopalaswami Ayyangar:** As a matter of fact a scheme was received from them—I forget whether it was a revised one—and we had to return it for further modification and revision and the report of the South Indian Railway after such modification and revision has so far as I know not been received here.

**Shri O. V. Alagesan:** Will the work be taken up next year or at least a start be made with it?

**The Honourable Shri N. Gopalaswami Ayyangar:** That would still depend on the same considerations as I explained in connection with the other works to which the honourable member has made reference.

**Shri V. C. Kesava Rao:** May I know whether it is a fact that the conference of the Engineers recommended the electrification of all the trains? If so, may I know what steps are being taken in this regard?

**The Honourable Shri N. Gopalaswami Ayyangar:** Not all the railway lines but certainly the particular lines referred to in this question are. I believe, included in that resolution.

**Shri R. K. Sidhya:** May I know whether this conference of engineers in Delhi recommended the electrification of the railway line from Veraval to Ahmedabad and Poona to Bhusawal? If so, what steps do Government intend to take in this connection?

**The Honourable Shri N. Gopalaswami Ayyangar:** I believe the resolution has not yet been officially received by the Railway Board. When it is, we will certainly take note of it and examine the matter as soon as we are in a position to do so.

**Prof. N. G. Ranga:** Is it not a fact that the Wedgwood Committee and also the Public Accounts Committee on several occasions had complained that Government had spent too much money on the general layout in regard to the electrification of the railways?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not quite remember: possibly they did.

**Prof. N. G. Ranga:** Are Government keeping mind this objective *viz.*, of keeping down the cost as much as possible, when they carry out this electrification even on the S.I. as well as M. and S.M. Railways?

**The Honourable Shri N. Gopalaswami Ayyangar:** Of course they will do that. As a matter of fact I can tell the honourable member that a particular railway expert from abroad who came over to see me told me that we should not go too fast in the matter of electrification.

**Dr. V. Subramaniam:** On lines where electric trains are run is there sufficient electricity available for the purpose of running them?

**The Honourable Shri N. Gopalaswami Ayyangar:** At present where there is electric traction there is enough electricity available for what we are doing. As regards extension of such electric traction we will certainly make sure that adequate electricity will be available before we sanction such works.

#### REMODELLING CHINGLEPUT AND CONJEEVARAM RAILWAY STATIONS

**\*1065. Shri O. V. Alagesan:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that provision was made in the Budget for 1948-49 for re-modelling Chingleput and Conjeevaram stations on the South Indian Railways?

(b) If so, what steps have been taken so far in the direction?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes.

(b) Remodelling of the Chingleput and Conjeevaram stations is required in connection with the proposed extension of electrification from Tambaram to Chingleput, and on to Arkonam. As the electrification schemes are still under consideration, the remodelling of these stations has been deferred.

#### WAITING ROOM FACILITIES FOR THIRD CLASS PASSENGERS.

**\*1066. Shri O. V. Alagesan:** Will the Honourable Minister of Railways be pleased to state what steps have so far been taken and what steps are proposed to be taken in the near future to provide better waiting room facilities for third class passengers?

**The Honourable Shri N. Gopalaswami Ayyangar:** Railways have been asked to increase the seating accommodation in Class III waiting halls and platforms to 40 seats per 100 passengers as against 20 seats per 100 passengers which was in vogue previously. Instructions have also been issued to provide electric fans in Class III waiting halls and covered platforms subject to the availability of electric power and equipment. The post-war programme of Railways under "amenities for Class III passengers" includes waiting rooms and halls at more stations, extension of waiting sheds, construction of pilgrim sheds, bathing facilities for the convenience of Class III passengers and the like.

**Shri C. Subramaniam:** May I know why no provision has been made for the improvement of latrines on the S.I. Railway in the next year's budget? I find that no amount has been allotted for this purpose.

**The Honourable Shri N. Gopalaswami Ayyangar:** I must refer to the pink book for that: but I can tell the honourable member that, whether such necessary works are provided for in the budget or not, I have already given instructions to General Managers to pick out all works of amenities which are required at stations and start them even without waiting for prior sanction from the Railway Board.

**Shri O. V. Alagesan:** May I know in how many stations have electric fans been provided in third class waiting rooms?

**The Honourable Shri N. Gopalaswami Ayyangar:** I must ask for notice of that question.

**Shrimati G. Durgabai:** Are Government aware that the second class waiting rooms at some stations like Bezwada on the M. and S.M. Railway are now being converted into first class waiting rooms and the second class passenger has no waiting room to stay in?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not know about the particular condition in Bezwada but I do not think what the honourable member refers to is a general phenomenon on the railways, even after the introduction of the new classification.

**Shri H. V. Kamath:** For how many years now have third class railway passengers been fed on fond hopes and encouraged to dream of better times?

**The Honourable Shri N. Gopalaswami Ayyangar:** I believe for half a century.

**Shri Raj Bahadur:** Do Government propose to provide bath rooms and lavatories in third class waiting rooms similar to those provided in upper class waiting rooms?

**The Honourable Shri N. Gopalaswami Ayyangar:** Yes, I think in the new type of waiting rooms that will be constructed bath rooms will also be provided.

**Prof. N. G. Ranga:** Is it the policy to combine the first and second class waiting rooms into one, so that passengers of both the classes can have the same amenities?

**The Honourable Shri N. Gopalaswami Ayyangar:** The distribution of the accommodation available in the old first and second class waiting rooms between the present first and second class passengers will depend upon the accommodation available at each station.

**Shri Mohan Lal Gautam:** What steps do the Government propose to take to protect the third class passengers from rain and storm in the waiting rooms?

**The Honourable Shri N. Gopalaswami Ayyangar:** We have a programme for covered platforms and the waiting rooms will also be covered ones.

**Shri Mohan Lal Gautam:** Will there be any enclosing walls in the waiting rooms or only a shed over their heads?

**The Honourable Shri N. Gopalaswami Ayyangar:** We have waiting halls: they are generally open and not provided with doors and windows unlike other waiting rooms. But we provide seating accommodation more generously than we used to do previously.

**Shrimati G. Durgabai:** Will the Government make an enquiry into this matter and also ascertain whether the same is true with regard to the refreshment rooms also?

**The Honourable Shri N. Gopalaswami Ayyangar:** Certainly I will make the enquiry.

**Seth Govind Das:** Is there any definite scheme for improving the present third class waiting rooms and fitting them with baths and better lavatories?

**The Honourable Shri N. Gopalaswami Ayyangar:** Works are undertaken by the General Managers in consultation with the Local Advisory Committees. If these two sets of people think that the present rooms should be improved in any way it will be taken up as a work and executed as if it were in the programme of amenities for passengers.

#### (b) WRITTEN ANSWERS

##### MANUFACTURE OF TEA CHESTS

**\*1067. Srijut Kuladhar Chaliha:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether Government have considered the question of opening Saw Mills for manufacturing tea-chests?

(b) What is the quantity of tea-chests required for the Tea Industry in Assam?

(c) What are the quantities of tea-chests imported from abroad and what was the amount spent on such imports in the years 1947-48 and 1948-49?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Tea-chests are not manufactured in Saw Mills but they manufacture wooden battens required for making tea-chests.

(b) 2.9 million tea-chests approximately.

(c) 2.1 million tea-chests valued at Rs. 10,878,000 and 2.9 million tea-chests valued at Rs. 14,834,000 were imported in 1947-48 and from April to December, 1948 respectively.

#### CATTLE SHOWS

**\*1068. Shri Moturi Satyanarayana:** (a) Will the Honourable Minister of Agriculture be pleased to state:

(a) the criteria for fixing up venues for cattle shows;

(b) the part played by the Cattle Show Committee in the organization of these shows;

(c) the results achieved by holding these cattle shows; and

(d) particularly the benefits derived by the farmers from these shows?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b) (i). Venues of the cattle shows which are held in the various Provinces and States are fixed by the local authorities concerned according to local convenience. All-India Cattle Show Committee offers prize money and technical assistance.

(ii) The Western Regional Cattle Show and the Southern Regional Cattle Show are held in that Province or State which is considered suitable in its respective region and which offers to meet a substantial share towards the expenses of the Show and agrees to provide other facilities by way of staff and accommodation.

These shows are organised by the All-India Cattle Show Committee which also meets, a part of the expenditure involved.

(iii) The venue for the All-India Cattle Show has so far been Delhi as it was considered a central place.

The All-India Cattle Show Committee which organises this Show and entirely finances it too, has however now decided that the All-India Show will henceforth be held in different Provinces and States by rotation.

(c) These shows have aroused a keen sense of healthy competition and have helped in developing the breeds of the country. They also offer excellent opportunities for Provinces and States which have no established breeds of their own to examine the various well known breeds with a view to introducing them in their own Provinces and States.

(d) Cattle Shows provide stimulus and encouragement to the farmers to attend the welfare of their cattle and are also of educative value. In addition, they provide an opportunity to farmers to exchange ideas regarding breeding and care of cattle.

#### PRODUCTION OF VANASPATI AND ITS EFFECT ON HEALTH

**\*1069. Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

(a) the total amount of vanaspati ghee manufactured during the year 1948-49;

(b) the total quantity of Indian oil diverted for manufacturing Vanaspati; (c) the total quantity of oil imported, if any, for being used in this industry;

(d) the total amount of vegetable oil, margarin or other fats imported into India for our consumption;

(e) the expert medical opinion that Government have gathered on the use of vanaspati ghee; and

(f) the steps Government propose to take for preventing the use of vegetable ghee in the country?

**The Honourable Shri Jairamdas Doulatram:** (a) The total quantity of Vanaspati manufactured during the year 1948 is 1,29,691 tons.

(b) The total quantity of oil consumed in 1948 for manufacture of Vanaspati is nearly 1,40,000 tons.

(c) Nil.

(d) A statement of various fats imported during the period April to October, 1948 is attached.

(e) Expert scientific opinion so far available is not conclusive. Further investigations are in progress.

(f) The present policy of Government is not to encourage the expansion of the Vanaspati Industry beyond what Government were already committed to. Government have reserved their final decision about the future of the Vanaspati Oil Industry till they are in possession of conclusive evidence about its effect on the human health or other drawbacks of Vanaspati which are under investigation by a committee of Scientists. As regards the proposal to stop hydrogenation, the question will be considered from all points of view.

#### STATEMENT

*Various fats imported into India during the period April to October, 1948*

| Commodity                        | Quantity       | Value          |
|----------------------------------|----------------|----------------|
|                                  |                | Rs.            |
| (1) Margarine                    | Not available. | Not available. |
| (2) Butter                       | 102 cwts.      | 24,279         |
| (3) Ghee                         | Not available. | 104            |
| (4) Fish oil                     | 129 cwts.      | 5,050          |
| (5) Other animal oils            | 46016 gallons  | 2,29,639       |
| (6) Vegetable Non-essential Oils | 78,589 cwts.   | 49,18,798      |
| (7) Tallow                       | 38,692 cwts.   | 36,51,131      |
| (8) Stearin                      | 339 cwts.      | 40,134         |
| (9) Other animal fats            | 268 cwts.      | 18,498         |

#### IMPORT OF PURE GHEE AND BUTTER

**\*1070. Shri Moturi Satyanarayana:** Will the Honourable Minister of Food be pleased to state:

(a) whether any offers have been received by Government from any country for the supply of pure ghee and butter to India;

(b) if so, what was the quantity offered and the price quoted;

(c) if not, whether Government have explored the possibilities of importing pure ghee and butter into this country;

(d) whether Government have included pure ghee or butter in their food imports into India and if so, in what quantities; and

(e) what is the total quantity of ghee or butter available in the country and whether any steps are being taken by Government for increasing the production and reducing the cost of pure ghee and butter in India?

**The Honourable Shri Jairamdas Doulatram:** (a) No.

(b) Does not arise.

(c) Yes for butter only.

(d) No.

(e) The total quantity of ghee available in the country is estimated at 11.4 million maunds and of butter 2.8 million maunds. Two schemes are in hand in different parts of the country to increase the production of butter and ghee. They are (i) Cooperative Ghee Union in Jhallar forest area in the C.P. for ghee production, and (ii) Cooperative Creamery Society, Karnguzli, Madras for production of butter. In addition the Government of India have in hand a comprehensive five-year plan which envisages additional ghee production to the extent of 2.694 lakh maunds. Increase in the output of butter and ghee through development of dairy industry on a planned basis can help to bring down the prices of butter and ghee.

#### DEVELOPMENT OF CEMENT INDUSTRY

**\*1071. Shri S. Nagappa:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether Government have surveyed the possibility of developing Cement Industry in the country?

(b) What parts of the country have been selected for locating new factories?

(c) What action have Government taken to increase the Cement production?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) to (c). Yes, Sir; with the partition of the country in 1947, nineteen cement factories with a total capacity of 2.245 million tons per annum fell in the Indian Union. The Government of undivided India had sanctioned new schemes out of which 29 with a total capacity of 2.82 million tons were to be located in the Indian Union. Since then the position was reviewed and five of the old schemes were cancelled whilst seven new ones were sanctioned. The present rated annual capacity of the existing works stands at 2.4 million tons and an additional capacity of 1.7 million tons is expected to come into production by 1952. A statement showing the location and capacity of all these factories is laid on the table of the House.

Government is giving all possible assistance to the cement industry to implement its expansion schemes by releasing building materials. High priority is accorded to the transport of the raw materials and finished products.

#### STATEMENT

| Cement Works    | State or Province | Present Rated Capacity Tons | New Capacity Tons/Year | Completion |
|-----------------|-------------------|-----------------------------|------------------------|------------|
| <i>A. C. C.</i> |                   |                             |                        |            |
| Banmor          | Gwalior           | 60,000                      | ..                     | ..         |
| Bhupendra.      | Patiala           | 200,000                     | ..                     | ..         |
| Coinbatore      | Madras Pr.        | 180,000                     | 100,000                | 1949       |

## SHORTAGE OF RAILWAY WAGONS

**\*1072. Shri S. Nagappa:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the country is facing shortage in wagons?

(b) If so, what steps are being taken to build the required number of wagons?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) and (b). There is no shortage in the number of wagons in general on Indian Government Railways; but on account of arrears of maintenance and intensive use during the war, a larger number of wagons than normal are still out of service. All endeavours are being made to reduce the number of wagons out of service.

## SURVEY AND SETTLEMENT OPERATIONS IN ISTIMRARDARI AREA OF AJMER MERWARA

**\*1073. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Agriculture be pleased to state whether the Government of India have received any proposals from the Chief Commissioner, Ajmer-Merwara, seeking their sanction for starting survey and settlement operations in the Istimrardari area of Ajmer-Merwara in anticipation of the Ajmer-Merwara Tenancy Bill being enacted into law?

(b) If so, when were these proposals received and what action has so far been taken thereon?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes.

(b) The proposals were received on the 28th July, 1948, and a copy of the resolution of the Advisory Council of the Chief Commissioner approving the scheme was received on 31st December, 1948. As the estimated expenditure involved over a period of three years was about Rs. 7 lakhs and no provision existed in budget estimates for 1948-49, the approval of the Standing Finance Committee was necessary before the scheme could be sanctioned. It was placed before the meeting of Standing Advisory Committee due on 19th February, 1949 but the meeting had to be postponed. It will now be placed before the next meeting of the Standing Advisory Committee. A provision of Rs. 1,63,000 has been made in the budget estimates of Ajmer-Merwara for settlement and record operations in Istimrari area during the year 1949-50. Instructions will be issued to the Chief Commissioner, Ajmer-Merwara, to commence operations on receipt of the approval of the Standing Finance Committee.

## ALLOTMENT OF IRON AND STEEL TO PROVINCES

**\*1074. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the basis on which the quota of iron and steel is allotted to the different Provinces in India?

(b) What is the quota allotted to the Province of Ajmer-Merwara from the time the control commenced? Was any portion of such quota earmarked for distribution amongst the agriculturists and in the rural area of the Province and if so, since when?

(c) Is it a fact that the entire work of internal distribution of the quota of imported steel and iron in the Province of Ajmer-Merwara is left in the hands of the Agricultural Officer?

(d) On what principle is the internal distribution being made by the distributing Agency in the Province of Ajmer-Merwara and is any definite proportion of the quota allotted separately to urban and rural areas?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The Provincial Quota of steel is distributed in proportion to the population of the Provinces, a weightage equal to three times the population being given for cities having 100,000 or more inhabitants.

