Delhi

Same as for Ajmer-Merwara.

**Shri V. C. Kesava Rao:** Has the Government received any representation from the teachers of the Centrally administered areas about their inadequate salary?

**The Honourable Shri Satyanarayan Sinha:** No, Sir.

**Sardar Bhopinder Singh Man:** Is the Government giving increments or fixing the salary of refugee teachers in accordance with their previous salaries and experience?

**The Honourable Shri Satyanarayan Sinha:** Yes, Sir.

**Shri H. V. Kamath:** Is it a fact that at present in some provinces primary school teachers are paid far less than peons and chaprasis in Government offices?

**The Honourable Shri Satyanarayan Sinha:** It may be. But we have no information.

**Mr. Speaker:** That is a provincial matter. Next question.

## ABSORPTION OF CERTAIN CLASSES OF GOVERNMENT SERVANTS INTO PERMANENT CADRES

\*1121. **Shri V. C. Kesava Rao:** Will the Honourable Minister of Home Affairs be pleased to state whether Government have arrived at a decision on the question of absorption of the following classes of Government servants into permanent cadres:

(i) temporary staff; and

(ii) refugees?

**The Honourable Sardar Vallabhbhai Patel:** The attention of the honourable member is invited to the 'Instructions for the Initial Constitution of the grade of Assistants in the Reorganised Central Secretariat Service' which have been placed in the Library of this House. The question of issuing similar instructions in respect of other grades in the Secretariat is under consideration.

**Shri V. C. Kesava Rao:** May I know the number that has been confirmed from among the people recently appointed or appointed after 1947?

**The Honourable Sardar Vallabhbhai Patel:** I would require notice of that question.

**Shri Harihar Nath Shastri:** Will the Honourable Minister be pleased to state the maximum period for which an employee has been put on the temporary list?

**The Honourable Sardar Vallabhbhai Patel:** There are several employees on a temporary basis serving for many years. This has been a legacy of the past administration.

**Shri Harihar Nath Shastri:** Is there any proposal before the Government to limit the period of temporary employment of Government servants?

**The Honourable Sardar Vallabhbhai Patel:** I have stated the whole thing is being examined.

**Sardar Hukam Singh:** In view of the fact that a good number of these temporary incumbents have put in more than five years' service, is there any security for them, or can they be turned out with 24 hours' notice?

**The Honourable Sardar Vallabhbhai Patel:** No, no. They are not being dispensed with on 24 hours' notice. The whole question has been regularised on certain fixed principles. There is no danger of any temporary man being dismissed straightaway except on proved misconduct.

**Sardar Hukam Singh:** Has it come to the notice of the Honourable Minister that some of the temporary employees in Information and Broadcasting have been dismissed with 24 hours' notice and yet they have put in more than five years service?

**Mr. Speaker:** The attention of the Honourable Minister will be invited to those cases.

#### CONSTRUCTION OF STADIUM IN DELHI

**\*1122. Seth Govind Das:** (a) Will the Honourable Minister of Education be pleased to state whether it is a fact that Government are contributing for the construction of a Stadium in Delhi?

(b) If so, what is the amount promised and on what conditions will the contribution be made?

(c) When is the construction of the proposed stadium likely to commence?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) No, Sir.

(b) Does not arise.

(c) I have no information.

#### REPORT ON INDIGENOUS SYSTEMS OF MEDICINE

**\*1123. Seth Govind Das:** (a) Will the Honourable Minister of Health be pleased to state why the report on the Ayurvedic system of medicine has not been published so far?

(b) When will this report be published and when will its recommendations be given effect to?

**The Honourable Rajkumari Amrit Kaur:** (a) and (b). I presume the honourable member is referring to the report of the Indigenous Systems of Medicine Committee. It was published on the 20th February, 1949. The recommendations of the Committee are now under the consideration of Government.

**Seth Govind Das:** May I know at what stage is the whole thing at present after the publication of the report?

**The Honourable Rajkumari Amrit Kaur:** The report has been circulated to the provinces and the Central Government is also considering it.

**Seth Govind Das:** Has the report been circulated to the various institutions which are interested in indigenous systems of medicine?

**The Honourable Rajkumari Amrit Kaur:** I have once before replied to this question. Any organisation that wishes can have a copy of the report.

**Shri H. V. Kamath:** By what date does the Honourable Minister expect to conclude the examination of this report?

**The Honourable Rajkumari Amrit Kaur:** It is not possible for me to say but as soon as the provincial governments have replied the report will be considered by the Government of India.

**Seth Govind Das:** Has any time been given to the provinces by which they should give their opinions on that report?

**The Honourable Rajkumari Amrit Kaur:** The provinces have been asked to reply as quickly as possible.

**Seth Govind Das:** I wanted to know whether any specific time has been given to the provinces?

**The Honourable Rajkumari Amrit Kaur:** No, Sir.

**Dr. V. Subramaniam:** Is it a fact that almost all the provincial governments have recognised the indigenous systems of medicine and have also started some institutions to teach the systems?

**The Honourable Rajkumari Amrit Kaur:** Some of the provinces have given certain recognition to indigenous systems of medicine.

**Dr. V. Subramaniam:** What is the sort of information sought for by circulating the report to the provincial governments?

**The Honourable Rajkumari Amrit Kaur:** According to rules every report has to be sent for information to the provincial governments for their remarks on the recommendations contained in the report.

**Shri Deshbandhu Gupta:** Have many provincial governments so far approved of the recommendations made by this Committee?

**The Honourable Rajkumari Amrit Kaur:** No reply has yet been received.

#### REQUISITIONING OF HOUSES IN DARYAGANJ, DELHI

**\*1124. Shri H. V. Kamath:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) whether the Delhi Administration has requisitioned some houses in Daryaganj belonging to the families of some Communist detenus or convicts; if so, how many and for what purpose; and

(b) what arrangement, if any, has been made for the housing of the families thus evicted?

**The Honourable Sardar Vallabhbhai Patel:** (a) No.

(b) Does not arise.

#### NATIONAL CADET CORPS

**\*1125. Shri H. V. Kamath:** Will the Honourable Minister of Defence be pleased to state:

(a) the present strength of the National Cadet Corps, Senior and Junior Divisions, province-wise; and

(b) when it is proposed to raise the Girls' Division?

**The Honourable Sardar Baldev Singh:** (a) and (b). I would refer the honourable member to my answer to Starred Question No. 239 asked by Shri Kesava Rao on the 9th February 1949 and to the press-note issued by the Ministry of Defence on the 12th February 1949.

**Shri H. V. Kamath:** Is the delay in raising the Girls' Division due to the fear in the Honourable Minister's mind that women if trained in the art of war, might neglect the home and the cradle?

**Mr. Speaker:** Order, order.

#### RE-EMPLOYMENT AND EXTENSIONS OF SERVICE TO SUPERANNUATED OFFICERS.

**\*1126. Shri H. V. Kamath:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) how many officers, in each of the Ministries of the Government of India separately, have been given an extension beyond the age of retirement, and how many re-employed after having been placed on the retired list.

(b) the reasons for adopting such a policy; and

(c) the extra expenditure thereby incurred?

**The Honourable Sardar Vallabhbhai Patel:** (a) A statement showing the number of gazetted officers who have been granted extensions of service or who have been re-employed after retirement in the various Ministries of the Government of India, as it stood on the 31st March 1948, is placed on the table of the House.

(b) The general policy of Government in the matter is not to re-employ retired officers or to grant extensions of service to superannuated ones. A departure from this general policy is made only when the re-employment or extension of service of a superannuated officer is considered essential in the public interest owing to the non-availability of experienced and suitably qualified persons.

(c) No extra cost is necessarily involved in the grant of extensions of service to, or re-employment of, superannuated personnel.

| Name of the Ministry                        | STATEMENT                                        |                                 |

| Relief and Rehabilitation                   | ..                                               | 2                               |
| Transport                                   | ..                                               | 2                               |
| Works, Mines and Power                      | 2                                                | 1                               |
| Cabinet Secretariat                         | 1                                                | ..                              |
| TOTAL                                       | 7                                                | 23                              |

**Shri H. V. Kamath:** Has the Honourable Minister reached any decision as regards the age of retirement for government officers? Is it 55 or 58?

**The Honourable Sardar Vallabhbhai Patel:** There is a rule about retirement: the decision is already there and no change has been made in it.

**Shri H. V. Kamath:** What is the age of retirement now—55 or 58?

**The Honourable Sardar Vallabhbhai Patel:** 55. No change has been made.

**Mr. Frank Anthony:** Have the Government rejected the Pay Commission's recommendation that the age of superannuation should be raised to 58?

**The Honourable Sardar Vallabhbhai Patel:** That is being examined.

**Shri R. K. Sidhva:** Is it not a fact that in many Ministries 58 has been actually adopted as the superannuation age whereas some officers on the railways have not been granted extension? May I know why is there this distinction in the various Ministries?

**The Honourable Sardar Vallabhbhai Patel:** I do not think so.

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not think the railways have accepted 58 as the superannuation age.

**Pandit Thakur Das Bhargava:** For ministerial posts is the age of retirement 60 or 55?

**The Honourable Sardar Vallabhbhai Patel:** It is sixty.

## STARRED QUESTIONS AND ANSWERS

1567

## FOREIGN STUDENTS STUDYING INDIAN CULTURE IN INDIA

**\*1127. Shri Moturi Satyanarayana:** Will the Honourable Minister of Education be pleased to state:

(a) whether Government propose to invite students from foreign countries to study Indian culture in India;

(b) whether any facilities are offered to these students; and

(c) if there are any students already in India what is their number, nationality, the centres at which they are studying, the facilities offered to them and their courses and terms of stay?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) In order to promote cultural relations between the foreign countries and India, Government as a first step in this connection propose to award the following fellowships and scholarships during 1949-50:

(i) Nine Fellowships to the nationals of France.

(ii) Thirty scholarships to Indians domiciled in the neighbouring Asian and African countries and forty scholarships to the Nationals of these countries for studies in India.

(b) The Government of India will arrange for their admission and accommodation in suitable Indian Institutions and Universities and give them stipends.

(c) At present five East African and six Indonesian students are studying in India: particulars asked for in respect of these are given in the statement, a copy of which is laid on the table of the House.

All these students have been given a stipend of Rs. 200 per month each in addition to tuition and other fees.

| STATEMENT          |             |                                                               |                           |                         |
|--------------------|-------------|---------------------------------------------------------------|---------------------------|-------------------------|
| Number of students | Country     | Institution where studying                                    | Terms of Stay             | Courses                 |
| One                | East Africa | Allahabad University.                                         | Upto, June 1949           | Arts.                   |
| One                | Do.         | St. Stephen's College.                                        | Up to April, 1950         | Arts.                   |
| One                | Do          | Aligarh University, Aligarh                                   | Upto April 1951           | Arts.                   |
| One                | Do.         | Benaras University, Benaras.                                  | Upto April 1951           | Arts.                   |
| One                | Do          | Delhi Polytechnic, Delhi.                                     | Upto July, 1952           | Pro-Engineering Course. |

| One                | Do.         | Government Engineering College, Guindy, Madras.               | Upto a Maximum of 4 years | Mechanical Engineering. |
| One                | Do.         | University School of Economics and Sociology, Bombay.         | Ditto.                    | Agricultural Economics. |
| One                | Do.         | Shri Krishna Rajendra Jubilee Technical Institute, Bangalore. | Ditto                     | Textile Technology.     |

**Seth Govind Das:** Are these students selected for scholarships or are recommended by the various governments or by any other agency?

**The Honourable Shri Satyanarayan Sinha:** By the various governments.

**Shri H. V. Kamath:** Is the scheme on an exchange basis?

**The Honourable Shri Satyanarayan Sinha:** Yes: in case of some countries.

**Shri H. V. Kamath:** Are our students too sent to foreign countries in like manner?

**The Honourable Shri Satyanarayan Sinha:** Oh, yes: there are other schemes on a reciprocal basis.

**Shri Moturi-Satyanarayana:** Have Government prepared any list of the institutions wherein these foreign students have been admitted? If so, on what basis have those institutions been selected?

**The Honourable Shri Satyanarayan Sinha:** I have got a list a copy of which has been laid on the table. If the honourable member looks into it he will get all the information.

**Prof. N. G. Ranga:** Is it not a fact that some of the students who are sons of Indians abroad, when they came to be selected, were selected on the recommendation of the Indians Overseas Associations in the respective countries?

**The Honourable Shri Satyanarayan Sinha:** I have no information on that point.

**Shri Mahavir Tyagi:** In view of the information which the Honourable Minister has given *viz.*, that our students are also sent to institutions abroad in foreign countries on a reciprocal basis, may I know what culture they are studying and in which countries and what is the number of such students?

**The Honourable Shri Satyanarayan Sinha:** Our students have gone to Australia and Egypt and other countries and of course while there they will be studying the culture of those countries.

**Shri Maturi Satyanarayana:** What is the basis on which the list of these institutions has been prepared?

**The Honourable Shri Satyanarayan Sinha:** I am sorry I cannot give the information.

**Shri Ajit Prasad Jain:** What is the nature of the courses prescribed for students coming from abroad?

**The Honourable Shri Satyanarayan Sinha:** I regret I cannot give the information offhand.

#### SCHOLARSHIPS TO FOREIGN STUDENTS FOR STUDIES IN INDIA

†\*1128. **Shri S. Nagappa:** (a) Will the Honourable Minister of Education be pleased to state the number of scholarships that were awarded to foreign students to study in India?

(b) What expenditure has been incurred in this regard?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) Forty-eight scholarships have been awarded by the Government of India since 1943 to foreign students for studies in India.

(b) An expenditure of Rs. 2,29,599 has been incurred since 1943 on these scholarships.

† Answer to this question laid on the table, the questioner being absent.

#### CURRENCY NOTES IN CIRCULATION

†\*1129. **Shri S. Nagappa:** Will the Honourable Minister of Finance be pleased to state the total value of currency in circulation at present:

- (i) in the shape of currency notes; and
- (ii) in the shape of coins?

**The Honourable Dr. John Matthai:** (i) The total notes in circulation on the 4th March 1949 amounted to Rs. 1172.38 crores. The detailed information is contained in the weekly accounts of the Reserve Bank which are published in the *Gazette of India*.

(ii) The exact amount of coins is not known but the value of coins put into circulation since 1914-15 to end of 1947-48 amounted to Rs. 211.86 crores, the details of which are given in Statement XLII of the Report on Currency and Finance for the year 1947-48, a copy of which is available in the Library of the House.

#### INSTITUTIONS FOR GURUKUL SYSTEM OF EDUCATION

†\*1130. **Lala Raj Kanwar:** Will the Honourable Minister of Education be pleased to state:

(a) the names of institutions where the Gurukula system of education is in vogue;

(b) whether any subsidy or aid is given to any such institutions and if so, what its amount is; and

(c) if no financial aid is at present given, whether Government propose to consider the feasibility of giving such aid?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) Institutions of the type mentioned by the honourable member are known to be functioning in Hardwar and other places, but no complete list of such institutions is available with Government.

(b) and (c). The Government of India are considering the question of giving a grant to the Gurukul Vishvavidyalaya, Kangri, Hardwar.

#### RESEARCH FOR EVOLUTION OF BASIC HINDUSTANI

†\*1131. **Lala Raj Kanwar:** Will the Honourable Minister of Education be pleased to state:

(a) whether any linguistic research or survey has been carried out with a view to the evolution of basic Hindustani; and

(b) if not, whether Government propose to consider the desirability of taking steps to have such a research or survey carried out?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) and (b). Though linguistic surveys have been held in the past, as *e.g.*, during census operations, this has not been done with a view to the evolution of a basic Hindustani. It may be added that experts do not agree as to whether such a survey can help in the evolution of a language. In view of the importance of the issue, Government will, however, examine the feasibility of such a survey.

† Answer to this question laid on the table, the questioner being absent.

1570

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [17TH MARCH 1949]

## DEVELOPMENT OF INDIAN NAVY

**\*1132. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Defence be pleased to state what the present strength of the Indian Navy is and whether it is fully equipped on modern lines?

(b) Have the Government of India prepared any scheme for the development of the Indian Navy on modern lines?

(c) If so, what is the target fixed and by which date is it likely to be reached and what is the estimated cost for the same?

(d) Have Government entered into any arrangement with any foreign country for the training of Indian Navy personnel, and if so, are there any Indians already receiving such training in any foreign countries?

**The Honourable Sardar Baldev Singh:** (a) The R.I.N. at present consists of one Cruiser, six Frigates and other vessels like Minesweepers, Survey vessel, etc. which generally speaking are equipped on modern lines.

(b) Yes.

(c) It would not be in the public interest to disclose these details.

(d) Yes. A number of Officers and ratings are undergoing higher technical training in the U. K.

**Pandit Mukut Bihari Lal Bhargava:** With reference to part (d) of the question may I know what is the amount expended on the training of these officers and ratings who are undergoing higher technical training in U. K.?

**The Honourable Sardar Baldev Singh:** I do not think I can give the exact amount just now, but I can supply this information to the honourable member if he so desires.

**Dr. Mono Mohan Das:** What is the maximum and minimum age of the ships in the Navy?

**The Honourable Sardar Baldev Singh:** It depends on the type of the vessel and it is not possible for me to say offhand what is the life of each vessel.

**Dr. Mono Mohan Das:** Is it a fact that all the ships are of old model and they have got practically no value in modern naval fighting?

**The Honourable Sardar Baldev Singh:** That is not a correct statement. Some of these ships are new and some are old. Before they are purchased we verify whether it is desirable to purchase them or not. No ship which is of no value to us is purchased.

## DEVELOPMENT OF INDIAN AIR FORCE

**\*1133. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Defence be pleased to state what the present strength of the Indian Air Force is and whether it is fully equipped on modern lines?

(b) Have the Government of India prepared any scheme for the development of the Indian Air Force on modern lines?

(c) If so, what is the target fixed and by which date is it likely to be reached and what is the estimated cost for the same?

(d) Have Government entered into any arrangement with any foreign country to give training to Indians in Aeronautical course, and are there any Indians already receiving such training in any foreign country?

**The Honourable Sardar Baldev Singh:** (a) Our Air Force is equipped on modern lines, but it would not be in the public interest to disclose its present strength or the equipment it holds.

(b) Yes.

(c) It would not be in the public interest to disclose these details.

(d) Yes. A number of Air Force personnel are at present undergoing training abroad.

**Mr. Frank Anthony:** Is it not a fact that the Air Force is below the strength contemplated several years ago?

**The Honourable Sardar Baldev Singh:** I do not exactly follow the honourable member's question. But it is a fact that the Air Force is under strength and we have already taken steps to bring it up to strength.

## INSTITUTIONS FOR MILITARY TRAINING

**\*1134. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Defence be pleased to state whether there are any colleges in India imparting military training to Indian students?

(b) If so, at which places and are they being maintained wholly or partly by the Government of India?

(c) What amount is being spent every year on this by the Government of India?

(d) Are the students who undergo training in these institutions necessarily to be absorbed in Government service on the completion of their academic career?

(e) Is there any institution for giving regular training to Military staff in the technique of modern warfare?

(f) If so, what expenditure is being incurred by the Government of India on the same?

**The Honourable Sardar Baldev Singh:** (a) No, there is no college under the control of the Central Government where military training is given to the students. I presume, that the honourable member is not referring to the National Cadet Corps Organisation through which military training is given to students who join the National Cadet Corps units formed in various institutions throughout the country.

(b) to (d). Do not arise.

(e) Yes, there are a number of training schools within the Armed Forces.

(f) The annual recurring expenditure is of the order of rupees two crores.

**Shri H. V. Kamath:** Is there any proposal to give military training to civilians by starting rifle clubs and things of that kind?

**The Honourable Sardar Baldev Singh:** That is not covered by this question: it is quite a separate question.

**Dr. P. S. Deshmukh:** Would the Honourable Minister be prepared to examine the question whether Government would subsidise or give grants to any private institution which will undertake to give military training?

**The Honourable Sardar Baldev Singh:** This question has not been examined. The policy so far has been to have only government institutions, but the question of giving grants to private institutions may be examined later on. But at present we are not giving any such aid.

**Pandit Mukut Bihari Lal Bhargava:** May I know whether Government will, if found necessary, start a Government Military College?

**The Honourable Sardar Baldev Singh:** I really do not understand what the honourable member means by "College". Even some of these Training Institutions are called Colleges. But we do not have any college to impart education in this field like the ordinary colleges.

#### EXPENDITURE ON NATIONAL CADET CORPS

**\*1135. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Defence be pleased to state in what places in India Divisions of the National Cadet Corps have been organised?

(b) What is the total non-recurring expenditure so far incurred thereon and what is the recurring expenditure therefor?

**The Honourable Sardar Baldev Singh:** (a) I would invite the attention of the honourable member to the press-note issued by the Ministry of Defence on the 12th February 1949.

(b) Non-recurring: Rs. 78,00,000.

Recurring: Rs. 39,82,000.

The figures are approximate.

#### ORGANIZATION OF INDIAN TERRITORIAL FORCE

**\*1136. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Defence be pleased to state what progress has been made in the organisation of the Indian Territorial Force in India since its announcement was made on the floor of the House?

(b) What is its present strength and in which places in India has it been organised?

(c) What is the total non-recurring expenditure so far incurred thereon and what is the recurring expenditure therefor?

**The Honourable Sardar Baldev Singh:** (a) to (c). I would refer the honourable member to my statement made in the House in the course of the debate on the Defence Services Estimates on the 7th March 1949.

#### ADMISSION OF INDIAN STUDENTS IN AMERICAN UNIVERSITIES

**\*1137. Shri Deshbandhu Gupta:** Will the Honourable Minister of Education be pleased to state:

(a) whether it is a fact that arrangements for the admission of Indian students in American Universities are not made in advance;

(b) whether it is a fact that students have to take permission of our Education Office before they can shift from one University or Institution to another;

(c) whether Government are aware that this permission is not quickly obtained and the students often lose the chance of getting admission in a proper college even when it is available; and

(d) if so, whether Government propose to look into the matter and take steps to remove the complaints of the students?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) No Government student is sent abroad until it has been confirmed that admission arrangements for him have been finalised.

#### STARRED QUESTIONS AND ANSWERS

(b) Yes, under the Immigration Regulations that obtain in the United States of America. In the case of Government scholars sponsoring authorities have to be consulted by our Education Office through this Ministry.

(c) All reasonable help in respect of the desired transfers is given by the Indian Embassy in the United States of America.

(d) Does not arise.

**Shri Deshbandhu Gupta:** May I now with regard to the reply given to part (c) of the question whether it is a fact that our Education Office in Washington sometimes takes months to reply to the letters of the students?

**The Honourable Shri Satyanarayan Sinha:** No complaint of this nature has been brought to Government's notice. As far as information is available the Embassy and the persons connected with it give all necessary help without any delay.

**Shri Deshbandhu Gupta:** Is it a fact that there is no person in our Education Office in Washington who has received education in U.S.A. and who has got any contacts with the Universities there?

**The Honourable Shri Satyanarayan Sinha:** I should like to have notice of that question.

**Dr. P. S. Deshmukh:** Is the Honourable Minister aware of a complaint that this organisation which is intended to assist the students has been found actually to obstruct the admission of the students into those Universities?

**The Honourable Shri Satyanarayan Sinha:** Government is not aware of any such complaint.

**Prof. N. G. Ranga:** With reference to part (a) of the question may I know whether Government are making any efforts at all to find admission for private students as distinct from government scholars?

**The Honourable Shri Satyanarayan Sinha:** Yes, Sir.

**Shri H. V. Kamath:** Are there any Universities in the United States where admission is barred to Indian students?

**The Honourable Shri Satyanarayan Sinha:** No. None.

**Mr. Frank Anthony:** What steps are Government taking to secure adequate recognition in foreign countries of Indian degrees and qualifications?

**The Honourable Shri Satyanarayan Sinha:** All that is possible.

**Shri Deshbandhu Gupta:** With regard to the reply to part (a), may I know when were these instructions issued—whether this arrangement that accommodation is booked in colleges beforehand has been recently introduced or it has been the old practice?

**The Honourable Shri Satyanarayan Sinha:** Instructions were issued many years back.

#### OVERSEAS SCHOLARS RETURNED DURING 1948-49

**\*1138. Shri Deshbandhu Gupta:** Will the Honourable Minister of Education be pleased to state:

(a) the number of scholars who have returned to India after completing their studies overseas during the year 1948-49 and how many out of them have been employed by Government;

(b) the total amount of money spent by Government on them; and

(c) whether it is a fact that some of these scholars have to wait as long as six months before getting employment, and if so, whether Government have considered the desirability of asking the Overseas Division of the Ministry of Education to find suitable employments for these scholars soon after their return from overseas?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) 320 namely 200 Central Scholars and 120 Provincial Scholars. Out of these 109 Central and 63 Provincial Scholars have been employed or offered employment.

(b) Rs. 61,76,000 (Rupees Sixty-one lakhs and seventy-six thousand only) approximately.

(c) Some of the returned scholars who were sent abroad against the anticipated posts which did not materialise due to postponement of the Development plans concerned, had to wait till a suitable alternative employment could be found for them. Every effort is made by Government to provide them with suitable employment as early as possible. If a scholar is not secured employment within a maximum period of five months from the date of report of return, he is released from the Bond.

**Shri H. V. Kamath**: Are these government scholars on their return employed directly by the Government or have they got to come through the Federal Public Service Commission?

**The Honourable Shri Satyanarayan Sinha**: They are employed directly by the Government in the first instance on a temporary basis.

**Shri Deshbandhu Gupta**: How many scholars are there who returned from U.S.A. and who could not be provided with employment within the time-limit of five months and have been released from the obligations under the Bond?

**The Honourable Shri Satyanarayan Sinha**: I would require notice.

**Shri Deshbandhu Gupta**: Is it a fact that those who have been employed have not been employed suitably or have been employed in other works and not in the posts for which they were trained?

**The Honourable Shri Satyanarayan Sinha**: Firstly we try to employ them in the Ministry against whose requirements they were selected, then other Ministries of the Government of India, and then Universities, Provincial Governments, technical institutions and so on and so forth.

**Shri V. C. Kesava Rao**: May I know whether all the scholars who have returned have been employed by the Government or by private firms also?

**The Honourable Shri Satyanarayan Sinha**: Some have been employed by Government, some by private firms and some are still unemployed.

**Shri V. C. Kesava Rao**: How many were appointed by private firms?

**The Honourable Shri Satyanarayan Sinha**: I should like to have notice of that question.

**Seth Govind Das**: Is any effort made by the Government in the case of those students who are not employed by the Government so that they may get jobs somewhere else?

**The Honourable Shri Satyanarayan Sinha**: Yes, Sir, Government see to that.

**Mr. Homi Mody**: Are Government aware that the number of students sent abroad at public expense is already in excess of the number that can be absorbed by Government or by private industry?

**The Honourable Shri Satyanarayan Sinha**: I cannot say.

**Shri Deshbandhu Gupta**: Is it a fact that those students who are employed have also to appear before the Public Service Commission?

**Mr. Speaker**: That has been replied to.

**Shri V. C. Kesava Rao**: May I know, Sir, whether there is any demand from the industry for such candidates?

**The Honourable Shri Satyanarayan Sinha**: Yes, Sir.

#### ESTABLISHMENT OF SPA RESORTS

**\*1139. Dr. V. Subramaniam**: (a) Will the Honourable Minister of Health be pleased to state the arrangements made by the Government of India for the establishment in India of organised spa resorts on the model obtaining in European countries?

(b) Has any geological survey of India been made with a view to ascertaining the mineral springs in India and the properties of such spring waters?

(c) Have the properties of water in rivers like the Ganga and the Godavari been examined and if so, what are the results?

**The Honourable Rajkumari Amrit Kaur**: (a) No arrangements have been made but the question is under consideration, in consultation with Provincial Governments.

(b) A survey of the mineral springs in India was made by the Geological Survey of India during 1939-41. Dr. P. K. Ghosh, incharge of this work, gave particulars of 123 springs located in Bihar, Bombay, Central Provinces, United Provinces and Punjab. An examination of these waters suggests that they are comparable in their properties with well-known springs in Europe and elsewhere.

(c) Chemical and other tests were carried out on the waters of the Ganga and the Sone in 1917 and 1923 by the Bihar Public Health Department, but they did not substantiate the popular belief that these waters had any curative value.

**Shri H. V. Kamath**: Has the Honourable Minister got any information as to how many of our countrymen and women on an average resort annually to foreign countries for this Spa treatment?

**The Honourable Rajkumari Amrit Kaur**: No, Sir, I have no information.

**Shri Deshbandhu Gupta**: With regard to the reply given to part (b), may I know whether the Honourable Minister's attention has been drawn to a mineral spring situated about forty miles away from Delhi, in Gurgaon District, and whether she is aware that no proper use is made of that spring?

**The Honourable Rajkumari Amrit Kaur**: No, Sir.

**Shri S. V. Krishnamoorthy Rao**: Have any efforts been made to make a commercial use of these mineral waters?

**The Honourable Rajkumari Amrit Kaur**: I have already said that we are consulting Provincial Governments about this matter.

**Shrimati G. Durgabai**: May I know whether any survey has been undertaken to assess the value of the waters of the Godavari?

**The Honourable Rajkumari Amrit Kaur**: I have already answered that in part (b) of my answer to the Question.

**Prof. N. G. Ranga**: Sir, there was no answer on that.

**The Honourable Rajkumari Amrit Kaur**: I have said that a survey of the mineral springs was made by the Geological Survey of India in 1939-41.

**Prof. N. G. Ranga**: But that was in regard to the Ganga and the Sone?

**The Honourable Rajkumari Amrit Kaur**: The Godavari is not included amongst the rivers.

**Shri H. V. Kamath:** May I ask whether in the report of that survey, which is before the Honourable Minister, there is mention of a fine sulphur spring at Vajreshwari near Bombay?

**Mr. Speaker:** Order, order.

#### IMPORT DUTY ON EDUCATIONAL FILM-STRIPS

**\*1140. Shri H. V. Kamath:** Will the Honourable Minister of Finance be pleased to state whether educational film-strips are permitted to be imported into India free of import duty?

**The Honourable Dr. John Matthai:** No. The question of their exemption from duty is under consideration.

**Shri H. V. Kamath:** How long has this been under consideration?

**The Honourable Dr. John Matthai:** It has been under consideration for some time but the decision I think is expected to be made quite soon.

#### DEVALUATION OF CURRENCY IN EUROPEAN MARSHALL AID COUNTRIES

**\*1141. Shri Biswanath Das:** Will the Honourable Minister of Finance be pleased to state:

(a) whether the attention of Government has been drawn to a statement of the United States of America Treasury Secretary to the Senate Foreign Relations Committee in Washington, published in the Delhi newspapers of the 18th February, 1949 suggesting the devaluation of currency in European Marshall Aid countries; and

(b) whether Government have considered the effect of such devaluation on our sterling balances and our trade balances in soft currency areas?

**The Honourable Dr. John Matthai:** (a) I have seen a press report of the statement.

(b) Such matters are constantly under review.

**Shri Biswanath Das:** May I know whether Government have also considered its effect on our trade with Britain and also with other countries which have got customs Union with Britain in this regard?

**The Honourable Dr. John Matthai:** I have seen so far only the very brief press reports that have appeared in the Indian papers, of the statement made by the Secretary to the United States Treasury, and frankly I am unable to follow, from the press statement that I have seen, what really is the intention behind the Secretary's statement.

#### INDIAN EXPORTS TO U.S.A.

**\*1142. Shri Biswanath Das:** Will the Honourable Minister of Finance be pleased to state:

(a) whether it is a fact that the current year's Indian exports to the United States of America is expected to reach a level of 300 million dollars;

(b) the dollar resources we had to our credit as a result of our sterling agreement with Britain and also as a result of trade balance as at the end of the year 1947-48, giving separate figures for both;

(c) whether the attention of Government has been drawn to the news published in Delhi newspapers of the 18th February, 1949 and the statement of

Mr. Snyder, United States of America Treasury Secretary, that rise of prices in the United States of America since 1946 has reduced the buying power of the United States of America dollar; and

(d) whether this was brought in due time to the notice of Indian merchants engaged in export and import trade as also Government delegations going to United States of America and other dollar areas for making purchases?

**The Honourable Dr. John Matthai:** (a) I presume the honourable member is referring to exports during the current financial year. According to the Sea Borne Trade Accounts the value of Indian exports to the U.S.A. for the 9 months April to December, 1948 amounts to Rs. 54.19 crores = \$163 million. It is not likely, therefore, that the honourable member's estimate for the whole year will be correct.

(b) India's hard currency deficit during 1947-48 amounted to Rs. 75.62 crores = \$227 million. Upto December, 1947, there was no quantitative restriction on the convertibility of our Sterling Balances. For the period January-June, 1948, such convertibility was limited to £10 million and for the period July 1948-June, 1949 to £15 million.

(c) Yes.

(d) The Government of India and Indian merchants engaged in export and import trade became aware of the rise of prices in the United States concurrently with such rise.

**Shri Biswanath Das:** Arising out of reply to part (c) of my Question, may I know whether Government have taken any steps to move the Government of England regarding our share of the dollar pool so as to conserve our dollar resources?

**The Honourable Dr. John Matthai:** That matter, of course, would come up for review at a very near date in the future.

**Dr. P. S. Deshmukh:** Is the Honourable Minister aware that there are huge dollar balances standing in the names of certain Indian firms and individuals?

**The Honourable Dr. John Matthai:** Well, that matter has been brought to my notice and I am having very active investigations undertaken.

**Shri Biswanath Das:** May I know whether the honourable the Finance Minister is aware of the fact that there are blackmarket dollar assets available in this country?

**The Honourable Dr. John Matthai:** That is precisely the point which I think the honourable member had raised.

#### TONGA RATES IN DELHI

**\*1143. Shri Satis Chandra Samanta:** (a) Will the Honourable Minister of Health be pleased to lay on the table of the House a copy of the scheduled rates of tonga-hire in Delhi and New Delhi?

(b) Who fixes the tonga rates?

(c) When were they last reviewed?

**The Honourable Rajkumari Amrit Kaur:** (a) A copy of the schedule containing the rates of tonga-hire applicable in the Delhi urban area is laid on the table of the House.

(b) The Delhi Municipal Committee, with the approval of the Chief Commissioner.

(c) In 1944.

## STATEMENT

## DELHI MUNICIPALITY

War Time Hackney Carriage Schedule sanctioned by the Chief Commissioner, vide Notification No. F.2(17)/44-L.S.G., dated the 17th November, 1944.

Journeys within the limits of the Delhi Urban Area (i.e. the area comprised in Delhi Municipality, the New Delhi Municipality, the Civil Station, Notified Area and the Fort Notified Area).

## SCHEDULE I

For 1st hour—

## Hiring Time

|                                                                                           | Rate      |
|-------------------------------------------------------------------------------------------|-----------|
|                                                                                           | Rs. A. P. |
| If the hackney carriage has been driven for a continuous journey of more than five miles. | 2 0 0     |
| Otherwise                                                                                 | 1 4 0     |
| For each subsequent hour or part of an hour                                               | 1 0 0     |
| For a journey not exceeding 2½ miles completed within half an hour                        | 0 12 0    |

## SCHEDULE II

Journeys extending outside the Delhi Urban Area, including return journey, if the return journey is completed within time mentioned in last column.

| From                       | To                               | Rate<br>Rs. | Time within which journey<br>must be completed. |
|----------------------------|----------------------------------|-------------|-------------------------------------------------|
| Delhi Main Ry. Station ... | Delhi Cantonment                 | 7           | 6 hours                                         |
| Do                         | Okhla or Kalkaji                 | 6           | 6 "                                             |
| Do                         | Humayun's Tomb and<br>Nizamuddin | 5           | 5 "                                             |
| Do                         | Qutab                            | 8           | 8 "                                             |
| Do                         | Shadhara                         | 3           | 3 "                                             |
| New Delhi                  | Qutab                            | 6           | 6 "                                             |
| New Delhi                  | Okhla or Kalkaji                 | 5           | 5 "                                             |

General Note.—1. For journeys outside the Delhi Urban Area not covered by the entries in Schedule II the hirer must settle terms with the owner or driver of the hackney carriage.

2. The above rates are of II<sup>nd</sup> Class tongas. Fares for IV<sup>th</sup> Class tongas shall be three quarters of the above rates.

3. The hirer is at liberty to make a private agreement with the owner or driver of the hackney carriage for a lesser charge.

4. Should any driver charge more than the scheduled fare a complaint should be made to the Secretary of the Delhi Municipal Committee.

By order,

M. C. GAGERNA, B.A., LL.B.,  
Secretary, Municipal Committee, Delhi

**Shri Deshbandhu Gupta:** May I know whether it is a fact that the rates fixed for tongas are not really the rates charged by them?

**Mr. Speaker:** I think the question is of such a minor importance that we need not spend any time on it.

**Dr. P. S. Deshmukh:** May I know who is actually in charge of the arrangements regarding transport in this Metropolitan City of Delhi? Who is responsible for the way in which the transport arrangements are made?

**The Honourable Rajkumari Amrit Kaur:** May I know how this arises from this Question?

## ESTABLISHMENT OF UNIVERSITY FOR NATUROPATHY AND NATURE CURE CLINICS

**\*1144. Shri R. L. Malviya:** (a) Will the Honourable Minister of Health be pleased to state if Government are aware that it was the wish of Mahatma Gandhi to establish a University for education of Naturopathy and clinics throughout the country for promotion of nature cure?

(b) If so, what steps have Government taken so far in this direction?

(c) If not, do Government propose to take any steps in the matter?

**The Honourable Rajkumari Amrit Kaur:** (a) Gandhiji believed in Nature Cure but there was never any intention in his mind of establishing a University for Naturopathy.

(b) and (c). Government have no proposals for the development of the study and practice of "Nature Cure."

**Shri H. V. Kamath:** What are the reasons for not having any proposals, Sir?

**The Honourable Rajkumari Amrit Kaur:** No proposals have been sent to Government by naturopaths in this country.

**Shri H. V. Kamath:** Do Government intend to initiate anything at their own instance?

## MILITARY TRAINING IN SECONDARY SCHOOLS

**\*1145. Shri R. L. Malviya:** (a) Will the Honourable Minister of Defence be pleased to state whether Government have got any scheme for giving military or semi-military training to students of secondary schools, both for the boys and girls?

(b) If so, what is that scheme?

**The Honourable Sardar Baldev Singh:** (a) Yes.

(b) I would refer the honourable member to two book-lets recently published by the Ministry of Defence, one entitled "Objects and Organisation of the National Cadet Corps" and the other "The National Cadet Corps, What It Is And Why", copies of which are available in the Library of the House.

## OPENING OF CENTRES FOR PHYSICAL CULTURE

**\*1146. Shri R. L. Malviya:** (a) Will the Honourable Minister of Education be pleased to state what steps have so far been taken to start centres for physical training and what is Government's scheme for promotion of physical culture?

- (b) Will Government consider the desirability of such training and take early steps to draft a plan and bring it into operation?
- (c) While considering the plan will Government keep in view the introduction of Akharas and the Yogic system of physical culture?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) and (b). The Government of India set up in May, 1948, a Committee on Physical Education to draw up a comprehensive plan of Physical Education for the whole country. Its recommendations are being examined in consultation with the Provinces. Due to financial stringency, the Government of India have been compelled to reduce its programme for 1949-50, but in view of the importance of physical education, a provision of Rs. 1 lakh has been made for helping Physical Education Centres in the Provinces and a sum of Rs. 25,000 for setting up a Central Board of Physical Education and Recreation.

(c) Yes, Sir.

**Shri H. V. Kamath:** Has the Honourable Minister, Sir, any knowledge of the splendid value of Yogic culture for the all-round development of human personality?

**The Honourable Shri Satyanarayan Sinha:** I am thankful for the information given by the honourable member.

**Shri H. V. Kamath:** I did not catch the reply, Sir.

**Mr. Speaker:** He said the honourable member has given him information for which he is thankful.

#### COMPULSORY PHYSICAL TRAINING IN CENTRALLY ADMINISTERED AREAS

\*1147. **Shri R. L. Malviya:** (a) Will the Honourable Minister of Education be pleased to state whether Government propose to consider the advisability of introducing physical training as a compulsory subject for secondary education both for boys and girls in the Centrally Administered Areas?

(b) If the answer to part (a) be in the affirmative, do Government propose to consider the inclusion of Akharas and Yogic system of Physical Culture in the courses and how long would it take to bring it into operation?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) and (b). Yes, Sir.

The Government appointed a Committee on Physical Education which has recommended such a course. Government now propose to set up a Central Board of Physical Education, and the matter raised by the honourable member will be referred to this Board.

#### ACQUISITION OF LAND ON NAJAFGARH ROAD, DELHI FOR INDUSTRIAL SUPPLEMENTARY AREA SCHEME

\*1148. **Ch. Ranbir Singh:** (a) Will the Honourable Minister of Health be pleased to refer to the supplementary question by Shri Deshbandhu Gupta raised on Starred Question No. 581 asked on the 22nd February, 1949 and state how many representations from the people protesting against the proposed acquisition of their land for the Industrial Supplementary Area Scheme on Najafgarh Road, Delhi, have been received?

(b) What action has been taken on each of the representations and what orders have been passed, if any?

(c) Are Government aware that some of the persons are keen to put up small factories on their own land? If so, will Government please see that no hardship is done to them and they are allowed to retain their land on the same conditions on which the Delhi Cloth and General Mills is being permitted by the Delhi Improvement Trust?

**The Honourable Rajkumari Amrit Kaur:** (a) Five.

(b) Two representations have been rejected and action on two others is held up as it is understood that one of the petitioners is taking legal action in the matter, while with regard to the fifth representation the Delhi Improvement Trust has been asked to give due consideration to the requirements of the objector in the plan of allotment.

(c) One case has come to the notice of Government where the petitioner wants to set up his own factory. The possibility of allowing such persons to retain their land will be examined.

**Shri Deshbandhu Gupta:** May I know whether it is a fact that there are large areas which have been notified by the Improvement Trust for the last ten years, and the Improvement Trust has not yet acquired those areas? Will Government please consider the desirability of allowing these areas also to be made use of by the owners?

**The Honourable Rajkumari Amrit Kaur:** If the honourable member will let me have the detailed lists of these lands, I will certainly recommend the consideration of the suggestion.

#### COMPENSATION BY DELHI IMPROVEMENT TRUST FOR LAND ACQUIRED FOR DELHI CLOTH AND GENERAL MILLS LTD.

\*1149. **Ch. Ranbir Singh:** (a) Will the Honourable Minister of Health be pleased to state if Government are aware that the price paid by the Delhi Improvement Trust for the land which has quite recently been acquired for giving to the Delhi Cloth and General Mills Limited, is that which prevailed in 1939 or so?

(b) Are Government aware that the Agriculturists and other small land owners who have to part with their possessions at a rate which prevailed about five to ten years before, are put to very heavy losses which adds to their miseries in these hard days?

(c) Is the Trust or the party concerned prepared to pay to the Agriculturists and other land owners the prevailing rates at the time of actual acquisition?

**The Honourable Rajkumari Amrit Kaur:** (a) Compensation has been paid with reference to the date on which notice under Section 36 of the Trust Law was issued as required by Law. The date in this case was the 18th July, 1942.

(b) As the value of property has gone up since then some hardship is inevitable.

(c) This is not possible under the Law as it stands.

**Prof. N. G. Ranga:** Why is it, Sir, that prices commensurate with present-day prices are not being paid to the peasants? Why are they paid only the 1942 prices?

**Mr. Speaker:** I think that is a matter of law. Under the Land Acquisition Act, the price payable is with reference to the date on which the notification issued. That is the law.

**Sardar Bhopinder Singh Man:** Have Government any proposal to make available alternative pieces of agricultural lands to those agriculturists who are deprived of their land?

**The Honourable Rajkumari Amrit Kaur:** I do not think this question arises.

**Mr. Speaker:** No, it does not arise.

**Prof. N. G. Ranga:** How does the Government propose to compensate those people who are forced out of their lands to sustain this loss?

**Mr. Speaker:** We are going into a wider question which would be the subject matter of a debate.

**Shri Deshbandhu Gupta:** May I know whether it is a fact that in many cases the Improvement Trust has given developed land in exchange of the land acquired by them?

**Mr. Speaker:** I am afraid we are going into arguments. That may not be possible always.

**Shri Mahavir Tyagi:** What action have Government taken to compensate these poor peasants because of the losses they have suffered on account of Government's laws?

**Ch. Ranbir Singh:** Do Government propose to rehabilitate the people whose land has been acquired?

**The Honourable Rajkumari Amrit Kaur:** I do not see how this can arise from this question. Government has to acquire land for its purposes, and it has to acquire it under the existing law, and until that law is changed, we cannot acquire it in any other way.

#### SEARCH OF MASTER TARA SINGH AT NARELA

\*1150. **Master Nand Lal:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) whether the person and the luggage of Master Tara Singh were searched on his arrest at Narela Railway Station; and

(b) if so, what articles were found in the search?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes.

(b) One licensed six-chambered revolver, some cartridges were found.

#### RULES RE USE OF STATE PROPERTY BY RULERS

\*1151. **Shri Balwant Sinha Mehta:** (a) Will the Honourable Minister of States be pleased to state whether any rules have been framed governing the question of the Rulers of States keeping property for their own use out of State properties?

(b) If so, on what basis have they been framed?

(c) Are all the princes governed by the same rules?

(d) If not, why not?

(e) Have the Rulers given any undertaking not to dispose of the property so acquired in future and if not, why not?

**The Honourable Sardar Vallabhbhai Patel:** (a) No.

(b), (c) and (e). Do not arise.

(d) Government do not contemplate any case in which such claim can be successfully made.

#### EDUCATION OF ABORIGINALS

\*1152. **Shri Balwant Sinha Mehta:** (a) Will the Honourable Minister of Education be pleased to state what special measures have been taken so far by the Government of India to educate or wipe out illiteracy in Adivasi areas?

(b) Do Government intend to send a deputation to foreign countries to study the ways where such problems have been tackled?

(c) Do Government consider that the ordinary measures will be suited for their educational uplift?

(d) If not, what measures are they adopting and when will they be implemented?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) Under the Central Aborigines and Hill Tribes Scholarships Scheme the Government of India have granted 85 Scholarships to the Aborigines and Hill Tribes during 1948-49 at a cost of Rs. 50,000 for studies beyond the Matriculation stage. The question of the continuation of the Scheme during 1949-50 and subsequent years is under consideration.

A five year Educational Development Plan has been prepared for the backward communities living in the Tribal Areas on the North-East Frontier of Assam which is administered by the Centre. The salient features of the Plan are given in the statement laid on the table.

The Provinces have also included Schemes in their Educational Development Plans for the educational uplift of the aborigines, for which purpose they are receiving partial grants from the Centre. The statement on the table shows the provisions made by them.

(b) Not at present.

(c) Yes. The Government of India consider that the Scheme of Basic Education modified with a view to suit special local circumstances will be suitable for the educational uplift of the Adivasis.

(d) Does not arise.

#### STATEMENT.

*Special provision made for the Education of Aborigines in the Five-Year Plans and the Schemes which have already been implemented.*

#### PROVINCIAL PLANS

##### 1. Assam—

(i) Opening of at least 50 Primary Schools annually in all the Excluded Areas viz. Lushai, Naga and North Cachar Hills etc.

The scheme has been implemented in 1947-48 and since is in progress.

(ii) Opening 3 High Schools—one each in Lushai Hills, North Cachar Hills and the Sadiya Frontier Tract, and Opening 5 Middle Schools annually in the excluded Areas and providing necessary inspectorate.

##### 2. Bihar—

(i) Award of scholarships to Aborigines of Chota Nagpur and Santal Parganas for their education and cultural development.

(ii) Construction of hostels for Aboriginal students.

Both the schemes have been Approved for implementation in the year 1948-49.

##### 3. Bombay—

Grants-in-aid to local authorities and voluntary agencies to encourage them to open special Primary Schools and Hostels for aboriginal tribes.

## 4. C. P. and Berar—

(i) Award of scholarships to Students in aboriginal areas.

(ii) Opening of 500-Primary Schools in villages in partially excluded areas.

The former scheme was approved for implementation in 1946-47 and the latter in 1946-47 and 1947-48.

*Orissa*

(i) Starting of Basic Schools of residential type and Day Schools etc. with a view to spreading literacy among the aboriginals and Semi-Aboriginals and the partially excluded areas.

(ii) Providing more scholarships and slates to the students of hill tribes and backward communities among others.

The latter scheme was implemented in 1946-47 and was in progress in 1947-48 and the former one was implemented in 1947-48.

*Central Plans*

The five-year Educational Plan has been prepared for the backward communities living in the Tribal Areas on the North-west Frontier of Assam. It aims at evolving a type of educated man, who is willing and is able to assist in the progress of these areas. It is also proposed to evolve a curriculum for the schools which will be closely linked with Agriculture. An important feature of the teachers' training will be for each man to spend a fixed period in the village of the tribe with which he is to work, to enable him to learn his language and ways of thought. As an experiment it is also intended to start a school of the type known in America as Joan's School. This will be located at one of the experimental farms and will be in the nature of a small model village where a few entire families will learn improved methods of agriculture, simple hygiene and so forth. In all 55 Primary Schools are proposed to be opened in the first five-year period.

**Shri H. V. Kamath:** At present, Sir, what is the percentage of illiteracy in Adivasi areas?

**The Honourable Shri Satyanarayan Sinha:** I would like to have notice.

## GRANTS-IN-AID TO SCHOOLS IN STATES

\*1153. **Shri Balwant Sinha Mehta:** (a) Will the Honourable Minister of Education be pleased to state whether any grants-in-aid are being given to any private or public schools in States?

(b) If so, which institutions are receiving and how much?

(c) What is the criterion for obtaining Central Government grant?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) and (b). No grants have been made till now to any school, whether public or private, in any of the Indian States. This year, however, an exception has been made in favour of Banasthali Vidyapith in Jaipur, as this institution is of a special type and cannot be classed with ordinary private or public schools. The amount paid to Banasthali Vidyapith is Rs. 25,000 for the year 1948-49.

(c) Education is primarily the concern of the Governments of the Provinces or States and the Centre does not ordinarily give any grants to institutions within their areas. In the case of certain institutions, which are recognised to be of an all-India character, a definite procedure for grants-in-aid by the Central Government has been laid. A copy of the rules governing such grants is laid on the table.

## STATEMENT

*Procedure to be observed in considering applications from Educational Institutions, (technical and cultural) for grant-in-aid from Central Government.*

(1) The institution should be of an all-India character.

(2) Grant should be made subject to satisfactory reports by the Governments of the areas in which the institutions are located and the receipt of a grant from the Government of the area.

(3) At least 25% per cent of the students of an Educational Institution must be from Provinces and States outside the Provinces or States in which the institution is located. This percentage need not, however, be rigid and might be allowed to depend upon the amount required from the Government of India. Amongst these 25% students, those other Provinces and States should have a fair distribution.

(4) There should be equal opportunity of employment of men and women of all provinces in the staff.

(5) In the distribution of any aids, scholarships or free ships given by the Institutions to students, the same principle should be observed.

(6) The institution should fulfil a real all-India need; for instance, it may be the only institution of its kind, dealing with a subject or class of students with which no other institution is concerned or a case is made out that although other institutions of the type exist, there is need for additional institutions.

(7) The institution is required in the general plan of development—educational (scientific, humanistic etc.) or cultural.

(8) Scale of salaries of the staff of the Institution should be on basis approved by the Central Government.

(9) The institution should be open to inspection by Central Government.

(10) Annual Reports and Audited Accounts should be submitted regularly to the Government of India.

(11) Except in very special cases, our grants, should be for projects considered essential by the Government of India.

(12) The constitution of Managing Body should be approved by Central Government which should have the right to nominate its representative on it.

*N.B.*—In making the grants it should be borne in mind that the institution should not, as far as possible deviate from standards or principles laid down for institutions of similar kinds by the Central Government.

**Shri Mahavir Tyagi:** Is the character of Banasthali Vidyapith all-India?

**The Honourable Shri Satyanarayan Sinha:** All-India in the sense that the girls education imparted there is of a unique character in the whole of India.

**Seth Govind Das:** Is it due to the fact that girls from all parts of the country come and study there?

**The Honourable Shri Satyanarayan Sinha:** Yes and other factors.

**Babu Ramnarayan Singh:** What are the special circumstances attached to the Banasthali Vidyapith for which a grant has been made to it?

**The Honourable Shri Satyanarayan Sinha:** I have explained that girls education imparted there is of a unique character in the whole country.

**Shri H. V. Kamath:** In what respects is that institution unique?

**The Honourable Shri Satyanarayan Sinha:** If the honourable member pays a visit to that institution, he will be fully impressed by its unique character.

## OVERSEAS SCHOLARSHIPS AWARDED TO STUDENTS FROM STATES

\*1154. **Shri Balwant Sinha Mehta:** (a) Will the Honourable Minister of Education be pleased to state how many overseas scholarships have so far been awarded to students from States?

(b) What are the names of the States to which the students belong and what was the number of students sent abroad?

(c) How are these students selected for such scholarships?

(d) How many of the students have so far been absorbed in service or in business after they returned from foreign countries?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) 94 Government scholarships under the Overseas Scholarships Scheme; and 469 States Overseas Scholarships awarded by States Governments themselves.

(b) A statement showing the required information is laid on the table of the House.

(c) In the case of Government scholarships these are advertised, applications invited and selections made on merit by a special Board appointed for this purpose.

Selection for the Indian States scholarships is the responsibility of the States concerned.

(d) Out of 47 Government Scholarship holders who have since returned, 29 have been employed or offered posts. The placement of the returned Indian States Scholarship-holders is the responsibility of the States concerned.

## STATEMENT

*Names etc. of Indian States Students awarded Overseas Scholarships.*

| S. No.                              | Names of Scholar.                           | State.     |
|-------------------------------------|---------------------------------------------|------------|
| 1                                   | 2                                           | 3          |
| <b>(A) GOVERNMENT SCHOLARSHIPS.</b> |                                             |            |
| 1                                   | Mr. M.V. Mathur                             | Alwar.     |
| 2                                   | Mr. U.K. Patvardhan                         | Broda.     |
| 3                                   | Mr. Bala Shankar Tuljaram Suther Khadkiwala | Do.        |
| 4                                   | Mr. F.S. Mehta                              | Do.        |
| 5                                   | Mr. B.B. Misra                              | Baudhraj.  |
| 6                                   | Mr. K.B. Menon                              | Cochin.    |
| 7                                   | Mr. M.G.R. Menon                            | Do.        |
| 8                                   | Mr. P.V. Krishna Iyer                       | Do.        |
| 9                                   | Mr. N.N. Pai                                | Do.        |
| 10                                  | Mr. S. Murtaza Hussain                      | Hyderabad. |
| 11                                  | Mr. D. Hanmant Rao                          | Do.        |
| 12                                  | Miss. Sultana Zulfiqar Ali                  | Do.        |
| 13                                  | Miss Subhadra Anant Chitale                 | Indore.    |
| 14                                  | Mr. B.G. Gokhole                            | Do.        |
| 15                                  | Mr. R.L.H.L. Acharya                        | Jam Nagar. |
| 16                                  | Mr. R.S. Kachwoha                           | Jodhpur.   |
| 17                                  | Mr. R.M. Mehta                              | Do.        |
| 18                                  | Mr. M.L. Sethi                              | Jaipur.    |
| 19                                  | Mr. S. Dhawan                               | Kashmir.   |
| 20                                  | Mr. Prem Nath Ganju                         | Do.        |
| 21                                  | Mr. P.C. Gupta                              | Karauli.   |
| 22                                  | Mr. B. Padhi                                | Keonjhar.  |
| 23                                  | Mr. B.S. Nagraj                             | Mysore.    |
| 24                                  | Mr. K.R. Ramchandrarani                     | Do.        |
| 25                                  | Mr. M.J. Thrinmelacharu                     | Do.        |
| 26                                  | Mr. R. Venkatarania                         | Do.        |
| 27                                  | Mr. N.K. Gopalan                            | Do.        |
| 28                                  | Mr. T.J. Manikam                            | Do.        |
| 29                                  | Mr. K.R. Naraina Row                        | Do.        |
| 30                                  | Mr. K.N.S. Sastri                           | Do.        |

## REVISION OF PAY SCALES OF EMPLOYEES OF AMBALA CANTONMENT BOARD

\*1155. **Lala Achint Ram:** (a) Will the Honourable Minister of Defence be pleased to state whether it is a fact that the Cantonment Board, Ambala, revised the grades of its employees from 1st October, 1948?

(b) Is it a fact that the recommendations of the Board were not accepted by the General Officer Commanding-in-Chief, Western Command, *in toto*?

(c) Is it a fact that the Director of Military Lands and Cantonments during his last visit to Ambala Cantonment assured the Cantonment Board Employees that Government would not stand in their way if the Cantonment Board revised their grades according to the recommendations of the Pay Commission and did not ask for any grant in aid?

(d) If the answer to the above be in the affirmative, what are the reasons which prompted the General Officer Commanding-in-Chief to turn down the Cantonment Board's recommendations in various cases?

(e) Is it a fact that the General Officer Commanding-in-Chief made distinction in accepting the grades of a few while ignoring the cases of others in the same grades?

(f) Has the attention of the Government been drawn to the letter of *Probono-Publico* published in the *Tribune*, dated 27th February, 1949?

(g) What action do Government propose to take in the matter?

**The Honourable Sardar Baldev Singh:** (a), (b), (f) and (e) The Cantonment Board Ambala, made certain recommendations for the revision of the scales of pay admissible to their employees. As in some cases the Cantonment Board had recommended higher scales than those suggested by the Central Pay Commission for corresponding grades of Government servants, the G.O.C.-in-C. has referred the matter back to the Cantonment Board with alternative suggestions. The matter is therefore still under consideration.

(c) No.

(f) Yes.

(g) I would refer the honourable member to my answer to part (b) of Starred Question No. 28 asked by Shri B. N. Munavalli on the 1st February 1949.

## (b) WRITTEN ANSWERS

## GOVERNMENT SERVANTS TAKING PART IN ACTIVITIES OF AKALI PARTY

\*1156. **Shri Damoder Swarup Seth:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) whether the activities of the Akali party are treated as prejudicial to the interests of the country;

(b) whether Government are aware that a great percentage of the Government Servants of the Sikh community take part or are interested in the activities of the Akali party; and

(c) if so, what action Government propose to take in the matter?

**The Honourable Sardar Vallabhbhai Patel:** (a) Some of the activities of the Akali Party are considered Prejudicial.

(b) No.

(c) Does not arise.

## BAN ON USE OF LOUD SPEAKERS IN DELHI

\*1157. **Shri Damoder Swarup Seth:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) the religious places in Old and New Delhi where loud speakers have been installed;

(b) whether Government are aware that the broadcasts from the loud speakers referred to in part (a) above, disturb the peace of the area, especially the student community; and

(c) whether Government propose to ban permanently the use of loud speakers both at religious places and by advertising agents without the specific permission of the District Magistrate?

**The Honourable Sardar Vallabhbhai Patel:** (a) Gurdwara Sis Ganj near Kotwali, Old Delhi, and Parbandhak Committee Gurdwara Karol Bagh, Old Delhi. No loud speaker has been installed in any religious premises in New Delhi.

(b) As far as Government are aware no such disturbance is caused.

(c) Government do not propose to ban permanently the use of loud speakers at religious places. As regards the use of loud speakers by advertising agents, action has already been taken under the Madras Towns Nuisance Act which is applicable to the Delhi Province.

## DISSOLUTION OF UNDIVIDED JOINT HINDU FAMILY FOR INCOME-TAX ASSESSMENT

\*1158. **Shrijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Finance be pleased to state whether his predecessor gave an assurance to the House in the course of a speech delivered in the last Budget Session that dissolution of Undivided Joint Hindu Family will be allowed for purposes of Income-Tax assessment whenever asked for?

(b) Is it a fact that the general trend of the Income-Tax Department is against grant of applications under section 25A of the Indian Income-Tax Act regarding dissolution of Hindu Undivided Families?

(c) Is it a fact that the Income-Tax Department has rejected such applications even when decrees of High Courts are produced as evidence of dissolution?

(d) Are the Department acting on any departmental instructions in the matter?

**The Honourable Dr. John Matthai:** (a) The assurance given by my predecessor was to the effect that if partition of property in a Hindu family is established by a registered deed or other evidence acceptable to a court of law, separate assessments should be made on the members, without further question. Instructions were accordingly issued with the approval of my predecessor in April and June 1948.

(b) No.

(c) I am not aware of any application having been rejected. If any specific case is brought to the notice of Government it will be enquired into. I should, however, add for the information of the honourable member that what is required is proof of partition of property, and not of dissolution of the family.

(d) Yes.

## FAMINE RELIEF WORKS IN KUTCH

\*1159. **Shri A. V. Thakkar:** (a) Will the Honourable Minister of States be pleased to state for how long the famine relief works have been going on in Kutch?

(b) How many men, women and working children have been engaged thereon as per last available return?

(c) What are the rates of wages given to them per working day?

(d) Is it a fact that recently a large number of them have been thrown out of employment on account of large relief works having been closed suddenly?

(e) If so, for what reason were they closed?

**The Honourable Sardar Vallabhbhai Patel:** (a) Famine relief works were started in Kutch in the first week of October, 1948.

(b) The total number is 13,387.

(c) Wages are not paid per working day but on the basis of work done by each individual. Average earnings amount to As. -/7/- per head per day.

(d) and (e) It is the policy of Government to employ labour as far as possible in productive work. In accordance with this policy the number of labourers employed on non-productive works has been reduced though they have not been closed.

#### DEATH OF A REFUGEE GIRL INJURED BY CAR

**\*1160. Master Nand Lal:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) whether it is a fact that a refugee girl of the age of 6 or 7 years was injured by a car driven by one Shri Kumar of the Pusa College on the Punchkuin Road on the evening of the 16th February 1949;

(b) whether it is a fact that the Station House Officer, Reading Road Police Station, New Delhi, had the girl admitted in the Lady Hardinge Hospital instead of in the Irwin Hospital;

(c) whether it is a fact that the girl died in the Hospital on the 17th February 1949;

(d) whether it is a fact that no post mortem was performed of the dead body and the body was cremated;

(e) whether it is a fact that the Police failed to register the case; and

(f) whether the Station House Officer is in anyway related to the said Shri Kumar?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes. A refugee girl Darshan Kumari, daughter of Harbans Lal was run over by the car of one Shri Hans Kumar Mechanical Engineer, Pusa Institute on the 16th February 1949.

(b) No. Shri Hans Kumar had the girl admitted to the Lady Hardinge Medical College Hospital.

(c) Yes.

(d) Yes.

(e) No.

(f) No.

#### UNSTARRED QUESTIONS AND ANSWERS

##### INSTITUTIONS FOR MEDICAL STUDIES

**94. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Health be pleased to state the total number of Ayurvedic and Unani Tibbi Medical Colleges (teaching institutions of Indigenous Medicine) in the provinces and States of India?

(b) How many students are admitted in each school or college every year?

(c) What is the number of colleges teaching Allopathic Medicine in the Union of India including the States?

(d) What is the number of institutions in India for teaching dentistry, ophthalmology and pharmacy?

**The Honourable Rajkumar Amrit Kaur:** (a) to (d). A statement containing the information in respect of Provinces and Local Administrations is laid on the table of the House. Information regarding States and Union of States is not available.

#### STATEMENT

| Serial No. | Province         | Number of Ayurvedic and Unani Tibbi Colleges (teaching institutions of Indigenous Systems in Provinces) | Number of Students admitted in each college or School every year | Number of Colleges teaching Allopathic Medicine in provinces | Number of Institutions for teaching |               | Remarks                                                                                                                                                     |

## LOANS GRANTED BY REHABILITATION FINANCE ADMINISTRATION

95. **Shri Basanta Kumar Das:** Will the Honourable Minister of Finance be pleased to state:

(a) the number of applications for loans received by the Rehabilitation Finance Administration and the number disposed of by granting loans or otherwise;

(b) the amounts granted to different individuals and co-operative organisations or any other concerns formed by groups of persons; and

(c) the amounts granted to refugees from the Western and Eastern Pakistan separately?

**The Honourable Dr. John Matthai:** (a) 4,936 applications were received up to the 26th February 1949, out of which 980 were disposed of, 575 were sanctioned and the remaining 405 were rejected.

(b) A sum of Rs. 80,24,500 was granted as loans, the details of which are given below:

| Number of Applicants. | Particulars.           | Amount Sanctioned.   |
|-----------------------|------------------------|----------------------|
| 310                   | Individuals            | Rs. 37,57,000        |
| 155                   | Joint Hindu Families   | 20,46,500            |
| 92                    | Partnership concerns   | 15,04,000            |
| 14                    | Private Ltd. Companies | 4,15,000             |
| 2                     | Joint Stock Companies  | 1,42,000             |
| 2                     | Co-operative Societies | 1,60,000             |
| <b>575</b>            |                        | <b>Rs. 80,24,500</b> |

(c) The amounts granted to refugees from the Western and Eastern Pakistan are indicated below:

|                      |                                     |
|----------------------|-------------------------------------|
| I. Eastern Pakistan  | 107 Applicants for<br>Rs. 12,27,500 |
| II. Western Pakistan | 468 Applicants for<br>Rs. 67,97,000 |

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

## (PART I—QUESTIONS AND ANSWERS)

Friday, 18th March, 1949

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

## STARRED QUESTIONS AND ANSWERS

## (a) ORAL ANSWERS

## CONTRIBUTION TO COMMONWEALTH AGRICULTURAL BUREAU

\*1161. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Agriculture be pleased to state the contribution paid by India to the Commonwealth Agricultural Bureau during the years 1946, 1947 and thereafter?

(b) Is it a fact that a demand for an increase in the contribution has been made and if so, why?

(c) What are the functions of this Bureau and to what extent has the Agricultural Ministry benefited through this Bureau?

**The Honourable Shri Jairamdas Doulatram:** (a) During 1945-46, £6,443 5s. and during 1947-48, £8,568. No payment has yet been made for 1948-49.

(b) Yes. On account of post war change in the level of cost and additional establishment required to cope with the work.

(c) The functions of the Bureaux are: (i) to keep the scientists in touch with the progress of research throughout the world (ii) to collect, collate and disseminate information on research in different branches of Agricultural Science and generally to assist research workers in the Commonwealth with information relevant to their subjects.

In return for the contributions made, India, like other contributing countries,—

(i) takes advantage of the services rendered by the Bureaux in obtaining advice on important scientific problems with which the Bureaux deal;

(ii) gets, free of cost, abstracts, papers and periodicals reviews of the Sections of the Bureaux and the attached Institutes of Entomology and Mycology, giving complete and latest technical information of importance to Scientific Workers in India.

(iii) derives considerable benefit from and, in fact, depends on the Bureaux for identification of cultural specimens. If India is to duplicate all that the Bureaux are doing in this line, it would mean not only considerable expenditure but also the harnessing of many premier scientists, whose number is few, to that work; and

(iv) through its connections with the Bureaux, places her results of research and problems on the international map.

**Shri R. K. Sidhva:** May I know what the practical results or benefits are from this Bureaux to our Ministry?

**The Honourable Shri Jairamdas Doulatram:** The practical results are these, that where we come across any new type of insect or fungi, then we send those specimens to England for this reason that as a result of research work over a long course of years they have discovered certain remedies to deal with them. When we find we are not sure that this fungi is the fungi which is detailed in their literature against which a particular remedy has to be applied, we send specimens to them and on identification of the specimens we apply the remedies. For instance, in the case of sugar cane there are certain pests and we are now actually importing certain parasites which will eat up the larvae of these pests and thereby save our sugar cane crop.

**Shri R. K. Sidhva:** Have we not got any such Institute and if not, may I know whether Government contemplate, with their three years experience, to set up any such institute in India?

**The Honourable Shri Jairamdas Doulatram:** This knowledge is international and it costs tremendously to duplicate in every country all items of research. Therefore, we take advantage of results of research wherever conducted. It is in the interests of economy that we are not starting any institute. We are making continuous researches, but the world is also making continuous researches and wherever knowledge is available, we get it from there.

**Shri V. C. Kesava Rao:** May I know whether any Indians are employed in this Commonwealth Agricultural Bureaux?

**The Honourable Shri Jairamdas Doulatram:** Indians are not employed there, but we have sent about half a dozen workers who have received training there.

**Shri H. V. Kamath:** Is not India a member of the Food and Agricultural Organisation of the United Nations?

**The Honourable Shri Jairamdas Doulatram:** Yes, India is.

**Shri H. V. Kamath:** Then do not these overlap—this Commonwealth Agricultural Bureaux and the F. A. O.?

**The Honourable Shri Jairamdas Doulatram:** They do not overlap because the Bureau is conducting researches in England. The F. A. O., so far as I know, has not got any independent centres where research work is carried on.

**Shri H. V. Kamath:** Who are the other members of the Commonwealth Agricultural Bureaux?

**The Honourable Shri Jairamdas Doulatram:** The present member countries of the Commonwealth.

**Pandit Lakshmi Kanta Maitra:** What financial contribution does India make to this?

**The Honourable Shri Jairamdas Doulatram:** I have just read out. It was Rs. 443. 5- in 1945-46 and in 1947-48 Rs. 504.

**Shri R. K. Sidhva:** What is the highest contribution paid by any country? Which country pays the highest contribution, may I know?

**The Honourable Shri Jairamdas Doulatram:** I have not got that information, but I will give it to the House.

**Prof. N. G. Ranga:** Does this Bureaux help our students to find seats in various Research Institutes and also Universities in England to study advanced branches of agriculture?

**The Honourable Shri Jairamdas Doulatram:** As I said, we sent our students there for training. Six of our men have received training there.

#### SUPERANNUATED OFFICERS IN MINISTRY OF FOOD

**\*1162. Shri R. K. Sidhva:** Will the Honourable Minister of Food be pleased to state:

(a) the number of superannuated officers drawing salaries of over Rs. 1,000 per mensem appointed from 1st March, 1948 to date in the Ministry of Food; and

(b) in what Ministries they were originally employed and whether non-superannuated officers of similar qualifications were not available for the said posts?

**The Honourable Shri Jairamdas Doulatram:** (a) Nil.

(b) Does not arise.

**Shri R. K. Sidhva:** May I know whether there are any super-annuated officers in the Ministry of Food and if so, whether there is no efficient man available in the Department to replace these super-annuated officers?

**The Honourable Shri Jairamdas Doulatram:** The question related to officers drawing salaries over Rs. 1,000. There is no such officer. There are some officers drawing less than Rs. 1,000 and they have been kept because they have special experience and training for a number of years, and we do not want at this critical time to make sudden changes.

**Shri R. K. Sidhva:** No, Sir. May I know whether there is any super-annuated officer in the Ministry of Food?

**Mr. Speaker:** That is what he has stated—none drawing above Rs. 1,000.

#### ESTABLISHMENT OF RUBBER TYRE FACTORY IN TRAVANCORE

**\*1163. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether a factory for the manufacture of rubber tyres is contemplated to be started in Travancore?

(b) If so, what is the proposed capital and have Government any share in the scheme?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The issue of capital for the establishment of a factory in Travancore with an annual capacity of 1,00,000 sets of motor tyres and tubes and 10,00,000 sets of cycle tyres and tubes, and a license for import of machinery have been sanctioned.

(b) Sanction has been given for the issue of a capital of rupees three crores. The Government of India have no share in the scheme, but the Government of Travancore have agreed to participate in it.

**Shri R. K. Sidhva:** What is the total capital for this new industry that is going to be started?

**The Honourable Dr. Syama Prasad Mookerjee:** Three crores.

**Shri R. K. Sidhva:** May I know what is the present production and consumption in India of rubber tyres?

**Mr. Speaker:** What kind of rubber tyres?

**Shri R. K. Sidhva:** Rubber tyres and the production of the factory that is going to be started.

**The Honourable Dr. Syama Prasad Mookerjee:** Regarding rubber tyres we produce about 280 sizes in different types of aero-, motor, joint, cycle tyre and tubes and the total number of sizes that are imported is about 80.

**Shri R. K. Sidhva:** What will be the production from this new industry that is going to be started?

**The Honourable Dr. Syama Prasad Mookerjee:** I said just now 1,00,000 sets of motor tyres and tubes and 10,00,000 sets of cycle tyres and tubes.

**Shri R. K. Sidhva:** Will that be self-sufficient for our purpose?

**Mr. Speaker:** That is a matter of opinion.

**Prof. N. G. Ranga:** Was the Government of India approached by this Company to take a certain number of shares in it?

**The Honourable Dr. Syama Prasad Mookerjee:** No, we have not been approached.

**Mr. John E. Phillipose:** Is there any other tyre manufacturing company under contemplation?

**The Honourable Dr. Syama Prasad Mookerjee:** No. There are several factories working in India.

**Shri M. Ananthasayanam Ayyangar:** Has the Honourable Minister any idea as to what the requirements of our Defence Forces are in so far as motor tyre and tubes are concerned?

**The Honourable Dr. Syama Prasad Mookerjee:** I have not got the figures for the Defence Department separately, but I have just indicated the sort of tyres and tubes that we are manufacturing and about 18 types which we are importing, some of which fall within the Defence category.

#### EXTRACTION OF POWER ALCOHOL FROM NEERA

**\*1164. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether any efforts have been made to extract Power Alcohol out of Neera?

(b) What is the estimated quantity of Power Alcohol that can be extracted from Neera?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) It is considered that the production of power alcohol from Neera would be uneconomical, as Neera contains a very low percentage of alcohol and the cost of collecting and transporting the juice from the trees, which are scattered, to a central distillery would be high. On the other hand the juice can be more economically utilised for producing palm jaggery on a cottage industry basis, and this is being encouraged.

(b) As there is no organised collection of Neera, it is difficult to estimate the quantity of power alcohol that can be obtained from it. The quantity obtainable is, however, likely to be negligible.

**Dr. P. S. Deshmukh:** Is the supply of Neera sufficient to meet the demand in the country. Does the honourable Minister know it?

**The Honourable Dr. Syama Prasad Mookerjee:** There are no statistics of the demand.

**Shri H. V. Kamath:** What is the percentage of alcohol in Neera?

**The Honourable Dr. Syama Prasad Mookerjee:** About nine per cent.

**Shri H. V. Kamath:** Then why is it permitted where prohibition is enforced?

**Mr. Speaker:** That is a different matter. It is more or less a provincial matter.

#### DISTRIBUTION AND PRODUCTION OF SALT AT SAMBHAR

**\*1165. Shri V. C. Kesava Rao:** Will the Honourable Minister of Industry and Supply be pleased to state the steps which Government have taken to reorganise production and distribution of salt at Sambhar?

**The Honourable Dr. Syama Prasad Mookerjee:** A statement is laid on the table of the House.

#### STATEMENT

**Production.**—The following are the more important among the steps taken to reorganise production at Sambhar:

- (i) Canals and crystallising beds are being cleaned to get more brine and avoid wastage in salt collection;
- (ii) The internal transport system is being strengthened by the purchase of additional tubs and locomotives;
- (iii) The workshop at Sambhar is being expanded and a scheme for the expansion of the chemical laboratory is under examination;
- (iv) Action is being taken to work out a technique for getting salt freed from sodium sulphate and other impurities.

**Distribution.**—A zonal scheme has been introduced from 1st January 1949, for rationalisation of transport and distribution.

#### USE OF SALOONS ON RAILWAYS

**\*1166. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state the number of saloons in each Railway and how many of them are intended to be used by Ministers, General Managers, Divisional Superintendents, Divisional Transport Officers, Divisional Commercial Officers, A.T.Os. A.C.Os. and other officers?

(b) What is the capacity of each saloon and what is the maintenance and construction cost of these saloons?

(c) Have any new saloons been constructed since 1941 and if so, what is their number and at what cost were they constructed?

(d) What has been done with the Viceroy's Special Train?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The number of saloons on each Railway is given below:

|                 |     |
|-----------------|-----|
| Assam           | 48  |
| B. B. and C. I. | 69  |
| B. N. R.        | 62  |
| E. I. R.        | 140 |
| E. P. R.        | 31  |
| G. I. P.        | 85  |
| M. and S. M.    | 111 |
| O. T.           | 49  |
| S. I.           | 45  |
| Total           | 640 |

The number intended to be used by Ministers, General Managers, Divisional Superintendents, Divisional Transport Officers, Divisional Commercial Officers, A.T.Os., A.C.Os. and other Railway Officers is 584.

(b) The capacity, maintenance and construction costs of these saloons varies according to the designs. These are approximately as follows:

|             | Capacity<br>(Berths/Seats)                                            | Maintenance<br>cost per annum | Original cost<br>of construction     |
|-------------|-----------------------------------------------------------------------|-------------------------------|--------------------------------------|
|             |                                                                       | Rs.<br>(Average)              | Rs.                                  |
| Broad Gauge | Bogie 2 to 8 beds<br>with accommoda-<br>tion for 1<br>to 6 servants   | 2,350                         | 21,000 (Min.)<br>to<br>98,000 (Max.) |
|             | 6/4-wh. 2 to 4 beds<br>with accommoda-<br>tion for 1<br>to 3 servants | 1,500                         | 6,400 (Min.)<br>to<br>34,000 (Max.)  |
| Metro Gauge | Bogie 2 to 6 beds<br>with a commo-<br>dation for 2<br>stretchers      | 1,275                         | 4,000 (Min.)<br>to<br>48,000 (Max.)  |
|             | 6/4-wh. 2 to 4 beds<br>with accommoda-<br>tion for 2<br>to 3 servants | 725                           | 5,000 (Min.)<br>to<br>30,000 (Max.)  |

(c) No new saloons have been constructed on Indian Government Railways since 1941.

(d) *BG Royal Special*.—Except the two saloons of Their Excellencies, the Dining Car and the Kitchen Car, which have been retained as a nucleus against any possible future use, the rest of the carriages have been converted and put to general use.

*MG Royal Special*.—The question of converting all the available carriages of the MG special for general use is under consideration.

**Shri R. K. Sidhva:** May I know, Sir, the total cost of maintenance of these 640 saloons?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I have not made the calculation. I will give it to the honourable member if he wants it.

**Shri R. K. Sidhva:** May I know whether the honourable member still feels the necessity of continuing to upkeep these 640 saloons under the existing circumstances?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not know whether the existing circumstances are different from the circumstances in which these 640 saloons came into existence. Had the whole matter been overhauled, the total number of these saloons might have been different; as it is possible some of them could have been made available for general use.

**Shri R. K. Sidhva:** How many times in a month do General Managers visit their districts in these saloons?

**The Honourable Shri N. Gopalaswami Ayyangar:** I should like to have notice of that question.

**Pandit Lakshmi Kanta Maitra:** Does this number include the tourist cars? I have found out that they are also used as saloons.

**The Honourable Shri N. Gopalaswami Ayyangar:** I think tourist cars are used for more or less the same purposes as saloons. I do not know if they are so frequently in use as the saloons themselves.

**Pandit Lakshmi Kanta Maitra:** I was asking whether the figure given by the Honourable Minister includes the number of tourist cars as well?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think it does.

**Prof. N. G. Ranga:** Has the fact been brought to the notice of the Minister by his Department that on several occasions this House expressed itself against the continuation of such a large number of these saloons and his predecessors assured the House that they would try their best to reduce their number?

**The Honourable Shri N. Gopalaswami Ayyangar:** As a matter of fact, the honourable member will notice that no saloons have been added to the previous existing number since 1941. As regards the use of the 640 saloons that are now in existence, I am not quite sure what definite orders have been issued on the assurances given by my predecessors. But I will consider the question of issuing some such orders for the future.

**Shri Ajit Prasad Jain:** May I know how does the mileage performed by these saloons compare with the mileage performed by ordinary coaches?

**The Honourable Shri N. Gopalaswami Ayyangar:** As a matter of fact, I think ordinary coaches are much more frequently used than saloons. Per coach or per bogey, I think the ordinary coach must make longer distances in the course of the year than a saloon.

**Seth Govind Das:** The Honourable Minister said there has not been any change in the circumstances? May I know whether in view of the fact that now frequent journeys are made by air, these saloons cannot be changed into ordinary coaches, when there is so much dearth of ordinary coaches?

**The Honourable Shri N. Gopalaswami Ayyangar:** I daresay certain General Managers do make journeys by air over long distances; for example, when some of them come to Delhi headquarters. But I do not think it materially affects the length of journeys they have to perform in the discharge of their duties on their own railways.

**Shri R. K. Sidhva:** I was not able to follow the answer to part (d) of my question. What has happened to the Viceroy's Special? Have all the coaches been dismantled?

**The Honourable Shri N. Gopalaswami Ayyangar:** I have said except the two saloons of Their Excellencies and the dining and kitchen cars, all the rest of the carriages have been converted and put into general use.

**Shri H. V. Kamath:** Is it a fact that in the United Kingdom, the U.S.A., and the U.S.S.R., saloons of these types are rarely used by railway officers of these grades?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid the honourable member has the advantage of me in this matter. I am not acquainted with what the practice is there.

#### ESTABLISHMENT OF PAPER MILL IN ASSAM

\*1167. **Srijut Kuladhar Chaliha:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether the Government of India are going to start any Paper Mill in Assam?

(b) If so, what amount is going to be sanctioned for this purpose to the Government of Assam?

(c) Have Government received any scheme from the Government of Assam for establishing a Paper Mill in the Province?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) No.

(b) Does not arise.

(c) Yes. Government of India have approved the scheme.

#### PRODUCTION AND IMPORT OF COTTON

**\*1168. Sardar Hukam Singh:** Will the Honourable Minister of Agriculture be pleased to state:

(a) the quantity, in bales, of cotton expected to be produced this year;

(b) the quantity required for our mills in India; and

(c) the arrangements made for importing the balance and the countries from which it is to be imported?

**The Honourable Shri Jairamdas Doulatram:** (a) According to trade sources it is estimated that the crop would be about 24 to 26 lakh bales of 392 lbs. each.

(b) On the basis of the figures for the 1947-48 season, the quantity of cotton required by mills in the Indian Union for consumption during the current (1948-49) season is estimated at about 46.0 lakh bales.

(c) Allowing for about 2.7 lakh bales as the estimated requirements for extra factory purposes arrangements have been made for the balance of the requirements as under:

|                                                                                         | Lakh Bales  |
|-----------------------------------------------------------------------------------------|-------------|
| (i) As a result of the Indo-Pakistan agreement.                                         | 6.5         |
| (ii) Through the efforts of the Indian Cotton Mission to East Africa.                   | 2.0         |
| (iii) From Foreign countries other than Pakistan, i.e. U.S.A., Brazil, Egypt and Sudan. | 3.3         |
| (iv) Out of the carry over from 1947-48.                                                | 10.9        |
| <b>Total</b>                                                                            | <b>22.7</b> |

#### REFUSAL BY TEXTILE MILL OWNERS TO WORK THREE SHIFTS

**\*1169. Sardar Hukam Singh:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that the Textile Mill Owners have refused to work three shifts per day?

(b) If so, do Government propose to take any action in the matter?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) No, Sir.

(b) Does not arise.

† Answer to this question laid on the table, the questioner being absent.

#### INAUGURATION OF LARGE AND SMALL SCALE DAIRY FARMING

**\*1170. Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether Government have prepared or propose to prepare any plan or scheme for the inauguration of Government initiated large-scale dairy farming in the country and in townships near big cities;

(b) whether Government propose to consider the desirability of introducing small-scale, self-supporting and co-operative units in dairies;

(c) whether any agency or committee has been appointed to make recommendations in this regard;

(d) whether any report has already been prepared or published on the milk supply and dairy farming in India;

(e) if so, whether that report will be made available to the members of the House; and

(f) what is the number of Government owned, initiated, conducted or subsidised dairy farms in various parts of the country?

**The Honourable Shri Jairamdas Doulatram:** (a) to (c). Yes. A five year plan for increasing milk production in the country has been prepared and it visualises establishment of large scale Dairy Farms near big cities as well as small scale cooperative Dairy farms. The Plan has been forwarded to the Provinces and States for their consideration. A statement (No. I) showing the efforts made by the Provincial Governments in this respect is laid on the table of the House. Another statement (No. II) showing action taken by the different Provincial Governments in this respect is also laid on table of the House.

(d) and (e). Yes. A statement (No. III) showing the reports published by the Government of India on the subject is laid on the table of the House. Copies of all these reports are available in the Library of the House.

(f) A statement (No. IV) giving the available information is laid on the table of the House.

#### STATEMENT

| Serial No. | Name of the Province | Action taken for the establishment of large scale Dairy Farms near big cities                                                                                                                                                                                                                                                                                                                                                     | Action taken for the establishment of small scale cooperative dairy units                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|------------|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1          | 2                    | 3                                                                                                                                                                                                                                                                                                                                                                                                                                 | 4                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1          | Madras.              | In February 1948 the Provincial Government took over the assets of the former Military Dairy Farm at Waltair, to run it on commercial lines. A three year plan to increase milk production in Province through Cooperative Societies was introduced in the middle of October 1948 in 8 districts under the charge of a special staff. A scheme for setting up a dairy farm for each tract in the Province is under contemplation. | Efforts are being made to solve the problem of urban milk supply mainly through co-operative societies on 30-6-48 there were 23 cooperative Milk Supply Unions and 354 Milk Supply Societies in the Province. Interest free loans are granted to members of Cooperative Milk Supply Societies for purchase of milch animals. During 1948-49 such loans were granted to the extent of Rs. 5 lakhs upto the end of December 1948. During the year ended 30-6-48 these cooperative institutions handled 39.85 million pounds of milk valued at Rs. 82.41 lakhs. |

1 2 3 4

2 Bombay

The Government of Bombay has sanctioned a scheme for adding large scale dairy farmers in the Province. Financial help in the form of loans upto Rs. 50,000 is given towards the establishment and development of dairies in the vicinity of large towns. A special plan has been prepared for Bombay city and suburbs under which it is proposed to remove all cattle from the city which are kept under congested and insanitary and uneconomic conditions. Government are acquiring 300 acres of land in the vicinity of Bombay City and has constructed connecting roads and built dairy farms to which cattle from city will be removed shortly. The farms will be rented out to the cattle owners and milk will be taken by Govt. for distribution to consumers.

The Government favours the idea of organising the marketing of milk produced in rural areas round about large towns, on cooperative basis. With this end in view schemes have already been proposed for large towns like Poona, Surat, Dharwar-Hubli. The schemes envisage the organisation of primary cooperative cattle breeding and milk production societies in the villages surrounding large towns. Government will provide financial assistance in the form of loans and subsidies for organising these cooperative societies. Government also propose to encourage cooperative creameries in order to provide marketing facilities for milk produced in rural areas.

In Bombay city, Government has already organised about twelve cooperative societies of small milk producers from whom milk is purchased for Government milk distribution scheme. Government have already assisted financially and otherwise, a union of cooperative societies of milk producers at Anand in the Kaira district which processes milk collected from the cooperative societies and distributes it to Bombay for distribution under milk distribution schemes.

3 West Bengal

A dairy farm is being established at the Central Livestock Breeding and Research station at Harinagar place about 35 miles away from Calcutta which is expected to produce nearly 50 maunds of milk per day. The question of establishing rural milk colonies on the lines of Bombay is also under active consideration.

The Government is in favour of establishing small scale of self-supporting and cooperative dairy units.

4 United Provinces

Every effort is being made to start dairy farms in big towns or in their neighbourhood. Government Dairy Farms have already been started at Mathura, Lucknow and Allahabad which are supplying daily 20, 55 and 20 maunds of pure milk respectively to the public. The cattle breeding and dairy farms

The Government is in favour of establishing small scale self-supporting and cooperative dairy units.

1 2 3 4

Bharari (Jhansi), Babugarh (Meerut) and Manjhra (Luckhimpur Khari) are also in the neighbourhood of big towns. These farms have been stocked with milch cattle and arrangements have been made for the supply of milk from the farms to the public in the nearest towns. Arrangements have been made for opening dairy farms near Bunnos and it is also proposed to open dairy farms in the towns of Kanpur, Allahabad, Agra, Naini Tal, Azamgarh and Etawah or their neighbourhood. The Government is also making arrangements for the supply of 20 Indian cows each to six private Gowdhalas in Mathura district at half the cost to augment milk supply. A proposal for giving such help to other deserving private Gowdhalas of the Province is under consideration.

5 C.P. and Berar

In order to meet the growing demand of milk and milk products in residential and industrial centres in the Province, the Government have already sanctioned a scheme for the establishment of twenty dairy units in big towns of the Province. In accordance with this plan three dairy farms in Akola, Sangli and Raipur Districts have already been established and preliminary spadework in connection with one more dairy unit at Bilaspur has been taken up. Apart from the four units work in connection with the establishment of another four units at Amravati, Chandole, Khandwa and Yestmal is in progress.

In the scheme for the establishment of twenty Government dairy units envisaged for this province, provision has also been made for linking of suitable cooperative dairy concerns with these Government units with a view to augment milk supply and economise the cost of production and distribution.

6 East Punjab

Provincial Government have already under consideration a proposal to open two Model Dairy Farms, one at Ambala and the other at Jullundur and also to have in the near future 200 dairy colonies in the province and a Model Dairy Farm in each District.

The Government is in favour of establishing small scale self-supporting and cooperative dairy units.

| 7 Bihar          | A number of schemes aiming at livestock improvement have been put into operation which are designed to assist in the production of more milk.                                                                                                                                                                                                                                                                                                                                                                    | The Government is in favour of establishing small scale self-supporting and cooperative units in towns.                                                                                                                        |   |
| 8 Orissa         | It is proposed to start a dairy farm in each district. A scheme for supply of milk to Cuttack town is in operation. When the Provincial livestock Breeding farm which is now located at Angul in Cuttack District is shifted to Balasore milk will be supplied from the farm to the residents of Balasore town. Investigations for opening a dairy farm in Sambalpur district is under way. A scheme for setting up a dairy farm in Puri town has been prepared and it is now under consideration of Government. | It is desirable that small self-supporting cooperative units in dairies should be introduced, in the Province but the introduction of such units require collection of data and transport facilities for distribution of milk. |   |
| 9 Assam          | A scheme for the Dairy Development in Assam has been sanctioned during the year 1948-49 at a total cost of Rs. 2,32,889 to open two large scale dairy farms in two big towns of the province. Two more such large scale dairy farms will be opened in 1949-50 and two in 1950-51. Thus the total number of such large scale dairy farms will be six in three years.                                                                                                                                              | Attempts to this effect are failure in Assam.                                                                                                                                                                                  |   |
| 10 Delhi         | A scheme has been formulated for increasing milk production and distribution but it has been postponed for the year 1950-51 as an anti-inflation measure.                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                |   |
| 11 Ajmer-Merwara | A scheme for increasing the milk supply of Ajmer-Merwara has been sanctioned by the Government of India. This scheme aims at surveys of milk pockets in rural areas and initiating Dairy Farming in the neighbourhood of the towns.                                                                                                                                                                                                                                                                              | It is proposed to start Dairy Farming on cooperative lines but the feasibility of this step will have to be found out after the preliminary survey has been completed.                                                         |   |
| 12 Coorg         | A Dairy Demonstration Farm opened at Merwara for the dual purpose of supplying stud bulls and milk to public. The feasibility of opening more large scale dairy farms is being examined under the postwar development schemes.                                                                                                                                                                                                                                                                                   | The proposal to introduce small scale self supporting cooperative dairy farms is under consideration.                                                                                                                          |   |

## STATEMENT II

| Serial No. | Name of the Province | Name of the Committee or agency appointed by the Provincial Governments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 1          | Madras               | The Provincial Livestock Improvement Board advises Government regarding the promotion of dairying and allied subjects also. The constitution of a Milk Board has been suggested and requisite facts and figures are being collected.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2          | Bombay               | Yes. The following two committees have been appointed:<br>(i) The Bombay Provincial Dairy Development and Co-ordination Committee.<br>(ii) Animal Husbandry and Dairying sub-committee of Provincial Rural Development Board.<br>The Bombay Provincial Dairy Development and Co-ordination Committee will make general recommendations to Government in respect of Dairy development in this province. The Animal Husbandry and Dairying Sub-Committee assists the Provincial Rural Development Board in accelerating the work of the Board in respect of dairy development.<br>For Bombay Area, there are two Advisory Committees, one of producers and other of consumers, which assist the Provincial Milk Commissioner on procurement and distribution of milk in Bombay City. |
| 3          | West Bengal          | A Milk Commissioner has just been appointed to prepare a comprehensive milk scheme for the Province.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 4          | United Provinces     | There is a proposal for the formation of a Milk Board in the Province with a view to establish Marketing Board in towns for ensuring supply of pure and clean milk to public and to bring about effective legislative control over manufacture and supply of milk and milk products.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 5          | C. P. and Berar      | No such agency or committee has been appointed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 6          | East Punjab          | It is proposed to have a Dairy Development Board with a Dairy Development Fund to encourage dairy industry in the province. The following special staff has already been sanctioned for dairy development work:<br>1. One Dairy Development Officer.<br>2. Two Assistant Dairy Development Officers.<br>3. Thirteen Dairy Assistants, one for each district in the Province.                                                                                                                                                                                                                                                                                                                                                                                                       |
| 7          | Bihar                | The Animal Husbandry Committee of Rural Development Board appointed by Provincial Government at present consider the proposals and recommendations concerning the development of dairy industry.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 8          | Orissa               | Provincial Government have very recently constituted a Committee for the development of dairying, increased production of milk, etc.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

## III. DAIRY FARMS UNDER MILITARY AUTHORITIES

There are 27 Military Dairy Farms, 5 French Military Dairy Farms and 12 Dairy Depots owned by the Government.

1620 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [18TH MARCH 1949]

**Seth Govind Das:** May I know what effort is being made to improve the indigenous breed of cattle, and are Government contemplating the stoppage of export of these cattle from one province to another?

**The Honourable Shri Jairamdas Doulatram:** Government are trying to utilise non-official agencies as a special measure to develop the local breed. With regard to the export of cattle from one province to another, to the extent that certain provinces are deficit in cattle it will be difficult not to have this inter-provincial transfer of cattle.

**Seth Govind Das:** Are Government aware of the fact that most of the cattle exported from Hissar to Bombay and Calcutta are immediately slaughtered there as soon as they become dry; and are Government contemplating to stop at least the export of these cattle to cities like Bombay, Calcutta and Madras?

**The Honourable Shri Jairamdas Doulatram:** Government are contemplating steps to prevent the slaughter of cattle in the big cities. With regard to preventing export to those provinces, it can be regulated in the interest of increased milk supply to those provinces or for the better cultivation of land. But we cannot totally prohibit the export of cattle from one province to another.

**Shri H. V. Kamath:** Has the Nutrition Advisory Committee of the Indian Research Fund Association made any recommendations as regards the minimum *per capita* requirement of milk in this country?

**The Honourable Shri Jairamdas Doulatram:** Yes, they have.

**Shri H. V. Kamath:** What is the *per capita* requirement?

**The Honourable Shri Jairamdas Doulatram:** I believe it is one pound per person.

**Pandit Thakur Das Bhargava:** Is it a fact that for the last twenty years Government has been promising that cattle from Hissar will not be allowed to be slaughtered and when dry they will be returned to Hissar at reduced railways rates, but the promise has not been fulfilled?

**The Honourable Shri Jairamdas Doulatram:** Those promises must have been made by our predecessors but so far as our promises are concerned I propose to carry them out.

**Shri Mahavir Tyagi:** What will be the nature of the Government-initiated dairy farms on a large scale with regard to their management and capital investment? Will they be private farms?

**The Honourable Shri Jairamdas Doulatram:** The provincial governments give them financial aid and supply to them also technical aid. In Bombay, Madras, U.P. and C.P. there is a very large number of private dairies assisted by the provincial governments.

**Babu Ramnarayan Singh:** What are the actual measures which have been or are being taken to stop the slaughter of cows just referred to and by what time it is expected to stop the slaughter altogether?

**The Honourable Shri Jairamdas Doulatram:** It will not be possible to put a time limit. This question, as I said on an earlier occasion, was considered by the Cattle Preservation Committee which has made its report. The replies of the provincial governments on the report will be received in a short time and in consultation with the provincial governments steps will be taken, because it means a tremendous financial liability on the provinces to maintain their entire cattle population.

**Shri Moturi Satyanarayana:** In view of the fact that dry cattle are being slaughtered in cities, will Government consider the desirability of getting these dry cattle transported back free of charge?

**The Honourable Shri Jairamdas Doulatram:** That will be considered.

**Shri Ajit Prasad Jain:** What are the measures which the Government are adopting to encourage the development of cattle by private agencies?

**The Honourable Shri Jairamdas Doulatram:** By supporting private breeding farms and private dairy farms.

**Pandit Mukut Bihari Lal Bhargava:** Do Government propose to sponsor any legislation to prohibit the slaughter of cows?

**The Honourable Shri Jairamdas Doulatram:** That matter will be considered when the report of the Cattle Preservation Committee comes to be finally dealt with.

**Shri Mahavir Tyagi:** What arrangements do Government propose to make in connection with the feeding and maintaining of useless cows?

**The Honourable Shri Jairamdas Doulatram:** I believe the honourable member is aware that this is one of the points on which the Cattle Preservation Committee has made its recommendations.

**Shri Moturi Satyanarayana:** Is it possible to prohibit milch cattle being housed in cities and provision being made near about the suburbs in the dairy farms, so that such cattle may not be kept in the cities?

**The Honourable Shri Jairamdas Doulatram:** These are matters which are under the consideration of the provincial governments and they are dealing with them.

#### PADDY LANDS

\*1171. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether any research has been undertaken for benefit of farmers, to enable them to make use of paddy lands for growing short term crops; and

(b) if so, whether Government would make available the scheme to the members of the House?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). Yes. A brief note showing the research work done at the Central Rice Research Institute, Cuttack, and in the Provinces, and the further steps taken is laid on the table of the House. More detailed information will be supplied if required.

#### NOTE ON SHORT TERM GROWING IN PADDY LANDS

Short term growing in paddy lands has at least four aspects, namely:

- (1) Growing short duration crops other than paddy before the paddy is transplanted.
- (2) Growing short duration paddy varieties as an early crop followed by 2nd crop of paddy.

- (3) Growing short duration *Rabi* Crops after the harvest of paddy crop.  
 (4) Growing short duration crops in standing crop of paddy.

Investigations at the Central Rice Research Institute, Cuttack, are mainly directed towards the possibilities of growing two crops of rice in quick succession instead of a single crop particularly where irrigation facilities are available for a minimum period of six months in the year. This would be feasible only if the varieties to be grown are both of short duration or one medium and the other short. A short duration variety need not necessarily mean less yield per acre. There are varieties maturing in about 100 days which under optimum conditions can give up to 5,000 lbs. of grain. A large collection of short duration rices, both Indian and foreign, has therefore been made and are under investigation mainly with the object of determining the most suitable variety to be grown as a second crop and the optimum time for planting the same. Promising results have been obtained with some of the introduced varieties from China.

It will, however, be realised that the growing of two crops would naturally mean greater exhaustion of the soil and the practice should go hand in hand with a suitable regimen of fertilising the fields. The investigations cover not only the suitable varieties but such questions as the proper time for planting the second crop, whether the second crop could be directly sown or transplanted, whether the land could be got ready immediately after the harvest of the first crop and whether in the interval between the two crops, a short duration *Rabi* crop, a pulse or a green manure crop could be sown.

It is hoped that, by next year, it will be possible to try the results of the researches on short duration varieties made at the Institute on the cultivator's land in the province, with the co-operation of the Government of Orissa. A regular scheme will then be devised for adoption in the rice-growing areas all over the country.

#### RESEARCHES IN PROVINCES

**United Provinces.**—Researches on the paddy crop are carried on at Nagina and at Gorakhpur with a view to grow more food from paddy lands. In the early paddy areas, suitable very early heavy yielding types have been found out which could be harvested during September and thus allow of sufficient time (often more than a month) for proper field preparation for the succeeding *Rabi* crops like wheat, barley, etc., which must be sown during October, for optimum yields. Some such very early types of paddy which are recommended to growers in different areas are N22, N27, A64 and Ch10. In such cases, the full season is covered by the rotation and the question of any other short term growing does not arise.

Rotational studies have also revealed that "Early Paddy-fallow" rotation is the best followed by "Early Paddy-Gram" rotation, then "Early Paddy-Wheat" and then "Early Paddy-Linseed" rotation. This is generally applicable to the Central and Western U. P. tracts. In the Eastern U. P. the best rotation with Early Paddy is "Early Paddy-Pea".

For Late Paddy, the best rotation applicable to the whole of U. P. is "Late-Paddy-Berseem". The next best for Late Paddies in the Eastern U. P. is "Late Paddy-Chotimatar". They have also tried successfully at Nagina, two crops of paddy followed by Berseem, i.e., Early Paddy from April to July, Late Paddy from August to November and Berseem from December to March. By this method they have raised 46 maunds 13 seers per acre of paddy in 1946 and 34 maunds per acre in 1947 besides getting valuable green fodder for nearly 3½ months. It may be noted that Berseem is sown broadcast in standing late paddy, fields and an estimate of this fodder crops may be had from the fact that cultivators gladly purchase such Berseem crops on late paddy fields for Rs. 1.60 per acre.

**Central Provinces and Berar.**—No investigation has been undertaken on the growing of short term crops in paddy lands between two crops. But the possibilities of two paddy crops where irrigation facilities exist are under trial.

**Orissa.**—Investigations into all possibilities of short term growing in paddy lands have been made and the following recommendations have been suggested by the Government for adoption by the farms:—

- (1) Mandia or Jute could be grown as the early first crop sown in April and May and harvested in early August, paddy being transplanted in middle of August and harvested in December. Type 812 has been recommended for this purpose.
- (2) B 76 and D 204 early Peali paddy sown in May could be harvested in August or earlier. This could be followed by a second crop of sarad paddy. Heavy dose of farm yard manure for first crop and Ammonium Sulphate at the rate of 3 maunds per acre for the second crop are necessary to get good yields.
- (3) Short duration crops such as Kulthi (*dolichos bifloris*) and Biri (*Phaseolus Mungo*) after early paddy and mung after harvesting sarad paddy could be grown successfully during October, November and December.

#### STARRED QUESTIONS AND ANSWERS

- (a) (a) Piare crops of Mung. Luthyrus (Khesari) peas and gram have been successfully grown in standing crops of paddy. The seed is sown broadcast when the soil is still moist and the piara crop left to grow after the harvest of paddy.
- (b) Beali Paddy—(short duration paddy) has been grown successfully as a mixed crop with Biri (*Phaseolus Mungo*) and Arhar.

**Assam.**—A short term variety of rice called Domai is regularly grown in the Province. It is a two months crop and actually takes 75 to 80 days. An improved strain of this variety called D-138-C Tepi Domai has been produced in Karim Ganj Rice experimental station, the average yield of which is 23 maunds per acre.

**West Bengal.**—Considerable amount of breeding work on early types of paddy has been done. Type DXL is one of the types evolved and recommended. In regard to raising an additional crop the broadcasting of 'Kalai' or 'Khesari' in a field of standing *aman* paddy to get an additional crop of pulse or a fodder for cattle is a well-known local practice, which is being extended, under State subsidy, to areas where it is little in vogue at present. Experiments have also been undertaken recently to study the possibility of growing some varieties of fodder crops in *aman* paddy lands and if such experiments prove successful their adoption by cultivators will go a long way to solve the fodder supply problem of the Province.

**Madras.**—Confining the question to the growing of short staple cotton in paddy areas, Madras has reported that some five varieties are under trial in all the Agricultural Research Stations of the Province with a view to evolve a suitable type of perennial cotton that could be grown in high level lands of paddy area as a fence plant and which would also be suitable for cottage spinning.

#### LAND BROUGHT UNDER CULTIVATION

\*1172. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

- (a) the total acreage of new land brought under cultivation during the last ten years and how much was brought under the plough every year;
- (b) what the statistics are province-wise;
- (c) the facilities offered to farmers to develop this land, the subsidies granted to fertilize it and other assistance rendered; and
- (d) whether Government have any schemes for further extensions?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). A statement giving the available information is placed on the table of the House.

(c) Government gives subsidies for the reclamation and development of land as well as for using fertilisers, compost, oil cakes, improved seed, and for executing minor irrigation works. No distinction is made between land already in cultivation and land freshly reclaimed and cultivated.

(d) The Government have under consideration a scheme for the reclamation of about six million acres of waste lands during the next few years.

+ Revised statement received from the Ministry printed.

## STATEMENT

Province-wise and year-wise acreage of new land brought under Cultivation during the years 1939 to 1948

| Name of Province    | 1939    | 1940    | 1941    | 1942   | 1943    | 1944    | 1945   | 1946    | 1947    | 1948    | Total     |
|---------------------|---------|---------|---------|--------|---------|---------|--------|---------|---------|---------|-----------|
| Assam               | 316,763 | 20,800  | 86,210  | 43,710 | 96,998  | 110,368 | 50,410 | 24,897  | 9,310   | 10,363  | 768,024   |
| Bihar               | ..      | ..      | ..      | ..     | ..      | ..      | ..     | ..      | 3,600   | 13,650  | 16,950    |
| Bombay*             | ..      | ..      | ..      | ..     | ..      | ..      | ..     | ..      | ..      | 392     | 392       |

| West Bengal         | ..      | ..      | ..      | ..     | ..      | ..      | ..     | ..      | ..      | 67,167  | 67,167    |
| Total               | 340,900 | 101,494 | 145,771 | 61,425 | 360,573 | 340,508 | 63,948 | 119,478 | 141,842 | 355,375 | 2,031,314 |

\*In Bombay Province, a total area of 15,00,000 acres was brought under food crops by diversion of non-food crop area and by bringing new land under cultivation.

@Information not available for the remaining years.

## STARRED QUESTIONS AND ANSWERS

1625

**Shri Sita Ram S. Jajoo:** May I know if any statistics are available for Indian States as well?

**The Honourable Shri Jairamdas Doulatram:** They are not available.

**Sardar Bhopinder Singh Man:** Does the Government give this assistance directly to the farmers or to the provincial governments?

**The Honourable Shri Jairamdas Doulatram:** It is given to the Provinces and the Provinces deal with individual cultivators or farmers.

**Sardar Bhopinder Singh Man:** What are the facilities offered to the farmers for the purchase of tractors or hiring them on a rental basis?

**The Honourable Shri Jairamdas Doulatram:** So far as the Central Government is concerned they are maintaining tractors for being supplied to the provincial governments. The schemes of cultivation are schemes which are being executed by the provincial governments. I believe U.P. Government have got a number of tractors which are kept for being rented out to individuals. I believe in some other provinces that arrangement does not exist. We can write to the provincial governments to make some tractors available for private farms. So far as the Central Government is concerned it deals directly with the provincial governments.

**Sardar Bhopinder Singh Man:** What are the rents being charged by the Central Tractor Organisation and the U.P. Government? What are the rates at which the U.P. Government loan the tractors to the farmers?

**The Honourable Shri Jairamdas Doulatram:** I am sorry I will not be able to give the information straightaway.

**Dr. P. S. Deshmukh:** Has the Honourable Minister any idea of the acreage that has gone out of cultivation during the course of the last year?

**The Honourable Shri Jairamdas Doulatram:** I will not be able to give the information without proper notice but I believe that a certain amount of area has gone out of cultivation, because in certain regions where there are what are called Kans and Hariali weeds, they gradually encroach on the neighbouring land and during the course of the last year there must have been some areas which have again been covered by these weeds.

**Shri Balwant Sinha Mehta:** Do the Government extend these facilities to the farmers in the Indian States also?

**The Honourable Shri Jairamdas Doulatram:** Government is now giving these tractors also to the Indian States but the Central Government does not deal directly with the cultivators in the Indian States. That is the duty of the States Governments.

**Pandit Mukut Bihari Lal Bhargava:** Have Government reserved any tractors for use in the Centrally administered areas?

**The Honourable Shri Jairamdas Doulatram:** There are three tractors reserved for the centrally administered areas.

**Shri Mahavir Tyagi:** Are the tractors really being made use of by the peasants themselves?

**The Honourable Shri Jairamdas Doulatram:** So far as these three tractors referred to just now are concerned they were used for certain areas in the Delhi Province. So far as the tractors in the Provinces are concerned naturally it is the Provincial governments who will be able to reply the question.

**Shri Mahavir Tyagi:** I would like the honourable Minister to say whether the peasants in India are patronising the use of the tractors. Are the peasants themselves anxious to use them?

**Mr. Speaker:** As the Honourable Minister has said it is more or less a matter which concerns the provincial governments.

**Shri Mohan Lal Gautam:** Is the Government aware that full use of these tractors is not made because of lack of oil for running them?

**The Honourable Shri Jairamdas Doulatram:** When there is shortage of fuel naturally the tractors will not work.

#### SANTA CRUZ AERODROME

**\*1173. Shri R. K. Sidhva:** Will the Honourable Minister of Communications be pleased to state:

(a) whether it is a fact that the Aerodrome building at Santa Cruz Aerodrome have been built by private companies and if so, the names of those companies and the cost incurred on such buildings;

(b) on what terms and conditions the land has been given to the companies; and

(c) at what distance from this aerodrome Government propose to construct their new Aerodrome?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) Certain buildings have been constructed at Santa Cruz Aerodrome by Air India, Limited for their own use at a cost of approximately Rs. 11,92,000 on land leased to them by the Government. The Indian Overseas Air Lines have also remodelled and re-decorated at a cost of about Rs. 1½ lakhs a Government building which has been leased out to them.

(b) The land and the buildings have been given on a temporary lease terminable at 30 days' notice. The rent for the land is six annas per sq. yd. per annum. No compensation is payable to the Companies on account of any expenditure incurred by them on constructional works in the event of the termination of the lease.

(c) There is no question of Government constructing a new aerodrome at Santa Cruz. The aerodrome already there is being extended and developed.

**Shri R. K. Sidhva:** The Honourable Minister said that there is already an aerodrome existing. Does he refer to the Tata Aerodrome which is in existence at present or the Star Line Aerodrome which belongs to the Government?

**The Honourable Mr. Rafi Ahmad Kidwai:** It is the Government aerodrome that is existing at Santa Cruz.

**Shri R. K. Sidhva:** Is it not a fact that last Tuesday the main booking office and the passengers reception office at Santa Cruz had been shifted into a newly built hanger, which has caused great inconvenience to the passengers, for these offices had been removed to a hanger meant for storing aircrafts?

**The Honourable Mr. Rafi Ahmad Kidwai:** As I have said the Government buildings have not yet been completed and some buildings have not yet been started. Therefore make shift arrangements have to be made.

#### IMPROVEMENT OF POSTAL STAMPS

**\*1174. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Communications be pleased to state whether Government are aware that Postal articles these days bear indistinct obliterating marks?

(b) Is it a fact that some two years back the P. and T. Department had decided to supply an improved type of stamping pad, better quality of ink and to improve the condition of stamps?

(c) Do Government propose to take early steps in the matter and if so, when?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) Yes, sometimes.

(b) Yes.

(c) The decision is being implemented and it is expected that there will be improvement within perhaps the next six months.

#### R. M. S. STAFF ON BANDIKUI-DELHI SECTION OF B. B. & C. I. RAILWAY

**\*1175. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Communications be pleased to state whether it is a fact that the Postal Enquiry Committee (1934-35) found that limited accommodation was provided for R.M.S. Staff on J. 22 (Bandikui-Delhi) Section of 3 Up/4 Down Bombay Baroda and Central India Metre Gauge trains and that the work had to be carried out under difficult conditions?

(b) Is it also a fact that only 60 to 70 per cent. of the staff actually required is working in that section?

(c) Do Government propose to provide better accommodation and equip the section with necessary staff in consonance with the recommendations of the said Committee and if so, how long is it likely to take?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) Yes.

(b) The position is not as stated. In its journey from Bandikui to Delhi the section has full strength but in the reverse direction two additional sorters appeared to be justified by the statistics taken in September, 1948. Of late there has been some reduction in the work of the section.

(c) Yes. Provision has been made by the B.B. and C.I. Railway in their building programme for 1949-50 for the construction of larger vans required for the section. The position regarding the work of the section is again being reviewed and additional staff will be sanctioned if justified.

#### REVISION OF TIME TEST IN POSTAL DEPARTMENT

**\*1176. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Communications be pleased to state whether it is a fact that the Postal Enquiry Committee (1934-35) recommended that the entire Time Test needs revision and that a new and revised Time Test is to be drawn up?

(b) If so, what action has so far been taken in the direction and how long will it take to adopt an upto-date formula?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) No. The Postal Enquiry Committee suggested a re-examination of the whole question of time test only if their proposals for modification of procedure were adopted.

(b) Does not arise, as, on the basis of the changes in procedure which were approved, a general revision of the time-test was not justified.

#### CONDITION OF STATIONS ON SHAHADARA-SAHARANPUR LIGHT RAILWAY

**\*1177. Lala Achint Ram:** (a) Will the Honourable Minister of Railways be pleased to state whether Government are aware that (i) there is no arrangement for light at Shahdara Saharanpur Railway Stations during night and (ii) there are no waiting rooms?

(b) If so, what action do Government propose to take in this connection?

**The Honourable Shri K. Santhanam:** (a) Although certain printed representations were received early this year complaining of deficiencies mentioned in the question, the report of the Government Inspector of Railways indicates that the standard of service provided by the Shahdara (Delhi)-Saharanpur Light Railway is more or less the same as that provided by other light railways. In other words, although there is scope for improvement, conditions are not as deplorable as the honourable member's question implies.

(b) The Managing Agents have already been requested to take adequate measures to remove such inconveniences to the travelling public as may exist on that Railway.

#### IMPROVING DELHI TELEPHONE SYSTEM

**\*1178. Lala Achint Ram:** (a) Will the Honourable Minister of Communications be pleased to state the number of complaints received per month from January to December 1948 about the unsatisfactory working of telephones in Delhi?

(b) Have any steps been taken to improve the working of the telephone system and if so, what are they?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) A statement is laid on the table of the House.

(b) The introduction of Zero position which can be rung up in emergencies, has helped to improve the service. 2,000 lines equipment was brought into use at the end of January 1949 in replacement of a life expired exchange. This has caused a definite improvement in service. Additional 2,000 lines will be added by June, 1949. Connaught Place Exchange has been air conditioned. This will eliminate faults due to dust and change in temperature which are common in Automatic Exchanges.

#### STATEMENT

*Number of complaints received during 1948*

| Month         | Number of complaints. |
|---------------|-----------------------|
| January, 1948 | 9,174                 |
| February      | 7,307                 |
| March         | 4,007                 |
| April         | 10,924                |
| May           | 9,310                 |
| June          | 11,252                |
| July          | 12,986                |
| August        | 10,895                |
| September     | 10,036                |
| October       | 9,197                 |
| November      | 9,037                 |
| December      | 9,926                 |
| Total         | 114,051               |

**Seth Govind Das:** Are the complaints increasing or decreasing now?

**The Honourable Mr. Rafi Ahmad Kidwai:** I think the statement laid on the table will make it clear.

**Shri H. V. Kamath:** Does the Department carry out surprise checks and inspections at these exchanges to see that telephone operators are working properly and not chit-chatting?

**The Honourable Mr. Rafi Ahmad Kidwai:** Yes, such visits are made.

**Shri R. K. Sidhva:** Is it a fact that despite the new installations in New Delhi the telephones are not working satisfactorily and complaints are made to the Posts and Telegraphs Department?

**The Honourable Mr. Rafi Ahmad Kidwai:** The connections are not only limited to the new telephone lines; they have to be connected with the old lines and therefore the trouble exists.

#### OPENING OF VILLAGE POST OFFICES

**\*1179. Lala Achint Ram:** (a) Will the Honourable Minister of Communications be pleased to state the number of villages which have a population of 500 or more where post offices have not been opened?

(b) At how many such places do Government propose to open branch offices this year?

(c) How many of them will be opened in the East Punjab?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) The information is not readily available.

(b) and (c). As a first step, Government are concentrating their attention on opening of post offices in villages or compact groups of villages with a population of 2,000. Post Offices were opened in 1,703 rural localities during the year 1948 of which 147 were in the East Punjab. 2,000 new post offices are expected to be opened in such villages during 1949 of which 278 will be in East Punjab. The stage for opening post offices in individual villages with a population of less than 2,000 will come later.

**Babu Ramnarayan Singh:** May I know whether new village post offices are opened at the request of the people or whether some of these post offices are opened as a necessity by the Government themselves; if so on what principles?

**The Honourable Mr. Rafi Ahmad Kidwai:** Sometimes when we receive a request from a particular locality then the new post office is opened. But most of the post offices that have been opened have been opened at the initiative of the Department.

**Pandit Mukut Bihari Lal Bhargava:** What percentage of the rural population has postal facilities at present in India?

**The Honourable Mr. Rafi Ahmad Kidwai:** I think every village has got some sort of facilities of postal deliveries and postal clearance.

**Shri Moturi Satyanarayan:** Is the Honourable Minister aware that there are a number of experimental post offices working and that they are not being made permanent? May I know whether there is any idea of making them permanent?

**The Honourable Mr. Rafi Ahmad Kidwai:** That is why they have been started for a year as an experimental measure. If we find that the requirement of a post office for a village is justified then the experimental post office will be made permanent.

**Shri Mahavir Tyagi:** Are Government aware that in the hilly areas in India there is no village having a population of 2,000?

**The Honourable Mr. Rafi Ahmad Kidwai:** I am aware of that position.

**Shri Mahavir Tyagi:** In view of the Honourable Minister being aware of the conditions in the hilly areas, is he planning to open post offices in smaller villages in the hilly areas?

**The Honourable Mr. Rafi Ahmad Kidwai:** The position is as I had discussed with the honourable member some two days ago.

**Pandit Lakshmi Kanta Maitra:** May I enquire if these postal facilities to the rural areas are being made available through the agency of extra-departmental agents or through independent post offices?

**The Honourable Mr. Rafi Ahmad Kidwai:** At some places through independent post offices, but at most places through extra-departmental agency.

**Shri Mahavir Tyagi:** With reference to my question why do not you commit yourself on the floor of the House?

**Mr. Speaker:** Order, order.

**Pandit Lakshmi Kanta Maitra:** May I know whether the Honourable Minister has thoroughly investigated the question of these extra-departmental agents when putting them on to the rural post offices? In the past this extra-departmental agency did not work very well.

**The Honourable Mr. Rafi Ahmad Kidwai:** But I think honourable members will agree that it will not be possible for years to come to carry out our object if we confine ourselves to opening of independent post offices in every village. What we do is that we open a post office with some extra-departmental man and when the volume of work increases a permanent post office is opened. That is the only practical way that can be followed.

**Shri S. V. Krishnamoorthy Rao:** What is the number of villages with a population of 2,000 or more which still have not got a post office in India?

**The Honourable Mr. Rafi Ahmad Kidwai:** I am not just now in a position to give that information.

**Babu Ramnarayan Singh:** Sir, my question has not been answered. I want to know when the post offices are opened by the Department itself what are the principles with regard to population and distance of one post office from the other which are followed.

**The Honourable Mr. Rafi Ahmad Kidwai:** I think it has been stated more than once on the floor of this House that we are just now planning to open post offices in villages or groups of villages with a population of 2,000. That is the principle that is guiding us immediately. When we have satisfied all the areas on this basis then we may go for areas with a lower population. In this matter no distance is necessary. If two villages even at a distance of two miles from each other do need a separate post office for each then we give it to them.

**Shri Mohan Lal Gautam:** Is the Government aware that extra-departmental persons are employed in urban areas also and that they have to work during the full office hours?

**The Honourable Mr. Rafi Ahmad Kidwai:** I am aware that the extra-departmental men are employed in cities. But when they have got full-time jobs they are taken in the Department under departmental rates.

**Shri R. K. Sidhva:** Is it a fact that in a large number of villages the postal work is entrusted to school teachers and that they are not able to carry out the postal work; if so do Government intend to change the system for speedy disposal?

**The Honourable Mr. Rafi Ahmad Kidwai:** That is a fact and as I said it is not possible to undertake the opening of a full-fledged post office in every

village. So long as that is not possible financially we will have to resort to these methods.

**Shri Mahavir Tyagi:** Is it not a fact that there are villages in the hilly areas at a distance of thirty to forty miles from the nearest post office and the postmen visit these villages only once or twice in a month?

**The Honourable Mr. Rafi Ahmad Kidwai:** I have already admitted that.

**Prof. N. G. Ranga:** Is any effort being made to raise the salaries or allowances of these village postmasters who are extra-departmental employees?

**The Honourable Mr. Rafi Ahmad Kidwai:** No effort is just now being made to further increase the pay or emoluments of these extra-departmental men.

#### CENTRAL PAY COMMISSION RECOMMENDATIONS ON COMPANY-OWNED RAILWAYS

**\*1180. Lala Achint Ram:** Will the Honourable Minister of Railways be pleased to state Government's policy with regard to the implementation of the recommendations of the Central Pay Commission on company-owned Railways?

**The Honourable Shri K. Santhanam:** Government have no administrative control over railways owned and managed by Companies.

**Shri Harihar Nath Shastri:** Will the Honourable Minister be pleased to State, in view of his reply just given, whether settlement of labour disputes in the Company-owned Railways is within the purview of the Central Government, or are the concerned Provincial Governments expected to deal with such disputes?

**The Honourable Shri K. Santhanam:** The Railway Ministry has nothing to do with the settlement of labour disputes between Company management and their labour. If he wants further information, the honourable member may address a Question to the Labour Ministry.

**Prof. Shibban Lal Sakseena:** Is the Honourable Minister aware that if there is any dispute on Company-managed Railways, and Government transport is disturbed.....

**Mr. Speaker:** Order, order. It is a matter of opinion and also a hypothetical one.

**Shri Harihar Nath Shastri:** In view of certain anomalies having already arisen in the case of certain Company-owned Railways where disputes are still going on, may I enquire from the Honourable Minister whether the Government will be pleased to give a decision as to whether the Provincial Governments are competent to deal with the labour disputes arising in their territory in regard to the Company-owned Railways?

**The Honourable Shri Jagjivan Ram:** May I intervene, Sir?

**Mr. Speaker:** Yes.

**The Honourable Shri Jagjivan Ram:** I may inform my friend that there are a number of Railways managed by private Companies, which are in the list of Federal Railways. Disputes in those Railways are under the Central sphere and we have already referred a few disputes to tribunals and a few are pending before us which we may refer to tribunals or conciliation, as the case may be. But those Light Railways which are not covered under the definition of "Federal Railways" are the responsibility of the Provincial Governments.

**Shri R. K. Sidhva:** The Honourable Minister of State for Railways said that Government have no control over the privately-owned Railways. Is it correct that there is no control of any kind over the privately-owned Railways?

**The Honourable Shri K. Santhanam:** The Railway Board has some statutory powers regarding freights and fares. Otherwise there is no control whatsoever.

## PASSENGER FARES OVER SHAHDARA SAHARANPUR LIGHT RAILWAY

\*1181. **Lala Achint Ram:** Will the Honourable Minister of Railways be pleased to state what are the rates of passenger fares per mile per class over the Shahdara Saharanpur Railway and the corresponding rates over Government Railways?

**The Honourable Shri K. Santhanam:** A statement containing the information is laid on the table of the House.

## STATEMENT

The existing bases of passenger fares per mile for different classes over the Shahdara Saharanpur Railway and the corresponding bases over the Indian Government Railways are as follows:

|           | Shahdara Saharanpur Railway | Indian Government Railways                |
|-----------|-----------------------------|-------------------------------------------|
| Class I   | 18 pies per mile            | 24 pies per mile.                         |
| Class II  | 7½ pies per mile            | 9 pies per mile (Mail or Express Train).  |
|           |                             | 7½ pies per mile (Ordinary Trains).       |
|           |                             | 5 pies per mile (Mail or Express Trains). |
| Class III | 5 pies per mile             | 4 pies per mile (Ordinary Trains).        |

There are no Mail or Express trains on the Shahdara-Saharanpur Light Railway.

**Shri R. K. Sidhva:** May I know whether the fares on this Shahdara-Saharanpur Railway are higher or lower than the fares on Government Railways?

**The Honourable Shri K. Santhanam:** They are at present the same as in the Government Railways.

## ACCIDENTS BY TRAVELLERS ON FOOTBOARD OF TRAINS ON E. I. RAILWAY

\*1182. **Shri S. V. Krishnamoorthy Rao:** (a) Will the Honourable Minister of Railways be pleased to state whether the attention of the Government has been drawn to a report appearing in the *Statesman*, dated the 15th February, 1949 that 17 persons were killed and eight injured as a result of passengers travelling on the foot-board of a train on the Jhajha-Dinapur section of the East Indian Railway?

(b) What is the actual loss of life and the number of passengers injured according to Government reports?

(c) What action do Government propose to take against officers responsible for permitting travelling on foot-board?

(d) What further steps do Government propose to take to prevent such accidents in future?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The Government have seen the report appearing in the *Statesman*, dated the 15th February, 1949, that people travelling on the foot-boards of two trains came into contact with one another with the result that seventeen passengers were killed and eight injured.

(b) According to the information received by the Government, seventeen persons were killed and eight injured, but only two of the dead, and none of the injured persons, were reported to be in possession of tickets.

(c) The Railway officials do not permit foot-board travelling, which is prohibited under section 118 (2) of the Indian Railways Act (IX of 1890). The foot-board travellers usually board trains in motion.

(d) Deterrent measures are being taken against such persons—the majority of whom are ticketless travellers—with the help of Government Railway Police and Special Railway Magistrates. Railway staff also assist the Railway Police in this matter. Railway Administrations have recently been authorised to appoint special staff to prevent the boarding of trains in motion. 'Safety First' posters giving wide publicity to the danger involved in travelling on foot-boards and roofs of carriages have been exhibited at various stations. The co-operation of the Bihar Government in preventing travelling on foot-boards has also been sought.

**Shri H. V. Kamath:** According to reports gathered during the last twelve months, is travelling on the roofs of trains becoming more popular or less?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think it is very much less popular than it was during the disturbances in the Punjab.

**Dr. P. S. Deshmukh:** Is the Government considering the feasibility of having double-deck coaches on the Railways, which are being introduced in England?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid we are not considering it, but we shall in that case have to provide against people getting on to the roof of the second deck also.

**Shri S. V. Krishnamoorthy Rao:** Is Government aware that such accidents are on the increase?

**The Honourable Shri N. Gopalaswami Ayyangar:** So far as my information goes, on this particular Railway there were three similar accidents in 1946-47 and we have not had a similar case on this Railway since, according to this information.

**Pandit Mukut Bihari Lal Bhargava:** Has the Government in view a scheme to regulate the issue of tickets according to the available accommodation, to avoid such accidents?

**The Honourable Shri N. Gopalaswami Ayyangar:** I suppose the Railway staff do attempt to do that, but the mere fact that out of twenty-five people who were victims of this particular accident twenty-three had no tickets shows that the Railway staff had exercised a certain amount of discretion.

**Shri S. V. Krishnamoorthy Rao:** Has it come to notice of Government that such travelling on foot-boards is increasing in other Railways also?

**The Honourable Shri N. Gopalaswami Ayyangar:** So far as we know, no.

**Seth Govind Das:** The Honourable Minister said that most of the persons involved in the accident mentioned in this Question were without tickets. Is he aware that even the ticket-holders generally are travelling on these foot-boards?

**The Honourable Shri N. Gopalaswami Ayyangar:** Two of the twenty-five were ticket-holders in this case.

**Shri H. R. Guruv Reddy:** Are the Government considering the feasibility of providing collapsible bars so that foot-boards open and close along with the doors, in order to prevent foot-board travelling?

**The Honourable Shri N. Gopalaswami Ayyangar:** Various schemes have been proposed in this connection. There are disadvantages in providing for those bars as well. There is a particular device which has been suggested by a Bengali gentleman, and I hope I shall be able to give honourable members who are interested a demonstration by that gentleman as to what might be done by way of closing the doors quite firmly while a train is in motion.

## INCOME AND EXPENDITURE OF DELHI TRANSPORT SERVICE

\*1183. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Transport be pleased to state what are the earnings month by month from the day the Delhi Transport Service was taken over by Government?

(b) What are the expenses and what is the net profit?

**The Honourable Shri K. Santhanam:** (a) A statement showing the monthly earnings of the Delhi Transport Service for the period from the 14th May, 1948, to 28th February, 1949, is placed on the table of the House. The average monthly earnings for the period amount to Rs. 4.55 lakhs.

(b) The average monthly expenditure during the same period is approximately 3.5 lakhs. This takes into account outstanding bills pertaining to that period, which are yet to be paid, but does not take into account depreciation, interest and Capital expenditure. It is not yet possible to estimate the net profit with reasonable accuracy.

## STATEMENT

Monthly earnings of D.T.S. from the date of taking over viz. 14th May, 1948.

|                                                     | Rs.       | A. P. |
|-----------------------------------------------------|-----------|-------|
| May, 1948 (from 14th May, 1948 to 31st May 1948)... | 2,41,029  | 2 9   |
| June, 1948                                          | 4,29,254  | 2 0   |
| July, 1948                                          | 4,61,084  | 5 6   |
| August, 1948                                        | 4,32,710  | 5 6   |
| September, 1948                                     | 4,76,079  | 5 0   |
| October, 1948                                       | 5,01,567  | 2 6   |
| November, 1948                                      | 4,83,690  | 3 6   |
| December, 1948                                      | 4,91,214  | 12 6  |
| January, 1949                                       | 4,83,401  | 3 3   |
| February, 1949                                      | 4,92,410  | 15 3  |
| Total                                               | 45,42,641 | 9 9   |

## USE OF WINDMILLS FOR LIFTING IRRIGATION WATER

\*1184. **Shri S. Nagappa:** (a) Will the Honourable Minister of Agriculture be pleased to state whether the attention of Government has been drawn to an article published in *The Hindu*, dated 6th February 1949, by Mr. Clifford C. Taylor, Agricultural Attache to the American Embassy regarding the use of windmills for lifting irrigation water from wells under the caption 'Wind, Water and Food'?

(b) If so, have Government examined the suggestions made therein?

(c) What steps have Government been taking to try wind mills in the country?

**The Honourable Shri Jai Ramdas Doulatram:** (a) Yes.

(b) and (c). Wind mills have not so far been used in India to any extent and no data or experimental results are, therefore, available. A preliminary examination of the question indicates that Wind Mills are unlikely to be useful for crop irrigation in the Central and Northern parts of the country as

† Answer to this question laid on the table, the questioner being absent.

† Answer to this question laid on the table, the questioner having exhausted his quota.

there are practically no winds during the period October to March when irrigation is most needed. There is, however, a possibility of developing this form of irrigation in the coastal areas where winds, with velocities of 6 M.P.H. and over, prevail over larger part of the year. Government intends to examine further from all points of view the possibility and advantage of introducing Wind Mills.

SCHEME FOR CONNECTING CONTAI WITH CONTAI ROAD, MECHADA AND JALESWAR

\*1185. **Shri Basanta Kumar Das:** (a) Will the Honourable Minister of Railways be pleased to refer to the answers given on the 9th April 1948 to my starred question No. 1382 and state what action has been taken to give effect to the schemes of connecting Contai with Mechada via Tamluk and with Jaleswar via Digba?

(b) When is the construction of these lines likely to be taken up?

(c) What is the decision of the Central Board of Transport with regard to these lines?

(d) Is there any scheme to connect Contai with the Contai-Road Station and, if so, do Government propose to take any action regarding that scheme?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) to (c). The scheme of connecting Contai with Machada via Tamluk and with Jaleswar via Digba was considered by the Central Board of Transport at their 16th meeting held on 10th December 1948, and it was decided that the project should be dropped for the present in view of the need of concentrating our limited resources on projects of urgent and vital national importance.

(d) The Contai-Contai Road Project was also considered by the Central Board of Transport at the same meeting and it was decided to drop the Project for the present as the area is well served by roads.

## INCREASING FISH PRODUCTION

\*1186. **Sreematty Annie Mascarene:** (a) Will the Honourable Minister of Agriculture be pleased to state whether any steps have been taken by Government to increase the fish production in India?

(b) What is the extent of marine area suited for fisheries in India?

(c) What is the amount expended for research work in fisheries?

(d) What is the result thereof?

**The Honourable Shri Jai Ramdas Doulatram:** (a) For increasing fish production in the country, Government of India have helped provincial Governments and States to carry out extensive plans for the development of fallow waters as productive fisheries. Details of financial assistance given to provinces and States, are shown in the statement (No. I) placed on the table of the House.

Schemes subsidized by the Central Government for the development of Inland Fisheries generally consist in: (i) surveying fallow but culturable waters and natural spawning grounds, (ii) arranging increased supplies of young fish for stocking and, (iii) stocking as many culturable waters as possible with young fish of suitable species of fish. The acreage of inland waters surveyed and stocked and the number of young fish collected and stocked in all the provinces and States partly as a result of assistance given from the Centre and partly on account of directives from the Government of India are shown in the statement (No. II) placed on the table of the House.

(b) Marine areas suitable for exploitation of Fisheries in India is estimated at about 115,000 sq. miles extending from the shore up to about 100 fathoms line.

(c) A statement (No. III) of the amounts spent during each of the last 3 years is laid on the table of the House.

(d) Fisheries research by its very nature is a long term project and it is not possible, therefore, to assess the result of such work within a few years. The Research Stations have been established by the Government of India only recently and the major part of the expenditure detailed in Statement (No. III) placed on the table of the House in reply to (c) is naturally on buildings and equipment for these Stations and also on the purchase of fishing craft and gear. Investigations have been started on a number of species of fish of economic importance and increasing fish supplies by stocking fallow waters with fry and fingerlings of such species of fish. The Pilot fishing experiments being carried out from the Pilot Fishing Deep-Sea Station at Bombay are with a view to charting the fishing grounds, determining the fishing seasons and most suitable methods of fishing. The results achieved so far from the work at this Station are promising but it is too early to assess their full value.

STATEMENT I  
Grants made to Provinces/States for G.M.F. Funds for Fisheries Development Schemes

| Serial No. | Province or State and name of the Scheme | Total cost of the scheme |   | Amount of Govt. of India's share which was expected to be raised (in maunds) |   | Quantity of Fish raised for the beginning of the scheme upto 31-3-48 (in mds.) |          | Quantity of Fish expected to be raised in subsequent year (in maunds) |   | Remarks |
|------------|------------------------------------------|--------------------------|---|------------------------------------------------------------------------------|---|--------------------------------------------------------------------------------|----------|-----------------------------------------------------------------------|---|---------|
|            |                                          | Rs.                      | 3 | Rs.                                                                          | 4 | 5                                                                              | 6        | 7                                                                     | 8 |         |
| 1          | Madras                                   | 22,79,927                |   | 11,14,776                                                                    |   | 2,00,033                                                                       | 1,54,514 | 6,47,346                                                              |   |         |

\* Preliminary Survey of fisheries resources was done upto 1947. As a result of the establishment of Pakistan the Officer-in-charge of Animal Husbandry and Fisheries Department opted out for Pakistan. It is only recently now that the work has again been started.

## STATEMENT II

Average of water put under pisciculture as a result of the execution of the Schemes concerning the Development of Fisheries in fallow waters

| Serial No. | Name of the Scheme                                                                                              | Acreage of water surveyed year-wise | Acreage of water put under pisciculture year-wise | No. of fry or fingerlings distributed yearwise |           | Yield in Maunds |           | REMARKS |

Ajmer-Merwara.—Fisheries Development Scheme, for Ajmer-Merwara, 1946-47.

Delhi

Panjab

C.P. and Bihar

Tamilnad

Hyderabad

Cochin

West Bengal

The scheme was closed on 28th February, 1947. The Fishery guard appointed for the tank was discharged.

\*Before the partition.

800 acres of Government owned and private tanks have been acquired and are being got ready for stocking during 1948-49.

2,390 Bagauri

3,200 Bawaja

5,000 Bawaja

810 Bagauri

16,000

11,000 fingerlings

..

17,778 (1946-47)

18,207 (1947-48)

5,50,700

25,600 fingerlings

10,000 fingerlings

(1945-46)

12,000 fingerlings

(1946-47)

18,000 fingerlings

(1947-48)

1,28,000

Since partition about 4,000 tanks have been surveyed for Union Tank Fisheries Improvement Scheme and about 1,200 of these are being annually stocked this year.

## STATEMENT III.

*Amount expended by Government of India for research work in fisheries.*

|                                             | Recurring | Non-Recurring. |
|---------------------------------------------|-----------|----------------|
|                                             | Rs.       | Rs.            |
| 1. Pilot Deep-Sea Fishing Station at Bombay |           |                |

| 1948-49                                     | 3,12,000  | 1,50,000       |

**Sreematty Annie Mascarene:** Is Government aware that a great national wealth is being lost by not developing the fisheries on proper lines?

**The Honourable Shri Jairamdas Doulatram:** Yes, that is why Government is now developing it on proper lines.

**Sreematty Annie Mascarene:** Is the Government aware that the present research scheme is only one-sided, in that sea-side research is neglected?

**Mr. Speaker:** Order, order. This need not be replied.

**Shri H. V. Kamath:** Does the scheme referred to by the honourable Minister envisage the production and catching of only small fish, and not of big whales and sharks as well?

**The Honourable Shri Jairamdas Doulatram:** It is wise to proceed from small to big things.

**Shri R. K. Sidhva:** May I know whether the scheme referred to by the honourable Minister provides for the construction of cold-storages for preserving the fish?

**The Honourable Shri Jairamdas Doulatram:** In Bombay we are having cold-storage for fish.

**Shri R. K. Sidhva:** If cold-storages have been constructed, how many have been constructed, and what is the cost of one cold-storage?

**The Honourable Shri Jairamdas Doulatram:** We are constructing one at Bombay. I would not be able to give the cost straightaway. We are also putting up cold-storage plant for fish in Delhi.

**Shri R. K. Sidhva:** What about Madras?

**Sreematty Annie Mascarene:** Has the Government any idea of entering the international whale fishing expedition?

**The Honourable Shri Jairamdas Doulatram:** This would be a later development. We must go step by step.

**Sreematty Annie Mascarene:** Is the socio-economic position of fishermen under the consideration of the Government?

**The Honourable Shri Jairamdas Doulatram:** This matter also is being gone into by the Provincial Governments.

## DEVELOPMENT OF TAPIOCA CULTIVATION

**\*1187. Sreematty Annie Mascarene:** (a) Will the Honourable Minister of Agriculture be pleased to state whether the Indian Agricultural Research Institute has given any attention to the development of Tapioca cultivation in India?

(b) If so, what is the result?

(c) What are the provinces suited for the cultivation of Tapioca?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). Trials on fifteen different varieties of Tapioca have recently been undertaken at the Institute. These trials must be continued for some time before useful results can be obtained. When they have reached this stage the information will be published.

(c) Travancore has proved to be the best for cultivation of tapioca. Portions of Malabar and Cochin are also suitable. It may be possible to cultivate tapioca in the North East region of the country such as Assam, Bengal and Orissa which are free from frost.

**Sreematty Annie Mascarene:** Is the Government aware that tapioca cultivation is possible all over India, provided one crop is taken every year, from March to November?

**The Honourable Shri Jairamdas Doulatram:** I think for this particular crop we require humid climate and freedom from frost. Therefore it may not be possible to grow it in all parts of the country.

**Sreematty Annie Mascarene:** Is the Government aware that at the Pusa Institute, Delhi, they have tried the experiments with Tapioca and found them successful?

**The Honourable Shri Jairamdas Doulatram:** Yes. I have indicated that we have carried out experiments at the Delhi Institute, and we will try all climates and provinces.

**Sreematty Annie Mascarene:** Is the Government aware that with better irrigation its cultivation is possible everywhere?

**Mr. Speaker:** I am afraid the honourable member is giving information and not asking a question. She may put a question and get the information she may want.

**Shri H. V. Kamath:** As part of the food production drive, is the cultivation of sweet potato under the active consideration of Government?

**The Honourable Shri Jairamdas Doulatram:** Does this arise, Sir?

**Mr. Speaker:** No.

**Shri Moturi Satayanarayana:** Is the Government aware that tapioca is being used for starch purposes?

**The Honourable Shri Jairamdas Doulatram:** I would not be surprised if it is, because it contains a large quantity of starch.

**Shri Moturi Satayanarayana:** In view of the shortage of tapioca, will Government stop such use?

**The Honourable Shri Jairamdas Doulatram:** As soon as Government concentrates on increasing the production of tapioca and using it for food, naturally we shall see that less of it is used for industrial purposes, or some other substitute is made available for industrial purposes.

## STARRED QUESTIONS AND ANSWERS

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [18TH MARCH 1949]

## FIXATION OF PERMANENT STRENGTH OF RAILWAY BOARD'S OFFICE

\*1188. **Ch. Ranbir Singh:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that more than one hundred assistants and a large number of clerks have been officiating in the Railway Board's office for the last three or four years?

(b) Why has it taken such a long time to fix the revised permanent strength of the Board's office?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes.

(b) The fixation of the revised permanent strength of the Railway Board's office has not yet been finally decided on by the Board. During the war the strength of the Board's Office had to be increased to deal with the heavy increase in work created by war conditions. Soon after the cessation of hostilities, an officer was appointed on special duty to go into the question of the permanent strength required for the Board's Office in the changed circumstances. Before action could be taken on the report of this officer, the partition of Railways was effected which altered circumstances. By the time conditions stabilised again the Indian Railway Enquiry Committee's report and recommendations had become due. The Enquiry Committee's report has since been received, and the matter is now under the active consideration of the Railway Board.

## CENTRAL RESERVE OF FOODGRAINS

\*1189. **Ch. Ranbir Singh:** (a) Will the Honourable Minister of Food be pleased to state the exact amount of foodgrains which were lying in the Central Reserve of the Ministry of Food at different stations as on the 1st February, 1947, 1st February, 1948 and 1st February, 1949 respectively?

(b) On which dates did the stocks in the Government godowns come to a minimum during the years 1947, 1948 and 1949?

(c) What was the total allotment of foodgrains to each of the provinces and States and on what dates were such supplies made during the above period?

(d) What was the total number of officers together with their designations and the number of ministerial staff employed to look after the above Government stores and the foodgrains kept therein on each of the dates mentioned in part (a) above?

**The Honourable Shri Jairamdas Doulatram:** (a) The total quantity of foodgrains in the Central Reserve on the 1st February 1947 was 1,33,569 tons, on the 1st February 1948, 55,237 tons and on 1st February 1949, 23,346 tons.

(b) During 1947 and 1948 the minimum quantities of stocks in the Central Reserve Depots prevailed during October 1947 and November 1948. The balances at the end of these months were 12,034 tons and 33,917 tons respectively.

(c) A statement (No. I) showing supplies made by the Centre to the Provinces/States during 1947, 1948 and the two months January and February of 1949 is laid on the table of the House.

As the total allotment of foodgrains was not supplied to each of the Provinces and States on a separate date but the supply of foodgrains to all the Provinces and States was a continuous and simultaneous process it would not be possible to give any particular dates on which the total supplies were made.

\* Answer to this question laid on the table, the questioner being absent.

(d) A statement (No. II) is laid on the table of the House showing the number of officers and ministerial staff employed to look after the Central Reserve of foodgrains on 1st February 1947, 1st February 1948 and 1st February 1949.

## STATEMENT I

Supplies made by the Centre to the various Provinces/States during 1947, 1948 and 1949  
(Jan.—Feb.)

(In thousand tons)

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE). [18TH MARCH 1949]

## SCALES OF PAY OF STENOGRAPHERS ON RAILWAYS

**\*1190. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Railways be pleased to state what is the minimum grade of pay for a Railway Stenographer?

(b) What is the minimum grade of pay for a Stenographer in other Departments of the Government of India?

(c) If there is a difference, why is it so?

**The Honourable Shri K. Santhanam:** (a) The minimum prescribed scale of pay of a Stenographer on Railways is 80-5-120-EB-8/200/10/2/220.

(b) The minimum prescribed scale of pay for Stenographers in the Central Secretariat of the Government of India (including the Railway Board) is Rs. 160-10-330 whereas the minimum prescribed scale of pay for Stenographers in all subordinate offices of the Government of India is Rs. 80-5-120-EB-8/200-10/2/220.

(c) There is no difference in the pay of Stenographers between Departments of the Government of India, (other than the Central Secretariat), and the Railway Administrations.

**Shri Lakshminarayan Sahu:** Why should there be this difference in pay?

**The Honourable Shri K. Santhanam:** It is a matter which ought to be addressed to the Central Pay Commission. That Commission recommended these scales of pay, and the Government adopted them.

**Shri R. K. Sidhva:** Sir, in his reply the Honourable Minister said that we must address this question to the Central Pay Commission. Is that correct? I would like to know that from you, Sir.

**Mr. Speaker:** The Chair should not be asked on the merits of a reply. The Honourable Minister stated that Government have accepted the recommendations of the Pay Commission, and so it is a matter of the Pay Commission's Report.

**Shri R. K. Sidhva:** But he directs us to the Pay Commission. Is that correct?

**Mr. Speaker:** It was a polite way of stating that the question need not be put as it is a matter of the Pay Commission's Report.

**Prof. Shibban Lal Saksena:** If anomalies in the Pay Commission's Report are pointed out to the Government, will not the Government take care to look into them?

**Mr. Speaker:** That is hypothetical at this stage.

**Shri H. V. Kamath:** Is it a fact that Government accepted only some of the recommendations of the Pay Commission, and rejected the others according to their own convenience?

**The Honourable Shri K. Santhanam:** So far as I am aware, they have accepted generally, all the recommendations.

## ALLOWANCES OF GUARDS WORKING ON SMALL QUICK TRANSIT TRAINS

**\*1191. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Railways be pleased to state what was the consolidated allowance of a Railway Guard working on S.Q.T. (Small Quick Transit) trains prior to the recommendations of the Central Pay Commission?

(b) What is he getting now according to the recommendations of the Central Pay Commission?

**The Honourable Shri K. Santhanam:** I have called for the information and a statement will be laid on the table of the House in due course.

**Mr. Speaker:** The question hour is over.

## (b) WRITTEN ANSWERS

## PURCHASE OF RAW SILK FROM JAPAN

**\*1192. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that a trade delegation for the purchase of raw silk from Japan was sent in 1946?

(b) If so, what is the name of the delegation, what quantity of raw silk did they purchase for Government and at what price?

(c) At what price was this raw silk sold and to whom?

(d) When did goods actually arrive in India and when were the sales effected?

(e) What was the market price at the time of landing and the time of sale in India?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) No delegation was sent in 1946 for the purchase of Raw Silk from Japan. On return, however, of a delegation which had been sent to Japan in 1947 to complete arrangements for sale of Raw Cotton to that country and for importing Cotton Yarn, Raw Silk, Textile Machinery etc., the Government of India decided to purchase some Raw Silk on Government account.

(b) The delegation was led by Mr. Tulsidas Kelachand. The quantity of Raw Silk purchased was 4 lakh lbs. The purchase price was Rs. 14 per F.O.B. Japan and the landed cost was about Rs. 25 per lb.

(c) The raw silk was distributed to the Governments of Madras, Mysore and West Bengal for sale to silk weavers in these areas. The price of sale to weavers has varied between Rs. 27/8/- and Rs. 35 per lb. and generally a little below market prices.

(d) Shipments arrived in Bombay on the 17th December 1947 and deliveries to various Governments were completed by the end of March 1948.

(e) At the time of landing the average sale price for raw silk ruling in the market was about Rs. 32 per lb. It rose to Rs. 35 per lb. during the period.

