# NORTH ARCOT DISTRICT

## GUIDE TO THE RECORDS

From 1800 to 1835.

### CHAPTER I.

#### INTRODUCTION.

The records of the North Arcot District, now deposited in the Madras Record Office, range from 1800 to 1835. There are, however, a few special papers of a date earlier than 1800, while the series of papers concerning political prisoners and pensioners from Mysore, Ceylon and the Northern Sirkars come down later than 1835. The normal district correspondence comprises revenue letters sent, letters received from the Board of Revenue and Government and a number of files relating to special subjects.

The series from 1821 to 1835 having been received in this office later than the series from 1800 to 1820, there is a break in the serial numbering.

Letters to the Board from 1819 to 1823 appear to be missing.

2. *The Table of Contents.*—The table of contents includes all papers in volumes 1 to 39(40), except mere reminders or covering letters. Of the remaining volumes, a selection only of the more important papers has been made.

3. In Chapter III will be found a list of reprints, available in the Record Office, of some of the more important documents.

### CHAPTER II.

#### HISTORICAL SKETCH.

1. *Physical features.*—North Arcot is an inland district lying between latitude 12° and 13° 30' and longitude 78° and 80°. The western part of the district is mountainous and the eastern part fertile and well-watered. The chief river is the Palar on which are situated the towns of Vellore and Arcot, both of them prominent in the struggle between aspirants to the throne of the Carnatic and in the wars between the English and the French during the 18th century. Vellore was, later on, a place of concentration for political prisoners and pensioners and the scene of a sensational mutiny of the native troops.

2. *District boundaries.*—The boundaries of the district have changed many times since it came into the hands of the East India Company in 1801. Mature administrative experience has here, as also in some other districts, rectified the line laid down by military necessity or diplomatic accident.

3. *Early land taxes.*—The earliest civilized government in the district seems to have been that of the Kurumbas or Pallavas. We know very little of their methods of taxing the cultivator, though it is generally thought they had no land revenue system analogous to that which existed under their successors, the Cholas. Their levy on the land consisted of "first fruits". The Cholas are credited with having colonized Tondaimandalam and established the system known as mirasi, which created a special privileged class entitled to a share of the village lands at the time of periodical redistribution.

4. *Land tenure.*—The successful pursuit of agriculture requires capital in land, capital in stock and labour. These three functions may be combined in one person, but often we find them separate, the owner of the land being an active or a sleeping partner, the supervision and part or all of the stock belonging to a tenant farmer while a wage-earner supplies the labour. Where there exists a class of owners of land as distinct from actual cultivators, their privileged position is usually justified by their performance of some special service to the community, military, civil or ecclesiastic. In the old village communities of this district, the ownership of the land vested in the Kaniyatchis or mirasidars and the supervision of cultivation with the Payakaris or tenants, some of whom, known as Ulkudi payakaris had acquired, in course of time, a permanent right of occupancy. Below these, was a class of landless labourers whose wages were paid in kind.

The high level of assessments imposed by the Mohametan rulers gradually absorbed the surplus due to the mirasidars who, being unable to employ payakaris to cultivate, let a portion of their lands go out of cultivation. The Government, however, took these uncultivated lands and leased them out to strangers. The old status of the mirasidars had sunk very low by the time of the British occupation. The first European Collector of the district actually reported that the mirasi system had no existence in North Arcot. Later it was found that traces of it did exist and reference will be found to the subject in the official records.

5. *Later land taxes.*—The ancient land tax was in kind and not in money. According to Manu, it should be one-sixth of the produce, but in time of war as much as one quarter. In the thirteenth century the Pandyan kings demanded the one-sixth in grain separated from the husk, an enhanced rate which obtained until the empire of Vijayanagar had established its sway over the South. This Government demanded from the cultivator one-sixth for the king, one-thirtieth for the brahmans and one-twentieth for the gods, all to be paid to the sovereign. This took from the mirasidar one-fourth of the gross produce. After the fall of Vijayanagar, the district came under the control at various times, of various local governments who increased the demand by temporary imposts to about half the gross produce. The Mohametans regarded this half as their normal share. The British finding this standard in existence, very reasonably assumed that it was a right and proper one and attempted to maintain it. Only very gradually did the higher authorities come to realize that the burden was heavier than the ryot could bear.