(b) The existing scheme of distribution was introduced from January, 1947. During the year 1947, Ajmer-Merwara was allotted 93½ tons of steel per quarter. From January 1948, a quota of 65 tons per quarter is being allotted, and from the same date, 50 per cent. of the quota is being earmarked for agricultural purposes.

(c) Yes, Sir.

(d) The Provincial quota is distributed to the general public and small scale manufacturers of consumer goods, essential requirements being met first. The quota is not sub-divided according to the requirements of urban and rural areas but according to the requirements for agricultural and non-agricultural purposes, 50 per cent. of the quota being allotted for each of the purposes.

## IRON AND STEEL ALLOTTED TO IRON AND STEEL MERCHANTS ASSOCIATION IN AJMER-MERWARA.

**\*1075. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether there is any Iron and Steel Merchants Association in Ajmer and other towns of Ajmer-Merwara?

(b) If so, where and has any quota of iron and steel been allotted to these Associations and if so, in what proportion and from which year and if not, why not?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). There is an Association known as the Ajmer Iron and Steel Stockholders Association at Ajmer. There is no such Association in any other town of Ajmer-Merwara.

No quota of steel is being allotted to this Association as it is not registered as a stockholder.

## DISTRIBUTION OF IRON AND STEEL IN AJMER-MERWARA

**\*1076. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether any portion of the quota of iron and steel allotted to Ajmer-Merwara is reserved for the requirement of public bodies like Municipalities, District Boards, Educational and Charitable Institutions, etc., of the Province and if not, why not?

(b) Is any preference given to the requirements of public institutions like Municipalities and if not, why not?

(c) Were any applications received by the distributing Authority from the Municipalities of Ajmer-Beawar and other similar bodies and Institutions in the Province of Ajmer-Merwara for iron pipes, corrugated iron sheets for pales and drums, iron angles, etc., and if so, to what extent were permits issued?

(d) What was the total quantity of iron pipes, corrugated iron sheets and iron angles received in the Province and what proportion of this was supplied to individuals and what proportion to public institutions, and what quantity was supplied in the rural and urban areas?

(e) Do Government propose to consider the advisability of laying down some broad principles upon which distribution to individuals and institutions standing in need of these essential articles will be based?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). Preference is given to the requirements of public bodies in making allotments of steel from

1476 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [11TH MARCH 1949]

the Provincial Quota. Their requirements are met as far as possible as and when they arise and therefore it is not necessary to reserve any quantity of steel for them.

(c) Yes, Sir. Permits were issued in favour of public bodies and institutions in Ajmer-Merwara to the extent of about thirty per cent. of the Provincial Quota.

(d) A statement giving the required information is placed on the table of the House.

(e) Distribution of Provincial Quota is entirely in the discretion of Provincial Governments and this is therefore a matter for them to consider.

#### STATEMENT

*Quantity of Pipes, G. C. sheets and iron angles received and distributed in Ajmer-Merwara against Allotment for 1947*

| Material    | Quantity received | Quantity allotted |              |             |              |
|-------------|-------------------|-------------------|--------------|-------------|--------------|
|             |                   | Urban area        |              | Rural area  |              |
|             |                   | Individuals       | Institutions | Individuals | Institutions |
| Iron pipes  | 7,738 feet        | 3,167 ft.         | 2,855 ft.    | 215 ft.     | 1,001 ft.    |
| G. C. Sheet | 70 tons           | 26 tons           | 8 tons       | 35 tons     | 1 ton.       |
| Iron Angles | 13 tons           | 6 tons            | 4 tons       | 1.25 tons   | 0.25 tons.   |

*Note.*—1. The figures for iron pipes include quantities received and distributed against the allotment made to Ajmer for 1948 also.

2. No steel has been received in Ajmer-Merwara against quotas allotted in 1948 due to difficulties of transport.

#### SINKING TUBE WELLS IN DELHI AND AJMER-MERWARA

\*1077. Pandit Mukut Bihari Lal Bhargava: (a) Will the Honourable Minister of Agriculture be pleased to state whether Government have considered the question of sinking tube wells in the Centrally Administered areas of Delhi and Ajmer-Merwara and if not, why not?

(b) Do Government propose to explore the possibilities of constructing tube wells in the Province of Ajmer-Merwara?

The Honourable Shri Jairamdas Doulatram: (a) and (b). Several trial borings have been made in the Delhi area but good water bearing strata which could yield sufficient water for irrigation purposes has not been discovered. It is intended to make further trials near the bank of the river. There is still less likelihood of meeting subsoil water in Ajmer-Merwara, but Government will reconsider the question of exploratory borings in Ajmer-Merwara.

#### REWARDS TO EMPLOYEES FOR SUGGESTIONS FOR ECONOMY OR IMPROVEMENT IN POSTS AND TELEGRAPHS DEPARTMENT

\*1078. Pandit Mukut Bihari Lal Bhargava: (a) Will the Honourable Minister of Communications be pleased to state whether it is a fact that the Director General, Posts and Telegraphs, in March, 1947, circularised that monetary

awards would be granted to Post and Telegraph employees for accepted suggestions to effect economy or to improve the work and efficiency of the Department?

(b) If so, has there been any response?

(c) What is the number of suggestions received and from what classes of employees have they been received?

(d) What is the action taken on them?

The Honourable Mr. Rafi Ahmad Kidwai: (a) Yes.

(b) Yes.

(c) (i). Seventeen.

(ii) Six from Post Office clerks.

One from a Sub Record clerk of R.M.S.

One from a Telegraph Office clerk.

One from a Telegraphist.

Two from Telegraph Masters.

One from an Assistant of the Directorate.

One from a Head Clerk of the Superintendent of Post Offices.

Two from an Assistant Superintendent of Post Offices.

Two from a retired official.

(d) Three senders of the suggestions have been rewarded; suggestions received from two are under consideration and those received from the remaining twelve have been filed because they were either impracticable or not deserving of reward.

#### TUBE WELLS SUNK UNDER 'GROW MORE FOOD' CAMPAIGN

\*1079. Shri B. P. Jhunjhunwala: (a) Will the Honourable Minister of Agriculture be pleased to state the number of tube-wells actually sunk under the Government of India 'Grow More Food' campaign scheme till 31st December, 1948 throughout India, the area of land irrigated with these tube-wells and the increase in yield of crop out of such irrigated areas?

(b) Have Government made enquiries into the after-effect of the sinking and use of the tube-wells on the fertility of the upper surface of the soil as promised in answer to a supplementary raised on starred question No. 81, asked on 11th August, 1948?

(c) If so, what is the result of such enquiry?

The Honourable Shri Jairamdas Doulatram: (a) A statement is laid on the table.

(b) and (c). Enquiries were made from the Governments of U.P. and Bihar. The Bihar Government have reported that, so far, there have been no adverse effects on the subsoil water conditions by the sinking of tubewells and that the fertility of the surface soil has improved. The U.P. Government have reported that the effects of sinking tubewells have been favourable. The land on which tube-wells were constructed have in course of time become compacted and have begun to retain humus. Consequently there is an improvement in Soil texture.

## STATEMENT

Number of tubewells sunk under Grow More Food Campaign till the 31st December, 1948, the area of land irrigated with these tubewells and the increase in yield of crop out of such irrigated area.

| Province         | Total number of tubewells sunk till 31-12-1948 | Increase in irrigated area of land in acres. | Increase in yield.        | Remarks.                                                                                                                                                                                                                                                                                                                   |
|------------------|------------------------------------------------|----------------------------------------------|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| United Provinces | 506                                            | 1,56,100                                     | 36,700 tons.              |                                                                                                                                                                                                                                                                                                                            |
| Bihar            | 137                                            | 38,500                                       | Figures not available     | 114 wells are working. Rest have not been energised.                                                                                                                                                                                                                                                                       |
| Madras           | 1834                                           | 7,250                                        | 1810 tons of food-grains. | Out of the 1834 tubewells sunk in Madras 1529 proved successful. It may however be mentioned that the tubewells in Madras are not the type of tube-wells constructed in Bihar and U. P. What has been done is to introduce tubes into the percolation wells and install pumping sets in order to improve the water supply. |

[NOTE:—About 500 tube-wells were sunk in Punjab before partition but all of them have gone to Pakistan.]

## DEVELOPMENT AND RATIONALISATION OF SUGAR INDUSTRY

\*1080. **Shri B. P. Jhunjhunwala:** (a) Will the Honourable Minister of Agriculture be pleased to refer to the answer to starred question No. 872 asked on 4th September, 1948 regarding rationalisation of sugar industry and state what is the basis and criterion on which Government have planned and are planning to rationalise this industry on an All-India basis and under what conditions its development will be allowed in Provinces and States also?

(b) What is the present estimated quantity of production from the existing Sugar Mills and the present estimated consumption of sugar as against the estimated production?

(c) Do the existing Mills produce more than the requirement for consumption of sugar in India?

**The Honourable Shri Jairamdas Doulatram:** (a) The basis and criterion on which the Government of India are planning the development of sugar industry is:

(i) that further sugar factories should be located mainly in areas where production of cane is economical from the yield per acre and sugar content point of view.

(ii) that consistently with the above principle further expansion of industry should be evenly distributed in all Provinces and States.

(b) The optimum production capacity of the Indian factories is 13.5 lakh tons annually, but the actual production is about 10 lakh tons. The estimated consumption at the present high level of prices of sugar is not more than about 10 lakh tons per year. The consumption would probably increase if the price was materially lower.

(c) No. The present apparent surplus with the factories in U. P. and Bihar is the result of absence of sales areas which now fall in Pakistan and reduction in the internal consumption, both these being due to high prices of sugar and the policy of sales followed by the sugar syndicate also leads to less consumption.

## SCRIPT USED ON RAILWAY STATION NAME BOARDS.

\*1081. **Shri Basanta Kumar Das:** Will the Honourable Minister of Railways be pleased to state:

(a) how many languages are being used for indicating the names of stations on platforms;

(b) the considerations for using a particular language or languages for the sign-board of a particular station; and

(c) whether the languages of any sign-boards have been changed of late and, if so, in what stations and to what extent?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Generally three.

(b) The considerations taken into account are: for local people the language or languages to which those in the area are accustomed, and for others the common knowledge of the English and Dev-Nagri languages. Local Advisory Committees are consulted.

(c) Languages on the name boards of stations are being changed to give prominence to Hindi in Dev Nagri. Complete details of progress made are not yet available.

## STOPPING OF SUPPLY OF COFFEE SEEDS TO CO-OPERATIVE SOCIETIES

\*1082. **Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that the Coffee Board is proposing to stop direct supplies of coffee seeds to co-operative stores and sell the entire stock in auction in pools?

(b) If so, what is the reason for the same?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir.

(b) The major portion of the coffee from the pool is being sold in 'major auctions' in which only approved wholesale dealers are allowed to take part. The direct supply of coffee to co-operative societies was adopted during 1947 and 1948 by the Indian Coffee Board in view of the short crops of these years. The Indian Coffee Board now expect a normal crop and propose to resort to auctions open to all bona-fide dealers in coffee, including co-operative societies.

## CAPITAL OUTLAY, PRODUCTION AND PROFIT OF GOVERNMENT COLLIERIES

\*1083. **Shri B. J. Malviya:** Will the Honourable Minister of Industry and Supply be pleased to state:

- (a) the capital outlay on each of the collieries owned by the State;
- (b) the output of coal from each of the collieries during the years 1945-46, 1946-47 and 1947-48;
- (c) the cost of production of coal per ton in each of the collieries;
- (d) the price of coal per ton raised from private-owned collieries in the areas in which Government collieries are situate;
- (e) the price of coal per ton at which it is sold to the public or is adjusted with the Railways;
- (f) total profit derived by each of the Government collieries annually during the years 1945-46, 1946-47 and 1947-48;
- (g) the profit per ton allowed to the private-owned collieries of Bengal, Bihar, Talcher, Central Provinces and Korea State (Central Provinces); and
- (h) the profit per ton of coal raised from each of the State-owned collieries?
- The Honourable Dr. Syama Prasad Mookerjee:** (a) to (c). Three statements (Nos. I to III) furnishing the information required are laid on the table of the House.
- (d) and (e). The statutory prices of coals are the same both for the state-owned and private collieries. These prices are:
- Bengal/Bihar—Rs. 12/13/- to 16/13/- per ton.
- Korea—Rs. 13/4/- to 15/3/- per ton.
- Talcher—Rs. 14/6/- to 15/6/- per ton.
- (f) A statement (No. IV) is laid on the table of the House.
- (g) The existing statutory prices in these coalfields are designed to return an average profit of Rs. 1/8 per ton.
- (h) A statement (No. V) is laid on the table of the House.

## STATEMENT I

Capital outlay on each of the collieries owned by the State.

## PURCHASE PRICES OF COMMODITIES FOR GOVERNMENT COLLIERY GRAIN SHOPS.

\*1084. **Shri R. L. Malviya:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether Government are aware that foodgrains and other commodities supplied to the staff and labourers by the State Colliery grain shops are purchased by Government at a higher price than the prices at which they are purchased by the private-owned collieries?

(b) If the answer to para. (a) above be in the affirmative, what steps have Government taken in the matter?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Government are not aware of this and in view of the procedure adopted for purchase, the allegation does not seem probable. We are however making enquiries. The result of the enquiry will be communicated to the honourable member.

(b) Does not arise.

## EXPENDITURE FOR PROVIDING FOOD GRAINS AT CHEAP RATES TO COLLIERY LABOUR

\*1085. **Shri R. L. Malviya:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) the amount spent towards providing food grains at cheap rates to colliery labour in each of the collieries owned by the State, during the years 1945-46, 1946-47 and 1947-48; and

(b) the strength of labour in each of the collieries and the expenditure per capita towards the cheap grain facility?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). The total expenditure incurred on the provision of food grains at concessionary rates to staff and labour employed in collieries owned or controlled by the State during 1946-47 and 1947-48 was Rs. 49,24,643 and Rs. 79,30,238 respectively. The figure for 1945-46 and the figures of breakdown by colliery as also the strength of labour at each of the State owned collieries are not readily available. These are being collected and will be communicated later to the honourable member.

The expenditure per capita towards the cheap grain facility is about rupees five per week.

## OVERCROWDING IN THIRD CLASS AND ADDITIONAL INCOME TO RAILWAYS

\*1086. **Shri B. P. Jhunjhunwala:** Will the Honourable Minister of Railways be pleased to state:

(a) the average number of passengers travelling in third class per mile, in excess of the allotted accommodation for these compartments in one year; and

(b) the additional income that accrued to the Railway because of this overcrowding during the past year.

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) and (b). A statement giving the information required is laid on the table of the House.

## STATEMENT.

(a) The average number of passengers travelling in third class per mile, in excess of the allotted accommodation for these compartments in the last completed year (1947-48) can be expressed by a comparison of passenger miles with the seat miles and not a mere comparison of the total number of seats available with the total number of passengers carried, as the latter comparison does not allow for the element of distance. The figures are shown below by gauges, and the excesses are with reference to an occupation ratio (i.e. percentage of passenger miles to seat miles) of 60 per cent, which is regarded as the reasonable ratio for purposes of an immediate target.

1947-48 class I Indian Railways (excluding EP and Assam Railways for which reliable figure for 1947-48 are not available).

|       | Total seat miles (in thousands). | Total passenger miles (in thousands). | Actual occupation ratio (per cent). | 60% of the seat miles (in thousands) |
|-------|----------------------------------|---------------------------------------|-------------------------------------|--------------------------------------|
|       | 2                                | 3                                     | 4                                   | 5                                    |
| B. G. | 25,413,436                       | 18,847,162                            | 74.16%                              | 15,248,062                           |
| M. G. | 10,490,409                       | 9,403,386                             | 89.63%                              | 6,294,245                            |
| N. G. | 479,566                          | 357,582                               | 74.57%                              | 287,704                              |

Column 5 shows what should have been the passenger miles in relation to the occupation ratio of 60 per cent (regarded as being reasonable), against which the actual passenger miles are those shown in column 3.

(b) The estimated additional earnings derived from third class passengers who travelled in excess of an occupation ratio of 60 per cent, during 1947-48 on Indian Government Railways is Rs. 12.42 crores computed pro rata on the basis of percentages given in (a) above.

## COMPENSATION BY RAILWAYS FOR CLAIMS DURING 1948

\*1087. **Shri B. P. Jhunjhunwala:** Will the Honourable Minister of Railways be pleased to state the amounts of compensation paid on account of claims during the year from 1st January, 1948 ending December, 1948?

