| 160. Rai Bahadur A. P. Dube         | RAJPUTANA AGENCY Govt of India Industries and C. S. Department.                   | Indian.      | 27-3-39   | Assistant Secretary Govt. of India Defence Department Rs. 1,200/- p.m.   | Re-employed with effect from 1.5.48                        | Director of Civil Supplies discontinued for Rajputana Scheme Rs. 1250/- (less which ever pension) p.m. | 29.2.48 or 29.2.48 or                                                                                                               | When the temporary post of D.C.S. was first created in Oct. 1945, the Resident considered it necessary to appoint an experienced person, possessing some states, as he had during his tour in India States to come into personal contact with high state officials and in most cases with the Rulers themselves. A retired official |                                                                          |

**The Honourable Rajkumari Amrit Kaur:** Trials would naturally be carried out by the Vaidis themselves.

#### JUBBULPORE SIGNALS SEPOYS MUTINY

\*1359. **Shri H. V. Kamath:** Will the Honourable Minister of Defence be pleased to state:

(a) the number of persons involved in the Jubbulpore Signals Sepoys Mutiny of February-March, 1946;

(b) whether a trial by court-martial took place; and

(c) if so, with what result?

**The Honourable Sardar Baldev Singh:** (a) and (b). I would refer the honourable member to my answer to part (b) of Short Notice Question No. 75 asked by Ch. Ranbir Singh on the 8th April 1948.

(c) Seventeen persons were convicted on trial by court-martial. Fifteen of them were sentenced to various terms of imprisonment ranging from one to three years, while the remaining two were dismissed from the Service. All those sentenced to imprisonment have since been released.

**Shri H. V. Kamath:** Are these men who have been released, are they black-listed so far as future employment in any Government department is concerned?

**The Honourable Sardar Baldev Singh:** Those who were sentenced to terms of imprisonment cannot be reemployed. Those who were discharged can be re-employed.

**Shri H. V. Kamath:** Is it not a fact that the so-called mutiny took place during the troubled days of the I.N.A. trial and the R.I.N. revolt?

**The Honourable Sardar Baldev Singh:** No, Sir.

**Shri H. V. Kamath:** Is the date then wrong—February and March 1946?

**The Honourable Sardar Baldev Singh:** I could not say definitely whether this mutiny took place during the I.N.A. trial.

**Shri H. V. Kamath:** Is it a fact that the Jubbulpore or Mahakoshal Congress Committee actively defendend these mutineers?

**The Honourable Sardar Baldev Singh:** I have no such information.

#### WORKS OF ART AND ANTIQUITIES IN RAJPUTANA STATES

\*1360. **Shri H. V. Kamath:** Will the Honourable Minister of States be pleased to state:

(a) whether it is a fact that many valuable collections of old manuscripts, works of art and other antiquities in the Rajputana States, till recently in the custody of the respective State Governments, have been converted by some rulers into their private property; and

(b) if so, what action Government propose to take in the matter?

**The Honourable Sardar Vallabhbhai Patel:** (a) We have no such information.

(b) Does not arise.

**Shri H. V. Kamath:** Under the Instrument of Accession, have the Rulers been graciously permitted by Government to adorn their residences with some of these works of art and antiquities?

**The Honourable Sardar Vallabhbhai Patel:** If they belong to them, they are allowed.

#### STARRED QUESTIONS AND ANSWERS

**Shri H. V. Kamath:** This property which is under the State Government's custody, have the Rulers been permitted to adorn their residences with them?

**Mr. Speaker:** The honourable member makes a difference between personal property and that of the State.

**The Honourable Sardar Vallabhbhai Patel:** If the property belongs to the Ruler, he is allowed to keep it. If the property is State property, he is not allowed.

**Shri M. Tirumala Rao:** Sir, with reference to (a), is it the policy of the Government to allow some of these rare pieces or art and treasures to be sold out to foreigners, if they happen to be the private property of these Princes?

**The Honourable Sardar Vallabhbhai Patel:** If it is private property, he is free to sell.

**Shri M. Tirumala Rao:** Sir, is it not necessary—I am not asking for action, but only want to know the policy of the Government—is it not . . .

**Mr. Speaker:** That is all right, but the honourable member is making a suggestion.

**Shri M. Tirumala Rao:** No, Sir. I want information about the policy of the Government, about not allowing any of these treasures to be taken out of the country by any means.

**Mr. Speaker:** Order, order. Next question.

#### HOLDING OF MEETINGS AND DISTRIBUTION OF HANDBILLS BY GOVERNMENT SERVANTS IN SECRETARIAT

\*1361. **Shri H. V. Kamath:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) whether it is a fact that Government have banned the holding of meetings or distribution of handbills by Government servants within the Secretariat premises or adjoining lawns during or after office hours; and

(b) if so, whether the ban applies to bona fide activities of Unions or Associations of Government servants?

**The Honourable Sardar Vallabhbhai Patel:** (a) There is no ban but previous permission of the authorities concerned is necessary.

(b) Does not arise.

**Pandit Hirday Nath Kunzru:** I would like to put the Question No. 1362.†

**Mr. Speaker:** It will then come after the first round. Next question.

#### FORMATION OF NATIONAL CULTURAL TRUST

\*1362. **Shri Raj Bahadur:** (a) Will the Honourable Minister of Education be pleased to state what decision, if any, the Government of India have taken on the report and recommendations made by the Committee appointed to examine the proposal for the formation of a National Cultural Trust for India adopted by the Central Advisory Board of Education?

(b) Have any steps been taken to implement the said recommendations and if so, what progress has so far been achieved towards the formation and functioning of the National Cultural Trust?

(c) Have Government earmarked any funds for the furtherance of the proposal and if so, what is the amount so earmarked?

†Not reached during the question hour. Printed serially in the day's debate.—Ed. of D.

was therefore appointed with the approval of the Department on Industries and Supplies. That officer, however, voluntarily relinquished his post on May 1st 1946, when the present incumbent was appointed with the approval of the Industries and Supplies Department. No supersession of any claimant to the post was involved.

Chief Inspector  
Rs. 675 p.m.  
Extension with  
effect from  
18-10-1946.

Chief Inspector For one year.  
Rs. 675 p.m.

In the interests of  
public service.

The Inspector cadre consists of 1 Chief Inspector and 12 Inspectors drawn respectively from the ranks of Inspectors and senior preventive Officers. At the time the extension was recommended there were 3 new/ appointed Inspectors and 4th acting

Inspector was appointed. Of the 8 confirmed and experienced Inspectors five held staff posts and only 3 were available for duties connected with shipping, which includes general supervision over work performed at the dock, jetty moorings and river moorings and collector and customs on duty on passenger's It was, therefore, necessary in the public interest to retain the services of the Chief Inspector in order to guide and assist the four new Inspectors.

| 14. Jaipur | Out of a total strength of 125 in the Assembly, 120 are elected and 5 are nominated. Out of 51 in the Council 37 are elected and 14 are nominated.                                                                          | Executive consists of Dewan, nominated by Maharaja, four Ministers from Prajamandal party and two from Sardars party.                                                                                                                                                                                      |   |   |
| 15 Bikaner | Out of 32 members in the Raja Sabha, 29 are elected from general and special constituencies and three are nominated. All the 55 seats in the Dharasabha are filled by election from the general and special constituencies. | The Prime Minister and also the other Ministers (number not specified) are appointed by the Ruler subject to the condition that the Prime Minister shall be a person who enjoys the confidence of the Dhara Sabha and the other Ministers, shall be appointed on the recommendation of the Prime Minister. |   |   |

**NOTE : 1.** The information has been furnished only in respect of States which have not either joined in any of the Unions recently formed or merged in the adjoining British Indian Province. So far as Union States are concerned provision for the setting up of a Ministry responsible to the Legislature has been made in the covenants entered into by the Rulers.

*Shri Lakshminarayan Sahu's Starred Question No. 361, of 26th November 1947*

#### SUIT AGAINST GOVERNMENT FOR ILLEGAL SALE OF SALT BELONGING TO SUMADI SALT FACTORY.

After the death of T. C. Hariram the permanent lessee of the Sumadi Salt Factory, his five sons were allowed to operate independently, on five temporary licences. Manufacture went on in five different blocks, but as two of the five brothers namely M/s. Narmal Modi and Biswanath Modi, were absent at the time of storage, the salt produced there, was stored departmentally. Owing to salt scarcity in 1944 and 1945, the Factory Officer, Sumadi had to issue, under the orders of the District Collector, Ganjam, about 91,200 maunds of salt at cost price from the storage of M/s. Narmal Modi and Biswanath Modi. The action was taken under the cover of Defence of India Rules. A suit was filed by these two licencees, for execution order against Government of India and the issue was about payment of a compensation of Rs. 98,602-9-0 by the Central Excise Department. This was on the basis of a letter issued by the Sub-Judge Cuttack in 1946. A petition was lodged by the Government Pleader, Cuttack on behalf of the collector of Central Excise, Calcutta, requesting the withdrawal of the execution order. It was stated in the petition that the disposal of salt was effected under proper authority and there could be no claim of compensation by the plaintiffs.

The suit in the Sub-Judge's Court, Cuttack, has been dismissed. The Court has held that the execution against the Salt Department cannot proceed, as there is no judicial orders which can be executed. The Court has also ordered that each party will have to bear its own cost in the civil suit.

#### PROTECTION OF PROPERTY AND FUNDS OF EDUCATIONAL INSTITUTIONS AT LAHORE.

All non-Muslim educational institutions that were in the West Punjab have been requisitioned by the Government of Pakistan. In the City of Lahore, except Dayal Singh College, which is being run by the same management, all educational institutions are now under the control of the Pakistan Government. The names of some of the important institutions taken over by the Pakistan Government are as follows:—

1. D. A. V. College, Lahore.
2. D. A. V. High School, Lahore.
3. Sanatan Dharam College, Lahore.
4. Sanatan Dharam High School, Lahore.
5. Sir Ganga Ram High School, Lahore.
6. Sikh National College, Lahore.
7. Sikh College, Gujranwala.
8. D. A. V. High School, Gujranwala.
9. Sikh College, Lyallpur.

10. D. A. V. College, Lyallpur.
11. Sikh College, Rawalpindi.
12. D. A. V. College, Rawalpindi.
13. D. A. V. High School, Rawalpindi.
14. Sanatan Dharam College, Sargodha.
15. Sanatan Dharam High School, Sargodha.
16. Dev Smaj College, Lahore.
17. Dev Smaj High School, Lahore.
18. Ganga Ram Medical College, Lahore.

Pakistan Government are not paying any rents for the buildings of educational institutions requisitioned by them. The Pakistan Government have not so far even assessed their rental value. It is not known when these buildings would be assessed. According to the West Punjab Protection of Evacuee Property Act 1948 rents for houses owned by non-Muslims who have migrated to India will be recovered by the Custodian, West Punjab, on behalf of the owners and deposited in their accounts.

*Shri Rohini Kumari Chaudhri's Starred Question No. 106 (a), dated 3rd February, 1948*

**LIME AND COAL FOR ASSAM BENGAL CEMENT COMPANY, LTD., AND CONSTRUCTION OF PUBLIC WORKS IN ASSAM**

The Government of Assam granted a lease to the Eastern Corporation Ltd., on 1st November, 1938 who subsequently transferred it to the Assam Bengal Cement Company. A copy of the lease is attached.

**SPECIAL LEASE FOR LIMESTONE QUARRIES**

**For Establishment of a Cement Factory**

This indenture made the fourteenth day of November one thousand nine hundred and thirty-eight between the Governor of Assam hereinafter called the "Lessor" (which expression shall where the context admits be deemed to include his successors in office and assigns) acting through the Deputy Commissioner Khasi and Jaintia Hills (hereinafter called the Deputy Commissioner) of the one part and the Eastern Corporation Limited, 11, Clive Street, Calcutta hereinafter called the "Lessee" (which expression shall be taken to include its permitted assigns except where the context requires another or different meaning) of the other part witnesseth that in consideration of the rents and royalties and lessee's covenants hereinafter reserved and contained the lessor doth, hereby demise unto the lessee all the limestone situated in the lands measuring 594.40 acres known as Komorrah Quarries situated in British Sohar Sirdarship in Khasi and Jaintia Hills District as described in the Schedule I and delineated in the plan thereto annexed and therein coloured red (hereinafter called the said lands) to hold the same for a period of 20 years commencing from the 1st day of November 1938 ending on the 31st day of October 1958 for the purposes and subject to the terms and conditions set forth below namely:

1. The lessee shall have the right in and upon the said lands, to quarry limestone and to convert it into lime or cement and to do all acts necessary for the extraction of the limestone or the manufacture of the lime or cement including the erection on the said lands of buildings and plant required for these purposes and also to take lead and carry away over the said lands the limestone to be gotten as aforesaid and the cement to be manufactured and to dispose of such manufactured articles at his own will and pleasure.

2. The lessee shall as from the 1st day of November 1938 during the subsistence of this lease pay to the lessor during the first two years the certain half-yearly rent of Rs. 3,000 and thereafter the half-yearly rent of Rs. 16,000 the first payment of rent to be made on the 15th day of November 1938 for the period from 1st November 1938 to 30th April 1939 calculated at the said half-yearly rate of rent and the subsequent payments to be equal and to be made every half-yearly thereafter that is on the 15th day of November and May in each year. For and in respect of the rent so paid the lessee may in the period in respect of which the same is payable raise, manufacture, sell, and export from the said lands such aggregate quantity of limestone, lime or cement as at the rates in the next succeeding clause mentioned would produce for that period royalties equal in amount to the rent paid by the lessee but the said certain half-yearly rent as from the said 1st day of November 1938 shall always be paid notwithstanding that the quantity in fact raised or manufactured and exported may have fallen short of the quantity needed to produce the said royalties equal in amount to the rent.

3. Secondly the lessee shall pay to the lessor at such places and such manner as the Government may direct a royalty at the rate of Rs. 2 per 100 quarry maunds of limestone on all limestone extracted from the said lands over and above the quantity which the lessee by clause 2 of this lease is authorised to work in respect of the said certain rent:

Provided that the lessor shall at any time have the right to revise the rate of royalty when the profits of the company in any financial year as assessed to income tax (less however income tax paid in respect of such financial year) exceed 15 per cent. of the paid up capital of the company.

Six calendar months' notice of the said revision will be given by the Deputy Commissioner by registered letter addressed 11, Clive Street, Calcutta. Any doubt difference or dispute touching the said revision is hereby agreed to be within the provisions of clause 46 of this lease without prejudice to the generality of the said clause 46.

4. The lessee shall pay to the lessor Rs. 5,000 only annually during the period of the lease on November 15th starting from November 15th, 1938 as a protection fee. In consideration of this protection fee the lessor undertakes not to allow any person or company

any lease permit or prospecting license for limestone in the group of quarries as described in Schedule 2 and delineated in the plan thereto annexed and therein coloured blue called the Durgasil area without a condition in such lease permit or prospecting license that no limestone shall be used for the manufacture of cement.

In the event of any quarry in the Durgasil area not being worked the lessor may allow the lessee to work such quarries under the terms and conditions of working in force for this area.

5. Besides the above protection fee the lessee shall pay to the lessor annually the sum of Rs. 35,000 only for five years starting from the 15th day of November 1940 as a further protection fee so long as the total amount of limestone quarried by the lessee in a year does not exceed 22,00,000 maunds per year whether quarried in the area of this lease or elsewhere or obtained by purchase from other quarries in the Khasi and Jaintia Hills by the lessees. If however in any year the total amount of limestone converted into cement at the lessee's Sylhet Factory exceeds 22,00,000 maunds the lessee will be entitled to an abatement at the rate of Rs. 20 for every 1,000 maunds quarried in excess of 22,00,000 maunds and the lessee shall pay the sum of Rs. 35,000 less the abatement calculated on the basis hereinbefore mentioned. Limestone which is not converted into cement at the lessee's Factory in Sylhet District will not entitle the lessee to any abatement in the protection fee. The lessor in consideration of the said payment undertakes not to allow any person or company any lease permit or prospecting license for limestone in the whole of Khasi and Jaintia Hills District without a condition in such lease permit or prospecting license that no limestone extracted shall be used directly or indirectly for the manufacture of cement. The lessor will be empowered to terminate this agreement for the payment of a protection fee at any time after it has run for 5 years by giving six months' notice in writing by registered letter addressed to 11, Clive Street, Calcutta but the lessee will not be entitled to terminate this agreement during the currency of the lease except with the consent of the lessor.

6. The lessee shall purchase the existing works in the occupation of (1) Wahed Ali, (2) Haji Baitullah Md. Somad Ullah and Md. Arphan Ali, (3) Ka Rajebon and (4) Sylhet Lime Company Limited, Calcutta; the said works comprising buildings tramways and other materials and works situated on or appertaining to or connected with the quarry or parts thereof as at date of taking possession and entered in the annexed Schedule No. 3 and comprising also working faces in the occupation of the four parties aforesaid. In default of prices for any or all the aforesaid items being settled by agreement between the lessee and the party or parties concerned the lessee shall pay compensation at the Deputy Commissioner's valuation. It is also declared that without prejudice to the generality of Clause 46 below its provisions shall apply to any doubt difference or dispute arising from or connected with the Deputy Commissioner's valuation.

7. No workings shall be commenced or be permitted to be commenced by the lessee in or under the said lands at or to any point within a distance of 50 yards at or to any point within a distance of 50 yards from any trestle of the Cherra Chatak Ropeway Company's Ropeway. And on receiving notice in writing by registered letter addressed to 11, Clive Street, Calcutta from the Deputy Commissioner the lessee shall strengthen and support to the Deputy Commissioner's satisfaction and workings within the time specified by the Deputy Commissioner including any extensions granted by the Deputy Commissioner when in the Deputy Commissioner's opinion which shall be conclusive such strengthening and supporting is necessary for the safety of any aerial Ropeway. Such strengthening and supporting shall be carried out at the expense of the lessee if required in consequence of the lessee having worked within 50 yards of an aerial ropeway's trestles. In default of the work being done as aforesaid within the time limited by the Deputy Commissioner, and to his satisfaction the Deputy Commissioner shall be entitled to have the work done by any other party whom the Deputy Commissioner to be conclusive in this behalf, and the cost of the work including all incidental charges shall be recoverable as provided in Clause 45 below.

8. That the lessee shall pay any cesses or other local or special taxation which may hereafter be imposed by law in addition to the rent, royalty and protection fees payable as aforesaid.

9. The lessee will be bound to complete the erection in Sylhet District by 31st December, 1940 of a Cement Factory capable of an average output of 250 tons of cement a day. In default whereof his deposit will be forfeited as provided in the next following clause. The opinion of the Government of Assam as to the fulfilment of the conditions herein specified shall be conclusive.

10. That Rs. 10,00,000 deposited by the lessee on 24th September, 1937 as per Schedule No. 4 annexed herewith when applying of a limestone lease will be forfeited if there is a breach of Clause 9 but on erection of such Factory as provided in clause 9 preceding to the satisfaction of the Government of Assam, the deposit will be returned together with the interest accrued to it:

Provided that the lessee will pay all the expense incurred by the Government of Assam in satisfying themselves that the factory is as described in Clause 9 and will give the expert or officer engaged by the Government of Assam all facilities for inquiries.

11. That the lessee undertakes to have and keep his factory in full operation within a period of not more than one year after its completion. The lessee also undertakes not to suffer the factory to cease operation for a period of or periods aggregating 12 (twelve) months within any two calendar years unless caused to do so by cyclones, floods, storms, earthquakes or other occurrences beyond the lessee's control during the period that the protection described in Clause 5 is in force. On the lessee defaulting in either of the foregoing respects the lesser shall have the power of terminating the agreement described in Clause 5 notwithstanding that the agreement may not have run for as much as five years on the said default occurring.

12. That the lessee shall carry on operations in a proper and skilful manner unless prevented by unavoidable cause. Whether operations are carried on in a proper and skilful manner and whether cause preventing them from being so carried on is unavoidable will be determined by the Government of Assam.

13. That for the purpose of ascertaining whether operations are being carried on in a proper and skilful manner it shall be open to the Government of Assam to depute an officer on the requisition of the Deputy Commissioner to report if operations are being carried on in a proper and skilful manner and if that officer reports that the operations are not being carried on in a proper and skilful manner the lease shall be liable to forfeiture or the penalties provided in Clause 38 below shall be deemed to be due to Government and the said penalties as well as any other sums due to Government shall be recoverable as provided in Clause 45 below. PROVIDED that at least one warning shall be delivered to the lessee by a registered letter addressed to 11, Clive Street, Calcutta before the lease is forfeited.

14. That the lessee shall at all times, during the said term keep or cause to be kept at an office to be situated upon or near the said lands correct and intelligible books of accounts upon such plan or principle and in such form as may be approved by the Government of Assam which books shall contain accurate entries showing from time to time (1) the area used for mining operations during each calendar month, (2) the quantity and selling price of all limestone was sold and exported from the said lands and of cement manufactured sold and exported therefrom and (3) the number of persons employed in the mines or works in or upon the said lands and the lessee shall also furnish free of charge to such officer and at such times as the Government of Assam may appoint true and correct abstracts of all or any of such books of accounts and such information and returns as to all or any of the matters aforesaid as the Government of Assam may prescribe and shall at all reasonable times allow such officers as the Government of Assam shall in that behalf appoint to enter into and have free access to the said office for the purpose of examining and inspecting the said books of accounts as to all or any of the matters aforesaid and to take copies thereof and make extracts therefrom.

15. The Government of Assam and any persons authorised in this behalf may enter the said lands and make over them any railway road tramway or aerial ropeway and may get from the said lands stone gravel earth and other materials for making maintaining and repairing such railways tramways and roads or any existing railways, tramways and roads may go and re-pass at all times over or along any such railways, tramways or roads for all purposes and as occasion may require.

16. The agents, servants and workmen authorised by the Government of Assam in this behalf shall be at liberty at all reasonable times during the said term to inspect and examine all mines and works carried on by the lessee in or under the said lands, and make surveys or plans thereof and the lessee shall with proper persons employed by the lessee and acquainted with the quarries and works effectually assist such agents, servants and workmen in conducting every such inspection examination or survey and shall afford them all information connected with the working of the quarries which they may reasonably require and also shall and will conform to and observe all orders and regulations which the Government of Assam or the Government of India as the result of such inspection examination or survey or otherwise may from time to time see fit to impose.

17. The lessee shall without delay send to the Deputy Commissioner a report of any accident which may at any time occur at on or in the said lands or any pit shaft or working therein.

18. Whenever the lessee shall find in the said lands any mineral or product other than the said limestone the lessee shall immediately report such discovery in writing to the Deputy Commissioner with full particulars of the nature and position of each find.

The lessee shall during the 12 calendar months next succeeding such discovery have the option of taking a mining lease for such minerals according to the rules prescribed for the grant of mining leases.

19. No building or thing shall be erected set up or placed and no surface operations shall be carried on in or upon any public pleasure ground burning or burying ground or place held sacred by any class of persons or any house or village site public road or other place which the Government of Assam may determine on public grounds to bring within this restriction nor in such a manner as to injure or prejudicially affect any buildings works, property or rights of others persons and no land shall be used for surface operations which is already occupied by persons other than the Government of Assam for works or purposes not included in this lease if any other land not so occupied is suitable and available for such surface operations.

20. The lessee shall not without the expression sanction of the Deputy Commissioner cut down or injure any timber or trees on the said lands but may without such sanction clear away any brushwood or undergrowth which interferes with any operations authorised by these presents.

21. The lessee shall observe all rules framed by the Government of Assam or by the Government of India to enable the limestone exported to be checked and will follow such procedure as the Government of Assam or by the Government of India may prescribe for the export of limestone.

22. The lessee shall make and pay reasonable satisfaction and compensation for all damage or injury to person or property which may be done by or on the part of the lessee in exercise of the liberties and powers granted by these presents and shall at all times save harmless and keep full indemnified the lessor from and against all suits, claims and demands which may be brought or made by any person or persons in respect of or arising out of any such damage or injury.

23. The lessee shall exercise and enjoy the following liberties and powers subject to the terms and conditions hereinbefore and hereinafter contained.

- (a) Liberty, and power for or in connection with any of the purposes mentioned in these premises to make, maintain and use in the said lands any and all necessary works (and to use, maintain, deepen or extend any existing works of the like nature in the said lands).
- (b) Liberty and power for or in connection with any of the purposes mentioned in these premises to erect construct, maintain and use on or under the said lands any engines, machinery, plant, dressing, floors, furnaces (cooke-ovens), brick kilns, lime kilns, workshops, storehouses, bungalows, godowns, sheds and other buildings and other works, and conveniences and to use and maintain any existing works and conveniences of the like nature on or under the said lands.
- (c) Liberty and power for or in connection with any of the purposes mentioned in these premises to make any tramways, railways, roads and other ways in or over the said lands and to use maintain and go and re-pass with or without horses, cattle, wagons or locomotives over the same or any existing tramways, roads, railways and other ways in or over the said lands.
- (d) Liberty and powers for or in connection with any of the purposes mentioned in these premises to quarry and get stones, sand, gravel and other building and road materials and clay provided that the usual royalties are paid and to use and employ the same and to manufacture such clay into bricks or tiles and to use such bricks or tiles but not to sell any such materials bricks or tiles.
- (e) Liberty and power for or in connection with any of the purposes mentioned in these premises to appropriate and use any streams, water-courses, springs or water in or upon the said lands and to divert, stop up or dam any such stream or watercourse and collect or impound any water and to make, construct and maintain any watercourses, culverts, drains and reservoirs but not so as to deprive any cultivated lands, villages, buildings or watering places for livestock of a reasonable supply of water as before accustomed nor in any way to foul or pollute any streams or springs.
- (f) Liberty and power to enter upon and use a sufficient part of the surface of the said lands adjacent to any pits or works for the purposes of stacking, heaping or depositing thereon any produce of the works carried on under the liberties and powers mentioned in these premises.

24. The lessee paying the rents and royalties hereby reserved and observing and performing all the covenants and agreement herein contained and on the part of the lessee to be observed and performed shall and may quietly hold and enjoy the rights and premises

hereby demised for and during the term hereby granted without any lawful interruption from or by the lessor or any person rightfully claiming under him.

25. The lessee will exercise the liberties and powers hereby granted in such a manner as to offer no unnecessary or reasonably avoidable obstruction or interruption to the development and working of any minerals not included in this lease and will at all times afford to the lessor and to the holders of prospecting licenses or mining leases in respect of any such minerals or any minerals within any lands adjacent to the said lands reasonable means of access and safe and convenient passage upon and across the said lands to such minerals for the purpose of getting, working, developing and carrying away the same.

26. The lessee shall not enter into or make any arrangement compact of understanding whereby the lessee will or may be directly or indirectly financed or by or under which the lessee's operations of undertakings will or may be carried on directly or indirectly by or for the benefit of or subject to the control of any Trust Syndicate Corporation Firm or persons unless with the written sanction of the Government of Assam given prior to such arrangement compact or understanding being entered into or made and any or every such arrangement compact or understanding as aforesaid (entered into or made with such sanction as aforesaid) shall only be entered into or made and shall always be subject to an express condition binding upon the other party or parties thereto that on the occasion of a state of emergency of which the Government of Assam shall be the sole judge it shall be terminated if so required in writing by the Government of Assam and shall in the event of any such requisition being made be forthwith thereafter determined by the lessee accordingly.

27. (a) The lessee shall at all times during the said term remain or be a British subject or subjects or a British company or corporation registered incorporated or established in British India or the United Kingdom or some other part of His Majesty's dominions and of which at all times during the said term the Chairman or President or other persons occupying that or any similar position (if any) and the Managing Director (if any) and a majority of the other Directors (if any) shall be a British subject or British subjects and the Managing Agent or Managing Agent Secretaries or Secretary (if any) shall be a firm the majority of the members of which are British subjects and the Managing Agent or Managing Agent.....subjects an individual who is a British subject or a company in every respect answering the description and satisfying the conditions last hereinbefore contained and laid down as those to which the Company itself must as the lessee conform.

(b) The Local General Manager and not less than 90 per cent. of the local staff employed by the lessee shall at all time during the said term be a British subject or British subjects or a subject of a Khasi State and neither the lessee nor the said quarries and limestone shall at any time during the said term be or become directly or indirectly controlled or managed by any person, or persons who is or are not a British subject or subjects or a company in every respect answering to the description on and satisfying the conditions last thereinbefore mentioned.

28. The lessee shall as far as possible employ in all its operations within the Province *bona fide* at a natives of the province save that in so far as properly qualified candidates are not available from amongst them they can be recruited from outside the Province.

29. The lessee being a company or corporation shall report to the Government of Assam any alteration in its Memorandum or Articles of Association or in its constitution within 14 days after the same shall have been made and shall give two months' previous notice in writing to the Government of Assam of any intention or proposal to make any such alteration which might conceivably effect its British status or character and no such alteration shall be made unless the Government of Assam shall have previously consented thereto in writing provided always that the consent of the Government of Assam shall not be refused to any such alteration as aforesaid in the Memorandum and Articles of Association or the constitution of the lessee unless in its opinion such alterations shall be contrary to the cardinal principle laid down by the Government of Assam in respect of the said limestone that is to say that the lessee shall be and remain a British subject or subjects or a British company under British control.

30. If at any time during the continuance of this demise the said quarries and works shall become destroyed or rendered substantially and permanently unfit for the purpose of this demise by fire, earthquake, tempest, flood, violence of any army or mob or their irresistible force those presents shall at the option of the lessee be void. *Provided* that if the injury be occasioned by the wrongful act or default of the lessee or the servants of the lessee shall not be entitled to the benefit of this provision. And provided also that if this lease shall become void for or by reason of any of the causes aforesaid it shall be without prejudice to the rights and remedies of the Government of Assam under or by virtue of these presents or otherwise to and for the recovery of any rent or royalty which may then remain unpaid or in respect of any breach which may have been committed of any the covenants herein contained on the part of the lessee.

31. Notwithstanding any other provision in this lease the lessee shall not be allowed to sell lime.

32. Notwithstanding any other provision in this lease the lessee shall not be allowed to sell limestone except that with the permission of the Deputy Commissioner limestone may be sold to the Sylhet Lime Co. Ltd. The Sylhet Lime Co. Ltd. shall be at liberty to purchase from the lessee such quantities of limestone as it may require provided that in the case of any quantity in excess of one lakh of maunds per annum the Sylhet Lime Co. shall not be entitled to purchase such excess quantity save with the permission of the Deputy Commissioner which may be withheld if in his opinion such permission would adversely affect the interests of other local limestone quarry holders.

33. The lessee shall if required to so furnish the Deputy Commissioner with a list of all agents, contractors, servants or workmen employed by him upon or in connection with the work which the lessee is authorised or bound to do under the terms of this lease; he shall not employ any person or persons whom the Deputy Commissioner by notice in writing addressed to 11, Clive Street, Calcutta shall require to be debarred from working in this undertaking.

34. The lessee shall furnish such reports and returns relating to output labour employed and other matters as the Government of Assam or the Government of India may from time to time prescribe.

35. The lessee shall furnish annually to the Deputy Commissioner, Khasi and Jaintia Hills four copies of the balance sheet trading account revenue account and profit and loss accounts duly certified by the Auditors with the report of the Board of Directors.

36. That the said lands shall be subject to all existing rights of way and water and other easements.

37. If the lessee shall be desirous of taking a further lease of the said lands for a further term of 20 years and shall give six month's notice in writing of such desire to the Deputy Commissioner the lessor may renew the lease for such further term of 20 years upon such conditions as may be decided by the Government of Assam.

38. If the lessee shall at any time during the said term commit a breach of any condition of this lease it shall be lawful for the Government of Assam to cancel this lease and take possession of the said lands or in the alternative to receive from the lessee such penalty for the breach not exceeding four times the amount of the said twenty half-yearly rent as the Government of Assam may fix.

39. This lease is subject to all rules and regulations which may from time to time be issued by the Government of Assam or the Government of India regulating the working of the quarries and factory and other matters affecting the safety health and convenience of the lessee's employees or of the public whether under the Indian Mines Act or any Act of the Central or Provincial Legislature of otherwise.

40. The lessee shall have no claim against the Government of Assam for compensation or damages in respect of land having been included in his lease which has already been included in some previous lease but the lessee shall be entitled to proportionate reduction of rent due under Clause 2 in respect of any land covered by the lease which may subsequently be discovered not to have been available for leasing.

41. The lessee shall at the lessee's own expense erect and at all times maintain and keep in repair suitable boundary marks and pillars along the boundaries of the said lands according to the demarcation shown in the plan hereto annexed.

42. The lessor has the right to make surface roads and aerial ropeways over any block in the leased area or to otherwise utilise for public purposes any portion of such blocks.

43. The lessee shall not assign or underlet the said lands or any part thereof or the rights or privileges therein hereby granted or any of them without the previous written sanction of the Government of Assam and in the case of any such assignment or transfer sanctioned under this provision in the instrument thereof shall within 3 calendar months from the date of its completion be produced to the Deputy Commissioner and the sum of Rs. 50 paid to the Deputy Commissioner as the fee for registration thereof in his office:

*Provided* that the lessor shall not refuse to sanction the transfer under this clause from the lessee to the Assam Benagl Cement Co. Ltd.

44. Nothing in this lease shall be deemed to exempt the lessee his agents and employees from the consequence of breach of any law or rule in the areas under this lease. Failure on the part of the lessee his agents or employees to give necessary information or render assistance to the Government of Assam and to officers deputed in this behalf in accordance with the law for the time being in force may be followed at the discretion of the Government by the cancellation of this lease or alternative by recovery from the lessee of such penalty

[24TH MARCH 1949]

M.                                                                          |                                |

Mr. Speaker: Next question, Mr. Tyagi, No. 1356?

Shri Mahavir Tyagi: It has already been dealt with; I do not want to put the question.

Mr. Speaker: The honourable member does not want to put the question. Next question.

#### DISMISSAL OF GOVERNMENT EMPLOYEES ON POLITICAL GROUNDS

\*1357. Shri Arun Chandra Guha: (a) Will the Honourable Minister of Home Affairs be pleased to state the number of employees under the Government of India who were removed from their posts or dismissed from services on political grounds on police reports during the years 1940 to 1946?

(b) In how many cases has the ban been removed since September, 1946?

(c) How many of these have since been re-instated?

(d) Have those who have been reappointed, been given the benefit of continuity of service or have they been appointed as new employees?

The Honourable Sardar Vallabhbhai Patel: (a) to (d). The honourable member's attention is invited to the reply given to starred question No. 457, by Giani Gurmukh Singh Musafir on the 17th February, 1949, and to paragraphs 11 and 15 of the Review of the activities of the Home Ministry, copies of which have been circulated to honourable members. Government have under consideration certain proposals designed to improve the procedure of reemployment and to resettle incidental matters including the question of continuity of service referred to by the honourable member.

#### SULPHONE THERAPY FOR TREATMENT OF LEPROSY

\*1358. Shrimati Dakshayani Velayudhan: (a) Will the Honourable Minister of Health be pleased to state whether the attention of Government has been drawn to a report which appeared in the *Illustrated London News* that sulphetrone, a new drug, is having amazingly beneficial effects in the treatment of leprosy?

(b) If the answer to part (a) above be in the affirmative, do Government propose to try the same in India?

The Honourable Rajkumari Amrit Kaur: (a) Government are aware of the use of sulphetrone and other drugs of the "sulphone group" in the treatment of leprosy.

(b) The All-India Leprosy Workers' Conference held in Calcutta in December 1948, passed a resolution that as Sulphone therapy has proved to be effective in lepromatous leprosy, this group of drugs should be made available at an economic price for the treatment of suitable cases and should be permitted to enter the country duty-free. The question is under consideration. The possibility of producing Sulphone drugs in India will also be considered.

Shri H. V. Kamath: Has the Honourable Minister at any time consulted Ayurved experts or Vaidas about the treatment of this disease?

The Honourable Rajkumari Amrit Kaur: Vaidas are very frequently sending me samples of medicines for leprosy. But I have not had satisfactory proofs of the results of the treatment with their medicines.

Shri H. V. Kamath: Have they been given a trial?

for the breach not exceeding four times the amount of the said half-yearly rent as the Government of Assam may fix.

45. Arrears of rent royalty either or both protection fees cesses due under this lease the cost of the work referred to in clause 7 preceding the penalties referred to in clause 13, 38 and 44 preceding and any other sums due to Government are recoverable as an arrear of land revenue :

Provided that the lessee shall pay interest at the rate of 10 per cent. per annum on all arrears of rent royalty protection fees cesses or other sums specified in the preceding part of this clause from the date the same fall due until the date of payment.

46. Whenever any doubt differences or dispute shall hereafter arise touching the construction of those presents or anything therein contained or any matter or thing connected with the said lands or the working or non-working thereof or the amount or payment of any rent or royalty reserved or made payable hereunder or the any other matter or question arising out of these presents the matter or question in doubt difference or dispute shall be decided by the Government of Assam whose decision shall be final and binding on the parties hereto.

In witness hereof the parties have set their hands the day and the year first above written.

Signed and delivered by the Deputy Commissioner, Khasi & Jaintia Hills for and on behalf of the Governor of Assam.

(d) Have Government taken any steps, pending the coming into being of the National Cultural Trust, to trace out, procure and preserve the valuable and rare manuscripts and other unearthed or undiscovered literary wealth of India and if so, with what success and at what cost?

(e) Have Government received any representations or suggestions from private individuals or bodies to achieve the objectives mentioned in part (d) above?

(f) If so, from whom and when were they received?

(g) What steps have Government taken on such representations or suggestions, if any?

**The Honourable Maulana Abul Kalam Azad:** (a) and (b). The scheme for the establishment of a Central Cultural Trust as recommended by the Committee referred to in the question has been accepted in principle, but in accordance with the desire of the Standing Committee of Legislature the scheme has been slowed down and the details are being worked out.

(c) A sum of rupees one lakh has been included in the budget estimates for the year 1949-50. It is proposed to undertake some preliminary work in connection with the Trust and to call three conferences of experts in various branches of fine art and letters which will discuss the further programme of Cultural activities for the country.

(d) On the recommendations of the Indian Historical Records Commission, the Government of India provided in the budget of the National Archives of India a sum of Rs. 5,000 during 1947-48 and Rs. 5,400 during 1948-49 for purchase of historical documents with private individuals. Besides the above, the Indian Historical Records Commission have been authorised to set up eight *ad-hoc* Records Regional Survey Committees in the Provinces to carry out the survey work and to purchase documents. During the last three years, Government of India have given a grant of Rs. 28,000 to these Committees for the purpose. The documents as and when purchased are deposited with the National Archives of India.

(e) to (g). In addition to the Indian Historical Records Commission who made certain recommendations a suggestion has been received for the establishment of a Literary Directorate for India to collect the explored and un-explored literary wealth of India. The Government will ask the Trust after it has been established to consider this suggestion and any other suggestions which may be made to them.

#### SOLDIERS DISCHARGED AFTER AUGUST 1947

**\*1363. Shri Mahavir Tyagi:** (a) Will the Honourable Minister of Defence be pleased to state how many soldiers have been discharged with their accounts finally settled, since August 1947?

(b) How many were discharged without payment of their dues, and how many of such persons lodged complaints with the Record Officer?

**The Honourable Sardar Baldev Singh:** (a) and (b). The number of J.C.O.s, other Ranks, etc. who have been released from the Army during the period 1st August, 1947 to 31st January, 1949 being as many as 54,325, it would not be possible to collect the information asked for without an expenditure of time and labour hardly commensurate with the results likely to be achieved.

Generally speaking, however, a soldier's account is finally adjusted and credits paid to him before he proceeds to his home on discharge. In some cases, where

the relevant records are not readily available and the accounts cannot therefore be finalised before the soldier proceeds home on discharge, a portion of any credit balance in his account is withheld for adjustment and the balance is paid to him then and there. In the majority of cases, final adjustments are made within three months from the date of discharge and the credit balance if any, sent to the soldier at his home.

It is not possible to give the number of persons who have complained about non-receipt of their dues, but all cases of delay in the settlement of accounts which have been brought to the notice of Government have been examined and disposed of with all possible expedition.

**Shri H. V. Kamath:** Sir, what is the position with regard to the soldiers of the I.N.A.?

**The Honourable Sardar Baldev Singh:** The question does not relate to I.N.A. It relates to officers and other ranks who have been released from the regular army.

**Shri H. V. Kamath:** Is it not a fact that so far as the I.N.A. were concerned, the British regime had devised three categories called, White, Grey and Black, and those under the White category were paid their full arrears of pay, and the Grey and Black who had shown greater enthusiasm for the national cause were not paid at all?

**The Honourable Sardar Baldev Singh:** How does this arise out of the question?

**Shri H. V. Kamath:** The I.N.A. also are soldiers.

**Mr. Speaker:** May be, but the question does not arise. Next question.

#### WOMEN POLICE FORCE IN DELHI

**\*1364. Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) the number of women in the Police Force in Delhi Province;

(b) whether Government propose to increase the number of women police; and

(c) in which Provinces and States women are employed in the Police Force?

**The Honourable Sardar Vallabhbhai Patel:** (a) Twenty-one in all—One Sub-Inspector, two head constables and 18 foot constables.

(b) An increase will be made if and when it is considered necessary.

(c) The Government of India have no information.

**Shri H. V. Kamath:** Is there any separate training school for women in the Police Force?

**The Honourable Sardar Vallabhbhai Patel:** I do not think so.

**Shri H. V. Kamath:** Are the duties assigned to these women as arduous as are assigned to men?

**The Honourable Sardar Vallabhbhai Patel:** It is a matter of opinion; the women may consider that their duties are more arduous and the men may consider that their duties are more arduous; but they are both useful.

**Shri H. V. Kamath:** How many applicants were there for enrolment in the Women's Police Force, and how many of them were refugees?

**The Honourable Sardar Vallabhbhai Patel:** I cannot say.

Pandit Mukut Bihari Lal Bhargava's Starred Question No. 320 (b), (c), (d) and (h) of 18th February, 1948

GOVERNMENT HELP TO REFUGEES AT DEOLI CAMP AND INHABITANT OF A NEW TOWN

(b) On the 17th February, 1948, 1,765 refugees (including children on milk) were being supplied with free food ration and clothing. The weekly expenditure on such refugees was Rs. 4,000.

(c) Present population of the Deoli Camp is 9,967. All these refugees have been accom-  
modated in barracks and the quarters for the staff at the Camp. In addition to the liberty

to render spaces used by putting temporary purdahs, arrangements have since been made to provide a purdah wall for latrines and bath-rooms. Moreover as ultimately the refugees are to be shifted to the place of their rehabilitation, it is not considered advisable to convert the barracks into small rooms.

(d) All pucca built quarters, bungalows, etc. are being utilized to accommodate the refugees. Arrangements for the supply of water and electric light have been made.

(h) The schemes for monetary help to refugees have started functioning only recently. No monetary help under these schemes has so far been taken by refugees in Ajmer-Merwara. As regards food rations and clothing, the honourable member is referred to reply to part (b) of the question.

## FILM CENSORSHIP

**\*1365. Shri Basanta Kumar Das:** Will the Honourable Minister of Information and Broadcasting be pleased to state:

(a) the total number of films censored during the year 1948;

(b) the main principles followed in censoring films; and

(c) whether films censored in a foreign country have to be subjected to censorship again for the purpose of exhibition in this country?

**The Honourable Shri R. R. Diwakar:** (a) and (b). Information required by the honourable member is not available with the Government of India as censorship of films is at present undertaken by the Provincial Governments.

(c) Yes, Sir.

**Shri Basanta Kumar Das:** What control is exercised by the Ministry on the Provincial Censorship Boards?

**The Honourable Shri R. R. Diwakar:** There is the Cinematograph Act and according to the Cinematograph Act, Provincial Censorship Boards are formed, and there is no direct control from the Centre on these Censorship Boards.

**Seth Govind Das:** Is there any proposal, Sir, to set up a Central Board, so far as censorship is concerned?

**The Honourable Shri R. R. Diwakar:** Yes: There is not only a proposal, but in the last session of the Constituent Assembly an amendment to Government of India Act has been passed which authorizes this Parliament to go in for legislation to establish Central Censorship.

**Seth Govind Das:** Have the Government seen the recent tendency of producing obscene films by many producers, and what steps are Government taking to see that the Censors work more rigidly?

**Mr. Speaker:** The question is only illustrative of the existing controls.

**Seth Govind Das:** When the Central Board comes into operation, will the Provincial Boards be scrapped?

**Mr. Speaker:** It is hypothetical.

## RECRUITMENT TO ALL-INDIA SERVICES FROM STATES

**\*1366. Shri Lakshminarayan Sahu:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) whether Government make any distinction between the citizens of the Provinces of India and of the acceding and non-acceding Indian States in recruiting candidates to their services—diplomatic, administrative or others; and

(b) the number, if any, of the citizens of the acceding and non-acceding Indian States who have been recruited to all India services diplomatic and others since August 1947?

**The Honourable Sardar Vallabhbhai Patel:** (a) No distinction is made between persons domiciled in acceding States and persons domiciled in Provinces of the Indian Union in respect of appointments to any Service or post maintained exclusively under the control of the Central Government. Persons domiciled in non-acceding States are required to obtain a declaration of eligibility before appointment to such services or posts. The position is different in respect of the Indian Administrative Service, and the Indian Police Service. These Services are organised and maintained on an All-India basis, and appointments to these Services are regulated by a scheme which has been agreed upon by the Central and the Provincial Governments. According to this scheme, only those candidates who are domiciled in the participating provinces are at present eligible. It is intended, however, that the candidates from

acceding States should also be made eligible as and when the States concerned agree to participate in the Scheme.

(b) The information is being collected and will be placed on the table of the House.

**Shri H. V. Kamath:** Among the persons recruited to these diplomatic, administrative and other services from the States, is it a fact that a larger number is drawn from the Princely families than from the Plebians?

**The Honourable Sardar Vallabhbhai Patel:** I do not know. I have no information as to what appointments are made in foreign service. A few members who are considered to be very efficient and useful from the princely families may have been employed.

**Shri M. Tirumala Rao:** With regard to part (a) of the answer, is it a fact that with regard to States that have acceded to the Indian Union like Mysore, Travancore and Cochin, a disability operates against those who are domiciled in the Indian Union from competing for administrative posts in those States, while the citizens of those States are free to join the All India Services?

**The Honourable Sardar Vallabhbhai Patel:** It is quite possible. We are more broad-minded.

## RECRUITING Melas HELD IN 1948

**\*1367. Babu Ramnarayan Singh:** Will the Honourable Minister of Defence be pleased to state how many recruiting *melas* were held in the year 1948, province-wise, and what was the cost of each *mela*?

**The Honourable Sardar Baldev Singh:** Ten *melas* were held in 1948 five in East Punjab, three in the Bombay Presidency and one each in the U.P. and Kolhapur State.

Information with regard to the cost of each *mela* is not readily available, as expenditure on such *melas*, except for actual recruiting expenses, are met by voluntary public contribution.

**Babu Ramnarayan Singh:** May I ask Sir, why any such *mela* was not held in the Province of Bihar?

**The Honourable Sardar Baldev Singh:** As I pointed out, these *melas* are held generally at the request of the public and as no request was received from Bihar no *mela* was held there.

**Pandit Hirday Nath Kunzru:** Is it a fact that these *melas* have had an excellent effect both on the Army and on the public?

**The Honourable Sardar Baldev Singh:** Yes, Sir. It is generally believed that these *melas* are very good both from the public point of view and from the Army point of view.

**Babu Ramnarayan Singh:** For how many days such *melas* continue at one place?

**The Honourable Sardar Baldev Singh:** The *melas* are held generally for a day only.

**Babu Ramnarayan Singh:** What is done in that *mela*, Sir?

**Mr. Speaker:** Order, order.

## RECRUITMENT OF SOLDIERS FROM BIHAR

**\*1368. Babu Ramnarayan Singh:** Will the Honourable Minister of Defence be pleased to state district-wise the number of soldiers and officers who have been recruited from the province of Bihar in the year 1948 and also the agencies through which the recruitment was made?

\* Addresses not available.

\*\* A number of persons not black-listed and addresses of 55 persons not known. It has been decided to reopen the cases of persons whose addresses are not available only on the candidates approaching the Ministries concerned.

† Persons reported dead included.

‡ Two reported dead and ban not imposed against two others.

§ Out of the pending cases the addresses of a number of persons are not available and it has been decided to reopen the cases on the candidates themselves approaching the Ministries. Further the ban against some of these persons have been removed. The exact number is being verified.

¶ Information regarding E.P. Rly. not available.

**Shri Jaspat Roy Kapoor's Starred Question No. 586 (c) of 3rd March, 1948**  
**SURPLUS STORES FOR REFUGEES TO START BUSINESS, ETC.**

GOVERNMENT OF INDIA  
 MINISTRY OF RELIEF AND REHABILITATION  
 New Delhi, July 2, 1948

Press Note

**SURPLUS STORES FROM DISPOSALS DIRECTORATE FOR REFUGEES**

Surplus stores from the Disposals Directorate are now available for release to individual refugees for rehabilitating them in different trades and professions.

These stores will be sold to those *bona fide* refugees who have sufficient experience and qualifications for using them in the trade or vocations for which those stores are required. In order that the largest number of refugees should benefit, each applicant should apply for the minimum number of stores required by him. The Rehabilitation and Development Board reserves the right to reject or meet in part or whole the demand of the applicant.

Those interested can obtain the list of the stores available with the office of the Rehabilitation and Development Board, Central Secretariat North Block, Room No. 33, New Delhi, on payment of Re. 1 with effect from 10th July, 1948. They will also be supplied an application form which should be completed and sent to the Board not later than 31st August, 1948. A permit to inspect these stores will be issued along with the list.

The stores available include machine tools, Generating Sets, Air Compressors, non-ferrous metals like, Tin Strips, Tin Ingots, Aluminium Sheets and Circles, Brass Sheets, Brass Ingots, Brass Strips, Copper Sheets, Copper Strips, Spelter and Gun Metal, etc.

GOVERNMENT OF INDIA  
 MINISTRY OF RELIEF AND REHABILITATION  
 (REHABILITATION AND DEVELOPMENT BOARD)  
 (Application for the purchase of surplus Stores)

1. Refugee Registration No. & Date of registration.
2. Name of Applicant.
3. Present address.
4. Present occupation.
5. Address in Pakistan.
6. Previous occupation.
7. Are you in possession of a site or building for installing the machinery applied for, and if so, give details of location, area etc.
8. Experience or other qualifications which the applicant feels, qualified him for release of machinery etc.
9. In the case of controlled vocation, has the applicant obtained the necessary permit or authority.
10. In the case of industrial concern, please give the following details :
  - (a) Number of skilled workmen employed at present and to be employed after the installation of machinery/stores asked for.
  - (b) Number of unskilled workmen employed at present and to be employed after the installation of machinery/stores asked for.
  - (c) Is power installed in the applicant's premises, if so, give details?
  - (d) Does the applicant offer to entertain apprentices for training? If so, give details of training proposed and the

number of apprentices proposed to be accepted for training.

- (e) The number of apprentices the applicant is willing to absorb in employment after training.

NOTES 1.—It is clearly understood that sales would be governed by general conditions of contract as given in Form Con. 117 of the Director General of Disposals, Ministry of Industry and Supply, Government of India, and would be on the basis of "As is where is", and the Rehabilitation and Development Board would not be responsible for the condition, suitability, or completeness of the Stores. Stores once sold will not be taken back by the Rehabilitation and Development Board. It is recommended that store/stores are inspected before applying for purchase.

(2) No re-sale of the machinery will be permitted within two years of the acquisition.

(3) On receipt of the letters of allocation from the Rehabilitation and Development Board, parties would be required to apply to the Director General, Disposals, for the necessary Treasury Chalcans. On presentation of the Treasury receipt they will obtain from the Director General, Disposals, release orders on the strength of which they will take deliveries of the stores from the Depots concerned.

I solemnly declare that the statement made above is correct to the best of my knowledge and belief. I shall accept the store/stores allotted to me by the Board.

Date..... (Signature of Applicant).

Certified that the information given by the applicant and as can be locally verified is generally correct.

Date..... (Signature of District Magistrate).

(The District Magistrate will, after verification as above, forward the application to the Director of Industries for favour of onward transmission to the Rehabilitation and Development Board, Government of India, along with his comments, if any.)

Date..... (Director of Industries).

OFFICE OF THE REHABILITATION AND DEVELOPMENT BOARD, MINISTRY OF RELIEF AND REHABILITATION, GOVERNMENT OF INDIA, NEW DELHI

No.....

Date.....

Received from ..... an applicant for the purchase of machinery and other equipment available with D.G. (Disposals).

The stock holder will permit your representative to inspect the stores on production of the enclosed authority.

Secretary, R. & D. Board.

### LIST I

*Machinery and other stores available for sale with the Directorate General of Disposals (Ministry of Industry and Supply.)*

*Pandit Mukut Bihari Lal Bhargava's Starred Question No. 717 of 12th March, 1948*

NOTICES ISSUED UNDER SECTION 34, ETC., RESULTED IN ASSESSMENTS

- (a) (i) Number of notices issued under section 34 during the year 1946-47—46,600.  
 (ii) Number of such notices resulting in assessments upto 1st April 1948—28,030.  
 (iii) Number of notices dropped—4,054.  
 (b) (i) Number of notices issued under section 28 during the year 1946-47—7,640.  
 (ii) Number of cases decided under sections 28 and 52—3,806.  
 Amount collected—Rs. 26,21,864.

*Shri V. C. Kesava Rao's Starred Question No. 740 of 12th March, 1948*

#### TERMS OF SERVICE OF OFFICIALS OF VARIOUS MERGED STATES

At the time of merger of States, the Rulers were assured that, as far as possible, the States' employees would be provided for and that there would be no victimization for past views and loyalties. In accordance with this assurance instructions have been issued by the Provincial Governments concerned that all employees who were in the service of the States before the date of merger should continue in their present posts until they are absorbed or otherwise dealt with. Every effort is made to see that the States personnel are not discharged except for good and sufficient reasons. Each individual case is carefully considered and initial pay fixed at a suitable stage having regard to such factors as his present pay and length of service. The main idea is to build up common services in all grades and ranks on common scales of pay to serve the needs of the provinces proper as well as the merged States so that Officers may be freely transferred from any place or station to any other place or station in the larger provinces.

States' employees are taken in the Provincial services on a probation for a period varying from six months to one year, during which period they are expected to pass departmental examinations. During the probationary period they are entitled to draw their periodical increment in their previous grade, i.e., such increment as may fall due after the date of administrative integration provided that nothing to the contrary is decided during the reorganisation of scale of pay or administrative overhaul. Leave and furlough which Darbar employees had earned before the date of merger are taken into leave accounts maintained by the Provincial Governments.

Provincial Governments are examining how best to adjust the Provident Fund and Pensionary obligations of previous administrations in respect of personnel concerned but the tentative view is that where an employee is at present in a pensionable service, he will continue to be in the pensionable service of the Government and his past service will not for purpose of pension. Where such an employee is a subscriber to a State contributory provident fund, he will be given the option as between Government contributory provident fund and absorption in pensionable service. In a case where a State employee is present neither in a pensionable service nor is a subscriber to a contributory provident fund, he will be deemed to be a new entrant in Government pensionable service.

*Shri Deshbandhu Gupta's Starred Question No. 998 (b) of 29th March, 1948*

#### CONSIGNMENTS OF FULL WAGON LOAD OF GOODS REACHING DELHI LATE FROM BOMBAY AND CALCUTTA

Only seventy wagons received at Delhi and New Delhi Railway Stations were despatched and temporarily stabled at other stations near Delhi due to congestion in the yards and sheds at Delhi and New Delhi. These wagons were gradually brought back to Delhi and New Delhi and delivered to the consignees.

*Shri V. C. Kesava Rao's Starred Question No. 1314 of 7th April, 1948*  
 POLITICAL PENSIONS TO FOREIGNERS

- (a) Rs. 36 per annum.

(b) and (c). The question of continuance or otherwise of all political pensions is under consideration in the Ministry of Home Affairs.

This does not include political pensions paid to foreigners in East Punjab. The relevant records are with the Accountant General West Punjab who, despite repeated reminders has not yet furnished the necessary information.

*Shri Ram Sahai's Starred Question No. 1815 of 7th April, 1948*  
 IMPORT OF MOTOR CARS AND MOTOR CYCLES INTO INDIA DURING 1938-39 AND 1946-47

#### List of Suppliers of Motor Cycles

1. Manufacturing Technical Corporation, New York.
2. Ariel Motors Limited, Birmingham.

**The Honourable Sardar Baldev Singh:** Recruitment to the officer ranks of the Armed Forces is made through Services Selection Boards while other ranks are recruited through the agency of the Recruiting Organisation and to a lesser extent by Regimental Recruiting parties, some of which are drawn from the Bihar Regiment.

As regards the figures of officers and other ranks recruited in each district of Bihar, the information is not readily available.

**Babu Ramnarayan Singh:** Will the Honourable Minister collect the information and supply to me?

**The Honourable Sardar Baldev Singh:** It will take a long time to collect this information, because we will have to enquire from all the centres and it will take, I am afraid, a very, very long time. We are not in a position to collect it.

**Babu Ramnarayan Singh:** When any information is required in the House, even if it entails a lot of trouble, will not the Department take this trouble and supply the information?

**Mr. Speaker:** I think perhaps the Honourable Minister did not mention the latter part of his reply, namely, that the trouble and cost will not be worth the information. That is how I gather from the trend of his reply.

**Babu Ramnarayan Singh:** But who can judge whether the information is worth the trouble or not?

**Mr. Speaker:** The Honourable Minister himself.

#### MILITARY PENSIONS PAID IN 1948

**\*1369. Babu Ramnarayan Singh:** Will the Honourable Minister of Finance be pleased to state the amount of military pensions paid in the year 1948 province-wise?

**The Honourable Dr. John Matthai:** A statement giving the requisite information is laid on the table of the House.

| STATEMENT                    |       | (In thousands of Rupees) |
|------------------------------|-------|--------------------------|
| United Provinces             |       |                          |
| Bihar                        |       | 17,990                   |
| Bombay                       |       | 1,762                    |
| Madras                       |       | 6,976                    |
| East Punjab                  |       | 9,197                    |
| West Bengal                  |       | 27,527                   |
| C.P. & Berar                 |       | 3,099                    |
| Assam                        |       | 976                      |
| Orissa                       |       | 448                      |
| Centrally Administered Areas |       | 118                      |
|                              | Total | 75,777                   |

#### COMPULSORY MILITARY TRAINING TO STUDENTS

**\*1370. Shri Balwant Sinha Mehta:** Will the Honourable Minister of Defence be pleased to state whether any scheme is being prepared for giving compulsory military training in schools and colleges to students between the ages of 18 and 25?

**The Honourable Sardar Baldev Singh:** Government do not consider it necessary to introduce compulsory military training in schools and colleges at present.

**Sardar Bhopinder Singh Man:** Have the Government any proposal to give compulsory military training in the proper way of receiving and giving salute to the Members of the Cabinet?

**Mr. Speaker:** Order, order. Next question.

#### EXPORT OF MONKEYS TO U. K.

**\*1371. Shri H. V. Kamath:** Will the Honourable Minister of Finance be pleased to state:

(a) whether it is a fact that 250 monkeys were recently exported from Calcutta to the United Kingdom; and

(b) if so, on what terms, and for what purpose?

**The Honourable Dr. John Matthai:** (a) According to information available 150 monkeys (and not 250 as stated) were recently exported from Calcutta to the United Kingdom.

(b) The monkeys were intended for research work in connection with malaria and infantile paralysis. They were exported by private firms and no information in respect of the terms on which they were supplied is available.

**Shri H. V. Kamath:** Is it not a fact, Sir, that in the House of Commons, it was asked whether these monkeys were intended for experiments in bacteriological warfare?

**The Honourable Dr. John Matthai:** I have not followed the discussion in the British Parliament on the subject of monkeys.

**Shri H. V. Kamath:** Am I to understand from the Honourable Minister that these monkeys were intended for experiments in connection with malaria and infantile paralysis?

**The Honourable Dr. John Matthai:** This is all the information that I have. If I may say so, Sir.....

**Shri H. V. Kamath:** If that be so, what are the reasons for exporting only Indian monkeys and not monkeys from other countries for the purpose?

**The Honourable Dr. John Matthai:** I would suggest that if the honourable member is so anxious to pursue this subject, he should put down a question to the relative Department, because what has happened in this particular case is that this question was referred to a number of Ministries none of whom would accept it. In the end, the question came to me, and I decided to accept it largely because I know that the honourable member has a keen personal interest in the subject.

#### UNSTARRED QUESTIONS AND ANSWERS

##### GRANT OF COMMISSIONS TO LICENTIATES IN I.A.M.C.

**117. Seth Govind Das:** Will the Honourable Minister of Defence be pleased to state:

(a) whether the attention of Government has been drawn to an article published in the *Hindustan Times*, dated 22nd November, 1948 under the heading "Commissions in I.A.M.C." and the two letters to the Editor which appeared in the Issues of the *Tribune*, dated the 9th and 15th December, 1948 respectively and which were replies to the above articles;

(b) if so, whether any Committee has been appointed to investigate the question of granting regular Commissions to ex-I.A.M.C. Licentiate officers in the I.A.M.C.; and

(c) if the answer to part (b) above be in the negative, what further steps are being taken in the matter?

**The Honourable Sardar Baldev Singh:** (a) Yes.

(b) No.

(c) The minimum qualifications are prescribed by the Indian Medical Act of 1933. It is not proposed to depart from these.

*Shri Lakshminarayan Sahu's Starred Question No. 41 (b), (c) and (d) of 10th August, 1948.*

**ATROCITIES ON ORIYAS CONSEQUENT ON TRANSFER OF ADMINISTRATION OF SERAIKELLA AND KHARSAWAN STATES FROM ORISSA TO BIHAR**

(b) No Oriya living in the States of Seraikella and Kharsawan has been subjected to any oppression. There has also been no case of any atrocity on women or of house-burning or attempt to intimidate any Oriya family to go out of the Seraikella State. The Oriyas in these two States are living as peacefully as any other citizen.

(c) No.

(d) No.

Mr. R. K. Sidhva's Starred Question No. 80, of 11th August, 1948.

### SMUGGLING OF CLOTH INTO PAKISTAN.

The total value of cloth and yarn smuggled across the borders of Western and Eastern Pakistan amounts to Rs. 10,53,000 (Rs. 1,87,000 on the East Punjab border and Rs. 8,66,000 on the West Bengal border).

The cloth and yarn seized during smuggling is kept in the custody of Customs authorities pending adjudication of the cases. The confiscated goods are thereafter sold by public auction under the Customs Law.

Shri Arun Chandra Guha's Starred Question No. 155 (a) and (c) of 12th August, 1948

### REHABILITATION OF EAST BENGAL REFUGEES IN ASSAM

(a) 2,50,000 (roughly).

(c) Refugees in Assam are staying with their friends and relations. They are mostly scattered in Headquarter stations of districts and sub-Divisions, small towns, trade centres, Railway stations, Tea gardens, oil fields at Digboi and mine areas. There has been so far no necessity or demand for opening of camps by the Provincial Government for accommodation of refugees. The Government of Assam has, however, recently addressed district officers to report if there are refugees who on account of old age, illness or for any other reason are unable to follow any profession and may be in need of relief and for whom it may be necessary to open camps. On receipt of their reports action will be taken to open camps as may be found necessary.

Reports so far indicate that poor class of refugees were mostly fishermen, weavers and labourers. District Officers have been instructed to see that the fishermen are employed officers to report if there are refugees who on account of old age, illness or for any other individually or on a co-operative basis and labourers will be employed in various construction schemes and elsewhere.

Supplementaries to Mr. R. K. Sidhva's Starred Question No. 220 of 16th August, 1948

### SALES FROM DISPOSALS AND RE-ORGANISATION OF DISPOSALS DEPARTMENT

On examination it has been found that it is neither possible nor desirable to utilise cloth shops opened by Provincial Governments for the sale of surplus drugs and chemicals direct to consumers. Few of the drugs and chemicals available in Disposals are of a nature which can be used without a medical prescription. Most of them are individual drugs which can be used only in dispensing.

The availability of the floating Dock at Cocanada was communicated to all Provincial Governments and Ports Trusts and also to the Royal Indian Navy. None of them needed it. It originally belonged to the British Admiralty and the British Admiralty has now sold it to a private party.

### BRIBERY AND CORRUPTION AMONG RAILWAY STAFF OF WAGON SUPPLIES DEPARTMENT

The results of the enquiries during the year ending 30th June 1948 for the other four Indian Government Railways are given below:

Total number of complaints—256.  
Cases in which the investigations are still pending—44.  
Cases which were dropped after investigation—141.  
Cases in which action was taken either departmentally or through prosecution—71.

Prof. K. T. Shah's Starred Question No. 264 of 17th August, 1948.

## EXPENDITURE ON RELIEF AND REHABILITATION OF REFUGEES.

The total cost on Relief and Rehabilitation of refugees upto the 31st July, 1948 is given below:

(In Lakhs of Rupees.)

|                           | 1947-48<br>(15-8-47 to<br>31-3-48.) | 1948-49<br>(1-4-48 to<br>31-7-48.) | Total    |
|---------------------------|-------------------------------------|------------------------------------|----------|
| Relief and Rehabilitation | 7,10.95                             | 4,36.16                            | 1,147.11 |

It is possible that in addition there may be more expenditure which has not been included in the above figures due to—

- (i) non receipt of statement of expenditure
- (ii) bills not submitted by contractors
- (iii) bills received but not accepted due to differences in rates etc.

*Giani Gurmukh Singh Musafar's Starred Question No. 359 (a) of 20th August 1948.*

### EXPENDITURE ON MINISTRY OF RELIEF AND REHABILITATION.

The total expenditure so far (upto 31st July, 1948 incurred by the Ministry of Relief and Rehabilitation in the years 1947-48 and 1948-49 is as given below :

|                                                      | (In lakhs of Rupees.)              |                                   |         |
|------------------------------------------------------|------------------------------------|-----------------------------------|---------|
|                                                      | 1947-48<br>(15-8-47 to<br>31-3-48) | 1948-49<br>(1-4-48 to<br>31-7-48) | Total   |
| Relief and Rehabilitation . . . . .                  | 710.95                             | 438.16                            | 1147.11 |
| (i) Establishment . . . . .                          | 6.18                               | 7.32                              | 13.50   |
| (ii) T. A., Other Allowances and Honoraria . . . . . | 2.16                               | 2.80                              | 4.96    |

It is possible that in addition there may be more expenditure which has not been included the above figures due to :

- (i) non receipt of statement of expenditure,
- (ii) bills not submitted by contractors,
- (iii) bills received but not accepted due to differences in rates etc.

*Mr. R. K. Sidhva's Starred Question No. 386 of 23rd August, 1948.*

### HIGH SALARIED APPOINTMENTS AFTER 15TH AUGUST, 1947.

#### STATEMENT I

Showing the names and designations of new recruits drawing salaries of Rs. 1,000 and over, appointed in the various Ministries of the Government of India during the period from 15th August, 1947 to 31st July, 1948, and whether the concurrence of the Federal Public Service Commission to the appointment of the persons concerned was or was not obtained.

| Name                       | Designation                                                 | Name of Ministry in which employed or re-employed.       | Whether the Public Service Commission's concurrence was obtained. If not, the authority under which it was not done.                                                                                                        |  |
|----------------------------|-------------------------------------------------------------|----------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| (1)                        | (2)                                                         | (3)                                                      | (4)                                                                                                                                                                                                                         |  |
| 1 Bhojwani, Mr. N. K.      | Director of Food Grains                                     | Ministry of Food                                         | No. The officer was appointed for a period less than one year without consultation with the Federal Public Service Commission under regulation 4 (b) of the F. P. S. C. (Consultation by the Governor General) Regulations. |  |
| 2 Hari Sharma              | Deputy Secretary                                            | Ministry of States.                                      | do. do.                                                                                                                                                                                                                     |  |
| 3 Kesri Singh, Lt. Col.    | Military Liaison Officer                                    | do.                                                      | do. do.                                                                                                                                                                                                                     |  |
| 4 Tara Chand, Dr.          | Joint Secretary                                             | Ministry of Education.                                   | do. do.                                                                                                                                                                                                                     |  |
| 5 Hamayun Kabir, Mr.       | Joint Educational Adviser.                                  | do.                                                      | do. do.                                                                                                                                                                                                                     |  |
| 6 Masud Mr. M. N.          | Private Secretary to the Honourable Minister for Education. | do.                                                      | No. The F. P. S. C. agreed to the appointment being made without reference to them.                                                                                                                                         |  |
| 7 Dalip Singh, Kanwar, Sir | Legal and Treaties Adviser                                  | Ministry of External Affairs and Commonwealth Relations. | No. The period of appointment was for less than three years, and the FPSC agreed to the appointment being made without consultation with them under                                                                         |  |

| 2 Raman, Rao Bahadur V. Siva. | Officer on Special Duty.               | Ministry of Defence (Defence) | No. Under regulation 4(b) of the Federal Public Service Commission (Consultation by the Governor General) Regulations. Appointment made for a period of 6½ months only.                                                                                                                              |
| 3 Chemma, Dr.G.S.             | Fruit Development Adviser.             | Ministry of Agriculture.      | Yes.                                                                                                                                                                                                                                                                                                 |
| 4 Sethi, Mr. D. R.            | Agricultural Development Commissioner. | do.                           | No. Dr. Sethi retired as Agricultural Development Commissioner on 4-2-1948 and re-employed in the same post from that date on contract for three years with the approval of the Ministries of Home Affairs and Finance. The concurrence of the F. P. S. C. was not obtained and is being sought now. |
| 5 Bhandarkar, Mr. V.P.        | Member, Transportation, Railway Board. | Trans. Ministry of Railways.  | No. The case one of grant of an extension of service, and no reference to the Federal Public Service Commission was necessary.                                                                                                                                                                       |

Shri R. R. Diwakar's Starred Question No. 400 (a) of 23rd August 1948

## REFUND OF DEPOSIT COLLECTED BY CENTRAL EXCISE DEPARTMENT AT CASTLE ROCK, GOA

The reply is in the negative. Refunds in all cases could not be made early because in some cases the landing certificates were, on receipt, found to be incomplete inasmuch as they were not accompanied by relative vouchers under which the deposits were made, thus making it difficult for the Central Excise Department to co-relate the landing certificates with the export applications and necessitating further correspondence with the parties to elicit full particulars. Furthermore as the original deposits were paid to the Central Excise Department through the agency of the Madras Southern Marhatta Railway, the repayment of the same had to be done, not directly to the depositors, but through the Station Master, Castle Rock. This officer does not keep big amounts in his custody for

fear of loss and hence the flow of money to him has to be regulated. Some further delay was caused by the Station Master having to contact the parties concerned to receive payments due to them. All possible steps to expedite refunds are however being taken.

*Shrimati Dakshayani Velayudhan's Starred Question No. 450 of 24th August, 1948*

#### SMUGGLING OF TEXTILES FROM COCHIN HARBOUR TO KARACHI

The report received from the Special Police Establishment Ministry of Home Affairs, reveals that four cases of attempted smuggling of 110938½ yards of cloth valued at Rs. 1,53,982-2-0 in July 1948 from Erode in Madras Province to Karachi via Cochin Harbour, were registered by them. Investigation into these cases is being conducted by the Special Police Establishment, Madras.

*Pandit Mukut Bihari Lal Bhargava's Starred Question No. 480 (e) of 25th August, 1948*

#### INTER-DOMINION TRAFFIC OF REFUGEES

(i) The total expenditure on Evacuation of Non-Muslim refugees from Western Pakistan to Indian Union is upto July 1948, Rs. 94-86 lakhs. This amount does not include expenditure incurred by the Railways. Debits to the extent of Rs. 2,38-51 lakhs have been received and are under adjustment.

(ii) Expenditure on provision of Food, Shelter, Clothing and other necessities of life to the destitute refugees is as given below:

| Relief.                                       | In Lakhs of Rupees. |
|-----------------------------------------------|---------------------|
| Food, Clothing and Medical expenses etc. .... | 3,50-12             |
| Accommodation ....                            | 36-48               |
| <b>Total</b> ....                             | <b>3,86-60</b>      |

It is possible that in addition there may be more expenditure which has not been included in the above figures due to—

- (i) non receipt of statement of expenditure,
- (ii) bills not submitted by contractors,
- (iii) bills received but not accepted due to differences in rates etc.

Dr. V. Subramaniam's Starred Question No. 635 of 31st August, 1948

#### RESOLUTION OF DELHI IMPROVEMENT TRUST CONFERENCE

527 poor class houses have been built by the Delhi Improvement Trust so far.

Shri Kishorimohan Tripathi's Starred Question No. 705 of 1st September, 1948

#### INCLUSION OF CHHATTISGARH STATES IN C.P. CIVIL SUPPLY ZONE

On their merger with the C. P. and Berar, the Chhattisgarh States did experience some difficulty in obtaining their civil supplies but adequate steps have since been taken to include these States in the Provincial Civil Supply Zone. The Central and Provincial Acts and Control Orders have already been applied to these states vide Provincial Government's notifications dated 21st February 1948 and 26th June, 1948. Some of these merged states were formerly in the Central Provinces Deficit Zone for the purpose of textile control and after the merger, there was a certain amount of inconvenience caused in the matter of free movement of cloth to these areas. The question of issuing necessary amendments to the Cotton Textiles (Control of movement) Order, necessitated as a result of the merger, was taken up by the Provincial Government with the Government of India and it took some time to issue these amendments, as it was not considered desirable to issue them piecemeal for individual States.

Shri Ram Sahai's Starred Question No. 710 of 1st September, 1948

#### RATION FOR RAILWAY EMPLOYEES

Under the Railway Grainshops Scheme in force up to 31st December, 1948, about 19 essential commodities are being handled in railway grainshops. The scale of ration of cereals and other controlled articles is according to the rationing rules applicable to the areas within the jurisdiction of respective Provincial/State Governments and of non-controlled articles according to the needs of the staff on different railways.

This scheme has been revised as a result of the recommendations of the Railway Grainshops Inquiry Committee, and the number of articles to be handled and the scale of ration prescribed are given below. This scheme will come into force with effect from the 1st January, 1949.

| Names* of Articles |                       | Scale of Rations  |
|--------------------|-----------------------|-------------------|
| Cereals            | Employee himself      | 16 Oz. per day    |
|                    | Each adult member     | 12 " " "          |
| Pulses             | Employee himself      | 4 Seers per month |
|                    | Every additional unit | 2 " " "           |
|                    | Maximum per family    | 12 " " "          |
| Cooking Oil        | First Unit            | 2 " " "           |
|                    | Every additional unit | 1 " " "           |
|                    | Maximum per card      | 6 " " "           |
| Matches            | Per Card              | 6 boxes           |
| Salt               | Per unit              | 1 Seer " "        |
|                    | Maximum per family    | 5 Seers " "       |

\*The quantity of cereal ration shall be in conformity with Provincial Rationing Rules, but the difference between the quantity of 16 Ozs. per day for the worker and 12 Ozs. per day for each adult member of his family and the quantities allowed by the rules shall be made up by an addition in the pulse ration equal to half this difference.

Srijut Kuladhar Chaliha's Starred Question No. 730 (a) and (b) of 1st September 1948

#### STRATEGIC ROADS ON EASTERN FRONTIER

As already explained, the Jorhat-Palel road may be divided into two sections, the first, the Jorhat-Numaligarh section, being part of National Highway No. 37, and the second, the Numaligarh-Palel section, being part of National Highway No. 39. This second section is further divided into three sub-sections as explained below. The further information promised with regard to these sections and sub-sections is as follows:

(i) Jorhat-Numaligarh section (N. H. No. 37).—This is motorable throughout the year.

(ii) Numaligarh-Dimapur sub-section (N. H. No. 39).—In this section, part of the road between Garampani and Dimapur (Ms 38-70) runs along the left bank of the Dhansiri river. As this river is subject to considerable meandering, the road has been eroded in several places. The portions cut by the river are being constantly "retired" by the provincial Public Works Department; i.e., the road in these places is being rebuilt further back from the river and is thus being kept open to traffic.

(iii) Dimapur-Kohima-Mao sub-section (N. H. No. 39).—Parts of this section have been affected by hillside slips and subsidences of soil in recent years, and a proposal to divert the road is under the Provincial Government's consideration. Their final recommendations are awaited. The road is, however, being kept open to traffic as far as possible.

(iv) Mao-Imphal-Palel sub-section (N. H. No. 39).—This is motorable throughout the year. Timber bridges constructed by the Army during the War are being repaired or replaced as and when necessary.

The Assam Public Works Department who are in charge of the above roads, are taking necessary steps to keep them in a state of repair generally.

Dr. Raghu Vira's Starred Question No. 731 (b) of 1st September, 1948

#### SURPLUS WAR MATERIALS

0.3 per cent. of the book-value (Rs. 72.88 crores) of the U.S. Air Force Surpluses (aircraft and aircraft stores) were sold upto the end of August, 1948 to Hyderabad by Messrs. Tata Aircraft Ltd., who are the agents of the Director General, Disposals for the disposal of these stores.

Dr. P. S. Deshmukh's Starred Question No. 782 of 2nd September, 1948

#### IMPORT LICENSES FOR MACHINERIES

(a) Two statements giving figures of imports of machinery and millwork for December 1947 to March 1948 and breakdown under major heads of machineries are attached.

(c) The estimated value of machinery to be imported on Government account through the Directorate General of Industry and Supply and Government of India's purchase organisations abroad from now up to the 31st March 1949 is Rs. 16 crores. This figure is likely to vary by 2 per cent. either way owing to indefinite deliveries.

The above estimate does not include value of 100,000 spindles which Government have decided to import from Japan and for the manufacture of which Government will sell 30,000 tons of coking coal to that country. No textile machinery has been imported on Government account so far.

(f) Government do not propose to import any machinery for the manufacture of textile machinery on its own account. However, such machinery is being imported by private firms particularly by (1) National Machinery Manufacturers Limited, Bombay and (2) Machinery Manufacturers Corporation, Limited, Bombay.

## STATEMENT I

Showing the total value of machinery and millwork imported into India from abroad during December 1947 and January to March 1948

|                        | December 1947<br>(Rs. crores.) | January to March<br>1948 |
|------------------------|--------------------------------|--------------------------|
| Machinery and Millwork | 4                              | Not available.           |

NOTE.—The above figure relates to British India before partition but exclude imports into the province of Sind and the port of Chittagong.

## STATEMENT II

Giving breakdown under major heads of machinery and millwork imported during 1946-47, nine months ending December 1947 and three months ending June 1948.

|                                                                                         | 1946-1947 | Nine months<br>ending Dec.<br>1947 | Three months<br>ending June<br>1948 |
|-----------------------------------------------------------------------------------------|-----------|------------------------------------|-------------------------------------|
|                                                                                         |           | (Rs. Crores)                       | (Rs. Crores)                        |
| 1. Prime movers (other than electrical)                                                 |           | 3                                  | 3                                   |
| 2. Electrical machinery of all kinds not including instrument apparatus and appliances. |           | 5                                  | 5                                   |
| 3. Machinery not being prime movers or electrical machinery.                            |           | 16                                 | 18                                  |
| 4. Other sorts of machinery                                                             |           | 7                                  | 10                                  |
| Total Machinery and Mill work                                                           |           | 31                                 | 36                                  |

NOTE 1.—The Figures for the year 1946-47 and the 8 months ending December 1947 relate to British India before partition but exclude imports into the province of Sind and the port of Chittagong with effect from the 1st and the 15th August 1947 respectively. The figures for the 3 months ending June 1948 relate to the trade of the Indian Dominion with all foreign countries including Pakistan and are also inclusive of Government Stores which have been merged with Private merchandise with effect from the 1st April 1948.

NOTE 2.—Figures for January to March 1948 are not available.

Giani Gurmukh Singh Musafar's Starred Question No. 833 of 3rd September, 1948.

## RECRUITMENT IN SECRETARIAT AFTER PARTITION

(a) Number of vacancies fallen vacant owing to exodus of Officers to Pakistan.

| Under Secretary. | Assistant Secretary | Superintendent. | Assistant-in-Charge. |
|------------------|---------------------|-----------------|----------------------|
| 14               | 29                  | 46              | 42                   |

(b) Number of vacancies—

## VETERINARY TRAINING INSTITUTIONS

No. 888 (b).—

| Location of Veterinary College. | Number of admissions offered per year. | Remarks.                                                                                                                                |
|---------------------------------|----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Hissar                          | 60                                     | It is a camp college and is admitting 60 students this year. No decision has however been reached about future admissions so far.       |
| Calcutta                        | 50                                     | ..                                                                                                                                      |
| Patna                           | 40                                     | To meet the increased demand for Veterinary Surgeons, 80 students are being admitted to the college on temporary basis since last year. |

Shri Basanta Kumar Das's Starred Question No. 920 (c) of 4th September, 1948

## FREEZING AND FIXATION OF PRICE OF CLOTH

Disposal instructions for the entire stock of cotton textiles frozen with the mills on the 30th July 1948, were issued by the first week of October 1948.

Shri M. Ananthasayanam Ayyangar's Starred Question No. 924 (a) of 4th September, 1948.

## WAGONS FOR TRANSPORT OF COTTON AND CLOTH

During the year ended 30th June 1948, the following number of wagons were allotted for cotton and cotton cloth at Bombay (Carnac Bridge) and Indore stations of the B. B. & C. I. Railway.

|                        | Cotton<br>wagons. | Cotton Cloth<br>wagons. |
|------------------------|-------------------|-------------------------|
| Bombay (Carnac Bridge) | 273               | 45                      |
| Indore                 | 28                | 1420                    |

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES

(PART I—QUESTIONS AND ANSWERS)

Wednesday, 2nd February, 1949.

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

STARRED QUESTIONS AND ANSWERS

(a) ORAL ANSWERS.

CONFERENCES HELD BY MINISTRY OF AGRICULTURE

\*38. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Agriculture be pleased to state the number of conferences of provincial Ministers, public men and others held by the Ministry of Agriculture during the year 1948 to discuss matters relating to agriculture, Grow More Food and control of food and other ancillary subjects?

(b) What is the result of such conferences and what is the expenditure incurred on such conferences by various Governments?

(c) Have all the cultivable areas been brought under cultivation during 1948 and if so, with what result?

(d) Has the quantity of cereals etc., imported from foreign countries been reduced as compared with previous years? If not, why not?

**The Honourable Shri Jairamdas Doulatram:** (a) The Ministry of Agriculture convened in 1948 in all eight conferences relating to (i) import, export and production of vegetable and flower seeds, (ii) import of agricultural machinery, (iii) development of refrigeration, (iv) standard grades for foreign trades in Castor Oil, (v) agricultural census, food production targets and other measures, (vi) fisheries, (vii) ghee grading and other activities of the ministry, and (viii) improved method of marketing.

(b) The conferences were called to discuss important problems of common concern to the Provincial State and other interests represented at the conferences, and facilitate common action. The conferences while providing for the fullest consultation between the Centre, Provinces and States and other interests secured for the Ministry the advice of all those whose co-operation is essential before any important plans or schemes of common concern to the whole country could be formulated and implemented. A statement showing the object of convening each conference and the concrete and practicable proposals that emerged as a result of the discussions is placed on the table of the House.

The total expenditure incurred by the Central Government on these eight conferences is about Rs. 21,837. The expenditure relates mainly to Travelling Allowance of non-official members who attended the conferences. The expenditure incurred by Provincial Governments, in deputing representatives is not known.

(c) Statistically there are 65 million acres of culturable wasteland. But it is probable that not all this can be profitably cultivated. Schemes for gradual reclamation of land are being undertaken. However the area reclaimed by Provinces during 1948 amounted to 4,66,601 acres. The total production of eight major foodgrains in the reporting area of the Indian Union during 1947-48 amounted to about 42.66 million tons as against about 42.07 million tons in 1946-47.

## BIRTH AND DEATH RATES

**118. Lala Raj Kanwar:** Will the Honourable Minister of Health be pleased to state:

(a) the birth rate and death rate in the country during each of the past five decades, worked out on the basis of census figures;

(b) if the figures are available, the corresponding birth rate and death rate in Great Britain, Sweden, the United States of America, Canada, Australia, New Zealand, South Africa, Russia and China; and

(c) whether Government have considered or intend considering, in the near future, the question of birth control in relation to the population in the country?

**The Honourable Rajkumari Amrit Kaur:** (a) and (b). A statement is placed on the table of the House.

(c) The question of birth control has been discussed at pages 483-489 in Volume II of the Health Survey and Development Committee's Report. Government will consider the question in consultation with the Provincial Governments.

### STATEMENT

*Birth and death rates during the last five decades in the various countries*

|               | Birth Rates |           |           |           |           | Death Rates |           |           |           |           |

(It has not been possible to obtain information in respect of China)

|                                                                               | 1923-1925 | 1926 |
|-------------------------------------------------------------------------------|-----------|------|
| In respect of Russia (European territory only) the following could be traced: | 40.6      | 40.7 |
|                                                                               | 17.1      | 14.7 |
| Birth rate                                                                    | ..        | ..   |
| Death rate                                                                    | ..        | ..   |

(d) It has not been possible to reduce the imports during 1948. This is due to the cumulative effect of a number of factors the important among which are:

(1) Re-imposition of food controls with effect from 1st October, 1948, and the necessity for the Government of India and Provincial Governments to keep requisite stocks to meet Government commitments.

(2) Increased shortage in internal availabilities due to (i) widespread failure of rains which has resulted in famine conditions over a large area of Cutch, Saurashtra, Baroda, Gujrat, Districts of Bombay, Jodhpur, Jaisalmar and parts of Bikaner and Jaipur, (ii) Severe damage to U.P. and Bihar crops on account of heavy floods and in Bombay and C.P. on account of cyclone, and consequent rains.

(3) Steady increase in population at the assumed rate of 4 millions per year necessitating additional provision every year of half a million tons of foodgrains.

(4) Partition and the consequent loss to India of the surplus areas of the North-west resulting in a considerable increase of the deficit of the Indian Union.

*Statement showing in brief the Conferences convened by the Ministry of Agriculture in 1948, the objectives of the Conferences and the results achieved*

| Name of Conference                                                                                                           | Object                                                                                                                                 | Results achieved                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (1)                                                                                                                          | (2)                                                                                                                                    | (3)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| (1) Conference of representatives of Central, Provincial and State Governments, and seed growers and merchants.              | This is an annual conference held to discuss problems of import, export and production of vegetable and flower seeds.                  | As a result of the recommendations made at the conference government have (a) decided to set up central Vegetable Breeding Stations at suitable places. (b) re-imposed control on the import of vegetable seeds and (c) decontrolled exports of flower seeds and restricted export of vegetable seeds under a system of licencing.                                                                                                                                                                                                                                                       |
| (2) Conference of representatives of importers and users of Agricultural Machinery and Officials of Ministry of Agriculture. | To lay down guiding principals for the import of Agricultural Machinery.                                                               | As a result of agreement reached at the conference Government have taken steps to regulate the import of tractors and Agricultural Machinery suitable to Indian conditions and consistent with the availability of petrol and other limiting factors.                                                                                                                                                                                                                                                                                                                                    |
| (3) Refrigeration Development Conference of representatives of Central, Provincial and State Governments trade and growers.  | To consider the measures to be taken for the planned development of the refrigeration Industry which is still in its infancy in India. | The conference made a number of suggestions and recommendations on (1) Inducing growers to take advantage of cold storage (2) equitable distribution of the benefits of the Refrigeration industry between growers and owners of cold storage plants (3) setting up of Refrigeration plant by co-operative societies (4) Government participating in ownership of Industry (5) organising refrigerated transport (6) training personnel to run the industry (7) manufacturing cold storage plants in India etc. The recommendations are under examination by the respective Governments. |

| Name of Conference                                                                                                                                                         | Object                                                                                                                | Results achieved                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (1)                                                                                                                                                                        | (2)                                                                                                                   | (3)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| (4) A conference of representatives of Central Government Departments Trade Representatives and Marketing Deptt. officials for prescribing standard grades for Castor Oil. | To lay down standard grades essential for developing the trade in Castor Oil particularly with foreign Governments.   | The Conference approved certain rules for Castor Oil grading and marking and grade specifications. These are being notified to elicit public opinion before being adopted under the Agricultural Produce (Grading and Marking) Act, 1917.                                                                                                                                                                                                                                                                                |
| (5) A conference of Ministers of Agriculture of Provinces and States and representatives of the Central Government.                                                        | To discuss certain important problems relating to agriculture which were of common concern to the country as a whole. | As a result of this conference certain concrete suggestions and proposals were made on (i) stabilisation of agricultural Prices (ii) agricultural census to be conducted in 1951 (iii) future forest Policy (iv) furtherance of food production (v) Revision of foodgrain targets etc. These are engaging the attention of Government.                                                                                                                                                                                   |
| (6) A conference of Directors and other representatives of the Fisheries Deptts. of the Provinces and States.                                                              | To consider measures to speed up the production of fish in India and so increase the food resources of this country.  | The conference made valuable suggestions in the development of fisheries in India and passed 27 Resolutions on the development of Rivers and Streams; Conservation and development of fisheries as part of multipurpose projects; Surveys of culturable waters. Improvement of fish curing yards; Intensification of Research; Central and Provincial spheres of Research etc. These recommendations are being examined by the Central and Provincial Governments with a view to their implementation wherever possible. |
| (7) Agmark Ghee Conference to consider the grading of Ghee under the Agmark.                                                                                               | To consider the grading of Ghee under the Agmark.                                                                     | The Conference made a number of valuable suggestions on extension of Agmark grading for ghee; check on quality control of Agmark Ghee; penalty for unlawful use of Agmark labels; popularising Agmark Ghee; improved method of manufacture and Research on quality of Ghee. These recommendations when put into operation are expected to result in improving considerably the quality and marketing of this important article of food.                                                                                  |
| (8) Marketing Officers Conference.                                                                                                                                         | To discuss means to improve methods of marketing of agricultural produce in the country.                              | This conference also focussed attention on a number of matters to improve marketing in India such as marketing surveys; Regulation of markets; co-operative marketing; Warehouses; Weights and measures etc. The Government of India and Provincial Governments are examining these suggestions with a view to implementing them wherever possible.                                                                                                                                                                      |

**Shri R. K. Sidhva:** Arising out of parts (a) and (b) in answer to which the Honourable Minister stated that non-officials were also invited for these conferences, may I know whether the members of the Standing Committees of the Food and Agriculture Ministries were also invited for these conferences?

**The Honourable Shri Jairamdas Doulatram:** The non-officials who were invited were those who were concerned with the purpose or agenda of the conferences. For instance, when we discussed questions relating to agricultural machinery firms importing agricultural machinery were invited. When we discussed, for instance, the question of seeds the seed growers and seed traders were invited.

With regard to the members of the Standing Committee I understand from other Ministries that it is not usual to invite members of the Standing Committees to such conferences. I have, however, no objection to inviting the members of the Standing Committee to the more important conferences, where, for instance, we have provincial ministers or representatives to discuss larger questions and if it is desired by the House that all the members of the Standing Committee should be invited or some elected by them to represent them at these conferences, that could be done.

**Shri R. K. Sidhva:** Is it not a fact that to the Industries Conference the Minister for Industries invited the members of the Standing Committee for Industries?

**The Honourable Shri Jairamdas Doulatram:** It is a fact that on that occasion members of the Standing Committee were invited. What I said was that most of the Ministries have not done so but that I have no objection to inviting the members.

**Prof. N. G. Ranga:** In view of the fact that a large number of conferences have had to be convened by this Ministry would it not be better that those members who expressed their wish to be invited to such and such a conference alone should be invited instead of the whole lot of them being invited every time, because so many of us are very busy with many other things also?

**Mr. Speaker:** I am afraid the question is argumentative.

**Shri R. K. Sidhva:** How many Food Committee meetings were called during this period when this conference was called and were the members taken into confidence?

**The Honourable Shri Jairamdas Doulatram:** If the question relates to the Standing Committee of the Food Ministry, then that meeting was not called when this conference was convened, so far as I can recall.

**Shri S. V. Krishnamoorthy Rao:** Is it not a fact that while more uncultivated land is being brought under cultivation, land already under cultivation has gone fallow? If so, what is the area involved and what steps have Government taken to check this tendency?

**The Honourable Shri Jairamdas Doulatram:** I would like to have notice with regard to the figures relating to such land. As regards the reasons why some land is going out of cultivation, for instance, in the Central Provinces, Bhopal and parts of Madhya Bharat on account of the depletion of bullock power during the war years, when a very large number of bullocks and cows were slaughtered for the American and other troops, people were not able to cultivate their lands and as a result some land has gone out of cultivation in those areas. If further details are required for all the provinces, I will get the information and place it before the House.

**Shri B. P. Jhunjhunwala:** Was the question of the failure of the Grow More Food Campaign ever discussed in any of these conferences?

**The Honourable Shri Jairamdas Doulatram:** There was a conference held about the middle or latter half of 1948 when the question was discussed as to the results of the Grow More Food Campaign.

**Shri L. Krishnaswami Bharathi:** Is it not a fact that members of the Standing Committee expressed their willingness and desire to be invited at these Food conferences?

**The Honourable Shri Jairamdas Doulatram:** I am sorry I did not catch the first part of the question.

**Shri H. V. Kamath:** Has the attention of the Honourable Minister been drawn to the Resolution on the 'Grow More Food Campaign' passed at the Jaipur session of the Congress to the effect that vegetables or other food crops should be raised on all available land, including compounds of houses?

**The Honourable Shri Jairamdas Doulatram:** Yes.

**Shri H. V. Kamath:** Will the spacious compounds of Honourable Ministers' houses be exempt from this rule?

**Mr. Speaker:** The question need not be answered.

**Shri R. K. Sidhva:** The Honourable Minister has given a long term plan. May I know whether Government have considered any short term plan to avoid the import from foreign countries of cereals in large quantities?

**The Honourable Shri Jairamdas Doulatram:** There can be no short term plan to make up a very large deficit. As honourable members know the Foodgrains Policy Committee went into the whole question of the shortage of food in this country and they recommended three major lines of action. One was the construction of large irrigation works dependent upon hydro-electric power. The second line of action was the reclamation of wasteland. And the third line of action was what is called the Grow More Food Campaign, which it was expected would yield three million tons in five year's time. It is with regard to the last item that efforts are being concentrated so far as the Ministry of Agriculture is concerned. Quite recently the work of reclamation of land has been taken up. As regards the hydro-electric schemes with the help of which four million tons are to be produced, that naturally is a matter which will take some time and I understand that the Works, Mines and Power Ministry is trying to expedite the irrigation part of those schemes.

**Babu Ramnarayan Singh:** What are the ways in which the agricultural activities of the Provincial and Central Government are co-ordinated?

**The Honourable Shri Jairamdas Doulatram:** As you know, agriculture is a provincial subject and the Central Government have no powers except the function of research and some kind of informal co-ordination. The only venue of securing that co-ordination is these conferences. The Central Government under the present constitution or the future constitution has no power to issue any mandatory directives to the provinces in regard to production. It is only at these conferences that we try to co-ordinate our plans and see that some action is taken.

**Shrimati Renuka Ray:** May I know what steps have been taken so far to launch small irrigation schemes which will yield quick returns and how many such schemes are under way?

**The Honourable Shri Jairamdas Doulatram:** I would require notice as to the number of the small irrigation schemes because they will be in thousands: for instance, wells or *bunds* or small little canals, they will be in thousands all over the country.

**Shrinati Renuka Ray:** Is the Honourable Minister satisfied that small irrigation schemes have been launched sufficiently to bring in quick returns?

**Mr. Speaker:** Order, order; I am afraid the honourable member is asking for opinion.

**Shri Mihir Lal Chattopadhyay:** May I ask whether the Honourable Minister is aware that in some Provinces schemes like tank reclamation have been abandoned altogether?

**The Honourable Shri Jairamdas Doulatram:** I am not aware. If they have been abandoned it would be due to some special difficulties. If there is any specific reference given to me, I will make enquiries.

**Shrimati G. Durgabai:** May I know what is the amount proposed to be spent on the plans of the Grow More Food Campaign from the loan that we are negotiating?

**The Honourable Shri Jairamdas Doulatram:** Last year's budget for Grow More Food work was rupees four crores. We actually gave grants and loans for Rs. 3,36,00,000. The amount actually spent by the Provinces on cereal production—not other objects—was about Rs. 1 crore only.

**Shri Deshbandhu Gupta:** With reference to part (c) of the question may I know whether any additional area has been brought under cultivation in the Delhi Province and whether the Agricultural Development Commissioner who was to be appointed under the recent Act which was passed by the Legislature during the last Session has been appointed or not?

**The Honourable Shri Jairamdas Doulatram:** I would not be able to give detailed figures in respect of Delhi Province from memory just now, but I can supply them to the honourable member. With regard to the appointment of the official, as the honourable member is aware, certain names were considered and ultimately it was found that we will have to go outside Delhi and secure a suitable man. Other names were placed before me and are being considered.

#### FIRE AND LOSS IN CALCUTTA TELEPHONE EXCHANGE AND SCHEME FOR REMODELLING

**\*39. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state the cause of fire at the Telephone Exchange in Calcutta in October, 1948?

(b) What is the total loss and how many telephone connections have been affected?

(c) How many have since been restored? Are the new connections of the automatic system or of the old type?

(d) Do Government contemplate the remodelling of the entire Telephone Exchange system in Calcutta?

(e) If so, what is the total cost estimated and when is the work likely to be taken in hand and completed?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) As investigations are still proceeding, the exact cause is still not known.

(b) Excepting a small part which had new equipment installed about a year ago, all the other equipment was old and had outlived its useful life. As the old equipment was of hardly any value at all, the net loss is estimated at approximately Rs. 12 lakhs. The number of telephones affected is 6,052.

(c) 2,197 connections have since been restored. The connections given are all of manual type.

(d) Yes.

(e) The total estimated cost of automatising the entire Calcutta system is Rs. 1,340 lakhs. The work is scheduled to be taken in hand immediately and completed in five stages by the end of 1954.

**Shri R. K. Sidhva:** May I know whether each exchange panel is hermetically sealed, and if so how the fire simultaneously took place at all the exchanges?

**Shri Khurshed Lal:** The fire started at one board and then spread to others and could not be controlled.

**Shri R. K. Sidhva:** My question was whether all the exchanges are hermetically sealed and whether the fire took place simultaneously; if so, what is the reason.

**Shri Khurshed Lal:** I never said it took place simultaneously at all places.

**Mr. Speaker:** He denies that.

**Shri R. K. Sidhva:** May I know whether the Resident Inspector who is supposed to be on the spot informed this matter to the senior Engineer at the time when the fire took place?

**Shri Khurshed Lal:** Enquiries are still going on as to whether proper steps were taken to inform all the authorities. My information is that information was immediately sent to the fire brigade and also to all other officials concerned.

**Shri R. K. Sidhva:** My question was not about the fire brigade.....

**Mr. Speaker:** I may say that if an enquiry is going on there is no use prejudicing it one way or the other. Let the enquiry proceed and then the honourable member may put any number of questions.

**Shri R. K. Sidhva:** It is now six months. I want to know whether a departmental enquiry, apart from the police enquiry, was made.

**Shri Khurshed Lal:** I would not like to anticipate the police in any way. This matter is in their hands and I expect a report from them very shortly.

**Shri R. K. Sidhva:** I would like to know if the Ministry made any enquiry.

**Shri Khurshed Lal:** We did set up a Departmental Committee and they have submitted a report to us, and we are awaiting the report of the police.

**Shri R. K. Sidhva:** May I know how many switch-boards were burnt down?

**Shri Khurshed Lal:** I would not be able to give the exact number, but if I remember correctly it is about sixty.

**Shri R. K. Sidhva:** Are they manufactured in our own factory in Jubbulpore?

**Shri Khurshed Lal:** They are manufactured mostly in Bombay and we have already supplied enough switch-boards to them. As and when they have been utilised more will be supplied.

**Shri L. Krishnaswami Bharathi:** Without prejudice to the enquiry going on, may I ask whether sabotage is suspected?

**Shri Khurshed Lal:** We cannot exclude the possibility of sabotage, but we cannot say definitely.

**Shri H. V. Kamath:** Since the incident took place has the place been declared a protected or prohibited area?

**Shri Khurshed Lal:** Yes.

**Shri R. K. Sidhva:** May I ask at what time was water available for the fire brigade?

**Shri Khurshed Lal:** There was slight difficulty there. The position is this. The practice in Calcutta is that as soon as they get information about a fire, the fire brigade telephone to the pumping station asking them to increase the pressure. But in this case the telephone itself having gone out of order, there was some difficulty in it.

**Shri R. K. Sidhva:** Was the fire caused intentionally?

**Mr. Speaker:** Order, order. He is asking for inferences.

**Shri Mahavir Tyagi:** Is it a fact that fire extinguishers were available but none in the office knew the use of them?

**Shri Khurshed Lal:** I must admit that our arrangements for extinguishing the fire did not work properly. We have already taken steps to strengthen this.

**Shri Arun Chandra Guha:** May I ask how many fire extinguishers were there in the office and how many were used?

**Shri Khurshed Lal:** I would not be able to give the exact number.

**Shri Arun Chandra Guha:** Was there any overhead reservoir or water tank so that the water could have been used from that tank for extinguishing the fire?

**Shri Khurshed Lal:** No such arrangement was there.

## INSTALLATION OF NEW TELEPHONES

\*40. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to refer to the statement made by the Honourable Minister during the last budget session that a plan for installing nearly 5,000 new telephones would be completed by the end of October, 1948 and state whether the scheme has been completed?

(b) If so, how many new telephones have been installed since the new machinery was put in?

(c) Have all the applicants in the waiting lists been provided and if not, how many still require to be provided and when are they likely to get connections?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) No. All that the Honourable Minister said in reply to a question asked by Shri Deshbandhu Gupta on March 12, 1948, was that so far as the information went he hoped that by September, 1948, 1,000 new connections could be given to New Delhi and by early 1949 another 1,500 new connections will be available.

(b) and (c). The scheme has been partly completed and equipment for 2,000 additional lines has been installed on 30th January, 1949. Out of these 1,100 have been utilised for giving connections to the subscribers of the old Secretariat Exchange which has since been closed and 600 connections will be given in the course of next three months to new subscribers, both Government and public. By June, another 2,000 lines will be installed at the Connaught Place Exchange. This extension will be utilized for abolition of some of the manual exchanges such as Shahjahan Road, Raisina, etc. 500 lines out of this extension will be available for giving new connections. After these have been given it is hoped that all the existing demands in New Delhi will be met. A 500 lines Auto Exchange will also be installed in the Cantonment Area by the end of March, 1950. A site is available for the construction of the building, which is likely to commence within a month's time. As regards Old Delhi it is proposed to instal a 4,000 line Auto Exchange there and orders for the equipment have been placed and it is expected to arrive by the end of this year. The work is expected to be completed by the end of 1950. In the meanwhile some telephones will be made available to new subscribers in Old Delhi by the end of April, by re-arrangement of existing equipment. The Old Secretariat Exchange had to be closed down as the equipment had served its useful life but the question of overhauling and bringing into use some part of the equipment is under technical examination and if found feasible it is proposed to make some lines available from this equipment for giving new connections in Old Delhi in order to relieve the situation till the new equipment is installed there.

**Shri R. K. Sidhva:** I have not been able to follow. May I know how many new connections will be available in New Delhi from this additional scheme?

**Shri Khurshed Lal:** As I said, 600 new connections will be available from the equipment which has already been installed and 500 more will be available from the equipment which will be installed by the end of June.

**Shri R. K. Sidhva:** Are these 3,000 absolutely new connections or they will be supplemented by the old exchanges which are deteriorating?

**Shri Khurshed Lal:** 1,100 new connections will be given. 1,100 old connections which were in the Old Secretariat Exchange will be replaced. That is the position.

**Shri R. K. Sidhva:** Am I correct that only 1,100 will be new connections available from this additional scheme?

**Shri Khurshed Lal:** That is right.

**Shri R. K. Sidhva:** While giving these new connections, may I know whether there is any classification for giving priority?

**Shri Khurshed Lal:** The telephonic connections are given on the advice of the Telephone Advisory Committee and rules have been framed under which they are being given priority.

**Shri R. K. Sidhva:** Is it a fact that a certain percentage has been fixed for waiting list, certain for banks and businessmen and certain for refugees?

**Shri Khurshed Lal:** Yes.

**Shri H. V. Kamath:** Do Government have any plan in view for the manufacture of telephone instruments and equipment on a large scale?

**Shri Khurshed Lal:** We have set up a factory at Bangalore for the purpose.

**Shri H. V. Kamath:** Is it the only factory or are there going to be a large number of factories all over India?

**Shri Khurshed Lal:** For the time being, it is only proposed to set up the one factory at Bangalore.

**Mr. Frank Anthony:** Since these new telephones have been installed it has not been possible to get any connections. Is it likely that these new lines will make the present confusion even worse confounded?

## STOCK OF CLOTH IN MILLS ON 1ST DECEMBER, 1948

\*41. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what was the total stock of cloth lying in the Mills at Ahmedabad, Bombay and other places on 1st December, 1948?

(b) Is it a fact that a large number of bales was held up in Ahmedabad before 1st December, 1948 and no orders for their movement were issued by the Textile Commissioner?

(c) What was the stock with all dealers on 1st December, 1948?

(d) Is it a fact that in some provinces, due to the small number of permits issued to dealers, the stock could not be released?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The total stocks of cloth lying with composite Mills in the Indian Union on the 30th November, 1948, were 4,36,616 bales. In addition, 1,45,687 bales were lying with the mills on merchants' account, i.e., they had been sold but not lifted.

(b) 86,640 bales of unsold stocks were held by the Ahmedabad Mills on the 27th November, 1948, of which only 30,615 bales consisted of cloth Tex-marked October and earlier months and the rest pertained to stocks Tex-marked November, 1948. Pre-November stocks comprised mostly of un-attractive varieties. An Officer of Textile Commissioner's Organisation was deputed to Ahmedabad at the end of November, and he was able to clear off by 4th December, 1948 all the stocks except 4,000 bales, consisting mostly of *Kachi Malmal*, *Seconds* and *Fents*.

(c) Information is being collected and will be laid on the table of the House at a later date.

(d) The Government of India have not received any serious complaint to this effect.

**Shri R. K. Sidhva:** May I know whether it is a fact that the President of the Millowners' Association at Ahmedabad made a public statement that in Ahmedabad there was a stock of 83,000 bales packed from the month of October not released up to the end of December?

**The Honourable Dr. Syama Prasad Mookerjee:** So far as Ahmedabad is concerned, the total stocks will be about five weeks' stocks and that has been the previous position also. The mills have usually about five weeks to six weeks' stock. I do not think the position there was abnormal except for a short period to which I have already referred in my answer.

**Shri R. K. Sidhva:** But is it not a fact that a complaint was made in a public statement by the President that there were these 83,000 bales lying since October and were not allowed to be distributed?

**The Honourable Dr. Syama Prasad Mookerjee:** In fact, even now there are 120,000 bales of cloth lying there, which represent about five weeks' stocks, which is perfectly normal.

**Prof. N. G. Ranga:** To what is this due that in various places in the country there are lying huge stocks of cloth not yet sold and the local people not being willing to take delivery of these?

**The Honourable Dr. Syama Prasad Mookerjee:** There had been some difficulty in view of the inability of some of the Provincial Governments' agents to purchase and lift the cloth allotted to them within due time, and that matter is now being looked into. I can give the House a rough idea of the present position. I have got the figures up to 1st January, 1949 and it appears that so far as Bombay City and Ahmedabad are concerned, the stocks lying there with the mills will be about six weeks' stocks, which as I said is perfectly normal. This represents nearly 60 per cent of the total mill-made cloth produced in India. The accumulations are pretty high in the mofusil mills of Bombay and in the other surplus areas in India like Rajputana, Madhya Bharat, etc., where the accumulations vary from ten to twelve weeks' stocks, and arrangements are now being made, so that the Provincial agents may purchase the quotas allotted to them within due time and take them away to their own areas.

**Shri R. K. Sidhva:** Arising out of answer to part (b) that there was no complaint, may I know whether any province has made a reference to the Central Government that the stocks which they were entitled to receive were not received, although the goods were available at the mills. What is this due to?

**The Honourable Dr. Syama Prasad Mookerjee:** No provincial government has ever complained that it is not getting the quotas allotted to it.

**Shri R. K. Sidhva:** Did they get the full quota that they were entitled to?

**The Honourable Dr. Syama Prasad Mookerjee:** Every province has been allotted the full quota, but as I said some provinces are finding difficulty in lifting the quota allotted to them.

**Srijut Rohini Kumar Chaudhuri:** Is it a fact that in the province of Assam where co-operative societies have been newly set up for the purpose of indenting this cloth, these societies have not been able to release their stock for the last two or three months?

**The Honourable Dr. Syama Prasad Mookerjee:** If the honourable member refers to the inability of the provincial co-operative organisation to release the stocks for use within the province of Assam, I am afraid I cannot answer that question.

**Srijut Rohini Kumar Chaudhuri:** They have not been able to book it from Bombay and Ahmedabad to Assam.

**The Honourable Dr. Syama Prasad Mookerjee:** There has been no complaint from the province of Assam that it has not been able to purchase the quota allotted to it. No province has complained of inability on the part of any mill to supply cloth to any province.

**Shri B. P. Jhunjhunwala:** What are the reasons for provincial dealers not being able to lift the cloth? Have Government enquired into the matter?

**The Honourable Dr. Syama Prasad Mookerjee:** That matter has been discussed at a Conference which I called some months ago. One of the difficulties has been that in some places the provincial agents who have been nominated are new-comers. That has created some complication. Another difficulty has

been that some provincial agents have not been able to command sufficient finance to purchase the total quotas allotted to them. The third difficulty has been that the quotas taken to the provinces by the provincial agents have not moved out to different parts within the province for distribution among the consumers.

**Mr. Homi Mody:** Are Government satisfied that the allocation of cloth made to the various provinces is based on the actual requirements of those provinces?

**The Honourable Dr. Syama Prasad Mookerjee:** These are really two questions. The first is with regard to the total allotment made to each province.....

**Mr. Homi Mody:** I am talking of the quotas which are being put on to the various markets. Is it not a fact that in some markets cloth has been dumped for which the people have no use at all?

**The Honourable Dr. Syama Prasad Mookerjee:** I believe the honourable member knowing every minute detail of the intricacies of the working of mills knows how unefficient cloth can be produced in some mills. There has been some complaint that in some mills cloths have been produced which are not of quite the desirable type and that matter is being looked into.

**Mr. Homi Mody:** I am afraid the Honourable Minister has turned the tables on me. I am not accusing the millowners; I was accusing the Government—if I was accusing anybody at all.

**Mr. Speaker:** The honourable member may put his question.

**Mr. Homi Mody:** Is the allocation based on the actual requirements of the various centres so that Government ensure that cloth is not being sent to areas where it cannot be consumed.

**Shri B. L. Sondhi:** Not unreliable, but unsuitable!

**The Honourable Dr. Syama Prasad Mookerjee:** It is open to the provincial agents to purchase the cloth according to the requirements of the provinces concerned, and every help is given by the Textile Commissioner's office to see that the kind of cloth that is required by the province is really supplied to them, but of course if every province wants the best type of cloth out of the total quota allotted to them; obviously it is difficult to satisfy such a demand.

**Shri Deshbandhu Gupta:** Is the Honourable Minister satisfied with the working of cloth control ever since it was re-introduced and whether complaints have reached him from Delhi that cloth is being sold at much cheaper rates in unlicensed shops?

**The Honourable Dr. Syama Prasad Mookerjee:** The very fact that cloth is available at prices lower than the control prices shows that the control has worked successfully.

**Shri M. Ananthasayanam Ayyangar:** Has it come to the notice of the Government that whereas the demand in Madras is for 8 cubit pieces, 10 cubit pieces are received there and that whereas in Bengal the demand is for 10 cubit pieces, they get 8 cubit pieces there?

**The Honourable Dr. Syama Prasad Mookerjee:** If such defects are pointed out to us, we will rectify them.

**Shri M. Ananthasayanam Ayyangar:** Is there any agency appointed by the Government at the mills to see that the kind and variety of cloth of the desired length is alone sent to areas where they are in need and that *voils* are not sent to villages and coarse cloth to cities?

**The Honourable Dr. Syama Prasad Mookerjee:** I do not think the situation is as bad as that described by the honourable member, although there are some complaints. What we have now done is this: We are allotting particular mills to particular provinces, so that the bulk of the production from those mills may

satisfy the requirements of those provinces. If this system works well, I believe such complaints will disappear completely.

**Pandit Hirday Nath Kunzru:** May I know why there is a difference between the prices charged by licensed dealers and by unlicensed shops?

**The Honourable Dr. Syama Prasad Mookerjee:** A large quantity of cloth which was produced up to 30th July, 1948 was released to the market. They bore no stamp of prices on them. These were purchased by the dealers at much higher prices. Now that the stamped cloth has come to the market, those dealers are anxious to sell their stocks at lower prices. That is the reason why at some places cloth is available at prices lower than the stamped prices.

**Pandit Hirday Nath Kunzru:** Is the Honourable Minister aware that people selling cloth in the streets of Delhi are selling practically every kind of cloth at prices cheaper than those obtaining in shops licensed by Government?

**The Honourable Dr. Syama Prasad Mookerjee:** I have just explained the reason why that is so. Those dealers gained enormous profits previously. They can now bear some loss.

**Pandit Hirday Nath Kunzru:** Have the Government taken steps to assure themselves that none of the licensed dealers was selling cloth before?

**The Honourable Dr. Syama Prasad Mookerjee:** I believe the licensed dealers did sell cloth before.

**Pandit Hirday Nath Kunzru:** Then they too must have made profits?

**Mr. Speaker:** We are now entering into arguments.

**Srijut Rohini Kumar Chaudhuri:** Have the Government of India laid down a condition that the provincial agents should in all cases be co-operative societies and that, as far as possible, the usual traders should not be selected for the purpose?

**The Honourable Dr. Syama Prasad Mookerjee:** I have issued a circular that provincial Governments should, as far possible, try to distribute cloth through co-operative organisations; but obviously, it is not possible to eliminate the normal trade channels altogether. Assam has 100 per cent. relied on co-operative organisations. But in other provinces a smaller number of co-operative organisations have come into existence. It is not possible to eliminate the trade channels completely.

**Shri L. Krishnaswami Bharathi:** In the province of Madras there is an abundance of mill cloth. That is one of the reasons why the agents are not getting stocks from the mills.

**The Honourable Dr. Syama Prasad Mookerjee:** One of the Ministers who was here told me that there was Ram Rajya in Madras so far as distribution of cloth is concerned.

**Shri R. K. Sidhva:** Arising from the answer of the Honourable Minister that stocks were lying idle because permits were in the hands of persons whose financial position was not good, may I know if he will hereafter give permits to persons whose financial position is good?