## ALLOTMENT OF CEMENT, IRON AND STEEL FOR CONSTRUCTION OF REFRIGERATION PLANTS

**\*1193. Shri Damoder Swarup Seth:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether cement, iron and steel required for the construction of refrigeration plants in India are supplied by the Government of India or by the respective Provincial Governments;

(b) whether any of the provinces have not acted in the matter of allotment of cement for the construction of refrigeration plants as laid down by the Government of India and if so, the action Government propose to take to set the matters right;

(c) the number of applications for the grant of cement, iron and steel which are over one month, three months and six months old respectively and the reasons for the delay in meeting the demand for the construction of refrigeration plants; and

(d) whether any losses occurred by the rotting of food articles as a result of the failure of provinces to construct refrigeration plants and if so, the monetary value thereof?

**The Honourable Shri Jairamdas Doulatram:** (a) The Ministry of Agriculture sponsors applications from the refrigeration industry for iron and steel, and uses its good offices with the Ministry of Industry and Supply to obtain an adequate quota for it. Iron and steel are allocated by the Government of India and cement by the Provincial Governments.

(b) Government are not aware that any Provincial Government has in any case refused to meet the legitimate requirements of cement for the refrigeration industry. There may have been some cases of delay due to shortage of supply and transport bottleneck.

(c) The allocation of cement is the responsibility of the Provincial Governments as already stated. As for iron and steel allotments are made every quarter by the Ministry of Industry and Supply and, therefore, the applications even if sponsored by the Ministry of Agriculture must necessarily wait until the next allotment is due. Iron and steel being in short supply it has not been found possible to secure a quota of more than about 80 per cent of the total demand. Some cases are, therefore, held up. Just at present there are 44 cases six months old which will be considered for the next period at the meeting to be held sometime in April.

(d) No such losses have come to the notice of the Government of India.

#### NEW CLASSIFICATION OF RAILWAYS

**\*1194. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state when the meeting of the Central Advisory Council (Railways), to consider the question of new classification, was held?

(b) Did some members send a requisition after the meeting to reconsider the subject, if so when, and how many times and whether the meetings were called? If not, why not?

(c) What are the reports of the General Managers of Railways on this subject?

**The Honourable Shri K. Santhanam:** (a) This matter was considered at meetings of the Central Advisory Council for Railways held on the 10th of April 1948 and the 5th of September 1948. The Council approved of the proposal at the latter meeting.

(b) Two requisitions were received. One, dated the 6th September 1948, was concerned with only one aspect of the matter, namely, the provision of Inter Class sleeping accommodation. The second requisition which asked for consideration of the proposals was submitted on December 29th 1948, that is, just before the revised arrangements were to take effect and after much of the preliminary work in connection therewith had been completed. It was then too late to call a meeting before the change-over was made, and the matter was considered at the Central Advisory Council meeting held on 5th of February 1949.

(c) The reports received from General Managers showed that they consider it is yet too early to form a definite opinion as to the success or otherwise of the new arrangements.

#### DEMANDS OF ALL-INDIA POSTMEN AND LOWER GRADE STAFF UNION

**\*1195. Giani Gurmukh Singh Musafir:** (a) Will the Honourable Minister of Communications be pleased to state whether the representatives of the Postmen and Lower Grade Staff Union, in an interview with the Honourable Minister demanded that the number of the daily post deliveries be reduced from five to three?

#### STARRED QUESTIONS AND ANSWERS

(b) If so, has the Honourable Minister agreed to their demand?

(c) What other demands were put forwarded by the representatives in the course of the interview and how many of them were accepted?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) No.

(b) Does not arise.

(c) A statement is laid on the table of the House.

#### STATEMENT

*Points raised by the representatives of the All-India Postmen and Lower Grade Staff Union on the 14th February, 1949 at the interview with the Honourable Minister for Communications and the action taken thereon.*

(1) In Delhi for promotion from Postmen's to the clerical cadre applications from officials who had exceeded the age of 35 years were not accepted though the orders laid down no such restrictions.

The matter is being investigated.

(2) The leave reserve of 10 per cent. for the postmen's cadre was alleged to be insufficient.

The Honourable Minister stated that leave reserve could not be increased but that it would be ensured that every body got leave as far as possible.

(3) The question of medical examination at the time of confirmation in the postmen's grade was raised. An officiating postmen from the Bombay G.P.O. said that he had been officiating as a postman from 1942 but had recently been asked to undergo a test for physical fitness.

The Honourable Minister pointed out that he had been shown indulgence for seven years and that a medical test was absolutely necessary before confirmation.

(4) The representatives of the Postmen's Union desired that the monthly examination of sorting postmen prescribed in D.G.'s Circular No. 29, dated the 7th December, 1948 should be abolished.

The Honourable Minister replied that the inspecting officer would take a test as in the case of sorters, and that an official who did not come up to the mark would have to revert. He, however, promised to examine the matter.

(5) It was brought to the notice of Honourable Minister that transit pay for the joining time exceeding 30 days which had been spent by officials coming from Pakistan had not been given.

Orders have since been issued authorising the Heads of Circles to sanction joining time in excess of 30 days upto the 31st March, 1949 so that cases of refugees may be settled without reference to the Government of India.

(6) The representatives of the Union wanted payment to be made for the period of strike during July-August, 1946.

The Honourable Minister explained the normal policy of Government in such matters to treat such days as *dies non* and that pay for such periods could not be granted.

(7) The representatives of the Union complained that temporary porters in Delhi R.M.S. who had been working for long periods had been asked to produce character and age certificates within 7 days.

The orders issued in the matter have been held in abeyance and the matter is being investigated as to why production of certificates is required after the lapse of such a long time.

(8) The representatives of the Union generally complained that the pay of the officials coming from Pakistan had not been fixed up to this time consequent upon their election of the revised rates of pay and that they consequently were still drawing their old pay.

## STARRED QUESTIONS AND ANSWERS

## STATEMENT

(i) District-wise, the number of village post offices opened in the province of Bihar upto 28th February, 1949 during the year 1948-49.

| Districts        | Number of village Post offices opened. |
|------------------|----------------------------------------|
| Arrah            | 10                                     |
| Bhagalpur        | 19                                     |
| Champanan        | 51                                     |
| Chapra           | 2                                      |
| Darbhanga        | 22                                     |
| Dhanbad          | 4                                      |
| Gaya             | ..                                     |
| Hazaribagh       | ..                                     |
| Lehria Serai     | 7                                      |
| Manbhum          | ..                                     |

| Palamau          | 16                                                   |
| Patna            | 1                                                    |
| Purnea           | 6                                                    |
| Ranchi           | 46                                                   |
| Santhal Parganas | 35                                                   |
| Saran            | 2                                                    |
| Shahabad         | ..                                                   |
| Singhbhum        | ..                                                   |
| Total            | 322                                                  |

It was pointed out that the delay in the matter was due to the service roll and service books of the officials coming from Pakistan not having been sent by the P. & T. authorities in Pakistan. The matter has since been further examined and an officer on special duty of the rank of Postmaster-General has been appointed to hold to expedite the fixation of pay and payment of arrears to such officials. In cases where service records were not available, orders have been issued that the fixation of pay should be done on the basis of collateral evidence produced to the satisfaction of the appointing authorities concerned.

## PAYMENT OF CASH CERTIFICATES PURCHASED FROM PAKISTAN POST OFFICES

\*1196. **Giani Gurmukh Singh Musafir:** Will the Honourable Minister of Communications be pleased to state:

(a) whether Government of India propose to make payments in respect of Post Office Cash Certificates, purchased by displaced persons at post offices, now included in Pakistan; and

(b) if not, what alternative relief Government propose to afford to such displaced persons?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) According to the Indian Independence (Liabilities) Order, 1948, Post Office Cash Certificates, which stood registered on the 14th August, 1947, at post offices now in the Dominion of Pakistan and were not transferred to the books of a post office in the Dominion of India on or before the 31st March, 1948, are the liabilities of the Government of Pakistan. The liability for all other Post Office Cash Certificates has been assumed by the Government of India who have been making payments of them.

(b) In respect of Post Office Cash Certificates which are the liability of the Government of Pakistan, negotiations are being conducted with the Pakistan Government to evolve a procedure by which the holders of such certificates who have migrated to India can obtain payment through the Indian Post Offices.

## NEW VILLAGE POST OFFICES IN BIHAR

\*1197. **Babu Ramnarayan Singh:** Will the Honourable Minister of Communications be pleased to state:

(a) the number of new village Post offices opened in the provinces of Bihar in the year 1948-49, district-wise;

(b) the number of new village Post offices proposed to be opened in the year 1949-50, in the province of Bihar, district-wise.

(c) the principles which are followed in opening a new village post office;

(d) the number of petitions received for opening new post offices from the public in the Hazaribagh District in the year 1948-49 and also the names of places from which the petitions were received; and

(e) the names and number of new village post offices opened at the request of the public in the year 1948-49 in the district of Hazaribagh and also of those opened at the instance of the department itself?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a), (b) and (d). A statement is placed on the table of the House.

(c) Para. 25, page 8 of the Pink Pamphlet already supplied to all honourable members, gives the principles which are followed in opening a new village post office.

(e) Four, all at the request of the public, at the following places, Tatranten, Banahappa, Manrarichak, and Lari.

(iii) Names of places from which petitions were received for the opening of new Post Offices from the public in the Hazaribagh District in the year 1948-49:

- |                        |                   |
|------------------------|-------------------|
| 1. Akpura              | 9. Katibandh      |
| 2. Baleswar Raj        | 10. Khijri        |
| 3. Bermasia at Kechapi | 11. Kodardam Sito |
| 4. Barsawam            | 12. Meru          |
| 5. Chandwara           | 13. Pohra         |
| 6. Chendruala          | 14. Raipur        |
| 7. Dharu               | 15. Singraon      |
| 8. Eghra               |                   |

#### PAY SCALES OF HEADMATES IN SEALDAH DIVISION OF E. I. RAILWAY

\*1198. **Shri H. V. Kamath:** Will the Honourable Minister of Railways be pleased to state:

(a) whether it is a fact that Headmates under the Permanent Way Inspector in Sealdah Division of East Indian Railway perform the same functions as Headmistries under Permanent Way Inspectors on other divisions of the same Railway;

(b) if so, why the difference in designation or description is maintained contrary to the Central Pay Commission's recommendations;

(c) whether the headmates are fixed in the scale of Rs. 35-1-50-2-60, and the headmistries in the scale of Rs. 55-3-85 EB-4-125-5-130; and

(d) if so, the reasons therefor?

**The Honourable Shri K. Santhanam:** I have called for the information and a statement will be laid on the table of the House in due course.

#### PASSENGER AIR SERVICE THROUGH SAUGOR

\*1199. **Shri R. L. Malviya:** (a) Will the Honourable Minister of Communications be pleased to state whether Government propose to put Saugor on the air route for regular passenger service?

(b) If so, what steps have Government taken so far in this regard and how long will they take to start the service?

(c) If not, do Government propose to consider the desirability of putting Saugor on the air route between Delhi and Bombay?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a), (b) and (c). There is no aerodrome at Saugor, and a halt at Saugor by the Bombay-Delhi service or any other scheduled service is not possible. Saugor occupies a comparatively low priority in Government's programme of development of aerodromes.

#### PRODUCTION OF RINDERPEST VACCINE

\*1200. **Prof. N. G. Ranga:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether Government are aware that a new rinderpest vaccine, developed during the war, is being produced at a laboratory in Nanking (China) under the direction of a Food and Agricultural Organisation expert;

(b) if so, whether the experts of the Government of India have studied its manufacture and efficiency;

(c) whether it is cheaper and more effective than the vaccine so far popularised in India; and

(d) whether Government are making any study of the comparative merits of the old and new vaccines?

**The Honourable Shri Jairamdas Doulatram:** (a) to (d). Reply to all the four parts of the question is in the affirmative. A statement on the technical aspects of avianised and lapinised vaccines is placed on the table of the House.

#### STATEMENT

##### Technical aspects of Avianised and Lapinised Vaccines

(a) Two types of vaccines were being produced at the laboratory in Nanking. (i) The avianised vaccine by adapting the virus to the developing chick embryo and (ii) the lapinised vaccine adapted to the rabbit.

(b) *The Lapinised virus* is less virulent than goat-adapted virus vaccine and can be used on highly susceptible animals without ill-effects and with a minimum of reaction. A few cases of abortion have been reported following the use of this vaccine in the field, proof that the abortions have been caused by the use of this vaccine was not available.

*The avianised virus* vaccine caused less reaction than any other attenuated virus vaccine, and no deaths, and is useful for the protection of hyper-susceptible cattle, particularly if the disease happens to gain entrance into countries where the disease does not exist. Difficulty experienced in adopting the virus to the egg has been insuperable and so far success has been achieved with only one strain of the virus. There are other limitations such as the virus is very fragile and requires to be transported in ice. If passage is continued, it may lose immunising value.

The goat-adapted virus, it may be noted, is the most stable of the attenuated viruses with better keeping qualities; but it is too virulent to be used with certain types of animals unless administered with antiserum.

(c) The goat-adapted vaccine, so far popularised in India, when used alone, costs 2-5 pies per dose and when used with antiserum about 2½ annas or more. The lapinised virus vaccine and avianised virus vaccine will cost 1-5 and 0-5 respectively per dose.

(d) At the Indian Veterinary Research Institute, Mukteswar, the comparative merits of the goat adapted vaccine and the Nanking strain lapinised vaccine are being investigated. The latter was found to give rise to a milder reaction, not interfering with milk-yield in milch cattle. Immunity tests carried out in a few animals have revealed satisfactory results. Attempts are being made to extend the trial to the provinces.

Due to inherent difficulty in adapting certain strains of virus to the egg, it has not been possible to adapt the laboratory strains of rinderpest virus to the egg at Mukteswar. The Food and Agriculture Organisation has been requested to arrange for the supply of a strain of avianised virus for experimental trials in India.

#### ANALYSING AND TESTING OF FOREST SEED

\*1201. **Prof. N. G. Ranga:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether Government are aware that a Food and Agricultural Organisation Forestry Specialist is organising the analysing and testing of forest seed and experimental work in exotic forest species; and

(b) whether Government propose to develop similar work in India?

**The Honourable Shri Jairamdas Doulatram:** (a) The Government of India have no information on this subject matter. An enquiry is being made from the Food and Agriculture Organisation and the information collected will be placed on the table of the House.

(b) Similar work in this country is already being done at the Forest Research Institute, Dehra Dun.

## MANUFACTURE OF SALT BY PRIVATE INDIVIDUALS

**\*1202. Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what are the terms and conditions for the manufacture of salt by private individuals?

(b) What were the concessions given to private salt manufacturers?

(c) When were the concessions withdrawn?

(d) What are the reasons for the withdrawal of such concessions?

(e) Are the same facilities of rail and road transport available to both the private and factory salt manufacturers?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Small scale manufacturers have complete freedom to manufacture and sell salt without any licence or application, provided the total area of land covered is not more than 10 acres.

(b) The concessions given last year to small scale manufacturers are:

(i) The restrictions applicable to large scale manufacturers regarding the method of extraction, storage, transport, sale and licensing have been withdrawn in the case of small scale manufacturers.

(ii) The cess of -/2/- per maund charged on salt manufactured from the private licensed factories is not charged on the small scale manufacturers.

(c) No concession has been withdrawn.

(d) Does not arise.

(e) Movement by road is free to all. Movement by rail takes place under a zonal distribution scheme. Salt produced by private small scale manufacturers is more useful for meeting local demands than for despatch over long distances by rail. Its movement by rail is not actively encouraged by Government, although there is no positive bar to such movement.

## UNIFORM SYSTEM OF WEIGHTS AND MEASURES

**\*1203. Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Industry and Supply be pleased to state whether Government propose to introduce a uniform system of weights and measures throughout the Indian Union and if so, when?

**The Honourable Dr. Syama Prasad Mookerjee:** A statement is laid on the Table.

## STATEMENT

Under the present Constitution, the Central Government is responsible for the establishment of standards of 'weights', while the enforcement of these standards and full responsibility for 'measures' fall within the Provincial sphere. The Central Government have already enacted the Standards of Weight Act, 1939, under which primary standards of weight have been laid down, namely—tola, seer, maund, ounce, pound and ton. The Provinces have been requested to take steps to enact necessary legislation for enforcing these standards in their respective areas. Madras, Bombay, C. P., East Punjab, Orissa, U. P. and Bihar have already enacted legislation in this direction, and other Provinces are expected to do so in the near future. The question of enforcing the standards in the Centrally Administered areas and of asking the States and Unions to undertake parallel legislation on these lines is also under consideration.

In the draft constitution now under consideration, the responsibility for establishing standards of both 'weights' and 'measures' is included in the Union List. If this is accepted, the Union Government will be responsible for establishing standards of measures for the whole country.

## CONTRACTS FOR RAILWAY REFRESHMENT ROOMS

**\*1204. { Kazi Syed Karimuddin:  
Saiyid Jafar Imam:**

(a) Will the Honourable Minister of Railways be pleased to state whether Government are aware that most of the old refreshment room contractors have been ousted and that monopolies have been created by the Railway Administration of Calcutta?

(b) What is the number of Muslim and Hindu contractors of refreshment rooms who have been recently ousted by the Railway Administration of Calcutta?

(c) Why have contracts in favour of old contractors on the East Indian Railway been cancelled?

**The Honourable Shri K. Santhanam:** (a) Government are not aware of this. However, in consultation with the Central Advisory Council for Railways, catering policy has recently been revised.

(b) In pursuance of this re-organisation, the E. I. Railway have found it necessary to discontinue three contracts previously held. Of these, one was held by a Hindu and two by Muslim contractors.

(c) This has been done in furtherance of the revised policy referred to in reply to part (a) of the question. It may be added, in respect of two of these three contractors, their work has also been found unsatisfactory.

## CONSTRUCTION OF NEW RAILWAY LINES IN BIHAR AND CHOTA NAGPUR

**\*1205. Babu Ramnarayan Singh:** (a) Will the Honourable Minister of Railways be pleased to state what is the present proposal for the construction of new railway lines in the Province of Bihar and Chota Nagpur?

(b) What is the present stage of the proposed railway lines directly from Patna to Ranchi?

(c) Has the survey been made and if so, has the alignment been fixed?

(d) Were the people of the locality consulted in the matter?

(e) Has the proposed line through Hazari Bagh and Deoghar been surveyed and alignment fixed?

(f) If the construction of new lines to connect Barwadih and Katni is nearing completion, what is the approximate time by which it will be completed?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) I would refer the honourable member to the reply given by my predecessor to starred question No. 700 put by him in the House on 8th December 1947. Work on the first 40 miles of the Barwadih-Chirmiri Project is in hand. The remaining Projects will be considered by the Central Board of Transport at their next meeting.

(b) The survey of the Project has been completed.

(c) Yes.

(d) The alignment has been selected in consultation with the Provincial Government.

(e) Yes.

(f) A connection between Barwadih and Katni will require approximately 15½ miles of new construction from Barwadih to Bijuri. Work is in progress on the first 40 miles. Construction of the remaining portion has not yet been sanctioned, and is pending completion of surveys of alternative alignments. It is not possible to give at this stage the approximate time by which the link will be completed.

## POSTAL INSURANCE FUND

\*1206. **Shri Lakshminarayan Sahu** (a) Will the Honourable Minister of Communications be pleased to state whether the Postal Insurance Fund is subject to the Indian Insurance Act in regard to the privileges of the policy holders e.g., indisputability of the policy after some years, automatic convertibility of a policy into a paid-up policy in case of non-payment of premia and assignment?

(b) If not, do Government propose to take steps to bring the Postal Insurance rules in conformity with the provisions of the Indian Insurance Act as far as the privileges to the policy holders are concerned?

(c) If the reply to part (b) above be in the affirmative, will Government please make these things clear in the Postal Insurance rules?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) and (b). No. Under Section 118 of the Insurance Act, 1938, the Post Office Insurance Fund is exempt from the provisions of the Act as its business is carried on by the Central Government. But so far as the privileges to the policy-holders are concerned, the Rules are generally in conformity with the Insurance Act.

(c) The privileges available to Postal Insurance policy holders are clearly specified in the Rules.

## SLAUGHTER OF PREGNANT ANIMALS FOR OBTAINING PELTS

\*1207. **Shri B. P. Jhunjhunwala:** (a) Will the Honourable Minister of Agriculture be pleased to state whether the attention of Government has been drawn to a report made on tanning industry by Mr. Roshan Lal Anand, M.A., in the year 1939 under the instruction and direction of the Director of Industries, Punjab, wherein it is said that pregnant animals are slaughtered with a view to take out the skin of the embryo, as such skin brings very high price and it is profitable for the owner of the animal to slaughter it for the purpose?

(b) If the answer to part (a) above be in the affirmative, have Government taken any special steps to prevent this practice and find out whether such slaughter has been stopped or not?

(c) If so, to what extent has it been stopped?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes.

(b) and (c). The enquiries made in 1945-46 indicated that approximately 72 per cent. of lamb-fur-skins were obtained from lambs dying of severe cold within seven to ten days of birth during winter and about 28 per cent. by slaughter of which less than three per cent. were obtained by abortion. The attention of the Provincial Governments in Northern India where this practice was reported to be prevalent, was drawn to this evil and they were asked to take steps to stop it. In reply the then Punjab Government had reported that in their Province an order prohibiting this practice was already in force. United Provinces Government reported that the practice was not prevalent to any perceptible extent in their Province.

The question of completely banning the export of such skins in order to discourage this practice was also considered but on the basis of the replies received from the Provincial Governments it was not pursued.

## RECRUITMENT OF INSPECTORS AND CLERKS IN THE OFFICE OF DIRECTOR OF CIVIL SUPPLIES, DELHI

\*1208. **Sardar Hukam Singh:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether any Inspectors and clerks were recruited in the office of the Director of Civil Supplies, Delhi, two or three months ago?

(b) If so, what is their number?

(c) How many of them are refugees?

(d) Is it a fact that none of them has been paid his salary for the last two months and if so, why?

(e) Was provisional sanction for this payment asked for and has this been refused and if so, on what grounds?

(f) Are Government aware that most of these employees are in a pitiable plight, without any means to buy even their daily necessities of life?

**The Honourable Dr. Syama Prasad Mookerjee:** Inspectors and clerks recruited in the Office of the Director of Civil Supplies, Delhi, are borne on the cadre of the establishment of Chief Commissioner, Delhi, and are under his administrative control. The answers below are based on information furnished by him.

(a) Yes.

(b) Inspectors 42, Clerks 60.

(c) Seventeen Inspectors and twenty-two clerks are refugees.

(d) The staff in question was appointed by the Chief Commissioner some time in December 1948 in anticipation of the approval of the Government of India. The Accountant General, Central Revenues, would not, however, permit drawal of pay and allowances of this staff without necessary sanction. The Government of India approved the appointment of the staff after the reference was received from the Chief Commissioner. The staff has since been paid all their dues.

(e) Yes, on the ground that regular sanction was expected shortly.

(f) Yes. The staff has since been paid on regular basis.

## UNSTARRED QUESTION AND ANSWER

## MEETINGS OF STANDING COMMITTEE FOR MINISTRY OF FOOD DURING 1948

96. **Shri R. K. Sidhva:** Will the Honourable Minister of Food be pleased to state the total number of meetings of the Standing Committee for the Ministry of Food held during the year 1948?

**The Honourable Shri Jairamdas Doulatram:** Three, including one adjourned meeting.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)

DEBATES

(PART I—QUESTIONS AND ANSWERS).

*Saturday, 19th March, 1949.*

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

DECLARATION BY MEMBERS

The following member made the declaration under Rule 4:

Shri Kusum Kant Jain (Madhya Bharat).

STARRED QUESTIONS AND ANSWERS

DETENTION OF FOREIGNERS

\*1209. Shri R. K. Sidhva: (a) Will the Honourable the Prime Minister be pleased to state whether any foreigners are detained in India for reasons of State and if so, what are their names?

(b) Have any prisoners been detained or sentenced under the Indian Extradition Act and if so, what are their names?

Dr. B. V. Keskar (Deputy Minister of External Affairs): (a) No.

(b) A statement containing the names of persons who have been extradited, those against whom proceedings are pending and those who have been convicted or are under trial is laid on the table of the House.

STATEMENT

*Extradition from India to Pondicherry from 15th August, 1947*

(1) Devarassu, (2) Gobalu *alias* Vellavittu Gobalu, (3) Suprayan *alias* Motchacotte and Villapayen *alias* Tattivittu, (4) Sinhasamy *alias* Kedatalapayane, (5) Naidu Kichenin, Balakichroin, and Parasuraman, (6) Sriramulu, (7) Kuppakavundan, (8) Thangavelu Chetty, (9) A. D. Krishnin, (10) Palani.

*Extradition from India to Pondicherry 1948*

(1) Govindasamy *alias* Kandasamy and Darmalingam, (2) Tillenathan, (3) Perumal *alias* Vepurane (4) Sandrakasane, (5) Virasamy and Deivassigamany, (6) Rajaram, (7) Ranganatha Pandayachi, (8) Devaraju Kounder, (9) Velupillai, (10) Govindasamy, (11) Thangavelu, (12) Ganabady *alias* Kanan, (13) Kuppan and Krishnan, (14) Govindasamy Naicker, (15) Kalycavoundan, (16) Alagappamodely, (17) Irula Sinnasamy *alias* Perumal, (18) Subramania Pillai, (19) Ayakannu *alias* Ponnussamy *alias* Govalu, (20) Arumugham *alias* Pattanathan *alias* Thangavelu *alias* Kamatchi, (21) Gabriel, John, Muthu, (22) Govindasamy Chetty, (23) Subramaniyan *alias* Zeoraman, (24) Madurai Muthu *alias* Madurai and (25) Balkrishnan *alias* Mananchetty, Govindasamy Cavoundar, Ramasamycavundar, Kuppacavundar.

*Extradition from India to Pondicherry 1949.—Ramassamy alias Passalattan.*

*Extradition—Pondicherry to India—from 15th August, 1947*

(1) Kuppan, (2) Subramaniam Pather, (3) Govindassamy, (4) Perumal and (5) Pethuswami Naidu

*Extradition—Pondicherry to India—1948*

(1) Dhanammal, (2) Georges alias Joseph, (3) Jogi Kuppan, (4) Erussappan, (5) Puran alias Munissamy, (6) Namasu alias Chinupaya Goundan, (7) Celvarangam alias Shyamraj, (8) Arumuga Kramani, (9) Devarajan Kramani, (10) Subramaniam, (11) Ranganayaki Ammal, (12) Irula Krishnan alias Pudukan, (13) Ellappan, (14) Ramchandra Pillai (15) Natesa Padayachi, (16) Vadivelu Padayachi, (17) Purushothama Kramani, (18) Georges alias Joseph Marian, (19) Vaithilinga Kavundan, (20) Youngman Govindassamy, (21) Damodara Kavundan, (22) Kuppa Kavundar alias Ethiraja Kavundar, (23) Perumal Kavundan, (24) Balakrishnan, (25) Devanayagam alias Rajagopal Pillai, (26) Gajendran, (27) Chinna Umaiyar, (28) Peria Umaiyar, (29) Irula Pattusamy, (30) Harijan Alagoo, (31) Nanthan, (32) Seenan, (33) Ramaswami, (34) Murugesan, (35) Mannangatti, (36) Pottai, (37) Krishnan, (38) Vaithi, (39) Ekambaram, (40) Egan, (41) Kannan and (42) Chinnakannu.

*Extradition—Pondicherry to India—1949*

(1) Kumbakonathan alias Swaminatha Kramani, (2) Julian, (3) Murugesan Natar (4) Andia alias Kuppan.

Proceedings under the Indian Extradition Act are pending against Ramachandra Narayan. Boto Apte alias Ramum Bote Apte in Bombay.

The following convicts and undertrial prisoners are confined at Madras:

- (1) Abdul Razak—Convict.
- (2) Mohamed Din—Convict.
- (3) Johan Albert Nicholas Yongman—Convict.
- (4) D. Rogers—Convict.
- (5) Abdul Malik—Remand prisoner.
- (6) Aziz Khan—Remand prisoner.
- (7) Antony Vijayonake—Undertrial.

**Shri R. K. Sidhva:** May I know the total number, Sir, of these persons who are detained?

**Dr. B. V. Kesar:** The total number from India is twenty-five in 1948 and one in 1949 and to India is forty-two in 1948 and four in 1949.

**Shri R. K. Sidhva:** How many of them were detained or sentenced by the previous Government and how many by the present Government?

**Dr. B. V. Kesar:** The number I gave is about extradition and not about detention. I am afraid the honourable member has not followed my answer.

**Shri R. K. Sidhva:** Part (b) of my question is, "have any prisoners been detained or sentenced?" and the Deputy Minister gave the number. I want to know how many of them were detained or sentenced by the previous Government and how many by the present Government.

**Dr. B. V. Kesar:** The figures that I gave were of persons who were extradited from India or extradited to India from outside; there is no question of their being sentenced.

**Shri R. K. Sidhva:** When were they detained?

**Mr. Speaker:** I think his question is whether there are any detentions at all.

**Dr. B. V. Kesar:** There are no detentions. The question (a) was whether any foreigners are detained and I said No in reply. There are no detentions.

# POLITICAL PENSIONS TO FOREIGNERS

**\*1210. Shri R. K. Sidhva:** Will the Honourable the Prime Minister be pleased to state whether any political pensions have been paid to foreigners and if so, to whom and what is the amount so paid?

**Dr. B. V. Kesar** (Deputy Minister of External Affairs): Yes. One.

Mst. Khatinunnessa—Rs. 36 per annum. This does not include political pensions paid to foreigners in East Punjab. The relevant records are with the Accountant General, West Punjab who has not yet furnished the necessary information.

**Shri H. V. Kamath:** Are there any foreigners to whom allowances other than what may strictly be called "pensions" are paid by Government?

**Dr. B. V. Kesar:** I do not think so.

**Shri H. V. Kamath:** Are there not certain Afghans formally detenus in this country, who are paid allowances?

**The Honourable Shri Jawaharlal Nehru:** Yes. I am sorry that the exact information is not available at present, but undoubtedly we are continuing to pay pensions—some kind of allowances—to a number of Afghans who came here. Our policy generally is to reduce them after a certain period but not suddenly cut them off, because that will cause very serious inconvenience. In fact, in some cases we have actually increased the sums, because owing to the rise in prices it is impossible to live on them, but now that we have removed all restrictions on those ladies and gentlemen going away, the necessity for paying such allowances is much less.

**Shri H. V. Kamath:** Are these Afghans not willing to be repatriated?

**The Honourable Shri Jawaharlal Nehru:** That is a difficult question, which concerns the Government of Afghanistan, whether it is ready to have them back.

**Shri R. K. Sidhva:** May I know how quickly we would be able to get the information as to how many such prisoners are getting pensions?

**The Honourable Shri Jawaharlal Nehru:** This particular information has been laid on the Table of the House at least twice by me in the past sessions—a complete record. If the honourable member desires to have it again, it certainly can be supplied to him or he can, if he takes a little trouble to see the records, find it out for himself.

**Shri Mahavir Tyagi:** May I know if there is any objection on behalf of the Government here for these Afghan detenus to go direct to Afghanistan?

**Dr. B. V. Kesar:** Certainly not, there is no objection.

**The Honourable Shri Jawaharlal Nehru:** Afghanistan happens to be cut off from India by Pakistan at the present moment. So the question of their trying to go to Afghanistan direct does not arise so far as we are concerned. They have to go through Pakistan or by sea or some other way. Normally speaking, any Afghan subject can go where he likes. So far as we are concerned, occasionally the question may arise about a particular individual, about whom the Government of Afghanistan might ask us not to encourage him to go there or something like that.

**Shri R. K. Sidhva:** What is the reason, what is the object that the Government of India pay pensions to them?

**The Honourable Shri Jawaharlal Nehru:** The fact is that there are certain treaties, certain conventions, certain arrangements with Afghanistan Government in the past. We are continuing them, but the persons who are entitled

1664 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [19TH MARCH 1949]  
to these pensions are very small in number and we do not wish to deprive them suddenly. We are gradually adapting them to the present circumstances.

**Shri H. V. Kamath:** With regard to these Afghan friends, am I to understand that the Pakistan Government and not the Afghan Government, stands in the way of their going back to Afghanistan?

**The Honourable Shri Jawaharlal Nehru:** That is not my point. They can go where they like—Pakistan or Afghanistan, but in the case of some of them, before the partition the Afghanistan Government had expressed its opinion and asked us not to allow them to come to Afghanistan.

#### PRODUCTION OF GYPSUM

\*1211. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what effort has been made to explore new avenues for the production of gypsum?

(b) What is the total quantity of gypsum available in India and what is the total requirement thereof?

**The Honourable Shri N. V. Gadgil:** (a) Immediately after the partition of India the data available on all the gypsum deposits in the Indian Union was examined by the Geological Survey of India and a systematic survey started of those deposits on which the data was deficient. Explorations for Gypsum were started simultaneously in the Sirmur State, Cutch and Saurashtra early in 1948 and reports submitted to Government. In the light of the information contained in these reports, detailed work is being continued in Saurashtra and Sirmur State. Besides, exploratory work is also in progress on gypsum deposits in Jodhpur State.

(b) The total reserves of gypsum in India as at present estimated are about 38 million tons, but there are indications that the actual reserves may be greater still. The exact figures will be known only after the deposits have been proved according to mining practice. The consumption of gypsum in the Indian Union during the year 1948 is estimated to be in the order of 1,40,000 tons, but it will increase by about .7 million tons when the Sindri Fertilizer Factory gets into full swing.

**Shri R. K. Sidhva:** May I know what is the result of the investigation that has been made by this officer of the Geological Department?

**The Honourable Shri N. V. Gadgil:** The result is embodied in the reply to part (b), namely, the deposits are now estimated to be 38 million tons.

**Shri Deshbandhu Gupta:** Is it not a fact that gypsum is also available in some of the Simla Hill States—Vindhya Pradesh? Has that been exploited?

**The Honourable Shri N. V. Gadgil:** All those resources will be surveyed in due course, but those resources about which there was some information already available have been tapped and this is the result.

**Shri B. N. Munavalli:** Is it a fact that gypsum is found near about Khandla?

**The Honourable Shri N. V. Gadgil:** That is included in Saurashtra and Cutch.

**Shri H. R. Guru Reddy:** Are Government aware that this gypsum is found as a bye-product on the East Coast in the Mica mines in Nellore District of Madras Presidency?

**The Honourable Shri N. V. Gadgil:** I cannot answer that question not being a Geologist.

**Shri Mahavir Tyagi:** Has the Department brought to the notice of the Honourable Minister the fact that huge hills of gypsum are lying in Tehri State in Dehra Dun valley?

**The Honourable Shri N. V. Gadgil:** As I have already stated this kind of information continues to be received by the Geological Department and a year to year programme is fixed. If the honourable member has any further information, it will be welcomed.

**Shri R. K. Sidhva:** May I know what was the quantity of gypsum in Pakistan before partition?

**The Honourable Shri N. V. Gadgil:** I can only give the figures for the last available year—1945. The annual production was about 70,000 tons in the Pakistan area.

#### HOUSE RENT ALLOWANCE PAID TO GOVERNMENT SERVANTS IN DELHI

\*1212. **Seth Govind Das:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state the total amount paid as house rent allowance per month to the servants of the Government of India in Delhi?

(b) What are the plans on hand to provide Government quarters for the servants of the Government of India in Delhi, in order to avoid recurring expenditure on house rent allowances?

**The Honourable Shri N. V. Gadgil:** (a) The figures are not readily available. It is not proposed to collect the information required, as the results will not be commensurate with the labour involved.

(b) The attention of the honourable member is invited to the statement placed on the table of the House on 3rd February, 1949, in answer to part (b) of Starred Question No. 112.

**Sardar Hukam Singh:** Is it a fact that Government servants entitled to these allowances are required to produce documentary evidence before they are given those allowances?

**The Honourable Shri N. V. Gadgil:** If that is done, it is only elementary prudence.

#### RECALLING OF INDIANS SERVING ABROAD POSSESSING HIGH SCIENTIFIC AND TECHNICAL QUALIFICATIONS

\*1213. **Shri V. C. Kesava Rao:** (a) Will the Honourable the Prime Minister be pleased to state whether a census of highly qualified Scientific and Technical Personnel (Indians) serving outside India has been taken?

(b) In view of the acute shortage of these personnel in India have Government considered the question of recalling them and if not, do Government propose to consider the desirability of doing so?

**The Honourable Shri Jawaharlal Nehru:** (a) and (b). No such census has yet been prepared though the names of highly qualified Indian Scientific and Technical men and women working outside India are generally known. The question of compiling a list of Indians with scientific and technical qualifications, whether in India or abroad, is however engaging the attention of Government.

Government cannot recall any such persons serving abroad in private capacities, but whenever their services are required in India, efforts will be made to persuade them to return for work in India.

**Shri V. C. Kesava Rao:** May I know if any Indian teachers and professors are working in the U.S.A.?

**The Honourable Shri Jawaharlal Nehru:** There are some very eminent Indians working in the United States.

**Shri V. C. Kesava Rao:** Is there any proposal to recall them?

**Mr. Speaker:** I think that is already covered by the answer given by the Honourable the Prime Minister.

**Shri M. Ananthasayanam Ayyangar:** Apart from the question of recalling any scientists or those employed in private concerns outside India, is care being taken to see that no scientists are sent away for non-scientific purposes or for employment outside the Government of India?

**The Honourable Shri Jawaharlal Nehru:** I entirely agree with the honourable member's suggestion contained in his question that such persons should not be sent away. Care will be taken, but I do not know what machinery there is to exercise that care!

#### REFUGEES EMPLOYED THROUGH SPECIAL EMPLOYMENT BUREAU

**\*1214. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Labour be pleased to state the total number of highly qualified refugees who have secured employment through the Special Employment Bureau set up for the refugees as on 1st March, 1949?

(b) What is the number of personnel according to trades on the books of the Special Employment Bureau?

**The Honourable Shri Jagjivan Ram:** (a) Upto the 1st March, 1949 the Special Employment Bureau secured employment for 667 highly qualified refugees.

The Special Employment Bureau was started on the 10th March, 1948, under the administrative control of the Ministry of Relief and Rehabilitation. It was on the 10th October, 1948 that it was attached to the Headquarters of the Directorate General of Resettlement and Employment as a distinct and separate wing.

|                                                                                                                                      |     |     |     |     |     |       |
|--------------------------------------------------------------------------------------------------------------------------------------|-----|-----|-----|-----|-----|-------|
| (b) (1) Advocates                                                                                                                    | ... | ... | ... | ... | ... | 966   |
| (2) Professors and teachers                                                                                                          | ... | ... | ... | ... | ... | 423   |
| (3) Civil Engineers                                                                                                                  | ... | ... | ... | ... | ... | 83    |
| (4) Electrical and Mechanical Engineers                                                                                              | ... | ... | ... | ... | ... | 82    |
| (5) Doctors                                                                                                                          | ... | ... | ... | ... | ... | 87    |
| (6) Businessmen                                                                                                                      | ... | ... | ... | ... | ... | 266   |
| (7) Landlords                                                                                                                        | ... | ... | ... | ... | ... | 28    |
| (8) Others, such as Statisticians, Accountants, Graduates Possessing Administrative banking experience, Chemists and other graduates | ... | ... | ... | ... | ... | 842   |
| Total                                                                                                                                |     |     |     |     |     | 2,777 |

**Shri V. C. Kesava Rao:** May I know if any one of these persons was appointed by private industry?

**The Honourable Shri Jagjivan Ram:** I have not the detailed information but some of them have been employed by private industries.

**Shri R. K. Sidhva:** May I know whether any refugees from Sind in the Civil Engineer's list have been found employment by this Bureau or are they

**The Honourable Shri Jagjivan Ram:** There are few still waiting for employment. Out of 2,277 highly qualified refugees, we have been able to place 667 in employment. Some might still be unemployed.

**Pandit Lakshmi Kanta Maitra:** May I enquire of the Honourable Minister, if of these 677 refugees who have been given employment, are there any from Eastern Pakistan so employed?

**The Honourable Shri Jagjivan Ram:** I would like to have notice.

**Pandit Lakshmi Kanta Maitra:** May I enquire of the Honourable Minister if he could enlighten the House as to whether the refugees from Eastern Pakistan have been entered into the records of the Special Employment Bureau?

**The Honourable Shri Jagjivan Ram:** If I may explain the position: this Special Employment Bureau was started by the Ministry of Relief and Rehabilitation especially for the highly qualified personnel from Western Pakistan. As regards East Bengal, our Employment Exchange at Calcutta is registering the refugees from East Bengal and trying to place them as far as possible.

**Shri V. C. Kesava Rao:** Has any private industry made a demand for such personnel?

**The Honourable Shri Jagjivan Ram:** Whenever there are demands, we supply the names and they select the most suitable person from among the panel of names that we submit.

**Pandit Lakshmi Kanta Maitra:** May I enquire from the Honourable Minister if he is aware that any refugees from Eastern Pakistan has been so employed in any of the Government of India services?

**The Honourable Shri Jagjivan Ram:** I can offhand say certainly they have been employed.

#### ENQUIRY FROM TRADE COMMISSIONERS THROUGH DIRECTOR, COMMERCIAL INTELLIGENCE

**\*1215. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Commerce be pleased to state whether it is a fact that replies to all enquiries made of Trade Commissioners abroad come through the Director, Commercial Intelligence, Calcutta?

(b) If so, why has this system been adopted and is there any proposal to change this?

**The Honourable Shri K. C. Neogy:** (a) No.

(b) Does not arise.

#### INDIAN DELEGATE'S SUGGESTIONS IN U. N. POLITICAL COMMITTEE FOR PEACE IN KOREA

**\*1216. Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) whether a formula for peace in Korea was laid before the United Nations Political Committee in Paris in December 1948 by an Indian delegate; and

(b) if so, what its details and outcome were?

**The Honourable Shri Jawaharlal Nehru:** (a) No.

(b) This does not arise.

**Shri H. V. Kamath:** Is it not a fact that at Paris on the 7th December, the Indian Delegate, Mr. Setalvad placed a formula for peace in Korea on the following lines:

- (i) Independence for the whole country in the shortest possible time;
- (ii) A unified Korea, without the American and Soviet zones as now;
- (iii) The U.N. should not be a party to any arrangement which might weaken the prospects of independence of a unified Korea; and
- (iv) The General Assembly should lend its fullest assistance to efforts to have conciliation between the two zones."

**The Honourable Shri Jawaharlal Nehru:** That is hardly a formula. That is part of a speech and what the speech contains is more or less what has been said repeatedly in the course of these discussions.

If the honourable member likes, I will tell him the genesis of this trouble.

It was in December 1943 I think, in the course of the last war, at the time of the conference at Cairo, that China, the United Kingdom Government and the U.S.A. declared that Korea should be a free and independent country. Later, the U.S.S.R. joined in this declaration. After that, when war had ended, it was agreed that the United States of America should accept the surrender of Japanese troops in a certain area of Korea and the U.S.S.R. should accept the surrender in a certain other area divided by the 38th Parallel. That was the genesis of the Division of Korea.

After that various resolutions were passed trying to bring about a unified and free Korea. But somehow that division has persisted. Ultimately a Commission was appointed in, I think, 1947, by the General Assembly. This Commission you may remember, tried to give effect to the resolution of the United Nations. A member of that Commission was also the Ukraine Government. But they did not attend and the Soviet Union also adopted a rather negative attitude in regard to it. The Commission could not cross the said 38th parallel; it only functioned in what is called South Korea or the American part of Korea. This difficulty has persisted since then and in fact the barriers have become higher. Meanwhile the matter was first placed before the Little Assembly and then before the United Nations and they said that we should go ahead in the part of Korea where we could function. We could not function in North Korea but we could function in South Korea. Elections were held in South Korea last year and as a result of those elections a National Government for Korea was proclaimed. It was on the 15th of August last that the Government proclaimed itself to be the national Government of Korea. The matter came up before the last session of the General Assembly where efforts were made by the Indian Delegation—as will be seen from the speech of Mr. Setalvad to which reference has been made—hoping that it might be possible by conciliation or otherwise to unite the two Koreas into an independent country. But nothing much came of it and at the present moment there are two separate countries functioning separately and a new Commission has been appointed by the United Nations of which again India is a member.

**Shri H. V. Kamath:** Was the Political Committee of the United Nations unanimously against the proposal or formula suggested by Mr. Setalvad?

**The Honourable Shri Jawaharlal Nehru:** It is not a formula; if I may say so, it was a suggestion that there should be a unified Independent Korea. Everybody agrees to that but how is it to be done? Merely saying that there should be conciliation does not make any formula.

**Shri H. V. Kamath:** Is the United Nations Commission for Korea defunct or still functioning?

**The Honourable Shri Jawaharlal Nehru:** I have just said that a new Commission has been appointed consisting of seven members and India is one of the seven.

## PRISONERS EXCHANGED BETWEEN INDIA AND PAKISTAN

**\*1217. Shri H. V. Kamath:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) the number of prisoners exchanged between India and Pakistan during September-October 1948 in pursuance of the Inter Dominion agreement;

(b) whether one Nanak Isardas Ahuja convicted in Sind during the "Quit India" movement of 1942 was received in India from Pakistan; and

(c) if so, whether he has since been released?

**The Honourable Shri Mohan Lal Saksena:** (a) The exchange operation started on the 21st October, 1948, and lasted upto 3rd November, 1948, during which period 1,307 Hindus and Sikhs were repatriated from Pakistan to India and 891 Muslims were repatriated from India to Pakistan.

(b) and (c). Yes.

**Shri H. V. Kamath:** How many prisoners received in India from Pakistan have since been released and how many are still behind the bars?

**The Honourable Shri Mohan Lal Saksena:** I am afraid I cannot supply the exact number but if the honourable member wants it I can supply him the information.

**Shri H. V. Kamath:** Is it a fact that Dr. Qureshi, the murderer of Dr. Joshi, on his return to Pakistan was lionised in certain Pakistani circles and that he made a statement hostile to India?

**Mr. Speaker:** I do not think it arises out of this question.

**Shri H. V. Kamath:** He was one of the persons sent from India to Pakistan.

**Mr. Speaker:** That may be.

**Shri H. V. Kamath:** Is it a fact that subsequent to the exchange of prisoners certain inmates of mental hospitals were also exchanged between India and Pakistan?

**The Honourable Shri Mohan Lal Saksena:** Yes, that is so.

**Shri H. V. Kamath:** How many were exchanged from each side?

**The Honourable Shri Mohan Lal Saksena:** I have not got the information on hand but if the honourable member wants I can supply the information.

**Shri Deshbandhu Gupta:** Did any one of them belong to Nagpur?

## TOWNSHIPS FOR REFUGEES IN DELHI

**\*1218. Shri H. V. Kamath:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) how many townships are proposed to be built round about Delhi for refugees; and

(b) on what basis and terms will land and building materials be allotted to refugees?

**The Honourable Shri Mohan Lal Saksena:** (a) Two; one at Kalkaji and the other at Sheikh Sarai.

(b) Copies of the Press Notes giving details of the basis and terms on which land and building materials will be given are laid on the table of the House.

## GOVERNMENT OF INDIA

MINISTRY OF RELIEF AND REHABILITATION  
(REHABILITATION AND DEVELOPMENT BOARD)

## Press Note

1. The terms on which will be leased out to refugees in the rehabilitation schemes of the Rehabilitation and Development Board are announced for general information.

For refugees of the destitute, poor and lower middle classes—

- (i) for the first five years only ground rent will be recovered assessed on the cost of land plus cost of development at the Government rate of interest;
- (ii) for the next 15 years, besides ground rent as above, 15 equal instalments will be recovered to cover the actual cost of acquisition and development;
- (iii) in the 21st year, the lease will be renewed on ground rent calculated at the market value then prevailing, the total period of lease being 99 years;
- (iv) the lease will be non-transferable for the first period of 20 years, thereafter, the lease will be transferable with the first option to Government;
- (v) the above concessions will be applicable in the Shadipur, Nizamuddin, Jungpura and Malkaganj scheme.

2. For middle and upper middle classes, lease will be given on a tender basis.

## GOVERNMENT OF INDIA

MINISTRY OF RELIEF AND REHABILITATION  
(REHABILITATION AND DEVELOPMENT BOARD)

## Press Note

Full details of the procedure to be followed in the allotment of 357 frozen plots (42,000 sq. yds. in the Western Extension (Karol Bagh) are now available:

- (i) Plots will be allotted on 90 years lease on payment of a premium and annual ground rent calculated at 2½ per cent. of the premium. The ground rent and lease will be subject to revision at the end of 10, 20, 30 and 60 year rental periods, the enhancement on the first revision not exceeding 50 per cent. of the original rent and the enhancement on the second and subsequent revisions not exceeding 50 per cent. of the rent fixed on the renewal previous to the one to which applied.
- (ii) The allotment will be made by the Chief Commissioner, Delhi, assisted by an Advisory Committee.
- (iii) 25 plots at a time will be put up for tenders restricted to eligible refugees i.e., who are registered within the prescribed dates or who can produce documentary evidence of having arrived in Delhi by the prescribed date in one of the following forms:
  - (a) ration card or
  - (b) certificate of the Commandant of a refugee camp in Delhi or
  - (c) certificate of having obtained Government service in Delhi.
- (iv) 10 per cent. of the plots will be reserved for allotment in deserving cases by the Minister for Relief and Rehabilitation. The remaining plots will be allotted to refugees in the following proportion:
 

|                           |                  |
|---------------------------|------------------|
| Refugees from West Punjab | ... 30 per cent. |
| Refugees from N. W. F. P. | ... 30 per cent. |
| Refugees from Sind        | ... 15 per cent. |
| Refugees from Bahawalpur  | ... 15 per cent. |
| Refugees from Baluchistan | ... 10 per cent. |

## GOVERNMENT OF INDIA

MINISTRY OF RELIEF AND REHABILITATION  
(REHABILITATION WING)

The Ministry of Relief and Rehabilitation have drawn up a scheme to help with building materials to plot-owners in Delhi who have not been able to construct their own houses for want of building materials and refugees who may be allotted plots under the various housing schemes of the Ministry. Building materials will be issued to them from the stockpile which is being maintained for the purpose by the Central P. W. D.

Applications should be made to the Chief Commissioner, Delhi, who will have a Housing Controller working under him to deal with such applications. The Housing Controller will scrutinise all the applications and furnish other details to those interested.

The applicants will have to deposit, as security, a sum of money which will cover the cost of the building materials plus ten per cent. thereof as security for due observance of the conditions and contract.

Non-refugee plot-owners who are assisted in this way will have to place the constructed houses at the disposal of the Chief Commissioner, Delhi on a fair rental for allotment to refugees for a period not exceeding five years.

Surplus accommodation available with refugee allottees will similarly have to be surrendered to the Chief Commissioner, Delhi, for allotment to other refugees.

**Shri R. K. Sidhva:** Is it not intended to build a township at Faridabad near Delhi?

**The Honourable Shri Mohan Lal Saksena:** Faridabad is outside Delhi; it is in East Punjab.

**Pandit Lakshmi Kanta Maitra:** What is the estimated cost of these townships?

**Mr. Speaker:** Both together or individually?

**Pandit Lakshmi Kanta Maitra:** Both together.

**The Honourable Shri Mohan Lal Saksena:** I have not got the information. The cost of Kalkaji is near about two crores.

**Shri H. V. Kamath:** When will the building work commence?

**The Honourable Shri Mohan Lal Saksena:** The work has already commenced. The survey is going on and the plan is being prepared. I think the building will begin in the course of a month.

**Pandit Lakshmi Kanta Maitra:** Will it be done with prefabricated houses to which the Honourable Minister has referred so often in the House?

**The Honourable Shri Mohan Lal Saksena:** The honourable member is aware that a factory is going to be set up for manufacturing prefabricated houses but in these townships we are going to have regular houses along with pre-fabricated houses.

**Shri R. K. Sidhva:** What is the cost of the construction of the township in Faridabad and may I know whether the Government of India will undertake the construction or the East Punjab Government?

**The Honourable Shri Mohan Lal Saksena:** The Government of India has given a loan to the East Punjab Government.

**Shri R. K. Sidhva:** What is the cost of this township?

**The Honourable Shri Mohan Lal Saksena:** It is roughly in the neighbourhood of three or four crores.

**Shri Deshbandhu Gupta:** It was stated some time back that some plots were ready in the Shadipur town expansion scheme for refugees. May I know whether it is a fact that no plots have so far been handed over to the refugees, although allotment had been made long ago?

**The Honourable Shri Mohan Lal Saksena:** The allotments have been made and my information is that the Houses Controlling Officer is getting the leases executed and the plots will be handed over in a few days.

**Dr. Mono Mohan Das:** How many colonies for Harijans are proposed to be built in these two townships?

**The Honourable Shri Mohan Lal Saksena:** There are no separate colonies for Harijans going to be built but as I have already informed the House before these houses were to be built a proposal was made and we have constructed one such colony.

**Shri Mahavir Tyagi:** Are any industries also planned to be started in these townships?

**The Honourable Shri Mohan Lal Saksena:** Yes.

**Shri Mahavir Tyagi:** What are they?

**The Honourable Shri Mohan Lal Saksena:** They are mostly cottage industries but there may be also one or two large scale industries.

**Shri Mahavir Tyagi:** Will power and electricity be supplied to these townships?

**The Honourable Shri Mohan Lal Saksena:** Yes.

**Pandit Lakshmi Kanta Maitra:** Is the Honourable Minister aware that complaints have been coming from refugees that certain persons are having very large areas of land and they are carrying on a sort of trade by speculation on these lands in the proposed township areas?

**The Honourable Shri Mohan Lal Saksena:** It has not come to my knowledge. As a matter of fact the land on which these townships are to be built has been acquired.

#### DISCUSSION ON ASIAN ECONOMIC AND INDUSTRIAL DEVELOPMENT AT UNECAFE, CONFERENCE, LAPSTONE, AUSTRALIA

\*1219. **Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) whether the question of Asian economic and industrial development was discussed at the recent UNECAFE Conference at Lapstone, Australia; and

(b) if so, with what result?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) Yes.

(b) The Commission appointed a Committee of the Whole Commission to study the report of the Working Party on Industrial Development and take necessary action thereon. The Committee is due to meet in Bangkok at the end of March. The Committee will also consider how trade can be promoted between the ECAFE countries, how technical training can be given to the youths of these countries and how best the industrial capacity of Japan can be utilized.

**Shri H. V. Kamath:** Was there at this UNECAFE conference at Lapstone a fundamental cleavage of opinion between the U.S.A. and U.S.S.R. Delegations with regard to the industrial development and reconstruction of this Asian region?

**Dr. B. V. Keskar:** Yes, Sir.

**Shri H. V. Kamath:** What was the cleavage of opinion due to? What was the reason?

**Dr. B. V. Keskar:** I cannot give the details but I think there was a certain difference of opinion. There was a certain amount of difference of opinion between the Big Powers with regard to the various development schemes and how to implement them.

**Shri H. V. Kamath:** Is it a fact that the U.S.A. refused to lend capital for development to Asia, unless conditions were created to encourage its investment?

**Dr. B. V. Keskar:** I do not think that in any of the speeches of the U.S.A. delegate there such a thing was hinted at.

**Shri H. V. Kamath:** Is it a fact that the U.S.S.R. delegation said.....

#### STARRED QUESTIONS AND ANSWERS

**Mr. Speaker:** There must have been some reports published about it.

**Dr. B. V. Keskar:** Yes.

**Mr. Speaker:** The better course for the honourable member would be to refer to these reports, rather than put questions about the contents of the reports.

**Mr. Homi Mody:** Has the question of the Marshall Aid plan for Asian countries ever been pressed on the attention of the Government of the U.S.A. by the Government of India?

**Dr. B. V. Keskar:** Does it arise?

**Mr. Speaker:** The question has got reference to that—The Marshall Aid Plan.

**Dr. B. V. Keskar:** No, Sir.

**Mr. Homi Mody:** Do the Government of India regard our claim as untenable or is it that the Government of the United States will not listen to it?

**Dr. B. V. Keskar:** The Marshall Aid Plan is primarily meant for help to countries of the Mediterranean region and the European region. It has not—at least for the moment it has not—been extended to countries beyond these areas, and I do not think the question of Marshall Aid arises with regard to India. But it is possible that the question of similar aid might arise.

**Mr. Homi Mody:** That is precisely what I mean. In view of the recent declaration of the United States, is the question going to be placed before that Government?

**Dr. B. V. Keskar:** It might be.

**Shri H. V. Kamath:** Does Government propose to see that whatever aid it may receive from whatever quarter will be devoid of political, economic or military strings attached to it?

**Mr. Speaker:** I think the honourable member is making suggestions. I do not propose to allow these suggestions.

**Shri H. V. Kamath:** Is it a fact that the UNECAFE is not devoting any attention to reconstruction of this Asian region but is only concerning itself with research for economic development, whereas the European Economic Commission is already doing solid reconstruction work in respect of the European region?

**Dr. B. V. Keskar:** Up to this time the Conference unfortunately has only been doing research and conducting investigations. But the latest Resolution passed, which formed this Committee, has authorised the Committee to take action on these principles; and I might inform the House that it is due to the insistence and the work of the Indian members that the Committee has been invested with these powers.

**Shri H. V. Kamath:** Is there any reason to fear that the interests of American industry and capital are placed above the interests of the Asian region so far as the development of this region is concerned?

**Mr. Homi Mody:** I was asking the Honourable Minister as to why the Government of India were not pressing upon the Government of the United States, particularly in view of the latter's recent declaration of policy, the claims of Asian regions for development and special aid from the United States?

**The Honourable Shri Jawaharlal Nehru:** Government have pressed all these claims of India and Asia as independent countries. They do not go with a begging bowl to any country.

**Mr. Homi Mody:** Is it suggested that the European countries which are receiving Marshall Aid went begging to the United States Government?

**The Honourable Shri Jawaharlal Nehru:** It is not for us to discuss the policies and politics of other countries in Europe; we are concerned with our own country.

**Mr. Homi Mody:** Then the inference does not arise in my opinion.

**Shri H. V. Kamath:** May I, Sir, request you to see that the ECAFE Report is circulated to members of the House?

**Mr. Speaker:** I am going to the next question.

#### ALLOTMENT OF HOUSES TO REFUGEES IN DELHI

**\*1220. Sardar Hukam Singh** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether there is any proportion fixed according to which refugees from each of the various Pakistan provinces are to be rehabilitated and allotted residential accommodation in Delhi?

(b) If so, what is that proportion?

(c) If not, how many houses have been allotted to refugees in Delhi and on what basis were they allotted?

**The Honourable Shri Mohan Lal Saksena:** (a) Yes.

(b) A statement is laid on the table of the House.

(c) Does not arise.

#### STATEMENT

*Ratio of displaced persons to be rehabilitated in Delhi*

|                                                               | New Delhi Northern Extension Area. | Shadipur : Malkaganj : Nizamuddin | For future Allotment. |
|---------------------------------------------------------------|------------------------------------|-----------------------------------|-----------------------|
|                                                               | Houses.                            | Plots.                            |                       |
| 1. For Armed Forces, Ex-Servicemen and Ex. I.N. A. personnel. | 5% of the total                    | 5% of the total                   | 7½% of the Total      |
| 2. West Punjab.                                               | Nil                                | 35%                               | 50%                   |
| 3. N. W. F. P.                                                | 40%                                | 20%                               | 35%                   |
| 4. Sind                                                       | 20%                                | 20%                               | 10%                   |
| 5. Bahawalpur                                                 | 20%                                | 15%                               | Nil                   |
| 6. Baluchistan.                                               | 10%                                | 10%                               | 5%                    |
| 7. At Minister's discretion                                   | 10%                                | 10% of the total                  | 10% of the total.     |

**Shri R. K. Sidhva:** May I know whether any quota of houses is reserved for the Relief and Rehabilitation Ministry?

**The Honourable Shri Mohan Lal Saksena:** Yes.

**Shri R. K. Sidhva:** What is the quota?

**The Honourable Shri Mohan Lal Saksena:** Ten per cent.

**Shri R. K. Sidhva:** Why is it reserved for the Ministry specially and who distributes these houses normally?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact, this ten per cent. was reserved for covering up those cases which were not included either in the provincial categories or were not registered or in respect of persons who came later on—and there were deserving cases, cases of old and sick persons, widows and others who could not be covered in the remaining quota.

**Shri R. K. Sidhva:** But who allots the 90 per cent. quota?

**The Honourable Shri Mohan Lal Saksena:** The Advisory Committee.

**Shri Deshbandhu Gupta:** May I know whether it is not a fact that at the moment there is no Advisory Committee to advise the Custodian of Evacuee's property in Delhi?

**The Honourable Shri Mohan Lal Saksena:** It is a fact that there is no Advisory Committee to the Custodian, but this Advisory Committee functions in regard to houses and plots—the houses that have been built and the new plots that are proposed to be allotted.

**Shri R. K. Sidhva:** Has allotment been made of all the houses that have been constructed?

**The Honourable Shri Mohan Lal Saksena:** Yes.

**Sardar Hukam Singh:** May I know the number of houses that has so far been allotted to displaced persons from West Punjab?

**The Honourable Shri Mohan Lal Saksena:** I could not give the exact number of the houses that have been allotted to the displaced persons from West Punjab because out of the houses there was no percentage reserved for West Punjab. But they were mostly allotted out of the quota reserved by the Ministry.

**Shri R. K. Sidhva:** Is the quota based on provincial refugees as Punjab, Sind, Bengal; if so how many were given to displaced persons from Punjab, Sind and Bengal?

**The Honourable Shri Mohan Lal Saksena:** I could give the proportion fixed about these houses. For instance the quota was N.W.F.P. 40 per cent., Sind 20 per cent., Bahawalpur 20 per cent., Baluchistan 10 per cent. and under the Ministry's discretion 10 per cent. Out of these 10 per cent. most of the houses went to persons coming from West Punjab.

**Sardar Hukam Singh:** Is the quota proportionate to the number of the refugees who have come?

**The Honourable Shri Mohan Lal Saksena:** It has been fixed in proportion to the number of refugees that have come from different provinces minus the houses that have been allotted to the displaced persons who have come from the different provinces. For instance out of the evacuee houses in Delhi about 95 or 90 per cent. were allotted to displaced persons who came from West Punjab and therefore it was considered reasonable that no quota should be reserved for them in the newly built houses.

#### AGRICULTURAL LABOURERS MULTI-PURPOSE CO-OPERATIVE SOCIETIES

**\*1221. Shri S. Nagappa:** (a) Will the Honourable Minister of Labour be pleased to state whether there is any scheme under the contemplation of Government to organize Agricultural Labourers Multi-purpose co-operative Societies throughout the country?

(b) If so, what is it?

**The Honourable Shri Jagjivan Ram:** (a) Not at present.

(b) The question does not arise.

#### PIPELINE PURCHASED BY INDIAN TRADERS CORPORATION LYING IN BURMA

**\*1222. Shri Deshbandhu Gupta:** (a) Will the Honourable the Prime Minister be pleased to state whether any representation has been received from the Indian Traders Corporation, regarding Rupees Seven lakhs worth of pipeline purchased by them from the United States Authorities in 1946 and which is lying in the territory of the Union of Burma?

(b) Have the Government of the Union of Burma been approached to

† Answer to this question laid on the table, the questioner being absent.

allow the pipeline to be exported either to India or to the United States of America or to pay for it to the Indian Traders Corporation?

(c) If not, do Government propose to take any action in the matter?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) Yes.

(b) The Indian Ambassador was requested to render necessary assistance; the firm, however, have directly submitted an application to the Government of Burma on 31st December, 1948.

(c) Government do not consider that any useful purpose will be served by approaching the Government of Burma at present, but they will consider the matter after the decision of the Government of Burma on the firm's application is known.

#### EXPORT OF MILL CLOTH TO MIDDLE EAST COUNTRIES

**\*1223. Sardar Hukam Singh:** (a) Will the Honourable Minister of Commerce be pleased to state whether any mill cloth has been exported from India to the Middle East countries during the last 12 months and if so, how much?

(b) Why was this export allowed by Government?

**The Honourable Shri K. C. Neogy:** (a) Yes. 22.58 million yards were exported during the 12 months ending December 1948.

(b) Export of cloth to all permissible destinations including the Middle East countries is allowed in limited quantities in order to earn foreign exchange and to retain markets which have been built up by us during the war.

**Sardar Hukam Singh:** During this period were not our own internal needs pressing and the supply was inadequate to meet the demand?

**The Honourable Shri K. C. Neogy:** I should not think so. As a matter of fact I might inform the honourable member that the quantity actually exported to the Middle East countries in 1946 was 121 million yards. It went down to 63.98 million yards in 1947; and as I have just stated the quantity actually exported to these countries in the last year, namely 1948, was 22.58 million yards. The figure has been definitely decreasing year by year.

**Seth Govind Das:** May I know what we got from the Middle East countries in return for our cloth? Did we get any particular commodities which our country requires?

**The Honourable Shri K. C. Neogy:** There is no barter agreement at all. As I have indicated we earn foreign exchange, and apart from that we maintain some of the markets that we built up during the war at some sacrifice to ourselves.

**Pandit Lakshmi Kanta Maitra:** Is it a fact that the cloth that we exported to the Middle East is of such poor quality that complaints have been pouring in from those countries against the supply and that we are really losing the market instead of gaining?

**The Honourable Shri K. C. Neogy:** I am not absolutely sure about the Middle East countries generally, but it is a fact that complaints of this character have come from certain export markets.

**Shri R. K. Sidhva:** What is the quantity exported from India to East Africa?

**The Honourable Shri K. C. Neogy:** I am afraid that is not included in this question. I have not got the figure.

**Shri Mohan Lal Gautam:** Will the Honourable Minister be pleased to state the names of the countries and the quantities of cloth that were exported to them?

**The Honourable Shri K. C. Neogy:** It is a somewhat long list. If my honourable friend is interested I can send him a copy of the list that I have before me.

**Seth Govind Das:** If complaints have been received from these countries, may I know what the Government is doing to see that now only such cloth is sent there that our market may be kept?

**The Honourable Shri K. C. Neogy:** We have had discussions with the industrialists concerned in the first instance and we are now considering the question of setting up some organisation for the purpose of standardising articles for export.

**Shri M. Ananthasayanam Ayyangar:** May I know whether any quantity of handloom cloth is exported to these Middle East countries?

**The Honourable Shri K. C. Neogy:** The figures that I have given relate, only to mill-made cloth.

**Shri M. Ananthasayanam Ayyangar:** I want to know if any handloom cloth is exported to these countries.

**The Honourable Shri K. C. Neogy:** I should think so.

**Shri B. N. Munavalli:** May I know whether the import of cotton manufactures was on the increase in 1948?

**The Honourable Shri K. C. Neogy:** I have not got the figures here, but some amount of import is definitely taking place.

#### MANAGEMENT OF MAHABODHI TEMPLE AT BUDDHA GAYA BY BUDDHIST REPRESENTATIVES

**\*1224. Shri Brajeshwar Prasad:** (a) Will the Honourable the Prime Minister be pleased to state whether the attention of Government has been drawn to a resolution adopted by the preliminary session of the World Buddhist Congress urging the Government of India to vest the management of the Mahabodhi temple at Buddha Gaya in a body of Buddhist representatives?

(b) Has any action been taken on it and if not, why not?

(c) What action have the Government of India taken or propose to take on the demand made in this Buddhist Congress that Buddhist colonies should be established at Raj Griha, Sarnath and Buddha Gaya?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) Government have seen a report of this resolution in the press.

(b) and (c). No formal approach has been made to the Government of India in this matter which is primarily the concern of the Government of Bihar. Government are aware however that for many years past Buddhist organisations have asked for a change in the management of the Buddha Gaya temple. A number of interests are involved and the matter once went up to the Privy Council and was decided against the claims of the Buddhists.

Government are of opinion however, and they understand that the Government of Bihar are in agreement with this opinion, that there should be a recognition of the international character of this famous temple and that the management should be changed accordingly so as to allow all interests, including Buddhist interests, to be represented. The Government of Bihar have recently published a Bill called the Buddha Gaya Temple Bill—1948; under which the Provincial Government are authorised to constitute a committee for the management and control of this Temple, the Temple land and properties appertaining

1678 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [19TH MARCH 1949]  
thereto. This committee, it is proposed, should consist of both Buddhists and Hindus.

It is for the Provincial Government to consider whether any lands should be granted for the establishment of colonies. If any feasible proposal to this effect is made, the Provincial Government will no doubt give consideration to it.

**Shri H. V. Kamath:** Now that the Buddhist *Aharma Chakra* of Asoka *Priyadarshi* has been inscribed on our national banner, does not Government propose to give an honoured place to Buddhist *bhikshus* in the life of our nation?

#### SUBSCRIPTIONS TO INTERNATIONAL ORGANISATIONS

\*1225. **Shri Ari Bahadur Gurung:** Will the Honourable the Prime Minister be pleased to state the names of those International Organizations to which India pays annual subscriptions separately?

**Dr. B. V. Keshkar** (Deputy Minister of External Affairs): A statement giving the names of the International Organisations to which India pays annual subscriptions separately is laid on the table.

#### STATEMENT

##### *International Organizations to which India pays Annual subscriptions separately*

- (1) United Nations Organizations,
- (2) International Council of Scientific Unions,
- (3) International Astronomical Union,

**Shri R. K. Sidhva:** What is the total amount of subscription?

**Dr. B. V. Keshkar:** I am sorry I have not got the figures regarding subscriptions.

**Shri H. V. Kamath:** Is India's representation on each of these international organisations commensurate with the subscription she pays to these organisations?

**Dr. B. V. Keshkar:** Our representation differs on different organisations and the constitutions of these organisations are quite different from each other.

**Shri H. V. Kamath:** Is there any one organisation at all where it is commensurate with the subscription that we pay?

**Mr. Speaker:** It is difficult for him to say whether it is commensurate or not commensurate.

**Shri Mahavir Tyagi:** Is it a fact that the rates of subscription were fixed by the previous regime, the British Government?

**Dr. B. V. Keshkar:** If my honourable friend will look at the list of organisations, he will find that some of them have been existing for quite a long time and some have come into being recently. It cannot be said that the subscription was fixed by the previous regime—it might be so with regard to certain of them.

#### SEPARATE MINISTRY OF ECONOMICS AND PLANNING

\*1226. **Shri Ari Bahadur Gurung:** Will the Honourable the Prime Minister be pleased to state whether it is a fact that Government propose to set up a Ministry of Economic Affairs?

**The Honourable Shri Jawaharlal Nehru:** Government do not contemplate at present the establishment of a separate Ministry of Economics and Planning. The question of planning has been considered by Government on several occasions. The report of the Advisory Planning Board presided over by Shri K. C. Neogy, recommended the formation of a Planning authority. This report was generally approved by Government and it has been their intention to have some organization for overall planning. Government have felt however that before such an organization or authority is set up, certain preliminary steps should be taken to that end. They have therefore constituted an Economic Committee of the Cabinet. Also an Economic Co-ordination Section and a separate statistical unit of the Cabinet.

**Shri Kishorimohan Tripathi:** Do Government propose to set up a National Planning Commission as proposed in the Industrial Truce Resolution?

**The Honourable Shri Jawaharlal Nehru:** Yes, that is what I have said. We certainly intend to do so, but we wish to take certain preliminary steps before finally putting up the Commission or authority.

#### CONFERENCE OF FOREIGN MINISTERS OF COMMONWEALTH COUNTRIES

\*1227. **Shri Biswanath Das:** Will the Honourable the Prime Minister be pleased to state:

(a) whether there is going to be a conference of Foreign Ministers of the different Commonwealth Countries in Ceylon;

(b) whether India is attending the conference;

(c) the purpose of the conference; and

(d) the subjects proposed to be discussed?

**The Honourable Shri Jawaharlal Nehru:** (a) No.

(b) to (d). Do not arise.

**Shri H. V. Kamath:** Is there going to be such a Conference in London in the near future?

**The Honourable Shri Jawaharlal Nehru:** There is some talk about it.

#### REPARATIONS FROM JAPAN

\*1228. **Shri Biswanath Das:** Will the Honourable Minister of Commerce be pleased to state:

(a) whether the attention of Government has been drawn to the statement of Mr. Kenneth Royall and of Mr. Dean Acheson at a press conference at Washington published in Delhi papers of the 18th February, 1949 that "the United States of America has indicated that it seeks no reparations from Japan, but other members of the commission have been unable to arrive at the proportion of the reparations each should receive";

(b) whether India is demanding any reparations from Japan and if so, how much and why; and

(c) whether India has any representative in the Far Eastern Committee that deals with Japanese reparations?

**The Honourable Shri K. C. Neogy:** (a) Yes, I did see the press reports referred to. On enquiry, however, I understand that no such statement was in fact made at the Press Conference, and that it was an addition made by the Correspondent of a News Agency without authority.

(b) Yes. A share of 12½ per cent. of the Japanese internal industrial facilities has been claimed on behalf of India. One of the terms in the Potsdam Declaration for Japanese surrender is that Japan shall be permitted to maintain such industries as will sustain her economy and permit exaction of just reparations in kind. It is in pursuance of this Joint decision of the Allies that India along with other claimant countries has demanded her share of reparations from that country.

(c) India is represented in the Far Eastern Commission by her Ambassador in the United States of America.

**Shri Biswanath Das:** May I know the basis of the justification for such a demand by India for reparations from Japan when India herself refused to join the war?

**The Honourable Shri K. C. Neogy:** India refused to join the war?

**Shri Biswanath Das:** Yes, she did.

**The Honourable Shri K. C. Neogy:** I am not aware of any such refusal.

**Shri Biswanath Das rose—**

**Mr. Speaker:** Order, order. It is getting into an argument.

**Shri H. V. Kamath:** In view of the fact that the Congress, which has now formed the Government, was not a party to the war against Japan, does not India propose to forego her share of Japanese reparations as a friendly gesture to the Japanese nation?

**Mr. Speaker:** Order, order.

**Shri Biswanath Das:** Sir, mine is a definite question and it needs a definite reply.

**Mr. Speaker:** But it does not ask for information. It is a definite question which needs a definite reply, but it is more or less a sort of an argument which the honourable member is advancing and going into the previous politics in the

previous set-up. I do not propose to have any arguments over the question. If he has any further question to ask for information, he may do so.

**Shri Deshbandhu Gupta:** Is it not a fact that if India decides to forego its part of the reparations the advantage will go to some other country and not to Japan?

**Mr. Speaker:** Order, order. It is not asking for information, it is going into an argument.

#### GEOLOGICAL SURVEY OF ORISSA

\*1229. **Shri Biswanath Das:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) whether it is a fact that a geological survey of Orissa was sanctioned by the Government of India and begun in 1939;

(b) whether it is a fact that the programme of survey could not be completed due to war;

(c) whether the mineral wealth of Orissa and the Orissa states have been properly surveyed; and

(d) whether Government have considered the need of undertaking an early survey of both the States and Province of Orissa?

**The Honourable Shri N. V. Gadgil:** (a) The attention of the honourable member is invited to the reply given in this House on the 30th March 1948, to his starred Question No. 1030.

(b) During the war, the survey work in Orissa and States was mainly directed to the search for minerals of economic importance to help the war effort. Since the cessation of the war, a large number of investigations was undertaken in Orissa and the Orissa States during the field season 1946-47, a list of which was laid on the table of the house on the 30th March 1948 while replying to the starred question referred to above. A list marked 'A' showing the work done in 1947-48 is now laid on the table. In addition two further lists, one marked 'B' showing the investigations included in the current field programme, and the other marked 'C' showing the items to be taken up during the current field season as requested by the Government of Orissa, are also placed on the table.

(c) and (d). A considerable amount yet remains to be done in Orissa including the States as in other parts of India. Everything possible is however being done within the limitation imposed by availability of staff and finance.

#### LIST 'A'

*Showing the work carried out by the Geological Survey of India in Orissa and the Orissa States in 1947-48 referred to in Starred Question No. 1229.*

1. Continuation of the systematic mapping of the Koraput district.
2. Continuation of the mapping of the Sambalpur district.
3. Investigation of the Limestone deposits in the Ganjam district.
4. Investigation of Mica-bearing pegmatites in the Ganjam district.
5. Investigation of manganese-ore deposits in Patna State, Eastern States Agency.
6. Examination of clay and glass-sand deposits in Talchar State, Eastern States Agency.
7. Detailed investigation of the manganese-ore deposits in Nairakhhol State, Eastern States Agency.

## STARRED QUESTIONS AND ANSWERS

## LIST 'B'

*Showing the investigation included in the current field programme of the Geological Survey of India.*

8. Examination of limestone deposits in—
  - (i) Korchabadi muttah,
  - (ii) Dhanupatna, Orchagodo and Sinkulipodar in Chandragiri muttah,
  - (iii) Nuagodo muttah,
  - (iv) Tolarsingi village, and
  - (v) Dadadev hill.
9. Examination of red ochre in the Hachiponga hill in the Chundragiri muttah, and Murumu in the Udayagiri muttah.
10. Examination of chalk deposits at Rubudisingi in Udyagiri muttah.
11. Examination of iron-ore at Lohagudi and Karadango.
12. Examination of China clay in Odaba muttah on the Bank of the Haribhanga river near Udaaba village, and at Bharamarpur three miles to the north-east of Khijuripada.
13. Examination of mica deposits—
  - (i) near Mohana on the Nangamatia hill,
  - (ii) near Gamangada on the river Haribhanga,
  - (iii) at Tolarsingi in Korchabadi muttah,
  - (iv) in Odaba muttah,
  - (v) on the Gangodo hill in Ramagiri muttah, and
  - (vi) near Beera Lakhshminarayanpur sasan, near Duargun estate.
14. Investigation of the sub-soil water supply of Mahalla Mirpatna, Kendrapara town,
15. Survey of mineral resources in the Korapur district.
16. Investigation of the underground water supply of the Balasore district in the following areas:—
  - (i) The area in the Sadar Sub-division of the Balasore district lying to the west of the railway line between Balasore and Khantpara railway station.
  - (ii) The area in Bhadrak Sub-division of the Balasore district towards the east of Bhadrak Chandbali road. The triangular area between Bhadrak Chandbali and Bhadrak-Basudevour consisting of 3 to 10 miles.
  - (iii) The area between the Kathjuri and Khuakai rivers lying towards the east of the Cuttack-Puri Road—Phulnakhara area.
  - (iv) The area in Ganjam district lying between the sea and the railway line within the two railway stations, Huma and Chatrapur.
17. The stability of the present yield of the Kiajhole spring at Rayagada to be used as the source for Rayagada Town water supply in view of the unstable nature of the surrounding ground.
18. Investigation of the feasibility of tube-wells and other sources of drinking water for town supply in:
  - (i) Jeypore and Nowrangpur, in the Korapur district,
  - (ii) Parlakimedi in the Ganjam district, and
  - (iii) the coastal belt in the Balasore and Cuttack districts.
19. Location of suitable road metal for:—
  - (a) the Sohella Hawapara road, Sambalpur district.
  - (b) the Angul-Cuttack road from Moramundali road station to Nuapatna on the Mahanadi river, Cuttack district.
  - (c) the Sambalpur-Jharsuguda road for the first ten miles up to Sason, Sambalpur district.
  - (d) the road from Khariar road station to Khariar, Sambalpur district.
20. Inspection of a bridge site at Rampur Nullah, Bairakhol State.
21. Investigation of the Mahanadi valley project.
22. Electrical prospecting for graphite deposits in Athmallik State, Eastern States Agency.

## LIST 'C'

*Showing the items to be taken up during the current field season as requested by the Government of Orissa*

1. Investigation of the possibility of probable water supply at Dhaura for the proposed new port there.
2. Investigation of trap metal quarried along—
  - (a) Berkeria-Minharpur Road, 15½ miles long.
  - (b) Chendipada-Bagdia Road (in continuation of Angul Chendipada Road)—4½ miles long.
3. Investigation of the possibility of sub-terranean water supply in Kendrapara, Cuttack district.
4. Investigation of the occurrence of Vermiculite in Orissa.
5. Ganjam district:
  - (a) Investigation of the supply of unfailing sources of drinking water to the areas under the Parlakimedi Municipality.
  - (b) Possibility of sub-terranean water supply in Parlakimedi.

**6. Balasore district:**

Investigation of the possibility of getting good drinking water instead of saline in coastal areas along the Bay of Bengal from Bhogera down to Chandbali and Dhamagar on the river Baitarani, and the possibility of sinking deep perennial wells in the western hill tracts of the district bordering the State areas.

**7. Puri district:**

Investigation of possibility of good drinking water in the following places:—

- (i) near Sakshigopal Temple—Sakshigopal.
- (ii) In the village Banbarada in Satyabadi Police Station.
- (iii) In the village near Maltipatpur in Sadar Police Station.
- (iv) In the village Chandanpur near Cuttack-Puri Road in Sadar Police Station.

**8. Outtack district:**

- (a) Investigation of the possibility of getting good drinking water in coastal areas of the district especially in areas such as Apila in Bremna Police Station, Kumarpur, Sidhan and Ekonalia in Aul Police Station and their adjoining villages.
- (b) Examination of the minerals of the Jalanka Hills in Barchana Police Station.

**ENGINEERS' CONFERENCE RESOLUTION FOR REMOVAL OF RESTRICTIONS  
ON IMPORT OF ESSENTIAL GOODS**

\*1230. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that the Engineers' Conference held in New Delhi from 21st to 25th February, 1949 resolved to request Government to remove or relax the restrictions on import of essential goods like machinery for electric power projects?

(b) Do Government agree with the principle of the resolution and if so, what steps do they intend to take in the matter?

**The Honourable Shri N. V. Gadgil:** (a) Yes.

(b) The recommendation is now under consideration of Government.

**DISPOSAL OF EVACUEES PROPERTY AFTER INTER-DOMINION CONFERENCE  
HELD AT KARACHI**

\*1231. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether, after the Inter-Dominion Conference held in Karachi and the decision arrived thereat regarding the evacuees property, any building has been sold in either Dominion and if so, how many?

(b) Is it a fact that recently the Government of Pakistan have issued a notification that only 20 per cent. of the recorded rent will be recovered from refugee tenants and that a rebate of a further 10 per cent. will be given for prompt payment?

(c) If so, who will pay the balance of 80 per cent. to the owners of properties?

(d) Have Government taken this matter up with the Government of Pakistan?

**The Honourable Shri Mohan Lal Saksena:** (a) No sales or exchanges have been registered upto now in either Dominion.

(b) Yes.

(c) and (d). The Government of India have taken up the matter with the Government of Pakistan and their reply is awaited.

**Shri R. K. Sidhva:** May I know, whether after the Karachi Conference, the Pakistan Government issued a Press-note that no person other than a Pakistani will be allowed to stay for more than 15 days unless he produces an income-tax

certificate; and if so, whether that was not in contravention of the agreement arrived at in Karachi, and what steps Government have taken in the matter?

**The Honourable Shri Mohan Lal Saksena:** I will give the reply in answer to the next question.

**Mr. Speaker:** I may point out that the next question will not be permitted to be asked.

**The Honourable Shri Mohan Lal Saksena:** A number of communications have been exchanged with the Pakistan Government and every effort is being made to expedite a decision.

At the meeting of the Inter-Dominion Commission held on the 11th and 12th March, 1949, the Pakistan delegates agreed to consider relaxing their Income-tax law and extending the present period of exemption from obtaining the Income-tax Clearance Certificate from 15 days as at present to 30 days except in the case of the federal capital, Karachi, for which the period of 15 days will continue as before.

**Shri R. K. Sidhva:** Are the Government satisfied with the extension, and that there has been no contravention of the agreement?

**Mr. Speaker:** It is a matter of opinion.

**Shri R. K. Sidhva:** May I know what steps Government intend to take to secure proper rents? Only 20 per cent. will be recovered, and there is another rebate of 10 per cent. What is to become of the rest 30 per cent. of the rent?

**The Honourable Shri Mohan Lal Saksena:** I have already stated that correspondence is going on. The Pakistan Government are making recovery of at least 20 per cent., otherwise there is no chance of recovering any rent, the people being so poor.

**Shri R. K. Sidhva:** But what was the agreement arrived at?

**The Honourable Shri Mohan Lal Saksena:** There was no agreement in respect of that. The only provision was that a Liaison Officer will be appointed in either Dominion who will keep in touch and see that proper rents are realised. Until the Liaison Officer is appointed we cannot say whether the decisions made are justified or simply meant to deprive the displaced persons of their due share.

**Shri R. K. Sidhva:** What steps have Government taken to see that under the terms of the Agreement proper rents are recovered? Has Government taken any steps in that direction?

**The Honourable Shri Mohan Lal Saksena:** I have already said that as soon as the Liaison Officer goes there, he will get in touch and see whether proper rents are being realised or not.

**Shri Mahavir Tyagi:** Is it a fact that for the houses in India full rents are being charged from the refugees who have occupied the houses of the evacuees?

**The Honourable Shri Mohan Lal Saksena:** Rents are being charged, but I will not be prepared to say that they are fully realised.

**Shri Mahavir Tyagi:** In view of the fact that full rent is not being charged by Pakistan, does the Government intend not to pay the rents realised from here, unless full rent is realised from Pakistan side?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact no rent realised here or there has been yet paid. After the Liaison Officer is appointed, and he is satisfied that proper rent is being recovered in Pakistan, then the settlement will be effected.

**Shri Deshbandhu Gupta:** Is it a fact that it is a clever device on the part of Pakistan Government to reduce the value of the property of the refugees from Pakistan?

**Mr. Speaker:** Order, order.

**Shri R. K. Sidhva:** When is the Liaison Officer to be appointed?

**The Honourable Shri Mohan Lal Saksena:** He has been appointed and he will be going to Lahore tomorrow.

#### PRODUCTION OF INCOME-TAX CLEARANCE CERTIFICATES BY PERSONS LEAVING PAKISTAN

\*1232. **Shri R. K. Sidhva:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether Government have received reply to their letters and reminders regarding the Press Note issued by the Government of Pakistan after the Karachi Conference that no person other than a Pakistani will be allowed to leave Pakistan without a certificate of Income-tax and if not, what steps have Government taken in the matter?

**The Honourable Shri Mohan Lal Saksena:** A number of communications have been exchanged with the Pakistan Government and every effort is being made to expedite a decision.

At the meeting of the Inter-Dominion Commission held on the 11th and 12th March, 1949, the Pakistan delegates agreed to consider relaxing their Income-tax law and extending the present period of exemption from obtaining the Income Tax Clearance Certificate from 15 days as at present to 30 days except in the case of the federal capital, Karachi, for which the period of 15 days will continue as before.

#### REFUGEES LIVING IN CAMPS IN BOMBAY

\*1233. **Shri A. V. Thakkar:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state how many displaced persons from Pakistan reside in each of the various camps in the suburbs of the city of Bombay including Kalyan?

(b) How many of them are supplied with free rations and how many purchase their own?

(c) On what dates were these camps established?

(d) What is the arrangement for rehabilitating them in various vocations?

(e) What is the daily expenditure incurred by Government on each of these camps?

(f) What is the total estimated budget of expenditure on this account for the year 1949-50?

**The Honourable Shri Mohan Lal Saksena:** (a) A statement is laid on the table of the House.

(b) and (c). The information is being collected and will be laid on the table of the House in due course.

(d) Rehabilitation of displaced persons in vocations is being arranged by:

(i) Granting them loans for starting business or vocations;

(ii) Building new Townships;

(iii) Providing Vocational Training at Government expense.

† Answer to this question laid on the table, the questioner having exhausted his quota.

(iv) Construction of Stalls for them, allotting them plots for industrial purposes etc.

(e) The information is not readily available; but it is approximately Re. 1/- per head.

(f) A provision of Rs. 6 crores and 50 lakhs has been made in the Central Budget for 1949-50 for all the Provinces for relief only. Separate allotment for Bombay Province has not yet been allocated.

#### STATEMENT

*Population of the Camps in the Suburbs of the City of Bombay including Kalyan:*

| <i>Name of the Camp</i> | <i>Population</i> |
|-------------------------|-------------------|
| Chambur                 | ... 10,244        |
| Kurla                   | ... 1,241         |
| Pawal                   | ... 1,503         |
| Virar                   | ... ..            |
| Mulund                  | ... 1,770         |
| H. M. 1. S. Akbar       | ... 10,226        |
| Kalyan                  | ... 96,811        |
| Madh Island             | ... 8,124         |

**Shri A. V. Thakkar:** May I enquire if Government has any intention of stopping the free ration that is being given to these large numbers?

**The Honourable Shri Mohan Lal Saksena:** There is every intention on the part of Government to liquidate this free feeding. In fact, in Bombay we have prepared a scheme in which we expect that this free feeding will be stopped within six months.

#### NON-MUSLIM REFUGEES IN KASHMIR

\*1234. **Giani Gurmukh Singh Musafir:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) the number of Hindu and Sikh refugees in Jammu and Kashmir State;

(b) the number and situation of camps in which such refugees have been provided with shelter;

(c) the number and names of such camps under the charge of the Government of India; and

(d) the steps taken or proposed to be taken by Government for rehabilitation of the refugees belonging to Jammu and Kashmir State areas which have been retaken by the Indian Army?

**The Honourable Shri Mohan Lal Saksena:** (a) About 1,95,200.

(b) There are seven main camps consisting of 44 sub-camps in the Kashmir Valley. In Jammu there are six camps, two in Jammu city one at Nagrota, one at Akhnur and one at Poonch.

(c) 2—Nagrota and Chatha.

(d) The Jammu and Kashmir Government are assisting displaced persons by giving them free transport from the camps to their homes granting loans for repair and reconstruction of houses, purchase of bullocks, agricultural implements or for starting trade, granting free rations to destitute displaced persons settled on land till the crop matures, and free clothes and bedding to deserving

† Answer to this question laid on the table, the questioner being absent.

displaced persons. In Jammu so far, 2,100 families have been given assistance in the form of loans for the reconstruction of their houses. The total amount advanced is Rs. 2.75 lakhs, and besides this 1.00 lakh c.ft. of timber has been supplied free. In all about 1,500 houses have been constructed so far.

#### TRANSFER OF PENSIONS FROM PAKISTAN

†\*1235. **Giani Gurmukh Singh Musafir:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) the number of pensioners who have come to India from Pakistan during the disturbances of 1947;

(b) the number of such persons who have got their pensions transferred from Pakistan to India;

(c) what facilities the Government of India provided for such persons in getting their pensions transferred; and

(d) what steps Government propose to take to expedite the transfer of such pensions as have not been transferred so far?

**The Honourable Shri Mohan Lal Saksena:** (a) and (b). The information is being collected and will be laid on the table of the House in due course.

(c) It was agreed at the Inter-Dominion Secretariat Level Conference held in December, 1947, that all Provincial Governments should take definite measures to facilitate the transfer of pension papers with the least possible delay.

It was further agreed that all complaints by pensioners in either Dominion should be made to the Auditor General of the Dominion in which the pensioner now resides.

Pending transfer of pension papers pensioners are being paid provisionally by the Accountant General concerned, after the latter has satisfied himself in regard to the identity of the pensioner and the amount of pension due to him and after he has obtained an indemnity bond with two sureties from the pensioner.

(d) The Government of India do not consider it necessary at this stage to take any further steps.

#### UNSTARRED QUESTIONS AND ANSWERS

##### LAND RESTORED TO MUSLIMS IN DELHI AND EAST PUNJAB

97. **Sardar Hukam Singh:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state what is the total area of land in East Punjab and Delhi Provinces restored to Muslims who quitted their lands at first and subsequently came back?

(b) How much of this area had been allotted to refugees before such restoration?

**The Honourable Shri Mohan Lal Saksena:** (a) 46,092 acres of land in the East Punjab and 794 acres of land in Delhi Province.

(b) 4,517 acres in the East Punjab and 129 acres in Delhi Province.

† Answer to this question laid on the table, the questioner being absent.

##### LAND LEFT BY NON-MUSLIMS IN WEST PUNJAB AND BY MUSLIMS IN EAST PUNJAB

98. **Sardar Hukam Singh:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state the area of land left in West Punjab by the non-Muslims who have migrated to India after partition of the country?

(b) What is the area of land left in the East Punjab by Muslims who have migrated to Pakistan after the partition?

**The Honourable Shri Mohan Lal Saksena:** (a) 77.2 lakh acres.

(b) 42.86 lakh acres.

##### HIGHLY QUALIFIED REFUGEES REGISTERED WITH SPECIAL EMPLOYMENT BUREAU

99. **Giani Gurmukh Singh Musafir:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) the number of highly qualified displaced persons registered with the Special Employment Bureau;

(b) the number of such persons provided with jobs;

(c) the number of displaced lawyers registered with the Special Employment Bureau; and

(d) the number of such lawyers provided with jobs?

**The Honourable Shri Mohan Lal Saksena:** (a) 2,777.

(b) 667.

(c) 966.

(d) 230.

##### ALLOTMENT OF RESIDENTIAL AND BUSINESS PREMISES TO REFUGEES IN DELHI

100. **Giani Gurmukh Singh Musafir:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) the number of displaced persons who have been allotted residential premises in Delhi by the Custodian of Evacuees Property;

(b) the number of displaced persons who have been allotted business premises in Delhi by the Custodian of Evacuees Property;

(c) the number of displaced persons who have been provided with newly constructed houses in Delhi;

(d) the number of displaced persons provided with sites for building houses;

(e) the number of displaced persons who are licensees of the Custodian of Evacuees Property, Delhi and whose allotment has not so far been confirmed;

(f) the number of displaced persons who have been allotted residential and business accommodation by the Custodian of Evacuees Property but have not so far been put in possession of the premises; and

(g) the number of displaced persons yet living in camps?

**The Honourable Shri Mohan Lal Saksena:** (a) 23,798 residential premises have so far been allotted to 30,441 families of displaced persons.

(b) Nearly 4,000.

(c) 2,067 families.

(d) 1,000 plots to 1,000 families have been allotted so far and allotment of another 4,500 is in hand.

(e) 8,387. The number of those licensees who have been confirmed as allottees is not available at present.

(f) About 1,700. Most of the ineffective allotments have been cancelled.

(g) 42,313 in Delhi Camps.

### SHORT NOTICE QUESTIONS AND ANSWERS

#### LOAN TO PAKISTAN BY HYDERABAD GOVERNMENT

**Shri Arun Chandra Guha:** Will the Honourable Minister of Finance be pleased to state:

(a) whether the attention of Government has been drawn to a press report in which the Minister of Finance of Pakistan is reported to have said in the Pakistan Parliament that the action taken by the Government of India, in the matter of the so-called loan of Rs. 20 crores by the Hyderabad Government to Pakistan, constituted a unilateral repudiation of solemn financial agreements and contractual liabilities; and

(b) if so, what action Government propose to take in the matter?

**The Honourable Dr. John Matthai:** (a) Yes, Sir.

(b) Government do not propose to take any action. There has been no repudiation of any financial agreements or contract by the Government of India. The Government of Hyderabad are the lawful holders of the securities in question and the Government of India's obligations to them will be fully met. What the Government of India have declined to do is to recognise the transfer of the securities to the Pakistan Government which the Hyderabad Government were not competent to make.

#### ALLEGATIONS AGAINST INDIA BY PREMIER OF N.W.F.P.

**Shri Deshbandhu Gupta:** (a) Will the Honourable the Prime Minister be pleased to state whether the attention of Government has been drawn to the Communique issued by the N.W.F.P. Government, which is published on page 1 of the Hindustan Times, dated the 15th March, 1949, and the statement made in the Assembly by the Premier of that Province in the course of which, while giving reasons for the arrest of Red Shirts of Hazara District, serious allegations have been made against India?

(b) If so, what action Government propose to take in the matter?

**The Honourable Shri Jawaharlal Nehru:** (a) and (b). Yes, the attention of the Government has been drawn to the communique issued by the North West Frontier Province Government in which various allegations have been made about a plot in which Red Shirts in the Hazara District are said to be involved. Government have seen this communique with surprise and great regret. While the communique does not mention the Government of India specifically, the entire wording of the communique insinuates that the Indian Union is a party to some plot against the North West Frontier Province Government and the Pakistan Government and it is stated that money has passed from India to the Red Shirts. So far as they are concerned, the Government of India repudiate these allegations and they have made a strong protest to the Pakistan Government in regard to the insinuations contained in the communique of the North West Frontier Province Government, which must have an injurious effect on the relations between the two Dominions.

2. Government have refrained from expressing any opinion so far in regard to the very serious happenings in the Frontier Province as well as the Tribal areas in the North West because of their desire not to interfere, in any way,

with the internal affairs of other Governments. They have, however, viewed these developments during the past year with increasing concern. It is well-known that the *Khudai Khidmatgars*, or the Red Shirts as they are sometimes called, under the leadership of Khan Abdul Ghaffar Khan and Dr. Khan Sahib, played a very notable part in the struggle for the freedom of India from foreign domination. The high integrity, selflessness and patriotism of these leaders have been admired not only all over India but in other parts of the world. They showed a remarkable example of peaceful action, even under the greatest provocation, and set a standard which it was not easy to follow even in other parts of India. Khan Abdul Ghaffar Khan took the doctrine of non-violent action to the brave and warlike Pathans and turned their great energy into peaceful channels. Perturbed by the partition of India, he nevertheless accepted it in all sincerity and publicly declared his adherence to the new order of things, claiming, however, that the Pathans were entitled to autonomy in regard to their internal affairs. He followed this policy of accepting Pakistan, but at the same time standing peacefully for the internal freedom of the Pathans, and it is impossible for any person acquainted with this gallant fighter for freedom to believe that he can be associated in any way with any under-hand activities. His outstanding qualities are straightforwardness, integrity, courage and a devotion to the cause of his people.

3. While the Government and the people of India, having accepted partition and its consequences, loyally abided by these changes and did not wish to interfere with local happenings within Pakistan, it was impossible for them not to take the deepest interest in the fate of some of the bravest and finest soldiers of freedom that India had produced. They were distressed, therefore, at the series of happenings in the Frontier Province during which intense repression took place of the peaceful *Khudai Khidmatgars*, and their leaders were more especially subjected to treatment of a kind which one would not expect any Government to meet out. Khan Abdul Ghaffar Khan, a man of the highest standing for a generation past in India, has been kept in solitary confinement for over a year and his health has suffered greatly during this period. I do not wish to recount all that has happened in the Frontier Province during this past year and more, but the tale that has reached us from time to time is a sorry one. We have remained quiet and we have not had any kind of contact with the *Khudai Khidmatgars* or their leaders ever since the Partition, but the sufferings of our old comrades of the days of our fight for India's freedom have distressed us exceedingly.

4. In the communique issued by the North West Frontier Province Government Sheikh Abdullah and Kashmir have been mentioned. It will be remembered that the Frontier Province Government, and more particularly its Premier, played a very active part in organising and helping the raiders to enter Kashmir in October 1947 and onwards. In particular it is well-known that his activities in regard to Kashmir have been most objectionable.

5. In conclusion, I would like to repeat that we regard the communique issued by the North West Frontier Province Government as unwarranted by fact and unfortunate in its effect on Indo-Pakistan relations which we have been trying to improve.

**Shri Deshbandhu Gupta:** May I know, Sir, if any reply been received from the Pakistan Government so far?

**The Honourable Shri Jawaharlal Nehru:** No reply has come to us yet.

**Shri Deshbandhu Gupta:** Do Government propose to take this matter up in the next Inter-Dominion Conference?

**The Honourable Shri Jawaharlal Nehru:** We shall consider that matter.

**Shri R. K. Sidhva:** On what date the protest was sent, Sir?

**The Honourable Shri Jawaharlal Nehru:** About three days ago.

**Shri E. V. Kamath:** Has our old friend and colleague Khan Abdul Ghaffar Khan stated that he would welcome the end of partition and in union of Pakistan and India?

**The Honourable Shri Jawaharlal Nehru:** I do not know what the honourable member is referring to, but I can remember no such statement.

#### HUNGER STRIKE BY REFUGEES IN KINGSWAY RELIEF CAMP

**Shri Deshbandhu Gupta:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) whether it is a fact that some refugees belonging to Kingsway Relief Camp have been on hunger strike as a protest against Government's decision to stop their subsistence allowance and that the condition of one of them is serious;

(b) whether any representation was received by Government detailing their demands; and

(c) if so, what action has been taken thereon?

**The Honourable Shri Mohan Lal Saksena:** (a) Yes.

(b) The hunger strikers gave no previous notice of their demands or of their intention to go on hunger strike to the Government.

(c) The strike is now over.

**Shri Deshbandhu Gupta:** May I know, Sir, whether it is a fact that these hunger strikers or inmates of these camps are asked to go to C.P. and they demanded of the Government that there should be a definite plan as to where they are going to be rehabilitated, the Government was not in a position to satisfy that demand, and that was the reason for the strike?

**The Honourable Shri Mohan Lal Saksena:** I may say emphatically that it is not so and that nobody is being sent to C.P.

**Shri Deshbandhu Gupta:** To which other place it was proposed to send them?

**The Honourable Shri Mohan Lal Saksena:** There is no question of their being sent anywhere. As a matter of fact, we gave them two months' notice and that after that period only those Government servants who were going to work will be given rations. That is all and the honourable member must have seen the demands that appeared in the newspapers; he must have seen that one of the demands is that they should be provided with employment, or failing that, they must be given 75 per cent. as pay. That is one of the demands. There is no question of their being sent to any other place. So, they are going to be settled here, if they are employed, and if they do not want to go, we cannot ask them to go forcibly, and if they want help from us, they will be sent to other places.

**Shri Deshbandhu Gupta:** Is it not proposed to disband this Camp?

**The Honourable Shri Mohan Lal Saksena:** It is not proposed to disband this Camp. It is proposed to convert it into a residential camp.

**Shri Jaspat Roy Kapoor:** Is it a fact, Sir, that the hunger strikers were instigated by some Government servants?

**The Honourable Shri Mohan Lal Saksena:** Yes; as a matter of fact, the honourable member must have learnt from the newspapers that from the

interview given by the Chief Commissioner, it appeared that some of the camp's employees were involved in instigating the strike.

**Shri Jaspat Roy Kapoor:** May I know, if any action has been taken against those Government servants?

**The Honourable Shri Mohan Lal Saksena:** I hope the Chief Commissioner will make the necessary enquiries and take necessary action.

**Shri Kishorimohan Tripathi:** May I ask whether the employees were the refugees themselves?

**The Honourable Shri Mohan Lal Saksena:** They are refugees.

# CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES

## (PART I—QUESTIONS AND ANSWERS)

Monday, 21st March, 1949

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS

#### (a) ORAL ANSWERS

#### STAFF OF MINISTRY OF FINANCE (DEFENCE) AND MILITARY ACCOUNTS DEPARTMENT

\*1236. Shri R. K. Sidhva: (a) Will the Honourable Minister of Finance be pleased to state the number of staff employed in the Ministry of Finance (Defence) and the Military Accounts Department before the war and in the years 1946 and 1948?

(b) How many of these are Gazetted officers, how many non-gazetted and how many are class IV servants?

(c) Have Government taken steps to economise the establishment and if not, why not?

(d) Has the work after the war increased or decreased?

The Honourable Dr. John Matthai: (a) and (b). A statement is placed on the table giving the required information.

(c) Yes. Steps have been taken to reduce the establishment with the decrease in the work. The figures in the statement show that there has been marked reduction since the cessation of the war. Further reduction will be made as and when the volume of work further decreases.

(d) Since the cessation of the war the work has decreased as is reflected in the reduction in establishment.

#### STATEMENT.

|                                 | 1939                 | 1946                                   | 1948                 |       |
|---------------------------------|----------------------|----------------------------------------|----------------------|-------|
| (a)                             |                      |                                        |                      |       |

|                                 | Gazetted<br>services | Supdt. and<br>Non-gazetted<br>services | Class IV<br>servants | Total |
| 1939                            | 17                   | 107                                    | 55                   | 179   |
| 1946                            | 55                   | 428                                    | 173                  | 656   |
| 1948                            | 47                   | 336                                    | 137                  | 520   |

## Military Accounts Department.—

|                | Gazetted<br>service | Non-gazetted<br>service | Class IV<br>servants | Total  |
|----------------|---------------------|-------------------------|----------------------|--------|
| 1939 . . . . . | 141                 | 3,460                   | 496                  | 4,097  |
| 1946 . . . . . | 1,065               | 31,059                  | 3,481                | 35,605 |
| 1948 . . . . . | 472                 | 9,976                   | 1,497                | 11,945 |

**Shri R. K. Sidhva:** May I know, Sir, the total number of reduction of the staff?

**The Honourable Dr. John Matthai:** Since 1946, there has been a reduction to the extent of about two third of the total, that is to say, from about 36,000, it has come down to 12,000 or 11,000.

**Shri R. K. Sidhva:** May I know whether there has been any reduction after the partition?

**The Honourable Dr. John Matthai:** No; the figures that I have show the position now as compared with the cessation of hostilities in 1946.

**Shri R. K. Sidhva:** That means that there has been no reduction. May I know, Sir, after the partition?

**The Honourable Dr. John Matthai:** There has been very considerable reduction after making the fullest allowances for the partition.

**Shri R. K. Sidhva:** May I know whether the Economy Committee has suggested further economy and retrenchment?

**The Honourable Dr. John Matthai:** The honourable member must wait for that.

**Shri Mahavir Tyagi:** Has the strength of the officers come to the pre-war level, Sir?

**The Honourable Dr. John Matthai:** No. It has not come to the pre-war level for the obvious reason that the strength of the Accounts Staff is dependent on the strength of the Armed Forces. The honourable member will know the strength of our armed forces today including the non-combatants is about twice that it was in 1939 and that must necessarily make for the increase in the staff.

## RECOVERY OF AMOUNTS TRANSFERRED TO PAKISTAN BY HYDERABAD AND JUNAGADH

\*1237. **Shri R. K. Sidhva:** Will the Honourable Minister of States be pleased to state whether any amounts, other than the Government of India Securities of the value of Rupees 20 crores transferred to Pakistan have been transferred or paid by the then Government of the Nizam to other persons and if so, what steps have been taken to recover the same?

**The Honourable Sardar Vallabhbhai Patel:** There are certain other amounts also and appropriate steps are being taken in all these matters to safeguard the interests of the State.

**Shri H. V. Kamath:** Is there any information to show how much was spent by the Nizam's Government on propaganda abroad, especially in the U. K. and U.S.A., contrary to the terms of the Stand-still agreement with the Union Government?

**The Honourable Sardar Vallabhbhai Patel:** It is difficult to say how much money has been spent on propaganda, but if the honourable member wishes, enquiries will be made.

**Shri R. K. Sidhva:** May I know if we can get any idea of the money illegally spent by the Laik Ali Ministry?

**The Honourable Sardar Vallabhbhai Patel:** All moneys have been spent illegally. There are three items. A sum of Rs. 2 crores and 85 lakhs is outstanding against the Agent-General of Hyderabad in Pakistan—Mr. Mushtak Ahmad Khan. There is another account, a sum of £3,000,000 placed at the disposal of Hyderabad Agent-General, Nawab Mir Nawaz Jung, in London. Out of this £1,007,940 have been unauthorizedly transferred to the account of High Commissioner for Pakistan in London. Then there is another amount of £4,11,065 transferred by the Hyderabad Agent General in London at the instance of Moin Nawaz Jang, Ex-Finance Minister, from the Chase National Bank of City of New York, London Branch to the joint account of Mr. Zahir Ahmad and Nawab Moin Nawaz Jung in the Barclay's Bank in London. Steps are being taken to recover the amounts according to legal advice.

**Seth Govind Das:** Are there no other amounts besides these, which the Honourable Minister has just stated?

**The Honourable Sardar Vallabhbhai Patel:** There are no other amounts as far as can be ascertained.

**Shri Mahavir Tyagi:** Are the Treasury accounts of the Nizam's Government secure in the hands of the present Military Administration?

**The Honourable Sardar Vallabhbhai Patel:** They are in the hands of the State Government, which is headed by the Military Government.

**Shri Mahavir Tyagi:** Have they been scrutinized, Sir?

**The Honourable Sardar Vallabhbhai Patel:** Yes.

**Shri Mahavir Tyagi:** May I know if there are any entries of amounts paid to some of the press representatives who were *persona grata* with the Government at their headquarters at Delhi, and who were propagating the cause of the Nizam Government against the interests of India?

**The Honourable Sardar Vallabhbhai Patel:** I cannot give the information off-hand, but if the honourable member wants it, an enquiry will be made.

**Mr. Speaker:** I may inform the honourable member that the same question been tabled by some other member.

## SECURITIES OF NAWAB OF JUNAGADH

\*1238. **Shri R. K. Sidhva:** Will the Honourable Minister of States be pleased to state what has become of the securities of the Nawab of Junagadh, frozen by the Government of India?

**The Honourable Sardar Vallabhbhai Patel:** No securities of the Nawab of Junagadh have been frozen by the Government of India.

## FACILITIES FOR REFUGEE STUDENTS

\*1239. **Shri R. K. Sidhva:** Will the Honourable Minister of Education be pleased to state the number of refugee students who have been provided with facilities for continuing their education?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** Information is available only for the Centrally Administered Areas of Delhi and Ajmer. In Delhi about 38,000 and in Ajmer 7,327 displaced students have been provided with facilities for continuing their studies.

**Shri R. K. Sidhva:** How many students have been put in colleges and schools in Delhi and whether they have been put in new buildings or on the shift system on the existing private colleges and schools?

**The Honourable Shri Satyanarayan Sinha:** I would like to have notice.

**Shri R. K. Sidhva:** May I know, Sir, whether the Government have issued orders that Inter-University rules and the Pakistan University degrees be recognized by the Indian Universities?

**The Honourable Shri Satyanarayan Sinha:** Yes.

**Mr. Speaker:** I do not see how this question arises here.

**Shri R. K. Sidhva:** The Honourable Minister stated that in Delhi 38,000 and in Ajmer 7,327 displaced students have been provided with facilities. My point is how many of them have been rehabilitated and I want to know whether those who have obtained degrees from the Pakistan Universities are allowed entry into the Indian Universities.

**The Honourable Shri Satyanarayan Sinha:** I have already said that the answer is in the affirmative.

**Shri R. K. Sidhva:** May I ask whether the Madras University has refused to recognise the West Punjab University degree?

**The Honourable Shri Satyanarayan Sinha:** Government have no information.

**Shri R. K. Sidhva:** Will the Honourable Minister enquire into this matter?

**The Honourable Shri Satyanarayan Sinha:** Yes.

**Shri R. K. Sidhva:** May I enquire whether any students from Kashmir have been provided in the Centrally Administered Areas?

**The Honourable Shri Satyanarayan Sinha:** I would like to have notice.

#### REHABILITATION OF REFUGEE TEACHERS

**\*1240. Shri R. K. Sidhva:-** (a) Will the Honourable Minister of Education be pleased to state what is the total number of refugee teachers and how many have been rehabilitated?

(b) Has any amount been spent by Government on rehabilitation of teachers and if so, what is the amount so spent?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) According to the information supplied by the All-India Refugee Teachers' Association the total number of the refugee teachers is about 11,000, but this figure has not been verified. As regards the number of refugee teachers who have been rehabilitated, as per reports received from Provincial Governments, the total number of refugee teachers rehabilitated is 8,179. The actual number is expected to be higher as information from many of the privately managed schools has not been received.

(b) The amount spent on rehabilitation of teachers is inseparable from that on rehabilitation of students. Government have no information with regard to the amount spent by the Provincial Governments on this account. In the Centrally Administered Areas of Delhi and Ajmer, Government have, so far, spent Rs. 6,14,252.

**Shri R. K. Sidhva:** May I know whether the 8,179 teachers who have been rehabilitated are in Delhi or in the Provinces?

**The Honourable Shri Satyanarayan Sinha:** The figure is for the Provinces and Delhi.

**Shri H. V. Kamath:** While providing for these teachers in schools, is it a fact that their past service was not taken into consideration?

**The Honourable Shri Satyanarayan Sinha:** Their past services were taken into consideration.

**Shri Mihir Lal Chattopadhyay:** Does the figure of teachers given include the teachers from Eastern Pakistan?

**The Honourable Shri Satyanarayan Sinha:** No.

**Shri Mahavir Tyagi:** Does the figure include the teachers of local bodies and municipal boards in Pakistan?

**The Honourable Shri Satyanarayan Sinha:** Yes, Sir.

**Shri Mihir Lal Chattopadhyay:** Is it the duty of the Provincial Governments or of the Centre to rehabilitate the teachers from Eastern Pakistan?

**The Honourable Shri Satyanarayan Sinha:** It is the duty primarily of the Provincial Governments, but the Central Government can also give advice.

**Pandit Thakur Das Bhargava:** Is it a fact that in fixing the salaries of these teachers proper regard has not been had in the Delhi province for their past service and experience as was promised by the Minister for Relief and Rehabilitation?

**The Honourable Shri Satyanarayan Sinha:** As far as possible, it has been done.

**Shri Mohan Lal Gautam:** Are the Government aware that in the Province of Delhi the refugees from Western Pakistan have not been given their salaries according to the past service, etc?

**Mr. Speaker:** He has answered it.

**Shri Mohan Lal Gautam:** Is it a fact that they are not getting their salaries on that basis?

**The Honourable Shri Satyanarayan Sinha:** I have said, as far as possible it is being done.

**Shri Mahavir Tyagi:** Is it a fact that at the last Inter-Dominion Conference the question of recovering from Pakistan the arrears of salaries, Provident Fund amounts was considered?

**The Honourable Shri Satyanarayan Sinha:** I should like to have notice.

**Shri R. K. Sidhva:** With reference to the answer given that, out of the 11,000 teachers, 8,179 have been rehabilitated, may I know what steps are being taken to rehabilitate the remainder?

**The Honourable Shri Satyanarayan Sinha:** All possible steps are being taken.

**Shri Mahavir Tyagi:** Are the Government aware that arrears of salaries and Provident Fund amounts are due from Pakistan to these teachers who have come over to India?

**The Honourable Shri Satyanarayan Sinha:** Yes, Sir.

**Shri R. K. Sidhva:** My question was not answered.

**Mr. Speaker:** The reply was that all possible steps are being taken.

**Shri R. K. Sidhva:** Have the Provincial Governments been written to absorb them?

**The Honourable Shri Satyanarayan Sinha:** The Provincial Governments have been requested to rehabilitate them as far as possible and they are doing so.

#### REGULARISATION OF INTER-STATE CUSTOMS POLICY

**\*1241. Seth Govind Das:** Will the Honourable Minister of States be pleased to state:

(a) whether Government are aware of the existence of customs barriers between state and state and province in the Indian Union; and

(b) if so, whether Government are considering to take any steps to regularise the inter-state customs policy?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). Yes. But internal customs barriers of the kind referred to have already been abolished in respect of States whose administration have either been taken over directly by the Government of India or integrated with Provincial Administrations in India; and as regards States whose administrations have been integrated into Unions, all internal or inter-State customs barriers as between the covenanted States, have also been abolished.

The problem of the remaining internal customs barriers between States, Unions, and the Provinces of India is the subject of enquiry by the Committee on Financial integration of the States and Unions. Its report is awaited.

**Seth Govind Das:** By what time is it expected that the report of this Committee will be available?

**The Honourable Sardar Vallabhbhai Patel:** The report is expected to be with the Government in about a couple of months.

**Shri Gopikrishna Vijayavargiya:** Do the Government propose to advise the States to so arrange their customs policy as to eliminate all internal customs within a few years, and bring States and Unions within one All-India customs Scheme?

**The Honourable Sardar Vallabhbhai Patel:** The answer says that internal customs barriers have been abolished in respect of States whose administration have either been taken over directly by the Government of India or integrated with Provincial Administrations in India; and that as regards States whose administrations have been integrated into Unions, all internal or inter-State customs barriers as between the covenanted States have also been abolished. As regards the rest, the removal of the barriers depends upon the report awaited.

#### INCREASE IN CRIME IN DELHI

\*1242. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether it is a fact that there is a steep increase in the number of crimes committed in Delhi?

(b) What are the comparative figures of crime for the years 1946, 1947 and 1948?

(c) What steps are being taken to minimise these crimes?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). The following figures for the last three years show that crime has increased in Delhi:

|      |        |
|------|--------|
| 1946 | 7,384  |
| 1947 | 8,226  |
| 1948 | 11,940 |

(c) A special staff has been formed for tracing dangerous criminals and a drive has been undertaken for rounding up bad characters. A thorough check up is being made of criminals and bad characters who arrived with the refugees here and about whose antecedents no previous information was available. Patrolling by Police officers and men at night has been intensified.

**Seth Govind Das:** Is the reason for this increase in crime is the increase in population or any other?

**The Honourable Sardar Vallabhbhai Patel:** The figures furnished are likely to give a wrong impression. I should like to draw the attention of the House to the fact that a large part of the increase is with regard to petty thefts and small crimes. With regard to more serious crimes, there has been a fall in number and I will give the House the figures with regard to these.

In 1946 the number of murders committed was 50, while in 1947, it was 254. In 1948 the number of murders committed was 71.

The number of dacoities committed in 1946 was 11, in 1947 it was 39 and in 1948 it was 17.

Robbery cases in 1946 were 83, in 1947 there were 136, while in 1948 there were 109.

In the year 1946 the number of riots was 83, in 1947 it was 83 and in 1948 it was 67.

Burglaries or thefts committed in 1946 were 854, in 1947, 1,137 and in 1948, 1,708.

So there was considerable increase in theft cases. The number of petty thefts was 2,541 in 1946, 3,579 in 1947 and 6,500 in 1948.

So in these petty offences there has been increase of a considerable nature. That is largely due to a large number of floating population that have come from outside without any means and some bad characters having come from the other parts of the country.

**Shri Deshbandhu Gupta:** May I know whether these figures relate to the city of Delhi or to the Province of Delhi?

**The Honourable Sardar Vallabhbhai Patel:** The Province.

**Shri Deshbandhu Gupta:** May I know, Sir, whether with regard to the reply given to part (c) the co-operation of persons who have worked in those districts from where this floating population has come is being sought to keep an eye on those people who were under police surveillance there?

**The Honourable Sardar Vallabhbhai Patel:** Both the Delhi and Punjab Government Police have been working in harmony and co-operation.

**Shrimati G. Durgabai:** May I know in how many cases prosecutions have been launched and how many have resulted in acquittals and how many in convictions?

**The Honourable Sardar Vallabhbhai Patel:** I cannot give the figures as to how many cases have been prosecuted or have been under prosecution, but if these figures are required, they could be obtained.

**Shri V. C. Kesava Rao:** May I know whether any police force is increased to detect these cases?

**The Honourable Sardar Vallabhbhai Patel:** Oh, yes. The police force is being increased.

**Shri Mahavir Tyagi:** Has the number of crimes risen only in such particular localities where there has been an exchange of population or it is a uniform rise in the whole of the country?

**Mr. Frank Anthony:** This is only with regard to Delhi.

**Mr. Speaker:** He means the whole of the province or any particular parts in which there is an increase in the population.

**The Honourable Sardar Vallabhbhai Patel:** No particular locality, wherever property is available, there is theft.

**Shri Raj Bahadur:** May I know whether the numbers given for the year 1947 include cases that occurred in connection with communal disturbances also?

**The Honourable Sardar Vallabhbhai Patel:** Communal? Except riots, there are no communal cases.

**Shri Gopikrishna Vijayavargiya:** Does the Honourable Minister know that some thefts have been committed in the M.L.A. quarters also?

**The Honourable Sardar Vallabhbhai Patel:** I have no information.

## COMMUNISTS DETAINED BY GOVERNMENT

**\*1243. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Home Affairs be pleased to state the total number of Communists detained under orders of the Government of India?

(b) Is there a periodical survey of these cases?

**The Honourable Sardar Vallabhbhai Patel:** (a) Seventeen.

(b) Yes.

**Shri H. V. Kamath:** Are these persons, who have been arrested and detained, members of the Communist Party of India or just so-called Communists?

**The Honourable Sardar Vallabhbhai Patel:** Out of these 17 persons mentioned above, 2 persons are in Delhi and 14 are in Ajmer-Merwara. They are all supposed to be members of the Communist Party.

**Shri H. V. Kamath:** How many have been convicted, if at all, for offences involving the use of violence or for incitement to violence?

**The Honourable Sardar Vallabhbhai Patel:** These figures are about detentions.

**Shri H. V. Kamath:** Yes, but how many have been convicted, if there are any figures?

**The Honourable Sardar Vallabhbhai Patel:** These are detenus, nobody is convicted.

**Shri H. V. Kamath:** Are there any people convicted at all, apart from detenus?

**The Honourable Sardar Vallabhbhai Patel:** That is another question. The question referred to detenus, and I have given the figure of detenus, and I am sure that no one of them is convicted.

**Shri Mahavir Tyagi:** May I have an idea as to the total number of such detenus in India?

**The Honourable Sardar Vallabhbhai Patel:** I have no figures.

**Shri Mahavir Tyagi:** May I know if these detenus who are under detention in the Delhi province are being treated as political prisoners?

**The Honourable Sardar Vallabhbhai Patel:** There is no class of political prisoners.

**Shri Mahavir Tyagi:** Are they given the facilities of reading and writing and have they the access to newspapers?

**The Honourable Sardar Vallabhbhai Patel:** Oh, yes.

**Shri H. V. Kamath:** Have these detenus been informed of the grounds of their detention and are they permitted to make representations, if they desire to do so?

**The Honourable Sardar Vallabhbhai Patel:** Oh, yes. They are permitted to make representations. They are careful about their rights.

**Shri Mahavir Tyagi:** Are the families of these detenus given any separation allowances?

**The Honourable Sardar Vallabhbhai Patel:** Well, in cases in which separation allowances are found necessary, they are given.

**Shri Deshbandhu Gupta:** May I know whether it is a fact that quite a large number of persons who are on the "wanted" list have not so far been detained?

**The Honourable Sardar Vallabhbhai Patel:** It is so.

**Shri V. C. Kesava Rao:** May I know whether any persons were detained on grounds of suspicion and released afterwards?

**The Honourable Sardar Vallabhbhai Patel:** Oh, yes. Some persons.

**Shri Brajeshwar Prasad:** How many Communists are still absconding, who are in the "wanted" list?

**The Honourable Sardar Vallabhbhai Patel:** Their number is uncertain but as you will see the total number of detenus is only two in Delhi. There may be a few who are out and are wanted.

**Shri M. Tirumala Rao:** Is it a fact that several of the prominent Communists in the several provinces are still underground?

**The Honourable Sardar Vallabhbhai Patel:** In the provinces? Yes. I have said so.

## INSTALLATION OF NEW RADIO STATIONS

**\*1244. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state what are the new Radio Stations proposed to be opened?

(b) What is the number of radio sets in each of the selected areas?

(c) How many rural public receiving sets are being installed in each of these areas?

**The Honourable Shri R. R. Diwakar:** (a) Attention of the honourable member is invited to reply given to part (a) of starred question No 154 on 4th February 1949. Three pilot stations yet to be opened are Ahmedabad, Dharwar and Calicut.

(b) As the record of licence figures is kept according to postal circles, it is not possible to give the number of sets in any selected area.

(c) Community receiving sets in rural areas are installed by the Provincial Governments and they have been urged to increase the same in those areas.

**Seth Govind Das:** Is the Honourable Minister aware that in certain stations the equipment is of very small size and of less power and is there any scheme of the Government before opening new stations to change these old equipments?

**The Honourable Shri R. R. Diwakar:** The whole scheme is being worked out according to plan and wherever there are pilot stations, it is natural that the beginning is small, but according to plan they will be developed in due course.

**Shri K. Hanumanthaiya:** Is the Government contemplating to open any radio stations in Indian States or Unions of States?

**The Honourable Shri R. R. Diwakar:** Since the States have come in, that question is before the Department and the States Ministry is also concerned in the matter.

**Shri Mahavir Tyagi:** May I know whether, when these new radio stations are being opened, they are being opened in places where the Central Radio Stations already exist and are not developed or they are opened in such places where these Radios could also be heard?

**The Honourable Shri R. R. Diwakar:** I just explained that it is according to some broad plan and according to that broad plan all areas are supposed to be covered, and therefore those which had not been covered, there it is that these pilot stations are being opened.

**Shri Mahavir Tyagi:** Have orders for the machineries been already placed in foreign countries?

**The Honourable Shri R. R. Diwakar:** What was necessary and for which sanction had been already granted, orders have been placed.

**Shri B. N. Munavalli:** When is the pilot station at Dharwar expected to come into existence?

**The Honourable Shri R. R. Diwakar:** In fact, it would have been there already by the end of this month, but there are difficulties about getting a proper building and that is why it has been held up.

**Shri Mahavir Tyagi:** How much money is being invested in these new stations? What is the total investment that the Centre proposes to make?

**The Honourable Shri R. R. Diwakar:** I cannot give a reply straight off here.

#### RESERVE BANK OF INDIA BULLETINS

†\*1245. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Finance be pleased to state whether the Reserve Bank of India issues monthly bulletins?

(b) If so, are they issued regularly every month?

(c) Does the Department of Research and Statistics of the Reserve Bank collect statistics of investments of Scheduled Banks in Government securities and publish them and if so, is it done monthly or periodically?

**The Honourable Dr. John Matthai:** (a) Yes; "The Reserve Bank of India Bulletin."

(b) Yes.

(c) The Statistics are being collected annually as on the 31st December, beginning with the year 1945. These are not published but some general conclusions based on the 1945 and 1946 surveys were published in the issue of the bulletin for September, 1948, copies of which are available in the Library of the House.

#### CONVICTIONS FOR ADULTERATION OF FOODSTUFFS IN DELHI

\*1246. **Shri H. V. Kamath:** Will the Honourable Minister of Health be pleased to state:

(a) the number of persons prosecuted in Delhi province for adulteration of milk and other foodstuffs in 1947;

(b) how many of them were convicted and what sentences were awarded to them; and

(c) further preventive measures, if any, that Government propose to take in the matter?

**The Honourable Rajkumari Amrit Kaur:** (a) The number was 441.

(b) Three hundred and seven persons were convicted. Fines ranging from Rs. 5 to Rs. 300 were imposed and the total amount of fine realised was Rs. 26,494.

(c) The local bodies have been asked by the Chief Commissioner to reinforce their food inspection staff and to arrange more frequent raids for seizing unwholesome food and for obtaining samples of foodstuffs for examination. The Punjab Pure Food Act, 1929 has recently been extended to the rural area of Delhi Province and two Health Officers and eight Sanitary Inspectors have been vested with the powers of food Inspectors.

**Shri H. V. Kamath:** Does the Honourable Minister have figures for 1948 as well?

**The Honourable Rajkumari Amrit Kaur:** I will have to get the figures. I have not got them here.

†Answer to this question laid on the table, the questioner having exhausted his quota.

**Shri H. V. Kamath:** Do the figures for 1947 show that habitual offenders—that is persons with more than one conviction—have been on the increase?

**The Honourable Rajkumari Amrit Kaur:** I have not got that information.

**Shri H. V. Kamath:** In view of the menace to people's life and health involved in this adulteration of foodstuffs, do Government propose to inflict drastic punishments, such as public flogging, on these offenders?

**Mr. Speaker:** Order, order. This is a suggestion.

**Mr. Frank Anthony:** May I know if it is a fact that except for a few Ministers and other privileged persons that the public in Delhi have to fall back on milk which is three-quarters adulterated?

**Mr. Speaker:** Order, order. The question makes insinuations.

**Shri Deshbandhu Gupta:** May I know whether any complaint has been received from the local bodies that provisions of the Punjab Pure Food Act are not comprehensive enough and they are finding it difficult to prosecute people for adulteration of sugar?

**The Honourable Rajkumari Amrit Kaur:** Government is not aware of any complaints.

**Mr. Frank Anthony:** Is it a fact that there is a special rate for milk adulterated with dirty water, namely, 12 annas a seer, and for milk not so dirty 14 annas a seer?

**Mr. Speaker:** Order, order.

**Shri Deshbandhu Gupta:** The Honourable Minister had promised to make an enquiry as to whether super-phosphates were being mixed with sugar in Delhi? Have enquiries been made? If so, with what results?

**The Honourable Rajkumari Amrit Kaur:** I have not got any information on that point yet.

#### GRANT FOR ESTABLISHMENT OF MEDICAL COLLEGE AT DIBRUGHAR, ASSAM

\*1247. **Shrijiit Kuladhar Chaliha:** Will the Honourable Minister of Health be pleased to state whether any grant has been made for the establishment of the Medical College at Dibrugarh in Assam and if so, what is the amount sanctioned for it?

**The Honourable Rajkumari Amrit Kaur:** No special grant has been made by the Government of India for the Scheme for the establishment of a Medical College at Dibrugarh. This is one of the development Schemes of the Assam Government approved by the Government of India the cost of which can be met from the over-all grants made by the Government of India to the Assam Government from year to year for their development schemes.

**Srijiit Rohini Kumar Chaudhuri:** Is it a fact that the overall grant has been substantially reduced by the Government of India and therefore the Province is finding it difficult to finance this institution?

**The Honourable Rajkumari Amrit Kaur:** I presume that that applies to all schemes of development in every province.

#### POLITICAL AND I.N.A. PRISONERS IN INDIAN JAILS

\*1248. **Sardar Hukam Singh:** (a) Will the Honourable Minister of Home Affairs be pleased to state how many political prisoners were there in the Indian Jails on the 15th August, 1947 and what is their number now?

(b) Are there any I.N.A. prisoners still in Indian Jails today and if so, how many?

(c) Do Government propose to consider the advisability of releasing them and if not, for what reasons?

**The Honourable Sardar Vallabhbhai Patel:** (a) There was a general jail delivery on the Independence day. Consequently there was no political prisoner on 15th August 1947 in any Centrally Administered Area. After independence the classification of political prisoners in the old sense has ceased to exist. On 15th February 1949, for which figures are available, there were 161 communal detenus and two Communist detenus in the Centrally Administered Areas.

(b) Nil.

(c) The cases of detenus are reviewed periodically with the assistance of an independent advisory body.

**Sardar Hukam Singh:** Is it proposed to refer any of these cases to a court of law?

**The Honourable Sardar Vallabhbhai Patel:** I am not afraid to go to a court of law!

**Shri H. V. Kamath:** Among these prisoners to which the Minister referred, have there been any persons convicted for political reasons, or for reasons of internal security?

**The Honourable Sardar Vallabhbhai Patel:** Well, people are convicted. There are several people convicted for different offences.

**Shri H. V. Kamath:** I wanted to know how many persons were convicted for political reasons.

**The Honourable Sardar Vallabhbhai Patel:** What is a political reason is the question, because we do not find in the judgment anything like a political reason being given.

**Shri H. V. Kamath:** Or how many have been convicted of incitement to violence or of acts of violence?

**The Honourable Sardar Vallabhbhai Patel:** Many persons have been convicted for violence. I cannot give you the figure.

#### NON-MUSLIMS KILLED IN WEST PAKISTAN

**\*1249. Sardar Hukam Singh:** Will the Honourable Minister of Home Affairs be pleased to state whether Government have any information regarding the number of non-Muslims killed in the West Punjab, Sind, Bahawalpur and N.W.F.P. during communal disturbances since the 1st March, 1947?

**The Honourable Sardar Vallabhbhai Patel:** Attention is invited to the answer given on the 11th February, 1948, by the Honourable the Prime Minister to part (b) of Shri Ramnarayan Singh's starred question No. 239.

#### FOREIGN CAPITAL INVESTMENTS

**\*1250. Sardar Hukam Singh** (a) Will the Honourable Minister of Finance be pleased to state what was the amount of foreign capital invested in India on 1st September, 1939, 14th August, 1947 and what is its amount now?

(b) What is the estimated amount of profits made by foreign financiers since 15th August, 1947?

**The Honourable Dr. John Matthai:** (a) and (b). I would refer the honourable member to the reply which I gave to the Starred Question No. 330 by Shri R. K. Sidhva on the 14th February, 1949.

**Sardar Hukam Singh:** Is it contemplated to fix some percentage of profit for this capital?

**The Honourable Dr. John Matthai:** No.

#### AYURVEDIC AND UNANI HOSPITALS AND DISPENSARIES

**\*1251. Lala Raj Kanwar:** Will the Honourable Minister of Health be pleased to state:

(a) the total number of (i) Ayurvedic and (ii) Unani Hospitals and dispensaries at present functioning in the country, and their number five years ago;

(b) what steps Government propose to take to increase their number; and

(c) how much money is at present spent per annum on the maintenance of such hospitals and dispensaries?

**The Honourable Rajkumari Amrit Kaur:** (a) to (c). A statement containing the information in respect of Provinces and Local Administrations is laid on the table of the House.

† Answer to this question laid on the table, the questioner being absent.

## STATEMENT

CONSTITUTION ASSEMBLY OF INDIA

| S. No. | Province          | Total number of (i) Ayurvedic and (ii) Unani Hospitals and dispensaries at present functioning in the country and their number five years ago. | What steps Government propose to take to increase their number | How much money is at present spent per annum on the maintenance of such hospitals and dispensaries. |             |
|--------|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|-------------|
|        |                   | Number at pre-sent functioning.                                                                                                                |                                                                |                                                                                                     |             |
|        |                   | (i) Ayurve-<br>dic.                                                                                                                            | (ii) Unani.                                                    | (i) Ayur-<br>vedic                                                                                  | (ii) Unani. |
| 1      | Ajmer-Merwara     | 64                                                                                                                                             | 7                                                              | 42                                                                                                  | 12          |
| 2      | Himachal Pradesh  | 39                                                                                                                                             | —                                                              | 22                                                                                                  | —           |
| 3      | Coorg             | —                                                                                                                                              | —                                                              | 1                                                                                                   | —           |
| 4      | Kutch             | 4                                                                                                                                              | —                                                              | (Not known)                                                                                         | —           |
| 5      | Delhi             | 6                                                                                                                                              | 6                                                              | 6                                                                                                   | 5           |

No money is spent by Government on the maintenance of these dispensaries which are run by private individuals and bodies.

The annual expenditure incurred on the maintenance is Rs. 77,000/-

The matter will be considered in the light of decisions to be taken on the recommendations contained in the Report of the Committee on Indigenous Systems of Medicine.

No money is spent by Government on the maintenance of these dispensaries which are run by private individuals.

A sum of Rs. 1,30,730/- was spent during 1947-48 on their maintenance.

It is proposed to open one Ayurvedic College and hospital and 125 additional S.M.P. Centres, expenditure not known.

Each year Government sanctions grant to local bodies for opening additional dispensaries. The local bodies also open new dispensaries run from their own funds.

It is proposed to increase the number of dispensaries in rural areas extensively.

It was proposed to open 60 Ayurvedic and Unani dispensaries in the first postwar quinquennium, but the scheme has been postponed on account of revised financial policy of Government.

It is proposed to make grants-in-aid to local bodies for starting 10 Ayurvedic and Unani dispensaries in each district.

Two subsidised Ayurvedic dispensaries have been sanctioned for each district. There is a proposal to open 20 Ayurvedic dispensaries in the States areas that have recently merged into the Province.

There is a proposal to open an Ayurvedic college and hospital for which budget provision of Rs. 1,50,000/- has been made for 1949-50.

There is no such proposal at present.

It is proposed to establish a well equipped Ayurvedic Hospital attached to the Ayurvedic College at Gauhati during 1950-51.

## STARRED QUESTIONS AND ANSWERS

1. No money is spent by Government on the maintenance of these dispensaries which are run by private individuals and bodies. The annual expenditure incurred on the maintenance is Rs. 77,000/-.
2. The matter will be considered in the light of decisions to be taken on the recommendations contained in the Report of the Committee on Indigenous Systems of Medicine.
3. No money is spent by Government on the maintenance of these dispensaries which are run by private individuals.
4. A sum of Rs. 1,30,730/- was spent during 1947-48 on their maintenance.
5. It is proposed to open one Ayurvedic College and hospital and 125 additional S.M.P. Centres.
6. Each year Government sanctions Rs. 7,95,900/- (including 3 lakhs spent by Local Bodies.)
7. It is proposed to increase the number of dispensaries in rural areas extensively.
8. It was proposed to open 60 Ayurvedic and Unani dispensaries in the first postwar quinquennium, but the scheme has been postponed on account of revised financial policy of Government.
9. It is proposed to make grants-in-aid to local bodies for starting 10 Ayurvedic and Unani dispensaries in each district.
10. The annual expenditure is Rs. 47,930/-.
11. The amount spent by local bodies is not known.
12. Two subsidised Ayurvedic dispensaries have been sanctioned for each district. There is a proposal to open 20 Ayurvedic dispensaries in the States areas that have recently merged into the Province.
13. There is a proposal to open an Ayurvedic college and hospital for which budget provision of Rs. 1,50,000/- has been made for 1949-50.
14. There is no such proposal at present.
15. No money is at present spent by Government.
16. It is proposed to establish a well equipped Ayurvedic Hospital attached to the Ayurvedic College at Gauhati during 1950-51.

\*1252. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Finance be pleased to state whether it is a fact that previous Government had issued to the public five year interest free Prize Bonds in 1944 to expire in 1949?

(b) If so, what was the total amount of such bonds subscribed by the public and others?

(c) What was the total amount paid by Government towards prizes for all these bonds?

(d) Do Government contemplate renewing the issue of these Bonds?

**The Honourable Dr. John Matthai:** (a) Yes, Sir.

(b) The total subscriptions amounted to Rs. 5,29,85,500. Details by categories of subscribers are not available.

(c) A total sum of Rs. 40,84,000 has been paid so far.

(d) No, Sir.

#### SMUGGLING OF GOODS FROM INDIA INTO EASTERN PAKISTAN

\*1253. **Shri H. H. Kamath:** Will the Honourable Minister of Finance be pleased to state:

(a) whether it is a fact that goods are being smuggled from India into Eastern Pakistan;

(b) if so, the kind, quantity and value of such goods intercepted and seized by the Customs authorities during the last twelve months; and

(c) the measures taken by Government to prevent such smuggling?

**The Honourable Dr. John Matthai:** (a) Yes.

(b) A statement is laid on the table of the House.

(c) To prevent smuggling by land, Land Customs stations and routes have been prescribed. Strict control is exercised by the Customs authorities on the land frontiers as well as at sea ports. Preventive patrol is also being undertaken on the land frontiers. The Provincial Governments concerned have also taken precautionary measures.

#### STATEMENT

*Kind, quantity and value of goods attempted to be smuggled from India to Eastern Pakistan and intercepted and seized by the Customs Authorities.*

| Commodity                                | Quantity                             | Value     |
|------------------------------------------|--------------------------------------|-----------|
| 1                                        | 2                                    | 3         |

| Jute                                | 52 mds.                        | 16,000     |
| Miscellaneous                       | ..                             | 11,82,000  |
|                                     | Total                          | 44,30,000. |

Note.—Pakistan was declared to be "foreign territory" for Customs purposes with effect from the 1st March 1948; hence the figures are for the period March 1948 to December 1948.

**Shri H. V. Kamath:** Have any instances come to the notice of the Honourable Minister where officers, who have specialized in detection and smuggling work, have been transferred when they were on the verge of obtaining valuable information about smuggling?

**The Honourable Dr. John Matthai:** On the contrary I think we have strengthened the staff by putting in officers who have special experience in this kind of work.

**Shri H. V. Kamath:** Is it a fact that the Customs Appraiser on the G.P.O., Calcutta was transferred just at the time of ...

**Mr. Speaker:** Order, order. It would be question, relating to an individual.

**Shri Deshbandhu Gupta:** May I know whether there has been any talk between India and Pakistan on the question of free trade between the two Dominions in certain commodities?

**The Honourable Dr. John Matthai:** There have been discussions but the question will have to be referred to the Honourable Minister for Commerce.

**Shri Mihir Lal Chattopadhyay:** Has the Honourable Minister any idea as to whether smuggling from India is greater than into India?

**Shri Mahavir Tyagi:** What is the trade balance of smuggling?

**The Honourable Dr. John Matthai:** From the figures it is fairly obvious that the traffic has been a one-way traffic.

#### EXPENDITURE ON ECONOMY COMMITTEE

\*1254. **Shri H. V. Kamath:** Will the Honourable Minister of Finance be pleased to state the expenditure so far incurred by way of salaries and allowances to members of the Economy Committee?

**The Honourable Dr. John Matthai:** Rs. 64,998/3/- up to 1st March, 1949.

**Shri H. V. Kamath:** How many meetings were held by this Economy Committee and for how many working days did they sit?

**The Honourable Dr. John Matthai:** I have not the information ready but I could give the information to the honourable member.

**Shri H. V. Kamath:** Were salaries fixed for the members or were they given only allowances?

**The Honourable Dr. John Matthai:** As the House knows there are five members on this Committee, including the Chairman. Out of them, four are non-officials. The official member draws his salary according to his service terms. As far as the non-officials are concerned, the Chairman was offered a tour allowance of Rs. 2,500 p.m. plus travelling allowance, but he has declined to draw these allowances. As far as the other non-official members are concerned, they are given a tour allowance of Rs. 1,200 p.m. and the usual travelling allowance. But I must say that when they are here on duty in connection with the meetings of the Constituent Assembly and they draw the Constituent Assembly allowances, they do not draw those allowances.

**Shri H. V. Kamath:** What is the distinction between tour allowance and travelling allowance?

**The Honourable Dr. John Matthai:** Travelling allowance simply covers the expenses of travel. There are various other expenses that honourable members have to meet when they attend meetings of the Committee.

**Shri Mahavir Tyagi:** Have they submitted any interim report to the Government?

**The Honourable Dr. John Matthai:** They have submitted several interim reports on several of the Ministries but the report has not been completed yet and I expect to get the final report in a short time.

**Shri H. V. Kamath:** What is the rate of travelling allowance fixed for members?

**The Honourable Dr. John Matthai:** The usual travelling allowance given to first grade government servants.

#### ORDNANCE CLOTH FACTORIES

**\*1255. Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Defence be pleased to state how many Ordnance Cloth Factories are there in India?

(b) Of these how many are in the Madras Province?

(c) How many of those mentioned in part (a) were closed after the War?

(d) How many of those from the Madras Province were closed?

(e) What are the reasons for closing down these factories?

(f) How many workers are employed in all the Ordnance Cloth Factories in India?

(g) How many workers were thrown out of employment as a result of the closing down of such factories in South India?

(h) Was any factory transferred from Madras Province to North India?

(i) If not, is there any plan for such removal?

**The Honourable Sardar Baldev Singh:** (a) Two.

(b) None.

(c) and (d). There were eleven Ordnance Clothing Factories in operation during World War II. Of these nine, including one at Madras, were closed down after the war.

(e) Heavy reduction of Service demands consequent on the cessation of hostilities and demobilisation.

(f) The total number of workers employed in the two Factories now in operation is about 4,200.

(g) Approximately 4,500.

(h) No, but items of plant and machinery were transferred to other Ordnance and Ordnance Clothing Factories.

(i) Does not arise.

**Shri Mohan Lal Gautam:** What was the total number of employees that were thrown out of employment in Northern India?

**The Honourable Sardar Baldev Singh:** I have already stated that it is approximately 4,500.

**Shri Mohan Lal Gautam:** 4,500 for the South or for the North?

**The Honourable Sardar Baldev Singh:** These 4,500 workmen were thrown out of employment from the Ordnance depots which were closed down all over the country.

#### ORDNANCE DEPOTS

**\*1256. Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Defence be pleased to state how many Ordnance Depots there are in India?

(b) How many of them are in the Madras Province?

(c) Was any of those in the Madras Province closed down after the War?

(d) If not, is there any plan to close down the Depots in the South and open new ones near Poona or in any place near Delhi?

(e) If so, what are the reasons for the same?

**The Honourable Sardar Baldev Singh:** (a) Twenty-seven.

(b) Four.

(c) Yes, one at Waltair.

(d) and (e). Which of the existing depots should be retained permanently has yet to be decided. There is no plan to establish new Ordnance Depots either near Poona or near Delhi.

**Shri Mahavir Tyagi:** Is the number of depots at present as much as it was during war time or is it less?

**The Honourable Sardar Baldev Singh:** The number of depots is much less now.

#### RELEASE OF LAIK ALI CABINET MEMBERS

**\*1257. Shri Brajeshwar Prasad:** Will the Honourable Minister of States be pleased to state whether it is a fact that the Government of India have decided to release three members of the Laik Ali Cabinet, Nawab Fazal Nawaz Jung, Abdul Hamid Khan and Rai Rajmohanlal?

**The Honourable Sardar Vallabhbhai Patel:** The answer is in the negative.

**Shri H. V. Kamath:** Is it a fact that many valuable records pertaining to the misdemeanours of the Laik Ali regime were destroyed before Government could lay their hands on them after the successful police action?

**The Honourable Sardar Vallabhbhai Patel:** That was expected of any wise man placed in those circumstances.

**Shri H. V. Kamath:** Does the Honourable Minister think that the Laik Ali Ministry was a team of wise men?

**The Honourable Sardar Vallabhbhai Patel:** Of course I do.

**RE-EMPLOYMENT OF PROF. G. D. SONDHI BY ALL-INDIA RADIO AFTER SUPERANNUATION**

**\*1258 Shri Mahavir Tyagi:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state whether it is a fact that a retired Government servant was engaged in England by the All India Radio to give a series of 8 talks about the Olympic games held in England?

(b) Is it a fact that on his return from England, this retired officer was appointed as Deputy Director General of the All India Radio and if so, at what pay?

**The Honourable Shri R. R. Diwakar:** (a) Yes. Prof. G. D. Sondhi, former Vice-President of Indian Olympic Association, who was in England in connection with Olympic games from 29th July to 14th August 1948, was booked by All India Radio for seven broadcast talks on the Olympic games.

(b) Prof. Sondhi was appointed Deputy Director General (Programmes), All India Radio, on 6th November 1948, on the initial pay of the scale fixed for the post *plus* a part of his pension.

**Shri Mahavir Tyagi:** Has this gentleman been employed on a contract basis for a limited number of years or as a permanent employee?

**The Honourable Shri R. R. Diwakar:** You are speaking of now?

**Shri Mahavir Tyagi:** Yes, at present.

**The Honourable Shri R. R. Diwakar:** There is no question of permanent basis: it would be as long as he is serviceable, because he is a retired gentleman.

**Shri Mahavir Tyagi:** I would like to know how many years he has been contracted for?

**The Honourable Shri R. R. Diwakar:** I do not know if it is exactly on a contract basis. I shall enquire, if the honourable member wants.

**Shri H. R. Guruv Reddy:** What is the scale of pay on which he has been employed?

**The Honourable Shri R. R. Diwakar:** Rs. 1,550 *plus* Rs. 450 as part of his pension.

**Shri M. Tirumala Rao:** Was he connected with this Department before his retirement?

**The Honourable Shri R. R. Diwakar:** Not with this Department. He was known as a good commentator throughout the country.

**Shri Mahavir Tyagi:** From the reply of the Honourable Minister I understand that this gentleman is getting both his pension and pay. Is that so?

**The Honourable Shri R. R. Diwakar:** Yes. That has already been stated.

**Shri R. K. Sidhva:** Under the rules can a superannuated person draw a fresh salary as also his pension? Is it allowed under the rules?

**The Honourable Shri R. R. Diwakar:** It is allowed under the rules. Without sanction of rules it could not have been given.

**APPOINTMENT OF WORKING JOURNALISTS IN VARIOUS DEPARTMENTS**

**\*1259. Shri Lakshminarayan Sahu:** Will the Honourable Minister of Information and Broadcasting be pleased to state how many working journalists from newspaper offices and news agencies were appointed by the Government of India in their various departments during the last year?