**The Honourable Shri N. Gopalaswami Ayyangar:** During the period 1st January, 1948 to 31st December, 1948 a sum of approximately Rs. 1,80,60,000 was paid by the Indian Government Railways on account of claims compensation.

## COTTAGE OR SMALL SCALE INDUSTRIES FOR MANUFACTURING CYCLE PARTS

\*1088. **Shri Arun Chandra Guha:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) whether there are any cottage or small scale industries for producing cycle parts;

(b) if so, what has been the approximate value of their products and the nature of the parts produced;

(c) whether the present policy of importing cycles has in any way affected these industries; and

(d) whether the products of these industries can compete in price with the imported articles and if not, whether Government propose to give any protection to these industries?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir.

(b) Mudguard, Chainguard, Handle Bar, Chain stretching screw, Cap, Carrier, Bell, etc., worth about Rs. 1,50,000 annually.

(c) Not to my knowledge.

(d) Yes, Sir. The price of the indigenous product is lower than that of the imported one, but it is not quite popular because of its inferior quality. The indigenous industry is now improving the quality of its products and in order to help the development of the industry protective duties are levied on foreign cycles imported into the country. A statement giving details of the duties levied is laid on the table of the House. The question whether the protection now given needs any modification is under examination.

## STATEMENT

*Details of Protection afforded to the bicycle industry*

| Item Number of the Indian Customs Tariff under which duty is assessable. |                                                                  |            |            |             |

## PURCHASE OF INSECTICIDES FOR PROTECTING GRAIN

\*1089. **Ch. Ranbir Singh:** (a) Will the Honourable Minister of Food be pleased to state what quantities of insecticides were purchased during each of the last four years?

(b) How were these insecticides utilised during each year?

(c) Is there any stock now in the possession of the Ministry of Food and if so, how much?

(d) What were the rates, per ton, at which these insecticides were purchased?

**The Honourable Shri Jairamdas Doulatram:** (a) and (d). A statement is laid on the table of the House.

(b) The insecticides were utilised for disinfection of grain and grain godowns to prevent deterioration.

(c) Stocks now in possession of the Food Ministry are:

Gammexane—3 tons.

E.D.C.T. Mixture—2 tons.

Zinc phosphide—2.9 tons.

## STATEMENT

*Insecticides and fumigants purchased during 1945-48.*

| Year | Insecticide or fumigant                          | Quantity Purchased | Rate per ton |
|------|--------------------------------------------------|--------------------|--------------|
|      |                                                  | T. Cwt.            | Rs.          |
| 1945 | Ethylene dichloride Carbon tetrachloride mixture | 48—10              | 1,103        |
|      | Zinc phosphide                                   | 5—0                | 5,152        |
| 1946 | E. D. C. T. mixture                              | 13—7               | 1,103        |

## STOCKS IN BIJOY COTTON MILLS AT BIJAINAGAR

\*1090. **Shri Balwant Sinha Mehta:** Will the Honourable Minister of Industry and Supply be pleased to state whether the stocks lying in Bijoy Cotton Mills at Bijainagar in Ajmer-Merwara have been checked and found to be in accordance with the schedule of prices as determined by the Mills in consultation with the Textile Department?

**The Honourable Dr. Syama Prasad Mookerjee:** Ex-mill prices are stamped by the mills in accordance with the directions issued by the Textile Commissioner, Bombay. No complaint has so far been received in regard to prices stamped by Bijoy Cotton Mills. Government will shortly appoint a Production Officer at Indore and mills will be inspected by him and a check made of production quality and pricing.

## UNSTARRED QUESTIONS AND ANSWERS

## NUMBER OF GOVERNMENT OWNED BUSES PLYING IN DELHI

88. **Shri V. C. Kesava Rao:** Will the Honourable Minister of Transport be pleased to state the total number of Government-owned buses plying in Delhi?

**The Honourable Shri K. Santhanam:** The total number of Government-owned buses plying in Delhi now is 225.

## CLASS I OFFICERS IN RAILWAY BOARD.

89. **Sardar Hukam Singh:** Will the Honourable Minister of Railways be pleased to state the total number of class I officers, giving separately the number of officers in the grades of Deputy Secretary and above, working in the Railway Board as on 1st February, 1947, 1st February, 1948 and 1st February, 1949?

**The Honourable Shri N. Gopalaswami Ayyangar:** The information is given below:

| Date        | Total number of Class I Officers. | Number of officers of the rank of Dupty Sec-rary (to Government of India) and above. |
|-------------|-----------------------------------|--------------------------------------------------------------------------------------|
| On 1-2-1947 | 49                                | 16                                                                                   |
| On 1-2-1948 | 39                                | 14                                                                                   |
| On 1-2-1949 | 47                                | 15                                                                                   |

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

## (PART I—QUESTIONS AND ANSWERS)

Wednesday, 16th March 1949

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

## STARRED QUESTIONS AND ANSWERS

## ORAL ANSWERS

## CEYLON CITIZENSHIP ACT

\*1091. **Shri R. K. Sidhva:** (a) Will the Honourable the Prime Minister be pleased to state whether the Ceylon Government have passed the Ceylon Citizenship Act in its original form despite the Government of India's suggestion for certain modifications therein?

(b) Do Government propose to continue to press the view-point of Indians before the Ceylon Government?

(c) Have passport regulations been introduced by both the Governments?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) The Indian and Pakistani Residents (Citizenship) Bill as passed by the Ceylon Parliament is slightly different from the original Bill; but the amended Bill does not on the whole embody any of the Government of India's important suggestions and does not thus meet their objections against the measure.

(b) The attention of the honourable member is drawn to the reply given by me on the 9th March 1949 to Question No. 1000 of Pandit Mukut Behari Lal Bhargava. I have nothing to add to that reply at present.

(c) Under the existing law, no passport or visa is required by Indians and Ceylonese for travel between India and Ceylon. Entry into Ceylon must, however, be through one of the authorised ports which have been notified by the Government of Ceylon. That Government have recently passed a new Act called the Immigrants and Emigrants Act, 1948. When this Act comes into force, all persons intending to proceed to Ceylon will be required to be in possession of valid passports. A similar requirement will also be insisted on by the Government of India in respect of the entry of Ceylonese into India.

**Shri R. K. Sidhva:** May I know whether the Government of Ceylon's attention was drawn while this Bill was being discussed that the Indians were originally sent to Ceylon at the instance of the Ceylon Government for the development of the resources there; if so what was the reply to that representation if made by the Government of India?

**Dr. B. V. Keskar:** All these and many other matters were brought not only once but many times to the notice of the Ceylonese Government and if my honourable friend would take the trouble of looking into the correspondence that has passed between the Government of India and the Government of Ceylon and that has been published and distributed to honourable members he will see that we have insisted not once but many times on this and other matters, but unfortunately our insistence has not had much effect.

**Shri R. K. Sidhva:** Arising out of part (c) of the question to which the Deputy Minister gave a reply that when the Act comes into force about the passports, both the Government will have to issue the passports, may I know whether the Government will be prepared to consider that those residents who want to proceed to Ceylon frequently for business purposes may be given permanent passports?

**Dr. B. V. Keskar:** I think all passports are permanent in the sense that till the expiry of the passport it can be used. But there is no such thing as a permanent passport anywhere. You can say permit, but I have never heard of a permanent permit: it can be automatically renewed for a person who comes and goes between the two places.

**Shri R. K. Sidhva:** Is there not something like a periodical passport between India and Pakistan given to those who have business in both Dominions?

**Dr. B. V. Keskar:** They are permits, not passports. A passport is given for five years and it is renewable upto ten years. I do not think the question arises.

**Shri O. V. Alagesan:** Have any instructions been sent to our High Commissioner in Ceylon to watch the working of the new Citizenship Act and report the hardships that may be experienced by Indians in registering themselves as citizens?

**Mr. Speaker:** Order, order. It is a suggestion for action.

#### BAN ON EXPORT OF JUTE TO SOUTH AFRICA

**\*1092. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state whether it is a fact that the Government of India prohibited the export of jute to South Africa?

(b) Are Government aware that despite the ban, jute is exported to South Africa and if so, what was the quantity so exported during the years 1946, 1947 and 1948?

(c) From what ports were the consignments booked?

(d) Have Government taken steps to see that their order is carried out in letter and spirit?

**The Honourable Shri K. C. Neogy:** (a) Yes.

(b) Government have received no reports suggesting that Jute as such has been exported to South Africa after the imposition of the ban. If, however the honourable member is referring to goods made out of jute, I would invite his attention to my reply to Starred Question No. 306 asked by Pandit Mukut Behari Lal Bhargava on the 11th February 1949.

(c) The only port in India from which any shipments of jute or jute goods take place is Calcutta.

(d) Yes.

**Shri R. K. Sidhva:** May I know whether the Honourable Minister wants to emphasize in stating that no shipments were sent from India through Singapore and Hongkong to South Africa?

**The Honourable Shri K. C. Neogy:** No, Sir.

**Shri R. K. Sidhva:** May I know whether Government have recently issued a regulation to the effect that in the event of any shipments being made to any port a certificate will have to be taken and also a security from the shippers; if that is so what is the reason for issuing that regulation?

**The Honourable Shri K. C. Neogy:** As a matter of fact this is one of the many precautions that Government have taken to prevent the smuggling of jute goods to South Africa.

**Shri R. K. Sidhva:** When the Honourable Minister stated that no jute went to South Africa.....

**The Honourable Shri K. C. Neogy:** They were not consigned to South Africa from India; they were consigned from other ports.

**Shri R. K. Sidhva:** Via Singapore and Hongkong?

**The Honourable Shri K. C. Neogy:** That is what we are trying to find out. There have been allegations to this effect. I receive one or two anonymous communications to this effect almost every week and we make enquiries to the best of our ability.

**Shri R. K. Sidhva:** During the enquiries was the Honourable Minister satisfied that the shipments did not go *via* Singapore and Hongkong?

**The Honourable Shri K. C. Neogy:** It is not a question of its going *via* a particular place. Shipments go to a particular place and then they are perhaps re-shipped from that particular place. It is not a question of the shipments going *via* some place or directly from India.

**Seth Govind Das:** Could Government find out who were the traders on account of whom these shipments of jute goods have been smuggled to South Africa?

**The Honourable Shri K. C. Neogy:** That is exactly what we are trying to find out. Our instructions have been issued to the various trade agents to enquire and let us know. The shippers from India say they have no knowledge as to the ultimate destination. They at least try to make out that in so far as they are concerned these represent *bona-fide* transactions under which jute goods are shipped to certain ports which are approved by us on certain conditions. Then what happens to these goods after they are landed in those ports or what happens to them if, for instance, the ship itself is diverted from the way is a matter in regard to which they say they have no responsibility.

**Shri R. K. Sidhva:** Has our Agent been enquired into from South Africa whether any jute arrived there from India and if so what was the quantity and what efforts were made to stop it?

**The Honourable Shri K. C. Neogy:** Having regard to our relations with South Africa, I am afraid the kind of enquiry which my honourable friend has in mind cannot be made.

**Shri R. K. Sidhva:** Was there any trade agent or anybody on behalf of India there?

**The Honourable Shri K. C. Neogy:** There is the Secretary to High Commissioner's organisation.

**Shri B. Das:** May I enquire if there are larger applications from new foreign ports for export of jute and whether in such cases Government exercises a check that their requirement is normal and not intended for export to South Africa?

**The Honourable Shri K. C. Neogy:** As a matter of fact we have gone, in my opinion, to the farthest limit in regard to these precautions; and I am afraid that our legitimate trade in jute is suffering on this account. All that my honourable friend has suggested is being done, but we have not succeeded in stopping this smuggling.

**Shri R. L. Malviya:** In view of the fact that there is a shortage of jute in India may I know whether any attempt is being made to retain the jute in India and allow export only after meeting the internal requirements?

**The Honourable Shri K. C. Neogy:** I am afraid my honourable friend's suggestion that jute is in short supply in India is not correct.

**Seth Govind Das:** Have Government received any information with respect to the smuggling of jute from the South African Indian Congress?

**The Honourable Shri K. C. Neogy:** I do not remember to have received any communication from the Congress itself, but I have received reports from prominent Indians in South Africa including Mr. Manilal Gandhi when he was here on the last occasion.

**Pandit Hirday Nath Kunzru:** Have Government received any official or reliable information that more jute is reaching South Africa than was being shipped to that place before the ban on the export of jute from India to South Africa was imposed?

**The Honourable Shri K. C. Neogy:** No such information has reached Government.

**Shri R. K. Sidhva:** May I ask whether the Secretary of the High Commissioner's organisation was enquired into by the Government in this matter; if so will the Honourable Minister be able to place the correspondence or the information which the Secretary gave, before the House?

**The Honourable Shri K. C. Neogy:** I will look into the papers. But as far as I recollect no formal correspondence has taken place on this particular subject.

**Shri R. K. Sidhva:** May I know—Sir, this is an important question.....

**Mr. Speaker:** Next question.

#### DAMAGE TO GOVERNMENT OF INDIA'S PROPERTIES IN BOMBAY CYCLONE

**\*1093. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state to what extent damage and loss has been caused to the properties of the Government of India in the recent cyclone in Bombay?

(b) Has any barge, launch, boat or ship belonging to Government or the Port Trust, been lost or damaged and if so, how many?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) The Government of India suffered damage and loss to the extent of about Rs. 50 lakhs. Besides, 2,073 bags of food grains were damaged, out of which 1,782 bags were salvaged, 272 bags were treated as sweepings and 19 bags were completely lost.

(b) (i) Two Bangor class mine sweepers suffered major damage and a number of other ships sustained minor damages.

(ii) Two motor launches were sunk.

(iii) A schooner, *Lot's Wife*, costing Rs. 30,000 was sunk.

The Bombay Port Trust was affected as under:

(i) *S.P.V. Lady Wilson* was stranded on Butcher Island.

(ii) *S.T. Rose*—The Port Anchor and 15 fathoms of cable were lost. The Port Trust Life-boat was damaged and gear was lost overboard. The bridge and superstructure suffered superficial damage.

(iii) Barge No. 139 foundered and sank near the Bombay Steam Navigation Company's slipway.

#### STARRED QUESTIONS AND ANSWERS

1491

**Shri R. K. Sidhva:** May I know, Sir, when notice about the cyclone was given to the public by the Meteorological Department?

**The Honourable Shri Satyanarayan Sinha:** I have no information on the subject just now—I would like to have notice.

**Shri H. V. Kamath:** Was there no timely meteorological warning to Government of the impending storm so as to enable Government to whether it successfully?

**The Honourable Shri Satyanarayan Sinha:** I would like to have notice of that, too.

#### LOSS TO REFUGEES IN BOMBAY CYCLONE

**\*1094. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether there has been any loss of life or property amongst the refugees in Bombay in the recent Cyclone?

(b) If so have Government compensated the refugees for the loss thus sustained?

**The Honourable Shri Mohan Lal Saksena:** (a) and (b). Yes.

**Shri R. K. Sidhva:** But may I know what was the loss sustained and may I know if the refugees have been compensated?

**The Honourable Shri Mohan Lal Saksena:** Yes.

**Shri R. K. Sidhva:** If so, what is the amount of compensation?

**The Honourable Shri Mohan Lal Saksena:** The total expenditure incurred by the Government in this connection is Rs. 11,300.

**Shri R. K. Sidhva:** May I know refugees in which camps were affected mostly?

**The Honourable Shri Mohan Lal Saksena:** I shall require notice of that question. But I have got information regarding the loss of lives. Thirteen lives were lost in all the camps.

**Shri R. K. Sidhva:** May I know how many died in the Kalyan Camp?

**The Honourable Shri Mohan Lal Saksena:** I could not give the exact information, Sir.

**Shri R. K. Sidhva:** Was there any loss in Deolali Camp?

**The Honourable Shri Mohan Lal Saksena:** I have not got detailed information, but the total loss in all these camps was thirteen casualties.

**Shri R. L. Malviya:** What was the total loss of property?

**The Honourable Shri Mohan Lal Saksena:** So far as the loss of property is concerned, the belongings of these persons were lost and for that we have given compensation.

**Lala Achint Ram:** Sir, we have not followed what the Honourable Minister has stated.

**The Honourable Shri Mohan Lal Saksena:** The refugees were staying in camps and there was no question of loss to their property. Some of them lost their personal belongings for which they have been compensated.

**Shri R. K. Sidhva:** How was the compensation assessed?

**The Honourable Shri Mohan Lal Saksena:** They were given Rs. 100 for male members lost and Rs. 50 for female members or children lost.

