20-1-08	Claims on Four Magans. From the Resident to the Governor of Tranquebar marked 'Private'. 1. When the villages mortgaged to the Tranquebar Government by the late Raja Ameer Sing was redeemed by the Government at Madras, a claim was advanced by the Danish Government in respect of arrears due from the inhabitants of the Four Maghans for the period of 12 years during which the latter Government were in full possession of the villages. 2. The demand included the amount advanced to the cultivators as takavi for the following year. It was, however, settled between the two Governments that the Tranquebar Government should be reimbursed the amount of the arrears in question relating to the last of the twelve years and also the advance of takavi. 3. The Collector was directed by the Madras Government to collect the amount from the inhabitants and pay the Danish Government accordingly. If the Tranquebar Government did not receive this amount from the Collector, the Resident observes that a representation may be made to the Madras Government on the subject.	33
	Fortin, Mr.

	Tirumal Rao's Family	
24-1-08	Pension. 1. From the Resident to the Chief Secretary enclosing an extract of a letter from Mr. Huddleston, former Resident of Tanjore, to the Governor-General, Sir Alexander Davidson on the subject of the pension paid to Tirumal Rao, Agent at Tanjore of the Rana of Mysore.	43

Date.	Abstract.	Page number.
	Tirumal Rao's Family—cont.	
	2. Tirumal Rao entered into a treaty with the Company on behalf of the Rana wherein it was provided that himself and all his relatives should be taken under the Company's protection in the event of their being obliged to make peace with Hyder Ali Khan.	49
	3. In view of the sacrifice made by him and his kinsmen who escaped the massacre following the discovery of the intended revolt in favour of the Rana and the old Mysore Family and of the engagements made by the Company, Mr. Huddleston held it to be but proper that the allowance of St. Pag. 20 per mensem granted to Tirumal Rao should not only be continued but also increased as he had no other means to support himself and his dependants.	
	4. The allowance was discontinued in January 1805 under the direction of the Accountant-General; consequently Tirumal Rao's family have appealed. The Resident reports that an examination of the records in his office shows that the object of the grant of the allowance was for the support of the entire family of Tirumal Rao and not for the exclusive benefit of himself. He supports the request of the petitioners who are in a state of extreme destitution.	
25-1-08	Smedmore, Mr. Thomas Relief of. From the Resident to Mr. Thomas Smedmore at Tranquebar informing him that he had transmitted to the Government at Madras, his application for a loan which would afford him relief from his present impecunious state.	
	Bill

	Intelligence from Tranquebar	
10-2-08	1. From the Resident to Mr. Barclay, Private Secretary to the Governor, informing him that he has heard from Mr. Seguin that Genl. Anker was reprimanded by the Danish Government at Denmark for surrendering Tranquebar without resistance in 1801 and that the present Government at Tranquebar are determined to oppose any attack that may be made on the place. 2. The Resident believes that this report may have been encouraged by the Government itself in order that the Company may direct a superior force against Tranquebar, in the event of hostilities, which may induce the Tranquebar Government to accept the terms which may be offered. 3. A Danish ship arrived at Tranquebar on the 6th instant and will set sail after four days to the Isle of France. She has on board twenty French officers lately prisoners of war in Bengal.	73
	TAN. VI-1-A

From the Resident to the Chief Secretary informing him that as directed by Government he has paid Mr. Thomas Smedmore the sum of St. Pag. 50 and has obtained his receipt, which will be transmitted to the Accountant-General. The Resident requests that the Accountant-General may be instructed to admit Mr. Smedmore's note as a sufficient voucher for the disbursement.	77
21-2-08	Witness Summons Raja's officer. From the Resident to the Magistrate at Kumbakonam. 1. Modozeappah, the person summoned as a witness in the Court at Kumbakonam, is an officer in the Raja's Service. The Raja considers that it would injure his dignity if Modozeappah were to appear in the Company's Court. He therefore desires that the questions for which answers are solicited from the officer should be transmitted to him through the Resident who will obtain the answers of the witness duly authenticated and forward it to the Magistrate. 2. If this proposal is found unsuitable, the Raja will direct the Agent of Modozeappah to attend the court for the purpose of being examined in the usual manner.	79
25-2-08	Sepoy Muthiah From the Resident to the Magistrate at Kumbakonam informing him that as ordered by Government he has directed the sepoy Muthiah to return to his family in the Fort of Tanjore.	85

5-3-08	Vellore Mutineers Repatriation of. From the Resident to the Magistrate at Kumbakonam informing him that the six Vellore Mutineers were delivered into the Raja's charge who permitted them to return to their villages, desiring his Sirkeel to keep their conduct under surveillance.	95
6-3-08	Raja Birth of a son. From the Resident to the Chief Secretary. A son was born to the Raja on the 4th instant. The fact should be communicated to the Governor in Council.	97

Date.	Abstract.	Page number.

From the Resident to the Collector explaining that the Raja's brother-in-law is entitled to compliments on the occasion of his journey through the country under his (the Collector's) management. The Resident hopes that he will direct that it be paid to him.	115
30-3-08	Hanumanta Rao From the Resident at Tanjore to the Poona Resident. The Raja desires that he will pay Hanumanta Rao his messenger who is at Poona a sum of St. Pag. 3,000, provided he is authorized to do so by Government.	117
2-4-08	Resident's Accounts Adjustment of. From the Resident to the Accountant-General requesting that he may be enabled to reimburse the Collector the sum of St. Pag. 17,287-37-40 being the value of the supplies made by him to the Raja and for which the latter has issued a receipt.	123

12-4-08	Raja's Lands Survey. From the Resident to the Collector. The Raja has no objection to complying with the request to measure the land under his and his queen's occupation. But as regards the land held by his servants the Collector should send his servants and have it measured.	131
16-4-08	Religious Processions Attendance of coolies. From the Resident to the Collector. The Raja offers his thanks for the issue of orders directing the attendance of coolies at the approaching religious procession at Tanjore and desires that one of the Collector's servants should attend the procession in order that his presence might facilitate its progress.	137
17-4-08	Raja's Vakil At Madras. From the Resident to the Governor. 1. The Raja has dismissed his private agent at Madras who held the situation for several years in consequence of his misbehaviour. He desires that the person whom he now intends to appoint to the vacancy should be accorded a public reception in a manner that would enhance his rank and dignity in the eyes of the people. 2. The Raja was told that it was doubtful whether the Governor would be inclined to comply with his wishes, in view of the fact that the previous Government had decided against the appointment of the vakeel. 3. The Resident observes that he is not aware of any serious objection to the reception of the Raja's vakeel and that so far as he is concerned the appointment will be particularly acceptable to him in his official capacity.	139

Date.	Abstract.	Page number.
	Raja's Visit to Vedaranniyam	
21-4-08	From the Resident to the Collector. The Raja intends leaving for Vedaranniyam on the 12th of next month. He will furnish him with details regarding the route which the Raja may take on his journey. He is desirous that the Raja should suffer no omission in the respect due to his rank and therefore requests the Collector to report to him the manner in which he proposes to receive the Raja on his journey.	143
	Sentapah	
3-5-08	From the Resident to Bavani Bai Saheb at Mahdiarjunam. 1. The widow Bavani Bai Saheb has objected to the attendance of Sentapah, one of the managers of the palace at Mahdiarjunam, as a witness in a cause to be tried by the Raja. She would not object to his being summoned before the Company's court but would not tolerate his appearance before the Raja as a witness. 2. The Resident points out to her that her conduct in declining to send Sentapah before the Raja would amount to a positive insult to the Raja which the Company would not allow him to suffer. 3. The Resident observes that he will not insist on the appearance of Sentapah unless he is ordered by the Government to whom he will forward her communications.	147
	Raja's Visit to Vedaranniyam	
10-5-08	From the Resident to the Chief Secretary. 1. The Raja intends visiting Vedaranniyam on the 24th instant. It is situated on the sea coast near Point Calimere. The Collector has made proper arrangements to receive him on his journey. The Raja will not go out of the Tanjore Province and will return to his palace after 15 or 20 days.	156
13-5-08	2. From the Resident to the Collector informing him that the Raja is satisfied with the arrangements made for his reception in the course of the journey.	157
	Bavani Bai Sahib	
14-5-08	Requests of. From the Resident to the Chief Secretary. 1. The letters purporting to be written by Bavani Bai Sahib, one to the Governor and another to the Commander-in-Chief, are forged documents. The widow Bavani Bai Sahib is surprised to peruse their contents and it is believed by the Sirdars of the palace at Mahdiarjunam that Krishna Rao is their author. 2. The letter to the Governor contains a request on four points in regard to which the Resident submits his remarks. It is desired that the late Raja Ameer Sing's son should be allowed the honour of being fanned with chamras and attended with the beating of drums when he sets out in procession outside his palace. 3. The request may be granted without exciting the Raja's resentment provided that the figures and ornaments peculiar to the throne be not fastened to the drums and chamras. The grant of this privilege would doubtless stimulate the Raja's secret jealousy and therefore the Resident recommends the postponement of the sanction till the occasion of the marriage of the prince or when a more favourable opportunity may present itself for the purpose.	159

Date.	Abstract.	Page number.
	Bavani Bai Sahib—cont.	
	4. Regarding the request for the occupation of the Kumbakonam palace the Resident observes that the Raja will never give it up to any one, he having positively refused to let Ameersing occupy it even though the latter's request was supported by the Government.	
	5. As regards the villages granted to her by Ameersing Raja and afterwards resumed by Serfojee Raja, the Resident states that a representation on the subject was made to Government at the widow's desire without any avail. With regard to her last request, which is to address the Governor on urgent occasions without the medium of the Resident, the latter remarks that she is perfectly sensible that she possesses this privilege.	
	6. The second letter said to be written by the widow to the Commander-in-Chief contains a request for the removal of Sentapah, one of the managers of the palace at Mahdiarjunam. The Resident merely points out that Sentapah is deservedly high in favour with the queen and is a suitable person to form and improve the mind of the young prince. The request must therefore have been conceived in malice.	
	Raja's Return to Tanjore	
30-5-08	From the Resident to the Collector informing him that the Raja will return to Tanjore on the 2nd June by the same route and halt at the same places as on his journey to the sea coast.	171
	Resident's Establishment	
1-6-08	Retrenchment proposal. 1. From the Resident to the Chief Secretary submitting proposals of retrenchment of his staff. 2. He observes that his present staff will not be considered as large in view of the additional duty involved by the establishment of the courts of justice in Tanjore and Trichinopoly and by the superintendence of the affairs of the late Ameersing's family and the late Tondaman. 3. The capture of Tranquebar, relieving him as it does of the correspondence with the Danish Government at Tranquebar and with the subjects of France and Holland residing there would justify the termination of the services of a French and English writer. 4. The batta hitherto paid to the guards attached to the Resident may be discontinued. Though the guards on duty with the family of Ameersing at the palace at Mahdiarjunam could be retrenched without inconvenience, yet their removal would arouse a storm of protest on the ground that it would injure their prestige. 5. The Resident in conclusion computes that the total savings that could be effected in the expenditure according to the proposal made by him would amount to St. Pag. 85-24-50 per month.	177
	Witness Summons	
8-6-08	Raja's subjects. From the Resident to the Magistrate at Kumbakonam. Venkata Row, the witness, is ill. Should he recover so far as to be able to undertake a journey to Kumbakonam the Raja will compel his attendance at the court.	195

Date.	Abstract.	Page number.
20-6-08	Military Guards Batta. From the Resident to Capt. John Butler commanding the escort of the Resident at Tanjore. The batta paid to the native officers and sepoy's of the escort will be discontinued from the 30th instant.	199
28-6-08	Resident's Accounts From the Resident to the Accountant-General. In consequence of the reduction in the expenditure ordered by the Government from 1st July next, payment of batta to the native officers and sepoy's of the Resident's escort from that period will be discontinued. He will require only St. Pag. 69½ under the head of servants' wages instead of St. Pag. 75-36-0 as hitherto.	203
28-6-08	Resident's Establishment Retrenchment of. From the Resident to the Chief Secretary. The Accountant-General and the persons affected by retrenchment have been acquainted with the orders of Government on the subject.	205
1-7-08	Witness Summons Raja's subject. From the Resident to the Magistrate at Kumbakonam. 1. The witness summoned for does not live within the Fort of Tanjore. He resides in a village called Tirupanthurathi near Tiruvadi under the Company's jurisdiction.	207
6-7-08	— Raja's servants. 2. From the Resident to the Magistrate at Kumbakonam informing him that the Raja has ordered his servant named Sirkarmahal Mullappa to attend the court with all the records required in respect of the village of Allivalayam.	215
12-7-08	Krishna Rao From the Resident to the Chief Secretary. 1. The author of the forged letter to the Governor purporting to emanate from the widowed queen at Mahdiarjunam appears to be Kistna Rao who is at present absent from Tanjore at Madras or Arni. 2. His confederates in this venture are not traceable, for every relation and servant of the widow's family has denied in very explicit terms all connection with him or knowledge of the letter. 3. The Resident surmises that the object of Krishna Rao was to ingratiate himself with the widow who perhaps would forgive his presumption if he gained the points he solicited in her name. 4. He recommends as a sufficient punishment that Krishna Rao be prohibited from entering Tanjore—a measure calculated to put an end to his intrigues and bring upon him disgrace and mortification.	227
13-7-08	Advance of Money Raja's request. From the Resident to the Chief Secretary. The Raja is in need of an immediate supply of money to the extent of St. Pag. 20,000 which he desires may be recovered by deductions of St. Pag. 3,000 a month from the proportion of one-fifth of the revenue of the present year payable to him. He supports the Raja's request from a conviction that a refusal will excite his resentment.	231

Date.	Abstract.	Page number.
27-7-08	Survey From the Resident to Lt. W. Chasse. The Tondaman has been sufficiently instructed on the subject of Maj. Lambton's survey so that no obstruction is likely to be met with from the Tondaman's officers.	233
1-8-08	Advance of Money Raja's request. From the Resident to the Accountant-General requesting that he may be enabled to give effect to the Government orders sanctioning an advance of St. Pag. 20,000 to the Raja as desired by him.	235
2-8-08	Native Provident Fund Abstract of stoppages. From the Resident to the Accountant-General transmitting an abstract of stoppages from the pay of the servants of his office on account of the Native Provident Fund for the month of July 1808.	237
8-8-08	Military Guards Removal from Madhiarjunam. 1. From the Resident to the Chief Secretary stating the objections raised by the widow of Ameersing to the withdrawal of the guards from the palace at Madhiarjunam. 2. The widow of Ameersing as well as managers of the palace were strongly opposed to the withdrawal of the guards on the ground that their presence was inevitable for the establishment of order in the palace and security against the evil-doers in the neighbourhood. Her apprehension that the removal of the guards was a mark of the displeasure of Government which might be followed by more stringent measures such as the reduction of her allowance was easily dispelled by the Resident. 3. She had no cause to fear about her palace being infested with robbers for the Court of Kumbakonam Magistrate was at hand and he could send a couple of peons to reside in the palace until the fear was totally removed. 4. She held that the widows of Tulajee Raja lived at Tiruvadi without the security of the guards even though they had a smaller establishment of servants than she had because they enjoyed the protection both of the Raja and the Company, whereas she had no one to look to for help except the Company. 5. She was told that her objections would be communicated to the Government and a small guard would be retained in the palace pending the receipt of their orders on the subject.	247
12-8-08	Bills From the Resident to the Collector enquiring if he is in receipt of the bills of exchange sent to him on the 2nd and the 3rd instant. He will send duplicates of these bills in case of their non-receipt.	259
15-8-08	Passports 1. From the Resident to the Commissioner at Tranquebar, explaining his objections to the grant of a passport to Trichinopoly for a Roman Catholic priest. 2. He is the subject of a foreign European power and is not authorized by the British Government to reside at Trichinopoly. He has therefore desired the priest to remain at Tanjore pending further communication from the Commissioner at Tranquebar on the subject.	261

Date.	Abstract.	Page number.

29-8-08	Landing of. From the Resident to the Chief Secretary. On the last occasion when the Raja's statue and the monument of the late Rev. Mr. Schwartz was landed at Madras they were entirely damaged by sea water. The Raja therefore desires the Government to take particular care this time in landing the packages of books and instruments arrived for him from England on board the 'Dundas' and 'Indus'. He also requests that a small guard of sepoys may be permitted to escort the packages to Tanjore.	275
	Resident's Accounts	
1-9-08	From the Resident to the Accountant-General enclosing his account current for the month of August 1808. He explains that the charge on account of batta to the guards at Madhiarjunam is covered by the sanction of Government in their letter, dated 17th August 1808.	277
	Provident Fund

	European Residents	
2-9-08	From the Resident to the Magistrate at Kumbakonam. There are only two persons residing in the Tanjore Fort of European extraction. One is Mr. Daniel Kohlhoff, an English writer to the Raja and the other is Mathew Yatoo, the Raja's coachman. Both are entertained in the Raja's service with the approval of Government.	285
	Butler, Capt.	
3-9-08	Claim for remuneration. From the Resident to the Raja. Capt. Butler claimed the batta due to him for commanding the Raja's sibbandy corps. The claim was supported by the Resident. But the Raja having made up his mind to allow only half the batta claimed, the Resident and the Captain declined to accept what they considered as a very humiliating offer. The Resident states to the Raja that he will never more allude to this subject of his own accord in view of the Raja having observed that Capt. Butler's claim is totally unjust.	287
	Irrigation	
5-9-08	From the Resident to the Collector. The Raja assures the Resident that his managers will take steps to see that only just the quantity of water, that is required for the villages under their control is taken from the sluices leading from the Cauveri, leaving the surplus water to flow into the eastern part of the Tanjore country.	291

The receipt for the amount will be obtained from the manager of the affairs of Tondaman during his minority.	307
	Raja's Mother	
9-10-08	Pilgrimage to Tiruvannamalai. From the Resident to the Collector of Trichinopoly. The personal attendance of the European officers of the Government does not appear necessary on the present occasion being the highest compliment paid to any person passing through the country. It is only requisite in the case of persons possessing sovereign power or holding the rank and dignity of sovereign princes.	315

11-3-08	Compliments to the Governor. From the Resident to the Raja. 1. A mere letter from the Raja conveying his compliments to the Governor on the birth of the Raja's son would do; should he, however, be inclined to adopt any other mode it would form a precedent in future. 2. The Resident desires that there should be no departure from the ancient custom. If therefore the Raja should be particular in sending sugar to the Governor he should send it through his own servant. He, the Resident, would like to do away with the practice of sending sugar on such occasions as a letter to the Governor will be entirely satisfactory and sufficient.	183

The price of diamonds, pearls and other stones greatly exceeded their anticipated value not so much from the beauty and size of the stones required by the models but from their scarcity in the market particularly the larger sort of emeralds and rubies. He had paid the heavy charges of insurance and convoy duty without which he could not ensure their safe conveyance to India especially during war time. 2. He has chosen to send the jewellery by the 'Indus' as her Captain is his friend, whom he has requested to deliver them as securely as possible to Messrs. Harington & Co., at Madras. He has delivered the Government's letter to the Raja intimating to him their decision to surrender the little fort to him. The Raja considered this act as a very great mark of favour shown him by the Company especially at a time when not only France and England but the neighbouring States were at war and the possession of the fort seemed a matter of necessity. The Raja requests that two of the guns placed on the ramparts of the fort may be left in his charge for the purpose of firing salutes. The Resident recommends the grant of the request.	107

Poona Vakil		
27-6-09	From the Resident to the Governor, Sir George Hilario Barlow. 1. The Poona vackeel on the 31st May last delivered him a letter of introduction from Col. Close and desired to be introduced to the Raja. The Resident declined to interfere in his affairs unless ordered by the Government. The vackeel for a month past has been fruitlessly endeavouring to gain an audience with the Raja and put into his hands the Peshwa's letter. 2. Secret information from authentic sources shows that the Raja is resolved from motives of economy to avoid the interview with the vackeel. Neither the Raja nor the Resident has spoken about it during their meetings. 3. The Resident objects to the interview of the vackeel with the Raja because, firstly in previous years the Raja had abused the privilege of intercourse with the northern chiefs and secondly it is proper to diminish the Raja's interest in the welfare of the Mahratta chiefs and the glory of their common name. He will not suffer the vackeel to have any dealings with the Raja unless the Government direct him otherwise. He encloses his correspondence with Mr. George Buchan on this subject.

	1. The Poona vakeel has frequently applied to him in vain for securing his interview with the Raja. The Resident told him that he could not act in the matter unless directed by Government. The vakeel has again come to him informing him that the sirkeel had sent him word that the Raja is prepared to accord an interview to him provided the Resident agreed to it.	
	2. The Resident observes that the sirkeel is perhaps acting independently of the Raja in thus improperly seeking to throw upon the Resident the responsibility for preventing the passage of letters between the Peshwa and the Raja. The Resident reiterates that the affair of the vakeel meeting the Raja entirely rests with the Government at Madras and that he is powerless in the matter.

15-2-09	Blackburne, Maj. W. -Resignation of office of Resident. From Maj. Blackburne to Venkata Rao. The Raja has begun his battle with him. He dreads the result for the sake of his son whom he (Maj. Blackburne) has engaged to protect and defend. He has resigned his office to Mr. W. Hardy who will forward to the Governor the Raja's complaint against him. He had sent his hircarrah to ascertain from the sirkeel whether the offer of compliments on his own account or on behalf of the British Government on the occasion of the general rejoicing of the birth of the Raja's son would meet with the approval of the Raja. 2. The sirkeel appears to have replied that a salute from the guns of the little fort and the present of khilats and clothes would do and that the Resident's presence was unnecessary. The sirkeel's answer is an unmistakable affront to the Resident who infers that the Raja was not consulted in the matter. 3. He therefore requests the Raja to communicate to him direct in what manner he would be pleased to accept from him the congratulations and testimonies of public satisfaction.	41

He hopes that his experience and judgment and his gratitude to the Company will stand the Raja in good stead in the future. 18-4-09	Raja's Accounts with Messrs. Hunter and Hay From the Raja to Mr. J. Hunter. The Raja's vakeel Ramajee Chakrapany obtained the sum of St. Pag. 900 on his own account as he was not authorised by the Raja to draw the amount in his name. Let Pratap Sing, the late Raja Ameersing's son, enjoy the respect and attention to which he is entitled as the grandson of the Raja Pratap Sing. He could not believe the report of the Raja's name being included among them until it was confirmed by his enquiries at the office of the Court of Directors. 2. Himself and the Resident have time and again reiterated the advantages and the expediency of the Raja's steadfast adherence to the English who have proved their power in every battle they have fought in India being actuated by nothing more than to carry peace and happiness to the homes of their subjects. The objection of Messrs. Hunter and Hay to pay the sum of St. Pag. 600 due to the Raja as interest on his bond in this account is unreasonable. The Raja desires the Rev. 	Tanjore Resident	
22-2-11	From Mr. Torin, London, to the Raja. 1. In the selection of a future Resident at Tanjore the Raja should bear in mind that an officer for that situation should be a person of "known established character whose opinions will have weight with Government and will require them to listen to the Raja's representations and to consider him as a friend and ally." 2. There are among the civil servants persons of greater ability than Mr. K.—, whom the Raja favours for the situation. But if the choice of Government should fall on Maj. Blackburne there could undoubtedly be no better officer for the place.	55-61
	Torin, Mr.	
22-2-11	Appointment as Raja's Agent in England. From Mr. Torin, London, to the Raja. 1. It would have been better for the Raja not to have publicly announced Mr. Torin's appointment as his Agent in England by the issue of credentials. It would be more gratifying to him to work for the Raja's cause as a friend than as his Agent. 2. If the Raja is bent upon purchasing a house for the accommodation of his Agent he would suggest the purchase being effected in the Raja's own name so that it would be available for occupation by the future Agents.	62-6

	Raja	
5-9-11	From the Raja, to the Resident. He is now residing at the Manamelkudi Chattram. As it would be inconvenient for the Resident at Setubava Chattram to meet him at this place he need not undertake the journey. He would himself be going over to Setubava Chattram on his return to Tanjore.	215

	Marble	
17-9-11	From Mr. Torin, London, to the Raja. The block of marble required by him is not available at present. The supply of that material in this country is scarce and when obtained it is likely to cost as much as Pag. 2,000 for its size. He will procure it at the first opportunity.	225-8
	Civil Servants	
17-9-11	From Mr. Torin, London, to the Raja. 1. He is relieved to hear that Mr. Woodcock, the Judge is transferred from Tanjore. His conduct as a Judge towards the Raja was not wholly correct. His successor Mr. Powney is Mr. Torin's friend. He ought to be very attentive to him, on his recommendation. He is glad to hear of the Raja's approval of the character and conduct of Maj. Blackburne. 2. It is the desire of the Court of Directors that every respect and attention should be paid by the Company's servants to the Raja and if the latter err in "these great points" it is for the sake of satisfying their variety.	229

	system was inapplicable from the country's peculiar situation and the superior rank of its inhabitants. It is at the same time too expensive to have one Collector and his cutcherry at Negapatam—a place rather distant from the centre of his business.	
	Raja's Agent	
30-9-11	From the Raja to Mr. Torin, London. He is convinced of the impropriety of appointing Mr. Torin as his public agent in England. Mr. Torin shall continue in future to execute his commissions in the capacity of a private agent as usual. He shall be paid through Messrs. Harrington & Co., at Madras an annual salary of £1,000. For the amount of £4,000 already sent to him he shall either purchase a residence for his use or invest in any other profitable manner.	233
	Tanjore Administration	
30-9-11	From the Raja to Mr. Torin, London. 1. The "irregular proceedings and the ostentatious formalities" observed in the Courts of Justice and the corruption and mismanagement in the Revenue Department are all due to the ambiguity of many of the regulations recently introduced. 2. As a result of the extortion practised by many of the revenue officers most of the mirasidars are reduced to a state of poverty unheard of in this country, being obliged to sell their lands and even their utensils at outcry for the lowest prices. 3. If purchasers cannot be found, owing to general poverty in the country, the lands are bought in by the Circar and its produce plundered by those appointed to take care of its cultivation. 4. Such is the unfortunate effect produced by the machinery of a Government tending not only to disturb the peace of the people but also to complete their misery and ruin by "subjecting them to the caprice of some self conceited Rogues."	237
	Horses	
4-10-11	From the Rev. Mr. J. Kohlhoff, to the Raja. The Rev. Dr. Commerar's Acheen horse is for sale. He paid St. Pag. 70 for the animal. The Raja, if he likes it, may purchase it for any proper sum.	247

9-10-11	—Raja's reply. 2. He has ordered a salute of 21 guns to be fired from the fort ramparts in commemoration of the victory.	255
	Raja's Presents	
21-10-11	From the Resident to the Raja. 1. The arrival at Tanjore of Mr. and Mrs. Strange provides a suitable opportunity for the Raja to offer any presents to the lady in return for "the beautiful specimen of her talents" which she sent to him.	259
22-10-11	—Reply. 2. He will present a beautiful shawl to her.	261

	Grain	
26-12-11	Supply to the Raja. From the Raja to Mr. Torin, London. 1. He was receiving the usual supply of paddy at the market rate till the year 1809 as provided by the 15th Article of the treaty. Last year an excess of one fanam per Kallam over the market price was demanded in consequence of the mirasidars of the particular villages from which the Raja expected his supply to be made having refused to part with their paddy for a lower rate. 2. Without having regard to the provisions of the treaty according to which he is at liberty to procure his supply of paddy at the current market price from any of the villages he might choose for his convenience, the Government agreeing with the Board approved the excess price. However he has acquiesced in the view of the Government, leaving Mr. Torin to settle the matter in England with the Directors, in his favour.	289

26-12-11	From the Raja to Mr. Torin, London. If Messrs. Harrington & Co., close down their business at Madras as intimated by them how can he send his remittances to him in future? He will consult Mr. Blackburne in the matter.	293

The cultivators enjoyed the mirasi privileges during that period paying the usual melvaram to the Brahmins who are the inamdars. 2. As the latter now seek to deprive the cultivators of their rights treating them only as purakkudis, the Raja is requested to redress the grievances of the cultivators.	295

7-3-12	Raja's Vakil at Madras From Mr. Torin, London, to the Raja. 1. It was the Governor Lord Hobart who declined to permit a vackeel from any darbar to reside at Madras when an English gentleman in the character of a Resident was stationed at that darbar. It was rightly apprehended that this would lead to considerable embarrassment from the different representations of the same subject referred to the Governor. 2. If the Raja's vackeel were received as his public representative at Madras it would necessarily involve the withdrawal of the Resident from the darbar, "thus leaving the channel of communication between the Raja and the Company's Government much more limited and less effectual than before." The disadvantage to the Raja is clear especially in respect of his contentions with the Collector and the Judge. The Governor on these occasions, is liable to give in more readily to the representations of the Resident than to the remonstrances of the Raja's vackeel. 3. If the Raja still persists in the appointment of a vackeel at Madras he could not gain his point unless the Raja promised to make no representation to the Governor through the vackeel so long as the Resident continued in his darbar.	83
7-3-12	Raja's Relations with the Civil Servants From Mr. Torin, London, to the Raja. 1. The Raja does not seem to get on well with the civil servants of the province. If the services of an able and tactful Resident in the person of Mr. Blackburne were lost to the Raja he would perceive how difficult it is to conciliate the civil servants employed in the country.	87

Date.	Abstract.	Page number.
	Raja's Relations with the Civil Servants—cont. 2. The inhabitants are "litigious and turbulent" and if in the process of reducing them to order the Raja's servants interfere the result must be vexatious to the Raja unless the Collector and the Judge are friendly with him and have confidence in his discretion. 3. If they made the Governor believe that the difficulties in the administration of the country proceed from the incessant and unwarranted interference from the palace the Raja's position would become unpleasant and people in England would have a poor opinion about him.	
12-3-12	Ramu Mudali From the Resident to the Raja. The Raja has indefinitely postponed the consideration of the petition of Ramu Mudaly. The Resident will not again draw the Raja's attention to the subject. He has left Ramu Mudaly to decide for himself the line of his future conduct.	91

The Tahsildar now requires the refund of the advance when the grain is almost collected and ready for delivery. The Raja is requested to see that the Tahsildar does not cancel the contract as otherwise the inhabitants would experience considerable distress.	179

	Ramanapah	
20-8-12	From the Resident to the Raja. The incalculable disgrace and odium into which the Raja's Government has fallen is a proof of the extent to which the Raja is influenced by the wretch Ramanapah, his Minister. He is unequalled for his capacity and for tutoring the Raja into a belief that a sovereign is a deputy appointed by God to plunder, instead of protecting the people under his charge. It is the desire of the Resident that the Raja should, ere long, wake up from the torpor into which he has temporarily sunk.	229-41
	Hindu Law

	Marriage of Pratap Sing	
25-9-12	From the Resident to the Raja. If it is true, as he has heard, that the Ow Saheb at Tiruvadi by marrying her foster daughter to Pratap Sing, the son of the late Raja Ameersing, proposes to unite herself with the family at Mahdiarjunam leaving the Raja to stand by himself, the Resident will not interfere to prevent it as it does not become his duty.	263

	Ramanapah	
21-10-12	From the Resident to the Raja. 1. He should no longer be under the influence of his minister Ramanapah—a wretch who is degrading the administration of the country beyond belief by obstructing the course of justice, imprisoning innocent people, plundering the revenues of the chattram and of the country.	285
27-10-12	2. He observes to the Raja that he has done a very wise act in removing the abominable Ramanapah from office. As it is important that the officer at the head of the administration should be fully aware of the Raja's connection with the British Government and become wholly responsible for all the acts of the administration, his choice of a successor to Ramanapah falls on Subba Rao.	289
	Medicine Chest	
31-10-12	From the Rev. John Kohlhoff to the Raja requesting him to forward a small box containing medicines to the Rev. Dr. Rotler at Madras.	301

1813.

...	The correspondence contained in these pages is found in Vol. 3432.	5-23
25-1-1813	Raja's Letters From Mr. Torin, London, to the Raja. The Raja's letters to his friends in England, viz., Mr. Huddleston, the Earl of Buckinghamshire and Lord William Bentinck were well-written. The last named gentleman, being away at the war against France, he will deliver his letter as soon as he returns.	25
25-1-13	Raja's Wakil at Madras From Mr. Torin, London, to the Raja. 1. There does not appear to be any objection to his vakeel being publicly received by the Governor at Madras. He is surprised at the Government's refusal to recognize any person at Madras as the Raja's agent. 2. In the case of the Nizam and the Peshwa who have British Residents at their Courts, such an appointment would likewise be objected to for the general reason that no separate channel of intercourse other than that through the Resident would be permitted as it would lead to difficulty and embarrassment. 3. Now that the Raja's friends have come to take a part in the administration of the British possessions, Mr. Torin will strive to accomplish the Raja's desire if he continues to think that "a deviation from the established order of things" is necessary. 4. Mr. Torin points out that if a less experienced and interested person succeeds Lt.-Col. Blackburne as Resident any interference on the part of the Raja's agent in regard to matters usually dealt with by the Resident would endanger the Raja's interest.	...
25-1-13	Paddy Supply to the Raja. From Mr. Torin, London, to the Raja.	32

Date.	Abstract.	Page number.
	Paddy—cont. 1. The Governor ought not to have referred the question of the price of paddy supplied to the Raja, to the Board of Revenue—a matter purely to be settled between him and the Company according to the terms of the treaty. 2. Sir George Barlow will soon be succeeded by Genl. Abercrombie and in a few months by another Governor from England. This event will be opportune for the Raja's friends in England to enter into an explanation with him on these points.	
25-1-13	Harington & Co., Messrs. Dissolution of. From Mr. Torin, London, to the Raja. 1. He is sorry to hear of the crash of Messrs. Harington & Co. at Madras. It is some satisfaction to learn that this "excellent and generous" Mr. Harington whose whole life has been a series of benevolent actions is overwhelmed with a misfortune to be attributed to the disastrous state of all commercial concerns in the country and not to idle and dissipated habits. 2. His son has secured an appointment in the Company's service at Madras through the exertions of his relation, Mr. Huddleston, and it is hoped that in the course of ten years two of the eldest girls of the family might be prepared to proceed to Madras to comfort and support their distressed parents. 3. It is very generous and magnanimous on the Raja's part to have not only made light of his losses on this account but also to have extended his bounty and refused to receive back the little that was spared of his property in the general wreck of Mr. Harington's affairs. 4. Mr. Torin desires that the Raja should permit Mr. Harington to negotiate all his transactions with Mr. Torin at the house of Messrs. Arbuthnot & Co. It is good to have his advice and assistance on all occasions.	37
25-1-13	British Victory From Mr. Torin, London, to the Raja. He is glad to inform him that the English have completely vanquished Bonaparte. They have triumphed over all their enemies in the East and the West and "prepared for the world many years of peace and tranquillity."	43
25-1-13	Horses From Mr. Torin, London, to the Raja. He has sent on board the "Neptune" a horse of good breed to his brother at Bombay with instructions to be forwarded to the Raja. It is a colt of great promise for strength and beauty worthy of being retained in the Raja's stables.	44

27-2-13	Nautan vaikal. From the Superintendent of Tank Repairs to the Collector. Obstruction is caused to the flow of water in the nautan vaikal by the accumulation of sand in the bed of the channel in consequence of the Raja's subjects of the village at the head of the channel being allowed to plant gardens in its bed. The Raja should be moved through the Resident to clear away the obstruction. These letters are found in Vol. 3432.	81-93

There are many persons desirous of going to India not only as merchants but as missionaries in the cause of religion to follow in the path of Mr. Schwartz. The Raja need entertain no fears on account of the arrival of more missionaries for by an Act of Parliament His Majesty's Government have determined that "the Religion of the Natives of India shall not be violated but preserved to them as heretofore." Raja's Mother		
24-12-13	From Mr. Torin, London, to the Raja.	413
	1. The Raja's mother at Tiruvadi by giving her foster daughter in marriage to Pratap Sing, has abandoned him and gone over to the family of the late Raja, Ameersing at Mahdiarjunam. The Raja need not be alarmed at the "violent and indiscreet" behaviour of this lady and entertain any apprehension of the reversion of the musnud to the line of Ameer Sing.	
	2. The reasons for which the Company dethroned the late Raja were that he was illegitimate, oppressive and unjust. When the "notorious" conduct of Ameer Sing's government comes to be contrasted with the character which the Raja has established with the East India Company and with his subjects, it is unlikely that any alliance formed with the descendants of one party could operate to the prejudice of the other.	
Marble		
24-12-13	From Mr. Torin, London, to the Raja.	418
	Perhaps the Raja does not approve of the marble being purchased at an enormous cost. If he could wait for a few years, it could be procured considerably cheaper. Meanwhile the Raja's workmen might be trained in the practice of the art of statue making by getting up a model in clay and later working with stones to be obtained from the country, so that they may not, for want of skill, destroy the marble.