6. *Early British administration.*—Mr. Stratton, the first Collector, made the settlement in faslis 1211 and 1212. The first improvement was to eliminate the renter. The Nawab had made a direct settlement with some villages, but had rented out the majority either singly or in whole districts. Mr. Stratton made the settlement wherever possible direct with the head inhabitants. The Board at first appears to have contemplated a return to the old mirasi system, "where the proprietary inhabitants at large of each village enter into engagements with the Sirkar and derive a common and exclusive interest in the cultivation of their lands in proportion of their rate of property". It appears from Mr. Stratton's report that he fixed the demand on wet lands by estimating the value of the Government share of the crop for that particular year and converting it into money at the current market rate. But his reports are not altogether clear on the point.

In fasli 1213 Mr. Cockburn made a ryotwari settlement. The resultant examination of the lands and accounts brought to light much concealed cultivation and in spite of the year being an unfavourable one, the revenue increased. Thereafter the district went through the various phases of experiment presented by the survey and settlement, the triennial village leases, the decennial village leases and the final return to the ryotwari system. Mr. Grieg who was Collector from 1804 to 1818 and who finished his career as a Member of Council, was a staunch supporter of the ryotwari system and his arguments and protests on its behalf, as found amongst the official records, will repay a careful study.

4. *Land tenure.*—The successful pursuit of agriculture requires capital in land, capital in stock and labour. These three functions may be combined in one person, but often we find them separate, the owner of the land being an active or a sleeping partner, the supervision and part or all of the stock belonging to a tenant farmer while a wage-earner supplies the labour. Where there exists a class of owners of land as distinct from actual cultivators, their privileged position is usually justified by their performance of some special service to the community, military, civil or ecclesiastic. In the old village communities of this district, the ownership of the land vested in the Kaniyatchis or mirasidars and the supervision of cultivation with the Payakaris or tenants, some of whom, known as Ulkudi payakaris had acquired, in course of time, a permanent right of occupancy. Below these, was a class of landless labourers whose wages were paid in kind.

The high level of assessments imposed by the Mohametan rulers gradually absorbed the surplus due to the mirasidars who, being unable to employ payakaris to cultivate, let a portion of their lands go out of cultivation. The Government, however, took these uncultivated lands and leased them out to strangers. The old status of the mirasidars had sunk very low by the time of the British occupation. The first European Collector of the district actually reported that the mirasi system had no existence in North Arcot. Later it was found that traces of it did exist and reference will be found to the subject in the official records.

5. *Later land taxes.*—The ancient land tax was in kind and not in money. According to Manu, it should be one-sixth of the produce, but in time of war as much as one quarter. In the thirteenth century the Pandyan kings demanded the one-sixth in grain separated from the husk, an enhanced rate which obtained until the empire of Vijayanagar had established its sway over the South. This Government demanded from the cultivator one-sixth for the king, one-thirtieth for the brahmans and one-twentieth for the gods, all to be paid to the sovereign. This took from the mirasidar one-fourth of the gross produce. After the fall of Vijayanagar, the district came under the control at various times, of various local governments who increased the demand by temporary imposts to about half the gross produce. The Mohametans regarded this half as their normal share. The British finding this standard in existence, very reasonably assumed that it was a right and proper one and attempted to maintain it. Only very gradually did the higher authorities come to realize that the burden was heavier than the ryot could bear.

6. *Early British administration.*—Mr. Stratton, the first Collector, made the settlement in faslis 1211 and 1212. The first improvement was to eliminate the renter. The Nawab had made a direct settlement with some villages, but had rented out the majority either singly or in whole districts. Mr. Stratton made the settlement wherever possible direct with the head inhabitants. The Board at first appears to have contemplated a return to the old mirasi system, "where the proprietary inhabitants at large of each village enter into engagements with the Sirkar and derive a common and exclusive interest in the cultivation of their lands in proportion of their rate of property". It appears from Mr. Stratton's report that he fixed the demand on wet lands by estimating the value of the Government share of the crop for that particular year and converting it into money at the current market rate. But his reports are not altogether clear on the point.