**Shri R. K. Sidhva:** Irrespective of whatever property they lost?

**The Honourable Shri Mohan Lal Saksena:** This is in regard to the loss of lives and not with regard to property.

**Shri R. K. Sidhva:** Then what became of the loss of moveable property?

**The Honourable Shri Mohan Lal Saksena:** I have already informed the honourable member that they were compensated for that and that the total came to Rs. 11,300.

**Shrimati G. Durgabai:** May I know, Sir, why the compensation given for loss of female members was less than the amount given for loss of male members?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact, this was left to the discretion of the Bombay Government. Of course, they must take into consideration the earning capacity of the male and female members.

#### IMPORT OF AUTOMOBILES IN 1948

\*1095. **Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Commerce be pleased to state how many automobiles of foreign make have been imported into this country during the year 1948?

(b) What is their total cost?

(c) How many of them have been taken by the Government of India for their use?

**The Honourable Shri K. C. Neogy:** (a) to (c). I lay on the table of the House a statement containing the required information.

#### STATEMENT

##### (i) Import of Automobiles into India

|                                                | January to December 1948 |                      |
|------------------------------------------------|--------------------------|----------------------|
|                                                | Quantity Number          | Value (Rs. in lakhs) |
| Motor Cars (including taxi cars)               | 19,966                   | 881.2                |
| Motor Cycles (including scooters)              | 4,186                    | 43.2                 |
| Motor omnibuses, Motor Vans and Motor Lorries— |                          |                      |
| (i) Imported with bodies                       | 710                      | 35.2                 |
| (ii) Chassis                                   | 18,944                   | 802.3                |

##### (ii) Number of Automobiles taken by Government

|                                                     | Number | Value (Rupees in lakhs) |
|-----------------------------------------------------|--------|-------------------------|
| Purchases made from private dealers and importers:— |        |                         |
| British make                                        | 2,033  | 157.1                   |
| American make                                       | 3,234  | 161.6                   |
| Imports on Government Account during 1948—Nil       |        |                         |

**Dr. Mono Mohan Das:** What is the total amount of revenue derived from the import of these automobiles?

**The Honourable Shri K. C. Neogy:** I am afraid I have not got the figure before me just now.

**Shri H. V. Kamath:** Has the Honourable Minister made any attempt to enquire whether automobiles of Russian make are cheaper for import purposes than those of American or Canadian make?

**Mr. Speaker:** It does not arise.

**Shri H. V. Kamath:** They are also automobiles of foreign make?

**Mr. Speaker:** May be, but the figures asked for are about imports.

**Shri H. V. Kamath:** I am talking of imports and my question was whether automobiles of Russian make are cheaper.

**Mr. Speaker:** He can ask the question, if he likes, as to the number of Russian made automobiles imported.

**Shri H. V. Kamath:** All right, Sir. Among the imports referred to in this Question, may I know how many automobiles of Russian make have been imported into this country?

**The Honourable Shri K. C. Neogy:** As far as I know, none.

**Shri H. V. Kamath:** Then my question follows.....

**Mr. Speaker:** It is out of the scope of the Question.

**Shri H. V. Kamath:** What is the reason for not importing?

#### DIRECT SHIPPING FACILITIES BETWEEN INDIA AND WEST INDIES

\*1096. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Commerce be pleased to state what shipping facilities are available for passengers going to the West Indies?

(b) Are any efforts being made to implement the recommendations of the Commonwealth Shipping Committee to have a direct link between India and the West Indies?

**The Honourable Shri K. C. Neogy:** (a) The Nourse Line operate a fleet of seven cargo steamers regularly in the India/West Indies trade to meet the requirements of that trade. The only facilities now available for passengers from India to West Indies are by these steamers each of which has a limited amount of passenger accommodation.

(b) The Commonwealth Shipping Committee made its report to the U.K. Government and it is understood that they are giving serious consideration to the recommendations made in that Report relating to the provision of direct shipping facilities between India and the West Indies.

#### INDIAN STUDENTS IN CHINESE UNIVERSITIES UNDER COMMUNIST CONTROL

\*1097. **Shri V. C. Kesava Rao:** (a) Will the Honourable the Prime Minister be pleased to state whether there are any Indian students in the Universities in China under the control of the Communists?

(b) What arrangements have been made to send remittances to them?

(c) Have any reports been recently received about their general welfare?

**Dr. B. V. Keskar (Deputy Minister of External Affairs):** (a) There are six Government of India scholars at the National Peking University.

(b) The Indian Embassy has deposited a certain amount of United States dollars to cover their expenses and to meet any emergency arising out of dislocation of communications.

(c) Yes; they are reported to be safe and well.

#### NON-COMPLIANCE WITH PROVISIONS OF FACTORIES ACT, 1948

\*1098. **Shri V. C. Kesava Rao:** Will the Honourable Minister of Labour be pleased to state whether any complaints have been received by Government about the non-compliance by industries of the provisions of the Factories

Act, 1948 regarding (i) Canteens and (ii) Leave with pay and if so, what action Government have taken in the matter?

**The Honourable Shri Jagjivan Ram:** No. I may add that the Factories Act, 1948, will come into force only from the 1st April, 1949.

**Shri Harihar Nath Shastri:** Are the Government aware that the ten days leave, as provided for in the Factories Act, has not been granted in certain establishments ever since a provision to that effect was made?

**The Honourable Shri Jagjivan Ram:** As my honourable friend is aware, the administration of the Factories Act is entirely in the hands of the Provincial Governments and we have not received any complaint to the effect the honourable member has been suggesting.

**Shri B. Das:** May I know if the giving effect to of the Factories Act by Provincial Governments and also by factory owners will cause a large amount of expenditure and that that is the reason why the Factories Act has not been given effect to in the Provinces?

**The Honourable Shri Jagjivan Ram:** That is not a fact. At every stage we consult the employers wherever we effect any amendment to the existing Acts, and the employers and industrialists were parties in the tripartite labour conference when amendments to the Factories Act were considered.

**Shri R. L. Malviya:** May I know how many cases were referred under the Factories Act to the industrial disputes tribunal?

**The Honourable Shri Jagjivan Ram:** As I explained, the administration of the Factories Act is entirely in the hands of the Provincial Governments and this detailed information can be had from them.

#### MIGRATION FROM WEST BENGAL TO EAST BENGAL

**\*1099. Shri K. Hanumanthaiya:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state the number of people who have gone to East Bengal from West Bengal as refugees?

**The Honourable Shri Mohan Lal Saksena:** No figures are available but it is known that there has been no appreciable movement of population from West Bengal to East Bengal.

**Sardar Bhopinder Singh Man:** Has the property of those refugees who have left from West Bengal to East Bengal been declared as evacuee property?

**The Honourable Shri Mohan Lal Saksena:** No.

**Sardar Bhopinder Singh Man:** Why not, Sir?

**The Honourable Shri Mohan Lal Saksena:** Perhaps the honourable member is not aware that so far as East Bengal and West Bengal are concerned, there is no question of applying the provisions of the Evacuees Property Act.

**Shri K. Hanumanthaiya:** Are refugees still coming into the Indian Union from Pakistan?

**The Honourable Shri Mohan Lal Saksena:** The latest information is that there is no exodus at present.

**Shri K. Hanumanthaiya:** When did it stop?

**The Honourable Shri Mohan Lal Saksena:** I think it is difficult to give the exact date; but the reports since January have been that it is reduced, and it has now practically stopped.

**Shri R. L. Malviya:** How many refugees have been rehabilitated by Government from West Bengal?

**The Honourable Shri Mohan Lal Saksena:** May I know whether this arises from the question?

**Mr. Speaker:** If the honourable member has the information he may give it.

**The Honourable Shri Mohan Lal Saksena:** I have not got the information.

**Shri Mahavir Tyagi:** Are some of the refugees who had come from East Bengal to West Bengal now returning to their own homes? I mean, the refugees who had come from the Eastern Pakistan side, are some of them returning home now?

**The Honourable Shri Mohan Lal Saksena:** Yes.

**Shri Deshbandhu Gupta:** Are Government satisfied that the property left behind by refugees in East Bengal is treated in the same manner as the property left behind by refugees in West Bengal?

**The Honourable Shri Mohan Lal Saksena:** The honourable member, I think, must be aware that as a result of the settlement arrived at in January at the Karachi Conference, Joint Minority Property Boards have been set up both in West Bengal and in East Bengal.

**Shri Mahavir Tyagi:** May I know whether there was some exodus of Muslim residents in West Bengal towards East Bengal?

**The Honourable Shri Mohan Lal Saksena:** I have no information on the subject. There may have been cases where some Muslims might have gone.

**Shri Jaspat Roy Kapoor:** May I know the total number of refugees who have come from East Bengal to West Bengal?

**The Honourable Shri Mohan Lal Saksena:** I think, in answer to a previous question the other day, I had given the total number as about twenty lakhs.

**Pandit Hirday Nath Kunzru:** The Honourable Minister has stated that there is no appreciable movement of refugees from West Bengal back towards East Bengal; and also that refugees from East Bengal who are in West Bengal are beginning to go to East Bengal. May I know which of these two statements is true?

**The Honourable Shri Mohan Lal Saksena:** Both of them are correct. If out of 20 lakhs, five or ten thousands have gone, I do not consider it to be an appreciable number.

**Shri K. Hanumanthaiya:** Is Government intending to take steps to persuade Pakistan Government to take back any portion of the refugees?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact, efforts have been made by East Bengal Government to create conditions so as to make it possible for the non-Muslims to stay there; and as a result of the legislation setting up Minority Boards and Joint Managing Boards for Minority properties, I think conditions have improved.

**Shri R. L. Malviya:** Is the Government satisfied with these conditions and the progress made so far?

**Mr. Speaker:** That would be a matter of opinion.

**Shri R. L. Malviya:** May I know if Government has the intention of resettling these refugees in the Andaman Islands?

**The Honourable Shri Mohan Lal Saksena:** Some of the refugees have already gone to the Andaman Islands. But it is only 123 families that have gone, and only a small number can be settled in these islands. The rest will be settled in West Bengal and the neighbouring provinces.

## EXPORT OF MONKEYS TO U.K.

\*1100. **Shri H. V. Kamath:** Will the Honourable Minister of Commerce be pleased to state:

(a) whether it is a fact that 250 monkeys were recently exported from Calcutta to the United Kingdom; and

(b) if so, on what terms, and for what purpose?

**The Honourable Shri K. C. Neogy:** The question should have been addressed to the Honourable Minister of Finance. It has accordingly been transferred to the list of questions for 24th March 1949 when the Honourable Minister of Finance will answer it.

## RESTORATION OF ABDUCTED WOMEN TO PAKISTAN

\*1101. **Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) how many abducted women have been recovered from India and restored to Pakistan up to date;

(b) whether the work is still in progress; and

(c) if so, the machinery and the *modus operandi* employed in connection with the work?

**The Honourable Shri N. Gopalaswami Ayyangar:** (Minister of Railways and Transport): (a) Up to 31st January 1949, 9,978 women and children were recovered from India and restored to their relatives in Pakistan.

(b) Yes.

(c) According to the latest agreement with Pakistan, the recovery of abducted persons, is the responsibility of the Dominion where such persons are found to be residing. The actual recovery is done by the police of the Dominion concerned with the assistance of the social workers. About eight transit camps, in charge of social workers, are functioning in East Punjab, where the work is heaviest. Persons are sent to the nearest transit camp after recovery and from there they are brought to a base camp in Jullunder, which is under the control of Pakistan social workers. A similar camp, under the control of Indian social workers, is maintained in Lahore in the other Dominion for the same purpose. At these base camps, cases are further carefully investigated and the person concerned is ultimately restored to the original family wherever the family is traced. The assistance of a Search Service Bureau is available in tracing the families of abducted persons. If a dispute arises, the case is investigated by a tribunal consisting of two Superintendents of Police, one of each Dominion. The joint decisions of these officers, are duly implemented and the persons restored to the families concerned.

**Shri H. V. Kamath:** By some error, and I do not know how it crept in, the question here asks for only one way figure. My original question was for both figures, i.e. how many were recovered by India and how many by Pakistan. Perhaps the figures are not ready.

**The Honourable Shri N. Gopalaswami Ayyangar:** As a matter of fact, according to the original version of the honourable member's question, I had the answer ready giving him the information he wanted. But the final form of the question had been changed, and therefore I had to change the answer as well. If the honourable member wishes to have the number of abducted women and children recovered from Pakistan, the figure is 5,671, up to 31st January, 1949.

**Dr. Bakhshi Tek Chand:** May I know whether it is a fact that according to Government report, the number of women abducted from India, in Pakistan is about 33,000?

## STARRED QUESTIONS AND ANSWERS

**The Honourable Shri N. Gopalaswami Ayyangar:** That was a figure which was given to us some months ago, and later verifications have brought that figure down. It is difficult to say where we can place it at the present moment. It certainly is very much higher than 5,671 who have been recovered.

**Shri H. V. Kamath:** Does the latter figure include children?

**The Honourable Shri N. Gopalaswami Ayyangar:** Yes.

**Shrimati G. Durgabai:** May I know from the Honourable Minister, of these women who have been restored to India by Pakistan, how many have been sent back to their own homes and how many are in refugee camps?

**The Honourable Shri N. Gopalaswami Ayyangar:** 5,671 have been restored to their relations in India.

**Shri Raj Bahadur:** Is it a fact that most of the women returned by Pakistan to India are women of old or advanced age and not young women?

**The Honourable Shri N. Gopalaswami Ayyangar:** Certainly a very substantial number of them are old women.

**Shri Raj Bahadur:** May I know the proportion, Sir, approximately?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid, I shall require notice.

**Shri Deshbandhu Gupta:** How many of these 5,671 were children and how many were women and whether there were any children in 9,978 restored to Pakistan?

**The Honourable Shri N. Gopalaswami Ayyangar:** As to that also I would not commit myself and I would like to have notice.

**Shri Deshbandhu Gupta:** Some rough idea?

**The Honourable Shri N. Gopalaswami Ayyangar:** I want notice.

## MAJOR IRRIGATION PROJECTS UNDER CONSTRUCTION

\*1102. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) what major irrigation projects are now under construction and development under the Control and management of the Central Government; and

(b) the total acreage likely to be irrigated by each project and the year in which each project will be completed?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) There are two such major projects under construction viz., (i) the Hirakud Dam Project and (ii) the Damodar Valley Project. The former is in charge of Central Water-power, Irrigation and Navigation Commission on behalf of the Government of Orissa and the latter in charge of the Damodar Valley Corporation. In addition, there are a number of other projects which are still in different stages of investigation.

(b) A statement showing the approximate readily available information is placed on the Table.

1498 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [16TH MARCH 1949]  
STATEMENT

| Name of project                 | Area likely to be irrigated (in acres) | Approximate time required for completion from the commencement of construction                                                                                                                               |
|---------------------------------|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hirakud Dam Project             | 1,094,953                              | The dam and irrigation systems are programmed to be completed in 7 years and power installations in 15 years. It will, however, be possible to start giving both flow and list irrigation in the fifth year. |
| Damodar Valley Project          | 9,00,000                               | 5 years.                                                                                                                                                                                                     |
| Kosi Project                    | 18,00,000                              | 11 years.                                                                                                                                                                                                    |
| Narbada Project                 | 22,20,000                              | 11 years                                                                                                                                                                                                     |
| Tapti Project                   | 4,80,000                               | (First stage in 3 years)<br>8 years                                                                                                                                                                          |
| C. P. and Baster State Projects | 8,10,000                               | (First stage in 3 years)<br>10 years                                                                                                                                                                         |
| Sabarmati Project               | 60,000                                 | 4 years                                                                                                                                                                                                      |
| Coorg Project                   | 6,000                                  | 3 years                                                                                                                                                                                                      |

**Shri Brajeshwar Prasad:** May I know what are those projects which are still under consideration?

**The Honourable Shri Satyanarayan Sinha:** Apart from the Hirakud Dam and Damodar Valley Projects, the projects under consideration are the Kosi Project, Narbada Project, Tapti Project, C.P. and Baster State Projects, Sabarmati Project and Coorg Projects.

**Seth Govind Das:** May I ask whether any of them are going to be taken in hand and has any plan been made?

**The Honourable Shri Satyanarayan Sinha:** This does not arise.

**Shri Mahavir Tyagi:** Is it a fact that the headquarters of the Damodar Valley Corporation is at Calcutta and not on the scene of the valley?

