The Raja states that in spite of his amuls the people of the villages of Vagoor, Mooroor, Yelnampatty and Arshengoody in the Trichinopoly country are planting derbs on the south bank of the Venar river which will only tend to weaken it. The Governor is therefore requested to obtain from the Nabob an order preventing the people of Trichinopoly from planting the weeds in that place.	101-3
	Rymut Khan

Ram and Schwartz for it was their intention to provide him with a separate place for his accommodation. 1-2-98	Government Paddy Difficulties of sale. 1. From Mr. Macleod to the Raja representing the difficulties that still exist in the sale of paddy. He points out that the principal complaint is that the price of paddy is suddenly raised to 4½ measures per Tanjore fanam and that no paddy but that of the Circar's is allowed to be sold and at a particular place. His request therefore is that the Raja would issue such immediate orders as might produce a "ready and equitable sale of paddy by tomorrow noon." 2. The Raja replying to Mr. Macleod remarks that paddy is scarce because there is no water in the rivers or tanks. That the Circar paddy should be first sold is a common practice observed also in Trichinopoly. In order that the Circar may not be deprived of its profits, the paddy is not sold in the market on account of the disturbances caused by the Company's sepoy who plunder the merchants' paddy. 3. If the present guard be replaced by a more orderly one and if he can be assured that no disturbances are likely to be created in the future, the Raja would not hesitate to order the sale of paddy without causing any difficulty to the Company's servants.	181-2 187-8

	Serfojee	
9-2-98	Allowances. 1. From Mr. Macleod to the Secretary to Government observing that the Raja persists in his refusal to allow Serfojee a place within the palace suitable for storing his allowance of grain, even though the latter offers to carry out the repairs to the place at his own expense.	293-300

	Serfojee—cont.	
	2. As regards the arrears of allowances due to the heir presumptive the Raja has not yet discharged them. Such being the present disposition of the Raja towards Serfojee, Mr. Macleod requests the issue of immediate orders "inducing the Raja to allow of the repairs and removal of the grain out of the Company's granary."	
	Jurisdiction	
10-2-98	Mannargudi Subah. From the Raja to the Governor expressing his surprise at the decision of the Board that he is not entitled to the possession of the sea coast villages of Muttupetah and Tuljapatnam forming part of the Mannargudy subah. The Raja endeavours to point that the Board's decision is erroneous and that the posts should be made over to him along with any revenue that might have been collected after the date of their assumption by the Company.	301
	Macleod, Mr. Alexander	
10-2-98	Raja's accusations against. From the Raja to Mr. Macleod complaining that he removed the guard at the entrance to the residence of the Queen Mohanabai Saheb and placed a hircarrah and a chubidar in his room as a result of which the Bai Saheb's people are prevented from going out and the cattle are starving; and that he has disgraced and defiled the Brahmins who were sent to him in order that he might compel them to clear off the debts due to an individual named Ayyan Chetty.	305-9
	Suit	
10-2-98	Venkatasubbiah and Krishniah. From Mr. Balmain to Mr. Macleod forwarding certain papers relating to an action against Venkatasubbiah, a puttackdar under Mr. Balmain brought by Krishniah. He remarks that the defendant's presence at his cutcherry is essential at the present season of general collection and requests therefore to have Krishniah sent to his cutcherry where he will endeavour to mete out "strict justice" to him and at the same time obviate the inconvenience and difficulty of Venkatasubbiah being taken away from his duties.	313-39
	Serfojee	
-2-98	Allowance of paddy. From Serfojee to Mr. Macleod stating that last year his allowance of paddy was supplied from the Company's granary at the Fort. The quality was so bad as to injure the health of his servants. He therefore requests that the allowance of grain for the current year might be measured out partly from the Mayavaram subah, preferably from the village lying near Bai Saheb's chattram at Tirupovanam and partly from a village of the Mannargudy subah in the vicinity of the Fort.	335
	Schwartz, Rev. Mr.	
13-2-98	Death reported. 1. From Mr. Macleod to the Governor in Council reporting the death of the Rev. Mr. Schwartz which took place at Tanjore at about 5 o'clock in the evening that day.	357
14-2-98	2. From Mr. Macleod to Serfojee enquiring whether it would be convenient for him to attend the funeral of the Rev. Mr. Schwartz. If so he will meet him at his bungalow a little time before proceeding to the place where the ceremony is to be conducted.	357-A 357-B

	Macleod, Mr. Alexander	
14-2-98	Raja's complaint against. 1. From the Raja of Tanjore to the Governor observing that the Brahmins of Vistnupuram owed a certain sum of money to Ayan Chetty. Mr. Macleod, having taken upon himself this demand, confined the Brahmins, flogged them and kept them fasting for about five days and above all set them upon asses and made them go round the village. 2. The Raja points out that the Resident thus "interferes in the differences between his subjects, takes their claim upon himself, seizes, imprisons and punishes at his pleasure." This, the Raja believes, cannot fail to bring about a state of affairs by which "the Company's credit will be lost, and the Princes of India and others accustomed to confide in them will lose that confidence for the future which would be a great disgrace to the Company." 3. He therefore requests the immediate removal of Mr. Macleod which alone would enable him to live happily under the Company's protection and that the Governor-General at Calcutta be informed of the contents of the letter by furnishing him with a copy of the same.	359-61
	Suit	
15-2-98	Venkatasubbiah and Krishniah. From Mr. Macleod to Mr. Balmain. Alluding to the action brought against Venkatasubbiah by Krishniah, Mr. Macleod observes that it could not be tried at Mannargudy although the former is a principal puttackdar of that place, because a cause against him of greater importance has to be investigated at Tanjore. He therefore states that the defendant cannot be allowed to remain in Mannargudy as desired by Mr. Balmain.	363-5
	Serfojee	
15-2-98	Bills.	367
16-2-98	Raja's complaint against. From Mr. Macleod to Serfojee informing him that the Raja complains against his people having killed a tiger which was surrounded by the Raja's people who were ordered to keep watch over it till he could arrive on the scene to shoot the beast.	369 371

	Raja	
18-2-98	Dues to the Company. 1. From Shambajee Triumbuck, Vacqueel to the Raja of Tanjore to Sir George Staunton. Two of the subahs are under the Company's management and though the Raja has been endeavouring his best to pay off the kists to the Company in accordance with the treaty his efforts are fruitless. 2. The Governor however agreed to the payment of the kists due to the Company from the revenues of the remaining subahs of Trivady and Pattukottah and the kists for the three months—November, December and January have been paid accordingly. 3. After the restoration of the country the Governor compelled the Raja to sign a treaty and seized three subahs, the Company's Collectors of which by their ignorance and extravagance brought the Raja to be a debtor to the Company to a very large sum. The Company did not give up the country according to the Treaty of 1792 and the balance of the collections after deduction of the Company's money	379-98

	was not carried to the credit of the Raja. In 1796 Lord Hobart "unjustly seized the country, made the collections" and settled a large balance on the hands of the Raja. The Vacqueel observes "thus in every possible way he injures us and meditates our ruin."	
	4. Mr. Staunton is particularly requested to obtain an injunction from the Company to the Government of Madras directing them to remove the Resident and to permit the Raja, Amersing, to adopt a son, which would give immense satisfaction to the Raja who confidently relies upon his exertions in England for the accomplishment of these objects.	
	5. The Vacqueel endeavours to impress upon Mr. Staunton that owing to the diminished revenue every year, consequent upon the low price of grain it was found necessary by the Raja to borrow large sums of money for making payments to the Company and meeting the expenses of the Raja's household. Mr. Staunton is desired to represent these circumstances to the Raja's creditors in England and persuade them to believe that the Raja is straining every nerve for the "effectual diminution" of his debts.	
	Suit	
19-2-98	Venkatasubbiah and his brother's wife.	399-402
	1. From Mr. Balmain to Mr. Macleod forwarding a declaration from Venkatasubbiah, defendant in a suit brought by his brother's wife. Mr. Balmain remarks that the plaintiff has not put in a public declaration in reply to the first statement of Venkatasubbiah and should she continue to be silent, even in regard to this second declaration he considers her attitude would be a tacit acknowledgment of the justness of the facts contained therein.	
19-2-98	2. A representation from Venkatasubbiah to Mr. Balmain stating that the house claimed by the widow of his deceased brother was purchased and paid for by him (Venkatasubbiah) and that he has cadjan receipts in support of his statement; that the claims of the widow is thoroughly unfounded and requesting Mr. Balmain "to settle the matter with justice and agreeable to the laws of his caste."	407-9
20-2-98	3. From Mr. Macleod to Mr. Balmain replying that the Raja having taken steps, on the receipt of the widow's petition, to procure the appearance of Venkatasubbiah he believes he would proceed with the investigation of the case in a manner consistent with the Hindu Law.	411
	Butler, Mr.	
21-2-98	Raja's complaint against.	415-8
	1. From Mr. Macleod to the Officer Commanding at Tanjore stating that the Raja complained against the conduct of Mr. Butler, the Fort Adjutant for the following reasons. Certain Guzzerat merchants having a legal claim of debt against Aliff Khan, a sentry at the palace gates, arrested him in a lawful manner and were taking him into the palace to the cutcherry when Mr. Butler intervened and set him free.	
	2. The Raja considers Mr. Butler's conduct on this occasion improper and holds him answerable for the amount of the debt due to the merchants.	
	3. Mr. Macleod remarks that when violence is being committed it is the duty of every man to put an end to it but the mode of seizure of one of the Raja's subjects adopted on the occasion in question would tend to a violation of "the

	Raja's most essential rights" and that he is inclined to protest against such a proceeding. He concludes by observing that every one should doubtless bear in mind that "in the event of His Excellency refusing to do justice Government is the only power that can do what may be necessary on the occasion."	
	Raja Bai Sahib	
20-2-98	Allowances.	435-51
	1. From Rajaboi Saheb to the Governor Lord Hobart stating that a large amount of the allowances due to her and to her son Serfojee, received by the Resident from the Raja has not been paid to her for a long time, in consequence of which they are reduced to a state of embarrassment; that she and her son are willing to come back to Madras for they find their life at Tanjore too troublesome.	
	2. But should this be impracticable she would desire to receive her allowances from the hands of the Company's Paymaster at Tanjore. She requests His Lordship the Governor, prior to his departure from Madras for the assumption of the office of Governor-General at Bengal, to be pleased to issue the necessary orders conducive to her "safety, subsistence and comfort."	
	Military Supplies	
22-2-98	Sheep.	455

	Sepoys	
23-2-98	Ill-treatment of.	457
	1. From Mr. Macleod to the Officer Commanding at Tanjore stating that the Commanding Officer of the 36th Bn. has but too much reason to complain of the ill-treatment of some of the sepoy on various occasions. He remarks that in two instances last year, of cruel assaults made on sepoy who went about the country collecting sheep for the garrison, the offenders have been left unpunished.	
...	2. From the Officer Commanding to Mr. Macleod forwarding a letter received from Maj. Innes complaining that the officers and men of the corps are assaulted, robbed and insulted with impunity for some years past and stating that as no adequate redress is obtained at the hands, the matter should be placed before Government.	465-71
	Military Supplies	
23-2-98	Sheep.	473
	From Mr. Macleod to the Officer Commanding H.M. 12th Rt. at Mayavaram informing him of the steps taken to have the supply of sheep ready at Kumbaconam against the arrival of the Regiment at that place on the 20th instant on its way to Tanjore. (Original draft.)