17-1-14	Appa Rao From the Resident to the Raja. 1. When Appu Rao was holding an important position in the Revenue Department he was found, as the Raja knows, to be corrupt and harassing people. He was consequently dismissed from Tanjore and an embargo laid on his visits to the Raja. 2. The Resident is now shocked to hear that the infamous Appa Rao is making his way to the royal presence having prevailed on the Raja to believe that by his influence with the civil servants at Madras he can induce the Government to reject the applications of Nana Saheb. The Raja should not allow himself to be duped by this person nor permit him to visit him.	9

26-1-14	Nana Sahib From the Resident to the Raja. 1. There are numerous difficulties preventing any arrangements being made in regard to Nana Saheb's claims against the Raja. All that he can suggest in the interests of the Raja is to refer the matter to the Governor and abide by his decision. 2. He is willing to agree to any settlement which the Resident may make. It is not prudent to submit the matter to the arbitration of Government.	26-7

26-2-14	Schwartz, Rev. Frederick From the Raja to Mr. Huddleston. Though the noble example of kindness and forbearance in the late Rev. Frederick Schwartz is lost yet the consolation remains that the same qualities in him would produce the same effect.	42
26-2-14	Blackburne, Lt.-Col. W. From the Raja to Mr. Huddleston. Lt.-Col. Blackburne is an experienced and clever person. On account of his advice he has been saved from many evils. He exerts himself a great deal to preserve his honour and dignity.	43

16-3-14	Appa Rao From the Resident to the Raja. 1. Appa Rao is a dupe and an intriguer. On account of his corruption several irregularities were committed in the Revenue Department. He was therefore banished from Tanjore. He is now frequenting the palace and paying visits to the Raja through the help of the sirdars at the palace whom he was able to influence. 2. The Resident has already requested the Raja not to receive any visits from him. The Governor is of the same opinion and if the Raja should persist in not heeding his advice unpleasant consequences might follow.	63

	British Victory	
30-4-14	From Mr. Torin, London, to the Raja. The power of Bonaparte is completely crushed by the English and their Allies. The French King who sought refuge in England has returned to his country. The victory undeniably proves the strength of the British over their enemies and of their capacity to shelter and secure all their friends.	103
	Raja's Mother	
30-4-14	From Mr. Torin, London, to the Raja. He need not be ruffled over the conduct of his wicked queen mother at Tiruvadi who has allied herself with the family of Amersing leaving him alone and to stand by himself. Her impotent malice would in no way affect his connection with the Company so long as he was careful to fulfil his engagements with them and his conduct was approved by the Governor.	105
	Ramanapah	
30-4-14	From Mr. Torin, London, to the Raja. The Raja's Minister, Ramanapah, by his shameful exactions has been spoiling the Raja's good name and exalted character—all "for a few fanams." The Raja must be highly indebted to Lt.-Col. Blackburne for having made the Government see that he, the Raja, had no knowledge of the infamous proceedings of his wicked minister.	108

Date.	Abstract.	Page number.
	Ramanapah	
10-6-14	From the Resident to the Raja. Mr. Torin has written to him on the subject of Ramanapah's excesses. He shares the Resident's opinion in regard to the danger to which the Raja was exposed by the profligacy, rapacity and unprincipled character of his minister.	151
	Horses	
13-6-14	From Mr. R. Torin, Bombay, to the Raja. His brother has sent him a colt to be presented to the Raja. He proposes to send her to Mangalore. The Raja might depute one of his men to take charge of her and take her overland to Tanjore.	153
	Nana Sahib	
13-6-14	From the Resident to the Raja. 1. He has heard from Nana Sahib that the Raja made overtures to him, promised him freedom to go outside the fort and to offer him enhanced allowances. The Governor would rejoice at the restoration of harmony between these two families and at the prospect of being relieved of his efforts directed to that end. 2. He is surprised to learn that Mahadeek Rao is the cause of this unauthorised overture to Nana Sahib. The Raja must punish him by banishing him from the Tanjore Province.	157

As it is inconsistent with his dignity to allow any other person to wear jewels which are his marks of sovereignty he requests that Pratap Sing may be prohibited from using them.	301-18

	Pratap Sing	201-8
24-5-20	Insignia of rank. From Mr. Torin. 1. The Raja is advised not to listen to the Resident's advice to let matters alone. The latter seems to be perplexed how to act because having encouraged Pratap Sing to use them he cannot now forbid him to do so. That is why he tries to achieve his object by obtaining the orders of Government. 2. The Raja may be sure that neither the authorities in India nor the Court of Directors will countenance such presumption on the part of Pratap Sing whose legitimacy itself has been seriously questioned. He may therefore inform the Resident that he is prepared to abide by the orders of Government. This will surely induce the Resident to order Pratap Sing to abandon the ornaments.

Letters from the Board.
1821.

Date.	Abstract.	Page number.
4-1-1821	Venkat Row Late Sarishtadar—Shrotriyam—Board's remarks. 1. Combaconum Venkut Row was given the shrotriem village of Villianellore so that he "should enjoy a clear allowance of Rs. 1,750 per annum." He should not infringe on any of the rights of the meerassidars but should stand "towards them in the place of the Sirkar." 2. The benefits of the proposed remission should be given to them rather than to the shrotriundar, whose profits can increase only by improving the land. If he persists in his request for the village to be placed under the management of Government that may be done, but after the current fasli "he must look to the Regulations and the Civil Courts and not to Government for protection." [See 4190/37-42.]	1-3
12-3-21	Jamabandi Report F. 1230—Review. 1. The total number of villages settled up to the 15th of January 1821 is 4,109 of which 3,988 were included in the last lease. The net decrease incurred by the settlement is Rs. 1,02,029 which amounts only to 3 $\frac{1}{4}$ per cent. of the revenue of 1229. This result is very satisfactory when it is considered that the late Collector expected a reduction of more than 10 per cent. 2. The Collector suggests that the settlement may be made for three or five years. The Board is of opinion that the period should be left to the option of the mirasidars. 3. Government commend the work done by Mr. Cotton.	33-8
22-3-21 16-4-21	Jamabandi Report F. 1229—Review. 1. There appears to be an increase in all the items of land revenue. The revenue derived from the villages under amani is lower than the average of former years. This is accounted for by the damage done by floods. The Board notices with satisfaction the gradual discontinuance of the amani system and the great increase of revenue which has resulted from the change. 2. The seasons have been so unfavourable that large remissions had to be made. The claims against the renters of 751 villages may be entirely remitted. The Collector should forward a statement of such further remissions as he may consider necessary. 3. Government approve the remissions made by the Collector. They consider that the balances for the whole of the quinquennial lease have arisen from unavoidable causes and therefore call for unity and indulgence.	163-76 179-82
14-6-21	Triennial Lease Proposals—Board's remarks. 1. The Board forwards a copy of its proceedings to the Collector. 2. The proposal of the Collector to enter into a triennial lease with the mirasidars is acceptable to the Board. It is not advisable to enter into a longer lease just now because the price of grain is steadily falling and it may be difficult to realise the rents. If on the other hand the price of grain goes up it will be possible to enter into more advantageous terms at the end of this short lease. 3. The Board accepts the reductions in rent proposed by the Collector.	189-98

	Assessment on wet lands	
21-6-21	Tanjore and adjoining districts—Board's proceedings. 1. On the representation of the Collector of Trichinopoly that the assessment on the wet lands in his district was very high the Collectors of Tanjore, Salem and Coimbatore were directed to report upon the rates of assessment adopted in their districts. 2. The result of the investigation showed that the rate was nearly 40 per cent. higher in Trichinopoly than in Coimbatore. The rates in Tanjore were slightly less than those in Trichinopoly. The rates in Salem were the highest.	201-19
	Jamabandi	
5-3-21	Tiruvadi and Papanasam—F. 1230. From the Second Assistant Collector. The scarcity of rain and the want of water in the lakes accounts for a decrease in the area under cultivation. The mirasidars in this neighbourhood are habitual thieves, and several of them have absconded. The kists have not been regularly paid, but the mirasidars have large quantities of grain lying on their hands. When it is sold the Government demand will be recovered.	245-7
	Muctambapoor Car festival	
4-2-21	Requisition for coolies. From the Resident at Tanjore. 1. The Resident represents that failure to conduct the festival would be considered in some degree as a stigma upon the religious and charitable institutions newly established with the consent of Government. He therefore desires the help of the Collector to obtain the coolies necessary to drag the car. 2. The Resident forwards a letter received from the young Raja in which he states that the festival was conducted satisfactorily with the help of the coolies supplied by the native officers of Poovanoor and Papanad.	349-51
17-2-21		355-7
	Ragoonath Tondaman	
13-3-21	Visit to Pattukkottai. The Resident at Tanjore represents that when the Raja's brother Ragunath Tondaman and wife visited the taluk of Pattukottai in order to see the Poligar of Cullicote, the Tahsildar did not pay them the usual respects.	365-6
	Karikal	
5-3-21	Caste disputes—Interference by people of the British territory. From Maj. Fraser. The Collector is requested to prevent the inhabitants of the British territory adjoining Karikal from interfering in any manner with the disputes existing at that place between the right and the left hand castes.	385-8
	Tanjore Mission	
5-3-21	Landed property statement.	395-7

**Letters from the Board.
1821.**

	Commutation rates	
12-7-1821	Government policy. It is the intention of Government to allow a further reduction of the assessment whenever the price of grain shall fall five per cent. below its present rate. On the other hand no increase shall take place unless there is a rise of 10 per cent. The Collector should give wide publicity to this, so that it may inspire confidence in the people. They may enter into a settlement for any number of years on these conditions.	23-9

	Shrotriyam	
10-11-21	Villianalloor—Exchange for one in Tinnevely—Vencatrow's petition. On the recommendation of the Board of Revenue, Government permit Venkatrow to exchange his shrotrium village in Tanjore for one in his native district of Tinnevely. The Collector is directed to arrange the exchange of villages.	75-9
	Jamabandi Report	
24-9-21	F. 1230—Further proceedings of the Board.	91-101
29-11-21	1. The total revenue including all the sources shows a decrease of about Rs. 50,000, which is very creditable to the Collector, when it is considered that large remissions had to be allowed in most of the villages on account of the damage done by floods, and the low price of grain. 2. The number of rented villages has risen to 4,179 thereby reducing the number under amani to 542. In 299 villages under amani there was a decrease in the extent of cultivation. In the remaining 243 villages there was a very great increase of cultivation and a consequent increase of revenue amounting to more than Rs. 27,000. 3. The continued fall in the price of grain has forced the Collector to avail himself of the permission granted to him to allow remission. This accounts for the decrease under rented villages and villages under grain rent. 4. The rate of 'warum' allowed in amani villages to the ryots is 45 per cent., the charges of management being defrayed by Government. 5. Government express their satisfaction of Mr. Cotton's work.	
	Agricultural Advances	
26-11-21	Repayment of account of revenue—Board's remarks. There appears to be a practice by which a great part of the customary advances for cultivation is paid back immediately into the treasury in liquidation of arrears. Cultivation has suffered greatly on account of this system. The Collector should put an end to it.	113-5
	Amani Villages	
3-7-21	Renting proposals. Mr. Roberts, the Sub-Collector, reports that he is trying to persuade the mirasidars of amany villages to undertake the rent of their several lands. The backwardness of the season, however, induces them to hold back from such an arrangement. The servants employed to look after the amani villages have been recently replaced by new men. It is expected that they will be more honest than their predecessors.	127-9
	Tahsildar of Mayavaram	
17-7-21	Dismissal of. 1. The Sub-Collector reports that he has dismissed the Tahsildar for negligence of duty and disobedience of orders. He sold 6,000 calams of seed-grain without the permission of the Sub-Collector and there is room to suspect that he did it after the receipt of orders to reserve it. He has defrauded Government by selling it at 13 cash per calam less than the authorised price. The Tahsildar being a rich man does not care for the emoluments of his office and consequently neglects his duties.	143-6

Date.	Abstract.	Page number.
7-8-21	Pratap Sing Interference with public servants. Mr. Roberts, the Sub-Collector, reports that one of the revenue defaulters took refuge in the house of Pertab Sing and that the latter refused to give him up. The prince is also known to have interfered on several other occasions with the Tahsildars and other public servants in the execution of their duty. Mr. Roberts suggests that some rules may be laid down for the guidance of Pertab Sing in this respect.	175-7
9-8-21	Cultivation Monthly report of.	181-96
12-10-21	From the Sub-Collector, Mayavaram division.	259-76
30-10-21	1. Mirasidars who were known to be rich were not given agricultural advances. This enabled several of the poorer ryots to receive a larger sum than was originally estimated for and which they actually required. 2. The quantity of seed-grain sown is comparatively small. This is explained by the unfavourable occurrence of floods in the river. The crop is expected to be poor. The native servants are exerting themselves to redeem the losses resulting from the unfavourable commencement of the season. 3. The progress of 'cudimaramat' has been poor, chiefly owing to the indulgence shown to the mirasidars by their relations in public service. A large extent of secreted cultivation has been brought to light of which the Sub-Collector forwards a statement. 4. Cultivation has been extended to equal that of the last fusly. The freshes have been very late but every advantage has been taken of them. Statement showing the extent of cultivation under the various heads are enclosed. 5. Overseers have been appointed to the several villages in which the produce of last year was considerably below the jamabundy estimate. These overseers or ameens will be paid by the mirasidars. This is likely to induce the mirasidars to rent their lands instead of leaving them under Sircar management.	297-300
5-12-21	Frontier dispute Karikal and Nannilam. The Sub-Collector of the Mayavaram division reports that certain lands are claimed by the mirasidars of Karikal and Nannilam as being theirs. He requests that steps may be taken to settle the boundary and prevent similar disputes in future.	349-50
26-8-21	Pratap Sing Interference with public servants. From the Resident at Tanjore. The Resident reports that the Prince totally denies the charge of interfering with the Tahsildar. Though the words of the Prince are not to be accepted as entirely true the Sub-Collector may be requested to make a further enquiry into the circumstances which gave rise to the complaint.	383-5
28-11-21	Car festivals Coolies for dragging the cars. The Resident forwards a letter received from the Sirkele of H.H. the Raja of Tanjore in which he requests that arrangements may be made by the Collector to furnish the coolies required to drag the cars during the important car festivals.	407-9

26-2-1822	Raja of Tanjore Pilgrimage—From the Chief Secretary to Government. On his return from pilgrimage the Raja will proceed via Cuddapah, Tripetty, Calestry, Madras, Conjeeveram, Trevannamallee, Chidambaram, Tanjore and Ramaswaram.	1
23-4-22	Barnes, Sir Edward Visit to Tanjore. The Chief Secretary intimates that Sir Edward Barnes should be suitably received while he stays in the district in the course of his tour via Tuticorin, Madura, Trichinopoly and Nega-patam.	3-4
17-1-22	Settlement F. 1231—Encouragement of money payments. From the Board of Revenue. 1. The Board forwards a copy of its correspondence with Government regarding the method of settlement proposed by the Collector for fasli 1231. It is impossible to form an accurate estimate of the produce of any one year or its actual selling price at the time of the harvest. Owing to the great fluctuations in price experienced latterly it is difficult to make a money assessment which will be fair to the people and to Government. 2. The Board lays before Government the rules framed by the Collector for making the settlement of the current fasli. (a) The standard produce of each village will be ascertained and permanently adopted. (b) The prices of f. 1230 will be taken as the standard prices from which there will be no change unless the market price falls by 5 per cent. or rises by 10 per cent. (c) The Government share of the produce will be calculated in the following manner. The sodunt-rums and maniyams will be deducted from the ascertained gross produce. The remainder will be divided between the inhabitants and Government in the proportion of 50 per cent. and upwards to the people and the remainder to Government. (d) In the villages where meerasidars object to a money assessment the proportion will be 45 per cent. to the people and 55 per cent. to Government. 3. The Board suggested that the division should be made at the rate of half and half, considering the distress of the mirasidars and the low price of grain. This division in 136 villages would show a total decrease of nearly 7 per cent. below the revenue of fasli 1230 and 13 per cent. below that of fasli 1229. The Board therefore directed Mr. Cotton to endeavour to modify the estimates if possible. 4. Government approve these proposals. They notice that the rules regarding the division of the produce are more complex than is necessary.	9-26
14-1-22	Venkat Row Late Sarishtadar—Shrotriyam. [See 4188/1-3.] On the recommendation of the Board, Government direct that Venkat Row, late Sheristadar of Tinnevely, may be given the village of Palliarcollam in Tinnevely instead of Villia-TAN. VI—26	37-42

nellore in Tanjore district. The beriz of the village being Rs. 639 more than Rs. 1,750 allowed to him it is ordered that he should pay a sum of Rs. 639 every year to Government.

Settlement

22-1-22

Mayavaram Division. 8
From the Sub-Collector.

95-9

1. Certain doubts regarding the method of adopting the new form of settlement are submitted to the Collector. In the villages which came under amani only in f. 1230 there are several in which the produce was considerably higher than that shown by the accounts. The Sub-Collector desires to know whether in such cases the produce of f. 1230 is to be taken as the standard produce.
2. He also desires to know whether the new method of settlement would affect the triennial lease granted to several pagoda villages in f. 1230.
3. Orders are also requested on the procedure to be adopted in the case of villages where some of the mirasidars agree to the settlement and the remainder desire their lands to be kept under amani.

Settlement Report

14-2-22

Mayavaram Division—F. 1231.

135-9

1. More than half the division has been settled already. No great objection has been met with from the mirasidars. There are still 140 villages in the Kumbakonam taluk which have not been settled. The sequestered villages are so much in arrears that they cannot be placed in the hands of the mirasidars. The settlement of the Pagoda villages is uncertain. The mirasidars in some of the amani villages are so rich that they frustrate the endeavours of the Sub-Collector to settle with them.

28-2-22

2. Several mirasidars are prepared to accept the superintendence of their lands on the condition of being allowed 45 per cent. of the produce. They consent to a money assessment to be fixed hereafter with reference to the average selling prices of grain.

157-8

Tahsildar of Nannilam 8

3-5-22

Complaints of corruption.

217-23

1. Mr. Roberts represents that on receipt of complaints he has been in the practice of instituting enquiries. But at the time of the enquiry he has always found that the parties refuse to admit the statements made by them and in many cases deny even their names at the bottom of the petitions. In the present instance in which a petition is received from certain mirasidars of Nannilam the Sub-Collector has no doubt that the enquiry will be fruitless, as no complaints were made to him when he visited the place a short time ago.

11-5-22

2. Enquiry shows that the parties who are supposed to have addressed the petition are ignorant of it. It is always difficult to ascertain the truth in such instances. The really aggrieved parties do not come forward in many cases but hope that as a result of the petition sent to the Collector by somebody the public servant will be dismissed. He is consequently disappointed when this does not happen. On the other hand malicious persons may address petitions impeaching the character of public servants. It is always desirable that complaints should be made in person, in order to obviate these difficulties.

Mayavaram Division—F. 1231. 8

287-342

1. Mr. Roberts, the Sub-Collector, forwards the statements showing the settlement of the taluks under his charge and states in detail the various difficulties he met with in carrying into execution the new form of settlement sanctioned by Government.
2. When compared to the local revenue of f. 1230, there is a decrease of more than Rs. 55,000. The decrease has been occasioned in the amani villages which have increased greatly in number during this fasli.
3. This increase in their number is accounted for by the extremely unfavourable season. The first crop proved bad, so that under the option allowed to the mirasidars most of them refused to settle for a money assessment. A large extent of land has been left uncultivated owing to the want of water. The native servants have spared no pains to increase the extent of cultivation.
4. In this connection Mr. Roberts discusses the propriety of allowing an option to the mirasidars. As early as 1800 it had been observed by the Board that if the mirasidars refuse to cultivate to the full extent of their power Government may assign their lands to payacaries. The mirasidar has a right to the land only so long as he safeguards Government from any loss of revenue. It is open to Government to obtain from another what the mirasidar refuses to give, provided the mirasidar is warned of the consequences of his refusal to cultivate all the lands he ought to cultivate.
5. The present policy of optional settlement is at variance with the principle mentioned above, and the losses incurred by the unwillingness of mirasidars to settle for a money assessment have to be sustained entirely by Government. When the standard produce is once fixed the mirasidars should be held responsible for the share of it due to Government, either in grain or in money. If in money the mirasidar's share will be greater.
6. The present system affords no remedy for the losses sustained by Government. These losses are becoming greater year by year. If one mirasidar can enter into a money settlement it should be possible for all. And there is no reason to favour the one more than the other. It is notorious that the mirasidars entrust their lands to people called puracoodies who bear the expenses of cultivation. The puracoodies may therefore very well enter into a money settlement.
7. The collection of kists is at present extended to the 10th of the month following that for which the kist is due. This induces the Tahsildars to be negligent in forming their estimates of monthly collection. No reliance can be placed upon the accuracy of these estimates.
8. The rights of the ryots are very often disregarded by the mirasidars. The former put up with many exactions and much oppression in order that they may continue to cultivate the land which their ancestors cultivated. As early as 1800 Mr. Harris obtained the orders of Government to allow 120 guntas to a mirasidar, 100 to the ryot and 80 to the Paria cultivator as backyard lands free of all tax. When encroachments are made by the mirasidar on these exempted plots he should be punished. In villages under amani the ryot receives his regular share, but in the settled villages it is difficult to find out if this is done.
9. General remarks.
The proposed settlement has not been acceptable to the mirasidars chiefly because it does not take into consideration the rates of cudiwaram which should be allowed

	on fertile and well irrigated lands and lands not so well situated, respectively. A uniform rate of cudiwaram is more advantageous to some than to others. Lands enjoying equal facilities for irrigation should be allowed the same rate of cudiwaram. Prior to forming the standard produce it is necessary to examine the lands minutely and form a standard with reference to the adjoining lands.	
	10. In this province most of the public servants are mirasidars. It is their interest, therefore, to continue their lands under amani in order that they may reap the benefits of such a system. Their intrigues with the other mirasidars some of whom may be their relations, contribute to the losses sustained by Government.	
	11. Irrigation. Great improvement has latterly been made in clearing the channels, straitening their banks etc. Kumbakonam has benefited more by these improvements than any other area. Nannilam is very backward. There is scope for improvement in all the taluks, and along with it the expectations of an increase in revenue.	
	12. Mr. Roberts finally suggests that his division may be so arranged as to consist of Tiruvayar and Papanasam, instead of Mayavaram and Nannilam. The division would thereby become more compact.	
	Frontier Disputes	
12-3-22	Pudukottai and Tanjore. The Resident at Tanjore represents that there are as many as eight points on the borders of Pudukottai which are under dispute. He proposes that an agent of the Collector and an agent of the Raja Tondaman Bahadur may be deputed to settle these disputes.	353-4
	Raja of Tanjore	
4-4-22	Return from pilgrimage. 1. The Resident intimates that the heir apparent will proceed to meet his father at Chidambaram and that the Raja will afterwards enter the Province. He requests the Collector to afford a fitting reception to the royal family.	357-8
21-4-22	2. The Resident encloses a letter from H. H. Serfoji Raja thanking the Collector for the help he rendered to his Government during his absence on pilgrimage and for the distinguished reception arranged by him when he entered the Province.	367-9

	Jamabandi Report	
19-8-1822	F. 1231—Board's review. 1. The Collector has not found it practicable to introduce the new mode of settlement recently sanctioned by Government. This was due to the exceedingly adverse season which the people had to face. The freshes in the rivers did not come down as usual and the rainfall was scanty. 2. The settlement has been made with reference to the settlement of ff. 1230 and 1229. Whenever the estimate was more than the settlement of those faslis the mirasidars were allowed to pay at the rate of the previous faslis. 3. The selling price of grain rose to some extent and compensated the mirasidars for the poor harvest.	13-26

	Jamabandi Report—cont.	
	4. The new mode of settlement will be adopted in the next fasli. In spite of these adverse circumstances the decrease is only about 3 per cent. of the revenue of fasli 1230. The collections are very satisfactory. The net revenue including the extra sources is Rs. 39,21,849, which is Rs. 1,62,481 less than that of fasli 1230.	
	Tiruvaduturai Madam	
26-8-22	Shrotriyam—Petition. The Board directs the Collector to report whether the institution is of sufficient religious importance to warrant the restoration of the shrotrium village of Vettayurni in the Tinnevely district formerly enjoyed by the Madam. The Collector should state how the institution has been supported since the resumption.	37-43
	Agricultural Advances	
26-7-22	Reduction—Deprecated.	73-6
15-7-22	From the Sub-Collector. Mr. Roberts represents that a reduction by 50 per cent. of the sum advanced last year will be felt as a hardship by most of the people. Some of the mirasidars may not actually stand in need of an advance but there are sure to be some who cannot cultivate their lands without this help. Many have already purchased bullocks on credit, which they have no means of paying for except by a 'tuccavi'. The amount may be gradually reduced to the old rate.	111-2
	Salt Pans	
13-7-22	Remittance of collections. In connection with his demand, collection and balance, Mr. Ogilvie, the Assistant Collector, proposes that the collections made at the salt pans of Adrampatnam may be remitted every two days into the peshkar's cutcherry at Adrampatnam and Arasanagery. The present mode of remitting them once in 10 days to the monigar's cutcherries entails a great risk.	97-104
	Settlement	
9-11-22	F. 1232—New method. 1. Mr. Ogilvie represents that he has been explaining to the inhabitants the principles and advantages of the new mode of settlement. There is very little opposition on their part. He, therefore, hopes that the number of amani villages will be small.	247-51
10-12-22	2. There are still mirasidars who refuse to enter into the agreement on the ground that their lands do not produce the estimated quantity of grain. In these cases the crops will be diligently watched in order to ascertain the exact quantity of the produce.	255-7
	Frontier Disputes	
21-11-22	Pudukkottai and Tanjore—From the Resident. The arbitrators have settled amicably most of the disputes. The Resident hopes that if the Collector's agent can be spared for some time longer all the disputes will be settled to the satisfaction of the parties concerned.	283

	Nawab of the Carnatic	
6-2-1823	Visit to Nagore. 1. The Government Agent to the Nawab intimates that the Collector may choose the most convenient route by which the Nawab may proceed from Mayavaram to Nagore.	8

13-2-23	Nawab of the Carnatic—cont. 2. The Nawab as no objection to proceeding direct from Shially to Nagore through the Danish and French settlements of Tranquebar and Karical. The British Commissioner will make the necessary arrangements for escorting him through the foreign settlements. The party including the Company's troops, amounts to 9,000 people with a very large proportion of horses and cattle.	11-2
14-11-23	Kalahasti Zamindar Visit to Rameswaram. The Secretary to Government directs the Principal Collector to provide a few peons for the use of the zamindar so long as he is within the bounds of his district. A list of the provisions required by him daily and a list of the places through which he intends to pass are enclosed.	23-9

17-3-23	Saminatha Mudali Late Sarishtadar of the Zilla Court at Kumbakonam—Grant of land. The Collector is directed to report whether there is any objection to granting a piece of waste land requested by the late Sheristadar.	47-51
27-11-23	Jamabandi Report F. 1232—Further proceeding of the Board. 1. There is an increase under every head of revenue except salt and sea custom. The net increase after deducting the decrease amounts to Rs. 2,19,352-11-2 above the revenue for f. 1231. Four thousand and thirty-five villages have been settled on a money rent. Of these 3,080 are settled in perpetuity, the assessment only to be varied according to the rise or fall in prices. In 363 villages the settlement has been made for a period of 5 years. In 284 villages the same agreement has been entered into but with the proviso that the assessment should not be affected by the prices. The mirasidars of 308 villages still object to the standard which they consider to be very high. The Board approves the Collector's proposal to enter minutely into the objections with a view to coming to terms with them also. 2. The area under cultivation in the present fasli was longer than that of any previous year. But the Collector should state the extent of lands that remain uncultivated. 3. There is reason to think that the assumed standard grain amount is in several cases higher than what the land may be expected to produce in the present state of cultivation. This should be rectified wherever possible. 4. Similarly the standard price appears to have been based upon the retail prices instead of the wholesale market prices. The standard should be formed so as to be favourable rather than otherwise to the mirasidars. 5. The Collector should seriously consider the proposal to fix a money assessment on the different descriptions of land. This would be an improvement upon the present system of collecting the revenue. The Board desires that this system should be tried in a few villages as an experimental measure. It will involve measuring the land in many cases. This will lead to the formation of an accurate estimate of the land actually under cultivation and the demand will be regulated according to this extent. 6. The collections are exceedingly satisfactory, there being at present only a balance of Rs. 21,100 on account of the fasli under review.	87-106

8-11-23	Danish Visiadohr Extradition of. From Mr. Schonheijder. 1. Mr. Schonheijder reports that the Visiadohr, an officer of Police of Tranquebar, named Sivandabada Naicken has escaped into the British territory adjoining the settlement with a view to evading a claim for Rs. 1,000 which the courts have directed him to pay to a family who were robbed by thieves. He requests that the Visiadohr may be delivered up to him.	171-2
15-11-23	2. The British Commissioner also considers it proper to apprehend the man and deliver him to the Danish Government.	175
9-12-23	Courpalais, M. Louis Indigo works—Grant of land. M. Courpalais applies for a grant for the lands purchased by him at Tillevellagem for the purpose of establishing an indigo factory. 12-7-24	Remission of Assessment F. 1233—Principles of grant of commutation price. 1. The Board forwards a copy of its correspondence with Government regarding the difficulties encountered in making the settlement for the current fasli. The season has been very unfavourable, but prices have been proportionately high. According to the terms of the new mode of settlement the assessment is liable to be raised if there is a rise in prices amounting to more than 10 per cent. of the standard prices. In this year the prices have as a rule increased by more than 50 per cent.	75-88
13-9-24	2. Remission. Government consider that an adverse season renders necessary the relaxation of the principles of any system of revenue settlement and particularly of a system which makes no allowance for a diminution of produce, but raises the demand in proportion to the consequent increase of price. The assessment is calculated on a fixed produce and varies only with the price. The diminution of produce in this fasli is more than what may be compared for by the rise in price. 3. Suspension of principles. Government, therefore, direct that the principles of the new settlement may be suspended temporarily. But it is not necessary to allow the mirasidars the "benefit of the excess of price to the extent of 10 per cent. on the actual produce" because Government are already remitting in favour of the mirasidar the benefit of the rise in prices. It seems equitable that the excess of price should be set against the diminution in produce. It is likely	113-5

	that in several cases general instructions may not be applied with advantage. In such cases the Collector should exercise a sound and liberal discretion.	
	Revenue Defaulters	105-9
9-9-24	Release of.	
	1. The Collector is directed to release such of the mirasidars and renters as are willing to enter into agreements to pay their arrears in instalments. It is not desirable to confine in jail mirasidars who are unable to pay arrears of land revenue due by them.	
	2. The arrack-renter, who is now in confinement, should not be released until his dues are paid, because an indulgence shown to him will form a precedent for the renters in Ganjam where the renting system is still in existence.	
	Kaval Russooms	
21-10-24	Resumption of—Pension to kavalcars.	123-9
	1. Government call for the particulars of the property owned by each of the kavalcars when their russooms were resumed in 1813 on the recommendation of the Police Committee. Pensions were granted according to the private means of the individuals. Some of them have now represented that by 1819 when the pensions were granted they had lost their private lands, being obliged to sell them for arrears of revenue, and therefore their pensions were not calculated according to the original intentions of Government.	
	2. There is reason to think that there is a great deal of truth in the statement. The Collector is therefore directed to forward a statement showing the property possessed by each in 1813 and in 1819.	
	Crop Sharing	
17-7-24	Ryots' removal of grain—Pootoor village—Falsification—Report.	227-31
18-7-24		237
	1. Mr. Sinclair, the Sub-Collector, reports that the inhabitants of Pootoor cut their crops without permission and gave false accounts. They were also found to have used measures which were bigger than the standard measures. He, therefore, proposes that they may be forced to pay according to the estimated quantity, to which should be added the produce of secreted cultivation and the difference in measures.	
24-7-24	2. The circumstances under which they took the grain to their own houses instead of placing it all in the granary are very suspicious and the Sub-Collector has no doubt that the claim can be enforced in a court of law.	241-4
	Remission of Assessment	
3-8-24	Petition of mirasidars.	251-3
	The Sub-Collector forwards a petition from several mirasidars of Kumbakonam taluk, complaining that they cannot afford to pay the increased assessment imposed upon them on account of the rise in prices. He has given them to understand that their demand is unreasonable and that according to equity and the tenor of their agreement they should pay an increased assessment on account of the rise in prices.	
	Jamabandi Report	
12-8-24	Mayavaram Division—F. 1233.	256-87
	From the Sub-Collector.	
	1. The revenue of this fasli shows a net increase of Rs. 3,67,094 above that of the last. This increase was caused by—	
	(a) Renting a larger number of villages than was possible in f. 1232.	
	(b) The increase of produce and a rise in prices.

	Jamabandi Report—cont.	
	2. <i>Amani</i> .	
	Whenever a village is under amani it is neglected by the mirasidars with a view to obtaining it for a lower rent. Frauds are also common in the management of amani villages.	
	3. <i>Inequalities</i> .	
	The assessment is not always proportionate to the capacity of the soil. Some villages enjoy very favourable terms. It is necessary to raise the assessment in such cases.	
	4. <i>Devasthanam villages</i> .	
	There is a reason to think that the devasthanam villages are mismanaged. The Sub-Collector suggests that a person should be appointed to superintend the affairs of the several devasthanams under the instructions of the Collector. Encroachments have been made by several inamdars to varying extents of land. These should be examined and properly assessed.	
	Irrigation Dispute	
17-9-24	Karikal and adjoining British territory.	339
	1. The Sub-Collector reports that the son of the Peshkar of Nedoongadoo in Karikal had been interfering with and obstructing the supply of water to the villages adjoining the settlement.	
22-9-24	2. There was no breach of peace, but both the parties obstructed each other's supply of water.	343
	Viswanada Pillai	
24-9-24	Deputy Tahsildar of Kumbakonam—Misconduct.	347-50
	The Sub-Collector reports that he found the Deputy Tahsildar guilty of making false accounts and withholding an important document in connectoin with a supposed fraud which he was directed to investigate. He recommends his dismissal.	
	Season Report	
30-9-24	Mayavaram Division.	355-9
	The Sub-Collector reports that the freshes in the rivers have been fluctuating. The kudapa kar crop will be deficient by half the usual extent, but this will be remedied by a greater extent being under the samban peshanum crop.	
	Venkatappa	
8-10-24	Sarishtadar—Irregular purchase of land.	373-81
	1. Mr. Sinclair, the Sub-Collector, reports that Venkatappa has been proved to be guilty of having purchased about 30 velies of land at an auction which he was directed to conduct. The purchase was made in the name of Trivengadachary.	
	2. The Sarishtadar denies the charge but two circumstances are against him, first that he induced the ryots of the neighbouring village to help in the cultivation of this village, which is entirely against the usage and second, that the person who is brought forward as the real owner is known to have visited the village only once in a year and that he did not write to his agent in the course of one year.	
30-10-24	3. The Principal Collector having replied that he "can discover no proof whatever" of Venkatappa's guilt, Mr. Sinclair requests that the matter may be placed before the Board of Revenue. He states that he is induced to make this request on account of his having failed to convince the Principal Collector in more than one instance of this sort, where the guilt was manifest to him.	395-6

3-11-24	Flood damage. From the Sub-Collector.	399-400
	1. Owing to a heavy fall of rain the kar crops were under water for a long time when they ought to have been reaped. There have been a few breaches in the banks of the rivers. The peshanum crop is supposed to be uninjured.	
5-11-24	2. The mirasidars in the Nannilam taluk complain that their crops have been damaged by the floods.	409
	Karnam of Pootoor	
8-11-24	Dismissal—Remarks of the Sub-Collector.	413-9
	1. The curnum allowed the crops to be cut without allowing the usual 15 days to elapse after making the estimate. He stated that he was forced to do so by his superiors. Upon his promising to bring to light the extent of secreted cultivation going on in the village he was reinstated in his post.	
	2. As a result of an investigation held by a panchayat, there was found to be an excess of about 25 per cent. of the extent entered in the accounts. The curnum swore to the truth of the accounts. He now says that they were not true accounts and supports his statement by the evidence of 2 mirasidars of bad character.	
	3. The Sub-Collector is convinced that the curnum is now influenced by some persons to contradict his original statements. Since the Collector is not convinced the matter may be referred to the Board of Revenue.	
	Official Dispute	
9-11-24	Sub-Collector and Collector—Mr. Sinclair's defence.	423-8
	1. Mr. A. Sinclair reports that he has handed over charge of the taluk of Nannilam according to the orders of the Principal Collector.	
	2. With regard to the charges brought against him by the latter he describes in detail the various instances in which he and the Principal Collector had to disagree. Five out of the nine cases mentioned by him originated with the Principal Collector and in these instances the orders were implicitly carried out.	
	3. The present altercation centres round the powers of the Sub-Collector to dismiss some of his servants. He regrets that these circumstances should have been recorded publicly, and hopes that the Board will judge him without bias.