**The Honourable Shri Satyanarayan Sinha:** Temporarily, Sir, it is in Calcutta.

**Shri Mahavir Tyagi:** How far is it from the Damodar Valley, Sir?

**Mr. Speaker:** Order, order. Next question.

#### STRIKES IN COAL MINES

†\*1103. **Shri S. Nagappa:** (a) Will the Honourable Minister of Labour be pleased to state the total number of strikes in the Coal Mines of the country during the last financial year?

(b) What were the demands of the strikers?

(c) What is the quantity of coal production that was lost due to these strikes?

**The Honourable Shri Jagjivan Ram:** (a) 137.

(b) The demands of the workers mainly related to (i) Implementation of the recommendations of the Conciliation Board, (ii) Increase in wages, (iii) Recognition of Unions, (iv) Re-instatement of discharged persons, (v) Payment of wages for the strike period, (vi) Payment of bonus, (vii) Abolition of the contract system, and (viii) Supply of food-grains.

† Answer to this question laid on the table, the questioner being absent.

(c) No precise data in regard to the loss of production on account of strikes are available. It is, however, estimated that the loss in production was roughly 2½ lakhs tons.

#### KEROSENE OIL QUOTAS FOR PROVINCES

\*1104. **Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Works, Mines and Power, be pleased to state how the kerosene oil quotas for different Provinces are fixed?

(b) Is it done on the basis of population?

(c) Is there any all India standard for the distribution of kerosene oil per head in rural areas?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) Quotas are based on the 1941 offtake and allotted as between the respective areas fed from each main port and from Digboi. Thus for example the total availability for the first quarter of 1949 being 109 per cent. of 1941 consumption, each main port area and Assam will receive 109 per cent. of its offtake in 1941.

(b) No.

(c) No.

**Dr. Mono Mohan Das:** May I know what are the causes of the present scarcity of kerosene oil in India, especially in the rural areas?

**The Honourable Shri Satyanarayan Sinha:** The causes are (1) transport facilities and (ii) the shortage of tin plate in which kerosene is generally packed.

**Dr. Mono Mohan Das:** May I know what quantity was supplied in the pre-war days and what is supplied in the present times?

**The Honourable Shri Satyanarayan Sinha:** In 1941 it was 6,80,490 tons and the half-yearly figure for 1949 is 7,44,000 tons. The supply has improved at least this year by say 10 or 15 per cent.

**Dr. Mono Mohan Das:** What percentage of our present need in kerosene oil is met by local produce?

**The Honourable Shri Satyanarayan Sinha:** I would like to have notice.

**Seth Govind Das:** As this quota has been fixed according to the consumption of 1941 and as conditions have changed since then, is there any proposal to revise this quota?

**The Honourable Shri Satyanarayan Sinha:** There is no such proposal before the Government, but if the honourable member is very keen, Government might consider it.

**Shri Deshbandhu Gupta:** Is it a fact that during the month of February no kerosene oil was issued to Delhi and all the quotas were suspended?

**The Honourable Shri Satyanarayan Sinha:** Might be, Sir.

**Shri Raj Bahadur:** Does the provincial quota include supply to railway stations also?

**The Honourable Shri Satyanarayan Sinha:** No, Sir.

**Shri R. K. Sidhva:** What is the present position of the stock of kerosene oil in the various ports in India?

**The Honourable Shri Satyanarayan Sinha:** I would like to have notice.

**Shri R. K. Sidhva:** I want to know whether there is any shortage about bulk supply?

**Mr. Speaker:** The Honourable Minister has no idea, he wants to have notice

**Shri Raj Bahadur:** What is the quantity of oil supplied to the railways?

**The Honourable Shri Satyanarayan Sinha:** I want notice, Sir.

#### NATIONALISATION OF BURMA OIL COMPANY IN INDIA

**\*1105. Srijut Kuladhar Chaliha:** Will the Honourable Minister of Works, Mines and Power, be pleased to state whether Government are going to nationalise the Burma Oil Company of India and if so, what will be the sum involved in buying up the petroleum wells at Digboi and other places in Assam?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** The answer is in the negative.

#### BAN ON IMPORT OF RAW SILK

**\*1106. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state whether it is a fact that the import of raw silk into India from foreign countries is banned and if so, since when and why?

(b) Is it a fact that despite this ban, a large quantity of raw silk is imported at Calcutta port and if so, what is the quantity so imported and what are the reasons for allowing such import?

(c) What are the prices of indigenous raw silk and imported raw silk?

(d) What is the annual consumption of raw silk in India?

(e) Was any import of raw silk made at the port of Okha?

(f) If so, what was the quantity and were complaints lodged that it was an illegal import?

(g) Is there any ban on import of silk piece-goods from foreign countries?

(h) If not, what are the reasons for continuing the ban on import of raw silk?

**The Honourable Shri K. C. Neogy:** (a) Yes. Imports of raw silk from countries other than U.K. British Colonies and Dominions were stopped from the 22nd January and from all other sources from the 1st July 1948, for the following reasons:

(i) the indigenous production of raw silk was more than 50 per cent. of the total demand;

(ii) Licences already issued during the preceding period were quite large; and

(iii) Government had arranged to purchase 4 lakhs lbs. of raw silk from Japan.

(b) Information so far available shows that some imports were made during 1948, but they were against (i) licences issued up to 21st January 1948 from Non-Empire countries and (ii) those issued up to 30th June 1948 for imports from Empire countries.

(c) The prices of indigenous and imported raw silk are as follows:

Indigenous—About Rs. 32 per lb.

Imported (c.i.f. values, i.e. excluding customs duty and surcharges)—

Italy About Rs. 11 per lb.

Hongkong About Rs. 15 per lb.

Japan About Rs. 15 per lb.

(d) Four million pounds.

(e) and (f). Yes. 73,896 lbs. valued at Rs. 9,82,845/-. The Government received an anonymous complaint in respect of these imports, but investigation in the matter revealed that these were made against a licence duly granted by the Import Trade Controller, Okha.

(g) and (h). No. Imports of silk piecegoods from soft currency countries are covered by Open General Licence while imports from Japan are subject to monetary ceiling. Imports from dollar and hard currency countries are prohibited. Government are considering the policy in regard to imports of raw silk and the Tariff Board Report on the claim of the Sericulture Industry for protection is under consideration.

**Shri R. K. Sidhva:** The Honourable Minister stated that the import of raw silk was banned but because licenses were issued, therefore they were allowed to be imported into the Calcutta Port. May I know when the ban was imposed any provision was made that for the purpose of import licences which have been granted, imports under the said licenses would be allowed?

**The Honourable Shri K. C. Neogy:** As a matter of fact, the import was made on the strength of a licence that had been issued before the ban was imposed and the import from that point of view could not be called illegitimate.

**Shri R. K. Sidhva:** In what months these imports were allowed?

**The Honourable Shri K. C. Neogy:** I have not got the months here.

**Shri R. K. Sidhva:** May I know, Sir, whether the Calcutta Customs held over these goods which arrived there and did not allow to pass unless penalty was paid subsequently they released shipment?

**The Honourable Shri K. C. Neogy:** My honourable friend has raised an issue on which I should like to make a somewhat detailed statement. There have been protests against certain shipments of raw silk that arrived at the Calcutta Port. The licences which were issued in this regard permitted the import of raw silk produced in Hongkong only. Now it was represented to us that the raw silk imported against these licences was not of Hongkong origin but was of either Japanese or Chinese origin. The point is now being enquired into as to whether the raw silk was of Hongkong origin or otherwise. It appears that Hongkong produces very little raw silk, but the silk that has been imported has been processed there, i.e., given some chemical treatment. All this is being investigated locally by our representative in the Far East. Meanwhile clearance of the goods has been allowed on the importers executing a bond that if the silk is found to be not of Hongkong origin, a penalty equal to 100 per cent. of the value of the goods would be collected from them.

**Shri R. K. Sidhva:** May I know what is the production of raw silk in Hongkong? May I also know when the Honourable Minister stated that it was processed, does it not mean that it is to be treated as yarn and why was it allowed to be imported?

**The Honourable Shri K. C. Neogy:** The indication given on the packages was that all these were of Hongkong origin.

**Shri R. K. Sidhva:** May I know what profit did the importer make by this smuggling of yarn?

**The Honourable Shri K. C. Neogy:** I am not in a position to say that, but they will have to pay hundred per cent. of the value by way of penalty if it is proved that the yarn was not actually of Hongkong origin.

**Shri R. K. Sidhva:** Is it not a fact that the importer concerned made a profit of Rs. 40 lakhs.....

**Mr. Speaker:** Order, order. That is not a permissible question.

**Shri R. K. Sidhva:** May I know how many bales were imported to Okha?

**The Honourable Shri K. C. Neogy:** I have already given my honourable friend the quantity, viz., 73,896 lbs.

**Shri R. K. Sidhva:** Was any penalty imposed there?

**The Honourable Shri K. C. Neogy:** Well, Okha is an Indian State. Our control over the transactions there is not so complete as over the transactions in Indian ports.

**Shri R. K. Sidhva:** But were not the Customs people aware of this and did they not hold this up for sometime and subsequently released it?

**The Honourable Shri K. C. Neogy:** I do not know that.

**Shri R. K. Sidhva:** Was not the attention of the Government drawn to this by a firm in Bombay, Tribhawandas & Co. stating that this smuggling was going on on a large scale and must be stopped?

**The Honourable Shri K. C. Neogy:** I have already stated that it was on receipt of anonymous complaint that an enquiry was made.

**Shri R. K. Sidhva:** I am giving the names of the people who made such a representation. Was such a representation received?

**Mr. Speaker:** Order, order. The Honourable Minister said that an anonymous representation was received.

**Shri R. K. Sidhva:** I am giving the name of the person who made the representation?

**The Honourable Shri K. C. Neogy:** I shall look into it. But then the first complaint was an anonymous complaint.

#### AUCTION OF TREES IN M.C.A. QUARTERS

**\*1107. Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) the number of trees that were cut and auctioned in 1948 from the premises of the M. C. A. Quarters by the Central Public Works Department.

(b) to whom they were auctioned; and

(c) the amount realised from the same?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) Twelve.

(b) Private individuals.

(c) Rs. 580.

#### CLOSING OF BIJAI COTTON MILLS AT BIJAINAGAR IN AJMER-MERWARA

**\*1108. Shri Balwant Sinha Mehta:** (a) Will the Honourable Minister of Labour be pleased to state whether it is a fact that the Proprietors of Bijai Cotton Mills at Bijainagar in Ajmer-Merwara closed their mills for about a month when certain demands were made by the labourers?

(b) Are Government making any enquiry into the matter?

(c) Is the scale of wages for labourers in Ajmer-Merwara the same as in Delhi and Coorg?

(d) If not, what is the difference and what is the reason for the existence of such a difference?

**The Honourable Shri Jagjivan Ram:** (a) No. The Mills closed down on the 31st January, 1949 on account of accumulation of stocks on hand and difficulty in securing the supply of cotton. A tussle was however going on between the management and workers on the question of increase in wages and dearness allowance.

(b) Enquiries have been made and Government are informed that the dispute with the labour leaders has been amicably settled.

(c) and (d). I think comparison is sought in regard to textile workers. There are no textile mills in Coorg. As regards Delhi, the scales of wages are somewhat higher than those prevailing in Ajmer-Merwara. This probably reflects the difference in the cost of living between the two areas.

#### TREATY OF FRIENDSHIP AND COMMERCE WITH U.S.S.R.

**\*1109. Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) whether the Union of the Socialist Soviet Russia has approached India for a treaty of friendship and commerce;

(b) if so, what stage has the matter reached; and

(c) if not, whether such a treaty of friendship with the Union of the Socialist Soviet Russia is under Government's active consideration?

**Dr. B. V. Keskar (Deputy Minister of External Affairs):** (a) to (c). No formal approach has been made for a Treaty of Friendship and Commerce between India and the U.S.S.R. The possibility of closer commercial relations with the U.S.S.R. has, however, been under consideration. From time to time specific agreements with regard to the exchange of commodities have been made. Negotiations are expected to start shortly for a more comprehensive trade agreement between India and the U.S.S.R.

**Shri H. V. Kamath:** In view of the swift moving world events, does India seek a treaty of friendship or pact of non-aggression with the U.S.S.R.?

**Dr. B. V. Keskar:** A proposal for having a treaty of friendship not only with the U.S.S.R. but with other countries also has always been under the consideration of Government.

**Shri H. V. Kamath:** Has Marshal Stalin invited our Prime Minister to Moscow, as President Truman has done?

**Dr. B. V. Keskar:** I am not aware.

**Shri H. V. Kamath:** Does the Honourable the Prime Minister, in pursuit of his valiant search for world peace, propose to invite President Truman and Marshal Stalin to India?

**Dr. B. V. Keskar:** No such proposal is at present under consideration.

**Shri Raj Bahadur:** May I know whether there have been serious hostile comments against India in the Soviet Press?

**Mr. Speaker:** I do not think I can allow that question.

**Shri H. V. Kamath:** What are the relation between our Ambassador and the U.S.S.R.?

**Mr. Speaker:** The question is too vague to be answered.

#### ACTIVITIES AND ACHIEVEMENTS OF MICA MINES LABOUR WELFARE FUND COMMITTEE AT KODARMA IN BIHAR.

**\*1110. Babu Ramnarayan Singh:** Will the Honourable Minister of Labour be pleased to state:

(a) the present activities and also the achievements hitherto obtained of the Mica Mines Labour Welfare Fund Committee at Kodarma in the district of Hazaribagh in Bihar;

(b) the amount hitherto collected, the amount hitherto spent and also the objects for which the expenditure was incurred; and

(c) whether a hospital is going to be established by the Welfare Committee at Telaiya some eight or nine miles from Kodarma which is the centre of mines and if so, for whose benefit?

**The Honourable Shri Jagjivan Ram:** (a) Two dispensaries have been opened one at Dhab and another at Dhorakola. Ten beds have been reserved at the Kodarma hospital for treatment of the mica mines labour for which an annual grant of Rs. 13,000 is given to the hospital authorities. It is proposed to provide shortly two mobile medical units to visit mica mines for treatment of workers. It is also proposed to set up a Central Hospital and Child Welfare Clinic at Karma and land required for the purpose is being acquired. A mobile shop has been started which supplies consumer goods to mica mines labour at comparatively cheaper prices. To supplement the existing source of water in the mica mines areas it is proposed to open, to start with, four wells at different places. Vegetable seeds are distributed among the workers with a view to encouraging them to grow more vegetables for their consumption. A scheme for implementing anti-malaria measures in the mica mines areas is being prepared. It is also proposed to provide a mobile cinema for the benefit of the workers.

(b) The income and expenditure of the Mica Mines Labour Welfare Fund for Bihar during 1946-47 to 1948-49 are as follows:

|                        | Income<br>Rs. | Expenditure<br>Rs. |
|------------------------|---------------|--------------------|
| 1946-47<br>(actuals)   | 3,22,756      | Nil                |
| 1947-48<br>(actuals)   | 9,31,746      | 9,023              |
| 1948-49<br>(estimated) | 6,95,000      | 2,03,777           |

Expenditure has hitherto been incurred towards provision of medical facilities, running of mobile shop, acquisition of lands, supply of vegetable seeds, and establishment.

(c) It is proposed to set up a Central Hospital at Karma about four miles from Kodarma and over a mile from Telaiya for the benefit of the mica mines labour. The site has been approved by the Bihar Mica Mines Labour Welfare Fund Advisory Committee and steps have been taken to acquire the land.

**Babu Ramnarayan Singh:** As regards the proposal for hospital at a place near Telaiya, is the Honourable Minister aware that that place is far away from the mica mines and the residences of the miners?

**Mr. Speaker:** What is the question. The honourable member is giving information about the distance. What is the information the honourable member wants?

**Babu Ramnarayan Singh:** My question is whether the Honourable Minister is aware of the distance between the mica mines and the proposed hospital.

**Mr. Speaker:** The honourable member suggests that the hospital and the residences of the miners are very distant. But what is the information he wants now?

**Babu Ramnarayan Singh:** At whose instance was this hospital being proposed there?

**The Honourable Shri Jagjivan Ram:** As I have already stated, the proposed site is only four miles from Kodarma and one mile from Telaiya, both of which are important centres of mica mines. The site was selected at the instance of

the Mica Mines Welfare Fund Advisory Committee on which both the employers and workers are represented. So the selection was made at the instance of the workers as well.

**Shri Harihar Nath Shastri:** I want to know if it is proposed to spend any part of the said funds towards the construction of houses and if so what amount and for how many houses during the next year?