**The Honourable Dr. Syama Prasad Mookerjee:** I did not say that all the provincial agents had no financial backing. In several cases there were financial difficulties standing in the way. I can now tell the House that it has been decided that every province must purchase by the end of the month following, whatever cloth was allotted to it in the preceding month and that if a province fails to do so, the extra cloth available will be distributed through other systems of distribution.

#### ADMINISTRATION OF KATHIAWAR PORTS

\*42. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Transport be pleased to state whether Government Resolution No. 19-P (118)/48 dated 7th

September, 1948 to the effect that the existing ports of Kathiawar should be placed under one Port Commission which should also include Okha and Verawal and that an extra berth be provided at Bhavnagar Port has been communicated to Saurashtra Government, and if so, with what result?

(b) Do Government intend to take under their control all Kathiawar ports so as to relieve congestion at the Bombay Port?

(c) Until Kandla port is fully constructed and developed what are the plans of Government as far as the existing Kathiawar ports are concerned?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes; The Saurashtra Government have reported that all the ports have been placed under the executive and administrative control of one senior officer designated Deputy General Manager, Ports. Verawal will be brought under his control as a result of Junagadh merger. For the inclusion of Okha, negotiations are proceeding with the Baroda Government. The Saurashtra Government are considering the question of appointing a Port Commissioner for Saurashtra. They have also under active consideration the question of the unification of charges, practice and procedure at all Saurashtra Ports. The question of the construction of an extra berth at Bhavnagar Port will be considered by that Government, when satisfactory results are obtained in respect of the dredging for which arrangements are under way. Some improvement in depths has already been achieved.

(b) No.

(c) The question whether the other Kathiawar Ports can be utilised to a greater extent than heretofore is now under examination.

Government are also examining plans for connecting Kandla by road to some Railway Stations in Kathiawar in order to provide increased scope for trade through Kandla even before that Port has been fully developed.

**Shri R. K. Sidhva:** May I know whether the Government are contemplating to take charge of and control the Kathiawar ports and consider them as major ports?

**The Honourable Shri N. Gopalaswami Ayyangar:** They are all minor ports. The Government do not intend to declare them as major ports.

**Shri R. K. Sidhva:** As Baroda has merged into the Bombay province, may I know whether the Government will take Okha port under their control?

**The Honourable Shri N. Gopalaswami Ayyangar:** The merger creates a new set of conditions. But I do not think that at the present moment any of these ports will be taken over as major ports by the Central Government.

**Shri R. K. Sidhva:** Is it a fact that a number of cargo steamers can unload simultaneously at Okha and be conveniently berthed there?

**The Honourable Shri N. Gopalaswami Ayyangar:** That is so. Even today a number of steamers are berthed there.

**Prof. K. T. Shah:** May I know whether the Saurashtra Government themselves are anxious to develop Sikka port, and, if so, what steps they are going to take for the purpose?

**The Honourable Shri N. Gopalaswami Ayyangar:** They are free to develop that port. So far as we are concerned, we do not go into the details of that question.

**Prof. K. T. Shah:** Has the fact been brought to the notice of Government that the Saurashtra Government desire to improve that port?

**The Honourable Shri N. Gopalaswami Ayyangar:** The Government of India have nothing to do with that matter.

**Shri R. K. Sidhva:** May I know whether the Government contemplates to expand the Nowlaki port?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I am ignorant about the Nowlaji Port.

**DEVELOPMENT OF A DEEP SEA PORT BETWEEN MORMUGAO AND COCHIN AND A HARBOUR AT COCOANADA**

**\*43. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Transport be pleased to state whether the West Coast Major Port Development Committee has submitted its report on the possibility of a deep sea port between Mormugao and Cochin?

(b) Do Government intend to build a harbour at Coccanada where cargo steamers at present anchor in stream for loading and unloading cargoes which involves great difficulties?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) No.

(b) The question of developing Coccanada as a minor port is primarily for the Madras Government to decide. So far as its development by the Government of India as a major port is concerned, Government have agreed with the finding of the Ports (Technical) Committee that it is not essential in the interests of future trade or necessary for the purpose of defence and strategy particularly in view of the other developments recommended by that Committee.

**FREE SERVICE OF WHISKY AND SODA TO PASSENGERS OF AIR INDIA INTERNATIONAL**

**\*44. Shri Mahavir Tyagi:** (a) Will the Honourable Minister of Communications be pleased to state if it is a fact, as published in the *Gram Udyog Patrika* of September 1948, that whisky and soda are distributed free of charge to the passengers of the Air India International?

(b) Is the Air India International financed up to 51 per cent of its capital by the Government of India?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) A rationed quantity of whisky and soda is supplied free of charge to those passengers of Air India International who ask for it outside a three mile limit from India. The total cost incurred on each journey is only about ten rupees but Government are taking up with the Company, the question of making the supplies on payment only.

(b) The Government of India hold 49 per cent. of the share capital of Air India International and have the option to acquire a further 2 per cent. at any time.

**Shri Mahavir Tyagi:** Has the Government of India permitted drinking three miles away from India?

**Shri Khurshed Lal:** Government of India's jurisdiction ends after three miles away from India.

**Shri Mahavir Tyagi:** Were these drinks offered with the consent of the Government of India?

**Shri Khurshed Lal:** Government of India's consent was not obtained by the Company.

**Mr. Frank Anthony:** In view of the fact that whisky and soda are an effective antidote to air sickness will Government consider the advisability of advising other air-lines also to serve whisky and soda free?

**Shri Mahavir Tyagi:** Are Government aware of the notification recently issued to the effect that Government expect that even in public dinners soda and whisky will not be offered?

**Mr. Speaker:** I am afraid this will lead to arguments.

**Shri H. V. Kamath:** May I know whether whisky and soda are supplied free of charge or does it merely get preference over others?

**Shri Mahavir Tyagi:** Are pilots also allowed to drink?

**RAILWAY ACCIDENTS**

**\*45. Shri Biswanath Das:** Will the Honourable Minister of Railways be pleased to state:

(a) the number of serious railway accidents separately for passenger and goods trains in the different railways in India for the period from 1st June to 31st December, 1948;

(b) the number of persons (including children) who died or were injured and the amount of property damaged;

(c) the causes of such accidents;

(d) the action taken to avoid recurrence of such accidents; and

(e) the number of cases in which connected Railwaymen or Officers were punished?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Twenty-one serious accidents in which trains carrying passengers were involved and ten in which goods trains were involved occurred on Indian Government Railways during the period 1st June, 1948 to 31st December, 1948.

(b) Sixty-seven persons were killed and 254 received injuries of varying degrees, as a result of these accidents. These figures include 10 persons killed and 16 injured who were occupants of road vehicles involved in accidents at level crossings.

The approximate cost of damage to engines, rolling stock, permanent way and other railway properties, etc., amounted to Rs. 6,68,000.

(c) Of the 31 accidents, referred to in reply to part (a) above, seven were due to failure on the part of the train crew and/or station staff, four due to failure of parts of rolling stock, one due to buckling of permanent way, one due to uneven loading of a wagon, four due to fires in trains, and six due to trains running into road traffic at level crossings. The causes of the remaining eight cases, which include two cases of fires and two of accidents at level crossings, are under investigation.

(d) Enquiries are instituted into every case of accident and suitable preventive action taken where necessary. Action taken in the cases referred to above included modification of signalling arrangements at stations, modifications to or provision of level crossings as necessary, fitting of spark arrestors on engines, repetition of instructions for loading combustible goods in covered wagons tightening up of supervision and control of subordinate staff, and warnings and instructions to them to observe safety rules strictly.

(e) Staff held responsible for accidents have been punished in four cases and in four other cases the question of punishment is under consideration; in six cases the result of prosecutions by the Police is awaited. In nine cases no punishments have been imposed as no railway servant was held responsible. In the case of the remaining eight accidents, investigations have not yet been completed.

**Shri R. K. Sidhva:** May I know whether there is a rule or order in the Railway that one of the crew in the engine, either a foreman or a driver, is supposed to observe when the trains are in motion that the line is very clear?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am not aware of having seen any specific rule to that effect but I take it that such a rule does exist in the railways.

**Shri Biswanath Das:** May I know whether, in the case of enquiries, it is only the connected officials who enquire it or it is done by judicial enquiry or by some officials having nothing to do with railway administration?

**The Honourable Shri N. Gopalaswami Ayyangar:** Magistrates are associated with most of these enquiries.

**Shri Biswanath Das:** In view of the frequency of these occurrences, have Government considered the need of appointing a Committee of this House to enquire and place before Government the causes of such recurrences of these serious accidents?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not think that the facts regarding these accidents warrant the setting up of a Committee of Enquiry into the occurrence of these accidents. If any particular causes recur and accidents owing to such causes happen frequently, then it will be time for us to consider the setting up of an Enquiry Committee of that sort.

**Shrimati Dakshayani Velayudhan:** May I know on which lines was the maximum number of accidents reported?

**The Honourable Shri N. Gopalaswami Ayyangar:** The East Indian Railway reports the largest number.

**Shrimati Dakshayani Velayudhan:** What may be the reason for that?

**The Honourable Shri N. Gopalaswami Ayyangar:** It is about the longest line.

**Shri Biswanath Das:** In view of the long list of deaths and also injured persons, may I know what compensation Government have been giving in each of these cases?

**The Honourable Shri N. Gopalaswami Ayyangar:** I would like that notice is given for that question. I have not the information readily available here.

**Shrimati G. Durgabai:** May I know whether the number of accidents occurring during the period 1st June to 31st December, 1948 is on the increase or decrease compared to the previous figure presented to this House?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I must ask for notice of that question also.

**Dr. V. Subramaniam:** In order to minimise the accidents to passengers, is there a system of appointing Conductor Guards so that they may help the passengers to get down?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not know what my honourable friend intends the Conductors Guard can do in the way of prevention of these accidents. They certainly can prevent accidents perhaps by helping certain old decrepit people getting into and out of compartments but hardly any of these accidents are attributable to that cause.

**Shri Biswanath Das:** May I know in which of these railway lines these accidents are common? May I know what action Government propose to take or have already taken both to prevent such accidents in future or at least to minimise them?

**The Honourable Shri N. Gopalaswami Ayyangar:** That is given in a general way in the answer. I have got a whole statement giving the particular action taken in respect of each accident after it had been investigated and the causes of the accident had been found. If the honourable member is interested in that, I can hand him over that statement.

**Srijut Rohini Kumar Chaudhuri:** Is there any truth in the report that due to the fact that there is no fencing for the railway line between Tejpur and Balipara, accidents often happen there owing to the collision of the railway engine and the train kettle? This line is a narrow gauge line.

**The Honourable Shri N. Gopalaswami Ayyangar:** So far as I am able to see from the information at my disposal, on the Assam Railways there was only

one accident during the period for which I gave figures. So far as the particular small line to which the honourable member refers is concerned, I must ask for notice of the question, and I will investigate whether accidents have been frequent there.

**Shri M. Tirumala Rao:** Have Government analysed the conditions that bring about these accidents and found any common conditions that have brought about the majority of these accidents?

**The Honourable Shri N. Gopalaswami Ayyangar:** The causes have been analysed completely in regard to all the cases that have occurred, but I cannot say that any one cause has been found as a common one, except perhaps the human element—the failure of particular persons employed on the railway to attend to their duties in the proper way. If you can call that a common cause it has occurred in a number of cases and action has been taken against them.

#### NEW RAILWAY LINES FOR ORISSA PROVINCE AND STATES

**\*46. Shri Biswanath Das:** Will the Honourable Minister of Railways be pleased to state:

(a) the action taken during the year 1948-49 on each of the projected Railway lines within the Province of Orissa or the States that have merged with Orissa; and

(b) the order in which the construction work of each of these projected or investigated Railway lines is proposed to be taken up?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) I would invite the honourable member's attention to the information laid on the table of the House, on 16th August, 1948, in reply to his starred question No. 255. The surveys which were in hand at that time have since been completed. No construction has yet been commenced on any of the projects, except for the Combined Rail-Road Bridge over the River Mahanadi and the rail approach to it from Sambalpur, which forms part of the Sambalpur-Kantabanji Project.

(b) The Projects in Orissa will be considered by the Central Board of Transport on the 5th February, 1949. It is, therefore, not possible at this stage to give the programme of construction.

**Shri B. Das:** In view of the expansion of the province of Orissa by the merging of the various States, and in view of the high priority that is given to the Hirakud Project in Orissa, has the Honourable Minister for Transport in his Ministry considered that some of the railway projects there require first priority and have they stated so in their recommendations to the Advisory Committee?

**The Honourable Shri N. Gopalaswami Ayyangar:** As a matter of fact, we give all these factors full importance and the Central Board of Transport on which the Local Government's representatives are present when the particular projects are taken up, will fully keep in view all the factors to which my honourable friend has referred.

**Shri Biswanath Das:** May I know whether the Government have considered the want of transport facilities in the States which have now merged in Orissa, and also whether they have considered that the proposed railway line connecting different parts and passing through the Koraput District has been hanging for the last fifteen or twenty years?

**The Honourable Shri N. Gopalaswami Ayyangar:** I have no doubt, and I am personally aware, that all these things have been pending for a number of years. So have many other projects in the country. We certainly take

account of the fact that that particular area in the province of Orissa does require opening up.

#### REORGANISATION OF BENGAL NAGPUR RAILWAY

**\*47. Shri Biswanath Das:** Will the Honourable Minister of Railways be pleased to state:

(a) whether Government propose to re-organise railways and especially the Bengal Nagpur Railway; and

(b) if so, the details of the proposed re-organisation of the Bengal Nagpur Railway?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The question of some reorganisation of Indian Government Railways, with a view to increasing their efficiency and rendering better service to public, is under consideration but definite conclusions have not yet been reached. The Bengal Nagpur Railway has not been selected for any special reorganisation but is included in the general scheme.

(b) Does not arise.

**Shri Biswanath Das:** Sir, may I know why the railway line is called Bengal Nagpur Railway line, though there is no province of Bengal at present?

**Mr. Speaker:** I do not think this question need be answered.

**Shri Gopikrishna Vijayavargiya:** Is the Government considering the question of the extension of the railway lines system in the Madhya Bharat Union which is so much lacking in communications?

**The Honourable Shri N. Gopalaswami Ayyangar:** That question does not probably arise.

**Mr. Speaker:** There is the "general reorganization" of the railway lines, and probably it arises out of that.

**The Honourable Shri N. Gopalaswami Ayyangar:** In the general reorganisation under consideration, Madhya Bharat will not be lost sight of.

**Shrimati G. Durgabai:** May I know from the Honourable Minister for Transport whether the reorganisation scheme includes also the reconsideration of the reservation and classification of the Second and First Classes which were recently introduced and which are reported to be causing much annoyance to the travelling public?

**Mr. Speaker:** It need not be answered.

**Shri H. V. Kamath:** Sir, is the question of reorganisation of the railway systems under active consideration or is just under consideration?

**The Honourable Shri N. Gopalaswami Ayyangar:** Very active consideration.

#### MANUFACTURE OF SALT IN ORISSA ON CO-OPERATIVE BASIS

**\*48. Shri Biswanath Das:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) the quantity of salt manufactured in the factories of Humma and Surla Sumandi in Ganjam District, Orissa, during the current year as also the quantity manufactured last year;

(b) the extent of land, fit for salt manufacture in each of these areas, lying unused for the last so many years;

(c) the reason why monopolists are encouraged in these areas despite representation from the people to organise manufacture of salt on co-operative lines; and

(d) whether Government have considered the question of themselves starting such co-operative salt manufacturing activities with initial State aid and subsequently leaving them to the Provincial Governments concerned?

**The Honourable Dr. Syama Prasad Mookerjee:** (a)

| Factories | Quantity of Salt manufactured. |               |
|-----------|--------------------------------|---------------|
|           | 1947                           | 1948          |
| Humma     | 5,84,000 mds.                  | 3,63,540 mds. |
| Surla     | Nil                            | Nil           |
| Sumandi   | 4,48,960 mds.                  | 1,32,256 mds. |

(b) Land lying unused at present in these areas:

|                              |       |             |
|------------------------------|-------|-------------|
| Humma (including Gokurkudda) | About | 900 acres   |
| Surla                        | About | 1,600 acres |
| Sumandi                      | About | 1,000 acres |

(c) No encouragement has been given by the Government to monopolists in these areas in the matter of salt manufacture. The general policy is to encourage Co-operative Societies, wherever possible, for setting up new factories. However, at the express request of the Orissa Government, it was decided to assign the site of the abandoned factory at Surla, temporarily, to their nominee for setting up a heavy chemical industry, on condition that a public limited company will be floated for this purpose. Hence, an application received in May, 1948 from the Pathithapavana Mission for allotment of 1,200 acres of land at Surla to a Co-operative Society of Labourers had to be rejected. Another representation dated 19th November, 1946 for assignment of the land at Sumandi to local labourers was received too late to be considered.

(d) Government of India will give all possible help to co-operative salt manufacturing activities; but Co-operative Societies have to be formed under Provincial Government rules.

**Shri Biswanath Das rose—**

**Mr. Speaker:** I am afraid the question hour is over.

**Maulana Hasrat Mohani:** What about the rest of the questions here? We have only disposed of a very few of the questions. I suggest that the replies to all the other questions may be printed and supplied to all the members so that we may know what are the answers to them.

**Mr. Speaker:** They are printed in the report.

**Maulana Hasrat Mohani:** The reports are printed after six months.

**Mr. Speaker:** There is no help.

#### (b) WRITTEN ANSWERS

##### MAINTENANCE OF PIPE BAND BY B.N. RAILWAY

**\*49. Shri Lakshminarayan Sahu:** Will the Honourable Minister of Railways be pleased to refer to the reply to part (b) of my starred question No. 1130 asked on the 1st April, 1948 and state whether the details of cost of the maintenance of the pipe band attached to the Watch and Ward Department of the Bengal Nagpur Railway have now been obtained?

**The Honourable Shri K. Santhanam:** A grant of Rs. 1,800 for maintenance of the Pipe Band was sanctioned from the Bengal Nagpur Railway Staff Benefit Fund in January, 1946. No grants for the maintenance of this Band have been made since, except a grant of Rs. 820 for purchase of certain Band equipment sanctioned from the Staff Benefit Fund in October, 1947.

## AMALGAMATION OF EUROPEAN AND INDIAN INSTITUTES ON B. N. RAILWAY

\*50. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Railways be pleased to state how many European and how many Indian Institutes are in existence on the Bengal Nagpur Railway today?

(b) How many of them have been amalgamated since 1st April, 1947?

(c) What decision has been arrived at on the question of eliminating communal or racial distinctions in these institutes?

(d) What is the time by which all distinctions such as "European" and "Indian" Institutes will be removed, if they still remain?

(e) Have Government considered the question of having combined Institutes?

(f) How much money is being given to the Institutes as Staff Benefit Fund?

**The Honourable Shri K. Santhanam:** (a) There are at present 13 European and 24 Indian Institutes on the Bengal-Nagpur Railway.

(b) None. The question of amalgamation of the European and Indian Institutes on this Railway at stations at which both exist, is under examination by a Sub-Committee specially appointed for the purpose.

(c) and (e). Instructions were issued to Railway Administrations in June, 1948, directing them to take early and appropriate measures in accordance with local conditions to secure the amalgamation of existing European and Indian Institutes into organizations where membership was not based on racial or religious considerations.

On the Bengal-Nagpur Railway, the question of such amalgamation or conversion is now under investigation by a Sub-Committee. Membership to the European Institutes has, in the meantime, been thrown open to all employees irrespective of their community or status on the Railway.

(d) On practical considerations one 'set pace' for all Railways has not been prescribed. Each General Manager is using his discretion to remove objectionable distinctions as early as possible, having regard to the local conditions.

(f) A grant of Rs. 93,890 has been given to the Institutes of the Bengal Nagpur Railway for the year 1947/48 from the Staff Benefit Fund.

## SHORT TERM PLAN FOR INCREASED INDUSTRIAL PRODUCTION

\*51. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the progress that has been made so far in regard to the short term plan of the Government of India for increased production in the 42 selected industries referred to in the answer to my Starred Question No. 1131 asked on the 1st April, 1948?

(b) Who are the private parties that have so far been encouraged by allowing them to raise necessary capital and import plants and machinery?

(c) What technical advice and assistance have so far been given in obtaining raw materials?

(d) Who have been appointed members of the Advisory Council?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Attention of the honourable member is drawn to our Quarterly Bulletins which review in detail progress made in various industries from time to time as also to the memorandum recently issued in connection with the Central Advisory Council of Industries which gives the latest position. Copies of these booklets are placed in the library of the House. Further details in any particular industry will be furnished on request.

(b) I place on the table of the House a statement of various private parties who have been encouraged to enable them to raise necessary capital to import plant and machinery.

(c) I place on the table of the House a list showing types of assistances rendered to industry in general.

(d) I place on the table of the House a copy each of Government's Notification No. I-4/1/(19)/48, dated the 6th December, 1948 and 8th January, 1949.

| 4. Alembic Glass Industries, Ltd.                                                 | Manufacture of glass bottles and containers tin caps, tin contains plastics caps, etc.                                                                                         | 12,00,000        |
| <i>Cement</i>                                                                     |                                                                                                                                                                                |                  |
| 1. Jhajha Cement and Industries Ltd., Jhajha.                                     | Manufacture of Cement.                                                                                                                                                         | 50,00,000        |
| 2. Patiala Cement Co. Ltd., Surajpur                                              | Manufacture of Cement                                                                                                                                                          | 38,40,000        |

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

(PART I--QUESTIONS AND ANSWERS)

*Friday, 25th March, 1949.*

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

STARRED QUESTIONS AND ANSWERS

(a) ORAL ANSWERS

CONTROL ON CEREALS IN URBAN AREAS

\*1372. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Food be pleased to state whether the control of cereals has been reimposed in all cities and towns and if so, what are the names of such cities and towns?

(b) What were the prices of wheat and rice ruling in Bombay, Ahmedabad, Madras, Nellore, Bezwada, Calcutta, Poona, Nagpur, Jabulpore, Lucknow, Kanpur, Allahabad Banaras, Patna, Gaya, Gauhati, Shillong and Ajmer, during the months of October and November, 1948?

(c) Are wheat and rice available in sufficient quantity in all parts of the country?

(d) What will be the total number of persons who will be affected if full control is imposed in all urban areas?

**The Honourable Shri Jairamdas Doulatram:** (a) A statement (No. I) showing the names of cities and towns, which are now under rationing is laid on the table of the House.

(b) A statement (No. II) is laid on the table of the House

(c) Not in all parts of the country.

(d) Five crores.

STATEMENT I

*Urban areas, (Cities and Towns) in Provinces/States which are under rationing (Statutory and Non-Statutory) rationing or Controlled Distribution*

| S. No. | Province/States | Names of towns                                                                                                                                                         | Whether under Statutory rationing. |
|--------|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------|
| 1      | 2               | 3                                                                                                                                                                      | 4                                  |
|        | Assam           | (1) Shillong, (2) Gauhati, (3) Dibrugarh, (4) Tinsukia, (5) Dhubri, (6) Nowgong, (7) Silchar, (8) Karimganj, (9) Sibsagar, (10) Jorhat, (11) Golaghat and (12) Tezpur. | Yes                                |

| Name of the Company                                           | Object                                                                                                                                                            | Amount consented |
|---------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|

## List

Assistance rendered to Industry in general :—

- (1) Liberal quotas of steel, pig iron etc. are allowed from the steel processing quota.
- (2) Assistance in obtaining coal, coke, iron scrap, oil, building materials etc. is given when ever asked for.
- (3) Priority in transport of raw materials of finished goods to and from the factory is also arranged.
- (4) Import from abroad of semi-finished and finished parts required by the industry for improving the quality of products is recommended to the Licencing Authority. Concerning the import of capital goods, recommendations have often been made regarding the possibility of obtaining from indigenous sources or from cheaper sources of supplies from overseas.
- (5) Samples of products are tested and the firms advised as to how they can improve their products.
- (6) Services of technicians from foreign countries like Germany, Japan, Czechoslovakia, U. S. A. etc. and Indian scholars with overseas training, have been made available to the industry, where desired.
- (7) Cases for protection to the industry have been recommended to the Tariff Board wherever necessary.
- (8) Advice regarding suitability and usage of the materials used by them and source of supply of alternative materials etc. is given to the industry.
- (9) Issue of capital for floating new firms or for expanding existing firms is recommended to the Controller of Capital Issues.
- (10) Refunds of Excess Profits Tax Deposits is also recommended where it is required for development purposes.

GOVERNMENT OF INDIA

## MINISTRY OF INDUSTRY AND SUPPLY

## NOTIFICATION

New Delhi, the 6th December, 1948.

184 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [2ND FEB. 1949]

## REPRESENTATIVES OF INDUSTRY—contd.

|                  |                                                                                                               |
|------------------|---------------------------------------------------------------------------------------------------------------|
| Skins and Hides  | Mr. M. J. Jamal Moideen, Southern India Hides and Skin Merchants' Association, Madras.                        |
| Aluminium        | Sir Padampat Singhania, Kamla Tower, Kanpur.                                                                  |
| Re-rolling Mills | Mr. N. N. Rakshit, Indian Steel Re-rolling Mills Association, 20, Strand Road, Calcutta.                      |
| Economists       | Dr. Radhakamal Mukerjee, The University, Lucknow.<br>Dr. Gyan Chand, Prime Minister's Secretariat, New Delhi. |

3. A further notification will be issued regarding the three unfilled seats.

4. The term of membership will expire on the 31st December, 1949.

## ORDER

ORDERED that a copy of the above Notification be communicated to all Provincial Governments and Administrations, all Ministries of the Government of India, the Indian Trade Commissioners, all Indian Embassies, the High Commissioner for India, London, His Majesty's Trade Commissioner in India, all Chambers of Commerce and Associations, the Director of Commercial Intelligence and Statistics, Calcutta, the High Commissioner for India in Pakistan, Karachi, the High Commissioner for Pakistan in India, New Delhi, and the Secretary, Indian Tariff Board.

ORDERED also that it be published in the *Gazette of India*.

S. A. VENKATARAMAN, Secy.

## GOVERNMENT OF INDIA

## MINISTRY OF INDUSTRY AND SUPPLY

## NOTIFICATION

New Delhi, the 8th January, 1949.

No. I(4)-1(19)/48.—In para. 2 of this Ministry's Notification No. I(4)-1(19)/48, dated the 6th December, 1948, the following additions and amendments shall be made, viz.,

- (1) Under Provincial Governments, against Orissa, substitute "Mr. M. L. Narasimengar, Director of Industries, Cuttack," for "Mr. M. L. Narasimengar, Secretary, Department of Industries, Cuttack."
- (2) Under States, the following new entry shall be made,  
Travancore.....Mr. C. Kumara Das, Estate Industrial Liaison Officer, Trivandrum.
- (3) Under Representatives of Industry—  
Against Iron & Steel, substitute "Sir Padamji P. Ginwala, 12 Mission Row, Calcutta," for "Sir Biren Mookerjee, 12 Mission Row, Calcutta".  
Against Shipbuilding, substitute "Mr. M. A. Master, Scindia Steam Navigation Co., Bombay", for "Mr. Lalchand Hirachand, Scindia Steam Navigation Co., Bombay".
- (4) Under Representatives of Industry—  
After "Paper.....Seth S. P. Jain, 9 Dalhousie Square, East Calcutta."  
the following new entry shall be made,  
Glass & Ceramics.....Mr. R. D. Chandorkar, M/S. Vijay Glass Works, Mazagaon, Tram Terminus, Bombay 10.

## ORDER

ORDERED that a copy of the above Notification be communicated to all Provincial Governments and Administrations, all Ministries of the Government of India, Cabinet Secretariat, Prime Minister's Secretariat, the Indian Trade Commissioners, all Indian Embassies, the

High Commissioner for India, London, His Majesty's Trade Commissioner in India, all Chambers and Associations, the Director of Commercial Intelligence and Statistics, Calcutta, the High Commissioner for India in Pakistan, Karachi, the High Commissioner for Pakistan in India, New Delhi, and the Secretary, Indian Tariff Board.

ORDERED also that it be published in the *Gazette of India*.

M. P. PAI, Joint Secy.

## SURVEY PROJECTS ON B. N. RAILWAY

\*52. Shri Lakshminarayan Sahu: Will the Honourable Minister of Railways be pleased to refer to my starred question No. 626 asked on the 5th March, 1948 and state:

- (a) what progress has so far been made with regard to the Survey Projects on the Bengal-Nagpur Railway since the 5th March, 1948;
- (b) the details of work on every project;
- (c) what has been the total expenditure so far;
- (d) what will be the probable expenditure for all the projects on the Bengal Nagpur Railway when the work will be completed; and
- (e) the probable time of completion of each?

The Honourable Shri N. Gopalaswami Ayyangar: (a) Surveys of the Railway Projects, referred to in starred question No. 626 which were in hand at that time, have been completed.

(b) Traffic and Engineering Surveys only, as detailed in the reply to starred question No. 626, have been carried out. No construction has commenced on any of the Projects, except for the Combined Rail-Road Bridge over the Mahanadi River and the rail approach to it.

(c) Rs 24.74 lakhs has been spent so far on the surveys.

(d) No further expenditure is to be incurred on surveys on the B. N. Railway. The estimated cost of construction at present-day rates of various new line projects on the B. N. Railway is about Rs. 42 crores. It is not possible at this stage to state exactly what will be the probable expenditure on new line projects on the B. N. Railway, as this will depend on the rates prevailing during the years in which construction is taken up, and the decision as to which of the projects are to be executed.

(e) Individual projects may take anything from 2 to 4 years to complete. It is, however, not possible to give at present the probable time of completion of each project.

## PASSENGER TRAFFIC EARNINGS ON RAILWAYS

\*53. Shri Lakshminarayan Sahu: Will the Honourable Minister of Railways be pleased to state what was the total passenger traffic earning in the year 1947-48 for each of the following classes: (i) first class; (ii) second class; (iii) inter class; and (iv) third class?

The Honourable Shri K. Santhanam: The total passenger traffic earnings by classes on Indian Government Railways during 1947-48 were:

- (i) First Class—Rs. 2,28,27,000.
- (ii) Second Class—Rs. 5,62,11,000.
- (iii) Inter Class—Rs. 3,90,67,000.
- (iv) Third Class—Rs. 53,28,64,000.

## CENTRAL CONTROL OF POSTAL SYSTEMS IN STATES

**\*54. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Communications be pleased to state the present Postal arrangements, their control etc., in all the States which have acceded to the Indian Union?

(b) Since many States are also running their own Post Offices, printing their own stamps etc., what is the agreement reached between the States and the Govt. of India to bring them under one control?

(c) Are Postal stamps issued by States like Travancore, Cochin, Jaipur and such other States, who print their own stamps, valid in the Indian Union territory?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) The position is substantially the same as existed before the 15th August, 1947 except that privileges which previously vested in the integrated States have now been transferred to the respective Unions of States.

(b) In accordance with the various Instruments of Accession, all States and Unions of States have acceded in respect of the subject Posts and Telegraphs. Details regarding taking over by the Indian Posts and Telegraphs Department, the separate postal systems as exist in some States, have not yet been worked out. It is proposed shortly to hold a Conference on this subject with representatives of the States concerned.

(c) Postal stamps issued by States like Travancore, Cochin, Jaipur, etc., are not valid in the Indian Union territory; but stamps issued by the States of Gwalior, Patiala, Jind, Chamba and Nabha, which entered into convention with Government of India a long time ago, are valid in payment of postage on articles posted in their post offices for delivery in India.

## MEASURES TO CHECK CORRUPTION IN RAILWAY ADMINISTRATION

**\*55. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Railways be pleased to state what steps have been taken or are being taken to check corruption in Railway Administration and particularly, in the case of the allotment of priority of wagons and the regulation of wagon movements?

(b) Do Government propose to consider the advisability of associating independent non-officials of undoubted integrity and eminence with the authorities concerned in making wagon priority allotments and in regulation of wagon movements with a view to minimise the chances of corruption?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The question, especially the portion relating to the allotment of priorities and of wagons and regulation of wagon movements is not clear. Priority for movement of goods is granted by the Railway Priority Organisation in the Ministry of Transport. Railway Administrations arrange for allotment of wagons and regulate wagon movements in accordance with the orders issued by the Priority Organisation.

Government have taken the following steps to deal with corruption on railway administration:

(1) The Special Police Establishment was set up in 1942 to investigate cases of corruption. Selected railway staff have been attached to this organisation to assist in the investigation and detection of railway cases and this number has recently been increased;

(2) Separate Complaints sections have been set up on railways and in the Railway Board's office to expedite the investigation and disposal of complaints, including cases of corruption.

(3) All railway staff have been warned that severe action will be taken against any member of the staff found guilty of indulging in corrupt practices.

In regard to regulation of wagon movements, the procedure for registration of goods, allotment and loading of wagons has recently been reviewed and Railway Administrations have been directed to frame standard rules and give wide publicity to them and this action is aimed towards minimising possibility of corrupt practices.

(b) Independent non-officials are already associated through the Regional Advisory Committees which have been functioning since April last in the issue of priority for rail transport. These Committees advise Regional Controllers of Railways Priorities on this subject.

The following further action has been taken for the better regulation of wagon movements:

(1) framing of standard rules for registration of goods, allotment and loading of wagons and give wide publicity to it,

(2) furnishing the public with details of allotment of wagons made daily by supplying this information to Chambers of Commerce, Merchants' Association, etc., where they exist and by displaying them on the notice boards at other stations.

## STEPS TO CHECK TICKETLESS TRAVELLING

**\*56. Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Railways be pleased to state what steps have been taken or are being taken by the Railway Administration to check ticketless travelling on Railways?

**The Honourable Shri K. Santhanam:** Railways are tackling the ticketless travel problem in two ways. They are taking energetic steps to improve their own arrangements in order that there can be no valid reason for any passenger to travel without a ticket. Stocks of tickets are now maintained at adequate levels; booking staff are trained and encouraged to issue tickets more rapidly; additional city booking offices and additional booking windows at stations have been provided; and the hours of opening extended.

A new feature of the railway drive against those who deliberately travel without tickets or with irregular tickets has been the enlistment of the co-operation of Provincial Governments. In particular, in the U.P. where this problem had assumed alarming proportions, a scheme was introduced from the 1st January, 1948, under which the Provincial Government provided a complement of 17 platoons of mobile police and 34 Special Magistrates to work in conjunction with the railway checking staff. In addition to checks in running trains, surprise checks are carried out at roadside stations and between stations, the checking points being reached by road transport. Results in the U.P. have been encouraging both in respect of recoveries from ticketless passengers and of improved booking office receipts.

Other steps taken by railways include the enforcement of maximum control at station entrances and exits, for which purpose, additional staff have been provided where necessary; the introduction of an element of surprise in checking by means of control from a central office; and requiring railway officers of all departments to assist by bringing to the notice of the officer directly responsible any slackness or unsatisfactory conditions which they may observe at stations or in trains.

PAY SCALES OF CHARGEMEN IN MECHANICAL DEPARTMENT  
OF B. B. & C. I. RAILWAY

**\*57. Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Railways be pleased to state whether it is a fact that scales of pay other than those prescribed by the Pay Commission were provided for Chargemen in the

Mechanical Department of the Bombay, Baroda and Central India Railway and if so, why?

**The Honourable Shri K. Santhanam:** The answer to the first part of the question is in the affirmative.

The Central Pay Commission's recommendation on scales suitable for the subordinate supervisory staff in the Mechanical Departments of Railways is general. The category of junior chargemen, current on some railways had not been specifically mentioned and on railways such as the B.B. & C.I. where all charge hands were called chargemen, it was found that the duties and responsibilities of the less experienced chargemen corresponded to those of junior chargemen and apprentice chargemen. They were accordingly given a scale appropriate to their responsibilities status.

#### IMPORT OF IRON AND STEEL

**\*58. Prof. N. G. Ranga:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) whether our imports of iron and steel from the United States of America, Canada, the United Kingdom and Belgium have improved during the last year;

(b) if so, to what extent; and

(c) what our total import requirements of iron and steel are?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir.

(b) Imports in 1948 have more than doubled when compared with 1947 figures.

(c) If all demands are to be met, we will require over 1½ million tons from imports.

#### MACHINE TOOL INDUSTRY

**\*59. Prof. N. G. Ranga:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) the progress which has been made in building up the machine tool industry;

(b) whether Government have started their own factories for this purpose, and if so, how many and where they are located;

(c) what subsidy and other forms of encouragement are recommended by the Tariff Board for the machine tool industry; and

(d) whether Government have come to any decisions regarding the recommendations of the Tariff Board and if so, what they are?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The actual output of graded machine tools in the years 1947 and 1948 was 1,400 and 1,691 respectively. In 1948, sixteen new firms started the manufacture of machine tools, thus making a total of about 53 ungraded firms. Out of this, fifteen firms applied for facilities of inspection to be afforded to them. There are two firms who have effected considerable improvement in their production and are likely to be upgraded very soon. The total number of graded firms will thus come to sixteen. Besides six more firms stand a fair chance of being added to the list of graded manufacturers of machine tools. The output of graded (approved) machine tools is thus expected to increase by about 50 per cent. During the year 1949. Applications for licences to import machine tools are screened with a view to protecting the industrial concerns which are engaged in the manufacture of machine tools.

(b) No Government factory has yet been started, but action to establish a factory for the manufacture of more intricate types of machine tools hitherto not manufactured in this country has been initiated.

(c) and (d). I would invite the attention of the honourable member to the resolution of the Government published in the Gazette of India, Extraordinary, dated June 14, 1948.

#### NEW THIRD CLASS RAILWAY COACHES

**\*60. Prof. N. G. Ranga:** Will the Honourable Minister of Railways be pleased to state:

(a) what progress has been made in manufacturing the all-metal third class railway coaches;

(b) when the proposed 100 coaches are expected to be completed;

(c) how much each one costs;

(d) where they are being manufactured;

(e) whether there are any schemes for manufacturing more such coaches at other places; and

(f) how many new coaches are needed to replace the annual wastage and also to replace the wastage which occurred since 1939?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Three—10 Feet wide all-metal class III coaches have been completed upto 15th January, 1949 and the rest are in the process of construction.

(b) 100 all-metal class III coaches are expected to be completed by March, 1950.

(c) The approximate average cost of each coach is Rs. 99,000.

(d) They are being manufactured by Messrs. Hindustan Aircraft Ltd., Bangalore.

(e) Yes.

(f) The average number of new passenger coaches needed to replace the average coaches is 370 per year. The number needed to replace coaches which have become overage since 1939 is about 2,400.

#### GOVERNMENT'S NEW TEXTILE POLICY

**\*61. Prof. N. G. Ranga:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) when the Government of India's new Textile Policy was announced,

(b) how far it has been enforced;

(c) what response it has received from the Mills;

(d) how many mills are working three shifts a day;

(e) to what extent production has been stepped up;

(f) what decisions have been taken by Sivasanker's Committee;

(g) whether the yarn of finer counts is being placed at the disposal of handlooms;

(h) whether the quantity of yarn needed by handlooms is being fully supplied and if not, in what proportion; and

(i) what steps Government are taking to increase the production of mill cloth?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The new Textile Policy was announced in the Government of India, Ministry of Industry and Supply, Resolution No. 90/14-Tex.1/48, dated the 31st July, 1948.

(b) The policy announced in the Resolution has already been implemented in all respects.

(c) I have no reason to consider the general response to be other than satisfactory.

(d) Thirty-two spinning mills and seventy-one composite mills are working three shifts a day for spinning and twenty-five composite mills for spinning and weaving.

(e) The average monthly production of yarn during the five months of control has exceeded the average monthly production during the seven months of de-control by about 4 per cent. The cloth production has been much the same.

(f) The report of the Cotton Textile Production Control Committee presided over by Mr. Sivasankar is under examination and the decisions of the Government on that report will be announced in due course.

(g) Yes, Sir.

(h) About 80,000 bales of yarn are available for distribution in the Provinces and States and 65,000 bales per month out of this are estimated to be going to handlooms. This does not, however, meet the full requirement of the handloom industry.

(i) Certain tentative measures of production control have been introduced from the 1st January, 1949. These are meant to secure the production of durable varieties of cloth required by the common people. Other measures of production control have been examined by the Production Control Committee and their report is now under examination of Government. The report, indicates, however, that no very great increase in cloth production can be expected until the production of raw cotton in India is increased.

#### DISTRIBUTION OF CLOTH AND YARN THROUGH CO-OPERATIVE SOCIETIES

**\*62. Prof. N. G. Ranga:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) how many and which Provincial and State Governments have accepted the Government of India's proposal to distribute yarn and cloth through Co-operative Societies;

(b) which of them are organising new Co-operative Societies for the distribution of yarn and cloth; and

(c) whether the Government of India propose to give any financial or other encouragement to those Governments which are willing to develop Co-operative Societies?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) All provinces and States are distributing part of their cloth and yarn through co-operative societies,—some a large part of the supply and some a small quantity. Only one province, namely, Assam, is distributing cloth and yarn exclusively through co-operative societies. The Government of India never decided that co-operative societies should be the exclusive channel of distribution. The decision taken after consultation with the provinces was that co-operative societies should be encouraged and that the Government of each province or State should decide for itself how much of the supplies should be distributed through co-operative societies and how much through other agencies.

(b) Many of them are doing this, but we have no details. In particular Assam is organising them on a large scale.

(c) The development of co-operative societies is a provincial subject, and no question of financial assistance from the centre has been raised.

#### WATER SUPPLY TO SOUTH INDIAN RAILWAY BY TIRUCHIRAPALLI MUNICIPALITY

**\*63. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the South Indian Railway authorities at Tiruchirapalli Junction are getting one lakh of gallons of water daily from the Tiruchirapalli Municipality on some agreement? If so, what is the agreement and what is its period?

(b) Has the Railway Board any idea of cancelling the agreement with the Tiruchirapalli Municipality, so that the Municipality may be relieved of the burden of supplying water for Railway needs?

(c) Is it a fact that the South Indian Railway authorities have constructed a separate pumping station at Sarkarpalayam, Tiruchirapalli, to pump water to the Tiruchirapalli Junction?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes. The arrangement is a perpetual one and under this the railway and the municipality shared the initial cost of the construction, and the working expenses are also shared annually in proportion to water actually consumed by each.

(b) No. The pumping station is jointly owned by the Railway and the municipality.

(c) No. The Railway has a separate pumping station at Sircarpalayam, but this is designed and intended for supply of water to Golden Rock and not to Tiruchirapalli Junction.

#### FOOD PRODUCTION AND CO-OPERATIVE CULTIVATION OF WASTE LAND

**\*64. Shri S. Nagappa:** (a) Will the Honourable Minister of Agriculture be pleased to state whether Government have been able to increase the food production of the Country? If so, by what percentage?

(b) Was there any acreage of cultivable waste land brought under cultivation during the last one year?

(c) If so, what is the acreage and what is the quantity of additional food-stuff thus produced?

(d) Is it a fact that most of such lands were brought under plough by agricultural labourers, and if so, what is the special encouragement that Government have given them?

(e) Will such lands be developed into collective farms on co-operative basis?

**The Honourable Shri Jairamdas Doulatram:** (a) The production of the 8 principal food grains (rice, wheat, jowar, bajra, maize, ragi, gram and barley) in the reporting areas of the Indian Union in 1947-48 was 42,663,000 tons. During 1946-47 it was 42,068,000 tons. This shows an increase in production of 595,000 tons in 1947-48 over the production of 1946-47, in spite of extensive damage to rice crop in the South owing to failure of the monsoon. This increase works out at 1.4 per cent. during 1947-48 as compared with 1946-47.

(b) Yes.

(c) The total acreage of cultivable waste lands brought under cultivation during 1948 was 4,45,833. The additional quantity of food grains produced from this area exclusive of Bombay and Orissa was 34,41,071 maunds, i.e., nearly 1,22,895 tons. A statement showing area reclaimed and additional foodgrains production achieved in each of the provinces is placed on the table of the House.

(d) Nearly 40 per cent. of these lands were reclaimed with the help of tractors, while the remaining 60 per cent. were brought under cultivation by the farmers themselves who naturally took the help of agricultural labourers to a certain extent. Reclamation of culturable wastelands is helped by one or more of the following measures:

(1) Subsidies from the Grow More Food funds are given by the Central and Provincial Governments to the extent of 50 per cent. of the cost of reclamation.

(2) Taccavi loans free of interest are given by the Provinces. A part of these loans is later written off as subsidy.

(3) Tractors are hired out to cultivators at reasonable or subsidised rates.

(4) Exemption from land revenues are made in the initial stages and reduced rates are charged in the next few years.

(5) Loans and subsidies for purchase of cattle implements, seeds, manure, etc., are also given.

(e) The question of organising reclaimed lands on co-operative or collective or individual basis is, for the Provincial Governments to decide. However, according to information available, U.P., Orissa and Bombay, have got plans for developing a portion of the reclaimed lands on co-operative and collective farming basis.

*Statement showing province-wise acreage of cultivable waste-land brought under cultivation and additional food grains produced therefrom during 1948.*

| Name of Province | Total area reclaimed (in acres) | Additional food-grains produced in Bengal Maunds                     |
|------------------|---------------------------------|----------------------------------------------------------------------|
| Bihar            | 13,450                          | 2,54,250                                                             |
| United Provinces | 28,888                          | 2,55,260                                                             |
| Orissa           | 3,396                           | (not available)                                                      |
| C. P. & Berar    | 2,00,000                        | 7,71,039                                                             |
| Assam            | 10,363                          | 3,10,878                                                             |
| East Punjab      | 10,354                          | 51,770                                                               |
| Bombay           | 392                             | (Not available)                                                      |

#### FOOD POSITION

\*65. Dr. V. Subramaniam: (a) Will the Honourable Minister of Food be pleased to state the over-all food position in India for the year 1949 so far as the sufficiency or insufficiency of food is concerned and if insufficient to what extent?

(b) What was the total yield of foodgrains for the year 1948 and what was the tonnage imported and the total cost of imported food stuffs and grains?

(c) In how many provinces has the ration system been again introduced and if so, when was it introduced?

(d) In how many towns in each province has statutory ration been again introduced and what is the number of people affected by it?

(e) Is there rationing in States?

The Honourable Shri Jairamdas Doulatram: (a) Generally speaking the seasonal condition were unfavourable for the current *kharif* crops. Considerable damage has been caused to the millets and maize crops by heavy floods during September, 1948, in the United Provinces and Bihar. There was a continuous and prolonged drought in the whole of Western India. The excessive and untimely rainfall in the second half of November, 1948, followed by the cyclone has caused considerable damage to crops in Bombay and C.P. There was also an unusually long gap between the South West and North East Monsoon in the Southern Region. The yield of the *kharif* crops will, therefore, be below the normal. Seasonal conditions have so far not been unfavourable to be *rabi* Crops, but rains are needed now, and in parts of Bombay and Saurashtra the wheat seedlings are reported to have been attacked by rust. Assuming, however, that the *rabi* crops will be normal, it is considered by rust. the Central Government will have to distribute under their Basic Plan to the deficit Administrations during 1949 about four million tons of foodgrains.

(b) The total production of foodgrains during the crop year 1947-48 was 42,663 thousand tons. During 1948, the Central Government imported a total quantity of 2,840 thousand tons of foodgrains valued at 129.6 crores of rupees.

(c) and (d). Two statements are placed on the table of the House.

(e) Yes, but not in all States.

#### Statement I.

*Showing dates of re-introduction of rationing in Provinces/ Administrations*

## CONSTRUCTION OF A BRIDGE OVER GANGA AT PATNA

\*66. Shri Jadubans Sahay: (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the question of constructing a bridge over the river Ganga at Patna has been engaging the attention of the Government of India?

(b) Is it a fact that the Government of Bihar and the Bihar Legislature have made representations for constructing the bridge over the Ganga at Patna and not at Mokamah?

(c) Are Government aware that a bridge near Patna will link up South Bihar with North Bihar?

The Honourable Shri N. Gopalaswami Ayyangar: (a) Yes.

(b) Yes.

(c) The bridge at Mokamah will equally link up South Bihar with North Bihar.

## ESTABLISHMENT OF A FOREST RESEARCH INSTITUTE AT RANCHI

\*67. Shri Jadubans Sahay: Will the Honourable Minister of Agriculture be pleased to state:

(a) the names of the places where Forest Research Institutes are located;

(b) whether Government are aware of the importance of setting up such an institute in the eastern part of India;

(c) whether Government are aware that Ranchi (Bihar) will provide an ideal site for a Forest Research Institute which will cater to the needs of Bihar, Orissa, West-Bengal and Assam; and

(d) what steps Government propose to take for setting up such an Institute in the eastern-zone of India?

The Honourable Shri Jairamdas Doulatram: (a) There is only one Forest Research Institute in India situated at Dehra Dun but research in Silviculture is carried out in most Provinces also. There is a Forest Research Laboratory in Bangalore in which research in some aspects of forest utilization is carried out.

(b) to (d). Under present conditions, the Forest Research Institute at Dehra Dun is fully equipped to cope with research problems of the whole country. When, however, forestry becomes intensified and forest industries develop further, it may become desirable to establish a Research Station in the Eastern part of India.

## LAND RECLAMATION AND SUPPLY OF TRACTORS IN BIHAR

\*68. Shri Jadubans Sahay: Will the Honourable Minister of Agriculture be pleased to state:

(a) Whether the Government of India have received any report from the Government of Bihar regarding the progress made by them in the reclamation of lands;

(b) if so, the area of land reclaimed during the year 1947-48 in Bihar;

(c) whether it is a fact that the non-availability of suitable tractors has hampered the progress of land reclamation in Bihar;

(d) what steps have been taken in order to supply tractors to the Government of Bihar; and

(e) whether Government propose to evolve some scheme through which tractors may be popularised among the agriculturists?

The Honourable Shri Jairamdas Doulatram: (a) Yes.

(b) The total area of land reclaimed in Bihar during 1947 and 1948 is as follows:

1947—3,500 acres.

1948—13,450 acres.

These areas were reclaimed by means of manual labour.

(c) The reply is in the negative. In fact so far there has been no scheme for reclamation of land by use of tractors in Bihar. The Government of India have recently drawn up a scheme for the reclamation of about six million acres of land in India during the next seven years. The area proposed to be reclaimed in Bihar under the scheme is two lakh acres of new land and 1.5 lakh acres of weed infested land. This work will be done by mechanical means.

(d) In 1945 the Government of Bihar placed an order for 25 tractors with the Government of India. Out of these 23 have since been released and two are expected very shortly. In August, 1948, the Provincial Government enquired whether the Government of India could arrange to supply thirty tractors immediately. The Provincial Government were informed that nine tractors could be made available immediately and the balance would be supplied in 1949. The Provincial Government accepted the delivery of only four tractors and preferred to make their own arrangements of the balance of their requirements.

(e) The Provincial Government have sanctioned a scheme for hiring out tractors to the cultivators at the rate of Rs. 35 per tractor per day. The question of enlarging its scope with a view to popularising the use of tractors amongst the cultivators is under consideration of the Provincial Government.

#### MODEL AEROPLANE CLUBS IN COLLEGES

**\*69. Shri Jadubans Sahay:** (a) Will the Honourable Minister of Communications be pleased to refer to the answer to starred question No. 1277 asked on 6th April 1948 regarding gliding clubs in premier educational institutions in India and state whether Government have been able to set up Model Aeroplane Clubs in colleges as stated therein?

(b) If so, what are the names of the colleges where such clubs are in existence?

(c) Do Government propose to set up such a Model Aeroplane Club in Patna for making the students air-minded?

(d) If so, what steps have been taken by Government in this direction?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) to (d). Owing to paucity of material, it has not been possible to set up so far any Model Aeroplane Clubs in educational institutions. Information has, in the meanwhile, been collected from foreign countries regarding details of such Clubs and action is in hand for the manufacture of constructional kits for making Model Aeroplanes. Model Aeroplane Clubs will be started in educational institutions at Delhi, Patna and other Centres as soon as preparatory work is completed.

#### CONSTRUCTION OF BRIDGE OVER RIVER KOEL, BIHAR

**\*70. Shri Jadubans Sahay:** Will the Honourable Minister of Railways be pleased to state:

(a) whether it is a fact that the question of constructing a bridge over the river Koel near Garhwa Road Station, East Indian Railway (Bihar), is under the consideration of Government;

(b) whether Government are aware that heavy traffic has to pass through the river Koel in order to reach the said Railway Station;

(c) whether Government are aware of the loss of lives and goods caused to the passengers by the flood in the river Koel; and

(d) whether the Government of Bihar has recommended to the Railway Board the construction of the aforesaid bridge?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) No railway bridge is required at present over the river Koel near Garhwa Road Station.

(b) Yes, road traffic between the Railway station and Garhwa Town has to cross the river Koel.

(c) Government have no information on the subject.

(d) The Bihar Government have recommended that if a railway bridge is constructed over the river Koel in connection with the proposed railway line from Garhwa Road Station to Manikpur, a road deck should also be provided on the bridge.

#### THROUGH TRAINS BETWEEN MADRAS AND MANGALORE

**\*71. Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Railways be pleased to state:

(a) the number of through trains from Madras to Mangalore per day; and

(b) whether Government have any intention to increase the number of such trains to minimise the rush in that line?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) One.

(b) Not until more coaching stock and engines are available. Revision of timings of Cochin Expresses is, however, under consideration in order to reduce pressure on Mangalore Expresses.

#### RECOMMENDATIONS OF SALT EXPERTS COMMITTEE

**\*72. Shri B. N. Munavalli:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether the Salt Experts Committee has sent its recommendations about the location of new factories, improved methods of manufacture and expansion of existing factories to Government?

(b) If so, do Government propose to place a copy of the said recommendations on the table of the House?

(c) Have Government examined the said recommendations?

(d) If so, which of those recommendations do Government propose to implement?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The Committee has not yet sent its final recommendations. Only an interim report has been received.

(b) The final report will be placed on the table of the House.

(c) The interim report has been examined.

(d) Government are implementing the following recommendations contained in the interim report:

(1) *Location of new factories.*—

Development of Salt Industry on the Contai Sea-board in West Bengal. The matter has been taken up with the West Bengal Government.

(2) *Improved methods of manufacture.*—

(i) Restrictions on the manufacture of light grades of salt in Bombay.

(ii) Extension of the manufacturing season at Kharagodha.

(3) *Expansion of existing Government factories.*—

(i) Cleaning of all the canals and crystallising beds at Sambhar, and provision of additional transport facilities.

(ii) Expansion of the laboratory at Sambhar.

(iii) Provision of Mechanical Transport at Didwana.

(iv) Renovation of the pits at Pachbadra by increasing the advances to the Kharwals

(v) Provision of a proper source of water supply through a pipe-line, from Balotra or Tilwara to Pachbadra.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [24TH MARCH 1949]  
 CONTROL AND MANAGEMENT OF LADY HARDING MEDICAL  
 COLLEGE AND HOSPITAL, DELHI

**119. Ch. Ranbir Singh:** Will the Honourable Minister of Health be pleased to refer to Section 3 of the Industrial Disputes Act, 1947 and lay on the table of the House (i) a list of members of the Works Committee constituted in the establishment of the Association for the Control and Management of the Lady Hardinge Medical College for Women and Hospital for Women and Children, New Delhi; and (ii) a copy of the minutes of the proceedings of that Committee?

**The Honourable Rajkumari Amrit Kaur:** The Lady Hardinge Medical College for Women and Hospital for Women and Children is not an industrial establishment within the meaning of section 3 of the Industrial Disputes Act, 1947. The question of constituting a Works Committee under the section does not therefore arise.

LABOUR SUPERVISOR, LADY HARDING MEDICAL COLLEGE, DELHI.

**120. Ch. Ranbir Singh:** (a) Will the Honourable Minister of Health be pleased to state the status, pay and duties of the Labour Supervisor, Lady Hardinge Medical College, Delhi?

(b) Is he under the Chief Labour Commissioner with the Government of India?

**The Honourable Rajkumari Amrit Kaur:** (a) The Labour Supervisor of the Lady Hardinge Medical College and Hospital, New Delhi, is an ex-Commissioned officer of the rank of Subedar. He is a member of the subordinate staff of the institution. He gets a fixed pay of Rs. 150 per mensem *plus* the usual allowances. His duties consist of general supervision of the work of the Class IV servants of the institution numbering about 300 and of ensuring that they carry out their duties efficiently and punctually in the various departments of the College and the Hospital.

(b) No.

SHORT NOTICE QUESTION AND ANSWER

REPRESENTATION FROM UNITED PLANTERS ASSOCIATION OF SOUTH INDIA re  
 ACCUMULATION OF RUBBER STOCKS

**Shri T. T. Krishnamachari:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that Government have received any representation from the United Planters Association of South India, regarding the accumulation of stocks with rubber producers, owing to the absence of any demand from the Indian manufacturers of rubber products?

(b) Is it a fact that Government have been allowing the manufacturers to import rubber on the understanding that they would purchase all the rubber produced in India?

(c) Have Government any information whether the manufacturers are keeping to their part of the understanding?

(d) If the answer to part (a) above be in the affirmative, what action do Government propose to take in the matter?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir.

(b) No, Sir. According to a Resolution adopted by the Indian Rubber Board in November 1948, before Government of India issue any import licences to rubber manufacturers, they have to satisfy themselves through the Rubber Production Commissioner, that all India's production of rubber (excluding sole crepe and latex) will be taken up simultaneously with the imported rubber. As

all the rubber produced during the first quarter of 1949 has not yet been taken up, no import licences have been issued during this quarter.

(c) Government have received reports from the Indian Rubber Board that manufacturers have been slow in lifting stocks of raw rubber. Particulars of the actual purchases made by the manufacturers during the current quarter are being obtained and the position will be examined by Government on receipt of fuller information.

(d) The complaint received from the United Planters Association of South India has been taken up with the rubber manufacturers' associations, and they have been asked to lift immediately as much quantity as possible from the accumulated stocks of raw rubber. The Government of India propose to discuss this matter shortly with representatives of the manufacturers.

**Shri T. T. Krishnamachari:** May I ask the Honourable Minister if the Executive Officer of the Rubber Board keeps the Government constantly informed of the position of stocks of rubber with the producers and their relation *vis à vis* the manufacturers of rubber products?

**The Honourable Dr. Syama Prasad Mookerjee:** Wherever there is any difficulty the Commissioner does keep the Government informed of the development.

**Shri T. T. Krishnamachari:** May I ask when the Commissioner last reported to the Government?

**The Honourable Dr. Syama Prasad Mookerjee:** We had not received any report till the complaint actually reached us. Now the matter is under investigation.

## SURVEY OF NEW RAILWAY LINE THROUGH BUSTAR STATE

**\*73. Shri B. N. Munavalli:** (a) Will the Honourable Minister of Railways be pleased to state whether Government have received the reports about the survey for the construction of a new railway line to connect either Nagpur or Raipur through the Bustar State with the Raipur-Vizianagram Chord line?

(b) Have the said reports been placed before the Central Board of Transport?

(c) Which line has been approved by the Central Board and when do Government propose to commence the work of constructing the said new Railway?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Advance copies of Survey Reports for the construction of a new railway to connect either Nagpur or Raipur through the Bustar State with the Raipur-Vizianagram Chord have been received.

(b) The Survey Reports have not yet been placed before the Central Board of Transport. They are under scrutiny by the Financial Adviser and Chief Accounts Officer, Bengal-Nagpur Railway and the Railway Board.

(c) In view of reply to part (b), the question does not arise.

## BUSES FOR DELHI TRANSPORT SERVICE AND CONCESSION TICKETS

**\*74. Shri B. N. Munavalli:** Will the Honourable Minister of Transport be pleased to state:

(a) whether Government have acquired all the buses which they proposed to acquire during the financial year 1948-49 to ply in Delhi and New Delhi; and

(b) whether the benefit of the system of monthly tickets at concessional rates given to school boys and students has been extended to other people in Delhi and New Delhi?

**The Honourable Shri K. Santhanam:** (a) Not yet. Besides the 189 vehicles taken over from the G.N.I. Co., 51 new vehicles have already been purchased and order has been placed for 75 more to be purchased during 1948-49.

(b) Any passenger can buy monthly tickets for any route on payment of 45 single fares instead of 60. It is not proposed to extend the special concession admissible to students under which they can buy monthly tickets at a flat rate of Rs. 10 to any other class of passengers.

## ABOLITION OF SEAT RESERVATIONS IN SECOND CLASS COMPARTMENTS

**\*75. Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Railways be pleased to state why reservation of seats in the second class compartments in trains was abolished?

**The Honourable Shri K. Santhanam:** From 1st January, 1949 the old second class compartments have ceased to exist. Seats are, however, reserved in the new Class II compartments which are comparable to the old Inter Class compartments. Arrangements for reserving sleeping accommodation in Class II compartments for long distance passengers are also being made.

## RECOVERY OF ABDUCTED WOMEN IN EAST AND WEST PUNJAB

**\*76. Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Transport be pleased to state what progress has been made in the recovery of abducted women and children in the two Punjabs?

(b) What is the exact number of women and children recovered so far in East Punjab, the East Punjab States and in West Punjab?

(c) What is the total number of abductions so far reported?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Recovery of abducted women and children made particularly satisfactory progress in the two Punjabs, till about July, 1948. When the activities began to flag, about this time, a revision of the procedure was considered necessary and a new agreement was arrived at between the two Dominions, towards the close of the year. The new scheme, under which each Dominion has undertaken to effect recoveries within its territory is now being implemented.

(b) The number of women and children recovered upto 31st December, 1948 is:

East Punjab—6,927

East Punjab States—2,677.

West Punjab—4,696

(c) 11,774 cases of abduction from West Punjab have been registered, including 6,600 still to be recovered. These figures are incomplete. The number of cases of abduction from East Punjab registered by Pakistan are not known.

## WOMEN AND CHILDREN ABDUCTED FROM JAMMU AND KASHMIR

**\*77. Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Transport be pleased to state what is the reported number of women and children abducted from the Jammu and Kashmir State?

(b) What is the number of such women and children recovered from the N.W.F.P., West Punjab, West Punjab States, East Punjab and the East Punjab States?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) It has not been possible to collect any statistics regarding women and children abducted from Jammu and Kashmir State, mainly because of continued hostilities in these territories, which terminated only with the cease fire on 1st January, 1949.

(b) The number of such women and children recovered from North West Frontier Province is 6, from West Punjab 174 and West Punjab States nil, from East Punjab 634 and East Punjab States nil.

## IMPLEMENTATION OF CLOTH CONTROL SCHEME

**\*78. Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what steps have so far been taken to implement the Cloth Control Scheme?

(b) Has cloth control been started anywhere so far?

(c) When will an overall cloth control be enforced in India?

(d) What will it cost the Government of India and the various Provincial Governments to implement the policy of cloth control?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The whole of the cloth and the yarn produced by the Mills is distributed to the provinces and the States through the nominees of the provincial and the State Governments. Subsequent distribution to consumers through wholesalers and retailers takes place under the control of the provincial or the State Government concerned.

Quotas for each province and State have been fixed by the Central Government.

Ex-Mill prices have been fixed by the Central Government. Retail prices are fixed by the provincial and State Governments subject to a maximum of 20 per cent. over the ex-Mill price fixed by the Central Government.

The production of the Mills as regards qualities and varieties has been placed under certain measures of control. Other measures of production control have been examined by an Expert Committee and their report is now under consideration.

(b) to (d). The policy of control has been implemented both by the Government of India and by all the provincial Governments, and the production, supply, movement, distribution and price of cloth are under control every where in India. The costs of control to the Central Government in the year 1948-49 would be of the order of Rupees Forty-two lakhs. I have no information as to what the provinces are spending on cloth control.

#### AGREEMENT BETWEEN GOVERNMENT AND PRESIDENT OF FEDERATION OF RAILWAY EMPLOYEES

**\*79. Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Railways be pleased to state if any settlement has been arrived at between Government and Mr. Jai Prakash Narain, the President of the Federation of Railway Employees?

(b) If so, what are the terms of the settlement?

(c) Do Government propose to clarify their policy regarding strikes and lockouts in essential services?

**The Honourable Shri K. Santhanam:** (a) No. Discussions have been held on some matters under dispute.

(b) Does not arise.

(c) The policy of the Government of India is embodied in the laws in force. Labour Ministry are contemplating the amendment of laws relating to Trade Union and Industrial Disputes. The Government are naturally opposed to strikes and lockouts.

#### EXPENDITURE ON DISPOSALS DEPARTMENT

**\*80. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the approximate value of goods still awaiting disposal?

(b) What was the monthly expenditure incurred on the Disposals Department in the year 1948?

(c) Is it contemplated to wind up this department? If so, by what date?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The book value of declared surplus stores undisposed of at the end of December, 1948 was Rs. 14,131.67 lakhs. In addition to this, there were 1,13,190.9 tons of Military Salvage and process scrap for disposal.

(b) The average monthly expenditure incurred on Disposals Organisation during 1948 is Rs. 7,07,270.

(c) There is still a large volume of stores to be disposed of. The Disposals Organisation can not obviously be wound up till the bulk of the stores has been disposed of. At the moment the disposal of certain stores was under an embargo pending an examination of the requirements of the ministries of Defence and of Relief and Rehabilitation. If the embargoes are lifted, about 75 per cent. of the stores can probably be disposed of in a year.

#### NEW CLASSIFICATION OF RAILWAY COMPARTMENTS

**\*81. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Railways be pleased to state on whose recommendations the new classification on railways was brought about?

(b) Were the financial results of the new classification on Railways worked out and if so, what was the anticipated increase in revenue, if any?

(c) What were the objects in the abolition of old classification and initiating the new one?

(d) Are arrangements for making sleeping accommodation available to Class II passengers contemplated?

(e) If so, when will such arrangements be given effect to?

**The Honourable Shri K. Santhanam:** (a) The existence of two upper classes both providing similar accommodation was criticised even in the pre-war years and the Wedgewood Committee which reported in 1937 endorsed the criticism. The outbreak of the war and the consequent increase in all classes of traffic, especially military traffic, made it desirable to postpone the consideration of this question. In 1944 the Railway Board took it up in relation to post-war reconstruction and asked the Railway Administrations to elicit public opinion regarding the proposal to eliminate one of the upper classes. The Central Advisory Council discussed the matter in November, 1944 and the majority were in favour of the proposal. In 1945 the Railway Board decided that all reconstruction schemes for the post-war period should be based on the retention of only three classes besides the air-conditioned coaches for certain important trains. On some branch lines it was proposed to provide only two classes. This decision was approved by the Central Advisory Council in April, 1945. During the budget discussions in February, 1948 the question was raised and the Railway Ministry was criticised for delay in effecting the change. The Honourable Dr. John Matthai, then Minister of Railways, stated that the principle had been accepted and arrangements were being made to implement it. The question was again considered by the Central Advisory Council for Railways on 10th April, 1948 when the new classification was finally approved.

(b) and (c). Yes! No increase in revenue was aimed at by this change. The elimination of one of the upper classes is expected to reduce wastage of accommodation and simplify railway administration in many ways.

(d) and (e). The provision of sleeping accommodation in Class II compartments is already being made at the principal terminal stations and Railways have been instructed to keep the position constantly under review and extend this facility to the maximum extent possible in the light of experience gained.

#### DELHI TRANSPORT SERVICE

**\*82. Srijut Rohini Kumar Chaudhuri:** Will the Honourable Minister of Transport be pleased to state:

(a) whether the Delhi Transport Service is purely a State concern and if not, who the other parties are and what their interest in the concern is;

(b) whether any compensation has been paid to the former bus-permit holders whose permits have been cancelled or not renewed and if so, on what basis such compensation has been paid; and

(c) whether the Delhi Transport Service has entirely replaced the G.N.I.T. Service and if so, from what date?

**The Honourable Shri K. Santhanam:** (a) The Delhi Transport Service is at present purely a State concern.

(b) The only bus permit holders replaced by the D.T.S. were the G.N.I.T. Co., Ltd., New Delhi, to whom compensation has been paid in accordance with an agreement reached between the Company and the Government.

(c) The Delhi Transport Service has taken over all the transport services previously operated by the G.N.I.T. Co., Ltd., New Delhi, with effect from the 14th May, 1948

#### CALCUTTA-GAUHATI AIR SERVICE OVER PAKISTAN TERRITORY

**\*83. Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Communication be pleased to state whether aeroplanes carrying daily mails and passengers from Calcutta to Gauhati are allowed to fly over Pakistan territory?

(b) If so, from what date was such permission given?

(c) If such flight is not allowed, do Government propose to try to obtain necessary permission from the Government of Pakistan?

(d) By what route are ordinary letters, parcels and money orders, for which no air surcharge is paid, carried from Calcutta to Gauhati and what time is taken by a letter posted in Calcutta to reach Gauhati?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) to (c). The air service carrying mails and passengers from Calcutta to Gauhati operates via Bagdogra and as such does not fly over Pakistan territory. The question of obtaining permission from the Government of Pakistan for flight over Pakistan territory does not, therefore, arise.

(d) The surface route for letters, money orders and parcels from Calcutta to Gauhati is via Sahibganj, Maniharighat, Kishanganj, Siliguri and Cooch Behar. A letter sent by this route would reach Gauhati on the 4th day.

#### CROP FAILURE IN CERTAIN AREAS OF C. P. AND BERAR

**\*84. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Food be pleased to state whether Government have received any report about the widespread failure of crops in the Marathi speaking areas of the Central Provinces and Berar?

(b) Was any surplus grain expected this year from that area?

(c) Have Government any information as to whether the crop failure is likely to result in the area being deficit in foodgrains?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes; Government have received reports about the extensive damage to crops in the Marathi speaking areas of the Central Provinces and Berar.

(b) Yes, before the crops were damaged.

(c) Yes.

### UNSTARRED QUESTION AND ANSWER

#### DETENTION OF RAILWAY VANS CARRYING INSURED ARTICLES IN PAKISTAN

**1. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Communications be pleased to state whether it is a fact that the Railway vans carrying insured parcels, letters, etc., which are sent to Western Pakistan from India are detained at Lahore after delivery of the said articles and the persons in charge of the articles are told to go back to India without the vans?

(b) If so, how many times have such incidents occurred?

(c) In how many cases, insured articles carried under the charge of men appointed by the Government of India in Pakistan territory have been found missing and how many cases of missing insured articles are pending?

(d) What steps have Government taken to prevent such loss of wagons and insured articles in future?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) No such case has come to Government's notice.

(b) Does not arise.

(c) So far only one case in which 3 insured articles were found missing from a bag closed by the Pakistan Post Office and which travelled in charge of men appointed by Government of India, has been reported. Enquiries are still in progress.

(d) Instructions have been issued to ensure strict supervision over the work of the R.M.S. Section working between Amritsar and Lahore.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES

(PART I—QUESTIONS AND ANSWERS)

Thursday, 3rd February, 1949

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

STARRED QUESTIONS AND ANSWERS

(a) ORAL ANSWERS

AGREEMENTS REACHED AT DELHI INTER-DOMINION CONFERENCE

\*85. **Shri R. K. Sidhva:** (a) Will the Honourable the Prime Minister be pleased to state what was the result of the discussion held on 13 subjects at the Inter-Dominion Conference at Delhi early in December 1948?

(b) In how many matters was agreement reached and what was the sanction to implement them?

(c) Is there any provision in the agreement for any action to be taken in the event of failure to implement the decisions?

**The Honourable Shri N. Gopalaswami Ayyangar** (Minister for Railways and Transport): (a) A copy of the Inter-Dominion Agreement reached at Delhi in December, 1948 is placed on the table of the House. I do not know which particular items in the Agreement the honourable member has in mind.

(b) and (c). It will be seen that agreement was reached on most of the subjects discussed at the Delhi Conference. The Agreement was signed by the representatives of the two Governments after full discussion and it is expected that each Government will implement it in so far as it is concerned. There is no question of sanction, but there is a specific provision in Section II of the Agreement that all cases of breach or non-implementation of the Agreement or possible modifications arising out of the experience of the working of the Agreement should be discussed at monthly meetings to be held at the Dominion Minister level alternately in Delhi and Karachi.

**Shri R. K. Sidhva:** May I know whether there was any agreement amongst the many agreements reached that an assessee who desires to go to Pakistan for the purpose of paying Income-tax will not be arrested and that all facilities will be given to him to produce the books?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not think that at the discussions we went into the question of getting assessee who go to Pakistan an exemption from arrest. No such cases were put before us, and the particular thing was not discussed. I do not know whether the honourable member has any particular cases in mind where arrests have taken place. If he would bring them to my notice I shall take them up with the Government of Pakistan.

**Shri R. K. Sidhva:** On the 31st December, the Government of India issued a Press Note and I was referring to that. I shall certainly bring the particular cases to the notice of the Honourable Minister. After the Karachi Conference,

† Printed as Appendix to the day's Debate.

that is on the 15th January the Pakistan Government issued a Press Note stating that no person will be allowed to leave Pakistan unless he produces an exemption or a clearance certificate of Income-tax. If that is so, is it not in violation of the Agreement arrived at?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not think it is an actual violation, but we are in correspondence with the Government of Pakistan on this subject.

**Shri R. K. Sidhva:** What is the result, may I know?

**The Honourable Shri N. Gopalaswami Ayyangar:** The result has not yet been reached.

**Shri M. Tirumala Rao:** Since the conclusion of this Conference, have Government got any information in their possession as to whether Hindus who want to go to Pakistan enjoy the same sense of security which Muslims enjoy in the Indian Union when they come from Pakistan?

**The Honourable Shri N. Gopalaswami Ayyangar:** That is a matter of subjective feeling on the part of Hindus who want to go to Pakistan.

**Shri B. L. Sondhi:** What is the feeling of the Ministry?

**Mr. Speaker:** That question need not be answered.

**Shri Mahavir Tyagi:** May I know what procedure has been agreed upon in respect of exchange of property of the refugees on either side? I particularly want to know whether it has been left to the owners of the property on either side to go and effect the exchange or the State will have a hand in exchanging the properties and taking over the liability on themselves.

**The Honourable Shri N. Gopalaswami Ayyangar:** That was a matter which at the Delhi Conference was postponed for consideration. It was discussed at the Conference which was held at Karachi during January. So far as properties are concerned, there was an agreement reached as regards urban properties. What has been agreed to for the time being is that private sales and exchanges of urban immovable property will be allowed.

**Shri M. Ananthasayanam Ayyangar:** May I know if all outstanding problems between the two Dominions have been solved and agreed upon or whether there are still some more questions to be decided upon?

**The Honourable Shri N. Gopalaswami Ayyangar:** There are a large number of problems still to be solved.

**Shri M. Ananthasayanam Ayyangar:** May I know if the Honourable Minister will appoint, or is considering the desirability of appointing, a Standing Committee of this House to consider how far the various items agreed upon are being implemented, inasmuch as there are a number of questions and objections are taken from time to time?

**The Honourable Shri N. Gopalaswami Ayyangar:** We have not yet felt the need of the assistance of a Standing Committee of the House in this matter. All problems that come up are examined by Government. They have to enter into negotiations with a foreign Government for the purpose of settling these questions. Whatever advice is available from people outside the Government is also taken before Government determine their attitude.

**Shri M. Ananthasayanam Ayyangar:** As in the matter of Indo-British talks relating to Sterling Balances members of this House in a Committee were associated, will the Honourable Minister find it convenient to associate a Committee of the House in the future talks relating to outstanding problems hereafter at least?

**The Honourable Shri N. Gopalaswami Ayyangar:** The problems relate to a number of Ministries. For instance, the evacuee property question is dealt with primarily in the Relief and Rehabilitation Ministry. I believe it has got

a Committee of the House which it consults on important questions that it has to deal with. So in regard to other Ministries, the Finance Ministry has got a number of questions, the Commerce Ministry has got other questions, and so on. And if any problems that arise for solution between the two Governments relate to those Ministries and they feel the need for consulting their Standing Committees, I believe they are at liberty to do so before they advise the External Affairs and Commonwealth Relations Ministry as to what attitude Government should take.

**Shri M. Ananthasayanam Ayyangar:** Am I to understand from the reply of the Honourable Minister that hitherto all these matters which formed the subject matter of discussion between the two Dominions were referred to any of the Standing Committees till now?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid the question must be addressed to the Ministers concerned.

**Prof. N. G. Ranga:** May I know whether the Ordinance that was published yesterday in regard to abducted persons has emanated from the results of this Inter-Dominion Conference, and if so, whether Government will consider the advisability of taking an early opportunity of introducing a Bill to regularise that matter instead of pursuing this policy of issuing Ordinances while the House is in session?

**The Honourable Shri N. Gopalaswami Ayyangar:** The Ordinance was the result of negotiations between the two Dominions—not necessarily at the Conference which is the subject of the present question—and it is after agreement with the Pakistan Government that the terms of this Ordinance were settled. In a sense it is merely regularisation of the procedure that has been in force since the recovery of abducted women was undertaken by either Government. So far as matters provided for by the Ordinance are concerned, they are matters which will be in force only for a short time. It was necessary that this Ordinance should issue at once because we wanted to legalise the procedure that was in force and that was not exactly regular according to the existing law.

**Prof. N. G. Ranga:** The second part of my question has not been answered—whether Government will take an early opportunity of introducing a Bill in this House in order to avoid the unpleasant practice of issuing Ordinances while the House is in session.

**The Honourable Shri N. Gopalaswami Ayyangar:** The Ordinance will last only for a few months more, and will then expend itself. I do not think it is necessary that a Bill should be introduced unless the honourable member thinks that there are provisions in the Ordinance which should be the subject matter of debate in this House; in which case I am quite willing to bring that Ordinance up before this House.

**Prof. N. G. Ranga:** My honourable friend does not understand the spirit of my question.

**Mr. Speaker:** It is no use pursuing the question any further now.

**Shri Jaspat Roy Kapoor:** May I know where the deeds of exchange or sale will be registered, whether in the place where the property is situated or where the vendor is residing?

**The Honourable Shri N. Gopalaswami Ayyangar:** Naturally the registration must be at the place where the property is situated.

**Shri Mahavir Tyagi:** May I know if this Agreement has had any effect on the emigration of refugees from Eastern Pakistan?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think it has had effect. The flow of non-Muslims from East Bengal into West Bengal has been stemmed. There is some evidence to believe that people who had come over from East Bengal into West Bengal are going back to their homes.

**Pandit Hirday Nath Kunzru:** Has the Honourable Minister's attention been drawn to statements published in the Press that if only private exchanges of property and sales are to be allowed there will be hardly any buyers for the properties of the Hindus in West Punjab?

**The Honourable Shri N. Gopalaswami Ayyangar:** I have seen accounts of such feeling prevailing amongst refugees who have come over from Pakistan to India.

**Sardar Bhopinder Singh Mar:** Do the Government propose to reach some sort of agreement as regards agricultural land as has already been reached, for example, in regard to urban property?

**The Honourable Shri N. Gopalaswami Ayyangar:** We do hope to reach agreement, but the matter for the time being has been postponed for consideration at a future Conference.

**Srijit Behari Kumar Chaudhuri:** May I know if it was agreed at this Conference that aeroplanes flying from West Bengal or any other part of India would be allowed to fly quite freely over Eastern Pakistan to Assam?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not think we discussed aeroplanes at this Conference.

#### PLEBISCITE IN FRENCH INDIA TERRITORIES AND MERGER WITH INDIA

\*83. **Shri R. K. Sidhva:** (a) Will the Honourable the Prime Minister be pleased to state what is the latest position of the authorities in French India regarding the taking of a plebiscite?

(b) Is it a fact that in Mahe the French Administration harass the people on flimsy grounds?

(c) Has there been any talks between the Government of India and the French authorities in India regarding the referendum and future elections?

(d) Is it a fact that the people of French India have decided that the French Indian territories should merge in the adjoining provinces?

(e) Is it a fact that during the recent Municipal elections, two cruisers were summoned at the French ports? If so, are they still there?

(f) Has a deputation from Chandernagore seen representatives of the Government of India with the object of merging Chandernagore in the Indian Union?

**Dr. B. V. Keshkar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) The Governments of France and India had discussions last year regarding the future of the French Settlements in India. Following this the French Government issued a declaration on June 8, 1948, according to which fresh municipal elections were to be held in the Settlements and following this arrangements were to be made in consultation with the newly elected municipal assemblies for the holding of a referendum to ascertain the wishes of the people. Municipal elections have been held in four out of the five Settlements, and are expected to be held shortly in the fifth Settlement, Mahe.

(b) The Government of India have seen reports to this effect.

(c) There have been no recent conversations between the two Governments on these subjects.

(d) A considerable number of the people in the French Settlements are reported to be in favour of merger with the Indian Union.

(e) The answer to the first part of the question is in the affirmative. The Government of India are informed that the French cruisers are not in French Indian ports now.

(f) Two members of the Municipal Assembly in Chandernagore have met officers of the External Affairs Ministry and talked informally about their ideas for the future. It has been clearly understood that the Government of India can deal with the matter officially only through the French Government.

**Shri R. K. Sidhva:** May I know from the Honourable the Deputy Minister whether it is a fact that on January 14th, the French Foreign Minister said in a public statement that he had a discussion with the Honourable the Prime Minister of India in India and that the result of that discussion was satisfactory? May I know what were those discussions?

**The Honourable Shri Jawaharlal Nehru:** I shall answer. I am sorry I have not seen that particular statement to which the honourable member refers. I cannot therefore reply to it in detail. It is a fact that I met the French Foreign Minister in Paris in the month of October and we had a general discussion. At that time, elections had not been held in any of these French Possessions in India, and the main discussion was that elections should be held under proper auspices and with observers. I pleaded for observers, that is, observers approved of by us. That was the main discussion and generally we talked about other matters, but in regard to this particular matter we only discussed the elections and the presence of observers. The French Foreign Minister thereupon said that as far as he could see there would be no objections to observers but he would like to consult his Cabinet. Later we were informed that there were difficulties, etc. In other words, they did not agree to our observers being present.

**Shri R. K. Sidhva:** May I know whether the Joint Secretary of the Ministry of External Affairs recently visited Chandernagore on January 15th, in this connection, and what was the result?

**Dr. B. V. Keshkar:** No Joint Secretary or official of the Ministry of External Affairs visited Chandernagore. I think the honourable member must have mistaken it for the visit of a Secretary of the Ministry to Pondicherry and not to Chandernagore.

**Pandit Hirday Nath Kunzru:** Is the result of the elections held in the French possessions in India to be regarded as final or may we expect that the French Government will take fresh steps to see that the elections are held in such a way as to give satisfaction to all the parties concerned, including India?

**Dr. B. V. Keshkar:** The elections that have been held are municipal elections and the conversations that we have had with the French Government have shown that these elections by themselves are not to be considered as deciding the matter one way or the other. The question of a referendum, if necessary to be held after this, is a matter for further negotiation.

**Shri H. V. Kamath:** With regard to observers, is it the position that they were not to be allowed only at the municipal elections or would not they be allowed even at the plebiscite or referendum?

**The Honourable Shri Jawaharlal Nehru:** So far as we are concerned, we have made it clear on every occasion that if there is a referendum there should be observers but there has been no categorical denial. In fact, it has been generally understood, I believe, that there should be such observers but there has been no clear statement to that effect.

**Shri H. V. Kamath:** Was this the subject of the negotiations or talks with the French Foreign Minister in Paris?

**The Honourable Shri Jawaharlal Nehru:** No, Sir. The question did not arise.

**Shri H. V. Kamath:** May I draw the attention of the Honourable the Prime

Minister to the statement that he made on the floor of the House on the 30th of August, 1948 to the effect that—

"At the referendum itself we propose to appoint observers on behalf of the Government of India. We have told the French Ambassador that the referendum should be conducted under the observation of the Indian and French Governments and that these observers should be entitled to employ as many persons and station them in as many places as they might consider necessary for effectively observing the referendum. The French Government have replied that the question of this control of the referendum is under examination and will be the subject of a further communication."

Has the Government received any further communication on the subject?

**The Honourable Shri Jawaharlal Nehru:** Not on that particular subject. Our position remains exactly the same as I stated then.

**Shri H. V. Kamath:** Is this communication being awaited?

**The Honourable Shri Jawaharlal Nehru:** No, Sir. But may I draw the attention of the House to the fact that the whole position has changed and altered because of various developments since then and the whole question of referendum itself is a matter to be considered afresh. We are not avoiding a referendum at all, but we feel that it is time that the Governments of India and France considered the whole question afresh as to how to proceed in this matter.

**Shri Mahavir Tyagi:** Are the Government still in negotiation with regard to the referendum, as it is?

**The Honourable Shri Jawaharlal Nehru:** I have just answered that question.

**Shri R. K. Sidhva:** I was not able to follow the answer given by the Honourable the Deputy Minister in reply to the question which I put whether the Secretary went to Pondicherry. I shall be glad if you could kindly ask him to repeat it.

**The Honourable Shri Jawaharlal Nehru:** One of the officials of the External Affairs Ministry took leave to go to his home and on his way back, he visited Pondicherry, quite unofficially. We had not asked him to do so, and as he was there, naturally he met some people in Pondicherry and had discussions as to the position there. He came back and reported the result of his talks. It was not an official visit or official conversations.

#### RECOMMENDATION OF MARINE COURT ENQUIRY

\*87. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state whether it is a fact that the Marine Court Enquiry set up by Government to examine the causes of the disaster of s.s. *Ramdas* near the Bombay Harbour has recommended certain precautions for the safety of passengers to be carried out by every ship plying in inland waters?

(b) Have all the recommendations been carried out by the Steamship companies and if not, what steps do Government intend to take to enforce those recommendations?

(c) Has the court recommended the definition of the term "inland water"?

(d) If so, do Government contemplate amending the law relating to ships plying in Bombay harbour?

**The Honourable Shri K. C. Neogy:** (a) Yes.

(b) The two principal recommendations have been accepted by Government and implemented:

(i) Passenger Steamers plying within the inland water limits of the Bombay Harbour to Rewas were previously required to comply only with the requirements of the Inland Steam Vessels Act, 1917. The Government of India have now arranged that certificates granted to these ships under that Act by the Government of Bombay are withdrawn, so as to require the ships to comply with the provisions of Indian Merchant Shipping Act, 1923, as in the case of sea-going ships thereby increasing the margin of safety.

(ii) The Government of India have also withdrawn the exemption which they had previously granted to passenger steamers plying on the West Coast of India in regard to wireless telegraphy requirements; these ships are now required to be fitted with wireless telegraphy installation though the ship owners have been given some time to comply fully with these requirements. It is expected that all passenger steamers plying on the West Coast will be fitted with wireless telegraphy before the next monsoon.

(c) and (d). The Court has recommended the re-definition of "inland water" limits in the Bombay Harbour. The recommendation is under consideration but as will be seen from the reply to part (b) of the question, practical effect has been given to the Court's recommendation in cooperation with the Government of Bombay by requiring passenger-steamers plying within the Bombay Harbour to Rewas to comply with the requirements of the Indian Merchant Shipping Act.

**Shri R. K. Sidhva:** Was there one of the recommendations that loud-speakers should be fitted on all the ships, so that a communication may be made by the Masters and officers to the passengers? Has that been complied with?

**The Honourable Shri K. C. Neogy:** This is one of the minor recommendations which is still under examination.

**Shri R. K. Sidhva:** Is it not a fact that the passengers did not get any information from the Masters and for that reason this accident occurred for want of any information and will Government consider the desirability of fitting these loud-speakers, which are an urgent necessity? This does not entail a heavy expenditure and will Government kindly take immediate steps to see that the loud-speakers are fitted?

**The Honourable Shri K. C. Neogy:** I can only say that the technical officers who have gone into this matter are of the view that this will be impracticable for every ship plying on inland waters. The question whether the equipment should be prescribed for ships, both sea-going and inland, which carry a large number of passengers is, however, under examination.

**Shri R. K. Sidhva:** One of the recommendations was that radio telephones should be fixed in the Bombay Harbour and may I know whether they have been fixed in the Bombay Harbour?

**The Honourable Shri K. C. Neogy:** Yes: As a matter of fact, the point that my honourable friend has raised would be fully covered as soon as the provisions of the Indian Merchant Shipping Act, 1923, have been substituted for the operation of the Inland Steam Vessels Act in this particular area.

**Shri R. K. Sidhva:** May I ask when that will be done?

**The Honourable Shri K. C. Neogy:** That has already been ordered.

#### REHABILITATION OF REFUGEES IN CAMPS

\*88. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state the total number of refugees in various camps under the control of the Government of India and Provincial Governments?

(b) What is the contribution made by the Government of India to the Provincial Governments for running the Refugee Camps?

(c) How many refugees living in such camps have been rehabilitated?

(d) How many houses have been built by the Government of India for them and how many families have been provided with houses?

**The Honourable Shri Mohan Lal Saksena:** (a) 8,00,000 roughly.

(b) The Government of India will bear the entire expenditure on relief according to prescribed scales incurred by the Provincial Governments after deducting the contributions by the Provincial Governments, if any, and the amounts received by the latter from public donations, Charities, etc.

(c) It is difficult to indicate the exact number of refugees permanently rehabilitated through Governmental effort. It is, however, estimated that about 19½ lakhs of rural refugees and 10-13 lakhs of urban refugees have so far been rehabilitated.

(d) About 3,000 have already been built and about 400 houses are under construction. This would provide accommodation for about 20,000 refugees.

**Shri E. K. Sidhva:** May I know, Sir, how many refugees are still provided free ration?

**The Honourable Shri Mohan Lal Saksena:** About 8,00,000.

**Shri R. K. Sidhva:** Have Government considered the question of supplying free ration as an alternative to give them some work or continue this ration indefinitely?

**The Honourable Shri Mohan Lal Saksena:** The Government have considered this question and have decided to stop free ration and convert the camps into work centres as early as possible.

**Shrimati G. Durgabai:** May I know from the Honourable Minister what is the total number of women refugees in the various camps, with particular reference to the Madras Camp and how many of them are rehabilitated?

**The Honourable Shri Mohan Lal Saksena:** I will require notice of this question.

**श्री गोकुल भाई दौलतराम भट्ट:** क्या रियासतों में या रियासती प्रान्तों में पुरुषार्थियों के लिये शिविर खोले जायेंगे।

**Shri Gokulbhai Daulatram Bhatt:** Will any Refugee Camps be opened in the States or the State Unions?

**आनरेबल श्री मोहन लाल सक्सेना:** रियासतों में तो पुरुषार्थियों के लिये शिविर खोले हुए हैं।

**The Honourable Shri Mohan Lal Saksena:** Refugee camps have already been opened in the States.

**श्री गोकुल भाई दौलतराम भट्ट:** कहाँ कहाँ हैं।

**Shri Gokulbhai Daulatram Bhatt:** At what places?

**आनरेबल श्री मोहन लाल सक्सेना:** अगर आप इसकी पूरी information चाहते हैं तो इसके लिये आप नोटिस दें। फिलहाल मैं आपको बतला सकता हूँ कि जयपुर, जोधपुर व दूसरी जगहों पर हैं।

**The Honourable Shri Mohan Lal Saksena:** If you want to have full information on this point, I must have notice of this question. For the present I can tell you that the camps exist at Jaipur, Jodhpur and other places.

**Shri Mihir Lal Chattopadhyay:** May I know whether the Government of India have got a plan about rehabilitating the refugees who have come from East Bengal?

**The Honourable Shri Mohan Lal Saksena:** There is a question later on and I will answer it then.

**Pandit Hirday Nath Kunzru:** May I ask if the 30 lakhs of refugees referred to by the Honourable Minister in his answer to part (c) of the question being settled in the East Punjab, by the Government of East Punjab or anywhere else by the Government of India?

**The Honourable Shri Mohan Lal Saksena:** No. The number does not relate only to East Punjab but to the whole of India. The Government of India is directly concerned only with the Centrally Administered Areas of Delhi and Ajmer-Merwara. Then there are other Provincial Governments, like Bombay, U.P., C.P. who are also engaged in rehabilitating the refugees.

**Pandit Hirday Nath Kunzru:** Will the Honourable Minister be pleased to give us a rough idea of the number of persons, out of these 30 lakhs rehabilitated owing to the efforts made by the Government of India?

**The Honourable Shri Mohan Lal Saksena:** No, it is not easy for me to give the exact number, but I shall lay a statement before the House later on, which will give the approximate number of persons rehabilitated through Governmental efforts.

گیانی گورموکھ سنگھ مسافر : کیا یہ توہیک ہے کہ ایسٹ پنجاب میں جو ریفریجیز کے لئے نئے مکان بنے ہیں ان میں سے بہت سے ابھی تک خالی پڑے ہیں۔

**Giani Gurmukh Singh Musafir:** Is it a fact that many of the houses built for the refugees in the East Punjab are still lying vacant?

**आनरेबल श्री मोहन लाल सक्सेना:** जहाँ तक मेरी इतला है ईस्ट पंजाब में तो अब मकान खाली नहीं हैं।

**The Honourable Shri Mohan Lal Saksena:** So far as I have been informed, no houses are lying vacant in the East Punjab.

**Mr. Homi Mody:** In view of the impossibility of finding employment or land to settle on for any but a fraction of the refugee population in this country, do Government propose approaching the Dominion of Pakistan with a view to considering whether it is possible to repatriate at least a few hundred thousand of all those people who have migrated from one Dominion to the other?

**The Honourable Shri Jawaharlal Nehru:** No.

**Shri Arun Chandra Guha:** Will the Honourable Minister be pleased to state what is the contribution made by the Government of India to the West Bengal Government for running the refugee camps?

**The Honourable Shri Mohan Lal Saksena:** The supplementary does not arise from this question. I have got another question later on and I will be giving such information as I have got.

**Shri H. V. Kamath:** May I know, Sir, if the refugees from Kashmir and Hyderabad are returning to home?

**The Honourable Shri Mohan Lal Saksena:** We have asked the Prime Minister of Jammu and Kashmir as to what is to be done with the refugees who have come over to India from that State. Perhaps, they will be taken back.

**Shri H. V. Kamath:** What about Hyderabad, Sir?

**The Honourable Shri Mohan Lal Saksena:** They have returned already.

**Shri Deshbandhu Gupta:** May I know, Sir.....

**Mr. Speaker:** Order, order. I am calling the next question.

## SCHEME FOR HOUSING FOR SIND REFUGEES AT UDAIPUR

\*89. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state how far the scheme for constructing houses for Sind refugees at Udaipur, for which Government of India have granted a loan of Rs. 64 lakhs has progressed?

(b) What is the total number of houses to be built under this scheme and how many have been actually built and how many have been occupied?

(c) Have any similar schemes been presented to Government for grant of loans? If so, what are they and what stage have they reached?

**The Honourable Shri Mohan Lal Saksena:** (a) and (b). The information is being collected from Rajasthan Union Government and will be laid on the table of the House, when received. The loan of Rs. 64 lakhs was subsequently reduced to Rs. 25 lakhs.

(c) Yes. A similar scheme has been received from M/s. Sindhu Resettlement Corporation Ltd., Bombay, which envisages, in the first instance, the construction of 4,000 houses for refugees near Kandla Port in Cutch State. This scheme has been approved by the Ministry of Relief and Rehabilitation and is now under consideration with the Ministry of States.

**Shri R. K. Sidhva:** Sir, part (b) of the question, how many houses have been built and how many are to be built, has not been answered?

**The Honourable Shri Mohan Lal Saksena:** Information, so far received indicates that 300 houses have been built.

**Shri R. K. Sidhva:** Have they all been occupied?

**The Honourable Shri Mohan Lal Saksena:** I cannot say exactly.

**Shri R. K. Sidhva:** Is it not a fact, Sir, that some of the Houses are vacant?

**Mr. Speaker:** He cannot say that exactly. Next question.

## REHABILITATION OF REFUGEES FROM PAKISTAN

\*90. **Shri Biswanath Das:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) the number of refugees who have come from Western Pakistan to India as also from Eastern Pakistan to India—each to be given separately up till now from 15th August, 1947;

(b) How many of these have been rehabilitated so far;

(c) whether negotiations have been undertaken with the Government of Pakistan for purchase of their movable and immovable properties by the Government of Pakistan; and

(d) the total number of non-Muslims who have migrated to India from each of the provinces of Pakistan, to be given separately viz., Sind, Baluchistan, West Punjab, North West Frontier Province and East Bengal and also from the States of Pakistan?

**The Honourable Shri Mohan Lal Saksena:** (a) The number of refugees who have migrated from West Pakistan is estimated at 55 lakhs. The number of refugees from East Pakistan is, however, not accurately known; but it may be roughly put at about eighteen lakhs.

(b) The honourable member is referred to the reply given by me to part (c) of Starred Question No. 88, by Shri R. K. Sidhva.

(c) For practical difficulties no such suggestion was ever made, in regard to movable property. As regards urban immovable property, India made a proposal to pool for purposes of exchange at Governmental level all properties

up to a certain value to be agreed upon between the two Dominions, to which Pakistan did not agree. In regard to agricultural property being exchanged at governmental level no agreement has so far been reached.

(d) Sind about 12·00 lakhs, Baluchistan about 0·1 lakh, West Punjab and N. W. F. P. about 41·00 lakhs, East Bengal about 18 lakhs, Bahawalpur about 2·33 lakhs.

**Shri Biswanath Das:** May I request the Honourable Minister to repeat the reply that he gave to part (a)?

**The Honourable Shri Mohan Lal Saksena:** The number of refugees who have migrated from West Pakistan is estimated at 55 lakhs. The number of refugees from East Pakistan is, however, not accurately known; but it may be roughly put at about eighteen lakhs.

**Shri Biswanath Das:** In view of the fact that necessary land is not available to rehabilitate all these refugees in India, have the Government placed the suggestions of the Honourable the Deputy Prime Minister in this regard in the Inter-Dominion Conference that they had at Lahore?

**The Honourable Shri Mohan Lal Saksena:** No.

**Shri Biswanath Das:** May I know why this important suggestion was not placed before the Government of Pakistan?

**The Honourable Shri Jawaharlal Nehru:** I do not know to what proposals the honourable member refers. There have been and there are no such proposals. Certain suggestions were made in the sense that if certain developments continue, difficulties will arise. There are no proposals, and possibly what he thinks are proposals, have not been put forward by the Government or considered by them, nor do they consider them feasible.

**Shri H. V. Kamath:** Arising out of the answer to part (a), has the Minister's attention been drawn to a statement by the Premier of West Bengal to the effect that not eighteen lakhs, but 102 lakhs of people have migrated from Eastern Pakistan to West Bengal?

**The Honourable Shri Mohan Lal Saksena:** It has already been contradicted. I have got a full copy of the statement issued by the Premier of West Bengal. Therein, he has said that the number of persons affected was 1·25 crores. This includes also those persons who had not come from the other side.

**Shri H. V. Kamath:** May I know, Sir, what are the reasons for the recent large scale exodus from Eastern Pakistan when the long and weary trek from Western Pakistan had already ceased?

**The Honourable Shri Mohan Lal Saksena:** The exodus has already stopped.

**Shrimati Renuka Ray:** Has the Honourable Minister included the number of refugees from Eastern Pakistan who have gone to other places besides West Bengal? Would the Honourable Minister inform the House the source of information on which he has compiled the figure, eighteen lakhs?

**The Honourable Shri Mohan Lal Saksena:** This figure also includes the number of those refugees who have gone to Assam and other parts of India. My source of information is the report which I received from the West Bengal Government which gives figures district-wise and the total comes to 15,60,851.

**Shri Mihir Lal Chattopadhyay:** Is it not a fact, Sir, that not even the artisan class of people coming from Eastern Pakistan to West Bengal have been rehabilitated?

**The Honourable Shri Mohan Lal Saksena:** May be so.

**Shri Arun Chandra Guha:** Would the Honourable Minister be pleased to state if any person from Eastern Pakistan has been rehabilitated in West Bengal or in Assam; and if these provinces have undertaken any schemes for rehabilitation?

**The Honourable Shri Mohan Lal Saksena:** There is a separate question later on and I will answer that question.

**Shri Biswanath Das:** In view of the fact that the Prime Minister of East Bengal has stated that about two lakhs of people have gone away from Eastern Pakistan to West Bengal, and in view of the fact that the Prime Minister of West Bengal has stated that about 1.02 crores of people have come away, and in view of the statement just now made by the Honourable Minister that eighteen lakhs of people have come away, have the Government considered the need of undertaking a census so as to give the actual information in this regard?

**The Honourable Shri Mohan Lal Saksena:** In view of the length of the question, I do not find myself in a position to answer it.

**Shri Biswanath Das:** I will shorten it, Sir.

**Shri B. P. Jhunjhunwala:** In view of the fact that our Government do not want to negotiate with the Pakistan Government to repatriate the refugees who have come to India or to give us more area to rehabilitate them and in view of the fact that there is no sufficient land available in India to rehabilitate the influx of population from Pakistan is there any scheme before the Government of India as to how they are going to rehabilitate the refugees?

**The Honourable Shri Jawaharlal Nehru:** May I, Sir, answer this question? There are so many premises in certain of these questions in the shape of 'in view of this' and 'in view of that' that it is rather confusing as to what the honourable member is driving at.

So far as the position in Eastern Pakistan is concerned, it is the Government's policy, as I believe has been stated by the Honourable Minister, that we should encourage people who have come from Eastern Pakistan to go back to Eastern Pakistan. We cannot force them; we do not wish to force them; but we should encourage them to go back. We have been assured by the Eastern Pakistan Government that they will welcome them when they go back. How far conditions are improving, it is difficult to judge; I believe they have somewhat improved. As has been stated, some people have gone back; some more may go back.

So far as Western Pakistan is concerned, very large migration had taken place, and probably a larger number went to Western Pakistan from India than those who came from the other side. The question can only be considered in terms of another exchange of population, and this does not appear feasible. It cannot be in terms of a large number of people coming only to India from Western Pakistan as was the case some months ago. While the Government of India welcome people coming here, the position here is rather difficult and there is no room. Millions and millions have been uprooted on either side. Both Governments have to tackle their problems. It is not as though there was empty land available. It must be recognised that so far as Western Pakistan and India are concerned, any large scale movement of population is unlikely.

#### PARTITION OF ASSETS OF PUNJAB LIBRARIES

\*91. **Giani Gurmukh Singh Musafir:** Will the Honourable the Prime Minister be pleased to state whether, at the various Inter-Dominion Conferences between India and Pakistan, the question of partition of Library books and assets of the Punjab Library, University Library and Press Branch Library was discussed; if so, with what results, and if not why not?

**Dr. B. V. Keshkar** (Deputy Minister for External Affairs and Commonwealth Relations): The question should have been addressed to the Honourable the Education Minister. It has been accordingly transferred to the list of questions for the 9th February, 1949, when the Honourable Minister of Education will answer it.

#### REFUGEES FROM EAST BENGAL

\*92. **Sardar Bhopinder Singh Man:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state the total number of refugees who have come from East Bengal?

(b) What arrangements have been made for their reception and subsequent accommodation?

(c) What are the plans for their rehabilitation?

**The Honourable Shri Mohan Lal Saksena:** (a) Approximately eighteen lakhs.

(b) Relief Camps have been started for the reception and dispersal of emigrants from East Bengal. Military Camps have been taken over and other buildings have been requisitioned for housing them.

(c) The exodus from East Bengal has practically stopped and it is hoped that a considerable number of the emigrants from Eastern Pakistan will return to their original homes. It has, therefore, been the policy of the Government to encourage and facilitate such return. It is recognised, however, that many of the immigrants are not likely to return and have to be rehabilitated elsewhere. Some schemes for rehabilitation have already begun functioning and others are in course of preparation. Vocational training is being imparted and the West Bengal Government have a number of schemes for settlement on land and creation of townships. Educational loans have been advanced to students and business loans to some of the immigrants.

**Sardar Bhopinder Singh Man:** Has any agricultural land been allotted to these refugees or any shops been directed to be allotted to those who have chosen to stay there?

**The Honourable Shri Mohan Lal Saksena:** I am not in a position to give exact information but the schemes of West Bengal Government include direction of allotment of shops as well as houses.

**Sardar Bhopinder Singh Man:** Are these just schemes or any of these houses being actually allotted?

**The Honourable Shri Mohan Lal Saksena:** I am not in a position to answer this; but schemes have been put forward and a 'ways and means' advance has been given for implementing them.

**Sardar Bhopinder Singh Man:** Are the Government aware that there is widespread discontent among refugees as to the uncertainty of their future?

**The Honourable Shri Mohan Lal Saksena:** Yes, I am.

**Shri Mohi Lal Chattanadhyay:** May I know whether the Minister is aware that nothing has been done to rehabilitate those people?

**The Honourable Shri Mohan Lal Saksena:** I am also aware of it. The difficulty of West Bengal Government was as stated by the Premier himself in his last statement which has been reported in the papers that until now the primary concern of the West Bengal Government and the Government of India was to stop this exodus and to create conditions in Eastern Bengal so that people may not continue to come to this place and others may be encouraged to go back. Now that exodus has stopped considerably, they are just working on the rehabilitation plan. I know that loans have been advanced to students and businessmen.

**Shri Arun Chandra Guha:** Is the Government aware that there is a high percentage of mortality, particularly of infantile mortality in refugee camps in West Bengal.

| 1 | 2           | 3                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | 4                                                         |

**The Honourable Shri Mohan Lal Saksena:** I have not received any reports.

**Pandit Hriday Nath Kunzru:** What is the number of persons who have gone back to Eastern Bengal?

**The Honourable Shri Mohan Lal Saksena:** It is very difficult to give the number but those persons who have availed of Government facilities number about 5,000.

**Srijut Rohini Kumar Chaudhuri:** May I know whether the refugees from Eastern Bengal will be all located in West Bengal or will be distributed between Assam, Cooch-Bihar and Tripura State?

**The Honourable Shri Mohan Lal Saksena:** The proposal is to send them to Assam. 2½ lakhs have already come to Assam and 25,000 to Cooch-Bihar and 50,000 to Bihar.

**Shri Arun Chandra Guha:** Have these provincial Governments taken any schemes for rehabilitating them?

**The Honourable Shri Mohan Lal Saksena:** I suppose they must have taken. I was in Bengal myself and I have seen one of the camps at Ranaghat where they have settled the artisans, and there has been no complaint. There are 300 persons there who were engaged profitably and Government were not incurring any considerable expenditure on them.

#### AGREEMENT BETWEEN INDIAN AND WESTERN GERMANY

**\*93. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Commerce be pleased to state whether it is a fact that the Government of India have entered into an agreement with Western Germany and if so, who is the second contracting party?

(b) What are the terms of that agreement and what is its duration?

(c) What are the advantages the Government of India expect to derive from such an agreement?

**The Honourable Shri K. C. Neogy:** (a) I presume that the honourable member is referring to the commercial agreement arrived at as a result of the negotiations between the Indian Trade Delegation to Germany and the Trade Delegation of the US/UK Military Governments in Germany. The second Contracting Party to the Agreement is the Joint Export-Import Agency set up by the US/UK Military Governments.

(b) The terms of the Agreement provide for the issue by both countries of export and import licences for the commodities which each country has agreed to supply to or receive from, the other. The trade will flow, as far as possible, through normal trade channels. The duration of the Agreement is one year from the 1st July, 1948.

(c) India hopes to obtain chemicals and related products, Glassware, Machinery and metal products, Electrical equipment, Instruments and Apparatus and steel. Out of the total estimated value of imports from Germany, i.e., 20 million dollars, the items of machinery, electrical equipment, Instruments and apparatus will cover over thirteen million dollars.

**Shri M. Tirumala Rao:** What is the status of this Indian Trade Delegation? Is it Government or is it a Delegation of Indian Traders and Merchants sponsored by the Government of India?

**The Honourable Shri K. C. Neogy:** It was a Government sponsored delegation. The leader was an official of the Government and the rest of the Delegation were non-officials, each versed in his own line of business or industry, and the non-official members paid their own expenses.

**Shri M. Tirumala Rao:** Who will implement the agreement arrived at, whether the Government of India or the private businessmen of India?

**The Honourable Shri K. C. Neogy:** As I have already indicated, the agreement would be carried out through the private channels of trade. The two parties to the agreement have only come to this agreement, viz., that each country would give the necessary export import licenses for the purpose of the exchange of commodities included in this agreement.

**Shri M. Tirumala Rao:** Are the members of this delegation free to enter into private agreement with the businessmen in Germany with regard to their particular lines of business on their own account?

**The Honourable Shri K. C. Neogy:** Yes, if they obtain import licenses. For instance, if the Indian merchants get import licenses from the Government of India, they will be at liberty to negotiate with the other side.

**Shri B. Das:** What is the currency with which the trade is carried on? Is it dollar or sterling? And what are the quotas, the value of which has been fixed, that have been secured by India so far, because eight months have passed since the Agreement?

**The Honourable Shri K. C. Neogy:** I have already stated that payment will be made in dollars. As far as the other part of the question is concerned, I am not in a position just now to give an idea of the volume of trade that is expected to flow both ways.

**Shri B. Das:** Does that mean that the United Kingdom had no influence and sterling is not recognised in West Germany?

**The Honourable Shri K. C. Neogy:** I should not like to enter into this disquisition, but the fact remains that this particular area in Germany is a hard currency area.

**Shri H. V. Kamath:** Was the third occupying Power in Germany, namely, France, approached before or during the talks?

**The Honourable Shri K. C. Neogy:** I do not think so. The authorities that really mattered were approached. I mean the authorities that were in a position to enter into this agreement with us.

**Shri H. V. Kamath:** Did this Trade Delegation contact the Soviet Military Government at any time?

**The Honourable Shri K. C. Neogy:** I do not think so.

**Shri M. Tirumala Rao:** Have Government any information whether the British Government would make use of the dollar accumulation earned by British occupied German Zone?

**The Honourable Shri K. C. Neogy:** I am not in a position to make any statement on that point.

**Mr. Homi Mody:** Under the arrangement as contemplated, what is the position as regards the balance of trade?

**The Honourable Shri K. C. Neogy:** I have got here the list of various commodities which formed the subject matter of this agreement. But I do not find in this list any quantitative estimates, commodity by commodity. As I have already stated, the articles that are expected to be imported, would amount to twenty million dollars.

**Mr. Homi Mody:** And the exports?

**The Honourable Shri K. C. Neogy:** I am afraid, I am not just now in a position to give a straight answer to that.

**Shri T. T. Krishnamachari:** In view of the uncertainty of the balance of trade position, is the Honourable Minister's department trying to link up the grant of import license with the export license granted for export to Germany?

**The Honourable Shri K. C. Neogy:** As far as possible that will be done. But I am assured that the items which we are expecting from this part of Germany under this agreement are essential to our own requirements.

**Shri L. Krishnaswami Bharathi:** What are the items?

**The Honourable Shri K. C. Neogy:** I have already given an idea. It is quite a long list—mostly machinery and electrical equipment, chemicals and things like that which we need in this country for our own purposes and they are very much in short supply; and in any case, perhaps, they would have to be obtained from the dollar areas.

**Prof. H. G. Ranga:** Are Government taking care to see that those items which they themselves need for their own managed industries are purchased directly without the variations of these middle-men?

**The Honourable Shri K. C. Neogy:** Government are not purchasing, as I have already pointed out.

**Shri T. T. Krishnamachari:** Is the document covering this arrangement a public document?

**The Honourable Shri K. C. Neogy:** As a matter of fact, the whole report of the Indian Trade Delegation, which includes all the details in which my honourable friends are interested, was published in the Indian Trade Journal on the 25th November, last.

**Dr. Mono Mohan Das:** Are medicines included in the list?

**The Honourable Shri K. C. Neogy:** Chemicals are included of course. Some of them have medicinal value.

#### DISCUSSIONS RE FUTURE OF FRENCH INDIAN TERRITORIES

**\*94. Pandit Mukut Bihari Lal Bhargava:** Will the Honourable the Prime Minister be pleased to state whether it is a fact that a French India delegation arrived in New Delhi sometime in December, 1948 and that a tripartite discussion took place in respect of the future of French Possessions in India and if so, with what results?

**Dr. B. V. Keskar (Deputy Minister for External Affairs and Commonwealth Relations):** No French India Delegation came to New Delhi in December, 1948 and no tripartite discussions on the future of the French Possessions in India have been held.

#### TRADE ARRANGEMENTS BETWEEN INDIA AND PAKISTAN

**\*95. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Commerce be pleased to state the quantity of cotton imported from Pakistan during the period from 1st April, 1948 to 31st January, 1949 and the total quantity of cloth exported to Pakistan during this period?

(b) Are there any arrangements between the Governments of India and Pakistan for import of foodgrains and jute from Pakistan and for export of sugar to Pakistan?

(c) What quantities of various kinds of foodgrains and jute were imported from Pakistan to India during the said period and what was the quantity of sugar exported?

(d) Have the Government of India taken any steps to enter into a long term treaty with Pakistan?

(e) If so, at what stage are the negotiations and are there any expectations of the same materialising and if so, when?

**The Honourable Shri K. C. Neogy:** (a) and (c). I lay on the table of the House a statement giving the requisite information.

(b) Yes, arrangements exist for the import of foodgrains and jute but not for the export of sugar.

(d) and (e). The question of entering into a comprehensive trade Agreement with Pakistan including customs union with that territory, was discussed in Calcutta in April, 1948 soon after the termination of the Standstill Arrangement on the 29th February, 1948. The matter was further discussed at the Inter-Dominion Conference in December, 1948 and it was agreed that "Each Dominion should separately examine the feasibility and practicability of a customs union suitable to the peculiar conditions of India and Pakistan as the study might be of use at a later date when the question might be taken up in earnest by both the Dominions". The matter also arose in connection with the grant of rebates of excise duty on excisable articles, like tea, tobacco, etc., exported to Pakistan and the Government of India offered to deal with this problem as part of a comprehensive arrangement on trade and fiscal matters. As the Pakistan Delegation considered that the question of rebate should be treated as a separate issue and not as dependent on the comprehensive arrangement, no further progress could be made.

*Statement showing imports of raw cotton, foodgrains and raw jute, from Pakistan and exports of cotton cloth and sugar to that Dominion since the 1st April, 1948*

(a) Figures are available up to the 25th January, 1949.

|---------------------------------|---------------------|
| Imports of cotton from Pakistan | ... 2,34,437 bales. |
| Export of cloth to Pakistan     | ... 76,395 bales.   |

(b) Figures are available up to the end of December, 1948.

#### Imports—

|            |                                                          |
|------------|----------------------------------------------------------|
| Foodgrains | ... 20,500 tons of rice and<br>2,520 tons of seed wheat. |
| Raw jute   | ... 30,24,250 bales.                                     |

#### Exports—

|       |                                                     |
|-------|-----------------------------------------------------|
| Sugar | ... 20,000 tons were exported since February, 1948. |
|-------|-----------------------------------------------------|

**Prof. N. G. Ranga:** Are Government taking any special steps to push up the exports of hand-woven cloth to Pakistan?

**The Honourable Shri K. C. Neogy:** I am afraid that is a question to which an answer could be given by my honourable colleague, the Minister for Industry and Supply. I am aware of the demand that has been put forward for the liberalization of the export policy of Government in this behalf, and I think an interim decision has been taken.

**Prof. N. G. Ranga:** Is not it a fact that as a result of this interim decision, running over three to six months, a considerable amount of uncertainty is caused in the handloom weaving industry, and hardship is being experienced as a result?