	Grain	
30-2-98	Disturbance at sales—Raja's complaint. 1. From the Raja to Lord Hobart the Governor representing that the grain is scarce this year and that the sepoys under Maj. Innes appearing at the place where paddy is sold create a disturbance, plunder the grain and disappear. 2. The Raja observes that Mr. Macleod has not risen to the occasion and if such a state of affairs continues his resources will be considerably reduced. He therefore requests the Governor to give "strong injunctions to the Resident to prevent any one from interfering in his business and particularly in the sale of grain."	527-9

	3. In regard to obtaining the supply of paddy allowed to Serfojee, partly from Mayavaram and partly from Mannargudy, Mr. Macleod remarks that perhaps Mr. Grant would be able to procure the whole of the paddy required from his subah of Mayavaram.	
14-3-98	4. From Dattajee observing that Mr. Macleod is up to various stratagems to deprive his master Serfojee of the arrears of his allowances and desiring that steps may be taken to procure the allowances due to him lest he should lose it.	549-53

	Mayor's Court	
24-3-98	Jurisdiction—Raja's Vakils and Agents. From the Government to Mr. Torin enclosing a letter to the Raja wherein it is stated that, as regards the proceedings of the court against the Raja's vakils and agents, only the ambassadors are by the law of nations exempt from the jurisdiction of the civil courts where they reside and that this provision does not hold good in the case of the Raja's agents. It is therefore that Triumbuck Sambajee who alone is the accredited vakil of the Raja has been exempted from the service of process while the same privilege could not be extended to persons acting as mere agents of the Raja.	567-72
	Muthucaruppan	
27-3-98	Settlement of accounts. From Muthucaruppan, head maistry to Mr. Torin, Resident at Tanjore requesting that his accounts with Mr. Cockburn relating to some bullock people, might be settled as early as possible.	575-6

30-3-98	Serfojee Allowances. From Serfojee to Mr. Torin forwarding an account of the allowances received by him from Mr. Macleod and the balance remaining to be paid to him. 31-3-98	Paddy Fixing of price. 1. From Mr. Balmain to Mr. Torin soliciting his opinion regarding the price to be fixed for the car crop in his subah of Mannargudy, in consequence of the directions of the Board. He informs Mr. Torin that the Board considers that in fixing the prices to the several crops a certain proportion has always been observed between the different subans of the Tanjore country whereas from enquiry he has been led to believe that the price of grain throughout the district has in general depended upon the existing circumstances and not upon any particular scale. 2. He points out that the Board recommended to Government the same price for the car crop as that proposed by him but at the same time he has been desired to raise his low average price to 2 4/16 gold fanams per collum which he observes would bear hard upon the cultivators who are obliged to dispose of their share of the produce at an average of 1 gold fanam and 28 cash per collum. 3. Concluding Mr. Balmain observes that it is his intention to increase the revenues of the subahs under his management without oppression to the inhabitants and that any suggestion which Mr. Torin might make in the interest of both the Company and the inhabitants would be highly acceptable to him.	589-613
3-4-98	Serfojee Grievances against the Raja. From Serfojee to Mr. Torin reporting that himself and his mother find life too troublesome under the Raja who punishes the people who work for him or for his widowed mother, instigates the cavalgars at Tiruvayar to commit various acts by which they are made very unhappy and prevents his mother from being received at the temple and shown round the place. He concludes that it is the intention of the Raja "to vex his mother till she leaves Tiruvayar for Madras and seems to try how far he may carry his insolence, cruelty and oppression without your taking notice of it."	617-9
4-4-98	Frontier Disturbances Restoration of order. 1. From the Government to Mr. Torin stating that the Raja complains of disturbances being caused on the borders of the Tanjore country by the people of Alianoor in the Nabob's country and that the Nabob likewise complains that his "disaffected subjects find protection and shelter from the Poligars of Tanjore." 2. Mr. Torin is informed that the Nabob has been requested to put down these irregularities and prevent his amuldars and troops from entering the Raja's territory. With regard to the Nabob's allegations Mr. Torin is called upon to ascertain the true state of these disturbances by corresponding with the Raja and the Collectors in order that steps may be taken for the preservation of tranquillity.	621-31

12-4-98	Frontier Disturbances Nabob's complaint. From Mr. Torin to Mr. Grant enquiring how far the allegations contained in the Nabob's letter to Government against the Raja's poligars are well founded, and desiring him to seize such of the Raja's subjects as are guilty of the acts ascribed to them.	649-51
13-4-98 17-4-98	Correa, Mr. Robbery of property. From Mr. Correa to Mr. Torin requesting that steps may be taken for the recovery of the property belonging to him and stolen by a gang of robbers who broke into his room one night.	653-4 665

29-4-98	Car Paddy Fixing of prices. From Mr. Balmain to Mr. Torin soliciting his assistance in determining upon a proper price to be fixed for the car paddy in the Mannargudy subah with the approval of the Board and observing that from recent enquiries he is inclined to fix it at 3 gold fanams and 4½ cash per collam.	675-83
	Serfojee Rev. Mr. Gericke's advice to. 1. Stating that Lord Mornington the new Governor enquired of him about his character, conduct and capacity for work and that he replied to him on all these points in his favour. Mr. Gericke devotes a considerable part of this letter to advising him to bear in mind and act up to the exhortations of the late Rev. Mr. Schwartz. He points out that he could not better honor the memory of the deceased than by a rigorous practice of "humility, economy, self-denial and severe diligence." 2. He recalls the instructions of the late Mr. Schwartz that "a Prince must not be haughty and overbearing but condescending, shut up against flattery, open to good advice and conviction, having a proper regard to men of ability, probity and honesty, making no unnecessary	687-92

From Mr. Balmain to Mr. Torin forwarding a statement of the prices for the last month at which the samba and peshanum paddy was sold in the Mannargudy subah as well as a table of the prices of the same paddy sold in the bazaar at the present period. 	Serfojee	
9-5-98	Allowances. From Serfojee to Mr. Torin complaining that his allowance have not been paid to him regularly as a result of which he is reduced to a state of great distress and requesting him to order the payment of the whole of the arrears of his allowances as early as possible.	703
	Mayavaram Pattackdars	
16-5-98	1. From Mr. Balmain to the Board observing that the puttackdars and the chief inhabitants of the subah of Mayavaram have left the country without notice. He surmises that their exodus must be due to the dissatisfaction at the prices that he has recommended to be affixed to the sambah and peshanum crops which they consider as high assessments. 2. He recollects that they have recently complained that 2 cash has been collected upon every collum of the carr paddy more than was just and that they were afraid that the Board would urge Mr. Torin to assess an additional six cash upon that crop. 3. He remarks that this is the first time that the inhabitants have withdrawn themselves from the subah while under his management, though it was their constant practice to band themselves into foreign limits whenever they desired to gain any particular point while the country was under the control of the Raja. He points out that evils of this nature can only be got rid of by the establishment of a permanent Government which will overturn the present and adopt a new and a general system of management. 4. From Mr. Balmain to Mr. Torin, Resident at Tanjore on the foregoing subject and informing him of the steps taken by him to apprehend the fugitives.	705-9 713-4

18-5-98	Cullapalloor village—Dam. From Mr. Grant to Mr. Torin representing that certain people belonging to the Kumbaconam subah have made a breach in the dam in the village of Collapalloor. He requests that the matter be brought to the Raja's notice and the repairing of the dam attended to immediately so that the fertility of 120 valees of land in the vicinity may not suffer.	717-8

	Mannargudi Inhabitants	
18-5-98	From Mr. Balmain to Mr. Torin informing him that the inhabitants of Mannargudy have retired to the Raja's village of Sambangudy with a view to evading payment of assessment and requesting that the Raja may be moved to apprehend and deliver them to him.	727-8
	Tanjore	
17-5-98	Company's management discussed. From the Government to Mr. Torin stating that although the Governor in Council is convinced of the distracted state of the Raja's Government and the little probability of any intervention of the Company to effect any material change in beneficial consequences to the country while the present system continues, yet circumstances do not admit of the Government of the Tanjore country.	731-2
	Mannargudi Inhabitants	
19-5-98	Disturbances contemplated. From Mr. Balmain to Mr. Torin informing him that the pattackdars and the principal inhabitants of Mannargudy who have sought refuge in the Raja's territory in order to evade payment of assessment, are mobilising armed forces for the purpose of plundering the villages in the subah and that he has applied for an additional guard of sepoy to protect the Company's treasure and the grain belonging to the absconded pattackdars.	739-43
	River Banks	
19-5-98	Repairs to. From Mr. Balmain to Mr. Torin stating that it has never been the practice for the people of the subah of Mannargudy to carry out repairs to the north bank of the river between the villages of Vellacullody and Cheyamungalam.	747
	Mannargudi Pattackdars etc.	
20-5-98	1. From Mr. Balmain to Mr. Torin observing that if the Raja is only earnest about assisting the Company and making common cause against the absconded pattackdars of the Mannargudy subah, he will not hesitate to order the refugees to be delivered up to him (Mr. Balmain).	751-3
21-5-98	2. From the Government to Mr. Balmain asking him to warn the runaway pattackdars of the consequences of continuing in a state of insubordination and to make them believe that if they returned to their duty the Government assure them that every attention will be paid to any just complaints they may make.	755-6
	Sepoys	
21-5-98	Assault by inhabitants. From Mr. Grant to Mr. Torin on the subject of a Company's sepoy being beaten by the inhabitants. Mr. Grant remarks that orders of Government prohibit a single sepoy from being sent into the country on duty unless under a written requisition from the Collector and that in the present case no such orders have been obtained. He points out that if due attention had been paid to the Government order in question the affray would never have happened.	759-60
	Mannargudi Pattackdars	
27-5-98	From Mr. Torin to Mr. Balmain stating that about 43 of the absconded pattackdar sent a vackeel to him to represent their grievances and demanded a cowle, without which they declined to go to him. He observes that he will not answer them unless he hears from him and in the meanwhile states that he will endeavour to convince them of their folly.	763

7-6-98	Yalamagalore.	767-8
	1. From Mr. Grant to Mr. Torin observing that Tursaram Ayyan's brother is an inhabitant of Mayavaram and that he clandestinely disposed of a quantity of malwaram paddy in the village of Yalamagalore which he however promised to make good to the Circar by measuring out an equal quantity of paddy from his village in the Raja's subah of Kumbaconam. The grain was thus brought without any apparent opposition from the inhabitants and Mr. Grant wonders how this affair could give the Raja cause for complaint.	
14-6-98	2. From Mr. Grant to Mr. Torin remarking that Tursaram's brother maintains that he is the owner of the whole village in Cumbaconam—part of it gained by reversion on the death of his brother and part of it secured as a result of certain transactions with the inhabitants; and that his title to the village is unquestionably established by a shasanum in his possession.	779-81
	3. Mr. Grant observes that in taking possession of the grain from the village offered by Tursaram's brother no aggression was employed by his servants and that it was not his duty to enquire into his right to dispose of the grain in question but only to secure the revenue from loss. Under these circumstances Mr. Grant enquires how the Raja's complaint against him is justifiable while the matter is properly between the Raja and Tursaram's brother.