**The Honourable Shri Jagjivan Ram:** At present there is no proposal for the construction of houses for mica labour out of this fund. The income from the mica cess is very small and we do not want to spend any portion of this income on Housing. Moreover, the majority of the workers in the mica mines are from the neighbouring villages and they have got their own houses. Certain persons have not got their own houses and we are getting the employers to construct houses for them.

**Babu Ramnarayan Singh:** The Honourable Minister stated that the proposed hospital is four miles away from Kodarma which is the mica mine centre. May I know how mica miners will benefit from that hospital?

**The Honourable Shri Jagjivan Ram:** There are so many mines. My honourable friend is also in the know of the locality as well as myself. I can safely assure him that the site of the hospital is very convenient to the labour.

#### ABOLITION OF COMMUNAL CANTEENS IN GOVERNMENT OFFICES

\*1111. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that in the various Departments of the Government of India separate canteens and restaurants are being maintained for different communities?

(b) Do Government propose to consider the advisability of taking steps to abolish the said communal canteens and restaurants and if so, how soon, and if not, why not?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) No.

(b) Does not arise.

**Shri H. V. Kamath:** Is there any canteen at all attached to any Department of the Government of India?

**The Honourable Shri Satyanarayan Sinha:** There are several hostels which are under the control of the Government of India, but no canteen is run by the Government of India.

**Shri R. K. Sidhva:** May I know whether in the Secretariat there are Canteens, Hindu Refreshment Rooms and Muslim Refreshment Rooms? If that is so, may I know whether Government intend to do away with this communal element?

**The Honourable Shri Satyanarayan Sinha:** There is no such canteen run on communal lines.

**Shri H. V. Kamath:** Is the Minister of State aware that the Health Ministry runs a canteen?

**The Honourable Shri Satyanarayan Sinha:** The honourable member must ask the Health Minister.

**Shri H. V. Kamath:** The various Departments are mentioned here in the question.

**Mr. Speaker:** It is not the concern of his Ministry.

**Shri H. V. Kamath:** Is there any canteen at all run by any Government Department?

**Mr. Speaker:** He is not aware.

## EXPLOITATION OF MINERAL DEPOSITS IN BASTAR STATE

\*1112. **Shri R. L. Malviya:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what mineral deposits have been found in Bastar State (merged with the Central Provinces)?

(b) How many of these minerals are found in commercial quantities?

(c) What is the plan of Government to exploit these minerals, and what will be the cost of development of industries there?

(d) How long would these industries take to start?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) The Main economic minerals are iron-ore, Bauxite and Lime stone. Mica Magnetite and several other minerals also occur in small quantities.

(b) Iron-ores, bauxite and Lime-stone.

(c) and (d). Further investigation of the iron-ore deposits in Bastar State has been taken up by the Geological Survey of India this year. The Development of industries is mainly the responsibility of the Province, and the required information is not available. The State is rather inaccessible, and before any development project can be taken in hand, the country will require to be opened up by the construction of roads and railways.

## GENERATION OF HYDRO-ELECTRIC ENERGY IN BASTAR STATE

\*1113. **Shri R. L. Malviya:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether Government propose to erect a plant to generate hydro-electric energy in Bastar State?

(b) If so, how far have Government proceeded with the plan?

(c) Which place have Government selected for the erection of the plant?

(d) The information will be available only after the completion of the preliminary it?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) Yes. A proposal is under examination to develop the Indravati and Sabri rivers in the Bastar State for purposes of irrigation and generation of electric power.

(b) Preliminary investigations have just been taken in hand.

(c) No site has been selected so far.

(d) The information will be available only after the completion of the preliminary investigations.

**Seth Govind Das:** By what time is it expected that this preliminary survey will be completed and by what time do Government expect a report on this?

**The Honourable Shri Satyanarayan Sinha:** Two or three years.

## EXPLOITATION OF MINERAL DEPOSITS IN SURGUJA DISTRICT IN C. P.

\*1114. **Shri R. L. Malviya:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what mineral deposits have been found in the Surguja District (consisting of Surguja, Korea and Changbhakher States merged with the Central Provinces)?

(b) How many of these minerals are found in commercial quantities?

(c) What steps have Government taken or do they propose to take to exploit these minerals?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) and (b). The following minerals are known to occur in the areas referred to:

**Surguja State.**—Coal, Bauxite and Mica in commercial quantities. Lime Stone, Clay, Ochre, etc., in small quantities.

**Korea State.**—Excepting coal which is already being worked, there is no other mineral of economic importance.

**Changbhakher State.**—Building stones, clays, iron ores, mineral pigments and coal, but none of them is present in workable quantity.

(c) The three areas referred to were surveyed by the Geological Survey of India in 1943, 1942-43 to 1944-45 and 1943-44, respectively. The investigation of coking coal in Surguja and Korea States has been included in the current field programme. The actual exploitation of mineral resources is, however, mainly the responsibility of Provincial Governments or of private enterprise.

**Shri Kishorimohan Tripathi:** Did Government undertake any survey to find out the existence of mineral deposits in other C.P. States, and if so, with what results?

**The Honourable Shri Satyanarayan Sinha:** So far we have no information about other States. About Bastar of course, Government is making the geological survey.

**Shri H. V. Kamath:** What concrete steps have been taken for the utilisation of these mineral deposits since the survey was completed in 1944-45?

**The Honourable Shri Satyanarayan Sinha:** I would like to have notice.

**Shri Kishorimohan Tripathi:** Have Government any information about the existence of deposits of kerosene in Raigarh State among the C.P. States?

**The Honourable Shri Satyanarayan Sinha:** I think he is giving us information.

## SURVEY OF PLACES IN C.P. FOR TRANSFER OF CERTAIN CENTRAL OFFICES

\*1115. **Shri R. L. Malviya:** (a) Will the Honourable Minister of Works, Mines and Power, be pleased to state which cities or places in the Central Provinces are under consideration of Government for transfer of certain Central Offices, if any?

(b) Has any survey been made by Government and if so, what cities and places have been surveyed and with what results?

(c) Has any representation been made to Government by Dr. Hari Singh Gour for transfer of some of the Central Offices to Saugor in the Central Provinces and if so, what are his main points of recommendation in favour of Saugor?

(d) Do Government propose to transfer some of the Central Offices to Saugor and if so, what are those offices?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) and (b). Certain preliminary enquiries were made about the suitability of a number of centres in the Central India, for the purpose of location of some Central Government offices. The places in the Central Provinces about which enquiries were made, were Betul, Saugor, Chhindwara, Jabulpore and Itarsi. No detailed survey of any of these places was made.

(c) and (d). A letter on the subject was received from Sir Hari Singh Gour and his view was that from the geographical, climatic and strategical point of view, Saugor was an ideal centre. Government have not yet decided whether any and if so, what offices should be located at Saugor.

**Seth Govind Das:** May I take it that this question is still under consideration?

**The Honourable Shri Satyanarayan Sinha:** Yes, Sir.

**Shri R. K. Saha:** May I know whether there is any electric generation plant in Saugor?

**The Honourable Shri Satyanarayan Sinha:** I want notice.

**Shrimati G. Durgabai:** May I know whether any final decision has been taken on the location of the Federal Court and whether the proposal to have it in Allahabad has been finally abandoned?

**The Honourable Shri Satyanarayan Sinha:** No, it has not been.

**Shri K. Hanumanthaiya:** Will Government be pleased to give an opportunity to this House to express its views on the issue of the location of the capital?

**The Honourable Shri Satyanarayan Sinha:** Does he want a day to be allotted to discuss this matter?

**Shri K. Hanumanthaiya:** Yes, Sir. Even a day would be better.

**Mr. Speaker:** Government will consider the matter.

**Shri H. V. Kamath:** Were any experts or other officers deputed from here to examine the suitability of these four or five places mentioned in the answer?

**The Honourable Shri Satyanarayan Sinha:** I do not know what he means by "experts". Of course, when people are sent to examine the places, they are considered to be experts.

**Shri H. V. Kamath:** But who were sent from here?

**Mr. Speaker:** He wants to know the name of the officer—can the Minister give the name of persons who were sent?

**The Honourable Shri Satyanarayan Sinha:** No, Sir.

**Shri Deshbandhu Gupta:** May I know at whose instance these surveys were made?

**The Honourable Shri Satyanarayan Sinha:** Government, Sir.

**Shri Deshbandhu Gupta:** May I know whether the initiative was taken by the C.P. Government or by the Central Government?

**The Honourable Shri Satyanarayan Sinha:** By both.

**Shri Mahavir Tyagi:** In locating these offices, is it only the urban areas which are taken into Government's consideration or rural areas also?

**The Honourable Shri Satyanarayan Sinha:** The difficulty is felt about urban areas, what to say of rural areas.

**Shri H. V. Kamath:** Did Dr. Hari Singh Gour state in his representation in what respects Saugor excels the other places?

**Mr. Speaker:** I am afraid he should refer to the representation of Dr. Hari Singh Gour.

**Shri H. V. Kamath:** It is with the Government.

**The Honourable Shri Satyanarayan Sinha:** I have not got the letter with me, but if he is very keen about it, I would let him have it later.

**Shri Deshbandhu Gupta:** May I know whether it is not the considered view of the Government of India that so far as the question of the capital is concerned, no change is contemplated?

**The Honourable Shri Satyanarayan Sinha:** Yes, Sir. At present.

## UNSTARRED QUESTIONS AND ANSWERS

### NUMBER OF REFUGEES IN CAMPS

**90. Sardar Hukam Singh:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state what was the total number of refugees from West Punjab received in camps (i) run by the Government of India; and (ii) run by the Provincial Governments after 15th August, 1947?

**The Honourable Shri Mohan Lal Saksena:** The honourable member is referred to the reply given by me to part (a) of Starred Question No. 115 by Giani Gurmukh Singh Musafir on the 3rd February, 1949. Further break up of figures is not immediately available.

### ASSETS OF EVACUEES IN EAST AND WEST PUNJAB

**91. Sardar Hukam Singh:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state what are the total assets left in:

(a) West Punjab by non-Muslims who have migrated to India after partition; and

(b) East Punjab by Muslims who have migrated to Pakistan?

**The Honourable Shri Mohan Lal Saksena:** (a) and (b). The information is not available.

### EXPENDITURE ON EAST BENGAL REFUGEES

**92. Shri K. Hanumanthaiya:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state the amount of money expended on refugees who have come to West Bengal from East Bengal by (i) the Government of India and (ii) the Government of West Bengal?

**The Honourable Shri Mohan Lal Saksena:** The honourable member is referred to the reply given by me to part (a) of Starred Question No. 773 by Shri Ananthasayanam Ayyangar on the 1st March, 1949.

### IMPORT OF TRACTORS AND OTHER AGRICULTURAL MACHINES

**93. Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Commerce be pleased to state how many tractors and other agricultural machines have been imported into this country during the year 1948?

(b) What is the total cost of these machines?

(c) How many of these machines have been taken by the Government of India for their use?

**The Honourable Shri K. C. Neogy:** (a) to (c). I lay on the table of the House a statement containing the required information.

### STATEMENT

#### Import of Agricultural Machinery into India

| Agricultural Machinery                        | January to December 1948 |
|-----------------------------------------------|--------------------------|
| (Value in lakhs of rupees)                    |                          |
| (i) Agricultural tractors and parts . . . . . | 183.8                    |
| (ii) Ploughs and parts . . . . .              | 37.3                     |
| (iii) Other sorts . . . . .                   | 21.8                     |

NOTE.—The number of agricultural tractors etc. imported is not separately recorded in the sea-borne Trade Returns.

## Number of Agricultural Machinery taken over by Government

In 1948 the Ministry of Agriculture obtained the following agricultural equipment from North America. These were purchased and shipped to India by the India Supply Mission, Washington.

| Description                             | Quantity | Country of origin | Value (Approx.) (In lakhs of rupees) |
|-----------------------------------------|----------|-------------------|--------------------------------------|
|                                         | Nos.     |                   |                                      |
| Tractors                                | 207      | U.S.A.            | 33.2                                 |
| Sprayers Power                          | 2        | Do.               | 0.2                                  |
| Harvester Combines                      | 25       | Do.               | 2.8                                  |
| Harvester Combines                      | 25       | Canada            | 3.0                                  |
| Agricultural implements (various types) | 15       | U. K.             | 0.9                                  |
| Do.                                     | 20       | Canada            | 0.3                                  |
| Do.                                     | 79       | U.S.A.            | 1.6                                  |

The following equipment was obtained, through the Director General, Industry and Supply, from firms in India :

| Description                            | Quantity | Country of Origin | Value (Approx.) (in lakhs of rupees) |
|----------------------------------------|----------|-------------------|--------------------------------------|
|                                        | Nos.     |                   |                                      |
| Tractors                               | 120      | U.K.              | 9.8                                  |
| Tractors                               | 42       | Canada            | 2.3                                  |
| Tractors                               | 49       | U.S.A.            | 3.6                                  |
| Agricultural implement (various types) | 220      | U.K.              | 2.3                                  |
| Agricultural implement (various types) | 50       | Canada            | 0.6                                  |

NOTE.—Of the 418 tractors obtained from the India Supply Mission and from firms in India, 248 have been taken by the Central Tractor Organisation of the Ministry of Agriculture and 170 have been supplied to the Provincial and State Governments.

## STATEMENTS LAID ON THE TABLE

[INFORMATION PROMISED IN REPLY TO CERTAIN QUESTIONS DURING THE CURRENT AND PREVIOUS SESSIONS OF THE CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) LAID ON THE TABLE OF THE HOUSE TODAY]

Diwan Chaman Lal's Starred Question No. 35 (b) of 30th March, 1948.

COMMODITIES DE-CONTROLLED AND THEIR PRICES BEFORE AND ON 10TH JANUARY, 1948

## PRICES OF COMMODITIES

| S. No. | Commodity                       | Price before de-control | Price on 10th January, 1948 | Remarks                          |
|--------|---------------------------------|-------------------------|-----------------------------|----------------------------------|
| 1      |                                 | 3                       | 4                           | 5                                |
| 1      | Machine Tools—                  |                         |                             |                                  |
|        | Lathes Cone Pulley—             |                         |                             |                                  |
|        | 6½" × 4½"                       | 2,856 each              | 2,750 each.                 | Grade I Machine Tools prices     |
|        | 8" × 7"                         | 5,254 each              | 4,890 each.                 | have been quoted. They, how-     |
|        | 10½" × 10"                      | 5,520 each              | 7,000 each.                 | ever, vary with different manu-  |

|    | Wattle Bark                     | Landed cost (Rs. 180 per ton) plus 10% margin allowed to importers                | Present landed cost Rs. 250 per ton. Present price Rs. 275   | Under Gentlemen's agreement between importer and Directorate General of Industries and Supplies margin of 10% on landed cost continues. Distribution is also being controlled by the D.G.I. & S.                                                 |
|    | Wattle Extract                  | Landed cost (Rs. 400 per ton) plus 20%.                                           | Rs. 605 per ton.                                             |                                                                                                                                                                                                                                                  |
| 13 | Timber—                         |                                                                                   |                                                              |                                                                                                                                                                                                                                                  |
|    | Sal                             | Logs Rs. 2 to 2.6 per c. ft.<br>Sawn Rs. 3.4 to 3-12 per c. ft.                   | Logs Rs. 6 per c. ft.<br>Sawn Rs. 8 per c. ft.               | Timber prices vary according to species and also the size of scantlings. To indicate the trend of rise only the prices of sal have been given both for logs and                                                                                  |

## 13 Timber—contd.

sawn timber of heavy station. The prices of smaller sections and other species have increased proportionately. The present price is, however, no indication of the effect of the decontrol. During June/July 1947, the price of sal logs was about Rs. 3-4 to 3-8 per c. ft. and that of sawn about Rs. 5 per c. ft. The sudden rise since then has been due to the fact that the price of Railway sleepers offered by the Railway Board was nearly double the previous year and immediately the prices of timber for civilian consumption and other Government Departments increased considerably.

## 14 Cycle Tyres and Tubes.—

These prices are the same as those given in the Deptt. of Industries and Supplies Notification No. SS/135 dated 14-5-46, copy attached. (Appendix 'A')

Please see list attached (Appendix 'B')

We have not so far allowed any import of cycle tyres and tubes and prices given relate to those of Indian manufacture only.

