TABLE OF CONTENTS.

VIII. B. Miscellaneous Correspondence.

Vol. 3434.

(1) Letters Sent and Received.

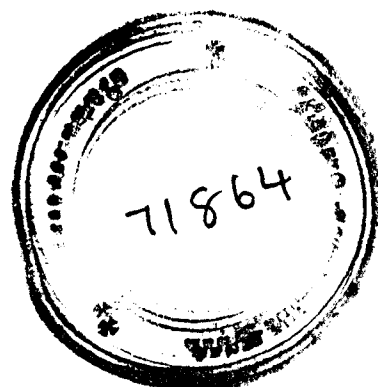

1815-6.

Date.	Abstract.	Page number.
	Summons	
4-8-1815	Raja's subjects. To the Judge and Magistrate. Of the seven persons required three are not to be found in Tanjore.	1
	Nana Sahib	
3-8-15	Increased allowances. From Nana Sahib. Repeats his claims to a better treatment in virtue of his rank. Requests that he may at least be allowed to receive the same amount as is paid to the son of Ameer Sing.	1-3
	Passports to Ceylon	
22-7-15	Investigation. From the Government of Ceylon. Reports that a man has arrived at Jaffnapatam to purchase teakwood for the Raja of Tanjore. As he is suspected to have come on some mission connected with the King of Kandy the matter is being investigated. The Resident is requested to ascertain the true object of persons who go to Ceylon before giving them passports.	4-6
	Rajagopala Tondaman	
28-7-15	Complaints against Tondaman. From the Chief Secretary. Forwards a petition from Rajagopala Tondaman and his mother Meenatchi Ammal. The repeated petitions made by them seem to indicate that they have sustained a real grievance which the Resident should try to redress in conjunction with Tondaman.	7
	Passports to Ceylon	
14-8-15	Investigation. To the Chief Secretary. Reports that the person suspected by the Ceylon authorities is a regular person authorized by the Raja to purchase several things. So far as the Resident is aware the Raja has never corresponded with the deposed King of Kandy. On the other hand the Raja's disposition towards the Government becomes more and more friendly. He has recently erected a column in commemoration of the victories of the English over the French. The suspicion entertained by the Ceylon Government is baseless.	8-13

They were offered three months' pay as a compensation for the loss of their services. This was refused at first but was subsequently received. They proposed to take service under the Raja of Mysore but were obviously persuaded to make a petition to Government. The complaint of arrears of pay is baseless.	46-9

Date.	Abstract.	Page number.
	Raja's Allowances

	Kaval Fees	
1-11-15	Demand on the Raja. From the Collector. 1. States that the Raja's lands are assessed in common with the other lands according to the intention of the Police Committee and the orders of Government. The objection raised by the Raja's Sirkele seems to be limited to the amount of the fees. The area of cultivated lands as stated by the Raja's officers seems to be smaller than that is found to be the actual area according to the Collector's accounts.	57-9
3-11-15	———To the Sirkele. 2. Forwards the above letter for remarks.	59
	Tranquebar Peshkash	
27-10-15	Raja's claim for arrears. From the Chief Secretary. Forward a copy of the treaty between Denmark and England. The Raja is not entitled to the arrears. Besides, the revenues derived from Tranquebar have fallen short of the disbursements which Government were forced to make when the place was in their possession. The Raja will therefore withdraw his appeal to the generosity of the Government.	59-64
	Cash Remittance	
2-11-15	From the Collector of Trichinopoly. Advises a remittance of 23,000 pagodas.	64
	Summons

	Raja's Presents	
6-11-15	Returned by the Collector. From the Collector. 1. Returns a pair of shawls which were presented to him on behalf of the Raja. As the orders of Government are intended to refer to an exchange of presents on ceremonial occasions the Collector is of opinion that on other occasions presents should not be recieved.	69-70
0-11-15	———Reply. 2. Appreciates the manner in which the Collector behaved on the occasion. His view is correct and will be approved by the Raja.	70-1
	Kaval Fees	
11-11-15	Raja's land. To the Collector. States that the demand on the Raja should be restricted to his lands as different from those possessed by Nana Sahib and Setubava Swami.	71-2
	Nana Sahib	
11-11-15	Adoption of a son. To the Chief Secretary. 1. The Resident had for some time ceased to see Nana Sahib with a view to allowing him time to overcome his arrogant pretensions. His advisers had been obviously persuading him to reject the Raja's offers on the ground that Government were taking a benevolent interest in his affairs and that he would in course of time be raised to the throne. A rumour spread in Tanjore that orders had been received to this effect. 2. In the midst of these circumstances Nana Sahib began to make preparations for the adoption of a son. The Raja and the Resident pressed him to obtain the orders of Government before doing so. But he performed the ceremony secretly and informed the Resident later on that he was willing to accept the Raja's offers and to proceed to Kumbakonam. The Raja has become entirely disgusted with his conduct. The conditions imposed upon his arrangement have been broken. Nana Sahib is not therefore entitled to receive the increased allowance etc. proposed by the Raja. 3. Nana Sahib's confinement is voluntary. He is only prohibited from making use of the royal marks of dignity when going out. His allowance is plentiful and considering this conduct to the Raja the latter has behaved very graciously towards him. But the Raja seems to think that Government ought to put an end to his arrogance.	73-9
	Tondaman's Peons	
3-11-15	Appeal against discharge. From the Chief Secretary. The Resident's explanation is very satisfactory. The petitioners should not be allowed to renew their visit to Madras.	90

	Tondaman's Peons

11-11-15	Remarks of the Court of Directors. From the Chief Secretary. Forwards extracts of letters received from England. The title of 'His Highness' bestowed upon the Raja is approved. The Resident's watchfulness over the Raja's affairs and his attitude towards the Raja are praised.	105-8
	Tondaman's Affairs	
11-11-15	Remarks of the Court of Directors. From the Chief Secretary. The Court of Directors approve the interest shown by Major Blackburne in the upbringing of the young princes and the prosperity of their country. 27-11-15	Statement.	109-10
	Butler, Capt. John	
8-12-15	O.C., the Resident's Escort—Death of. To the Chief Secretary. 1. Reports the death of Capt. Butler from old age. He entered service as a private and rose by merit to the rank of a Captain. He leaves a large family almost unprovided for. The Resident therefore recommends them to the benevolence of Government. 2. As the Captain's duties have been latterly performed by Lt. Michael of the 19th Rt. N.I. he may be appointed to the command of the Resident's Escort.	111-6

Date.	Abstract.	Page number.
	Nana Sahib	
1-12-15	Adoption of a son. From the Chief Secretary. 1. The Raja may be assured that it is not of the least political importance to him. Government regret that the Raja does not place more faith in them than to suspect them of trying to encourage Nana Sahib's pretensions. 2. The latter may be allowed to move to Kumbakonam whenever he is willing to do so. His conduct should not be considered to be arrogant but rather as proceeding from a feeble mind. An extract from a letter from England approving the proposals for affording him more adequate means of subsistence, is enclosed.	116-8
	Danish Mission at Tranquebar	
10-12-15	Raja's help. To the Chief Secretary. Reports that he has permitted the Raja to make an allowance of 20 pagodas per month to the Danish Mission in aid of its charity schools.	120-1

15-12-15	From the Collector. Advise a remittance of 18,000 pagodas.	132-3
	Nana Sahib	
20-12-15	New arrangements. To the Chief Secretary. 1. Forwards an extract from the Resident's diary regarding the interview with the Raja. The latter is discontented at the attitude adopted towards Nana Sahib by Government. In his opinion Nana Sahib ought to be censured for the attitude of hostility which he has adopted in his dealings with the reigning prince. Great indulgence has been already shown to him at the intercession of Government but his conduct has been very ungrateful. 2. The Raja has furnished certain documents to prove that Nana Sahib has no claim to the throne. His mind is however disturbed and the Resident is unable to remove his fears. 3. Regarding the removal of Nana Sahib to Kumbakonam the Raja states that the palace at Kumbakonam was offered on the express condition that it should be accepted immediately, failing which the offer was to be considered to be withdrawn.	133-53
	Raja's Title	
23-12-15	His Highness. To the Chief Secretary. The Raja received the news of the approval of the Court of Directors with great ceremony and rejoiced that it had arrived at a time when his title was disputed by Nana Sahib.	153-5

4-3-16	—To the Chief Secretary. 2. Communicates the sentiments of the managers. Their suggestions do not seem to be wholly good. They have advised a reduction in one instance only while they have recommended an increase in five instances. The Resident is convinced that a small reduction may be made in the several allowances without subjecting the prisoners to distress, but does not consider it to be a desirable proposal in view of the discontent which it may give rise to.

	1. Condemns the Raja's action in resuming a piece of land granted by Tuljajee, on the advice of his pundits who produced certain texts from their Sastras to prove that the Raja had the right to withdraw all gifts if he liked. The Resident regrets that the Raja should have listened to the advice of such evil counsellors and in consequence to have allowed a worthy family to be driven out of their home without any compensation.	
	2. The Resident did not know that any oppression was contemplated when he sanctioned the grant of land to Ramapah the King's sirkeel. If the Raja's pundits declare that the Raja has got the right to do any act of oppression with impunity, there are other pundits at Kumbakonam and Madras who are ready to produce Sastraic authority to prove the contrary.

	Karikal Villages	
17-12-16	Terms of the tenure. To the Chief Secretary. 1. The fort of Karikal and five villages in its vicinity were sold to the French in 1738 by the usurping Raja of Tanjore. A tribute of 3,000 pagodas per annum was promised by the French besides allowing the Raja to collect the customs. In 1739 Pratap Sing sold 8 villages more without any reservation. In 1742 he granted four villages in exchange for 3 of the previous 8. In 1739-40 the tribute was reduced by Pratap Sing to 2,000 pagodas. This was regularly paid till 1749-50. 2. In that year Chanda Sahib forced the Raja to cede the villages to the French without any reservation. No tribute was therefore received till 1765. After the restoration of the French possessions the French Commissioner agreed to pay a tribute of 1,000 pagodas per annum, provided the fort and the purchased villages were to be restored to the French, while the four magans were to be returned to the Raja. 3. After the restoration of Tuljajee in 1796 the arrears were demanded and perhaps paid though no receipts are to be found. According to the treaty of 1784 England was forced to cede the 4 maganams to the French, in spite of the Raja's remonstrances. On the capture of Karikal in 1793 Ameer Sing requested the restoration of the villages, which he promised to return if by any treaty they were to be returned to the French. The villages accordingly remained in the possession of the Rajas of Tanjore until 1799 when they became part of the Company's territory. The Raja receives his 1/5 of the net revenues of these villages also.	67-72
20-12-16	———To the Raja. 4. Forwards the papers relating to the conditions fixed for returning the villages to the French. According to the treaty of 1814, all the French possessions are to be restored.	72-6

Even though the regulations do not mention it the Treaty of 1799, which has been communicated to the Judge and Collector, make mention of the Raja's court and define its jurisdiction. ...	2. The Raja bequeathed to the adopted son of Nana Sahib the allowances of his father and even went to the extent of considerably enhancing it. Nana Sahib's followers seem to consider this as a silent admission on the part of the Raja, of Nana Sahib's claims to the throne. 3. The Raja therefore stipulates that the sanction of Government should be given to this arrangement only on the condition that if the young man misbehaves his allowances will be reduced to 400 chuckrums per month and that he will be forced to repay whatever he may have received in excess.	424-6

His office is open between 10 and 5 and all letters of business should be sent to that place during business hours.	6-7
18-12-17	———Reply. 2. The Raja's messages are always sent through hircarrahs or Khawasses, the latter being equal in rank to the hircarrahs. The person who appeared before him in rags was a havildar who had been assaulted by some persons. The Raja had sent him with the intention of allowing the Resident to see him in his distressed state.	7-8

They were also commissioned to purchase horses at Lucknow. Some time ago one Boodgir arrived at Tanjore bringing a letter from Jwalagir. 2. On enquiry the Raja found the letter to be a forgery. He demanded the articles left at Tanjore by Jwalagir but has been told that they will not be returned unless he produces the acknowledgment given to Jwalagir. He has admitted the forgery.	28-31

12-1-18	Jwalagir Raja's intercourse with—Objected to. To the Raja. 1. Desires that Boodgir who came to demand the articles should be delivered up to him. The Resident strongly deprecates the Raja's intercourse with Jwalagir and other Gosamis who might have perhaps brought secret information from the native princes in the north. In former days the Raja used to trust the Resident, but now he is listening to the evil advice of his brother-in-law and Sirkeel Ramojee Ghautageh and is consequently dragged into committing acts which are contrary to the treaty.	32-3
13-1-18	—Reply. 2. The Raja is not aware of having committed any irregularity in purchasing articles from the Gosamis. Besides, these persons had in their possession passports from British Officers. The Raja was not aware that they came from Northern India.	34-5
14-1-18	—To the Raja. 3. He should have sent to the Resident all the passports shown to him in accordance with the instructions given to him. Since a large sum of money has been advanced to the Gosamis, upon whose security did the Raja make this advance?	35-6
15-1-18	—Reply. 4. The Raja had been under the impression that only those passports which were granted to his own followers were to be delivered up to the Resident when done with. The passports produced by the Gosamis were signed by British Officers, but the Raja does not remember who they are. Jwalagir was introduced to him as a musician. He stayed with him for some time and it was on the strength of this acquaintance that the money for the horses was advanced.	36-8
16-1-18	—Examination of Boodgir. 5. To the questions put to him Boodgir answers that Rannojee Mutchi, the Raja's favourite forced him to sign a declaration stating that the letter he brought from Mysore was a forged one. Boodgir states that the letter was received by him from Jwalagir with whom he has remained as a servant for a long time. Jwalagir was born in the north. He has even now an agent in Poona.	38-42

22-1-18	Raja's Son's Marriage Advance of money. To the Chief Secretary. The Raja requests an advance of Pag. 30,000 to celebrate the marriage of his only son. If it should be inconvenient to Government to make the advance the Raja is not likely to be inconvenienced because his economic habits have enabled him to lay by ample funds for such purposes.	46-7

27-1-18	—To the Raja. 2. Communicates the above. This proves clearly that Rannojee Mutchy has been guilty of forcing Boodgir to sign a false declaration and of imprisoning him without cause. The Resident wishes to know in what manner he proposes to punish Rannojee Mutchy.	51-3
27-1-18	Appasamy Son of Dattajee Appah. From the Collector. Sends the person who posted the anonymous letter about Appasami.	53
29-1-18	Jwalagir Raja's dealings with. From the Raja. 1. Boodgir has been treated with respect. His property has been returned to him. Rannojee Mutchy has been suspended for a period of three months.	54
30-1-18	—Reply. 2. The punishment is inadequate. In fact it is no punishment at all. The Resident laments that the high reputation which he took pains to establish about the court of Tanjore is being deliberately undermined by the partiality of the Raja to his favourites. He has rewarded instead of punishing some of his officers who committed acts of great injustice. This leads people to infer that the Raja is privy to their deeds.	54-6
4-2-18	Customs Rawanas Statement of.	58-9
4-2-18	Rannojee Mutchy Punishment of. From the Raja. As the guilt of Rannojee was not proved he was punished with suspension. Since the Resident is dissatisfied with this the Raja is willing to inflict whatever punishment the Resident may suggest.	59-60

7-3-18	Raja's Kotwal Misconduct of. From the Collector and Magistrate. 1. The cutwal, when examined, denied the charges of defrauding the renter and ill-treating his servants. His statement is, however, proved to be false by the evidence of three other disinterested persons who actually heard him instructing a woman to bring in a false charge. 2. Since the new cutwal's jurisdiction is confined to the esplanade of the fort the people in the villages round the fort will have to be protected by the police. 	Raja's Kotwal	
3-4-18	Jurisdiction. To the Raja. 1. It is desirable to have an unmixed jurisdiction in matters of police. This object was not achieved hitherto because of the consideration paid to the Raja's feelings. 2. Since he has voluntarily relinquished his authority over the pettas it is not advisable for him to evince a desire to post his cutwal's peons in his own pettahs outside the fort in conjunction with the Collector's police. This will lead to a clashing of authority. The detection of crime will also become difficult because each party will try to put the blame upon the other. It would also look as if Government stood in need of the Raja's help. 3. His offer to help the police has been declined. Therefore he should no longer interfere in this affair. 4. 5-6-18	——To Governor Elliot. 2. Forwards the Raja's explanation of his conduct. As the Raja is inclined to throw the blame upon the Resident the latter has been forced to explain his conduct.	264-5

11-6-18	Invitations to officers. From the Chief Secretary. 1. Government regret that their instructions did not arrive before the Raja had been apprised of the acceptance of the invitations issued to the officers. His mortification was perfectly natural. In future no public officer who is not actually at Tanjore should be invited without the previous consent of Government. 2. If the Raja still wishes to entertain the officers he may do so. The invitations may be accepted without a second reference to Government. The distribution of presents should be regulated by the standing orders. 3. 23-11-18	Preventive measures. To the Raja. 1. Requests that a person may be deputed to supervise the arrangements in the fort. This person should accompany Mr. Hunter when he visits the pandals and choultries with a view to pointing out the defects. 2. The Resident also suggests that arrangements should be made to keep the streets clean. As it is, Tanjore has earned a notoriety for its filthy streets. The inhabitants may be taxed for the purpose of establishing a scavenging department.	463-4
25-11-18	—To Pratap Sing. 3. Directs him to send two native doctors to receive instructions from Dr. Hunter.	465
	Raja's Conduct	
24-11-18	Alleged oppression. To the Raja. The Resident regrets that the Raja should have issued orders to prohibit the Brahmins of Umayapuram from reaping their grain on the ground that they refuse to give a false declaration. The Raja's claims to the lands in the possession of Appu Mooppa cannot be sustained by evidence obtained forcibly.	465-6
	Cholera	
24-11-18	Preventive measures. From the Raja. 1. States that two persons have been deputed to accompany Dr. Hunter when he visits the pandals and choultries. As regards the cleaning of the streets the Raja proposes to set about it as soon as the monsoon is over.	466-8
25-11-18	—Reply. 2. Acknowledges the above.	468
26-11-18	—From the Raja. 3. Requests a supply of half a pipe of strong brandy for the use of the patients.	469
27-11-18	(Marathi letter from the Raja.)	469-71
29-11-18	Raja's Conduct Alleged oppression. To the Raja. Since the Brahmins of Umayapuram are not allowed to cut their grain they have been directed to apply for justice to the zillah court. The Resident desires to know the name of the person against whom the complaint is to be made.	472

	Kandyan Prisoners	
17-11-18	Transfer to Pudukottai. From the Chief Secretary. 1. Forwards a petition addressed to the Magistrate of Madura by Peria Kanniah Samy Naik who desires permission to reside in Tondaman's country and to receive his pension through the Resident.	477-8
1-12-18	———Reply. 2. There is no objection to complying with his request.	479
	Summons	
1-12-18	Raja's subjects. To the Raja. A notice received from the Judge at Kumbakonam was sent to the Sirkeel who refused to serve it on the ground that the witness was a 'great man' and that his evidence will be given only before the Raja's court. This is irregular.	478-9
	Records	
30-11-18	Requisition. From the Raja. If the Resident cannot furnish copies of the old correspondence on his authority he may refer the matter to Government. Otherwise the incomplete nature of the palace records will cause great delay and inconvenience in the transaction of business.	480-1
2-12-18	———To the Raja. On all subjects of a public nature the Raja must refer to the Governor alone. If he desires copies of the records he must address Government himself.	482
2-12-18	(Marathi letter from the Raja.)	483
	Pratap Sing	
4-12-18	Insignia of rank. To the Raja. 1. Answers the Raja's objections. Pratap Sing is not his subject. He is descended directly from the royal family of Tanjore and was born when his father was on the throne. His rank entitles him to the use of ornaments of rank even though the Raja would have perhaps denied him their use if it were in his power. 2. Besides, the ornaments used by Pratap Sing are also used by the Raja's Sirkeel and Sirdar and not merely by the reigning prince and the heir apparent as stated by the Raja. Pratap Sing has abstained from using those which are used exclusively by the Raja. His conduct in this and in all other respects has been so praiseworthy that the Resident is pained to see the disrespectful manner in which the Raja names him in his letter.	483-9

10-11-18	Alleged injustice. From the Chief Secretary. Forwards a letter from the Superintendent of Police, Madras, in which he states that it is his opinion that Shaik Imam has not received justice at the court of Tondaman. He desires that the defendant Abdul Kader should be asked to swear that he has paid him his wages. If he does so Shaik Imam is prepared to abandon his complaint.	492-5
	Warrant	
4-12-18	Tondaman's subjects. From the Magistrate. Requests that one Mohadeen Khan may be apprehended.	495
	Raja's Conduct	
6-12-18	Complaint by British subjects. To the Raja. In regard to the case of Appu Mooppan who claims certain lands purchased by the Raja but which were previously mortgaged to him, the complainant is prepared to sue the Raja in the Provincial Court at Trichinopoly. This will bring great discredit upon the Raja especially as the circumstances are so strong against him. Therefore the Resident requests the Raja to adjust the affair with Appu Mooppan.	495-7
	Supplies to the Raja	
7-12-18	Payment. From the Collector. Requests a payment of Rs. 57,352 for supplies made to the Raja.	498

	Raja's Court	
11-12-18	Alleged partiality. To the Raja. States that the Resident's sarishtadar had applied to the Raja's court for the recovery of certain loans and that he obtained decrees only after the lapse of several months.	503

Date.	Abstract.	Page number.
	Raja's Court—cont.	
	The decrees were allowed to be executed only after several more months. This long delay amounting to 15 months has almost defeated the ends of justice.

	Raja's Conduct	
15-12-18	Alleged oppression. To the Judge, Kumbakonam. 1. Sends the Brahmins of Umayapuram whom the Raja prevents from reaping their grain on the ground that they refuse to give a declaration regarding some other lands. The Raja's manager of the chatram will defend the suit.	509-10
15-12-18	———To the Raja. 2. Regrets that the case should be brought to the court.	510-1
15-12-18	———Reply. 3. Whether the suit is successful or not is immaterial to the Raja. The chatram will either suffer a loss or not as the case may be.	511
16-12-18	———To the Raja. 4. This view is erroneous. The chatrams are the Raja's private property and are managed by him. The officers are appointed and dismissed by him. They are only nominal defendants in the law suits. The blame and the liability will be the Raja's only.	511-3
	Tondaman's Court	
14-12-18	Alleged injustice. From the Register in charge, Zillah Court, Trichinopoly. 1. Forwards the answers given on oath by Abdul Kader to the questions put by the Superintendent of Police, Madras. The complainant, Shaik Imam, has manifested several symptoms of insanity.	513-5
16-12-18	———Reply. 2. Acknowledges the above.	515
	Raja's Officers	
17-12-18	Imprisoning British subjects. To the Raja. 1. Reminds him of the affair in which Tyagaraya Pillai was confined for two months by the manager of a chatram. The person was liberated when it was apprehended that he would die under confinement. He accuses Bavapant, the Raja's favourite of exacting bribes from him. He further complains that the Raja has deputed the same Bavapant to enquire into his grievances. The Raja should, in justice, to the man punish the offenders and make amendments to Tyagaraya Pillai.	515-6
17-12-18	———Reply. 2. Reports that the manager has been dismissed and that the Sirkeel has been ordered to enquire into the complainant's grievances.	517

Date.	Abstract.	Page number.
	Raja's Officers—cont.	
19-12-18	To the Raja. 3. Though the manager has been punished Bavapant has been allowed to go free. The complainant will be sent to state his case before the Sirkeel. The Resident brings to the notice of the Raja the abuses that have crept into the management of the several chatrams. It is his duty to see that the funds are properly administered.	517-8

	Raja's Officers	
23-12-18	Misconduct. To the Raja. Represents that the mother and sister of a monigar complain that the monigar was imprisoned by the manager of a chatram and that subsequently when he was in danger of his life he was sent home in a dooli, a distance of 40 miles. He is said to have died on account of the forced journey in inclement weather. Requests the Raja to hear their complaint and to make amends for the injury.	537-8
	Tondaman's Court	
24-12-18	Alleged injustice. To the Collector and Magistrate. Requests him to demand on oath from Muthia Pillai the answers to the questions put by the Superintendent of Police, Madras, on behalf of Shaik Imam. The result of this examination is likely to be satisfactory to the complainant as well as to Government.	539-40
	Raja's Court	
24-12-18	Delay in executing decrees. To the Raja. States that the Resident's sarishtadar is unable to enforce the execution of two decrees passed by the Raja's court even though a long time has elapsed since the passing of the decrees. This amounts to a denial of justice and is contrary to the Hindu Law.	540-1
25-12-18	(Marathi letter from the Raja.)	542

	Raja's Court

	Tondaman's Court	
2-1-19	Alleged injustice. To the Chief Secretary to Government. Forwards the answers given by Abdul Kadir and Muthia Pillai to the questions suggested by the Superintendent of Police. The various statements made by the complainant are contradictory. The case is cognizable by the Zillah Court of Trichinopoly. The advice given to him formerly to prosecute his case there was rejected. His sanity is doubted by all who have seen him.	4-9

	Raja's Court	
8-1-19	Delay in executing decrees. To the Chief Secretary. 1. Represents that in several instances the Raja's court has refused to carry into execution its own decrees on the plea that a fresh suit has been instituted against the decree-holder and that pending a decision upon the latter the former decree should not be executed.	24-7
	2. As false charges are very commonly brought forward the practice mentioned above leads to almost a denial of justice by refusing the complainant the benefit of the decree. In several instances very old debts have not been discharged on this plea. This is in contravention of the 12th article of the treaty.

	Raja's Officers	
17-1-19	Misconduct. To the Raja. It is immaterial to the Resident whether the complainant Tyagaraya Pillay is satisfied with the decision or not. His duty is to see that an impartial enquiry is held. The Raja's offer to prevent similar offences in future is highly praiseworthy.	34-6
17-1-19	(Marathi letter from the Raja.)	36-7
	Raja's Servants	
18-1-19	New Sarishtadar at the Collector's cutchery. To the Collector. Introduces Baupaji Subbaji who is appointed in the place of the late Sarishtadar.	37-8
	Raja's Court	
18-1-19	Delay in executing decrees. To the Chief Secretary. Reports another instance of delay in executing a decree passed by the Raja's court. Appu Mooppan the complainant was prevented from enjoying the lands mortgaged to him for nearly 15 years because the Raja had purchased those lands disregarding the mortgage. When the Raja was about to be sued endeavours were made to adjust his claims. Two decrees were passed in favour of Appu Mooppan. One of them has not been executed on the ground that a suit has been recently instituted against him. By this device it is possible to protract justice to a number of years.	38-43
	Cash Remittance	
18-1-19	From the Collector. Advices a remittance of Rs. 73,500.	44
	Raja's Presents	
20-1-19	Accounts. To the Chief Secretary. The presents received last year exceeded in value those that were returned by 1,700 pagodas. This was due to the Raja's son's marriage and the unusual number of guests who were present on that occasion and at the Dusserah. The entire value was not returned because it would set up a precedent and make the Raja expect larger presents in future.	44-5
21-1-19	(Marathi letter from Raja Tondaman.)	45-6
	Raja's Service	
22-1-19	Capt. Jamieson's application. From the Raja. 1. Forwards a letter from Capt. Jamieson and states that he does not require his services.	46

3-2-19	(Marathi letter from the Raja.)	70-1
	Raja's Court	
4-2-19	Delay in executing decrees. To the Raja. The Resident is of the opinion that the Raja is not warranted in withholding the execution of the decrees passed in favour of Appu Mooppan on the ground that a fresh suit has been instituted against him by the Raja. As the latter claim arose much later the former claim should be paid irrespective of the decision that may be made on the suit. Such delays will injure the Raja's reputation.	71-3
	Raja's Servant	
4-2-19	Misconduct. To the Raja. 1. Desires to have a copy of the proceedings of the Raja's court regarding the punishment of the two women who are said to have brought forward false charges.	73-4
	—Reply. 2. It is the opinion of the court that they should be publicly disgraced.	74-5
	Raja's Accounts	
2-2-19	Adjustment of overpayment. From the Accountant-General. Forwards a statement showing that the Raja has been paid 6,522 pagodas on account of the Board's charges twice.	75-6
	Raja's Officers	
6-2-19	Misconduct. To the Raja. 1. The Resident is surprised that the Raja should be so eager to disgrace publicly the two women whose relative was imprisoned by the Raja's manager Shamavayya. Though the women have failed to produce witnesses the admission of the Raja's own officers is enough to convict them. 2. Since the crime of which Shamavayyan is accused took place outside the Raja's limits he ought to be handed over to the Magistrate for trial. However, considering that he has been dismissed from his office, no further steps will be taken against him. He has been ordered not to enter the fort. The women have been directed to prosecute him in the Company's Court.	76-80
6-2-19	(Marathi letter from the Raja.)	80-1

Date.	Abstract.	Page number.
	Kandyan Prisoners	
8-2-19	Servants—Return to Ceylon. To the Chief Secretary. The servants who are considered in the light of prisoners receive a small allowance from Government. Most of them have quarrelled with their masters and mistresses and desire to return to Ceylon. To force them to serve their masters will be to treat them as slaves. They may be permitted to return to Ceylon and their masters may be paid servants' allowances for employing servants of their own liking.	85-7
	Raja's Court	
2-2-19	Delay in executing decrees. From the Chief Secretary. 1. Government are dissatisfied with the tardiness in the administration of justice to British subjects by the Raja's court. However, before a formal remonstrance is addressed they direct the Resident to inform the Raja confidentially the seriousness of the situation.	87-8
10-2-19	—To the Raja. 2. Explains the rights of Appu Mooppan to certain lands now claimed by the Raja, and then proceeds to point out the irregularity of withholding the execution of a decree on the ground of a fresh suit against the decree-holder. As a decree-holder can be put off for any number of years by a series of fictitious suits advanced directly or indirectly by the debtor, the ends of justice are defeated. The Resident requests a private interview to explain the views of Government.	88-91
	Tondaman's Court	
12-2-19	Alleged injustice. To Tondaman. A certain person has represented that the Judges refuse to give him a decree passed in his favour and deny that it was passed. This should be verified and the offenders should be severely punished.	91-2
13-2-19	(Marathi letter from the Raja.)	93-6
	Raja's Officers	
14-2-19	Misconduct. To the Raja. Forwards a copy of the answers given to the Resident by Shamavayyan who imprisoned a monigar in a choultry. He has been prohibited from entering the fort. The Resident does not wish to inflict a heavier punishment.	96-8

	Tanjore Residency	
25-8-1829	Proposed abolition—Governor's minute. 1. Governor Lushington objects to the abolition of the Residency because both the Raja and Tondaman are against it and because the Collector will not be able to look after their affairs in addition to the revenue duties of Tanjore. The expenses of keeping a Resident are comparatively low comparing the advantages derived from the office.	1-6

	2. It is of supreme importance that the Raja and Tondaman should not have occasion to feel that Government are neglecting their interests. The Governor, therefore, considers that the Residency should continue to exist.	
6-8-39	Political Suspects Gulam Moideen's movements. From the Secret Department. Gulam Moideen, who has been inciting the people at Arcot to hate the British, is reported to have proceeded to Nagore on a pilgrimage. His movements should be watched.	7-9

5-5-46	Negapatam Treasury Transfer of. From the Revenue Secretary. According to the endorsement of the Collector on the petition the Government of India consider that the merchants have no reason to complain about the transfer of the treasury to Tranquebar.	13-4
28-8-39	Political Suspects Gulam Moideen—Activities of Nagore. To Government. His doctrines as a Shiah offended the Mahometans of Nagore so that they threatened him with forcible expulsion from the shrine. He left Nagore shortly after.	15
..	Jurisdiction Union of Collector and Magistrate. 1. Mr. Kindersley, the Collector, replies to the questions put by Mr. Macleod, Member of the Law Commission, Calcutta, regarding the efficiency or otherwise of the system under which the revenue and police duties are united in the Collector. 2. There are no statistics to show whether heinous crimes have decreased. Gang robberies are still of frequent occurrence in spite of the fact that hundreds of persons are convicted every year. This state of thing is bound to continue so long as the wealthier classes are unable to defend themselves and their property from the robbers. 3. The latter form a caste in several places inhabiting whole villages. Their headmen are thieves and they manage to escape the clutches of the law by obtaining false witnesses whom they coerce according to their will. The parties who are robbed very often withdraw the complaint or refuse to produce sufficient proof when part of their property is restored. Besides, the native agents are not invested with sufficient powers to deal with criminals. Therefore, the inefficiency of the system is due to the lack of sufficient authority.	16-30

	4. The union of the functions of the Revenue and Magisterial departments helps the revenue officers to collect the revenue more speedily. Force is always resorted to as it is absolutely necessary. If the little police powers that they possess are taken away from them the revenue cannot be collected easily. The inhabitants have already learned to resist the revenue authorities by threatening them with suits for damages. If the police powers are transferred to a separate department the people will begin to turn upon the revenue servants. It is therefore desirable to keep the two offices of Collector and Magistrate combined.	
18-4-46	Negapatam Treasury Removal of. To the Revenue Secretary. 1. The petitioners belong to the caste of Nattukottai Chetties who are the most important traders in the province. Their chief complaint is that they will not be able to cash their bills with as much facility as before. This objection cannot hold good because it is impossible to locate the treasury to suit the convenience of all sections of the public at the same time. It is proposed to remove the taluk treasury from Kivalur to the site of the district treasury, so that the traders may cash their bills without difficulty. 2. The next objection is that the removal of the guard will leave the town defenceless. This objection is not valid because even as it is the treasury is two miles away from the town and part of the guard is going to be retained. 3. The Collector has made a similar endorsement upon a petition addressed by the same merchants.	31-9
14-8-48	Religious Institutions Interference by Revenue authorities. From the Board. Communicates the orders of Government stating that until new laws are enacted Regulation VII of 1817 may be enforced whenever the affairs are mismanaged. As this regulation is going to be repealed shortly it should not be enforced except in cases where the interference of revenue officers is urgently required.	40-6

1755-83.