7-10-98	Keerangudy residents. 1. From Mr. Grant to Mr. Torin observing that the Raja still persists in the idea that he seized the grain at Keerangoody and that it is necessary to set the Raja right upon this point. He therefore explains that at Tursaram's brother's request, he directed the Company's servants to go to his village of Keerangudy in the Cumbaconam subah where he promised to deliver the grain said to belong to him in payment of the balance grain due from him to the Circar. The grain being measured out by him was taken possession of by the Company's servants and the matter being disputed by the residents of Keerangudy, an enquiry was conducted at Cumbaconam and a decision arrived at in favour of the Keerangudy people. 2. Mr. Grant states that he is willing to restore the paddy he took from that village, but if a greater quantity is demanded by the people, he points out that they must apply to Tarsaram's brother for the recovery of the same and promises to help them in this regard.	279-81

From Mr. Balmain to Mr. Torin stating that it has not been the practice during his management to send the Mannargudy inhabitants to Tanjore for the purpose of assisting at the Dasara festivities and should he now direct their attendance it would undoubtedly tend to retard the cultivation and to the neglect of the general affairs of the soubah.	319-20

18-10-98	Apprehension of. From Mr. Grant to Mr. Torin requesting that the cavalgar called Tiruvattangoody Naick might be apprehended as he is the cause of so many outrages, and the Raja's assistance may be applied for, for this purpose.	323

26-10-98	1. From Maj. Innes to Mr. Torin observing that, in regard to the caste dispute in which two sepoys of his battalion are involved, the Raja has been informed that he had made it a point not to interfere in the caste disputes, unless the sepoys by a violation of the rates of their caste had disturbed the peace of the garrison in which case they will be brought to a court martial and punished accordingly. 2. The Raja had been apprised that in the case in question it was clear that the sepoys were ill used and he appeared to be satisfied with the truth of it. In conclusion Maj. Palace Guards		
28-10-98	Raja's complaint. 1. From Maj. Innes to Mr. Torin suggesting that the Raja's allegations against the conduct of the palace guards are unfounded and that it would give him considerable relief if on every occasion of the Raja's complaint it were ascertained that it was true or otherwise before it be brought forward "which would save . . . much unnecessary trouble; otherwise there can be no end to this kind of correspondence."	361-9
31-10-98	2. From the Raja to Mr. Torin recounting the numerous instances when his servants or sepoys approaching the fort gates with open swords in their hands were either seized by Maj. Innes's men and the weapons withdrawn from them or they were otherwise illtreated. He requests Mr. Torin to put an end to these "insults and disgrace" offered to him by the "malevolence of Maj. Innes or of any other enemy."	373-6
30-10-98	3. From Maj. Innes to Mr. Torin observing that Mr. Torin has gone so far as to believe the Raja and desire Maj. Innes "to prevent such indignities in future." Maj. Innes is firmly of opinion that this indicates that he would have "little to expect from his (Mr. Torin's) impartiality." But he is confident in the justice of Government who would not hastily condemn an officer without a fair hearing.	377-8 381 385-6 389-92

Mr. Torin observes that the Raja considers that no reason can exist for placing the Company's sepoy at the palace gates any longer and that they must be replaced by his own troops. From Mr. Edmonstone, the Persian Translator to the Governor-General, to Mr. Torin remarking that, in regard to the use of the term 'Maharaj' in the correspondence from the Governor-General to the Raja of Tanjore, it could not be adopted because firstly no deviation could be made from the practice existing for many years lest it should be "drawn into a precedent" and secondly the superiority of the Supreme Government to the Madras Government would not admit of such a form of address as that used by the latter, viz., 'Maharaj,' and lastly it is the form of address employed by an inferior to a superior. 2. 10-4-99	Supply of. 1. From Mr. Lushington to Mr. Torin stating that the draught bullocks in his district of Ramnad are lean and feeble and that the practice of sending cattle to the army being thoroughly strange to them, they are prejudiced against supplying any and, that the whole supply required must be drawn from the villages.	93-5
10-4-99	2. From Mr. Hurdis at Motepallam to Mr. Torin desiring to know the person to whom the bullocks collected by him should be sent.	97

Such being the case, the Raja points out that the departure from the Fort, effected by Gadyrow, the dismissed Killedar, in a different manner is thoroughly improper.	
	2. Ramachandrarow Gady should be deprived of the cow tails and other emblems of honour conferred upon him by the Circar while he was in service and surrendered to the Raja, for it would be a disgrace to the latter if Gadyrow were allowed to parade them.	
	3. He concludes by observing that "Maj. Innes after being appointed to the command of this place encouraged and supported all these people and in consequence they forgot the respect that was due to the Circar."

	1. 18-4-99	2. From the Raja complaining to Mr. Torin that the Company's sepoy's are again preventing his servants from coming into the Fort and observing that if such misconduct on their part continues his dignity is bound to go down in the eyes of his people.	229-32

	Customs Exemption	
20-4-99	Ameersing Raja's articles. From Mr. Torin to Dattajee desiring that the Raja's orders might be obtained exempting the former Raja Ameersing's articles from the payment of customs, until the allowance to be granted to him is settled by Government.	305

	Amir Sing	
21-4-99	Raja Serfojee's remarks. 1. From Raja Sherfojee to Mr. Torin replying to the various grievances of the former Raja Ameersing. The Raja states that a greater quantity of rice is given to Ameersing than he had when he was on the throne and of the same quality as that consumed by him and his family. Regarding the exemption of his articles from the payment of custom urged by Ameersing the Raja points out that the former Raja's adherents go about the villages and obtain presents of fruits and other articles by persuading the people to believe that Ameersing would certainly be returned to the throne in a month or two. The Raja has therefore directed the custom renters to send one of their men to go along with the things that might be obtained on behalf of Ameersing and to stop such part of it as may be got without being paid for. The Raja says this is all that has been done. 2. As regards the charge brought against him that Ameersing has been deprived of his proper share of the cultivation of his own district, the Raja explains that the ownership of the district does not vest in Ameersing for it was originally granted by Raja Tuljajee to some people whose ancestors fell in battle fighting for him and that "Ameersing has no concern with it." In spite of this the Raja has "even given up the putticat to him (Ameersing)".	329-31
	Grain	
21-4-99	Fixing of price. From Mr. Balmain to Mr. Torin stating that the business of settling the price of grain is getting delayed and if he so desires he has no objection to sending his men to Tanjore to consult with those whom Mr. Grant might be asked to depute and the Raja's people, for effecting the purpose.	333-4

	Peshanum Paddy	
23-4-99	Fixing of prices. 1. From Mr. Balmain to Mr. Torin observing with regret that Mr. Grant's non-arrival at Tanjore should have postponed their consultation preparatory to the settlement of the price of the peshanum paddy. He remarks that, in regard to the Raja's sudden determination to fix the prices for his subahs, having deferred the business so long the further postponement of a few days would have caused no material difference. The effect of this would be to prolong the settlement of the price in this subah for some time and the creation of a considerable balance. He desires to know the prices fixed for Trivady and Cumbakonam and "the lights and explanations . . . relative thereto." 2. From the Raja to Mr. Torin stating that, a considerable time having elapsed without the prices of the peshanum and sambah paddy being settled and it being necessary that this business should be concluded before the 2nd of May, he has proceeded with the work and prepared an account of the prices of grain, which is enclosed. He points out that he has fixed the Circar price of the grain a little above the average of the prices shown in the account.	377-9 389-90

He observes that he has sent 200 carriage bullocks and 50 draught ones equipped with drivers and encloses the bullock maistry's receipt for 1,000 star pagodas advanced to him for the collection of bullocks.	413-5
Ramachandrarow Gaudy		
26-4-99	Claims—Raja's denial. From the Raja to Mr. Torin denying the claims made by Ramachandra Gaudy, the late killedar who was cashiered by the Raja, in regard to the wearing of the ornaments for the turband as well as other marks of distinction conferred on him by the Circar while in their service. He states that his demand for the arrears of full pay is inadmissible, for the other servants of the Circar only received a certain proportion of their salary, which proportion only of his pay he is entitled to draw. He points out that several times he has repaired the banks of the Vennaur river independently of any assistance from the Raja's subahs and that it is but fair that the Raja should in return clear away the sand from the Vettaur river. Mr. Balmain observes that Dattajee Appah has promised to do so but it has not yet been done.	675-6

He observes he would like to meet Dattajee on the work spot and discuss matters personally.	737-41

	Torin, Mr. B.—cont.	
	2. He remarks that the amount of the present payments to the Company may not be reduced, though it is almost impossible on the Raja's part to discharge them. Such being the case Mr. Torin would not feel sorry if the Company were to take the country under their management which is the only way to escape "from the disgrace which has fallen upon Ameersing and which must unavoidably fall upon him."	
	3. He points out that the Raja would be happier if the Company should allow him a large share of the revenue for his support and if their servants in his country were to pay him the honour due to his rank and dignity rather than he would be in the management of the country under the constant apprehension of failing in the payment of his kists and losing his honour and his credit.	
	4. He concludes by observing that if the Governor-General fails to grant all that he expects it is because "he would at a future period be obliged to take it away again."

	3. The Governor further directs the insertion of an article providing immediate payment of the Danish peshcush to the Raja without any deduction being made on that account from the Raja's proportion, and instructs the Resident to modify the article relating to the subjection of the whole of the country to the jurisdiction of the Company's courts in a manner agreeable to the Raja's wishes.

The Raja being thereupon informed that Government were ready to meet his wishes in this respect, "he consented to abstain from availing himself of the stipulation in his favour contained in the 13th article of the Treaty." 2. From Mr. Torin to the Governor, Lord Clive informing him that the Raja relinquished with less difficulty than he expected, his demand for an increased proportion of the revenue stipulated to be paid to him and that he appeared convinced that the amount already provided for, for the support of his dignity and comfort was computed "on the most just and liberal principles." 3. From Mr. Torin to the Governor reporting that the Raja considers himself subject to certain disadvantages in having acquiesced in the fundamental principles of the Treaty and that therefore he has requested him (Mr. Torin) to represent his situation in a manner best calculated to secure to him "the confidence and favourable disposition of Government."	31-3 85

19-10-99	4. From the Governor to Mr. Torin, stating that his (Mr. Torin's) arguments pointing out the inconveniences arising from an exercise of double authority in the Tanjore country particularly with regard to the jurisdiction of the Courts of Justice have had their effect on the Raja who has accordingly given up his intention of retaining part of the country and thereby relieved himself of much personal inconvenience and vexation. He remarks that if Ameersing should stay in Tanjore it must be in the Fort, or else he must depart to Madras or some other place. 	6. He states that the intention of the Major in attempting to confine him on the plea of preventing him from running away was to intimidate him, fully knowing, that the facts deposed by Mootoo Naig would prove the charges brought by the Raja. The Raja points out that this improper act on the Major's part would furnish another proof of his former malice and enmity against him (the Raja).	
11-11-99	7. Col. Brown replying to Mr. Torin observes that if Mootoo Naig is sent to him at Trichinopoly he will either have to put him under restraint or commit an improper act by setting at large a man charged with perjury and desertion. (b) To issue bonds which should be exchanged for bills at the end of two years. (c) The payment of cash in the proportion mentioned by the Danish Government. 2. Mr. Torin states that objection was raised in regard to the first proposal on the ground that the Madras Government could only draw at the exchange of the day and not at the fixed exchange of 8 sh. 6 d. while as to the second proposal it was liable to the same objection in so far as it relates to bills. 3. To the third, however, the Government expressed their acceptance and promised to pay either the whole sum at Tranquebar or a lakh of pagodas at Madras and the balance at Tranquebar.	413-4