**The Honourable Shri R. R. Diwakar:** Fifty-one.

**Shri Lakshminarayan Sahu:** May I know the names of those agencies?

**The Honourable Shri R. R. Diwakar:** From newspaper offices and news agencies people have been employed in the Ministries.

**Shri Lakshminarayan Sahu:** Is there any agency which represents each provincial unit here?

**The Honourable Shri R. R. Diwakar:** The question was how many people from different newspaper offices and news agencies were employed in the different ministries of the Government. These people are employed as full time workers in the different departments.

**Shrimati G. Durgabai:** What is the procedure adopted in making these appointments? Were these persons selected by the Federal Public Service Commission?

**The Honourable Shri R. R. Diwakar:** It depends upon the pay that each one draws. All officers drawing a particular amount of salary and above are selected by the Federal Public Service Commission.

**Shri H. V. Kamath:** How many working journalists have been appointed in the External Publicity Section of the External Affairs Ministry?

**The Honourable Shri R. R. Diwakar:** If I may give the figures, 37 are employed in the Information and Broadcasting Ministry and seven are employed in the External Affairs Ministry. Out of a total of 51, 44 are thus made up and the other seven are in other Ministries.

**Shri Deshbandhu Gupta:** In view of the fact that the services of a large number of journalists are required by Government nowadays, have Government considered the desirability of having some training ground for journalists?

**The Honourable Shri R. R. Diwakar:** It is for the Government to think about it.

**Shri H. V. Kamath:** May I know if all these posts were advertised before they were filled up?

**The Honourable Shri R. R. Diwakar:** Those which were to be filled up through the Federal Public Service Commission were certainly advertised.

**IMPORT DUTY ON GOLD**

**\*1260. Sardar Hukam Singh:** (a) Will the Honourable Minister of Finance be pleased to state when the import duty on gold was levied?

(b) How much income was derived on this account each year by Government since this import duty was levied?

**The Honourable Dr. John Matthai:** (a) On the 1st of March 1946.

(b) Rs. 86 lakhs in 1946-47.

Rs. 99 lakhs in 1947-48.

Rs. 39 lakhs in the nine months April to December 1948.

**Shri R. K. Sidhva:** What is the price of gold per ounce in India and in Pakistan?

**Mr. Speaker:** At what time?

**Shri R. K. Sidhva:** A month before or last week.

**The Honourable Dr. John Matthai:** It is a difficult question to answer unless the honourable member tells me what kind of price he is thinking of. We have three or four different prices. There is our statutory price, then the price to which we are committed under the International Monetary Agreement and there is the market price. I do not know what the honourable member has in mind.

**Shri R. K. Sidhva:** I want the market price.

**Honourable Members:** Black market price?

**Shri R. K. Sidhva:** I want the statutory price and the market price.

**The Honourable Dr. John Matthai:** The statutory price under the Reserve Bank of India Act would work out at somewhere about Rs. 21 per tola. Under the International Monetary Agreement it is Rs. 47 and the present market rate is about Rs. 112.

**Shri R. K. Sidhva:** What is the price in Pakistan?

**The Honourable Dr. John Matthai:** I do not follow bullion market tendencies in other countries.

**Dr. V. Subramaniam:** Have Government any intention of purchasing gold from foreign countries?

**The Honourable Dr. John Matthai:** They have no intention of that kind.

**Shri R. K. Sidhva:** Is it a fact that the price of gold in Pakistan is 50 per cent. less than its price in India?

**The Honourable Dr. John Matthai:** I am not in a position to answer it.

**Shri Mahavir Tyagi:** What is the rate of duty?

**The Honourable Dr. John Matthai:** The statutory rate of duty is Rs. 25 per tola but by executive order we have reduced it to Rs. 12-8-0.

**Shri Kuladhar Chaliha:** At what rate is gold purchased from South Africa?

**The Honourable Dr. John Matthai:** We do not get any gold from South Africa?

**Seth Govind Das:** Is it a fact that the high price is due to speculation and does the Honourable Minister remember that he promised that as far as speculation in the bullion market is concerned Government was considering measures to stop it?

**The Honourable Dr. John Matthai:** I believe the Bombay Government have adopted certain measures which would have the effect of the kind that the honourable member has in mind.

**Shri R. K. Sidhva:** May I know whether the Bombay Government legislation is an effective method to stop the speculation?

**Shri Mahavir Tyagi:** On what consideration is the rate of duty based?

**The Honourable Dr. John Matthai:** I might tell the honourable member that this rate of duty is now practically inoperative because we do not issue any licences for the import of gold.

**Shri M. Tirumala Rao:** Why is the market rate of gold so high; is it due to the scarcity of the commodity?

**The Honourable Dr. John Matthai:** The Indian market in the matter of bullion is a completely isolated market. Because of our import and export restrictions the Indian market has developed its own price level.

**Shri Mahavir Tyagi:** Is export of gold allowed?

**The Honourable Dr. John Matthai:** No.

# DIRECTIONS TO PROVINCIAL GOVERNMENTS re PROHIBITION PROGRAMMES

†\*1261. **Shri Ajit Prasad Jain:** Will the Honourable Minister of Finance be pleased to state:

(a) the directions, if any, sent to the Provincial Governments with regard to their prohibition programmes; and

(b) the reasons for issuing those directions?

**The Honourable Dr. John Matthai:** (a) and (b). No directions were issued but the Provincial Governments were informed, in view of the anti-inflationary policy of Government, that they should not expect any financial assistance from the Centre by way of loans or otherwise for implementation of schemes of Prohibition if they felt that these could not be postponed.

## POSTS OF SECRETARY AND DEPUTY SECRETARY IN MINISTRY OF HEALTH

\*1262. **Ch. Ranbir Singh:** (a) Will the Honourable Minister of Health be pleased to state whether it is a fact that the posts of Secretary and Deputy Secretary have remained unfilled for the last several months?

(b) Is it not a fact that in the absence of these two senior officers the work of the Ministry has run on smoothly and efficaciously? If so, do Government propose to abolish these posts in the interests of economy?

**The Honourable Rajkumari Amrit Kaur:** (a) and (b). The post of Secretary has been vacant since 7th December, 1948 and the post of one Deputy Secretary since 23rd December, 1948. The fact that the Ministry does not at present have its full complement of Officers has thrown considerable additional strain on myself and my colleagues and it is not possible to abolish these posts if the work of this Ministry is to be carried on in an efficient manner.

**Shri H. V. Kamath:** Is it a fact that the present Joint Secretary of the Ministry officiated as Secretary for some time and then reverted as Joint Secretary?

**The Honourable Rajkumari Amrit Kaur:** That is so.

**Shri H. V. Kamath:** Why was it done? Why did he officiate as Secretary for some time and was then reverted?

**The Honourable Rajkumari Amrit Kaur:** He had to revert because it was only an officiating appointment and he was not senior enough to be confirmed as Secretary; so he was reverted to his substantive post of Joint Secretary.

**Shri H. V. Kamath:** Is a Secretary going to be appointed in the near future?

**The Honourable Rajkumari Amrit Kaur:** That will have to be considered later.

**Shri Mahavir Tyagi:** What is the present strength of Secretaries, Under-Secretaries and others in the Ministry?

**The Honourable Rajkumari Amrit Kaur:** I have one Joint Secretary, one Deputy Secretary, three Under Secretaries and one Assistant Secretary. That is all.

**Shri M. Tirumala Rao:** In view of the statement made by the Honourable Minister that the present staff is over-worked will she fill up the unfilled appointments and give relief to the over-worked staff?

**Mr. Speaker:** Order, order. It is obvious.

† Answer to this question laid on the table, the questioner being absent.

## VACANCIES IN MINISTRY OF HEALTH

\*1263. **Ch. Ranbir Singh:** (a) Will the Honourable Minister of Health be pleased to state how many vacancies in the gazetted and ministerial staff occurred in the Ministry of Health during the last four months?

(b) How many of them were filled by promotion and how many by direct recruitment?

(c) Whether it is a fact that all the posts filled in during the last four months in the Ministry of Health were filled by men from a particular province, if so, why?

**The Honourable Rajkumari Amrit Kaur:** (a) Twenty-four.

(b) Six were filled by promotion, seven by recruitment and 11 have not yet been filled.

(c) No; of the thirteen appointments made four were filled by candidates from Madras, eight by candidates from the Punjab and one by a candidate from the U. P.

## INSPECTORATE OF CUSTOMS AND EXCISE

\*1264. **Shri H. V. Kamath:** Will the Honourable Minister of Finance be pleased to state:

(a) whether it is a fact that the main office of the Inspectorate of Customs and Excise is located at Simla while only a nucleus is at Delhi;

(b) whether in the aforesaid office there are employees whose headquarters are at Simla, but who are staying at Delhi and getting halting allowance;

(c) the total expenditure incurred in connection with the travelling allowance of the Director during the last two years; and

(d) why it is not feasible to locate the entire office in one place?

**The Honourable Dr. John Matthai:** (a) Yes.

(b) No.

(c) The total expenditure incurred in connection with the travelling allowance of the Director of Inspection, Customs and Central Excise, during the period from 26th January 1948 to 26th February 1949 is about Rs. 12,000. There was no post of Director prior to 26th January 1948.

(d) There is no accommodation in Delhi for the entire office. As the services of the Director of Inspection are constantly required for consultation by the Board and the Ministry of Finance, the headquarters of the Director and a nucleus staff have been located at Delhi. It is the intention to transfer the rest of the office also from Simla to Delhi immediately accommodation is made available.

**Shri H. V. Kamath:** Will it be done in the near future or will it take some time?

**The Honourable Dr. John Matthai:** It depends upon my Honourable colleague the Minister for Works, Mines and Power.

## FUNDS FOR UNIVERSITY OF SAUGOR

†\*1265. **Shri R. L. Malviya:** (a) Will the Honourable Minister of Education be pleased to state whether the authorities of the University of Saugor have made a representation to Government for sanction of funds for opening various faculties in the University?

† Answer to this question laid on the table, the questioner being absent.

(b) If so, what proposals have been advanced by the University and how much amount have they asked for?

(c) What action have Government taken or do they propose to take on the representation?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) and (b). Yes. The University of Saugor applied for a capital grant of Rs. 10 lakhs towards the cost of essential buildings and equipment and a loan of Rs. 5 lakhs towards the building of residential quarters for the teaching staff and the Provincial Government recommended a maintenance grant of Rs. 2½ lakhs as part of their post-war development plans.

(c) The question of capital grant and loan is under consideration in consultation with the University Grants Committee. The question of maintenance grant has not yet been finally decided, as additional information asked for from the U. P. Government has not been received.

## GOVERNMENT ADVERTISEMENTS IN NEWSPAPERS

\*1266. **Shri Mahavir Tyagi:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state whether Government have "black listed" or "out-listed" any papers from the list of papers approved to receive Government advertisements?

(b) If so, what are the names of such papers and what are the reasons for such action against them?

**The Honourable Shri R. R. Diwakar:** (a) No, Sir. Advertisements have however been withheld temporarily from two newspapers.

(b) It will not be in the public interest to disclose the names of the papers as the matter is still under consideration.

**Shri Mahavir Tyagi:** Sir, I do not know whether in my question I have required the information as to how much each paper receives from advertisements.

**Mr. Speaker:** It is not so here. But what is the question he wants to put now?

**Shri Mahavir Tyagi:** Will the Honourable Minister be pleased to give us a list of the amounts paid to different papers on account of advertisement?

**The Honourable Shri R. R. Diwakar:** It does not arise out of this question.

**Shri H. V. Kamath:** Are decisions in this regard taken by the Minister after consulting the Standing Advisory Committee attached to his Ministry?

**The Honourable Shri R. R. Diwakar:** No.

**Shri H. V. Kamath:** Why not?

**The Honourable Shri R. R. Diwakar:** It is not the function of the Standing Advisory Committee to give advice on such matters.

**Shri R. K. Sidhva:** May I know whether the Government first stopped the advertisements and they are themselves reconsidering the matter now?

**The Honourable Shri R. R. Diwakar:** It is only a temporary thing and it is being considered.

**Shri H. V. Kamath:** Is not the Standing Advisory Committee consulted or taken into confidence about the shaping of the policy?

**Mr. Speaker:** That is what he has stated.

**Shri Mahavir Tyagi:** May I ask whether it is a fact that these advertisements generally go to the English papers and not to the provincial language papers?

**The Honourable Shri R. R. Diwakar:** No, it is not so.

**Shri H. V. Kamath:** What are the matters on which the Standing Advisory Committee is expected to advise the Ministry?

**Mr. Speaker:** The honourable member may see the Rules.

**Seth Govind Das:** May I know how much amount is paid to the English papers and how much amount is paid to papers which are published in provincial languages and specially in Hindi?

**The Honourable Shri R. R. Diwakar:** I require notice of that question.

**Shri Deshbandhu Gupta:** May I know whether since August 1947 there has been any revision of the list of papers which were getting the advertisements—or the old list continues to be followed?

**The Honourable Shri R. R. Diwakar:** The revision is usually done every two years and if during this period that point of date has been reached it has been done.

**Shri Deshbandhu Gupta:** I want a definite answer whether there has been any revision or not, or whether it is the old list that is still continuing.

**The Honourable Shri R. R. Diwakar:** I shall enquire.

#### REGIONAL OFFICES OF PRESS INFORMATION BUREAU

**\*1267. Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state how many regional offices there are for the Press Information Bureau?

(b) What are the functions of these Offices?

**The Honourable Shri R. R. Diwakar:** (a) Four.

(b) The functions of the Regional Offices are:

- (1) Publicity for Central Government Departments and Offices situated in the region.
- (2) Liaison with the regional Press and Provincial publicity organisations.
- (3) Liaison with Army Commands for publicity for the Armed Forces.
- (4) Public Relations in general.
- (5) Editing, translation and distribution of publicity material in the main regional languages.
- (6) Photographic services.
- (7) Keeping Government of India informed of the trend of public opinion and reactions in the regional Press.
- (8) Study of requirements, problems and difficulties of the regional Press.
- (9) Preparation and supply of material concerning development plans etc. in the Provinces for external publicity.

**Shrimati G. Durgabai:** Is it a fact that Government are considering a proposal to attach a Public Relations Officer to each of the Departments, working under the Ministry of Information and Broadcasting?

**The Honourable Shri R. R. Diwakar:** There is one officer attached from the Ministry of Information and Broadcasting to each of the different Ministries. I do not yet know of any proposal of having another Public Relations Officer.

**Shri H. V. Kamath:** How many Principal Information Officers, Deputy Principal Information Officers, Information Officers and Assistant Information Officers were there in this Bureau—the Press Information Department—in 1940 and how many in 1949, that is, at present?

**The Honourable Shri R. R. Diwakar:** I would require notice of that question.

**Shri H. V. Kamath:** Is it not a fact that it has swelled to more than three times?

**The Honourable Shri R. R. Diwakar:** That would depend upon the number.

**Mr. Speaker:** The question hour is over.

#### (b) WRITTEN ANSWERS

##### RE-EMPLOYMENT OF SUPERANNUATED OFFICERS

**\*1268. Shri P. Kunhiraman:** (a) Will the Honourable Minister of Home Affairs be pleased to state the number of officers who, after retirement or reaching the age of superannuation, have been re-employed or given extension of service in the various Ministries of the Government of India as Deputy Secretaries, Under Secretaries, Assistant Secretaries or Officers on Special duty?

(b) What is the policy of the Government of India in regard to the re-employment of or granting extension of service to superannuated officers?

**The Honourable Sardar Vallabhbhai Patel:** (a) Ten, according to the information collected in March 1948.

(b) In view of the prevailing shortage of man-power, Government have had to tap these sources but are taking care to ensure that this is done only when it is necessary in the public interest.

##### FIXATION OF PAY OF DISPLACED TEACHERS

**\*1269. Giani Gurmukh Singh Musafir:** (a) Will the Honourable Minister of Education be pleased to state the policy with regard to the fixation of salaries of displaced teachers?

(b) Are Government aware that the displaced teachers with life-long experience employed in Delhi schools have been made to start from the lowest rung of the ladder?

(c) Has the policy enunciated by Government been implemented by the Provincial Government?

(d) What steps do Government propose to take in the matter?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) The policy of the Government of India is that the starting salaries of displaced teachers should be fixed in the scales of the posts to which they are appointed after taking into consideration their total length of service in Pakistan and the salaries they were last drawing.

(b) Teachers who were previously employed by the Provincial Governments of N.-W. F. P. and West Punjab have generally been given the same salary by the East Punjab and Delhi Administration. The cases of the remaining are under consideration.

(c) and (d). Under the Constitution, the function of the Ministry of Education, Government of India, is primarily to advise the Provincial Governments and they have accordingly been requested to fix the salaries of displaced teachers on the basis indicated above. Bengal, Bombay and East Punjab have agreed to consider the previous pay in fixing the salary and Government of India are in correspondence with other Provincial Governments in this matter.

#### NEWSPAPERS, PERIODICALS AND MAGAZINES PUBLISHED IN INDIA

**\*1270. Lala Raj Kanwar:** Will the Honourable Minister of Information and Broadcasting be pleased to state:

(a) the number of newspapers, periodicals and magazines published in India according to languages; and

(b) how many and which of them are subsidized by the Government of India, and what the subsidy is in each case?

**The Honourable Shri R. R. Diwakar:** (a) A statement is placed on the table of the House: the numbers shown are approximate as full up to date information in all cases is not available.

(b) The Government of India do not subsidize any newspapers or periodicals.

#### STATEMENT

*Number of newspapers and periodicals in each province*

| Province         | English |          |             | Hindi   |          |             | Urdu    |          |             | Bengali |          |             | Tamil   |          |             | Gujrati |          |             |
|------------------|---------|----------|-------------|---------|----------|-------------|---------|----------|-------------|---------|----------|-------------|---------|----------|-------------|---------|----------|-------------|
|                  | Dailies | Weeklies | Periodicals | Dailies | Weeklies | Periodicals | Dailies | Weeklies | Periodicals | Dailies | Weeklies | Periodicals | Dailies | Weeklies | Periodicals | Dailies | Weeklies | Periodicals |

### VISIT OF MEMBERS OF STANDING ADVISORY COMMITTEE FOR MINISTRY OF DEFENCE TO MILITARY INSTALLATIONS

\*1271. Prof. Yashwant Rai: (a) Will the Honourable Minister of Defence be pleased to state whether it is a fact that some members of the Standing Advisory Committee for the Ministry of Defence visited military installations recently?

(b) How much expenditure has been incurred on account of these visits?

The Honourable Sardar Baldev Singh: (a) Yes.

(b) Rs. 3,600 approximately.

### REPORT OF ADVISER TO MINISTRY OF STATES re COCHIN AND TRAVANCORE

\*1272. Shrimati Dakshayani Velayudhan: (a) Will the Honourable Minister of States be pleased to state the purpose of the visit of the Adviser to the Ministry of States to Cochin and Travancore?

(b) What is the result of his talks with the representatives of those States?

(c) Has he submitted any proposal for the formation of a union of Cochin and Travancore?

The Honourable Sardar Vallabhbhai Patel: (a) Government had received representations about the political future of these States and also requests for a representative of the States Ministry to visit these States. The Adviser accordingly visited Travancore and Cochin to study local conditions and held consultations in connection with the settlement of the political future of these States.

(b) and (c). The Adviser's report on the political future of the States of Cochin and Travancore is under the consideration of the Government of India.

### UNAUTHORISED CONSTRUCTIONS IN DELHI

\*1273. Babu Ramnarayan Singh: Will the Honourable Minister of Health be pleased to state:

(a) whether the attention of Government has been drawn to the news published in the *Hindustan Times* of Delhi dated 27th August, 1948 under the caption 'Unauthorised Constructions in Delhi';

(b) whether it is a fact that in accordance with the decision and in pursuance of the policy of Government, the Notified Area Committee, Civil Station, Delhi, decided that all unauthorised constructions in Delhi should be inspected by the municipal authorities and if they conform to the municipal health bye-laws, constructions should be regularised and those that do not conform to the bye-laws should either be pulled down or brought up to specification;

(c) whether it is a fact that the above decision of Government was meant for the whole of Delhi and that in view of the scarcity of building materials and accommodation, Government were reluctant to demolish the already constructed houses irrespective of whether they were constructed by displaced persons or others;

(d) the number of such unauthorised houses in Delhi within the different Notified Area Committees, Delhi Municipality and the Delhi Improvement Trust; and

(e) how many of such unauthorised houses were regularised by each of these bodies?

**The Honourable Rajkumari Amrit Kaur:** (a) Yes.

(b) Yes.

(c) Yes, the policy was applicable to the whole of Delhi for displaced persons.

(d) and (e). A list containing the information is placed on the table of the House.

#### STATEMENT

##### List of Unauthorised Constructions in Delhi

| Name of Local Body                    | Number of unauthorised houses. | Constructions regularised |
|---------------------------------------|--------------------------------|---------------------------|
| Notified Area Committee, Fort         | 1                              | Nil                       |
| Delhi Municipal Committee             | 1205                           | Nil                       |
| New Delhi Municipal Committee         | 1904                           | Nil                       |
| Notified Area Committee Civil Station | 1515                           | Nil                       |
| Municipal Committee Shahdara          | 80                             | Nil                       |
| Delhi Improvement Trust               | 3608                           | Nil                       |

#### SCHEMES OF DELHI IMPROVEMENT TRUST

**\*1274. Babu Ramnarayan Singh:** (a) Will the Honourable Minister of Health be pleased to state how many schemes have been formulated and taken up by the Delhi Improvement Trust since its inception?

(b) How many of such schemes of Improvement and Development have been completed up to date?

(c) Is it a fact that an area is acquired for improvement and development and after development, the plots are leased out by auction?

**The Honourable Rajkumari Amrit Kaur:** (a) Thirty-eight.

(b) Twenty.

(c) This is the general rule of procedure. In accordance with the Land Disposal Rules of the Delhi Improvement Trust plots are disposed of by auction or by tender. Nazul land is generally given on perpetual lease and non-nazul land is allowed to be held in freehold.

#### RESTRICTIONS ON IMPORT OF BULLION

**\*1275. Shri Sita Ram S. Jajoo:** Will the Honourable Minister of Finance be pleased to state:

(a) whether Government have considered the suggestion made from time to time by the commercial and financial community in the country regarding the relaxation of the restrictions on the import of bullion from abroad as an anti-inflationary measure; and

(b) if not, whether Government propose to consider it now?

**The Honourable Dr. John Matthai:** (a) and (b). Government have considered these suggestions but do not propose at present to alter their policy.

#### POSTPONED STARRED QUESTIONS AND ANSWERS

Postponed from 10th March, 1949

RELAY OF B. B. C. BROADCASTS BY A. I. R.

**\*1013. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state what are the terms under which B.B.C. broadcasts are being relayed by the All India Radio?

(b) For how long do Government propose to continue the present arrangements?

**The Honourable Shri R. R. Diwakar:** (a) No terms are attached to the relay of the B.B.C. 9-30 p.m. news bulletin by All India Radio.

(b) The question whether the present arrangements should be continued is under consideration and a decision is expected to be reached shortly.

#### BROADCAST OF WESTERN MUSIC FROM A. I. R. STATIONS

**\*1032. Shri Mahavir Tyagi:** Will the Honourable Minister of Information and Broadcasting be pleased to state the number of hours for which western music is broadcast every week from the All India Radio Stations at Calcutta, Bombay and Delhi?

**The Honourable Shri R. R. Diwakar:** The duration of Western Music broadcast per week from the Delhi, Bombay and Calcutta Stations of All India Radio during February 1949 was as follows:

Delhi—10 hours, 10 minutes.

Bombay—11 hours.

Calcutta—5 hours, 55 minutes.

#### UNSTARRED QUESTIONS AND ANSWERS

##### ASSESSMENT OF HINDU UNDIVIDED FAMILY

**101. Pandit Thakur Das Bhargava:** Will the Honourable Minister of Finance be pleased to state whether Government have issued any instructions to the Income-tax authorities to treat the Hindu undivided family as divided after the partition in status has been made, though the joint property has not been divided by metes and bounds, and if not, why not?

**The Honourable Dr. John Matthai:** The attention of the honourable member is invited to the reply given to starred question No. 1158, on the 17th March 1949. Instructions have been issued to the effect that if partition of property in a Hindu family is established by a registered deed or other evidence acceptable to a court of law, separate assessments should be made on the members, without further question.

##### HINDU UNDIVIDED FAMILIES ASSESSED TO INCOME-TAX AND SUPER-TAX

**102. Pandit Thakur Das Bhargava:** (a) Will the Honourable Minister of Finance be pleased to state the number of Hindu undivided families who had to pay income-tax on an income of—

(i) Rs. 5,000/- or below;

(ii) Rs. 10,000/- and below, but over Rs. 5,000/-;

- (iii) Rs. 25,000/- and below, but over Rs. 10,000/-;
- (iv) Rs. 50,000/- and below, but over Rs. 25,000/-;
- (v) Rs. 1,00,000/- and below, but over Rs. 50,000/-;
- (vi) Rs. 1,50,000/- and below, but over Rs. 1,00,000/-; and
- (vii) over Rs. 1,50,000/- for the years 1946-47 and 1947-48?

(b) What is the number of Hindu undivided families who had to pay super-tax on an income of—

- (i) Rs. 50,000/- or below;
- (ii) Rs. 1,00,000/- and below, but over Rs. 50,000/-;
- (iii) Rs. 1,50,000/- and below, but over Rs. 1,00,000/-; and
- (iv) Over Rs. 1,50,000/- for the years 1946-47 and 1947-48?

**The Honourable Dr. John Matthai:** (a) and (b). A statement is attached giving the number of Hindu undivided families assessed to income-tax and super-tax in the Dominion of India during the year 1947-48. The classification adopted in the income-tax statistics is slightly different from what is required by the honourable member. Information for the nearest grade of income has been given.

## STATEMENT

(a) Number of Hindu Undivided Families assessed to Income-tax during the year 1947-48 in the Dominion of India.

| Grades of total income                            | No. of assesses |
|---------------------------------------------------|-----------------|
| (i) Below Rs. 5,000                               | 29,363          |
| (ii) Rs. 5,000 and over but below Rs. 10,000      | 13,659          |
| (iii) Rs. 10,000 and over but below Rs. 25,000    | 7,986           |
| (iv) Rs. 25,000 and over but below Rs. 50,000     | 2,171           |
| (v) Rs. 50,000 and over but below Rs. 1,00,000    | 733             |
| (vi) Rs. 1,00,000 and over but below Rs. 2,00,000 | 216             |
| (vii) Rs. 2,00,000 and over                       | 122             |
| TOTAL                                             | 51,250          |

(b) Number of Hindu Undivided Families assessed to Super-tax during the year 1947-48 in the Dominion of India.

| Grades of total income                             | No. of assesses |
|----------------------------------------------------|-----------------|
| (i) Rs. 55,000 or below                            | 2,993           |
| (ii) Rs. 1,00,000 and below but over Rs. 55,000    | 616             |
| (iii) Rs. 1,50,000 and below but over Rs. 1,00,000 | 179             |
| (iv) Over Rs. 1,50,000                             | 172             |
| TOTAL                                              | 3,960           |

MINIMUM INCOME ON WHICH SUPER-TAX AND BUSINESS PROFITS TAX ARE PAYABLE

**103. Pandit Thakur Das Bhargava:** (a) Will the Honourable Minister of Finance be pleased to state whether the amount of minimum income on which super-tax was payable was different in the case of individuals and undivided Hindu family a few years back and if so, what were the different amounts?

(b) Is it also a fact that in regard to Business Profits Tax the amount of minimum income on which Business Profits Tax is payable is different in the case of an individual from that in the case of a Hindu undivided family and if so, what are the different amounts?

(c) If the answers to parts (a) and (b) above be in the affirmative, what are the reasons for this differentiation?

(d) Why are these reasons not applicable in the case of poorer Hindu undivided families who pay income-tax?

**The Honourable Dr. John Matthai:** (a) Yes.

The amounts on which super-tax were not payable are given below:

|                      | Amount exempt from Super-tax |
|----------------------|------------------------------|
| 1922-23 to 1930-31.— |                              |
| (1) H.U.F.           | First Rs. 75,000             |
| (2) Individuals      | Rs. 50,000                   |
| 1931-32 to 1938-39.— |                              |
| (1) H.U.F.           | Rs. 75,000                   |
| (2) Individuals      | Rs. 30,000                   |
| 1939-40 to 1948-49.— |                              |
| (1) H.U.F.           | Rs. 25,000                   |
| (2) Individuals      |                              |

(b) The amounts were different. They are shown below :

|                                              | Amount exempt from Business Profits Tax |
|----------------------------------------------|-----------------------------------------|
| Chargeable Accounting period ending 31-3-47— |                                         |
| (1) H.U.F.                                   | Rs. 2 lakhs.                            |
| (2) Individuals                              | Rs. 1 lakh.                             |
| Chargeable Accounting period ending 31-3-48— |                                         |
| (1) H.U.F.                                   | Rs. 2 lakhs.                            |
| (2) Individuals                              |                                         |

(c) The reason apparently was that a family's "ability to pay" was considered to be less than that of an individual's.

(d) The grant of any such concession to Hindu families was inconsistent with the treatment accorded to other group assesses, as for example, Associations and unregistered firms, who are taxed just like individuals. The concessions were therefore withdrawn. However, the whole question has been investigated by the Income-tax Investigation Commission whose recommendations are now under the consideration of Government.

## INCOME-TAX CONCESSION TO SEPARATE INCOME TO MEMBERS OF HINDU UNDIVIDED FAMILIES

104. Pandit Thakur Das Bhargava: Will the Honourable Minister of Finance be pleased to state the estimate of the amount of concession given under section 14 of the Income-tax Act to members of Hindu undivided families in respect of not including their separate incomes for the purpose of calculation of rate in regard to Income-tax and Super-tax in the year 1947-48?

The Honourable Dr. John Matthai: Although it is not possible to make even a rough estimate of the value of the concession, without a study of thousands of assessment records, experience shows that the amount of the concession which accrues as a result of the joint family concept is very considerable, as follows:

(i) The practice of effecting partial partition (by partnership agreement or otherwise) of the assets of a family, without disrupting the larger family as such, is almost universal, with the result that what would otherwise have been the income of the larger family is split up into  $(n+1)$  family assessments, where  $n$  is the number of stirpes in the larger family. The result of this splitting up of the assessment is a lowering of the rate of taxation.

(ii) Apart from the above advantage, each member of the family is assessed on his individual income (i.e. income not obtained by partial partition) at a rate which does not take any account of either the share of income in the unpartitioned income of the larger family or the partially partitioned income of the stirpes of which he is a member.

## APPOINTMENT OF TAXATION ENQUIRY COMMITTEE

105. Pandit Thakur Das Bhargava: Will the Honourable Minister of Finance be pleased to state whether Government propose to appoint a Taxation Enquiry Committee in the near future, as promised many times in the House by the various Finance Ministers and if so, when?

The Honourable Dr. John Matthai: I would invite the honourable member's attention to my speech in this House on the 16th March 1949, wherein I announced that Government propose to appoint a Committee of experts shortly to investigate and report on the distribution of national income in the country as a preliminary to any taxation enquiry.

## ARREARS OF WORK IN INCOME-TAX DEPARTMENT

106. Pandit Thakur Das Bhargava: Will the Honourable Minister of Finance be pleased to place on the table of the House a statement showing:

(a) the arrears of work in the Income-tax Department in the years 1946, 1947 and 1948 as regard—

(i) the number of persons whose cases were not decided, in these years and remained pending; and

(ii) the amount which remains unrealised from persons assessed in these years;

(b) the number of cases at present pending for assessment;

(c) the amount which is at present pending realisation; and

(d) the amount which has become barred of realisation during the years 1946, 1947 and 1948.

The Honourable Dr. John Matthai: (a) to (c). The information relating to arrears of Income-tax assessments and demands has been given on page 7 of the

printed Report on the work of the Ministry of Finance circulated to honourable members recently. The figures relating to Income-tax for 1946-47 and 1947-48 are given below:

|        |               |        |
|--------|---------------|--------|
| 1-4-46 | Cases pending | 226689 |
| 1-4-47 | ...           | 203296 |

The total amount of arrears are—

|        |       |
|--------|-------|
| 1-4-46 | 34 80 |
| 1-4-47 | 42 80 |

These do not exclude the amount reserved for Settlement of relief claims and that pending with Collectors.

(d) No demand is allowed to get barred but amounts which become altogether irrecoverable are written off. The amounts so written off were—

|         |              |
|---------|--------------|
| 1945-46 | Rs. 93,000   |
| 1946-47 | Rs. 1,12,000 |
| 1947-48 | Rs. 78,000   |

## ACTION TAKEN BY INCOME-TAX DEPARTMENT AGAINST ASSESSEES

107. Pandit Thakur Das Bhargava: (a) Will the Honourable Minister of Finance be pleased to state in how many cases the Income-tax Department took action against assesseees in the years 1946, 1947 and 1948:

(i) by way of imposing penalties under the Income-tax Act; and

(ii) by way of criminal prosecution for false returns?

(b) How many cases were compromised by the Department?

The Honourable Dr. John Matthai:

(a) (i)—

|          | Number of cases | Total amount of penalty levied Rs. (000) |
|----------|-----------------|------------------------------------------|
| 1945-46  | 6,751           | 3,968                                    |
| 1946-47  | 8,527           | 4,911                                    |
| 1947-48* | 6,385           | 5,476                                    |

(ii)

|         | Number of cases |
|---------|-----------------|
| 1945-46 | 2               |
| 1946-47 | 7               |
| 1947-48 | 17              |

(b)

|          | Number of cases | Amount of composition Rs. (000) |
|----------|-----------------|---------------------------------|
| 1945-46  | 107             | 240                             |
| 1946-47  | 78              | 444                             |
| 1947-48* | 38              | 1,710                           |

\*For Indian Dominion excluding East Punjab.

Figures for calendar years are not available.

## APPLICATIONS FOR SANCTION UNDER SECTION 34 OF INCOME-TAX ACT

**108. Pandit Thakur Das Bhargava:** Will the Honourable Minister of Finance be pleased to state in how many cases, after the new amendment or law, was sanction to the applications made by Income-tax officers under section 34 of the Income-tax Act not accorded by the Commissioners and how many applications were in all made for such sanction?

**The Honourable Dr. John Matthai:** The information is being collected and it will be laid on the table in due course.

## PROCEEDINGS UNDER SECTION 34 OF INCOME-TAX ACT

**109. Pandit Thakur Das Bhargava:** Will the Honourable Minister of Finance be pleased to state in how many cases proceedings under the un-amended section 34 of Income-tax Act were taken during the years 1946, 1947 and 1948 and in how many cases have proceedings been taken since the new amendment of section 34?

**The Honourable Dr. John Matthai:** The information is being collected and a statement will be laid on the table in due course.

## FIXATION OF PAY OF DISPLACED TEACHERS

**110. Pandit Thakur Das Bhargava:** Will the Honourable Minister of Education be pleased to state whether any regard is paid to the last pay which a displaced teacher was getting while he was serving in Pakistan and the length of service in the educational line when the pay for displaced teachers is fixed at the time of their re-employment?

(b) Are Government aware that the Ministry of Relief and Rehabilitation assured the displaced teachers that at the time of re-employment the length of service and the amount of the last pay drawn, while the teachers served in Pakistan, would be taken into consideration?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) and (b). Attention of the honourable member is invited to reply given to Starred Question No. 1269 asked by Giani Gurmukh Singh Musafir today.

## GOVERNMENT ADVERTISEMENTS IN NEWSPAPERS

**111. Shri Mahavir Tyagi:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state separately the amounts given for Government advertisements to various newspapers and journals, money paid or money due to them, during the period from 1st February, 1948 to 31st January, 1949?

(b) How much of this amount is paid or is due to papers in English, and how much to papers in Indian languages?

**The Honourable Shri R. R. Diwakar:** (a) and (b). The information is being collected from the various Ministries and will be laid on the table of the House as soon as it is complete.

## SHORT NOTICE QUESTION AND ANSWER.

## FIRE IN UPPER CLASS COMPARTMENTS IN GRAND TRUNK EXPRESS

**Sreematty Annie Mascarene:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the upper class compartments in the Grand Trunk Express, which left Madras on the 11th March, 1949, caught fire near Bhopal?

(b) Were there any casualties or loss or damage to passengers?

(c) What was the cause of the fire?

(d) Did the train arrive late at Delhi and if so, by how many hours?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes. A bogie with Class I and II accommodation on the Grand Trunk Express which left Madras on 11th March 1949 caught fire about four miles from Bhopal.

(b) No. There were no casualties or loss or damage to passengers. The fire was noticed soon after it started and the passengers and their luggage were taken out of the compartments immediately.

(c) The cause of the fire is under investigation.

(d) The train arrived 2 hours, 50 minutes late at Delhi.

**Sreematty Annie Mascarene:** Is it a fact that the cause of the fire was due to cheap wiring?

**The Honourable Shri N. Gopalaswami Ayyangar:** We are not yet able to say what the cause of the fire was. The Government Inspector of Railways is holding an investigation and he will be able to tell us whether what the honourable member suggests could be taken as the cause of the fire.

**Sreematty Annie Mascarene:** May I know the loss to the Department?

**The Honourable Shri N. Gopalaswami Ayyangar:** About Rs. 30,000--the cost of the bogie itself.

**Shri L. Krishnaswami Bharathi:** How many passengers were there in the bogie at that time?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I am unable to give the number, but all the passengers were taken out.

**Shri R. K. Sidhva:** The Honourable Minister stated that the loss was Rs. 80,000. May I know whether that is the cost of the coach that was destroyed?

**The Honourable Shri N. Gopalaswami Ayyangar:** I said that.

**Shri H. V. Kamath:** When were the old dilapidated electric fittings rehabilitated and renovated?

**The Honourable Shri N. Gopalaswami Ayyangar:** I have no information whether the electric fittings were really dilapidated.

**Shri M. Tirumala Rao:** May I know, Sir, whether there was any suspicion of sabotage in this incident? And do the terms of enquiry of the Inspector include this?

**The Honourable Shri N. Gopalaswami Ayyangar:** I dare say the Government Inspector, if it is possible at all, will throw light on that suspicion also.

**Shri L. Krishnaswami Bharathi:** Where did the fire originate, Sir?  
**The Honourable Shri N. Gopalaswami Ayyangar:** In the bogie!

**Shri L. Krishnaswami Bharathi:** I wanted to know in which part of the bogie—was it near the electric wiring etc.?

**Mr. Speaker:** That matter is under investigation by an officer. Let that investigation not be carried on here by supplementaries.

**Shri R. K. Sidhva:** Is this the second accident during the year on this track?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid the honourable member has the advantage over me; if he knows of a previous one, I will take it from him.

**Shri H. V. Kamath:** With regard to my question relating to fittings, does not the Honourable Minister know that electrical switches in the compartments were removed mainly because there was not good wiring enough for these electric fittings?

**Mr. Speaker:** I do not propose to allow that question.

## CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES

### (PART I—QUESTIONS AND ANSWERS)

*Tuesday, 22nd March, 1949*

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS

#### (a) ORAL ANSWERS

#### REGROUPING OF RAILWAYS AND RE-ORGANISATION OF WORKSHOPS

**\*1276. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state whether the question of regrouping various Railways and re-organisation of various Workshops is under consideration and if so, with what result?

(b) Has any scheme been already prepared therefor?

(c) Has any site for locating a workshop for the East Punjab Railway been decided upon?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) to (c). The question is already under consideration and I would refer the honourable member to para. 46 of my Budget Speech.

**Shri R. K. Sidhva:** Since how long is this question under consideration and may I know whether the Honourable Minister give us some indication as to when this is likely to take shape?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think the consideration started in 1937. I can give the honourable member hopes that this consideration will be completed before the end of the next financial year.

**Shri R. K. Sidhva:** With reference to part (c) of the question may I ask where is the present workshop for the East Punjab Railway, where are the repairs done?

**The Honourable Shri N. Gopalaswami Ayyangar:** At present there is none like a big workshop for the E. P. Railway. We are thinking of erecting one and the selection of the site is under consideration.

**Shri R. K. Sidhva:** I wanted to know where the vehicles and other things are repaired today for the E. P. Railway—at which workshop are they being repaired?

**The Honourable Shri N. Gopalaswami Ayyangar:** In other workshops. There are small workshops here and there, but where large repairs are required they are sent to the workshops of other Railways.

**Shri Arun Chandra Guha:** Is there any workshop for Assam?

**The Honourable Shri N. Gopalaswami Ayyangar:** Not at present.

**Shri Arun Chandra Guha:** Then how are the coaches and bogies repaired?

**The Honourable Shri N. Gopalaswami Ayyangar:** They will be repaired at a new workshop for which also we are in search of a site. We have made provision for acquisition of land in the coming year.

**Shri Arun Chandra Guha:** What is the present arrangement for repairs?

**The Honourable Shri N. Gopalaswami Ayyangar:** Hitherto it was done in the workshop of the B. A. Railway. At present, as I said, there is no definite workshop for that area. It will be done in the workshops of other Indian Railways.

**Dr. V. Subramaniam:** May I know what will be the position of the Railways owned by Indian States which have acceded to the Indian Union?

**The Honourable Shri N. Gopalaswami Ayyangar:** The question of Indian State Railways is under investigation. Some of them are being taken over by the Railway Board. The taking over of other Railways is under consideration and the whole question of how they will be fitted into the Indian Railway system is comprehensively under examination at present.

**Srijut Kuladhar Chaliha:** Is there any proposal to start a workshop at Bongaigaon in the Assam Railway?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am not quite sure if that is not one of the sites under examination.

#### LATE ARRIVAL OF FRONTIER MAIL AT DELHI

\*1277. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state the number of days on which the Frontier Mail arrived late at Delhi during November and December, 1948 and January and February 1949?

(b) Is it a fact that invariably this train arrives late?

(c) Have some Railways observed Punctuality Weeks and if so, which Railway and with what result?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) and (b). The Frontier Mail arrived late at Delhi by 20 minutes and less on 4 days, and by more than 20 minutes on 25 days during November; by more than 20 minutes on 31 days in December, 1948; by 20 minutes and less on 6 days and by more than 20 minutes on 25 days during January, 1949; and by 20 minutes and less on 5 days and by more than 20 minutes on 9 days during February, 1949.

(c) A concerted drive for the improvement of punctuality was launched on all the railways, and as a part of it the B. B. and C. I. Railway observed a Punctuality Week from 12th July, 1948 to 18th July, 1948, during which period there was an improvement in the running of trains. The drive on all railways has improved punctuality generally and is being maintained.

**Shri R. K. Sidhva:** What is the meaning of more than twenty minutes, may I know?

**An Honourable Member:** Twenty-one minutes.

**Honourable Members:** What is the upper limit?

**The Honourable Shri N. Gopalaswami Ayyangar:** It may be twenty-one minutes; it may be even three hours.

**Shri R. K. Sidhva:** On how many days did the train arrive late by more than one hour?

**The Honourable Shri N. Gopalaswami Ayyangar:** I have not got the figures by days here. If the honourable member is interested I can give him information for every day in all these months.

**Shri R. K. Sidhva:** I wanted to know only the total number of days in the months of January and February 1949 when this Frontier Mail arrived late by one hour and more.

**Mr. Speaker:** Instead of going into the details of late arrivals every day he may pursue part (c); that point is covered by part (c).

**Shri H. V. Kamath:** Is it a fact that at very rare intervals, as if to make amends for the usual delay, a train arrives before time much to the discomfort of people going to the station to meet their friends and finding that they have left the station already?

**The Honourable Shri N. Gopalaswami Ayyangar:** That is so, I think the information I have given bears out that statement.

**Shri R. K. Sidhva:** On how many days during January and February did the train arrive in Delhi before time?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think on all the thirty-one days of January it arrived late. In February also it was late on fourteen days.

**Babu Ramnarayan Singh:** I want to know whether for late arrivals the guards and conductors are taken to task and sometimes punished also.

**The Honourable Shri N. Gopalaswami Ayyangar:** So far as the Frontier Mail is concerned there were special reasons for its coming late. There was work on the double track being executed during these months. As a result of engineering restrictions and cautious driving, practically every day the train had to be late.

**Shri R. K. Sidhva:** May I know whether up to the year 1940 there was a rule that a driver who brings the train later than the scheduled time is fined a certain amount and if he brings it at the right time a reward is given? Is it a fact?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I am ignorant of what was in existence before 1940.

**Sreematty Annie Mascarene:** Is it a fact that late arrivals of trains are due to stopping of the carriages on the way owing to compartments getting overheated?

**The Honourable Shri N. Gopalaswami Ayyangar:** It might have happened in a stray case or two.

**Shri Moturi Satyanarayana:** Is it not a fact that some of the mails arrive late because the connecting trains are late and therefore the mails are late?

**The Honourable Shri N. Gopalaswami Ayyangar:** In some cases the lateness of arrival is due to that cause.

#### PROVISION OF FANS IN THIRD CLASS COACHES

\*1278. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state what steps have been taken to provide fans in third class coaches?

(b) Were any efforts made to place orders for fans and if so, when and what is the number of fans so ordered for?

(c) What are the details of the scheme in regard to this and when are all third class coaches likely to be fitted with fans?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) It has been decided to provide electric fans in compartments of all new third class coaches, subject to the availability of electrical equipment. There are 274 Class III coaches on order with firms in India and arrangements have been made to fit fans in them.

(b) Orders were placed with Messrs. Hindustan Aircraft Ltd. in May 1947 for 100 Class III coaches complete with 1,000 fans. For the remaining 174

1738

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [22ND MARCH 1949]

class III coaches on order with the Wagon Manufacturing Panel, 2,088 fans will be fitted. The E. I. Railway who will do the furnishing placed the necessary orders in February 1949.

(c) As already stated in (a) above, all new Class III all-metal coaches will be fitted with fans. Orders have also been issued to the Railways to fit fans in Ladies compartments of all the old class III coaches, as and when materials and fittings become available.

**Shri R. K. Sidhva:** May I know whether the Railway Board have fixed up a programme for a number of years within which all the coaches will be fitted with fans, and if so, within what period?

**The Honourable Shri N. Gopalaswami Ayyangar:** The whole thing depends upon our coach position, if I may put it in that way. That is to say, when we have on the line or for use on the line a sufficient number of coaches which will enable us to withdraw a certain number into our workshops for being fitted with electric fans, we shall be able to pursue a regular programme. At present the coach position is short of requirements and it is not easy to withdraw a substantial number of coaches into our workshops for this purpose.

**Shri R. K. Sidhva:** With regard to the 2886 fans order for which, the Honourable Minister stated, has been placed in February, may I know when delivery is expected, and when this number is likely to be fitted?

**The Honourable Shri N. Gopalaswami Ayyangar:** They refer to the new coaches. They will be delivered I think in the course of the year 1949-50 and possibly a portion in the year 1950-51.

**Shri R. K. Sidhva:** What is the number of fans fitted in a coach carrying 45 persons—one, two or three?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I am unable to answer that very difficult question. I should like to have notice of it.

**Seth Govind Das:** Are these fans going to be distributed in every line or are they going to be fitted first on a particular line and then on other lines?

**The Honourable Shri N. Gopalaswami Ayyangar:** These new coaches?

**Seth Govind Das:** Yes.

**The Honourable Shri N. Gopalaswami Ayyangar:** They will be distributed on all the Railways as far as possible.

**Shri H. V. Kamath:** What are the reasons for discrimination in favour of women so far as fan-fitting is concerned?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think women are entitled to that discrimination.

**Mr. Frank Anthony:** What capacity in the workshops is at present being taken up in re-modelling Class I and Class II carriages?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid I must have notice.

**Shri R. K. Sidhva:** Is it not a fact that women have demanded equality of rights? Then why has this speciality been given to them?

**Mr. Speaker:** Order, order.

#### WELLS SUNK IN ARABLE AREAS

\*1279. **Shri R. K. Sidhva:** Will the Honourable Minister of Agriculture be pleased to state how many wells have been sunk in arable areas in the country as a step in the "Grow More Food" Campaign?

**The Honourable Shri Jairamdas Doulatram:** According to the reports received from Provinces 124,492 wells have been sunk and repaired under the 'Grow More Food' Campaign since 1943.

**Shri R. K. Sidhva:** Will the Honourable Minister kindly give us the number of wells province-wise and also say in which Province the largest number of wells were sunk?

**The Honourable Shri Jairamdas Doulatram:** I would be able to supply the honourable member with details for all Provinces from year to year but I have not got the totals now with me. But I think the largest number was in Madras because the largest amount of money has been spent there; next is probably the East Punjab and then the United Provinces.

**Shri R. K. Sidhva:** Has any grant been given by us for this purpose?

**The Honourable Shri Jairamdas Doulatram:** Yes, we do give grants. We give 25 per cent. of the total expense, 25 per cent. is given by the Provinces and 50 per cent. by the local cultivators.

**Sardar Bhopinder Singh Man:** Do these wells include tube-wells also, and if so, what is the number of tube-wells sunk?

**The Honourable Shri Jairamdas Doulatram:** Tube-wells are not included; these are ordinary masonry wells.

**Seth Govind Das:** Is there any definite plan about these wells and is that plan prepared by the Provincial Government and then the Central Government is approached for the grant, or that plan has been approved by the Central Government?

**The Honourable Shri Jairamdas Doulatram:** These proposals come from the Provincial Governments, we approve of them, and then sanction the amount.

**Shri Ram Chandra Upadhyaya:** How many wells were sunk and how many repaired?

**The Honourable Shri Jairamdas Doulatram:** The number of new wells sunk was 89,524. Old wells which were repaired were 34,968.

**Shri Ram Chandra Upadhyaya:** May I know the number in the Matsya Union?

**The Honourable Shri Jairamdas Doulatram:** I am afraid I would require notice of that.

**Shri L. Krishnaswami Bharathi:** May I know whether Government propose to continue this scheme for the future also?

**The Honourable Shri Jairamdas Doulatram:** We do propose to encourage the construction of wells where they are needed.

**Shri T. T. Krishnamachari:** How much money was sunk on this scheme?

**The Honourable Shri Jairamdas Doulatram:** We sanctioned in all Rs. 3,77,00,000, and I do not think that was all sunk.

**Dr. V. Subramaniam:** What is the percentage of success, that is to say, in how many wells they were able to find water?

**The Honourable Shri Jairamdas Doulatram:** Well, the acreage covered by these is 2,09,376½ acres and the yield was 76,483 tons.

**Dr. V. Subramaniam:** I am not referring to the acreage. On digging in certain wells there may be water but in certain others rocks may be found after sinking. I want to know what is the percentage of effective success in digging these wells?

**The Honourable Shri Jairamdas Doulatram:** I can only give the yield, and as I said it was 76,483 tons.

**Shri R. K. Sidhva:** May I know whether we have given grants for the repair of wells also?

**The Honourable Shri Jairamdas Doulatram:** We do give grants on the repair of wells also, and I gave the number of old wells which were repaired.

**Shri Kala Venkata Rao:** Is it a fact that the Madras Government has made it a condition that in each well dug there should be at least six feet of water throughout the year?

**The Honourable Shri Jairamdas Doulatram:** That will be for the Madras Government to answer. I have no information.

**Shri Moturi Satyanarayana:** May I know the names of the Provinces that have failed to utilise the grants offered to them?

**The Honourable Shri Jairamdas Doulatram:** I do not think any Province has failed to utilise the grant. We do not give any lump-sum grant. Each individual scheme comes up for separate consideration and sanction. We do not allot any lump-sum from Province to Province. As I said, each individual allot any lump-sum from Province to Province. As I said, each individual will be irrigated what results will be expected, all that detail is included under individual schemes.

#### ACCUMULATION OF CLOTH IN MILLS

**\*1280. Dr. Mono Mohan Das:** Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that the cloth mills of Madhya Bharat faced a closure in December, 1948 due to the locking up of their capital because of the accumulation of cloth and gave notice to their employees accordingly?

**The Honourable Dr. Syama Prasad Mookerjee:** This is probable, but only the Indore Mills gave notice of closure to their employees. The mills however, did not actually close.

**Dr. Mono Mohan Das:** Is it a fact that some of the mills in India are now facing a closure for want of raw cotton?

**The Honourable Dr. Syama Prasad Mookerjee:** It is altogether a different question.

**Shri H. V. Kamath:** How many such instances of capital or industry going on strike have occurred all over the country during the last year?

**Mr. Speaker:** That is much beyond the scope of the present question.

#### FISHING WITH POWERED VESSELS

**\*1281. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Agriculture be pleased to state the progress made in fishing with power driven vessels?

(b) Has any attempt been made to start deep-sea fishing?

(c) Is any research being done on the type of fishing nets and tackles required for fishing with motor vessels?

**The Honourable Shri Jairamdas Doulatram:** (a) For fishing successfully with power vessels, it is necessary to have detailed data about the fishing grounds, types of vessels and gear suitable for our waters, fishing seasons and fishing intensities in various regions of water, etc. To collect this data, Government of India have started a Pilot Deep-Seas Fishing Station at Bombay where a former naval vessel has been converted into a fishing boat. This vessel has

been conducting actual fishing operations off the Bombay coast. Government of Bombay are also carrying on fishing operations with motor-fishing vessel and a large number of motor-launches are also being employed as carrier vessels. Two private joint-stock companies are also carrying on fishing operations with powered vessels.

In Madras an old vessel 'Lady Nicholson' and 8 motor-fishing boats purchased from the Disposals Directorate are carrying on off-shore fishing operations.

In Travancore a 75 ft. motor fishing vessel is carrying on off-shore and deep-sea fishing operations, and a private joint-stock company has also acquired 4 or 5 vessels for a similar purpose.

In Baroda, a private company is being floated for off-shore fishing.

In Bengal and the Andamans, a number of companies have been, and are being, floated for carrying out fishing operations with power vessels.

(b) The Government of India's fishing trawler the 'Meena' and some of the other vessels mentioned under (a) above are engaging in deep-sea fishing.

(c) The Pilot Deep-Sea Fishing Station at Bombay mentioned above and special staff sanctioned for the Madras Fisheries Department are carrying out pilot experiments with nets and tackle used in trawling. Similar experiments in the use of seines and long lines are being conducted in Bombay, Madras and Travancore.

**Shri H. V. Kamath:** Is any research being conducted or are steps being taken to enable fishing in troubled waters not less than in placid waters?

**Mr. Speaker:** The question is not allowed.

**Dr. Mono Mohan Das:** May I know whether the West Bengal Government approached the Centre for fishing vessels?

**The Honourable Shri Jairamdas Doulatram:** Quite possibly, I am not aware of the correspondence.

**Dr. Mono Mohan Das:** Are vessels supplied or allotted to the Provincial Governments who approach the Centre?

**The Honourable Shri Jairamdas Doulatram:** There was no such allotment with regard to fishing vessels. If a province wants any assistance from the Centre in the matter of research or technical aid, we give it.

**Dr. V. Subramaniam:** What is the total tonnage of fish produced for commercial purposes?

**The Honourable Shri Jairamdas Doulatram:** So far our Bombay vessel is concerned, the yield was 175 tons, valued at about Rs. 70,000.

**Dr. V. Subramaniam:** What is the total tonnage of fish required for the population of our country?

**The Honourable Shri Jairamdas Doulatram:** We are at present producing 1½ crore maunds of fish, and we require about ten times more to meet our needs of consumption.

**Sreematty Annie Mascarene:** May I know whether deep-sea fishing is fitted with floating refrigerators?

**The Honourable Shri Jairamdas Doulatram:** We have in Bombay a refrigerator plant and I believe also in Madras.

#### LOSS OF FOODGRAINS DUE TO LOCUST-PESTS AND RUST

**\*1282. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Agriculture be pleased to state the quantity of basic food grains that have been lost due to locust-pests and rust during the years 1947-48 and 1948-49.

(b) What practical steps have been taken to combat these?

(c) In what areas were such tests made and what are the general results?

**The Honourable Shri Jairamdas Doulatram:** (a) No accurate estimate is available of the loss caused to food grains by all kinds of pests and diseases. At the Pest Infestation Conference held under the auspices of the F.A.O. in London in 1947, it was estimated that the over-all loss due to infestation in stored foodgrains in the world as a whole was about ten per cent.

(b) To prevent the damage done by locust, a permanent Locust Warning Organisation exists under the Ministry of Agriculture.

In 1946-47 the Ministry of Agriculture established a Plant Protection, Quarantine and Storage Directorate not only to deal with locust but also with all pests and diseases. This Directorate is taking the following steps to combat the damage caused by pests and diseases:—

(i) Assisting the Provinces and States to set up adequate plant protection organisations in their areas;

(ii) Assisting them in controlling outbreaks of pests and diseases on a large scale which is beyond the resources at their command;

(iii) Procuring from abroad and distributing pesticides machinery to Provinces and States;

(iv) Giving to Provinces and States information and timely warnings about the outbreaks of pests and diseases; and

(v) Preventing the entry of foreign pests and diseases which do not exist in India at present.

(c) During 1948-49, large scale operations were carried out against Rice Grasshopper in the Bombay Province, against Phadka in Ajmer-Merwara, diseases such as smuts in Delhi and Ajmer-Merwara by the method of seed treatment, mango and sugarcane pests in the U.P., monkey pest in Orissa, against a variety of pests and grasshoppers in Madras, and spraying operations for the control of blight in potato in West Bengal.

**Mr. Speaker:** I may say that this question was exhaustively gone into a few days back. So supplementaries may be put, taking that into consideration.

**Shri V. C. Kesava Rao:** May I know what are the areas where this pest menace is prevalent?

**The Honourable Shri Jairamdas Doulatram:** I have referred to all the areas. As a matter of fact, the pests which attack the crops make no difference between province and province.

**Seth Govind Das:** Is it a fact that the rust trouble still exists in many parts of the Central Provinces? What is being done to stop it? Do we give rust proof wheat to such areas where there is constant rust trouble?

**The Honourable Shri Jairamdas Doulatram:** We are trying as far as possible to supply the best variety of wheat which on the whole has withstood the rust pest, and that is Punjab Wheat called c591 we are making experiments. That variety of wheat is not enough for all the regions. As recommended by one of our specialists—Dr. Mehta—we have prohibited the cultivation of wheat in summer months and on hill areas, as the specialists say that if summer wheat is prohibited, there is less chance of the disease spreading.

**Seth Govind Das:** Is rust-proof seed being supplied chiefly to those areas where there is this rust trouble?

**The Honourable Shri Jairamdas Doulatram:** That is the idea.

**Shri H. V. Kamath:** How much foodgrain was lost or damaged owing to bad, inadequate or unscientific storage?

**The Honourable Shri Jairamdas Doulatram:** That can be only to a small percentage.

**Dr. P. S. Deshmukh:** Is it a fact that Dr. Mehta is working in some arts college, some non-technical college in Agra?

**The Honourable Shri Jairamdas Doulatram:** He has specialised in this subject in which he has been working for the last twenty years in the Agra College. Government is encouraging him in this work. He is one of our best specialists in the country.

**Shri T. A. Ramalingam Chettiar:** Is it a fact that the cultivation of wheat is prohibited in the Nilgris?

**The Honourable Shri Jairamdas Doulatram:** Yes, that is done as a protective step.

**Shri T. A. Ramalingam Chettiar:** Is it also a fact that there is no wheat rust in the Nilgris?

**The Honourable Shri Jairamdas Doulatram:** The wheat rust does not start where it actually appears. The disease does not start from where it appears. It starts from certain regions and then spreads. Therefore wheat is being prohibited in certain regions or heights from where it gradually spreads and attacks the plains. Therefore the disease is dealt with at the root.

**Shri T. A. Ramalingam Chettiar:** Where can it spread from the Nilgris, because there is no cultivation within three hundred miles?

**The Honourable Shri Jairamdas Doulatram:** It is said that these germs proceed along the direction of the wind or breeze and travel thousands of miles. This is what the scientists tell us.

**Shri B. N. Munavalli:** Are there any remedies for the pests of cotton?

**The Honourable Shri Jairamdas Doulatram:** Yes.

#### PRODUCTION OF SYNTHETIC PETROL

\*1283. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the steps proposed to be taken for the production of Synthetic Petrol?

(b) Have preliminary investigations been conducted and if so, what are the general features of the proposed scheme?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) A Committee set up by the Council of Scientific and Industrial Research having recommended the Fischer Tropsch Process as the most suitable process for gassification of coal and subsequent synthesis and liquefaction, an agreement has been concluded with Messrs. Keppers Company, Inc., of U.S.A. for the preparation by the Company of a project study of a scheme for producing synthetic oil from Indian coal in units with capacities per annum of 1,000,000 tons, 500,000 tons 250,000 tons and 100,000 tons each. The Company submitted their Preliminary Report on 16th October 1948 and their Final Report is expected to be ready by 31st March, 1949.

A further report on the Synthetic liquid fuels from coal prepared by the Foster Wheeler Corp., U.S.A. in association with the Texaco Development Corporation has since been received and is under examination of the Government expert.

The Government of Orissa who has undertaken an independent investigation in association with the National Petroleum Institute of France received a

Report from their Agents in Paris and passed it on to the Industry and Supply Ministry for examination. This report was, however, found scanty and has been returned for recasting.

The major decision with regard to the implementation of the scheme can only be taken after the various aspects of the problem have been fully studied by Government experts.

(b) Preliminary investigations have not yet been completed.

**Shri Mahavir Tyagi:** What was the expected production of the project which was submitted by the Orissa Government? Yours was one million tons. What was theirs?

**The Honourable Dr. Syama Prasad Mookerjee:** I have already said that the report has been sent back to the experts for further clarification. Theirs was on the basis of 100,000 tons production.

**Shri Mahavir Tyagi:** Is it a fact that your project which envisages one million tons is the biggest in the world?

**The Honourable Dr. Syama Prasad Mookerjee:** We have not yet settled whether our production will be for one million tons. We have asked for reports, including proposals for one million tons, 500,000 tons, 250,000 tons and 100,000 tons.

**Shri Mahavir Tyagi:** In view of the fact that there are possibilities in Orissa and elsewhere, why did not the Government of India start a smaller project rather than this big project?

**The Honourable Dr. Syama Prasad Mookerjee:** We have not started anything at all.

**Mr. Speaker:** The answer is very clear; they are investigating in all these forms and they have not decided anything.

**Shri Biswanath Das:** May I know whether the scheme prepared and presented by the Government of Orissa shows that manufacture is possible with far less investment than what is being given by the U.S.A. concerns and U.S.A. engineers?

**The Honourable Dr. Syama Prasad Mookerjee:** That is being examined now and we have asked for certain clarifications. As I said in my reply, the report has gone back to France.

#### TRANSPORT FACILITIES FOR SUGAR

**\*1284. Seth Govind Das:** (a) Will the Honourable Minister of Agriculture be pleased to state whether Government are aware of the fact that large stocks have accumulated in sugar factories for want of transport facilities?

(b) What efforts are being made for increasing the transport facilities?

**The Honourable Shri Jairamdas Doulatram:** (a) It is true that surplus stocks of sugar have accumulated at some of the sugar factories in United Provinces and Bihar out of last season's production, but this is mainly due to high prices of sugar which have resulted in a reduction in demand for sugar and not to want of movement facilities.

(b) Sugar has all along been given a high priority of movement by the Railways and the stock position is continually under watch by this Ministry with a view to remove any transport bottle-neck which may exist.

**Seth Govind Das:** May I take it, Sir, that there has been no trouble of transport as far as Sugar is concerned?

**The Honourable Shri Jairamdas Doulatram:** There has been trouble, but as I said, that is occasional and that is not itself responsible mainly for the

accumulation of the large stocks from last year's production. Here and there, there is difficulty and then that is gone into and removed. Only two days ago, there was a conference called at Kanpur with a view to remedy the transport difficulty with regard to Bihar factories on the O. T. Railway.

**Shri B. K. Sidhva:** The Honourable Minister stated that it is not due to want of transport facilities as far as (a) is concerned, but the high prices prevailing that this sugar has not been moving. May I know whether the manufacturers are hoarding sugar to realize high prices and do Government intend to take steps in that direction to bring down the prices?

**The Honourable Shri Jairamdas Doulatram:** They are not hoarding, but there is not much demand from the wholesale merchants at present.

#### REPAIR OF AERODROME AT JORHAT

**\*1285. Srijut Kuladhar Chaliha:** (a) Will the Honourable Minister of Communications be pleased to state whether the aerodrome at Jorhat (Rowrah) has been fully repaired and the airport is ready for use?

(b) If not, do Government propose to expedite the construction of the airport?

(c) Will airmails be carried to Jorhat and to Dibrugarh daily, and if so, when?

(d) Are Government aware that the industrial and commercial people are experiencing difficulty by not receiving mails quickly from other parts of India?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) and (b). The runway at Jorhat (Rowrah) is fully serviceable and is actually in use by non-scheduled aircraft on flights from Calcutta and beyond. Other facilities will be provided at this aerodrome depending on the demand from air transport operators and the availability of funds.

(c) The carriage of air mails direct to Jorhat will be considered when there is a regular air service calling at this place. Air mails are now conveyed direct to Mohanbari (Dibrugarh) on five days in the week.

(d) No such complaints have so far been received. The air mail service connections with the rest of India offer expeditious transit of mails if sent by air. The question of expediting the transit of surface mails to Assam by utilising the pre-partition route through East Pakistan is also under consideration.

**Srijut Rohini Kumar Chaudhuri:** May I know if wireless arrangements are provided in the aerodromes of Jorhat and Dibrugarh?

**The Honourable Mr. Rafi Ahmad Kidwai:** It has not yet been provided, but arrangements are being made.

**Srijut Kuladhar Chaliha:** May I ask when will the arrangements be completed and when we will have the installation?

**The Honourable Mr. Rafi Ahmad Kidwai:** As soon as we decide to start scheduled services, there will be no delay on account of equipment. We have got them ready.

#### DEVELOPMENT OF FISHERIES IN LAKE CHILKA, ORISSA

**\*1286. Srijut Kuladhar Chaliha:** Will the Honourable Minister of Agriculture be pleased to state whether Government have taken steps to develop the rearing of sea fish in lake Chilka in the Province of Orissa?

**The Honourable Shri Jairamdas Doulatram:** Development of the Fisheries of the Chilka Lake is the direct responsibility of the Government of Orissa, but the Fisheries Research staff of the Central Government is carrying out investigations into the measures that should be adopted for the development of fisheries of brackish and freshwater fish in the lake.

**Srijut Kuladhar Chaliha:** Is it not a fact that it is one of the best inland lakes for rearing fish under controlled conditions?

**The Honourable Shri Jairamdas Doulatram:** Yes, it is.

**Srijut Kuladhar Chaliha:** Will the Government of India see to the starting of a fish rearing station there?

**The Honourable Shri Jairamdas Doulatram:** The Government of India has been encouraging the development of fishery in that lake.

**Shri Biswanath Das:** Apart from encouraging in words the development of rearing of fish in the Chilka lake, may I know what possible steps have been taken in this regard? Does the Government know that the Government of Orissa themselves feel that there is a depletion of the quantity and quality of the fishery wealth of the lake?

**The Honourable Shri Jairamdas Doulatram:** I believe the Orissa Government are encouraging the co-operative societies of fishermen to fish in the Chilka Lake. So far as I know, they have handed over their own share to the co-operative societies.

#### ROBBERIES IN RUNNING TRAINS

\*1287. **Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Railways be pleased to state how many robberies by armed men have been committed in running trains during the year 1948?

(b) What was the total loss of lives and properties in these robberies?

(c) In how many cases have the culprits been detected by the Police and convicted?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Twenty-four cases of armed robberies have occurred during the current financial year up to 28th February, 1949 over the Indian Government Railways.

(b) Eight lives were lost in these robberies. The loss of property involved is estimated at Rs. 31,200.

(c) In one case the culprits have been convicted, in nine other cases the persons charge-sheeted are undergoing trial by courts.

**Dr. Mono Mohan Das:** May I know, Sir, what compensation is given by the railways to the victims of these robberies and for the lives that have been lost in the robbery?

**The Honourable Shri N. Gopalaswami Ayyangar:** I have no information on that point available to me at present. I shall make enquiries.

**Dr. Mono Mohan Das:** What steps have been taken by the Railways to stop such incidents of robbery, Sir?

**The Honourable Shri N. Gopalaswami Ayyangar:** We have taken a number of steps. We provide police escorts on certain trains. We also have staff who go about to see that everything is safe before the train starts and we have called upon Railway Administrations to make out a list of particularly dangerous spots from this point of view with a view to take special steps to guard against robberies of this kind in those particular areas. We are receiving the reports, and they are being considered. Any special steps that may be required will be taken.

**Dr. Mono Mohan Das:** May I know, Sir, whether there is any record of cases in which the Railways paid compensation for these robberies, for loss of life and loss of property?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am afraid, I am not in a position to give an answer straightaway.

**Srijut Rohini Kumar Chaudhuri:** Arising out of answer to (b), in estimating the value of the properties lost, has the Government taken into consideration the loss of valuable documents of public importance?

**The Honourable Shri N. Gopalaswami Ayyangar:** Presumably the honourable member is referring to the documents lost by a colleague of his in this House.

**Shri H. V. Kamath:** According to reports received by the Honourable Minister do these railway robbers follow a uniform technique or *modus operandi* in committing these robberies or does it vary?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think, *prima facie* it should vary; if they followed a uniform technique, they will be more easily discovered.

**Shri H. V. Kamath:** Have any safety devices been introduced to make the carriages robber-proof?

**The Honourable Shri N. Gopalaswami Ayyangar:** We have mechanical arrangements as regards catches and so on, in the carriages, and if they are properly fastened, they are a fair protection.

**Mr. Homi Mody:** Is the Honourable Minister aware that these catches and other safety devices which he has referred to are generally out of order and it is on that account that most of these robberies are made possible? I speak from personal experience.

**The Honourable Shri N. Gopalaswami Ayyangar:** I am willing to concede that some of these catches are out of order, but so far as robberies are concerned, I do not think the robbers really select the compartments where the catches are out of order. They can make the catches go out of order, before they enter.

**Seth Govind Das:** May I ask whether these robberies are less in 1948 than in 1947? Has their number increased?

**The Honourable Shri N. Gopalaswami Ayyangar:** I should like to have notice.

**Mr. Frank Anthony:** Sir, is Government contemplating any special measures to make travelling particularly at night more safe for women passengers?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think one of the standing directions to the special police escort provided for trains is that they should look after the women's compartments particularly.

**Shri M. Thumala Rao:** May we know on which railways are the robberies the largest in number?

**The Honourable Shri N. Gopalaswami Ayyangar:** The largest number was on the G.I.P. Railway.

**Shri R. K. Sidhva:** The Honourable Minister stated that the trains carry police escorts. May I know whether these escorts are maintained by the Provinces or by the Government of India and whether they are efficient?

**The Honourable Shri N. Gopalaswami Ayyangar:** Whether they are efficient or not is a matter of opinion.

**Mr. Speaker:** Questions as to opinion cannot be asked.

## INDIAN PEOPLE'S FAMINE TRUST

\*1288. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

(a) the amount of balance money now in the 'Indian People's Famine Trust';

(b) the amount that accrued to this Trust during the last 5 years;

(c) the amount spent on relief of famine areas during the last 5 years, and the regions where it was spent;

(d) whether any amount is diverted from this fund in undertaking any big projects that incidentally help in famine relief; and

(e) if so, how much has been diverted during the last 10 years and on what schemes and projects and with what results?

**The Honourable Shri Jairamdas Doulatram:** (a) Rs. 34,51,455. Only the interest can be spent.

(b) and (c). Statements showing the amount accrued to the trust and the grants made for relief of famine in the different regions during the last five years are laid on the table of the House.

(d) No.

(e) Does not arise.

## STATEMENT I

Grants made to Provinces and Indian States during the last five years (1944 to 1948) and the regions for which the grants were given.

| Name of the Province or the State | 1944   | 1945          | 1946          | 1947   | 1948 | Regions for which the grants were given                                        |
|-----------------------------------|--------|---------------|---------------|--------|------|--------------------------------------------------------------------------------|
| Madras                            | ..     | ..            | 1,00,000      | ..     | Nil  | Districts of Bellary and Anantapur.                                            |
| Bengal                            | ..     | 50,000<br>(a) | 50,000<br>(b) | ..     | ..   | (a) } Province of Ben-<br>(b) } gal                                            |
| Assam                             | ..     | ..            | ..            | 50,000 | ..   | Districts of Sylhet, Cachar, Lakhimpur, Darrang, Sibsagar, Nowgong and Kamrup. |

| Yield from investment of floating balances | 424      | 1,272    | 1,569         | 2,000           | 1,588         |                                                                                                                                     |

|                                                     | 1944     | 1945     | 1946   | 1947     | 1948   |                                                                                                               |
|-----------------------------------------------------|----------|----------|--------|----------|--------|---------------------------------------------------------------------------------------------------------------|
| Unspent balance of the grants refunded to the Trust | ..       | 6,116    | ..     | ..       | 307    | (b) Interest amounting to Rs. 48,920 due on 16-9-48 was credited to the account of the Trust in January 1949. |
| Redeemed amount of temporary investment             | ..       | ..       | ..     | 3,200    | ..     |                                                                                                               |
| TOTAL                                               | 1,14,571 | 1,21,535 | 75,755 | 1,40,086 | 50,815 | TOTAL Rs. 5,02,762                                                                                            |

**Shri H. V. Kamath:** Is any money being spent at present on the various scarcity areas or areas threatened with famine?

**The Honourable Shri Jairamdas Doulatram:** We have donated about two lakhs of rupees for Gujerat and Sourashtra areas. Grants for other areas will be made shortly.

**Shri S. V. Krishnamoorthy Rao:** What is the interest accruing every year to this Trust?

**The Honourable Shri Jairamdas Doulatram:** I think about a lakh of rupees.

**Shri S. V. Krishnamoorthy Rao:** Is any addition being made every year to this Trust?

**The Honourable Shri Jairamdas Doulatram:** No. This grant was originally made by the Maharaja of Jaipur and we have allowing the interest thereon to accumulate.

## CROP INSURANCE

\*1289. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether any measures have been or are being undertaken for insurance of (i) cereals, (ii) commercial crops and (iii) roots; and

(b) whether Government propose to enunciate their policy regarding crop insurance?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). The attention of the honourable member is invited to reply to Question No. 499 on the 18th February, 1949.

**Seth Govind Das:** Is it not a fact that this crop insurance has been successful in one of the States which has now merged with some Province and have Government taken steps to have that experiments in some other provinces also?

**The Honourable Shri Jairamdas Doulatram:** This whole question has been very carefully gone into and all the provincial and State Governments have been asked to give their opinion on it. Without getting their opinions we cannot develop the scheme. We are awaiting their reports.

**Seth Govind Das:** By what time the recommendations of the Provinces are expected to be received?

**The Honourable Shri Jairamdas Doulatram:** No date has been fixed for the receipt of such reports. We can ask the Governments concerned to submit their reports within three months.

## DISCOURAGING COMMERCIAL CROPS

\*1290. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

- (a) whether Government have any plans for discouraging commercial crops with a view to make larger areas of land available for food grains; and
- (b) if so, what are the commercial crops chosen to be discouraged?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). The question of diverting some surplus area from commercial crops is being examined by Government. It is not possible to indicate the names of the crops until the examination is completed.

**Shri M. Tirumala Rao:** Have Government any definite plan for having a certain portion of cultivated land being allotted for particular crops from year to year?

**The Honourable Shri Jairamdas Doulatram:** No. Not at present.

**Shri Moturi Satyanarayana:** Will Government consider the desirability of introducing such a plan now in view of the food scarcity?

**Mr. Speaker:** That is a suggestion.

**Shri Raj Bahadur:** Do Government propose to discourage import duties?

**The Honourable Shri Jairamdas Doulatram:** My Ministry is not concerned with import or export duties.

**Shri Moturi Satyanarayana:** Have Government any plans to see that lands are used for growing commercial crops less and less?

**The Honourable Shri Jairamdas Doulatram:** Our idea on the contrary is to increase the acreage under food grains without reducing the acreage under essential commercial crops. We want to increase the acreage under cotton and jute and useful commercial crops in which we have deficit.

**Seth Govind Das:** Are Government going to fix in the new lands that are to be brought under cultivation that a certain area should be used only for food crops?

**The Honourable Shri Jairamdas Doulatram:** Yes, that is our intention.

## CATTLE INSURANCE

\*1291. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

- (a) whether Government have any plans for cattle insurance in India;
- (b) whether Government propose to give relief to farmers who lose their young and serviceable cattle on account of accidental death or epidemics; and
- (c) if so, what the details of the proposal are?

**The Honourable Shri Jairamdas Doulatram:** (a) to (c). An Officer on Special Duty was appointed in the Ministry of Agriculture in August, 1948 to study the problems of Crop and Cattle Insurance in all its aspects and to put up a pilot scheme for Crop and Cattle Insurance in selected areas. The Officer is now engaged in studying the various aspects of the problem of Cattle Insurance with a view to evolving a pilot scheme to operate in certain selected areas.

**Seth Govind Das:** Have any proposals been asked for so far as Cattle Insurance is concerned from the Provinces?

**The Honourable Shri Jairamdas Doulatram:** After the report is received, it will be sent to the Provinces and their recommendations invited.

**Shri Moturi Satyanarayana:** Is any Crop Insurance report called for?

**The Honourable Shri Jairamdas Doulatram:** There is a report. I am prepared to have copies of it circulated to the members.

**Shri Moturi Satyanarayana:** What is the gist of the report?

**The Honourable Shri Jairamdas Doulatram:** The gist of the report is that certain crops such as wheat, rice, cotton and sugarcane might be made the subject of special effort for insurance in selected areas. The details have to be worked out when we get recommendations from the Provinces.

**Prof. Shibban Lal Saxena:** How long has this officer been engaged on this work?

**The Honourable Shri Jairamdas Doulatram:** He was appointed in August 1948 and has been on this duty for the last eight months.

**Shri Mohan Lal Gautam:** Has he any experience of insurance work?

**The Honourable Shri Jairamdas Doulatram:** Yes. He has experience of insurance work?

**Shri Mahavir Tyagi:** Have the Government considered the question of supplying bullocks to peasants in an instalment basis? That is akin to insurance. Paying of capital is also a kind of insurance.

**The Honourable Shri Jairamdas Doulatram:** I would not be able to make any statement at this stage, because the whole matter is at present being investigated. It would be premature to say anything now.

**Shri Mahavir Tyagi:** Has it come to the notice of Government that, on account of epidemics, cattle die and it becomes difficult for the peasants to grow food crop and help 'grow more food' campaign?

**The Honourable Shri Jairamdas Doulatram:** It has come to our notice.

**Shri M. Tirumala Rao:** Has he experience of cattle insurance done in America?

**The Honourable Shri Jairamdas Doulatram:** No. But he is studying the scheme at work in the United States.

**Shri R. K. Sidhva:** What are his qualifications?

**The Honourable Shri Jairamdas Doulatram:** I have not got them with me. I can give the information later.

## SCALES OF PAY OF STATION MASTERS, ASSISTANT WAY INSPECTORS AND SUB-INSPECTORS OF WORKS IN RAILWAYS

\*1292. **Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Railways be pleased to state what is the scale of pay fixed for the Station Master on duty, Assistant Way Inspector and the Sub-Inspector of Works of the Railway department?

(b) What are the minimum qualifications prescribed for these three categories of employees?

(c) Are the three categories of employees entitled to weekly holidays?

**The Honourable Shri K. Santhanam:** (a) to (c). A statement containing the information is laid on the table of the House.

## STATEMENT

(a) The following six scales have been prescribed for Station Masters.

(1) 300—20—400.

(2) 260—15—350.

(3) 200—10—300.

(4) 150-7-185-8-225.

(5) 100-5-125-6-155 (EB)-6-185.

(6) 64-4-120 (EB)-5-170.

The scale fixed for the posts of Assistant Permanent Way Inspector and Sub-Inspector of Works is 150-7-185-8-225.

(b) The minimum educational qualification prescribed for Station Masters and Assistant Permanent Way Inspectors is the Matriculation or School Leaving Certificate Examination of a recognised University, or an equivalent examination. The minimum qualification for a Sub-Inspector of Works is the Upper Subordinate Class Examination at Roorkee, or an equivalent examination of any other recognised Engineering School or College.

(c) By Weekly Holidays, it is assumed that the honourable member means a weekly period of rest. This weekly rest is arranged for such Station Masters as are classified as "continuous workers" under the Hours of Employment Regulation. Station Masters who are classified as "intermittent workers" are not entitled to such regular weekly rest.

An Assistant Permanent Way Inspector, or a Sub-Inspector of Works is free within certain limits to adjust his hours of duty with the nature of his work and usually does obtain a weekly day of rest, except in emergencies.

#### AIR COMPANIES OPERATING IN INDIA

†\*1293. **Shri Ajit Prasad Jain:** Will the Honourable Minister of Communications be pleased to state:

(a) the number and names of Air Companies operating in the Indian Dominion and the area of their operation;

(b) the number and names of the Air Companies which have ceased to operate since the 15th August, 1947;

(c) which of these companies are working on profit;

(d) the reasons for the failure of most of these companies to work on profit basis; and

(e) what steps, if any, Government propose to take to stabilise the position of these companies?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) I lay on the table a statement giving the required information.

(b) Two, namely Jupiter Airways and Ambica Airlines.

(c) According to the latest available balance sheets of the Companies, only one Company namely Air India Limited has been operating at a profit.

(d) The reasons for the failure of most of these Companies to work on a profitable basis have been mainly,—the possession of larger fleets of aircraft than necessary for their operations, and the operation of unremunerative routes.

(e) The Government propose to grant a rebate of half the duty on aviation petrol and to introduce an 'All up' air mail scheme which will greatly improve the revenue load available to the Airline Companies. These combined with the progressive development of freight and passenger traffic are expected to improve their financial position.

#### STATEMENT

*Showing the number, names of Air Transport companies and Routes operated by them.*

|                          |                                                                                                                                                                                                                       |

#### PRODUCTION, CONSUMPTION AND EXPORT OF SAFETY MATCHES

\*1294. **Shri S. V. Krishnamoorthy Rao:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what is the annual production of safety matches in India before partition and after partition?

(b) What is the quantity required for consumption in India?

(c) What is the quantity exported outside India during the period from 1st March, 1948 to 31st December, 1948?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) 506,221 and 620,000 cases of 50 gross boxes each in 1946 and 1948 respectively.

(b) About 550,000 cases of 50 gross boxes.

(c) Approximately 479,145 gross boxes.

**Shri S. V. Krishnamoorthy Rao:** Is it a fact that the Indian manufacturer finds it difficult to export matches outside India?

**The Honourable Dr. Syama Prasad Mookerjee:** We have allowed unrestricted export to Pakistan for three months, up to March 1949, and for the other destinations we have increased to 49,000 cases.

**Shri H. V. Kamath:** Is it a fact that in Mysore matches are packed in boxes of 50 and if so, whether, under clause 1 of the Finance Bill which standardizes match boxes of 40 and 60 only, Mysore match makers will not suffer?

**Mr. Speaker:** Order, order. It will be a matter of opinion.

#### FACILITIES FOR EXPORT OF SAFETY MATCHES

\*1295. **Shri S. V. Krishnamoorthy Rao:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what facilities, if any, Government have given to the Indian Match Factories to export safety matches outside India?

(b) Is the export to countries other than Pakistan free from duty?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Government have been allowing the Indian Match Industry an export quota to maintain contacts with neighbouring markets even though there is little or no exportable surplus in the country. Last year, an export quota of 40,000 cases was fixed for all destinations. This year exports to Pakistan have been decontrolled as an experimental measure while for other countries there is a quota of 40,000 cases.

(b) A rebate of excise duty is allowed on export to all countries except Pakistan and exports made by land to Portuguese Possessions in India.

**Shri S. V. Krishnamoorthy Rao:** Will this rebate be allowed on exports to Pakistan?

**The Honourable Dr. Syama Prasad Mookerjee:** That matter is now under examination in the Finance Ministry.

**Dr. Mono Mohan Das:** May I know what percentage of raw materials for the manufacture of matches which is imported from foreign countries?

**The Honourable Dr. Syama Prasad Mookerjee:** We import Potassium Chloride 2220 tons, Phosphorus 170 tons and sulphur 220 tons.

**Shri S. V. Krishnamoorthy Rao:** May I know on what basis this export quota is allowed to the several factories?

**The Honourable Dr. Syama Prasad Mookerjee:** I do not think it is limited to factories as such. The quota is there and it is open to anybody who is in a position to take advantage of it.

**Shri S. V. Krishnamoorthy Rao:** Will it be allowed on the exportable surplus stock with the manufacturers?

**The Honourable Dr. Syama Prasad Mookerjee:** We have allowed free export so far as Pakistan is concerned and as for other countries the total quantity that can be exported is restricted to 40,000 cases.

**Shri S. V. Krishnamoorthy Rao:** I want to know if the export will be allowed on the exportable surplus stock with the manufacturers.

**The Honourable Dr. Syama Prasad Mookerjee:** That I believe the Honourable Minister of Commerce will be able to answer.

**Shri L. Krishnaswami Bharathi:** May I know if Pakistan is taking advantage of the free export quota and whether she is actually receiving the quantity, or whether there are any difficulties in the export from India?

**The Honourable Dr. Syama Prasad Mookerjee:** We have allowed unrestricted export only for the last six days; so it is too early to say anything more.

**Shri Mahavir Tyagi:** May I know if these free exports to Pakistan have been allowed with a view to give encouragement to the industry or because there is some adverse balance of trade against Pakistan?

**The Honourable Dr. Syama Prasad Mookerjee:** We used to supply safety matches to the areas which have now fallen within Pakistan and we do not want to lose that market.

**Dr. P. S. Deshmukh:** Is there any prospect of the match prices going down in the near future?

**The Honourable Dr. Syama Prasad Mookerjee:** If the honourable member uses less, perhaps they will.

**Shri S. V. Krishnamoorthy Rao:** Has it come to the notice of the Government that some of the cottage match factories in South India have closed down because they cannot export their stock?

**The Honourable Dr. Syama Prasad Mookerjee:** About twenty such factories on cottage industry basis have closed down. The honourable member will find that certain extra privileges are proposed to be given under the Finance Bill which is now under examination.

#### DEPARTMENTAL CATERING AT KHARAGPUR RAILWAY STATION

**\*1296. Shri Mohanlal Gautam:** (a) Will the Honourable Minister of Railways be pleased to state whether departmental Indian Catering was suspended at Kharagpur in the year 1931 and subsequently handed over to individual contractors and if so, why?

(b) When did the Bengal Nagpur Railway again take over the catering at Kharagpur departmentally and for what reasons?

(c) Is it a fact that the charges at Kharagpur station for various food materials are the same as at other stations?

(d) Is the Departmental Catering at Kharagpur running on loss or on gain?

(e) What are the reasons for extending Departmental Catering to Gondia Station (Bengal Nagpur Railway)?

**The Honourable Shri K. Santhanam:** (a) Yes. This was done as a measure of economy during the world depression which commenced in 1930-31.

(b) Departmental catering was resumed in October 1939, when normal conditions were restored and prices stabilised.

(c) Yes.

(d) At a gain.

(e) There is at present no proposal for the extension of departmental catering to Gondia.

**Seth Govind Das:** What has been the result of this departmental catering—has it been profitable or has it been at least self-supporting?

**The Honourable Shri K. Santhanam:** Generally in the S.I., M.S.M. and B.N.R. departmental catering has been self-supporting and generally satisfactory.

**Seth Govind Das:** I was asking about this particular place.

**The Honourable Shri K. Santhanam:** I presume it has been satisfactory.

**Seth Govind Das:** Has it been self-supporting in Kharagpur?

**The Honourable Shri K. Santhanam:** I said in answer to (b) that it has been running at a gain.

**Shri M. Tirumala Rao:** Is it a fact that the B.N.R. was losing some lakhs of rupees on its Restaurant Cars which it is going to make up by running hotels in Puri and other places?

**The Honourable Shri K. Santhanam:** I require notice of this question. It is not covered by this particular question.

**Mr. Frank Anthony:** Is it a fact that under the new system of division between Vegetarian and Non-Vegetarian Refreshment Rooms, the Railway Administration has issued instructions to Non-Vegetarian Refreshment Rooms not to serve essential vegetarian meals like rice and so forth?

**The Honourable Shri K. Santhanam:** I have no information. I am afraid I should require notice.

**Shri H. V. Kamath:** Does the B.N.R. catering serve meals in Indian style as the G.I.P. does?

**The Honourable Shri K. Santhanam:** All Railways serve meals of Indian style now.

## LICENCE FEE FROM CATERING CONTRACTORS ON B. N. RAILWAY

\*1297. **Shri Mohan Lal Gautam:** (a) Will the Honourable Minister of Railways be pleased to lay a statement on the table of the House showing the amount of Licence Fee realised from Indian Catering Contractors on the Bengal Nagpur Railway during the financial years 1933-34, 1935-36, 1937-38, 1940-41, 1944-45 and 1948-49?

(b) What is the amount of licence fee to be realised from Indian Catering Contractors as per revised arrangements to be introduced on and from 1st April 1949?

(c) What is the basis of their calculation?

**The Honourable Shri K. Santhanam:** (a) A statement giving the required information is laid on the table of the House.

(b) and (c). This is still under consideration.

| STATEMENT |           | Amount of license fee realised from Indian Catering Contractors over the Bengal Nagpur Railway |               |
|-----------|-----------|------------------------------------------------------------------------------------------------|---------------|
| Year      |           | Rs.                                                                                            |               |
| 1933-34   | . . . . . | 96,871                                                                                         |               |
| 1935-36   | . . . . . | 5,371                                                                                          |               |
| 1937-38   | . . . . . | 76,877                                                                                         |               |
| 1940-41   | . . . . . | 65,869                                                                                         |               |
| 1944-45   | . . . . . | 65,211                                                                                         |               |
| 1948-49   | . . . . . | 72,360                                                                                         | (approximate) |

**Shri R. K. Sidhva:** What is the total amount realised from this licence fees?

**The Honourable Shri K. Santhanam:** On the B.N.R. it was approximately Rs. 72,360 in 1948-49.

## LICENCE FEE FROM INDIAN CATERING CONTRACTORS ON RAILWAYS

\*1298. **Shri Mohan Lal Gautam:** Will the Honourable Minister of Railways be pleased to state:

(a) whether it is a fact that licence fee from Indian catering contractors on the East Punjab, East Indian, Oudh and Tirhut, Bombay, Baroda and Central India Railways is charged according to class of stations and the number of hawkers employed by individual contractors;

(b) whether it is a fact that exorbitant licence fee is being demanded by the Bengal Nagpur Railway from their existing Indian catering contractors after serving notice of termination of their existing agreements; and

(c) in view of the difficulties experienced by third class passengers in paying over-charges as a result of enhanced licence fees, will Government consider the advisability of enquiring into these matters?

**The Honourable Shri K. Santhanam:** (a) The Indian Catering Contractors on the railways mentioned by the honourable member are charged license fee according to the importance of the station.

(b) Government are informed that the question of revising license fees is still under the consideration of the Railway Administration but that only reasonable and fair fees are envisaged.

(c) No fees will be charged which will necessitate enhancement in the price of foodstuffs.

**Shri Mahavir Tyagi:** Have instances come to the notice of the Government where these contractors who have been given licences for catering on these stations have given sub-leases and sub-contracts to vendors and are realizing exorbitant fees from those vendors?

**The Honourable Shri K. Santhanam:** Such complaints have come in and they have been taken notice of, and in many places those who are sub-letting their contracts have been discharged and new contracts are being given to others who won't sublet their contracts.

**Shri Mahavir Tyagi:** I want to know why the Government is giving the contract to one man in the place of giving it to all these different vendors independently.

**Mr. Speaker:** I am afraid it is going into administrative details unnecessarily.

**Prof. Shibban Lal Saxena:** Will the Honourable Minister consider the possibility of giving contracts to the vendors themselves if they come in a body or individually?

**The Honourable Shri K. Santhanam:** According to the Resolution of the Central Advisory Council for Railways, local vendors are to be preferred to financiers and other speculators.

**Shri M. Tirumala Rao:** Is it a fact that the B.N.R. authorities want to make profit out of these vending contracts irrespective of the consideration whether the food will become costlier to the travelling public?

**The Honourable Shri K. Santhanam:** No, Sir. These refer to other than B.N. Railway. So far as I am aware . . .

**Shri M. Tirumala Rao:** I am referring to part (b) in 1298. It refers to B. N. Railway.

**The Honourable Shri K. Santhanam:** I do not think the fees are exorbitant. In fact, the complaint is that the fees are nominal and the contractors are making large profits.

**Shri Mohan Lal Gautam:** With regard to answer (c), is it the intention of the Government not to allow any enhancement so far as these foodstuffs on these stations are concerned?

**The Honourable Shri K. Santhanam:** Yes, Sir. Of course, if the prices of foodstuffs themselves have risen in the market, we will have to fix in accordance with them, but it will be ensured that the fees charged will not be such as to increase the price of foodstuffs.

**Seth Govind Das:** Has Government fixed any maximum food rates when the licence fees have been increased?

**The Honourable Shri K. Santhanam:** Each Railway Administration fixes the schedule of rates at which things are to be sold at each station.

**Dr. Mono Mohan Das:** May I know whether any special facility has been given to the refugees so far as these contracts are concerned?

**The Honourable Shri K. Santhanam:** Yes, Sir. They are given some kind of preference and that is causing protests from local people.

**Shri Arun Chandra Guha:** Will Government consider the advisability of taking over this catering by the Department itself?

**The Honourable Shri K. Santhanam:** The Indian Railway Enquiry Committee have suggested that this should be a long term programme and

immediately it need not be extended. This policy was accepted by the Central Advisory Council for Railways.

**Mr. Speaker:** The Question Hour is over.

(b) WRITTEN ANSWERS

RATES FOR AERATED WATERS ON RAILWAYS

\*1299. **Shri Mohan Lal Gautam:** Will the Honourable Minister of Railways be pleased to state:

(a) the rates charged for soda and lemonade on the Bengal Nagpur Railway train services and the rates charged by contractors employed for sale of aerated waters on the East Indian, Great Indian Peninsular, East Punjab and Oudh and Tirhut Railways;

(b) whether it is a fact that the Bengal Nagpur Railway owns a factory for manufacturing aerated waters at Kharagpur;

(c) if so, the net profit earned by this factory during the financial year 1947-48 and also the calendar year 1948; and

(d) whether the existing factory is satisfactorily meeting the entire demand of the public during the season?

**The Honourable Shri K. Santhanam:** (a) A statement giving the required information is laid on the table of the House.

(b) Yes.

(c) Owing to partition the accounts for 1947-48 have not yet been finally closed. It is, however, understood that there is likely to be a loss of approximately Rs. 1,000 for the year 1947-48. Separate accounts for calendar years are not maintained.

(d) Yes.

STATEMENT

The following rates are charged for the sale of soda and lemonade in trains:

|                                             | Soda. | Lemonade |
|---------------------------------------------|-------|----------|

WORKING OF CATERING DEPARTMENT ON B. N. RAILWAY

\*1300. **Shri Mohan Lal Gautam:** Will the Honourable Minister of Railways be pleased to state:

(a) whether it is a fact that the Deputy General Manager (Food) on the Bengal Nagpur Railway controls grain shops, departmental catering and the aerated water factory;

(b) whether the Grainshop Enquiry Committee appointed by Government looked into the working of the catering department on the Bengal Nagpur Railway and if not, whether Government propose to make an enquiry about it?

**The Honourable Shri K. Santhanam:** (a) Yes.

(b) No. There is no reason adduced to make any inquiry. The working of the grainshops has been simplified since 1st January under the revised scheme.

ESTABLISHMENT OF ALUMINIUM FACTORY IN C. P. AND BERAR

\*1301. **Prof. K. T. Shah:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether Government are aware of a scheme to establish an Aluminium Industry in the Central Provinces and Berar, as a public enterprise, or in association with a private concern as Managing Agents?

(b) Has any support, assistance and co-operation been promised by the Government of India to the Provincial Government, or to the private concern appointed as Managing Agents, to encourage this enterprise and if so, in what form, to what extent and for how long?

(c) Is any initial or working capital to be provided for this venture by Government and if so, how much, or in what proportion, by the Government of India or by the Provincial Government, or is it to be raised by private subscription to the Company's shares?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir. I however understand that the Provincial Government are now considering whether the proposed factory should not be run exclusively as a State-owned concern.

(b) Besides sanctioning the issue of Capital to the extent of Rs. 5 crores, the Provincial Government was promised all possible assistance in regard to procurement of raw materials and capital equipment and machinery.

(c) Out of the authorised capital of Rs. 5 crores, the Government of C. P. and Berar wanted to subscribe shares to the value of Rs. 1.5 crores leaving the balance to be subscribed by the public. The Government of India have not taken any shares.

PROSPECTS OF ALUMINIUM INDUSTRY IN C. P. AND BERAR

\*1302. **Prof. K. T. Shah:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether the attention of Government has been drawn to the statement reported in the press, and attributed to the Director-General of Industry and Supply, regarding the suitability and prospects of success, as a commercial venture, of Aluminium Industry in the Central Provinces and Berar?

(b) What are the estimates of Bauxite available in the several Provinces and States of India?

(c) What place do the Central Provinces and Berar occupy in these estimates?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) I understand that the statement made by the Director General of Industry and Supply was that "the resources of C.P. if developed can make it one of the largest producers of bauxite".

(b) and (c). A statement is laid on the table of the House.

STATEMENT

|                       | Approximate quantity of reserves of high grade bauxite. |
|-----------------------|---------------------------------------------------------|
|                       | (Tons)                                                  |
| Central Provinces     | 15,100,000                                              |

## ALUMINIUM PRODUCTION IN C. P. AND BERAR

\*1303. Prof. K. T. Shah: (a) Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that the Director General of Industry and Supply, declared that the Central Provinces and Berar was "the largest Aluminium producing region, not only in India, but in the world", as reported in the *Times of India* dated the 26th August, 1948 and if so, what are the grounds for such a statement?

(b) Have any Managing Agents been appointed for organising and conducting this Industry as a Joint Stock Company, or semi-public enterprise, in the Central Provinces and Berar?

(c) If so, what is the commission to be allowed to such Managing Agents?

(d) Are the necessary plants, machinery, equipment, and electrical energy available for the establishment of this Industry, and what are the comparative costs in the different countries of the world for such plants, machinery and equipment?

(e) What is the estimated cost per unit of output in the proposed enterprise in comparison with the corresponding costs in other countries, and the landed cost of imported Aluminium ingots in India?

The Honourable Dr. Syama Prasad Mookerjee: (a) I would refer the honourable member to the reply given by me to his previous question.

(b) and (c). I understand that the appointment of Managing Agency originally made has since been cancelled.

(d) Almost all the machinery required for an aluminium plant will have to be imported and in the absence of detailed designs of plant and machinery it is not possible to give comparative costs charged by different countries.

(e) A statement is laid on the table of the House.

## STATEMENT

Cost per unit of output  
in the proposed factory  
in C. P. and Berar.

Landed cost of imported  
aluminium ingot.

Cost of ingot in other  
Countries.

Rs. 1,600 — per ton of  
ingot as estimated by  
one of the Government  
Cost Accountants.

Rs. 1,672. per ton inclu-  
sive of 30 per cent.  
import duty for ingot  
imported from Canada.

Not readily available.

## DEVELOPMENT AND USE OF JAMNAGAR AS AN INTERNATIONAL AIRPORT

\*1304. Shri R. K. Sidhva: (a) Will the Honourable Minister of Communications be pleased to state whether the attention of Government has been drawn to the news appearing in the newspapers of 1st March, 1949 that Government intend to develop and use Jamnagar as an international airport?

(b) Is it a fact that Jamnagar is to take the place formerly occupied by Karachi as the nearest airport for aircrafts coming from the West?

(c) If so, will the supreme utility as the main aerial gateway of Santacruz (Bombay) be reduced?

(d) What is the amount expected to be spent on the development of Jamnagar airport?

(e) Is Kundla going to be one of the international airports in view of its proximity for aircrafts from West than Jamnagar?

The Honourable Mr. Rafi Ahmad Kidwai: (a) Yes, Sir.

(b) No, Sir.

(c) No, Sir.

(d) The Government of India is not proposing to spend any amount on the development of Jamnagar airport.

(e) No, Sir.

## ELECTRIFICATION OF RAILWAY LINES

\*1305. Shri R. K. Sidhva: (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the Engineers' Conference which met in New Delhi from 21st to 26th February, 1949 resolved that with the object of saving coal and reducing railway coal traffic Government be advised to have the following sections of railways electrified:

(i) Howrah-Moghulsarai; (ii) Igatpur-Bhusaval; (iii) Virar-Ahmedabad; (iv) Poona-Dhond; (v) Bangalore-Mysore; (vi) Tambaram-Chingaleput; and (vii) Arkonam-Villupuram?

(b) If so, what steps do Government intend to take in this direction?

The Honourable Shri N. Gopalaswami Ayyangar: (a) Yes.

(b) Electrification of the Bangalore-Mysore Section is under consideration by Mysore Railway. Preliminary investigations on the remaining electrification schemes have been carried out and are now under consideration by the Railway Board.

## IMPROVEMENT OF FISH CULTURE

\*1306. Prof. N. G. Ranga: Will the Honourable Minister of Agriculture be pleased to state:

(a) what steps are being taken to improve fish culture in India; and

(b) whether any Indian Council of Fisheries is being organised?

The Honourable Shri Jairamdas Doulatram: (a) A statement describing the steps taken in different provinces is placed on the table of the House.

(b) The question of setting up an Advisory body relating to fisheries on which all interests concerned in the development of fisheries are represented is under the consideration of Government.

## STATEMENT

With a view to improve fish culture, the development of inland fisheries in India has been in the direction of stocking of tanks, ponds and other impounded waters mainly with four species of fast growing carps. As these carps do not breed in confined waters, such waters have to be stocked every year with fry or fingerlings collected from their natural breeding grounds. Supplies of carp fry are available in Bengal, Orissa, Bihar, U. P., East Punjab and Delhi, and exploratory work is being carried out for locating their spawning grounds in other areas to meet increasing local demand and for export to deficit areas. In 1943, Bihar distributed 25 lakhs of fry from 8 fry distribution centres, while Orissa distributed 16 lakhs of fingerlings. West Bengal had 24 such distribution centres. U. P. are establishing fry collecting and fingerling distribution centres along the course of the

River Ganges. In the East Punjab, a number of spawning grounds have been located from which fingerlings are collected, for stocking. Delhi Province has adequate supply of carp fry. Province of Madras which has enough supply for its needs has established Fish Farms at different places for the rearing of fry for distribution. C. P. where no supply is available in the province had to import spawn from Calcutta. There are great possibilities of increased production of fish by intensifying pisciculture, as there are a number of perennial and semiperennial tanks found scattered in all parts of the country and also numerous creeks, back-waters and lagoons along the coastal areas which can be developed into productive fisheries. For the development of such fisheries, the provinces of East Punjab, Delhi, U. P., Bihar, Orissa and Madras have initiated a survey of all perennial and semi-perennial impounded waters and have also successfully undertaken pisciculture by stocking operations. The Governments of Cochin and Travancore too have established brackish water fish farms for increasing fish production and also for demonstration purposes. In 1947-48, nearly 3,000 acres of fallow waters were stocked in different parts of the country.

#### F. A. O. PAMPHLETS

\*1307. Prof. N. G. Ranga: Will the Honourable Minister of Agriculture be pleased to state:

(a) whether the Food and Agricultural Organisation have supplied agricultural specialists of member nations its pamphlets on "Using Salt Land" and "Thieves of Stores Grain";

(b) whether the methods suggested in them are being studied for adoption under Indian conditions; and

(c) whether any action is proposed to be taken in the suggested direction?

The Honourable Shri Jairamdas Doulatram: (a) Yes.

(b) The methods suggested are well-known and within the knowledge of Government.

(c) In the U.P., Bombay and in some parts of Madras Province, certain standard methods such as leaching through deep open drains, treatment of alkaline soils with gypsum or sulphur and the raising of crops like rice, barley and berseem are being tried. In the United Provinces, some "Usar" lands have already been reclaimed by the process of enclosure and exclusion of grazing land and by afforestation. That Government have also in hand a project for the reclamation of alkaline lands. Research on the treatment of alkaline soils with calcium chloride has been conducted by the Indian Meteorological Department at Poona and found to be effective. The experiment awaits trial on a field-scale. Suitable rotation of crops is also being done in the Bombay Province.

Reclamation of alkaline lands by Molasses and application of lime and organic manures have also been tried in India with certain amount of success. Of the usual methods of draining out salts from soils open drains have been tried in India.

In regard to storage the honourable member's attention is invited to my reply to Starred Question No. 866 dated the 3rd March, 1949.

#### REPORT OF AMERICAN EXPERTS re IRON ORES IN SANDUR AND SALEM

\*1308. Shri B. N. Munavalli: Will the Honourable Minister of Industry and Supply be pleased to state:

(a) whether American experts were deputed by the Government of India to visit Sandur (merged state) and Salem, where iron ores abound;

(b) if so, whether they have submitted any report about the quality of these ores as well as the location of factories;

(c) whether Government intend to implement the recommendations of the American experts and if so, when; and

(d) whether Government propose to lay on the table of the House the report submitted by the American experts?

The Honourable Dr. Syama Prasad Mookerjee: (a) to (c). Yes, Sir. Sandur is one of the several places visited by the American experts appointed by Government last year to draw up project reports for the establishment of new steel works in India. They did not visit Salem but were given full details about its ores. Their reports, which have only recently been received, deal among other matters, with the quality and availability of existing ores and contain recommendations for the location of the proposed works. These recommendations are now under examination.

(d) The reports are voluminous and I therefore propose to lay on the table of the House a summary, before the close of this Session.

#### NIGHT AIR MAIL SERVICE

\*1309. Dr. P. S. Deshmukh: (a) Will the Honourable Minister of Communications be pleased to state the date on which the night air-mail was started?

(b) What is the daily average weight in pounds for the months of January and February 1949 of mails that were carried from Delhi to Madras, Delhi to Calcutta and Delhi to Bombay and back?

(c) What is the rate per pound at which payment is made to the company carrying air mails?

(d) Is it a fact that the cost per mile for plane is between Rs. 2 and Rs. 3?

(e) Is it a fact that the contractor company incurred huge losses?

(f) Is it a fact that the Company intimated their intention to discontinue the service?

The Honourable Mr. Rafi Ahmad Kidwai: (a) 30th January, 1949.

(b) A statement containing the required information is laid on the table of the House.

(c) Payment for the carriage of letter mails is made to the Company at the usual rate, namely, Rs. 1-8 per pound irrespective of the distance over which the mails are carried. For air parcels the rate paid is the approved rate for air freight by the direct route less 25 per cent.

(d) The cost of operation of a Dakota aircraft varies with the route and depends on various other factors. It is more than Rs. 3 per mile in all cases.

(e) It is true that the company incurred some loss in the beginning but the service has attracted sufficient commercial traffic on Bombay-Calcutta route and it is expected that similar traffic would also develop on the Delhi-Madras route.

(f) No, Sir.

#### STATEMENT

Daily weight of Air Mails and Air Parcels despatched from Delhi to Madras, Bombay and Calcutta and vice versa on 31st January, 1949 from which date the service was inaugurated.

| Name of Sector | Daily weight of Air Mail letters and Parcels in Lbs. | Weight of Air Parcels in Lbs. | Total |

| Bombay—Delhi   | 107                                                  | 21                            | 128   |
| Calcutta—Delhi | 87                                                   | 13                            | 100   |

#### PRICES OF IMPORTED FOODGRAINS

\*1310. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Food be pleased to state the average rate per maund of imported rice, wheat and milo for the years 1946-47 and 1947-48, f.o.r. Bombay from each of the countries, viz., the United States of America, Canada, Australia, Argentina, and Burma?

(b) From what other countries have foodgrains been imported and what have been their prices during each of the years 1946-47, 1947-48 and 1948-49 on the average for each kind of foodgrain?

(c) What are the rates per maund at which India proposes to buy various kinds of foodgrains during the year 1949-50 f.o.r. Bombay or other ports in India?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). A statement is laid on the table of the House giving the C. & F. prices for each variety of grain from different countries. In respect of the year 1948 and 1949 most of the contracts have yet to be completed. It will be appreciated that if these rates are disclosed on the floor of the House, our future negotiations may be prejudiced. It is, therefore, considered that it will not be in the public interest to publish these rates.

(c) Purchases are spread over the whole year and the rates to be paid for each grain will be determined according to the conditions prevailing from time to time.

#### STATEMENT

*Average price (C & F) in rupees per maund*

| Commodity Sourcewise | April 1946 to March 1947 | April 1947 to September 1947 | October 1947 to December 1947 |

#### INCREASE IN PRODUCTION OF SUGAR

\*1311. **Dr. P. S. Deshmukh:** Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that manufacture of sugar has increased by nearly 30 per cent. as a result of lifting the control on sugar?

**The Honourable Shri Jairamdas Doulatram:** The production of sugar in 1947-48 was more than that in 1946-47 by sixteen per cent. The increase was due to more cane being brought to the mills as its price was raised from Rs. 1-4 to Rs. 2.

#### COMPLAINT re FAVOURITISM IN ALLOTMENT OF WAGONS

\*1312. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that a letter dated 16th February, 1949 has been addressed to the General Manager, Bombay, Baroda and Central India Railway, Bombay, by Messrs. Dharunsey and Mehta complaining about favouritism shown to certain persons in the grant of allotting wagons?

(b) Have fifteen carting agents made a protest against this favouritism?

(c) If the answer to part (a) above be in the affirmative, what steps have Government taken against those responsible for the favouritism?

**The Honourable Shri K. Santhanam:** (a) Yes.

(b) A protest alleged to have come from Carnac Bridge Dalals and Mukadams, care of one dalal, who alone signed the complaint, was received.

(c) The matter is still under investigation and a further reply will, in due course, be placed on the table of the House.

#### MANUFACTURE OF VANASPATHI

**\*1313. Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Agriculture be pleased to state:

(a) the quantity of Vanaspathi produced in the country in the year 1948, and

(b) the names of oils used for such manufacture?

**The Honourable Shri Jairamdas Doulatram:** (a) 129,691 tons.

(b) Groundnut oil, Til oil and cotton seed oil. Bulk of the supply is groundnut oil. Til oil is used compulsorily to the extent of five per cent.

#### CONSTRUCTION OF SUBWAY AT SAUGOR STATION

**\*1314. Shri R. L. Malviya:** (a) Will the Honourable Minister of Railways be pleased to state whether Government are aware that the main road to the railway station in Saugor on the Great Indian Peninsular Railway, crosses the railway line and that great inconvenience is caused to the public and vehicular traffic thereby?

(b) Is there any proposal to construct a subway to avoid this inconvenience to the public and vehicular traffic, and if so, how long would it take?

(c) If the answer to part (b) above be in the negative, do Government propose to consider the construction of the subway?

**The Honourable Shri K. Santhanam:** (a) A level crossing is provided at the place where the main road connecting the town with the railway station at Saugor crosses the railway line. The road traffic is held up only for a short period when the gates are closed to allow a train to pass over the level crossing.

(b) No.

(c) It is proposed to shift the station building to the City side of the line in the near future and, therefore, replacement of the level crossing by a subway is not considered necessary.

#### CONSTRUCTION OF BARWADIH-CHIRIMIRI RAILWAY LINE

**\*1315. Shri R. L. Malviya:** (a) Will the Honourable Minister of Railways be pleased to state whether Government are aware that the coal fields on the Barwadih-Chirimiri line, under construction, are nearer to Chirimiri and the collieries could be started sooner had the construction of the line been started from Chirimiri side?

(b) Have Government got any proposal to start the construction from Chirimiri side as well?

(c) Has the survey for connecting this line at a point between the Bijuri and Chirimiri stations been completed and if so, what is the point finally decided upon?

#### UNSTARRED QUESTIONS AND ANSWERS

1767

(d) If the answer to part (c) above be in the negative, how long would it take for the final survey?

(e) Have Government got any plan to connect Manendragarh with this line and if so, what is it?

(f) What is the length and the total estimated cost of the line and when will the line be ready for service?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes.

(b) It is proposed to start construction from the Chirimiri end after completion of the final location survey and the preparation of detailed plans which are in hand at present for this portion of the line.

(c) and (d). Bijuri has been selected as the junction of the new line with the Anuppur-Chirimiri Branch. Both Chirimiri and Manendragarh were considered, but discarded on account of sharp curves and steep gradients on the line between Bijuri and Chirimiri.

(e) Manendragarh is already a station on the Anuppur-Chirimiri Branch 10 miles east of Bijuri. It will not be a station on the new line.

(f) The length of the line between Bijuri and Barwadih will be approximately 153 miles. In 1947 the construction was estimated to cost about Rs. 12.6 crores. After the final location survey, which is in progress at present, is completed, an estimate at the present day rates will be prepared. The Government are not in a position at this stage to state when the whole of the line will be ready for service.

#### UNSTARRED QUESTIONS AND ANSWERS

##### DEPARTMENTAL AND EXTRA DEPARTMENTAL POST OFFICES

**112. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Communications be pleased to state how many Extra Departmental post offices there are in the Indian Dominion?

(b) What is the total income from them?

(c) What is the total income from Departmental post offices in the Indian Dominion?

(d) What is the total expenditure in the management of the Extra Departmental post offices in the Indian Dominion, including the remuneration of the Extra Departmental employees and the establishment expenses of the Extra Departmental post offices?

(e) What is the total expenditure in the management of the Departmental post offices including the pay of the staff and the necessary establishment expenses?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) On 31st March, 1948, there were 15,744 extra departmental post offices.

(b) to (e). Information is not readily available, and its collection will involve an immense amount of work, as calculations have to be made in respect of each office after keeping statistics for one month.

##### DEPARTMENTAL AND EXTRA DEPARTMENTAL POST OFFICES IN ORISSA

**113. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Communications be pleased to state how many Extra Departmental post offices there are in Orissa?

(b) What is the total income from them?

(c) What is the total income from Departmental post offices in Orissa?

(d) What is the total expenditure in the management of the Extra Departmental post offices in Orissa, including the remuneration of Extra Departmental employees and the establishment expenses of the Extra Departmental post offices?

(e) What is the total expenditure in the management of the Departmental post offices, including the pay of the staff and the necessary establishment expenses?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) On 31st March, 1948 there were 433 extra departmental post offices in Orissa.

(b) to (e). Information is not readily available, and its collection will involve an immense amount of work, as calculations have to be made in respect of each office after keeping statistics for one month.

## CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES:

(PART I—QUESTIONS AND ANSWERS).

Wednesday, 23rd March, 1949.

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS

(a) ORAL ANSWERS

TRADE WITH TIBET.

**\*1316. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state whether any trade treaty exists between Tibet and India?

(b) What are the articles mostly exported from India to Tibet and *vice versa*, and what are the transport and communication facilities between India and Tibet?

(c) Is it a fact that Tibet Government had asked for geological survey of Tibet to explore possibilities of finding gold, copper, sulphur and borax and if so, with what result?

(d) Have any terms been offered by the Tibetan Government to the Government of India for starting transport services and constructing roadways within the Tibetan territory under certain conditions?

**The Honourable Shri K. C. Neogy:** (a) Yes. The trade relations between India and Tibet are governed by the Anglo-Tibetan Trade Regulations of 1914.

(b) Two statements showing the principal commodities exported to and imported from Tibet are laid on the table of the House.

As regards transport facilities between India and Tibet, the position is as follows:

There are no through motor transport facilities for the exchange of goods between India and Tibet. The two road connections to Tibet are as follows:

(i) *National Highway No. 22 i.e. Ambala-Kalka-Simla-Shipki Pass.*—This pass is about 203 miles beyond Simla. Upto Narkanda (40 miles beyond Simla) the road is motorable. Beyond Narkanda there is a mule track which continues into Tibet.

(ii) *National Highway No. 31-A i.e. Siliguri-Gangtok (Sikkim).*—This is motorable throughout. From Gangtok there are two mule tracks (used as trade routes into Tibet) which go through the Nathula and Jelepda passes on the boundary to Sikkim and Bhutan.

As regards communication facilities between India and Tibet, the position is as follows:

**Postal.**—The Indian Post and Telegraph Department maintains three post offices at Yatung, Pharijong and Guangtse. Addresses in other towns of Tibet generally arrange to receive delivery from these post offices through their agents who report such articles at the corresponding Tibetan post offices for places in the interior of Tibet, after affixing Tibetan postage stamps on them. There is a mail service between India and China, and Tibet gets some of its mails via China.

**Telegraphs.**—A telegraph line exists upto Lhasa in Tibet via Darjeeling, Yatung and Gyantse and telegrams are exchanged between India and Tibet over this line, but there is no telephone communication.

(c) and (d). No.

#### STATEMENT I

##### *Commodities exported from India to Tibet*

- (1) Cotton Piecegoods.
- (2) Dyes.
- (3) Gur.
- (4) Iron.
- (5) Salt.
- (6) Tea.
- (7) Provision (Food stuff).
- (8) Metals (other than Iron).
- (9) Sugar.
- (10) Narcotics (tobacco leaf), cigarettes, etc.
- (11) Hides and skins.
- (12) Stationery.

#### STATEMENT II

##### *Commodities imported into India from Tibet*

- (1) Wool raw.
- (2) Yak tail.
- (3) Woollen yarn.
- (4) Woollen carpet.
- (5) Skin furs.
- (6) Minerals (borax, solder, etc.).
- (7) Livestock.
- (8) Food stuffs.

**Shri R. K. Sidhva:** What are the principal articles which are exported by India to Tibet and imported by India from Tibet?

**The Honourable Shri K. C. Neogy:** Exports from India to Tibet mainly consists of cotton piecegoods, iron, salt, tea, sugar etc. and imports from Tibet into India mainly consist of raw wool, yak tails, woollen yarn, skin furs and so on.

**Shri R. K. Sidhva:** What is the shortest route from the U.P. border to Tibet and how many miles is it?

**The Honourable Shri K. C. Neogy:** I am afraid I am not in a position to give that information.

**Shri R. K. Sidhva:** The Honourable Minister said that the reply to parts (c) and (d) is in the negative. May I know if any other persons or some experts

have sent a proposal for a geological survey of this area of Tibet stating that there is gold and other metals available there?

**The Honourable Shri K. C. Neogy:** I am not aware of any such proposal.

**Shri V. Kesava Rao:** May I know whether any of these goods are imported from Tibet on barter?

**The Honourable Shri K. C. Neogy:** No, Sir.

**Seth Govind Das:** The Honourable Minister said that the trade between Tibet and India is governed by the Pact of 1914. May I know whether there has been any revision of that agreement since then or the same pact still continues?

**The Honourable Shri K. C. Neogy:** The same continues.

**Shri R. K. Sidhva:** May I know whether a well known Lama from Lhasa told one of our Constituent Assembly Members, Mr. Govind Pant, that there is ample field in this area for exploring copper, silver and other metals, if a geological survey is conducted? May I know if the Honourable Minister's attention has been drawn to this?

**The Honourable Shri K. C. Neogy:** I know nothing about it.

#### EXPENDITURE ON ATOMIC RESEARCH

**\*1317. Dr. Mono Mohan Das:** Will the Honourable the Prime Minister be pleased to state what expenditure has so far been incurred by Government for doing atomic research in the country?

**The Honourable Shri Jawaharlal Nehru:** The expenditure during the current financial year for research on Atomic Energy will be about rupees three lakhs.

**Dr. Mono Mohan Das:** May I know the names of the scientists in charge of the Atomic Research Department and the location of the Department?

**The Honourable Shri Jawaharlal Nehru:** The location of the department is in Delhi, that is it is a part of the department of Scientific Research. The Atomic Energy Commissioners are Dr. H. C. Bhabha, Chairman, Dr. Bhatnagar and Dr. Krishnan.

**Dr. Mono Mohan Das:** May I know whether it is possible to maintain a connecting link or a close relation between the Atomic Research Department of our country and that of other countries of the Commonwealth?

**The Honourable Shri Jawaharlal Nehru:** This is rather a curious question for me to answer. Naturally we wish to maintain close links with other scientific organisations and other atomic energy commissions as far as possible?

**Shri H. V. Kamath:** Is the research in our country directed towards the destructive or constructive aspects of atomic energy?

**The Honourable Shri Jawaharlal Nehru:** It is directed towards the development of atomic energy for peaceful purposes.

**Shri H. V. Kamath:** In view of the fact that atomic research in perhaps the U. K. and definitely in the U.S.A. and U.S.S.R. is kept a top secret, how is it proposed by Government to train our scientists in nuclear fission and atomic research in general?

**The Honourable Shri Jawaharlal Nehru:** There are certain parts of atomic energy research which are considered to be absolutely secret even as between allied countries. There are other parts which are relatively secret, that is to say, several countries are in possession of those facts, nevertheless they are treated

more or less as secret. So there are grades of secrecy: some parts which are absolutely secret, as I said, are not available to any other country and other parts which are relatively secret may be available to those who co-operate together.

**Seth Govind Das:** Which are the countries that are mainly helping us in our research as far as atomic energy is concerned?

**The Honourable Shri Jawaharlal Nehru:** That is hardly a question which it would be fitting for me to answer. When we are dealing with a number of countries and seek their co-operation one cannot mention the main countries in that way.

**Mr. Tajamul Husain:** Is there any factory for manufacturing atom bombs in India?

**The Honourable Shri Jawaharlal Nehru:** No, Sir. We are not thinking in terms of atom bombs. We are thinking in terms of processing various minerals out of which atomic energy comes. Probably we shall be subjecting these minerals to this processing and use the energy for research work.

**Shri S. V. Krishnamoorty Rao:** Is there any proposal to start an atomic energy research institute in India?

**The Honourable Shri Jawaharlal Nehru:** I do, not quite understand the question. We are carrying on atomic research and this will grow. Probably the headquarters of the research will be in Bombay.

**Babu Ramnarayan Singh:** To the knowledge of the Prime Minister how many countries are in possession of this atomic energy?

**The Honourable Shri Jawaharlal Nehru:** I regret I am not in possession of that information.

**Pandit Lakshmi Kanta Maitra:** May I know if the Government of India is financing the study and research of nuclear physics in the different universities in India?

**The Honourable Shri Jawaharlal Nehru:** Yes, Sir.

**Pandit Lakshmi Kanta Maitra:** Outside the University Science College, Calcutta, are there any other universities financed by the Government to carry on research work in nuclear physics?

**The Honourable Shri Jawaharlal Nehru:** I could not give the list of names but I believe there are some universities where such research is being carried on and they are helped by the Government of India.

**Pandit Lakshmi Kanta Maitra:** Is there any co-ordination?

**Shri V. C. Kesava Rao:** May I know whether the Government is contemplating to invite German scientists to assist in our atomic research?

**The Honourable Shri Jawaharlal Nehru:** There is no present intention of any particular person like that being invited but we are continually thinking in terms—not merely in respect of atomic energy but of scientific work generally—of inviting eminent scientists from abroad.

**Dr. Mono Mohan Das:** May I know whether we have any cyclotron or any such instrument for atomic fission or breaking up the atom?

**The Honourable Shri Jawaharlal Nehru:** I know there is one cyclotron in Calcutta. I am not quite clear whether there is any such apparatus anywhere else in India.

## FORMATION OF OVERSEAS SHIPPING CORPORATION

**\*1318. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Commerce be pleased to state whether there is a plan to form an Overseas Shipping Corporation to ply merchant vessels to the Middle-East and the Far-East?

(b) What is the capital of the proposed Corporation and how is it proposed to be issued?

(c) What is the gross tonnage proposed to be acquired for the Corporation?

**The Honourable Shri K. C. Neogy:** (a) to (c). Yes, I would refer the honourable member to my answer to Starred Question No. 435 on the 16th February 1949, and its supplementaries.

**Shri V. C. Kesava Rao:** May I know whether the necessary technical personnel needed for running this Corporation will be obtained before this Corporation is started?

**The Honourable Shri K. C. Neogy:** Everything necessary will be done. As a matter of fact the agreement with the proposed Managing Agents is yet to be finalised and when the time is ripe the question of engaging suitable personnel will certainly be considered.

**Shri V. C. Kesava Rao:** May I ask whether the technical personnel are being trained for this purpose?

**The Honourable Shri K. C. Neogy:** For which purpose? I cannot quite follow the question.

**Shri V. C. Kesava Rao:** For helping the Shipping Corporation.

**The Honourable Shri K. C. Neogy:** I do not know what kind of training is contemplated. The scheme contemplates a Board of Directors on which the Government will have a majority. Then the management—the immediate management—would be entrusted to an experienced shipping concern. I think that should suffice for all practical purposes.

## COMPENSATION TO INDIANS FOR LOSSES IN BURMA AND THE FAR-EAST IN WORLD WAR II

**\*1319. Shri V. C. Kesava Rao:** Will the Honourable the Prime Minister be pleased to state what steps have been taken to get adequate compensation for losses sustained by Indian nationals in Burma, and other countries of the Far-East during the last war?

**Dr. B. V. Keskar (Deputy Minister of External Affairs):** Claims for compensation for losses sustained by Indian nationals in Burma, Malaya, North Borneo, Sarawak, Brunei, Siam and Philippines have been registered by the respective War Damage Claims Commissions of those countries. In respect of damage sustained in China, Indo-China and Netherlands East Indies, the claims of our nationals have been included in the repatriations claims against Japan before the Far Eastern Commission. No compensation has, however, actually been paid by any country. Adequate representations have been made by the Government of India, where necessary, to the authorities concerned to ensure that, in payment of compensation, Indian claimants get their due share.

**Shri Kishorimohan Tripathi:** May I know the total losses suffered by Indian nationals in the countries referred to?

**Dr. B. V. Keskar:** That is extremely difficult to give off-hand. There are different figures for different countries. For example with regard to the Far

Eastern countries it is not possible to get an actual estimate as the Indian nationals there themselves have not yet submitted complete figures. With regard to certain countries figures can be had like Burma and Malaya.

**Shri H. V. Kamath:** Do the losses referred to in this question pertain to the period before the British retreat from these countries or after their re-entry into them?

**Dr. B. V. Kesar:** The claims for damages are for damages done during the war, that is before the re-entry of the British.

**Shri Krishna Chandra Sharma:** Has any assurance been received from any of the countries, Burma, Malaya etc., in regard to the compensation?

**Dr. B. V. Kesar:** With regard to Burma and Malaya negotiations are pretty far advanced and there will be a decision very soon. With regard to other countries I am sorry to say that the negotiations are not yet so far advanced.

**Prof. Shibban Lal Saksena:** Is there any time-limit fixed within which the claims are to be made?

**Dr. B. V. Kesar:** That depends on the different countries. In regard to certain countries the War Damage Claims Commission of those countries has put a certain time-limit by which the claims could be put in. But it is not possible to say the same with regard to all countries. Every country has made its own rules.

**Shri H. V. Kamath:** Am I to understand that losses were sustained by our nationals during the period between the British retreat from these countries and their re-entry into them?

**Dr. B. V. Kesar:** Yes, that is right.

**Prof. Shibban Lal Saksena:** Will the Honourable Minister kindly give the dates for the various countries so that people may make claims by the specified dates?

**Dr. B. V. Kesar:** I think the dates have already expired. The dates were given and the claims have been put in most of the countries, but the figures for all the countries are not available. Figures for some countries like Burma and Malaya are available but for other countries we have not been able to get the figures.

#### SAFETY OF INDIANS IN MALAYA

\*1320. **Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) whether the life and property of Indians in Malaya have been jeopardized during the recent disturbances there; if so, to what extent; and

(b) whether any help has been requested by or rendered to Britain from our country in quelling the disturbances?

**Dr. B. V. Kesar** (Deputy Minister of External Affairs): (a) The total loss of life sustained by Indians (civilians and police) in the Federation of Malaya upto 31st December, 1948 was 26 and the total number of injured was 40. 321 Indians were detained under the Emergency Regulations in Malaya upto the end of January 1949, of whom 58 were repatriated to India, at their own option.

There has been no appreciable loss of property of Indians. Indian labour lines and residences on certain estates have been destroyed by terrorists of which details are not available.

(b) No, Sir.

**Shri H. V. Kamath:** Has the British Colonial Office been moved in the matter of compensation to the relatives or dependants of the victims killed in these disturbances?

**Dr. B. V. Kesar:** Where compensation is due—with regard to non-Indians also—there is a general rule. There we certainly press the claims of Indians also for compensation.

• **Shri H. V. Kamath:** Has the Government made an approach already?

**Dr. B. V. Kesar:** It has been made as I said, with regard to those to whom compensation is due. But there might be cases of loss of life in which compensation according to the laws of the land might not be due.

**Shri Mahavir Tyagi:** Are these disturbances political in nature?

**Dr. B. V. Kesar:** Yes, they are political in nature, rather terrorist in nature.

**Shri Mahavir Tyagi:** Is it a fact that Gurkha soldiers are employed by Britain there for quelling these disturbances?

**Dr. B. V. Kesar:** I am not aware whether Gurkha soldiers are employed. Might be.

**Shri H. V. Kamath:** What are those types of cases where compensation is not due and cannot be claimed?

**Dr. B. V. Kesar:** I am sorry I would not be able to reply that off-hand; I would require notice.

#### ALLOCATION OF REFUGEES TO PROVINCES AND STATES

\*1321. **Seth Govind Das:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state what is the present position of the allocations of refugees made to various provinces and states?

(b) What steps are being taken to complete such allocations by the Government of India?

**The Honourable Shri Mohan Lal Saksena:** (a) A statement is laid on the table of the House.

(b) Wherever any Region has a larger number of displaced persons than its quota, arrangements are being made to move the excess to other regions.

#### STATEMENT

*Number of displaced persons allocated to various Provinces and States.*

| S. No. | Name of Province/State                    | Number of refugees allocated (in lakhs)                                                                                                     | Remarks                                       |
|--------|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------|
| 1      | 2                                         | 3                                                                                                                                           | 4                                             |
| 1      | (a) East Punjab<br>(b) East Punjab States | 13 (Urban) plus the entire rural population of West Punjab and rural population of Punjabi extraction from other parts of Western Pakistan. | Except for Bhiwani Tehsil of Hissar District. |

| 1                      | 2 | 3               | 4 |
|------------------------|---|-----------------|---|
| 2 United Provinces     |   | 4               |   |
| 3 Bombay               |   | 5               |   |
| 4 C. P.                |   | 3               |   |
| 5 Bihar                |   | 0.5             |   |
| 6 Orissa               |   | 0.25            |   |
| 7 Assam                |   | (to begin with) |   |

| 22 Rampur State        |   | ..              |   |

**Seth Govind Das:** Is there any uniformity in every Province and state where these refugees are rehabilitated, as far as their allowances are concerned?

**The Honourable Shri Mohan Lal Saksena:** I do not follow the question. So far as their relief is concerned, there is a uniformity. As regards rehabilitation, schemes are submitted by the different Governments and these are considered and money is given by way of loan or grant.

**Seth Govind Das:** Are these allowances given to the different refugees according to the circumstances and market rates and other things prevailing in those parts of the country or the Provinces where they are rehabilitated?

**The Honourable Shri Mohan Lal Saksena:** I do not yet understand as to what the honourable member means by allowances. We do not give any allowances. Those who are in the camps are given food and clothing of those who are outside camps, are granted loans for their rehabilitation.

**Sardar Bhopinder Singh Man:** Will the Government see that before it sends more refugees to the Provinces those who have already gone there are properly rehabilitated?

**The Honourable Shri Mohan Lal Saksena:** Government is certainly taking steps to see that they are properly rehabilitated. But there are occasions when people come from Pakistan and we have to move them to one province or other; it is not possible to keep them at Waga. We have to move them to camps where the Government has full arrangement for their feeding and clothing.

**Shri Deshbandhu Gupta:** May I know whether it is not a fact that these allocations have so far been paper allocations only and nothing has been done in accordance with these allocations so far?

**The Honourable Shri Mohan Lal Saksena:** In regard to certain Provinces they are no doubt paper allocations. For instance C. P. was to take three lakhs but up till now they have taken not more than one lakh. But in regard to certain other areas they are not merely paper allocations. They are making arrangements for taking them.

**Shri Ram Chandra Upadhyaya:** Do Government intend to send some more refugees to the Matsya Union, and if so how many?

**The Honourable Shri Mohan Lal Saksena:** Yes. There is about two lakh acres of land available there and the Central Government is taking charge of that land and sending displaced persons there under the direct control and supervision of the Central Government.

**Seth Govind Das:** Do Government receive periodical reports from the various Provinces where these refugees have been sent, and will the Government be pleased to state what percentage of those sent to various Provinces have been rehabilitated up till now?

**The Honourable Shri Mohan Lal Saksena:** I am afraid we have not been receiving regular periodical reports from the different Governments notwithstanding the mandate.

**Dr. P. S. Deshmukh:** May I know what proportion of the expenditure is borne by the Centre and what proportion, if any, by the Provinces?

**The Honourable Shri Mohan Lal Saksena:** As far as relief and providing of technical education is concerned, the Government of India pays the whole amount of expenditure incurred. As regards rehabilitation schemes and loans for housing and rehabilitation, the money is provided by the Centre and the arrangement is that the losses will be shared on a 50-50 basis.

**Pandit Lakshmi Kanta Maitra:** May I enquire of the Honourable Minister what is the latest position with regard to the Provinces of Bihar and Assam as regards reception of refugees?

**The Honourable Shri Mohan Lal Saksena:** We have allocated a certain number of refugees to Bihar and Assam. So far as Assam is concerned, they have got about 2½ lakhs of refugees but I am sorry to state that they are not taking any steps to rehabilitate them. Their contention is that if they start camps then it will be a permanent responsibility on their hands. Otherwise they will be rehabilitated themselves. We have pressed on Assam to prepare schemes for providing houses wherever necessary.

**Shri R. K. Sidhva:** May I know what is the allocation of refugees to Madras and whether that allocation has been completed?

**The Honourable Shri Mohan Lal Saksena:** There was no allocation for Madras but all the same there are about 10,000 refugees there. We have written to all the Provinces saying that wherever there are refugees they have to be rehabilitated whether we have made allocation or not. Allocations were made with regard to Provinces and States where the displaced persons were likely to go.

**Shrimati G. Durgabai:** May I know whether it is a fact that the refugees are refusing to go to the Provinces or States where they are asked to go, and is it also a fact that it is not for want of willingness on the part of some of the Provinces that these allocations are not strictly enforced?

**The Honourable Shri Mohan Lal Saksena:** In certain cases, it is true that refugees have refused to go to certain Provinces, but in such cases we can refuse to help them. But there are also Provinces who have refused to make arrangements for them. For instance, in the case of Madras the Provincial Government had offered to rehabilitate about 10,000 persons at the very beginning. 10,000 persons are there in relief camps now but no steps have been taken to rehabilitate them. I have already addressed the Honourable Premier and he has written back stating that he is taking steps to rehabilitate them.

**Shri Raj Bahadur:** May I know whether the number of refugees allocated for rehabilitation in Matsya Union is larger or smaller than the number of evacuees who left this area?

**The Honourable Shri Mohan Lal Saksena:** I think it is smaller.

## VALUATION OF EVACUEE'S PROPERTY

\*1322. **Shri S. Nagappa:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state at what stage the valuation of the evacuees' property is?

(b) What is the total value of the properties of the evacuees who left Pakistan for India so far valued?

**The Honourable Shri Mohan Lal Saksena:** (a) As regards urban immoveable property the honourable member is referred to my answer to part (a) of Starred Question No. 113 by Shri B. N. Munavalli on the 3rd February, 1949. As regards agricultural property no agreement has yet been concluded with Pakistan Government, but the question is under the consideration of both the Dominions.

(b) Does not arise.

## EXPORT LICENCES

\*1323. **Shri S. Nagappa:** Will the Honourable Minister of Commerce be pleased to state the total number of export licences that were issued during the last financial year province-wise?

**The Honourable Shri K. C. Neogy:** Statistics of the number of export licences issued are not maintained province-wise and the labour and time involved in collecting these statistics will not be commensurate with the results achieved.

## CO-OPERATIVE SOCIETIES AMONG INDUSTRIAL LABOURERS IN CENTRALLY ADMINISTERED AREAS

\*1324. **Shri S. Nagappa:** (a) Will the Honourable Minister of Labour be pleased to state whether any attempt has been made by the Government of India with respect to the Centrally administered areas to organise co-operative societies among the industrial labourers?

(b) If so, how many such societies have been formed and of what nature?

**The Honourable Shri Jagjivan Ram:** (a) Attempts to organise co-operative societies among industrial workers have been made in Delhi, Ajmer-Merwara, Coorg and Himachal Pradesh.

(b) (i) Forty, two and four such co-operative societies have so far been registered in Ajmer-Merwara, Coorg and Himachal Pradesh respectively. In Delhi there has been no response from industrial workers.

(ii) The nature of the co-operative societies in Ajmer-Merwara, Coorg and Himachal Pradesh is as follows:

| Ajmer-Merwara—           |    |
|--------------------------|----|
| Weavers                  | 27 |
| Wool workers             | 1  |
| Wool grading             | 4  |
| Narishalas               | 5  |
| Brimakers                | 1  |
| Tin and iron Fabricators | 1  |
| Chappal Manufacturers    | 1  |
| TOTAL                    | 40 |

† Answer to this question laid on the table, the questioner being absent.

|                                                                     |  |   |
|---------------------------------------------------------------------|--|---|
| Coorg—                                                              |  | 1 |
| Plantation (Coffee)                                                 |  | 1 |
| Motor Transport Industry                                            |  | 2 |
| TOTAL                                                               |  | 3 |
| Himachal Pradesh—                                                   |  | 3 |
| Industrial Societies of Weavers, Oilmen and Shoe makers             |  | 1 |
| Industrial Society of Labourers consisting of Masons and Carpenters |  | 4 |
| TOTAL                                                               |  | 4 |

## SELECTION AND TRAINING OF INDIAN FOREIGN SERVICE PERSONNEL

\*1325. **Shri Ari Bahadur Gurung:** (a) Will the Honourable the Prime Minister be pleased to state whether Government have any scheme to start a school for training Indian Foreign Service personnel?

(b) How many candidates were accepted by the Public Service Commission during the year 1948 for the Foreign Service?

(c) Were all these candidates selected through open competition?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) Government have no special scheme for starting a separate school for training Indian Foreign Service personnel. They are, however, given some special training at the Indian Administrative Service Training School in Delhi. After this training, which normally lasts three months, they are sent abroad for further training. On their return, they receive practical training in the Ministry of External Affairs and the Ministry of Commerce.

(b) and (c). Normally all candidates will be selected through open competition. But in view of the urgent demand for personnel to fill Foreign Service appointments, the Federal Public Service Commission was asked to select candidates suitable for the Foreign Service. They supplied a graded list of 183 candidates for this purpose. All these were candidates between the ages of 26 and 45 and had been graded as a result of interview by the Commission. Out of these, 37 have been selected for appointment to the Indian Foreign Service. In addition six candidates were appointed to the Indian Foreign Service in 1948 as a result of the competitive examination held in 1947.

**Shri Ari Bahadur Gurung:** How many of them were taken from ex-military personnel?

**Dr. B. V. Keskar:** There were some such personnel selected also but I am not able to give the figures off-hand.

**Shri R. K. Sidhva:** For the purpose of selection, may I know if any qualifications are prescribed, and if so what are those qualifications?

**Dr. B. V. Keskar:** There are certain standard qualifications which are laid down for such selections, for example for candidates for the Indian Administrative Service. In the same way certain qualifications are necessary for candidates for the Indian Foreign Service. I am sorry I have not got the details with me here.

**Shri M. Tirumala Rao:** In regard to (a), are there any special experts in foreign affairs attached to the Indian Administrative Training School to give special training on foreign affairs to these boys?

**Dr. B. V. Keskar:** In the Indian Administrative Service Training School they get experience with regard to general administration. It is when they come to the Ministry of External Affairs that they get their training in foreign affairs, but they have to undergo a pretty long period in the External Affairs Ministry.

**Seth Govind Das:** Is it a fact that the Defence Ministry is going to start a school in the near future where different languages would be taught, and is there any proposal for teaching different languages to these candidates before they are sent to different countries in order to acquaint them with the language of the country where they are sent?

**Dr. B. V. Keskar:** There is a school which has been actually started—it is not going to be started, it has been started already—in the Ministry of Defence. The Ministry of External Affairs is also collaborating with the Ministry of Defence in running the School of Languages and many of the candidates or even officials of the External Affairs Ministry are sent to this School for learning foreign languages.

**Shri Mahavir Tyagi:** To which country are these candidates of the Administrative Service sent for further training, and who foots their bill?

**Dr. B. V. Keskar:** The bill is footed by the Government and the candidates are sent to various countries according to necessity.

**Shri M. Tirumala Rao:** Has the External Affairs Ministry got any special experts in foreign affairs to judge whether the students are fully qualified or not, or is their experience only from the time when the Department was started?

**Dr. B. V. Keskar:** The top officials of the External Affairs Ministry are certainly experts in foreign affairs—otherwise they would not be at the top there—and they are to judge whether the students are qualified or not.

**Shri Jainarain Vyas:** May I know whether the competition referred to in answer to (c) is open to candidates from Indian States also, and if so is it on the same basis as is applicable to the students from the Provinces?

**Dr. B. V. Keskar:** I think it is now open to students from Indian States also—it was not open formerly.

#### SUBSIDY TO NEPAL

\*1326. **Shri Ari Bahadur Gurung:** (a) Will the Honourable the Prime Minister be pleased to state the amount of annual subsidy paid by the Government of India to Nepal?

(b) Is it a fact that this money is also meant for the welfare of the disabled Gurkha soldiers released from the Government of India service?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) The annual subsidy paid by the Government of India to Nepal is rupees ten lakhs.

(b) No conditions are attached to the payment which make it obligatory on the Nepalese Government to expend the money on any specific purpose.

**Shri Ari Bahadur Gurung:** Is it a fact that the Government of India very recently paid a sum of Rs. 57 lakhs to the Government of Nepal?

**Dr. B. V. Keskar:** I am not aware.

**Shri Ari Bahadur Gurung:** What is the object of this annual subsidy of Rs. 10 lakhs?

**Dr. B. V. Keskar:** The Government of Nepal is a friendly government, and we think that will help them.

**The Honourable Shri Jawaharlal Nehru:** May I add something to the information given by my colleague.

This subsidy was fixed at the end of the first World War, presumably for services rendered during that war. That is continuing. Subsequently, at the end of the second World War, a fresh subsidy of a similar amount, I think was agreed to. Then this was capitalised when a lump-sum payment was made to the Nepalese Government. That was done by the previous government. All this was done by the previous government. I do not know what this sum of Rs. 57 lakhs is. But a lump-sum far exceeding Rs. 57 lakhs was paid to the Nepal Government, may be in 1945-46, probably in 1946. That sum was supposed to be spent in some productive scheme, river valley schemes, etc.

**Shri Ari Bahadur Gurung:** Will the Honourable the Prime Minister inform the House after making enquiries? I mean about this Rs. 57 lakhs; may be between Rs. 50 lakhs and Rs. 60 lakhs.

**Dr. B. V. Keskar:** That sum has been paid. If the honourable member wants to know the exact sum, that can be found out. The decision to pay a certain big lump-sum was taken by the previous Government, and it was capitalised. The exact amount can be found out.

**Shri Mahavir Tyagi:** May I know if this subsidy paid by the British Government is now, after partition, shared by Pakistan Government as well?

**Dr. B. V. Keskar:** No, Sir.

**Shri H. V. Kamath:** In spite of the new set-up after the 15th August, 1947, and the new relations between India and Nepal, has not this matter been reconsidered by the successor Government of the British regime?

**Dr. B. V. Keskar:** It has been reconsidered, and the subsidy of Rs. 10 lakhs is a re-adjusted subsidy. It was not the same before.

**Shri H. V. Kamath:** Has it been reduced or enhanced?

**Shri Ari Bahadur Gurung:** May I know if the Government is aware that near about fifteen per cent. of the Gurkhas serving under the Government of India in the Gurkha Regiment are persons actually born in India. So I am asking if the Government propose to consider this fact, in relation to the subsidy given to the Government of Nepal?

**The Honourable Shri Jawaharlal Nehru:** This is an agreement arrived at between two Governments—the Government of India and the Government of Nepal. The Government of India then was not the present government, but the previous government. But normally speaking, the successor government honours such agreements, and therefore we decided to honour that agreement.

**Shri Mahavir Tyagi:** In view of the fact that the Gurkhas were employed in fighting wars for the U.K.—imperialistic wars; why has not the Government approached the U. K. Government to share this subsidy?

**Shri M. Tirumala Rao:** Is there any agreement that a certain number of Gurkhas will be supplied to the Indian army every year?

**The Honourable Shri Jawaharlal Nehru:** There are a number of Gurkha troops in the Indian Army. That has been done by arrangement, or if you like, with the knowledge of the Nepalese Government.

## PURCHASE OF MACHINE TOOLS BY GOVERNMENT

\*1327. **Shri S. V. Krishnamoorthy Rao:** (a) Will the Honourable Minister of Commerce be pleased to state how many machine tools were purchased by Government for (i) railway; (ii) military; (iii) industries; and (iv) agriculture departments in the years 1947 and 1948?

(b) How many of them are of Indian manufacture and how many of foreign manufacture?

**The Honourable Shri K. C. Neogy:** (a) It is not possible to give the information in terms of numbers of machine tools. The value of purchases is as follows:

|                       | 1947             | 1948               |
|-----------------------|------------------|--------------------|
|                       | Rs.              | Rs.                |
| Railways . . . . .    | 63,11,256        | 2,16,34,730        |
| Defence . . . . .     | 20,189           | 1,33,151           |
| Agriculture . . . . . | 13,688           | 1,36,152           |
|                       | <u>63,45,132</u> | <u>2,19,04,033</u> |

Information regarding purchases by the Industries Department is not available but the value is not likely to be appreciable.

(b) Such separate figures for each of the three Departments are not available, but taking the purchases made by the Government of India on behalf of all indentors, the position is:

|                               | 1947               | 1948               |
|-------------------------------|--------------------|--------------------|
|                               | Rs.                | Rs.                |
| Indian manufacture . . . . .  | 3,18,674           | 12,90,375          |
| Foreign manufacture . . . . . | 1,02,18,385        | 2,26,33,565        |
|                               | <u>1,05,37,059</u> | <u>2,39,23,940</u> |

**Shri S. V. Krishnamoorthy Rao:** Sir, is the Government satisfied that the machine tools imported from abroad would not have been obtained in India from Indian manufacturers?

**The Honourable Shri K. C. Neogy:** Generally, that is the position.

**Shri S. V. Krishnamoorthy Rao:** Does the Controller of Imports scrutinise every import license, for the import of machine tools?

**The Honourable Shri K. C. Neogy:** I should think so, but I am not positive about it.

**Shri S. V. Krishnamoorthy Rao:** Is it a fact that the Defence and Railway Departments were the largest users of machine tools during the war years?

**The Honourable Shri K. C. Neogy:** May be so.

**Shri B. Shiva Rao:** Has my honourable friend any estimate of the number of machine tools received by India from Germany last year, as part of reparations?

**The Honourable Shri K. C. Neogy:** I cannot supply the information straight-away.

**Shri B. Shiva Rao:** Is it a fact that the Committee on the Utilisation of Disposals took strong exception to the purchase of machine tools abroad, when there was a large number of machine tools deteriorating in this country?

**The Honourable Shri K. C. Neogy:** I am afraid my honourable friend would have to address that question to the Honourable Minister for Industry. I am concerned only with the import aspect of machine tools.