7-4-24	Grain—Theft—Complaints of.	465-73

4-3-1825	Emigrants' estate—Powers of attorney. The Secretary to Government informs the Collector that he is authorized to attach his signature to the powers-of-attorney that may be sent to the Island to administer the estates of such of the emigrants as might have died on the Island.	13-8
	Remission of Assessment	
10-1-25	Damage by floods—Board's remarks. Partial and local losses do not call for a general remission. The inhabitants should not be led to expect a general remission. At the end of the year the Collector may recommend individual cases for remission.	27-9
	Vencatrow	
13-1-25	Diwan of Travancore—Improper acquisition of village—Board's remarks. 1. The Collector is directed to state how Vencatrow came into the possession of the village of Tenbarah, because representations have been received from a mirasidar of the village that the sale of the village was improper and that the Head Sarishtadar Goondoo Pundit had caused it to be purchased by his relation Narahary Row. The exact relationship between the various persons concerned in the transaction should be stated. 2. The Board calls for the accounts.	33-7 111-3
	Jamabandi Report	
24-1-25	F. 1233—Board's proceedings. 1. The agricultural season was exceedingly unfavourable. Crops were far below the standard in almost every village. 2. Principle suspended. The new method of settlement according to a standard product was suspended temporarily, and the settlement of the fasli was made upon the actual produce. 3. Prices. The high price of grain, however, made up for the short produce with the result that the net revenue shows an increase of nearly 10 lakhs of rupees. Such a state of affairs is possible only in Tanjore, where the assessment is raised according to the rise in prices. 4. Amani. The Collector will try to settle the amani villages also on a money basis as soon as circumstances improve. As the collections have been very satisfactory the Board believes that they have not been pressed beyond what was fairly due. The Collector should take into consideration the suggestions made by Mr. Sinclair regarding the superintendence of the devasthanams.	47-75

31-1-25	Koviladi Chatram Vencatrow's application. 1. The Board forwards an application made to the Resident by Vencatrow, the Diwan of Travancore, respecting certain lands he has purchased for the chatram at Cavalady which he built at his own expense to meet the requirements of travellers. 2. For the maintenance of this institution he purchased 40 valies of land which he converted into wet from dry. They are at present assessed at twice the dry rate. As the source of irrigation is precarious owing to the elevation of the lands, and as the proceeds are devoted to a charitable purpose Vencatrow requests that these lands may be permanently assessed with the dry assessment. 3. The Collector is directed to report how the Diwan acquired these lands, and whether it is desirable to accede to his request.	83-94
17-2-25	Encroachments Investigation into. The Board directs the Collector to enquire into all suspected cases of encroachment and to report whether they are made on the lands of adjacent villages.	101-2
10-3-25	Courpalais, M. Louis Indigo works—Grant of lands. From the Board. The Board recommended to Government that a grant might be issued subject to a quit-rent of the assessment that would have to be paid if the whole extent were cultivated, instead of levying a quit-rent only upon the area cultivated at present.	117-21
28-3-25	Alienation of Land Sale by the Collector Irregularities—Board's remarks. There is reason to think that the large number of complaints regarding the sales of land indicate some irregularity or negligence on the part of the Collector's servants. It is therefore advisable that the parties who purchase such lands should be forced to defend their rights without the help of Government. The Collector is directed to reply to the remarks made by the Court of Directors in 1818 regarding the sale of the lands of the mirasidars, to which a reply has been long due.	133-56
18-4-25	Tirupanandal Mattam Seizure of accounts—Board's remarks. 1. The Board does not see the propriety of the Sub-Collector's interfering with the affairs of the muttum to the extent of requiring the production of the accounts. If the muttum receives no support from Government its private accounts cannot be called for as of right. The Collector should state the precise terms on which the villages came into the possession of Government.	167-9
2-5-25	2. There is no doubt that frauds were practised by the authorities of the muttum with the connivance of the Tahsildar and the peshcar. But as it is impossible to prove that the latter were bribed, the accounts of the muttum should be returned, especially as the difference between the false and the real estimates has been paid.	185-8

27-6-25	Church Missionary Society Mayavaram—Assignment of land. 1. On the recommendation of the Collector and the Board of Revenue, Government direct that a grant may be issued free of assessment to the Rev. Mr. Barenbrack in charge of the Church Missionary Society for the purpose of constructing a school. 2. Title deeds etc., forwarded.	201-5 423-7
28-1-25	Flood Damage To crops—Sub-Collector's report. The kar crop has suffered by the floods while the peshanam is fairly good. The mirasidars of several villages have complained of cases when they have actually suffered none. In some other villages only some of the mirasidars complain of losses. To make a general remission, will therefore, lead to unnecessary loss of revenue.	211-4
9-2-25	Settlement Lands yielding more than 20 per cent. of the standard produce. 1. The Sub-Collector reports that he has discovered 532 villages in which the estimated produce is more than 20 per cent. above the jamabundy produce. The mirasidars of these villages refused for a long time to enter into any agreement on account of the increase in production. The Sub-Collector forced them at last to accept estimates calculated on the actual produce of certain plots in each village. 2. Those who still refuse to enter into an agreement should be forced to forfeit every calum of their grain above the jamabundy waram. Those who do not accede even to the standard produce should be allowed only 40 per cent. waram instead of 45 per cent. There can be no doubt about the right of Government to share in any increase above 20 per cent. because they allow remissions whenever there is a deficiency. 3. At present the mirasidars hope to gain large profits by committing frauds of various kinds to which they are accustomed. The reduction in their waram from 45 to 40 per cent. will induce them to agree to a reasonable settlement.	215-33
19-2-25 23-2-25	Tirupanandal Mattam Mismanagement and fraud—Sub-Collector's proceedings. 1. Intelligence having been received from several quarters that extensive frauds were committed by the authorities of the muttum the Sub-Collector proceeded thither in person and demanded the accounts of the muttum which were kept separately in a godown. A scrutiny of these showed that the Government had been defrauded of part of its revenues by some of the lands belonging to the muttum not being entered in the accounts given to the Collector. 2. The public servants had been bribed to connive at these frauds. The Sub-Collector's late Sheristadar was found to have received Rs. 240 from the funds of the muttum. The madhyastam of the muttum who was found to be the party responsible for the frauds was removed from office and a new person was appointed in his place. 3. Similar frauds may be discovered by scrutinising the accounts of all devasthanams etc.	247-55

25-2-25	4. Sadiappa Tambiran, who escaped to Tanjore as soon as enquiries were set on foot, should be forced to return to the muttum. The treaty with the Raja will enable the Collector to achieve this object.	257
5-3-25	5. Replying to several petitions forwarded to him the Sub-Collector states that he used no severity towards the Tambirans or their people and that the allegations of confinement are false.	261-3
21-3-25	6. Sadiappa Tamburan has been interviewed twice. He says that the payments made to the public servants were given in charity.	273-4
22-4-25	7. In replying to the petitions forwarded by the Board the Sub-Collector states that the Tambiran was not confined but that the junior pandaram was not allowed to leave the muttum until the senior arrived. Sadiappa Tambiran had subscribed the name he worships (his usual signature) to most of the orders for these irregular payments. It is therefore doubtful whether he will be found guilty by the tribunal before which he has been directed to be sent. The administration of the muttum has not been interfered with.	283-97
	8. The Sub-Collector also answers the remarks made by the Principal Collector upon his proceedings.	
10-6-25	9. The account of the investigation made by the Sub-Collector regarding the frauds committed by the Tambiran, so far as they relate to the temple of Veyloor, are forwarded. The Panchayat that was appointed to investigate the extent of the frauds, discovered that several sums had been given to the public servants, obviously for hiding the existence of increased cultivation. Vencatuppa, the late Sarishtadar of the Sub-Collector, was proved to have received Rs. 240.	309-26

The Tambiran is unable to prove a single charge of bribery mentioned by him in his petition. Rangaswamy has, however, been removed from the post according to the orders of the Collector.

8-8-25	F. 1233—Government's remarks. Government observe with satisfaction an increase of revenue amounting to more than Rs. 10,00,000 in spite of the unfavourableness of the cultivating season. The peculiar nature of the settlement by which the assessment is raised when there is a rise in prices accounts for this favourable result. This is not the case in the adjoining districts where the scarcity of rain has produced a deficit.	23-30
	Revenue Sales	
11-8-25	Mirasidar's lands—Purchase by public servants—Board's remarks. 1. The Mirasidars of Tembera and Parevalenden brought to the notice of the Board that their villages were sold for arrears in an irregular and unjust manner and that they were purchased by public servants on terms which were very prejudicial to them. While investigating this complaint the Board learned that several other extensive pieces of land had been purchased by the Collector's servants at similar sales. In some cases the parties were near relations of the Sarishtadar etc. 2. The Collector was directed to forward the accounts of the two villages mentioned above. On receipt of these accounts the Board learnt that the village had been sold for arrears commencing from 1801 and that most of them had accumulated during attachment. Long before the sale of the villages the Board had directed the Collector to remit all arrears standing against the mirasidars up to the beginning of f. 1213. 3. It is therefore clear that these villages were sold for arrears which had been definitely ordered to be written off. The circumstances of the sale are also extremely suspicious, the amounts for which they were purchased having been only a little above the annual jumamah. The parties are also clearly proved to be closely allied to the Collector's Sarishtadar.	33-73

4. In these circumstances the Board directs that steps should be taken to annul the sales of these two villages as well as all similar sales. The Collector should in the first instance reply in general terms to the remarks made by the Board upon these transactions and report the best means of rendering justice to the mirasidars without at the same time subjecting the purchasers to any great loss.
5. The Collector has expressed his opinion that the purchase of lands at sale by the public servants will have no bad effects. The Board, however, does not agree with him because the peculiar nature of the settlement in Tanjore renders it possible for public servants to commit frauds in connection with such lands.

2. It is unnecessary that the Collector should proceed to Madras to explain personally the nature of the circumstances under which sales for arrears are conducted in Tanjore. He should in the first instance submit the report and the statements called for by the Board.
3. The order to cancel the sales of mirasidar's lands should have effect only in respect of sales which were effected to realise arrears which might have accrued under peculiar circumstances, as mentioned in the previous letter from the Board on this subject.

Endowment of villages.

1. The Board forwards the orders of Government regarding the transfer of the villages of Pootoor, Tennamnaud Cunnangoondy, Maglayoor and Unnaputty to the Raja of Tanjore. These villages were granted to the Raja as early as 1805 but had not been made over to him.
2. The grant originally applied for by the Raja was only for certain lands in the four villages. The grant was, by some mistake, made out for the four villages. When the mistake was discovered Government considered that it need not be rectified because the revenue from these villages were to be utilised for charity. So the four villages were eventually granted.

Jamabandi Report

1-12-25

F. 1234—Board's review.

1. Violation of principles.

The Principal Collector and the Sub-Collector have departed from the approved principles of the new method of settlement in that they raised the standard grain amount in villages which they suspected were capable of producing at least 20 per cent. more than the standard produce.

139-71

Date.

Abstract.

Page
number.**Jamabandi Report—cont.**

2. When the standard was fixed Government fully realised that it was not expected to be very accurate, but they intended that it should be fixed as low as possible, and that once fixed it should not be raised. The way in which the assessment has been raised is unjust and improper.

3. Refund of assessment.

The Board regrets that such steps should have been taken by the Principal Collector and the Sub-Collector when the increase obtained thereby amounts to less than a lakh of rupees, a small sum when compared to the large revenue of the district. The amount thus improperly realised should be returned to the mirasidars.

4. In future the standard grain amount should be raised only when there is proof to show that false accounts were given at the time of fixing the standard or when the irrigation of the land has been improved at public expense since that date.

5. There has been a net increase of revenue amounting to more than five lakhs above the revenue of the last fusly. The number of villages under amani has increased, probably because of the want of confidence in the Government engendered by the highhanded proceedings of the Principal Collector and the Sub-Collector.

6. In rented villages the demand ought not to have been based upon the actual produce. As a rule such a departure from the established form of settlement should be made only under peculiar and general mishaps.

21-7-25

—Mayavaram Division—F. 1234—Sub-Collector's report.

225-63

1. Remissions.

The revenue of this year shows an increase which was caused by an increased produce. Where complaints were made of damage to crops the remission was allowed only for the parts damaged. Thereby the demand from those lands was almost equal to the jamabundy at produce. Complaints were received from several villages that the floods had destroyed their crops, but a large number of these complaints were groundless.

2. Grain sales.

The collections have been satisfactory. In fact the only arrears are those due by some of the mirasidars who postpone the sale of their grain in the hope of receiving higher prices. Every effort is being made to recover the demands against such persons.

3. Amani.

Some of the amani villages have been settled satisfactorily. The Sub-Collector hopes to settle all of them shortly by personally interviewing the mirasidars and by persuading them to agree to the standard grain amount.

4. Frauds by Government servants.

The Tambirans of Kachee Mattam and Teroopunandal complained of heavy losses which were substantiated by the Tahsildar and others deputed to survey the crops. It was later on discovered that the latter had been bribed to report in this manner, and also to hide the existence of large areas under cultivation. These attempts to cheat Government were punished with a levy of more than Rs. 8,000 on account of the value of the Government's and mirasidar's share.

	5. <i>Under—assessment.</i>	
	Complaints were received from several quarters that a great many villages were settled on a very low standard. Temporary ameens were appointed to examine such instances. The result was that several villages were found to produce more than 20 per cent. above the standard. The mirasidars of these villages were forced to agree to an increased assessment on this account. The Sub-Collector is of the opinion that when there is an increase in the produce Government are entitled to a share of such increase.	
	Kachee Matam Tirupunandal	
9-8-25	Frauds on the investigation of revenue.	287-90
	1. The Sub-Collector states, in reply to a letter from the Principal Collector, that the persons, who could give evidence of the frauds, are all in the employ of the Tambirans and that consequently no written statements have been recorded.	
	The accounts of the muttum however, clearly prove that the public servants were bribed, though the Tambirans say that the sums were paid in charity. These accounts when compared to the accounts at the cutchery show that Government have been regularly deprived of large sums due to them. Beyond this there is no proof.	
12-8-25	2. Reporting upon several petitions presented to the Collector, Mr. Sinclair states that the petition complaining of his not returning the accounts is false because he holds a receipt for the same. As to the second that the crops had been destroyed by his orders he replies that if any damage arose it was due to their own wilfulness in refusing to cut the crops in time.	291-9
31-8-25	3. As to the third allegation that the additional lands which he discovered were not cultivated, it is equally false. For it would have been easy for them to have proved it four months ago when the harvest was not over. In fact, the agent of the Tambiran, has declared that these lands were cultivated and that the petition is unauthorized.	317
	Flood Damage	
5-9-25	From the Sub-Collector.	327-8
	1. The damage has been extensive especially in the Mayavaram taluk. The Coleroon burst its banks in nearly 300 places. As the newly sown seed lay under water for a long time it was entirely destroyed. An advance of Rs. 18,000 is necessary for purchasing seed.	
12-10-25	2. The Tahsildar of Mayavaram made no efforts to close the breaches. Nor did he endeavour to induce the mirasidars to till their lands afresh. The latter obstinately refuse to cultivate their lands because they prefer to suffer a loss with the Government rather than benefit themselves and Government. In spite of the large advances made to them they have allowed the most favourable part of the season to pass by. Therefore, no revision should be allowed to them.	343-8

He therefore proposes that their property should be confiscated. In this connection he also suggests that the property of Chinnia and all his men may be similarly confiscated.

The Sirkele of the Raja, who investigated the affair, stated that the inhabitants of Moovanalloor were within their rights in demolishing a bank which was erected on lands belonging to them. They had the consent of the Raja to do so. Since the Tahsildar reports otherwise the Raja suggests that the boundary of the village may be settled according to the old practice of 'running the boundary' either by the people of Kalanjemedoo or by those of Moovanalloor.

22-5-26	Excess over standard produce. The Board permits the Collector to refund Rs. 42,202 to the mirasidars from whom it was received by Mr. Sinclair on account of the excess amount levied upon such lands as were found to have produced more than 20 per cent. above the standard produce. Care should be taken that only those for whom it is intended benefit by this remission.	135-6

	Settlement	
17-2-26	Renting and assessment. Reply to the Board's remarks. 1. The Sub-Collector replies to the remarks made by Government and the Board of Revenue upon his jamabandi report for f. 1234. 2. The employment of the ameens to report the excess of produce is an old practice and is not objected to by the people. They are very useful in detecting frauds and do not in any way interfere with the mirasidars. In a district where the native servants are mostly corrupt it is impossible to place much reliance upon their accounts. 3. The irrigation of most of the villages thus examined has been improved at great expense and consequently the cultivation is not subject to great fluctuations except in extraordinary seasons of drought. There is nothing unfair about exacting a slightly higher assessment when it is ascertained that the mirasidar's profits are much higher than they will be according to the standard grain amount. Apart from increased produce there is also an increased area of cultivation in every village. The extent of this can be determined only by detailed examination of the villages.	191-206

Date	Abstract.	Page number.
	Settlement—cont.	
	4. The enquiry into the resources of the villages already rented has not affected the renting of the villages still under amani. As a proof of this the Sub-Collector points out that he was able to rent a few of the large villages and that if the season had been more favourable more villages would have been rented. 5. Some of the mirasidars hold out obstinately merely to frustrate the objects of Government. Enquiry is being made into the alleged objections to a money settlement. These objections will be removed by the Sub-Collector provided they undertake to rent their villages on his doing so. Mr. Sinclair expects that this measure will meet with great success.	
	Amani Villages	
18-3-26	Negligence of the Mirasidars. 1. Mr. Sinclair reports that the mirasidars of the amani villages refused to give any help towards repairing the breaches caused by the floods and that they allowed the favourable season to pass by without making any efforts to cultivate their lands. 2. The principal mirasidar who uses such obstructive tactics is Shevasambien of Kodavasel who owns extensive property in several villages. When the crops were ripe he refused to cut them on the ground that he had suffered great losses. Therefore, the Tahsildar was ordered to cut them. No applications having been made to him for remission he notified that no remission would be recommended unless applied for in time.	221-6
	Village Accounts	
18-5-26	Shodeakoody etc.—Falsification of. The Sub-Collector reports that he obtained possession of certain accounts which proved that an increase of produce had occurred in Shodeakoody and 9 other villages instead of the alleged losses for which remission was obtained. These private accounts of the mirasidars show that the curnums and others were bribed into supporting their statements of losses. The demand of the Government upon the difference has been recovered.	267-74
	Revenue Renting	
23-5-26	Veerenvayal village. The lease of this village which belongs to the Rameswaram temple is about to expire. The present renter desires to take it up on another quinquennial lease on the same terms. 	Revenue Sales	
18-7-26	Purchases by Government servants. Board's proceedings and Government orders. 1. The Board recapitulates the correspondence which has already ensued on the subject in connection with the purchase of the villages of Tenbarah and Paroovalandan by Vencatrow, late Diwan of Travancore, and a near relation of the Collector's Sarishtadar. 2. These villages were sold for arrears, which had commenced 20 years ago and which were ordered to be entirely remitted several years ago. The villages were purchased for a very low price by the agents and relations of the Sarishtadar. The Board therefore ordered that the sales should be cancelled. 3. From further reports received from Mr. Cotton the Board finds that during his time as many as 8,000 valies of land have been sold for obsolete arrears which had either been ordered to be remitted or had been recommended to Government to be written off. Of this extensive area the major portion has been purchased by the native revenue servants at various times. Several of them have purchased incredibly large areas at these sales. 4. Mr. Cotton reprimanded. An officer of Mr. Cotton's experience ought not to have resorted to such harsh measures for the realisation of the revenue. Indeed it is necessary that the revenue	25-105

Date.	Abstract.	Page number.
	Revenue Sales—cont.	
	authorities should have the power of enforcing payment by this means whenever the mirasidars misappropriate the sum due to Government or wilfully withhold payment.	
	5. The nature of these sales and the position occupied by the purchasers in the Revenue Department leave no room to doubt that they were thoroughly irregular.	
	6. Annulment of sales. The Board directs that the sales of land to public servants mentioned in the Collector's statement should be annulled on the ground that the permission of the Board was not obtained and due proclamation made at the Board's office before the sales were conducted. These lands should be returned to the mirasidars. The Sarishtadar and his deputy should be dismissed. The Collector should state whether the others may be dismissed without inconvenience to himself.	
	7. In future no public servant should purchase lands. What he may acquire by inheritance should be registered. The Board does not agree with Mr. Cotton in considering that it will be to the benefit of the service if they are allowed to acquire lands. Private interests are sure to affect the interests of Government.	
	8. Government approve these proceedings of the Board and direct that explanations should be obtained from the persons connected with these irregular transactions. They observe that it is highly objectionable to allow revenue servants to become landed proprietors in their own districts whereby they will be tempted to be partial where their own lands are concerned.	
	9. Again this system is likely to convert into private sales what ought to have been public. No native servant in a high place should be permitted to purchase lands unless he resigns his post. People owning land should not be appointed to high offices, and if a public servant purchases land contrary to these orders he should be dismissed and the sale set aside.	
	10. Writing off arrears. In this connection Government observe that it is necessary to write off all arrears of land revenue after a prescribed period. They suggest 2 years after the expiry of the year for which the demand is made. This period may, if the Board thinks fit be reduced to the 6 months of the ensuing year.	
	11. Sequestration. The present system of sequestration is merely nominal. The mirasidars are forced to cultivate the lands with their own people under the supervision of Government servants, and are held responsible for the arrears that may accrue from this sort of management. This is extremely unjust and should be put a stop to. Under sequestration the mirasidars should have nothing to do with the land.	
	12. Government notice that the acts committed by the revenue servants in Tanjore would have had the effect of destroying the confidence which the people would otherwise have placed in the Government.

The Principal Collector should submit his remarks upon the report of the Sub-Collector, especially as the latter has raised several important points for consideration. 2. He should state whether Mr. Sinclair had his permission to raise the assessment wherever he found an excess of cultivation. The propriety of doing so is still under the consideration of Government and therefore his action is irregular and unwarranted. He should be ordered to stop his investigation along this line. 3. The change effected in the settlement of the dry lands is also without authority. The Sub-Collector should be asked to state how he obtained possession of the private accounts of several mirasidars and the method by which he compared them with other accounts. No part of Mr. Sinclair's report should be passed over without the notice of the Principal Collector.	163-73
9-11-26	—F. 1235—Proceedings of the Board. 1. The Collector has divided the money rented villages into 3 classes— (a) Those settled at the standard jama with an increase by price. (b) Those settled at the standard jama without any increase by price. (c) Those which were forced to be settled at their actual produces on account of floods in the early part of the season and drought later on. 2. There has been a decrease under all these heads consequent on the fall in prices. The total decrease amounts to more than 14 lakhs when compared to the revenue of the last fasli. 3. The Sub-Collector raised the assessment in certain instances where he discovered an excess in the area under cultivation. The Principal Collector has been directed to report upon the expediency of this measure. 4. 49 villages which were under amani in last fasli have been rented during this, but 45 others have lapsed to the amani system owing to peculiar circumstances. The reluctance on the part of the mirasidars to enter into a money settlement seems to be caused by the high standard assumed in several instances. The Principal Collector should submit his report upon this observation before he resigns his charge of the district. 5. The comparative statement of the annual revenue collected during the last 10 years shows that under Mr. Cotton's administration the results have been very satisfactory. 6. Government approve these proceedings.	205-27

6-10-26	Raja of Tanjore Disputes between the Raja's followers and Sircar servants. The Resident in reply to a complaint made by the Collector states that both parties give contradictory versions of the incident. It is necessary that steps should be taken immediately to put an end to the growing spirit of animosity between the Raja's followers and the servants of Government. The Resident suggests that the parties involved in the present dispute should be punished severely so that others may be deterred from creating similar breaches of the peace.	385-7

1827.		
2-2-1827	Ryotwari Settlement Field assessment—Establishment appointed. From Government. 1. Mr. A. D. Campbell, Third Member of the Board of Revenue is appointed Principal Collector of Tanjore with the object of surveying the entire district and forming a system of field assessment. 2. The survey should embrace all land "cultivated, waste, hill and jungle. It should show the grain rent of each field as well as the money rent in order that the grain rent may be available in case the money rent should anywhere from unforeseen causes fail for a time." The assessment should be moderate. It is not the wish of Government to raise the revenue. Mr. Campbell should use his discretion in adopting the old accounts. No hard and fast rules can be laid down.	5-10
20-3-27	3. An able Sub-Collector and Ramachunder, the Sarishtadar of the Board of Revenue will be directed to assist him in this work. The latter should be allowed to return to his proper duties as early as possible.	15-7

22-3-27	Ramachandra Row Sarishtadar—Allowances. From the Board of Revenue. Forwarding copy of a correspondence with Government regarding the batta to be paid to Ramachandra Row and his assistants. He will receive Rs. 87½ per month and the two gomastahs Rs. 28 each. The charge will be debited to Tanjore.	55-61
22-3-27	Ryotwari Settlement Subdivision of taluks. From the Board of Revenue. Forwarding a copy of the correspondence with Government on the recommendation of the Board that the Principal Collector should be permitted to subdivide his district into 15 taluks instead of 9 for purposes of the survey. He is also permitted to settle for the ensuing year on the terms existing at present. As soon as the field assessment is finished it will supersede the old system.	63-71
12-3-27	Ferry Boats Particulars called for. From the Inspector-General of Civil Estimates. The Collector is requested to give a short description of the boats in use in the district showing their cost and the time which they generally last. A copy of a letter from the Collector of Trichinopoly to the Board of Revenue is enclosed in which he represents that the boats used in his district last only two years. It is therefore suggested that the boats required by him may be built at Nagore and transported to Trichinopoly.	89-95
4-1-27	Mallarjee Appa Claim to Vadamattam and Poongoody. From the Resident. Forwards a copy of a letter from the Raja representing that Apparjee's rank prevents him from appearing before the Magistrate. He is prepared to engage a vakil on his behalf. He is apprehensive that his antagonist Appasamy Iyen has great influence with the Tahsildar of Nunniam and that he may not obtain justice. The Resident desires that the Collector may personally enquire into the affair or appoint a panchayat. He is sure that he can persuade the Raja to accept any reasonable decision.	205-16
8-1-27 18-1-27	Raja of Tanjore Exchange of lands. 1. From the Resident. (See Reprint 232/41, 44.)	217-37
21-3-27	Vallam Old Fort—Dismantling of. From the Resident. 1. The ruined fort belongs to the Raja of Tanjore. The inhabitants of the surrounding village have been in the practice of digging out the stones and selling them at Tanjore. Their protest against the action of the Resident's Sarishtadar is obviously made with the object of preventing other people from selling the stones. 2. If the Collector is assured of their intention to build a temple with these stones the Raja will be pleased to give his sanction to utilise them for that purpose. In that case nobody else will be allowed to remove the stones.	245-6

8-3-27	From the Special Agent. 2. Forwarding a copy of his letter to Government in which he recommends that the post office may be re-established.	255-8

Letters from the Board.

1827.

11-5-1827	Fornbaner, Maj. J. G. Estate of. From Government. 1. The Secretary to Government forwards an extract from a letter received from England calling for information regarding the property of Maj. Fornbaner who was made a prisoner by the British when Ceylon was conquered. He is supposed to have died at Negapatam. The Court of Directors desire this information for the use of the Bavarian Minister.	3-6
14-6-27	From the Government of Ceylon. 2. The Chief Secretary, replying to the Collector, states that the Registrar of the Supreme Court at Colombo has obtained the deposition on oath of one Bartholomeuz who was executor to the Major. He says that the latter died in 1799 at Jaffnapatam and that his family left for Batavia after winding up his affairs. He promises to obtain a copy of his will and the accounts of his estate if they are procurable at the place of the Major's death.	7-15
25-6-27	3. The Deputy Secretary forwards a copy of the will and the accounts produced by Bartholomeuz before the Registrar of the Supreme Court. The property amounted to 7101 rix dollars and was divided among his three daughters and one son.	
5-4-27	Subbaroyan Tahsildar—Suspension of—Remarks. From the Board of Revenue. The Collector should decide whether Subbaroyan, who was suspended by the Sub-Collector in charge, should be reinstated or not. The Board does not deem it necessary to go into a consideration of the charges against him.	32

Village Accounts		
5-4-27	Falsification of. From the Board of Revenue. The Principal Collector should enter into the investigation of frauds reported by Mr. Sinclair. The Board has reason to think that the assent of the mirasidars is very often obtained by unfair means by the native servants. Mr. Sinclair speaks of the private accounts of the mirasidars. How he obtained possession of such accounts is not mentioned. The Board empowers Mr. Campbell to take into consideration all these cases and decide them as he sees fit on his own authority.	35-9
Public Accounts		
12-4-27	Purchase of lands—Cancellation of sale. From the Board of Revenue. 1. Forwards the petitions addressed to Government by Vencatarow and Annajee Row whose lands have been attached in accordance with the general orders of the Board annulling all sales of land made to public servants. Petitions from several mirasidars for the restoration of their lands are also forwarded. 2. Vencatrow and Annajee Row declare that they had nothing to do with the Sarishtadar or Tahsildar. Vencatrow became a relative of Orendoo Pundit, the Sarishtadar, long after the purchase was made. He also forwards copies of his correspondence with the Resident when he was Diwan of Travancore, which show that he had been cherishing the idea of purchasing lands in his native district. He also states that he has spent more than Rs. 30,000 to improve the villages purchased by him. 3. Mr. Campbell is directed to make full enquiries into these representations. If he is convinced that Vencatrow and Annaji Row have come into the possession of their villages in regular manner and without the influence of the native revenue servants, they should be returned to them. 4. Similarly, in all cases where the sales have been conducted in fairness and the parties have purchased under the honest impression that no frauds were committed, the sales should not be set aside. The Principal Collector should submit the details of such sales of land for the final orders of Government.	51-111
Settlement		
3-5-27	Money assessment favoured—Governor's remarks. From the Board of Revenue. 1. Copy of the observations made by the Governor during his visit to Tanjore are forwarded to the Principal Collector. 2. The object of the tour was to see if it was possible to introduce a system of money assessment instead of the old method of sharing the grain. The fluctuation in prices is the chief obstacle in the way of settling in terms of money. On the other hand it is easy to realise the assessment if its amount is once settled, because the mirasidars know very well the share that each of them has to pay. 3. There are no clear accounts upon which such an assessment can be made to depend. There are upwards of 4,000 villages in the district. Many of them are assessed at their just amount. By taking these villages as a standard the remaining villages may also be assessed at an equitable rate.	131-9

Settlement—cont.		
	4. The district enjoys an immunity from droughts because the Cauvery supplies the water required for cultivation. Where therefore a failure of the crop is a rare event it may be considered that it will be advantageous to receive the Government share in kind. But such a system leads to the continual interference of the native servants in the affairs of the cultivators. It also encourages corruption both in the inferior and superior revenue servants. Therefore it is desirable to introduce a moderate money assessment and thereby reduce oppression. A moderate assessment will induce the ryots to improve the land and "enable them to bear without remission the losses of unfavourable seasons."	
Taluk Accounts		
27-4-27	Mannargudi and Chidambaram taluks. From the Collector of South Arcot. Forwards copy of his correspondence with the Collector of Trichinopoly regarding the accounts of these two taluks which were at one time incorporated in the Collectorate of Trichinopoly. The Collector of Trichinopoly replied that the whole of his district was formerly under the Collector of Tanjore and that the accounts relating to the 2 taluks might be available in the office of the latter.	221-5
Karnam		
23-5-27	Chidambara Nayinar—Destruction of records. From the Assistant Collector. Forwards a copy of his proceedings relating to the case. The evidence of several persons tends to show that the curnum was engaged in tearing up several cadjan accounts and burning the pieces. He is proved to have assaulted one Tevasiah Pillay who detected the fraud and tried to run away with some of the torn cadjans. The curnum defends himself by saying that he knew nothing about the cadjans which were burnt, nor who burnt them. The Assistant Collector is convinced that he is guilty and fines him Rs. 300. His accomplice Ramaswamy Moodely is fined Rs. 20.	229-38
Fornbaner, Maj. J. G.		
25-5-27	Particulars of. From the Senior Sub-Collector. Encloses translation of a statement made by an inhabitant of Negapatam named Peter D'Vesser. Fornbaner came to Negapatam from Madras and soon afterwards returned to Jaffnapatam where he died, aged about 50. He was buried in the European cemetery at that place. His wife died before him. He left behind him 3 daughters and a son. His affairs were looked after by one Bartholomeuz, who was his secretary.	239-42
Raja of Tanjore		
14-4-27	Old Forts—Claims to. From the Resident. 1. There is no objection to utilising the materials of old forts and temples for useful purposes, but the Raja asserts his right to whatever was not given to the Company according to the treaty. The fort of Vallam is claimed on this basis.	245-6

	2. Forwards a letter from the <u>Raja</u> enclosing the correspondence which has taken place upon this subject in former years. The letter shows that when Mr. Cotton was the Principal Collector he obtained the permission of the <u>Raja</u> before removing the stones required by him for an embankment. It also shows that the <u>Raja</u> asserted his rights to all old forts such as those situated at Vellum, Trichinopoly, Puttukottah, Mahadevapatam etc. The <u>Raja's</u> claim is further supported by the fact that he has been appointing killadars to look after these forts.	
	3. The <u>Raja</u> has no objection to allowing the stones to be removed by the Company's people provided his permission is obtained in the first instance.	
	Ryotwari Settlement	
21-5-27	Co-operation of the <u>Raja</u> . From the Resident. Forwards copies of his correspondence with the <u>Raja</u> who promises to depute his sarishtadar to afford all the help that he can to Mr. Campbell, the Principal Collector, in his attempt to survey the country for the purposes of forming a field assessment.	259-63

3-4-27	Passage of streams. From the Officer Commanding the Southern Division. Encloses a copy of a letter received from the Quartermaster General calling for more distinct proposals for making arrangements to cross the several streams in the district without delay. The Collector should be informed that provision should be made to remove all obstacles to the expeditious marching of the troops.	265-7
	Tranquebar	
28-4-27	Summons from the Court of Judicature. From the Special Agent. 1. Desiring the Collector to direct Nellanajaguru Tambiran and Velu Pandaram to appear before the President of the Court of Judicature at Tranquebar in connection with certain lands held by them in that settlement. 	Forwards for remarks a letter from the Madras District Committee of the Society addressed to Government, stating that the Society is prepared to pay the arrears due upon the lands known as Padricottagam in the Mayavaram taluk. The Committee desire to know if Government will be prepared to assess the lands favourably in the event of the Society's accepting the responsibility for paying the Government demand.	
	Ramachandra Row	
22-9-27	Return to the Board's office. From the Board of Revenue. Forwarding a copy of a letter from Government permitting Ramachunder Row to return to his proper duties as Sarishtadar of the Board. The Board will give the Principal Collector the benefit of Ramachunder Row's further assistance in the prosecution of the survey or supply his place in a suitable manner.	47-50
	Decrees	
16-8-27	Of sale—By District Munsifs—Proceedings of the Sudr Adawlut. From the 3rd Judge to the Register of the Southern Provincial Court. 1. The question for consideration is whether the District Munsifs may lawfully sell lands paying revenue to Government, in satisfaction of decrees, without the intervention of the Collector. "The Court have no doubt that it is (lawful) unless such sale involves a transfer of the proprietary right established by Regulation XXV, of 1802, in which case it is not." "Regulation VI of 1816 expressly gives to District Munsifs power to cause their decrees to be executed by the sale of land without any restriction or reference to the Collector." 2. When Regulation VI was enacted permanently settled lands could not be subdivided into portions paying a less permanent annual revenue than Pag. 500 and as the District Munsifs had jurisdiction only over lands paying less than Pag. 200 they could not adjudicate upon permanently settled lands at all.	57-69

Date.	Abstract.	Page number.
	Decrees—cont.	
	3. The objection raised by the Collector of Tanjore against the exercise of this power by the District Munsiffs is drawn from Regulation XXVI of 1802. All the Regulations framed in 1802 were framed with reference to permanent settlement, which was intended to be made universal. Therefore it was not contemplated that there will be lands not permanently settled. The permission of the Collector is required only in cases where it is obligatory to register transfers of lands, viz., in the transfers of proprietary rights. In all other cases the District Munsiff may sell them upon his own authority.	
5-8-27	Karnam of Maryoor Illegal exactions by. From the Assistant Collector.	124-9
	1. Forwards a copy of his proceedings in connection with the charges brought against the curnum. Five witnesses were examined, all of whom stated with very little difference in their several versions that the curnum levied 1½ fanams per yoke from the ryots besides receiving paddy, vegetables and large sums of money on various occasions.	
	2. The curnum denied the charges. However, the evidence was conclusive and accordingly he was sentenced to pay the sum of 197 5/8 fanams illegally received by him with a fine of Rs. 15.	
14-8-27	Society for the Propagation of the Gospel Padrecottagam—Complaint of survey. From Mr. D. Rosen.	147-8
	Complaining that the native surveyor has included the area of the watercourses in measuring the fields and that he has added part of the lands, belonging to Padrecottagam, to the adjoining lands belonging to one Kistna Reddy. Also requesting that the assessment of the lands may be as moderate as possible.	
	Letters from the Board. 1827.	
14-12-1827	H. H. Naib-i-Mukhtar Daughter's pilgrimage. From Government.	2-3
15-12-27	1. The Collector is directed to pay due attention to the party and to render them the necessary assistance in procuring supplies and forwarding correspondence. From Government.	4-7
15-11-27	Public Servants Imposition of fines—Procedure. From the Board of Revenue.	16-23
	1. Forwards a copy of the correspondence which passed between the Board and the Government upon this subject.	
	2. The Board represented that the Collector had imposed fines exceeding Rs. 10 in two instances, without obtaining the permission of the Board as required by the rules and that he had defended his conduct by saying that he imposed them in his magisterial capacity upon the two Tahsildars for neglecting their police duties.	