	Tanjore	
18-3-03	Administration by Mr. Harris—Remarks of the Court of Directors. From the Court of Directors to the Governor in Council. 1. Mr. Harris has taken great care to prevent the undue influence of the native servants. They are glad to learn that on account of his management the revenue for f. 1210 has exceeded 13,00,000 star pagodas. It is very satisfactory to note that the system of tyranny and oppression practised by the pattackdars is done away with.	251-4

28-3-03	Raja's Attachment to the Company From the Raja to Mr. Thomas Cockburn at London. He is incapable of ingratitude to anyone. He has been striving to prove his strong and sincere attachment to the Company by a cheerful acceptance of the suggestions offered by Messrs. Torin and Capt. Blackburne. 	Muthiah Mudali

	Kholhoff, Mr. Daniel	
11-4-03	Appointment in the Raja's service. To Lord Clive. The Raja has desired him to obtain the Governor's approval of the appointment of Mr. Daniel Kholhoff in his service. If the Raja had already granted an allowance to Mr. Daniel Kholhoff without obtaining the approval of Government it was because of his kindness to the Kholhoff family and he requests that his action might not be considered as improper. The Resident supports the Raja's request. (This paper appears to be in the Mahratta language.)	321-4
	Printing Press	
16-4-03	From Mr. Torin at London. The Company is delaying the execution of the statue of the late Mr. Schwartz. Mr. Wilkins, the Company's librarian and Bengal linguist, has now "adjusted and rendered practicable to the use of the press" the errors and amendments to the Mahratta alphabets transmitted by the Raja.	329
	Company's Servants	
17-4-03	Visit to the Raja. To the Raja. Government have confirmed his opinion that it is the duty of all the Company's servants to pay the first visit to the Raja. 	Muthiah Mudali

	Raja's Servants	
20-5-03	Complaints against Company's servants. To the Raja. Nilakanta Pillay's complaint against the Resident's hircarrah is proved to be false. He "never did or would suffer the slightest marks of disrespect to any of the Raja's people go unpunished." He requests that the Raja's servants will not prevent people coming to him unless they be in the Raja's service.	31 35-7
	Muthiah Mudali	
21-5-03	From Mr. Gericke to the Raja. Muthiah Mudaly was known to be a good and learned man who loved religious knowledge. He might after all still be innocent "for the diabolical tricks of the people of this country are fathomless and the truth is often hidden until God discovers it."	39-41
	Nilakanta Pillai	
22-5-03	To the Raja. Nilakanta Pillay is a respectable man and he would feel sorry to hear that he had incurred the Raja's displeasure.	43-4 47-8

	Nagore Durgah

	Raja of Berar	
27-5-03	To the Raja. The Resident points out the following reasons against the Raja writing to the Raja of Berar:— (a) There has been no exchange of civility or business between the houses of Tanjore and Nagpur. (b) The "very disturbed and uncertain state of the Mahratta Empire" renders the present time particularly unfavourable to any attempt to open a communication with that Raja. (c) Before writing the letter the Raja should see that it is "properly received and respectfully acknowledged." (d) As Berar is a foreign state the Raja should communicate with Lord Clive previous to accomplishing his object.	51-2 57-9
	Blackburne, Capt. William	
27-5-03	From the Raja. He has heard from Mr. Torin at London that the Court of Directors intend promoting him "to great stations as an officer." While he feels happy at the prospect of his elevation his sorrow is "inexpressible" in parting from him as Tanjore Resident.	53-5
	Books	
26-5-03	Portuguese and German Dictionaries. From Mr. Gericke to the Raja. The German grammar he has sent him is due to the courtesy of Sir Henry William, the King's Judge. As for the dictionaries they would be procured as soon as available.	61-3
	Blackburne, Capt. William	
28-5-03	Confirmed as Resident. To the Raja. Now that he has been confirmed in his appointment, the Raja's interposition with the Government of Madras to retain him as Resident in Tanjore is unnecessary.	65-7 69-70

	Residency	
1-6-03	Expenditure. To the Accountant-General. Mr. Harris has declined payment of money for the use of the Resident's Department unless proper sanction is obtained. 	Schwartz, Rev. Mr.	
1-6-03	Memorial to. From Mr. Gericke to the Raja. Should the Court of Directors send two monuments of the late Mr. Schwartz in addition to the one ordered by the Raja there would be three in all in this country and two in one and the same place.	79

	Raja of Tanjore	
7-6-03	Relations with the Company. From Mr. Torin at London to the Raja. 1. "It is impossible for the child to live without the milk of its mother and without her prudent care. So it is impossible for the Princes living under the shade of the Company's protection to preserve an honourable name and an ample expenditure without their mutual support of each other." 2. The Nabob guided by "no true friends" and forgetting "the inseparable ties" between him and the Company indulged in plans which eventually brought ruin and disgrace on his illustrious name and family. But the Raja has preserved a "successful line of conduct" owing to the good advice of Capt. Blackburne and himself. 3. He should look up to Messrs. Gericke, Kholhoff and his "favourite and faithful servant" Dattajee for advice and should not pay heed to the words of others who might say that the Company is not his real friends and that he must turn to Poona or to the French instead for help and advice. Should he do so he is lost, for "everything that is done in Tanjore ever within the palace" would be watched and reported to the Company. Mr. Torin remarks "Even the people you trust would tell the news and then the Company's Government at Madras will withdraw their favour and their friendship and you will sink like the Nabob and be forgotten."	91-4
	Printing Press	
7-6-03	From Mr. Torin at London to the Raja. The casting of the Mahratta types is a work of great labour, involving great expense. Much of the difficulty experienced in getting up the types was solved by the Company's librarian, Mr. Wilkins.	99-101
	Presents	
7-6-03	To the Raja. From Mr. Torin at London. The Court of Directors would send by the next ship some horses very acceptable to the Raja. He sends Greig hounds, a picture of Saint Paul's and some music books as presents to the Raja.	102-3
	Dattajee Appah	
10-6-03	Differences with the Raja. From Mr. Torin at London to the Raja. 1. The news of the displeasure manifested by the Raja against Dattajee Appah in his removal from office as Minister has not only surprised him but also "the gentle of this country." 2. The Raja's conduct has been "wanton and unjust" towards a man who has been the nurse of his youth, the companion of his adversity and the minister of his power. Mr. Torin has been pleased to hear from Capt. Blackburne of the restoration of Dattajee Appah to the Raja's favour.	107-10

This advertisement by the Collector notifies that the Company's European servants desirous of residing in the villages or on the coast of Tanjore should obtain a certificate from Government through the Collector. 8-7-03	From Lord Clive to the Raja. 2. The reasons for the restoration of that district to the Tondaman are:— (a) That the Tondaman has enjoyed the right to hold the district under the Government of the Tanjore Raja; and (b) apart from this, a promise was made to that effect by the British officers in securing the help of the Tondaman to repel the last invasion of Hyder Ali against Tanjore. ...	[This letter appears to be in the Mahratta language and is written by Serfojee to the Governor of Madras.]	341-2
4-8-03	———Transfer to the Tondaman—Raja's opinion. To the Chief Secretary. 1. He had delivered to the Raja, the letter written to him by Government announcing their decision in regard to the possession of Killenelly, in favour of Tondaman. The Raja seemed to consider this decision as a violation of the Treaty of 1799 and as causing a fall in his prestige. 2. In regard to these observations, the Raja was told that the growing connection of the Company with the Tanjore Rajas since the time of the restoration of the country to Tuljajee vested an "absolute and exclusive right" in the British Government to settle "all differences between him and other powers of whatever description they might be" and that the mode in which the Governor-in-Council arrived at the decision "placed His Excellency in the light of a benefactor to Tondaman instead of an unsuccessful opponent." 3. While the Tondaman produced certain instruments before the Governor and Council in support of his claims, the Raja was not in possession of a single fact or document to establish his case. The Raja and his Minister were totally ignorant of the assertion of Raja Pratap Sing "that the grant of Killenelly to Tondaman had been fraudulently made out and his seal affixed to it without his knowledge, by the Minister Monagee Appah." This Monagee Appah following "the alleged treasonable and fraudulent alienation of . . . Killenelly . . . was selected and sent at the head of an army to retake the fort . . . from Tondaman which service he effected after long and desperate resistance." 4. In the end, however, the Raja acquiesced in "the force of the documents which Tondaman had produced in support of his claim and the long and eminent services of his family" and in the Governor's determination in his favour.	343-9

Although the Raja's family are averse to submitting to European medical treatment, yet their anxiety for the recovery of Pratap Sing's health induced them to give way. Mr. Tait has been in attendance for sometime and recommends change of air for the patient. 3. The permission of Serfojee Raja to let Pratap Sing occupy the palace at Kumbakonam for a period of two months in order to try the air of that place has been applied for. Should there be any unfavourable change in Pratap Sing's health he will summon for Dr. Tait.	405-9
	Tanjore Fort	
21-8-03	Defence of. From Mr. Webb. News has been received from England of the probability of an outbreak of war between France and England. To resist the possibility of the French taking possession of Tanjore, the Raja should be "prepared and directed" to admit a garrison into the small fort of Tanjore "in the place described in your (the Resident's) memorandum."	411-4

The letter was delivered to the Raja that afternoon "under appropriate salutes and with every other demonstration of public respect and congratulation that was suitable to the occasion." The Raja whose manner and expressions on this occasion denoted perfect satisfaction, desired communication to the Governor of his acknowledgment and his intention to reply to the Directors in a few days.	443

	Tanjore Fort	
29-8-03	Defence of. To Mr. Webb. 1. The letter contains a report of a conference with the Raja regarding the Tanjore Fort being garrisoned by the Company's troops in order to guard against the possibility of and to effectively resist a French invasion of Tanjore. 2. The arrangement the Raja would consent to was to lodge the Company's military stores in the forts to be guarded by the Raja's troops. The Company's sepoy were to remain outside the fort "at the painted choultry" so as to admit of their entering into the fort at a moment's notice on sighting the enemy. 3. The Resident remarks. that as regards garrisoning the Tanjore Fort he would "carry it through in any way you please." To take both forts would distress the Raja but he could be made to yield one without much inconvenience.	447-55

30-8-03	Defence of. To Mr. Webb. The Raja has sent one of his servants to reiterate his objection to the introduction of the Company's troops within the Fort in order to defend it against a probable attack from the French. He suggests Vellum or the painted choultry as a suitable place for the Company's sepoy to garrison until the appearance of the enemy in the country, when they shall be let into the Fort.	467-9