20-3-1755	Maravars Nabob's help to. From Nabob Anwaruddin Khan to Governor Pigot. 1. The Raja of Tanjore and Tondaman complain that in spite of their having long been his allies and supported him in all his endeavours, the Nabob has acted against them in affording protection to the Maravars and preventing the Raja and Tondaman from recapturing the district. They threaten the Nabob with joining the 'Mysorean' in the event of the Circar troops or those of the English assisting the Maravars.	1-3

	2. The Nabob draws the attention of the Governor to the threat of the Raja of Tanjore and Tondaman and states that the latter being his immediate neighbours he cannot do without their help in the matter of procuring supplies of provisions to his fort in times of war. He has written to Col. Heron on the subject and requests the Governor to issue orders directing him to "quit his protection to the Maravars and to settle in Tinnevely. If the Maravars join the French and the Mysoreans, it is no matter, for we can receive the Circar money of him at another time, or the King of Tanjore will answer for it." The Nabob points out that it is important to keep the alliance of the Raja of Tanjore and Tondaman for he will be compelled to be dependent upon them for provisions when war breaks out.	
	Tanjore Raja	
23-8-51	Allegiance to the English. From Governor Floyer to Pratapsing, King of Tanjore. The Raja is told not to pay any heed to the threatening letters of Dupleix. If he will continue his allegiance to Mahomed Ali and the English it will not be in the power of the French to hurt him. He relates that the English ships left the coast a little sooner than usual, and that the French seized this opportunity to surprise and plunder the town.	5-6
	Ammunition	
19-8-49	Transport. From the Governor to the King of Tanjore. The Governor requests the Raja to expedite transport of the English guns and mortars with shot and shell at Devcottah to Trichinopoly to assist Mahomed Ally Khan.	
	English Customs	
1-11-53	Explanation to the Raja. From the Governor to the King of Tanjore. The Governor says he is despatching one Rama Naigue to wait on him and receive his commands, who is acquainted with the English customs and will explain to him anything which might not be so easily understood.

27-3-55	Nabob's assistance to. From the Governor, Lord Pigot to Nabob Anwaruddin Khan. 1. Informs him that he has advised Col. Heron to send back the vakil of the Maravars to his master and withdraw his help to them and that he has written to the Resident at Tanjore.	
27-3-55	2. The Raja assures him of his assistance and friendship and that he might be "perfectly easy" about the Maravars whom he will never suffer to be up in arms against him.	
27-3-55	From the Governor to the Raja of Tanjore. 3. The Governor requests the Raja not to march against the Maravars in order to take possession of certain districts which belonged to him before the war. He must settle the affair amicably lest fresh troubles should arise. 4. The Maravar is anxious to enter into an agreement with the Nabob and the English, and the Governor has written to Col. Heron asking him not to conclude matters with the vakil of the Maravar and make friendship with him unless satisfaction is given regarding the districts in question nor to enter into a treaty without the Raja's concurrence.	1.

27-4-55	5. As regards the restoration of the districts taken by the Maravar from the King, the Governor points out that it would be contrary to the terms of the truce if the Raja were to reopen the fight and that any acts of hostility would be ill-timed.	19
	6. The Governor thinks that if the Raja and the Nabob, together with the English officer, would promise the Maravar, protection for the rest of the country after the restitution of the district, in question, the Maravar would agree to a settlement of the dispute. If it is not agreed upon the Governor assures the Raja that they will help him to retake the districts at a proper time.	
19-5-55	From the Nabob Anwaruddin Khan to the Governor Lord Pigot. 7. It gave him great joy to know from his letter that he understood the affair of the Maravar, that he wrote a letter of encouragement and friendship to the Raja of Tanjore and that in consideration of his friendship to the Raja and the Tondaman and out of regard to the Nabob himself, he had ordered the Colonel not to give protection to the Maravar. He (the Nabob) had written very pressingly to the Maravar calling upon him to restore the country to the Raja as soon as possible and also to deliver Trepaunam and Palumada etc., in Madura and Tinnevely and what he took during the war, to the Circar people. On receipt of the answer he will communicate it to him. All his affairs are "still meeting with success." He assures him that with the assistance of the English "all his affairs will be dispatched in a better manner."	23
	Raja of Tanjore	
16-10-55	Friendship with the Company. To the Raja of Tanjore. Governor Pigot says he had the pleasure of paying a visit to the Nabob during the latter's visit to Madras. It gave him great joy to hear from the Nabob about the Raja's alliance and assistance to him. He believes that the Raja is a sincere friend to the Nabob in the same manner as he (the Governor) is to the Nabob. He is certain that all affairs will meet with success. He concludes with a request to increase his friendship and assistance to the Nabob in every respect.	27
12-4-75	Relationship with the English. 1. This paper is an extract of a letter from the Court of Directors to the Governor and Council. 2. The Court of Directors observe that according to the treaty of 1762 "no opportunity should be lost of raising in the King of Tanjore's idea of his dependence on our friendship" and as expressed by the Governor and Council "it could not be good policy in the Company to reduce Tanjore and to place it under the management and control of the Nabob; more especially as they on the spot were of opinion that on account of oppressions exercised by the	31

- Nabob in his own dominions, and of his inveterate hatred to the King of Tanjore, the Tanjoreans would submit to any power whatever rather than to the Nabob."
3. The Court therefore find themselves "at a loss for words to express our concern on finding that you (the Governor and Council) have assisted the Nabob in dethroning the King of Tanjore and in taking possession of his Dominions."
 4. They remark that "although the treaty of 1769 includes the Raja of Tanjore and shelters him from the Nabob's resentment on account of his conduct during the war with Hydar Ally we cannot consider the general words of that Treaty as sufficient to release the Raja from the Treaty of 1762 by which he became tributary to the Nabob; and therefore the non-payment of this tribute seems a sufficient reason for calling him to account."
 5. Admitting the necessity of the Company's interference between the Nabob and the Raja, the Court could not by any means allow that the Governor was "warranted in recurring to arms so long as the King of Tanjore's vakeel declared himself ready and willing to settle affairs with the Nabob under the mediation and guarantee of the English; and much less can we justify your conduct in agreeing on any account or pretence or under any circumstances that the Nabob should be put in possession of that Kingdom."
 6. The Court further observe that the treaty of 1771 was different from that of 1762 in respect of the additional clause to furnish troops to the Nabob and of the cession of certain districts which was forced to cede the King of Tanjore. But "the Nabob's aversion to your appearing in the proposed negotiation of 1771 ought not to have been considered as a sufficient reason for rejecting the Raja's application when he offered to settle with the Nabob by means of your mediation."
 7. The Court therefore consider the "last expedition unjustifiable and your conduct thereon wholly inexcusable" and direct the removal of Alexander Wynet from "being President of Our Council" in favour of Lord Pigot.

It being known that the violence and injustice of the servants of the provinces in the East are the cause of misery to the people and poverty to the Prince, "they expect that fixed and invariable rules be observed in the collection of the revenue. Terms of reinstatement.

1. This is an extract of a letter from the Court of Directors addressed separately to the Governor and Council. The Court deprecates the violation on the part of the Company, of the provisions of the Treaty of 1762 between the Nabob of the Carnatic and the Raja of Tanjore, in "the measures taken for the dethroning of the unhappy Prince [the Raja of Tanjore] whose kingdom has been wrested by our servants and put under the Government of Mahamad Ally Khan" and characterises its action as rendering the "public faith forfeited and the honour of the British Nation deeply affected."
2. The Court proceed to instruct the Governor to "secure the person of the King of Tanjore . . . and forthwith appoint him a proper guard for his protection and also for the protection of his family and inform him that we have determined to replace him upon the throne of his ancestors upon certain terms and conditions to be agreed upon for the mutual benefit of himself and the English East India Company, without infringing the rights of Mahomed Aliy Khan, Nabob of the Carnatick."
3. The Court consider that, as it is incumbent upon them by virtue of the Treaty of 1762, "to obtain payment of the King of Tanjore's tribute to the . . . Nabob of the Carnatick . . . and as we find to our great concern that other Europeans have obtained undue influence in Tanjore which if permitted and encouraged may operate unfavourably for the Company and render it difficult to perform the part of guarantee to the . . . Treaty", the Governor should "declare to the King of Tanjore that as we have no security for the performance of any engagements which may be entered into by him and as in times past the payment of his tribute has been evaded or delayed and several of his districts mortgaged to Europeans contrary to the interest of the Company we shall insist upon his admitting a garrison of our troops into the fort of Tanjore, not only to ensure the regular payment of the Nabob's just demand in future but also . . . to watch the motions, and to counteract the views of any Europeans or country power who may attempt to form connections or make establishments in Tanjore to our prejudice and you are likewise to insist upon having an assignment of revenue made to the Company sufficient for the maintenance of the said troops and for providing military stores necessary for the defence of the garrison."
4. The Directors wish to assure the King that no diminution of his authority over his subjects shall be suffered to take place. All measures to strengthen the fortifications shall be subject to his approval and paid for by him. They.

however, lay down that no treaty with any foreign power shall be entered into by the Raja except with the concurrence of the Governor and Council nor "shall any alliance be formed by him to the prejudice of the Company nor any aid or assistance be given directly or indirectly to the enemies of the British Nation." Troubles arising in the Kingdom of Tanjore shall be suppressed either by the troops of the Company or that of the Nabob at the Raja's request and the expenditure incurred thereby paid for by him "over and above the charges of the Garrison."

5. The Court however permit the King to employ "such Native Guards" as shall be necessary to support the dignity of the Raja and his Government and "shall be fixed by our Governor." It emphasises that the expenditure on account of the maintenance of the Company's troops within Tanjore should be made good from "other sources" even if unforeseen circumstances render "the revenues" inadequate for the purpose.
6. As regards the request of the Nabob of the Carnatic that the Government of Tanjore should be placed "in the hands of the King of Tanjore's brother or some other of his family" the Court direct the Governor that in the event of the King of Tanjore not living at the time of the receipt of this letter, he shall "proceed to place [those] of the regal line or some other proper person of the King of Tanjore's family upon the throne of his ancestors."
7. In the year 1771 the Nabob obtained from the Raja his arrears of tribute with interest thereon amounting to Rs. 47,25,000 and "certain districts to the amount of Rs. 4,80,000 per annum" to boot. "The charges," therefore, "of the first expedition against Tanjore were more than reimbursed by the above acquisitions." Such being the case the Governor is instructed to pay no regard to that article of the Treaty of 1771 providing for the alienation of part of the Raja's dominions.
8. "If the Nabob had not adjust[ed] his title to those Territories before the conclusion of that Treaty we deny that he obtained any right thereby further than the temporary sovereignty of such districts as were assigned to him for securing the payment of his expenses and which were to be returned to the Raja when such payment should be completed."
9. "The Expedition against Tanjore in 1773 was short being undertaken in the month of August and concluded in September" and therefore the revenues of the country may not have suffered "great diminution by that war." The Directors therefore suppose that the plunder of the place and the receipts of revenue for more than two years would "have rendered the Nabob a very considerable gainer after defraying all charges incurred by his Excellency in the . . . Expedition."
10. The Directors point out to the Governor that he should gain possession of the statement of the Nabob's receipts and disbursements in order to "prevent him from pleading the above circumstances as an excuse . . . for delaying payment of his debts to the Company and those to his private European creditors in case they should be speedily demanded."

Benfield, Mr. Paul

29-5-76

Claims on Tanjore revenues.

61-5

1. Mr. Paul Benfield addressing the Rt. Hon'ble Lord Pigot, President and Governor and Council lays claim to a part of the revenues "on the Tanjore country" under four heads.
2. The first item of the claim is the "revenues of the suba of Mannargudy" to the extent of Pag. 3,69,090—36—42 being the mortgage and assignment made to him by the Nabob. He complains that the Company's sepoys acting under the orders of Lord Pigot have seized the grain collected by him and deprived him "of the means further to collect the revenues."
3. The Nabob had avowed his having made over to him the mortgage and assignment of the suba in question and accordingly deeds have been duly registered by the public officers. He was put in possession of it by the "official authority of Darbar" and under these circumstances he points out his claims are well founded. He therefore requests that "his property" may be restored "and justice done to him in securing for him what he is entitled by virtue of the said mortgage and assignment."
4. The next item of his claim is for a sum of Rs. 20,000 on the suba of Papanasam and Pag. 15,000 on the suba of Pattucotah, "by virtue of the Nabob's orders." Mr. Benfield points out that his claim is likewise acknowledged by the Nabob and is registered in the cutcherry. He requests that the subas may be ordered to make the payment.
5. The third item of the claim is in respect of Pag. 1,20,659 for which he has "the bonds of Amur Ul Omrah Bahadur, as naib or manager of Tanjore country at the time and the inhabitants' bonds assigned me [Paul Benfield] as collateral security." The money was supplied "to assist in the public advances made to the inhabitants, according to the custom of the country—and those debts of the inhabitants made over to me as security." He had authority from the darbar and the public officers to receive these sums. He asks that "the Raja may cause the inhabitants to pay to him what is justly due from them on account of those advances."
6. The fourth and the last item of his claims relate to the "property and claims on many of the inhabitants in the Tanjore country independent of my concerns with the Circar." Under this head Mr. Paul Benfield claims the the last year's produce of grain that was his property and in possession of his people, which amounts to 2,24,044 callams, and also that which had been deposited with him by the inhabitants on account of their debts as already explained. He requests that he may be furnished with a letter to the Raja for this purpose.

7. He concludes by observing that his "loans and concerns" with the Circar have been made known to the President and Council "in his most publick manner for I came under engagement to pay the Dutch the sum stipulated in the treaty made with the Nabob in 1773." He says, he has further within the last three years paid into the Company's treasury, on his own bills on account of the Nabob, to the extent of Pag. 2,000,000. He finishes by expressing a hope that he will doubtless be allowed the "Degree of Freedom that is necessary to support" his right.

Havengady Fort

Capture by the Raja of Tanjore.

69

1. This paper is an extract from the Nabob's instructions to Mr. Dupre when he was proceeding to Tanjore to conclude the treaty of 1762.
2. The Nabob says that Col. Cailland tried to prevent the fort of Havengady belonging to the Maravar under Trichinopoly from being taken. Col. Heron "sent an English flag from Tinnevelly." But the King refused to pay heed to them and took the fort by assault and also "the gady of Moongalgooty, Horore Cottah and the gady of Bonagary with its districts, the revenues amounting to Rs. 2,00,000."

Tinnevelly—Success—Report.

73

1. The Nabob writing to Governor Pigot intimates that it was represented to him by Maj. Preston that the help of the three Zamindars, Tondaman, Maravar and Nalcotty was important for the success of the expedition against Tinnevelly.
2. Tondaman readily complied with the Nabob's request but the others who had been loath to join the Nabob "for these forty or fifty years or from the time of the Gentoo Rajas" were however, prevailed upon "by agreeing to grant certain of their requests."
3. At length "these three Zamindars with a body of 700 horse and five Companies of Sepoys in the Circar's service" with Maj. Preston at their head, were sent. "By the blessings of God, and your friendship and assistance all the Zamindars of high and low ranks of the Carnatick country, beginning from Wongole to the Raja of Maleavar became under my orders and obedience."
4. The Nabob concludes by stating that the Raja of Tanjore "as well as the Zamindars aforesaid" are all paying him a visit.

Raja of Tanjore

20-8-76

Terms of restitution.

77-8

1. Addressing the Raja of Tanjore Governor Pigot remarks in respect of the claims advanced by Paul Benfield that all reasonable assistance may be given him for the recovery of the debts justly due to him. For the guidance of the Raja as to what constitutes the just claims made by Mr. Benfield, the Governor encloses a copy of the Act of Parliament with the relevant portions thereof marked.

2. The Governor observes that the majority of the Council opine that the intention of the Company was to let the Nabob have the produce of the crop sown during the time the country was in his possession and have "no intention that either the Raja or the country should be answerable for more than the Government's share of the crop whatever that might be."
3. The Governor would have the Raja understand that the Council do not mean more than "recommend to him to see justice done leaving the manner and time to himself." Notwithstanding their opinion the Council wish to assure the Raja "of the same friendship and protection from the Company as the Nabob or any of their friends."
4. The Governor ventures to point out that if the Raja should have any representation to make to the Company, he should hasten to communicate it to him "as a ship will sail to England in a few days."
5. The Raja is told that orders shall be given for the immediate payment of money due for the paddy supplied by him at Vellam and for what was "shipped for this place or sold by the Company southward." The Raja is requested to turnish a statement of account in order that the amount may be paid to his vaqueel.

Pigot, Lord

25-8-76

President—Arrest of.

81

1. Mr. Stratton the new President reports to the Raja of Tanjore that the late President Lord Pigot who was "aided and abetted by Messrs. Russell, Dalrymple, Stone and Lathom" had, by his "unconstitutional, violent and illegal conduct," been put into arrest by the majority of the Council who likewise directed to "suspend the other four gentlemen" from the Company's service.
2. As "by this means the government has devolved upon him" Mr. Stratton proceeds to express the assurance of himself as well as that of the Council to show the Raja "every mark of attention and support."

Raja of Tanjore

7-9-76

Mr. Stratton's assurance.

82

1. Mr. George Stratton the new Governor states to the Raja of Tanjore that it gave him considerable pleasure to hear of the obligations he was "under to the Company in relieving him from the many difficulties" he was put to. Mr. Stratton assures him that he could always count upon his support and protection; he would request the Raja that he will "on all occasions open his mind to him and without the least reserve express [to him] what he [would] wish as it is his earnest desire as well as that of the Council to make him and all his people happy."
2. He points out that himself and the present Council disapproved of the appointment of "the Chief and Council and Resident at Tanjore" fully believing that the management of his Government "shall always rest on himself." Mr. Stratton makes clear that it is far remote from his intention "to interfere therein" and assures him that every care shall be taken to see that "no servant of the Company shall do so directly or indirectly."

3. As to the "fears and alarms" with which the Raja is disturbed, the Governor wants him to lose no time in representing them to him in order that he may show his readiness to relieve him. The Raja is requested to report immediately to Mr. Stratton on any subject so that he "may make the same known to them [the Court of Directors] by the ship now under dispatch."
4. The Raja is at liberty to remove the vackeel or any servant placed about his person or act as he may think proper, should they prove disagreeable to him. "For it is an indignity to his rank if Moodoo Kistnah or any Dubash whatever shall presume to dictate to him in the choice of his servants or to interfere in his government."

Benfield, Mr. Paul

7-2-76

Introduction to the Raja of Tanjore.

93-7

Writing to the Raja of Tanjore Mr. George Stratton the Governor alludes to the letter of the late Governor Pigot dated 20-8-1776 received by him relating to the claims of Mr. Paul Benfield and states that as Mr. Benfield "is desirous of going on his own business" he takes leave to introduce him to the Raja. The Governor states that the visitor has given him "every assurance that he will not interfere in any respect in the business of his government."

99-105

Comoro

10-9-76

Settlement of claims.

107-8

1. It is the wish of the Raja that Comoro should not be allowed to come to Tanjore to settle his claims with the inhabitants, who are busy with their cultivation; for otherwise the people would have to take themselves away from their occupation during the important season of the year.
2. Mr. George Stratton informs the Raja of Comoro's departure some days since "and tho' it is his desire that justice be done to all, he is at the same time resolved not to interfere in his government, having already told him that he left to himself the manner and time of settling the claims on his country."
3. It is his wish as well as that of the Council "to encourage cultivation of his country" and therefore it is open to him to "defer it until it may be convenient" if in his opinion he considers that the "present enquiry into these claims will impede" the progress of cultivation.

111-2

Raja of Tanjore

1-10-76

Lord Pigot's advice to.

115-7

1. Lord Pigot at St. Thomas Mount writing to the Raja states that the occasion for this letter is the fact that Mr. Benfield and Kumarapa are at Tanjore and that he was put in mind of their former improper conduct to the Raja. He hopes "they will not be so hardy as to dare to do so at present."

Raja of Tanjore—cont.

2. Lord Pigot advises the Raja that he should readily give them all "reasonable assistance" if they have any private concerns to settle with any of his subjects. But he must remember that he is the sovereign of his own country and that "the English Company have engaged to support and protect him in all his rights."
3. His counsel is "Be a prince, do strict justice to every man, but never condescend to talk on the affairs of your own government with private individuals nor suffer them to interfere therein. Make all your wants known, make all complaints known to the servants of the Company in the management of affairs at Madras; the Company's orders to them are clear and positive and they must attend to them. They must pay a necessary regard to your applications."
4. Col. Harpur is placed at Tanjore in order to secure protection from danger and insult and when receiving visits from Europeans, Lord Pigot recommends to the Raja, to "desire him to be present."

Commandant's appointment.

119-21

1. Mr. George Stratton reports to the Raja that Col. Harpur has been directed to employ some of the Company's sepoys in the different parts of Tanjore to ensure an efficient collection of revenue.
2. The Raja has requested that "no new commandant should be sent to Tanjore." This comes upon Mr. Stratton as a surprise and he points out that the "singular attention . . . shown . . . by . . . the Company is a proof so strong of their good disposition towards him that every idea of suspicion should vanish from his mind and he should look upon them as his best of friends." The Raja's "interests and his safety of his country will ever be particularly attended to by this Government and no officer shall hold the command of Tanjore who shall in any respect interfere with his affairs or those of the inhabitants of his country."
3. Regarding Mr. Benfield's claims, reference is invited to Lord Pigot's letter from which it would be evident that the Raja was called upon to do justice to him "leaving the manner and time entirely to himself." Mr. Benfield has been informed of what the Raja says regarding him and Mr. Stratton assures the Raja that "no servants of the Company shall be permitted on any account to interfere or disturb his government."
4. At the Raja's request the Nabob has been informed of the difficulties his people have met with in repairing the anicut and the Governor says "the Nabob has been moved to procure such assistance as may be given him [the Raja] in the repairs of the annacut as was customary in the time of Pretaub Sing."
5. Mr. Stratton reports that it has been brought to his notice by the Nabob that Tondaman and Ally Newas Khan frequently complain of disturbances being caused in their country by the people of Pattucotah. He requests the Raja to enquire into the matter and adopt such precautions as may prevent a recurrence of such complaints.

	6. The Governor regrets that the affairs of the Company do not admit of granting the loan of Pag. 1,00,000 applied for by the Raja.	
10-12-76	———Nabob's claim on crops.	123-4
	1. The resolution of the Council contained in Lord Pigot's letter of the 20th August 1776 and in Mr. George Stratton's letter of the 29th October 1776 establishing the Government's share of the last year's crop in Tanjore to be reasonably the property of the Nabob, "was but an act of justice." For the Nabob "had been at the expense and the grain was sown and cultivated during the time the country was in his hands." The Governor therefore requests the Raja to maintain a "clear account" of the Government's share of the last year's produce as well as what is due to the Circar from the inhabitants" and transmit the same to him as soon as possible. In the meantime the Raja should pay to the Nabob such quantity of the crop as might reasonably be considered as the amount of the share.	
	2. It is not, however, the intention of Mr. Stratton, to "distress" his finances or to "advise him to anticipate his revenues, in such manner as to occasion future difficulties." He is only "desirous (as the Company who are the guardians and Protectors of the Carnatic in general) that strict justice should be rendered to all."	
	3. If the Raja's revenues be inadequate to discharge the sum due to the Nabob, the latter can have no objection to suspending part of his claim until the next year. The Governor closes the letter by assuring the Raja that "this Government will at all times be attentive to his interests and the prosperity of his affairs."	
10-12-76	———Relations with the Nabob's subjects.	127-9
	1. The Governor states to the Raja "concerning the annacutta" that he has been aware "that the Nabob had given directions in consequence of his representations to him that the people of his country [Tanjore] should be supplied with materials and receive every other such assistance towards the repairing of the Annacutta as was the established custom in the time of Pretaub Sing."	131-2
	2. His Highness the Nabob has again called upon his manager at Trichinopoly to enforce his former instructions, which the Governor points out, may obviate any difficulties "on this head." He counsels caution to see that the inhabitants of Tanjore do not "interfere with those of the Nabob's country" for complaints have been frequently made against the people of Patticotah of the troubles occasioned by them. The Governor having represented to the Nabob in the fullest manner the complaints made against the people of Tondaman's country he has promised to employ "every precaution" in future to guard against such troubles.	
	3. Mr. George Stratton acknowledges receipt of bills for Pag. 20,000, along with his letter of the 2nd instant for the amount of which, when received, he shall credit in his accounts.	
	4. Two companies of sepoy have been ordered from Vellum to Tanjore to assist in the collection of the Raja's revenue. The Raja's vakeel has been acquainted with the instructions

	of the Nabob to his managers at Arrialore and Worriorpallam in respect of complaints made against the people of those parts. The Governor advises the Raja to punish those of the Nabob's people who might break into his territory to commit depredations "as will the Nabob if any of his should enter in like manner into his."	
	Forts	
13-12-76	Tanjore—Strengthening of.	135
	1. Writing to the Raja, the Governor George Stratton states that ever since he has been in the Government he had with "unwearied diligence" supplied the fort with "ammunition, great guns and warlike stores proper for its defence and the number of able Engineers which have been sent thither to make such alterations and improvements in the works as to render the place very strong, so that he shall never be in danger from an enemy."	
	2. With regard to the other forts in the country the Governor promises to take such measure "as that all his country may be safely secured." Mr. George Stratton hopes that the Raja, when he "considers these matters" will "continue to be more and more satisfied and at ease, reposing entire confidence in this Government who have no other wish than to make him and his people happy and his country more and more flourishing."	
	Treaty of 1762	
13-12-76	Nabob's claims.	139-42
	1. Lord Pigot at St. Thomas Mount, writing to the Raja, states that he had understood that according to the Treaty of 1762 he (the Raja) was to pay the Nabob annually a sum of Rs. 4,00,000 as peshcush, the amount being remitted to the Governor Mr. Stratton, as mediator between the Raja and the Nabob.	
	2. He observes that in making this arrangement the Company is actuated by no other motive than that the Raja should be "punctual in the payment of the kists to the Nabob," but nevertheless "it was the Company's strict commands that he should have the whole of the country restored to him which he possessed in the year 1762."	
	3. Lord Pigot points out the impropriety of the Raja being called upon for the payment of the peshcush in view of Arnee and Hanumantgoody being withheld from him by the Nabob "and the more so as he has had possession of the other part of his country for one half of a year only."	
	4. He characterises the attitude of the Nabob in this respect as unreasonable and proceeds to advise the Raja to make the payment of the peshcush when due if it were insisted upon, "to avoid any pretence which may be made by the Nabob for giving him trouble."	
	5. Notwithstanding this recommendation he would not have accepted his offer of Rs. 4,00,000 "to defray the expenses of protecting him in the possession of his country if he [Lord Pigot], had not meant to give the Raja that protection as well as the possession of the whole."	
	6. From a knowledge of the "justice of the Company", Lord Pigot states, he could persuade himself to believe that "they will make good to him the revenues of Arnee and Hanumantgoody or compel the Nabob to do so until the Raja is in possession thereof."	

Date	Abstract.	Page number.
	Treaty of 1762—cont.	
	7. He suggests to him, in the event of his being distressed for money, "to keep back his payments to the Company rather than those due to the Nabob and it will be very proper to write to the gentlemen at Madras that he [the Raja] will do so and assign his reasons which must appear just to all the world."	
	Tanjore	
29-12-76	Nabob's claims on crops.	145-6
	1. Governor Stratton writing to the Raja regrets to observe that the latter has not "shown every attention" to the resolution of the Council calling upon the Raja to make over to the Nabob the Government share of the crop raised in Tanjore when it was in his possession and also to redeem "any mortgages he may have given on the same." He complains that none of his letters on the subject have "received any satisfactory answer" from the Raja.	
	2. The Nabob would want "Dabbier Pandat, Nudgah, Ameer-singh, Mounchu with his writers, and the Amuldars with their Deputies" in order to prepare to an exact account of what is really due to him, as "these people had the sole management of his affairs in the Tanjore country." The Governor therefore requests the Raja to permit them to proceed to Madras immediately under a guard of sepoy which Col. Harpur is directed to furnish.	
	3. As much time is expected to elapse before the precise amount due to the Nabob and his creditors can be worked out, Mr. Stratton advises the Raja to resort to some means of making an "immediate and effectual" payment on this account and particularly in view of the fact that "the Nabob is at this time greatly in arrears to his troops, which have been raised and are kept up for the defence of the Carnatick against all our enemies, in the like manner as the Company's troops are, and of course serve in this sense even for the protection of the Tanjore country."	
	4. The Governor considers that the Raja realises that his failure to make the supply will cause the Company's affairs as well as that of the Nabob to suffer. Mr. Stratton points out that if the Raja took no steps on his part "to give relief from these difficulties, when doubtless the plentiful crop now gives him the means, he shall be forced to represent the total indifference he shows to the public welfare of the Company, who have so generously afforded him relief in his necessities."	
	Raja of Tanjore	
30-12-76	Company's friendship.	147-8
	1. Lord Pigot transmits to the Raja a copy of the Company's orders relating to Tanjore in order that he may be aware of the actual intentions of the Company and be able to judge "whether those gentlemen have not gone beyond them in their requisitions" to the Raja in their letter of the 26th instant.	
	2. He should "make the orders of the Company the rule for his conduct—nothing more can with justice be expected from him and so long as he conforms to them he may be assured he will meet with the support of the Company at home as his faithful friends and he will have nothing to fear from his enemies either openly or privately."

14-2-77	Col. Stewart's march.	151-3
	1. Lord Pigot writing to the Raja states that at present Col. Stewart is in temporary command of the army and is on his way to Tanjore.	
	2. "Various are the reasons and opinions of men upon this journey, but be his motives what they will, you have nothing to fear from them; should there be any mention made about destroying your fort of Vellum, I desire. . . you will never give your consent and I think they will never dare to do so." The Raja should not allow the Colonel to occupy any houses or pagodas in the Fort of Tanjore.	
	3. The Raja is instructed to tell the Colonel that he would not object to "anything which the Company themselves recommend". He should hear from the Company ere he would fall in with any alteration "being made in what they are pleased to direct." He should not "give or lend them money either upon public or private account nor consent to their collecting any part of the revenues of his country—the Company require it not and the Nabob has no right to it". But he must "be punctual in paying the peshcush and the stipulated kists and . . . no more".	
	4. The Raja is asked to wait for a few months when the Company's orders will be "such as will place him in a situation free from any further troubles".	
12-3-77	Nabob's claims on crops.	155-6
	1. Mr. George Stratton accuses the Raja of making "unsatisfactory answers and as such has left no reason to suppose but that he would procrastinate and throw every difficulty in the way to obviate payment" to the Nabob of the Government share of the crop for the year 1775.	
	2. "Much time has been lost and the Company's and the Nabob's affairs have experienced much inconvenience from his inattention" to this subject. He calls upon the Raja "in the most earnest manner" to press into service "immediate measures for the payment of the whole or at least of the greatest part of his demand."	
	3. The Nabob is very insistent and as regards the Raja the Governor observes he is "well assured the payment can be of no inconvenience to him who has been restored to a considerable annual revenue without an encumbrance of any debt whatever."	
	4. Col. Stewart has been authorised to settle with the Raja "in such manner as may appear most eligible."	
	Nabob's claims—Settlement of accounts.	
1-4-77	4. Col. Stewart has been authorised to settle with the Raja part payment of the February kist due from the Raja. The balance on this kist of Pag. 40,000 will be accounted for when the paddy "sent up here [Madras] and delivered at Vellum was paid for".	163-4
	2. To expedite this settlement, an account has been prepared showing that the Company has received at Madras Callums 2,23,500-5 or Garce 1,419-20 (at 157½ callums per garce) which at Pag. 20 per garce is Pag. 28,381; and at Vellum Callums 33,034 or Garce 209-296 which at Pag. 20 per garce is Pag. 4,194-28-64, amounting on the whole to Pag. 32,575-28-64.

	3. This sum will be entered to the credit of the Raja so that there remains a balance on account of the February kist of Pag. 7,424-7-36 for which and also for the kist of one lakh of pagodas "due yesterday" the Governor requests bills.	
	4. The Raja is made to understand that the price of the paddy, the rate of the callums which were brought to account were settled by his "vackeel here [Madras]."	
	5. Mr. Stratton asks the Raja to enquire into the applications made to the Company by Mrs. Elizabeth Stockwell for a "quantity of grain belonging to her in the Tanjore country", and requests justice be done to her.	
5-4-77	——Nabob's claims on crops.	171-2
	1. The Governor Mr. George Stratton observes to the Raja that "great distress would attend the Company's affairs should be continue to persevere in refusing" to comply with the earnest desire of the Council regarding the payment due to the Nabob on account of the Government share of the crop in Tanjore for the year 1775. He warns him of "the bad consequences that might result to his [the Raja's] affairs from the conduct he had pursued for some time past."	175-6
	2. The Raja is informed that Col. Stewart has been sent to communicate to him the resolution of the Board and the Governor believes that "the arguments he makes use of will convince him" that they have "nothing more at heart than to promote the interest and welfare of the Company which are so firmly united with his own."	
	3. The Raja is told that the Council have "confirmed the resolution of the former Government with respect to Hanumantagoody and Arnee" which fact has been communicated to the Company and on receipt of their orders Mr. Stratton assures him that "every attention shall be paid to them."	
	Benfield, Mr. Paul	
22-4-77	Transfer of claims.	179-83
	The Governor, Mr. George Stratton, informs the Raja that Mr. Benfield "has transferred his concerns in the Tanjore country to Mr. Jones" and requests him to consider the latter "in the same manner he recommended Mr. Benfield to him" and provide him with "early and reasonable assistance in the recovery of the debts due to him."	
	Irrigation Channel	
30-4-77	Devicotah—Proposed excavation.	187
	The Company's lands at Devicotah are represented to be capable of "great improvements . . . by cutting a channel from the Coleroon to the Allenjai Yary or Lake, which is within the said lands." The Governor therefore requests the Raja to grant permission to the renter of Devacotah to excavate the channel "thro' such part of the Sheally country as intervenes between the Coleroon and the said lake" assuring him that the renter has been directed to make good the loss arising thereby to the people of Sheally which is estimated at "Pag. 250 per annum or whatever it be if within reason."