**Shri Mahavir Tyagi:** Were these transactions effected in India or in foreign countries, and if in foreign countries, may I know whether any Indian commission agents were employed, or did only the foreigners earn the commissions out of these purchases?

**The Honourable Shri K. C. Neogy:** I do not know how this question arises. But I may say that there are Government organisations abroad through which these purchases are made, when purchases are not made locally.

**Shri Mahavir Tyagi:** I wanted to know whether the agents employed by these organisations are foreign agents or Indians, because agents earn crores of rupees as commission. I want to know whether Indians were employed as the agents.

**The Honourable Shri K. C. Neogy:** I have no information.

**Shri Ram Chandra Upadhyaya:** Were these purchases made through the Department or through purchasing agents?

**The Honourable Shri K. C. Neogy:** There are purchasing organisations in the different countries, and I take it that these purchases took place locally and through these agencies. But I may tell the honourable member that this aspect of the question appertains to the Ministry of Industry and Supply.

**Shri Mahavir Tyagi:** Are there no Indian agents of the foreign companies to supply these articles in India?

**The Honourable Shri K. C. Neogy:** I have no information. Commerce Ministry does not make the purchases.

## REFUGEES IN OKHA TRANSIT CAMP

\*1328. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether any representation from the displaced persons in Okha (Kathiawar) has been received complaining that no arrangement for their removal to a permanent camp has been made?

(b) Since how long have they been in the Okha Refugee Transit Camp?

(c) Have all facilities for food and lodging been provided for them?

(d) Is it a fact that they were kept in cold weather without any sufficient coverings?

(e) Why have they not been removed to a permanent camp?

**The Honourable Shri Mohan Lal Saksena:** (a) Yes.

(b) For about three months.

(c) Yes.

(d) No.

(e) Instructions have already been issued to shift these displaced persons from Okha to relief camp in Udaipur.

**Shri R. K. Sidhva:** In reply to (d) the Honourable Minister gave an answer in the negative. May I know whether any representation has been made to the Honourable Minister that they have been kept there without any clothes being supplied to withstand the cold weather?

**The Honourable Shri Mohan Lal Saksena:** My information is that they were supplied with blankets.

**Shri R. K. Sidhva:** When, Sir? After the expiry of the cold season or when?

**The Honourable Shri Mohan Lal Saksena:** I take it that they were supplied when they arrived there and that was in the cold season.

**Shri R. K. Sidhva:** What was the complaint, Sir, may I know of these refugees? Has the complaint reached the Honourable Minister?

**The Honourable Shri Mohan Lal Saksena:** The complaint was that they wanted to be removed to some other permanent camp.

**Shri R. K. Sidhva:** Did they not say that they have not had food for a number of days and they had no clothes?

**The Honourable Shri Mohan Lal Saksena:** I do not have the complaint before me. We have been receiving complaints and they were referred to the Provincial or State Governments which were in charge of the camp at that time.

**Shri R. K. Sidhva:** Did I not make a reference and did not the Honourable Minister say that the Government were arranging with the Baroda Government...

**Mr. Speaker:** The honourable member has the information in his possession. Next question.

#### WATER CHARGES FROM OCCUPANTS OF 'C' TYPE CHUMMERIES IN LODI ROAD, NEW DELHI

\*1329. { **Shri Satis Chandra Samata:**  
          { **Shri Basanta Kumar Das:**

Will the Honourable Minister of Works, Mines and Power be pleased to state:

- (a) the number of 'C' type chummary quarters in Lodi Road, New Delhi;
- (b) the rate of water charges from each such quarter (i) at present and (ii) in 1948;
- (c) if there be any increase in rate, the reason for the same;
- (d) the rate of water charges in other types of chummeries;
- (e) what class of officers reside in such chummeries; and
- (f) what their highest and lowest salaries are?

**The Honourable Shri N. V. Gadgil:** (a) 480, of which 280 are in the occupation of married officers and the remaining two hundred are occupied by single officers, two officers occupying one chummary.

(b) The so-called water charges also include charges for electricity used in common places, e.g., verandhas, stair cases, dining rooms, kitchens, lavatories, etc., sweepers' pay and the cost of cleaning materials.

The present rate is Rs. 9/8/- per chummary the rate in 1948 was Rs. 4/8/-.

(c) The increase is due to increase in the quantity of water and electricity actually consumed, and the increased charges for sweepers, etc.

(d) Rs. 3/9/- p.m. in the case of Tibbia College Chummeries. Rs. 8/4/- p.m. in the case of Ibbetson Road Chummeries. Rs. 4/7/- p.m. in the case of Alexandra Place Chummeries.

(e) Officers drawing less than Rs. 600/- p.m.

(f) Ranging between Rs. 50/- and 475/- p.m.

**Shri Satis Chandra Samanta:** Is it a fact, Sir, that the refugees who live on the top floor of these chummeries consume more water and electricity and for that reason higher charges are levied on the officers living below?

**The Honourable Shri N. V. Gadgil:** It is one of the reasons, Sir.

**Shri Satis Chandra Samanta:** Do Government consider the desirability of taking the charges of the refugees on the Government's own head?

**The Honourable Shri N. V. Gadgil:** The fact is that the refugees do not pay.

#### EXHIBITION OF FILM "INDIA SPEAKS" IN NEW YORK

\*1330. **Shri R. K. Sidhva:** (a) Will the Honourable the Prime Minister be pleased to state whether the attention of Government has been drawn to the news which appeared in almost all the newspapers dated the 26th February, 1949, that the film "India Speaks" shown in New York was objected to by the Indians there?

(b) Are Government aware that Indian students in New York protested and made a demonstration outside the cinema house?

(c) What steps have Government taken or propose to take in the matter?

(d) Will Government take steps to see that the exhibition of the film is stopped?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) Yes.

(b) Yes.

(c) and (d). The film has already been withdrawn from circulation.

**Shri R. K. Sidhva:** May I know, Sir, who are the producers of this film, foreigners or an Indian firm and whether it passed the Censor Department before it was sent to a foreign country?

**Dr. B. V. Keskar:** It is not a film manufactured by us, but by foreigners.

**Shri R. K. Sidhva:** Was it taken in India?

**Dr. B. V. Keskar:** It was taken in India, but probably long before. It is not a new thing; it is a thing of some years back.

**Shri R. K. Sidhva:** When?

**Dr. B. V. Keskar:** I have not got the exact date.

**Shri H. V. Kamath:** Did the cultural attache or some educational officer of our embassy in the U.S.A. see this film either on Government's instructions or suo motu and make a report to the Government about it?

**Dr. B. V. Keskar:** Which Government?

**Shri H. V. Kamath:** Our Government.

1786

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) : [23RD MARCH 1949]

**Dr. B. V. Keskar:** When our attention was drawn to it, there was no need to make a formal representation, but we drew the attention of the authorities concerned, and it is as a result of that that the film has been withdrawn.

**Shri H. V. Kamath:** Is it a fact that several news reels were shown in the U. K. and U.S.A. last year particularly after the 15th August, 1947 with a definite propagandist bias against India?

**Dr. B. V. Keskar:** I am not aware.

**Mr. Speaker:** It does not arise.

**Shri R. K. Sidhva:** The Deputy Minister said that the film has since been withdrawn. May I know on what date it was withdrawn? Is it a fact that the production has been made and in reply to exhibitors, they have stated that they are going to be shown in other cinemas also?

**Dr. B. V. Keskar:** Whether it is going to be shown in other cinemas or not, it is a fact that it has been withdrawn.

**Shri Deshbandhu Gupta:** Is it a fact that film producers in Hollywood continue to produce even today films prejudicial to India?

**Mr. Speaker:** Order, order.

**Shri Raj Bahadur:** What steps do Government propose to take in respect of all films produced in foreign countries which bring a bad name to India and affect adversely our reputation?

**Dr. B. V. Keskar:** I am afraid, it is too general to answer.

**Shri R. K. Sidhva:** May I ask whether Government will take steps to see that these films produced by the foreigners at least in future be passed by the Censor before they are taken? Do Government intend to do that?

**Dr. B. V. Keskar:** As regards films which are exhibited in foreign lands, it is not possible for the Indian Censor to test and give a certificate.

**Shri Deshbandhu Gupta:** Is it not a fact that there is an arrangement in the U.S.A. that films pertaining to a particular country are generally got censored by the cultural department of the embassies? If so, is our embassy functioning in respect of films that are being produced today and are they consulted in the matter?

**Dr. B. V. Keskar:** There is no such arrangement as far as I am aware for any country in the U.S.A. Privately or informally such things might be done.

#### PROTECTION TO INDIAN BISCUIT INDUSTRY

\*1331. **Shri H. V. Kamath:** Will the Honourable Minister of Commerce be pleased to state:

(a) whether it is a fact that the import of biscuits from sterling area has been placed in the Open General Licence; if so, since when;

(b) whether Government are aware that the Indian biscuit industry has been adversely affected thereby; and

(c) what measures Government propose to take to protect the Indian biscuit industry?

**The Honourable Shri K. C. Neogy:** (a) Yes; since 4th September 1948.

(b) No such representation has been received from the Industry.

(c) Government are at present considering the question as to whether there is a *prima facie* case to refer the claim for protection of the Indian biscuit industry to the Tariff Board for investigation and report.

**Shri H. V. Kamath:** Was the import of foreign biscuits completely stopped during the War?

**The Honourable Shri K. C. Neogy:** I am not in a position to say.

**Shri Mahavir Tyagi:** May I know, Sir, if these Open General Licence policy with regard to foreign biscuits were adopted at the request of the biscuit trade people in India or at the request of foreign manufacturers?

**The Honourable Shri K. C. Neogy:** In the interests of the people of the country.

**Shri Mahavir Tyagi:** May I know Sir, if action has been taken at the request of foreign tradesmen, I mean foreign industries?

**The Honourable Shri K. C. Neogy:** Not at all. I may tell the House that that country's requirements in respect of biscuits have been estimated at 25,000 tons per annum out of which not more than 10,000 to 12,000 tons per annum can be expected to be manufactured by the Indian concerns provided flour is available, which is not the case always.

**Shri H. V. Kamath:** What is the *per capita* requirement of biscuit, Sir.

**The Honourable Shri K. C. Neogy:** The honourable member might work it out himself.

**Shri R. K. Sidhva:** May I know if the Britannia Biscuit Factory in Calcutta is partly Indian and partly foreign? If it is a mixed one, what percentage of it is Indian?

**The Honourable Shri K. C. Neogy:** I do not see how it arises.

**Seth Govind Das:** Are there any applications before the Government for having more biscuit factories in the country and are some of these applications rejected by Government?

**The Honourable Shri K. C. Neogy:** I have no information.

**Shri Mahavir Tyagi:** I wanted to know the reason why this Open General Licence system has been permitted. What is the basis on which these orders have been placed with foreign firms?

**The Honourable Shri K. C. Neogy:** Because the demand in the country cannot be met from the indigenous manufacture.

#### VISIT OF INDIAN AMBASSADOR IN TURKEY TO PARIS

\*1332. **Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) whether the Indian Ambassador in Turkey recently spent a few days in Paris;

(b) if so, the purpose of the visit, and whether permission of Government had been obtained for temporarily leaving his charge; and

(c) the expenditure incurred by him in connection therewith?

**The Honourable Shri Jawaharlal Nehru:** (a) No. He did not go to Paris.

(b) and (c). Do not arise.

**Shri Brajeshwar Prasad:** Is it a fact that he went to London on a private visit without the permission of the Government of India?

**The Honourable Shri Jawaharlal Nehru:** It is a fact that he went to London, not on a private visit, but there was some question of purchases of barley from Brazil. Our general instructions to all Ambassadors are that they should not move out of their sphere of activity without special permission. Of course, when some sudden emergency arises the Ambassador might do so in the hope of getting permission subsequently as in the present instance. He went rather suddenly to London in connection with this purchase of barley from Brazil and before he could get permission, he reported to us and according to his report his visit there led to the Government of India saving in this deal a sum of over £50,000.

**Shri H. V. Kamath:** Is the telephonic communication between Ankara and Delhi so inadequate that he could not get permission before he left Ankara for London or wherever it was?

**The Honourable Shri Jawaharlal Nehru:** I cannot answer for the telephonic communications. It is not easy to get in touch with Ankara on these long distance lines.

**Shri Mahavir Tyagi:** May I know what is the general rule with regard to these Ministers in foreign countries, Sir, because, the other day I read in the papers about our Embassy in Sweden also going and coming to London and other places, Sir?

**The Honourable Shri Jawaharlal Nehru:** The rule is that they go out of their charge after obtaining special permission.

**Prof. N. G. Ranga:** Was he commissioned to bargain for the purchase of barley from Brazil by India?

**The Honourable Shri Jawaharlal Nehru:** I cannot go into the details of the matter. He had been connected in Turkey with the Brazilian Embassy. There was a chance of the deal falling through. As a result of his visit I am informed that a saving of £53,000 was made.

**Prof. N. G. Ranga:** Apart from the savings which he was instrumental in making—this could have been made somebody else accredited by Government—will the Honourable the Prime Minister be good enough to go into the matter and give the fullest possible information in order to remove misapprehension?

**The Honourable Shri Jawaharlal Nehru:** I have made enquiries into this matter.

**Prof. N. G. Ranga:** How is it then that after enquiries the Prime Minister is not able to say whether this Ambassador who was stationed in Turkey was commissioned to purchase barley from Brazil through London?

**The Honourable Shri Jawaharlal Nehru:** There is no question of commissioning anybody. Our Ambassador in Turkey has to deal with other Embassies occasionally. Sometimes some negotiations or informal suggestions take place and these are followed up sometime later.

**Prof. N. G. Ranga:** I want definite information as to whether the Government of India thought it best to send this Ambassador to London in order to negotiate for barley with Brazil?

**The Honourable Shri Jawaharlal Nehru:** I have already said that he went there before obtaining the permission of the Government of India. Immediately we heard of it we asked for further particulars and have now received them.

**Shri H. V. Kamath:** In view of the fact that we have a full-fledged Ambassador in Brazil why was it so very necessary or urgent for our Ambassador in Ankara to go to London for this deal about Brazil barley?

**The Honourable Shri Jawaharlal Nehru:** The deal was effected in London and not in Brazil or in Ankara. Whether it was absolutely necessary or not can be judged from the result. The result was advantageous to us.

#### CONDITION OF EMPLOYEES IN PRIVATE NEWSPAPER CONCERNS

**\*1333. Shri H. V. Kamath:** Will the Honourable Minister of Labour be pleased to refer to the answer to part (b) of Starred question No. 600 asked by Shri Kailash Behari Lal in the Central Legislative Assembly on 20th November, 1944 and also to starred question No. 594 asked by Shri Gopikrishna Vijayavargiya in the Constituent Assembly of India (Legislative) on 30th August, 1948, regarding the statistics of private newspaper owners and their employees with regard to rules of leave, list of holidays, salary grades, dearness allowance, conditions of appointment etc. and state whether Government propose to take any further action for the betterment of the conditions of employees of private owned newspapers?

**The Honourable Shri Jagjivan Ram:** The defects mentioned in the Labour Investigation Committee's report on labour conditions in printing presses were mostly confined to the private unregulated presses. With the enforcement of the Factories Act, 1948, the Employees' State Insurance Act, 1948, and the Industrial Employment (Standing Orders) Act, 1946, it is hoped that there will be material improvement in the working conditions of the staff of privately-owned newspapers.

Government propose to bring in Central Legislation to regulate the conditions of work in all Shops and Commercial establishments.

Several provincial governments have already passed Shop Assistants or Commercial Undertaking Act with a view to give protection to workers in commercial establishments. Workers in private newspapers can take advantage of these Acts.

Government also intend to set up tripartite committees for the more important industries in which the Labour Investigation Committee's report indicated a *prima facie* case for improvement in working conditions. So far such industrial committees have been set up for Plantations, Coal Mining, Cotton Textiles, Training and Leather Manufactories and Cement industries. The desirability of having such a committee for the newspaper industry will be considered.

#### VISIT OF AFGHAN TRADE DELEGATION

**\*1334. Shri B. N. Munavalli:** Will the Honourable Minister of Commerce be pleased to state:

(a) whether it is a fact that an Afghan trade delegation had come to India to finalize a treaty of friendship and commerce with the Indian Government especially to secure mill cloth;

(b) if so, whether the treaty was finalized; and

(c) what are the terms of the said treaty?

**The Honourable Shri K. C. Neogy:** (a) An Afghan Trade Delegation came to Delhi to discuss the terms of a Treaty of Trade and Commerce with the Representatives of the Government of India. The terms of the Treaty do not specifically cover the supply of cloth. The Government of India have however agreed to a quota of cloth for Afghanistan.

(b) and (c). The treaty has not yet been finalised; agreement has however been reached between the Representatives of the Government of India and the Afghan Trade Delegation in regard to the terms of the Treaty; which is being presented to both the Governments for acceptance before formal signature.

**Seth Govind Das:** What are the chief articles which are going to be sent to Afghanistan from here and what are the chief articles that we are going to receive from Afghanistan according to the agreement?

**The Honourable Shri K. C. Neogy:** This particular trade agreement does not specifically refer to any commodity that may be exchanged in that fashion. It is a treaty that seeks to extend to Afghanistan what is known as the Most-Favoured-Nation treatment.

**Prof. N. G. Ranga:** Is the Standing Committee attached to the Department being consulted in regard to this matter?

**The Honourable Shri K. C. Neogy:** As far as I can recollect, I think this matter was placed before the Committee. But then, as I said, the treaty has not yet been finalised.

**Shri H. V. Kamath:** Does the exchange rate of the Indian rupee in Afghanistan show whether the Rupee has appreciated or depreciated recently?

**The Honourable Shri K. C. Neogy:** I cannot give an answer to that question.

**Shri Mahavir Tyagi:** May I know what is our trade route to Afghanistan?

**The Honourable Shri K. C. Neogy:** It is via Pakistan.

**Shri Mahavir Tyagi:** While passing through Pakistan territory have we to pay any duty to Pakistan?

**The Honourable Shri K. C. Neogy:** Afghanistan, being an independent sovereign country is entitled to the benefits of what is known as the Barcelona Convention under which goods in transit of this kind are free from any kind of duty.

**Dr. P. S. Deshmukh:** May I know the quantity of cloth agreed to be sent to Afghanistan?

**The Honourable Shri K. C. Neogy:** We have agreed to give to Afghanistan 10 million yards for 1949 apart from the quota of 10 million allotted but not yet utilised.

#### VALUE OF IMPORTED LIQUOR

\*1335. **Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Commerce be pleased to state:

(a) the amount spent on the import of foreign liquor into India in the year 1948;

(b) whether there is any proposal to decrease the import of liquor in the next financial year; and

(c) whether liquor is imported from Dollar countries?

**The Honourable Shri K. C. Neogy:** (a) Rs. 75,08,000 represented the value of foreign liquor imported in 1948.

(b) There is no such proposal at present.

(c) No.

#### STARRED QUESTIONS AND ANSWERS

**Seth Govind Das:** In regard to both price and quantity, was the liquor imported in 1947, more or less than in the previous year?

**The Honourable Shri K. C. Neogy:** I have not got comparative figures. But it seems to me there was an increase in 1947-48 over the figure for 1946-47. Full figures for the later periods are not yet available.

**Shrimati Dakshayani Velayudhan:** May I know why there is no proposal to reduce the import in view of the fact that prohibition has been introduced in several Provinces?

**The Honourable Shri K. C. Neogy:** I might invite the honourable member's attention to the fact that the import trade control is exercised only on account of the foreign exchange problems. This control has nothing to do with the policy of prohibition that might be adopted by this Government in future.

**Shri V. C. Kesava Rao:** What is the total quantity of liquor imported this year?

**The Honourable Shri K. C. Neogy:** I have not got the figures in gallons.

**Dr. P. S. Deshmukh:** Is there any scheme to produce similar liquors in India?

#### (b) WRITTEN ANSWERS

##### UNEMPLOYMENT AND MANPOWER STATISTICS

\*1336. **Shri P. Kunhiraman:** (a) Will the Honourable Minister of Labour be pleased to refer to the answer given to my starred question No. 896 asked on 4th March, 1949 regarding unemployment in India and state whether the Government of India have any intention to bring a legislative measure in the immediate future making statistical returns of the unemployed and manpower situation in India by the Provincial and State Governments compulsory?

(b) What is the set up of the Directorate General of Resettlement and Employment?

**The Honourable Shri Jagjivan Ram:** (a) While the desirability of having accurate statistics of the extent of unemployment in India can not be questioned, there are practical difficulties in enforcing legislation of the kind suggested by the honourable member. This is a matter that will require very careful consideration after acquiring further experience of the working of employment exchanges in India.

(b) The Directorate-General of Resettlement and Employment consists of a Headquarters Organisation at New Delhi and a Regional Organisation in each Province. The Headquarters Organisation has a Director-General at the head assisted by a Secretariat staff and three Directorates, viz., of Employment, Training and Publicity. The office at each Provincial Headquarters consists of a Regional Director and his staff. In addition, there are a number of Employment Exchanges and Training Centres in each Province which are looked after by the appropriate Regional Director under the control and guidance of the Director-General.

##### TRADE SANCTIONS AGAINST SOUTH AFRICA

\*1337. **Shri Lakshminarayan Sahu:** Will the Honourable the Prime Minister be pleased to state whether the Government of India propose to reconsider the policy of trade sanctions against South Africa?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): No.

## ACTION AGAINST SOUTH AFRICANS UNDER RECIPROCITY ACT

\*1338. **Shri Lakshminarayan Sahu:** Will the Honourable the Prime Minister be pleased to state the action taken under the several clauses of the Reciprocity Act against South Africa, with particular reference to the number of South African Whites who sought admission to India, and how many were admitted and how many were excluded?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): Government made rules under the Reciprocity Act of 1943 (i) declaring all persons of South African domicile, who are not of Indian origin, to be prohibited immigrants and regulating their entry into India by permits; (ii) prohibiting South Africans of non-Indian origin, domiciled in Natal and Transvaal, from acquiring, hiring or occupying any immovable property in India except with the permission of the Central Government and (iii) declaring all South Africans except those domiciled in the Cape Province, ineligible for election to any local authority in India or for voting in the election of any such authority.

Since 1st December, 1944, which was the date of enforcement of the Rules, 119 applications have been received, of which 103 have been allowed and 11 rejected.

## SCHEME OF ASSISTED EMIGRATION OF INDIANS FROM SOUTH AFRICA

\*1339. **Shri Lakshminarayan Sahu:** Will the Honourable the Prime Minister be pleased to state:

(a) whether it is a fact that the South African Government introduced on or about the 3rd March 1949, a new scheme of assisted emigration for South African Indians;

(b) if so, what its terms are;

(c) whether it is a fact that under the Cape Town Agreement the Indian assisted emigrant had the right of re-entry into South Africa;

(d) how many Indians had re-entered South Africa since the Cape Town Agreement; and

(e) whether the right of re-entry has been preserved under the new scheme?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs): (a) to (e). The Cape Town Agreement provides that for those Indians in the Union who may desire to avail themselves of it, the Union Government will organize a scheme of assisted emigration to India or other countries where western standards are not required. Union domicile will be lost after three years' continuous absence from the Union. Emigrants under the assisted emigration scheme who desire to return to the Union within three years will be allowed to do so only on refund to the Union Government of the cost of the assistance received by them. No new scheme has been introduced recently by the Union Government. What has happened is that the Union Government have recently doubled the bonus which was admissible to returning emigrants under the old scheme. According to the information available, 462 persons who returned to India under the scheme since 1927 sought permission for re-entry into South Africa.

## UNSTARRED QUESTIONS AND ANSWERS

## LICENCES FOR FISHING AT OKHLA

114. **Shri Satis Chandra Samanta:** (a) Will the Honourable Minister of Agriculture be pleased to state the number of fishing licences for fishing at Okhla issued during the current year?

(b) Is it a fact that in a number of cases the Executive Engineer (Agra Canal) has returned the licence fees and refused to issue any further licences and if so, why?

(c) Is it also a fact that the practice of issuing daily licences to anglers for angling at Okhla has also been stopped and if so, why?

(d) Are Government aware that by stopping the issue of the daily and annual fishing licences for Okhla, they have deprived a large number of people who used to enjoy and recreate themselves by this hobby of such recreation and if so, why?

The Honourable **Shri Jairamdas Doulatram:** (a) to (d). The information is being collected from the Delhi Administration and the Government of the United Provinces and when received will be placed on the table of the House.

## APPLICATIONS RECEIVED IN DELHI AREA UNDER PAYMENT OF WAGES ACT

115. **Ch. Ranbir Singh:** Will the Honourable Minister of Labour be pleased to state:

(a) the number of applications presented to the Authority appointed under the Payment of Wages Act, 1939, for Delhi Area during the last six months;

(b) whether those applications were disposed of within the wage periods (one month), and if not, the reasons therefor;

(c) the dates fixed for hearing each application and the reasons for adjournments;

(d) what steps Government have taken to expedite the disposal of applications and if no steps have been taken, the reasons therefor; and

(e) whether Government propose to provide by legislation the period within which an application must be disposed of?

The Honourable **Shri Jagjivan Ram:** (a) Eight.

(b) No. The applications could not be disposed of within the same wage period as they were submitted to the Authority appointed under the Payment of Wages Act after its expiry.

| (c) Date of Institution | Date of hearing | Reasons, if any, for adjournment                 |
|-------------------------|-----------------|--------------------------------------------------|
| 1. 20-11-48             | 2-2-49          | Application disposed of on 2-2-49.               |
| 2. 18-12-48             | 12-3-49         | Application disposed of on 12-3-49.              |
| 3. 12-1-49              | 19-3-49         | For want of notice to the employer.              |
| 4. 13-12-48             | 24-3-49         | Employer (Railway) has taken time for enquiries. |
| 5. 13-12-48             | 24-3-49         | Employer (Railway) has taken time for enquiries. |
| 6. 18-10-48             | 26-3-49         | For want of service of summons on the employer.  |
| 7. 18-12-48             | 30-3-49         | For want of notice to the employer.              |
| 8. 6-12-48              | 2-4-49          | Case fixed for evidence.                         |

(d) Necessary action to expedite the disposal of applications is invariably taken as far as possible.

(e) The question will be examined in connection with the amendment of the Payment of Wages Act when undertaken.

## APPLICATION OF INDUSTRIAL EMPLOYMENT (STANDING ORDERS) ACT OF 1946

**116. Ch. Ranbir Singh:** Will the Honourable Minister of Labour be pleased to state:

(a) the date from which the Industrial Employment (Standing Orders) Act No. XX of 1946 became operative;

(b) the names of the industrial establishments within Delhi Province to which it has been made applicable; and

(c) what standing orders are made by the Association for the control and management of the Lady Hardinge Medical College for Women and Hospital for Women and Children, Delhi for its establishment?

**The Honourable Shri Jagjivan Ram:** (a) From the 23rd April 1946.

(b) A statement containing the information is attached.

(c) The Industrial Employment (Standing Orders) Act, 1946, does not apply to the Lady Hardinge Medical College and Hospital, and the question, therefore, does not arise.

## STATEMENT

## List of Industrial Establishments in Delhi Province to which the Industrial Employment (Standing Orders) Act applies

## I. Industrial Establishments in respect of which Standing Orders have been certified:

- (1) Hindustan Times Press, Ltd., New Delhi.
- (2) G. S. Kashyap & Sons, Ltd., Pataudi House, New Delhi
- (3) Western Hosiery and General Mills, Ltd., Delhi.
- (4) Birla Cloth & General Mills, Ltd., Delhi.
- (5) Delhi Iron Works, Chawri Bazar, Delhi.
- (6) Delhi Cloth & General Mills, Ltd., Delhi.
- (7) D. C. E. P. A., Ltd., New Delhi and D. E. S. & T. Co., Ltd., Delhi.
- (8) Mahabir Cotton Spinning & Weaving Mills Co., Ltd., Delhi.
- (9) Delhi Flour Mills Co., Roshanara Road, Delhi.
- (10) Ishwar Potteries, Ltd., Delhi.
- (11) Gwalior Potteries (Delhi), Factory Road, New Delhi.
- (12) Ganesh Flour Mills (Vegetable Products) Factory, Delhi.
- (13) Indian National Airways, Ltd., Willingdon Air Station, New Delhi.
- (14) Gwalior & Northern India Transport Co., Ltd., New Delhi.
- (15) Ajudhia Textile Mills, Delhi.
- (16) Krishna Gold & Silver Thread Factory, Turkman Gate, Delhi.
- (17) Delhi Cloth Mills Chemical Works, and D. C. M. Vanaspati Manufacturing Works, Delhi.
- (18) Matchwel Electricals (India) Ltd., Subzimandi, Delhi.

## II. Industrial Establishments of which Standing Orders are under process of certification:

- (1) Raghu Engineering Works, Delhi.
- (2) Delhi Joint Water & Sewage Board, New Delhi.
- (3) Raj Engineering Works, Delhi.
- (4) Sawatantra Bharat Mills, Ltd., Delhi.
- (5) National Printing Works, Mori Gate, Delhi.
- (6) New Garage, Ltd., New Delhi.

## SHORT NOTICE QUESTION AND ANSWER

## TREATMENT OF LAND BELONGING TO NAWAB SADAKAT ALI AND MR. LIAKAT ALI KHAN IN DELHI PROVINCE AS EVACUEE'S PROPERTY

**Shri R. K. Sidhva:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether the land measuring about 3,000 acres originally belonging to Nawab Sadakat Ali and Liakat Ali in Delhi Province has been declared as evacuee property?

(b) If so, what is the position at present and if not declared as yet, to whom does the land belong now?

(c) How many displaced persons are likely to be rehabilitated on this area?

(d) When was the land declared as evacuee property and when have displaced persons been rehabilitated?

(e) If not yet rehabilitated what are the reasons for the delay which has been caused?

**The Honourable Shri Mohan Lal Saxena:** (a) Yes; but the agricultural land is about 1500 acres and not 3000 acres as stated by the honourable member.

(b) Does not arise.

(c) About 150 families.

(d) The land was declared as Evacuee Property in July, 1948 and it has not been allotted to any displaced person.

(e) The allocation of the land for the Khariff season, 1948-49 (October to April) was to be made in the beginning of October, 1948. Before allotting the land it was decided to take possession of it and orders were accordingly passed for taking over possession of the land in September 1948. Sir Datar Singh had been in possession of the land on the strength of the authority given by the owners to manage the property in return for a similar arrangement regarding Sir Datar Singh's property in Pakistan. According to the amendments made in the East Punjab Evacuee (Administration of Property) Act, 1947 as applied to Delhi Province no such transaction could be effective without being confirmed by the Custodian; and Sir Datar Singh had made no application for confirmation. Clarification was needed on certain legal issues and the matter was referred to the Law Ministry. On the basis of their opinion it was decided to take possession of the property. Before possession could be taken however the District Court granted an injunction on the application of Sir Datar Singh restraining the Custodian from disturbing the *status quo*. The injunction was vacated about a fortnight ago. A claim was duly filed by Sir Datar Singh before the Deputy Custodian incharge of Claims and Restoration under Section 7 of the East Punjab Evacuee (Administration of Property) Act, 1947. This is being heard.

**Shri R. K. Sidhva:** May I now whether a Government servant can file a suit against the Government? Was any sanction obtained from the Government? May I know what is the reason?

**The Honourable Shri Mohan Lal Saxena:** I would refer the honourable member to the Honourable the Home Minister on that point.

**Sardar Bhopinder Singh Man:** Is it a fact that all landlords in East Punjab and elsewhere have been allotted ten acres each while Sir Datar Singh got more than a thousand acres?

**Mr. Speaker:** Order, order. That question does not arise. Legal proceedings are taking place in the matter and the matter is in the court.

**Shri R. K. Sidhva:** Did not the Honourable Member state that the injunction has been rejected by the Court?

The Honourable Shri Mohan Lal Saksena: It is not now in the court. He has filed a claim before the Assistant Custodian of Evacuee Property.

Shri R. K. Sidhva: Does the suit exist now?

The Honourable Shri Mohan Lal Saksena: The suit has been dismissed, but he has filed a claim now and I hope that claim will be disposed of in a few days' time.

Shri R. K. Sidhva: Will these displaced persons be rehabilitated now?

The Honourable Shri Mohan Lal Saksena: I hope they will be rehabilitated, for there is yet one month.

Shri R. K. Sidhva: The point is, apart from the question of compensation, if the Government have declared it to be evacuee property, what is the delay in rehabilitating these displaced persons?

The Honourable Shri Mohan Lal Saksena: I have already informed the honourable member that although this property was declared evacuee property in July, Sir Datar Singh had put in some tenants and therefore we had to obtain possession of this land from the tenants before any displaced persons could be put in. When we served a notice on him, he filed a suit and brought injunction, and, of course, when injunction was granted, we could not do anything. Now that the injunction has been rejected and the suit has also been dismissed, he has filed a claim and that claim is being heard and I hope it will be disposed of in a few days' time.

Shri R. K. Sidhva: The Honourable Minister asked me to refer to the Honourable the Home Minister. May I request the Honourable the Home Minister to make enquiries as to whether a Government servant can file a suit without the sanction of Government?

Mr. Speaker: That is something different.

Shri H. V. Kamath: Has there been any other Government servant who has exchanged his property in Pakistan with the property here which happens to be evacuee property?

The Honourable Shri Mohan Lal Saksena: I am not aware of that. Even in this case, it was not an exchange of property. It was an authority to manage the property on behalf of the landlord. It was not actual exchange.

Shri R. K. Sidhva: Is it not a fact that the deal which Sir Datar Singh was presented was repudiated by the owners?

The Honourable Shri Mohan Lal Saksena: Yes, it is so.

Prof. H. G. Ranga: Is it a fact that Sir Datar Singh's property lost in West Punjab is worth about Rs. 1 crore?

The Honourable Shri Mohan Lal Saksena: It may be, but it does not affect the question.

Shri Mahavir Tyagi: Was Liaqat Ali also consulted with regard to the disposal of his property?

The Honourable Shri Mohan Lal Saksena: He was not consulted but we were informed that no authority to administer the property had been given.

Begum Aizaz Rasul: May I know if the property referred to is in Delhi province only or also in Muzafarnagar?

The Honourable Shri Mohan Lal Saksena: It is only in Delhi.

Shri H. V. Kamath: Is it a fact that some agricultural land left by Muslim evacuees in Chhattarpur in Delhi Province was exchanged by a Government servant with his property in Pakistan?

Mr. Speaker: The Honourable Minister has not the information with him.

The Honourable Shri Mohan Lal Saksena: I have not got the information; if he gives information, I welcome it.

## CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES

### (PART I—QUESTIONS AND ANSWERS)

Thursday, 24th March, 1949

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS.

#### ORAL ANSWERS

Shri R. K. Sidhva: Question No. 1340†. The Honourable Minister is not present, what is the position now?

Mr. Speaker: Of course, the honourable member does not lose his right.

#### APPOINTMENT OF NON-INDIANS TO CIVIL POSTS

\*1340. Shri R. K. Sidhva: (a) Will the Honourable Minister of Home Affairs be pleased to state whether any non-Indians were appointed to civil posts in the service of the Government of India during the year 1948 and if so, what are their designations and salaries?

(b) Were efforts made to see whether Indians of similar qualifications were available in India?

The Honourable Sardar Vallabhbhai Patel: (a) Yes. A statement‡ relating to appointments made by the Government of India is placed on the table of the House.

(b) Yes.

Shri H. V. Kamath: Were these posts, which are referred to in this question, advertised by the Federal Public Services Commission or were they filled departmentally?

The Honourable Sardar Vallabhbhai Patel: The general practice is to appoint non-Indians only when the Federal Public Services Commission has certified that suitable Indians are not likely to be available for the post, or it is quite clear from the circumstances of the case that no Indian will be available.

Shri R. K. Sidhva: May I know whether these non-Indian posts are of a technical nature or for ordinary administrative purposes?

The Honourable Sardar Vallabhbhai Patel: Most or a large number of the appointments are outside India.

Mr. Speaker: This question was dealt with a few days back.

#### PRODUCTION OF INFORMATION FILMS

\*1341. Shri V. C. Menava Rao: (a) Will the Honourable Minister of Information and Broadcasting be pleased to state the total number of Information Films made during the last official year?

† This question was actually taken up after Starred Question No. 1311. Printed serially in the day's Debate.

‡ Not printed in the day's Debate. A copy placed in the Library of the House.

to active service during the late World War and thereafter amounted to approximately 227 lakhs per annum. The number of such pensioners is about 76,000.

(b) The families of deceased personnel of the Armed Forces who are in distressed circumstances and are not in receipt of family pensions are eligible for relief, either by way of lump sum grants or in the form of a monthly pension from charitable funds at the disposal of the Headquarters of the three Services.

The children of Commissioned officers whose death is attributable to service are eligible for educational allowances, subject to certain conditions, in cases of real need; and the children of other ranks (including Junior Commissioned Officers) are eligible for practically free education. A certain number of scholarships at the Prince of Wales Royal Indian Military College, Dehra Dun, are available for the sons of Junior Commissioned Officers and other ranks; while daughters of sailors, soldiers and airmen who were killed in action are granted a number of annual scholarships tenable at recognised educational institutions for girls.

**Shri V. C. Kesava Rao:** What is the maximum and minimum pension allowed to an individual?

**The Honourable Sardar Baldev Singh:** I am afraid, Sir, I have not that information, but I can get it for the honourable member.

**Shri V. C. Kesava Rao:** Is it a fact that the dependent of a Kashmir hero was given rupees eight as pension?

**The Honourable Sardar Baldev Singh:** There is no discrimination at all. In the case of dependents of soldiers and other officers serving in Kashmir and who lost their lives, these dependents get the pension prescribed in the rules.

**Shri V. C. Kesava Rao:** Is it a fact that the Premier of the United Provinces has given a pension of rupees eight to the dependent of a Kashmir hero?

**The Honourable Sardar Baldev Singh:** I am not concerned with what the Premier of the United Provinces has done. I am only stating the position as it exists in the armed forces.

**Prof. N. G. Ranga:** What is the scale of the pension that is given by the Government of India to the dependent of any one of these Kashmir martyrs?

**The Honourable Sardar Baldev Singh:** The pension is uniform and I could not tell you . . . .

**Prof. N. G. Ranga:** For the ranks.

**The Honourable Sardar Baldev Singh:** As I was saying the pension is uniform and there is absolutely no discrimination and I could not tell you off hand what the actual amount is.

**Mr. Frank Anthony:** Have the pension rates for the widows and families of officers employed on active service been considerably reduced, as a result of the new Pay Code?

**The Honourable Sardar Baldev Singh:** I do not think so.

**Mr. Frank Anthony:** Is it not a fact that the pension rates have been reduced ranging from anything like 50 to 60 per cent.?

**The Honourable Sardar Baldev Singh:** My information is that the pension rates for certain class of officers and other ranks have been considerably increased. It is not possible for me to give the honourable member the actual amount that the dependents are getting.

**Shri H. R. Guruv Reddy:** Do Government propose to grant the Mahavir Chakra and Paramvir Chakra to the Kashmir heroes in lieu of money consideration?

**Mr. Speaker:** That is a suggestion for action.

**The Honourable Sardar Baldev Singh:** What the honourable member means is that those who are recipients of the Mahavir and Paramvir Chakras, whether they get any monetary grants or not. The answer is that those who are entitled under the rules to get monetary grants are given the grants.

**Pandit Lakshmi Kanta Maitra:** May I know if the rules entitling persons to military pensions have of late been revised and changed to such an extent that those who were formerly entitled to pension are not now entitled to it?

**The Honourable Sardar Baldev Singh:** The rules have not been revised in that sense but certain increases were allowed under certain conditions, for instance the rise in the cost of living and the high prices. I would say that the rules have not been revised generally.

**Pandit Lakshmi Kanta Maitra:** My question was whether the new rules have not disentitled people to pensions which they would otherwise have been entitled to before the new rules came in.

**The Honourable Sardar Baldev Singh:** No, Sir.

**Srijut Kuladhar Chaliha:** Is it a fact that the widow of a Colonel gets a pension of only Rs. 70 per month?

**The Honourable Sardar Baldev Singh:** I could not say whether she gets Rs. 70 or more. Whatever she is entitled to under the rules she will get.

**Babu Ramnarayan Singh:** By the military department sometimes family pension is also granted. May I know for how many generations the pension will continue?

**Mr. Speaker:** I suppose the honourable member wants to know for how long land grants continue?

**Babu Ramnarayan Singh:** Yes, Sir.

**The Honourable Sardar Baldev Singh:** The pension is granted to the dependent and after the death of the dependent it does not continue.

#### SCHEDULED AND NON-SCHEDULED BANKS

\*1243. **Seth Govind Das:** Will the Honourable Minister of Finance be pleased to state:

(a) the total number of existing Scheduled Banks and non-Scheduled Banks with their offices and branches respectively; and

(b) what was the total number of Banks which have been closed or have suspended operations as at the end of 1948 on account of their inability to meet their liabilities?

**The Honourable Dr. John Matthai:** (a) There were 100 Scheduled banks, with 3,036 offices; and approximately 841 non-scheduled banks, with 2,611 offices, on the 31st December, 1948.

(b) 57 during the year 1948.

**Seth Govind Das:** Out of these banks which have failed during 1948, how many were scheduled and how many non-scheduled banks?

**The Honourable Dr. John Matthai:** It is not possible for me to give the information straightaway but I would try and get the information for the honourable member.

**Seth Govind Das:** Is it a fact that most of these banks which have failed approached the Reserve Bank for certain help?

**The Honourable Dr. John Matthai:** Yes. Banks in difficulty are in the habit of applying to the Reserve Bank for assistance but the Reserve Bank does not give assistance except under conditions which are satisfactory from their point of view.

**Seth Govind Das:** Is it a fact that certain banks were ready to fulfil those conditions but the Reserve Bank sent their reply to the requests from the banks rather late and in the meantime they had to stop payment?

**Mr. Speaker:** I do not think that we need enter into that argument. All these questions have been gone into when the amendment of the Reserve Bank Act was discussed and recently also on another occasion these questions were considered.

**Seth Govind Das:** These questions were not discussed, Sir.

**Mr. Speaker:** I remember the grievance being discussed that the Reserve Bank did not come to the help of banks when they required such assistance. There is no use further pursuing this general question.

**Shri B. N. Munavalli:** What is the policy of the Government as regards opening of new banks? May I know whether they will be encouraged or not?

**The Honourable Dr. John Matthai:** I do not follow the honourable member.

**Mr. Speaker:** I am afraid the question is too general. The honourable member can ask for information, if he wants.

**Srijut Bohini Kumar Chaudhuri:** What was the reason for the failure of so many banks almost about the same time in the year 1948?

**Mr. Speaker:** I am sorry I cannot allow general questions like that.

**Shri B. K. Sidhva:** What is the total loss to the depositors from the closure of the banks?

**The Honourable Dr. John Matthai:** I have no information.

**Shri L. Krishnaswami Bharathi:** What province has contributed most to the number of bank failures? I would like to have the figures province-wise.

**The Honourable Dr. John Matthai:** I am not in a position to answer the question straightaway. Besides, I do not think that it is in the public interest that I should give that information.

**Shri Kishorimohan Tripathi:** What is the number of banks that are still enjoying a moratorium?

**The Honourable Dr. John Matthai:** Out of these 57 banks as far as my information goes, about half the number went into liquidation and somewhere about seven have been granted a moratorium.

**Shri Arun Chandra Guha:** What will be the amount of deposits involved in the failure of these banks?

**The Honourable Dr. John Matthai:** I am not in a position to give the figure.

**Shri Moturi Satyanarayana:** In view of the fact that there are a very large number of banks which failed in the last year will the Reserve Bank adopt a more constructive policy so that more failures will not occur like this?

**Mr. Speaker:** Order, order. Next question.

\*1344. [WITHDRAWN.]

#### FOREIGNERS IN EXTERNAL SERVICES OF ALL-INDIA RADIO

\*1345. **Sardar Hukam Singh:** (a) Will the Honourable Minister of Information and Broadcasting be pleased to state whether any foreigner in the service of the A.I.R. had to be dismissed some six months ago for grave misuse of broadcasting facilities?

(b) If so, what was the nature of the offence?

(c) Have any steps been taken to ensure that such misuse is not possible in future?

**The Honourable Shri R. R. Diwakar:** (a) No. However, the services of two foreigners employed in the External Services of All India Radio were terminated on the re-organisation of the Unit, in August and September last.

(b) and (c). Do not arise.

**Sardar Hukam Singh:** Is it a fact that one of these foreigners was an Iranian gentleman and he was dismissed because he was using the A.I.R. for sending private messages home and for carrying on propaganda in favour of his wife's magazine?

**The Honourable Shri R. R. Diwakar:** He was on temporary service. As I just now said, on the re-organisation of Unit when we got better and more efficient people, his services were terminated.

**Sardar Hukam Singh:** How many foreigners are still there in service?

**The Honourable Shri R. R. Diwakar:** There are a number of foreigners so far as external broadcasts are concerned.

**Sardar Hukam Singh:** Is it a fact that this Service mistrusts our citizens and trusts foreigners more?

**Mr. Speaker:** That is a question of opinion.

#### STAFF TRAINING SCHOOL OF ALL-INDIA RADIO

\*1346. **Sardar Hukam Singh:** Will the Honourable Minister of Information and Broadcasting be pleased to state whether Government are making any provision for training Indians for External News Services?

**The Honourable Shri R. R. Diwakar:** Yes, Sir. The Staff Training School of All-India Radio provides training to Indian for Home as well as External News Services.

**Shrimati G. Durgabai:** May I know whether it is the intention of the Government to train young men and women with a little journalistic experience?

**The Honourable Shri R. R. Diwakar:** I do not think it arises.

**Shrimati G. Durgabai:** It does arise.

**The Honourable Shri R. R. Diwakar:** While choosing persons for the staff naturally their journalistic experience is taken into consideration.

**Shri V. C. Kesava Rao:** May I know whether Government is taking any assistance from daily newspapers in training these people?

**The Honourable Shri R. R. Diwakar:** No.

**Prof. N. G. Ranga:** What proportion of those employed in the higher ranks of the External Services of the A.I.R. are Indian and what proportion are foreigners?

**The Honourable Shri R. R. Diwakar:** I would like to have notice.

**Shri M. Tirumala Rao:** Does the Department take the assistance of the External Affairs Ministry in appointing these people for external news service?

**The Honourable Shri R. R. Diwakar:** That is so.

**Shri Raj Bahadur:** May I know the number of persons trained in the Staff School?

**The Honourable Shri R. R. Diwakar:** The Staff Training School has been recently started and people are still under training.

**Seth Govind Das:** Is there any definite course or curriculum for training these persons?

**The Honourable Shri R. R. Diwakar:** Certainly there is a training curriculum and according to that plan the training is going on.

**Pandit Lakshmi Kanta Maitra:** May I enquire whether the foreigners among the staff who were engaged in this Foreign News Service are permanent incumbents or whether they are on contract service for certain definite periods?

**The Honourable Shri R. R. Diwakar:** I do not know the terms of all of them. But I should say that most of them are on temporary service.

**Shrimati G. Durgabai:** May I know whether there is any proposal under consideration to appoint foreign correspondents and if so how many?

**The Honourable Shri R. R. Diwakar:** I do not think it arises out of this question.

**Shri V. C. Kesava Rao:** May I enquire how many candidates are undergoing training for the present?

**The Honourable Shri R. R. Diwakar:** I would like to have notice of that question.

**Shri Raj Bahadur:** May I ask what are the languages in which training is imparted in these schools?

**The Honourable Shri R. R. Diwakar:** There is only one training school and the language usually is English.

**Pandit Hriday Nath Kunzru:** Are any foreign languages taught in this School; if they are not, how are men being trained for External News Services?

**The Honourable Shri R. R. Diwakar:** The languages are not taught here. The people knowing those foreign languages are there undergoing training.

**Pandit Hriday Nath Kunzru:** Have Government made any arrangements for teaching foreign languages to their own men so that they may get staff of the necessary qualifications for the External News Services?

**The Honourable Shri R. R. Diwakar:** But that is a matter not for this Training School.

**Pandit Hriday Nath Kunzru:** Is it a matter for Government or not?

**The Honourable Shri R. R. Diwakar:** Yes, it is. But we are considering what curriculum is there in the Training School, and I have explained that in the curriculum there is no course for teaching languages.

**Prof. H. G. Banga:** Are the All-India Radio in the External News Service engaging any Indians in other countries as Correspondents to supply them with news?

**The Honourable Shri R. R. Diwakar:** Yes, there is a proposal, but no Correspondent has yet been appointed.

#### SECURITIES FROM NEWSPAPERS IN CENTRALLY ADMINISTERED AREAS

\*1347. **Sardar Hukam Singh:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) the number of newspapers in Centrally Administered areas from which securities have been demanded since 15th August, 1947; and

(b) the number of newspapers suppressed since that date?

**The Honourable Sardar Vallabhbhai Patel:** (a) Twenty-two.

(b) Eighteen.

**Shri H. V. Kamath:** May I know the names of the newspapers from which securities have been demanded or which have been suppressed, and the grounds on which such action has been taken?

**The Honourable Sardar Vallabhbhai Patel:** If the honourable member wants the names of the newspapers I am prepared to give them. The names of the papers from which security is demanded are as follows:

- (1) English daily *Dawn*, (2) English weekly *Hindu Outlook*, (3) Hindi weekly *Mazdoor Awaz*, (4) Urdu weekly *Qaumi Hakumat*, (5) Hindi daily *Sanmarg*, (6) Urdu daily *Ranjit Nagara*, (7) Urdu weekly *Zarif Panch*, (8) Urdu weekly *Panth*, (9) Urdu daily *Jamhoor*, (10) Urdu daily *Jang*, (11) Bi-weekly *Alaman*, (12) Urdu daily *Wahadat*, (13) Urdu daily *Baljit*, (14) Urdu daily *Aj*, (15) English daily *Organiser*, (16) Urdu daily *Jai Bharat*, (17) Urdu daily *Partap*, (18) Urdu monthly *Molvi*, (19) Hindi daily *Sarwadeshic*, (20) Urdu daily *Naya Daur*, (21) Urdu daily *Ranjit Nagara*—comes again, (22) Urdu weekly *Naya Daur*—this also comes again, (23) Urdu daily *Partap*—comes again and (24) *Darbar*.

**Shri H. V. Kamath:** What are the grounds on which action has been taken?

**Mr. Speaker:** It will be an exhaustive account that may be had elsewhere from the Honourable Minister.

**Shri M. Tirumala Rao:** How many of these papers were advocating the cause of Communalism?

**The Honourable Sardar Vallabhbhai Patel:** Most of these are advocating the cause of communalism. Here is the list:

- (1) English weekly *Hindu Outlook*, (2) Urdu daily *Aljamait*, (3) Urdu weekly *Mera Punjab*, (4) Hindi daily *Aj*, (5) Urdu daily *Ranjit Nagara*, (6) Anglo-vernacular weekly *Swarajya*, (7) Gurmukhi daily *Daler Khalsa*, (8) Urdu daily *Jang*, (9) Urdu daily *Sangram*, (10) Urdu daily *Sangram*—comes again, (11) Urdu daily *Mitap*, (12) Urdu weekly *Panth*, (13) English weekly *Bharat Times*, (14) Daily *Republic*, (15) Weekly *Khalsa*, (16) Hindi daily *Aj*, (17) Urdu daily *Ranjit Nagara*, (18) Gurmukhi weekly *Qaumi Swatantra*, (19) English weekly *Organiser*, (20) English weekly *Organiser*—comes again and (21) Hindi daily *Bharat Panch*.

I may inform the honourable members that in almost all these cases action has been taken on the advice of the Press Advisory Committee.

**Shri B. Shiva Rao:** With reference to part (b) of the question is it not a fact that many of these papers that were suppressed were guilty of the most violent articles and in some cases of open incitement to murder?

**The Honourable Sardar Vallabhbhai Patel:** That was so and therefore we took action on the advice of the Advisory Committee.

**Shri Deshbandhu Gupta:** Is it not a fact that most of the papers that were suppressed for only a temporary period and have now been restored?

**The Honourable Sardar Vallabhbhai Patel:** Where suppression is considered necessary. The order is of suspension and it implies that it is only for a temporary period. Afterwards the orders are revised. If the newspapers change their attitude they are allowed to be resumed.

**Shri Deshbandhu Gupta:** Is it not a fact that at the moment there are no papers which are suspended or may be only one or two?

**The Honourable Sardar Vallabhbhai Patel:** It may be so. I am not prepared to contradict that.

**Seth Govind Das:** Is it not a fact that there are still many papers which are publishing false and fabricated news and inciting people to violence, and may I know whether action is being taken against them?

**The Honourable Sardar Vallabhbhai Patel:** Because of the convention, so long as we do not get the recommendations of the Advisory Committee we are unable to take any action.

**Begum Aizaz Rasul:** May I know how many papers out of the ones that the Honourable Minister read out have been preaching communalism?

**The Honourable Sardar Vallabhbhai Patel:** Almost all of these actions are taken for preaching communalism.

**Begum Aizaz Rasul:** Communalism or Communism?

**The Honourable Sardar Vallabhbhai Patel:** Communalism. If it is meant for preaching Communism, it is very difficult because such papers hardly come under the clutches of the law.

**Shri Deshbandhu Gupta:** Is it not a fact that the Advisory Committee only concurs with the action which is suggested by the Government? The initiative is not taken by the Advisory Committee; it only concurs or differs with the action suggested by Government.

**The Honourable Sardar Vallabhbhai Patel:** Ordinarily action is taken on the recommendation of the Committee. But the Advisory Committee has also agreed that if there is an emergency Government may take action and put it before the Advisory Committee for confirmation.

**Seth Govind Das:** Are there any such papers action against which was recommended by the Advisory Committee and still the Government have not taken any action against them?

**The Honourable Sardar Vallabhbhai Patel:** Not to my knowledge.

**Babu Ramnarayan Singh:** What permanent benefit has been expected from the suppression of these papers?

**The Honourable Sardar Vallabhbhai Patel:** We should be satisfied with temporary benefits.

#### RETURN OF HISTORICAL DOCUMENTS AND ANCIENT BOOKS FROM FOREIGN COUNTRIES

\*1348. **Seth Govind Das:** Will the Honourable Minister of Education be pleased to state:

(a) whether Government are aware of the resolution passed by the Historical Records Commission on the 24th December, 1948 regarding the return of historical documents and ancient books from Britain, France, Holland and Portugal;

(b) whether these Governments have been approached in connection with this matter; and

(c) what steps are being proposed to be taken by Government to get back India's historical documents and ancient books?

آنریبل مولانا ابوالکلام آزاد : (a) انڈین ہسٹوریکل ریکارڈ کمیشن کی ریسرچ اور پبلیکیشن کمیٹی نے جو رزلوشن پاس کیا تھا اس کا مطلب یہ نہیں تھا کہ ان ملکوں سے پورانی کتابیں اور پورے ڈاکومنٹ واپس لئے جائیں - جس بات پر زور دیا گیا تھا وہ یہ تھی کہ ان ملکوں کی گورنمنٹوں سے اس طرح کا انتظام کرنا چاہئے کہ پورانی چیزوں کی نقلیں ہمیں مل جائیں -

(b) یہ رزلوشن ابھی تک ضابطہ کے مطابق گورنمنٹ کو نہیں ملا ہے، لیکن گورنمنٹ کو اس کام کی ضرورت سوچانے کے لئے کسی رزلوشن کی ضرورت نہیں ہے - اس کام کی ضرورت اس کے سامنے آ چکی ہے اور وہ نیشنل ریکارڈ ڈیپارٹمنٹ کے ذریعہ سے شروع کر چکی ہے گورنمنٹ نے کوشش کی ہے کہ جن جن ملکوں میں ہندوستان کی پورانی تاریخی چیزیں پائی جاتی ہیں، ان سے لکھا پڑھی کی جائے اور مائی کروٹام وغیرہ سائنٹفک طریقوں سے انکی کاپیاں ملگائی جائیں - کئی چیزوں کی نقلیں اس وقت تک ہمارے قبضہ میں آ چکی ہیں - جیسے پالک مینوسکرپٹ اور میجور برٹون کی لکھا پڑھی وارن ہیسٹنگز کے ساتھ -

(c) ہندوستان کی پورانی تاریخی چیزیں بہت سے ملکوں میں بکھری ہوئی ہیں گورنمنٹ چاہتی ہے کہ پہلے ایک پورا ریکارڈ ان تمام چیزوں کا اسکے پاس تیار ہو جائے گیہ چیزیں کہاں کہاں ہیں؟ کس طرح کی ہیں؟ ہندوستان کی تاریخ سے انکا کیا تعلق ہے - یہ ہمیں معلوم ہو جانا چاہئے - پھر اس کے بعد گورنمنٹ کے لئے آسان ہو جائیگا کہ جو چیزیں واپس لائی جا سکتی ہیں، واپس لائی جائیں، جو واپس نہیں مل سکتی انکی ایسی کاپیاں لے لی جائیں جو قویک تھیک اصل کا کام دیں - آرکیالاجیکل ڈیپارٹمنٹ اور انڈین آرکیو اس بارے میں کام کر رہا ہے -

**The Honourable Maulana Abul Kalam Azad:** (a) The Resolution passed by the Research and Publication Committee, an adjunct of the Indian Historical Records Commission, at its last session in Delhi in December, 1948 does not envisage the return of any original historical documents and ancient books from Britain, France, Holland and Portugal, but recommends that arrangements should be made with the Governments of Holland, Portugal and France for obtaining copies of all such records in their possession as may have any bearing on India.

(b) The Resolution has not yet formally been received by the Government. The National Archives of India, are, however, in touch with the principal record repositories in Europe and elsewhere and have already procured microfilm copies of the Palk Manuscripts in the custody of Exeter City Library and Major Browne's correspondence with Warren Hastings in the custody of the India Office.

(c) The Government have before them a plan to have full and accurate information about the Indian treasures and historical documents and ancient books which are in foreign repositories.

The Director General of Archaeology and the Director of Archives have been asked to take necessary action in the matter.

**सेठ गोविन्द दास :** क्या यह बात सही नहीं है कि कुछ दिन पहले गवर्नमेंट ने यह तजवीज की थी कि जहाँ तक लन्दन का सम्बन्ध है, वहाँ तक वहाँ पर कुछ लोग भेजे जायें और यह देखा जाय कि वहाँ पर हिन्दुस्तान के मूतालिक कितनी चीजें हैं, और उन आदमियों के जिम्मे यह काम भी सौंपा जाय कि वह उन चीजों को यहाँ वापिस लाने की कोशिश करें।

**Seth Govind Das:** Is it not a fact that the Government had formulated a plan some days ago that so far as London is concerned, some persons should be deputed to go there to find out as to how many documents as may have any bearing

1808 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [24TH MARCH 1949]

on India are available there; and they should also be entrusted to make efforts to obtain all such records?

آنریبل مولانا ابوالکلام آزاد : نہ صرف انگلینڈ کے لئے بلکہ دوسرے ملکوں کے لئے بھی یہ تجویز سامنے آئی تھی مگر پھر گورنمنٹ نے خیال کیا کہ پہلے ہمارے پاس پورا ریکارڈ ان چیزوں کا تیار ہو جانا چاہیئے پھر کسی کمیٹی کا بنانا ٹھیک ہوگا جبکہ ہمیں پوری طرح معلوم نا ہو جائے کہ کہاں کہاں کیا کیا چیزیں گئی ہوں اس وقت تک کوئی نتیجہ خیز کارروائی نہیں کی جا سکتی

The Honourable Maulana Abul Kalam Azad: This plan was considered not only in respect of England, but for all other countries. But the Government thought that first of all we should have full record of all such documents, and then only it would be advisable to set up any Committee. Until and unless we are able to ascertain the names of the various places to which the particular documents were sent, we cannot take any decisive action in the matter.

سٹھ گوویند داس : گورنمنٹ کب تک یہ زمزمیہ کرتی ہے کہ اس طرح کا ریکارڈ گورنمنٹ کے پاس تیار ہو جاوے گا۔

Seth Govind Das: How long do the Government expect to take to have such record got ready?

آنریبل مولانا ابوالکلام آزاد : توہیک وقت بتانا مشکل ہے لیکن ہماری پوری کوشش ہے کہ کم سے کم وقت میں یہ ریکارڈ تیار ہو جائے۔

The Honourable Maulana Abul Kalam Azad: It is difficult to specify the exact time, but we are doing our best to get this record ready in the least possible time.

ڈاکٹر بخشیشی ٹیک چنڈ : کیا آنریبل منسٹر یہ بتا سکتے ہیں کہ اس قسم کی کارروائی پاکستان کے ساتھ بھی ہو رہی ہے لہور میں یونیورسٹی لائبریری اور پبلک لائبریری میں بہت سا ایسا ریکارڈ موجود ہے۔ کیا اس کے بارے میں بھی ایسی ہی کارروائی ہو رہی ہے یا صرف دوسرے ملکوں کے ساتھ ہی ایسا ہو رہا ہے؟

Dr. Bakhshi Tek Chand: Will the Honourable Minister please state whether any such action is being taken in respect of Pakistan also? A lot of such record is lying in the University Library and Public Library in Lahore. Is any action being taken in this direction also, or is it confined to other countries only?

آنریبل مولانا ابوالکلام آزاد : پاکستان سے اس کا تعلق نہیں ہے پاکستان کے معاملہ کا جہاں تک تعلق ہے اس کے لئے ایک پارٹیشن کونسل بنی تھی اس نے جو فیصلہ کیا ہے اس کے مطابق چیزوں کا بتوارہ ہوا

The Honourable Maulana Abul Kalam Azad: This is not applicable to Pakistan. So far as the question relating to Pakistan is involved, a Partition Council was set up and the assets are being divided in accordance with the decisions of this Committee.

Mr. Homi Mody: Have Government taken any special steps for the purpose of obtaining books, manuscripts and other precious things from the India office?

آنریبل مولانا ابوالکلام آزاد : انڈیا آفس کے متعلق گورنمنٹ بات چیت کر چکی ہے وہ ہمارے قبضے سے باہر نہیں ہے ضرورت اس کی ہے کہ اس بارے میں ہم بہت جلد کارروائی کرنے والے ہیں

The Honourable Maulana Abul Kalam Azad: Government have already carried on negotiations, in the matter so far as it relates to India Office. These are within our possession. All that is wanting is that the issues relating to India and Pakistan have got to be decided. We shall soon be taking necessary action in this matter.

شری دیپن بلدھو گپتا : کیا یہ ٹھیک ہے کہ ملک میں کتنے ہی لوگوں کے پاس بھی بہت بیش قیمت نسخے ہیں جنہیں حاصل کرنے کی کوشش نہیں کی جا رہی ہے کیا حکومت ایسا کوئی قدم اٹھانے کو تیار ہے جس سے کہ یہ نسخے حاصل ہو جائیں۔

Shri Deshbandhu Gupta: Is it a fact that many people in this country are in possession of very valuable prescriptions and no efforts to procure these are being made? Are Government prepared to take any such steps by which these

آنریبل مولانا ابوالکلام آزاد : ابھی تھوڑی دیر میں ایک سوال کا جواب دئے ہوئے اس بات کو صاف کرنا۔

The Honourable Maulana Abul Kalam Azad: I will just elucidate this matter while replying to another question.

شری اچ۔ وی۔ کامت : جہاں اصل کی چیزیں مل سکتی ہیں وہاں نکلی چیزوں کی بجائے اصل کی چیزیں حاصل کرنے کا ہر ادا گورنمنٹ کا ہے۔

Shri H. V. Kamath: Have Government any intention to secure original documents wherever these are available instead of artificial ones?

آنریبل مولانا ابوالکلام آزاد : یقیناً۔

The Honourable Maulana Abul Kalam Azad: Certainly.

#### REPORT OF CABINET COMMITTEE ON DEVELOPMENT PLANS

\*1349. Seth Govind Das: (a) Will the Honourable Minister of Finance be pleased to state whether any report has been submitted by the Cabinet Committee set up to review development plans of the Central and Provincial Governments?

(b) If so, what are the recommendations made by the Committee?

(c) What are the steps so far taken to implement those recommendations?

The Honourable Dr. John Matthai: (a) Yes.

(b) and (c). Attention of the honourable member is invited to the reply I gave to Question No. 462 on the 17th February 1949. These recommendations were accepted by Government and have been elucidated in paras 29 and 30 of my Budget speech.

Shri H. V. Kamath: Is it this Committee that recommended the go-slow policy on prohibition and zamindari abolition or a different Committee?

The Honourable Dr. John Matthai: This Committee has nothing to do with it.

## STATEMENT

List showing the names of the Eye Hospitals in the Province of Bombay

1. Sir C. J. Ophthalmic Hospital, Bombay.
2. K. P. Haji Bachooali Free Ophthalmic Hospital, Bombay.
3. The Ramwadi Free Eye Hospital, Kalbadevi, Bombay.
4. Eye Hospital, Hornby Road, Bombay.
5. Bhoomaya Pochetty Ashnoi Municipal Free Eye Hospital, Kanathipura, Bombay.
6. Sarvajauik Free Eye Hospital, Surat.
7. Eye Hospital, Sholapur.
8. Eye Hospital (Blind Relief Association), Chalisgaon.
9. Navrojee Ophthalmic Hospital (attached to Civil Hospital, Ahmedabad).
10. Bai Pervati Girdharlal Dalpatram Charities Eye Hospital, Ahmedabad.
11. Dr. V. B. Mankad's Eye Hospital, Ahmedabad.
12. Sevaram Eye Hospital, Broach.
13. Henderson Eye Institute (attached to Civil Hospital, Bijapur).
14. Koppikar Eye Hospital, Nubli District, Dharwar.
15. Free Eye Hospital, Surat.
16. B. N. Free Eye Hospital, Bulsar.
17. Social Service League Free Eye Hospital, Kalyan.

## LICENCE HOLDERS OF PRIVATE RADIO-SETS

\*1352. Shri R. K. Sidhva: (a) Will the Honourable Minister of Information and Broadcasting be pleased to state the number of Licence holders of private radios in India in the years 1946, 1947 and 1948 province-wise?

(b) What is the total revenue derived from the licence fees?

(c) What is the number of licence holders of radios in England?

(d) What are the reasons for the very small number of radios in India?

The Honourable Shri R. R. Diwaker: (a) and (b). A statement giving the information is placed on the table of the House.

(c) According to the latest information available, there were approximately 1,11,80,000 radio licence holders in England (including Scotland and Wales) at the end of March, 1948.

(d) The main reasons are, (i) high cost of radio sets, (ii) low purchasing power of the people, (iii) lack of electricity over the greater portion of the country, and (iv) paucity of sufficiently powerful medium wave transmitters in regional language areas.

**STATEMENT**  
The number of licences holders of private radio-sets in India during the calendar years 1946, 1947 and 1948 province-wise:

| Financial Year 1947-48                                                                   |                                                                            |                                                                                          |         | Rs. 36,00,613.                                                                                                                                     |

## STARRED QUESTIONS AND ANSWERS

**Shri R. K. Sidhva:** May I know how many radio-sets are there in villages with a population of under 10,000?

**The Honourable Shri R. R. Diwakar:** I want notice.

**Shrimati G. Durgabai:** May I know whether the increase in the number of radio-sets could not be effected because of the very high cost of these radio sets?

**The Honourable Shri R. R. Diwakar:** That is one of the reasons given, but I may also bring to the notice of the honourable members that in the United Kingdom the home services alone utilise 1,400 K. W. of power whereas we are utilising for home services only 30 K. W. So we should not expect the number of radio-sets to increase very fast unless we also increase the number of K. W. power that we use for transmission.

**Shri R. K. Sidhva:** Is it the intention of the Government to go fast or not, and if so what steps they are taking?

**The Honourable Shri R. R. Diwakar:** Government are going according to a plan and they certainly want to develop the services as fast as possible.

**Shri R. K. Sidhva:** What is the plan?

**Mr. Speaker:** The plan of increasing electricity lies with the Works, Mines and Power Ministry, I believe.

**Shri H. V. Kamath:** Are there any grounds for fear that there are a large number of unlicensed radio-sets in this country?

**The Honourable Shri R. R. Diwakar:** I cannot say.

**Shri M. Tirumala Rao:** Are Government taking any steps to see that cheap radio-sets are manufactured in their laboratories? Have they set apart any amount of money for the research and encouragement of producing cheap radio sets?

**Mr. Speaker:** I think these questions can hardly be put. The honourable member knows that there are different Departments of the Government of India dealing with these subjects. The honourable member wants to make a suggestion that some such thing should be made and that being a suggestion for action, the question is disallowed.

**Shrimati G. Durgabai:** May I know whether it is a fact that some Madras engineers have conducted research in their laboratory and succeeded in producing cheap community sets?

**The Honourable Shri R. R. Diwakar:** They have produced a few and they may try further.

**Shri H. V. Kamath:** Do the figures for 1946, 1947 and 1948 show that the radio habit is getting more popular or less?

**The Honourable Shri R. R. Diwakar:** It is getting more popular, there is no doubt about it.

## FOREIGNERS DETAINED IN INDIA

\*1353. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Home Affairs be pleased to state how many foreigners have been detained in India under the Foreigners Act?

(b) Why and since when have they been detained?

(c) Have they been asked whether they would prefer going to their own countries if released?

**The Honourable Sardar Vallabhbhai Patel:** (a) to (c). I lay a statement on the table of the House giving the information asked for by the honourable member.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [24TH MARCH 1949]

| Serial<br>No. | Name of foreigner<br>(in full) | Nationality                 | Date since<br>when<br>detained | Reason for<br>Detention   | Whether<br>prepared to<br>leave India for<br>his own country<br>if released | Reference to autho-<br>rity under which<br>detained | Remarks                                                                                |

**Shri Brajeshwar Prasad:** Sir, I want to put a supplementary question, to this question.

**Mr. Speaker:** This question was recently dealt with in the House and a number of supplementaries were dealt with also. I have a clear memory of it. Next question.

#### TRIAL BY JURY OF EUROPEAN BRITISH SUBJECTS IN CRIMINAL CASES

**\*1354. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether after 15th August, 1947, European British subjects in India are entitled to a trial by jury consisting of their own countrymen in criminal cases as was the case before the 15th August, 1947?

(b) If so, do Government intend to continue this privilege in view of the changed conditions?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). I would invite the honourable member's attention to the Criminal Law (Removal of Racial Discriminations) Bill, 1949, which was introduced in this House on the 10th May 1949.

**Shri R. K. Sidhva:** Was the Bill introduced after my question?

**The Honourable Sardar Vallabhbhai Patel:** The answer is there.

#### APPOINTMENT OF OFFICERS ON SPECIAL DUTY

**\*1355. Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Home Affairs be pleased to state how many officers on special duty have been appointed by the various Ministries of the Government of India?

(b) What are their duties and functions?

(c) What are their salaries?

**The Honourable Sardar Vallabhbhai Patel:** (a) to (c). A statement containing the information is laid on the Table.

near future in the range of manufacture specified above. Government also intend to establish a factory for the manufacture of heavy electric power plant and an agreement has been recently signed with two foreign firms of Consulting Engineers for drawing up a project report.

#### IMPORT AND MANUFACTURE OF AGRICULTURAL MACHINERY

\*746. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that the Ministry of Agriculture is proposing to import agricultural machinery and vehicles worth more than Rupees 150 crores during the next few years?

(b) Are any steps being taken to manufacture any of them in India in the near future?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Schemes for development of agriculture are yet to be finalised and it is not, therefore, possible to indicate at present the exact amount of expenditure likely to be incurred on the purchase of machinery etc.

(b) Yes, Sir. I would refer the honourable member to the reply given by me to part (b) of the previous questions just now answered.

#### POST OFFICES FOR VILLAGES IN ROHTAK DISTRICT, EAST PUNJAB

\*747. **Ch. Ranbir Singh:** (a) Will the Honourable Minister of Communications be pleased to state whether Government are aware that there are no village post offices in villages Balliana and Bidhlan of tehsil Rohtak, Jagari and Samari of tehsil Gohana; and Purkhas of tehsil Sonapat in District Rohtak in East Punjab?

(b) Are Government aware that the population of each of these villages is nearly four thousands each?

(c) If the answers to parts (a) and (b) above be in the affirmative, do Government propose to start village post offices in each of these villages and if not, why not?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) No Post Office exists in any of these villages at present.

(b) No. A statement indicating the population of each of these villages is placed on the table of the House.

(c) Yes. Sanction for the opening of a Post Office at Purkhas has been accorded. The question of opening Post Offices at Bidhlan, Balliana, Jagsi (not Jagari) and Shamri (not Samari) is under consideration.

#### STATEMENT

##### Population of the villages

|          |       |
|----------|-------|
| Purkhas  | 2,714 |
| Bidhlan  | 2,120 |
| Jagsi    | 3,736 |
| Balliana | 2,513 |
| Shamri   | 3,040 |

**Shri R. K. Sidhva:** May I know how many post offices are going to be opened in the villages during the next year?

**Shri Khurshed Lal:** If the honourable member will wait for the reply to the next question by Mr. Tyagi, he will get the figures.

#### POST OFFICES FOR RURAL AREAS

\*748. **Shri Mahavir Tyagi:** Will the Honourable Minister of Communications be pleased to state the number of new post offices opened by Government in the rural areas during the financial year 1948-49 and how many do they plan to open during the next financial year?

**Shri Khurshed Lal** (Deputy Minister for Communications): 1,531 new post offices have been opened during the current financial year upto 15th January, 1949 and it is expected that 2,000 new post offices will be opened in the rural areas during the next financial year.

**Shri Mahavir Tyagi:** Is the Honourable Minister aware that in the hilly parts of Dehra Dun there are no post offices and the postman reaches those areas only once a fortnight or month?

**Shri Khurshed Lal:** Steps are being taken to open post offices there.

**Shri Mahavir Tyagi:** Have the Government taken into account the hilly areas of the United Provinces as a whole?

**Shri Khurshed Lal:** As I said, we are taking into account all those areas and trying to open post offices there.

**Shri O. V. Alagesan:** Pending the opening of post offices in rural areas, will the Government consider the question of having daily service in all villages?

**Shri Khurshed Lal:** Service will be expedited as much as possible.

**Shri Deshbandhu Gupta:** Will he consider the question of giving daily mail service at least in the villages of the Delhi province, within a radius of 15 miles of the capital?

**Shri Khurshed Lal:** I am unable to say at present what can be done.

**Shri B. P. Jhunjhunwala:** Is it a fact that some of the post offices in rural areas have been closed down?

**Shri Khurshed Lal:** I should like to have notice of that question.

**Shri Mahavir Tyagi:** Are there any villages which are not served by any post office at present?

**Shri Khurshed Lal:** If the honourable member will tell me the names of such villages I will enquire and give a reply.

**Babu Ramnarayan Singh:** Will the Honourable Minister give the number of newly opened post offices province-wise?

**Shri Khurshed Lal:** I will not be able to give that figure.

#### CLAIMS ON RAILWAYS FOR COMPENSATION FOR LOST GOODS

\*749. **Shri B. N. Munavalli:** (a) Will the Honourable Minister of Railways be pleased to state what was the number of claim petitions for compensation for lost goods received in the year 1948?

(b) How many claim petitions have been disposed of so far and what is the total amount paid in those cases?

(c) How many claim petitions are still outstanding and what is the total amount claimed in those outstanding petitions?

(d) What steps have been taken to check loss of goods and with what results?

**The Honourable Shri K. Santhanam:** (a) to (c). Information is being called for from the Railway Administrations, and will be placed on the table of the House in due course.

(d) The Indian Government Railways have given much attention to the preventive aspect of claims compensation work for several years, and a further intensified campaign of claims prevention planned on a well organised basis, with due regard to the experience gained in recent years, was initiated on and from 1st of January 1949. It is yet too early to come to any definite conclusions with regard to the results; but there are indications that further increase in the number of claims has been arrested.

## COMPROMISE ON PRICES FOR INTERNATIONAL WHEAT AGREEMENT

**\*750. Shri B. N. Munavalli:** Will the Honourable Minister of Food be pleased to state:

(a) whether it is a fact that the world's big wheat-producing countries have reached a compromise with importing countries on prices for the proposed international wheat agreement;

(b) if so, what the details of the said compromise are;

(c) whether any progress has been made by the Quantities Committee in reconciling the supply with demand and if so, to what extent;

(d) whether the details of India's needs in wheat has been intimated by the Government of India; and

(e) if so, what is the quantity and what will be its approximate cost?

**The Honourable Shri Jairamdas Doulatram:** (a) to (e). The International Wheat Conference is still in session in Washington. No final agreement has so far been arrived at on prices or quantities. Details will be known only after an agreement is reached.

## ENQUIRY INTO COST OF PRODUCTION OF COAL

**\*751. Shri R. L. Malviya:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether for purposes of implementating the awards of the Conciliation Board in the Coal mines in Bengal and Bihar and that of the Fact Finding Committee in the Central Provinces and enhancing the price of coal, any enquiry was made by Government into the cost of production of coal?

(b) If so, who made the enquiry and what was the cost of production of coal per ton in different collieries in Bengal, Bihar and the Central Provinces?

(c) What was the procedure adopted for such enquiry?

(d) If not, how was the rate of increase in Bihar and Bengal at Rs. 3/8 per ton and Rs. 3 per ton in the Central Provinces arrived at?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir.

(b) The enquiry was made by Government through experienced officers with knowledge of working of coal mines and Cost Accounting. In the case of Bengal/Bihar coalfields, the advice of the Commodities Prices Board was also taken. The average production cost per ton from the representative collieries was estimated to range from Rs. 10-10 to Rs. 14-2 excluding colliery consumption and free issues to labour in the case of Bengal/Bihar and from Rs. 13-5-9 to Rs. 15-8 in the case of C.P. and Berar.

(c) The production cost per ton was arrived at on the basis of the cost sheets furnished by the collieries and after investigation into the accounts of the collieries which were considered representative in character.

(d) The quantum of increase granted in the selling prices of coal was arrived at on the basis of the production cost per ton after taking into account among other factors the estimated increase consequent on the grant of increased wages and other concessions to colliery, labour plus a reasonable margin for profit. The increase granted in the selling prices of C.P. and Berar ranged from Rs. 2-13 to Rs. 3-7 per ton instead of Rs. 3 per ton as mentioned by the honourable member.

**Shri R. L. Malviya:** May I ask whether the Government received cost sheets from each and every coal field?

**The Honourable Dr. Syama Prasad Mookerjee:** I have just explained that we selected some representative collieries.

**Shri B. Das:** What is the reasonable margin of profit which the Minister allows to a colliery owner?

**The Honourable Dr. Syama Prasad Mookerjee:** The average profit is Rs. 1-8 per ton.

## DISCONTINUANCE OF RATIONING OF PETROL

**\*752 Shri H. V. Kamath:** Will the Honourable Minister of Transport be pleased to state:

(a) whether rationing of motor spirit will be discontinued;

(b) if so, when; and

(c) if not, why not?

**The Honourable Shri K. Santhanam:** (a) to (c). The question of discontinuing the rationing of motor spirit was reviewed recently. It is not possible at present to abolish petrol rationing in view of the present supply position, inland transportation capacity and in the event of emergencies, the need for controlling distribution to desired ends. The position is constantly under review with a view to lifting the control as soon as conditions permit.

**Shri H. V. Kamath:** Is petrol in short supply today?

**The Honourable Shri K. Santhanam:** Yes, Sir. Our demand is of the order of 260 million gallons, while the supply is about 150 million gallons.

**Shri H. V. Kamath:** What were the causes for the total petrol famine in New Delhi yesterday?

**The Honourable Shri K. Santhanam:** I was not here yesterday. I would require notice of the question.

**Shri H. V. Kamath:** Is it a fact that during or after the Jaipur session of the Congress, acute shortage of petrol was experienced in several parts of the country?

**The Honourable Shri K. Santhanam:** I wish to submit that this does not arise from this question.

**Mr. Chairman:** It refers only to rationing of petrol.

**Shrimati Dakshayani Velayudhan:** May I ask whether it is a fact that at the end of the last month and, in fact, at the end of every month, there is no petrol available in Delhi?

**The Honourable Shri K. Santhanam:** I am not aware of that.

**Shri H. V. Kamath:** Is it a fact that even today the big petrol bunk on Queensway is without petrol?

**The Honourable Shri K. Santhanam:** Sir, the honourable member is giving me information.

**Shri Deshbandhu Gupta:** Is it not a fact that petrol rationing is not in vogue in Bombay?

**The Honourable Shri K. Santhanam:** I am not aware of it.

**Shri R. K. Sidhva:** May I know whether in the month of January the cut which was imposed in Bombay was removed and whether in Poona thereafter there was no petrol available?

**The Honourable Shri K. Santhanam:** Owing to transportation difficulties, the quantities available at ports have been increased. So it is possible that while in Bombay there was petrol and in Poona there was difficulty.

**Shri V. C. Kesava Rao:** Is there any arrangement for inspection to see whether there is petrol in the bunks or not?

**The Honourable Shri K. Santhanam:** I do not think there is any official inspection. Each petrol bunk is allowed a quota and the bunks are expected to keep that supply. Sometimes there is a heavy withdrawal and there is shortage.

**Shri O. V. Alagasan:** Is it a fact that though large quotas are allotted to inland areas there is shortage of petrol owing to the lack of tank wagons and other transport difficulties? What steps do Government propose to take to remove these difficulties?

**The Honourable Shri K. Santhanam:** It is true that there is a shortage of tank wagons. We have given an order for a large number of tank wagons. Till they arrive there may be some difficulty.

**Dr. P. S. Deshmukh:** Is the Honourable Minister aware that the distribution has become very defective since he became Minister in charge?

**The Honourable Shri K. Santhanam:** Sir, I must protest against this insinuation.

#### SUBSIDY TO MADRAS GOVERNMENT FOR WYNAD COLONISATION SCHEME

**\*753 Shri P. Kunhiraman:** (a) Will the Honourable Minister of Agriculture be pleased to state whether the Government of India have paid any subsidy for the Wynad Colonisation Scheme of the Government of Madras?

(b) If so, what is the amount paid and when was it paid?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). The Wynad Colonisation Scheme was approved by Government of India for financial assistance from the Block Central grant in 1947-48 and 1948-49. The estimated cost of the scheme for these years was 4.40 lakhs, and 9.92 lakhs respectively. Information as to actual expenditure incurred by Madras Government and amount paid by the Government of India each year is being collected and will be placed on the table of the House.

**Shri P. Kunhiraman:** Is there any condition attached to the payment of subsidy?

**The Honourable Shri Jairamdas Doulatram:** The only condition attached that I am aware of was that besides the soldiers the civil population also should benefit from the scheme.

#### SALOONS FOR OFFICERS IN ASSAM RAILWAYS

**\*754 Srijut Kuladhar Chaliha:** Will the Honourable Minister of Railways be pleased to state:

(a) the number of saloons for the use of officers of the Assam Railways.

(b) the number of saloons allowed to Railway officers before 1948 in the area at present served by the Assam Railways; and

(c) the number of officers before and after the division of India in the Assam Railways?

**The Honourable Shri K. Santhanam:** (a) The number of saloons at present available on the Assam Railway for the use of officers is 48.

(b) and (c). In view of the fact that the Assam Railway has been organised as a separate administration only after the partition, comparison with pre-partition conditions is not possible nor would it justify any reliable interferences.

**Shri H. V. Kamath:** Which classes or categories of railway officials are permitted the use of railway saloons?

**The Honourable Shri K. Santhanam:** The senior officers who are bound to go on inspection duties.

**Shri H. V. Kamath:** Is the Minister aware that there are instances of minor railway officials who use the Railway saloons?

**The Honourable Shri K. Santhanam:** Sir, there are special vans for class III staff who have got to work on the line. Therefore, every officer who has to go and do work on the line is entitled to some kind of conveyance and the conveyance depends upon his seniority and status.

**Shri M. Tirumala Rao:** I did not hear the answer to (c). What is the number of officers who are entitled just now?

**The Honourable Shri K. Santhanam:** On 1st October, 1947 the total number of class I and II officers was 84. The strength on 1st January, 1949 was 107.

**Dr. P. S. Deshmukh:** Is there any proposal to scrap the saloons and convert them into ordinary coaches before the Government, since most of these officers who were travelling in these coaches are now travelling by planes?

**The Honourable Shri K. Santhanam:** It is not true, Sir.

**Dr. P. S. Deshmukh:** My question was: Has the Government before it any proposal to scrap these saloons and convert them into ordinary coaches in view of the fact that most of these officers who were travelling by the saloons have now taken to air traffic.

**The Honourable Shri K. Santhanam:** The fact does not exist and, therefore, there is no such proposal.

**Mr. Chairman:** The question does not arise.

**Shri M. Tirumala Rao:** Do Government think that 48 saloons are sufficient for 107 officers to discharge their duties efficiently?

**The Honourable Shri K. Santhanam:** Sir, a saloon is used by more than one officer, and therefore, they are considered sufficient.

#### CEMENT FACTORIES

**\*755 Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the total number of cement factories in the Indian Union in the years 1947-48 and 1948-49?

(b) How many of these were working in each year?

(c) What was the annual production in each factory?

(d) How much out of this production was purchased by Central and Provincial Governments?

(e) What was the quantity made available to (i) companies and firms and (ii) private individuals?

(f) What quantity was utilized in Delhi, Bombay and Madras cities?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) 19 factories in 1947 and 22 in 1948.

(b) 18 factories were in regular production in both the years. The output of one factory has been sporadic and insignificant due to inferior equipment and non-availability of raw materials. Three have installed the plants and are expected to go into production this year.

(c) A statement is laid on the table of the House.

(d) to (f). Information is being collected and will be laid on the table of the House in due course.

1104

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [28TH FEB. 1949]  
STATEMENT

| S. No. | Name of the factory                          | Production during 1947-48 (in tons) | Production during April 1948 to Dec. '48 (in tons) |
|--------|----------------------------------------------|-------------------------------------|----------------------------------------------------|
| 1.     | Associated Cement Co. Kymore                 | 1,71,122                            | 1,39,964                                           |

|        |                                              | 1,473,418                           | 1,186,814                                          |

**Dr. P. S. Deshmukh:** Sir, how many new factories are likely to be established during the course of the present year and the next year?

**The Honourable Dr. Syama Prasad Mookerjee:** In 1949 we expect three factories will start operation, one in Jamnagar, Timmevelly and Kottayam.

**Dr. Mono Mohan Das:** What percentage of the total production of cement has been reserved for the construction of cinema houses?

**The Honourable Dr. Syama Prasad Mookerjee:** None.

**Shri Deshbandhu Gupta:** Is it a fact that in several factories large stocks of cement are lying for want of proper transport?

**The Honourable Dr. Syama Prasad Mookerjee:** There have been some transport difficulties, but things have improved in the last three months and we expect further improvement in the course of the following months.

**Shri Mahavir Tyagi:** Could the Honourable Minister give us an idea as to how many licenses had been issued to private firms.

**The Honourable Dr. Syama Prasad Mookerjee:** Three licenses have been granted, which will come into operation in the course of 1949.

**Shrimati Dakshayani Velayudhan:** Which is the biggest cement factory in the country?

**The Honourable Dr. Syama Prasad Mookerjee:** From the production point of view last year the Associated Cement Company at Lakhra was the biggest.

**Shri H. V. Kamath:** In the allotment of cement, does the construction of houses get the top-most priority or something else gets?

**Mr. Chairman:** Order, order. It is only about cement factories. The question does not arise.

**Shri Sita Ram S. Jajoo:** Is it a fact that the cement quota for Madhya Bharat could not be sent for the last nine months?

**Mr. Chairman:** This question does not arise. It is only about the number of cement factories.

**Shri H. V. Kamath:** Part (e) of the answer refers to the allotment of cement. My question was: In the allotment of cement, does the construction of houses get the top-most priority or does something else get it?

**The Honourable Dr. Syama Prasad Mookerjee:** So far as the question of distribution is concerned, we have now left it in the hands of the Provinces, except certain items which are under Central control. It is for the Provinces to decide whether they put any restriction for use of cement for construction purposes.

**Shri Mahavir Tyagi:** May I take it that the factories cannot distribute cement on their own terms to anybody else except the Provincial Governments?

**The Honourable Dr. Syama Prasad Mookerjee:** That is so.

**Shri H. V. Kamath:** Does not the Central Government lay down the broad lines of policy for the Provincial Governments to follow in this matter?

**The Honourable Dr. Syama Prasad Mookerjee:** We have to give a certain amount of discretion to the Provinces and we certainly tell them that they use cement for essential purposes and not for non-essential purposes.

**Shri Raj Bahadur:** May I know whether India is self-sufficient in cement? If not, how much time shall we take to become self-sufficient?

**The Honourable Dr. Syama Prasad Mookerjee:** We are not self-sufficient. Honourable members might have noticed two days ago we have put Cement on Open General License List, so far as non-Dollar areas are concerned, but by 1952, we expect to increase our production by about 2 million tons at least.

**Shri Deshbandhu Gupta:** Is it not a fact that cement is still selling at more than Rs. 10 per bag in the black market in Delhi?

**The Honourable Dr. Syama Prasad Mookerjee:** I shall ask the Delhi Administration.

**Shri B. P. Jhunjhunwala:** According to the policy laid down by the Government for the guidance of the provinces, which items gets the first priority?

**The Honourable Dr. Syama Prasad Mookerjee:** So far as the quotas to the Provinces are concerned, we do not indicate any items in order of priority. We leave it to the provinces to decide as to how best consumption should be utilised for their provincial use.

**Shri H. V. Kamath:** Does the Honourable Minister recollect the statement made by the Prime Minister on the floor of this House some months ago that so far as the use of cement and other building materials are concerned, Provincial Governments have been asked to give priority to residential houses and not cinema houses?

**Mr. Chairman.** The Honourable Minister has already answered that question; In an earlier answer he has said that cement has not been given to cinema houses.

**Shri H. V. Kamath:** My question was what priority was given to house building as against the cinema houses? The prime Minister made a statement some months ago in which he said that in this matter we have informed the provincial Governments that.....

**The Honourable Shri Jawaharlal Nehru:** Yes, Sir. I am not quite clear as to what the honourable member's difficulty is. There is no doubt about it. Both the Central Government and the Provincial Governments are following this policy of discouraging not only cinema houses and the like, but other luxury buildings.

#### CONTRACTOR-CASHIER ON N. W. RAILWAY

**\*756 Shri Mahavir Tyagi.** Will the Honourable Minister of Railways be pleased to refer to the reply to starred question No. 622 asked on the 5th March, 1948, and state whether the contractor—Cashier of the old North Western Railway who had failed to render accounts to the extent of over fifty lakhs, has now rendered accounts?

**The Honourable Shri K. Santhanam:** No. The position is that the entire matter is still under reference with the Chief Auditor, N.W. Railway, who has yet to furnish a complete and detailed analysis of the claims against the Contractors. An Assistant Accounts Officer has since been deputed to visit Lahore to obtain or to compile, if necessary, the particulars in question.

**Shri Mahavir Tyagi:** Is it a fact that the amount involved was to the extent of 50 lakhs?

**The Honourable Shri K. Santhanam:** Yes. It is to the extent of 54 lakhs.

**Shri Mahavir Tyagi:** May I know if the contractor has again been reemployed in the E.P. Railway?

**The Honourable Shri K. Santhanam.** No, Sir. He has got no kind of employment in the Railways.

**Shri Mahavir Tyagi:** Is he still keeping the accounts of the E.P. Railway?

**The Honourable Shri K. Santhanam:** No, Sir.

**Mr. Chairman:** The question hour is over.

#### (b) WRITTEN ANSWER

##### ELECTRIC DEVICE TO AVOID BURGLARY, THEFT AND ACCIDENTS ON RAILWAYS

**\*757 Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state whether any automatic electric device to avoid burglary, theft and accidents on Railways has been invented?

(b) If so, have the Railway authorities had any demonstration of it and if so, with what result?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes. Sri P. C. Mukerji, a Calcutta scientist has invented an automatic electric device for the prevention of burglary, theft and accident on railways.

(b) The device was demonstrated in the presence of the General Manager, E. I. Railway, who is satisfied that the proposal is not an acceptable one. The operation of the device is dependent on electric circuit which can be tampered with, so making its operation uncertain and unreliable. In the event of the failure of the equipment, there would be the possibility of the doors being fixed in the locked position and thereby leading to considerable inconvenience. A corresponding measure of protection could be obtained in a much shorter time by continuing the policy at present followed by railways of overhauling and where necessary replacing the present type of mechanical door and window catches.

## UNSTARRED QUESTIONS AND ANSWERS

### LAND UNDER FOODGRAIN CULTIVATION

**41. Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Agriculture be pleased to state the total acreage under cultivation of food grains at present province-wise?

**The Honourable Shri Jairamdas Doulatram:** A statement showing province-wise the acreages under the principal foodgrains during the year 1947-48 is laid on the table. (The fall in acreage is mainly in East Punjab due to disturbances and large scale movement of rural population after partition).

#### STATEMENT

*Acreage under principal foodgrains (Rice, Wheat, Jowar, Bajra, Maize, Ragi, Barley and Gram) in Indian Dominion and the Provinces in 1947-48*

| Provinces and Local Administrations | Thousand Acres              |            |
|-------------------------------------|-----------------------------|------------|
|                                     | 1947-48<br>(Final Forecast) |            |
|                                     |                             | 3,623      |
| Assam (a)                           |                             | 15,615     |
| Bihar                               |                             | 17,617     |
| Bombay                              |                             | 14,581     |
| C.P. and Berar                      |                             | 9,385      |
| East Punjab (b)                     |                             | 18,234 (c) |
| Madras                              |                             | 5,685 (d)  |
| Orissa                              |                             | 32,994     |
| U.P.                                |                             | 9,956      |
| West Bengal                         |                             | 354        |
| Ajmer-Merwara (e)                   |                             | 87         |
| Coorg (a)                           |                             | 236        |
| Delhi (e)                           |                             |            |
| TOTAL                               |                             | 1,28,367   |

(a) Relates to Rice only.

(b) Excludes Ragi only.

(c) Excludes to barley and wheat only.

(d) Excludes barley only.

(e) Excludes rice and ragi only.

#### TECHNICAL STAFF IN AGRICULTURAL AND ANIMAL HUSBANDRY DIVISIONS OF I. C. A. R.

**42. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Agriculture be pleased to state what is the strength of the technical staff in the Agricultural and Animal Husbandry Divisions of the Indian Council of Agricultural Research?

(b) How many Research Officers are there for different subjects and how many of the staff are permanent?

(c) Do Government propose to increase the strength of the present staff?

**The Honourable Shri Jairamdas Doulatram:** (a) The strength of the technical staff in the Indian Council of Agricultural Research is eight in the Agricultural and six in Animal Husbandry Divisions.

(b) There are thirteen statistical research workers, besides 2 professors and two assistant professors. Except the latter four, the rest of statistical staff is permanent.

(c) In view of financial stringency, no increase in the staff is contemplated at present.

## PUBLICATIONS BY INDIAN COUNCIL OF AGRICULTURAL RESEARCH

43. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Agriculture be pleased to state whether the Indian Council of Agricultural Research publish any popular Agricultural periodical?

(b) Are there any plans for publishing popular pamphlets for the education of Indian farmers on the lines of the Farmers Bulletins of the United States of America; and

(c) if so, what are they?

**The Honourable Shri Jairamdas Doulatram:** (a) The Indian Council of Agricultural Research publishes two monthly journals at present, namely, Indian Farming (in English) and Kheti (in Hindi).

(b) and (c). The matter is under consideration.

## GAZETTED AND NON-GAZETTED STAFF IN MINISTRY OF INDUSTRY AND SUPPLY

44. **Prof. Yashwant Rai:** Will the Honourable Minister of Industry and Supply be pleased to state?

(i) the number of Gazetted officers;

(ii) the number of Superintendents;

(iii) the number of assistants; and

(iv) the number of clerks and stenographers working in the Ministry of Industry and Supply?

**The Honourable Dr. Syama Prasad Mookerjee:** The required information is given below:

(i) Number of Gazetted Officers 762\*

(ii) Number of Superintendents 441†

(iii) Number of Assistants 1,845.

(iv) Number of clerks and Stenographers 6,808.

## GAZETTED AND NON-GAZETTED STAFF IN THE MINISTRIES OF FOOD AND AGRICULTURE

45. **Prof. Yashwant Rai:** Will the Honourable Minister of Food be pleased to state:

(i) the number of Gazetted officers;

(ii) the number of Superintendents;

(iii) the number of assistants; and

(iv) the number of clerks and stenographers in the Ministries of Food and Agriculture?

**The Honourable Shri Jairamdas Doulatram:** Two statements showing the number of Gazetted officers, Superintendents, Assistants, Clerks and Stenographers employed at present in each of the Ministries of Food and Agriculture (including the attached and subordinate offices) are laid on the table of the House.

## STATEMENT I

Number of Gazetted Officers, Superintendents, Assistants, Clerks and Stenographers employed at present in the Ministry of Food (including the attached and subordinate offices)

|                                                   |     |     |
|---------------------------------------------------|-----|-----|
| (i) Gazetted Officers                             | ... | 117 |
| (ii) Superintendents (including Head Clerks)      | ... | 38  |
| (iii) Assistants (including Assistants-in-charge) | ... | 258 |
| (iv) Clerks and Stenographers                     | ... | 478 |

891

\* Includes one officer on part time.

† Includes 20 Superintendents who are Gazetted and 228 Executive (Non Gazetted).

## SHORT NOTICE QUESTIONS AND ANSWERS

## SHORT NOTICE QUESTIONS AND ANSWERS

## THREATENED RAILWAY STRIKE AND ACTION AGAINST COMMUNISTS

**Shri Deshbandhu Gupta:** Will the Honourable the Prime Minister be pleased to state:

(a) the number of communists who have been arrested during the last three days in different provinces of the country as a precautionary measure against the threatened railway strike; and

(b) what other action Government propose to take to ensure that no obstruction is placed in the way of Railway staff and workers, who are opposed to the strike by the Communists?

**The Honourable Shri Jawaharlal Nehru:** Sir, with your permission, I propose to reply to both parts of this question in the form of a statement, which I think will interest the House.

2. The total number of persons arrested during the last ten days, in connection with the proposed railway strike, is 870. This figure is accurate up till yesterday.

3. The policy of Government has been not to interfere, in any way, with the functioning of trade unions and other labour organisations. Government are of opinion that the formation and the legitimate functioning of trade unions should be encouraged, so that labour may play its proper part in industry and in the promotion of its own interests. Government have attempted to give the widest latitude to all peaceful propaganda of any policy or doctrine, even though they were opposed to that doctrine. Government have refrained from taking any action against the Communist Party of India as such, in spite of a virulent propaganda and incitement to violence which the Communist Party members have indulged in. Where violence has been actually attempted or encouraged, Government have taken action. Such action has been limited to individuals who were connected with this violence or encouragement of violence.

4. The Communist Party of India has, during the past year, adopted an attitude not only of open hostility to Government but one which can be described as bordering on open revolt. This policy has been given effect to intensively in certain limited areas of India and has resulted in violence including murders, arson, and looting as well as acts of sabotage. The House is well aware of the communist revolts that have taken place in countries bordering on India. It was presumably in furtherance of the same policy that attempts were made in India to incite people to active revolt. Fortunately, these attempts failed because of the strength of popular opinion against them and the action taken by Government. Nevertheless a great deal of misery and damage was caused by them in certain parts of India.

5. The House is fully aware that for the last several months we have been greatly preoccupied with meeting the serious economic situation which has been causing distress to millions of our people. It was implicit in our programme that there should be rapid movement of commodities throughout the country.

6. Towards the end of November, the Working Committee of the All India Railwaymen's Federation met in Nagpur and decided on taking a strike ballot among the members affiliated to it. At this time we had additional confirmation of information which had been coming to us from time to time, that certain communist elements working in the railway unions were bent on exploiting the proposed strike for political purposes and, in particular, on using violence and sabotage to gain their ends.

7. Negotiations then took place between my colleague, the Transport Minister and Shri Jayaprakash Narayan, the president of the All India Railwaymen's Federation, with a view to devising means for averting the strike. It was clear to Government that a strike in the railways would, particularly at the present juncture, be an unmitigated disaster to the country. Apart from the fact that dislocation of transportation would nullify the steps that Government have been taking to meet the serious economic situation facing the country, a famine was developing in Gujarat and Kutch and a strike would be disastrous to millions of human beings and cattle in these areas. These discussions were conducted in a friendly atmosphere and certain arrangements were agreed to. As a result, the Railwaymen's Federation decided not to proceed with the strike.

8. In spite of this decision of the Railwaymen's Federation, certain communist elements in the Federation proceeded with their programme for a strike. Reports continue to reach Government, through reliable sources, that a widespread programme of sabotage had been planned and that it was decided to enforce the strike by means of violence. Indeed, many such instances of sabotage have already occurred. Recently there were unfortunate clashes between some students and others and the police in Calcutta, and during these clashes, hand-grenades and bombs were used against the police and public property, such as buses and tramcars were destroyed. We have evidence that the same agencies which provided these weapons to the students are exploiting them for similar purposes during the railway strike.

9. The Communist Party of India has recently concentrated on the issue of a general strike on the railways as well as in other essential services of paramount importance to the community. It has looked upon these strikes not from the trade union or economic point of view, meant to better the lot of the workers, but as a weapon designed to create a chaotic state in the country which, it is thought, would help the Party to gain its other objectives, whatever they might be. It is deliberately seeking to create famine conditions by paralysing the railway system, so that foodstuffs should not be transported, the object being to create a general background of chaos, a breakdown of the administration and mass uprisings. A large number of prominent communist party members have gone underground and Government have a mass of evidence in their possession to indicate that organised attempts are being made to conduct campaigns of sabotage, more especially on the railway system. The permanent way was to be damaged, locomotives interfered with, and general sabotage of vital installations, telephones, telegraphs and power stations was aimed at. Honourable Members will remember the destruction of the Calcutta Telephone Exchange some time ago.

10. Fortunately, the great majority of railwaymen and other workers have declared themselves opposed to the general strike and to such methods. The Communist Party of India, however, appears to be bent on flouting the

opinion of this majority of workers and has pursued a technique of terrorising those who do not agree with its policy. While interfering with the freedom of action of others, it demands full freedom for itself to carry on its own anti-social and disruptive activities. If any action is taken by Government to check these activities, protests are raised on the ground of civil liberties being interfered with. As a part of this technique, organisations for the ostensible object of protecting civil liberties are started, their real object being to encourage these anti-social activities. Government are anxious that the civil liberties of the people should be fully maintained. But it is not Government's conception of civil liberty to permit methods of coercion and terrorism to be practised against the general community. It is the paramount duty of Government to give security to the people and to prevent the normal life of the community from being interfered with by such methods of violence. No Government and no social life would be possible, if these methods were tolerated. Hence Government have been compelled to take all necessary measures to meet this situation. If any strike takes place on the railways by a fraction of the railwaymen or elsewhere, they are determined to deal with it firmly. Such a strike at this juncture, it must always be remembered, has nothing to do with economic questions or the normal activities of trade unions and the like. Government have already shown their earnest desire to meet all legitimate demands of their employees and other workers. They will always be prepared to consider any difficulties that their employees have to face and to remove them as far as possible. They are determined to maintain the well-established rights of labour. But they cannot submit to threats of violence and incitement to active revolt from any quarter.

11. In furtherance of this policy, Government have arrested a number of members of the Communist Party of India and have taken such other precautionary measures as they deem necessary. They have advised provincial Governments to do likewise so as to ensure that vital installations are protected against sabotage. They have no doubt that in doing so they have the full support of the country and of this House, which is wedded to democratic procedure and is entirely opposed to methods of violence.

12. The nature of the activities and objectives of certain groups in the country can be judged by the events which took place at Dum Dum and other places in Calcutta two days ago. A meeting was held in the maidan under the auspices of the Bengal Provincial Trade Union Congress, which is a body dominated by the Communist Party of India. Speakers urged the seizure of power by violent means. A student of the Bengal Provincial Students Federation, which is also dominated by the Communist Party of India, stated that a saboteur gang of students was ready for action. Three groups had gone out previously on taxis, motorcars and buses and did considerable damage. Fourteen of these terrorists were captured on Saturday night and a quantity of hand grenades, sten guns and bombs were recovered from them. The arrested men belong to what is known as the Revolutionary Communist Party of India which broke away from the Communist Party of India but collaborates with it on occasions. This group of R.C.P.I. men was responsible for the incident at the water works at Talla a few months ago, when an attempt was made to blow up the water works machinery.

13. This recent incident in Calcutta gives some indication of the kind of action that is intended by those people who are working for general strikes. I have just heard of these cases of attempts to derail trains during the last two days. It is against this kind of action that every precaution has to be taken. Government are satisfied that the vast number of railway employees and other workers in the country do not want such general strike and are

(b) what the terms of instructions to the Departmental Committee in this respect were; and

(c) who the members of the Departmental Committee were?

**The Honourable Dr. B. R. Ambedkar:** (a) and (b). No such instructions were issued to the departmental committee. The first revised draft of the Bill was prepared by myself with the subject matter rearranged in a consecutive and logical form.

(c) The departmental committee consisted of Messrs K. Y. Bhandarkar, D. H. Nanavati and G. R. Rajagopal of the Ministry of Law. Mr. S. V. Gupte an advocate of Bombay was also invited to work on the Committee. I myself acted as Chairman of the Committee.

**Mr. Naziruddin Ahmad:** Is the Honourable Minister aware of any substantial changes made in the departmental draft?

**The Honourable Dr. B. R. Ambedkar:** I suppose my honourable friend will next ask as to what changes have been made.

**Dr. P. S. Deshmukh:** At what stage was this Bill converted into an official Bill?

**The Honourable Dr. B. R. Ambedkar:** It was always an official Bill when it was introduced.

**Dr. P. S. Deshmukh:** Is there any cabinet decision on record?

**The Honourable Dr. B. R. Ambedkar:** The Bill was introduced on the instruction of the Cabinet.

**Dr. P. S. Deshmukh:** Was the motion for consideration referred to the Cabinet for approval and has it been so approved by all the members of the Cabinet?

**The Honourable Dr. B. R. Ambedkar:** It has the approval of the Government. Once the introduction of the Bill has been sanctioned by the Cabinet no further reference to the Cabinet has become necessary.

**Dr. P. S. Deshmukh:** Am I to understand then that since the time the Bill was introduced no further reference of any sort has been made to the Cabinet collectively?

**The Honourable Dr. B. R. Ambedkar:** Oh yes; it has been.

**Dr. P. S. Deshmukh:** At what time and with what result?

**Babu Ramnarayan Singh:** What is the authority under which the Honourable Minister has brought about the changes in the Bill?

**The Honourable Dr. B. R. Ambedkar:** I have not brought about any changes in the Bill. The changes have been made by the Select Committee, as I have pointed out.

**Mr. Chairman:** All these points have been covered by the Speaker's ruling. We shall pass on to the next item.

## CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES.

### (PART I—QUESTIONS AND ANSWERS)

*Tuesday, 1st March, 1949*

The Assembly met in the Assembly Chamber of the Council House at Quarter to Eleven of the Clock, Mr. Deputy Speaker (Shri M. Ananthasayanam Ayyangar) in the Chair.

### STARRED QUESTIONS AND ANSWERS

#### (a) ORAL ANSWERS

#### TRANSFER OF CERTAIN OFFICES FROM DELHI AND SIMLA

**\*758. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that some of the offices of the Government of India in Delhi and Simla are likely to be transferred to another place and if so, whether Government propose to give details of such transfer?

(b) Is it a fact that almost all the Ministries of the Government of India have their branch offices at Simla?

**The Honourable Shri N. V. Gadgil:** (a) The question of dispersing some of the Central Government offices from Delhi has been engaging the attention of Government for some time past. A Sub-Committee of the Cabinet has been appointed to look into the whole question. It is proposed to locate three offices under the Ministry of Works, Mines and Power at Nasik for which acquisition of land and building construction have been decided upon. As regards move of other offices, the matter is still under consideration.

(b) Only a few Ministries have some of their branches working in Simla while some others have some of their Attached and Subordinate offices located in Simla.

**Shri R. K. Sidhva:** Arising out of part (b) of the question, what is the total number of offices which are located in Simla? Is it a fact that the offices of the Director General, Posts and Telegraphs, Director General of Archaeology, Director General of Education and Director General of Health are also located in Simla?

**The Honourable Shri N. V. Gadgil:** There are innumerable offices. If the honourable member wants to know the details I am quite prepared to give them now but it will be more appropriate if I lay a statement on the table later on.

**Shri R. K. Sidhva:** I wanted to know what was the object of these branch offices being located in Simla.

**The Honourable Shri N. V. Gadgil:** The reason is that there is no accommodation in Delhi.

opposed to such methods. It is Government's duty not only to protect the general community but also these large numbers of workers. In any action that Government may take, they will always remember that the working classes are the backbone of the country and that their general interests must not suffer. May I add an expression of the Government's regret at the killing by these terrorists of a number of persons in Calcutta during the last two or three days. These include a number of police officers and men and officers of Messrs. Jessop Limited and of the B.O.A.C.

**Shri Deshbandhu Gupta:** In view of this evidence which the Government have of the Communist Party corroborating with the terrorists, have Government considered the advisability of declaring it an unlawful association?

**The Honourable Shri Jawaharlal Nehru:** The Government are always reluctant to declare any organization as such unlawful. Government will even allow, as the House knows, the continued publication of periodicals, which, whether they are Communist or whether they are otherwise, are often indulging in the most virulent propaganda. No doubt what the honourable member has suggested is being and will be considered, but Government always prefer not to deal with an organisation as such but rather with the individuals who are in it.

**Shri Deshbandhu Gupta:** May I know, Sir, whether it is a fact that a large number of Congressmen, or persons believed to be Congressmen have been killed by Communists in Hyderabad and roundabout areas? If so, what is their approximate number?

**The Honourable Shri Jawaharlal Nehru:** When the honourable member mentions Congressmen in Hyderabad presumably he means members of the State Congress of Hyderabad. I am unable to supply any exact numbers, but from the general information we have received, over two hundred members of the State Congress have been individually murdered in certain areas of Hyderabad.

**Shri Deshbandhu Gupta:** Have Government taken any action against the publication of the People's Age in Bombay? Is it a fact that the Newspaper Advisory Committee for the province have advised action against this paper?

**The Honourable Shri Jawaharlal Nehru:** Yes, I believe that the Press Advisory Committee of the Bombay Province has advised the Provincial Government to take action against the People's Age.

**Shri H. V. Kamath:** Is there any evidence to show that some Indian communists, not content with incitement to violence and revolt against their own Government here, are engaged in fighting and subverting a good neighbour Government—I mean the Burma Government?

**The Honourable Shri Jawaharlal Nehru:** There may be individuals acting in this way and probably there are.

**Shri Arun Chandra Guha:** Is the Communist Party not banned in any province in India?

**The Honourable Shri Jawaharlal Nehru:** Yes, in West Bengal.

**Mr. B. Paker:** May I know whether the Government has any information as to the number of Communists in India? If so, which is the province in which they are the largest in number and how many of them have gone underground?

**The Honourable Shri Jawaharlal Nehru:** I am afraid I could not give any exact numbers in regard to the number of Communist Party members or their sympathisers, or those who have gone underground. Probably the numbers actually involved are not very big.

**Shri Mihir Lal Chattopadhyay:** Is it a fact that the leader of the revolutionary Communist Party of India was arrested by Government under the Public Safety Act and that he was released six months back?

**The Honourable Shri Jawaharlal Nehru:** I do not quite know except that the revolutionary Communist Party of India, which was a faction which separated from the Communist Party, itself later split up into two!

**Shri Mahavir Tyagi:** Do you believe it?

**Mr. Chairman:** Order, order.

**Shri Mihir Lal Chattopadhyay:** You say that the revolutionary Communist Party of India has split up into two parts now?

**The Honourable Shri Jawaharlal Nehru:** I do not know who is the leader of which group and what happened to him.

**Pandit Lakshmi Kanta Maithra:** May I enquire whether the Government is taking any steps to check the infiltration of Communists from Malaya and Burma, who are coming as refugees to this country?

**The Honourable Shri Jawaharlal Nehru:** I am not aware of any serious danger of that type. Naturally the Government tries to keep wide awake to all such possibilities. But so far there has been no cause for alarm for this particular type of danger.

**Pandit Lakshmi Kanta Maithra:** I was enquiring whether the Government was aware that those refugees from Burma and Malaya who are coming to India are really Communists and they are establishing a link with the Communists in this country. Have Government kept a watchful eye on that?

**The Honourable Shri Jawaharlal Nehru:** I am not aware of any particular case of that type. It is a possibility of course!

**Shri V. C. Kesava Rao:** May I know what steps Government are taking for eliminating Communists who are non-employees?

**The Honourable Shri Jawaharlal Nehru:** I do not understand this question. Eliminating from where?

**Shri V. C. Kesava Rao:** What steps are Government taking to eliminate Communists from the Railwaymen's Federation who are not employees of the Railways?

**The Honourable Shri Jawaharlal Nehru:** I still do not understand. There may be a policy of encouraging or rather discouraging non-workers from being office-bearers of the Union. There may be possibly that policy. But it is undesirable to apply political labels to individuals of that type.

**Shri Raj Bahadur:** Have Government ascertained the source or agency through which the Communists are obtaining their arms and ammunition?

**The Honourable Shri Jawaharlal Nehru:** There must be some information in possession of Government. Since the last war, there have been many ways of getting arms and ammunition, more especially in certain frontier areas—Assam, Bengal, etc., and I have no doubt that many of these Communists have been able to get these arms from those particular sources.

#### DEPARTMENTAL COMMITTEE ON HINDU CODE

**Mr. Naziruddin Ahmad:** Will the Honourable Minister of Law be pleased to state:

(a) whether the Departmental Committee set up by the Ministry of Law to revise the Hindu Code Bill, referred to the Select Committee on the 9th April, 1948, was instructed not to make any substantial changes in the body of the original Bill;

1118 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [1ST MARCH 1949]

**The Honourable Shri N. V. Gadgil:** This does not arise out of the question, unless the Chair rules otherwise.

**Sardar Bhopinder Singh Man:** What is the stipulated time for the completion of the Bhakra Dam?

**The Honourable Shri N. V. Gadgil:** I require notice but generally it is I think the same period, viz., about seven years.

**Shri H. V. Kamath:** Is it a fact that the policy outlined by the Honourable Minister with regard to the Damodar Valley project in the last session, viz., land for land and house for house in respect of the tenants' lands and houses, is being set at naught by the local officials?

**The Honourable Shri N. V. Gadgil:** It is true that when a promise is given it is given for the purpose of implementing it.

**Shri H. V. Kamath:** What is true? Is it a fact that this policy is set at naught by the local officials?

**The Honourable Shri N. V. Gadgil:** No.

**Shri H. V. Kamath:** Is it a fact that the construction of buildings and approach roads has been started on the tenants' lands without the consent of the tenants and in many cases the standing crops have been destroyed without acquiring the lands under the Land Acquisition Act and no notice has even been issued to the tenants in accordance with the Land Acquisition Act?

**The Honourable Shri N. V. Gadgil:** No, Sir.

**Dr. P. S. Deshmukh:** May I know if the prospective catchment area has been surveyed?

**The Honourable Shri N. V. Gadgil:** Yes, if the question is with respect to the Damodar Valley Project.

**Babu Ramnarayan Singh:** As regards the complaint which has just been mentioned by my honourable friend Mr. Kamath, will the Honourable Minister enquire about it?

**The Honourable Shri N. V. Gadgil:** Most certainly.

**Shri H. V. Kamath:** Have instances such as I have referred to of tenants being evicted without notice or without compensation been brought to the notice of the Honourable Minister?

**The Honourable Shri N. V. Gadgil:** If such cases are brought to my notice I shall certainly take appropriate action.

**Babu Ramnarayan Singh:** What are the two other dams for which schemes have been prepared?

**The Honourable Shri N. V. Gadgil:** There are eight dams altogether. The Tilaya Dam is ready for construction and in respect of two other dams the designs are being finalised.

**Babu Ramnarayan Singh:** What are those two dams?

**The Honourable Shri N. V. Gadgil:** I will give the information later on.

#### NEW MACHINERY FOR GENERATING ELECTRICITY IN DELHI

\*760. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that the present Electric Power House in Delhi is insufficient to provide power for all industrial and lighting purposes?

(b) If so, have Government placed orders for additional machinery?

(c) If so, when is the new machinery likely to be installed and what would be the total additional kilowatts available for public use?

**The Honourable Shri N. V. Gadgil:** (a) Yes.

(b) The Delhi Central Electric Power Authority Ltd. have placed orders abroad for the supply of the following plant:

(i) Two 9,200 KWs Turb—Alternator Generating sets—in 1946.

(ii) One 5,000 KWs Westinghouse Generating Set in December 1947.

In addition to the plant on order, the Authority have taken on loan from the Government, six Diesel Generating Sets of 500 KWs each and one 2,500 KWs Transportable Set which is likely to yield about 2,200 KWs.

(c) The six Diesel Sets loaned by Government are already under commission while the 2,500 KWs Transportable Power Set is likely to be in operation in April 1949. The Westinghouse Generating Set of 5,000 KWs is expected to be commissioned by January, 1950, while the two bigger Sets of 9,200 KWs each, are expected to be ready by April 1951. It is hoped that about 20,000 KWs power will become available for Delhi from the Nangal Project of the East Punjab Government by the middle of 1952. The additional supply of electricity that will thus be available from time to time is as follows: (i) 2,200 KWs by the end of April 1949; (ii) 5,000 KWs by January 1950; (iii) 18,400 KWs by the end of April 1951; and (iv) 20,000 KWs from Nangal by the middle of 1952.

**Shri R. K. Sidhva:** May I know how many applications for new connections for power and light have been received and what is the procedure for granting those applications?

**The Honourable Shri N. V. Gadgil:** I will require notice for that. So far as the procedure is concerned, it entirely rests with the Delhi Electricity Power Authority.

**Shri R. K. Sidhva:** May I know whether any favouritism is shown in giving connections and whether it is not given on a priority system?

**The Honourable Shri N. V. Gadgil:** No favouritism that I know of.

**Shri Deshbandhu Gupta:** May I know whether it is a fact that although Government had taken a decision to place an order for a 5,000 K.W. set as early as 1947, the order was not placed till two months back? The papers were lying in the office and the order was not placed?

**The Honourable Shri N. V. Gadgil:** I require notice for that because as far as I understand the order has been placed.

**Shri Deshbandhu Gupta:** May I know whether the Honourable Minister is aware of the fact that these days in the City of Delhi electric points are being arbitrarily removed and the people are suffering heavy losses on account of that?

**The Honourable Shri N. V. Gadgil:** This is due to some precautionary measure necessitated by the fact that because of the overload the whole system may collapse.

**Shri Deshbandhu Gupta:** But what is the principle, who decides it and why is this done arbitrarily?

**The Honourable Shri N. V. Gadgil:** The Delhi Electricity Authority does it.

**Shri R. K. Sidhva:** May I know whether the Globe Engineering Works, Delhi made a representation to the Government that their application for connection has not been granted whereas one which was asked for subsequently was granted connection?

**The Honourable Shri N. V. Gadgil:** Notice.

**Dr. P. S. Deshmukh:** May I know if the machinery ordered in 1946 has arrived and if not when it is likely to arrive?

**Shri Deshbandhu Gupta:** May I know whether it is a fact that the proposal to shift some offices to Nasik is really a forerunner of building another capital near Nasik?

**The Honourable Shri N. V. Gadgil:** No.

**Shrimati G. Durgabai:** May I know whether it is a fact that there is a proposal under consideration to shift the Federal Court to Allahabad?

**The Honourable Shri N. V. Gadgil:** The final location of the Federal Court has not yet been decided.

**Shri Radhavallabh Vijaivergiya:** May I know whether Mhow is also one of the places under consideration for the location of some of the offices?

**The Honourable Shri N. V. Gadgil:** Among many other places which are under consideration Mhow is one.

**Shri Deshbandhu Gupta:** May I know why Delhi is considered unfit for the location of the Federal Court?

**The Honourable Shri N. V. Gadgil:** The question is still under consideration. There is no question of the fitness or unfitness of Delhi involved.

**Shri Deshbandhu Gupta:** Is it a fact that in the Draft Constitution itself it is mentioned that the Federal Court has to be in the capital of India?

**The Honourable Shri N. V. Gadgil:** The honourable member well knows that the Draft Constitution is still a Draft Constitution.

**Shrimati G. Durgabai:** May I know whether it is a fact that the Honourable Minister for Works, Mines and Power visited Allahabad sometime ago to see whether the site and other arrangements will be suitable for the location of the Federal Court?

**The Honourable Shri N. V. Gadgil:** Yes, Sir.

**Dr. P. S. Deshmukh:** By what time is the Cabinet sub-committee's decision likely to be known about the location of various offices in different parts of India?

**The Honourable Shri N. V. Gadgil:** It will take sometime but before the Constitution is finally passed you will know the whole picture.

**Shrimati Purnima Banerji:** May I know if the Honourable Minister found Allahabad a suitable place?

**The Honourable Shri N. V. Gadgil:** It is a matter of opinion whether Allahabad is suitable or not.

**Shri H. V. Kamath:** Have Government once for all abolished the annual exodus to Simla?

**The Honourable Shri N. V. Gadgil:** There is no exodus to Simla at present.

**Shri H. V. Kamath:** Have Government given it up once and for all?

**The Honourable Shri N. V. Gadgil:** For all practical purposes it is so.

**Shri R. K. Sidhva:** May I know whether government feel it necessary to keep permanently in Simla branches of these various important Ministries? What is the reason for Government to keep in Simla or in any other place branch offices of the Ministries of Education, Health, Archaeology and Law?

**The Honourable Shri N. V. Gadgil:** I have already given the reason: it is want of accommodation in Delhi.

#### BHAKRA DAM AND DAMODAR VALLEY PROJECTS

\*759. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what stage the Bhakra Dam and Damodar Valley Projects have reached?

(b) Have any experts come from foreign countries to chalk out the initial programme?

(c) Have the original schemes been affected in any way by the Economy drive of Government?

(d) When is the actual work on these schemes likely to be started?

**The Honourable Shri N. V. Gadgil:** (a) The Bhakra Dam Project is under the administrative control of the Government of the East Punjab. Information received from that Government shows that the construction of a road and a railway line to the Dam site, has been nearly completed. Work on tunnels for diverting the river during construction is in progress. Detailed studies of the foundation of the Dam are nearing completion and other preliminary works are also in an advanced stage.

In connection with the Damodar Valley Project, which is under the administrative control of the Damodar Valley Corporation orders for the 150,000 K.W. thermal power station, the main 132 K.W. and other subsidiary lines, have been placed, detailed design of Tilaya, one of the eight dams and project reports with plans and estimates of two more dams have been prepared;

Engineering investigations including collection of data for the other items and dams, are in hand.

The construction of camps with residences, offices, water and electric power supply, road connection at six of the dam sites are also in progress.

(b) Yes, as and when necessary.

(c) No.

(d) Work is already in progress.

**Shri R. K. Sidhva:** With reference to the report placed on the table of the House yesterday by the Honourable Minister regarding the Damodar Valley Corporation, may I know whether the amount of Rs. 2,21,81,000 for 1948-49 has been spent during this year or how much of it has been spent or is the whole sum likely to be spent?

**The Honourable Shri N. V. Gadgil:** I require notice for that.

**Shri Mihir Lal Chattopadhyay:** What is the target year by which these works will materialise fully?

**The Honourable Shri N. V. Gadgil:** Is it for all the three projects or do you want it for the Damodar Valley project?

**Shri Mihir Lal Chattopadhyay:** I want it for the Damodar Valley Project.

**The Honourable Shri N. V. Gadgil:** It is seven years.

**Shri Mihir Lal Chattopadhyay:** What is the total estimated expenditure on this project?

**The Honourable Shri N. V. Gadgil:** I think I have already given that figure but I will repeat it. It is about 55 crores.

**Shri Mihir Lal Chattopadhyay:** May I know whether it is a pre-war figure or it has been revised later on?

**The Honourable Shri N. V. Gadgil:** It is not a pre-war figure: it has been revised and scrutinised and the general view expressed by the Damodar Valley Corporation authorities is that it will be adhered to.

**Shri Mihir Lal Chattopadhyay:** What are the respective qualifications of the Directors appointed to the Damodar Valley Corporation?

**The Honourable Shri N. V. Gadgil:** I have already stated in my reply that it is expected to arrive in the month of April 1949.

**Dr. P. S. Deshmukh:** What are the causes for this inordinate delay, Sir?

**The Honourable Shri N. V. Gadgil:** Well, for that at least the Government of India is not responsible, nor the Delhi Electricity Authority.

**Dr. P. S. Deshmukh:** Is it not the real causes that the order contemplated was not placed as has been suggested by my friend?

**The Honourable Shri N. V. Gadgil:** That is not so,

**Shri Deshbandhu Gupta:** Will the Honourable Minister enquire into the matter please?

**The Honourable Shri N. V. Gadgil:** Certainly.

**Shri B. P. Jhunjhunwala:** In view of the fact that the Government will have large scale production after these machineries are received, and the fact that the expenses will be less, is it under the consideration of the Government that they will be able to supply cheap electricity to industrial firms?

**The Honourable Shri N. V. Gadgil:** Most certainly; that is always noted and taken into consideration when the plans are finalised.

**Shri Deshbandhu Gupta:** Will the Honourable Minister please tell the House whether any appreciable saving has been effected by the measures now taken in the City of removing the extra-points, and if so, to what extent?

**The Honourable Shri N. V. Gadgil:** One result of this measure is that there has been no collapse of the entire system so far, which was feared at one stage.

#### CAPTAIN OF TRAINING SHIP "DUFFERIN"

**\*761. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state what is the name of the Captain of the training ship "Dufferin" and whether it is a fact that originally he opted out to Pakistan and then returned to India?

(b) What are his qualifications and what is his salary? Since when has he been in charge of the "Dufferin"?

(c) How many cadets are there under him for training?

(d) Has there been any complaint against him regarding his anti-Indian feelings towards students?

**The Honourable Shri K. C. Neogy:** (a) (i) Lt. Comdr. M. F. S. C. Harvey. (ii) Yes. His provisional option was for Pakistan but his final option was for India.

(b) (i) Certificate of Competency as Master Mariner (Foreign Going), permanent commission as Lt. Comdr. in the Royal Naval Reserve, apart from various other minor qualifications. (ii) Salary Rs. 1800 per month. (iii) He has been in charge of the Dufferin since the 1st September 1945.

(c) 165.

(d) Government have not received any such complaints.

**Shri R. K. Sidhva:** May I know whether this Captain holds the degree of Extra Master Mariner, and if not, may I know whether the ex-cadets of this Dufferin ship hold such qualifications and many other high qualifications and whether they cannot replace this officer?

**The Honourable Shri K. C. Neogy:** I have already stated the qualifications of this officer. As regards the second part of my honourable friend's enquiry, I may assure him that there is no single Indian who possesses all the necessary qualification and experience possessed by Commander Harvey.

**Shri R. K. Sidhva:** May I know whether ex-cadet Mr. Chakravarty is a Commodore in the R. I. N.? Is it a fact that Capt. Karmarkar holds a high position in the R. I. N.? Is it a fact that ex-cadet Captain Bhandari holds the Command of the Merchant Navy? May I know from the Honourable Minister whether these qualifications are not enough for holding these posts?

**The Honourable Shri K. C. Neogy:** May I say I added experience as a valuable consideration? Commander Harvey has been working on the Dufferin for the last 17 years and has been promoted from one position to another. None of the officers mentioned by my honourable friend can have any pretence to that kind of experience.

**Shri R. K. Sidhva:** May I know how many years in the R. I. N. service has this Commander put in and may I know whether it is the intention of the Government to Indianise this Dufferin when the officers are available?

**The Honourable Shri K. C. Neogy:** I might remind my honourable friend that there is a Governing Body which is in charge of the management of this training ship, and the Governing Body are perfectly satisfied with the qualifications and experience of this officer and the question of replacing him does not arise.

**Shri R. K. Sidhva:** Has not the Old Cadets' Association made a complaint to the Government about the conduct of this Commander towards the Indians?

**The Honourable Shri K. C. Neogy:** I am not aware of any such complaint.

**Shri R. K. Sidhva:** May I know, Sir, whether the Honourable Minister has been fully satisfied that such a complaint has not been made?

**The Honourable Shri K. C. Neogy:** I have said that the specific complaint to which my honourable friend made a reference, has not been received by us—at least I am not aware of any such complaint.

**Shri H. V. Kamath:** What were the dates on which Harvey opted for Pakistan and re-opted for India?

**The Honourable Shri K. C. Neogy:** The provisional option had to take place before the partition, that is to say before the 15th August, and he had, according to the rules, six months in which to revise his option. He revised his option earlier than that.

**Shri R. K. Sidhva:** May I know whether, in view of the ill-treatment to Indians, any cadets have withdrawn from this Dufferin in the years 1947 and 1948, and if so, how many cadets have withdrawn?

**The Honourable Shri K. C. Neogy:** My honourable friend bases his question on a supposition about ill-treatment of Indians. He has not put any question on that particular point to me and I am not in a position to give any answer.

**Shri M. Tirumala Rao:** Is there any competent Indian just now to take the place of Harvey in the event of his getting out of this job in the near future?

**The Honourable Shri K. C. Neogy:** No, Sir.

#### FRENCH ECONOMIC MISSION TO CONCLUDE A COMMERCIAL TREATY

**\*762. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state whether the Government of France have sent an economic mission to India with the object of concluding a bilateral treaty in respect of commerce with this country?

(b) Have any talks regarding this been initiated in Paris by India's Commissioner-General for Commercial and Economic Affairs in Europe?

(c) Is it a fact that France is prepared to supply some of India's industrial requirements forthwith and if so, what are those?

**The Honourable Shri K. C. Neogy:** I do not know how industrialists need to be taken into consultation in a special manner in this connection.

#### REORGANISATION OF FOREIGN PUBLICITY SERVICE

**\*764. Shri V. C. Kesava Rao:** (a) Will the Honourable the Prime Minister be pleased to state whether the re-organisation of the Foreign Publicity Service is complete?

(b) What are the languages in which pamphlets and magazines for external publicity are being published and through what channels are they distributed?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) The reorganisation of external publicity is as yet in the process of being completed.

(b) Magazines are published at present in English and Arabic and distributed normally through commercial channels and publicity staff abroad. Pamphlets are published in English, Persian and Arabic and distributed through our publicity staff abroad.

**Shri H. V. Kamath:** Is there any real and effective co-ordination between external publicity and internal publicity?

**Dr. B. V. Keskar:** Yes, Sir.

**Shri H. V. Kamath:** How many professional journalists are there in the External Publicity Section, and how many amateurs?

**Dr. B. V. Keskar:** I require notice.

**Shri R. L. Malaviya:** What is the amount spent on foreign publicity?

**Dr. B. V. Keskar:** I would not be able to give off-hand, but if my honourable friend wants, I can furnish him with the figures.

**Shrimati G. Durgabai:** May I know whether there is any proposal under consideration to extend the scope of the foreign publicity service by adding a few more correspondents?

**Dr. B. V. Keskar:** There is a proposal to extend this service of foreign publicity, not specially by adding a few more correspondents but in other ways also.

**Shri H. V. Kamath:** Is it not Government's policy to see that so far as publicity is concerned,—whether internal or external—only professional journalists will be employed and not amateurs or non-professionals?

**Dr. B. V. Keskar:** Our experience is that journalists alone are not effective, but in certain cases, for publicity, people with wider and more, I should say, experience of learning and literature are also effective.

**Shri H. V. Kamath:** Have there been instances where persons who have been merely teachers or lecturers have been appointed in the Publicity Department without any regard for their flair for publicity work?

**Dr. B. V. Keskar:** No, Sir.

**Shri Ramnath Goenka:** Are illiterates also taken into service for foreign publicity?

**Dr. B. V. Keskar:** Not that I know of.

**Shri M. Tirumala Rao:** Is the All-India Radio utilised for the purpose of external publicity, and if so, does it function under the External Affairs Ministry or the Information Ministry?

**Dr. B. V. Keskar:** All-India Radio is one of the best instruments for external publicity. It is not under the External Affairs Ministry but it works in co-ordination with it in regard to foreign publicity.

**Shri V. C. Kesava Rao:** May I know whether Government is aware that due to the lack of proper publicity foreign countries like U.S.A. and Canada are not in a position to understand the Indian problems?

**Dr. B. V. Keskar:** We are quite aware of the problem posed by the question of my honourable friend, we are thinking of extending our publicity to these areas as far as possible, but we have also to take into consideration our financial situation and the funds that are at our disposal.

**Mr. Frank Anthony:** Who appoints these foreign publicity agents and under whose control do they work in these different countries?

**Dr. B. V. Keskar:** There are no such persons as "agents". We have got our Information Officers attached to our Consuls, Legations and Embassies and it is through them and our missions abroad that our publicity generally is done.

**Shri Ramnath Goenka:** May I know what the circulation of these magazines and pamphlets issued by the Foreign Department is?

**Dr. B. V. Keskar:** I require notice of the question.

**Shrimati G. Durgabai:** May I know whether there is a Public Relations Officer attached to each Embassy and whether it is not their duty to send news and reports regularly?

**Dr. B. V. Keskar:** There are public Relations Officers attached to certain Embassies, not all and we do get regular reports from them.

**Sardar Bhopindar Singh Man:** May I ask what is the space taken by the Ministers in these pictures of the periodicals?

**Shri Kishorimohan Tripathi:** Is it a fact that in the United States of America, the old machinery for publicity as established by the British Government on our behalf is still functioning and functioning to our detriment?

**Dr. B. V. Keskar:** I think my friend is misinformed. The old machinery for publicity that was established during the British rule is there; but it has been modified considerably and expanded, and I think expanded to our advantage.

**Shrimati Purnima Banerji:** May I know if the foreign publicity service is a separate service from that of our Embassies?

**Dr. B. V. Keskar:** The foreign publicity service is a section of the External Affairs Department. In every Embassy we have got Information Officers who do this work. They are part of the Embassy.

**Shri M. Tirumala Rao:** Have Government received any complaint about the inefficiency of the publicity section attached to the London High Commissioner's Office?

**Dr. B. V. Keskar:** Not that I know of.

**Shri Mahavir Tyagi:** What is the object of this publicity? May I have an answer? I am serious about it. I want to know whether they publish the activities of the Government at home or their policies with regard to foreign Governments or our economic condition or whether they give publicity to our manufactured articles? What is the aim of the publicity?

**Dr. B. V. Keskar:** The object of foreign publicity will be explained in detail during the Budget discussion.

**Shri Ramnath Goenka:** When was the Foreign Publicity Department separated from the Information Department?

**Dr. B. V. Keskar:** I think it is so since last year.

**Shri Sita Ram S. Jajoo:** Are Government of India preparing any films for publicity in foreign countries?

**Dr. B. V. Keskar:** Yes, Sir.

(d) What is the nature of discussion held in this respect and has any treaty been concluded?

**The Honourable Shri K. C. Neogy:** (a) No.

(b) Yes.

(c) A list of industrial articles which France has offered to supply to India, and which we require from that country, is laid on the table of this House.

(d) The discussions are exploratory at this stage, and no treaty of a commercial nature has so far been concluded.

#### STATEMENT

*List of India's industrial requirements from France*

##### Equipment:

Steel and castings: Bars. Joists and channels. Plates. Hoops. Skelp.  
Machine tools.  
Textile industry equipment.  
Equipment for seaports and airports.  
Public Works equipment.  
Electric power house equipment.  
Radio-electric equipment.  
Miscellaneous electric equipment.  
Motors.  
Railway equipment (steam and electric engines, tenders, passenger and merchandise cars, auto cars, 'autorails', etc.).  
Aeroplanes.  
Agricultural equipment and implements (Diesel tractors, petrol tractors, caterpillar or wheel tractors, ground-breaking machinery, harvesting equipment, threshing machinery, etc.).  
Diesel trucks, petrol driven trucks, motor buses, small trucks, miscellaneous automotive vehicles.

**Shri R. K. Sidhva:** Has there been any correspondence in this respect?

**The Honourable Shri K. C. Neogy:** I suppose so.

#### TRADE AGREEMENT WITH RUSSIA

\*763. **Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Commerce be pleased to state whether the Government of India have entered into any trade agreement with Russia?

(b) If so, what is the basis of that agreement?

(c) What are the food grains that have been imported into this country from Russia and what are their respective quantities?

**The Honourable Shri K. C. Neogy:** (a) Yes.

(b) The agreements with Russia are on a barter basis.

(c) Wheat; 51,195.92 metric tons.

**Dr. Mono Mohan Das:** Was any trade delegation sent to Russia?

**The Honourable Shri K. C. Neogy:** No, Sir.

**Shri R. L. Malviya:** What are the commodities bartered with Russia?

**The Honourable Shri K. C. Neogy:** There have been two barter agreements so far. The first one related to 5,000 metric tons of Indian tea supplied by us in exchange for 50,000 metric tons of Russian wheat. The second barter agreement which will start its operation from this month relates to the supply of 81,000 tons of Russian wheat in exchange for the supply to Russia of 5,000 tons of tea, 5,000 tons of raw jute and 1,000 tons of castor oil.

**Shri M. Tirumala Rao:** What is the basis on which calculation is made with regard to the quantity and the cost of these goods?

**The Honourable Shri K. C. Neogy:** The Departments concerned make certain calculations of the value and when they are satisfied that it is a perfectly reasonable deal, then the barter agreement is entered into.

**Dr. P. S. Deshmukh:** How many ordinary tons make one metric ton?

**The Honourable Shri K. C. Neogy:** I thought that such an enquiry might be made, and I may tell my honourable friend that a ton avoirdupois is equivalent to 2240 lbs. or 27½ maunds approximately. Now, a metric ton is the same as 1000 kilograms and is equivalent to 2204.6 lbs. or very nearly 27 maunds.

**Shri V. C. Kesava Rao:** May I know whether Russia has offered any newsprint?

**The Honourable Shri K. C. Neogy:** I do not think so, so far.

**Shri H. V. Kamath:** How does the price of Russian wheat compare with that purchased from other countries?

**The Honourable Shri K. C. Neogy:** As a matter of fact, as I said, no cash price is contemplated. It is entirely a barter arrangement, but we are satisfied that the value that the wheat represents is not unfavourable to India. That is all that I can say.

**Dr. Mono Mohan Das:** Is there any possibility of receiving capital goods from Russia?

**The Honourable Dr. B. R. Ambedkar:** Only Communism along with Russian wheat!

**The Honourable Shri K. C. Neogy:** So far no such enquiry has been made, but I may inform the House that very recently the talk of having a regular trade agreement with Russia has started informally.

**Shri Mahavir Tyagi:** Were the Standing Committee consulted before this barter agreement was arrived at?

**The Honourable Shri K. C. Neogy:** Which Standing Committee? Because there are more than one Standing Committee concerned.

**Shri Mahavir Tyagi:** The Standing Committee pertaining to this Department.

**The Honourable Shri K. C. Neogy:** I do not think so.

**Srijut Kuladhar Chaliha:** What is the pre-war requirement of tea by Russia and whether we have come to that level now?

**The Honourable Shri K. C. Neogy:** I am afraid I will have to ask for notice of this question.

**Shri Mahavir Tyagi:** May I know what is the principle adopted in connection with such agreements by barter or otherwise, particularly in regard to commodities which are required in India. I am anxious to know as to who settles about the requirements of a certain commodity before deciding to barter. Do you take the industrialists or others into consultation or is it from the Secretariat only that you get reports and arrive at agreements?

**The Honourable Shri K. C. Neogy:** I suppose we have a full and dependable appreciation of the situation as regards our own requirements both for the supply of certain essential commodities for consumption in India as also for the export of certain commodities to other countries.

**Shri Mahavir Tyagi:** Is there any machinery devised by the Government to take the industrialists also into consultation when you take to such sort of barter agreements with foreign countries?

**Dr. V. Subramaniam:** Do the Government give any authorised news from here or they gather the news from reports appearing in papers?

**Dr. B. V. Keskar:** There is a direct news service from here specially meant for our Information Officers abroad. They utilise this news for their publicity.

**Shrimati G. Durgabai:** May I know what the proposals under the re-organisation plan are?

**Dr. B. V. Keskar:** I am sorry I will not be able to give it now. I hope to give it in the near future.

#### EXPORT TRADE WITH FRANCE

**\*765. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Commerce be pleased to state what steps are being taken to stimulate export trade with France?

(b) Has there been a marked decline in the export trade with France and if so, what are the reasons for it?

**The Honourable Shri K. C. Neogy:** (a) I would refer the honourable member to the answer just given by me to Starred Question No. 762 by Shri R. K. Sidhva.

(b) No, there is no perceptible decline in our export trade with France.

#### REFUGEES FROM EAST BENGAL

**\*766. Shri H. V. Kamath:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) whether the influx of refugees from East Bengal still continues; and

(b) the measures taken or proposed to be taken in order to stop or check the exodus from East Bengal?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) and (b). The honourable member is referred to the reply given by the Honourable Shri Mohanlal Saksena to part (c) of Starred Question No. 92 by Sardar Bhopinder Singh Man on the 3rd February, 1949.

**Sardar Bhopinder Singh Man:** May I take it that the non-provision of housing accommodation to these refugees or non-provision of business premises is also a part of the plan under consideration by which you are going to check the influx from Pakistan?

**Mr. Deputy Speaker:** It is an ironical question.

**Shri H. V. Kamath:** In view of the fact that the reply by Mr. Saksena was given many days ago, and as we are living in the present and not in the past, may I know whether the influx continues or has stopped?

**The Honourable Shri Satyanarayan Sinha:** It has practically stopped. The reply was given only on 3rd February. During these three or four weeks no new situation has arisen. So far as our information goes, the exodus has practically stopped.

**Shri H. V. Kamath:** Practically means completely or what?

**The Honourable Shri Satyanarayan Sinha:** It means what it means.

#### PERSONNEL AND PURPOSE OF MISSION TO ETHIOPIA

**\*767. Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) the personnel and purpose of the mission that was deputed to Ethiopia in September 1948;

#### STARRED QUESTIONS AND ANSWERS

(b) the expenditure incurred in connection therewith; and  
(c) the results achieved?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) The personnel of the mission was composed of:

- (1) Sardar Sant Singh, Leader.
- (2) Shrimati Annu Swaminathan, Member.
- (3) Shri Devji Rattansi, Member.
- (4) Shri H. L. Khanna, Member.
- (5) Shri C. J. Stracey, Secretary.
- (6) Shri Jai Dial, Ministerial Assistant.

Purpose of the goodwill mission was promotion of mutual goodwill and closer contacts with the Government and people of Ethiopia; to study the economic and political conditions in that country and to ascertain the position of Indian nationals there.

(b) Rs. 29,000 in round figures.

(c) The visit of the Mission has resulted in closer contact between India and Ethiopia and has given Government an insight into the conditions of Indians living there. Nearly 500 Indians are doing business in Ethiopia and about 70 Indian teachers are employed by the Ethiopian Government.

**Shri H. V. Kamath:** Was there any ill-will in Ethiopia towards India to necessitate the sending of a Goodwill Mission there?

**Dr. B. V. Keskar:** There was no illwill. The Mission was sent to augment the friendly relations between our two countries.

**Shri H. V. Kamath:** What was the genesis of this Mission? Was it sent at the invitation of the Ethiopian Government or was it our own roving mission?

**Dr. B. V. Keskar:** I want notice.

**Shri B. Das:** Have the Government of Ethiopia asked for the establishment of an Indian Embassy there?

**Dr. B. V. Keskar:** Yes, Sir.

**Shrimati G. Durgabai:** May I know the steps taken to give effect to the suggestions made by one of the members of the Mission, namely, Mrs. Annu Swaminathan?

**Dr. B. V. Keskar:** All the suggestions made by the Mission are under the active consideration of the Government.

**Shri V. C. Kesava Rao:** May I know whether this Mission has submitted any report?

**Dr. B. V. Keskar:** Yes, Sir.

**Shri Sita Ram S. Jajoo:** As the result of the mission have the Government of India entered into any trade agreement with the Government of Ethiopia?

**Dr. B. V. Keskar:** The Mission has succeeded very considerably in bringing forward proposals by which we hope to have greater trade relations with Ethiopia.

**Shri M. Tirumala Rao:** Is there any proposal to invite a reciprocal mission to understand our country?

**Dr. B. V. Keskar:** Not for the moment; but it is possible.

**Shri H. V. Kamath:** Did the Mission explore the possibility of Indians settling there?

**The Honourable Shri N. V. Gadgil:** Obviously, they did not want the dam site to be located there.

**Shri H. V. Kamath:** May I know how these complaints were disposed of?

**The Honourable Shri N. V. Gadgil:** I promised a full and sympathetic consideration.

**Dr. P. S. Deshmukh:** By what time is the preliminary investigation likely to be completed?

**The Honourable Shri N. V. Gadgil:** I think it will take at least one year more.

**Dr. P. S. Deshmukh:** Is it not possible to expedite the preliminary investigation by any means?

**The Honourable Shri N. V. Gadgil:** It is not possible. There are innumerable considerations that have cropped up as a result of the Police Action in Hyderabad. We are considering whether it would not be better to consider this scheme along with other schemes in connection with the Godavari Valley.

**Shri H. V. Kamath:** Did not the Honourable Minister assure the *malguzars*, who lodged their complaints, that if on investigation the Honourable Minister found the complaints were genuine, he would not hesitate to change the site of the project?

**The Honourable Shri N. V. Gadgil:** Well, as I said, I promised full consideration, which means and includes all relevant considerations as regards the technical aspect, the nature of the terrain and as regards the economics of the whole project.

**Shri R. K. Sidhva:** What is the result of that sympathetic consideration?

**The Honourable Shri N. V. Gadgil:** If the honourable member shows a little patience, he will know it.

#### ESTABLISHMENT OF FOOD TECHNOLOGICAL RESEARCH INSTITUTE

**\*770. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable the Prime Minister be pleased to state whether the Government of India have any scheme for opening a Food Technological Research Institute in India?

(b) If so, where is it likely to be located and what subjects are likely to be studied and subjected to research?

(c) What will be the recurring and non-recurring cost of the Institute?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) The establishment of a Central Food Technological Research Institute has been approved by the Council of Scientific and Industrial Research.

(b) The Institute will be located in "Cheluvomba Palace" in Mysore, which has been gifted by the Government of Mysore for the purpose.

Research on all aspects of food technology and in particular on the problems peculiar to Indian conditions connected with the storage of different food materials, processing of foodstuffs for improvement of keeping qualities, palatability and digestibility, treatment of different coarse food materials, search for new sources of food materials for human consumption, will be conducted. The whole range of food processing, which includes survey of potential foodstuffs in different regions, production of concentrated foods, vitamins and other food accessories etc., dietetics, studies on cooking utensils and improvement of indigenous cooking methods, study of problems faced by Indian food industries, provision of technological information, survey of existing industries and development of new industries, pilot plant trials with different types of industrial equipment development of new methods of detecting food

adulteration, questions affecting food sanitation and all problems connected with food and dietetics with particular reference to Indian conditions, will be covered.

(c) The recurring cost of maintenance and non-recurring cost of equipment for the Institute are being worked out by a Planning Officer.

**Shri H. V. Kamath:** Will the activities of this Institute be closely co-ordinated with the Institute that is functioning at Coonoor also? Is the Honourable Minister aware of the Institute at Coonoor at all?