**The Honourable Shri K. C. Neogy:** The position is that we are expected to supply Pakistan with a fixed quantity of textiles as a whole, and as against that we are expected to be supplied with raw cotton in a particular quantity. It is up to Pakistan to indicate to what extent this export of textiles might be covered by the handloom stuff. As far as I am aware, Pakistan has not perhaps indicated that a portion of the textiles supplied should be covered by the handloom products. But even then having regard to the large accumulation of handloom stuff in the country, we have been considering the possibility of allowing the export of the handloom stuff irrespective of Pakistan agreeing to debiting this quantity against the overall limit fixed.

**The Honourable Dr. Syama Prasad Mookerjee:** The decision has been taken that we allow for the time being free export of handloom cloth to all countries

other than Pakistan and watch and see how much is exported. So far as Pakistan is concerned, we have decided to allow fifty million yards of handloom cloth to be exported for the time being. That we expect will be debited to the total cloth earmarked for Pakistan.

**Shri L. Krishnaswami Bharathi:** When was the decision taken?

**The Honourable Dr. Syama Prasad Mookerjee:** It was taken about three days ago. I may explain that there being an overall shortage of cloth in the country, Government is reluctant to allow free export of handloom cloth outside India, but we have been repeatedly told that there are lots of handloom cloth in the country which are unwanted here. We have been asking the handloom industry that they should produce more handloom cloth usable in India so that we may not be forced to face a position in which India will be in short supply of handloom cloth and at the same time will be exporting cloth outside.

**Mr. Speaker:** The question hour is over.

### (b) WRITTEN ANSWER

#### REPORT OF COMMITTEES ON INDO-PAKISTAN DISPUTE

**\*96. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that to solve the various problems causing friction between the Dominions of India and Pakistan, seven Committees were set up to examine the various issues and submit their reports to the Inter-Dominion Conference in December 1948 and if so, what were the Committees set up and what were their terms of reference?

(b) How many of the above Committees had their meetings since, and which of them have submitted their interim or final reports?

(c) What are the main recommendations of such of the Committees as have submitted their reports, and what actions have been taken by the Governments of the two Dominions to implement them?

**The Honourable Shri N. Gopalaswami Ayyangar** (Minister for Railways and Transport): (a) and (b). A statement showing the Committees set up by the Inter-Dominion Conference which met in Delhi in December, 1948 and their terms of reference is placed on the table of the House. These Committees were to submit their reports to the main Conference, and there was no question of their meeting subsequently.

(c) Subject to some slight modifications the reports of the Committees were incorporated, as annexure, in the Inter-Dominion Agreement reached at Delhi. A copy of the Agreement has been placed on the table of the House, today in reply to Mr. R. K. Sidhwa's question No. 85. Both the Government of India and Pakistan are taking necessary action to implement it in so far as the two Governments are respectively concerned. Progress in the implementation of the Agreement by both parties is being reviewed at monthly Inter-Dominion Conferences at Minister level.

#### STATEMENT

*Committees set up by the Inter-Dominion Conference held at Delhi in December, 1948, and their terms of reference.*

1. **Political Committee.**—(i) To review the progress so far made in implementing the political clauses of the Calcutta Agreement and in particular to examine the complaints made by each Dominion in respect of (a) the press in the other Dominion, (b) treatment of minorities and the exodus of minorities from one Dominion to the other; and

(ii) To suggest measures to ensure the implementation of the Calcutta Agreement and to recommend such other steps as may be necessary to ensure that such complaints do not arise in future; and

(iii) To examine all causes (including economic causes though these need be considered only in a general way in the Committee) which have the effect of worsening Inter-Dominion relations or of causing the exodus of minorities on a considerable scale, and to make recommendations calculated to stem the exodus of minority communities, to encourage their return and generally to improve Inter-Dominion relations.

2. **Economic Committee.**—To examine how far the Calcutta, Karachi and other agreements arrived at between the two Dominions have been implemented and to suggest measures to ensure implementation of such agreements in future.

3. **Stores Committee.**—To review the progress made in respect of the existing agreements in regard to the division and supply of Railway, P. & T., Defence and other stores and suggest measures to ensure their full and early implementation. This would include assessment of financial arrangement.

4. **Evacuee Property Committee.**—To review the progress on the agreement regarding Evacuees Property reached on the 22nd July, 1948, at Lahore and to make recommendations as to the further action to be taken.

5. **Committee for border disputes between East Bengal and West Bengal, between East Bengal and Assam and between East Punjab and West Punjab.**—To discuss the border disputes and incidents on the East-West Bengal, East Bengal-Assam and East Bengal-Tripura borders and the boundary incidents on the East-West Punjab border and suggest the machinery necessary for: (a) settlement of disputes; (b) prevention of such incidents.

6. **Life Insurance Committee.**—To discuss difficulties of holders of life insurance policies in the other Dominion and to evolve measures to remove these difficulties and to safeguard the interest of the policy holders.

7. **Division of Museum articles (Central).**—To make recommendations as to the process of division to be made of Museum articles in accordance with the decision of the Partition Council and to ensure early implementation of the decisions.

8. **Bengal and Punjab Partition matters.**—To report on the progress in the settlement of financial and other matters arising from the partition of Punjab and Bengal; to settle such points of difference as may be found to exist, to advise suitable procedure for the expeditious settlement of the outstanding matters and report to the Conference thereon.

#### RECOGNITION OF INDONESIAN REPUBLIC AND PROTEST AGAINST DUTCH ACTION

**\*97. Prof. N. G. Ranga:** Will the Honourable the Prime Minister be pleased to state:

(a) whether the Prime Minister of the Indonesian Republic Dr. Soekarno had accepted the invitation to visit India;

(b) whether the Government of India recognise the Indonesian Republic;

(c) whether the Government of India made any protest against the recent Dutch action against Indonesian Republic in spite of the Renville Truce Agreement; and

(d) whether Government have received any reply from the Dutch Government?

**The Honourable Shri Jawaharlal Nehru:** (a) President Soekarno accepted an invitation to visit India last December. He was not able to come as he was arrested by the Dutch when they launched their attack on the Indonesian Republic on the 19th December.

(b) The Government of India have, in common with several Governments, given *de facto* recognition to the Republic of Indonesia.

(c) Yes. The Government of India's views have been frequently stated. The honourable member is no doubt aware of the Conference of 19 nations recently convened in New Delhi as well as of the debates in the Security Council in which the Indian Representative has repeatedly expressed the Government of India's anxiety to see an end of Dutch aggression and the speedy realisation of complete freedom by the Indonesian people.

(d) No.

## CONGRESS RESOLUTION RE FOREIGN POSSESSIONS IN INDIA

\*98. Prof. N. G. Ranga: Will the Honourable the Prime Minister be pleased to state:

(a) whether Government have received any report from the All India Congress Committee's observers about the recent municipal elections in French India;

(b) whether Government have drawn the attention of the French Government to the mal-practices pursued by the French authorities during the municipal elections;

(c) if so, what replies were received;

(d) whether Government have taken notice of the resolution passed at the Jaipur Congress Session on the Foreign Possessions in India; and

(e) if so, whether Government have drawn the attention of the concerned Foreign Governments to that resolution?

The Honourable Shri Jawaharlal Nehru: (a) and (b). Yes.

(c) The French Embassy promised to send us a report after they had received full accounts of the Municipal elections. They have not done so yet and have been urgently reminded.

(d) The Government of India have taken notice of the resolution passed at the Jaipur Congress Session on Foreign Possessions in India, and are in full accord with the policy laid down therein. Government are of opinion that geographical, political, economic and defence reasons would naturally lead to a political union with India of such areas in India as are still under foreign control. Government are making every effort to bring about this change by peaceful methods and the friendly co-operation of the Governments concerned. Government also realise that during the long period of foreign control, administrative, cultural, educational and judicial systems have grown up in these areas, which are different from those prevailing in the rest of India, and any change-over must therefore take these factors into consideration and allow for a gradual adjustment with due regard to the wishes and way of life of the people of the areas concerned. The union of these areas with India need not involve any immediate merger in the neighbouring province or other unit of India. Arrangements for the association of these settlements with the Indian Union will, in conformity with our declared policy, be regulated according to the wishes of the people with whom there would be the fullest consultation.

(e) The Jaipur Congress Resolution has received a great deal of publicity in the press both in India and abroad. It has, therefore, not been thought necessary to invite the specific attention of the French and Portuguese Governments to this resolution.

## INDONESIAN REPUBLIC'S MEMBERSHIP OF E. C. A. F. E.

\*99. Prof. N. G. Ranga: (a) Will the Honourable the Prime Minister be pleased to state why the Dutch Government's representatives walked out of the recent meeting of the U.N. Economic Commission for Asia and the Far East?

(b) What are the status and privileges of the Government of the Indonesian Republic after it has been admitted into the Conference—whether as a delegate or as an observer?

The Honourable Shri Jawaharlal Nehru: (a) The Dutch Government's representatives walked out of the meeting as a protest against the resolution of E.C.A.F.E. (Economic Commission for Asia and Far East) to admit the Republic of Indonesia as an Associate Member.

(b) The status and privileges of the Republic of Indonesia will be those accorded to an Associate Member of the Commission. Associate Members have the right to participate without vote in all meetings of the Commission, whether sitting as Commission or as Committee of the Whole. They are also eligible to be appointed as member of any Committee or other subordinate body which may be set up by the Commission, and shall be eligible to hold office in such body.

## U.S.A.'S VIEWS RE "MASTER PLAN" BY E. C. A. F. E.

\*100. Prof. N. G. Ranga: (a) Will the Honourable the Prime Minister be pleased to state what is the "Master Plan" prepared by the Economic Commission for Asia and the Far East?

(b) Have the Government of the U.S.A. expressed any views about that plan?

The Honourable Shri Jawaharlal Nehru: (a) The term "Master Plan" is a misnomer, so far as the E.C.A.F.E. work is concerned. The Industrial Development Working Party set up by the Commission to report and make recommendations on industrial development of the region submitted a Report to the Commission embodying the plans proposed by the various Governments and merely aggregating the financial requirements of the various plans. A copy of the Report is placed on the table of the House for the honourable member's information.

(b) The American views, as stated by the United States of America's Delegate, Mr. Cowen, appear to be that financial aid for the plans of Asian countries must be decided by direct negotiations between borrower and lender whether the latter was the United States of America Government, or the World Bank. He gave no undertaking that his Government would advance funds for the proposed plans.

## EXCHANGE AND FUNDS FROM WORLD BANK FOR RIVER VALLEY PROJECTS

\*101. Prof. N. G. Ranga: Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) whether Government have approached the World Bank for necessary exchange and funds for undertaking any or some or all the irrigation and flood control projects, such as Rampadsagar, Krishna-Pennar, Narmada and Tapi projects;

(b) if not, whether they propose to do so; and

(c) how much capital in all is needed for undertaking these projects and how much of it is expected to be raised abroad?

The Honourable Shri N. V. Gadgil: (a) No, Sir.

(b) The question whether external financial assistance will be required in connection with any particular project, will depend on the foreign exchange resources available to Government from time to time. If such resources are not adequate for carrying out any particular project or projects, Government will consider how best the resources can be obtained. A request for a loan from the International Bank will be one of the possible sources.

(c) From the estimates at present available, it is calculated that approximately Rs. 144 crores will be required up to 1951, if all the major projects are started before then. It is not possible to say at this stage, how much foreign exchange will be required, as this will depend on the altering supply position of capital equipment.

+ Not printed in the day's Debate. A copy has been placed in the Library of the House.—  
Ed. of D.

## CIVIL WAR IN CHINA

\*102. Prof. N. G. Ranga: Will the Honourable the Prime Minister be pleased to state:

(a) whether Government have been watching the situation in China as the Civil War is developing;

(b) whether Government possess any information as to whether any proposals have been made by America, England and other countries for the settlement of that Civil War; and

(c) whether the Government of India were approached by any of the other Governments or the contending parties in China either to intercede or to help to achieve a settlement?

The Honourable Shri Jawaharlal Nehru: (a) Yes.

(b) The Government of India are not aware of any such proposals.

(c) No.

## CENSUS AND REHABILITATION OF REFUGEES

\*103. Dr. V. Subramaniam: (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state how many refugees who have come from Pakistan have settled in States and how many in the Provinces?

(b) How many homes have Government opened solely to look after the refugee orphan children and young widows?

(c) What is the number of refugee camps in the Delhi area and where are they located?

(d) What is the strength of each camp and how many families are there in each camp?

(e) Is it a fact that no proper census has been taken or statistics kept in the Delhi camps as to the occupation (or occupations) which the head of each family was following previously, and, as to the alternative work which the head of a family (or any grown up member of a family) is now willing to take up or learn?

(f) Are Government aware that the refugees who were trained at some vocational training centres have not been able to find work for themselves and get no encouragement from Government to pursue the work they have learnt?

(g) Have Government made any arrangements in the camps, to supply raw materials to the refugee artisans, who know some craft?

(h) Is it a fact that rations have been stopped in certain camps and if so, for what reasons?

(i) Have Government started any industry of their own to absorb the trained and untrained refugee labour; if not, why not? If so, what is the nature of such industries?

The Honourable Shri Mohan Lal Saksena: (a) The honourable member probably wishes to know the number of refugees resettled in the Provinces and States. If so, it may be observed that it is difficult to indicate the exact number of refugees rehabilitated because not all are rehabilitated through the efforts of Provincial or State Governments. As regards the estimated figures the honourable member may kindly refer to my answer to part (c) of Starred Question No. 88 by Mr. R. K. Sidhva.

(b) Twenty-one homes have been opened by Government for children, widows and unattached women.

(c) Ten. All the camps are located in Delhi and New Delhi.

(d) A statement containing the requisite information is placed on the table of the House

(e) No.

(f) No.

(g) So far no raw materials have been supplied but as it has now been decided to convert camps into Work Centres, arrangements will be made for the supply of tools and raw materials.

(h) Yes, rations have been stopped to individuals, who had become self-supporting and also to such able bodied refugees as were offered but refused to work. No cases of stoppage of rations for reasons other than non-observance of camp rules have been reported to Government.

(i) It is the policy of the Government to resettle refugees from Pakistan in industries as expeditiously as possible, but for obvious reasons the Government cannot undertake any large industrial undertakings immediately. A number of cottage industries have, therefore, been started at various centres; and close liaison has been established with the Cottage Industries Board of the Ministry of Industry and Supply.

A self-contained refugee colony, with its full complement of arts and crafts, has been established at Nilokheri—a place about 85 miles from Delhi—as an experimental measure.

## Statement showing number of refugees and families in each camp in Delhi

| Name of the camp  | Number of refugees | Number of families |
|-------------------|--------------------|--------------------|
| Kingsway          | 21,526             | 4,464              |
| Purana Qila       | 4,210              | 600                |
| Wavell Canteen    | 251                | 79                 |
| Kalkaji.          | 1,415              | 278                |
| Anand Parbat.     | 3,800              | 795                |
| Bela Road.        | 2,275              | 442                |
| Tis Hazari.       | 1,829              | 396                |
| Kotla Ferozeshah. | 1,383              | 277                |
| Safdarjung.       | 1,467              | 290                |
| Humayun's Tomb.   | 2,943              | 689                |

## CLOSING OF DELHI REFUGEE CAMPS

\*104. Dr. V. Subramaniam: (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether it is the intention of Government to keep all the refugee camps in Delhi or to close them after sending the refugees outside the Delhi area? Is there any definite plan to close each camp within a specified period?

(b) Is it a fact that Government propose to build about 5,000 houses to settle the refugees in Delhi and if so, when will the work be finished and the allotment made?

(c) Is there any proposal to convert the barracks in the King's Way Camp, Edward Lines, into dwelling houses, and if so, when are the plans expected to be completed?

(d) Are Government aware that many families are willing to quit the camps and lead independent lives if Government can help them—

(i) by providing them with small shops to do their business;

(ii) by granting small plots of land to build houses at their own expense;

(iii) by purchasing the articles manufactured by them and giving them daily wages; and

(iv) by providing houses on rent?

(e) What are the arrangements made so far by Government in this respect?

**The Honourable Shri Mohan Lal Saksena:** (a) Government have no intention of keeping refugee camps in Delhi indefinitely, the scheme for gradual discontinuance of free supply of rations to refugees residing in Delhi camps and for converting them into Works Centres where indigent refugees can earn their livelihood, has been finalised and is expected to be implemented very shortly.

(b) Government propose to build about 4,000 houses for refugees in Delhi. Out of these 2,332 houses have already been completed and 1,700 houses have been allotted. Apart from these 5,500 plots are being allotted to those who will construct their own houses.

(c) Yes, but the camp belongs to the Ministry of Defence and the question of formal transfer of the camp by the Defence Ministry to the Ministry of Relief and Rehabilitation has already been taken up. But I may add for the information of the House that the existing economy of Delhi cannot absorb more than 2½ lakhs of refugees, and, therefore, rehabilitation facilities will be provided.

(d) Yes.

(e) The honourable member is referred to the reply given by me to part (b) of this question regarding provision of residential accommodation. In addition stall/shops numbering 3,194 have also been constructed by the various municipal committees and a number of them have been allotted to refugees living in the camps. Refugees inside and outside the camps have been given loans individually as well as through the co-operative societies to help them in permanent rehabilitation.

#### DIPLOMATIC POSTS CREATED AFTER 15TH AUGUST 1947

**\*105. Shri Lakshminarayan Sahu:** Will the Honourable the Prime Minister be pleased to state:

(a) the number of diplomatic posts created after the 15th August 1947; and

(b) how many of them have been filled by officials and how many by non-officials?

**The Honourable Shri Jawaharlal Nehru:** (a) Eighty-four diplomatic posts have been created after 15th August, 1947.

(b) Distribution is as follows:

|              |     |    |
|--------------|-----|----|
| Official     | ... | 50 |
| Non-official | ... | 20 |
| Vacant       | ... | 14 |

#### FINANCIAL AID TO BURMA TO REVIVE PETROL INDUSTRY

**\*106. Shri S. Nagappa:** Will the Honourable Minister of Works, Mines and Power be pleased to state whether India has supported Burma financially to revive her petrol industry and if so, to what extent?

**The Honourable Shri N. V. Gadgil:** No.

#### INDIAN LABOUR IN BURMA AFFECTED BY BURMA LAND NATIONALISATION BILL

**\*107. Shri S. Nagappa:** (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that the Burma Land Nationalisation Bill has seriously affected Indian Labour in Burma?

(b) If so, what action has the Government of India taken to ease the condition of the Indian labourers there. If no action has been taken, what are the reasons therefor?

**The Honourable Shri Jawaharlal Nehru:** (a) No, Sir. The Act affects the owners of land.

(b) The position of Indian agricultural labour in Burma is not expected to be affected to any great extent by the enforcement of the Land Nationalisation Act. The Government of Burma have assured the Government of India that in the distribution of land taken over by Government, no discrimination will be made against Indian agriculturists on grounds of nationality.

As the Act affects other Indian interests in Burma, the Government of India have repeatedly addressed the Government of Burma on the subject.

#### NON-MUSLIMS LEFT IN PAKISTAN AND EXPENDITURE ON REHABILITATION

**\*108. Shri S. Nagappa:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state the amount till now spent for the rehabilitation of refugees?

(b) When do Government expect to complete the rehabilitation work?

(c) What is the approximate number of Hindus and Sikhs still left in Pakistan, viz.

- (i) East Bengal;
- (ii) West Punjab;
- (iii) Sind; and
- (iv) The North West Frontier Province?

**The Honourable Shri Mohan Lal Saksena:** (a) The total expenditure incurred on rehabilitation of refugees as compiled upto 30th November, 1948 is as below:

#### Rehabilitation—

|                        |                 |
|------------------------|-----------------|
| Expenditure on Schemes | Rs. 1.44 lakhs  |
| Loans.                 | Rs. 2.85 ..     |
| Total                  | Rs. 4.29 lakhs. |

(b) In our policy directive to Provincial and State Governments we have laid down that endeavours should be made to complete the schemes by 31st March, 1950 and it is hoped that they will work upto this programme.

(c) The approximate number of Hindus and Sikhs left in Pakistan is as under:

|                  |                 |
|------------------|-----------------|
| (i) East Bengal  | About one Crore |
| (ii) West Punjab | 20,500          |
| (iii) Sind       | 2,50,000        |
| (iv) N.W.F.P.    | 4,000           |

#### NON-PARTICIPATION OF INDIAN EMBASSY IN PARIS IN U. N. GENERAL ASSEMBLY DISCUSSION ON PALESTINE

**\*109. Shri B. N. Munavalli:** (a) Will the Honourable the Prime Minister be pleased to state whether the attention of Government has been drawn to the statement of Mr. Sarat Chandra Bose, appearing in the issue of *The Statesman*, Delhi edition, dated 30th December, 1948, under the heading: "Indian Embassies in Europe", at page 6 column 3?

(b) Is it a fact that the Indian Embassy in Paris did not participate in the discussion of the important question of Palestine as alleged in the above statement and if so, why?

**The Honourable Shri Jawaharlal Nehru:** (a) Yes. I have seen this and other statements on the subject. They specifically criticize the High Commissioner's office in London, and the Embassy in Paris, and I should like to answer them fully.

As regards India House, the charges are:

(i) that there are between 150 to 175 Britishers among whom are persons who left their jobs in India because they were not prepared to serve after August, 1947;

(ii) that the real purchasing Agent of the Government of India in England is a Britisher who at the same time is the Director of a Company bearing an Indian name. The names of three persons, Mr. Robert Cleminson, Mr. Potter and Mr. Ingham have been mentioned;

(iii) that very little is being done for our students, especially in providing facilities for practical training in factories in England and the Continent.

Each of these allegations is misleading or incorrect, and I shall deal with them *seriatim*. The High Commissioner's staff consists of more than 150 or 175 persons of British nationality. None, however, belongs to the category of officials who left their jobs in India because they were not prepared to serve after August, 1947. They are employees of the Government of India, most of whom have been in permanent service for relatively long periods. It was neither possible nor desirable to dismiss this personnel, merely on racial grounds, after the transfer of power in August, 1947. The policy of Government is to staff Missions and Embassies abroad with Indians. This is being done in London also. Since August, 1947 the number of Indians employed at India House has doubled.

There is no foundation for the charge that the Purchasing Agent of the Government of India in England is a person of British nationality. Purchases are made through the Director General of Stores, who is an Indian, and according to prescribed procedure which normally requires calling for tenders, orders are placed with those who offer the most advantageous terms and every precaution is taken to safeguard Government's interests. Mr. Cleminson has no business connection with India House. Mr. Ingham is a Consulting Engineer of high standing whose technical skill has been made use of from time to time in public interest; he also has no official connection with India House. Mr. Potter has supplied goods to India, but in conformity with the prescribed practice.

The allegations regarding neglect of students are also unfounded. Both Government scholars and private students receive every possible assistance. Arrangements are made to meet students on arrival and to provide temporary or permanent accommodations according to needs. 1,509 students were helped in this way between August, 1947 and January, 1949. Out of 1,250 students who made firm application for admission to various institutions between October, 1947 and September, 1948, 610 secured admission, apparently, in the institutions which they wished to enter; 200 others got admission into institutions other than those for which they had applied but of equal standing, 300 were rejected by the institutions concerned because of lack of qualifications, and 140 are on the waiting list. Dealing more particularly with applications for practical training, I may inform the House that out of 292 applicants during the calendar year, 1948, 112 have been placed where they wished to be. 60

have been offered alternative places, 59 are on the waiting list and 57 were found unqualified. I should like to add that students are the object of the High Commissioner's special solicitude and he gives much of his time to their care and welfare.

The statement that our Cypher in Paris is in Charge of a non-Indian is incorrect. The Cypher Assistant at this Embassy is an Indian national. The Indian Embassy in Paris has suffered from lack of staff as well as accommodation, and could function more efficiently. We are trying to improve it. Having started only a little over a year ago, it has not been possible, especially because of the lack of trained personnel, to attain in all our Missions abroad standard comparable to that of the longer established diplomatic services. But, as I have repeatedly stated, taking them as a whole, our diplomatic missions abroad are functioning well. I welcome legitimate criticism but sweeping condemnation of public servants who are trying to adjust themselves to new responsibilities with devotion to the country can only demoralise them and can be of no service to India.

(b) The Indian Embassy in Paris had nothing to do with the work of the United Nations General Assembly. The Indian Delegation to the General Assembly was responsible for the work and its members alone were entitled to speak on behalf of India in the Assembly or its Committees. Shri Saraf Chandra Bose's statement that no Indian voice was heard during the discussions on Palestine is incorrect. The Indian Delegation did, in fact, take part in the prolonged debates on this important question in the Political and Security Committee of the General Assembly and Mr. M. C. Setalvad spoke on behalf of the Delegation on the 1st December, 1948.

#### IMPORT OF NORWEGIAN BEER

\*110. **Shri Biswanath Das:** Will the Honourable Minister of Commerce be pleased to state:

(a) whether the attention of Government has been drawn to a news item published in the newspapers of Delhi, dated the 13th December 1948, circulated by Reuter from Oslo regarding the despatch of a small experimental consignment of Pilsner beer to India; and

(b) whether Government propose to give certain details thereof *viz.*, of how hard currency was made available for this purpose and the quantum of tax levied on such import?

**The Honourable Shri K. C. Neogy:** (a) Yes.

(b) The question of making any hard currency available does not arise, as Norway is a soft currency country.

As regards the details of import duty leviable on beer, the Honourable Member's attention is invited to the rates shown against item No. 22 (2) of the Indian Customs Tariff Schedule (Twenty-Ninth Issue) a copy of which has been placed in the Library of the Legislature. These enhanced rates were brought into force under the provisions of Ordinance No. XXXIII of 1948 in pursuance of the anti-inflationary measures taken by Government.

#### HOUSES AND SHOPS FOR REFUGEES IN DELHI

\*111. **Shri B. N. Munavalli:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state how many refugees are accommodated in the houses recently constructed by Government?

(b) How many plots have been leased to the refugees, in the name of individuals, for construction of houses by themselves?

(c) How many co-operative societies have applied for plots to construct houses for refugees and to how many of them plots were granted and under what conditions?

(d) Are any refugees from East Bengal accommodated in the houses constructed by Government in Delhi and New Delhi and if so, how many?

(e) What is the number of houses built by refugees in Delhi and New Delhi without permission, on Improvement Trust or Municipal land?

(f) Have Government constructed any shops for the refugees in Delhi and New Delhi and if so what is the number of such shops?

**The Honourable Shri Mohan Lal Saxena:** (a) Nearly 1,000 houses have so far been occupied by as many heads of families. The exact number of refugees occupants is, however, not known.

(b) There are approximately 5,000 plots for allotment to the refugees and the allotment work is in progress. Very few plots have, however, been released.

(c) No plots have been allotted to the co-operative societies so far, although some applications have been received. The plots are, at present, being allotted to individual refugees. The policy in regard to co-operative societies is under consideration and a decision will be announced shortly.

(d) Yes, two families.

(e) It is not possible to furnish accurate information. But it is believed that about 3,000 houses, including katcha huts and improvised structures, have been erected by the refugees without permission.

(f) Except in the proposed townships on the various sites where houses and plots are to be allotted to the refugees the Government have no plans to construct shops separately. A number of shops are under construction in the Delhi Northern Extension Area. The total number of shops and stalls so far constructed by the Delhi and New Delhi Municipal Committees is 3,194.

#### HOUSES FOR GOVERNMENT SERVANTS IN DELHI

**\*112. Shri B. N. Munavalli:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) whether Government have commenced building houses in Delhi and New Delhi for Government servants of all categories, according to the Housing Schemes said to have been already sanctioned by Government; and

(b) if they have commenced the work, how many houses have been constructed so far, and what time will be required to complete the work according to the various schemes?

**The Honourable Shri N. V. Gadgil:** (a) Yes.

(b) No building has yet been completed. A statement is placed on the table of the House showing the particulars of the various projects now under construction.

*Statement showing the particulars of various projects under construction.*

C. staff.       | ....                                  | ..      | ..      | ..      | ....                                                                                  | Work on 100 quarters has just been commenced. For others tenders are being invited. The work is likely to be completed by end of 1949.                                                                                                                                                                                                                                                                                  |
| 7 | Construction of 36 Clerks' quarters, Karolbagh.     | ....                                  | ..      | ..      | ..      | ....                                                                                  | Site previously proposed for the quarters has been taken over by R. R. Ministry and as such this work could not be commenced.                                                                                                                                                                                                                                                                                           |

## ASSESSMENT OF VALUE OF IMMOVABLE PROPERTIES OF REFUGEES FROM PAKISTAN

\*113. **Shri B. N. Munavalli:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether a Joint Assessment Board, as agreed upon between the Dominions of India and Pakistan, has been set up for the assessment of value of immovable properties of refugees from Pakistan?

(b) What is the procedure adopted by the said Board in assessing the value of immovable properties?

(c) What is the value of the immovable properties assessed by the said Board so far, if it has commenced its work?

(d) When is the said Board expected to complete the work of assessment?

**The Honourable Shri Mohan Lal Saksena:** (a) A Joint Urban Assessment Board was proposed by the representatives of two Dominions at secretariat level in March, 1948. The functions of this Board were enlarged to include valuation of urban immovable property when the secretariat level proposals were considered at Ministerial level in July, 1948. The Pakistan Government resiled from this position and informed the Government of India at the Inter-Dominion Conference of December, 1948 that they could not agree to the setting up of such an elaborate organization. No Joint Urban Assessment Boards have, therefore, been set up.

(b) to (d). Do not arise.

## CONSTRUCTION OF CINEMA HOUSES IN DELHI PROVINCE

\*114. **Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state the number of persons who had applied for licence for constructing buildings for cinema shows in Centrally Administered Areas since August 1947?

(b) How many such licences have been issued?

(c) Have Government issued orders to cancel the licences already issued and if so, how many?

(d) Do Government propose to allow the cinema houses which are under construction to be completed?

(e) What do Government propose to do in the case of persons who have got licences for constructing cinema houses and have not started the construction thereof but have placed orders and paid advance for getting machinery and building material for that purpose?

**The Honourable Shri N. V. Gadgil:** (a) to (e). The information required by the honourable Member is being collected from all Chief Commissioners and will be placed on the table of the House as soon as it is received.

I may add for the information of the honourable Member that in pursuance of a statement made by the Honourable the Prime Minister last year, that during the present scarcity of building materials, Government were averse to the construction of non-essential building, e.g., cinema houses, Chief Commissioners and Provincial Governments were requested to follow this policy as far as possible.

## REHABILITATION OF REFUGEES

\*115. **Giani Gurmukh Singh Musafir:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state how many refugees are being accommodated in camps at present and what is the location of and the number of refugees accommodated in each camp?

(b) How many refugees have been rehabilitated permanently up to this time?

(c). How many houses and shops have been built for this purpose, and how much accommodation provided by the evacuees property has been utilized?

(d) What are the plans of Government to rehabilitate the remaining refugees?

**The Honourable Shri Mohan Lal Saksena:** (a) Roughly eight lakhs. As regards population and location of various camps a statement is placed on the table of the House.

(b) It is difficult to indicate the exact number of refugees rehabilitated; but it may roughly be taken at 30 lakhs.

(c) In Delhi, 2,912 houses and 3,051 stalls have been constructed and allotted to refugees. 450 more houses and 120 shops in New Delhi Northern Extension Area are to be built. About 5,500 plots will be allotted to those who can build their own houses.

Information about the houses and stalls built by the Provincial and State Governments is being collected and will be laid on the table at an early date.

(d) The Government of India have addressed all the Provincial and State Governments to make expeditious arrangements for the rehabilitation of refugees, especially their housing. The Provinces and States have been asked to make arrangements on the basis of a house or a plot per refugee family (average unit of six members per family) and March, 1950 has been fixed as the target for the completion of these schemes.

Some Provinces and States have already forwarded their schemes and these schemes have been discussed with the representatives of the Provinces and States concerned and the requisite assistance in finance as well as building materials given. A list showing the schemes so far sanctioned for Provinces schemes from the remaining Provinces and States are awaited and will be considered in due course.

*Statement showing total population in refugee camps in the various Provinces and States and Centrally Administered Camps*

| Name of Province.                                   | Total Population. |

DEVELOPMENT OF ATOMIC ENERGY

\*116. **Shri Jadubans Sahay:** (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that the Government of India propose to set up an Atomic Commission?

(b) What concrete steps do the Government of India propose to adopt for the rapid development of atomic energy in India?

**The Honourable Shri Jawaharlal Nehru:** (a) The Government of India have set up an Atomic Energy Commission.

(b) The Atomic Energy Commission is: (i) surveying India for the location of useful minerals that may be required in connection with atomic energy; (ii) promoting research in India on atomic energy and subsidising such research in existing institutions and universities; and (iii) taking steps to increase the teaching and research facilities in nuclear physics and chemistry in Indian universities.

MEASURES FOR ABOLITION OF *Begar*

\*117. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Labour be pleased to refer to the answer to Starred Question No. 500 asked on the 25th August, 1948, regarding legislation to abolish *begar* and state whether the report of the officer on Special Duty referred to therein has now been received?

(b) If so, do Government propose to place a copy of the same on the table of the House?

(c) What action have Government taken or what action do they propose to take on it?

**The Honourable Shri Jagjivan Ram:** (a) and (b). The report of the Officer on Special Duty is not yet ready. It is expected to be ready by the end of April.

(c) Government will decide the course of action to be taken after receipt of the report.

# RESERVATION OF REFUGEES TOWNSHIP FOR REFUGEE GOVERNMENT EMPLOYEES IN DELHI

**\*118. Giani Gurmukh Singh Musafir:** (a) Will the Honourable Minister of Relief and Rehabilitation please refer to the answer to part (b) of Starred Question No. 1302 asked on the 7th April 1948 and state whether any decision has since been arrived at regarding the reservation of a refugee township in Delhi exclusively for allotment to refugee employees of the Government of India?

(b) If so, what is the area of the land which has been so reserved and how is the allotment to be made?

**The Honourable Shri Mohan Lal Saksena:** (a) No township near Delhi has been reserved exclusively for allotment to the employees of the Government of India.—Their claims to houses and plots in the various Housing Schemes are being considered along with other refugees gainfully employed and in accordance with the principles laid down in the Press Note, No. II, copy of which is placed on the table of the House. 873 houses have been allotted to Government Servants so far.

(b) Does not arise

## GOVERNMENT OF INDIA

### MINISTRY OF RELIEF AND REHABILITATION REHABILITATION AND DEVELOPMENT BOARD.

#### Press Note No. II

The following procedure regarding the allotment of 3,200 houses in the New Delhi Northern Extension Area is announced for general information:

(1) The allotment will be made by the Chief Commissioner, Delhi, assisted by an Advisory Committee to be appointed by the Government of India. Applications in the form to be prescribed should be addressed to the Chief Commissioner, Delhi.

(2) The houses will be let out on rent to be fixed hereafter.

(3) In view of the fact that a considerable percentage of the evacuee houses are already in the possession of refugees from West Punjab, houses in the New Delhi Northern Extension area will be allotted mainly to refugees other than those from West Punjab in the following proportions:

|                  |              |
|------------------|--------------|
| (i) N. W. F. P.  | 40 per cent. |
| (ii) Sind        | 20 per cent. |
| (iii) Bahawalpur | 20 per cent. |
| (iv) Baluchistan | 10 per cent. |

(v) Reservation in special cases to be allotted at the discretion of the Honourable Minister for Relief and Rehabilitation. 10 per cent.

(4) Five per cent. of the houses will be reserved for families of members of the Armed Forces and ex-servicemen who have been displaced from their houses in urban areas in West Punjab. This percentage will be met from the above percentages laid down by the Ministry of Relief and Rehabilitation if possible, or otherwise, if need be.

(5) The dates of registration in Delhi governing eligibility for rehabilitation benefits as fixed by the Ministry of Relief and Rehabilitation, viz., 10th December, 1947 for West Punjab refugees and 29th February, 1948 for others will be generally observed.

(6) First priority in allotment will be given to refugees gainfully employed and resident in refugee camps in Delhi. Second priority will be given to people gainfully employed in Delhi but not resident in Refugee Camps. Within these broad categories the following further preference will be applicable:

- Those who offer their services for levelling of sites and other purposes without any condition.
- Those who are already employed in productive activity.
- Those who are employed in Government Services.
- Producer's Co-operative Organisations.

(v) Those who are likely to be employers of refugees by setting up industrial activity.

(vi) Those who are willing to offer themselves for vocational training so as to be absorbed in the vocations chosen for the area.

(7) Refugees who have forcibly occupied premises will be disqualified for purposes of allotment.

## ABOLITION OF EMPLOYMENT EXCHANGES

**\*119. Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Labour be pleased to state whether the Economy Committee has recommended the abolition of the Employment Exchanges?

(b) How many Gazetted Officers are there in the Employment Exchanges?

(c) How many Public Relations Officers are there in the Employment Exchanges?

(d) Is there any special Employment Exchange for refugees?

**The Honourable Shri Jagjivan Ram:** (a) No, Madam. The Economy Committee did not recommend the abolition of the Employment Exchanges. It recommended the transfer of control of the Exchanges situated in the Provinces to the Provincial Governments, and the retention with the Centre of the Employment Exchanges in centrally administered areas.

(b) There are 267 Gazetted Officers (including 27 appointed for refugee work) at the 54 Employment Exchanges and 23 District Employment Offices all over India.

(c) The number of Public Relations Officers and Assistant Public Relations Officers in the Employment Exchanges is at present 54.

(d) The only special agency for refugees is the Special Employment Bureau, but even this Bureau functions under the Ministry of Labour. It deals exclusively with highly qualified non-Government servant refugees from Pakistan.

## RELEASE BENEFITS TO INDIANS IN BURMA CIVIL SERVICE

**\*120. Shri M. Ananthasayanam Ayyangar:** Will the Honourable the Prime Minister be pleased to state:

(a) whether it is a fact that the Indians employed in the Burma Civil Service, on the transfer of power by Britain to Burma, were not allowed the option to quit that service under release benefits;

(b) whether such benefits were granted to British Nationals;

(c) whether any Indian Nationals approached the Government of India for getting them this benefit; and

(d) what Government have done in this regard so far?

**The Honourable Shri Jawaharlal Nehru:** (a) No, Sir.

(b) Yes. Only non-Asian officers, who had been recruited in the United Kingdom for employment under the Government of Burma and whose services terminated on transfer of power, were granted the release benefits provided in their contract of employment.

(c) and (d). Indians in the service of the Government of Burma were not entitled to release benefits under the terms of their contract of employment. Representations for concessions, other than those permitted under the rules, were received through the Indian Embassy, Rangoon and the matter has been the subject of considerable correspondence with the Burma Government. Certain concessions granted by the Burma Government as a result of this are shown in the statement placed on the table of the House.

*Statement showing terms sanctioned by the Government of Burma for Indian nationals in their service retrenched on grounds of alien nationality*

(1) Surplus leave spent out of Burma during the Japanese occupation will count as active service for pension of all kinds including proportionate pension.

(2) Permanent Government servants with less than five years' service are granted gratuities calculated at the rate of one month's pay for every year of active service.

(3) All leave due and admissible under the rules is granted from the date of release to permanent Government servants. A temporary Government servant discharged from service, due to no fault of his, before the expiry of the period for which the temporary post has been created, will be granted one month's pay in lieu of notice, or earned leave, whichever is more favourable to him.

(4) Permanent Government servants are granted proportionate pension in accordance with the formula  $N/24 \times$  (maximum presumptive pension admissible on the grade held substantively), subject to the condition that the proportionate pension thus calculated does not exceed the minimum presumptive pension; or pension admissible under the ordinary rules, whichever is more favourable. Temporary Government servants are not granted any pensions or gratuities.

(5) Pensions and Provident Funds are being paid from treasuries in India as also leave salaries to Gazetted Officers.

Arrangements are being made for the disbursement of leave salaries of non-gazetted servants from treasuries in India.

(6) Permission to take up alternative employment while on leave preparatory to retirement, and to draw leave salary concurrently with duty pay drawn from employment elsewhere, has been given.

(7) Three months' clear notice of termination of service is being given to those actually on duty in Burma, and the grant of leave will commence from the date of expiry of notice. Temporary Government servants are not normally entitled to any notice of termination of service. If a temporary Government servant resigns his post to take up other employment, or his services are terminated with effect from the date on which the sanction for the temporary post expires, he will not be entitled to any leave or compensation. If, however, he is discharged from service, due to no fault of his, before the expiry of the period for which the temporary post has been created, he will be granted one month's pay in lieu of notice, or earned leave, whichever is more favourable to him.

(8) Those who continue in the service of the Burma Government will be granted remittance facilities upto two-thirds of their emoluments in Burma during the period of their continued service.

#### EQUIPMENT ALLOWANCE TO MEMBERS OF FOREIGN DELEGATIONS

\*121. **Shri L. S. Bhatkar:** (a) Will the Honourable the Prime Minister be pleased to state whether there is any equipment allowance paid to members of Delegations, Missions etc., that go to foreign countries?

(b) Has the rate been uniform or is it varied?

(c) If so, what are the figures?

(d) Are there any delegations which were not paid this equipment allowance and if so, why?

(e) Is there any difference between the equipment allowance paid to official and non-official delegates?

**The Honourable Shri Jawaharlal Nehru:** (a) Yes, to members of some Delegations to foreign countries.

(b) The rate varies.

(c) The amount of equipment allowance ranges from Rs. 300 to Rs. 500 each.

(d) Yes; the grant of this allowance is determined by actual requirement in each case with reference to climatic conditions in the country concerned, the season in which the delegation has to go and the duration of the delegation's stay abroad.

(e) No distinction is made as between official and non-official delegates.

#### SETTLEMENT OF PRIVATE CLAIMS AGAINST GERMANY

\*122. **Lala Raj Kanwar:** (a) Will the Honourable Minister of Commerce be pleased to state when the question of settlement of private claims against Germany is likely to be taken up by the Government of India?

(b) How many private claims against Germany have been registered with Government?

(c) What is the nominal value of such claims?

**The Honourable Shri K. C. Neogy:** (a) Private claims against Germany can be classified under the following three categories:

(1) Claims against former German Government and its Agencies arising out of the war.

(2) Claims against Germany and its nationals arising out of contracts and other obligations entered into before the last war.

(3) Claims against vested German firms in India.

The position regarding settlement of the above claims is as follows:—

(1) According to Article 2 of the Paris Agreement on German Reparations, Governmental and private claims against the former German Government and its Agencies arising out of the war, should be deemed to be covered by the share of reparations allotted to each claimant country, and the extent to which such claims in India could be settled will be considered only after the total value of reparations received from Germany is known.

(2) The settlement of Indian claims against Germany and its nationals arising out of contracts and other obligations entered into before the last war, will have to wait till the conclusion of a Peace Treaty with Germany.

(3) Indian claims against German firms in India which have been vested in the Custodian of Enemy Property will be considered at the time of the liquidation of these firms.

(b) Total number of private claims so far registered is 1348.

(c) Total value of such claims is Rs. 1,21,11,000.

#### DISBANDMENT OR WITHDRAWAL OF AZAD KASHMIR FORCES

\*123. **Shri R. K. Sidhva:** Will the Honourable the Prime Minister be pleased to state:

(a) whether the attention of Government has been drawn to a statement made by Sardar Mahomed Ibrahim Khan, President of the so-called Azad Kashmir Government on the 14th January, 1949 at Rawalpindi and which appeared in the newspapers of the 16th January, 1949 that his Government would continue to function and that his troops will not be disbanded or withdrawn from the occupied areas;

(b) whether it is a fact that the Pakistan Government have issued a communique from Lahore published in the papers of the 17th January, 1949, corroborating the above statement and holding that Azad Government forces will remain where they were before the cease fire;

(c) whether what is stated in the Pakistan communique is in accordance with the agreed formula of cease fire between all the parties concerned;

(d) if not, in what respect the Pakistan Government communique differs from the agreement arrived at; and

(e) whether Government propose to take any action in this matter?

The Honourable Shri Jawaharlal Nehru: (a) and (b). Government have seen press reports of the statement and of the communique referred to by the honourable member.

(c) and (d). I place on the table of the House a collection of documents which honourable members will find useful in understanding the U.N. Kashmir resolution of the 13th August, Parts I and II of which dealt with a cease-fire and a truce respectively, and the Commission's plebiscite proposals which were adopted in a resolution, dated 5th January. I would invite special attention, as regards the resolution of the 13th August, to my letter to the Chairman of the Commission, dated 20th August, 1948, and, as regards the plebiscite proposals, to the two *aides memoire* which summarise the conversations that I had with Dr. Lozano on the 20th and 22nd December. My letter of the 20th August and the two *aides memoire* alone set out the basis on which the Government of India have accepted the resolution and the plebiscite proposals respectively and the Commission is aware of this fact.

(e) The U.N. Commission is expected in New Delhi within the next few days and I hope to make a further statement on the Kashmir question to the House after I have met the Commission.

RESOLUTION ADOPTED BY THE UNITED NATIONS COMMISSION FOR INDIA AND PAKISTAN AT ITS FORTIETH MEETING ON FRIDAY, 13 AUGUST 1948, IN KARACHI.

#### THE UNITED NATIONS COMMISSION FOR INDIA AND PAKISTAN

Having given careful consideration to the points of view expressed by the Representatives of India and Pakistan regarding the situation in the State of Jammu and Kashmir, and

Being of the opinion that the prompt cessation of hostilities and the correction of conditions, the continuance of which is likely to endanger international peace and security are as essential to implementation of its endeavours to assist the Governments of India and Pakistan in effecting a final settlement of the situation,

Resolves to submit simultaneously to the Governments of India and Pakistan the following proposal:

#### PART I

##### Cease-fire order

A. The Governments of India and Pakistan agree that their respective High Commands will issue separately and simultaneously a cease-fire order to apply to all forces under their control in the State of Jammu and Kashmir as of the earliest practicable date or dates to be mutually agreed upon within four days after these proposals have been accepted by both Governments.

B. The High Commands of the Indian and Pakistan forces agree to refrain from taking any measures that might augment the military potential of the forces under their control in the State of Jammu and Kashmir.

(For the purpose of these proposals "forces under their control" shall be considered to include all forces, organised and unorganised fighting or participating in hostilities on their respective sides).

C. The Commanders-in-Chief of the Forces of India and Pakistan shall promptly confer regarding any necessary local changes in present disposition which may facilitate the cease-fire.

D. In its discretion and as the Commission may find practicable, the Commission will appoint military observers who under the authority of the Commission and with the co-operation of both Commands will supervise observance of the cease-fire order.

E. The Government of India and the Government of Pakistan agree to appeal to their respective peoples to assist in creating and maintaining an atmosphere favourable to the promotion of further negotiations.

#### PART II

##### Truce Agreement

Simultaneously with the acceptance of the proposal for the immediate cessation of hostilities as outlined in Part I, both Governments accept the following principles as a basis for the formulation of a truce agreement, the details of which shall be worked out in discussion between their Representatives and the Commission.

- A. 1. As the presence of troops of Pakistan in the territory of the State of Jammu and Kashmir constitutes a material change in the situation since it was represented by the Government of Pakistan before the Security Council, the Government of Pakistan agrees to withdraw its troops from that State.
2. The Government of Pakistan will use its best endeavours to secure the withdrawal from the State of Jammu and Kashmir of tribesmen and Pakistan nationals not normally resident therein who have entered the State for the purpose of fighting.
3. Pending a final solution, the territory evacuated by the Pakistan troops will be administered by the local authorities under the surveillance of the Commission.
- B. 1. When the Commission shall have notified the Government of India that the tribesmen and Pakistan nationals referred to in Part II A 2 hereof have withdrawn, thereby terminating the situation which was represented by the Government of India to the Security Council as having occasioned the presence of Indian forces in the State of Jammu and Kashmir, and further, that the Pakistan forces are being withdrawn from the State of Jammu and Kashmir, the Government of India agrees to begin to withdraw the bulk of their forces from that State in stages to be agreed upon with the Commission.
2. Pending the acceptance of the conditions for a final settlement of the situation in the State of Jammu and Kashmir, the Indian Government will maintain within the lines existing at the moment of the cease-fire those forces of its Army which in agreement with the Commission are considered necessary to assist local authorities in the observance of law and order. The Commission will have observers stationed where it deems necessary.
3. The Government of India will undertake to ensure that the Government of the State of Jammu and Kashmir will take all measures within their power to make it publicly known that peace, law and order will be safeguarded and that all human and political rights will be guaranteed.
- C. 1. Upon signature, the full text of the Truce Agreement or a communique containing the principles thereof as agreed upon between the two Governments and the Commission, will be made public.

#### PART III

The Government of India and the Government of Pakistan reaffirm their wish that the future status of the State of Jammu and Kashmir shall be determined in accordance with the will of the people and to that end, upon acceptance of the Truce Agreement both Governments agree to enter into consultations with the Commission to determine fair and equitable conditions whereby such free expression will be assured.

#### LETTER FROM THE PRIME MINISTER OF INDIA IN REPLY TO THE COMMISSION'S RESOLUTION OF 13 AUGUST 1948

New Delhi, 20th August 1948.

EXCELLENCY,

On the 17th of August, my colleague, the Minister without Portfolio, and I discussed with you and your colleagues of the Commission now in Delhi the resolution which you had presented to us on the 14th instant. On the 18th, I had another discussion with you, in the course of which I tried to explain to you the doubts and difficulties which members of my Government, and representatives of the Government of Kashmir whom we consulted, had felt as the result of a preliminary but careful examination of the Commission's proposals.

2. During the several conferences that we had with the Commission when it first came to Delhi, we placed before it what we considered the basic fact of the situation which had led to the conflict in Kashmir. This fact was the unwarranted aggression, at first indirect and subsequently direct, of the Pakistan Government on Indian Dominion territory in Kashmir. The Pakistan Government denied this although it was common knowledge. In recent months, very large forces of the Pakistan regular army have further entered Indian

Union territory in Kashmir and opposed the Indian Army which was sent there for the defence of the State. This, we understand now, is admitted by the Pakistan Government, and yet there has been at no time any intimation to the Government of India by the Pakistan Government of this invasion. Indeed, there has been a continual denial and the Pakistan Government have evaded answering repeated inquiries from the Government of India.

In accordance with the resolution of the Security Council of the United Nations adopted on the 17th January, 1948, the Pakistan Government should have informed the Council immediately of any material change in the situation while the matter continued to be under the consideration of the Council. The invasion of the State by large forces of the regular Pakistan Army was a very material change in the situation, and yet no information of this was given, so far as we know, to the Security Council.

The Commission will appreciate that this conduct of the Pakistan Government is not only opposed to all moral codes as well as international law and usage, but has also created a very grave situation. It is only the earnest desire of my Government to avoid any extension of the field of conflict and to restore peace, that has led us to refrain from taking any action to meet the new situation that was created by this further intrusion of Pakistan armies into Jammu and Kashmir State. The presence of the Commission in India has naturally led us to hope that any arrangement sponsored by it would deal effectively with the present situation and prevent any recurrence of aggression.

3. Since our meeting of the 18th August, we have given the Commission's resolution our most earnest thought. There are many parts of it, which we should have preferred to be otherwise and more in keeping with the fundamental facts of the situation, especially the flagrant aggression of the Pakistan Government on Indian Union territory. We recognise, however, that if a successful effort is to be made to create satisfactory conditions for a solution of the Kashmir problem without further bloodshed, we should concentrate on certain essentials only at present and seek safeguards in regard to them. It was in this spirit that I placed the following considerations before Your Excellency:

- (1) That paragraph A. 3 of Part II of the resolution should not be interpreted, or applied in practice, so as,
  - (a) to bring into question the sovereignty of the Jammu and Kashmir Government over the portion of their territory evacuated by Pakistan troops.
  - (b) to afford any recognition of the so-called "Azad Kashmir Government", or
  - (c) to enable this territory to be consolidated in any way during the period of truce to the disadvantage of the State.

- (2) That from our point of view the effective insurance of the security of the State against external aggression, from which Kashmir has suffered so much during the last ten months, was of the most vital significance and no less important than the observance of internal law and order and that, therefore, the withdrawal of Indian troops and the strength of Indian forces maintained in Kashmir should be conditioned by this overriding factor. Thus at any time the strength of the Indian forces maintained in Kashmir should be sufficient to ensure security against any form of external aggression as well as internal disorder.

- (3) That as regards Part III, should it be decided to seek a solution of the future of the State by means of a plebiscite, Pakistan should have no part in the organisation and conduct of the plebiscite or in any other matter of internal administration in the State.

4. If I understood you correctly, A.3 of Part II of the resolution does not envisage the creation of any of the conditions to which we have objected in paragraph 3 (1) of this letter. In fact, you made it clear that the Commission was not competent to recognize the sovereignty of any authority over the evacuated areas other than that of the Jammu & Kashmir Government.

As regards paragraph 3 (2), the paramount need for security is recognised by the Commission, and the time when the withdrawal of Indian forces from the States is to begin, the stages in which it is to be carried out and the strength of Indian forces to be retained in the State, are matters for settlement between the Commission and the Government of India.

Finally, you agreed that Part III, as formulated, does not in any way recognise the right of Pakistan to have any part in a plebiscite.

5. In view of this clarification, my Government, animated by a sincere desire to promote the cause of peace and thus to uphold the principles and prestige of the United Nations, have decided to accept the resolution.

Accept, Excellency, the assurance of my highest consideration.

JAWAHARLAL NEHRU,  
Prime Minister, India.

REPLY FROM THE CHAIRMAN OF THE COMMISSION TO THE LETTER FROM THE PRIME MINISTER OF INDIA DATED 20 AUGUST, 1948

25 August, 1948.

EXCELLENCY,

I have the honour to acknowledge the receipt of your communication dated August 20, 1948, regarding the terms of the Resolution of the United Nations Commission for India and Pakistan which the Commission presented to you on the 14th of August 1948.

The Commission requests me to convey to Your Excellency its view that the interpretation of the Resolution as expressed in paragraph 4 of your letter coincides with its own interpretation, it being understood that as regards point (1) (c) the local people of the evacuated territory will have freedom of legitimate political activity. In this connection, the term "evacuated territory" refers to those territories in the State of Jammu and Kashmir which are at present under the effective control of the Pakistan High Command.

The Commission wishes me to express to Your Excellency its sincere satisfaction that the Government of India has accepted the Resolution and appreciates the spirit in which this decision has been taken.

I wish to avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

JOSEF KORBEL,  
Chairman.

LETTER FROM THE PRIME MINISTER OF INDIA TO THE CHAIRMAN OF THE COMMISSION

Ministry of External Affairs and  
Commonwealth Relations

New Delhi, 20th August 1948.

EXCELLENCY,

You will recall that in our interview with the Commission on the 17th August, I dealt at some length with the position of the sparsely populated and mountainous region of the Jammu and Kashmir State in the north. The authority of the Government of Jammu & Kashmir over this region as a whole has not been challenged or disturbed, except by roving bands of hostiles, or in some places like Sikardu which have been occupied by irregulars of Pakistan troops. The Commission's resolution, as you agreed in the course of our interview on the 18th, does not deal with the problem of administration or defence in this large area. We desire that, after Pakistan troops and irregulars have withdrawn from the territory, the responsibility for the administration of the evacuated areas should revert to the Government of Jammu & Kashmir and that for defence to us. (The only exception that we should be prepared to accept would be Gilgit.) We must be free to maintain garrisons at selected points in this area for the dual purpose of preventing the incursion of tribesmen, who obey no authority, and to guard the main trade routes from the State into Central Asia.

Accept, Excellency, the assurance of my highest consideration.

JAWAHARLAL NEHRU,  
Prime Minister, India.

LETTER FROM THE CHAIRMAN OF THE COMMISSION TO THE PRIME MINISTER OF INDIA IN REPLY TO HIS LETTER DATED 20 AUGUST 1948.

25 August, 1948.

EXCELLENCY,

I have the honour to acknowledge receipt of your letter of 20 August 1948 relating to the sparsely populated and mountainous region of the State of Jammu and Kashmir in the North.

The Commission wishes me to confirm that, due to the peculiar conditions of this area, it did not specifically deal with the military aspect of the problem in its Resolution of 13 August 1948. It believes, however, that the question raised in your letter could be considered in the implementation of the Resolution.

Accept, Excellency, the assurances of my highest consideration

JOSEF KORBEL,  
Chairman.

PROPOSALS PRESENTED BY THE COMMISSION TO THE REPRESENTATIVES  
OF THE GOVERNMENTS OF INDIA AND PAKISTAN IN PARIS ON 11TH  
DECEMBER, 1948.-

A. The Commission reaffirms its resolution of 13th August 1948.

B. The Governments of India and Pakistan simultaneously accept supplementary to this resolution the following principles:

1. The question of accession of the State of Jammu and Kashmir to India or Pakistan will be decided through the democratic method of a free and impartial plebiscite.
2. A plebiscite will be held when it shall be found by the Commission that the cease-fire and truce arrangements set forth in Parts I and II of the Commission's resolution of 13th August 1948 have been carried out and arrangements for the plebiscite have been completed.
3. (a) The Secretary-General of the United Nations will, in agreement with the Commission, nominate a plebiscite Administrator who shall be a personality of high international standing and commanding general confidence. He will be formally appointed to office by the Government of Jammu and Kashmir.
- (b) The Plebiscite Administrator shall derive from the State of Jammu and Kashmir the powers he considers necessary for organising and conducting the plebiscite and for ensuring the freedom and impartiality of the plebiscite.
- (c) The Plebiscite Administrator shall have authority to appoint such staff of assistants and observers as he may require.
4. (a) After implementation of Parts I and II of the Commission's resolution of 13th August 1948, and when the Commission is satisfied that peaceful conditions have been restored in the State, the Commission and the Plebiscite Administrator will determine, in consultation with the Government of India, the final disposal of Indian and State armed forces, such disposal to be with due regard to the security of the State and the freedom of the plebiscite.
- (b) As regards the territory referred to in A. 2 of Part II of the resolution of 13th August, final disposal of the armed forces in that territory will be determined by the Commission and the Plebiscite Administrator in consultation with the local authorities.
5. All civil and military authorities within the State and the principal political elements of the State will be required to co-operate with the Plebiscite Administrator in the preparation for and the holding of the plebiscite.
6. (a) All citizens of the State who have left it on account of the disturbances will be invited and be free to return and to exercise all their rights as such citizens. For the purpose of facilitating repatriation there shall be appointed two Commissions, one composed of nominees of India and the other of nominees of Pakistan. The Commissions shall operate under the direction of the Plebiscite Administrator. The Governments of India and Pakistan and all authorities within the State of Jammu and Kashmir will collaborate with the Plebiscite Administrator in putting this provision into effect.
- (b) All persons (other than citizens of the State) who on or since 15th August 1947 have entered it for other than lawful purpose, shall be required to leave the State.
7. All authorities within the State of Jammu and Kashmir will undertake to ensure, in collaboration with the Plebiscite Administrator, that:
  - (a) There is no threat, coercion or intimidation, bribery or other undue influence on the voters in the plebiscite;
  - (b) No restrictions are placed on legitimate political activity throughout the State. All subjects of the State, regardless of creed, caste or party, shall be safe and free in expressing their views and in voting on the question of the accession of the State to India or Pakistan. There shall be freedom of travel in the State, including freedom of lawful entry and exist;
  - (c) All political prisoners are released;
  - (d) Minorities in all parts of the State are accorded adequate protection; and
  - (e) There is no victimization.
8. The Plebiscite Administrator may refer to the United Nations Commission for India and Pakistan problems on which he may require assistance, and the Commission may in its discretion call upon the Plebiscite Administrator to carry out on its behalf any of the responsibilities with which it has been entrusted.

9. At the conclusion of the plebiscite, the Plebiscite Administrator shall report the result thereof to the Commission and to the Government of Jammu and Kashmir. The Commission shall then certify to the Security Council whether the plebiscite has or has not been free and impartial.

10. Upon the signature of the truce agreement the details of the foregoing proposals will be elaborated in the consultations envisaged in Part III of the Commission's resolution of 13th August 1948. The Plebiscite Administrator will be fully associated in these consultations.

C. Part I and Part II of the Commission's resolution of 13th August 1948 will be put into effect without delay.

AIDES MEMOIRES RECORDING THE SUBSTANCE OF DISCUSSIONS BETWEEN  
THE REPRESENTATIVE OF THE COMMISSION, H. E. DR. A. LOZANO, AND  
THE PRIME MINISTER OF INDIA ON 20TH AND 22ND DECEMBER, 1949.

*Aide Memoire No. 1.*

His Excellency Dr. Lozano, accompanied by his alternate, Mr. Samper, and His Excellency Mr. Colban, Personal Representative of the Secretary General of the United Nations, met the Prime Minister yesterday. The Hon'ble Shri Gopalaswami Ayyangar and Sri G. S. Bajpai were also present. The discussions of the Commission's plebiscite proposals fell into two parts (1) General, (2) Particular in reference to individual clauses.

2. The Prime Minister drew attention to Pakistan's repeated acts of aggression against India. In spite of the presence of Pakistan troops in Jammu and Kashmir, which is Indian territory now, and the offensive action of Pakistan troops, the Government of India had accepted the Commission's Resolution of the 13th August. Pakistan had not accepted that Resolution. In paragraph 143 of its report the Commission has referred to its conference with the Prime Minister on the conditions attached by the Government of Pakistan to its acceptance of the Resolution of the 13th August. As stated in paragraph 144 of the report, the Prime Minister had informed the Commission that he stood on his original promises that the Pakistan forces must be withdrawn from the State before the Government of India could consider any further steps. This had specific reference to an amplification of Part III of the Resolution of 13th August. Nevertheless, the Government of India had agreed to informal conversations in Paris which had resulted in the formulation of the proposals now put forward by the Commission. The Government of India naturally wondered how far this process of rejection of proposals put forward by the Commission by Pakistan and the adoption of a responsive attitude on the part of the Government of India towards the Commission's proposals could continue. The Commission must realise that there were limits to the forbearance and spirit of conciliation of the Government of India. The Prime Minister emphasised (1) that, if the Government of India were to accept the Commission's plebiscite proposals, no action could be taken in regard to them until Parts I and II of the Commission's Resolution of the 13th August had been fully implemented; (2) that in the event of Pakistan not accepting these proposals, or having accepted them, not implementing Parts I and II of the Resolution of 13th August, the Government of India's acceptance of them should not be regarded as in any way binding upon them; (3) Part III of the Commission's Resolution of 13th August provided "that the future status of the State of Jammu and Kashmir shall be determined in accordance with the will of the people and to that end, upon acceptance of the truce agreement, both Governments agree to enter into consultations with the Commission to determine fair and equitable conditions whereby such free expression will be assured". The present proposals appeared to limit the method of ascertaining the will of the people regarding the future status of the State of Jammu and Kashmir to a plebiscite. While the Government of India adhered to their position in regard to a plebiscite, they had pointed out that, in view of the difficulties of holding a plebiscite in present conditions in Kashmir, other methods of ascertaining the wish of the people should also be explored. The Commission had itself recognised the difficulties of carrying out a plebiscite in Kashmir. The Government of India feel that the exploration of other methods should not be ruled out.

3. As regards (1). Dr. Lozano enquired whether there would be objection to the appointment of a Plebiscite Administrator until Parts I and II of the Resolution of 13th August had been implemented. Both he and Mr. Colban thought that the Plebiscite Administrator could do useful exploratory work even before arrangements for holding a plebiscite could be taken in hand. The Prime Minister pointed out that it was always open to the Commission to employ advisers or experts for work within its terms of reference. The Government of India, however, would regard the appointment of a Plebiscite Administrator, as such, premature until Parts I and II of the Resolution of 13th August had been implemented. Dr. Lozano accepted (2). As regards (3), he said that the Commission wished the possibility of a plebiscite to be explored first. Should the Plebiscite

Administrator, however, find a plebiscite to be impracticable, the way would be open to consider other methods for ensuring a free expression by the people of Jammu and Kashmir of their wish regarding the future status of the State.

B. 1. Preamble. The phrase "The Governments of India and Pakistan simultaneously accept" is incorrect in that either Government may not accept the principles supplementary to the Resolution of 13th August. Even if both Governments accept them, the acceptance cannot be simultaneous. The wording should be changed accordingly.

B. 3(b). The question was raised whether the form of words employed was intended to give to the Plebiscite Administrator powers of interference in the administration of the State, e.g., by "direction and supervision of the State Forces and Police", mentioned in paragraph B.8 of the Security Council's Resolution of the 21st April 1948. Dr. Lozano said that this was not the intention of the Commission and that the words quoted above had been deliberately omitted. The Prime Minister pointed out that all that the Plebiscite Administrator could in reason expect was that, for the purpose of organising and conducting the plebiscite and ensuring its freedom and impartiality, the Government of Jammu and Kashmir should give him such assistance as he might require. Dr. Lozano said that a Plebiscite Administrator of international standing and commanding general confidence who would be appointed after consultation with the Government of India could be expected to act reasonably and that the Commission did not intend that he should usurp the functions of the State Government in the field of normal administration and law and order. His functions and powers would be limited to ensuring that the plebiscite was free and impartial.

B. 4(b). The Prime Minister drew attention to the fact that the Azad Kashmir forces which had been armed and equipped by Pakistan and were under the operational command of the Pakistan army ran into tens of thousands. Their presence in the territories referred to in A.3 of Part II of the Resolution of the 13th August even after demobilisation, would be a constant threat to the territory under the control of Indian and State forces, a deterrent to the return of many refugees, and an obstacle to the free expression of opinion regarding the future status of the State by those who might be opposed to the accession of the State to Pakistan. Dr. Lozano pointed out that it was the Commission's intention that there should be large scale disarming of these forces, though it would not be possible to require withdrawal from these territories, of genuine inhabitants of these areas.

B. 6(a). Dr. Lozano agreed that it was not the Commission's intention that the Pakistan Commission should operate outside Pakistan. Thus, the Pakistan Commission would not operate in the territory referred to in A.3 of Part II of the Resolution of 13th August. The Prime Minister then raised the question of the "free return" to the State of all citizens who had left it on account of the disturbances. He said that the tendency of Pakistan would be to push as many people as possible into Jammu and Kashmir. If the plebiscite was to be limited, as it should be, to genuine citizens of the State, the entry of persons claiming to be citizens into the State will have to be most carefully checked. How was this to be achieved? Mr. Lozano said that the Commission fully realised the necessity of an accurate and effective check but had not gone into details. Possibly those returning to the State could be stopped and examined at the frontier. The Prime Minister pointed out that, considering the length of the frontier and the ease with which people could slip across the border over mountain tracks, a check on the frontier would be neither easy nor effective, except by the deployment of large forces.

Apart from the problem of entry, there is the even more important problem of the rehabilitation and protection of those who have left the State on account of recent disturbances. Homes have been destroyed; property has been lost; there has been wholesale dispossession of persons from the land that they used to cultivate. It is not enough to 'invite' these persons to return to the State. They have to be given full security and to be housed, fed and put in a position to maintain themselves. It may be necessary to lodge these returning citizens of the State, temporarily in camps for distribution to their homes. They could not, however be expected to remain in relief camps for long or to take part in a plebiscite from such camps. The administrative and economic implications of this task were at once significant and onerous. They must receive full attention.

B. 6(b). It is assumed that the Government of Jammu and Kashmir will decide whether or not a person entered the State for a lawful purpose.

B. 7(b). India is a secular State; the United Nations also are a secular organisation. Pakistan aims at being a theocratic State. An appeal to religious fanaticism could not be regarded as legitimate political activity. Dr. Lozano agreed that any political activity which might tend to disturb law and order could not be regarded as legitimate. The same test would apply to freedom of press and of speech.

As regards the freedom of lawful entry and exit this must obviously be governed by B.6 of the proposals. It is assumed that in the territory under their control entry and exit will be regulated by rules framed for the purpose by the Government of Jammu and

Kashmir with due regard to the security of the State and the maintenance of law and order. Dr. Lozano said that a system of permits would probably be necessary.

B. 7(c). Persons guilty of ordinary offences against the law will not be regarded as political prisoners.

5. In all their negotiations the Government of India have emphasized the paramount need of ensuring the security of the State. The Commission recognised this in their Resolution of the 13th August; they have also provided in 4(a) of the Plebiscite proposals that measures with regard to the final disposal of Indian and State forces will be taken with due regard to the security of the State. The Government of India wish to emphasise the supreme importance which they attach to adequate provision for the security of the State in all contingencies.

#### *Aide Memoire II.*

His Excellency Dr. Lozano and His Excellency Mr. Colban met the Prime Minister at 11 A.M. The Hon'ble Shri N. Gopalaswami Ayyangar, Sri Girja Shanker Bajpai and Mr. Pai were also present.

2. Dr. Lozano said that the *aide memoire* of the conference which took place on Monday, the 20th December, was a correct account of the proceedings. He suggested, however, that the phrase "large scale disarming" of the Azad Kashmir forces used in the portion of the *aide memoire* dealing with B.4(b) of the Commission's plebiscite proposals did not, perhaps, represent the Commission's intention. What the Commission had in mind was the disbanding of these forces, disarming, it was assumed, would follow. The Prime Minister pointed out that disbandment was not the same thing as disarming. Pakistan had raised something like 35 battalions of 28,000 to 30,000 men who now formed part of the Azad Kashmir forces. The presence of such a large number of armed people, even if the regular formations were disbanded, would not be conducive, either to ensure the security of that part of Jammu and Kashmir which is under the control of Indian and State forces, or the security of those inhabitants of the territories referred in A.3 of Part II of the Resolution of 13th August who did not fully subscribe to or share the political views of pro-Pakistan elements. Moreover, the question of the re-entry into these territories of State citizens who had left it on account of the present conflict had to be kept in mind. With such a large number of members of the Azad Kashmir forces under arms, former inhabitants of these territories who held different political views would not dare to re-enter and, therefore, would be debarred from participation in a "free and impartial" plebiscite. In view of this explanation, Dr. Lozano agreed that the phrase "large scale disarming" should be regarded as correctly interpreting the Commission's intention.

3. Discussion then turned on B.10 of the proposals. Dr. Lozano, answering an enquiry of the Prime Minister, said that the Commission did not contemplate that the Plebiscite Administrator should undertake any administrative functions in regard to the plebiscite until Parts I and II of the Commission's Resolution of the 13th August 1948 had been implemented. Until such implementation, the conditions for the discharge of such functions would not exist. What the Commission had in mind was that discussions on details connected with the plebiscite might begin as soon as possible as this would create a good impression all round. Monsieur Colban supported this view on the ground that the announcement of a Plebiscite Administrator of high standing would have an excellent psychological effect. Monsieur Colban added that, of course, if difficulties arose in the implementation of Part II of the Resolution of the 13th August, the preliminary consultations regarding the functions of the Plebiscite Administrator and other detailed arrangements for the plebiscite would have to be deferred. The Prime Minister replied that, under the Commission's proposals, the Governments of India and Jammu and Kashmir assumed a great many responsibilities while Pakistan had to do practically nothing. The Governments of India and Jammu and Kashmir could not, in fairness, be expected to discharge any of their responsibilities regarding the plebiscite until there was satisfactory evidence that Pakistan was carrying out its obligations under Part II of the Resolution of 13th August. Moreover, once the present proposals had been accepted, the things left over for discussion with the Plebiscite Administrator would be (1) his functions and (2) detailed arrangements for carrying out a plebiscite. A consideration of (2) would clearly be impracticable until Parts I and II of the Resolution of 13th August had been implemented. Unless cease-fire was carried out and Pakistan forces, hostile tribesmen and Pakistan nationals who had entered the State for purposes of fighting had withdrawn, there could not be, in the territories referred to in A.3 of Part II of the Resolution of 13th August, any local authorities with whom plebiscite arrangements could be discussed. R.9, as at present worded, could be interpreted to mean that consultations with the Plebiscite Administrator should start immediately on the signature of the truce. This clearly was not feasible. Dr. Lozano and Monsieur Colban pointed out that, when the paragraph in question was drafted, all these considerations were not present to the mind of the Commission. The Commission, according to Dr. Lozano, had assumed that since the Prime Minister of India informed the Commission, two days after it had placed before him the conditions attached by the Government

of Pakistan to their acceptance of the Resolution of the 13th August, that he stood on his original premises that the Pakistan forces must be withdrawn from the State before the Government of India could consider any further steps, action in relation to B.9 would be feasible only after satisfactory progress had been made with the implementation of Part II of the Resolution of 13th August. He and Monsieur Colban agreed that the consultations envisaged in B.9 could take place only after the Commission was satisfied that satisfactory progress had been made with the implementation of Part II of the Resolution, that is after hostile tribesmen, Pakistan forces and Pakistan nationals who had entered Jammu and Kashmir for the purpose of fighting had withdrawn from State territory. Dr. Lozano said that this was the interpretation of B.9 which they would present to the Pakistan Government in Karachi.

4. Dr. Lozano stressed the importance of appointing the Plebiscite Administrator as soon as possible. In view of the preliminaries that had to be gone through, he thought that it might take some time before the Plebiscite Administrator was finally appointed. The Prime Minister pointed out that, if Pakistan accepted the present proposals and carried out its obligations under Part II of the Resolution of 13th August promptly, he saw no reason why the appointment should take much time. What he wished to emphasise was that there would be nothing which the Plebiscite Administrator could usefully do in India until progress had been made with the implementation of Part II of the Resolution as now explained by Dr. Lozano and Mr. Colban.

5. As regards alternative methods of ascertaining the wish of the people regarding the future status of Jammu and Kashmir, Dr. Lozano said that the statement in paragraph 3 of the *aide memoire* dated the 21st December, 1948 was substantially similar to his own record which reads "Dr. Lozano said that it would be up to the Plebiscite Administrator to report to the Security Council (through the Commission) if he found the plebiscite procedure to be impossible for technical or practical reasons. The Plebiscite Administrator and/or Commission could then recommend alternative solutions.

6. Concluding the discussion, the Prime Minister once again emphasised the need for security for displaced State nationals returning to the territory referred to in Part II A.3 of the Commission's Resolution of 13th August. Equally important would be the task of rehabilitation of refugees returning to this area as well as to the part of the State under the control of the Government of Jammu and Kashmir. Hundreds of thousands of persons were involved. Not only organisation and machinery but time and money would be needed to accomplish the formidable task of restoring these unhappy persons to what once was their home. Until this task was completed, the conditions for a free and impartial plebiscite would not exist. Dr. Lozano recognised the importance of this matter and pointed out that it will have to be carefully gone into when the consultations on the details of the present proposals take place.

EXTRACT FROM GOVERNMENT OF INDIA'S REPLY DATED 23RD DECEMBER, 1948, TO THE COMMISSION'S PLEBISCITE PROPOSALS

MINISTRY OF EXTERNAL AFFAIRS AND COMMONWEALTH RELATIONS,  
New Delhi, 23rd December, 1948.

Your Excellency,

I have already forwarded to you, authentic copies of two *Aides Memoire* embodying the substance of your discussions with the Prime Minister of India. On the basis of the explanation given by you of the Commission's Plebiscite proposals and the understanding arrived at in the course of the conversations between you and the Prime Minister, the Government of India, animated by a sincere desire for a peaceful settlement of the Kashmir dispute and by their willingness to assist the U. N. Commission in achieving this objective, have decided to accept the proposals.

Please accept the assurances of my highest consideration.

Yours sincerely,  
Sd. G. S. Bajpai,  
Secretary-General.

His Excellency Dr. Alfredo Lozano,  
United Nations Commission for India & Pakistan,  
Delhi.

RESOLUTION ADOPTED BY THE UNITED NATIONS COMMISSION FOR INDIA AND PAKISTAN AT ITS MEETING HELD IN NEW YORK, ON 5TH JANUARY, 1949

The United Nations Commission for India and Pakistan.

Having received from the Government of India and Pakistan in communications dated December 23 and December 25, 1948, respectively their acceptance of the following principles which are supplementary to the Commission's Resolution of August 13, 1948:-

- (1) The question of the accession of the State of Jammu and Kashmir to India or Pakistan will be decided through the democratic method of a free and impartial plebiscite.
- (2) A plebiscite will be held when it shall be found by the Commission that the cease-fire and truce arrangements set forth in Parts I and II of the Commission's Resolution of August 13, 1948, have been carried out and arrangements for the plebiscite have been completed.
- (3) (a) The Secretary-General of the United Nations will in agreement with the Commission nominate a Plebiscite Administrator who shall be a personality of high inter-national standing and commanding general confidence. He will be formally appointed to office by the Government of Jammu and Kashmir.
- (b) The Plebiscite Administrator shall derive from the State of Jammu and Kashmir the powers he considers necessary for organising and conducting the plebiscite and for ensuring the freedom and impartiality of the plebiscite.
- (c) The Plebiscite Administrator shall have authority to appoint such staff or assistants and observers as he may require.
- (4) (a) After implementation of Parts I and II of the Commission's Resolution of August 13, 1948, and when the Commission is satisfied that peaceful conditions have been restored in the State, the Commission and the Plebiscite Administrator will determine in consultation with the Government of India the final disposal of Indian and State Armed Forces, such disposal to be with due regard to the security of the State and the freedom of the plebiscite.
- (b) As regards the territory referred to in A(2) of Part II of the Resolution of August 13, 1948, final disposal of the Armed Forces in that territory will be determined by the Commission and the Plebiscite Administrator in consultation with the local authorities.
- (5) All civil and military authorities within the State and the principal political elements of the State will be required to co-operate with the Plebiscite Administrator in the preparation for and the holding of the plebiscite.
- (6) (a) All citizens of the State who have left it on account of the disturbances will be invited and be free to return and to exercise all their rights as such citizens. For the purpose of facilitating repatriation there shall be appointed two Commissions, one composed of nominees of India and the other of nominees of Pakistan. The Commissions shall operate under the direction of the Plebiscite Administrator. The Governments of India and Pakistan and all authorities within the State of Jammu and Kashmir will collaborate with the Plebiscite Administrator in putting this provision into effect.
- (b) All persons (other than citizens of the State) who on or since August 15, 1947, have entered it for other than lawful purpose shall be required to leave the State.
- (7) All authorities within the State of Jammu and Kashmir will undertake to ensure in collaboration with the Plebiscite Administrator that
  - (a) there is no threat, coercion or intimidation, bribery or other undue influence on the voters in the plebiscite;
  - (b) no restrictions are placed on legitimate political activity throughout the State. All subjects of the State regardless of creed, caste or party shall be safe and free in expressing their views and in voting on the question of the accession of the State to India or Pakistan. There shall be freedom of the Press, speech and assembly and freedom of travel in the State, including freedom of lawful entry and exit;
  - (c) all political prisoners are released;
  - (d) minorities in all parts of the State are accorded adequate protection; and
  - (e) there is no victimization.

**Shri R. K. Sidhva:** May I know whether any shipment of rice has arrived this month from Burma?

**The Honourable Shri Jairamdas Doulatram:** I am not aware; possibly.

**Shri R. K. Sidhva:** May I know whether the new procurement policy has been fixed by the Government and if so what is it?

**The Honourable Shri Jairamdas Doulatram:** I do not quite follow what the Honourable Member means by new procurement policy. Procurement policy is fixed from year to year.

**Shri R. K. Sidhva:** Has it recently been fixed, or the policy of the last year continues?

**The Honourable Shri Jairamdas Doulatram:** The new policy is fixed every year. The rates at which local grain is procured is fixed from season to season. At the present moment, procurement prices for whatever crop is to arrive in the course of two or three months, will be fixed now. So also in the case of other grains in other seasons.

**Shri R. K. Sidhva:** What is the procurement which has been fixed?

**The Honourable Shri Jairamdas Doulatram:** I will be able to give the details to the honourable member later on. But, these are various prices at which procurement could be made, from province to province and from State to State.

**Shri R. K. Sidhva:** May I know what was the highest price of wheat and rice, under part (b) and in which town?

**The Honourable Shri Jairamdas Doulatram:** In the case of wheat, the highest price is about Rs. 28 in Patna. In the case of rice, the highest price I think is in Ajmer about Rs. 45.

**Shri R. K. Sidhva:** What was the price of wheat in Delhi in January and February?

**The Honourable Shri Jairamdas Doulatram:** I have not got the figures for January. The figures for October and November are available.

**Shri R. K. Sidhva:** May I know what was the price?

**The Honourable Shri Jairamdas Doulatram:** I will be able later on to supply to the honourable member the price for January.

**Shri H. V. Kamath:** Do the reports received by the honourable member go to show that wherever control has been re-imposed, there, black marketing has reappeared as an inevitable concomitant?

**The Honourable Shri Jairamdas Doulatram:** Yes; it has come to the notice of the Government.

**Shri H. V. Kamath:** Everywhere, wherever control is reimposed?

**The Honourable Shri Jairamdas Doulatram:** In most cases black market has appeared.

**Shri Mahavir Tyagi:** May I know who fixes the price of the grain procured from the peasants?

**The Honourable Shri Jairamdas Doulatram:** The provincial Government makes recommendations which the Central Government either accepts or modifies.

**Shri Mahavir Tyagi:** What are the considerations on which fixation of price is based?

**The Honourable Shri Jairamdas Doulatram:** The consideration is to try to fix a price which is fair both to the consumer and to the producer.

**Seth Govind Das:** Is it not a fact that the Central Provinces Government has written to the Central Government that they do not want any rationing and control? What is going to be their attitude as far as that province is concerned?

**The Honourable Shri Jairamdas Doulatram:** So far as the Central Provinces is concerned, there is a large number of fair price shops in many towns. The question of statutory control may create difficulties in the C. P. in regard to procurement for the rest of the country. We have allowed the C. P. Government for the time being to go on with the present method. We are considering the effect of that. If we find that it is going on satisfactorily, we may not interfere. If we find that there are defects, we may interfere.

**Shri R. K. Sidhva:** What was the lowest price of wheat and rice during the period?

**The Honourable Shri Jairamdas Doulatram:** With regard to the towns for which figures were required from October and November, the lowest price for wheat was in Bombay, Ahmedabad, and Madras; but these were rationed. It was Rs. 14 in Calcutta, Rs. 13 in Poona, Rs. 13 in Bombay, Rs. 18 in Ahmedabad and Rs. 17 in Madras.

**Shri R. K. Sidhva:** For rice?

**The Honourable Shri Jairamdas Doulatram:** Rs. 11/8/- in Bombay, Rs. 15 in Ahmedabad, Rs. 11 in Madras, Rs. 11 in Bezwada, Rs. 12 in Nellore, Rs. 13/8/- in Nagpur.

**Shri H. V. Kamath:** Is it not a fact, Sir,.....

**Mr. Speaker:** I am proceeding to the next question.

#### RESERVES OF FOOD GRAINS AND RECOMMENDATIONS OF FOOD GRAINS POLICY COMMITTEE

\*1373. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Food be pleased to state the total quantity of food grains reserved under the scheme adopted by Government during 1948 and 1949?

(b) Is this reserve maintained throughout or used during any emergency?

(c) Has any quantity of the reserve been utilised in the years 1947 and 1948?

(d) Has the Committee appointed by Government recommended that all hotels, hostels restaurants and messes catering for non-vegetarian food be stopped supply of rice?

(e) If so, what are the decisions of Government on this recommendation?

(f) What quantity of rice would be saved if such stoppage is put into operation?

**The Honourable Shri Jairamdas Doulatram:** (a) to (c). Seven lakh tons and 1½ lakh tons, respectively.

The reserve is meant for and used for an emergency.

In 1948 the reserve was mainly used to help Madras and Bombay Provinces.

(d) and (e). No. The Food grains Policy Committee, which met during the later part of 1947, recommended to the Provinces the suggestion that arrangements be instituted for ensuring that some part of cereal ration is surrendered by a consumer who buys meat, in proportion to the quantity of meat purchased by him. The Provinces and States were not in favour of the proposal as they considered the proposition administratively not practicable.

(f) It is not practicable to estimate the quantity which would be saved.

- (8) The Plebiscite Administrator may refer to the United Nations Commission for India and Pakistan problems on which he may require assistance and the Commission may in its discretion call upon the Plebiscite Administrator to carry out on its behalf any of the responsibilities with which it had been entrusted.
- (9) At the conclusion of the plebiscite the Plebiscite Administrator shall report the result thereof to the Commission and to the Government of Jammu and Kashmir. The Commission shall then certify to the Security Council whether the plebiscite has or has not been free and impartial.
- (10) Upon the signature of the truce agreement the details of the foregoing proposals will be elaborated in the consultations envisaged in part III of the Commission's Resolution of August 13, 1948. The Plebiscite Administrator will be fully associated in these consultations.

Commends the Governments of India and Pakistan for their prompt action in ordering a cease-fire to take effect from one minute before midnight of January 1, 1949 pursuant to the agreement arrived at as provided for by the Commission's Resolution of August 13, 1948 and

Resolves to return in the immediate future to the sub-continent to discharge the responsibilities imposed upon it by the Resolution of August 13, 1948 and by the foregoing principles.

## APPENDIX

(Vide answer to starred question No. 85)

*Agreement reached at the Inter-Dominion Conference held at New Delhi from 6th to 14th December, 1948*

Whereas the Governments of the two Dominions agree that mass exodus of minorities is not in the interest of either Dominion and they are determined to take every possible step to discourage such exodus and to create such conditions as would check mass exodus in either direction and would encourage and facilitate, as far as possible, return of evacuees to their ancestral homes, the two Dominions agree as follows:

### SECTION I

(1) The responsibility for protecting the lives and property of the minority communities and for ensuring that they receive justice and that their civic rights are fully safeguarded rests on the Government of the Dominion in which the minorities reside. The allegiance and loyalty of the minorities is to the State of which they are citizens and it is therefore their rights and duty to have their grievances redressed by the Government of their own State. Leaders in each Dominion should make public declarations to this effect at every suitable opportunity as part of the implementation of the provisions of the Agreement.

(2) (i) In Pakistan and in India every citizen shall have equal rights, opportunities, privileges and obligations; and there shall be no discrimination against the minorities whose cultural and religious rights shall be fully safeguarded.

*N.B.*—"Cultural" rights include "educational" rights.

(ii) Where direct recruitment is made otherwise than by open competition, minorities shall be given fair representation in the services.

3. Any propaganda for the amalgamation of Pakistan and India or of portions thereof including East Bengal on the one hand and West Bengal or Assam or Cooch Behar or Tripura on the other, shall be discouraged.

*N.B.*—The word "propaganda" shall be taken as including any organisation which might be set up for the purpose.

(4) (i) Both Governments recognise that the wholehearted co-operation of the Press is essential for creating a better atmosphere and therefore agree that every effort should be made, in consultation with the representatives of the Press, wherever possible, to ensure that the Press in each Dominion does not—

(a) indulge in propaganda against the other Dominion,

(b) publish exaggerated versions of news of a character likely to inflame, or cause fear or alarm to, the population or a section of the population in either Dominion,

(c) publish material likely to be construed as advocating a declaration of war by one Dominion against the other Dominion or suggesting the inevitability of war between the two Dominions.

(ii) An Inter-Dominion Information Consultative Committee should be set up to meet once in two months, or more frequently if necessary, alternately in Delhi and Karachi and keep under review the activities of—

- the press,
- books, pamphlets and publications,
- broadcasting, and
- films.

This Committee shall have an equal number of representatives from either Dominion consisting of one Minister from each Dominion, and not more than two Government officers and two representatives of the press of each Dominion. The subjects listed under (b), (c) and (d) shall be dealt with only by the official members of the Committee.

(iii) Both Governments shall ensure that their respective organisations handling public city, including publicity through the radio and the film, refrain from and control—

- propaganda against the other Dominion, and
- publication of exaggerated versions of news of a character likely to inflame, or cause fear or alarm to, the population, or any section of the population in either Dominion.

(5) Complaints from minorities in both the Dominions, that action is not taken on their reports against oppression or unfair treatment, should be promptly and fairly looked into and early remedial measures taken.

(6) Both in East Bengal and West Bengal there shall be set up before the 15th of February, 1949, a Provincial Minorities Board and, under the Provincial Board, District Minorities Boards for the express object of protecting the interests of the minorities, removing fear from their minds and inspiring confidence in them. These Boards shall ensure that the grievances of the minorities are promptly brought to the notice of the authorities and that they are satisfactorily and promptly dealt with.

It is suggested that the Provincial Minorities Board and the District Minorities Boards should each be composed of five members, three of whom at least should belong to the major minority community to be selected by the members of the Provincial Legislature belonging to the minority communities. The remaining two shall be persons of influence and shall be nominated by the Provincial Government. The District Magistrate shall be the Chairman of the District Minorities Board and a Minister to be nominated by the Provincial Government shall be the Chairman of the Provincial Board.

(7) The two Dominions and their Provincial Governments shall declare and make it widely known to their officers and other employees that any Government servant proved to have been guilty either of dereliction of duty in protecting the lives and properties of the members of the minority community or of directly or indirectly ill-treating the members of the minority community or showing prejudice against the minority community in the discharge of his duties, shall receive exemplary and deterrent punishment, and such punishment shall be given full publicity in each Dominion.

(8) Severe action shall be taken against any person or group of persons creating or attempting to create any apprehension or fear of insecurity or alarm in the minds of the minority communities.

(9) (i) The two Dominions shall take adequate steps—

- to remove complaints regarding discrimination in the grant of export and import licences and railway priorities to members of the minority community as such;
- to curb all tendencies towards an economic boycott of minorities or strangulation of their normal economic life.

(ii) The two Dominion Governments shall request their respective Provincial Governments to observe the same principles in their own sphere.

10. (1) The Governments of East Bengal and West Bengal will promote legislation providing for the setting up of Evacuee Property Management Boards in districts or areas from where a substantial exodus has taken place. These Boards will assume management of properties only on the definite request of their owners. Their functions will be of a managerial character and they will not have the power to alienate the property entrusted to them for management. These Boards shall be composed of members of the minority community.

*N.B.*—"Evacuee" shall be defined as a person who has left the Province in question on or after 1st June, 1947, and who declares his intention to return as soon as normal conditions are restored to the satisfaction of the two Governments.

(2) The two Chief Secretaries of East and West Bengal should meet at an early date to finalise the proposals for necessary legislation. The Governments of East and West Bengal will legislate by the 31st January 1949 for the setting up of an Evacuee Property Management Board in every district or area or their respective provinces referred to in sub-clause (1). These Boards should be set up as soon thereafter as possible.

## SECTION II

(1) In order to ensure the smooth working of this Agreement in so far as they are concerned, the Chief Secretaries of the two Provinces, viz., East Bengal and West Bengal, shall meet at least once a month. Whenever matters concerning Assam, Cooch Behar and Tripura are likely to be discussed, the Chief Secretary, West Bengal shall arrange for their representatives to be present.

The Premiers of the two Provinces of East Bengal and West Bengal, or their nominees, shall meet not less than once in two months for the same purpose.

(2) (i) Each Dominion should set up an organisation at the Centre to watch the implementing of the agreements reached and to bring up cases of breaches. It will be the responsibility of each Dominion to ensure that its Provincial Governments and acceding States carry out these agreements in so far as they are concerned. If a Province or a State for any reason considers that an agreement or any part of it should not be implemented, it should report the matter to its Dominion Government who should bring up the matter at the monthly Inter-Dominion meetings referred to in (ii) below.

(ii) All such cases of breaches or non-implementation or possible modifications arising out of the experience of the arrangements made should be discussed at monthly meetings to be held at the Dominion Minister level alternately at Delhi and Karachi.

(iii) Each Dominion should nominate a Minister who for the next few months would be responsible for this work and who will attend those meetings.

(iv) All outstanding matters and such new matters as may arise from day to day relating to East Punjab, East Punjab States, including Alwar and Bharatpur, on the one side, and West Pakistan including acceding States on the other, will also be brought up for discussion and settlement at these meetings.

(3) The question of migration of Muslims from East Bengal to Assam and the migration of Muslims who have been in Assam prior to Partition into East Bengal shall also be dealt with at the Inter-Dominion meetings at the Minister level provided in paragraph 2(ii) above.

(4) It is agreed that if any criminal proceedings have been started in any of the two provinces of East and West Bengal, by the Government of the Province against Government servants, of the other Province in respect of matters arising in course of execution of their duties, such proceedings should be withdrawn and the Government servants concerned, if taken into custody, should be released simultaneously in the two Provinces on a date not later than the 1st January 1949.

(5) In regard to migration to East Bengal from India and to West Bengal from Pakistan, the Government of each of the two Dominions and the Governments of the two Provinces of East Bengal and West Bengal should be implementing this Agreement and otherwise create as early as possible conditions which would remove fear from the infuse confidence into the minds of those citizens who have migrated to the other Dominion and should instruct the Deputy High Commissioner (located in East or West Bengal according as the migration has been from India to Pakistan or from Pakistan to India) to make it known amongst evacuees there and to render to them all possible assistance so as to enable them to return to their original homes, lands and occupations. The Government of the Province to which migration has taken place should give all facilities and assistance to the Deputy High Commissioner and to the evacuees.

## SECTION III

On receipt from Pakistan of relevant data relating to exodus on a large scale from areas in India other than West Bengal, Assam, Cooch Behar, Tripura, East Punjab, East Punjab States, Bharatpur and Alwar, another Inter-Dominion Conference should be called to consider action on the lines similar to those proposed above or on any other suitable lines in respect of—

- (a) protection and other safeguards for the property of refugees who have gone out from one Dominion to the other temporarily or otherwise; and
- (b) creation of conditions in any affected area which will reassure the minorities that their interests and rights are fully safeguarded and will prevent exodus or will induce evacuees to return to their homes.

N.B.—The above sections of the Agreement were drawn up in accordance with the recommendations of the Political Committee, a note on which is at Appendix 1.

## SECTION IV

## Economic Committee

The Conference considered the report of the Economic Committee which reviewed the agreements and made recommendations on certain other related matters. The Conference made certain modifications and these have been incorporated in the report which is at Appendices IV A, B and C.

## APPENDIX

The Committee was not able to reach any decision on the question of rebates of excise duties levied by India on exports to Pakistan. The Conference considered the points of view of the two Governments and agreed to defer the matter for further consideration.

It had been agreed by India to make available 750,000 lbs. of tobacco to Pakistan under the Karachi Agreement. It was represented by Pakistan that it would not be possible for it to lift this quantity as India wished to impose maximum duty. It was suggested that an *ad hoc* arrangement might be reached on this point and sufficient reduction may be allowed to enable Pakistan to import this quantity of tobacco. The Government of India agreed to consider this suggestion.

## SECTION V

## Boundary Disputes and Border Incidents

The report of the Committee for Boundary Disputes and Border Incidents between East Bengal and West Bengal, between East Bengal and Assam, and between East Punjab and West Punjab was considered by the Conference and approved with certain amendments which have been incorporated in the report at Appendix V.

## SECTION VI

## Evacuee Property

1. The recommendations of the Evacuee Property Committee and of the Steering Committee (Appendix VI) were discussed at the Conference, and it was agreed at the request of the Pakistan representatives who wished to have an opportunity for further consultation with their Government that the following points should be further discussed at an Inter-Dominion Conference at Minister level commencing on the 10th January 1949:

- (1) Extended areas as agreed to in para. 2 of the minutes of the Conference of July 22nd.
- (2) Further extension of areas as proposed in para. 4 of the minutes of the Conference of July 22nd.
- (3) Whether Pakistan agree that the settlement of agricultural property should be on a governmental level or consider that it should be as between individual evacuees (see para. 5 of the minutes of the Conference of July 22nd and part II of the draft agreement of March 22-25).
- (4) Setting up of a Joint Urban Assessment Board (*vide* para. 9 of the minutes of Inter-Dominion Conference of July 22nd and para. 4(2) of Part III of the draft agreement of March 22-25).
- (5) Whether Pakistan are prepared to agree to India's Proposal that: the settlement should be by unrestricted exchanges between individual evacuees in respect of all urban immovable property (*vide* last two sentences of para. 9 of minutes of Conference of July 22nd).

2. It was agreed further by the Conference that the following items will be included in the agenda of the next Inter-Dominion Conference to be held at Karachi on the 10th January 1949:

- (i) Consideration of trust property *vide* para. 14 of the Conference of July 22nd.
- (ii) Jagirs and Muafis *vide* page 11, para. D of record of discussion in Evacuee Property Committee of the Inter-Dominion Conference held on 6th/9th. December.

3. The Conference decided that para. 16 of the report of the Evacuee Property Committee should for purposes of convenience of reference be added as an annexure to the draft scheme of the Secretariat level conference of March 22-25 and to the minutes of the Inter-Dominion Conference of July 22nd.

4. Subject to the above, the Conference accepted the Committee's Report.

## SECTION VII

## Provincial Partition Matters

(Assam, Bengal and Punjab)

The Conference considered the report of the Committee on Provincial Partition matters (Appendix VII) and while approving its conclusions directed that the Provinces concerned should do everything possible to expedite the final settlements.

## SECTION VIII

## Stores

The Conference considered the report of the Stores Committee (Appendix VIII) and accepted it.

## SECTION IX

## Insurance

The Conference accepted, after consideration, the report of the Insurance Committee (Appendix IX).

## SECTION X

## Museums

The Conference considered the views of the members of the Museum Committee and directed that the two Dominions should proceed to implement points on which agreement was reached, leaving over points of disagreement for consideration at a subsequent meeting.

## REPORT OF THE POLITICAL COMMITTEE

## APPOINTED BY THE INTER DOMINION CONFERENCE

*Terms of reference.*—To review the progress so far made in implementing the political clauses of the Calcutta Agreement and in particular to examine the complaints made by each Dominion in respect of—

- (1) the press in the other Dominion;
- (2) treatment of minorities; and
- (3) the exodus of minorities from one Dominion to the other; and
  - (a) to suggest measures to ensure the implementation of the Calcutta Agreement and to recommend such other steps as may be necessary to ensure that such complaints do not arise in future; and
  - (b) to examine all causes (including economic causes, though these need be considered only in a general way in the Committee) which have the effect of worsening Inter-Dominion relations, or of causing the exodus of minorities on a considerable scale, and to make recommendations calculated to stem the exodus of minority communities, to encourage their return and generally to improve Inter-Dominion relations.

(2) The Committee met on the 8th, 9th, 10th and 11th December, 1948. It reviewed the clauses in Sections I, II and III of the Inter-Dominion Agreement reached in Calcutta in April last. It modified some of the clauses and made certain additions.

(3) The Committee considered the statement entitled "Draft Charter of Minority Rights (revised)", which was placed before it by the Leader of the Pakistan Delegation. On the question of preservation of the personal law of minorities, the Committee recorded the following statement:

"The Committee recognise that while each Dominion has the inherent right to legislate with regard to all its citizens, there is no intention on either side to interfere with the existing personal law of the minorities except in matters of vital national interest".

(4) In regard to the other paragraphs of the "Draft Charter" the Leader of the Indian Delegation explained that the provisions in some of the paragraphs have already been accepted by the Indian Constituent Assembly or in the Calcutta Agreement and the provisions in the other paragraphs are covered by clauses of the Draft Constitution which have not yet been considered by the Indian Constituent Assembly.

The Pakistan representatives said that on their part while the principles of the "Draft Charter" are generally acceptable to them, they could not bind the Constituent Assembly of Pakistan.

## Review of Calcutta Agreement

## PARAGRAPH 3(1) OF THE CALCUTTA AGREEMENT

| Decision taken at Calcutta                                                                                                                            | Review of present position                                                        | Fresh recommendations                                                                                                                                     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| (a) The Customs authorities of the two Dominions should together work out a common set of simple baggage rules applicable on both sides to passengers | Common set of baggage rules has been worked out and is in force since June, 1948. | (1) Subject to certain modifications now agreed upon, the rules should be published in both the Dominions on 20th December, 1948 for general information. |

## Decision taken at Calcutta      Review of present position      Fresh recommendations

travelling from one Dominion to the other.

- (b) The application of the baggage rules should be made with due consideration so as to avoid irksome restrictions and unnecessary harassment of passengers.

- (d) Personal searches should as a rule be avoided, and only carried out in cases where there is genuine suspicion of smuggling. In such cases, the search should only be conducted under the personal orders of the senior-most Customs official present and a record of all searches made should be maintained. Liaison Officers should be allowed facilities to ensure a fair application of the rules.

- (c) Passengers baggage should be checked only by duly authorised Customs staff and no one else.

- (g) Passengers should be shown every consideration and as far as possible suitable arrangements should be made to facilitate the easy movement of through-passengers without needless examination and harassment.

- (j) Once a passenger has passed the Customs frontier, no further search or examination of his luggage or person should be made.

Although instructions on the subject have been issued, the danger of smuggling of cloth has been responsible for far more detailed examination than would otherwise have been necessary.

There have been reports that these clauses have not always been observed.

- (2) Although restrictions exist at present on both sides regarding export of jewellery made wholly or mainly of gold, gold jewellery in use should be treated on the same lines as other jewellery and made eligible to the concession under the baggage rules.

- (1) Attention of all Customs Authorities of both Dominions should again be drawn to the supreme need of reducing the detailed examination of baggage or personal searches to the minimum necessary to check smuggling.

- (2) Where smuggling of cloth was found to have decreased the Customs Authorities should be instructed to reduce the intensity of their examination of baggage for this purpose.

- (1) It should again be pointed out to the Customs Authorities as well as the Provincial Government and the Military authorities of both dominions that examination of passengers' baggage including baggage in transit through either dominion is the function solely of authorised customs staff, and where transit takes place through authorised routes it should not be interfered with by any other authority.

- (2) The baggage rules will be amended to provide for the sealing of individual packages carried with the passengers so that such packages as well as those carried in the Guard's van might be exempt from examination en route.

- (3) A suitable procedure should be devised for sealing railway wagons and holds in steamers and flats as well as individual packages so that goods in transit might be exempt from examination en route.

| Decision taken at Calcutta                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Review of present position                                                                                                                                                                                                           | Fresh recommendations                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (e) The personal search of women passengers if at all made, should be carried out only by Women officers, as provided for by the Soa Customs Act.                                                                                                                                                                                                                                                                                                                                                                            | Necessary instructions have already been issued to the Customs Authorities of both Dominions.                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| (i) All authorised Customs Officers should carry suitable badges or other means of identification.                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| (f) Both Dominions should re-examine their Tariff Schedules and their import and Export Control Notifications to see what relaxations are possible with a view to minimise or render unnecessary any Customs formalities in regard to the personal effects of passengers.                                                                                                                                                                                                                                                    | The difficulties have been largely due to the check maintained over the smuggling of cloth as well as in respect of gold jewellery. As regards Tariff Schedules and control notifications see also clauses (b) and (c) of next para. | Recommendations against clauses (a), (b) and (d) of this para and clause (b) of the next para should improve matters.                                                                                                                                                                                                                                                                                                                                                                                                                 |
| (h) No person other than an authorised Govt. servants, e.g. a Police Officer duly authorised may hold up any person crossing the frontier on the ground that he is carrying or suspected to be carrying contraband goods or is smuggling. Such a person should be taken or directed to the nearest Customs post by such officer for examination and no examination of his luggage or person should be made by any one who does not belong to the Customs staff. All such authorised officers should wear distinctive badges. | There were still some complaints of persons being detained by individuals, officials or otherwise, not duly authorised.                                                                                                              | (1) Officers of police or other departments should be empowered to function under this paragraph only in respect of places and routes where land customs stations did not exist and customs staff were not available.<br>(2) Both Dominions should bring this arrangement to the notice of their Provincial Governments and other local authorities and all officers other than customs officers who were authorised for the purpose of preventing smuggling should wear suitable distinctive badges for purposes of identifications. |

## PARAGRAPH 3 (2) OF THE CALCUTTA AGREEMENT

- |                                                                                                                                                                                                     |                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>(a) As far as possible, the two Dominions should set up parallel Customs posts, as near to each other as possible so that for each Customs post in one Dominion there is an opposite number.</p> | <p>On the whole there are fewer Customs posts on the Pakistan side than on the Indian side in the Eastern Region.</p> | <p>(1) The two Collectors of Land Customs should meet within a fortnight and review the position, and make recommendations regarding the setting up of a number of parallel posts, where necessary. Decisions should be taken within a month thereafter and communicated to the other Dominion.<br/>2. Pakistan should particularly examine the feasibility of having Customs posts at Juri Manu and Belonia on the Tripura border.</p> |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| Decision taken at Calcutta.                                                                                                                                                                                                                                                                                                                                                                                                | Review of present position                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Fresh recommendations.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (b) Having regard to the economic considerations, both Dominions should try to reduce the number of commodities which when moving from one Dominion to the other shall be subject to an import or export duty. In fact only specified articles should be liable to duty and the rest should be free. This would obviate the absurd difficulties which have arisen in regard to perishables such as fish, fresh fruit, etc. | (b) The Pakistan representatives pointed out that the Government of Pakistan had in fact imposed import duties only on a short list of specified articles imported from India and the rest were free. The Government of India, however, had continued to apply their full customs tariff to Pakistan except in respect of a list of articles which had recently been specifically exempted. The action taken by India was not in accordance with the Calcutta recommendation and it was also not sufficient to fulfil the purpose of the recommendation made in clause 10 (f) of the Calcutta report that tariff schedules should be relaxed with a view to minimising or rendering unnecessary customs formalities in regard to personal effects of passengers. The Indian representatives stated that they were not prepared to adopt the system of taxing only specified items since they regarded the method adopted by them as being more logical and more simple in administration and were of opinion that substantially it fulfilled the Calcutta recommendation. They offered, however, to consider any suggestions which might be made by Pakistan regarding additional items produced or manufactured in that Dominion which they might wish to be added to the list of exemptions. | (1) India should exempt bamboos (about which there was some doubt) and articles of cottage industry of Pakistan made of mother of Pearl, corn bone or shell.<br>(2) India should consider exemption in respect of the following items of Pakistan manufacture:—<br>Ethedrine<br>Asphlat<br>Crude Pottasium Nitrates (Manures).<br>(3) Subject to further examination as they were protected items, both the Dominions should consider exempting indigenous cycle parts and accessories. (Items 75 (6), 75 (7) and 75 (8).<br>(4) Both Dominions should consider exempting from import duties all drug and medicines of indigenous origin in the other Dominion including the drugs and medicines containing spirit.<br>(5) The duties on tea, tobacco, betelnuts and handloom cloth which entail fiscal and administrative problems will be further considered.<br>(6) Commodities in respect of which either dominion removes the import duty at the request of the exporting Dominion should not ordinarily be subjected to any export duty or an increase in the existing export duty by the latter. If any new or additional export duty is imposed, the importing Dominion will be entitled to reconsider the action taken in respect of the import duty. |
| (c) A similar examination of the Export Trade Control Notification should be made by both Dominions. There is no import control between the two Dominions at the moment.                                                                                                                                                                                                                                                   | Exemptions have been given by both side. While list of items still subject to export control have been published on both sides, there seemed to be a great deal of misunderstanding regarding the actual state of affairs.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | A list of officers should be furnished by each Dominion to the other to whom all changes in respect of export and import controls affecting movement between the two Dominions should be communicated.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| (d) The Pakistan representatives claimed that if the Havana Charter is ratified, each Dominion will become entitled to "most favoured nation" treatment.                                                                                                                                                                                                                                                                   | Since the Calcutta Conference, this question had been raised by the Pakistan representative at the recent Geneva Session of the Contracting Parties to                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | No decision was reached.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| Decision taken at Calcutta                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Review of present position                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Fresh recommendations                                                                                                                                                                                                                                                                |

| <p>ment in respect of rebates of excise duties and urged that in the interests of Inter-Dominion trade such treatment should be authorised by both Dominions without further delay. The Indian representatives stated that the present practice is not, in fact, uniform and that this is due to certain practical difficulties and other circumstances. The Pakistan representatives expressed their willingness to co-operate in removing any practical difficulties and requested that a final decision on the claim already put forward officially should be reached within a month in order to enable them to settle their import policy. India promised to reach a decision at an early date.</p> | <p>the G.A.T.T. The Pakistan delegation referring to the interpretation given by the Chairman at the Geneva Session stated that Pakistan was entitled to claim a rebate of excise duty under the terms of the Most-Favoured-Nations' Treatment clause of the G. A. T. T. They further pointed out that the Government of India were in fact granting rebates of excise duties in respect of at least three excisable commodities exported from India to other countries (namely tea, tobacco and tyres) but were refusing to allow such rebates in respect of the same commodities exported to Pakistan. The Indian delegation stated that their Government had expressed their views in this question in their letter of 24th November, 1948, to the Finance Secretary Pakistan. They were unable to appreciate the linking up of an issue arising out of the rebates of internal taxes on articles of indigenous production with the Most-Favoured-Nations' Treatment as contemplated in the G. A. T. T. They were, however, prepared to consider a comprehensive settlement of outstanding trade and allied issues which could include the question of rebates also. The Pakistan Delegation considered that the question of rebate was a separate issue and should not be dependent on a general trade agreement.</p> |                                                                                                                                                                                                                                                                                      |
| <p>(e) Where any cultivator living in a border village of one Dominion has land in the border village in the other Dominion he should be permitted within a reasonable period after the harvest, to take across the border to his residence reasonable quantities of any controlled commodities produced by him for his domestic consumption with the minimum of restriction and formalities.</p>                                                                                                                                                                                                                                                                                                       | <p>As a result of an agreement reached at the Chief Secretaries' Conference between East Bengal and West Bengal, this recommendation is not being implemented. East Bengal took the view that the arrangement to suspend the operation of this clause applied only between East Bengal and West Bengal while Assam and Tripura argued that it applied equally to all the provinces and states bordering on East Bengal in terms of the minutes of the Chief Secretaries' Conference.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | <p>The decision taken at Calcutta still stands and should be implemented. There is no objection, however, to all the provinces and states which are concerned with the problem making a revised agreed recommendation to their respective Governments to modify the arrangement.</p> |

| Decision taken at Calcutta                                                                                                                                                                                              | Review of present position                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Fresh recommendations                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| TRANSIT.                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <p>(a) Each Dominion should take effective measures for the smooth implementation of transit facilities to the other Dominion in accordance with the provisions of International Agreements governing such transit.</p> | <p>Although for many commodities the procedure is working smoothly, difficulties have arisen mostly in the following types of cases:—</p> <ul style="list-style-type: none"> <li>(i) Movement of mineral oils through Karachi to India, and Calcutta to East Bengal.</li> <li>(ii) Movement of salt from Karachi to East Bengal through Calcutta.</li> <li>(iii) Movement of kerosene to Assam and through Chittagong to Tripura.</li> <li>(iv) Movement of timber, jute, tea and rice from one part of India to another through East Bengal.</li> <li>(v) Movement of rice from one part of East Bengal to another through West Bengal.</li> <li>(vi) Machinery, vehicles, foodstuffs and other civil stores moving from West Bengal to Assam.</li> </ul> <p>The difficulties were sometimes due to transport considerations, sometimes due to uncertainty or doubt regarding the transit procedure, sometimes due to the examination of the nature and origin of the commodity at points other than the Customs posts of entry and exit, and sometimes owing to action taken by persons other than authorised Customs officials.</p> | <ol style="list-style-type: none"> <li>1. The agreement regarding transit being one of the most vital clauses of the Calcutta Agreement there should be no obstruction or impediment placed on the movement of goods of any category whatsoever by either Dominion, each of which should further ensure that Provincial Governments or other local authorities do not interfere with such traffic in any way whatsoever.</li> <li>2. Questions relating to foreign exchange liability should not result in any physical hold-up of commodities moving in transit as the foreign exchange liability is clear under sub-para (b) of this item.</li> <li>3. There should be no inspection or check of the physical identity of goods going under transit except at the Customs points of entry, exit and transhipment and the only check enroute should be of the Customs papers relating to transit, no matter what the provincial or central laws regarding the internal movement of similar commodities may be.</li> <li>4. Each Dominion agrees that clear instructions to the above effect should be immediately issued to all Provincial and other authorities concerned.</li> </ol> |
| <p>(b) The foreign exchange earning or liability for any transit cargo moving in bond shall belong to the Dominion of origin or destination as the case may be and not to the Dominion of Transit.</p>                  | <p>Although the principle has been accepted there has been some delay in working out a detailed procedure with the result that difficulties and doubts have arisen in regard to individual commodities at certain times.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | <p>Agreed instructions covering the procedure for the adjustment of foreign exchange for all types of transit goods should be issued by the two Dominions within one month. No difficulties relating to foreign exchange should be allowed to hold up the movement of goods.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <p>(c) Transit cargo should in general be given the same transport priority as is accorded to similar cargo moving inter-provincially.</p>                                                                              | <p>There seem to be many difficulties and differences in regard to both the priority question as well as the general movement and turnaround of wagons going in transit.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | <ol style="list-style-type: none"> <li>1. The normal turnaround of wagons and the return of empties are technical problems which must be discussed and settled within a fortnight between the representatives of the rail way systems concerned.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

Decision taken at Calcutta      Review of present position      Fresh recommendations

2. The movement of 60 B. G. loaded wagons a day in transit between the other parts of India and Assam through Pakistan was agreed to and Pakistan would indicate, if necessary, the number of M. G. empties required by them to make this movement smooth and uninterrupted.
3. There should be no hold-up of traffic for any differences and difficulties relating to accounts.
4. The priority given to transit wagons at the point of origin should be observed throughout the journey in transit.
5. Hili (in Pakistan) which serves the Indian hinterland and Jalpaigiri in India are served by E. B. Railway. Rohanpur in Pakistan is served by—O. T. Railway. In such cases the railway system concerned must give the same priority to goods offered for booking as is being given on the same section for similar commodity offered for booking within the Dominion to which the serving Railway belongs.
6. The movement of raw jute from points in the Indian Union to Calcutta will be facilitated under the same priority as is accorded to it at the railway station of despatch in the Indian Union; where the railway station in question is in India but happens to be under the control of East Bengal Railway. Priority will be given by Pakistan to all movements for the Calcutta, Port and for movements to mills as is given by India to her own raw jute moving to the Port or to mills, when booked at a railway station in the Indian Union.

(d) The Customs expert of the two Dominions should get together to evolve a procedure for transit which should be as simple as possible and take into account the peculiar difficulties arising on account of geographical and transport considerations, e.g., the need of transshipment

An agreed procedure has been introduced and is on the whole working satisfactorily but occasional difficulties have arisen.

The collectors of land customs concerned should meet within a fortnight and satisfy themselves that the procedure is adequate to deal with all types of goods in transit.

Decision taken at Calcutta      Review of present position      Fresh recommendations

and the location of transport heads at points different from the Inter-Dominion boundary. The procedure already introduced by the two Dominions should be reviewed.