19-5-77	Nabob's claims on crops.	191-2
	1. Mr. George Stratton expresses to the Raja his great concern to find him "continue in the same unfavourable disposition with respect to the Nabob's claim on the Tanjore country," notwithstanding the "strong representation" made by himself and Col. Stewart.	195-7
	2. He regrets that the Raja is not alive to the "situation of the Nabob's affairs which were absolutely such as required the most immediate relief" and states that he is "bound by the Company's engagements with him to apply that relief as far as he was able." There being "no possibility of doing it from the Company's treasury" he thought the Raja "would not hesitate a moment shewing a cheerful compliance" to the demands made on him not only in the Nabob's interest "but in a very great degree the interest of the Company which is materially concerned in everything which respects the Nabob."	
	3. Expressing therefore "great surprise and displeasure" at the Raja's conduct the Governor states he is nevertheless "still determined to convince him by every means in my power that he will receive all necessary assistance and support from this Government."	
	4. For the future guidance of the Raja in respect of carrying out repairs to the anicut, the Governor mentions that an examination of the Company's records for a number of years and of the letters of Pretaub Singh the present Raja's father, makes clear that there exists no right "to amend or repair the bank" without the Nabob's express permission. This permission has been obtained at the request of the Governor, and the amildars at Trichinopoly have therefore been directed to afford "every reasonable assistance that it may be put in the same state it was during the life of Pretaub Singh."	
	5. The Governor acknowledges receipt of Pag. 60,000 and bills for Pag. 50,000 which when encashed he shall write to him accordingly. He desires the Raja to send him bills immediately "for the remaining sum due in the March kist and the lakh of pagodas due from him since the 30th day of last April."	
23-5-77	——Payments to the Company.	199-203
	1. Governor Stratton acknowledges the Raja's letter of the 17th instant enclosing two bills for current Pag. 50,000. With the encashing of these bills together with those received with his letter of the 5th instant the payment stipulated to be made by the Raja in March last would be made complete.	
	2. This however leaves a balance of Pag. 7,424-7-36 due on account of the February kist, arising by virtue of the paddy being taken by the Company. The Governor states that he has since heard that the paddy at Vellum was not delivered either to the Commandant or Paymaster of the place. So that any loss arising from the fall in price "must be accounted for by" the Raja.

11-6-77	Court of Directors' enquiries. This extract of a general letter from the Court of Directors contains a series of enquiries regarding the advances of money made by Mr. Paul Benfield to the Nabob. They are :— (a) What was the whole amount of the securities given by the Nabob or other persons to Mr. Benfield on the Tanjore country? (b) Whether contrary to the orders of the Company any other persons besides Mr. Benfield were concerned in the securities referred to? (c) What were the circumstances relating to these securities? (d) Whether the Nabob advanced money to the inhabitants of Tanjore for the purposes of cultivation equal to the amount of his assignments to Mr. Benfield and if not how much were the advances deficient of the assignments? (e) Whether Vickeram the place to which Lord Pigot sent Capt. Torin with an armed force, is within the limits of Tanjore? (f) Whether application was made to the Raja of Tanjore by an Indian in the service of or connected with Mr. Benfield or with any other person or persons in the Company's service to dissuade the Raja from acquiescing in any and in which of the requisitions of the Company? (g) Whether any districts have been restored to the Raja of which his father was not in full possession at the conclusion of the Treaty of Paris?	204

17-7-77	Payment to the Company. The Governor acknowledges to the Raja, receipt of a bill of exchange drawn by Mr. Charles Jones on Mr. James Taylor for Pag. 25,000 which on being cashed will be credited to the Raja's accounts. He observes that " the mode of remitting money for the Company through the means of English gentlemen is improper " and he would therefore require some other method to be employed of conveying the Raja's future payments to Madras. He hopes the Raja will expedite payment of Pag. 25,000 " due on the kist for April with a balance on account of paddy."	219

28-7-77	Nabob's claims on—Raja's objections. 1. Mr. George Stratton, in reply to the Raja's letter of the 12th July, answers to the several points raised therein. When Genl. Stewart was at Tanjore " he spoke. . . about the Nabob's demand " and the Raja was " in hopes. . . that the Council would have waited patiently until the orders of the Court of Directors were known. 2. Notwithstanding this Col. Horne who was " sent to command at Tanjore has made further requisitions " on account of the Nabob's claims, expressed to him the displeasure of the Governor and Council and called upon him to deposit with the Company four lakhs of pagodas at Madras failing which he threatened to carry out the orders of the Council. 3. The Raja further states that on the " 11th instant Col. Horne ordered Comoroo to bring his [the Raja's] servant Vencataputty to his house " and read a paper informing him to deposit with the Company four lakhs of pagodas were not paid, Dabeer, Buchanah and Lallah were to be sent to Madras with sepoys by force, if need be. The Raja writes that following the arrival of Col. Horne and Comoroo, a report was circulated that the Company intended to confiscate his country in lieu of the Nabob's demand and carry away his servants to Madras leaving Comoroo to " rent the country and make himself Amuldar thereof." 4. These reports, the Raja points out, tend to operate unfavourably upon his affairs and he requests the Governor that Col. Horne may be instructed " not to interfere in anything but the duty of the garrison." 5. As to these points the Governor observes that his opinion of Col. Horne is so favourable as not to make him believe, without the most convincing proof, " he should have made use of any language, threatening, improper or disrespectful." The object of sending Col. Horne to Tanjore was to " afford assistance and protection " to the Raja's Government by means of the Military force kept for that purpose. 6. The " real interest and welfare " of the Raja and his friendship to the Company has always been the object of the Governor and Council. " It was in this view solely " and considering that the Company would be involved in difficulties by the " Nabob's distress for money and knowing that the prosperity of the Raja's affairs is inseparably connected with the well-being of the Company, the Governor and Council instructed Col. Horne to remind him again of the Nabob's claim and to use every friendly persuasion and argument to induce him to comply with their desire." 7. Regarding the alarming rumours which have been spread through the country since the arrival of Col. Horne and Comoroo, the Governor would wish the Raja to be " perfectly easy on that head " for he could assure him " with great confidence that whilst he continued faithful to his engagements, himself and the Council would give him every support."	223-7

8. It has been the practice with the Raja to address all his letters to the Governor and Council instead of the Governor whose department it is to carry on all correspondence with the princes and powers of India in his own name." Mr. Stratton therefore desires the Raja to address his letters in future accordingly.

4-8-77

Payments to the Company.

1. The Governor acknowledges bills for Pag. 25,000 along with the Raja's letter of the 15th July, making the payment of the kist for April complete. He is glad to learn from Col. Horne that the Raja has "at length consented to pay out of this year's produce of the Tanjore country as much money as he possibly could, to be deposited in the Company's treasury until the decision on the Nabob's claim shall arrive from England, when if the decision be in his favour" he shall be given credit for the amount.
2. The Governor expresses satisfaction at the Raja falling in with the arrangement and suggests to him the expediency of early remittance.

Payment to.

The Governor, Sir Thomas Rumbold, requests the Raja to pay to the Paymaster at Tanjore a sum of Pag. 5,000 in order that he may disburse "to the troops for the ensuing month", promising to give him credit for that amount in the Company's Books.

Nabob's claims.

1. In his letter of the 25th January, the Raja draws the attention of the Governor to "some difference between the letter written to him by Mr. Whitehill of the 19th January and the agreement given to him by Mr. Perring concerning the deposit of four lakhs of pagodas which he has consented to make in the Company's treasury.
2. With regard to this the Governor states to the Raja that the "President and Council agree to receive the money from him, exactly according to the agreement given to him by Mr. Perring," by which the Raja is called upon to deposit in the Company's treasury the sum of four lakhs of pagodas "over and above the sum he annually pays on account of the troops in Tanjour." The Governor believes that there will be no further obstacle to the payment of the four lakhs "agreeable to the kists settled in his letter of the 4th January."
3. Sir Thomas Rumbold points out to the Raja that his letters of late are written in the Mahratta language, causing much inconvenience to the Company which "formerly corresponded with all the powers and princes of the country in the Persian language." He therefore requests the Raja to address his letters to him in future in the Persian language.

2. The Governor states that he is sending through Mr. Petrie a letter to the Raja received from the Court of Directors closing with the offer made by him of lands, formerly made to "Lord Pigot, as a dependency on Devacottah." Mr. Rumbold being persuaded to believe that the grant of Nagore with a sufficient district round it to maintain a residency of our people would be much more agreeable to the Company, than any lands that could be given to them of equal value near Davacottah "he accordingly wrote to Mr. Petrie to negotiate with him on the subject.
3. He mentions to the Raja that he is "happy to find by a letter . . . received from him [Mr. Petrie] that upon his first opening the business he showed so much readiness to comply with our desire in this instance." The Governor takes occasion to remark that he regards this as a most "striking mark of his gratitude and attachment."
4. Mr. Rumbold would now have the Raja take immediate steps for putting the Company in possession of "what will be proper for them" by "executing a writing or instrument of conveyance agreeable to the forms of his government and give the necessary orders to his servants on this occasion."
5. The Raja is requested to "pay proper attention" to the representations of Mr. Petrie who is directed to remain in Tanjore and to act on behalf of the Company.

Cession of Nagore

15-5-78

Dutch objections.

255-9

1. The Governor, Sir Thomas Rumbold, writing to the "Counsellor Extraordinary and Director for affairs of the Dutch Company on the Coast of Choromandel and to the rest of the Council thereof, at Negapatam" acknowledges his letter of the 14th ultimo containing a protest of the Dutch Government against the English for hoisting the English flag at Nagore.
2. The reasons of the Dutch are "that the father of the present Raja . . . by a letter, dated the 25th March 1750, to the then Governor of Negapatam firmly assured and promised that the Dewan's village Nagore, never should be sold or alienated or if it should happen to be sold or alienated, it should be done to no other than the Dutch Company.
3. These assurances were confirmed by the present Raja with other privileges formerly granted to the Dutch Company "and though the English may be ignorant of this, yet the provisions of the agreement concluded on the 23rd November 1773, between the Nabob of the Carnatic and the Dutch Company made it clear "that at the sea towns of Nagore and Tootorey belonging to the country of Tanjore His Highness's own Flag should always be set up."
4. As to these grounds the Governor first points out that whatever assurances may have been given by the present Raja's father, "they cannot now be pleaded in support of any pretensions you [the Dutch] may have formed respecting Nagore." The Governor observes that in accordance with the treaty of 1773 the town of Tanjore was sold to the Dutch by the present Raja and that after the capture of Tanjore by the Nabob, it was resold by the Dutch to the Nabob along with other districts, declaring that "the Dutch had from thenceforth not the least claim on the Prince's country."

Cession of Nagore—cont.

He alludes to another instrument bearing the same date as the treaty in which the Dutch declare they have no "demand on or concern" with Nagore or other districts in consequence of their being sold to the Circar.

5. Having by these deeds "of the most public and sacred nature" renounced "all future claim and pretension to the town of Nagore," it seems extraordinary to the Governor that the Dutch should now contradict these express declarations and "revive a claim of privilege founded upon the words of a letter from the father of the present Raja dated upwards of twenty years before that formal act of renunciation took place."

6. The Dutch, aware of the ground of their claim being "too tender to be maintained" suddenly shift it by saying that though they might have been ignorant of the assurances of the present Raja's father yet it was well known to them by the treaty of 1773, that His Highness's own flag should always be set up. "These words," the Governor remarks, signify nothing more than that "whereas the Dutch had purchased the towns . . . from the Government of Tanjore and had in consequence hoisted the Dutch flag in them, it became a very necessary article in the Nabob's agreement for purchasing them again of the Dutch to stipulate that his own flag should in future be set up instead of the Dutch."

7. The Governor points out that these excerpts instead of answering the purpose for which they have been quoted "only serve to exclude them more strongly from those claims which they are now pleased to advance."

8. In conclusion Mr. Rumbold wants the Dutch to believe that the English Company acted, in regard to these proceedings of which they complain, in compliance with the trust reposed in them and assures them that nothing is farther from his intentions than "to encroach upon any of their just rights or privileges."

In regard to the desire expressed by the Raja to make a tour through his country accompanied by Europeans and sepoys, the Governor observes to the Raja that while he approves of his "taking all opportunities of visiting different parts of his country in person and attending as much as possible to its cultivation and improvement, at this time however, he would wish him to lay aside his intention." He has accordingly commissioned Mr. Petrie to explain to the Raja his reasons for it.

French claims to island in.

275

The French lay claim to the island in the river of Nagore which is included in the districts lately ceded to the Company. In regard to this the Governor asks the Raja whether the island or part of it was ever granted by the Raja or any of his predecessors to the French or ever considered by him as forming part of the settlement of Karaikal.

Tanjore Raja

279

1. Mr. Rumbold writing to the Raja explains that the reason for asking Mr. Petrie to dissuade him for undertaking a short tour in his country was the knowledge of war having "before this time actually taken place between the English and the French."

2. As, however, the Raja has since expressed his desire of visiting only Kumbakonam and Trivalore for about eight days, the Governor sees no objection to the proposal and has accordingly directed Col. Fitzgerald to provide him with a proper escort.

15-8-78

287-90

1. The Company is in need of money to meet the heavy demands pressing upon it. The Governor urges the Raja to expedite remittance of the annual payments as well as the deposit he has engaged to make at the Company's treasury, time for these payments having expired.

2. Mr. Rumbold asks the Raja to be good enough to provide Col. Fitzgerald with a building within the fort to be used as a hospital "for the sick at Tanjore."

3. Later, mentioning the deposit of four lakhs of rupees, the Governor holds that the Raja's promise of doing so was unconditional and the payment should have been completed by the end of June. On the other hand, the Raja states one half of the deposit money will be paid this year and the other half the next. The Governor protests that he has never written to that effect and requests the Raja to recollect his first promise which has not yet been fulfilled.

4. As regards the Raja's request to obtain the release of Kanakasabapathy from the power of the Dutch Governor at Negapatam, Mr. Rumbold could only say that he had employed every means in his power. If, as the Raja states, he secured the protection of the Company's servants, the Governor explains, it was because of the danger he was open to while on his journey to Tanjore. It was the duty of the Governor to inform the Raja that no harm should befall him when he was at Tanjore to settle his claims with the Raja whenever he pleased. Mr. Rumbold calls upon the Raja to afford Kanakasabapathy "the security for which he has engaged."

5. The difficulties expressed by the Raja in raising money to meet the Company's demand, come upon the Governor as a surprise, being aware of the great resources which Tanjore is "naturally capable of yielding with proper management." The Governor therefore draws the attention of the Raja to "the conduct of those whom he trusts in the direction of his government and finances" and would have him consider how "it is possible without any great abuse that a country so rich and fertile and so happily freed from all encumbrances on the revenue should yet be incapable of supplying him with money even for his greatest wants."

Tanjore—cont.

6. The Governor desires the Raja to look facts in the face. The English are engaged on a war which is likely to sweep the Carnatic and thereby affect "the security of the Company's allies." "The Company expects from all their friends that assistance which they themselves are ever ready to exert in support of those with whom they are in alliance." The Raja has thus an opportunity of showing "his regard for their interests in a manner which their eminent service to him so justly deserve" and the Governor believes that "he will profit by it to the utmost extent of their wishes."
7. The Governor would, therefore request the Raja to bestow the "strictest attention" to the management of his country and see that the revenues therefrom are applied "to the services of his government and the discharge of his engagements to the Company."
8. With regard to the request of the Raja that the Governor should endeavour to raise money for him at Madras or accept his bonds for the balance of his account with the Company, the latter confesses it is out of his power "to do either," but he promises to afford him all the help he can to enable him to collect money which he believes "may be speedily effected by proper application and encouragement to sowcars or others to lend it to him upon such security as he may be able to give."

Governor's Tour

Tanjore.

In compliance with the request of the Raja the Governor states he should have proceeded to Tanjore earlier had it not been for the receipt of news from Europe which rendered his stay at Madras necessary. There being nothing now to prevent him from undertaking the tour, the Governor intimates the Raja that he proposes to set out for Tanjore about the 10th or 12th of December.

The Governor, Sir Thomas Rumbold, requests the Raja to expedite the remittance on account of his kists, stating that the Company is much in need of money. This is an extract from the general letter received from the Court of Directors expressing approval of the idea suggested by the Governor of obtaining the seaport of Nagore in lieu of the lands near Devacottah proposed to be granted to the Company by the Raja. The Court of Directors desire the Governor to "signify to the Raja" their "proper sense of the sentiments expressed by him when he directed the grant to be prepared."

Payment of kists and certain other affairs.

1. The Governor, Sir Thomas Rumbold, alluding to the Diwan, states to the Raja that he is "concerned to observe . . . by the accounts received . . . from the General [Munro] that he still persists in retaining in his service and confidence a man who is on every account the most unqualified that could be found to direct his affairs."

303-6

Tanjore—cont.

2. This Diwan has been the cause of leaving the country impoverished, the treasury exhausted, and the Company's money unpaid. Such being the case, the Governor asks the Raja how he could persuade himself to believe that he is "faithfully served or that his affairs are in a prosperous situation."
3. Nothing gives Mr. Rumbold so much pain as to see "the Raja involved in difficulties, and the Company's Government liable to be distressed by the misconduct of one man who seems to possess neither capacity nor integrity sufficient to act in the low station of a renter, much less to direct without control the government of the whole Tanjore country." It was for these reasons Genl. Munro was instructed in his mission to Tanjore to represent to the Raja the removal of his present Diwan and the appointment of Dabeer in his place.
4. The disinclination manifested by the Raja in this respect led the Governor to entertain "great and just reason to fear a continuation of the same disappointments in regard to the Company's money." Genl. Munro, therefore, was furnished with "fresh instructions . . . to guard against any inconveniences of this kind." He calls upon the Raja to comply immediately with the request for regular payment of the kists to the Company "as the only means of avoiding more disagreeable measures which his duty to the Company will otherwise compel him to pursue."
5. In regard to the demand made by the Raja for more sepoy to assist him in the revenue collections, the Governor states he has been unable to spare any on account of the public service which demanded as large a number as could with propriety be kept at Tanjore "but nevertheless he promises to issue the necessary orders to provide him with as many sepoy as could be spared."

Burke, Mr. William

19-1-79

Interviews with the Queen and Lord North.

307-24

1. This letter is written by Mr. William Burke to his friend whose name is not known, and who is also a friend of the Raja of Tanjore. Mr. Burke states that he arrived at Falmouth on the 6th of May and at London, on the 9th. A week later the 'English East India Fleet' brought an 'instrument' from the Nabob which found its way into the hands of the Prime Minister, Lord North, to be laid before the Parliament.
2. His arrival was so opportune as to enable him to draw up a 'counter-instrument' setting forth the "moderation of the King of Tanjore's expectations, that as he desired to be received into the protection of the King of Great Britain and from the character of His Majesty's clemency and benevolence he had thrown himself upon His Majesty's mercy and impartial hearing became a part of his right," and present it to the Parliament.
3. As a result of Mr. Burke's exertions, the Nabob's instrument was not laid before the Parliament and his "representations had their full effect." Following upon this, Mr. Burke had the good fortune and honour to be presented to Her Majesty the Queen into whose hands he delivered the letter which he had carried all the way from India. He assures his friend that the Queen would doubtless "feel for the distress of so ancient and respectable a kingdom as

Tanjore nor can I doubt that the indignity and injuries offered to a prince who throws himself on the mercy and benevolence of so mighty a sovereign as the King of Great Britain would find a redress suitable to the goodness of His Majesty's heart and the greatness of his power."

4. Mr. Burke observes that Lord North expressed to him that in his letter was presented "a new and distinct view" of the Indian affairs and he appealed to be sensible of "the un-policy as well as the injustice of sacrificing an innocent and meritorious prince and people to Mahomedan violence or English rapacity and extortion without benefit to his own royal master or his kingdom."
5. He next informs his friend that as commissioned, he had delivered the Raja's letter to the Court of Directors some among whom are in favour of the Nabob's designs. This circumstance, Mr. Burke points out, will only tend to retard "the completion of that justice the King of Tanjore has a right to expect."
6. The object of the Raja contained in these letters and memorials is that his right to make the repairs to the anicut may be properly established; the 'advances and deposits' may not be repeated; his jewels and effects which had been plundered may be restored to him; and he will not be required to correspond with the Governor in the Persian language. With regard to the 'advances and deposits' Mr. William Burke mentions that he "dare not be too confident that we can so far prevail as to get them repaid; but he shall most certainly leave nothing untried to carry that point."
7. As to the restitution of the jewels etc., he observes that if "satisfaction . . . is called for upon every separate grievance we do not quite expect immediate redress to them all neither do we in its season despair of it. A time of redress may come and we thought it prudent to record the several claims against that time."
8. Alluding to the Raja's correspondence in Persian the writer remarks that the Court of Directors left it to the Governor "to give up a point he had once adopted" in consideration of the dignity attaching to his station. He requests his friend the vacceel "by no means to attempt the correspondence in Persian . . . and let all letters rest unanswered sooner that commit the King's confidence by attempting to use a Mahomedan interpreter."

Raja's affairs at least to prevent any "profusion or mis-management" of those resources on which depends his capacity to reimburse the Company its expenses on account of affording protection to his country.

2. It was this consideration which led the Governor to hold the Raja to his engagements to the Company and in the distressed state of his country to persuade him to adopt measures of relief which reason and necessity dictated. But the Raja has set his face against giving effect to any of his recommendations.
3. Payments are not regularly made and the country is still allowed to be managed "by the same improper hands" which brought it to a state of distress. The Raja confesses that it is out of his power to pay any part of the deposit agreed upon last year and would want the Governor to carry to the credit of his subsidy all sums which were remitted by him last year on the deposit account. The Governor points out that these sums amounting to one lakh of pagodas having been, according to his engagements, carried to the deposit account he could not now transfer them to any other head and that he would still consider the Raja "indebted to the Company for one lakh of subsidy for last year."
4. As regards the Raja's intention of borrowing money on security from the sowcars, the Governor observes that he could do so "provided he could from the management and disposal of the crops raise sufficient money to make good his engagements." Nevertheless the Governor states that "it is far from his wish to see him mortgage his revenues or pay extraordinary interest for money if he could possibly avoid it."
5. The Governor regrets his inability to furnish an adequate number of sepoy's required by the Raja for the revenue collections on account of their being fully engaged in several military expeditions, but promises that, as soon as he could spare them he will order an additional battalion to Tanjore under Maj. McLellan.

Demands on the Company—The Governor's reply.

341-6

1. In regard to the several demands of the Raja laid before the Committee by Genl. Munro, the Governor observes as follows:—
2. Whenever the anicut is in need of repair, the Raja has to apply to the Governor for necessary orders concerning it.
3. As to those who may commit offences and fly into the Nabob's country or to the foreign settlements for protection, he could not authorise the Commandant of Tanjore to pursue them, but if the Raja will let him know those who are actually guilty of these proceedings, he would use his "best endeavours" to obtain justice for him. The purpose of keeping the troops in Tanjore is to prevent any disorder being caused by the Nabob's subjects. Any offenders of this sort would have to be sent to Madras, for the Commandant could not be empowered to punish them.
4. Regarding the complaints of the Raja's people at Nagore of their being prevented from carrying grain to Negapatam, the Resident at Nagore will be directed to see that justice is done. The Governor remarks that "from the experience he has had, there is some reason to think it is not so valuable as the sunnud makes it."

5. As the Raja dislikes the carrying on of correspondence in Persian, the Governor promises to send "a Hindoo translation" along with the Persian.
6. Adverting to "the affair of Hanumantagoody and Arnee" it has been referred to the Company for orders and no measures could be taken until its decision is received.
7. The Governor shall have enquiries made with respect to the privilege solicited by the Raja of coining star pagodas in Tanjore.
8. On the flight of Kanakasabapathy Pillai to Negapatam such representations were made to the Dutch Government as had nearly involved the Company in a quarrel with them. Kanakasabapathy Pillai left the Dutch and ended thereby the disputes between the two nations, only on the grant of a cowl from the Governor assuring him protection. He had proceeded to Tanjore with the object of settling his accounts under the inspection of proper persons. The Governor states that if he were to withdraw that protection from him by which he was induced to emerge from his retreat he should "violate those obligations of honour which ought on every account to be held sacred."
9. It is "impossible" for the Company to take grain in lieu of the Raja's payments but the Governor promises to give him assistance in the sale of grain at Madras. No orders could be given for the sale of grain in the Nabob's country but the Governor will request the Nabob "to shew reasonable indulgence in this respect."

1. The Governor calls upon the Raja to immediately comply with his request for a remittance on account of his engagement to the Company. Mr. Rumbold remarks that the Raja's revenues under proper management could be made "to answer all his engagements punctually." It is therefore that he is so pressing in his requests to discharge without delay what is due from the Raja.
2. Instead of making payments to the Company as stipulated, the Raja pleads his distress for money. The Governor points out that this state of affairs must be due to the management of the Raja's servants and as it is his duty to collect the money due to the Company, he states to the Raja that he would send some person on behalf of the Company to see that the collections from the country are properly made and such part of it as may be necessary for the public engagements appropriated for the purpose.
3. Later in reply to the Raja's letter which made it appear that all his payments had been punctually remitted and that he owed nothing to the Company, the Governor reviews the Raja's indebtedness to the Company. Mr. Rumbold observes that instead of owing nothing there is a balance of 4 lakhs due from him, three on account of the deposit and one on account of his annual engagement for last year.
4. The Governor states that the Company's Directors have approved of the deposit money being received.
5. The Raja is requested to instruct his managers at Mannargudy and Trivalore not to divert a small stream which irrigates the Nagore district but let it flow as of old.

361-6

1. The Governor points out to the Raja that delay in making payments to the Company will only be detrimental to the Company's affairs. The balance of subsidy due on account of last year was only paid in the month of October.
2. The Governor observes that the Raja agreed to make the deposit of Pag. 4,00,000 on his own free will and as the Company has approved of the money being received by the President and Council, he must not allow the Raja to delay making the deposit. It is far from his intention that the Raja should distress himself beyond his abilities to pay from the revenues of his country. It is therefore proper that he would like to fix such kists as may be found just and reasonable.
3. As to the Raja's request for the removal of the officers from the different parts of the country the Governor remarks that it is under his consideration to establish a sibbendy for the purpose of making the collections and to keep all the troops at Tanjore where they will be "better disciplined and in greater readiness to be employed on any service that may be required for the protection of the Fort."
4. The Governor returns to the Raja a letter addressed to the Company as it arrived too late to be included in the despatch by the last ship.

5. The Governor Sir Thomas Rumbold, requests the Raja to pay Pag. 20,000 out of the December kist due to the Company to the Paymaster at Tanjore and send the remainder to him. The Governor desires the payments to be made in such manner that he "may receive the money for his kists punctually and not make the remittance in bills which are not payable till a month after the kist becomes due."
6. Later the Governor informs to the Raja that the bill sent in payment of the November kist has not become due even in the month of December. Having no other means to fall back upon for the disbursement of the troops at Tanjore he requests the Raja to advance Pag. 20,000 out of the December kist.

2. The Governor writing to the Raja on this subject states that he wished to conform as much as possible to the Raja's desire of "having few or no European officers in the country" except "those appointed sufficient to answer the purpose of preserving some sort of discipline and regularity among the sepoys and make them of service in defence of the country if occasion should require it." There are only seven officers in all, one Captain Commandant and six subaltern officers.
3. The Governor computes the expense of the corps to be Pag. 30,000 per annum which is about Pag. 15,000 in excess of the "extraordinary pay of the troops" hitherto employed in Tanjore. He adds that the Raja will have no objection to meet this additional expense considering that this corps, will be more useful to him than the troops. Should, however, the Raja have any objection, the Governor intimates, that the "Company will themselves pay it."
4. Mr. Rumbold apprehends that "some improper interference" has been employed by the European officers in lending money to the people of Tanjore and requests the Raja to put an end to all transactions of this nature and strongly forbid the people to become no party to such transactions.
5. Capt. Thomas Burrows has been chosen to command the corps and the Raja is desired to assist him in procuring men for the purpose and in fixing upon a place "where they may be quartered together and from whence they may be detached occasionally" when required.

Alinagur channel.

389-90

1. The Governor informs the Raja that he had made known to him the fall in the Company's revenue due to the prevention of water flowing into the Company's lands at Devicotah by the amildars or inhabitants of Trivalore and Mannargudy by turning away the water channel of Alinagur, and the disputes arising therefrom.
2. No attention having been paid by the Raja to this matter the Governor reiterates his request that he would depute some one of his men to Devicotah who in consultation with a proper person to be sent by the Chief and Council at Cuddalore will conduct an enquiry into this affair and adjust the differences between the parties not only with regard to the watercourse but also with regard to a "quantity of land that has for some time been laid waste and uncultivated on account of some disputes with the Polygar of Sheally."

1. The Governor states that he will transmit to the Raja a receipt for a sum of nine lakhs of pagodas paid to the Company by the Raja up to the end of last year. He complains that the Raja has been exceedingly dilatory in making his payments to the Company; the last year kists were paid only two or three months after they became due and the full subsidy which should have been paid before April was not complete till so late as October; and though a deposit of four lakhs of pagodas was agreed upon last year, only one lakh was actually paid. During the present year which

commenced in November, the kist for the first month was deferred till January while December and January kists remain unpaid; a moiety of the February kist amounting to Pag. 1,00,000 "has not been received."

2. The mode of payment has invariably subjected the Company to considerable disappointments. The Raja sends soucar bills for a part of the kists which are payable only after 15, 20 or 30 days after sight and even then the bills are not fully paid but only sums like 5,000 or 1,000 pagodas, "which makes it often a month after the bills become due" before full payment could be obtained.
3. To obviate the evil the Governor suggests transmission of "soucar bills six weeks or two months before that period" in order to enable him to obtain the money in time.
4. In part of the February kist the Raja has elected to send a bill on Mr. Cuthbert for Pag. 40,000. In this connexion the Governor would have the Raja bear in mind that he thoroughly disapproves of "receiving any money through the channel of Europeans" and that he must adopt any other mode of settling his liability with the Company.

21-3-80

—Sepoy corps—Formation of.

396-8

1. As regards the sepoy corps to be raised by the Governor for the service of the Raja, the latter appears dissatisfied as being "insufficient to answer the purposes intended by it." The Raja would require the corps to perform not only the duty of enforcing the payment of his kists from the people but also the collection of "all his country duty" in general which had been hitherto performed by the Company's regular sepoys.
2. The Governor points out that the duties of the sepoy corps would perforce comprehend all that the Raja looks for so that if the sepoys are called upon to seize "disobedient collieries, watchers, amildars, inhabitants etc., "he may desire the Commandant of the Sibbandy Corps "to make such detachments for these services as may be necessary."
3. Mr. Rumbold clearly states that no part of the Garrison of Tanjore shall be employed on any duty in the country except on the Raja's application to the Governor. The establishment of the sibbandy having been raised as desired, the Governor trusts it would meet with his satisfaction.
4. As regards the charges of the establishment of the corps, since the Raja had expressed a surprise that he should be asked to pay for it, the Governor observes that it must for the present be borne by the Company and the Court of Directors informed accordingly.

1. In his letter of the 12th March the Raja wrote to the Governor that he had heard it was his intention to appoint a Resident at Tanjore and that he could not "consent to any such appointment."
2. The Governor replying remarks that it is "neither proper nor respectful" to address him thus "upon the credit of reports."
3. The inconveniences which the Raja represents as likely to arise by this appointment cannot, the Governor points out, have "the smallest foundation." On the other hand he considers it "necessary and would, in the end, prove very satisfactory" to him.

4. The question of the appointment of a Resident arose even during the time of Lord Pigot and "so far from making any objections then to such an appointment there was the strongest ground to believe that it would have been the most agreeable thing that could have happened" to the Raja and the Governor finds no reason for the Raja now to "adopt an entire change of sentiments."
5. However he would have the Raja rest satisfied that on all occasions he would act in a manner consistent with the Company's engagements to him "studying at the same time their advantage and the true honour and prosperity" of the Raja.

Payments to the Company.

405-6

On application made by the Paymaster at Tanjore for money to pay the troops, the Raja had declined to comply with the request on the ground that he had discharged the full amount of his subsidy for the last year. In this connection the Governor observes to the Raja that besides the subsidy he had undertaken to pay four lakhs of pagodas into the Company's treasury of which three lakhs are still unpaid. The Raja is therefore requested to let the Paymaster have such sums of money as he may require for payment to his troops.

18-10-80

—Court of Directors' letter.

409-27

1. This is an extract of the letter received from the Court of Directors relating to the "backwardness of the Raja . . . to fulfil his engagements with the Company, and the wretched state of his finances occasioned chiefly . . . by the mismanagement of his Diwan.
2. The balance of the Raja's annual payment of four lakhs of pagodas was reduced to a "very inconsiderable sum" and there was no "just cause of complaint" against the Raja excepting for the non-payment of Pag. 3,00,000 out of four lakhs of pagodas which he promised to deposit in the Company's treasury in 1778.
3. The Raja states that he had paid Pag. 1,200,000 in all during the three years after his restoration and though he had thus fulfilled his engagements "he would not be wanting" in paying an additional lakh of pagodas which was demanded of him in September 1779.
4. It appears thus that he had been punctual in making his payments but from the accounts furnished by the Governor it is apparent that a balance of Pag. 4,00,000 is due to the Company of which nearly one lakh had been subsequently paid. In these circumstances, the Directors observe that the "severe reproach" which the Raja had experienced at the hands of the Governor on account of the "supposed deficiencies of stipulated payment," excepting the promised deposit, is "unmerited."

Tanjore—cont.