**The Honourable Shri Satyanarayan Sinha:** I would like to have notice.

#### FINANCIAL ALLOTMENTS FOR COMMUNICATIONS, HOSPITALS AND EDUCATION IN NORTH EAST FRONTIER TRIBAL AREAS

**\*771. Srijiut Kuladhar Chaliha:** Will the Honourable the Prime Minister be pleased to state:

(a) what sums have been allotted for communications, for Hospitals and for primary education in Sadugu Frontier Tracts; and

(b) whether Government are going to establish any high schools in Abor tracts?

**Dr. B. V. Keskar (Deputy Minister for External Affairs and Commonwealth Relations):** (a) The honourable member is presumably thinking of the Sadiya Frontier Tract. A statement is laid on the table of the House giving the particulars asked for.

(b) At present there is no proposal to establish any high schools in areas occupied by the Abors.

**Dr. B. V. Keskar:** That is a possibility that can be taken into account.

**Shri Mihir Lal Chattopadhyay:** What is the cost involved in this Mission?

**Dr. B. V. Keskar:** As given in the answer, it is Rs. 29,000.

**Shri H. V. Kamath:** In view of the fact that this Mission has achieved splendid results, do the Government propose in future to associate at least one woman member of this House with every Delegation that goes abroad?

**Shri B. Das:** Will Government make available to the members of this House a copy of the report of the Ethiopian Mission?

**Dr. B. V. Keskar:** Excepts from the report might be made available for the use of honourable members, but I cannot say whether the whole report can be made available. Some parts of this report are somewhat confidential.

**Shri H. V. Kamath:** Which parts of Ethiopia did the Mission visit, only Addis Ababa or other places too?

**Dr. B. V. Keskar:** I do not know, Sir.

#### SENTENCES OF DEATH PASSED ON GENERAL TOJO AND HIS COLLEAGUES

**\*768. Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) whether it is a fact that the Indian judge on the International Military Tribunal at Tokyo acquitted General Tojo, Japan's Wartime Premier, and his other colleagues of all the charges that had been preferred against them; and

(b) if so, what steps, if any, were taken by Government to prevent the execution of the death sentences passed on General Tojo and some of his colleagues?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) Yes. He considered that they were not guilty on any of the counts and should be acquitted.

(b) The Government of India however suggested at the appropriate time to the Supreme Commander of the Allied Powers in Japan that the question of commuting the death sentences might be considered.

**Shri H. V. Kamath:** Which Government, Sir, nominated the Indian Judge on the International Allied Military Tribunal? Was it this Dominion Government or the Interim Government or its predecessor Government?

**Dr. B. V. Keskar:** I do not understand the question, Sir. I do not think it is a question of domination by anybody.

**Shri H. V. Kamath:** My question was: which Government nominated, not dominated?

**Dr. B. V. Keskar:** You mean the Indian Judge. It is our Government.

**Shri H. V. Kamath:** Is it the Dominion Government or the Interim Government or the one before September, 1946?

**Dr. B. V. Keskar:** I would try and find out this information if the honourable member is very curious to know it.

**Shri H. V. Kamath:** Did the Government agree with the findings of our Judge to the effect that General Tojo and his associates were not guilty of the crimes alleged against them?

**Dr. B. V. Keskar:** This is an international Tribunal. While nominating a judge, it does not mean that we have got any authority to confer or to reject the findings, because it is beyond our scope and power.

**Shri Mihir Lal Chattopadhyay:** In view of the fact that India openly declared not to participate in this war in anyway either with men or money, why did the Government decide to send a judge to sit in the International Tribunal?

**Dr. B. V. Keskar:** The decision was taken long before and I do not think that by participating in this Tribunal, India was participating in the war.

**Shri R. K. Sidhva:** May I know if any reply has been received to the representation made by our Government in this connection to which a reference has been made by the Honourable Minister's predecessor?

**Dr. B. V. Keskar:** Out of those sentenced, I think an appeal in favour of General Tojo and others was taken into consideration, but not only the representation of our Government, but of other Governments were rejected.

**Shri H. V. Kamath:** Did Government suggest that the appeal might be heard by the Supreme Court of the United States?

**Dr. B. V. Keskar:** No, Sir. I do not know.

**Shri H. V. Kamath:** Did Government receive representations about this matter from individuals or representative organizations in India?

**Dr. B. V. Keskar:** I do not know, Sir.

**Shri H. V. Kamath:** Is the Deputy Minister aware, Sir, that some War criminals who atom-bombed Hiroshima and Nagasaki and some others who brought about the Bengal famine in India, have gone scot-free?

**Shri Deshbandhu Gupta:** Is it a fact that the findings of the Indian Judge were not given due publicity?

**Mr. Deputy Speaker:** Order, order.

#### WAINGANGA MULTI-PURPOSE PROJECT IN C. P.

**\*769. Shri H. V. Kamath:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) at what stage the Wainganga Multi-Purpose Project in the Central Provinces has arrived;

(b) how far it will promote rural as well as urban electrification;

(c) how much land it is expected to irrigate; and

(d) whether any representations or complaints have been received from any section of the people of the area affected against the execution of the Scheme?

**The Honourable Shri N. V. Gadgil:** The project is under the administrative control of the Government of Central Provinces, but the Government of India are giving all assistance through the Central Waterpower Irrigation and Navigation Commission.

(a) Preliminary investigations are in progress. Recently the Chairman of the Central Waterpower Irrigation and Navigation Commission has suggested an alternative site for the proposed Dam.

(b) If the Scheme materialises, it will provide cheap power both in rural and urban areas.

(c) Unless the preliminary investigations are completed, it is not possible to indicate the extent of the area which will be irrigated, but it may be upto one million acres.

(d) Yes, but as the site of the dam has not yet been finalised, the complaints are premature.

**Shri H. V. Kamath:** When the Honourable Minister visited Nagpur in December last, did he not receive any complaints from the local *malquzars* in this regard?

**The Honourable Shri N. V. Gadgil:** That is true, Sir.

**Shri H. V. Kamath:** What was the content of the complaints Sir?

## STATEMENT

Sums allotted during 1948-49 and proposed to be allotted during 1949-50, for (i) communications, (ii) hospitals, (iii) primary education, in Sadiya Frontier Tract

|                       | Communications   |                 | Hospitals       |                 | Education     |               |
|-----------------------|------------------|-----------------|-----------------|-----------------|---------------|---------------|
|                       | 1948-49          | 1949-50         | 1948-49         | 1949-50         | 1948-49       | 1949-50       |
| Sadiya Frontier Tract | Rs.<br>₹3,07,170 | Rs.<br>3,00,000 | Rs.<br>3,35,300 | Rs.<br>3,90,000 | Rs.<br>83,300 | Rs.<br>83,300 |

In addition to these there is a bulk provision of Rs. 6,59,640 for 1948-49, and a proposed provision of Rs. 12,56,000 for 1949-50 for the whole of the tribal areas for repairs to roads, for Engineering staff etc., a part of which is likely to be spent in the Sadiya Frontier Tract.

In addition to these there is a bulk provision of Rs. 2,40,800 for 1948-49 and a proposed provision of Rs. 2,40,600 for 1949-50 for the whole of the tribal areas and a part of these provisions will be spent on Sadiya Frontier Tract.

## STARRED QUESTIONS AND ANSWERS

**Srijut Kuladhar Chaliha:** May I know whether the Government is intending to establish high schools in the Lushai Hills and other places in Assam? Is the Government aware that the people there are going Communistic?

**Dr. B. V. Keskar:** I am not aware that these areas are going Communistic.

**Srijut Kuladhar Chaliha:** Are the Government aware that no schools have been established nor roads built in Naga Hills and the people there are very restless?

**Dr. B. V. Keskar:** This question does not arise out of this question, but I may inform the honourable member that the Government has a five year plan for the development of all these areas and this plan is going to be implemented immediately.

**Srijut Kuladhar Chaliha:** May I know whether the Government have received a scheme from the Government of Assam for the development of these tribal areas.

**Dr. B. V. Keskar:** There have been suggestions from the Government of Assam and they are being considered very carefully.

**Srijut Kuladhar Chaliha:** May I know whether any sums have been sanctioned by the Central Government for the development of these areas?

**Dr. B. V. Keskar:** Yes, Sir.

## GRANT OF IMPORT LICENCES IN DELHI AND AJMER-MERWARA

**\*772. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Commerce be pleased to state on what basis and principle import licences were granted by the local Governments of the Centrally Administered Chief Commissioner's Provinces of Delhi and Ajmer-Merwara?

(b) Was this done by the Provincial Governments on their own initiative or with the approval of the Government of India?

(c) Are Government aware that the policy of the Governments in these areas in giving import licences to selected individuals has caused resentment among the general public and the trading classes and if so, what steps do Government contemplate to take to avoid the recurrence of this?

**The Honourable Shri K. C. Neogy:** (a) to (c). I understand the honourable member desires information regarding movement of cloth to Centrally Administered Provinces. My honourable Colleague the Minister of Industry and Supply will answer this question in due course.

**Mr. Deputy Speaker:** If any honourable member wishes, he may put supplementary questions to Question 773.

## REFUGEES FROM EAST BENGAL

**\*773. Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state what is the amount of money that is being spent by the Government of India to feed and shelter refugees from East Bengal?

(b) What steps have been taken to implement the decisions reached at the Inter-Dominion Conference where the Government of Pakistan agreed to make conditions safe for the minorities in East Bengal?

(c) How many such refugees from East Bengal have gone back to their homes?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) Amount of money spent on feeding and accommodation separately is not available. A sum of Rs. 1 crore 22 lakhs and 65 thousands has, however, been spent on

**The Honourable Shri N. V. Gadgil:** The proposal is still under consideration; not shelved.

**Shri Deshbandhu Gupta:** With regard to the answer to part (d), may I know how long will it take the Government to take it in hand?

**The Honourable Shri N. V. Gadgil:** It all depends upon the financial position of the Government of India. It will cost 10.3 crores.

**Shri H. V. Kamath:** Has it been finally settled that Delhi shall be the capital of free India?

**The Honourable Shri N. V. Gadgil:** There is no question of settlement; it continues to be the capital.

**Shri M. Tirumala Rao:** Is the Honourable Minister aware of a statement made by responsible members of Government not excluding himself that there is a possibility of having a second capital somewhere in the centre of India? If so, will he review the position as to whether such a large amount of capital should be invested on Delhi for its expansion?

**The Honourable Shri N. V. Gadgil:** As regards the suggestion that I had something to say about this, I say it is not true. The view of the Government of India is that Delhi should continue to be the capital.

**Mr. Naziruddin Ahmad:** Will the Government consider the desirability of having a second summer capital for India in view of the extreme heat of Delhi?

**The Honourable Shri N. V. Gadgil:** There cannot be any summer capital, because, that plan has already been rejected by this House long long ago.

#### SUFFERINGS AND NEEDS OF EX-I.N.A. MEN IN SIAM, BURMA AND MALAYA

†\*776. **Prof. N. G. Ranga:** Will the Honourable the Prime Minister be pleased to state:

(a) whether Government are aware of the existence of large numbers of the I.N.A. ranks who had been moved from plantations into Siam, Burma and Malaya along the Death Railway Track for the work of the I.N.A.;

(b) whether Government have received any reports from their representatives in Malaya and Burma regarding their sufferings and needs;

(c) whether Sri Sivaraman of the Reuters, Bangkok, has made any oral or written report to Government about the need for relieving their distress;

(d) whether Government have received a memorandum from the Indian community in Bangkok about the sufferings of these ex-I.N.A. men; and

(e) whether Government propose to call for detailed reports about their conditions from India's Diplomatic Representatives in those places and take steps for giving them relief.

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) No. According to the information available, no I.N.A. personnel were drafted for work on the Moulmein-Bangkok Railway or moved along this Railway, as suggested by the honourable member, for work connected with the I.N.A.

(b) No.

(c) No.

(d) No.

(e) In view of the above answers, this does not appear necessary. As a matter of fact our representatives are instructed to keep in touch with the condition of the Indians abroad and to give all possible help.

† Answer to this question laid on the table, the questioner being absent.

A certain confusion seems to have arisen in the honourable member's mind between the members of the I.N.A. and the members of the Indian Independence League. The latter was a civilian body. The Japanese Occupation Authorities used forced labour on the construction of a railway between Moulmein and Bangkok. A large number of labourers worked under appalling conditions and died of disease and malnutrition. A considerable number of these labourers were Indians, with South Indians predominating. No I.N.A. personnel appears to have been included among these labourers. But many of the labourers may have been members of the Indian Independence League.

The question of affording relief to the dependents of Indian labourers drafted from Malaya, who died in the construction of the railway, had been engaging the attention of the Government of India since 1946. A sum of \$1,500,000 was set apart for their relief by the Malayan Government. Help from other funds also was given.

The Government of India had set up a scheme of repatriation and many Indians were repatriated to India by 1st March 1948 when the scheme was finally wound up. The Government of India also sanctioned schemes for distribution of cloth and cash for destitute Indians in Malaya. Two Medical Missions, one sponsored by the Government of India and the other by the Indian National Congress visited Malaya and did good work. Organisations like the Ramakrishna Mission have also done good work. Government gave a grant of \$10,000 to Ramakrishna Mission for this purpose in 1947 and have recently given another grant of Rs. 15,000 to the Mission for the construction of a dormitory at Singapore for orphans.

#### DEPOSITS BY NON-MUSLIM LESSEES IN SCHEDULED BANKS AGAINST WASTE LANDS IN WEST PUNJAB

\*777. **Sardar Hukam Singh:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether Government are aware that the non-Muslim lessees of waste lands in Western Punjab deposited large amounts of money as security in certain Scheduled Banks?

(b) Are Government aware that these lessees, now refugees in India, cannot withdraw these amounts, even though the lease periods expired before partition, as the Fixed Deposit Receipts stood in the name of the Collectors of the Districts?

(c) Has this question been taken up in any of the Inter-Dominion Conferences, and if so, with what result?

(d) If no agreement has so far been reached; do Government propose to take up this matter at the next conference?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) Government have no information.

(b) and (c). At the Inter-Dominion Conference held on the 14 December, 1948 it was decided that all moneys due to evacuees by Government or quasi-Government bodies should be paid by them direct to the evacuees concerned without the intervention of the Custodian of Evacuee Property. Pending amendment of the Evacuee Property Law, both Dominions have issued instructions to their Custodians for free movement of such moneys.

(d) Does not arise.

#### IMPORT OF BEER FROM NORWAY

\*778. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Commerce be pleased to state whether the Government of India propose to import beer from Norway?

(b) What is the quantity of beer proposed to be imported into India?

(c) What is the value of the beer to be imported?

(d) Is India importing beer on barter system or on cash payment?

**The Honourable Shri K. C. Neogy:** (a) Commercial imports of beer from Norway are permitted under the Open General Licence. No imports are contemplated on Government account.

(b) and (c). As beer is allowed importation under the Open General Licence from Norway, no estimate can be given as to the quantity and value of such imports that will be made from that country.

(d) Beer is not imported on a barter basis.

**Shri H. V. Kamath:** How many breweries are there in India and is their production not adequate to meet the needs of the country?

**The Honourable Shri K. C. Neogy:** I am afraid I am not aware of the number that my honourable friend requires; therefore, I am unable to answer that question.

**Shri H. V. Kamath:** What about the brewery at Solan?

**The Honourable Shri K. C. Neogy:** I do not know. My honourable friend may address that question to his colleagues who may have direct personal experience in these matters.

**Shri H. V. Kamath:** I have no such colleagues, Sir, that is why I have approached the Honourable Minister.

#### IMPORT OF NORWEGIAN APPLE JUICE

**\*779. Shri V. C. Kesava Rao:** Will the Honourable Minister of Commerce be pleased to state whether the Government of India have proposed to import Norwegian Apple Juice and if so, what quantity of it will be imported?

**The Honourable Shri K. C. Neogy:** The Government of India have no specific proposals to import apple juice from Norway. As, however, apple juice is allowed importation from all soft currency countries, they would have no objection to such imports being made on commercial account from that country.

**Shri H. V. Kamath:** Which countries export Apple juice at present?

**The Honourable Shri K. C. Neogy:** I am afraid I am not in a position to say that. The information is summarised under the head, Fruit juice. How much of that represents Apple juice, I am not in a position to state.

**Mr. Deputy Speaker:** The question hour is over.

#### (b) WRITTEN ANSWERS

##### MIGRATION OF ANGLO-INDIANS TO AUSTRALIA

**\*780. Shri Biswanath Das:** Will the Honourable the Prime Minister be pleased to state:

(a) the number of Anglo-Indians who migrated from India to Australia in the years 1947 and 1948 and the number that has been repatriated to India out of the said number; and

(b) the reasons for the migration as also for the repatriation?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) and (b). Government have no information on the subject they have asked their High Commissioner in Australia for particulars and as soon as these are received, they will be laid on the table of the House.

##### DIFFERENCE BETWEEN OLD AND NEW TYPES OF BUNGALOWS AND QUARTERS IN NEW DELHI

**\*781. Shri P. Kunhiraman:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that the bungalows

and quarters that are being constructed for officers, non-gazetted officers and clerks in New Delhi are of a quality inferior to the existing bungalows and quarters?

(b) What is the difference between the old and new types in respect of accommodation and convenience?

(c) Is it proposed to charge the same rents for both these types?

**The Honourable Shri N. V. Gadgil:** (a) and (b). No bungalows are being constructed by Government. The additional accommodation required for officers and clerks in New Delhi is being constructed in flats according to the austerity standards which differ from existing buildings in the following respects:

(i) The new buildings are double-storeyed while the old ones are single-storeyed.

(ii) The new ones provide less accommodation than the corresponding category of old ones.

(iii) There are only two types of accommodation, one for officers and one for clerks, in the new buildings while in the old ones there are several types.

(c) Rent will be charged according to the existing rules, namely ten per cent. of pay of officers and clerks or the standard rent based on capital cost of construction, etc. whichever is less. The question of pooling rents of quarters is under consideration of the Government of India.

#### IMPORT OF MEDICINES

**\*782. Shri B. N. Munavalli:** (a) Will the Honourable Minister of Commerce be pleased to state whether medicines were imported from soft currency areas in the year 1948?

(b) If so, what is the total value of such imported medicines in 1948?

(c) Are the imported medicines such as are not available in India?

**The Honourable Shri K. C. Neogy:** (a) and (b). A statement giving the required information is placed on the table of the House.

(c) Imports from hard currency and dollar countries are restricted to such pharmaceuticals and preparations as are not available from soft currency areas or such as cannot be manufactured in this country. Imports from soft currency areas are allowed under Open General Licence.

#### STATEMENT

Value of Drugs and Medicines imported from Soft and Sterling countries during the year 1948.

| Month           | Value<br>Rs. |
|-----------------|--------------|
| January, 1948   | 23,71,188    |
| February, 1948  | 44,56,039    |
| March, 1948     | 20,97,740    |
| April, 1948     | 8,68,752     |
| May, 1948       | 10,62,870    |
| June, 1948      | 25,71,916    |
| July, 1948      | 23,75,000    |
| August, 1948    | 41,27,000    |
| September, 1948 | 28,23,000    |
| October, 1948   | 56,99,000    |
| November, 1948  | 43,40,945    |
| December, 1948  | 36,50,406    |
| Grand Total     | 3,64,43,856  |

+ Note.—The imports for the months of November and December 1948 do not include the imports into the Province of Bengal as the relevant figures have not yet been received from the Collector of Customs, Calcutta.

1134 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [1st MARCH 1949]

refugees from East Bengal upto end of December, 1948 by the Government of India and Provincial Government. This includes a sum of Rs. 19 lakhs and 26 thousands for loans.

(b) Government of India have not yet received exact information about the action taken by the East Bengal Government but several leaders in East Bengal have since the conference held at Delhi in December, 1948, made public declarations stressing the right of members of the minority community to have their grievances redressed by Government, and promising them equal rights, opportunities, privileges and obligations with the members of the majority community. The Governor General of Pakistan has also recently assured a deputation of the minority community that henceforth they will have a fair representation in recruitment to Government services. The Government of East Bengal are reported to have set up Provincial and District Minority Board in their Province. That Government are also reported to have drafted an Ordinance for the setting up of Evacuee Property Management Boards and it is expected to be promulgated soon.

(c) The number is not available.

**Sardar Bhopinder Singh Man:** Are the Government quite satisfied that the conditions prevailing now in Pakistan are safe for the minorities to live there?

**The Honourable Shri Satyanarayan Sinha:** Not quite satisfactory; but I think it is for the refugees to decide. So far as the Government is concerned, from the reports which are available and from the assurances given by the Government of Pakistan, I think the situation is tolerably better.

**Shri H. V. Kamath:** During the last eighteen months or more since the 15th August 1947, how many assurances have been given by the Government of Pakistan and how many have been broken?

**The Honourable Shri Satyanarayan Sinha:** It cannot be enumerated.

**Shri H. V. Kamath:** Are they innumerable? Are the assurances innumerable or are the breaches innumerable?

**The Honourable Shri Satyanarayan Sinha:** Both.

#### PRODUCTION OF ELECTRIC ENERGY AND SUPPLY TO RURAL AREAS

\*774. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what is the total electric energy produced in India and what percentage of it is being consumed by the urban population and what percentage by the rural population?

(b) What has been done or is being done by the Central Government to patronize production and distribution of electric energy for the benefit of the rural population of India?

(c) Have the Government of India prepared any scheme or do they intend to do so in future for making electric energy available for rural areas in the Centrally Administered Provinces of Delhi and Ajmer-Merwara?

**The Honourable Shri N. V. Gadgil:** (a) The total electric energy produced in the year 1947 (upto which detailed statistics are now available) was 4073.3 million kilowatt hours. Of this the percentage consumed by the urban population was about 95 per cent. and that consumed by rural population about five per cent.

(b) Electricity being a Provincial subject for purposes of development it is the function of the Provincial Governments to promote and foster schemes for rural electrification. The Central Government have, however, passed the necessary legislation to enable the Provinces to set up Provincial Electricity Boards to whom the task of electrical development, particularly in the backward

areas, is to be entrusted. We have reasons to believe that several Provincial Governments have already initiated investigations on rural electrification in their respective Provinces. The Government of India will naturally do everything in its power to aid the Provincial Governments for the completion of such schemes by giving them assistance in the matter of investigation, procurement of plant, etc. In fact, the Central Government have already prepared Rural Electrification Schemes for Assam and the Central Provinces.

(c) There is no scheme yet for the rural electrification of the areas around Delhi or Ajmer-Merwara.

**Pandit Mukut Bihari Lal Bhargava:** May I know, is there a proposal for the establishment of a provincial electricity Board in Delhi and Ajmer-Merwara?

**The Honourable Shri N. V. Gadgil:** Yes, obviously under the provisions of the Electricity Act which has been recently passed.

**Shri Deshbandhu Gupta:** Do the Government propose to make any arrangement to supply electric energy to the rural areas?

**The Honourable Shri N. V. Gadgil:** It is for the new Board that will come into existence to decide.

#### DEVELOPMENT PLAN FOR DELHI

\*775. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether the Government of India have prepared any plan for the development of New Delhi?

(b) If so, what are its details and what capital investment is likely to be made thereon?

(c) Is there any scheme for building a Diplomats' Colony in New Delhi and if so, at which site and what is the estimated investment on such a scheme?

(d) Has any scheme been prepared by the Government of India to construct underground railway lines round Old and New Delhi and if so, has any scheme been prepared therefor? What is the estimated cost for the same and is it proposed to electrify it.

**The Honourable Shri N. V. Gadgil:** (a) Yes. A tentative plan for development of Greater Delhi has been prepared showing diagrammatically the nature of development around the present built up areas.

(b) No details of the cost have been worked out for the items of work involved as the plan is to serve the purpose of a guide map for all future developments as and when necessary.

(c) Yes. It is proposed to develop an area of 1,600 acres between the Kitchener Road and Willingdon Aerodrome towards the South-West of New Delhi. A portion of this area would be set apart as a Diplomatic Colony. This area will consist of 100 plots of 2 acres each. Its development is estimated to cost Rs. 62,72,000 which also includes the cost of roads connecting the entire area with New Delhi.

(d) A scheme for improving the communications of Delhi by the installation of Electric Circular Railway has been considered by Central Co-ordination Committee for the development of New Delhi and is under Consideration. The scheme is roughly estimated at Rs. 10.3 crores and comprises 36 miles of surface track and 2½ miles of underground track. The Railway is proposed to be run by electricity.

**Shri H. V. Kamath:** Is it a fact that the proposal to build additional residential quarters for members of the future Indian Parliament, has been shelved?

*List of drugs and medicines usually imported*

- (1) Aloes.
- (2) Asafoetida.
- (3) Camphor.
- (4) Cocaine.
- (5) Cod Liver Oil.
- (6) Morphia.
- (7) Preparation of Opium and Morphia.
- (8) Proprietary and Patent Medicines.
- (9) Quinine.
- (10) Quinine Hydrochloride.
- (11) Quinine Salts other sorts.
- (12) Sarasparilla and preparations thereof.
- (13) Storax (including liquid Storax Rose Melloes).
- (14) Other sorts of Drugs and Medicines.

## ENQUIRY INTO MANPOWER SURPLUSES AND SHORTAGES CONDUCTED BY I.L.O.

**\*783. Shri B. N. Munavalli:** (a) Will the Honourable Minister of Labour be pleased to state whether it is a fact that the enquiry into manpower surpluses and shortages that are being conducted in Europe by the International Labour Office are extended to Asian Countries as well?

(b) Has India been asked to furnish statistical information about its surplus manpower available for emigration?

(c) If so, what is the number of such surplus manpower?

(d) What are the facilities and conditions offered by the International Labour Organisation for such emigrants?

**The Honourable Shri Jagjivan Ram:** (a) Yes.

(b) Yes.

(c) The information is being collected.

(d) The information is not available so far.

## NON-IMPLEMENTATION OF CONCILIATION BOARD'S AWARD IN COLLIERIES

**\*784. Shri R. L. Malviya:** (a) Will the Honourable Minister of Labour be pleased to state whether it is a fact that the award of the Board of Conciliation has not been implemented in many of the collieries even now?

(b) If not, what are those colliery areas and what steps do Government propose to take in the matter and what are the steps which have already been taken?

**The Honourable Shri Jagjivan Ram:** (a) and (b). The Board of Conciliation (Colliery Dispute), Bihar and Bengal, on which employees and workers were represented made certain unanimous recommendations. The industry accepted these recommendations and the leading Coal Mining Associations, namely the Indian Mining Association, Indian Mining Federation and the Indian Colliery Owners' Association, have issued detailed instructions to their member collieries for giving effect to them. Government have reason to believe that almost all the collieries have implemented the recommendations as complaints about non-implementation have been very few. The Regional Labour Commissioner, Dhanbad and his staff devote special attention to this matter and all complaints of non-implementation are investigated by them and steps are taken to rectify them.

## CONSTRUCTION OF HOUSES FOR MINERS

**\*785. Shri R. L. Malviya:** (a) Will the Honourable Minister of Labour be pleased to state what progress has so far been made in the construction of houses for miners?

(b) In which coal-fields has the construction of houses been started and how many houses have been completed?

(c) What was the target fixed by Government for the year 1948-49 and has the same been reached?

(d) How many houses do Government propose to construct for miners during the year 1949-50 and in what coalfields?

**The Honourable Shri Jagjivan Ram:** (a) and (b). 48 quarters at Bijoy nagar in Bengal coalfields and 50 at Bhuli in Bihar coalfields have been constructed. Besides 750 quarters at Bhuli are nearing completion.

(c) No target was fixed for the year 1948-49.

(d) For the present it is proposed to construct 1,000 quarters at Bhuli in the Jharia coalfield during 1949-50. Land required for a township at Datla in the Central Provinces coalfields is being acquired.

## BONUS SCHEME FOR MINERS

**\*786. Shri R. L. Malviya:** Will the Honourable Minister of Labour be pleased to state what percentage of the miners has received the benefit of the bonus scheme in the quarters the bonus has been paid to them?

**The Honourable Shri Jagjivan Ram:** The percentage of workers in the Central Provinces and Berar and Orissa Coalfields, who received bonus during the year 1948, varied from 40.3 per cent. to 54.47 per cent. on an average.

In respect of the Bihar, Bengal and Assam Coalfields, it has not yet been possible to consolidate the information for the year 1948. But during the bonus period of the 12th May 1947 to 31st December 1947 in the year 1947 about 24 per cent. of the workers on an average received bonus in the coalfields of Bengal and Bihar.

## CONSTRUCTION OF CENTRAL HOSPITALS AT RANIGUNJ AND C.P. COAL FIELDS

**\*787. Shri R. L. Malviya:** (a) Will the Honourable Minister of Labour be pleased to state what progress has been made with regard to the construction of central hospitals at Raniganj and the Central Provinces Coal fields?

(b) Do Government propose to construct a central hospital in the coal fields of Korea State (Central Provinces)?

**The Honourable Shri Jagjivan Ram:** (a) Government had proposed to construct a Central Hospital at Asansol for the Raniganj coalfields and a regional hospital at Datla for the Central Provinces coalfields. The question of selecting a site for the Asansol hospital is going on. The site for the Central Provinces hospital has been fixed and land is being acquired. The schemes have however, been kept in abeyance as an anti-inflationary measure for the present.

(b) Government have no proposal to construct a central hospital in the coal-fields of Korea State at present.

## COLLIERY AREAS NOT UNDER MINES BOARD OF HEALTH

**\*788. Shri R. L. Malviya:** (a) Will the Honourable Minister of Labour be pleased to state whether there is any colliery area in India which is not under the Mines Board of Health?

(b) If so, what steps do government propose to take to bring these areas also under the Mines Board of Health?

**The Honourable Shri Jagjivan Ram:** (a) Information is being collected and will be laid down on the table of the House.

(b) Certain Provincial Governments have constituted Mines Boards of Health under local enactment and it will be for them to take steps, legislative or otherwise, to bring any colliery area under the control of such Boards. After full information is received, Provincial Governments concerned will be requested to bring such colliery areas as are not under some Mines Board of Health to bring them under some existing Board or constitute new Boards as the case may be.

#### COLLISION OF S.S. "JAL JAWAHAR" WITH A DUTCH STEAMER

\*789. **Shri H. V. Kamath:** Will the Honourable Minister of Commerce be pleased to state:

(a) whether it is a fact that the S.S. "Jal Jawahar" collided with a Dutch steamer recently at Port Said;

(b) if so, the date and cause of the accident; and

(c) the extent of damage, if any?

**The Honourable Shri K. C. Neogy:** (a) and (b). Government understand that on the 8th February 1949, a Swedish vessel became temporarily unmanageable during equally weather whilst entering the Suez Canal and collided with the "Jal Jawahar."

(c) It is reported that minor damage was occasioned to soft nose, stern plate and structure port side well above water line.

#### GAZETTED AND NON-GAZETTED STAFF IN MINISTRY OF COMMERCE

\*790. **Prof. Yashwant Rai:** Will the Honourable Minister of Commerce be pleased to state:

(i) the number of Gazetted officers;

(ii) the number of superintendents;

(iii) the number of Assistants; and

(iv) the number of clerks and stenographers in the Ministry of Commerce?

**The Honourable Shri K. C. Neogy:** (i) 37.

(ii) 16 (including one non-gazetted)

(iii) 149.

(iv) 188.

#### INDIAN SCHOOL OF MINES, DHANBAD

\*791. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state the number of students who received education in the Indian School of Mines, Dhanbad, during the years 1947-48 and 1948-49?

(b) How many students have, since the establishment of the School, completed their studies?

(c) What is the recurring and non-recurring expenditure on this School from its inception up-to-date for each year?

(d) What is the annual income of this school for the same period?

**The Honourable Shri N. V. Gadgil:** (a) The information is as follows:

(i) During 1947-48 ... 121 students

(ii) During 1948-49 ... 143 students

(b) 372 students

(c) and (d). A statement giving the information is laid on the table.

#### Expenditure on construction and maintenance of School buildings

| Year    | Maintenance (recurring) | Construction (Non-recurring) |
|---------|-------------------------|------------------------------|
|         | Rs.                     | Rs.                          |
| 1926-39 | 6,050                   | 11,54,224                    |
| 1938-39 | 4,633                   | ..                           |
| 1939-40 | 13,223                  | 1,29,826                     |
| 1945-46 | 23,160                  | 51,269                       |
| 1946-47 | 34,291                  | 1,53,958                     |
| 1947-48 | 34,540                  | 1,41,557                     |
| 1948-49 | ..                      | ..                           |

As regards information which is wanting in the above statement steps are being taken to collect it and, if available, will be added later.

#### EXPORT OF GROUNDNUTS

\*792. **Babu Ramnarayan Singh:** Will the Honourable Minister of Commerce be pleased to state:

(a) the number of ground-nut exporters or shippers;

(b) the rules regulating the enlistment of ground-nut exporters or shippers; and

(c) whether it is the policy of Government to encourage producers' organisations to work as exporters of their own produce of groundnut?

**The Honourable Shri K. C. Neogy:** (a) 71 established shippers and 100 newcomers have been granted licences against 1948 allocations.

(b) Those who exported groundnuts during the period, January 1, 1947 to September 30, 1948 are classified as established shippers and 90 per cent. of the available quota is distributed among them broadly in proportion to their shipments to different destinations in the said period. Applications from those who are not established shippers are considered on merits for the remaining 10 per cent. which is earmarked for newcomers.

(c) Yes.

#### EXPORT AND IMPORT OF COTTON TEXTILES

**\*798. Shri Basanta Kumar Das:** Will the Honourable Minister of Commerce be pleased to state:

(a) the quantity of cotton textiles licensed for import during the year 1948 and the quantities exported to different countries during the same year;

(b) the total quantity exported to the hard-currency areas;

(c) the effect of reduction of export duty from 25 per cent. *ad valorem* to 10 per cent.,

(d) whether any difficulty has been felt to compete in the hard-currency markets by not abolishing the export duty;

(e) by what per cent. the export control prices are higher than the internal control prices; and

(f) what are the reasons of the rise of the internal control prices and what is the extent of the rise?

**The Honourable Shri K. C. Neogy:** (a) The information regarding the quantity licensed for import during 1948 is not available as cotton textiles are cleared through Customs on the basis of value. The total value of the cotton piecegoods and yarn so licensed is Rs. 21,36,15,966. A statement (No. I) showing the quantities of cotton piecegoods and yarn exported to different countries during the year 1948 is laid on the table of the House. The information regarding the value of exports is being collected and will be laid on the table as soon as possible.

(b) 67 Tons.

(c) The reduction of export duty has resulted in some improvement in the utilization of quotas and at the end of 1948 the quotas utilized were 43 per cent. of the total quotas issued for export, as against 20 per cent. before the reduction.

(d) Yes.

(e) Control on prices of cloth for export exists only in respect of Australia, British, East Africa and Sudan. In these cases the controlled export price is nine per cent. higher than the ex-mill price if the exporter is himself a manufacturer and seventeen per cent. in other cases.

(f) The main reason for increase in the prices is the rise in the prices of cotton; other reasons being increase in the wages and prices of mill stores etc. A comparative statement (No. II) showing the retail prices during the previous control period, the decontrol period and the prices now in force is laid on the table of the House.

#### STATEMENT I

*Actual exports of cotton piecegoods and yarn during 1948*

(Figures in tons)

| Country                                    | Cotton piecegoods | Cotton Twist and Yarn |

\* Hard Currency Area. † This includes a quantity of 10,200 tons of handloom cloth exported to the various countries during the free concession from 23rd April 1948 to 31st July 1948. ‡ For the period January-October 1948.

(iii) *Chief Inspector of Mines in India*.—The Chief Inspector of Mines is the principal officer responsible for the enforcement of the Indian Mines Act, 1923, and the Regulations and Rules framed thereunder. He, assisted by Inspectors under him, inspects mines and conducts enquiries into accidents. He is a member of several Boards and Committees connected with the mining industry, such as the Coal Mines Stowing Board, Advisory Council of School of Mines, Executive Committee of School of Mines (Chairman), Coal Mines Labour Welfare Fund, etc., and of the Mining Boards under the Bihar and West Bengal Governments. Besides, being head of the Mines Department, he is responsible for work connected with Competency Certificate examinations, award of certificates, etc.

(iv) *Mica Mines Welfare Commissioner*.—The Welfare Commissioner for Mica Mines is the principal officer appointed by the Central Government to administer, supervise and carry out activities in the Bihar mica fields financed from the Mica Mines Labour Welfare Fund which has been created under the Mica Mines Labour Welfare Fund Act, 1946.

(v) *Coal Mines Welfare Commissioner*.—The Coal Mines Labour Welfare Commissioner is the principal officer appointed by the Central Government to supervise and carry out various welfare measures including the building of miners' houses financed from the Coal Mines Labour Welfare Fund created under the Coal Mines Labour Welfare Fund Act, 1947.

#### IMPLEMENTATION OF PROVISIONS OF EMPLOYEES STATE INSURANCE ACT

47. **Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Labour be pleased to state what are the various Social Security Measures that have been effected by Government after legislation for the same was passed?

(b) Who is the head of the employees State Insurance Corporation?

(c) What are his special qualifications for the post?

**The Honourable Shri Jagjivan Ram:** (a) (i) The administrative provisions of the Employees' State Insurance Act, 1948, namely, chapters I, II, III and VIII were brought into force with effect from the 1st September 1948.

(ii) The Employees' State Insurance Corporation, the Standing Committee and the Medical Benefit Council provided for in sections 4, 8 and 10 respectively of the Act have been set up.

(iii) The Director General has been appointed. Steps to recruit other principal officers and the staff are being taken.

(iv) The rules which had to be framed by the Central Government under section 95 of the Act were published for criticism and are expected to be issued shortly.

(v) Regulations under section 97 of the Act are being drafted by the Corporation.

(vi) The concentration of workers to whom the Act will apply in the first instance, the medical facilities available near those concentrations at present and the extent to which these facilities will have to be expanded or extended under the Act are being surveyed by the Provincial Governments with a view to selecting suitable sites for the dispensaries and hospitals to be set up by the Provincial Governments and for the offices which the Corporation will have to establish.

(vii) As the introduction of the Scheme in the whole of the country may take some time it is intended to start the scheme in the centrally administered areas of Delhi and Ajmer-Merwara at an early date so that it may serve as a Pilot Scheme.

(b) Dr. C. L. Katial has been appointed as Director-General of the Employees' State Insurance Corporation under Section 16 of the Act.

(c) (i) Dr. C. L. Katial got his Honours M.B.B.S. degree from the Punjab University standing first in Medicine in the University in 1922. He is also D.T.M. (Liverpool) and L.M. (Dublin). He was practising in England for the past 20 years. He was a member of the War Medical Committee, a fellow of the Royal Society of Tropical Medicine and the Examining Surgeon of the City of London in respect of provisions of the Factories Act and the Workmen's Compensation Act.

(ii) Dr. Katial was closely associated with the various social security measures in the United Kingdom for a long time having held the following offices:

1. Chairman of the Medical Board, Ministry of Pensions, London.
2. Member of the London Panel Committee for National Health Insurance.
3. Honorary Member of the London Insurance Institute.
4. Chairman of the Public Health and Maternity and Child Welfare, Housing and Assessment Committees of the Finsbury Borough Council. As Chairman of the Housing Committee he was responsible for carrying through an extensive housing scheme costing a million pounds.

(iii) In addition, Dr. Katial took an active part in the public life in England. He was the Mayor of Finsbury in 1938-39 and was a Justice of the Peace, the Land and Tax Commissioner for the County of Middlesex, appointed by the British Parliament, a Member of the London County Council and of the Metropolitan Water Board of London and Chairman of the Food Control Committee of Finsbury.

#### CAPACITY IN KILOWATTS OF HYDRO-ELECTRIC WORKS

48. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what is the present installed capacity in kilowatts of hydro-electric works in India, and how does this compare with other advanced countries?

(b) What is the *per capita* consumption of electricity in India and how does this *per capita* consumption compare with the consumption in other advanced countries like the U.S.A., U.S.S.R. and Switzerland?

(c) What are the resources of India as compared to water resources of other advanced countries like the U.S.A. and U.S.S.R.?

(d) What is the estimated capacity of the major hydro-electric projects now actually under execution or in advanced stage of planning and what are the major projects of this character in the hands of the Government of India?

(e) What time in aggregate such main projects are likely to take and what are the estimated cost of expenditure thereon? By which time are they likely to be completed?

**The Honourable Shri N. V. Gadgil:** (a) to (c) A statement (No. I) giving the required information is laid on the table. The information is only approximate, based on rough estimates readily available in the Secretariat.

(d) and (e). A statement (No. II) showing approximate readily available information is placed on the table. Only the Hirakud Dam Project is being executed under the direct supervision of the Government of India.

STATEMENT I

| Name of country | Hydro-electric potential (in million KW) | Installed capacity (in million KW) | Per capita consumption units (Kwh) |
|-----------------|------------------------------------------|------------------------------------|------------------------------------|
| U. S. S. R.     | 100                                      | 22.4                               | 2,150                              |
| U. S. A.        | 45                                       | 14.9                               | 1,775                              |
| Canada          | 38                                       | 7.7                                | 3,580                              |
| France          | 9                                        | 3.7                                | 612                                |
| Germany         | 6                                        | 3.2                                | 300                                |
| Switzerland     | 4.5                                      | 2.6                                | 1,717                              |
| Sweden          | 7.5                                      | 2.6                                | 1,743                              |
| Norway          | 4.5                                      | 2.4                                | 3,579                              |
| India           | 30-40                                    | 0.5                                | 12                                 |
| U. K.           | 1.5                                      | 0.5                                | 835                                |

| Name of the Project                         | Approximate cost in lakhs of Rs. | Probable date of completion | Installed capacity (K.W.)        |
|---------------------------------------------|----------------------------------|-----------------------------|----------------------------------|
| (1) Bhakra Dam Project (East Punjab)        | 9,400                            | 1956                        | 4,00,000                         |
| (2) Hirakud Dam Project (Orissa)            | 4,781                            | 1956                        | 3,21,000                         |
| (3) Damodar Project (Bihar and West Bengal) | 5,500                            | 1954                        | 3,50,000                         |
| (4) Tungabhadra Project (Madras)            | 1,700                            | 1953                        | 7,000 firm<br>(14,000 seasonal)  |
| (5) Machkund (Madras)                       | 1,563                            | 1952                        | 51,000                           |
| (6) Rihand Project (U.P.)                   | 2,625                            | 1957                        | 2,30,000                         |
| (7) Yamuna Project (U.P.)                   | Stage I: 798                     | 1954                        | 22,560 firm<br>(28,360 seasonal) |
| (8) Sarda Project (U.P.)                    | 697                              | 1954                        | 41,400                           |
| (9) Jog Extension (Mysore)                  | 500                              | 1950                        | 72,000                           |
| TOTAL                                       |                                  |                             | 1,494,960                        |

*Note.*—Apart from the projects listed above, there are under execution a number of smaller projects, new and extensions. Also a number of other major projects are under investigations which have not yet reached an advanced stage.

#### MINERAL DEPOSITS IN SINGHBHUM DISTRICT, BIHAR

**49. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what are the mineral deposits in Singbhum District now in Bihar?

(b) How many of them are now worked and how long will they last?

(c) What are the new mines to be worked out yet?

**The Honourable Shri N. V. Gadgil:** (a) A list of the minerals known to occur in the Singbhum district is laid on the table.

(b) The minerals at present being worked in the district are Slate stone, Limestone, Chromite, China clay, Copper, Gravel and other stones, Iron ore, Manganese, and Steatite. The deposits of these minerals, are likely to last for several years more, at the present rate of consumption.

(c) Roughly speaking, the answer to this part of the question can be obtained by deducting the minerals listed in (b) above from those listed in (a) above. But whether it would be worth while mining them would depend on the demand, the cost of production and other variable factors. For further information the following publications may be consulted:

(i) Memoirs, G.S.I., Vol. LXIX, Pt. I (Mineral Deposits of Eastern Singbhum and surrounding areas).

(ii) Memoirs, G.S.I. Vol. LXXVIII (The Economic Geology and Mineral Resources of Bihar Province).

#### STATEMENT

*List of minerals which are known to occur in the Singbhum District*

- (1) Abrasives—
  - (i) Garnet.
  - (ii) Chert.
- (2) Apatite.
- (3) Asbestos.
- (4) Barytes.

(5) Building materials—

- (i) Stone.
- (ii) Slate.
- (iii) Ballast.

(6) Chromite.

(7) China clay.

(8) Copper.

(9) Gold.

(10) Iron ore, vanadium bearing iron ore.

(11) Kyanite.

(12) Lead-Silver.

(13) Manganese.

(14) Mica.

(14A) Limestone.

(15) Mineral Fertilisers—

- (i) Potash Felspar.
- (ii) Apatite (*vide item No. 2*).

(16) Mineral Pigments.

(17) Refractory materials—

- (i) Chromite (*vide item No. 6*).
- (ii) Dolomite.
- (iii) Kyanite (*vide item No. 11*).
- (iv) Magnesite.
- (v) Quartz Schist.
- (vi) Steatite.
- (vii) Potstone.

(18) Vanadium.

(19) Occurrences of little or no importance—

- (i) Monazite.
- (ii) Topaz.
- (iii) Torbernite.
- (iv) Corundum.
- (v) Titanium.
- (vi) Wolfram.

#### MINERAL DEPOSITS OF GANGPUR STATE (ORISSA)

**50. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what are the mineral deposits of Gangpur State (Orissa)?

(b) How many of them are being worked now?

(c) When will the others be worked and what are they?

**The Honourable Shri N. V. Gadgil:** (a) A list of the mineral occurrences of the State is placed on the table.

(b) Deposits of limestone and dolomite only have been worked during recent years.

(c) Deposits other than limestone and dolomite are not being worked at present. It is not possible to say definitely when they will be worked. It is open to any private party who is able to obtain a mining lease to work any of the deposits at any time.

**The Honourable Dr. B. R. Ambedkar:** (i) 19, (ii) 6, (iii) 30, (iv) 50.

### SHORT NOTICE QUESTION AND ANSWER.

#### GRIEVANCES OF G. I. P. GUARDS.

**Shri B. N. Munavalli:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the Guards in the Great Indian Peninsular Railway had represented their grievances to the Railway authorities and to the Government of India?

(b) Are their grievances genuine?

(c) If so, why are their genuine grievances not redressed?

(d) Is it a fact that the guards have started fast since the morning of the 23rd February, 1949.

(e) What steps do Government intend to take to stop the fasting of these guards?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Some Guards of the G.I.P. Railway sent a representation direct to the Government of India a month ago.

(b) and (c). The representation is under consideration by the G.I.P. Railway Administration.

(d) Yes.

(e) Some of the Guards terminated their fast on the 25th February, 1949 that is two days after they commenced it and the others followed suit on the 27th February.

**Shri Harihar Nath Shastri:** Are the Government aware that the running allowances of guards have, according to the new calculations made by the Railway Board been considerably curtailed on all the railways?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not think they have been curtailed but hardships in certain individual cases have been reported, and it is a fact that the scales sanctioned for guards have not been as liberal as in the case of other running staff.

**Mr. Frank Anthony:** What were the main grievances set out in this representation?

**The Honourable Shri N. Gopalaswami Ayyangar:** There was a printed memorandum which was received by the Government. The grievances mentioned are the following:

- (i) Free supply of uniforms.
- (ii) Continuance of good conduct allowance.
- (iii) Payment of due wages with arrears due to suburban guards.
- (iv) Adjustment of seniority of guards on various anomalies based on the C.P.C. report.
- (v) Enforcement of undue mass transfers of V. T. suburban guards.
- (vi) Non-payment of due annual increments to staff over due; and
- (vii) Fixation of pay of staff on the prescribed scale.

**Shri R. K. Sidhva:** Is not it a fact that some of the individuals who were drawing a particular salary previously, are now drawing less under the new scale?

**The Honourable Shri N. Gopalaswami Ayyangar:** I cannot give an answer straightaway. But if there are any such cases, they will be looked into, because the general principle that we are following is that no guard should get, under the new arrangements, anything less than what he was getting previously.

**Shri B. N. Munavalli:** May I know when the good conduct allowance was stopped and why?

**The Honourable Shri N. Gopalaswami Ayyangar:** They are all included in the new allowances.

**Shri Harihar Nath Shastri:** In view of the reply that has just been given by the Honourable Minister that according to the new grades the position of the guards is not so liberal as in other cases, do the Government propose to re-examine the question?

**The Honourable Shri N. Gopalaswami Ayyangar:** We will look into the matter.

**Shri Kishorimohan Tripathi:** Have Government examined the grievances in the memorial? Which of them have they found genuine and what steps are Government taking to redress these grievances?

**The Honourable Shri N. Gopalaswami Ayyangar:** They are all under the consideration of the G.I.P. Railway administration. When anything requires the orders of the Government of India, they will be referred to us and we will consider them.

## STATEMENT

*List of mineral occurrences of Gangpur State (Orissa)*

- (1) Limestone and Dolomite
- (2) Managanese Ore.
- (3) Coal.
- (4) Gold.
- (5) Lead ore.
- (6) Pyrites.
- (7) Diamonds.
- (8) Kyanite.
- (9) Sillimanite.
- (10) Fireclay.
- (11) Kaolin and white clay.
- (12) Black Carbonaceous Phyllite.
- (13) Barytes.
- (14) Red Ochre (Red iron oxide).
- (15) Soapstone.
- (16) Iron stone (Limonite).
- (17) Quartz and Quartz sand.
- (18) Felspar.
- (19) Muscovite.
- (20) Building stones.

## COPPER MINES IN DHALBHUM

51. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state how much copper has so far been extracted out of the mines in Dhalbhum?

(b) Who works the Galudi copper mines?

(c) How much of the copper so obtained has been used in India and how much was exported?

(d) How much copper still remains to be taken out?

**The Honourable Shri N. V. Gadgil:** (a) About 110,000 tons of copper metal..

(b) Presumably the honourable member is referring to the Mosaboni Mines, near Ghatsila. The Indian Copper Corporation has been working this mine since 1924.

(c) Practically the whole amount has been consumed by India.

(d) It is not possible to say. The Indian Copper Corporation is said to have proved reserves of about two million tons of copper ore.

## MINERAL RESOURCES OF MAYURBHANJ STATE (ORISSA)

52. **Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what are the mineral resources of Mayurbhanj State (Orissa)?

(b) How far have they been exploited?

(c) What are the conditions for working the Gorumohisinc Iron Ores?

**The Honourable Shri N. V. Gadgil:** (a) and (b): A list showing the mineral occurrences of the State, and the deposits which are being worked, is placed on the table.

(c) The iron ore deposits at Gorumohisinc are being worked under lease by the Tata Iron and Steel Co., Ltd. Jamshedpur. The terms on which the lease was granted are not known to the Government of India.

## STATEMENT

*List showing the mineral occurrences of the Mayurbhanj State*

- (1) Lead Ore.
- (2) Iron Ore.
- (3) Vanadium bearing Magnetite.
- (4) Kyanite and Dimorphite.
- (5) Asbestos.
- (6) Glass Sand.
- (7) White clay.
- (8) Building materials.
- (9) Gold.
- (10) Red Oxide.
- (11) Silica Sand.
- (12) Ochre.
- (13) Soapstone.

*List showing the deposits which are being worked in the Mayurbhanj State*

- (1) Iron Ore.
- (2) China clay.
- (3) Red Oxide.
- (4) Kyanite.
- (5) Silica Sand.
- (6) Asbestos.
- (7) Ochre.
- (8) Soapstone.

53. [WITHDRAWN.]

## GAZETTED AND NON-GAZETTED STAFF IN MINISTRY OF LABOUR

54. **Prof. Yashwant Rai:** Will the Honourable Minister of Labour be pleased to state:

- (i) the number of Gazetted officers in his Ministry;
- (ii) the number of Superintendents;
- (iii) the number of Assistants; and
- (iv) the number of senior grade and junior grade clerks and stenographers?

**The Honourable Shri Jagjivan Ram:** So far as the main Secretariat of the Ministry of Labour is concerned, the figures are:

- (i) 18.
- (ii) 6.
- (iii) 41.
- (iv) There are no senior grade clerks in the main Secretariat. The number of junior grade Clerks and Stenographers is 45 and 12 respectively.

Information in respect of the attached and subordinate offices is being collected ...and will be laid on the table of the House in due course.

## GAZETTED AND NON-GAZETTED STAFF IN MINISTRY OF LAW

55. **Prof. Yashwant Rai:** Will the Honourable Minister of law be pleased to state:

- (i) the number of Gazetted officers in his Ministry;
- (ii) the number of Superintendents;
- (iii) the number of Assistants; and
- (iv) the number of senior grade and junior grade clerks and stenographers?

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

(PART I—QUESTIONS AND ANSWERS)

Thursday, 3rd March, 1949

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock Mr. Deputy Speaker (Shri M. Ananthasayanam Ayyangar) in the Chair.

STARRED QUESTIONS AND ANSWERS.

(a) ORAL ANSWERS

\*795—\*829. [See pages 1194-1225].

FOREIGNERS EMPLOYED IN HINDUSTAN AIRCRAFT FACTORY, BANGALORE

\*830. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state how many foreigners are employed in the Hindustan Aircraft, Ltd., at Bangalore?

(b) Are they under contract?

(c) How many Indians have been trained by them?

(d) Are fully trained Indians available to take up the highest posts?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Eleven.

(b) Yes.

(c) Several thousands of Indians have been trained by them.

(d) The highest administrative posts are already held by Indians. As regards technical posts held by non-Indians, Indian under-studies are already in position in nearly all the cases.

**Shri R. K. Sidhva:** Sir, the reply to the last question, item (d). I have not been able to follow.

**The Honourable Dr. Syama Prasad Mookerjee:** (d) The highest administrative posts are already held by Indians. As regards technical posts held by non-Indians, Indian under-studies are already in position in nearly all the cases.

**Shri R. K. Sidhva:** The Honourable Minister's reply to part (b) of my question is that they are under contract. May I know what is the contract period? Also, he said that several Indians have been trained. May I know how many have been trained?

**The Honourable Dr. Syama Prasad Mookerjee:** So far as the contract period is concerned, it is due to expire in December, 1950, and in some cases in 1951; but not beyond 1951, in any case.

As regards number of Indians trained, several thousands of them have been trained.

**Shri H. V. Kamath:** May I know how much capital has been invested in the Hindustan Aircraft Ltd. and also how much expenditure has been incurred during the last ten or eleven years?

**The Honourable Dr. Syama Prasad Mookerjee:** I answered this question the other day.

**Dr. P. S. Deshmukh:** May I know when the institution at Dehra Dun was closed?

**The Honourable Shri N. Gopalaswami Ayyangar:** It was given up during the stamp period.

**Shri S. V. Krishnamoorthy Rao:** Will the new site be more centrally situated?

**The Honourable Shri N. Gopalaswami Ayyangar:** Actually we are looking out for sites in Mhow, Chindwara and Khamtee.

**Dr. P. S. Deshmukh:** May I take it that at present there is no arrangement for the training of railway officers?

**The Honourable Shri N. Gopalaswami Ayyangar:** At present none.

#### ELECTRIC MACHINES FOR CANCELLING STAMPS ON LETTERS

**\*833. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state whether electric machines for cancelling stamps on letters posted are in use in some of the Post Offices and if so, what are the names of the Post Offices where they exist?

(b) How many such machines have been imported and what is the future plan for installing similar machines in Post Offices in other important cities?

(c) What is the cost of each machine and has there been any saving in the cost on manual labour due to the introduction of these machines?

**Shri Khurshed Lal** (Deputy Minister of Communications): (a) Yes. A statement showing the names of Post Offices and R. M. S. Offices where stamp-cancelling machines are in use is laid on the table of the House.

(b) In addition to 11 machines previously imported, orders were placed recently for the import of 170 machines. These are being received from England in instalments. So far 60 have landed, out of which 10 have been assembled and brought into use in Delhi, Nagpur, Ajmer, Allahabad, Banaras, Kanpur, Lucknow and Howrah. The remaining machines will be installed in other important towns such as Ahmednagar, Sholapur, Poona, Belgaum, Ahmedabad, Nasik, Darjeeling.

(c) The cost of one machine is Rs. 1,166. Its chief advantage is not saving of staff so much as speed of cancellation of postage stamps and neatness of cancellation marks.

#### STATEMENT

*Names of post offices in India in which Electric Stamp cancelling Machines were in use in January, 1949*

- |                              |                  |
|------------------------------|------------------|
| (1) Bombay.                  | (9) Delhi R.M.S. |
| (2) Calcutta.                | (10) Nagpur.     |
| (3) Madras.                  | (11) Ajmer.      |
| (4) Madras Sorting (R.M.S.). | (12) Allahabad.  |
| (5) Mount Road (Madras).     | (13) Banares.    |
| (6) Park Town (Madras).      | (14) Kanpur.     |
| (7) Delhi.                   | (15) Lucknow.    |
| (8) New Delhi.               | (16) Howrah.     |

**Shri R. K. Sidhva:** May I know why when a large number of these machines have been installed in the U. P., they have been left out of Bombay, Calcutta and Madras?

**Shri Khurshed Lal:** If my honourable friend will see the statement, he will find that these machines have been in use in these three places.

**Shri R. K. Sidhva:** Are there machines in Bombay, Calcutta and Madras?

**Shri Khurshed Lal:** Yes. Besides, there are four in Madras, and one each in Nagpur and Ajmer.

**Shri R. K. Sidhva:** How many in the U. P.?

**Shri Khurshed Lal:** All these machines in the U. P. were installed a long time ago.

**Shri H. V. Kamath:** Owing to this mechanization, has there been any increase in the ranks of the unemployed?

**Shri Khurshed Lal:** As I said these machines do not affect the staff so much as speed of cancellation of postage stamps and neatness of cancellation marks.

**Prof. N. G. Ranga:** Where from have these been imported?

**Shri Khurshed Lal:** England.

**Shri R. K. Sidhva:** May I know how many letters are stamped in a minute by these machines?

**Shri Khurshed Lal:** I cannot give this figure just now.

**Shri R. K. Sidhva:** Is it a fact that 1,000 letters are stamped in one minute according to a statement in the press?

**Shri G. S. Guha:** Is there any such machine in Shillong or in any other place in Assam?

**Shri Khurshed Lal:** None in Shillong. As I said we are importing 170 machines and Shillong's turn will come.

**Shri Mahavir Tyagi:** When there is no saving of labour, why is the Government wasting their money on these machines?

**Shri Khurshed Lal:** It is not wasting money. The machine gives better cancellation and it speeds up the process. The trouble is that the machine only cancels the stamp at the top right-hand corner. Unfortunately most of the stamps are fixed at the back of envelopes.

**Shri Mahavir Tyagi:** In view of the difficulties enumerated, may I know how the machine will be worked when the stamps are not placed at the right-hand corner?

**Shri Khurshed Lal:** The machines are working in the places where they have been installed. They could work better if the stamps were properly fixed.

#### STEPS FOR INCREASING STEEL PRODUCTION

**\*834. Seth Govind Das:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that the Government of India have decided to set up new State-owned steel works for increasing steel production?

(b) Is it a fact that three foreign consulting engineering firms have been appointed for drawing up preliminary reports?

(c) Have such reports been already submitted?

(d) If so, what are the decisions of the Government of India thereon?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) to (c). Yes, Sir.

(d) The reports have just been received and are under examination.

**Seth Govind Das:** With respect to the location of these factories have Government come to a decision?

**The Honourable Dr. Syama Prasad Mookerjee:** No. But the reports are under examination. The Central Provinces is one of the places recommended.

**Shri H. V. Kamath:** When was it?

**The Honourable Dr. Syama Prasad Mookerjee:** Last week, I think.

**Shri H. V. Kamath:** Is the answer too precious to be repeated?

**Mr. Deputy Speaker:** What is the use of repetitions? It will only take up the time of the House.

**Shri H. V. Kamath:** Has any aeroplane been manufactured at all in the Hindustan Aircraft Ltd. Bangalore, during the last ten years?

**The Honourable Dr. Syama Prasad Mookerjee:** I think I have answered that question also.

**Shri H. V. Kamath:** In view of the fact that aircraft is very important for modern warfare, is there any proposal before government to co-ordinate the activities of the Industry and Supply Ministry in this regard, with the Defence Ministry?

**Mr. Deputy Speaker:** This question does not arise, as the main question refers only to Non-Indians employed in the Hindustan Aircraft, Ltd. at Bangalore.

**Shri R. K. Sidhva:** May I know who is in charge of the technical side and who is in charge of the administrative side?

**The Honourable Dr. Syama Prasad Mookerjee:** On the technical side there is Mr. Maxwell, the Chief Production Engineer; and the General Manager who is also supervising Financial Adviser's work is Mr. Sen Gupta.

**Shri B. N. Munavalli:** Is it a fact that in this concern, new hands are preferred to old ones, I mean men who have put in some years of service before retrenchment?

**The Honourable Dr. Syama Prasad Mookerjee:** We always give preference to the existing staff, if they are found qualified enough. That is the policy.

#### PASSENGER TRAFFIC ON RAILWAYS DURING 1948

**\*831. Shri R. K. Sidhva:** Will the Honourable Minister of Railways be pleased to state the number of Second, First, Inter and Third class passengers who travelled on all Indian Railways during the calendar year 1948 together with the earnings from each class separately?

**The Honourable Shri K. Santhanam:** The number of and earnings from First, Second, Inter and Third class passengers who travelled over the Indian Government Railways during the calendar year 1948 are estimated to be:

| Indian Government Railways. |                   |                             |
|-----------------------------|-------------------|-----------------------------|
| (Figures in thousands).     |                   |                             |
|                             | Passengers<br>No. | Passenger<br>Earnings (Rs.) |
| First Class . . . . .       | 1,389             | 2,19,46                     |
| Second Class . . . . .      | 16,593            | 6,29,20                     |
| Inter Class . . . . .       | 21,556            | 5,20,27                     |
| Third Class . . . . .       | 951,056           | 67,97,32                    |
| Total . . . . .             | 990,594           | 81,66,25                    |

**Shri R. K. Sidhva:** May I know how these figures compare with those of 1947? In which class has been the highest number, as compared to 1947?

**The Honourable Shri K. Santhanam:** In the year 1947, the total number of passengers was 807,405,000, and the earnings came to Rs. 56.30.66.000.

**Shri R. K. Sidhva:** My question was, in which class was the highest number, in the Inter-Class, or First Class or Third Class, as compared to 1947.

**The Honourable Shri K. Santhanam:** In the year 1947, there were more first-class, second-class and inter-class passengers than in 1948. In 1948, there were more third-class passengers.

**Shri V. C. Kesava Rao:** May I know whether ticketless travellers are included in these figures?

**The Honourable Shri K. Santhanam:** These are passengers who paid for the tickets.

#### CENTRAL STAFF COLLEGE FOR RAILWAY OFFICERS

**\*832. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that a Central Staff College for Railway Officers existed before the war?

(b) If so, where was it and why was it closed?

(c) Is it a fact that the Railway Board have decided to open such a college at Devlali and if so, what is the estimated recurring and non-recurring cost for the same?

(d) What will be the nature of the course of study in the college and what qualifications will be prescribed for admission thereto?

(e) What is the total number of students who can be admitted into the college for a course?

(f) Has the College started functioning and if so, with how many students?

(g) Are the students charged any fee and what are the conditions attached when the students pass out from the College?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes.

(b) It was situated at Dehra Dun and was closed purely as an economy measure.

(c) It has been decided that a Central Staff College for Railway Officers is necessary and should be opened as early as possible. The actual site has not been fixed yet. The recurring cost is estimated at about Rs. 2½ lakhs per annum. The non-recurring cost will depend on the site and locality selected.

(d) The curriculum has not been drawn up yet but the college is intended both to train probationary officers and to provide refresher courses to Inspectors and officers of all levels, except Heads of Departments, already in service.

(e) This has not yet been finally decided and it is hoped that about 100 students will attend courses at the same time.

(f) and (g). Do not arise.

**Shri R. K. Sidhva:** May I know why this site has been selected at Devlali when the old college stood at Dehra Dun? And also whether the building used in Dehra Dun was a government building or whether it was a hired one?

**The Honourable Shri N. Gopalaswami Ayyangar:** At Dehra Dun the buildings were taken over by the Defence Department. So we had to find another site for our college. Devlali was selected, but owing to certain difficulties, it has been given up. We are on the look-out for another site.

**Shri R. K. Sidhva:** In view of the urgency of opening this college, may I know whether it is intended to hold over the opening of the college until the new buildings are ready, or whether it will be set up in a hired building?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think the college itself will be held over till the new site is selected and accommodation provided.

**Shri Khandubhai K. Desai:** Has the site at Devlali been finally decided?

**The Honourable Shri N. Gopalaswami Ayyangar:** Devlali has been finally decided to be given up.

**Seth Govind Das:** Have the Government of India received a representation from the Central Provinces sending them the report of the iron ore in Drug district and have they said that that is the best iron available in the whole of India?

**The Honourable Dr. Syama Prasad Mookerjee:** I have got the report. All the reports are now under examination.

**Prof. N. G. Ranga:** Is it a fact that other Provincial Governments also have asked for similar consideration?

**The Honourable Dr. Syama Prasad Mookerjee:** Many provinces have asked, but unfortunately the experts favour the Central Provinces.

**Shri H. V. Kamath:** Will the reports be placed on the table of the House before Government takes a decision thereon?

**The Honourable Dr. Syama Prasad Mookerjee:** It may not be possible to place the entire reports before the House because they include some confidential information which the experts do not desire should be publicly disclosed. But I shall certainly place a complete summary of the reports for the information of the members of the House.

**Shri H. V. Kamath:** Can the reports be supplied to members of the House confidentially as was done in the case of the Income-tax Investigation Committee report on Budget day? Cannot Government trust the members of the House?

**The Honourable Dr. Syama Prasad Mookerjee:** Each report runs into 100 to 300 pages—in all about 1,000 pages. We cannot print them.

**Shri H. V. Kamath:** Why this hush-hush policy?

**The Honourable Dr. Syama Prasad Mookerjee:** No hush-hush policy at all.

**Seth Govind Das:** In view of the fact that the honourable Minister has just said that the experts have recommended the Central Provinces, why is there delay in selecting the place?

**The Honourable Dr. Syama Prasad Mookerjee:** The reports came to my hand only a week ago.

**Mr. Deputy Speaker:** The honourable Minister is going through the reports.

**Shri Biswanath Das:** Are all the three reports in favour of the Central Provinces?

**The Honourable Dr. Syama Prasad Mookerjee:** Orissa is also one of the provinces.

**Shri Biswanath Das:** I am not asking for Orissa. I am sorry for the insinuation. In fact the matter came up before the Standing Finance Committee. Therefore I am asking for certain information. I should like to know whether all the three reports favoured the selection of the Central Provinces as the place for the location of the factories?

**The Honourable Dr. Syama Prasad Mookerjee:** What the experts have done is they have discussed the advantages and disadvantages of locating the factories in different parts of India and they seem to incline in favour of the Central Provinces and Orissa. I did not make any insinuation against Orissa, much less against my honourable friend.

**Shri L. Krishnaswami Bharathi:** Who are the experts?

**The Honourable Dr. Syama Prasad Mookerjee:** The three expert companies are: (i) Koppers Co. Incorporation, U.S.A., (ii) Arthur G. McKee & Co., U.S.A., and (iii) The International Construction, Co., London.

**Seth Govind Das:** Are they going to be factories or a factory?

**The Honourable Dr. Syama Prasad Mookerjee:** That is a matter for consideration.

**Shri H. V. Kamath:** By what date can the honourable members expect to have a copy of the summary of the report in their hands, which the honourable Minister has promised?

**The Honourable Dr. Syama Prasad Mookerjee:** As soon as the preliminary investigations are over.

**Shri H. V. Kamath:** Has honourable Minister any idea of the approximate time by which the investigation will end?

**The Honourable Dr. Syama Prasad Mookerjee:** I shall place a summary before the House before the session ends.

**Shri R. L. Malviya:** Has Government selected a place in the Central Provinces where the factory is to be erected?

**Mr. Deputy Speaker:** I have called the next question.

#### ESTABLISHMENT OF A STATE-OWNED MACHINE TOOL FACTORY

**\*835. Seth Govind Das:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that Government are considering a proposal to start a State-owned Machine Tool Factory?

(b) If so, what is the expected cost and what will be the total output of the proposed factory?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Negotiations are proceeding with foreign firms for entering into a technical assistance agreement for the establishment of a factory in India for the manufacture of machine tools.

(b) According to rough estimates, the cost of the factory will be approximately Rs. 6 crores and the value of its output in about 8 years' time will be Rs. 6 crores.

**Seth Govind Das:** Where is this factory to be located? Has Government any proposal for its location?

**The Honourable Dr. Syama Prasad Mookerjee:** I have not received the reports yet.

**Seth Govind Das:** I wanted to know whether this matter has also been referred to the experts, namely, as far as the place is concerned?

**The Honourable Dr. Syama Prasad Mookerjee:** Certainly.

**Shri K. Hanumanthaiya:** Are there any such factories in India?

**The Honourable Dr. Syama Prasad Mookerjee:** Not on a big scale like this. There are smaller factories which are manufacturing machine tools.

**Shri Mahavir Tyagi:** Has the long tour of the Secretary of the Department anything to do with the establishment of this factory in India? The Secretary of the Department had been on a long tour of European countries. Did he also take the experts into consultation with regard to the setting up of this factory here?

**Mr. Deputy Speaker:** Was that one of the objects of his visit?

**The Honourable Dr. Syama Prasad Mookerjee:** No.

#### PROTECTION TO SUGAR INDUSTRY

**\*836. Seth Govind Das:** (a) Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that the Tariff Board has recommended protection to sugar industry?

(b) If so, what are the steps that are being taken to protect the sugar industry?

**The Honourable Shri Jairamdas Doulatram:** (a) The question of the continuance of protection to the sugar industry which is due to expire on the 31st

**Mr. Deputy Speaker:** All that is old story!

**The Honourable Shri Jairamdas Doulatram:** That has been reserved for further development of the sugar industry and for the benefit of sugar growers.

**Shri Gopikrishna Vijayavargiya:** In view of the fact that in Madhya Bharat and some other places the growers are getting very low prices will the Government help the growers in some way in getting reasonable prices?

**The Honourable Shri Jairamdas Doulatram:** I suppose the Madhya Bharat Government should do that.

**Shri B. P. Jhunjhunwala:** In fixing the prices which zone is taken into consideration by the Government—whether Southern India or Northern India is taken into consideration?

**The Honourable Shri Jairamdas Doulatram:** Northern India, because the Northern India sugar factories predominate in number.

**Shri Mohan Lal Gautam:** What are the causes of the high price of sugar?

**The Honourable Shri Jairamdas Doulatram:** One cause is the high price of sugarcane. The other cause is high cost of production which includes wages for labour as well as the manufacturing processes. And I believe one of the matters which has to be considered by Government is to go fully into the question of cost of production—all the elements which go into the cost of production—and see that the cost of production is reduced, so that we can compete with foreign sugar.

**Shri B. P. Jhunjhunwala:** What is the margin of profit which the Southern factories are making?

**The Honourable Shri Jairamdas Doulatram:** I do not know, but it will be very substantial.

**Shri M. Tirumala Rao:** Has the attention of Government been drawn to a factory under European management in Kanpur which made a profit of Rs. 8 lakhs last year and expects a profit of Rs. 17 lakhs this year, and have they enquired whether with the same turnout double the profit has come?

**The Honourable Shri Jairamdas Doulatram:** I cannot contradict that.

#### IMPORT OF VEGETABLE MOTHERSEED

**\*837. Dr. Mono Mohan Das:** Will the Honourable Minister of Agriculture be pleased to state:

(a) the quantity of foreign vegetable motherseeds imported into this country during the years 1947-48 and 1948-49; and

(b) the total cost of such imports?

**The Honourable Shri Jairamdas Doulatram:** (a) Import licences were given for 3,664 lbs. in 1947-48 and 2,087 lbs. in 1948-49. The quantities actually imported were 2,792 lbs. in 1947-48 and 839 lbs. in 1948-49.

(b) The total cost of the imports was Rs. 8,804 in 1947-48 and Rs. 1,569 in 1948-49.

**Prof. N. G. Ranga:** What is meant by vegetable mother seed?

**The Honourable Shri Jairamdas Doulatram:** Mother seeds are the original nucleus seeds from which vegetable seeds are later evolved.

**An Honourable Member:** Is there any such thing as a father seed?

**Prof. N. G. Ranga:** From what countries do we get the bulk of these imports?

**The Honourable Shri Jairamdas Doulatram:** The bulk of it is I think coming from the United Kingdom, but we have got a plan now of producing our own mother seeds in the Kulu Valley.

**Dr. Mono Mohan Das:** Is it a fact that there is larger demand in this country for mother seed manufactured in foreign countries in preference to the locally manufactured mother seed?

**The Honourable Shri Jairamdas Doulatram:** There is no local production of mother seed at all now.

**Prof. N. G. Ranga:** Is it not a fact that we have a large number of seed multiplication farms in this country and a number of co-operative societies also whose business it is to distribute improved seed?

**The Honourable Shri Jairamdas Doulatram:** Is the question about vegetable seeds or foodgrain seeds?

**Prof. N. G. Ranga:** Have we got them for vegetable seeds?

**The Honourable Shri Jairamdas Doulatram:** There are a few farms in Kashmir and elsewhere for the multiplication of seeds. But there are at present no farms for mother seeds.

**Prof. N. G. Ranga:** Are Government contemplating to establish any such farms for the production of these?

**The Honourable Shri Jairamdas Doulatram:** Certainly, the plan is to increase the number as far as possible.

#### IMPORT OF FOODGRAINS

**\*838. Dr. Mono Mohan Das:** Will the Honourable Minister of Food be pleased to state:

(a) the total quantity of different food grains that have been imported into this country during the current year and their cost; and

(b) from what countries they have been imported and in what quantities from each country?

**The Honourable Shri Jairamdas Doulatram:** (a) 2.84 million tons of foodgrains were imported during the year at a cost of Rs. 129 crores, 59 lakhs.

**(b) A statement is laid on the table of the House.**

#### STATEMENT

*Quantities of foodgrains imported from abroad during the year 1948.*

| Commodity   | Country from which imported | Quantity in 000 tons. |
|-------------|-----------------------------|-----------------------|
| Wheat       | Australia.                  | 633                   |
|             | U. S. A.                    | 367                   |
|             | Canada                      | 7                     |
|             | Argentina                   | 90                    |
|             | East Africa                 | 5                     |
|             | Russia                      | 48                    |
|             |                             | 1,150                 |
| Wheat flour | Australia.                  | 59                    |
|             | U. S. A.                    | 38                    |
|             | Canada                      | 12                    |
|             |                             | 159                   |
| Sorgholma   | Australia.                  | 8                     |
|             |                             | 8                     |

March, 1949 is under examination of the Tariff Board whose proposals are shortly awaited.

(b) The matter will be examined on receipt of the proposals of the Tariff Board. The Industry is receiving indirect Protection by the present ban on the import of foreign sugar which is comparatively very cheap.

**Seth Govind Das:** May I take it that before the 31st March this question will be decided?

**The Honourable Shri Jairamdas Doulatram:** Yes.

**Shri R. K. Sidhva:** What is the difference of the imported sugar as compared with our indigenous sugar?

**The Honourable Shri Jairamdas Doulatram:** The imported sugar is between Rs. 16 to Rs. 17 c.i.f. and our own sugar is Rs. 28-8-0 a maund.

**Shri R. K. Sidhva:** Do Government think it will affect the inflation policy if the rate is increased by further protection?

**The Honourable Shri Jairamdas Doulatram:** At present there is a certain import duty which is not operative because there is a ban on import of sugar. But there is no doubt that protection does make some difference in price.

**Shri R. K. Sidhva:** Will it not affect the inflation by giving further protection?

**The Honourable Shri Jairamdas Doulatram:** The only other alternative is to allow your own industry to suffer.

**Shri R. K. Sidhva:** Is it not a fact that the sugar industry is making 100 per cent. profit?

**The Honourable Shri Jairamdas Doulatram:** The sugar industry has made substantial profits, but all these aspects of the question will be examined when the Tariff Board report is under consideration.

**Shrimati Dakshayani Velayudhan:** Is it the Government policy that the sugar industry needs protection?

**The Honourable Shri Jairamdas Doulatram:** At present it does.

**Shri O. V. Alagesan:** Is it a fact that large stocks of sugar are lying unsold? **The Honourable Shri Jairamdas Doulatram:** There are large stocks which are not moved for various reasons. But it does not mean that we are over-producing for our own consumption and for such export as is possible.

**Shri O. V. Alagesan:** Is it a fact that because of the high price of sugar Pakistan is not buying Indian sugar and is preferring sugar from other countries?

**The Honourable Shri Jairamdas Doulatram:** That is a fact.

**Shri O. V. Alagesan:** Is there any proposal to bring down the prices of sugar so that there may be some relationship between world prices and our price?

**The Honourable Shri Jairamdas Doulatram:** Government have recently brought down the price of sugar. Any further reduction or any other change can only be decided upon after the Tariff Board's proposals are considered.

**Shri S. V. Krishnamoorthy Rao:** Is it a fact that bulk for bulk the price of Indian sugar is twice that of the world sugar?

**The Honourable Shri Jairamdas Doulatram:** It is not twice. As I said the price is about Rs. 17 c.i.f. for foreign sugar and Rs. 28-8-0 for the local sugar. So the difference is as between Rs. 17 and Rs. 28-8-0.

**Shri Mahavir Tyagi:** Is it a fact that on account of foreign sugar being cheap the Pakistan Government has ceased to import Indian sugar?

**Mr. Deputy Speaker:** That question has already been put.

**Shri Mahavir Tyagi:** I am going further, Sir. Is it a fact that on account of that there has been a surplus of sugar in our country?

**Mr. Deputy Speaker:** It has already been answered.

**Shri Mahavir Tyagi:** Then why has the land under sugar not been transferred to food grain crops?

**Mr. Deputy Speaker:** The Honourable Minister has said there is no surplus of sugar in this country though prices may be high.

**Prof. N. G. Ranga:** Is Pakistan taking any of our gur, i.e. jaggery?

**The Honourable Shri Jairamdas Doulatram:** I am not aware.

**Shri L. Krishnaswami Bharathi:** Is it a fact that the pre-control price of sugar was somewhere about Rs. 20 per maund?

**The Honourable Shri Jairamdas Doulatram:** It was Rs. 20-14-0 before de-control.

**Shrimati Dakshayani Velayudhan:** Is it a fact that the sugar industry is not utilising all the sugarcane produced in our country?

**The Honourable Shri Jairamdas Doulatram:** Yes, only about 20 per cent. is utilised. The rest is converted into gur or used otherwise.

**Shrimati Dakshayani Velayudhan:** Is it a fact that sugarcane is used as fodder for cattle?

**The Honourable Shri Jairamdas Doulatram:** Yes, in some parts of the country it has been used, where fodder is very costly.

**Shri R. K. Sidhva:** May I know what was the pre-war price of sugar?

**The Honourable Shri Jairamdas Doulatram:** I could not tell you.

**Prof. N. G. Ranga:** What were the considerations that prevailed upon Government in allowing this controlled price of Rs. 28 when the pre-control price was only Rs. 20?

**The Honourable Shri Jairamdas Doulatram:** We actually reduced it from Rs. 35-7-0 to Rs. 28-8-0.

**Shrimati Dakshayani Velayudhan:** Is it a fact that the sugar industry did not utilise fully all the transport facilities afforded to them?

**The Honourable Shri Jairamdas Doulatram:** That is a controversial question between the sugar industry and the transport authorities.

**Shri R. K. Sidhva:** May I know whether the additional duty which has been announced by the Honourable the Finance Minister in his Budget speech will not further increase the price of sugar?

**The Honourable Shri Jairamdas Doulatram:** That is obvious.

**Shri S. V. Krishnamoorthy Rao:** When the price was fixed last year Government gave an assurance that part of it would go to the agriculturist and part of it to labour. Is Government satisfied that there is a proportionate distribution of profits between agriculturists and labour?

**The Honourable Shri Jairamdas Doulatram:** Yes. The wages of labour have increased from Rs. 45 to Rs. 55.

**Shri B. P. Jhunjhunwala:** In fixing the price of sugar what is the margin of profit allowed to millowners?

**The Honourable Shri Jairamdas Doulatram:** The margin of profit which is allowed is 10 per cent.

**Shri L. Krishnaswami Bharathi:** As a result of the increase in the price of sugar from Rs. 20-14-0, the pre-control price, to Rs. 35-7-0, is it a fact that the profit arising from this was shared between the U. P. Government and the Central Government at the expense of the consumer?

| Commodity | Country from which imported | Quantity<br>in<br>000 tons |
|-----------|-----------------------------|----------------------------|
| Rice      | Burma                       | 497                        |

**Seth Govind Das:** In view of the fact that it is reported that *rabi* crops this year are very good throughout the country, are Government going to revise their policy about import of foodgrains?

**The Honourable Shri Jairamdas Doulatram:** If the procurement of the *rabi* crop improves and goes beyond the present estimated figure, certainly we will reduce imports.

**Shri R. K. Sidhva:** Has any quota been fixed for procurement—what is the policy in this respect?

**The Honourable Shri Jairamdas Doulatram:** Quotas have been fixed for each Province in consultation with the Province concerned.

**Seth Govind Das:** Are Government going to consult the Provinces, as far as the *rabi* crop is concerned, after the harvest comes into the hands of the farmers, whether they are in a position to review their quota and increase the quota of production?

**The Honourable Shri Jairamdas Doulatram:** The question is constantly under review and we are in continuous correspondence with the Provinces so that local production might be increased and imports might be decreased.

**Shri O. V. Alagesan:** May I know how much of the import has been from soft currency areas and how much from hard currency areas?

**The Honourable Shri Jairamdas Doulatram:** I am sorry I have not the figures here with me.

**Shri B. Shiva Rao:** Did our representative at the recent Wheat Conference in Washington commit us to a definite five year programme of wheat import from abroad?

**The Honourable Shri Jairamdas Doulatram:** I do not know whether there was a commitment for a five year period, but we did contemplate to negotiate either for a five or four year period.

**Shri Sita Ram S. Jajoo:** In what proportions the quotas of the imported foodgrains are allotted to the different Provinces and States?

**The Honourable Shri Jairamdas Doulatram:** The imported foodgrains are allotted to most of the Provinces and States according to their need.

**Shri Sita Ram S. Jajoo:** I want to know the quotas.

**The Honourable Shri Jairamdas Doulatram:** I won't be able to give the actual quotas just now.

**Shri T. T. Krishnamachari:** May I ask if there is not a commitment for a minimum quantity continuing all the time?

**The Honourable Shri Jairamdas Doulatram:** There is, if the Wheat Agreement goes through, but there would be a commitment for a certain quantity. That is very much less than probably fifty per cent. of our total requirement of wheat.

**Shri R. K. Sidhva:** May I know whether the quota fixed last year for all the Provinces were fully procured?

**The Honourable Shri Jairamdas Doulatram:** No, last year the procurement was less than it was expected on account of the failure of rains and other difficulties in regard to the season.

**Shri R. K. Sidhva:** In what parts was there sufficient rain and the quotas were fully procured?

**The Honourable Shri Jairamdas Doulatram:** I would not be able to give an answer to it straight off but I will be able to give it to the honourable member later on if he desires.

**Shri R. K. Sidhva:** I would like to have those figures.

**Dr. P. S. Deshmukh:** Rs. 129 crores represents the cost of imported food grains. May I know what loss the Central Government has incurred on these foreign foodgrains over the whole year's supply?

**The Honourable Shri Jairamdas Doulatram:** Does the honourable member refer to the subsidy which is paid to the Provinces?

**Dr. P. S. Deshmukh:** Not subsidies Sir! On the total imports of Rs. 129 crores, what amount had to be borne by the Central Government by way of loss.

**The Honourable Shri Jairamdas Doulatram:** I will not be able to give you the figure now; but I think it was referred to in the Budget Speech of the Honourable the Finance Minister.

#### LOCOMOTIVE AND BOILER MANUFACTURING PLANT AT MIHIJAM, WEST BENGAL

**\*839. Seth Govind Das:** (a) Will the Honourable Minister of Railways be pleased to state whether the preparations for establishment of a plant for the manufacture of locomotives and boilers at Mihijam (West Bengal) have been completed?

(b) If so, what is the total estimated output and what amount of expenditure will be incurred on the setting up of the Plant and on technical personnel, required for the purpose?

(c) What is the total amount proposed to be spent over this factory?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes.

(b) The workshop is designed for the manufacture of 120 steam locomotives and 50 additional boilers per year. The estimated cost of the workshop and plant is Rs. 8.5 crores of which the expenditure on General Charges including technical personnel is rupees one crore.

**Shri H. V. Kamath:** Is it absolutely independent of the Government?

**Mr. Deputy Speaker:** Any statutory body has an independent jurisdiction.

**Shri H. V. Kamath:** Sir, my point is whether the Air Transport Licensing Board is not controlled in any way by the Ministry of Communications of the Government of India.

**Shri Khurshed Lal:** They do not take their orders from us.

**Mr. Frank Anthony:** Does Government propose to subsidise any of these companies?

**Shri Khurshed Lal:** No, Sir.

**Shri H. V. Kamath:** Who do the Licensing Board take orders from?

**Shri Khurshed Lal:** They are governed by certain rules of business. Just as the Judges of the High Court do not take any orders, this body is also independent.

**Shri Mahavir Tyagi:** May I know whether while giving licences to these private companies, have the Government agreed to give them substantial help in case of loss?

**Shri Khurshed Lal:** There is no such understanding.

**Shri H. V. Kamath:** Has the Ministry of Communications laid down any broad line of policy for the Air Transport Licensing Board in the matter of granting licences?

**Shri Khurshed Lal:** If my honourable friend refers to the rules, he will find the conditions under which the Board functions.

**Pandit Mukut Bihari Lal Bhargava:** May I know if the Ministry of Communications is not responsible to this House for the policy of the Air Transport Licensing Board?

**The Honourable Mr. Rafi Ahmad Kidwai:** Yes, it is.

**Mr. Frank Anthony:** Is it not a fact that these air lines are already running at a loss so far as their internal services are concerned?

**The Honourable Mr. Rafi Ahmad Kidwai:** The companies applied for the licence. The Licensing Board looked into the possibilities of their efficiently running those services, invited objection from other companies who might be making preparations and then issued licences to these two companies. These companies undertook to bear whatever loss is necessary to bear to develop these services.

**Shri B. P. Jhunjhunwala:** Before issuing licence, do the Licensing Board see that the company will run at a profit?

**The Honourable Mr. Rafi Ahmad Kidwai:** No.

**Mr. Frank Anthony:** My question has not been answered. Is it not a fact that these two companies which have been selected for the Far East Service are today running at a loss internally?

**The Honourable Mr. Rafi Ahmad Kidwai:** Yes, they are running at a loss.

**Shri Mohan Lal Gautam:** Do these two companies get any subsidies from the Government of India while running their routes?

**The Honourable Mr. Rafi Ahmad Kidwai:** No company is getting any subsidy from the Government of India.

#### HELP TO CIGARETTE INDUSTRY

\*842. **Shri V. C. Kesava Rao:** Will the Honourable Minister of Industry and Supply be pleased to state whether there is any proposal before Government to help the cigarette industry in India?

**The Honourable Dr. Syama Prasad Mookerjee:** The Government of India have decided to constitute a Development Committee with representatives of the principal firms of the Bidi, Cigar and Cigarette industry on it. The functions of the Committee would be to advise Government about the difficulties experienced by the indigenous industry and the day to day assistance that would be required by them for their development.

**Shri M. Tirumala Rao:** Has the Central Tobacco Committee taken interest in the matter of advising the industry in regard to the development of cigars and cigarettes?

**The Honourable Dr. Syama Prasad Mookerjee:** That Committee is primarily responsible for the cultivation and marketing of tobacco. After consultation with the Agriculture Ministry, it has been decided to have a separate Developmental Committee for Cigarette industry.

**Sardar Bhopinder Singh Man:** In view of the fact that tobacco is highly injurious to health, is there any proposal before the Government not to encourage the cigarette industry in the country?

**Shri M. Tirumala Rao:** Have Government enquired from the Central Tobacco Committee which has got several research stations started in several parts of the country whether they could also discharge these functions which Government want to entrust to a separate Developmental Committee?

**The Honourable Dr. Syama Prasad Mookerjee:** Those activities will certainly be co-ordinated with the activities of the proposed Committee, which will include representatives of the manufacturers.

**Shri H. V. Kamath:** Does the Bidi industry to which the Honourable Minister referred and said that it required protection, does this industry also face any foreign competition?

**The Honourable Dr. Syama Prasad Mookerjee:** I have no personal knowledge.

**Shri H. V. Kamath:** What help is under consideration—against foreign competition?

**The Honourable Dr. Syama Prasad Mookerjee:** I believe they are anxious to improve their quality.

**Dr. P. S. Deshmukh:** Will the Government see that the smokers get adequate representation on this Committee when it is formed?

#### ANDAMAN FORESTS

\*843. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Agriculture be pleased to state whether the proposed agreement to entrust the Andaman forests to a private Corporation has been finalised?

(b) When was the provisional agreement agreed upon and on what date was it executed?

(c) Has the private corporation taken charge of the Andaman forests and if not, why not?

(d) What are the future plans of Government regarding these forests?

**The Honourable Shri Jairamdas Doulatram:** (a) No.

(b) and (c). Do not arise.

(d) Government plans have not been finalised.

**Shri R. K. Sidhva:** Arising out of (a) and (b), in the last Budget session, was it not stated by the honourable Minister that a provisional agreement had been entered into with the Government by consulting private companies and there was a discussion on that and Government stated that they would reconsider the matter? What is the position, may I know?

(c) Approximately Rs. 14 crores.

**Seth Govind Das:** By what date is it expected that the locomotives from this factory would be out for use?

**Mr. Deputy Speaker:** It has already been answered in the Railway Budget Speech.

**Seth Govind Das:** No, Sir, the date has not been given.

**Mr. Deputy Speaker:** How can the Honourable Minister give the exact date?

**Seth Govind Das:** No, Sir, I want the approximate date.

**The Honourable Shri N. Gopalaswami Ayyangar:** I have no objection to giving the date again because I remember I did give it previously. Towards the end of 1951 we propose to launch out of these works the first locomotive fully manufactured in our workshops.

**Shri H. V. Kamath:** Have any foreign technicians been imported in this connection, Sir?

**The Honourable Shri N. Gopalaswami Ayyangar:** We are making arrangements for the import of foreign technicians.

**Shri H. V. Kamath:** From which country or countries?

**The Honourable Shri N. Gopalaswami Ayyangar:** That is a matter which is still under consideration.

**Mr. Homi Mody:** Have Government satisfied themselves that their estimates of costs are reasonably accurate?

**The Honourable Shri N. Gopalaswami Ayyangar:** We have had those estimates from such people as can give us fair estimates. As to whether they will materialise to the full is a matter which we can know only after we have proceeded a little further than we have done.

**Shri Sita Ram S. Jajoo:** Out of the locomotives to be manufactured may I know how many will be for metre-gauge?

**The Honourable Shri N. Gopalaswami Ayyangar:** That depends upon the needs of every year. 120 locomotives per year include both broad-gauge and metre-gauge locos.

**Dr. V. Subramaniam:** Regarding the old condemned engines, may I know whether their metal will be utilised for the manufacture of new engines or will it be sold as scrap?

**The Honourable Shri N. Gopalaswami Ayyangar:** Parts of such engines which can be used in the repair of engines in use will be used, the rest of the metal will be scrap.

**Dr. V. Subramaniam:** I am not referring to the parts which can be used; will the remaining metal itself be used for the manufacture of new parts in the workshops?

**The Honourable Shri N. Gopalaswami Ayyangar:** I shall have that matter looked into in order that we might realise the largest amount of economy possible.

**Mr. Homi Mody:** What amount do Government propose to spend in housing the workers to be employed in the plant?

**The Honourable Shri N. Gopalaswami Ayyangar:** We are going to build a self-contained town with 3,000 'A' type houses, 2,000 'B' type houses, 650 'C' type houses, 150 'D' type houses and 36 officers quarters. I think the whole thing comes to about Rs. 2½ crores.

**Shri T. T. Krishnamachari:** May I ask if the standard of housing that is to be provided for the workers in this new factory will approximate to the standard of housing that is provided by the Jamshedpur Factory of Tatas?

**The Honourable Shri N. Gopalaswami Ayyangar:** That is a comparison which personally I am not in a position to make, not having been to Jamshedpur even once.

**Dr. Mono Mohan Das:** What arrangements have been made for resettling the people who have been affected due to the acquisition of land for this factory?

**The Honourable Shri N. Gopalaswami Ayyangar:** Arrangements are being made for the purpose of accommodating them elsewhere.

**Dr. Mono Mohan Das:** Has the question been taken up by the Central Government or has it been left to the Provincial Government?

**The Honourable Shri N. Gopalaswami Ayyangar:** The Provincial Government really has to take it on because the land was acquired through them under the Land Acquisition Act.

**Dr. Mono Mohan Das:** Has the Central Government made any allotment of money to the Provincial Government for this purpose?

**The Honourable Shri N. Gopalaswami Ayyangar:** I do not know whether it will be necessary for the Central and Provincial Government to allot any money for this purpose. We have to pay compensation or we can give other land in part or full payment.

#### CROP INSURANCE

**\*840. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Agriculture be pleased to state what progress has been made in the matter of Crop Insurance in India?

(b) What are the crops selected and in which areas are the first experiments to be made?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). The honourable member's attention is invited to the reply given to Question No. 499; on the 18th February 1949.

#### STATE AIR SERVICE TO FAR EAST

**\*841. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Communications be pleased to state whether there is any proposal before Government to start a State Air service to the Far East?

(b) If the answer to part (a) above be in the affirmative, when is the service to be inaugurated and what are the selected routes?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) and (b). Government have entrusted the operation of air services to the Far East to private companies, and provisional licences have been issued to Bharat Airways Limited and Indian Overseas Airlines limited for the operation of air services on the routes Calcutta-Bangkok-Saigon-Hong Kong-Shanghai and Calcutta-Bangkok-Singapore-Darwin-Sydney respectively. The services will commence operation as soon as the necessary arrangements are complete.

**Shri H. V. Kamath:** Did any other companies apply for the licence?

**Shri Khurshed Lal:** The question of granting of licences is dealt with by the Air Transport Licensing Board and I am sure they considered all these questions.

**Shri H. V. Kamath:** But is that Board not under the Ministry of Communications?

**Shri Khurshed Lal:** The Board is an independent body.

**Shri H. V. Kamath:** Is it not under the Ministry of Communications?

**Shri Khurshed Lal:** It is an independent statutory body with independent jurisdiction.

**The Honourable Shri Jairamdas Doulatram:** In view of the recommendations of the Standing Committee for Finance, the question of an independent Board to develop and exploit forests was considered. A scheme was prepared by the Inspector-General of Forests. That was accepted by me in principle. Later on, in view of the financial stringency and the priorities assigned to different developmental schemes, some schemes had to be held up including this one. This matter is, however, at present under consideration. The contract with the companies has not been finalised and there is no intention at present to finalise it.

**Shri R. K. Sidhva:** May I know whether there are abundant forests and how long will Government take to conduct research into those forests? Will they wait indefinitely till better times come?

**The Honourable Shri Jairamdas Doulatram:** The present intention is that Government will put up some kind of independent body.

**Shri T. T. Krishnamachari:** Am I to understand that the Inspector-General of Forests has prepared a scheme for exploiting these forests?

**The Honourable Shri Jairamdas Doulatram:** Yes.

**Shri T. T. Krishnamachari:** What were the reasons for those plans not being considered and put into operation?

**The Honourable Shri Jairamdas Doulatram:** As I explained, in view of the financial stringency certain developmental schemes claimed priority and in respect of this one, although the principle was accepted, it was not considered that in the present financial stringency we should push forward with it because of the competition of other developmental schemes which claimed higher priority.

**Shri T. T. Krishnamachari:** Is the Honourable Minister aware that there is acute shortage of timber in this country and has he represented to the Cabinet Committee that that Committee's placing this scheme fairly low in the list of priorities should therefore not be done?

**The Honourable Shri Jairamdas Doulatram:** At present, there is a shortage of timber, but there are many local resources which can also be developed. The question of going as far as the Andamans and developing timber there and also the question of transport and many other factors had to be considered, and in the present circumstances it was not considered, to be a scheme which must claim high priority at is is not a scheme which would yield immediate production.

**Shri T. T. Krishnamachari:** Am I to understand that Government have for ever given up the idea of entrusting the exploitation of these forests to any private undertaking?

**The Honourable Shri Jairamdas Doulatram:** Not for ever, but I said in view of the financial stringency the scheme for development of timber industry in Andamans could not be considered this year. It can be reconsidered, certainly, next year.

**Prof. N. G. Ranga:** Is it not a fact that the timber available from the Andaman and Nicobar Islands was very much in demand in foreign countries and used to earn for us a lot of foreign exchange?

**The Honourable Shri Jairamdas Doulatram:** I suppose so.

**Prof. N. G. Ranga:** How is it that Government did not take this fact into consideration when they were abandoning the scheme for the time being?

**The Honourable Shri Jairamdas Doulatram:** It will require a number of years before the timber can be exploited and placed on the market and earn such amount of dollars as may be expected to be earned. Because the scheme is not

of that urgency, therefore, on account of financial considerations it has not been put forward in the next year's programme. It may be put forward in the following year.

**Shri R. K. Sidhva:** The contemplated Board to which the honourable Minister has made reference—may I know whether that Board will be under the control of the State or it will be a private body?

**The Honourable Shri Jairamdas Doulatram:** That matter will have to be examined carefully and discussed with the Finance Ministry.

**Shri H. V. Kamath:** Does the Honourable Minister visualise considerable de-forestation with a view to provide for the settlement of refugees which is a subject under the active consideration of the Government at present?

**The Honourable Shri Jairamdas Doulatram:** No, that scheme is under consideration. There is no conflict between the two schemes.

**Prof. N. G. Ranga:** Is the steamer that used to ply between Madras and Andaman and Nicobar Islands still there in active service or has it been abandoned?

**The Honourable Shri Jairamdas Doulatram:** I do not know.

#### PROTECTION TO SPOOLERS INDUSTRY

\*344. **Shri Deshbandhu Gupta:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether he has received a representation from the Delhi Thread Balls Manufacturers' Association to safeguard the interests of spoolers industry which is centralised in Delhi and employs about 10,000 workers including a number of displaced persons from Pakistan?

(b) If so, what action has been taken on the same?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The Delhi Thread Ball Manufacturers' Association made a representation that distribution of Sewing Thread Yarn should be controlled by the Textile Commissioner and not by the Provincial Authorities.

(b) The Association was told that there was no control over the distribution of sewing thread yarn and that they should get their requirements either direct from the mills or from the trade. The Association was also told that in case the Provincial Government desired that regular allotments of Sewing Thread Yarn should be made to the Association, necessary approach may be made by the Provincial Government to the Ministry of Industry and Supply and the question will be considered on merits. No such approach has been made to this Ministry.

#### CONTROL ON DISTRIBUTION OF SEWING THREAD

\*845. **Shri Deshbandhu Gupta:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that Government have decided to control the distribution of sewing thread yarn also?

(b) If not, do Government propose to do so now?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) No, Sir.

(b) No, Sir.

#### IMPROVEMENT OF CATTLE BREEDING

\*846. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether Government have any definite scheme regarding the improvement of cattle breeding (particularly cows) and if so, what it is; and

† Answer to this question laid on the table, the questioner being absent.

(b) whether any measures have already been taken in this direction, and if so, with what results?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). The attention of the honourable member is invited to reply given to question No. 602 on the 23rd February, 1949.

**Shri H. V. Kamath:** That was a written reply. We could not have the benefit of hearing it, because the honourable member was absent on that day and it could not be orally answered. Will the Honourable Minister read out that answer if it is with him?

**The Honourable Shri Jairamdas Doulatram:** Yes. The answer is as follows:

"(a) The efforts made by Government to improve cattle relate to (i) breeding (ii) disease control (iii) feeding (iv) scientific management and (v) education in dairying. A brief note giving further information is placed on the table of the House, also a list of specific schemes for improvement of cattle in different provinces.

(b) Help in the procurement of breeding bulls is rendered whenever required. According to information so far received about 3,700 bulls have been issued by the various Governments during the last five years.

(c) Apart from research stations, a sum of Rs. 3,10,000 was spent by Central Government in 1948-49 on work directly related to improvement of cattle and Rs. 2,46,000 are proposed to be spent in 1949-50. Information as amounts spent by Provincial Governments are not available."

**Seth Govind Das:** Is it a fact that Government had recently appointed a Committee to go into the question and the report of the Committee has been submitted to Government and by what time it may be expected that Government would give effect to that report?

**The Honourable Shri Jairamdas Doulatram:** We are waiting for the replies from the provinces and States. They have been expedited and we hope we will be able to get all replies by the end of this month.

**Prof. N. G. Ranga:** Is it a fact that the improvement of cattle and the production of cattle feed and also development of cattle products like milk, butter, cheese and dried milk and so on are not included in the Grow More Food Campaign and therefore no encouragement is given to these aspects?

**The Honourable Shri Jairamdas Doulatram:** Only this year, with a view to concentrate on the production of food grains, we have excluded dairying from the items for which we used to give aid from the Grow More Food fund grant but so far as dairying is concerned, the Centre can help through the other developmental grants and the provinces have been asked to carry on work with those grants.

**Seth Govind Das:** In view of the fact that Government is going to receive the opinion of the provinces by the end of this month, may I take it that before this session ends, Government is going to announce its policy with respect to cattle protection?

**The Honourable Shri Jairamdas Doulatram:** Government will make every effort to announce the policy, if the reports are received in time.

**Shri Moturi Satyanarayana:** Has the Government a proposal to set up a special agency in view of the importance of this problem to see that this cattle breeding is improved and will they seek the co-operation of a number of private institutions and organizations in this connection?

**The Honourable Shri Jairamdas Doulatram:** The Government will consider that.

**Shri O. V. Alagesan:** Do Government propose to give grants for the establishment of research institutions, and if so, how much?

**The Honourable Shri Jairamdas Doulatram:** We will continue to help the Provincial Governments with grants.

**Shri H. V. Kamath:** Are the breeding bulls supplied by Government at least as good as the bulls of Lindlithgow who was a pioneer and reputed expert in this field?

**Shri Mahavir Tyagi:** Is it a fact that the cattle expert of the Government is at present touring about in the foreign countries? If so, is he going to purchase some good breed of cattle?

**The Honourable Shri Jairamdas Doulatram:** I do not think he is touring about in foreign countries.

**Shri S. V. Krishnamoorthy Rao:** Is the Government aware that the method of artificial insemination is very widely used in England and foreign countries to improve the breed of cattle? If so, has the Government any scheme here?

**The Honourable Shri Jairamdas Doulatram:** Yes: arrangements for insemination exist in many provinces.

### WOOLLEN MILLS

\*847. **Lala Raj Kanwar:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) the names of woollen mills at present working in the country;

(b) the location, the date of establishment, paid up capital and the annual output of each such mill;

(c) whether Government have under consideration any proposal to increase the number of such mills; and

(d) if so, at what places and when such mills are likely to be established?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). A statement is placed on the table of the House.

(c) The scope for expansion of woollen industry in India is limited. The present capacity for the production of heavier types of woollen goods is considered adequate for the country. It has therefore been decided that expansion should be only in the direction of finer goods. Permission for the setting up of new factories is given only in cases where the new factory is intended to produce finer types of woollen goods.

(d) Three new factories are likely to be established in the near future and to start production in 1950—two in Bombay and one at Jamnagar. Capital issues have been sanctioned to two other firms—one of Delhi and the other of Gorakhpur but they have not yet decided on the exact location of the factories.

### STATEMENT

| Name of Mill                               | Location | Year when established | Paid up capital | Annual output |
|--------------------------------------------|----------|-----------------------|-----------------|---------------|
|                                            |          |                       | Rs.             | lbs.          |
| (1) Ahmed Abdul Karim Bros., Ltd., Bombay. | Bombay   | 1939                  | 44,14,900       | 770,000       |
| (2) Nagpal Woollen Mills                   | Bombay   | Not known             | 12,32,533       | 1,565,000     |
| (3) Eastern Woollen Mills, Bombay          | Do.      | 1944                  | 10,42,020       | 480,000       |
| (4) Raymond Woollen Mills, Bombay          | Do.      | 1925                  | 56,57,900       | 1,900,000     |

† Answer to this question laid on the table, the questioner being absent.

| Name of Mill                                                        | Location                                               | Year when established                                   | Paid up capital                                                                             | Annual output  |
|---------------------------------------------------------------------|--------------------------------------------------------|---------------------------------------------------------|---------------------------------------------------------------------------------------------|----------------|
| (5) Indian Woollen Mills, Bombay                                    | Bombay                                                 | 1925 Branch of Sir Shahpurji Barocha Mills Ltd.         | Rs. 1,930,000                                                                               | lbs. 1,930,000 |
| (6) Textiles Fabrics Ltd., Bombay                                   | Bombay                                                 | (Separate figures for the Woollen mills not available.) |                                                                                             |                |
| (7) Cawnpore Woollen Mills, Kanpur                                  | U. P.                                                  | 1876                                                    | 3,25,000                                                                                    | 215,000        |
|                                                                     |                                                        |                                                         | Branch of British India Corporation (Separate figures for the woollen mills not available). | 6,900,000      |
| (8) J. K. Woollen Manufacturers, Kanpur.                            | Do.                                                    | 1921                                                    | 25,000                                                                                      | 350,000        |
| (9) E. Saefton and Co. Ltd., Mirzapur.                              | Do.                                                    | 1930                                                    | 5,83,925                                                                                    | 500,000        |
| (10) Allahabad Woollen Mills, Allahabad.                            | Do.                                                    | 1942                                                    | 3,00,000                                                                                    | 240,000        |
| (11) Oriental Carpet Manufacturers (India) Ltd., Amritsar.          | E. Punjab                                              | 1923                                                    | 5,80,000                                                                                    | 1,200,000      |
| (12) New Egerton Woollen Mills Dharawal.                            | Do.                                                    | 1880                                                    | Branch of British India Corporation.                                                        | 525,000        |
| (13) Bangalore Woollen Cottage and Silk Mills Co., Ltd., Bangalore. | (Separate figures of the woollen mills not available.) | 1884                                                    | 42,84,800                                                                                   | 2,400,000      |
| (14) H. K. Subbiah and Sons., Bangalore.                            | State.                                                 | 1878                                                    | (Not known Proprietary concern).                                                            | 2,60,000       |
| (15) Mahalakshmi Woollen and Silk Mills Co., Ltd., Bangalore.       | Do                                                     | Not known                                               | 11,99,082                                                                                   | 425,000        |
| (16) Sri Dinesh Mills Ltd., Baroda                                  | Do                                                     | 1922                                                    | 20,00,000                                                                                   | 2,000,000      |
| (17) Sri, Karan Singh Woollen Mills, Srinagar.                      | Baroda State.                                          | 1935                                                    | 67,00,000                                                                                   | 610,000        |

Besides the above there are about twenty-two small mills, in the Amritsar area with an estimated production of about 2 million lbs. of woollen goods per annum. Almost all of them came into existence during the War period and details as above are not available with regard to these firms.

#### MAXIMUM SPEED OF MAIL AND EXPRESS TRAINS

†\*848. Lala Raj Kanwar: Will the Honourable Minister of Railways be pleased to state:

(a) the maximum speed at which mail and express trains over various Railways in India are at present running; and

(b) the maximum speed at which such trains can be made to run without risk?

The Honourable Shri N. Gopalaswami Ayyangar: (a) The maximum speed at which mail and express trains are running on Government Railways at present varies from 44.4 to 52 miles per hour on the broadgauge and from 30 to 45 miles per hour on the metregauge.

(b) The maximum speed at which such trains can run without risk depends, principally, upon the condition of the track including bridges, the type of the

† Answer to this question laid on the table, the questioner being absent.

locomotive and the load of the train. Having regard to these conditions, the maximum permissible speed varies from 50 to 65 miles per hour on the broad-gauge and 45 to 50 miles per hour on the metre-gauge.

#### ADULTERATION OF GHEE.

\*849. Pandit Mukut Bihari Lal Bhargava: (a) Will the Honourable Minister of Agriculture be pleased to state whether the Government of India are aware that pure ghee is very rarely available in the market and that most of the ghee offered for sale is purely vegetable or admixture of a large quantity of vegetable ghee with little genuine ghee?

(b) If so, what steps have Government so far taken or intend to take in future to ensure the availability of pure ghee?

The Honourable Shri Jairamdas Doulatram: (a) Yes.

(b) The availability of pure ghee can be ensured only when the production of milk in India is very greatly increased. Owing to extreme disparity between the demand and supply of pure ghee a very large proportion of counterfeit material is being sold as genuine ghee. Measures have been taken to prevent the adulteration of other substances with ghee. These measures include the enactment and enforcement of Pure Food Laws by provincial Governments. The local administration have been moved to enforce these Laws vigorously. The Government are aware that a great deal remains to be done in the matter of enforcement of Pure Food Laws and the Vegetable Oil Products Order.

Seth Govind Das: In view of the fact that this question comes again and again before the Government, will Government once and for all announce their policy with respect to this question as to how the Government propose to stop this adulteration of pure ghee by these vegetable oil products?

The Honourable Shri Jairamdas Doulatram: I have tried to explain that in the answer that I have given.

Shri B. Shiva Rao: Has my honourable friend seen the report on the marketing of ghee issued by the Ministry, the figures regarding which were collected between 1940-43: the report was adopted in 1944: was sent in 1945 and published in January 1949.

The Honourable Shri Jairamdas Doulatram: Yes, the delay is for the reason that during the war a large number of publications were held up and when the materials were completed and it was possible to print, then the reports were printed.

Pandit Mukut Bihari Lal Bhargava: Will the Government think over the advisability of colouring the vegetable oil in order to make adulteration of ghee difficult?

The Honourable Shri Jairamdas Doulatram: Yes, this question has been considered. About four or five colours were suggested but rejected on two grounds: first the colouring could in some cases be decolorized: secondly, the material used was harmful to health. There was one substance recommended by the Bombay Government which is reported to meet these objections, and this particular material is now under examination.

Shri L. Krishnaswami Bharathi: Is any effort being made to Agmark pure ghee so that those who produce pure ghee can get it Agmarked?

The Honourable Shri Jairamdas Doulatram: That is being done but even that is not satisfactory.

Shri R. K. Sidhva: Is Agmark always a pure ghee?

The Honourable Shri Jairamdas Doulatram: It is expected to be pure ghee but in some cases there is counterfeiting of Agmark.

**The Honourable Dr. Syama Prasad Mookerjee:** This is true. We propose to have a Salt Advisory Committee which will include representatives of the producers, experts as well as other interests.

**Pandit Mukut Bihari Lal Bhargava:** May I know what is the basis on which this zonal scheme has started?

**The Honourable Dr. Syama Prasad Mookerjee:** The basis is mainly to secure the most economical and efficient use of the available transport.

**Shri M. Tirumala Rao:** Has the Committee recently appointed by Government to suggest methods of improving salt submitted its report?

**The Honourable Dr. Syama Prasad Mookerjee:** We have two interim reports. In fact we have been able to increase production by nearly twenty per cent. in 1948.

**Shri M. Tirumala Rao:** Will the Honourable Minister place the report on the table of the House?

**The Honourable Dr. Syama Prasad Mookerjee:** Yes, I will when I get the final report.

**Mr. Deputy Speaker:** The question hour is over.

#### (b) WRITTEN ANSWERS

##### RECOMMENDATIONS *re* PRICES OF SUGAR AND SUGAR CANE

**\*852. Prof. N. G. Ranga:** Will the Honourable Minister of Agriculture be pleased to state:

(a) what were the recommendations of the Indian Central Sugar Cane Committee which met in October, 1948 regarding the cane and sugar prices;

(b) whether it is a fact that the Committee showed by statistics that even at the reduced prices of sugar, a cane price of Rs. 2 per maund could be paid to kisans;

(c) whether its recommendations were unanimous; and

(d) if so, why Government have fixed a lower price for cane?

**The Honourable Shri Jairamdas Doulatram:** (a) The recommendations were that cane price should continue at Rs. 2 a maund and on the basis of that price of cane, price of sugar should be reduced below Rs. 3.5-7.0 per maund.

(b) No statistics were submitted.

(c) The recommendations were not unanimous but were made by an overwhelming majority.

(d) The U.P. and Bihar provincial Governments, which have the legal power to fix prices of sugar cane in their areas, have in consultation with the Central Government fixed a price of Rs. 1-10-0 per maund in U.P. and Rs. 1-13-0 in Bihar. In fixing lower cane prices for the current crushing season the provincial Governments were influenced by the following considerations:

(i) the price should be fair to the grower and fair to the consumer;

(ii) it should not be such as to encourage sugar production at the cost of foodgrains production;

(iii) the necessity to combat the rising inflation in the country;

(iv) the comparative low level of prices of gur prevailing in the country; the major portion of sugarcane is processed into gur.

##### IMPORT AND MANUFACTURE OF TRACTORS AND BULLDOZERS

**\*853. Shri Ari Bahadur Gurung:** (a) Will the Honourable Minister of Agriculture be pleased to state how many bulldozers were imported during the year 1948, and how they were distributed provincewise?

(b) Have Government any scheme for the manufacture of tractors and bulldozers in our country?

**The Honourable Shri Jairamdas Doulatram:** (a) No bulldozers were imported by the Ministry of Agriculture in 1948. Information regarding the number of bulldozers imported by private parties or by other Government Agencies and their distribution is not available.

(b) Government are considering a scheme for the manufacture of tractors in India. There is, however, no scheme for the manufacture of bulldozers at present.

##### EMPLOYMENT OF FOREIGN TECHNICIANS

**\*854. Shri Ari Bahadur Gurung:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the number of foreign technicians, who have been employed by the Government of India since August, 1947?

(b) What is the nationality of these technicians mostly?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). The question should have been addressed to the Honourable Minister of Home Affairs. It has accordingly been transferred to the list of questions for 10th March, 1949 when the Honourable Minister of Home Affairs will answer it.

##### DANGER TO RAILWAY LINE BETWEEN HALDIBARI AND MANDALGHAT DURING RAINS

**\*855. Shri Upendranath Barman:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that both working power and running power in respect of that portion of the Railway in West Bengal between Haldibari and Siliguri has been handed over to Pakistan Railway?

(b) Are Government aware that due to the branching off of the river Teesta last year a strong current during the rainy season threatened the railway line between Haldibari and Mandalghat stations?

(c) Is it a fact that a strong current is still running by that branch, and that there is the danger of the railway line being breached in the coming rainy season?

(d) What arrangements or precautions have Government made to protect the line before the rainy season sets in?

**The Honourable Shri N. Gopalaswamy Ayyangar:** (a) Yes. This section of line is worked by the E. B. (Pakistan) Railway.

(b) to (d). The Director-General of Railways, Ministry of Communications, Government of Pakistan has been requested to furnish the information which will be placed on the table of the House as soon as received.

##### ADMINISTRATION OF TEESTA FERRY, JALPAIGURI BY ASSAM BENGAL RAILWAY

**\*856. Shri Upendranath Barman:** (a) Will the Honourable Minister of Railways be pleased to state whether the Teesta Ferry at Jalpaiguri is administered at present by the Assam Bengal Railway?

(b) Is it a fact that at a conference between the said railway and the District Board of Jalpaiguri, the said railway consented to make over the ferry to the District Board if the Government of India agreed?

(c) Have Government received any communication regarding this matter, and if so, what is the decision thereon?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The Assam Bengal Railway which ceased to exist in 1942 never worked this ferry. The Assam Railway is, however, now working this ferry.

(b) Yes. The Assam Railway and not the Assam Bengal Railway.

**Shri Khandubhai K. Desai:** Is the colouration more harmful than the vegetable ghee?

**The Honourable Shri Jairamdas Doulatram:** That is a matter of opinion.

**Shri Khandubhai K. Desai:** That is not a definite answer. I know that there is a great deal to be done. But has the Government any scheme in view to prevent adulteration of ghee? And if so, what are those measures?

**The Honourable Shri Jairamdas Doulatram:** As I said, the only way of increasing the supply of ghee is to increase the supply of milk. Government have a plan to improve the quality of cattle and thereby increase the milk supply, which was referred to in this House a few days ago. But the plan for increasing the milk supply in the country as a whole is a big problem which will take some time, and in the midst of other problems, it is possible that this problem may not get that amount of technical and financial assistance that is essential but still it will be considered by Government.

**Seth Govind Das:** Up to the time that the milk problem is not settled, what steps are Government going to take so that this adulteration will be minimised?

**The Honourable Shri Jairamdas Doulatram:** I do not think I can fully explain all that has been done by Provincial Governments but we have recommended to them to enforce the laws as vigorously as possible.

**Pandit Mukut Bihari Lal Bhargava:** What is the material under the consideration of the Government that has been submitted by the Bombay Government to combat this adulteration?

**The Honourable Shri Jairamdas Doulatram:** It has a scientific name, which I have not here handy.

#### DEMANDS OF AND STRIKE NOTICE BY RAILWAYMEN'S FEDERATION

\*850. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Railways be pleased to state what are the demands presented to the Government of India by the Railwaymen's Federation?

(b) Have Government taken any decision thereon?

(c) Is it a fact that the Federation intends to organise a strike as a protest against the policy of Government, in not considering all the demands presented by them, and if so, what steps have been taken by Government to avert the strike?

**The Honourable Shri K. Santhanam:** (a) The demands of the All-India Railwaymen's Federation are contained in the three Resolutions passed at the annual Convention of the Federation held at Calcutta on 30th and 31st August 1948, copies of which are placed in the library.

(b) Government have already announced their decisions on some of the demands and tentative understandings with the Federation have been arrived at in respect of some other items. Further discussions in this connection will be held with the representatives of the A.I.R.F. within the next few days.

(c) The General Council of the Federation had, at the meeting held at Dinapore on the 16th February 1949, decided to stay action on the strike ballot taken in January 1949 and to resume negotiations with the Government.

#### RATIONAL DISTRIBUTION OF SALT ON ZONAL LINES

\*851. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether the Government of India have evolved any scheme for the rational distribution of salt on zonal lines in different parts of the country?

(b) If so, what are the details of the scheme and what measures have been taken to ensure the continuity of supply in adequate quantities to the different zones?

(c) Is the scheme referred to above coordinated with some definite scheme of wagon allotment to avoid transshipment, long haulage and cross movements so as to maximise the utilization of the available transport capacity?

(d) If so, what are the details thereof and from which date is it likely to come into operation?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes.

(b) A statement is laid on the table of the House.

(c) Yes.

(d) A definite number of wagons will be allotted to each area according to its requirements. No booking of Railway wagons for salt will be permissible from one zone to another.

The scheme has come into operation from the 1st January 1949.

#### STATEMENT

The country has been divided into nine zones based on the administrative arrangements obtaining on the railways regarding gauge, transshipment, etc. These zones will get their supplies from the following 9 sources:

- (1) Sambhar.
- (2) Kharagolha.
- (3) Dharangadhra.
- (4) Bombay.
- (5) Tuticorin.
- (6) Adirampattam-cum-Cuddalore-cum-Madras.
- (7) Pennuguduru.
- (8) Naupada.
- (9) Calcutta.

The quota of salt for each zone has been fixed on the basis of 14 lbs per capita per annum. A reserve of at least 25 per cent. of the annual production will be maintained at each source for emergencies.

To ensure continuity the Railways will provide wagons according to the plan drawn up for each zone.

The scheme intends to put the available rail transport to maximum advantage. Long distance haulage, transshipment and cross movements are to be avoided and salt from the various sources is to feed such areas which are within easy reach by rail.

**Seth Govind Das:** Have the Government since then received any complaints with respect to these zones from Provincial Governments that certain kinds of salt which are now being proposed to be sent to certain provinces are not the proper kinds of salt used in the provinces or zones?

**The Honourable Dr. Syama Prasad Mookerjee:** Some complaints have come which are under examination. But I may tell the honourable member that since the new zonal scheme came into operation there has been an increase of transport by 15.6 per cent. from Sambhar, an increase of 47 per cent. from Kharagolha and an increase of 16 per cent. from the Calcutta area. A larger number of wagons have moved during this period.

**Shri Sita Ram S. Jaisoo:** In view of the fact that salt is scarce in rural areas, will Government consider separately allotting salt for rural areas also?

**The Honourable Dr. Syama Prasad Mookerjee:** That is being done.

**Shri Brajeshwar Prasad:** Is it a fact that the Ministry is going to constitute a Salt Advisory Board?

(c) Yes. It has been decided that the Teesta (Abduar) Ferry between Barnesghat and Karlaghat in the Jalpaiguri District may be handed over to the Government of West Bengal with effect from 1st April 1949.

#### COMPLETION OF ASSAM RAIL LINK PROJECT

**\*857. Shri Upendranath Barman:** (a) Will the Honourable Minister of Railways be pleased to state by what time the Assam Rail Link project will be completed?

(b) Have Government any scheme for facilitating the transit of goods from Assam and North Bengal to Calcutta and if so, what?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The Assam Rail Link is expected to be completed early in 1950.

(b) The completion of the Assam Rail Link and the improvement of ferry arrangements at Manihari Ghat are expected considerably to facilitate the transit of goods from Assam and North Bengal to Calcutta.

#### AERODROMES IN PROVINCES AND STATES

**\*858. Prof. K. T. Shah:** (a) Will the Honourable Minister of Communications be pleased to state the number of aerodromes in India (including those in acceding States or those States that have merged in the Union of India) owned by:

- (i) the Ministry of Communications;
  - (ii) the Royal Indian Air Force; and
  - (iii) those owned and controlled by any air operating companies for their exclusive use?
- (b) When do Government propose to acquire such aerodromes, if any, as are under private ownership, and over which Government have no control at present?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) (i) The number of aerodromes in India owned by the Ministry of Communications is forty-six. Aerodromes located in the acceding States or the States which have merged in the Indian Union are owned by the States concerned and not by the Ministry of Communications.

(ii) There are two hundred and two aerodromes under the Control of the Royal Indian Air Force. This figure includes 164 aerodromes which are not properly maintained but where only runways, hardstandings and taxi-tracks are being retained for use in an emergency.

(iii) There are two aerodromes which were until recently controlled by an air operating Company for its own exclusive use. This Company has now gone into liquidation and the future of the aerodromes is being examined.

(b) The taking over by Government of aerodromes under private ownership will depend on the extent to which such aerodromes are utilised or required for public air transport.

#### ACQUISITION OF RAJKOT AERODROME BY GOVERNMENT

**\*859. Prof. K. T. Shah:** (a) Will the Honourable Minister of Communications be pleased to state whether it is a fact that the aerodrome at Rajkot, capital of Saurashtra, is owned by or leased to a single Air Transport Company, on a monopoly basis for twenty years?

(b) Do Government intend to allow that monopoly to continue for the full term of the agreement between the Rajkot State and the Company concerned or do they propose to acquire the Aerodrome for public use before the

Air Transport Licensing Board takes up for consideration applications for operation of various internal air services in the areas concerned?

(c) Are Government aware that because of the existing monopoly of Aerodrome at Rajkot, the Air Transport Licensing Board has not been able to give licences to other Air Transport Companies wanting to call at Rajkot?

(d) Has the Saurashtra Government expressed any views on this subject?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) The Rajkot aerodrome was leased by the Rajkot Darbar to the Ambica Airlines for a period of twenty years, on a monopoly basis.

(b) The question of the continued validity of the monopoly agreement between the Rajkot Darbar and the Ambica Airlines in the new constitutional position of Saurashtra is being examined. Meanwhile, following the going into liquidation of Ambica Airlines, the liquidator has, at the instance of the Saurashtra Government agreed to the Air Services of India Limited using the Rajkot aerodrome on their scheduled air services.

(c) This was previously the case, but as I have stated in reply to part (b), Air Services of India have now been given a licence to operate air services to Rajkot.

(d) Saurashtra Government have suggested that Rajkot aerodrome along with other aerodromes in Saurashtra should be taken over by the Central Government. The matter is under examination.

#### PURCHASE OF FOODGRAINS IN FOREIGN COUNTRIES

**\*860. Prof. N. G. Ranga:** Will the Honourable Minister of Food be pleased to state:

(a) from what sources, Governmental or private, Government purchase food grains in each of the supplying countries;

(b) what their comparative prices and quantities have been in the year 1948;

(c) whether there are conditions stipulated by the Government of the supplying countries as to their purchases from private agencies, price-levels, etc.; and

(d) in what countries the offers of private concerns have been rejected and for what reasons?

**The Honourable Shri Jairamdas Doulatram:** (a) Government of India purchase foodgrains from the following countries through sources mentioned against them:

*Australia.*—Australian Wheat Board—for wheat and flour Australian Barley Board for barley.

*Argentina.*—Institute for the Promotion of Trading—for all grains.

*Burma.*—State Agricultural Marketing Board—for rice.

*Siam.*—Siam Rice Agency—for rice.

*French Indo-China.*—Cereals Committee—for rice.

*Canada.*—Wheat Board—for wheat and flour.

*U. S. A.*—U.S. Department of Agriculture—for all grains.

*Russia.*—All Union Corporation Export—help—for all grains.

*Yugoslavia.*—Directorate of Cereals Trading—for all grains.

*Egypt.*—Government of Egypt—for rice.

*Iraq.*—Sole agents appointed by the Government of India for all grains.

*East Africa.*—Through Indian Trade Commissioner in Mombasa for all grains.

Besides purchases through the above sources in the countries named, *ad hoc* purchases are made through trade channels in India, as for example, wheat from

## PROCUREMENT AND STORAGE OF SEED GRAINS

**\*866. Ch. Ranbir Singh:** Will the Honourable Minister of Agriculture be pleased to state what arrangements exist to assist the Provinces and the Centrally Administered areas in the procurement of seed grain and in the storage of seed grain so as to preserve its germinating power and protect it against insects, diseases and other pests?

**The Honourable Shri Jairamdas Doulatram:** Ordinarily the provinces and Centrally Administered areas are expected to multiply seed needed by them first through government seed farms which distribute seed to 'A' Class of growers who return to Government the harvested grain which is further multiplied through a larger number of 'B' Class growers, whose harvest is distributed as seed to the general cultivators.

These steps are being taken by most provinces where any areas stand in need of special assistance in regard to seed for the next season's crop, the Central Government tries to help by procuring seed from more favourably situated provinces. With regard to storage of seed the following steps have so far been taken in the Centrally Administered areas of Delhi and Ajmer-Merwara:

- (a) Constructional improvement in the existing seed store.
- (b) Practical training to store-keepers in the hygienic methods of keeping the seedgrains in storage free from insects and rats.
- (c) Storage courses are being organised as a part of the Plant Protection courses for the benefit of the villagers and agricultural workers.
- (d) Treatment of cereal seeds mostly wheat and jowar with fungicidal dust to protect them from diseases and improve their germination. In Ajmer-Merwara about 8,000 maunds of wheat and Jowar seeds have been treated during 1948-49 and distributed to the cultivators. In Delhi about 400 maunds of wheat seed was treated before the last rabi sowing.
- (e) A set of suitable instructions have been issued to the Agricultural Officers for guidance of store-keepers in seed stores.

Work on the above lines is also being organised by the various Provincial Governments, in their respective provinces with the assistance of the Directorate of Plant Protection of the Central Government.

## RAILWAYS CONTRACT WITH MESSRS. A. H. WHEELER AND COMPANY

**\*867. Shri R. M. Nalavade:** (a) Will the Honourable Minister of Railways be pleased to state whether Government have entered into any contract with Messrs. A. H. Wheeler and Company, Booksellers?

- (b) If so, when was the last contract entered into?
- (c) Do Government propose to place a copy of that contract on the table of the House?
- (d) Are the old Messrs. A. H. Wheeler and Company carrying on business under the same name or have they altered it recently and if so, what is the present name?

**The Honourable Shri K. Santhanam:** (a) to (d). A statement setting out the information asked for is laid on the table.

## STATEMENT

(a) Government as such have not entered into any contract with Messrs. A. H. Wheeler & Co., booksellers but some of the Indian Government Railways such as Assam, B. B. & C. I., B. N., E. I., G. I. P. and O. T. Railways have individually entered into contract with this firm of booksellers.

(b) The last contracts on the various Railways were entered into on the dates specified against each below:

O. T. Railway.—1st January, 1949.

Assam Railway.—1st April, 1943 (Contract entered into originally by the old B. A. Railway).

B. N. Railway.—1st October, 1947.

E. I. Railway.—1st October, 1947.

B. B. & C. I. Railway.—1st January, 1942.

G. I. P. Railway.—Information still awaited from the railway, which on receipt, will be placed on the table of the House.

(c) The only contract which is readily available is that entered into by the E. I. Railway in 1937 and a copy thereof is placed on the table of the House.

(d) The old A. H. Wheeler & Co. are carrying on business under the same name and have not altered it so far.

ARTICLES OF AGREEMENT made the third day of April, 1937, between the GOVERNOR GENERAL IN COUNCIL represented by the East Indian Railway Administration (hereinafter called "the Licensor") of the one part and Messrs. A. H. WHEELER & COMPANY, a partnership firm carrying on business as booksellers and stationers and having their principal place of business at Allahabad (hereinafter called "the Licensees") of the other part. Whereby it is agreed by and between the parties hereto as follows:—

1. The Licensor hereby grants to the Licensees, for the term and subject to the conditions and reservations hereunder written, the sole right of selling newspapers, books and other literature both in English and Vernacular not of an objectionable nature, on stations of the East Indian Railway, and also of erecting bookstalls for the sale of newspapers and other literature both in English and Vernacular of similar nature, and, such miscellaneous articles as pertain to the travelling requirements of passengers on the platforms at such stations of the East Indian Railway at which the Licensees may desire to establish them and at which the Chief Commercial Manager of the East Indian Railway or such other officer as may be authorised in this behalf may agree to accept them.

The site and space to be occupied by such bookstalls as also their design shall be determined by the said Chief Commercial Manager or the said Officer and shall be limited as he may direct. Should at any time during the continuance of this Agreement the Licensor or the said Chief Commercial Manager or the said Officer require the entire removal from a station or transfer to some position other than originally allotted, of any or all bookstalls, the Licensees will at their own expense remove or transfer such bookstall or bookstalls as required without delay and no claim shall lie against the Licensor. The Licensor or the said Chief Commercial Manager or the said Officer shall have the right to prohibit the sale at bookstalls or on platforms of any book, newspaper or other literature or article which he considers to be indecent or otherwise objectionable, his decision being final and binding on the Licensees. Such bookstalls shall provide space for the exhibition of advertising posters, panels or plates.

2. This License shall come into force from the First day of April, 1937 and shall terminate on the 31st day of March, 1942 and may after the expiration of the said period be renewed for a further period of five years on such terms and conditions as the Licensor may deem fit to impose.

3. The Licensees shall pay to the Licensor yearly a lump sum of Rs. 6,500 for the rights granted in Clause 1 hereof, such yearly sum to be paid in advance to the Treasurer of the East Indian Railway at its Head Office at Calcutta on the First day of April, each year. In addition, the Licensees shall deposit with the Licensor a sum of Rupees Ten Thousand in Government paper as security against the due and proper fulfilment of this contract. This deposit shall be refundable on expiry of six months after termination of this Agreement.

4. The Licensees also shall pay to the Licensor a sum equal to forty per cent. of the gross advertising revenue derived from advertisements displayed on the bookstalls in accordance with contracts, existing and future, concluded in Great Britain, and fifty per cent. of all gross advertising revenue derived from advertisements displayed on the bookstalls in accordance with contracts existing and future, concluded in India provided that the Licensees' and published bills and cards and manufacturers' notices referring to books, papers and magazines or small miscellaneous articles sold on the stalls will not be considered advertisements to be accounted for. All advertisements, books and cards referred to herein will be subject to the approval and acceptance of the said Chief Commercial Manager or the said Officer and none shall be displayed which are objected to by the said Chief Commercial Manager or the said Officer.

5. The Licensees will make arrangements for filling the advertising spaces on the bookstalls and shall furnish the said Chief Commercial Manager or the said Officer with copies of all contracts entered into with advertisers. In addition, they shall also permit the said Chief Commercial Manager or the said Officer to secure advertisements for these spaces, the Licensor being entitled to fifty per cent. of the gross revenue therefrom.

Ethiopia and millets from Australia or by Embassies, e.g. certain purchases made recently by the Indian Embassy in Turkey.

(b) It will not be in the public interest to disclose the information asked for.

(c) In most countries export of foodgrains is controlled by Governments and handled by organizations set up by them and the question of purchases from private agents does not arise. Export prices are fixed by Governments and importers have to buy at these prices.

(d) In view of Government control on foodgrains exports in the major exporting countries the scope for private trade in foodgrains is extremely limited. Government of India, however, continue to receive offers of foodgrains from the trade for supply from all countries but except to the limited extent indicated in (a) above, these offers cannot be accepted on one or more of the following grounds:

- (i) High prices.
- (ii) Demand for payment in hard currency.
- (iii) Offers not being covered by proper export licences.

#### MARINE FISHERIES

**\*861. Shri Basanta Kumar Das:** Will the Honourable Minister of Agriculture be pleased to state:

(a) the names of centres where marine fisheries have been established by the Government of India;

(b) the quantities of fish obtained from these centres separately during the year 1948;

(c) the quantities processed and the quantities utilised fresh;

(d) the plan of extension and development of such fisheries during the current year; and

(e) the number of trawlers working in different fisheries?

**The Honourable Shri Jairamdas Doulatram:** (a) to (d). The Government of India have not yet established any centres of marine fisheries but have started only a Pilot Deep Sea Fishing Scheme at Bombay, the main objective of which is to chart fishing grounds, determine fishing seasons and assess the suitability of different kinds of vessels and equipment in Indian waters etc. An ex-naval vessel 'Meena' has been converted into a fishing trawler and is engaged in experimental fishing operations at Bombay since 19th January, 1948.

(e) Only one at present.

#### EXPENDITURE ON GROW MORE FOOD CAMPAIGN IN 1948

**\*862. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Agriculture be pleased to state the amount of money spent on 'Grow More Food' in each province in the year 1948?

(b) What portion of this was contributed by the Centre?

(c) What amount is going to be provided for this purpose in the year 1949-50 for each province?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). The information required is being collected and will be furnished to the House in due course.

(c) Rs. 5-84 crores.

#### LOCATION OF ASSAM RAILWAY WORKSHOPS

**\*863. Srijiut Kuladhar Chaliha:** (a) Will the Honourable Minister of Railways be pleased to state whether the Railway workshop of Assam Railways is going to be located at Bongaigaon?

(b) Do Government propose to consider the advisability of locating the workshop at Moriani or Lumding in Assam which is at the centre of the province?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The site for the new workshop for the Assam Railway has not yet been finally selected. Lanka and Bongaigaon are the two sites under consideration.

(b) Mariani and Lumding were duly considered and found unsuitable from Engineering and other considerations.

#### TELEPHONE CONNECTIONS TO PRIVATE SUBSCRIBERS IN PATNA

**\*864. Shri Jadubans Sahay:** (a) Will the Honourable Minister of Communications be pleased to state how many telephone connections were granted to private subscribers during the last two years at Patna and how many of them were given to medical practitioners?

(b) How many applications from medical practitioners are pending in the office of the Postmaster-General or Divisional Engineer, Telegraphs (Bihar), Patna?

(c) Have the Medical Practitioners been given preference for getting telephone connection?

**Shri Khurshed Lal** (Deputy Minister for Communications): (a) 23 permanent and 9 temporary, of which 2 permanent and 1 temporary connections were given to private Medical Practitioners.

(b) Eighteen.

(c) Yes.

#### LOSSES ON ACCOUNT OF THEFT AND DAMAGE TO GOODS ON RAILWAYS

**\*865. Shri L. S. Bhatkar:** (a) Will the Honourable Minister of Railways be pleased to state the amount of losses incurred by Government during each of the years 1945, 1946, 1947 and 1948 on account of (i) theft of goods and (ii) damage to goods on all the Indian Railways?

(b) What steps have Government taken to reduce these losses?

(c) What is the amount of liability incurred by Government on loss of goods in transit during the above period?

**The Honourable Shri K. Santhanam:** (a) and (c). A statement setting out the information is laid on the table of the House.

(b) I invite the honourable member's attention to my reply given to part (d) of starred question No. 749 asked by Shri B. N. Munavalli on 28th February 1949.

#### STATEMENT

*Approximate amount of claims paid by Government during each of the years 1945, 1946, 1947 and 1948 on account of (i) theft of goods, (ii) damage to goods, and (iii) liability incurred on loss of goods in transit.*

|      | On account<br>of theft of<br>goods. | On account<br>of damage to<br>goods. | Liability<br>incurred on<br>loss of<br>goods in<br>transit. |
|------|-------------------------------------|--------------------------------------|-------------------------------------------------------------|
|      | Rs.                                 | Rs.                                  | Rs.                                                         |
| 1945 | 15,62,640                           | 8,28,879                             | 67,31,742                                                   |
| 1946 | 16,85,049                           | 7,33,963                             | 62,47,903                                                   |
| 1947 | 30,08,490                           | 11,21,494                            | 67,84,038                                                   |
| 1948 | 36,26,920                           | 13,39,817                            | 85,81,080                                                   |

6. The Licensees shall pay rental charges for electric equipment at such rates as may from time to time be determined by the Licensor by giving to the Licensees in writing one British Calendar month's notice thereof, and the Licensees shall pay the said rental charges regularly in advance for each month for which the same are due.

The Licensees shall pay to the Licensor for electric energy supplied and as recorded by the meter installed at the rate of 3½ annas per B.O.T. unit (exclusive of any local, government or municipal tax) or at such rates as may, from time to time, be determined by the Licensor by giving to the Licensees in writing one British Calendar month's notice thereof and the Licensees shall pay such charges within 15 days of demand.

The Licensees shall be guided in all respects by the "Electricity supply rules and regulations" issued by the Chief Electrical Engineer of the East India Railway a copy of which is attached to the meter installed.

In the event of any default by the Licensees in payment for energy consumed or rental of electrical equipment the Licensor shall have the right to make good the amount due for payment from the security deposited with the Licensor to the extent available and shall have the right to disconnect the supply of electricity until such time as they shall have made good the default in payment and have restored the security deposit to the full amount.

7. The Licensees shall prepare and submit to the said Chief Commercial Manager on the 30th June of each year, statements showing the share payable to the Licensor for all advertisements exhibited on bookstalls on the East Indian Railway during the previous financial year ending 31st March and calculated on the rates set forth in Clause 4 of this Agreement.

8. The Licensees shall pay to the Licensor the amounts due to the Licensor simultaneously with the submission of the statements referred to in Clause 7 above, irrespective of whether the Licensees have realized the same from the advertisers or not and shall be liable to pay on demand any additional sums claimed by the Licensor and not included in the statements owing to the incompleteness or incorrectness thereof.

9. The Licensees shall keep proper and regular accounts of all transactions and business secured in connection with advertisements on the bookstalls on the East Indian Railway, and shall allow such accounts and all books and documents in connection therewith to be inspected from time to time by a responsible person deputed at any time by the said Chief Commercial Manager or the said Officer for the purpose.

10. If whenever any amounts or parts of any amounts payable by the Licensees under this Agreement shall be in arrear for the space of three months after the same shall have been due whether the same shall have been legally demanded or not, or if and whenever the Licensees shall assign or transfer or charge or dispose of this Agreement or any right or privilege thereby granted without the consent in writing of the said Chief Commercial Manager or shall commit any other breach of the provisions herein contained and on the Licensees' part to the observed and performed, the said Chief Commercial Manager may, on giving one month's notice in writing to the Licensees determine this License on expiry of the notice but without prejudice to the Licensor's right to recover all arrears of amounts then due.

11. The Licensees shall not at any time assign or otherwise transfer this Agreement or the rights and privileges hereby granted or any of them without the consent in writing of the said Chief Commercial Manager having been previously obtained for that purpose.

12. The Licensees shall be required to provide sufficient permanent staff to carry out efficiently the obligations undertaken by them. All vendors of papers and all other persons employed by the Licensees at all bookstalls on the East Indian Railway's stations shall, at the expense and cost of the Licensees, be equipped and clad in such uniforms and in such manner as the said Chief Commercial Manager or the said Officer may from time to time determine.

13. The sale prices of books and other literature shall not exceed prices charged by booksellers in Calcutta plus Railway freight charges, and the said Chief Commercial Manager or the said Officer shall be at liberty, at any time during the continuance of this License, to criticise the prices charged by the Licensees in their said bookstalls and the character and newness of the literature and other articles exposed for sale, the uniforms of the staff employed and the method of sale adopted, and the Licensees shall use their best endeavours to give effect to any such criticism.

14. The Licensees shall, with the assent of the said Chief Commercial Manager be at liberty to close down and remove for a fixed period any bookstall erected at any of the Licensor's stations on the East Indian Railway if after the expiration of one year from the erection thereof it shall be found to be working at a loss. In the event of a bookstall being closed by the Licensees without the assent of the said Chief Commercial Manager,

the said Chief Commercial Manager shall have liberty to invite any other firm or person to open a bookstall at the station referred to on such terms and conditions as the said Chief Commercial Manager may decide.

15. The Licensor shall undertake the carriage both in local and through booking, of all bookstalls, bookstall parts and fittings, books, magazines, papers, all miscellaneous articles and travellers' requisites intended for Licensees' advertising and bookstall business, at the following rates which will apply over the East Indian Railway system only:

- (1) When booked by goods train at Owner's risk, one-fourth of a pie per maund per mile subject to the ordinary Goods Tariff restrictions as to weight, measurement and minimum freight.
- (2) When booked by passenger or express parcel trains at Owner's risk (but not by mail trains):—
  - (i) Half-parcels rate if 5 seers and under subject to a minimum charge of three annas in local booking and six annas in through booking.
  - (ii) One quarter parcels rate if over 5 seers subject to no single package so booked exceeding forty seers in weight or eight cubic feet in measurement and to a minimum charge of three annas in local booking and six annas in through booking.

Consignments under these concession rates to be declared and booked as "Messrs. A. H. Wheeler & Co.'s Bookstall Stores" and to be guaranteed by Licensees to be solely for the purpose of giving effect to this Agreement.

16. The Licensor agrees to issue to the Licensees two first class, four second class, two intermediate class and eight third class periodical free card passes, the first class passes to be used by the Managers of the Licensees and the other passes by servants when travelling on the work of the Licensees appertaining to the bookstalls under this Agreement.

17. Any breach of any of the terms of this License or of the rules and regulations of the Licensor which may be committed by the Licensees or their agents, workmen or servants, shall entitle the said Chief Commercial Manager to cancel the passes so agreed to be given as aforesaid and to refuse to renew them and to exercise his right under Clause 10 hereof.

18. The Licensor's servants shall not under any circumstances be employed either directly or indirectly to distribute any circular, prospectus or notice of any kind whatsoever in connection with the advertisements exhibited under the terms of this License.

19. The Licensees shall maintain their bookstalls and all advertisements and notices or cards on exhibition thereat in proper order and repair to the satisfaction of the said Chief Commercial Manager.

20. The bookstalls, with all their contents, appurtenances, fittings and fixtures placed under this Agreement on the platforms of stations on the East Indian Railway shall at all times, be entirely at the risk of the Licensees and the Licensor will not be liable for any loss or damage thereto arising from any cause whatsoever.

21. Within three months of the determination of this Agreement either by efflux of time or otherwise the Licensees shall remove all bookstalls together with all advertisements thereon or other materials or erections which may have been placed upon the property or premises of the East Indian Railway under provisions of this Agreement, without any objection or claim for compensation whatsoever. In the event of defaults by the Licensees, it shall be lawful for the said Chief Commercial Manager or the said Officer to remove or cause to be removed the said stalls and materials and to sell them by auction, and recover any amount due from the Licensees, under the terms of this Agreement, from the sale proceeds, placing the balance, if any, at the credit of the Licensees to be paid to them on demand.

In witness whereof the parties hereto have hereunto set their hands the day and year first above written.

# UNSTARRED QUESTIONS AND ANSWERS

56—63. [See pages 1225—42]

## TRANSMISSION OF MESSAGES BY WIRELESS ON SOUTH INDIAN RAILWAY

**64. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the wireless system continues on the South Indian Railway as an auxiliary circuit to the land line telegraphs, and that only routine plain language messages tendered at the land line Railway telegraph offices are being generally transmitted by wireless and not cipher code telegrams?

(b) What are the percentages of messages sent by wireless and through land line telegraph in that Railway?

(c) Is such transmission of messages by wireless confined to the South Indian Railway home line stations only or for outside stations also?

(d) What is the average annual recurring expenditure towards the maintenance of wireless staff in the South Indian Railway and how many wireless operators are employed?

(e) Is it a fact that many of the wireless operators in the South Indian Railway were recruited from among junior signallers who possess no diploma in wireless courses?

(f) What is the grade of wireless operators—do they come under signallers or form a separate cadre?

(g) Is it a fact that in the Madras and Southern Marhatta Railway, the signallers were given training in sending and receiving messages by wireless and termed as wireless signallers and are being paid only the ordinary signallers grade?

(h) Are the South Indian Railway authorities planning to give wireless training to the existing signallers as done by the Madras and Southern Marhatta Railway?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) The wireless system on the S. I. Railway is used as an auxiliary circuit to Land Line Telegraphs. Urgent routine messages are transmitted in plain language and secret messages in cipher.

(b) Out of the total messages on the S. I. Railway, 14 per cent. are sent on wireless and the remainder on Land lines, but 30 per cent. of the messages originating at the 10 wireless transmitting stations are handled by wireless.

(c) Messages through wireless are sent to both home and foreign railway stations.

(d) There are 34 wireless operators and the annual recurring expenditure is Rs. 97,000.

(e) During the war, due to dearth of certified wireless operators, signallers were appointed as wireless operators.

(f) Wireless operators have a separate cadre in the grade of Rs. 80—5—120-EB—8—200—10/2—220.

(g) During the war selected signallers were trained in receiving and despatching wireless messages and were paid 10 per cent. allowance for the additional qualification. Signallers now recruited are required to undergo training in wireless telegraphy as a part of the curriculum but are not given any extra allowance, as the grade of pay now applicable to signallers, under the prescribed scale of pay, is considerably higher than before.

(h) Selected Signallers from among those already in service having good speed are trained as wireless operators.

## EXPENDITURE ON DEPUTATIONS FROM INTERNATIONAL CONFERENCES AND TRADE PURPOSES

**65. Shri Ari Bahadur Gurung:** (a) Will the Honourable Minister of Commerce be pleased to state the number of Officers and other personnel sent on deputation to foreign countries during the year 1948 for international conferences and trade purposes?

(b) What was the amount of expenditure incurred on each deputation?

**The Honourable Shri K. C. Neogy:** (a) and (b). The attention of the Honourable member is invited to the reply given by me on the 21st February 1949 to Starred Question No. 527 by Pandit Mukut Bihari Lal Bhargava.

## IRON AND COAL MINES OF TALCHER (ORISSA)

**66. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Industry and Supply be pleased to state for how long the coal mines of Talcher (Orissa) Coal Field have been worked?

(b) What has been the total output of coal from these mines so far?

(c) What is the estimated production in the future?

(d) By what time will the coal mines of Talcher be exhausted?