In fasli 1213 Mr. Cockburn made a ryotwari settlement. The resultant examination of the lands and accounts brought to light much concealed cultivation and in spite of the year being an unfavourable one, the revenue increased. Thereafter the district went through the various phases of experiment presented by the survey and settlement, the triennial village leases, the decennial village leases and the final return to the ryotwari system. Mr. Grainger, who was Collector from 1804 to 1818 and who finished his career as a Member of Council, was a staunch supporter of the ryotwari system and his arguments and protests on its behalf, as found amongst the official records, will repay a careful study.

4. *Land tenure.*—The successful pursuit of agriculture requires capital in land, capital in stock and labour. These three functions may be combined in one person, but often we find them separate, the owner of the land being an active or a sleeping partner, the supervision and part or all of the stock belonging to a tenant farmer while a wage-earner supplies the labour. Where there exists a class of owners of land as distinct from actual cultivators, their privileged position is usually justified by their performance of some special service to the community, military, civil or ecclesiastic. In the old village communities of this district, the ownership of the land vested in the Kaniyatchis or mirasidars and the supervision of cultivation with the Payakaris or tenants, some of whom, known as Ullaudi payakaris had acquired, in course of time, a permanent right of occupancy. Below these, was a class of landless labourers whose wages were paid in kind.

The high level of assessments imposed by the Mohametan rulers gradually absorbed the surplus due to the mirasidars who, being unable to employ payakaris to cultivate, let a portion of their lands go out of cultivation. The Government, however, took these uncultivated lands and leased them out to strangers. The old status of the mirasidars had sunk very low by the time of the British occupation. The first European Collector of the district actually reported that the mirasi system had no existence in North Arcot. Later it was found that traces of it did exist and reference will be found to the subject in the official records.

5. *Later land taxes.*—The ancient land tax was in kind and not in money. According to Manu, it should be one-sixth of the produce, but in time of war as much as one quarter. In the thirteenth century the Pandyan kings demanded the one-sixth in grain separated from the husk, an enhanced rate which obtained until the empire of Vijayanagar had established its sway over the South. This Government demanded from the cultivator one-sixth for the king, one-thirtieth for the brahmans and one-twentieth for the gods, all to be paid to the sovereign. This took from the mirasidar one-fourth of the gross produce. After the fall of Vijayanagar, the district came under the control at various times, of various local governments who increased the demand by temporary imposts to about half the gross produce. The Mohametans regarded this half as their normal share. The British finding this standard in existence, very reasonably assumed that it was a right and proper one and attempted to maintain it. Only very gradually did the higher authorities come to realize that the burden was heavier than the ryot could bear.

6. *Early British administration.*—Mr. Stratton, the first Collector, made the settlement in faslis 1211 and 1212. The first improvement was to eliminate the renter. The Nawab had made a direct settlement with some villages, but had rented out the majority either singly or in whole districts. Mr. Stratton made the settlement wherever possible direct with the head inhabitants. The Board at first appears to have contemplated a return to the old mirasi system, "where the proprietary inhabitants at large of each village enter into engagements with the Sirkar and derive a common and exclusive interest in the cultivation of their lands in proportion of their rate of property". It appears from Mr. Stratton's report that he fixed the demand on wet lands by estimating the value of the Government share of the crop for that particular year and converting it into money at the current market rate. But his reports are not altogether clear on the point.

In fasli 1213 Mr. Cockburn made a ryotwari settlement. The resulting examination of the lands and accounts brought to light much concealed cultivation and in spite of the year being an unfavourable one, the revenue increased. Thereafter the district went through the various phases of experiment presented by the survey and settlement, the triennial village leases, the decennial village leases and the final return to the ryotwari system. Mr. Grant who was Collector from 1804 to 1818 and who finished his career as a Member of Council, was a staunch supporter of the ryotwari system and his arguments and protests on its behalf, as found amongst the official records, will require a careful study.

The early settlements all imposed an undue burden on the cultivator. On wet lands, Government deducted from the gross produce a mera or amount due to the village officers and then divided the balance equally with the ryot. On dry lands, no mera was deducted and the ryot's share was two-thirds. The following table shows the respective shares of Government and the ryot.