Date.	Abstract.	Page number.
	Public Servants—cont.	
3-12-27	3. The Collector contended that the Board has nothing to do with his proceedings as a Magistrate. The Board opined that the Collector was not furnishing a report to the Foujdari Adawlut of such fines imposed extrajudicially and that the Board should have undivided control over a revenue servant placed in charge of police duties.	40-1
	4. Government directed that the returns of such fines should be made to the Board of Revenue in the same way as those imposed by the Collector as Collector. Such fines will be liable to be revised by the Board. Fines imposed under Regulation III of 1819 need not be reported because the sentences in such cases are subject to revision by the Judge on Circuit.	
	Defence at public expense. From the Southern Provincial Court.	
2-10-27	Forwarding extract from the court's proceedings declaring that the Government Vakil is not competent to defend certain cases unless it is declared that the cases are defended at public expense. If they are not he should deposit his pleader's fees in each case. The vakil should apply to the Collector to ascertain the facts.	
	Jamabandi Report F. 1236—Extra revenues—Mannargudi Division. From the Sub-Collector.	98-120
	1. Chank fisheries. Mr. Nelson reports on the extra revenues of the Mannargudy division. There is a net increase of Rs. 8,701 over that of the last fasli. The chief decrease is in the item of chank fishery. The price of chanks has gone down considerably owing to the discovery of extensive fields of these shells buried near the sea shore at Jaffnapatam. The annual export of chank from Ceylon amounts to more than 50 lakhs. This has had the effect of reducing the demand for the chanks of the Tanjore district. The fishery has been under amani for a long time for want of renters. The stock on hand cannot be sold with any profit. Therefore the Sub-Collector has directed it to be kept unsold. Attempts were made to rent the farm but without success. In these circumstances Mr. Nelson suggests that the fishery may be discontinued temporarily. When the Ceylon supplies fail a larger revenue may be obtained from this source.	
	2. Customs. In the departments of sea and land customs some losses have occurred owing to ignorance of the regulations on the part of the native servants. Piece-goods exported to Madras and other places on the coast have been taxed at 5 % instead of 8 %. The same relaxation of rules was made in the case of imports both by sea and land. In consequence "clothes woven in the limits of the foreign powers as well as those brought by foreign vessels reached the consumers in the district with no heavier duty than that imposed on our own manufactures." "This unauthorised reduction of the import duty from 16 to 5 % on piece-goods in particular was also prejudicial in that it created a desire for and a consumption of the cloths of foreign European India to the discouragement of our own weavers and workers on linen."

Jamabandi Report—cont.

3. Rice.

There has been a considerable export of rice to Ceylon and Madras. A large part of this export passed through Tranquebar and Karical and was shipped on foreign vessels. This has had the effect of enhancing the price of rice in Tanjore and thereby making it easy to realise the land revenue. The commerce of the district suffered a serious drawback by the loss of nearly all the vessels belonging to Nagore and Negapatnam in the storm.

4. Salt.

In the salt department also the effects of the storm were serious. A large quantity of salt was washed away and the pans were covered with mud. There is, however, no reason to fear a scarcity of the article. Mr. Nelson proposes that the price of salt exported to the eastward may be raised to Rs. 35 from the present price of Rs. 24. There are several people quite willing to pay the enhanced price. There is a decrease of nearly Rs. 13,000 under sale of salt. This is accounted for by the competition existing between the salt servants of this district and those of Madura. The pans of Kotapatnam in the Ramnad Zamindari lie in the middle of several Tanjore pans.

5. It is therefore suggested that the manufacture at these pans may be stopped. The loss of revenue that may arise in Madura will be made up in Tanjore. It is not practicable to transfer the village to the Collector of Tanjore in the present state of the Ramnad family. The Collector of Madura may be allowed a commission equal to that which he was receiving on an average from Kotapatnam.

The Tahsildar of Arealoor found, on enquiry, that the complaint was well-founded.

From the Sub-Collector.

155-7

Mr. Ashton, on the eve of his departure to Madras to act as Postmaster General, reports that the mirasidar has been wilfully neglecting his villages on the expectation of getting them settled on a lower assessment on the introduction of the field assessment. He suggests that his villages may be temporarily sequestered.

25-10-27 Raja of Tanjore
Jurisdiction over villages.
From the Resident.

164-78

1. Forwards a copy of the alterations which it is proposed to make in the draft defining the Raja's jurisdiction, and a copy of his letter to Government.
2. The Collector's draft was based upon a memorandum prepared by the late Governor when he visited Tanjore. It, however, differs "chiefly in the suggestion that the madhests or managers of the Raja's villages should act as police officers of Government and exercise their police duties subject to the orders of the Magistrate."
3. The Raja does not like the idea of making them subject to the direct control of the Magistrate or making them serve two masters at the same time. He proposes that the "madhests, subject only to his own orders, shall in petty offences committed in his own villages have the same powers of punishment as Tahsildars have in similar cases in the Company's villages; and that all offenders not punishable under this limitation shall be apprehended and delivered over to the Company's police." The Raja has agreed that his madhests shall not exceed 8 in number and that they shall conform to the Company's regulations in all their proceedings.
4. No doubt there is a difficulty in dividing the police duties and drawing "such a line as may prevent any discussions hereafter." But the Raja is of the opinion that in petty cases of every day occurrence his madhests ought to have the power of punishment. Otherwise they will neither be respected nor obeyed, nor will they be able to do justice to his affairs in the district unless armed in all respects with nearly the same authority as the servants of Government under similar circumstances.
5. A statement showing the villages and lands retained by the Raja at the time of the treaty, is appended.

From Government.

1-5

The Chief Secretary encloses a letter from H. H. the Prince Azem Jah Bahadur to the Government Agent at Chépaik. It represents that the daughter of Nawab Walaja refuses to return from Nagore and His Highness requests that the Collector may be ordered to force her to return to Madras under a proper escort. The Collector is directed to carry this into effect "in the most discreet and peaceful manner."

TAN. VI—30-A

Date.	Abstract.	Page number.
7-1-28	Saminada Mudali Late Sarishtadar of Kumbakonum—Grant of lands. From the Board of Revenue.	10-26
	1. Forwards a petition from Saminada Moodely, representing that the late Collector, Mr. Cotton, purposely delayed giving him the grant directed to be given to him by Government. He has purchased 50 valies of mirasi land in Talyapaliem, but has failed to obtain a grant from them.	
	2. Mr. Cotton seems to have insisted upon his constructing an arch for a watercourse before issuing a grant. This he at first refused, but is now willing to do. It therefore remains to ascertain whether the mirasidars have any objection to the issuing of a grant. If they have none the grant should be issued without delay.	
26-1-28	Ryotwari Settlement Shiyalli taluk. From the Board.	29-32
	1. The Board forwards a copy of the correspondence with Government. The Collector is directed to issue a proclamation to notify that he is authorised to settle with such of the mirasidars, as are unwilling to accept the field assessment, upon the same terms as with the other mirasidars of the Province.	
4-2-28	From the Board of Revenue.	33-4
	2. Approves the notification issued by the Sub-Collector-in-charge. He is authorized to treat with the mirasidars "for the rent of their villages upon the basis of the Jamabundy of last year" and to "conclude the settlement" at his discretion. He should adopt a "firm but conciliatory line of conduct" and thereby avoid a necessity for resorting to the amani system.	
7-2-28	Ferry Tolls Introduction of. From the Board of Revenue.	35-6
	The Principal Collector should state whether it is desirable to levy tolls at the different ferries in Tanjore and if so to submit a statement of the rates he would propose. He should also give an idea of the amount of revenue that may be expected from this source and suggest the best mode of making the collections.	
14-2-28	Ryotwari Settlement Opposition from the people. From the Board of Revenue.	37-53
	1. Forwards a copy of the correspondence with Government. Mr. Campbell reported that the people were as opposed as ever to a system of field assessment. It is unnecessary to criticise his arguments for enforcing the rights of Government to demand a money assessment. "It is not now the policy of Government to enforce its extreme rights by measures of coercion contrary to the popular feeling. It is their avowed principle to lead the people rather than to compel them to accede to their plans, however just and equitable." As early as 1820 Government "desired it to be expressly signified to the Collector that the revival of those measures of coercion pointed out by him would on no account obtain their sanction."	

Date.	Abstract.	Page number.
	Ryotwari Settlement—cont.	
	2. Government are anxious to put an end to the amani system, but they do not want to do so with the "arm of power". Conciliation and persuasion are the means "which should now be used to gain the consent of the people to the field assessment." "At any rate until these have been tried and have failed no other of a more severe character should be resorted to."	
	3. Mr. Campbell admits that the field assessment has been too low in some cases and too high in others on account of the corruption of the assessors. Since this was the case he should not have tried to enforce it upon the people, without any stipulation in regard to the future.	
	4. The mirasidars complain that they were promised at the beginning of the survey that the "whole amount of the new assessment should not exceed the amount of former Jamabundies, whatever increase might be discovered in the course of the survey in the general extent of land and the general amount of produce." They also propose certain measures to equalise the assessment.	
	5. In all this the Board sees nothing like a decided opposition to the introduction of the field assessment, but finds that the opposition is against its "premature application". The Board refrains from commenting upon many parts of Mr. Campbell's report.	
	6. It is proposed that the system should be given a trial in one taluk before extending it to all. Therefore, for the present only Sheally will be settled ryotwar. It is of "more consequence to do a little well and with the concurrence of the people, than to make much progress without carrying them along with him."	
3-3-28	7. Government entirely approve these remarks and proposals. Tiruvayar taluk. From the Board of Revenue.	70-1
	Approves the survey of this taluk where it had advanced more than in the other two taluks under survey. The operations in the latter should be stopped.	
17-3-28	Appajee Row Devasthanam—Head Gomastah—Dismissal reconsidered. From the Board of Revenue.	80-1
	The Board observes that he was dismissed, on strong suspicion of fraud, from the post he occupied for ten years. "The Board are averse to see old servants discharged but on very sufficient grounds" and, therefore, the case of Appaji Row should be reconsidered.	
8-2-28	Court Summons Compliance with. From the Judge of the Zillah Court.	123-4
	In connection with a summons issued to one Annooviengar, the Judge remarks that it is "irregular in leaving it to a party summoned to urge his ignorance of the matter at issue as a plea for non-obedience to the summons sent for his attendance." The only "competent authority to elicit his evidence and to determine the value of it in this as well as in every instance are the Courts themselves."

Horse and bandy pay As. 2 1pice, sheep and asses are charged at 1 pice. A man with a horse and keeper pays 6 pice. The toll upon a palankeen with bearers is 1 anna 3 pies.

21-1-28	Jurisdiction over his villages. From the Resident.	177-80
	1. As Government have decided that the Raja has a right to the same jurisdiction in his villages in the district, as in the fort, the controversy between the Collector and himself need not be continued.	9
	2. In the case of the curnam under consideration he asks "whether, as His Highness's feelings are so much concerned, the most courteous is not the best course to pursue." If the crime had been committed in the Company's territories the Police would have been justified in seizing him on the spot, but the Raja disputes the Collector's "right to carry the man off forcibly from within one of his Chuthrams, and still hopes that you (the Collector) will apply for his appearance before you through the channel of the Resident."	9
	3. A copy of the letter from Government to him regarding the interpretation of the 12th article of the treaty is enclosed.	11
11-2-28	———From the Resident.	182-3
	4. Hopes that no proceeding on the Collector's part may again compel the Raja to appeal to Government in support of his rights. Just now when the question of the Raja's authority in his own villages is under consideration it seems to be "politic as well as courteous to avoid discussions upon disputed points when it can be done without sacrificing the ends of justice." "Anything like a want of consideration" for the Raja's feeling will make him more tenacious on the different points under consideration.	2

	Represents that the weavers of Mayavaram had promised to sell a piece of land to him for use as a cemetery, but that after putting him off from time to time for a period of more than 6 months they finally refused to give him a bill of sale. 	Conveying the sanction of Government to write off the arrears standing against the lands known as Padrecottagam. 5-5-28	Resumption of—Pensions to the Cavilgars. From the Board of Revenue.	25-39
	1. When the posts of cavalcars were abolished on the introduction of the police system Government directed that the manyams which they held should be resumed, but that those who lost their means of livelihood thereby might be paid a pension equal to 1/10 of the emoluments of their office.	
	2. Mootoo Naick was in temporary charge of the duties and emoluments of another cavalcar who was suspended by the Zillah Judge. By inadvertence he was allowed to receive a pension equal to 1/10 of the emoluments received by him on account of his temporary charge also. When this was discovered his pension was proportionately reduced. He is not entitled to receive the additional amount.	
	3. As regards the general question it appears that a large number of cavalcars have failed to claim their pensions. It is likely that several of them are dead. As the pensions were granted for life only, their descendants should not be allowed to receive them. Nor, should the arrears be paid because if the pensioners managed to support themselves otherwise for such a long time they are not entitled to the benefit of the pensions. Arrears should not be paid to the descendants on any account as it involves detailed investigation.	
	4. However, each application must be considered on its merits.	
	5. In connection with this the Principal Collector is directed to submit a report upon certain manyams to Bramins and other individuals, "payable from a fund set apart for these and other charitable and religious purposes, which is raised by a certain assessment in grain converted with money on the same principles as the land revenue and collected together with it." It has already been determined that they are not to be continued hereditarily and the Board cannot accept Mr. Campbell's opinion that they were granted as perpetual alienations of the revenue.

2-6-28	F. 1236—Review. From the Board of Revenue.	75-95
	1. Forwarding copy of the proceedings relating to the report for F. 1236. There is a net decrease of Rs. 5,53,011 when compared to the revenue of last fasli. This is accounted for by the exceedingly low prices which prevailed as a consequence of an unusually plentiful harvest. "The loss of revenue was unavoidable from the nature of the settlement which makes it in a great measure dependent on the price of grain." When the prices were high Government derived a large profit. A reduction is therefore, naturally the result of low prices. It is satisfactory to observe that the number of villages under amani was reduced by 105.

	Jamabandi Report—cont.	
	2. It was formerly the practice to allow the mirasidars the option of throwing up their leases if the crops fell short of the standard by more than 20 per cent. owing to inundation or drought. In such instances a waram of 50 per cent. was demanded from them instead of 45 per cent. Mr. Campbell considered that this system was defective and accordingly ordered that no village should be taken under amani unless the produce of it fell 50 per cent. below the standard.	
	3. It is certainly a better principle to grant a special remission for a partial injury rather than annul the entire lease and taking the whole village under amani. But as there are no data to show the produce of each field it is impossible to estimate the loss suffered by particular fields. The principle followed by Mr. Cotton may therefore be adhered to until the field assessment is introduced.	
16-6-28	Shrotriyam Periapalayam—Saminada Mudali. From the Board of Revenue. Forwards the sanction of Government to allow Saminada Mudali to hold 50 valies purchased by him in the village of Peryapaliam on a shrotrium tenure. For the first 3 years no rent will be demanded. From the 4th year till his death he should pay Rs. 100 per annum. After his death the defendants may hold it perpetually on payment of Rs. 400 per annum. "Exemption from the services called 'Aulamunjee and Oolampalliam' in favour of the persons residing on the lands in question cannot be allowed."	101-6

16-5-28	Court-house and Jail, Kumbakonam. From the Zillah Judge. Requests information regarding the extent of the ground and the tenor, by which it is held. Kumbakonam appears to have been the Collector's station and these buildings appear to have formed his cutchery.	203
14-4-28	Raja of Tanjore Jurisdiction over his villages. From the Resident. The Raja has been complaining that the arrangements sanctioned by Government have not been carried out even after the lapse of two years. It is desirable that room should not be given for such complaints. With a little courtesy on both sides an arrangement agreeable to both the parties may be made.	277-9
30-4-28	Boundary Disputes Raja of Tanjore. From the Resident. It is desirable to come to a proper understanding how all disputes regarding the boundary of the Raja's villages are to be settled. The fairest way would be that of sending the Tahsildar and the Raja's mudhest to the place so that they can persuade the people to settle the dispute by arbitration, by running the boundary or in any other manner conformable to the custom of the country. If this should fail the Raja will depute somebody to meet a person deputed by the Collector for the purpose of making a fuller investigation.	281-2

2-5-28	Raja of Tanjore Exchange of village—Delay in. From the Resident. 1. The Raja has always been ready and willing to afford the fullest information on the subject. Besides, the lands were actually made over to the Collector and have been under his management for the last six months. The Company's officers are to blame if they are still in ignorance of the value of the lands. However accounts and explanations are forwarded again. Though the interests of the Government are not to be sacrificed it is necessary that our dealings with the Raja should evince a liberal and accommodating spirit. 2. The complaint made by the sayar renter is groundless. He has not been able to prove a single instance of the sale of betel brought into the fort under a dustuck, i.e., under a free licence for the use of the Raja. 3. Regarding the Raja's jurisdiction, any discussion on minor points may tend to impede a satisfactory arrangement. He considers the authority of the Treaty to be "paramount to everything else." Government is likely to allow "no practice to have any weight which has merely prevailed by sufferance." However, the Raja is anxious to avoid all clashing of authority, and has ordered his servants to abstain from all actions that may lead to misunderstanding. The Resident suggests that this friendly feeling should meet with a response on the Collector's part.	283-93
21-5-28	Boundary Dispute Tenum Nad. From the Resident. Forwards copy of his letter to the Sirkele of the Raja in which he desires that the inhabitants of the village, who resorted to violent measures, should be handed over to the Magistrate for trial. Whatever may be the rights of the people to the land under dispute it was certainly not proper that they should have taken the law into their own hands.	295-8
28-5-28	Raja of Tanjore Jurisdiction over his village. From the Resident. 1. The Collector claims to exercise the "same authority, as Collector and Magistrate, in the Raja's villages, as in the rest of the district." The Raja protests most strongly against this claim, and refers to the 12th article in his support. Besides, Government have decided in 1806 and 1826 that the Raja was entitled to complete jurisdiction within his villages. The practice of the previous Collectors cannot be set up against the authority of the Treaty. The present Collector has gone beyond any of his predecessors in the extent of his claims. 2. The Raja does not admit the Collector's right to interfere in his civil matters. He has no objection to allowing the Collector as Magistrate, to take cognizance of offences committed in his villages, provided certain courtesies are observed in the mode of proceedings. In all other cases the inhabitants are at perfect liberty to seek redress before whatever tribunal may be most convenient. 3. The Raja has put up with several things, which he considered a violation of his right, in order that he may not trouble Government. He has been looking forward to the final settlement upon this subject, which has, however, been protracted such longer than he anticipated, in spite of the avoidance of all delays on his part.	299-304

11-9-1828	4. Since the Collector persists in putting a construction upon the Treaty, which is contrary to that put upon it by the Government and the Raja, it is desirable that the matter should be placed before Government as early as possible. At any rate it is necessary to "represent to Government the great inconvenience of the present state of affairs, and to urge a final settlement of the jurisdiction question" at an early date.

11-9-28	Tahsildari School Establishment of. From the Secretary to the Madras College. "It is advisable to establish the same number of Tahsildary schools in Tanjore as are at present established in the other provinces." The Collector is therefore, directed to establish 3 schools in three of the towns most suitable for the purpose. Copies, in English and the vernaculars of the summary of the proposed system of education are enclosed.	28-37
20-9-28	Revenue Sales Legality of. From the Board. The Board has no doubt of the legality of selling the lands of mirasidars for arrears of revenue. But as the matter is now before the Sudr Adawlut it is considered advisable to avoid doing so until the question is decided.	50
3-9-28	Jamabandi Report Mannargudi Division—F. 1237. From the Sub-Collector. 1. The season was rather unfavourable for cultivation. The storm of wind and rain which occurred in the early part of May 1827 filled with water the places usually set apart for raising the seedlings. It also washed away the surface-soil which contained the fertile alluvial matter brought down by the earlier floods. The storm being local no fresh deposit was made. 2. To add to this several of the wealthy mirasidars deliberately neglected the cultivation of their lands in order to show a reduced output. They expect that when the field assessment is made their lands will be assessed favourably if the outturn of this year is found to be low. It is with this object that they refuse to rent their villages. 3. Prices. A heavy fall of rain in March reduced the output from 120 calams per valey to 60 calams. It is generally understood that the produce was on the whole 15 % less than the standard grain amount. The price of grain, however, has not risen owing to the flourishing condition of the crops in the adjoining districts. Formerly	164-91

	Tanjore used to supply all the neighbouring provinces with this staple commodity. Now there is no great demand from Madras, Ceylon and other places. The price reached the very low level of Pag. 15½ a garce. It has latterly shown a tendency to rise owing to the prevalence of a rumour that a large quantity will be required for Madras.	
	4. Cadarambam villages. These are lands lying near the sea in the south-east of the district. They were formerly uninhabited and uncultivated. But they have been gradually developed until they have become capable of producing large quantities of grain. The villages are raised but a few feet above the level of the sea. There is a substratum of black clay which indicates the presence of coal. These villages were originally settled on a grain basis. Later on some of them were rented. During this fasli they were rented by the Mirasidars, themselves for greatly enhanced amounts.	
	5. The whole jamabandi of the division amounts to Rs. 7,89,546 which is about Rs. 1,11,000 less than that of the previous fasli. Some of the rich mirasidars have refused to pay their dues in the hope of receiving a larger amount of taccavi, and in order to make believe that their circumstances are bad, the sale of some of the lands of one or two of them will prove an example to others.	
	6. There is likely to be an increase in the extent of the lands under amani. Many of the villages may be rented out if the standard is reduced to some extent. There is no doubt of their producing more under the reduced rent than under amani.

27-7-28	—Village of Oomipoor—Interference by the Collector. From the Resident. 1. The Collector is informed that the Raja has no objection to allowing any of the inhabitants of the village, who are not his servants, to appear before him. The trouble could have been avoided if the Collector had not taken upon himself to interfere in a civil suit about land belonging to the Raja's villages, under the care of the Raja's officers. 2. The Raja objects to delivering up the putuckdars of Omiapoor to answer the charges brought against him. The Collector has no right to take cognizance of the complaints preferred against the Raja's officers for acts by them in the Raja's villages in the execution of their duty.	201-2
21-8-28	—Survey—Villages of. From the Resident. Forwards a letter from the Sirkele of the Raja stating that the Collector's servants may survey the Raja's lands in the course of the general survey of the district. But the Raja desires that no future measurements should take place without his consent. He is apprehensive that the tahsildars may "make the present proceedings a plea for interference in his villages hereafter." The Collector's assurance that there will be no future interference will set him at rest.	109-12

4-9-28	Society for the Propagation of the Gospel Padrecottagam—Reduction of assessment. From D. Rosen, Missionary. Requests that the assessment may not be raised above 20 gold chuckrums per vely because the land is unproductive and a higher assessment will leave no profit to the division.	237-9

Letters from the Board.
1828.

10-11-1828	Jamabandi F. 1236—Government's remarks. From the Board of Revenue. Forwarding a letter received from Government stating that "considering the length of time, which has elapsed and the important changes which have taken place in the province" it is unnecessary to discuss the various questions referred to in the Board's proceedings relating to the jamabandi of 1236. Government are fully satisfied that though the revenue was nearly 6 lakhs less than that of the preceding fasli it was as high as could be expected with the unfavourable season.	69-71
11-12-28	Nelson, Mr. R. Sub-Collector—Censured. From the Board of Revenue. 1. The Board at first felt inclined to return Mr. Nelson's letters to him as recommended by the Principal Collector, but on reconsideration of the subject "and the dangerous tendency of the principles advocated by Mr. Nelson" thought fit to record their "decided disapprobation not only of Mr. Nelson's sentiments but of his conduct also." 2. This "delicate and purely political question", which he has thought proper to discuss, was never "intended to have been made the subject of discussion among the subordinate officers of Government." Mr. Nelson possessed neither "right nor authority" to question the propriety of the native festivals in Tanjore. In altering the mode of celebrating the festival at Rameswaram he went a step further. 3. The Board apprehends that this kind of interference is likely to destroy the confidence which the people ought to feel in the Government. He is, therefore, ordered to attend to his more immediate duties instead of wasting his time over "useless and uncalled for discussions." The Board has forwarded a copy of the correspondence on this subject to Government.	77-80

10-10-28	Car Festivals Compulsory service of coolies at. From the Sub-Collector. 1. Mr. Nelson discusses at great length the evils attendant on the system of compelling the ryots to draw the cars during the festivals. In Tanjore it is the practice of Tahsildars to issue orders to the curnums to procure a specified number of people for this purpose. Each mirasidar is bound to depute a certain number of coolies, according to the extent of his land. These are marched by the curnums sometimes twenty or thirty miles to the	183-99

	Car Festivals—cont. temple. Great care is taken to see that they do not abscond in the course of the march. They are mustered on their arrival and mustered again before their return. Usually, they are detained for five or six days away from their fields. 2. The mirasidars find this system so disadvantageous to their cultivation that they endeavour to obtain outsiders to serve in the room of their cultivators. This system of compulsory service falls very hard upon the Protestant Christians, who attend at these festivals much against their conscience. Being dependent upon the mirasidars for their livelihood they dare not refuse to obey the orders of their superiors. 3. During the festival the affairs of the Government are at a stop because all the curnums and Tahsildars are obliged to attend at the temple and exert themselves to get the car drawn round as quietly as possible. Very often the revenue servants are forced to perform duties which appear to be very disgraceful to persons in their situation. The crops are neglected during this time. Collections are at a stop. If a robbery takes place no enquiries can be made until the curnum returns from the temple. 4. Mr. Nelson is of the opinion that Government ought not to countenance the superstitious and idolatrous habits of the people. They are not bound to uphold all the bad practices that may have prevailed in the province. Several benevolent measures have been introduced which though contrary to usage have been accepted by the people without any protest. Sati has been suppressed though it was an ancient custom. The system of compulsory service during the car festivals may also be put a stop to without any inconvenience. The mirasidars and the labourers will applaud the measure. The affairs of Government will not suffer. 5. Only the people of the town, in which the temple may be situated, may complain. Their opinion should not be allowed to carry much weight because they are for the most part idle spectators and do not help in the celebration of the festivals. Though there may be some complaints about the abolition of the system they are likely to cease after a short time. 6. As an example, Mr. Nelson points to the temple at Rameswaram, where compulsory service was prohibited. A proclamation was made to the effect that all those who liked to attend the festival might attend. The result was that there were very few to draw the cars. Some of the richer inhabitants made out a petition which was thrown out by the Collector. 7. It may be argued that if the people are willing to go on as they have been doing they ought to be allowed to do so without any interference on the part of Government. But it should be remembered that the poorer people do not usually combine to obtain redress for a grievance which they would be glad to see removed through some external agency. 8. In conclusion, Mr. Nelson suggests that at least with regard to the conscience of the officers of Government the system should be abolished. For, the duty of forcing people to do what he knows to be immoral is extremely unpleasant to the European, who has himself perhaps protested against similar superstitions in Europe.

	9. In reply to a letter from the Principal Collector, he states that he is not aware that the subject had "ever undergone discussion by the higher authorities" and that he desires the opinion of the Board upon his proposals. He refrains from analysing the remarks of the Collector because it is against the orders of the Board. He emphasises the fact that he has not obstructed these processions. He has, on the other hand, merely refrained from enforcing the attendance of any one at the festivals.	

Jamabandi Report

21-11-28	Sea and land customs—F. 1237.	207-22
	From the Sub-Collector.	
	1. There is a decrease of more than Rs. 23,000, under the head of customs, when compared to the collections of f. 1236. The deficit was caused by a smaller export of rice and cotton. The former commodity was not in demand at Madras and suffered a drawback in Ceylon owing to the imposition of a protective duty of 25 % by that Government. Cotton is not a produce of the district. It has latterly been sent to Madras through the ports situated to the south of this district.	
	2. In tobacco the decrease amounts to Rs. 56,814. This was caused by a decrease in the output and a decrease in the demand occasioned by an excessive export in the preceding year.	
	3. The average export for the last three years is Rs. 23,73,712. The average imports amount to Rs. 6,51,081. The surplus of more than 17 lakhs returns again to the district in the form of drafts obtained from the Ceylon Government and from Penang. More than Rs. 12,40,000 has been paid on an average to meet such drafts. About 1 lakh returns in the shape of Europe and native goods from Madras. And 2 lakhs are supposed to return in the shape of bills to the southern districts from which the cloth was purchased. A large part is imported, in bullion overland through the 'gollahs'. No bullion is imported by sea.	
	4. Mr. Nelson suggests that further facilities should be offered to the merchants to obtain drafts. He proposes that the periodical remittances from Tanjore may be entirely stopped so that these funds may be utilised to meet the bills issued to the merchants. The bills should also be made payable at five days' sight instead of 30 days because the merchants are very often pressed for money and therefore resort to the gollahs who are capable of conveying the money in seven days from the Presidency. If the bills are made payable at sight or within a week the merchants would prefer them rather than incur the risk of entrusting money to the 'gollahs'.

**Letters from the Board.
1829.**

Vol. 4206.

	Nelson, Mr. R.	
19-1-1829	Car festivals—Report on.	15-8
	From the Board of Revenue.	
	Forwards the correspondence with Government on the subject. The letter written by the Board to the Collector is entirely approved by Government.	
	Jamabandi	
29-1-29	F. 1237.	25-42
	From the Board.	
	1. Forwarding an extract from the proceedings relating to the jamabandi of f. 1237.	
	2. <i>Prices.</i>	
	The reasons given by the Collector for prices not having risen are just. The net decrease amounts to Rs. 1,96,924 or 6 $\frac{1}{8}$ % below the settlement of f. 1236. The reduction would have been much less had it not been for the large number of villages which newly came under amany; "a circumstance much to be regretted on every account, but which it was not in the power of the local officers to prevent under the existing system."	
	3. <i>Revenue sales.</i>	
	The mirasidars make a practice of postponing payment of their rents. As soon as the Sudr Adawlut decides the question of the proper mode of selling their lands for arrears of revenue, the Collector will be directed to adopt those measures. This is likely to put an end to the obstinacy of the mirasidars.	
	4. <i>General system.</i>	
	"The Principal Collector has judiciously abstained from the discussion of the present system of management." The defects cannot be "remedied by any partial expedients." It is hoped that the new work he has on hand will overcome most of these evils.	

Suit against Collector

2-3-29	Costs of defence.	61-4
	From the Board.