(e) Are there iron deposits also in Talcher and if so, how much?

(f) When will the iron mines of Talcher be worked?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) (i) M. S. M. Talcher Colliery 18 years and 6 months, (ii) B. N. Railway Deulbera Colliery 16 years and 10 months, (iii) M/s. Talcher Coalfields Ltd., Talcher 25 years and 2 months.

(b) (i) M. S. M. Railway Talcher Colliery 2,932,600 tons, (ii) B. N. Railway Deulbera Colliery 1,545,074 tons, (iii) M/s. Talcher Coalfields Ltd., Talcher 1,941,022 tons.

Total 6,418,706 tons.

(c) (i) M.S.M. Railway Talcher Colliery 1,626,700 tons, (ii) B.N. Railway Deulbera Colliery 8,440,000 tons, (iii) M/s. Talcher Coalfields Ltd., Talcher 50,000,000 tons

Total 60,066,700 tons.

(d) (i) M.S.M. Railway Talcher Colliery about 80 years, (ii) B. N. Railway Deulbera Colliery about 70 years, (iii) M/s. Talcher Coalfields Ltd., Talcher about 35 years.

(e) The iron ore deposits occur as concretions weathered out of the Damuda Iron Stones or as Pisolitic Nodules. The occurrences are not extensive and on account of their variable nature no estimates of ore reserves have been made.

(f) Extensive deposits of rich Iron Ore occur in several parts of the Indian Dominion. Exploitation of Iron Ores of Talcher, on a large scale is, therefore, unlikely.

## INDIAN SILK YARN USED FOR MAKING PARACHUTES

**67. Shri K. Hanumanthaiya:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the quantity of Indian Silk yarn utilised by ordnance and other factories for making parachutes during the world war II?

(b) What were the rates of purchase of these parachutes?

(c) What was the total value of the Indian Silk yarn so used?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) No silk yarn (apart from sewing thread) was used by the Ordnance Factories. Silk fabrics, cordage, tapes and sewing threads were purchased and used.

(b) No parachutes were purchased from trade. Parachutes were fabricated by the Ordnance Factories.

(c) Does not arise. The value of silk fabrics etc., actually used for the manufacture of parachutes was about Rs. 2 crores and ten lakhs.

### TRANSFERRED STARRED QUESTIONS AND ANSWERS†

#### G. P. FUND ACCOUNTS OF REFUGEE OFFICIALS

**\*795. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Finance be pleased to state whether it is a fact that refugee retired officials who have opted out for India do not get interest in respect of their General Provident Fund balances and interest thereon up to the date of disbursement?

(b) Do their deposits carry interest up to the date of disbursement and if not, why not?

(c) Are Government aware that refugees from West Pakistan, who were in the service of local bodies, are not paid their provident fund amounts despite several requests and reminders sent by refugees to the local authorities and the Government of Pakistan?

(d) Do Government intend to take up this matter with the Government of Pakistan?

**The Honourable Dr. John Matthai:** (a) and (b). The question has been under active consideration, and Government's orders are expected to be issued very shortly.

(c) Yes.

(d) The matter was taken up with the Government of Pakistan, and it has been agreed that each Dominion will do its best to ensure speedy payment of dues by the local bodies concerned. A Press Note on this subject was issued by the Ministry of Relief and Rehabilitation on the 29th January, 1949.

#### ADULT EDUCATION IN DELHI

**\*796. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Education be pleased to state whether adult education for persons in the age group of 12 to 45 has been introduced in Delhi Province and if so, how many adults take advantage of it?

(b) Is the scheme open both to the rural and urban areas of Delhi Province?

**The Honourable Maulana Abul Kalam Azad:** (a) and (b). Yes, Sir.

The Municipal Committee of Delhi has started 60 centres in Delhi City. About 800 persons have registered themselves at these centres. In addition there are a number of casual students. A comprehensive scheme of Social Education has been sanctioned for rural areas as well. Three Educational Melas have been held and 32 District Board teachers have been specially trained for opening centres in rural areas.

† The meeting of the Assembly fixed for 2nd March, 1949, having been cancelled, the answers to starred questions for that day were, in pursuance of convention, laid on the table of the House today.—*Ed. of D.*

#### REQUISITIONING OF IMMOVABLE PROPERTIES IN CANTONMENTS

**\*797. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Defence be pleased to state the number of notices for resumption or requisition of immovable properties issued by the Military Estate Officers in various Cantonments in India during 1948?

(b) Were the properties so proposed to be requisitioned needed in all cases for military purposes? If so, what are they and if not, for what other purpose were they so requisitioned?

(c) Does the Estate Officer obtain the permission of Government before such notices are issued?

(d) Are such notices of requisition published in the *Gazette of India*?

(e) Is any compensation awarded for such requisition and what is the authority which decides the amount of compensation?

**The Honourable Sardar Baldev Singh:** (a) and (b). No immovable property was requisitioned in any of the Cantonments in India during 1948. Notices were however issued in ten cases for resumption of Government land held on tenure in Cantonments. In one case the notice was issued because the land was required for military purposes, while in the other cases this was necessitated by one or other of the following reasons: (i) breach of tenure; (ii) neglect of buildings which were falling into ruin; (iii) occupant not traceable; or (iv) surrender of property by occupant. I would point out here that one of the conditions on which the grant of these lands was made was that Government would have the power of resumption at any time on giving one month's notice and paying the value of such buildings as may have been authorised to be erected.

(c) Yes.

(d) The Rules do not require that such notices should be published in the official gazette.

(e) Yes, compensation is paid and the amount is decided by Government.

#### MERGER OF BHOPAL

**\*798. Seth Govind Das:** (a) Will the Honourable Minister of States be pleased to state whether Government are aware of the recent agitation started by the people in Bhopal for merger in the provinces?

(b) Are there some negotiations going on between the Government of India and Bhopal Government in this respect?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes.

(b) Yes.

#### ORDNANCE FACTORY AT KHAMARIA, JUBBULPORE

**\*799. Seth Govind Das:** Will the Honourable Minister of Defence be pleased to refer to his promise made during the last August-September session of the Assembly that the Ordnance Factory at Khamaria (Jubbulpore) would shortly begin to work and state when this factory will begin to work in full swing?

**The Honourable Sardar Baldev Singh:** The factory will, it is hoped, be in full swing by about the end of 1949. Progress has not been as rapid as was anticipated owing largely to difficulties in securing the services of an adequate number of technical manpower. To some extent also, progress has been held up owing to a desire to undertake production of new lines of which import had been difficult.

(e) What are those irregularities?

(f) Do Government intend to establish them on a better basis after regularization or otherwise?

**The Honourable Dr. John Matthai:** (a) None.

(b) Presumably the honourable member refers to joint stock banks. I would invite his attention to sections 17 and 18 of the Reserve Bank of India Act which lay down the manner in which banks may be assisted by the Reserve Bank of India. Assistance under section 17 is confined to scheduled banks against prescribed securities. Section 18 covers assistance to other banks as well and accommodation under this section is available when in the Reserve Bank's view an emergency has arisen. The general policy is to assist sound units in the banking system to enable them to tide over any crisis beyond their control. The Reserve Bank also offers advice and guidance to scheduled as well as non-scheduled banks by issue of circulars from time to time on important aspects concerning bank management.

(c) No; the attention of the honourable member is invited to Section 11 of the Banking Companies Bill recently passed by this House.

(d) Presumably the honourable member requires information subsequent to the 2nd September 1948, the date on which the Reserve Bank Nationalisation Bill was introduced. If so, the number is five.

(e) The irregularities are of the following nature:

Indiscriminate branch expansion, advances against unmarketable shares, heavy advances to directors and the concerns in which they are interested, speculative transactions on Stock Exchanges etc.

(f) The intention of warning and bringing irregularities to the notice of the banks is that they should rectify the defects and work on sound lines. It is not possible for the Government or the Reserve Bank to undertake actual reconstruction of banks.

#### HOME GUARDS AND *Prantiya Raksha Dal* IN AJMER MERWARA

\*307. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether it is a fact that the schemes prepared by the Provincial Government for the organisation of Home-Guards and *Prantiya Raksha Dal* in the Province of Ajmer-Merwara are being held up for want of provision for expenditure on such schemes in the current budget?

(b) If so, do Government propose to make due provision for this in the budget for 1949-50 and issue necessary instructions to the Chief Commissioner to implement the schemes?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). A beginning was made with the scheme for Home Guards in Ajmer-Merwara but it has since been abandoned due to inadequate response from the right type of persons and its being too expensive for the purpose it was meant to serve. A scheme for starting a *Prantiya Raksha Dal* has now been prepared and recently approved by the Standing Advisory Committee attached to the Ministry of Home Affairs. The question of according the necessary financial sanction is under consideration.

#### NATIONAL CADET CORPS BRANCH IN AJMER MERWARA

\*308. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Defence be pleased to state whether any branch of the National Cadet Corps has been started in the Province of Ajmer-Merwara?

(b) If so, what progress has so far been made in the direction, and if not, by which date is such a branch intended to be started in that Province?

**The Honourable Sardar Baldev Singh:** (a) Yes.

(b) Two Junior Troops, totalling 6 officers and 180 Cadets have been raised and training has started. Ajmer-Merwara was allotted a strength of 10 officers and 300 cadets of the Junior Division which works out to three Junior Troops and one sub-unit. The Ajmer-Merwara Administration sent 8 officers for training in the summer vacation of 1948 and only 6 of them qualified. They intend to send the remaining four officers this summer together with the officers required for the additional units which are to be raised by them this year, namely 1 Infantry Company of the Senior Division, totalling 5 officers and 154 cadets, and 5 officers and 150 cadets in the Junior Division.

#### MUNICIPALITIES AND DISTRICT BOARD IN AJMER-MERWARA

\*309. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Health be pleased to state whether Government are aware that the financial position of all the Municipalities of Ajmer, Beawar and Kekri and that of the District Board in the Province of Ajmer-Merwara is very precarious?

(b) If so, how do Government intend to assist them in improving the same?

(c) Have the Government of India received any representation from the Municipalities of Ajmer and Beawar for financial aid to cope with the increased burden caused by the rise in the pay and dearness allowances of the Municipal Staff granted according to the recommendations of the Central Pay Commission?

(d) If so, when were these representations received and what action, if any, has been taken upon them so far?

(e) Have Government received any application from the Municipality of Beawar duly recommended by the Chief Commissioner, for sanction to raise a public loan?

(f) If so, when was the said application received and what action has been taken thereon?

**The Honourable Rajkumari Amrit Kaur:** (a) Yes.

(b) The question of financial assistance to local bodies in Ajmer-Merwara is under consideration of Government.

(c) Yes.

(d) Representations from the Municipal Committees of Ajmer and Beawar were received in October, 1946 and March, 1947 respectively. They are under the consideration of Government.

(e) Yes.

(f) The application was received in October, 1948. Orders are expected to be issued shortly.

#### PREVENTION OF ADULTERATION OF FOOD STUFFS

\*310. **Shri K. Hanumanthaiya:** Will the Honourable Minister of Health be pleased to state what steps Government have already taken to prevent adulteration of ghee, milk and other food stuffs?

**The Honourable Rajkumari Amrit Kaur:** I would refer the honourable member to the answer given in this House to Shri B. P. Jhunjhunwala's starred question No. 69 on the 10th August, 1948.

#### RECRUITMENT OF ASSISTANT SURGEONS TO BRITISH AND INDIAN MILITARY HOSPITALS

\*311. **Shri Mahavir Tyagi:** (a) Will the Honourable Minister of Defence be pleased to state whether it is a fact that the recruitment of Assistant Surgeons (I.M.D.) to both British and Indian Military Hospitals was made in India,

## CESS ON INDUSTRY FOR HIGHER SCIENTIFIC EDUCATION AND RESEARCH

**\*800. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Education be pleased to state whether there is any proposal before Government to levy a cess on industry for promoting higher scientific education and research?

(b) What steps are being taken for co-ordination between industries and research institutions for higher scientific industrial research?

**The Honourable Maulana Abul Kalam Azad:** (a) No proposal for the levy of a cess on industry for purposes of promotion of higher scientific education and research is at present under consideration of Government.

(b) The Council of Scientific and Industrial Research has set up an Industrial Liaison Committee for bringing about the necessary co-ordination between industry and research institutions in the country.

## THROWING A MAGISTRATE OUT OF RUNNING TRAIN BY MILITARY OFFICERS

**\*801. Shri H. V. Kamath:** Will the Honourable Minister of Defence be pleased to state:

(a) whether it is a fact that a magistrate of Agra was thrown out of a running train by two military officers between New Delhi and Tughlakabad Railway stations on or about the 24th December, 1948; and

(b) if so, the nature of the action taken against them so far?

**The Honourable Sardar Baldev Singh:** (a) It is alleged that a magistrate was thrown out of a moving train at Tughlakabad Railway station by two service officers.

(b) The case is under police investigation.

## NEXT DECENNIAL CENSUS AND GENERAL ELECTIONS

**\*802. Shri H. V. Kamath:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) what preliminary steps have so far been taken for the next decennial census;

(b) when the census is likely to be completed and the final report published;

(c) whether the next general elections, Central as well as provincial, will in any way be dependent upon the returns of the next census; and if so, to what extent?

**The Honourable Sardar Vallabhbhai Patel:** (a) Arrangements have been made for house numbering and the printing of enumeration slips.

(b) Enumeration will be complete by March 1951 and the All-India Tables will be published possibly by the end of 1951.

(c) According to the present plans, the general elections are proposed to be held earlier than the Census.

## EMPLOYMENT PENSION OR GRATUITY TO I. N. A. MEN AND THEIR FAMILIES

**\*803. Shri H. V. Kamath:** Will the Honourable Minister of Defence be pleased to state:

(a) the amount that has been sanctioned by way of pension or gratuity to the families of those officers and men of Netaji's Indian National Army who were killed in action or to those who were disabled while on active service;

(b) the number of officers and men of the Indian National Army who have been absorbed in Government employ, at the Centre and in the Provinces;

(c) the number of officers or men who are still unemployed; and

(d) the manner in which the amount sanctioned by Government for lump sum grants to disabled personnel of the Indian National Army and to dependants of those killed in action has been disbursed?

**The Honourable Sardar Baldev Singh:** (a) and (d). I would invite the honourable member's attention to the press communique to which I referred in my answer to Starred Question No. 261 asked on the 9th February 1949. A committee set up in the Ministry of Defence has scrutinised all claims and have made recommendations with regard to the amount to be sanctioned in each case, having due regard to the rank of the claimant prior to joining the I.N.A., length of service, cause of death/disablement and its severity and the number of dependants. It is expected that a sum of about rupees three lakhs will shortly be distributed as a result of these recommendations.

(b) and (c). It is regretted that this information is not available, as separate statistics in this regard are not maintained.

## INTERVIEWS BY F. P. S. C.

**\*804. Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Home Affairs be pleased to state how many members there are in the Federal Public Service Commission?

(b) Do Government propose to consider the feasibility of taking the advice of experts at the time of interview of candidates?

(c) Is it a fact that representatives of the departments concerned are also to be present when a candidate is interviewed?

**The Honourable Sardar Vallabhbhai Patel:** (a) Eight, including the Chairman, out of whom four are Additional Members who hold office in a temporary capacity.

(b) Yes.

(c) Yes.

## PURCHASE OF JET-PROPELLED AEROPLANES FROM U. K. FOR USE OF R. I. A. F.

**\*805. Shri K. Hanumanthaiya:** (a) Will the Honourable Minister of Finance be pleased to state how many jet propelled planes were bought by the Government of India for the use of the Royal Indian Air Force from the United Kingdom?

(b) At what cost were they purchased?

(c) Was the amount paid out of the sterling balances?

**The Honourable Dr. John Matthai:** (a) Three jet-propelled aircraft have been purchased from the U. K. for the R.I.A.F.

(b) The cost of each aircraft is approximately Rs. 3.58 lakhs.

(c) Yes.

## BANKS DE-SCHEDULED AND POLICY re PRIVATE BANKS

**\*806. Shri Moturi Satyanarayana:** (a) Will the Honourable Minister of Finance be pleased to state how many banks have been de-scheduled after the introduction of the Reserve Bank Nationalisation Bill and on what grounds?

(b) What is the policy pursued by the Government of India and the Reserve Bank of India in helping private banks?

(c) Have Government any intention to discourage banks with small capitals and working funds?

(d) How many banks have been warned with any punitive action for alleged irregularities?

and that Anglo-Indian Candidates were attached to the British Hospitals and Indians to the Indian Hospitals?

(b) Were the minimum qualifications prescribed for Anglo-Indian candidates lower than those prescribed for Indian candidates, and were the rank and pay of the former higher than those of the latter?

(c) If so, do Government propose to state the respective qualifications, ranks and rates of pay prescribed for Anglo-Indian and Indian candidates?

**The Honourable Sardar Baldev Singh:** (a) Yes.

(b) and (c). The I.M.D. consisted of two cadres, the British and the Indian. Only Europeans, domiciled Europeans and Anglo-Indians were appointed to the British cadre. The qualifications required for that cadre were higher than those prescribed for the Indian cadre. Higher rank and better scales of pay were admissible to members of the British cadre. I lay on the table of the House a statement giving particulars of the qualifications required of, and the rank and pay admissible to, members of the two cadres.

## STATEMENT

*Qualifications, ranks and pay of officers of the I. M. D. (British Cadre) and I. M. D. (Indian Cadre).*

|                                            | Qualifications.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Rank.                                                                                                                    | Pay                                                                                                                                   |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| <b>Assistant Surgeons (British Cadre).</b> | Recruits to the I. M. D. (British Cadre) were first selected for training as military medical students. They were required to have passed the Intermediate examination in Science of a recognised Indian University or any other examination equivalent thereto and after selection they were required to undergo the prescribed course of study in preparation for the M.B.B.S. Degree of the University of Calcutta, Madras or Bombay. During this period of training, they received a stipend of Rs. 60 per mensem. They were required to complete the same course as for the graduates in the Medical College, at the termination of which they were examined by a Special Board. Subsequent to 1937-38 they were required to appear for the M.B.B.S. Degree examination of the respective University. Those who were successful in the above examination were appointed to the I. M. D. as IV Class Assistant Surgeons (Sub-Conductor). | 4th Class<br>3rd Class<br>2nd Class<br>1st Class<br><br>Lieut.<br>Capt.<br>Major                                         | Rs. 200—Rs. 250.<br>Rs. 300—Rs. 330.<br>Rs. 380—Rs. 400.<br>Rs. 450—Rs. 500.<br><br>Rs. 600—Rs. 650.<br>Rs. 750.<br>Rs. 850—Rs. 1000. |
| <b>Assistant Surgeons (Indian Cadre).</b>  | Recruitment to the Indian Cadre I. M. D. was made from among applicants who possessed qualifications of L. S. M. F. (Licentiate of State Medical Faculty) or L. M. P. (Licentiate Medical Practitioner) or equivalent thereto and were directly appointed as Warrant Officers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | W. ## DIFFERENTIAL TREATMENT OF INDIAN AND ANGLO-INDIAN ASSISTANT SURGEONS OF I.A.M.C.

\*812. **Shri Mahavir Tyagi:** (a) Will the Honourable Minister of Defence be pleased to state whether it is a fact that the British and Indian branches of the Army Medical Service have now been amalgamated into a fresh organisation known as the I.A.M.C. (Indian Army Medical Corps)?

(b) Is it further a fact that in the process of amalgamating the I.M.D. cadre of both the British and the Indian hospitals, ten years service of the Anglo-Indian Assistant Surgeon has been balanced against 15 years' service of the Indian Assistant Surgeon?

(c) Is it also a fact that all such Indian Assistant Surgeons (I.M.D.) as had received during the war the King's Commission, now known as "Indian Commission", were under orders to be reverted to their original ranks of the Viceroy's Commission?

(d) Is it a fact that Anglo-Indian Assistant Surgeons (I.M.D.) enjoying similar privileges during the war have either been allowed to retain their King's Commissions, now known as Indian Commissions, or have been awarded departmental commissions?

(e) Why was similar treatment not given to Indians?

(f) Is it a fact that the King's Commission now known as Indian Commission while open to all other members of the I.A.M.C. including clerks, storekeepers, and Anglo-Indian Assistant Surgeons (I.M.D.) is closed to Indian Assistant Surgeons (I.M.D.)?

**The Honourable Sardar Baldev Singh:** (a) Yes; I.M.D. (British Cadre and Indian Cadre), as also I.M.S., have been amalgamated into I.A.M.C.

(b) No. On the amalgamation of the British and the Indian Cadres of the I.M.D. into Special Medical Section (Combined Cadre), the service of the Indian Cadre was not balanced against the service of the British Cadre. What happened was that the pay of an Assistant Surgeon of the Indian Cadre was, irrespective of the length of service, fixed in the pay scales of the British Cadre on the stage next above his existing rates, so that an Indian Assistant Surgeon got more pay than what he was actually getting before the fixation. In the process of this fixation of pay, an Assistant Surgeon on the Indian Cadre with 15 years' service on receipt of Rs. 250 in his cadre was brought on to a pay of Rs. 300, which an Assistant Surgeon of the British Cadre was in receipt of in his tenth year of service.

(c) to (e). Assistant Surgeons of both the British and Indian cadres of the I.M.D. were granted Emergency Commissions during the last war. Indian cadre personnel were granted Indian Commissions, while British Cadre personnel were granted King's Commissions. This was subject to the condition that, when released from commissioned service in accordance with the terms of their recruitment and general demobilisation plan, they will revert to their former cadres, Indian or British, as the case may be. This means that neither Indian Assistant Surgeons of the Indian Cadre nor Anglo-Indian Assistant Surgeons of the British Cadre will continue in the commissioned ranks of the I.A.M.C. Unlike the Indian Cadre personnel, however, those belonging to the British Cadre were always entitled in the past to a number of departmental commissions within the I.M.D. on special rates of pay. These commissions must continue to be admissible to the British Cadre personnel as long as they exist. Indian Cadre personnel were and still are entitled to the grant of the honorary Commissions. The rates of pay for personnel of the Indian Cadre for such commissions are higher than those for personnel who are not granted such commissions.

(f) Clerks, Storekeepers, etc. are being considered for the grant of non-technical commissions in the I.A.M.C. which are not intended for Assistant Surgeons of the I.M.D. whether Indians or Anglo-Indians.

## CHECK ON ACTIVITIES OF COMMUNAL ORGANISATIONS

\*813. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether it is a fact that Government have issued instructions to Provincial Governments to take effective steps to prevent communal organisations from engaging in activities other than religious, social and cultural?

(b) If so, what were the specific instructions and have all Governments carried out these instructions?

(c) Have Government taken similar steps with regard to Centrally Administered Areas and if so, with what result?

**The Honourable Sardar Vallabhbhai Patel:** (a) to (c). I would invite the honourable member's attention to the reply given by me to starred questions Nos. 787, 802, 816 and 857 on the 3rd September, 1948.

## TEMPORARY AND SHORT SERVICE COMMISSIONS IN ARMY

\*814. **Shri Ari Bahadur Gurung:** Will the Honourable Minister of Defence be pleased to state:

(a) the procedure followed in recruiting Officers for Temporary and Short Service Commissions; and

(b) the total number of such Commissions proposed to be given?

**The Honourable Sardar Baldev Singh:** (a) This information is contained in a booklet entitled "The Three Pillars of State" which was published recently and of which I lay a copy on the table of the House. I would also refer the honourable member to another recent publication entitled "The Armed Forces Academy", which deals with entry into the permanent cadre of commissioned ranks in the three Services. A copy of this publication is also placed on the table of the House.

(b) As things stand at present, it is not proposed to grant any more temporary commissions in the Army. It is, however, expected that about 450 Short Service Commission will be granted. As regards the R.I.N. and the R.I.A.F., in which Services no temporary commissions are granted, the number of officers expected to be recruited to Short Service Commissions is approximately 200 and 320 respectively.

## INDIAN FORCES IN KASHMIR

\*815. **Shri Ari Bahadur Gurung:** Will the Honourable Minister of Defence be pleased to state the strength of the Indian Army and Air Force stationed in Kashmir at present, and the expenses incurred daily for their maintenance?

**The Honourable Sardar Baldev Singh:** It would not be in the public interest to disclose this information at present.

## STIPENDS TO INDIAN STUDENTS BY FOREIGN COUNTRIES

\*816. **Shri Ari Bahadur Gurung:** Will the Honourable Minister of Education be pleased to state the number and the amount of stipends granted to Indian Students by foreign countries?

**The Honourable Maulana Abul Kalam Azad:** A statement showing the number and amount of stipends granted to Indian students by foreign countries is placed on the table of the House.

+ Not printed in the day's Debate. A copy has been placed in the Library of the House.-  
Ed. of D.

*Number and the amount of stipends of Indian students by Foreign countries*

| Name of Scholarship                                                                                                                                                                      | Amount of Stipend Granted                                                                                                                                                                                                                                 |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| (b) State College of Washington.                                                                                                                                                         | This is an exchange scholarship to one or more Indian students. The selected candidate is exempted from tuition and sundry fees only.                                                                                                                     |
| (c) Watumal Foundation scholarships and Fellowships etc.                                                                                                                                 |                                                                                                                                                                                                                                                           |
| (i) 34 Indian students awarded Fellowships since 1945, ten (10) of whom have returned to India after completing their courses of studies.                                                | The exact amount of the scholarship is not known.                                                                                                                                                                                                         |
| (ii) Special grants to 54 Private Indian students in the U.S.A. of whom 22 students have returned to India.                                                                              | The exact amounts of the special grants are not known.                                                                                                                                                                                                    |
| (iii) Research and Regular scholarships to 15 students for study in Indian Universities.                                                                                                 | The scholarship varies from Rs. 500/- to Rs. 1,600/- per year.                                                                                                                                                                                            |
| (iv) Facilities secured for practical training of 8 Indian students in 3 American Industries. One trainee has since returned back to India.                                              | Amounts of the stipends are not known.                                                                                                                                                                                                                    |
| (2) <i>Australia.</i> —Four fellowships, tenable in Australia, have been offered by the Australian Government to Indian students. The fellowships are of three types.                    | The Government of Australia will bear the expenses as under :—<br>The Senior Fellow will be paid a living allowance of 11£ (Aust.) per week and additional funds to meet the cost of necessary traveling within Australia, tuition books and instruments. |
| (a) One Senior Fellowship (for a period of six to twelve months).                                                                                                                        |                                                                                                                                                                                                                                                           |
| (b) Two Junior Fellowships (for a period of six months to 1 year)                                                                                                                        | The Junior Fellows will be paid a living allowance of 7£ (Aust., per week and cost of essential tuitions, books and travel within Australia. Passages to and from Australia in cases of both Fellow will also be paid by the Government of Australia.     |
| (c) One Fellowship for graduate studies for two to four years.                                                                                                                           |                                                                                                                                                                                                                                                           |
| (3) <i>France.</i> —The French Government have awarded a number of scholarships to Indian students since 1945 as under :                                                                 | 3-15 sh. per week as living allowance and other allowances as above.                                                                                                                                                                                      |
| 1945-46. . . . . 3                                                                                                                                                                       |                                                                                                                                                                                                                                                           |
| 1946-47. . . . . 4                                                                                                                                                                       |                                                                                                                                                                                                                                                           |
| 1947-48. . . . . 9                                                                                                                                                                       |                                                                                                                                                                                                                                                           |
| 1948-49. . . . . 11                                                                                                                                                                      |                                                                                                                                                                                                                                                           |
|                                                                                                                                                                                          | There are two kinds of stipends which are subject to adjustment if the cost of living increases. The amounts are 11,000 Francs and 15,000 Francs depending on the qualifications of the candidates. The tuition fees and medical aid are free.            |
|                                                                                                                                                                                          | Second class passage from France to India is always paid for but a part or whole of the expenses of outward journey are paid according to the financial conditions of the student.                                                                        |

NOTE.—These scholarships have so far been awarded direct by the French Government. They have, however, decided that from 1949-50 onwards the awards would be made in consultation with the Ministry of Education.

| Name of Scholarship                                                                                                                                                                                                                                          | Amount of Stipend Granted                                                                                                                                                                                                                          |

| (6) <i>United Kingdom.</i> —(a) One Science Research Scholarship offered by the Exhibition of 1851, London. One Scholarship every year.                                                                                                                      | £350 per annum for two years.                                                                                                                                                                                                                      |
| (b) Rhodes Scholarships offered by the Rhodes Trust, Oxford, tenable at the Oxford University. One Scholarship every year.                                                                                                                                   | The value of the scholarship at present is £ 400 a year and is supplemented by a special allowance of £ 100 a year. (This is subject to periodical review by the Trustees in the light of economic conditions and may be reduced or discontinued). |
| (7) <i>United Nations Organisation.</i> —Under their Fellowship programme for 1949, the United Nations Organisation propose to award about 12 Fellowships to Indian Social workers for observation in foreign countries in various fields of social Welfare. | Following terms have been offered by U.N.O.<br>(1) An adequate monthly living allowance.<br>(2) Expenses of Travel within the country of observation upto a specified limit.<br>(3) A specified amount for books.                                  |
| (8) <i>U.N..S.C.O.</i> —Two Fellowships offered by the United Nations Educational, Scientific and Cultural Organisation, for studies in the field of Mathematical Computing machines in the U.K. and U.S.A.                                                  | Each of these is for one year and covers all expenses including travel.                                                                                                                                                                            |

#### RE-ORGANISATION OF OFFICE OF DIRECTOR-GENERAL OF HEALTH SERVICES

\*817. **Shri Ari Bahadur Gurung:** Will the Honourable Minister of Health be pleased to state:

(a) whether the Office of the Director-General of Health Services is going to be re-organised; and

(b) on what basis recruitment to the various offices of the Directorate is being made?

**The Honourable Rajkumari Amrit Kaur:** (a) The question of the reorganisation of the Directorate General of Health Services has been held up pending a decision on the findings of the Economy Committee.

(b) Recruitment to posts in the Directorate General of Health Services is ordinarily made from the ranks of officers in Government service, or when necessary through the Federal Public Service Commission.

#### NAVAL SCHOOL AT COCHIN

\*818. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Defence be pleased to state the number of students in the Naval School at Cochin during the years 1937-38 and 1948-49?

(b) What is the annual expenditure incurred on this School?

(c) What is the annual income from fees?

**The Honourable Sardar Baldev Singh:** (a) There was no Naval School at Cochin during 1937-38. The first Naval Training School was established in Cochin in 1946. The number of trainees in 1948-49 is 464.

- (b) The annual expenditure is of the order of Rs. 14 lakhs.  
 (c) There is no income from fees.

## SUPPLY OF WHISKY TO INDIAN ARMY

**\*819. Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Defence be pleased to state how much of the whisky purchased for the Indian Army in England is consumed by the non-Indian element of the Indian Army?

(b) Cannot their requirements be met by local purchases?

(c) Is this whisky distributed freely or at a low price compared with the control retail price in India?

(d) Is this whisky also supplied to ordinary soldiers and non-Commissioned officers of the Indian Army?

**The Honourable Sardar Baldev Singh:** (a) No statistics are available to show the quantity of whisky consumed by the non-Indian element of the Indian Army.

(b) This may be possible but Government see no advantage in this, since the only effect will be that, instead of Government, private importers will import the same quantity.

(c) No. Whisky is not supplied free nor at a low price. It is strictly rationed and sold at a price which includes such items as customs and excise duties and railway freight.

(d) No.

## REHABILITATION OF REFUGEES FROM KASHMIR

**\*820. Dr. Raghu Vira:** (a) Will the Honourable Minister of States be pleased to state whether Government are aware that refugees from Jammu and Kashmir are unwilling to go back to the State in connection with the plebiscite until and unless special arrangements for their rehabilitation are made, and the whole area of the State is put under the administrative control of the Kashmir Government?

(b) Do Government propose to see that proper arrangements for their rehabilitation are made?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). The question of the rehabilitation of refugees from Jammu and Kashmir in connection with the plebiscite is under consideration.

## APPOINTMENT OF CH. FAIZ ULLAHA KHAN AS REHABILITATION SECRETARY IN KASHMIR

**\*821. Dr. Raghu Vira:** Will the Honourable Minister of States be pleased to state whether the Jammu and Kashmir Government have appointed Ch. Faiz Ullaha Khan, who was imprisoned for siding with the raiders as Rehabilitation Secretary and this has caused great anxiety to the non-Muslim refugees?

**The Honourable Sardar Vallabhbhai Patel:** An enquiry is being made and a reply will be laid on the table of the House in due course.

## COMPENSATION TO VICTIMS OF RAZAKAR ATROCITIES IN HYDERABAD

**\*822. Shri Damoder Swarup Seth:** Will the Honourable Minister of States be pleased to state whether the victims of the Razakar atrocities in the State of Hyderabad and adjoining territories of the Indian Union have been compensated from the State funds?

**The Honourable Sardar Vallabhbhai Patel:** A suitable Monetary assistance is being given in deserving cases to State subjects who have suffered. The Hyderabad Government is also rehabilitating such people. In regard to persons in the adjoining territories of the Indian Union, I would invite the honourable member's attention to my reply to starred question No. 143 by Shri S. Nagappa on the 4th February 1949.

## PUBLICATIONS PROSCRIBED IN DELHI

**\*823. Shri Damoder Swarup Seth:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) how many publications were altogether banned and proscribed in Delhi during the year 1948;

(b) the nature of the publications banned and proscribed;

(c) whether the following Hindi books were proscribed and the stock thereof forfeited:

(i) *Swadhin-Bharat-Ki-pramukh-samasyaen*; and

(ii) *Pathick*; and

(d) if so, the reason or reasons for which the above books were proscribed?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). I lay on the table of the House a statement showing the number and the nature of the publications banned and proscribed in Delhi during 1948.

(c) and (d). Yes. The books contained matter of the nature described in clause (h) of sub-section (1) of section 4 of the Indian Press (Emergency Powers) Act, 1931.

## COMPULSORY PRIMARY EDUCATION IN CENTRALLY ADMINISTERED AREAS.

\*824. **Shri A. V. Thakkar:** Will the Honourable Minister of Education be pleased to state:

(a) the regions in which compulsory primary education will be introduced in 1949-50 in the Centrally Administered Areas;

(b) the budgeted cost of the same for the year 1949-50, region by region;

(c) whether it will be for both boys and girls or for boys only; and

(d) for children of what ages it will be introduced?

**The Honourable Maulana Abul Kalam Azad:** (a) to (d). The information asked for by the honourable member will be found in the statement laid on the table.

## STATEMENT

\*325. **Shri A. V. Thakkar:** Will the Honourable Minister of Education be pleased to state:

(a) in which of the nine Provinces in India compulsory primary education was in force in the year 1948-49;

(b) for which particular regions in those nine Provinces it was introduced;

(c) whether it was for both boys and girls or for boys alone; and

(d) for children of what ages was it introduced?

**The Honourable Maulana Abul Kalam Azad:** (a) In all the nine Provinces compulsory Primary Education was in force in the year 1948-49.

(b) to (d). A statement is laid on the table.

# STATEMENT

*Places where Compulsory Primary Education was in force during 1948-49, age-group of compulsion etc.*

## GAZETTED AND NON-GAZETTED STAFF OF THE MINISTRY OF HEALTH

\*826. Prof. Yashwant Rai: Will the Honourable Minister of Health be pleased to state:

- (i) the number of Gazetted officers;
- (ii) the number of Superintendents;
- (iii) the number of Assistants; and
- (iv) the number of clerks and stenographers in the Ministry of Health?

The Honourable Rajkumari Amrit Kaur: (i) Eight excluding Superintendents.

- (ii) Five.
- (iii) 53 including four Assistants-in-Charge.
- (iv) 62.

## SCHOLARS SENT FOR FOREIGN STUDIES

\*827. Dr. P. S. Deshmukh: (a) Will the Honourable Minister of Education be pleased to state the names of scholars together with the provinces they come from, who left India during the calendar year 1948 for studies abroad?

(b) What is the course of study of each and the number of years for which scholarships have been sanctioned together with the total estimated cost for each?

The Honourable Maulana Abul Kalam Azad: (a) and (b). A statement showing the necessary details is laid on the table of the House.

There were no selections under the Overseas Scholarships Scheme during the year 1948 as the Scheme was in abeyance. Candidates whose names have been shown in the statement, are those who were selected in previous years, but could not be sent abroad earlier for want of passage and/or admission facilities.

## Explanatory note for the Statement

The information required by the honourable member is furnished in the statement column-wise under the following headings:—(1) Overseas Scholarships Scheme, (a) Central Scholars and (b) Provincial Scholars.

(2) Central State Scholarships Scheme.

Under the Overseas Scholarships Scheme, cost on Central scholars is to be borne entirely by the Government of India, whereas that on Provincial scholars is divisible between the Central and the Provincial Governments in the ratio 50:50.

There were no selections under the Overseas Scholarships Scheme during the year 1948 as the Scheme was in abeyance. Candidates whose names have been shown in the statement, were selected in previous years but could not be sent abroad earlier for want of passage and/or admission facilities.

## STATEMENT

Names, etc., of Scholars who went abroad for Foreign Studies in the Calendar Year 1948

## MEDICAL COLLEGE FOR MALE STUDENTS IN DELHI

\*828. Babu Ramnarayan Singh: Will the Honourable Minister of Health be pleased to state:

(a) whether there is any medical college for boys in Delhi;

(b) if not, what arrangements Government propose to make for providing medical education to boys belonging to the Centrally Administered Areas; and

(c) what steps Government propose to take to give facilities to refugee boys for medical education in Delhi?

**The Honourable Rajkumari Amrit Kaur:** (a) No.

(b) and (c). The Government of India have under consideration a scheme for the establishment at Delhi of an All-India Medical Institute, of which a Medical College would form an integral part. In view of the heavy expenditure involved and lack of building material it has not been found possible to go ahead with the scheme immediately. To meet the demands of students from Delhi and other Centrally Administered Areas (including refugees) arrangements have been made to admit three students every year to the Glancy Medical College, Amritsar and it is proposed to arrange for the admission of 19 students every year to the Medical Colleges at Agra, Jaipur, Indore and Gwalior.

#### BASIC EDUCATION

**\*829. Shri Basanta Kumar Das:** Will the Honourable Minister of Education be pleased to state:

(a) what provinces have introduced basic education either on compulsory or on voluntary basis;

(b) the main features in respect of which either the scheme of the Government of India or that of the Provinces generally differ from the Basic Education Scheme adumbrated by Mahatma Gandhi;

(c) which provinces introduced basic education even before the transfer of power and whether they have effected any change in their previous schemes subsequently and if so, to what extent;

(d) what is the total number of Basic Schools and students in those schools in different provinces separately; and

(e) what grants have been given by the Government of India to each province for basic education in the year 1948-49?

**The Honourable Maulana Abul Kalam Azad:** (a) Almost all the Provinces have introduced Basic Education in the Primary classes.

(b) The system of Education recommended by the Central Advisory Board of Education and adopted by the Provinces generally conforms to the scheme of Basic Education formulated by Mahatma Gandhi. The main point of difference is that it has not been found possible to achieve complete economic self-sufficiency for such Education as required under the Wardha Scheme.

(c) The Progress Reports of 1947-48 show that with the exception of Assam, West Bengal and East Punjab all other Provinces had introduced Basic System of Education. There has not been any substantial change in the schemes.

(d) Relevant information for 1947-48 is given in the statement laid on the table.

(e) It is not possible to state the amount of grants given by the Centre to the Provinces for Basic Education alone, as lump sum grants are given for all Development purposes to the Provinces, who then allocate them under different heads. The basis of grants for 1948-49 is 50 per cent. of the expenditure incurred on approved schemes subject to ceiling grants fixed by the Centre. In view of their special circumstances, the condition of 50 per cent. contribution by the Province has not been insisted upon in the case of West Bengal, East Punjab, Assam and Orissa.

#### STATEMENT

*Number of basic schools and children in 1947-48.*

| Province                     | Number of Basic Schools. | Number of students.    |
|------------------------------|--------------------------|------------------------|
| 1. U. P. . . . .             | 10,238                   | Figures not available. |
| 2. Bihar . . . . .           | 55                       | 5,093                  |
| 3. Bombay . . . . .          | 53                       | 7,624                  |
| 4. C. P. and Berar . . . . . | 74                       | Figures not available. |
| 5. Madras . . . . .          | 31                       | 3,394                  |
| 6. Orissa . . . . .          | 32                       | Figures not available. |

#### TRANSFERRED UNSTARRED QUESTIONS AND ANSWERS†

##### DEPARTMENTAL CONFERENCES AND COMMITTEE MEETINGS HELD BY VARIOUS MINISTRIES

**56. Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Finance be pleased to state:

(a) the number of departmental Conferences held by the various Ministries in 1948;

(b) the number of committee meetings of all categories convened by each Ministry in 1948; and

(c) the expenditure involved in each case?

**The Honourable Dr. John Matthai:** (a) to (c). A statement showing the particulars asked for is laid on the table of the House.

#### STATEMENT

*Number of departmental conferences and committee meetings held by the various ministries of the Government of India during 1948*

|                          | Number  | Expenditure        |
|--------------------------|---------|--------------------|
| Departmental Conferences | ... 248 | Rs. 1,25,413-15-0. |
| Committee Meetings       | ... 701 | Rs. 5,12,437-9-0.  |
| Total                    |         | Rs. 6,37,851-8-0.  |

#### REVENUE FROM IMPORT TAX ON SILK YARN AND SILK FABRICS

**57. Shri K. Hanumanthaiya:** Will the Honourable Minister of Finance be pleased to state how much money has been realised by Government by way of Import tax on silk yarn and on silk fabrics in the years 1939-40, 1938-39, 1937-38 and in 1943-44, 1944-45, 1946-47 and 1947-48?

† The meeting of the Assembly fixed for 2nd March, 1949, having been cancelled, the answers to unstarred questions for that day were, in pursuance of convention, laid on the table of the House today.—Ed. of D.

**The Honourable Dr. John Matthai:** A statement is laid on the table of the House.

## STATEMENT

*Import duty realised on Silk yarn and Silk fabrics during the years 1937-40, 1943-45 and 1946-48*

|         | Silk yarn. | Silk fabrics (i. e., Fabrics containing more than 90 per cent. of silk including fabrics embroidered with artificial Silk.) |
|---------|------------|-----------------------------------------------------------------------------------------------------------------------------|
|         | Rs.        | Rs.                                                                                                                         |
| 1937-38 | 30,52,588  | 59,86,602                                                                                                                   |
| 1938-39 | 16,93,936  | 55,23,334                                                                                                                   |
| 1939-40 | 10,05,570  | 30,85,586                                                                                                                   |
| 1943-44 | ..         | 46,663                                                                                                                      |
| 1944-45 | 5,794      | 3,554                                                                                                                       |
| 1946-47 | 19,13,746  | 31,19,285                                                                                                                   |
| 1947-48 | 11,05,208  | 47,11,429                                                                                                                   |

## SCHOLARS RETURNED AFTER STUDIES ABROAD

**58. Dr. P. S. Deshmukh:** Will the Honourable Minister of Education be pleased to state:

(a) the names of scholars together with the provinces they come from, who returned to India from foreign countries after completing their courses of study during the calendar year 1948;

(b) the amount of money spent on each and the course of study completed by each; and

(c) what appointment each of them has obtained or is going to get?

**The Honourable Maulana Abul Kalam Azad:** (a) to (c). A statement showing the necessary details is laid on the table of the House.

*Explanatory Note for the Statement*

The information required by the honourable member is furnished in the statement column-wise under the following headings:—(1) Overseas Scholarships Scheme, (a) Central Scholars and (b) Provincial Scholars.

## (2) Scheduled Caste Scholarships Scheme.

Under the Overseas Scholarships Scheme, cost on Central scholars is to be borne entirely by the Government of India whereas that on Provincial scholars is divisible between the Central and the Provincial Governments in the ratio 50:50.

Responsibility for placing the Central Scholars on their return from training rests with the Government of India whereas that for Provincial Scholars with the Provincial Governments.

## STATEMENT.

*Names etc. of Scholars who returned to India from foreign countries after completing their courses during the calendar year 1948.*

| Serial No.                       | Name of scholar.        | Province to which he/she belongs. | Course of study completed.                                       | Employment position.                                                                                 | Amount spent (approx.). |
|----------------------------------|-------------------------|-----------------------------------|------------------------------------------------------------------|------------------------------------------------------------------------------------------------------|-------------------------|
| 1                                | 2                       | 3                                 | 4                                                                | 5                                                                                                    | 6                       |
| (A) OVERSEAS SCHOLARSHIPS SCHEME |                         |                                   |                                                                  |                                                                                                      |                         |
| (1) Central Scholars.            |                         |                                   |                                                                  |                                                                                                      | Rs.                     |
| 1.                               | Mr. P. V. Krishna Iyer. | Cochin                            | Ph.D. Agriculturist Statistics.                                  | Joined his old post of Asstt. Statistician in I. A. R. I., New Delhi.                                | 15,500                  |

\*The \*Scheduled Caste Scholars on their return from abroad are not bound to serve Government. The position of their employment is not known to this Ministry.

#### POPPY CULTIVATION AND OPIUM MANUFACTURE IN INDIAN STATES

**59. Sri Jut Kuladhar Chaliha:** Will the Honourable Minister of States be pleased to state the area under poppy cultivation and the quantity of opium manufactured in the States which acceded to the Indian Union?

**The Honourable Sardar Vallabhbhai Patel:** The area under poppy cultivation and the quantity of the opium manufactured was 49,025 acres and 7,586 maunds respectively in 1947.

#### GAZETTED AND NON-GAZETTED STAFF IN MINISTRY OF DEFENCE

**60. Prof. Yashwant Rai:** Will the Honourable Minister of Defence be pleased to state:

- the number of Gazetted officers in his Ministry;
- the number of Superintendents;
- the number of Assistants; and
- the number of senior grade and junior grade clerks and stenographers?

The Honourable Sardar Baldev Singh: to (iv) I lay a statement on the table of the House.

## STATEMENT

Number of Officers and Clerks in the Ministry of Defence

|                                                                                   |     |
|-----------------------------------------------------------------------------------|-----|
| (i) Gazetted Officers (excluding Superintendents who are also gazetted officers). | 77  |
| (ii) Superintendents                                                              | 41  |
| (iii) Assistants                                                                  | 281 |
| (iv) Stenographers and clerks                                                     | 410 |

## GAZETTED AND NON-GAZETTED STAFF IN MINISTRY OF EDUCATION

61. Prof. Yashwant Rai: Will the Honourable Minister of Education be pleased to state:

- (i) the number of Gazetted officers in his Ministry;
- (ii) the number of Superintendents;
- (iii) the number of Assistants; and
- (iv) the number of senior grade and junior grade clerks and stenographers?

The Honourable Maulana Abul Kalam Azad: (i) Number of gazetted officers, 42 excluding Superintendents.

(ii) Number of Superintendents, 10.

(iii) Number of Assistants, 90.

(iv) Number of clerks (II and III Division) and Stenographers, 136.

62-63. [CANCELLED]

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

## (PART I—QUESTIONS AND ANSWERS)

Friday, 4th March, 1949

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Deputy Speaker (Shri M. Ananthasayanam Ayyangar) in the Chair.

## STARRED QUESTIONS AND ANSWERS.

## (a) ORAL ANSWERS

## HOUSES REQUISITIONED IN DELHI AND ALLOTTED TO REFUGEES

\*868. Shri R. K. Sidhva: (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state the number of houses belonging to evacuees in Delhi requisitioned by Government during the year 1948?

(b) How many of the requisitioned houses have been allotted to refugees?

(c) What is the policy followed for allotment of houses?

(d) How many vacant houses belonging to evacuees still remain to be requisitioned?

The Honourable Shri Mohan Lal Saksena: (a) Upto the end of February, 1949 residential units numbering 27,127 were surveyed and brought on Evacuee Property Registers. In addition 14,379 houses were surveyed in the predominantly Muslim areas about 90 per cent. of which are in the occupation of old Muslim tenants or Muslims displaced from other localities.

(b) Confirmatory allotments of 22,278 residential units were made in favour of 25,598 occupant families by the end of February, 1949. 734 fresh allotments were made from the beginning of 1948 upto date.

(c) Houses in the occupation of displaced persons are allotted to the occupants unless it is found that the accommodation in their possession is clearly in excess of their need. Surplus accommodation thus released, houses occupied by persons other than displaced persons and vacant houses are allotted to (i) previous allottees to whom possession of the allotted houses could not be given (ii) widows on compassionate grounds, (iii) other refugees from provinces other than West Punjab according to the specified percentages. Poor quality one-room tenements without electricity or water, rejected even by lower middle class refugees are given to poor, shelterless displaced persons, irrespective of priorities or provincial percentages.

(d) No evacuee houses in Delhi Province are vacant, and there can be no question of requisitioning occupied houses for allotment to refugees. Any such additional houses which may be discovered will be taken over by the Custodian of Evacuee's Property for management, including collection of rent.

Shri R. K. Sidhva: May I have a rough idea of the number of refugees outside the camps who are still without houses?

The Honourable Shri Mohan Lal Saksena: It is difficult to give any idea about that. We have got the numbers of those who are in camps and those who are in evacuee houses. It is not possible to give the number of those who are not either in the camps or in the evacuee houses.

Shri V. C. Kesava Rao: May I know whether evacuees who are coming back from Pakistan are selling their houses at abnormal prices?

**Prof. N. G. Ranga:** How many of our friends are working there in this?

**The Honourable Shri N. Gopalaswami Ayyangar:** We have a few social workers.

**Shri R. K. Sidhva:** The Honourable Minister stated in reply to (b) that the figures are not available. He gave during the last session the figure of 5,000 as recovered. May I know whether that figure given in the last session is correct?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think I have said even in this that 5,671 persons have been recovered. The total number to be recovered was put on a much higher level. It was suggested from Pakistan that there were about 30,000 to 40,000 women to be recovered from India.

**Srijut Rohini Kumar Chaudhuri:** Is it a fact that abducted women from Pakistan are released only if women belonging to Pakistan and living in India are released?

**The Honourable Shri N. Gopalaswami Ayyangar:** No.

**Dr. P. S. Deshmukh:** Is the Government satisfied with this work of recovery or are there any proposals to take other steps to recover at a faster rate?

**The Honourable Shri N. Gopalaswami Ayyangar:** We are not satisfied with the recoveries that have been effected and we have set up machinery which is intended to accelerate this recovery in the future.

**Shri Ram Chandra Upadhyaya:** Who is in-charge of these abducted women? Yourself or the Prime Minister?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am in-charge of it on behalf of the Prime Minister.

#### INDIANS IN JAPAN

**\*870. Shri R. K. Sidhva:** (a) Will the Honourable the Prime Minister be pleased to state the total number of Indian Nationals in Japan and how many of them are engaged in business?

(b) What was their population before the last war and what is it now?

(c) Are Indians from India permitted to enter Japan and engage themselves in business?

(d) If so, are there any terms and conditions on which such permission is granted?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) The total number of Indian nationals in Japan in the second week of February 1949 was 170. Of these 115 were engaged in business.

(b) The Indian population in Japan before the last war is reported to have been about 1,500.

(c) and (d). Indians are allowed to enter Japan for business purposes provided they are considered likely to contribute to the economic rehabilitation of Japan. Such visitors have to be recommended by the Government of India and cleared for entry into Japan by the Supreme Commander of Allied Powers' Headquarters, through the Indian Liaison Mission.

**Shri R. K. Sidhva:** How many applications arising out of (d) were received, how many rejected and how many accepted?

**Dr. B. V. Keskar:** I require notice of that.

**Prof. N. G. Ranga:** Is it true that several businessmen who wanted to go to Japan have complained that permits have not been given to them as easily as they ought to be?

**Dr. B. V. Keskar:** All applications for permits are considered by the Government and Government issue permits to those who are considered likely to further Indian business in Japan.

**Seth Govind Das:** Is the recommendation of the Government as far as these applications are concerned, accepted by the Government of Japan or always some hindrance is put by the Government of Japan when these applications are recommended?

**Dr. B. V. Keskar:** It is not the Government of Japan which accepts or rejects the applications. It is the Allied Powers' Headquarters who control this. Generally our recommendations are accepted.

**Shri H. V. Kamath:** Do the SCAP authorities show any discrimination as between Americans and Indians in the matter of business and trade?

**Mr. Deputy Speaker:** It does not arise out of this question.

**Shri Brajeshwar Prasad:** Is there any proposal to send a delegation to Japan to find out the possibility of trade with that country?

**Dr. B. V. Keskar:** Not for the moment but the possibility may be taken into consideration.

**Shri R. K. Sidhva:** May I know whether some of the businessmen in Bombay made an application for permission to go to Japan and Government of India accepted and the Japanese Government refused?

**Dr. B. V. Keskar:** I do not know this particular case. If the honourable member likes, I will make enquiries.

**Prof. N. G. Ranga:** Is it true that it takes more than three months for a businessman to get a permit or get a reply?

**Dr. B. V. Keskar:** We try to expedite the issue of permits but as my friend is aware, it is not in our hands to issue permits. They are received from Japan. It is possible that specific cases are delayed but we try to expedite them generally as much as possible.

**Srijut Rohini Kumar Chaudhuri:** Are Indians who had business in Japan before the war allowed now to go back and resume their business.

**Dr. B. V. Keskar:** Yes.

**Seth Govind Das:** Have Government received complaints from business quarters that there are many difficulties when they send these applications?

**Dr. B. V. Keskar:** I am not aware of any such complaint with regard to difficulties here but it is possible there might be difficulties in Japan in getting their entries sanctioned by the Government of Japan.

**Shri H. V. Kamath:** Is there any Advisor on behalf of the Government of India to advise the SCAP Authorities in this matter?

**Dr. B. V. Keskar:** There is the Indian Liaison Mission which is there on our behalf and which does this work.

**Srijut Kuladhar Chaliha:** Are Indians domiciles in Japan allowed to come to India if they ask for passports?

**Dr. B. V. Keskar:** Yes.

#### REHABILITATION OF REFUGEES FROM WESTERN PAKISTAN CANTONMENTS

**\*871. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state what steps Government have taken to rehabilitate refugees from the Western Pakistan Cantonments?

(b) Was any representation received from the All-India Cantonment Association in this respect and if so, with what result?

**The Honourable Shri Mohan Lal Saksena:** No such case has been reported to us so far. In fact, there have been only three or four sales since this agreement was arrived at.

**Shri V. C. Kesava Rao:** Will the Government take any action against those people who try to sell their houses at abnormal prices?

**The Honourable Shri Mohan Lal Saksena:** I do not know what action can be taken except that the people who offer abnormal prices must be persuaded not to do so.

**Dr. Mono Mohan Das:** What is the present condition of the houses which have been abandoned by Sikhs and Hindus in Western Pakistan?

**Shri H. V. Kamath:** Was this subject of evacuee houses in Pakistan and India and their allotment on a reciprocal basis discussed at any of the recent Inter-Dominion Conferences?

**The Honourable Shri Mohan Lal Saksena:** No.

**Shri H. V. Kamath:** Why not? Was it not an important enough subject to be discussed?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact, this question was discussed much earlier and as a result, the Evacuee Property Act was enacted in both the Dominions.

**Shri H. V. Kamath:** When was this, Sir?

**The Honourable Shri Mohan Lal Saksena:** Long before.

**Shri B. N. Munavalli:** Are there any houses of evacuees not requisitioned by the Government, but taken over by the refugees themselves?

**The Honourable Shri Mohan Lal Saksena:** Many of the Houses were taken by the refugees or displaced persons. Those taken by the refugees were requisitioned. In cases where houses were taken possession of such as Government quarters, steps are being taken to eject them and to provide them with alternative accommodation.

**Shri M. Tirumala Rao:** Is it a fact that some big money lenders in Delhi have managed to get very cheaply some of the houses belonging to the evacuees that left India?

**The Honourable Shri Mohan Lal Saksena:** I have no information on the subject.

**Shri R. L. Malviya:** Is it a fact that Hindus coming from Pakistan are not able to sell their houses, or even if they sell, they are purchased at cheap prices?

**Mr. Deputy\*Speaker:** Selling their houses, where?

**Shri R. L. Malviya:** In Pakistan.

**Mr. Deputy Speaker:** I do not think it arises.

#### RESTORATION OF ABDUCTED WOMEN

**\*869. Shri R. K. Sidhva:** (a) Will the Honourable the Prime Minister be pleased to state whether continued efforts are made to bring the abducted women of Indian Nationals from the Pakistan territory?

(b) If so, how many were brought during the period from 1st July, 1948 to date?

(c) What is the number so far remaining untraced and those traced but not brought into India?

(d) What are the difficulties in the way of bringing them into India?

(e) What is the approximate number of Pakistan abducted women in India.

**The Honourable Shri N. Gopalaswami Ayyangar** (Minister for Railways and Transport): (a) Yes.

(b) 302 abducted women and children were recovered in Pakistan and sent to India during this period.

(c) The exact number of women and children not yet traced and those traced but not brought into India, is not known. We have so far registered 12,707 cases of abductions and 5,671 persons have been recovered. On the other hand a third of the women recovered were not on our lists.

(d) Most of the women recovered in Pakistan have been brought to India. Difficulties are however experienced in the case of some on account of their personal reluctance to return to their original families.

(e) It is difficult to give a dependable estimate of even the approximate number.

**Sardar Bhopinder Singh Man:** What is the agency now functioning in Pakistan to recover Hindu and Sikh abducted women?

**The Honourable Shri N. Gopalaswami Ayyangar:** Recovery is made by the Pakistan authorities helped by certain of our social workers.

**Sardar Bhopinder Singh Man:** Is the Government quite sure about the good functioning of the Pakistan agency which is now functioning for the recovery of abducted women?

**The Honourable Shri N. Gopalaswami Ayyangar:** Unless disillusioned, I take the Pakistan Government's assurances at their face value.

**Sardar Bhopinder Singh Man:** Is it a fact that some of the Districts of Pakistan such as Jhelum, etc., bordering on Pakistan and the Kashmir border, have all along been considered by Pakistan as closed districts and no recovery has ever taken place there?

**The Honourable Shri N. Gopalaswami Ayyangar:** They were treated as closed districts and recovery in those districts was not as good as elsewhere. But, some have been recovered even from those districts.

**Sardar Bhopinder Singh Man:** What is the proportion of these women who have been recovered as opposed to the total abductions in those districts?

**The Honourable Shri N. Gopalaswami Ayyangar:** It is very difficult for me to give figures; but I think it was a small number.

**Seth Govind Das:** Is our representative in Pakistan sending periodical reports to the Government of India in respect of abducted women?

**The Honourable Shri N. Gopalaswami Ayyangar:** Yes; we do get weekly reports, I think.

**Prof. N. G. Ranga:** What is the latest position in regard to these closed districts? Are they open now, or are they being opened?

**The Honourable Shri N. Gopalaswami Ayyangar:** We are trying to extend the recovery operations to these districts as well.

**Sri Raj Bahadur:** What is the number of Pakistan abducted women recovered in India and sent to Pakistan?

**The Honourable Shri N. Gopalaswami Ayyangar:** I think the total number is about four thousand and odd.

**Prof. N. G. Ranga:** How many friends Government of India have on that side to work voluntarily for recovery of these women and are facilities being given to these friends to go and trace these women and bring them back?

**The Honourable Shri N. Gopalaswami Ayyangar:** Pakistan authorities do give assistance to these people but the recovery has to be made by the Pakistan Authorities and not by our people.

**The Honourable Shri Jagjivan Ram:** My honourable friend himself happens to be a member of the committee which is examining the question of fair wages and profit-sharing.

**Shri H. V. Kamath:** Is it a fact that the Honourable Minister, in the course of a recent speech at Ahmedabad declared that industry and capital have failed to honour one of the terms of the Industrial Truce, to the effect that they should construct workers' dwellings to the tune of a few crores? Is it a fact that he made such a statement?

**The Honourable Shri Jagjivan Ram:** I do not remember having said that in those terms. I mentioned something about industrial housing; but that was at Bombay, and not at Ahmedabad, I think.

**Dr. P. S. Deshmukh:** May I know what steps Government are taking to persuade the capitalists to stick to their assurance about profit-sharing?

**Mr. Deputy Speaker:** That requires a long statement. Next question.

#### PETROL INDUSTRY

\*873. **Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what are the petrol sources in the Indian Union?

(b) Is it a fact that all these petrol mines are under lease to foreign companies?

(c) Have Government any scheme or proposal for the development of petrol industry?

(d) If the answer to part (b) above be in the affirmative, what steps are being taken by Government to nationalise them?

**The Honourable Shri N. V. Gadgil:** (a) Petroleum in Commercial quantities has been found only in Assam, where it is actually being produced. Other likely areas are being investigated.

(b) Yes.

(c) Government are considering the possibilities of setting up refineries to deal with imported Crude, of manufacturing synthetic oil from low-grade coal, and of developing Power Alcohol for admixture with motor spirit.

(d) There is no such proposal under consideration. Attention is invited to the undertaking given in para 4 of the Industrial Policy Resolution dated the 6th April 1948.

**Seth Govind Das:** Besides Assam, which are the other areas in India now under investigation?

**The Honourable Shri N. V. Gadgil:** The programme of survey includes, for the year 1948-49, geological and geophysical investigations for oil in Cutch, Kathiawar, Assam and East Punjab.

**Seth Govind Das:** Have the Government any report in regard to Bastar State where it is suspected there is sufficient oil?

**The Honourable Shri N. V. Gadgil:** Government does not act on mere rumours; but it is intended at a later stage to send a party to Bastar also.

**Srijut Kuladhar Chaliha:** May I know what is the capital invested in Digboi Oils and whether there is a proposal before Government for its nationalisation? Also whether there is any survey contemplated near about the Naga Hills.

**The Honourable Shri N. V. Gadgil:** As regards the capital invested, I require notice. As regards any proposal for nationalisation, the answer is already given in (c).

**Shri Gopikrishna Vijayavargiya:** What is the amount of petrol produced in Assam?

**The Honourable Shri N. V. Gadgil:** For the year 1946, the quantity of petrol produced in Assam was about 19 million gallons, in 1947, it was 17 million gallons and in 1948, up to September, it was 14 million gallons.

**Shri B. N. Munavalli:** What is the duration of the various leases to the foreign concerns?

**The Honourable Shri N. V. Gadgil:** Each lease is governed by particular terms, and I require notice to give these details.

**Shri Ram Chandra Upadhyaya:** May I know how long it will take to set up our own refineries?

**The Honourable Shri N. V. Gadgil:** It is a difficult question to answer. The position is, certain technicians were invited by Government of India and they have surveyed the field. They will make a report to their respective principals and companies concerned, and they will submit a report. It is expected that this report will be submitted by about June 1949.

**Srijut Rohini Kumar Chaudhuri:** May I know in what parts of Assam surveys are going on now?

**The Honourable Shri N. V. Gadgil:** I require notice.

**Srijut Kuladhar Chaliha:** What are the reasons for the decrease in the oil output in Digboi?

**The Honourable Shri N. V. Gadgil:** I require notice for that also.

**Shri R. K. Sidhva:** May I know what is the longest period of these leases?

**The Honourable Shri N. V. Gadgil:** Lest I should give incorrect information, I require notice for this.

**Dr. Mono Mohan Das:** What proportion of our total demand is met by the production in Assam?

**The Honourable Shri N. V. Gadgil:** Between seven to eight percent.

#### RAMAPADASAGAR PROJECT

\*874. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that the Government of India have notified to the Government of Madras their inability to finance the Ramapadasagar Project?

(b) If so, what are the special reasons for this?

(c) Is it a fact that most of the preliminary work on this project has been done?

**The Honourable Shri N. V. Gadgil:** (a) No. The Government of India have, however, advised the Government of Madras that the present is not an opportune time to start work on such an ambitious scheme.

(b) The reasons for advising postponement of the project are the very heavy requirements of materials, technical difficulties and large requirements of foreign and domestic funds.

(c) It is correct that quite a lot of preliminary work has been done but considerable more work will have to be done before construction can start.

**The Honourable Shri Mohan Lal Saksena:** (a) and (b). Displaced persons from Cantonment areas in Western Pakistan are entitled to the same rehabilitation benefits as other displaced persons from Western Pakistan. A representation was received from the All India Cantonment Association regarding the rehabilitation of such persons in the Cantonment areas of India. As a result it has been decided to examine and reassess the requirements of the armed forces in regard to land in the existing Indian cantonments. Any land found surplus to these requirements will be utilised for rehabilitating displaced persons from cantonments of Western Pakistan. For the time being the Ministry of Defence have agreed to consider on merits applications by such displaced persons for allotment of land in cantonment areas.

**Shri R. K. Sidhva:** Is it a fact that this question of All India Cantonments Association have been hanging on for the last nine months?

**The Honourable Shri Mohan Lal Saksena:** May be. As I have already stated this question is with the Defence Ministry and they have agreed that in the case of individual applications for land, they will consider them on merits.

**Shri R. K. Sidhva:** Is it a fact that the Defence Ministry has allotted plots to many businessmen for Ice Factories without holding any auction and against the rules of the Cantonment Boards and still for these refugees these are not available? Will the honourable Minister kindly expedite it?

**The Honourable Shri Mohan Lal Saksena:** I must ask for notice. If the honourable member gives me any particulars, I will have enquiries made.

#### TRUCE PLAN BETWEEN CAPITAL AND LABOUR

**\*872. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Labour be pleased to state whether the contemplated plan for bringing about a truce between capital and labour has materialised?

(b) If not, what are the reasons therefor?

(c) Did all parties agree to the truce during the conference held for the purpose?

(d) What steps do Government intend to take to implement the said truce?

**The Honourable Shri Jagjivan Ram:** (a) There has been a noticeable decline in the volume of industrial disputes during the year 1948, as compared with 1947. But strikes and the threat of strikes have by no means been eliminated altogether.

(b) A complete stoppage of industrial disputes in the prevailing economic conditions was not to be expected.

(c) The Industrial Truce Resolution was accepted in their personal capacity by persons who participated in the Industries Conference held in December 1947. Subsequently the following organisations of employers and workers intimated their acceptance of the resolution:

The All-India Organisation of Industrial Employers; Employers' Federation of India; Indian Federation of Labour; and Indian National Trade Union Congress.

(d) The following action has been taken or is being taken:

(i) In accordance with paragraph 9 of the Ministry of Industry and Supply resolution dated the 6th April 1948 in which Government accepted the Truce Resolution, a Central Advisory Council of Labour has been constituted to consider *inter alia* questions regarding fair wages to labour, fair return on capital, reasonable reserves, labour's share of surplus profits. The major Provinces have also set up Provincial Advisory Boards.

(ii) Works Committees and Production Committees are being set up in a large number of industrial establishments in which one hundred or more workmen are employed.

(iii) The conciliation and adjudication machinery both in the Central and Provincial fields has been strengthened. The Central Government has set up two Standing Tribunals, one each at Dhanbad and Calcutta.

(iv) It is proposed to overhaul the Industrial Disputes Act, 1947 with a view to providing more effective machinery for settling industrial disputes and ensuring better co-ordination in the awards of tribunals.

**Shri R. K. Sidhva:** May I know whether in that conference of industrialists and labour, which met in Delhi, the question of profit-sharing by labour was considered, and if so with what result?

**The Honourable Shri Jagjivan Ram:** At the conference which met in December 1947, the resolution on industrial truce was adopted, and mention was made in that resolution about profit-sharing.

**Shri R. K. Sidhva:** And with what result, may I know? And is it a fact that the Federation of Indian Chambers of Commerce in their meeting repudiated any kind of profit-sharing by labour?

**The Honourable Shri Jagjivan Ram:** At that time, the industrialists who were present in the Industries Conference, were party to the resolution. After that, when they came to realise the implications of profit-sharing, there has been repudiation from certain not very important organisations of industrialists.

**Shri Harihar Nath Shastri:** Are the Government aware of a large number of cases in which the industrialists have violated the awards of industrial tribunals? If so, do Government regard such an attitude consistent with the industrial truce? If not, what steps do Government propose to take to enforce the awards of industrial tribunals?

**The Honourable Shri Jagjivan Ram:** There has been violation of awards from both sides. And Government are taking steps to amend the Industrial Disputes Act in order to make sure that the awards of tribunals are effectively implemented both by the employees and the employers.

**Shri Harihar Nath Shastri:** Are Government satisfied that they have implemented the terms of the Industrial Truce, in regard to their own obligations?

**The Honourable Shri Jagjivan Ram:** As I have explained already, we have been taking steps to implement, on our part, the Industrial Truce Resolution. As my Honourable friend is aware, we have already set up the Advisory Council which has taken up the question of fair wages and profit-sharing.

**Shri Harihar Nath Shastri:** What concrete steps have Government taken with regard to the construction of houses for the workmen?

**The Honourable Shri Jagjivan Ram:** How does this question arise, Sir?

**Mr. Deputy Speaker:** That is going into too many details.

**Shri R. K. Sidhva:** May I know whether it is a fact that the production output, in respect of coal, yarn, textiles, and certain portions of iron and steel, has been increased during this period?

**The Honourable Shri Jagjivan Ram:** Certainly so.

**Shri R. K. Sidhva:** Therefore, is it not a fact, that the labourers have fulfilled their obligation under this truce?

**The Honourable Shri Jagjivan Ram:** I have said that on more than one occasion.

**Shri Khandubhai K. Desai:** What steps are being taken by the Government to expedite the implementation of a commitment regarding fair wages and profit-sharing?

the purchase of ships from sterling areas—will preference be given to ships from the sterling area?

**The Honourable Shri K. C. Neogy:** It is not a question of preference, because we will require more ships than are readily available either in the sterling or in the Dollar area.

#### FOREIGNERS IN INDIAN EMBASSY IN U.S.A.

**\*876. Seth Govind Das:** (a) Will the Honourable the Prime Minister be pleased to state whether Government are aware that there are only about 20 Indians working on the Indian Embassy Staff in the United States of America out of the total number of about 300 clerks working there?

(b) Have Government considered the employment of more Indians on the Embassy staff in the United States of America?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) The total number of ministerial and inferior servants in the Chancery including the Information Services in the Embassy at Washington is 98, of whom six are Indians. The non-Indians are mostly British or British-Canadian subjects recruited locally on a contract basis.

(b) In accordance with the accepted policy of the Government of India that all appointments in Indian Missions abroad should, as far as possible, be held by Indians, the non-Indian staff in the Indian Embassy, Washington is being replaced by Indians gradually. In the case of certain typists, routine grade clerks and the messenger staff, this change over would involve heavy additional expenditure and is therefore not considered desirable at present.

**Seth Govind Das:** Is it a fact that there are many people from India who applied to Government to join the staff on the same pay that is given to the staff which is recruited in the United States?

**Dr. B. V. Keskar:** Persons who are sent to Washington or any other Embassy, are sent from the staff which is working in the External Affairs Department here. Any direct application to the Embassy at Washington cannot be entertained, because all persons who are taken on are taken on here according to rules.

**Shri H. V. Kamath:** Is it a fact that none of our Embassies or Consulates abroad is completely staffed by Indians?

**Dr. B. V. Keskar:** It is true but my honourable friend is aware that some of the staff in places like London and Washington, which were working before, had been recruited from British or British-Canadians or from the nationals of the country where our Embassies or Missions existed, and it is not possible for us to dismiss them or do away with the staff which has been engaged on a contractual basis. When their contracts expire, we will take the first opportunity of replacing them by Indian staff and I may inform my honourable friend that it is being done now.

**Prof. N. G. Ranga:** Does this number, 98, include those employed by the Purchasing Mission also, and if not, how many of those employed in the Purchasing Mission are Indians and how many of the others are non-Indians?

**Dr. B. V. Keskar:** I have not the figures here. If my honourable friend wants I will supply them.

**Shri H. V. Kamath:** So it does not include the staff of the Purchasing Mission.

**Dr. B. V. Keskar:** No Sir.

**Shri R. K. Sidhva:** May I know what is the salary paid to the steno typists and clerks?

**Dr. B. V. Keskar:** I am sorry I have not got the information here. I think the pay differs according to grades.

**Shri Deshbandhu Gupta:** Have Government considered the desirability of employing at least temporarily some of the students and scholars sent from here at Government cost and whom we are not able to employ here after they finish their studies there?

**Dr. B. V. Keskar:** Ex-scholars or ex-students who are studying in the United States, if they are fit by their qualification for service in the External Affairs Ministry, can be taken by the Ministry and then asked to work in that particular Embassy; otherwise, students who go out for different subjects need not, at the same time, be fit to do some work in the Embassy at Washington or New York.

**Shri Deshbandhu Gupta:** My question is.....

**The Honourable Shri Jawaharlal Nehru rose—**

**Mr. Deputy Speaker:** The Honourable the Prime Minister.

**Shri Deshbandhu Gupta:** My question is whether Government have at all considered the desirability of doing so.

**Mr. Deputy Speaker:** Order order. The Honourable the Prime Minister.

**The Honourable Shri Jawaharlal Nehru:** May I point that there is no difference of opinion between any Member of Government and any other member of this House about the extreme desirability of employing Indians and only Indians as far as possible in all our foreign establishments. The only question is of certain difficulties in regard to finance and personnel. It is not merely a question of salary. If a person is sent from here to there, we are responsible for sending not only him but sending his whole family from here to there, so that the expenses involved become considerable. Now, this figure of 93, or whatever it is, is a figure which consists largely of low-grade clerks and messenger boys and the like. Now, if we send people of that grade from here, the cost is far greater than the salary involved. I have no doubt that ultimately we should keep everybody in a foreign establishment who is an Indian, but the fact is that immediately it will be difficult to get either the required personnel of that type because that type of personnel who are very good typists and very good men when here, when sent there they require a considerable period of time to fit in with the new environments and therefore may become rather a burden than help. Of course, we want to do that gradually, but the expense is considerable.

As for the suggestion made by Mr. Deshbandhu Gupta about students, undoubtedly they should be employed, but the students who are sent are sent for special studies, not to become second grade clerks in America!

**Seth Govind Das:** But may I know whether there are some such people available who would be willing to go from India without taking their family?

**Mr. Deputy Speaker:** Next question.

**Shri H. V. Kamath:** Is there any foreign embassy. . . .

**Mr. Deputy Speaker:** I have called the next question.

#### REPATRIATION OF INDIANS FROM MALAYA

**\*877. Seth Govind Das:** (a) Will the Honourable the Prime Minister be pleased to state whether it is a fact that batches of Indians are being interned and repatriated from Malaya to India and if so, how many Indians have so far been repatriated and on what grounds?

**Prof. N. G. Ranga:** May I know what steps are being taken to see that all the work that has been done does not go into waste, and whether Government are maintaining any engineering staff there to continue the readings and continue other work that may be required?

**The Honourable Shri N. V. Gadgil:** This scheme is entirely under the administrative control of the Government of Madras and I have every reason to believe that all these factors will be taken into consideration by that Government.

**Shri R. K. Sidhva:** May I know why the Honourable Minister called this an ambitious project? Is it a necessity?

**The Honourable Shri N. V. Gadgil:** It is ambitious because the money that will be required is more than Rs. 130 crores. It will take 19 years for completion and when it starts it will absorb the entire engineering staff of the Madras Government and the whole of the cement and steel available will be also absorbed!

**Prof. N. G. Ranga:** Is it a fact that in spite of the reasons given by my honourable friend, that the three American experts who were brought over here and were consulted, had tendered the advice to the Government of India that it is a feasible proposition? And is it a fact also that there are certain American firms who have applied to undertake this project and complete it?

**The Honourable Shri N. V. Gadgil:** It is feasible. There is no doubt about that but the conditions for Government undertaking any particular scheme are already stated.

**Shri R. K. Sidhva:** My question was whether it was a necessity or whether it would increase the national wealth of the country.

**The Honourable Shri N. V. Gadgil:** With respect to this particular question, there are other schemes costing less which will give better results and will be completed quickly.

**Shri V. C. Kesava Rao:** Why is this scheme left to the Provincial Government and why is not the Central Government helping the Provincial Government?

**The Honourable Shri N. V. Gadgil:** Normally any scheme which embraces one particular province is left to the control of that province. When a scheme embraces more than one province, then the Centre comes in.

**Shri M. Tirumala Rao:** Is the Madras Government fully in accord with the idea that the scheme should be proceeded with immediately and is the Central Government of a different opinion with regard to it?

**The Honourable Shri N. V. Gadgil:** The Madras Government is naturally anxious, but there are other factors weighing with us and those factors have been detailed already.

**Shri M. Tirumala Rao:** Is it the idea of the Central Government that this scheme should be postponed indefinitely?

**The Honourable Shri N. V. Gadgil:** No, Sir.

**Shri V. C. Kesava Rao:** Is the Government aware of the total production if the scheme comes into being?

**The Honourable Shri N. V. Gadgil:** Government are aware of that.

**Dr. V. Subramaniam:** Will the scheme be able to produce much electricity?

**The Honourable Shri N. V. Gadgil:** It is a multi-purpose project. It will produce food, power and fish also!

**Dr. V. Subramaniam:** In view of the shortage of coal in the country....

**Mr. Deputy Speaker:** The honourable member is being argumentative!

**Prof. N. G. Ranga:** It has been indicated by the Honourable Minister that the project will take 19 years to complete: that the entire engineering staff will be employed: that it can be taken up by stages and the first stage should be completed within the next five years and certain results will be obtained by way of food.

**The Honourable Shri N. V. Gadgil:** If the honourable member is very anxious to know the details, I will tell him that the foundation is about 300 feet and even the filling up of the foundation will take seven years.

#### PURCHASE OF SHIPS FROM U. S. A. FOR INDIAN MERCANTILE MARINE

**\*875. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Commerce be pleased to state whether there is a proposal to purchase three big ships for the Indian Mercantile Marine from the United States of America and to entrust them to the Indian Shipping Companies?

(b) What is the cost of these ships and on what condition will they be handed over to the Shipping Companies?

**The Honourable Shri K. C. Neogy:** (a) In anticipation of the setting up of the first Shipping Corporation, the Indian Embassy in Washington, had been requested to investigate the possibility of securing a few ships for the Corporation in the United States. Information has been received that they have provisionally selected two ships for purchase.

(b) The purchase transactions have not yet been completed and it is not possible to indicate the price at which the ships will be purchased. Any ships thus acquired will be handed over to the Corporation at cost for operation on its own account.

**Shri R. K. Sidhva:** How old are the ships?

**The Honourable Shri K. C. Neogy:** I have no definite information.

**Shri R. K. Sidhva:** Will the Honourable Minister say whether these ships are in proper working order?

**The Honourable Shri K. C. Neogy:** Certainly: that will be the principal consideration.

**Shri Deshbandhu Gupta:** Is not it possible to buy from the sterling area?

**The Honourable Shri K. C. Neogy:** Yes, certain negotiations are also going on in the sterling area for ships.

**Shri T. T. Krishnamachari:** Will the honourable Minister tell the House what is the tonnage of these ships?

**The Honourable Shri K. C. Neogy:** The gross tonnage of one ship is 7,161 and of the other 7,217: and dead weight, that is cargo capacity, is approximately 10,000 tons.

**Shri T. T. Krishnamachari:** Will the Honourable Minister inform the House whether these are the Victory ships or the Liberty ships, because it has been proved that the Liberty ships are of no use at all. I hope the Government are not investing money on the Liberty ships.

**The Honourable Shri K. C. Neogy:** I am not in a position to express any opinion on the Liberty ships. But these two ships are what are called the Canadian Victory ships.

**Seth Govind Das:** As the negotiations for purchasing these ships are not complete—as the Honourable Minister has said that negotiations are going on for

(b) What is the total number of casualties, killed and wounded, of Indians living in Malaya up to date in the Malayan disturbances?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): (a) The attention of the honourable member is invited to the reply given to Starred Question No. 416 by Shri V. C. Kesva Rao on the 16th February 1949. The latest information shows that 58 Indian nationals have so far been repatriated to India from Malaya.

(b) The necessary information is available only up to 31st December 1948 and is as follows:

|                           | Killed | Injured |
|---------------------------|--------|---------|
| Indian Regular Police     | 6      | 29      |
| Indian Special Constables | 7      | 4       |
| Indian Civilians          | 11     | 14      |

#### ISRAEL'S APPLICATION FOR MEMBERSHIP OF UNITED NATIONS

**\*878. Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state whether Israel has applied for admission to membership of the United Nations?

**Dr. B. V. Keskar** (Deputy Minister for External Affairs and Commonwealth Relations): Yes. Israel applied for admission to the membership of the United Nations and the application was referred to the Security Council under Article 4 of the Charter. The Security Council did not recommend to the United Nations General Assembly Israel's application as it did not obtain the necessary majority in the Council in support of this application. It is not known whether Israel has renewed this application for membership or not.

**Shri H. V. Kamath:** Has the Deputy Minister's attention been drawn to the Press report this morning—I wonder if he reads the papers every morning—has his attention been drawn to the Press report this morning that Israel's application for membership of the United Nations has been brought forward on the Security Council's agenda to be taken as the first item of discussion today?

**Dr. B. V. Keskar:** If it is taken, the question will then arise. Secondly we are not members of the Security Council; so it does not arise for us.

**Shri H. V. Kamath:** That is not the question. The question is: Is the question of supporting the application of Israel for membership of the U.N.....

**Dr. B. V. Keskar** *rose*—

**Shri H. V. Kamath:** I have not finished my question—is the question of supporting the application of Israel for membership of the U. N. under the consideration—active or otherwise—of Government?

**Dr. B. V. Keskar:** The question is not before us. It is before the Security Council, and as I said we are not members of the Security Council, so it does not arise for us.

**Mr. Deputy Speaker:** Next question.

**Shri H. V. Kamath** *rose*

**Mr. Deputy Speaker:** I have called the next question. The matter does not relate to the Government of India. It is for the Security Council. Next question.

#### MINISTERS OF DIFFERENT RANKS IN GOVERNMENT OF INDIA

**\*879. Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) the status, emoluments, functions and powers of a Minister of cabinet rank, a Minister of State, and a Deputy Minister respectively; and

(b) whether any increase in the number of Ministers in any category or categories is contemplated in the near future?

**The Honourable Shri Jawaharlal Nehru:** (a) The emoluments of a Minister of Cabinet rank are governed by the provisions of the Salaries of Ministers Act, 1947. He is entitled to a salary of Rs. 3,000 per month, and a sumptuary allowance of Rs. 500 per month. In addition, he is entitled to a rent free residence. A Minister of Cabinet rank is in general charge of the administration of the Ministry or Ministries entrusted, to him. As a member of the Cabinet, he also shares in the collective responsibility of the Cabinet as a whole.

The salary of a Minister of State is the same as that of a Minister of Cabinet rank, but the former is not entitled to any sumptuary allowance or to a rent free residence. A Minister of State has the same powers as a Minister of Cabinet rank so far as his own Ministry is concerned, but is not a member of the Cabinet. He attends meetings of the Cabinet only when specially invited to do so in connection with any subject for which he is responsible.

The salary of a Deputy Minister is Rs. 2,000 per month. He is not entitled to any allowances or to a rent free residence. He assists the Minister to whom he is attached in the performance of such functions as may be assigned to him by the Minister.

(b) There is no such present intentions.

**Shri H. V. Kamath:** Are there Ministers of State with portfolio and Ministers of State without portfolio, that is to say, without any subject for which he or they are responsible?

**The Honourable Shri Jawaharlal Nehru:** I presume the honourable member is referring to the Minister of State in the Transport and Railway Ministries.

**Shri H. V. Kamath:** No, no. Just behind the Prime Minister is the Minister of State without portfolio I am referring to.

**The Honourable Shri Jawaharlal Nehru:** Oh! Yes, the Chief Whip has the status and position of a Minister of State and is responsible for certain parliamentary activities and also he is connected with the Prime Minister's Secretariat in this matter.

**Seth Govind Das:** Will the Honourable the Prime Minister make a statement now that before the new election there would be no further appointments as far as Ministers of State are concerned?

**The Honourable Shri Jawaharlal Nehru:** I have not followed the question.

**Mr. Deputy Speaker:** He wants an assurance from the Honourable the Prime Minister that before the next election no more appointments of Deputy Ministers will be made.

**The Honourable Shri Jawaharlal Nehru:** If I gave that assurance, it might not be approved of by other members of the House!

**Shri Mahavir Tyagi:** May I know why there is a difference in the salary of the Ministers of Cabinet rank and the State Ministers and Deputy Ministers? I want to know particularly as to whether this difference has been made because they differ in their capacity for work or in their ability or qualifications?

**Mr. Deputy Speaker:** The honourable member is giving the reason himself.

**Shri Mahavir Tyagi:** No, Sir. I want to know.....

**Mr. Deputy Speaker:** I have heard sufficiently.

**Shri Mahavir Tyagi:** Is that question disallowed, Sir?

**Mr. Deputy Speaker:** Yes.

**Shri Mahavir Tyagi:** Then I want to put another question.

**Mr. Deputy Speaker:** No.

**Shri M. Tirumala Rao rose—**

**Shri Mahavir Tyagi:** May I know if it is a fact. . .

**Mr. Deputy Speaker:** Order, order. Mr. Tirumala Rao.

**Shri M. Tirumala Rao:** With reference to part (a) of the question, is it necessary that there should be so many categories of Ministers such as Cabinet Ministers, Ministers of State and Deputy Ministers, when more or less their functions seem to be identical?

**The Honourable Shri Jawaharlal Nehru:** Obviously they were appointed because it was considered necessary.

**Shri M. Tirumala Rao:** Besides salaries and emoluments, is there any difference in their status and functions?

**Mr. Deputy Speaker:** That question has been answered already.

**Shri Mahavir Tyagi:** Is it a fact that only recently orders were issued that Deputy Ministers will not be allowed to fly the National Flag over their residences?

**Mr. Deputy Speaker:** How does it arise out of this question?

**Shri Mahavir Tyagi:** It arises from the status and privileges of different categories of Ministers.

**Mr. Deputy Speaker:** I do not think it arises.

**Shri Mahavir Tyagi:** Is it a fact that the Triangle which used to decorate the cars of Ministers was removed from the cars of the Ministers of State?

**Mr. Deputy Speaker:** Such details ought not to be raised here. They should be left to the Prime Minister who is in charge of the Cabinet as a whole.

This question has been answered sufficiently. Next question.

#### FOUR YEAR ECONOMIC PLAN FOR U. K.

**\*880. Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) whether at the Commonwealth Prime Ministers' Conference in London which he attended in October, 1948, the four year economic plan for the United Kingdom was discussed; and

(b) whether any commitment on behalf of India was made in connection therewith, and if so, what it was?

**The Honourable Shri Jawaharlal Nehru:** (a) and (b). The discussions at the Commonwealth Prime Ministers' Conference were confidential and whatever was decided to be made public was contained in Press communiques issued at the time. I might, however, add that statements were made on behalf of the United Kingdom Government about their plans for the information of the Conference. There was no question of any commitment; none was asked for and, none was made.

**Shri H. V. Kamath:** Is it a fact that the press communique issued at the conclusion of this conference mentioned that there were discussions regarding the formation of a Western Bloc in Europe as well as about Commonwealth defence?

#### STARRED QUESTIONS AND ANSWERS

1259

**The Honourable Shri Jawaharlal Nehru:** The honourable member is apparently trying to push in another question here which he has also put separately.

**Shri H. V. Kamath:** I have not put any other question at all. I do not know what question the Honourable the Prime Minister is referring to.

**The Honourable Shri Jawaharlal Nehru:** I cannot obviously state from memory what a certain press communique said or did not say. I should like to inform the House that whatever was said or done there was in the nature of statements made by representatives of other governments for the information of others. There is no question of any commitment on our part, or in fact on any Government's part.

**Shri H. V. Kamath:** The answer of the Honourable the Prime Minister referred to some press communique issued at the close of the Conference. As we have not had the benefit of seeing the communique, will the Prime Minister be so good as to place a copy of it on the table of the House?

**The Honourable Shri Jawaharlal Nehru:** It is not possible for me to remember all the press communiques issued anywhere.

**Shri H. V. Kamath:** Will the Honourable the Prime Minister lay on the table of the House either a statement on the contents of the press communique or a copy of the same, as we have not seen it in India?

**The Honourable Shri Jawaharlal Nehru:** There were press communiques after every day's meeting of the Conference. It was not just one, sometimes there were such communiques twice a day. There were a number of meetings at every conference, after which such communiques were issued.

#### HOLDING UP OF IMPORTED AND OTHER GOODS IN KARACHI

**\*881. Shri Deshbandhu Gupta:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) the estimated value of the consignments of imported machinery and goods belonging to residents of India held up in Karachi or goods purchased before 15th August, 1947 by them in territories which now form part of Pakistan which have not been delivered so far and for which claims have been registered with Government?

(b) the steps taken by Government to recover the same and the result thereof; and

(c) the action which Government propose to take in the matter?

**The Honourable Shri Mohan Lal Saksena:** (a) The information is not available.

(b) and (c). As a result of Inter Dominion discussions, India and Pakistan have agreed that applications for the recovery of such goods should be favourably considered. A copy of the Press Note issued by the Ministry of Commerce, informing the Indian Merchants of the procedure they should follow for getting release of their consignments held up at Karachi, is laid on the table of the House. Our Trade Commissioner in Pakistan, has also been instructed to render all possible assistance to these merchants in the matter.

#### PRESS NOTE

##### Procedure for Release of Imported Goods held up at Karachi

Agreement exists between India and Pakistan that imported goods—shipped to and paid for in either Dominion before December 31, 1947 out of the undivided exchange account—should be allowed to be re-exported to the other Dominion wherever it is established that the goods were originally intended for consumption in that Dominion. This was one of the decisions reached at the Inter Dominion Conference in Karachi in May 1948, when the question of securing the release of goods intended for India but originally imported into Karachi was considered.

While certain quantities of such goods are being released, considerable difficulty—often of a procedural character—is still being experienced by merchants in India whose goods have been so held up. In order to facilitate the early release of such goods, persons or firms whose consignments are still under detention should apply for export permits to the Chief Controller of Imports and Exports, Government of Pakistan, Karachi, with the necessary documentary evidence including Bill of Lading, Exporters' Invoice, Customs Bill of Entry and Bank Certificate regarding the place, date and mode of payments.

They should also send copies of their applications to the Indian Government Trade Commissioner in Pakistan, Mohatta Building, Meleod Road, Karachi.

Ministry of Commerce,

New Delhi, October 26, 1949

**Shri Deshbandhu Gupta:** May I know whether any effort was made by the Relief and Rehabilitation Ministry to collect this information and whether or not they received several representations from Indians whose goods are lying at Karachi for the last two years?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact this was the function of the Commerce Ministry and a press note was issued by the Commerce Ministry in that behalf asking persons having consignments at Karachi to get into touch with the Imports and Exports Controller, Government of Pakistan, Karachi.

**Shri Deshbandhu Gupta:** Is it because the Pakistan Government did not cooperate in the matter or is it because of our own indifference in the matter?

**The Honourable Shri Mohan Lal Saksena:** It is not because of our indifference. We have got our own Trade Commissioner in Pakistan who was also directed to give all possible help to these merchants.

**Shri Deshbandhu Gupta:** Have not Government estimated the value of the goods lying there which would be worth many lakhs?

**The Honourable Shri Mohan Lal Saksena:** They may be worth lakhs or even crores. The whole point is that to get back their consignments, they were requested to get into touch with our Trade Commissioner in Pakistan and also the Exports and Imports Controller, Commerce Ministry and if they had done it I am sure they would have received all possible help.

**Shri Deshbandhu Gupta:** Is it not a fact that the Government received a representation from the Iron dealers of Delhi in respect of goods worth about 8 lakhs purchased by them prior to August 15th, 1947 and which have not been delivered to them yet?

**The Honourable Shri Mohan Lal Saksena:** So far as I am concerned I am not aware of it but if the honourable member wants me I will make enquiries from the Commerce Ministry.

**Shri Deshbandhu Gupta:** Have not the papers been referred to the honourable Minister?

**The Honourable Shri Mohan Lal Saksena:** I will require notice of that.

**Shri R. K. Sidhva:** Is it not a fact that the Pakistan Government in Karachi have banned the export from Karachi of iron and steel goods? Is it not a fact that several merchants in Bombay have also made representations to Karachi and they have not been able to remove their goods from Karachi for the reason that there is a ban on them?

**The Honourable Shri Mohan Lal Saksena:** It is a fact that Pakistan has banned the export of certain goods and it is provided in the agreement that if the consignments contained any of those goods they will not be re-exported. They will be liable to be sold in Pakistan itself.

## DISPERSAL OF REFUGEE IN CAMPS

\*882. **Lala Raj Kanwar:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) the names of Refugee Relief Camps still working in India with their location and the number of inmates in each camp;

(b) when each of these camps is likely to be closed; and

(c) the arrangements proposed to be made for the disposal of the inmates of such camps before their closure?

**The Honourable Shri Mohan Lal Saksena:** (a) The honourable member is referred to reply to part (c) of Starred Question No. 115 by Giani Gurmukh Singh Musafir on the 3rd February, 1949.

(b) Government of India have advised the Provincial Governments to convert the Relief Camps into Work Centres, as soon as possible. It is not possible to state the exact date of closing each camp.

(c) The proposal is to reduce by progressive stages distribution of gratuitous relief and at the same time to arrange for giving remunerative work for such of the persons as are not able to find gainful employment. Persons, who have found gainful employment, will be permitted to continue to stay in the Camps until alternative accommodation is provided under the various housing schemes.

## PRODUCTION AND CONSUMPTION OF PETROL

\*883. **Lala Raj Kanwar:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) the figures of production and consumption of petrol in the country for each of the last three years;

(b) whether any attempts have been made in recent years to discover fresh sources of supply of petrol.

(c) if so, with what results; and

(d) when the present control over the distribution of petrol is likely to be removed?

**The Honourable Shri N. V. Gadgil:** (a) A statement giving the information is laid on the table.

(b) Yes. Search for mineral oil has always formed an important part of the activities of the Geological Survey of India. The programme for 1948-49 includes a detailed geological and geophysical investigation for oil in Cutch, Kathiawar, Assam and East Punjab.

(c) The investigations are still in progress and it is not possible to judge the result at present.

(d) The question of de-control of petrol is constantly under review. But it is not possible at present to abolish petrol rationing in view of the supply position, inland transportation capacity and the need for controlling distribution during emergencies. The position is, however, constantly under review with a view to lifting the control as soon as conditions permit.

1262

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [4TH MARCH 1949]

## STATEMENT

| Production        |             | (Only for territories in Indian Union) |             |
|-------------------|-------------|----------------------------------------|-------------|
| 1946              | 19,418,400  | Gallons                                | Approximate |
| 1947              | 17,439,360  | Gallons                                |             |
| 1948              | 14,366,950  | Gallons                                |             |
| Consumption       |             | (Only for territories in Indian Union) |             |
| 1946              | 118,682,000 | Gallons                                | Approximate |
| 1947              | 136,253,440 | Gallons                                |             |
| 1948              | 111,219,429 | Gallons                                |             |
| (up to September) |             |                                        |             |

(up to September)

## LOTTERY TO RAISE FUNDS FOR REHABILITATION OF REFUGEES

\*884. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether an application has been received from the Government of East Punjab to start a state lottery to raise funds for the rehabilitation of refugees?

(b) What are the details of the lottery and what decision have Government taken in the matter?

**The Honourable Shri Mohan Lal Saksena:** (a) Yes.

(b) No details were received. The proposal was not acceptable to the Government of India.

**Prof. N. G. Ranga:** Has the proposal been dropped?

**The Honourable Shri Mohan Lal Saksena:** Of course it has been dropped.

**Shri R. K. Sidhva:** What are the reasons for not considering it feasible?

**The Honourable Shri Mohan Lal Saksena:** The reasons for the rejection are:

(i) Government did not subscribe to the view that the end justified the means. A lottery is only an appeal to the gambling instincts and should not be encouraged by the Government on moral grounds.

(ii) Those who will gamble (and there may be refugees amongst them) may not be in a position to afford to do so.

(iii) The Government accepted the task of rehabilitation of displaced persons as a sacred trust to be discharged out of its general resources. It could not be held that lack of funds alone was responsible for delay in this work.

(iv) For a Government to resort to a lottery for raising funds is to admit its bankruptcy and it would adversely affect its credit both inside and outside the country.....

**Honourable Members:** That is enough.

**Shri Deshbandhu Gupta:** May I know whether this is the personal view of the Honourable Minister or the matter was considered by the Cabinet as a whole?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact when I am making an answer it is supposed to be my view.

**Shri V. C. Kesava Rao:** May I know whether there is any proposal before the Government to abolish lotteries all over the country?

**The Honourable Shri Mohan Lal Saksena:** I think this question should be addressed to the Honourable the Home Minister.

**Mr. Frank Anthony:** Since life itself is generally accepted as a gamble do Government consider doing away with human life in this country?

**Shri R. K. Sidhva:** In view of the fact that the Government of India has already introduced a system of lottery for loans every three years or every year I do not remember the period.....

**Mr. Deputy Speaker:** It is an argument.

**Shri M. Tirumala Rao:** In view of the fact that prize bonds which have been instituted as a savings scheme do not constitute a lottery, will Government reconsider their decision in regard to this?

**Mr. Deputy Speaker:** That is another piece of argument.

**Shri Deshbandhu Gupta:** May I know whether the Honourable the Prime Minister agrees with the view expressed in the House by the Honourable Minister for Relief and Rehabilitation?

**Mr. Deputy Speaker:** Such details they are not bound to go into.

## (b) WRITTEN ANSWERS

## URBANISATION OF CERTAIN LOCALITIES IN NEW DELHI

\*885. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that the Government of India contemplate urbanisation of the localities known as Parliament Street, Queensway and Minto Road by constructing multi-storeyed buildings in place of the existing single storeyed buildings and on the open spaces in between and around the present buildings?

(b) Is it proposed to pull down the existing single-storeyed buildings and to replace them by new multi-storeyed buildings?

(c) If so, what would be the expenditure in pulling them down?

**The Honourable Shri N. V. Gadgil:** (a) Yes, Government have accepted the principle of urbanisation of these localities.

(b) It is not proposed to pull down all existing buildings simultaneously but to replace them gradually by multi-storeyed buildings according to a carefully worked out and phased programme of development.

(c) Urbanisation schemes in respect of these localities have not yet been fully worked out and so the total expenditure likely to be incurred cannot yet be estimated. I may however add that having regard to the value of land in these localities the gradual replacement of single-storeyed buildings by multi-storeyed structure will be very good investment when the urbanisation schemes are completed.

## CONSTRUCTION OF QUARTERS IN DELHI

\*886. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether the Government of India have any scheme for constructing quarters for Class III and Class IV Secretariat staff of the Central Government Offices in Delhi?

(b) If so, has any scheme been prepared and at what cost?

(c) What are the details of the said scheme and by which time is it likely to be completed?

**The Honourable Shri N. V. Gadgil:** (a) Yes.

(b) and (c). A statement is laid on the table of the House.

## STATEMENT

| S. I. No. | Name of scheme                                            | Amount of administrative approval | Part of schemes                                          | Date of commencement        | Probable date of completion |                               |                               |  |                                                                                                                                                                                                                                  | Progress of work up to 31st January 1949.                                                                                                                                                                                                                                                                                                   | Remarks |

## STARRED QUESTIONS AND ANSWERS

(5) Construction of 250 Peons quarters.

(a) 72 quarters  
(b) 178 quarters

6,00,000

Construction of 250 Peons quarters.

(5)

(6) Construction of 665 quarters for W.C. staff.

15,96,000

Construction of 665 quarters for W.C. staff.

(6)

(7) Construction of 36 Clerks' quarters Karol-bagh.

4,86,000

Construction of 36 Clerks' quarters Karol-bagh.

(7)

For the remaining 664 quarters site is not yet available and the matter is under correspondence with the Chief Commissioner for Chandrawal site will take 512 quarters only. The rest 152 quarters will be taken after the dismantling of old quarters at Timarpur and clearance of site. There has been a delay in the manufacture of doors and windows due to difficulties of transport. The remaining 178 can be commenced only when old quarters at Timarpur are dismantled and site cleared for that purpose. Work on 100 quarters has just been commenced. For others tenders are being invited. The work is likely to be completed by end of 1949. Site previously proposed for the quarters has been taken over by R.R. Ministry and as such this work could not be commenced.

## REPORT OF SRI RAM COMMITTEE ON TRADE AND COMMERCE

\*887. Pandit Mukut Bihari Lal Bhargava: (a) Will the Honourable Minister of Commerce be pleased to state whether the Government of India have received the report of the Sri Ram Committee appointed by the Export Advisory Council on Trade and Commerce?

(b) If so, what are the main recommendations made by that Committee and have Government taken any decision thereon?

(c) Have any steps been taken by Government to implement any of the recommendations made and if so, in what respect and with what results?

(d) What steps have been taken so far by Government to step up India's export trade to hard currency areas and how far have such efforts been successful?

The Honourable Shri K. C. Neogy: (a) Yes.

(b) A copy of the report is laid on the table of the House.

(c) and (d). Most of the recommendations of the Committee, particularly those relating to raw jute, jute goods, tourist traffic, tea, cloth, hides and skins, manganese ore and various miscellaneous items, have either already been implemented or have been accepted in principle and are in the course of implementation. As the honourable member will appreciate, however, it will take some time to assess the results of steps taken by Government either on the recommendation of the Sri Ram Committee or otherwise to step up exports from India to hard currency countries. Moreover, Government's export policy is not the only factor affecting earnings of hard currency which are very largely influenced by other factors such as prices, competition from other countries and the nature of demand in the buying countries. On the whole, I may say that Government's policy has been one of constant liberalisation and active encouragement of exports to hard currency areas and the earnings from hard currency countries over the second half of 1948 have displayed an upward trend, though it would be too early to say to what extent the trend can be sustained and improved upon in the coming months.

## STATEMENT

Report of the Committee appointed by the Export Advisory Council to recommend to Government the steps to be taken to increase India's exports to hard currency countries.

The Committee consisting of the following met on the 23rd November, 1948 from 9.30 A.M. to 1 P.M. and again from 2.30 P.M. to 5 P.M.

Sir Sri Ram—Chairman.

Mr. Tulsidas Kilachand—Member.

Mr. Neville Wadia—Member.

Mr. A. Jalil—Member.

Mr. Paspatti—Member.

Mr. M. P. Pai—Representative, Ministry of Industry and Supply.

Mr. S. Basu

Mr. S. Raj } Representatives, Ministry of Agriculture.

Mr. K. N. Kaul—Representative, Ministry of Finance.

Mr. L. K. Jha—Member-Secretary.

2. During its deliberations, the Committee invited representation of Messrs. Thomas Cook & Sons and Messrs. Govan Bros. Ltd. to advise on the question of promoting tourist traffic, Mr. D. C. Ghosh to advise on the subject of tea exports to hard currency areas, Mr. Ramdas Kilachand to advise on the subject of exports of oils and oilseeds to dollar countries and Mr. B. N. Banerji of the Ministry of Commerce to advise in regard to the raw jute situation.

3. The Committee felt that in general, exports to hard currency areas should be as free from restrictions of any kinds as possible and the question of issuing open general licences for export to hard currency areas in respect of different commodities should be examined.

4. The Committee then proceeded to the discussion of the following items which were of special importance from the angle of exports to hard currency countries:

(a) *Raw Jute*.—The question was raised whether the export of raw jute upto the figure agreed to with Pakistan should be permitted to hard currency countries and to countries from which special advantages were obtained in return regardless of any possible repercussion on the jute industry which the total export of 9 lakh bales of raw jute might result in. The Committee felt that the target of exports should undoubtedly be 9 lakhs bales of raw jute but if the supply position of raw jute for the consumption of the Indian Jute industry continued to be critical, the following order of priority might be adopted in dealing with the question:

(i) Exports of jute goods to hard currency areas and countries with whom special agreements were made.

(ii) Exports of raw jute to hard currency areas and countries with whom special agreements were made.

(iii) Exports of jute goods to soft currency areas.

(iv) Exports of raw jute to soft currency areas.

(b) *Jute Goods*.—The present licensing position for hard currency areas was explained and the Committee agreed that the *status quo* should be maintained.

(c) *Oils and Oilseeds*.—The system of present quotas was explained and it was pointed out that small quotas of both linseed and groundnut had been set aside for export to hard currency areas, for which licences would issue to any party who was able to do the business. The main difficulty however was that the hard currency areas, as a rule, were not prepared to pay the present Indian prices plus duty.

It was suggested that the duty might be removed and any possible loss of revenue made up by having a small tax on the crushing of oil. As against this, the view was expressed that it might mean the raising of the price of groundnut oil, which would not be desirable.

From the prices quoted, it appeared that even with the removal of duty, the hard currency areas might not find Indian prices attractive. It was suggested therefore that if licences to soft currency areas were given to exporters in proportion to their actual exports to hard currency areas there might be an impetus to the exporters to sell even at a small loss to hard currency areas, which they would recoup from the soft currency areas.

The conclusions which the Committee came to were the following:

(i) The existence of the export duty made Indian groundnut and groundnut oil unsaleable to the hard currency areas and Indian linseed and linseed oil even to the soft currency areas. The case for the removal of duty was therefore clear although some members felt that to prevent a rise in internal prices the duty on groundnut and groundnut oil might be removed by stages.

(ii) Since the hard currency areas preferred to import the kernel or the seed in preference to the oil, exporters should be given the option to export the equivalent quantity of seed instead of the oil to the hard currency areas and if necessary, the ratio of the oil to the seed could be raised to the soft currency areas so as to maintain the over-all ratio between oil and seed.

(iii) Even the adoption of the above two measures would not suffice and exporters would find it economic to sell oils and oilseeds to hard currency areas only if for each ton they are able to export to a hard currency area they are given a licence to export a ton and a half to a soft currency country. This is on the assumption that the duty will have been removed. So long as the duty continues, exporters would only find economic to export to the hard currency areas if for each ton they export to them they are able to export two tons to a soft currency area.

(d) *Tourist Traffic*.—The Tourists constitute what is known as the invisible exports of a country. The potentialities of earning dollars by encouraging tourist traffic are considerable and it is estimated that each tourist would spend anything between 2 to 5,000 rupees in a month's stay in the country and with some encouragement, the number of tourists would easily be in a neighbourhood of 5,000 a year or more. If tourists are to be encouraged the following steps are, in the opinion of the Committee, necessary:

(i) Easy and prompt grant of visas. It was reported that at present visas are not being given to tourists as such.

- (ii) Special facilities to book railway accommodation, provided notice of a week is given, they should provide decent accommodation even at the cost of other traffic.
- (iii) Adequate hotel accommodation of suitable standard. It was brought to the Committee's notice that hotel accommodation was difficult in Calcutta, Bombay and Delhi but in the other tourist centres, such accommodation was available. There had however been a general lowering standards of service in all hotels. It was suggested that an Inspector should be appointed to supervise the hotels particularly the rooms reserved for tourists. The Inspector should see that standards in regard to food and service are maintained and improved.
- (iv) Establishment of a special Government organisation to deal with the tourist traffic. The organisation should work through a number of Travel Bureaus at all important centres.
- (v) Provision of special facilities and amenities to tourists, which should include permission to use Government bungalows and dak bungalows, improved standards of hotel accommodation, facilities for joining clubs and taking part in sports, issue of petrol coupons, supply of drinks, arrangements for shikar and opportunities for cultural contacts. Performances of Indian dancing sponsored or encouraged by the State would help.
- (vi) Publicity and propaganda abroad would be necessary. The various travel agencies are equipped for the purpose and ready to undertake publicity as soon as they know that tourist traffic would be specially catered for. Additional propaganda by Government should be undertaken through the supply of posters, etc. Arrangements should also be made to publicize places which have not in the past been tourist spots, but which are likely to prove attractive. Easily understandable road charts should also be prepared.

(e) *Tea*.—There had been a decline in the exports of tea from India to U. S. A. Apart from the long-range measures to popularise tea in the States, the immediate need was to see that as large a proportion as possible of the tea consumed by the U. S. A. came from India and was supplied direct so that the dollar earnings accrued to India. The export duty on tea, it was felt, was a possible handicap in the way of India tea competing against the tea of other countries particularly Ceylon and it was felt that a reduction in the export duty and an increase in the excise duty might better serve the needs of revenue as well as of export to dollar areas. In this matter it would be preferable for the Government of India to act in consultation with the Government of Ceylon.

It was considered that the sales tax on South Indian tea which was causing a lot of confusion and difficulty should be removed so far as export of tea was concerned and the matter should be urgently pursued independently of the wider question of having a uniform sales tax system for the whole of India.

Other steps to help tea exports are improvement in the transport arrangements, increased storage space at the port of Calcutta and a review of the two per cent. commission at present charged by the auctioners of tea.

The question whether the export of tea should be subject to destination quotas was discussed. While *prima facie* it was considered desirable to have a system of destination quotas with a view to maximizing dollar earnings it was considered, that the peculiar circumstances of the tea industry required that the proposition should be discussed with the tea industry more fully before any such step was taken.

It was considered desirable that some ways should be found to prevent the tea which was earmarked for export from being diverted for internal consumption.

(f) *Cloth*.—It was felt that the export of cloth to hard currency areas should be free from all the restrictions regarding qualities, etc., which attached to soft currency areas. The quota of 77 million yards should be available for the export of piecegoods of manufactures and for mill products and handloom goods alike. The fact that handloom cloth should also go under the scheme should be publicised further.

The existence of export duty even at the present reduced level was sufficient to shut out the hard currency market. Even from the point of view of the soft currency areas, it seemed clear that very soon the ten per cent. duty would act as an impediment to export and it was felt therefore that the duty would better be removed completely. It was suggested that a possible way of making up the revenue so lost would be to have heavy excise duty on fine and superfine cloth.

The question of giving a rebate of the import duty on raw cotton where the cloth was being exported was discussed. It was felt that as a general rule it would be very difficult to decide which cloth had been manufactured out of imported cotton. The principle of

rebate might with advantage be confined to fine and superfine cloth only. As fine and superfine cloth is not generally allowed for export, but would, if the recommendation of the Committee is accepted, be so allowed for hard currency areas, the rebate would in effect amount to a subsidy to the hard currency area exports, which would be unexceptionable from the point of view of the I. T. O. Likewise if there was any difficulty at all in removing the export duty on all cloth immediately, the duty on fine and superfine cloth might be removed forthwith because this again would normally only go to the hard currency areas.

(g) *Mica and shellac*.—Both these commodities are important dollar earners. There is however no shortage in the country and hence they are not subject to any kind of export control. There is reason to believe however the taking advantage of this position, some countries are importing these two commodities from India and re-exporting them to dollar countries. It would be desirable therefore to bring them under control. Simultaneously, an open general licence for the export of these commodities to the hard currency areas should be issued so that the existence of the control does not in any way impede exports to the hard currency areas. In respect of soft currency countries also since supplies are not short, the policy should be of free licensing except in respect of countries which are known to have tried to earn dollars at our expense unless there is some assurance from them in regard to re-exports. Countries like France, Hongkong and perhaps Netherlands, which have got different rates of exchange for the sterling and dollar respectively should be particularly watched. In respect of mica, the point whether transport facilities are adequate should be examined.

(h) *Gums and resins*.—These are also in the same position as shellac and mica except that there has not so far been any reason to suspect that other countries are trading in dollars at our expense. The actual exports of these commodities to various countries should be examined to see if it would be desirable to impose control over them as in the case of mica and shellac. If such a policy appears to be necessary then the licensing procedure should be as outlined against mica and shellac.

(i) *Hides and skins*.—There is considerable difference of opinion as to whether the exports of hides of the lighter varieties should at all be allowed. Hides of the lighter varieties are the only ones that would interest the hard currency countries but the present prices are reported to be unattractive. Whatever may be the general decision regarding the export of the lighter varieties of hide, their exports to hard currency areas, if at all possible, should be permitted. It would also be desirable, both from the point of the Indian tanning industry as well as of export to hard currency areas, to take steps to bring down prices to a reasonable level. It has been suggested that the existence of an export market acts as a steadying influence upon prices and gives better security to the suppliers, who are then able to supply hides at lower prices than when the demand comes exclusively from the tanners who are in the habit of offering high prices one day and low prices another. While this is a debatable view point, there is general agreement that one of the main difficulties in regard to hides at present is the transport difficulty. Hides are very perishable commodities and unless they can be booked and moved with speed, they become useless. At many stations, bookings of hides are permitted on certain days only which means that not all the available hide is collected and consigned either to an exporter or a tanner. Since the loss of hides, which might have otherwise been used, constitutes a serious economic waste of a valuable commodity, the question of removing the difficulties should be taken in hand at once. If transport from booking stations both to port towns and tanning places in the country is made cheap and prompt, it will indirectly help as the skinning of dead animals and slaughter of uneconomical ones thus saving the good ones. The Committee also considered whether an element of stability in prices could be introduced either by the fixation of a minimum and maximum prices by Government or by Government themselves offering to buy hides at a certain price. Unfortunately, they very great differences in quality between one hides and another make such a step difficult if not impossible.

In regard to skins, it was explained that U. S. and U. K. act in co-operation, one country keeping away from the market while the other is buying. As there is no reason to believe that U. S. does not, under the existing arrangements, get all the supplies that it needs, the imposition of a control on goat-skins is not considered necessary.

(j) *Manganese and other ores*.—Government have already brought these items under control recently and continued priority to their transport should make a substantial contribution to India's dollar earnings.

(k) *Raw Cotton*.—The suggestion was made that a removal of export duty on raw cotton and the fixation of destination quotas might help in increasing its exports to the hard currency areas. Opinion on this point was divided and the view was expressed, that the removal of export duty might have an adverse effect on the prices of Indian cotton.

**The Honourable Shri Mohan Lal Saksena:** (a) and (b). The information is not available.

#### EXCHANGE OF PRISONERS BETWEEN INDIA AND PAKISTAN

**\*893. Shri Basanta Kumar Das:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

- the number of prisoners exchanged between India and Pakistan;
- the dates on which such exchange was effected;
- whether there are any more prisoners not repatriated from either side and if so, the reasons therefor; and
- how the repatriated prisoners have been dealt with?

**The Honourable Shri Mohan Lal Saksena:** (a) 4080 Hindu and Sikh prisoners from Pakistan have so far been exchanged with 3,761 Muslim prisoners from India.

(b) The first exchange took place between 8th April, 1948 and 24th April, 1948. The second exchange commenced on 21st October, 1948 and lasted upto 3rd November, 1948.

(c) The main bulk of transferable prisoners has already been exchanged but there are a few cases of omission subsequently reported by either Dominion which are being investigated into by the respective Dominion authorities.

(d) Hindu and Sikh prisoners from West Punjab have been dealt with by East Punjab Government. So far as the prisoners from areas of West Pakistan other than West Punjab are concerned, the main principles of disposal are:

- All under-trial have been released.
- Convicts have been released, provided (a) they were not habitual offenders, or (b) convicted of offences under Sections 302, 366, 376, 395, 396 and 397 I.P.C.

#### ISSUE OF IMPORT LICENCES

**\*894. Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Commerce be pleased to state the number of licences for imports issued during each of the years 1946, 1947 and 1948?

(b) How many of them were of the value of one lakh and more?

(c) What are the names of those who were given licences to import goods worth five lakhs and more in each of the years 1946, 1947 and 1948?

**The Honourable Shri K. C. Neogy:** (a) and (b). I lay on the table two statements (Nos. I and II) showing the number of licences issued during the three years by the licensing authorities concerned as readily available from the records.

(c) I lay on the table a statement (No. III) showing the names of those licencees to whom licences were granted for Rs. 5 lakhs and more by the Development Officers (Tools and Non-Ferrous Metals). The corresponding information pertaining to such licences issued by other licensing authorities is being collected and will be laid on the table of the House in due course.

#### STATEMENT I

*Total number of licences issued by the Chief Controller of Imports and his officers at the Ports during the period July 1947 to December 1948.*

| Year.              | Total number of licences issued. | Number of licences issued for the value of Rs. 1 lakh and over. |
|--------------------|----------------------------------|-----------------------------------------------------------------|
| July—December 1947 | 46,800                           | 5,645                                                           |
| 1948               | 132,825                          | 16,464                                                          |
| Total              | 179,625                          | 22,109                                                          |

NOTE:—

(1) Figures prior to July 1947 have not been preserved in the Records of the Chief Controller of Imports.

(2) Figures shown against July-December 1947 include licences granted to importers in Pakistan prior to partition.

#### STATEMENT II

*Total number of licences issued, etc., by the Steel Import Controller, Calcutta, the Development Officers (Tools and Metals) during the years 1946-47 and 1948.*

| Year. | Total number of licences issued. | Number of licences issued for the value of Rs. 1 lakh and over. |
|-------|----------------------------------|-----------------------------------------------------------------|
| 1946  | 23,036                           | *118                                                            |
| 1947  | 26,533                           | †558                                                            |
| 1948  | 28,425                           | 1,299                                                           |
| Total | 77,994                           | 1,975                                                           |

\*Excludes licences granted by the Steel Import Controller, Calcutta.

†Excludes licences granted by the Steel Import Controller, Calcutta from 1st Jan.'47 to 31st May'47

Note.—Figures shown against the years 1946 and 1947 also include licences granted to importers in Pakistan prior to partition.

# NATIONALITY AND APPOINTMENT OF ABDUS SATTAR SETH AS PAKISTAN'S AMBASSADOR IN EGYPT

\*895. **Shri K. Hanumanthaiya:** (a) Will the Honourable the Prime Minister be pleased to state whether Abdus Sattar Seth, a former member of the Constituent Assembly of India has been appointed Ambassador of Pakistan in Egypt?

(b) Did he seek or obtain the consent of the Government of India before he accepted the appointment?

(c) Does he continue to be an Indian citizen?

**The Honourable Shri Jawaharlal Nehru:** (a) Yes.

(b) No.

(c) In strict law, there is no definition of Indian citizenship at present, although for passport and other purposes certain persons are described as Indian citizens. This position will no doubt be cleared up as soon as the new Constitution is adopted or a Nationality law is passed. Therefore it is not easy to say at present who is, strictly speaking, an Indian citizen.

A comprehensive citizenship law will no doubt lay down the grounds upon which persons should lose their citizenship. Mr. Abdus Sattar Seth's nationality at present cannot therefore be defined with any accuracy. This will depend upon the law which India may enact on the subject. For practical purposes however, it appears desirable that when a citizen enters into a foreign civil or military service without permission of his own Government, he loses his original nationality.

## UNEMPLOYMENT STATISTICS

\*896. **Shri P. Kunhiraman:** (a) Will the Honourable the Prime Minister be pleased to state what is the extent of unemployment in India?

(b) Is there any Department under the Government of India charged with the duty of collecting employment statistics?

**The Honourable Shri Jawaharlal Nehru:** (a) It is not possible to state with any measurable accuracy what the extent of unemployment is in India at present. There has been for a considerable time past a great deal of unemployment and under-employment among various classes of people. The largest number of unemployed or under-employed probably are agriculturists or agricultural labourers.

An attempt has been made to keep some record of the industrial unemployed. But even in regard to these, complete information is not available. From the registers of the Employment Exchanges under the Ministry of Labour, the number of employment seekers on the 31st December, 1948, was 2,39,033.

(b) The Directorate General of Resettlement and Employment publish every month the number of persons who register themselves for employment and the number of persons who remain on the registers of the Employment Exchange at the end of every month. An Agricultural Labour Enquiry Committee is also being set up. There is at present no machinery for the collection of employment statistics covering the whole field.

According to the Government of India Act as well as the Draft Constitution, the Central Government's field is restricted to Centrally Administered Areas in

## STATEMENT III

*Names of licences to whom licences were granted for various fine arts and more by the Development officers (Tools and non-ferrous Metals) during the years 1946, 1947 and 1948.*

| No.  | 1946                                                        | No.  | 1947                                                         | No.  | 1948                                                                 |
|------|-------------------------------------------------------------|------|--------------------------------------------------------------|------|----------------------------------------------------------------------|
|      | (1)                                                         |      | (2)                                                          |      | (3)                                                                  |
| (1)  | M/S. Alfred Herberts (India) Ltd.                           | (1)  | M/S. Alfred Herbert (I) Ltd.                                 | (1)  | M/S. Alfred Herbert (I) Ltd.                                         |

respect of statistics relating to unemployment. In most countries unemployment statistics have been collected where unemployment insurance is statutorily provided for.

Apart from the constitutional position, the Government of India are conscious of their responsibility to collect, in co-operation with Provincial and State Governments, as full statistics as possible in regard to the unemployed and manpower situation in the country.

#### \*ACQUISITION OF BARRACKS AT ANAND PARBAT

**\*897. Shri Damoder Swarup Seth:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state:

(a) whether a notice has been served on Ramjas College Society for the acquisition of the barracks at Anand Parbat; and

(b) the period for which the said barracks are required?

**The Honourable Shri Mohan Lal Saxena:** (a) Yes, for the acquisition of Upper Barracks only.

(b) Permanently.

#### SCHEMES OF PROVINCIAL GOVERNMENTS FOR HOUSING REFUGEES

**\*898. Shri B. N. Munavalli:** (a) Will the Honourable Minister of Relief and Rehabilitation be pleased to state whether it is a fact that the Government of the United Provinces, the Government of Bombay and some other Provincial Governments have submitted their housing schemes for refugees for the approval of the Government of India?

(b) If so, what are those various housing schemes province-wise, where are those houses to be constructed in the different provinces and what expenses will be incurred by each province towards the said housing schemes?

(c) Have the said housing schemes been started and if so, in what provinces?

(d) What is the estimated accommodation for the refugees according to the various schemes province-wise and what is the total estimated expense for all such housing schemes as have now been sanctioned by the Government of India up to date?

(e) What amount in all do Government intend to spend towards providing houses for refugees?

**The Honourable Shri Mohan Lal Saxena:** (a) Yes.

(b), (d) and (e). A statement is laid on the table of the House.

(c) According to the information so far received, housing schemes have been started in the provinces of Bihar, U.P., East Punjab and Delhi.

#### STATEMENT Housing Scheme from Provinces/States

| S. No. | Name of the Provinces/States          | Scheme                                                                                                                                                                                          | Population                                                     | Houses of tenements                                                            | Total commitments accepted. | Amount of loan already sanctioned.      |

## BAUXITE IN KOB LAPAT HILL, KALAHANDI STATE, ORISSA

**The Honourable Shri N. V. Gadgil:** From the analysis made so far the quality appears to be good.

**69. Shri K. Hanumanthaiya:** Will the Honourable Minister of Commerce be pleased to state:

(b) if so, from what countries and at what prices;

(d) the quantities of silk fabrics imported into India from foreign countries in the years 1936-37, 1937-38, 1938-39 and also in 1945-46, 1946-47 and 1947-48; and

**The Honourable Shri K. G. Neogy:** (a) to (c). A statement giving the required information is placed on the table of the House.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

(PART I—QUESTIONS AND ANSWERS)

*Monday, 7th March, 1949.*

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

STARRED QUESTIONS AND ANSWERS

(a) ORAL ANSWERS

MODEL CONSTITUTION FOR THE STATES

\*899. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of States be pleased to state whether it is a fact that the Ministry of States is contemplating the preparation of a model constitution for all the States?

(b) If so, what stage has it reached and is it Government's intention to introduce the model constitution in all the States simultaneously when the Indian Union Constitution comes into force?

(c) Have any representatives of the States been consulted while framing such a model constitution?

**The Honourable Sardar Vallabhbhai Patel:** (a) to (c). A small Committee of representatives of the States and some experts has been set up under the Chairmanship of Sir B. N. Rau, Constitutional Adviser to the Constituent Assembly of India, to draw up a Model Constitution. The Model Constitution is intended to serve as a guide to the Constituent Assemblies of States and Unions in framing their constitution.

**Shri R. L. Malviya:** I want to know whether, so long as the integration of the States and the process of union is going on, there is any necessity for framing a model constitution?

**Mr. Speaker:** The honourable member is asking for opinion.

**Babu Ramnarayan Singh:** Will that model constitution be submitted to the Indian Constituent Assembly?

**The Honourable Sardar Vallabhbhai Patel:** I do not think it is necessary.

**Babu Ramnarayan Singh:** In view of the fact that the people of the States are going to frame the constitution for us, how is it that we shall not be able to make a constitution for them?

**Mr. Speaker:** Not for the Dominion.

**Shri R. L. Malviya:** Does this model constitution apply to those States which are represented in the Constituent Assembly?

**The Honourable Sardar Vallabhbhai Patel:** If those who are not represented in the Constituent Assembly want to copy that constitution we cannot prevent them.

## STATEMENT

Quantity and value of silk yarn and piecegoods imported into India by sea from abroad, on private account, during the official years 1936-37 to 1938-39 and 1946-47 to 1947-48, with details of the principal countries of consignment.

\*Relates to British India including Burma

†The figures exclude the direct foreign Sea-borne of the Pakistan Provinces of Sind and East Bengal with effect from the 1st and the 15th August 1947 respectively. They do not include India's Sea-borne trade with Pakistan upto February 1948.

## STARRED QUESTIONS AND ANSWERS

**Shri H. V. Kamath:** Since Government set up this committee, may I know if the constituent assemblies that were set up in the various States have been dissolved or are they in a state of suspended animation?

**The Honourable Sardar Vallabhbhai Patel:** They have not been dissolved and they will consider the model constitution when it is sent to them.

**Babu Ramnarayan Singh:** No reply has been given to my question, Sir.

**Mr. Speaker:** I think it has been replied to.

**Shri R. L. Malviya:** Will this Model Constitution apply to unions of States also?

**The Honourable Sardar Vallabhbhai Patel:** Which Unions?

**Shri R. L. Malviya:** Rajasthan Union.

**The Honourable Sardar Vallabhbhai Patel:** Unions of States? Of course it will.

#### FUNCTIONS OF ENVIRONMENTAL HYGIENE COMMITTEE

\*900. **Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Health be pleased to state what are the functions of the Environmental Hygiene Committee set up by Government?

(b) Who are the members of the said Committee?

(c) What expenditure has been incurred by Government up to date for this Committee?

**The Honourable Rajkumari Amrit Kaur:** (a) and (b). A statement showing the composition of the Environmental Hygiene Committee and its terms of reference is laid on the table of the House.

(c) Rs. 24,000.

#### STATEMENT

##### *Composition of the Environmental Hygiene Committee and its terms of reference*

##### *Composition—*

- (1) Dr. B. C. Das Gupta, Executive Health Officer, Bombay Corporation (*Chairman*).
- (2) Shri K. Subramaniam, Professor of Public Health Engineering, All India Institute of Hygiene and Public Health, Calcutta.
- (3) Shri A. V. Raman, Retired Sanitary Engineer of the Government of Madras.
- (4) Shri R. S. Mehta, Engineer and Secretary, Joint Water and Sewage Board, Delhi.
- (5) Shri S. C. Bose, Deputy Director, Health Services and Public Health Engineering, Calcutta.
- (6) Shri N. V. Modak, Special Engineer, Bombay Corporation.

##### *Terms of reference—*

- (1) Investigation of the whole field of Environmental hygiene with special reference to:
  - (i) Town and village planning;
  - (ii) Housing, urban and rural;
  - (iii) Water supply;
  - (iv) General sanitation including conservancy and drainage; disposal of industrial and trade waste; advantages of composting in preference to other methods of disposal of urban refuse;
  - (v) Prevention of river and beach pollution;
  - (vi) Control of insect vectors of diseases;
  - (vii) Regulation of certain trades, industries and occupations dangerous to health and offensive to community.

(2) Framing of a programme of development for the consideration of Government based on examination of the recommendations of the Health Survey and Development Committee regarding Environmental Hygiene and of the 5-year plans of the Provinces.

In framing the programme, the Committee should take into consideration the following factors:—

- (i) The programme will be required to be placed on a basis of adequate and comprehensive planning, while at the same time, taking into account the financial capacity of Governments to implement the programme. It should therefore suggest, wherever possible, ways and means by which the funds necessary for implementing their proposals can be found.
- (ii) The need for promoting the training of an adequate number of technical personnel of various categories required for a modern programme of environmental improvement and for promoting the production of the necessary equipment. The Committee should make specific recommendations in this regard.
- (iii) In view of the varying resources of the Provinces, the measures required to assist the less favoured provinces so that the programme can be implemented on as uniform a basis as possible.

**Prof. N. G. Ranga:** Whom is this Environmental Hygiene Committee intended to help? Is it intended to help urban or rural or all areas?

**The Honourable Rajkumari Amrit Kaur:** Both but primarily for rural areas.

#### STATISTICS re FOREIGN INVESTMENTS IN INDIA

\*901. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Finance be pleased to state whether it is a fact that the Reserve Bank of India has been directed to compile statistical information regarding foreign investments in India?

(b) Is the work complete, and, if so, what is the result of the investigation?

**The Honourable Dr. John Matthai:** (a) and (b). I would draw the honourable member's attention to the reply to the Starred Question No. 330 by Shri R. K. Sidhva on 14th February, 1949.

**Shri R. L. Malviya:** What is the total foreign investment in India?

**The Honourable Dr. John Matthai:** The investigation is still being conducted and we have not come to the end of it yet.

**Prof. N. G. Ranga:** When was this investigation commenced?

**The Honourable Dr. John Matthai:** It commenced about a year ago and as I told the House last time when this question was raised, originally we had expected that the investigation would be completed by the end of December 1948. Since then various parties concerned with investments wanted an extension and the Reserve Bank gave an extension until the 15th of February. I understand that a further extension has since been given and beyond that I have not got the details.

**Shri K. Hanumanthaiya:** Who is the officer in charge of this investigation?

**The Honourable Dr. John Matthai:** The Reserve Bank of India.

**Shri R. L. Malviya:** How many English and American firms have sold their concerns here and left India?

**The Honourable Dr. John Matthai:** The honourable member must wait for the report.

**Sriut Kuladhar Chaitra:** Will these figures be compiled provincewise?

**The Honourable Dr. John Matthai:** It is a little too soon to answer that question.

**Shri Deshbandhu Gupta:** Are Government also collecting figures relating to capital that has already disappeared from this country?

**The Honourable Dr. John Matthai:** I expect that it will be part of this investigation.

#### REORGANISATION OF CENTRAL SECRETARIAT

**\*992. Shri V. C. Kesava Rao:** Will the Honourable Minister of Home Affairs be pleased to state whether the Central Secretariat reorganisation plans are complete and, if so, when Government propose to put them into effect?

**The Honourable Sardar Vallabhbhai Patel:** Not yet; valuable preliminary material has been collected and it is hoped that plans for the general reorganisation of the Central Secretariat will be finalised in the course of the next two months. While it is not, at present, possible to say when the complete scheme will be put into effect, a scheme for the Reorganisation and Reinforcement of the Central Secretariat Service, which was approved by Government on the 22nd October 1948, is at present being implemented by the Ministry of Home Affairs.

**Shri H. V. Kamath:** Is the scope of this Secretariat Reorganisation limited only to reorientation and reshuffling of the various departments or will this Committee also consider the broader aspects of finance and economy?

**The Honourable Sardar Vallabhbhai Patel:** I do not think that the question of finance or economy is included in this.

#### INVESTMENTS IN NATIONAL SAVINGS CERTIFICATES

**\*903. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Finance be pleased to state how much money has been invested by the public during the year 1948 as compared with the year 1946 and 1947 in National Savings Certificates?

(b) What steps have Government taken to induce small investors, particularly the middle and lower middle class, to invest their surplus in these certificates?

(c) Have Government considered a proposal to insist industrialists to invest a certain portion of their savings in these certificates?

**The Honourable Dr. John Matthai:** (a) Sales of National Savings Certificates in 1948 amounted to Rs. 23.18 crores compared with Rs. 20.17 crores in 1947 and Rs. 23.23 crores in 1946. The figures for the period prior to the partition are for undivided India.

(b) The advantages of saving are brought home by an organised campaign of publicity including posters, broadcasts etc. Special facilities have also been provided for investment. Certificates are available in small denominations from rupees five. Two new series of Certificates have been issued with effect from 1st June 1948—one with a currency of five years and the other with a currency of seven years. In this connection, the attention of the honourable member is invited to the Press Communique dated the 12th April 1948.

(c) No, Sir.

**Shri R. K. Sidhva:** May I know which is the largest class of people who contributed in the largest measure during last year to these National Savings Certificates?

**The Honourable Dr. John Matthai:** I do not quite know what the honourable member means by class of people but the only sort of answer I can give to the honourable member is this: that the impression I have gathered of an examination of the reports is that the savings campaign has worked almost entirely in the urban areas and it has not really touched the rural areas.

**Shri R. K. Sidhva:** Will the Honourable Minister tell us why the industrialists are not subscribing to this, since he has said that they are not subscribing?

**The Honourable Dr. John Matthai:** This is a movement meant almost entirely for the benefit of the small savers. These certificates are being issued at rather concessional rates of interest and I see no reason why industrialists should be encouraged to put their money into certificates carrying concessional rates of interest.

**Prof. N. G. Ranga:** Are any efforts being made to offer commission to those who canvass for these national savings certificates and also to induce the trade unions, *kisan sabhas* and such other organisations to interest themselves in canvassing for subscription to these certificates?

**The Honourable Dr. John Matthai:** I presume that what the honourable member has in mind is the institution of authorised agents, which has been suspended, I think, since June 1948. The question of reviving this system is under active consideration.

**Shri B. P. Jhunjhunwala:** Has any attempt been made to popularise the certificates among the well-to-do cultivators in the villages?

**The Honourable Dr. John Matthai:** We are trying to do our best. I raised this question and we discussed it in great detail at the conference of Provincial Finance Ministers a few months ago. If my honourable friend has any suggestions to make in this matter I should greatly welcome them.

**Pandit Lakshmi Kanta Maitra:** Have any steps been taken, particularly to allow public institutions such as schools, dispensaries and similar institutions, to invest their savings in these savings certificates?

**The Honourable Dr. John Matthai:** I am free to admit that not enough has been done but I should like to explore that field.

**Pandit Lakshmi Kanta Maitra:** May I also in this connection draw the attention of the Honourable the Finance Minister to the fact that with the withdrawal of the benefits of cash certificates recently there has been a great deal of burden cast on public institutions, for they do not find any field for investment. In view of that will the Honourable Minister kindly look into this matter?

**The Honourable Dr. John Matthai:** I shall certainly do that.

**Shri Arun Chandra Guha:** Is there any scheme under contemplation by the Government to enforce anything like a compulsory small savings?

**The Honourable Dr. John Matthai:** We have considered very carefully the question of compulsory savings and come to the conclusion that it is not worth while pursuing.

**Shri Raj Bahadur:** Have any investments been made by the rural population? If so, what is the proportion of this investment in relation to that made in urban areas?

**Honourable Members:** That question has already been answered.

**Shri R. L. Malviya:** May I know how much money has been paid to the selling agents of these certificates by way of commission?

**The Honourable Dr. John Matthai:** I said that the system of authorised agents has been suspended since June 1948 but if my honourable friend wants the figure of commission distributed to authorised agents before that date I must ask for notice.

**Dr. V. Subramaniam:** What is the maximum amount which a man can subscribe to the national savings certificates?

**Sadrar Hukam Singh:** Is the Honourable Minister aware of the general belief among the newspapermen that the special despatches on the Hyderabad police action, broadcast by the B.B.C., which were supposed to have been sent from the spot were really framed in the B.B.C. studio in London?

**Mr. Speaker:** I do not think this question arises.

**Shri Mahavir Tyagi:** May I know why broadcasts which were against the interests of India were allowed to be relayed from our station?

**Mr. Speaker:** I am calling the next question.

#### INVENTORIES OF PRIVATE PROPERTIES OF PRINCES

\*905. **Shri K. Hanumanthaiya:** (a) Will the Honourable Minister of States be pleased to state how many Princes have furnished to the Ministry of States, in pursuance of the agreements signed by them and the representative of the Ministry of States, inventories of all immovable properties, securities and cash balances held by them as private property?

(b) What is the total value of such immovable properties, securities and cash balances in each of the inventories?

(c) How many Princes have not yet furnished such inventories?

**The Honourable Sardar Vallabhbhai Patel:** (a) 103.

(b) Government do not consider it proper that either the value or the details of the private property of rulers should be a matter for public disclosure.

(c) Three.

**Shri Deshbandhu Gupta:** Are Government satisfied in respect of these 103 Princes that all their private immovable property has been declared?

**The Honourable Sardar Vallabhbhai Patel:** Yes, they are quite satisfied.

**Prof. H. G. Ranga:** Why is it that these three Princes who have not yet furnished their inventories...

**The Honourable Sardar Vallabhbhai Patel:** They have been reminded.

**Shri Raj Bahadur:** Are Government satisfied that none of the items included in the list of private property is public property?

**The Honourable Sardar Vallabhbhai Patel:** Government will satisfy themselves on this subject.

**Srijut Rohini Kumar Chaudhuri:** Have Government taken upon themselves the responsibility of paying the outstanding private debts incurred by the Princes before their States were merged?

**The Honourable Sardar Vallabhbhai Patel:** No; Government is not taking that responsibility.

**Shri R. L. Malviya:** Has the question of private property in merged States been settled; if not how long will it take to settle?

**The Honourable Sardar Vallabhbhai Patel:** In some cases it has been settled; in the case of some it is still under discussion. It will not take long before this question is settled.

**Srijut Rohini Kumar Chaudhuri:** Who will pay their private debts?

**Mr. Speaker:** Order, order. That is a question for the Princes.

#### GRADUATION TRAINING OF RELEASED I. A. M. C. OFFICERS AT LAKE MEDICAL COLLEGE, CALCUTTA

\*906. **Shri H. V. Kamath:** Will the Honourable Minister of Health be pleased to state:

(a) how many medical licentiates were granted Emergency Commissions in the I.A.M.C. during the World War II;

(b) how many have been released since the close of the War;

(c) how many have been selected, and on what basis, for graduation training at Lake Medical College, Calcutta;

(d) what provision, if any, has been made by Government for the re-employment of released licentiate officers; and

(e) whether Government propose to remove the class distinction as between licentiates and graduates in the medical profession?

**The Honourable Rajkumari Amrit Kaur:** (a) 2609.

(b) 2243.

(c) 582 war-service licentiates have so far been admitted to the Lake Medical College, Calcutta. Admissions are made in accordance with the rules laid down in the prospectus of the College, a copy of which is in the Library of the House. Almost all war-service licentiates, who fulfil the prescribed conditions and have so far applied for admission, have been admitted to the College.

(d) Medical Employment Bureaux were established in the various Provinces and States for the purpose of assisting the demobilised personnel in securing employment under Government as well as under semi-Government institutions. The Government of India bear sixty per cent. of the cost of the special staff necessary for the establishment of Medical Employment Bureaux.

(e) The distinction referred to is the result of the difference in standards between licentiate and graduate qualifications. Until medical schools in the Provinces of India are converted into medical colleges and a uniform minimum standard of medical qualification for the whole of India is established, the distinction between medical licentiates and medical graduates in the profession will continue. Most of the Provincial Governments have, however, abolished the medical schools in their respective provinces or have converted them into medical colleges. The remaining schools are also either being abolished or converted into colleges.

**Shri H. V. Kamath:** May I know what is the total number of medical licentiates in India today?

**The Honourable Rajkumari Amrit Kaur:** I would have to have notice of that question.

**Shri H. V. Kamath:** How many graduates were granted emergency commissions during the war?

**The Honourable Rajkumari Amrit Kaur:** I would have to have notice of that question too.

**Shri H. V. Kamath:** Is there any proposal to revise the Indian Medical Councils Act of 1933?

**The Honourable Rajkumari Amrit Kaur:** Government is not aware of any proposal.

**Mr. Frank Anthony:** Is it a fact that no licentiates are to be permanently employed or commissioned in the I.A.M.C.?

**The Honourable Rajkumari Amrit Kaur:** That would come under Defence, but I do not think that is correct.

**Shrimati Ammu Swaminadhan:** With reference to part (d), may I ask whether this provision has been made with regard to Women's Medical Service personnel also?

**The Honourable Rajkumari Amrit Kaur:** Women's Medical Service personnel would not come under this category because none of them are licentiates.

know why it is that though admission to Air Force is restricted to a higher category, the Army and Navy have higher disability pensions?

**Mr Speaker:** I understand the distinction which the honourable member is making, but the question refers to physical disabilities and not educational qualifications. Has honourable member any other question of information to put?

**Shri H. V. Kamath:** Yes, Sir. How long will the Committee referred to in part (c) of the answer, take to decide this question?

**The Honourable Sardar Baldev Singh:** I understand the Committee has already held two meetings and are reported to have reached certain tentative conclusions, but the final report has not yet been submitted.

**Mr. Frank Anthony:** Arising out of (c), is it Government's main intention that the disability pensions of Army personnel should be raised to the standards of pensions given to Air Force personnel?

**The Honourable Sardar Baldev Singh:** This question is also being examined by this Committee.

**Mr. Frank Anthony:** Is it a fact that the present disability pensions and other allowances allowed to Army personnel are regarded by them as being very low?

**The Honourable Sardar Baldev Singh:** I have already stated in reply to part (c) of the Question that there is a difference between the pension allowed to the Air Force, the Navy and the Army, and this question is also being examined by this Committee.

#### ESTABLISHMENT OF A TECHNOLOGICAL COLLEGE IN ASSAM

\*909. **Srijut Kuladhar Chaliha:** (a) Will the Honourable Minister of Education be pleased to state whether Government have received any scheme for the establishment of a Technological College in Assam from the Engineering Experts who sat in Conference at Jorhat, Assam in October, 1948?

(b) If so, what is the sum involved in the scheme?

(c) Do the Government of India propose to grant any amount in the year 1949-50 for the implementation of the scheme?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) No.

(b) Does not arise.

(c) The Government of India will give due consideration to the scheme if and when it is received from the Government of Assam.

**Srijut Kuladhar Chaliha:** Has it not yet been received, Sir?

**The Honourable Shri Satyanarayan Sinha:** No, Sir.

#### STERLING BALANCES RELEASED IN 1948.

\*910. **Shri K. Hanumanthaiya:** (a) Will the Honourable Minister of Finance be pleased to state how much sterling has been released during the year 1948 by the United Kingdom Government out of the sterling balances due from them to India?

(b) How much of the sterling released has been utilised by India?

(c) What goods have been purchased by means of the said sterling and in what quantity?

(d) Is it a fact that full utilization of sterling released was not possible because of the non-availability of capital goods that India needed?

**The Honourable Dr. John Matthai:** (a) and (b). I would invite the attention of the honourable member to paragraphs 7 and 8 of my Budget Speech.

#### STARRED QUESTIONS AND ANSWERS

(c) It is not possible to relate specific purchases of goods with the fall in the Sterling Balances. If the honourable member desires to know what goods India has imported during 1948. I would refer him to the Accounts relating to the Sea Borne Trade and Navigation of India which are published monthly and copies of which will be found in the Library of the House.

(d) The availabilities of capital goods are not yet what we would desire but are improving and it would not be correct to say that we are finding any difficulty in utilising our Sterling Balances.

#### RENAMING OF BANARAS HINDU UNIVERSITY AND ALIGARH MUSLIM UNIVERSITY

\*911. **Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Education be pleased to state whether there is a proposal to change the names of the Banaras Hindu University and the Aligarh Muslim University?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** Yes, Sir.

#### FINANCIAL ASSISTANCE TO SCHEDULED BANKS OF CALCUTTA

\*912. **Lala Raj Kanwar:** Will the Honourable Minister of Finance be pleased to state:

(a) whether four scheduled banks of Calcutta had recently to suspend or curtail payments owing to financial difficulties;

(b) if so, whether any financial assistance was given to those Banks by the Reserve Bank of India to enable them to tide over their difficulties; and

(c) if not, why not?

**The Honourable Dr. John Matthai:** (a) Yes.

(b) and (c). One of these banks which approached the Reserve Bank for financial assistance was granted a limit, but the bank could not produce eligible security even with a liberal interpretation of eligibility to the full extent of the limit sanctioned. The other banks either did not approach the Reserve Bank of India or could not produce suitable security to cover the amount required.

#### COUNTRIES WHERE ESTATE DUTY OR DEATH DUTY IS LEVIED

\*913. **Lala Raj Kanwar:** Will the Honourable Minister of Finance be pleased to state:

(a) in which countries of the world, so far as Government are aware, estate duty on succession or death duty is levied; and

(b) in case information is available, what is the estimated annual revenue from such source in some of the principal countries of the world which levy such duty?

**The Honourable Dr. John Matthai:** (a) Government have no precise information but they are aware that estate duty is levied in U.K., U.S.A., Canada, Australia and Ceylon.

(b) The annual revenue from this source in U.S.A. and U.K. was as under: U.S.A.—

1946—Estate Tax \$629,600,697.

1947—Estate Tax \$708,793,811.

U.K.—

1947-48—Death Duties £172,000,000.

1948-49—(to Nov. 20) £111,900,000.

† Answer to this question laid on the table, the questioner being absent.

## SALARIES AND ALLOWANCES TO RAJ PRAMUKHS AND UP-RAJ PRAMUKHS

\*914. **Lala Raj Kanwar:** Will the Honourable Minister of States be pleased to state

(a) the salary and allowances at present paid to and other privileges and amenities enjoyed by the Raj Pramukhs and Up-Raj Pramukhs of the various Unions of States;

(b) whether the above amounts are subject to income-tax or not; and

(c) whether such amounts have been fixed on any uniform principle?

**The Honourable Sardar Vallabhbhai Patel:** (a) A statement showing the allowances sanctioned to the Rajpramukhs and Uprajpramukhs is laid on the table of the House.

(b) The covenants do not contain any provision in respect of income-tax.

(c) The amounts have been fixed after taking into consideration the circumstances of each case.

## STATEMENT

| S. No. | Name of Union                         | Salary and allowances sanctioned to the Rajpramukhs   | Salary and allowances sanctioned to the Uprajpramukhs |
|--------|---------------------------------------|-------------------------------------------------------|-------------------------------------------------------|
| 1      | Surashtra                             | A consolidated allowance of Rs. 6.16 Lakhs per annum. | Nil.                                                  |
| 2      | Matsya                                | A consolidated allowance of Rs. 70,000/- per annum.   | Nil.                                                  |
| 3      | Vindhya Pradesh                       | A consolidated allowance of Rs. 122,000/- per annum.  | A consolidated allowance of Rs. 20,000/- per annum.   |
| 4      | Rajasthan                             | A consolidated allowance of Rs. 5 lakhs per annum.    | A consolidated allowance of Rs. 25,000/- per annum.   |
| 5      | Madhya Bharat                         | A consolidated allowance of Rs. 2½ lakhs per annum.   | A consolidated allowance of Rs. 2½ lakhs per annum.   |
| 6      | Pat'ala and East Punjab States Union. | Under consideration.                                  |                                                       |

## FIVE YEAR DEVELOPMENT PLANS FOR AJMER-MERWARA

\*915. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Health be pleased to state what amounts on recurring and non-recurring expenditure were provided in the budget for the year 1948-49 in connection with the various five-year development plans for the Province of Ajmer-Merwara viz.:

- Construction of a hospital of 200 beds at Ajmer;
- Establishment of a Tuberculosis Clinic in the Victoria Hospital, Ajmer;
- Establishment of a secondary health centre at Beawar;
- Establishment of five Primary Health Units;
- Improvement of existing dispensaries in Ajmer-Merwara; and
- Headquarters Health Organisation, Ajmer-Merwara?

(b) What amount was actually spent during the year and what provision is being made in the year 1949-50?

(c) What progress has been made towards the implementation of these plans in the year 1948-49 and how far are they likely to proceed in the year 1949-50?

+ Answer to this question laid on the table, the question being absent.