15 Motor Car and Motor Cycle Tyres and Tubes  
16 Giant Tyres and Tubes

These prices are same as those given in the Deptt. of Industries and Supplies Notification No. SS/63 (14) dated 31-5-46, copy attached (Appendix 'C')

Please see list attached (Appendix 'D')

These prices relate to the tyres and tubes manufactured in India by the four tyre Coys. There are certain special types of tyres and tubes which are not manufactured in India and the demand for which is being met by imports. The prices of these tyres and tubes would depend on the landed cost in each case.

## 23 Cotton Foreign and Indian—contd.

## Foreign Cotton—

- \*East African B.P. 52  
 \*East African AR KAMPALA.  
 \*Sudan G6L.  
 \*Sudan NG4L

\*Govt's fixed prices Rs. 920-  
 \* " " " 895-  
 \* " " " 885-  
 \* " " " 955-

Note—(i) Indian Cotton are 1947-48 crop cottons.

(ii) Foreign Cotton are 1947 crop Cottons.

(1) Indian cotton was de-controlled on 20.1.1948.

(2) With the division of the country on 15th August, 1947, Pakistan cottons have ceased to be under control as from that date. These are, therefore, not included in the statement given above.

(3) Among foreign cottons, only East African and Sudan were controlled in the sense that the Govt. itself distributed (and still distributes) such cottons at fixed prices.

The main producers, viz. Messrs. WIMCO have still retained their whole sale prices at such a level as to enable the retailer to sell a box at half anna but the ruling market price is 3/4 anna per box.

During the control period prices fixed varied from area to area.

There was no price control but distribution was under control.

Half anna per box containing on an average more than 40 but not more than 50 sticks.

|                    |                                     |                                     |
|--------------------|-------------------------------------|-------------------------------------|
| 24 Matches—        | Rs. 224 per ton                     | Rs. 200 to 220 per ton              |
| 25 Sulphuric Acid— |                                     |                                     |
| Contact (1-84)     | Rs. 275 per ton                     | Rs. 250 to 300 per ton.             |
| Chamber (1-84)     | Rs. 224/1 per ton                   | Rs. 190 per ton.                    |
| Sp. Gr. 1750       |                                     |                                     |
| 26 Sulphate Oxide— | Rs. 150 to 200 per ton (Indigenous) | Rs. 150 to 200 per ton (Indigenous) |

## 27 Coconut Oil—

|          |                  |                           |
|----------|------------------|---------------------------|
| Cochin   | Rs. 1300 per ton | Rs. 1390 to 1605 per ton  |
| Madras   | Rs. 1456 per ton |                           |
| Bombay   | Rs. 1462 per ton | Rs. 1400 to 1500 per ton. |
| Calcutta | Rs. 1483 per ton | Rs. 1427 to 1550 per ton. |

The prices given are of the coconut oil imported from Ceylon. During the control period, prices of the indigenous coconut oil were slightly higher than the imported oil. Presently the prices of indigenous oil are slightly lower than the imported Ceylon oil.

## 28 Copra—

|          |                 |                 |
|----------|-----------------|-----------------|
| Cochin   | Rs. 884 per ton | Rs. 884 per ton |
| Madras   | Rs. 936 per ton |                 |
| Bombay   | Rs. 934 per ton | Rs. 900 per ton |
| Calcutta | Rs. 976 per ton | Rs. 932 per ton |

## 29 Various Consumer Goods—

|    | Hazeline Snow (2 oz jars)                | Rs. 13-13 per doz.                       | ..                 | .. |
|    | Hazeline cream (2 oz jars)               | Rs. 13-13 per doz.                       | ..                 | .. |
|    | Marcolized wax (small)                   | Rs. 17-4 per doz.                        | ..                 | .. |
|    | Coty Face Powder                         | Rs. 19-11 per doz.                       | ..                 | .. |
|    | Maclean Tooth Paste                      | Rs. 8-3 per doz.                         | ..                 | .. |
|    | Tex Tooth Brush                          | Rs. 10-2 per doz.                        | ..                 | .. |
|    | <i>Time Pieces—</i>                      |                                          |                    |    |
|    | Westclox.                                | Rs. 9 each                               | ..                 | .. |
|    | Raven                                    | ..                                       | ..                 | .. |

30. *Newsprint*—

Prices of Newsprint still continue to be controlled. The ceiling prices are as follows :—

|                      | At Ports  | Price per lb. Upcountry |
|----------------------|-----------|-------------------------|
|                      | Reels     | Reels                   |
| European             | Rs. 0-6-0 | Rs. 0-6-6               |
| Of any other origin. | Rs. 0-5-0 | Rs. 0-5-6               |

31. *Cotton Cloth and Yarn*

Control on cotton cloth and yarn has been lifted with effect from the 20th January 1948. Ceilings and floors of cotton have also been abolished from this date. The question of comparative prices of these commodities on the 10th January 1948, before and after the control, therefore, does not arise

NOTIFICATION

*New Delhi, the 14th May 1946.*

No. SS/135.—In exercise of the powers conferred by sub rule (2) of rule 81 of the Defence of India Rules, the Central Government is pleased to make the following order and to direct with reference to sub-rule (1) of rule 119 of the said rules that notice of the order shall be given to the public by publishing it in the *Gazette of India* :—

1. No person shall sell cycle tyres and tubes at prices higher than those specified in the schedule hereto annexed.

2. The Notification of the Government of India in the Department of Supply No. S/S/135, dated the 25th September 1945, is hereby repeated, provided that anything done under any of the provisions of that notification shall be deemed to have been done under the corresponding provisions of this order.

3. This Order and the annexed Schedule shall be displayed prominently on the premises of all persons offering cycle tyres or tubes for sale.

SCHEDULES  
Maximum Prices for Cycle Tyres and Tubes.

## DEPARTMENT OF INDUSTRIES AND SUPPLIES

## NOTIFICATION

New Delhi, the 31st May 1946.

No. SS/63 (14).—In exercise of the powers conferred by sub-rule (2) of rule 81 of the Defence of India Rules, the Central Government is pleased to make the following order and to direct with reference to sub-rule (1) of rule 119 of the said Rules, that notice of the Order shall be given to the public by publishing it in the *Gazette of India* :

1. No person shall sell pneumatic tyres or tubes at prices higher than those specified in the Schedule hereto annexed.

2. The Notification of the Government of India in the Department of Supply No. SS/63(14) dated the 25th September 1945, as amended, is hereby repealed : provided that anything done under any of the provisions of that Notification shall be deemed to have been done under the corresponding provisions of this Order.

3. This Order and the annexed Schedule shall be displayed prominently at the premises of all suppliers.

26th February, 1948.*

### ROAD ACCIDENTS IN OLD AND NEW DELHI.

|                                                                                                 | New Delhi | Old Delhi |
|-------------------------------------------------------------------------------------------------|-----------|-----------|
| (a) Number of accidents caused by Military Vehicles in the Delhi Province during the year 1947. | 42        | 20        |

These figures are embodied in the 191 road accidents occurring in New Delhi and 82 in Old Delhi during the same period stated in reply to part (a) of the questions:

(b) The speed limit in Delhi City and Connaught circus area is 20 miles per hour while the speed limit for the remaining areas of Delhi is 30 miles per hour. Connaught Circus, Connaught Place and a portion of the Elgin Road to the West of Faiz Bazaar have been notified as out of bounds for military traffic. The question of placing certain other congested roads out of bounds for military traffic is under consideration.

*Shri Yudhishtir Misra's Starred Question No. 1117 (a) of 31st March, 1949.*

### STATEMENTS LAID ON THE TABLE

[illegible]

Prof. K. T. Shah's Starred Question No. 202 of 13th August, 1948.

## ARREARS OF INCOME-TAX, SUPER-TAX OR CORPORATION-TAX OF EVACUEES TO PAKISTAN

- (a) The demand for income-tax, super-tax and Corporation tax raised in the assessments for the years 1945-46 to 1947-48 outstanding on 1st April 1948 less amount pending settlement of double income-tax relief claims, is about Rs. 33 crores Tax for 1948-49 cannot be described as arrears.
- (b) 1351.
- (c) Rs. 83 lakhs.
- (d) All possible legal steps are being taken to recover the amount. In particular recovery certificates have been issued to the Collectors in India and the assets left behind by assessee are being attached for the realisation of the arrears. Where the assessee are reported to have any property in Pakistan certificates are being issued to the Collectors concerned in Pakistan, under section 46(9) of the Income-tax Act, for recovery of the tax. Action under the Transfer of Property Ordinance has also been taken in suitable cases.

Shri Kishorimohan Tripathi's Starred Question No. 205 (b) of 13th August, 1948.

## PRIVATE PROPERTIES OF RULERS OF CHATTISGARH STATES

| Name of State<br>1   | List of private property.<br>2                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                   |                  |             |      |      |                                                             |      |      |                                                               |      |      |                                                       |      |      |                                                |      |      |                                             |      |      |                                                       |      |      |                                                      |     |      |                                              |      |      |                                                |      |      |                                   |      |      |                                                                                                                                                                                                                   |

 (14) The lands below the Samundar tank bund.  
 (15) The Bastar houses situated in Dhamtari, Raipur and Ootaca-  
     mund.  
 (16) Certain Muafi villages.  
 (17) Civil List Reserve Fund Rs. 1,50,000

Seth Govind Das' Unstarred Question No of 4 of 30th August 1948  
 ALL-INDIA LABOUR ORGANISATIONS

[Statement not printed in the day's Debate. A Copy placed in the Library of the House]

Shri K. C. Kesava Rao's Starred Question No. 630 and 631(a) and (c) of  
 31st August, 1948.

CRIMINAL TRIBES

No. 630.—As already announced on the 11th February, 1949, a Committee is being appointed to enquire into the working of the Criminal Tribes Act in the Provinces to see how far it can be modified or whether time has come for its repeal. This Committee will no doubt consider the question of reclassification of the Criminal Tribes in Chief Commissioners' Provinces as well. At present so far as Chief Commissioners' Provinces are concerned the position is that there are no criminal tribes in Coorg and Andamands. In the remaining provinces of Delhi and Ajmer-Merwara the following steps are, however, taken to reclaim them:

Delhi.—(a) Education.—All the children between the ages of six and twelve are given compulsory education in a Primary School run by Municipal Committee, Delhi within the Colony. The adults who are illiterate are given free education in a Night School which is run by the Delhi Students Literacy League. The number of pupils is 22.

(b) Employment and work for Elders.—Efforts have been made to procure employment for those who stand in need of it. As a result of these efforts 81 adults are at present employed in different capacities in Delhi and New Delhi and are earning their livelihood by honest means.

(c) Co-Operative Movements.—A Co-operative Store and a Co-operative Credit and Thrift Society are successfully functioning for the benefit of criminal tribes.

(d) Sanitation.—Special care is being taken for encouraging cleanliness among the inmates of the colony.

(e) Religious Performances.—Daily prayers morning and evening both with weekly 'Hawans' are performed by criminal tribes in the Colony ground regularly.

Ajmer-Merwara.—All Possible Efforts are being made to reform the criminal tribes. They mostly live on cultivation. Those who show signs of reform are being given facilities and assistance to enter Government and private service as well as to cultivate land by improved methods. Panchayats have also been formed amongst them and through the Panchayat-system, the importance of improving their standard of living and of reforming themselves is being brought home to them.

RESETTLEMENT OF RETRENCHED GOVERNMENT EMPLOYEES

No. 631.—(a) 16,387 temporary employees have been retrenched from the Government service since partition of the country. This does not include information relating to the Armed Forces or Civilian employees under the Defence Ministry in the lower formations.

(c) Information relating to the number of persons resettled through the efforts of Government agencies is not complete as the Employment Exchanges which have so far formed the main agency for resettlement of retrenched personnel do not maintain separate statistics for Central Government employees. As far as the offices from which retrenchment has taken place are aware, over 6300 persons have been re-employed in Government of India offices through the efforts of Government agencies.

Shri Moturi Satyanarayana's Starred Question No. 911 of 4th September 1948.

EXPENDITURE ON RAILWAY EMPLOYEES

(a) The information asked for is given below :

|                                          | 1939  | 1943  | 1947  |
|------------------------------------------|-------|-------|-------|
|                                          | Rs.   | Rs.   | Rs.   |
| (i) General Administration.              | 1,792 | 1,640 | 1,821 |
| (ii) Engineering and Technical personnel | 438   | 501   | 563   |
| (iii) Traffic Department                 | 558   | 610   | 833   |

(b) The average number of men employed for every 100 miles of track during the years 1939-1943 and 1947 was 1,350, 1,600 and 2,030 respectively.

*Shri Biswanath Das Starred Question No. 7 (d) to (h) of 1st February 1949.*

**CENTRE'S AID TO MEET BUDGET DEFICIT IN ORISSA STATES AND DISBURSEMENT OF LARGE SUMS BY EH-RULERS.**

(d) Several schemes on a three years plan beginning from the year 1949-50 for development of the merged States of Orissa are under consideration. Also the approved Grow More Food Schemes of the province have been extended to these States.

(e) and (f). A statement showing the reserve fund on 15th November 1947, kept in Banks and amounts drawn by Rulers before handing over the administration of the State to Orissa Government on the 1st January 1948 is attached.

(g) Some of the Advisory Committees and some members of the States Assembly drew the attention of the Provincial Government to this matter.

(h) No final decisions have been taken so far, because the Provincial Government have been awaiting the result of the audit which is in progress. The monetary transactions entered and other commitments made by the Rulers before the merger are also being examined by the Adviser for States.

*Statement*

| Serial No. | Name of States | Reserve fund if any kept in the Reserve Bank of India or in Imperial Bank or any Scheduled Bank by the previous Admn. before the 15th Nov. 1947 either in the name of a State or in the name of the Ruler. | The amount drawn by before handing over the admn. of the State to Orissa Govt. on the 1st January, 1948. |
|------------|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|
| 1          | 2              | 3                                                                                                                                                                                                          | 4                                                                                                        |

*Supplementary to Shri M. Ananthasayanam Ayyangar's Starred Question No. 158 of 4th February, 1949.*

**COMMITTEE TO ENQUIRE INTO WORKING OF CRIMINAL TRIBES ACT**

**Views of the Provincial Governments regarding the proposal to repeal the Criminal Tribes Act, 1924**

In the year 1946, the Government of India had called for the views of the Provincial Governments and Chief Commissioners regarding the proposed repeal of the Criminal Tribes Act, 1924. Central Provinces and Berar and Coorg had no comments to offer as they have no criminal tribes. Madras was in favour of the repeal of the Act. The Punjab, Bombay, Assam, Ajmer-Merwara and Delhi were opposed to the repeal of the Act. The United Provinces, Bengal, Orissa and Bihar did not furnish their views.

2. On a very recent enquiry made by us of the Provincial Governments whether they promoted or passed any legislation modifying or repealing the Act during 1947 and 1948 it appears that with the exception of Madras and Bombay no other province has promoted or passed legislation modifying or repealing the Act. Replies from the United Provinces and Central Provinces and Berar are still awaited. Madras have repealed the Act in its application to that province in the year 1947. Bombay have passed the Habitual Offenders Restriction Act in December 1947 which contains provision for the repeal of the Criminal Tribes Act not later than two years from the date of coming into operation of the Habitual Offenders Restriction Act. Thus, with the exception of Madras and Bombay (who have either repealed or made provision for the repeal of the Act) and the United Provinces and Central Provinces and Berar (whose replies are still awaited), all the other provinces are obviously still in favour of retaining the Criminal Tribes Act.

*Shri R. M. Nalavade's Starred Question No. 687 (b) of 3rd March 1949.*

CONTRACT WITH MESSRS. A. H. WHEELER AND COMPANY.

The last Contract on the G. I. P. Railway was entered into on 1st January, 1946.

### SHORT NOTICE QUESTION AND ANSWER

TRANSFER FROM PAKISTAN OF KASHMIRI HARIJANS AND OTHER NON-MUSLIMS

**Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether the attention of Government has been drawn to the news, published in the *Hindustan Times*, dated 1st March, 1949, on page 8, column 5, to the effect that "a large number of Harijans, belonging to Kashmir State are in Murree and Rawalpindi. The Government of India has been urged to make arrangements for their transfer"?

(b) If so, how far is it correct?

(c) What have Government done or propose to do in this matter?

**The Honourable Shri Mohan Lal Saksena:** (a) Yes.

(b) It is known that a number of non-Muslims belonging to Kashmir State are in Murree and Rawalpindi. Some of them are Harijans.

(c) The matter is under consideration.