	2. In reply to a letter from Mr. Goldingham the Board states that it is its intention to approach Government to reconsider the case. The suit should, however, be defended as if there were no conditions. Mr. Goldingham may refuse to defend it, but he should remember that he cannot "withdraw himself of his own accord from the responsibility of satisfying the decree of the Court if it should be against him."	
27-3-29	Persian Teacher Kumbakonam. From the Secretary to the College. Conveys the sanction of Government to appoint a teacher on Rs. 9 for teaching Persian to the inhabitants of Kumbakonam.	77-9
30-4-29	Jamabandi Extra revenue—F. 1237. From the Board of Revenue.	81-104
	1. There was an increase in the salt revenue to the extent of nearly Rs. 22,000, part of which was occasioned by the increase in the monopoly price.	
	2. The sayer revenue with the exception of the frontier chowkis was rented for Rs. 3,85,500. The magnitude of this revenue induced the Board to insist upon the Collector's obtaining ample security from the renter. The renter eventually became a defaulter and the arrears against him amount to more than Rs. 6,000.	
	3. He claims remission on two grounds. First, Mr. Campbell refused to allow him to levy the full amount of the duty on tobacco. Secondly, for 15 days he was not allowed to collect the dues in the villages newly transferred to the Raja. On the recommendation of the Collector the Board accepts these reasons.	
	4. Regarding Mr. Nelson's report on the sea customs revenue the Board has called for information relating to the proposal to grant more bills of exchange to merchants.	
	5. The collections under moturpha, abkary and sundry items are satisfactory.	
31-1-29	Suit against Sub-Collector Defence of Sub-Collector. From the Sub-Collector, Mannargudi. Mr. Nelson requests the sanction of Government to defend the suit preferred against him at public expense. The plaintiff alleges that the Sub-Collector ordered to be attached and sold the house and furniture belonging to him on the supposition that his brother Krishnayan had a share in it. The answer proposed to be filed by Mr. Nelson is also enclosed. It shows that there is evidence to prove that they are a joint family and that the partition deed is a forgery.	243-6
7-2-29	Suit against Collector Defence of. From the Sub-Collector, Mayavaram. 1. Mr. Goldingham forwards copy of the plaint and answer in the suit filed against him and others by Nanoovien of Tremoolasamudram for the recovery of about Rs. 12, being the cost of certain trees said to have been cut and sold by the order of the Sub-Collector. He requests that the sanction of Government may be obtained for defending it at public expense.	247-60

10-1-29	Travellers' Bungalow Palace at Tiruvalur—Conversion into. From the Resident. Forwards a letter from the Sirkele stating that the Raja has no objection to allowing a part of the palace to be repaired and utilised as a travellers' bungalow; provided the travelling gentlemen do not intrude upon the gardens etc., belonging to the palace.	273-6
11-1-29	Raja of Tanjore Exchange of lands. From the Resident. (See Reprint 232/50-3.)	281-91
19-1-29	From the Resident to Government. Reports that all the details of the exchange have been arranged to the satisfaction of the Raja and the Principal Collector. The sayer revenue will not be collected on the goods passing through the Raja's territory. The Raja is competent to collect duties upon those which are produced and consumed within his territory. The Resident requests that the question of the jurisdiction of the Raja within his territory may be settled at an early date.	293-6
2-2-29	Weights and measures—Stamping. From the Resident. 1. Reports that the Tahsildar of Pattukottah has informed the Raja's Kamvisdar that he has received orders to "arrest and send to the Magistrate any persons in the Raja's bazars belonging to the Chetrum who objected to have their weights and measures stamped by him." 2. The Resident forwards copies of the correspondence which formerly took place on this subject, to show that the Raja has "always resisted such interference". The weights used in the bazaars are the same as those used in the Company's territory, and a departure from this practice is punished by the Raja.	303-17

Public Servants—cont.

4. The charges against him were originally 11. Mr. Nelson, however, found him guilty of only 4. These were brought forward by one Kistnaiengar. The first two charges are that Kundasamy received bribes. These are not supported by the evidence of the informant only. The 3rd charge is that he received a bribe of Rs. 550 for appointing one Sabapathy as the stanik of a temple. The evidence of the 4 witnesses in this instance is varying and therefore cannot be accepted. Sabapathy's statement has not been obtained. He is said to deny the charge. The next charge of corruption is also unsupported by the evidence produced before the Sub-Collector.
5. The Board therefore directs that Kandasamy should be released, and that the fine recovered from him should be refunded. Mr. Nelson should explain why he protracted his proceedings for such a long time and on what authority he kept the accused and several witnesses under restraint for a year before judgment was passed. They order the informer Kistnaiengar to be dismissed because he is either a liar or a person concerned with the offering and accepting of bribes. The Principal Collector should revise the proceedings of the officers under him in such matters.

14-5-29 Reduction—Assessment of.

39-44

From the Board.

Conveys the authority of Government to reduce the assessment upon the lands known as 'Padrecottagam' from Rs. 353 to 210 so long as they are under the control of the Madras District Committee for promoting Christian knowledge and the proceeds are applied to the same benevolent purpose as at present."

Runga Row

1-6-29 Late Deputy Sarishtadar—Re-employment in service.

55-62

From the Board.

Forwards copies of the letters to and from Government upon his case. The Principal Collector having stated that the order prohibiting public servants from purchasing lands was not published properly, and that Runga Row was dismissed more for the sake of an example than because of his guilt, the Board recommended to Government that he should not be disqualified from holding a post under Government. Accordingly Government ordered that he might be employed in some district other than Tanjore.

Corruption

15-5-29 Kandasamy Mudali etc.—Board's remarks.

195-242

From the Sub-Collector.

1. Mr. Nelson replies to the remarks made by the Board of Revenue upon the petition of Kundasamy Pillai. The charges of illtreatment brought forward by the petitioner are groundless. As no property of his could be found it became necessary to secure his person by stationing a peon on the verandah of his house. Some of the witnesses had also to be detained for a few days and a peon was placed over them to prevent their absconding. This practice has been common in the district and the Sub-Collector was not aware that it was irregular.

Corruption—cont.

2. Sabapathy denies that he had anything to do with any bribe that might have been offered for obtaining for him the post of stainke in the temple. But it is notorious that the amount was raised by levying a rate upon the weavers of the place. Corruption is widely prevalent in the district, but it is difficult to prove it in many instances. The people, who give the bribes, refuse to give evidence because they fear that they will be harassed later on by the public servants.
3. Kistnaiengar is no doubt a rogue, but so are almost all the other people in the service. He was fined and imprisoned once before for bribery, but was reinstated on his promising to discover a large extent of hidden cultivation. When he failed to make good his promise he was dismissed again.
4. Mr. Nelson requests to be excused by the Board for the irregularity of detaining witnesses.
- [Mr. Robert Nelson. Joined the service, 1816, left India 1837 as acting Third Judge of the Provincial Courts, Southern Division.]

Palaces at Tiruvadi—Extension of.

243.

From the Resident.

Inform the Collector that the Raja desires to acquire 2 maus of land adjacent to the Palaces at Trivady in exchange for which he is prepared to give an equal area in some other place. The proposed work will be an improvement to the bank of the river and a convenience to the public.

3-6-29 Old Forts—Claims to.

249-72.

From the Resident.

1. Forwards copies of the correspondence which formerly passed upon the subject. The Raja has already agreed to allow the Collector to remove the stones of these old forts provided they are used for public purposes.
2. The claims of the Raja are founded on the following grounds:—
- (a) Since it is admitted that before the treaty the forts were his it is the Collector's duty to show how and when the Company obtained possession of them.
 - (b) Hereditary right and uninterrupted possession. The Raja is ready to prove that he has always appointed Killedars to manage them and enjoy the produce of the lands within them.
 - (c) These lands are not entered in the Collector's Jamabundy accounts.
 - (d) Mr. Cotton applied to the Raja for the materials of one of the forts.
 - (e) Government directed the Raja in 1803 to withdraw his people from the fort of Keelanelly before giving it to Raja Tondiman.
3. The Resident desires to know the basis of the claim put forward by the Principal Collector. As the forts are not worth much and as the Raja has already agreed to allow the Government to make use of the materials for public purposes, the Resident suggests that the matter may be arranged amicably, without the intervention of Government.

Legality of—Opinion of the Sudr Adawlut.
From the Board of Revenue.

37-60

1. Forwards a copy of the proceedings of the Sudr Adawlut in an appeal preferred by the Collector of Malabar against the decision of the Provincial Court. It is the opinion of the Court that it is competent to the Collector to sell lands not permanently settled, for the recovery of arrears of land revenue. Government have accepted this view.
2. With reference to this extract the Collector is directed to proceed immediately to sell the lands of some of the Mirasidars who may be contumaciously withholding payment of their dues. This is expected to have a salutary effect upon the rest. But it is to be understood that "recourse should be had to this measure only in extreme cases".

61-75

From the Board of Revenue.

1. Forwards extracts from the minutes of consultation received from Government relating to the church property in Tanjore. The Madras Committee of the Incorporated Society for the Propagation of the Gospel in Foreign Parts applied to Government for grants for the lands held by the Mission in Tanjore.
2. The Tanjore Missionaries have represented that the lands at present in the possession of the Mission are held only under sunnuds received from the Tahsildars. They desire to obtain grants for these lands similar to those given to the Danish Mission of Tranquebar. The parcels of land claimed by the Mission lie in 23 places and have a total area of 1½ valies or 9 acres.
3. The Collector is directed to report on the nature of the grants said to have been given to the Tranquebar Mission.

2. On the first point the Sub-Collector has only to deny that it was his duty to dispossess the occupants of the land, leaving it to the plaintiff to show that it was his duty to do so. The Board is not aware of any such obligation on the part of the revenue officers.
3. Regarding the second point Mr. Goldingham should state clearly his reasons for detaining the documents. If it was with the intention of prosecuting the parties criminally he must support his surmise by proper evidence. If they were detained in the capacity of Magistrate as stated above they should be lodged in the Magistrate's Court.

Jamabandi Report

24-9-29

Mannargudi Division—F. 1238.
From the Sub-Collector.

285-97

1. The season was not favourable to the cuddapa kar crops. There were complaints of damage due to drought from 336 villages, but on a close scrutiny of the crops in these villages it was discovered that only 130 villages deserved any remission. There were 243 villages under amani. The produce of these villages showed an increase in spite of the drought. This is attributed to the vigilance of the native servants.
2. 47 out of the 49 cadarambam villages have been rented on very advantageous terms. There was an increase of cultivation in these villages caused by the conversion of dry lands into wet.
3. The most prominent feature of the year is the extraordinary rise in prices. Grain was for some days sold at Pag. 35 per garce at Negapatam. The revenue has consequently increased by Rs. 3,26,855, notwithstanding a decrease in the outturn.
4. The survey of Kcevalore and Tirturapoondy has been completed. The former contains 428 villages and the latter 307. The survey shows an increase of nearly 7,000 valies. The dry lands have diminished in extent owing to their conversion to wet lands. The expense of measuring these taluks is nearly 33½ rupees per square mile.

	From the Board of Revenue.	
	1. Forwards copy of a letter received from Government regarding the jamabandi of 1237. The Principal Collector is directed to advert to the excess of cultivation discovered by Mr. Nelson in the cadarambam villages. The experiment is to be made at the Arasalar ferry on the new road between Nagore and Mayavaram. The rates proposed by the Principal Collector are approved. The form of collecting the fees is to be rented. Wide publicity should be given to the rates in order that the renter may not levy more than the prescribed fees. The table of rates should be printed and placed at the landing places.

	Revenue Sales	
14-12-29	Procedure.	67-9 ✓
	From the Board of Revenue.	
	1. As the Sudr Adawlut has declared that Regulation XXVI of 1802 has reference only to permanently settled lands, it is not necessary to publish the proclamation of the sales of lands in Tanjore at the office of the Board of Revenue. These lands are usually of small extent and are not likely to be purchased by persons residing in other districts.	
	2. The Collector need not send a monthly statement of such intended sales. He may report from time to time for the orders of the Board. As a rule the orders will be received within one month after the date of the notification.	
	3. The Board desires that the sales should take place in the presence of one of the European officers. Each of the Sub-Collectors should arrange to superintend all the sales in his division.	
	Arippe Pearl Fishery	
17-12-29	Arippe—Claims of temples in Tanjore etc.—Opinion of the Ceylon Government.	71-86
	From the Board of Revenue.	
	1. Forwards a copy of a letter received by Government from the Government of Ceylon. It is admitted that the temple at Trechendore and the mosque at Nagore have been allowed to enjoy the profits arising out of 1 and 2 boats respectively. There are grants which show that the Chiefs of Ramnad allowed this privilege to these institutions as well as to Ramaswaram etc.	
	2. The Ceylon Government contend that they are not bound to recognize the validity of these grants because the fisheries were obtained for the British Government by right of conquest. The former Governors might have allowed these institutions to enjoy the benefit of the fisheries for the sake of encouraging the drivers or for the sake of expediency. The present Government is unwilling to allow the same privilege without obtaining the permission of the Government of England.	
	3. They forward a letter from the Supreme Court at Colombo upon this subject which shows that the Judges partly agree with the Ceylon Government. They, however, seem to think that what was recognized by the East India Company ought to be recognized by the present Government also.	
	Subbaraya Mudali	
17-10-29	Tahsildar of Tiruvadi—Dismissal of.	215-8
	From the Sub-Collector, Negapatam.	
	Mr. Nelson explains the points raised by the Board regarding the trial of Soobroya Mudali. All the evidence taken before the Tahsildar was not accepted. What was relevant was again taken down on oath. Mr. Nelson does not remember why Mr. Gardner conducted part of the investigation. The Principal Collector appears to have deputed him to take down the evidence offered by the parties. When Mr. Nelson took charge of the enquiry he wanted these documents also to be taken into consideration.

From the Sub-Collector.

221-7

The principal features of the year are the increase of revenue arising from high prices and the remissions granted to the villages which suffered from the failure of rain in January. There were 1,241 rented villages and 68 under amani. The increase of land revenue amounts to nearly Rs. 2,60,000.

Frontier Disputes4-10-29 Pudukottai.
From the Resident.

229-35

Forwards a letter from the Sirkele of Raja Tondaman stating that the people of Nadoovassel village have misrepresented the facts to the Principal Collector, and desiring that some person on the Collector's part should be sent to settle the dispute.

Raja of Tanjore6-10-29 Encroachments on public roads.
From the Resident.

239-53

1. Forwards two letters received from the Sirkele in reply to the Collector's memorandum upon the complaints made by the Tahsildar of Trivady regarding the encroachments made by the Raja's servants on public roads.
2. The Sirkele describes in detail the various spots where the encroachments are said to have been made and adduces facts to prove that the buildings and gardens have been protected by hedges erected in customary places and that no encroachment has been made upon the public roads. The Sirkele also accuses the Tahsildar of misrepresenting facts out of malice.
3. Another instance of misrepresentation regarding boundaries is also brought to light by the Sirkele. In this case the inhabitants of Tripundoorty are accused of removing a dam marking the boundary between their village and the garden of the Raja, and subsequently claiming as their own the trees which stood on the Raja's territory.

Palace at Madhiarjun8-11-29 Affray between Tahsildars and sepoy.
From the Resident.

269-347

1. Forwards the statements of several persons relating to the quarrel which took place before the palace at Madhiarjun. These papers show that the Tahsildars of Comba-konam and Mayavaram persisted in beating tom-toms and blowing horns, contrary to usage while passing in front of the palace.
2. The sepoy who were on guard at the palace gate forcibly stopped the noise. For doing so they had their standing orders, handed down from one guard to another, which obliged them to prevent a show of pomp before the gates of the Prince whose father lately ruled the country and who had voluntarily placed themselves under the protection of the British Government.

Date.

Abstract.

Page
number.**Palace at Madhiarjun—cont.**

3. The Tahsildars seem to have persisted in their attempts to blow the horns, and later on arrested and ill-treated a large number of people attached to Pretaup Sing. The petitions presented by Pretaup Sing and his mother show that the officers have been vindictive in their behaviour. They request the Resident to obtain the permission of Government to leave Madhiarjun in order to return to Tanjore when they will be under their hereditary Prince.
4. The Resident remarks that though he cannot judge the propriety of the order issued to the sepoy, yet so long as it stands the Tahsildars and others should not be allowed to break it on their own authority. He also observes that the matter was one between the revenue servants and the Company's sepoy on guard and that Pretaup Sing's people had no concern in the affray.
5. If the sepoy were at fault they ought to be punished by a court martial. At any rate the action of the Tahsildar in arresting so many persons of rank in a summary manner and subjecting them to ill-treatment was certainly highhanded. The Resident, therefore, suggests that the Principal Collector should examine the witnesses produced by both parties and decide the matter upon its merits.

Raja of Tanjore9-11-29 Encroachment on roads—Protest against Collector's action.
From the Resident.

349-71

1. Encloses three letters received from the Sirkele complaining that the Principal Collector has, upon the representation of his subordinates, arbitrarily ordered several houses to be pulled down and several trees to be felled, which were standing on the roadside.
2. The Resident explains that the Raja is willing to place the supervision of the high roads in the hands of the Collector. The Raja is also entirely in favour of improving the roads and widening them wherever necessary. He only desires that when such improvements affect his lands he should be consulted before carrying them out.
3. The Raja desires that some definite principles should be followed in the matter of roads. For if each Collector is allowed to fix his own standard of width the result will be dispute and confusion. It should also be borne in mind that before pulling down houses the owners should be allotted other sites and materials to build upon. In the present instance the Trivadi road which is of less importance when compared to the high road from Madras, has nevertheless been subjected to these arbitrary measures in spite of its being broader than the Madras road.
4. In view of the fact that the Raja is an advocate of good roads and that he has several plans for improving them, which he proposes to carry out shortly, it is highly desirable that the Principal Collector should enter into some amicable agreement with him upon this subject.
5. Encloses a letter from the Sirkele complaining that the Tahsildar of Trivady has encroached upon the Raja's gardens in a place where he could have widened the road equally well by carrying the road over waste land. It is stated that the road at this place was much broader than those in the Company's own territory adjoining.

12-11-29	Boundary Disputes Raja of Tanjore. From the Resident.	381-6
	1. Forwards a letter received from the Sirkele in reply to one from the Collector regarding certain lands near Tripan-durty. The Raja resents the presumption with which the Collector decided the dispute upon his authority and ordered the bamboos standing on the land under dispute to be cut by the inhabitants of the Company's village. He questions the right of the Collector to give away what belongs to him under the treaty.	
	2. He is perfectly willing to enquire into complaints of this nature, but he cannot permit the Collector "to behave towards him as if he were one of Company's mirasidars instead of a sovereign prince and one of their allies."	
	3. The value of the land in question may be trifling, but it involves a vital question, viz., whether the Collector has a right to take the law into his own hands when boundary disputes occur. The Resident suggests that since the Collector and the Raja are fairly at issue over this question it may be referred to Government.	
7-12-29	Raja of Tanjore Jurisdiction in villages. From the Resident to Government.	391-7
	1. Represents that the Raja and the Collector are at variance in several cases. Most of these deal with the rights of the Collector to interfere in the lands belonging to the Raja. The Raja disputes the right of the Collector to decide boundary disputes on his own authority, and to punish the Raja's servants for their misdemeanour. The Resident is forced to admit that the Collector has in several instances put a construction upon the treaty which is contrary to that put upon it by Government. The Raja has been putting up with a great deal of petty annoyance in the hope that the question of jurisdiction would be settled very soon. But as the disputes are becoming acrimonious the Resident requests the interference of Government.	
9-12-29	From the Resident to the Collector.	399-401
	2. States that he has no intention of justifying the terms in which the Raja has thought fit to complain against the Collector, but that since the letters of either party show a great deal of animosity he finds it exceedingly disagreeable to be the medium of such correspondence. He hopes that orders will be issued shortly by Government upon this subject of jurisdiction.

25-2-30 1-3-30	Subbaraya Mudali Tahsildar—Appeal against dismissal. From the Board of Revenue.	23-8 41-5
	1. The Board observes that there were originally 46 charges against him. Of these 12 were dismissed as groundless by the Sub-Collector. The Board dismissed 15 charges more as the enquiry relating to them was not made in a regular manner. The remaining 19 are based on proper evidence and the sentence inflicted on him meets with the Board's approval.	
	2. The Board remarks that the proceedings of the Sub-Collector proceeded in a confused manner. Each charge is henceforth ordered to be kept distinct as in the case of judicial enquiries.	
	3. Directs that the sale of his lands should be postponed until orders are passed upon his further appeal.	
	4. Forwards its proceedings relating to the charges upon which he was sentenced by the Sub-Collector. Out of six charges the Board acquits him of 5. He is however found guilty on one charge and is sentenced to pay Rs. 1,440-8-0.	
4-3-30	Oppression By Government servants—Complaints from Keevalore. From the Board of Revenue.	49-62
	Forwards a petition received by Government from the inhabitants of Keevalore complaining that the Tahsildars and other native servants oppress them in several ways. The Board is unable to find out what exactly it is they complain about but desires the Collector to make an enquiry into any grievances that they may have.	
29-3-30	Sub-Collector's Sharishtadar Mayavaram—Exoneration of. From the Board of Revenue.	67-9
	Approves the action of the Collector in conducting an enquiry, which has shown that the charge is baseless. The Collector is at liberty to punish Armugam Pillay, in the capacity of Magistrate, for bringing false and malicious charges against a public servant, but the Board is not competent to issue any orders on the subject. The Board also remarks that the method adopted for procuring the attendance of Jayakotyvantty as witness is irregular and unwarranted by the regulations.	
8-1-30	House-tax Raja's land at Shelvanaigpatam. From the Resident.	219-20
	Represents that the Raja is desirous of obtaining a remission of the house-tax. He has been informed that as the lands were acquired after the treaty no such remission will be granted. As he has submitted an application to Government upon this subject the Resident requests that the collection of the tax may be suspended until the result of the application should be known.

22-5-30	Cantonments etc. Tanjore—Limits. From the Officer Commanding, Southern Division. 1. Forwards copy of a circular from the Quartermaster General and requests that he may be supplied with the particulars defining the limits of the cantonments at Tanjore, Kumbakonam and Negapatam. 2. In reply to the Collector's letter he states that the limits have never been pointed to him and that there is no one to whom he can apply for information. He suggests that efforts should be made to define what ought to be the natural limits of the cantonments.	177-8

12-5-30	Barilla Proposals for manufacture. From Mr. Macleod. 1. Informs him that he has obtained a monopoly for producing Barilla by virtue of Letters Patent, and that he intends to establish a permanent and extensive manufacture of the commodity. Barilla is produced from the soda earth which is common in Pattukottai taluk and its neighbourhood. It is used by the washermen for laundering. Mr. Macleod requests the help of the Collector in obtaining leases of the lands where the earth may be procured. 2. Represents that he has requested the Tahsildar of Pattukottai to obtain a written agreement from the soda-boilers at Collatoor, for the quantity of proper soda required by Mr. Macleod.	183-4

8-7-1830	Barilla Manufacture—Mr. Macleod's proposals—Government orders. From the Board of Revenue. Informs the Collector that Government have declined to comply with Mr. Macleod's application on the ground that the prosecution of his scheme would be "incompatible with his obligations to the Company and cannot therefore be approved by the Government."	9
23-8-30	Jamabandi Report F. 1238—Review. From the Board of Revenue. 1. Forwards proceedings relating to the report for F. 1238. The season was extremely unfavourable. There was a scarcity of water and crops suffered extensive damage. 2. The decrease in the output was counterbalanced by an increase in prices. The increase in the area under cultivation was 2,000 valies. Part of the district was settled according to the new method of field assessment. There was a net increase of more than Rs. 9,00,000 over and above the revenue of f. 1237. 3. There was a belief among the mirasidars that their lands could not be sold for arrears. But on the strength of the Sudr Adawlut's decision the Collector was directed to proceed to the sale of the lands of some of the most backward mirasidars. This had the effect of inducing the others to pay up. 4. Mr. Nelson's efforts in improving the revenues of the cadarambam villages are highly commended by the Board. 5. The attention of the Principal Collector and the Sub-Collector is again drawn to the coal fields which were said to exist near the coast. Government are expecting an early report upon the subject. 6. It is satisfactory to the Board to observe that most of the mirasidars have consented to the field assessment wherever the survey has been completed.	41-62
12-8-30	—Mayavaram Division—F. 1239. From the Sub-Collector. 1. Out of the 1,309 villages in the division 1,022 were settled according to field assessment. "Of the 287 villages settled according to the principles of the ooloongoo" 196 have been settled in the same manner though the assessment will not come into operation in f. 1239. 2. The agricultural season was very bad and remissions had to be granted in a large number of villages. The revenue shows a decrease of about Rs. 1,20,000 when compared to that of f. 1238. This is partly caused by the high prices which prevailed in f. 1238. Failure of water is another cause of the decrease. The introduction of the field assessment has been beneficial to Government. 3. Government and not the mirasidars have been gainers by the prices being fixed because "with the exception of one maganum the selling prices of the year are within 10 per cent. of the jumabundy price".	159-70

17-9-30	Jamabandi Kumbakonam Division—F. 1239—Report. From the Sub-Collector, Mr. Nelson. 1. The season was unfavourable to the samba crops. About one-sixth of the whole extent of rented lands had to be allowed remissions on account of drought. The revenue shows a net decrease of Rs. 1,05,734. The deficiency is caused by the fall in prices. It would have been greater had it not been for the large number of villages under rent. The amani management of damaged villages has shown a net decrease of Rs. 1,05,734. The revenue shows that the loss by adverse seasons is not so great as that occasioned by the carelessness of the mirasidars. 2. The sea customs and frontier duties show an increase of Rs. 13,014 and Rs. 2,873 respectively.	173-8
12-8-30	London Missionary Society Assignment of land. From the Rev. Edmund Crisp. Requests grants for 2 pieces of ground purchased for the mission, one in the village of Caroopoor near Kumbakonam and the other in the town of Kumbakonam.	197-9

25-10-1830	Suit against Collector Costs of defence—Remarks of Government. From the Board of Revenue. 1. Forwards to the Collector copy of the correspondence between the Board and Government. Mr. Goldingham was represented to have acted in his official capacity and to have followed the old usage regarding backyards. The Board expresses its desire to bring the point before the Provincial Court because it considers the decision of the Zillah Court to be erroneous. 2. Government grant permission to prefer the appeal but reserve to themselves the discretion of deciding the liability of Mr. Goldingham to pay the costs in the original suit as well as in the appeal. They explain that this attitude is adopted because they have reason to think that public servants do not exert themselves sufficiently to bring the proceedings in courts to a successful issue. Government, however, affirm that they will carefully consider the circumstances before obliging anybody to defray the expenses of suits in which he may be concerned.	13-22
28-10-30	Revenue Sales Revenue Board's approval—Orders of Government. From the Board of Revenue. 1. Forwards a copy of its proceedings, and a reply received from Government upon the subject of the lands sold in the time of Mr. Cotton without the knowledge of the Board. In 1826 the Board had obtained the permission of Government to annul these sales on the ground that they were irregular. The Collector had been directed to report upon the several cases in which these orders had to be given effect to.	23-33

	Revenue Sales—cont. 2. He, however, found that owing to lapse of time it was difficult to ascertain which were fraudulent transactions and which were not. Besides, the Board considered that according to the decision of the Sudr Adawlut its approval was not necessary to legalize the sales of lands in unsettled districts. Therefore it was recommended that the previous order might be cancelled and that the purchasers allowed to enjoy the lands purchased by them. 3. Government, however, disagreed with this view. They opined that Regulation XXVI of 1802 was applicable to all lands, whether permanently settled or otherwise. In support of this view they quoted the Bengal Code from which the enactment in question was taken. There, it has been the practice to obtain the permission and confirmation of the Board of Revenue before legalizing sales of lands. 4. Government also consider that the public servants concerned in the present instance should be made an example to others. They therefore, refused to revoke their previous orders and direct the Principal Collector to carry them out at once.	
4-11-30	Ryotwari Settlement Principal Collector to visit Madras. From the Board of Revenue. Forwarding letters to and from Government regarding the proposal to direct Mr. Kindersley to proceed to Madras to discuss the new system of assessment. Government permit him to come up to the Presidency.	37-41
2-12-30	Nawab Wallajah Funeral procession—Grants of land. From the Board of Revenue. Directs the Collector to report whether "any grants of land were made in the district in the year 1798 at the places where the body of the Nabob Wallajah stopped on its way to burial at Trichinopoly."	53
2-12-30	Jamabandi F. 1239—Review. From the Board of Revenue. 1. Forwards proceedings relating to the jamabandi report of 1239. A great want of rain was experienced throughout the district. There was however, a net increase of 1,167 valies in the extent of cultivated lands, which was discovered by the survey. By reason of the drought several villages which had been rented or settled ryotwar were allowed to come under a division of crops. "The propriety of this arrangement is questionable" at least with regard to lands settled ryotwar. 2. Prices. Prices fell considerably below those of f. 1238. The olungoo settlement is said to have remained undisturbed in 7 taluks out of the 15. In all the taluks except Sheally the olungoo was adopted to some extent, while amani was a feature of all taluks without exception. 3. There was a net decrease of Rs. 3,49,524 when compared to the revenue of fusly 1238. This is chiefly due to the fall in prices. The decrease in the amount of cavel fees was caused by the low prices and diminished cultivation.	55-76

Jamabandi—cont.**4. Arrears.**

The balances standing at the end of the fusly are heavy. It is observed that the balances have been much greater of late years than formerly. Several items included in the statement require an explanation. In future all such items should be explained in a column set apart for remarks.

13-1-31

Extra revenues—F. 1239—Review.

From the Board of Revenue.

1. Forwards proceedings relating to the report regarding the extra revenues of fasli 1239. The total demand is Rs. 4,30,428 which is Rs. 4,689 below that of fasli 1238. The sum of Rs. 1,380 under fines requires an explanation.

2. Salt.

There is a decrease in the sale of salt, which is attributed to the manufacture and consumption of earth salt in the interior districts. It is said that earth salt is sold openly at 7 measures per fanam while sea salt is sold at 2½ measures only. The Collectors of Trichinopoly, Salem and Coimbatore will be directed to prevent the manufacture of earth salt.

3. Measures.

Another cause of the decrease in the sales is attributed to the tendency of merchants to purchase at Madura where the para gives a proportionately larger quantity than the Tanjore merca. The Collector of Madura will be directed to remedy this evil.

4. Sea Customs.

There was an increase under the head of sea customs caused by an increase in the export of grain and import of betel-nuts.

5. Mr. Nelson points out in his report that there is a practice of selling the "steins of rays, sharks' fins and sea slugs which may be brought on shore by fishermen in their nets, on account of Government." Since it is the opinion of the Principal Collector the duty upon these articles will be greater than the amount realized by their sale, the Board recommends to Government "that any claim or right of Government from this usage be relinquished" and that the articles may be disposed by the people by whom they happen to be taken.

Jamabandi—cont.**6. Stamps.**

The collections under stamps show a decrease, caused chiefly by the renter's issuing "passes on unstamped paper for goods not going beyond the boundaries of the district." As this was possible only because the entire district was under one renter, it is likely to be remedied under the newly adopted arrangement of renting the sayer by taluks.

24-3-31	Choultry at Negapatam Tax on.	147-50
	From the Officer Commanding the Southern Division. 30-3-31	Saminada Mudali Shrotriyam—Exchange of lands.	151-8
	Thambusamy Mudali and Dorasamy Mudali represent that their father was granted 50 valies of land in Pulliapollam on shrotrium tenure in consideration of his services to Government as the Sheristadar of the Zillah Court of Kumbakonam, but that owing to the unproductiveness of the soil he has been forced to abandon it. They request that they may be given in exchange for these lands 50 valies in Puttoor situated on the eastern side of the river. As the lands desired by them are lying waste they request that they may be allowed to take possession of them on the same terms as were granted to Saminada Mudali in his lifetime.

25-5-1831	Sperschneider, Mr. Permission to reside at Tanjore.	13-4
	From the Government. Conveying the orders of the Court of Directors regarding Mr. Sperschneider who originally came as a missionary of the society for promoting Christian knowledge, but was allowed to reside at Tanjore for the education of European youths. 7-4-31	Revenue Arrears Writing off.	15-27
	From the Board of Revenue. Forwarding the orders of Government to write off Rs. 5,45,849 being the balances outstanding to the end of fusly 1236 which are reported to be irrecoverable.	

14-4-31	Vuttum Karnam Vanamadavy—Reinstatement of.	31-7
	From the Board of Revenue. 1. The Board considers that Kailasa Pandarum, the kurnum, was not examined by a person authorized to do so by Regulation VIII of 1828, and that the fine imposed upon him exceeds the amount which a Collector may impose on the recommendation of a native officer. The sentence of the Collector is, therefore, annulled. 2. The evidence taken down by the head clerk does not show clearly that the kurnum was guilty. The Board therefore directs the Collector to reinstate him in his office and to refund the fine that might have been collected from him.

14-4-31	Revenue Sales Instructions.	39-41
	From the Board of Revenue. 1. The Board is of the opinion that "previously to the sale of lands for arrears of revenue an advertisement thereof must be published in the Board's office and that the sale must be reported for their sanction and confirmation". 2. The balances for which the lands now proposed to be sold appear to be very small. The expediency of resorting to sales in such instance is very doubtful. While submitting a statement of the lands proposed to be sold it should be clearly stated when and how the arrears arose.	
4-6-31	Tahsildari School Proposed at Pattukottai.	85-6
	From the Board for the College. The Secretary states that the Board does not think it desirable to recommend to Government the establishment of a Tahsildary school at Pattukotah, but that it will consider the proposal after receiving the reports which have been called for from the several Collectors on the progress and efficiency of the schools already established.	
13-6-31	Public Servants Mootoo Comrapa etc.—Release from confinement.	97-9
	From the Board of Revenue. The Board directs Mootoo Comrapa and Kylasa Pandaram to be released from imprisonment as they have already served a long time in jail. In this connection the Board remarks that it is the duty of every Collector to recommend to the Board the release of prisoners committed to jail for indefinite periods, when they have been "confined long enough to satisfy the ends of justice."	
16-5-31	Palanquin Dak Arrangement.	125-30
	From the Collector of South Arcot. Forwards copy of the correspondence with the Collector of Chingleput regarding the arrangements to be made for posting permanent bearers at various places on the route from Madras to the Nilgiris. There will be two complete sets of bearers of 13 men each with one cavady cooly and one masaljee at each station. The first station in Tanjore should be at Sheally.	
25-6-31	Frontier Disputes Pudukottai.	141
	From the Resident. Represents that the Raja desires the Collector to depute somebody to settle the various disputes some of which have been unsettled for years. If they cannot be adjusted to the satisfaction of the villagers in this manner, the Collector may suggest any other method of adjustment that will be fair to both parties.	
15-4-31	Tanjore Mission Title deeds for lands.	147-3 151-5
	From Mr. Kohlhoff. Represents that the title deeds of some of the lands have been mislaid and requests that he may be furnished with attested copies of such documents as may be available in the Collector's office. He requires them for proving the mission's right to certain lands which are now fraudulently claimed by the catechist Gnanamuttoo. Encloses a representation made by him to the Madras Committee of the mission regarding the conduct of the catechist.

28-5-31	London Missionary Society Exemption from quit-rent. From Mr. Edward Crisp. 9 Represents that the fees charged for issuing the grants is too considerable to be defrayed from the funds of the society and requests that as the lands are altogether appropriated for charitable purposes, Government may be moved to issue the grants free of the customary fees. He also requests that the lands may be exempted from quit-rent according to the usual practice of Government for encouraging religious and charitable institutions.	163-4

Letters from the Board.
1831.