- (e) The production of a certificate from a Customs Officer of the Dominion from which the goods are being sent should ordinarily be taken as conclusive evidence of the origin of such commodities at the point of entry for transit and transit facilities shall not be denied on the ground that there is any suspicion that the goods might have originally come from the other Dominion.
- (f) In order to ensure the smooth working of the transit arrangements, the officers of each Dominion should receive suitable instructions to co-operate with the officers of the other Dominion to avoid disputes and difficulties.
- (g) Each Dominion should post liaison officers at important Customs outposts and important points en-route selected by agreement in the other Dominion so as to facilitate the removal of any difficulties that might crop up. These liaison officers should be persons specially selected for their capacity to smoothen difficulties. These liaison officers will also have other functions in connection with the removal of difficulties of travellers and movement of goods and baggage.
- (h) Where road or river transport is involved by itself or in combination with any other form of transport, arrangements should be made for transit facilities by establishing suitable out-agencies.
- A few cases where the customs certificates were not accepted were brought to notice.
- Specific instructions should be issued to all Provincial and Local authorities that certificates granted by the customs authorities of one Dominion should not be questioned by them.
- Instructions had been issued to officers of each Dominion but sometimes difficulties arose on account of the action taken by Provincial officers.
- Similar instructions should be issued to provincial officers as well who should be particularly told that goods going in transit are entirely under the supervision and check of Central Customs Officers, and Provincial officers should not interfere with these in any way.
- This clause has not so far been implemented.
- So far as East and West Bengal, Assam, Tripura and Cochin are concerned, this provision should be implemented within three months and liaison officers should be posted by then. These officers should be trained in Customs work before they take up their duties. India will again address the Jodhpur State regarding Pakistan's proposal to post a liaison officer on the frontier between Jodhpur and Sind. The East & West Punjab Governments should also be consulted on the question whether liaison officers should also be posted in their territories.
- It was reported that having regard to the volume of traffic Pakistan had not found it worthwhile establishing an out-agency at Agartala. It was urged that an out-agency was necessary to facilitate the movement of goods in transit by rail-cum-road to Tripura.
- It was agreed that an out-agency should be established at Agartala, and that if necessary, the Tripura State would contribute towards the cost of running the Agency. The position regarding other points should be reviewed by the E. B. Railway.

| Decision taken at Calcutta                                                                                                                                                                                                                                                                                             | Review of present position                                                                                                                                                                                                                                                                 | Fresh recommendations                                                                                                                                                                                                                                                                                                                       |

|                                                                                                                                                                                                                                                                                                                        | It was further suggested that more out-agencies were necessary on the Assam-East Bengal and Tripura-East Bengal borders.                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                             |
|                                                                                                                                                                                                                                                                                                                        | TRANSPORT                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                             |
| (a) To ensure that transport bottle-necks and congestion are avoided. Operational Committees consisting of representatives of the three railways in the Eastern region and the two railways in the Western region should be set up to deal with difficulties relating to rail transport.                               | An Inter-Dominion Railway Operational Committee is working on the Eastern Border.                                                                                                                                                                                                          | Committees should also be set up (i) for N. W. and E. P. Railways within 4 weeks, and (ii) for Jodhpur and N. W. Railways later. It is hoped that it will be possible to restore normal communications on these railways at a very early date.                                                                                              |
| (b) A Railway Operational Committee be established on an Inter-Dominion basis which could settle broad principles of Inter-Dominion rail transport.                                                                                                                                                                    | The first meeting of the Operational Committee on an Inter-Dominion basis was held on 6th September and the following days at New Delhi.                                                                                                                                                   | It is recommended that a Standing Committee at Secretary level should be set up to deal with questions of general railway working which do not come within the definition of Stores and Rolling stock, such as financial arrangements, payment of bills, inter-Dominion traffic and operation etc. The following composition is suggested:— |

| shall be given for a matter of three months in the application of the rules.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | which spare parts and replacements have been used in has repair has to be considered.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | certificate from the repairing firm with such other evidence as he may consider necessary if complete physical identification is found difficult. Where the cost of additional parts or material did not exceed 25% of the total repair bill the production of and export licence should not be insisted on. Pakistan agreed to issue similar instructions.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| (a) In order to ensure the avoidance of undue hardship resulting from the switch-over from the stands till to the new situation, the two Dominions will consider sympathetically applications for the issue of export licences for goods which were imported from overseas specially to meet orders placed by customers in the other Dominion. This is only for a short period of transition and will apply generally to shipments made and paid for before 31-12-1947. Commodities specifically ordered by dealers in one Dominion through the Ports of the other Dominion should be covered by the Standstill Agreement or the transit arrangements as the case may be and should not be denied to the persons who have ordered, paid or will pay for the goods. | It was reported that while some progress had been made there were still quite a number of outstanding cases on both sides. The main difficulty appeared to be that evidence to prove that the goods in question came within this recommendation was not always forthcoming. The second difficulty was that sometimes questions of internal requirement were taken into account before release. It was brought to notice that some firms with their headquarters in India have got their factories in Pakistan and they were experiencing difficulties in sending stores etc. to their factories from their headquarters. | <ol style="list-style-type: none"> <li>The administrative details of the implementation of this clause should be discussed between representatives of the two Governments so that a common set of instructions and a common procedure are evolved and made applicable on both sides.</li> <li>In examining cases falling within this clause the question whether the goods are required for consumption in the Dominion where they may be situated should not arise.</li> <li>Firms with their headquarters in India who wish to send stores which they would normally supply to their factories in Pakistan should be dealt with as follows:— <ol style="list-style-type: none"> <li>Stores in stock before partition should be allowed to go to the factories on the basis of the normal pre-partition distribution between the various factories owned by the firm.</li> <li>Stores falling under this clause of the Calcutta Agreement under review should be dealt with in accordance with the procedure described above.</li> <li>In respect of stores not falling under either of the above categories and in respect of fresh orders for stores, the matter should be considered on merits, the prime consideration being of foreign exchange.</li> </ol> </li> <li>An officer should proceed from Delhi to Karachi to discuss and finalise the details regarding the release of</li> </ol> |

| Decision taken at Calcutta                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Review of present position                                                                                                                                                                                                                                                                                            | Fresh recommendations                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| (b) In view of the recent conclusions at Havana to extend transit procedure to vehicles assembled in bond in the country of transit, India will extend transit facilities for motor vehicles specifically assembled in bond in India for Pakistan subject to the foreign exchange being the liability of Pakistan. In this connection Pakistan requested that until transit arrangements become effective, a number of assembled cars considered fair by India should be allowed for re-export to Pakistan. This was accepted subject to the liability for foreign exchange being examined further. | Detailed procedure in regard to assembly of cars in transit has since been worked out and is likely to be finalised in a matter of days. Pending the arrival of parts for assembly under this scheme Pakistan requested that some supplies should be made out of the existing imports in India on payment of dollars. | India agreed to an immediate export of 15 Chevrolet cars and to a monthly export of 10 American cars assembled in India in bond on payment of dollars equivalent to the current import price of the cars for assembly. The arrangement will extend for a period of 6 months, or until the parts for assembly in transit begin to arrive whichever is earlier. The supply of cars will be spread over equally between the Assembly Plants other than Ford. |

## ITEM (2) OF THE AGENDA

The Committee recommended that the restrictions, whether imposed by a Central or Provincial Government on the movement between the two Dominions on commodities such as fresh fruit, vegetables, fresh milk and its products, fish (fresh and dried), poultry and eggs, local spices, bamboo and firewood and any customs duties thereon must be removed.

That the India Government agreed to discuss the supply of mustard oil to East Bengal to be decided at a meeting to be arranged within the next three weeks. Until then the Pakistan Government shall continue to allow the free movement of fish without any duty.

1. Although working smoothly on the whole, there were some difficulties arising out of difference in interpretation as well as on account of administrative considerations on both sides.
2. When the officers' committee report at Calcutta was approved at the ministerial level, fish (fresh and dried) had been excluded from para. 1 of the extract as India could not make any commitment regarding duty-free supply of mustard oil. Since then India had agreed to permit the export of a specified quantity of mustard oil but not to the removal of export duty thereon.
3. Free movement as at present interpreted by India applies to movements other than those by sea Pakistan's view was that free movement should be allowed by sea too as certain fresh fruits from Bombay and onions from Kathiawar States move to Karachi by sea only.
4. Onions, garlic, potatoes and chillies are at present not included in the category of free moving vegetables.

1. Free movement means that no export or import licences whatever should be required and not that there should be licensing without any quantitative restrictions.
2. India should review again the position regarding the export duty on mustard oil and give an immediate answer. If India imposes duties on foodstuffs and/or could not agree to the removal of the export duty on mustard oil, Pakistan stated that she would be free to impose export duties on fish (fresh and dried), fresh fruits, vegetables, fresh milk and its products, poultry and eggs, local spices, bamboos and firewood, exported to India. The movement of fish (fresh and dried) should be continued in either event, without export restrictions.
3. Ministry of Food, India will examine allowing free movement by sea along with the matter referred to in para. 4 below and communicate their decision to Ministry of Food, Pakistan, by 1st January 1949.
4. Ministry of Food, India, will examine the matter further and communicate their

| Decision taken at Calcutta | Review of present position                                                                                                                                                                                                              | Fresh recommendations                                                                                                                                                                                                                                                                         |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                            | Pakistan suggested their inclusion in this category.                                                                                                                                                                                    | decision to Ministry of Food, Pakistan, by 1st January 1949. Pending this review <i>status quo</i> will be maintained and no new restrictions will be imposed by either Dominion.                                                                                                             |
|                            | 5. Preserved butter, powdered, condensed and tinned milk and ghi do not at present fall in the category of free moving milk products. It was suggested that indigenous tinned milk and tinned butter may be allowed to be moved freely. | 5. The matter will be examined further by the Food Ministries of the two Dominions. Meanwhile to enable the condensed milk factory which is situated partly in East Bengal and partly in West Bengal to function normally, India and Pakistan will allow freedom of movement to its products. |

## ADDITIONAL MATTERS

The general position appeared on review to be reasonably satisfactory. The following recommendations are made:—

(a) Each Dominion should separately examine the feasibility and practicability of a Customs Union, as the study might be of use at a later date when the question might be taken up in earnest by both the Dominions.

(b) The pre-partition arrangement regarding the through booking of fish and other commodities by river-cum-rail seemed to have broken down and should be revived in the interests of both the Dominions. The Pakistan railway authorities should immediately take up the matter with the steamer companies concerned.

(c) The movement of partition stores when duly authorised by the appropriate authorities was sometimes being held up owing to lack of understanding of the instructions or non-compliance with the prescribed formalities. Fresh and clear instructions should be issued on both sides.

(d) Difficulties in railway accounts relating to cross-traffic sometimes resulted in the hold-up of wagons. The hold-up of wagons must be avoided at all costs. An agreed procedure should be evolved between the two railways to avoid a recurrence of difficulties in regard to accounts. Where instructions were issued by one railway system which affected another railway system or the movement of wagons coming from another railway system, there should be prior consultation between the two railway systems concerned. Arrangements should also be made to report the matters to the respective headquarters so that the over-all position might be kept under constant review by both sides.

(e) Whenever local officers of any provincial government felt it necessary to take any action affecting the movement of goods to another Dominion without prior orders, general or specific, of their government, they should immediately report the facts to their Chief Secretary.

## APPENDIX II

## REVIEW OF KARACHI AGREEMENTS

## REVIEW OF THE TWO AGREEMENTS AT KARACHI REGARDING THE SUPPLY OF ESSENTIAL COMMODITIES FROM ONE DOMINION TO THE OTHER

The Agreement signed at Karachi in May 1948 had been reviewed at another conference in October 1948. The developments since then were further reviewed. The position in regard to the various commodities and the conclusions reached in respect of them are summarised below:—

*India's exports to Pakistan*

(1) *Coal*.—The latest available figures showed a distinct improvement on the earlier ones and India agreed to do everything possible to see that the full quantity of coal as agreed to at Karachi was supplied each month. India also agreed to consider supplying a large proportion of the total quantity by rail.

Pakistan complained that no supplies of hard coke had been received. This had been due to a serious fall in Indian production and it was pointed out that even the original agreement was not a firm one in respect of hard coke supplies.

It was agreed that Pakistan would supply to India a list of its essential requirements of metallurgical hard coke in order of priority and India would try to meet these requirements as far as possible. The Indian delegation further stated that an improvement was expected by the end of January when it would be possible to make larger supplies to Pakistan.

(2) *Cloth and yarn*.—Arrangements had only recently been finalised by a conference between the two Dominions held at Bombay.

(3) *Steel, pig iron and scrap*.—India explained that there were no supplies in the first few months of the agreement as it took about five months for supplies to become available after orders had been placed.

India hoped to step up deliveries with a view to supply the entire quantity of steel agreed to at Karachi during the period of the agreement. If any appreciable portion remained undelivered, India would extend the time-limit.

(4) *Paper and board*.—Monthly allocations on the various mills were made by the I. & S. Ministry and export licences were issued accordingly. Pakistan asked that the licences should not lapse at the end of each month. It was explained that export licences were normally valid for a period of three months and a similar validity would be given to the paper and board licences; if any licences had expired owing to a shorter time-limit having been given, they would be extended.

(5) *Chemicals and pharmaceuticals*.—The sulphates did not need any export licences and there was no hold-up on the Indian side in the normal free movement of sulphates to Pakistan. The quantities of acids that have so far been licensed were communicated to the Pakistan Delegation who intimated that some orders for acids had been placed by the Pakistan Government on Bombay and Calcutta firms. The Pakistan Delegation would communicate particulars to the Indian Chief Controller of Exports to enable him to issue export licence to them within the quota if they are eligible.

(6) *Asbestos cement sheets*.—No applications had been received for exports when applications had been invited from manufacturers. A licence for 200 tons had been given so far to Asbestos Cement Ltd. It was agreed that licences at the rate of 500 tons a month should be given to the same firm who were the only manufacturers, so that the full quota could be supplied within the period of the agreement.

(7) *Paints and varnishes*.—Many varieties are decontrolled. It was agreed that licences should issue for half the agreed quantity of paints, enamels and varnishes to be supplied by India in respect of the controlled categories containing lead and Zinc. Licences for the remaining half would be in the de-controlled varieties. The Pakistan Delegation would communicate particulars to the Indian Chief Controller of Exports to enable him to issue licences to eligible parties within the quota.

(8) *Leather and footwear and myrobalams*, were decontrolled items.

(9) *Jute manufactures* were allowed to go to Pakistan without export licence being necessary.

(10) *Woollen and worsted goods*.—Practically the whole quantity had been licensed already.

(11) *Groundnut oil*.—Licences have been issued for a portion, but movement has been slow.

(12) *Mustard Oil*.—The quantity licensed was satisfactory but there was complaint regarding actual movement. The Indian figure of actual movement was very much higher than the one of which Pakistan appeared to be aware. To expedite supplies it was decided that all licenceholders should be told by the Government of India that unless they moved the oil within the time for which the licence was valid, the licence would be given to other parties and they would be permanently debarred from getting any licences in the future. It was further agreed that particulars of licences issued and quantities moved would be supplied regularly to the Pakistan authorities.

(13) *Tyres and tubes*.—Approximately half the quantity had been licensed for export by India and it was agreed that the full quantity should be immediately licensed.

(14) *Tobacco*.—There was no export control over tobacco in India. The Pakistan Delegation pointed out, however, that if India insisted on charging the maximum rate of excise duty on the flue-cured tobacco, the agreement would in fact be ineffective since the importers would not lift the tobacco on those terms.

(15) *Seed potatoes*.—Pakistan pointed out that although India had agreed to supply one lakh maunds of seed potatoes they had no information of any quantity having moved. India stated that movement of potatoes, both table and seed, from Assam to Pakistan had been made free.

(16) *Additional matters*.—Pakistan asked for the export of bauxite to Pakistan at the rate of two wagons a month. India agreed to this.

Pakistan asked for a quota of 6000 tons of linseed oil. India promised to examine the matter and to make a suitable allocation to Pakistan during 1949.

It was agreed that India will do everything possible to ensure that the goods licensed for export actually did move and for this purpose would—

- (a) issue export licences expeditiously,
- (b) take suitable action against parties who having got export licences failed without reasonable excuse to move the goods in time, and
- (c) ensure that transport difficulties were removed as expeditiously as possible.

India also agreed to give special consideration to orders placed by the Pakistan Government with suppliers in India within the frame-work of the general export licensing policy, provided timely intimation of Pakistan Government's orders was received.

#### *Pakistan's Exports to India*

1. *Raw jute*.—The Indian Delegation expressed concern over supply position and the slow movement of raw jute to India and considered that in view of the final forecast figure issued by East Bengal (Agriculture Ministry), namely 54 lakh bales, the maintenance by Pakistan of exports of raw jute to other destinations at the level mutually agreed to in Karachi in July last might have the effect of causing a shortfall in the agreed supply to India.

The Pakistan Delegation assured the Indian Delegation that they need not apprehend any reduction in the quantities earmarked for India under the Karachi Agreement. According to Pakistan's latest and most reliable estimates of the jute crop the actual crop in Pakistan would not be less than 60 lakhs of bales after allowing for local consumption and therefore they were satisfied that Pakistan's exports to other countries on the existing scale would not actually interfere with the delivery of 5 million bales of raw jute to India. In regard to movements, Pakistan agreed to upgrade the priority under which raw jute was moving to the mills in Calcutta to the extent necessary with a view to maintaining movements approximately at 1946 level. In order to improve matters in connection with the movement of jute traffic on the E. B. Railway, representatives of Railway Board (India) agreed to supply Broad Gauge empties to the extent necessary. The General Manager, E. B. Railway should intimate his exact requirements to the East Indian Railway. It was agreed that the position should be reviewed again in the near future. Pakistan also suggested that a Joint Committee consisting of competent representatives of the two railway systems and transport and jute interests concerned should be set up in Calcutta so as to keep the problem of raw jute transport by road, rail and river under constant review.

(2) *Raw cotton*.—India drew attention to the recent orders issued by Pakistan which required that India should not only purchase 325,000 bales of cotton before the 31st January 1949 but should also export them out of Pakistan to India. India took the view that the Karachi Agreement of 20th October, 1948 was clear and unambiguous on the point that India was required only to purchase the cotton by the end of January and there could be no objection to the physical export taking place later. Pakistan agreed that this was the correct interpretation. India stated that as the time-limit for making purchases of raw cotton was very short and Indian importers had to be asked to start buying immediately after the Karachi Agreement of October, last, the system of distribution of quotas to India through different shippers which was being adopted by Pakistan was bound to give rise to difficulties in actual practice. For example it might happen that some of the contracts entered into by Indian importers were not with parties who got export licences from Pakistan. It was agreed therefore that for the current licensing period, special consideration should be given to India's difficulties in this respect and an officer should go from India to Karachi in order that any possible difficulties might be resolved on the spot. Pakistan added that as a substantial portion of the quota was being given to shippers who were exporting before partition it would be possible in most instances to accommodate Indian orders within the framework of Pakistan export licensing.

(3) *Foodgrains*.—1. The estimated loss of the rice crop in the normally surplus provinces of West Punjab, Sind and Baluchistan in the current Kharif year due to floods was shown by Pakistan as in statement attached (Schedule A.). As the loss was above 4 annas of the average of the past five years' production of rice in the said provinces Pakistan urged that it was in a position to supply any foodgrains to India.

2. India claimed that the basis for reckoning the percentage of loss should be the total rice crop of the dominion as a whole. In substantiation India stated that in the case of a normal crop in West Pakistan and serious failure in East Pakistan, the dominion of Pakistan would certainly have pleaded extenuation and diverted rice earmarked for India to its Eastern Wing. Pakistan urged that if that interpretation was accepted it would imply that Pakistan would have to supply 175,000 tons of rice even if there was total loss of rice crop in West Pakistan plus a loss of 1 million tons in the rice crop in East Pakistan. Therefore, the intention could not have been to apply the escape clause to the rice crop of Pakistan as a whole.

3. Pakistan Government agreed that if during the current Kharif year the surplus declared by the surplus areas turns out to be in excess of the requirements of the deficit areas in Pakistan and becomes available for export it will be supplied to India and no rice will be exported to any other country.

4. Pakistan also agreed that if a surplus of wheat becomes available for export during Rabi 1949-50 Pakistan will supply 175,000 tons of foodgrains under the Karachi Agreement and no wheat will be exported to any other country during Rabi 1949-50 until 250,000 tons have been supplied.

5. In order to ascertain if a surplus of wheat is available for export to India for the purposes of para. 4 above India suggested that if the procurement of wheat in the wheat surplus areas exceeds a figure agreed between the two dominions the excess should be deemed to be available for export. This matter will be settled between the Food Ministries of the two dominions.

6. The restriction against export referred to in paras. 3 and 4 will not cover token exports of small quantities, e.g., quantities sent to meet requirements of Pakistan Embassies etc. abroad.

7. Even on the basis suggested by Pakistan in para. 1 the loss works out to about 28 per cent. The actual figures of acreage and yield of these areas are not available yet. India, therefore, reserves the right to re-open the question of supply of rice by Pakistan if finally the loss of rice works out to less than 25 per cent. of the average referred to in para. 1.

| N. W. F. P. | 12                                                        | Not available         | 53.7                                                | 45**       |
| Bahawalpur  | 12                                                        | 11                    | Not available                                       | N.A.       |
| Khairpur    | 9                                                         | 9                     | "                                                   | N.A.       |
|             | 8,499                                                     | 7,625                 |                                                     |            |

\*The estimates of acreage and yield for 1948-49 are not available but the estimate of loss received by Pakistan Government in terms of rice is as follows:—

Sind—150,000 tons.

West Punjab—109,000 tons.

\*\* Doubtful. To be confirmed.

(4) Additional matters.—It was agreed that the movement of soft wood should be made free of all control on both sides.

## APPENDIX III

Individual cases of difficulties were discussed by the Economic Committee and the following agreed decisions were taken for immediate implementation by both sides:

(1) The following consignments meant for Tripura and held up in East Bengal will be released:

(a) Oil drilling machinery belonging to B.O.C. in respect of which Pakistan Government have already issued orders.

(b) One jeep and two trailers going from Calcutta.

(c) 1,000 maunds of salt going to Sabroom held up at Dhoomghat.

(2) S.D.O. Habiganj had imposed a ban on the movement of dried fish to Tripura. This should be removed.

(3) It was reported that vehicles working for the out-agency of the E. B. Railway at Balu Ghat were not being allowed to enter the railway station which was in East Bengal. It was agreed that the difficulty should be removed.

(4) It was reported that at Hill railway station some difficulty was still being experienced in the booking of transit cargo as there was no customs official on the Pakistan side. It was agreed that Pakistan will make suitable arrangements to facilitate this movement.

(5) Pakistan agreed to issue orders for the release of 400 wagons reported to be held up at Lal Monir Hat for inviting particulars.

(6) Milk and milk products have recently been brought under export control by the Deputy Chief Controller of Imports and Exports, Chittagong. It was agreed that this was on account of a misunderstanding and the notification will be cancelled at once.

(7) It was reported by Pakistan that an agreement reached in February 1948 regarding the supply of cement from East Bengal to Assam and from India to East Bengal had not been implemented on the Indian side. A permit for 2,000 tons for immediate supply was being issued by India and a regular supply in terms of the original agreement was agreed to by both sides.

(8) Four of the reparation plants allotted to Pakistan are still lying at Bombay. India agreed to issue export permits for them as soon as particulars were received from the Pakistan Government. As the allocation of these plants to Pakistan had been made before they landed at Bombay, Pakistan requested that India should examine the question of exempting these consignments from the payment of Indian import duty. India promised to give a quick reply.

(9) Pakistan mentioned that electric plant and machinery for the electric supply companies in East Bengal ordered through Calcutta firms had been landed in Calcutta before Partition. It was agreed that such plant and machinery will be allowed to be exported to East Bengal. India further agreed to consider sympathetically the question of allowing the export of spares and maintenance stores which are fabricated in Calcutta for the electric supply companies in East Bengal.

(10) India agreed to consider Pakistan's request for the export of 15 maunds of Bangalee printing type from Calcutta to Pakistan. The particulars will be communicated direct to the Chief Controller of Exports, India.

(11) Pakistan requested that an export of 120 tons of sulphur to East Bengal should be permitted to meet an immediate requirement of certain sugar factories and Pakistan would supply this quantity to India later when direct imports had been made. This was agreed to.

(12) Pakistan complained that movement of commodities like gunny bags and cloth from India to East Bengal was hampered owing to the non-availability of wagons. Pakistan stated that wagons for the movement of foodgrains at stations like Rohanpur, Nachol, and Godagari worked by the Indian railways though situated in East Bengal were not being made available. India promised to see that steps are taken to facilitate the movement of these commodities and it was agreed that these matters should further be considered at the next meeting of the Railway Operation Committee.

(13) It was agreed that nothing would be done to interfere with the movement of foodgrains from Nithpur to other areas of East Bengal by the river route which passes through a portion of Indian territory.

(14) India agreed to allow cylinders to go out as containers of gas on the understanding that their return will be allowed without any restriction.

## APPENDIX IV

INTER-DOMINION CONFERENCE  
Report of the Economic Committee

New Delhi, 12th December, 1948.

## ECONOMIC COMMITTEE

## Members (India).

1. Mr. H. M. Patel—Chairman.
2. Mr. S. A. Venkataraman.
3. Mr. K. R. K. Menon.
4. Mr. R. L. Gupta.
5. Mr. K. C. Bakhle.

## Members (Pakistan).

1. Mr. G. Farnq.
2. Mr. Aziz Ahmad.
3. Mr. Azhar.
4. Mr. N. M. Khan.
5. Mr. J. B. Shearer.

*Report of the Economic Committee appointed by the Inter-Dominion Conference at New Delhi in December, 1948*

(1) The Calcutta Agreement of April 1948 was reviewed in detail. The result of the review as well as the fresh recommendations which the Committee found it necessary to make in order to achieve the main objects in view are shown in Appendix I.

(2) The agreements signed at Karachi relating to the mutual supply of certain essential commodities by one Dominion to the other were reviewed and the result of the examination as well as the fresh recommendations made by this Committee are indicated in Appendix II.

(3) The case of stores sold through the disposals organisation lying in one Dominion and purchased by a person who resided or had since evacuated to the other Dominion had been considered at previous Conferences without any agreement having been reached. The present Committee having reviewed the matter recommends the following solution :

- (a) All such purchasers should be given the option either to take delivery of the stores before the 28th February 1949, or to ask for the cancellation of the sale.
- (b) Where the purchaser prefers the former alternative every facility should be provided to him by the Dominion where the goods are lying to take these goods to the other Dominion if the purchaser so desires.
- (c) Where the purchaser exercises his option to have the sale cancelled, any money deposited by him should be refunded in full without deducting any demurrage, rent, etc., by the Dominion in which the stores are located.
- (d) The arrangement outlined above should apply even to persons who fall in the category of an evacuee and payment should be made to him and not to the Custodian of Evacuee Property. If necessary, the relevant law of either Dominion should be amended in order to let the purchaser have the full benefit of this recommendation.

(4) The review of the Agreements reached so far has shown that while the two Dominions have found it easy and even necessary to agree on fair and equitable principles in dealing with the wide variety of problems arising out of partition, in actual implementation there have been frequent and recurrent lapses on both sides. The Committee therefore recommends that the machinery set up in Section II, clauses 2(i) (ii) and (iii) of the Agreement should also be utilised for the purpose of ensuring the implementation of the various agreements reached by this Committee in the spirit in which they are entered into.

(5) A number of instances, where there had been lapses in the implementation of the agreements reached so far or there had been other difficulties, came up before the Committee and agreed decisions were taken as indicated in Appendix III.

#### APPENDIX V

*Report of the Committee for boundary disputes and border incidents between East Bengal—West Bengal, between East Bengal—Assam, and between East Punjab—West Punjab.*

##### Members

- | India                   | Pakistan                  |
|-------------------------|---------------------------|
| (1) Mr. S. Dutt.        | (1) Mr. Aziz Ahmed.       |
| (2) Mr. S. Sen.         | (2) Mr. Fida Hussain.     |
| (3) Mr. J. N. Talukdar. | (3) Mr. M. W. Abbasi.     |

| (7) Mr. A. K. Mukherji. |                           |

*Terms of Reference.*—To discuss the boundary disputes and incidents on the East-West Bengal, East Bengal-Assam and East Bengal-Tripura borders and the border incidents on the East-West Punjab border and suggest the machinery necessary for—

- (a) settlement of disputes; and
- (b) prevention of such incidents.

1. The Committee met on the 6th, 9th, 10th, 11th and 12th December, 1946. On the last two days it was assisted in its deliberations by the members of the Steering Committee, Messrs. H. M. Patel and G. A. Faruque.

2. *Boundary Disputes.*—The Committee makes the following recommendations for the settlement of the East-West Bengal and East Bengal-Assam boundary disputes.

(1) *Tribunal, Terms of reference.*—A Tribunal should be set up at as early a date as possible and not later than 31st January, 1949, for the adjudication and final settlement of the following boundary disputes arising out of the interpretation of the Radcliffe Award and for demarcating the boundary accordingly :

(A) East-West Bengal disputes concerning—

- (i) the boundary between the district of Murshidabad (West Bengal) and the district of Rajshahi including the thanas of Nawabganj and Shibganj of pre-partition Malda District (East Bengal); and
- (ii) that portion of the common boundary between the two Dominions which lies between the point on the River Ganges where the channel of the river Matha-bhanga takes off according to Sir Cyril Radcliffe's award and the northern-most point where the channel meets the boundary between the thanas of Daulatpur and Karimpur according to that Award.

(B) (1) East Bengal-Assam disputes concerning—

- (i) the Patharia Hill Reserve Forest; and
- (ii) the course of the Kusiara river.

(2) The Tribunal shall consist of three members as follows :

One member nominated by each of the two Dominions of India and Pakistan, such person being one who is holding or has held high judicial office and a Chairman who is holding or has held high judicial office and is acceptable to both Dominions. In the event of disagreement between the members, the decision of the Chairman shall be final in all matters. The Tribunal shall report within three months from the date of its first sitting.

(3) After the Tribunal has adjudicated upon the disputes, the boundaries shall be demarcated jointly by the experts of both Dominions. If there is any disagreement between the experts regarding the actual demarcation of the boundary *in situ*, such disagreement shall be referred to the Tribunal for decision and the boundary shall be demarcated finally in accordance with such decision.

(4) The Tribunal shall prescribe the procedure to be followed for adjudicating upon the disputes as well as for deciding the point or points of disagreement, if any, arising from the demarcation of boundary.

3. (1) The Committee further recommends that the entire boundary between East-West Bengal (other than the portion described in paragraph 2 above) should also be demarcated without further delay by the Directors of Land Records of the two Provinces assisted by such staff and in such manner as they might mutually agree upon, areas where disputes have arisen or may arise being taken up first.

(2) The Committee recommends that the boundary between East Bengal on the one hand and Assam, Tripura State and Cooch Behar State (India) on the other, except the portions described in para. 2 above, should also be demarcated as soon as possible by the Directors of Land Records of the Provinces or States concerned, assisted by such staff and in such manner as they might mutually agree upon.

4. The cost of the Tribunal and of implementing the recommendations contained in paragraphs 2 and 3 above other than that of the staff normally employed by the two Governments shall be borne equally by both Dominions.

5. In order to prevent border incidents on the East Bengal-West Bengal and East Bengal-Assam borders, the Committee recommends that all border incidents other than those involving questions of policy shall be settled by the District Magistrates and failing them

by the Commissioners of the Provinces concerned or where there are no Commissioners, by officers of equivalent rank and steps shall be taken to prevent the recurrence of such incidents in the future.

6. Regarding the incidents on Tripura-East Bengal border, the Committee agreed that both Governments must take all possible steps to prevent the recurrence of such incidents in future. Such incidents shall be settled by the District Magistrates of the districts concerned in East Bengal and the Dewan of Tripura State who should meet as soon as practicable, with a view to holding a joint enquiry, if necessary, followed by such other action as the circumstances may necessitate. In the event of disagreement between the District Magistrates and the Dewan, the matter shall be referred to His Excellency the Governor of Assam and the Hon'ble the Premier of East Bengal or their nominees, for decision.

7. Both Governments agree that henceforth no attempt will be made by either side to settle boundary disputes by force.

8. *Interim Arrangements.*—(i) *East Bengal—Assam border.*—The Committee recommends the following proposals for the interim administration of the Patharia Reserve Forest on the East Bengal—Assam border:

(1) There shall be no armed forces of either Government of any description within 5 miles of the periphery of the Reserve Forest.

(2) East Bengal Government shall be in possession of the Reserve Forest West of the Radcliffe Line and Assam Government shall be in possession of the Reserve Forest east of the Radcliffe Line.

The strength of the Forest staff to be employed by each of the two Governments on each side of the Radcliffe Line shall be determined jointly by the Conservators of Forests, East Bengal and Assam.

(3) Each side undertakes not to make any new construction of any description within the areas of the Reserve Forest, of which it will be placed in charge, for the interim administration, provided, however, that there shall be no objection to any special operations necessary in connection with the oil boring by the B.O.C. on either side of the Radcliffe Line within the Reserve Forest.

(4) In order to satisfy themselves that each of them is carrying out the undertakings set out above, the two Governments will agree to the areas of the Forest placed in their respective charges being inspected by a Joint Committee of Officers, one of each Government, not below the rank of a Divisional Forest Officer assisted by such advisers as each might consider necessary.

(ii) *East Bengal—West Bengal border (Rajshahi-Murshidabad).*—It was agreed that without prejudice to the rights of either Government to the area in dispute each Government shall continue to maintain possession of the areas which are now in its possession along the East Bengal—West Bengal border. The area now in actual possession of West Bengal at Ghughumari Ghat (Rainapur) shall be cordoned off by East Bengal on its periphery on the East Bengal side and shall continue to remain in possession of West Bengal provided that—

(a) both West Bengalis' and East Bengalis' anti-smuggling staff may be stationed in this area and may freely patrol the river bank along this area; and

(b) that West Bengal will exercise Civil and Criminal jurisdiction over this area and shall post a Magistrate on the spot to deal with local cases.

9. *Border incidents on the East Punjab—West Punjab border.*—The following arrangement was agreed upon by the Chief Secretaries of West and East Punjab and recommended by the Committee.

(1) It was agreed that there was a need for having a line of demarcation between East and West Punjab, especially in area where the boundary line was not very clear. The possibility of setting up boundary pillars in this area should be immediately explored. We further recognise the difficulties that arise on account of some villages belonging to one Dominion being on the wrong side of the river in the other Dominion. It is suggested that the two Financial Commissioners on either side assisted by such expert revenue officers as they consider necessary may meet and go into this problem with a view to making definite recommendations. The two Financial Commissioners will also immediately go into the question of the erection of boundary pillars in the area where the boundary is not clear.

(2) (a) It was agreed that the Inspectors-General of Police of East and West Punjab should meet at least once a month to review the situation arising out of border incidents on both sides, assisted by the local District Magistrates and the Superintendents of Police. They will discuss the individual incidents and devise measures to ensure that such incidents are not repeated.

(b) For this purpose the two Inspectors-General of Police must take steps to institute immediately enquiries into all serious incidents which will be reviewed by them in their monthly conferences, and

(c) The two Inspectors-General of Police will submit a monthly report of the progress of their work to their respective Governments for their onward submission to the Dominion Governments.

(3) A warning shall be issued by the two Provincial Governments to the local border police, home guards and national guards, etc., asking them to desist from giving any direct or indirect assistance to the raiders on both sides. Similar warning should be issued to the military along the border by the two Dominion Governments. Where as a result of the monthly conferences between the two Inspectors-General it appears that military or police personnel are involved in the raids, immediate and effective disciplinary action shall be instituted by the Provincial or the Dominion Governments concerned.

(4) Where the residents of a village are proved to have been involved in such raids, apart from other action, the question of levying collective fine on the village shall be immediately considered by the Provincial Government concerned, and

(5) The two Provincial Governments shall take steps to publicize these decisions along the border areas so that the miscreants and raiders on either side know that effective action shall be taken against them in the event of their participation in such activities.

## APPENDIX VI

*Record of the discussions of the Evacuee Property Committee of the Inter-Dominion Conference held in New Delhi on 6th-9th December 1948, in the room of Secretary, Ministry of Relief and Rehabilitation.*

*Present.*

- |                              |   |                                                |
|------------------------------|---|------------------------------------------------|
| (1) Mr. C. N. Chandra.       | } | Representatives of the Government of India.    |
| (2) Mr. V. D. Dantiyagi.     |   |                                                |
| (3) Mr. P. N. Thapar.        |   |                                                |
| (4) Mr. Y. K. Puri.          |   |                                                |
| (5) Mr. E. de V. Mose.       | } | Representatives of the Government of Pakistan. |
| (6) Mr. Abdul Qadir.         |   |                                                |
| (7) Maj.-Genl. Abdul Rahman. |   |                                                |

*Introductory.*—(1) The representatives of the Government of Pakistan stated that they were not in a position to give their considered views on certain important items in the Minutes of the Inter-Dominion Conference of July 22, 1948, such as the areas to which the agreement should be extended or the treatment of urban immovable property. The Government of Pakistan had actively examining the important points involved and as they had not been able to collect all the important data which was necessary to enable them to come to a decision, it was impossible for their representatives to put forward any definite proposals in this Conference.

It was for this reason that they had requested India not to include this item in the agenda but had finally agreed only after India had insisted on its inclusion.

The Government of Pakistan representatives also said that their Government was under the impression that these minutes were subject to ratification by both Governments and that the Government of Pakistan for the reasons given above, had not yet ratified them.

They further stated that, in their opinion, another conference should be held shortly in, say, a month's time and by then they would be able to come to a final decision on the outstanding points and be in a position to put before the Conference definite proposals.

(2) The Indian Dominion representatives, on the other hand, were of the opinion that certain agreements had already been reached at the Minister-level Conference of 22nd July 1948, and there could be no question of re-opening the agreements already arrived at. Agreements in the past had invariably been acted upon without any formal ratification by either Government. They were rather disappointed at the protracted negotiations, as, in their opinion, very little had been achieved since the Inter-Dominion negotiations in March 1948. Refugees in either Dominion had been led to believe that they would be able to dispose of their property before long and in the meanwhile secure the income accrued to them from their property. These hopes had, unfortunately been deferred too long. It was the firm conviction of the Indian representatives that a very early and expeditious settlement of the property question would go a long way towards the rehabilitation of refugees in either Dominion thus removing a very potent cause of friction which exists at present between the two Dominions.

(3) Pakistan representatives regretted that a misunderstanding had occurred but they fully agreed with India that an early settlement of the property question was of vital importance and that Pakistan would do everything in its power to expedite the settlement.

*PART I.—General of the minutes of the Conference of 22nd July.*

*I. Areas to which Agreement will Apply.*

(4) The representatives of Pakistan Government said that they regretted they were unable to accept at present the proposals contained in the minutes of the Conference of 22nd July 1948 for the extended areas as these have not been approved by their Government. They would prefer to leave the matter open for consideration at the next Conference and in the meantime they would like to work on the old areas as agreed to in the Conference in March 1948, viz., the whole of Western Pakistan, and, in India, the Province of East Punjab, East Punjab States less Malerkotla State, the States of Alwar, Bharatpur and Bikaner, and the Province of Delhi. The India Government representatives stated that the areas had already been agreed upon on 22nd July 1948 and there was no justification for re-opening the question.

*II.—General Principles.*

(5) Paragraph (3) of the 22nd July 1948 minutes was accepted by representatives of both India and Pakistan.

(6) Paragraph (4) of the 22nd July 1948 minutes. The representatives of Pakistan stated that they would prefer to keep this open till the next Conference.

*PART II.—Agricultural Property.*

(7) Paragraph (5) of the minutes of 22nd July 1948 Conference. It was agreed that considerable progress had been made in the preparation and exchange of copies of revenue records of West Punjab and East Punjab districts and the East Punjab States. In regard to the other States in India, namely Alwar, Bharatpur and Bikaner, and for the Province of Delhi the records were being prepared, but exchange had not yet taken place. In Pakistan similarly, the revenue records of the Provinces of North West Frontier and Sind and the administered area of Baluchistan and the other States in West Pakistan, particularly, Bahawalpur and Khairpur, were being prepared but had not yet been exchanged. It was agreed that the following procedure should be adopted for the exchange of the remaining copies of the revenue records and that every effort should be made to complete the work by the 15th January 1949:

Copies of all the revenue records of the remaining areas in Pakistan should be handed over to the Deputy High Commissioner for India in Lahore.

Copies of the revenue records for the remaining areas in India should be handed over to the Deputy High Commissioner for Pakistan at Jullundur.

It was agreed that a Joint Committee of the two Deputy High Commissioners at Jullundur and Lahore should be set up to see to the work of procurement of the copies of the revenue records and for their expeditious transfer to the representatives of the other Dominion.

(8) Paragraph (6) of the minutes of Inter-Dominion Conference of 22nd July 1948—

(a) Representatives of both Dominions agreed that a Liaison Officer of the other Dominion should be appointed to be in close touch with the Custodian of Evacuee Property, for the purpose of—

- (i) obtaining information on general principles being followed with regard to management of evacuee property;
- (ii) making representations—general or in respect of cases of particular evacuees or properties—for the consideration of the Custodian;
- (iii) obtaining information regarding demand statements and account statements regarding properties of evacuees, and generally to expedite by references to the Custodian the implementation of paragraphs 9 and 10 of Part III of the draft scheme of the Joint Official Committee of March 22nd–25th;

(b) The Liaison Officer will be attached to the High or Deputy High Commissioner of the Dominion to which he belongs, but will have office accommodation in the office of the Custodian to which he is attached;

(c) The Pakistan representatives agreed to the above on the condition that the office of the Custodian of Evacuee Property, East Punjab, was and would remain at Jullundur.

*PART III.—Urban Immovable Property.*

(9) Paragraph (7) of the minutes of the Inter-Dominion Conference of 22nd July 1948. The Pakistan representatives said that they were not prepared at the present moment to consider the question of settlement of urban immovable property. They would like this question to be held over for consideration at the next Inter-Dominion Conference.

(10) Paragraph (9) of the minutes of 22nd July. The Pakistan representatives stated that Pakistan was not prepared at the present moment to agree to any proposal for the

unrestricted private exchange of urban property. They would like this proposal to be held over and considered at the next Inter-Dominion Conference.

In regard to the proposal for the Joint Urban Assessment Board made in paragraph (9) of the minutes of 22nd July, 1948, the Pakistan representatives stated that in the present circumstances it was impossible for Pakistan to agree to such an elaborate organisation being set up.

It was, however, agreed by the representatives of both the Dominions that it was desirable that steps should be taken for early collection of rents for evacuee property and settlement of accounts in accordance with the provisions contained in paragraphs 9–10 of Part III of the Inter-Dominion Draft Scheme dated 22nd–25th March 1948.

*PART V.—Movable Property.*

(11) Paragraph (11) of the minutes of 22nd July, 1948. The Pakistan representatives stated that the Joint Government Agency proposed in the July Agreement was not acceptable at the present moment and suggested that a Joint Committee of the Deputy High Commissioners at Jullundur and Lahore should go into the question and suggest alternative measures for the evacuation of movable property.

The representatives of India stressed the need of a Joint Government Agency, but they had no objection to the two Deputy High Commissioners meeting together to make proposals for consideration.

(12) Paragraph (12) of the minutes of 22nd July 1948. The proposals in this paragraph have been agreed to and are being acted upon.

(13) Paragraph 13 of the minutes of 22nd July 1948. It was agreed that the Inter-Dominion Commission should now start functioning.

(14) Paragraph (14) of the minutes of 22nd July, 1948. As the question was not specifically referred to the Pakistan Government before this meeting, their representatives would prefer to postpone a discussion of this item to the next Inter-Dominion Conference.

(15) Paragraph (15) of the minutes of 22nd July 1948. May be referred to the Inter-Dominion Commission.

(16) Paragraphs (16) to (19) of the minutes of 22nd July 1948.

*Assessment to Income-tax on Refugee Assesseees.*—Proposals agreed to by the C.B.R. India and Pakistan for the consideration of the Committee.

Government of India will appoint special officers at Delhi and Bombay to whom the refugee assesseees in India who have come from West Punjab, N.W.F.P., Sind and Baluchistan will furnish (in duplicate) particulars of their addresses etc. as given in the letter dated 28th October 1948 to the Central Board of Revenue Pakistan. The Press Note will be modified accordingly.

The Special officer in India will forward a copy of these particulars to his counterpart in Pakistan who will distribute them among the Income-tax Officers having jurisdiction to deal with the cases.

The Income-tax Officer concerned will then send the notices calling for returns or evidence through the special officer of Pakistan who will forward them in batches each week to the special officer in India and he will send them to the assesseees concerned.

The Income-tax Officer in Pakistan should make an *ex parte* assessment *only* after he hears from the special officer in India, that the notice could not be served on the assessee as his whereabouts are not known or that the assessee without valid cause has failed to comply with the notice. In cases where assessments would otherwise become time-barred, an *ex parte* assessment may be made after the due date for the receipt of return but full facilities should be given for reopening the assessment on valid cause being shown in appeal.

Each Government will arrange for Assesseees being represented before the Income-tax Officer, if they so desire by authorised agents to whom the accounts etc. will be sent through the respective High Commissioners.

As soon as an assessment is completed in Pakistan one copy of the demand notice should be sent to the special officer in Pakistan and he will forward it to his counterpart in India who will pass it on to the assessee. Another copy will be sent to the Custodian of Evacuee Property in Pakistan.

The Custodian will adjust against the demand any amount to the credit of the assessee and if the full demand could not be met, the balance shall be communicated to the assessee through the special officer.

Property of the assessee may be attached for the balance of the tax if any due, but shall not be sold in auction except with the consent of the assessee within one year after they are permitted to sell or exchange the properties.

Any *ex parte* assessments made before the introduction of this procedure on evacuee assesseees to whom the "stand-still" agreement applied will be cancelled by the Commissioner and revised assessments made in accordance with the procedure contained herein. As

regards other evacuees, appeals against *ex parte* assessments already made shall be entertained, irrespective of the time-limit, provided the appeals are filed before the 15th January 1949.

The notices intended for assesseees in India shall be sent to the special officer in India in special bags through the respective High Commissioners, and the special officer shall send them to the assesseees at the addresses given in the statement, and shall after service of the notices, forward the acknowledgments to his opposite number in Pakistan.

Arrangements in Pakistan shall be exactly similar to those in India, and special officers will be appointed at Karachi and Lahore.

When owners of properties are permitted to sell or exchange their properties, such sale or exchange shall be subject to the claim for arrears of tax if any and shall not become final till tax is paid.

The proposals contained in the Central Board of Revenue India's letter to the Central Board of Revenue Pakistan mentioned above shall be acted upon except to the extent modified above.

This new procedure shall be announced in the Press simultaneously by both Dominions on the 17th December 1948.

*Other subjects discussed by the representatives of the two Governments*

(A) *Sale and transfer of shares.*—Pakistan representatives mentioned that correspondence was going on between the Governments of India and Pakistan regarding the existing restrictions on transfer and sale of shares in West Punjab. Pakistan representatives stated that if restrictions on such sale and transfer of shares in East Punjab and Centrally Administered areas were removed, restrictions in West Punjab and other areas wherever they exist will be withdrawn by Pakistan Government.

The Indian representatives stated that the restrictions in India were imposed only because they existed in Pakistan and they would be prepared to withdraw the restrictions on a reciprocal basis.

It was agreed that restrictions shall be withdrawn by both the Governments immediately.

(B) *Money due to evacuees from Government and quasi Government bodies.*—It was represented by the Pakistan representatives that restrictions existed in West Punjab, East Punjab and Delhi regarding the payment of money due to contractors who have now become evacuees and to Government servants, to servants of Universities and local funds and other local bodies. It was mentioned by the Pakistan representative that at present money payable to contractors was deposited with the Custodian and not paid to the contractor concerned by the Governments on either side. India also pointed out that in the case of the Punjab University employees who had migrated to India, the Provident Fund money had not been paid to the employees for lack of Custodian's permission. Similarly restrictions have been imposed in Delhi. Court deposits and Provident Funds of teachers employed by local bodies were similarly being held up in either Dominion. It was decided that all money due from Government or quasi Government bodies like the University, the District and Municipal Board and other local bodies should be payable by them direct to the evacuee concerned without the intervention of the Custodian and should be subject only to any agreements regarding exchange control between the two Governments.

Examples of such payments were sums due to the contractors for work done or goods supplied or otherwise under the contract, pay, leave salary and provident fund amounts of Government servants and servants of Universities, local bodies and quasi-Government institutions, security deposits of contractors and public servants, court deposits and scholarships due to students. These items are illustrative only and not exhaustive.

To enable this agreement to be implemented, immediate amendment of the Custodian of evacuee Property Ordinance will be necessary in both the Dominions. In the meantime instructions should be issued not later than the 15th January, 1949, to the Custodian to grant general permission for the free movement of money relating to such items.

The Indian representative pointed out that on both sides a large number of claims from Government and semi-Government departments and institutions are outstanding and evacuees entitled to moneys are not being paid. It was agreed by both the representatives that effective measures should be taken to have all such claims considered and paid as early as possible. It was decided that both Governments should issue instructions to Government departments, semi-Government institutions and to local bodies to expedite payment of claims of evacuees.

*Teachers other than those included in B above.*—It was agreed that teachers other than those employed by Government and quasi-Government bodies will also be given the benefit of the arrangements agreed to in B above.

(C) *Changes in Evacuee Property Law in Pakistan.*—The Indian representatives pointed out that the latest Pakistan Ordinance appeared to be stricter in certain respects than the older law, and contrary to the spirit of the negotiations between the two Dominions.

The Pakistan Representatives agreed to examine the points raised by the Indian representatives. A detailed note on the subject is to be given to the Pakistan Government representatives and the matter will be discussed at the next Conference.

(D) *Jagirs and Muafis.*—The question of Muafi, land grants, assignment of land revenue and jagir grants etc. was raised by the Pakistan representatives and it was decided that both the Government should examine the position and discuss the matter further in the next Inter-Dominion Conference.

(E) *Estates under Court of wards.*—It was agreed that whether the estates were still under the Court of wards or had been released and handed over to the Custodian after partition, the wards or ex-wards and dependents or ex-dependents may continue to be paid a suitable allowance direct by the Court of Wards or the Custodian as the case may be as a special case.

(F) *Improvement Trust Plots.*—It was agreed that the rights of the evacuee owner should not be forfeited. The sale of Improvement Trust plots generally include a condition that the failure to build within a specified period, or to pay the necessary number of instalments, would mean forfeiture of the plot of land by the Improvement Trust. It was agreed that such penal conditions should be held in abeyance. This does not preclude the state from acquiring or requisitioning the land for the purpose of rehabilitation of refugees.

(G) *Government servants who have migrated from one Dominion to another and who were in pensionable service but had not earned their pension.*—The consensus of opinion was that something must be done for these persons, but the question must pend the settlement of an agreement between the two Dominions on the bigger issue of the pensions already earned.

(H) *Exchange of undertrial prisoners on bail.*—It was agreed by the representatives of both the Dominions that since the persons who were in prison have already been transferred, there is no reason why those who were on bail should not be considered eligible for transfer. Pakistan representatives pointed out that this matter was under consideration of their Governments; but pending a final decision, it was agreed that no action should be taken to forfeit the bail-bonds or personal securities.

(I) *Transfer of cases in mental hospitals.*—It was agreed that non-Muslim patients in the mental hospitals in Pakistan and Muslim patients in similar hospitals in India whose relatives have gone over to the other Dominion may be transferred to India and Pakistan respectively subject to the adjustment of any amounts that may be due on their accounts. This will be applicable only to persons already in hospitals on 1st December, 1948.

E. de. V. MOSS,  
Secretary,  
Ministry of Refugees & Rehabilitation,  
Government of Pakistan, 11th December, 1948.

C. M. CHANDRA,  
Secretary,  
Ministry of Relief & Rehabilitation,  
Govt. of India, 11th December, 1948.

#### *Minutes of the Inter-Dominion Conference held in Lahore on July 22nd, 1948* *Item I of the Agenda.*

(1) The draft scheme for Inter-Dominion Evacuee Property Agreement prepared by the Joint Official Committee at Lahore (March 22nd to 25th 1948) was considered by the Conference, and the following decisions were reached:—

#### PART I.—General.

##### I. Area to which Applicable.

(2) It was agreed that the areas should be extended to include in India, Ajmer-Merwara, Malerkotla State, the Matsya and Rajasthan Unions, Saurashtra, Jaipur State, Jodhpur State, and Western Districts of the United Provinces (which shall in any case include the districts of Saharanpur, Dehra Dun, Meerut and Muzaffarnagar). Pakistan was to forward a list of any further areas which they might wish to be included, for India's consideration.

##### II. General Principles.

(3) The following new sub-section (4) should be added to section 2 as follows:—

"Throughout this agreement whatever has been laid down as applicable to any Province or to its Government shall be applicable to any States or to the Government of any such States as have acceded to either Dominion and included in the area to which this agreement now becomes or hereafter be applicable."

(4) India said that evacuees had been moving from all parts of one Dominion to all parts of the other and in so far as India was concerned, they were prepared to extend the agreed area to cover the whole of both Dominions. Pakistan agreed to consider this proposal.

#### PART II.—Agricultural Property

(5) The main question to be decided in this part was whether the settlement should be as between the Governments of the two Dominions or as between individual evacuees. Pakistan were of the view that no definite decision could be taken on this point until more data were available. For this purpose special Revenue Officers were to be appointed by both Dominions. Copying of revenue records should start forthwith. A Special Joint Committee should be set up to supervise and expedite the whole work.

(6) It was further agreed that with a view to ensuring more equitable management of evacuee properties and the early payment of rents due to evacuee owners during the interim period, an officer of the other Dominion should be associated with the Custodians of Evacuee Property of each Dominion.

#### PART III.—Urban Immovable Property

(7) Here again the main question to be decided was whether the settlement of this type of property should be on a Governmental or an individual basis. India felt that it might be advantageous to pool for purposes of exchange on a Governmental basis all properties valued below a certain figure to be agreed upon between the two Dominions property above that value would be open to unrestricted private sale and exchange. With this end in view it would be necessary to collect more data in regard to urban property.

(8) Pakistan's view was that, while the suggestion might prove practicable, it certainly presented enormous difficulties and would probably take an unduly long period to put into operation.

(9) It was finally agreed that the Joint Urban Assessment Board contemplated in Section 7 of this part should be set up and its functions enlarged to include assessment of the value of property. It was further agreed that an officer of the other Dominion should be associated with the Custodians of Evacuee Property of each Dominion with a view to ensuring equitable management and early payment of rents due to evacuee owners. India suggested that pending a final settlement it might be advisable to allow freely exchanges of Urban Immovable Property. Pakistan agreed to consider this proposal.

#### PART IV.—Houses and Shops in Rural Areas

(10) It was decided that whatever decisions were finally taken in regard to Parts II and III should be made to apply to Part IV also, according to the category of property concerned.

#### PART V.—Movable Property

(11) The proposals were accepted by both Dominions subject to the following modifications:—

The Joint Government Agency to be set up under sub-section (5) of section 6 should deal with all matters and complaints arising out of the working of this part.

#### PART VI.—Customs, Export and Import Controls

(12) The proposals as contained in Pakistan's redraft of this part date 21st July, 1948, were accepted by both Dominions.

#### PART VII.—Inter-Dominion Commission

(13) The proposals as contained in the draft agreement were accepted.

#### Item 2 of the Agenda. Trust Property.

(14) It was decided to postpone consideration of this item.

#### Item 3 of the Agenda. Damaged Urban Immovable Property.

(15) India was unable to accept Pakistan's proposals as they stood. They had no objection to demolitions or repairs necessary for ensuring safety, protecting health and the life but they could not agree to sales by the Custodians of Evacuee Property. Pakistan undertook to consider India's counter-proposals.

#### Additional Item 3-A, not on the Agenda, Income-tax Assessment.

(16) There was at present an agreement between the two Dominions under which no *ex-parte* assessment of income-tax could take place in the West Punjab until 31st July, 1948.

(17) In view of the postponement of Evacuee Property settlement it was suggested by India that the agreement should be further extended up to 31st December, 1948, and should include the N.-W.F.P. and Sind.

(18) Pakistan agreed to extend the present date upto 31st August, 1948, and pointed out that its present scope already covered the N.-W.F.P. Pakistan was not prepared to extend the agreement to Sind. They would, however, consider the definite proposals from India as contained in Appendix A.

(19) Pakistan stated that no sales against realization of income-tax had taken place either in the West Punjab or the N.-W.F.P. so far and they undertook that no such sales would take place at least until 31st August 1948, in any part of West Pakistan.

#### Item 4 of the Agenda. Exchange of Prisoners.

(20) The question of resuming the exchange of prisoners between the two Dominions which has stood suspended from the 27th April, 1948 was discussed. Pakistan handed over the following draft of what they desired in this connection:

"The exchange of Prisoners between the Dominion of Pakistan and the Dominion of India, which was suspended on the 27th April, will be resumed as soon as a satisfactory agreement has been arrived at with regard to Muslim prisoners of Delhi, whose families have migrated to Pakistan, on the same terms and under the same conditions as applied to the exchange of prisoners from East and West Punjab."

India undertook to consider this and send a reply as early as possible.

#### Item 5 of the Agenda. India's "Permit" System.

(21) India explained their reasons for introducing a system of permits, but were prepared to consider its withdrawal if the two Dominions could evolve some system of regulating a two-way, as opposed to one-way, traffic. Pakistan was not satisfied that there was a case for introducing a permit system nor for any form of traffic regulation in either direction and stated that in difference to public opinion they would be obliged to introduce a similar permit system in West Pakistan, which would have to be extended to cover also, movement between East and West Bengal, if India could not see their way to withdrawing their "permit" system forthwith.

V. D. DANTYAGI, Joint Secretary,

Ministry Without Portfolio, Govt. of India.

#### Note dated 22nd July 1948 by India on Income-tax Assessment Appendix A

There is at present an agreement between the two Dominion Governments governing the East and West Punjab under which no *ex-parte* assessment of Income-Tax can take place. This agreement which expired on the 30th June, 1948, has been extended up to the 31st July, 1948.

We suggest that this agreement should be extended further up to 31st December, 1948, in regard to time and should be covered to include Sind and N.-W.F.P. in addition to West Punjab.

Meanwhile the work of assessment can be done either by deputing Pakistan officials to the Indian Dominion and *vice versa* under the guard and protection of the Dominion concerned; or notice in regard to all evacuees should be served on the High Commissioner of the Dominion concerned who should arrange for the defence of the case in consultation with the evacuee.

Once the assessment is made the Dominion to which the evacuee has gone may collect the Income-tax and remit it to the originating Dominion or intimate its inability to do so. In the latter event, or at the option of the assessee the origination Dominion will have the right to dispose of the evacuee's property in fulfilment of the Income-Tax demand.

Pending consideration of this proposal we suggest that no sale of evacuee property should take place in either Dominion in fulfilment of the Income-Tax demands.

#### MINISTRY OF RELIEF AND REHABILITATION

RECORD OF DISCUSSION HELD IN THE ROOM OF DEFENCE SECRETARY ON FRIDAY, 10TH DECEMBER, AT 12 NOON, IN REGARD TO EVACUEE PROPERTY

The first point of difference between the representatives of India and Pakistan in the Evacuee Property Committee was the question of areas to which the scheme of evacuee property should apply. In the Secretariat level conference held in March, 1948, the agreed areas were confined to Western Pakistan on the one hand and East Punjab, East Punjab States, the States of Alwar, Bharatpur and Bikaner in India. At the request of Pakistan, this area was extended in the Minister level conference held on 22nd July, 1948 in India to include Ajmer-Merwara, Malerkotla State, the Matsya and Rajasthan Unions, Saurashtra, the States of Jaipur and Jodhpur, and Western districts of United Provinces, which were in any case to include the districts of Saharanpur, Dehra Dun, Meerut and Muzaffarnagar. The Pakistan representatives stated that the Pakistan Government had not ratified the agreement to this area and that they would like to keep the matter open for the present.

(2) At the meeting of July 22nd, the Pakistan representatives reserved to themselves the right to suggest any further area which they liked to be included in the property scheme. The India Government representatives were prepared to consider their proposals and to extend the agreed area to the whole of India and Pakistan if necessary. Pakistan representatives wished to keep this question also open for the present.

(3) *Agricultural property.*—The scheme submitted by the Secretariat level committee, which met on 22/25th March, 1948, envisaged both the Governments taking over the agricultural land left behind in either Dominion. The land was to be valued by a Joint Valuation Board to be set up for the purpose of valuing land on the basis of certain principles which were accepted by this official committee. At the conference of 21st July 1948 the Pakistan Government wished to collect more information before they could agree to this scheme. Meanwhile the revenue records in both Dominions over the agreed area were to be copied and exchanged. To expedite this work, a special Joint Committee was to be set up. The Pakistan Government representatives stated that it is not possible to accept this official Joint Committee for the present but there was no objection to both Governments proceeding with the valuation of the land left behind in their respective areas. It was pointed out by the Pakistan representatives that the principles accepted by the Joint official Committee had yet to be formally accepted by their Government.

(4) *Urban immovable property.*—The main hitches in this case were the question of agreed area and whether exchanges should be allowed in regard to urban immovable property. Here again a Joint Urban Assessment Board was contemplated by the official committee of the 22/25th March with a view to helping persons who could not exchange their property otherwise. The Pakistan Government representatives were of the opinion that a Joint Urban Assessment Board was impossible at present. While the Indian Government representatives were of the opinion that exchanges may be freely allowed in all cases the Pakistan Government representatives were not prepared to give an answer till the question of agreed areas was settled.

(5) *Movable property.*—The official committee of 22/25th March 1948 contemplated a joint Government agency for the purpose of moving movable property from one Dominion to the other, unless it was taken over or requisitioned by the Government concerned for the export thereof was forbidden under a general order of that Dominion. The Joint Agency was accepted by the Minister level conference of 22nd July, 1948. The Pakistan Government representatives stated that they could not receive at the moment a vast organisation like this agency, but that the two Deputy High Commissioners should meet together and work in effect as the joint agency for the purpose of facilitating the movement of such property. It was agreed that the High Commissioners will be suitably assisted by sanction of extra staff by the two Dominions Governments and that facilities including protection will be accorded by the Dominion in which that staff would be operating with a view to transferring movable property.

V. D. DANTYAGI,  
Joint Secretary,  
10th December 1948.

#### REPORT OF THE COMMITTEE ON EVACUEE PROPERTY RECOMMENDATIONS OF THE STEERING COMMITTEE

The Evacuee Property Committee has submitted a report in which there is disagreement between the representatives of India and Pakistan on the following principal points:

- (1) Area to which the agreement would be applicable;
- (2) transfer and sale of agricultural property;
- (3) transfer and sale of urban immovable property; and
- (4) disposal or transfer of movable property.

The Steering Committee had a prolonged discussion with the representatives of the two Dominions and agreement was reached on point No. 4. It was agreed that the two Deputy High Commissioners should work as a joint committee for facilitating the movement of the movable property from one Dominion to the other.

With regard to the other points, the Pakistan delegation maintained that they were not in a position to express any opinion or proceed further with implementation until the agreement reached at the Minister level conference held on the 22nd July 1948 at Lahore was ratified by their Government. Indian representatives on the other hand stated that they had all along proceeded on the assumption that there will be no question of the agreement being subject to any ratification. Having regard to the time that has elapsed since the Lahore Agreement was signed by the representatives of the two Governments, the Steering Committee would recommend to the Conference that where there were actual agreements in substance between the two Governments in Lahore they should stand and should be implemented. This is a matter to which considerable importance is attached by the private

individuals whose property lies in one or the other Dominion. The Steering Committee would further recommend that the implementation of the points on which agreement had been reached should be completed with the utmost expedition.

Where at Lahore certain points were left over for further consideration, the Steering Committee would recommend that the two Governments should make up their minds within a month and intimate their considered views on those points to each other. If a further conference is necessary to settle these points, it should be held within six weeks.

#### APPENDIX VII

#### INTER DOMINION CONFERENCE REPORT OF THE COMMITTEE ON PROGRESS IN SETTLEMENT OF

#### Financial Matters Arising out of the Partition of Provinces

##### A. BENGAL PARTITION

The Committee considered the (Appendix 1) Report drawn up after discussion by the representatives of East Bengal and West Bengal. On the various points raised in the Report it was agreed as follows:

- (a) The debit balance on account of the undivided Government of Bengal on the books of the Reserve Bank which was provisionally cleared by equal payments by the two Governments should be taken as the liability of the undivided Government and shared in the general proportion fixed by the Arbitral Tribunal.
- (b) The outstanding amounts due to the Central Government by the undivided Government of Bengal should be allocated between the two Provinces in the general ratio fixed by the Arbitral Tribunal and each Province will owe its share to its Central Government.
- (c) The two Provinces should appoint actuaries to determine the capital value of the pensionary liability of undivided Bengal. Pending this valuation each Province should continue to pay the pensioners in accordance with the interim arrangements already entered into subject to final adjustment of the capital liability as determined. The basis and method of this eventual adjustment will have to be settled as part of the financial settlement between the two Provinces arising out of partition.
- (d) In the case of deposits, each Province will continue to pay the liabilities arising in its area without prejudice to the eventual settlement between the two Provinces.
- (e) The method of allocation of the amounts at the credit of the Post-war Services Reconstruction Fund should be examined by the two Governments and an early decision reached.

(2) In the course of discussion the question of how the net liability of one Province to the other which may arise out of the partition settlement should be liquidated was raised. It was decided that West Bengal which is likely to emerge the net debtor should consider and formulate proposals in this behalf at an early date.

(3) It was agreed that the two Governments should use their good offices in securing an equitable distribution of the assets of the funds of non-official organisations other than charitable endowment which before the partition used to serve the undivided provinces.

(4) The East Bengal representatives also raised the question of the interpretation of Section 8(ii) (a) of the Indian Independence (R. P. & L.) Order, 1947, read with para 16 of the Arbitral Tribunal's Award on Issue No. 2. It was suggested to East Bengal that this matter should be taken up by them with the Pakistan Government who had interpreted the corresponding provision of the Order affecting Pakistan differently in respect of similar liabilities at the Centre. It was represented on behalf of East Bengal that they were not concerned with what happened between the Dominion Governments. In their view the settlement between the two Provinces must be governed only by the Award, in cases in which it has been sought and given by agreement between the Provinces themselves and in this case the Award was clear and specific and should be adhered to and implemented by both the parties.

(5) The East Bengal representatives also raised the question of the division of the securities held by the Reserve Bank on behalf of un-divided Bengal. The West Bengal Government were asked to examine the matter and inform East Bengal Government.

(6) It was agreed that the various outstanding points mentioned in the note of the representatives of the two Governments and the above note should be settled as early as possible and in any case not later than a period of three months.

(7) *Stores records etc.*—As regards the flat RUNDEL, S. T. CHITPORE and two coal barges and three mud barges with their tools, plant and stores (being component parts of the Dredger BURDWAN), D. Tug 113 etc. belonging to the Irrigation Department of undivided Bengal, the Chief Engineers of East and West Bengal should meet and take steps for effecting exchange on the lines already agreed upon.

As regards police arms and ammunition claimed by either Province from the other, the Inspectors-General should meet and try to come to an agreement, failing which they should report the facts to their respective Governments.

As regards arms, ammunition, animals, library and other stores of Sarda Police Training College, West Bengal requested that if there be a surplus over present requirements of East Bengal of any item that should be supplied in kind by East Bengal to West Bengal. East Bengal stated that there could be no question of the physical division of any of the assets of the Police Training College. They admitted that financial adjustment would be, however, necessary.

As regards bulbs, shades and other equipment of the Electrical Division of undivided Bengal, the Provinces should check up and see if West Bengal has made over such stocks as are due to East Bengal, failing which early steps should be taken to supply the remaining bulbs etc.

As regards Nissen huts, West Bengal should supply to East Bengal materials for 21 such serviceable huts, the materials being, as far as possible, similar in condition and completeness to those which remained in West Bengal when the partition took place.

As regards historical records of the Government of undivided Bengal, two representatives from the two Governments of East and West Bengal should meet before the 15th January 1948 and make their agreed recommendations. If they fail to come to an agreement, they should tender their advice to East and West Bengal who should then meet before the 15th February and try to come to an agreement.

As regards furniture it was agreed that these should be supplied by West Bengal to East Bengal expeditiously.

As regards equipment of the Record Room of undivided Bengal, East Bengal should supply the detail wanted by West Bengal on receipt of which arrangements should be made to deliver such of these to East Bengal as are due to that Province.

As regards books of reference the decision of the Separation Council should be implemented early by West Bengal.

As regards the share of the common records of the divided district of Nadia claimed by East Bengal and the share of the divided districts of Dinajpur and Jessore claimed by West Bengal, the West Bengal representatives stated that orders have already been issued by West Bengal for the return of the records of Nadia. The East Bengal representatives said that they would check up and see that West Bengal gets her share of the records of the divided districts.

As regards the motor launch MARIE of the Excise Central Detective Department claimed by West Bengal as allotted to that Province of the Assets and Liabilities Committee of the Separation Council, the East Bengal representatives agreed to look into the matter and ensure a decision by the 15th of January 1949.

As regards one of the Forest launches still claimed as due by West Bengal from East Bengal, the representatives of East Bengal agreed to settle the matter by 31st January 1949 in consultation with the representatives of the Government of West Bengal.

As regards the fittings, accessories and other essential stores of M. L. RESCUE of the Forest Department which are stated to have been retained before the return of the launch to West Bengal the representatives of East Bengal agreed to look into the complaint and return the fittings etc. to West Bengal, so far as the allegations are found correct.

As regards the Police Harbour Defence motor launch 1104 and jeep BLB 7093 claimed by West Bengal as due from East Bengal, the representatives of East Bengal promised to look into these cases and return these to the Government of West Bengal not later than 31st January 1949.

As regards the Prime Mover at Jalpaiguri on account of the W. & B. Department workshop, the Pakistan representative said that his claim was on the strength of a sub-committee's decision and promised to send a copy of that to the West Bengal Government as early as possible, and the West Bengal undertook to intimate their views to the East Bengal within a fortnight of the receipt of the above-mentioned communication.

#### B. PUNJAB PARTITION

(8) The Committee considered the report (Appendix 2) prepared by the representatives of the East Punjab and West Punjab.

(9) As regards the payment of outstanding claims relating to the pre-partition period the following decisions were reached:

(10) It was agreed that the joint committee consisting of two representatives of each of the Governments of East and West Punjab to examine outstanding claims of third parties against undivided Punjab for supplies and services made before the 15th August, 1947, should be immediately set up. It was also agreed that after this Committee have passed the claims, payments should be made by the two Governments in respect of claims arising within their area, and that these payments should be currently shared in the ratio fixed by the Arbitral Tribunal, namely 60 per cent for West Punjab and 40 per cent for East Punjab. The Committee will be set up before the 1st of January 1949 and all claims will be examined and sanctioned for payments within a period of six months, i.e. by 30th June 1949.

(11) It was also agreed that the expenditure, other than that referred to in para. 1 above, relating to the period before the 15th August, 1947, but paid up to and including the 31st March 1948, in either Province should, after necessary scrutiny, be shared between the East and West Punjab in the prescribed ratio, and that expenditure relating to the period before the 15th August, 1947, but paid after the 31st March 1948 be finally adjusted against the balances of the Province making the payment. Arrears of pensions relating to the pre-partition period will, however, be finally borne by the Province in whose list the pensioners concerned are included.

(12) It was also agreed that each Province should finally retain to itself whatever arrears of revenue pertaining to pre-partition period it may collect after the 15th August, 1947.

(13) The East Punjab representative raised the question of the return of the Securities held by the Provincial Co-operative Bank on behalf of the Co-operative Societies now located in East Punjab as also the funds and deposits in Co-operative institutions in either Province. It was agreed that these questions should be considered at the meeting to be held in Lahore towards the end of this month to consider banking and allied problems.

(14) The East Punjab representative also raised the question of the refund of the Provident Fund Deposits and gratuities of former employees of the Punjab University, the Lahore Public Library and similar non-Government institutions. In the case of the Punjab University, it was pointed out that the arrangements made at the conference held on the 22nd to 24th November in respect of the payment of Provident Funds and local Funds would apply. In the case of the Provident Funds of the Punjab Public Library and similar institutions, it was agreed that the West Punjab Government should use their good offices to secure an early settlement of the claims.

(15) The West Punjab representatives handed two notes one (to the East Punjab Government and to the Government of India) relating to security deposits pledged to the West Punjab Government and forwarded to the Reserve Bank for re-encasement on Pakistan, and the other (to the Government of India) dealing with certain securities said to be held by the Deputy Accountant General, Posts and Telegraphs, Calcutta, on behalf of the Aitchison College, Lahore. It was agreed that the Government of East Punjab and the Government of India should look into the matter and reach an early decision.

(16) The West Punjab representatives also handed a note regarding the short supply of water from the Bari Doab Canal system to certain West Punjab distributaries. The East Punjab representative promised to have the matter looked into expeditiously, in consultation with the Chief Engineer of his Province.

(17) The Committee agreed that the Provincial Governments should expedite the appointment of actuaries to evaluate the pension liabilities and meantime the existing arrangements for the payment of pensions by the two Provinces should continue.

(18) It was also agreed that the Implementation Committee and other Committees dealing with partition matters should be convened as early as possible and all the outstanding work in connection with the partition should be completed by the 30th June, 1949.

(19) The representatives of West Bengal raised the question of the transfer of two Electrical Generators ordered by undivided Punjab and now held by the Electrical Commissioner with the Government of India. They contended that these two generators had been ordered for Lahore and should be made over to them. The East Punjab representatives contended that these two generators had been ordered for balancing the equipment for the Distribution System of the Mandi Project, and should, therefore, be retained by East Punjab. They also mentioned that the matter had been referred to the Partition Council for a decision.

The Steering Committee recommend that an *ad hoc* decision should be taken and propose that the two Provinces should take one generator each. They consider that this settlement would be fair to the two Provinces.

#### C. ASSAM PARTITION

(20) The Committee could not consider the latest position in regard to the settlement of partition matters between Assam and East Bengal as the representatives of the two Governments had not come with the necessary papers. It is agreed that the two Governments should meet at an early date and submit to the two Dominion Governments within a month's time a report of the steps being taken by them to expedite a final settlement.

## APPENDIX 1

## NOTE ON THE BENGAL PARTITION ITEMS

An exposition of the financial results accruing from the implementation of the Award of the Arbitral Tribunal was given by a representative of East Bengal. According to his version the total assets of Bengal were of the value of Rs. 47,20,30,22 out of which the share of East Bengal and West Bengal worked out to Rs. 30,54,51,240 and Rs. 16,65,79,522 respectively. This included the assets of a few Departments regarding which specific agreement had not been reached but as the valuation was based on Book Values there was little fear of a serious dispute. The two provinces had taken possession of the assets of the following value :

East Bengal—15,49,50,306.

West Bengal—31,70,80,522.

It will thus be seen that West Bengal had taken over assets in excess of her share to the extent of Rs. 15,05,00,934 which amount was due from her to East Bengal.

(2) As regards liabilities it was stated on behalf of East Bengal that the Arbitral Tribunal took as the basis of the Award the statement of liabilities included in the case of East Bengal submitted to the Tribunal. Except Pensions for which a ratio of 47.83 (East Bengal) and 52.17 (West Bengal) had been determined, the other liabilities were to be shared in the general ratio. Mr. Said Hasan read out the list of liabilities which he had taken into account in arriving at the figures. Mr. Das Gupta said that he was not in a position to go into detailed figures but an obvious omission was the sum of approximately Rs. 514 lakhs representing the overdraft on the Reserve Bank against Bengal and cleared in equal moiety by the two provinces. This omission, it was stated on behalf of East Bengal, was deliberate. The Committee for the Implementation of the Award had, after discussion, decided not to consider it as a divisible liability because the Arbitral Tribunal had not treated this sum as an outstanding liability requiring adjustment between the two Governments. It was argued by Mr. Das Gupta that the Implementation Committee was not empowered to take final decision without the orders of Government and that if Mr. Rajagopal, the representative of West Bengal on the Committee, had made an omission it should be rectified. He also stated that Mr. P. N. Rajagopal had not agreed to the amount being dropped, but only no mention had been made of the item. The representatives of East Bengal averred that the Application Committee, of which the Committee for the Implementation of the Award, was a part had full powers to come to decisions on behalf of the Governments which they represented and only when the Committee made a recommendation to Government instead of coming to a decision itself, was it necessary that the Separation Council should decide a matter. This Committee had dealt with all the liabilities and given its decision. It had disregarded the amount paid to the Reserve Bank because it had not considered the amount to be an outstanding liability needing an adjustment. Mr. Das Gupta argued that the Application Committee had not yet concluded its work so it cannot be said that it had disregarded the amount and the full picture is not yet before us and many things are still to be worked out by the Committee.

(3) Mr. Rangachari then raised the question of the loan from the Centre. He averred that while it had been agreed that the amounts due from Pakistan provinces to the Government of (undivided) India would be payable to the Pakistan Government, it (the decision) did not contemplate that East Bengal should recover in cash from West Bengal the latter's share in these loans. The question of the adjustment of the share of West Bengal in the loans owed to the Central Government by Bengal would need separate consideration.

(4) As regards Pensions it was stated on behalf of East Bengal that as far as the existing pensions were concerned that Province had undertaken to pay all pensions registered for payment in Pakistan and U.K. These amounted to Rs. 38,71,776 per year in East Bengal and Rs. 26 lakhs (according to the Budget of 1946-47) in U.K., i.e., a total of about Rs. 65 lakhs a year. The Budget of 1946-47 showed total expenditure of Rs. 119 lakhs on pensions out of which East Bengal's share would be approximately Rs. 57 lakhs. This showed that East Bengal was paying Rs. 8 lakhs per year in excess of her share. It was further argued on behalf of East Bengal that according to the Indian Independence (R. P. & L.) Order, the liability for the payment of all pensions devolved on East Bengal and they were entitled to recover immediately 52.17 per cent. of the Capitalised Value of Pensions. Mr. Das Gupta said that East Bengal was not paying all the pensions of undivided Bengal and she must therefore in terms of the Award and West Bengal must therefore in terms of the Award be given credit for the capitalised value of all such pensions which were being paid by her (West Bengal) as East Bengal also must get credit for the capitalised value of pensions which were being paid by her. According to the estimates of West Bengal both in respect of pensions in issue and accrued, large sums (Rs. 2 crores under each head) would be payable by East Bengal.

(5) Mr. Das Gupta raised the question of Contractual liabilities and argued that final settlement could not take place till these had been cleared. It was explained to him by Mr. Patel and others that these liabilities did not enter into Inter-Governmental Settlements and as payments were due to outsiders and were being made by East Bengal, who were

## APPENDIX

entitled to recover 35.2 per cent. currently from West Bengal, these liabilities should be disregarded for the purpose of settlement. Mr. Das Gupta did not agree to this view as these were the liabilities of undivided Bengal as well as any other liability. West Bengal had agreed to pay Rs. 35 lakhs for every crore paid by East Bengal only with a view to assist East Bengal quickly to clear these liabilities. That did not, according to him, mean that they should be taken out of the reckoning.

(6) Discussion then proceeded to the adjustment of "Other" and "Miscellaneous" Deposits. It was stated on behalf of East Bengal that the responsibility for the payment of all deposits devolved on East Bengal and they were assuming this liability and were entitled to receive a contribution of 35.2 per cent. from West Bengal. Actually the same procedure should cover Provident Fund Deposits, though the Committee for the Implementation of the Award had recommended to the two Governments to come to a settlement by which each Province would receive credit for the accounts of the personnel who had opted to serve under it. This procedure would entitle West Bengal to receive a credit of about 2 crores from East Bengal on this account. In Assam the members representing the Province in the Separation Council had insisted on adherence to the Indian Independence (R. P. & L.) Order, 1947, in respect of Miscellaneous Deposits. East Bengal too wanted to adhere to the provisions of the aforesaid Order and it would not cause any particular inconvenience. The relevant registers of Deposits would be transferred to East Bengal and all applications for refunds would be submitted to East Bengal for verification of amounts due and payments. Mr. Das Gupta pointed out that it was not clear what the "Other Deposits" were, as District Board, Municipal, Civil and Criminal Court Deposits, Education Fund etc. were being disregarded. In any case whatever the deposits were, each province was paying all those which were lying in its territory and each province should therefore get credit of what it was paying and a complete analysis of these deposits was therefore necessary.

It was appreciated that an analysis of all deposits would be a long and difficult task and that alone could render it possible to make a division of deposits now. It was mentioned that in the case of District Board and Municipal Deposits, Civil and Criminal Court Deposits, Education Fund, etc., it had been decided that each Government should pay the deposits pertaining to its territory without any adjustment. One of the possible methods of dealing with Miscellaneous Deposits would be to follow the agreement about Municipal and Court Deposits, viz., each Government to make refunds in its area without adjustment. Representative of East Bengal stated that if adjustments are to be made, the provision of the Independence (R. P. & L.) Order, 1947, should be adhered to.

(7) The amounts due to the Post War Services Reconstruction Fund was next taken up. The total amount due to this Fund by the Government of Bengal was, according to Mr. Said Hasan, Rs. 65,60,573, which had to be contributed by the two Governments in the general ratio, according to the Award of the Tribunal. It was stated on behalf of East Bengal that the Fund had been divided by West Bengal itself and the share of East Bengal had been communicated by the Hon. Treasurer of Endowments of Bengal.

(8) Finally the question of payment by West Bengal of the amount due by her to East Bengal was raised. The representative of Pakistan stated that except Pensions whose Capitalised Value had to be assessed, all other items of assets and liabilities had been valued and a Balance Sheet had been prepared. The Committee for the Implementation of the Award had agreed on the valuation of most assets and about the few remaining ones there was not likely to be any dispute as in all cases the Book Value had to be taken. The liabilities had been determined from the books of West Bengal. Nothing now remained except to decide on payment. As regards Pensions, East Bengal was paying more than her share and if adjustment of Capitalised Value was to be made, the provisions of the Indian Independence (R. P. & L.) Order, 1947 had to be adhered to. In any case adjustment of Pensions could be left over and need not delay general settlement. Mr. Das Gupta said that until the final accounts of undivided Bengal were issued, the Capitalised Value of pensions (in issue and accrued) were determined and the other figures yet 'unknown' were worked out, no Balance Sheet could be drawn; and until it was drawn the position would remain unknown and hence the question of payment by one Government to the other was premature. It was necessary that the Application Committee should work for some time more and Actuaries should be appointed in terms of the Award so that it could arrive at a Balance Sheet as soon as possible. It was not impossible that when the final Balance Sheet was prepared it would be found that West Bengal did not owe anything to East Bengal.

(9) Mr. Said Hasan pointed out that the liabilities taken into account by the Arbitral Tribunal would not be affected by the annual accounts except Provident Fund, which accounts had already been written up to 14th August 1947.

## APPENDIX II

## NOTE ON THE PUNJAB PARTITION ITEMS

## Contractors' Claims

It was suggested by East Punjab representatives that the Committee consisting of two representatives each of East and West Punjab, as decided in the Partition Committee

meeting held at Lahore on 26th May, 1948, should start work immediately. Both Governments will provide the Committee full facilities in regard to their work and the Committee should finish their work in respect of the contractors' claims, within a period of three months, if possible. All the preparation claims of contractors that are admitted by the Committee should be paid forthwith by the Governments of West and East Punjab as the case may be and adjustment carried out immediately in the accepted ratio of 60:40. A progress report shall be submitted after three months to the two Dominion Governments so that a meeting may be called to discuss the position. All doubtful claims should be put up to the Punjab Partition Committee for decision.

The West Punjab representatives would accept the above view but suggest that the Partition Committee decision in this matter has been pulled out of its context in a shape in which it cannot be implemented unless a balance of the decisions relating to the other preparation expenditure is also implemented. The question really relates to expenditure as such and not only to third party liabilities. As regards the third party liabilities, the fact is that the West Punjab Government is already meeting these third party liabilities on the usual departmental scrutiny and the only thing to which the West Punjab Government has not agreed to is to allow the East Punjab Government to interfere in these payments through the agency of the two officers whose appointment is suggested in the East Punjab view stated above. The West Punjab view that they cannot allow the East Punjab to let their officers interfere with their departmental working is based on the fact that the East Punjab Government is not willing to treat the whole expenditure as a liability adjustable between the two Punjabs and insists on isolating only one of the items of expenditure, namely, contractors' claims. West Punjab view further is that if the East Punjab Government can, as it thinks it should, agree to the adjustment of the total expenditure, they will adopt the suggestion of the East Punjab made above and also agree to the two Accountants General being instructed to exchange net debits or credits at stated intervals, say of a month or two months, as may be convenient.

#### Civil Supplies Contractors

(2) It was suggested by East Punjab representatives that the Civil Supplies Sub-Committee consisting of Director-General Food and a senior Accounts Officer of each province should meet and scrutinize the claims of civil supplies contractors. Such of the claims as are admitted should be paid forthwith by the Governments of East and West Punjab as the case may be. This work should be completed within a period of three months whereafter a report shall be submitted to the Punjab Partition Committee for transmission to the Dominion Governments, if necessary. The Sub-Committee meetings should be held frequently at Lahore and, if it can be so arranged, at Amritsar and the settlement of these claims expedited.

The above view was acceptable to the representatives of the West Punjab Government.

(3) It was suggested by representatives of East Punjab Government that the Inter-Dominion agreement relating to the transfer of the Government securities, certificates, bonds, debentures and shares of Joint Stock Companies and funds of Co-operative Societies, etc., should be referred to a Committee consisting of one Dominion representative from each side and two representatives each from East and West Punjab. They should meet immediately.

Messrs. Majid and Azhar do not know of the relevant decisions on these points and suggest that these matters should be raised in the Economic Committee of this Inter-Dominion Conference.

(4) As regards the implementation of the Arbitral Tribunal awards, the representatives of East Punjab Government handed over a statement to West Punjab representatives showing the amounts as worked out departmentally which are owing to either of the two provinces. It was explained that this statement had not been thoroughly checked and was, therefore, subject to further scrutiny and correction. The representatives of West Punjab gave representatives of East Punjab another copy of the statement which they had furnished in August last. It was decided that the whole case should now be carefully scrutinized by the Implementation Committee at its next meeting and agreed figures worked out. It was also stressed that the meetings of the Implementation Committee should be held at least once a fortnight so as to finalize these figures at as early a date as possible. If no final settlement is reached within a period of three months, the matter shall be referred to the Partition Committee and to the Dominion Governments for further action.

#### Pensionary Liabilities

It was agreed that the final settlement between the two new provinces in respect of the pensionary liabilities of the old Punjab province cannot be arrived at till—

- (i) lists are prepared by the Accountant General, and
- (ii) these lists are scrutinized by actuaries who have to give the capitalized figures. This work will obviously take considerable time. In the meanwhile pensioners are being paid in accordance with the standing agreement between the two Governments.

#### Lahore Museum

It was suggested by representatives of East Punjab that the exhibits which had been separated and kept in a separate room by Mr. Gupta under instructions of the Arbitral Tribunal should now be handed over to East Punjab Government and that this should be done within a fortnight.

West Punjab Government representatives made it quite clear that they have no intention of holding back the exhibits which have fallen to the share of East Punjab but the work has to be postponed for sometime on account of the following reasons:

- (i) Some exhibits of this Museum were sent to India in connection with some exhibition or exhibitions and have to come back yet. These have fallen to the share of West Punjab.
- (ii) The Dominions have not yet settled their disputes regarding the exchange of Museum exhibits, and
- (iii) Feelings in West Punjab are rather strong on the subject of the Arbitral Tribunal Award in respect of the Museum exhibits and it is feared that if transfer of exhibits to East Punjab is unnecessarily hurried there may be ugly incidents at Lahore.

In these circumstances it is considered that the question of transfer of the exhibits to East Punjab should remain pending till the balance sheet of the final settlement has been drawn up and India has returned the Pakistan articles to the Pakistan Museums.

#### Historical Records

(7) It was agreed that the Punjab's share of the Historical Records, as determined by the Arbitral Tribunal's award, shall be made available within a month or even earlier, if possible. The East Punjab Government will send their representative to Lahore and Mr. Majid suggested that one week's notice should be given by East Punjab Government before their representative visits Lahore to collect the East Punjab's share of the records. This was agreed to by East Punjab representatives.

(8) It was agreed that other items of the Arbitral Tribunal's Award should be implemented within a period of one month. This supplied to physical apportionment under the Awards. A report shall be submitted to the Dominion Governments after the position has been reviewed by the Partition Committee after one month.

(9) The question of the Provident Fund accounts shall be considered by the Implementation Committee at its next meeting at which the Accountant General, East Punjab, and the Deputy Accountant General, West Punjab, who are members of the Implementation Committee shall be present. It was agreed that where balances were required of certain individuals who had retired or whose cases presented hardship otherwise for lack of this information their cases should, when specifically brought to the notice of the other Accountant General concerned, be promptly attended to. It was agreed that as the Accountants General had to act under their own Auditors General the matter should be brought to the notice of the two Dominion Governments for requesting the Auditors General to have the matter expedited.

(10) The question of loans raised by undivided Punjab from the Central Government and the open market was left to be discussed in the next meeting of the Implementation Committee.

(11) The question of the Provident Fund, etc., of Municipal and local body employees has already been under the consideration of the two Governments of East and West Punjab and it was agreed that the preparation of the statements should be expedited and the matter taken up by the Implementation Committee in their next meeting.

(12) It was suggested by the representatives of East Punjab that the Government of West Punjab should help the non-Muslim employees of the Punjab University and of the Punjab Public Library to get back their Provident Funds and gratuities which are still lying with the Punjab University or the Punjab Public Library. Messrs. Majid and Azhar stated that this was not a matter with which they were concerned, but they had heard that this matter was discussed some days ago at the Inter-Dominion Secretariat Level Conference and that any decision arrived at at that meeting would naturally be implemented by those concerned.

(13) It was agreed that the questions relating to litigants' deposits in Courts and other cases pending in the Provinces, the return of deposits and valuables lying in Treasuries and Malkhanas, and securities deposited by newspapers with Districts shall be taken up at the next meeting of the Implementation Committee.

(14) It was agreed that the Punjab Partition Committee meetings should be held once a month and that these should be preceded by meetings of the Implementation Committee which, as already stated, should be held once a fortnight so that all decisions of the Punjab Partition Committee and Arbitral Tribunal's awards can be implemented.

## PEAPNDIX VIII

## INTER-DOMINION CONFERENCE REPORT

OF

## THE COMMITTEE ON STORES

## RAILWAY STORES

During the discussion the following points were made by the Pakistan representatives:

(1) *Supply of imprest stores from E. I. to E. B. Railway.*—Under the arrangements made for mutual assistance at the time of partitioning, the E. B. Railway were to receive 4 wagon loads of imprest stores per month from the E. I. Railway. From September, 1947, to March, 1948, only 12 wagons were supplied. No supplies of such stores have been received since then.

(2) *Delivery against pre-partition purchase orders to Pakistan Railways.*—(a) Before partition, orders were placed by the Railway Board (India) on Australia for the manufacture and delivery of 222 I. R. S. broad gauge coaching stock underframes. 12 underframes were received in 1947, and the old N. W. Railway received 4 out of these. Two underframes out of these were utilised for the manufacture of two coaches for the "Silver Arrow" train, which are still with the Government of India. Since then, the remaining 210 underframes have been received in India from Australia, but the N. W. Railway has not received its share of 41 underframes more out of this lot. These are required urgently and should be supplied as soon as possible.

(b) *All-steel broad gauge coach body shells.*—250 all-steel broad gauge body shells were ordered for the N. W. Railway and E. I. Railway from the Wagon Manufacturing Panel, Calcutta. 120 shells were earmarked for the old N. W. Railway. On the basis of 63.37, as between the N. W. and the E. P. Railway, 76 shells are due to be supplied to the N. W. Railway. It is requested that these be supplied as soon as manufactured. Pakistan has offered to pay 90 per cent. of the cost on despatch and 10 per cent. on receipt.

(3) *Proposed monthly Operational meetings between the N. W. Railway and E. P. Railway.*—As the Inter-Dominion Conference held at Calcutta in April, 1948, the following was recorded:

"The Committee considers that it is a matter of paramount importance that there should be liaison between the officers of the two Dominions at all levels for ensuring close co-ordination and freedom from harassment and delays of every kind."

No such meeting between the N. W. Railway and E. P. Railway has yet taken place, although the former has been reminding the latter about this. Pakistan's view is that, were such meetings held monthly, many of the outstanding problems in regard to movement of stores would have been settled.

(4) *Exchange of coaching stock between the N. W. and E. P. Railways.*—As the result of the coaching stock census held in March, 1948, it was found that 763 N. W. coaches were with the E. P., and 557 E. P. coaches on the N. W.

At a meeting held on 16th June 1948 at Lahore, between the representatives of the Railway Division and N. W. Railway on the one hand, and Railway Board (India) and the E. P. Railway on the other, it was agreed that the exchange of coaching stock should take place by the E. P. Railway sending the first lot of 25 coaches to the N. W. and the latter sending 12 coaches in exchange. Thereafter, the E. P. Railway was to send every week 22 bogies, and N. W. 11. Only two exchanges have so far taken place, and the remaining coaches still remain to be exchanged. It is urged that this exchange should be expedited.

(5) *Finalisation of the distribution of the old B. A. Railway goods stock and floatilla.*—(a) In accordance with the division of rolling stock done on the Notional Boundary basis, 6033 broad gauge wagons were to be given to the E. B. Railway. Later, according to the Badcliffe Award, about 200 wagons were to be transferred to India by the E. B. Railway according to that railway's calculation. This has not been done so far. According to some order of the Railway Board (India) which has been reported by the D.W.I. to the E. P. Railway, 2950, and not about 200, wagons are to be transferred to India. The D.W.I. is now working to an interchange debit against E. B. Railway minus 2950 wagons. In consequence, there is a serious shortage of broad gauge wagons at transshipment points on the E. B. Railway, thus affecting the movement of jute, etc., to Calcutta.

The finalisation of the division of goods stock of the B. A. Railway should be expedited.

(b) There is a difference of opinion about the interpretation of the agreed decision regarding the division of the floatilla. This should be settled soon.

(2) The points made by India were:

(1) Between February, 1948, and October, 1948, a number of coaches, totalling 51, have been detached from trains and have been retained on the E. B. Railway.

The rolling stock belongs to the Assam Railway and has been detached while on the E. B. Railway. This has resulted in a serious shortage of coaching stock on the Assam Railway.

(2) A number of metre gauge coaches, actually 330 units, in terms of 4-wheelers, allocated to India, which were worked into Saidpur Shops for purposes of periodical overhaul, have been repaired and are still in the possession of the E. B. Railway and have not been returned to the Assam Railway.

(3) A 4-cylinder Diesel engine was sent to Pahartali for repairs before partition. The E. B. Railway have not yet returned the engine to the Assam Railway.

(4) At the time of partition, it was decided that the following quantities of foodgrains in the Reserve Depot at Lahore were to be transferred to India:

|       |     |     |     |     |        |         |
|-------|-----|-----|-----|-----|--------|---------|
| Wheat | ... | ... | ... | ... | 33,683 | maunds. |
| Rice  | ... | ... | ... | ... | 3,839  | "       |
| Sugar | ... | ... | ... | ... | 2,986  | "       |

Of this amount, only 6,636 maunds of wheat have been given to the E. P. Railway.

(5) Loco and Carriage and Wagon duplicates were to be supplied for running maintenance of rolling stock from Moghalpura (N.W.) to the E. P. Railway. The Ministry of Communications (Pakistan) instructed the N. W. Railway to send 25 per cent of stock on hand of all items, subject to a maximum of 3 months' requirements of the E. P. Railway. A token supply of 18 wagons was made during January and February, 1948, and since then no further material has been received.

(6) In the case of certain locomotives sent to Moghalpura for p.o.h., it has been reported that some which have had repairs carried out, have been returned with condemned-size tyres, the originals having been removed.

(7) The division of permanent way and bridge materials, though decided at the time of partition, has not been effected by either Dominion, though it was agreed at the meeting held in April, 1948, between the Railway Board and the D.G. Railways (Pakistan) that special endeavours would be made to move such material without waiting for each other.

(8) *General Stores.*—In regard to the actual supply of partition stores to be made in accordance with the agreement reached by the Stores Balancing Committee, nearly 400 wagons of general stores are due to India from N. W. Railway. The N. W. Railway has, however, put forward the plea that no movement of stores can be made unless ground balances are first verified. At the meeting in April 1949 between the Railway Board and the D. G. Railways (Pakistan), the latter undertook to obtain further instructions from his Government on this point. Nothing has so far been done.

(9) There are a number of tools and plant and miscellaneous equipment items which fall to the E. P. Railway's share, such as motor trolleys, ticket printing machines, motor lorries, trailer pumps, lathes and drilling machines, and photo copying machines, which have not yet been handed over by the N. W. Railway.

(10) The N. W. Railway have not agreed to part with the Governor-General's saloons until a decision has been reached on the Government of India and Railway Board saloons.

(11) Regarding finalising the division of B. A. Railway Rolling Stock, it was mentioned that, for some months past, attempts had been made by the Railway Board to get the Pakistan Government to arrange a meeting of the Sub-Committee of the Partition Council. Difficulties from the Pakistan side had so far prevented such a meeting being called.

3. It was agreed that a Sub-Committee should be appointed with the following terms of reference:

- To examine and finalise the division of stores including rolling stock and floatilla wherever this remains in question or undecided;
- To set up a machinery for implementing decisions reached and to give effect to the transfer of Stores as between one Dominion and the other.

This Committee will be composed of the following:

- India
- Mr. I. S. Puri.
  - Mr. V. P. Bhandarkar.
  - Mr. V. Nilakantan.

- Pakistan
- Mr. Nizam-ud-din.
  - Mr. Shoab (or in his absence Mr. Mushtaq Ahmad).
  - Mr. Suhrawardy.

It should meet on the 20th of December in Karachi and complete its work as early as possible.

It might be advisable to make this Committee responsible also for completing the work of the Railway Sub-Committee of Expert Committee No. II. India is prepared to do so and Pakistan has undertaken to examine this proposal.

**Shri R. K. Sidhva:** May I know what was the carry over from the year 1948, of food grains?

**The Honourable Shri Jairamdas Doulatram:** What exactly is meant by carry over?

**Shri R. K. Sidhva:** Balance.

**The Honourable Shri Jairamdas Doulatram:** So far as the stocks in the Central Government godowns are concerned, there would be a central balance. Apart from that, there are large quantities which are in transit in the steamers in view of the contracts made and despatches from these countries. In the month of December 1948, we had a balance of 18,000 tons in the Central Government godown.

**Shri R. K. Sidhva:** If a reserve has to be maintained, may I know whether a record is kept? I want to know from the record what was the balance left in the year 1948 in the godowns and the quantity in transit?

**The Honourable Shri Jairamdas Doulatram:** I would not be able to give the transit figures. May I explain that the procedure is not that we purchase a certain quantity and keep it as a kind of reserve which we do not touch. We are getting food grains every month from different countries. We are also delivering to the provinces and the States every month. Therefore, there is no particular quantity of food grains which has remained untouched and which we must not touch, which is kept as a kind of reserve, in spite of the demand of the provinces. It is a continuing process of arrival, procurement from the provinces, and distribution to the provinces. Therefore, the reserve that is talked of is a kind of calculation as to what would be the demand for the year and what would be availability for the year. As I said, for instance, in the middle of 1948, we had 161,000 tons in the Central reserve in the Central Government godowns. Out of this, the provinces began to draw and we began to get also from abroad, and from the provinces through procurement.

**Shri R. K. Sidhva:** Has not the Government adopted a policy for a particular reserve to be kept to meet any emergency? May I know whether that policy exists and if it does not exist according to the honourable member, am I clear in my understanding that there is no reserve?

**The Honourable Shri Jairamdas Doulatram:** That policy is maintained and has to be continued. As I said, the reserve is a balance which is worked out by calculating the need of the year and the supply of the year. You so work out the supplies that there is a balance at the end. By end, I mean, in December. Otherwise there are continuous allocations to the provinces, and continuous procurement and continuous arrivals from abroad. It is a continuous process. A calendar year is a theoretical way of fixing the period.

**Mr. Frank Anthony:** How is it that in spite of control the best quality of rice is sold openly in every shop in places like Pahargunj at black-market prices?

**The Honourable Shri Jairamdas Doulatram:** The Government administration is not upto the mark.

#### ESTABLISHMENT OF RADIO EQUIPMENT FACTORY

\*1374. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether Government intend to establish a Radio Equipment Factory in India and if so, what are the details of the scheme?

(b) Has the scheme materialised?

(c) What kind of radio equipments will be manufactured in the factory and will it be sufficient to meet the requirements of India?

#### STARRED QUESTIONS AND ANSWERS

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). Yes, Sir. Government have decided to enter into agreements with three firms viz., Messrs Campagne General De Telegraphie Sans Fil, Paris, Radio Corporation of America and Marconi Wireless Telegraph Co., U.K. for preparing a project report on the establishment in India of a factory for the manufacture of radio, wireless and radar equipment etc., excluding domestic radio receivers. The project report which is likely to take four to six months to prepare will, *inter alia*, deal with the facilities which are necessary for the proper location of the factory, capital cost involved, raw materials required, cost of production etc.

(c) I would refer the honourable member to the reply given by me to part (c) of Starred Question No. 491 on 18th February, 1949. The factory is expected to be self-sufficient.

**Shri R. K. Sidhva:** May I know what will be the output of this factory when it is established?

**The Honourable Dr. Syama Prasad Mookerjee:** About two crores.

**Shri R. K. Sidhva:** May I know whether the receiving sets will be manufactured in the factory?

**The Honourable Dr. Syama Prasad Mookerjee:** I have said what sets will be excluded.

**Shri R. K. Sidhva:** Why receivers will not be manufactured?

**The Honourable Dr. Syama Prasad Mookerjee:** They are being manufactured in India by other factories and Government do not wish to compete with them.

**Mr. Homi Mody:** Will the agreement take care of the interests of Indian manufacturers engaged in manufacturing components?

**The Honourable Dr. Syama Prasad Mookerjee:** Yes, we will bear that in mind. We do not want to compete with existing factories.

**Shri Mahavir Tyagi:** Is the Honourable Minister aware that the Honourable Minister for Communications maintains a branch of Radio Technicians who manage the technical side of the A.I.R. under the Ministry of Information and Broadcasting?

**The Honourable Dr. Syama Prasad Mookerjee:** I am fully aware of it.

**Shri Mahavir Tyagi:** Is he aware that they maintain workshop where researches can be carried out?

**Mr. Speaker:** What is the point the honourable member wants?

**Shri Mahavir Tyagi:** That Department and the Research Section are capable of manufacturing radio receiving sets. I want to know if the Honourable Minister is aware of it and is he availing of that?

**Mr. Speaker:** These questions come by way of arguments. What is the information that he wants now?

**Shri Mahavir Tyagi:** I want to know the information whether the Honourable Minister is aware that there is a Research Workshop maintained by another Ministry which is capable of producing radio receiving sets and if he is aware, whether he is availing of these facilities?

(4) Mention was made by India's representatives that India's proposals in regard to the regulations governing Inter-Dominion traffic, in supersession of the existing I.R.C.A. regulations, had been sent to the Pakistan Government some time ago, and it was suggested that the Pakistan Government should reach a final decision early on this important matter.

(5) It was agreed that the Pakistan Railways should arrange to take delivery in India of 15 underframes on payment of full cost and also arrange the shipping. The E. I.R. will assist in transporting the underframes to the docks.

(6) India mentioned the delay in the payment of the net amount due to India by the Pakistan Railways. It was agreed that the D. G. Pakistan Railways should go into the matter and expedite the payments. It was also agreed that the two Railway administrations should take steps to secure that Inter-Dominion traffic is promptly brought to account and cleared.

#### P. & T. STORES

(7) The meeting of the stores Committee of Inter-Dominion Conference was held at 3 P.M. on the 6th December, 1948, under the chairmanship of Mr. H. M. Patel, Secretary, Ministry of Defence, and it was decided that as regards the P. & T. Stores, Mr. S. A. Majeed, D.G., P. & T. Pakistan will discuss the matter with Mr. B. B. Batra, Chief Engineer, Indian P. & T. and Mr. Saroj K. Kanjilal of the Indian P. & T.

(8) The officers met at 10-30 A.M. in the room of the Chief Engineer, Indian P. & T. on the 7th December, 1948, and decided that the division and the issue of the P. & T. Stores will continue on the basis of 14.9 per cent as done at present subject to review of this percentage by Pakistan and India who may modify it, if mutually agreed. For this purpose, Pakistan will depute an Officer to India this month.

As regards the total valuation of stores as reported by the Chief Accounts Officer, Indian P. & T., these figures will be verified with him by the Accounts Officer to be deputed by Pakistan. Prior notice of 14 days will be given by Pakistan before deputing that officer.

As regards the stores which India is claiming from Pakistan, Mr. Majeed stated that they will issue as soon as an Officer is sent by India for this purpose. Pakistan will afford facilities for export and transport as provided by India in respect of the transfer of Pakistan's share from India.

The stores of Indian share lying at Peshawar will be brought in by Pakistan to Lahore for delivery to India and the freight and handling charges will be debited to India. Similarly, stores in Pakistan's share at Jubbulpore will be brought in to Bombay by India for delivery to Pakistan and the freight and handling charges from Jubbulpore to Bombay debited to Pakistan.

As regards the workshops production, the Pakistan's representative stated that they had already sent their indents to India. The quantities of raw materials required for the manufacture of those stores may be retained. It was, therefore, agreed that the indents will be complied with on these conditions subject to the proviso that those items which are not manufactured in the Indian P. & T. Workshops will not be supplied.

It was agreed that all stores due to either Dominions will be issued by the 28th February, 1949 except the workshop production which will be issued as it becomes available. The issue of stores implies that the actual handing over of the respective shares of P. & T. stores to the Dominion Representatives concerned at Calcutta, Bombay and Lahore would be completed by the 28th February, 1949.

Disposal of the surplus stores held by the P. & T. Department on the date of the partition on behalf of Defence Services will be regulated by the general arrangements for the disposal of Defence Surpluses.

#### DEFENCE STORES

(9) It was agreed that Pakistan will pay to India immediately for all the H.M.G. stores and installations located in Pakistan on the 15th August 1947 and for all stores received by Pakistan after 15th August 1947 and upto 30th June 1948. For stores received after 30th June 1948, payment will be made in accordance with the Karachi Agreement.

(10) Regarding the basis on which the division of the stores took place between India and Pakistan, it was pointed out by India that the division took place on a formula which was accepted by Mr. Mohammad Ali on behalf of Pakistan and by Mr. Patel on behalf of India, and that if the question was re-opened, apart from its going back on a formula which had already been accepted there will be practical difficulties which will hold up the transfer of stores to Pakistan. On behalf of Pakistan it was stated that the Stores Committee of the Inter-Dominion Minister's Conference could not deal with the matter because they were not in possession of all the papers and were also handicapped by the fact that the F.A.M.F. of Pakistan was ill in hospital and would not come to Delhi in the Conference, but that the matter could be straightened out in the next meeting of the Inter-Dominion Defence Secretary's Committee or in a special Inter-Dominion meeting called for this purpose.

#### APPENDIX IX

### INTER DOMINION CONFERENCE REPORT OF THE COMMITTEE ON INSURANCE MATTERS

#### PRESENT

##### For Pakistan

1. Mr. Abdul Qadir.
2. Mr. M. M. Junaid.

##### For India

1. Mr. Ranganathan.
2. Mr. Ansari.

At the outset it was agreed that the discussions to be useful should not be confined to a very narrow sphere that a literal construction of the terms of reference may indicate and that the discussions should really cover the ground still open after the discussions at Karachi in April 1948 and the subsequent correspondence.

(2) The Pakistan representatives urged that it would be a great hardship to policyholders if their policies were allowed to lapse strictly in accordance with the policy conditions because (primarily) of the inability of the policyholders to make regular payments of premia. They suggested that time must be given by the Insurance Companies up till end of December 1949.

After discussion it was agreed that the Companies should be requested to revive policies that would otherwise lapse, till the end of December 1949, provided, in cases where it would be necessary, they could require the production of medical certificates from medical officers appointed by the Companies resident in the place where the policy holder is resident and further that they could require the payment of the usual interest on arrears of premia, not exceeding 6 per cent. This request to Insurance Companies should be addressed by both the Governments of India and Pakistan to Companies having Head Offices in the respective Dominions, and should be confined to cases of hardship that have arisen out of the partition.

(3) The question of succession certificates causing difficulties in settlement of claims was discussed. It was agreed that this question as affecting property and banks was already under examination in the Finance and Law Ministries of both the Dominions and that whatever decisions was reached there should be adapted, if necessary, to cover Insured Policies.

(4) It was also agreed that the two Governments should try and persuade the Insurance Companies to make payments of claims on life policies not exceeding Rs. 2,000 in each case, without insisting on succession certificates, but on production of a suitable guarantee or indemnity from two solvent sureties.

5. Discussion then proceeded on the larger issue relating to the conditions which would enable Indian Life Companies to revive their operations in Pakistan and the conditions that the Indian Companies had suggested, as in the Government of India letter dated 21st August, 1948 were considered.

(a) The representatives of India said that the Government of India should take up the responsibility to certify that the investment provisions relating to the Pakistan liability of the Companies in terms of the Pakistan Act had been complied with, that there should be no suggestion that the Government of India, should actually undertake the liability on default and further, that, if necessary, it may be explored whether the Reserve Bank of India could not be designated trustee to keep custody of the securities relating to the Pakistan Business. The Pakistan representatives, on the other hand, said that unless the Government of India undertook liability in respect of any default by Indian insurers, Indian companies could not be exempted from the normal requirements of their law that the 55 per cent. of their adjusted Pakistan liabilities should be kept in the custody of trustees resident in and acceptable to the Government of Pakistan. They suggested, however, that if the Indian Companies would wish to nominate the State Bank of Pakistan as trustee, they would be willing to accept such a proposition. They felt that considering that the 55 per cent. of adjusted Pakistan liabilities represented really collections by way of premia from residents in Pakistan, this condition regarding trusteeship should not be considered as particularly onerous and that in any case it was a necessary fundamental condition to inspire confidence in Indian Companies.

The Indian representatives pointed out that this was a matter on which the Indian Companies felt very strongly and expressed the opinion that it would be extremely difficult to persuade the Indian Companies to accept this position.

(b) The composition of the 55 per cent. of adjusted liabilities was then discussed. The Indian Companies had suggested that 25 per cent. of these would be acceptable to them to be in Central Pakistan Loans, but they wanted that of the balance of 30 per cent. they should be free to invest as much as they liked in Indian Government Securities and U.K. Securities. In other words, they suggested that the 30 per cent. should not be confined to Pakistan Approved Securities only, but should include also Indian Government Securities and U.K. Securities. The argument put forward was that U.K. Companies to-day, as the law stands in India or Pakistan, could have all the 30 per cent. in U.K. Securities if they so chose, whereas Indian Companies will be treated comparatively harshly if they could not invest in the same way in Indian Securities, even if U.K. Securities were unacceptable to Pakistan. The Pakistan representatives said that they appreciated the position in regard to U.K. Companies, but to permit Indian Companies to keep their investments in Indian Securities, it would require an amendment of the law which they were afraid public opinion in Pakistan may not support, except to a very limited extent. Having regard to this, they said they could go only as far as this in regard to the composition:

25 per cent. Central Pakistan Securities;

15 per cent. Government of India Securities; and

15 per cent. Pakistan Approved Securities, including U.K. Securities.

The Indian representatives expressed the view that except for the discrimination in comparison with U.K., this distribution could not be held to be particularly harsh. Both the sides appreciated the difficulties in regard to altering immediately the existing special position which U.K. Companies enjoyed.

(6) The Pakistan representatives said that they appreciated that it would not be quite fair to treat India in a less favourable way than U.K., but that in the matter of the 55 per cent. investments it was their intention to require U.K. Companies also to keep invested all the 55 per cent. in either Central Pakistan Securities or Pakistan approved Securities which latter would not include U.K. Securities. They, therefore, urged that when U.K. was made to comply with these requirements, India should also be willing to accept similar requirements. The Indian representatives accepted this position.

(7) The Indian representatives then urged that on the same footing, Indian Companies should not immediately be required to keep these 55 per cent. Securities in the custody of trustees resident in Pakistan, until U.K. Companies also were required to do so. The Pakistan Representatives, however, urged that while theoretically it was so, it would greatly strengthen their hands in their negotiations with U.K. if India would accept the necessity to have this trusteeship immediately on condition, however, that if by the end of December, 1950, U.K. were not required to do likewise, the Indian Companies would be put on the same footing as U.K. Companies in the matter of investments, as also trusteeship. The Indian representative accepted this position.

(8) In the interim period, i.e., until the end of December 1950, India and Pakistan agreed to the following arrangement:

(i) The composition of investment should be 25 per cent. Central Pakistan Securities, 15 per cent. Government of India Central Securities and 15 per cent. Pakistan approved Securities including U.K. Securities.

(ii) All this 55 per cent. should be deposited in trust with the Pakistan State Bank, unless the Indian Company and the Pakistan Government mutually agreed upon some other trustee resident in Pakistan.

(9) On this basis, the Indian representatives agreed that the Government of India would try and persuade the Indian Companies to restart their activities in Pakistan explaining to them that in their view these terms could not be held to be unreasonable.

(10) The Pakistan representatives were willing to agree to the proposal put forward by Indian Life Companies that for the purpose of changing the deposits, as required by the Pakistan law, a period of 4 years, as under existing Section 27(3) of the Act, would be available.

(11) The Pakistan representatives felt that there would be no difficulty in giving the assurance to the Indian insurers that sufficient notice would be given to enable such of them as may like to withdraw from Pakistan to withdraw if the Pakistan Government later on legislate imposing conditions more onerous than those now offered. In any case it was agreed that once the Indian Companies decide not to write new business, the more onerous conditions would not apply to those Companies.

(12) The Pakistan representatives found themselves unable to accept the proposal made by the Indian Companies that if in future they withdrew from Pakistan, they should be treated on the same basis as the Companies that withdrew from India on the passing of the Insurance Act, 1938. Those that now withdraw of course are in the same position as non-Indian Companies were in 1938, but in future if Indian Companies accept the condition regarding trusteeship, the Pakistan Government naturally would not release the deposits until the liabilities had been satisfied.

(13) The Pakistan representatives mentioned that the present Hyderabad Government had withdrawn business from the Eastern Federal Union Insurance Co. which is a Pakistan Company. The Government of India representatives said that this was a matter entirely distinct from the ones referred to the Committee and suggested that it might be taken up in other quarters separately.

(14) The Pakistan Government representative said that he had received the communication from the Government of India in regard to the re-assignment of policies financed out of Provident Fund balances and said that that matter could be settled by correspondence without much delay.

(15) The Pakistan representatives suggested that claims on maturity or death of certain evacuees were not being paid to the assured or his successor in interest and that it was paid to the Custodian in the East Punjab. This it was suggested was a hardship that ought to be remedied. The representatives of India said this was the first time they had heard of any such difficulty and that they would examine the position.

(16) The discussions were further carried on on the 11th instant at which Mr. M. A. H. Ispahani joined the Pakistan representatives. Mr. Ansari could not be present.

*Minutes of the Proceedings of the Museum Committee set up by the Inter-Dominion Conference to discuss the division of museum exhibits between India and Pakistan.*

The Partition Council adopted the following decision under its orders dated the 29th October, 1947 regarding the division of archaeological museum:

"The Museums should be divided on a territorial basis subject to the return to original Museums of exhibits removed therefrom after 1st January 1947 solely for the purpose of temporary display at another place."