5. The Court mention that they are in receipt of a volume of correspondence containing a variety of grievances said to have been sustained by the Raja and his people. If they are free from any charge of exaggeration, the Court remark "they are a disgrace to our Government."
6. They enter into a recital of the excesses committed by the European officers when they get into the country about Tanjore; amongst other disorders it states, that the ryots are molested by the sepoys, sheep and fowls seized and slaughtered, and the Brahmin villages and pagodas desecrated. This state of affairs could not but be a reproach to the Company and make the Raja a great sufferer thereby.
7. Therefore the Governor is called upon to issue strict orders to Col. McLellan "to send only, sepoys into the country, as was done formerly and order them to be subordinate to the Aumil; and to send for the European officers to the fort of Tanjore, but not to allow them to go into the country."
8. It is the intention of the Directors that the loss sustained on account of the improper conduct of the officers should be requited and those who have taken bribes or "were guilty of oppression or misbehaviour in the fort or district of Tanjore" be suspended from the service of the Company and on no account be restored except by their order.
9. The superintendence of the garrison and the protection of the country, occupying, as it does, the full attention of the Officer Commanding the troops at Tanjore, the management of the Company's affairs with the Raja on the civil side would render necessary the appointment of a Resident at Tanjore supported by "proper assistance." The duty of the 'Civil Resident' must be, to prevent improper interference of military officers; to superintend and regulate the expenditure of all sums of money granted by the Raja for temporary services; to maintain exact accounts of all the Raja's annual payments; to report upon the receipts, disbursements and money transactions with the Company; to guard against and prevent any impositions in the expenditure of money granted by the Raja especially for purposes of constructions or repairs of fortifications and in short to take care that no improper charge has been incurred.
10. The Court consider the garrison charges at Tanjore "extremely high" and require the Resident to examine into the expenditure and issue regulations therefor. He shall be the Paymaster of the troops at that place and audit all disbursements made by the Company on account of the Raja, excepting the pay of the troops. In the event of troubles arising in the Raja's territory, "a just quota" of the additional expenses incurred on that account shall be paid for by the Raja.
11. Adverting to the settlement between the Raja and the Nabob, the Court mention that the latter has not accepted the annual peshcush of four lakhs of pagodas from the Raja from the time of the restoration of Tanjore. The Raja states that the annual amount of the countries not restored by Lord Pigot, to be Pag. 5,00,000 and claims payment of the difference of one lakh per annum. Care must be taken to adjust this difference but if it were found impracticable, the Court ask the Governor to submit a statement of the annual amount of the districts in question for their determination.

	12. In conclusion the Directors observe that Mr. Stephen Sullivan being a man of "ability and integrity" they appoint him as Resident "with the honorary rank of youngest Member of Council" with the salary and allowance thereof.	
Kanakasabhapati Pillai		
-3-81	Surrender to the Raja.	429-31
	1. Tulja Raja of Tanjore requests Messrs. Davidson and Jourdon Members of Council, to deliver into his custody his servant Conacasabapathy Pillai who owes to the Raja considerable sums of money and thereby "show the justice of their power." He regrets that the Governor should allow this man to be employed in the "Nabob's business," for the Nabob, he alleges, is deliberately thwarting him and seeks to "perplex his affairs."	
-3-81	2. The Raja again requests them to help him by delivering into his custody his servant Canakasabapathy Pillai who owes him "a great deal." The Raja's purpose is to "exact from him that which he justly oweth him and give it to the Company."	433

Foreign Troops		
14-4-84	March through the Company's territory.	441-2
	1. The acting Deputy Secretary in the Military and Political Department states to the Resident at Tanjore, in regard to the letting of foreign troops march through the Company's territory without previous sanction, that the attitude of Col. De Bristol "appears to the Board so perfectly mistaken in every point and seemingly wilful in many that it is not worthy of further notice," unless the subject should be "resumed from Pondicherry."	
	2. A copy of the correspondence between the Brig-Genl. and the President is transmitted to the Resident as showing "how the matter rests."	
Military Off-reckonings		
30-8-84	Sibbandi Corps.	445-7
	1. The Commanders of the 1st, 2nd, 3rd and 4th battalions, represent to the Resident at Tanjore that upon entering into the command of the corps according to the orders of the President and Select Committee, they found that the establishment of sibbandi had been charged to the regular troops.	
	2. They point out that "these battalions being disciplined, paid and clothed as regulars and doing field and garrison duty as such, in consequence a fund of off-reckonings has arisen" of which one share being allowed to the Captain Commandant or Brigadier of the corps, they request that the three remaining shares should be divided amongst themselves according to custom.

	1. The Resident at Tanjore at the request made by M. Charles Baker on behalf of the executors of the late Capt. Bishop, instructs the Military Paymaster General at Fort St. George to pay to Mr. Baker the amount of two years off-reckonings and that of a bill due to Capt. Bishop.	
	2. He intimates to Mr. Charles Baker that the "off-reckonings" are "now put into train for adjustment" and that at some hazard he had ventured to ask the Military Paymaster to pay him the amount due to Capt. Bishop on account of a bill and the off-reckonings.

Tanjore		
9-12-84	Letter from the Court of Directors.	457
	1. In this extract of a letter from the Court of Directors, it is observed that it is "impolitic" to make any further demands upon the Raja for the expenses of the late war than the sum of four lakhs of pagodas annually. Such a demand, the Directors remark, may tend to "interrupt the harmony which should prevail between the Company and the Raja." They state that it is not their intention to "affect the just claim which the Nabob has on the Raja" for the balance of peshcush, the regular payment of which the Company bound themselves by the treaty of 1762.	
	2. But the Nabob might be induced to "allow these arrears and the growing payments . . . to be received by the Company and carried to in discharge of his debt" to them assuring him of "the constant and regular payment of it into his own hands."	
	3. The Directors state that measures consistent with the treaty of 1762 should be taken in pursuance of the "38th Section of the late Act of Parliament" relating to the settlement upon a permanent foundation "the present indeterminate rights of the Nabob of Arcot and the Raja of Tanjore with respect to each other."	
	4. They observe that the "disputes . . . between the Nabob and the Raja" have not been settled on some points. It is not known whether the jaghire of Arnee should be enjoyed by the Nabob or given up to the Raja or the descendants of Trimal Row, the late jaghirdars; whether the fort and district of Hanumantagoody which is admitted by both parties to be within the Marawar, ought to be possessed by the Nabob or be restored to the Raja; to whom the Government share of the crop for the year 1775-76 properly belongs and lastly whether the Raja has a right according to usage to repair any part of the ancient or dam or banks of the Cauvery that lies within the district of Trichinopoly or to take earth and sand "in Trichinopoly territory for the repairs of the dam and banks within either or both of those districts."	
	5. They review these points and set forth their conclusions. From a consideration of the treaty of 1762, it is clear, that the only point now in dispute is that relating to Arnee. From the records no further information is available than that by the said treaty the Raja became surety to the Jaghirdar of Arnee for the performance of certain engagements

- specified therein, as a condition for the latter's restoration to the jaghir. On the death of the Jaghirdar, Tirumal Row, he was succeeded by his widow and after her by her grandson, both of whom were admitted to the jaghire by the Nabob.
6. Previous to the treaty of 1762, Lord Pigot concurred in the expediency of the "Nabob's taking possession of this jaghire on account of the troublesome and refractory behaviour of the Arnee Braminees" who offered shelter to all those who were responsible for causing disturbances and "by reason of the little distance between Arnee and Arcot fled to the former and were there protected and not given up though demanded."
 7. It was restored in the year 1762, but only under such restrictions as were conducive to the "peace and good order of the place" and due obedience to Government. In violation of the treaty, the Braminees afterwards equipped themselves with sepoys and other troops, erected 'Gaddys' and other forts, secured small guns and other warlike stores and caused troubles and disturbances in the vicinity of Arcot, Arni, etc. The Braminees never paid any heed to the peremptory orders of the Circar directing them to proceed to Chepauk to meet the Nabob there.
 8. According to the treaty of 1771 entered into with the Raja, the Nabob claimed the Arni district to be delivered to the Circar, because the Braminees had violated the terms which they ought to have observed. The Raja accordingly had instructed the grandson of Tirumal Rao to surrender possession of the jaghire to the Nabob.
 9. Subsequently, in April 1775, the Court of Directors had resolved to replace the Raja on the throne of Tanjore and obtain payment of the Raja's tribute to the Nabob and that for ensuring this payment the fort of Tanjore should be garrisoned by the Company's troops. The Governor was directed to disregard the article of the treaty of 1771, which "respected the alienation of part of the Raja's dominions" and the Court had declared that "if the Nabob had not a just title to those territories before the conclusion of the treaty," it denied that he obtained any right thereby, "except such temporary sovereignty for securing the payment of his expenses, as is therein mentioned."
 10. In carrying out these instructions the Governor in his letters of the 30th July and 24th August 1776, had called upon the Nabob to give up Arni to the Raja who till 1779, had not accounted for the Nabob's peshcush since his restoration, for the reason that Arni and Hanumantagudy were withheld from him.
 11. The Directors conclude that there is no evidence to prove the Raja's claims to Arnee or establish any degree of relationship with the jagirdar prior to 1771. Nor could it wholly support the "justice of or the political necessity for the Nabob's continuing to withhold the jagire from the descendants of Tirumal Rao" whose hereditary right was fully recognised by the Nabob in the accession of his widow to the jaghire. There is not the least shadow of a doubt that the successor to the widow, from whose hands the jaghir was wrested, was in any manner privy to or otherwise concerned in the designs of the nefarious Braminees.
 12. They therefore direct that if the heir to Tirumal Rao is at present in possession of the jaghire and has not violated the treaty or "incurred a forfeiture thereof" he be forthwith restored to the jaghire in accordance with the provisions of

- the treaty of 1762. They, however, permit the Governor "to suspend the execution of these orders" if circumstances render it necessary and request him to submit an account of the "facts and reasons which have actuated" his conduct.
13. As regards the fort and district of Hanumantagoody the Directors were informed that in 1776 the Raja had obtained the whole of the country held by his father in 1762 when the treaty was concluded with the Nabob. It was resolved to restore Hanumantagudy in pursuance of the instructions contained in the Nabob's letter to Mr. Dupré in June 1762 stating that that place was "actually" in possession of the late Raja at the time of the treaty of 1762.
 14. The Directors confess that notwithstanding their reference to various papers they are not convinced of the "truth of that fact" and in this view they are supported by the Secret Consultation of Fort William dated 7th August 1776, of the Governor-General and Council who likewise entertained the same doubt. But whether or not the Raja was in possession of Hanumantagoody in 1762, "it is notorious that Nabob had always claimed the dominion of the countries of which this fort and district are a part."
 15. Hanumantagudy is at present under the Nabob's possession and the Directors proceed to state "we are not warranted by any document we have seen, to concur with the wishes of the Raja to dispossess him."
 16. With regard to the Government share of the crop of 1775-6 the Directors observe that the harvest for that year was delayed beyond March, the usual time and the Raja was restored only on the 11th April 1776, so that had the harvest been finished in the usual time when the Nabob was the sovereign of the country, he should have had the Circar share of the produce. But it is stated that the greatest part of the crop was cut down even during the Nabob's time and the precise amount of the collections on the unharvested portion could not be clearly understood.
 17. It is stated that the bulk of the Government share of the grain was "plundered by individuals and never came to account in the Raja's treasury." It could not be denied that the Government share of the crop for the year 1775-6 properly belongs to the Nabob, then ruler of Tanjore and "consequently the assignments made by him of the Government share of the crop were valid."
 18. They inform the Governor that they do not consider that "any further demands ought to be made upon the Raja in respect of such parts of the Government share of the crop as were collected by his people" for it is highly unjust that the Raja should now be compelled to pay the supposed balances whatever they may be or "called upon to render a specific account of the collection made by his people." The Raja has himself stated that the "produce of the preceding year" was little more than one lakh of pagodas and as one lakh of pagodas having been deposited by him into the Company's treasury on account of the Nabob's claim to the crop the Governor is instructed not to "increase any further demands from the Raja" on that head.
 19. The Directors observe that the Nabob previous to the restoration of the Raja had made assignments of the whole of his share of the crop of Tanjore to his creditors and troops. They approve of the action of the Governor in having asked the Raja to restore to Mr. Benfield, one of the principal assignees or tuncaw holders of the Nabob, the grain of last

- year which was in possession of his people and forcibly taken away from them, and to give Mr. Benfield all reasonable assistance in recovering such debts as should appear to be justly due to him from the inhabitants.
20. They enquire whether in the sum admitted by the Raja to have been collected by him is included that portion of the Government share of the crop which was taken from Mr. Benfield or from any other of the assignees and desire to know what compensation the Raja has or has not made to Mr. Benfield or any other of the parties from whom the grain was seized.
21. They also enquire whether any of these persons "have had recourse to the Nabob for satisfaction," supposing the Raja has refused to make amends for the loss of grain. In the absence of information on these points, the Directors are at a loss to state the manner in which the one lakh of pagodas deposited with the Governor by the Raja should be disposed. But they instruct the Governor and Council to make "such an application of the deposit as will be consistent with . . . (the) principles of justice." But should difficulty be experienced in this, they advise the Governor not to proceed with "the application of the deposit" until a report of the circumstances has been submitted to them and orders obtained thereon.
22. The question of the repairs to the annicut and banks of the Cauvery, has been fully reviewed by them in their previous letters. They stated that it appeared to them to be "perfectly reasonable" that the Raja should be permitted to conduct the repairs according to the ancient usage.
23. The Raja again complains of the "destruction of the annicut" upon which depends the proper supply of water so essential to the agricultural prosperity of his country. It is clear from various reports that materials necessary for the repairs of the anicut could be procured with less expense from Trichinopoly district than from Tanjore. The Directors therefore would desire the Governor to request the Nabob to allow "proper spots of ground to be set out and bounded by proper marks on the Trichinopoly side, where the Raja and his people may at all times take sand and earth sufficient for these repairs"; and to grant a lease of these portions of ground for a certain term of years to the Company at a reasonable rent so that through the Governor "the cultivation of the Tanjore country may be secured, without infringement . . . (of) the rights of the Nabob."
24. They believe that the Nabob "on a proper representation to him" in the name of the Company, would prevent his people either from attempting to direct the water from the Cauvery into the Coleroon by any means, or from taking "any measures detrimental to the Tanjore country." Should these arrangements be approved by the Nabob, the lease in question shall not be for a period longer "than whilst the Raja shall be punctual in the payment of the annual peshcush to the Nabob as well as the rent to be reserved for the spots of ground."
25. In order that "the Raja on the one hand may be satisfied that all necessary works for the cultivation of his country will be made and kept in repairs and that the Nabob on the other hand may be satisfied that no encroachment on his rights can be made nor any works detrimental to the fertility of his country erected," the Directors recommend that

skilful engineers be appointed by the Government of Madras at the Raja's expense to carry out the necessary repairs with the "strictest attention to the respective rights and interests of both parties."

Frontier Dispute

6-7-83

Tirukkalambur and Sadurvaithamangalam villages.

505-10

1. This paper is an extract from the records of the temple of Alagarkoil. In order to settle the boundary dispute among the residents of Tirukalamboor village belonging to the Tondaman on the one side and those of Sadurvaithamangalam village of Sivaganga on the other, the nautkarnam of either villages named Palaniandy Pillai met the parties at Alagarkoil and standing at the foot of the 18th step read the marks and extent of the boundary land in the several directions situated between the two villages.
2. He was interrupted by a voice of protest from the leader of the villagers of Sadurvaithamangalam, stating that the boundary account read to them were not of the time of the "Anjoo Ellammukkals" a tribe of people five of whom were the first inhabitants who established themselves in that part of the country.
3. Having said this the leader and his adherents retired beyond the large gate of the fort wall. At the request of the servants and ryots of both parties who remained on the spot, the Brahmines of the temple granted them a certificate of what had passed stating "that as one of the party had read the matter in dispute and ascended the steps, forty days should be fixed to remark if anything extraordinary occurred to the detriment of the person or party who ascended the steps."

Negapatam Pagodas

7-8-82

Superiority over Porto Novo pagodas.

513-4

1. In consequence of a vast difference arising in the exchange between the Porto Novo pagodas coined before the 'late invasion' of Hyder Ali, and the Negapatam pagodas produced subsequent to April 1782, the Secretary, Mr. Thomas Christian Walter, declares on behalf of the Dutch Government at Tranquebar that "it has appeared by several public essays made by order of the Government of Tranquebar that the pagodas coined at Negapatam are of a superior touch to those coined at Porto Novo" and they have accordingly become the currency of Tranquebar.
2. The difference in exchange between these pagodas proceeds from the scarcity of the Porto Novo variety and the merchants of "Tinnevely and the southern countreis" insisting on having them and receiving the Negapatam kind only, "at a low batty" being a new coin. Consequently the Porto Novo pagodas being much in request 'in the southern countries', they have become an article of trade.
3. The Secretary points out that "the carriage of pagodas at Negapatam has not only been of infinite benefit to the settlement at Tranquebar but also to the southern countries as no other mint to the southward was open and the merchants did not choose to send their gold to be coined at Madras" for want of safe communication with that place either by road or by water.

Tondaman		
3-1-1785	Claim to Killanelly Fort and certain villages.	1-2
	1. The Tondaman writes to the Governor expressing his firm hope that by "exerting himself in the service of the English Sirdars" he may derive "benefit and ease." But it is evil destiny that "has dispossessed him of the villages of Pumbly, Permally" etc., which belonged to him and his ancestors "from the earliest time."	
	2. He trusts that the Governor would have received from his vakeel the letters sent through him, received from Pretaub Sing, the late Raja of Tanjore and from the Company's Sirdars on the subject of the fort of Killanelly.	
	3. He solicits the Governor to take his case into "serious consideration" and to order the restoration of the above villages and the fort of Killanelly.	
Tanjore		
7-1-85	Arrears of peshcash—Effects of late war.	5-11
	1. Replying to the Raja's statement that he would have cleared off the balance of peshcush payable to the Company on account of the Nabob, had it not been for the desolation of his country brought on by the ravages of the late war, the Governor observes that the war was not so disastrous as he represents. Some parts of the country suffered, no interruption in cultivation and the produce reaped and sold must have yielded 'no small compensation' for the loss of the rest.	13-23
	2. As to the Raja's contention that his country was not protected against the incursions of the enemy and that the peshcush which is paid in return for the stipulated protection "ought to be excused when that protection ceased," the Governor observes that "this reasoning cannot by any means apply to the present case." The total military strength of the Company was directed against the army of Hyder Ali and in a general war like the one that broke out "it was not possible to protect every part equally against the ravages of Horse." What the Raja should be intent upon securing is the ultimate safety of his country and not the "particular defence of it as would have secured the revenues against the devastations of the enemy."	
	3. The Governor considers the Raja's statement that the Mysoreans, French and Dutch have become his enemies even though he had no quarrel with them because he was the Company's friend, as "inconsistent with the nature of the connection between him and the Company." Had he been attacked by his enemies the Company would have hastened to his rescue and in the same manner it has a right to expect in return his help against its enemies.	
	4. As the late war has considerably drained the Company's finance, the Governor requests the Raja to pay "the balance due to the Company . . . solely upon the belief that his engagements require and the situation of his country will permit him to discharge it."

	1. The Deputy Secretary intimates to the Resident at Tanjore that the President and Select Committee have sent Mr. Charles Floyer to Pondicherry for the purpose of giving effect to the 13th and the 14th articles of the "Definitive Treaty between Great Britain and France."	
	2. When Pondicherry shall have been delivered to the French and Cuddalore taken possession of by the Company, the Deputy Secretary informs the Resident, that directions of the Select Committee will be communicated to him for the restoration of Karaikal to the French and that he should carry out their orders immediately on receipt of them.	
5-2-85	3. Later, the Deputy Secretary on behalf of the Select Committee, desires the Resident to "deliver up the town and district of Karaikal together with the four magans contiguous", to the representative of the French nation who may be appointed to receive them. He is instructed to take an acknowledgment executed in the proper form from the French Agent in accordance with the 'Treaty of Peace.'	41-2

	1. Mr. Bannerman forwards to the Resident a statement of the demand of the sibbandi corps "for off reckonings from the time of the removal of Capt. Campbell to the 1st of this year", with a request to obtain the approval of Government for the same.	
	2. He adds that the stoppages and strength of the corps are the same as those of a regular battalion and consequently he is eligible to claim an equal share of the dividend with the Captain Commanding the battalion.

22-2-85	Off-reckonings.	57-8
	1. Replying to his letter of the 5th September last, the Deputy Secretary informs the acting Resident at Tanjore that the off-reckonings of the Sibbandy Battalions are "adjusted to be the right of Capt. Donald Campbell and Capt. Bishop from the day of their respective appointments to their decease and since the death of Capt. Campbell they are to be received by the officers who have respectively commanded the Battalions."	61
	2. During the term of Lt. Coke's imprisonment, Lt. Matthew and those who commanded the battalion are entitled to the off-reckonings until the former's release and reappointment. With regard to the sums to be paid, the Deputy Secretary points out, that the different shares must be proportioned to the amount of the stoppages.	
	Asshoora Feast	
	Mancagee Gady's privileges.	65-6
	1. Killidar Mancagee Gady states in his petition that his grandfather when he was 'killidar and chief of the lascar Jinthak' during the time of the late Raja Pretaub Sing, marched against the army of Mahomud Arab who lay encamped before the fort of Tirukattupally and returned victorious with the 'Zoolfakar standard' upon one of the elephants belonging to the vanquished.	
	2. Since then, during the ten days of the 'Asshoora feast', "we have carried it in the form of a cap and no other person in this country has been entitled to use it." During the reign of the deceased Raja Tuljagee a sepoy of the 1st Battalion, however, assumed the 'Zoolfakar Cap' which on the complaint of the Circar was seized from him.

	Lord Macartney transmits two bills of exchange to the Resident as there is "little appearance . . . of obtaining any effectual pecuniary assistance from the Raja." One of the bills is drawn on the gomasta of Bocanjee Cacidoss at Tanjore for St. Pag. 5,000 payable at 31 days' sight to the Resident and the other drawn by Narayana Pillai on Patchiappa Pillai at Tanjore for St. Pag. 3,000 payable at six days' sight. The Governor promises to send more on securing "good bills."

	Resident	
24-2-85	Duties defined.	101
	(Duplicate of 3441/409-27.)	
5-2-82	1. The President and the Select Committee at Fort St. George instruct the Resident regarding his powers. The Resident shall have no authority over the troops nor shall he have power to direct them for any military operation. He shall take care of the garrison and the defence of the province. The management of the Company's concerns with the Raja and all matters of revenue are entrusted to the Resident.	125-31
	2. He could apply to the Officer Commanding for military assistance "for the purposes of revenue" or for the purpose of executing any orders he might receive from the Select Committee.	
	3. He shall be "the channel of communication with the Raja" and all applications should be made to him in any case where the Raja's assistance may be necessary.	
	4. All reports of oppressions or irregularities made against any military officer in the Tanjore country by the Raja shall be transmitted to the Officer Commanding who shall cause a court of enquiry to be held and the proceedings sent to the Select Committee. In the case of a complaint made against a non-military servant of the Company the Resident shall proceed to investigate and submit a report with his opinion to the Select Committee.	
	5. The Company's tappals are to be received and despatched by the Resident or under his direction. The same military honours are to be paid to the Resident as are usually paid to the chiefs of subordinate settlements.	
	6. The Raja has represented certain grievances to the Company said to be sustained by him and his people. The Select Committee ask the Resident to investigate these grievances and express his opinion with the proofs and evidence.	
	7. The Committee point out to the Resident that the great object of his endeavours shall be to prevail upon the Raja to "an agreement similar to that which . . . the Nabob" had entered into with the President or to obtain his consent to "the appropriation of his revenue to the expenses of the war, the defence of the Carnatic and the discharge of his debts to the Company and to individuals."

	Resident—cont.	
	8. They urge upon the Resident to influence the Raja to appoint Dahir in the room of the late Minister Batchana. But if this could not be accomplished the Resident must at all events endeavour to see that the situation is not filled by a person who is not a friend of the Company.	
	Huddleston, Mr. John	
24-2-85	Resident. The Governor, Lord Macartney, informs the Raja that Mr. John Huddleston has been selected to succeed Mr. Sullivan as Resident. The Raja is informed that the new incumbent has been instructed to enquire particularly into the dispute between him and the Tondaman.	133-4
	Tondaman and Tanjore	
27-2-85	Dispute. 1. The Tondaman claims certain villages from the Raja which he says properly belong to him by right. The Governor replying to the Tondaman on the subject of this dispute requires him to furnish all proofs in support of his claim, to Mr. Huddleston the Resident at Tanjore, who has been deputed to enquire into the matter. 2. The Governor assures the Tondaman that "it is the object of the Company to do justice to everybody and to protect those who by a faithful attachment to the Company render themselves worthy of favour."	137-8
	Huddleston, Mr. John	
1-3-85	Oath. This is a covering letter from the Civil Secretary enclosing a copy of the oath taken by Mr. Huddleston before the Council on the 21st ultimo, for his signature and return so that it may be lodged in the Mayor's Court according to the provisions of the Act.	141-5
	English School	
7-3-85	Tanjore—Establishment of. 1. Rev. F. Schwartz writing to Mr. Hippisley states that it was long his object to establish an English school at Tanjore and it would have been an accomplished fact had it not been for the outbreak of war during which the school house built by him was destroyed. 2. With the timber supplied by the Resident and encouraged by the Raja's promise to contribute Pag. 40 per month towards "keeping proper schoolmasters," he has proceeded to construct a new building. But he cannot complete it without additional help. He therefore requests him "to propose a method of facilitating it."	149-51
8-3-85	3. Mr. Hippisley transmits Mr. Schwartz's letter to the Governor and states that "a very little assistance from the Company's workmen would enable him to proceed with his object."	153-4
	Oath of Office	
8-3-85	Assistants at Nagore. 1. The Civil Secretary requests the Resident at Tanjore to administer the oath of office to the two Assistants at Nagore, copy of the oath being sent to him.	157
12-3-85	2. The Resident replies to the President and Council stating that he must defer the execution of his orders regarding the administration of the oath to the Assistants at Nagore in view of the pressure of public business at Tanjore.	161-3

	Resident	
12-3-85	Assumption of charge. The new Resident at Tanjore reports that he has received charge of his office on the 10th instant from Mr. Hippisley.	165-7
	Tanjore Payments	
12-3-85	Mr. Sullivan's mistake. 1. Mr. Sullivan, the late Resident at Tanjore writes from Pondicherry to the Raja and forwards the letter through the Resident. He states that owing to some misconception on the part of either the Raja's Minister or the Dubash who served as interpreter on the occasion, Mr. Sullivan understood that the Raja was to pay the Company a sum of Pag. 1,20,000 while the latter considered that his promise extended to only one lakh of pagodas. The Government of Madras instructed by him are expecting the Raja to pay "an absolute issue of so much money" from the Royal treasury and have therefore directed their present Resident to remit the money to Madras. 2. Mr. Sullivan observes that for this want of precision on his part he has adequately atoned by his personal affliction and believes that "the Raja's justice would not allow it to extend further" even though he were not concerned. He therefore earnestly implores the Raja not to suffer the last of his administration to fall into disrepute but to order the payment of the sum of Pag. 1,20,000.	169-73
	Military Expenditure	
13-3-85	Tanjore—Retrenchment of. 1. The Secretary in the Military and Political Department states to the Resident that with a view to the strictest economy in every expenditure, he must scrutinise the various charges and specify those that may be struck off retaining such as are indispensably necessary. 2. With regard to the general order directing the draught and carriage bullocks to be discharged, the Secretary points out that they must be employed only for the particular service in which they may be required and after that service is performed they must be immediately discharged. 3. The Resident is informed that the services of the "interpreter, mounchee and hircarrahs" now attached to the Commandant of Tanjore should be immediately terminated. 4. The pay of the Resident is Pag. 250 a month as usual and the allowances granted to the two Assistant Residents are Pag. 20 a month, excluding their salary and diet money.	175-8
	Karaikal	
14-3-85	Cession to the French. 1. Replying to a letter received from the Resident at Tanjore informing him of the arrival of a Bramin with an escort of sepoys from the Government of Pondicherry bearing letters to the Raja, the Governor expresses his "sense" on this communication "which seems dictated by a proper attention to the engagements with the Company." 2. He believes that the mission is occasioned by the late cession of the magans round Karaikal to the French and that the letters are merely of a complimentary nature. 3. The Governor states that the Raja might therefore receive them and send a reply to the effect suggested to him. The reply should state that the Raja at the request of his friends and allies the English, has agreed to deliver to them the magans around Karaikal which the King of England had managed to procure for the French, "that he	179-81

	had conferred this obligation on his friends the English, as a testimony of his esteem, and that having received the proper acknowledgments from them, he is fully satisfied. It is nevertheless his desire to live in terms of amity and good correspondence with all his neighbours and that he will not refuse to receive any letters or representations they may at any time have occasion to send to him, but that he requests in future such letters may not be accompanied by any escort of sepoys but transmitted through the ordinary channel of chobdars or hircarrahs."	
	Irrigation Dispute	
18-3-85	Vennar—Clearance of obstruction.	185-5
	1. In order to irrigate two inconsiderable villages, the renter of Trichinopoly has diverted the Vennar from flowing into the Tanjore district. The Resident writing to the Superintendent of Revenue in Trichinopoly states that the matter was brought to his notice by the Raja and requests him to see that the renter does not obstruct the usual course of the Vennar.	
23-3-85	[The handwriting of this letter is too obscure to be deciphered.]	187-92
22-3-85	2. Mr. Irwin, Superintendent of Revenue in the Trichinopoly district states to the Resident that he has enquired into the complaint against the renter of Trichinopoly regarding the obstruction caused to the flow of the Vennar into Tanjore and that the former course of the river is restored.	193-4
	3. As regards the Tourgoody Kallars there is equal cause of complaint on both sides. Those in Trichinopoly carry a continual warfare against those in Tanjore and it will be necessary to maintain a force at Tourgoody in order to restore peace and security to the inhabitants on the borders of the respective districts. He suggests to the Resident that part of the sibbandy corps at Tanjore might be sent there.	
	L'Ettoille, Mr.	
21-3-85	Payment of bill.	197-8
	1. The Secretary in the Military and Political Department informs the Resident that Mr. Sullivan, the late Resident "was empowered to accept and discharge certain drafts . . . made on him by the Hon'ble Mr. Cochrane."	
	2. Mr. L'Ettoille, the holder of one of these bills, being unpaid and producing a certificate accordingly from Mr. Sullivan, the Secretary requests the Resident to pay him the sum of P.N. Pag. 2,305-12-0 in discharge of the bill.	
	Tondaman	
18-3-85	Killanelly fort and other villages.	201-2
	1. The Tondaman states in his letter addressed presumably to the Resident that he is in receipt of the letter from the Governor asking him to depute his vackeel for the purpose of settling his claims for the three villages now in the possession of the Raja and for the fort of Killanelly. The Tondaman requests the Resident to do him justice by putting him in possession of the fort and the three villages.	223
31-3-85	2. Later, the Tondaman informs the Resident that he is sending his vackeel to him, who will relate to him all the facts about the fort and the villages.

	Garrison Hospital	
18-3-85	Sick soldiers—Surgeon's report.	205
	1. The two Surgeons attached to the Garrison hospital at Tanjore observe to the Resident that they addressed Mr. Sullivan the late Resident on "the subject of their situation with regard to the sick of His Majesty's 78th Regiment being in the Company's Hospital" but without result.	
	2. They therefore forward to the present Resident a copy of their letter sent to Mr. Sullivan, and express their disinclination to have any "contract for the cause of the sick in this garrison" and request him to consider them in future as Surgeon of Out-Garrison as specified in the orders of Government of the 25th September last.	
	Corporal Punishment	
23-3-85	Mr. Cochrane's case.	211-2
	1. The death of a person named Vaidyanatha happening a few days after punishment had been inflicted upon him at Negapatam by order of the Hon'ble Mr. Cochrane, has led the Governor and Council to draw the attention of the gentlemen in authority at the various subordinate settlements to the necessity of caution in the matter of subjecting Indians to punishments of "very great severity."	
	2. The Governor advises the Resident to exercise the greatest care possible in these circumstances and to abstain from corporal punishment in all cases except when it may be "justly and indispensably necessary."	
	Tanjore	
28-3-85	French mission etc.	215-6 219-21
	1. In respect of the mission of the French to the Raja, the Secretary in the Military and Political Department enquires on behalf of the Governor and Council, whether the Bramine had been permitted to deliver the presents to the Raja or whether he went away disappointed.	
	2. As regards the payment of Pag. 1,20,000 agreed to by the Raja, as stated in Mr. Sullivan's letter to the Board, the Resident is required to urge the Raja, in the strongest possible manner, to complete his payments the refusal of which would be attended with serious consequences to the Company's affairs at this time.	
	3. Should the Raja "throw out any idea of giving up his country (as it appears he has done)" the Resident shall desire him to address the Governor on the subject and assure him (the Raja) "that the Government will accept the charge."	
	Foreign Troops	
31-3-85	March through the Company's territory.	227
	The Secretary in the Military and Political Department intimates to the Resident, in respect of the "information of a Braminy with an escort of sepoys having proceeded from Karaikal to Tanjore," that the Governor and Council consider the marching of foreign troops through the districts garrisoned by the Company's militia, unless with the previous permission of the Government, as exceedingly improper and they therefore desire him to communicate their opinion to Lt.-Col. de Boistall Commanding at Karaikal in order to avoid future troubles on this account.