7-7-1831	Agricultural Advances Mr. Goldingham's recommendation. 7 From the Board of Revenue. Observes that the amount of Rs. 1,45,00 for taccavy is much larger than usual and that it is not desirable to sanction the whole amount especially in view of the fact that grain is cheap. Orders the Collector to revise the estimate submitted by the Sub-Collector.	5-6
4-8-31	Heath, Mr. J. M. Transport of wood by water—Shiyali taluk. 8 From the Board of Revenue. The Board has no objection to Mr. Heath's renting the jungles, but it is not prepared to sanction the "exclusive right to the transportation of the wood by water proposed by him" because it may interfere with the rights of other parties. The period of his lease should likewise be limited to the "period to which his exclusive privilege of erecting and using iron works is limited by Regulation I of 1831."	23-4
8-8-31	Fines Levied on of mirasidars. From the Board of Revenue. Calls upon the Collector to explain upon what authority he "levied fines from meerasidars for non-attendance during the progress of the survey." The Collector is also directed to submit a statement of all other fines which have not been included in the quarterly returns.	25-6
11-8-31	Revenue Recovery Attachment of house already under court attachment. From the Judge of Kumbakonam. 8 Represents that the Tahsildar of Sheally has attached the house which had already been placed under attachment by a decree of the court. The Judge remarks that this procedure is extremely irregular.	65
4-7-31	Jamabandi Report Mayavaram Division—F. 1240. From the Sub-Collector, Mr. Montgomery. 9 The division consists of the 4 taluks of Mayavaram, Pairalam, Cootalum and Nunnalam. The season was very unfavourable and crops suffered heavy losses. Several of the rented villages had to be taken under amani owing to the drought. The inhabitants of a large number of villages have been promised remissions. There is a net decrease in the revenue of Rs. 41,201 when compared to that of fusly 1239. There was a small decrease under abkari because the rent that was obtainable was poor. Out of the total revenue of Rs. 8,84,380 it is expected that all except about Rs. 50,000 will be collected before the end of the fusly.	67-76

Date.	Abstract.	Page number.
26-7-31	London Missionary Society Lands in Kumbakonam—Exemption from quit-rent. 6 From the Board of Revenue. Informs the Collector that Government have consented to exempt the lands from quit-rent so long as they "continue to be appropriated to charitable purpose". The Rev. Mr. Crisp is also exempted from paying the fees due to Government for the grants. He should, however, pay the customary fees payable to the Collector of Madras. 8	77-8
17-8-31	Jamabandi Report Kumbakonam Division—F. 1240. 8 From the Sub-Collector, Mr. Goldingham. 9 1. There was a scarcity of water by which crops suffered some damage though not so considerable as in the eastern taluks. The Cadapah car crops sustained little loss. Out of the 899 rented villages 65 suffered from drought. Apart from the damage to crops considerable areas were left waste owing to the scarcity of water. In the taluks of Valengiman and Papanasum large areas are not cultivated owing to the lowness of the bed of the Vettar. This will be brought to the notice of the Civil Engineer. 2. The settlement for fusly 1240 exhibits a net decrease of Rs. 1,672 when compared to that of fasli 1239. During the fusly, 290 villages were settled ryotwar. The result of the management of the villages under amani is very satisfactory.	81-96
14-9-31	Customs Sea and frontier—F. 1240. From the Head Assistant Collector. 1. Reports an increase under exports owing to the large quantities of paddy and rice sent to Madras. The decrease is in betel-nuts which were imported in large quantities last year and are still sold very cheap. The collections under frontier duties show an increase which is accounted for by the greater vigilance on the part of the customs servants to prevent smuggling. 2. Salt. The sales of salt have gone down considerably. The manufacture of earth salt on an extensive scale in the districts in the interior is supposed to be one of the causes of the lack of sales. Another important cause is the preference shown by the Koravars and other merchants to the salt pans of Madura where they say the measurement by para yields a larger quantity than what is obtained when measured with the Tanjore mercial. Unless this discrepancy is removed the sales are likely to fall still lower.	97-103
18-7-31	Heath, Mr. J. M. Firewood contract—Shiyali taluk. 8 From Mr. Heath. 9 Mr. Heath proposes that he may be allowed to rent the entire tract of the jungles in the taluk on payment of Rs. 620 per year. He requests a lease for 20 years in order that he may prevent others from interfering with the supply of wood required for his iron works at Porto Novo. He also suggests that he may be granted the sole privilege of exporting wood by water from the Sheally jungles during this period.	129-31

1-11-1831	Arrangements. From Government. Forwarding copies of the letters to and from the Collector of Coimbatore regarding the posting of bearers on the route to the Nilgiris. Government desire that the method should be uniform in all districts. It is not necessary to post bearers on all the routes, but only on the main route from Madras to the Nilgiris. Stations should be about 20 to 25 miles distant from each other and there should be 2 sets of bearers at each station. Bearers should on no account proceed beyond one stage. In this way an uninterrupted chain of bearers will be established for the convenience of travellers.	7-12

31-10-31	Recovery of. From the Board of Revenue. The Board observes that two persons said to be mirasidars have been sentenced under Regulation IX of 1822 to pay double the amount received by them for executing repairs but which they never carried out. This is irregular as the proper method of recovering such advances is by proceeding against them according to Regulation XXVII of 1802, in the same manner as for arrears of revenue.	53-5

19-12-31	Extra revenues—F. 1240. From the Board of Revenue. 1. Forwards copy of proceedings relating to the extra sources of revenue. The net revenue amounted to Rs. 3,35,559, being Rs. 31,820 below that of fasli 1239. 2. The salt deficit was caused chiefly by a decrease in the sales of salt. Orders have been issued to discontinue the practice of measuring by the parah in the Madura District. The Collector of Trichinopoly has been directed to put a stop to the manufacture and sale of earth salt. Steps are also being taken to prevent the smuggling of salt from Karikal to Tranquebar. 3. There was a small decrease of Rs. 193 under moturpha caused chiefly by the "progressive introduction of European cloths of the finer kinds."	81-95

1-10-31	Attendance of European Officers. From the Resident. 1. In reply to a letter from the Collector he states that the Raja is always anxious to comply with his wishes, but that by appointing another day for receiving the Collector and his subordinates, on the ground that the Dusserah falls on a Sunday, he stands to suffer a loss of his dignity. 2. The Raja reminds the Collector that the "Treaty and subsequent agreements guarantee the ready acquiescence of the public servants of the District to his wishes on that point", and that on former occasions Collectors and Judges have attended the function on Sundays. The Resident desires that they should try to attend on the proper day unless they have a conscientious objection to doing so.	267-9

	Frontier Disputes	
8-11-31	Pudukottai. From the Resident. 1. Represents that a dispute has arisen between the villagers of Anayvel in Pattukottah taluk and Mangad in Pudukotah, and suggests the appointment of a panchayat consisting of an equal number of villagers from each of the villages. 2. Invites the attention of the Collector to 10 disputes which remain unsettled, some of them going back for years. The Resident states that the Raja highly resents the manner in which Mr. Kindersley punished 7 of his subjects involved in a dispute, when they had been sent by the Raja to explain the circumstances to him. 3. The Collector is again accused of attaching more importance to his paimash accounts than the Raja is willing to allow. The Raja refuses to accept the Collector's accounts which show that the lands under dispute are included in them; because he is prepared to prove uninterrupted possession by himself. 4. In these circumstances the Resident suggests that immediate steps should be taken to settle the disputes in question. His proposals are as follows. The Tahsildar of the Raja and the Collector's tahsildar should visit each of the spots and try to settle the disputes amicably. If the people are amenable to such a form of settling their disputes the tahsildars will mark the boundaries with stones and give a writing to the villagers to prevent future disputes. 5. If a dispute is too serious to be settled in this manner a panchayat will be called consisting of 2 members from each village. A fifth member will be chosen by taking lots. The Tahsildar who wins the lot will name the village and the other Tahsildar will name the 5th person to be chosen from that village. If the Tahsildars are employed upon this work only, until it is concluded the disputes may be settled at an early date.	283-4 293-305

number.**Negapatam Fort Ditch—cont.**

Represents that the ditch surrounding the ruined fort is a source of nuisance to the inhabitants. "During the monsoon and the prevalence of the spring tides the ditch becomes filled at parts to about 8 feet." The stagnant water undergoes decomposition when exposed to the sun and gives rise to noxious gases. The town is situated to the north and west of the old fort. Therefore neither the sea breeze nor the south wind can reach the town without being painted by the ditch. The ditch was until recently the deposit of filth of all kinds. This has, however, been prohibited. Mr. Brooking suggests that early steps should be taken to remove the nuisance which still exists.

23-7-32	Society for the Propagation of the Gospel Grant of land. From the Board of Revenue. 1. Transmits copy of the correspondence between the Board and Government on the subject. The society holds at present 3 valies 10 maws and 78 43/64 coolies of land under sunnuds issued by Collector Harris in 1801. The Board recommended that the whole of this land may be granted in perpetuity to the society, except a small extent measuring 3 valies and 70 coolies which the mirasidars refuse to give up. 2. Government accepted the recommendation of the Board to issue a grant to the society and to exempt the lands from quit rent so long as they are utilised for charitable purposes. The grant should be issued in the name of the Secretary, for the time being, to the Committee of the Incorporated Society for the Propagation of the Gospel in foreign parts.	49-56
6-8-32	Padremcotah Poligar Guardian and Manager—Appointment of. From the Board of Revenue. 13-8-32	Suit against Government Plaint and answer. From the Board of Revenue. 1. Forwards a letter received from Government enclosing the plaint filed by Venkatrow and the answer which Government direct the Collector to file against it. 2. Venkatrow states that he purchased the village of Tenbarah at a public auction held in 1823 and that he was in possession of it until 1826 when the sale was annulled by Government on the ground that it was irregular and fraudulent. 3. He is prepared to prove that he purchased the village under the bona fide impression that the sale was not irregular, and states that he has invested large sums in improvements. He denies that the public servants of the district connived with him in bringing the village to sale for his benefit. 4. Government contend that the sale was irregular in that it was not authorised by the proper authorities and that the dues against the village were much less than what was notified. The then Collector had also ignored the positive orders of the Court of Directors to refrain from selling the lands for arrears of revenue in districts not permanently settled. 5. Government do not accept the responsibility for the acts done by their agents in contravention of their orders. They express their willingness to return the purchase money to Venkatrow. They contend that it would not be fair to confirm the sale, in consideration of the justness of the mirasidars' claims.	71-105
27-8-32	Padremcotah Poligar Manager and guardian appointed. From the Court of Wards. Approving the appointment of the Tahsildar of Pattukottah as manager and Tungammay, the minor's mother, as the guardian.	107

18-10-32	Jamabandi Report F. 1241—Further information called for. From the Board of Revenue. (See Reprint 242/12.)	153-9
18-10-32	Suits against Collector Defence of. From the Board of Revenue. Forwards a copy of the correspondence with Government on the subject. The plaintiff complains that the present Collector has imposed the full assessment upon certain lands which were granted to him by his predecessor, Mr. Campbell, upon 'Ardha Maniam tenure'. The Board considers that Mr. Campbell had no authority to reduce the assessment and that Mr. Kindersley was right in revoking the order issued by Mr. Campbell. Government permit the Collector to defend the suit at public expense in the first instance.	167-71
19-11-32	Answer to plaint. From the Board of Revenue. 1. The Board considers that the answer proposed to be filed by the Collector does not meet certain points raised in the plaint. It is admitted that Iyah Mudali purchased the lands privately previous to the sale in public auction, but that it was annulled by the then Collector on the ground of their being at the time a balance against the village. No regulation authorizes the cancellation of a private sale on this ground. 2. The Collector is directed to ascertain whether the plaintiff was in possession for a period of 7 years as he states. He should also explain why the plaintiff was replaced in possession of the lands in the first instance and why subsequently Ramachendrayah was given possession of it. The Collector had no power to dispossess the plaintiff after once having placed him in possession.	177-81
19-11-32	Jamabandi Extra revenues—F. 1241. From the Board of Revenue. 1. The Board observes that there was again a decrease in the amount of sales of salt which is explained by the prevalence of the practice of manufacturing earth salt in the districts in the interior, and the practice of using the parah for measuring salt in Madura. The Board has issued peremptory orders to the Collector of Madura to discontinue the use of the parah. 2. There was a decrease in the sayer revenue amounting to Rs. 63,932 owing to its having been under amani. There was an increase of Rs. 10,276 under stamps. 3. It appears that large sums were collected on account of extra revenues but were not forwarded to the Huzur treasury in proper time. The Collector is directed to explain the cause of this delay.	185-97
24-12-32	Revenue Sale Siddayapoor village. From the Board of Revenue. 1. The village was sold for arrears in 1232 and was purchased by three persons who are now known to have been related to the curnum of the village and a jawabnawis in the Huzur cutchery. 2. Since the case of this village was not included in the list submitted by Mr. Cotton and since it is not the intention of Government to annul the sales of lands purchased by the relations of subordinate revenue officers, the Board instructs the Collector not to disturb their possession unless it should be proved that the sale was fraudulent.	209-11

Date.	Abstract.	Page number.
25-9-32	Revenue Sale—cont. Lands under court distraint. From the Judge of Kumbakonam. Represents that the Tahsildar of Trivady has sold certain lands already under distraint and states that all such sales are illegal.	223-4
19-7-32	Jamabandi Report Mayavaram Division—F. 1241. From the Sub-Collector. 1. There are 6 taluks and 2,029 villages in the division. The settlement of the fusly amounts to Rs. 13,99,884, which is Rs. 1,19,991 above that of fusly 1240. The season was favourable for wet cultivation, but the dry crops suffered great damage for want of rain. 2. Individual puttahs were issued in Sheally taluk. The jamabundy of this taluk shows a decrease of about Rs. 5,000 which is accounted for by a decrease in the area under cultivation. It is not fair to demand from the mirasidars assessment for the lands they could not cultivate for lack of water. Therefore a remission of the assessment on wet lands should be allowed. Such a remission would be a boon to the people who would otherwise have to pay for these lands out of the profits derived from lands already fully assessed. 3. The collections of the present fusly and the arrears of the previous fuslies are satisfactory.	231-44
26-8-32	Salt and Customs revenue—F. 1241. From the Additional Sub-Collector. 1. Reports that the sales of salt were 87 garce less than those of the last fusly. This is occasioned by the partiality shown by the merchants to purchasing at the Madura pans where the parah is still used to measure salt. Unless this practice is discontinued the sales in Tanjore will not come up to the former level. 2. The collections under sea customs show a decrease, both in the exports and the imports. Some of the articles are rated very high in the tariff. The merchants complain about this and some of them have been induced to take their cargoes to other ports. 3. The frontier duties show a decline owing to the decrease in the exports of paddy, rice, cotton etc., and the imports of copper, clothes, pepper, indigo etc.	251-5
30-11-32	Montgomery, Sir H. C. Grant of lands. From Sir H. C. Montgomery. Applies for a Government grant for about 7 cawnies of land purchased by him in Mayavaram taluk. Copies of the title deeds are attached, as also a plan of the lands.	273-85
3-7-32	Ebel, Mr. Charles Frederick Late Dutch Chief at Tuticorin. From the Special Agent for Foreign Settlements. Forwards an extract from a letter received from England and requests the Collector to furnish him with any information that may be obtained at Negapatam regarding Mr. Ebel who is reported to have retired to Jaffna in 1795 but is not found in the list of Dutch pensioners in 1798. The Sub-Collector in charge of Tinnevely has stated that Mr. Ebel died at Negapatam in 1804.	309-18

	Tranquebar	
	Temporary medical aid. From the Governor of Tranquebar. Represents that the death of their Surgeon has deprived the colony of all medical aid and requests that Mr. Brooking, Assistant Surgeon at Negapatam, may be instructed to render what help he can.	321
4-10-32	Reddanellore village—Return of title deeds. From the Governor of Tranquebar. Requests the Collector to oblige one Chidambaram Pillay to return the title deeds relating to the village, which he has fraudulently obtained.	323-8
8-12-32	Pondicherry Supply of grain from Karikal. From the Special Agent for Foreign Settlements. Transmits copies of letters to and from the Governor of Pondicherry regarding the transporting overland of a quantity of grain required for Pondicherry. The Collector is requested to afford all the facilities in his power for transporting the grain from Karikal through the district.	335-40
27-8-32	Wesleyan Missionary Society Grant of lands. From the Rev. Mr. Alfred Bourne. Applies for a Government grant for about 4 cawnis of land purchased by the mission in the Mannargudy taluk. Copies of the title deeds and a plan are enclosed.	345-52
13-9-32	Nawab of Arcot Creditors—Sheikh Mahomed's descendants. From the Additional Government Commissioner, St. Thome. Reports that "a claim of considerable magnitude" has been under investigation since the year 1828 in which one Sheikh Mahomed is the creditor. Sheik Mahomed, who was a subedar in the service of Nawab Wallajah at Shevagungah and who is reported to be dead, left behind him only a relation named Assunkhan, a russaldar. The Collector is requested to find out the whereabouts of this person or his lineal descendants, who are entitled to the arrears in question.	353-5

Letters from the Board.
1833.

19-3-1833	Raja of Tanjore Jurisdiction of. From Government. Ordering that the Raja is invested with the same "power and authority over the inhabitants of the villages adjoining the Fort of Tanjore transferred to him in 1827 as he has hitherto exercised over the inhabitants of the Fort itself according to the 12th article of the Treaty of the 25th October 1799."	17-8
3-1-33	Suit against Collector Board declines to defend. From the Board of Revenue. 1. The Board finds from the explanation submitted by the Collector that he had no authority to dispossess Iyah Mudali and give possession of the lands to Ramachandra Iyah. No Collector has the power of annulling a private sale for the reason that arrears were due from the land. The land itself, whoever may be the proprietor, is the security for the land revenue.	29-34

Date.	Abstract.	Page number.
	Suit against Collector—cont.	
	2. The Board is of the opinion that the suit cannot be successfully defended and that it ought not to be defended on the public account. The Collector may induce the plaintiff to compromise and withdraw his action.	
	Suit against Government	
10-1-33	Defence of. From the Board of Revenue. 1. Forwarding a letter received from Government relating to a plaint filed in the Southern Provincial Court by Venkat Row against Government for the restoration of the village Paroovalandan. 2. As the plaint is based on the same arguments as were adduced in the case of the village of Tembarah the Collector is directed to prepare the draft of an answer to be filled in the court. It should be prepared on the same lines as that prepared in the suit relating to Tembarah.	35-53
7-2-33	Mr. Goldingham liable for costs. From the Board of Revenue. 1. Forwards a copy of the correspondence between the Board and Government. Mr. Goldingham was allowed to defend the original suit and to prefer the appeal at the cost of Government in the first instance. The appeal having also gone against him, Mr. Goldingham had been adjudged to pay the costs. Mr. Kindersley had, however, admitted that the suit would have succeeded if he had not overlooked a piece of material evidence. The Board recommended that Mr. Kindersley may be excused. 2. Government refused to exonerate him from the responsibility of paying the costs because they considered it their duty to "insist upon the greatest vigilance being exercised when the conduct of its own functionaries is brought before a Court of Justice." They also call for an explanation of the delay that has occurred in obtaining a copy of the decree.	63-9
18-2-33	Jamabandi Extra revenues—F. 1240. From the Board of Revenue. Forwarding the remarks of Government upon the extra revenues of 1241. The Board is directed to report whether the Collector of Madura has abolished the use of the parah for measuring salt. Government have also remarked that there must be some irregularity either in the accounts or remittances which explains the existence of balances which are described as nominal or fictitious.	85-90
25-2-33	Revenue Sales Effect of postponement. From the Board of Revenue. 1. Observes that in two instances, the Collector had postponed the sales for a year after the permission of the Board was obtained and that he finally sold them without obtaining permission to do so. 2. In this connection he lays down the rule that if the sales are postponed for any reason to a distant period the Collector should apply for renewed permission to sell the lands "as it is not intended that such authority should be acted on at a distant period." 3. The Board prescribes a period of six months.	95-6
25-3-33		197

Date.	Abstract.	Page number.
5-3-33	Collectorate School Training of Master. From the College of Fort St. George.	103-9
	1. The Secretary intimates that Atmanadya has completed his training at the College and that he has been ordered to return to Tanjore. The qualifications of this person are below the standard, but it does not appear to be worthwhile to spend more upon his training. Besides, Tanjore has been too long without a proper person to take charge of the Collectorate school.	
	2. He should be prevented from exacting more than the customary fees from his pupils, a list of which is enclosed. If the boys are poor no fees should be taken from them. The schoolmaster should also be prevented from accepting other employment.	
7-3-33	Arunachalam Pillai Tahsildar—Misconduct. From the Board of Revenue.	115-20
	1. Referring to the case in which Arunashellum Pillay was adjudged to pay damages for his official acts in the collection of revenue, the Board states that the Collector has not made clear whether the Tahsildar acted with malice towards the plaintiff. The Collector is also required to explain why the arrears which Mr. Campbell ordered to be omitted were collected by the Tahsildar.	
	2. In this connection the Board desires to know whether it is the practice in the district for Tahsildars to distrain property without obtaining the orders of the Collector and if so whether it is expedient to continue it.	
14-3-33	Chandrasekara Pillai Temple Collector's interference—Suit in the Zillah Court. From the Board of Revenue.	123-8
	1. Observes that the Collector ordered the grain belonging to the temple to be sold by the public servants and the money deposited in his treasury from which the sums required for the temple were to be disbursed from time to time.	
	2. The hereditary manager of the temple objects to this procedure. The Collector has no authority to make any alteration in the existing mode of management without the sanction of the Board of Revenue. The regulations authorize only the Board to interfere in instances where defalcations are suspected. Therefore the suit filed against the Collector ought not to be defended at public expense. He may try to come to some agreement with Kinchana Naick on the condition of reverting to the old practice.	
18-3-33	Venkata Row's Endowments Covilady travellers' rest-houses. From the Board of Revenue.	129-31
	1. States that R. Venkat Row, late Diwan of Travancore, has applied to the Board for the permanent assessment of the lands endowed by him for the use of the rest-houses which he has recently built at Covilady.	
	2. The Collector is directed to report whether the buildings are really useful and whether the lands have been converted from dry to wet by Venkat Row. He should also suggest a method of fixing the assessment on the lands attached to the charity so as to leave an income sufficient for its liberal support.

6-5-33	Suits against Government Answers to plaints. From the Board of Revenue. Approving the drafts of the answers to be filed by the Collector on behalf of Government. The line of arguments is the same in both the suits.	213-8
9-5-33	Peshcar of Poovanoor Levy of fines on. From the Board of Revenue.	219-22
	1. The Board observes that the Collector has introduced a rule by which if the crops under amany prove 10 per cent. below the estimate the deficit should be made good by the officers employed in supervising the reaping.	
	2. The peshcar in the present instance had been fined Rs. 98 on this account and Rs. 25 out of his salary has been withheld. He had also been fined Rs. 50 in the Magisterial department.	
	3. The Board disapproves the system of imposing such heavy fines upon low paid officers because it leads to their trying to "compensate themselves in an illicit manner to the detriment of the Government revenue and of the ryots."	
6-6-33	Jamabandi F. 1241—Government's review. From the Board of Revenue. (See Reprint 242/23.)	235-64
10-6-33	Tiruppuvanam Temple Creditor's claims. From the Board of Revenue.	267-76 ✓
	1. Forwards a petition addressed to the Resident at Tanjore by Yeshwant Row, uncle of Pretaup Sing. The petitioner states that he lent 800 chuckrums to the temple on a mortgage of 11 velies of land belonging to the temple and that he was allowed to enjoy the produce of 2 velies instead of interest.	
	2. He continued to enjoy the 2 velies until the officers under the Collector intervened and deprived him of the land. He has received neither the principal nor the interest. Therefore he requests that the Collector may be directed to make the necessary enquiries with respect to his claim.	
21-2-33	Court Sales Of land—Expenses of advertisement. From the Judge of Kumbakonam. Forwards a petition made by the Commissioner of Kumbakonam representing that the mirasidars very often pay up their arrears when the arrangements for the sale are complete. In such cases the Commissioner gets no compensation for the expenses incurred by him in advertising, etc. The Judge requests the Collector to issue the necessary instructions to the Tahsildars for paying these expenses.	281-4 ✓

11-1-33	Corumboos Complaints from Trivadi. From the Collector of Trichinopoly. Replies to a letter from the Collector upon this subject. It is usual for the people in his district to construct 'corumboos' across the Cauvery during the dry season and it is not usual to leave openings in them for the benefit of the cultivators of the Tanjore province. The supply of water is very often insufficient for his district. It is therefore unfair to make an alteration in the existing mode of constructing the 'corumboos'.	295-7

The Raja, however, desires that the Collector should supervise the work.	345-8

4-7-33	Arunachalam Pillai Tahsildar—Misconduct of. From the Board of Revenue. 1. Forwards a copy of the correspondence with Government regarding the petition submitted by the Tahsildar against the damage decreed against him by the Provincial Court for certain acts done by him in his official capacity. 2. It is admitted that the acts were done for the ostensible purpose of recovering land revenue, but there is no doubt that he showed an undue severity in distraining the person and property of Chinniah Mudali for recovering a sum which is inconsiderable when compared to the annual jumma of Rs. 4,000 paid by him to Government. His petition is therefore refused. 3. In this connection the Collector is informed that it is the opinion of the Board and Government that a Tahsildar should not be permitted to proceed to recover the revenue by distraint without the previous sanction of the European officer under whom he may be posted. The Collector is directed to prepare the draft of a regulation to facilitate the collection of land revenue under the ryotwar mode of management.	35-45

Accepts the recommendation of the Collector to exempt the gardens and backyards of the inhabitants of the towns of Nagore and Negapatam from the payment of quit-rent. This exemption should not be extended to the occupants of houses which may be hereafter erected.	101-2
16-9-33	Heath, Mr. J. M. Mining lease—Issue of. From the Board of Revenue. 1. Conveying the orders of Government, directing the Collector to "receive applications from Mr. Heath for leases of the rights of raising minerals within certain limits and of cutting fuel from certain woodlands for a term of years to be submitted to Government through the Board of Revenue." 2. The leases should be free for the first five years after which a rent or royalty should be received. The terms of the leases should not be "inconsistent with the usages and customs of the country" and should not "interfere in any manner with the rights and privileges of the natives."	117-23

by the Collector in another case relating to the produce of one of the villages. These extracts show that in the opinion of the Sudr Adawlut the sanction of the Board is not necessary to sell lands for arrears of revenue in unsettled districts. The Board suggested that the rejoinder should not notice in detail the several points touched in the replies of the plaintiff. Government approved the draft submitted by the Board. The facts of the two cases being exactly similar the same rejoinder will be filed in both.

Suit Appeal

23-10-33 By the Collector—Draft appeal.
From the Board of Revenue.

147-77

1. Forwards the draft of an appeal which the Collector is authorized to prefer in the Sudr Adawlut against the decree of the Southern Provincial Court adjudging him to pay the sum of Rs. 8,119 being the value of grain sold by the Collector from the produce of Peroovalandan.
2. The Court's decree was founded upon the assumed illegality of the annulment of the sale by the Collector. The appeal states that the question is not material to the point at issue, which concerns only the produce of a particular year during which Venkat Row was under a definite agreement.
3. The appeal also states that the estimate arrived at by the Provincial Court is defective and that the price adjudged to be paid by the Collector is more than what was current at the time the grain was sold.

Religious Endowments

24-10-33 Hindu and Mahomedan—Verification of accounts.
From the Board of Revenue.

179-82

1. In reply to a letter from the Collector the Board states that under Regulation VII of 1817 he is authorized to call for the accounts of all "endowed institutions and religious and charitable establishments" in order that he may report to the Board whether the funds are properly administered.
2. If these accounts have not been called for or examined hitherto it should be done in future, and the Collector should report for the information of the Court of Directors the accounts required by them regarding the extent of revenues alienated for the Hindu and Mahomedan religious services.

Raja of Tanjore

28-10-33 Relations with Government—Orders of the Court of Directors.
From the Board of Revenue.

187-93

1. Transmits the orders received from England relating to the arrangements recently made with the Raja.
2. The banks of the rivers running through the Raja's territories should be repaired by the Collector, the Raja paying for this an annual sum to Government.
3. In order to avoid collisions between the officers of Government and the subordinates of the Raja care should be taken in the "choice of the superintending officers, who should be carefully instructed to observe the utmost delicacy and forbearance towards the Raja's people and in disputes touching trivial matters, points of personal dignity, and the like, to lean commonly to the weaker party."

The late Raja as well as his successor laid particular stress upon having a Resident at the darbar. The orders abolishing the Residency are therefore revoked. It should, however, be based on a very economical basis and the Resident should be entrusted with part of the duties now performed by the civil officers in the district.

5. The Board calls upon the Collector to submit his remarks regarding the proposals of the Court of Directors.

Jamabandi Report

10-8-33 8 Mayavaram Division—F. 1242.
From the Sub-Collector.

239-52

1. The harvests were plentiful in the three taluks of Mayavaram, Peralam and Sheally. The remaining taluks of Kumbakonam and Cootallum suffered from floods in the beginning and later on from a partial drought. The prices are very high and the mirasidars have paid their assessment without difficulty. The settlement for fasli 1242 is Rs. 68,578 being Rs. 66,520 more than the settlement for fasli 1241.
2. The greater part of the remission has been made in the Cootallum taluk. But remissions have been allowed only where a diminution of crops was caused by drought and the crops were cut in the presence of the Government servants. The repairs done to the banks of the Cauvery in the Mayavaram taluk have been the means of safeguarding the crops of the taluk and raising the Government demand by Rs. 28,739.
3. The demand on lands left waste for want of water has been felt as a great hardship. It has, however, been paid from the profits derived from the lands actually cultivated by the mirasidars. The collections have been very satisfactory, showing that under normal conditions "there is no disinclination on the part of the Mirasidars to pay their rents with punctuality when the season enables them to do so."

Jamabandi Report

14-8-33 Extra revenues—F. 1242.

253-7

From the Head Assistant Collector.

1. Reports a decrease of Rs. 12,067 under exports caused by the abolition of the export duty on grain. The imports showed a decrease of Rs. 2,542 caused chiefly by the inequality of the tariff which is higher here than at Cuddalore. Several merchants land their cargoes at Cuddalore in preference to Nagore and Negapatam. The matter is now under the consideration of the Board.
2. The salt sales show an increase under exports to Bengal. The home consumption has decreased owing to the want of forage for the bullocks of the inland traders. The quantity of salt required by Tranquebar has been gradually falling off from 100 garce in fasli 1236 to 3 garce in the present fasli.

16-8-33	Jamabandi Report Mannargudi Division—F. 1242. From the Additional Sub-Collector.	261-8
	1. The settlement for the fasli amounts to Rs. 8,14,168 being an increase of Rs. 94,520 over that of fasli 1241. The increase is chiefly the result of high prices.	
	2. Considerable damage was caused by floods in August last. Subsequently the crops suffered from absence of the usual rains in December and January.	
	3. Large arrears are due on account of the Cadarambam villages and the chances of collecting them are remote. The general failure of their crops makes it very difficult to realize this demand.	
3-12-33	Heath, Mr. J. M. Mining leases—Application.	301-3
	Requests a lease for 21 years to cut fuel required for his works from the Sheally taluk. The lease may be renewed for another 21 years at the expiry of this period. This privilege will in no way interfere with the rights now enjoyed by the natives to cut and carry away fuel for their own use. The annual rent of the jungles will be Rs. 1,000.

6-6-1834	Pudukottai Revenue defaulters' escape to Trichinopoly. From Government.	9-14
	1. Forwarding copy of a letter written to the Resident regarding the propriety of forcing revenue defaulters to return to the native State of Pudukotah from which they escaped into the Company's territory.	
	2. Government are of opinion that it is against the "law and usages of all civilized nations." On a former occasion when the State of Mysore was involved in a similar question they declared that a ryot who takes refuge in the Company's territory should not be given up to the State from which he fled. Government consider that the Collector of Trichinopoly was right in refusing to comply with the request of the Resident.	
23-5-34	Ceylon Commerce with India. From Government.	15-6
	Forwarding an extract from a letter to the Government of Ceylon and authorizing the Collectors of Tanjore etc., to communicate with the public officers of the Ceylon Government with a view to placing the commercial relations between the two countries on a better footing, as suggested by the Ceylon Government.	
20-1-34	Jamabandi Extra revenues—F. 1242. From the Board of Revenue.	33-49
	1. Forwards extracts from the proceedings relating to the management of the extra sources of revenue in f. 1242.	

Date.	Abstract.	Page number.
	Jamabundy—cont.	
	2. Salt. The one noticeable feature in the sales of salt is that Tranquebar and Karikal have been purchasing latterly much less than what they used to, a few years ago. This cannot be accounted for entirely by the increase in the monopoly price. There is strong reason to suspect that salt is manufactured clandestinely in the settlements or that people collect the spontaneous salt produced in these settlements. The Collector should endeavour to find out the real facts in order that the evil may be remedied. A reduction of the price is not likely to re-establish the export trade in this commodity to Tranquebar.	
	3. There is a large decrease under the sale of stamp rowanahs, which is attributed to the frauds committed by the sayer renters. The Board considers that this evil almost counterbalances the increase of revenue obtained by renting the sayer instead of keeping it under amani. It has been observed that when the sayer is under amani the stamp revenue shows an increase. The frauds committed by the renters should be prevented by greater vigilance on the part of the public servants.	
20-3-34	4. Government accept the suggestions of the Board.	101-5
13-2-34	Mirasi Rights Transfer of—Complaint. From the Board of Revenue. The Collector is directed to report upon a petition presented by Rama Iyer of Moopoo Covil, complaining that his mirasi rights were transferred to one Sooboo Iyen on the ground that he refused to have his case settled by panchayat. If what he states is correct, the action of the Collector was irregular.	61-3
6-3-34	Remission of Assessment Principles discussed. From the Board of Revenue.	65-94
	1. The Board strongly condemns the methods adopted by Mr. Kindersley to grant remissions to the mirasidars, who are said to have suffered a loss of their car-crops by the unusual lateness of the floods.	
	2. In the first instance there is reason to think that the damage has been exaggerated. Secondly, remissions should never be allowed on the same scale to those who suffered greater loss and to those who suffered less. Remissions at a uniform rate are disadvantageous to those whose crops were particularly bad, but advantageous to those who suffered only a loss of about 30 per cent. of the usual crops.	
	3. Again in the villages settled according to the field assessment the remissions should not have been made on the principle of dividing the produce. Where the settlement is ryotwar the remission, if it is allowed, should be based upon the assessment. On no account should a division of the produce be agreed to. The Principal Collector ought to have obtained the orders of the Board before making such a departure from the established mode of granting remissions in districts settled ryotwar.	
	4. Another error into which Mr. Kindersley has fallen is that he considered that the results shown by reaping the crops in amani villages will be applicable to rented villages

also. It is a matter of experience that not merely fields lying close to one another, but also different parts of the same field do not produce an equal amount of grain, though they may be under the same system of irrigation. Besides, the amani system is so open to corruption that to rely upon the produce of such villages for estimating the loss in others is a great mistake.

5. The Board refuses to sanction the terms of the remission promised to the mirasidars and upon the strength of which they are said to have reaped their car-crops. Instead of allowing them the benefit of remitting the 20 per cent. usually levied upon fields producing the car crop as well as the benefit of the increase in prices, the Board directs that the remission should be "limited to the additional 20 per cent. on their produce and that the car grain beriz should be determined by commuting the village grain average at the current instead of the standard price as he has proposed."

6. In this connection the Board declares that early steps will be taken to place the revenue management of Tanjore on a better footing.

27-3-34

From the Board.

113-9

7. Forwards the orders of Government approving the methods of remission proposed by the Board. No remission should be allowed in villages settled on a field assessment unless the crop has entirely perished by drought or floods. If the current prices or the prices of the previous year are sufficiently high to make up for the loss no remission should be allowed. "A division of the produce in villages under a field assessment is positively interdicted."

Soobyen

7-3-34

Late peshcar—Suit against the Collector.

123-9

From the Board of Revenue.

1. Transmits copies of the letters to and from Government upon this subject. The Board considered that the Collector could not defend the case successfully because it was wrong of him to have recovered the amount as arrears of revenue instead of under Regulation IX of 1822 concerning the frauds of public servants.
2. Government approved the suggestion of the Board that the case should be compromised by returning to Soobyen the amount received from him. He should, however, be prosecuted under Regulation IX of 1822.

Jamabandi

F. 1242—Review.

131-79

From the Board of Revenue.

1. Forwards proceedings relating to the jamabandi report for fasli 1242. The accounts and statements submitted by the Collector are considered to be defective and in many places contradictory. He is therefore directed to furnish the explanations required by the Board.
2. The total revenue amounted to Rs. 46,89,352 being a net increase of Rs. 2,52,756 over that of fasli 1241. This was caused chiefly by the high prices and an increased extent of cultivation.

Abstract.

number.**Jamabandi—cont.****3. Remissions.**

Orders were issued separately regarding the remissions which Mr. Kindersley proposed to grant. These orders have been disregarded in a few instances. Though the amount of remissions thus granted is trivial the Board thinks that the principle of granting such remissions is objectionable. For in the first instance it is a departure from the terms of the original settlement and secondly, there is no means of giving partial remission accurately, owing to the absence of a settlement fieldwar. The impossibility of collecting the full assessment is no ground for granting remissions in these cases.

4. The Board observes that the Collector has added seven villages to the 42 reported to have been under 'Kutgotah' settlement in fasli 1241 although he was directed to abolish the system altogether. On the other hand he has added to the number of villages under that system.

Suit against Government

30-4-34

Answer to the points raised by the court.

209-36

From the Board of Revenue.