(2) At the plenary session of the Inter-Dominion Conference held on the 6th December, 1948 a sub-committee was appointed to recommend the procedure for the division of museum exhibits in accordance with the above decision of the Partition Council. The Sub-Committee was composed as follows:

#### India—

1. Dr. Tara Chand, Education Secretary, Government of India.
2. Dr. N. P. Chakravarti, Director General of Archaeology, India.
- Dr. V. S. Agrawala, Superintendent, Central Asian Antiquities Museum, New Delhi.
- Mr. Ram Lal, Under Secretary to the Government of India, Ministry of Education, and
- Dr. K. N. Puri, Superintendent, Department of Archaeology also attended the meetings.

#### Pakistan

1. H. E. Khan Bahadur Mohd. Ismail, High Commissioner for Pakistan in India.
2. Mr. S. M. Sharif, Counsellor to the High Commissioner for Pakistan in India.
3. Mr. Q. M. Moneer, lately Director of Archaeology, Pakistan.

(3) The Sub-Committee held three meetings on the 7th, 11th and 12th December, 1948. H. E. Khan Bahadur Mohd. Ismail was unable to present on the 7th December, 1948.

(4) The examination of individual lists furnished by the Government of Pakistan was taken up first and the following decisions were arrived at:

(a) *Lahore Fort Museum.*—Nothing was removed from this Museum after the 1st of January, 1947 and hence there is no question of returning anything to that Museum.

(b) *Harappa Museum.*—Some antiquities were removed from this Museum in three lots. The first lot was removed in July, 1946 and the second lot in September, 1946. These two lots, therefore, belong to India.

The third lot consisting mostly of unimportant duplicates was removed in May, 1947 to be utilised as type collections for distribution. A good portion of this lot has already been distributed mostly to Universities outside India. It was decided that the Government of Pakistan should be given four sets of type collections from out of the undistributed items in this lot.

(c) *Mohenjo-Daro Museum.*—Exhibits in lists 9-13 cover this. As no agreement was reached on these lists, the cases of India and Pakistan are given below. The notes below on Mohenjo Daro antiquities have been drawn up by the parties separately and do not imply that they as a whole or in part have been agreed to by both parties.

## INDIA

The Claims of India to Mohenjo-Daro antiquities rest on the following decision of the Partition Council:

"That Museum should be divided on a territorial basis subject to the return to original museums of exhibits removed therefrom after 1st January 1947 solely for the purpose of temporary display at another place".

As accepted by the Pakistan Delegation the most important point in the decision of the Partition Council was that museums should be divided on a territorial basis. The first point, therefore, is that on a territorial division the Mohenjo-Daro exhibits fall to India's share because they happened to be in the Central Museum at Delhi within the Indian territory on the day of the partition.

Judged in the light of the proviso to the Partition Council's decision also these objects must belong to India. The three criteria enunciated in the proviso to which the Committee unanimously agreed at the very first meeting and which were applied to the objects from Harappa and Taxila museums are as follows:

- (a) Whether a particular exhibit was removed after 1st January 1947;
- (b) Whether the exhibit was removed from its original museum after 1st January 1947; and
- (c) Whether it was removed solely for the purpose of temporary display.

According to the above the Mohenjo-Daro objects are not governed by the proviso, because they were not removed after 1st January 1947 from their original Museum, namely, the Mohenjo-Daro Museum. They were removed after that date from Lahore Museum which belonged to the Provincial Government of the Punjab and not to the Central Government and which in respect of Mohenjo-Daro antiquities was not an original museum.

The facts of the case disprove the view point put forward by the Pakistan Delegation that Mohenjo-Daro Museum retained a lien on the antiquities sent to Lahore and on the partition of India the proprietary rights reverted to Mohenjo-Daro. At the very outset in 1944, the Director General of Archaeology in India had made it clear in his very first letter No. 384/C., dated 7th May 1944 (Annexure I) (a) that only a small type collection at some central spot all the best things which the Indus Valley site had produced, (c) that the obvious place at which to concentrate these things would be a Central National Museum and (d) that in the absence of such a museum, he would treat the Lahore Museum as a substitute and deposit the antiquities on loan in that museum pending the establishment of a Central National Museum at Delhi. It is clear from this that the Central National Museum was the ultimate destination of the Mohenjo-Daro objects to which they were removed in January 1947 and the Inter-Asian Exhibition only served as an occasion to shift the objects from Lahore to Delhi, otherwise the whole spare material of about 12,000 exhibits would not have been removed. There can be no question of the Mohenjo-Daro Museum having a lien over the objects removed from there. These objects always vested in the Government of India (Of the last sentence of letter from Dr. John Sargent to Sind Government No. 723-AR/45, dated 2nd March 1947) (Annexure II). The Government of India made this clear to the Sind Government also in their letter No. F. 3-22(2)/45-F&L., dated 15th August 1945 (Annexure III) that the exhibits were deposited on loan to the Lahore Museum without prejudice to any decision that might be arrived at thereafter regarding their exhibition elsewhere. There was no question of the exhibits ever meant to be sent back to Mohenjo-Daro and in order to implement the original purpose for which the exhibits had been removed from Mohenjo-Daro, the Director General of Archaeology in India decided in July 1946 that all the objects required for the National Museum as per selection made by himself and Dr. Agrawala together with all the unexhibited spare Mohenjo-Daro material should be removed to Delhi while leaving behind a representative collection at Lahore. This was given effect to in January 1947 and the Inter-Asian Exhibition just served an occasion when these things were removed under a plan which had been determined before. In fact the instructions to Dr. Agrawala dated the 22nd December, 1946 (Annexure IV) should be read in the light of the decision conveyed in Dr. Wheeler's letter dated the 20th July, 1946 (Annexure V). With the full knowledge of the Curator of the Lahore Museum a representative type collection of 2049 exhibits was left behind at Lahore. It must be pointed out that the Lahore Museum had all the time the status of a substitute for keeping the Mohenjo-Daro objects until their removal for the National Museum, and the claims of the National Indian Museum were always considered to be primary as made clear by Dr. Wheeler in his letter to Dr. Fabri of the Lahore Museum No. 5185, dated 20th July, 1946 (Annexure V). In the discussions at the Committee the Delegation from Pakistan accepted this position of the National Museum and on that basis a compromise formula was at one stage suggested by Dr. Tara Chand.

The Pakistan Delegation gave some emphasis to the word 'Long Loan' to Lahore, but in his D.O. No. 3325, dated 22nd May, 1946 (Annexure VI), the Director General of Archaeology in India made it clear to Mr. Armstrong, D.P.I., Punjab that the word

'Long Loan' was the same as 'indefinite loan'. As already observed the loan was made by the Government of India pending the establishment of a Central Museum in Delhi.

The Pakistan Delegation also put forth the argument that the bulk of the antiquities were intended for Lahore and only a representative collection for the Central National Museum. Although this point of view is irrelevant so far as the title to Mohenjo-Daro objects on the basis of territorial division is concerned, the Indian representatives submitted that what was promised throughout was only (a) one type collection to the Mohenjo-Daro Museum (*vide* letter No. 348/c, dated 7th May, 1944), (b) one type collection to the Lahore Museum, which actually was left behind at Lahore (*vide* D.G.A.'s letter No. 5185, dated 20th July, 1946 and his order dated 22nd December, 1946) and (c) that a representative type collection would be presented to Karachi when a proper provincial Museum was established there. Although the promise made under (c) lapsed with the partition of India it could never have been interpreted as a claim from Karachi to 1/3rd of the material.

The Indian representatives, however, approached the problem in the spirit of compromise and accommodation and suggested that the Government of India would agree to leave 2,049 objects already at Lahore for the Lahore Museum and also would give to the Government of Pakistan (for use at Karachi or elsewhere) a similar collection out of the article removed from Lahore on the understanding that the Pakistan Government would in their turn agree to give duplicate of such objects from list I and II of Taxila antiquities which they could spare. The Director of Archaeology in Pakistan actually prepared a list of duplicates which could be spared and the Director General of Archaeology in India was also to prepare a list of the Mohenjo-Daro articles which could be given to Pakistan. This was, however, not ultimately acceptable to the Pakistan representatives.

His Excellency Khan Bahadur Mohd. Ismail made to the Secretary, Ministry of Education, Government of India a suggestion that the whole of the Mohenjo-Daro collection including the 2049 objects at Lahore should be distributed according to a ratio to 2 to 1 India to get 2/3rds and Pakistan 1/3rd and that India should have priority in the selection. The selection was to apply to all the 14 categories of objects and the distribution was to be made in the ratio of 2 to 1 from each category India having the first choice in the selection. This suggestion was acceptable to the Secretary to the Government of India, Ministry of Education, but was later withdrawn as the Pakistan delegation did not approve of it.

## PAKISTAN

The Mohenjo-Daro antiquities were removed from Mohenjo-Daro in May 1945 and deposited on long loan to the Central Museum at Lahore. As they were on loan, Mohenjo-Daro retained a lien on them and on the partition of India, the proprietary rights reverted to Mohenjo-Daro. The most important point in the decision of the Partition Council was that the Museum should be divided on a territorial basis and since Mohenjo-Daro falls in the territory of Pakistan, the objects on loan at the Lahore Museum fall to their share.

The objects were removed from the Lahore Museum after 1st January, 1947 specifically for the Central Asian Conference. In this connection, the letter of Dr. Wheeler, Director General of Archaeology to Mr. Agarwala asking him to proceed to Lahore and remove from there such exhibits as were, in his opinion, suitable to represent Mohenjo-Daro at the Central Asian Conference Exhibition is clear. This letter is a convincing proof of the fact that the articles removed by Dr. Agrawal, in accordance with the directions of Dr. Wheeler, were for the purpose of display at the Central Asian Exhibition, which was a temporary show. The contention of the Government of India that these objects were removed permanently to be exhibited in the proposed Central National Museum and that this step coincided with the Central Asian Exhibition is totally inconsistent with the documentary evidence available.

The representatives of the Government of India emphasise the fact that the intention of the Government of India regarding the disposal of the objects is material. On the other hand, the Pakistan representatives maintain that the intention of the Department of Archaeology regarding the future disposal of exhibits is irrelevant and that the main consideration is one of territorial jurisdiction of the two Dominions.

Even, on the question of intention, the Pakistan representatives maintain that the bulk of these antiquities were intended for Lahore and only a representative collection for the proposed Central National Museum. In this connection, the following documents are of importance:

- (i) Letter No. F. 3-22(2)/45-F. & L., dated the 15th August 1945, to the Government of Sind.
- (ii) Letter from the Director General of Archaeology to Mr. Armstrong, Chairman of the Lahore Museum Committee (No. 3325, dated the 23rd May 1944).
- (iii) Letter No. 5185, dated the 20th July 1946, from the Director General of Archaeology to Dr. Fabri, Curator, Lahore Museum.

These documents clearly show that the Mohenjo-Daro objects were deposited in Lahore on long loan on the following basis :

- (i) Lahore was the most suitable place to exhibit the Indus Valley collection.
- (ii) A part of this collection should go to Karachi when a suitable Museum at Karachi was developed.
- (iii) A part of it should go to the Central National Museum, when such a Museum in New Delhi was established.

The Pakistan representatives maintain that even if the question of intention were considered relevant, the Government of India would merely have a claim to 1/3rd of the total collection, the remaining being the share of the Lahore and Karachi Museums. But in that case they would insist on a share of the Harappa collection, which was transferred direct from Harappa to Delhi and a part of which was clearly intended for Lahore. Dr. Wheeler, Director General of Archaeology, in one of his letters stated in unambiguous language that a part of the Harappa collection lying at Delhi should be exhibited at Lahore. Indeed, he wanted this to be done and it is strange that while under his directions a part of the Mohenjo-Daro collection was removed to Delhi, the Lahore share of the Harappa collection lying at Delhi was not moved from there to Lahore.

Dr. Tara Chand suggested that this question should be approached from the point of compromise and accommodation and not on the basis of legal rights as claimed by Pakistan, or the intention of the Department of Archaeology as claimed by India. The High Commissioner responded to this suggestion and expressed the willingness of his Delegation to an agreed settlement. It was accordingly suggested that the two Directors General of Archaeology, Dr. Chakravarty and Dr. Moneer should draw up lists of this collection for division between the two Dominions to mutual satisfaction. The two officers met, but failed to agree on a satisfactory division. At the next meeting, this question was discussed again and it was decided that the two leaders, the High Commissioner for Pakistan in India and Dr. Tara Chand, should informally talk over, to explore the possibility of an agreed division of these exhibits. It was understood that these talks would be informal and that both the leaders would consult their Delegations before reaching a final decision. In the course of the informal talks conducted outside the Committee, the High Commissioner for Pakistan agreed to accept 1/3rd share. But Dr. Tara Chand stated that his Delegation would insist on retaining the unique collection for the Delhi Museum, and to have the first choice in the selection of their 2/3rd share. He further stated that the unique collection might well be less than 2/3rd and thus India might select the best stuff leaving the rest to Pakistan. As this proposition was unacceptable, the pursuit of an agreed solution was dropped. It was understood all along that these informal talks were intended to explore a possible basis of compromise and that these would have no bearing on the claims preferred by either party.

(d) *Return of Exhibits from the Royal Academy.*—Some exhibits of Mohenjo-Daro and Harappa Museums were given on loan from the Central Asian Antiquities Museum to the Royal Academy in 1947.

The title to the exhibits from the Mohenjo-Daro would depend upon the decision reached in respect of the other Mohenjo-Daro exhibits dealt with in (c) above.

The articles from the Harappa Museum belong to India in terms of the decision arrived at above. It was made clear in this connection that all these articles came from the first two batches removed from the Harappa Museum before 1st January 1947 and none of these falls in the third lot of articles removed from Harappa in May 1947.

(e) *Taxila Museum.*—Lists Nos. 1 to 8 furnished by the Government of Pakistan relate to Taxila Museum.

*Lists Nos. 1 and 2.*—It was decided that articles in these lists with the exception of items 177, 178 and 179 in List No. 1 should go back to Pakistan.

Items 177 to 179 of List No. 1 relate to discoveries made from Bhirmound. These articles belong to India.

*List No. 3.*—All articles belong to India.

*List No. 4.*—This consists of 1171 Indian coins and 4 Greek coins. These four Greek coins are also shown in list No. 1 of the Pakistan Government—it was decided that all the coins—India and Greek—should be divided between India and Pakistan on a 50=50 basis.

*List No. 5.*—It was decided that the articles in this list should go back to Pakistan.

*List No. 6.*—This should belong to India.

*List No. 7.*—This should belong to India.

*List No. 8.*—The articles in this list should go back to Pakistan as they were sent only for repairs.

(f) *Exhibits on loan to the Royal Academy.*—As all the 16 exhibits which are on loan to the Royal Academy come from List No. 1 mentioned above, the title for these articles would vest with the Government of Pakistan.

(g) *Human and Animal Skeletons from Mohenjo-Daro.*—The Chairman said that he had taken up the question with the Department of Anthropology and would arrive at a decision after the report had been received whether any of these skeleton remains could be given to Pakistan.

(h) *Registers belonging to Pakistan Museum.*—As stated at the first meeting on registers from Pakistan Museums had been removed by the Government of India for reference by the Steering Committee and the Partition Council. It was agreed that these should be returned to Pakistan early.

(j) *Blocks of Picture Postcards and Photo Negatives.*—It was stated again that the Government of India have only the blocks of the Mohenjo-Daro Harappa Postcards. When the question of partition was finally settled, the blocks of such of the exhibits as were returned to Pakistan should go to Pakistan. The blocks of the exhibits belonging to India should be retained in India.

The Pakistan Government were welcomed to have duplicate negatives made where necessary from the photo negatives in charge of the Department of Archaeology in India.

The picture post cards of Mohenjo-Daro and Harappa were not with the Government of India, Archaeological Department.

In conclusion, the Committee considered the question of the return to Pakistan of exhibits which are at present in London where they were sent for Exhibition through the India Committee of the Exhibition of India and Pakistan Art in London. It was agreed that there would be no objection to such exhibits which are finally deemed to be the share of Pakistan being sent to Pakistan direct from London.

RAM LAL,

for Dr. Tara Chand, 5th January, 1949.

S. M. Sharif,

Counsellor,

for His Excellency Khan Bahadur Mohammad Ismail,

High Commissioner for Pakistan in India.

# ANNEXURE I

No. 343/C

Director General of Archaeology in India,

Camp Karachi, the 7th May, 1944.

Dear Mr. Chaudhari,

I am anxious to concentrate at some central spot all the best things which the Indus Valley sites have produced. The obvious place at which to concentrate these things would be a central national Indian Museum. In the absence of such a Museum the Lahore Museum would supply a very useful substitute, and I am going to ask whether you and the governing authorities of your Museum would care to consider this proposal.

The proposal is that as soon as possible all the best things from Mohenjo-Daro shall be deposited on long loan in your Museum. Whilst at Mohenjo-daro itself only a small type collection shall be retained. Subsequently I shall like to add the bulk of the Harappa collection, together with the smaller series from Chanhudaro and Jhukar.

If you and your authorities agree to this proposal, your Museum, which is already so famous for its Gandhara sculptures, will have an additional claim to fame as the Indus Valley Museum. It will thus have a unique importance.

In the event of approval, it would be my wish to transfer the Mohenjo-daro collection to you immediately, and you could then use the services of Mr. Khan until September.

Would you please be good enough to let me know as soon as you can secure a decision from your governing body, if indeed the decision does not lie entirely in your hands.

Yours sincerely,

R. E. M. WHEELER.

Mohd. Ismail Chaudhari, Esq.

Lahore.

The Secretary to the Govt. of Sind,  
Political & Miscellaneous Dept.

## MOHENJO-DARO ANTIQUITIES—REMOVAL

SIR,

I am directed to refer to your letter No. 1049/M/45, dated the 4th October 1945 and to say that as already intimated to the Provincial Government in the late Education, Health and Lands Deptt. letter No. F. 3-22(2)/45-F.&L., dated the 15th August, 1945, all objects from Mohenjo-daro now on exhibition at the Central Museum, Lahore, have been deposited there only on loan and without prejudice to any decision that may be arrived at hereafter regarding their exhibition elsewhere. The Government of the Punjab has no lien upon them and the Government of Sind have already been assured that if and when a properly staffed and adequately financed museum is provided at Karachi, the Government of India will be prepared to consider the possibility of transferring to it a fully representative loan collection of Mohenjo-daro antiquities. The interests of Sind in Archaeological matters are being duly safeguarded by the Central Government but a practical move either on the part of the Municipality of Karachi or preferably on the part of the Provincial Government is a prerequisite to further action. I am to add that the proprietary rights in respect of all objects recovered from Archaeological excavations rest with the Central Government and the gold and silver articles and other valuable antiquities transferred to Lahore Museum or kept in a Bank safe, cannot therefore be deposited in the name of the Provincial Government.

I have the honour to be,

Sir,

Your most obedient servant,

RAM LAL,

Assistant Secretary,

for Secretary.

## ANNEXURE III

No. F. 3-22(2)/45-F. &amp; L.

GOVERNMENT OF INDIA

## DEPT. OF EDUCATION, HEALTH &amp; LANDS

Simla, the 15th August 1945

FROM

P. M. MENON, Esq., M.B.E., I.C.S.,  
Dy. Secy. to the Govt. of India.

TO

The Secretary to the Govt. of Sind,  
Revenue Department.

SUBJECT:—Mohenjo-Daro Antiquities—Removal

SIR,

I am directed to refer to your telegram dated the 21st May, 1945 on the subject mentioned above and to say that a number of Mohenjo-daro antiquities have been transferred to the Central Museum, Lahore. These antiquities have been deposited there only on loan and without prejudice to any decision that may be arrived at thereafter regarding their exhibition elsewhere. There are a large number of duplicates of most of the antiquities and a representative collection, excluding gold and silver objects, still remains at Mohenjo-daro. The ordinary visitor will in fact perceive little change as a result of the removal. The valuable antiquities cannot be exhibited at Mohenjo-daro owing to its remoteness and the insecurity of the district. They have for many years been kept in a bank safe and have now been transferred to Lahore where they will be accessible to scholars as well as to the general public.

## APPENDIX

2. I am to point out that Lahore is situated in the area of the Indus Valley civilisation. As regards the suggestion made in the form that the Mohenjo-daro antiquities should be transferred to the Victoria Museum, Karachi, I am to say that it is understood that there is a loan collection of exhibits from Mohenjo-daro at the Victoria Museum but the Government of India are advised that presumably owing to inadequate staff and funds, the standard of maintenance of the Museum, and the arrangement and care of the exhibits are not in accordance with modern standards. When a properly staffed and equipped and adequately financed museum is provided at Karachi the Government of India will be prepared to consider the possibility of transferring to it a fully representative loan collection of Mohenjo-daro antiquities.

I have the honour to be,

Sir,

Your most obedient servant,

N. HASSAN,

for Deputy Secretary.

No. F. 3-22(2)/45-F. &amp; L.

Copy to Director General of Archaeology in India.

By order,

N. HASSAN,

Assistant Secretary.

## ANNEXURE IV

Dr. Agrawala,

In fulfilment of an arrangement already made with the Curator of the Central Museum Lahore, please go to Lahore at an early date and remove such specimens as you think necessary for the purpose of representing Mohenjo-daro in connection with the forthcoming Inter-Asian Conference Exhibition here.

It is important that this Conference, which will include representatives from many foreign countries, shall see something of the very best that Mohenjo-daro has produced. At the same time I want you, please, to leave at Lahore a representative collection, supplemented if necessary by casts.

Together with the exhibits for the above-mentioned exhibition please remove from the Lahore Museum the potsherds, etc., found at Chanhu-daro, and all the boxes and crates of spare material from Mohenjo-daro itself at present deposited in the Lahore Museum but not exhibited.

You will of course take the opportunity of checking all the registers and will give the Lahore Museum (a) a detailed written receipt for all the objects which you remove from it and (b) a detailed list of all the objects which you leave with it on loan.

Kindly arrange with the Curator, Lahore Museum to carry out these operations *not later than the first week of January*, since it is essential that the Inter-Asian Exhibition shall be assembled forthwith.

R. E. MORTIMER WHEELER,

Director General of Archaeology in India.

Dated 22nd December 1946.

## ANNEXURE V

COPY OF D. O. LETTER NO. 5185, DATED 20TH JULY, 1946 FROM THE DIRECTOR GENERAL OF ARCHAEOLOGY TO DR. C. L. FABRI, CURATOR, THE CENTRAL MUSEUM, LAHORE.

I now put into black and white the main results of our (momentous) discussions last Saturday in regard to the disposal of the Indus Valley Collections. The following were, I think, the points:

(1) Apart from the primary claims of a national Indian Museum, the Government Museum at Lahore is the obvious modern metropolis of the Indus Valley civilisation. It is the most accessible major city within the ancient area of that civilization.

(2) I have therefore offered to the Punjab Government on loan an important share of the available collections.

(3) The nucleus of these collections is the material derived from Harappa in the Punjab and Mohenjo-daro in Sind. Of these two collections, that from the Punjab should, I think you will agree, be particularly well represented in the Provincial Capital. Archaeologically the collection from Sind should also be well represented by a loan collection

at Lahore, but, in addition to the inevitable claim of a national collection we are here confronted with a potential claim from Sind itself. If and when the Sind Government establishes a properly financed and controlled museum at Karachi a portion of the Mohenjo-daro material will have to go there and this will necessarily involve a partial surrender by Lahore. With this proviso and always with your co-operation, I propose that in the meantime the Mohenjo-daro collection shall be shared by Lahore and by the National Museum reserve.

(4) To implement this general scheme we agreed that within the limits of the present financial year the following action shall be taken:

(a) That you will be good enough to come to Delhi if possible, in October for the share-out of the Harappa material, which will in the meantime be concentrated at the Central Asian Antiquities Museum; and

(b) That Dr. Agrawala and I will make a selection from the Mohenjo-daro material now at Lahore, and will also remove the unexhibited Mohenjo-daro material which at present encumbers your premises.

These are, I think, the main points. I look forward very much indeed to the completion of this new arrangement.

Meanwhile, I hope that Baramula does all that it should for you, and that even the Indus Valley may for the time being be forgotten.

P.S.—I am returning herewith your most convincing paper on Buddhist Baroque. I am indeed grateful to you for the loan.

## ANNEXURE VI

D. O. No 3325

FROM

Director General of Archaeology in India,

Simla, the 22nd/23rd May, 1944.

DEAR MR. ARMSTRONG,

*Lahore Museum.*—In confirmation of our conversation today I now formally, on behalf of the Archaeological Survey of India, offer you as the Chairman of the Lahore Museum Committee our Principal Indus Valley collection on long loan.

As you know, the great collection of material unearthed during the past 20 years by the Archaeological Survey of India at Harappa, Mohenjo-daro and other Indus-sites has added a new chapter to the history not only of India but also of Central Asia and the Middle East. The collection has indeed entered into the general fabric of the history of civilization and even in wartime continues to be the subject of study and of publication.

At the present time it is scattered over a large number of small museums and remote store-houses and is now, in part, hidden away in a bank safe. In short, it is almost completely inaccessible and it is difficult even for specialists to visualise the full extent and importance of the materials.

I now therefore submit the following proposals to you (1) that all the best things from Harappa, Mohenjo-daro and related sites, including the collections of jewellery, be deposited by us on loan at the Lahore Museum with a view to preparing a really worthy exhibition of this great phase of Indian civilization, and (2) that the reserve material, in so far as it is likely to be required by research workers be also assembled there and stored accessibly.

This boils down in summary to a request for the use of one large exhibition gallery and one reserve gallery or suitable storage room with shelving.

The collection would be deposited on indefinite loan subject to its adequate maintenance by the museum staff, which would receive all possible help from the Archaeological Survey in maintenance and labelling.

Finally, I would once more emphasise the outstanding National importance of this collection and the fact that any museum entrusted with its keeping will thereby acquire a unique importance. In the absence of a central National Museum the Lahore Museum is, on geographical and other grounds, the most suitable repository.

Yours sincerely,  
R. E. M. WHEELER.

W. H. F. Armstrong, Esq., F.C.S.

Director of Public Instruction and Secy., Education Dept.  
Govt. of the Punjab, Simla.

GIPD—LAD—77 LAD—18.4.49—909

# CONSTITUENT ASSEMBLY OF INDIA LEGISLATIVE DEBATES

## (PART I—QUESTIONS AND ANSWERS.)

Friday, 4th February, 1949.

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

## STARRED QUESTIONS AND ANSWERS

### ORAL ANSWERS.

#### MANUFACTURE OF BREN GUNS AND RIFLES IN KANPUR FACTORY AND

#### POSITION OF AMMUNITION FACTORY HYDERABAD

\*124. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Defence be pleased to state whether it is a fact that Bren Guns and Rifles are manufactured in Kanpur War Time Factory and if so, what is the daily production?

(b) Are the rifles required for the training of cadets and recruits now available in sufficient number?

(c) What is the position of the Ammunition Factory at Hyderabad?

(d) Has it been taken charge of by the Ministry of Defence?

(e) If not, why not?

**The Honourable Sardar Baldev Singh:** (a) Bren Guns or Rifles are not manufactured at the Kanpur Factory at present.

(b) Yes.

(c) to (e). There is no Ammunition Factory at Hyderabad.

**Shri R. K. Sidhva:** May I know whether these Bren Guns are manufactured at Ishapur, and whether it is contemplated to remove them from there to Kanpur?

**The Honourable Sardar Baldev Singh:** I am not in a position to answer that question.

**Mr. Homi Mody:** What is the production of rifles in this country to-day?

**The Honourable Sardar Baldev Singh:** I regret, Sir, it is not in the public interest to answer that question.

**Shri Mahavir Tyagi:** Are they working now as heavily as they used to do during the war time?

**The Honourable Sardar Baldev Singh:** The House will be glad to know that they are working better than they used to do in war time.

**Shri R. K. Sidhva:** What kind of ammunition factory is there at Hyderabad? What do they produce?

**The Honourable Sardar Baldev Singh:** There is no ammunition factory at Hyderabad. There may be some factory making *barchas* and *bhallas*.

**Shri R. K. Sidhva:** Do they make any kind of arms?

**The Honourable Sardar Baldev Singh:** No, as far as I know.

**Mr. Homi Mody:** Is the capacity achieved during war-time in the matter of production of rifles being maintained?

**The Honourable Sardar Baldev Singh:** Yes.

**Shri Mahavir Tyagi:** Has the Bren Gun Factory which has shifted from Hyderabad been fixed in some place and is it in working order today?

**The Honourable Sardar Beldev Singh:** I think I replied to one of the questions put by my honourable friend in the last session, that arrangements are being made to put the Bren Gun Factory in one of the Centres.

#### ADMISSION OF INDIAN STUDENTS IN EDUCATIONAL INSTITUTIONS IN ENGLAND

\*125. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Education be pleased to state what is the number of Indian students in England and whether all of them have found admission in Colleges, Universities and Educational Institutes? If not, why not?

(b) Have Government taken steps to get admission for them?

**آنریبل مولانا ابوالکلام آزاد:** (a) گورنمنٹ سکالرز انجکل انکوائری میں تعلیم پا رہے ہیں۔ سب کو تعلیم کے لئے وہ جگہیں مل گئیں ہیں جن کے لئے وہ بھیجے گئے تھے۔

اور سینئر سکالرشپ سکیم کے ماتحت ۱۲۴ سکالرز دیسی ریاستوں کے بھی بھیجے گئے ہیں۔ ان سب کو بھی جگہیں مل گئیں ہیں۔

کوئی ویدیارتھی بغیر انتظام کے باہر نہیں بھیجے جاتا ہے۔ جب معام ہو جاتا ہے کہ اسکے داخلے کا انتظام ہو گیا ہے تب اسکو بھیجا جاتا ہے۔  
(b) سوال پیدا نہیں ہوتا ہے۔

**The Honourable Maulana Abul Kalam Azad:** (a) 460 Government Scholars are at present in England. All of them have secured admission for the courses of study for which they were sent.

124 Indian States Students have also been sent to England under the Overseas Scholarships Scheme. These students also have secured admission.

No student is sent abroad unless it has been confirmed that admission arrangements for him have been finalised.

(b) Does not arise.

**مسٹر آر۔ کے۔ سدھوا:** میرا سوال جو ویدیارتھی گورنمنٹ کے ماتحت بھیجے گئے ہیں ان کے متعلق نہیں ہے۔ میں پوچھنا چاہتا ہوں کہ ہندوستان کے جو ویدیارتھی اپنے خرچ سے گئے ہیں ان کے لئے کوئی شکایت آئی ہے کہ ان کو جگہیں نہیں ملی ہیں۔

**Shri R. K. Sidhva:** My question does not relate to students sent by the Government. What I want to know is whether any complaints have been received in respect of those Indian students who went on their own expense and could not secure admission?

**آنریبل مولانا ابوالکلام آزاد:** نہیں ایسی کوئی شکایت ملستری کے عام میں نہیں ہے۔

**The Honourable Maulana Abul Kalam Azad:** No. There is no such complaint within the knowledge of the Ministry.

**مسٹر آر۔ کے۔ سدھوا:** وہاں کے ہائی کمشنر نے ایک سٹیٹمنٹ نکالا تھا کہ سو دو کے قریب ہندوستانی ویدیارتھیوں کو جگہ نہیں مل رہی ہے اور ان کی ہدایت یہ ہے کہ جب تک گورنمنٹ آف انڈیا ان کا ہندوستان نہیں کوڑتی تب تک وہ نہ آئیں۔

**Shri R. K. Sidhva:** The High Commissioner there issued a statement that nearly two hundred students could not secure admission. His instructions are that unless the Government of India make arrangements for them, they should not come.

**آنریبل مولانا ابوالکلام آزاد:** آنریبل ممبر کے سامنے یہ بات دہنی چاہیے کہ ۱۹۴۱-۴۲ میں جب پرانی سکیم چل رہی تھی تو اس طرح کی مشکلات پیش آئی تھیں۔ لیکن اس کے بعد ملستری نے برابر کوشش کی اور جہاں تک میرا خیال ہے اسوقت کوئی دقت پیش نہیں آئی ہے۔

**The Honourable Maulana Abul Kalam Azad:** The honourable member should keep this in view that during the course of the operation of the old scheme such difficulties did arise. But after that the Ministry always did its best, and so far as I am aware no such difficulty is experienced at present.

**مسٹر آر۔ کے۔ سدھوا:** میں یہ دریافت کرنا چاہتا ہوں کہ کیا یہ صحیح بات ہے کہ ہائی کمشنر نے پہلی دستبر کو ایک سٹیٹمنٹ نکالا ہے جس میں یہ لکھا ہے کہ—

**Shri R. K. Sidhva:** I should like to know whether it is a fact that the High Commissioner issued a statement on the 1st of December to the effect that.....

"More than 200 Indian students who arrived this year for higher studies are finding it difficult to get into the Universities, technical institutions and also they find difficulty in getting accommodation."

**آنریبل مولانا ابوالکلام آزاد:** اگر آنریبل ممبر چاہتے ہیں تو میں اس بارے میں تحقیقات کروں گا۔

**The Honourable Maulana Abul Kalam Azad:** If the honourable member so desires, I will make enquiries into the matter.

**شری اچ. وی. کامت:** क्या इन स्कालर्स को जगह दिलाने में हाई कमिशनर से कोई मदद मिलती है?

**Shri H. V. Kamath:** Does the High Commissioner render any Assistance in securing admission for these scholars?

**آنریبل مولانا ابوالکلام آزاد:** یقیناً ملتی ہے۔ آخر وہ آفس اسی لئے رہا ہے کہ اسٹوڈنٹس کو مدد دے۔

**The Honourable Maulana Abul Kalam Azad:** Surely he does. After all that office is there to help the Students.

**شری اچ. وی. کامت:** क्या वजीर तालीम की नजर में श्री सरत चन्द्र बोस का बयान पेश आया है जिसमें उन्होंने ने कहा था.....

"Nothing whatsoever is being done by the Indian Embassy in London to help Indian students for getting educational facilities. The help they get is in finding a few boarding houses and hostels for them."

**Shri H. V. Kamath:** Has the Honourable Minister seen the statement made by Shri Sarat Chandra Bose in which he said:

"Nothing whatsoever is being done by the Indian Embassy in London to help Indian students for getting educational facilities. The help they get is in finding a few boarding houses and hostels for them."

**آنریبل مولانا ابوالکلام آزاد:** میرے خیال میں یہ بیان حقیقت کے خلاف

**The Honourable Maulana Abul Kalam Azad:** To me this statement appears to be quite contrary to the actual facts.

सेठ गोविन्द दास : क्या गवर्नमेंट इस बात का ख्याल रखेगी कि आइंदा जब विद्यार्थी हिन्दुस्तान से वहां जायें तो सिर्फ उन लोगों को पासपोर्ट दिया जाय जिन के लिए वहां की यूनीवर्सिटियों और कालजों में जगह का इन्तजाम हो जाय।

**Seth Govind Das:** Will Government keep in view that in future when students from India go there, passports are issued to those only for whom arrangements have been made to secure admission in Universities and Colleges there?

آنریبل مولانا ابوالکلام آزاد : جیسا کہ میں ابھی کہہ چکا ہوں ۱۹۴۷ء سے یہ تسکین ملنے لگی ہے۔ اور اسی تسکین پر کام ہوتا ہے۔

**The Honourable Maulana Abul Kalam Azad:** As I have just said, this practice has been followed by the Ministry since 1947, and things are being done accordingly.

**Srijut Rohini Kumar Chaudhuri:** May I draw the attention of the Honourable Minister to a number of specific instances of students who have not been sponsored by Government and who are now in great difficulty for want of admission. Will the Honourable Minister take any steps to help them in the matter?

آنریبل مولانا ابوالکلام آزاد : ہاں میں اس بارے میں تحقیقات کروں گا۔

**The Honourable Maulana Abul Kalam Azad:** Yes. I will make enquiries into the matter.

#### PRICE INDEX OF VARIOUS COMMODITIES

\*126. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Finance be pleased to state whether in pursuance of the Pay Commission's report, an All India Index of the prices of various commodities has been prepared?

(b) If so, where is it available and if not, why has such an index not yet been prepared?

**The Honourable Dr. John Matthai:** (a) and (b). The compilation of a table of all-India cost of living index numbers has presented in practice greater difficulties than the Pay Commission anticipated and these have been considerably enhanced by the partition of the country since the Commission reported. The efforts so far made to meet these difficulties have not yielded satisfactory results. The whole question of determining the lines on which an average cost of living index for divided India is to be calculated and the manner in which the resultant figure is to be linked up with the standard cost before the war will require further detailed expert examination. Government have recently adopted certain measures for improving and strengthening its statistical organisation which, it is expected, will help in solving this problem.

**Shri R. K. Sidhva:** In view of the Pay Commission's decision that the periodical index numbers statement should be published to enable the country and the people to know what dearness allowance should be given, may I know whether any measures are being taken by the Government to publish them, within as short a time as possible?

**The Honourable Dr. John Matthai:** The whole question of the cost of living index on the lines suggested by the Pay Commission will depend for its usefulness on the extent to which you can link up whatever cost of living index you can prepare today with the cost of living prepared before the war, and the question of partition comes into the picture very much. Partition has disturbed the whole basis of the statistical data that it has become a much more difficult process than was realised by the Pay Commission.

**Shri R. K. Sidhva:** That is true. But the point is even with the partition, is the Government serious about it, or do they not want to prepare the index numbers, because it is difficult.

**The Honourable Dr. John Matthai:** I do not want the House to get the impression that the Government has been inactive in the matter. I can say that our statistical organisations have been very active with this matter. We are having the matter in hand and we realise its importance, not merely the importance of having index numbers, but also of having them as soon as possible.

**Shri T. T. Krishnamachari:** Will the Honourable Minister be pleased to state whether the Government have given any increase in dearness allowance on any basis, as reported by the Pay Commission?

**The Honourable Dr. John Matthai:** I take it that the honourable member is referring to the grant of additional dearness allowance recently made. Yes, it was an *ad hoc* grant.

**Shri T. T. Krishnamachari:** May I know whether, since the Pay Commission Report and the fixation of dearness allowance thereafter, the Government have taken the first step in granting an increase in dearness allowance considering that the cost of living has gone up considerably?

**The Honourable Dr. John Matthai:** The dearness allowance which was granted by Government last month was the first instance of an additional dearness allowance being granted by Government after the first statement that they have issued on the recommendations of the Pay Commission. This last grant of dearness allowance was not necessarily based on the recommendation of the Pay Commission. It was done independently of the recommendation of the Pay Commission. It was granted in the nature of an *ad hoc* allowance.

**Shri T. T. Krishnamachari:** Is it the intention of the Government to disregard the recommendation of the Pay Commission in regard to the grant of dearness allowance in future?

**The Honourable Dr. John Matthai:** I think we made it clear in the statement issued on 20th January regarding the grant of this additional dearness allowance that, in the present financial condition of the country, it is impossible to link up dearness allowance absolutely with the cost of living index.

**Shri T. T. Krishnamachari:** Am I to interpret the Honourable Minister's statement to mean that dearness allowance will never be linked with the increase in prices but will only be on an *ex gratia* basis.

**The Honourable Dr. John Matthai:** In the present condition, that is the position.

**Prof. N. G. Ranga:** Are the Government prepared to collect index figures for rural India also?

**The Honourable Dr. John Matthai:** I will be making the task very much difficult. I should like to try a hand on it.

**Shri B. Das:** May I know to what extent the Ministry of Finance is utilising the Statistical Department of the Commerce Ministry and whether there is any policy of co-ordination between that Department which was the former Statistical Department of the whole Government of India and the Ministry of Finance?

**The Honourable Dr. John Matthai:** The Office of the Economic Adviser to the Government of India, which is part of the Ministry of my Honourable Colleague the Commerce Minister, has been functioning all these years. Government have at present under consideration the development, at any rate of a nucleus, of a Central Statistical Organisation. The whole question of linking up the existing statistical organisation with the future one is under the consideration of Government.

## REPORT OF KOLHAPUR DISTURBANCES ENQUIRY TRIBUNAL

\*127. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of States be pleased to state whether it is a fact that the tribunal consisting of Justice Koyaji appointed to enquire into the recent disturbances in Kolhapur (Bombay) has submitted its report criticising the action of some of the State Ministers of Kolhapur?

(b) Have Government taken the report into consideration and if so, with what result?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes.

(b) The Government of Kolhapur have been asked to take appropriate action in the matter.

**Shri H. V. Kamath:** May I know from the Honourable Minister of States whether the Ministers mentioned in this question were opposed to the idea of merger of Kolhapur with Bombay which was announced recently?

**The Honourable Sardar Vallabhbhai Patel:** It is not quite clear whether they are opposed to the merger or whether they are in favour of merger. At one time they passed a resolution in favour of merger and at another time when they were in office they did not want merger. When they are out of office they want merger.

**Seth Govind Das:** Is it not a fact that generally when these Ministers are in office they are opposed to merger?

**The Honourable Sardar Vallabhbhai Patel:** Not always.

**Shri R. K. Sidhva:** If there is to be merger, may I know which Government will take action?

**The Honourable Sardar Vallabhbhai Patel:** It is difficult for me to say what the Bombay Government will do in future.

**Shri R. K. Sidhva:** My question was which Government will take action?

**The Honourable Sardar Vallabhbhai Patel:** If the merger takes place immediately then it will be the duty of the Bombay Government to take action.

**Shri H. V. Kamath:** May I know when the merger is expected to take place?

**The Honourable Sardar Vallabhbhai Patel:** The date fixed is 1st March.

## CONFIRMATION OF TEMPORARY CLERKS OF THE MILITARY ACCOUNTS DEPARTMENT

\*128. **Dr. V. Subramaniam:** Will the Honourable Minister of Finance be pleased to state what is the policy of Government regarding confirmation of temporary clerks in the Military Accounts Department?

**The Honourable Dr. John Matthai:** Temporary clerks are graded according to their qualifications and the departmental examination they have passed. Within each grade, due regard is paid to the seniority of individuals. Such temporary clerks are then confirmed as and when vacancies arise. The number of vacancies is of course limited by the sanctioned permanent cadre.

**Mr. Speaker:** Next question.

**Shri T. A. Ramalingam Chettiar:** Is it a fact . . . .

**Mr. Speaker:** I am calling the next question.

## CONFIRMATION OF QUALIFIED CLERKS OF MILITARY ACCOUNTS DEPARTMENT

\*129. **Dr. V. Subramaniam:** Will the Honourable Minister of Finance be pleased to state the policy or the action taken by Government to confirm clerks

of the Military Accounts Department, who have qualified themselves in a competitive departmental examination (i.e., A Grade Examination)?

**The Honourable Dr. John Matthai:** The Departmental Examinations such as the A Grade Examination are qualifying, not competitive, tests. The confirmation of temporary clerks within the sanctioned cadre is made having regard to their merit and the departmental examinations they have passed. A large number of clerks who passed the A Grade Examination have already been confirmed. The cases of others will be considered as and when further vacancies arise.

## MUSLIM OFFICIALS OF INDIAN STATES HAVING ACCOUNTS IN PAKISTAN BANK

\*130. **Shri Biswanath Das:** Will the Honourable Minister of States be pleased to state:

(a) whether it is a fact that a number of high and responsible Muslim officials at present serving in different States in India have big bank balances in banks in Pakistan even to-day;

(b) if so, whether any such officer has intimated these facts to the Government of India or the State Governments concerned before or after the separation of the finances and currency of India and Pakistan or at least after the division of the Reserve Bank assets between India and Pakistan;

(c) the number of such officials serving in each of the States in India;

(d) whether Government have considered any action to be taken in this regard; and

(e) if so, what is the action proposed to be taken?

**The Honourable Sardar Vallabhbhai Patel:** (a) to (c). Government have no information.

(d) and (e). Do not arise.

## NURSES IN GOVERNMENT HOSPITALS CONTRACTING TUBERCULOSIS

\*131. **Sardar Bhopinder Singh Man:** (a) Will the Honourable Minister of Health be pleased to state the number of nurses who have contracted tuberculosis during the last one year while serving in Government Hospitals?

(b) How many of such cases have proved fatal?

(c) What are the causes for the occurrence of such cases?

**The Honourable Rajkumari Amrit Kaur:** (a) to (c). The information is being collected and will be laid on the table of the House as soon as it is ready.

**Mr. Frank Anthony:** Is the Government aware that in most hospitals, the nurses are underfed and overworked and are serving under disgraceful conditions?

**The Honourable Rajkumari Amrit Kaur:** The Government are aware of the fact and it has been recommended to all the Provinces to take up this question. The Centre is also actively engaged in ameliorating the condition of pay and status of nurses as also their living quarters.

**Prof. N. G. Ranga:** May I know if this is the case only in regard to nurses in hospitals and whether is it also the case with all lower paid employees in Government hospitals?

**Mr. Speaker:** The question is too general.

**Prof. N. G. Ranga:** Is it not a fact that certain cases of extremely under paid conditions have been brought to the notice of the Honourable Minister?

**Mr. Speaker:** The main question is restricted to nurses.

**Shri H. V. Kamath:** Considering the nature of the work the nurses do, perhaps sometimes dirty and loathsome work that they have to do, do they get any special allowances?

**The Honourable Rajkumari Amrit Kaur:** No special allowances are given for work.

**Mr. Speaker:** Order, order; the honourable member is arguing.

**Shrimati Dakshayani Velayudhan:** Has not the hospital authorities refused to give free medical treatment to the nurses suffering from tuberculosis?

**The Honourable Rajkumari Amrit Kaur:** That is quite incorrect.

#### INTERFERENCE BY RAJPRAMUKH OF PATIALA AND EAST PUNJAB STATES UNION IN EAST PUNJAB POLITICS

**\*132. Sardar Bhopinder Singh Man:** Will the Honourable Minister of States be pleased to state whether Government have received any communication from the Government of East Punjab requesting the Ministry of States to dissuade the Rajpramukh of Patiala and East Punjab States Union from interfering in East Punjab politics and its affairs?

**The Honourable Sardar Vallabhbhai Patel:** Yes.

**Sardar Bhopinder Singh Man:** Is the Government aware that the Rajpramukh has got a party of his own known as Panthic Durbar of which he is the President and which is being financed by himself and which functions outside the State as well as inside the State?

**The Honourable Sardar Vallabhbhai Patel:** I know nothing about the Rajpramukh having a party of his own, but so far as interference of the Rajpramukh in the affairs of the East Punjab Government is concerned, his attention was drawn to the complaint. A similar complaint was however, received from the Rajpramukh about some of the Ministers of the East Punjab Government interfering in the administration of his State, their attention has also been drawn to it. They have both been asked to keep within the limits of propriety and decency.

#### DISBANDMENT OF SUPERFLUOUS HYDERABAD STATE FORCES

**\*133. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Defence be pleased to state what was the strength of the Nizam's Army at the time when the Nizam's forces surrendered and the Military Governor took charge of the administration of the State?

(b) Have any steps been taken to disband such of the forces as were in excess of the normal strength according to the terms of the agreement between the two Governments?

**The Honourable Sardar Baldev Singh:** (a) 18,712 all ranks.

(b) Yes, troops in excess of the agreed strength are being disbanded.

**\*134—\*135. [WITHDRAWN]**

#### WORLD PRODUCTION OF OPIUM AND PROHIBITION IN INDIA

**\*136. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Finance be pleased to state the total production of opium in the world and the quantity produced by each country?

† Answer to this question laid on the table, the questioner being absent.

(b) How much opium is consumed in India for medicinal purposes and how much for scientific purposes?

(c) By which year will opium consumption be totally prohibited in India?

(d) Do Government propose to have a conference of representatives of all provinces to discuss the question of the prohibition of opium?

**The Honourable Dr. John Matthai:** (a) and (b). The information is not available.

(c) It is not possible to forecast the year by which Opium for oral consumption will be totally prohibited.

(d) Yes.

**Shri Lakshminarayan Sahu:** Is there any possibility to forecast the year by which Opium for oral consumption will be totally prohibited?

**The Honourable Dr. John Matthai:** I am afraid I can give no indication of the time when it will be available.

**Srijut Rohini Kumar Chaudhuri:** Has Government taken any steps to enquire how much of the opium is actually used for medicinal purposes?

**The Honourable Dr. John Matthai:** It is very difficult for me on the data available to me to give a precise answer to that question. I could perhaps tell the honourable member that before the War, the League of Nations laid down the standard consumption for medicinal and scientific purposes, which I believe, was 6 oz. per ten thousand of population. From the latest figures of Indian consumption that I have seen our consumption at present is slightly below that figure.

**Srijut Rohini Kumar Chaudhuri:** Is it the aim of the Government to have total prohibition of opium in India except for medicinal purposes, and if so, why an enquiry is not made regarding the quantity which is necessary for medicinal purposes?

**The Honourable Dr. John Matthai:** As I said in a reply that I gave the other day, the whole question of implementing this policy will be taken up for consideration in connection with the All India Conference, which I am calling very shortly.

**Shri Biswanath Das:** In view of the fact that the Government of India have been a party to all International conferences regarding prohibition of Opium, could the Honourable Minister please state what active steps have been taken regarding the prohibition of Opium in India?

**The Honourable Dr. John Matthai:** Consistently with the administrative difficulties, we have been trying our best to put in force this policy which has been announced by Government. What we have done recently in connection with that is that we have issued a direction to all provinces and states to cut down their indent for Opium on our factories by ten per cent. for the current year, but I should certainly look into the question of adopting some means whereby this policy could be implemented more quickly.

**Shri Biswanath Das:** In spite of these active steps are the Government aware of the fact that consumption of Opium has increased, and the Provincial income under this head has considerably been increased in the last ten years?

**The Honourable Dr. John Matthai:** I am afraid I cannot say whether it has increased but I am quite willing to admit that the revenue derived by the provinces is very considerable.

**Srijut Rohini Kumar Chaudhuri:** Does the Government realize that owing to the indifferent attitude of the Government of India in this matter, the provinces which have already introduced prohibition shall have to relax their own policy?

**Mr. Speaker:** Order, order.

**Mr. Speaker:** On these obvious questions it should be presumed that he is aware of the various Departments' activities. These questions will be relevant if the honourable member wishes to proceed with cross-examination as a basis for further question to be put to witness by way of argument. But nothing of the kind is permissible in question hour.

**Shri Mahavir Tyagi:** I have done my job Sir.

**The Honourable Dr. Syama Prasad Mookerjee:** If the House wants to know whether the scheme which we have prepared has been prepared after consultation with different Ministries, I should say that the answer is in the affirmative.

**Mr. Homi Mody:** Apart from the question of competition to which the Honourable Minister has referred, will the agreement make provision for the utilisation of such components as are manufactured in the country and which may be found to be suitable. That was my question really.

**The Honourable Dr. Syama Prasad Mookerjee:** I shall bear that in mind.

**Seth Govind Das:** How many radio receiving sets are imported in this country and has Government any plan to make this country self-sufficient as far as these sets are concerned?

**The Honourable Dr. Syama Prasad Mookerjee:** That also we have in view. We want to make it self-sufficient as far as possible.

**Seth Govind Das:** How many sets are imported into this country?

**The Honourable Dr. Syama Prasad Mookerjee:** I have not got the figure.

**Shri H. V. Kamath:** Which are the companies at present manufacturing radio sets in this country?

**The Honourable Dr. Syama Prasad Mookerjee:** About 11 different manufacturers have asked for permission. I believe four of them—Philips Electrical Co., I.R.P. Radio Ltd., Calcutta, Supreme Electrical and Engineering Co., Bombay and Patiala Electronics, Patiala, have now gone into production.

**Shri H. V. Kamath:** Are they manufacturing?

**The Honourable Dr. Syama Prasad Mookerjee:** They are.

#### ABSORPTION OF RELEASED INDIAN EMPLOYEES OF GOVERNMENT OF BURMA

**\*1375. Seth Govind Das:** (a) Will the Honourable Minister of Communications be pleased to state whether he has made any arrangement in his department for the absorption of the released Indian employees of the Government of the Union of Burma?

(b) If the answer to part (a) above be in the affirmative, how many released Indian employees from Burma have been absorbed up till now?

(c) On what basis has the selection been made?

**Shri Khurshed Lal (Deputy Minister of Communications):** (a) In accordance with general instructions issued by the Home Ministry, arrangements have been made for employing in the offices under the control of the Ministry of Communications certain categories of Indian staff released by the Government of Burma.

(b) Sixty-six persons have so far been employed in the several offices under the Ministry of Communications.

(c) The selections have been made on the ground of suitability as judged from the qualifications and experience of each individual.

**Seth Govind Das:** How many applications were received in this respect and out of those applications, how many have been rejected?

**Shri Khurshed Lal:** We do not receive applications direct. The External Affairs Ministry make a list of such persons and they send it on to us.

**Seth Govind Das:** Did they send only those applications which had been accepted or more were sent and they were not accepted by this Department?

**Shri Khurshed Lal:** I should like to have notice.

**Shri H. V. Kamath:** As between Indian employees who have opted out of Pakistan for India and the Indian employees released from Burma, who gets the preference, other things being equal?

**Shri Khurshed Lal:** I should like notice.

**Shri T. T. Krishnamachari:** May I ask the Minister if the Honourable Minister for Communications had not received direct representations from representatives of people—about two thousand and odd persons—who were formerly employed by the Union of Burma and if any arrangement is being made to absorb all those 2,000 people?

**Shri Khurshed Lal:** I am not aware of any such representation having been received but I will enquire into it.

#### DEMURRAGE RECOVERED BY BOMBAY PORT TRUST

**\*1376. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Transport be pleased to state the amount of demurrage recovered by the Bombay Port Trust during the years 1945, 1946, 1947 and 1948 from consignees?

(b) Have merchants made any representation about such demand of demurrage?

(c) What action have Government taken in the matter?

(d) What is the capacity of all godowns of Bombay Port Trust and do they meet the demands of all goods which come into Bombay docks and if not, what steps have the Port Trust so far taken to build additional godowns?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The amounts of demurrage recovered by the Bombay Port Trust were as follows:

|         |    |                   |
|---------|----|-------------------|
| 1944-45 | .. | Rs. 24.00 lakhs.  |
| 1945-46 | .. | Rs. 29.96 lakhs.  |
| 1946-47 | .. | Rs. 45.44 lakhs.  |
| 1947-48 | .. | Rs. 107.26 lakhs. |

(b) Yes.

(c) Customs and Import licence formalities have been simplified as far as possible. The Port Trust have also been asked to adopt a liberal policy of remission of such dues in so far as the detention of the import cargo appears to be due to circumstances beyond the control of the importer. Each specific case is carefully examined by the Port Trust and a refund or waiver granted wholly or partially, if the consignee does not take delivery in certain specified circumstances such as the untraceability of packages, detention due to bona fide customs requirements, compliance with Trade Control formalities etc.. Claims based on compassionate grounds are also duly considered by the Trustees.

(d) The total capacity of all the godowns is 2,540,980 sq. ft. After the Explosions of 1944 which entailed a loss of about 739,197 sq. ft. the accommodation is not sufficient to meet all demands. Several long and short term projects have been taken in hand by the Bombay Port Trust for the relief of congestion, for example, the construction of an uncleared goods warehouse.

**Shri Sita Ram S. Jajoo:** Is the information of total production of Opium in India also not available?

**The Honourable Dr. John Matthai:** The total production in India is not available, the reason being the cultivation of Opium, as the honourable member knows, is confined to the U. P. and to the Simla Hill States—Himachal Pradesh—about which we have not got reliable statistics.

#### GRANT TO DELHI UNIVERSITY FOR ESTABLISHMENT OF TUBERCULOSIS INSTITUTE

**\*137. Shri Lakshminarayan Sahu:** Will the Honourable Minister of Health be pleased to state if any lump sum grant as well as any recurring grant has been made to the Delhi University for the establishment of a Tuberculosis Institute?

**The Honourable Rajkumari Amrit Kaur:** Government have recognised in principle the necessity for establishing a Tuberculosis Institute at the Delhi University and a sum of Rs. 60,000 under Revenue and Rs. 1 lakh under Capital has been provided in the budget estimates for 1949-50 for the purpose. A grant of Rs. 13,500 was sanctioned last year to the University for running a Diploma course in Tubercular Diseases and a similar grant is under consideration for the current year.

**Shri B. Das:** May I know what was the necessity for Delhi University carrying out this Tuberculosis research, in view of the fact that it is a baby university and has no medical education tradition?

**The Honourable Rajkumari Amrit Kaur:** It is part and parcel of the scheme for the All India Institute which I hope will come into being in Delhi and this course which has been instituted has been of very great value.

**Shri Lakshminarayan Sahu:** May I know if other universities of India have received any medical grants for tuberculosis or any other diseases?

**The Honourable Rajkumari Amrit Kaur:** The Government of India give special development grants to all the provinces and it is for the provinces themselves to allocate such funds as they wish for special purposes.

**Prof. N. G. Ranga:** What were the considerations that weighed with Government in order to make Delhi the venue for this All India Medical Institute and associate with it all these various other institutes?

**The Honourable Rajkumari Amrit Kaur:** This decision was taken sometime ago and I think it is very necessary for the All India Medical Institute to be here in Delhi, where we have got the land in the University area and where it will be under the direct eye of the Central Ministry of Health.

**Seth Govind Das:** Is it not a fact that Government made a statement that all such institutes will not be located in Delhi but will be distributed among the various provinces in India? Was that policy not announced by the Government?

**The Honourable Rajkumari Amrit Kaur:** But this decision about the All India Medical Institute was taken sometime ago and I see no reason why it should be revised.

**Prof. N. G. Ranga:** Was this question raised before the Standing Advisory Committee for this Department, and if so, what were its recommendations?

**The Honourable Rajkumari Amrit Kaur:** This decision was taken before I came into office.

**Shri B. Das:** Cannot our national Government change the ideas of the former Government and decentralise medical education from Delhi to other places where they have larger experience?

**Mr. Speaker:** Order, order. The Honourable Minister need not answer it.

**Shri Arun Chandra Guha:** In view of the fact that Calcutta get a large number of tuberculosis cases every year, has the Government of India any idea of starting a tuberculosis institute attached with the Calcutta University?

**Shri Brajeshwar Prasad:** Also in the Patna University!

**Mr. Speaker:** I shall now not allow any more questions on this subject. Next question.

#### AGRICULTURAL AND VETERINARY COLLEGES FOR UTKAL UNIVERSITY

**\*138. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Education be pleased to state whether it is a fact that the Vice-Chancellor of the Utkal University sent a letter to the Chairman of the Scientific Man Power Committee asking for funds for the establishment of an Agricultural College and a Veterinary College and also for providing facilities for post-graduate studies in Physics, Botany, Zoology and Geology in the Utkal University?

(b) What have Government decided or what do Government propose to do in the matter?

آنریبل مولانا ابوالکلام آزاد : (اے) ہاں  
(بی) گورنمنٹ کو ابھی تک سائنٹیفک مین پاور کمیٹی کی سفارش اس بارے میں نہیں ملی ہے جو یہی وہ گورنمنٹ کے سامنے آئی اس پر غور کیا جاویگا۔

**The Honourable Maulana Abul Kalam Azad:** (a) Yes.

(b) The Government of India await the recommendations of the Scientific Man Power Committee before considering the matter.

#### EDUCATIONISTS SENT ABROAD FOR STUDY OF ADULT (SOCIAL) EDUCATION SYSTEM

**\*139. Shri Lakshminarayan Sahu:** Will the Honourable Minister of Education be pleased to state:

(a) whether any educationists have been sent to U.K., U.S.A., U.S.S.R., China and Mexico to study the Adult (Social) Education Systems of those countries, and if so, who they are and on what principle they have been selected;

(b) whether Government propose to send educationists for such studies from every Unit of the Indian Union; and

(c) how many scholars have been sent to foreign countries during the year 1947-48 under the Overseas Scholarships Scheme and from which provinces?

آنریبل مولانا ابوالکلام آزاد : (a) گورنمنٹ آف انڈیا نے ابھی تک کوئی ایجوکیشنسٹ اس غرض سے باہر کے ملکوں میں نہیں بھیجا ہے کہ آڈلٹ ایجوکیشن سسٹم کا وہاں مطالعہ کرے۔ یعنی اسٹڈی کرے۔

(b) سنٹرل ایڈوائزری بورڈ آف ایجوکیشن یہ تجویز پیش کر چکی ہے اور گورنمنٹ کے سامنے ہے۔ گورنمنٹ چاہتی ہے کہ آڈلٹ ایجوکیشن کا جس قدر کام ملک میں ہو رہا ہے اسکی دیکھ بھال کرنے اور کاموں کو مل جل کر ایک ڈھنگ پر چلانے کے لئے اکسپورت کا ایک بورڈ بناوے۔ یہ بورڈ بہت جلد بننے والا ہے۔ یہی بورڈ اس تجویز پر بھی غور کریگا کہ کتنے آدمی باہر بھیجنے چاہئیں اور کن کن ملکوں میں بھیجنے چاہئیں۔ پھر گورنمنٹ اسکی سفارشوں کی روشنی میں اس معاملہ کو انجام دیگی۔

(c) ۲۷-۲۸ میں کوئی سکالر اسباب کے لئے باہر نہیں بھیجا گیا۔

**The Honourable Maulana Abul Kalam Azad:** (a) The Government of India have not so far sent any educationists to U. K., U. S. A., U. S. S. R., China and Mexico to study the Adult (Social) Education systems of those countries.

(b) The Central Advisory Board of Education have recommended that educationists should be sent abroad to study Adult (Social) Education systems in different countries. The Government of India propose to set up a Board of Experts who will co-ordinate Social Education activities in the provinces and the centrally administered areas. Question of sending educationists abroad and the way in which such educationists are to be selected will be referred to this Board and Government will generally act on its advice.

(c) As stated above, during the year 1947-48, no scholars have been sent to foreign countries to study Adult (Social) Education.

श्री एच० वी० कामत : क्या इस सवाल हिस्से (c) के जवाब के मुतालिक वजीरे तालिम यह बतला सकेंगे कि Government of India ने Russian Government के साथ Scholar भजने के लिये कोई बात चीत शुरू की थी ?

**Shri H. V. Kamath:** Will the Honourable Minister please state in reference to part (c) of the question whether the Government of India had initiated any negotiations with the Russian Government for sending the scholars?

अंत्रिबल मलाना अबुल कलाम आज़ाद : रशियन गवर्नमेंट के साथ कोई बातचीत चालू नहीं की गئی -

**The Honourable Maulana Abul Kalam Azad:** No formal negotiations were carried out with the Russian Government?

श्री एच० वी० कामत : क्या यह खबर सच है जो नई दिल्ली से ग्यारह अक्टूबर को प्रकाशित हुई थी :

(Shri H. V. Kamath: Is this news item published from Delhi on the 11th of October correct?)

"A scheme for exchange of students between India and Russia was initiated by the Education Ministry following the receipt of about a dozen of applications from post-graduate Indian students seeking facilities for study in medicine, education, agriculture and political science in Russia. The Russian Government it is understood, agreed to provide facilities on a reciprocal basis. The scheme had, however, to be dropped on the recommendation of the Ministry of Home Affairs which did not consider the present time suitable for its implementation."

अंत्रिबल मलाना अबुल कलाम आज़ाद : हाँ एक खास حد तक -

**The Honourable Maulana Abul Kalam Azad:** Yes, to a certain extent.

श्री एच० वी० कामत : तो यह क्यों (drop) किया गया ?

**Shri H. V. Kamath:** Then why was it dropped?

अंत्रिबल मलाना अबुल कलाम आज़ाद : इसने यह معلूम हो रहा था कि Russia के हालात ऐसे नहीं हैं कि जहाँ लोगों को बिना जाँचे और उनके सही सुलूकों के बिना भेजा जा सके, और वे वहाँ पर सही सुलूकों में मिल सकेंगे -

**The Honourable Maulana Abul Kalam Azad:** Because it was so learnt that conditions prevailing in Russia were not such where people could be sent, and they would not be able to get adequate facilities there.

श्री एच० वी० कामत : वह हालात क्यों खराब हैं और किस तरह से खराब हैं ?

**Shri H. V. Kamath:** Why and how the conditions there are unfavourable?

अंत्रिबल मलाना अबुल कलाम आज़ाद : यह पूरी कहानी तो अंत्रिबल मलाना को असुक्त नहीं लगती जा सकती लेकिन मन्सूरी की معلومات यह हैं कि वहाँ के हालात असुक्त ऐसे नहीं हैं कि हमारे स्टूडेंट्स को पूरी सुविधाएँ वहाँ मिल सकें -

**The Honourable Maulana Abul Kalam Azad:** This cannot be explained in detail to the honourable member at the moment. But the information obtained by the Ministry was that the conditions prevailing there at present are not such as would enable our students to get all the facilities.

श्री देशबन्धु गुप्ता : क्या यह सच है कि यू-पी गवर्नमेंट की तरफ से एक प्रोफेसर डॉक्ट अिजुकेशन की काम तैयार करने के लिये अंजल भेजा गया है, जहाँ से वे आकर अिजुकेशन का काम करेंगे ?

**Shri Deshbandhu Gupta:** Is it not a fact that a Professor has been recently sent by the U. P. Government to New York to undergo general training in Adult Education, where the question of adult education does not arise at all?

अंत्रिबल मलाना अबुल कलाम आज़ाद : यू-पी गवर्नमेंट के कामों के लिये अंत्रिबल मलाना को ज़िम्मेदार नहीं समझें सकते -

**The Honourable Maulana Abul Kalam Azad:** The honourable member cannot hold me responsible for the actions of the U. P. Government.

#### COLLECTION OF VITAL STATISTICS IN HEALTH MINISTRY

\*140. **Dr. V. Subramaniam:** (a) Will the Honourable Minister of Health be pleased to state whether Government are aware that the present machinery for collection of vital statistics such as births and deaths, causes of death, number of persons suffering from communicable diseases, etc., in each province in India is defective?

(b) What are the arrangements made so far to obtain and tabulate correct figures? Do Government propose to make any arrangement to make the machinery perfect so that correct figures are available?

(c) Is there any separate statistical section attached to the Ministry of Health for this purpose?

**The Honourable Rajkumari Amrit Kaur:** (a) Yes.

(b) Any improvement in the existing methods of registration and compilation of vital statistics so as to ensure a reasonable degree of accuracy will be possible only if the main recommendations made by the Bhow Committee are carried out. Being aware of the urgent need of improvement in this matter the question was brought up for consideration at the Provincial Health Ministers' Conference in August last and a special committee was appointed to report on the measures that are necessary. The proposals of this Committee are awaited.

(c) There is a small Statistical Bureau attached to the office of the Director General of Health Services.

**Dr. V. Subramaniam:** Are Government going to wait till such time the Committee's recommendations are carried out?

**The Honourable Rajkumari Amrit Kaur:** I have already said that a Committee has been appointed to make suggestions and we are awaiting that Committee's report.

## LOSS OF R. I. A. F. PLANES IN AIR CRASHES

†\*141. **Shri S. Nagappa:** Will the Honourable Minister of Defence be pleased to state:

(a) the number of aeroplanes belonging to the R.I.A.F. lost in air crash from 15th August, 1947 to 31st December, 1948;

(b) the total value of the planes thus damaged;

(c) the number of lives and extent of property lost in such accidents;

(d) the causes for these crashes; and

(e) whether Government have taken any action to avoid recurrence of such accidents?

**The Honourable Sardar Baldev Singh:** (a) to (c). It is true that a certain number of planes were lost in air crashes, but it would not be in the public interest to disclose the particulars asked for.

(d) The crashes are mainly attributable to bad weather, technical or mechanical failure and pilot error.

(e) Every flying accident is thoroughly investigated. The number and causes of these accidents are reviewed periodically and appropriate action is taken to prevent their recurrence.

## INDIANS SENT ABROAD FOR HIGHER STUDIES

†\*142. **Shri S. Nagappa:** (a) Will the Honourable Minister of Education be pleased to state the number of Indians sent abroad for higher studies?

(b) How many of them have returned and how have they been absorbed in the various services?

**The Honourable Maulana Abul Kalam Azad:** (a) and (b). 960 Government Scholars have so far been sent abroad for higher studies, out of whom 461 have returned. It might be pointed out that the Central Government is concerned primarily with the placement of Central Scholars only; of whom 216 have returned so far and 165 already employed or called for interviews prior to selection. A statement showing in detail the employment position of the returned scholars is laid on the table of the House.

234. Indian States students were also sent, out of whom 40 have returned. Their placement on return is the sole responsibility of the Indian States.

*Statement Showing the names of scholars who returned to India from Foreign Countries after completing their courses and their employment position in the various services.*

| Name of the scholar          | Employment position                                                  |
|------------------------------|----------------------------------------------------------------------|
| (1) <i>Central Scholars.</i> | (A) <i>Overseas scholarships scheme</i>                              |
| (1) Mr. P. V. Krishna Iyer   | Joined his old post of Assistant Statistician in I.A.R.I. New Delhi. |
| (2) Mr. D. Panigrahi         | Appointed as Lecturer in Central Institute of Education, Delhi.      |
| (3) Mr. A. C. John           | Called for interview by Chief Engineer, A.I.R.                       |
| (4) Mr. M. V. N. Murthy.     | Absorbed in the Geological Survey of India.                          |

† Answer to this question laid on the table, the questioner being absent.

| Name of the scholar          | Employment position                                                                                                                                                           |
|------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (1) <i>Central Scholars.</i> | (A) <i>Overseas scholarships scheme</i>                                                                                                                                       |
| Mr. M. S. Rao                | Called for interview by Director Geological Survey of India for the post of Assistant Geologist.                                                                              |
| (6) Mr. P. Dayal             | Appointed as temporary Assistant Director of Supplies in the office of Director of Supply, Bombay.                                                                            |
| (7) Mr. N. K. Aggarwal       | Appointed as Assistant Director in the Central Water Power Irrigation & Navigation Commission.                                                                                |
| (8) Mr. V. Parbhakar Rao     | Appointed as Entomologist in the Icorya Purchasi Central Scheme, Bangalore under the Directorate of P. P. R. & S.                                                             |
| (9) Mr. Braham Sarup         | Interviewed for employment in Fisheries Res. Station, Calcutta (Grade II).                                                                                                    |
| (10) Mr. V. R. Sarma         | Called for interview for the post of Cameraman & Sound Recordist.                                                                                                             |
| (11) Mr. R. A. P. Iyengar.   | Offered the post of temporary Assistant Engineer under A.I.R.                                                                                                                 |
| (12) Mr. Sucha Singh         | Called for interview at I.A.R.I.                                                                                                                                              |
| (13) Mr. G. S. Murthy        | Joined his old post as Res. Assistant at I.A.R.I. New Delhi.                                                                                                                  |
| (14) Mr. K. L. Khanpur       | Appointed as Deputy Director in the Film Division at Bombay.                                                                                                                  |
| (15) Mr. Mushir Ahmad        | Ditto.                                                                                                                                                                        |
| (16) Mr. B. C. R. Sarkar     | Joined as old post of Res. Assistant in the Animal Nutrition Section at I.V.R.I. Izatnagar.                                                                                   |
| (17) Mr. H. K. Chowdhury     | Application sent to Director of Fisheries U.P. Government.                                                                                                                    |
| (18) Mr. S. B. Roy.          | D.G.I.&S. is negotiating for his employment with (i) The Purnam Pottories Works Ltd., Morvi Saurashtra and (ii) M/S The Deccan Porcelain & Enamel Works Ltd., Hyderabad (Dn.) |
| (19) Mr. R. R. Desikachar    | Offered the post of temporary Assistant Engineer in A.I.R.                                                                                                                    |
| (20) Mr. Joseph George       | Was interviewed by F.P.S.C. for the post of Assistant Wood Seasoning Officer at F.R.I. Dehradun, Result awaited.                                                              |
| (21) Mr. Rameshwar Mukherjee | Appointed as Res. Officer, (Biochemistry) in the I.V.R.I. Izatnagar.                                                                                                          |
| (22) Mr. R. C. Bhutani       | Appointed as Advisory Officer at I.I. of Fruit Tech. Anand Parvat Delhi.                                                                                                      |
| (23) Mr. K. Kirpal Singh     | Application for the post Garden Supdt. under Archaeology Deptt. sent to the F.P.S.C. Result awaited.                                                                          |
| (24) Mr. Guru Datta          | Appointed as Wool Expert, I.C.A.R. New Delhi.                                                                                                                                 |
| (25) Mr. J. C. Varma         | Appointed as Assistant Conservation of Forests, Andaman.                                                                                                                      |
| (26) Mr. P. S. Rao           | Appointed as Assistant Development officer (Grade II) in the Directorate General, Industries & Supplies, New Delhi.                                                           |
| (27) Miss A. M. Mani         | Appointed as Metriologist Grade II at the Metriological Office, Poona.                                                                                                        |
| (28) Mr. J. N. Roy           | Appointed as Assistant Engineer in A.I.R.I.-New Delhi                                                                                                                         |
| (29) Mr. S. Pradhan          | Gone back to the I.A.R.I. under the I.A.R.I. under the instruction of this Ministry.                                                                                          |
| (30) Mr. K. Ramachandran     | Appointed as Assistant Aircraft Inspector.                                                                                                                                    |
| (31) Mr. S. S. Prasad        | Appointed as Junior Inspector of Mines, Mines Deptt., Dhanbad.                                                                                                                |
| (32) Mr. R. K. Tyagarajan    | Appointed as Assistant Mech. Engineer, B. N. Rly.                                                                                                                             |
| (33) Mr. J. Simon            | Selected for the post of Senior Shift Charge Engineer of the Fertilizer Factory.                                                                                              |
| (34) Mr. Mukhtar Singh       | Appointed as Agronomist (class I) at Central Tobacco Research Institute, Rajamundry.                                                                                          |
| (35) Mr. A. R. N. Iyer.      | Appointed as temporary Assistant Research Officer (Carcinology) at the Central I.F.S., Calcutta.                                                                              |
| (36) Mr. K. S. Bhargava      | Appointed as Assistant Professor of Botany in Banaras Hindu University.                                                                                                       |
| (37) Mr. M. N. Mohanty       | Has joined his previous post under Orissa Government.                                                                                                                         |

| Name of the scholar          | Employment position                                                                                                                           |

| (297) Mr. M. K. Patra             | Under consideration.                               |
| (298) Miss R. J. Irani            | Ditto.                                             |
| (299) Mr. S. Nath                 | Appointed as Lecturer in Training College.         |
| (300) Mr. D. V. Mahapatra         | Under consideration.                               |
| (301) Mr. R. N. Divedi            | Appointed as Senior Marketing Officer.             |
| (302) Mr. A. B. Mohanty           | Under consideration.                               |
| (303) Mr. J. N. Hota              | Appointed as Sugar Cane Specialist.                |
| (304) Mr. D. N. Nanda             | Interviewed for specific post.                     |
| (305) Mr. P. Manohar              | Appointed as Asstt. Engineer.                      |
| (306) Mr. G. S. Shukla            | Under consideration.                               |
| (307) Mr. D. K. Dutta             | Ditto.                                             |

NOTE.—In addition to the above, 138 permanent Government students of the Provincial Governments have also returned. Their placement on return is the sole responsibility of the Provincial Government concerned. 16 Scheduled Caste students who have returned after training abroad were not under any obligation to serve Government. Their employment position is, therefore, not known.

## COMPENSATION TO VICTIMS OF RAZAKAR ATROCITIES

\*143. **Shri S. Nagappa:** Will the Honourable Minister of States be pleased to state what steps Government have taken to compensate the people of the Indian Union living on the borders of Hyderabad State, who were the victims of Razakars?

**The Honourable Sardar Vallabhbhai Patel:** The Provincial Governments concerned viz. Bombay, Madras and Central Provinces and Berar are taking appropriate measures generally to ameliorate the conditions of such victims and grant relief wherever necessary.

## LOAN APPLICATIONS RECEIVED BY REHABILITATION FINANCE ADMINISTRATION

\*144. **Sardar Bhopinder Singh Man:** (a) Will the Honourable Minister of Finance be pleased to state the number of applications for loan received from refugees or their associations so far, in the Rehabilitation Finance Administration?

(b) How many were accepted and what are the general principles for their acceptance or rejection?

(c) Can those refugees whose applications have been rejected apply again, if they bring up a new and different scheme which is acceptable to the Corporation?

**The Honourable Dr. John Matthai:** (a) and (b). Up to the 5th January, 1949, 5,630 applications were received and 642 finally disposed of. Of the latter, 359 were sanctioned for a total sum of Rs. 48,93,500 and the remaining 283 were rejected.

Applications from genuine displaced persons are generally accepted except where:

- (1) The application is for a loan of Rs. 5,000 or below.
- (2) The genuine requirements of the applicant, looking to the size of his previous business in Pakistan, are such as can be satisfied under the Government Scheme for grant of loans upto Rs. 5,000.
- (3) The applicant's own resources are sufficient for the proposed business or industry.
- (4) The business industry cannot be fitted into the economy of the area in which it is proposed to be set up and the applicant is not prepared to shift to a more suitable place.
- (5) The applicant has no experience of, or technical knowledge or special qualifications for, the proposed business/industry and it appears to the Administration that he is unlikely to make a success thereof.
- (6) The applicant is found to be of doubtful integrity.
- (7) The applicant's requirements are so large that they cannot be satisfied with the amount that can be sanctioned and the applicant is unable to raise the balance of his requirements from another source.
- (8) The applicant has tangible security against which he can easily raise a loan on reasonable terms from another source.

(c) Yes. Generally the possibilities of any alternative scheme or business are explored in the course of enquiries by the Administration or discussions with the applicant before the application is finally disposed of.

†Answer to this question laid on the table, the questioner being absent.

**Sardar Bhopinder Singh Man:** Is it a fact that refugees seeking loans for agricultural purposes, say for the purchase of a tractor or for sinking a tube-well, are refused such loans? And if so, what are the reasons for these refusals?

**The Honourable Dr. John Matthai:** Is the honourable member referring to applications to the Rehabilitation Finance Administration or applications to Government?

**Sardar Bhopinder Singh Man:** I am referring to Rehabilitation Finance.

**The Honourable Dr. John Matthai:** As far as I am aware all applications that come are before the Rehabilitation Administration are dealt with according to the conditions laid down for their guidance. Of course there will be quite a considerable number of applications which will not satisfy these conditions and will therefore be rejected.

**Shri Arun Chandra Guha:** Will the Honourable Minister be pleased to state how many applications have been received from East Bengal refugees and how many of them have been granted?

**The Honourable Dr. John Matthai:** I should like to have notice of that question. I have not the figures ready.

**Dr. Bakhsh-Tek Chand:** May I ask if the interim report for the working of the administration will be placed before the House.

**The Honourable Dr. John Matthai:** Yes, I will have that done.

**Srijut Rchini Kumar Chaudhuri:** Is it a fact that a fairly good number of applications for loans has been rejected owing to the failure of the refugees to furnish proper security, the standard of which has been high?

**The Honourable Dr. John Matthai:** It is not always security based on assets which is called for by the Rehabilitation Administration. Sometimes it is simply a personal security by people who are familiar with the circumstances of the applicant.

**Sardar Bhopinder Singh Man:** What I want to know is whether there is any bar in your rules with respect to agricultural loans for agricultural purposes?

**The Honourable Dr. John Matthai:** Purely agricultural loans.

**Sardar Bhopinder Singh Man:** Of course, Sir, say for the purchase of a tractor or the sinking of a tube-well.

**The Honourable Dr. John Matthai:** In the case of purchases of tractors, the proper course for the applicant would be to go to the Government for a loan because it would be within the financial limits prescribed by Government for a loan.

**Shri M. Ananthasayanam Ayyangar:** Is it not a fact that the scope of this Corporation is confined to small business and industries and not extended to agricultural activities at all?

**The Honourable Dr. John Matthai:** Well, the financial limit for loans—the minimum limit—so far as loan applications before the administration are concerned is over Rs. 5,000; the maximum limit for individuals is Rs. 50,000 and for co-operative societies and joint stock companies I think it is a lakh of rupees.

**Shri Mahavir Tyagi:** Have any loans been given to East Bengal refugees also?

**The Honourable Dr. John Matthai:** I must have notice of that question. A similar question was put by another Member.

**Shri Mahavir Tyagi:** Have any loans been given at all? I do not want the exact figures. I only want to know whether loans are being given to those refugees also.

**The Honourable Dr. John Matthai:** I am not in a position to give precise information straightaway but I will have that looked into and give the honourable member the information he has asked for.

**Shri Deshbandhu Gupta:** In view of the recent Inter-Dominion agreement which contemplates the sales and exchanges of property, will Government consider the desirability of treating the properties left behind by refugees in Pakistan as good for security against such loans?

**The Honourable Dr. John Matthai:** I am sorry I am not in a position to answer that question.

#### STIPENDS TO STUDENTS OF DEHRA DUN MILITARY COLLEGE

**\*145. Shri Jadubans Sahay:** (a) Will the Honourable Minister of Defence be pleased to state the number of students province-wise admitted to the Dehra Dun Military College during the years 1947-48 and 1948-49?

(b) What is the amount required to be paid by each student receiving training in the said institution?

(c) Are Government aware that meritorious and deserving students belonging to the lower middle-class fail to avail of the opportunity due to the high cost of training?

(d) Do Government propose to grant suitable stipends to deserving students who may not have the means to meet the cost of training?

**The Honourable Sardar Baldev Singh:** (a) I lay a statement on the table of the House.

(b) Rs. 1,500 per annum by cadets who give an undertaking that they will join the Armed Forces on the completion of their studies in the Institution, and Rs. 3,200 per annum by others.

(c) and (d). There are a number of scholarships to help needy students. The question of increasing the number of such scholarships is under consideration.

#### STATEMENT

The number of students admitted to the Prince of Wales Royal Indian Military College during the period from the 2nd term 1947 (July) to the 1st term 1949 (January) by Provinces are as follows:

| Province/State                 | Number admitted | Total     |
|--------------------------------|-----------------|-----------|
| <b>2nd TERM 1947 (July)</b>    |                 |           |
|                                |                 | 1947-48   |
| Bihar                          | 1               | 7         |
| U. P.                          | 1               | 22        |
| Punjab                         | 1               | 16        |
| Punjab States                  | 1               | 3         |
|                                |                 | Madras    |
|                                |                 | 2         |
|                                |                 | C. P.     |
|                                |                 | 5         |
|                                |                 | W. Bengal |
|                                |                 | 9         |
|                                |                 | Bombay    |
|                                |                 | 5         |
|                                |                 | Delhi     |
|                                |                 | 8         |
|                                |                 | 77        |
| <b>1st TERM 1948 (January)</b> |                 |           |
| E. Punjab                      | 15              |           |
| Madras                         | 2               |           |
| U. P.                          | 21              |           |
| Bihar                          | 6               |           |
| C. P.                          | 5               |           |
| W. Bengal                      | 9               |           |
| Bombay                         | 5               |           |
| Delhi                          | 8               |           |
| States                         | 2               |           |
|                                |                 | 73        |
| Total                          | 73              |           |

|                                |              | 57      |

The number of vacancies in the first term 1948 was unusually high as a large number of Muhammadan Cadets, opted for Pakistan and the vacancies thus created, were filled during this term. The increase in the vacancies allotted to East Punjab and U. P. is due to the influx of refugees from Pakistan.

#### NON-INDIANS EMPLOYED IN ORDNANCE FACTORIES

**\*146. Gani Gurmukh Singh Musafir:** (a) Will the Honourable Minister of Defence be pleased to state the number of Indians and non-Indians working in each of the Ordnance Factories at Moradnagar, Ambarnath and Kirkee, in each of the following posts: Manager, Deputy Works Manager, Assistant Works Manager, P. Foremen, Store Holders, Assistant Foremen and Assistant Store Holders?

(b) How long will it take to fully Indianize all the services in the Ordnance Factories, particularly the Gazetted posts?

**The Honourable Sardar Baldev Singh:** (a) I place a statement on the table of the House.

(b) Of a total of 145 gazetted and 950 non-gazetted posts in Factories only 62 gazetted and 21 non-gazetted appointments (total 83) are at present held by non-Indians. Non-Indian holders of permanent posts can continue in service until they reach the age of superannuation or, until they retire under the Premature Retirement Rules. Nine of the 83 non-Indians are employed on contract, which would expire within the next three years. Eleven non-Indian officers are likely to retire prematurely within the next six months. As a result of normal retirement, the number of non-Indian officers in factories will be reduced to the negligible figure of 9 during the next few years.

Statement showing Indian and Non-Indian Gazetted and Non-Gazetted Personnel employed in certain Ordnance Factories

| Grade                   | FACTORIES                    |            |                             |            |                            |            |                                 |            |
|-------------------------|------------------------------|------------|-----------------------------|------------|----------------------------|------------|---------------------------------|------------|
|                         | Ordnance Factory, Moradnagar |            | Ordnance Factory, Ambarnath |            | Ammunition Factory, Kirkee |            | High Explosives Factory, Kirkee |            |

| Foreman                 | 9                            | ..         | 7                           | ..         | 8                          | 6          | 1                               | 2          |
| Storeholder             | 1                            | ..         | 1                           | ..         | 1                          | 1          | ..                              | ..         |
| Asstt. Foreman          | 14                           | ..         | 9                           | ..         | 25                         | ..         | 8                               | ..         |
| Asstt. Storeholder      | 1                            | ..         | 2                           | ..         | 4                          | ..         | 1                               | ..         |
| Total                   | 27                           | 3          | 20                          | 5          | 43                         | 11         | 11                              | 7          |

**Shri H. V. Kamath:** Is it not a fact that some of the non-Indian incumbents are not putting all their heart into their work and thus are not quite helpful in the drive for increased production?

**The Honourable Sardar Baldev Singh:** I have no information.

**Mr. Speaker:** It is a matter of opinion.

**Shri M. Ananthasayanam Ayyangar:** Is it a fact that this small number of nine are holding the key positions and would not allow much progress in the armament depots?

**The Honourable Sardar Baldev Singh:** I cannot say offhand but according to the information available with me nine non-Indians will be left in our service after a few years. Not all of them are holding key appointment: some of them still hold.

**Shri M. Ananthasayanam Ayyangar:** Have they got any special technical qualifications for the posts or are they mere B. O. Rs. taken from the army and kept in these posts, where civilians would do much better?

**The Honourable Sardar Baldev Singh:** Naturally they would have technical qualifications.

#### TRAVELLING ALLOWANCE TO CANDIDATES TAKING INTERVIEWS WITH F. P. S. C.

\*147. **Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether all the candidates who appear for interviews before the Federal Public Service Commission are given the travelling allowance?

(b) Is it a fact that for certain selections made by Government the candidates are to appear for interview at their own expense?

**The Honourable Sardar Vallabhbhai Patel:** (a) The Commission contribute towards the travelling expenses of candidates called by them for interview in connection with selection cases one Class II (previously Inter Class, fare each way by the shortest railway route from their places of normal residence to the place of interview and back.

(b) Except in the case of persons who themselves apply for an interview, travelling allowance is normally paid to all the candidates called for interview in connection with posts advertised by Government also.

#### OFFICERS OF THE PRESS INFORMATION BUREAU

\*148. **Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state:

(i) the number of Information Officers;

(ii) the number of Deputy Principal Information Officers; and

(iii) the number of Assistant Information Officers, working in the Press Information Bureau?

(b) Was the post of the Principal Information Officer advertised at any time during the time of the present Government?

(c) Has the post of Deputy Principal Information Officers been advertised?

**The Honourable Shri R. R. Diwakar:** (a) (i) 17, (ii) 5 and (iii) 11.

(b) and (c). No.

**Shrimati Dakshayani Velayudhan:** May I know whether the Economy Committee has recommended the abolition of the post of Deputy Principal Information Officer?

**The Honourable Shri R. R. Diwakar:** But we have not agreed as regards all their recommendations.

**Mr. Frank Anthony:** Is there any co-ordination between our Information Department and the publicity offices overseas in our Legations, Embassies and High Commissioners' offices?

**The Honourable Shri R. R. Diwakar:** The External Publicity Department is now in charge of the External Affairs and Commonwealth Relations Ministry.

**Mr. Frank Anthony:** Is Government aware that there is a general feeling that our publicity and propaganda abroad is ineffective and inadequate?

**The Honourable Shri R. R. Diwakar:** That is a matter of opinion.

**Shrimati Renuka Ray:** In view of the reply given by the Honourable Minister about the recommendations of the Economy Committee, are those recommendations of the Committee out, and if so, why have they not been placed before this House?

**The Honourable Shri R. R. Diwakar:** They are under consideration.

**Mr. Speaker:** That question I think was answered two days ago.

**Shri R. K. Sidhva:** The Honourable Minister just now stated that the decision has been taken on the recommendations and the Finance Minister has stated that Government are considering them. May I know . . .

**The Honourable Shri R. R. Diwakar:** The question was whether the Economy Committee has suggested the cutting off of a certain thing. I replied that so far as that particular recommendation was concerned our Ministry has said that it was not possible for us to accept the recommendation. My answer was only from the point of our Department and not that of the Finance Department.

**Prof. N. G. Ranga:** The reply was in the negative to parts (b) and (c) of the question. May I know the reasons why these posts were not advertised in the papers?

**The Honourable Shri R. R. Diwakar:** They are departmental appointments and those who are senior in the grade get them.

**Shri H. V. Kamath:** In view of the fact that the Honourable the Finance Minister stated the other day that the proposals of the Economy Committee are still being examined, how does the Honourable Minister of State reconcile . . .

**Mr. Speaker:** Order, order, I am not allowing that question.

**Shri H. V. Kamath:** Is it a fact that the recommendation of the Economy Committee regarding this particular matter has been finally decided upon by the Minister of State?

**Mr. Speaker:** That has been answered already.

**Shri Deshbandhu Gupta:** Is it a fact that our Embassies and Legations in foreign countries, though they are connected by air and have a regular daily service, get Indian news in code cablegrams which have to be deciphered and thus Government is not only incurring a large expenditure under that head but it also means unnecessary work for the staff?

**The Honourable Shri R. R. Diwakar:** The question should be addressed to the External Affairs Department.

**Shri Deshbandhu Gupta:** In view of the fact that external publicity has now been taken over by the Information Department I want to know whether that practice has been given up or still persists?

with a floor space of 1,92,000 sq. ft., the reconstruction of 3 transit sheds with a total floor space of 2,64,000 sq. ft., the development of the Frere Basin area and the pressing into use, of vacant land away from the Docks for the open air storage of goods awaiting clearance, etc. The scheme for the reconstruction of the Prince's and Victoria Docks, damaged during the Explosions, and for the modernisation of the Port, estimated to cost Rs. 6½ crores, is also under the consideration of the Trustees.

For building new sheds and warehouses the Government have made special arrangements for the supply of steel etc.

**Shri R. K. Sidhva:** May I know when the explosion took place in Bombay and when the Bombay Port Trust authorities started to build the lost floor area?

**The Honourable Shri N. Gopaldaswami Ayyangar:** The explosion occurred somewhere about 1944 and the commencement of construction—only the preliminary work—took place I think about a year or eighteen months ago.

**Shri R. K. Sidhva:** May I know why the construction of the lost floor area was not immediately started?

**The Honourable Shri N. Gopaldaswami Ayyangar:** The trouble has been due to the difficulty in obtaining materials for building purposes.

**Shri R. K. Sidhva:** But is it not a fact that imported steel was available in very large quantity, but the Port Trust Authorities were not prepared to spend a large sum? If that is so, may I know whether the Honourable Minister took any steps to see that the Port Trust Authorities were compelled to build the lost site of the godowns?

**The Honourable Shri N. Gopaldaswami Ayyangar:** I think on the last occasion I was in Bombay, we did make enquiries into this question. They said they had placed certain orders at Jamshedpur and the steel could not be moved owing to difficulty at Jamshedpur. We sent two officers to set this right and I think since then the steel has been moving more satisfactorily than it did previously.

**Shri R. K. Sidhva:** May I know what is the cause of this high demurrage of one crore and seven lakhs in 1947-48 as against twenty-four lakhs in 1945 and does the Honourable Minister think it fair that the merchants should be compelled to pay this high demurrage for the mistakes of the Port Trust Authorities?

**Mr. Speaker:** Order, order. He may put one question at a time and not combine so many and no question as to opinions.

**Shri R. K. Sidhva:** Who is responsible for this high demurrage, which is 125 per cent. more, that the merchants were compelled to pay?

**The Honourable Shri N. Gopaldaswami Ayyangar:** I do not know what the honourable member means by "Who is responsible". Demurrage has been collected according to rule and if merchants did not clear their goods and demurrage had to be charged, that demurrage has been collected.

**Shri R. K. Sidhva:** May I know whether the merchants made a complaint to the Port Trust.....

**The Honourable Shri N. Gopaldaswami Ayyangar:** I said already "Yes".

**Shri R. K. Sidhva:** If the complaints were made that they want to clear the goods, why efforts were not made by the Port Trust in Bombay to have the goods cleared and why they asked the merchants to pay these demurrage charges?

**The Honourable Shri N. Gopaldaswami Ayyangar:** I do not know what steps the honourable member suggests could have been taken by the Port Trust to clear the goods themselves.

**Mr. Speaker:** This will be the last question now.

**Shri R. K. Sidhva:** May I know when the attention of the Honourable Minister was drawn about the lack of administration by the Bombay Port Trust?

**The Honourable Shri N. Gopaldaswami Ayyangar:** I do not think I made any statement that my attention was drawn to any "lack of administration".

#### PRODUCTION OF SANN HEMP.

**\*1377. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Agriculture be pleased to state the total out-put of Indian hemp during the year 1948?

(b) Has there been a decline in out-put, and if so, what are the reasons for the same?

(c) What steps are being taken to increase the out-put of this commodity?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). The honourable member is presumably referring to Sann hemp.

A statement showing the output of Sann hemp in the Indian Union during 1947-48 and 1946-47 is placed on the table of the House. The decline in 1947-48 as compared to 1946-47 is attributable to unfavourable weather conditions, irregular late rains in some Provinces and States and diversion of land to food crops.

(c) The question of improving the quality and output of Sann hemp in the Indian Union by effecting improvement in (i) the technique of cultivation, (ii) the method of retting and (iii) the existing varieties of crop, has been under the consideration of the Government of India for some time. The Indian Council of Agricultural Research conducted research schemes with regard to Sann hemp in the C.P., Madras, Bihar, Bombay and the U.P. and these provinces have been increasingly using the new methods and varieties.

#### STATEMENT

*Production of Sann hemp in Indian Union during 1947-48 as compared to 1946-47.*

| Serial No. | Province/State   | Production (in tons) |            |
|------------|------------------|----------------------|------------|
|            |                  | 1946-47              | 1947-48    |
| 1          | 2                | 3                    | 4          |
| 1          | Ajmer Merwara    | Nil                  | Nil        |
| 2          | Assam            | Negligible           | Negligible |
| 3          | Bihar            | 1,877                | 1,106      |
| 4          | †Bombay          | 1,909                | 1,735      |
| 5          | C. P. and Berar  | 8,541                | 4,317      |
| 6          | Delhi            | 50                   | 7          |
| 7          | East Punjab      | 3,000                | 2,600      |
| 8          | Himachal Pradesh | 7                    | 9          |
| 9          | Madras           | 28,161               | 18,590     |
| 10         | †Orissa          | 317                  | 629        |
| 11         | United Provinces | 41,813               | 43,786     |
| 12         | West Bengal      | 2,722                | 2,494      |

**The Honourable Shri R. R. Diwakar:** No, External publicity has not been taken over. The practice is there.

**Shri Mahavir Tyagi:** Has the Economy Committee also recommended the abolition of the post of the Principal Information Officer?

**The Honourable Shri R. R. Diwakar:** No.

#### ADJUSTMENT OF INTER-DOMINION GOVERNMENTAL CLAIMS

**\*149. Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Finance be pleased to state what is the net amount due from Pakistan after adjustment of all inter-Government claims?

(b) Has any final agreement been reached with the Government of Pakistan regarding the payment of the amount found due?

(c) If so, what are the terms of the agreement?

**The Honourable Dr. John Matthai:** (a) It will be some time before the exact amount could be determined but it is likely to be between Rs. 250 and Rs. 300 crores.

(b) and (c). It has been agreed that Pakistan will repay the debt in Indian rupees in fifty annual equated instalments commencing with 1952-53.

**Shri R. K. Sidhva:** Are the instalments monthly or yearly?

**The Honourable Dr. John Matthai:** Annual instalments.

**Seth Govind Das:** Will any interest be charged to the Pakistan Government on these annual instalments?

**The Honourable Dr. John Matthai:** Yes.

**Seth Govind Das:** What would be the rate of interest?

**The Honourable Dr. John Matthai:** It would be somewhere of the order of three per cent.

**Shri R. K. Sidhva:** When is the instalment likely to start?

**The Honourable Dr. John Matthai:** 1952.

#### LOANS FROM WORLD BANK

**\*150. Shri S. Nagappa:** (a) Will the Honourable Minister of Finance be pleased to state whether there is any possibility of getting loans from the World Bank?

(b) If so, when and what amount?

(c) On what basis is the loan being taken?

(d) If the answer to part (a) be in the negative, why is it so?

**The Honourable Dr. John Matthai:** (a) to (d). I would draw the honourable member's attention to the statement I made in the House on this subject on 1st February, 1949.

#### GRANT PROMISED TO ASSAM GOVERNMENT FOR POST-WAR DEVELOPMENT

**\*151. Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Finance be pleased to state what was the total amount promised to the Provincial Government of Assam for the year 1948-49 for post-war development work, how much of the promised amount has already been drawn and how much more will be paid in the course of the current financial year?

(b) If the commitments have not been fully carried out, what are the reasons therefor?

†Answer to this question laid on the table, the questioner being absent.

**The Honourable Dr. John Matthai:** (a) and (b). The grant originally promised to Assam for 1948-49 was Rs. 125 lakhs. This was subsequently reduced to Rs. 115 lakhs when a reduction was made in the grants to all Provinces for Development Plans, with a view to narrowing the budgetary gap as an anti-inflationary measure. Later, the grant was raised to Rs. 160 lakhs as Assam had already entered into commitments in excess of the originally promised grant. Information regarding the amount actually drawn is not available.

#### LUNATIC ASYLUMS AND MENTAL HOSPITALS

**\*152. Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Health be pleased to state the total number of persons of unsound mind confined or undergoing treatment in different lunatic asylums and mental hospitals of India?

(b) How many such patients have been, before or after their admission into these hospitals, declared to be persons of unsound mind by competent courts?

(c) How many of these asylums and mental hospitals are Government and Government-aided institutions?

(d) What percent approximately of the total number of persons of unsound mind in India are being looked after or treated in asylums and hospitals?

**The Honourable Rajkumari Amrit Kaur:** (a) to (d). The information is being collected and will be laid on the table of the House as soon as it is ready.

#### CENSUS FOR ASSAM, WEST BENGAL AND EAST PUNJAB FOR PREPARATION OF ELECTRICAL ROLLS

**\*153. Srijut Rohini Kumar Chaudhuri:** Will the Honourable Minister of Home Affairs be pleased to state what action, if any, has been taken to prepare a rough census of population in the provinces of Assam, West Bengal and East Punjab for purposes of preparation of the electoral roll for the first general election under the new Constitution of India?

**The Honourable Sardar Vallabhbhai Patel:** Government have taken no steps for any special census in these three Provinces for the purpose of the first general elections under the new Constitution. The practical difficulties of taking a special census within a reasonable period of time from now are very great. Neither is a census essential for preparing electoral rolls. These are in fact already being prepared on the basis of adult franchise.

#### BROADCASTING STATION FOR GUNTAKAL

**\*154. Shri S. Nagappa:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state whether there is any scheme under the contemplation of Government to start new broadcasting centres? If so, when and in what places?

(b) Do Government propose to consider the desirability of opening a Centre at Guntakal, in order to meet the requirements of the Rayalaseema people?

**The Honourable Shri R. R. Diwakar:** (a) Yes. An Eight Year Plan as approved by the Standing Advisory Committee of the Legislature covers the opening of stations at: Cuttack, Shillong-Gauhati, Nagpur, Vijayawada, Allahabad, Ahmedabad, Jullundur, Dharwar, Calicut, and the installation of transmitters of high power at Delhi, Bombay, Madras and Calcutta.

Pilot stations have already been opened at Cuttack, Shillong-Gauhati, Nagpur, Vijayawada and Allahabad and are in operation. The pilot station at Ahmedabad is due to be opened by the end of March 1949. Pilot installations at Jullundur (now provided with a low power station), at Dharwar and at Calicut are due to be completed by June 1949.

†Answer to this question laid on the table, the questioner being absent.

The installation of high power transmitters at the major stations and the replacement of pilot equipment by larger transmitters will also be commenced in the next financial year.

(b) The opening of one or more centres in the Ceded Districts of Madras Province will be considered when the present Eight Year Plan has been completed.

#### CONTROL ON COMMODITIES IN CENTRALLY ADMINISTERED AREAS

†\*155. **Lala Raj Kanwar:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) the names or kinds of commodities consumed in the Centrally Administered Areas, the production, procurement or distribution of which is at present under control; and

(b) the nature of control exercised in respect of each such commodity?

**The Honourable Sardar Vallabhbhai Patel:** The question should have been addressed to the Honourable Minister of Industry and Supply. It has accordingly been transferred to the list of questions for the 18th February 1949 when the Honourable Minister of Industry and Supply will answer it.

#### SCHOLARS SENT ABROAD FOR STUDY IN DENTISTRY

†\*156. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Health be pleased to state the names of scholars sent out to foreign countries in each of the years 1946, 1947 and 1948 for study in dentistry?

(b) What is the average expenditure incurred by Government on these students?

(c) What is the proportion of expenses met from Central and Provincial revenues?

(d) How was the selection made and what are the names of Members of the Selection Board, if any?

(e) What is the number proposed to be sent out during the current year?

(f) What stage has been reached in the process of selection of scholars to be sent out during the course of this year?

**The Honourable Rajkumari Amrit Kaur:** (a) A Statement (No. I) is laid on the table of the House.

|             |             |
|-------------|-------------|
| (b) 1946-47 | Nil.        |
| 1947-48     | Rs. 45,000  |
| 1948-49     | Rs. 90,000. |

(c) The expenditure on Provincial candidates is shared between the Central and Provincial Governments in the ratio of 50: 50 and the expenditure on the Central candidates is met wholly from the Central Government.

(d) The selection is made by an *ad hoc* Central Selection Board constituted for the purpose with a Member of the Federal Public Service Commission as its Chairman. A statement (No. II) showing the names of the members of the last two Boards is placed on the table of the House.

(e) and (f). The programme for 1949 is still under consideration and the details will be published in the Press as soon as they are finalised. Meanwhile, Government have received offers of 12 seats from British Postgraduate Schools of Dentistry.

†Answer to this question laid on the table, the questioner being absent.

#### Statement I showing the names of the Candidates sent Abroad for Higher Training in Dentistry in the years 1946, 1947 and 1948

1946. Nil.

1947.

##### CENTRAL GOVERNMENT.

 (4) Dr. V. M. Desai, Dean, Nair Hospital and Dental College, Bombay (*Member*).  
 (5) Dr. D. P. Sethna, Principal, J. J. Group Hospital, Bombay (*Member*).  
 (6) Dr. N. N. Bery, Hony. General Secretary, All India Dental Association, New Delhi (*Member*).  
 (7) Lt.-Colonel R. Vishwanathan, Office of the Director General of Health Services (*Member-Secretary*).

#### FOREIGN SCHOLARSHIPS FOR STUDY IN SUBJECTS OTHER THAN MEDICINE

\*157. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Education be pleased to state what other foreign scholarships besides those for study in medicine have been sanctioned for the year 1949 and what are the subjects for which they have been sanctioned? What are the countries to which students are being sent for studies in such subjects?

(b) What will be the estimated cost to Central and Provincial Governments in this regard?

**The Honourable Maulana Abul Kalam Azad:** (a) and (b). The Overseas Scholarships Scheme which was suspended during 1948-49 has not yet been revived, though its revival is now under the active consideration of Government. The information asked for by the honourable member cannot therefore be given till the Scheme has been finalised.

#### COMMITTEE TO ENQUIRE INTO WORKING OF THE CRIMINAL TRIBES ACT

\*158. **Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether a Committee has been appointed to go into the working of the Criminal Tribes Act, with a view to advise on the desirability of repealing or amending the Act?

(b) If so, who are the members of the Committee?

(c) If not, when is this committee proposed to be appointed?

**The Honourable Sardar Vallabhbhai Patel:** (a) No.

(b) Does not arise.

(c) No proposal to appoint such a Committee is under the consideration of the Government of India.

**Prof. N. G. Ranga:** Is it not a fact that Government gave an assurance last time when this question came up for discussion in the House, that they would consider the advisability of appointing such a Committee in order to make proposals for suitable amendment of this Act?

**The Honourable Sardar Vallabhbhai Patel:** Enquiries have been made from the Provinces and it is open to any Province, if they want, to make any amendment or alteration in the Act, and they are free to do so.

**Shri M. Ananthasayanam Ayyangar:** Is it not a fact that an honourable member of this House has tabled a Bill for repeal of the Criminal Tribes Act and the Honourable the Home Minister stated that he would appoint a Committee to collect information from various parts of the country?

**The Honourable Sardar Vallabhbhai Patel:** We have made enquiries of Provinces. The Provinces that are generally affected or are interested in these Criminal Tribes are against the amendment or the repeal of the Act.

†Answer to this question laid on the table, the questioner being absent.

**Shri M. Ananthasayanam Ayyangar:** Will the Honourable Minister kindly circulate the opinions so received from the various Provinces so as to help in the pursuit of the Bill that has already been laid before the House?

**The Honourable Sardar Vallabhbhai Patel:** Yes.

**Shri Deshbandhu Gupta:** Has any representation been received by the Honourable Minister from some Rajputs who are treated as Criminal Tribes in Ferozepore District, East Punjab, requesting that they may not be treated as Criminal Tribes; if so has any action been taken on the same?

**The Honourable Sardar Vallabhbhai Patel:** I cannot answer that question straight-off because it is more a matter for the Province to decide.

**Shri M. Tirumala Rao:** Is Madras one of the Provinces interested in this Act, and if so what is the opinion of the Madras Government?

**The Honourable Sardar Vallabhbhai Patel:** The Madras Government has already decided to repeal the Act.

**Mr. Speaker:** As regards the questions of Mr. Nagappa, an authority has been given to Mr. V. C. Kesava Rao. But I find that the authority is general, without mentioning the specific dates on which the questions have to be put. I have already previously ruled that the authority has to be specific in respect of the dates and not a general authority for the whole session whenever the member is absent. I am sorry I cannot recognize that kind of authority, it being contrary to the practice of the House.

So the Question List for today is over.

**Dr. B. Pattabhi Sitaramayya:** May I know in this connection whether members who are not entitled to attend the legislative sessions of this Assembly are entitled to send interpellations and authorise other people to put the questions?

**Mr. Speaker:** So far as the Chair is concerned, there is no statutory bar on any member from attending the legislative sessions. If they choose not to attend, they take the consequences.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES.

(PART I—QUESTIONS AND ANSWERS)

*Monday, 7th February, 1949:*

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

STARRED QUESTIONS AND ANSWERS.

ORAL ANSWERS.

ALLOCATIONS OF FOODGRAINS BY F.A.O.

**\*159. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Agriculture be pleased to state the total quantity of foodgrains allotted to India for the current year by the Food and Agricultural Organisation at its recent conference held in Washington?

(b) What facilities have been given by the said conference to India for obtaining capital equipment?

**The Honourable Shri Jairamdas Doulatram:** (a) The International Emergency Food Committee had provisionally allotted to India 17.81 lakh tons of foodgrains from various sources for the period January to June, 1949. Of this 4,81,000 tons consist of rice and the balance of wheat 12,00,000 tons and coarse grains 100,000 tons.

(b) The annual conference of the F.A.O. reviews the food and agricultural situation in the world and makes recommendations as to the national and international action necessary. It cannot directly give any facilities to India or other member-countries for the procurement of capital equipment, which is a matter for individual countries to arrange.

**Shri R. K. Sidhva:** May I know, Sir, whether the Leader of the F.A.O. stated on his arrival that his mission has been successful and that he will be able to secure capital goods at a cheaper rate from foreign countries. If that is so, may I know whether the rates for the purchase of these foodgrains have been favourable as compared with the previous years?

**The Honourable Shri Jairamdas Doulatram:** As a matter of fact, there has been no definite negotiation for any capital equipment yet. All that the Minister of Bombay, who was the Leader of the delegation, was referring to was that the ground had been prepared for favourable consideration. There has been no actual negotiation for any specific quantity of capital equipment and no kind of rates considered yet.

**Shri R. K. Sidhva:** Is it not a fact that he said he will be able to secure goods at cheaper rate?

**The Honourable Shri Jairamdas Doulatram:** He might have stated that, but I would not be able to explain what he said.

**Shri R. K. Sidhva:** Has he submitted a report?

**The Honourable Shri Jairamdas Doulatram:** He has submitted a report, but that is not material. As I said, there has been no negotiation yet for any particular specific quantity of capital equipment.

**Shri R. K. Sidhva:** Does the State guarantee the quality of the purchase of these article, of the basic sample?

**The Honourable Shri Jairamdas Doulatram:** There has been no negotiation yet. There is no question of quality. The honourable member is referring to some informal talks by the Leader of the Delegation in regard to purchases by India, but there is no actual negotiation for any specified rates or quality yet.

**Shri B. P. Jhunjhunwala:** Are we entitled to import foodgrains from other free markets in addition to what we get from this organisation?

**The Honourable Shri Jairamdas Doulatram:** Yes. There are certain countries which are outside this organisation from which we shall purchase foodgrains.

**Shri H. V. Kamath:** How does the price at which foreign wheat is purchased abroad compared with the price of wheat procured in India?

**The Honourable Shri Jairamdas Doulatram:** That depends upon different seasons, different years and different countries. There is no one price prevailing in the countries with regard to wheat.

**Shri R. K. Sidhva:** Am I to understand that no contract has been made for the ensuing year for wheat?

**Mr. Speaker:** He has already stated that there are no purchases.

#### CARRYING OF AIR MAILES BY AIRWAYS COMPANIES

**\*160. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state the total weight of air mail—letters, parcels, etc.—carried by various air crafts in India and foreign countries?

(b) Is any subsidy given by Government to airways Companies for carrying mails?

(c) What amount has been paid to each company for carrying mails during the year 1948?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) A statement (No. I) showing the weight of air mails carried on the different routes by the various air companies during the period November 1947 to October 1948 is placed on the table of the House. No parcels were accepted for transmission by air mail during this period.

(b) No, Sir. The honourable member's attention is invited to the reply given to part (b) of starred question No. 90 dated the 3rd February, 1948.

(c) A statement No. (II) showing the amounts paid to the different air companies operating in India during the year 1948, on information immediately available is placed on the table of the House. A supplementary statement will be furnished to the House in due course.

#### STATEMENT I.

Showing the amounts paid to different Air Companies for the carriage of Air Mails during the year 1948.

| Name of Air Company                        | Amount paid for service rendered in 1948 | Amount paid for service rendered before 1st Jan. 1948 | Total amount paid in 1948 |
|--------------------------------------------|------------------------------------------|-------------------------------------------------------|---------------------------|
| 1. Air India.                              |                                          |                                                       |                           |
| (i) (Calcutta-Karachi route)               | 13,75,000 0 0                            | 1,25,000 0 0                                          | 15,00,000 0 0             |
| (ii) (Madras-Trivandrum route)             | 17,215 6 8                               | 5,556 12 3                                            | 22,772 2 11               |
| (iii) (Bombay-Delhi-Bombay Calcutta route) | 81,537 5 6                               | 70,972 10 2                                           | 1,52,509 15 8             |

**Shri R. K. Sidhva:** Arising out of answer to part (a) by the Deputy Minister, may I know whether the Air India has received the largest share and whether that carriage included the foreign mail as well?

**Shri Khurshed Lal:** As I see from the statement, the amount paid to the Air India is the largest, but I am not in a position to say what the amount paid is for Air India-International.

**Shri Deshbandhu Gupta:** May I know, whether in view of the introduction of night mail service, the air mails will continue to be carried by the scheduled services as well or will be carried only by the night mail service?

**Shri Khurshed Lal:** Normally the night mail is sent by the night mail service and the day mail are sent by the day service.

**Shri Deshbandhu Gupta:** May I ask whether passengers are allowed by night service?

**Shri Khurshed Lal:** No.

**Shri Deshbandhu Gupta:** What are the reasons?

**Shri Khurshed Lal:** For reasons of safety. We have not yet been able to perfect the organisation to enable us to carry passengers by night services.

**Shri Deshbandhu Gupta:** May I know whether it is a fact that six other companies which were carrying air mail so far will be adversely affected and they have made a representation to Government that they should have been consulted in the matter of the night services before the arrangement was to be terminated.

**The Honourable Mr. Rafi Ahmad Kidwai:** Every company was given an opportunity to take the night air-mail service, but the terms that was offered by the company and were accepted were the lowest terms and without any guarantee for the weight.

**Shri H. V. Kamath:** Is there any proposal to reduce surcharge on air-mail letters so as to make the services more popular?

**The Honourable Mr. Rafi Ahmad Kidwai:** That matter is under consideration.

**Shri Deshbandhu Gupta:** Has the new company which carry the air-mail at night given any period of guarantee?

**The Honourable Mr. Rafi Ahmad Kidwai:** Six month's time.

**Srijut Rohini Kumar Chaudhuri:** Are passengers allowed to travel in the night air-mail?

**The Honourable Mr. Rafi Ahmad Kidwai:** No.

**Shri Deshbandhu Gupta:** Are Government satisfied that after the six months have elapsed the other companies will not be so adversely affected, that there will be some difficulty.

**Mr. Speaker:** Order, order.

**Shri R. K. Sidhva:** May I know whether the delivery at the centres where the air-mails arrive are expeditiously done?

**The Honourable Mr. Rafi Ahmad Kidwai:** Yes.

#### TEXTILE GOODS LYING IN VARIOUS MILITARY DEPOTS

**\*161. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that textiles worth crores of rupees comprising piece goods, hosiery, yarn, ready-made clothes, etc., are lying at Dehu near Poona in the Military Depot?

(b) If so, what is the total cost of these articles and what steps have Government taken to dispose of them?

(c) Are similar kinds of textile goods lying in other parts of the country in Military depots?

(d) If so, what is their value and what are the reasons for the delay in their disposal?

(e) Do these goods belong to the Disposals Directorate or are they meant for army use?

(f) If they are meant for army use, for what period have they been lying in these depots and are they in good condition?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). Yes. There are at present about Rs. 108.5 lakhs worth of textiles for disposal at Dehu.

Surplus textiles like other stores, continued to be disposed of in the usual way upto the end of September 1947 when a ban was imposed by Government on sales of surplus stores, to enable the Ministry of Relief and Rehabilitation to utilise the stores for the relief and rehabilitation of refugees. Subsequently another embargo on sales was also imposed in February 1948 by the Ministry of Defence pending re-assessment of the requirements of the Army. Both the bans are still operative.