	Medical Charges	
2-4-85	Statement of. In transmitting to the Military and Political Secretary a statement of the medical charges furnished by Mr. Hippisley, the Resident remarks that he has desired the Paymaster to make such "alterations and corrections as may appear indisputably proper and tend to retrench the public expenditure."	231
	Tanjore	
3-4-85	Payment of Pag. 1,20,000. 1. The Resident reports to the Governor and Council that when the Raja was requested by him to pay the balance of Pag. 80,000 in full payment of Pag. 1,20,000 agreed to be paid by him, he denied all knowledge of his stipulation to pay the above sum to the Company and called Mr. Schwartz to corroborate his statement. 2. In regard to his request that the revenues of Mayavaram for the year should be made over to the Company and not to his private creditors the Raja replied that he was willing to do what he could to assist the Company on condition that no further demand was made on him. But the late war had reduced the country to a state almost of ruin and it was impossible to complete the payments of Pag. 4,00,000 for the present year without having recourse to severe exactions. 3. It was represented to the Raja that the President had calculated upon receipt of this sum and had made arrangements which must be fulfilled or "the most serious inconveniences might ensue"; and supposing that nothing had been settled between the Governor and the late Resident, the necessity of the Raja "yielding the Company some assistance at this juncture still remained" and a sum less than that which the late Resident recommended would not be satisfactory. The Company had burdened itself with debt incurred by their exertions in defence of itself and its allies and the sum that was expected from the Raja was far too inadequate to the Company's wants. 4. To all this the Raja and his Minister denied in the most positive terms any agreement having been given to the payment of Pag. 12,000. The Raja mentioned that at Mr. Sullivan, the late Resident's "earnest entreaty" he had by borrowing the amount sent a bill for Pag. 43,800 and expressed himself absolutely unable to make any addition to it. 5. The Resident sought another conference with the Raja who was at last prevailed upon to pay the balance of Pag. 76,200 as early as possible. It was agreed that the amount should be cleared off in four instalments the first instalment of Pag. 20,000 being paid on the 8th instant and an equal sum at the close of the present month.	237-47
4-4-85	—French mission—Financial resources etc. 1. The Resident reports to the President and Council that the Raja has not yet "thrown out the most distant idea of giving up his country" and should he express himself so, he promises to seize the earliest opportunity to communicate to him "clearer instructions on that head." The Raja's affairs are in a bad way and he may not be able to assist the Company any further than the annual subsidy this year. 2. As regards the Braminy sent by the French, the Raja returned a verbal answer that his connection was with the English Company and with no other. The letters and present brought with him were not therefore accepted and he is reported to have left for Karaikal. When the	249-51

	Ariyalur Poligar	
5-4-85	Vackee's conduct. The Resident informs Kumara Vizia Oppilla Madaveroy, Poligar of Arrialoor, of his arrival in his neighbourhood and reports to him that his vackeel has not appeared before him to inform him of the state of his health "according to the friendship between them."	253-5
	French Troops	
6-4-85	March through the Company's territory. 1. Genl. Contancean at Pondicherry complains to Lord Macartney the Governor that the King's Diwan at Karaikal on his way to the Raja of Tanjore was detained on the borders of the Company's territory for a period of 15 days and not allowed to deliver certain presents to the Raja. 2. This the General points out is an "infraction of the orders of the Madras Government and a deviation of the intentions of the our respective courts." He requests that the offender may be punished.	257-8
6-4-85	3. The Resident addressing Lt.-Col. Boistelle, Chief of Karaikal, draws his attention to the impropriety of foreign troops marching through the Company's districts without previous permission being obtained.	261-2
	Bills	
6-4-85	Transmission of. The Resident transmits bills of exchange in favour of the Governor, drawn on Rama Chitty, a Sowcar at Madras for St. Pag. 10,000 at ten days' sight at 24½ gold fanams per pagoda.	265-7
	Civil Servants	
7-4-85	Pay and allowances. The Civil Secretary requests the Resident at Tanjore to transmit to the Accountant-General, a statement of the pay and allowances of the civil servants under him, brought up to the 1st instant.	269
	Corporal Punishment	
9-4-85	Moderation in. The Resident replying to the Governor and Council states that he will bestow "strict attention" to their orders directing that the punishments awarded to Indians should not be more severe than is absolutely necessary.	273-5
	Tourgoody Kallars	
10-4-85	Disturbance. In regard to the despatch of the sibbandi corps at Tanjore to quell the disturbance caused by the Tourgoody Kallars, the Resident states to the Superintendent of Revenue at Trichinopoly that in consequence of the orders directing reduction of one of this battalion, it is not possible to do so. He suggests that Genl. Horne at Worrior may be applied to for this purpose.	277-9

	French Troops	
11-4-85	March through the Company's districts. Replying to the letter of Genl. Contenean of the 6th instant the Governor states that beyond the objection raised for the marching of foreign troops without previous permission through the districts garrisoned by the Company, all other allegations made by the Braminy seems to have "originated purely and entirely from himself." The Governor points out, that if the Raja declined to accept the letters and presents offered by him on behalf of the French he could not "interfere with the Raja's authority in a matter of this nature."	281-3.
	Sibbandi	
13-4-85	Disbandment of—Proposal. The Resident submits to the Governor and Council his opinion on the disposal of the sibbandi corps at Tanjore and their off-reckonings, clothings etc. [This letter is too obscure to be deciphered.]	285-98.
	Tevagudy Kallars	
16-4-85	Disturbances. The Superintendent of Revenue at Trichinopoly requests the Resident to enquire into a complaint lodged with him against the Kallars of the village of Keela Tevagudy in the Tanjore district who entered into the villages of Tiruvakuruchy and Kilakulagoody in the district of Trichinopoly and plundered their cattle and other things of value.	301-7.

17-4-85	Cash disbursements. 1. The Deputy Paymaster of the King's troops, south of Coleeroon, at Tanjore requests the Resident to supply him with cash, in order to meet the charges on account of the 78th Rt.	313-4.
18-4-85	2. Replying to the Deputy Paymaster, the Resident states that he has ordered payment of £1,747-16-0 being the subsistence charges on account of the 78th Rt. As regards the demand of £1,806-0-3 made in connection with certain items described as "Poundage, Broken periods, Captain's allowances, Paymaster and Surgeons' stoppages from 25-6-1781 to 24-6-1783," it has been referred to the President and Council for orders.	317-8. 343-4.
18-4-85	Bodkin, Mr. Peter	
	Bills—Payment. He desires that the moneys due to him may be collected and sent through the person named Venkatachala Naidu who is the bearer of this letter.	321-3.

	be filled by the most deserving of the havildars if the former should elect to resign on account of reduction of pay and that no alterations be made in the establishment of sibbandis as it is now filled.	
	2. With regard to the off-reckonings they have been adjusted to Capt. Campbell while in command and must therefore be brought to the Company's account in payment of the balance due from Capt. Campbell since leaving the command. The off-reckonings in proper proportions will be due to the different officers who succeeded and bonds will be issued therefor.	
	3. The demand made for clothing for three years, represented to be due to the sibbandis, must be settled by the officers with their men. If they could be prevailed upon to accept a stipulated sum as the value of the clothing, the off-reckonings will be allowed to the officers. If not, the full amount of the stoppages should be paid to the men.	
	Bill	
19-4-85	Transmission of. The Resident transmits a bill of exchange for St. Pag. 10,000 drawn on Rama Chitty, a sowcar at Madras, payable at 13 days' sight at 25 gold fanams per pagoda.	329.
	Raja of Tanjore and Tondaman	
19-4-85	Dispute. 1. This paper contains a report of the examination relating to a dispute between the Raja of Tanjore and the Tondaman regarding the latter's right to 3 villages, viz. Navelly, Erianty and Seroovatore, that are now in possession of the Raja and the claims advanced by the Raja to two villages, viz., Vulacanatumpatty and Killecotah, now in possession of the Tondaman.	331-40.
	2. It was stated on behalf of the Raja that Monajee, the manager of the country, having occasion to seek the protection of the Tondaman from the wrath of the Raja, was received by him and was granted the village of Peroongalore.	
	3. Some time after the Raja recalled Monajee and reinstated him in the management of his country. Being returned to power Monajee presented the Tondaman with the three villages under dispute, without the knowledge or consent of the Raja. There being no deed of transfer under the signature of the King which is a condition precedent to all royal grants of villages, the alienation could not therefore be valid.	
	4. It was argued by the people of the Tondaman that after the recall of Monajee he was sent by the Raja to the Tondaman to solicit his support in a war against the Maravars. The Tondaman agreed to help the Raja on condition of the grant of the three villages, which was accordingly made and a sunnud issued by Monajee under the orders of the Raja. These villages have been for the last 10 years in possession of the Tondaman but last year they were taken away by the Company's people on behalf of the Raja.	
	5. As regards the two villages of Vulacankatampatty and Killecotah, the Tondaman people held that they belonged to the Tondaman and were therefore neither a gift from the Raja, nor Monajee.	
	6. A series of questions are put and answers elicited from both the parties.	
	Medical Charges	
22-4-85	Arrears. Surgeon George Stuart, transmits a statement of the arrears of medical charges due from the month of September 1784 till the month of March 1785.	345.

	Raja and Tondaman	349-55
23-4-85	Dispute. 1. In regard to the three villages in possession of the Raja and claimed by the Tondaman and to the two villages now under the control and possession of the latter and claimed by the Raja, the Resident submits a report on the claims made by these two parties to the President and Council. 2. He observes that the Tondaman's vakils admitted that the three villages originally belonged to the Raja but that their claims are founded on the sunnud "granted by Monajee with the consent of the present Raja's father, Pretaub Sing." They do not pretend to any sunnud under the Raja's signature nor do they advance any proof of the Raja having authorized Monajee to grant one. 3. There appears therefore, "some indirect reason to doubt" whether Monajee took upon himself to give a sunnud, for on being asked to produce Monajee's sunnud the vakils of the Tondaman answered that it was given to the Raja's subah at Puducotah who was in charge of the villages and kept by him. 4. From this the Resident infers that it was an order directing delivery of the villages and not a sunnud and leaves it for the President to decide how far the "failure of proof of regular grant" for the alienation of these villages could counterbalance the length of apparently undisturbed possession. 5. As to how the Tondaman was allowed to be in possession of the villages for such a length of time, the Raja's vakils observed that their master was kept in ignorance of the transaction and there was such a "quick succession of ministry that none of them enquired into it." 6. Adverting to the two villages of Vulacanatumatty and Killecotah now in possession of the Tondaman and claimed by the Raja as having been alienated by Monajee without his (the Raja's) knowledge, the Tondaman's vakils express their positive denial that these villages ever formed part of the Tanjore country. The Raja's vakils producing no proof in support of their statements, the Resident remarks, that the Raja would have taken possession of them simultaneously with the other three villages. 7. With regard to the village of Tumbickeenatthampettah, it is the "known and acknowledged property" of the Raja and the Tondaman's vakils "did not pretend a claim to it nor to the pagoda which is in it."	
26-4-85	Churchill, Mr. Demands on the Raja. The Secretary in the Military and Political Department requests Mr. Huddleston, the Resident, to transmit to him copies of certain papers from which Mr. Churchill is authorized to make a demand of £1,806-0-3, in order that a decision may be arrived at on his application.	357
26-4-85	Tevagudy Kallars Robberies by. Replying to the letter of the 16th instant from the Superintendent of Revenue at Trichinopoly enclosing a complaint against the Kallars of Kilatevagudy village in the Tanjore district of having overrun and plundered the inhabitants of two villages in the Trichinopoly district, the Resident states that the matter was brought to the notice of the Raja who in consequence has promised to send his men to the scene of occurrence, apprehend the robbers, and restore the lost property to the owners.	361

	Sibbandi	
27-4-85	Reduction in. 1. In pursuance of the orders directing the reduction of the sibbandis to their original establishment and the disbandment of the 4th Bn. the Resident instructs Col. Stewart in command of the troops at Tanjore that he should recall the sibbandis now on duty at Vallam and Negapatam and retain those belonging to this garrison. 2. If he should feel unauthorized to recall them and supply their place with regular sepoy from Tanjore, he should apply to Brig.-Genl. Horne for the purpose. 3. Such of the sibbandi as are now in this garrison should be sent to the districts to retrieve the 4th Bn. which may be sent to this place in order to settle their arrears and select the pick among them to complete other battalions.	363-5
28-4-85	—Grievances of. 1. Lt.-Col. Thomas Coke, Commanding the 1st Battalion of the Sibbandi Corps represents to the Resident their grievances in consequence of his orders directing the reduction of the sibbandi to their former establishment and allowances. 2. He urges their hard lot. The heavy arrears of pay due to them from the Nabob under whom most of them served, prior to their present appointment in the corps had to be forfeited. The small allowance now granted to them coupled with the dearness of provisions was such as to enable them to lead a military life only with considerable difficulty. 3. He requests that their valuable and loyal services may be properly represented to the President and Council with a view to inducing them "to make an alteration in their order respecting them."	367-9
	Paddy Prices of. This statement contains the prices of sambah and peshanum paddy in the subah of Mannargudy during the month of April 1785.	371

	Raja of Tanjore and Tondaman	
3-5-85	Dispute.	379-80
18-5-85	1. The Secretary in the Military and Political Department states to the Resident that in respect of the three villages in the possession of the Tondaman and claimed by the Raja, the President and Council decide in favour of the latter, and that the Tondaman be allowed to retain the village of Perungalore now in his possession, but the lands and tank adjacent be appropriated to the use of the temple to which they were annexed. 2. As to the two villages of Vulacanatumatty and Killecotah now possessed by the Tondaman and claimed by the Raja the President and Council are of opinion that the Raja's claim appears to be inadmissible.	445-6

	Sibbandi	
4-5-85	Reduction of. 1. The Secretary in the Military and Political Department informs the Resident that as it is resolved to reduce the sibbandi corps at Tanjore to its former original establishment and to employ it in the revenue collections, the Governor and Council have decided to place the corps during the peace time under the authority of the Resident, "to be employed on his requisitions to the Commanding Officer of the corps and distributed in the several districts for the service of the collections. Such of the sibbandis as may remain after the necessary distribution are to be . . . encamped in some convenient spot near Tanjore, to be in readiness to be employed as their services may be required." 2. The Secretary states that the Governor and Council hope that the discipline of the corps may not suffer from the frequent separation of the men from their officers.	383-5
	Military Garrisons	
4-5-85	Repair estimates. The Governor and Council lay down that without an estimate being prepared and approved previously no repairs of any kind in any department "in all subordinate and out garrisons as well as at the Presidency" should be executed.	387-7
	Accounts

	Sibbandi	
13-5-85	Reduction—Lt. Cooke's petition. 1. The Resident forwards to the Governor and Council the representation made by Lt. Cooke the senior officer of the Sibbandi Corps, on behalf of the officers and men of the corps and particularly the officers of the 4th Battalion who are reduced by the orders of the Governor and Council. 2. The Resident states that if the Governor should approve of allowing them "as a provision during peace the pay of sibbandy officers the expense to the Company would be no more than 26 pagodas per month, a sum that would be well bestowed if it prevented their entertaining in any foreign service."	417-21

	Sibbandi—cont.	
	3. As to the pay of both the officers and men of the sibbandi corps, Mr. Coke was informed that they must not expect any increase. The men of the 4th Battalion who declined "to complete the other Battalions" were asked to take their discharge and others from the country appointed in their place.	
	78th Regiment	
13-5-85	Claim for allowances.	425-6
14-5-85	1. The Resident writing to the Deputy Paymaster requests him to transmit to him some more papers on the subject of his demand of £ 1,806-0-3 on account of "Poundage, Broken periods, Surgeon's allowances etc."	435-6

	Accountant-General	
14-5-85	Accounts etc. The Civil Secretary directs the Resident to furnish the Accountant-General upon application made by him or his deputy with such accounts and papers as may be required and to regard his requisitions as having the same force as if they emanated from the Board itself.	431
	Sibbandi	
17-5-85	Reduction of. 1. Replying to the Resident's letter of the 13th instant enclosing a representation from Lt. Coke, the Secretary in the Military and Political Department states that the Governor and Council are surprised that he should "so far countenance as to forward it." 2. The Secretary points out that at the conclusion of a war there must always be a great number of Indian officers and sepoys necessarily reduced. To the peace provision suggested by him, the Governor and Council do not agree. 3. The Board approves of his proposal to discharge those who are unwilling to complete the other battalions and to appoint others in their places. It resolves that in the present state of the Company's Military service here, "every discountenance and discouragement should be shown to the discontented of all ranks." They raise no objection to the payment of three or four months' arrears to the discharged men as soon as their arrears are adjusted.	441-3
	Residency Charges	
19-5-85	Accounts.	449
23-5-85	The Accountant-General requests the Resident to furnish him with a statement under different heads of expenditure of the probable charges of his Residency excluding those items which are exhibited in the Paymaster's accounts, and of the "account of the resources furnished by the Raja from 1st May 1782 to 30th April 1785" together with the balance of cash in his hands on the 1st instant.	467
	Cash Remittance	
19-5-85	The Governor advises the Resident that payment has been made into the Company's treasury of St. Pag. 20,000 and requests him to give credit to the Raja for that amount.	453

	78th Regiment	
21-5-85	Claims to allowances. In regard to the demand of £ 1,806-0-3 made on account of "Poundage, Surgeon's allowance etc.," due to the 78th Regiment, the Secretary in the Military and Political Department informs the Resident that since it appears that the items "Poundage etc. . . .," are to be paid in India the application of the Deputy Paymaster should be complied with and the 78th Rt. debited in the accounts accordingly.	457-8
	Tanjore Ram Chetty	
21-5-85	Bill. This letter is presumably from the Resident to the Governor intimating that he is transmitting a bill of exchange for Pag. 5,000 drawn on Tanjore Ram Chetty at 15 days' sight at 25½ gold fanams per pagoda.	461
	Oaths	
23-5-85	Messrs. Irwin and Andrews. The Resident transmits to the Civil Secretary copies of oaths administered to Messrs. Irwin and Andrews and subscribed by them.	463
	Tanjore Garrison	
23-5-85	Cash receipt. This is a receipt given by the Paymaster at Tanjore for a sum of St. Pag. 1,000 received from the Resident towards the disbursements to the Tanjore garrison for the month of April 1785.	465
	Tanjore Ram Chetty	
24-5-85	Bill. Adverting to the Resident's letter of the 21st instant, the Civil Secretary in reply states that as remittance from Tanjore could be procured here at a more favourable exchange there is no necessity to accept any more bills on the disadvantageous terms at which the last remittance was made.	469
	Arrack	
25-5-85	Exported to Sadras. In respect of 40 casks of arrack belonging to the Company shipped at Madras in 1780 to be landed at Sadras, but actually landed at Nagore as reported by the Resident at Tanjore, the Agent at Fort St. George enquires of the Resident how it was disposed of in order to make an entry in the books of accounts.	473-4
	Bonds	
25-5-85	Claim for interest. The Surgeon at Tanjore states that he is in possession of a bond bearing the Company's seal and issued by Mr. Sullivan the late Resident for a sum of 600 Star Pagodas payable on demand with such interest as shall be deemed proper by the President and Council. He therefore requests the Resident to move the Governor and Council to order payment of interest now due, and if they consider proper, to grant him a regular bond in lieu of the old one.	477
	Military Artificers	
26-5-85	Fixed establishment proposed. 1. In examining the accounts of the garrison at Tanjore, the Resident remarks that he comes across the item of "extra artificers employed in the storehouse" under the head of 'Charges Extraordinary,' in addition to the artificers charged monthly under 'Charges General.'	481-2

Date.	Abstract.	Page number.
	Military Artificers—cont.	
	2. The number of workmen who may be wanted during the time of war could not be previously computed, but during peace the artificers and the consumption of stones would be nearly the same every month so that the number of workmen might be limited to a certain "permanent number" and the expenditure consequently reduced.	
	3. In this respect the Resident solicits the opinion of the Paymaster so as to enable him to effect reduction in this branch of the expenditure without being detrimental to the service.	
27-5-85	4. Replying, the Paymaster states that he does not apprehend that any estimate could be made to "preclude the employment of extra artificers without involving a greater expense to the Company than it can be subjected to by the present mode."	485-7
	Bill	
28-5-85	Rate of exchange. The Resident at Tanjore last sent a bill of exchange to the President and Council for Pag. 5,000 at 25½ gold fanams per pagoda and prior to it another bill of exchange for Pag. 1,000 at 25 fanams per pagoda. The Resident writing to the Civil Secretary points out that the difference in the rate proceeds from the fluctuation of exchange.	489-91
	Arrack	
28-5-85	Nagore. In regard to a certain quantity of arrack belonging to the Company said to be landed at Nagore, the Resident replying to the letter of the Agent at Fort St. George of the 25th instant, states that he could not with absolute certainty say what became of the arrack, but as far as his imperfect recollection served him it was shipped on board a vessel named Elizabeth which proceeded to Bombay.	493-5
	Tanjore Garrison	
31-5-85	Cash receipt. 1. This is a receipt given by the Paymaster to the Resident for a sum of St. Pag. 500 required for the disbursements of the garrison at Tanjore for the month of April 1785.	497
3-6-85	2. This is another receipt issued by the Paymaster in favour of the Resident for a sum of St. Pag. 12,000 in connection with the disbursements of the Tanjore garrison.	499
	Irrigation Repairs	
3-6-85	Kirkupatty. 1. The Resident states to the Officer Commanding at Karaikal that the Raja has represented to him that 2/5 of the water in the watercourse in the district of Kirkupatty flows into Karaikal and it is customary for the inhabitants to assist in the same proportions in carrying out repairs to the watercourse. 2. The Amuldar of Trinullar in spite of repeated application has totally neglected to attend to the repair of the channel. The Resident therefore requests the Officer Commanding to issue orders to the Amuldar to furnish the necessary materials and coolies in the usual proportion for executing the repairs to the watercourse. 3. He urges that the Amuldar may be directed to set to work immediately as further delay would prove detrimental to the revenues both of Karaikal and the neighbouring districts belonging to the Raja.	501-3

	Sullivan, Mr. John	
6-6-85	Sums borrowed by him on account of the Company. This is a statement of moneys borrowed by Mr. Sullivan, the late Resident at Tanjore on account of the Company and "for which his notes are outstanding, the rate of interest to be settled by the Board."	505.
	Muller, Mr. Gabriel	
14-6-85	Compensation for grain. 1. In respect of compensation claimed by Mr. Gabriel Muller on account of his grain being taken away by the Raja, the Resident states to the Governor and Council that the Raja and his Minister positively deny the truth of the statement. The Raja has likewise denied in the case of Mrs. Lamballais' claims and the latter has thereupon promised to send some papers to prove the justice of her demand on the Raja. 2. The Resident observes to the Governor and Council that should he be put in possession of these papers he will not fail to renew the subject with the Raja and represent to him the necessity of his making compensation to both the parties aggrieved.	509-12.
	Tanjore Garrison	
8-6-85	Cash receipt.	573-5.
16-6-85	1. The Paymaster acknowledges receipt from the Resident of a sum of St. Pag. 3,000 towards the disbursements on account of the Tanjore garrison. 2. The Paymaster gives a similar receipt for St. Pag. 2,000. 3. This is a statement of pay due to the Garrison at Tanjore for the month of June 1785.	591
	Tanjore Garrison	
15-6-85	Repairs. The Secretary in the Military and Political Department intimates to Col. Stewart, the Officer Commanding at Tanjore that the Board agrees that only repairs to the quarters and barracks which are absolutely necessary should be made.	579-80. 587
	Loans—Indian Chiefs	
15-6-85	Prohibition of. 1. This G.O. is an extract of a letter from the Court of Directors and states that no person (presumably English or European) in the Company's employment or under its protection should be concerned in a loan or other money transactions with any of the Indian Chiefs. 2. Should the order be disobeyed the Governor and Council observe it shall be on pain of being sent home or under the risk of the protection for the recovery of such loans being withdrawn. 3. They strictly order that no person under the Company's protection or under its employment shall have any private dealings with the Nabob or his family. They threaten that those who disobey this order shall be summarily sent home to England.	583-5.
	Lamballais, Mrs. Elizabeth	
16-6-85	Compensation for grain. 1. In respect of her claims on the Raja for grain Mrs. Elizabeth Lamballais reports to the Resident that she had repeatedly requested the Raja "to discharge the amount of her grain" which he and his Minister made several promises to settle with her; but it was put off every time the Raja was approached.	597-8.

Date.	Abstract.	Page number.
	Lamballais, Mrs. Elizabeth—cont.	
	2. She states that she will forward copies of three letters written to the Governor on the subject and also "sufficient evidences" to establish the justice of her demand. She concludes her letter with an earnest request that the Resident will use his "endeavour to have this business adjusted as soon as convenient."	
	Company's Bonds	
16-6-85	Discharge of. Mr. Cockburn intimates to the Resident that certain bonds issued by Mr. Sullivan, the late Resident in order to raise money on the Company's account, have been discharged.	601-3.
	Paddy	
12-6-85	Delivery to the Superintendent of Assigned Country. This letter is presumably from the Resident to the grain-keeper ordering delivery of 4,000 callums of paddy to the Superintendent of the Assigned Country south of the Coleroon and the placing of it to his debit in his grain accounts.	605
	Irwin, Mr.	
18-6-85	Cash payment. The Secretary in the Military and Political Department directs the Resident to pay Mr. Irwin "such balance as may be now in his hands (not exceeding twelve thousand pagodas)" of the money lately received from the Raja of Tanjore.	607.
	78th Regiment	
18-6-85	Payment of allowances etc. Mr. William Burke, Paymaster-General of His Majesty's Troops in India, applies to the Resident for a sum of Pag. 10,370-9-77, being the subsistence and other charges on account of the 78th Rt. He also requests that the arrear of "poundage, Surgeon's allowances etc.", granted about a couple of months ago may be paid in pagodas and not in fanams in order "to prevent a possibility of the inconvenience of one part of a corps being paid at a higher or lower exchange than the other."	611-2.
	Davidson, Mr. Alexander	
19-6-85	Governor. The Civil Secretary reports to the Resident that consequent on the resignation tendered by Lord Macartney of the office of the Governor of Fort St. George, "the charge thereof has devolved on the Hon'ble Alexander Davidson, Esq."	615
	78th Regiment	
19-6-85	Claims to poundage etc. 1. With regard to the demand of pagodas in payment of the arrear of "poundage, Surgeon's allowances etc.", contained in Mr. William Burke's letter of the 18th instant, the Resident replies that he is unable to act without instructions from the Governor and Council whom he has solicited accordingly. In the meantime he promises to procure pagodas equal to his demand by the time the subsistence allowance applied for shall become due.	619-21
20-6-85	2. Replying to Mr. Burke, the Resident points out that with regard to the "poundage etc.", claimed by him, a doubt has suggested itself to him that the privates and non-commissioned men of H.M. troops under the Company receive an allowance from the Company known as gratuity. This gratuity is stated in the military regulations to be given in order to "make the pay of the King's troops upon a level with that of the Company's." If therefore in fixing the	623-8.

	4th Regiment of Cavalry	
20-6-85	4th Rt. of Cavalry—Formation of. The G.O. states that on the recommendation of the Commander-in-Chief, the President and Council resolve that a Fourth Regiment of Cavalry be immediately "formed from the remaining supernumeraries and native officers on half pay and a draught of 17 private men per troop from the 1st, 2nd and 3rd regiments. Each regiment of cavalry is likewise to have a Capt.-Lieut. upon the same footing as the Battalions of Native Infantry."	631-3
	78th Regiment	
20-6-85	Claims to poundage etc.	635-7
21-6-85	1. From Mr. Burke stating that he could not conceive of any "solid objection" to the grant of "poundage etc.", to the 78th Rt., as they are "regular and usual charges made every month to every King's Regiment in India." 2. If Lord Macartney raised objections to these charges it was not because of the "justness of them" but because he "had imagined that charges of so old a date must have been discharged in England." The moment he realized his mistake he had issued instructions to pay them. 3. Mr. Burke points out that if the Resident considered the Company's usual payments to include these charges, he need only have referred to Genl. Stewart's regulations where it is laid down that these charges in addition to the "subsistence" are payable to every King's Regiment serving in India	639-41
	Arunachala Pillai	
20-6-85	Complaint of extortion. 1. Arunachala Pillai complains to the Governor and Council that when he was at Chidambaram, whither he had gone to recruit health, one Chinnyah had burst upon him with a party of ten men led by one Chidambaram Pillai, and putting him to severe torture extracted from him money, jewels and a bond, in all amounting to Pag. 1,000 on the ground that he, Arunachala Pillai, owed that sum of money to the Havildar of Tanjore who was indebted to that extent to Chinnyah. 2. The Civil Secretary requests the Resident to send to the Presidency the persons mentioned in the complaint in order that the case may be investigated.	643-9
	Gordon, Mr. W.	
22-6-85	Carpenter's claims against him. 1. From Mr. Gordon at Palamcottah stating that the complaint lodged against his dubash by a carpenter in the service of the Raja is irregular. The carpenter left some chairs with Mr. Gordon while at Pondicherry in order to be sold. Being weather beaten at the time of sale (during Mr. Gordon's absence at Palamcottah) the chairs fetched a sum which was not equal to the amount which the carpenter had borrowed on a previous occasion from Mr. Gordon. 2. Presuming that the dubash of Mr. Gordon was responsible for the sale of the furniture, the carpenter filed a case against him. Mr. Gordon points out that if "anyone is answerable to the carpenter it was himself" and what his dubash did was under his authority and requests leave to settle matters with him in person when he shortly comes to Tanjore.	651-3

	78th Regiment	
22-6-85	Claims to poundage etc. 1. To Mr. Burke, Paymaster-General, stating that it is his duty to communicate the doubt that has occurred to him to his superiors at the Presidency and that he shall therefore forward to them copies of the correspondence that passed between them on the subject of the "poundage etc.", claimed for the 78th Rt. of the King's troops, in order to obtain their orders.	655-7
23-6-85	2. To Mr. Burke stating that in consequence of the intimation that every regiment of His Majesty's forces in India is in receipt of "poundage etc.," about this time, the 78th Rt. alone excepted and that a disturbance on that account is expected among the men of this regiment, he has no objection to make an immediate payment of the demand made under the head of "poundage etc." He observes he shall content himself with submitting what has occurred to the President and Council and requesting their orders for his future guidance.	659-67
25-6-85	———To the Secretary in the Military and Political Department. 3. The Resident states that he has paid the full amount of "poundage etc.," viz., St. Pag. 5,542-20-10 due on account of the 78th Rt. of the King's troops and that he has the sum of Pag. 12,000 in readiness to pay to the order of Mr. Irwin, the Superintendent of Revenue at Trichinopoly.	669
	Bills	
29-6-85	Transmission of. From the Secretary in the Civil Department. The Resident is asked to "accept of bills in favour of Government" on the same terms as his last year bill of Pag. 5,000, if he should fail to procure a better remittance for the money he may have to send to the Presidency.	673
	Revenue Defaulters	
30-6-85	Apprehension of. To Mr. Ernest William Fallowfield, Resident at Nagore. The Resident at Tanjore requests him to apprehend and deliver those of the Raja's inhabitants who in order to "avoid paying the balances due from them to the Circar" have fled from the country to his neighbourhood. He points out that the request is made consistent with the agreement between the Raja and the Company "that neither party shall give protection or encouragement to the inhabitants or subjects of the other."	679-80

9-7-85	Puduchery village.	27
10-7-85	From the tenants of the Puduchery village of the Kivallore Jaghir, to the Resident at Nagore. The inhabitants of the village state that on account of floods in the new channel excavated by the amuldar in the village of Kallicudy in the Tiruvalore magan belonging to the Raja, on the borders of their village of Puducherry, they could not sow seeds on their lands. When therefore they went to open the dam of the new watercourse they were "unjustly prevented" from doing so by the cultivators of the Kallicudy village. They request him to take the matter into consideration.	33

10-7-85	Surgeon—Allowances. From Mr. George Stewart, Surgeon of the 78th Rt. He complains of "hard treatment on the part of the Company in respect of his allowances long due not being regularly granted. The G.O. directs the grant of travelling allowances to officers who may be required to sit on courts martial, calculated according to the distance from the garrison to which the officer is attached to the place of court martial, both for their outward and return journeys. They will continue to draw their usual allowances in their garrisons even during their absence on these occasions. The order prescribes the allowances per month which a Colonel, Lieutenant-Colonel, Major, Captain and a Subaltern should receive during the sitting of the court martial.	39-45

	Criminal Justice	
21-7-85	Statute, 24 Geo. III Chap. 25—Interpretation of. From the Civil Secretary enclosing opinion of the Judges of the Supreme Court of Judicature at Calcutta on a case lately referred to them. 1. In regard to the "opinion of the 44th section of the late Statute 24 Geo. III Chap. 25 and particularly on this question; whether by virtue of that section any crime which was committed in India by a British subject, before the first of January [1785] and which at the time of its being committed was not cognizable by any of the Courts of Justice established by charter at Madras, be now cognizable and can be tried by the said courts," the learned Judges of the Supreme Court opine that any crime committed in India, by a British subject even before the 1st January 1785 in any of the lands or territories of any native prince or State is now cognizable by the Court of Oyer and Terminor at Madras, provided that it does not amount to treason or felony. 2. They observe that the Court of Oyer and Terminor at Madras ought not to take cognizance of any offence committed within the territorial acquisitions of the East India Company in Bengal, Bihar or Orissa, neither would the Supreme Court of Judicature take cognizance of an offence committed at any place clearly within the ordinary jurisdiction of the Court of Oyer and Terminor at Madras.	63-70

28-7-85	Puducherry village. To the Resident at Nagore. 1. Replying to his letter of the 10th instant, the Nagore Resident is informed that the representation made by the villagers of Puducherry regarding the overflow of water in the channel cut close to their village, was brought to the notice of the Raja's Minister who summoned the amuldar of the village and enquired into the matter. 2. The amuldar states that the channel excavated by him could not be of any inconvenience to the complainants and that he is willing to wait on the Nagore Resident to prove this fact. The Tanjore Resident informs him that he is sending the Amuldar who bears this letter.	87-8

2-8-85	Arrears due to the Company. From Mr. John Chamier, Secretary in the Military and Political Department. 1. The Resident is informed that in regard to the claims made by the Nabob against the Raja the Court of Directors have issued instructions after full consideration of every fact relating to them and that he should negotiate with the Raja in order to give effect to the orders of the Company. 2. He should ascertain the exact amount of the revenues of the country of Tanjore; the balance of subsidy due to the Company from the Raja; the extent of arrears of peshcush due to the Nabob by the Raja. On obtaining adequate knowledge on these points, he should proceed to arrange payment of the annual subsidy to the Company and to liquidate by "equitable instalments" the balance due to the Company and the Nabob. 3. The Governor and Council consider that the Raja is placed in a position such as "to provide for the payment of arrears due and the punctual discharge of the annual subsidy to the Company." It is therefore incumbent upon him to meet these "just and reasonable demands unequivocally and on the best security . . . the same security should be given for clearing off annually certain proportion of the arrears of peshcush and for securing the punctual payment of it in future, as is to be required for the Raja's share of the expenses of the Military establishment."	95-7

	Treaty		
2-8-85	The Nabob, the Raja and the Company. From Mr. Alexander Davidson, Governor of Fort St. George to the Raja.		99-125.
	1. The letter opens with an announcement of his accession to the Governorship and dwells on the expediency of drawing up a treaty between the Nabob of the Carnatic, the Raja of Tanjore and the Government at Fort St. George "on this principle of equity that all the contracting parties shall be bound to contribute jointly to the support of the military force and garrisons as well in peace as in war."		
	2. The revenues of certain districts belonging to the Raja as well as to the Nabob, should be assigned to the Company to whom the charge of the defence of the coast must be exclusively entrusted, with the power to enter upon and possess them in the event of failure or default of such payments.		
	3. In case of hostilities against the territories of either of the parties on the Choromandel coast these revenues shall be appropriated "as one common stock" in the common cause of their defence. The Company engages to refrain from appropriating any part of the revenues to any commercial purposes but for the purposes of the war, save only the ordinary charges of their Civil Government. The Raja and the Nabob should not apply their revenues for purposes other than is absolutely necessary to carry on their Civil Government.		
	4. The Governor points out the strict necessity for "the early putting the finances of the several powers upon clear footing;" the whole aggregate revenue of the contracting parties should be "under the application of the Company" for purposes of war giving the respective powers the usual authority for the collection of their revenues in their respective territories.		
	5. In order to avoid all unnecessary expense the Nabob and the Raja should maintain such troops as shall be necessary for the support of his dignity and the splendour of his darbar.		
	6. Although the Directors are pleased to waive the Raja's share of the expenses of the late war, it is not their intention to "affect the just claim of the Nabob" upon the Raja on account of arrear of peshcush.		
	7. The latter part of the letter deals with the decision arrived at by the Court of Directors on the four points:— (a) Whether the Arni Jaghir should be in possession of the Raja or the Nabob or the descendants of Tirumal Rao. (b) Whether the fort of Hanumantagoody should be possessed by the Nabob or delivered to the Raja. (c) To whom the Government share of the crop of the Tanjore country for the year 1765 properly belongs.