1. Forwards copy of the correspondence between the Board and Government. The Board proposed suitable answers to the questions put by the court. Government accepted some of these suggestions and forwarded to the Board draft of a motion which they authorized to be filed in the Provincial Court.
2. It is stated in the motion that there were "grounds in law and equity" for cancelling the sale of the village which the mirasidars were manifestly deprived of by unfair methods. The Collector was ordered to abstain from selling mirasi lands as early as 1819. The fact that some sales were not cancelled does not hinder the Government from cancelling others, because the power of doing so is always inherent in them.
3. Government are prepared to pay to Venkat Row his purchase money and the expenses incurred by him in improving the village. Finally, Government state that the fact of collusion between the plaintiff and the Collector's servants has to be inferred from the circumstances.

Heath, Mr. J. M.

1-5-34

Firewood contract—Cowle to Mr. Heath.

237-48

From the Board of Revenue.

1. Forwards the copy of lease of the privilege of cutting fuel in the district granted by Government to Mr. J. M. Heath. A counterpart of the lease should be executed by him.
2. The terms are as follows:—
 - (a) Existing rights should be respected.
 - (b) The grant will continue for 21 years at first and may be renewed for another 21 years.
 - (c) An annual rent of Rs. 323 should be paid during the first period. And Rs. 1,000 should be paid annually in the second period.
 - (d) A renewal fee of Rs. 1,000 should be paid at the expiry of the first period.
 - (e) Timber should not be felled under the lease.
 - (f) The lease is confined to Government jungles in Sheally taluk, but Mr. Heath may enter into agreements with the zamindars for cutting fuel from their lands.

3-4-34	Zamindar of Sivaganga Boundary disputes. From the Principal Collector of Madura. Forwards a petition from the zamindar representing that the Zamindar of Pattukottah failed to attend at the disputed boundary according to the Collector's orders and that the inhabitants of Pattukottah have carried away the produce of the lands under dispute. The Principal Collector proposes a suitable date on which the agents of both the parties may meet and decide the disputes.	289-94
16-4-34	Suit against Sub-Collector Plaint and answer. From the Sub-Collector, Mayavaram. Forwards copies of a plaint filed in the Zillah Court by the renters of Calam Nellore and the answer he proposes to file against it. The Sub-Collector requests permission to defend the suit at public expense.	295-303
11-5-34	Gunducotah Poligar Adoption of a son—Vellyemmah's complaint. From the Resident. 1. Forwards a letter received from Vellyemmah, daughter of the late poligar. She represents that there being no male descendants in the family her stepmother intends to adopt a boy from some other family to the detriment of her claims as the daughter of the late poligar and lawful heir to the poliput. She requests that her stepmother may be prevented from making the adoption. 2. The Resident desires that the matter may be settled to the satisfaction of all the parties.	309-15

14-10-34	Public Servants Re-employment after dismissal—Reference to Government. From Government. 1. Return to the Collector a letter addressed by him to Government appealing against the orders of the Board of Revenue regarding the re-employment of certain individuals in public service. 2. It is irregular for a Collector to make a "reference directly to Government on a subject regarding which he has been already in correspondence with the Board of Revenue and has received the orders of that authority." If he wishes to appeal against such orders he should forward such an appeal through the Board only. Such appeal should be as rare as possible. ——From the Board of Revenue. 3. 4-9-04	Suit against the Collector Defence at public expense. From the Board of Revenue. Conveying the sanction of Government to defend at public expense the suit filed by Narayanasamy Naik against the Collector, who appears to the Board to have been improperly included in the suit.	75-7
16-10-34	Public Servants Re-employment after dismissal. From the Board of Revenue. 1. States in reply to a letter from the Collector that it is unnecessary to make a reference to Government on the general question of giving retrospective effect to the orders, dated 30th November 1830. The Board is willing to refer the case of the two tahsildars, who were ordered to be dismissed, if the Collector should be desirous of receiving the orders of Government. 2. The question involved is not one of dates, but concerns the principle of re-entertaining individuals who were formerly dismissed for their malpractices. 3. In this particular case the two persons complained against have been appointed as tahsildars. It is not advisable to entrust such responsible posts to persons found guilty of corruption. The Collector should always make a reference to the Board before making any such appointment.	125-9
20-11-34	Revenue Recovery Distrain of property—Instructions. From the Board of Revenue. 1. Replies to the questions put by the Collector. 2. 26-9-34	Revenue Recovery Lands under court attachment. From the Judge of Kumbakonam. 1. Forwards a copy of a decree relating to a piece of land which has been attached by order of the court. This land is subsequently said to have been attached for arrears of revenue. The Collector is requested to say whether he has any objection to recovering the revenue from other lands belonging to the plaintiff.	205-21
14-10-34	From the Judge of Kumbakonam. 2. Agrees with the Collector that the lands should not be sold without a reference to the higher courts.	231
17-12-34	Court Decrees Execution by Collectors. From the Judge of Kumbakonam. 1. Forwards a copy of a letter written by him to the Registrar of the Southern Provincial Court. 2. It is the usual practice to execute decrees relating to real or landed property through the District Munsifs. But there seems to be no objection to calling upon the Collector to execute decrees, passed by the Zillah and Provincial Courts when referring to lands paying revenue to Government. 3. Regulation XXVI of 1802 has been considered to be inapplicable to districts not permanently settled. This may be true so far as the sale and subdivision of lands are concerned. The former part affects all zillahs and therefore the Collector may lawfully sell lands not permanently settled upon the orders of the court. 4. In an instance under review where the lands are situated in the village of Tembarah, which is the object of a suit instituted by Venkat Row against Government, it is highly desirable that the Collector should execute the decree. The Judge, therefore, desires the orders of the Sudr. Adawlut upon the legality of obliging the Collector to do so.	237-42
27-12-34	Revenue Recovery Lands under court attachment—Opinion of the Sudr Adawlut. From the Judge of Kumbakonam. 1. Forwards a copy of an extract from the proceedings of the Sudr Adawlut. 2. The Judges are of opinion that the proprietor of land has no right to declare only a certain part of it responsible for the revenue due from the whole. The claim of Government on the lands for which the revenue is demanded cannot be interfered with by the owner of the land. For, if every owner were to declare that only a small portion of his lands, say one-tenth, will be liable to be attached and sold it may be difficult to realise the revenue for want of a purchaser for the tenth part. 3. The Collector is "competent to realize the revenue due on the lands involved in the present reference in like manner as if the decree did not exist."	243-7

30-8-34	Jamabandi Report Mayavaram division—F. 1243. From the Sub-Collector. 1. The season was very favourable to the two taluks of Kumbakonam and Cootalum. Mayavaram, Peralam and Sheally suffered some damage owing to the failure of rains in December. The total juma shows an increase of Rs. 6,336 above that of the last fusly. 2. Prices were high and compensated the mirasidars for the decreased produce. 3. Remissions were made in the following manner. In villages settled ryotwar the remission was based upon the estimated outturn and the current selling prices when compared to the field assessment. Where the gross beriz of the village alone was fixed the actual produce on a division of the crop formed the demand. Remissions in the Olungoo settled villages were few, but it should not be inferred that the crops were plentiful. Many have suffered heavy losses. The number of villages under amani was reduced from 106 to 86.	253-60
5-9-34	Extra revenue—F. 1243. From the Head Assistant Collector. 1. In the exports there is a decrease of Rs. 4,062 caused chiefly by the deficiency in the car crop, which is the kind of grain always exported to Ceylon, and the exemption from duty of grain exported to Madras. 2. Salt. The sales of salt for inland consumption show an increase of 213 garce consequent on the abolition of the parah in the Madura district. Merchants from Coimbatore and the Nilgiris increased the demand for home consumption to a great extent.	261-4
3-11-34	Pattabiramayya Tahsildar of Kumbakonam—Dismissal of. From the Sub-Collector. 23-2-35	Jamabandi Accounts F. 1242—Explanation. From the Board of Revenue. Reviews the explanation of the jamabundy accounts which was called for from the Principal Collector. The Board observes that these explanations are clear enough, but the usual method of preparing the accounts should not be changed without orders as such a course impedes the work of the Board.	59-106
23-3-35	Suit against Collector Appeal ordered. From the Board of Revenue. 1. Forwarding the orders of Government who consider that the suit in question ought to be appealed against because the Judge himself has observed in his decree that by the terms of the original puttah the assessment is reduced only for fusly 1237 and that it conveys no permanent right to the plaintiff to hold the land at a reduced rate.	119-24

This was not complied with. The Judge, therefore, requests that it may be now realised out of the amount under deposit in the treasury on account of the temple.	249-63

	Vencatasubbayyan	
21-9-35	Tahsildar—Dismissal of. From the Board of Revenue. The Board considers that the Tahsildar ought not to have been dismissed because there is no proof of his fraud and because Mr. Goldingham, who was then the Sub-Collector of the division, has testified to his having issued oral instructions to the Tahsildar to look out for another renter.	79-85

The Judge has adjudged the Chetties of the Tanjore Rice Bazaar to be the owners of the garden, but he has directed them to nominate a manager and notify his appointment to the Collector so that he may be supervised by the Tahsildar. 	Jamabandi Report	
21-9-35	Mayavaram division—F. 1244. From the Sub-Collector, Mayavaram. 1. The season promised to be very good but the absence of rains in December destroyed part of the crops. The total revenue amounts to Rs. 16,13,702 which is Rs. 70,687 less than that of fusly 1243. 2. The erection of the new anicut across the Vettar has increased the extent of irrigation in 29 villages. 3. In rented villages remission was based on an actual division of the crops. 4. In the villages settled fieldwar there is a gradual increase of cultivation caused by the conversion of poonjah into nunjah and bhagayat. 5. The revenue has been almost entirely collected, there being only a balance of Rs. 3,555 of which Rs. 2,000 is in course of collection.	187-200
	Letters from the Board. 1835.	
	Suit against Government	
20-10-1835	Venkat Row—Draft appeal from the Provincial Court. From the Board of Revenue. 1. Forwards the draft of an appeal ordered to be filed in the Sudr. Adawlut by the Collector on behalf of Government. The grounds of appeal are mostly the same as were urged in the original suit instituted in the Southern Provincial Court. 2. In addition to them the appeal denies the authority of the Collector to sell lands on his own authority, whether it be in a permanently settled district or in a district not settled permanently. It also emphasises that the Government possess always the power of annulling the acts of their executive officers if it is found necessary to do so.	21-46
	Revenue Recovery	
24-11-35	Lands under court attachment. From the Board of Revenue. Communicates the orders of Government regarding the suit in which the rights of Government to melwaram over lands have been forfeited by an order of the Register of the Zillah Court of Kumbakonam, attaching the lands in execution of a court decree. 26-11-35	Alienations of Land Causes—Enquiry into. From the Board of Revenue. 1. Forwards a letter received from Government calling for information regarding "a very considerable transfer of land by sale" which is said to have taken place since the survey. An account of such transfers is called for with a view to finding out the "cause of transfer, whether from the partition of property between relations or by absolute sale." 2. Government also call for the particulars of the field assessment so far as it has been introduced into the district.	77-82
1-12-35	Ryotwari Settlement Assessment—Jurisdiction of the courts. From the Board of Revenue. 1. Conveys the orders of Government to defend a suit filed against the Collector by a mirasidar, questioning the validity of the Collector's settlement. He is directed to file a demurrer to the jurisdiction of the court to interfere with the Collector's settlement. 2. In this connexion a copy of a letter addressed to the Collector of Salem on a similar occasion is also enclosed. In this case the court admitted that the settlement in ryotwari districts could only be revised by the Board or Government, and that there was no regulation to authorize a Judge to annul a Collector's settlement. If a ryot is dissatisfied with it he should appeal to the Board and from the Board if necessary, to Government.	91-101
13-10-35	Dormieux, Mr. P. J. Late civil servant—Lands at Negapatam. From the Register of Grants, Madras. Informs him that "a grant in perpetuity" has been ordered to issue for the house and ground belonging to the estates of the late Mr. Dormieux's daughters.	139
19-10-35	Tahsildari School Kumbakonam. From the Sub-Collector, Mayavaram. Reports that the scholars are making a regular progress in English. He suggests that a sum of Rs. 2 out of the Tamil schoolmaster's pay of Rs. 9 may be utilised for supplying him with books and stationery.	141-3
16-11-35	Jamabandi Report Extra revenues—F. 1244. From the Head Assistant Collector. Reports a decrease under the sales of salt, occasioned by the absence of the demand from the markets of the interior which were overstocked during the last fusly. The manufacture and sale of earth salt in Pudukotah is also partly responsible for this decrease. There has been an increase of Rs. 8,417 in the exports and Rs. 377 in imports.	151-6

Date.	Letters to the Board. 1827. Abstract.	Page number.
4-1-1827	Assessment Concealed cultivation etc. To the Board of Revenue. 1. Reports the existence of large areas which have not been brought into the accounts. Such instances of hidden cultivation are very common in the kadarambam villages in the coastal taluks. Reports have been received from time to time that large areas of cultivated land do not pay any assessment to Government. The mirasidars themselves have in several instances admitted the existence of such lands. 2. The public servants help to hide their existence from the eyes of the higher authorities. They are also bribed to recommend remission in a year of general drought, even if the lands so recommended do not show any signs of damage. Entering wet lands under dry and double crops under single crop lands is another common practice. The Sub-Collector in charge recommends that an enquiry may be made previous to the new settlement in the ensuing fusly. 3. Statements showing the extent of cultivation in Kadarambam villages.	1-15 164-72
2-1-27	Subbaraya Mudali Tahsildar of Keevalore—Dismissal of. To the Board of Revenue. Reports that he found the Tahsildar guilty of having taken bribes from the mirasidars of several villages in order to recommend undue remissions, and that he has been dismissed from the service.	31-8
4-1-27	Subbarayar Tahsildar of Tiruvadi—Suspension of. To the Board of Revenue. Reports that the Tahsildar has been suspended for taking bribes in return for recommending undue remissions. He has induced the mirasidars to destroy their accounts, but there is ample evidence to show that this person is guilty of committing frauds.	39-43
5-1-27	Revenue Sales Purchase of public servants—Answers to the Board's remarks. To the Board of Revenue. 1. Mr. Cotton submits his explanation regarding the various points observed by the Board. He states that the mirasidars were given every opportunity to improve the cultivation of their villages and that the final measure of sale of lands was resorted to only when they wilfully neglected the cultivation. The arrears for which the lands were sold were arrears of taccavi which had not been included in the amount ordered to be remitted. 2. Neither his Head Sherishtadar Gundoo Punt and Deputy Sherishtadar Rangā Row spoke a word to him about the villages of Tembarah and Paruvalandan, purchased by Diwan Venkat Row. He also states that the proposed permanent assessment on the two villages was far more than the average revenue derived from them, and that therefore there was nothing underhand in the attempt of Venkat Row to get the villages assessed permanently.	47-81

Date.	Abstract.	Page number.
	Revenue Sales—cont.	
	3. Regarding the lands acquired by the public servants it can be proved that they purchased them from persons who bought them at the sales, and this is by no means prohibited by the regulations. These lands were included in the lists submitted by them because they were directed to bring lists of all the lands sold for arrears that may be in their possession.	
	4. Mr. Cotton speaks strongly regarding the character of Guntoo Punt and Runga Row and says that the former having nearly completed his period of service would not have risked his pension by any fraudulent conduct on his part and that the latter has been exerting himself honestly with a view to rising in the service.	
	5. Finally, Mr. Cotton regrets that the Board should have censured him so severely, unmindful of his past service extending over 24 years, and that Government should have been forced to think ill of him.	176-80
	6. Statements relating to this letter.	
	Settlement	89-93
3-3-27	Temporary arrangements. To the Board of Revenue.	
	1. On taking charge of the district, Mr. Campbell reports that the existing settlement is supposed to expire with the present year in every village, and that the Board had been led to think erroneously that only a few villages were rented for five years from 1232 to 1236.	
	2. Since it is necessary to make some temporary arrangements until the field assessment should be introduced he suggests that the villages may be rented on the same terms until the survey should advance sufficiently to be introduced into any part of the district.	
	3. Copy of Mr. Cotton's proclamation made in 1823.	187-91
	Taluks	94-9.
4-3-27	Jurisdictions. To the Board of Revenue.	
	1. Proposes to divide the district into 15 taluks instead of 9 as at present with a view to increasing the efficiency of the taluk establishments, which are at present quite inadequate to attending to the affairs of vast areas producing an average revenue of 3½ to 5½ lakhs of rupees in a year. This arrangement will be materially useful in facilitating the proposed survey and field assessment.	
	2. Statements relating to this letter.	192-9
	Post Office	101-2
5-3-27	Tranquebar—Restoration of. To the Special Agent for Foreign Settlements.	
	States that the Danish Government desire to have the post office established and that they agree to place it under his exclusive control. He therefore states that the sanction of Government may be obtained to re-establish it.	
	Kavalkar	107-8
27-3-27	Pension—Mootoo Naik—Reduction—Remarks. To the Board of Revenue.	
	1. Mr. Campbell represents that Mootoo Naik held 2 cavallies from faslis 1209 to 1218 and that when the cavallies were discontinued he was allowed a pension on account of each. This was subsequently reduced by Mr. Cotton on the ground that he could claim only one pension, and he went to the extent of recovering Rs. 407 from the arrears due to Mootoo Naik. As this is rather hard on

	the old man Mr. Campbell recommends that the sum thus recovered may be returned to him and that his pension may be raised to the old rate.	201-3
	2. Petition of Mootoo Naik.	
11-4-27	Raja of Tanjore Claims to the old forts. To the Resident.	113-5
	1. Represents that some merchants have taken a few stones to repair a temple from the old fort at Valluru and that no more stones should be removed without his permission. The Principal Collector questions the right of the Raja to the ruined forts and temples because according to the treaty the Raja is entitled only to the villages mentioned in it. And these forts are not mentioned in it. The Collector proposes to make use of them in the survey.	
19-2-27	2. Report of the Tahsildar on Trivady ferry.	186-7
	Ferry Boats	115-7
12-4-27	Report on. To the Officer Commanding the Southern Division.	
	1. In reply to a letter received from him states that the arrangements for passengers and troops provided in this respect are superior to those in any other province. There are 32 flat bottomed boats capable of holding 80 to 150 men "and so built that horses in harness may go into them unyoked." There are several dhonies leather boats etc., on the inlets near the sea. The rivers are fordable between December and June. The boatmen are paid by Government only during the time of the freshes.	
	2. Statement of ferries and boats.	204-8
	Pensions	117-28
19-4-27	People attached to temples etc. To the Board of Revenue.	
	1. Mr. Campbell reports that a levy of eight mercals per 100 culums is made on behalf of temples and religious institutions and that this quantity of grain commuted into money at the same rates as land revenue is paid to Brahmins and other people hereditarily entitled to a share of this fund.	
	2. The arrears on account of these pensions now amount to nearly 3½ lakhs of rupees. Mr. Campbell, therefore, requests the authority of the Board to pay all regular claims and to carry the reminder to the credit of Government to be utilised for education and other public purposes. These pensions are paid in lieu of manyams of land, since resumed by Government, and therefore there is no objection to a person's holding more than one of the pensions.	
20-4-27	—From the Collector.	134-7
	3. Requests the authority of the Board to pay the arrears of 'Roca' manyam which may be claimed within six months.	
	4. Statement of arrears.	213-7
	Corruption	143-5.
4-5-27	By public servants—Universality of. To the Board of Revenue.	
	In connection with the appeal preferred to Government by Soobroya Mudali, the Amildar, who was fined by Mr. Sinclair for bribery, the Collector reports that corruption is ripe in the district and that the public servants openly exact bribes with as much regularity as the dues of Government.

	Court Decrees	
20-5-27	Land paying revenue to Government—Collector's views. To the Register of the Sudr Adawlut. 1. Encloses a copy of a letter written by him to the Judge of Kumbakonam regarding the legality of the sales effected by District Moonsiffs in execution of court decrees. 2. The Collector argues that the court may order a piece of land to be transferred from one person to another and that the District Moonsiff may execute such an order, but when the execution of the decree involves the sale of lands paying revenue to Government the Collector alone should be held responsible for selling the lands. 3. As the question has been the cause of dispute between the Collector and the Zillah Judge the opinion of the Sudr Adawlut is requested.	155-7
	Fornbaner, Maj. J. G.	
27-5-27	Bavarian Minister's enquiries. To the Ceylon Government. Requests that he may be furnished with the particulars that may be obtained regarding Maj. Fornbaner, who is supposed to have died at Jaffna. His Secretary is supposed to be in possession of information which the Court of Directors require for the purpose of answering a letter received from the Bavarian Minister at the British Court.	158-60

	Ferry Tolls	
3-8-1827	Proposal to establish. To the Board of Revenue. Forwards copy of his letter to the Officer Commanding the Southern Division on the subject and states that private boats do not usually ply at the ferries where public boats are employed. Tolls are not authorized but are often exacted. It is, therefore, desirable that they should be publicly sanctioned. The management should be under amani as renting leads to abuses and delays similar to those prevailing at the Coleroon ferry in South Arcot. The Collector suggests that this ferry may be transferred to his control.	9-11
	Extra Revenue	
30-9-27	F. 1236—Report. To the Board of Revenue. The net collections exceeded those of the previous year to the "trifling extent of Rs. 616 and amounted to the considerable sum of Rs. 7,68,238, collected at the small charge of only 7 55/64 per cent."	22-5

19-11-27	Shiyali taluk—Obstacles to—Introduction. To the Board of Revenue. 1. Forwards copies of the various proclamations issued by him and Mr. Nelson to the mirasidars of Sheally about the introduction of the field assessment in the current fasli. He reports that the mirasidars have, however, adopted an uncompromising attitude and that they have, one and all, refused to cut their crops. 2. They have assured that the field assessment will be very favourable to them and that they may cultivate their fields and cut their crops as and when they like without any obstruction on the part of the public servants. 3. In these circumstances, Mr. Campbell requests that Government may be pleased to issue a proclamation to pacify the mirasidars.	94-8 ✓ 141-51 ✓ 98-100 ✓
	Village Munsifs	
22-11-27	Inams proposed. To the Board of Revenue. 1. In Tanjore there is no officer corresponding to the potail, the nāttamkar and the ambalakar of the other parts of the Peninsula. This peculiarity is to be ascribed to the absence of village units and the exemption from hostile invasions, which obviated the necessity for a superior to direct the military operations. The villages lie intermingled with one another and the appointment of a superior of this sort will meet with interference by those in the adjoining villages. 2. In accordance with Regulation V of 1816 village munsifs were appointed in a large number of villages, but it has been observed that they are all extremely negligent in the discharge of their duties. The absence of remuneration is a cause of this indifference. Another cause is the opposition they find from the other inhabitants who are "unwilling to submit to the authority of one of themselves."	100-12

Date.	Abstract.	Page number.
Village Munsifs—cont.		
	3. There is usually one mirasidar in every village who possesses a large extent of lands scattered over several parts of the country. Being a man of influence the work may be entrusted to him but he is more likely to oppress the people than check the evils for which the appointment is made. The post is seldom sought after either by the rich or the poor.	
	4. The number of munsifs cannot be reduced below 5,000. To pay them Rs. 5 per month will involve an expenditure of Rs. 3,00,000. It is better to give them inam lands if spare lands could be found. Very often it is difficult to find waste lands for such purposes. Therefore, it is suggested that the lands not included in the accounts, that may be discovered by the survey, may be allotted for this purpose. An inam, however limited in its extent, is always looked upon as an honour and is therefore the best method of remunerating this class of people.	
Revenue Sales		
30-11-27	Unsettled districts—Legality of. To the Board of Revenue.	114-26
	1. The Collector represents that the decision of the Sudr Adawlut, restricting the provisions of Regulation XXVI of 1802 to zamindari lands, is likely to have very bad consequences so far as the sale of lands for recovery of arrears is concerned. This decision virtually cancels the orders of Government cancelling the sales of lands in which public servants have been the purchaser, on the ground that such sales were made without the permission of the Board.	
	2. If the Collector is prohibited from selling the lands in an unsettled district the arrears will naturally accumulate. Mr. Campbell, therefore, suggests that a declaratory enactment should be passed explaining that the provisions of Reg. XXVI of 1802, except sections 7, 8 and 9, are and have always been applicable to all the lands in the Presidency.

But he should be very circumspect in accepting the information that they may give him.	67-73
Flogging of Karnam		
26-1-28	For concealing kolkuripu accounts. To the Government. Mr. Campbell reports upon the petition of Ranga Row, late Deputy Sheristadar. At the commencement of the survey in Sheally the curnums and mirasidars combined among themselves and denied the existence of the 'kolkuripu' accounts of the nunjah and punja lands made in ff. 1214 and 1216. As these accounts were indispensable for making the survey the Collector was obliged to flog a curnum before they were produced. Runga Row had nothing to do with this and his complaint is groundless.	75-86
Ryotwari Settlement		
29-1-28	Shiyali taluk—Proclamation. To the Board of Revenue. Forwards a copy of a proclamation issued by order of the Board to the effect that Sheally will also be settled in the same manner as the other taluks. Mr. Nelson, the Sub-Collector in charge, however reports that this being vague some definite measure must be adopted before the crops are cut. He suggests that the usual renting system may be adopted as the basis of settlement and that the Principal Collector, when he arrives, may make what changes he desires.	87-92 230-2
Census Report		
13-2-28	1828. To the Board of Revenue. Forwards a statement which shows the population to be 10,65,000 or 266 per square mile. The latter is 56 more than the figure for England. Each person pays on an average Rs. 4-8-8, while in England the average is Rs. 26-10-8.	111-2 234-5
Gundoo Punt		
14-2-28	Late Head Sarishtadar—House under attachment. To the Board of Revenue. 1. Reports that burglars have broken open into the house and carried away silver articles and jewels worth about Rs. 2,500.	114-7
18-2-28	—To the Board. 2. The total loss is estimated at Rs. 3,391. The robbers have not been traced.	118-9

	Survey	
27-2-28	Temporary cessation reported. To the Board of Revenue. On taking charge of the office of the Principal Collector, Mr. Kindersley reports that according to the orders of the Board he has stopped the survey in all the taluks except Triviar where it had made great progress.	122-3
	S.P.G. Mission	
17-3-28	Padrecottagam estate—Arrears on. To the Board of Revenue. In reply to an enquiry made by Government the Collector replies that the arrears due on the estate amount to Rs. 293 and that from faslis 1230 to 1235, the estate was under attachment, when it produced much less than the standard jumma of Rs. 394. Further particulars relating to the land will be known on the completion of the survey. From a revenue point of view there are no grounds to reduce the assessment.	133-6
	Ryotwari Settlement	
3-4-28	Petition of inferior mirasidars—Remarks. To the Private Secretary to Governor. Reporting upon two petitions received by the Governor, Mr. Kindersley states that the abuses committed by the richer mirasidars, which is the purport of the petitions, are long-standing and widely known. It may not be worth while to investigate certain frauds said to have been committed several years ago. On the other hand it will be advisable to proceed with the survey in order that the abuses may be remedied as early as possible.	143-5 244-50
	Marriages and Funerals	
4-4-28	Statement of.	145-6 251-2
	Raja of Tanjore	
19-4-28	Exchange of lands. To the Resident. 1. Explains that the delay in effecting the final arrangements is due to the absence of correct accounts relating to the value of the lands and gardens given in exchange to the Company. Besides, the question of jurisdiction over the villages transferred to the Raja is an important question and cannot be settled except by the orders of Government. 2. In this connection the Collector states that the privilege of exemption from the betel duties is abused by the Raja's followers.	151-2
	Saminada Mudali	
21-4-28	Shrotriyam—Application. To the Board of Revenue. Reports that Saminada Mudali, late Sheristadar of Kumbakonam, has given up his claims to an improved irrigation and that he desires a cowle on the following terms: free for the first three years; from the fourth year to his death to pay Rs. 100 per year; after his death his heirs to pay Rs. 400 per year. He also requests that his labourers may be exempted from 'Awl Amunjee and Oolium Pollium'. But this is not approved by the Collector.	156-7

Date.	Abstract.	Page number.
	Raja of Tanjore	
26-4-28	Jurisdiction. To the Resident. Replies to two representations made to him, one that a curnum of a village belonging to the Raja was summoned directly. The Collector states that it has been the practice to do so except in the case of the Raja's important relations and followers living with him. The other complaint concerns the boundary of a village newly made over to the Raja. Since the Raja objects to the usual mode of adjustment of such boundary disputes the Collector suggests that himself and the Resident may jointly settle it.	158-61
	Public Servants	
2-5-28	Purchase of lands—Cancellation of. To the Board of Revenue. Reports that the lands purchased by public servants were attached by Mr. Cotton in 1826 according to the orders of the Board, but that he allowed the purchasers to keep possession of the lands provided they agreed to pay the Government share. Mr. Campbell, however, placed the lands entirely under Circar management with the result that the produce has been very poor. As it is not advisable to put the original mirasidars in possession of these lands until the question is finally decided Mr. Kindersley recommends that the purchasers may again be directed to manage them.	163-7 268-9
	Raja of Tanjore	
2-5-28	Jurisdiction. To the Resident. Reports that another instance of a boundary dispute has occurred, in which violence has been used by the Raja's people and that such disputes will be constantly arising unless the Raja gives up his pretence to jurisdiction over the villages newly granted to him.	167-9 253-7
	Devasthanam Servants	
6-5-28	Appointment of—Authority of the courts. To the Board of Revenue. Requests the orders of the Board whether the court may interfere with the appointments made by him to the several devasthanams in the district.	169-71
	Raja of Tanjore	
7-5-28	Jurisdiction. To the Resident. 1. States that he will continue to assert his jurisdiction over the villages granted to the Raja unless he is directed by Government to abstain from doing so. The Collector is not prepared to accept the extract furnished by him as the final orders of Government. At best it appears to be only an opinion and not a decision. He cannot abide by it until he receives definite orders through the proper channel. 2. Accepts the temporary arrangements proposed by the Resident, viz., that the magisterial jurisdiction should be exercised by the Collector and Magistrate and that in civil disputes the parties may appeal either to the Raja or to the Collector. As a matter of courtesy the Raja's immediate followers etc., will be summoned through the Resident.	174-8

30-6-28	Revenue Sales Proposals. To the Board of Revenue. Forwards statements showing the arrears due from some of the refractory mirasidars and suggests that arrangements may be made to sell their lands. It is expected that the arrears will be paid as soon as a serious attempt is made to effect the sales for the recovery of the revenue.	213-6 264-7

Letters to the Board.
1828.

4-7-1828	Raja of Tanjore Jurisdiction over villages. To Government. 1. Represents that the Raja claims sovereign authority over the 283 villages in his possessions which lie scattered throughout the district. The Raja's pretensions have met with some kind of encouragement in an opinion expressed by Government regarding his jurisdiction. The Collector requests the early orders of Government upon this important question which is daily giving rise to several disputes between the Raja and the Collector. 2. Translation of the letters received from the Sirkele to the Raja.	1-7 146-69
8-8-28	Revenue Survey Raja's gardens. To the Resident. 1. Requests the Resident to see that the Raja's gardens lying in the village of Kalyanapuram may be surveyed along with the other lands of the village, as the survey will otherwise be incomplete.	17
23-8-28	—To the Resident. 2. Thanks the Raja for the help he has promised to give in completing the survey of the district, and requests the Residents to make the necessary arrangements by which the Raja's servants may be in readiness to render their help to the surveyors.	23-6

Reports that the accounts have been maintained and correspondence carried on in Tamil or Mahratta according to the pleasure of the Collectors. At the present time the Huzoor accounts are in Mahratta. The salt and sayer accounts are in Tamil, but abstracts of these are made in Mahratta.	49-50

16-10-28	Boundary Dispute Nanjecottah village. To the Resident. Informs him that the inhabitants of the Raja's village behave unreasonably in not agreeing to the usual method of adjusting such disputes. If the dispute is not settled within a week the Collector says he will be forced to recommend to the Board to resume the village of Nanjecottah and charge to the Raja's account the losses that may arise from this dispute.	78-80
24-10-28	Raja of Tanjore Exchange of lands—Arrangements. To the Resident. (See Reprint 232/48.)	82-8
31-10-28	Mannar Pearl Fishery Maniam boats of Tanjore temples. To the Board of Revenue. Forwards a petition received from the representatives of the Avadayar temple stating that the Ceylon Government refused to allow the usual 'Maniam' boat at the last fishing for pearls at Mannar. The Collector desires that a reference may be made to the Ceylon Government to ascertain the cause of their refusing a privilege hitherto enjoyed by this and some other temples in Tanjore district.	89-90 183-4
11-11-28	Car Festivals Cars—Compulsory service—Reply to Mr. Nelson's letter. To Mr. Nelson, Sub-Collector. 1. Disagrees with him in thinking that Government ought to put a stop to the system of forcing the mirasidars to send their labourers for drawing the cars. Mr. Nelson is of opinion that it is felt to be a hardship by the public and that it is performed with great unwillingness on the part of the impressed coolies and the mirasidars and Government servants who impress them. Above all, he considers it to be immoral as encouraging idolatry. 2. Mr. Kindersley denies that the mirasidars would like to put a stop to the car festivals, and states that if anybody tries to avoid the service it is purely on selfish grounds. It is true that the Government is not bound by any Act of Parliament to respect or encourage the superstitions of the people, but to set themselves in active opposition to the ancient religious practices of the people will be the surest means of alienating their sympathies towards Government and destroying the foundations of the Empire which is based on the Indian's respect of the Englishman's justice and non-interference with their religious belief. The Collector, therefore, desires Mr. Nelson to withdraw the latter.	95-116
19-11-28	—To the Board of Revenue. 3. Forwards the correspondence to the Board at the request of Mr. Nelson.	116

Date.	Abstract.	Page number.
3-12-28	Nazarana Proposals to levy. To Government.	119-25
	1. Replies to the proposals made by the Bombay Government circulated for the opinion of the Collectors.	
	2. It is proposed to levy the impost on persons of political importance and those who pay very little towards the public revenue.	
	3. The Raja is the only person of political importance. He is a pensioner and as such is not a suitable object for the levy of this impost. The poligars are poor and pay their share of the public revenue. They will feel the nazarana to be a great hardship.	
	4. The large number of inamdars who hold their lands without good titles may be assessed with this levy.	
	5. The bankers and merchants are the next class of people from whom the nazarana may be collected. As it is, they pay very little to Government. There are, however, practical difficulties in assessing their wealth accurately. The 'veesabuddy' system of the Ceded districts will be a more appropriate method of levying this impost upon them.	
	6. The curnums are poorly paid, and their office is not hereditary. nazarana ought not to be levied from them.	
5-12-28	Extra Revenue F. 1237—Report. To the Board of Revenue.	128-37
	1. There was an increase under every item except frontier and sea customs duties. The decrease under these two heads is explained in detail in Mr. Nelson's report.	
	2. Motarpha. The Collector proposes that the motarpha tax may be extended to all the trades and professions and not merely to the looms as is the practice at present. In Bellary this tax produces about 3 lakhs of rupees while in Tanjore it scarcely produces Rs. 16,000. Proposals were made as early as 1802 to introduce such a tax on miscellaneous trades. It, however, fell through. The Collector proposes that some enactment may be passed immediately to enforce this tax.