(c) and (d). Yes. Textiles of the order of about Rs. 3½ crores are also awaiting disposal in other military depots, but are also under the same embargoes.

(e) The stores belonged to the Army but were declared surplus to their requirements.

(f) Some of the stores were declared surplus not so long ago—others were declared surplus earlier. I am not in a position to state for how long the Army held the stores before they were declared as surplus. Some of the stores are used, and some unused.

**Shri R. K. Sidhva:** In view of what the Honourable Minister has stated that there is such a large quantity of goods, namely Rs. 108.5 lakhs in reply to parts (a) and (b) and nearly Rs. 3½ crores in reply to parts (c) and (d), may I know what steps have been taken to dispose of these goods and whether these goods are likely to be consumed in India or they are not of usable quality?

**The Honourable Dr. Syama Prasad Mookerjee:** As I have stated, Sir, there is a ban now on the sale of these textiles on account of what the Defence Ministry and the Ministry of Relief and Rehabilitation have done, but I am now discussing the matter with both these ministries. I have suggested that they should be in a position to let us know what exactly they require out of these stocks, so that the balance may be disposed of as early as possible.

**Shri R. K. Sidhva:** Is it not a fact that a reference was made to both these Ministries for the last one year and they have not responded despite the reminders sent by the Regional Commissioners of these disposals and may I know what is the reason?

**The Honourable Dr. Syama Prasad Mookerjee:** The reason is that the Ministries concerned thought that they would require them for their own purposes and they were reluctant to lift the embargoes.

**Shri R. K. Sidhva:** Does the Honourable Minister really feel that they do not require these classes?

**The Honourable Dr. Syama Prasad Mookerjee:** The answer is in the negative, Government will take necessary steps in the matter to see that the accumulated goods are disposed of soon.

**Shri Biswanath Das:** May I know whether the Honourable Minister could not find time to discuss conveniently with his colleagues in the course of these twelve months and come to a decision?

**The Honourable Dr. Syama Prasad Mookerjee:** I have found ample time...

**Mr. Speaker:** Order, order. Next question.

**Shri H. V. Kamath:** Are some of the surplus stores at Dehu lying exposed to the inclemencies of the weather or are they properly safeguarded against Sun and rain?

**The Honourable Dr. Syama Prasad Mookerjee:** They have been safeguarded as far as possible.

**Dr. P. S. Deshmukh:** Has the Honourable Minister ever given attention to what amount of loss the inefficiency of the Disposals Department has cost to the nation?

**The Honourable Dr. Syama Prasad Mookerjee:** There is no inefficiency on the part of the Disposals Department at all.

**Shri R. K. Sidhva:** I only wanted to know whether these two Ministries have been contacted by the Honourable Minister to see that these losses are not caused to the country.

**Mr. Speaker:** He has said so. Next question.

#### LOCOMOTIVES FROM U. S. A.

**\*162. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the United States of America have promised delivery of 300 'WP' (passenger) locomotives ranging over a period of 12 months commencing from February 1949 to January 1950?

(b) If so, has any advice of the first shipment been received by the Railway Board in terms of the said agreement? If not, what are the reasons for the delay?

(c) Why was the order not distributed amongst various countries so as to have expeditious delivery of various types of locomotives?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) 300 'WP' locomotives have been ordered in North America. 200 of these are on order in Canada and 100 in the United States of America. The promised delivery of these locos ex-Works is from February 1949 to November 1949.

(b) As delivery, ex-Works, of the locos is to commence from February 1949, the question of advice of the first shipment does not arise.

(c) The decision to place the order in North America was made after widespread enquiries had been made in other countries. Expeditious delivery was one of the principal considerations that lead to the order being finally placed in America.

**Shri R. K. Sidhva:** May I know whether it is a fact that some of the locomotives have actually arrived in Bombay?

**The Honourable Shri N. Gopalaswami Ayyangar:** Those locomotives have arrived which related to orders which had been previously placed.

**Shri R. K. Sidhva:** How many are there and on what railways will they be distributed?

**The Honourable Shri N. Gopalaswami Ayyangar:** 13 BG and 39 MG locomotives have arrived in India since 1st April 1948. A further 126 BG engines are expected to be received by 31st March 1949.

**Shri R. K. Sidhva:** May I know whether one Col. Cantlie, an expert engineer, has been invited by the Government of India to discuss terms to manufacture engines in India? If that is so, what is the result and if that gentleman has arrived?

**The Honourable Shri N. Gopalaswami Ayyangar:** Col. Cantlie, is here on behalf of his own concern. There have been talks between him and the Railway Board. He has submitted his scheme which is under examination.

**Shri H. V. Kamath:** What, Sir, is the fine distinction between North America, Canada and the United States?

**Mr. Speaker:** Order, order.

**Shri H. V. Kamath:** Has any attempt been made to obtain locomotives from Czechoslovakia?

**The Honourable Shri N. Gopalaswami Ayyangar:** No particular negotiations were effected with Czechoslovakia but enquiries were made in a general way.

**Shri H. V. Kamath:** And with what result

**The Honourable Shri N. Gopalaswami Ayyangar:** With the result that it was decided that the better thing was to place the order in America.

**Shri H. V. Kamath:** What were the reasons for not placing orders with Czechoslovakia?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not think we reached the stage for considering any particular orders being placed in Czechoslovakia. I only said that enquiries were made in a general way.

**Seth Govind Das:** Besides these American Countries, were negotiations made with other countries?

**The Honourable Shri N. Gopalaswami Ayyangar:** Apart from the two parts of North America, enquiries were made in the United Kingdom and France and some other countries in Europe.

**Seth Govind Das:** May I take it that besides America, no other country was willing to supply us locomotives? And if so, did these negotiations result in any quotation of prices?

**The Honourable Shri N. Gopalaswami Ayyangar:** Yes, some orders have been placed in the United Kingdom. A small order has been placed in France also. No doubt quotations were obtained from that country.

**Dr. P. S. Deshmukh:** Has any locomotive been made so far in India?

**The Honourable Shri N. Gopalaswami Ayyangar:** Some locomotives have been manufactured in the Ajmer workshops.

**Dr. P. S. Deshmukh:** What does that 'some' amount to?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I shall have to ask notice of that question. Anyhow, it is a small number.

**Shri B. P. Jhunjhunwala:** Arising out of the question, what offers were received from other countries? What was the difference in price, having regard to the same quality which we were having from America?

**The Honourable Shri N. Gopalaswami Ayyangar:** So far as the United Kingdom on the one hand and the United States and Canada on the other hand are concerned, the prices were more or less the same, but the determining consideration was the question of quick delivery. As we were assured, of quicker delivery from America, a portion of the orders which had been previously placed in the United Kingdom had to be transferred to America and certain further orders were also placed there.

**Shri B. P. Jhunjhunwala:** What about the other countries—Czechoslovakia and others? What was the difference in price?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not think in the case of Czechoslovakia we reached the stage for obtaining quotations of prices.

**Pandit Hirday Nath Kunzru:** Has any thought been given to the question of getting engines from Australia?

**The Honourable Shri N. Gopalaswami Ayyangar:** I understand some investigation has been made.

**Pandit Hirday Nath Kunzru:** What is the result?

**The Honourable Shri N. Gopalaswami Ayyangar:** The result is that we have not yet reached a decision about placing orders there.

#### ASSOCIATESHIP OF INDIAN AGRICULTURAL RESEARCH INSTITUTE TO GRADUATE WORKERS

\*163. **Shri Lakshminarayan Sahu:** Will the Honourable Minister of Agriculture be pleased to refer to the answer to part (e) of my starred question No. 1132 asked on the 1st April, 1948 and state whether Government have considered the question of extending the right of eligibility for the Associateship of the Indian Agricultural Research Institute to graduate workers in the Indian Council of Agricultural Research's schemes?

**The Honourable Shri Jairamdas Doulatram:** The question has been considered but a final decision has to await the decision arrived at by the last meeting of the Inter-University Board (the proceedings of which have not yet reached Government) as to whether the Diploma of the Institute is to be recognized as a University Degree.

#### NUTRITIVE VALUE OF SUN-DRIED RICE AND PAR-BOILED RICE AND STORAGE IMPROVEMENTS

\*164. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Food be pleased to state what is the comparative nutritive value of (i) sun-dried rice and (ii) par boiled rice?

(b) What is the loss or gain if all rice in India is par-boiled or all sun-dried?

(c) Have Government called for reports from the Provincial Governments as to what saving they have been able to make with regard to storage improvement as promised by the Honourable Minister in his reply to a supplementary question raised on my Starred Question No. 1133 asked on the 1st April, 1948?

(d) Have Government gone into the question of starting grain elevators as promised in the reply to another supplementary question raised on the above-mentioned Starred Question?

**The Honourable Shri Jairamdas Doulatram:** (a) The term "sun-dried rice" used by the honourable member presumably refers to "raw rice". On this assumption the reply is that par-boiled rice is comparatively more nutritious than raw rice.

(b) Par-boiled rice gives a good out-turn on milling. At present 58 per cent. of the total production of rice is par-boiled. If the remaining 42 per cent. of raw rice is also par-boiled it is estimated that about 400,000 tons of extra rice would be available for distribution.

(c) The Provincial Governments were requested to send periodical reports. Reports received from U.P. and Ajmer indicate that losses have been reduced to 0.7 per cent. in the case of the former and to 0.9 per cent. in the case of the latter. Replies from other Provincial Governments are still awaited.

† Answer to this question laid on the table, the questioner being absent.

(d) The necessity of installation of grain elevators has been accepted in principle, and a scheme drawn up for the installation of the plant at Bombay port is under examination. The possibility of installing similar plants at Calcutta and Madras is also under consideration.

#### RENT DUE FROM TELEPHONE SUBSCRIBERS IN DELHI

\*165. **Dr. V. Subramaniam:** Will the Honourable Minister of Communications be pleased to state whether it is a fact that there is a balance of nearly Rs. 20 lakhs due from Telephone subscribers as rent for Telephones and trunk call charges in Delhi District Telephone area, at present, i.e., till the middle of December, 1948?

**Shri Khurshed Lal** (Deputy Minister for Communications): On 15th December, 1948, outstanding Telephone rental and Trunk call bills amounted to about Rs. 19 lakhs. It has since been reduced to about Rs. 14 lakhs on 1st January, 1949 and even of this, a sum of about 12½ lakhs represents dues from Government Departments, Civil and Military.

**Shri R. K. Sidhva:** May I know the reason for such a large amount which is due from the subscribers? May I also know when bills are issued after a subscriber calls to a particular station?

**Shri Khurshed Lal:** The honourable member must have noted that out of the Rs. 14 lakhs, about Rs. 12½ lakhs is due from Government departments. So the amount due from the public is only Rs. 1½ lakhs. Out of this sum Rs. 30,000 is irrecoverable because it is due from people who have gone to Pakistan. So considering the amount of bills every month, the honourable member will find that the amount is not excessive.

**Dr. V. Subramaniam:** What is the balance due from the people in Pakistan?

**Shri Khurshed Lal:** I said about Rs. 30,000.

**Dr. V. Subramaniam:** Has any arrangement been made for their recovery?

**Shri Khurshed Lal:** These are amounts due by private people, and I feel it will be rather difficult to realize them.

**Mr. Tajamul Husain:** Is not it a fact that Government takes deposits in advance? If so, how is it.....

**Mr. Speaker:** The honourable member should not argue. The honourable member wants to know if it is a fact that deposits are taken in advance?

**Shri Khurshed Lal:** No deposit is taken in advance for trunk call bills.

**Shri Deshbandhu Gupta:** What is the average monthly bill so far as the public is concerned in Delhi?

**Shri Khurshed Lal:** I will not be able to give separate figures for amount due from the public because bills are made both against the Government and the public.

**Dr. P. S. Deshmukh:** Is it due to these arrears that the telephones of the members of the Constituent Assembly have been cut off?

**Shri Khurshed Lal:** Some telephones have been cut off for non-payment of rents.

**Sardar Hukam Singh:** Would the Honourable Minister consider the advisability of sending in his list of arrears to the Income-tax Officer so that this amount may also be recovered with other taxes before properties are transferred as under the Ordinance in force?

**Mr. Speaker:** Order, order. That is a suggestion for action.

#### WAITING ROOMS IN POST OFFICES AND RECEPTIONISTS AT DELHI TELEPHONE DISTRICT OFFICE

\*166. **Dr. V. Subramaniam:** (a) Will the Honourable Minister of Communications be pleased to state whether it is a fact that in almost all Post offices in the Indian territory, even in the District Head Post offices, where there are trunk telephones, no provision is made for waiting rooms for customers who go there for making trunk calls to different places?

(b) Is it a fact that even in New Delhi, there is no such provision and that there is no receptionist in the Delhi Telephone District office, Eastern Court from whom visitors may make enquiries?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) No waiting rooms are provided for customers coming to a Public Call Office for making trunk calls. Sitting accommodation for them is, however, provided in the verandahs or public hall. Where accommodation is available, waiting accommodation and other facilities will be provided.

(b) The above applies to Delhi also. In the Delhi Telephone District Office however there is a waiting room for visitors and a receptionist to attend to them.

**Shri Deshbandhu Gupta:** Will Government consider the desirability of doing so now in New Delhi at least?

**Mr. Speaker:** Order, order.

**Dr. P. S. Deshmukh:** Cannot the customers enjoy the shade of the trees standing outside in the compound in addition to the verandah?

**Mr. Speaker:** Order, order. Next question.

#### SUPPLY OF FOODGRAINS TO FAMINE AREAS

\*167. **Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Food be pleased to state what parts of India are at present famine-stricken and what steps are being taken to ensure supply of requisite quantities of foodgrains to such areas?

**The Honourable Shri Jairamdas Doulatram:** The affected areas are Gujarat, Saurashtra, Cutch and parts of Jodhpur and Ajmer-Merwara.

Taking into account the scarcity conditions prevailing in these areas, the local Administrations have stated their requirements of foodgrains for 1949 from the Centre and maximum possible supplies are being arranged. Grain will be distributed through ration shops and in some cases through Relief Quota Shops and there is no question whatsoever of famine being allowed to spread in those areas in the sense that there will be failure of supplies for non-producers.

**Pandit Mukut Bihari Lal Bhargava:** What is the extent of the famine-stricken area in these places?

**The Honourable Shri Jairamdas Doulatram:** I am sorry I cannot give you the exact acreage.

**Shrimati Dakshayani Velayudhan:** Did Government get any information about the famine in Cutch?

**The Honourable Shri Jairamdas Doulatram:** Yes, Government have received information about famine conditions in Cutch.

**Shrimati Dakshayani Velayudhan:** What is the total number of deaths due to famine?

**The Honourable Shri Jairamdas Doulatram:** There have been no deaths in Cutch due to famine so far as I know.

**Shrimati Dakshayani Velayudhan:** May I draw the attention of the Government to the report which appeared in *Jai Cutch* on November 20th. and which ran as follows:

"Two peasants died of starvation in the village of Don in Mandvi taluka."

**Mr. Speaker:** The honourable member is referring to a newspaper report.

**Shrimati Dakshayani Velayudhan:** The Government can refer to the report, Sir. It appeared in a local newspaper.

**The Honourable Shri Jairamdas Doulatram:** Government have no information.

**Shri H. V. Kamath:** Have these areas been declared as famine areas by Government or are they merely areas threatened by famine?

**The Honourable Shri Jairamdas Doulatram:** Technically only such areas are notified as famine areas where there are famine conditions and the other areas are scarcity areas and we are trying to see that the scarcity areas do not become famine areas.

**Shi R. K. Sidhva:** Has there been any winter rains in these areas?

**The Honourable Shri Jairamdas Doulatram:** No information has been received by the Government of India, at any rate not in the last two or three days. It might have been received in the States Ministry so far as Cutch is concerned.

**Pandit Mukut Bihari Lal Bhargava:** Is the scarcity confined to food or also cattle fodder?

**The Honourable Shri Jairamdas Doulatram:** Is the honourable member's question with regard to Ajmer-Merwara?

**Pandit Mukut Bihari Lal Bhargava:** My question relates to all the provinces mentioned.

**The Honourable Shri Jairamdas Doulatram:** I have not got the figures for all the provinces but I can give the figures for Ajmer-Merwara.

**Shri T. T. Krishnamachari:** What is the time-lag when scarcity conditions come into being and the Government is made aware of it?

**The Honourable Shri Jairamdas Doulatram:** There is no time-lag. It depends upon the local administration when it contacts the Central Government.

**Dr. V. Subramaniam:** Is it the local Government that declares an area as a famine-stricken area?

**The Honourable Shri Jairamdas Doulatram:** It is the local administration which makes the declaration.

**Seth Govind Das:** Are arrangements being made in the famine areas, as far as cattle is concerned, to send them to other provinces?

**The Honourable Shri Jairamdas Doulatram:** Arrangements are being made. A large number of cattle have been sent from Cutch to other parts of India and a large quantity of fodder is being arranged for Cutch also.

**Seth Govind Das:** What about Gujarat?

**The Honourable Shri Jairamdas Doulatram:** So far as I know not from Gujarat. The Government of Bombay do not want to send cattle from Gujarat if they succeed in making arrangements for fodder in Gujarat.

**Shri H. V. Kamath:** At what point does a scarcity area become a famine area?

**The Honourable Shri Jairamdas Doulatram:** It depends upon the local administration's judgment.

## FAMINE RELIEF MEASURES IN AJMER-MERWARA

**\*168. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Agriculture be pleased to state what steps have been taken to relieve the famine conditions in Ajmer-Merwara and whether any arrangements have been made for ensuring the supply of fodder and cotton seeds to that area?

(b) If so, from what parts of India and in what quantities are such supplies being made?

(c) What facilities have been extended to the public to import these supplies?

(d) How many cattle have already migrated from Ajmer-Merwara and to which part of the country?

(e) What works do Government intend to start to afford employment to the agriculturists in the famine-stricken areas of Ajmer-Merwara and on what conditions?

(f) Have Government taken any steps to announce their policy to remit land revenue and to influence the Istimrardars not to recover rent in such parts of the province as are famine-stricken?

(g) How much loan do Government intend to advance by way of Taccavi to relieve the suffering peasantry and in what form?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). As measures have been taken by the Local Administration, the scarcity conditions are not likely to develop into actual famine. The Central Government have allotted sufficient quantities of foodgrains to Ajmer-Merwara.

Statements showing the quantities of foodgrains, fodder and concentrates which are to be supplied to Ajmer-Merwara are laid on the table of the House.

(c) It has been decided to assist Institutions and persons requiring large quantities of fodder to import it themselves by issuing to them Fodder (Ry.) Concession Rate Certificates.

(d) About 75,000 cattle have migrated from Ajmer-Merwara to villages in Rajasthan and Madhya Bharat. Arrangements have been made for grazing facilities being allowed by Governments of these areas.

(e) A statement indicating the test works which the Ajmer-Merwara Administration have decided to start is laid down on the table of the House. The test works, have, however, not attracted any large number of workers.

(f) Temporary orders for suspension of land revenue have been issued by the Sub-Divisional Officer, Ajmer and Extra Assistant Commissioner, Beawar, and proposals for remission of land revenue are under consideration.

The Istimrardars have been asked to take similar steps.

Action has also been taken to suspend execution of decrees against cultivators.

(g) Taccavi Loans to the extent of Rs. 2,45,000 are contemplated under the Taccavi Rules.

## STATEMENT I

## Allocations of foodgrains to Ajmer-Merwara

| Month             | Wheat | Rice  | Other Grains | Total |
|-------------------|-------|-------|--------------|-------|
| (Figures in tons) |       |       |              |       |
| November, 1948    | 1,500 | 1,500 |              | 3,000 |
| December, 1948    | 2,000 | —     |              | 2,000 |

| 1                                                 | 2 | 3                      | 4                      |
|---------------------------------------------------|---|------------------------|------------------------|
| 13 Baroda . . . . .                               |   | 73                     | 31                     |
| 14 Bikaner . . . . .                              |   | 248                    | 273                    |
| 15 Hyderabad . . . . .                            |   | 9,500                  | 9,475                  |
| 16 Jaipur . . . . .                               |   | 271                    | 198                    |
| 17 Jammu and Kashmir . . . . .                    |   | Negligible             | Negligible             |
| 18 Rampur . . . . .                               |   | 92                     | 64                     |
| 19 Travancore . . . . .                           |   | Figures not available. | Figures not available. |
| 20 Madhya Bharat Union . . . . .                  |   | 8,604                  | 7,465                  |
| 21 Patiala and East Punjab States Union . . . . . |   | Negligible             | Negligible             |
| 22 †United States of Matsya . . . . .             |   | 22                     | 15                     |
| 23 United States of Rajasthan . . . . .           |   | 829                    | 587                    |
| 24 United States of Vindhya Pradesh . . . . .     |   | Nil                    | Nil                    |
| TOTAL                                             |   | 108,036                | 93,381                 |

† Figures incomplete.

**Seth Govind Das:** Are Government investigating some such forest area in C.P. and other provinces where Sann hemp can be grown without affecting food crops?

**The Honourable Shri Jairamdas Doulatram:** I will not be able to reply without further enquiry.

**Shri M. Tirumala Rao:** Have Government been carrying on investigations to see if Sann hemp can substitute jute in regard to making of bags and other things?

**The Honourable Shri Jairamdas Doulatram:** These experiments are being carried on at our research institutions, not only about Sann hemp but all other fibres, and we are appointing a Special Committee to study all the fibres and find out the possibility of their being substitutes for jute.

#### CULTIVATION OF JUTE IN SOUTH INDIA

\*1378. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Agriculture be pleased to state whether the possibilities of cultivating jute in South India have been explored?

(b) Have any areas been selected for the same and if so, what is the extent of such areas?

(c) Are these selected areas places where food cannot be grown?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes.

(b) In Madras Province the districts of Vizagapatam, Tanjore, Malabar and South Kanara have been found *prima facie* suitable for growing jute and it is proposed to grow this crop on an experimental basis in 1949 in these districts. An area of 8,000 acres in Vizagapatam and about 1,000 acres in each of the districts of Tanjore, Malabar and South Kanara will be covered by this scheme.

In Travancore it may be possible to grow jute as a second crop in some of the low-land areas of the State covering about 50,000 acres, where at present only one crop is grown. In this tract it is proposed to bring a small area of about 2,000 acres under jute cultivation in 1949 on an experimental basis.

(c) Yes, except in Travancore where it is proposed to grow jute as a second crop during the period when the land remains uncultivated.

**Seth Govind Das:** Besides South India, is there any other province where jute can be grown and are Government making any investigations in this respect?

**The Honourable Shri Jairamdas Doulatram:** So far these provinces, but I believe C. P. already is growing a certain quantity of jute.

**Shrimati Dakshayani Velayudhan:** Can jute be grown in Cochin State?

**The Honourable Shri Jairamdas Doulatram:** There is a scheme for Cochin State also.

**Prof. Shibban Lal Saksena:** What is the total requirement of Indian mills of jute and how do we hope to fulfil that requirement?

**The Honourable Shri Jairamdas Doulatram:** I would not be able to give the exact figure, but, I think it is roughly about 70 lakh bales. During the last year, we were able to increase the production in India from 17 lakh bales to 20 lakh bales and we propose to increase it by about 4 lakh bales in the next year. Perhaps, it may be interesting for members to know that as against this, the production in Pakistan has gone down from 68 lakh bales to 54 lakh bales.

**Seth Govind Das:** Besides the requirements of the jute mills, how much is required in India for consumers and what plan Government have to make Indian Union self-sufficient so far as jute is concerned?

**The Honourable Shri Jairamdas Doulatram:** I have already said our requirements are about 70 lakh bales.

**Seth Govind Das:** That is about mills. I want to know how much jute is required for the whole country for consumers?

**The Honourable Shri Jairamdas Doulatram:** I suppose this includes the jute used by consumers. After all, all jute is converted in mills into bags and then used. The total quantity required by mills is about 70 lakhs.

**Shri V. C. Kesava Rao:** What is the expected production of jute in these areas?

**The Honourable Shri Jairamdas Doulatram:** These are all experiments to be made, so it is difficult to say how much we shall be able to produce. That will be known only after the first experiment has been completed.

**Seth Govind Das:** May I take it then that after the jute which is required for the mills which are in India there will not be any further need for jute goods to be imported into this country from Pakistan?

**The Honourable Shri Jairamdas Doulatram:** We do not import any jute goods; we only import raw jute from Pakistan.

**Prof. Shibban Lal Saksena:** What is the total quantity of jute produced in U. P.?

**The Honourable Shri Jairamdas Doulatram:** I would not be able to give the figure now.

#### MANUFACTURE OF COTTON TEXTILE STORES

\*1379. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether any steps have been taken to stimulate the manufacture of cotton textile stores in India?

(b) What is the total amount being spent in importing these articles?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir. Necessary assistance in the procurement and movement of raw materials is being rendered for the manufacture of cotton textile stores in India. Besides with a view to giving assistance to the indigenous industry certain raw materials

| Month                                                       | Wheat   | Rice   | Other Grains | Total  |
|-------------------------------------------------------------|---------|--------|--------------|--------|
| (Figures in tons)                                           |         |        |              |        |
| Ceiling import quota for 1949                               | 24, 000 | 6, 000 | 6, 000       | 36,000 |
| Allocations for January 1949 out of ceiling quota for 1949. | 3,700   | 1,000  | 500          | 5,200  |

NOTE :—Out of the allocations for the period November, 1948 to January, 1949, nearly 5,000 tons are now in transit to Ajmer.

## STATEMENT II

Quantities of Fodder and Concentrates which are to be Consigned to Ajmer-Merwara

|                                                                                           |                 |                 |
|-------------------------------------------------------------------------------------------|-----------------|-----------------|
| (i) Hay from Rajasthan                                                                    | 1, 00, 000 mds. | (Approximately) |
| from U. P.                                                                                | 1, 25, 000 mds. |                 |
| from Madhya Bharat                                                                        | 30, 000 mds.    |                 |
| Total Hay                                                                                 | 2, 55, 000 mds. | (Approximately) |
| (ii) Karbi Kutti and Bhoosa from Rajasthan and Madhya Bharat                              | 2, 00, 000 mds. | (Approximately) |
| (iii) Grass from Madhya Bharat and Bhopal                                                 | * 75,000 mds.   | (Approximately) |
| (iv) Concentrates i.e., cottonseed etc. from C. P. and Berar Hyderabad and Madhya Bharat. | 1, 50, 000 mds. |                 |

\* Negotiations are in progress

## STATEMENT III

Test Works which the Ajmer-Merwara Administration have decided to start.

- (i) Special repair to Kayar Tank in Ajmer Sub-collectorate.
- (ii) Special repair to the feeder of the Jalia Tank in Beawar Sub-collectorate.
- (iii) Special repair to Akhri Tank in Ajmer Sub-collectorate.
- (iv) Goela-Bandanwara Road in Kekri Sub-Division.

## INTRODUCTION OF NIGHT FLYING

\*169. Pandit Mukut Bihari Lal Bhargava: Will the Honourable Minister of Communications be pleased to state whether the Government of India contemplate introducing night flying in India and if so, has any scheme been evolved therefor and have any definite routes been settled for the purpose?

Shri Khurshed Lal (Deputy Minister for Communications): It is the policy of the Government of India to encourage night flying on regular services to the maximum extent possible consistent with the requirements of safety. Already, during the fair weather season, sections of certain air routes are regularly flown by night, e.g., Bombay-Delhi service via Ahmedabad and Jaipur, which is scheduled to arrive at Delhi at 8-40 p.m. From the 1st February 1949, an Indian airline is operating scheduled services wholly by night on the routes Delhi-Nagpur-Madras and Bombay-Nagpur-Calcutta for the carriage of surcharged mails and postal parcels and freight. No passengers are however allowed to be carried on these services and this bar will continue until the aerodromes are adequately equipped and staffed and navigational aids and other air route facilities provided.

Pandit Mukut Bihari Lal Bhargava: May I know whether these services are run by companies already existing or by new ones?

Shri Khurshed Lal: Does the honourable member refer to the new night services?

Pandit Mukut Bihari Lal Bhargava: Yes.

Shri Khurshed Lal: They are being run by a company which was already in existence, and running on one of these routes.

Shri H. V. Kamath: Is it a fact that many of the safety devices and controls enforced by the United Kingdom Air Ministry have not been adopted on the Dakotas operated here?

Shri Khurshed Lal: I require notice of that question.

Shri R. K. Sidhya: Have Government considered the question of revising the time schedule of the existing companies between Bombay and Delhi, Bombay and Calcutta, Bombay and Madras and vice versa so that planes leave at such an hour so as to arrive at those stations by 10 o'clock?

Mr. Speaker: It would be a suggestion for action.

## NATIONALISATION OF CIVIL AVIATION

\*170. Pandit Mukut Bihari Lal Bhargava: (a) Will the Honourable Minister of Communications be pleased to state whether it is a fact that the Standing Advisory Committee to the Ministry of Communications recommended that with a view to implement the policy of Nationalisation of Civil Aviation, Government, to begin with, should operate one of the routes and if so, were any steps taken by the Government of India to implement this recommendation and if not, why not?

(b) Do Government propose to take any steps towards the implementation of the policy of Nationalisation of civil aviation?

The Honourable Mr. Rafi Ahmad Kidwai: (a) The reply to the first part of the question is in the affirmative. A Committee was set up to select a route on which an air service may be operated with an organisation owned and directed by the Government of India and to advise them on the details of the organisation necessary for the purpose and to give an indication of the economic possibilities of such operation. The Committee, while selecting a route, definitely advised that operation over a single route by Government would be a wholly uneconomical proposition. Government, therefore, decided not to pursue the proposal.

(b) The problem of nationalisation has to be considered in the light of Government's industrial policy in general. There is no intention of nationalisation of civil aviation in the near future.

Dr. P. S. Deshmukh: May I know what progress in civil aviation is contemplated to be achieved during the course of the next financial year?

An Honourable Member: A very general question.

Mr. Speaker: It is a very general question, that is the objection to it.

Dr. P. S. Deshmukh: Now that night flying is possible may I know whether the Honourable Ministers will make it a point to fly during the night so as to make more room available during the day?

## TRAINING OF PILOTS, GROUND ENGINEERS AND TECHNICIANS

\*171. Pandit Mukut Bihari Lal Bhargava: (a) Will the Honourable Minister of Communications be pleased to state the total number of pilots, ground engineers and technicians who are at present working on different routes and at different aerodromes?

(b) What is the percentage of Indian instructors, pilots, ground engineers, etc., as compared to non-Indians?

(c) Have Government opened any training centres in India for pilots, ground engineers, technicians, etc.?

360

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [7TH FEB. 1949]

(d) If so, where are those centres located and what is the annual recurring and non-recurring expenditure incurred on such training centres?

(e) Have Government arranged for the training of pilots, ground engineers and technicians, in foreign countries and if so, in which countries and what is the number of persons receiving such training in those countries?

(f) Have Government entered into any arrangement with any foreign countries for imparting training to Indian personnel in future, in ground engineering, piloting, etc., and if so, with which countries?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) and (b). I lay on the table a statement showing the total number of Pilots, Ground Engineers and other technical staff at present employed in Civil Aviation in India and the percentage of Indians among them.

(c) and (d). Two Civil Aviation Training Centres have been established, one at Saharanpur for the training of Radio Operators and Radio Technicians and the other at Allahabad for the training of Pilots, Ground Engineers, Aerodrome Officers and Control Operators. The recurring and non-recurring expenditure on these Centres is estimated respectively at Rs. 12.8 lakhs and 29.27 lakhs for 1948-49 and Rs. 39.06 and 45.43 lakhs for 1949-50.

(e) Five Indian scholars are at present receiving training in United States of America and two in United Kingdom in different branches of Civil Aviation. It is also proposed to send to United Kingdom a batch of five Pilots for training as Pilot Instructors at the Air Services Training Limited, Hamble, for employment as Junior Flying Instructors at the Civil Aviation Training Centre, Allahabad, on return.

(f) No, Sir, Arrangements for advanced training will be made in foreign countries according to requirements, in cases where facilities are not available in India.

*Statement showing the total number of Pilots, Ground Engineers and Other Technical staff employed in Civil Aviation in India and the Percentage of Indians.*

| Name of the Post.                                 | Number of Indians | Number of Non-Indians | Total. | Percentage of Indians |
|---------------------------------------------------|-------------------|-----------------------|--------|-----------------------|
| <b>I. Licensed Personnel</b>                      |                   |                       |        |                       |
| (i) Pilot 'B' License.                            | 157               | 108                   | 265    | 59                    |

**Shri H. V. Kamath:** Is there any proposal to import foreign technicians here to train our Pilots and Engineers instead of incurring heavy expenditure on sending our men abroad?

**Shri Khurshed Lal:** No such proposal is under consideration.

**Shri H. V. Kamath:** It will be cheaper for our country. May I know the reasons for not considering this proposal?

**Shri Khurshed Lal:** The necessity for importing foreign technicians has not yet been felt.

**Shri S. V. Krishnamoorthy Rao:** What is the number that can be trained in each of these grades—Pilots, Ground Engineers—at Saharanpur and Allahabad?

**Shri Khurshed Lal:** The Saharanpur training centre was established on the 25th November 1946 and so far 330 Radio Operators and 207 Radio Technicians have been trained at that centre. 140 Operators and Technicians are now under training.

**Shri S. V. Krishnamoorthy Rao:** May I know how many can be trained every year in both the places?

**Shri Khurshed Lal:** As I said, 140 are under training.

**Shri S. V. Krishnamoorthy Rao:** Will that meet the needs of India?

**Shri Khurshed Lal:** We are doing the best that we can and we think it will meet the needs.

**Shri S. V. Krishnamoorthy Rao:** Is there any proposal to start new training centres?

**Shri Khurshed Lal:** No.

**Shri R. K. Sidhva:** Have any applicants been refused admission now?

**Shri Khurshed Lal:** Not that I know of.

**Pandit Hirday Nath Kunzru:** When will the arrangements being made for the training of Ground Engineers and Pilots at Allahabad be completed?

**Shri Khurshed Lal:** Already some trainees are being trained at Allahabad and we hope to start the training of commercial Pilots there in March.

#### SINDRI FERTILISERS FACTORY

†\*172. **Prof. N. G. Ranga:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) how far the construction of the Sindri Fertilisers Factory has progressed;

(b) when Government expect to complete it;

(c) whether the necessary machinery is being imported; and

(d) when the actual work of production of fertilisers is expected to commence?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) In broad terms, a little more than half the total work is complete. Among the important sections of work, the boiler-house portion of the power-house including the foundations and steel work structure is practically complete; the installation of boilers is going ahead satisfactorily. The erection of the turbine-house portion of the power-house is well advanced. The large building in the gas production section is complete and erection of plant is proceeding rapidly. Good progress is being made on the construction of buildings and erection of plant in other portions of the factory. The residential quarters for the factory staff and workers are almost complete with service installations.

(b) By early 1950.

(c) Some are being imported and some made in India.

(d) By early 1950.

† Answer to this question laid on the table, the questioner being absent.

## IMPORT OF AGRICULTURAL MACHINERY FROM U.S.A.

†\*173. Prof. N. G. Ranga: (a) Will the Honourable Minister of Agriculture be pleased to state whether any negotiations are being carried on with the Government of the U. S. A. and the manufacturers of agricultural machinery in America to import the necessary machinery to India?

(b) What different kinds of agricultural machinery are sought to be obtained?

(c) What is the response given by the Government of the U.S.A. and the American manufacturers?

The Honourable Shri Jairamdas Doulatram: (a) and (c). Government have explored the possibilities of obtaining agricultural machinery but no actual negotiations have been carried on either with the Government of U.S.A. or with the manufacturers of agricultural machinery.

(b) If the plans for reclamation of 6 million acres of culturable waste-land and for construction of 4,000 tubewells are sanctioned it will be necessary to obtain the following machinery from abroad:

(1) 1,000 heavy reclamation tractors with associated equipment.

(2) 10,000 standard agricultural tractors with associated equipment.

(3) 150 mechanical boring rigs with ancillary equipment and power plants.

## GOVERNMENT'S TEXTILE CONTROL POLICY

†\*174. Prof. N. G. Ranga: (a) Will the Honourable Minister of Industry and Supply be pleased to state the present Textile Control Policy of the Government of India?

(b) How are the present controls being implemented?

(c) What proportion of the total yarn being produced in mills is being supplied to handloom weaving industry?

The Honourable Dr. Syama Prasad Mookerjee: (a) The present Textile control Policy of the Government of India involves fixation of ex-mill prices by the Government of India, allocation of cloth and yarn to the provinces and States in accordance with quotas fixed by the Government of India, purchase of cloth and yarn from the Mills against such quotas by the nominees of the provincial and State Governments, distribution of cloth and yarn through the licensed trade channels or through co-operative societies under the control of the provincial or the State Government and fixation of retail prices by the provincial or the State Government within a maximum fixed by the Government of India. It also includes certain measures of technical control over production by the Mills.

(b) I would invite the honourable member's attention to the reply given by me to parts (a) to (c) of Shri M. Ananthasayanam Ayyangar's question No. 78 on the 2nd February 1949.

(c) Of the total yarn produced by Mills in India the surplus left after meeting the requirements of the composite Mills is available for supply to the handloom, powerloom and other industries. The quantity available for the handloom and the powerloom industries is about 21.7 per cent of the total yarn production.

† Answer to this question laid on the table, the questioner being absent.

## CONSTRUCTION OF IRON AND STEEL FACTORIES

†\*175. Prof. N. G. Ranga: Will the Honourable Minister of Industry and Supply be pleased to state:

(a) whether Government have chosen the place to locate the two proposed iron and steel factories;

(b) whether they have placed orders for the manufacture and supply of the necessary machinery for these factories; and

(c) when they propose to start the construction of these factories?

The Honourable Dr. Syama Prasad Mookerjee: (a) to (c). Government appointed in the latter half of last year three expert consulting firms of international reputation to make a preliminary survey and report on two alternative schemes for the establishment of one plant of one million ton capacity and two plants each of half a million ton capacity. The Consultants have completed the survey and their reports which, *inter alia*, will contain recommendations on possible sites for the location of the plants, the machinery required, etc., are awaited in the next few days. Government will take further steps on receipt of the reports.

## MEASURES TAKEN TO GROW MORE FOOD

\*176. Shri Upendranath Barman: (a) Will the Honourable Minister of Agriculture be pleased to state the figures in the years 1947 and 1948 respectively of (i) the net area sown; (ii) the current fallows; (iii) cultivable waste other than fallows in India; and (iv) the total area of current fallows and cultivable waste brought under cultivation province by province?

(b) What steps are being taken by the Central and Provincial Governments for growing more food?

The Honourable Shri Jairamdas Doulatram: (a) Information for 1947-48 and 1948-49 has not yet been received from the Provinces. As soon as it is received it will be placed on the table.

(b) The Central and Provincial Governments are conducting several schemes for increasing food production in the country. Under the Constitution, Agriculture being a Provincial subject, the action of the Central Government has been confined to coordination and assistance where Provinces need it.

The Provinces are financing a large number of schemes for which the Central Government makes a small grant out of its limited funds. These schemes are of the following types:

## I. Grow More Food Schemes (Works).—

- (1) Construction of new wells and improvement of old wells including re-excavation; deepening, boring and installation of tube and water lifting appliances.
- (2) Irrigation tube wells and projects.
- (3) Pumping installations.
- (4) Tanks and channels.
- (5) Land improvement works such as (a) Drainage works, (b) Contour bunding works, (c) Clearance and reclamation.

## II. Grow More Food Schemes (Supply).—

- (1) Composts.
- (2) Oil cakes.
- (3) Ammonium Sulphate.
- (4) Superphosphate, bonemeal, or other fertilizers.
- (5) Supply of other manures such as fish manure, green manure.
- (6) Improved cereal seeds.

† Answer to this question laid on the table, the questioner being absent.

III. *Grow More Food Schemes (Service).—*

Staff directly and wholly engaged for Grow More Food Schemes.

IV. *Grow More Food Schemes (Miscellaneous).—*

(1) Pest control measures.

(2) Measures for preventing decrease of food production otherwise imminent *e.g.*, making available seeds other than improved seeds, iron and steel for manufacture of implements at places and times where shortage prevails.

In 1947-48, an amount of Rs. 2 crores was given as grant to Provinces and Rs. 1.36 crores as loan; and Rs. 3.88 crores has been sanctioned as grant and Rs. 7 lakhs as loan in 1948-49.

In addition, the Tractor Organisation of the Central Government is assisting the Provinces and States in reclaiming culturable waste. Last year, an area of roughly 33,000 acres has thus been reclaimed. A programme of reclaiming 1,10,000 acres this year is in hand. Besides the area which was reclaimed from waste, 29,327 acres were mechanically cultivated for the Provinces.

**Mr. Speaker:** As there has been a thread-bare discussion on this subject for two days in the House I do not propose to allow many questions on this.

**Shri Upendranath Barman:** In their attempts to grow more food, have the Government both at the Centre and in the Provinces considered the question of soil conservation on a wider scale?

**The Honourable Shri Jairamdas Doulatram:** The Central Government sent five of its officials for studying soil conservation in America and England. They have recently come and they were asked to go round the country to different Provinces and see how far they could be helpful and what exactly the conditions were. Some of the Provinces, especially Bombay and U.P., have their own soil conservation staff. But I do not think that the staff in any of the Provinces is adequate.

**Shri Upendranath Barman:** Have Government made any attempt to secure data, Province by Province, as to how far Provinces have proceeded with this soil conservation policy?

**The Honourable Shri Jairamdas Doulatram:** It has not been possible to do it on a large scale except for this brief survey which was made by the five officials who have recently come. But we can have the whole survey made with the co-operation of Provincial Governments and by the use of additional staff.

**Dr. Mono Mohan Das:** May I know what steps are proposed to be taken by Government to prevent lands which are usually cultivated but which are going into waste lands due to the poverty of cultivators and want of bullocks?

**The Honourable Shri Jairamdas Doulatram:** I think the best step would be for the Provincial Governments to give large *taccavi* loans to the needy agriculturists.

**Dr. Mono Mohan Das:** With regard to this may I know.....

**Mr. Speaker:** I think we are going into the provincial sphere.

**Shri Mihir Lal Chattopadhyay:** May I know whether the Honourable Minister can supply us the names of the Provinces which have not been able to utilise the grants and loans offered by the Central Government?

**The Honourable Shri Jairamdas Doulatram:** Yes, I will supply them.

## IMPORT OF FOODSTUFFS IN 1949

†\*177. **Shri S. Nagappa:** Will the Honourable Minister of Food be pleased to state whether there is any plan to import food from foreign countries in 1949; and, if so, when, what quantity and at what rate?

**The Honourable Shri Jairamdas Doulatram:** It is proposed to import four million tons during the year 1949. Purchases will be spread over the whole year and the rates will be determined according to the conditions prevailing from time to time.

## METHODS TO INCREASE PRODUCTION OF PADDY

\*178. **Dr. V. Subramaniam:** (a) Will the Honourable Minister of Agriculture be pleased to state the total number of additional acres of land brought under cultivation to grow paddy in different parts of the Indian Union during the year 1948?

(b) What are the steps recommended or proposed to be recommended by the Indian Agricultural Research Institute, to increase the yield of paddy per acre?

(c) Were any steps taken to test the soils on the spot and recommend proper manures to the cultivators?

**The Honourable Shri Jairamdas Doulatram:** (a) An additional area of 5,86,950 acres was brought under paddy cultivation during 1948. A statement showing the additional acreage in each province is placed on the table of the House.

(b) The measures, based on the researches of the Indian Agricultural Research Institute, which this Ministry would recommend and which have been recommended for increasing paddy yields, are generally as follows:

- (1) Proper levelling of the land;
- (2) Ploughing up of the land when dry before the monsoon showers;
- (3) Growing of leguminous crop during the interval after harvesting of the paddy and before the next sowing;
- (4) Deep ploughing in case there are weeds. Application of nitrogenous manures in any form at the rate of 30 to 35 lbs. nitrogen per acre. Green manuring should however be preferred to other manures.
- (5) Application of phosphatic manures like bonemeal which has been found beneficial in several places.

(c) The testing of soils on the spot is done by the Provincial Department of Agriculture through their Agricultural Chemists, and the help of the Indian Agricultural Research Institute, who analyse the soil and recommend the proper type of manures, is sought. Considerable amount of research work has been done on soil analysis and the effect of manures and fertilisers on the yields of paddy. The recommendations mentioned in answer to part (b) of the question are based on these researches. The results are known to the Provincial Departments of Agriculture who are responsible for bringing them to the notice of the cultivators.

† Answer to this question laid on the table, the questioner being absent.

*Statement showing Province-wise the additional acres of land brought under paddy cultivation during the year 1948.*

| Name of Province    | Acreage (in acres) |
|---------------------|--------------------|
| 1. United Provinces | 28,888             |
| 2. Bihar            | 13,450             |
| 3. West Bengal      | 747                |
| 4. Coorg            | 687                |
| 5. East Punjab      | ...                |
| 6. Bombay           | 392                |
| 7. Ajmer-Merwara    | ...                |
| 8. Orissa           | 950                |
| 9. C.P. and Berar   | 23,836             |
| 10. Delhi           | ...                |
| 11. Madras          | 5,00,000           |
| 12. Assam           | 18,000             |
| Total               | 5,86,950           |

**Dr. Mono Mohan Das:** What are the chemical fertilisers which are manufactured in this country or which are going to be manufactured in the proposed Sindri Fertiliser Factory?

**The Honourable Shri Jairamdas Doulatram:** Largely it is ammonium sulphate, and also some superphosphates.

**Dr. V. Subramaniam:** What are the measures taken by the Government to encourage the cultivators to produce manure so that there may not be any waste of cow-dung and other farmyard manures?

**The Honourable Shri Jairamdas Doulatram:** The Provincial Governments have been asked to take all the possible steps.

**Mr. Tajamul Husain:** We are and we claim to be an agricultural country...

**Mr. Speaker:** What information does the honourable member want? He seems to be arguing.

**Mr. Tajamul Husain:** No, Sir, I am not arguing. May I go on in my own way?

**Mr. Speaker:** He may ask for information.

**Mr. Tajamul Husain:** The information that I want is this. Will Government be pleased to tell us the reason why we import foodgrains from outside since we are known to be an agricultural country in the world?

**Mr. Speaker:** Order, order.

PETROL TO VISITORS OF JAIPUR SESSION OF INDIAN NATIONAL CONGRESS

†\*179. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Transport be pleased to state whether it is a fact that any person from Delhi who wanted to attend the Jaipur Session of the Indian National Congress in December 1948 was given 24 gallons of petrol?

(b) If so, were these instructions given by Government?

(c) Do Government propose to give the same facilities to other political parties also?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes. Having regard to the improved petrol supply position and the importance of giving relief to

† Answer to this question laid on the table, the questioner being absent.

rail transport, the Provincial Rationing Authority, Delhi, issued petrol rations ranging from eight to thirty gallons to intending visitors to the Jaipur Session of the Indian National Congress, who wanted to travel by road.

(b) No. The Provincial Rationing Authority has the necessary powers to deal with such cases on their merits.

(c) As explained in reply to part (a) of this question, the facilities were not given on political grounds. The question, therefore, does not arise.

#### DEVELOPMENT OF A DEEP SEA PORT BETWEEN COCHIN AND MORMUGAO

\*180. **Shri B. N. Munavalli:** Will the Honourable Minister of Transport be pleased to state whether Government propose to place on the table of the House a copy of the report of the West Coast Major Port Development Committee regarding the question of a deep sea port between Cochin and Mormugao?

**The Honourable Shri N. Gopalaswami Ayyangar:** The report has not yet been received; the question of placing it on the table of the House will be considered after the report is received.

**Shri S. V. Krishnamoorthy Rao:** What are the reasons for the delay?

**The Honourable Shri N. Gopalaswami Ayyangar:** The fact is that certain investigations have been ordered at the request of this Committee and they will take some time. Pending the completion of those investigations the Committee has suspended its sittings.

**Shri B. N. Munavalli:** When is the report expected to be received?

**The Honourable Shri N. Gopalaswami Ayyangar:** It is difficult to say. One report, after investigation, is expected to be received by about April or May. The other will be received only towards the end of the year. We cannot say exactly when the Committee will report.

**Shrimati G. Durgabai:** May I know from the Honourable Minister whether the construction of a port at Cocanada is also included in the terms of reference of this Committee?

**The Honourable Shri N. Gopalaswami Ayyangar:** This relates to the West Coast ports and Cocanada is not amongst their terms of reference.

#### MODERN MACHINERY FOR COAL MINES

†\*181. **Shri S. Nagappa:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the method generally adopted in the coal mines of our country to mine underground coal?

(b) Is there any scheme to introduce modern mechanical means of mining coal?

(c) If so, what would be the approximate cost of implementing the scheme?

(d) What quantity of coal is expected to be produced during a quarter year by the use of modern mechanical means of mining?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The method generally adopted is known as the Pillar and Stall method.

(b) Underground mining by modern mechanical means is being gradually introduced in some collieries. Introduction of mechanical methods on a large scale depends not only upon the availability of mining machinery but also upon skilled personnel to operate the plant and machinery. Measures are in hand to impart technical training to colliery workers and other supervisory staff, and progress in mechanising mines will be achieved by stages.

† Answer to this question laid on the table, the questioner being absent.

(c) It is not possible at present to frame an estimate of the expenditure that may become necessary.

(d) Until a fair degree of mechanisation has been achieved an assessment of the output of coal is not possible.

\*182 [WITHDRAWN]

#### POST AND TELEGRAPH OFFICES IN ORISSA CIRCLE

†\*183. **Shri Yudhishtir Mishra:** (a) Will the Honourable Minister of Communications be pleased to state the number in Orissa Circle of (i) departmental Telegraph Offices; (ii) combined Post and Telegraph offices; and (iii) Post Offices converted into combined Post and Telegraph offices during the last three years?

(b) Are Government aware of the public demand for the conversion of Kantabanjee, Titlagarh, Khariar Road, Deogarh and Brajraj Nagar Post Offices in Orissa Circle into combined offices?

(c) If so, has the question of their conversion been taken up? Since how long is the matter pending consideration and when may decisions in respect of each of the above offices be expected to be taken?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) (i) One.

(ii) 78.

(iii) Nil, but one new combined office has been opened.

(b) Yes.

(c) The cases have been under examination by the Head of the Circle concerned for about two years and the amount of guarantee required in each case is being worked out. The Postmaster-General is being asked to expedite final decision.

#### GAZETTED POSTS IN DIFFERENT POSTAL CIRCLES

†\*184. **Shri Yudhishtir Mishra:** Will the Honourable Minister of Communications be pleased to state the total number of Gazetted posts in different postal circles in the (i) Postal Branch; (ii) Telegraph Branch; and (iii) Telephone Branch?

**Shri Khurshed Lal** (Deputy Minister for Communications): (i) 238.

(ii) 405.

(iii) 209.

#### POSTS OF SUPERINTENDENTS OF POST OFFICES

†\*185. **Shri Yudhishtir Mishra:** Will the Honourable Minister of Communications be pleased to state:

(a) the total number of posts of Superintendents of Post Offices and Royal Mail Service in India;

(b) the total number of such posts in Orissa Circle.

(c) the total number of departmental officers who have been selected and placed in the approved list for promotion to the posts of Superintendents of Post Offices and Royal Mail Service; and

(d) the total number of such selected departmental officers allotted to Orissa Circle?

† Answer to this question laid on the table, the questioner being absent.

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) 111.

(b) Four.

(c) 75.

(d) One.

#### OFFICE AND RESIDENTIAL ACCOMMODATION TO POSTAL INSPECTORS IN ORISSA CIRCLE

†\*186. **Shri Yudhishtir Mishra:** Will the Honourable Minister of Communications be pleased to state:

(a) the amount of house rent given to Postal Inspectors in Orissa Circle for providing accommodation for their offices; and

(b) whether Government propose either to raise the amount according to conditions obtaining in different localities or to consider the question of providing office and residential accommodation to Postal Inspectors in the same way in which accommodation for office and residence is provided to Superintendents of Post offices?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) Rupees five per month.

(b) No.

#### RAISING CERTAIN POST OFFICES IN ORISSA CIRCLE TO SELECTION GRADE OFFICES

†\*187. **Shri Yudhishtir Mishra:** Will the Honourable Minister of Communications be pleased to state whether the question of raising the status of the Baripada, Bargarh, Ba'angir and Aska Post Offices in Orissa Circle, to selection grade offices has been taken up by Government, and if so, when and with what result?

**Shri Khurshed Lal** (Deputy Minister for Communications): There are certain standards to be fulfilled for raising the status of a post office to a selection grade office. Government will, of course, consider the cases mentioned by the honourable member along with any others when any of them reaches the prescribed standards.

#### METRE GAUGE RAILWAY LINE BETWEEN RANGAPARA AND TEZPUR

\*188. **Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that there has been a persistent demand to dismantle the T. B. Railway which runs between Rangapara North and Tezpur Town and to construct a metre gauge line up to Tezpur and if so, what action, if any, are Government taking in this matter?

(b) Are Government aware that the public would be content to have a regular motor service for carrying passengers and mails from Rangapara to Tezpur and *vice versa* until such time as is required to construct a metre gauge railway line of Assam Railways?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) I would invite the attention of the honourable member to the reply given by the Honourable Dr. John Matthai on 25th February, 1947 to his question No. 596. Under the Agreement, Government are not in a position to purchase the Tezpur-Balipara Railway before 1st September 1952, and as such the question of converting the line into Metre Gauge does not arise at present.

(b) Government have no information on the subject.

**Srijut Rohini Kumar Chaudhuri:** May I know, Sir, if representations have been received since 1947 for reconsideration of the question?

† Answer to this question laid on the table, the questioner being absent.

**The Honourable Shri N. Gopalaswami Ayyangar:** The question has been considered and reconsidered and as the honourable member knows himself we have not been able to modify the decision which we had already taken on the matter.

**Srijut Rohini Kumar Chaudhuri:** May I refer the Honourable Minister to a reply given on the floor of this House in 1946 when it was stated that this Railway has been included in the five years' programme and that for five years the Railway could not be taken out of this private company and that after five years the Government will have a metre gauge there?

**The Honourable Shri N. Gopalaswami Ayyangar:** As a matter of fact, this line would fall due for purchase by Government, if Government decide to do so, somewhere about 1952, and meanwhile the question is being investigated as to whether it could be converted into a metre gauge line after we had been able to purchase it.

**Begum Aizaz Rasul:** As the word "T. B." is connected with a very virulent disease, may I know whether Government considers the necessity of changing the name of the railway from "T. B." to something else?

**Mr. Speaker:** Order; order.

#### REDUCTION IN THIRD CLASS FARES AND CONSTRUCTION OF NEW THIRD CLASS BOGIES

\*189. **Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Railways be pleased to state whether the attention of the Government has been drawn to the news item appearing in the *Hindustan Times* dated New Delhi the 14th January, 1949 under the caption "More passengers in First Class today"?

(b) Is it a fact that class III fares have not been reduced?

(c) When are the new bogies for class III being made ready and pending their construction do Government propose to convert old inter class bogies into third class?

(d) Has the system of reservation of seats for third class passengers been introduced and if not, when is it likely to be introduced?

**The Honourable Shri K. Santhanam:** (a) Yes.

(b) The fare for Class III has not been reduced.

(c) A few coaches of the improved type of Class III have been placed in service during this month and others will follow. There is no proposal to convert old Inter Class bogies into Class III.

(d) Arrangements have been made for setting apart one compartment in each long distance mail or express train for Class III passengers travelling 300 miles or over. Some Railways are now experimenting also with reservation of seats for Class III on certain trains and its extension will depend on the success or otherwise of these experiments.

**Shri H. V. Kamath:** Is the Minister aware, Sir, that under the new dispensation introduced since January 1st 1949 there is only standing room in III class, sitting room in II class, and sleeping room only in I class and that too many of the bogies going vacant, and this has resulted in considerable hardship to passengers?

**The Honourable Shri K. Santhanam:** So far as the new dispensation, as the honourable member calls it, is concerned the Class III has not been affected at all; the position remains the same as before January 1st 1949. As for the other classes we are making the maximum efforts to provide as comfortable accommodation as possible.

**Seth Govind Das:** Is it not a fact that on account of this new classification the second class and inter-class passengers are now travelling in second class and that first class bogies are found generally vacant?

**The Honourable Shri K. Santhanam:** Our information is to the contrary. There are more passengers travelling in Class I now than before.

**Seth Govind Das:** But is it not a fact that the number of coaches of first class are more than necessary and that there should be more second class coaches than first class ones?

**The Honourable Shri K. Santhanam:** The matter is under constant examination. It is too early to say anything as the experiment started only on 1st January 1949.

**Seth Govind Das:** How many new type of third class coaches have been put on the lines and how many per month are expected to be put?

**The Honourable Shri K. Santhanam:** 100 coaches have been ordered from the Hindustan Aircraft Factory. A few coaches have been received and put on the Grand Trunk Express. Others will be coming.

**Pandit Hirday Nath Kunzru:** Is it a fact that owing to the alterations that have been introduced, travelling in Class I on certain lines is becoming as uncomfortable as travelling in Class II previously was?

**The Honourable Shri K. Santhanam:** Under the new arrangement the Class I represents somewhere between the old I Class and the old II Class, and therefore the accommodation in the new Class I is certainly a little inferior and it was intended to be a little inferior to the old I Class.

**Seth Govind Das:** Sir, one of my questions has remained unreplyed. I wanted to know how many new type of coaches of Class III are expected to be put on the lines every month.

**The Honourable Shri K. Santhanam:** I would like to have notice of the question.

**Shrimati Dakshyani Velayudhan:** Is the Government aware of the fact that passengers who travel by Second Class are not getting a proper return on what they pay?

**Mr. Speaker:** It is a matter of opinion.

**Shri R. K. Sidhva:** The Honourable Minister stated just now that 100 new Third Class coaches have been received from the Hindustan Construction Company and they have been put on the Grand Trunk Express. May I know how many have been put on the Grand Trunk Express and whether they have been distributed in various Railways?

**The Honourable Shri K. Santhanam:** I stated that 100 have been ordered and a few have been received and put on the Grand Trunk Express.

**Shri R. K. Sidhva:** How many have been received?

**The Honourable Shri K. Santhanam:** A few.

**Shri R. K. Sidhva:** A few means what? What is the number?

**The Honourable Shri K. Santhanam:** I require notice of that question.

**Shri L. Krishnaswami Bharathi:** Is it not a fact that the width of Second Class compartments has been shortened by one-half and that Government have received a number of complaints from passengers that they are not able to sleep?

**The Honourable Shri K. Santhanam:** It is true that in the South Indian Railway the Second Class compartments have been reduced in width to the

372 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [7TH FEB. 1949]

level of the Inter Class which is the new Class two. When I went to Madras recently, I enquired into the matter and it has been arranged to give better seats hereafter.

**Shri L. Krishnaswami Bharathi:** Regarding reservation of seats, may I know in what railways reservation of seats for Class III has been introduced? Is it not a fact that individual seats are not reserved but only carriages are reserved?

**The Honourable Shri K. Santhanam:** On some Railways individual seats are reserved. On others, some compartments are reserved. Each Railway is trying to experiment in order to find out which sort of reservation will be most convenient to the passengers.

**Shri L. Krishnaswami Bharathi:** May I know the Railways on which individual seats are reserved for Third Class passengers?

**The Honourable Shri K. Santhanam:** I would like notice of that question.

**Babu Ramnarayan Singh:** What are the considerations which have led Government to introduce this new classification?

**The Honourable Shri K. Santhanam:** These considerations have been under discussion since 1937. I think we shall be able to make them clear during the Railway Budget debate.

श्री गोकुल भाई दौलत राम भट्ट : क्या मंत्री महाशय को यह मालूम है कि तीसरे दर्जे के जो डिब्बे अभी बने हैं उनमें एक तरफ एक दरवाजा और दूसरी तरफ दूसरा दरवाजा है। यानी जब गाड़ी प्लेटफार्म पर खड़ी होती है तो तीसरे दर्जे के डिब्बे का केवल एक ही दरवाजा रहता है जिससे आने जाने में बहुत दिक्कत रहती है।

**Shri Golkulbhai Daulatram Bhatt:** Is the Honourable Minister aware of the fact that in the new third class bogies there are only two doors on each side, i.e., when the train stands on the platform, there is only one door to enter and get out of the III class compartment which entails hardship?

**Mr. Speaker:** I am afraid these are all arguments and I do not propose to allow any more questions. The honourable members may make out their points at the time of the Railway Budget.

**Srijut Rohini Kumar Chaudhuri:** Only one question, Sir. What class fares are taken from those passengers who actually travel on the roof of the compartments—are they ticketless travellers?

#### APPOINTMENT OF ASSISTANT DIRECTOR OF AIR TRANSPORT

**\*190. Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Communications be pleased to state whether the attention of Government has been drawn to a letter appearing in the *Hindustan Standard* published in Calcutta on 6th December 1948 under the caption "Irregular Appointment"?

(b) Is it a fact that names of four candidates were sent up by the Federal Public Service Commission as suitable for appointment as Assistant Director of Air Transport in Operational or Administrative capacity?

(c) Is it a fact that none of these persons recommended by the Federal Public Service Commission was appointed but some other person not selected by the Commission has been appointed without reference to the Commission?

**Shri Khurshed Lal (Deputy Minister for Communications):** (a) Yes, Sir.

(b) No Sir. As is the normal practice, only one candidate was recommended by the Federal Public Service Commission for the post.

(c) No. The person recommended by the Federal Public Service Commission was permanently appointed to the post. After some time, the post

became temporarily vacant and an *ad hoc* arrangement was made to fill it without reference to the Commission. As the vacancy continued longer than was first expected, the Commission have been requested to say whether there is any candidate in their list considered by them suitable for appointment to the vacancy.

**Shri H. V. Kamath:** Is the *ad hoc* arrangement going to last for a long time?

**Shri Khurshed Lal:** No. As I have already said, we have asked the Commission whether they have got on their list any other candidate who can be appointed.

**Shri H. V. Kamath:** When did Government ask the Commission?

**Shri Khurshed Lal:** I would like to have notice of that question.

#### EFFECT OF GOVERNMENT'S ANNOUNCEMENT ON EMOLUMENTS OF RAILWAY RUNNING STAFF

**\*191. Prof. Shibban Lal Saksena:** Will the Honourable Minister of Railways be pleased to state whether Government are aware that about 55 per cent. of the Running staff of the Indian Railways will be actual losers as a result of their announcement dated 14th December 1948 in their total emoluments as compared to what they were getting before?

**The Honourable Shri K. Santhanam:** No. The Government do not think any section of the Running Staff will be actually loser while the total emoluments of the vast majority of such staff will increase considerably.

† Answer to this question laid on the table, the questioner being absent.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES  
(PART I—QUESTIONS AND ANSWERS)

*Tuesday, 8th February, 1949*

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

STARRED QUESTIONS AND ANSWERS

(a) ORAL ANSWERS.

ARMED FORCES IN PORTUGUESE GOA

\*192. **Shri R. K. Sidhva:** (a) Will the Honourable the Prime Minister be pleased to state whether Government have any information regarding the strength of the total Armed Forces in Portuguese Goa?

(b) Is it a fact that the Portuguese Government have disbanded the very old Mahratha Units made up of Christian and Hindu soldiers and replaced them by African soldiers?

(c) What is the strength of the Police Force in Goa and do they comprise of the local people or Africans?

(d) Is there any cruiser or man-of-war or other armed vessel stationed in the ports of Panjim and Marmugao?

**Dr. B. V. Keshkar** (Deputy Minister for External Affairs and Commonwealth Relations). (a) to (d). Government are not in a position to supply the information required with any precision. It is reported that the total Armed Forces in Goa are about 1,400. It is further reported that African soldiers are being used to replace the indigenous elements in the Armed Forces.

The strength of the Police Force of Goa is said to be about 600 to 650. This Police is a mixed one consisting of local nationals, European-Portuguese officials and the Indo-Portuguese elements in the population.

There is normally a sloop stationed in Goa.

**Shri R. K. Sidhva:** What is the strength of the garrison at Goa under the regulation in force?

**Dr. B. V. Keshkar:** I am sorry, I am not able to supply the information immediately.

**Shri R. K. Sidhva:** May I know whether any consultation or discussion has been going on with the Government of India and the Portuguese Government in connection with the Portuguese possessions in India?

**Dr. B. V. Keshkar:** Does this question arise, Sir?

**Mr. Speaker:** No.

**Shri R. K. Sidhva:** Is it a fact that Mr. George Vaz, Secretary of the Goan Congress stated some three weeks ago that during the Asian Conference, 8,000 troops were sent from Goa?

**Dr. B. V. Keshkar:** We have no information.

**Shri H. V. Kamath:** May I know if there is any manner of repression of the national movement for freedom in Goa?

**Mr. Speaker:** This question does not arise. Next question.

## APPLICATIONS FOR IMPORT PERMITS

\*193. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state the number of applications received during the year 1948 for permits to import goods from foreign countries (soft and hard currency areas)?

(b) How many were granted and how many were rejected?

(c) What is the highest amount of permits given to one individual and what is the lowest?

(d) What is the period taken in disposing of all permit applications after their receipt and what are the reasons for refusal of permits?

**The Honourable Shri K. C. Neogy:** (a) to (c). I lay on the table a statement giving the requisite information.

(d) Ordinarily the period taken in disposing of applications received complete in all respects is between one and two weeks from the date of receipt. When additional information has to be collected for completion of data and documents or in the case of restricted items where they involve consultation with other Ministries more time is taken, say two to four weeks. Newcomer applications for imports of commodities restricted by monetary ceilings take a longer period in disposal, as all such applications are to be collected, scrutinised and considered together for the allocation of quotas from the newcomer margin of the monetary ceiling.

The reasons for the refusal of licences generally are:

- (i) Irregular and incomplete applications.
- (ii) Applications received after the prescribed dates.
- (iii) Conservation of foreign exchange resources.
- (iv) Absence of definite offer of supply from suppliers or absence of any trade contacts with overseas suppliers.

*Statement showing the number of applications received for import permits, licences granted etc. for imports from foreign countries during the year 1948.*

| Number of applications received for import permit during the year 1948. | Number of applications against which licences granted. | Number of applications rejected | Highest amount of licences granted to an individual or firm | Lowest amount of licences granted to an individual. |
|-------------------------------------------------------------------------|--------------------------------------------------------|---------------------------------|-------------------------------------------------------------|-----------------------------------------------------|
| † 4,24,494                                                              | 185,837                                                | † 219,905                       | Rs. 4,13,39,546                                             | Rs. 5                                               |

|-------|----------------------------------------------------------------------------|--------|------------------------------------------------------------|
| Note: | (1) Applications pending on 1st January 1949                               | 5026   | These applications have neither been granted nor rejected. |
|       | (2) Applications for items subsequently brought under open General licence | 31,503 |                                                            |

**Shri R. K. Sidhva:** Arising out of the answer to part (c) of the question; Will the Honourable Minister state what is the highest individual amount of permit that was given to one individual?

**The Honourable Shri K. C. Neogy:** Yes, I have included it in the detailed statement. The highest amount is Rs. 4,13,39,546.

**Shri R. K. Sidhva:** May I know to whom the permit has been issued and for what purpose?

**The Honourable Shri K. C. Neogy:** It was given to the Standard Vacuum Oil Company of Bombay for the importation of lubricating oils.

**Mr. Homi Mody:** Arising out of the Honourable Minister's reply on the question of delay; are there not standard forms in use which may be made available to the various Chambers of Commerce so that complete information on standard forms may be assured?

**The Honourable Shri K. C. Neogy:** Yes, there are such forms prescribed. But even these are found deficient sometimes, especially when there are particular details to be considered.

**Mr. Homi Mody:** May I know from the Honourable Minister what are the principles followed in respect of applications from parties who have never been in the trade before?

**The Honourable Shri K. C. Neogy:** I believe the honourable member refers to the newcomers' category. We generally reserve a proportion of 10 per cent. of the total in respect of certain ceiling articles, as they are called; and normally we expect some acquaintance with the trade. That is to say, the newcomer need not necessarily have experience in foreign trade, but he should have some trade experience, apart from other conditions that he is expected to fulfil.

**Shri T. T. Krishnamachari:** May I ask the Honourable Minister the reasons that have induced him to agree to the insisting on the production of a tax clearance certificate before grant of import license?

**The Honourable Shri K. C. Neogy:** Several factors have led Government to decide that in the case of all applicants for licenses they should produce a certificate from the Income-tax Authorities, not necessarily stating that the parties have paid income-tax, because it is not the intention to insist on income-tax payment as a specific qualification in all cases, but we should like to know whether these parties have at least satisfied the income-tax authorities that either their income has been assessed income-tax, or that no tax is payable. One of the reasons that induced Government to adopt this condition was, as the House itself very well knows, that there were complaints in the past that bogus applications were made in large numbers, and that licences obtained on the strength of such bogus applications were sold in the market. At one time a mere letter-head and a sign-board were considered to be sufficient qualification for getting export or import licences. In order to eliminate such bogus applications it was found necessary to insist upon certain conditions, and this was one of the conditions that was considered to be helpful in eliminating the bogus applications, as also those who could not possibly stay on in the trade, that is to say, people who would not either have sufficient financial backing in order to enable them to handle the trade or who would normally not be expected to stick on to the trade.

**Shri T. T. Krishnamachari:** Does this mean that people who do not pay income-tax would not be granted import licences?

**The Honourable Shri K. C. Neogy:** That is not the position. If the honourable member had looked into the certificate, he would have seen that the certificate required is that if a tax has been paid, that tax should be specified; and if no tax has been paid, the income-tax authorities should say that it is not due to any laches on the part of the party.

imported from abroad are exempted from import duty. Similarly protection has been afforded to the indigenous industry in some cases by way of protective duty imposed on the import of foreign goods.

(b) The annual estimated amount being spent on the import of textile stores is rupees six crores.

**Shri V. C. Kesava Rao:** May I know, Sir, what kind of help is being given to the industry?

**The Honourable Dr. Syama Prasad Mookerjee:** We arrange for raw materials. Then we have granted exemptions of import duty in respect of certain materials, and we have also imposed a protective duty in respect of certain cases. There are other details as well, which I could give the honourable member.

**Shri V. C. Kesava Rao:** Is it a fact that a Corporation formed to manufacture these stores was not given help by the Central Government or the Bombay Government?

**The Honourable Dr. Syama Prasad Mookerjee:** If there is any complaint about it by an individual concern, the best thing for it to do is to write to Government.

**Seth Govind Das:** Are Government aware that in the markets there is too much of textile goods at present? And in view of the fact that there are textile goods lying in authorised mills, what is Government going to do so that these imports may become less?

**The Honourable Dr. Syama Prasad Mookerjee:** I am afraid the honourable member is confusing between textile goods and textile stores?

**Mr. Speaker:** That is the confusion?

**Seth Govind Das:** Yes.

#### SERBEMENT OF CLAIMS *Re* GOODS BOOKED TO PAKISTAN AND *vice versa* BEFORE PARTITION

\*1380. **Shri H. V. Kamath:** Will the Honourable Minister of Railways be pleased to state what procedure has been prescribed for the settlement of claims in respect of goods booked from India to Pakistan and *vice versa* before partition?

**The Honourable Shri K. Santhanam:** Claims in respect of consignments booked prior to 15th August 1947 from a station in India to a station in Pakistan and *vice versa* are required to be preferred to the despatching or receiving Indian Railway who will deal with these claims according to the conditions and circumstances of carriage.

**Shri H. V. Kamath:** May I know how many claims have been filed so far?

**The Honourable Shri K. Santhanam:** I have not the number as it was not put as part of the question. I thought the question related to the procedure adopted in the settlement of these claims.

**Shri R. K. Sidhva:** In how many cases have these complaints been filed in the Court?

**The Honourable Shri K. Santhanam:** Sir, I want notice of that question.

#### ASSAM TEA IMPORTED INTO CALCUTTA

\*1381. **Srijut Kuladhar Chaliha:** (a) Will the Honourable Minister of Railways be pleased to state the number of tea-chest carried from Assam via Parbatipur to Calcutta in the years 1945, 1946, 1947, 1948 and 1949?

(b) What is the reason for the decrease if any, in the number of tea-chests so carried in 1947, 1948 and 1949 by the Assam Railways?

(c) What is the number of tea-chests carried by Messrs. India General Steam and Navigation Company Limited and River Steam Navigation Company Limited through Pakistan to Calcutta from the different steamer-ghats in Assam in 1947, 1948 and 1949?

(d) Are Government aware that the Assam Railways fail to give necessary wagons for carriage of tea from Upper Assam to Calcutta, and if so, what is the loss of freight incurred by the Government of India on account of this?

(e) What is the difference in earning on this head in 1946-47, 1947-48 and 1948-49?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The number of tea-chests is not available, but the total maundage during the calendar years was as follows:

|      |           |        |
|------|-----------|--------|
| 1945 | 11,68,093 | maunds |
| 1946 | 5,70,844  | "      |
| 1947 | 4,80,715  | "      |
| 1948 | 3,39,962  | "      |

Figures for 1949 are not available.

(b) The principal reason for the decrease in the maundage carried in 1947 and 1948 compared with 1945 was the re-opening of Chittagong port in September, 1945, which was closed for tea traffic during the war. Another reason was that tea from Assam was given only class III priority up to the end of 1948. After partition, frequent restrictions were imposed by the E. B. Railway (Pakistan), particularly during the months of January to April and September to October, 1948, which adversely affected the movement of tea.

(c) In this case also information regarding the number of tea-chests is not available. According to the figures published by the Director General of Commercial Intelligence and Statistics, the quantity of Assam Tea imported into Calcutta by the two Steamer Companies amounted to 12,61,237 maunds during 1947 and 14,81,175 maunds during the first 11 months of 1948. Figures for 1949 are not available.

(d) In view of the priority which tea was given and of the frequent restrictions imposed by the E. B. Railway, the Assam Railway could not have provided more wagons for the carriage of tea from Upper Assam to Calcutta. Therefore, the question of loss of freight does not arise.

(e) The figures are available for calendar years. Earnings during 1947 were Rs. 52,418/4/- more than during 1946, and those during 1948 were Rs. 78,259/1/- more than during 1947.

**Srijut Kuladhar Chaliha:** I could not follow the answer to (d).

**Mr. Speaker:** Will the Honourable Minister repeat the answer to part (d) of the question?

(Answer was then repeated)

**Srijut Kuladhar Chaliha:** May I know, in view of the fact that from 11 lakhs it has come to 3 lakhs, will the Honourable Minister be pleased to see that more wagons are placed in Upper Assam stations from now onwards?

**The Honourable Shri N. Gopalaswami Ayyangar:** Every effort will be made to supply as many wagons as may be required for moving tea.

#### CLERKAGE CHARGES FOR RETURN OF UNUSED RAILWAY TICKETS

\*1382. **Srijut Kuladhar Chaliha:** (a) Will the Honourable Minister of Railways be pleased to state whether any clerkage is charged for return of unused railway tickets and if so, what percentage is deducted?

378 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [8TH FEB. 1949]

**Shri S. V. Krishnamoorthy Rao:** Are the rules and regulations which lay down the conditions for the grant of import and export licences printed and made available to the public?

**The Honourable Shri K. C. Neogy:** Yes, I think so. The trade organizations have them. If the House is interested in this particular question, I could place on the table of the House a full statement indicating the principles and the procedure that are followed.

**Shri L. Krishnaswami Bharathi:** With reference to the answer given with regard to the newcomer applications, what is the actual percentage which has been accepted? Is it far below the ten per cent.? May I know whether the ten per cent. permits have been given to newcomers?

**The Honourable Shri K. C. Neogy:** If my honourable friend has any specific case in mind, he might let me know so that I could go into the case. Ten per cent. has been fixed in certain cases. What happens is that when the newcomers applications are collected, the available quantity on the basis of that ten per cent. proportion is distributed among the applicants on a certain basis.

**Srijut Rohini Kumar Chaudhuri:** May I know if applications received from *bona fide* traders who pay incometax and who had also licenses granted by Provincial Governments for particular trade are not considered unless they can prove that they had past dealings with Pakistan?

**The Honourable Shri K. C. Neogy:** The honourable member is obviously referring to refugees from Pakistan. They would perhaps be considered as newcomers unless they had previous trade dealings in Pakistan.

**Shri B. Das:** May I enquire if the largest number of newcomer applications come from Madras Province and hence Government have introduced this system?

**The Honourable Shri K. C. Neogy:** I should not think so.

**Shri M. Ananthasayanam Ayyangar:** May I know if there are any safeguards provided against selling away these permits in the black-markets?

**The Honourable Shri K. C. Neogy:** This is one of the safeguards that I have just stated about income-tax payment and several other precautions are also taken.

**Shri Biswanath Das:** May I know the justification for the fixation of ten per cent. only for newcomers?

**The Honourable Shri K. C. Neogy:** As a matter of fact I have a feeling that we are unnecessarily diluting trade and reducing the volume of trade to be handled by each individual to a very small fragment with the result that many of these people will have no chance of surviving in the trade once the controls are removed.

**Shri R. K. Sidhva:** Despite these precautions, may I know whether it is a fact that the permits are sold even in the Bombay market?

**The Honourable Shri K. C. Neogy:** Perhaps my honourable friend refers to ancient history.

**Shri R. K. Sidhva:** I am talking of the last four months.

**The Honourable Shri K. C. Neogy:** I should like to have specific instances.

#### PROVIDENT FUNDS OF EMPLOYEES OF LOCAL BODIES IN PAKISTAN OPTING FOR INDIA

\*194. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether any representation has been made to him in connection with the non-payment of provident funds of the employees of the local bodies in Pakistan who have opted for India?

(b) Is it a fact that despite several letters and reminders by various such employees to the authorities in Pakistan no payment has yet been made?

(c) During the various Inter-Dominion consultations and discussions, have Government brought this matter to the notice of the Government of Pakistan? If so, with what result?

(d) If not, do Government intend to take up this matter with the Government of Pakistan. If not, why not?

**The Honourable Shri Mohan Lal Saksena:** (a) and (b). Yes.

(c) The question of payment of Provident Fund and other dues of local bodies was discussed at the Inter-Dominion Conference held on 22nd—25th November, 1948 and it was considered that the two Dominions could only use their best offices in settlement of these claims. Suitable machinery for dealing with these claims has been devised. Each Dominion has undertaken to ensure speedy payment by the local bodies concerned.

(d) Does not arise.

**Sardar Hukam Singh:** Have the Muslim employees who have migrated now to Pakistan left some provident funds in our local bodies?

**The Honourable Shri Mohan Lal Saksena:** Yes they have.

**Sardar Hukam Singh:** Are there any difficulties in providing those amounts to our refugees as part payment of their claims?

**The Honourable Shri Mohan Lal Saksena:** Yes. As a matter of fact according to the latest arrangements between the two Dominions, they will be using the good offices of the Local bodies for getting payments of these funds.

#### PREMISES REQUISITIONED BY GOVERNMENT IN BOMBAY AND DELHI

\*195. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state the number of premises which stand requisitioned in the cities of Bombay and Delhi?

(b) How many of them were requisitioned during the current year?

(c) What is the total amount paid by Government as rent for all the requisitioned premises and what is the amount recovered from the tenants occupying the requisitioned premises?

**The Honourable Shri N. V. Gadgil:** The honourable member presumably desires to know the number of premises which stand requisitioned in favour of the Central Government in the cities of Delhi and Bombay. A statement showing the information desired by him in parts (a), (b) and (c) of his question has been placed on the table of the House.

## STATEMENT

| Serial No. | Name of the Cities                                       | Total number of premises which stand requisitioned in favour of the Central Government | Number of premises requisitioned during 1948 | 1949 | *Amount of compensation paid till 31st December 1948 since requisitioning started | *Amount of rent recovered till 31st December 1948 since requisitioning started |
|------------|----------------------------------------------------------|----------------------------------------------------------------------------------------|----------------------------------------------|------|-----------------------------------------------------------------------------------|--------------------------------------------------------------------------------|
| (1)        | Delhi—                                                   |                                                                                        |                                              |      |                                                                                   |                                                                                |
|            | (a) By Central Government                                | 254†                                                                                   | 26                                           | 4    | Rs. 45,18,688-14-0                                                                | Rs. 24,23,432-8-0                                                              |

**Shri R. K. Sidhva:** May I know that percentage of accommodation is reserved for Central Officials in Bombay and Delhi and also what percentage for offices in Bombay and Delhi?

**The Honourable Shri N. V. Gadgil:** So far as Delhi is concerned, it is entirely reserved for the Officials and offices of the Central Government. So far as Bombay is concerned, as regards residential accommodation, some percentage is reserved in consultation with the Government of Bombay.

**Shri R. K. Sidhva:** Why no percentage is reserved for the citizens in Delhi?

**The Honourable Shri N. V. Gadgil:** The obligation of the Government is to accommodate Government Officers and Offices.

**Shri Deshbandhu Gupta:** May I know whether it has become a practice in Delhi that all new buildings are requisitioned?

**The Honourable Shri N. V. Gadgil:** I do not know whether it is a practice but if new buildings are available for Government purposes and if there is a clear necessity for requisition, it is done.

**Shri Deshbandhu Gupta:** Is it not a fact that this is retarding the progress of new buildings?

**The Honourable Shri N. V. Gadgil:** It is a matter of opinion.

**Shri H. V. Kamath:** Which are the Hostels or Hotels in Bombay where accommodation is reserved for Government servants and where they get top priority?

**The Honourable Shri N. V. Gadgil:** I do not know whether it arises out of this question.

**Shri Deshbandhu Gupta:** In many cases where notices are served for requisition, is it a fact that public purpose is not defined?

**The Honourable Shri N. V. Gadgil:** It is defined in the Act itself and even in the notice mention is made that it is required for public purposes. Apart from this under the Act under which this requisition process is initiated, there is a provision for the aggrieved party to go to the Chief Commissioner.

**Shri Deshbandhu Gupta:** Have not instances come to his notice where people have represented that public purpose was not defined in the notices?

**Mr. Speaker:** Need not be answered.

**Mr. Homi Mody:** With reference to the Honourable Minister's answer, is he aware that in one province atleast there is no question of public purpose at all and buildings can be requisitioned for any purpose? I am quoting the very words 'for any purpose'.

**The Honourable Shri N. V. Gadgil:** I cannot answer for any province but if it is concerning the Central Government, I shall be in a position to answer it.

**Shri H. V. Kamath:** Is it a fact that in Bombay there is a hotel—the Grand View Hotel—where accommodation is reserved for Government servants but where neither the food nor the service is satisfactory?

**Shri R. K. Sidhva:** May I know how many buildings were requisitioned in Bombay and Delhi in 1948?

**The Honourable Shri N. V. Gadgil:** I require notice of that. The total number of requisitioned houses is given in the statement placed before the House.

**Mr. Speaker:** When in reply statements are filed, the better course is to study them and then put the further questions; otherwise it takes a longer time of the House and other subsequent questions for oral answers are barred.

## REHABILITATION OF REFUGEES AND TOWN PLANNING SCHEMES

\*195. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state what was the Hindu, Sikh and Harijan population in Eastern and Western Pakistan, before the partition of India?

(b) What is the number of refugee families rehabilitated up till now since the partition and what action are Government taking to rehabilitate the rest?

(c) Have the refugee societies submitted Town Planning Schemes for the approval of the Government of India and for allotment of land for the purpose? If so, what action has been taken in the matter?

**The Honourable Shri Mohan Lal Saksena:** (a) A statement showing the 1941 census figures of the Caste Hindus, Sikhs and Harijans population in Eastern and Western Pakistan is placed on the table of the House. Figures of population at the time of partition were not available.

(b) The honourable member is referred to the answer given by me on the 3rd February, 1949, to starred question No. 88(C) by Mr. R. K. Sidhva. Various rehabilitation schemes drawn up by the Provincial or State Governments are in the process of execution with the sanction of Government of India.

(c) Yes. These schemes have been considered individually; in some cases the Co-operative Societies were given assistance in the execution of the schemes.

*Statement showing population of Eastern and Western Pakistan in the year 1941*

|               | Eastern Pakistan  | Western Pakistan | Total             |
|---------------|-------------------|------------------|-------------------|
| Caste Hindus. | 7,360,812         | 3,322,652        | 10,682,864        |
| Sikhs.        | 1,226             | 1,515,782        | 1,517,008         |
| Harijans.     | 4,284,153         | 435,255          | 4,799,418         |
|               | <u>11,646,191</u> | <u>5,323,099</u> | <u>16,969,290</u> |

It is estimated that the average increase in population upto 15th August, 1947 was twelve per cent of the figures of 1941.

**Shri H. V. Kamath:** In connection with the rehabilitation of refugees, is there any proposal before the Government to set up a National Housing Corporation?

**The Honourable Shri Mohan Lal Saksena:** Yes; the scheme is under consideration.

**Shri H. V. Kamath:** May I know at what stage the matter stands, Sir?

**The Honourable Shri Mohan Lal Saksena:** It is with the Finance Ministry.

**Dr. Mono Mohan Das:** What is the number of Harijan population still living in Western Pakistan?

**The Honourable Shri Mohan Lal Saksena:** About one and a half lakhs.

**Dr. Mono Mohan Das:** Has the Government any information about their present condition?

**The Honourable Shri Mohan Lal Saksena:** Yes.

**Dr. Mono Mohan Das:** May I know what is that?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact, we have not received any definite complaints. We wanted to take them out, but they

would not come out unless we make arrangements to take out their cattle also. So, they prefer to remain there instead of being taken out without their cattle.

**Sardar Hukam Singh:** What is the line, Sir, that we call those persons as not rehabilitated, and if it is crossed, we say they have been rehabilitated? Persons who are going as hawkers or sitting in the pavements, are they rehabilitated?

**The Honourable Shri Mohan Lal Saksena:** No.

**Shri H. V. Kamath:** In connection with scheme of the National Housing Corporation which is under consideration of the Government, may I know how many houses the Government proposes to build all over India?

**Mr. Speaker:** Order, order. That is going into a scheme which has not yet been finalised.

**Sardar Hukam Singh:** How long would it take to rehabilitate the refugees that are still in the camps?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact, as I said on the last occasion, the time limit set by the Government of India in its directive is 31st March, 1950. We hope that the provincial Governments and the State Governments will co-operate in completing the rehabilitation work within this time.

## HOUSES FOR REFUGEES IN SHADIPURA NORTHERN EXTENSION SCHEME

\*197. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether it is a fact that Government proposed to construct for sale 101 houses in the Shadipura Northern Extension Scheme for the Western Pakistan refugees on payment of the cost of construction, development etc., before and after taking possession of such houses while the land under such houses was to be leased for 99 and 90 years on certain conditions?

(b) If so, what is the reason for adopting this new method of granting leases?

**The Honourable Shri Mohan Lal Saksena:** (a) Yes, excepting that development charges etc. are not included in the cost of the house. The land on which the houses are built will be treated as on lease for 99 years and the terms quoted by the honourable member will apply to smaller plots.

(b) The terms on which the plots are leased out have been announced in press and copies are laid on the table. These terms have been prescribed to assist refugees who may find the usual terms of leases too harsh in their circumstances and may not be in a position to build themselves.

## GOVERNMENT OF INDIA

MINISTRY OF RELIEF AND REHABILITATION  
(REHABILITATION AND DEVELOPMENT BOARD)

## Press Note

The terms on which plots will be leased out to refugees in the rehabilitation schemes of the Rehabilitation and Development Board are announced for general information. For refugees of the destitute, poor and lower middle classes:

- (i) for the first five years only ground rent will be recovered assessed on the cost of land plus cost of development at the Government rate of interest;
- (ii) for the next 15 years, besides ground rent as above, 15 equal instalments will be recovered to cover the actual cost of acquisition and development;
- (iii) in the 21st year, the lease will be renewed on ground rent calculated at the market value then prevailing the total period of lease being 99 years;
- (iv) the lease will be non-transferable for the first period of 20 years, thereafter, the lease will be transferable with the first option to Government;

(v) The above concessions will be applicable in the Shadipur, Nizamuddin, Jungpura and Malkaganj scheme.

2. For middle and upper middle classes, lease will be given on a tender basis.

MINISTRY OF RELIEF AND REHABILITATION  
(REHABILITATION WING)

Press Note

It has been decided to construct, for sale to refugees from West Pakistan, 101 houses in the Shadipur Expansion Scheme. These houses will have two floors, ground and upper, and are expected to be completed within 101 days. The cost of construction of a house excluding the cost of land, electric fittings and services is estimated to be between Rs. 16,000 and Rs. 17,000. The plan of the houses can be seen at the site, at the office of the Chief Commissioner, Delhi, and in room No. 76-B North Block, Central Secretariat Buildings.

2. Applications in writing are to be made to the Chief Commissioner, Delhi for allotment and must be handed in before the 15th of November 1948. Applications must be accompanied by a treasury receipt for Rs. 4,000 credited to the Government of India under the Head of account "P Deposits and Advances etc.—Civil Deposits—Revenue Deposits". The next instalment of Rs. 4,000 will be called up when the application for allotment is accepted. The balance of the price of the house will have to be paid at the time of receiving possession of the house. The plot on which the house is built will be given on 99 years' lease to the allottee on the following terms:

- (i) for the first five years only ground rent will be recovered assessed on the cost of land plus cost of development at the Government rate of interest;
- (ii) for the next 15 years, besides ground rent as above, 15 equal instalments will be recovered to cover the actual cost of acquisition and development;
- (iii) in the 21st year, the lease will be renewed on ground rent calculated at the market value then prevailing the total period of lease being 99 years;
- (iv) the lease will be non-transferable for the first period of 20 years, thereafter, the lease will be transferable with the first option to Government.

3. Preference will be given to registered refugees. Applications should be accompanied by sufficient proof of arrival of the applicant in Delhi before the prescribed dates i.e., 10th December, 1947 in the case of refugees from West Punjab, and 29th February, 1948 for others. This proof can be in the shape of registration certificate, ration cards, certificate of registration in a refugee camp or a certificate of obtaining Government service before the prescribed dates.

**Shri Deshbandhu Gupta:** May I know, Sir, whether it is a fact that in the Shadipur North Extension Scheme there are about three thousand plots ready to be allotted to refugees and they have not been allotted as the Advisory Committee could not come to an agreement as to the persons to whom they should be given?

**The Honourable Shri Mohan Lal Saksena:** It is not correct to say that three thousand plots are ready. It is, however, true that the delay in allotment has been mostly due to disagreement amongst the members of the Committee and the Committee has been addressed to expedite the same.

**Shri Deshbandhu Gupta:** Is it a fact that building material worth many lakhs or perhaps worth quite a very big figure is lying there unused because these plots have not been allotted?

**The Honourable Shri Mohan Lal Saksena:** Yes; that is so; building material worth crores, not lakhs. Now at least 1,000 plots have been allotted and I hope most of the material will be used up.

EXPENDITURE IN CONNECTION WITH FRENCH AND PORTUGUESE SETTLEMENTS  
IN INDIA

\*198. **Pandit Mukut Bihari Lal Bhargava:** (a) (Will the Honourable the Prime Minister be pleased to state what expenditure the Government of India

have to incur every year in connection with the French and Portuguese settlements in India?

(b) Is this expenditure being incurred in pursuance of certain agreements concluded between the British Government and the French and Portuguese Governments, and if so, is it a fact that the advantages for which the expenditure was originally agreed to be borne have now ceased to exist?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) The Government of India and some Provincial Governments pay to the French India Government an annual sum of Rs. 11,48,000/- in fulfilment of certain agreements and conventions entered into with the French Government at different times. The details of these are given in an attached statement, which I am placing on the floor of the House. There being no such agreements with the Portuguese India Government, no payments are being made to that Government.

(b) These agreements were entered into by the contracting parties for their mutual benefit. The Government of India are considering whether under present conditions it will be advantageous to continue all or any of them.

STATEMENT

Details of payments made by Government of India and certain Provincial Governments to the French India Government.

|                                                     |               |
|-----------------------------------------------------|---------------|
| (i) Compensation under the Customs Union Agreement. | Rs. 6,20,000. |
| (ii) Salt Conventions :                             |               |
| (a) 1815                                            | Rs. 4,23,000  |
| (b) 1837                                            | Rs. 14,000    |
| (c) 1839                                            | Rs. 20,000    |
| (iii) Postal Convention (February 1945)             | Rs. 50,000    |
| (iv) Opium Convention (January 1945)                | Rs. 18,000    |
|                                                     | Rs. 11,48,000 |

**Prof. N. G. Ranga:** May I know, Sir, when was the latest of these agreements concluded?

**Dr. B. V. Keskar:** One of the agreements was concluded in 1946.

**Seth Govind Das:** Are there not such agreements which have lapsed now, and if so, are negotiations going on for fresh agreements?

**Dr. B. V. Keskar:** One of the agreements is due to lapse in April. The question whether we should start negotiations for a fresh agreement or not at all, is under consideration.

**Seth Govind Das:** Have the Government of India been approached so far as that agreement is concerned for any negotiations?

**Dr. B. V. Keskar:** I do not think so.

**Shri H. V. Kamath:** Is not the termination of all these agreements the subject of any talks, informal or otherwise, which our Government is having with the French Government?

**Dr. B. V. Keskar:** I may inform my honourable friend that these agreements have nothing to do with any political questions at all. They are purely commercial or relate to postal arrangements, etc., which, really speaking, have been entered into because we thought they were for our own benefit.

**Shri H. V. Kamath:** In what respect, Sir, are they of advantage to us?

**Mr. Speaker:** Order, order. He can refer to the agreement.

#### RAMPADASAGAR PROJECT

\*199. **Prof. N. G. Ranga:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) how far the investigations on the Rampadasagar Project have progressed;

(b) whether the estimates thereof are ready;

(c) when the American experts scrutinised them and approved of them;

(d) what the latest estimate of the cost of the project is;

(e) whether the construction of a Cement Factory at Polavaram will considerably economise the proposed expenditure;

(f) whether a railway line is proposed to be constructed between Polavaram and Kovvur to economise the expenditure;

(g) whether it is possible to undertake the project in parts; and

(h) whether the machinery and iron and other materials needed have to be imported from America and if so, whether any negotiations are being carried on with any American Company both for the supply of materials and for the construction of the dam.

**The Honourable Shri N. V. Gadgil:** (a) to (h). The Rampadasagar Project is under the administrative control of the Madras Government and as such the question can best be answered by that Government in the Provincial Legislative Assembly.

**Prof. N. G. Ranga:** May I know, Sir, whether the matters concerning this project are being placed before the experts who have come over here on behalf of the World Bank?

**The Honourable Shri N. V. Gadgil:** I cannot say so far as this particular project is concerned; but generally it is being done.

**Prof. N. G. Ranga:** May I know, Sir, is it not a fact that the Expert Committee has submitted its report to the provincial Government as well as to the Central Government and if so, what is it that the Expert Committee has recommended?

**The Honourable Shri N. V. Gadgil:** The Expert Committee has recommended many things and it is not possible within the short space of time to deal with all the recommendations.

**Prof. N. G. Ranga:** Is it not a fact that the Expert Committee was appointed by the Central Government and that it has recommended in favour of undertaking this project immediately?

**Mr. Speaker:** I think a few days back some questions on this point were answered.

**Prof. N. G. Ranga:** Those points were not answered.

**Mr. Speaker:** There were questions on the Rampadasagar Project.

**Prof. N. G. Ranga:** The Expert Committee has recommended in favour of undertaking this project.

**The Honourable Shri N. V. Gadgil:** So far as the recommendations of the Committee are concerned, they are to the effect, as far as I am able to answer off-hand, that it is a feasible project. But, the financial implications are too complex to be determined so quickly.

**Prof. N. G. Ranga:** May I know what the responsibility of the Central Government is in regard to this particular project? I am only told that it is the administrative responsibility of the Madras Government.

**The Honourable Shri N. V. Gadgil:** The Central Government's responsibility in any big project is financial responsibility, in the sense, that when the provincial Government applies for a loan, the loan is advanced on certain well-defined principles.

**Prof. N. G. Ranga:** Is it not a fact, Sir, that the Madras Government has asked the Central Government to help it to undertake this project?

**The Honourable Shri N. V. Gadgil:** As yet all the data necessary for final approval are not collected.

**Shri M. Ananthasayanam Ayyangar:** May I ask the Honourable Minister if, besides giving financial assistance, the Central Government is also not undertaking important projects such as the Hirakud Dam for construction by itself?

**The Honourable Shri N. V. Gadgil:** With regard to the Hirakud Project, there was an agreement between the Orissa Government and the Central Government and as a result of that agreement, the construction has been undertaken by the Central Government.

**Shri M. Ananthasayanam Ayyangar:** May I know is it for want of an agreement that the Central Government is refusing to finance the project though it has been completely investigated and technically approved?

**The Honourable Shri N. V. Gadgil:** No.

**Shri M. Ananthasayanam Ayyangar:** May I know if it is not the only project which has been surveyed and investigated at a cost of 55 lakhs and found feasible and not undertaken?

**The Honourable Shri N. V. Gadgil:** The answer to this question will be, that the Rampadasagar Project will cost 129 crores. It is for the Government of India to decide whether they should sanction this project costing 129 crores immediately to the prejudice of other projects benefits from which are likely to come earlier.

**Shri M. Ananthasayanam Ayyangar:** Is it not a fact, Sir, that the projects for which three crores of rupees have been sanctioned by the Standing Finance Committee for investigation, the Nerbada Valley Project, the Tapi Valley Project, each of them would cost a hundred crores?

**The Honourable Shri N. V. Gadgil:** That is not so.

**Shrimati G. Durgabai:** May I know what is the amount already spent for the preliminary survey of this Rampadasagar Project?

**The Honourable Shri N. V. Gadgil:** I cannot give it. It is much better that this question should be asked in the Madras Assembly.

**Prof. N. G. Ranga:** Is not it a fact that it was stated before that the investigation into all these projects were expected to be completed within the next five years and thereafter they could be undertaken?

**The Honourable Shri N. V. Gadgil:** Obviously my honourable friend is working under some misapprehension. There are two stages in each scheme: one stage is the investigation and the other is the construction. In order to have a good schedule through the next fifteen years, some projects are undertaken having regard to the financial position of the country and there are other projects whose investigation has to be completed, so that at any stage this country will not find itself unable to proceed with any project for want of complete investigation.

## KRISHNA-PENNAH PROJECT

\*200. Prof. N. G. Ranga: Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) how far the investigations on the Krishna-Pennar project have progressed;

(b) whether the estimates are ready;

(c) what the latest estimate of the cost of the project is;

(d) whether it is possible to undertake the project in parts; and

(e) whether any investigations are being carried on to extend the project by constructing the third canal through Korti Kanuma and Nallamales to benefit the Markapur and Cumbum Taluks of Kurnool District and the upland areas of Guntur and Nellore Districts which are in the famine zone?

The Honourable Shri N. V. Gadgil: (a) to (e). The Krishna-Pennar project is under the administrative control of the Government of Madras, and as such the question can best be answered by that Government in the Provincial Legislative Assembly.

Shri M. Ananthasayanam Ayyangar: Are we to understand from the Honourable Minister that the Centre itself supervises no control over any of these big projects?

The Honourable Shri N. V. Gadgil: That is not the correct position. The position is that the Central Government gives such direction and assistance as is required by the Provincial Government concerned. When the project falls completely within the jurisdiction of any particular province, the responsibility of that project is with the Provincial Government.

Prof. N. G. Ranga: Are we to understand that the Central Government is really not taking any initiative or giving any direction in developing such projects as these with a view to improve the food situation in this country and also to minimise famine conditions?

The Honourable Shri N. V. Gadgil: The initiative is taken both by the Central Government and the Provincial Government concerned. In many cases, so far as big projects are concerned, the initiative is taken by the Central Government.

Shrimati G. Durgabai: May I know whether the Honourable Minister would think it desirable to have some kind of Central control over such multi-purpose projects?

Mr. Speaker: Order, order.

## INTERNATIONAL TRADE POSITION OF INDIA

\*201. Prof. N. G. Ranga: Will the Honourable Minister of Commerce be pleased to state:

(a) what the latest international trade position of India is;

(b) whether it has improved or worsened by the recent programme of encouraging both exports and imports;

(c) in what commodities the exports and imports have been speeded up and to what extent; and

(d) whether the duties on imports of luxuries have been enhanced and if so, on what commodities and to what extent?

The Honourable Shri K. O. Neogy: (a) Three statements showing (i) India's balance of trade, (ii) exports of Indian merchandise, and (iii) imports of foreign merchandise during April—November, 1948, with corresponding figures

for April—November, 1947 are placed on the table of the House. The figures for the period April—July 1947 are for undivided India.

(b) Both exports and imports have increased as compared with last year. Imports of food grains are, however, likely to increase in the near future and this may result in an increase in the adverse balance of trade unless exports also show a corresponding increase.

(c) Two statements showing principal commodities in respect of which the exports and imports have increased during 1948 as compared with the previous year are placed on the table of the House.

(d) A statement (No. VI) showing the articles of luxury on which import duties have been enhanced from the 9th November, 1948 and the extent of this increase is also laid on the table of the House.

STATEMENT I  
*India's balance of trade*

(Value in rupees)

\*The cumulative figures take account of the revisions made in the monthly figures after they were published. The monthly figures given above are unrevised.

Note. (1).—Figures from April to July 1947, are for undivided India. (2) Figures from August 1947, onwards are for Indian Dominion only except that they include the direct foreign trade of Chittagong port for the first fortnight of August 1947 and do not include India's Sea-borne Trade with Pakistan upto November 1947. (3) Figures from April 1948, relate to the combined trade on private and Government accounts. (4) Trade of Kutch has been included from 1st June 1948.

\* The cumulative figures take account of the revisions made in the monthly figures after they were published. The monthly figures given above are unrevised.

Note:—(i) Figures from April to July 1947 are for undivided India. (2) Figures from August 1947 onwards are for Indian Dominion only except that they include the direct foreign trade of Chittagong Port for the first fortnight of August, 1947 and do not include India's sea-borne trade with Pakistan upto November 1947. (3) Figures from April 1948 relate to the combined trade on private and Government account. (4) Trade of Kutch has been included from 1st June 1948.

**Shri H. V. Kamath:** With reference to part (d) of the question, what were the reasons that motivated Government to exclude cosmetics from the category of luxury goods for the purpose of enhanced taxation?

**The Honourable Shri K. C. Neogy:** I think Government might claim some kind of credit for that!

**Shri H. V. Kamath:** What were the reasons? Why does not Government consider cosmetics luxury goods?

**The Honourable Shri K. C. Neogy:** It is a matter of opinion. The honourable member may hold one view and others may hold another.

**Shri B. Das:** Will the Honourable Minister kindly review the statements laid on the table and state to the House what have been ...

**Mr. Speaker:** The Honourable Minister need not answer that.

**The Honourable Shri K. C. Neogy:** The figures are of such detailed character and the subject matter is of such great importance that I should not like to make any statement until and unless honourable members have studied these statements and there is a better opportunity afforded to the House for a general discussion on this issue.

**Shri T. T. Krishnamachari:** In regard to the answer to part (d), may I know whether this idea of raising the duty on imports of luxuries has been motivated by the fact that the Government do not want luxuries to be brought into the country, or is it that they want increased revenue?

**The Honourable Shri K. C. Neogy:** The step was taken mainly for the purpose of countering inflation, and this method is a recognised way of countering inflation: that is to say, freeing as far as possible the importation of such articles and at the same time raising the import duty to a high figure.

**Prof. N. G. Ranga:** In view of the fact that suggestions were made in this House that the State should explore all possibilities for managing the export trade from this country itself, have Government made any progress in consideration of that suggestion?

**The Honourable Shri K. C. Neogy:** Well, the matter is under examination.

**Shri T. T. Krishnamachari:** Is the Honourable Minister in a position to state that the imports of luxuries have dropped since the duties were increased?

**The Honourable Shri K. C. Neogy:** That may be so.

**Shri T. T. Krishnamachari:** Is he examining the position?

**The Honourable Shri K. C. Neogy:** I should like to have notice of that question.

## SETTING UP OF A NEW SHIP-BUILDING YARD

**\*202. Prof. N. G. Ranga:** (a) Will the Honourable Minister of Commerce be pleased to state whether Government have decided upon starting a third Shipping Company and if so, on what terms of partnership with private capital?

(b) Where do Government propose to have their ship-building yard?

(c) Through whom do they propose to have it constructed, departmental agencies or contractors?

**The Honourable Shri K. C. Neogy:** (a) No, Sir. No decision has so far been taken to start a Third Shipping Company.

(b) and (c). These parts of the question relate to a matter that pertains to the portfolio of my Honourable colleague, the Industry and Supply Minister and should be addressed to him.

**Shri H. V. Kamath:** What action has Government taken so far on the report of the Reconstruction Policy Committee which submitted its recommendations sometime in 1947?

**The Honourable Shri K. C. Neogy:** This very idea is the principal result of the recommendations of that Committee namely the idea of having three shipping corporations for carrying on overseas trade.

**Shri H. V. Kamath:** How much additional tonnage have we acquired or built since the Interim Government came into office in 1946?

**The Honourable Shri K. C. Neogy:** I am afraid I should like to have notice of that question.

## VOCATIONAL TRAINING CENTRES FOR REFUGEES

**\*203. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state the number and nature of vocational training centres opened for giving training to refugees as artisans and the number of refugees trained till now at Delhi?

(b) How many persons were given employment after the training period?

**The Honourable Shri Mohan Lal Saksena:** (a) There are five Training Centres in Delhi for imparting technical and vocational training to refugees. 462 trainees passed out of these centres up to the 31st December, 1948. A statement showing the trades in which training is imparted is placed on the table of the House. There are also nine Work and Relief Centres working under the Women's Section of the Ministry of Relief and Rehabilitation. The number of trainees is 1,200 and wage earners 2,072. Training in tailoring, hand and machine embroidery, knitting is given at these Centres. There is also an apprenticeship training scheme under which suitable refugees are taken on as apprentices in factories and given training in production work. At the end of December, 1948, there were 247 such apprentices in different factories in Delhi.

(b) 206 trainees were given employment.

## STATEMENT

*Trades in which training is imparted*

*Trades for men—*

Blacksmithy.  
Bricklaying.  
Carpentry.  
Machining.  
Draughtsmanship.  
Fitting.  
Turning.  
Plumbing.

**Shri Deshbandhu Gupta:** May I ask the Honourable Minister whether his attention has been drawn to the system followed in the United States of America for vocational training and where several millions of demobilised soldiers have been given vocational training and where these institutions are self-supporting?

**Mr. Speaker:** This is more giving information than asking! Next question.

## ORGANISATIONS DOING REFUGEE RELIEF WORK.

**\*204. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state the number of organisations which do relief work for refugees?

(b) Are Government aware that there is no co-ordination between the private organisations and the Government's relief machinery?

(c) Are Government aware that Government contractors are exploiting refugee labourers by paying low wages for their work especially in the manufacture of Rajayees, Police uniforms, etc.?

(d) Is it a fact that the Government of India prefer giving contracts to private people for making Police uniforms, military dress, etc. to giving such contracts to relief associations even though they promise to execute the work satisfactorily?

\*Jewar and Bajra.

**Shri H. V. Kamath:** Has the fertility or productivity of the soil as judged by the yield per acre decreased or increased during the last 20 or 30 years?

**The Honourable Shri Jairamdas Doulatram:** The opinion of those who have studied this matter is that fertility has decreased.

**Shri H. V. Kamath:** What are the reasons, may I know?

**Mr. Speaker:** I do not think we need go into that question, because it will involve many things of a scientific nature.

**Shri H. V. Kamath:** What are the corresponding figures of yield per acre in the U. K., U.S.A and Japan?

**The Honourable Shri Jairamdas Doulatram:** They are generally higher.

**Seth Govind Das:** Has there been any increase in the productivity during the recent three years?

**The Honourable Shri Jairamdas Doulatram:** I do not think so except in certain areas where special measures have been taken to improve the yield. It all depends upon better methods of cultivation.

#### DUTY ON PETROL

**\*1384. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Transport be pleased to state the amount of tax collected by the Central Government on each gallon of petrol and what is the total amount collected for the last 5 years and for what purpose it is collected?

(b) Out of the tax collected on each gallon, what is the amount earmarked and pooled into a non-lapsing fund called the Road Fund?

(c) For what purpose is the road fund collected? Is it for the construction of National Highways or Provincial Highways?

(d) How is the Road Fund distributed to different Provinces and on what basis?

(e) Do Provincial Governments charge any sale tax on petrol when they go to Provinces and if so, what is the tax collected on each gallon?

(f) Are the rates different in different Provinces?

(g) What is the number of times that petrol is taxed in India before it reaches the consumers, viz., factor owners?

**The Honourable Shri K. Santhanam:** (a) A statement showing the duty realised in the last five years is laid on the table. The duty is levied as part of ordinary taxation and not for any specific purpose, but a part of it is credited to the Road Fund for road development.

(b) Two and a half annas.

(c) For the purposes of road development generally, and specifically for the objects detailed in paragraphs 6-8 of the Resolution on Road Development adopted by this House on the 19th November 1947. For roads classed as "National Highways", separate provision is made in the Central Budget.

(d) The basis of distribution is laid down in para 9 of the Resolution on Road Development of the 19th November 1947.

(e) to (g). The information is being collected and will be laid on the table of the House in due course.

(e) Do Government propose to help the relief associations by giving them such contracts?

**The Honourable Shri Mohan Lal Saksena:** (a) In areas under the administration of the Central Government the following are four of the organisations assisting in the relief of refugees: (i) United Council for Relief and Welfare, (ii) Marwari Relief Society, (iii) Central Relief Committee, and (iv) Congress Seva Dal.

Information regarding similar organisations in the Provinces and States has been called for.

(b) No.

(c) Government are not aware of the fact and will be grateful to the honourable member for such information as he can supply. All these contracts excepting those executed by the Vocational Training Centres and the Women Section of the Ministry of Relief and Rehabilitation and by the Central Relief Committee and Provincial Governments were placed through the Directorate-General of Industries and Supplies, in accordance with the procedure followed by the Government in obtaining such supplies.

(d) No.

(e) Yes; whenever there is a reasonable chance of the contracts being executed satisfactorily.

#### BREACH OF INDO-PAKISTAN AGREEMENTS

**\*205. Seth Govind Das:** (a) Will the Honourable the Prime Minister be pleased to state how many Inter-Dominion agreements have been entered into so far with Pakistan?

(b) How many such agreements or different items of such agreements are alleged to have been broken by either party?

(c) What is the total amount spent by India so far for such Inter-Dominion conferences?

**The Honourable Shri N. Gopalaswami Ayyangar** (Minister for Railways and Transport): (a) and (b). A statement showing the Inter-Dominion Agreements entered into with Pakistan and whether or not violations of these agreements have been alleged by either side is placed on the table of the House.

(c) The Conferences were arranged by different Ministries over a period of more than a year, and expenditure was mostly on account of the travelling allowances of representatives, official and non-official, who participated in these Conferences on behalf of the Government of India. I am afraid it is not possible to give the exact amount without very detailed enquiries.

#### STATEMENT

*Showing the Inter-Dominion agreements entered into with Pakistan, and whether or not violations there of have been alleged.*

| Inter-Dominion agreements                                                                                                              | Whether violations have been alleged or not. |
|----------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------|
| 1. Agreement reached in December 1947 on matters relating to refugees.                                                                 | Yes.                                         |
| 2. Agreement reached in January 1948 on food supplies                                                                                  | No.                                          |
| 3. Agreement reached in March 1948 on food supplies.                                                                                   | No.                                          |
| 4. Agreement reached in March 1948 regarding recovery of abducted women, exchange of prisoners and other matters relating to refugees. | Yes.                                         |

#### STARRED QUESTIONS AND ANSWERS

5. Agreement dated 31st March, 1948 in regard to modifications in the monetary agreement between India and Pakistan.

No.

6. Agreement reached at Calcutta in April 1948 on all issues outstanding at that time between the two Dominions, particularly in regard to measures for stopping the flow of refugees from East Bengal to West Bengal and vice versa.

Yes.

7. Reciprocal agreement for furnishing details of Government servants arrested in either Dominion.

No violations have come to Notice.

8. Agreement reached in May, 1948 on canal water dispute between East and West Punjab.

There have actually been no breaches by either Government though there has been difference of opinion about the interpretation of some of the clauses of the Agreement.

9. Agreement reached in May 1948 on postal and telegraph rates.

No.

10. Agreement reached in May 1948 at officers level Conference regarding outstanding financial matters.

No.

11. Agreement reached at Karachi in May 1948 on mutual supply of essential commodities required by one from the other and further agreements on clarification and arrangements for fulfilment thereof entered into in October 1948 and November 1948.

No breach of the agreement by Pakistan has come to notice but Pakistan invoked the escape clause for its failure to supply the agreed quantity of food-grains owing to floods.

12. Agreement dated 30th June, 1948 relating to payments between the two Dominions.

No.

13. Bilateral agreement reached in June 1948 on air transport.

No.

14. Agreement reached in July 1948 regarding evacuees property.

Yes.

15. Agreement reached in July 1948 on food supplies.

Owing to floods, Pakistan found itself unable to supply in full the quantity of food grains agreed to by her.

16. Agreement on recovery of abducted women reached in September 1948 and modified further in November 1948.

No.

17. Agreement reached in November 1948 at Officers level Conference regarding outstanding financial matters.

No.

18. Agreement reached at New Delhi in December 1948 on all outstanding issues between the two Dominions, political, economic, financial, boundary disputes, partition matters, division of stores, etc.

No.

19. Karachi (January 49) agreement regarding evacuees' property and other issues arising out of the agreement reached in December, 1948.

No.

**Seth Govind Das:** With reference to part (b) of the question, is it not a fact that most of the breaches of these agreements were made by the Pakistan Government and not by us?

**The Honourable Shri N. Gopalaswami Ayyangar:** It is rather difficult to assess the quantum of breaches on either side. Certain breaches have been alleged against Pakistan and certain other breaches have been alleged against us by Pakistan.

**Seth Govind Das:** Is it not a fact that the majority of those breaches were made by Pakistan?

**Mr. Speaker:** Order, order. The honourable member might study the statement.

**Shri R. K. Sidhva:** Last week the Honourable Minister gave an answer to one of the questions regarding a press note issued by the Pakistan Government in connection with the violation of one of the agreements, that the matter has

(b) Is there any system of granting receipts for deductions made and if not, do Government propose to direct granting of such receipts by railway servants to passengers?

**The Honourable Shri K. Santhanam:** (a) Yes. A clerkage charge of two annas per ticket is deducted while refunding fares to passengers who cannot commence their journeys for any cause other than want of room in the train, provided the ticket is given up within two hours after the departure of the train.

(b) No. The question whether it is necessary to introduce a system of receipts is being considered.

**Shri R. K. Sidhva:** May I know what ordinarily is the period taken for a refund in the case of unused tickets by the railway authorities to the passenger concerned?