	(d) Whether the Raja has a right to repair such part of the anicut or dam or banks of the Kaveri river as lies within the district of Trichinopoly.		
	8. To the first of these points the Directors opine that the descendant of Tirumal Rao should be put in possession of the jaghir in accordance with the treaty of 1762. The second and third points they determine in favour of the Nabob and regarding the fourth they decide that the Raja should be allowed to obtain materials necessary for the repairs from the Trichinopoly side.

	Military Surgeons		
9-8-85	Allowances. From the Secretary in the Military and Political Department. The G.O. states that the medical allowances granted to the Military Surgeons specified in the general orders of the 17th instant are in lieu of the subsistence money and of every other charge excepting a monthly charge of Pag. 5 for house rent which is to be allowed where no quarters are provided.		135-8
	Military Charges		
10-8-85	Claim for payment. From the Deputy Secretary in the Military and Political Department. 1. The G.O. states that in respect of demands on the Company incurred previous to 31st August 1784 no payments shall be made after 15th October 1785. In future all Paymasters shall maintain registers for the purpose of making entries of certificates or chits presented to them by officers of troops and non-commissioned and private persons, in the form prescribed by the Military Paymaster-General who shall periodically inspect them. 2. The Governor and Council direct that all claims not on account of pay, batta and allowances such as hospital charges, bullock hire, victualling the troops, contingent charges etc., must be presented to the Paymaster's or other persons on whom the demand is made or where the charge was incurred, to be entered in a separate register kept for that purpose and forwarded with the general abstracts to the Military Paymaster-General.		141-50

	Tanjore Garrison—cont.	
	H.M. 78th Rt. and the gratuity and half batta allowed to the acting Surgeon do not appear to have the sanction of the military regulations or those established for the payment of the King's troops.	
	2. He reports detection of a considerable irregularity in the accounts under the head of 'Charges—Hospitals.' The 78th Rt. and every other corps indents for a quantity of oil amounting to Pag. 140 per month which admits of retrenchment. The establishment of hircarrahs and peons working under the Commandant and the Resident has been reduced.	
	3. The accounts relating to the expenses for fortifications were mixed with those for the repairs carried out to the military quarters, in so much that the exact amount under each head could not be clearly stated. He suggests that it would be advantageous to purchase the residence now occupied by the Resident instead of paying a monthly rent for it.	
	4. The Resident enquires the rate of interest to be allowed on notes issued by his predecessor in lieu of money advanced to him for the public service during the late war.	
	5. He expatiates on the disadvantages of the exchange of pagodas and gold fanams; the Company's accounts are kept in and the Raja's subsidy reckoned in star pagodas while the currency of the country in which the Raja's payments are always made is the gold fanam. The exchange is manipulated by the shroffs of the country invariably in their favour and to the detriment of the Company.	
	6. To overcome this evil it is suggested that the Raja should coin star pagodas to an extent at least equal to the amount of the annual subsidy.	
	7. As much as Pag. 10,000 are expended within less than half a year by way of transport charges of powder and gun carriage from Negapatam to the garrison at Tanjore and Trichinopoly. To curtail this expenditure the Resident requests the Governor and Council to adopt his suggestion of making some of the heaviest articles of military stores as cheaply at Tanjore and Trichinopoly as at Madras and Vellore.	
	8. Even though this arrangement would involve the employment of the artists from the latter places, he conceives the extra expenditure would fall short of what is now incurred by the conveyance of the stores by sea from Madras to Negapatam and from thence to this place.	
12-8-85	Military Bills (The writer and the person to whom this letter is written are not known.) In respect of bills sent to him for payment the writer enquires whether they include the charges on account of the regiment which has left Tanjore for Negapatam and other places, in addition to those on account of the regiment at Vallum.	173-4
14-8-85	Treaty Negotiations with Tanjore. To the Secretary, Military and Political Department. 1. The Resident acknowledges his letter of the 2nd instant and promises to open immediate negotiations with the Raja and bring them to a "successful issue by obtaining the Raja's acquiescence in a treaty" to be formed upon the grounds contained in the above letter.	177-81

15-8-85	Slaves Devicottah farm. From the Governor and Council. In respect of certain slaves employed in the cultivation of some lands in the village of Achaporam in the Devicottah magan and who have been detained in the Sheally magan, the Resident is directed to represent the matter to the Raja and request him to take steps to send them back to the village "they properly belong to in the Davicottah farm."	183-92
18-8-85	Military Surgeons Allowances. From the Deputy Secretary, Military and Political Department, enclosing a G.O. The G.O. states that in future the Surgeons and their mates of H.M. forces, shall receive in lieu of King's pay, medical money and other emoluments whatsoever, the same allowances as are granted to the Surgeons in the service of the Company, agreeably to the Medical Regulations issued by Government on the 14th October 1784. Medicines shall be supplied to the Surgeons on their indents to Superintendent of Medical Stores at Fort St. George "and the soldiers shall be subsisted by them while in the hospital agreeably to the regimental regulations."	193-8
19-8-85	Military Charges Mode of payment. From the Deputy Secretary, Military and Political Department, enclosing a G.O. 1. The G.O. directs that in future separate chits should be presented by all the officers in the military service in respect of their pay, gratuity, subsistence allowance, house-rent allowance, peon allowance and oil allowance; those who are entitled to draw batta are also to draw a chit for it separately. 2. The G.O. states that from 1st December next all officers at Madras belonging to the garrison or employed there on duty will draw their pay with the corps to which they respectively belong.	201-6
20-8-85	Muster Masters Appointment of. From the Secretary in the Military and Political Department, enclosing a G.O. After directing the appointments of the Muster Masters and fixing their stations, the G.O. states that the contract for feeding the horses of the 23rd Rt. be reduced to that now established for the Native Cavalry which is Pag. 6 per month for each horse, the former allowance of Pag. $\frac{1}{2}$ per month for repairs of accoutrements is to be continued.	209-15

disapproves of the allowance of batta to the King's Paymasters which is no longer to be paid at Tanjore. They direct a deduction from the allowance of the acting Surgeon of the 78th Rt. as suggested by the Resident and approve of the continuance of the subsistence allowance to the family of Tirumal Rao.

2. The Governor and Council declare the interest to be granted on the notes issued by Mr. Sullivan, to be 8 per cent. the same as that allowed by the Government on money borrowed by them. They agree to the Raja's plan of coining pagodas in his country provided that the Tanjore pagoda is of equal value to the star pagoda, the stamp only making all the difference. All such pagodas are to be issued to be assayed under the Resident's inspection and every precaution to prevent fraud and collusion, adopted.

Treaty

Negotiations with Tanjore.

221-4

23-8-85

From the Governor and Council.

1. In pursuance of their instructions to negotiate with the Raja in order to conclude a treaty between the Raja, the Nabob and the Company, the Governor and Council issue further instructions in the matter.
2. In respect of arrears of subsidy due to the Company and the balance of peshcush due to the Nabob by the Raja, the Governor and Council point out that immediate advances of cash must be insisted upon. The Resident is asked to represent to the Raja that the allegations of his "losses and sufferings" are of a nature not to admit of a comparison with the heavy demand upon the Nabob on account of the enormous charges of the late war.
3. And when it is considered that under these circumstances the Nabob has signified a "cheerful acquiescence" in what was required of him in view of the financial embarrassment of the Company, it is hoped that the Raja would "see the necessity of coming forward, of discharging immediately the whole of the arrears of subsidy due to the Company and of thus affording a seasonable relief to the pecuniary distress of this Government."
4. They instruct the Resident to use "mild measures" if possible to achieve the purpose, but should he fail to succeed he is called upon to declare to the Raja the orders of Government directing the Diwan to be sent to Madras under proper escort, who, the Board believes, must be "the instigator of resistance to the requisitions" made in the Company's name.
5. In their financial stringency the Government consider it improper to maintain the Tanjore Sibbandy Corps the benefit of whose services is enjoyed by the Raja without paying for them. The Governor and Council therefore resolve that this charge should not any longer be borne by the Company and that it must be represented to the Raja that if he is desirous of maintaining the corps for the purpose of assisting his collections he must henceforward take upon himself to pay for them. If the Raja is reluctant on the point the Resident should intimate the fact to the Governor and Council. Previous to the discharge or the reduction of the sibbandis from the Company's service the arrears due to them have to be liquidated. The Government therefore call for a statement of the arrears in question.

Treaty—cont.

25-8-85

To the Governor and Council.

229-49

1. Reporting on the result of his negotiations with the Raja in order to conclude a treaty between the Nabob, the Raja and the Company, the Resident observes that the Raja had stated in the course of the conference he had with him, that as he had "made to the Company every return of gratitude in his power and invariably adhered to his agreement with them there was no reason to suspect that he would not do the same in future" and this being the case he is unable to understand why they should come upon him with new treaties and engagements.
2. As regards the payment of the balance to the Company the Raja contented himself by saying that the matter was under reference with the Court of Directors and when their decision should arrive he would abide by it. But if the Government of Madras could not wait to know the pleasure of the Court of Directors, the Raja states "he must submit to the wishes of his friends, hoping that they would consider the situation of his country and divide the balance on different years so that he might be able to discharge it without increasing the burthens and distress of his people."
3. If the peshcush of Pag. 4,00,000 was not regularly paid to the Nabob it was because the provisions of the treaty of 1762 was not strictly adhered to and the fort of Hanumantagoody of which the Raja stood possessed, was not restored to him by the Nabob. As a result of this a part of his country producing a revenue of a lakh of pagodas a year is lost to him notwithstanding a considerable loss in the revenues on account of the war. Under these circumstances, the Raja pleads his inability to clear off the balance of peshcush due to the Nabob.
4. The Resident proceeds to relate "all that was urged on his part and the ineffectual efforts made to induce the Raja to a disposition more favourable to the determination of the Company." He had repeatedly assured the Raja that it was not the intention of the Company or the Governor and Council "to exact from him the payment of the arrears sooner than his country would bear but to form such an arrangement for that purpose and for the payment of the current subsidy and peshcush as should be suitable to his actual revenues, looking forward to their progressive improvement."
5. The Raja expressed a hope in reply that he (the Resident) would put forward his representations to the Board, particularly his request for the institution of an inquiry into the possession of the fort and district of Hanumantagoody of which he had documentary evidence to prove that it belonged to him prior to 1776 when the treaty was concluded.

To the Governor.

The Resident reports that he was informed by the Raja that during the time of the Governor Lord Macartney he (the Raja) was in receipt of some presents from Poona and in return he sent through his servant certain presents with the consent of the Governor. The servant returned three days ago from Poona with no letter or presents from that

29-8-85	Brigade Majors Allowances. From the Deputy Secretary in the Military Department, enclosing a G.O. The order states that the Governor and Council are pleased to fix certain allowances for the Brigade Majors.	257-62.
31-8-85	Military Appointments From the Secretary in the Military and Political Department, enclosing a G.O. 1. The order announces the re-appointment of Col. James Copper as Commissary General; that the sick belonging to His Majesty's Regiment on duty at Madras and who could not be cured in their barracks are to be sent to the General Hospital under the absolute control and directions of the Company's Surgeons of that hospital. 2. Messrs. Alexander Mein, George Ogilvie, Alexander Anderson and George Anderson, Assistant Surgeons are to remain upon their present pay and allowance until they attain the rank of full Surgeons.	265-70.
2-9-85	Military Cash Supply of.	273.
18-9-85	From the Secretary, Military and Political Department. The Resident is directed to furnish the Paymaster of the Southern Forces with a sum not exceeding Pag. 5,000 for discharging some of the sepoys as ordered in G.O. of the 23rd ultimo.	361-2.
2-9-85	Military Payments Porto Novo pagodas. To the Military and Political Secretary. The Resident encloses a letter from Col. Stewart complaining against the payments being made to the 78th Rt. in "Porto Novo pagodas at a discount of 10 per cent. for stars" while the bazaar exchange for many months is about 14 per cent. The Colonel proposes in his letter that Porto Novo pagodas should be issued, the difference between them and the star pagodas being made up in fanams at the current rate of exchange. But as Porto Novo pagodas could not be issued at a greater discount than 10 per cent. the officers and men have declined receiving them at that rate. The Resident supports the proposal of the Colonel and recommends to the Secretary accordingly.	277-80.
3-9-85	Sibbandis Arrears due to. To Capt. Arthur Crawford, Commandant of the Tanjore Sibbandis. The Resident requests transmission of a statement to be laid before the Governor and Council, showing the arrears now due to the Tanjore sibbandis including the lately reduced battalion, after a part of it has been discharged by the disposal of their certificates.	283.
4-9-85	Treaty Negotiations with Tanjore. To the Governor and Council. 1. The Resident had another conference with the Raja in order to induce him "to acquiesce in the wishes and orders	285-301 303-21

	of the Company." It appears doubtful to him whether any consideration would bring him round to the Company's decision respecting the Fort and district of Hanu-mantagoody or to the payment of the peshcush so long as the Nabob continues to possess them.	
	2. Respecting the immediate discharge of the balance due to the Company, the Raja had expressed his "total inability" to pay any part of it at present; he had already consented to aid the Company with Pag. 1,20,000 which had obliged him to "lay new burdens upon the people and borrow money to advance to the inhabitants for the said and other purposes of cultivation."	
	3. Upon a representation of the difficulties to which the Company were exposed as a result of which they were obliged to reduce a considerable part of the army and thereby in some measure weaken his as well as their own security, the Raja said he would issue a bond payable in a few months if the Resident could procure money upon it.	
	4. The Resident observes that with people, like the Raja, "attached by habit to a system of procrastination and delay, points of this nature cannot at once be effected," but he does not despair of ultimately obtaining from the Raja "whatsoever aid to the public exigencies it may really be in his power to supply."	
	5. As regards the Raja's inability or ability to discharge at once the whole balance or make any immediate payment in part of it, the Resident remarks that his own assertions could not be credited with much veracity. From a knowledge of the accounts of the Raja's revenue prepared recently the Resident is inclined to think that the Raja must have the means of advancing a further sum in part of the balance. But should he pay down the whole of it, it could only be from the treasury "accumulated in former years."	
	6. The Resident concludes by observing that the Raja has taken upon himself the payment for the sibbandis and that he has issued directions for preparing a statement of arrears due to them and which being ready forwards it to the Hon'ble Board.	
5-9-85	Peshwa's Vakil	323
22-9-85	Admittance to the Raja. From the Governor. The Governor states that he is in receipt of a letter from Peshwa Madhoo Row Pundit Perdhan informing him of his having sent by his vackeel Venkat Rao a present of cloths and jewels to the Raja and requesting him to grant to the vackeel a free passport to the presence of the Raja. The Resident is directed, in compliance with this request, to obtain admittance to Venkat Rao on his arrival, to the presence of the Raja.	403
5-9-85	Sibbandi Battalions Cash receipts. Mr. Hippisley issues a receipt in favour of the Resident for a sum of Pag. 3,928-21-0 on account of advances by the Raja's amulders to the sepoys of the sibbandi battalions from 1st March to 5th September 1785.	327

7-9-85	Karaikal Restoration of persons carried off. To M. Le Baron de Penmark de Mawville. The Resident informs him that he will apply to the minister (for he could not have access to the Raja on account of some misfortune in his family) to endeavour and "effect the restoration of the persons who have been forcibly carried away and the exemplary punishment of those who have been guilty of so atrocious an outrage."	331-3.
8-9-85	Currency Exchange. From the Secretary, Military and Political Department. 1. As frequent representations have been made to Government on the subject of the "exchange to the southward" which has been the source of considerable loss to the Company and to individuals for some time past the Secretary intimates that it is the desire of the Board that he (the Resident) will make particular enquiries regarding it and forward them with his opinion thereon as to the manner in which the evils may be remedied. 2. The Resident is informed that when adequate information is obtained, the Board would consult the Nabob and adopt such measures as may be expedient.	335-7.
9-8-85	Slaves Achapuram—Restoration of. To the Governor and Council. 1. In respect of a petition from an inhabitant of Achapuram requesting restitution of certain slaves working on his farm, the Resident states that on the matter being brought to the notice of the Raja, and enquired into by him, he (the Resident) was told that the slaves would be restored, but that he would first submit to the Board that the owner of the slaves had acted "extremely wrong" in selling them to person who was not an inhabitant of the Raja's country and that if this practice was not discouraged there was the danger of a greater part of his country being left uncultivated for want of labourers. 2. The Raja therefore asks him to communicate his request to the Board that instead of the restoration of the slaves, they should remain with the original owner, the full price of them with interest thereon and the amount of every expense incurred on their account, being made good to the person who had purchased them. 3. As the orders of the Board on the subject would involve delay and consequent disappointment to the petitioner, the Resident states he has agreed to the wishes of the Raja on condition that the slaves are to be held in readiness for delivery at the shortest notice.	339-42.
12-9-85	Sibbandis Arrears due to. From Capt. Arther Crawford. In respect of the arrears now due to the Tanjore sibbandis, the Resident is informed that the officers who commanded the Battalion when these arrears became due being removed, the information on the subject is obtained from their vac-keels and the extent of the arrears accordingly computed.	345-6.

13-9-85	New Pagodas Coinage at Tanjore. To the Governor and Council. The Resident states that at his next conference with the Raja he will communicate the directions of the Board on the subject of establishing a mint at Tanjore. Respecting "the plan of coining a new pagoda at Tanjore" he observes that the only safe plan is that of letting the pagoda proposed to be coined, bear the same name and be in every other respect the same as the star pagoda coined at Madras.	349-51.
14-9-85	Kalli Fanams Issue to Military officers deprecated. From the Secretary to Brig.-Genl. Horne. 1. The letter sets forth the hardships experienced by the officers under the command of Brig.-Genl. Horne, in being obliged to receive kalli fanams at 16½ for a star pagoda as a result of which they have been subject to a loss of 12 to 15 per cent. The baseness of the coin has actuated the Nabob's manager to fix the exchange at 18½ for a star pagoda which has not varied since his arrival in these parts. 2. It is stated that the refusal of these officers to accept any more kalli fanams unless issued at the bazaar exchange has rendered "immediate attention" to the question necessary.	353.
15-9-85	Europeans Access to the Raja. From the Secretary, Military and Political Department. The Resident is directed to take "effectual measures" to prevent William Ross, who proposes to visit the Raja of Tanjore prior to his departure for Europe from Tranquebar, having "directly or indirectly any intercourse whatever with the Raja" as the President and Council have resolved to prevent any of the Company's servants or those living under their protection from gaining access to the royal presence unless with the prior sanction of Government.	357-8.
...	Kalli Fanams Exchange—Grievance of Military officers. To the Governor and Council. 1. In regard to the grievance expressed by the military officers south of the Coleroon that they are put to considerable loss in receiving their payments in kalli fanams at a rate of exchange for a star pagoda higher than that of the bazaar rate, the Resident expresses his opinion that the mere lowering of the exchange will not supply the remedy but that a "permanent and effectual remedy" could only be found in the coinage of star pagodas. 2. But some time must necessarily elapse before it could be carried into actual practice and in the meanwhile he suggests that a medium be struck between the Tinnevely and Trichinopoly exchange in order to afford satisfaction to the troops. 3. He is apprehensive "that no good can be expected from such a measure unless the exchange be established in the bazaars and cantonments and the observance of it enforced by the exertion of the united authority of the Company and the Nabob."	363-8.

13-9-85	Ross, Mr. William Access to the Raja prohibited. To the Secretary, Military and Political Department. 1. Replying to his letter of the 15th instant the Resident observes that he will pay the strict attention to the order of the Governor and Council to prevent Mr. William Ross from meeting the Raja either covertly or overtly. He reports that Mr. Ross is on his way to Tanjore and has not yet arrived at that place.	371
20-9-85	———To the Governor and Council. 2. Later he states that Mr. Ross arrived late last night and that an assurance was obtained from him that he would not disobey the orders of the Governor and Council prohibiting him from meeting the Raja. Should Mr. Ross break his promise, the Resident observes that he will be equal to the occasion.	375-7
21-9-85	Karaikal Restoration of persons carried off. To the Commandant of Karaikal. The Resident informs him that one of the persons who were forcibly carried away from the neighbourhood of Karaikal to Tanjore had already returned to his village in consequence of the Raja's intervention at his request. He promises that his hircarah will deliver the others and that the principal offenders will be punished in the most exemplary manner in order to prevent such outrages in future.	383-4
21-9-85	Sibbandi Reduction of. From the Secretary, Military and Political Department. As the Raja has declined to undertake the payment of the sibbandis, the Resident is directed to take steps for their reduction after payment of their arrears.	387
22-9-85	Kalli Fanams Exchange—Remedy of grievances. From Brig.-Genl. Mathew Horne. 1. Commenting on the opinion of the Resident regarding the measures to alleviate the distress of the military officers on account of the higher rate of exchange of the fanam for a star pagoda than the bazaar rate, the Brigadier observes that the bulk of the troops in Trichinopoly have been the sufferers and it is from them that "modest yet frequent representations have been made of the injustice they conceived done them, by the exchange as fixed for issues from the Paymaster." 2. The currency of the fanams in the Tinnevely and Madura districts has never been called in question "but it is a matter of much importance to an officer or to a private in Trichinopoly that while 15½ cally fanams" for a star pagoda "is the rate in those countries whenever since 1 (the Brigadier General) had the honour to command the Southern Troops, 17½, 17¾ and 18¾ has been the rate in that district." 3. As regards the baseness of the coin he remarks that the alloy is considerable and that 19 $\frac{1}{16}$ per cent, is gained inclusive of the charge of coining that money. Alluding to the orders to the people directing them to conform to the exchange fixed for issues from the Company he observes that endeavour was made for this purpose but it was found in vain to overcome the objections to the admission of these fanams in general currency at that rate.	391-7

	Kalli Fanams—cont.	
	4. He differs from the view that the exchange is now more favourable to the troops than the medium for some years past and expresses his surprise that the Resident should conceive that the lowering the exchange would not effect the remedy desired.	
	5. He confesses his inability to investigate the cause for the fluctuation of the exchange but he considers "that if the exchange between a foreign coin and the currency, of any country is brought nearly on a par to the intrinsic and real value of such foreign and current money the variation can never preponderate against the holders of the former" in the manner supposed by the Resident.	
	6. He agrees with the Resident in the suggestion that the only effectual remedy that could be applied is the reform in the coinage of fanams and pagodas. As regards the fixation of a medium of exchange between Trichinopoly and Tinnevely he observes it would be thoroughly inefficacious.	
22-9-85	Waldegrave, Capt. William Cash and bond—Receipt. This receipt is issued by Mr. William Ross on behalf of Capt. Waldegrave in favour of the Raja for a sum of St. Pag. 22,500 and a bond for St. Pag. 12,500 in full settlement of arrears of salary due from the Raja to the Captain.	399
22-9-85	Troops Payment of. To Brig.-Genl. Horne. Commanding the troops south of the Coleroon. The Resident promises to supply him with Pag. 5,000 for payment to his troops in view of the threat of disorderly conduct on the part of those at Trichinopoly and Srivallipatore.	407-8
23-9-85	Tanjore Garrison Cash receipt. 1. This receipt is issued by the Paymaster, Mr. Hippisley, in favour of the Resident for a sum of St. Pag. 7,000 on account of disbursement to the Tanjore Garrison for the month of July.	411
23-9-85	2. A similar receipt for a sum of St. Pag. 5,000 on the same account.	413
24-9-85	Slaves Devicottah farm. From the Sub-Secretary in the Revenue Department. Replying to his letter of the 9th instant, the Resident is informed that as the slaves employed on the farm at Achaporam village in the Devicottah magan, originally belonged to the Sheally magan of the Raja's country, the Governor and Council agree with the Raja that they shall continue under the Sheally renter, the price paid for the slaves with the interest thereon together with other sundry charges incidental thereto being made good to the inhabitants of the Davicottah farm who purchased them.	415-6
25-9-85	Troops Payment of. From Brig.-Genl. Horne. 1. The Resident is thanked for his "unsolicited assistance" of Pag. 5,000 which came in very opportune for the relief of the distressed troops. The Brigadier gives a melancholy picture of the disorderly attitude of the 31st, 32nd and 33rd Rts. proceeding from "tardy and	419-21

25-9-85	2. Replying, the Resident observes that he will not lose more time in complying with his request than is absolutely necessary for the conversion of the fanams into the Porto Novo pagodas.	423-4
	Kalli Fanams	
25-9-85	Exchange—Genl. Horne's dissent. To Brig.-Genl. Horne.	427-33
	1. In replying to the Brigadier's letter of the 22nd instant on the subject of the exchange of the Kalli fanams for star pagodas, south of the Coleroon, the Resident meets the points of dissent expressed in the Brigadier's letter.	
	2. The Brigadier is apprehensive that "this mode of investigation" will not answer the purpose of the Company unless the shroffs are called in to ascertain the actual value of these fanams and the officers or others summoned to establish 'viva voce' the real loss sustained by the troops.	
	3. To this the Resident observes that he is "too well acquainted with the practice of shroffs" and that the officers "have always sustained a loss" while the troops in general "do at present sustain a loss and a very heavy one indeed."	
	4. In the 4th para of his letter the Brigadier observes that "with respect to the pretence of the baseness of the kally fanam . . . it will appear that the degree of alloy is considerable and that 19 $\frac{1}{16}$ per cent, is gained inclusive of the charge of coining that money." The Resident marshals facts which point to the conclusion that the opposition of the shroffs is directed against the kalli-fanam and that the interposition of Government is called for to maintain its footing in the Trichinopoly district as long as it shall be necessary to pay the troops in that coin.	
	5. In the 5th para the Brigadier remarks that in regard to the orders directing every bazaar man, renter etc., to conform to the exchange fixed by the Company, every endeavour for the purpose proved unavailing and that the officers and privates "lost by their common disbursements . . . in general about 9 and sometimes more per cent."; that these losses have not been made good and that the Company may have saved 15 per cent. in issuing that money" viz., star pagodas.	
	6. The Resident agrees that "a gain or saving to the Company of 15 per cent. arising from the losses of the troops . . . would be unwarrantable" but he points out that the "idea of the Company having derived gain from the losses and distresses of the troops . . . would be equally injurious to the credit and intentions of Government and to those of the gentlemen lately entrusted with the management and issues of the revenue."	
	Tanjore	
26-9-85	Arrears of subsidy. From the Secretary, Military and Political Department.	439-41
	1. The Resident is requested to "urge upon the Raja to an immediate acquiescence in the wishes of Government for a pecuniary supply" and represent to him that nothing less than an immediate settlement of the arrears of subsidy can satisfy the Company. Should the Raja delay in making the payments the Company in its present financial embarrassment would be compelled to "have recourse to conceive measures to secure and realise the Raja's debt."

	Mutiny	
2-10-85	Indian sepoys—Suppression of. From the Deputy Secretary, Military and Political Department, enclosing a G.O. The G.O. expresses a "full and public appreciation" of the zeal of the officers and men responsible for the suppression of the mutiny that broke out among the men of the native corps, south of the Coleroon on account of the prolonged delay in the payment of the salary and allowances.	459-65

4-10-85	2. Later he again complains of plunder having been committed by the poligars dependent on Tanjore and requests the Resident to take effective measures to prevent such depredations.	471-3
	Kalli Fanams	
4-10-85	Exchange—Orders. From the Secretary, Military and Political Department.	475-6
	1. The Secretary intimates to the Resident that the Governor and Council have considered the observations of the Resident, the Superintendent of Revenue at Trichinopoly, and Brig. Genl. Horne, on the subject of the considerable loss experienced by the officers and men in the military service, south of the Coleroon, in receiving cally fanams at a higher rate of exchange for a pagoda than the rate prevailing in the bazaars.	

Date.	Abstract.	Page number.
	Kalli Fanams—cont.	
	2. The Governor and Council are convinced of the necessity of establishing a mint for the coinage of star pagodas at Tanjore and desire the Resident to represent to the Raja that no time should be lost in carrying the plan into execution.	
5-10-85	Military Cash Remittance. To Mr. Palk.	479
	1. The Resident remits to him a sum of 11,000 Porto Novo pagodas at 10 %, the rate at which they are issued at Tanjore to the King's troops.	
5-10-85	2. A copy of this letter is forwarded to the Brig-Genl. Horne.	481
	3. Mr. Palk replying requests the Resident to remit to him at once, if not the full amount at least as much as it is in his power to do, as he (Mr. Palk) is particularly anxious to meet the wishes of Government in clearing off the amount due to the discharged sepoy.	487
6-10-85	Military Supplies Interference of the Raja's people. To Brig-Genl. Horne.	491-3
	Replying to the Brigadier's letter of the 4th instant, the Resident informs him of his unsuccessful endeavours to negotiate with the Raja to put an end to the complaints against the Raja's people of stopping the necessities reaching the military officers at Trichinopoly. Nevertheless he promises to continue his overtures with the Raja until he shall meet with success.	
8-10-85	Cash Remittance From the Secretary, Military and Political Department.	495
	The Secretary requests the Resident to remit a sum of current Pag. 1,248-36-50 to Mr. Irwin at Trichinopoly.

	1. This receipt is issued by Mr. Hippisley, the Paymaster in favour of the Resident for a sum of St. Pag. 2,000 for the disbursements on account of the garrison at Tanjore.	
8-10-85	———From Mr. Palk at Trichinopoly.	501
	2. In this letter Mr. Palk acknowledges receipt of 11,000 Porto Novo pagodas, "the current exchange of Tanjore about this time of its despatch being 15½ per cent."	
9-10-85	Tanjore Arrears due to the Company. To the Governor and Council.	505-11
	1. The Resident reports the result of his numerous interviews with the Raja in order to induce him to clear off the arrears to the Company. He represented to the Raja in as pointed a manner as possible "the very critical state of the Company's affairs" and the discontent of the troops which had manifested itself in serious rioting at Shrivalliputtur and Trichinopoly on account of the heavy "army arrears." At this juncture when every pagoda in the treasury had to be applied to the payment of the troops and "even trade and investment were made to yield to this great object" it was of the utmost consequence that the Raja and the Madras Government should pull together.	