Mr. Græme's paimash.

|                         | Government share. | Ryot's share. |
|-------------------------|-------------------|---------------|
| Dry .. .. .             | 33.25             | 66.75         |
| Wet .. .. .             | 46.75             | 53.25         |
| Do. under wells .. .. . | 33.25             | 66.75         |
| Garden .. .. .          | 25                | 75            |

7. *Gradual amelioration.*—At first the share of Government fluctuated annually with the crop. But when attempts were made to fix the assessment permanently, that share was fixed on the basis of an average of the receipts of a series of years. It was commuted at a rate based similarly on the prices obtaining in a series of normal years. But the assessment still remained too high and defeated all attempts to introduce a permanent settlement. When Mr. Græme left the district in 1818, he recommended a reduction of 12 per cent. in the rate, which Government approved in 1821. In 1825, Mr. Nisbet recommended a further discriminate reduction. The district had never been satisfactorily surveyed. In 1822, a resurvey was sanctioned, which progressed very slowly. In 1827, Mr. Roberts recommended a reduction of 10 per cent. In 1838, Mr. Bourdillon reported that much of the best land in the Southern Division was lying waste and that the revenues of the Southern Division had steadily decreased since the Company took them over. In 1854, when he became a Member of the Board he recommended substantial reductions in the rates of assessment. The position of the ryot had still further worsened owing to the fall in prices. Government granted temporary relief and accepted Mr. Bourdillon's proposal to make a genuine and systematic revision of the assessment. In 1856, Mr. Banbury submitted his detailed proposals for reduction, which were carried into effect. They resulted in an immediate big fall in revenue, but the loss was recovered in a few years. Between 1871 and 1879, a regular cadastral survey was carried out and, with Mr. Rundall's settlement, the district finally entered on the modern period of land revenue administration.

### CHAPTER III.

#### REPRINTS.

Reprints of the original records are a most valuable auxiliary to the historical student. For many years each District Collector enjoyed the amenities of a press in his headquarters and under his control. Government encouraged him to reprint old official documents that seemed to him to have an historical value and much valuable material issued from these presses in consequence. Unfortunately, no central authority undertook to receive and preserve these reprints. Recently, the Madras Record Office has undertaken a systematic search in other offices for these reprints of which it now possesses a large collection. The list given in this chapter includes several papers of the period later than 1835. They have been included for the sake of completeness. The order in the list is chronological but not strictly so because the district papers frequently bound together several papers in a single volume.

## CHAPTER V.

## THE TABLE OF CONTENTS.

The table of contents, as already noted (Chapter I), gives a complete list of the individual papers in certain volumes and a selection of those in others. Reminders or covering letters have, however, been omitted unless they contain some information having an extraneous value.

Unless it is specifically stated or is clear from the context, the papers relate to individual cases and not to orders or discussions of general application.

Each entry consists of a title, followed when the interest of a paper demands it, by a sub-title and a precis of its contents.

To enable students to obtain a bird's eye view of the subject, a key to the table of contents is prefixed. This key includes all titles used in the table except proper names. It also groups the more important titles into convenient classes. To this are added indexes of personal names, European, Hindu and Mahometan.

## KEY TO THE TABLE OF CONTENTS.

## A

*Abkari*  
*Regulations, Renters.*  
 See also Arrack, Betel, Opium, Salt,  
 Toddy.  
*Accounts.*  
*Advances.*  
*Agricultural Advances.*  
*Alienations of Revenue.*  
*Allowances.*  
*Ammunition.*  
*Animals.*  
 See Elephants, Sheep.  
*Annual Settlement.*  
*Arms and Ammunition.*  
*Arrack.*  
*Arrears.*  
*Assignment of Land.*  
*Assistant Collector.*  
*Audit.*

## B

*Bank*  
*Cheques, Notes.*  
*Bazaar Fund.*  
*Betel.*  
*Bhondees.*  
*Bills of Exchange.*  
*Boundary Villages.*  
*Bribery.*  
*Brinjaris.*  
*Buildings.*  
*Bungalows.*  
*Burning and Burial Grounds.*