**The Honourable Shri K. Santhanam:** Immediately it is surrendered in the booking office, the payment is made.

**Shri R. K. Sidhva:** No, Sir. After the departure date, within what period are these refunds made?

**The Honourable Shri K. Santhanam:** The tickets have to be presented within two hours, otherwise the railway administration will not know whether it has been used or not. Therefore, as soon as the ticket is surrendered to the booking office, the clerk is authorised to refund the price of the fare minus the clerkage.

**Shri R. K. Sidhva:** In cases where remarks are made by the station master on the tickets that the tickets are unused and when the claim is sent to the office concerned, may I know what period is taken to refund the amount?

**The Honourable Shri K. Santhanam:** I am unable to understand the question. I have said that within two hours the ticket has to be surrendered and as soon as that is done the money is refunded. In other cases probably it would take the usual routine time. For instance, if there is no room in the train and the ticket has to be surrendered, then after the departure of the train the usual procedure for refund will be followed.

**Shri R. K. Sidhva:** But what is the period? Is it a fact that.....

**Mr. Speaker:** The honourable member knows the period now.

**Shri R. K. Sidhva:** His attention is drawn to it. Is it a fact that it takes a very long time?

**Mr. Speaker:** That follows from the trend of the reply.

**Srijut Kuladhar Chaliha:** May I know why receipts are not granted? I have personal knowledge of it. A ticket was given up and no receipt was granted.

**The Honourable Shri K. Santhanam:** As soon as a ticket is issued, it goes into the accounts and so when the tickets are surrendered again they have to make special entries both for the clerkage and the number of tickets surrendered. Therefore, it was not thought necessary to have receipts. I am reconsidering the question of the desirability of introducing a system of receipts.

**Shri R. K. Sidhva:** Will the Honourable Minister also consider that the time taken for the repayment of these refunds is reduced?

**Mr. Speaker:** All these matters will be included in the reconsideration.

**Begum Aizaz Rasul:** Have the rules been altered, because after the ticket was surrendered after the departure of the train, the money was not refunded immediately but after a claim was made for it?

## STARRED QUESTIONS AND ANSWERS

**The Honourable Shri K. Santhanam:** The rule is that the booking clerk should give the money as soon as the ticket is surrendered.

**Shri R. K. Sidhva:** Is the Honourable Minister aware that payment is made after six months? I made a claim six months ago and yesterday I received Rs. 6-4 refund. Is the Honourable Minister aware of this system?

**Mr. Speaker:** He is aware.

**The Honourable Shri K. Santhanam:** If the honourable member will give me the particular instance I am prepared to investigate.

## MEASURES TO INCREASE YIELD FROM LAND

**\*1383. Shri Satis Chandra Samanta:** (a) Will the Honourable Minister of Agriculture be pleased to state what is the average yield per acre per year for each of the provinces and States in India during the past five years of (i) Rice, (ii) Wheat and (iii) Millet?

(b) What steps are Government taking to increase the yield per acre from the land already under cultivation?

(c) What is the estimated increase in yield per acre by such measures?

**The Honourable Shri Jai Ramdas Doulatram:** (a) A statement giving the required information is placed on the table of the House.

(b) The honourable member may kindly refer to the reply given to part (b) of question No. 176 on 7th February, 1949.

(c) From two maunds to one ton according to the measures adopted.

## STATEMENT

Duty Collected on Motor Spirit

| Year    | Average rate of taxation<br>(per gallon). | Import duty | Excise duty | Total    |
|---------|-------------------------------------------|-------------|-------------|----------|
| 1943-44 | 15 annas                                  | 3,27.86     | 40.00       | 3,67.93  |
| 1944-45 | 15 annas                                  | 3,40.75     | 18.24       | 3,58.99  |
| 1945-46 | 15 annas                                  | 14,74.80    | 2,26.64     | 17,01.44 |
| 1946-47 | 12 annas                                  | 6,58.39     | 1,79.21     | 8,37.60  |
| 1947-48 | 12 annas                                  | 9,69.69     | 1,22.31     | 10,32.00 |

Figures are for undivided India except that in 1947-48 figures upto 15th August, 1947 are for undivided India and for the period 15th August 1947 to 31st March 1948 for the Indian Dominion.

**Dr. V. Subramaniam:** Is there a non-lapsing fund created for the maintenance and construction of national highways?

**The Honourable Shri K. Santhanam:** No, Sir. The money for national highways is granted year after year as a separate demand before the House.

**Dr. V. Subramaniam:** As regards the road fund has the Pakistan share been given by now?

**The Honourable Shri K. Santhanam:** I am sorry I have no information. If the honourable member will put down a question I am prepared to get the information.

**Dr. P. S. Deshmukh:** What is the number of years according to calculation during which it will be possible to complete the first plan of national highways?

**The Honourable Shri K. Santhanam:** We have adopted a plan for the first five years. The present schedule of national highways is expected to be completed within the next five years.

**Dr. P. S. Deshmukh:** What is the total length of the national highways proposed to be completed during the next five years?

**The Honourable Shri K. Santhanam:** I would require notice of that question.

**Shri R. K. Sidhva:** Is the entire amount of this tax earmarked strictly for this purpose of highway construction?

**The Honourable Shri K. Santhanam:** 2½ annas is strictly earmarked for the development of roads and can be spent only for that purpose.

**Shri R. K. Sidhva:** What is the balance on hand today from this tax?

**The Honourable Shri K. Santhanam:** I have got with me only the total receipts. If the honourable member will put down a question I am prepared to answer.

**Shri H. V. Kamath:** Is the Minister in a position to assure the House that while he concentrates on the highways he will not neglect the byways?

**The Honourable Shri K. Santhanam:** The byways are the responsibility of the provincial governments.

## ROAD DEVELOPMENT

\*1385. **Dr. V. Subramaniam:** Will the Honourable Minister of Transport be pleased to lay a statement on the table of the House regarding the Road Policy adopted by the Government of India?

**The Honourable Shri K. Santhanam:** The honourable member is referred to chapter VII of the Report of the Ministry of Transport 1948-49 supplied to all the honourable members.

## PRODUCTION OF PENICILLIN AND ANTI-MALARIAL DRUGS

\*1386. **Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what steps have been taken by Government for the mass production of (i) Penicillin, and (ii) Synthetic anti-malarial drugs?

(b) What expenditure has been incurred by Government for that purpose?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) A team of experts was deputed by the Government of India to Europe, U.S.A. and Canada towards the middle of 1948 to explore the possibility of manufacture in India of Penicillin, and anti-malarials. On an examination of their report it has been decided to establish a state concern for the manufacture of these drugs at a cost of Rs. 2 crores. This plant will have an annual productive capacity of 1,200 billion units of Penicillin and 1,00,000 lbs. of a synthetic anti-malarial drug.

An agreement has already been signed with Messrs. Karbolegat Ab Biochemical Industry Stockholm, Sweden for the establishment of a factory for the production of Penicillin.

The factory is expected to be located near Bombay and is likely to come into production in three years time.

Negotiations are under way with a British firm for use of their patent rights for the manufacture of a suitable synthetic anti-malarial drug.

(b) An expenditure of about Rs. 50,000 is expected to be incurred upto the end of the current financial year.

**Dr. Mono Mohan Das:** What are the anti-malarial drugs it is proposed to manufacture in this factory?

**The Honourable Dr. Syama Prasad Mookerjee:** Paludrine.

**Dr. Mono Mohan Das:** Are arrangements going to be made for the manufacture of German products like Plasmoquin and Atebrin which were well known in prewar days?

**The Honourable Dr. Syama Prasad Mookerjee:** It is not part of the scheme. We are only thinking of Paludrine.

**Shri M. Tirumala Rao:** The Honourable Minister has stated that Government have made arrangements with a British firm for the manufacture of anti-malarials. Is the firm the Imperial Chemical Industries?

**The Honourable Dr. Syama Prasad Mookerjee:** Discussions are still going on and it is not desirable to disclose the names just now.

**Shri Mahavir Tyagi:** May I know if the research in these medicines is being made under the Ministry of Industry and Supply or the Ministry of Health?

**The Honourable Dr. Syama Prasad Mookerjee:** Research work is under the Health Ministry.

**Shri H. V. Kamath:** Does the Minister propose to promote the manufacture on a mass scale of certain Ayurvedic drugs and medicines which are far more efficacious than these sulpha drugs and the anti-malarials mentioned in the question?

**The Honourable Dr. Syama Prasad Mookerjee:** I would refer the honourable member to the Ministry of Health.

**Shri H. V. Kamath:** Manufacture of drugs is in the portfolio of the Honourable Minister.

**Shri S. V. Krishnamoorthy Rao:** What are the concessions allowed to these foreign companies?

**The Honourable Dr. Syama Prasad Mookerjee:** There are no concessions. In lieu of a fee which we propose to pay we will get their advice and technical assistance and there will be provision for training such Indian personnel as may be necessary for running the factory.

**Dr. Mono Mohan Das:** In addition to the proposed factory for manufacturing Penicillin by the Central Government, have any proposals been received from provincial governments for the manufacture of Penicillin?

**The Honourable Dr. Syama Prasad Mookerjee:** We have received a proposal from the Government of West Bengal but they intend to do it, if at all they can, without any assistance from the Government of India.

**Seth Govind Das:** Is the Honourable Minister's Ministry contemplating any factory for producing Ayurvedic medicines?

**Mr. Speaker:** The question relates to Penicillin and anti-malarials and it has been replied. Mr. Kamath also put a similar question to that of the honourable member and it has been answered.

**Pandit Lakshmi Kanta Maitra:** Do I take it that this factory for the manufacture of Penicillin is going to be a purely state-owned factory and the Government will sell its products without profit?

**The Honourable Dr. Syama Prasad Mookerjee:** Fifty-one per cent. of the shares will belong to the Government of India and forty-nine per cent. to the Government of Bombay; there is no intention to make any profit out of the products of this factory.

#### MANUFACTURE OF STREPTOMYCIN

\*1387. **Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether Government have any plan for manufacturing Streptomycin in this country in the near future?

(b) Has any step been taken in that direction by Government?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). The matter will be considered after the State factory for manufacture of Penicillin, Sulpha Drugs and Anti-malarial Drugs has come into existence.

**Dr. Mono Mohan Das:** Will it be possible in that factory to manufacture Streptomycin?

**The Honourable Dr. Syama Prasad Mookerjee:** We have been told that certain basic things will be done at this factory, and we may take up this question later on after the factory has come into existence.

**Dr. Mono Mohan Das:** Has Government sent some experts of our country to foreign countries for training in the manufacture of Streptomycin or does it propose to do so in the near future?

**The Honourable Dr. Syama Prasad Mookerjee:** I believe the Minister for Health is making experiments in the use of Streptomycin in this country.

**Dr. P. S. Deshmukh:** Has the possibility of manufacturing any of these drugs by the Alembic Chemicals or the Bengal Chemicals been examined?

**The Honourable Dr. Syama Prasad Mookerjee:** They are also encouraged to produce some of these drugs.

#### MANUFACTURE OF SULPHA DRUGS

\*1388. **Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what steps have been taken by Government for the manufacture of Sulpha Drugs in this country?

(b) If no steps have so far been taken, why not?

(c) What expenditure has so far been incurred for this purpose?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). It has been decided to set up a state concern for the manufacture of Penicillin, Sulpha Drugs and Anti-malarial Drugs at a cost of Rs. 2 crores. The factory is expected to be located near Bombay and to come into production in three years time. The annual productive capacity of the factory for sulpha drugs will be:

|                |             |
|----------------|-------------|
| Sulphamerazine | 60,000 lbs. |
| Sulphathiazole | 20,000 lbs. |
| Sulphanilamide | 20,000 lbs. |

(c) About Rs. 50,000.

**Dr. Mono Mohan Das:** How many foreign experts are going to be employed in our proposed factory?

**The Honourable Dr. Syama Prasad Mookerjee:** As many as will be necessary.

#### INDIA'S CONTRIBUTION TO F. A. O.

\*1389. **Seth Govind Das:** (a) Will the Honourable Minister of Agriculture be pleased to state what is the annual contribution of India to the F.A.O.?

(b) Is it a fact that India occupies the fourth place in contributions to the F.A.O. and is it also a fact that India paid Pakistan's share also last year?

(c) Has any attempt been made to reduce India's share and if so, with what result?

**The Honourable Shri Jai Ramdas Doulatram:** (a) The annual contribution of the Indian Dominion to the Food and Agriculture Organisation of the United Nations has not yet been determined. The contribution of undivided India was, however, 2,12,500 U.S. dollars or Rs. 7,03,000 (approximately). This represents 4.25 per cent. of the organisation's annual budget of 5 million dollars.

(b) No; the position of the Indian Dominion among the list of contributing Governments will be known only after its share of contribution has been determined. The undivided India, however, occupied the fifth place.

Pending the determination of the relative shares of payment of the Indian Dominion and Pakistan, the Indian Dominion paid the entire contribution for the period 15th August 1947 to 31st December, 1948 on the basis of contribution for undivided India on a distinct agreement that Pakistan will reimburse to India the payment made on her behalf when it is determined.

(c) Yes. When the original contribution of the undivided India of 4.25 per cent. of the total budget of the Organisation was raised in 1946 to 4.67 per cent a strong protest was made to the Organisation as a result of which the contribution was reduced to 4.25 per cent. When Partition took place the Organisation was asked to reduce India's contribution and the Indian delegation to the fourth session of the F. A. O. conference held in November, 1948, asked for a further reduction of the share of contribution of the Indian Dominion in terms of directions given by Government. The matter was

1864 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [25TH MARCH 1949]

discussed at length at the conference which constituted a committee to examine the entire question of contributions and recommend new scales for all member Governments. The report of the committee is awaited.

**Seth Govind Das:** At what time is it expected that the contribution of the Indian Dominion will be known to us?

**The Honourable Shri Jairamdas Doulatram:** When the Committee appointed by the F. A. O. makes its report. It is not a Committee of our Government; it is a Committee of the F. A. O.

**Seth Govind Das:** That is why I am asking when it is expected.

**The Honourable Shri Jairamdas Doulatram:** I suppose in the course of this year.

**Shri H. V. Kamath:** The Honourable Minister stated that undivided India occupied the fifth place so far as contribution was concerned. May I know what place did undivided India, proportionately to her population, occupy so far as her representation on the F. A. O. is concerned?

**The Honourable Shri Jairamdas Doulatram:** This representation is not based on population but a variety of other factors is taken into account as in the U. N. Organisation.

**Shri H. V. Kamath:** What was the place occupied by India?

**The Honourable Shri Jairamdas Doulatram:** India leads of course so far as population is concerned.

**Shri H. V. Kamath:** I was referring to the representation of India on the F. A. O.—the number of our representatives on the F. A. O., its staff etc. What was her place?

**The Honourable Shri Jairamdas Doulatram:** I would not be able to give that straightaway.

**Shri T. T. Krishnamachari:** May I ask the Honourable Minister if he is in a position to tell the House how many Indians are employed in responsible positions in the F.A.O. either as experts or as administrators?

**The Honourable Shri Jairamdas Doulatram:** I do not think we hold any important post there.

**Shri T. T. Krishnamachari:** Has any representation been made by the Government of India to the desirability of employing them in view of the large contribution she makes?

**The Honourable Shri Jairamdas Doulatram:** This matter has been taken up by the Government of India and also by the Delegations which we sent there, but we have not been able to secure any adequate results.

**Dr. P. S. Deshmukh:** Is it not a fact that India occupies a high place in the F.A.O.?

**The Honourable Shri Jairamdas Doulatram:** Yes and I hope in the United Nations Organisation also.

**Shri Mahavir Tyagi:** May I know what advantage we have been able to derive from the organisation known as the F.A.O.?

**The Honourable Shri Jairamdas Doulatram:** I have replied to this question on an earlier occasion. We cannot first of all keep away from these international organisations. Then the advantage is that this is an organisation which assists countries with regard to technical aid. It is an organisation where matters relating to production and distribution and matters dealing with food and agriculture and health are dealt with. It would not therefore be wise to keep away from these organisations.

**Shri Mahavir Tyagi:** Have we taken any technical aid from them so far or received any help in any other manner?

**The Honourable Shri Jairamdas Doulatram:** This matter is under discussion at present with the F. A. O.

**Shri Mahavir Tyagi:** But have we received any help?

**The Honourable Shri Jairamdas Doulatram:** We had not so far asked any. The matter has been recently discussed and we expect to receive aid.

**Shri Kishorimohan Tripathi:** What are the different factors governing the quantum of contribution of each country?

**The Honourable Shri Jairamdas Doulatram:** The same factors which govern the question of contribution to the U. N. O., that is, the productive capacity, the quantum of trade, the national income and similar considerations.

#### LICENSED AVIATION COMPANIES

\*1390. **Prof. K. T. Shah:** Will the Honourable Minister of Communications be pleased to state:

(a) the names and number of aviation companies that were licensed to operate air services in the Indian Dominion in 1948, the number of aircraft owned and operated by each and also the names and number of companies now in operation;

(b) the names and number of those companies, together with the value of their assets and liabilities, which have ceased to operate or gone into liquidation;

(c) the profit or loss each such Company has made, as shown in the latest available balance sheet of each such Company;

(d) the route mileage in India assigned to each such licensed aviation company, and the volume of traffic carried by each in the years 1946-47, 1947-48 and in 1948-49 and up to the end of January, 1949;

(e) the amount of depreciation provided by each such Company, in its latest available balance sheet, as allowed under the Income Tax Rules; and

(f) the number of aircraft considered sufficient and economic for operating the total route mileage open to aviation in India?

**Shri Khurshed Lal (Deputy Minister of Communications):** (a) to (e). I lay on the table two statements giving the required information.

(f) Seventy aircraft of the capacity of Dakotas.

STATEMENT I  
Volume\* of Traffic carried in Ton/Miles.

| S. ## STATEMENT II.

Names of Companies which have ceased to operate or have gone into liquidation and the value of their assets and liabilities as shown in their latest available balance sheets.

|                                          | Liabilities to outsiders | Assets.   |
|------------------------------------------|--------------------------|-----------|
|                                          | Rs.                      | Rs.       |
| Jupiter Airways Limited as on 30-11-1947 | 1,46,638                 | 23,48,586 |
| Ambica Airlines Limited as on 31-12-1947 | 17,99,992                | 39,55,051 |

**Prof. K. T. Shah:** On what basis is the depreciation calculated by the aviation companies, whether on the basis of the age of the aircraft or the mileage run or any other basis?

**Shri Khurshed Lal:** The depreciation is calculated on the basis of the number of years by which the aircraft will become unserviceable and the cost of its purchase.

**Prof. K. T. Shah:** Has the actual work performed in the shape of mileage nothing to do with it?

**Shri Khurshed Lal:** It is for individual air companies to decide as to how depreciation is to be calculated.

**Prof. K. T. Shah:** What is the explanation for the failure of some of these companies who have gone into liquidation?

**Shri Khurshed Lal:** The explanation for the failure of some of the companies is that they had entered into this business after the termination of war and had bought too many aircrafts and were not therefore able to carry on business.

**Prof. K. T. Shah:** Has the Director General of Civil Aviation taken any steps to prevent the uneconomic operation of companies like that?

**Shri Khurshed Lal:** The operation of the companies, as my honourable friend knows, is governed by the rules of the Air Transport Licensing Board. The Air Transport Licensing Board while granting licences have to take all these matters into consideration.

**Shri V. C. Kesava Rao:** May I know whether any aviation company has applied for a non-stop route from Delhi to Madras?

**Shri Khurshed Lal:** Not that I know of.

**Prof. K. T. Shah:** My question is not answered. I wanted to know whether the Director General takes any steps to see that companies are not operating uneconomically and come to grief in the manner that a recent case has shown.

**Shri Khurshed Lal:** As I have already said, the matter of granting licences and the administering of the rules is the exclusive jurisdiction of the Air Transport Licensing Board who take all these matters into consideration while granting licences.

**Pandit Hriday Nath Kunzru:** May I know how many of these companies have failed?

**Shri Khurshed Lal:** Two companies have recently gone out of business. One is under liquidation. Jupiters have stopped; I do not know whether they are under liquidation.

**Prof. K. T. Shah:** May I know how many companies are making profits according to the latest balance sheet?

**Shri Khurshed Lal:** Except Air India all others have been running at a loss.

**Prof. K. T. Shah:** Is the success of Air India due to the subsidy received by them on account of the overseas service?

**Shri Khurshed Lal:** There is no subsidy given to Air India so far as their internal services are concerned, but they have a contract for mail under which they have to be paid a certain minimum amount.

**Mr. Speaker:** The question hour is over.

(b) WRITTEN ANSWERS

AIRCRAFT PURCHASED FROM DISPOSALS

\*1391. **Prof. K. T. Shah:** Will the Honourable Minister of Communications be pleased to state:

(a) the number and types of aircraft purchased from Disposals and the price paid for the same;

(b) the total number of aircraft with a carrying capacity of seven or more, specifying their makes, used in the regular Air Services in India; and

(c) the active life of the aircraft bought from Disposals for regular service, the arrangements for their replacement and the approximate total cost of replacing machines now in use when they become unserviceable?

**Shri Khurshed Lal:** (Deputy Minister of Communications): (a) and (b). Sir, I lay on the Table two statements giving the required information.

(c) The life of an aircraft purchased from Disposal stocks is between five to seven years, according to the standard of maintenance. Replacement of existing aircraft after their life has expired is the responsibility of the air-line companies, though necessary technical advice will be given by the Civil Aviation Department. As there are several new types to choose from, whose prices vary widely, it is not possible for me to give an estimate of the cost of replacement.

STATEMENT - I

| Type of aircraft        | Number purchased | Price and remarks                                                                                                                         |
|-------------------------|------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Dakota (C-47 & C-53) | 112              | Price of a flyable aircraft ranged from Rs. 35,000 to 1,20,000 and that of an unserviceable one from Rs. 10,000 to 15,000.                |
| 2. Norseman (UC-64)     | 12               | Price of a flyable aircraft ranged from Rs. 18,000 to 23,000 and that of a unserviceable (sold for instructional purposes) one Rs. 1,000. |
| 3. Expeditor (C-45)     | 8                | Price of a flyable aircraft ranged from Rs. 55,000 to 91,666. One was sold for Rs. 20,000 as it was declared scrap.                       |
| 4. Stinson Sentinel L-5 | 55               | Price of a flyable aircraft ranged from Rs. 2,500 to 5,500 and that of an unserviceable one from Rs. 1,000 to 1,200.                      |
| 5. Valiant BT-13A       | 3                | Price ranged from Rs. 2,000 to 3,000.                                                                                                     |
| 6. Vigilant L-1         | 3                | All the 3 along with one PT-17 were sold for Rs. 10,000.                                                                                  |
| 7. Steerman P-17        | 2                | Rs. 2,000 each.                                                                                                                           |
| 8. Grasshopper L-4      | 1                | Rs. 2,500 (scrap).                                                                                                                        |
| 9. Argus Fairchild      | 27               | Price of a flyable aircraft ranged from Rs. 5,000 to 15,000 and that of an unserviceable one (for instructional purposes) Rs. 1,000.      |
| 10. Fairchild (Pt-19)   | 1                | Rs. 2,000.                                                                                                                                |
| 11. Procter III         | 1                | Rs. 2,000.                                                                                                                                |
| 12. Auster Mark III     | 6                | Rs. 4,500 each.                                                                                                                           |
| 13. Auster Mark V       | 41               | Rs. 7,500 each.                                                                                                                           |
| 14. Dominie             | 11               | Price of a flyable aircraft ranged from Rs. 14,740 to 40,000 and that of an unserviceable one from Rs. 7,340 to 7,370.                    |

STATEMENT II

| Type of aircraft used in the scheduled air services of India each with a capacity of seven or more. | Number of aircraft in use. |
|-----------------------------------------------------------------------------------------------------|----------------------------|
| Dakota                                                                                              | 88                         |

POLICY RE AVIATION ENTERPRISE BY JOINT STOCK COMPANIES

\*1392. **Prof. K. T. Shah:** Will the Honourable Minister of Communications be pleased to lay on the table of the House a statement of Government policy in regard to the future of aviation enterprise by Joint Stock Companies, which are reported to have made heavy and recurring losses, and the steps, if any, they propose to take to provide and maintain regular aviation service for Transport and Communications?

**Shri Khurshed Lal:** (Deputy Minister of Communications): It is Government's policy to afford all possible facilities to the air line companies for the operation of regular air services on an efficient and economic basis. Scheduled air transport the world over has been recognised to be not so remunerative as other fields of commercial enterprise and India is no exception. It should also be borne in mind that the initial phase of development of any new activity usually involves losses to a greater or lesser extent. Government have constantly under review measures to minimise such losses in the case of air transport operation. As the honourable member is aware, the budget proposals for the year 1949-50 include two measures—

(a) the introduction of all up air mail scheme under which all first class mail will be carried by air to the greatest possible extent, and

(b) Government will grant a rebate of half the duty on aviation petrol.

While proposal (a) will substantially increase the revenue load available to the operating companies, proposal (b) will go some way to reduce their operating costs. Government also propose to set up almost immediately a small Committee to advise them on the fixation of passenger fares and freight rates on air transport services on an economic basis, taking into account the cost of operation of the services and other relevant factors. These measures combined with the progressive development of passenger and freight traffic will, Government are sure, soon lead to a stage where the financial position of the operating companies would be stronger. Government have also noted with pleasure the formation of an Air Line Operators Association, a step which by making it possible for the resources and experience of the operators to be pooled for the common good will conduce to smooth and efficient development of air transport.

REMUNERATION TO AVIATION COMPANIES FOR HELP IN KASHMIR OPERATIONS AND IN RESCUING REFUGEES

\*1393. **Prof. K. T. Shah:** (a) Will the Honourable Minister of Communications be pleased to state what remuneration was allowed to the Aviation Companies which assisted Government:

(i) during Kashmir operations, and

(ii) in the rescue of refugees from West Punjab and East Bengal?

(b) Was any discrimination made in the rates allowed to Indian Companies, and those allowed to non-Indian Companies?

**Shri Khurshed Lal** (Deputy Minister of Communications): (a) and (b). Indian air transport companies which took part in the Kashmir operations and the operations for the evacuation of refugees from West Punjab were paid at the rate of Rs. 5 per mile flown by Dakota aircraft; a detention charge of Rs. 800 per day was paid for those days when Government were unable to make use of the aircraft. For the evacuation of refugees, aircraft were also chartered from the British Overseas Airways Corporation at rates varying from Rs. 5/11/- to 7/11/- per mile according to the type of aircraft. No aircraft were chartered by Government for the evacuation of the refugees from East Bengal.

#### NIGHT AIR MAIL SERVICE

\*1394. **Prof. K. T. Shah**: Will the Honourable Minister of Communications be pleased to state:

(a) the period for which licence has been granted to the Indian Overseas Airlines Limited to operate Night Mail Service between Bombay, Calcutta, Madras and Delhi via Nagpur, and the remuneration allowed for that service;

(b) the quantity of letters and parcels carried from Bombay, Calcutta, Madras and Delhi daily, from the commencement of the Night Air Mail Service to the latest available date;

(c) the calculations, if any, made to establish a standard economic load and route mileage for operating such a service, and the remuneration for such service;

(d) the indication, if any, given to Aviation Companies of the likely load of such mails or parcels available on different routes, and the terms and conditions on which Government would be prepared to consider such service; and

(e) the subsidy, direct or indirect, paid or agreed to be paid by Government for operation of such services, within the country and outside, and the basis for calculating remuneration?

**Shri Khurshed Lal** (Deputy Minister of Communications): (a) A licence for the operation of Night Air Mail Services between Bombay, Calcutta, Madras and Delhi via Nagpur was granted to the Indian Overseas Airlines Ltd., in the first instance for a period of one month from the 30th January, 1949. This has subsequently been extended upto the 30th June, 1949. Remuneration for these services is allowed at the rate of Rs. 1/8 per lb. for air mails carried by them and for air parcels at the approved freight rate less 25 per cent.

(b) I lay on the Table a statement giving the required information.

(c) No special detailed calculations were made. Nor was it necessary as the company was prepared to carry all air mails and air parcels which were offered by the Department and at the rates proposed by Government.

(d) As this was a new development, there were no data in regard to the likely load available. The terms and conditions on which the services were to be operated were circulated to all the companies by the Air Transport Licensing Board. The Honourable Minister for Communications laid on the table of the House a copy of these terms in reply to Shri R. K. Sidhva's question No. 400 on the 15th February, 1949.

(e) Government have not agreed to pay any subsidy either direct or indirect for the operation of such services.

#### STARRED QUESTIONS AND ANSWERS

STATEMENT  
Quantity of Air Mail and Air Parcel in pounds carried daily by the Night Air Mail Services from the 31st January to the 15 March, 1949

REPRESENTATION *RE* DELAY IN SUPPLY OF WAGONS

\*1395. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state whether the Clearing and Forwarding Agents of Bombay have made a representation, dated 25th February, 1949 to the Honourable Minister of State in connection with the delay and favouritism shown for the supply of wagons?

(b) Is it a fact that as stated therein, Lorry No. 6381 entered the Carnac Bunder on Sunday, a closing day, and loaded 85 bags of Kopra whereas goods of other dealers were not allowed to be loaded and booked although they were prior for booking?

(c) If so, what steps have Government taken in this matter?

**The Honourable Shri K. Santhanam:** (a) Yes.

(b) It is correct that Lorry No. 6381 was admitted into Carnac Bunder Goods Depot with 85 bags of Kopra on a Sunday which is not a closed day at the Depot. These bags were loaded a few days later. Other consignments brought in earlier were awaiting booking, but the owners were not present.

(c) It is difficult to decide whether this was an instance of favouritism or a proper exercise of the discretion vested in the Goods Superintendent. The matter is being further investigated. The Government also propose to direct railway administrations to tighten the procedure with the object of avoiding any thing which may be interpreted as discrimination.

## BOOKING OF MAT AND BETEL LEAVES ON B. N. RAILWAY

\*1396. **Shri Satis Chandra Samanta:** (a) Will the Honourable Minister of Railways be pleased to state the amount of income from the booking for the transshipment of mat and betel leaves to different parts of the Indian Union, Ceylon, Rangoon, Maldiva, etc., at stations from Kolaghat to Narayangarh on the Bengal Nagpur Railway in the years 1940 and 1948 (station wise)?

(b) Is there unrestricted booking system or restricted quota for booking those goods at those stations?

(c) Is there any corrugated shed with cemented stacking platform at any of those stations for keeping booked and unbooked goods, especially at Machada, Panchkura, Ballichak, Narayangarh, Bakrabad and Contai Road?

(d) Was there any case of corruption amongst the station staff at Machada and Ballichak in the matter of booking those goods?

(e) If the answer to part (d) above be in the affirmative has necessary action been taken in such cases?

**The Honourable Shri K. Santhanam:** (a) Presumably the Honourable member is referring to the income from traffic in mat and betel leaves booked from stations on the section Kolaghat to Narayangarh to different destinations, station by station. Such statistics are not maintained in the form desired and will have to be specially compiled. The B. N. Railway are doing this and when these figures are available they will be placed on the table of the House.

(b) There is no special quota allotted for booking mat or betel leaves as such, but an inclusive quota is allotted to each station for the movement of goods traffic in 'small'. Betel leaves are, however, booked generally as parcels, and the quantity booked daily is limited for convenient loading within the scheduled halt by passenger trains.

(c) There are cemented stacking platforms at all these stations but corrugated sheds only at Ballichak and Contai Road.

(d) Yes.

(e) Appropriate action has been taken. This includes discharge of one Assistant Station Master, demotion of one and transfer of eight other staff.

## OFFICE OF SALT CONTROLLER

\*1397. **Shri H. V. Kamath:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) whether it is a fact that the main office of the Salt Controller is at Simla;

(b) whether in the aforesaid office, there are employees whose headquarters are at Simla, but who are at Delhi more or less permanently on a tour basis and getting halting allowance;

(c) the expenditure incurred in connection with the travelling allowances of employees in this office during the years 1946-47, and 1947-48; and

(d) why it is not feasible to locate the entire office in one place?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) No. A part of the office which will be about one-half, have their Headquarters at New Delhi and the remaining staff are at Simla.

(b) No official is more or less permanently on a tour basis at Delhi. But occasionally one or two officials have to come on tour to Delhi, for short periods on official duty.

(c) The office was formed on 1st November, 1947. The expenditure incurred on all tours undertaken in the whole of India in 1946-47 is therefore nil and in 1947-48, Rs. 2288.

(d) The Ministry asked for the transfer of the entire office from Simla to Delhi but transfer of only a portion was possible owing to lack of accommodation.

## MANAGEMENT OF ROLLING STOCK SECTIONS IN RAILWAYS

\*1398. **Shri H. V. Kamath:** Will the Honourable Minister of Railways be pleased to state whether the Rolling Stock Section of the Mechanical Branch on every Railway is managed as an independent branch with a Departmental Head of its own?

**The Honourable Shri N. Gopalaswami Ayyangar:** No.

## GAZETTED AND NON-GAZETTED STAFF IN SURVEY OF INDIA

\*1399. **Shri H. V. Kamath:** Will the Honourable Minister of Agriculture be pleased to state:

(a) the number of officers, gazetted and non-gazetted, according to their categories, at present employed in the Survey of India; and

(b) whether it is a fact that almost every inch of India has been surveyed and resurveyed?

**The Honourable Shri Jairamdas Doulatram:** (a) A statement giving the required information according to each category as on 1st March, 1949 is placed on the table of the House.

(b) No. At the time of partition about 180,000 Sq. miles of the Indian Union had either never been surveyed at all or had only inadequately surveyed prior to 1905.

## STATEMENT

Number of the Gazetted Officers and the Non-Gazetted Staff as on  
the 1st March, 1949

## GAZETTED OFFICERS

|                                   |    |
|-----------------------------------|----|
| Class I Service                   | 27 |
| General Central Service, Class I  | 5  |
| Class II Service                  | 61 |
| General Central Service, Class II | 14 |

## NON-GAZETTED OFFICERS

|                                        |       |
|----------------------------------------|-------|
| (a) Class III Services (Technical).    |       |
| Surveyors                              | 118   |
| Plantblers, Draftsman, Computers, etc. | 949   |
| Map Reproduction personnel             | 535   |
| Other technical personnel              | 103   |
| (b) Class III Service (Ministerial)    | 332   |
| (c) Class IV Service                   | 4485* |

\*Of this number about 1000 are retained throughout the year and the remainder are employed only for 6 months in the year during the field season.

## STARCH FACTORIES

\*1400. Shri Ram Chandra Upadhyaya: Will the Honourable Minister of Industry and Supply be pleased to state:

- the number of starch factories in India;
- the places where they are situated;
- the number of days and the months in which they work in a year;
- how much raw material each of them is getting;
- the amount of starch produced by them in the years 1947 and 1948;
- the steps Government propose to take to keep them working for most part of the year; and
- whether some new industrialists have approached Government for starting starch factories and if so, how many?

The Honourable Dr. Syama Prasad Mookerjee: (a) There are twenty four starch factories in India.

(b) to (e). A statement is laid on the Table.

(f) It has been decided to procure maize upto 50,000 tons for starch factories in 1949. For this purpose offers from foreign countries of maize of a quality not suited for human consumption, or available for import at higher prices than could be paid for import for food, will not be rejected but will be accepted for distribution to the starch factories. The Association of starch factories has been asked to pass on to the Ministry of Food any information obtained by the factories about such availabilities. Besides, the Ministry of Food have instructed their own officers and Provinces and States to offer all deteriorated grains to the Association of starch factories (and not to the Textile Commissioner, Bombay, as hitherto); the Association will then settle their distribution among the factories.

(g) Only one. Messrs Gagger & Co., Calcutta, applied for permission to start a factory in Bihar for the manufacture of starch from sweet potatoes. No permission was granted in view of the food position in the country.

## STATEMENT

(b) The starch factories are situated as follows :—

|                    |   |
|--------------------|---|
| Bombay Province    | 9 |
| East Punjab        | 5 |
| U. P.              | 5 |
| Central India      | 1 |
| Delhi              | 1 |
| Jaipur             | 1 |
| Gwalior            | 1 |

Note.—The remaining fifteen factories were idle during 1947 and 1948 for want of raw materials. At present no factory, excepting Anil Starch Products, Ahmedabad, is working for want of raw materials. Unfortunately the only available raw materials are foodgrains and edible tubers.

## DESIGNS OF POSTAL STAMPS

\*1406. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Communications be pleased to state whether the Government of India have decided to discontinue the printing of the King's effigy on Indian postage stamps?

(b) If so, from what date, and what is intended to replace the King's effigy?

(c) How many different denominations of stamps are intended to be printed, and what emblems will be printed on each of them?

**Shri Khurshed Lal** (Deputy Minister of Communications): (a) Yes.

(b) The King's effigy ceased to be a feature of postage stamps after the 15th August, 1947. The printing of postage stamps bearing the King's effigy has, however, not been discontinued. This will be done soon when India's first national stamps will be put on sale. The new series will depict subjects of archaeological and historical interest.

(c) Sixteen, ranging from three pies to Rs. 15. A statement showing the designs adopted for the various denominations is laid on the table of the House.

## STATEMENT.

*Particulars in respect of each denomination of India's first series of permanent postage stamps*

- 3 pies—Ajanta Panel—From famous Ajanta caves.
- 6 pies—Konarak Horse—From the Sun Temple at Konarak.
- 9 pies—Trinurti—From an image at Elephanta.
- 1 anna—Bodhisattva—An image of Bodhisattva now in the Provincial Museum, Lucknow.
- 2 annas—Nataraja or some other representation from South Indian Antiquities.
- 3 annas—Sanchi Stupa—one of the gateways of the great stupa at Sanchi.
- 3½ annas—Bodhi Gaya Temple—From Bihar.
- 4 annas—Bhuvanesvara Temple—From Orissa.
- 6 annas—Gol Gumbad, Bijapur.
- 8 annas—Kandarya Mahadeva Temple (Khajuraho).
- 12 annas—Golden Temple, Amritsar.
- 1 rupee—Victory Tower, Chitorgarh.
- 2 rupees—Red Fort, Delhi.
- 5 rupees—Taj Mahal, Agra.
- 10 rupees—Qutb Minar, Delhi, and.
- 15 rupees—Satrunjaya Temple, Palitana.

## ELECTRIC RAILWAYS

\*1407 **Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Railways be pleased to state the total mileage of electric railways in India, and what steps Government intend to take to increase the mileage of electrified railway track?

**The Honourable Shri N. Gopalaswami Ayyangar:** The total electrified route mileage on Railways in India is 235.99 miles. The question of electrifying certain other busy sections under examination.

## GURMUKHI SCRIPT ON TICKETS ISSUED ON E. P. RAILWAY

\*1403. **Giani Gurmukh Singh Musafir:** (a) Will the Honourable Minister of Railways be pleased to refer to the answer to my starred question No. 665, asked on the 10th March, 1948 and state whether the practice of printing the names of destinations in Gurmukhi script on tickets issued from the East Punjab Railway stations, that was abolished at the time of the partition of the country, has now been reintroduced?

(b) If not, how long will it take to re-introduce this practice?

**The Honourable Shri K. Santhanam:** (a) Gurmukhi script on tickets over the Eastern Punjab Railway has not yet been introduced and this has not been possible as most of the E. P. Railway tickets have still to be printed in other railway presses at Lucknow, Ajmer, Gorakhpur and Bombay where Gurmukhi types are not available.

(b) This will be done as soon as the ticket printing press for the Eastern Punjab Railway is set up. Ticket printing machines are already on order from the United Kingdom.

## PRODUCTION, IMPORT, PURCHASE AND SALE PRICES OF CEREALS

\*1409. **Babu Ramnarayan Singh:** Will the Honourable Minister of Food be pleased to make a statement on the following points:

(a) the total amount of cereals of all kinds required in the country in the year 1948-49;

(b) the total amount of cereals of all kinds produced in the country in the year 1948-49;

(c) the total amount of cereals of all kinds imported from foreign lands in year 1948-49;

(d) the total amount of money paid as price to foreign countries;

(e) the amount of money paid as freight;

(f) the amount of money realised from the people as the price of foodgrains supplied to them; and

(g) the amount of money considered as loss to or subsidy paid by Government?

**The Honourable Shri Jairamdas Doulatram:** (a) It has been estimated that the requirements for the whole country in 1948-49 would be 45.5 million tons approximately on the basis of 1 lb per adult for farm population and 12 ozs. per adult for non-farm population.

(b) A proper estimate will be available some time after the year is over.

(c) The amount of food-grains of all kinds to be imported during the year 1948-49 is estimated as 2.8 million tons. The quantity received to the end of February, 1949 was 2.6 million tons.

(d) Figure to end of February 1949 is approximately Rs. 101 crores.

(e) Figure to end of February, 1949 is approximately Rs. 13 crores.

(f) The imported grain is distributed to the people by the provincial/state Governments along with grain procured locally by them. The Central Government has no information of the total sums realised by the various provincial/state Governments.

(g) On the basis of estimated issues to local administrations during the year 1948-49 the amount of subsidy payable by the Central Government on imported grain is estimated at about Rs. 22.5 crores.

## MANUFACTURE OF SYNTHETIC PETROL FROM STEAM COAL

\*1401. **Shri R. L. Malviya:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) whether any experiment has been made on the steam coal of Surguja district for the manufacture of synthetic petrol; and

(b) if so, with what results?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) No, Sir, but samples from some other neighbouring areas have been sent for examination.

(b) Does not arise.

## RAILWAY LEVEL CROSSING ON KACHA ROAD FROM SATROAD TO DABRA

\*1402. **Ch. Ranbir Singh:** Will the Honourable Minister of Railways be pleased to state:

(a) whether a representation of villagers of Satroad and its neighbouring villages in Hissar District duly supported by the Deputy Commissioner regarding the construction of a level-crossing for carts on the 'kacha' road going from Satroad to Dabra, has been received?

(b) whether Government are aware that due to the absence of the level-crossing in demand, agriculturists have to travel two and half miles more than the distance they will otherwise have to do to reach their fields from the villages during the rainy season, as the kachu cart roads connected by the existing level crossing generally remain under water; and

(c) if the answers to parts (a) and (b) above be in the affirmative, whether Government propose to consider the demand of the villagers?

**The Honourable Shri K. Santhanam:** (a) and (b). Yes. Recently in January 1949 the East Punjab Government forwarded to the Railway Administration a representation of the villagers of satroad for the provision of a new level crossing.

(c) There appears to be no objection to the provision of the proposed level crossing from the railway point of view, and the matter is under examination. Investigations are also being made as to the possibility of shifting one of the existing level crossings to the proposed site.

## IMPORT AND MANUFACTURE OF MACHINE TOOLS

\*1403. **Shri S. V. Krishnamoorthy Rao:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether Government are aware that the Indian Machine Tool Industry are unable to clear their stock on account of competition from imported machine tools?

(b) Is the Machine Tool Comptroller consulted before licences are granted for import of machine tools?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Government are aware that certain machine tool manufacturers have not been able to clear their stocks. This is not because of foreign competition but on account of slackness in demand, transport difficulties and prejudice against machine tools made in the country.

(b) Yes, Sir. Every application for import of machine tools is scrutinized and import licences are issued only for those types of machine tools which are not manufactured in the country to Grade I standard of accuracy.

## CENTRES FOR TEACHING FOOD PRESERVATION

\*1404. **Prof. N. G. Ranga:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) whether Government are aware that a Food and Agricultural Organisation expert in Greece is organising Community Canning Centres to teach the people how to can fruit and meat and that another Food and Agricultural Organisation Specialist in Italy has organised Home Canning Programme in Italy for food preservation;

(b) whether Government have obtained necessary information regarding the organisation and the results of such centres; and

(c) whether they propose to organise such centres in the rural areas of India?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) No, Sir.

(b) and (c). Steps are being taken to obtain information regarding the organisation and results of such centres in foreign countries, and the information when received will be furnished to the Provincial Governments who are primarily concerned with this.

## INDIAN JUTE MILL ASSOCIATION RESEARCH INSTITUTE

\*1405. **Shri Basanta Kumar Das:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) whether the Indian Jute Mill Association Research Institute has been recognised by Government as an approved research association;

(b) the nature of the research work that they carry on;

(c) the results which have so far been achieved by their research activities;

(d) whether any of these results have been utilised and if so, to what effect; and

(e) whether the association receives any monetary help from Government?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes.

(b) The research work carried out by the Institute is concerned essentially with improvements in manufacturing processes and the utilization of jute products including the development of new uses for jute.

(c) and (d). A statement is laid on the Table.

(e) No; Funds for the Institute are solely provided by Industry itself.

## STATEMENT.

*Results achieved by the research activities of the Indian Jute Mill Association Research Institute and the utilisation of such results*

(A) Some of the results achieved are:

(i) development of rot resistant and water-resistant finishes,

(ii) improvements in the bleaching of jute,

(iii) good progress towards production of a "Fadeless" Jute,

(iv) mixing of jute in different forms with shellac and other resins for the manufacture of boards and containers of different types and with bitumen and bitumen products to produce materials for roofing and other purposes.

(B) The results have been utilised in:

(i) the production of 150 million yards of rot-proof sand bag hessian,

(ii) the dyeing of hundreds of millions of yards of jute material for camouflage,

(iii) the production of about 50 million square feet of jute-shellac laminates,

(iv) the production of over 80 million yards of a bituminised jute material, and

(v) the use of Tamarind seed flour in several thousand tons annually for sizing purposes in jute mills according to a technique provided by the Research Institute.

## STOCK OF CEREALS

**\*1410. Babu Ramnarayan Singh:** Will the Honourable Minister of Food be pleased to state whether the entire quantity of cereals produced and imported in the country in the year 1948-49 has been spent by the end of the year, or whether there is any balance of stock and if so, how much and where?

**The Honourable Shri Jairamdas Doulatram:** The year is not yet over. The information will be available some time next month. But so far as the stocks held by the Government of India in the Central Reserve Storage Depots are concerned the position as on 1st March was that besides the quantities held in transit 14,382 tons of foodgrains of all kinds was held at Calcutta Depot and a quantity of 25,164 tons at the Bombay Depot. The figures for stocks held by Provincial and State Governments as on 31st March 1949 have been called for and will be supplied to the honourable member as soon as received.

## WASTAGE OF CEREALS IN 1948-49

**\*1411. Babu Ramnarayan Singh:** Will the Honourable Minister of Food be pleased to state what amount of cereals in the custody of Government in the year 1948-49 has been either wasted or damaged?

**The Honourable Shri Jairamdas Doulatram:** 6637.38 tons.

## INTRODUCTION OF SPINNING IN COTTAGE INDUSTRY PLANS

**\*1412. Babu Ramnarayan Singh:** Will the Honourable Minister of Industry and Supply be pleased to state whether introduction of *charkha* (spinning wheel) and spinning is included in Governments' cottage industry plans and if so, what steps are being taken to give effect to it?

**The Honourable Dr. Syama Prasad Mookerjee:** The matter was generally discussed at the Cottage Industries Board in December last, but no definite scheme was prepared. It will be further examined by the Committee appointed to deal with the problems of handloom weaving and hand spinning industries. The nature of help to be given by Government will be decided on receipt of the Committee's recommendations.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

## (PART I—QUESTIONS AND ANSWERS)

Monday, 28th March, 1949.

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

## STARRED QUESTIONS AND ANSWERS

## (a) ORAL ANSWERS

CONVERSION OF *Dufferin* AS SHORE ESTABLISHMENT

**\*1413. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state whether any proposal has been made or considered to convert the *Dufferin* as a shore establishment in Bombay or at any other port?

(b) Is the ship fitted with wireless?

(c) Is it a fact that several establishments or schools of similar kind in the United States of America and the United Kingdom are situated on land near the shore?

(d) What is the maintenance cost of the ship per year and have Government examined whether the shore establishment would reduce the cost?

**The Honourable Shri K. C. Neogy:** (a) No, but the question of setting up a shore establishment in addition has been considered. The decision of Government is that the *Dufferin* should be reserved only for the training of nautical cadets for whom an additional shore establishment is unnecessary and that a shore establishment should be set up for the training of marine engineers.

(b) No.

(c) Yes. In the United Kingdom there are training ships as well as shore training establishments.

(d) The average maintenance cost of the ship per year is about Rs. 48,000.

A shore establishment would not have all the advantages of a training ship. While in certain circumstances depending upon the location of the building, a shore establishment may prove cheaper to maintain than a training ship, acquiring a site and constructing a suitable building would involve considerable expense which would not be justified so long as Government have a suitable training ship.

**Shri R. K. Sidhva:** May I know when this new shore establishment will come into existence, to which the Honourable Minister has made reference?

**The Honourable Shri K. C. Neogy:** We are actively considering this matter but as the honourable member will realise, in the case of engineering officers

the shore establishment would be expected to give them training only after they have had practical training in the nautical engineering workshops. Therefore there is sufficient time yet available for the purpose of setting up the marine engineering college which we contemplate in this connection.

**Shri R. K. Sidhva:** For purposes of this training will the *Dufferin* be in the stream all along and there will be an additional shore establishment?

**The Honourable Shri K. C. Neogy:** As I have said in the reply to the main question the *Dufferin* will be specialising in the training of administrative officers and the shore establishment to which I have made reference will be responsible for the training of engineering officers.

**Srijut Kuladhar Chaliha:** May I know if there is any proposal to acquire the *Nelson* for training in the Bombay port?

**The Honourable Shri K. C. Neogy:** Not that I am aware of.

#### EXPORT FROM JAPAN

\*1414. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state what is the total amount of business secured by Japan from traders in India so far?

(b) What are the principal articles for which orders have been placed in Japan and what is the total amount of all such orders?

(c) When are the shipments of machinery likely to arrive in India?

(d) What is the total amount of trade between Japan and India?

(e) How much of this trade will be financed in dollars?

(f) Will the value of the articles exported from India to Japan exceed our imports from that country?

**The Honourable Shri K. C. Neogy:** (a) I presume that the honourable member is referring to exports from Japan to India. The amount of business contracted by Indian businessmen for import from Japan during the period July 1948 to January 1949 is 50 million dollars or Rs. 16.6 crores, but the actual import will be considerably less.

(b) A statement giving the requisite information is laid on the table of the House.

(c) Shipments of machinery of all kinds are likely to be completed by December 1949.

(d) and (f). The total amount of trade between India and Japan during the period from 1st July 1948 to 30th June 1949 as envisaged in the Trade Plan, is expected to be as follows:

Export from India: Rs. 5 crores 68 lakhs.

Import into India: Rs. 8 crores 86 lakhs.

(e) Trade with Japan is governed by an overall payments arrangement which provides for the conduct of such trade on a sterling basis.

Under the Sterling Balances Agreement, dated 9th July 1948, we are assured of convertibility into hard currency upto \$14 million or £3½ million in our excess balance with Japan.

#### STATEMENT

*Principal articles for which orders have been placed to Japan during the period July 1948 to January 1949*

| Article                             | Value of contracts | Value of shipments effected |
|-------------------------------------|--------------------|-----------------------------|
|                                     | Rs.                | Rs.                         |
| Cotton piecegoods . . . . .         | 530 Lakhs          | 33.3 Lakhs                  |
| Wool . . . . .                      | 230 „              | 33.3 „                      |
| Rayon . . . . .                     | 500 „              | 100.0 „                     |
| Heavy and light machinery . . . . . | 300 „              | 66.6 „                      |
| Plywood . . . . .                   | 20 „               | 3.3 „                       |
| Glassware . . . . .                 | 17 „               | 3.3 „                       |
| Miscellaneous goods . . . . .       | 60 „               | 26.6 „                      |
| Total . . . . .                     | 16,57 Lakhs.       | 2,66.4 Lakhs                |

**Shri R. K. Sidhva:** The quantity and value of the exports from Japan to India which the Honourable Minister has stated, is it covered by the Indo-Japanese Trade Pact signed on the 9th November?

**The Honourable Shri K. C. Neogy:** Yes, Sir.

**Shri R. K. Sidhva:** The quantity referred to which period?

**The Honourable Shri K. C. Neogy:** The period from which the trade starts to operate is from July and goes on to June 1949.

**Shri R. K. Sidhva:** Are these Japanese goods generally cheaper and their delivery is guaranteed?

**The Honourable Shri K. C. Neogy:** Not always.

**Shri B. P. Jhunjunwala:** What is the value of the capital goods imported from Japan?

**The Honourable Shri K. C. Neogy:** Actually imported so far?

**Shri B. P. Jhunjunwala:** Yes.

**The Honourable Shri K. C. Neogy:** It is very difficult to give a definite reply. I find that under heavy and light machinery the amount covered by the shipments actually effected up to January 1949, is 66 lakhs and odd, out of which about 50 lakhs are accounted for by textile machinery.

**Sardar Hukam Singh:** Was some period of grace given for these shipments sometime ago and that has recently been withdrawn?

**The Honourable Shri K. C. Neogy:** That is not the case. As a matter of fact my honourable friend perhaps refers to the extension of the open general licence to certain categories of Japanese goods. In the very first notification it was mentioned that in order to qualify under the open general licence such goods must be shipped or despatched on or before the 31st March 1949, and there is no question of any extension being given.

**Sardar Hukam Singh:** Has any protest been lodged by some association?

**The Honourable Shri K. C. Neogy:** Yes, I am aware of that.

## UTILIZATION OF COAL MINES LABOUR WELFARE FUND FOR EDUCATION OF LABOURERS

\*1415. **Dr. Mono Mohan Das:** Will the Honourable Minister of Labour be pleased to state what was the expenditure that was incurred during the year 1947-48 from the Coal Mines Labour Welfare Fund, for spreading education among the coal mine labourers?

**The Honourable Shri Jagjivan Ram:** It is not possible to indicate precisely the amount of expenditure incurred by the Coal Mines Labour Welfare Fund during 1947-48 for spreading education among colliery workers. As part of a scheme for the welfare of women and children in the coalfields, Demonstration Centres are being opened at different places in the coalfield area, as opportunity occurs and finances permit, where craft education is being imparted to women and the alphabets are being taught to miners' children. Visual education is provided by the mobile cinema unit maintained by the Fund. The Fund's mobile shop vans and mobile canteens which visit the collieries periodically are provided with loudspeakers and the Fund's officers give talks for the benefit of the mining population.

A scheme for providing adult education to miners is under examination and it is proposed to construct schools for miners' children in townships which are being built as part of a general scheme for housing the coalminers.

**Dr. Mono Mohan Das:** In the coal mine areas up till now no amount has been spent for the propagation of education among the labourers nor any school has been established.

**The Honourable Shri Jagjivan Ram:** My honourable friend must be aware that education is a provincial subject and whenever we want to take up this question, the provincial governments are not helpful to the extent that we desire them to be. However, we are trying to do our bit in this field as well.

**Seth Govind Das:** Is this amount given by the Central Government for education according to the population of each province or without any such consideration at all?

**The Honourable Shri Jagjivan Ram:** We are not giving any grants for education. Education is entirely a provincial subject and we will not be justified in interfering in that.

**Seth Govind Das:** What is done for education in those areas where there are coal mines which are under the Central Government?

**The Honourable Shri Jagjivan Ram:** Those areas are also under the provincial government. We are responsible only for trade disputes. All other things like health, education, sanitation, law and order, etc., are under the charge of the provincial government.

**Dr. Mono Mohan Das:** May I know whether it is contemplated by the Government to establish and maintain schools for mining labourers in the mining areas?

**The Honourable Shri Jagjivan Ram:** As I have already indicated we are going to build townships for housing the miners and in those townships it is our plan to establish schools. But as regards the maintenance of those schools that will come under the provincial sphere. How far we will contribute towards that is a matter for future consideration.

**Shri Khandubhai K. Desai:** Is the Government aware that there is a consistent demand from the miners for giving adult education from this Fund?

**The Honourable Shri Jagjivan Ram:** I have said in my answer that a scheme for adult education is already under examination.

**Babu Ramnarayan Singh:** Has any welfare centre been opened at \* \* and if so what are its activities?

**The Honourable Shri Jagjivan Ram:** It raises a very wide question. I may as well remind you, Sir, that recently the honourable member put a question to that effect and I think I have given a very elaborate reply to it. The present question is limited to education, and I cannot offhand say what welfare activities are carried on at a particular place.

**Babu Ramnarayan Singh:** Has the centre been opened?

**Mr. Speaker:** I am proceeding to the next question.

## CONDITIONS OF PLANTATION LABOURERS

†\*1416. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Labour be pleased to state whether any efforts have been made to improve the working conditions of plantation labourers?

(b) What is the average monthly income for workers engaged in tea gardens, coffee estates and rubber plantations?

(c) What is the position regarding the housing facilities provided for them?

**The Honourable Shri Jagjivan Ram:** (a) Yes. The Labour Investigation Committee set up by the Government of India in 1944 carried out an enquiry into the conditions of labour in tea, coffee and rubber plantations in India. The recommendations made by the Committee were placed before a tripartite committee in January, 1947. As a result of the decisions of the Committee an *ad hoc* dearness allowance and sickness and maternity benefits were allowed to workers. As recommended by the Committee, a number of family budgets were collected. A medical survey was also conducted. These reports were placed before the second session of the Tripartite Industrial Committee in April 1948. A further increase in dearness allowance was agreed to by the Planters. The medical standards recommended by Major Lloyd Jones were also accepted. The employment of children under 12 years was banned. A Bill embodying the principles of legislation approved of by the Committee is under preparation.

(b) From the information available a statement showing the daily earnings, the average number of days worked in a month, and the average monthly income (including the money value of food concessions) of workers has been prepared and is placed on the table of the House.

(c) Resident labour is usually housed free by the Plantation Industry. Except in very big estates the present housing conditions in plantations are not satisfactory. Regarding housing conditions in Assam, the attention of the honourable member is invited to my answer to starred question No. 996 on the 9th March, 1949. The second session of the Industrial Committee on Plantations adopted a proposal to set up Housing Boards whose functions would be to acquire and develop suitable areas for the construction of workers' houses, raise funds, administer the housing estates, organise research in house construction and availability of materials and prescribe the extent and the nature of the employer's liability for the provision of workers' houses, etc. As legislation may take some time, planters are, being persuaded to construct suitable workers' houses according to the recommendations of the Industrial Housing Sub-Committee, even before the legislation comes into force.

† Answer to this question laid on the Table, the questioner being absent.

## STATEMENT

Average monthly income (including money value of food concessions) of workers in plantations.

|                  | Men             |                                          |                        |                  | Women                                    |                        |                 |                                          | Children               |                 |                                          |                        |

## DEVELOPMENT OF EMPLOYMENT EXCHANGES

†\*1417. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Labour be pleased to state the progress made in opening employment exchanges in every district in the country?

(b) What are the development plans for employment exchanges?

**The Honourable Shri Jagjivan Ram:** (a) Employment Exchange or District Employment Offices have been opened in 92 districts; they have yet to be opened in 85 districts. The year-wise progress of the opening of Exchanges is as follows:

| Year | Exchanges |
|------|-----------|
| 1945 | 16        |
| 1946 | 37        |
| 1947 | 22        |
| 1948 | 8         |
| 1949 | 20        |
|      | 97        |

In some bigger districts, more than one Exchange have been opened.

Arrangements have been made to open 11 District Employment Offices in Bihar and one in Coorg.

(b) The Employment Exchanges have been sanctioned until the 31st July, 1950. The question of their continuance and development has been discussed with the Provincial Governments but no definite plans have yet been formulated.

## PREVENTION OF CORRUPTION IN C. P. W. D.

†\*1418. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state the steps which are being taken to prevent corruption in the Central Public Works Department?

(b) What is the number of prosecutions launched during the last year for corruption?

**The Honourable Shri N. V. Gadgil:** (a) The more important of the steps taken to prevent corruption in Central Public Works Department are as follows:

- (i) Whenever an irregularity is observed, strict action is taken either departmentally or through the Special Police Establishment under the control of the Ministry of Home Affairs.
- (ii) The qualifications of contractors who can tender for Central Public Works Department works are being carefully revised with a view to ensuring that only qualified and competent contractors are awarded the contracts.
- (iii) Restrictions have been imposed on award of contracts to contractors who are closely related to officers in the Central Public Works Department or the Works, Mines and Power Ministry.
- (iv) A Central Works Advisory Board consisting of representatives of the Ministries of Works, Mines and Power and Finance and the

† Answer to this question laid on the Table, the questioner being absent.

C.P.W.D. has been set up to scrutinize tenders for works worth more than rupees five lakhs. In the case of Chief Engineer, C.P.W.D. and rupees three lakhs in the case of Superintending Engineer, Delhi Province. The recommendations of the Advisory Board in such cases are submitted to the Honourable Minister in charge of Works, Mines and Power Ministry and such contracts are awarded only with his approval.

(v) A Planning Circle has been established for standardising plans, preparing estimates and laying down specifications. With better control over the preparation of designs and estimates, irregularities will be considerably reduced.

(vi) A large number of posts in the C.P.W.D. in gazetted and non-gazetted ranks which have been kept temporary for many years and which must be retained in future will be made permanent so that the officers concerned may have a permanent stake in the Department and the necessary incentive to uphold its good name.

(b) Eight prosecutions involving twenty-two persons were launched.

## EXTRACTION OF MANGANESE ORES FROM VIZIANAGRAM AND GANJAM, ORISSA

\*1419. **Srijut Kuladhar Chaliha:** Will the Honourable Minister of Works, Mines and Power be pleased to state whether Government have examined the possibility of extracting Manganese Ores from Vizianagram and Ganjam in the Province of Orissa?

**The Honourable Shri N. V. Gadgil:** Yes. A list of the published and unpublished reports on the work done by the Geological Survey of India on these deposits is laid on the Table.

## LIST OF PUBLISHED AND UNPUBLISHED REPORTS

## Published reports—

1. Geological Sketch of the Vizagapatam District, by William King, Rec. G.S.I., Vol. XIX, p. 155.
2. Notes on the Geology and Mineral Resources of Mayurbhanj, by P. N. Bose, Rec. G.S.I., Vol. XXXI, p. 170.
3. Manganese-ore in Vizagapatam District and Ganjam District, by T. H. Holland, Rec. G.S.I., Vol. XXXIII, pp. 95—97.
4. Manganese-ore in Gangpur State, by T. H. Holland, Rec. G.S.I., Vol. XXXVIII, p. 43.
5. Notes on the Manganese-ore Deposits of Gangpur State, Bengal and on the distribution of the Gondite Series, by L. L. Fermor, Rec. G.S.I., Vol. XLI, p. 12.
6. Manganese-ore in Bihar and Orissa, by L. L. Fermor, Rec. G.S.I., Vol. LIII.
7. Manganese in Keonjhar State, by E. H. Pascoe, Rec. G.S.I., Vol. LX, p. 45.
8. Manganese-ore bodies, estimation of value by L. L. Fermor, Rec. G.S.I., Vol. LX, p. 314.
9. Manganese in Gangpur State, Rec. G.S.I., Vol. LXII, pp. 58 and 96.
10. Manganese-ore in Keonjhar State, by L. L. Fermor, Rec. G.S.I., Vol. LXV, p. 56.
11. Manganese-ore in Bamra State, by Dr. M. S. Krishnan, Dr. P. K. Ghosh, Rec. G.S.I., Vol. LXXV, prof. paper No. 8.
12. Geology of Kalahandi State, by T. L. Walker, Mem. G.S.I., Vol. XXXIII, pt. 2, p. 20.
13. Manganese-ore Deposits of India, by L. L. Fermor, Mem. G.S.I., XXXVII, part IV.

17. Rec. G.S.I., Vol. LXXVI, Bulletin, 9 Manganese, page 65.

18. Fore Production figures of Manganese-ore all quinquennial reviews of this Department may be consulted.

#### Unpublished reports—

1. Report on the Mineral Reconnaissance in the Pal Lahara State, by B. C. Gupta 1943, Progress Report for 1942-43.

2. Economic Minerals in Burma State, by Dr. H. Crookshank.

3. The Manganese occurrences near Khandal village in Rairakhol State, by Mr. S. Krishnaswamy.

4. Report on the mineral reconnaissance in the Keonjhar State, by Rai Sahib B. C. Gupta.

5. Mineral reconnaissance in Bonai State, E.S.A., by Mr. H. Nandi.

6. Mineral resources of Daspalla State, E.S.A., by Mr. H. Nandi.

7. Report on the mineral resources of Khandpara State, by Mr. H. Nandi.

8. Mineral reconnaissance in Band State, by Mr. H. Nandi.

9. Minerals in Bonai State, by Dr. H. Crookshank.

10. Report on minerals in Rairakhol State, by Dr. H. Crookshank.

11. Report on the mineral reconnaissance of Athgarh State, by Mr. Mukti Nath.

#### MR. LOBO PRABHU, CUSTODIAN OF EVACUEES' PROPERTY

\*1420. Sardar Hukam Singh: Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) whether it is a fact that some Congressmen tried to influence Mr. Lobo Prabhu, former Custodian of Evacuees' Property in Delhi, by writing recommendatory letters to him; and

(b) if so, do Government propose to take any action against these persons attempting to influence a Public Official?

The Honourable Shri Mohan Lal Saksena: (a) No.

(b) Does not arise.

#### FOODSTUFFS AT CONCESSION RATES TO MINERS IN COAL FIELDS

\*1421. Seth Govind Das: (a) Will the Honourable Minister of Labour be pleased to state whether it is a fact that the Tripartite Committee was asked to examine the present system of supplying food stuffs at concession rates to miners in the coal fields of Bengal, Bihar and the Central Provinces?

(b) If so, what are the suggestions made by the Tripartite Committee?

(c) What steps are being taken to implement those suggestions?

The Honourable Shri Jagjivan Ram: (a) Yes.

(b) and (c). As there was no measure of agreement between the workers' and employers' representatives on the Food Grain Enquiry Committee, a report signed by only the official members of the Committee has been received. The views of the representatives of employers and labour on the Committee have also been forwarded. Government are now considering the recommendations made by the official members and the views of the representatives of employers and workers on the Committee.

Seth Govind Das: Are Government aware that in the Chhindwara District in C.P. Messrs. Shaw Wallace and Company used to give wheat to the labourers at a concession rate and that has now been practically stopped by that company; and if so may I know what Government are doing in that matter?

The Honourable Shri Jagjivan Ram: My honourable friend discussed the whole question with me day before yesterday and is in possession of all the facts.

Seth Govind Das: I may be in possession of the facts but the whole House may be interested to know the position in that area.

Mr. Speaker: The Honourable Minister may give the position in a short answer.

The Honourable Shri Jagjivan Ram: The wheat concession was withheld by Messrs. Shaw Wallace and Company and Government has already taken up the question with them.

\*1422. [POSTPONED TO BE ANSWERED ON 5TH APRIL, 1949.]

#### REPATRIATION OF REFUGEES FROM KASHMIR

\*1423. Shri H. V. Kamath: Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) the total number of refugees from Kashmir who are at present in various parts of the Indian Union; and

(b) what steps Government propose to take in order to repatriate them?

The Honourable Shri Mohan Lal Saksena: (a) No definite figures are available.

(b) The matter is under consideration.

Shri H. V. Kamath: Is the United Nations Commission for India and Pakistan associating itself in any manner with this task of repatriation of these refugees to Kashmir in view of the fact that this matter is an integral part of the preparations before any plebiscite can be held?

The Honourable Shri Mohan Lal Saksena: The honourable member should put the question to the Prime Minister. My Ministry is only concerned with the running of the Relief Camps, one at Jammu and the other for refugees who are in India.

Shri H. V. Kamath: If the chair holds the question as relevant, Sir, somebody must answer it.

Mr. Speaker: It is no doubt relevant, but it is a supplementary to a question of which the Prime Minister has had no notice.

#### INDIANS IN MAURITIUS, FIJI AND TRINIDAD

\*1424. Shri Brajeshwar Prasad: (a) Will the Honourable the Prime Minister be pleased to state what is the total number of immigrant Indians in (i) Mauritius; (ii) Fiji; and (iii) Trinidad?

(b) Is it a fact that the Government of India are contemplating to withdraw their nationals from the above-mentioned territories?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) Presumably the honourable member wishes to know the figures of Indian population in Mauritius, Fiji and Trinidad. These are 2,65,247; 1,20,063 and 1,95,747 respectively. Of these 2,64,034; 1,01,498 and 1,84,290 were born in the respective territories.

(b) No.

**Seth Govind Das**: Are there any Immigration laws in contemplation even in these three territories—Mauritius, Fiji and Trinidad?

**Dr. B. V. Keskar**: I have not understood what the honourable member means by 'immigration laws'.

**Seth Govind Das**: For stopping further immigration.

**Dr. B. V. Keskar**: I am not aware of any such law.

**Seth Govind Das**: May I take it that there is no restriction as far as emigration to these three territories is concerned?

**Mr. Speaker**: If he is not aware of the legislation how can he say anything?

**Seth Govind Das**: I first asked whether any immigration law was in contemplation in these three territories and then asked whether emigration to these three territories is possible under the present laws.

**Dr. B. V. Keskar**: Emigration is possible though the immigration laws when Indians first went there were not the same as they are today.

#### INVESTMENTS OF SOUTH INDIAN CHETTIARS IN CEYLON, BURMA, MALAYA, SIAM AND INDO-CHINA

\*1425. **Shri Brajeshwar Prasad**: (a) Will the Honourable the Prime Minister be pleased to state what is the total amount of investments of South Indian Chettiars in (i) Ceylon; (ii) Burma; (iii) Malaya; (iv) Siam and (v) Indo-China?

(b) How do the Government of India propose to settle the question of their investments in Burma?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) No reliable information is available. The investments of South Indian Chettiars in Ceylon, Malaya and Indo-China are however estimated to be worth Rs. five crores, Rs. 17 crores and Rs. 2.14 crores respectively. The Chettiars also own about three million acres of paddy land in Burma. They have no investments in Siam.

(b) The Government of India are negotiating with the Government of Burma with a view to securing for the Chettiars equitable compensation for their lands which the Government of Burma propose to take over under the Burma Land Nationalisation Act.

#### VISIT OF M. C. AS TO SOVIET ASIA AND CHINESE TURKISTAN

\*1426. **Shri Brajeshwar Prasad**: Will the Honourable the Prime Minister be pleased to state when members of the Constituent Assembly (Legislative) are going to be sent abroad to visit the lands and peoples of Soviet Asia and Chinese Turkistan?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): The Government have no intention of sending any such Mission.

#### NEPALESE GOODWILL MISSION TO BHUTAN

\*1427. **Shri Ari Bahadur Gurung**: Will the Honourable the Prime Minister be pleased to state whether it is a fact that the Nepal Government have been asked to approach through the Government of India in case they wish to send a Goodwill Mission to Bhutan to investigate the conditions of the Gurkhas there?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): In October 1947 the Government of India were informed that the Nepal Government desired to send an envoy with a letter and presents for the Maharajah of Bhutan.

As the External Affairs of Bhutan are regulated by the Government of India the Charge d' Affaires of Nepal in Delhi was informed that the Government of India would be glad to make their good offices available to both parties with regard to any matter which Nepal wished to take up with Bhutan.

**Shri Ari Bahadur Gurung**: Was it not a fact that the Nepalese Government wanted to send a Goodwill Mission on receipt of representation from the Nepalese subjects in Bhutan consequent on shooting, looting and arson of the Nepalese homes?

**Dr. B. V. Keskar**: No, Sir.

#### CULTURAL ATTACHES TO INDIAN EMBASSIES

\*1428. **Shri Ari Bahadur Gurung**: (a) Will the Honourable the Prime Minister be pleased to state the names of those of our Embassies which have Cultural Attaches on their staff?

(b) What are the special qualifications of these Cultural Attaches?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): A statement is laid on the table of the House.

#### STATEMENT

| Name of Mission                       | Name of Officer         | Qualifications                                                                                                                                                                                                                                                                                                                                               |
|---------------------------------------|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (1) Embassy of India, Moscow          | Dr. H. Ghoshal          | Earned a Doctorate in Russian Literature, was a lecturer in the Warsaw University was Russian Production Officer in the Ministry of Information and Broadcasting. Knows several European and Indian languages.                                                                                                                                               |
| (2) Embassy of India, Kabul.          | Shri G. L. Puri         | B. A. (Punjab); studied at Cambridge, knows Pushtu and a little Persian. Honorary Assistant Secretary, Gandhi Society London and Congress League, London (August 30th November 1934) Joined A. I. V. A. and A. I. S. A. in India and worked in Wardha, Sevagram, etc. returned unopposed a N. W. F. P. Assembly in February 1946 and elected Deputy Speaker. |
| (3) Embassy of India, Rio de Janeiro. | Shri Krishna Kripalani. | For long associated with Dr. Rabindra Nath Tagore at Santiniketan. Editor of Santiniketan Quarterly. Secretary of the All India Congress Committee. A man of high scholarship and standing in literary circles.                                                                                                                                              |

**Seth Govind Das**: Where there are no Cultural Attaches attached to our Embassies is there any proposal of sending some Cultural Attaches to those Embassies?

**Dr. B. V. Keskar**: No, Sir.

**Shri Mahavir Tyagi:** Is the knowledge of Sanskrit and old Indian philosophy and classic Indian literature also part of the qualification for the Cultural Attaches that are sent to foreign countries?

**Dr. B. V. Keskar:** First of all I might inform the honourable member that there is no such grade or cadre as 'Cultural Attache'. We have Cultural Attaches in two or three places only, and qualified persons only were appointed for these posts. At present there is no intention of having any such group or grade called Cultural Attache.

**Shri Mahavir Tyagi:** May I know if it is only the English education that is the basic qualification of such Cultural Attaches or if there are some Indian culture qualifications also needed?

**Dr. B. V. Keskar:** All things and all qualifications are taken into consideration.

**Dr. P. S. Deshmukh:** Will an Agricultural Attache go under the name of a Cultural Attache?

**Mr. Speaker:** Order, order.

**Shri M. Tirumala Rao:** In view of the answer that there are only two or three Embassies to which Cultural Attaches are attached, will the honourable member give us, instead of laying the answer on the table of the House, the qualifications of these two or three people?

**Dr. B. V. Keskar:** That would be reading the whole statement. If the honourable member wants to know more about it I would be very glad to furnish further information.

**Shri Mahavir Tyagi:** Are they required to put on Indian dress?

**Dr. B. V. Keskar:** When necessary.

**Dr. P. S. Deshmukh:** What is the total number of such attaches at the present moment?

**Dr. B. V. Keskar:** I have already stated that there are only three.

#### CHANGE IN THE NOMENCLATURE "BRITISH COMMONWEALTH"

\*1429. **Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) whether the nomenclature "British Commonwealth", has been changed to "The Commonwealth"; and

(b) if so, when?

**The Honourable Shri Jawaharlal Nehru:** (a) and (b). There has been no formal change, so far as Government are aware, to the title of the British Commonwealth, although in practice the title used now is "The Commonwealth". The question was not discussed at all at the meeting of the Dominion Prime Ministers held in London in October last. After that meeting however the Commonwealth was described in the official communiques issued as "The Commonwealth".

**Shri H. V. Kamath:** Is the issue of India's association with this Commonwealth under the active consideration of Government?

**The Honourable Shri Jawaharlal Nehru:** Yes, Sir.

**Shri H. V. Kamath:** Is it a fact that Mr. Anthony Eden, when he was here last week, stated that in his view the older Dominions would not entertain

the idea of any change in the present symbolism of the King of England being the titular head of the Commonwealth and further they would wish to retain the prefix "British" to the Commonwealth?

**The Honourable Shri Jawaharlal Nehru:** I cannot exactly say what Mr. Eden said or wrote on the subject—he may have said that but he did not say that to me.

**Shri H. V. Kamath:** Has the Prime Minister's attention been drawn to the leading article in the *Hindustan Times* of March 24th, 1949, in which it has been mentioned?

**The Honourable Shri Jawaharlal Nehru:** No, Sir.

**Shri Mahavir Tyagi:** Is it a fact that Commonwealth countries have indicated their desire that India should continue her co-operation with the Commonwealth after assuming her new national status in August next?

**The Honourable Shri Jawaharlal Nehru:** Yes, Sir.

**Shri H. V. Kamath:** Is the Prime Minister in a position to assure this House that unless and until not merely the name or title but also the form and content of this so-called Commonwealth are radically altered on a basis of racial equality, fullest political liberty and genuine democracy, free India will not associate with the Commonwealth at all?

**The Honourable Shri Jawaharlal Nehru:** No, Sir. I am prepared to give no such assurances.

**Shri H. V. Kamath:** Why not? What are the reasons?

**Mr. Speaker:** Order, order.

**Dr. P. S. Deshmukh:** If the Commonwealth must survive in some shape or the other and since India is the biggest nation in the Commonwealth, would it be possible for the Honourable the Prime Minister to get it called the Indian Commonwealth?

**Shri Mahavir Tyagi:** From the reply the Honourable the Prime Minister has given to my supplementary, may I conclude that the status of India after August next shall be at par with the status of Ireland in the Commonwealth?

**The Honourable Shri Jawaharlal Nehru:** I do not quite know where the month of August comes into the picture, but the status of India is going to be on a par with the status of any independent country in the world.

**Seth Govind Das:** May I take it that even if there is any relation with the Commonwealth, as proposed, India will remain a sovereign Republic?

**The Honourable Shri Jawaharlal Nehru:** Yes, Sir.

**Shri H. V. Kamath:** Is it the Prime Minister's view that no matter what happens to the form and content of the Commonwealth, India will associate herself with the Commonwealth?

**The Honourable Shri Jawaharlal Nehru:** Nobody can say that. What I said was when you are dealing with other countries and other nations you do not go about giving assurances and guarantees beforehand.

**Shri Brajeshwar Prasad:** Is the Prime Minister aware that a large majority of politically-minded people in India are for closer relations with the British Commonwealth?

**Mr. Speaker:** Order, order.

**Maulana Hasrat Mohani:** Is the Honourable the Prime Minister satisfied that our determination to remain neutral in the matter of formation of

different blocs and also the Western European bloc, is consistent with our demand to remain neutral?

**Mr. Speaker:** How does it arise out of this question?

**Maulana Hasrat Mohani:** It arises out of the question of not remaining in the Commonwealth.

#### DELEGATION TO NEXT SESSION OF GENERAL ASSEMBLY OF U.N.O.

**\*1430, Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) whether the personnel of our delegation to the next session of the General Assembly of the United Nations has been settled; and

(b) if so, the names of the members of the delegation?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) Yes.

(b) The names of the members to the adjourned meeting of 3rd session of the General Assembly to be held in New York on 5th April, 1949 were announced in a Press Note issued by the Government on 16th March 1949. This appeared in the local press the following day.

The members are:

##### *Representatives*

1. Mr. M. C. Setalvad (Leader).
2. Sardar H. S. Malik, High Commissioner for India in Canada.
3. Mr. B. Shiva Rao, Member, Constituent Assembly of India.
4. Shrimati Renuka Ray, Member, Constituent Assembly of India.

##### *Alternate Representatives*

5. Mr. R. R. Saksena, Consul General for India in New York.
6. Mr. C. S. Jha, Joint Secretary, Ministry of External Affairs,  
(Mr. Jha will also act as Secretary-General of the Delegation).

##### *Public Relations Officer*

7. Col. Unni Nayar, Public Relations Officer, Embassy of India, Washington.

##### *Adviser Secretary*

8. Mr. M. Gopala Menon, Secretary to the Permanent Indian Delegation in New York.

##### *Secretary*

9. Mr. B. N. Nanda, Under Secretary, Ministry of External Affairs.

**Shri H. V. Kamath:** Among the Members or Advisers of the delegation which is going to the United Nations next month, is there any person who has played an active role in the national freedom movement during the last thirty years?

**Dr. B. V. Keskar:** I do not know the life-history of all the Members who are going out.

**Shri H. V. Kamath:** Among the Members of the previous delegations which have gone to the United Nations in the past 18 months, was there any member, apart from Mrs. Pandit, who had played such an active role in the freedom struggle?

**Dr. B. V. Keskar:** I have not looked into the list of all delegations which we have sent up to now to the United Nations, but Government when choosing delegates looks to all the qualifications and competence and sends those who will represent us best at the meeting of the United Nations.

**Shri K. Hanumanthaiya:** Does the leader of the delegation hold any representative capacity in Indian public life?

**Dr. B. V. Keskar:** It all depends on how you consider it—whether it is political life, Congress life or Government life.

**Shri H. V. Kamath:** Is it Government's view that the freedom fighters' ranks are so bankrupt that they cannot provide any members?

**Mr. Speaker:** Order, order. It is a question of opinion.

**Shri Mahavir Tyagi:** In view of the ignorance expressed by my honourable friend with regard to the lives of the delegates may I know what are the criteria on which such delegations are appointed?

**Dr. B. V. Keskar:** I told the House it is competence to represent us best and express the views of the Government of India in the best possible way.

**Shri H. V. Kamath:** Will Mrs. Pandit, when she goes to America as Ambassador, join this delegation next month?

**Dr. B. V. Keskar:** I do not think so, but it is possible that when the South African question comes up she might temporarily join the delegation for a few days.

**Shri H. V. Kamath:** Is it a fact that a Member or Adviser of the delegation which went to Paris last November was prematurely recalled?

**Dr. B. V. Keskar:** I am not aware but it is possible.

#### RECOGNITION TO INDIAN GOVERNMENT PRESS EMPLOYEES ASSOCIATION, CALCUTTA

**\*1431, Shri Harihar Nath Shastri:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) whether recognition has been accorded to the Indian Government Press Employees Association, Calcutta; and

(b) If not, why not?

**The Honourable Shri N. V. Gadgil:** (a) No.

(b) Separate rules govern the question of official recognition of Associations of Industrial and non-industrial workers and an association has to confine its membership to one particular category. As membership of the India Government Press Employees Association is open to both industrial and non-industrial workers, the Association has been asked to bring its constitution in conformity with the rules before recognition can be granted to it.

**Shri Harihar Nath Shastri:** Is the Honourable Minister aware that the policy of his Ministry in regard to the recognition of Trade Unions is contradictory to the policy followed by the other Ministries including Railways and Communications, where trade unions combine in them both manual and clerical labour and such unions are recognised by the Central Government?

**The Honourable Shri N. V. Gadgil:** Inasmuch as the question is of a general character, I propose to the honourable member to discuss that with me. But, the experience of this Ministry has been that if each category has a separate union, it is more conducive to peaceful work in the Ministry. If both the categories are combined in one Union, I presume, there would be

**The Honourable Sardar Vallabhbhai Patel:** (a) Cutch is governed as a Centrally Administered area and the present intention of Government is that this arrangement should continue for the time being.

(b) A representative Advisory Council is being constituted for Cutch.

#### SETTLEMENT OF REFUGEES IN ANDAMAN AND NICOBAR ISLANDS

\*469. **Prof. N. G. Ranga:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) whether Government have decided to settle refugees in the Andaman and Nicobar Islands;

(b) if so, how many have been sent and how many are proposed to be sent;

(c) whether any expert survey has been made of the agricultural and industrial potential of the Islands;

(d) whether Government are aware of the scarcity of drinking water on the islands;

(e) what arrangements (sanitary, public health, food supplies, etc.) are being made to provide social amenities for the new settlers;

(f) what financial or other assistance is proposed to be given to the new settlers; and

(g) how many old settlers there are on the Islands and what facilities are being provided for them by way of allotment of land, giving of credit and introduction of sanitary and public health measures?

**The Honourable Sardar Vallabhbhai Patel:** (a), (b), (e) and (f). Government consider that an expert examination is necessary before any scheme of colonisation and development can be considered. Steps have been taken already to send out an expert party to the Islands and Government will examine the whole question after the report of this party has been received. In the meanwhile arrangements are being made for a small number of refugees to be settled on lands that are already vacant in the settled area.

(c) Agricultural, Salt, Horticulture and Fisheries Surveys have been carried out.

(d) No.

(g) The number of old settlers in the Andamans is estimated to be about 12,000. There are no old settlers in the Nicobars.

The land is allotted in accordance with the provisions of the Andaman and Nicobar Islands Land Tenure Regulations. In the first instance land is given on non-occupancy right and the occupancy right which is transferable, accrues after five years of cultivation. Facilities for *taqavi* loans are available.

There are four hospitals and five dispensaries in the Andaman and Nicobar Islands and a Public Health Officer has been appointed to look after the health of the people.

**Shri Brajeshwar Prasad:** May I know the total number of aborigines in the Andamans?

**The Honourable Sardar Vallabhbhai Patel:** About 4,000.

**Shri Upendranath Barman:** May I know the number of people that have been already sent or are proposed to be sent in the near future?

**The Honourable Sardar Vallabhbhai Patel:** It is not possible for me to say how many will be sent. A very small number it is proposed to send in the first instance.

**Shri Brajeshwar Prasad:** What is the total number of the islands of Andamans and Nicobars?

**The Honourable Sardar Vallabhbhai Patel:** Andamans and Nicobars are two, islands.

**Shri H. V. Kamath:** Is there any proposal before the Honourable Minister to utilise the Andaman and Nicobar islands as a naval base?

**The Honourable Sardar Vallabhbhai Patel:** At present there is no such proposal. If there is any such proposal it will be with the Defence Department. I am not aware of it.

**Shri H. V. Kamath:** Is there any proposal to change the names of these islands?

**Mr. Speaker:** That does not arise out of this question.

#### MAGAZINES PUBLISHED IN ENGLISH AND INDIAN LANGUAGES

\*470. **Dr. Raghu Vira:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state what magazines are being published in English, Hindi, Urdu and other Indian languages by Government's Publicity Department?

(b) What is the amount spent on the Hindi and Urdu magazines respectively?

(c) What is the number of subscribers for the Hindi and Urdu magazines respectively?

(d) What is the number of copies circulated free?

**The Honourable Shri R. B. Diwakar:** (a) to (d). Two statements are laid on the table of the House.

#### STATEMENT I

## CONFIRMATION OF STAFF OF GOVERNMENT OPIUM FACTORY, NEEMUCH

\*471. **Shri Sita Ram S. Jajoo:** (a) Will the Honourable Minister of Finance be pleased to state whether it is a fact that most of the staff of the Government Opium Factory at Neemuch is on temporary basis, though they have been serving there for more than a decade?

(b) If so, what is the policy of Government regarding their confirmation?

**The Honourable Dr. John Matthai:** (a) Yes.

(b) The future of the Neemuch Opium Factory is under consideration and till a decision is reached on the matter, it will not be possible to confirm the temporary staff.

## ADMINISTRATION OF INTEGRATED C.P. STATES

\*472. **Shri R. L. Malviya:** (a) Will the Honourable Minister of States be pleased to state whether Government have issued any directions to the Government of the Central Provinces and Berar with regard to the governance of the integrated Central Provinces States?

(b) If so, what are the contents of those directions?

**The Honourable Sardar Vallabhbhai Patel:** (a) The honourable member is presumably referring to the directions to be issued under section 290A of the Government of India Act. Orders under that section are being drafted in consultation with the Provincial Government.

(b) Does not arise.

**Shri R. L. Malviya:** May I know how long it will take to draft the order?

**The Honourable Sardar Vallabhbhai Patel:** Well, it is difficult to say how long. But we shall try to expedite it.

**Shri R. L. Malviya:** Will the representatives of the Chattisgarh States be consulted?

**The Honourable Sardar Vallabhbhai Patel:** I do not think it is necessary in respect of drafting the order.

**Mr. Speaker:** The question hour is over.

## (b) WRITTEN ANSWERS

## EXPENDITURE OF CASH FOUND IN TREASURIES OF MARGED C. P. STATES

\*473. **Shri R. L. Malviya:** (a) Will the Honourable Minister of States be pleased to state whether at the time of the agreement for merger of the Central Provinces States with the Central Provinces any understanding was arrived at between the Government of India and the Rulers of the States, more particularly with the Ruler of Korea, that the cash found in the treasuries of the States and more particularly in Korea, would be spent for development in the respective States?

(b) What was the total amount found in the treasuries of the States at the time of taking over charge?

**The Honourable Sardar Vallabhbhai Patel:** (a) It was agreed at the time of merger that the accumulated balances of the States should, as far as possible, be spent on the welfare of the States people concerned. No assurance however was given to the Ruler of Korea in particular.

(b) I invite the attention of the honourable member to my reply to Shri Kishorimohan Tripathi's question No. 250 answered on the 9th February 1949. The information is still awaited.

## VISIT OF Reuters MISSION TO INDIA

\*474. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state whether it is a fact that a mission called the 'Reuters Mission' is coming to India?

(b) If so, what is the purpose of the mission?

(c) Have Government anything to do with this mission and if so, what?

**The Honourable Shri R. R. Diwakar:** (a) and (b). Government have no information about the mission, but understand that it is in connection with an agreement which has been reached between Reuters and the Press Trust of India.

(c) No.

## PRESS TRUST OF INDIA, LIMITED

\*475. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state the dates on which the Press Trust of India, Limited was formed and registered?

(b) Who are its promoters and directors?

(c) How is the Trust financed and by whom?

(d) Have Government contributed anything and if so, how much?

(e) Have Government agreed to grant any concessions and privileges to this Trust?

(f) Have the Trust appointed any Managing Agents or Directors and if so, who are they?

**The Honourable Shri R. R. Diwakar:** (a) August 27, 1947, according to the Memorandum of the Association filed by the Company.

(b) and (c). The information is contained in the Memorandum of Association of the Press Trust of India Limited.

(d) and (e). No.

(f) Government have no information.

## REPORT OF REVIEWING COMMITTEE OF INDIAN SCIENCE INSTITUTE, BANGALORE

\*476. **Dr. P. S. Deshmukh:** Will the Honourable Minister of Education be pleased to state:

(a) whether Government have received the report of the Reviewing Committee of the Indian Science Institute, Bangalore?

(b) if so, whether Government have taken any decision on the recommendation of the committee;

(c) what these decisions are;

(d) who the members of the Reviewing Committee were; and

(e) whether Government propose to place a copy of the report on the table of the House?

**The Honourable Maulana Abul Kalam Azad:** (a) The report has been submitted to His Excellency the Governor-General in his capacity as the Visitor of the Institute.

(b) No.

(c) Does not arise.

(d) (1) Sir Alfred Egerton, Secretary, Royal Society, London—Chairman.

Sir Ben Lockspeiser, Chief Scientist, Ministry of Supply, London and

(3) Dr. J. N. Mukherjee, Director of Indian Agricultural Research Institute, New Delhi } Members

(e) A copy of the Report will be placed on the table of the House, if so desired, after it is published.

#### SETTLEMENT OF REFUGEES IN ANDAMAN AND NICOBAR ISLANDS AND

**\*477. Shri O. V. Alagesan:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether the delegation sent to the Andamans to investigate the possibility of settling the refugees in the Andaman and Nicobar Islands have submitted their report to Government?

(b) If so, what steps have been taken by Government for implementing the recommendations contained in the report?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes.

(b) I would refer the honourable member to the reply given by me to-day to parts (a), (b), (e) and (f) of starred question No. 469.

#### CIVIL AND MILITARY STORES SUPPLIED TO GOVERNMENT OF JAMMU AND KASHMIR

**\*478. Prof. K. T. Shah:** (a) Will the Honourable Minister of States be pleased to state what is the value of the Civil or Military Stores supplied to the Government of Jammu and Kashmir?

(b) Were any tenders invited for the supply of such stores and other requirements of the Government of Jammu and Kashmir sent from this country?

(c) Has any payment been made by the State Government for any such stores supplied by the Government of India?

(d) What measures, if any are adopted to recover the amount outstanding on account of stores supplied to the Government of Jammu and Kashmir?

**The Honourable Sardar Vallabhbhai Patel:** (a) Civil Stores of the value of about Rs. 1,24,78,500 have been supplied by the Government of India to the Jammu and Kashmir Government. Small quantities of Military Stores have been supplied for which payment was recovered directly by the Military authorities.

(b) In some cases tenders were called for. In others orders were placed on approved firms at the approved rates against existing rate contracts, or were supplied from Disposals. Occasionally, when the demands were very urgent

either direct purchases were made, or supplies were arranged from Government of India stocks.

(c) and (d). Of this amount, Rs. 7,62,600 is the cost of stores supplied on "Aid to Kashmir" which is to be treated as a loan to the State. Of the balance of Rs. 1,17,05,900, including supplies of foodgrains and salt, Rs. 19,42,100 has been recovered from the State and the remainder is in the process of recovery.

#### SHORT NOTICE QUESTION AND ANSWER

##### BORDER RAIDS FROM PAKISTAN IN JODHPUR STATE

**Ch. Ranbir Singh:** (a) Will the Honourable Minister of States be pleased to state whether Government are aware of the fact that during the last fortnight two *kisans* have been murdered and nine *hamlets* in village 'Chirduri' Tehsil 'Bilara', the whole village of 'Bhadwase' of Tehsil 'Merta' and some 'Dhanies' of village 'Derasae' of Jodhpur State on the Pakistan border have been looted and burnt?

(b) If the answer to part (a) above is in the affirmative, what steps Government propose to take to check such incidents?

**The Honourable Sardar Vallabhbhai Patel:** (a) The question implies that these alleged incidents are in the nature of border raids. This is not so. The Jodhpur Government have informed the Government of India that on the 7th February one Kalyan Singh along with other dacoits murdered two Raikas (shepherds) in village Chirduri and burnt their 'Dhanies'. This is believed to be the outcome of a private feud. The Jodhpur Police have so far not been able to trace the murderers though efforts to apprehend them are being continued. No dacoity was committed and the accused did not take away any property belonging to the Raikas. On the 8th February a dacoity was committed in village Bhadwai when fifteen houses were looted. Information of the occurrence was received by the Jodhpur Police 24 hours after the occurrence and it is suspected that a gang of bad characters of Marwar and Bikaner State is responsible for this. Special police parties have been deputed for the apprehension of the accused. As regards the third incident information received by the police that six armed dacoits were looting the 'Dhani' of one villager was found on investigation to be highly exaggerated. It was not a case of dacoity and the complaint was the outcome of illfeeling between two parties in the locality.

(b) Does not arise.

# CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES

## (PART I— QUESTIONS AND ANSWERS)

*Friday, 18th February, 1949.*

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS

#### (a) ORAL ANSWERS

#### DEVELOPMENT OF SANTA CRUZ AIRPORT

\*479. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state whether any decision has been taken by Government to develop the Santa Cruz Airport as the main airport of India?

(b) If so, what are the special features of the scheme and what is the total cost estimated? When is the work likely to be started and when will it be completed?

(c) Will the proposed airport provide a weather forecast station for all India on the same line as Karachi aerodrome?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) The Government of India propose to develop Santa Cruz as one of the International airports in India.

(b) The development plans of the airport envisage *inter alia* the construction of terminal buildings, a Regional Meteorological office, hangars, workshops, residential quarters, Communication buildings, an Isolation Hospital and the extension and strengthening of runways. The work has already been started and is expected to be completed within a period of five years. It is estimated that the cost of the project will be approximately rupees four crores.

(c) A weather forecasting station of the same type as exists at Karachi is already functioning at Santa Cruz.

**Shri R. K. Sidhva:** May I know, Sir, whether the original estimates were seven crores, whether a conference of Air Liner representatives met at Bombay and expressed the view that since Bombay would be the first port of contact for foreigners with India, the buildings which would be constructed there should be sufficiently attractive and decorative and may I know whether that point has been borne in mind or whether the reduction from seven to four crores will remove that facility?

**Shri Khurshed Lal:** The revised estimates will provide all the necessary facilities and the necessary architectural beauty.

#### FORCED LANDING OF AN AEROPLANE AT AMBALA

\*480. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to refer to the answer to my short notice question asked on the 4th September, 1948 regarding the forced landing of an aeroplane at Ambala and state what is the result of the enquiry?

(b) What was the time when the plane took off from Delhi aerodrome and what was the time when the wireless message was sent from the plane, that the plane would have to do forced landing due to shortage of fuel?

(c) What was the actual time of the forced landing?

(d) What is the capacity of all the tanks in the plane including the reserve tanks?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) The enquiry has shown that the aircraft made a forced landing due to shortage of fuel. The Ground Engineer, who had been made responsible for refuelling the aircraft, was found negligent in the discharge of his duties and his licence has been suspended for a period of six months.

(b) The plane took off from Delhi aerodrome at 15-10 hours I.S.T. approximately. On detection of shortage of fuel, a radio message was sent from the plane at 15-48 hours I.S.T.

(c) 16-20 hours I.S.T.

(d) 670 gallons.

**Shri R. K. Sidhva:** Who was responsible, I could not follow?

**Shri Khurshed Lal:** The Ground Engineer.

**Shri R. K. Sidhva:** This being a very serious matter, have the Government taken steps to see that in the future tanks will be filled up and proper supervision will be made before a plane is allowed to start?

**Shri Khurshed Lal:** There are rules which provide for proper supervision. In this case, there was gross negligence and steps were taken to punish the offender.

**Shri R. K. Sidhva:** In view of the seriousness of what has happened, do the Government feel that six months suspension is sufficient punishment?

**Mr. Speaker:** That is a matter of opinion.

**Shri R. K. Sidhva:** May I know whether the Government consider this matter to be serious, being a matter involving a question of life?

**Mr. Speaker:** It is also a question of opinion.

**Mr. Frank Anthony:** In view of the fact that some air lines are closing down, are running at a loss and are retrenching staff, what steps are Government taking to ensure that the rules with regard to highest standards of maintenance are, in fact, being observed?

**Shri Khurshed Lal:** The rules are being observed. There are officers to see that all possible precautions are taken and the rules enforced. There has been no complaint so far.

**Shri H. V. Kamath:** May I know, Sir, whether there were any casualties, dead or injured, in this accident?

**Shri Khurshed Lal:** No.

**Shri H. V. Kamath:** Not even injured?

**Shri Khurshed Lal:** No.

#### MANUFACTURE OF POWER ALCOHOL FROM MOLASSES AND SYNTHETIC PETROL FROM COAL

\*481. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether, as stated in the last session, Government have convened a conference of experts for the manufacture of petroleum from power alcohol and coal?

(b) Has any expert been invited from any foreign country and if so, with what result?

(c) What is the quantity of molasses produced in India?

(d) Is this quantity sufficient to meet the total requirements of alcohol in India?

(e) What is the total production capacity of distilleries in India?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The honourable member presumably refers to the manufacture of power alcohol from molasses and synthetic petrol from coal. No conference of experts for the purpose has been convened. Meetings were, however, held with (i) the representatives of some of the Provincial Governments and oil companies with regard to the question of admixture of power alcohol with petrol and (ii) some foreign technicians, who were invited to examine the possibilities of the manufacture of synthetic oil from coal.

(b) No experts have been invited from any foreign country for advising on the question of power alcohol. Some experts were, however, invited from the U.S.A. and Germany to advise on the scheme for the production of synthetic petrol.

(c) The quantity of molasses produced in India is estimated at four lakhs tons per annum.

(d) It is sufficient for the existing capacity of the distilleries.

(e) About eighteen million gallons annually.

**Shri R. K. Sidhva:** Is it a fact that the Government have taken steps to step up sugar plantation by 1.6 million tons so as to get the additional 1.30 tons, so as to make it self sufficient? Is it a fact?

**The Honourable Dr. Syama Prasad Mookerjee:** The honourable member is himself supplying all the information.

**Shri R. K. Sidhva:** I want to know from the Government whether the information I have got is a fact or not. You may say yes or no.

**The Honourable Dr. Syama Prasad Mookerjee:** The production target of sugar has been raised to 16 lakhs tons and this is expected to increase the quantity of molasses to 4,50,000 tons per annum.

**Shri B. Das:** May I know at what stage the project for the manufacture of petrol from coal is, and whether the Honourable Minister is going to start a factory during the year 1949-50?

**The Honourable Dr. Syama Prasad Mookerjee:** We have got a preliminary report and we have called for certain detailed information. The House will remember, Sir, that at one stage we thought of having a report for the production of one million tons of petrol. We have now asked for a detailed report on a more modest basis for the production of 100,000 tons of which 76,000 tons will be aviation oil and the rest will be petrol. It is expected that the report will be in our hands by the end of March 1949.

**Dr. P. S. Deshmukh:** Is the Honourable Minister aware that the policy of prohibition in the Bombay presidency is obstructing the manufacture of power alcohol?

**Mr. Speaker:** I am not allowing that question.

**Dr. P. S. Deshmukh:** I am seeking information, Sir?

**Mr. Speaker:** He is not seeking information.

**Shri R. K. Sidhva:** Arising out of part (b), the Honourable Minister stated that no foreign experts were invited from foreign countries, but some advice has been taken from foreigners. May I know whether any advice was taken from any foreigner from the U.S.A. in India?

**The Honourable Dr. Syama Prasad Mookerjee:** I have no information as to who were the foreigners who gave advice on power alcohol. I do not think we invited anybody for this purpose.

**Shri R. K. Sidhva:** You have stated that advice has been taken from U.S.A. experts.

**The Honourable Dr. Syama Prasad Mookerjee:** The honourable member has made a confusion. I said foreign experts came here to advise us on the production of synthetic petrol from coal and not on the question of power alcohol.

**Shri B. P. Jhunjhunwala:** What is the total quantity of alcohol produced in India? When is the target going to be realised? Has the Government got any scheme regarding the time by which the target production of alcohol is going to be realised?

**The Honourable Dr. Syama Prasad Mookerjee:** We are producing about 8.45 million gallons of alcohol of which about four million gallons will be power alcohol. We expect to reach the target by 1951.

**Shri Mohan Lal Gautam:** What is the policy of the Government of India regarding the manufacture of power alcohol, whether to concentrate it in some factories or to start factories in each of the sugar factories?

**The Honourable Dr. Syama Prasad Mookerjee:** We would naturally like them to be associated as near the sugar factories as possible. We have to bear in mind the question of transport also.

**Shri H. V. Kamath:** Is there any reason to fear that our present share of the world's total production of petrol will be decreased in the near future?

**The Honourable Dr. Syama Prasad Mookerjee:** I have no information.

#### REPAIR OF RAILWAY ENGINES

**\*482. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to refer to the answer given to my Starred question No. 104, asked on the 11th August, 1948 regarding the number of railway engines handed over to Pakistan and state how many of the 1,476 engines which could be repaired have actually been repaired and when the rest are likely to be repaired?

(b) What is the position of the 1,476 unserviceable engines and the 249 condemned engines?

(c) Are they to be disposed of and if so, by what process?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) and (b). Out of the total number of engines on the railways a certain percentage is always under or awaiting repairs. The figure of 1,476 engines which was quoted in reply to starred question No. 104 on the 11th of August 1948, represented this number as on 31st March, 1948. The average number of such engines during October, 1948 was 1,500.

A normal figure for engines under repair would be about 1,100 of all gauges. Special measures are under consideration to reduce the present inflated figures to normal proportions and these should take effect within twelve months.

Of the 249 condemned engines 8 have been cut up and the balance have yet to be cut up.

(c) Condemned engines are normally cut up in Railway Workshops. Such locomotives are also offered for sale to private firms or Non-Government Railways on request from them. The sale price is based upon a fixed formula.

**Shri R. K. Sidhva:** May I know whether quotations were invited or were tenders invited for these scrap engines?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I have no definite information about it. But the sale price is based upon a fixed formula, very much algebric in character. If the honourable member would like me to read that formula I can?

**Mr. Frank Anthony:** Has Government's attention been drawn to a statement in a weekly recently, that 300 engines are lying unused, because after they were imported from America it was discovered that they were useless for use on Indian tracks?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think it was mentioned in a newspaper.

**Mr. Frank Anthony:** Is it a fact?

**The Honourable Shri N. Gopalaswami Ayyangar:** Usually we do not attach much value to statements in that paper!

**Shri Mahavir Tyagi:** Were the engines, which the Honourable Minister just now said stood condemned, condemned because they had gone out of order, or were they condemned because they have spent up the life which has been prescribed for an engine to work?

**The Honourable Shri N. Gopalaswami Ayyangar:** Condemned generally means that they are unfit for further use; not necessarily that they have spent their life out!

**Shri S. Nagappa:** Arising out of the answer to part (c), may I ask the Honourable Minister whether there is any scheme to remould these condemned engines?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not think that when an engine is cut up it can be remoulded!

**Seth Govind Das:** Are the engines, to which my honourable friend, Mr. Anthony referred, being used or is it only a newspaper canard that they have been proved to be useless?

**Mr. Speaker:** Order, order. The question does not arise in view of the answer given.

**Shri Biswanath Das:** I want to know whether the facts stated by Mr. Anthony regarding the newspaper report are correct, namely, whether the fact that the engines are lying useless is true?

#### *Ruling re Putting of Questions on Newspaper Reports*

**Mr. Speaker:** Order, order. I would like to clarify one point here to honourable members. It has been a frequent practice here in this House—a long standing one—to put questions merely on newspaper reports. I would like to make it clear to them that this is not the practice which is followed in the House of Commons, and for a very good reason. It is the responsibility of members first to ascertain the facts—the facts can be ascertained by writing to the newspaper editor, to the newspaper that publishes it, or to the Ministry concerned by private communication—and then to table a question. I am going to follow the policy of discouraging all questions based on merely newspaper reports. Therefore, honourable members may remember that and put further questions accordingly.

In this particular case, the Honourable Minister has said that they do not attach much value, not only to newspaper reports generally, but to this particular paper in which the news was published. So no further questions should be based on that.

I cannot explain the whole position just now. I have just given members a hint as to the lines on which this House should now proceed. As this House claims to be a sovereign body, with greater responsibilities, there must be a little change over now, with the assumption of those responsibilities and the putting of questions on mere newspaper reports.

**Prof. N. G. Ranga:** May I suggest that every day one new ruling is being given by you in regard to this procedure and then thereafter we are not given

an opportunity of discussing whether we agree with it or whether it is right or wrong. Therefore, it would be a good thing to give this House an opportunity of discussing this matter at some length.

**Mr. Speaker:** I do not think there is any point of order there.

**Prof. N. G. Ranga:** I did not raise any point of order.

**Mr. Speaker:** But the rulings of the Chair will not be open to further discussion once they are given. I am pointing out to members what is passing in my mind and what I think is essential in the interests of the better conduct of the proceedings in this House. If any member chooses to differ, he has every right to come to me in my Chamber, have a discussion, try to understand my mind fully, either convince me or get convinced, and if he is not convinced, and if I am also not convinced, I need not say that my view will prevail so long as I am here.

**Shri Mahavir Tyagi:** In regard to these condemned engines, may I know if they are sent to the lumber only because they have finished their span of life, and that before sending them away as condemned was a report submitted by the Mechanical Engineer?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think it is a rule that before an engine is condemned the orders of the Railway Board are taken.

**Shri Mahavir Tyagi:** Is it inspected by the mechanical engineer and certified by him to be condemned?

**The Honourable Shri N. Gopalaswami Ayyangar:** The Railway Board can pass orders only upon a technical officer's report.

**Shri R. K. Sidhva:** My question was with regard to the 1,476 engines and I wanted to know how many were repaired from the last time that the Honourable Minister gave a reply that 1,476 engines were under repairs and how many were on the lines today out of this number?

**The Honourable Shri N. Gopalaswami Ayyangar:** I have a detailed statement here. It is not confined to the 1,476 engines alone. If the honourable member is interested in it I can pass the information on to him.

#### SMUGGLING OF GOODS BY RAILWAY OFFICIALS

\*483. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the attention of Government has been drawn from time to time by the Government of the United Provinces of the smuggling of goods by Railway officials?

(b) Has the attention of Government been drawn to a news which appeared in the *National Herald*, dated 6th January, 1948, stating that the Divisional Railway authorities refused to co-operate with the District Magistrate of Dehra Dun in his drive against corruption?

(c) Is it a fact that specific instances of pilferage and other acts of corruption have been given by public persons and if so, have any steps been taken to check them?

**The Honourable Shri K. Santhanam:** (a) It is not a fact that the attention of Government had been drawn from time to time or at any time by the Government of U. P. alleging smuggling of goods by railway officials.

(b) Government are informed that there was no issue of the *National Herald* on the 6th January, 1948.

(c) Yes, and each specific instance brought to notice has been made the subject of investigation and appropriate action taken where merited.

**Shri R. K. Sidhva:** May I know whether it is a fact that in the *National Herald* of Dehra Dun, of January 5th, the following information appeared:

"Local and Divisional authorities....."

**Mr. Speaker:** Order, order. The Honourable Minister has stated that there was no issue of the 6th. The honourable member is now referring to the issue of the 5th. It is better if he verifies it.

**Shri R. K. Sidhva:** The fact remains that the information conveyed is correct.

**Mr. Speaker:** Whatever it may be, he may verify the information and then put in a question.

**Shri R. K. Sidhva:** I made enquiries and I am told this appeared in the papers. Whether it is the 6th or the 5th I am not in a position to say.

**Mr. Speaker:** Has he verified from the editor of the paper or from the paper itself about the correctness of the information and the source of the information?

**Shri R. K. Sidhva:** I made enquiries from the parties concerned and they have written a letter to the effect that it is correct.

**Mr. Speaker:** What is the information that he wants?

**Shri R. K. Sidhva:** This news appeared in the paper and it has been verified. It reads:

"Local and Divisional authorities are reported to have refused to co-operate with the District Magistrate, Mr. B. D. Sanwal, in his drive against corruption. Three bags of salt belonging to the Doon Salt Syndicate, Dehra Dun were lying unrecorded in the railway goods office. The District Magistrate sent for relevant records of goods office, but the station master refused to comply with the instruction. The Divisional Superintendent of railways, Moradabad, too refused to take action on Mr. Sanwal's representation to stay the transfer of some members of the goods office staff who were wanted by the authorities in connection with some investigation into corruption."

May I know whether this is a fact?

**The Honourable Shri K. Santhanam:** As the member had asked a question about the paper of the 6th January, we looked up that issue and could get no information. We could not imagine that this information could be in the issue of the 5th January. So if he would put in a question about the issue of the 5th January, I could answer it.

**Mr. Frank Anthony:** Will the Honourable Minister tell us, approximately how much was paid as compensation by the railway administration in 1948-49 for goods pilfered, damaged or destroyed in transit?

**Mr. Speaker:** I am afraid such a general question will not arise out of this.

**Mr. Frank Anthony:** The Honourable Minister can at least answer regarding compensation paid in respect of cases of pilferage.

**Mr. Speaker:** The honourable member wants to know the amount?

**Mr. Frank Anthony:** The approximate amount: whether it is in crores or otherwise.

**The Honourable Shri K. Santhanam:** I require notice of that.

**Shri M. Tirumala Rao:** With regard to part (c) of the question, are Government aware that motor cars loaded in trucks and attached to passenger trains are seriously tampered with and important parts of the motor cars are removed by the time they arrive at their destination?

**Mr. Speaker:** This is giving information.

**Shri M. Tirumala Rao:** I want to know what action Government is taking in the matter?

**Shri Deshbandhu Gupta:** Sir, with regard to the direction that you have given that members should refer to the editors to find out the source of the information, may I submit that no editor will divulge the source of his information,

conflict of interest between the several sections, manual workers and non-industrial employees. It is for the honourable member to say whether the rules prevalent in my Ministry are not in the interests of the workers themselves.

**Shri Harihar Nath Shastri:** Has the India Government Press Employees Association made any representation to the Government to reconsider the said decision and requested that the Union should be allowed to enrol members from all the categories?

**The Honourable Shri N. V. Gadgil:** A representation has been received and the reply given to the representation is contained in answer to part (b) of the question.

#### RESETTLEMENT OF REFUGEES IN THEIR ORIGINAL HOMES

\*1432. **Shri Ajit Prasad Jain:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) whether it was decided in the Indo-Pakistan Conference held on 26th and 27th February, 1949 that the displaced persons should be resettled in their original homes;

(b) how it is proposed to implement this scheme;

(c) whether this decision affects the schemes of relief and rehabilitation in India; and

(d) if the answer to part (c) above be in the affirmative, how and to what extent the said schemes are affected.

**The Honourable Shri Mohan Lal Saksena:** (a) to (d). Government understand that a conference attended by certain persons belonging to India and Pakistan was held on the 26th and 27th February, 1949. This conference was not held at the instance of the Government. The resolutions passed at the Conference do not affect Government schemes for relief and rehabilitation of displaced persons in India.

#### IMPLEMENTING THE PROVISIONS OF EMPLOYEES STATE INSURANCE ACT

\*1433. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Labour be pleased to state what has been done by the Government of India so far to persuade the Provincial Governments to enforce the State Insurance and by which date the Provincial Governments are expected to enforce the same within their respective jurisdictions?

(b) What steps have been taken by the Government of India so far to implement the provisions of this Act in the Chief Commissioners' Provinces of Delhi and Ajmer-Merwara, and by which date is the scheme incorporated in the Act likely to work in these areas?

(c) Has any machinery been set up or is any proposed to be set up in these areas to enforce the provisions of this Act and if so, when and what is the machinery?

**The Honourable Shri Jagjivan Ram:** (a) Chapters I, II, III and VIII of the Employees' State Insurance Act, 1918 were brought into force with effect from the 1st September, 1948. Necessary steps for bringing into force the remaining Chapters are being taken in consultation with the Provincial Governments. The provisions of the Act relating to contributions and benefits cannot, however, be brought into force until arrangements have been made for providing medical treatment to insured persons. These arrangements have

to be made by the Provincial Governments under section 58. The Provincial Health and Labour Ministers have already been requested to ensure early completion of the survey of the existing medical facilities in their Provinces and of the arrangements which may be necessary to bring them to the standard contemplated under the Act. The dates by which Provincial Governments will complete the arrangements necessary for the enforcement of the Act cannot yet be indicated with precision.

(b) So far as the Chief Commissioners' Provinces of Delhi and Ajmer-Merwara are concerned, the Government of India intend to introduce the scheme in these areas in anticipation of its introduction in the rest of the country. The survey of the concentration of industrial workers in Delhi has been completed. In view of the acute shortage of accommodation in all the industrial areas at present, the acquisition of buildings for the dispensaries which will have to be set up by the Chief Commissioners and for the local offices which must be established by the Corporation may take a little time but steps in this direction are being taken. The Corporation is also taking steps to sanction and recruit the staff necessary for the introduction of the Scheme. Regulations under the Act are being drawn up. It is intended to introduce this scheme as soon as all these preliminary steps have been taken.

(c) Local offices where cash benefits will be administered will have to be set up in Delhi and Ajmer-Merwara before the scheme can be introduced in those areas. In addition, a small regional office will also be required. Steps to set up this office are being taken. The office will be set up as soon as arrangements for providing medical care have been completed, the regulations have been framed and the necessary accommodation obtained.

#### REVISION OF RULES FOR ALLOTMENT OF GOVERNMENT QUARTERS IN DELHI

\*1434. **Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Works, Mines and Power be pleased to state whether the rules for allotment of Government quarters in New Delhi and Delhi are being revised with effect from 1st April, 1949 so as to change the pay groups for different types of quarters?

**The Honourable Shri N. V. Gadgil:** Yes.

#### CONSTRUCTION OF ADDITIONAL ROOMS IN M. C. A. QUARTERS

\*1435. **Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that additional rooms are being constructed in the M.C.A. quarters in Delhi?

(b) What is the estimated additional cost for this construction?

(c) What is the number of houses for which this additional construction is proposed to be done?