Date.	Abstract.	Page number.
	Tanjore—cont.	
	2. To this the Raja's Minister repeatedly mentioned that in the present circumstances, when the Raja being prostrated with grief owing to the loss of his beloved grandson and of the falling revenues of the country, the utmost that the Raja could do was to "allow the balance and discharge it by degrees as the state of his revenues should permit." As to advancing any part of it at present it was altogether out of the question. Regarding "the arrears of peshcush and the proposition for a new Treaty" the Minister replied that the Governor had been made fully acquainted with facts.	
	3. On being pressed again the Raja with great reluctance agreed to pay Pag. 60,000 "which added to Pag. 1,20,000 already paid would make the sum of 2 lakhs of the arrears." This was his last answer which he could not alter "whatever might be the consequence."	
	4. The Resident proceeds to confess his "sincere opinion and belief that it cannot be in the Raja's power to pay down so large a sum as one half of the amount of the arrears of subsidy and that the whole with the current of 4 lakhs and the amount of the Raja's expenses would together form a sum that in the present state of the country could not be drawn from it in the space of 6 months by any means whatsoever." He promises to lay before the Resident and Council a general account current with the Raja from the period of his restoration to the present time.	
11-10-85	Paymaster's Registers Closing date. From the Deputy Secretary, Military and Political Department, enclosing a G.O. The G.O. states that the closing period of the Paymaster's registers is extended up to 31st instant when they will be finally closed.	515-9

	1. Mrs. Wood, the widow of Col. Wood, in her petition to the Court of Directors, importunes their interposition with the Raja of Tanjore, for the payment of a sum of money alleged to be due to her deceased husband from the Raja on account of a certain sum of money advanced by him to the Raja's troops who were under his command during the war with Hyder Ali.	
	2. They direct the Government of Madras "to take effectual means to procure immediate payment of the demand," should they be convinced by the documents, if any, in their possession, of the claims being "as strongly founded in justice as is stated in the application."	
	3. The Secretary requests the Resident to make the necessary application to the Raja in support of Mrs. Wood's claim and to report the result as soon as possible to the Board.	
19-10-85	Tanjore Arrears due to the Company. From the Secretary, Military and Political Department.	539-40

	Sibbandis	
23-10-85	Reduction deprecated. From the Raja of Tanjore to the Governor.	543-47
	1. The Raja requests the Governor not to reduce or abolish the sibbandi corps as it is of considerable help to him; his revenues are properly collected by it and his authority respected by the poligars and others.	
	2. During the time of Lord Pigot it was settled by a treaty that he (the Raja) should pay four lakhs of pagodas "in consideration of the expense the Company would incur from protecting his country; and that five of the battalions should be stationed in it." The Governor is requested to give full consideration to all the facts and withdraw the order reducing the establishment of sibbandis.	
29-10-85	———From the Raja.	601-3

25-10-85	Settlement of dispute. To M. Vinay, acting Commandant at Karaikal. The Resident reports that he has been endeavouring to prevail on the Raja's Minister to adjust to satisfaction the complaint brought to his notice. Consequently the renter of Mayavaram is now "despatched with orders to settle the juncam of Collicherry in an equitable manner" so as to leave the Karaikal merchants no just cause of complaint in future.	561-2
	Sibbandis	
25-10-85	Arrears due to. From the Paymaster, Mr. Hippisley. The Paymaster reports that he is forwarding some bills for the Resident's acceptance to enable him to completely clear off the arrears due to the sibbandis.	565-75

26-10-85	Exchange—Porto Novo and Star pagoda. From Mr. Hippisley. 1. The Resident is informed that the Regimental Paymaster requires the balance, viz.—the difference between the bazaar exchange of the Porto Novo and star pagoda "on the last distribution" as it prevents him from closing the accounts. 2. Mr. Hippisley is apprehensive that the same difficulty will be experienced "in the ensuing distribution unless paid at the bazaar exchange or in star pagodas." Mr. Porcher believes that it is the Governor's wish that "the exchange should be accommodated to prevent future reference."	577-8

28-10-85	Sattanpalcour village. From M. Vinay, Officer Commanding Karaikal. 1. The Resident is requested to enquire into the injustice of the renter of Kallonmakandy and secure to the inhabitants of Karaikal their rights. 2. M. Vinay complains that the village of Sattapalcour belongs to the Raja as well as the right to repair the bank of the river in that village. The renter of Kallonmakandy in which farm this village is included has neglected the repair of the river bank as a result of which "the mischief which may result from inundation" is severely felt by the inhabitants of Karaikal in the neighbourhood of the river. He requests the Resident not to delay an act of justice of the greatest consequence to the inhabitants.	593-5 597-600
29-10-85	———Manamutti. To Mr. Mainville. 1. The Resident states that it has been represented to him by the Raja that the inhabitants of Kuruvagi in the Manamutti district have lately filled up the old watercourse south of the Tirumalai Rasen river and excavated a new one in the limits of Manamutti, to the detriment of the Raja's people. Also a canal which ran to Polagam Servai and Agraharan Kottapadi is stopped thereby flooding all the fields. 2. Mr. Mainville is therefore requested to induce his inhabitants "to restore the watercourses to their former situation."	605-6

On a piece of ground near the Kadupuliam pagoda belonging to the Nabob, the Raja's subjects have planted oil seeds, nelleky plantains, blind cane etc. As this encroachment has no authority the Fouzdar states that it is necessary that "the Tanjoreans be ordered to make restitution of whatever sum of money they may have received from the sale of the said plantains."	617-9
30-10-85	Irrigation Repairs To the Military Secretary. The Resident states that the "small anicut or dam mentioned in the Raja's complaint" is really in need of much repair and that Mr. Irwin at Trichinopoly has given positive directions to the renter for the purpose."	621
30-10-85	Porto Novo Pagodas Exchange rate. To the Military Secretary. The Resident enquires the rate of exchange at which he should issue the Porto Novo pagodas to the King's troops "as they still object to receiving them at 10 per cent., the current exchange being at 14½." He hopes that the establishment of a mint at Tanjore will put an end to these difficulties.	623-4
30-10-85	Tanjore Arrears to the Company. To the Military Secretary. 1. The Resident reports he has not yet been able to procure a conference with the Raja on the subject of Mrs. Crock's claims, though he has promised to appoint a day for the purpose. 2. Upon informing the Raja that he (the Resident) was directed to receive the sum which he agreed to pay in part of his balance, he (the Raja) desired to know whether the Board has agreed to "the other part of his proposition," viz., to pay one lakh of pagodas per annum of the remaining balance till the whole should be liquidated. 3. To this the Resident answered he was ignorant of the Board's sentiments on the point but that he could assure the Raja on behalf of the Governor and Council that they could not possibly lend themselves "to so inadequate a premium" for the discharge of his arrears of subsidy.	625-8
31-10-85	Irrigation Dispute Mellour. To Brig.-Genl. Horne. 1. The Resident reports that the Raja has brought to his notice a complaint against the inhabitants of Mellour regarding the water channel running between the Tanjore and Trichinopoly countries. 2. The repair of the river bank is incumbent upon the Mellour residents, according to established usage; and their indifference has rendered it necessary to put it in a state of good repair. 3. The Raja took upon himself to protect the bank by planting oil seeds, reeds etc., and keeping a guard at that place, which being resented by the Mellour people, the matter was brought to the notice of the Fouzdar in order to clear the place of the guards and let them be in possession of it. The Raja earnestly desires that Genl. Horne may see that the dam or bank may be immune from the interference of the Mellour people.	633-43

1-11-85	Sibbandis Discharge of. To the Raja of Tanjore. The Resident informs the Raja that a copy of his note was despatched to the Governor and Council immediately on receipt and that he has no doubt they will send him a reply in a few days. 4-11-85	Tourgoody Kallars Disturbances. From Brig.-Genl. Mathew Horne. 1. It is a constant practice with the Colaries of Pulakuddy and neighbouring villages in the Tanjore District, to plunder those of the Tourgoody village in the Trichinopoly district. This has been the subject of correspondence between the Raja and the Nabob, "both tenacious of their rights and equally jealous of each other." 2. The Colaries of Pulakudy having lately carried off "some cattle and other effects" from the Trichinopoly country, the latter were seized and brought back along with some other cattle belonging to the Raja's villagers. The Raja has thereupon sent a letter to the Nabob's manager claiming restitution of the cattle belonging to his people. 3. The Brigadier says he forwarded this letter to the Nabob's manager who has asked him not to give protection to any of the Raja's people.	683-5

Payments to.

From the Military Secretary.

Replying to the Resident's letter of the 31st ultimo, the Secretary states that the notes sent to him will be exchanged for the Company's Bonds at the usual rate of 8 %. As the money advanced by Mr. Schwartz was considered as an aid to the Raja to enable him to pay the subsidy, the Board is of opinion that the Raja should pay an additional interest of 4% on that loan. It also approves payment of the arrears due to Rev. Mr. Schwartz as soon as the state of the treasury at Tanjore permits.

Sibbandi

Reduction of.

From the Secretary, Military and Political Department.

The Resident is informed of the orders of the Board directing immediate reduction of the sibbandis and the establishment of another battalion of sepoys at Tanjore in order to obviate the inconveniences apprehended by the Raja in the matter of the collection of revenue.

Tanjore

Arrears due to the Company.

From the Secretary, Military and Political Department.

1. The Secretary states that the Resident should insist on the immediate advance of the Pag. 80,000 which the Raja had promised in payment of the arrears of his subsidy.
2. Should opposition be encountered in this respect the Resident is requested to send the Raja to Madras. The Board declines to accept the Raja's offer of discharging his arrears of subsidy at the rate of a lakh of pagodas per annum.

Military Officers

Temporary allowances.

From the Deputy Secretary, Military Department, enclosing a G.O.

The G.O. states that the temporary allowances granted to officers of the cantonment at Arcot shall cease from the 31st December next from which date certificates for the temporary allowances to officers at Warriore and in all the out-garrisons where half batta has been usually allowed, shall be granted to the Paymasters in lieu of cash. These certificates shall be discharged as soon as the state of the Company's treasury will admit.

Abstract.

Irrigation Dispute

Karaikal.

From Mr. E. W. Fallowfield to Mootia Pilla Amildar of Adambar Padam.

1. Mr. Fallowfield desires Mootia Pillai to send him a "number of husbandmen in the neighbourhood of the dam of Carvattoodapoo" who might furnish the necessary information regarding the dam leading to the settlement of the dispute between the inhabitants of the Raja and the residents of the French village in the neighbourhood.

12-11-85

From Mr. Fallowfield to Sheshapiah the agent of Mootia Pillai.

2. Mr. Fallowfield writes to him asking him to send "some of the principal husbandmen, well informed persons in the neighbourhood of this dam at Karaikal" where some of the inhabitants of the French territory living in the neighbourhood of the dam have been directed to meet him.

Irrigation Dispute

Karaikal—Enquiry.

To the Governor and Council.

The Resident solicits the approval of the Governor and Council for his action in "having requested the assistance of Mr. Fallowfield" in the settlement of the dispute between the French residents at Karikal and the Raja's subjects regarding a water channel at that place.

771-3

Wood, Mrs.

Claims on the Raja.

To the Governor and Council.

1. The Resident reports that he had another conference with the Raja who proved thoroughly uncompromising on the subject of Mrs. Wood's claims. He owned that Col. Wood did advance a sum of money to his troops as did a host of the sowcars, but most of the treasure out of which he intended to discharge the debts were seized by the Nabob and were never restored.
2. Upon this Lord Pigot observing the destitute condition of the Raja held that all the debts he had contracted prior "to the capture of Tanjore became void by that event." The Raja contends, therefore, that the claims of Mrs. Wood is inadmissible. The Resident observes that it has come to his knowledge that "the Raja is jealous of any interference on the part of the Company with respect to his private debts."
3. As to the promised payment of 80,000 pagodas in part of the balance of subsidy the Raja said that "before it would be in his power to procure the sum" it would be necessary for him to know the Board's determination with regard to the liquidation of the remainder, for until this was ascertained he was afraid that no one would come forward to lend him money or have confidence in his promise of repayment, or "the sum which he may wish to appropriate to that purpose would also be demanded by the Company."

	Wood, Mrs.—cont.	
	4. Regarding the reduction of the sibbandis the Resident reports that the Raja had urged him to suspend the execution of the orders of the Board whom he would entreat to consider that with the abolition of the sibbandi corps he would be deprived of an agency to collect his revenue. The Raja was told that the discharge of the sibbandis was already long delayed and that he could not with propriety suspend the execution of the orders of Government.	
	5. The whole corps has assembled from the country and the arrears of its pay and clothing is arranged to be paid in bills at 6 months' sight, and they will thus be discharged in a day or two. The Raja has not yet taken into his service the discharged men and the Resident apprehends it will be necessary to place detachments of regular sepoys all over the districts as was done previous to the establishment of the sibbandi corps.	
	6. With regard to the establishment of a mint for the coinage of star pagodas the Raja desires a set of stamps just like those used in the Madras mint and some persons employed in that mint "to put the business in train."	
13-11-85	Military Cash Receipt. This receipt is issued by the Paymaster Mr. Hippisley in favour of the Resident for a sum of St. Pag. 13,700 on account of the expenses for the garrison for August 1785.	809
14-11-85	Passports Veera Pillai. From Capt. Edward Fergusson at Trichinopoly. 1. He requests the indulgence of the Resident to order his man, by name Veera Pillai, "a general passport from the katcheree."	811
18-11-85	2. Replying the Resident states "that it is impossible to procure a general passport for an individual."	825
14-11-85	Irrigation Dispute Karaikal. From Mootia Pillai, Subadar of Adambar Padahum to Mr. Fallowfield. 1. In connexion with Mr. Fallowfield's journey to Karikal in order to decide a dispute regarding a river bank or dam between the French inhabitants of the place and those subjects of the Raja living in the neighbourhood of the river, Mootia Pillai states that he has directed his carbarry (or agent) named Sheshapia together with an individual by name Ayaswami and a hircar to show him "everything from the beginning of the dam of the said river."	815
16-11-85	———From Mr. Fallowfield to the agent of Mootia Pillai. 2. The agent is informed that before his reply was received at Karikal "the water of the dam had opened itself a passage through the bank" and on account of the impassable condition of the roads he would not visit the site. Mr. Fallowfield states that nevertheless owing to "business of consequence" he has to return to Negapatam.	821
18-11-85	Troops Payment of. From the Military and Political Secretary. The Resident is informed that "the Board expect to hear that he (the Resident) has received the Pag. 80,000 upon which they have dependence for the ensuing payments to the troops."	827-8

Date.	Abstract.	
18-11-85	Sibbandis Reduction of. From the Governor to the Raja. 1. The Governor states that the Raja is aware of the present state of the Company's affairs "which requires every possible reduction and retrenchment." The Board was therefore led to reduce the sibbandis, but a mode of preventing it was suggested by taking upon himself the payment of them, to which, however, he did not agree. 2. A battalion of sepoys has been provided at Tanjore for the purpose of collecting the revenues of the country, and the Governor believes "they will be amply sufficient for all purposes as he (the Raja) will take into his service as armed peons most of the sibbandis . . . at much less expense than the Company could retain them upon their present establishment."	832-3
19-11-85	Bonds Transmission of. From the Secretary, Military Department. The Secretary transmits bonds for Mr. Schwartz and Mr. Pole and instructs the Resident to pay interest at 8 per cent. and a premium of 4 per cent., the latter being charged to the Raja's account.	835
25-11-85	Tanjore Arrears of subsidy. To the Governor and Council. The Resident states that he had a conference with the Raja as a result of which he could entertain no hope of being able to obtain the whole amount of the arrears of subsidy in so short a period as six months. Of the promised payment of Pag. 80,000, only Pag. 30,000 has been received this day the balance being cleared in instalments of Pag. 10,000 the next day; Pag. 20,000 on the 1st December and Pag. 20,000 on the 9th December.	837
25-11-85	Sibbandi Disbandment of. To the Governor and Council. 1. The Resident reports that the sibbandis have been discharged and about 600 of them entertained by the Raja. Regarding another battalion being stationed at Tanjore to assist the revenue collections, the Raja desires that the Europeans may not be permitted to go with the sepoys into the district as he is apprehensive of a recurrence of the disputes that formerly subsisted on that account. 2. As to the payment of batta to the sepoys when employed in assisting the collection of revenue the Raja objected in the most strongest terms saying that he was not to be charged with anything more than 4 lakhs of pagodas which he had stipulated with Lord Pigot to pay for the protection of his country. In this connection the Resident mentions that the late corps of sibbandis received no allowance of any kind besides their pay of 20 gold fanams per month. 3. There are no accounts at Tanjore to show whether or not the sepoys formerly employed in collecting the revenue were granted batta, but as provisions are cheaper in the districts than at Tanjore, the Resident observes that "they can have no claim to such an indulgence in time of peace except what might arise from custom."	843

29-11-85	Irrigation Dispute Karaikal. From Mr. Fallowfield at Nagore. Mr. Fallowfield submits a report of his investigation into the dispute between the French inhabitants of Karikal and the Raja's subjects regarding a water channel which flows on the borders of the French territory.	849-52

The G.O. states that all orders in respect of stores, received by the "Commanding Officers, store-keepers, and others of the subordinacies, outgarrisons and cantonments" from the Committee of Stores be regarded as having the same force as issued by the Governor and Council and that in future indents and applications be transmitted to the President and members of that Committee.	881-6
5-12-85	Tanjore Frontier Guards. From Brig.-Genl. Horne. The guards placed by the Raja on the banks of the river between the Tanjore and Trichinopoly countries with a view to protecting his country have been the subject of correspondence between the Raja and the Nabob. The Brigadier states that he will readily place a guard of the Company's sepoys in their room and thereby prevent any further cause of complaint.	889-90

7-12-85	Troops Employment in collection of revenue. From Mr. John Chamier, Secretary in the Military Department. The Secretary communicates the orders of the Board that the Raja should pay batta to the troops employed in the collection of revenue. They consider the 4 lakhs pagodas agreed to be paid by the Raja as only towards the expenditure incurred by the Company in the defence and protection of Tanjore. 11-12-85	Military Cash Paymaster of Trichinopoly. To Brig.-Genl. Horne. 	Lamballais, Mrs.	
13-12-85	Grain—Claims for compensation.	961-4
	To the Military Secretary.	
	The Resident reports that on examining the evidences brought by Mrs. Lamballais in support of her case that the Raja's people seized her grain and that therefore compensation was due to her, it was only clear that she was in possession of a quantity of paddy and that he could not gather how much of it there could have been. The Minister as before "opposed to it an absolute denial of the fact that any grain whatsoever had been secured by the Circar."

	Replying to Mr. Smith's letter of the 20th instant, the Assistant, on behalf of the Resident, states that efforts to prevail on the Raja to issue a general passport for carrying duty free all necessaries belonging to officers have proved fruitless, and that "the utmost he can do is to obtain a pass for any officer's things upon previous application being made to him."

The Resident acknowledges the letter of the Commandant of the 19th instant setting forth the claim in regard to certain boats and states in reply that it appears to him extraordinary that "during the space of four years that they lived under the English Government, subsequent to the period when the boats are alleged to have been sent from Tranquebar." They must have failed to prefer their claim which the Commandant urges on their behalf.	1043-4

He requests the Secretary to obtain the orders of the Governor and Council in respect of the claim in question.	55-6
26-1-86	Tanjore Payment of arrears. From the Raja to the Governor. 1. The Raja states that Mr. Oakes paid him a visit on the 22nd instant and delivered to him the letters which the Governor and the Governor-General had the kindness to write to him. The purport of these letters was that the Raja should endeavour to clear off the balance of subsidy to the Company, and the arrears of peshcush due to the Nabob and should share the expense incurred in the protection of his own possessions, that of the Company's and the Nabob's in the time of war. 2. To the first part of the request the Raja observes that he had endeavoured to the utmost in his capacity to pay off all arrears to the Company but that he has "no resource equal to this weight." Such being the case the Raja asks how he will be able to sustain them "if His Excellency thinks proper to heap up heavier burthens upon him." 3. As regards the payment of the Nabob's peshcush, the Raja points out it was expressly agreed to be made on	59-64

	Tanjore—cont. condition of the two districts of Arnee and Hanuman-tagoody being delivered to him. The question has not yet been settled nor has the peshcush been paid. The Raja insists that his attitude should not be misread as a refusal to pay the peshcush and if the Governor is impatient to await the arrival of news on the subject, from Europe, he would have the Nabob laid before the Company on account of the collections in those two districts since they came into his possession and let the amount be brought to his credit. If on enquiry it appears that he should pay any balance to the Nabob he will have no hesitation to making good the same. 4. With regard to the last part of the request the Raja remarks that he had not in the least deviated from the treaty entered into with the Company "nor shall he ever at the time he is paying the Company for what the enemy plundered and carried away."	
30-1-86	Friendship with the Company. From an unknown person to the Raja. The writer states he met Sir Archibald Campbell, the successor of Lord Macartney at this place (Cape of Good Hope) and intimated to him his (Raja's) "situation and apprehensions." A friend of the Company, he points out, may always "depend on the protection of such a character as Governor Campbell possesses." He concludes with the observation that the Raja will do well in all his difficulties to turn to the Resident for "sincere and disinterested advice."	71-2

31-1-86	Resident Comment on Mr. Oakes's visit. To the Governor and Council. Adverting to the action of the Government of Madras in sending Mr. Oakes to interview the Raja "charged with private despatches for His Excellency," the Resident observes that this measure will naturally tend to weaken his influence with the Raja and impress him with an idea that the confidence of the Government is withdrawn. He points out that "the success of a Resident's endeavours here [at Tanjore] for the public welfare, depends in a general measure on the Raja's estimation of his weight and influence with Government."	103-11

9-2-86	Karaikal Imprisonment of Raja's subjects. To the Commandant at Karaikal. In respect of a representation from the Raja that some of his subjects belonging to the Freelachery magan who went to Karikal in order to complain to the Commandant of that place against the inhabitants of their neighbouring villages who deserted their homes and left for Karikal, were confined by the French Commandant, the Resident requests that they may all be released.	139-41

In such a case the Resident apprehends resentment on the Raja's part which would lead him to violent acts regardless of consequences, in which his subjects will join him.	163-79

	Tanjore—cont.	
	2. Instead the Resident suggests that it would be preferable to have the Amildars keep exact accounts of their collections and their remittances to the Raja from whom he could immediately receive them on their arrival.	
	3. The Raja was "hurt and agitated" at the rigorous measures proposed to be enforced for the payment of his arrears and stipulated in most solemn terms to clear them off before the 31st March next.	
	4. Under the circumstances the Resident requests the Board to accord permission "to defer proceeding any further in the execution of their last orders until he shall have been honoured with their answer." He concludes by making a confession that the Raja's affairs are in a very melancholy state and that consistent with his situation he has been endeavouring his best to free himself from all liability to the Company.

The Resident reports that the Raja has complained to him that notwithstanding frequent representations regarding the anicut across the Cauvery and the Company's orders to support his right, the Lalgudy people were still suffered to continue their encroachments "which were extremely injurious to his country" and that all this was the doing of the Nabob "merely to afflict him." The Resident points out that the only effectual way to do the Raja justice in this respect would be for the Board to empower him to arrest the further progress of the dam or destroy it.

New Battalion

3-3-86

Raja's objection to paying for.

300-7

To the Governor and Council.

1. In respect of stationing a new Battalion at Tanjore to be employed at the Raja's wish on the collection of the revenue of his country, the Resident reports that the Raja declined to employ them as he could never consent to pay for them exclusive of the subsidy of 4 lakhs of pagodas and contrary to his agreement with Lord Pigot.
2. At the time the agreement was entered into the Raja was in possession of Nagore, Trivalore, Negapatam and the four magans near Karikal. Now deprived as he was of all these countries, the amount of 4 lakhs of pagodas was still expected from him.
3. In reply the Resident stated that the expenses of protecting the collections was distinct and apart from those of defending the country and that he, the Raja, should pay them exclusive of the 4 lakhs.

He points out that if people came to live under the French flag it is because of the 'lenity' of their Government and requests the Madras Government to persuade the Raja to let them "act upon the principles of recognised equality" and not to "disturb the good understanding which subsists between the two nations."	501-9
	Company's Servants	
13-4-86	Secrecy enjoined on. From Mr. Robert Clerk, Deputy Secretary, enclosing an extract of a letter from the Court of Directors, dated 21st September 1785. 1. The Court of Directors deprecate the practice, "which is now become so prevalent," of the Company's servants "having access to and transmitting home to their private correspondents such part of the records as they think proper." 2. They also animadvert on the fact that their "servants possessing our most confidential situations are accustomed to indulge themselves without reserve in corresponding by their private letters upon the public affairs of the Company." 3. The practices are directly contrary to repeated orders and are strictly forbidden.	513-8

19-4-86	Storage of. To the Governor and Council. 1. The Resident states that not more than about 1,00,000 cullams of grain could now be procured from the districts in the neighbourhood of Tanjore and conveyed to the latter place at the rate of 22½ or 22¾ pagodas per Madras garce including all charges; but it is necessary to effect the purchase immediately. He therefore desires to know the wishes of the Board on the point. In the meantime he will endeavour to prevent the disposal of grain by other means. 2. The Raja's granaries, if repaired at a cost of 20,000 star pagodas are capable of containing, some of them 2,000 garces and others 4,000. The Resident observes that the grain in store at Tanjore will not keep long and suggests that it may be sold at the close of the year and replaced by the new crop. As the stock of grain last year was inadequate it might not have been prudent for the Resident to have ventured to recommend this measure.	554-62

	2. He states that he has utilised the money in the purchase of star pagodas " at an exchange somewhat more favourable than that stipulated with the sowcars " and that it will be ready to be forwarded under an escort to the Presidency as soon as he is in receipt of instructions from the Board.	
	3. The Resident adds he will be able to afford " a proportionably greater aid to the Presidency " if it is true that the King's 78th Rt. is no longer to draw its subsistence allowance.

13-5-86	From Mr. Palk. 2. The Resident is informed in reply that he, Mr. Palk, "could without inconvenience wait the period" mentioned.	719

13-5-86	Irrigation Scheme Devicotta farm. To the Governor and Council. 1. In regard to the improvement of the facilities for the irrigation of the Devicottah farm, the Resident observes it is the proposal of the Raja that instead of removing the bridge which would greatly tend to injure the cultivation of the village of Annantaporam an anicut should be made at a point which would throw the water into its proper channel and abundantly supply the Devicottah farm.	727-35

Date.	Abstract.	Page number.
15-5-86	Irrigation Scheme—cont. From Mr. Hoissard to the Governor and Council. 2. He observes that the Raja's answer to the Board's application to him on the foregoing subject "has been grounded on wrong principles"; the Raja has been misled by the people employed by him to make enquiries for the purpose. 3. Mr. Hoissard points out that if the Raja be persuaded to make further investigation on the point someone on behalf of the Company should be "allowed to join in them" and suggests that he may be deputed for the purpose.	737-9 741-4

From Mr. Palk. 2. Mr. Palk replying states that he would "accommodate him by receiving Tanjore fanams, but the loss occasioned by sending such a number here [at Trichinopoly] would be at least 300 pagodas." He therefore requests the Resident either "to grant bills upon the Presidency" or to send pagodas.	765
18-5-86	Transmission of accounts. To the Governor and Council. The Resident states that he is transmitting to the Paymaster-General his cash accounts brought up to the 30th ultimo.	767-8
20-5-86	Remittance. To Mr. Thomas Palk. 1. The Resident replying states that he could not hesitate to send the remittance in fanams although it involves a loss of 300 pagodas for a greater loss would be incurred by converting it into star pagodas. He points out that by receiving the amount in fanams "the public service would be greatly accommodated." He concludes by enquiring the rate of exchange of the Tanjore fanams obtaining at Trichinopoly.	773-4
23-5-86	2. Advising remittance of 2,41,875 Tanjore fanams at 24 per star pagoda.	777-9
21-5-86	Customs Exemption Sepoys. To the Governor and Council. 1. The Resident reports that the question whether the sepoy's provisions purchased in the bazaar and brought into the cantonment should be exempted from payment of customs formed the subject of a conference he had with the Raja	781-8

	and that his endeavours to prevail upon him to acquiesce in the wishes of the Board proved unavailing.	
	2. The Raja's objections were founded on the following points :—	
	(a) That his country had already suffered in the late war.	
	(b) That his people were subject to heavy imposts in order to satisfy the Company's demands.	
	(c) That this state of the Raja's revenues did not admit of a loss of nearly Pag. 40,000 arising from this source.	
	Military Cash	
23-5-86	Remittance.	797
	From Mr. Palk, Trichinopoly.	
	He expresses his difficulty in exchanging fanams into pagodas at his place and requests the Resident therefore to arrange to make remittances in pagodas and not in fanams, as far as in his power lies. But should he be helpless in the matter, Mr. Palk states " he is most willing to receive it for the use of the troops whenever they are sent."	
	Deputy Postmaster	
23-5-86	Tanjore.	793-4
	From the Secretary, Mr. Charles M. White.	
	The Resident is informed that Mr. Archibald Montgomery Campbell, Private Secretary to the Governor, has been appointed as Postmaster General and he is desired to suggest a suitable gentleman for the nomination to the office of the Deputy Postmaster General which it is proposed to create at Tanjore.

	Irrigation Scheme	
24-5-86	Devicotta farm.	807-9
	To the Governor.	
	1. The Resident observes that the letter of Mr. Hoissard together with a plan giving a description of the lands and channels in the vicinity of the Devicottah farm is different from that furnished by the Raja's Minister.	
	2. He has accordingly re-opened the subject with the Minister but opines that much time would be saved if the Governor and Council would approve of his plan of deputing an Engineer to proceed to Sheally and prepare a plan of the real situation of the several places and watercourses in question.	
	3. Regarding Mr. Hoissard's proposal to remove the bridge by which the village of Annantaporam is watered the Raja would " certainly never accede to it " and the Resident wonders how Mr. Hoissard could suppose that the Raja's objections to the removal of the bridge could be obviated by a promise of the use of the water of the Mannar river " or in other words a promise from others which the possession of the bridge gives him the certain means of securing for himself."	
24-5-86	— 1. From the Secretary Mr. Robert Clerk.	817

2-6-86	—Merchants' claims.		871-3
2-6-86	To Fallowfield, Esq. The Resident states that on account "of the low state of Treasury" at Tanjore he could not pay for the owners of the eight boats which belonged to the Karical merchants that were lost in the year 1781. He therefore requests Mr. Fallowfield "to be so good as to discharge the above demand" by the payment of 400 pagodas to the French Commandant at Karical.		882-4
2-6-86	—Disturbance. To the Commandant at Karaikal. 1. In regard to the charge against the Raja's subjects of having stolen the bullocks belonging to the subjects of the French Government at Karical, the Resident observes in reply that there seems to be no proof to enable him to conclude that they have been so often the aggressors. 2. On every occasion of complaint the Resident had immediately made the necessary application to the Raja and when redress or a due investigation of the matter has not immediately followed the Resident points out that "he would have done him no more than justice if he had attributed the delay to causes independent of his control." 3. He assures him that "the faithful adherence of Great Britain to the late treaty of peace shall never be brought in question by his conduct."		875-82

3-6-86	Deputy Postmaster Tanjore—Appointment of. To Mr. A. Montgomery Campbell, Postmaster General. The Resident observes that he will offer his "best assistance" to Mr. Harrington who has been appointed Deputy Postmaster at Tanjore to put the business in train and bring to the notice of the Postmaster General "whatsoever may occur to him (the Resident) as likely to be conducive to promote the success of the establishment under his direction."	897

5-6-86	Karaikal Disturbances. To the Commandant at Karaikal. The Resident observes that the minister owns that the Tanjore people brought a few bullocks belonging to the Raja's inhabitants who lately deserted to Karaikal and the Amildars under the French immediately took possession of them. The Resident states that in this instance the Tanjore people were the aggressors and the matter has been represented in the strongest terms to the minister to prevent such irregularities in future.	917-9

8-6-86	Tanjore Minister's removal. From the Governor. 1. The Resident is informed that the effectual remedy against the evils prevalent in the Tanjore country consists in the removal of the present minister. He is desired to accomplish this object by any means. The Governor forwards a letter to the Raja for the purpose and requests Mr. Schwartz to wait upon the Raja and present it to him "explaining and enforcing his argument" for "procuring compliance to his (the Governor's) wishes."	925-7
8-6-86	From the Governor to the Raja. 2. The Governor draws the attention of the Raja to the "cruelty, injustice and oppression" obtaining in his country on account of the discreditable administration of his "unworthy minister" and appeals to his wisdom "to entrust the management of his affairs into such hands as may be capable of remedying those evils and of preventing the utter ruin of his country."	929-36
10-6-86	Right and Left Hand Castes To the Governor. 1. The Resident reporting on the disputes between the Right hand and Left hand castes, observes that the parties being the Raja's subjects he importuned him to inquire into the matter and "accommodate it to the satisfaction of both parties." 2. In spite of his endeavours the Raja has not as yet succeeded; but should he fail ultimately in conciliating either party the Resident concludes that the Governor, "would approve of his enforcing the Raja's decision with the Company's authority if His Excellency make a requisition for that purpose."	937-44
12-6-86	Tanjore Conference with the Raja. To the Governor. 1. 14-6-86	Irrigation Scheme Devicottah farm. To Mr. Ogg. The Resident observes that regarding two points his letter does not appear to be satisfactory. It is not clear whether Mr. Ogg was attended by the Raja's servant nor is it mentioned whether or not "the people on the other side" acquiesced in the measures by which the object of improving the irrigation of the Devicottah farm was to be attained.	955
17-6-86	Military Surgeons Rank and station. From the Secretary, Military Department, enclosing a G.O. The G.O. establishes the rank among the Surgeons and Assistant Surgeons of the Madras establishment and specifies the stations to which they are to be attached.	963-7

26-6-86	———To Mr. Ogg.	985-8
26-6-86	2. The Resident observes that the only measure that could be adopted for the benefit of the Devicotah farm with the concurrence of the Raja's people is the construction of a watercourse of solid masonry at the anicut or bank near the Alenjeyary. He remarks that the work should be finished before the rains set in.	1023-7

	1. The Resident observes that he had a conference with the Raja when the letter sent by the Governor was given to him. He urged upon him to consider that "a total change of system in future was absolutely necessary to prevent the ruin of his country.	
	2. The Raja in reply stated that the Company has nothing to do with his Government as was declared by the Directors in their letters to him nor could the Governor interfere in it; that the minister had acted entirely upon his instructions and it was "unkind" to regard him as ignorant of his own affairs.	
	3. The Raja asked if it was kind to demand the arrears which accumulated in the war when his country was laid waste. Nevertheless he had agreed to pay them even though it involved the stoppage of the allowances granted to his servants.	
	4. Having thus "toiled for the Company" he asked whether their "censures" were the reward that he deserved. The Resident reports that the attention of the Raja was drawn to the fact that his conduct in the present crisis would be decisive of his future welfare, peace and happiness.