	Tanjore Fort	
13-9-03	Defence of. From the Commander-in-Chief. 1. The feeble army on the coast, the uncertain duration of the Mahratta war, the late reinforcements to the French force "on this side of the Cape" and the dangers to which Tanjore would be exposed in its present state—all these reasons have weighed with Government in deciding to garrison the little fort with British troops. 2. Capt. Blackburn would supply both forts with ordnance and stores. A provincial battalion should be immediately raised at Tanjore and the number of horsemen and the terms on which they are available for forming a body of irregular troops should be reported to the Commander-in-Chief as early as possible.	77
	Tranquebar Peshkash

	Chinniah Naik	
15-9-03	Apprehension of. From the Private Secretary Mr. G. Strachey. The apprehension of Chinniah Naik is not so important as to be laid before Government. It is enough if he is temporarily confined and let off to deter him from the practice of further imposture.	91-2

	Tanjore Fort	
16-9-03	Defence of. From Mr. Webb. 1. Regarding the Raja's objection to let the Little Fort be garrisoned by the English troops in order to resist a probable attack on Tanjore by the French, Mr. Webb writes: "My letters to you are nothing but the . . . courier of what I knew must follow and I thought it better that the Raja should be apprised of the intention by that mode than that it should break upon him by an official communication." 2. But if it should be at all in my power to contribute to the early restoration of the fort I shall feel very sensible pleasure in applying my aid. The Raja does not yet, I believe, know that he is exclusively indebted to me for that article of the Treaty by which the possession of the fort was conceded to him."	95-7
	Torin, Mr. B.	
16-9-03	Appreciation of his services. To the Raja. A present of Pag. 3,000 was made to Mr. Torin by the Court of Directors "as a mark of the approbation of his conduct."	99
	Tanjore Fort	
17-9-03	Defence of. From the Chief Secretary to the Raja. 1. It is important that the fort of Tanjore should be well defended against the probable French invasion of the southern provinces. The Treaty with the Raja provides "for the eventual occupancy of that place (Tanjore) by a British Garrison." The Governor in Council therefore is of opinion that within the Little Fort should be stationed a body of troops while the necessary ordnance and stores should be lodged in the Great Fort. 2. He should deliver the enclosed letter to the Raja and endeavour to dispel any suspicion which he might entertain regarding the permanency of this arrangement. About 200 Europeans and 1,000 native sepoys are at present proposed to be stationed in the Little Fort. He should expeditiously raise a provincial battalion in the province of Tanjore in consultation with the Commander-in-Chief.	103-14
	From Lord William Bentinck to the Raja.	115-21
17-9-03	3. It becomes his duty to safeguard the Raja's family and his territory against any probable attack from the French. As the treaty which the Raja has concluded with the Company provides for the occupation of the forts of Tanjore by the British troops in the event of danger from an enemy, he the Governor, proposes to station "a body of British troops in the Little fortress of Tanjore during the continuance of the war with France" and to place only the ordnance and stores in the Great Fort. To Lt.-Genl. Stuart.	127
17-9-03	4. On communicating the resolution of Government to occupy only the Little Fort the Raja expressed his gratitude to him (the Lt.-Genl.) and to the Government for the consideration shown to his convenience and to his feelings. The Resident remarks. "It appeared to me that he felt himself for the first time, to be entirely identified in views and interest with the British Government."

	Recruitment	
18-9-03	To the Raja. 1. <i>Sepoys</i> . He has been ordered to raise a corps of sepoys to be commanded by Capt. Butler. It would enable him to make every desirable arrangement for the Raja.	129
21-9-03	——To the Commander-in-Chief. 2. <i>Cavalry</i> . Regarding the formation of the irregular cavalry he observes that most of the mounted irregulars attached to the Raja left Tanjore following the deposition of Ameer Sing and that when the handful who remained lost their horses through death they did not replace them. 3. There is however a number of horsemen in Tanjore, without horses, all relations of the Raja who are willing to engage in the service only on such high terms as five pagodas a month per man. Apart from the 200 horsemen that could be collected from the palace retainers he could raise an equal number from the country. He is anxious to know the number and the terms on which the cavalry should be raised.	137-40

	Tanjore Fort	
28-9-03	Occupation by the Company's troops—Restrictions on. To Lt.-Genl. Stuart. 1. The Raja imposes certain conditions on his permission to the Company's troops to occupy the Little Fort. His sepoys should be provided with a thousand bayonets; the two six pounders belonging to him should be worked by his men and the guns and stores deposited in the Big Fort be left to the care of his troops. He would have no objection to the key of the store-houses being left with the Commanding Officer of the Little Fort. 2. The temple should not be entered except by those who go there for purposes of worship, the Company's sentinel being placed at the temple gates to keep out others; and lastly the Officer Commanding the Little Fort should preserve the "harmony and good-will between the two services." The Raja would not mention these conditions in his letter to the Governor.	187-9

The Raja is requested to continue the same concession to these bazaar men as was granted by Tuljajee Raja, viz., imposing only half tax on them. Regarding the style of the letter he would leave it to the Raja being a better judge on that point. 2. It appears proper that the Raja should recall his servants from Madras; but the success of the Company's army at Delhi and Jaffierabad would enable the Raja "to send them to Nagpore without a doubt of their success."	313-6

12-12-03	Raja Alleged negotiations with the French. To Lord William Bentinck. He positively refutes the allegations contained in the extract of Capt. Dufayel's letter sent from Tranquebar to the Isle of France and intercepted by the English Governor at Ceylon. He states that he is in receipt of the most confidential news of the palace from Dattajee Appah, and some others and that there is not the least suspicion of the Raja holding secret communication with the French with a view to throwing off the protection of the Company.	437-41
13-12-03	Tranquebar Peshkash Raja's claim. From the Chief Secretary. Government approve of the Resident's reply to the Tranquebar Governor, declining to interfere with the subject of the demand of the Raja's claim of the whole of the arrears of peshkash upon the Danish Government. 	Large Fort	
15-12-03	Permission to visit. From Mr. Joyes to Dattajee Appah requesting the Raja to order his dubash to attend on Capt. Martin when he visits the Large Fort in order to show the laboratory to the Conductor of Stores and deliver the key of the fort to him.	457
	Cullen, Lt.-Col.	
16-12-03	Withdrawal from Tranquebar. To Lord William Bentinck. 1. The Governor of Tranquebar dislikes Lt.-Col. Cullen and should the latter be appointed as British Resident at that place against the Governor's wishes, his intercourse with him would unavoidably be confined only to matters of form and "to business of little or no importance." 2. Should the Danish Governor be obliged on this point it would facilitate the successful execution of the Resident's mission on account of which he has proceeded to Tranquebar and it is probable that any other officer than Col. Cullen would enter upon his duties with considerable advantage.	461-6
	Raja's Servants	
17-12-03	Misconduct. To the Raja. The queen is not aware of the injustice committed by her servants and therefore the Raja who alone has the power, should restrain them by punishing them or removing them if they persist in their evil courses.	467-8

	Cullen, Lt.-Col.	
22-12-03	Withdrawal from Tranquebar. From the Governor. 1. It is highly desirable "to maintain the utmost cordiality with the Government of Tranquebar." The choice would therefore fall on some other officer than Lt.-Col. Cullen for the situation of Resident at Tranquebar. Lt.-Col. Cullen's misconduct on some occasions has been brought to light. 2. Lord William Bentinck observes, "Upon considering the best means of obtaining intelligence at Tranquebar it appeared to me that your residence at Tanjore, the connection that you probably might have at Tranquebar, combined with the general character you bore of great zeal for the public service . . . might perhaps enable you to succeed better in this commission than any other individual. Your not being immediately upon the spot would also relieve you from observation and suspicion. With this opinion I thought that if you would undertake the business a good purpose would be answered in sending a Resident."	485

Should there be any objection for their perusal he particularly requests that the matter be not brought to the notice of the Raja.	541-3

This circular letter lays down that Lord Valentia during his travels through the Company's dominions in India and through the possessions of their allies for the purpose of studying the natural history of the country should be received with every mark of distinction and respect suitable to his rank. The Raja is pleased to accept the sandalwood and looks upon it "as a most satisfactory proof of the respect and friendly disposition of the Government of Mysore." A circular letter from Government to the Commercial Resident at Nagore informing him that the duty of issuing passports in future to persons leaving Tranquebar for the Company's possessions in India has been entrusted to the Tanjore Resident. Any applications received by him on this subject should be referred to Capt. Blackburn, the Tanjore Resident.	281

Date.	Abstract.	Page number.

14-3-04	Cartel Company's Government and Tranquebar. From Genl. Anker, Governor of Tranquebar, expressing his opinion regarding the accomplishment of an agreement between the Danish Government at Tranquebar and the Madras Government, for the mutual surrender of criminals. He opines that his Government would derive no advantage by such an arrangement unless the surrender of all deserters without any exception were agreed upon. He gives reasons for his opinion.	291-5
15-3-04	Raja's Generosity From Mr. Torin, Harley Street, England, to the Raja. The act of the Raja in paying money to Dr. Kennedy on account of Ameer Sing's debts and asking him to consider it as a present from him and to feel himself to be at liberty to look to the Government in common with the rest of the creditors for the regular payment of his bond is another proof of "a most excellent heart" and of his respect for the memory of his "late father and friend Padre Schwartz."	300
15-3-04	Raja's Statue From Mr. Torin to the Raja. The statue is being made according to the Raja's directions. A model has already been made exactly representing him with every part of his dress, the turband to take off, holes in the ears and with openings through the arms and the body. As the execution of the work in stone would take a long time Mr. Torin will watch over the artist and prevent him from losing his time.	302
..	Printing Press The work is now in hand and a specimen of the types would be sent by this or the next ship. Considerable difficulty has been experienced in getting the types made according to the original intention of the Raja and had it not been for the assistance of Mr. Wilkins the undertaking would have failed.	303
...	Horses From Mr. Torin to the Raja. It is the practice in England to cut off the tails of horses as soon as they are born and to remove their testicles. The Court of Directors have therefore endeavoured in vain to procure a 'perfect' animal. Mr. Torin has suggested to them to send two or three young colts of "high cast and good blood" in order that they may become inured to the climate better than aged horses and answer the Raja's expectations.	304
..	Macleod, Mr. Alexander Dismissed the service. The Court of Directors have confirmed the judgment of the Madras Government and dismissed him their service for ever. This gentleman and his family are exposed to the privations of his creditors—"the effects of his injustice and want of conduct."	305

Date.	Abstract.	Page number.
...	Killyneily Cotah Restoration to Tondaman. From Mr. Torin to the Raja. 1. The arguments used by Government do not appear to be quite correct and if no better proofs exist than those adduced they have been "too precipitate in giving away a possession which in addition to the Raja's original right had that of long occupancy." 2. Though the Company were deeply interested in not alienating any portion of the Tanjore country from which they are to receive 4/5 of the revenue, there must have been produced other documents to invalidate the Raja's original right to Killenellycotah "for it is not to be believed that the Government dilapidate the Tanjore Kingdom and thereby injure the feelings of the Raja and to their own loss, merely to perform an unauthorised promise of one of their Commanding Officers and on the objectionable ground of a forged sunned." 3. Regarding the arguments used by the Tondaman at the time of Pratap Sing Raja Mr. Torin will consult Mr. Sullivan and communicate his opinion on the subject.	306-7
...	Books The German and Portuguese books are scarce in England and it is therefore very difficult to procure them for the Raja's use.	313
...	Cash Disbursements. The remittance of Pag. 50,000 would be payable in six months time and meanwhile he will continue to advance whatever sums shall be required for the disbursements on account of the execution of the Raja's commands.	314