(d) Was any provision made in the budget for the year 1948-49 for increasing the medical staff in and for supplying up to date medical instruments and appliances and medicines to the dispensaries in the rural areas of Ajmer-Merwara and the Government Hospital at Beawar?

(e) If so, how much and was any amount actually spent during the year in this connection?

**The Honourable Rajkumari Amrit Kaur:** (a) to (c). Attention is invited to the reply given to Starred Question No. 564 asked by the honourable member on the 22nd February, 1949. A sum of Rs. 2,67,700 has been spent during the current financial year as follows:

Hospital equipment consisting of 250 beds (200 beds for Ajmer and 50 beds for Beawar) has been purchased from the American surplus stores at a cost of Rs. 2,56,200. The scheme for improvement of existing dispensaries has been partly given effect to by taking over the rural dispensaries at Pushkar, Todgarh, Masuda, Sawar, Ramsar and Picanan and providing extra staff at the latter place, at a cost of Rs. 11,500.

(d) and (e). No progress could be made in respect of medical staff except to the extent indicated in reply to parts (a), (b) and (c). As regards medical stores, the rural dispensaries and the Beawar Hospital have been provided with medical stores worth Rs. 10,200 and Rs. 16,000 respectively in the current year as against stores worth Rs. 8,300 and Rs. 10,000 supplied to them in the previous year. The equipment required for the various hospitals and dispensaries will be provided from the American surplus stores already purchased.

## SCALE OF DIET FOR PRISONERS IN CENTRAL JAILS OF AJMER AND DELHI

\*916. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Home Affairs be pleased to state what was the ordinary scale of diet for a prisoner in the Central Jails of Ajmer and Delhi in the year 1938-39 and what is the present scale of diet there?

(b) Do Government intend to revise the present scale to bring it up to the pre-war level; and, if not, why not?

**The Honourable Sardar Vallabhbhai Patel:** (a) The ordinary scale of diet for a prisoner in the Central Jail, Ajmer and the District Jail, Delhi in the year 1938-39 is given in the statement laid on the table of the House. The present scale of diet in both the jails is the same as in the year 1938-39.

(b) Does not arise.

## STATEMENT

The scale of diet in force in Ajmer Central Jail, Ajmer from 1st February 1949.

| No. 1<br>For Labouring convicts. |             | No. 2<br>For non-labouring convicts and undertaals. |  |

| Vegetables                       | 4 "         | 4 "                                                 |  |
| Salt                             | 2/5 "       | 2/5 "                                               |  |
| Onions                           | 1 "         | 1 "                                                 |  |
| Spices                           | 1 "         | 1 "                                                 |  |

|                |                |     |               |               |
|----------------|----------------|-----|---------------|---------------|
| $\frac{1}{2}I$ | $\frac{1}{2}I$ | $I$ | $\frac{1}{8}$ | $\frac{1}{6}$ |
|----------------|----------------|-----|---------------|---------------|

NOTE :— Adult labouring prisoners of the Lahore Female Jail shall receive grains on the scale allowed to adult labouring male prisoners.

2. The diet of adolescent convicted prisoners is 2 chattaacks of flour daily in excess of the scale.
3. Dal of the same kind should not be used on two consecutive days.
4. Each labouring prisoner should get 1 ch. of *gur* daily. Further each non-smoking condemned prisoner shall receive 2 chs. of *gur* once a week in addition to daily ration of 1 ch. while these who wish to smoke should be allowed 2 cigarettes daily instead *vide* para. 859-A.
5. Scale of firewood is increased from 6 to 8 chs. per head for those jail kitchens where the average population of either Hindus or Muhammadans does not exceed 100 prisoners.
6. Each convicted non-labouring prisoner should be supplied with  $\frac{1}{2}$  chs. of *gur* once a week. Tamarind (Limit)  $\frac{1}{16}$  or Anchar  $\frac{1}{24}$  or lime juice  $\frac{1}{2}$  issued from 1st April to 31st October.

**The Honourable Sardar Vallabhbhai Patel:** According to the Health Department the present jail site is a healthy one.

**Shrimati G. Durgabai:** May I know whether it is a fact that juvenile offenders are also there in this jail?

**The Honourable Sardar Vallabhbhai Patel:** I would like to have notice of that. But there is a separate arrangement for them.

**Shri H. V. Kamath:** Does the Honourable Minister propose to revise the classification of prisoners?

**The Honourable Sardar Vallabhbhai Patel:** No necessity has arisen for the change of the present classification.

**Shri H. V. Kamath:** Is there any proposal to create a political prisoner's category?

**The Honourable Sardar Vallabhbhai Patel:** There is no class of political prisoners at all.

**Shri H. V. Kamath:** Did not . . .

**Mr. Speaker:** Order, order.

**The Honourable Sardar Vallabhbhai Patel:** With the freedom of India there is no political prisoner left.

**Shri H. V. Kamath:** But in 1937 or 1938 when the Congress . . .

**Mr. Speaker:** Order, order. He is trying to argue.

**Shri H. V. Kamath:** Did they or did they not?

**Mr. Speaker:** No arguments are permitted. He may ask for information; he has already asked.

**Seth Govind Das:** The Honourable Minister said that there is a proposal to remove even the capital from Delhi. May I know which place is under consideration?

**The Honourable Sardar Vallabhbhai Patel:** Jubbulpore!

**Pandit Mukut Bihari Lal Bhargava:** When was the Reforms Committee appointed and what is its constitution?

**The Honourable Sardar Vallabhbhai Patel:** I cannot give the answer at present, but if the honourable member wants the information, he must put a question.

**Shrimati G. Durgabai:** Will the Honourable Minister furnish me information, if possible, whether it is a fact that the juvenile offenders when they are taken to the court, they are hand-cuffed?

**The Honourable Sardar Vallabhbhai Patel:** It is not easy for me to answer that question off hand, but if there is any such thing I will issue instructions to prevent that.

#### LODGING OF PRISONERS IN IRON CUBICLES IN THE CENTRAL JAIL, AJMER

**\*918. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether the Government of India are aware that in the Central Jail, Ajmer, there still exist iron cubicles wherein the prisoners are lodged throughout the night, and that this is very insanitary, unhygienic and injurious to the health of the prisoners?

(b) Do Government intend to stop the practice of lodging prisoners in iron cubicles; and, if not, why not?

(c) Is there a whole-time Superintendent of Jails in the Provinces of Delhi and Ajmer-Merwara; and, if not, do Government propose to consider the advisability of appointing a whole-time Superintendent of Jails in these areas?

**The Honourable Sardar Vallabhbhai Patel:** (a) There are iron cubicles in the Central Jail, Ajmer but only habitual prisoners with several previous convictions are lodged therein. The cubicles are, however, not considered insanitary, unhygienic or injurious to the health of the prisoners.

(b) There is no alternative arrangement for segregation of habitual prisoners from other prisoners during nights. The question of making alternative arrangement is being taken up.

(c) There is a whole-time Superintendent of Jail in Delhi but not in Ajmer-Merwara. The question of appointing one in Ajmer is also under consideration.

**Shri H. V. Kamath:** Have the old jail manuals which obtained during the British regime been revised with regard to the particulars mentioned in this question or are they still in force?

**The Honourable Sardar Vallabhbhai Patel:** The jail manual is revised from time to time.

**Shri H. V. Kamath:** When was the last revision made?

**The Honourable Sardar Vallabhbhai Patel:** Not recently.

**Shri H. V. Kamath:** But how many years ago?

**The Honourable Sardar Vallabhbhai Patel:** During the time the honourable member was in service.

#### MEMBERS OF SPECIAL RECRUITMENT BOARD FOR I. A. S. AND I.P.S.

**\*919. Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Home Affairs be pleased to state who are the members of the Special Recruiting Board for the I.A.S. and the I.P.S.?

(b) How many candidates were interviewed and how many were selected?

**The Honourable Sardar Vallabhbhai Patel:** (a) Shri R. N. Banerjee, I.C.S., Chairman.

|                                                                                                                                                                                                      |   |          |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|----------|
| Shri A. P. Jain, Member, Constituent Assembly of India.<br>Shri W. R. Puranik, Member, Federal Public Service Commission.<br>Shri S. G. Grubb, Additional Member, Federal Public Service Commission. | } | Members. |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|----------|

(b) Reference is invited to the reply given to question No. 446 on the 17th February, 1949.

**Seth Govind Das:** Have all the candidates required for the Services been recruited or are there still more to be recruited?

**The Honourable Sardar Vallabhbhai Patel:** Recruitment is still going on.

**Shri M. Tirumala Rao:** Do the Government propose to have, from the non-official leaders in India, a president for the Public Services Commission, instead of having an official as President?

**The Honourable Sardar Vallabhbhai Patel:** There is no such proposal under consideration at present. But if that is the desire of the House, it will be considered.

**Shrimati G. Durgabai:** With reference to the answer to part (b), may I know whether there are any women among those who have been interviewed and selected?

**The Honourable Sardar Vallabhbhai Patel:** I am not in a position to answer the question. I will have enquiries made.

**The Honourable Dr. John Matthai:** I do not quite know what the honourable member's point is. I think the honourable member took a large part in the discussion of this question in 1948 and I read the debate very carefully. The real problem involved is that under the original arrangements, shareholders abroad could claim refund if their income is below the taxable limits. These are the refund figures. As against that, we are entitled to claim super-tax from share-holders who have to pay super-tax on account of their income. As a practical measure we have found it impossible to collect the tax due without undue delay and on the other hand we have to pay these refunds. So, in order to avoid all these difficulties, what we now do is to charge an additional rate of one anna on companies which have dividends from abroad. As the honourable member knows it, this year I am going to propose a further tax on private incomes of share-holders from abroad. It goes out of the picture altogether. There is neither refund nor collection of super-tax.

**Shri B. P. Jhunjhunwala:** My point is that, while.....

**Mr. Speaker:** Order, order. I am afraid we are entering into arguments.

#### TERMS AND CONDITIONS OF SERVICE OF NEPALESE CONTINGENT IN INDIA

\*923. **Shri Ari Bahadur Gurung:** (a) Will the Honourable Minister of Defence be pleased to refer to the answer to my Starred Question No. 828, asked on the 3rd September, 1948 regarding the conditions of service of the Nepalese Contingent and state whether the terms and conditions under which the services of the Nepalese Contingent were loaned to India during the last War have been published, and if so, when?

(b) If the answer to part (a) above be in the negative, what are the present terms and conditions and how long will the Nepalese Contingent stay in India?

**The Honourable Sardar Baldev Singh:** (a) No.

(b) The terms form part of an agreement between Nepal and India. It would not be proper to make public the contents of the agreement without the consent of the Government of Nepal.

The Nepalese Contingent is due to return to Nepal shortly.

**Shri Ari Bahadur Gurung:** Is the Commander-in-Chief in India in supreme command of the Nepalese contingent as well?

**The Honourable Sardar Baldev Singh:** The question of the Indian Commander-in-Chief being the supreme Commander of this contingent does not arise. These forces are under the Indian Commander-in-Chief.

#### TRAINING OF VOLUNTEERS FOR AIR FORCE

\*924. **Shri Ari Bahadur Gurung:** (a) Will the Honourable Minister of Defence be pleased to state whether young men are volunteering in appreciable numbers to join the Air Force?

(b) What is their scale of pay while they are under training?

**The Honourable Sardar Baldev Singh:** (a) Yes.

(b) While under training, cadets receive a monthly allowance of Rs. 75, in addition to free board and lodging.

#### ASSISTANCE TO GOVERNMENT OF NEPAL FOR SETTING UP A BROADCASTING STATION

\*925. **Shri Ari Bahadur Gurung:** Will the Honourable Minister of Information and Broadcasting be pleased to state:

(a) why no provision for Broadcasting in Nepali has been made; and

(b) whether the Government of Nepal has ever approached the Government of India to assist them in setting up a Broadcasting Station in Nepal?

**The Honourable Shri R. R. Diwakar:** (a) A programme in Gorkhali is broadcast daily from Delhi.

(b) No.

**Shri Ari Bahadur Gurung:** Is the Honourable Minister aware that the language spoken in Nepali is not understood by the Nepali people. I being a Nepali can hardly understand it?

**The Honourable Shri R. R. Diwakar:** The language is called Gorkhali, but it is really Nepali language. But if it is not understood or is not very understandable, and if suggestions are made to make it widely understood, due care will be taken to see that it is understood.

**Shri Ari Bahadur Gurung:** May I know the nationality of the person who broadcasts the Nepali language?

**The Honourable Shri R. R. Diwakar:** I want notice.

#### WITHHOLDING OF COMMUTED PORTION OF PENSIONS.

\*926. **Shrimati G. Durgabai:** (a) Will the Honourable Minister of Finance be pleased to state whether it is a fact that Government have been withholding the payment of the commuted portion of the pension of those who retired on pension and have commuted a portion of their pension even after adjusting their dues?

(b) What are the reasons for withholding any portion of the commuted amounts, if any?

**The Honourable Dr. John Matthai:** (a) and (b). No payment which is due to a pensioner is withheld. When a Government servant commutes a part of his pension into a lump sum he automatically foregoes any claim on the commuted part of his pension for life and such a commutation once made has to be final.

**Shrimati G. Durgabai:** May I know, whether any undertaking was demanded before those pensioners were allowed to commute a portion of their pensions?

**The Honourable Dr. John Matthai:** I do not know what kind of undertaking the honourable member has in view.

**Shrimati G. Durgabai:** Any kind of undertaking?

**Mr. Speaker:** What is the nature of the undertaking? The question is too vague.

**Shrimati G. Durgabai:** They should commute their portion even after the adjustment of their interest is made, that is, their portions would be allowed to be withheld.

**The Honourable Dr. John Matthai:** It is a matter of contract between the Government and the pensioner and no such undertaking comes into the contract.

**Shri M. Tirumala Rao:** Are Government prepared to allow complete commutation of pensions without any further liability for pensions?

**The Honourable Dr. John Matthai:** I should like to verify.

**Shrimati G. Durgabai:** May I know what is the total number that went into commutation portion before the adjustment of interest is made.

**The Honourable Dr. John Matthai:** I could collect the information.

(f) what action Government have taken against the organisers of the said conference; and

(g) whether it is a fact that some people holding responsible offices in the East Punjab Government were actively helping the organisers of the Akali Dal Conference and if so, what action Government have taken or propose to take against them?

**The Honourable Sardar Vallabhbhai Patel:** (a) 46.

(b) to (e). Yes.

(f) Suitable legal action is being taken against them.

(g) Government have no information.

#### PAYMENT OF CASH CERTIFICATES TRANSFERRED FROM WESTERN PAKISTAN

**\*933. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Finance be pleased to state whether payment of cash certificates transferred from West Pakistan to India after 31st March, 1948 has been withheld?

(b) If so, what are the reasons therefor?

(c) Was this question raised in the recent Delhi or Karachi Inter-Dominion Conference?

(d) If not, how are the holders likely to receive payment of such certificates?

**The Honourable Dr. John Matthai:** (a) No, Sir. Transfers of these certificates were allowed upto the 30th June, 1948 and there is no question of stopping the payment of the certificates so transferred.

(b) The arrangement at the time of partition was that transfers of Cash Certificates will be allowed upto 31st March 1948 and this was extended by the Directors General, Posts and Telegraphs of the two Dominions upto the 30th September 1948, but as no agreement could be reached with the Pakistan Government regarding the financial adjustments for transfers after the 31st March 1948, further transfers were stopped with effect from the 1st July, 1948.

(c) Yes.

(d) Does not arise.

#### ENFORCEMENT OF HOUSE RENT CONTROL ACT IN CANTONMENTS

**\*934. Shri Damoder Swarup Seth:** (a) Will the Honourable Minister of Defence be pleased to state the names of the Cantonment areas in the United Provinces in which the House Rent Control Act is in force?

(b) Do Government propose to enforce the Rent Control Act in the Cantonment areas where it is not in force at present?

**The Honourable Sardar Baldev Singh:** (a) and (b). There is some doubt as to whether the United Provinces (Temporary) Control of Rent and Eviction Act applies to Cantonments in that province. The question is under urgent examination.

#### TRANSFER OF PENSIONS FROM PAKISTAN

**\*935. Giani Gurmukh Singh Musafir:** Will the Honourable Minister of Finance be pleased to state:

(a) the number of pensioners who have come to India from Pakistan during the disturbances of 1947;

(b) the number of such persons who have got their pensions transferred from Pakistan to India;

(c) what facilities the Government of India provided to such persons in getting their pensions transferred; and

(d) what steps Government propose to take to expedite the transfer of such pensions as have not been transferred so far?

**The Honourable Dr. John Matthai:** The question will be answered by the Honourable Minister in charge of Relief and Rehabilitation on the appropriate date.

#### REFUSAL OF INFORMATION BY VICE-CHANCELLOR OF DELHI UNIVERSITY Re CERTAIN IRREGULARITIES OF EXECUTIVE COMMITTEE

**\*936. Shri Deshbandhu Gupta:** (a) Will the Honourable Minister of Education be pleased to state whether several members of the Court of the University elected thereto by the Constituent Assembly (Legislative) jointly addressed the Vice-Chancellor and asked for information in regard to the alleged irregularities committed in connection with the meeting of the Executive Committee held on the 25th November, but the Vice-Chancellor has not furnished the information and has also declined to have any further correspondence with them in regard to the matter?

(b) If so, what action do Government propose to take in the matter?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) I am informed by the Vice-Chancellor that he received the letter to which reference has been made in the question and that he has answered it fully, but declined to enter into further correspondence on the subject mentioned therein, as they were outside his responsibility.

(b) Does not arise.

#### ASSENT TO AN AMENDMENT TO THE STATUTE OF DELHI UNIVERSITY

**\*937. Shri Deshbandhu Gupta:** Will the Honourable Minister of Education be pleased to state:

(a) whether it is a fact that the Court of the University of Delhi in their meeting held in May 1948 passed a certain amendment to an existing statute relating to "Recognised teachers of the University" and submitted the same to the Government of India for their assent;

(b) whether it is a fact that the University were informed by the Ministry of Education that the amendment was *ultra vires* of sections 28(h) and 2(h) of the existing Act of the University;

(c) whether it is a fact that in a recent subsequent communication, this decision has been superseded and that the assent of the Government of India has been accorded to the amendment to the Statute passed by the Court and if so, why; and

(d) whether the assent of the Government of India has been accorded with the concurrence of their legal advisers?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) Yes, Sir.

(b) Yes, Sir.

(c) Yes, Sir. The Government of India revised its previous opinion on a reconsideration of the matter.

(d) Yes, Sir.

#### UNSTARRED QUESTIONS AND ANSWERS

##### PRESERVATION OF MONUMENTS AND ARCHAEOLOGICAL EXCAVATIONS

**73. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Education be pleased to state how much money has been spent in each province for preservation of monuments during the years 1947-48 and 1948-49?

1314 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [7TH MARCH 1949]

**The Honourable Shri Satyanarayan Sinha:** In cases where the Provincial Governments want a subvention from the Centre, that would have to be done.

**Shri Mahavir Tyagi:** I want to know about the grant given specifically for the purpose of opening these institutions of adult education.

**The Honourable Shri Satyanarayan Sinha:** So far a block grant has been placed at the disposal of the Provincial Government and it is for the Provincial Governments to work out their own schemes.

**Mr. Speaker:** The question hour is over.

### (b) WRITTEN ANSWERS

#### ABSORPTION OF PERSONNEL FROM PAKISTAN OPTING INDIA

\*929. **Shri Damoder Swarup Seth:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) whether the India-opted personnel brought from offices now in Pakistan are, on their being posted to the offices in the Dominion of India, entitled to get their seniority fixed in the office of their transfer *vis-a-vis* those already employed there with due reference to their length of service, date of confirmation and their grade under the normal rules of seniority; and

(b) whether the rules and orders issued by the Ministry of Home Affairs for the absorption of staff from India-opted personnel from Pakistan are being followed by all the ministries of the Government of India and their attached and subordinate offices?

**The Honourable Sardar Vallabhbhai Patel:** (a) In so far as the personnel referred to are absorbed in their respective Departments and Grades their seniority is governed by the existing rules on the subject. The principles which would govern seniority in other cases are under consideration.

(b) There is no reason to suppose that instructions issued by the Home Ministry which are intended to be of general application are not being generally followed.

#### AGE OF RETIREMENT OF MINISTERIAL GOVERNMENT SERVANTS

\*930. **Shri Damoder Swarup Seth:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) whether the age of retirement in case of all ministerial Government servants governed by Fundamental Rule 56 (b) has been fixed at 60 years, although Government still reserve the right to order compulsory retirement of an employee not considered fit for retention at the age of 55 years; and

(b) whether Government propose to lay down a suitable procedure, under which cases of all employees are reviewed sufficiently in advance of their reaching the age of 55 years before they are finally allowed to continue beyond that age?

**The Honourable Sardar Vallabhbhai Patel:** (a) Under Fundamental Rule 56, the age of compulsory retirement of ministerial Government servants is 55 years or 60 years, according as they entered service on and after, or before, the 1st April, 1938.

(b) The instructions recently issued, and a copy of which I lay on the table of the House, are adequate for this purpose.

### STATEMENT

No. 26/6/48-Ests.

GOVERNMENT OF INDIA

MINISTRY OF HOME AFFAIRS

New Delhi, the 9th December, 1948.

### OFFICE MEMORANDUM

SUBJECT:—Retention of ministerial Government servants after attaining the age of 55 years.

Consequent on the issue of this Ministry's Office Memorandum No. 26/6/48-Ests., dated the 8th September, 1948, on the above subject, doubts have been expressed in certain quarters as to the correct position in regard to the age of retirement of ministerial Government servants governed by F. R. 56(b)(i). The position is therefore clarified in the following paragraphs.

2. A ministerial Government servant who is governed by F. R. 56(b)(i) is ordinarily entitled to be retained in service till the age of 60 provided he continues to be efficient and physically fit for service. He is not to be regarded as 'superannuated' until he reaches the age of 60, nor is his retention up to that age to be regarded as a case of 'extension of service'. If it is desired to retire such a ministerial Government servant between the ages of 55 and 60 years, the requirements of section 240(3) of the Government of India Act must be complied with, whatever the reasons for which it is desired so to retire him.

3. It would not, however, be inconsistent with the above position to prescribe a periodical review of the cases of all such officers between the ages of 55 and 60 to ensure that their efficiency has not deteriorated so as to render their further retention in service as contrary to the public interest. On the contrary, such a review is now more than ever necessary and it is suggested should be conducted regularly, at annual intervals, action being taken without delay to retire officers, after following the requisite procedure, where the review discloses this to be necessary.

C. B. GULATI,

Under Secretary to the Government of India.

#### UNION OF COCHIN AND TRAVANCORE STATES

\*931. **Sbrimati Dakshayani Velayudhan:** Will the Honourable Minister of States be pleased to state whether the representatives of Cochin and Travancore approached Government for the formation of a union of the two states and if so, with what result?

**The Honourable Sardar Vallabhbhai Patel:** No representative of these States has approached Government for the integration of the two States.

#### ARRESTS IN CONNECTION WITH AKALI CONFERENCE

\*932. **Shri Deshbandhu Gupta:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) the total number of persons arrested in connection with the conference which some Akalis wanted to hold in Delhi in spite of Government's ban;

(b) whether it is a fact that some Akali leaders had given an assurance that no Akali conference would be held in Delhi;

(c) whether it is fact that instructions were issued by Master Tara Singh and some other Akali leaders to Akali Jathas in different places in United Provinces and East Punjab to reach Delhi;

(d) whether it is a fact that a number of Akalis found in the different parts of East Punjab and the United Provinces did reach Delhi on the 19th February, 1949;

(e) whether it is a fact that an Akali Dal conference was held on the 20th February, 1949 in Gurdwara Rakabganj, Delhi which passed a resolution calling upon the Sikhs all over India to observe the 2nd of March, 1949 as a day of protest against the arrest of Master Tara Singh;

(b) How much money has been spent in each province for archaeological excavations, and where were those excavations made?

(c) Has the attention of Government been drawn to the necessity of a good access to the temple of Konarak by an all weather road from Bhubaneswar to Konarak (Orissa)?

**The Honourable Shri Satyanarayan Sinha** (Minister of State): (a) and (b). Two Statements giving the necessary information are placed on the table of the House.

(c) This is the concern of the Provincial Government and the Government of India will draw their attention to this.

## INSTITUTIONS EXEMPTED FROM INCOME-TAX

**74. Shri Upendranath Barman:** (a) Will the Honourable Minister of Finance be pleased to state what institutions up till now have been exempted from income-tax under section 15B of the Income-tax Act?

(b) Have Government extended the exemption in case of donations to schools recognised by provincial governments?

(c) If the answer to part (b) above be in the affirmative, what are the categories of such schools?

**The Honourable Dr. John Matthai:** (a) The honourable member's attention is drawn to the various notifications commencing with the notification dated 21st October 1948 published in the *Gazette of India* dated 23rd October 1948 containing a detailed list of the institutions which have been recognised for the purposes of Section 15B.

(b) and (c). Schools have generally been deliberately excluded. Certain general principles have been followed in recognising institutions for the purpose of section 15B. These include:

(i) The institutions should at least be of provincial importance and not merely of local importance.

(ii) The number of approved institutions should be kept as low as possible, as administratively the grant of abatement after proper scrutiny of it would involve considerable work on the already over-burdened staff.

The reason why schools have been generally excluded is that they do not comply with the conditions mentioned above.

CONSTITUTENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

(PART I—QUESTIONS AND ANSWERS)

*Tuesday, 8th March, 1949.*

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

STARRED QUESTIONS AND ANSWERS

(a) ORAL ANSWERS

DAKOTAS USED FOR COMMERCIAL PURPOSES

**\*938. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state what is the total number of Dakotas used for commercial purposes in India?

(b) How many of these have been purchased from Disposals and how many are new?

(c) What is the life of the old Dakotas purchased from Disposals?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) 114.

(b) All the Dakotas were purchased from Disposal stocks of India and other countries and none was new.

(c) The normal life of a Dakota is 10 years if properly maintained. The Dakotas in operation in India now are expected to last for about two or three years more.

**Shri R. K. Sidhva:** May I know whether the ten years' life is for the new or for the old Dakota?

**The Honourable Mr. Rafi Ahmad Kidwai:** Normal life is the life of a new Dakota.

**Shri R. K. Sidhva:** There is a material difference between the new and old Dakota. I want to know in view of the safety of the passengers whether this ten years is the normal life of a new dakota or an old dakota?

**The Honourable Mr. Rafi Ahmad Kidwai:** The normal life of a new dakota is ten years.

**Shri R. K. Sidhva:** May I know whether in view of the large number of such old dakotas which were purchased by the air companies, whether periodical test is made necessary by the licensing authorities of these old dakotas?

**The Honourable Mr. Rafi Ahmad Kidwai:** Every year they have to be overhauled.

**Shri Mahavir Tyagi:** What is the capacity of a Dakota?

**The Honourable Mr. Rafi Ahmad Kidwai:** 21.

**Shri Mahavir Tyagi:** Have any complaints come from the companies who are running these dakotas that if they had aeroplanes of bigger capacity, they would be better off as far as their profits were concerned?

**The Honourable Mr. Rafi Ahmad Kidwai:** There is no such complaint but that is a fact. If they have aeroplanes of bigger capacity, then perhaps it will be cheaper.

**\*941. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Industry and Supply be pleased to state the total number of steam rollers built in India during the year 1948 and the country's annual requirements?

(b) Where were these rollers manufactured?

(c) Is any subsidy or any other protection or concession given to this industry and if so, what are the details thereof?

(d) Are all the parts of the said rollers made in India or are the rollers merely assembled in India with foreign imported parts?

(e) What are the rates for Indian rollers as compared with foreign rollers of the same type?

(f) How many rollers have been purchased by Government?

(g) Do Government contemplate opening their own factory for this industry, and if so, do Government propose to disclose their plan?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The total number of steam road rollers built in India during 1948 was 118. The country's annual requirement is estimated at about 175.

(b) The component parts of the rollers were manufactured mainly by the Ordnance Factories and the trade in India. The final assembly was done by Messrs. Tata Locomotive Engineering Co., Ltd., Tatanagar, who manufacture some of the parts. The work is co-ordinated and supervised by a Technical Co-ordination Cell formed in India by Messrs. Marshall Sons and Co., Ltd. England.

(c) No subsidy or concession has been given but the importation of road rollers into the country has been much restricted.

(d) At present 87½ per cent. of the components, excluding the boilers, are being manufactured in India and 12½ per cent. are imported. Of the boilers, 84 per cent. are being imported and 16 per cent will be manufactured in India. In the final stage, it is expected that 95 per cent. of the manufacture will be indigenous and only 5 per cent. imported.

(e) The final price of the Indian steam road-rollers has not yet been fixed as the contract has been placed on 'cost plus' basis, but is expected that it will compare favourably with the price of imported rollers. The present price of the imported steam road rollers similar to those being manufactured in India is approximately Rs. 28,500 each.

(f) 727 steam road rollers have been purchased so far, out of which 118 are indigenously manufactured and the rest are imported.

(g) The reply to the first part of the question is in the negative. The second part of the question, therefore, does not arise.

**Shri R. K. Sidhva:** May I know whether, apart from steam rollers there are any diesel rollers also manufactured, and if so whether any orders have been placed?

**The Honourable Dr. Syama Prasad Mookerjee:** Yes. We have two schemes for the manufacture of diesel road rollers which are being done at Jessops and Co. Ltd., in Calcutta, in collaboration with Messrs Aveling Barford Ltd. England. The present arrangement is for the manufacture of 475 diesel road rollers.

**Shri H. V. Kamath:** Has any one such roller been actually turned out from the Jessops workshop?

**The Honourable Dr. Syama Prasad Mookerjee:** Up till the 31st December, 1948, 64 diesel road rollers have been completed; and according to the latest information which we got about a week back, 84 have been completed and 27 are in various stages of manufacture.

**Shri R. K. Sidhva:** The Honourable Minister stated that in the final stage about 95 per cent. will be manufactured here. May I know in what period of time that final stage will be reached?

**The Honourable Dr. Syama Prasad Mookerjee:** It depends on some technical assistance we are trying to get. We are trying to expedite the process and hope that within three or four years' time this percentage will be reached.

**Shri B. P. Jhunjhunwala:** What is the experience with Indian rollers, as compared with foreign rollers? Do they have the same efficiency?

**The Honourable Dr. Syama Prasad Mookerjee:** The experience is satisfactory.

**Shri R. K. Sidhva:** The Honourable Minister stated that the question of fixing the price is under consideration. May I know whether the price of the rollers which have been turned out, has been fixed? When is the price likely to be fixed?

**The Honourable Dr. Syama Prasad Mookerjee:** After 100 rollers have been completed, we will be in a position to determine what should be the price of a roller. Meanwhile we are making some *ad-hoc* payments, after examination of the accounts for each month. We have sent out some cost officers to look into the matter.

## MANUFACTURE OF VANASPATI

**\*942. Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Agriculture be pleased to state what is the total quantity of hydrogenated vegetable oil (vanaspati) manufactured in the Indian Union during the current year?

(b) What is the modern scientific opinion about its being injurious to human health?

**The Honourable Shri Jairamdas Doulatram:** (a) 130,000 tons.

(b) The matter is under scientific investigation.

**Seth Govind Das:** May I know what steps Government are taking to see that there may not be any mixture of this vegetable ghee with ordinary and pure ghee? And are Government contemplating stopping at least hydrogenation of this oil?

**The Honourable Shri Jairamdas Doulatram:** The question of hydrogenation is under the consideration of the Government.

In regard to the prevention of adulteration, all possible steps are being taken. But it is a fact that all cases of adulteration are not checked or punished. In Delhi there were 16 convictions in 1947 and about 90 in 1948.

**Shri B. P. Jhunjhunwala:** The Honourable Minister said that the question is under consideration. When does the Government expect to get the final report after this investigation?

**The Honourable Shri Jairamdas Doulatram:** By September 1949. The fact is they are examining the effect of the use of Vanaspati, not only on the first generation, but on three generations, as some scientists have contended that in the second and third generations deleterious effects are observed. One scientist says that there will be some effect on eyesight and productivity. So the matter is to be carefully examined.

**Shri Raj Bahadur:** Are Government aware that it is wellnigh impossible to get pure ghee in the market?

**Mr. Speaker:** The honourable member is giving information, and not asking a question.

**Shri H. V. Kamath:** Which are the scientific institutions or organisations in India that are engaged in this research today?

**The Honourable Shri Jairamdas Doulatram:** The University College of Science and Technology, Calcutta, the Indian Science Institute, Bangalore, the Indian Dairy Institute, Bangalore, the Indian Veterinary Research Institute, Izatnagar, the Haffkine Institute, Bombay, the Nutrition Research Laboratory, Coonoor, and the Arya Orphanage, Delhi.

**Shri B. P. Jhunjhunwala:** For how many years has this investigation been proceeding?

**The Honourable Shri Jairamdas Doulatram:** It began last year. When talking of generations I was meant generations of rats, as the investigation is on rats largely.

#### AGRICULTURAL INDEBTEDNESS

**\*943. Shri V. C. Kesava Rao:** Will the Honourable Minister of Agriculture be pleased to state whether efforts have been made to estimate the agricultural indebtedness in the country and if so, what is the total indebtedness of the agriculturists?

**The Honourable Shri Jairamdas Doulatram:** Yes. In 1930, the Indian Central Banking Committee estimated the total amount of rural indebtedness in undivided India at Rs. 900 crores. No systematic enquiries have been made since, but local enquiries in some Provinces point to the conclusion that owing to unprecedented rise in the prices of agricultural produce, agricultural indebtedness in the country has been substantially reduced.

**Shri R. K. Sidhva:** In view of the conflicting reports both from the Provincial Governments and the public, do Government intend to establish immediately an enquiry into the present indebtedness of the agriculturists?

**The Honourable Shri Jairamdas Doulatram:** Government can obviously set up an enquiry only for certain selected areas. An enquiry all over the country is a matter of years. In regard to local enquiries, some Governments have made these local enquiries.

**Prof. N. G. Ranga:** Is it a fact that Government has not made any enquiry into the indebtedness of agricultural workers?

**The Honourable Shri Jairamdas Doulatram:** I think there has been some enquiry in Madras. For instance, I will give briefly the results of the Madras enquiry. It was found in the case of the medium, big and small landholders, that there was a reduction in indebtedness from 40 per cent. to 12 per cent. The indebtedness of tenants has increased by 4 per cent. and the indebtedness of labourers by 43 per cent. So there was an enquiry into the indebtedness of labourers.

**Shri V. C. Kesava Rao:** May I know whether the indebtedness of agriculturists is due to the absence of banking facilities in rural areas?

**The Honourable Shri Jairamdas Doulatram:** I do not think so.

**Seth Govind Das:** Are Government aware that there are certain areas where in spite of the high prices, harvests have been failing continuously and therefore there the position of indebtedness still exists, and will Government make enquiries in those areas?

**The Honourable Shri Jairamdas Doulatram:** Yes, Government will ask the Provincial Governments concerned to make the necessary enquiries.

**Shri V. C. Kesava Rao:** What steps do Government propose to take to supply cheap credit to the agriculturists?

**The Honourable Shri Jairamdas Doulatram:** The question of setting up an Agricultural Finance Corporation is under consideration.

**Shri V. C. Kesava Rao:** Are Government taking any steps to control money-lenders?

**The Honourable Shri Jairamdas Doulatram:** It is a provincial subject; and I believe in some provinces there are laws regulating the interest which money-lenders can charge.

**Shri Biswanath Das:** Have Government considered utilising the coming census for the purpose of this economic enquiry?

**The Honourable Shri Jairamdas Doulatram:** Government will examine the question of including this item also in the census operations.

**Shri Mohan Lal Gautam:** What are the data on which Government conclude that agricultural indebtedness has been reduced in recent years?

**The Honourable Shri Jairamdas Doulatram:** Certain enquiries have been made. The provinces of Bihar, Orissa and U.P. have reported that small cultivators have not increased their possession of land. In regard to Assam, Bombay, Madras, C.P. and Punjab, provincial governments have reported increase of their land possessions.

**Prof. N. G. Ranga:** Have Government assured themselves that the increase in their holdings may not be due to the borrowing of money from others and then purchasing the land?

**The Honourable Shri Jairamdas Doulatram:** I am not in a position to deny that.

#### SUPPLY OF BAD RICE TO ANDHRA PUBLIC

**\*944. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Food be pleased to state why the quality of rice supplied to the public, especially in the Andhra districts, is so bad?

(b) Is the bad rice so supplied imported into India, and if so, from which country does this quality of rice come?

(c) Do the authorities check up the quality when shipments are received?

**The Honourable Shri Jairamdas Doulatram:** (a) The Government of Madras supplies rice to Andhra districts. It is understood from the Provincial Government that boiled rice of the dalwa variety of paddy which is red in colour was issued to all the ceded districts. This rice is fit for consumption.

(b) This is locally produced rice and is not imported.

(c) Yes.

**Shri H. V. Kamath:** Have complaints reached the Honourable Minister to the effect that best quality rice can be had today only in the black-market?

**The Honourable Shri Jairamdas Doulatram:** These complaints have been received.

**Shri M. Tirumala Rao:** Have Government received complaints from Madras City that Brazil Rice which becomes a paste the moment it is boiled is being dumped in Madras?

**The Honourable Shri Jairamdas Doulatram:** It does not come from Brazil; it is from Siam.

**Shrimati Dakshayani Velayudhan:** May we know from where we get the rice that is given by our Ration offices in Delhi?

**Mr. Speaker:** That question does not arise out of this?

**Shri H. V. Kamath:** What steps do Government propose to take to divert the black-market best rice into the open market?

**Mr. Speaker:** The honourable member is now going into the question of the black-market and corruption. It is not germane to the question.

**Shri O. V. Alagesan:** Are Government aware that the distributing agency is not so partial as the question implies but supplies uniformly bad rice to all areas?

**Mr. Speaker:** Order, order.

**Shri R. K. Sidhva:** May I know whether the Bombay Government made a reference to the Government of India that the quality of rice supplied in Bombay was very inferior?

**Mr. Speaker:** The question deal primarily with the quality of rice in the Andhra Province and it is no use going into the general question.

#### DEVELOPMENT OF RUBBER INDUSTRY

**\*945. Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Industry and Supply be pleased to state what steps Government propose to take to make India self-sufficient in rubber production?

(b) Is it a fact that the Indian Rubber Board has submitted a fifteen crore scheme to develop the industry?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) The Central Government have taken under their Control the development of rubber industry, so far as the production and marketing of rubber is concerned and have constituted a Board, called the Indian Rubber Board, under the Rubber (Production and Marketing) Act, 1947. It is the function of the Indian Rubber Board to take suitable measures to increase production of rubber with a view to making the country self-sufficient. They are actively examining the matter. Indian production is now 16,000 tons per annum and consumption about 21,000 tons.

(b) The Chairman of the Board at the Board's meeting held on 24th November, 1948 stated that a 15 crore scheme would have to be planned to make India self-sufficient in rubber. A Sub-committee of the Board has been appointed to examine the subject.

**Srijut Kuladhar Chaliha:** Are Government aware that there is a Government rubber experimental station in Assam and whether that is included in this scheme?

**The Honourable Dr. Syama Prasad Mookerjee:** There is a station there and if any proposal is made by the authorities that scheme will be considered.

#### IMPORT OF MILK POWDER

**\*946. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Food be pleased to state the total quantity and value of milk powder imported into India from foreign countries, during the years 1946, 1947 and 1948?

(b) What is the nutritive value of this powder?

(c) In what parts of the country is it mostly used?

(d) Is it used for any purpose other than the preparation of artificial milk?

**The Honourable Shri Jairamdas Doulatram:** (a) A statement is laid on the table of the House.

(b) The nutritive value of the milk powder calculated on a fresh weight basis is nearly equivalent to that of the milk from which it is made.

(c) Milk powder is generally used all over India and mostly in Madras, Bombay Provinces, and South Indian States such as Travancore, Cochin etc.

(d) Milk powder is used as a substitute for milk in all such preparations where milk is used. It is also used to a small extent by some biscuit, confectionery and chocolate manufacturers.

#### STATEMENT

*Quantity and value of milk powder imported into India from foreign countries during 1946, 1947 and 1948 (up to end of October 1948.)*

| Year of Import                                       | Quantity imported in cwt. | Value in Rupees |
|------------------------------------------------------|---------------------------|-----------------|
| 1946 . . . . .                                       | 90,938                    | 55,12,588       |
| 1947 . . . . .                                       | 1,78,539                  | 1,52,58,310     |
| 1948<br>(Up to the end of October 1948.) } . . . . . | 48,943                    | 45,70,992       |
| GRAND TOTAL . . . . .                                | 3,18,420                  | 2,53,41,890     |

**Shri R. K. Sidhva:** May I know whether skimmed milk powder is imported into the country, and if so, what is its nutritive value?

**The Honourable Shri Jairamdas Doulatram:** Yes, the nutritive value is the same except that the protein content is slightly less.

**Shri R. K. Sidhva:** Is the same quantity of skimmed milk powder imported into the country, or is it less than the importation of milk powder?

**The Honourable Shri Jairamdas Doulatram:** I am sorry I have not the separate figures for skimmed milk powder.

**Shri R. K. Sidhva:** Is tone milk also manufactured in India?

**The Honourable Shri Jairamdas Doulatram:** Yes, to some extent.

**Shrimati G. Durgabai:** May I know, Sir, whether in view of the proposed increase in the supply of milk, there will be any change in the import policy of this particular commodity?

**The Honourable Shri Jairamdas Doulatram:** May I explain that milk powder is being imported in order to increase the supply of milk to the more vulnerable sections of our population: for instance, the Bombay Government, with a view to enable children and patients and other weak persons to secure pure milk, have banned restaurants and hotels from using pure milk so that milk may be available to the public and they have provided restaurants with skimmed milk.

**Seth Govind Das:** Have Government received representations that the skimmed milk powder should be stopped so far as the importation of it is concerned?

**The Honourable Shri Jairamdas Doulatram:** We have received such representations?

**Pandit Hirday Nath Kunzru:** With regard to the statement made by the Honourable Minister that the protein content of skimmed milk and of the milk from which it is made are different, what is his authority for the statement?

**The Honourable Shri Jairamdas Doulatram:** I am sorry: I meant fat content, and not protein content. The Army which requires slightly lighter milk mixes this milk powder with the buffalo milk.

**Shri R. K. Sidhva:** Is there no fat in skimmed milk?

**Mr. Speaker:** These are questions which are not within the special cognizance of the Honourable Minister.

#### CONSTRUCTION OF RAILWAY OVER-BRIDGE AT GONDIA

**\*947. Seth Govind Das:** (a) Will the Honourable Minister of Railways be pleased to state whether Government are aware that the Railway lines in Gondia (Central Provinces) pass through the heart of the city and that as there is no over-bridge at one of the main crossings, great inconvenience is being caused to the public while crossing the lines?

(b) Are Government aware that assurances to construct an over-bridge were given to the public by the Railway Authorities but nothing has been done so far?

(c) If so, by what date will this bridge be constructed?

If so, by what date will this bridge be constructed?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Yes.

(b) The question of provision of an over-bridge at Gondia has been under reference with the Provincial Government since 1938. They first asked the Railway to construct an over-bridge and its approaches at the west end of the yard at their own cost. The Railway could not, however, accept the liability for the entire cost as the need for the over-bridge had arisen from the growth of the town. Three years later, the Provincial Government agreed to construct the approaches at their own cost, but desired that the Railway should build an under-bridge at the eastern end of the yard instead of an over-bridge at the western end of the yard. The engineering difficulties involved in the proposal were brought to the notice of the Provincial Government, who thereupon agreed to the construction of the over-bridge. On account of the war the work could not, however, be taken in hand. After the war, the Provincial Government again brought up the question of an under-bridge *versus* an over-bridge, and it is only recently that they have finally accepted the Railway's proposal to provide an over-bridge. Designs for the bridge have been finalised by the Railway, but the designs for the approaches have not yet been received from the Provincial Government.

(c) In view of the limited resources and the Government of India's decision to curtail or defer expenditure on such works as are not productive or could be postponed or slowed down, the work has not been included in 1949-50 Works Programme. The Government will consider if the work can be included in the Budget for 1950-51.

**Seth Govind Das:** Are the Government aware that the population of that place since 1938 has become practically doubled now?

**The Honourable Shri N. Gopalaswami Ayyangar:** I am willing to take that as stated by the honourable member. I myself have no personal knowledge.

**Seth Govind Das:** May I take it that all such works which are not remunerative, will not be taken up by the Government in spite of the greatest inconvenience caused to the public of.....

**Mr. Speaker:** Order, order. I am afraid the question is hypothetical. He may put in a specific question with reference to any specific subject.

**Seth Govind Das:** The Honourable Minister has said that because it is not going to be a remunerative scheme, Government is not.....

**Mr. Speaker:** I have followed that. But his question is hypothetical. The honourable member may put any question for obtaining information.

#### COMMUNAL TEA STALL AT BILASPUR RAILWAY STATION

**\*948. Shri H. V. Kamath:** Will the Honourable Minister of Railways be pleased to state:

(a) whether Government are aware that there is a Mohammedan Tea Stall at Bilaspur Railway Station (Bengal Nagpur Railway); and

(b) if so, why the communal stall is still existing there?

**The Honourable Shri K. Santhanam:** (a) Yes.

(b) Instructions have been issued to drop the communal tag.

**Shri R. K. Sidhva:** May I know whether the Central Advisory Council last year this month passed a resolution to abolish all these communal stalls? May I also know how many stalls still exist and how many within one year have been removed?

**The Honourable Shri K. Santhanam:** From the 1st January this year all refreshment rooms throughout the railways have been reorganized on a non-communal basis. So far as tea-stalls are concerned, the only point is to remove the boards. There is no objection to any one having tea at the stalls. These stalls are available for all people.

**Shri R. K. Sidhva:** My question was also with regard to the boards. Why have these boards not been removed? How much time does it require of the administration to remove a board?

**Mr. Speaker:** Order, order. The honourable member is arguing.

**Shri R. K. Sidhva:** May I know in how many stations have these boards been removed?

**Mr. Speaker:** He wants notice.

**Shri H. V. Kamath:** When were the instructions issued about removing these communal boards?

**The Honourable Shri K. Santhanam:** For this particular station on the 25th January 1949.

**Shri M. Tirumala Rao:** Will the Honourable Minister explain what he means by saying "organising these on non-communal lines"?

**The Honourable Shri K. Santhanam:** So far as refreshment rooms are concerned there are to be only Vegetarian and non-vegetarian refreshment rooms and restaurants in the European style.

**Shri M. Tirumala Rao:** Is the Honourable Minister aware that there are still a large number of Muslim contractors running their Muslim hotels?

**The Honourable Shri K. Santhanam:** There are no Muslim hotels now on the Railways.

**Shri H. V. Kamath:** May I know whether similar instructions have been issued to the Railways to see that vendors or hawkers on platforms do not cry *Hindu Cha* or *Muslim Cha*?

**The Honourable Shri K. Santhanam:** That is the general spirit of all the instructions issued recently. I cannot give a specific answer to that particular question.

**Mr. Tajamul Husain:** Do Government propose to have only one kind of refreshment rooms on all the railways catering for both vegetarian and non-vegetarian and also European style customers?

**The Honourable Shri K. Santhanam:** It has been considered desirable by the Central Advisory Committee for Railways to have separate Vegetarian and Non-vegetarian refreshment rooms, besides restaurants on the Western style.

## BANANA RESEARCH STATION FOR ASSAM

\*949. **Srijut Kuladhar Chaliha:** (a) Will the Honourable Minister of Agriculture be pleased to state whether there is any Banana Research Station in Bihar, Orissa, Bengal and Assam?

(b) Are Government aware of the suitability of Assam soil for growing Bananas of different varieties?

(c) If so, do Government propose to set up Banana Research Stations in Upper Assam, where the rainfall is about 100 inches and more?

**The Honourable Shri Jairamdas Doulatram:** (a) No.

(b) and (c). Yes. As the production of bananas in Assam at present amounts to only about four per cent. of the estimated total production in India, it would not be appropriate to have a research station exclusively for that Province. There is, however, a proposal to set up a regional fruit research station at Krishnagar in West Bengal which will serve the Eastern zone of the Provinces growing bananas, namely, Assam, West Bengal and Bihar.

**Srijut Kuladhar Chaliha:** Are the Government aware that a small station has been started at Jorhat by the Agricultural Department and may I know if that station is under the consideration of the Central Government?

**The Honourable Shri Jairamdas Doulatram:** Is it suggested that that research station should take up the question of bananas?

**Srijut Kuladhar Chaliha:** Yes, I suggest it.

**Prof. N. G. Ranga:** Is anything being done to develop either a research station or a manufacturing concern to manufacture banana powder as well as to preserve bananas?

**The Honourable Shri Jairamdas Doulatram:** There are some proposals to increase the production of bananas in the country. At present there is no concrete proposal to utilise this increased production by converting it into flour.

**Shri M. Tirumala Rao:** In view of the statement of the Honourable the Prime Minister recently that emphasis should be laid on the use of bananas as part of our normal diet, do the Honourable Minister's department propose to devote any special attention to this question?

**The Honourable Shri Jairamdas Doulatram:** We do contemplate to increase the production of bananas in the country.

**Prof. N. G. Ranga:** Have Government made any study of the indigenous methods adopted in Malabar by the peasants as also Middle-class people to preserve bananas by drying them? If they have not studied the methods, will Government make an effort to do so?

**Mr. Speaker:** Order, order.

**Prof. N. G. Ranga:** Still the first portion of the question is there.

**Mr. Speaker:** The honourable member is making a suggestion.

**Prof. N. G. Ranga:** If the second part of the question is out of order, I would suggest that the first portion is still in order, viz., whether the Government have made any study of the indigenous methods adopted in Malabar for drying bananas and preserving them?

**Mr. Speaker:** I should like to make the position very clear. As I have stated very often, the question hour is to be taken advantage of for obtaining information as regards facts which are within the special cognizance of the Minister concerned. It is not an occasion for making suggestions or carrying on arguments. The question which the honourable member put was whether Government have studied, etc. I can see that anything can be put in the form of a question but every such question is not therefore necessarily admissible. Some may be permissible and others may be on the border line.

In regard to the honourable member's question, it is to be presumed that when Government want to try anything they would have also taken into consideration all the methods that are prevalent in the country. It is too obvious to require a question. If there is a question asking, "Are Government aware, etc.," that is a form which, in some cases, is permissible but in some obvious cases it is put with a view to give information that it is so and so. That is not asking for information. I am trying to regulate these proceedings with a view to enable the House to get more of real information which would be helpful to the House in knowing the activities of the Government in relation to the requirements of the country. So I do not propose to allow arguments on questions. There are many occasions when arguments can be advanced but the question hour should not be taken advantage of for arguing or giving information. It is intended chiefly for obtaining information and honourable members will see that they make the best use of it. I have no desire to gag any honourable member from expressing an opinion or making a suggestion. My point is that the question hour is not the proper occasion: there are other occasions for honourable members.

**Shri Deshbandhu Gupta:** May I know whether it is a fact that Government is undertaking a planned production of bananas, tapioca and sweet potatoes with a view to make up the country's food deficit?

**The Honourable Shri Jairamdas Doulatram:** Government are contemplating it.

**Srijut Rohini Kumar Chaudhuri:** I want to know the idea underlying this banana research, whether it is the aim to increase the standard size of all bananas and to make all bananas sweet, including *cutchela kelas* used for vegetable purposes?

**The Honourable Shri Jairamdas Doulatram:** The object is to have more and more varieties, sweeter and sweeter and more and more of bananas.

**Shri Kishorimohan Tripathi:** Sir, I have the authority of the honourable member to put the questions Nos. 950 to 954.

**Mr. Speaker:** I have seen the authority but the wording is very vague. The authority says "I authorise so and so to put the questions standing in my name in my absence." It is not mentioned for what date the authority is given. I have often said in the House that the authority should be for a specific date. I do not think I can allow that kind of authority.

## EDUCATION TO FARMERS IN REARING CATTLE

950. **Shri Moturi Satyanarayana:** (a) Will the Honourable Minister of Agriculture be pleased to state what facilities Government provide to the farmers and the cowherds for education in—

(i) rearing cattle; and

(ii) taking precautionary measures against disease?

(b) What steps have Government taken or propose to take for maintaining the standard health of cattle in India?

**The Honourable Shri Jairamdas Doulatram:** (a) and (b). The matter primarily concerns the Provincial and State Governments. The Central Government assist these Governments by sponsoring research, giving technical advice and co-ordinating the work of these Governments. The facilities which the Central Government provide for research are mentioned below:

(1) Indian Veterinary Research Institute at Izatnagar and Mukteswar for research in the control and prevention of disease, animal genetics, animal nutrition and allied matters.

† Answer to this question laid on the table, the questioner being absent.

- (i) climate; and  
 (ii) fodder facilities;  
 (b) whether any work has so far been done in this direction; and  
 (c) if so, with what results?

**The Honourable Shri Jairamdas Doulatram:** (a) to (c). The attention of the honourable member is invited to the reply given to starred question No. 602 by Shri Upendranath Barman on the 23rd February, 1949:

#### CATTLE CENSUS

†\*952. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether Government have any scheme for taking the cattle census in India; and

(b) if so, when the work is expected to start?

**The Honourable Shri Jairamdas Doulatram:** (a) The Government of India propose to carry out the livestock census as part of the Agricultural Census to be held in 1951.

(b) The detailed plans for the Agricultural Census are being worked out. A definite date has not yet been fixed. It is expected that the actual work of enumeration might start in March 1951 or thereabout.

#### STEPS TO INCREASE PRODUCTION OF FODDER

†\*953. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

(a) what steps Government have taken or propose to take for increasing the fodder supply in various areas;

(b) whether any fodder farming has been undertaken in areas adjacent to big cities to utilise the sewage as manure;

(c) if so, with what results; and

(d) whether any survey has been undertaken to investigate the possibilities of fully utilising sewage for fodder-farming in areas where it is available?

**The Honourable Shri Jairamdas Doulatram:** (a) to (d). A statement giving the information asked for by the honourable member is laid on the table of the House. It will be observed therefrom that Provincial and State Governments are taking steps to increase the production of fodder so far as possible.

Sewage water is also utilised for the purpose.

#### STATEMENT

| Sl. No. | Province or State | Steps taken or proposed for increasing fodder supply                                                                                                                                | Fodder cultivation on sewage manure and results, if any                                                                      | Possibilities of fodder cultivation from sewage                                                                |
|---------|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| 1       | 2                 | 3                                                                                                                                                                                   | 4                                                                                                                            | 5                                                                                                              |
| 1       | Madras            | (i) Trial of different kinds of grasses.<br>(ii) Growing of fodder trees on 'foromboke' and Government waste lands.<br>(iii) Rotational grazing in Panchayats and reserved forests. | Sewage fodder farms are already functioning in Madras, Mathurai and Ootacamund where alone underground sewage system exists. | A special investigation on fodder-scarcity in the Province is being conducted by two Officers on Special Duty. |

† Answer to this question laid on the table, the questioner being absent.

#### STARRED QUESTIONS AND ANSWERS

| 9 East Punjab.    | (i) Introduction of high yielding fodders, e.g., berseem in place of 'Senji' a rabi crop which yielded only 1/3rd of fodder as compared with berseem.<br>(ii) Introduction of improved method of culti-                                                                                                                               | Sewage manure is already being utilised as far as available. Composting of tonrefuse has been undertaken under a G. M. F. Scheme which is likely to be extended.             | No.                                                                      |

- (2) Indian Dairy Research Institute at Bangalore for research in matters connected with dairy development and dairy education.
- (3) Cattle Breeding Research Station recently established at Jubbulpore for evolving a general utility type of cattle of more than average and milking capacity. The question of the establishment of another Institute for the evolution of a high yielding dairy cow is under consideration.
- (4) The All-India Cattle Show Committee set up by the Central Government in 1938, which organizes an All-India Cattle and Poultry Show every year for giving impetus and encouragement to the cattle breeders.

A statement showing the steps taken or proposed to be taken by Governments of Madras, U.P., Orissa and Assam for maintaining the health of cattle is placed on the table of the House. Information pertaining to the other Provincial Governments is being collected and will be furnished to the House in due course.

#### STATEMENT

##### *Measures taken or proposed to be taken for maintaining standard health of cattle* *Madras*

The Veterinary Institutions and Touring Billets of the Animal Husbandry Department are responsible for maintaining the standard of health of cattle in this Province. The Veterinary Assistant Surgeons in charge of Veterinary Institutions attend to the treatment of non-contagious diseases and the Touring Veterinary Assistant Surgeons to the control and treatment of contagious diseases. The Touring Veterinary Assistant Surgeons also attend to non-contagious diseases during the course of their tours.

*Veterinary Institutions.*—There were 138 Institutions on the 31st March, 1948 and 3,23,947 animals were treated in these institutions during 1947-48.

*Touring Billets.*—There were 165 Touring Billets on 31st March 1948, each one manned by a Touring Veterinary Assistant Surgeon. Twenty-nine of these billets had stockman compounders to assist the Touring Veterinary Assistant Surgeons in their work. During the year 1947-48, 8,25,997 animals were protected against the common contagious diseases as detailed below :

|                        |     |                 |
|------------------------|-----|-----------------|
| Rinderpest             | ... | 1,42,109        |
| Hæmorrhagic Septicæmia | ... | 2,29,017        |
| Blackquarter           | ... | 4,29,865        |
| Anthrax                | ... | 17,013          |
| Sheep pox              | ... | 1,912           |
| Fowl pox               | ... | 1,821           |
| Fowl Cholera           | ... | 312             |
| Ranikhet               | ... | 3,948           |
|                        |     | <u>8,25,997</u> |

The number of cases treated on tour in 1947-48 was 1,12,928. Four motor mobile units have been sanctioned to facilitate disease prevention work; two are in operation at present and the other two are expected to be ready shortly.

The future programme is to intensify the work by increasing the number of institutions and Touring Billets so that there will be at least one Veterinary Institution and one Touring Billet with a Stockman Compounder or Livestock Inspector, in each of the 220 taluks of this Province.

##### *U. P.*

1. *Control of Contagious Diseases.*—(i) Expansion of the Biological Products Section. This section has been functioning in the Province for the last five years. At present anti-Rinderpest and Hæmorrhagic Septicæmia vaccines are manufactured by this section to meet the entire demand of the Province, others are purchased from the I.V.R.I. It is proposed

to expand the activities of the Biological Products Section so as to make the Province self-sufficient in this respect. During 1947-48 3.23 lakh doses of Rinderpest and 4.22 lakh doses of H.S. Vaccines were manufactured by this Section.

(ii) In order to ensure quick and timely supply of vaccine and sera to the field it is proposed to provide cold storage facilities at the District Headquarters Veterinary Hospitals where vaccines and sera will be stored in sufficient quantities to meet the requirements of the district in the event of an outbreak.

(iii) As a cheap agency for mass immunisation of stock efforts are being made to step up the training of stockmen. At present 160 candidates are being trained each year and it is proposed to increase the number to 240 from April next.

(iv) For more effective and expeditious control of contagious diseases and to reach the veterinary aid to the remotest part of the country it is proposed to establish a mobile veterinary unit for each district of the Province, one such unit is already in the process of formation at Lucknow.

(v) To effect compulsory vaccination, segregation, disinfection, etc., in the event of outbreaks of contagious diseases an Animal Contagious Diseases and Pests Bill is under the consideration of the Legislature.

(vi) For checking the Foot and Mouth disease it is proposed to construct foot baths in the villages under development blocks. These foot baths will be constructed on 550 per cent. Government subsidy. About 800 foot baths are to be constructed during 1949-50.

There are 206 Veterinary Hospitals in the Province. The number of in and out door patients treated in these institutions was 8,22,138 during 1947-48 and medicines were supplied to 1,02,585 cases not brought to the hospital. The total number of animal inoculated against various diseases during the year was 5,94,922.

2. *Control of Parasitic Diseases.*—(i) A survey of helminthic disease in the province is being conducted at Lucknow University.

(ii) A scheme for the control of Liverfluke disease in Almora district is in operation for the last one years. Survey of affected areas, disinfection and destruction of intermediary hosts are in progress.

(iii) Special Disease Investigation Staff is engaged for the investigation and control of parasitic problems.

(iv) It is proposed to maintain cattle dips for regular drenching of stock with suitable vermicides in development blocks especially in low lying areas.

3. *Malnutrition.*—(i) With a view to study the nutritive value of cattle feed and fodder available in different parts of the province and to evolve economically balanced rations for those areas a cattle feeding research scheme has been in operation at Bharai in Jhansi district for the last several years.

(ii) Cultivation of fodder crops especially leguminous crops which not only provide most nutritious fodder but also increase the soil fertility is being encouraged. Cultivated fodder is the secret of successful cattle husbandry and cheap milk production. Every effort is being made to popularise the same on the mixed farming system.

##### *Orissa*

The Provincial Government have already taken up schemes for the introduction of balanced rations and improvement of pastures. Legislation to prevent and control contagious diseases is now before the Provincial Legislature.

##### *Assam*

Vaccine and inoculation against contagious and infectious diseases is undertaken. There are forty-one veterinary dispensaries and four veterinary hospitals operating with 46 veterinary Assistants and 130 Veterinary Field Assistants. One diagnostic laboratory is also functioning in the Province of Assam. In this laboratory there are two Veterinary Investigation Officers one for livestock and one for poultry diseases. There is also one veterinary college for training adequate number of qualified veterinary graduates. One Goat tissue vaccine Section has also been started to maintain cattle health.

#### IMPROVEMENT OF CATTLE BREED ON REGIONAL BASIS

\*951. **Shri Moturi Satyanarayana:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether Government are considering any scheme for improving the cattle-breed on a regional basis taking into consideration—

† Answer to this question laid on the table, the questioner being absent.

| 13 Himachal Pradesh.                     | The Local Administration will take steps to increase fodder supply in whatever way possible as soon as their Agriculture Department is properly organised and staffed.                                                                                                                                            | No.                                                                                                                                                                                                                                                                                             | Not as yet.                                                                                                                                |   |
| 14 Madhya Bharat.                        | Major portion falls in Malwa Plateau where there are long fodder areas available. However in certain districts like Bhind and Morena which are deficit in fodder supply arrangements are being made for increasing the supply of fodder.                                                                          | There is one Sewage Farm run by the Gwalior Dairy Ltd., who are utilising the city sewage and growing fodder for their own cattle and as also supplying for the city. Excellent results have been obtained. Heavy outturn of fodder can be obtained under this system combined with irrigation. | There is scope for establishing more Sewage Farms in Madhya Bharat; this has been included in one of the items of the contemplated survey. |   |

| 19 Baroda      | (i) Utilising shallow wells for fodder cultivation.<br>(ii) Utilising waters of Narbda and Dharhar rivers by means of pumping sets.<br>(iii) Distribution of fodder seeds to needy cultivators.                                                                                                                                                                             | The limited sewage available round Baroda is already being utilised for raising food crops by private owners. They are being encouraged to test in Napier grass, etc.,                                                                                                         | No information.                                                                                                                                                                                                                         |   |
| 20 Mysore      | Training a highly qualified Officer in advanced Agrostology in U.S.A. and Russia for pasture improvement and management.<br><br>sore is also being utilised by private farms to raise                                                                                                                                                                                       | Sunkal Sewage Farm, Bangalore City, and Municipal Sewage Farm, Mysore, are cultivating Rhodes grass. Sewage of Bangalore Civil Station and of Mysore is also being utilised by private farms to raise Rhodes grass. The results are encouraging as the farms are remunerative. | Sewage can be utilised if there is an effective system of underground drainage, which is not the case with most of the municipalities in the State. They will be advised to utilise sewage when they have underground drainage systems. |   |

## EXPENDITURE ON 'GROW MORE FOOD' CAMPAIGN

†\*954. Shri Moturi Satyanarayana: Will the Honourable Minister of Agriculture be pleased to state:

(a) the total amount of money spent on the scheme 'grow more food campaign' since its inception;

(b) the amounts spent on the following: (i) for encouraging production of cereals; (ii) for encouraging production of vegetables; (iii) for encouraging production of roots; (iv) publicity charges; (v) establishment; (vi) subsidies; and (vii) experimental farms.

(c) what the expected and the actual returns were; and

(d) whether Government propose to take any steps to improve the scheme?

The Honourable Shri Jairamdas Doulatram: (a) and (b). Two statements giving the required information are placed on the table of the House.

(c) and (d). The attention of the honourable member is invited to the note on the subject circulated among the honourable members of the House on the 3rd February, 1949. A copy of the note is placed on the table of the House. The whole question of speeding up food production is under review by Government.

## STATEMENT I

Actual expenditure incurred by Government of India on Grow More Food Schemes for the years 1943-48

| Name of the Province | Actual expenditure |           |           |             |           |
|----------------------|--------------------|-----------|-----------|-------------|-----------|
|                      | 1943-44            | 1944-45   | 1945-46   | 1946-47     | 1947-48   |

NOTE.—The above expenditure is in the form of grants or subsidies to the Provinces for the execution of the above mentioned schemes.

\* The amounts in respect of these provinces represent the amounts as sanctioned by the Government of India. Information about the actual expenditure on the items mentioned above is not available.

## AID TO POULTRY AND DAIRY FARMS

\*955. **Shri S. Nagappa:** Will the Honourable Minister of Agriculture be pleased to state:

(a) the number of poultry and dairy farms throughout the country province-wise;

(b) whether Government are giving them any aid; and

(c) if so, what kind of aid?

**The Honourable Shri Jairamdas Doulatram:** (a) to (c). A statement giving the necessary information is placed on the table of the House.

## STATEMENT

| Name of Province | No. of Dairy Farms        | No. of Poultry Farms | Whether Govt. is giving them any aid | Kind of aid given                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

P. and Berar | 48.                                                                  | 25 | Yes. | Necessary assistance in respect of Veterinary and Animal Husbandry matters is given to all Co-operative farms. Loans are granted to them for the purchase of cattle and establishment of cattle feed depots for supply of fodder and concentrates to the members at cheap rates.               |
| 9. Delhi           | 58<br>(52 Dairies and 6 Dairy Farms)                                 | 2  | Yes. | Veterinary and Animal Husbandry Aid are also given to private dairies when sought.                                                                                                                                                                                                             |
| 10. Ajmer-Merwara  | Nil<br>(There are several poultry farms but only six are important.) | 6  |      | One Poultry and one Dairy Farm are run by the Local Government. A loan of Rs. 16,000 has been given to one refugee Dairy Farm. Technical advice and facilities for vaccination are given free of charge. At the time of epidemic all medicines are also provided by Government without charge. |
| 11. Coorg          | 3                                                                    | 5  | Yes. | Local Government help private breeders in controlling diseases and give advice in poultry matters. Eggs suitable for hatching and young stock produced on the Government farm are supplied to bona fide poultry breeders and co-operative poultry breeding societies at concessional rates.    |
|                    |                                                                      |    |      | All the five poultry farms and one dairy farm are run entirely by the local Government.                                                                                                                                                                                                        |
|                    |                                                                      |    |      | No financial aid is given to private dairy farms.                                                                                                                                                                                                                                              |

## RESEARCH IN AGRICULTURAL PESTS AND PLANT DISEASES

\*956. Pandit Mukut Bihari Lal Bhargava: Will the Honourable Minister of Agriculture be pleased to state whether the Government of India have made any arrangement for research work in agricultural pests and plant diseases and if so, at which places and with what results?

The Honourable Shri Jairamdas Doulatram: The Government of India have arrangements for research work on agricultural insect pests and diseases at the Indian Agricultural Research Institute. Research is also carried out at various institutions under schemes financed by the Indian Council of Agricultural Research and the Commodity Committee of Jute, Cotton, Sugarcane, Lac, Tobacco, Coconut and Oilseeds. A note on the results of research work carried out so far on different insect pests and plant diseases is placed on the table of the House.

*A note on the results of research work carried out on insect pests and plant diseases under different Central organisations*

The need for research on pests and diseases of crops was appreciated by the Government of India as early as 1905 when they appointed an Entomologist and a Mycologist in the Indian (then Imperial) Department of Agriculture. In 1929, the Indian Council of Agricultural Research was established for promoting, conducting and financing Agricultural Research and for co-ordinating research on an all-India basis. Furthermore several Commodity Committees have been set up during the past 20 years for conducting research on pests and diseases along with other agricultural aspects of Cotton, Sugarcane, Lac, Coconut, Oil Seeds, Tobacco, Jute, etc. Recently a Central Rice Research Institute has been established. Some of the schemes now financed by the various Committees were started by the Indian Council of Agricultural Research.

The results of research work carried out under different organisations are briefly described below :

## I. INDIAN COUNCIL OF AGRICULTURAL RESEARCH

(a) *Insect Pests :*

- (i) *Locusts.*—Following the recommendations of the Board of Agriculture in 1929 the Council organised a Locust Section and later in 1939 the entire organisation was taken over by the Government of India under its direct control. The investigations led to detailed information on the reproduction, migration and seasonal activities of the pest as well as the mechanical, biological and insecticidal control measures. A monograph in this respect has been published by the Council giving full details.
- (ii) *San Jose Scale and Woolly Aphis in Kashmir.*—It was observed that the grown up trees of apricots, cherry and almonds were usually free from infestation of San Jose Scale, whereas their seedlings were quite susceptible to its attack. Apples were severely infested and the best control was effected through spraying with diesel oil emulsion during winter.
- (iii) *Insect Pests of stored cereals in Punjab.*—Some investigations were carried out in the Punjab before the partition. Of the various kinds of powdered leaves, Neem was found to be the best preservative.
- (iv) *Insect Pests of pulses and jowar.*—The scheme terminated in 1947 and revealed that insect infestation varies with the initial moisture contents in the grain and the surrounding humidity. As a preventive measure the jowar stem borer may be much reduced by the destruction of stubbles and the grasshopper control effected by sweeping the young stages of the pest in large field bags.
- (v) *Pests of Rice.*—The Gundhi pest in U. P. and Gangai pest in C. P. were investigated and some resistant varieties evolved.
- (vi) *Hispa and Stem Borer of Rice.*—The investigations are in progress in West Bengal and the life history of the pests has been studied.
- (vii) *Trials with D.D.T. and allied insecticides.*—Comparative trials with D.D.T., gammexane and other insecticides are carried out against agricultural pests, in Madras, U. P. and Bombay and at the Indian Agricultural Research Institute. So far the experiments in Bombay have yielded important results and further trials are in progress during the extension period of the scheme.
- (viii) *Fruit Research Scheme, Mysore.*—The scheme started in 1938 and information about the biology of Woolly aphis has been collected.
- (ix) *Insect pests of fruits in plains of U. P.*—The scheme was initiated in 1946. Some investigations on the biology of gall makers, citrus leaf miner, fruit sucking moths and Anar butterfly have been made and the Central measures are under trial.
- (x) *Hill Fruit Research in U. P.*—The scheme started in 1934. Of the entomological problems Woolly aphis, apple root and stem borer, and fruit eating beetle have been studied and their control measures devised. Investigations on the biology of some parasites and predators are also in progress.
- (xi) *Horticultural schemes in Madras, Bihar, Assam, Hyderabad, C. P. and Berar.*—The Bihar scheme started in 1934, Assam in 1938, Hyderabad in 1941 and C. P. in 1944. Investigations on some important pests including white ants are in hand and some control measures have been evolved.
- (xii) *Research on citrus in Coorg and Bihar.*—The scheme is in progress since 1945 and work on the incidence of pests of citrus is completed.
- (xiii) *Potato Research scheme in Bihar.*—The potato storage scheme was started in Bihar during 1943. Bionomics and control of the potato tuber moth have been studied.

(b) *Plant Diseases :*

- (i) *Survey of the citrus die-back diseases in Peninsular India, Bombay, Mysore, Hyderabad and C. P. and Berar.*—The scheme was under operation from 1943-46 during which period the conditions favouring these diseases and the extent of damage were studied.
- (ii) *Discoms of pan in C. P.*—Work was in progress upto 1945. Suitable control measures were evolved.
- (iii) *Scheme for the production and multiplication of partially disease free seed potatoes at Karnal.*—In progress from 1944 to 1947. It was aimed to produce partially disease free seed potatoes by thorough roguing of the crop and distribute the same to the cultivators. The yield of potatoes per acre from such seed has been considerably higher than ordinary commercial seed.
- (iv) *Fruit Research Scheme, Mysore.*—In progress since 1938. Diseases of fruits specially apples, pears, avocado, papayas, etc., are under investigation. Control of collar-rot is completed and Canker and rosettee diseases are under study.
- (v) *Hill fruit Research Scheme.*—Investigations are in progress since 1934 and important diseases like collar-rot, stem brown, powdery mildew, steam black, etc. have been studied and control measures determined.
- (vi) *Horticulture Schemes in Madras, Bihar, Assam, Hyderabad, C. P. and Berar.*—The scheme started in 1934 in Bihar, 1935 in Madras and 1941 in Hyderabad and work on disease resistance of sweet oranges and lime trees in Madras, and on mangoes in Bihar was undertaken. Different fungicides were tried against powdery mildew and gummosis and experiments to control mal-formation of mango inflorescence are in progress.
- (vii) *Orange Research Scheme, Coorg.*—Leaf and fruit fall diseases are investigated and proper spray schedules, prepared and the diseases are under control.
- (viii) *Research Schemes on potatoes at Simla and New Delhi.*—The scheme at Simla started in 1935 and breeding of potato varieties resistant to late blight as well as virus diseases undertaken. Some hybrids have been found to be immune to late blight.

Seed potato certification scheme at Indian Agricultural Research Institute was started in 1942. Survey of virus diseases of potato crop in Northern India was undertaken and pockets of low disease incidence determined for the multiplication of disease-free potato seed. Virus free nucleus seed potatoes of Darjeeling Red Round have been evolved and are being multiplied for certification purposes.

- (ix) *Rust Research Scheme, Agra.*—Work is in progress since 1930 to determine over-summering of rusts of wheat and barley under Indian conditions. The sources of annual epidemics have been traced and various physiological races of different rusts investigated. Varieties of wheat resistant to these races have been isolated.
- (x) *Rice Research Scheme, Coimbatore, Madras.*—Blast disease and foot-rot of paddy are under study in Madras. Several resistant varieties have been discovered. Foot-rot of rice has been controlled by seed treatment with an organic mercury fungicide which was tested for about 1,000 acres during 1946-47.
- (xi) *Gram Wilt Scheme Ferozepore, E. Punjab.*—Considerable work has been done and control through soil amendment discovered.
- (xii) *Coriander Wilt Scheme, Gwalior, Madhya Bharat.*—The work is in progress for the past three years, and results are awaited.
- (xiii) *Virus Research Scheme, Poona.*—Investigations on virus diseases of various crops are in hand. The vector of the cardamom virus has been discovered and an effective method for the control of bhindi mosaic determined.
- (xiv) *Rust Research Laboratory, Mahabaleshwar, Bombay.*—Maintained for investigating black rust of wheat in Central, Peninsular and Western India. Quite a number of varieties of wheat bred in Bombay, C. P. and Hyderabad have been tested for their relative resistance and races of black rust noted.
- (xv) *Central Potato Research Institute.*—This Institute is in the process of formation with headquarters at Patna. A nucleus staff is working at Simla for the past 14 years. Early and late blights and virus diseases of potatoes form the main lines of study.

## II. INDIAN AGRICULTURAL RESEARCH INSTITUTE, NEW DELHI

(a) *Entomology.*—The Division of Entomology is mainly concerned with fundamental research of All-India importance. The co-ordinated schemes on sugarcane pests are supervised by this Institute and millions of Trichogramma parasites are produced annually and supplied to sugarcane growers.

The Institute maintains the best insect collection in the East which helps in the correct identification of insects. It conducts special investigations on life histories and bionomics of important pests together with their geographical and seasonal distribution, ecology, causes

of epidemics and above all, their natural enemies. Recently investigations on insect toxicology have also been initiated. Work has been done on the control of serious pests of crops and stored grains, including fumigation and bionomics of pests, of sugarcane, tobacco, vegetables, fruit trees and bulletins published.

(b) *Pathology.*—The casual organisms of several diseases have been carefully identified, their life histories studied and control measures, wherever possible, determined. Moreover, the Institute maintains a large Herbarium, and Indian Type culture collection of fungi and these collections are useful in studying the etiology of the diseases. The important diseases that have been studied and for which control measures have been evolved include loose smut and flag smut of wheat, covered and loose smuts of oats, red-rot and smut of sugarcane, pigeon pea wilt, gram-wilt and certain virus diseases of tomato.

Some varieties of potatoes resistant to late blight disease have been evolved. Work on production of linseed varieties resistant to different physiologic forms of linseed rust is in progress.

The other problems under investigation are:—Wilt of linseed, lentils, etc.; Rusts of various crops; Bunt of wheat; Virus diseases of vegetables and sannhemp.

## III. INDIAN OIL SEEDS COMMITTEE

(A) *Insect Pests :*

- (i) *Pests of ground-nut in Madras.*—The scheme was in force from 1943 to 1947 and studies on Surul (*Stomopteryx nerteria*) were completed and light traps and dusting with five per cent. D.D.T. are found very effective in controlling the pest.
- (ii) *Pests of castor and other oil seeds in Hyderabad.*—The scheme continued from 1943 to 1947 but the final report is awaited.
- (iii) *Pests of linseed in C. P. and Berar.*—The scheme functioned from 1943-47. The final report of the work already done and the programme of work during the extension period for which proposals have been received, yet to be considered.
- (iv) *Pests on Til and other oil seed crops in U. P.*—The scheme is in progress since 1943. Major pests of til have been studied.
- (v) *Pests of Safflower in Bombay.*—The scheme is in progress since 1945. Bionomics of the leaf eating caterpillar (*Perigaea capensis*) and aphids were worked out and control measures studied. Preliminary information on the relationship of the incidence of attack and the relative yield was collected.

(B) *Plant Diseases :*

*Scheme for research on diseases of groundnuts.*—It has been established that Tikka leaf-spot disease can be easily controlled by the application of common fungicides such as Bordeaux mixture, sulphur, and colloidal copper, etc. Bordeaux mixture (3 per cent.) however, has proved to be the most effective fungicide.

## IV. INDIAN CENTRAL SUGARCANE COMMITTEE

(A) *Insect Pests :*

- (a) *Scheme on the Biological control of sugarcane borer and on other pests of sugarcane.*—A co-ordinated scheme is running in Bihar, U. P., Madras, Bombay and the Punjab. The efficacy of *Trichogramma minutum* in the control of the stem borer and economics of the biological control have been worked out. The incidence of attack of other pests of sugarcane in relation to the Micro-climatic factors is under investigation.

(B) *Plant Diseases :*

- (i) *Sugarcane Research Station, Pusa, Bihar.*—This station is doing intensive work on red-rot and wilt of a sugarcane. Work on smut is also in progress. Several varieties of sugarcane resistant to red-rot have been developed and are under cultivation in the province.
- (ii) *Sugarcane Research Station, Shahjehanpur, U. P.*—Work on sugarcane diseases, mainly the red-rot, is in progress. Several resistant varieties have been evolved and are under distribution.
- (iii) *Sugarcane Diseases Scheme, Indian Agricultural Research Institute.*—Work on mosaic disease, red-rot and smut of sugarcane has been in progress since 1935. Several varieties of sugarcane resistant to red-rot and smut have been evolved.

## V. INDIAN CENTRAL JUTE COMMITTEE

*Jute Research Institute, Hooghly.*—This Institute was established several years ago at Dacca and investigations on the more important diseases of Jute undertaken. The stem-rot of jute has been successfully controlled.

## VI. INDIAN CENTRAL COCONUT COMMITTEE

*Coconut Research Laboratory, Quilon, Travancore.*—Work on a wilt, hadromycoses and leaf-spot diseases of coconut are under investigation.

## VII. INDIAN COFFEE BOARD

*Coffee Research Station, Balehonnur, Mysore.*—Investigations on leaf rust and Black rot of coffee are being conducted at this station. For controlling rusts, different fungicidal sprays have been developed and are under large scale trial. Varieties of coffee resistant to leaf rust are also under investigation.

## VIII. CENTRAL RICE RESEARCH INSTITUTE, CUTTAK

The Institute was started 2 years ago. With a view to finding control measures, the blast, leaf spot and blight diseases of rice crop and various seedling diseases, are under investigation.

**Shri Raj Bahadur:** May I know whether any researches have been made regarding wheat rust and if so, where and with what result?

**The Honourable Shri Jairamdas Doulatram:** The experiment is being carried on at Agra under Dr. Mehta and experiments are also being made in a number of provinces such as Bombay, Madras, the Simla Hills and some other places.

**Shri Raj Bahadur:** How long has it been under research and what is the result?

**The Honourable Shri Jairamdas Doulatram:** It has been under research for a number of years. With regard to India the difficulty is that there are three different varieties or types of rust which attack wheat. The number actually goes into hundreds but there are three main varieties and because Indian wheat is subject to attack by all these three varieties, therefore a seed which is resistant to all the three varieties has to be discovered and hence the time taken in evolving such a seed.

**Shri Raj Bahadur:** What has been the the total cost of the research so far?

**The Honourable Shri Jairamdas Doulatram:** I am sorry I cannot answer the question straightaway but I can later supply the information to the honourable member, if he desires.

CONTROL OF LOCUST AND *Phadka*

**\*957. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Agriculture be pleased to state whether Government are aware that every year huge loss of the standing crops is caused by locust and *Phadka* in different parts of the country and if so, what has been done so far or is being done to counteract this?

(b) Are Government aware that locust and *Phadka* have caused immense loss by destruction of the standing crops in the Province of Ajmer-Merwara continuously in the last 3 years?

(c) If so, what steps were taken by the Provincial Government or the Government of India to control the evil and with what results?

**The Honourable Shri Jairamdas Doulatram:** (a) It is not a fact that any appreciable damage is done by locust to standing crops in different parts of the country every year. During the last cycle of 1940-46 the loss was

## STARRED QUESTIONS AND ANSWERS

1349

negligible, as a co-ordinated control scheme was successfully carried out, with the co-operation of the Provinces and States likely to be affected by the locust invasion.

As a result of the study made under the auspices of the Indian Council of Agricultural Research on the subject of locust from 1931-39, a skeleton locust warning organisation was established by the Government of India to keep a watch on locust outbreaks. This organisation was substantially strengthened in 1942 after the outbreak of the locust cycle of 1940-46. It has field staff and scouts posted at strategic points in all the areas where locust is likely to breed.

With the decline of locust activities in 1947, the co-ordinated locust control scheme was terminated but the Warning Organisation is being continued in order to observe occasional appearance of locust and its breeding activity, and to issue warning to the Provinces and States likely to be affected thereby. This warning staff is posted in Rajputana and the adjoining desert areas at suitable places and they constantly move about for purposes of observation. The Locust Warning Organisation is also equipped to destroy the pest, should it appear in such numbers as to give rise to incipient swarms. Mainly this pest originates outside the borders of India, namely, in Pakistan, Iran, Arabia, and countries further west up to East Africa. The Government of India, therefore, keep in touch also with the anti-locust centre in London which is in charge of the work in East Africa, Sudan, etc.

(b) and (c). Some damage was caused in Ajmer-Merwara by the locust during the last three years.

*Phadka* was first reported in Ajmer in 1946. Preliminary trials of control methods were made in 1947 and the Government of India sanctioned grants amounting to Rs. 8,700 during the year 1947-48 and Rs. 22,204 during the year 1948-49. Effective measures were applied with the available stock of insecticides and dusting machines over an area of about 3,000 *bighas* in 60 villages in 1948 and the crops were completely saved in this tract. The scheme is worked by the Local Administration and technical guidance is provided by the Government of India. But the area infected was very much larger and the total loss was estimated at 27 lakhs. The major difficulties in securing greater success were the lack of funds for purchasing insecticides and dusting machines, booking and transport difficulties and insufficient field staffs. For the year 1949-50 the Government of India have under consideration a proposal for the extension of the scheme at a cost of Rs. 93,000 to meet some of these difficulties.

**Shri H. V. Kamath:** Which are the other pests or diseases, besides locust and *phadka*, responsible for the large scale destruction of crops in this country? Are there any other pests?

**The Honourable Shri Jairamdas Doulatram:** There are hundreds of pests which attack our crops.

**Pandit Mukut Bihari Lal Bhargava:** Do Government consider the sum of Rs. 93,000 sufficient to meet the menace during 1949-50?

**The Honourable Shri Jairamdas Doulatram:** We hope it will be sufficient; if not we shall approach the Finance Ministry and get more funds.

**Shri H. V. Kamath:** What is the annual loss of crops on account of these pests in the country?

**The Honourable Shri Jairamdas Doulatram:** I think it is somewhere round about thirty lakh tons.

**Shri Mahavir Tyagi:** In view of the fact

Government of Pakistan and the Government of Iran are still co-operating with us in this matter?

**The Honourable Shri Jairamdas Doulatram:** All the Governments on that side are co-operating and recently we had a conference at which representatives from India, Iran and the countries on the west were represented.

**Shri Mahavir Tyagi:** Are you maintaining any permanent staff to fight this menace?

**The Honourable Shri Jairamdas Doulatram:** We are not maintaining any staff in the other countries.

**Shri H. V. Kamath:** How much is the food deficit?

**The Honourable Shri Jairamdas Doulatram:** Ten per cent. of the total production.

**Shri H. V. Kamath:** How many million tons is it?

**The Honourable Shri Jairamdas Doulatram:** It may be round about thirty-five lakh tons.

**Shri H. V. Kamath:** While the food deficit is thirty-five lakh tons the loss due to pests is thirty lakh tons!

**The Honourable Shri Jairamdas Doulatram:** It is not only in India. In most of the countries there is a variety of these crop pests just as there is a variety of diseases in respect of human beings. And just as human beings also die crops also are destroyed all over the world by these pests. This is a common malady to crops all over the world.

**Shri R. K. Sidhva:** What kind of insect is this *phadka*? Is it the locust?

**The Honourable Shri Jairamdas Doulatram:** It is a small winged locust.

#### MANUFACTURE OF MANURES AND CHEMICAL FERTILISERS

**\*958. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Industry and Supply be pleased to state how many factories exist in India for the manufacture of manures and chemical fertilisers on modern lines and whether such factories are Government-owned or private?

(b) What is the total annual output of such factories and what kinds of manures or fertilisers are being manufactured there and what quantity of each?

(c) Have Government prepared any plan for the increased output of manures and chemical fertilisers and if so, at what stage or stages are these schemes and when are they going to be implemented?

(d) What is the total quantity of chemical fertilisers and manures of various kinds imported into India from abroad and what has been done or is being done to make India self-sufficient in such manures and fertilisers?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Twelve, none of which is State-owned.

(b) 56,300 tons; 35,000 tons of Ammonium Sulphate and 21,300 tons of Superphosphate in 1948.

(c) and (d). One State-owned factory for the manufacture of Ammonium sulphate is under erection at Sindri. The capacity of this factory will be 3,50,000 tons per annum and it is expected to go into production by the end of 1950. Additional capacity for the production of superphosphate is also being encouraged to be set up by private enterprise. Similar plans are also under preparation by private enterprise for the installation of additional capacity for the manufacture of ammonium sulphate. As regards imports a statement is laid on the table of the House.

#### STATEMENT

*Total quantities of Chemical fertilisers imported from abroad during 1943-44 to 1947-48 and those likely to be imported during 1948-49.*

| Name of the fertiliser | 1943-44 | 1944-45 | 1945-46  | 1946-47  | 1947-48  | Total    | 1948-49<br>(likely to be imported) |
|------------------------|---------|---------|----------|----------|----------|----------|------------------------------------|
| Sulphate of Ammonia.   | 22,000  | 70,000  | 1,57,000 | 1,46,000 | 1,18,000 | 5,13,000 | 1,60,500                           |
| Ammonium Phosphate.    | ..      | 14,000  | 6,634    | 10,150   | 7,254    | 38,038   | 4,464                              |
| Diammonium Phosphate.  | ..      | ..      | ..       | ..       | 2,000    | 2,000    | 2,000                              |
| Ammonium Nitrate.      | ..      | ..      | 200      | 6,035    | 7,950    | 14,185   | 7,607                              |
| Sodium Nitrate         | ..      | ..      | ..       | ..       | 21,357   | 21,357   | 28,500                             |
| Total                  | 22,000  | 84,000  | 1,63,834 | 1,62,185 | 1,56,561 | 5,88,580 | 2,03,071                           |

**Shri R. K. Sidhva:** May I know whether some quantity will be available at the end of this year? Now he says 'by the end of 1950'. In the last session he said by the end of 1951 some quantity will be available after the Sindri factory is erected.

**The Honourable Dr. Syama Prasad Mookerjee:** I said 1950, not 1951.

**Prof. N. G. Ranga:** What is the supply position in regard to the import of fertilisers from abroad? Has it improved?

**The Honourable Dr. Syama Prasad Mookerjee:** I have laid a full statement on the table with regard to the imports. In 1947-48 we imported 1,56,561 tons and 1948-49 2,03,071 tons are expected to be imported.

**Pandit Mukut Bihari Lal Bhargava:** What is the total price of these imports?

**The Honourable Dr. Syama Prasad Mookerjee:** Rs. 5½ crores.

**Seth Govind Das:** Have Government received some representations that this fertiliser is harmful to the land in the long run and have the Government consulted experts in this respect?

**The Honourable Dr. Syama Prasad Mookerjee:** This matter has been under investigation for some time. With regard to the use of ammonium nitrate the reports have been of a conflicting nature. But as far as reports regarding ammonium sulphate are concerned they are fairly satisfactory.

#### POSTAL ENQUIRY COMMITTEE ON SPLITTING UP OF POSTAL CIRCLES

**\*959. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of Communication be pleased to state whether it is a fact that the Postal Enquiry Committee (1934-35) proposed the splitting up of Postal Circles into minor ones on economical grounds as also on the grounds of efficiency and whether it was as a result of that Committee's recommendation that Assam has since been separated from the Bengal Circle and Orissa from the Bihar Circle?

1352

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [8th MARCH 1949]

(c) Has this recommendation been accepted and acted upon by Government and if not, why not?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) The Postal Enquiry Committee proposed splitting up of some of the Postal Circles into minor ones in 1935 but the recommendations were not accepted by Government. In 1946 an independent Circle was formed in Assam and Orissa was separated from Bihar but only in respect of Postal services and not Telegraphs and Telephones. These Circles were formed not as a result of the recommendations made by the Postal Enquiry Committee (1934-35) but in view of subsequent developments and on administrative grounds.

(b) Yes.

(c) The question of reorganisation of the Circle charges which will include the separation of Ajmer from the Central (Nagpur) Circle is under consideration.

**Shri R. K. Sidhva:** May I know whether in the year 1935 the Director-General of Posts and Telegraphs stated that the department for administrative purposes should be split up into many circles; if that is so, do Government consider the question of splitting up C. P. into two circles?

**The Honourable Mr. Rafi Ahmad Kidwai:** I will look into the report to which the honourable member has referred.

#### NEGOTIATIONS FOR OBTAINING STEEL FROM BELGIUM AND OTHER COUNTRIES

**\*960. Seth Govind Das:** (a) Will the Honourable Minister of Industry and Supply be pleased to state whether the negotiations for obtaining a larger quantity of Steel from Belgium have concluded successfully?

(b) If so, what is the total quantity imported from Belgium during the period from 1st September, 1948 up till now?

(c) What further efforts are being made in order to procure more steel from Countries other than the United Kingdom, the United States of America and Belgium?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Yes, Sir.

(b) An order for 1,36,000 tons of Belgian steel has been placed and shipments are expected to commence very shortly.

(c) The principal countries that export steel are the U.S.A., the U.K. and Belgium. We have, however, succeeded in getting a firm offer from France of 30,000 tons which we expect to finalize in the next few days. We are also negotiating with some other countries, e.g., Italy, Japan, Sweden, Germany and Austria for supply of steel and hope to get at least some quantity at reasonable prices.

**Seth Govind Das:** Is there any difference in the quality of the steel which we receive from abroad and is there any difference in the prices of the same quality?

**The Honourable Dr. Syama Prasad Mookerjee:** So far as prices are concerned, of course the differences are considerable. So far as qualities of the same varieties are concerned there is not much difference.

**Shri M. Tirumala Rao:** May we know the price per ton of steel being imported from Belgium?

**The Honourable Dr. Syama Prasad Mookerjee:** The Belgian price of steel varies from Rs. 580 to 750 per ton depending on the varieties.

**Seth Govind Das:** Are the Government keeping one fact in view that the order should be placed only in those countries from where we can get cheapest steel of the same quality?

**Mr. Speaker:** I think it is obvious.

**Shri H. V. Kamath:** Does not the U.S.S.R. export any steel?

**The Honourable Dr. Syama Prasad Mookerjee:** We have not been able to get anything from the U.S.S.R.

**Shri Mahavir Tyagi:** Is it a fact that the 30,000 tons of steel which the Government have arranged from France has been arranged on some barter system, and if so for the exchange of what material?

**The Honourable Dr. Syama Prasad Mookerjee:** That is under negotiation. Some of the countries want coal, some pig-iron, and we are trying to settle it to the best advantage of India.

**Shri H. V. Kamath:** Have Government at any time attempted negotiations with the U.S.S.R. for the purchase of steel?

**The Honourable Dr. Syama Prasad Mookerjee:** Attempts have been made.

**Shri H. V. Kamath:** With what result?

**Mr. Speaker:** Order, order.

**Shri R. K. Sidhva:** May I know what is the price of manufactured steel in India?

**The Honourable Dr. Syama Prasad Mookerjee:** The Indian price varies from Rs. 287 to Rs. 320.

**Shri R. K. Sidhva:** In view of this great disparity in rate between Indian steel and foreign steel, may I know whether Government intends to increase our price so as to get the benefit to the State?

**The Honourable Dr. Syama Prasad Mookerjee:** I am trying to work out an equalization fund so that the steel that we import will be available to the consumers at reasonable prices.

**Shri Mahavir Tyagi:** Is it a fact that a private party had arranged a bargain for steel with France and that the Department of Industry and Supply rejected that bargain because it was dealt with directly and not through the Department?

**The Honourable Dr. Syama Prasad Mookerjee:** It is open to private parties also to import steel. If the honourable member has any information like that the best thing for him is to let me know.

**Shri H. V. Kamath:** From the point of view of amount of steel production, which country in the world comes first?

**The Honourable Dr. Syama Prasad Mookerjee:** The U.S.A.

#### RECOMMENDATIONS OF RAILWAY GRAIN SHOP ENQUIRY COMMITTEE

**\*961. Shri B. P. Jhunjhunwala:** (a) Will the Honourable Minister of Railways be pleased to state whether, as a result of the findings of the Railway Grain Shop Enquiry Committee, any change in the system has been effected and if so, whether it has resulted in any economy or saving?

(b) If there has been any saving or economy, what is the total amount of such annual saving?

**†The Honourable Shri K. Santhanam:** (a) and (b). Under the revised scheme the sale of articles which are expensive, unessential or difficult to

† The answer as read out in the House was as follows:

"(a) and (b). I would refer the honourable member to the reply given to Starred Question No. 497 asked by Prof. N. G. Ranga on 18th February, 1949."

Question No. 497 was, however, withdrawn and the answer as printed in the Debates was, therefore, made self-contained with the approval of the Honourable the Speaker.

handle or store, has been discontinued. Uniform scales of ration, subject to Provincial Rationing Rules, have been laid down and uniform prices have been prescribed. Moreover, Joint Purchasing Boards have been set up for the purchase by Railways of articles not supplied by the Provincial Governments, so that the purchases could be made on a co-ordinated basis.

The financial results expected to be realised by the acceptance of the Grain Shops Enquiry Committee's Report are shown below:

(i) Expenditure under the old scheme for relief in Cash and kind—

|         |           |
|---------|-----------|
| 1948-49 | 39 crores |
| 1949-50 | 42 crores |

(ii) Expenditure under the scheme revised in accordance with the Grain Shops Enquiry Committee's recommendations, including the increased cash allowances of those who opted out of the grainshops—

1949-50 ... 33.5 to 37.5 crores.

plus a non-recurring expenditure of 39 lakhs in 1948-49.

The position has since been altered by the decision of Government to grant an increase in dearness allowance from 1st January 1949 as announced in the Press Communique of the 20th January 1949, viz. Rs. 10 p.m. to staff drawing upto Rs. 250, and eligible to draw dearness allowance like other Central Government employees and Rs. 5 p.m., to staff who continue to enjoy grainshop concessions. Government expect now a large number of staff to opt out of the grainshops particularly as the lump sum payments payable to staff drawing pay of Rs. 50 and below who opted out by 1st January 1949 have been sanctioned for those who opt out by the 31st March 1949. In view of this it is not possible to estimate yet the precise financial results.

**Shri Harihar Nath Shastri:** Have Government received any representation requesting them to add some more commodities in addition to those allowed under the new scheme, and if so, what steps do Government propose to take in that direction?

**The Honourable Shri K. Santhanam:** Some representations were received at the end of last year and they were all rejected. Now all the grainshops are in a state of flux because under the new dearness allowance scheme many more railway employees are opting out of the grainshops scheme and there will be only a minority of employees availing themselves of the facilities of the grainshops.

**Shri O. V. Alagesan:** Why is it that this report was not published and circulated to members of this House?

**The Honourable Shri K. Santhanam:** The report had been implemented long before the Session and it was not considered necessary to circulate it.

**Shri B. P. Jhunjhunwala:** What were the causes which led to the high expenses in the grainshops before and what are the defects which have been found by which this economy has been introduced?

**The Honourable Shri K. Santhanam:** All those defects have been remedied and now the whole expenditure is being curtailed.

**Shri B. P. Jhunjhunwala:** Were any cases of corruption detected in this enquiry?

**The Honourable Shri K. Santhanam:** The Committee itself did not go into individual cases of corruption, but they did hear allegations and they have stated them in the report.

**Pandit Hirday Nath Kunzru:** Whose recommendations have Government accepted on this subject—those of the Grain Shops Enquiry Committee or of the Indian Railway Enquiry Committee or those of any other body?

**The Honourable Shri K. Santhanam:** The Government accepted the recommendations of the Grain Shops Enquiry Committee.

**Pandit Hirday Nath Kunzru:** Is it a fact that the Government have accepted that report *in toto*?

**The Honourable Shri K. Santhanam:** Except for minor details the Government has accepted the report *in toto*.

**Pandit Hirday Nath Kunzru:** What are those minor details in which there is a difference?

**The Honourable Shri K. Santhanam:** If the honourable member wants to know them and puts a Question, I am prepared to supply the details.

**Shri R. K. Sidhva:** In view of the fact that this is a very important report which has saved nearly Rs. 10 crores, will the Honourable Minister send copies of the report to each and every Member and not confine it to C.A.C. Members only?

**The Honourable Shri K. Santhanam:** I do not know if we have got copies; if there are copies I am quite prepared to send them.

**Shri B. P. Jhunjhunwala:** What were the difficulties in the way of adopting those minor points also of the Railway Enquiry Committee so as to bring in more economy?

**The Honourable Shri K. Santhanam:** All recommendations which were considered practicable have been accepted.

#### STRIKE NOTICE BY POST AND TELEGRAPH WORKERS

**\*952. Shri H. V. Kamath:** Will the Honourable Minister of Communications be pleased to state:

(a) whether the Post and Telegraph workers have given notice of their intention to strike with effect from 9th March, 1949;

(b) the reasons for the proposed strike; and

(c) the measures that Government propose to take to avert the strike?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) to (c). Only one Union, the Union of Posts and Telegraphs Workers served a notice that unless Government conceded forthwith to thirty demands, the employees would go on strike on the 9th March. Most of the demands had been considered several times before and Government was satisfied that there was no good ground to justify the strike notice. Arrangements were, therefore, made for maintaining the services in the event of the strike materialising. The Union has, on better judgment, since withdrawn the notice.

**Shri H. V. Kamath:** What were the demands put forward by this Union and which were the demands that the Minister said had already been conceded?

**The Honourable Mr. Rafi Ahmad Kidwai:** As I said there was a memo. containing more than thirty demands. I can send the honourable member a copy of the demands and the action taken by the Government.

**Shri R. K. Sidhva:** Am I clear in understanding from the Honourable Minister that all the Unions have now withdrawn their strike notice?

**The Honourable Mr. Rafi Ahmad Kidwai:** As I said only one Union had given notice and that notice has been withdrawn.

#### SMUGGLING OF TEXTILES FROM INDIA TO PAKISTAN

**\*953. Shri Basanta Kumar Das:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) what is the quantity of cloth and other textile goods seized while being smuggled from India to Pakistan during the year 1948;

(c) and (d). Yes. All the agencies except the Imperial Chemical Industries employed by Government are Indian. The quota of the Imperial Chemical Industries was however considerably reduced for the fertilizer year beginning from 1st July 1948 and the major portion of Government imports of fertilisers is entrusted to three other Indian firms. The question of clearing and forwarding agents for 1949-50 is under consideration.

*Quantities and prices of Government imported Sulphate of Ammonia and Ammonium Phosphate for 2 years.*

| Origin      | 1946-47  |                                                                                                                      |                     | 1947-48  |                                                                                                                                                           |             |
|-------------|----------|----------------------------------------------------------------------------------------------------------------------|---------------------|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|

(b) how many cases of smuggling have been detected and dealt with and in what manner; and

(c) what precautions have been taken against its recurrence?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) and (b). Information is being collected and will be placed on the table of the House.

(c) So far as smuggling from sea ports is concerned, the Customs Department is taking preventive measures. As regards smuggling by land, Land Customs Stations have been established on all the important land routes between India and Pakistan and regular customs patrols are also operating between Land Customs Stations.

Apart from these preventive measures, distribution of cloth is now being done through licensed dealers and in accordance with provincial and district quotas. This limits the quantity of cloth which reaches the border areas and can be smuggled into Pakistan. The textiles and police organisations of the Governments of the border Provinces or States keep an eye on sales to and by licensed dealers. Certain provinces situated on the border have also promulgated Orders controlling the movement of cloth within the border areas of the provinces. Indian States bordering on Pakistan have also taken similar precautions.

**Shri Basanta Kumar Das:** Has the situation improved now in respect of Pakistan?

**The Honourable Dr. Syama Prasad Mookerjee:** Yes, Sir.

**Shri Deshbandhu Gupta:** Is it a fact that most of the cloth that was smuggled to Pakistan was the undeclared cloth of the mills in Bombay?

**The Honourable Dr. Syama Prasad Mookerjee:** It was done during the period when de-control was in operation and there was no question of declared or undeclared stocks.

**Shri R. K. Sidhva:** Were any steps taken by the Government during that period to prevent smuggling and may I know whether they have recovered any loss which the Government have sustained?

**The Honourable Dr. Syama Prasad Mookerjee:** The smugglers had already sent the cloth and the loss could not be recovered. Several arrests were made.

**Pandit Lakshmi Kanta Maitra:** Has Government tried to ascertain the quantity of cloth that was smuggled to Pakistan during the de-control period?

**The Honourable Dr. Syama Prasad Mookerjee:** That is what we are trying to do now.

**Shri Deshbandhu Gupta:** What is the approximate figure?

**The Honourable Dr. Syama Prasad Mookerjee:** As I said, we have called for information from the Finance Ministry and I shall lay it on the Table as soon as possible.

**Shri Deshbandhu Gupta:** Has any action been taken against any mill owner in Bombay who was responsible for the smuggling of this cloth?

**The Honourable Dr. Syama Prasad Mookerjee:** No millowners have been detected for smuggling as yet.

#### (b) WRITTEN ANSWERS

##### FACTORIES MANUFACTURING CEMENT SHEETS

\*964. **Dr. P. S. Deshmukh:** (a) Will the Honourable Minister of Industry and Supply be pleased to state how many factories there are in the Indian Union manufacturing cement sheets and what are the places of location of each?

(b) What has been the annual net production of each such factory for the years 1947-48 and 1948-49 in tons?

(c) How much of this stock was taken by (i) Central and (ii) Provincial Governments?

(d) How much of the stock was made available to (i) companies and firms and (ii) private persons?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) Three factories all of which belong to Messrs. Asbestos Cement Ltd. They are located at: (i) Mulund, (ii) Kynmore, and (iii) Calcutta.

(b) and (c). A statement is laid on the table of the House.

(d) According to an informal arrangement with the firm, 28½ per cent. of the production is intended for business firms and five per cent. for private persons.

#### STATEMENT

##### Annual net production figures

| Factory  | 1948-49<br>(January 1948 to<br>November 1948) |      | Figures for 1947-48<br>are not available |
|----------|-----------------------------------------------|------|------------------------------------------|

| Provincial Government | 82                                   | tons | 8,793                           | tons |

#### IMPORT AND DISTRIBUTION OF CHEMICAL MANURES

\*965. **Shri Biswanath Das:** Will the Honourable Minister of Agriculture be pleased to state:

(a) the prices at which sulphate of ammonia and phosphates for purpose of manure were purchased from Britain, the Union of Socialist Soviet Republic and the United States of America in the years, 1946-47, 1947-48 and 1948-49;

(b) whether it is a fact that the British firm of Imperial Chemicals were and still are Government's agents both for purposes of purchase of these manures from Britain and also for internal distribution of most of these sulphates and phosphates in India;

(c) whether it is a fact that the Standing Finance Committee in May, 1948 had decided with the full concurrence of the Departmental representatives that internal distribution of these should be fully in the hands of Indian distributors at least by the year 1950; and

(d) what steps have been taken in regard to the decision referred to in part (c) above in 1948 and 1949?

**The Honourable Shri Jairamdas Doulatram:** (a) A statement showing the quantities of Sulphate of Ammonia imported for manurial purpose and the prices at which it has been purchased from Britain, U.S.S.R. and U.S.A. during 1946-47, 1947-48 is placed on the table of the House. The statement also shows the quantity and the price of Ammonium Phosphate imported from

## RESTRICTIONS ON DESPATCH OF COTTON HOSIERY GOODS

\*966. **Shri B. N. Munavalli:** (a) Will the Honourable Minister of Communications be pleased to state why the despatch of cotton hosiery goods is not allowed when cotton yarn is allowed?

(b) What is the loss suffered by the postal department since the said prohibitory order?

(c) Have Government any intention of revising the order?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) In accordance with the Cotton Cloth and Yarn (Transmission by Post) Prohibition Order, 1946, as imposed by the Ministry of Industry and Supply, and amended up-to-date, the despatch by inland post of cotton hosiery is allowed from one place to another in the Indian Union but the despatch of cotton yarn is restricted to any two places within the same Province.

(b) Nil.

(c) The honourable member may address this question to the Honourable Minister of Industry and Supply.

## LIGNITE DEPOSITS IN SOUTH ARCOT DISTRICT, MADRAS

\*967. **Shri V. C. Kesava Rao:** Will the Honourable Minister of Industry and Supply be pleased to state whether it is a fact that large deposits of lignite have been discovered in the South Arcot district of the Madras Presidency and if so, what steps are being taken to develop these deposits?

**The Honourable Dr. Syama Prasad Mookerjee:** A large deposit of lignite extending over sixteen square miles with an average thickness of approximately twenty two feet, was located in the South Arcot District a few years ago. Since 1945, thirty-three boreholes have been sunk; and in 1946-47, when the mining of deposit was reaching "development stage", a mining engineer with necessary technical and other personnel was deputed from the Coal Commissioner's Organisation to examine the possibilities of exploiting the deposit. A statement is laid on the table showing the work so far done and the items proposed to be undertaken.

## STATEMENT

The work so far done by the staff deputed to investigate the possibilities of exploiting the deposit includes:

- (i) Sinking of two pits—one of 10 feet diameter to a depth of 180 feet and the other of 18 feet diameter to a depth of 30 feet; and
- (ii) Prospecting of an additional area of about 13 square miles which has been found to contain a very thick bed of lignite.

Further prospecting for delineating the boundaries of the deposit and for proving its quality, thickness, depths from the surface, etc., is now being carried out.

The items of work proposed to be undertaken are:

- (a) sinking of a pit in the additional area;
- (b) sinking of two pits near Uyyakondaravi where 75 feet lignite has been found at a depth of 325 feet from the surface;
- (c) boring operations to map the lignite deposits; and
- (d) deep drilling to prove the farthest extent of the lignite field South-eastward.

## MODIFICATIONS IN DAKOTA AIRPLANES AGAINST FIRE

\*968. **Shri H. V. Kamath:** Will the Honourable Minister of Communications be pleased to state:

(a) what modifications have been recently introduced and made mandatory on Dakota aeroplanes by the United States of America Civil Aeronautics Administration and the United Kingdom Air Registration Board with a view to ensuring safety against fire;

(b) whether such modifications have been introduced on the Dakotas in India; and

(c) if not, why not?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) I lay on the table a statement giving the required information.

(b) The modifications which are considered necessary are being enforced.

(c) There has been delay in carrying out modifications on account of the non-availability of a number of component parts, but every attempt is being made to procure them.

## STATEMENT

The following are the mandatory modifications recently introduced on the Dakotas by the Civil Aeronautics Administration of the United States of America and the Air Registration Board of the United Kingdom with a view to ensure safety against fire:

## I. United States of America:

- (1) Installation of fire detectors in the engine accessory section.
- (2) Rear baggage compartment, access door and vent (where applicable).
- (3) Elimination of all holes in fire wall, addition of control cable seals, replacement of dural plates and fittings with steel plates and fittings.
- (4) Replacement of fluid carrying lines, forward of fire wall with a steel or fire resistance flexible hoses.
- (5) Installation of shut-off valves on lines carrying combustible fluids into the engine accessory section.
- (6) Use of fire-resisting materials in the cabin where smoking is permitted.

## II. United Kingdom:

- (1) Installation of fire warning lights. (Nos. 1 and 2 of the U.S.A. requirements.)
- (2) Inertia switch operation of the fire extinguishing system in addition to manual operation. (This is additional to the U.S.A. requirements.)
- (3) Introduction of flame-proof hoses in engine bay. (No. 4 of the U.S.A. requirements.)
- (4) Fireproofing of firewall. (No. 3 of U.S.A. requirements.)

## ORGANISATIONS FOR RESEARCH ON CROPS

\*969. **Ch. Ranbir Singh:** Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that there are separate central organisations responsible for research on paddy, cotton, sugarcane, oilseeds, jute, tobacco, coconut, potato and lac?

**The Honourable Shri Jairamdas Doulatram:** Yes.

## EXPANSION OF INDIAN AGRICULTURAL RESEARCH INSTITUTE

\*970. **Ch. Ranbir Singh:** (a) Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that the Indian Agricultural Research Institute has been considerably expanded during the period from 1940 to 1949 and further extension is under contemplation at a cost of nearly a crore of rupees?

(b) Is it a fact that under the expansion plans, the salaries of most of the superior staff have been doubled in comparison to what they were drawing before?

(c) Is it also a fact that an Englishman is being brought from the United Kingdom as the Head of a division in the institute?

**The Honourable Shri Jairamdas Doulatram:** (a) There has been some expansion since 1946.

A five-year post-war expansion scheme was accepted in principle, involving an expenditure of nearly Rs. 1 crore in 1948-49. But this has been postponed owing to financial stringency.

(b) No. The salaries of the entire staff have been refixed under the Central Services Revision of Pay Rules, 1947.

(c) Yes. There is a proposal under consideration to appoint for a period of two years an Englishman who is a distinguished scientist and a specialist as Head of Division of Entomology, to initiate new lines of research in the subject.

#### OFFICER STRENGTH IN AGRICULTURAL DIVISION OF INDIAN AGRICULTURAL RESEARCH INSTITUTE

**\*971. Ch. Ranbir Singh:** Will the Honourable Minister of Agriculture be pleased to state the officer strength in the Agricultural Division of the Indian Agricultural Research Institute and how many are graduates in Agriculture?

**The Honourable Shri Jairamdas Doulatram:** The Agriculture Division (now called the Division of Agronomy) has on its officer strength, one Head of Division, three Class I and ten Class II Officers.

Of them one in Class I and six in Class II are graduates in Agriculture, some of them possessing higher qualifications.

The others are graduates in sciences basic to Agriculture like Soil Chemistry (Agronomical), Botany, Animal Husbandry, and Statistics.

#### IMPROVEMENT OF CATTLE BREED

**\*972. Ch. Ranbir Singh:** (a) Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that the Agricultural Division of the Indian Agricultural Research Institute has an old herd of milch cows and that no new breeds have been introduced in this country?

(b) Is it also a fact that the central dairy institute at Bangalore or the Indian Animal Husbandry and Veterinary Institute at Izzatnagar are also working for the improvement of cattle stock?

(c) If so, what steps do Government propose to take to co-ordinate these institutions?

**The Honourable Shri Jairamdas Doulatram:** (a) The experimental work of the Agriculture Division which is now called the Agronomy Division, is concerned with developing high yielding strains of Sahiwal and Tharparkar breeds of cattle by scientific breeding and adoption of improved methods of cattle husbandry. The Sahiwal herd is maintained at Pusa (New Delhi) and the Tharparkar at Karnal. Considerable improvements have been effected in the milk yield of both the herds. India possesses a number of good breeds of its own and it is consequently not considered essential to introduce any new breeds from other countries.

(b) Yes. But the breeds developed in each are different. The Tharparkar and Sahiwal in the first, the Sindi, Gir, and the Murrah buffalo in the second, and the Hariana and Kumauni hill type in the third.

(c) The work of these institutes is complementary to one another and the technical programmes and the annual progress reports of all the three are co-ordinated by the Scientific Committees of the Indian Council of Agricultural Research.

#### AGREEMENTS BETWEEN RAILWAY ADMINISTRATION AND CONTRACTORS

**\*973. Master Nand Lal:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the Central Advisory Council for

Railways in its meeting held on the 14th April 1945 on subject No. 3—“Catering Policy” considered and agreed on certain general principles?

(b) Is it a fact that under instructions from the Government the following contracts and vending licenses on the Eastern Punjab Railway are terminated:

(i) contract for bookstalls held by M. Gulab Singh and Sons;

(ii) licenses of vending at Meerut City, Meerut Cantonment and Ambala Cantonment held by Messrs. Daulat Ram and Company?

(c) If so, what are the reasons therefor?

(d) Is it a fact that in the agreements made between the Railway Administration and the Contractors there still exists a clause contrary to the said policy?

(e) If so, what are the reasons for not mending this term in the agreement according to that policy?

(f) Do Government now propose to cancel the orders of terminating those contracts and licences and amend the term of the agreement?

(g) If not, what are the reasons therefor?

**The Honourable Shri K. Santhanam:** (a) Yes.

(b) and (c). (i) So far as the contract for bookstalls held by Messrs. Gulab Singh and Sons is concerned, the Chief Administrative Officer served notice terminating the contract as from 31st December, 1948, in terms of the agreement entered into, because of the contractors' unsatisfactory work. The contractors have however obtained an injunction from the Court and the matter is now *sub-judice*.

(ii) The vending licences at Meerut City, Meerut Cantt., and Ambala Cantt., held by Messrs. Daulat Ram and Company were terminated at one month's notice in terms of the agreement by the E. P. Railway Administration after complaints of infringement of the terms of the licences, had been investigated departmentally.

(d) It is not a fact.

(e) Does not arise.

(f) No.

(g) Because the action taken is in public interests.

#### ENQUIRY AGAINST SUB-LETTING OF VENDING LICENCES AT GHAZIABAD, MEERUT CITY AND MEERUT CANTONMENT

**\*974. Master Nand Lal:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the East Punjab Railway Administration on the instructions from the Minister of State conducted enquiries on the complaints against the sub-letting of licences for vending, at Ghaziabad, Meerut City and Meerut Cantonment in November and December 1948?

(b) Will Government state the orders passed thereon?

**The Honourable Shri K. Santhanam:** (a) Certain complaints relating to the alleged sub-letting of vending contracts at Ghaziabad, Meerut City and Meerut Cantonment, were referred by the Railway Board to the Chief Administrative Officer of the E. P. Railway for investigation.

(b) As the complaint against the contractor at Ghaziabad could not be substantiated, no action was taken. The contracts at Meerut City and Meerut Cantonment were, however, terminated with a month's notice as it was considered that the truth of the complaints had been established.

## ALLOWANCES TO RUNNING STAFF

\*975. **Shri B. P. Jhunjhunwala:** (a) Will the Honourable Minister of Railways be pleased to state whether there is any distinction in giving allowances to Running Staff between one class of Railway servants and another and if so, why?

(b) Are the Travelling Ticket Checkers classed as Running Staff and if not, why not?

(c) Are there different standards of allowances given to Travelling Ticket Checkers in different Railways and if so, why?

(d) Is it under the consideration of Government to give the same allowance to all Running Staff and to include Travelling Ticket Checkers in the class of Running staff?

**The Honourable Shri K. Santhanam:** (a) The answer is in the affirmative; this difference is due to difference in the nature of the duties and responsibilities of the various categories of running staff.

(b) No; only staff incharge of moving trains are classed as Running staff.

(c) and (d). The rates of travelling allowance paid to Travelling Ticket Checkers on the various railways are not uniform at present as on some Railways these rates were fixed under Company Managements in accordance with their own procedure. The introduction of an uniform procedure is under the consideration of the Board. It has already been stated that Travelling Ticket Checkers are not Running staff.

## EXTRA CHARGE FOR EMBOSSED ENVELOPES

\*976. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Communications be pleased to state whether it is a fact that the Standing Committee for the Ministry of Communications at its meeting held on the 2nd February, 1949 accepted the proposal of the Ministry to levy an extra charge for embossed envelopes?

(b) If so, what will be the extra charge and on envelopes of what denominations will this be levied?

**The Honourable Mr. Rafi Ahmad Kidwai:** (a) Yes.

(b) The Standing Advisory Committee having approved of the principle, actual details are now being worked out and till that has been done, it is not possible to give the information asked for.

## CATERING CONTRACT TO MESSRS. BALLAVDAS ESWARDAS ON B. N. RAILWAY

\*977. **Shri Satis Chandra Samanta:** (a) Will the Honourable Minister of Railways be pleased to state whether it is a fact that the Deputy General Manager (Food), Bengal Nagpur Railway, entered into a contract with Messrs. Ballavdas Eswardas and others for a period of three years for catering at certain stations prior to 21st February, 1949, the last date for receiving applications for the appointment of contractors?

(b) Are Government aware that Messrs. Ballavdas Eswardas and others sublet stations at exorbitant rates to persons who call themselves managers of those contractors and keep duplicate records of accounts in their names?

**The Honourable Shri K. Santhanam:** (a) No new contracts have been entered into but an offer was made to Messrs. Ballavdas Eswardas and other existing contractors prior to 21st February, 1949, for the renewal of leases at certain large stations on the Bengal Nagpur Railway, for a period of one year. This offer is now being reviewed in consequence of a recent decision taken by

the Railway Board, after consultation with the Central Advisory Council for Railways, that as far as possible refreshment rooms and stalls at small stations should be entrusted to local professional men and that contracts for dining cars and large stations should be left to hoteliers or catering firms of repute.

(b) Government have seen allegations that contracts are sublet by vending contractors. The revised policy is intended to prevent subletting.

## REQUIREMENTS AND PRODUCTION OF FOODGRAINS

\*978. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Agriculture be pleased to state whether there were any areas in the provinces, the Centrally Administered areas and the Indian States which did not report about the production of principal foodgrains there?

(b) If so, what was the estimated produce of principal foodgrains in such areas in the year 1947-48?

(c) What was the total crop of "small millets" in the provinces, the Centrally Administered areas and the Indian States in the year 1947-48?

(d) What is the exact requirement of the provinces, the Centrally Administered areas and the Indian States in regard to foodgrains?

(e) What is their population?

(f) What was the requirement per adult unit per day in the year 1947-48?

(g) What proportion of the imported foodgrains is consumed by (i) Indian States; (ii) provinces; and (iii) Centrally Administered areas?

**The Honourable Shri Jairamdas Doulatram:** (a) A certain number of States did not report about the production of principal foodgrains in their areas.

(b) The estimate of gross production of principal foodgrains for the 'totally non-reporting' and 'partially non-reporting' areas is taken as 3.4 million tons.

(c) The estimate of gross production of 'small millets' for the Indian Union is taken as 1.6 million tons.

(d) The estimated requirements for 1948 are 32.3, 0.3 and 12.6 million tons respectively. The corresponding figures for 1949 are 32.5, 0.3 and 12.7 million tons.

(e) The estimated population for 1948 is 248.3, 2.0 and 96.7 millions respectively. Corresponding figures for 1949 are 251.1, 2.0 and 97.9 millions. The adult equivalent is taken at 86 per cent.

(f) Requirements are usually calculated on the basis of 1 lb. per adult per day for the farm population and 12 ozs. per adult per day for non-farm population.

(g) The proportion in 1947-48 was

(i) Provinces—57 per cent.

(ii) Centrally Administered Areas—5 per cent.

(iii) Indian States—27 per cent.

(iv) Miscellaneous—11 per cent.

The corresponding figures for 1948-49 are 50 per cent., 5 per cent., 29 per cent. and 16 per cent.

## AGMARKING AND STANDARDISATION OF INDIAN WOOL

\*979. **Shri Damodar Swarup Seth:** (a) Will the Honourable Minister of Agriculture be pleased to state for how long the question of Agmarking and standardising various qualities of Indian wool has been under consideration of the Indian Council of Agricultural Research?

## CONTRACTOR FOR TONGA STANDS AT DELHI MAIN STATION

\*983. **Shri Damodar Swarup Seth:** Will the Honourable Minister of Railways be pleased to state:

(a) whether the Railway authorities have appointed any contractor for the tonga stands at the Delhi main Station;

(b) whether Government are aware that a fee of annas four per tonga is being charged by a self-appointed contractor from each tonga driver before he is permitted to take passengers; and

(c) whether Government propose to compel the tonga drivers permitted to stand at the Railway sheds to display prominently the rates prescribed for different localities in Delhi?

**The Honourable Shri K. Santhanam:** (a) No contractor has been appointed by the railway authorities for the tonga stands at Delhi Main station.

(b) The Government are not aware of any such arrangement.

(c) Tongas ply under the regulations of the Delhi Municipality and tonga drivers are required to exhibit authorised rates on the tongas. Municipal regulations are enforced by a Municipal Jamadar posted at Delhi Main station.

## BOTANICAL SURVEY OF INDIA

\*984. **Dr. Raghu Vira:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether there has been any botanical survey of any parts of India within the last ten years;

(b) if so, whether any additional food-plants for human beings and cattle have been discovered; and

(c) if so, what their potentialities are?

**The Honourable Shri Jairamdas Doulatram:** (a) No.

(b) and (c). Do not arise.

## SUPPLY OF HARD COKE TO MANUFACTURERS OF BRASS INGOTS

\*985. **Dr. Raghu Vira:** Will the Honourable Minister of Industry and Supply be pleased to state:

(a) the number of concerns carrying on the industry of manufacturing brass ingots for circles and sheets in the East Punjab and the United Provinces;

(b) whether hard-coke quotas allotted to such concerns are in accordance with the quantities of their supplies of brass circles and sheets to different parts of India; and

(c) if this be not the case in any of the abovementioned provinces, whether Government propose to take any action in the matter as far as their hard-coke supplies by the centre are concerned?

**The Honourable Dr. Syama Prasad Mookerjee:** (a) One in East Punjab and three in U.P.

(b) and (c). Government of India have no information as allotment of hard coke is done by Provincial Governments. The Central Government however in some special cases allot additional quantities to the Provincial Governments concerned for allocation to the firms whose normal requirements could not be met by the Provincial Governments.

## REMOVAL OF TWO OFFICERS OF DIRECTORATE OF FOODGRAINS MOVEMENT FROM HEADQUARTERS

\*986. **Shri Satish Chandra:** (a) Will the Honourable Minister of Food be pleased to state whether it is a fact that two officers of the Directorate of Foodgrains Movement were removed from headquarters at Delhi a few months ago on account of certain complaints against them?

(b) What are the designations of those Officers and the nature of complaints against each of them?

(c) Have the complaints been investigated so far, and if so, what is the result?

(d) Were they suspended or transferred to some other place pending investigation?

(e) Where are they working now and in what capacity?

**The Honourable Shri Jairamdas Doulatram:** (a) and (d). One officer was sent outside Delhi, while another went on leave.

(b) One is a Chief Director and the other a Deputy Director of Movement. As the complaints are still under investigation it is not desirable to disclose the nature of the complaints.

(c) The investigation has not been completed.

(e) One of the officers has been reverted to his parent office on the expiry of his leave and the other is still attached to the Food Ministry.

UNSTARRED QUESTIONS AND ANSWERS  
PRODUCTION OF IMPROVED SEEDS

75. **Shri Satis Chandra Samanta:** (a) Will the Honourable Minister of Agriculture be pleased to state what is Dr. Burn's estimate of percentage increase of production by (i) manure and fertilisers; and (ii) by seeds?

(b) What are the quantities of improved seeds proposed to be produced in the next three financial years—year by year?

(c) How will they be raised and distributed?

(d) What is the estimated cost which will have to be incurred by Government in this regard?

(e) What is the estimated increase in yield per acre expected by the use of improved seeds (cereal by cereal)?

(f) What are the improved varieties of seeds which Government propose to raise—province by province, and crop by crop?

**The Honourable Shri Jairamdas Doulatram:** (a) (i) Twenty to forty per cent. by use of manure and fertilisers, and (ii) five to ten per cent. by the use of improved seeds.

(b) The programmes of the Provincial Governments hitherto received show that the following quantities of improved seeds for all foodgrains will be produced during 1949-50 to 1951-52:

|         |                 |
|---------|-----------------|
| 1949-50 | 128 lakh maunds |
| 1950-51 | 118 lakh maunds |
| 1951-52 | 127 lakh maunds |

According to the present plans the Provinces of Madras, Bombay, and Orissa will be able to cover by 1951-52, the following percentages of the total areas under the foodgrains mentioned below with improved seeds:

|       | Madras | Bombay | Orissa |
|-------|--------|--------|--------|
| Paddy | 42%    | 44%    | ..     |
| Maize | 30.6%  | ..     | ..     |
| Bajra | 55.6%  | ..     | ..     |
| Ragi  | ..     | 75%    | ..     |
| Gram  | ..     | ..     | ..     |

(b) How many conferences have been held in this connection and with what result?

(c) Is introduction of standardisation expected at an early date?

**The Honourable Shri Jairamdas Doulatram:** (a) Since October, 1945.

(b) Two. The trade interests are generally opposed to the introduction of Agmarking and standardisation.

(c) In view of persistent opposition of trade to compulsory standardisation, attempts were made to persuade trade to adopt grading for internal trade and export purposes on a voluntary basis. But as the response was not encouraging, a proposal to regulate the quality of wool for export under the Sea Customs Act is now being considered.

#### SALE OF GRADED WOOL IN U.S.A.

**\*980. Shri Damoder Swarup Seth:** Will the Honourable Minister of Agriculture be pleased to state:

(a) since how long Messrs. Kamani Brothers Limited, Kamani Chambers, Nicol Road, Ballard Estate, Bombay have been trading in Wool,

(b) whether it is a fact that the Agricultural Marketing Adviser in his letter No. F.13/88/44-G, dated 20th November, 1948 to the President, Institute of Carpet Manufacturers of America, mentioned Messrs. Kamani Brothers, Limited, Kamani Chambers, Nicol Road, Ballard Estate, Bombay as having made a request to him to assist the shippers in the sale of 200 bales of graded wool in the United States of America;

(c) whether Government are aware that the said firm of Messrs. Kamani Brothers Limited had never traded in wool before and are in fact dealers in metal; and

(d) whether Government propose to make an investigation into the matter?

**The Honourable Shri Jairamdas Doulatram:** (a) Messrs. Kamani Brothers Limited are new comers to trading in wool.

(b) Yes. A copy of the letter referred to in the question is placed on the table. This was the only firm which had agreed to export wool according to standard specifications as desired by the Institute. In the interest of India's export trade in wool, similar assistance would be given to any firm which agreed to export according to standard specifications.

(c) Yes. New comers have not been banned from entering any trade.

(d) Government have examined this matter and find that the wool trade which has consistently opposed compulsory regulation of standard specifications for wool for export to foreign countries have not appreciated the action of any firm agreeing to export wool according to standard specifications.

*Copy of letter No. F. 13/88/44-G., dated the 20th November, 1948 from the Directorate of Marketing and Inspection, Government of India, New Delhi to the President, Institute of Carpet Manufacturers of America, Inc. Empire State Building, New York (U.S.A.)*

I have the honour to recall the interview I had with you (President Mr. Merrill A. Watson) in New York on the 25th June, 1947, on the subject of the development of Carpet wool trade between India and the United States of America. As advised by you, I interviewed on the same day Mr. F. A. Hayes and Mr. D. C. Hibley of Bigelow-Sanford Carpet Co., Inc., (140 Madison Avenue, N. Y.). Subsequently, on the 27th June, 1947, I had a long discussion with Mr. Frederick Klein, President, Mr. W. C. Ewing, Vice-President and Mr. G. A. Tully of Alexander Smith and Sons, Carpet Company (Lake Avenue, Yonkers, N. Y.).

2. These discussions clearly brought forward the point that shipments of wool from India to the U.S.A. were of uncertain and indifferent qualities and, as such, the trade and the manufacturers in the U.S.A. would greatly appreciate any step which India might take to regulate the quality of her export of wool. Since after my return home, I have been paying

special attention to this question and, in consultation with those who are in the know of the trade, I have been able to prepare tentative grade specifications for wool exported out of India. I am enclosing herewith a copy of those specifications for such comments as your Institute may be kind enough to offer. I am also persuading the shippers in this country to export wool in accordance with those specifications and a request has just been received by me from a leading business concern from Bombay (Messrs. Kamani Brothers, Ltd., Kamani Chambers, Nicol Road, Ballard Estate, Bombay, India) to assist them in the sale of 200 bales of graded wool in the U.S.A. As far as is known to me, this business concern is a large and dependable organisation and I have reasons to believe that they would export wool in accordance with the proposed standard specifications.

Any assistance your Institute might give to this business concern from Bombay in selling wool in the United States of America on the basis of standard grades, would be highly appreciated. I am advising the firm to approach you for such advice and assistance which it may be possible for your Institute to render.

#### AGRICULTURAL MARKETING ADVISER'S VISIT TO U.S.A. IN CONNECTION WITH INDIAN WOOL TRADE

**\*981. Shri Damoder Swarup Seth:** Will the Honourable Minister of Agriculture be pleased to state:

(a) whether it is a fact that the Agricultural Marketing Adviser to the Government of India visited the United States of America last year and contacted carpet manufacturers of that country interested in Indian wool; and

(b) if the answer to part (a) above be in the affirmative, the nature of talk he had in the United States of America and the use to which the knowledge he gained there was put to?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes. In June 1947.

(b) He discussed with the Institute of Carpet Manufacturers, America (Inc.), New York, the question of carpet wool trade between India and U.S.A. and the type and quality of Indian wool used by American manufacturers. He was advised by the Institute that the manufacturers in America would greatly appreciate if India could export her wool exactly in accordance with standard specifications. This information was made known to the wool trade in India and the Agricultural Marketing Adviser advised exporters to export their wool in accordance with Agmark standards.

#### SHIFTING OF RAILWAY CLEARING ACCOUNTS OFFICE FROM DELHI

**\*982. Shri Damoder Swarup Seth:** Will the Honourable Minister of Railways be pleased to state:

(a) the action proposed to be taken on para. 169 of Chapter XVI of the Railway Enquiry Committee Report in regard to the working of the Railway Clearing Accounts Office;

(b) whether Government have received any representation from the Association of the Clerks of the Office that the office should not be shifted from Delhi;

(c) whether it is a fact that a majority of the staff of the Railway Clearing Accounts Office belong to Punjab, Delhi and the United Provinces; and

(d) whether Government would ascertain the wishes of the staff for the choice of the station in case it is proposed to shift the office?

**The Honourable Shri N. Gopalaswami Ayyangar:** (a) Government have not reached any decision on the recommendation of the Indian Railway Enquiry Committee.

(b) Yes.

(c) Yes.

(d) In case it is decided to move the office elsewhere, the convenience of the staff will certainly be a consideration in selecting the site.

The Government are reconsidering the proposals of other Provinces with a view to step up production.

(c) The practice is that nucleus seeds are first multiplied at Government Farms. Seeds thus raised are given to 'A' class growers for further multiplication. All these are recovered and are given to a large number of 'B' class growers and the seeds recovered from the latter are distributed to cultivators.

(d) The total expenditure likely to be incurred by various Governments during the 3 years from 1949-50 to 1951-1952 is estimated at Rs. 373 lakhs except for Assam for which figures are not available.

(e) and (f). Two statements are laid on the table.

## STATEMENT I.

*Estimated percentage of increase in production by use of improved seeds.*

|        |        |
|--------|--------|
| Paddy  | 10-20% |
| Wheat  | 10-20% |
| Gram   | 8-10%  |
| Bajra  | 5-10%  |
| Jowar  | 8-10%  |
| Barley | 10%    |
| Maize  | 10%    |
| Cholam | 10-15% |
| Ragi   | 10-15% |
| Tenai  | 10-15% |
| Nagli. | 10-15% |

## STATEMENT II.

*Varieties of improved seeds to be raised by Provincial Governments.*

## (1) MADRAS—

## (i) Paddy.—

## (a) Coimbatore Strains—

GEB. 24, Co. 1, 2, 3, 5, 7, 8, 9, 10, 11, 12, 13, 14, 15, 18, 19, and 20. T. 72 (Patnai Kasipichodi).

## (b) Maruteru Strains—

MTV. 1, 3, 4, 5, 6, 7, 8, 9, 11, 12, 13, 14, 15, 16, 17, 18 and 19 S. R. 26 B.

## (c) Aduturai Strains—

ADT. 1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 12, 14, 16, 17, 19, 20, 21, 22.

## (d) Palur Strains—

PLR. 1, 2, 7.

## (e) Patambi Strains—

PTB. 1, 2, 4, 5, 7, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, and 20.

## (f) Berhampore Strains—

BAM. 1, 3, 6, 7 and 9.

## (g) Anakapalle—

MYAPLI 7 and 30, Navakoti Saunam 3 and 4, Bangaruteega 9 and 155, Gunpur sannam 47, Maharajabhogam 4, Simkussannam 5, Bobbilizanti 1.

## (h) Samalkota Strains—

SLO. 1, 4, 5, 11, 12, 13, 14, 15, 16, 17 and 18.

## (i) Buchireddipalem Strains—

Melagulakaluculture 2202; 2552 and 2555; Pishanam culture 1283.

## (j) Ambasammudram Strains—

ASD 1, 2, 3, 4, and 5.

## (ii) Ragi.—

E. C. 3755; E. C. 593 No. 525 and R. 42.

## (iii) Cholam.—

As. 29, 389, 2095 and 3313

M. 47-3 (Bold grain and draught resistant) N.S. 1

M. K. 132 and 140.

## (iv) Cumbu (Bajra).—

KC. 8

P. T. 700, 367 and 2229.

## (2) BIHAR—

## (i) Paddy.—BK. 115, BK. 36, BK. 16,

BK. 88, BK. 141, IP. 24,

IP. 31, BK. 498-2A.

## (ii) Wheat.—Kolba Wheat—IP. 52.

## (3) C. P. AND BERAR—

## (i) Paddy—

Early—R. 2. Nungi.

R. 3 Sultu Gurmatia.

Medium.—R. 4. Surmatia.

R. 5. Ludko.

X 116 (Bhonda × Parowa).

X 22 (Ditto)

Late

X 19 (Budhiabako × Parowa)

R 6 Budhiabako.

R 7 Ajan.

R 8 Bonisar.

R 8 Luchai.

Gurmatia.

## (ii) Fine seeded varieties.

Medium—R 10 Chhatttri.

R 11 Dubraj.

R 12 Banspatri.

Late—R 13 Kubrimohar.

R 14 Badshahbhog.

Very late—R. 15 Chinoor.

Purple-leaved Hybrids for eradicating wild rice (Karga).

Early X (Nagkesar × No. 17).

Medium—X 2 (Nagkesar × Bhundu).

Late—X 55 (Nagkesar × Luchai.)

Wheat.—

I. P. 52, A 090, A 115 and Pusa 101.

## (4) ORISSA—

Paddy, improved varieties of Wheat, Maize and Gram.

## (5) UNITED PROVINCES—Improved varieties of Wheat, Paddy, Grams, Millets and Pulses.

## (6) EAST PUNJAB—

(i) Wheat : C. 227, 228, 250, 253, 517, 518 and 591.

(ii) Gram Punjab.

Type 7 . . . Gram C. 13, 24,

C. 12, 24.

- (a) Gram Punjab—  
Type I.  
(b) Gram A 1/3.  
(iii) Bajra—A. 1/5.  
A. 1/3.  
(iv) Barley Type. 6  
Barley Type. 4  
(v) Rice—349 Jhona ; 370 Basmati.  
100, Ramajawan, 72 Phulpatti.  
41 Lalnakanda, Muslikan.  
(vi) Sugarcane Col. 9.  
(vii) Maize—Hybrid.  
(viii) Guara No. 2.  
(ix) Jowar No. 21.  
(x) Toria Selection A.  
(xi) Rya L. 18.  
(xii) Oats F.O.S. 1/29 Algerian.  
(xiii) American Cotton L.S.S.  
(xiv) Potato Kangra Local.
- (7) BOMBAY—  
(i) Paddy.—A-67, A-90, A-200, M-161, M-81, M-249, M-141, D-6-22, K-540, K-226, K-42, Z-31, Z-149, I.B. 12-11, Patni-6, Pawel-61, Waksal 207, Padas 79, Varangal 487, Ambemohar 157 and 159.  
(ii) Bajri—  
Nadiad 207.  
Akola.  
(iii) Maize—Sumeri.  
(iv) Nagli—B-11, E-31 and A-16.  
M-33 I  
(v) Jowar—B-8  
(vi) Wheat—Gulab, Motia, Jaya, Vijaya and N. 4.  
(vi) Gram—Chaffa.

#### MIXING OF SESAMUM OIL WITH VANASPATI

**76. Pandit Thakur Das Bhargava:** (a) Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that his Ministry have decided that 5 per cent. sesamum oil is to be mixed with vanaspati before its being sold?

(b) If so, do Government propose to lay a copy of the order on the table of the House?

(c) What arrangements are there to see that this rule is observed?

(d) Have any factories been prosecuted for not observing this and, if so, how many and which factories?

**The Honourable Shri Jairamdas Doulatram:** (a) Yes. Sesame or *til* oil is to be mixed at the factory stage i.e. before it is sold. (The underlying idea is that the presence of vanaspati so mixed can be detected by a simple chemical test if it is used for adulteration with ghee by the mixing trade. The measure is known as Latent Colourisation.)

(b) A copy of the order is laid on the table of the House.

(c) The provision has been brought to the notice of the Provincial and State Governments and through them to the notice of the Local Bodies who are

responsible for administering the Pure Food Laws. They as well as the Inspectors appointed by the Vanaspati Manufacturing Association occasionally draw test samples from the factories as well as from the markets.

As a further safeguard it is now proposed to appoint two Inspectors on the staff of the Vegetable Oil Products Controller for the purpose of taking check samples in order to test that Vanaspati is being manufactured according to specifications laid down in the Control Order.

(d) No case of violation of the order by the factories has come to the notice of Government so far.

#### GOVERNMENT OF INDIA DEPARTMENT OF FOOD NOTIFICATION

New Delhi, the 31st January, 1947

No. 5-VP(1)/47.—In exercise of the powers conferred by sub-clause (1) of clause 4 of the Vegetable Oil Products Control Order, 1946, as continued in force by sub-section (2) of section 17 of the Essential Supplies (Temporary Powers) Act, 1946 (XXIV of 1946), and in supersession of the notification of the Government of India in the Department of Food, No. 5-VP(1)/45, dated the 28th July, 1945, the Vegetable Oil Products Controller for India hereby prohibits the manufacture, stock or sale of any vegetable oil products, which does not conform to the following particulars, namely :

- (1) It shall not contain any harmful colouring, flavouring or any other matter deleterious to health.
- (2) It shall not have moisture exceeding 0.25 per cent.
- (3) The melting point as estimated by the capillary slip method (as described in Note 1 below) shall be from 31°C to 37°C both inclusive with a tolerance of 2°C on either side.
- (4) The Butyro Refractometer reading at 40°C shall not be less than 43.0.
- (5) It shall not have unsaponifiable matter exceeding 1.5 per cent.
- (6) It shall not have free fatty acids (calculated as oleic acid) exceeding 0.25 per cent.
- (7) Diacetyl, if present, shall not be in excess of six parts per million.
- (8) The product on melting shall be clear in appearance. Its taste shall be free from staleness or rancidity.
- (9) On and after the 1st March, 1947, it shall contain refined or refined hydrogenated sesame (til) oil not less than 5 per cent. by weight so that when the vegetable Oil Product is mixed with refined groundnut oil in the proportion of 20:80, the red colour produced by the Baudouin test (as described in Note II below) shall not be lighter than 2.0 units in a 1 cm. cell of a Lovibond scale.

NOTE I.—The 'Capillary Slip Method' is as follows :

- (i) Thin walled glass tube open at both ends with an external diameter of 1.2 to 1.5 m.m. and internal diameter of 0.83 to 1.1 m.m. and length 5 to 6 cms. should be used after proper cleaning and drying.
- (ii) The sample of fat should be completely melted and well mixed at a temperature of about 50°C. Insert the capillary tube so that a column of fat about one cm. long is forced into it. Allow the fat in the tube to just set by keeping the tube in a horizontal position during winter, and during summer the tube may be put on a perforated metal tray which is so placed inside a small water bath containing water at 15°C.—17°C. that the bottom of the tray just touches the water.
- (iii) The tube is then placed in a test-tube immersed in water at 15°C.—17°C. for one hour.
- (iv) Suspend a thermometer (reading in 1/5th of a degree) in the centre of a beaker of water 10°C. (the beaker is to be provided with a side tube heating arrangement) so that the lower end of the fat column is 3 cms. below the surface of

1374

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [8TH MARCH 1949]

water. Heat the side tube of the apparatus gently, so that the temperature of water increases slowly at the rate of 2°C. per minute till the temperature reaches 25°C. and thereafter at the rate of 1/2 a degree per minute.

- (v) Note the temperature of water when the fat commences to rise in the tube. This temperature is recorded as the melting point.

The thermometer used in this test should be checked against a standard thermometer calibrated and certified by the National Physics Laboratory, Teddington, England.

NOTE II.—The Baudouin test shall be carried out as follows:—

Place in a test-tube 5 c.c. of the sample (20 parts of Vegetable Oil Products and 80 parts of refined groundnut oil) and 5 c.c. of Hydrochloric Acid (Specific Gravity 1.19) and add to it 8 drops of 2 per cent. solution in alcohol of freshly distilled furfural; shake vigorously for 2 minutes and allow to stand. The acid layer becomes distinctly red. Quickly filter the acid layer through a wet filter paper and examine the filtrate against a Lovibond scale in a 1 c.m. cell or against a red colour comparator.

If the Vegetable oil products on being shaken with hydrochloric acid alone, conveys a redness to the hydrochloric acid owing to the presence of certain artificial colouring agents, the procedure is as follows:—

Shake 10 c.c.s. of the melted vegetable oil products in a separating funnel for half a minute with 10 c.c.s. of hydrochloric acid, specific gravity 1.125. Draw off the red acid layer which collects at the bottom of the funnel and repeat the process until no further colouration takes place. During the treatment do not permit the temperature of the contents of the separating funnel to exceed that necessary to melt the fat. After the hydrochloric acid has been completely removed apply the Baudouin test as described above.

N. T. MONE,

*Vegetable Oil Products Controller for India.*

*Copy of letter No. 5-VP(2)/47, dated the 24th June, 1947 from the Office of the Vegetable Oil Products Controller for India, New Delhi to All Provincial Governments and Minor Administrations.*

The use of the term 'Vegetable Ghee' describing vegetable oil products which are also called 'Vegetable Products' or 'Vanaspati' has come into common use. Vanaspati is not ghee but refined hydrogenated Oil though it bears physical resemblance to ghee and the industry itself does not look with favour upon the association of the word 'Ghee' with 'Vanaspati', as it gives the impression that Vanaspati is counterfeit ghee and thus detracts from its value in the eyes of the public. It is therefore suggested that the use of the appellation 'Vegetable Ghee' should be discontinued and the article should be called 'Vegetable Product' or 'Vegetable Oil Product' or simply 'Vanaspati'.

2. Due to its resemblance with ghee, Vanaspati lends itself easily to adulteration with genuine ghee and thus affects adversely the ghee as well as the Vanaspati Industry. In order to minimise adulteration and to make Vanaspati clearly distinguishable from ghee, the Government of India have for the last three years taken wide powers to control Vanaspati on an all India basis. It is necessary, under the Vegetable Oil Products Control Order, 1946, to manufacture Vanaspati only to certain approved specifications (copy enclosed for ready reference). It is also incumbent on the industry to mark and identify Vanaspati container in such a manner that the consumer is left in no doubt as to what the container contains. It is further made an offence for the stockists of Vanaspati to stock or sell pure ghee on the same premises. Last but not the least, it has been made obligatory on all Vanaspati manufacturers to incorporate such percentage of Sesame Oil in Vanaspati as may render practicable the detection of ghee adulterated with Vanaspati up to 10 per cent. It does not generally pay the mixing trade to adulterate ghee with lesser quantities of Vanaspati and it is, therefore, not absolutely necessary to safeguard adulteration below 10 per cent. This measure follows the procedure adopted in foreign countries where margarine, which can be mixed with butter, is produced. Sesame Oil when incorporated in Vanaspati acts as a latent colouriser and with its addition adulteration can be detected by a simple chemical test. The test is described in the Notification itself prescribing the compulsory addition of Sesame Oil. For the layman who may not be able to undertake the prescribed chemical test the following alternative test will serve the purpose:

'Dissolve a pinch of Cane-Sugar in about half an ounce of concentrated hydro-chloric acid (Specific gravity 1.20) in a test tube. Add to it 1/2—1 tola of the vegetable product or ghee of doubtful quality previously melted and shake vigorously when a pink colour will develop indicating the presence of til oil.'

The test will indicate that the sample of ghee is adulterated with Vanaspati. It must however, be emphasised that no measure against adulteration however simple, can succeed

unless the Provincial Governments and local bodies who have to administer Pure Food Laws are alive to the danger of adulteration and take active steps to prevent it.

3. As the evil of adulteration of ghee is wide spread I would invite your co-operation in enforcing the measure outlined above by bringing it to the notice of the local bodies in your jurisdiction and authorities subordinate to you who are entrusted with the duty of administering Pure Food Laws, as well as the consuming public. Local Pure Food Laws may be suitably amended and all dealers selling 'Pure Ghee' as well as the inspecting staff may be required to keep with them the material which is required to carry out the simple chemical test mentioned in para. 2 above.

4. In view of the introduction of this reform, I am to request that your Government may reconsider if any legislation aiming at compulsory colouration of Vanaspati is essential as it will result merely in destroying the Psychological appeal of Vanaspati to the public without making detection of adulteration any more effective. I would bring to your notice that as yet no colouring material which would not affect the keeping quality of Vanaspati, would not be injurious to health, would not be easily eliminated by heating or by chemical process, would be non-toxic and which would not be objectionable to sight, smell or taste, has yet been discovered.

#### FACTORIES MANUFACTURING VANASPATI

77. Pandit Thakur Das Bhargava: (a) Will the Honourable Minister of Agriculture be pleased to state how many factories there are in all in India for the manufacture of vanaspati?