(d) Is this additional construction meant exclusively for the M.C.A. quarters or for all Government bungalows?

**The Honourable Shri N. V. Gadgil:** (a) to (d). Recently the Accommodation Sub-Committee of the Constituent Assembly of India suggested that additional rooms might be built in the M.L.A. bungalows on Ferozeshah Road, Canning Lane and Electric Lane and the Chief Engineer, Central Public Works Department, has been asked to examine the suggestion and submit a report, together with an estimate. The proposal is in respect of M.L.A. bungalows only numbering sixty-six.

for it would be a breach of privilege of the Press. Members seeking information will be put in a very awkward position.

**Mr. Speaker:** We shall discuss that point later. I do not think there is that difficulty.

#### TECHNOLOGICAL INSTITUTES FOR AGRICULTURE

**\*484. Shri Upendranath Barman:** (a) Will the Honourable Minister of Agriculture be pleased to state how many technological institutes for Agriculture there are in India, giving details so far as possible?

(b) What are the arrangements and facilities for soil survey existing in India, giving some details?

(c) To what extent are the agriculturists being benefited by them?

(d) Have Government planned production consistent with the suitability of soil for different crops?

(e) What attempts are Government making to prevent soil erosion (sleet or gully erosion) in different parts of India?

**The Honourable Shri Jairamdas Doulatram:** (a) It is presumed that the question relates to technological institutes connected with crops and soils. The Government has under its control two broad categories of Institutes of this kind. One kind deals with technological problems connected with such crops as cotton, jute, lac, sugar, fruit, tobacco etc. and the other deals with fundamental research in connection with forest and agricultural matters, including soil. Short notes giving details of these institutes are placed on the table of the House. Information on similar Institutes maintained by the Provinces is being collected and will be made available to the House later.

(b) A record of the activities of the Central and Provincial Governments in this direction is given below:—

(i) The Agriculture, Forest and Irrigation Departments in Madras, Bombay, U. P., East Punjab and West Bengal have been carrying on soil surveys on a limited scale.

(ii) The Indian Agricultural Research Institute have a Soil Survey Section attached to it. It carries out soil surveys for special purposes and secures information for research work. It also imparts training in soil survey to personnel deputed by Provincial and State Governments.

(iii) The Indian Council of Agricultural Research has carried out a small-scale soil survey of India in order to collect all relevant data already available on Indian soils as a basis for planning an All-India Soil Survey.

(iv) A Central Committee of Pedology is proposed to be constituted shortly with a view to co-ordinating the soil survey work in India and collecting typical soil monoliths.

(e) Soil Survey work in India is still in its beginning. However, the surveys and mapping of soils already carried out have benefited the agriculturists in certain cases, as for example, sugarcane growers in the Deccan and in U.P. and Bihar. The Soil Survey in the Tungabhadra Project has established that contrary to current notions, black cotton soils can be irrigated with advantage by judicious application of water. The soil survey of the Kumaon Hills has also given information regarding the suitability of soil for establishing orchards. Government, however, feel that (to make the best use of the soil and to help the agriculturists) a detailed and systematic soil survey should be undertaken immediately and the co-operation of Provincial and State Governments will be secured to achieve it.

(d) Such planning, to be fruitful, will follow a proper soil survey in the various Provinces and States.

(e) In Bombay over seven lakh acres have been contourbunded in the scarcity areas.

In the East Punjab the Provincial Forest Department have carried out reclamation of lands affected by Chos (sand torrents) in the Siwalik foot-hills.

The Forest Department of the United Provinces have taken steps on the control of land slips in the Kumaon hills and reclamation of ravines by afforestation and controlled grazing. The Provincial Government have also started a pilot development project near Etawah which will deal with the technical aspects of erosion control and soil conservation.

In the Madras Province some earth embankment work has been done in the scarcity areas of the Ceded Districts and the Forest Department of the Province is tackling the problem of wind erosion in the coastal areas and, along the Hagari River by afforestation. The Provincial Government are also attending to the prevention of erosion of steep slopes of the Nilgiris where potato cultivation has spread considerably.

The Government of West Bengal are conducting certain experiments on the technique of erosion control at Santiniketan. The remaining Provinces also now propose to take up the work of soil and water conservation.

The five Soil Conservation Officers attached to the Ministry of Agriculture have undertaken an extensive tour of the Provinces and have submitted a report on initiating soil conservation work in the Provinces. This is being circulated to the Provincial and State Governments and they are being informed that technical advice and guidance of the experts for carrying out their soil conservation schemes will be made available to them, whenever required.

#### STATEMENT

##### THE INDIAN INSTITUTE OF SUGAR TECHNOLOGY, KANPUR

The Indian Institute of Sugar Technology was established at Kanpur with effect from 1st October, 1936. In March, 1945 its control was transferred to the Indian Central Sugarcane Committee, a body constituted by a Resolution of the Governor-General-in-Council and registered under the Registration of Societies Act, XXI of 1860.

2. The Institute undertakes research on:

(a) Problems of Sugar Technology in general, and those of the Sugar factories in India in particular;

(b) The utilisation of the by-products of the industry;

(c) Detailed testing of new varieties of cane under factory conditions; and

(d) General problems of Sugar Engineering and Chemistry.

The Institute also provides facilities for the training of students in all branches of Sugar Technology, and Sugar Engineering and arranges for refresher courses for men already employed in the Industry.

The Institute also keeps in touch with the latest developments in the industry abroad, and serves as a medium for giving effect to such of them as are applicable to Indian conditions.

##### THE COTTON TECHNOLOGICAL LABORATORY, MATUNGA, BOMBAY

This Laboratory is attached to the Indian Central Cotton Committee for research on cotton Technology. By fibre measurements of actual spinning trials, new varieties of cotton are tested here and valuable assistance is given to Cotton breeders about the strains of cotton fit for extensive field trials and for introduction into general cultivation. Another main line of work is the correlation of fibre properties with spinning performance and the working out a prediction formula for the Indian Cottons, showing the probable spinning behaviour of a cotton with particular fibre measurements. The effect of the season on the various varieties of standard Indian Cotton is also studied.

The Committee also advises Indian Mills in regard to the storage and handling of cotton by carrying out tests and giving technical information. The Committee's test results on the standard cottons are made available from time to time to the cotton trade both in India

and abroad. A number of tests have also been made on samples of improved varieties grown with different amounts of irrigation, different rotations of crops, different kinds of manures, etc., in order to study the effect of agronomical factors on the fibre properties and spinning performances on these cottons.

In 1937 the Laboratory was recognised by the Bombay and Ahmedabad Millowners' Association as their official testing house for the testing of cottons, yarns, piecegoods, textile auxiliaries, artificial silk yarns, etc. and for the issue of authoritative reports on them. The Laboratory was also recognised in 1939 by the *Bureau International Pour La Standardisation Des Fibres Artificiels* (B.I.S.F.A.) as its testing house for artificial silk yarn and cloths. In 1940, a ginning section was added to the Laboratory with the object of making investigations for improving the ginning of Indian Cottons.

#### INDIAN CENTRAL JUTE COMMITTEE

##### THE TECHNOLOGICAL RESEARCH LABORATORIES, CALCUTTA

After the organisation of the Indian Central Jute Committee, technological research on jute in all its aspects was taken into consideration and work in the Technological Research Laboratories of the Committee started in 1939 at Calcutta. The main problems which have occupied the attention of the Laboratories are:

(1) Spinning and testing of representative yarns from small samples of fibre obtained year by year from the chief jute growing districts. (2) Routine spinning of samples derived from the agricultural work and reporting thereon. (3) Examination of the relationship between the measurable physical and chemical characters of the fibre and spinning quality. (4) Grading of jute and a study of commercial samples of jute. (5) A study of jute substitutes and composites. (6) Fundamental work, chemical and physical, on the structure and properties of fibres and yarn. (7) Improvement of the raw-material, and (8) work bearing on new or extended uses of jute.

#### INDIAN LAC RESEARCH INSTITUTE

Indian Lac Research Institute, Namkum, is under the control of the Indian Lac Cess Committee. This Institute is primarily concerned with chemical and Entomological aspects of research in Lac. The former is devoted to the study of the modifications of lac by chemical means so as to add to its usefulness, which involves *inter alia* researches on the pure chemistry of lac and related resins. The latter is concerned with the study of lac insects and lac hosts with a view to the evolution of better methods of lac cultivation.

Results of practical importance have been attained as a result of researches extending over a period of several years. Thus in the sphere of lac cultivation, a visual method of forecast of emergence, correct treatment of lac hosts and insects, identification and means of combating enemy insects, are some of the significant findings of great value in actual field trials. Chemical researches have met with very considerable success in modifying lac so as to impart greater heat and water-resistance, adhesive power, elasticity etc., to it. The manufacture of the following lac products has been made possible through research:

(1) Improved seed lac. (2) Kiri-lac. (3) Bleached lac. (4) Lac wax. (5) Plastic moulded articles. (6) Improved spirit varnishes. (7) Insulating varnishes. (8) Oil-cloth and resin. (9) Insulating cloth. (10) Flexible mecanite. and (11) Adhesives and cements.

The scope of the Institute has been widened recently by conducting a demonstration campaign to popularise scientific methods of lac cultivation. A lac information Officer has also been appointed to assist the trade in starting lac-based industries and to arrange for more rapid dissemination of the results of researches at the Institute.

This institute also imparts training in the industrial uses of lac and improved methods of lac cultivation. Six students in each for the above two courses are taken up every year. Besides this casual students *viz.* employees on deputation from Indian States or factories, are often given training in lac cultivation, or in special industrial processes relating to lac.

#### INDIAN INSTITUTE OF FRUIT TECHNOLOGY, DELHI

The abnormal conditions created by the war gave a fillip to Indian fruit industry and a large number of factories sprang up throughout the country. It became necessary therefore to set up some machinery for rendering technical help to this industry. The Indian Institute of Fruit Technology was accordingly set up at Lyallpur in April, 1945, under the auspices of the Indian Council of Agricultural Research. After the partition of the country in 1947 the Institute was moved to Delhi.

-2. The primary aim of the Institute is to carry out research on the methods of the best utilisation of the fruit resources of India. It is also designed to assist in the development of the fruit industry on an all-Indian basis by providing facilities for:

#### STARRED QUESTIONS AND ANSWERS

- (1) *Teaching*.—Imparting training both in theory and practice in fruit and vegetable preservation with a view to qualifying students as teachers, demonstrators, or technical experts for employment in fruit and vegetable preservation factories.
- (2) *Research*.—Fundamental investigations on the solution of technical problems confronting the fruit preservers in this country, especially those of a chemical and microbiological nature which are beyond the scope of capacity of regional stations.

The Institute will also serve as a connecting link between the regional fruit stations proposed to be started in various parts of India and will assist these stations in the solution of scientific and technical problems and keep them supplied with up-to-date information regarding the latest methods of manufacturing fruit products devised in India and abroad.

3. Under the terms of the arrangements at the time of partition, the equipment and machinery at Lyallpur had to be left over intact for the use of the Government of Pakistan with the result that the Institute at Delhi is now considerably short of essential equipment for carrying out its work effectively. There is a proposal to shift this Institute to a suitable permanent site and to equip it fully to meet its requirements.

#### THE INDIAN AGRICULTURAL RESEARCH INSTITUTE

The Institute was established in 1905 at Pusa in Bihar and shifted to New Delhi 1935-36. The main activities of the Institute relate to fundamental research on the various agricultural problems and advanced post-graduate training in agricultural sciences. In order to carry out agricultural experiments under the varying soil and climate conditions three sub-stations of the Institute are functioning, one at Coimbatore in South India, another at Pusa and a third at Karnal in East Punjab.

2. The Institute is under the guidance and administrative control of a Director and is divided into seven divisions including the one at Coimbatore, which is under the Sugarcane Expert.

- (a) *Division of Agronomy*.—Field experiments for testing the value of various manures and fertilisers besides many varieties of sugarcane, fodder, field and forage crops are conducted on the Agronomy side of this Division, while in the cattle breeding sphere, important results have been achieved in the improvement of milch cattle. The two breeds, the Sahiwal maintained at the Institute and the Thaparkar at the Karnal sub-station have become famous and popular in India and also in outside countries.
- (b) *Division of Botany*.—This Division has already evolved a large number of strains of various crop plants but this division is now concentrating its attention on breeding problems of all-India importance and on carrying out important investigations into the techniques of plant breeding. The best known and widely spread varieties of Pusa Wheat extensively grown in India and Australia, besides a large number of new varieties of Barley, Pulses, Oil-seeds, Tobacco and several other crops have all been the result of the work of this division in the plant-breeding line. These varieties after vigorous tests are distributed to the cultivators through the Provincial and States Departments of Agriculture.
- (c) *Division of Entomology*.—This Division is concerned with the study of insect pests and devising methods of control. It has already built up a large collection of Indian insects, maintains records of their occurrence, life history and the nature and the extent of damage caused by them to the various crops.
- (d) *Division of Mycology*.—The work of this Division is directed towards the collection of Indian fungi and their identification and about 700 cultures have already been collected in the herbarium of this Division.
- (e) *Agricultural Chemistry and Soil Science Division*.—This Division maintains a well-equipped laboratory where a large number of soils from different parts of the country are examined and their deficiencies investigated. The Laboratory studies are followed by investigations on the manurial and water requirements of the different types. Recently investigations have also been undertaken on the "trace elements", those which are essential but required in minute quantities for growth and health of plants.
- (f) *Agricultural Engineering Division*.—Created only three years ago this Division is yet in its infancy. It is designed to test and develop Agricultural Machinery and implements suitable to Indian conditions.
- (g) *Sugarcane Station, Coimbatore*.—The improved varieties of Sugarcane evolved at this station have attained world wide popularity and occupy within India nearly 80 per cent. of the area under Sugarcane cultivation. Hybridized with

a wild grass known as *Sacharum Spontaneum*, these varieties have proved disease and drought resistant, adaptable to different climate and soils and yield a high percentage of sugar. The work at this Station has been of considerable benefit to the Sugarcane Industry in India.

Two more Divisions, one for Agricultural Economics and another for Statistics as applied to Agricultural Experimentation will be added shortly.

**Training.**—The Institute offers 2 years post-graduate courses in (1) Agronomy, (2) Botany, Plant Breeding, Plant Physiology, Genetics and Cytogenetics, (3) Sugarcane Breeding and Genetics, (4) Soil Science, Agricultural Chemistry and Soil Microbiology, (5) Mycology, (6) Plant-Pathology and Entomology. Similar courses in Agricultural Engineering and Agricultural Economics and Statistics are proposed to be started as soon as the Divisions are adequately equipped for the purpose.

#### THE CENTRAL RICE RESEARCH INSTITUTE

The Institute was started in Orissa in 1946 for research on fundamental problems connected with the breeding and production of rice. Regular work, however, commenced only last year.

The Institute now comprises of five sections, viz., Botany, Agronomy, Mycology, Entomology and Chemistry. A large collection of 323 varieties of rice produced in the Indian States and Provinces and 131 varieties produced in countries like Russia, China and Japan. A nucleus of genetic strains has been formed and varietal trials conducted which it is expected will enable the growing in the canal irrigated areas of Orissa, of two crops of rice in succession, an early one followed by a medium duration one. The work in the Mycological and other Divisions is concentrated mainly on field experiments at the moment.

#### CENTRAL POTATO RESEARCH INSTITUTE

This Institute is still in its infancy. It was started in 1946 in the premises of the Indian Agricultural Research Institute, Pusa, New Delhi, and has now only a nucleus staff consisting of a Director and two officers.

The main object of the Institute is to conduct research on the breeding of high-yielding and disease-free potatoes and all incidental problems connected with the production of potatoes, on a long-term basis. The Indian Council of Agricultural Research had already been conducting a research scheme in Physiological and Genetical Investigation on the potato crop at Madras. They have also been running a potato breeding scheme at Simla and a potato breeding sub-station at Bhowali. The Indian Council of Agricultural Research were, however, unable to continue to finance such schemes indefinitely. No other province in India is also doing any research work on potato in an organised manner. The Central Potato Research Institute contemplates taking over these schemes from the Indian Council of Agricultural Research and co-ordinate and develop the research work already done under these schemes.

#### THE INDIAN CENTRAL TOBACCO COMMITTEE

This Committee has four Research Stations, viz., at Guntur, Rajamahendri, Anand and Nipani for research work for various aspects of Bidi tobacco, Cigarette, tobacco, Cherrut tobacco and chewing tobacco. It is also proposed to set up a research station in Bihar for Hookas tobacco.

#### THE INDIAN CENTRAL COCONUT COMMITTEE

The Committee has two Research Stations one at Kasaragod and the other at Kayamkulam (in South India) for research on various aspects of Coconuts. These stations have been established only recently. The Committee is arranging for necessary staff and equipment for research work required to be carried out at these stations.

#### FOREST RESEARCH INSTITUTE

The Forest Research Institute is located at Dehra Dun. Primarily, the functions of the Institute is research on all problems connected with (i) rearing and protecting forest and enhancing their value or usefulness and (ii) the more efficient and profitable utilisation of timber and various other produce of the forest.

Equally important is the work undertaken at the Institute for the training of the personnel of India's forest services. This training is imparted in two distinct standards, one for forest officers and the other for forest rangers. Thus forest research and forest educational activities are combined at the Institute to the mutual advantage of both.

The third function of the Institute involves the organised dissemination of information regarding (i) results of research, (ii) forest resources and (iii) facilities for research and training.

These three aspects of the work of the Institute are planned and organized under the Directorate of (i) Research, (ii) Education and (iii) Public Relations and Forest Economy (under formation). The work on basic and applied research in forestry including problems connecting with cultivation and production of natural forest products as well as their manufacture and utilization is organised under ten different branches in the Institute.

**Shri Upendranath Barman:** Regarding the Policy Committee Report No. 5 advising the constitution of a central authority under the name of Central Land Utilisation Authority with an initial capital of 50 lakhs to start with, have Government taken any action on that report? If so, how far have their project made any progress?

**The Honourable Shri Jairamdas Doulatram:** Government have not taken any action on that particular report but so far as the problem of land utilisation is concerned it is being discussed with the Provinces.

**Seth Govind Das:** Is it a fact that in certain provinces this survey is not going on whereas other provinces are getting the benefit of this survey from the Government of India?

**The Honourable Shri Jairamdas Doulatram:** I do not think any discrimination is made and if the Central Provinces have any complaints they will be inquired into.

**Seth Govind Das:** Is the Honourable Minister aware that this survey is going on in the Central Provinces also?

**The Honourable Shri Jairamdas Doulatram:** As I said, officers were sent to the provinces and I believe C. P. was included in the survey operations.

**Srijut Kuladhar Chaliha:** May I know whether the results of the survey proposed are published and made available to the public?

**The Honourable Shri Jairamdas Doulatram:** I think they are published and it will be open to people to purchase them.

**Srijut Kuladhar Chaliha:** I want to know where they are available.

**Mr. Speaker:** The honourable member may enquire.

#### FLYING CLUBS IN INDIA

**\*485. Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Communications be pleased to state:

(a) the number of Flying Clubs existing in all Provinces in India and the number of technicians and trainees in all such Flying Clubs and the expenditure incurred thereon; and

(b) whether the whole of such expenditure is being incurred by Government or partly by Government and partly by the private Agencies concerned?

**Shri Khurshed Lal (Deputy Minister for Communications):** (a) I lay on the table a statement giving the information required.

(b) The expenditure is being met by the clubs partly out of subsidies paid by the Government of India and Provincial Governments and partly out of income from membership and other fees and flying charges payable by trainees.

#### STATEMENT.

*Number of flying clubs the Provinces in India the number of technicians and trainees at the clubs and the expenditure estimated to be incurred thereon.*

|                                                           |   |                            |
|-----------------------------------------------------------|---|----------------------------|
| (i) Number of flying clubs in the Provinces in India.     | — | 9                          |
| (ii) Number of technicians at the clubs                   | — | 129                        |
| (iii) Number of trainees at the clubs on 1st January 1949 | — | 267                        |
| (iv) Estimated expenditure on the clubs during 1948-49    | — | Rs. 20 Lakhs approximately |

**Pandit Mukut Bihari Lal Bhargava:** Are there any flying clubs at Ajmer?

**Shri Khurshed Lal:** I am afraid there is no flying club at Ajmer.

**Pandit Mukut Bihari Lal Bhargava:** Is there any proposal to start one?

**Shri Khurshed Lal:** No, not yet.

**Shri H. V. Kamath:** In these flying clubs is training given to would-be pilots in aeroplanes only, or gliders as well? Are there any gliders at all in any flying clubs?

**Shri Khurshed Lal:** The training is given on aeroplanes.

**Shri Gopikrishna Vijayavargiya:** Is there any restriction on the persons trained in flying clubs? I know of an accident in which Mr. Govind Sahay was injured, because the pilot was a new man. So I want to know whether any restriction is placed on new trainees.

**Mr. Speaker:** The honourable member wants to know whether there are any regulations governing trainees to safeguard the safety of the people.

**Shri Khurshed Lal:** Yes, there are rules governing flying clubs. An enquiry is being made into the accident referred to by the honourable member.

**Shri S. Nagappa:** What is the policy of the Government regarding recruiting these trainees and technicians at these flying clubs? On what basis these trainees and technicians are recruited?

**Mr. Speaker:** The question is too wide and general.

**Dr. Mono Mohan Das:** Are these flying clubs official or non-official organisations?

**Shri Khurshed Lal:** They are non-official organisations.

**Shri S. Nagappa:** Sir, I wanted to know what are the minimum educational or physical qualifications required?

**Mr. Speaker:** The honourable member may put an unstarred question for that purpose.

**Shri H. V. Kamath:** In view of the fact that gliders provide the cheapest and the easiest form of preliminary training in flying . . . . .

**Mr. Speaker:** I am afraid the honourable member is going into expressing many opinions.

**Shri H. V. Kamath:** Have Government made any attempt towards the manufacture of gliders in India?

**Shri Khurshed Lal:** Arrangements are being made to procure gliders.

**Shri H. V. Kamath:** I said manufacture.

**Shri Khurshed Lal:** Yes.

**Begun Azaz Rasul:** Do Government call for information from the clubs in which the Central Government gives subsidies as to the manner in which that money is used by those clubs?

**Shri Khurshed Lal:** The clubs do supply us information as to how the money is spent.

**Pandit Lakshmi Kanta Maitra:** May I ask if there is any machinery in his Department to supervise and control the activities of these flying clubs?

**Shri Khurshed Lal:** Yes, the D.G.C.A. does it.

**Pandit Lakshmi Kanta Maitra:** Is any periodical survey made?

**Mr. Speaker:** I am going to the next question.

#### DEVELOPMENT OF INTERNATIONAL AERODROMES AT SANTA CRUZ, DUM DUM AND PALAM

**\*486. Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Communications be pleased to state:

(a) the steps that have been taken by Government so far to develop international aerodromes at Santa Cruz, Dum Dum and Palam; and

(b) what improvements are under contemplation and what amount has already been spent on all these three aerodromes and what is the estimated expenditure to be incurred in future on each of these?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) and (b). The development of the International Airports at Santa Cruz, Dum Dum and Palam is already in progress. The development comprises construction of terminal buildings and hangars, expansion of residential accommodation, extensions of runways, provision of Runway lighting for night flying, Radio Transmitting and Receiving Stations, etc. Santa Cruz and Dum Dum, being the first points of entry from the West and the East will, in addition, have permanent isolation hospitals. A statement showing the expenditure already incurred and estimated to be incurred on these airports is laid on the table.

#### STATEMENT

*Total estimated expenditure to be incurred on the development of the Santa Cruz, Dum Dum and Palam airports and that already incurred on these airports by the end of November 1948.*

|                                                                | Santa Cruz     | Dum Dum | Palam  |
|----------------------------------------------------------------|----------------|---------|--------|
|                                                                | Rupees in lakh |         |        |
| (i) Total estimated expenditure                                | 390.31         | 223.22  | 146.84 |
| (ii) Expenditure already incurred by the end of November 1948. | 26.11          | 9.22    | 1.97   |

**Shri R. K. Sidhva:** May I know whether the present aerodrome building at Santa Cruz is the property of the Government of India?

**Shri Khurshed Lal:** I would require notice of that.

#### MANUFACTURE OF AEROPLANES AND SPARE PARTS

**\*487. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether the Government of India have in view any scheme for the establishment of factories for the manufacture of aeroplanes and spare parts of aeroplanes for the development of Civil Aviation?

(b) If so, has any such scheme been prepared, and by which time is it likely to be implemented?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). Capacity for the manufacture of aeroplanes and spare parts for Civil Aviation exists at Hindustan Aircraft Limited, Bangalore. This factory is already assembling and manufacturing some aircraft under assistance arrangement with a British firm. It is also shortly undertaking the manufacture of three types of indigenously designed aircraft, at least two of which should be useful to Civil Aviation.

The question of a tie-up with a good foreign aircraft manufacturing firm either to set up a new factory in the Country for manufacture of aircraft and aero-engines, including spare parts, for the use of Civil Aviation and R.I.A.F., or to give assistance facilities to Hindustan Aircraft Limited, to expand its manufacturing capacity, is under consideration. Preliminary investigations are now being made in the matter and arrangements are likely to be finished in a few months' time.

**Shri H. V. Kamath:** Is the Honourable Minister aware that last year there was an aircraft factory at Harni in Baroda?

**The Honourable Dr. Syama Prasad Mookerjee:** No, there is no factory.

**Shri H. V. Kamath:** Was there one last year?

**Mr. Speaker:** Perhaps the honourable member is talking of the glider factory of Mr. Rauf.

**Shri H. V. Kamath:** No answer has been given to my question.

**Mr. Speaker:** He says 'no'.

**Shri H. V. Kamath:** I was asking whether last year there was one.

**Pandit Mukut Bihari Lal Bhargava:** Are any spare parts being manufactured in any part of India now?

**The Honourable Dr. Syama Prasad Mookerjee:** They are not manufactured in India except a few and most of them have to be bought from America for dakotas which are mostly used in India today.

**Seth Govind Das:** Are Government contemplating to establish any new factory for the manufacture of spare parts of dakotas because they are so freely being used in India—are they contemplating the establishment of any special factory for this purpose?

**The Honourable Dr. Syama Prasad Mookerjee:** No, because dakotas themselves will become obsolete in the course of the next three or four years.

**Shri Mihir Lal Chattopadhyay:** Is there any repairing workshop for repairing aircrafts anywhere in India other than the Hindustan Aircraft company?

**The Honourable Dr. Syama Prasad Mookerjee:** We have one in Kanpur under Government control and permission has been sought for to have another workshop in West Bengal, which is now being considered by the Ministry of Communications.

**Shri S. Nagappa:** May I know whether the factory at Bangalore is state-owned or whether it is a private concern; and if it is a private concern have Government any shares in it?

**The Honourable Dr. Syama Prasad Mookerjee:** It is an entirely state-owned organisation.

**Prof. N. G. Ranga:** Are Government replacing the dakotas by any other type of planes as and when these dakotas go out of use and are they contemplating to establish any factory for the manufacture of the spare parts needed by that other type of aircraft at least?

**The Honourable Dr. Syama Prasad Mookerjee:** That matter is now under examination.

**Shri R. K. Sidhva:** May I know how many foreigners are employed in this factory and whether they are training Indians for this purpose?

**The Honourable Dr. Syama Prasad Mookerjee:** We have about 120 members of the superior staff of whom ten or eleven are foreigners.

**Shri S. V. Krishnamoorthy Rao:** Is it a fact that the General Manager of the Hindustan Aircraft Limited was an officer of the Accounts Department and is a non-technician?

**The Honourable Dr. Syama Prasad Mookerjee:** He was the Deputy Auditor-General with the Government of India and he is acting now as General Manager.

#### RULES re NON-SCHEDULED FLIGHTS OF AEROPLANES

\*488. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Communications be pleased to state whether the Government of India have made any rules controlling the Aircrafts engaged in non-scheduled flights, Club flying or private flying?

(b) If so, are they strictly enforced, and if not, why not?

(c) What is the number of air accidents that took place in India in the year 1948 and how many of these accidents involved scheduled service planes and chartered planes respectively?

**Shri Khurshed Lal:** (Deputy Minister for Communications): (a) The Indian Aircraft Rules, 1937, apply to non-scheduled flying and club flying equally with scheduled flying. The operation of non-scheduled flying is also subject to a permit, granted by the Director General of Civil Aviation, which usually prescribes conditions which must be observed in addition to the general rules. These conditions are varied from time to time as required by operational and other considerations.

(b) The rules are strictly enforced.

(c) I lay on the table, a statement giving the information required.

#### STATEMENT

Number of Accidents in India during the year 1948.

| Category              | Total | Notifiable | Non-notifiable | Total |
|-----------------------|-------|------------|----------------|-------|
| Scheduled flights     | 3     | 3          | Nil            | Nil   |
| Non-scheduled flights | 12    | 10         | 2              | 2     |
| Club aircraft         | 25    | 18         | 7              | 1     |
| Private aircraft      | 23    | 14         | 9              | 1     |
|                       | 63    | 45         | 18             | 4     |

NOTE:—In addition to the above there was an accident to a foreign aircraft which was notifiable and involved one fatality.

**Shri H. V. Kamath:** With a view to minimising the risks and accidents referred to in part (c) of the question, is the Honourable Minister aware that the United States Civil Aeronautics Administration and the Air Registration Board in the United Kingdom have introduced many modifications to the Dakota to improve its resistance to fire hazards whereas in India only one minor modification has been introduced so far?

**Mr. Speaker:** Order, order. Next question.

#### JUTE PRODUCTION IN INDIA AFTER PARTITION

\*489. **Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Agriculture be pleased to state:

(a) the total production of Jute in India from August, 1947 to August, 1948, and what percentage this quantity forms of the total production in India prior to partition;

(b) the Province or Provinces where Jute is grown in India at present;

(c) whether the Government of India have taken any steps to extend the Jute producing area in those Provinces where it is grown at present, and to explore the possibilities of growing Jute in any of the other Provinces; and

(d) if so, what are the results thereof?

**The Honourable Shri Jairamdas Doulatram:** (a) The production of jute in the Indian Union from August, 1947, to August, 1948 and the percentage this quantity forms of the total production in India (pre-partition) are as follows:

|                                                                         |                                   |
|-------------------------------------------------------------------------|-----------------------------------|
| Indian Union                                                            | 1658,000, bales of 400 lbs. each. |
| India (pre-partition)                                                   | 8501,000, bales of 400 lbs. each. |
| Percentage of the production of Indian Union to that of undivided India | 19.5                              |

(b) The Provinces and States where jute is grown at present are Assam, West Bengal, Bihar and Orissa and U.P. and the States of Cooch Behar and Tripura.

(c) Yes. So far the area under jute has been increased without diverting any area from food crops to jute in the following two ways: (i) extension of area by reclaiming culturable waste lands, and (ii) by double-cropping, i.e., by growing jute as an earlier additional crop in Aman-Paddy land. A ban has been placed on the export of jute seeds and the distribution of improved seeds and fertilizers. The following increase in the area under jute in the Provinces where it is already grown has been achieved:

|                                 | Acres  |
|---------------------------------|--------|
| West Bengal                     | 77,000 |
| Assam                           | 23,000 |
| Cooch Behar and Tripura States. | 11,000 |

It has also been decided to establish ten seeds-multiplication farms of 300 acres each in the four jute growing provinces with a view to producing improved seeds.

Two new areas, viz., Madras Province and Travancore State, have been found promising for growing jute.

(d) It is expected that the following additional areas may be brought under jute without taking any areas from the food-grains:

|              | Acres           |
|--------------|-----------------|
| West Bengal  | 1,00,000        |
| Bihar        | 50,000          |
| Orissa       | 50,000          |
| Assam        | 50,000          |
| Cooch Behar  | 5,000           |
| Tripura      | 5,000           |
| Madras       | 20,000          |
| Travancore   | 2,000           |
| <b>TOTAL</b> | <b>2,82,000</b> |

Consequently additional production of 7.5 lakh bales of jute over and above the 1948 production is expected in 1949.

A plan for achieving self-sufficiency in jute is under preparation.

**Prof. N. G. Ranga:** Is any effort being made to produce jute as a dry crop and not as a wet crop, that is on rain-fed land and not on irrigated land?

**The Honourable Shri Jairamdas Doulatram:** I am not aware of it.

**Seth Govind Das:** Are Government surveying some forest areas where jute can be grown as a dry crop?

**The Honourable Shri Jairamdas Doulatram:** If the area is irrigated Government will make enquiries and also make research.

**Shri M. Ananthasayanam Ayyangar:** What areas in the Madras Presidency have been found fit for the growing of jute?

**The Honourable Shri Jairamdas Doulatram:** Vizagapatam, Tanjore, Malabar and South Kanara.

**Shri M. Tirumala Rao:** In view of the insufficiency of jute, is there any proposal to the Government of India to conserve the use of jute bags which they consume yearly in large quantities for the storing of their foodgrains?

**The Honourable Shri Jairamdas Doulatram:** There is no such proposal at present but I suppose unless there are substitutes available, gunny bags have to be used.

**Shri Upendranath Barman:** In view of the difficulty of obtaining seeds at the sowing time, experienced every year, have Government thought about the advisability of procuring sufficient seeds for the extensive cultivation that the Government proposes?

**The Honourable Shri Jairamdas Doulatram:** Government are trying to secure the maximum quantity of seeds, and also, as I said, have set up new farms for the purpose of producing more seeds.

**Shri S. V. Krishnamoorthy Rao:** Is this increase in acreage under jute production in any way going to affect the acreage under food production?

**The Honourable Shri Jairamdas Doulatram:** No. As I said, all this acreage is acreage which is not taken away from food but is largely waste land and double-cropped land.

**Shri Biswanath Das:** May I know whether it is a fact that the Government of Orissa intimated to the Government of India that they could increase jute cultivation in the Province and in the merged States by four times if the transport difficulties are attended to by the Government of India with special grants?

**The Honourable Shri Jairamdas Doulatram:** I am not aware of the correspondence; there might have been such a communication.

**Prof. N. G. Ranga:** Are any efforts being made to raise jute along the railway lines in the delta areas where there is plenty of water?

**The Honourable Shri Jairamdas Doulatram:** I think there are special difficulties with regard to growing anything along the railway lines. It will require somebody to take care of the growing crops and somebody to attend, and unless there is the co-operation of all the neighbouring villages and their organisations are available to help, it will become a difficult proposition to grow crops there.

#### PROTECTION TO INDIAN ARTIFICIAL SILK INDUSTRY

**\*490. Seth Govind Das:** Will the Honourable Minister of Industry and Supply be pleased to state what sort of protection Government propose to offer to the indigenous artificial silk industry in view of the preferential duty enjoyed by British goods under the terms of the Indo-British Agreement?

**The Honourable Dr. Syama Prasad Mookerjee:** Artificial silk yarn is not produced in India. It is therefore presumed that the honourable member refers to the Artificial Silk weaving Industry. Government are aware of the concern of the Industry on the question of competition from imported fabrics. The Industry applied for protection and the Indian Tariff Board held an enquiry in December, 1948. The report of the Tariff Board is now awaited.

**Seth Govind Das:** Is Government contemplating to start any factory for the manufacture of artificial silk yarn in this country?

**The Honourable Dr. Syama Prasad Mookerjee:** There are three such attempts which are now being made: one in Bombay, the National Rayon Corporation Limited; the other in Travancore, the Travancore Rayons Limited; and the third in Hyderabad (Dn.), the Sir Silk Limited. It will however take at least two years before any of these factories can be fully ready.

**Seth Govind Das:** Have the Government received any representation from the Central Provinces Government that the Narmada Division of that Province can make this silk yarn if a factory is established there?

**The Honourable Dr. Syama Prasad Mookerjee:** If the Central Provinces Government puts up any proposal, we shall be glad to consider it.

**Seth Govind Das:** I want to know whether the Government have received any proposal from the Central Provinces.

**The Honourable Dr. Syama Prasad Mookerjee:** I am not aware.

**Prof. N. G. Ranga:** Have Government ever received representations from the producers of silk that importation of rayon, that is artificial silk, is in any way injurious to them?

**The Honourable Dr. Syama Prasad Mookerjee:** In fact, there is a demand for more import of artificial silk.

**Shri M. Ananthasayanam Ayyangar:** May I know what the raw product is of which the artificial silk is manufactured, and if it is available only in these three particular areas?

**The Honourable Dr. Syama Prasad Mookerjee:** I cannot say, Sir, but I am told there are certain difficulties.

**Seth Govind Das:** May I know how long this preferential duty on British material is going to remain in this country?

**The Honourable Dr. Syama Prasad Mookerjee:** We will decide the matter after we get the report of the Tariff Board.

**Prof. N. G. Ranga:** Is it a fact that Government have fixed the prices of artificial silk and that the prices fixed by Government are far higher than the prices at which they themselves import it into India?

**The Honourable Dr. Syama Prasad Mookerjee:** As a matter of fact, the Government of India imported about 2 million lbs. of artificial rayon. We purchased it at Rs. 2-15-0 per lb. and sold it at Rs. 3-12-0 per lb. whereas the market price in India was about Rs. 5 per lb. But we took sufficient protection to see that actually the consumers got this at the reduced rate.

**Shri S. Nagappa:** What prompted the Government to give preferential treatment to British goods as against the Indian silk industry at the time of the Indo-British agreement?

**Mr. Speaker:** That is going into some other question much beyond the scope of this question.

#### ESTABLISHMENT OF A RADIO EQUIPMENT FACTORY

**\*491. Seth Govind Das:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that the Government of India propose to establish a Radio Equipment Factory in India?

(b) Is it a fact that Government have asked two companies in England to prepare a scheme for the proposed factory?

(c) What are the things proposed to be produced in the factory?

(d) What will be the total cost and what is the expected output of the factory?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir.

(b) I would refer the honourable member to the reply given by me to part

(d) of Starred Question No. 373 on 15th February, 1949.

(c) A statement is laid on the table of the House.

(d) The estimated capital cost of the factory is Rs. 3 crores and the approximate value of the annual output is Rs. 2 crores.

#### STATEMENT

##### List of equipment to be manufactured in the proposed factory

- (i) High power transmitters required for broadcast purposes and overseas communications.
- (ii) Medium powered transmitters.
- (iii) Low powered transmitter (having a power of 10 watts and less) mainly needed by the Defence Services.
- (iv) Trans receivers.
- (v) Communication type receivers.
- (vi) Radio components.
- (vii) Radar equipment.
- (viii) Radio valves required for transmitters of all types of receivers and radar equipment.

**Shri H. V. Kamath:** Will this factory be a completely nationalized concern, state-owned and state-controlled?

**The Honourable Dr. Syama Prasad Mookerjee:** That is what Government plans to do.

**Seth Govind Das:** Have the Government decided the place where this factory is going to be located?

**The Honourable Dr. Syama Prasad Mookerjee:** I think I said the other day that I cannot answer this question now until I consider the reports.

**Shri M. Tirumala Rao:** Is there any co-ordination in the efforts of the Central Government and the Provincial Governments? The Provincial Governments are also launching upon similar schemes of manufacturing radios.

**The Honourable Dr. Syama Prasad Mookerjee:** There is no scheme put up by any Provincial Government regarding this particular item.

**Shri H. V. Kamath:** Is there any proposal to import foreign technicians and advisers in this connexion?

**The Honourable Dr. Syama Prasad Mookerjee:** Obviously it will have to be done.

**Shri H. V. Kamath:** Is it a fact that Germany made remarkable progress in radionics before World War II?

**Mr. Speaker:** Order, order.

#### REVISION OF PRICES OF FOODGRAINS IN MADRAS

**\*492. Shri O. V. Alagesan:** (a) Will the Honourable Minister of Food be pleased to state whether it is a fact that the Government of Madras have represented to the Government of India that the appropriate time for revision of prices of foodgrains in the Province of Madras is the commencement of Fashi year (July 1st) and not of Kharifi year (November 1st)?

(b) If so, have Government come to a decision on the matter?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes.

(b) Yes, the Government of India have accepted the Madras Government's proposal.

#### SUBSIDIES TO PROVINCES FOR "GROW MORE FOOD" SCHEMES

**\*493. Shri O. V. Alagesan:** (a) Will the Honourable Minister of Agriculture be pleased to state the schemes for which the Government of India pay subsidies to provinces under the 'Grow More Food' scheme?

(b) Is preference given to small irrigation schemes rather than to big projects?

**The Honourable Shri Jairamdas Doulatram:** (a) A list of the types of schemes which are eligible for and receive subsidies under the 'Grow More Food' Rules is placed on the table of the House. They relate to the main categories (a) minor irrigation (b) land improvement (c) manures and fertilizers (d) improved seeds (e) antipest measures (f) materials for implements (g) staff needed for the above mentioned schemes.

(b) Yes. Only such irrigation schemes as are likely to produce immediate results within the next five years are eligible for Grow More Food grants and loans. Big projects are not dealt with by the Ministry of Agriculture.

† Answer to this question laid on the table, the questioner being absent.

## STATEMENT

*List of schemes eligible for subsidy under the Grow More Food Campaign*

I. *Grow More Food Schemes (Works)*—

- (i) Surface percolation wells—Construction and improvement of. Improvement includes re-excavation, deepening, boring and installation of tubes and water lifting appliances.
- (ii) Irrigation tube wells and tube wells irrigation projects.
- (iii) Pumping installations.
- (iv) Tanks and channels. Construction and improvement of.
- (v) Land improvement works as under :—(a) Drainage works, (b) Contour bunding works, and (c) Clearance and reclamation.

II. *Grow More Food Schemes (Supply)*—

- (i) Composts.
- (ii) Oil cakes.
- (iii) Ammonia sulphate.
- (iv) Superphosphate, bone meal, or other fertilisers.
- (v) Supply of other manures such as fish manure, green manure and the like.
- (vi) Improved cereal seeds.

III. *Grow More Food Scheme (Miscellaneous)*—

- (i) Pest Control measures.
- (ii) Measures for preventing decrease of food production otherwise imminent, e.g., making available seeds other than improved seeds, iron and steel for manufacture of implements at places and times where shortage prevails.

IV. *Grow More Food Schemes (Services)*.—Schemes for employment of staff for the execution of Grow More Food Schemes.

## REMOVAL OF BAN ON EXPORT OF HANDLOOM CLOTH

†\*494. **Shri O. V. Alagesan:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether Government have received representations on behalf of the handloom cloth industry that the ban on the export of handloom cloth to foreign countries should be removed?

(b) If so, what action has been taken by Government in this matter?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir.

(b) The Government of India have decided that for a temporary period, which will not extend beyond the 30th June 1949, licences will be issued freely for the export of handloom to all countries upto a maximum of fifty million yards to Pakistan and upto smaller quantities for other countries.

## FIXATION OF PRICE OF SUGAR

†\*495. **Shri O. V. Alagesan:** (a) Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that large stocks of sugar have accumulated in the United Provinces and Bihar owing to the present high price of Sugar?

(b) Is it a fact that the price of Indian Sugar is higher than that of Brazilian, Java or Cuban Sugar?

(c) Do Government propose to consider the question of revising the present price and fixing it at a lower level in order to dispose of the stocks and to facilitate greater consumption of sugar?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes.

(b) Yes.

(c) The Government of India had recently considered this question and, in consultation with the Provincial Governments of United Provinces and Bihar and the Indian Sugar Syndicate, which represents the factories in these two

† Answer to this question laid on the table, the questioner being absent.

provinces, the ex-factory price of sugar from Rs. 35-7-0 per maund of last year has been reduced to Rs. 28-8-0 for D-24 grade. This should make the retail price in the country as. 12 to as. 13 per seer against Re. 1 before. A further reduction in price was not considered practicable in view of the cane price fixed, the rate at which the Provincial Cane Cess is levied, the increased minimum wage to factory labour, the increased cost of manufacture of sugar and the high priced stocks of last year's sugar still left with the factories. The Indian Sugar Syndicate has raised the price by as. 4 a maund in order to be able to export sugar. Government of India have again taken up with the Sugar Syndicate the question of the above price being actually in operation.

## INCOME AND EXPENDITURE OF HINDUSTAN AIRCRAFT FACTORY

\*496. **Shri K. Hanumanthaiya:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the annual expenditure and income for the last two years of the Hindustan Aircraft Factory situated at Bangalore?

(b) What are the kinds of work that is being done in the factory?

(c) Are aeroplanes being manufactured in the factory?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The annual expenditure and income for the year 1946-47 were Rs. 70,88,696 and Rs. 64,85,992, respectively. The corresponding figures for the year 1947-48 are approximately Rs. 1,11,11,590 and Rs. 1,39,02,582.

(b) The important types of work being done in the factory are:

(i) Repair and overhaul of aircraft, aero-engines, propellers and other accessories.

(ii) Assembly and manufacture of Prentice Trainer aircraft, under assistance arrangement with Messrs. Percival Aircraft Company, England.

(iii) Manufacture of Railcoaches.

(iv) Design and development of three indigenous types of Trainer Aircraft.

(c) Prentice Trainer Aircraft are being manufactured at H.A.L. A few indigenous types of aircraft to be manufactured are being designed and developed.

**Shri S. V. Krishnamoorthy Rao:** Are all the machine tools in the Hindustan Aircraft Factory put to full use at present?

**The Honourable Dr. Syama Prasad Mookerjee:** Yes, they are.

\*497. [WITHDRAWN.]

## RECOMMENDATIONS OF KUNZRU COMMITTEE ON RAILWAYS

\*498. **Prof. N. G. Ranga:** (a) Will the Honourable Minister of Railways be pleased to state whether the report of the Kunzru Committee has been received?

(b) Have Government formulated their conclusions on the recommendations of the Committee?

(c) When will the Committee's report and Government's conclusions be published?

(d) What are the main recommendations of the Committee and what steps are being taken to improve the Railway Workshops?

(e) What is being done to improve the supply of third class coaches either by imports or by manufacture in India?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes.

(b) The recommendations are under examination and require time for arriving at conclusions.

(c) The report will be made available to the public when printed. Statements showing action taken on the recommendations of the Committee will be placed periodically in the Library of the House.

(d) A copy of the summary of recommendations as given in para. 240 of the report has been placed in the Library. The recommendations of the Committee dealing with improvements of workshops are under examination and suitable action will be taken to implement them, as far as practicable.

(e) In addition to utilising the full capacity of the Hindustan Aircraft Limited, Bangalore and the Wagon Manufacturing Panel, West Bengal, the Government proposes to establish a workshop for manufacturing improved type all-metal coaches in India. The question of ordering coaches from abroad is also under consideration.

**Mr. Frank Anthony:** Is it Government's intention to ignore the Central Advisory Council for Railways when considering whether these recommendations should either be rejected or accepted?

**Mr. Speaker:** It will be hypothetical at this stage.

**Mr. Frank Anthony:** Did he place before them or will the Council be ignored as usual? I just wanted to know.

**Mr. Speaker:** Order, order.

**Prof. N. G. Ranga:** Are Government placing these recommendations before the Central Advisory Council for Railways?

**The Honourable Shri N. Gopalaswami Ayyangar:** Copies of the report will be circulated to members of the Central Advisory Council. If they are interested in bringing up any points in the report for discussion before that Council, arrangements will be made for such discussion.

**Shri B. Das:** With reference to part (e) of the question, in view of the shortage of steel all over the world, will Government drop the idea to manufacture all-steel coaches and replace them by timber coaches?

**Mr. Speaker:** Order, order. It is a suggestion for action.

**Shri R. K. Sidhva:** May I know whether it is a fact that the Committee presented its report, which was cyclostyled, and if so, why these cyclostyled copies were not sent to the members much earlier for them to study?

**The Honourable Shri N. Gopalaswami Ayyangar:** The Committee sent a certain number of cyclostyled copies. They were very limited. They had to be circulated to people who had to take action on them. Obviously, for a large House like this, a more convenient arrangement is to circulate printed copies. Two copies of the cyclostyled report were, however, placed in the Library.

**Shri R. K. Sidhva:** When were these two copies placed?

**The Honourable Shri N. Gopalaswami Ayyangar:** On the 11th.

**Shri R. K. Sidhva:** May I know how many copies were turned out from the cyclostyled machine?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not remember the number. It is somewhere between 40 and 50.

**Shri R. K. Sidhva:** Is it a fact that a cyclostyling machine can turn out 1,500 copies?

**Mr. Speaker:** Order, order.

## CROP AND CATTLE INSURANCE SCHEMES

**\*499. Prof. N. G. Ranga:** (a) Will the Honourable Minister of Agriculture be pleased to state how far the study of the possibilities of introducing Crop and Cattle Insurance has progressed?

(b) Is the Special Officer appointed for the purpose, studying the progress of Crop and Cattle Insurance in Canada and the U.S.A.?

(c) How soon do Government expect to complete their enquiry and initiate schemes?

**The Honourable Shri Jairamdas Doulatram:** (a) The Special Officer appointed has submitted an interim report on the different aspects of Crop Insurance as applied to Indian conditions. A copy of the report is placed on the table of the House. The officer is now engaged in studying the various aspects of the problem of Cattle Insurance.

(b) Such literature on the subjects as could be secured in India through the concerned foreign embassies has been carefully studied.

(c) Schemes could be successfully formulated and initiated only after the views of the Provincial Governments are ascertained on certain basic aspects of the proposals. These views are being ascertained.

**Seth Govind Das:** By what time do Government intend to make at least a little beginning in this connection?

**The Honourable Shri Jairamdas Doulatram:** As soon as provincial governments' replies show that we can make the attempt.

**Shri Mahavir Tyagi:** Why was the officer sent to America? Was it to see the crops or the book-keeping or study Crop Insurance in general?

**The Honourable Shri Jairamdas Doulatram:** He has not been sent to America.

**Shri Mahavir Tyagi:** Is it the proposal to send him to America?

**The Honourable Shri Jairamdas Doulatram:** No proposal at present.

**Shri Sita Ram S. Jajoo:** Will the Indian States also be affected by this?

**The Honourable Shri Jairamdas Doulatram:** Certainly, the Indian States also.

## LOWERING OF PRICES OF IMPORTED FOODGRAINS

**\*500. Prof. N. G. Ranga:** (a) Will the Honourable Minister of Food be pleased to state how the average prices of foodgrains imported in 1948 compare with those of corresponding Indian foodgrains?

(b) Are there any prospects for the lowering of these prices of imports?

**The Honourable Shri Jairamdas Doulatram:** (a) A statement showing the internal market prices of the various kinds of foodgrains in the different parts of the country is placed on the table of the House. The rates paid for imports from different countries are not the same. They vary from country to country and time to time and the weighted average rates C.I.F. Indian Ports for the various categories of foodgrains, during 1948, have also been shown in the last column of the statement for the purpose of comparison.

(b) It is expected that the world prices of foodgrains during 1949 will be lower than in 1948.

+ Not printed in the day's Debate. A copy has been placed in the Library of the House.—  
Ed. of D.

## STATEMENT.

\*Prices on 18th December, 1948.

\*\*Prices on 11th December, 1948.

†Prices on 4th December—1948.

**Shri H. V. Kamath:** Is the price at which a particular foodgrain or cereal is purchased in a foreign country different from the market price of that commodity in that country?

**The Honourable Shri Jairamdas Doulatram:** In that country? No.

## PRODUCTION, CONSUMPTION AND EXPORT OF OIL SEEDS AND VEGETABLE OILS

†\*501. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Agriculture be pleased to state the area under cultivation, and the total production in various provinces and states in India of Sesamum, Groundnut, Rape, Mustard, Linseed and Castorseed, during the years 1946-47 and 1947-48?

(b) What quantities out of the total production of each of these Oilseeds is estimated to be consumed in India for (i) food purposes, and (ii) non-food purposes and what quantity of each is exported?

† Answer to this question laid on the table, the questioner having exhausted his quota.

(c) What quantity of various kinds of vegetable oil has been allowed to be exported?

(d) What is the estimated exportable surplus of each kind of vegetable oil in the current year?

(e) How much of this exportable surplus has already been exported to Australia in Government account?

**The Honourable Shri Jairamdas Doulatram:** (a) to (c). Four statements (I, II, III and IV) giving the required information in respect of the reporting areas of the Indian Union are placed on the table of the House.

(d) Complete figures of production for the current year cannot yet be made available. A statement (No. V) giving the probable surpluses estimated to be available for export from 1948-49 based on the present estimates of production is laid on the table of the House.

(e) Figures of exportable surplus are given in reply to part (d) of the question. The only oilseed/oil which Government of India agreed to supply to Australia is 10,000 tons in terms of linseed oil in fulfilment of a Wheat Agreement with that country. All the quantity agreed to has already been shipped.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [28TH MARCH 1949

**Shrimati Dakshayani Velayudhan:** In view of the fact that there are lakhs of people in Delhi without any accommodation, I would like to know what prompted the Government to have this additional construction?

**The Honourable Shri N. V. Gadgil:** The Government is only examining the suggestion.

**Shri Ram Chandra Upadhyay:** Has the Government received any representation from some members to convert some rooms in the Constitution House into residential quarters?

**The Honourable Shri N. V. Gadgil:** I have not so far received any; if received, it will be considered on merits.

**Shrimati Dakshayani Velayudhan:** I should like to know whether the Honourable Minister is aware of the fact that construction has already been done and is being done.

**The Honourable Shri N. V. Gadgil:** These repairs have been sanctioned two years ago at the suggestion of the Accommodation Sub-Committee of the Central Legislative Assembly. This does not add an inch of space excepting erecting a wall in the verandah inside.

**Shrimati Dakshayani Velayudhan:** I should like to know why this additional expenditure and why additional materials were used when many people.....

**Mr. Speaker:** He has already explained the position. This was in pursuance of the recommendations of the House Committee two years ago.

**Shrimati Dakshayani Velayudhan:** That was two years ago when there was no question of refugees.

**Mr. Speaker:** The honourable member is arguing now. Next question.

#### REMITTANCES FROM INDO-CHINA

\*1436. **Shri T. A. Ramalingam Chettiar** (on behalf of **Shri V. N. Pillai**): (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that the family remittance of Rs. 200 per mensem with an overall limit of Rs. 50,000 per mensem which was permitted to be sent to India through the Indian Consul at Saigon has been recently stopped and if so, why?

(b) What action has been taken to restore this remittance facility?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) Consequent on the Debt Settlement Agreement concluded between France and India last year, the French Indo-China authorities permitted, with effect from 15th June, 1948, remittance facilities to Indians at the rate of Rs. 200 per mensem per family, with an overall limit of Rs. 50,000 per mensem. The remittances were to be sent not through the Indian Consul at Saigon but through normal banking channels. This concession was not limited to any period of time, but was sanctioned by the French Indo-China authorities on a more or less permanent basis. The facility continues in existence and is being fully availed of by the Indian community in Indo-China.

(b) Does not arise.

†Taken in the second round. Printed serially in the day's Debate.

1901

#### STARRED QUESTIONS AND ANSWERS

**Shri T. A. Ramalingam Chettiar:** Are the Government aware that there are very large funds belonging to the nationals of India in Indo-China? Will it not take a number of years for all that sum to be transferred to India?

**Dr. B. V. Keskar:** After the war, the Indians in Indo-China found a lot of difficulty in getting funds over here. Some temporary arrangements were arrived at with the Indo-China Government. But the latest settlement we have made permits the Indians to get a certain amount of money out of Indo-China. It has not been possible to arrange for greater amounts being sent. It is possible that, in future, an arrangement might be arrived at which will permit our nationals to take more funds out of Indo-China.

#### OILSEEDS EXPORT TRADE ADVISORY COUNCIL

\*1437. **Babu Ramnarayan Singh:** (a) Will the Honourable Minister of Commerce be pleased to state whether there is some Advisory Council attached to the Ministry of Commerce in order to advise the Ministry in the matter of export of oilseeds?

(b) Are the Advisory Council Members selected and if so, by whom?

(c) Are the growers of oilseeds represented on the Advisory Council?

(d) Are established shippers authorised to export oilseeds to all countries?

**The Honourable Shri K. C. Neogy:** (a) Yes. There is an Export Advisory Council which advises the Ministry of Commerce in regard to the export trade in all commodities, including oilseeds.

(b) The constitution of the Council provides for twenty-eight non-official members in all. Out of these, sixteen members are nominated by certain chambers and associations, etc., representing various interests in the country's export trade and twelve members are nominated by Government as representatives of interests not otherwise adequately represented on the Council.

(c) No.

(d) During 1948 quotas of oilseeds were fixed destinationwise by the International Emergency Food Council. Licences were given to established shippers for destination to which they had shipped in the past in order to qualify as established shippers. During 1949 destinational quotas will not continue as the International Emergency Food Council has since de-allocated oils and oilseeds. Future licences to established shippers will, therefore, be valid for all permissible destinations.

**Shri M. Tirumala Rao:** With regard to part (d), is the list of established shippers finally settled once for all or is it being reviewed from year to year?

**The Honourable Shri K. C. Neogy:** The list is based upon performance in a particular basic period. But, new-comers are eligible for a proportion of the trade every year.

**Sardar Bhopinder Singh Man:** Arising out of the answer to part (c) that growers of oilseeds are represented on the Advisory Council.....

**The Honourable Shri K. C. Neogy:** I said they are not represented.

**Sardar Bhopinder Singh Man:** Why are not they represented?

**The Honourable Shri K. C. Neogy:** This body is expected to represent the interests of export trade and not the growers as such.

## STATEMENT I

*Average under sesamum, groundnut, rape and mustard, linseed and castorseed in the reporting Provinces and States of Indian Union during the years 1946-47 and 1947-48 (000 acres.)*

\* Figures do not take into account exports made through Maritime States of India and the stations adjacent to India's land frontiers.

## STATEMENT IV

*Quantity of various kinds of Vegetable Oil allowed to be exported during 1946-47 and 1947-48*

(In tons)

| Serial No.          | 1946-47 | 1947-48      |
|---------------------|---------|--------------|
| 1. Groundnut oil.   | 17,000* | 56,648       |
| 2. Linseed oil      | 8,975   | 7,82,07,820  |
| 3. Sesamum seed oil | 890†    | Nil          |
| 4. Castor oil       | 902‡    | Decontrolled |

\* Allowed as advanced quota to Burma against 1947-48 allocation.

† In addition exports were also allowed upto the level of basic period exports, which amount to 480 tons approximately.

‡ Exported to Australia, Middle East, Ceylon and Russia. In addition exports of castor oil to other destinations were also allowed upto 50 per cent. of the basic period exports which amount to 577 tons approximately.

## STATEMENT V

*Estimated exportable surplus*

|                     |                                                                                                                                  |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------|
| 1. Sesamum          | Nil.                                                                                                                             |
|                     | Overall position is likely to be net deficit of approx. 50,000 tons in terms of seed.                                            |
| 2. Linseed          | Approx. about 25,000 tons to 30,000 tons in terms of oil.                                                                        |
| 3. Groundnuts       | A provisional export quota of 60,000 tons in terms of oil has been declared to the I.E.F.C. for export during January—June 1949. |
| 4. Rape and Mustard | Nil.                                                                                                                             |
| 5. Castorseed       | The estimated exportable surplus of castorseed oil is approx. 20,000 tons in the current year                                    |

## MANUFACTURE, IMPORT AND DISTRIBUTION OF AMMONIUM SULPHATE

\*502. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Agriculture be pleased to state the quantity of Ammonium Sulphate manufactured in the country and the quantity imported?

(b) How is this distributed to the various Provinces and States and on what basis is the distribution made?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). About 61,500 tons. The imports of Ammonium Sulphate vary from year to year as these depend upon the allotments by the International Emergency Food Council from various sources. A quantity of 1,18,000 tons was imported against the last fertiliser year from July 1947 to June 1948. A quantity of 1,60,500 tons of Ammonium Sulphate is likely to be imported during the current fertiliser year 1948-49. A statement showing imports from different sources is placed on the table of the House. The quantities of Ammonium Sulphate imported from abroad and the indigenous supplies are pooled together and distributed to the various Provinces and States on the basis of their requirements and in keeping with the available supplies. While fixing quotas of Ammonium Sulphate for various Provinces and States regard is also given to greater chances of increased food production.

## STATEMENT

Quantities of sulphates of Ammonia Imported/likely to be imported against during 1947-48 and 1948-49 respectively

| Source        | Quantity L. tons | Source                     | Quantity L. tons |
|---------------|------------------|----------------------------|------------------|
| 1947-48       |                  | 1948-49                    |                  |
| (1) U. K.     | 56,800           | (1) U.K.                   | 37,312           |
| (2) Canada.   | 1,740            | (2) Canada                 | 4,018            |
| (3) Belgium   | 24,000           | (3) Belgium                | 21,000           |
| (4) U. S. A.  | 17,500           | (4) U.S.A.                 | 19,231           |
| (5) U. S.S.R. | 13,000           | (5) U.S.S.R.               | 64,500           |
|               |                  | (6) Italy                  | 14,500           |
| TOTAL         | 1,18,040 tons    | TOTAL                      | 1,60,461 tons    |
|               |                  | i. e. nearly 1,60,500 tons |                  |

**Prof. N. G. Ranga:** Is it permissible for India to import more of this ammonium sulphate than what is allotted by this International Organisation from any country if that country is willing to spare it to us?

**The Honourable Shri Jairamdas Doulatram:** It is allowed, but again a percentage is fixed—round about 10 to 15 per cent. more than the allocation—beyond which we cannot import. We have to intimate to the I.E.F.C. that this extra quality has been imported.

**Prof. N. G. Ranga:** Are these imports to be brought in here by the State or private agencies or co-operative organisations?

**The Honourable Shri Jairamdas Doulatram:** There are private agencies which make an offer, but we try nowadays to secure directly from Government to Government.

**Shri V. C. Kesava Rao:** May I know whether any preference is given to deficit areas in regard to allotment of ammonium sulphate?

**The Honourable Shri Jairamdas Doulatram:** Preference is given only if the area is in a position to increase food production and arrangements for the same are complete.

**Prof. N. G. Ranga:** What steps have been taken to see that this manure placed at the disposal of provinces for food production is not diverted to non-food crops?

**The Honourable Shri Jairamdas Doulatram:** Ordinarily, we naturally expect that the provincial governments are taking full care and functioning efficiently. It may be that in view of all that has been said, the Centre may consider taking some steps in collaboration with the provinces to ensure that the fertilizers are used for the purpose for which they are allocated.

**Dr. P. S. Deshmukh:** May I know what is the total demand for ammonium sulphate and to what extent it has been possible to meet the demand?

**The Honourable Shri Jairamdas Doulatram:** This year, for instance, I think we shall be able to secure only something like 35 per cent. of what we need.

**Shri B. P. Jhunjhunwala:** Is it a fact that in most cases ammonium sulphate is used where it is not required and instead of doing any good it does harm?

**The Honourable Shri Jairamdas Doulatram:** That is a matter on which there is some difference of opinion and we have appointed a Committee specially to go into the question of manures. So far the experience of many a European country is that there is no harm done unless there is a mistake in

application to soils for which it is not meant, then preventive steps are being taken to prevent injury.

**Shri C. M. Poonacha:** Is it a fact that India is going to get in exchange for certain commodities 5,000 tons of ammonia sulphate from Russia?

**The Honourable Shri Jairamdas Doulatram:** I am not aware.

**Shri C. M. Poonacha:** Would the Government of India consider the advisability of importing ammonium phosphate instead of ammonium sulphate.

**Mr. Speaker:** Order, order. It will be suggestion for action.

**Shri B. P. Jhunjhunwala:** I was not asking whether there was difference of opinion on whether it should be used at all or not. My question was whether it is not being used in a field where it is not required and that instead of doing good it does harm and whether any such cases have been brought to the notice of Government and if so, what steps have been taken to stop it?

**The Honourable Shri Jairamdas Doulatram:** The fertilizers are used in the individual cultivators' fields, I think, under some kind of guidance of the provincial officers and of course, if the provincial officers do not know their business and mistakes are being committed, if any such particular instance is brought to my notice, I shall go into the matter.

#### Ruling re Putting of Questions on Newspaper Reports

**Shri H. V. Kamath:** Before we proceed with the day's business, on a point of clarification of the ruling given by you earlier in the day, may I know...

**Mr. Speaker:** As I have said, all these clarifications can be had outside the House and then I will explain to the House whatever I think is necessary. In fact, I may make this general observation that, whosoever wants to raise any point in respect of these matters, instead of directly raising the point in the House, if he just comes and have a talk with me, it will clarify many of the issues and we shall be saving the time of the House. There will be better understanding also.

**Shri H. V. Kamath:** If that be your ruling, Sir, I have nothing more to say.

#### (b) WRITTEN ANSWERS

#### PRODUCTION, IMPORT AND DISTRIBUTION OF IRON AND STEEL

\*503. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the total quantity of steel and iron imported into India during 1947-48 and the total quantity manufactured in India?

(b) What quantity has been distributed to:

- the Central Government;
- Provincial Governments;
- States;
- Private industry; and
- Co-operative Societies?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The total quantity of steel imported into India and the quantity produced in India during the years 1947 and 1948 were as follows:

| Year | Imports<br>(TONS) | Production<br>(TONS) |
|------|-------------------|----------------------|
| 1947 | 53,000            | 893,000              |
| 1948 | 193,000           | 851,000              |

(b) A statement showing the distribution of steel during the years 1947 and 1948 is placed on the table of the House.

## STATEMENT

NOTE—There is no separate quota for Co-operative Societies.

## INCREASE IN YIELD OF SUGAR CANE AND PROTECTION TO SUGAR INDUSTRY

\*504. **Dr. V. Subramaniam:** (a) Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that experiments have shown that the present yield of sugar cane per acre can be increased twofold?

(b) Have any methods been found out for growing sugar-canes which may mature early and late?

(c) Is it a fact that the Indian Sugar Industry is getting protection from the State, and if so, why and of what nature?

(d) Does that protection benefit the cultivator of sugar cane or the mills and how long will this protection be continued?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes, the yield per acre can be doubled provided adequate quantities of manures are applied and proper facilities of irrigation are afforded.

(b) Yes.

(c) Yes. This is because of the fact that the cost of production of Indian sugar is much higher than that of foreign sugar. The total import duty on foreign sugar works out to Rs. 8-9-6 per maund.

(d) The protection is at present for the benefit of both the cane grower and the Mills as the free import of cheap foreign sugar would not only adversely affect the economy of the mills alone, but of the cane cultivators as well, who depend upon the mills for the utilization of their cane. The question of the continuance of protection to the sugar industry which is due to expire on the 31st March, 1949, is under examination by the Tariff Board.

## DESTRUCTION OF TOBACCO FOR NON-PAYMENT OF TAXES

\*505. **Shri B. N. Munavalli:** Will the Honourable Minister of Agriculture be pleased to state what quantity of tobacco was destroyed every year, during the period between the years 1942 and 1948, for non-payment of taxes?

**The Honourable Shri Jairamdas Doulatram:** In accordance with the rules in the Excise Manual, duty is not levied on waste tobacco and tobacco unfit for consumption or manufacture. Tobacco which is destroyed is only such tobacco as is unfit for consumption or manufacture. During 1947-48 about 67,561 maunds were destroyed. The figures for earlier years for the Indian Dominion

are not available. Government proposes to advise the growers to improve the methods of cultivation and processing by which the proportion of unmarketable low grade tobacco would be reduced. Government also intends to advise the producers to use such tobacco as manure as it is unfit for consumption or manufacture.

## STATE-OWNED FACTORY FOR MANUFACTURE OF ELECTRICAL GOODS

\*506. **Shri B. N. Munavalli:** (a) Will the Honourable Minister of Industry and Supply be pleased to refer to the answer to starred question No. 680 asked on the 1st September, 1948 and state whether a final settlement has been arrived at between the Government of India and the representatives of certain foreign companies regarding heavy electrical machinery for the establishment of a state-owned factory in India for manufacturing electrical goods?

(b) If so, what are the names of those companies and to what countries do they belong?

(c) Do Government propose to place a copy of the agreement on the table of the House?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). The Government have entered into an agreement with Messrs. Associated Electrical Industries (India) Ltd. of the U. K. and Messrs. International General Electric Company Inc., of the U.S.A. for drawing up project reports which will, *inter alia*, deal with possible sites for the location of the factory, the capital cost involved, categories of plant to be manufactured, raw materials required, and cost of production, etc. The project reports, are expected to be ready within the next six months.

(c) Copies of the Agreements are laid on the table of the House.

## RAILWAY ACCIDENT NEAR KAMARBANDHA STATION, ASSAM

\*507. **Srijut Kuladhar Chaliha:** (a) Will the Honourable Minister of Communications be pleased to state the number of persons killed and the number injured in the accident in November 1948 near Kamarbandha Station on the Assam Railway?

(b) What steps are Government going to take to prevent the recurrence of such accidents?

(c) Who is responsible for the supervision of this part of the railway track?

(d) When did the officer concerned supervise it?

(e) Were the fish plates properly fixed?

(f) Did the officer report that there was something wrong with the line and if so, when?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) Fourteen persons were killed on the spot and three died subsequently. The number of injured was forty.

(b) The Government Inspector of Railways is conducting the Statutory Inquiry into the accident and the steps to be taken to prevent the recurrence of such accidents will be decided on receipt of his report and his recommendations.

(c) The Permanent Way Inspector, the Assistant Engineer and the Executive Engineer.

(d) Prior to the accident, the portion of the line where the accident occurred was inspected by the Permanent Way Inspector on the 9th November, 1948, and by the Assistant Engineer on the 18th October.

† Not printed in the day's Debate. A copy has been placed in the Library of the House.—  
Ed. of D.

(e) and (f). The indication from the investigation so far made by the Government Inspector of Railways is that fish plates were properly fixed. There was no report that there was any thing wrong with the line.

#### OVER-BRIDGE AT MARIANI ON ASSAM RAILWAYS

**\*508. Srijut Kuladhar Chaliha:** (a) Will the Honourable Minister of Railways be pleased to state whether Government are aware that though the overhead bridge at Mariani on Assam Railways was constructed long ago the staircase has not been completed till now owing to want of wooden planks?

(b) Are Government aware that about two miles away from Mariani there is a Government Forest Reserve where planks are available in large quantities?

(c) What steps are Government going to take for completing the bridge?

**The Honourable Shri K. Santhanam:** (a) Yes.

(b) Yes; an indent for the planks required for the overbridge has been placed on the Forest Department.

(c) Part supply of the planks has been received and has been utilised and the balance is expected shortly. The decking of the overbridge will be completed within three weeks from the receipt of timber at the site of work.

#### COUNTRY-BOAT BUILDING INDUSTRY AND INLAND WATERWAYS

**\*509. Shri Moturi Satyanarayana:** Will the Honourable Minister of Transport be pleased to state:

(a) whether any committee or agency has been set up for exploring and investigating the possibilities of our inland waterways;

(b) whether any encouragement is being offered to the country-boat building industry;

(c) the total number of boats that are being used for inland waterway traffic; and

(d) whether Government contemplate any increase in the inland waterway traffic?

**The Honourable Shri K. Santhanam:** (a) No. Inland waterways and traffic thereon are provincial subjects. But the Central Waterpower Irrigation and Navigation Commission undertakes investigations and surveys of rivers and canals in connection with the multi-purpose river valley development projects and advises Provincial Governments regarding their navigational problems when required.

(b) Yes.

(c) The information is not readily available.

(d) As navigation forms an essential and important feature of all multi-purpose river valley development projects, an increase in the inland waterway traffic is expected to result when such schemes are completed.

#### MOTOR BOATS FOR PASSENGER TRAFFIC ON INLAND WATERWAYS

**\*510. Shri Moturi Satyanarayana:** Will the Honourable Minister of Transport be pleased to state:

(a) whether any scheme is under the contemplation of Government to introduce motor-fitted boats for passenger traffic on inland waterways;

(b) whether any agency has been established or is proposed to be established to co-ordinate irrigation and transport in the navigable canals;

(c) whether Government propose to consider the advisability of diverting a portion of passenger traffic from railways to navigable rivers and canals; and

(d) whether Government propose to institute an Investigation Committee to find out the possibility of making navigation cheaper?

**The Honourable Shri K. Santhanam:** (a) No.

(b) An attempt at such co-ordination is being made in all new river valley projects under construction or investigation.

(c) No. Executive responsibility for "inland waterways and traffic thereon" rests with the Provincial Governments. Provision of steamer services for catering to passenger traffic on navigable rivers and canals is therefore primarily a matter for the Provinces to consider.

(d) There is no intention on the part of the Government of India to appoint an Investigation Committee at present.

#### MANUFACTURE OF VEGETABLE GHEE AND ITS EFFECT ON HEALTH

**\*511. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Agriculture be pleased to state whether any definite policy has been fixed by Government to encourage or discourage the manufacture of vegetable ghee now sold under different names?

(b) Was any research made as to its qualities and its action and reaction upon human beings?

(c) If not, do Government propose to create a body to test its qualities?

**The Honourable Shri Jairamdas Doulatram:** (a) The present policy of the Government of India as explained by the Honourable Dr. Rajendra Prasad in the Council of State on the 11th March, 1947 is not to encourage the expansion of the Vanaspati Industry beyond what Government is already committed to. Government have reserved their decision about the future of the Vanaspati Industry till they are in possession of conclusive evidence about the nutritive qualities or drawbacks of Vanaspati which is under investigation by Scientists.

(b) and (c). Yes, but the research carried out in the past has not been conclusive and further research is being done.

#### TRAFFIC BOTTLENECK AND RESTRICTIONS ON INTER-PROVINCIAL MOVEMENTS OF FOODGRAINS

**\*512. Prof. N. G. Ranga:** Will the Honourable Minister of Food be pleased to state:

(a) whether the effects of the traffic bottleneck and restrictions on inter-provincial movements of foodgrains have been studied and if so, what is their magnitude; and

(b) what steps are being taken to see that greater rations are made possible with the available food stocks?

**The Honourable Shri Jairamdas Doulatram:** (a) There have been a few bottlenecks on railways making transport difficult but it has been possible on those occasions to make special arrangements in consultation with the Ministries of Transport and Railways for transporting controlled foodgrains under the basic plan and no serious inconvenience has been so far caused to recipient provinces. The movement of decontrolled foodgrains not falling under the basic plan is regulated by a special procedure under which consignments are registered at the despatching railway stations and special arrangements, when necessary, are made by the railway to move them as quickly as possible. A special study of the effects of traffic restrictions on inter provincial movement of decontrolled foodgrains has not been made.

(b) The scale of ration in each area depends on the food stocks available with them. Instructions have been issued to provinces and states to introduce maximum rationing, with a view to ensure equitable distribution of the available supplies, and the progress made in each area is being watched.

**"WAR QUALITY" RAILWAY ENGINES RECEIVED FROM CANADA**

\*513. **Shri Mahavir Tyagi:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that half a dozen railway engines were recently received from Canada, but they were of a condemned "war quality" and could not be put on rails without extensive repairs?

(b) Is it also a fact that to put these recently received engines in proper order a number of old engines had to be dismantled and parts thereof used to supplement the missing parts of these new engines?

(c) How many more such new engines are still to come from Canada?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Upto 15th January 1949, 19 new CWD locomotives ordered in 1947 were received from Canada. The reply to the remaining part is in the negative.

(b) No.

(c) As on 15th January, 1949, 131 more of such locos. were yet to be received from Canada.

**TRAVELLING ALLOWANCES TO OFFICERS NOT ENTITLED TO GO BY AIR**

\*514. **Shri Satish Chandra:** Will the Honourable Minister of Food be pleased to state:

(a) whether it is a fact that many officers of the Ministry of Food and its subordinate offices who were not entitled to air-journey travelled by air during the year 1948, and that their travelling allowance bills had to be accorded *ex-post facto* sanction; and

(b) whether the practice of paying tonga-hire charges to class III servants for attending office on Sundays and other holidays or for sitting late due to pressure of work has been discontinued as a measure of anti-inflation drive?

**The Honourable Shri Jairamdas Doulatram:** (a) There was no such case in respect of officers stationed at headquarters. *Ex-post-facto* sanctions were, however, accorded in the case of certain officers in the subordinate offices but the distance covered was not short in any case and air journeys were undertaken at short notice to save public time or to avoid unsafe long rail journeys through Pakistan areas. A list of such cases is placed on the table of the House.

(b) Yes; this was done in pursuance of general instructions issued by the Ministry of Finance.

**STATEMENT**

*'Ex post Facto' sanction to the Air Journeys issued in 1948*

| Serial No. | Name of the officer  | Designation                       | Date of journey | Particulars of Journey |             |
|------------|----------------------|-----------------------------------|-----------------|------------------------|-------------|
| (1)        | (2)                  | (3)                               | (4)             | From                   | To          |
|            |                      |                                   |                 | (5)                    | (6)         |

**RESUMPTION OF TRAIN SERVICE BETWEEN RATLAM AND AJMER**

\*515. **Shri Sita Ram S. Jajoo:** (a) Will the Honourable Minister of Railways be pleased to state whether the Railway administration proposes to resume the 31 Up and 32 Down trains between Ratlam and Ajmer?

(b) If not, will the administration consider extending these trains from Ratlam to Neemuch only?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) and (b). When power is available, the reintroduction of 31 Up and 32 Down trains between Ratlam and Ajmer, or between Ratlam and Neemuch, will be considered along with other trains, which were similarly cancelled during the war.

**WATER SUPPLY IN SUMMER AT STATIONS BETWEEN AJMER AND KHANDWA**

\*516. **Shri Sita Ram S. Jajoo:** (a) Will the Honourable Minister of Railways be pleased to state whether the attention of Government has been drawn to the fact that in summer most of the water taps in the railway-stations on the meter-gauge railway between Ajmer and Khandwa are blocked?

(b) If so, what alternative arrangements for water supply are under consideration of Government?

**The Honourable Shri K. Santhanam:** (a) The information available with Government is that these water taps are kept open at train times.

(b) Does not arise in view of the reply under (a).

**OVER-BRIDGES AT GWALIOR AND INDORE LEVEL CROSSINGS**

\*517. **Shri Sita Ram S. Jajoo:** (a) Will the Honourable Minister of Railways be pleased to state what steps have been taken or are being taken to construct overbridges at Gwalior and Indore level-crossings?

(b) If no steps have been or are being taken, do Government propose to consider this question?

**The Honourable Shri K. Santhanam:** (a) Negotiations for the construction of an overbridge at Gwalior are being finalized. The cost of the proposed overbridge is to be shared by the G. I. P. Railway and the Madhya Bharat Government, whose approval to the incidence of cost is awaited. In regard to the

overbridge at Indore, plans and estimate are under preparation by the B.B. and C.I. Railway.

(b) The question does not arise.

#### NATIONALISATION OF SHIP-BUILDING YARD AT VIZAGAPATAM

\*518. **Shrimati G. Durgabai:** Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that Government have decided to nationalise the Ship Building Yard at Vizagapatam at an estimated cost of four crores of Rupees?

**The Honourable Dr. Syama Prasad Mookerjee:** Government have approved the principle that the Vizagapatam shipyard should be acquired by the State, subject to satisfactory terms and conditions being agreed upon. The matter is now under examination and no final decision has yet been taken.

#### GAZETTED AND UPPER SUBORDINATE OFFICERS IN M. AND S. M. RAILWAY

\*519. **Shrimati G. Durgabai:** Will the Honourable Minister of Railways be pleased to state the number of Gazetted and Upper Subordinate Officers in the Madras and Southern Mahratta Railway?

**The Honourable Shri N. Gopalaswami Ayyangar:** The numbers of Gazetted Officers and Upper Subordinates on the M. and S. M. Railway are 165 and 626 respectively.

#### IMPROVEMENTS OF STATIONS ON M. AND S. M. RAILWAY

\*520. **Shrimati G. Durgabai:** Will the Honourable Minister of Railways be pleased to state whether any improvements have been made to any station on the Madras and Southern Mahratta Railway during the last 15 years and has any station been remodelled?

**The Honourable Shri N. Gopalaswami Ayyangar:** During the last fifteen years, eight stations have been remodelled and various improvements effected to 73 other stations.

#### HARDSHIPS TO PASSENGERS ON M. AND S. M. RAILWAY

\*521. **Shrimati G. Durgabai:** Will the Honourable Minister of Railways be pleased to state whether Public Relations Officers have been advised to go on the line and examine the hardships caused to the passengers for want of proper facilities and if so, has any report been submitted by them?

**The Honourable Shri N. Gopalaswami Ayyangar:** It is not his duty to go on the line and examine the alleged hardships caused to the passengers. His duty is to maintain liaison with public bodies newspapers and the likes. It is the duty of the Traffic Officers to enquire into such matters.

#### COMMODITIES UNDER CONTROL IN CENTRALLY ADMINISTERED AREAS

\*522. **Lala Raj Kanwar:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) the names or kinds of commodities consumed in the Centrally Administered Areas, the production, procurement or distribution of which is at present under control; and

(b) the nature of control exercised in respect of each such commodity?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). I place two statements on the table of the House.

#### STATEMENT I

*List of commodities consumed in the Centrally Administered areas the production, procurement or distribution of which is under control*

1. All food grains, viz., paddy, rice, bajra, jowar, maize, gram, barley and ragi.\*
2. Cotton, cloth and yarn.

3. Paper.
4. Newsprint.
5. Coal and Coke.
6. Iron and Steel (including scrap, defectives and cuttings).
7. Cement.
8. Kerosene oil and High Speed Diesel.
9. Petrol.
10. Salt.

\* These items are generally controlled in the centrally administered areas except in the case of the Andaman and Nicobar Islands where rice and wheat which are supplied by the Food Ministry are controlled.

#### STATEMENT II

*Nature of control exercised in respect of the commodities consumed in the Centrally Administered Areas*

1. *Food Grains.*—(i) *Delhi.*—The export and import of all foodgrains into and out of Delhi are prohibited except under permits issued by the local authorities. Their purchase, sale and storage for sale in quantities exceeding 10 mds. are prohibited except under a permit. Wheat, rice, maize, barley and gram are rationed.

(ii) *Coorg.*—Coorg is surplus in paddy and exports are made on Government account under Central Basic Plan. The purchase of rice, paddy and ragi, sale and storage for sale in excess of ten maunds are prohibited. Export of these foodgrains as well as wheat and gram which are distributed from imports on Government account are prohibited.

(iii) *Ajmer-Merwara.*—The export of all foodgrains is prohibited and their purchase, sale or storage exceeding twenty maunds are subject to licensing by the Government. Rice, wheat, barley, gram and maize are rationed.

(iv) *Kutch.*—Detailed information is not available. Rice, wheat, bajra, milo and gram are under ration.

(v) *Himachal Pradesh.*—The purchase, sale and storage in quantities exceeding 10 mds. of wheat, rice, paddy, maize, gram and barley and their exports outside except under a license are prohibited.

(vi) *Andaman and Nicobar Islands.*—Rice and wheat are under ration.

2. *Cotton, Cloth and Yarn.*—(i) *Cotton.*—There is control over the prices of cotton wherein the floors and ceilings have been fixed. All the Centrally administered areas have been asked to fix up the floor and ceiling prices accordingly for the year 1948-49.

(ii) *Cloth and Yarn.*—There is control over prices, production and distribution of cotton textiles.

3. *Paper.*—Central control is exercised in regard to production, distribution, consumption and price.

4. *Newsprint.*—Under the Newsprint Control (No. 2) Order, 1947, which extends to all the provinces of the Dominion of India including the Centrally Administered Areas, the use of newsprint is restricted to the printing of newspapers. The said Order fixes the maximum number of pages and the minimum, maximum prices of daily newspapers and the maximum percentage of space for advertisement matter. Unrestricted use of newsprint is now allowed for purposes other than the printing of newspapers. Maximum retail prices at which newsprint can be sold in the country are also fixed. Import of newsprint from dollar area is subject to licensing. Imports from sterling and soft currency areas are covered by Open General Licence.

5. *Coal and Coke.*—The control over production and distribution is exercised under the Colliery Control Order, 1945 which was originally issued in 1944 under the Defence of India Rules but which now continues to be in force by virtue of the powers assumed by the Central Government under the Essential Supplies (Temporary Powers) Act, 1945.

The present control broadly covers:

- (1) Regulation of production, despatches and distribution of coal/coke from collieries.
- (2) Fixation and revision of pit-head prices of coal/coke and the middlemen's commission.
- (3) Collection of statistics from colliery owners regarding raisings/despatches/stocks, etc.
- (4) Regulation and control over the fragmentation and opening and re-opening of mines.

The centrally administered areas have been delegated powers to make orders under section 3 of the Essential Supplies (Temporary Powers) Act, 1946 in the following matters in respect of coal/coke allocated to them each month by the Central Government :—

- (i) to fix the prices of coal/coke on the basis of the statutory prices fixed by the Central Government, for retail sale-domestic purposes, etc., in the local market;
- (ii) to regulate distribution and allocation of coal/coke supplies against the quota allotted by the Central Government;
- (iii) to requisition and acquire stocks of coal/coke lying with a consumer/stockist who received his quota out of local administration's allotments and supply the same to important consumers to avoid closure of essential services; and
- (iv) to requisition and acquire coal/coke stocks of consumers receiving supplies from Central Government quota with the permission of the Central Government.

6. **Iron and Steel.**—Control over production and distribution of steel and scrap is exercised under (i) the Iron and Steel (Control of Production and Distribution) Order, 1941 and (ii) Iron and Steel (Scrap Control) Order, 1943. The main provisions of these control orders are the following :—

No steel or scrap can be acquired by consumers from producer or stockholders, and no steel or scrap can be disposed of by producers and stockholders, except under the authority of an order issued by competent authority.

The Iron and Steel Controller or an officer empowered in this behalf can direct the sale of any iron and steel or scrap, acquire without his permit, prohibit removal of any stock of steel and demand any information from any person holding stocks of steel or scrap for the purpose of enforcement of control.

Prices are different for different types of steel and scrap and are fixed by notification in the official Gazette: No person can sell or buy any iron or steel or scrap at prices exceeding those fixed by the Controller.

The iron and steel or scrap in respect of which the relevant control order is contravened can be confiscated.

The Controller regulates the production of steel in accordance with the country's demand. He also regulates the creation of new productive capacity.

7. **Cement.**—There is no Central Statutory control over cement. All Provincial Governments (except Assam) and Delhi Administration however, have enforced statutory control within their respective areas. This control relates to distribution and prices. Central Government also exercise informal control through an agreement with the producers whereby delivery of cement is made by them only against permits issued by officers appointed by Government for that purpose.

8. **Kerosene Oil and High Speed Diesel Oil.**—Distribution and price controls on kerosene are exercised by the Chief Commissioners in their respective areas under powers delegated to them by the Government of India under the Essential Supplies (Temporary Powers) Act, 1946.

Distribution control in respect of High Speed Diesel Oil is exercised through Messrs. Esso-Burmah-Shell Oil Co. Limited, Standard Vacuum Oil Co., Caltex (India) Limited, Indo Burma Petroleum Co. and Burma Oil Co. (India Trading) Limited who have been directed to distribute the commodity in accordance with the priority list attached.

9. **Petrol.**—Only distribution is controlled i.e., civil consumption is restricted to the limit of sanctioned allocation.

10. **Salt.**—The production of salt in units of over 10 acres requires a license in centrally administered areas as in the case of Provinces. Price and distribution of salt is controlled in Delhi, Ajmer-Merwara and Coorg.

#### ANNEXURE

##### REVISED HIGH SPEED DIESEL OIL CONTROL PRIORITY LIST

Priority I.—Defence Services, C. P. W. D. (Aviation Wing), Port Trusts (for dredging operations), Aircraft Manufacture (Hindustan Aircraft Limited), Oil Companies' own use, Bankers to ships and Port Craft, Aeronautical Communication Services, Posts and Telegraphs Services.

Priority II.—Production of food by irrigation or ploughing and procurement of fish by Government or private parties, refrigeration for conservation of food sponsored by Government, Hydel projects, Railways, Water Works and Electric Supply Undertakings, Fertilizer Factories and Gold Mines.

Priority III.—Mining and quarrying, Sugar Mills, Public Transport Companies, Road Construction Works, Construction of new towns, Construction Works—factories, housing, etc., Steel Rolling Mills, Textile Mills & Oil Mills, Engineering Workshops, Glass Industries and Chemical Industries.

Priority IV.—Such users, as River Transport, Dairies, Ice Factories, Rice and Flour Mills, Distilleries, Universities and Institutions, Cinemas, Private Lighting Sets and other parties not covered by Priorities I, II and III.

Note.—Any *ad hoc* supply required for a special purpose not covered by the above list will be referred to Petroleum Officer for consideration and sanction, if necessary.

#### ALLOCATIONS

##### INITIAL ALLOTMENT :

Priority I.—All parties to be allotted their full estimated requirements during 1948.

Priority II.—All parties to be allotted upto 75 per cent. of their estimated requirements during 1948.

Priority III.—All parties to be allotted upto 50 per cent. of their estimated requirements during 1948.

Priority IV.—No allotment.

SECOND ALLOTMENT : (Provided any quantity is left over after the initial allotment has been made).

Priority II.—All parties to be allotted their full estimated requirements during 1948.

Priority III.—All parties to be allotted upto 75 per cent. of their estimated requirements during 1948.

Priority IV.—All parties to be allotted upto 50 per cent. of their estimated requirements during 1948.

THIRD ALLOTMENT : (Provided any quantity is left over after the initial and second allotments have been made).

Priorities III and IV.—All parties to be allotted their full estimated requirements during 1948 in order of priority.

#### GENERAL EXPLANATIONS AND RULES FOR GUIDANCE

1. Percentage allocations as given above are fixed on the assumption that supplies during 1948 will be available at a rate greater than the quantity consumed during 1947. Percentages may be revised, if necessary, on the basis of the total quantity available for distribution.

2. Estimated requirements during 1948 will be based normally on the Oil Companies' assessment of consumption except in respect of Defence Services. Any disagreement in this connection may be referred to Government (Petroleum Division) which will endeavour to settle the issue after consulting trade associations if any, or Government Departments concerned, such as the Textile Commissioner, Electrical Commissioner, Railway Board, Ministry of Agriculture, etc., etc.

3. Quarterly quotas will be allocated to individual consumers which should be uplifted in equal monthly instalments unless the oil companies find it convenient to make one single delivery to suit stock and transport availability. Any quota or part of a quota not drawn by any consumer at the end of the quarter for any reason whatsoever, will lapse and will be made available for other consumers in the agreed order of priority.

#### UNSTARRED QUESTIONS AND ANSWERS

##### FOODGRAINS IMPORTED INTO INDIA

28. **Shri K. Hanumanthaiya:** (a) Will the Honourable Minister of Food be pleased to state the quantities of different kinds of foodgrains that were annually imported into India for the last eight years?

(b) What are the countries from which the said foodgrains were imported?

(c) What are the amounts of money expended for the purchase of the said foodgrains and their transshipment, and on other charges, stating the amounts separately under each head?

**The Honourable Shri Jairamdas Doulatram:** (a) to (c). A statement showing the requisite information is placed on the table of the House. The details regarding sources of supply prior to September 1943 when imports began on Government account are not available.

## Statement showing the quantities of food grains imported into India from 1941-42 to 1948-49 and their values

Quantities in '000 tons,  
Values in lakhs of rupees

**Shri R. K. Sidhva:** May I know the reason why quota of established shippers have been considerably reduced compared to previous years?

**The Honourable Shri K. C. Neogy:** I do not know what the honourable member means. The quota has been ten per cent. for some time for newcomers.

**Babu Ramnarayan Singh:** What are the conditions according to which newcomers are taken as shippers?

**The Honourable Shri K. C. Neogy:** You mean the selection of the newcomers?

**Babu Ramnarayan Singh:** What are the qualifications of new comers?

**The Honourable Shri K. C. Neogy:** They should be those who have a connection with the commodity concerned, but may not have effected any export during the basic period, but they should have some connection with the commodity concerned.

**Shri Mahavir Tyagi:** Is it a fact that the Advisory Committee decided to allot ninety per cent. of oil-seeds export to established shippers and ten per cent. to newcomers?

**The Honourable Shri K. C. Neogy:** It is not a question of the Advisory Council deciding anything. The Advisory Council merely advised the Government that ninety per cent. should go to the established shippers.

**Shri S. V. Krishnamoorthy Rao:** How is it that a statutory Body like the Indian Oil-seeds Committee is not represented on the Advisory Council?

**The Honourable Shri K. C. Neogy:** This Advisory Committee has been in existence for some time and no new additions have been made to its membership except in the case of one or two. One member was added definitely to represent the oil and oilseeds interests of Southern India.

**Shri S. V. Krishnamoorthy Rao:** My question is : How is it that a statutory body like the Indian Oil-seeds Committee is not represented on the Advisory Council?

**The Honourable Shri K. C. Neogy:** I could not say. It may be because the Advisory Committee was intended to represent the interests of those who were directly concerned with carrying on foreign trade and not merely the interests of the agriculturists.

**Shri Deshbandhu Gupta:** May I know, Sir, what is the basic period on the basis of which established shippers are given licenses?

**The Honourable Shri K. C. Neogy:** The basic period in this case is January 1947 to June 1948.

**Shri S. V. Krishnamoorthy Rao:** Is the Honourable Minister aware that the Indian Oil-seeds Committee is concerned with both import and export of oil-seeds also?

**The Honourable Shri K. C. Neogy:** I should like to examine the position.

**Shri M. Tirumala Rao:** With regard to the established shippers, have Government got a policy of reviewing them, whether genuine shippers are included in the basic period of 1947-48?

**The Honourable Shri K. C. Neogy:** Actually those who effect shipments are taken to be qualified, and of course, we try to find out if everybody who applies, did actually effect any shipment in that period.

**Babu Ramnarayan Singh:** Is it a fact that the quota referred to are classified as 'fixed quota', 'surplus quota' and 'advance quota' and if so, what do they signify?

**The Honourable Shri K. C. Neogy:** That would depend upon the circumstances that may arise in any particular licensing period. If my honourable friend wants to know more details about it, I could give him the detailed scheme later on.

**Shri Mahavir Tyagi:** Is it a fact that 250,000 tons of oilseeds of the total export has been decided by the Government?

**The Honourable Shri K. C. Neogy:** I have not got the figures just now in front of me.

**Shri Mahavir Tyagi:** May I know, Sir, if it is a fact that despite the decision of the Government that ninety per cent. of the export quota shall be given to established shippers and the rest ten per cent. to newcomers, the Department has in fact distributed only 50,000 tons on this basis, and the rest of 200,000 maunds they are distributing indiscriminately without taking into consideration the proportion fixed by the Honourable Minister?

**The Honourable Shri K. C. Neogy:** I should not think so.

**Sardar Bhopinder Singh Man:** Is it the opinion of the Government that the growers of oil-seeds have no interest in the exports?

**Mr. Speaker:** Order, order.

**Shri B. P. Jhunjhunwala:** How long this monopoly to the established shippers is going to be continued so as to deny the newcomers?

**The Honourable Shri K. C. Neogy:** It is not a question of monopoly. It is a question of stabilizing the foreign trade of the country in the hands of those who are accustomed to carry on such trade.

#### HAND DECORTICATOR INVENTED BY PRODUCERS ORGANISATION

**\*1438. Babu Ramnarayan Singh:** (a) Will the Honourable Minister of Commerce be pleased to state whether it is a fact that in certain parts of the country a hand Decorticator invented by the Producers Organisation is profitably working as remover of groundnut husk from seeds?

(b) If so, what is the encouragement which Government are affording for popularising it?

**The Honourable Shri K. C. Neogy:** The question should have been addressed to the Honourable Minister of Agriculture. It has accordingly been transferred to the list of questions for the 30th March 1949 when the Honourable Minister of Agriculture will answer it.

#### ORISSA GOVERNMENT'S CONTROL OVER COAL MINES LABOUR WELFARE AND HOUSING FUNDS

**\*1439. Shri Biswanath Das:** Will the Honourable Minister of Labour be pleased to state:

(a) the authority which is in charge of the Coal Mines Labour Welfare Fund as also the Coal Mines Housing Fund in the case of (i) Talcher coal mines and (ii) the Ebb river and the Rampura coal mines of the Sambalpur District in Orissa;

(b) the amount of money collected in each of those mines in each of the past three years as also the money spent each year for specified purposes in each case; and

(c) the nature of the control the Government of Orissa have on these funds;

1947-48 1948-49 upto Dec. 1948.

## PRODUCTION OF SILK YARN AND SILK FABRICS

**29. Shri K. Hanumanthaiya:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the quantity of silk yarn and silk fabrics produced in India during the years 1936-37, 1937-38, 1938-39 and also 1942-43, 1944-45, 1945-46, 1946-47 and 1947-48?

(b) What were the prevailing prices of silk yarn and fabrics during the years referred to above?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). Statements (I and II) are placed on the table of the House.

## STATEMENT I

*Production of Raw Silk and Sil Fabrics in India.*

| Financial Year.   | Production of raw silk. | Production of sil ;<br>Fabrics (in million<br>yards) |
|-------------------|-------------------------|------------------------------------------------------|
|                   | (in l s.)               |                                                      |
| 1936-37 . . . . . | 1,226,000               | 30.6*                                                |
| 1937-38 . . . . . | 1,500,000               | 34.1*                                                |
| 1938-39 . . . . . | 1,000,000               | 23.2*                                                |
| 1942-43 . . . . . | 1,724,000               | 10.5                                                 |
| 1944-45 . . . . . | 1,993,000               | 12.0                                                 |
| 1945-46 . . . . . | 2,030,000               | 12.4                                                 |
| 1946-47 . . . . . | 2,100,000               | 17.0                                                 |
| 1947-48 . . . . . | 2,155,000               | 17.5                                                 |

\*The production of silk fabrics during the pre-war years was more on account of larger imports of raw silk.

## STATEMENT II

(i) *Prevailing Prices of Raw Silk per lb.*

|                   |                                            |                                                                                 |
|-------------------|--------------------------------------------|---------------------------------------------------------------------------------|
| 1936-37 . . . . . | Rs. 3 15 to Rs. 5 12                       | } Prices for Charka raw silk. Those for<br>Filature raw silk are not available. |
| 1937-38 . . . . . | Rs. 4 2 to Rs. 5 11                        |                                                                                 |
| 1938-39 . . . . . | Rs. 3 9 to Rs. 4 8                         |                                                                                 |
| 1942-43 . . . . . | Rs. 15 to Rs. 16                           | } Prices for Filature raw silk. Those for<br>Charka raw silk are not available. |
| 1944-45 . . . . . | Rs. 25 to Rs. 30                           |                                                                                 |

## PERMITS FOR IMPORT OF FOOD FROM EAST PUNJAB INTO MADRAS

**30. Master Nand Lal:** (a) Will the Honourable Minister of Food be pleased to state the amounts of permits for importing food from East Punjab to Madras granted in 1948 to each of the firms and individuals of the following categories together with their names:

(i) firms or the individuals dealing with import business before the partition of India;

(ii) firms or individuals dealing with import business of food after the partition of India;

(iii) firms or individuals who have started their business with these permits; and

(iv) firms or individuals who are refugees?

(b) On what basis have applications for permits been accepted or rejected?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). Export of cereals from one Province to another has been on Government account and no question of permits arises. The honourable member is presumably referring to permits for the export of gram which was moved on trade account. It was for the East Punjab Government and not the Central Government to issue these permits and I do not possess the information asked for.

## PRODUCTION, CONSUMPTION, EXPORT AND IMPORT OF COTTON AND WOOLLEN CLOTH

**31. Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) the total yardage of cloth—cotton and woollen of all varieties—produced in India during the year 1947-48;

(b) the total yardage exported to Pakistan and other foreign countries;

(c) the total yardage imported into India from foreign countries; and

(d) the total yardage of annual consumption of cotton and woollen cloth in India?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) to (d). A statement is placed on the table of the House.

## STATEMENT

|            | Quantity of cloth exported.                                                             |                           | Quantity of cloth imported in India from foreign countries. | Quantity of annual consumption of cloth in India. |
|------------|-----------------------------------------------------------------------------------------|---------------------------|-------------------------------------------------------------|---------------------------------------------------|
|            | Total quantity of cloth of all varieties produced in India during 1947-48<br>(In yards) | To Pakistan<br>(In yards) | To other Foreign countries.<br>(In yards)                   | (In yards)                                        |
| 1. Cotton  | 5,077,827,000                                                                           | †383,660,000              | 246,407,000                                                 | †4,443,412,000                                    |
| 2. Woollen | 5,000,000                                                                               | 11,719                    | 779,844                                                     | 3,363,000<br>(Approximately)                      |

\* This includes a quantity of 1,200,000,000 yards of Handloom cloth.

† In compliance with the standstill agreement with Pakistan the usual allocation of cloth quota to Provinces which comprise Pakistan was being continued, after partition till 31st December 1947. As a result of this continuance of making allocations after partition this quantity of cloth was allotted to Pakistan.

‡ (Cloth produced + cloth imported) minus (cloth exported + defence offtake.)

## CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES

(PART I—QUESTIONS AND ANSWERS).

Monday, 21st February, 1949.

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS

#### (A) ORAL ANSWERS

#### INTEGRATION OF SOUTH WEST AFRICA WITH UNION OF SOUTH AFRICA

\*523. **Shri R. K. Sidhva:** (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that the Indian proposals at the U.N.O. requesting the South African Government not to proceed with measures amounting to the integration of South West Africa into the Union of South Africa and also to send a commission of enquiry to study the conditions in the mandated territory were lost?

(b) *In favour.*—(i) Ecuador, Haiti, India, Iran, Liberia, Mexico, Paraguay, (ii) voted against, (iii) remained neutral and (iv) abstained from attending the meeting?

(c) Is the rejection of the Indian proposals in contravention of the fundamental provisions of the U.N.O. Charter and if so, what steps do Government intend to take in the matter?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) Yes, an amendment that effect moved by India to a resolution sponsored by some other countries at a meeting of the Fourth Committee of the U. N. General Assembly was defeated.

(b) *In favour.*—(i) Ecuador, Haiti, India, Iran, Liberia, Mexico, Paraguay, Philippines, Poland, Ukrainian Soviet Socialist Republic, Venezuela, Yugoslavia, Brazil, Burma, Byelorussian Soviet Socialist Republic, China, Colombia, Costa Rica, Cuba, Czechoslovakia, Union of Soviet Socialist Republics.

(ii) *Against.*—Dominion Republic, El Salvador, France, Greece, Iceland, Luxembourg, Netherlands, New Zealand, Nicaragua, Norway, Panama, Sweden, Turkey, Union of South Africa, United Kingdom, United States of America, Uruguay, Australia, Belgium, Canada, Chile, Denmark.

(iii) *Neutral.*—Egypt, Ethiopia, Iraq, Lebanon, Pakistan, Peru, Saudi Arabia, Siam, Syria, Afghanistan, Bolivia.

(iv) *Absent from the meeting.*—Argentina, Guatemala, Yemen, Honduras.

(c) The first part of this question calls for an expression of opinion and a legal interpretation of the Charter. Government consider it inadvisable to do so at present in answer to a question. Government's view point will be stated at the right time. There is nothing that the Government of India can do at present in regard to this matter. They will consider in due course what instructions should be given to the Indian Delegation when the matter next comes before the General Assembly.

**Shri R. K. Sidhva:** May I know whether Britain voted for or against?

**Dr. B. V. Keskar:** Against.

**Shri R. K. Sidhva:** May I know whether the leader of the Indian Delegation Mrs. Vijayalakshmi Pandit expressed great horror at this and at the same time stated that she was seriously considering what the next step that should be taken in the matter is, and whether the Government are considering the next step that should be taken?

**Dr. B. V. Keskar:** The Government are considering what steps should be taken next and will in due time, at the next Session of the Assembly express it publicly. At present it is not possible to state what form it will take.

**Seth Govind Das:** Did the Government consult Mrs. Vijayalakshmi Pandit in this matter during her latest visit to this country and what is the latest position in South West Africa and whether the Government have heard anything about it?

**Dr. B. V. Keskar:** No.

**Shri H. V. Kamath:** Is it a fact that all the other countries of the so-called Commonwealth voted against India's proposal?

**Dr. B. V. Keskar:** I have given the names of all the countries that voted for and against India's resolution. My Honourable friend is at liberty to draw his own conclusions from that information.

**Shri H. V. Kamath:** But it appears that all the other countries of the Commonwealth voted against India's proposal. I heard the answer given. With reference to that answer is there any proposal before the Government that India should not sever her connection with the Commonwealth?

**Shri B. Shiva Rao:** May I know whether the Government have any intention of placing the report of the last Delegation to the United Nations General Assembly on the table of the House, during this session?

**Dr. B. V. Keskar:** If it is the desire of honourable members that it should be placed on the table of the House, it will be done.

**Shri S. Nagappa:** Arising out of the answer to part (b), may I know the reasons given by those countries who voted against India's resolution?

**Mr. Speaker:** Order, order.

**Shri Mahavir Tyagi:** Has the United Kingdom ever voted with us in the United Nations Assembly?

**Mr. Speaker:** Order, order.

**Shri S. V. Krishnamoorthy Rao:** Has it come to the notice of the Government that the Union of South Africa has brought forward a Bill to annex South-West Africa, and if so, what action do the Government propose to take?

**Dr. B. V. Keskar:** The honourable member must be aware that we cannot take any action directly with regard to South Africa legislating in Parliament, before the thing comes up in the United Nations General Assembly.

**Shri B. Das:** Will Government ascertain the views of this House before they send out their next Delegation to the United Nations Assembly on this subject?

**Dr. B. V. Keskar:** I do not think there is any need for it.

**Shri Mahavir Tyagi:** What are the reasons for the failure of the Government to gain the support of the sister countries of the Commonwealth?

**Dr. B. V. Keskar:** My honourable friend has asked a question which I do not think can be answered offhand.

**Mr. Speaker:** I am proceeding to the next question.

# PROTECTION TO INDUSTRIES

**\*524. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state the names of industries which receive protection from Government as far as protected duties are concerned?

(b) Is the Government's policy of anti-inflation borne in mind while granting protection to industries and if not, why not?

**The Honourable Shri K. C. Neogy:** (a) A list of industries which are at present receiving 'protection' by means of protective duties is placed on the table of the House.

(b) Yes, Sir.

## STATEMENT

*Names of industries receiving protection by means of protected duties*

- (1) Preserved fruits.
- (2) Starch.
- (3) Sugar.
- (4) Cocoa and chocolate other than confectionery.
- (5) Glucose.
- (6) Magnesium Chloride.
- (7) Calcium chloride.
- (8) Phosphoric acid.
- (9) Bichromates.
- (10) Sodium phosphates.
- (11) Sodium sulphite, Sodium bisulphite and sodium thiosulphate.
- (12) Potassium permanganate.
- (13) Oleic and Stearic acids.
- (14) Abrasive papers, rolls, etc. } coated abrasives.  
Emery cloth and abrasive rolls; etc.
- (15) Matches.
- (16) Plywood including plywood panel for tea chests.
- (17) Battens for tea chests.
- (18) Silk and artificial silk.
- (19) Gold and silver thread.
- (20) Cotton, hair and canvas ply belting
- (21) Alloy, tool or special steel.
- (22) Iron or steel wood screws.
- (23) Steel baling hoops.
- (24) Ferro-silicon.
- (25) Non-ferrous metals including anti-mony.
- (26) Hurricane lanterns.
- (27) Grinding wheels.
- (28) Sewing machines.
- (29) Steel belt lacings.
- (30) Electric motors.
- (31) Dry batteries.
- (32) Motor vehicle batteries.
- (33) Cycles, cycle-frames, handle bars, parts and accessories.

**Shri R. K. Sidhva:** May I know whether in the list placed before the House in answer to this question, protection to silk rearing industry is included?

**The Honourable Shri K. C. Neogy:** Yes, that is one of the items.

**Shri R. K. Sidhva:** May I know whether the Board has sent a report recently regarding this industry, and if so what the present position is?

**The Honourable Shri K. C. Neogy:** Yes. The report is under consideration.

**Shri R. K. Sidhva:** May I know whether there is a ban on the importation of raw silk into India and if so, what are the reasons for that ban?

**The Honourable Shri K. C. Neogy:** I cannot add anything to the answer on this point pending the consideration of the Tariff Board Report.

**Shri R. K. Sidhva:** May I know whether there is any ban on the importation of raw silk into India?

**Mr. Speaker:** I think that was dealt with in the House two or three days back.

**Shri S. Nagappa:** In addition to giving protection, may I ask whether the Government are going to give any State aid to industries that have not been well developed?

**The Honourable Shri K. C. Neogy:** Well, not so far as the items in the list are concerned.

**Shrimati Dakshayani Velayudhan:** Is not the protection given to the sugar industry that is responsible for the artificial scarcity of sugar?

**Mr. Speaker:** Order, order.

**Shri M. Ananthasayanam Ayyangar:** How many of these industries received protection last year?

**The Honourable Shri K. C. Neogy:** I would not be able to give the figure straightaway. But I may say that quite a number of them received protection. I have not got the industries tabulated year by year.

**Shri M. Ananthasayanam Ayyangar:** May I know whether the protection given to any industry has since been withdrawn or reduced?

**The Honourable Shri K. C. Neogy:** As far as I can see, no protection has yet been withdrawn from any industry. But in two cases out of the 33 listed in the statement placed on the table, the protection has been recommended for termination.

**Babu Ramnarayan Singh:** In the case of the protected industries, may I know the profit has been fixed and controlled?

**The Honourable Shri K. C. Neogy:** No.

**Shri B. P. Jhunjhunwala:** Which are those two industries?

**The Honourable Shri K. C. Neogy:** One is magnesium chloride and the other is gold and silver thread.

**Shri S. Nagappa:** In view of the answer that these industries have not been given State aid, will he consider the question of granting State aid?

**Mr. Speaker:** Order, order. That is a suggestion for action.

#### INFRINGEMENT OF PAYMENT OF WAGES ACT AND HOURS OF EMPLOYMENT REGULATION ACT

\*525. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Labour be pleased to state how many cases of infringement of the provisions of the Payment of Wages Act and the Hours of Employment Regulation Act were brought to the notice of the Authorities during the years 1947 and 1948, and in how many cases was prosecution instituted and with what result?

(b) Are Government aware that women are employed in Dhanbad collieries throughout the night on loading work? -

(c) Are Government aware that though the attention of the employers has been drawn to this fact, their reply is "the practice of such employment for the whole night is allowed"?

**The Honourable Shri Jagjivan Ram:** (a) The Payment of Wages Act is administered by the Provincial Governments except in regard to Federal Railways, Mines and Oilfields, for which the administering authority is the Central Government. In regard to the latter subject the Act has been operative so far only in the case of the Federal Railways and the figures of infringements of the provisions of the Act are 4224 and 4322 for the years ending the 31st March 1947 and the 31st March 1948 respectively. The irregularities noticed in all these cases were rectified by administrative action and the question of instituting prosecutions did not arise.

There is no Hours of Employment Regulation Act. Presumably the reference is to the Hours of Employment Regulations prescribed under the Indian Railways Act, 1870. There were 3439 and 2965 cases of infringements during the years ending the 31st March 1947 and 1948 respectively and all these were also rectified without recourse to prosecution.

(b) Women are not employed in the Dhanbad collieries throughout the night on loading work, but some women are put on night shift on employment such as wagon loading, picking belts etc. The number of such women is small and they volunteer for night work when they can work with their husbands and piece-rates, earning double the amount as compared to the day wages.

(c) We have no information. At present there is no ban on the employment of women on the surface at night.

**Shri R. K. Sidhva:** Arising out of answer to (b), may I know, whether it is a fact that in the Tata collieries in Jamadoba, women are allowed to work the whole night?

**The Honourable Shri Jagjivan Ram:** I have already answered that question.

**Mr. Speaker:** The Honourable Minister has already said that they voluntarily put in their work with their husbands.

**Shri R. K. Sidhva:** Do Government accept the policy of allowing women to work at night despite with their husbands, I want to know, Sir.

**Mr. Speaker:** That is an argument.

**Shri R. K. Sidhva:** Is it a fact that the League of Nations has announced that women should not be employed during the night on collieries?

**The Honourable Shri Jagjivan Ram:** I think my honourable friend is confusing the issue with the Factories Act on other employment. In the Factories Act, we have made provision that no women should be allowed to work after 10 P.M. The number of women employed in coal fields on surface work during night time is very negligible and we are already examining whether we can entirely ban that. So far, we have felt that we may cause some trouble and hardship to the women concerned, who work along with their husbands during the night-time.

**Shri R. K. Sidhva:** May I know, whether the subject of employment of women in collieries came up before the League of Nations Conference and whether it was seriously condemned. If that is so, what steps Government intend to take in this matter?

**The Honourable Shri Jagjivan Ram:** They are not allowed to work underground. We have banned the working of females underground during night-time or day-time.

## TRIAL OF C. P. W. D. OFFICERS ON CHARGES OF CORRUPTION

\*526. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that several officers of the Central Public Works Department have been suspended and are being tried on charges of corruption?

(b) If so, what offences were committed by them?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) Yes.

(b) The allegations against these Officers cover bribery, mis-appropriation of Government stores, criminal breach of trust cheating Government in collusion with contractors, theft, etc.

**Shri R. K. Sidhva:** May I know how many of such officers have been prosecuted for this corruption?

**The Honourable Shri Satyanarayan Sinha:** I want notice, Sir.

**Shri H. V. Kamath:** How many trials have been concluded, if at all?

**The Honourable Shri Satyanarayan Sinha:** I want notice, Sir.

**Shri R. K. Sidhva:** May I know when they were prosecuted or whether the cases are under examination?

**The Honourable Shri Satyanarayan Sinha:** If the honourable member wants it, I will place a statement on the table.

**Shri H. V. Kamath:** What steps have been taken by Government so far to wean and deter such officers from corrupt and immoral practices.

**The Honourable Shri Satyanarayan Sinha:** They are being prosecuted, suspended and departmental actions are being taken against them.

**Shri H. V. Kamath:** What steps are being taken in regard to officers 'in general'.

**Mr. Speaker:** Order, order. Next question.

**Shri S. Nagappa:** May I know by whom are these officers tried. Is there any judicial body or is there a judge trying them?

**Mr. Speaker:** The word 'prosecution' implies a Court of Law.

**Shri S. Nagappa:** May I know whether these judges continue to be Government servants or are they retired judges?

**The Honourable Shri Satyanarayan Sinha:** In the ordinary course.

**Shri R. K. Sidhva:** May I know whether these cases were investigated directly by the Police or at the instance of the Ministry?

**The Honourable Shri Satyanarayan Sinha:** I want notice for this also.

**Shri H. V. Kamath:** Is the Anti-corruption branch of the Home Ministry still functioning?

**The Honourable Shri Satyanarayan Sinha:** Yes. It is functioning.

## DELEGATIONS AND GOODWILL MISSIONS ABROAD

\*527. **Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of Commerce be pleased to state the various delegations to international conferences and Goodwill Missions for commercial objects sent by the Government of India during the year 1948-49 and the expenses incurred on such delegations and Goodwill Missions?

**The Honourable Shri K. C. Neogy:** I lay a statement on the table of the House, giving the information required, as far as available.

## STATEMENT

*Delegations sent to International Conferences and Goodwill Missions sent for commercial objects during the year 1948-49 and expenses incurred on such Delegations and Goodwill Missions.*