4-2-29	Persian School Kumbakonam—Proposals for. To the Board for the College. Represents that there are schools in each of the towns of Kumbakonam, Trivady and Mannargudy, but that the Muhammadans of Kumbakonam desire to have a school for teaching Persian. Requests sanction to open a school for teaching Persian and Hindustanee.	11-2
13-2-29	Raja of Tanjore Exchange of lands—Final arrangements. To the Board of Revenue.	14 69-75
	(See Reprint 232/53.)	
20-2-29	Public Servants Imprisonment for misconduct. To the Board of Revenue.	26-9
	1. The Collector considers that it is objectionable to release such persons on bail pending their appeals to the Board because such a practice will frustrate the ends of justice by unduly postponing the punishment. Besides, the public will only find in their release grounds for believing that the delinquents have not been punished.	
	2. Regarding the several petitions addressed to the Board the Collector recommends that some who have been in jail for a long time may be released.	
25-3-29	S.P.G. Mission Padrecottagam estate—Extent of. To the Board of Revenue.	36-7 76
	Reports that the village measures above 20 valies. The mission allows to the poracoodies 35 per cent. instead of the usual rate of 30½ per cent. A statement showing the results of the survey is appended.	
22-4-29	Ranga Rao Late Deputy Serishtadar—Re-employment of. To the Board of Revenue.	46-7
	1. The Collector considers that though there is no positive proof of Runga Row's having been concerned in the purchase of the village of Oolamedy, yet the suspicions which were originally raised have not been completely removed. Therefore, he suggests that he may be employed in some other district than Tanjore.	
	2. The statements made by several of the mirasidars of Oolamedy and the neighbouring villages are appended.	77-102
30-7-29	Ryotwari Settlement Pattas and Muchilkas—Specimens. To the Board of Revenue.	57-8 103-11
	Forwards specimens of the pattas and muchilkas exchanged between him and the patta mirasidars of each village in the Sheally taluk. They are for one year only as is usual in the ryotwari settlement. The pattas and muchilkas are for entire villages and are granted to a group of mirasidars and not to individuals.

7-8-1829	Ryotwari Settlement Shiyalli and Tiruvadi taluks—Cost of survey. To the Board of Revenue. The average per square mile amounts to Rs. 60. At this rate the survey of the district, which contains 4,000 square miles will cost Rs. 2,40,000.	6-7 120-7
16-9-29	Public Servants Purchase of lands. To the Board of Revenue. 1. The Collector reports that owing to the lapse of time it is impossible to trace out the instances in which there was collusion between the public servants and the purchasers. Mr. Cotton has already explained that the defaulting mirasidars had been given advances and other help and that the sales were conducted in as fair a manner as possible in his own presence. 2. In these circumstances Mr. Kindersley recommends that the sales may be confirmed in order that due attention may be paid to the cultivation of the lands and that Government may not suffer a loss of revenue.	19-25
18-9-29	Inams Village Officers—Statement.	27
13-10-29	Raja of Tanjore Jurisdiction over roads. To the Resident. Replies to a letter received from the Resident, and states that because the Raja possesses lands on either side of some of the roads he will not be allowed to encroach upon them or interfere with them in any other manner.	35-6 128-51
19-10-29	Ferry Tolls Levy proposed. To the Board of Revenue. 1. Represents that there are 73 ferries worked at Government cost. Nearly Rs. 10,000 are spent annually over them. The Collector is opposed to levying even a small coin as toll because it will be a hardship to poor people who may have to cross four or five rivers in the course of a day's journey. He proposes that an experiment may be made at the Arsalar ferry on the road to Nagore, and that it may be rented. 2. A statement of the rates of tolls proposed to be levied is appended.	39-43
22-10-29	Jamabandi Report F. 1238.	44-59

Date.	Abstract.	Page number.
29-10-29	Boundary Disputes Raja's village of Tirupanturti. To the Resident. Represents that he personally examined the site where the bamboos stood in the village of Tripundoorty, and that being satisfied they belonged to the mirasidar and not to the Raja he ordered the former to cut the remaining bamboos and sell them to compensate himself for those cut down by the Raja's people.	59-60
11-11-29	Extra Revenue F. 1238. To the Board of Revenue. 1. There was an increase under every item except sea customs and stamps. The total revenues amount to Rs. 10,73,614 being Rs. 1,56,914 above that of fasli 1237. 2. There was a decrease in the quantity of salt sold, but the increase of price from 70 to 105 per garce shows an ultimate increase in the value of salt sold. 3. The manufacturers of salt at the Negapatam pans refused to accept the reduced cudiwaram of Rs. 10 per garce. The manufacture at these pans was entrusted to poracoodies who received Rs. 7 per garce. It is expected that the manufacturers will accept the reduced rates in the ensuing year.	61-9
	Encroachment By the Raja of Tanjore—Jurisdiction over roads. To the Resident. 1. States that encroachments have been removed wherever they were found to have been made on public roads. In every case due notice was given to remove them and it was only when the orders were not carried out that they were forcibly executed. The Collector thinks that he is not bound to consult the Raja regarding the width of the roads or the manner of repairing them. He will treat him only as an ordinary individual where his interests interfere with the public roads which are entirely under the management of the Collector. 2. The charges made by the Raja that the Collector is widening the roads and recklessly pulling down houses are not true. He desires that the matter may be placed before Government if necessary.	72-85
14-11-29	Boundary Disputes Raja of Tanjore. To the Resident. 1. Represents that the clump of bamboos ordered to be cut down by the Collector stood beyond any doubt on the mirasidar's land. It is unconvincing to say that because there are bamboos in the Raja's garden all growing on adjacent lands are his. As the Collector did not consider this to be a boundary dispute he did not report the matter to the Raja. 2. The reference to the Raja's feelings, which is introduced into any and every question, is extremely unreasonable. The Raja should not expect the Collector to treat him as different from the other mirasidars of the district. Such an exemption will be made only within the limits assigned to the Raja. 3. In this connection the Collector desires that the matter should be referred to Government for early orders regarding the jurisdiction of the Raja.	85-90

Forwards a statement showing the approximate prices of lands of the various description, prevailing in the district. 12-6-30

Statement to the Board.

82-3

245-8

The Collector has modified the statement prescribed by the Board because some of the columns are inapplicable to the district. In Tanjore no remissions are allowed in the case of losses sustained by the mirasidar's neglect.

Pratap Sing

18-11-29

Blowing of horns by Tahsildars.

90-3

To the Resident.

1. Represents that the Tahsildars of Kumbakonam and Mayavaram have brought counter-charges of violence and imprisonment against the sepoy and Pretaup Singh's people.

2. It was no doubt a breach of good manners to blow the horns in front of the palace, but the order prohibiting such noise was not well-known. The Collector therefore, proposes that the matter may be dropped and states that he will issue instructions to prevent a recurrence of such quarrels in future.

Kavalkars

21-11-29

Pensions—Arrears of.

93-100

To the Board of Revenue.

The Collector reports that a large number of pensioners did not make a claim to receive their arrears because a certain person promised to represent their cases in the cutchery and to obtain better terms for them. All the old claims have been investigated and the claims of heirs of deceased persons have been recognised only where the original recipients had applied for the arrears and failed to obtain them.

Raja of Tanjore

Jurisdiction.

102-5

To Government.

The Collector requests early orders upon the jurisdiction of the Raja as there is great confusion in the management of a large number of villages belonging to the Raja.

Revenue Sales

1-12-29

Conduct by Tahsildars.

109-12

To the Board of Revenue.

236-7

1. The Collector represent that it is impossible for him to be present at every sale of lands and that the power of doing so may be delegated to the Tahsildar.

2. The latter arrangement enables the people of the neighbouring villages to compete with one another, whereas if the sales were to take place at the Collector's cutchery, the bidding will be poor for want of people acquainted with the land and the locality.

3. A statement of defaulters is appended.

156-7

Raja of Tanjore

114-5

If Government are anxious to ascertain the possibility of mining coal in the tracts mentioned by Mr. Nelson it is necessary to employ experts and furnish them with the instruments. The Collector is of opinion that mining will be difficult as water is found at the depth of a few feet throughout the low country.	14-5

18-10-30	Resumption of. To the Board of Revenue. The inams enjoyed by the cavilcars were resumed in 1813 and life pensions were granted to the cavilcars. The aycut and roz maniams given to a large number of persons attached to temples and other charitable institutions have for the most part been converted into life pensions. Extra Revenue		
4-11-30	F. 1236. To the Board of Revenue. 1. There is a net decrease of Rs. 13,518 when compared to the revenue of fasli 1238. 2. This decrease is attributed chiefly to a fall in the consumption of salt for the inland markets. The increase in the monopoly price has created a demand for earth salt which is said to be manufactured and sold at Trichinopoly in a public manner. This should be prevented immediately. The use of the para for measuring salt at the Madura pans induces the inland merchants to resort thither, as it gives them a larger quantity than the merca. Tranquebar appears to receive a large supply of salt from Karikal. Steps should be taken to prevent this. 3. The next large decrease is in the sale of stamps. This is caused by the sayer renter who has been issuing rowanahs on unstamped paper for goods that may not be going beyond the limits of the district. This practice will be put an end to by the adoption of the system of renting by taluks.	46-56

Public Servants		
19-1-1831	Purchase of lands—Cancellation. To the Board of Revenue. Represents that it is impossible to retransfer to the old proprietors the lands purchased by public servants until the crops are cut. The former have put forward a claim to 'Toondoowaram' or landlord's rent for the whole period	5-9

	beginning from 1826 when orders were issued to cancel the sales. But as these orders were revised in 1830 and as no mention of 'tunduwaram' is found in them they do not appear to be entitled to the allowances. The Collector proposes to transfer the lands at the expiry of the present cultivating season.	
24-1-31	Karnam of Vanamadevi Corruption—Punishment of. To the Board of Revenue. Forwards an appeal preferred by Kylasapundaram, the vattum curnum, against the decree passed against him by the Collector. The evidence recorded during his trial is also forwarded.	11 120-56
10-2-31	Revenue Arrears Statements.	13-5 157-77
18-2-31	Census Statement F. 1240.	15, 178
26-3-31	Travellers Posting of. To Government. Replies that it is unnecessary to post two sets of bearers on a fixed monthly pay because bearers are always available in large numbers and no difficulty is experienced in recovering their wages from the travellers.	20-1
26-3-31	Demand, Collection and Balance Ff. 1232-9—Comparative statement.	22-6 179-80
26-3-31	Public Servants Final statements.	22-6 181-3
9-7-31	Landed Property Alienation—Draft regulations. To the Board of Revenue. 1. The Collector considers that the "rulers proposed seem, generally, well suited to the object." 2. In section III "all accounts of landed property" are required to be registered. This appears to be vague. 3. Again section 121 says that no lease will be recognized in the revenue cutchery, which is not registered. This will be a source of hardship to the mirasidars who enter into annual agreements with the ryots. 4. Section 130 says that registration should be proved by witnesses. If they die later on the advantages of registration will be lost. 5. Regarding the sales of lands for arrears of revenue in unsettled districts it is necessary to alter "the office of the Secretary to the Board of Revenue" into "Talook cutchery".	39-42
12-7-31	Agricultural Advances Increased demand for. To the Board of Revenue. Represents that a larger amount is required for making advances on account of the high prices and the urgent necessity of executing repairs to the channels.	42-5

Date.	Abstract.	Page number.
27-7-31	Heath, Mr. J. M. Forest—Firewood contract. To the Board of Revenue. Mr. Heath proposes to secure the exclusive right of transporting wood by water from certain jungles situated in the Sheally taluk. His object is to assure a sufficient and permanent supply for his ironworks at Porto Novo. Since the rights of the mirasidars will not be infringed by the monopoly the Collector recommends his application.	48-9 188
18-8-31	Jamabandi F. 1240—Report. To the Board of Revenue. (See Reprint 241/1-13.)	52-64
1-9-31	Tahsildari Schools Statement.	69 189
8-9-31	Revenue Sales Proposals. To the Board of Revenue. Forwards a statement of lands advertised for sale. It is likely that sales will not take place in a large number of cases because the mirasidars are quite competent to pay their arrears and only withhold payment until they are forced to make it. The late orders of Government cancelling several sales of land have created an impression in the minds of the people that it is not lawful to sell the lands for arrears of revenue. This notion can be removed only by bringing to sale a few parcels of land.	71-4
29-9-31	Dasara Attendance of European officers. To the Resident. 1. Represent that himself and his assistants are reluctant to attend the festival which falls upon the Sabbath. Desires that the Raja should fix another day to receive them. 2. States that to attend on the Sabbath will amount to offering a public mark of disrespect to the day.	77-8 80
24-10-31	Extra Revenue F. 1240. To the Board of Revenue. 1. There is a net decrease of Rs. 1,08,249 which is chiefly caused by the reduction in the sales of salt. The latter is attributed to the manufacture and sale of earth salt in the inland districts and the use of the parah at the Madura salt pans. 2. The sayer rent was Rs. 66,583 less than that of fasli 1239.	83-94
11-11-31	Travellers Posting of bearers. To the Collector of South Arcot. States that Sheally is the first station on the northern side of the district at which bearers are procurable. Previous notice is necessary to prevent delays to travellers.	99
12-11-31	Raja of Tanjore Examination of the Collector's accounts. To the Resident. Contents that the 13th article of the treaty does not authorize the Raja to examine all the accounts but only such as are necessary to calculate the Raja's share of the revenues of the Province.	100-3

Reports that a suit has been filed by Vencatrow in the Provincial Court against the Collector and several of his subordinates for the recovery of the value of 1877 calams of paddy being the produce of the villages of Tembaray and Peruvalandan purchased by him at public sale which was cancelled by Government.	113-4

16-1-32	Shrotriyam—Exchange of lands. To the Board of Revenue. Saminada Mudali, late Sheristadar of the Zillah Court at Kumbakonam was granted 50 valies on shrotrium tenure in the village Paliapoliem. He being now dead, his sons request that they may be allowed to exchange this land for 50 valies in Pootoor village, chiefly because the land in Paliapoliem cannot be irrigated without great expense. The Collector recommends the petition.	3-8 177
	Ryotwari Settlement	
21-1-32	Pattas. To the Secretary, Revenue Department. The individual puttahs show all the lands held by the individual. The puttahs are distributed annually between January and April. No security is taken from the ryots, the lands being in general sufficient security for the Government demand.	9-11 178-96

	Frontier Disputes	
17-2-32	Pudukottai.	15-7
21-2-32	To the Resident. Does not accept the Resident's plan for adjusting the boundary disputes. Disputes involving water channels should be decided by the Resident and the Collector. Native panchayats may settle disputes which are not important. Two members may be chosen by each village in all cases of dispute. The four members thus elected will choose their President from one of the two villages. The arbitrators should be ryots owning landed property.	19-20

	Village Officers	
23-2-32	Remuneration—Proposals. To the Board of Revenue. 1. There is no village officer corresponding to the potail of the Coimbatore district. The curnum is all in all in Tanjore, instead of being merely the accountant. Village munsifs were appointed in 1816 but they were not remunerated and have scarcely exercised any authority over the people. 2. The post of the potail or puttah monigar should be created. The curnum should be subordinate to him and should concern himself only with the accounts. The Taliar should be made a Government servant and should receive his pay through the puttah monigar. 3. To pay these village officers according to the produce of their villages will be to pay some people more and some less than they deserve. The Collector proposes a scale of pay for the putta monigars and curnums managing from Rs. 7 to Rs. 44 per annum according to the extent of their soduntrams. The curnums will be paid 6 to 7 rupees per month. The remuneration payable to all these servants will amount to 5 per cent. of the gross beriz of the Province.	21-31

4-4-32	Employment on revenue duty—Objection to. To the Officer Commanding, Negapatam. Condemns the practice of allowing sepoy to help the revenue servants in collecting the revenue especially from troublesome persons. As the system is prohibited the Collector desires that strict orders may be issued to the native officers not to allow their men to proceed on this duty.	39-40
	S.P.G. Mission	
24-4-32	Lands in Tanjore—Statement. To the Board of Revenue. Forwards a statement showing the various pieces of land held by the mission, and also the translation of a grant given by Mr. Harris for such lands.	41-3 206-9
	Padremcotah Poligar	
24-4-32	Succession disputes. To the Board of Revenue. The late poligar died on his way from the Jail at Kumbakonam before he was transported according to the verdict of the Foujdary Adawlut. He has left behind him an infant son, whose claims are disputed by his mother and brother. The poliput is at present placed under the Tahsildar.	43-5
	Aycut and Merah Maniyams	
31-5-32	Disposal of arrears of. To the Board of Revenue. 1. These maniyams are enjoyed by temples, chatrams, mosques etc., and people attached to such institutions. The native Governments appear to have retained and exercised the power of resuming them partly or fully as is seen from the fact that a large number of maniyams held on perpetual sunnuds are paid only in part.	50-61 210-27

Date	Abstract.	Page number.
	Ayut and Merah Maniyams—cont.	
	2. Mr. Cotton treated them as life pensions and did not allow anybody to hold more than one maniam. Large sums are now in deposit for want of claimants. The Collector suggests that Mr. Cotton's principle may be followed in paying these maniyams. Claims over two years should not be paid. The surplus of the temple allowances should be utilized towards constructing roads and other public works.	
	3. Statements showing the arrears are appended.	
15-6-32	Padremcotah Poligar Management by Court of Wards. To the Board of Revenue. Proposes Rs. 35 for the mother and child and Rs. 50 for the rest of the family. The Tahsildar will manage the affairs of the Poluput with the help of an establishment costing Rs. 36 per mensem. The annual peshcush is Rs. 1,097.	66-8 223
25-7-32	Settlement Fusly 1242—Cultivation Hookumnamah—Specimen.	75 229-33
4-8-32	Vallam Fort European cemetery.	77 233
18-8-32	Irrigation Works Contribution from inamdars. To the Board of Revenue. Inamdars are usually obliged to supply their quota of men per valy for executing works by which they will also be benefited. This rule does not apply to works of general advantage, such as anicut or clearing of rivers.	78-9
31-8-32	Jamabandi Report F. 1241. (See Reprint 242/1-12.)	80-110
11-9-32	Order of Precedence Collector and Zillah Judge—Dispute. To Government. Reports that the Zillah Judge considers himself entitled to take precedence of him on the ground that a Judge always takes precedence of a Magistrate. Mr. Kindersley is of the opinion that he, as Principal Collector, should rank with the Judges of the Provincial Court.	114-7
14-9-32	Treasury Guards Statement of.	119 235
18-9-32	Unauthorised Inams Resumption of—Suit in the Zillah Court. To the Board of Revenue. The inam, being unauthorized by the Board or Government was resumed.	121-2 236-7

Date.	Abstract.	Page number.
18-9-32	Extra Revenue F. 1241. To the Board of Revenue. 1. The total revenues amounted to Rs. 9,18,986, being Rs. 32,860 below those of the last fusly. 2. The decrease is chiefly in the sales of salt caused by an absence of demand from the inland districts where earth salt is manufactured. Besides, the use of the parah at the Madura pans induces the merchants to resort thither for their supply. 3. There is an increase in the sale of sayer rowanahs consequent on the amani management of the sayer revenues.	123-9
4-10-32	Frontier Disputes Pudukottai. To the Resident. Complains that the villagers of Pudukotah have erected several dams across the Ponpathy river and that the inhabitants of several villages in the district are thereby cut off from their supply of water.	131-2
13-11-32	Revenue Sales Of lands—Statement.	139 ✓
17-11-32	Frontier Disputes Pudukottai—Kangudi village. To the Resident. Contentds that the channel irrigating the lands of the village of Cangoody in the Tanjore district is clearly of long standing and that the lands have always been irrigated by that channel. The survey accounts also prove that the lands in question are part of the British territory. Desires the Resident to intercede with the Raja and prevent a reference to Government.	248-51 139-46
9-11-32	Suit against the Collector By Iyah Mudali. To the Board. 1. Forwards complaint and draft of the answer proposed to be filed. Iyah Mudali claims to be the person to whom the lands, ordered to be restored by Government, should be restored. On the other hand there is evidence to show that though he was in possession of the lands he had declared in writing that he had transferred them to Ganapathy Iyen. 2. Represents that the lands were under attachment at the time of the sale by which Iyah Mudali became the proprietor of the lands.	137-8 238-47 157-60

Desires to know whether the general exemption from import duty is to be extended to the rice exported overland by the French Government from Karikal to Pondicherry. Normally, it has to pay 10 per cent. when entering Tanjore district and 3 per cent. when entering Pondicherry.	165-6

12-2-1833	Execution by Village Munsif—Period allowed. To the Judge of Kumbakonam. Represents that a recent order of the Sudr Adawlut has been misunderstood by the village munsif who, in consequence, refuses to execute decrees after the expiry of 3 months.	7-8
	Public Servants	
25-2-33	Damages—Acts done in official capacity. To the Board of Revenue. 1. In connection with a decree passed against Tahsildar Arnachelum Pillay by the Provincial Court the Collector forwards a statement showing 32 instances, in which public servants have been sued for damages for acts done by them in their official capacity. Such suits are encouraged by the decision of the Provincial Court. 2. If each mirasidar is to be treated as a 'proprietor' it will be very difficult to collect the revenue without issuing notices to them etc. The regulations framed for the permanently settled districts cannot be applied to unsettled districts. 3. In the case of Arnachelum Pillay there is reason to think that there was some animosity between him and the Mirasidar Chinniah Mudali, and that the former showed no forbearance in executing his duty. The Collector recommends that the damages ordered to be paid by Arnachelum Pillay may be paid by Government.	9-15 105-13
	Suit against Collector	
8-3-33	Complaint and answer. To the Board of Revenue. Forwards copies of the complaint and the answer proposed to be filed in the suit instituted by Kuchana Naik for allowing him entire control over certain lands belonging to Chendrasekhara Pillayar Koil in Ayyampettah. The Collector contends that the plaintiff did not produce his title at the time and that the native Government had always exercised the right of selling the paddy on behalf of the temple.	18 114-25

6-4-33	Late Diwan of Travancore—Suit against Government—Draft answer. To the Board of Revenue. Submits a draft of the answer proposed to be filed in the Provincial Court. The arguments are the same as were used in the suit filed in the Zillah Court for the recovery of the village of Tembarah. The suit is defended mainly on the ground that the sale was irregular, having been made without the permission of the Board of Revenue, and that the arrears for which the village of Paruvalandan was sold had been ordered to be written off. It is therefore contended that Government were in the right in cancelling the sale.	23-4 127-31
	Joint Leases	
9-4-33	Pattas and Muchilkas—Specimens. To the Board of Revenue. In 'Kattuguttakai' or joint leases puttahs are issued jointly to all the mirasidars of a village. The muchilka is common for all the villages of a taluk, the head mirasidar of each village signing against the beriz of his village in the common muchilka.	24-5 131-6
	Famine Relief	
20-4-33	Measures taken. To Government. The distress is not so great as to drive the poorer classes to Madras or other distant parts. The labourers have found abundant work hitherto in the harvest. Relief is also afforded by construction of roads and other public works.	29-30
	Public Servants	
11-5-33	Damages—Acts done in an official capacity. To the Board of Revenue. 1. Replying to the Board the Collector says that Arnachellum Pillay distrained the property of Chinniah Mudali but that it is the usual practice in the district for a tahsildar to distrain property without the previous sanction of the Collector. However, he always makes a report of such distraint. No sales are even made without the Collector's permission. 2. In the Collector's opinion the tahsildar only discharged his duty.	37-8

2-8-33	Suit against Government Venkatrow, late Diwan of Travancore—Decree of the Provincial Court. To the Board of Revenue. 1. The court considers in the first instance that the sale was legal and therefore ought not to have been cancelled by any authority. 2. Secondly, the Collector had no right to authorize the tahsildar to forcibly take the plaintiff's paddy and distribute it to the poracoodies merely because they complained that they had not received their waram. It is also proved that they were actually paid more than what was due to them. 3. The court, therefore, decided in favour of the plaintiff and directed the Collector to pay the value of the grain attached and sold by his order.	10 83-96
10-8-33	—To the Board of Revenue. 4. The Collector remarks as follows upon the decree. 5. The court went out of its way in declaring the sale of the lands to be regular, because the point at issue was regarding the produce of a particular year. 6. Again, the court has declared the proceedings of the tahsildar to be illegal. Nevertheless it has accepted the decision of the panchayat appointed by him. 7. The Collector states that two more important documents have been discovered since the decree was passed and that if an appeal were to be made those two documents would support the action of Government.	11-21
26-8-33	Backyards From Nagore and Negapatam—Exemption from tax. To the Board of Revenue. Recommends that exemption may be granted as such backyard and gardens have been always exempted from payment of any tax.	23-5 97-8
4-9-33	Season Report Drought. To Government. The season is the worst that has ever been known in the district. The cultivation has entirely failed.	30-1
5-9-33	Suit against Government Venkatrow, late Diwan of Travancore. To the Board of Revenue. 1. Forwards a copy of the reply filed by Venkatrow in the suit instituted for the recovery of the village of Peruvallandan, and requests the Board to draft a rejoinder in consideration of the importance of the suit. The whole question turns upon the applicability of Regulation XXVI of 1802 to unsettled districts. If this were to be established Venkatrow's case will collapse	31-2 99-105

Date.	Abstract.	Page number.
7-9-33	Suit against Government—cont. To the Board of Revenue. 2. Forwards a copy of a similar reply filed by Venkatrow in the Zillah Court for the recovery of the village of Tembarah.	32-3 106-11
11-9-33	Season Report Rainfall.	34-7
18-9-33	To Government.	
25-9-33	There were heavy showers in several parts of the district. There is also a considerable improvement in the freshes.	
27-9-33	Venkatrow Late Diwan of Travancore—Suit against Government—Draft appeal. To the Board of Revenue. In his appeal to the Sudr Adawlut the Collector does not prove the illegality of the sale, but merely tries to prove that the 2 letters written by Venkatrow clearly show that he did not consider himself to be the owner of the grain. The Collector also appeals against the price ordered to be paid for the grain, which is very high. The illegality of the sale will be proved if necessary.	37-9 112-20
9-10-33	Jamabandi Report F. 1242. To the Board of Revenue. The revenues show a net increase of Rs. 2,52,756 above that of fasli 1241. The season was exceedingly unfavourable for cultivation, yet the great demand for rice from Madras raised the prices about 30 per cent. above the standard and thereby enabled the mirasidars to pay their dues. Remissions have been comparatively few, and collections very fair.	41-55
17-10-33	Jamabandi F. 1241—Explanatory remarks. To the Board of Revenue. (See Reprint 242/64-5.)	56-9
23-10-33	Extra Revenue F. 1242. To the Board of Revenue. 1. The extra revenues amount to Rs. 8,92,969, being Rs. 26,017 below the revenues of fasli 1241. 2. There is an increase in the total value of the sales of salt though there has been a decrease in the demand for salt from the interior and for export overseas. The quantity supplied to Tranquebar shows a steady decline, which can be attributed only to clandestine supplies from Karikal or some other source. 3. The sayer revenue is almost entirely rented, and has produced more than Rs. 14,000 when compared to the revenue derived under amani in fasli 1241.	61-7
22-11-33	Irrigation Repairs Charges on the Raja. To the Board of Revenue. 1. In reply to the suggestion of the Court of Directors that the repairs should be executed by the Collector and the cost recovered from the Raja, the Collector says that	68-70

	the repairs have always been carried out by the Collector and that the costs are deducted from the general revenues before calculating the Raja's 1/5th of the net revenues. Therefore, there is no necessity to alter the existing system.	
	2. The Collector also states that it is impossible to allot part of his duties to the Resident without detriment to the latter's dignity.	
	Letters to the Board.	
	1834.	
	Remission of Assessment	
4-2-1834	Proposals.	8-16
	To the Board of Revenue.	145-50
	1. The Collector reports that there has been a failure of both the car and the peshanum crops and that it is necessary to make remissions to the mirasidars. Hitherto no remission has been allowed upon the car crop, because depending as it does upon the freshes in the Cauvery it seldom fails.	
	2. In wolungoo rented villages it has been the practice to allow remission for failure of the peshanum by resorting to a division of that crop and commuting the Government share at the average of the price for the 6 preceding months. In such instances an addition of 20 per cent. is made to the village standard grain for the car crop on account of the loss which Government suffer in the other crop.	
	3. This practice will impose a hardship upon the mirasidars in the present season when the car has been a failure and the peshanum is almost certainly likely to fail. The Collector therefore reports that he persuaded the mirasidars to cut their car crops at their own risk on the promise of obtaining the sanction of Government to remit the usual 20 per cent. upon the car beriz, in the event of the peshanum crop coming under a division.

21-11-34	Misconduct—Operation of Reg. IX of 1822.	98-102
	To the Board of Revenue.	
	The regulation is decidedly good, but it is rendered unnecessarily severe by the operation of the orders passed by Government prohibiting the re-employment of persons dismissed for corruption. In a department in which no native servant is said to be honest the operation of this order will remove from public service very many efficient people. It may be said that the punishment may be limited to fine only. But this will not answer the purpose because people do not believe that a culprit has been punished until they see him removed from the service.

	Jamabandi Report	
25-11-34	F. 1243.	105-22
	To the Board of Revenue.	
	1. There was a decrease in the area under cultivation owing to unfavourable season.	
	2. High prices have compensated the mirasidars for their losses to some extent. Still remission had to be made in 510 villages out of 4,327. In wolungoo rented villages remission was allowed by reaping the crop and dividing the produce, when the estimated produce fell 70 per cent. below the standard.	
	3. The Collector recommends that in the years in which the current price does not exceed the standard price 20 per cent. ought to be the minimum decrease in the produce which should entitle the mirasidar to remission. By raising this percentage to 30 the mirasidars are bound to suffer a loss.	
	4. <i>Remission.</i> According to the orders of Government no remission has been allowed in the ryotwari settled villages. The Collector, however, disagrees with the view taken by Government and considers that the benefit of remission should be common to both the ryotwari and the wolungoo rented villages, because the beriz in each case is based upon the average produce. "No description of assessment the foundation of which approaches to one half the average produce of ordinary seasons can be enforced" where wet cultivation predominates and irrigation is so uncertain from week to week. Finally the puttahs issued to the mirasidars under a field assessment makes it obligatory on the part of Government to allow them remission.	
	5. The total revenues of the district amount to Rs. 48,77,401, showing a net increase of Rs. 1,88,048 above the revenues of fasli 1242.

	(c) whether the backyard may be sold along with the house; and	
	(d) whether the house may be pulled down and sold piecemeal.	
	2. Requests that definite orders may be issued regarding the procedure to be adopted for revenue recovery under the ryotwari system.

	1. There is a net increase of Rs. 4,876.	
	2. The sale of salt for the interior districts has increased owing to the practice of measuring by the parah at the Madura pans. Tranquebar has also been supplied with a large quantity. A corresponding fall in the supply to Karikal confirms the suspicion that the Danish Government were drawing their supply from Karikal.

The sunnud granted by Mr. Campbell was not authorised by the Board of Revenue. It was upon this ground that the inam was resumed by Mr. Kindersley. The Judge, however, declared that one Collector has no authority to cancel a grant made by another.	
3-4-35	—To the Board.	14-5

2-7-35	Temple Managers Appointment of. To the Board of Revenue. States that in Tanjore it is the practice of the madams or monasteries to appoint persons from their establishments to be the Tamburans or managers of the temples under the control of the madams. The Tamburans have the general control of the affairs.	35
24-7-35	Venkatrow Late Diwan of Travancore—Suit against Government—Decree of the Provincial Court. To the Board of Revenue. 1. Forwards copy of the decree in favour of Venkatrow. The village of Peruvalandan is ordered to be returned to Venkatrow on the ground that the sale was just, fair and legal and that Government have not in any regulation reserved to themselves the power of annulling a sale made by their Collector. 2. The court decided that Regulation XXVI of 1802 applies only to districts permanently settled and that the sanction of the Board of Revenue required therein need not be obtained for the sale of lands not permanently settled. Venkatrow's relationship to the head sheristadar was not considered to be proof of collusion.	42 159-72
29-7-35	Nannilam Tahsildar Suspension of. To the Board of Revenue. Reporting upon a petition received from one Parimanata Pillay who complains that his offer to rent two devasthanam villages was not accepted, though it was the highest, the Collector says that the Tahsildar, who was directed to consider the offer, fraudulently concealed it and submitted another offer from one Iya Mudali for a reduced rent. Some people in the Collector's cutcherry are also suspected to have connived at the fraud. The tahsildar has been suspended.	43-51 173-97
8-8-35	Venkatrow Late Diwan of Travancore—Suit against Government—Decree of the Zillah Court. To the Board of Revenue. Upon the strength of the decree of the Provincial Court in a similar case the Judge decided that the village of Tembarah should be restored to Venkatrow.	53 197-8
1-10-35	Potails Appointment—Collector's remarks. To the Board of Revenue. 1. Hitherto the appointment was nominal and no emoluments were attached to it. 2. If it is proposed to attach lands to the office they should be made inalienable, except by the sanction of the Collector. 3. The potails should also be made liable to be suspended or removed at the discretion of the Collector. 4. The loss of influence in the village which may follow the sale of a large part of the potail's private lands should incapacitate him from holding the office.	67-9

12-11-35	Public Servants Damages against—Frivolous suits. To the Board of Revenue. 1. Forwards copies of the plaint and draft answer in a suit filed against him for damages sustained by the plaintiff, mirasidars of a village, by the destruction of a sluice. 2. In this connection the Collector represents that there is a general tendency to defy the authority of the revenue servants and to sue them for damages for several acts necessarily carried out in their official capacity. He desires that steps should be taken to put a stop to this growing spirit of insubordination among the people.	76-80 209-20

19-11-35	Tahsildars Control by Collectors—Proposals. To the Board of Revenue. Represents that the collection of the revenue depends upon the exertions of the tahsildars and that unless they are placed under the immediate control of the Collector it is impossible to exact the fullest amount of work from them. They should cease to look up to the Board as their superiors who would screen them from any punishment that may be inflicted upon them by the Collector. The latter should have power of appointing and dismissing them.	86-93
20-11-35	Jamabandi Report F. 1244. To the Board of Revenue. The season was very favourable in the beginning but an absence of timely rain occasioned heavy losses in several parts of the district. The remissions amounted to Rs. 92,000. The total revenues show a net decrease of Rs. 2,70,052.	95-107
24-11-35	Cotton, Tobacco, Chayroot etc. Answers to questions. To Government. 1. <i>Cotton.</i> The cultivation of cotton is impossible owing to the nature of the soil. 2. <i>Tobacco.</i> Tobacco of a superior sort is produced in and around Vedaranyam near Point Calymere. It is in great demand at Achin, Penang and other eastern ports. The soil is a light loam with a considerable admixture of sand. Brackish water is requisite for producing superior tobacco. Cowdung and the leaves of the 'kasa' tree are used as manure. The seed is sown in a seed bed and the seedlings are transplanted in November. Constant watering is necessary in the early stages of its growth. The appearance of red spots indicates that the leaves may be cut. Seasoning is carried out by alternately covering up the leaves by mats and exposing them to the atmosphere. The quality of the tobacco is liable to be injured by insects and rains at the time of cutting the leaves. Tobacco is cultivated	108 227-43

every year in the same field owing to the abundance of manure near Vedaranyam. One acre produces $4\frac{1}{2}$ candies worth about Rs. 180. Of this half goes to the cultivators and half to the mirasidar. The latter has to pay out of his share an assessment of Rs. 68 per acre. The growth of tobacco can be encouraged by finding a market for it and by reducing the assessment upon the lands producing it.

3. Senna and turmeric.

These are not cultivated on a large scale.

4. Chayroot.

Chayroot would be cultivated extensively if the tax upon it were reduced. The cultivation of chayroot is expensive. The seed is so minute that it cannot be gathered. The surface soil of a field in which it has been cultivated is strewn over a new field. The soil is exhausted by a single crop and the field must lie fallow for 4 or 5 years before it is fit for cultivation again.

5. There are 2 kinds of soil, viz., the sandy soil and the black soil.

6. Sheep and cattle are of the "most miserable description". Bullocks are imported from Salem, Coimbatore and Trichinopoly. There are no pasture lands in Tanjore.

Extra Revenue

30-11-35

F. 1244.

109-19

243-4

To the Board of Revenue.

1. There is a net increase of Rs. 11,086 above that of fasli 1243.
2. The sales of salt may be improved by putting down the manufacture of earth salt in the interior. At present the penalty is only confiscation. If the informer were to be given the value of the salt so confiscated the manufacture of earth salt can be easily put down.
3. The sea customs revenues show an increase owing to the re-imposition of the duty upon paddy and rice. The moturpha shows a decline owing to the gradual diminution of the number of looms.