(b) What are the names of the factories?

(c) What are the places where they are situated?

(d) What is the annual production of each?

The Honourable Shri Jairamdas Doulatram: (a) Twenty seven factories were in production of Vanaspati for edible purposes at the end of 1948.

(b) to (d). A statement is placed on the table of the House.

STATEMENT  
Production of Vanaspati during 1947 and 1948.

| Province or State. | Sl. No. | Name of Firm.                     | Production 1947 | Production 1948 | Recognized Capacity (annual) | Location            | Remarks.                             |

## UNSTARRED QUESTIONS AND ANSWERS

1377

## RESEARCH ON EFFECT OF VANASPATI ON HUMAN BEINGS

78. Pandit Thakur Das Bhargava: (a) Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that scientific research in regard to the effect of the use of vanaspati ghee on human beings is going on?

(b) By what time can the report of scientists engaged on this work be expected?

The Honourable Shri Jairamdas Doulatram: (a) Yes, Sir.

(b) The final report may be expected before the end of 1949.

## STOPPING THE MANUFACTURE OF VANASPATI

79. Pandit Thakur Das Bhargava: (a) Will the Honourable Minister of Agriculture be pleased to state whether it is a fact that on the 16th December, 1948 a Cow Conference was held at Jaipur under the Presidentship of the Honourable Minister of Agriculture and a resolution banning hydrogenation of vegetable oils was unanimously passed?

(b) Are Government aware that the President of the Indian National Congress condemned the manufacture of vanaspati ghee in his presidential address at Jaipur?

(c) Are Government aware that the Committee for Preservation and Protection of Cattle has condemned the manufacture of vanaspati ghee as a very great obstacle to the protection and preservation of cows?

(d) Is it a fact that the Gau Sewa Sangh of Wardha has passed a resolution requesting Government to stop hydrogenation of vegetable oils in the interest of cow protection?

(e) What action have Government taken in respect of the public demand to stop the manufacture of vanaspati ghee?

The Honourable Shri Jairamdas Doulatram: (a) Yes.

(b) Yes.

(c) Yes.

(d) Yes. Government have received a memorandum from the Gau Sewa Sangh to this effect.

(e) The present policy of Government is not to encourage the expansion of the Vanaspati Industry beyond what Government were already committed to. Government have reserved their final decision about the future of the Vanaspati Oil Industry till they are in possession of conclusive evidence about its effect on the human health or other drawbacks of Vanaspati which are under investigation by a committee of Scientists. As regards the proposal to stop hydrogenation, the question will be considered from all points of view.

## RECOMMENDATIONS OF COMMITTEE FOR PRESERVATION AND PROTECTION OF CATTLE

80. Pandit Thakur Das Bhargava: (a) Will the Honourable Minister of Agriculture be pleased to state whether the Committee for Preservation and Protection of Cattle has submitted its report and if so, on what date?

(b) Do Government propose to lay a copy of the report on the table of the House?

(c) Have Government taken any action on the recommendations of the Committee so far and if so, what action has been taken?

The Honourable Shri Jairamdas Doulatram: (a) Yes. The report was received on the 18th November, 1948.

(b) A copy of the report will be placed in the Library of the House as soon as printed copies of the same are received from the Press.

(c) The recommendations of the Committee have been forwarded to all the Provincial Governments, Local Administrations, States and States Unions for their views. The decision of the Government of India will be taken after the replies have been received from all of them.

#### RESTRICTIONS ON SLAUGHTER OF CATTLE

**81. Pandit Thakur Das Bhargava:** (a) Will the Honourable Minister of Agriculture be pleased to state what restrictions are in force against slaughter of cattle in the various provinces of India and when these restrictions were placed?

(b) How many cows, bullocks, she and he-buffaloes and young stocks were slaughtered in the cities of Calcutta, Howrah, Bombay and Madras in the slaughter houses in each month from 1st September, 1947 to 31st December, 1948?

(c) Has the attention of Government been drawn to a letter which appeared in the issue dated 9th January, 1949 of the *Hindustan* about the slaughter of cattle of good breed in big cities?

(d) What action are Government taking to stop the slaughter of such cattle?

(e) Is it a fact that cattle of good breed are taken from East Punjab and particularly from the districts of Hissar and Rohtak to Bombay and Calcutta and after one lactation are sent to the slaughter houses?

(f) How long has this question been before Government and what are the reasons for not taking action in the matter?

**The Honourable Shri Jairamdas Doulatram:** (a) The attention of the honourable member is invited to the reply given to Lala Raj Kanwar's Starred Question No. 100 on the 11th August, 1948.

(b) The information so far received is put on the table of the House.

(c) Yes.

(d) and (f). The question of prohibition of slaughter of cattle has been examined in detail by an Expert Committee whose recommendations have been communicated to the Provincial and State Governments. Further action will be taken on receipt of the views of the Provincial Governments.

(e) The Provincial Governments concerned are being consulted and on receipt full information will be furnished to the House.

#### STATEMENT

*Statistics of cattle and buffaloes slaughtered in the slaughter houses in the city of Madras from September 1947 to December, 1948.*

#### GAZETTED AND NON-GAZETTED STAFF IN MINISTRY OF RAILWAYS

**82. Prof. Yashwant Rai:** Will the Honourable Minister of Railways be pleased to state:

- the number of Gazetted officers in his Ministry;
- the number of Superintendents;
- the number of Assistants; and
- the number of senior-grade and junior-grade clerks and stenographers?

**The Honourable Shri N. Gopalaswami Ayyangar:** The number of officers and staff on 1st March 1949 in the Ministry of Railways is as follows:

- Gazetted officers—47.
- Superintendents—16.
- Assistants—188.
- Clerks and Stenographers—227.

#### GAZETTED AND NON-GAZETTED STAFF IN MINISTRY OF COMMUNICATIONS

**83. Prof. Yashwant Rai:** Will the Honourable Minister of Communications be pleased to state:

- the number of Gazetted officers in his Ministry;
- the number of Superintendents;
- the number of Assistants; and
- the number of senior-grade and junior-grade clerks and stenographers?

**The Honourable Mr. Rafi Ahmad Kidwai:** (i) and (ii). The total number of Gazetted Officers in the Communication Ministry is 19 of whom six are superintendents.

(iii) 32.

(iv) Clerks, senior grade—Nil.

Clerks, junior grade—41.

Stenographers—11.

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)  
DEBATES

(PART I—QUESTIONS AND ANSWERS).

Wednesday, 9th March, 1949.

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

STARRED QUESTIONS AND ANSWERS

ORAL ANSWERS

RECOMMENDATIONS OF COMMITTEE ON PROFIT SHARING IN INDUSTRIES

**\*987. Shri R. K. Sidhva:** (a) Will the Honourable Minister of Labour be pleased to state whether the Committee of Profit Sharing appointed by Government has made their recommendations for profit sharing in six industries?

(b) If so, have Government taken any decision thereon and if so, how do they intend to implement the decision?

(c) Do Government approve of the recommendations and if not; have Government considered any alternate proposals?

(d) Have industrial and labour organisations been consulted and if so, with what result?

**The Honourable Shri Jagjivan Ram:** (a) Yes, as an experimental measure.

(b) and (c). The attention of the honourable member is invited to the answer given by me to Prof. N. G. Ranga's starred question No. 319 on the 11th February 1949.

(d) The Committee on Profit Sharing on which Labour and Industry were represented; consulted all important industrial and labour organisations before making its recommendations. The principal organisations of employers and workers are fully represented on the Central Advisory Council of Labour which is considering the report of the Committee on Profit Sharing.

**Shri Arun Chandra Guha:** May I know the names of the members of the Profit Sharing Committee?

**The Honourable Shri Jagjivan Ram:** I have not got the names ready with me, I will supply them to the honourable member if he so desires.

EXPORT OF RAW AND CRUSHED BONES AND IMPORT OF FERTILISERS

**\*988. Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Commerce be pleased to state the total quantities of bones and crushed bones exported from this country during the year 1948?

(b) Do Government propose to consider the advisability of stopping such exports?

(c) What is the quantity and cost of foreign manures that have been imported into this country during the year 1948?

**The Honourable Shri K. C. Neogy:** (a) Approximately 33,777 tons of crushed bones were exported from this country during 1948. No raw bones were exported during this period.

(b) Raw Bones and Bonemeal are as a rule not allowed to be exported. Only crushed bones and bone-grist are allowed to be exported. Bones are useful as manure in the form of bonemeal, which is only a bye-product produced in the process of crushing bones. Bones are mainly crushed for export purposes and if the export of crushed bones and bone-grist is totally prohibited, there will be no incentive to collect bones, which will actually deprive the country of a large quantity of bonemeal.

(c) A statement showing the quantity and cost of different kinds of fertilisers that have been imported into this country during the year 1948 is placed on the table of the House.

## STATEMENT

*Quantity and cost of different kinds of fertilisers imported into this country during the year, 1948.*

| Name of Fertiliser               | Quantity in tons | Value in Rs. |
|----------------------------------|------------------|--------------|
| Sulphate of Ammonia . . . . .    | 144,182          | 4,35,03,737  |
| Ammonium Phosphate . . . . .     | 7,333            | 19,13,913    |
| Di-Ammonium Phosphate . . . . .  | 1,631            | 11,31,606    |
| Ammonium Nitrate . . . . .       | 5,344            | 16,40,608    |
| Sodium Nitrate . . . . .         | 21,814           | 52,35,360    |
| Calcium Superphosphate . . . . . | 50               | 10,725       |
|                                  | 180,354          | 5,34,35,949  |

**Seth Govind Das:** Is it not a fact that bonemeal is always prepared from crushed bones and has the policy of the Government not been to stop the export of crushed bones also?

**The Honourable Shri K. C. Neogy:** As a matter of fact, whatever bonemeal is prepared in the country is expected to be left within the country, but then I am told the process of crushing bones is rather unsatisfactory here and the expenses of complete pulverization of bones into powder are very high and that it is not possible to reduce all bones into bonemeal.

**Shri R. K. Sidhva:** How many bone-crushing factories are there in India and what is their total production?

**The Honourable Shri K. C. Neogy:** I am afraid I have not got the information.

**Shri B. P. Jhunjhunwala:** It is possible, Sir, to get fertilizer manure by exchanging crushed bones by barter system?

**The Honourable Shri K. C. Neogy:** There is no such system in operation, but what the honourable member has in mind is actually what is achieved.

I might give a few details, particularly the arithmetic of the matter, from which the honourable member will see that the procedure that we are following is fully to the benefit of the country. The present export price of crushed bones is remunerative and brings foreign exchange—including dollars, I might inform the House. As compared with the import price of rock phosphate of Rs. 100 per ton, the present export price for crushed bones is between Rs. 500 to 350 per ton. It is estimated that by exporting 100,000 tons of crushed bones and bone-grist and importing its equivalent, namely 50,000 tons of rock phosphate—one ton of rock phosphate being equivalent to 2 tons of bones in phosphorus content—the country could produce all the superphosphates

required at much cheaper rates and at the same time earn about Rs. 2½ to 3 crores worth of foreign exchange.

**Seth Govind Das:** Is any effort being made to see that all bone which is available in India is turned into bonemeal and no export of crushed bones is made?

**The Honourable Shri K. C. Neogy:** I have explained the circumstances which justify the continuance of the present system.

**Seth Govind Das:** I wanted to ask whether any effort is being made to establish more factories in this country so that we may turn these crushed bones into bonemeal?

**The Honourable Shri K. C. Neogy:** I have pointed out that we are getting all the superphosphates that we need and at the same time earn quite a lot of foreign exchange into the bargain.

**Babu Ramnarayan Singh:** Is the Honourable Minister aware that bone materials of all kinds are very useful for purposes of manure?

**The Honourable Shri K. C. Neogy:** What I have given is the scientific view of the matter—I do not know about the popular view.

**Shri B. N. Munavalli:** May I know what percentage of bonemeal is obtained by crushing the bones now in India?

**The Honourable Shri K. C. Neogy:** I could not say that offhand.

**Srijut Kuladhar Chaliha:** In view of the shortage of manure, will Government be pleased to restrict the export of bonemeal?

**The Honourable Shri K. C. Neogy:** Bonemeal is not allowed to be exported.

**Srijut Kuladhar Chaliha:** May I know the price of sulphate of ammonia in India?

**The Honourable Shri K. C. Neogy:** I do not think I have got the figure here. I could give the quantity of sulphate of ammonia and the value in rupees but my honourable friend will have to work it out. The sulphate of ammonia that was imported in 1947 amounted to 1,33,230 tons and its cost was Rs. 3,11,00,000 odd.

**Pandit Mukut Bihari Lal Bhargava:** May I know whether to popularise the use of bone-dust by the cultivators, Government makes a subsidy, that is sells bone-dust to the cultivators at a reduce price?

**The Honourable Shri K. C. Neogy:** That is a matter on which I do not feel myself competent to make any statement. My friend perhaps would put a question to the Honourable Minister for Agriculture.

**Begum Aizaz Rasul:** May I know if human bones are also included in the crushed bones?

**The Honourable Shri K. C. Neogy:** Human bones are not included.

## MAJOR SCHEMES OF DEVELOPMENT

†\*989. **Shri V. C. Kesava Rao:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what are the major schemes of development that are not being taken up due to financial stringency?

(b) How many of these schemes are productive and when would these schemes again be considered for implementation?

**The Honourable Shri N. V. Gadgil:** (a) No development schemes are being abandoned but suitable adjustments are being made in the speed with which these projects will be implemented.

(b) Does not arise.

†Answer to this question laid on the table, the questioner being absent.

### CONTROL ON FOOD CHARGES IN DELHI AND SIMLA HOTELS

\*990. **Shri R. K. Sidhya:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether the control on courses and charges for food served in hotels and lodging houses in Delhi and Simla still exists?  
(b) Are Government

(b) Are Government aware that hotel owners charge exorbitant rates and supply very poor quality of food?

(c) What are the food charges in hotels in Delhi and New Delhi?

**The Honourable Shri N. V. Gadgil:** (a) The control still exists in New Delhi and in the Notified area of the Civil Station, Delhi, and also, as far as I am aware, in Simla.

(b) Government have received some complaints to this effect.

(c) A statement showing the food charges in hotels in New Delhi and in the Notified Area of the Civil Station Delhi, is placed on the table of the House.

STATEMENT

*Food charges of hotels in New Delhi and in the notified area of Civil Station Delhi:*

and of Civil Station Delhi.

| S. No. | Name and situation of the hotel | Breakfast                                                                                                                                                                           |    |    | Lunch |    |    | Afternoon tea             |    |    | Dinner |    |    |

\* For those Hotels, no monthly charges are proscribed.

**Shri R. K. Sidhva:** In view of the complaints which the Honourable Minister stated he has received, what steps have Government taken and do they intend to take any further steps to remove these complaints?

**The Honourable Shri N. V. Gadgil:** Yes, Sir. Some legislation is being introduced very shortly.

**Shri R. K. Sidhva:** In this Session?

The Honourable Shri N. V. Gadgil: Yes, in this Session.

### LABOUR OFFICERS SENT FOR TRAINING ABROAD

\*991. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Labour be pleased to state the number of Labour Officers who have been sent abroad for training during the years 1945, 1946, 1947 and 1948?

(b) How many have returned after full training?

(c) What are the qualifications required for an official to be sent for such training?

(d) What is the cost of training each officer and how much amount has so far been spent towards this training?

(e) Have they been sent to any other country besides the United Kingdom and if not, why not?

(f) Is there any regular scheme under which these officers are sent for training abroad?

(f) What is the kind of training they receive in foreign-countries?

**The Honourable Shri Jagjivan Ram:** (a) Thirteen Labour Officers were sent for training to U. K. in 1945; thirty in 1946 and ten in 1948. No Labour Officer could be sent out for training in 1947 owing to Partition.

(b) All the fifty three Labour Officers, who were sent for training, returned to India after undergoing the full course of training.

(c) The Officers should at least be University graduates and have a minimum of five years' experience of administration of Labour Legislation or Welfare work.

(d) The approximate cost of training one Labour Officer is Rs. 8,000. A total expenditure of Rs. 2,16,000 approximately has so far been incurred on the training of Labour Officers so far as the Central Government is concerned.

(e) So far Labour Officers have been sent for training only to U.K. where necessary facilities were made available for their training.

(f) Yes. There is a regular scheme whose continuance depends upon availability of funds and training facilities abroad.

(g) The subjects in which the Labour Officers are trained are:

(i) Factory Inspection—Labour Welfare.

(ii) Industrial Relations and Working of Trade Unions.

(iii) Wages Inspection—Coalmines Welfare. Each officer may select two of the above subjects or only one for more specialized training.

**Shri R. K. Sidhva:** Arising out of the answer given by the Minister that fifty three candidates have returned after obtaining full course, may I know the nature of the full course, and whether any degree or diploma is given?

**The Honourable Shri Jagjivan Ram:** It is not a degree or diploma course. Students are offered opportunities to gain practical experience of working along with Government agencies, Industry and trade unions.

**Shri R. K. Sidhva:** Do Government consider it desirable to send them for such training in foreign countries? What are the advantages that they have brought into this country after training abroad?

**The Honourable Shri Jagjivan Ram:** Government feel that it is desirable to send our officers to foreign countries where they have got the improved methods of welfare work as well as improved appliances in their factories, so that our officers may gain experience of those things.

**Prof. N. G. Ranga:** Are Government proposing to start any training school with these people who had been trained in England as the teachers?

**The Honourable Shri Jagjivan Ram:** One scheme is under consideration. After the provision in our Factories Act that in every establishment employing more than 500 workers, there should be a welfare officer, the demand for welfare officers in the country will be very large and in order to cater to the need of the industry we are proposing to start a training centre here.

**Shrimati Dakshayani Velayudhan:** How many candidates were sent from the Indian States and on whose account?

**The Honourable Shri Jagjivan Ram:** Seven officers.

**Mr. Speaker:** The honourable member also wants to know on whose account?

**The Honourable Shri Jagjivan Ram:** At the expense of the States concerned.

**Shri C. Subramaniam:** Are the selections made on the recommendations of the provincial governments?

**The Honourable Shri Jagjivan Ram:** Strictly on the recommendations of the provincial governments.

**Shri C. Subramaniam:** What is the number of trainees from Madras please?

**The Honourable Shri Jagjivan Ram:** Nineteen officers of the provincial governments were trained, but as to the quota of Madras I would require notice.

**Shri R. K. Sidhva:** The Honourable Minister stated that this scheme will be continued, that is to say, the officials will be sent to foreign countries for training. Just now he stated that a training centre will be opened here. Does he still feel that despite that, they will continue to be sent to foreign countries or they will be stopped immediately?

**The Honourable Shri Jagjivan Ram:** In spite of the fact that we want to start our own centre, Government feels it will be necessary for some time to send some of our officers to foreign countries.

#### HIGH PRIORITY FOR INDIA IN EXPORT OF JAPANESE INDUSTRIAL PRODUCTS

\*992. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Commerce be pleased to state whether it is a fact that the Supreme Commander for Allied Powers in Japan has accorded India high priority in the export of Japanese Industrial products?

(b) If so, what steps have Government taken to see that full advantage of the same is taken by India?

**The Honourable Shri K. C. Neogy:** (a) Yes.

(b) Even though there is a trade agreement with Japan, the actual trade flows through normal trade channels. It is, therefore, primarily for our trade and industry to make the best use of SCAP's officer by placing firm orders for their requirements on Japanese manufacturers. Government are giving assistance to Indian importers and will continue giving it by the issue of licences and also by sponsoring their visits to Japan in order to enable them to settle details on the spot. The Commercial Counsellor to the Indian Liaison Mission, Tokyo, has also instructions to give all possible assistance needed by Indian importers in securing their goods from Japan.

**Shri R. K. Sidhva:** May I know what is the total amount of the orders placed and the particular articles that have been ordered?

**The Honourable Shri K. C. Neogy:** We have not got any definite information on the point. We have information only as regards the amount represented by the letters of credit opened so far, but that would not be a sure index of the actual orders that are executed.

**Shri R. K. Sidhva:** Is it not a fact that under the Trade Plan, the delivery of all these articles is fixed for June 1949. May I know if Government have taken steps to see that all these are compiled with before this period?

**The Honourable Shri K. C. Neogy:** As far as it lies in the power of Government, Government will try to do everything possible in the matter, but as I have already said, the matter lies in the hands of the private trade mostly.

**Shri R. K. Sidhva:** If the private trade fails, may I know whether Government will take advantage of this?

**Mr. Speaker:** That would be hypothetical.

**Shri H. V. Kamath:** Does the SCAP authority allow a margin of profit for itself while fixing the export price of industrial products?

**The Honourable Shri K. C. Neogy:** My honourable friend put to me a similar question a few days ago, and I have looked up the position. It seems that SCAP has fixed different rates of exchange for yen for different categories of commodities. If the House is interested in this question, I would like to give an idea of the disparity between the different rates of exchange. For instance, in respect of textile machinery 152 yen represent a dollar. This is one end of the scale. At the other end we find that in respect of glassware 650 yen represent a dollar. Then there are different other categories in between. This matter has already been taken up by us with SCAP, and we have made representations that there should be a uniform rate of exchange. As a matter of fact, it is this disparity in the rates of exchange that has stood in the way, to a certain extent, of our commercial community taking the fullest advantage of this Agreement.

**Shri H. V. Kamath:** Has the Honourable Minister any information as to whether the profit reaped by SCAP goes to swell the American Treasury or to rehabilitate Japanese economy?

**The Honourable Shri K. C. Neogy:** Well this is hardly a matter in which we can either make an enquiry or take any useful action.

**Mr. Homi Mody:** In granting licences and permits, is sufficient regard being paid to the interests of Indian industries?

**The Honourable Shri K. C. Neogy:** I should think so.

#### DISCUSSIONS AT COMMONWEALTH PRIME MINISTERS' CONFERENCE IN LONDON

\*993. **Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state:

(a) whether at the Commonwealth Prime Ministers' Conference which he attended in London in October, 1948, there was any discussion regarding the formation of a Western bloc in Europe as well as about the Commonwealth Defence; and

(b) whether the discussions were held *in camera*?

**The Honourable Shri Jawaharlal Nehru:** (a) As I have already stated in my reply to a previous question to the honourable member, the discussions at the Commonwealth Prime Ministers' Conference were confidential. Information in regard to various matters was supplied by the representatives of the United Kingdom Government. There was no question of any commitment.

(b) Yes.

**Shri H. V. Kamath:** Is there a tendency on the part of the U. K. Government to regard the Commonwealth as one unit for defence purposes?

**The Honourable Shri Jawaharlal Nehru:** Surely, I do not quite understand this question. How am I to answer what is the tendency in the mind of the U. K. Government.

**Mr. Speaker:** It is more or less a question of opinion.

**Shri H. V. Kamath:** Has the Prime Minister's attention been drawn to the statement made in the House of Commons the other day by the Defence Minister there, Mr. Alexander, to the effect that "the meeting of the Commonwealth Prime Ministers' Conference in London last October afforded an opportunity for a discussion of the present arrangements for consultation between the countries of the Commonwealth on defence matters"?

**The Honourable Shri Jawaharlal Nehru:** I have not seen that statement, but it is a perfectly true statement nevertheless, that is to say, that consultation took place. Statements were made about the position and we listened to them.

**Shri H. V. Kamath:** Has his attention been drawn to a statement made by Sir Stafford Cripps in December last some time after the Conference was over that the Commonwealth countries including India had pledged their full co-operation with the U. K. in their plans, economic or otherwise?

**The Honourable Shri Jawaharlal Nehru:** No, Sir. I have not seen that statement. I will be very much surprised if Sir Stafford has made that statement.

**Shri H. V. Kamath:** I shall show it to the Prime Minister later, if he needs it.

**Mr. Homi Mody:** At these Prime Ministers' Conferences, is there not an agreed communique issued covering the view points that were discussed so as to obviate the necessity of independent statements on the part of each country represented at the Conference?

**The Honourable Shri Jawaharlal Nehru:** In the course of the Conference, daily communiques were issued—brief ones—and at the end a longer communique was issued. The point is, as I have said in answer to a previous question, there is no question of any commitments. They were all frank, informal discussions of various situations existing in the world and some countries stated what their position was without in any sense committing any other country. In regard to many matters there was community of outlook. In regard to some matters, different view points were expressed. All these things were noted and that was the Conference.

**Sardar Hukam Singh:** Is it a fact that a large number of Asian countries regard this formation of Western bloc as an attempt on the part of the European countries to dominate Asia for ever?

**The Honourable Shri Jawaharlal Nehru:** This is the first time I have heard of this.

#### DAMS CONSTRUCTED BY DAMODAR VALLEY CORPORATION

\*994. **Shri H. V. Kamath:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) how many dams have been constructed by the Damodar Valley Corporation, and how many more are expected to be built;

(b) how much land has been acquired from cultivators, and at what rate of compensation; and

(c) how many tenants have been thereby evicted and what steps have been taken for their rehabilitation?

**The Honourable Shri N. V. Gadgil:** (a) The project comprises eight dams, none of which has yet been constructed. Preliminary Engineering work is in progress.

(b) Only forty five acres of land have so far been acquired from the cultivators. The rate of compensation has yet to be settled, but a provisional compensation at the rate of Rs. 10 per acre of occupied land for one crop has been paid pending final acquisition;

(c) No tenant has yet been evicted. Arrangements are being made to rehabilitate those who will be evicted when the actual dam construction begins.

**Shri H. V. Kamath:** In the case of one of the dams, the Tilaiya Dam, is it a fact that the original estimate of the cost of the dam was Rs. 46 lakhs and tender was invited upto 86 lakhs?

**The Honourable Shri N. V. Gadgil:** I require notice.

**Shri H. V. Kamath:** Is it a fact that, in connection with this dam, the Project Officer Mr. Baxter, while inviting tenders for 86 lakhs, added an amount of 36 lakhs being the cost of 18,000 acres of land which was to be sub-merged, to the total cost of the dam?

**The Honourable Shri N. V. Gadgil:** These are details and I naturally require notice.

**Shri H. V. Kamath:** This is a serious matter, Sir. In this Tilaiya Dam construction, has there been an encroachment on land in a village called Kanti, the area involved being 180 acres, without any notice to the tenants and without any compensation fixed for the tenants?

**The Honourable Shri N. V. Gadgil:** If the honourable member wants information regarding any particular village, I would require notice. But, the general policy is wherever any tenant has been ejected, compensation for the standing crop has been paid.

**Shri H. V. Kamath:** Is it a fact that the first Director of Rehabilitation resigned within six months time?

**The Honourable Shri N. V. Gadgil:** I want notice for that. As far as I remember, no Director has resigned.

**Shri H. V. Kamath:** Is it a fact that Mr. Girdhari Kripalani was the Director of Rehabilitation?

**The Honourable Shri N. V. Gadgil:** He was not a Director.

**Mr. Speaker:** The honourable member need not go into the details; he may have a discussion with the Honourable Minister.

**Shri H. V. Kamath:** He has no information even about the resignation of the Director of Rehabilitation.

**The Honourable Shri N. V. Gadgil:** He was not the Director of Rehabilitation.

**Prof. N. G. Ranga:** Will the Government enquire into the correctness or otherwise of the points that have been placed before the House by my honourable friend Mr. Kamath?

**The Honourable Shri N. V. Gadgil:** Most certainly.

**Babu Ramnarayan Singh:** The Honourable Minister says that about forty acres of land have been acquired. May I know whether the acquisition has been made according to the law or by force by the officials there?

**The Honourable Shri N. V. Gadgil:** No; when I say acquisition, it is under the provisions of the Land Acquisition Act prevalent in Bihar Province.

1392

CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [9TH MARCH 1949]

## GREATER DELHI SCHEME

\*937. **Shri K. Hanumanthaiya:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether the blue print of the Greater Delhi scheme would be made available to the members of the House?

(b) What are the top priorities in the scheme?

(c) When is the work on these constructions expected to start?

**The Honourable Shri N. V. Gadgil:** (a) The plan for Greater Delhi has not yet been finalised. A copy of the tentative plan is, however, placed on the table of the House.

(b) Top priority has been given to the development of areas set apart for the rehabilitation of the refugees and the Diplomatic Enclave.

(c) Work on the areas earmarked for housing refugees has already started and about 2,000 houses have been completed in New Delhi Northern Extension. The development of other parts such as Shadipur and Nizamuddin are in hand.

The scheme for the Diplomatic Enclave has been just sanctioned and development work on the site will soon start.

**Mr. Frank Anthony:** What priority, if any, does Government propose to give to relieve the congestion among Government servants in regard to quarters?

**The Honourable Shri N. V. Gadgil:** So far as construction of quarters for Government servants is concerned, there is a definite scheme which has been sanctioned and work is proceeding along the same lines. I may assure the honourable member that before July this year about 3,200 quarters will be available for all the four classes of Officers.

**Seth Govind Das:** In view of the fact that there is a proposal to remove the Capital from Delhi, why all this work is being undertaken?

**Shri K. Hanumanthaiya:** How many Government servants are in the waiting list for giving accommodation?

**The Honourable Shri N. V. Gadgil:** About 13,000.

**Shri Deshbandhu Gupta:** When do Government hope to finalise the scheme for Greater Delhi?

**The Honourable Shri N. V. Gadgil:** As soon as possible. But to give some indication I may say that the Coordination Committee which is commissioned with this task of finalizing has appointed four sub-committees, one for water-works, one for sewage, one for transport and one for additional supply of electricity.

As soon as their reports are scrutinized and finalised, the final plan of Greater Delhi will be available.

**Mr. Frank Anthony:** Does Government intend pulling down the hostels and other temporary structures?

**The Honourable Shri N. V. Gadgil:** In suitable cases, they will be pulled down.

## EMPLOYEES IN INDIAN EMBASSIES

\*\*998. **Shri S. Nagappa:** Will the Honourable the Prime Minister be pleased to state:

(a) the number of persons employed in the offices of the Indian Embassies abroad;

† Not printed in the day's Debate. A copy placed in the Library of the House.—  
Ed. of D.

‡ Answer to this question laid on the table, the questioner being absent.

- (b) what amount is being spent in respect of these offices;  
(c) whether there is any scheme to minimise the expenditure;  
(d) if so, what it is; and  
(e) if not, why not?

**The Honourable Shri Jawaharlal Nehru:** (a) and (b). A statement containing the required information is placed on the table of the House.

(c) to (e). Economy in expenditure on our Foreign Missions is constantly kept in view and expenditure sanctions are carefully scrutinized before issue. A local inspection will be conducted in due course to ensure that our missions function efficiently.

## STATEMENT

**Pandit Hirday Nath Kunzru:** On what principles has the compensation, paid to the tenants been determined? Has it been determined by the officials of the Government of India or on the advice of the Bengal Government?

**The Honourable Shri N. V. Gadgil:** In this matter, the Damodar Valley Corporation had taken the help of the Bihar Government and officers of the Bihar Government have been appointed and they are working according to the provisions of the Land Acquisition Act prevalent there.

**Babu Ramnarayan Singh:** While answering a supplementary question on the same subject a few days ago, the Honourable Minister promised to enquire into the illegal activities of the officials there. May I know whether the enquiry has begun?

**The Honourable Shri N. V. Gadgil:** Yes, Sir.

**Prof. N. G. Ranga:** Have the Government laid down any policy to be followed by the Damodar Valley Corporation, or has the Corporation itself laid down any policy in regard to the rehabilitation of the tenants who are to be evicted when these dams are constructed?

**The Honourable Shri N. V. Gadgil:** The Damodar Valley Corporation will proceed on well known principles that as far as possible wherever land is available, land should be given to those who will be expropriated and where land is not available or where the persons concerned do not want land, adequate compensation will be paid.

**Shri B. P. Jhunjhunwala:** Will the Government direct the Corporation to rehabilitate the tenants before they are evicted?

**The Honourable Shri N. V. Gadgil:** As far as possible, this will be borne in mind.

**Dr. Mono Mohan Das:** Do the Government think that the sum of Rs. 10 per acre which has been given as compensation is sufficient according to the market value?

**The Honourable Shri N. V. Gadgil:** The compensation is for the standing crop and not for the whole land.

**Babu Ramnarayan Singh:** So far as I am aware, there has been an understanding between the Government of Bihar and the Central Government that these tenants who are to be evicted from the lands to be submerged, have got to be paid for building their homes before they are evicted, before they are asked to leave their homes and hearths.

**The Honourable Shri N. V. Gadgil:** Whatever understanding was arrived between the Government of Bihar and the Damodar Valley Corporation will certainly be honoured.

**Shri H. V. Kamath:** May I know, Sir . . . . .

**Mr. Speaker:** I propose to go to the next question.

#### MILITARY TECHNICAL TRAINING CENTRE, JORHAT

\*995. **Srijut Kuladhar Chaliha:** (a) Will the Honourable Minister of Labour be pleased to state whether the Military Technical Training Centre for ex-servicemen and civilians at Jorhat is going to be combined with the Technical College there?

(b) What is the number of ex-servicemen and civilians undergoing training in the Institution?

**The Honourable Shri Jagjivan Ram:** (a) The Military Technical Training Centre referred to by the honourable member is the combined Training Centre, Jorhat, which was established by the Government of India, Ministry of Labour. It is not the intention that this Centre should be combined with the Provincial Technical Institute at Jorhat at present.

(b) 146 ex-Servicemen were under training on 31st December 1948. The proposal to throw open the Centre to adult civilians of the Province is under the consideration of the Government of Assam and the Government of India.

#### HOUSING CONDITIONS OF LABOURERS IN ASSAM TEA ESTATES

\*996. **Srijut Kuladhar Chaliha:** (a) Will the Honourable Minister of Labour be pleased to state what are the housing conditions of labourers in tea plantations in Assam?

(b) Do Government propose to subsidise the tea estates for building hutments for labourers and if so, have Government prepared any scheme for such subsidy to be repaid according to the financial conditions of different estates?

**The Honourable Shri Jagjivan Ram:** (a) I visited the tea gardens in Assam in the third week of October 1948. Except in very big centres the housing conditions in the plantations can only be described as deplorable. The usual defects are: (i) the accommodation provided is grossly inadequate for a family; (ii) the rooms are dark and look like dungeons; (iii) absence of any plinth in many houses; (iv) slopping roof reaching within 4 feet (and in some cases even lower) of the ground with the result that entry into the house can only be effected by doubling up the body; (v) most houses are kutcha and in bad state of repairs; and (vi) verandas, where provided, are so narrow that they cannot be of much use to the tenant.

Attention is also invited to page 57 of the Labour Investigation Committee Report on 'an enquiry into conditions of Labour in Plantations in India' which gives details and conditions of houses in Plantations. A copy of the report is available in the Library of the House.

(b) In the second session of the Industrial Committee on Plantations a proposal was approved to set up Housing Boards whose functions would be to acquire and develop suitable areas for construction of workers' houses, raise funds, administer the housing estates, organise research in house construction and availability of materials and prescribe the extent and the nature of the employer's liability for the provision of workers houses. The question of granting subsidies will be considered along with the General Industrial Housing Scheme.

**Prof. N. G. Ranga:** Is there any proposal to impose a special cess, as has been done in the case of mines, in order to raise sufficient funds for providing pucca housing conditions for these tea estate workers?

**The Honourable Shri Jagjivan Ram:** The analogy of the coal fields does not apply here, because, mining is a central subject whereas tea plantation is entirely a provincial subject.

**Prof. N. G. Ranga:** Is it a fact that so far as the tea estates are concerned, there is an All India legislation known as the Tea Cess Act and there is an All India Tea Cess Committee which was established by the Government of India?

**The Honourable Shri Jagjivan Ram:** That has nothing to do with labour.

**Shrimati Dakshayani Velayudhan:** Are medical facilities in the Tea Estates the same as housing conditions?

**The Honourable Shri Jagjivan Ram:** I will refer the honourable lady member to the report of the Plantation Investigation Committee.

IMPORT, PRODUCTION AND CONSUMPTION OF PETROLEUM

\*999. Pandit Mukut Bihari Lal Bhargava: (a) Will the Honourable Minister of Works, Mines and Power be pleased to state what was the amount of petroleum consumed in undivided India in the year 1938-39 and approximately the quantity of petroleum consumed during the same year by the parts of the country now included in the Indian Union?

(b) What was the quantity of petroleum consumed in the Indian Union during the year 1948?

(c) What were the quantities of petroleum produced in India in the year 1938-39 and in the year 1948?

(d) What are the countries from which petroleum was being imported in the year 1938-39 and the countries from which it was imported in the year 1948?

(e) Have the Government of India explored the possibilities of increasing the production of petroleum in India?

(f) If so, are there any prospects of making the country self-sufficient in the same and if so, by which time and in what manner?

(g) Have Government taken any steps to find out any substitute for petroleum and if so, with what results?

The Honourable Shri N. V. Gadgil: (a) to (c). Statements giving the information asked for are laid on the table.

(d) During 1938-39 from (i) Iran, (ii) Bahrein, (iii) East Indies, (iv) Burma and (v) U.S.A.

During 1948, from the same countries excepting Burma, and also from Saudi Arabia.

(e) Yes. Location of additional sources of petroleum has always formed an important part of the investigations of the Geological Survey of India. Government is also considering the possibility of manufacturing synthetic oil from low-grade coal.

(f) There is no likelihood of India becoming self-sufficient in petroleum unless big oil fields are discovered.

(g) Yes; Power Alcohol has already been brought into use for admixture with petroleum. The synthetic oil proposed to be manufactured from low-grade coal will also serve as a substitute for natural petroleum.

STATEMENT I

*Consumption of major petroleum products excluding bunker deliveries to ships.*

Notes.— (1) Figures for 1938-39 are not available.

(2) Figures for December 1948 are not yet available.

**Shri M. Tirumala Rao:** As a result of the activities of the Geological Survey of India, have they been able to strike any new wells of petroleum in the country?

**The Honourable Shri N. V. Gadgil:** This year's programme, as was stated in one of my replies, includes survey in Assam, East Punjab, Cutch and Kathiawar. As soon as those surveys are completed, I will be in a position to tell the honourable member how the position stands.

**Prof. N. G. Ranga:** How many parties are there prospecting for petroleum in different places?

**The Honourable Shri N. V. Gadgil:** As far as I know, no party has asked for any prospecting license in the course of last twelve months.

**Prof. N. G. Ranga:** I meant the Geological Survey parties.

**The Honourable Shri N. V. Gadgil:** There are four parties prospecting in these four areas.

**Shri O. V. Alagesan:** What is the quantity of petroleum expected to be produced from low-grade coal?

**The Honourable Shri N. V. Gadgil:** It is too premature for me to reply.

**Dr. Mono Mohan Das:** Has the attention of the Government been drawn to a publication in the newspaper that a certain variety of vegetable oil has been found in Darjeeling and sent to Cawnpore Laboratories which can be used very safely as motor spirit?

**The Honourable Shri N. V. Gadgil:** I have no knowledge of it.

**Mr. Frank Anthony:** Is a proportion of the imported petrol stored by Government?

**The Honourable Shri N. V. Gadgil:** The normal position is that supply of 2½ months is kept at the ports and supply for one month in upcountry. Altogether there is a supply of 3½ months stored.

**Mr. Frank Anthony:** Does Government envisage at any time lifting of the present rationing of petrol?

**The Honourable Shri N. V. Gadgil:** The question of petrol supply is constantly under consideration but the main difficulty is not so much for the total supply as in the transport carrying petrol from the ports to upcountry.

**Shri H. V. Kamath:** What was India's share of the World's total production of petrol in 1938 and in 1948? Has it increased or decreased?

**The Honourable Shri N. V. Gadgil:** I can only say that in 1939 it was one per cent of the total supply.

**Shri R. K. Sidhva:** May I know whether there is sufficient storage tanks at the ports? If so, is it not a fact that last month some ship brought oil to Bombay and for want of room it was diverted to Calcutta?

**The Honourable Shri N. V. Gadgil:** My friend is aware of the fact that there was cyclone in Bombay which necessitated the divergence of the particular ship from Bombay to Calcutta.

## DENIAL OF CITIZENSHIP RIGHTS TO INDIANS IN CEYLON

**\*1000. Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable the Prime Minister be pleased to state whether Government are aware that no rights of citizenship have been conceded to the Indians residing in Ceylon by the Ceylonese Government in the recent legislation passed by it?

(b) If so, what steps have the Government of India taken or intend to take to redress the legitimate grievances of the Indians there?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs and Commonwealth Relations): (a) and (b). The correspondence exchanged between the Governments of India and Ceylon regarding the grant of rights of citizenship to Indians resident in Ceylon has already been distributed to members of this House. This correspondence explains the attitude which the Government of India have taken up in this matter. The Government of India are not satisfied with the steps taken by the Government of Ceylon. They do not think that any further step would serve any useful purpose at present.

**Dr. Mono Mohan Das:** Has the Government adopted any reciprocal measure or propose to adopt in the future?

**Dr. B. V. Keskar:** No.

## TEA CESS REALISED FROM ASSAM FOR TEA MARKET EXPANSION BOARD

**\*1001. Srijit Kuladhar Chaliha:** Will the Honourable Minister of Commerce be pleased to state the amount of tea-cess realised from the Province of Assam for the Tea Market Expansion Board?

**The Honourable Shri K. C. Neogy:** The required information is being collected and will be placed on the table of the House, when available.

## MERGER OF SIKKIM

**\*1002. Shri Ari Bahadur Gurung:** Will the Honourable the Prime Minister be pleased to state whether the people of Sikkim have approached the Government of India with a proposal to merge their State with India?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs and Commonwealth Relations): One of the political parties in Sikkim viz. the Sikkim Rajya Praja Sammelan, has sent to the Government of India a copy of a Resolution passed in January 1949 suggesting the merger of Sikkim with India and its Government as a Centrally Administered Area.

**Shri Brajeshwar Prasad:** How many political parties there are in Sikkim?

**Dr. B. V. Keskar:** There are three parties in Sikkim.

**Shri Ari Bahadur Gurung:** How do Sikkim and Bhutan stand in relation to India at the present moment?

**Dr. B. V. Keskar:** Sikkim and Bhutan, both are standing in different footing. We cannot put them together. The external relations of Bhutan are controlled through India but in other matters it is an independent State.

**The Honourable Shri Satyanarayan Sinha:** Certainly, they will be placed before the Delimitation Commission.

**Shri M. Tirumala Rao:** Will Government rely on these reports and proceed? I want to know the policy of the Government in this matter.

**The Honourable Shri Satyanarayan Sinha:** If the Delimitation Commission is appointed, then naturally these proposals will be placed before that Commission.

**Shri Biswanath Das:** When are they going to have this Delimitation of Constituencies Committee?

**The Honourable Shri Satyanarayan Sinha:** I have said that the whole thing is under consideration of the Government.

#### RECOGNITION OF THE STATE OF ISRAEL

**\*1004. Srijut Kuladhar Chaliha:** (a) Will the Honourable the Prime Minister be pleased to state whether the Government of India are going to recognise the State of Israel?

(b) Are Government aware that the Governments of Australia and South Africa, both members of the Commonwealth, have already recognised the State?

(c) What are the reasons that prevented the recognition of the State by the Government of India?

**Dr. B. V. Keskar** (Deputy Minister of External Affairs and Commonwealth Relations): (a) and (c). The Government of India are closely studying the situation and are keeping in touch with the latest developments. The United Nations are at present dealing with this matter. The Government of India will take appropriate decisions as soon as they consider the time is ripe for it.

(b) Yes.

**Shri H. V. Kamath:** Is it a fact that Israel is an established State and has come to stay?

**The Honourable Shri Jawaharlal Nehru:** It is undoubtedly a State which is functioning as such; and the honourable member's opinion about its having come to stay may be correct.

**Shri M. Tirumala Rao:** In reference to (b), India being in the Commonwealth, did Australia and South Africa consult India before they granted recognition to Israel?

**The Honourable Shri Jawaharlal Nehru:** It is not considered necessary for each Government to consult other governments when they take any action that they may take.

**Shri M. Tirumala Rao:** Is it not a fact that the British Prime Minister asserted that whatever is done in the Commonwealth is done after consultation with the members of the Commonwealth?

**The Honourable Shri Jawaharlal Nehru:** I might inform the House that the Government of the United Kingdom informed us of the steps that they were taking.

**Shri K. Hanumanthaiya:** What is the reason for the Government of India not recognising the State of Israel?

**The Honourable Shri Jawaharlal Nehru:** Because the time was not ripe to consider that question in that way.

**Shri H. V. Kamath:** Does the Honourable the Prime Minister recollect the statement he made on the floor of the House on 20th August last on this subject—I am reading from the official report—to the effect that we must know

#### STARRED QUESTIONS AND ANSWERS

exactly what the international position is. Is his attitude the same to-day, as it was on 20th August? Is he still studying the international position?

**The Honourable Shri Jawaharlal Nehru:** Exactly the same, except for the fact that some months have elapsed since then, and for the things that have occurred during the period that has elapsed.

#### ASSISTANCE TO INDONESIA

**\*1005. Shri H. V. Kamath:** Will the Honourable the Prime Minister be pleased to state what assistance India proposes to render to Indonesia in resisting the Dutch aggression?

**The Honourable Shri Jawaharlal Nehru:** As the honourable member is aware, the Government of India held a Conference of interested nations in Delhi to consider the situation in Indonesia and to suggest a solution within the frame-work of the United Nations. The Conference has passed a Resolution urging certain steps to be taken with regard to the Indonesian Conflict and promised the whole-hearted co-operation of the member states in implementing any measures that the Security Council might decide to take. The report of the United Nations Commission to the Security Council has not yet been considered by that body and further action on our part will depend upon the course of the discussions in the Security Council which will shortly take place.

**Shri H. V. Kamath:** Isn't it a fact that the Security Council resolution on this subject falls short of the resolution adopted at the Asian Conference on Indonesia?

**The Honourable Shri Jawaharlal Nehru:** Yes, to some extent it does.

**Shri H. V. Kamath:** Does Government propose therefore to make a *de atche* on this subject at the next session of the General Assembly of the United Nations?

**The Honourable Shri Jawaharlal Nehru:** We will consider what steps we shall take at the time of the next session of the United Nations.

**Maulana Hasrat Mohani:** Is our assistance formal or substantial?

**The Honourable Shri Jawaharlal Nehru:** Our assistance has already proved to be very substantial and important.

#### HARIJAN SECTION OF MINISTRY OF RELIEF AND REHABILITATION

**\*1006. Prof. Yashwant Rai:** Will the Honourable Minister of Relief and Rehabilitation be pleased to state the work done by the Harijan Section of his Ministry during the year 1948?

**The Honourable Shri Mohan Lal Saksena:** A report is laid on the table of the House.

#### STATEMENT

*Note on evacuation, Relief and Rehabilitation Problem of Harijan refugees. Work done and future programme*

Harijans are the most poor and backward class of our Society. They need special attention. In order, therefore, that the interests of Harijans in the matter of evacuation, Relief and Rehabilitation should receive prompt and adequate attention, a separate Section was deemed necessary for them. To all intents and purposes Harijan Section started functioning from first March, 1948 when its field workers were posted to various zones of work.

*Evacuation.*—The position in regard to evacuation stands as under:

|                                                       |          |
|-------------------------------------------------------|----------|
| ...                                                   | 3,50,000 |
| (1) Harijans evacuated from West Punjab               | ...      |
| (2) Harijans evacuated from Sind                      | ...      |
| (3) Harijans evacuated from Bhawalpur and N. W. F. P. | ...      |
|                                                       | 30,000   |

With regard to Sikkim, in many matters it is controlled by the Government of India but in many matters it stands independently, not exactly as a State within India. It is something between a State in India and an Independent State.

**Shri Ari Bahadur Gurung:** Is it a fact that Sikkim and Bhutan have claimed certain parts of Indian territory? If so, what action the Government proposes to take?

**The Honourable Shri Jawaharlal Nehru:** Various claims have been put forward from time to time. Government of India have not considered those claims in the past as valid claims. But recently we have been considering a fresh treaty with Bhutan and we are agreeable to conceding a very small area—I think it is about 45 square miles—which has some sentimental value to them. We are prepared to consider cession of that area to Bhutan.

**Shri Ari Bahadur Gurung:** Has Government information that consequent on agitation for accession to India, there had been some arrests and commotion in the State?

**Dr. B. V. Keskar:** We have received report that certain parties started agitation and some persons were arrested but they have now been released.

**Shri Ari Bahadur Gurung:** Has the Indian Representative stationed at Gangtok taken any steps in the matter?

**Dr. B. V. Keskar:** Our Agent there has taken note of the situation and is in consultation with the State.

**Prof. N. G. Ranga:** What is the total population of Sikkim State?

**Dr. B. V. Keskar:** I have not got it here.

**Mr. Tajamul Husain:** I have not understood the position about Sikkim. Is it the position that Sikkim has not acceded to the Indian Union?

**The Honourable Shri Jawaharlal Nehru:** Sikkim has not acceded. The question in that shape has not arisen. All these matters are pending and under consideration. The present position is that the old relations of Sikkim and Bhutan with the Government of India continue. What exactly the future relation will be is a matter for consideration between Sikkim, Bhutan and the Government of India.

**Shri Brajeshwar Prasad:** May I know whether the foreign relations of Sikkim are controlled by the Government of India?

**The Honourable Shri Jawaharlal Nehru:** Sikkim has no foreign affairs.

#### GENERAL ELECTIONS

**\*1003. Shri Biswanath Das:** Will the Honourable Minister of Law be pleased to state:

- the steps so far taken to hold the general elections;
- whether Government have begun the delimitation of constituencies in different provinces; and
- if so, the manner in which the same has been undertaken?

**The Honourable Shri Satyanarayan Sinha (Minister of State):** (a) The Secretariat of the Constituent Assembly of India has addressed the Governments of the Provinces and States asking them to prepare preliminary electoral rolls. Every person who is not less than 21 years of age on the 1st January, 1949, and has a permanent place of residence in the area to which the electoral roll relates or has resided in that area for not less than 180 days in the year ending 31st March, 1948, is being included in these rolls. The progress of the work of preparation is satisfactory. In Madras, East Punjab and Assam the preparation of the preliminary rolls has already been completed and they

are now being printed. The printed rolls will be published in due course, and claims and objections invited. They will then be revised. The printed rolls, with any necessary omissions together with a supplementary list of any necessary additions will form the final rolls. It is not intended that the final rolls should be reprinted.

(b) and (c). No, but Provinces and States have been requested to conduct a preliminary examination and submit provisional proposals in regard to the delimitation of constituencies for the House of the People.

**Shri H. V. Kamath:** Has Government's attention been drawn to a statement made by the C. P. Government the other day in the Provincial Assembly that though the Constituent Assembly has adopted a resolution to the effect that elections should be held in 1950, it is doubtful if elections could be held even in 1951?

**The Honourable Shri Satyanarayan Sinha:** None that I know of.

**Shri Biswanath Das:** Have Government considered the difficulties involved in the preparation of electoral rolls before actual delimitation of constituencies?

**The Honourable Shri Satyanarayan Sinha:** I do not think there will be any difficulty in their preparation.

**Mr. Frank Anthony:** Are there enough printing presses in the country to print the electoral rolls within a period of two years?

**The Honourable Shri Satyanarayan Sinha:** Yes, there are.

**Srijut Rohini Kumar Chaudhuri:** Is it the intention of Government to set up a delimitation commission on an all-India basis as was done in the year 1935?

**The Honourable Shri Satyanarayan Sinha:** This matter was discussed informally, and it is under consideration.

**Shri Biswanath Das:** Has the Government seen the difficulties of members of this House who will not be able to stay in their constituencies for 180 days?

**Mr. Speaker:** We are going into unnecessary details. This is a subject on which a number of suggestions can be made in the form of questions. The honourable members should ask for information and not suggest arguments.

**Shri Biswanath Das:** I do not suggest argument, Sir. Mine is a definite question requiring a definite answer. I want to know if Government has considered this difficulty of.....

**Mr. Speaker:** I think these difficulties may be placed before Government outside this House.

**Shri Deshbandhu Gupta:** In view of the fact that a large number of refugees are still unsettled, has Government issued any special instructions to the different provinces in regard to the enrolment of refugees?

**The Honourable Shri Satyanarayan Sinha:** I want notice of that question.

**Shri R. K. Sidhya:** May I know whether the Honourable the Law Member himself made a statement to the Press last month that in view of the difficulties, although the Constituent Assembly had passed such a resolution, it is not possible to hold the elections in 1950?

**The Honourable Shri Satyanarayan Sinha:** It may be his personal opinion, and the Honourable the Law Member is, unfortunately not present here.

**Shri M. Tirumala Rao:** With regard to (b), the Honourable Minister said that the Provinces and States have been requested to conduct a preliminary examination and submit a report about the delimitation of constituencies. May I know whether these reports will be placed before the Delimitation Commission?

*Future Programme.*—1. Evacuation and rehabilitation of about 2 lac Harijan refugees from Sind, 50,000 from West Punjab and about 10,000 from Bahawalpur States and Frontier.

2. Resettlement of at least 10,000 agriculturist refugees in Matsya Union.
3. Resettlement of 10,000 agriculturists in C. P.
4. Agricultural scheme for absorbing 1,500 Harijans agriculturists families on Radhanpur lands (Bombay Province).
5. *Madhya Bharat.*—An agricultural scheme has been received through the agency of Prof. N. R. Malkani, Regional Director, C. P. and U. P. The scheme is being examined.
6. Construction of 500 more houses at Ahmedabad for which 10 acres of land have been sanctioned. The scheme is being finalized.
7. Construction of about 5,000 houses for giving shelter to Harijan refugees staying in Rajputana Region.
8. A proposal to construct about 1,000 more houses for Harijan refugees in Delhi is under consideration.
9. Leather works for Harijan refugees to be organized on Co-operative basis at Delhi.
10. Resettlement of 10,000 agriculturists on Jaipur lands.
11. Resettlement of 10,000 agriculturists on Udaipur lands.
12. Settlement of Harijan refugees labourers on Development of major port of Kandla, two proposed new Railway lines and construction work of Gandhi Dham, a town for Sindhi refugees.
13. Resettlement of 50,000 agriculturists refugees of East Punjab.
14. A programme for constructing 5,000 houses for Harijans and organizing their Co-operative Industrial Societies.

SHEWAKRAM KARAMCHAND.

Director,  
Harijan Section.

**Dr. Mono Mohan Das:** What is the total number of Harijans that have come over to India from Pakistan?

**The Honourable Shri Mohan Lal Saksena:** I can give you the information province-wise:

3,50,000 Harijans have been evacuated from West Punjab, 1,50,000 Harijans have been evacuated from Sind. 30,000 Harijans have been evacuated from Bhawalpur and N.W.F.P.

**Dr. Mono Mohan Das:** May I know how many of these Harijans have been rehabilitated up till now?

**The Honourable Shri Mohan Lal Saksena:** I could not give the exact numbers, but from the report which I have laid on the table it will appear that we have built 500 quarters for Harijans in Delhi, while some of them have also been settled on land.

**Shri V. C. Kesava Rao:** Is the Government aware that Harijans are prevented from coming away from Pakistan? If so what steps are being taken to look into this?

**The Honourable Shri Mohan Lal Saksena:** I have already stated on a previous occasion that the Harijans are not prevented from coming away. But they wanted to bring away their cattle and the cattle were not allowed to be removed from Pakistan under an order issued by the Government there.

**Shri V. C. Kesava Rao:** What is the number of Harijans still remaining in Pakistan?

**The Honourable Shri Mohan Lal Saksena:** There are still about 50,000 Harijans in West Punjab and about 2,00,000 in Sind and a few thousands left in Bhawalpur and Frontier.

**Shrimati Dakshayani Velayudhan:** May I know the reasons that prompted the Government to create a separate section for the Harijans?

**The Honourable Shri Mohan Lal Saksena:** It was felt that the rehabilitation of Harijans would require special consideration and it was considered necessary that there should be some department to look after their rehabilitation. As a matter of fact they are not able to take care of themselves as displaced persons belonging to other communities.

**Shri V. C. Kesava Rao:** May I know whether any reports have been received by the Government that Harijans are compelled to convert themselves to Islam?

**The Honourable Shri Mohan Lal Saksena:** There may have been cases of forcible conversions, but the Government has not received any reports.

**Seth Govind Das:** What effort is being made by the Government for bringing those Harijans from West Pakistan who wish to come over to India?

**The Honourable Shri Mohan Lal Saksena:** We have got a camp at Lahore and one in Karachi and those Harijans and others who want to come to India, are first brought to these camps and then to India.

There are still about 50,000 Harijans in West Punjab about 2,00,000 in Sind and a few thousands left in Bhawalpur and Frontier.

**Rehabilitation.**—Rehabilitation connotes two things—providing shelter and work to refugees. Keeping these two aspects in view, the field-workers of this Section are working everywhere through the agency of local Government for the resettlement of Harijan refugees.

*The achievements made are broadly stated here-under :*

**Delhi.**—1. 500 quarters are under construction in Sat Nagar, a very decent and sanitary locality of Karol Bagh. Out of the number 268 houses are complete. The Colony has been fitted with 45 flush latrines, and a number of sanitary urinals. A commodious common hall, two big school rooms, a well equipped dispensary, small bazar comprising of six shops of ration, cloth, sundries, general-stores, restaurant and hair-cutting saloon are main features of this refugee colony. A multi-purpose Co-operative Society of Harijan refugees has been organised for various activities of the Society. The society proposes to raise its members educationally, economically, and socially. It has set definite programme of work to move forward in these directions. A school has started functioning. Majority of the members are good and efficient *chaplis* makers. But as they are disorganized, they have not been making a decent earning. In order, therefore, to get them adequate work, a scheme to secure order for supply of 50,000 Chaplies from the Industry and Supply Department is being pursued. Otherwise even leather workers are being organized on co-operative basis, under the auspices of the Society.

2. In the Province of Delhi not less than 1,000 persons have been employed in Municipalities. Notified Areas and on construction works, through the efforts of field-workers of this Section. Besides about 500 others with the aid and guidance of the workers have resettled themselves.

3. Illiterate and poor people as Harijan refugees are, they did not avail of the benefit of free ration. A heavy price of cereals which they paid reduced them to a pitiable plight. The workers of this Section helped and guided them and today there is hardly a Harijan refugee who is without a ration-card.

**Rajputana Region.**—There are about 65,000 Harijan refugees spread widely in this region.

(a) **Bikaner State.**—15,000 farmer Harijan refugees have been resettled on agricultural lands in the fertile tract of Gang-Colony. The new settlers have been awarded Taccavi loan to the extent of about Rs. 5,00,000. Free ration is allowed to them till they are able to raise first crop. 7,000 more are anxiously awaiting for being put on lands. 2,000 others in the State are doing labour work in a haphazard way.

(b) **Jodhpur.**—Jodhpur State alone has 20,000 Harijan-refugees, out of them about 6,000 are in Marwar and Marwar Pali Transit Camps. 6,000 others are earning their livelihood by doing shoe-repairing, bidi-making work at Jodhpur city. Similarly, about 3,000 and 1,000 are doing the same work at Barmer and Balotra respectively. About 1,000 have been employed as labourers. About 3,000 are absolutely idle and awaiting agricultural settlement in Matsya Union. Leather work and shoe-making business has been dull during last few months on account of closing of Jodhpur Railway line and export restrictions to Pakistan. Efforts are being made to get them adequate work from Industries on co-operative lines. 3,000 to 4,000 Harijans are lying shelterless in Jodhpur State.

(c) **Udaipur.**—200 families of contractors, masons, carpenters and labourers are all employed on building works.

(d) **Jaipur.**—There are about 800 Harijan refugees in this State. They are masons and building labourers. They are mostly employed.

(e) **Jaisalmer.**—There are about 1,000 Harijan living in Jaisalmer. They are in a bad predicament. Their condition is bad on account of no rains during last year.

**Ajmer and Beawar :**

(a) **Ajmer.**—About 300 families have been settled in Ajmer. They are doing leather tanning and *Chaplis* making work. Some are employed as artisans, and some are working in Railway. A few families have taken to black-smiths work and the rest are employed as labourers.

(b) **Beawar.**—About 320 families are engaged in wool-pressing, cloth printing and *sirki* making, gunny bag stitching and the rest are employed as unskilled labourers. The cloth printing workers have been affected on account of rationing of cloth. Some have moved on and the rest are being shifted to Ahmedabad, where there is sufficient scope for their absorption in cloth printing work.

**Matsya Union.**—About 1,000 Harijan refugees have already obtained lands here. 2,000 Labana Sikh-backward class refugees are doing rope and Van-making work. But as they are disorganized they are just eking out their existence.

**Gujrat.**—1. The housing Colony of 260 houses has been constructed at Vadaj in Ahmedabad by Bombay Government. The new Colony is named as Gandhi Nagar. 40 flush latrines with two septic tanks have been installed in the Nagar. Roads and bye-lanes have been constructed and street lights are provided in the Colony.

2. Co-operative provision store run by Harijans has been started for the residents of this Basti.

3. A weaving centre is organized in the Colony for the benefits of the weaver refugees.

4. Number of Harijan refugees in Gujrat is about 22,000 out of them 6,000 persons are in camps. 16,000 living outside camp have taken to one or the other kind of work. They are masons, tanners, leather workers, mochies, weavers, artisans and labourers. But some of them are struggling as they have not been able to consolidate their economic position. Attempts are being made to employ them in local mills. The Mill-owners Association was persuaded to pass a resolution by which they have undertaken to absorb about 1,000 to 1,100 persons in the local mills. Hundreds have been employed on construction works. In order to consolidate rehabilitation of leather workers they have been organized on co-operative lines. Refugee leather workers Co-operative Society has been formed.

5. One thousand families of agriculturists lying in camps are thirsting for land. Arrangements are being made to move them to Matsya Union lands where 10,000 refugee-Harijans are going to be settled. In this Zone (Gujrat) the Central Relief Committee has been mainly functioning with the active co-operation and through the agency of Officer of Harijan Section incharge of Gujrat.

**Saurashtra.**—1. 230 houses have been built at Jam Nagar and Beri-Bunder by Saurashtra Government. Most of the Harijan refugees were able to get work in the start, but on account of famine conditions prevailing in Kathiawar they were thrown out of jobs. However, a long duration public works are to be started by the new Saurashtra Government, which would go a long way to reabsorb them. Weaving scheme for engaging refugee weavers is being pursued.

2. 3,000 acres of land have been obtained from Junagadh Administration for agriculturist refugees, and 150 to 200 families are put on these lands. The administration is being urged to allot 3,000 more acres of land to refugee-agriculturists.

**Cutch.**—1. 25,000 Harijan refugees flocked to this territory in the wake of migration, on account of their old linguistic and cultural ties with local people. But as Cutch affords slender scope for rehabilitation majority of them left for Kathiawar and Gujrat and some even went back to Pakistan. There are at present about 8,000 Harijans refugees in Cutch, 4,000 of them were resettled on land, but on account of draught year as there was scanty rain-fall last year, their condition is far from satisfactory.

2. There are three immediate prospects of employing Harijan refugees in this territory. Cutch is now centrally administered area. Kandla is going to be developed as one of the major ports by our Government. Two railway lines connecting the territory with India are also sanctioned. Besides Gandhi Dham, a town for Sindhi refugees is being built by the Sindhi Resettlement Corporation Ltd., Bombay, with the aid of Central Government. These three schemes afford immediate scope for the absorption of starting Harijan refugees.

3. Efforts were made during the last year to employ Harijan refugees as labourers on public works. Hundreds of them have obtained employment from time to time.

**Bombay.**—1. Most of Harijan refugees are living in Kalyan, Akbar, South Devlali, Lake Beale, Pawai camps. Their number including backward class refugees is about 15,000.

2. 1,100 labour class refugees obtained work on docks especially with the efforts of Central Relief Committee. Some artisan Harijans of Pawai Camp have resettled themselves by getting employment in various Industrial concerns and in Railways.

3. Weaving Co-operative Society has been organized in South Devlali Camp. About 25 Weaver-families are settled.

**East Punjab.**—1. Most of the Punjab Harijan refugees are agriculturists. 50,000 agriculturist families comprising of 2,50,000 persons are thirsting for land. But they do not want to remain merely as tenants-at-will. They are claiming full occupancy rights. They have, therefore, not been able to get land. Only a small number, a couple of hundreds, have been resettled on evacuee land. A small fraction was employed on Bakhra Dam and other construction works. Some of the Harijan refugees have engaged themselves in sports industry, but the majority of them are still unsettled and roaming from pillar to post as they are not able to obtain agricultural land. Schemes to train and absorb them as artisans and technicians are being considered by the East Punjab Government.

2. 6,000 Sind Harijan refugees were employed on Ferozepur Embankment works for a period of 3 months from June to August 1948. These refugees were moved from Rajputana Camps to Ferozepur. These refugees were doing cultivation work in Sind, they are at present in Marwar and are awaiting agricultural resettlement.

**Central Provinces.**—2,200 Harijans are staying in Camps. They are agriculturists and are awaiting agricultural resettlement.

## STATEMENT

1408 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [9TH MARCH 1949]

## STATEMENT

*Imports of foreign cloth into India during April—October 1948.*

## HOUSES REQUISITIONED IN DELHI

85. **Shri Deshbandhu Gupta:** Will the Honourable Minister of Works, Mines and Power be pleased to state:

(a) the number of houses that have been requisitioned by Government in Delhi for Governmental purposes till 31st December, 1948;

(b) in how many cases alternative accommodation was provided to the residents;

(c) the number of houses requisitioned by the Deputy Commissioner, Delhi for the requirements of the local Government and its servants during the same period; and

(d) the number of appeals filed by the landlords or residents of the requisitioned houses and the result of the same?

**The Honourable Shri N. V. Gadgil:** (a) to (d). A statement containing the required information is placed on the table of the House.

| By whom requisitioned                    | Act or Ordinance under which requisitioned                     | Total number of houses requisitioned till 31st December, 1948 | No. of cases in which alternative accommodation was provided to the residents | No. of appeals filed | Result of appeals                                       |

## RIVER VALLEY PROJECTS

86. **Shri S. Nagappa:** Will the Honourable Minister of Works, Mines and Power be pleased to state the major river valley projects of which plans and estimates are ready province-wise?

**The Honourable Shri N. V. Gadgil:** A statement giving the required information is placed on the table. This is based on information readily available in the Secretariat.

## STATEMENT

List of major river valley projects for which plans and estimates are more or less in an advanced state of preparation.

|                                          |                        |
|------------------------------------------|------------------------|
| (1) Damodar Valley Project . . . . .     | West Bengal and Bihar. |
| (2) Mor Project . . . . .                | West Bengal.           |
| (3) Hirakud Dam Project . . . . .        | Orissa.                |
| (4) Tungabhadra Project . . . . .        | Madras.                |
| (5) Bhakra and Nangal Projects . . . . . | East Punjab.           |
| (6) Ramapadasagar Project . . . . .      | Madras.                |
| (7) Riband Project . . . . .             | U. P.                  |
| (8) Kosi Project . . . . .               | Bihar and Nepal.       |

**Dr. P. S. Deshmukh:** May I know what is the number of Harijans who are employed in this Harijan section of Relief and Rehabilitation?

**The Honourable Shri Mohan Lal Saksena:** I would require notice of that question.

**Shri R. K. Sidhva:** The Honourable Minister stated a fortnight ago in this House that there were some difficulties with regard to the Harijans from Sind and they could not be evacuated. May I know whether since then any effort has been made and what are the difficulties which impede their evacuation, although they are anxious to leave Pakistan?

**The Honourable Shri Mohan Lal Saksena:** If the honourable member will recollect, I stated on that occasion that these Harijans want to come back but they do not want to leave their cattle behind: and if it is left to their choice to leave without their cattle, they would rather remain there. Since there is water shortage, they could not even come by land. Besides, at present there is no railway communication by the Jodhpur Railway. Therefore, there is no question of their coming out just now.

**Shri Upendranath Barman:** Is it a fact that the quarters built for the refugee Harijans by the Central Government lie distinct, and at a distance from the quarters built for others?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact it is not correct to say that Harijans are not being allotted quarters in the colony built for others. But this colony has been specially built for the accommodation of Harijans and therefore they are being allotted houses there.

**Shri V. C. Kesava Rao:** May I know what are the reasons for this segregation?

**The Honourable Shri Mohan Lal Saksena:** As a matter of fact there is no question of segregation. There was a large number of Harijans in Delhi, and because this section considered that their housing should be taken up at an earlier date, while the construction of the other houses was likely to be delayed, this colony was built. But in addition to this, Harijans are allotted quarters in the other colony.

#### PROMOTIONS TO POSTS OF SUB-DIVISIONAL OFFICERS IN C.P.W.D.

**\*1007. Sardar Hukam Singh:** (a) Will the Honourable Minister of Works, Mines and Power be pleased to state whether it is a fact that in the Central Public Works Department the posts of Sub-Divisional Officers are filled by (i) recruitment of technical graduates; and (ii) promotion of non-graduates who have rendered approved service and merit such promotion?

(b) Is there any proportion fixed for the two categories for promotion?

(c) How many non-graduates have been promoted as Sub-Divisional Officers and how many graduates have been directly recruited during the last eighteen months?

(d) Are the fresh graduates recruited through the Federal Public Service Commission?

(e) If the answer to part (b) be in the negative, is the Government considering the desirability of fixing some ratio so that the deserving approved service subordinates may have a chance?

**The Honourable Shri N. V. Gadgil:** (a) (i) Yes.

(ii) promotion on the basis of selection by merit of those non-graduates only who are permanent Section Officers in the Department.

(b) No

(c) No non-graduates have been promoted as Sub-Divisional Officers and the number of graduates directly recruited on a temporary basis is 59.

(d) In future all direct recruitment to these services is to be made through the Federal Public Service Commission.

(e) Yes, it is proposed to do so shortly.

**Shrimati G. Durgabai:** May I know whether it is a fact that the Ministry makes its own appointments first in the vacancies and then notifies the Federal Public Services Commission to invite applications to fill these posts?

**The Honourable Shri N. V. Gadgil:** Where the appointment is absolutely necessary in the interests of efficiency, a temporary appointment is made and the post is then notified through the Federal Public Services Commission.

**Shrimati G. Durgabai:** May I know whether the new applicant has any chance to secure the job for himself, because a temporary incumbent comes in in order to gain the advantage of his having secured considerable experience?

**The Honourable Shri N. V. Gadgil:** That is not so. The Federal Public Services Commission is free to recommend anybody and their recommendations are invariably accepted.

**Prof. N. G. Ranga:** Are such appointments the exception or the general rule?

**The Honourable Shri N. V. Gadgil:** As I have already stated where it is absolutely necessary in the interests of efficiency, a temporary appointment is made.

**Prof. N. G. Ranga:** Will Government supply this House with information in regard to the practice followed during last year: in how many cases they have made these appointments as temporary to start with: and how many of them have later come to be accepted by the Federal Public Services Commission?

**The Honourable Shri N. V. Gadgil:** The honourable member can put a question and it will be answered.

**Prof. N. G. Ranga:** That is why I have put this question and I want the Honourable Member to place the information on the table of the House.

**The Honourable Shri N. V. Gadgil:** It is not possible to reply to this question offhand.

**Mr. Speaker:** What he means is that he will be satisfied if a promise is given that a statement will be placed on the table of the House.

**The Honourable Shri N. V. Gadgil:** Most certainly.

**Mr. Speaker:** That is all right.

#### UNSTARRED QUESTIONS AND ANSWERS IMPORT OF FOREIGN CLOTH

**84. Dr. Mono Mohan Das:** (a) Will the Honourable Minister of Commerce be pleased to state how many yards of foreign cloth have been imported into this country during the year 1948?

(b) What is the total cost of this imported cloth?

(c) From what foreign countries has it been imported?

**The Honourable Shri K. C. Neogy:** (a) to (c). A statement giving the required information is placed on the table of the House.

As soon as I saw the issue I thought I had made a mistake and immediately wrote to Shri Sidhva on March 4th regretting the mistake and promising to enquire how it occurred. The honourable member, however, desired that as the reply was given in the House the mistake should be admitted there.

I have now inquired into the matter. The city edition of the 'National Herald' dated January 5th, 1948 was numbered "Volume VII, No. 5". The city edition dated January 7th was numbered "Volume VII, No. 6". It was therefore inferred that there was no city edition on Tuesday, January 6th. There, however, appears to have been a morning edition on the 6th which is also numbered as "Volume VII, No. 6". I am sorry that this confusion should have arisen at all.

## CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) DEBATES

(PART I—QUESTIONS AND ANSWERS)

Thursday, 10th March, 1949

The Assembly met in the Assembly Chamber of the Council House at a Quarter to Eleven of the Clock, Mr. Speaker (The Honourable Mr. G. V. Mavalankar) in the Chair.

### STARRED QUESTIONS AND ANSWERS.

(a) ORAL ANSWERS

CENSUS FOR 1951

\*1008. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether the 1951 Census work has been taken in hand?

(b) Will the fresh census report show particulars of profession, business and service of every adult as also his income?

(c) Will it also give statistics of unemployed persons?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes.

(b) No information will be extracted about income but the other matters will be covered.

(c) No; Sir.

**Shri R. K. Sidhva:** May I know whether this census will be on the model of 1941 or 1931 census? In the 1941 census certain heads were omitted. May I know whether this census will be a complete census under all the heads as the 1931 census?

**The Honourable Sardar Vallabhbhai Patel:** We will try to make it as complete as possible. I cannot say at present exactly whether it will be according to the 1931 or the 1941 census.

**Shri H. V. Kamath:** Will the general elections have to await the returns of this census?

**The Honourable Sardar Vallabhbhai Patel:** I cannot say that. I am concerned with the census, not with the general elections.

**Shri H. V. Kamath:** Has the Honourable Minister's attention been drawn to a statement made by the C. P. Government in the Provincial Assembly last week that though the Constituent Assembly has resolved to hold general elections next year, in 1950, it is doubtful if the elections could be held even in 1951?

**The Honourable Sardar Vallabhbhai Patel:** If it is feasible the elections will be held in 1951; if it is not feasible they will be held later. Nobody can say.

**Prof. K. T. Shah:** May I point out that there is really an important omission in the 1941 census as compared to the 1931 census, that is to say with regard to the table of occupations.

REFUSAL BY RESERVE BANK TO RECOGNISE TRANSFER OF SHARES  
AFTER 30TH NOVEMBER, 1948

**Mr. Naziruddin Ahmad:** Will the Honourable Minister of Finance be pleased to state:

(a) whether it is a fact that the Reserve Bank of India, after it was nationalised, issued a general notice that its share register would be closed on the 30th November, 1948 and that all applications for transfer of its shares must be made on or before that date;

(b) whether it is a fact that a large number of *bona-fide* transferees of shares of the Bank, holding them under blank transfers, did not get any notice and applied for registration after the said date; and

(c) whether it is a fact that the Reserve Bank of India is refusing to recognise these transfers and is paying compensation to registered share-holders in spite of these transfers?

**The Honourable Dr. John Matthai:** (a) The Government of India issued a Press Note as early as the 19th October 1948 that the Reserve Bank would close the share registers from the 1st December 1948.

(b) The Bank cannot obviously have knowledge of the transferee until and unless he has lodged a duly completed transfer deed with the Bank. The question of notice in such cases does not therefore arise. The notice of closure, which was published in both English and Indian language news papers by all offices of the Reserve Bank was however given sufficiently early to enable any person who had acquired shares and had not registered them in his own name to correct his position.

(c) The Reserve Bank have necessarily to act within the provisions of the Reserve Bank (Transfer to Public Ownership) Act, 1948, and the rules framed thereunder, in terms of which compensation may be paid only to a person who was registered as a share-holder of the Reserve Bank on the 31st December 1948 or his legal representative. The registered holder does not however get payment unless he can produce the share certificate so that if he had sold the shares and cannot produce the share certificate, he cannot obtain compensation. In cases of genuine inconvenience, the Reserve Bank try to assist the transferee to obtain compensation though some delay is inevitable. In some such cases which were brought to the notice of the Reserve Bank, Government understand that on the initiative of the Bank, the transferers and transferees were brought together and compensation was paid to the proper parties by mutual arrangements.

**Mr. Naziruddin Ahmad:** Is it a fact that only general notice was given and no individual notice was given to each of the shareholders?

**The Honourable Dr. John Matthai:** Sufficient notice was given to all the share-holders through the public notice that we issued. The position is that the Act passed by the Legislature was published in the Gazette as early as the 23rd September. Then the Government of India issued a press note on the 19th October that the Reserve Bank would close the share registers from the 1st December 1948. It was impossible for the Reserve Bank to have done anything else in the circumstances, because compensation was payable on the 1st January and every thing possible therefore was done.

**Mr. Naziruddin Ahmad:** I am not blaming the Reserve Bank. Is it a fact that there are a very large number of share-holders who hold under blank transfers but who did not actually receive notice and when they applied compensations were not being paid although transfer deeds and original scrips were submitted, yet in spite of these the Reserve Bank is not paying the compensation money to the transferee? I am not complaining against the Reserve Bank. I want to know whether a large number of shareholders were affected by the absence of any personal notice.

**The Honourable Dr. John Matthai:** Since I received the honourable member's question I got into touch with the Reserve Bank on this matter and I am informed by the Reserve Bank that there has been no serious complaint of inconvenience or hardship. If there is any genuine case of inconvenience or hardship the Reserve Bank will do its best to place its offices informally at the disposal of the parties concerned so that a mutually satisfactory arrangement can be made.

**Mr. Naziruddin Ahmad:** Is it a fact that some applications for compensation money supported by the application of the registered holder and transfer deed and scrip have been ignored? Has there been any such case?

**The Honourable Dr. John Matthai:** If the honourable member is aware of any such cases and he will give me details of them I will have them brought to the notice of the Reserve Bank.

**Shri B. Das:** May I know if such blank transfers as have been referred to by Mr. Naziruddin Ahmad were done for the purpose of speculation by capitalists after the Reserve Bank Act was amended?

**Mr. Speaker:** What is the question? What is the information which the honourable member wants to know?

**Shri B. Das:** I wanted to know if the transfers were done with a view to speculate after the Reserve Bank Act was amended. However, there is a second question which I would like to ask regarding the alleged complaint of hardship to some transferees. Are there a very large number of such cases or only a few?

**The Honourable Dr. John Matthai:** As far as my information goes, few.

STATEMENT BY MINISTER OF STATE FOR RAILWAYS AND TRANSPORT IN CONNECTION WITH THE ANSWER TO SHRI R. K. SIDHVA'S STARRED QUESTION NO. 483 OF 18TH FEBRUARY, 1949 RE THE PUBLICATION OF CERTAIN NEWS IN THE NATIONAL HERALD OF THE 6TH JANUARY, 1948.

**The Honourable Shri K. Santhanam:** Sir, on the 18th February, 1949 my honourable friend Shri R. K. Sidhva asked question No. 483, part (b) of which was as follows:

"Has the attention of Government been drawn to a news which appeared in the 'National Herald' dated 6th January 1948 stating that the Divisional Railway Authorities refused to cooperate with the District Magistrate of Dehra Dun in his drive against corruption?"

I gave the following reply:

"Government are informed that there was no issue of the 'National Herald' on the 6th January 1948."

On March 4th Shri Sidhva produced a copy of the 'National Herald' dated January 6th, 1948, and wrote to the Honourable the Deputy Speaker that an apology was due to him and to the House for the wrong statement made.

**CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE)**  
**DEBATES**

(PART I—QUESTIONS AND ANSWERS)

*Tuesday, 1st February, 1949*

The Assembly met in the Assembly Chamber of the Council House at New Delhi, at a Quarter to Eleven of the Clock, being the First day of the Fourth Session of the Constituent Assembly of India (Legislative), pursuant to subsection (2) (a) of Section 19 of the Government of India Act, 1935, as adapted by the India (Provisional Constitution) Orders, 1947. Mr. Speaker (The Honourable Mr. G. V. Mavalankar) was in the Chair.

**STARRED QUESTIONS AND ANSWERS**

(a) ORAL ANSWERS

REPORT OF ECONOMY COMMITTEE

\*1. Shri R. K. Sidhva: (a) Will the Honourable Minister of Finance be pleased to state whether Government have received the report of the Economy Committee and if so, what are their recommendations and whether Government have examined them?

(b) When do Government intend to announce their decision?

The Honourable Dr. John Matthai: (a) Interim reports on some of the Ministries have been received and are under examination, pending receipt of the final reports. Generally, these interim reports recommend reduction of staff in varying degrees in different Ministries.

(b) As early as possible after receipt of the final report.

Shri R. K. Sidhva: May I know, Sir, whether the report suggests the abolition of Assistant Secretaries in some of the Ministries?

The Honourable Dr. John Matthai: The proposal, Sir, covers a wide variety of matters and I am not in a position to give a definite answer straightaway.

Shri R. K. Sidhva: Has any suggestion been made about the subordinate staff?

The Honourable Dr. John Matthai: When Government have completed the examination of these reports, the House will have a full opportunity to examine these matters in the light of the final report.

**Shri R. K. Sidhva:** Will not Government immediately examine each Ministry's suggestions, which have been sent in, instead of waiting for reports from all the Ministries? What is the intention?

**The Honourable Dr. John Matthai:** I propose to do as much as possible in that direction, but the honourable member will realize that in a matter of this kind, it is necessary for Government to get a complete picture of the situation.

**Shri B. Shiva Rao:** Will the House have an opportunity to discuss this report before final action is taken?

**The Honourable Dr. John Matthai:** Yes.

**Prof N. G. Ranga:** How soon will it be when the report will be circulated among the members of this House?

**The Honourable Dr. John Matthai:** I propose to have the examination of the Ministries concerned completed: then I wish to place the whole matter before the House in the light of the views of the Ministries concerned and the action proposed by the Government.

**Shri R. K. Sidhva:** Will it be placed before the House in this session?

**The Honourable Dr. John Matthai:** It all depends on when the final report will be received and I am not in a position to say that.

**Shrimati Renuka Ray:** Are any retrenchments being made in nation-building departments?

**The Honourable Dr. John Matthai:** The honourable member must wait till she sees my budget proposals.

**Shri H. V. Kamath:** How much has the Economy Committee itself cost the national exchequer by way of salaries and allowances to members of the Committee?

**The Honourable Dr. John Matthai:** I must have notice of that question.

**Shri H. V. Kamath:** How many meetings have there been of the Committee?

**The Honourable Dr. John Matthai:** I must have notice of that also.

**Shri H. V. Kamath:** Is the honourable Minister in a position to assure the House that the recommendations of the Committee will be carried out by the Government unreservedly and expeditiously?

**The Honourable Dr. John Matthai:** That is a matter which is under examination.

**Shri H. V. Kamath:** Will that examination take place in the light of the recommendations of the Reorganisation Committee of which the Chairman is the Honourable Shri N. Gopalaswami Ayyangar?

**The Honourable Dr. John Matthai:** That is so.

**Pandit Lakshmi Kanta Maitra:** May I enquire if this report is being investigated by the Cabinet as a whole or a sub-Committee of the Cabinet especially appointed for the purpose, or is the Ministry of Finance only examining it?

**The Honourable Dr. John Matthai:** The procedure that we are following is that these proposals are examined by the Ministries concerned and when they have come to provisional decisions they will be placed before a Committee of the Cabinet, and later on Government as a whole will examine them.

**Pandit Lakshmi Kanta Maitra:** Has the process of circularization to Ministries started?

**The Honourable Dr. John Matthai:** Very much so.

**Pandit Lakshmi Kanta Maitra:** When is this circulation business to be finished.

**The Honourable Dr. John Matthai:** The proposals concerning each Ministry have been sent to the Ministry concerned and they are actively examining them.

**Shri V. C. Kesava Rao:** Has any final date been fixed for the submission of the report?

**The Honourable Dr. John Matthai:** No final date has been fixed.

**Shri M. Ananthasayanam Ayyangar:** May I know from the Honourable Minister if this report will be placed before the Standing Finance Committee of this House for consideration?

**The Honourable Dr. John Matthai:** That is a matter that I will consider.

#### PENSIONS DRAWN BY M. C. A.'S FROM HYDERABAD STATE TREASURY

**\*2. Shri R. K. Sidhva:** (a) Will the Honourable Minister of States be pleased to refer to the reply to a supplementary question raised on starred question No. 509 asked on the 26th August, 1948 and state whether any enquiry has been made as to whether any member of the Constituent Assembly drew any pension from the Hyderabad State treasury or from the personal funds of the Nizam?

(b) If so, what is the result of the said enquiry?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes.

(b) No member of the Constituent Assembly of India drew or now draws pension from the Hyderabad State treasury. No information is available regarding disbursements from the personal funds of the Nizam.

**Shri R. K. Sidhva:** Has any member from this House drawn a pension in the past?

**The Honourable Sardar Vallabhbhai Patel:** I cannot say. A member or members may have drawn pensions in the past from the Hyderabad State Government for services rendered. I have no information of the past. At present no person is drawing pension from the Hyderabad State Government.

**Shri R. K. Sidhva:** Was any pension drawn before police action took place?

**The Honourable Sardar Vallabhbhai Patel:** I am not in a position to say that. If the honourable member wants such information, I will make enquiries provided a question is put down to that effect.

**Shri R. K. Sidhva:** Is the Honourable Minister satisfied that no member of this House has drawn any pension?

**Mr. Speaker:** Order, order.

#### MERGER OF BHOPAL WITH MADHYABHARAT AND REPRESENTATION IN CONSTITUENT ASSEMBLY

**\*3. Shri R. K. Sidhva:** (a) Will the Honourable Minister of States be pleased to state whether the Bhopal State has been asked to return Members to the Constituent Assembly and if so, with what result?

(b) Is it a fact that Bhopal intends to join Madhyabharat and if so, what is the latest position regarding such merger?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). I place on the table of the House two communiques issued by the States Ministry in regard to Bhopal State. The honourable member will see from the communique issued yesterday that the whole question of the future of Bhopal State is at present under discussion between the States Ministry and His Highness the Nawab, and I would request the House to await the result.

## Communique

Mr. V. P. Menon, Adviser, Ministry of States, visited Bhopal and had a satisfactory talk with His Highness who was, as usual, most friendly and cordial. There is every reason to hope that all outstanding matters will be amicably and satisfactorily settled by discussion and negotiation. The Government of India desire that there should be no more agitation or a repetition of the incidents in the State. Both the States Ministry and His Highness are fully seized of the situation and may be trusted to reach an arrangement fully in accord with the requirements and interests of the people of Bhopal State and the country.

Ministry of States,  
27th January, 1949.

## Communique

It has been announced that the Ministry in Bhopal has resigned and that His Highness has taken over the administration. It is the intention of the States Ministry that the question of the future of Bhopal State should be settled by discussion and negotiation with His Highness. This should be done in a calm atmosphere and therefore the Government of India hope that all will cooperate to this end and that all forms of agitation, all attempts to cause breaches of the peace and efforts to defy the law will be discontinued.

Ministry of States,  
31st January, 1949.

**Shri R. K. Sidhva:** Is it a fact that the communique states that the administration will now rest with the Ruler of Bhopal? And if so, how long is this going to continue?

**Mr. Speaker:** Order, order. What the communique says is a matter of reference to it.

**Shri R. K. Sidhva:** The communique was published in the papers.

**Mr. Speaker:** Therefore, no question need be put as regards the contents.

**Shri R. K. Sidhva:** May I know what are the contents?

**Shri R. K. Sidhva:** My questions 4, 5 and 6 were sent to your office as one combined question but the office has split it into three questions. May I be allowed to put all the three as one subject, so that the House may have an opportunity to put supplementaries?

**Mr. Speaker:** As the honourable member knows, the sub-division takes place under the orders of the Speaker. As various subjects were put together in one question, it was necessary to separate them, so that the answers could be clear and unambiguous.

**Shri R. K. Sidhva:** The question in point relates to Razakars in the Hyderabad State and I will be deprived of one question.

**Mr. Speaker:** I am very sorry but there is no help for it.

**Shri R. K. Sidhva:** All right, Sir, question No. 4.

## ARMS RECOVERED FROM HYDERABAD

\*4. **Shri R. K. Sidhva:** Will the Honourable Minister of States be pleased to state the quantities of various kinds of arms recovered from Hyderabad during the Police action?

**The Honourable Sardar Vallabhbhai Patel:** A statement showing the arms recovered during the Police Action is placed on the table of the House.

**Shri R. K. Sidhva:** May I know whether a lot of arms were purchased from foreign countries?

**The Honourable Sardar Vallabhbhai Patel:** I cannot say how many arms came from foreign countries, but it is possible that a large number came from outside.

**Shri R. K. Sidhva:** What is the total number of arms that have been recovered?

**Mr. Speaker:** It is stated in the statement.

**Shri R. K. Sidhva:** What arrangements are there going to be made for these arms that have been recovered?

**The Honourable Sardar Vallabhbhai Patel:** They are being stored at a particular place in safe custody.

**Shri H. V. Kamath:** Were most of the arms recovered in Hyderabad out-moded or were they of the latest design and manufacture?

**The Honourable Sardar Vallabhbhai Patel:** They were of both types.

**Shri H. V. Kamath:** Has any evidence come to light of foreigners having smuggled arms into Hyderabad?

**The Honourable Sardar Vallabhbhai Patel:** Oh, yes. It is well known that a gentleman, named Cotton, imported a large number of arms by air.

**Shri M. Ananthasayanam Ayyangar:** May I know if still a search for arms is going on, though the police action has ceased?

**The Honourable Sardar Vallabhbhai Patel:** The search for arms is practically over.

**Shri H. V. Kamath:** May I know if any foreigners besides Sidney Cotton smuggled arms into Hyderabad?

**The Honourable Sardar Vallabhbhai Patel:** Not known.

**Shri R. K. Sidhva:** May I know what amount has been paid from the treasury of the Hyderabad State to Mr. Cotton for the purchase of these arms?

**The Honourable Sardar Vallabhbhai Patel:** I cannot say that.

**Prof. N. G. Ranga:** May I know whether the Honourable Minister is aware of the fact that many of the Razakars had given away their arms or sold them to the Communists and whether any effort is being made to recover those arms?

**The Honourable Sardar Vallabhbhai Patel:** Oh, yes. Many of the Razakars passed on their arms to the Communists who are using them to good purpose but the matter is now being pursued.

**Shri H. V. Kamath:** May I know whether any bombers were recovered from Hyderabad, about which there was much boosting in the press before the Police action began?

**The Honourable Sardar Vallabhbhai Patel:** No, Sir, no bombers have been recovered.

#### ACTION AGAINST RAZAKARS IN HYDERABAD

\*5. **Shri R. K. Sidhva:** (a) Will the Honourable Minister of States be pleased to state how many Razakars have been detained, prosecuted and deported from Hyderabad?

(b) Where are they detained and when is action against them likely to be taken?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (b). About 7,500 Razakars have been arrested and detained in Jails within the State and about 2,800 have been transferred to jails in the Bombay Province. Their cases are under investigation. Where sufficient evidence against any of them is not forthcoming, he is being released under orders of the Civil Administrator of the district concerned. The cases against the rest will be put in court as and when they are ready. No Razakar has been deported.

**Shri R. K. Sidhva:** When will the case against Mr. Kazim Razvi the leader of the Razakars brought before the Court?

**The Honourable Sardar Vallabhbhai Patel:** The case is under investigation.

**Shri R. K. Sidhva:** May I know whether any leader of the Razakars has escaped from jail?

**The Honourable Sardar Vallabhbhai Patel:** No Razakar has escaped from jail.

**Shri R. K. Sidhva:** Is it not a fact that one leader of the Razakars escaped from the Osmania Hospital where he had been sent for treatment?

**The Honourable Sardar Vallabhbhai Patel:** Quite possible the patient may have run away but I have no information about it.

**Shri R. K. Sidhva:** How many Pathans and Arab forces have been repatriated from the Hyderabad State?

**The Honourable Sardar Vallabhbhai Patel:** How does it arise from the main question?

**Shri H. V. Kamath:** Is any action contemplated against the members of the Laik Ali Cabinet who aided and abetted the Razakars with money and materials?

**The Honourable Sardar Vallabhbhai Patel:** The case against the Ministry is still under investigation.

**Mr. Tajamul Husain:** In view of the fact that Kazim Razvi was very anxious to come to the Red Fort in Delhi do Government propose to hold his trial in the Red Fort?

**The Honourable Sardar Vallabhbhai Patel:** Government is not inclined to accede to the desire of the prisoner.

#### MISAPPROPRIATION OF HYDERABAD STATE MONEY BY LAIK ALI MINISTRY

†6. **Shri R. K. Sidhva:** Will the Honourable Minister of States be pleased to state whether investigations about the allegations of misappropriation of state money by the Laik Ali Ministry have been completed?

**The Honourable Sardar Vallabhbhai Patel:** No.

#### BUDGET DEFICITS IN ORISSA STATES

†\* **Shri Biswanath Das:** (a) Will the Honourable Minister of States be pleased to state whether Government are aware that the Province of Orissa has contributed a sum of rupees fifty lakhs this year to wipe off the budget deficit of the Orissa States that have come under the administration of Orissa?

(b) Are the Government of India contributing anything towards this deficit?

(c) If so, what is the amount?

(d) Is any programme of aid to develop these states under consideration?

(e) What is the reserve fund if any, kept either in the Reserve Bank of India or in the Imperial Bank or any scheduled bank by the previous administration before 15th November, 1947, either in the name of a state or in the name of its ruler?

(f) Is it a fact that most of the rulers of the states drew or disbursed large sums of money before handing over the administration of the States to Orissa Government on the 1st January, 1948?

(g) Did the Advisory Councils in all the states and the States Assembly in Orissa claim recovery of all such money?

(h) What are the decisions taken in this regard?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes.

(b) and (c). The Government of India are considering the request.

†Answer to this question laid on the table, the questioner having exhausted his quota

†Answer to this question laid on the table, the questioner being absent.

(d) to (h). The Provincial Government has been addressed in the matter and a statement of the position will be laid on the table of the House in due course.

#### REPAIRING OF CHOWDWAR AERODROME IN ORISSA

**\*8. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Defence be pleased to state whether the aerodrome at Chowdwar near Cuttack (Orissa) is in a proper state of repair?

(b) If not, do Government propose to keep it in condition for landing purposes for civil and military aeroplanes?

(c) Are Government aware that this aerodrome was used as a base for guarding the Orissa coast?

**The Honourable Shri H. V. Gadgil:** (a) Yes.

(b) The question does not arise in view of the answer to part (a).

(c) Yes.

#### REVENUES FROM AND PROHIBITION OF POPPY CULTIVATION

**\*9. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Finance be pleased to state whether Government are going to adopt the policy of prohibition of poppy cultivation in the Provinces and in States which have acceded to India?

(b) What is the revenue derived from sale of opium in the Provinces and the revenue derived by the States from poppy cultivation?

(c) Have the Government of Assam represented their difficulty in carrying out the policy of total prohibition of opium in the Province owing to the manufacture of opium by the Government of India and the cultivation of poppy and the manufacture of opium in the States?

**The Honourable Dr. John Matthai:** (a) Yes, so far as the Provinces and the Centrally Administered Areas are concerned. Government have already made a declaration to this effect (see reply to starred question No. 602 in this House on 4th March 1948). As regards the States, a recommendation has been made to them to fall in line with this policy.

(b) The revenue derived from sale of opium by the Provinces during the year 1947 was Rs. 4,24,81,970. Figures relating to revenue derived by the States from poppy cultivation as such are not available. The total revenue derived from opium by opium producing States during the year 1947 was Rs. 32,33,455.

(c) Yes.

**Pandit Lakshmi Kanta Maitra:** Do I take it that the sale of opium even for medicinal purposes is prohibited?

**The Honourable Dr. John Matthai:** The policy of the Government as stated to the House last March is to prohibit the production of opium except for medicinal and scientific purposes compatible with effectiveness, that is to say from the administration point of view.

**Pandit Lakshmi Kanta Maitra:** Do I take it that this means that the Government of India is not also exporting opium to foreign countries?

**The Honourable Dr. John Matthai:** The Government of India are at present exporting opium to foreign countries but that is a matter which would have to be considered now in connection with the policy which has been outlined.

**Srijut Rohini Kumar Chaudhuri:** With reference to part (c) of the question, may I know what action has Government taken with regard to the representation by the Government of Assam in this matter?

**The Honourable Dr. John Matthai:** I received a deputation from Assam on this subject and I said in reply to their representations that I would call a conference of the provinces and states concerned as soon as possible to discuss the question of implementing the Government's policy.

**Pandit Lakshmi Kanta Maitra:** In view of the fact that this country is badly in need of foreign exchange in hard and soft currency areas, will the Honourable Minister consider the desirability of having the question of the export of opium on a large scale to foreign countries thoroughly examined?

**The Honourable Dr. John Matthai:** I will have that looked into.

**Shri Deshbandhu Gupta:** Is it a fact that Assam has become a very big centre for illicit trade in opium?

**The Honourable Dr. John Matthai:** Not to my knowledge.

#### IMPORT OF FOREIGN LIQUOR AND PROHIBITION IN PROVINCES

**\*10. Shri Lakshminarayan Sahu:** (a) Will the Honourable Minister of Finance be pleased to state the quantity of foreign liquor imported into India during the year 1947-48?

(b) What was the total excise revenue derived year by year for the last ten years, province-wise, upto 1947-48?

(c) Which are the Provinces which have introduced prohibition?

**The Honourable Dr. John Matthai:** (a) The quantity of foreign liquor imported into India during the year 1947-48 was 1,792,865 Imperial gallons.

(b) I lay on the table of the House a statement giving the required information.

(c) Prohibition has been introduced wholly or partially in the Provinces of Madras, Bombay, United Provinces, East Punjab, Central Provinces and Berar and Orissa.

**The Honourable Dr. John Matthai:** I am not in a position to answer that question.

**Shri Deshbandhu Gupta:** Is it a fact that even such restrictions as are observed in Bombay, for instance of observing one or two days as dry days every week and that of not allowing government officials to drink publicly, are not imposed in Delhi? And have Government considered the desirability of doing so?

**The Honourable Dr. John Matthai:** These are matters which must be looked into in connection with the general problem.

**Babu Ramnarayan Singh:** May I know whether Government is under any obligation to import foreign liquor?

#### LOW EMOLUMENTS OF MALE NURSES IN HOSPITALS

**\*11. Sardar Bhopinder Singh Man:** Will the Honourable Minister of Health be pleased to state the reasons why a male nurse in hospitals is paid less as his basic pay and for the corresponding duties than the female nurse?

**The Honourable Rajkumari Amrit Kaur:** The pay scales of nurses, both male and female, are fixed by Provincial Governments. In some Provinces, as for example in Madras, the scales of pay are identical but in others there is disparity. The reasons for the disparity are:

(a) The demand for male nurses is comparatively less and they are more easily obtainable.

(b) The standards of training and examination for male nurses in some Provinces are understood to be comparatively lower than those enforced in the case of women nurses.

(c) Male nurses are employed only in male wards or dispensaries whereas women nurses are employed in all types of wards including maternity and obstetric wards also.

The matter of prescribing a uniform standard for training as well as pay for both male and female nurses has already been taken up by the Ministry of Health and the Indian Nursing Council, as soon as it begins to function, will be asked to prescribe uniform standards.

**Mr. Tajamul Husain:** May I know if it is a fact that there is no such thing as male nurses in any civilized country in the world; and if the answer is in the affirmative, why not have only female nurses in India?

**Mr. Speaker:** Let him not anticipate the answer.

**Srijut Rohini Kumar Chaudhuri:** Is it a fact that a comparatively larger salary has to be paid to female nurses because they have to spend a fairly good sum of money on their toilet?

**Mr. Speaker:** Order, order.

**Shri H. V. Kamath:** Is not the existing difference in pay in some Provinces kept with a view to deterring men from taking to the nursing profession so as to make it a close preserve of women?

**The Honourable Rajkumari Amrit Kaur:** No.

#### RESPONSIBLE GOVERNMENT IN PATIALA AND EAST PUNJAB STATES UNION

**\*12. Sardar Bhopinder Singh Man:** (a) Will the Honourable Minister of States be pleased to state the reasons why a responsible Government has not been installed so far in the place of the Caretaker Government in Patiala and East Punjab States Union?

(b) How long will the present Caretaker Government continue to function?

(c) What steps have been taken to hold elections to the Constituent Assembly or Legislature in the Union?

**The Honourable Sardar Vallabhbhai Patel:** (a) The formation of an interim popular Ministry for the Patiala and East Punjab States Union has been announced and the Ministry has been functioning since January 20, 1949.

(b) Does not arise.

(c) The Patiala and East Punjab States Union authorities are now preparing the electoral rolls for elections to the Constituent Assembly in the Union to be held shortly.

**Sardar Hukam Singh:** May I know what parties are represented in the Ministry?

**The Honourable Sardar Vallabhbhai Patel:** All the three parties are represented.

**Sardar Shoinder Singh Man:** May I know the names of those parties whose co-operation was sought and which are now represented in the Ministry?

**The Honourable Sardar Vallabhbhai Patel:** Well, the Praja Parishad, the Akali Party and the Lok Sabha.

**Sardar Bhopinder Singh Man:** Has the attention of the States Ministry been drawn to the fact that the Provincial Congress of the Patiala and East Punjab States Union has disowned any responsibility for this Ministry?

**The Honourable Sardar Vallabhbhai Patel:** Yes, the Committee is divided.

**Shri H. V. Kamath:** Has the personnel of the Interim Ministry been approved by the States Ministry?

**The Honourable Sardar Vallabhbhai Patel:** Yes.

**Sardar Hukam Singh:** Is it a fact that the only persons who dissented in the meeting of the Working Committee of the Patiala and East Punjab States Union Congress were the Ministers themselves?

**The Honourable Sardar Vallabhbhai Patel:** I have no knowledge of that.

**Shri H. V. Kamath:** Do Government consider the Akali Party as a communal organisation?

**Mr. Speaker:** Order, order. That is a matter for opinion.

**Sardar Bhopinder Singh Man:** Who are the Ministers who actually represent the Akali Party in the Ministry? As the Honourable Minister has stated that the Akali Party, the Congress and the Lok Sabha have been represented in the Ministry, may I know the names of the Akali Ministers represented in the Ministry?

**The Honourable Sardar Vallabhbhai Patel:** I am not in a position to say as to who represents the Akali Party; but all the three parties are represented and they have come with the consent of the leaders of those parties.

**Sardar Hukam Singh:** In the communique mention was clearly made of four Ministers belonging to the Congress, two Independents and one was a non-party man, and the Akali Party had been completely ignored. But now we are told that it is represented.

**The Honourable Sardar Vallabhbhai Patel:** The Akali Party as such is not recognized by Government because it is a communal organisation. But the members are taken who fairly represent the view of the Akali Party.

**Shri H. V. Kamath:** After they were taken into the Ministry, did these former members of the Akali Party dissociate themselves from the Akali movement and the Akali Party?

| (1) | (2)                                      | (3)                                                                                                                | (4)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | (5)                                                                                                                                                                                              | (6)                                                                                                                                                                                                                      |
|-----|------------------------------------------|--------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 7   | Ministry of Food                         | *Mr. T. M. Gurbuxani                                                                                               | Deputy to Iraq for a period of three weeks to ascertain the possibilities of purchase of foodgrains in that country.                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Rs. 1,150 P. **The Honourable Sardar Vallabhbhai Patel:** I do not know that, but the Ministers fairly represent the view point of those who claim to be the Akali Party.

**Sardar Hukam Singh:** In the answer that was given on the 3rd September, 1948 it was stated that the Caretaker Government that had been formed was with a view to bring about agreement between the three Parties; if they failed then elections would be held as soon as possible and whoever has the majority will form the Government. Has that agreement been reached?

**The Honourable Sardar Vallabhbhai Patel:** The arrangement that has been made has been accepted by all except a few.

#### EXPENDITURE AND CASUALTIES IN POLICE ACTION IN HYDERABAD

†\*13. **Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of States be pleased to state:

(a) the amount of expenditure;

(b) the time spent; and

(c) the casualties among (i) Indian Army Soldiers, (ii) Soldiers of the Nizam's State Army, and (iii) Razakars in the course of the Police Action taken against the Government of His Exalted Highness the Nizam of Hyderabad?

**The Honourable Sardar Vallabhbhai Patel:** (a) An estimate of the expenditure incurred in connection with the Police Action is being compiled.

(b) The actual operations took four and a half days, i.e. from 0400 hours on 13th September to 1700 hours on 17th September 1948.

| (c)   | Killed | Wounded | Missing | Captured |
|-------|--------|---------|---------|----------|
| (i)   | 42     | 97      | 24      | ..       |
| (ii)  | 490    | 122     | ..      | ..       |
| (iii) | 2727   | 102     | ..      | 3364     |

#### REHABILITATION OF HINDUS FROM HYDERABAD

†\*14. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of States be pleased to state what was the approximate number of Hindus who had left the Hyderabad State owing to Razkar atrocities during the Laik Ali regime in Hyderabad?

(b) Has the Military Administration restored confidence among the public and have the refugees returned? If so, to what extent?

(c) Have any facilities been extended by the Military Administration for the resettlement and rehabilitation of the returned refugees?

**The Honourable Sardar Vallabhbhai Patel:** (a) The number is 4,33,000 approximately.

(b) and (c). Yes; most of the refugees have since returned. The Military Administration is doing everything possible to rehabilitate them.

#### RECOVERY AND RESTORATION OF LOOTED PROPERTY IN HYDERABAD

†\*15. **Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of States be pleased to state what was the extent of the looted property recovered by the Military authorities and restored to the original owners in Hyderabad State?

† Answer to this question laid on the table, the questioner being absent.

**The Honourable Sardar Vallabhbhai Patel:** According to reports received from the Military Administration in Hyderabad, a large proportion of the looted property has been recovered by the Military and restored to their original owners. I regret further details are not available.

#### ARREST OF RAZAKARS AND OVERHAUL OF CIVIL ADMINISTRATION IN HYDERABAD

†\*16. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of States be pleased to state what changes, if any, have been effected in the Civil Administration of Hyderabad State by the Military administration?

(b) How many Ministers of the late Laik Ali Cabinet are under arrest and when is it contemplated to institute proceedings against them?

(c) How many Razakars and other anti-propagandists have been arrested in Hyderabad State after the establishment of the Military Administration, and have any cases been instituted against them or have they been merely detained?

**The Honourable Sardar Vallabhbhai Patel:** (a) The Military Administration is engaged in restoring law and order throughout the State and setting up in the Districts the administrative machinery which had completely collapsed before the Police Action. Except in regard to certain personnel which has been lent by Central and Provincial Governments and a reorganisation of the Police Force which is in hand, no major changes have been introduced.

(b) Nine members of the Laik Ali Cabinet are now under detention. Investigations are still in progress. Action can be taken only after enquiries are completed.

(c) About 12800 Razakars and their sympathisers were taken into custody. After enquiries about 2,400 persons have been released. About 7,500 persons are awaiting trial in the State. Enquiries are being made into the cases of others.

#### ARMY CLASHES WITH COMMUNISTS IN HYDERABAD

†\*17. **Pandit Mukut Bihari Lal Bhargava:** Will the Honourable Minister of States be pleased to state whether it is a fact that the Communists organised in some parts of Hyderabad territory stout opposition against the Indian forces and also came in clash with them? If so, in how many places and with what result?

**The Honourable Sardar Vallabhbhai Patel:** The activities of Communists are confined mainly to the Districts of Warrangal and Nalgonda. They have never openly come into clash with Indian Armed Forces but cases have occurred where they have fired at long range on our troops or our troops have surprised gangs of Communists and a large number of arrests has been made.

#### FORMATION OF POPULAR GOVERNMENT IN HYDERABAD

†\*18. **Pandit Mukut Bihari Lal Bhargava:** (a) Will the Honourable Minister of States be pleased to state how long the existing Military Administration in Hyderabad State will continue and what has been decided about the future administrative set up in Hyderabad in consultation with the Nizam and the Hyderabad State Congress?

(b) Has any other agreement been substituted in place of the expired Standstill Agreement, and has the question of accession of Hyderabad to the Indian Union been finally decided? If not, by what time and in what manner is the said question expected to be finally decided?

† Answer to this question laid on the table, the questioner being absent.

(c) Are Government aware of the pressing demand from the people of Hyderabad State for setting up a popular administration there, and if so, what steps have been taken or are being taken towards the establishment of such a Government there?

(d) Have any proposals for the formation of a Constituent Assembly of the people of Hyderabad been announced?

(e) Will such an Assembly be elected on adult franchise and if so, by what time is it likely to come into existence?

**The Honourable Sardar Vallabhbhai Patel:** (a) and (c). It is incorrect to call the present administration a military administration; the Military Governor is assisted by civil administrators and the whole Government is in the nature of a caretaker Government which will be replaced by a popular Government when proper conditions for the smooth and efficient functioning of such Government are created.

(b) It has been made clear that it would be for the Constituent Assembly of Hyderabad which is being set up to decide the question of accession. Meanwhile, His Exalted Highness the Nizam in a letter to the Government of India has stated that he had no external relations whether before or after the 15th August 1947 and that this subject should continue to be treated as the concern of the Government of India. In the same letter he also stated that the two subjects of Defence and Communications should continue to be controlled by the Government of India.

(d) Yes. Simultaneously with the Nizam's *Firman* issued in December last, dissolving the Hyderabad Legislative Assembly, a regulation called "Hyderabad Constituent Assembly preparation of Electoral Rolls Regulation of 1948" was promulgated empowering the Election Commissioner to take such measures and make such rules as he deemed fit for the preparation of electoral rolls.

(e) Yes; but it is not possible, at the present stage, to indicate the time by which an elected Assembly will come into existence.

#### HOUSE-RENT AND COMPENSATORY ALLOWANCES TO GOVERNMENT EMPLOYEES

**\*19. Shri K. Hanumanthaiya:** Will the Honourable Minister of Finance be pleased to state:

(a) whether Government have implemented the recommendations of the Central Pay Commission regarding the grant of house rent and compensatory allowances to the employees of the Government of India on the basis of the present population figures?

(b) whether Government have taken steps to obtain postwar figures of population and reports of other conditions governing the grant from different places where the employees have asked for the said grants; and

(c) when Government propose to make the grants?

**The Honourable Dr. John Matthai:** (a) to (c). Government have implemented the recommendations of the Central Pay Commission regarding the grant of house rent and compensatory allowances to Central Government employees. This has been done on the basis of population figures according to the 1941 census, which were the only authentic figures available at that time. Government are now reviewing the concessions in the light of the possible growth of population in certain towns since 1941 and hope to come to a decision shortly.

#### DOLLAR EXCHANGE FACILITIES FOR INDIA

**\*20. Prof. N. G. Ranga:** (a) Will the Honourable Minister of Finance be pleased to state how much of Dollar exchange has been placed at our disposal by the World Bank for this year?

(b) How much of it has been utilised by us up till now for purchase of (i) capital machinery; (ii) consumers' goods; and (iii) luxury goods?

**The Honourable Dr. John Matthai:** In view of the fact that a large number of questions on this subject have been put down for the session, I am going to ask your permission, Sir, to make a statement on this subject after Question Hour.

**Mr. Speaker:** Yes, that is on the agenda.

**Prof. N. G. Ranga:** That is all right, Sir.

**Shri M. Tirumala Rao:** On a point of information in regard to this question, does the statement cover part (b) of the question here with regard to consumer goods and machinery?

**The Honourable Dr. John Matthai:** Yes.

#### ASIATIC AID PROGRAMME BY UNITED STATES OF AMERICA

**\*21. Prof. N. G. Ranga:** Will the Honourable Minister of Finance be pleased to state:

(a) whether any proposal has been made by the Government of India for the formulation by the United States of America of an Asiatic Aid Programme on the lines of the Marshall Plan; and

(b) if not, whether Government are likely to make any such proposal in the near future in order to develop the economic resources of India and other Asiatic countries?

**The Honourable Dr. John Matthai:** (a) No, Sir.

(b) The question of the development of the economic resources of Asiatic countries has been the subject of special study by the Economic Commission for Asia and Far East (a regional organisation of the United Nations) of which India is a member. Meetings of this Commission have been held in India and more recently in Australia, and India has taken part in the discussions on both occasions. The means by which the economies of these countries can be developed are under continual examination in this regional organisation and the honourable member may rest assured that, in so far as India is concerned, the Government are examining all possible means.

**Prof. N. G. Ranga:** Are Government preparing any proposals at all to be submitted before this E.C.A.F.E. for the consideration of that Commission and later on by America and other concerned Governments?

**The Honourable Dr. John Matthai:** That matter has not yet been considered by the Government of India.

**Prof. N. G. Ranga:** Is it not a fact that this E.C.A.F.E. came into existence two years ago and in view of the special and pressing needs of India as well as other Asian countries it would be in the interests of India as well as other countries that Government of India should not lose much time in preparing these proposals?

**The Honourable Dr. John Matthai:** As I indicated in the reply, proposals in this regard have been made by the E.C.A.F.E. and at present the idea of the Government of India is to act as far as possible in consonance with the proposals of the Commission.

18 CONSTITUENT ASSEMBLY OF INDIA (LEGISLATIVE) [1ST FEB. 1949]

**Shri H. V. Kamath:** Do Government propose to derive the fullest benefit from the development of Japan's industrial potential.

**The Honourable Dr. John Matthai:** That is a matter, I believe, which has been under consideration by the E.C.A.F.E. but whether the tentative proposals that have been made have been definitely accepted or not is more than I can tell.

**Shri H. V. Kamath:** But have Government satisfied themselves that before they proceed to obtain help from Japan or America there are no economic or political or military strings attached to such aid to India.

**The Honourable Dr. John Matthai:** If that matter becomes a live issue, the question suggested by the honourable member will certainly come under examination.

CASES REFERRED TO AND DISPOSED OF BY INCOME-TAX INVESTIGATION COMMISSION

\*22. **Prof. N. G. Ranga:** Will the Honourable Minister of Finance be pleased to state:

(a) the number of cases which have been referred to the Income-tax Investigation Commission;

(b) the number of cases which have been disposed of and with what results; and

(c) whether the Commission has made any estimate of the time it might take to complete the investigation?

**The Honourable Dr. John Matthai:** (a) 1,305 which fall into groups of connected cases.

(b) Four cases. The revenue involved is substantial but the exact amount of tax has not been determined.

(c) The answer is in the negative.

**Shri T. T. Krishnamachari:** May I ask whether the Honourable Minister is in a position to say whether the Commission is at present doing any useful work; whether the Chairman himself feels that he can go on with the work and bring out something material to the knowledge of the Government and the people in regard to tax evasion?

**The Honourable Dr. John Matthai:** As far as I can tell, I think they are doing useful work.

**Prof. N. G. Ranga:** In view of the very slow progress made so far by this Commission, are Government considering any more expeditious and more convenient method by which these cases can be disposed of and some revenue can be derived by Government and also the people who are involved are free from this eternal anxiety of these Commissions and investigations and ultimate results?

**The Honourable Dr. John Matthai:** As far as the first part of the honourable member's question is concerned, I do not admit that the progress is slow, if you take into account the very difficult and complicated nature of the problems before the Commission. As far as the second part of the honourable member's question is concerned, provision has been made by the enactment of an Ordinance for settlement of these matters on a voluntary basis.

**Prof. N. G. Ranga:** Is any progress being made in that direction?

**The Honourable Dr. John Matthai:** Endeavours are being made but whether any actual results have been obtained or not, I am not in a position to say at the present moment.

**Shri T. T. Krishnamachari:** May I ask the Honourable Minister whether, excepting for a vague sense of satisfaction that he derives from the fact that the Commission is doing its work, he is aware that the Commission gets no support from the Ministry concerned, the Departmental officers are not producing any

figures or facts before the Commission, nor is the Commission in a position to get the requisite information from banks?

**The Honourable Dr. John Matthai:** Government has endowed them with the requisite powers for that purpose, but to all the questions put by the honourable member my answer is in the negative.

**Pandit Lakshmi Kanta Maitra:** May I enquire with regard to part (b) of the Honourable Minister's answer in which he said that only four cases have so far been disposed of and those four cases involve huge sums of money—he was not in a position even to indicate the amounts involved—may I enquire whether, from the disposal of these four cases, Government is satisfied that there had been enormous amount of tax-dodging by these people and that all manner of steps should be taken to expedite the work of the Commission and to make it as much effective as possible

**The Honourable Dr. John Matthai:** That certainly is the intention of Government.

**Pandit Lakshmi Kanta Maitra:** It is not merely a question of intention. I want to know from the Government what definite steps they are going to take to see that this Commission can do really useful work and get back huge sums of money which have been dodged by the industrialists and tax-dodgers.

**The Honourable Dr. John Matthai:** If the intention behind the honourable member's question is whether the Government is in a position to deduce from the report already received the extent of the revenue that may be collected through the agency of this Commission, I am not in a position to give any answer at present, but it is Government's intention and it is the intention of the Commission itself to speed up its work in every possible way.

**Shri M. Ananthasayanam Ayyangar:** May I ask the Honourable Minister if any cases have been withdrawn from the Commission by the Government?

**The Honourable Dr. John Matthai:** None.

**Shri M. Ananthasayanam Ayyangar:** What has happened to the four cases which were already withdrawn with respect to which Government has sent a recommendation that they may be withdrawn?

**The Honourable Dr. John Matthai:** The withdrawal was withdrawn, as far as I know.

**Shri M. Ananthasayanam Ayyangar:** May I know whether, out of the four cases that have been disposed of, there is any one of the four cases that were originally recommended to be withdrawn?

**The Honourable Dr. John Matthai:** I do not think it is in the public interest to answer that question.

**Shri B. P. Jhunjhunwala:** Have any parties been approached for compromise according to the Ordinance?

**The Honourable Dr. John Matthai:** I am expecting to get reports from time to time on this subject from the Commission, but so far I have not received any report.

**Shri Mahavir Tyagi:** May I know the names of those four persons or firms whose cases have been disposed of by this Commission?

**The Honourable Dr. John Matthai:** It is not in the public interest to answer that question.

**Shri M. Ananthasayanam Ayyangar:** Is it not in the public interest to expose those persons who dodge taxes, so that others may be afraid and pay off and come to some terms?

**Mr. Speaker:** It is a matter of opinion.

**Shri B. Das:** Is the Honourable Minister satisfied that the Ordinance will serve the purpose? If the Ordinance is only a half-way house, is the Honourable Minister examining the question of amending the Act so that the Tribunal will take speedy decisions and avoid the interminable process of lawyer's arguments?

**The Honourable Dr. John Matthai:** We are watching developments in this regard, but it is a little too soon to review the processes at present.

**Pandit Lakshmi Kanta Maitra:** May I enquire if the Government have got any *ad hoc* machinery by which compromise or arbitration can be resorted to by these people against whom the enquiry is pending?

**The Honourable Dr. John Matthai:** That is the purpose of the Ordinance which was recently issued.

**Pandit Lakshmi Kanta Maitra:** I am asking whether it has actually been set up and whether it is functioning.

**The Honourable Dr. John Matthai:** The Ordinance has been brought into force and therefore the Commission has authority to go into this type of question.

**Shri M. Tirumala Rao:** Which province contributes the largest number of cases for this investigation?

**The Honourable Dr. John Matthai:** I am not in a position to answer that question.

**Shri T. T. Krishnamachari:** In view of the fact that the House is every much interested in this matter, may I ask the Honourable Minister to call for an interim report with regard to the work done by the Commission and the work proposed to be done?

**The Honourable Dr. John Matthai:** I do not think that I should put any pressure on the Chairman of the Commission in this matter, because the Chairman is as anxious as the Government are and as this House is to bring this matter to a speedy conclusion.

**Shri T. T. Krishnamachari:** In view of the fact that the House is very much anxious to divulge his programme to this House? If he is anxious he will take the House into confidence.

**The Honourable Dr. John Matthai:** I am not in a position to say what exactly the opinion of the Chairman on that particular matter is. But that is a matter on which a decision has to be arrived at by the Government.

**Mr. Speaker:** I am calling the next question.

#### REPORT ON INDIGENOUS SYSTEMS OF MEDICINE

**\*23. Dr. V. Subramaniam:** (a) Will the Honourable Minister of Health be pleased to state whether the Report on the Indigenous systems of medicine, otherwise known as 'The Chopra Committee Report', has been submitted to Government?

(b) Has the Report been published? If so, when?

**The Honourable Rajkumari Amrit Kaur:** (a) Yes.

(b) It is hoped that it will be possible to publish the Report this month.

**Shri H. V. Kamath:** What are the main recommendations of the Chopra Committee?

**The Honourable Rajkumari Amrit Kaur:** The honourable member may refer to the report when it is published.

**Shri H. V. Kamath:** Do the Government propose to encourage research in Ayurveda?

**The Honourable Rajkumari Amrit Kaur:** The Government will encourage research in any science which is of benefit to the country?

**Shri H. V. Kamath:** Is it a fact that the Ayurveda University of Chalya applied for a grant for research in Ayurveda?

**The Honourable Rajkumari Amrit Kaur:** I do not know how that question arises from this.

**Shri M. Ananthasayanam Ayyangar:** Will this report be placed before the Standing Committee on Health before decisions are taken by the Government?

**The Honourable Rajkumari Amrit Kaur:** It will be placed.

**Babu Ramnarayan Singh:** May I know from the Honourable Minister what the attitude of this Government is towards the Ayurvedic System of Medicine?

**Mr. Speaker:** I do not think it need be answered.

#### POSTPONEMENT OF REPAYMENT OF EXCESS PROFITS TAX

**\*24. Shri S. Nagappa:** Will the Honourable Minister of Finance be pleased to state whether it is a fact that the repayment of the Excess Profits Tax has been postponed? If so, why and to what date?

**The Honourable Dr. John Matthai:** Yes; as an anti-inflationary measure. By a period of three years from the date on which the refund would otherwise have fallen due.

#### RESTORATION TO HYDERABAD OF GOVERNMENT OF INDIA SECURITIES TRANSFERRED TO PAKISTAN

**\*25. Shri S. Nagappa:** Will the Honourable Minister of States be pleased to state whether the Government of India have taken any steps to restore to Hyderabad the Government of India Securities transferred to Pakistan by the Laik Ali Cabinet and if so, what steps and when were they taken? If not, why not?

**The Honourable Sardar Vallabhbhai Patel:** The honourable member's attention is invited to the Press Note which was issued on the 1st January 1949 and a copy of which I lay on the table of the House.

#### Press Communiqué

#### ORDINANCE FOR ISSUE OF DUPLICATE SECURITIES TO HYDERABAD

An Ordinance has been issued today authorising the Reserve Bank to issue duplicate securities to the Hyderabad Government in lieu of the securities of the value of Rs. 20 crores purported to have been transferred by the officers of the Hyderabad State in favour of the Pakistan Government last year.

It will be recalled that this transaction came to the notice of the Government of India in December, 1947, and ever since they have repeatedly made it clear that the transaction was in clear breach of the Standstill Agreement inasmuch as it was tantamount to entering into relationship with a foreign Government which the Hyderabad Government was not competent to do. The Pakistan Government were not unaware of the position and the Government of India's stand in the matter. By entering into this invalid transaction, the Pakistan Government have not acted in a manner conducive to the promotion of friendly relations between the two Governments. Nevertheless, the Government of India had hitherto refrained from taking any action beyond restraining the transfer of securities held by the Hyderabad Government.

H. E. H. the Nizam recently declared that the transaction was unauthorised and beyond the competence of the Hyderabad Government and therefore invalid and of no effect. The Hyderabad Government accordingly addressed the Pakistan Government through the Government of India and requested them to return the securities to the Hyderabad Government.

but the Pakistan Government have refused to comply with the request. The Government of India have therefore been constrained to take action to vest these securities in the Hyderabad Government and to direct the issue of duplicate securities to the Hyderabad Government.

Ministry of States,

New Delhi, December 31, 1948.

#### ACCOMMODATION FOR COLLEGE OF NURSING, DELHI

**26. \*Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Health be pleased to state:

(a) whether it is a fact that there is not enough accommodation for the students of the College for Nursing (Delhi);

(b) whether the classes are held in the open air even in rainy season due to lack of accommodation; and

(c) whether it is a fact that it may not be possible to conduct classes for the final year students due to shortage of accommodation?

**The Honourable Rajkumari Amrit Kaur:** (a) Yes.

(b) Yes.

(c) I am trying my best that this shall not be so. But in the unlikely event of additional accommodation required not becoming available, the number of admissions to the new first year class may have to be limited to the barest minimum and the courses for certificated Nurses discontinued.

**Prof. N. G. Ranga:** Why not Government consider the advisability of having this college in some place other than Delhi where there will be much less difficulty of accommodation? Why concentrate all these in Delhi only?

**The Honourable Rajkumari Amrit Kaur:** The college was started in Delhi and it is affiliated to the Delhi University and therefore it is difficult to shift it. I personally do not see why accommodation should not be available in Delhi itself as soon as the the refugee problem becomes less acute.

**Shri B. K. Sidhva:** For how many students accommodation has yet to be found?

**The Honourable Rajkumari Amrit Kaur:** I should have notice of the question.

**Shrimati Dakshayani Velayudhan:** May I know the total number of students in the College of Nursing?

**The Honourable Rajkumari Amrit Kaur:** I think it is over 80. But I should like to have notice.

**Shri M. Ananthasayanam Ayyangar:** Is it confined to female nurses only?

**The Honourable Rajkumari Amrit Kaur:** Yes.

#### DISTRIBUTION OF SCHEDULED CASTES SCHOLARSHIPS

**\*27. Shrimati Dakshayani Velayudhan:** (a) Will the Honourable Minister of Education be pleased to state whether scholarships to Scheduled Castes students are given in a lump sum at the end of the academic year?

(b) If so, are Government aware that such distribution of the scholarships causes hardship to the students especially at the beginning of the academic year?

(c) Do Government propose to consider the desirability of giving the scholarships in three or four instalments a year?

آنریبل مولانا ابوالکلام آزاد: (a) نہیں جس تھلگ پر کام ہو رہا ہے وہ یہ ہے - ہر اکیڈمک برس کے اندر اسکالرشپ کی رقم لپ سم انسٹی ٹیوشن کے پرنسپل کے پاس رکھ دی جاتی ہے - اور یہ ہدایت دی جاتی ہے کہ وڈیارتھی کو ہر مہینے اسکالرشپ کا روپیہ دیدیا جائے - یا جیسی کچھ ضرورت ہو اس کے مطابق کیا جائے -

(b) عام طور پر ہر برس ستمبر کے مہینے میں اسکالرشپ کا اعلان کیا جاتا ہے اور جو وڈیارتھی چنا جاتا ہے اس سے کہا جاتا ہے کہ اپنے خرچ کا اسٹیٹمنٹ بنا کر بھیج دے - پھر اسکالرشپ کی رقم بڑھائی جاتی ہے اور جس انسٹی ٹیوشن سے اس کا تعلق ہوتا ہے اس کے پرنسپل کو بینک ڈرافٹ کے ذریعے لپ سم روپیہ بھیج دیا جاتا ہے - وہاں سے وڈیارتھی کو ہر مہینے اسکالرشپ کی رقم مل جاتی ہے -

(c) جو کچھ (اے) میں کہا گیا ہے اس کے بعد کسی نئے انتظام کی ضرورت پیدا نہیں ہوتی -

**The Honourable Maulana Abul Kalam Azad:** (a) No. The scholarship amounts in lump sum are placed at the disposal of the head of the institutions during the academic year with instructions to disburse the same to the students concerned in equal monthly instalments or according to their needs.

(b) The scholarships are generally announced in the month of September every year, and the selected students are asked to submit their statements of expenditure. On receipt of the requisite information, the scholarship amount is fixed and transmitted to the head of the institution concerned by means of a bank draft for disbursement to the student concerned.

(c) In view of what is stated under (a) above, this does not seem necessary.

(The Honourable Shri Satyanarayan Sinha read out the English translation of the Hindustani answer.)

**Prof. N. G. Ranga:** May I know how many students are being given scholarships now?

آنریبل مولانا ابوالکلام آزاد: چھ سو اکیس -

**The Honourable Maulana Abul Kalam Azad:** 621.

**Shri M. Ananthasayanam Ayyangar:** May I know the total amount spent per year?

آنریبل مولانا ابوالکلام آزاد: اس کے لئے نوٹس کی ضرورت ہے -

**The Honourable Maulana Abul Kalam Azad:** I must have a notice of that question.

**Shrimati Dakshayani Velayudhan:** Are the Government aware of the fact that in almost all places where scholarships are given, it is given in a lump sum even now?

آنریبل مولانا ابوالکلام آزاد: یہ بات ابھی میں جواب میں بیان کر چکا ہوں - کہ ہر اسکالرشپ کی جتنی رقم ہوتی ہے وہ سال بھر کی اس کے پرنسپل کے پاس بھیج دی جاتی ہے -

**The Honourable Maulana Abul Kalam Azad:** I have just stated in the reply that the annual lump sum amount sanctioned to a scholar is remitted to his Principal.

**Shrimati Dakshayani Velayudhan:** Will the Government be pleased to advise the heads of institutions to give the scholarships in monthly instalments?

آنریبل مولانا ابوالکلام آزاد: انکو ہدایت کی جانی ہے کہ مذتہلی اسکالرشپ دیا جاوے۔

**The Honourable Maulana Abul Kalam Azad:** Instructions are issued to them to disburse monthly scholarships.

**Shrimati Dakshayani Velayudhan:** Are there any instances where scholarships are given to students in lump sums?

آنریبل مولانا ابوالکلام آزاد: نہیں - نہیں - ہر استوڈنٹ کو ملتہلی رقم ملتی ہے لیکن برس بھر کی رقم ہر انسٹی ٹیوشن کے پرنسپل کے پاس جمع کر لی جاتی ہے۔

**The Honourable Maulana Abul Kalam Azad:** No, no. Every student gets monthly payment. But the annual lump sum amount is placed at the disposal of the Principal of the institution concerned.

**Shrimati Dakshayani Velayudhan:** My information is different. Will Government consider the desirability of asking the Principal to give the scholarships in monthly instalments in all institutions?

**Mr. Speaker:** This is being done at present. The honourable member must accept the Education Minister's statement on that.

شری دیپش بلدھو کہتا: کیا میں دریافت کر سکتا ہوں کہ ان چھ سو اکیس میں دہلی کا بھی کوئی استوڈنٹ (Student) ہے۔

**Shri Deshbandhu Gupta:** May I know if the figure of 621 includes any student from Delhi also?

آنریبل مولانا ابوالکلام آزاد: اس کے لئے نوٹس کی ضرورت ہے۔

**The Honourable Maulana Abul Kalam Azad:** I must have notice for that question.

#### PAY OF CANTONMENT BOARD EMPLOYEES

**\*28. Shri B. N. Munavalli:** (a) Will the Honourable Minister of Defence be pleased to state what is the total number of employees in all the Cantonment Boards in India?

(b) On what date were instructions issued by Government that the pay of Cantonment Board employees should be on the same level as that of the employees of Municipal Committees of the place?

(c) Have the said instructions been complied with by the various Cantonment Boards?

**The Honourable Shri N. V. Gadgil:** (a) 11,161.

(b) Government cannot issue instructions to Cantonment Boards in this matter. They however, suggested to the Boards on the 19th July 1948 that in view of the various representations that had been received from Cantonment Fund Employees regarding the inadequacy of the scales of pay admissible to them, the question of revision of their pay scales and other conditions of service should be carefully examined and that as far as possible the scales of pay and conditions of service recommended by the Provincial Governments concerned in respect of employees of neighbouring Municipalities should be adopted.

(c) Some of the Cantonment Boards have already accepted the suggestion while the matter is still under consideration in others. Some have given interim relief.

**Shri R. K. Sidhva:** Is it not a fact that the functions of the Cantonment Board employees are identical with the functions of employees of local bodies in civil areas and whether the Government therefore desire that all the Cantonment Board Authorities should fix the salaries of the employees on a par with the salaries of the employees of the local bodies in civil areas?

**The Honourable Shri N. V. Gadgil:** That may be the opinion of the Government, but the matter ultimately rests with the Cantonment Board Authorities.

**Shri R. K. Sidhva:** Is it not a fact that the Cantonments are governed by the Government of India and therefore cannot the Government issue instructions?

**Mr. Speaker:** The Cantonments Boards are, I understand, statutory bodies.

**Shri R. K. Sidhva:** They are still governed by the Government of India Act.

#### EXPENDITURE ON CAPITAL WORKS, SUPPLIES AND SERVICES TO KASHMIR

**\*29. Shri B. N. Munavalli:** (a) Will the Honourable Minister of States be pleased to state what expenditure has been incurred in respect of supplies and services to the Jammu and Kashmir State apart from the expenses on military operations?

(b) Has any expenditure been incurred on capital works in Jammu and Kashmir and if so, what are those capital works and what is the amount of expenditure incurred so far?

**The Honourable Sardar Vallabhbhai Patel:** (a) The expenditure incurred in aid to Kashmir in respect of supplies and services (excluding expenditure on Capital Works but including expenditure on the restoration of the Mohara Power House) is estimated at Rs. 16,09,000 of which Rs. 4,51,000 was spent in 1947-48 and Rs. 11,58,000 in 1948-49.

(b) The Capital Work on which expenditure has been incurred is the Jammu-Pathankot Road (within the Kashmir territory). The expenditure is estimated at Rs. 1,59,82,000 (Rs. 13,10,000 during 1947-48 and Rs. 1,46,72,000 during 1948-49).

**Shri R. K. Sidhva:** May I know, Sir, whether certain armed forces in Kashmir are controlled exclusively by the Maharajah of Kashmir and the Kashmir Government has nothing to do with it? If so, what amount is spent exclusively by the Maharajah towards these armed forces?

**Mr. Speaker:** This question does not arise.

**Shri Brajeshwar Prasad:** May I ask if these loans were given by the Government of India and if so, what is the security, Sir.

**The Honourable Sardar Vallabhbhai Patel:** The uncovered balance is against the reserves of the State.

**Shri H. V. Kamath:** May I ask if the Government of Jammu and Kashmir have asked for any financial assistance from the Central Government for the relief and rehabilitation of returning refugees to the State?

**Mr. Speaker:** The question does not arise.

**Shri M. Ananthasayanam Ayyangar:** May I know whether the maintenance charges of the Jammu-Kashmir road are being borne by the Government of India; apart from the capital expenditure, whether the maintenance charges are borne by us?

**The Honourable Sardar Vallabhbhai Patel:** The road is now handed over to the State and, therefore, it is the responsibility of the State. I have not enquired into the matter, but if you desire it, I will enquire into that.

## ABOLITION OF POSTS OF ASSISTANT SECRETARIES IN CENTRAL SECRETARIAT

\*30. **Giani Gurmukh Singh Musafir:** Will the Honourable Minister of Home Affairs be pleased to state:

(a) whether it is a fact that under the new scheme to be shortly introduced in the Central Secretariat, it has been decided to abolish the posts of Assistant Secretaries and to create the posts of Under Secretaries instead; and

(b) whether it is a fact that the existing Assistant Secretaries and Superintendents, who are not Graduates and whose age is over 45 years will not be considered for promotion to posts of Under Secretaries and other higher posts?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes.

(b) No; the restrictions regarding age and educational qualifications apply only to those, who do not hold a lien on Class I or Class II appointments. They will not, therefore, apply to Assistant Secretaries and Superintendents who are confirmed at least as Secretariat Assistants.

## CANDIDATES SELECTED FOR FOREIGN STUDIES IN 1948

\*31. **Shrimati Dakshayani Velayudhan:** Will the Honourable Minister of Education be pleased to state:

(a) the number of candidates selected for foreign study in 1948; and

(b) the number of women candidates among them?

**آنریبل مولانا ابوالکلام آزاد:** (a) اورسیز اسٹالرشپ اسکیم پچھلے برس ملتوی کر دی گئی تھی اس لئے ۱۹۴۸ میں کوئی چناؤ نہیں ہوا۔ صرف ایک امیدوار سیکرٹری اسٹیت اسٹالرشپ کے ماتحت چنا گیا تھا۔  
(b) کوئی نہیں۔

**The Honourable Maulana Abul Kalam Azad:** (a) There was no selection in 1948 under the Overseas Scholarships Scheme. One candidate was, however, selected for foreign study under the Central States Scholarships Scheme.

(b) Nil.

**Shri R. K. Sidhva:** May I ask if any women candidates were selected actually during 1948 with reference to answer to part (b)?

**آنریبل مولانا ابوالکلام آزاد:** لیکن اسکیم ملتوی رہی اس برس۔

**The Honourable Maulana Abul Kalam Azad:** But the scheme was suspended during this year.

**श्री एच०वी० कामत:** जो स्कालर १९४८ में चुना गया वह किस मुल्क में भेजा गया।

**Shri H. V. Kamath:** May I know the name of the country to which the one scholar selected in 1948 was sent?

**آنریبل مولانا ابوالکلام آزاد:** یونائیٹڈ اسٹیٹس۔

**The Honourable Maulana Abul Kalam Azad:** United States of America.

**Pandit Lakshmi Kanta Maitra:** May I enquire whether the reason for not making any selection in the year 1948 was mainly for the preservation of foreign exchange? Was there any other reason for not making selection in the year?

**آنریبل مولانا ابوالکلام آزاد:** میں سمجھتا ہوں کہ یہ معاملہ اتلی مرتبہ ہاؤس کے سامنے آچکا ہے کہ آنریبل ممبر کو معلوم ہونا چاہئے کہ اورسیز اسٹالرشپ اسکیم

۱۹۴۷ میں ملتوی کر دی گئی تھی اور دائے کمیٹی بتھا دی گئی تھی کہ نئے سرے سے پوری اسکیم پر غور و فکر کرے اور اپنی سفارش پیش کرے۔

**The Honourable Maulana Abul Kalam Azad:** In view of the fact that this question has been very frequently discussed in the House, I think the honourable member must be aware that the Overseas Scholarship Scheme was suspended in the year 1947, and Roy Committee was set up to consider the entire scheme *de novo* and make its recommendations.

**श्री एच०वी० कामत:** वह एक स्कालर कौनसी तालीम पाने के लिये अमरीका भेजा गया है।

**Shri H. V. Kamath:** What is the subject of the study for which the one scholar was sent to America?

**آنریبل مولانا ابوالکلام آزاد:** نوٹس کی ضرورت ہے۔

**The Honourable Maulana Abul Kalam Azad:** I must have notice of that question.

## LOANS FLOATED IN 1948

\*32. **Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Finance be pleased to state whether any new loans have been floated during the year 1948 for the Centre and the Provinces?

(b) What is the total amount of buyings of various loans in 1948?

**The Honourable Dr. John Matthai:** (a) The Central Government floated two loans and the Government of C. P. and Berar one loan.

(b) The total subscriptions to the Central loans amounted to Rs. 55,01,96,500 and to the Provincial loan to Rs. 2,03,28,000.

**Shri M. Ananthasayanam Ayyangar:** May I ask what proportion of this loan, Sir, was under-written by the Reserve Bank of India?

**The Honourable Dr. John Matthai:** I am not in a position to answer that question.

**Shri M. Ananthasayanam Ayyangar:** Have, these loans been popular and subscribed, or is it necessary to reverse the cheap money policy started by the Government of India?

**The Honourable Dr. John Matthai:** That raises a big issue on which I am not in a position to say anything, but as advised at present, we do not propose to alter our money policy.

**Shri R. K. Sidhva:** Are these loans fully subscribed?

**The Honourable Dr. John Matthai:** They are.

**Shri M. Ananthasayanam Ayyangar:** Is it a fact that the loan floated on behalf of the Central Provinces was not at all subscribed or subscribed very scantily?

**The Honourable Dr. John Matthai:** Not to my knowledge, Sir.

## MEASURES TO CONTROL INFLATION

\*33. **Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Finance be pleased to state what steps are being taken to implement the recommendations of the Committee of Economists and the Congress party regarding inflation?

(b) What measures have been taken to put down and control inflation and with what success?

(c) What is the trend of prices after these measures were put into operation?

(d) What are the present price indices of cloth and foodgrain in Delhi, Calcutta, Madras and Bombay?

**The Honourable Dr. John Matthai:** (a) and (b). I would invite the attention of the honourable member to the Press Communiques issued by Government from time to time since 4th October 1948, copies of which have been placed in the library of the House. It is too early to gauge the success of the measures announced.

(c) The rising trend of prices has been checked; and there are indications that a downward movement is in sight.

(d) A statement giving the required information is laid on the table of the House.

*Statement showing retail prices indices of Clothing and Food grains at Madras, Bombay, Calcutta and Delhi.*

NOTE.—Figures maintained by the Economic Adviser to the Government of India.

**Prof. N. G. Ranga:** Are Government aware of the fact, Sir, that with reference to part (b) that there are huge stocks of cloth remaining with most of the cloth dealers and that they are finding it very difficult to dispose of them, because there is not market enough.

**The Honourable Dr. John Matthai:** Sir, I understand the position is better now and is rapidly improving.

**Shri Deshbandhu Gupta:** Is it a fact, Sir, that controlled cloth is selling in the open market at a cheaper rate than in the licenced shops?

**The Honourable Dr. John Matthai:** May I ask the honourable member to put down a question for the Minister of Industries and Supply on this matter?

**Shri T. T. Krishnamachari:** Will the Honourable Minister enlighten the House what exactly are his views in regard to stabilization of prices and in what level etc. because we had conflicting reports of the Honourable Minister making a statement and which was interpreted by other people.

**The Honourable Dr. John Matthai:** I am glad, Sir, the honourable member has raised this question. I do not think there is any difference at all between what I said and what His Excellency the Governor-General said. All that happened was that His Excellency as a master of clear and simple prose was able to make my meaning clearer than I did myself.

**Shri H. V. Kamath:** With a view to combat inflation have Government prescribed austerity measures for the people of India?

**The Honourable Dr. John Matthai:** It is not necessary for Government in this country to impose austerity measures, because circumstances have imposed on this country austerity measures.

**Shri H. V. Kamath:** Do the austerity measures laid down by Government or prescribed by Government apply as much to the Ministers as to the people?

**The Honourable Dr. John Matthai:** Such austerity measures as we have laid down apply to the Ministers also.

**Shri Deshbandhu Gupta:** Have the Provincial Governments asked the Central Government to take delivery of the cloth which was allotted to them and have some mills given notice to Government that they would close down if the cloth is not removed?

**The Honourable Dr. John Matthai:** The honourable member should put down a question for the Minister of Industries and Supplies.

**Mr. Speaker:** He should put down a separate question.

**Shri Mahavir Tyagi:** Over and above the statement of policy and the proposals of the Government with regard to checking inflation, I am anxious to know whether the Government have taken some effective actual step or any action to stop it, and if so, what actions have the Government taken?

**The Honourable Dr. John Matthai:** Sir, really the most important aspect of this question is the cost of living and the measures of control that Government have re-introduced are the most effective measures that you can adopt in this regard.

**Shri Mahavir Tyagi:** What are they?

**The Honourable Dr. John Matthai:** Of which I think a very full account has been given to the country from time to time during the past few months.

**Mr. Speaker:** The question hour is over.

### (b) WRITTEN ANSWERS

#### CURRENCY NOTES IN CIRCULATION IN DECEMBER, 1948

\*34. **Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Finance be pleased to state the total amount of currency notes in circulation in December 1948?

(b) How many more were put into circulation during the second half of 1948 and why?

(c) What is the progress made in the campaign of compulsory saving?

**The Honourable Dr. John Matthai:** (a) About 1200 crores of rupees.

(b) There was no expansion of currency during the period; on the other hand, there was a net contraction of currency to the extent of about 100 crores of rupees, including about Rs. 41 crores retired from Pakistan.

(c) Government have not introduced any compulsory saving scheme.

#### NATIONALISATION OF IMPERIAL BANK OF INDIA

\*35. **Shri M. Ananthasayanam Ayyangar:** (a) Will the Honourable Minister of Finance be pleased to state what steps Government are taking to nationalize the Imperial Bank of India?

(b) Do Government propose introducing legislation for this purpose during the current session of the Legislature?

**The Honourable Dr. John Matthai:** (a) and (b). I would refer the honourable member to the reply given by my predecessor to Mr. Mohanlal Saxena's short notice question on the 4th February 1948. In the light of the examination of the technical questions referred to and in view also of possible repercussions on the investment market and of the existing unsettled economic conditions in the country, Government consider that it is not feasible to proceed at present with the nationalisation of the Imperial Bank of India.

#### FIRING BY SOLDIERS ON POLICEMEN ON DUTY IN DELHI

\*36. **Srijut Rohini Kumar Chaudhuri:** (a) Will the Honourable Minister of Home Affairs be pleased to state whether it is a fact that a party of five Soldiers opened fire on policemen on duty in Delhi on the night of Tuesday the 11th January, 1949, as a result of which five persons including two policemen were seriously injured and if so, what is their present condition?

(b) Have the Soldiers concerned been arrested and if so, what action is being taken to prosecute them and to compensate the injured persons?

**The Honourable Sardar Vallabhbhai Patel:** (a) Yes. Some Sepoys of Madras I.E.M.F. fired at a police party on the G. B. Road on the night of the 10th-11th January 1949, as a result of which six persons, including three Constables were injured. Two of them, including one Constable have since succumbed to their injuries. Except one Constable who is making progress in the Hospital, the rest have been discharged from Hospital.

(b) The Soldiers concerned have been arrested and the case against them is being investigated. The question of compensating the injured persons and the families of the deceased is being taken up.

#### MANUFACTURE AND DISTRIBUTION OF OPIUM BY GOVERNMENT

\*37. **Srijut Rohini Kumar Chaudhuri:** Will the Honourable Minister of Finance be pleased to state what is the total quantity of opium manufactured by the Government of India in the year 1948, how it was distributed, and what is the total profit made by Government out of their opium trade inside and outside India?

**The Honourable Dr. John Matthai:** The total quantity of opium manufactured by the Government of India was 5,322 Mds. in the year 1948. It was distributed as follows:

|                                        |            |
|----------------------------------------|------------|
| Provinces and States.....              | 4,271 Mds. |
| Exported to other countries (Pakistan) | 769 Mds.   |
| Converted into alkaloids               | 289 Mds.   |

The Central Government make no profit on sales in India, as sales to the Provinces and States are made at cost price. The profit made on sales outside India was Rs. 4,95,000. The profit on quantity issued for the manufacture of alkaloids cannot be calculated till all alkaloids are fully manufactured and sold out.

| 25. Mr. C. P. Singer, Do. Asiatic<br>M. B. E. C. R. Deptt.                                                                   | 23rd Janu-<br>ary 1948. | Assistant Secretary<br>to the High Com-<br>missioner for India<br>in the Union of<br>South Africa.       | Re-employed<br>with effect from<br>24th January<br>1948.                                                | Second Assis-<br>tant Secretary<br>to the H. C. for<br>India in the<br>Union of S.<br>Africa<br>£ 600 P. A.<br>plus Pension<br>Rs. 400 p.m.        |      |   |   |   |    |

later from 31st  
May 1945 he  
has been ap-  
pointed as  
Principal Almer  
Centre.

The appointment  
was made pending  
selection of a  
suitable officer.  
F. P. S. C. He  
was already in the  
Dept. and was  
allowed to continue  
as no suitable  
candidate was  
available.

An I. C. S. Officer  
with 10-15 years  
service and ex-  
perience of coal  
mines was most  
suitable. But as  
such a person was  
not available a  
senior P. C. S. Offi-  
cer like Rai Bahadur  
B. N. Singh was  
the next choice.

The matter is  
under consid-  
eration. Public service.

Extension for  
one month and  
25 days.

Pressure of work in  
the office of the  
H. C. and non-  
availability of a  
suitable person to  
replace Mr. Singer.