	Irrigation Dispute Aganda Cauvery. From Mr. Harrington at Trichinopoly.	129-40
21-2-87	1. The disputes subsisting between the Raja and the Nabob are relative to the Aganda Cauveri. The wall raised by the Raja in the bed of the river was to protect his bank against the force of the current but the Nabob protested against the construction of the wall and in order to ensure the safety of his own bank has planted reeds to which the Raja objects.	
	2. Mr. Harrington having conducted the investigation of the disputes between them along with Genl. Horne and the people belonging to either parties have come to the conclusion that the wall constructed by the Raja should "be allowed to be taken entirely away and a free uninterrupted course given to the river."	
22-2-87	3. The Resident replying observes that the manager of the palace was informed of the news contained in Mr. Harrington's letter and that what he (the Resident) recommended was immediately followed. He suggests a limit to be fixed from each bank beyond which either parties should be precluded from planting reeds.	141-5
22-2-87	4. Genl. Horne remarks that the attitude of the Nabob is not to admit of any encroachments on his rights "nor in any respect to prevent the necessary repairs of the Banks of the river provided no deviation is made." But the Raja's people appear to be desirous of bringing forward disputes and litigations for though "the Tanjore agents are apparently satisfied with the Brigadier's decisions, they have always transmitted opposite representations to the Raja."	153-8
23-2-87	5. The Brigadier suggests the desirability of Mr. Harrington being, in the course of his inspection of the banks, accompanied by a person of some consequence from the Tanjore Government.

	1. The Resident gives a picture of the evil consequences which must result from "the present system of administration pursued by the leading men of the Raja's court at Tanjore." The first misfortune which has overtaken the country has been the extensive failure of the early or car crop of paddy. He points out that distress will inevitably follow unless the Raja changes his present ministers or some expedient is found to induce them "to adopt a system diametrically opposite to the one now in being." He concludes by observing that the Raja will not be able to fulfil his engagements without a speedy and effectual interference on the part of Government.	
22-6-87	2. The Governor expresses his uneasiness to the Resident at the mismanagement of affairs in the Tanjore country and desires him to represent to the Raja that "a perseverance in the line of conduct will rapidly deprive him entirely of his friendship and compel the Government to interfere in the management of the country." He conjectures, in regard to the payment of kists by the Raja, that there will be no irregularity in future.	445-7

	Frontier Dispute	
2-11-87	To the Tondaman. 1. The Resident reports that three months since some chief inhabitants appointed by the Tondaman and the Raja met in order to settle a dispute arising from the cultivation of a piece of land situated on the borders of the Tanjore country in the vicinity of the Tondaman's territory. 2. The arbitrators had mutually agreed that the inhabitants (Tanjoreans) who cultivated those fields last year should continue to do so during this year also. These cultivators fell a victim to the fury of the Tondaman's people and the Resident believes it could not have been committed under the "orders or permission" of Tondaman, for a friend as he is to the Company "would naturally behave [well] with regard to the Raja who is their friend and ally." 3. He therefore desires the Tondaman to enquire "strictly" into the affair so that the culprits may be punished. Should it appear that the attack was made by his orders, the Resident observes he must be under the necessity of requiring him in the name of the Raja and the Company "to make such amends as are consistent with justice, with the friendship which ought ever to subsist between them and agreeable to the terms of arbitration entered into by their respective subjects."	611
	Young Raja of Tanjore	
2-11-87	Danger to life of. To the Governor. 1. The Resident observes that it has come to his knowledge "from high authority in the Palace" that the life of Serfojee, the son adopted by the late Raja, is in imminent danger and that the boy cannot long survive his present situation if a speedy relief be not afforded "by procuring the Raja's permission to let him be placed under the care of his mother and family or in some other secure situation." 2. The Resident therefore solicits the permission of the Governor to make a successful application to the Raja to let Serfojee be placed under his maternal care and in the event of his future security not proving satisfactory, to require the Raja to place the boy in a "secure situation,"—refusal or demur on the Raja's part being construed as an expression of his or his minister's sinister designs "and therefore to warrant the requisition which he, the Resident, might be authorised to make in the last resort."	615-7

	Young Raja of Tanjore—cont.	
	2. The Resident observes that Mr. Schwartz had a conference with the Raja on the subject as a result of which the Raja had consented to let them, the Resident, Col. Stewart and Mr. Schwartz, see the boy frequently and "to pursue any other mode that may assure them of his perfect safety."	
	3. Mr. Schwartz admits that the place of confinement of the boy did not admit of free air but in other respects he was better off. The Resident in conclusion states that he has reason to think that his interference has been "very seasonable" indeed.

	Tanjore and Danish Government	637-9
26-11-87	Dispute about a village. To the Governor.	641-6
	1. The Resident states that the Raja issued orders to take possession of the Danish villages under the Government of Tranquebar upon the representation of one of his revenue officers who claimed them as his patrimony, alleging that the Danes have deprived his family of them seventy years ago. Maj.-Genl. Abbestee, the Governor of Tranquebar, taking umbrage at this, claims reparation for the insult offered to the Danish flag. The Resident observes that the Raja "persists in his object though he alters the mode."	
26-11-87	2. The Governor and Council of the Government of Tranquebar complain to the Resident that some persons, who declared themselves as acting under the orders of the Raja of Tanjore put themselves into the Danish village of Orugumangalam and erected the Raja's flag as a sign of having taken possession of it in the name of the Raja of Tanjore. They report that these persons were arrested and detained in the fort and request the Resident to take steps to prevent such lawless usurpation in future.	649-50
26-11-87 28-11-87	3. The Resident replying to Maj.-Genl. Abbestee, Governor of Tranquebar, observes that the Raja owned that it was under his direction that the village was taken possession of till the claim upon it should be investigated. But the mode he pursued being contrary to the established practice between European nations, the Resident states he has been authorised to apologise in his name for what had happened and to express the Raja's desire to consider the whole transaction and the orders which occasioned it as totally annulled. Nevertheless the Raja still upholds a claim for the possession of the village in question which he proposes to make shortly in due form to the Danish Government.	653-5 665-7 669-70

4-12-87	From the Governor.	685
	2. The Governor approves of the Resident's correspondence with Genl. Abbestee regarding the affair of the sepoy and believes that in future the Raja will not make "such idle attempts" without the previous communication of his pretensions to the Resident.	
	Accounts	
5-12-87	Receipts and disbursements.	689
11-12-87	From the Deputy Accountant. The Resident is requested to furnish particulars for the preparation of the statement of receipts and disbursements from 1st May to 31st October last.	717
	Raja of Tanjore	
5-12-87	Maladministration. To the Governor.	693-9
	1. The Resident remarks that the Raja supported by his minister is pursuing a system of administration at once "erroneous and disgraceful" and therefore not conducive to the welfare of his subjects, the Company's interests nor to his own dignity. It is therefore no matter for surprise that "the Raja is rank in indolence and involved in expence" and that the present Government must end in ruin.	
	2. The Resident points out that so long as the present system of Government continues the Company could not receive Pag. 6,70,000 due by the treaty. He suggests that there are two persons either of whom are qualified to fill the office of minister or sirkeel in a manner best calculated to retrieve the country from its present situation.	
	Serpents	
9-12-87	Mr. Russell's scheme. From Mr. Charles White, Secretary. The Resident is desired to aid Mr. Russell in a manner consistent with his situation, in his scheme for "obtaining a precise knowledge of what may relate to serpents" and furnish all particulars on the subject to the Secretary in the Public Department for transmission to Mr. Russell.	713-4
	Raja of Tanjore	
15-12-87	Maladministration. From the Governor.	719-21
	1. The Governor discredits the information relating to the failure on the part of the Raja to fulfil his engagements to the Company and mildly rebukes the Resident for going so far in his duty as to propose one of the two men to the office of sirkeel and expresses his disapproval of his (the Resident's) interference in the management of the revenues of Tanjore.

	Raja of Tanjore—cont.	
	2. In conclusion, the Governor advises the Resident to leave the Raja to the management and direction of his own affairs, representing to him in "decent and respectful terms" the defects which the Resident might notice in his administration and consult Government when his representations might prove ineffectual.	
18-12-87	3. The Resident enters into an explanation of these points raised in his letter of the 5th instant which have elicited disapproval or censure of the Governor.	723-33
18-12-87	4. The Secretary in the Secret Department intimates to the Resident that the Government approve of his making representations to the Raja whenever "bad consequences" threaten to follow from the mismanagement of his affairs by his sirkeel, but they could not countenance his proposal to make himself personally responsible for the full amount of the Company's demand upon the country of Tanjore.	735-6
	5. The Secretary points out that such a system is totally incompatible with the duties of his station according to which he is to watch over the conduct of the Raja and his ministers in order to save the people from oppression and secure the performance of the Raja's engagements with the Company.	
	Civil Debt	
25-12-87	Inhabitants of the jaghir. To the Collector in the jaghir. The Resident requests the Collector to enquire into an affair in which an inhabitant of the jaghir owes a sum of money to an inhabitant of the Tanjore country.	745

	2. All parts of the country shall be garrisoned by the Company's troops and in the event of an outbreak of war, the Company shall possess full authority over the Tanjore country and collect the revenues thereof, paying for the Raja during this period one lakh of pagodas per annum and a fifth part of the net revenue arising therefrom. The country shall be restored to the Raja on the conclusion of the war.	
	3. The rest of the agreement contains articles relating to the payments to be made by the Raja to the Company and to his other creditors and the accounts maintained therefor.	

IX. Resident's Correspondence.

Date.	1788-9. Abstract.	Page number.
	Tanjore	
4-1-1788	Arrears—Raja's views. To the Governor.	1-3
	1. The Resident observes that the Raja has applied to him to make known to Government his inability to pay to the Company this year more than 4 lakhs of pagodas as his kists, and four lakhs of rupees for the "current pesh-cush" due to the Nabob, instead of the stipulated six lakhs and seventy thousand pagodas.	
	2. The Raja declares he will not be able to pay more than that sum for the following year also, but during the year next after that he states that he will be in a position to fulfil the terms of the treaty. The Resident reports that even though he endeavoured to persuade him that under proper management his country would yield a revenue equal to the demands imposed by the treaty, his (the Resident's) efforts were of no avail as the Raja persistently remarked that if the Resident failed to communicate it to the Governor it would make no difference "for he himself should send a letter on the subject."	
16-1-88	3. The Secretary in the Secret Department states that Government are in receipt of a letter from the Raja from which it could be inferred that he meant to evade his future payments had it not been for the Resident's letter. Government being unable to judge of the reasons governing the perplexing attitude of the Raja, call for an explanation from the Resident on the subject.	5-10

	Raja	
14-2-88	Governor's advice to. From the Governor. He warns him that if he continues to allow his servants to oppress the inhabitants, the ruin of his country will be inevitable in which case his (the Governor's) interference to enforce measures of a more rigid nature than has ever been adopted before, will perforce follow.	41-7

25-6-88	Tanjore Arrears. From the Governor to the Raja. The Governor observes that notwithstanding his "representations and remonstrances" the Raja had introduced no change in the measures of his Government. He warns the Raja that if his balances to the Company are not discharged and his payments are not regularly made he will be under the painful necessity of taking steps to secure to the Company what is its due.	109-10
9-9-88	Raja's Women Humiliation of. To Mr. William Petrie. The Resident reports that the jewels belonging to the wives of the late Raja were forcibly taken away from them by Shiya Row, the Minister. 20-8-88	Calculation of subsidy. Extract of a letter from the Court of Directors. It is stated in the letter that the present state of the Raja's revenues is "miserable" and that it would be "unjust and oppressive" to calculate the Raja's subsidy on any larger revenues than that disclosed by the records. The Directors state that they shall agree to receive from the Raja the payment of the arrears of peshcush due by him to the Nabob in annual payments of not more than Pag. 50,000 which added to his contribution of 3 lakhs of pagodas, shall amount to not more than four lakhs.	137-45

As regards the inspection by the Resident of the Circar accounts, the Raja points out he will have no objection to the Company or its Resident wishing "to hear something concerning the country or inquire about a matter, but to look into every account of the State would prove detrimental to the management or contrary to practice."	161-7

In reply to the several accusations against him by the Governor, the Raja states that in regard to the charge of neglecting the treaty subsisting between him and the Company he would venture to suggest that "the failure arose not from any inclination but from his inability." 2. The Governor had "loaded him with an accusation of dilatory excuses," alluding to which the Raja observes that it was not his intention to make excuses and he wishes that the Governor, before he made any accusations against him of making excuses, would have done him the favour of taking into consideration "the poverty of his country and his situation at large." 3. 21-8-89	Tanjore Arrears—Warning to the Raja. From the Governor to the Raja. 1. After entering into the familiar recital of the Raja's non-payment of his kists to the Company, the Governor proceeds to state the facts. A statement was concluded between the Raja and Mr. Petrie whereby Shiva Rao, Bapana and Ganapathy Subbiah were appointed to manage the revenues of the Tanjore country on condition that they became security for the prompt payment of the kists to the Company. 2. In this respect the agreement was grossly violated, for kists becoming due in the month of March have not yet been paid into the treasury. The Governor therefore requests the Raja to send Shiva Rao to Madras that he may state his reasons for non-payment, else he points out he "could not fail of subjecting him (the Raja) to the serious displeasure of the Company." 3. He observes that there are "great reasons" to believe that there have been "great embezzlements" of the country's revenues or that they have been "dissipated in idle expence" and unless the arrears are cleared off the necessity for placing the management of Tanjore under a "European Gentleman" will be apparent.	317-9

The Resident observes that the time for the payment of Pag. 80,000 having elapsed, he requested the Raja to make payment, but the latter pleaded that unforeseen difficulties had cropped up on account of a rumour of war and assured him that he would make good his payments in about four or five days. 2. The Resident reports that the Raja has agreed "to lay up as much of the carr crop as possible in the Garrison in case of emergencies" and solicits the approval of Government for this measure.	345-7

He observes that he has directed a small guard of the Company's sepoys to attend on him and "earnestly" implores the Raja to treat him with kindness and to "discourage every species of oppression towards him or the widows of the late Raja either in their persons or property."	353, 355-6
28-9-89	Tanjore Arrears. From the Secretary, Military Department. 1. The Secretary reviews the affairs of the Tanjore country and observes that last year it was found expedient to adopt coercive measures to enforce the liquidation of the Raja's balance to the Company, viz., the appointment of Shiva Rao, Bapanah and Gunnapatty Subbiah, jointly to the management of the country. They became joint securities, with the Raja's sanction, to pay into the Company's treasury, the whole produce of the country until the kists due for the year were discharged, allowing for the Raja's expenses Pag. 10,000 per month.	359-62

	From the Court of Directors to the Raja.	
	1. The Raja is informed that nothing is so close to the Company's wishes as the prosperity of the Tanjore country and the happiness of the Raja. The Company has uniformly manifested its sincere attachment to the throne of Tanjore and as proof of it it has established the present Raja on the gadi of his ancestors. It therefore expects a reciprocal expression of friendship and regard on the part of the Raja who would be well advised to have "good Ministers and servants" and to submit to the advice of the Governor "who is directed to be constantly watchful for the good of his country."	
	2. The Directors warn the Raja not to make grants of lands whether jaghir or inam and they "entreat him to discontinue this practice, which could have no other tendency than to injure his resources and prevent him from fulfilling his engagements to the Company."	
	3. They desire the Raja to "give countenance" to the proposal of establishing a warehouse at Tanjore for the purpose of "increasing the consumption of the commodities and manufacturers of Great Britain and at the same time to encourage . . . the resort of merchants of all descriptions to the Tanjore country."	
	4. In order to promote the teaching of the English language and "to aid the progress of wisdom and learning within the Raja's dominions," the Directors remark that they have directed their servants to contribute a certain sum for the purpose of establishing schools at Tanjore.	
	Irrigation Dispute	
	Aganda Cauvery.	417-20
	To Mr. Harrington at Trichinopoly. The Resident states, in regard to the dispute between the Raja's subjects and the Nabob relating to the irrigation of the Aganda Kaveri, that the managers at the palace have agreed to his recommendation to remove the reeds on the Srirangam side of the river, not to increase the plantations and to plant permanent marks defining the limits of the river so as to prevent future quarrels.	
	Amir Sing	
	Raja of Tanjore—Maladministration.	421-4
	1. At the time of the accession of Ameer Sing to the throne of Tanjore, the Government of Fort St. George sent him a letter of "counsel and advice" drawing his attention particularly to the state of the revenues of his country and the administration of justice among his subjects. Notwithstanding this it was reported that the Raja was managing affairs "injudiciously"—alienating his lands in an improvident manner and neglecting the administration of justice—and unless some means were adopted to end the folly and extravagance of the Raja, the ruin of his country was certain.	
	2. Mr. Petrie was, therefore, appointed Commissioner of Tanjore who entered into an arrangement whereby Shiva Rao, Gunnapathy Subbiah and Bapanah were allowed to manage the revenues of the country, holding themselves responsible to the Company for the proper payment of the subsidy and for the allotment of the just proportion of the produce to the inhabitants.	
	3. The "considerable advantages" which resulted were unfortunately counteracted by the Raja and his favourite Shiva Rao. The Raja is also guilty of ill-treating Serfojee, the adopted son of the late Raja.

He has planned for the establishment of a proper administration of justice and would have accomplished his object had it not been for the opposition offered by the Raja instigated by his servants. 3. To accomplish this purpose Mr. Bayly is requested to get the people under him ready to proceed with the tappals without delay. 2. Should there be a relay of peons stationed at every 8 miles the Deputy Postmaster General believes, a regular tappal will be established in about the period stated. The Directors state that as Mr. Ram acquitted himself during his employment in the collection of the revenues of the Trichinopoly country, to the satisfaction of Lord Macartney and his Government, they have confirmed him in his late appointment as Resident of Tanjore.	59-61
12-3-90	Tanjore Arrears—Warning to the Raja. From the Secretary, Military Department. 1. In the event of a failure on the part of the Raja to clear off his payments in full, the Resident is desired to put into execution the fourth article of the existing treaty between the Government and the Raja and have recourse to military aid if need be. The Resident is asked to point out in the most forcible language the necessity for the punctual discharge of his engagements in future assuring him that after the great remissions allowed to him "a most steady" performance of the existing engagements would be required.	63-5
12-3-90	2. The Governor points out to the Raja that there are arrears due from him to the extent of Pag. 1,00,000 and requests him not to abuse the indulgence lately shown to him in the remission of his annual payments to a large amount by deferring his payments. If such be the case the Governor clearly states he will be compelled to desire the Resident to enforce the terms of the treaty in full measure and authorise him to take possession of the country in the manner agreed upon.	67-9
16-3-90	Tanjore People Misconduct of. From Mr. Eccles Nixon. The Resident is informed that obstruction is caused by the Raja's people to certain merchants of Trichinopoly in regard to the privilege long granted to them by the Raja to carry on trade in the Tanjore country and also that Alum Sahib, a fakir who owned a garden at Adripatnam, has been disturbed in his possession by his neighbours. Mr. Nixon requests the Resident to bring the matter to the notice of the Raja in order to afford redress to the aggrieved parties.	71-2
27-3-90	Tanjore Payments to the Company. From the Secretary, Military Department. The Resident is informed that it is the desire of the Government that the Raja should be given credit in the accounts for the sum of Pag. 22,000 part of which was received in the shape of grain and part in cash. He is instructed to deduct this sum from the amount of one lakh of pagodas which the Raja promised to pay on or before the 15th April.	85-6
29-3-90	Subbiah Naicker Private loan. To Capt. Torings. The Resident forwards a petition for enquiry and report from one Subbiah Naicker who states that he advanced a loan to one Venkatapathi Naicker on the offer of the latter's house as security. Venkatapathi Naicker having failed to repay the loan, the petitioner claims possession of the former's house. But the dubash of Capt. Torings raises an objection.	91-3

Date.	Abstract.	Page number.
3-4-90	Tanjore Arrears—Raja's reply to the Governor. To the Governor. 1. The Resident states he has every reason to believe it will not be in the power of the Raja to fulfil his engagements to the Company and suggests that if the Governor thinks it proper to take over the whole country for this and the ensuing year and entrust it to his management he would himself be responsible for a total collection of Pag. 1,00,000 provided he is favoured with the protection of Government, and a reasonable allowance is made for the damage which might happen from the incursions of the enemy cavalry.	95-102
5-4-90	From the Raja. 2. Alluding to the threat of the Governor that the Tanjore country will be put under the management of the Resident in the event of the Raja failing to discharge by the middle of April the money due up to the end of February, the Raja states that his establishment will then stand on so tottering a foundation that his subjects will not respect his authority. He requests the Governor not to "advance above his own the authority of another" and that "he would continue to protect him in his rights and dignity."	103-7
8-4-90	Post Office Dismissal of Sundooshy. From Mr. Edward Garrow, Postmaster General. The Postmaster General informs him that Sundooshy, a man employed in the Postal Department at Tanjore, has been dismissed by the Deputy Postmaster General at Trichinopoly. As there is no suspicion against him which would justify such a punishment, the Postmaster General states he has reinstated him in his office and desires the Resident to help him "if he should, in executing his trust, be in any difficulties."	109
13-4-90	Tanjore Payments to the Company. From the Secretary, Military Department. 1. The Resident is informed that as the Company is now engaged in a war with Tippu Sultan the arrangement entered into with the Raja in time of peace shall lapse and the old system shall be in force whereby the Raja must pay into the Company's treasury four-fifths of his receipts from the country. The Secretary desires the Resident to keep a watchful eye on the administration of Tanjore and report without loss of time any alienations of revenue.	111-2
13-4-90	2. From the Governor to the Resident on the same subject.	115-7
14-4-90	To the Governor. 3. The Resident reports the quantity of grain received from the Raja, leaving a balance of Pag. 26,753 which he apprehends it will not be in the power of the Raja to make good, as it depends upon the money they are endeavouring to borrow, while people are disinclined to advance money under the management of the present minister.	119-20
18-4-90	Military Payments Exchange rates. From Mr. Oliver Colt at Trichinopoly. Mr. Colt suggests payment to the troops at the exchange of 25 Tanjore fanams per star pagoda or perhaps lower.	123
	TAN. IV—38-A	

Date.	Abstract.	Page number.
22-4-90	Subbiah Naicker Private loan. To the Sirkeel Shiva Rao. 1. Owing to his failure to redeem the house mortgaged to Subbiah Naicker, Venkatapathi Naicker allowed his creditor to take possession of it. In this Subbiah Naicker was denied by the Dubash of Capt. Torrence on the ground that Venkatapathi Naicker offered security to one of his debtors who being unable to discharge the loan, absconded. 2. Shiva Rao is requested by the writer of the letter to enquire into the case and ascertain if Subbiah Naicker has a prior claim to the house and if the conduct of the dubash has been improper.	127-8
27-4-90	War with Tippu Sultan Raja's proposals. From the Raja to the Governor. 1. The Raja observes with grave concern the war in which the Company is engaged with Tippu Sultan. He reviews the disastrous consequences which followed the previous war which broke out ten years ago. His country was laid waste, the inhabitants were forced to starve on account of the absence of cultivation and many were slain. 2. To add to this the Governor, as soon as the war was over, insisted peremptorily on the payment of 6 lakhs of pagodas his share of the war expenses—a burden which the state of the country was unequal to bear. 3. To secure his country from the ravages of the enemy the Raja requests the Governor to furnish him with a small army which could go about the country. 4. As regards the Raja's contribution of the expenses of the Company on account of the war, he will send a plentiful supply of cash in monthly instalments. If the Company will withdraw all interference, in the management of the country, the Raja undertakes to send to the Governor a "tippe" from respectable sowcars.	131-43
27-4-90	Tanjore Collection of revenue. From the Raja. 1. The Raja does not accede to the proposal to employ Tahsildars for the collection of revenue as it is not within the contemplation of treaty. 2. As regards the inspection of the receipts by the Company's accountant, the Raja points out that the balance to be collected is trifling and it is not his intention to make it appear that the receipts of his Government are inconsiderable, particularly at a time when the Company looks up to him for greater assistance.	147-8 151-63
28-4-90	Military Cash Resident's balance. From the Deputy Military Paymaster. The Resident is informed that it is the wish of the Governor that he should retain in his hands a sum sufficient for the payments to the troops in the Tanjore garrison for next month and remit the balance to the Paymaster of the Southern army.	171

4-5-90	Tanjore Payments to the Company. From the Secretary, Military Department. The Resident is desired to transmit his opinion as to the best mode of securing to the Company the receipt of four-fifths of the Tanjore revenues "with every attention to the preservation of the Raja's consequence in the eyes of his subjects so far as may be practicable without losing sight of the main object."	187-8
10-5-90	Military Cash Requisition for. From the Paymaster of the Southern army. In regard to the remittance of money he may require in future the Paymaster requests the Resident to send him pagodas unless he can get 25 Tanjore fanams to the pagoda.	199
12-5-90	Military Supplies Paddy prices. From Col. Symes at Trichinopoly. 1. The Colonel complains that the increased price of paddy at Tanjore is due to the manipulation of the price of that commodity by the monopolisers of grain, who refuse to bring it to open sale and dispose of it on equitable terms. As the army at Trichinopoly is in considerable difficulties for want of grain he requests the Resident to use his influence to disregard the claims of private monopolisers who should be compelled to part with their grain at a fair market value.	201-3
13-5-90	2. The Resident replying to Col. Symes states that there are no other monopolisers of grain in the country than the Raja and his favourite ministers. He warns the Colonel that if any paddy should be taken for the public use he should be careful to estimate precisely the quantity, which otherwise would be highly exaggerated.	205
14-5-90	Tanjore Demand for arrears. From the Secretary, Military Department. The Secretary communicates the desire of the Board that the Resident should call upon the Raja for the immediate payment of the kist due.	207

	Resident	
23-5-90	Raja's complaint against. From the Raja to the Governor. The Raja complains of the conduct of the Resident, by which his honour and dignity is in danger. The Raja points out that the action of the Resident in having posted a guard of sepoys round the place in which Baba the late minister is confined by order of the Raja, appears to carry with it an authority greater than his own and the Resident is likely to be called 'Maharaj.' He observes that so long as the guard is suffered to remain, his authority will not be respected by any one and all necessary preparations for the ensuing crop will be totally frustrated.	229-35.
	Military Cash	
1-6-90	Requisition for. From the Paymaster. The Resident is requested to supply him Pag. 8,500 for the disbursements to the garrison for the month of May.	237.

4-6-90	2. The Resident enquires of Capt. George Harris, certain particulars relating to the bullocks and grain that is wanted by the army.	241-4.
5-6-90	3. Capt. George Harris observes in reply to the Resident that the Raja ought immediately to send 500 bullocks on his own account to follow the army wherever they go, carrying the necessary supplies, and should induce some responsible merchants to furnish an equal number of bullocks in the same manner.	245-7.

Date.	Abstract.	Page number.
	Military Supplies—cont.	
5-6-90	4. The Resident advises Col. Harris of the despatch of 400 bullocks carrying a thousand callums of paddy to Trichinopoly for the use of the camp.	249.
	Baba	
7-6-90	Resident's protection of. From Mr. John Turing to the Raja. Regarding the guard of sepoys posted by the Resident round the place of confinement of Baba, Mr. Turing points out that the object has been to secure him from the violence apprehended on the part of the Raja's servants. If Baba had been tried and found guilty he would not have been protected by any of the Company's servants. Mr. Turing observes that in the opinion of the Government there has not therefore been any impropriety in the conduct of the Resident.	253-5.
	Military Supplies	
7-6-90	Rice. From the Commander-in-Chief's camp. The Resident is requested to expedite despatch of 400 bullocks laden with rice from Tanjore.	257.
	Military Cash	
7-6-90	Loss on exchange. From the Military Paymaster-General. Alluding to the loss in exchange sustained by the remittances of Tanjore fanams to the Paymaster of the Southern forces, the Resident is informed that the loss of Pag. 649 must be borne by the Raja.	259.
	Baba	
7-6-90	Resident's protection of. From the Secretary, Military Department. The Resident is directed to withdraw the guards from Baba's house as soon as it can with propriety be accomplished. 	Tanjore	
7-6-90	Kists—Payment of. From the Secretary, Military Department. The Resident is desired to urge on the Raja the necessity for the liquidation of the arrears of his kists.	261-2.
	Military Bullocks	
7-6-90	Cowle to bullock people. This cowle is given by the Resident in favour of the bullock people setting forth the terms under which the latter agree to transport rice from Tanjore to Trichinopoly required for the army encamped at that place.	263-6.
	Resident	
8-6-90	Raja's complaints against. From the Raja to the Governor. 1. The Raja complains that the Resident has been endeavouring to oppress and injure his subjects, to lessen his revenues "and degrade his authority and totally destroy his honour and dignity." 2. He enumerates "a few principal points only" to illustrate the truth of his assertions. The Raja being "pressed exceedingly" granted the Resident monopoly of trade in indigo which led to considerable extortion and its cultivation was therefore given up. This acted injuriously on the cloth manufacture, the weaving community were distressed and the revenue arising from this source was almost lost.	271-97 299-309.

3. The Resident's dubash offered to procure the friendship of his master, so essential to the success of his administration, and demanded Pag. 4,000. The Raja paid little heed to the dubash with the result that the latter had recourse to a series of measures which tended to damage his authority not only over his subjects, but also over his own Circar servants and those of the palace, where the Raja has to face discontent and opposition.
4. The Raja relates how the Resident interposed and attempted to wrest the young Raja from his possession in a most humiliating manner and how he has been encouraging the boy to oppose him.
5. Diverse reports are spread against the Raja's honour which are destructive of his authority, and though cause no uneasiness to the Raja himself they have a disastrous effect on his subjects who, expecting a revolution, seek every pretence to withhold their payments and despise the authority of his ministers.
6. Alluding to the Resident's conduct in placing guards at the house of Baba whom the Raja had confined on account of his oppression and mismanagement, the Raja condemns the action of the Resident in affording protection to one who stood disgraced in the records as an evil doer and a destroyer of the country.
7. In conclusion the Raja observes that the humiliating situation to which he has been reduced receives particular point from the vexatious conduct of the Resident's dubash and requests the Governor to afford him early redress.

It observes that as Kumbaconam and Pandanallore are placed similar to Mayavaram in regard to the export of grain, the price fixed for the latter appears to be at a lower rate and that it should therefore be either equal to if not higher than the former. 3. As they "have for generations back been so fixed by the native Government it rests not with him (Mr. Strange) to make any deviation therefrom." 3. 	Land and Sea Customs	
2-4-93	Renting. From Mr. Ram to the Board informing him that the land and sea customs were offered for renting as was customary during the previous years and proposals were accordingly received. He suggests one of three different modes of securing the advance to the cultivators; either to make the advance out of the Company's cash or to offer security to the Soucars for repayment or to give the Raja such an early assurance of the restoration of his country as to enable him to quiet the doubts of the Sowcars and induce them at the proper moment to come forward with their loans.	712-3
4-4-93	Peshanum Paddy Fixing of prices. From Mr. Ram to the Board informing him that in consequence of having settled the price of peshanum paddy with a considerable number of the principal pattackdars at the rate of $4\frac{1}{4}$ Tanjore fanams per collum for Cumbaconam and $4\frac{1}{2}$ for Trivady, the increase in the estimated revenue is about 16,742 star pagodas.	723-4
6-4-93	Collectors' Allowances Procedure in payment of. The Board forwards to Messrs. The Board desires Mr. Macleod to prepare a 'hircarrah map,' i.e., "from the enquiries of those who possess local information or from the eye and from a general idea of the geography of the country and not by a regular survey," as it will be useful to the people as well as to the Collectors.	379-80
8-5-96	Grain Fixing of prices—Difficulties of. 1. Mr. Macleod reports to the Board the difficulties encountered in the fixation of the price of grain prior to the collection of revenue from the inhabitants. The method has been to ascertain the actual prices in the village bazaars and the actual bazaar price in the three classes of villages, viz. those near the fort, those in the middle of the subah and those at the extremity. 2. The efforts of the Company are frustrated by the pattackdars who conspire to alter for a time the rates in particular places of their pattackams from whence these prices are taken. 3. At the present time the price of grain is particularly lower than usual and therefore Mr. Macleod would propose to settle the highest price consistent with reason and justice. Between 2½ and 2¾ gold fanams per collum is the price he would fix for the sambah paddy in the Trivady Subah. 4. As regards the rates for Mannargudy and Mayavaram, in his opinion "the most advisable mode" would be to allow a customary deduction from the Trivady price after it shall have been established. 5. Should the Board not approve of this proposal the prices recommended by Messrs. Balmain and Grant or such increase between those and the Trivady price as may be suitable in their respective divisions might be adopted.	385-91

The Governor writing to the Raja on the subject of the appointment of Triambuck Sambajee as the Raja's vackeel at Madras for the purpose of receiving such communications as the Governor would have to impart to the Raja, observes that as there is already the Resident to serve that purpose he is powerless to sanction "any other channel of intercourse."	413-5

The Government forward to Mr. Macleod a copy of the Governor's letter to the Raja of Tanjore stating that the letter written by the latter to the Governor-General containing reflections on the character of Mr. Macleod the Resident at Tanjore has not been forwarded to him as it is an act of justice to allow Mr. Macleod to vindicate himself of the charges against him before it could be sent to Bengal.	477-80

	Serfojee	
7-6-96	Complaints against the Raja. 	Accounts	
9-6-96	Inspection of. From Mr. Ram to Serfojee Raja observing that as Mr. Macleod is only in charge of suncams and nine Nadoos the inspection of the accounts of his office could not be of such material service to him as if he had the management of half the country or a considerable part of it.	537-9
	Agricultural Advances	
11-6-96	Payment of. Mr. Balmain informs Mr. Macleod that security bonds on account of warricum or taccavy had been granted by the palace to the money-lenders for four puttackams. Now that the Company is in charge of the administration of the country the Raja desires Mr. Macleod to issue orders to the Amildar to dig up earth and throw it upon the dam. The Raja points out that it has never been the custom to let the Nabob's people repair the bank and if these people are allowed to do it a new custom would have been established which would cause future disputes.	558-2
	Tiruvadi Subah	
20-6-96	Revenue management. Mr. Macleod forwards to the Board for consideration his proposal regarding the future mode of management of the Trivady subah. 	Ameer Sing	
6-7-96	Title to the throne. The Government observe to Mr. Macleod that his reasons for intimating that "it was a question with him whether he were not bound in his capacity as Resident to disclose to Government all he knew or believed respecting Ameersing's title" are quite satisfactory. They have no doubt he would conduct himself in every respect towards the Raja as if his right to the throne was undisputed.	11