**Dr. Mono Mohan Das:** May I know when we may get the correct information about the matter? After how many days?

**The Honourable Shri Mohan Lal Saksena:** It is difficult to give any idea as to how long it will take, but I can inform the honourable member that about twenty Harijans have been already evacuated and the matter may be taken up at the next Inter-Dominion Conference.

## THE CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES

(PART I—QUESTIONS AND ANSWERS)

Thursday, 17th March, 1949.

The Assembly met in the Assembly Chamber of the Council House at a quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS

#### (a) ORAL ANSWERS

#### SALE OF LAND IN CANTONMENTS WITHOUT AUCTION

**\*1116. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Defence be pleased to state whether any lands have been given during the year 1948 to private persons in Indian Cantonments without auction and if so, what area and what premiums have been charged?

(b) Were the grants made for business or private purposes?

(c) Is the sanction of Government obtained when rules regarding sales of land by auction are waived?

**The Honourable Sardar Baldev Singh:** (a) Yes. The area of land leased out in this manner during 1948 is 1,497 acres and the premia charged amount to Rs. 21,682.

(b) Both.

(c) Yes.

**Shri R. K. Sidhva:** May I know why this departure has been made by selling these lands without auctioning and against the land sale rules?

**The Honourable Sardar Baldev Singh:** This is not a new departure. Provision exists and land has always been given. It is the normal practice that has been followed.

**Shri R. K. Sidhva:** Is it not a fact that under the land sale rules this right is given on extraordinary occasions and for public purposes and it is not for private lands or business lands that this right has been vested in the authorities? Am I correct? If so, why has this right been exercised in all such cases?

**The Honourable Sardar Baldev Singh:** If the honourable members would like to have some more information, I can state that this power has been given to the G.O.C.-in-Cs. of the three Commands and this lease for private purpose has been given by the three Commands, Eastern Command, Southern Command and Western Command.

**Shri R. K. Sidhva:** May I know what would have been the price if this land had been sold by auction as against the premium of Rs. 21,682?

**Mr. Speaker:** Order, order. I am afraid it is hypothetical.

**Shri R. K. Sidhva:** May I know whether Government approve of this policy of selling these lands by private arrangement?

**Mr. Speaker:** In other words, he wants to know whether Government propose to reconsider the policy.

**The Honourable Sardar Baldev Singh:** We have strictly followed the rules. We are not in favour of giving lands by private arrangement. We have done so only in exceptional cases where the necessary for such a private lease has been recognised.

**Shri R. K. Sidhva:** This total land that has been given by private arrangement, 1,497 acres, may I know the number of individuals to whom it has been given?

**The Honourable Sardar Baldev Singh:** I require notice.

**Babu Ramnarayan Singh:** What are the exceptional cases just referred to by the Honourable Minister?

**The Honourable Sardar Baldev Singh:** I can give a complete list of these people who have got this land. I have not got it here, but I can supply the honourable members.

**Shri R. K. Sidhva:** Yes, Sir. I would like to have that information.

#### AMENDMENT OF CANTONMENT ACT

\*1117. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Defence be pleased to state whether Government have received the resolutions passed at the All India Cantonment Conference held in August, 1948 in Delhi?

(b) Is it a fact that one of the resolutions related to the appointment of a Committee for amending the Cantonment Act?

(c) If so, what steps have Government taken in that direction?

**The Honourable Sardar Baldev Singh:** (a) Yes.

(b) Yes.

(c) A committee of which the honourable member himself is a member, and another member of this House the Chairman, has already been set up to examine this and certain other questions relating to cantonments.

**Shri H. V. Kamath:** Have certain zonal committees also been set up in this connection?

**The Honourable Sardar Baldev Singh:** Yes, Sir.

**Shri H. V. Kamath:** What are the powers and functions of this Central Committee vis-a-vis the powers and functions of the zonal committees?

**The Honourable Sardar Baldev Singh:** The Central committee is the Central body. They have got these zonal committees, which have been set up to assist the Central Committee.

**Seth Govind Das:** Have Committees been appointed for all zones or there are still certain zones which are left and the committees have to be appointed?

**The Honourable Sardar Baldev Singh:** I made this point quite clear in the discussion on the Defence expenditure. What we call "primary" committees have been appointed for each of the cantonments. Then over and above them, three zonal committees, one each in Eastern Command, Southern Command and Western Command have been set up, and above them is the Central Committee vis-a-vis the powers and functions of the zonal committees? that they like.

**Shri Mohan Lal Gautam:** I want to know how the personnel of these regional committees are composed. Who are the people, official and non-official?

**The Honourable Sardar Baldev Singh:** I think there is one elected member of the cantonment board and one nominee of the provincial government, but I am not definite about that and would like to verify.

#### PREVENTION AND CURE OF LEPROSY

\*1118. **Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Health be pleased to state what steps Government have taken for the treatment and control of leprosy in the country?

(b) What expenses have been incurred by Government for this purpose?

**The Honourable Rajkumari Amrit Kaur:** (a) The matter is primarily the concern of the Provincial Governments. The Government of India have, however, appointed a Committee to report on the establishment of a Central Leprosy Teaching and Research Institute in India. The report is awaited.

(b) The Central Government make overall grants to Provinces for Development Schemes and it is for the Provincial Governments to allocate the funds as between their various schemes including Medical and Public Health schemes. Government have no information about the expenditure incurred by Provincial Governments on leprosy relief.

**Dr. Mono Mohan Das:** May I know how many indoor hospitals and outdoor dispensaries there are in the country for treatment of leprosy?

**The Honourable Rajkumari Amrit Kaur:** I could furnish that information to the member.

**Dr. Mono Mohan Das:** Is there any leprosy colony in this country?

**The Honourable Rajkumari Amrit Kaur:** There are some leprosy colonies.

**Mr. Speaker:** I am afraid the subject being provincial, details may not be available just at this moment.

**Shrimati G. Durgabai:** May I know whether the Honourable Minister is aware of the plans, if any, of the provincial Governments and if so, what are they?

**The Honourable Rajkumari Amrit Kaur:** I could give some rough estimate about what the provinces do wish to do for leprosy during the next five years. If they are able to get the money they have got quite extensive schemes for leprosy work which would amount to about Rs. 2 crores of expenditure during the next five years.

**Srijut Rohini Kumar Chaudhuri:** Has Government taken any steps to stop door to door begging of the lepers in the towns specially?

**The Honourable Rajkumari Amrit Kaur:** I do not know how that question arises from this exactly, but I do not think that any special legislation has been undertaken in regard to beggars that happen to be suffering from leprosy.

**Seth Govind Das:** The Honourable Minister stated "if the provincial governments get sufficient money for this work"—may I know whether any specific grant to the provincial governments is going to be given in the next five years by the Central Government and is there any plan for it?

**The Honourable Rajkumari Amrit Kaur:** That question does not arise, because, as I have already said in answer to (b) of the question, the Central Government makes overall development grants to the provinces and it is up to the provinces to allocate them according to the schemes which they wish to encourage.

**Seth Govind Das:** No, Sir. I wanted to ask whether among the grants which the Central Government gives to provinces there is any specific grant for leprosy.

**The Honourable Rajkumari Amrit Kaur:** No, Sir.

**Srijut Kuladhar Chaliha:** What are the provinces most infected with this disease?

**The Honourable Rajkumari Amrit Kaur:** Madras and Orissa.

1558 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [17TH MARCH 1949]

**Shri H. V. Kamath:** As revealed by statistics during the last five years, is leprosy on the increase or decrease in our country?

**The Honourable Rajkumari Amrit Kaur:** I could not give that information.

**Shri Lakshminarayan Sahu:** Does the Government know that poor and insufficient food is the main contributory cause...

**Mr. Speaker:** Order, order.

**Shri Ram Chandra Upadhyaya:** Have Government any intention of trying naturopathy on leprosy?

**The Honourable Rajkumari Amrit Kaur:** I do not think that question arises.

# LOANS SANCTIONED BY INDUSTRIAL FINANCE CORPORATION

\*1119. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Finance be pleased to state the total amount of loans, together with the names of the borrowers, granted by the Industrial Finance Corporation since its inception?

(b) How many of these are individual concerns, Corporate bodies, limited or otherwise, and Co-operative Societies?

(c) How many of them come under the category of new industries and how many are existing industries?

(d) What are the names of the industries for which loans have been given?

**The Honourable Dr. John Matthai:** (a) The total amount of loans sanctioned by the Industrial Finance Corporation of India since its inception is Rs. 2.25 crores. The borrowing concerns are entitled to the secrecy, which is customary between banker and customer, with regard to their financial transactions and it would not be in the public interest to disclose the names of the borrowers. Secrecy is also enjoyed by section 39 of the Industrial Finance Corporation Act.

(b) Under Section 2(c) of the Industrial Finance Corporation Act, only Public Limited Companies and Co-operative Societies are eligible for financial assistance from the Corporation. No advances have, therefore, been granted to individuals, partnership firms and private limited companies, and advances have been sanctioned only to public limited companies. Co-operative Societies have taken very little interest in the facilities offered by the Corporation and so far only one formal application has been received from a Co-operative Society, which is at present under investigation.

(c) Of the twelve loans sanctioned, six are for the purpose of assisting newly established concerns and six for assisting existing industries.

(d) The names of industries which have been assisted so far are—

- (i) Machinery manufacturing —
- (ii) Electrical engineering
- (iii) Ceramics
- (iv) Iron and Steel foundaries
- (v) Glass Works
- (vi) Lead Acid batteries
- (vii) Non-ferrous metals and metallurgical industry
- (viii) Electric supply undertaking
- (ix) Chemicals including light as well as heavy chemicals
- (x) Textile mills.

**Shri R. K. Sidhva:** The Honourable Minister has stated that six loans have been sanctioned for assisting newly established concerns and six to supplement the existing industries. Do these industries relate to old ones or to new ones?

**The Honourable Dr. John Matthai:** Both.

**Shri R. K. Sidhva:** What are the new industries?

**The Honourable Dr. John Matthai:** I could get out a list for the honourable member. I have not the information ready.

**Mr. Homi Mody:** In the case of public limited companies, are the advances given to them distinguishable in any way from advances which would be made by banks?

**The Honourable Dr. John Matthai:** I do not quite follow the drift of the honourable member's question. What does he mean by principle?

**Mr. Homi Mody:** Is the Industrial Finance Corporation going in for ordinary banking?

**The Honourable Dr. John Matthai:** What the Industrial Finance Corporation does it to give loans for assisting the financing of industries. Whether that is a different kind of operation from banking or the same kind of operation is for the honourable member to judge.

**Srijut Rohini Kumar Chaudhuri:** Has this Corporation made it an invariable rule that no loan shall be granted to private limited companies; and have they fixed any minimum amount below which no loan will be granted?

**The Honourable Dr. John Matthai:** So far as I can remember, there is no minimum limit fixed. But there is a maximum limit fixed.

**Dr. P. S. Deshmukh:** What percentage of the demand for advances have the Government been able to meet so far?

**The Honourable Dr. John Matthai:** Does the honourable member mean what proportion of the applications made so far?

**Dr. P. S. Deshmukh:** Yes.

**The Honourable Dr. John Matthai:** I have not the information but I could collect it for him.

**Shri V. C. Kesava Rao:** Are these loans granted in lump sum, or by instalments according to the progress made by the industries concerned?

**The Honourable Dr. John Matthai:** That depends on the circumstances of each case and according to requirements.

**Shri R. K. Sidhva:** Arising out of question (b) the Honourable Minister said that one Co-operative Society had made an application. May I know for what industry has the Co-operative Society applied?

**The Honourable Dr. John Matthai:** It is of co-operative industrial undertaking I do not have the details.

**Shri V. C. Kesava Rao:** What is the machinery that the Government has set up to see that these loans are properly utilised for the development of industry?

**The Honourable Dr. John Matthai:** That is the responsibility of the Board of Directors. They have an Executive Committee which deals with these matters, and I understand the procedure followed is that the Executive Committee of the Board of Directors, consults the particular Ministry of Government concerned with the undertaking and gets their assistance and advice, and in some cases they also consult outside experts.

**Babu Ramnarayan Singh:** Has this Industrial Corporation got its branch offices in several provinces?

**The Honourable Dr. John Matthai:** At present they have three offices. There is the head office in Delhi; there is an office in Calcutta and there is an office in Bombay. I believe there is a proposal under investigation for setting up an office in Madras. Once the office in Madras is set up, I think the next in order on the list would be Kanpur. I am not aware of any proposals for other offices.

**Shri Mohan Lal Gautam:** Have the Government prepared any plan for starting new industries to be financed by this Corporation?

**The Honourable Dr. John Matthai:** No. The Government have no such plan, but the Industrial Finance Corporation is expected to use its own judgment in regard to these matters.

**Shri V. C. Kesava Rao:** Was any loan given to cottage industries?

**The Honourable Dr. John Matthai:** It is not likely that cottage industries would come within the sphere of public limited companies, unless they come in as co-operative societies.

**Dr. P. S. Deshmukh:** Is the Government satisfied with the progress which this Industrial Corporation is making?

**The Honourable Dr. John Matthai:** Quite so.

**Shri R. L. Malviya:** Is the loan open for limited concerns and co-operative societies in the merged States of the Union?

**The Honourable Dr. John Matthai:** Yes. I think the scope of the Act extends to the provinces of India and to acceding States which have acceded for this purpose.

**Shri R. K. Sidhva:** May I know the total number of companies which have taken advantage of this loan of Rs. 2.25 crores?

**The Honourable Dr. John Matthai:** Twelve altogether.

#### STANDARDISATION OF SALARIES OF TEACHERS

**\*1120. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Education be pleased to state whether any action was taken in increasing the salaries of teachers as recommended by the Central Advisory Board of Education?

(b) Is there any proposal before Government to standardise the salaries of teachers engaged in primary, secondary and college institutions throughout the Indian Dominion?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) Yes. The Provincial Governments have been requested to bring the salaries up to the minimum level recommended by the Central Advisory Board of Education and most of them have revised the scales. Government of India have also approved several Development Schemes of Provinces which aim at the raising of salaries of teachers and sanctioned grants for the purpose.

Statement showing the scales of salaries prescribed in the Provinces is laid on the table.

(b) No. There is no proposal under consideration for standardisation of salaries of teachers throughout India. It is not possible to do so in view of varying local circumstances and financial conditions of the Provinces. A minimum of Rs. 40, however, in case of Primary School Teachers (trained) and a scale of Rs. 150-300 for trained graduates in Secondary Schools have been recommended by the Committee on Ways and Means of Financing Education, set up by the Government of India.

#### STARRED QUESTIONS AND ANSWERS

##### STATEMENT

##### Provincial Scales for Primary and Secondary School Teachers with Qualifications.

| Provinces   | Salaries of teachers.                                     |                                                                                             |
|-------------|-----------------------------------------------------------|---------------------------------------------------------------------------------------------|
| Assam       | Trained teachers in Primary Schools                       | Rs. 25.                                                                                     |
|             | (i) Trained Matrics (in Primary Schools)                  | Rs. 30—55.                                                                                  |
|             | (ii) Matriculates (in girls Middle Schools to be opened). | Rs. 50—75.                                                                                  |
|             | (iii) In Government High Schools for girls.               | Rs. 85—125.                                                                                 |
| Bihar       | Trained Primary teachers                                  | Rs. 40—1—50—1½—65—2½—90.                                                                    |
|             | Untrained Primary teachers                                | Selection* grade for 15% of cadre. Rs. 35—1—40 with a pause of 2 years on the starting pay. |
| Bombay      | Secondary Schools: Graduates                              | Rs. 75—5—130—EB—6—160—8—200                                                                 |
|             | Under-graduates                                           | Rs. 61—3—85—EB—4—125—5—140                                                                  |
|             | Junior Basic Schools                                      | Rs. 30—2—40—1—50.                                                                           |
|             | Senior Basic Schools: (i) Head Master                     | C.C.L.A. as prescribed for Government servants.                                             |
| C.P.        | (iii) Assistant Master.                                   | Rs. 40—2—50—1—60                                                                            |
|             | J. V.'s.                                                  | *Rs. 30—2—40—1—50                                                                           |
|             | S. V.'s.                                                  | Rs. 30—75.                                                                                  |
|             | Trained Graduates.                                        | Rs. 40—90.                                                                                  |
| East Punjab | Government Schools.                                       | Rs. 80—150.                                                                                 |
|             | Schools under Local bodies.                               |                                                                                             |
|             | Schools under Panchayat and Private Managements.          |                                                                                             |