17-3-04	Raja's Account Adjustment. From the Secretary to Government in the Military Department. The Raja should be informed that arms to the value of Pag. 4,489-37-46 has been supplied to his troops and the amount charged to his account.	325
17-3-04	Arms Supply to the Raja. 1. To the Commissary of Stores acknowledging receipt of 1,000 muskets, bayonets and bayonet scabbards and informing that they have been delivered to the Raja on the day of their arrival.	327
17-3-04	To the Chief Secretary. 2. The Raja is in receipt of the guns and arms sent to him and offers his thanks to His Lordship the Governor "for his obliging mark of his attention." The two six pounders has been presented to the Raja as a loan and it has been agreed to debit the cost of the arms to his account with the Company for the current official year.	329-31

19-3-04	Cartel Tranquebar and the Madras Government. To Lord William Bentinck, expressing the hope that Genl. Anker's desire to extend the arrangement to the mutual surrender of natives as well as Europeans would not be disagreeable to his Lordship.	351-3
19-3-04	Passports Persons leaving Tranquebar. 1. To the Chief Secretary informing him that he will "pay the most profound attention" to the duty entrusted to him, by the order of Government, of issuing passports to persons from Tranquebar proceeding into the Company's territory in India.	355
20-3-04	———To the Tranquebar Governor. 2. To obviate the inconvenience caused by the delay in the issue of passports to Danish subjects resident in Tranquebar he shall send to him signed passports leaving it to him (the Governor) to fill in the date, place etc., as occasion may arise.	359-61
20-3-04	Pictures Raja's presents to Lord Valentia. (See 3417/46.) To the Raja. He will take care to convey the Raja's presents of pictures and drawings to Lord Valentia.	363-4

22-3-04	Harris, Mr. Charles Removal from office of the Collector of Tanjore. To Lord Bentinck. 1. The resolution of the Governor in Council to remove Mr. Harris from the office of Collector has pained him, for though he might have failed in his temper he has exhibited very high integrity and zeal in the exercise of his duties.	377-82

	Harris, Mr. Charles—cont. 2. The separation of the judicial function from the work of the Collector would doubtless tend to obviate the perversion of justice which has lately prevailed and leave the Collector ample leisure to attend to his revenue work. 3. As regards the choice of Mr. Wallace for the Collectorship he has nothing to say against him, he being well qualified for the situation.	
23-3-04	Revenue Servants Corruption. To Lord Bentinck enclosing copy of a correspondence between him and the Collector on the subject of the corruption of the revenue servants in Tanjore. 30-3-04	Revenue Servants Corruption. To the Raja requesting him to order Appuviah to produce the accounts for his villages in the Kuttalam Taluk as the accounts of that taluk must be sent to Mr. Harris in about three or four days. The Raja's people are holding back from an apprehension of not being the first to complain of the corruption and the irregularity in the revenue collection. If they persist any longer in doing so they run the risk of blame and punishment.	409-11
19-3-04	Dattajee Appah Restoration to the Raja's favour. From Mr. Thomas Cockburn at London, to the Raja. Nothing could be more gratifying than to learn the happy news of the restoration of Dattajee to the Raja's favour. 1-4-04	Raja's Debts Denial of. The Resident replying to M. Mottet, states that the Raja does not owe a pagoda to any man. He has no creditors, but if he had he would not conceal himself from them nor evade payment of his debt.	419

	War with France	
4-4-04	From Genl. Anker enclosing a French newspaper for its amusing account of how the Adjutant Commandant Binot without ammunitions and provisions and with only 150 men proposes to invade the southern provinces. He observes that "none but a Frenchman would venture to state such contemptible gasconade in a report to his Commander-in-Chief."	
	Revenue Servants	
4-4-04	Corruption. To Lord Bentinck. 1. The Board has not yet replied to Mr. Harris's request for permission to secure the Resident's assistance in the investigation of the corruption of revenue servants in Tanjore. The enquiry is however proceeding and the accounts furnish abundant proofs "of the universality of the corruption."	429-31

	Passports	
7-4-04	Persons leaving Tranquebar. From the Secretary to General Anker. If one passport is not sufficient for several persons he would have occasion for more blank passports. In the course of next week most of the French adventurers at Tranquebar would have left by a Danish vessel for the Isle of France.	441-3
	Cartel	
8-4-04	Madras Government and Tranquebar. From Lord Bentinck. There could be no objection to include the natives. It was never his intention to confine the arrangement to Europeans "the more general, the more beneficial will be such an agreement." (Original draft.)	445

	Revenue Servants	
11-4-04	Corruption. To Lord Bentinck. 1. Reports of corruption among the revenue servants of the country; but no one would come forward to give facts and figures before the Collector, Mr. Harris. It was therefore resolved that the Resident should assist Mr. Harris in the enquiry, that 3 or 4 principal servants of the cutcherry should be confined and that the revenue officers of 3 or 4 taluks suspended and others unconnected with the cutcherry appointed in their place during the enquiry taking care to see that the taluk accounts are secured before their removal. 2. These measures were adopted only with the object of encouraging the cultivators to surrender their accounts for examination, to remove their fears of the old servants and to inspire their confidence in the Collector. 3. The Resident observes, "Dreadful must be the perversion of moral in a country where the public landholders to a man could be persuaded to unite with a set of subordinate revenue officers in collusive fraud on the Revenue." 4. He opines that by the present enquiry a foundation might be laid on which a future administration might be built with "ease, security and speed."	467-78

	Revenue Servants	
24-4-04	Corruption. 1. From Rev. Mr. Kholhoff to the Raja reporting that Mr. Harris has been severe in punishing the Tahsildars in the course of the investigation into the corruption of the revenue servants of the district.	529-31
25-4-04	To the Raja. 2. Mr. Harris is equally zealous as himself to pursue the enquiry into the embezzlements practised by the revenue servants of the district. It is not known whether the amount defrauded would be some lakhs of pagodas. The Raja is requested to appoint one or more gentlemen with special authority to enquire into the charges of corruption alleged against the revenue servants.	539-41
	Ayya Pillai	
25-4-04	Services requested. From Mr. Kholhoff to the Raja requesting him to spare Ayya Pillay for a short time under the service of Mr. Harris at Kumbakonam for the purpose of translating the Malabar language into English.	543
	Dattajee Appah	
25-4-04	Loss of Raja's favour. From Mr. Torin, Harbey Street, London, to Dattajee Appah. 1. Should the Raja recall the period of his hardship from the time of Ameer Sing's accession to the throne to the time of his deposition and remember the invaluable services Dattajee Appah had rendered to him he would not have spurned him away. 2. The Raja is ill-advised by his courtiers and flatterers to think little of his connection with the Company but for whom he would have lost the throne long ago. But the recent subjugation of Scindia would have proved that the Company's favour and protection is far "superior to all the rest of India."	549-55

Date.	Abstract.	Page number.
	Dattajee Appah—cont.	
	3. It is hoped that Dattajee Appah will soon rehabilitate himself into the Raja's favour and that "God would incline Him (the Raja) to listen to his councils."	
	Cash Indent	
27-4-04	From Mr. Kholhoff. Requesting 800 pagodas in lieu of a bill of exchange.	557
	Revenue Servants	
27-4-04	Corruption. From Mr. Kholhoff at Kumbakonam to the Raja. 1. Reporting on the progress made in regard to the enquiry into the corruption of the revenue servants Mr. Kholhoff states that the Tahsildar, peshcar and the monigar of Kuttalam were brought from confinement before Mr. Harris. 2. The monigar was released having confessed that he received 5 chuckrams and 10 cullams of paddy from the Circar share and giving security for the money and the grain. The others would likewise be released on the same terms. 3. Mr. Dacre, the Second Assistant Collector at Tiruvayar is imitating the harsh example of Mr. Harris in increasing the extortion and cruel punishment to the Tahsildar of Tiruvayar. [Mr. Joseph Dacre: joined the service 1802; died 1828 at Chittoor as Third Judge of the Provincial Court, Centre division.]	559-62
	Tanjore Administration Committee	
28-4-04	Appointment of. (See p. 255.) From the Chief Secretary.	563-9
	Raja's Minister	
30-4-04	Letter from Mr. Torin. He is glad to learn of his appointment as Minister to the Raja and hopes that like Dattajee Appah he will send him a statement of the Raja's proportion of the revenue every year in order to enable him to understand the arrangements for the management of the country.	577
	Revenue Servants	
29-4-04	Corruption. 1. To the Governor in Council reporting the steps taken by Mr. Harris in consultation with the Resident to investigate the alleged corruption of the revenue servants. The immediate arrest of the peshcars and the interpreters of his own cutcherry and those of his assistants was ordered by Mr. Harris. The inhabitants were called upon to surrender the true accounts of the produce of their lands on pain of severe punishment and the cavalgars to assist in the discovery of the stolen grain. 2. Appuviah was asked to recommend men of character and ability in place of the taluk staff whose removal from office was considered necessary for an effective investigation of the matter. 3. In cases where embezzlement was unmistakably proved the individuals concerned were severely flogged. A persistent report that the country's management would revert to the Raja in the event of these charges against the revenue servants being proved, is widely circulated.	585-604

Grant, Mr. Allan		
3-5-04	Death of. From Lord William Bentinck reporting the death of Mr. Allan Grant.	7-8
Revenue Servants		
3-5-04	Corruption. From Mr. Kholhoff to the Raja. The progress of the enquiry is inconceivably rapid. The native servants of Mr. Harris's cutcherry have acknowledged their guilt and disclosed the frauds committed by the head servants. All that has to be done by Messrs. Harris and Blackburne is to collect the accounts and ascertain the extent of the embezzlements.	13-6
Bill of Exchange		
3-5-04	Mr. Blackburne sends the bill to the Collector for the amount of St. Pag. 37,900-36-48 drawn in his favour upon the Governor in Council.	17

Revenue Servants		
7-5-04	Corruption. 1. The Resident reports to Lord Bentinck that the Tahsildar of Kumbakonam confessed his guilt on promise of forgiveness and that he was asked to assist Appuviah in pursuing the enquiry. The accounts of the Mattoor taluk and Kuttalam taluk were taken up and the appropriation of unlawful assessments collected was fully proved. 2. The confession of the Head cutcherry servants has led the mirasidars to bring their accounts to the cutcherry and apply for pardon. Every effort is being made to detect the real extent of the embezzlements. The Resident promises to bring the enquiry to a speedy conclusion and direct his energy in making preparations for the cultivation of the ensuing crops.	27-47
Loan		
9-5-04	Mr. Kholhoff requests the Raja to advance him a sum of St. Pag. 400 to be repaid at the end of four months.	51

Pinaud, Mr.

Date.	Abstract.	Page number.

Pinaud, Mr.		
13-5-04	Passport. 1. From the Resident to Lord Bentinck transmitting a copy of Genl. Anker's letter setting forth the circumstances under which Mr. Pinaud left Tranquebar to Pondicherry without actually obtaining a passport from the Resident. He assures the Governor that in future no "deviation from the spirit of the arrangement regarding passports will take place." 2. From the Resident to Genl. Anker pointing out the necessity he was under, in the present circumstance of a war on the continent, of calling for an explanation in regard to the departure of Mr. Pinaud from Tranquebar.	75
Palanquin Bearers		
20-5-04	Applied for. From Mr. Kholhoff to the Raja requesting 11 bearers and a messenger in order to proceed to Kumbakonam.	79
Europe Letter		
25-5-04	From Mr. Torin, Harley Street, London, to the Raja. 1. <i>Mr. Gericke's death.</i> He portrays the character of the deceased and observes that "his mild and amiable qualities are a loss to all the people in India. . . . We must always deplore the death of the good man and revere his memory." The Raja should frequently recall the counsels of the late Mr. Gericke and in his consultations with Mr. Kholhoff should ask the latter "how Mr. Gericke would advise him in such and such a case." 2. <i>Mahratta people.</i> The Raja is yet too young to act for himself in regard to his relations with the Europeans. He should never place himself under the ill-advice of the Mahratta people about him, who are ignorant of the Raja's affairs with the Company. The imprudence of the Nabob of Scindia and Tippu Sultan are lessons which must teach the Raja to first consult his "proper friends in regard to his true interest." 3. All things considered the Raja could say to himself, "It is indeed fortunate for me that in everything I have been well advised to attach myself to the Company and to coincide with their wishes." He must recall in grateful remembrance the inestimable protection afforded to him by the Company during those twelve years when Ameersing was on the throne and of their interference to raise him to the musnud. In regard to his assurances of attachment to the Company the Raja should never let them suspect him as they did Scindia and the Nabob of having a different meaning in his heart. 4. <i>Tanjore forts.</i> He explains the reasons which compelled the English to garrison the Tanjore Forts and points out that had it not been for the war in Europe they would not have recourse to this step. He assures the Raja that the troops will be withdrawn as soon as the peace between France and England is announced. The Court of Directors applaud the Raja's conduct in complying with the Governor's wishes on this subject.	101

	Europe Letter—cont.	
	5. <i>Killenelly Kota.</i> He is surprised at the Governor's award of this place in favour of the Tondaman. The long possession of it by the Raja, its restoration to his father during the time of Mr. Sullivan and the Raja's assistance to the troops of the Company during the poligar war in the south which was just as effectual as that of the Tondaman, are facts sufficient to establish his claims. This matter has not yet reached the notice of the Directors and he cannot therefore "at present speak upon the subject".	114-6
	6. The Raja, appears to have given his case away, for his compliance with the Governor's request on this subject was only optional and the Governor could have replied to the Tondaman that he could not suffer alienation of any part of the Tanjore country to take place consistent with the provisions of the treaty. It is therefore difficult to have the matter reconsidered in England because the Raja's consent has been given "and the thing is done".	
	7. <i>Revenue.</i> It seems that Government are not pleased with Mr. Harris's amani management and that the country will soon be let out or rented to individuals in separate farms. This may not bring more revenue than the amani and after all their experiments the Company "might find themselves disappointed and not much benefited by the possession of the Tanjore country."	116
	8. <i>Books.</i> A flute required by the Raja, a Portuguese grammar, a German grammar and spelling book have been already sent by the last ship. No Portuguese dictionary is to be had for sale in this country. It is hoped that the camera which would "draw views of the country as well as the person" will be found acceptable to the Raja and very useful in his journey through the country. He has purchased for him the views of the Ellora caves near Aurangabad a favoured place of worship by the Hindus but little known to Europeans "and supposed to be the greatest work ever performed by the hand of man in any part of the world." He also sends a picture of His Majesty the King and a music book and an "uncommonly fine telescope".	117-20
	9. <i>Statues of the Raja and Mr. Schwartz.</i> Both are on hand and the work is proceeding apace. They are not unlike their living counterparts.	121
25-5-04	Macdowall, Genl. G. Accommodation of. Mr. Blackburne informs the Raja that Genl. Macdowall has been told that the house formerly occupied by Mr. Torin could not be spared for his accommodation.	125
29-5-04	Cullen, Col. Appointment in Tranquebar. From Lord Bentick to Capt. Blackburne informing him that though Genl. Anker did not like it yet he has been induced out of respect for Genl. Macdowall and for various other friends, to appoint Col. Cullen for the purpose of gaining intelligence of the conditions at Tranquebar.	129
31-5-04	Amir Sing's Debts Col. Sheriff's claim. From Mr. Hart, Administrator to the estate of the late Col. Sheriff to the Raja requesting repayment of the loan advanced to Ameersing while he was the Raja of Tanjore by Col. Sheriff.	133-7 139-46

14-6-04	Cullen, Lt.-Col. Appointment at Tranquebar. The Resident reports to Lord Bentinck that he spent the night of the 11th instant with Genl. Anker at Tranquebar who seems to have been aware of the appointment of Lt.-Col. Cullen as British Resident at Tranquebar through the indiscreet conduct of the Colonel himself. Genl. 27-12-04	History of. 1. The Resident reports to Lord Bentinck the history of the right of the mirasidars in Tanjore. 2. Mirasi is a Persian word meaning inheritance, generally applied to inherited landed property. It was first used by the Nabob's officers in Tanjore during the years 1774 and 1775 and afterwards adopted by Mr. Harris, the Collector. 3. The mirasidars who fled the country during the war returned back to their homes to recover possession of their landed property only on payment of compensation to the new occupants. 4. Since the Raja's treaty with the Company many transfers, sales and mortgages of mirasis took place and in all these cases no reference to the Collector was made. 5. Many of the mirasidars are rich and comprise "a distinct order of society between the Government and the masses of the people." If the Government share of the land be sold to them they will infallibly become rich. Then there would be "no rivalry, no clashing of interest, no temptation to the exercise of injustice, oppression or fraud."	567-77.

	1. From the Resident to the Chief Secretary forwarding the opinion of the Raja in regard to the deduction from the revenue of Tanjore of the charges of the Judicial establishment and a proportion of the expenses of the Board.	
	2. The Raja agrees to the principle of division of the expenses of the Board between the Company's possessions, Tanjore and the Carnatic in proportion to their respective gross revenues. He holds that the expenditure of the Judicial establishment forming a charge on the revenue of the country is "a new proposition unconnected with the Treaty." He does not perceive how the institution of Judicial establishment would tend to diminish the charges of collection of revenue. The existing charges of revenue collection are already sufficiently high.	
	3. He considers that the average of the charges of collection for eleven years preceding his accession to the throne should be taken into account in determining the cost of revenue collection to be deducted from the gross revenue. In conclusion he observes that if His Lordship the Governor, should persist in adhering to his proposal he will have no option but to acquiesce in it.

	Ramanappah	
	Dismissal urged.	549-56
	1. 	2. If the Governors of India hear that the Raja has neglected to take proper care of and afford protection to his few relatives and other people committed to his charge by leaving them a prey to a rapacious and tyrannical minister they would have a very poor opinion about him.	
	3. He should therefore dismiss Ramanappah and keep a vigilant eye over his servants in future and prevent them from tarnishing the lustre of his "name, honour and dignity."

	Settlement	
29-3-06	Ganapati Agraharam etc. From the Resident to the Raja. 1. The Raja's terms for the settlement of his village of Ganapati Agraharam and Tiruvadigudy are more advantageous to their inhabitants than to the cultivators of the Company's villages. 2. He observes— (a) The exaction of 2½ % of the produce to cover the fraud committed by the cultivators in thrashing the grain is objectionable. It is not imposed by the Company and the share of the Raja's villagers would consequently be reduced by that amount. (b) The receipt of the Sirkar share in kind is unfavourable to the cultivators as they are prevented from disposing of their grain to advantage at their leisure. (c) The cultivators should be made to bear the charge of transporting the grain to the palace. (d) 5 % of the net receipt allowed for wastage is liberal. (e) The Raja proposes to continue the putcut and chillarai courdel on the same terms as old. But the advantage which the inhabitants gain by the system of putcut is more than counter-balanced by the loss arising from the chillarai courdal.	107

18-3-1806	From the Resident to Mr. Koefoed, Secretary to the Government at Tranquebar furnishing him with a supply of blank passports.	1
	Muskets	
19-3-06	Indent for. From the Resident to the Chief Secretary. He supports the Raja's request to be supplied with 10,000 musket flints and 2,000 pistol flints, the cost to be debited to the Raja's account. The practice of the Tanjore Rajas obtaining their supplies of arms and ammunition from private agents at Tranquebar was discontinued by the present Raja from the beginning of the year 1804, when a supply of 1,000 muskets was made to the Raja by the Company. It is desirable to leave the Raja, without a wish to renew his connection with Tranquebar by meeting his wishes on the present occasion.	3

Date.	Abstract.	Page number.
	Grain	
21-3-06	Supply to the Raja. From the Resident to the Collector. 1. He points out that, in regard to the supply to the Raja of grain from the villages, the wastage of 7 ¹ per cent. which he intends to allow on the quantity transported to Tanjore is excessive and that the price which he proposes to pay to the cultivators is high. According to the Collector's proposal the Raja would be made to lose on the 48,000 callams of paddy required by him, the sum of Ch. 5,700. 2. He observes that the Collector is called upon by the treaty to act as the Raja's grain merchant and it is therefore incumbent upon him to supply the Raja with grain "on terms not more unfavourable at any rate than those on which the public merchants are supplied."	15
	Chintamani Rao	
21-3-06	From the Resident to the Chief Secretary. He informs him that the Raja has not received any information of the despatch of a letter to him from Chintamani Rao. The movements of the messengers of Chintamani Rao would be vigilantly observed during their stay in Tanjore.	23

	Passports	
28-3-06	From the Resident to Mr. Peter Hermonson, Danish Governor at Tranquebar. He informs him that it is not the intention of the British Government to make any alteration in the existing arrangements for the issue of British passports at Tranquebar in consultation with the Government at Madras. He hopes that the continuation of the arrangement would be perfectly agreeable to him as it would be conducive to the "advantage and convenience" of the subjects of the Tranquebar Government.	31
	Arrack Shops	
1-4-06	Ganapati Agraharam. 1. From the Resident to the Collector transmitting a letter received from the Raja. The Tahsildar of Papanasam has written to the Manager of the Raja's village of Ganapati Agraharam in an insolent manner calling upon the latter to withdraw his objection to the establishment by the Company's renter of an arrack shop in that village. The disrespectful reference to the Raja made by the Tahsildar in his letter has provoked the former to communicate with the Resident on the subject. 2. The Resident requests particular notice of the Collector to the Tahsildar's conduct and points out that the objection raised by the Raja's manager of the village derives force by the fact that since the transfer of the country to the Company there never was a Company's renter running an arrack shop in Ganapati Agraharam. (Duplicate of the above letter.)	33

Danish Government at Tanjore		
12-4-06	1. From the Resident to the Governor Lord William Bentinck observing that the office of mediator of the Danish Government at Tranquebar at the Court of Tanjore has been in existence for a long time, being filled by Lt.-Col. Muhldorff and later by Mr. Ovre. On the appointment of Mr. Hermonson to act as Governor of Tranquebar a native vacceel and Mr. Holkie the Governor's son-in-law (chosen to succeed Mr. Ovre) were sent to wait upon the Raja. 2. The Resident believes that the Raja has no concern either directly or otherwise in the nomination of the mediator who is an officer of the Danish Government appointed for the sole interest and convenience of that Government. The Raja's Government has no other communication or intercourse with him than what is purely official and the Resident is assured that "an extra official" dealing with this officer never existed.	57
Raja's Intercourse with Tondaman etc.		
16-4-06	From the Resident to the Raja pointing out that the approval of the Governor should be gained in regard to his intercourse either with the Tondaman or the Danish Government at Tranquebar or any other foreign ruler consistent with the provisions of the treaty.	61

Date.	Abstract.	Page number.
Chintamani Rao		
30-4-06	1. From the Resident to the Chief Secretary informing him that the Raja's pride was gratified at "the flattering deference and humility" expressed in Chintamani Rao's letter delivered to him by the messengers and that he appeared "slightly inclined" to meet the wishes of Chintamani Rao. 2. He remarks that if once the Raja were allowed to have intercourse with this individual "it could not be broken off hereafter without giving certain, although perhaps, secret disgust" to the Raja.	67
Assignment of Land		
1-5-06	In exchange for chatram revenue. 1. From the Resident to the Collector complaining that no reply has been received in regard to the letter calling for an enquiry into the misconduct of the Tahsildar of Papanasam reported by the Raja. Although the revenues of the chatram belonging to the Dowagar Bai Saheb have been surrendered over three months ago to the Company no transfer has yet been made of the land in exchange for the revenues alluded to. 2. The Resident remarks that "delay is often unavoidable but in such a case the attention of a line to explain the cause or merely to show that the delay does not proceed from contemptuous neglect would be flattering and remove the possibility of an erroneous impression being excited in the Raja's mind."	75
Passports		
2-5-06	1. From the Resident to Mr. Koefoed transmitting a supply of blank passports.	85
2-5-06	Mahrattas. 2. With the intention of assuring himself of Subba Rao's fidelity to him the Raja sent for Subba Rao's guru or spiritual guide and made Subba Rao swear in his presence that he would be ever devoted to the Raja's cause and never divulge the affairs of the palace. 2. The Resident observes that this "humiliating event" highly mortified Subba Rao and "counteracted strongly the impression which His Excellency's country was calculated to excite." The Raja employs him in translating letters and papers of every description but does not share his counsels with him.	161

Appanah Gady's enemies threatened to put an end to his life if he was not prevented from entering the palace. A Naigne and six sepoys were posted at the house which they jointly occupied to keep them in confinement. 3. The widow of Ameersing was urged by the Resident to exclude Appanah Gady from her presence. He remarks that the form of the address adopted by the Tahsildar is highly disrespectful and he should take steps to abolish it if such a practice has been allowed in previous years. 	Jurisdiction	
29-9-06	Company's Courts over Raja's property. From the Resident to Lord William Bentinck. 1. The Judges of the Company's Courts hold that according to the regulations they cannot make any distinction between lands under the authority of the Raja and those in the possession of any private individual. The Raja's contention is that the jurisdiction of the courts should not be extended over the lands in his possession until the forms under which it should be exercised have been determined with his approval. 2. He considers that his own private property, viz., his palaces and gardens and that of the queens, should be excluded from the jurisdiction of the courts. The Raja desires that the summons issued by the Judge to any inhabitant under the Raja's authority should be served through him and that the Raja's near relatives should not be summoned to the courts but a written declaration only being taken from them and admitted as their evidence. 3. This privilege should also be extended in the case of his principal ministers. In making these demands the Raja has been influenced solely by the importance of his rank and dignity. 4. From the Resident to the Chief Secretary transmitting the Raja's letter on the above subject to Lord William Bentinck.	341-9
	Raja's Account Current	
1-10-06	1. From the Resident to the Accountant-General. He points out that it is the desire of the Raja that the particulars of the charges on the gross revenue of Tanjore should be indicated in the statement of his account current with the Company for the official year 1805-6 in so far as to distinguish the charges purely of collection from those which are judicial or which are on account of the expenses of the Board or for advances of takavy.	351-65

7-11-06	Jurisdiction Company's Courts over the Raja's servants. From the Resident to the Magistrate at Kumbakonam. 1. The Raja protests against the arrest and confinement of one Sevendia Pillai, the Monigar of his gardens at Kumbakonam, directed by the Magistrate of that place. The Raja observes that the Magistrate has exceeded his jurisdiction in confining one of his servants and that he will represent to the Governor the violation of his rights and privileges and the serious injury to his dignity which have resulted from this act. 2. From the Resident to the Chief Secretary communicating the Raja's request to release his servant, Sevendia Pillai and his sentiments on the above subject. 3. He informs him that another servant of the Raja named Perumal Rauze is likewise confined by the orders of the Magistrate for being implicated in the crime alleged against Sevendia Pillai. 4. The Raja objects to the whole and every part of the jurisdiction of both the Criminal and Civil departments, of the Judge over his palaces and gardens. He trusts that the Governor will not leave the question to be determined by the Kazi of the Circuit Court according to the Muhammadan Law. 5. From the Resident to Lord William Bentinck observing that the idea of extending the jurisdiction of the Company's Courts over the Raja's palaces and gardens was not in the contemplation of the Government when the treaty with the Raja was concluded. He points out in support of this observation that when Ameersing wanted to leave the fort of Tanjore and reside at Madras he was not allowed to do so because his residence without the fort limits would render him liable to the jurisdiction of the British Courts making the Government powerless to protect him against the attacks of his creditors. 6. The late Resident considered the Raja and the queens to have absolute authority over their respective palaces, gardens, chattrams and other properties belonging to them. This exclusive authority has not been questioned until now by any of the Collectors or Magistrates except by the present Judges of Kumbakonam and Mannargudi.	405

...	Chintamani Rao Letter to the Raja. 1. This is a translation of the letter from Chintamani Rao to, the Raja of Tanjore. From time immemorial "a strict connection" has subsisted between the families of the correspondent and the Raja which should not be suffered to lapse on any account. 2. The Raja's proposal to Government in regard to the operation of the courts of justice in his own and the queen's villages is correct and consistent with the provisions of the treaty. 	Europeans	
15-9-07	Little fort. From Mr. Torin, London, to the Raja. The letter which the Governor wrote to Capt. Blackburne expressing his and Sir John Craddock's wish to place some Europeans in the little fort, must be flattering to the Raja. It would have been proper for the Governor not to have consulted with the Commander-in-Chief on this subject. 23-9-07	Difference of opinion with the Raja. From Mr. Torin, London, to the Raja. 1. He is much pained to hear from Mr. Blackburne that the Raja is dissatisfied with him. Mr. Torin advises the Raja that the superior good sense and knowledge of Tanjore possessed by Capt. Blackburne is of utmost importance to him and that he should never have cause to entertain inimical feelings towards him. He has fought the Raja's battles with the Collectors and Judges and he has preserved to the Raja the respect and esteem of the Governors of India. 2. He points out that if he should continue to be indifferent to the useful advice of the Resident and act contrary to the terms of the treaty he would not only forfeit the good opinion which the Court of Directors have of him but also alienate the sympathy of his friends in Europe.	419-29

The Resident points out that the Raja has no locus standi to interpose in this case where the parties are under the protection of the British Government. 3. All that the Mahratta Brahmins could do under the circumstances of the case is to consult Sankaracharyar and "the most learned pundits in all parts of India" without the interposition of the Raja. The Tahsildar of Tiruvadi has yet to supply forty garce of paddy at the Raja's palace in completion of the Raja's indent of 260 garce of paddy. 2. In respect of the supply already made, the Raja opines that if the purchase of grain had been made earlier when the prices were lower, an appreciable saving could have been effected. The Resident points out that the remaining quantity of grain should be purchased by the Tahsildar without further delay as the prices are likely to rise.	143
	Treason	
3-4-07	Trial of Ramanjee. From the Resident to the Chief Secretary. 1. The Government having called for his remarks on the deposition of Ramanjee before the Kumbakonam Magistrate, the Resident submits his observations. 2. Ramanjee's statement points to the conclusion that a conspiracy exists for the overthrow of the British Government between Chinnia Mudaly, the Raja, the Tondaman, the Raja of Ramnad, who was dispossessed and imprisoned, and the reigning Ranees of Ramnad. The Resident characterises this assertion as thoroughly false and "improbable." 3. Chinnia Mudaly is disliked by the Raja for having favoured the claims of the late Ameersing Raja to the throne. The Tondaman could not be on terms of cordiality with the Raja of Tanjore on account of their rival claim to the fort of Killenelly. Moreover the efforts of the Tondaman to raise himself to an equality with the Raja by obtaining a white umbrella and the	151-67

	title of Maharaja from the British Government rendered him an object of hatred to the Raja. Also the Raja refused to recognise the title of Raja and Bahadur conferred upon the Tondaman by the Nabob. 4. Of the Ranees of Ramnad it was highly improbable that she could engage in a conspiracy stipulating to part with her rights as a queen to the dispossessed Raja. 5. He thus ventures to prove the improbability of a conspiracy between individuals whose mutual relationship precludes any secret confederacy. He attacks the statement of the deponent as a tissue of falsehoods got up with no other idea than that of enriching himself by the chances of a prevailing rumour highly prejudicial to the interests of the British Government.	
	Exchange

	Irrigation	
12-4-07	Levies for major works. From the Resident to the Collector. 1. The Raja holds that he could not in justice be called upon to undertake works known as "the great maramat" which involve the deepening or widening the rivers, the construction of annicuts or repair of the river banks. As the prosperity of the country is dependent upon the execution of these works, they could not be entrusted to any one else other than the officers of the Circar. 2. It has been the practice to levy no "partial or extraordinary" charge on land held on favourable tenures to meet a portion at least of the cost of these works. The Resident informs the Collector that the Raja protests against the imposition of any demand on account of the execution of "the great maramat" in accordance with the ancient custom of the country. The Collector's sentiments on this subject will be communicated to the Raja on their receipt.	183
	Irrigation Repairs	
18-4-07	River bank. From the Resident to the Collector. The Raja had directed his managers to provide so many coolies as may be required by the Tahsildar for the repair of the bank of the Cauveri. The Resident hopes that the work will now be carried on to the satisfaction of the Superintendent of Tank Repairs.	187

9-7-07	Passport. Mr. Roussac. 1. From the Resident to Mr. Koefoed stating that though it is the intention of the British Government to restrict the issue of passports at Tranquebar in the case of persons other than Danes or British subjects, he could have no objection whatever to granting a passport to Madras to Mr. Roussac, an Officer of the Portuguese Royal Navy. 2. 8-8-07	Liability to pay land revenue. From the Resident to the Collector. 1. A demand was made by the Circar officials on the former proprietors of the land afterwards purchased and on which was built Muktabapoor chattram by the Raja. This demand was on account of the Government share of cultivation of a few valies of land. 2. The Raja holds that he being the present owner of the land in question the demand should have been made upon him and not on the former possessors and points out that the payment of it by him is incompatible with the grant of that land in inam to him by Government. 3. He also adverts to the communication of the Collector to him wherein he states that he had directed the land "to be transferred entirely to His Excellency and that all interference therein on the part of the circar officers had been withdrawn."	299