## C

*Cantonment.*  
*Carnatic.*  
*Carnatic*  
*Families, Jaghirs.*  
*Cartridges.*  
*Cash*  
*Balance, Bills, Escort, Indent, Receipts.*  
*Caste Disputes.*  
*Cattle Trespass.*  
*Censorship.*  
*Census.*  
*Ceylon Pensioners.*  
*Chaplains.*  
*Charitable Allowances.*  
*Cholera.*  
*Christian Converts.*  
*Church.*  
*Civil*  
*Fund, Servants.*  
*Cloths.*  
*Coins.*  
*Collector's*  
*Commission, Cutcherry, Diary.*

## C—cont.

*Commercial Resident.*  
*Communications.*  
 See Postal, Roads, Travellers' bungalows.  
*Conspiracy at Vellore.*  
*Contaroy Fanam.*  
*Contingencies.*  
*Convict Labour.*  
*Copper*  
*Coins, Mines.*  
*Correspondence.*  
*Cotton Cultivation.*  
*Court of Wards.*  
*Cowles.*  
*Crime (Unofficial).*  
 See Murder, Prisoners, Robbery, State prisoners, Theft.  
*Criminal Case.*  
*Cultivable Land.*  
*Currency, etc.*  
 See Contaroy fanam, Copper coins, Gold ingots, Gold and silver coins, One-eighth rupee, Puloeput pagodas, Star pagodas.

## Customs

*Chowki, Complaint, Duties, Exemption, Law, Licences, Offences, Rawanas, Regulations, Servants.*  
 See Frontier customs, Inland customs, Land customs, Sea customs, Smuggling.

## D

*Dasabandham Inams.*  
*Decennial Lease.*  
*Discipline and Control.*  
 See Bribery, Dismissal, Embezzlement.  
*Dismissal.*  
*District Courts.*  
*Disturbances.*  
*Dutch*  
*Reformed Church, Settlements.*

## E

*Economic.*  
 See Bank, Brinjaris, Convict labour, Currency, Famine relief, Floods, Food control, Forests, Fuel supply, Granaries, Migration, Prices, Season report.  
*Elephants.*  
*Encroachments.*  
*Establishments.*  
 See also Assistant Collector, under Collectors, Civil Servants, Commercial Resident, Court of Wards, Customs, General establishments, Head writer, Hirkarras, Judicial, Junior Civil Servants, Karnam, Military, Nawab, Paymaster, Police, Postal, Public servants.  
*Estates.*  
*Europeans.*

## E—cont.

*Evidence.*  
*Exchange Rates.*  
*Extra Revenue.*

## F

*Family Pensions.*  
*Famine Relief.*

## Financial.

See Accounts, Advances, Audit, Bills of  
 Exchange, Cash, Exchange rates, Loans  
 to Government, Suspense accounts.

## Fines.

## Floods.

## Food Control.

## Forests.

## Forts.

## Franking.

## Frontier Customs.

## Fuel Supply.

## Furniture.

## G

## General

*Administration, Establishments.*

## Glass-making.

## Gold Ingots.

## Gold and Silver Coins.

## Goomsoor Family.

## Government

*Bonds, Buildings.*

## Grain.

## Granaries.

## H

## Head Writer.

## Hemp.

## Hill Estates.

## Hirkarras.

## House-tax.

## Haidur Ali's Family.

## I

## Images.

## Inams, etc.

See Dasabandham, Jaghirs, Kavali, Life  
 Jaghirs, Mosque, Mushruti, Quit-rent,  
 Religious, Shrotriyams, Yeomials.

## Inam Villages.

## Industries.

See Glass-making, Salt, Saltpetre,  
 Weavers.

## Inland Customs.

## Invalid Sepoys.

## Irrigation

*Dispute, Repairs.*

## J

## Jaghirs.

## Jamabandi.

## J—cont.

## Judicial.

*Administration, Establishment, Regulations.*

See also Crime, Evidence, Kavali, Police,  
 Processes, Summary trials, Summons  
 Witnesses.

## Junior Civil Servants.

## Jurisdiction.

## K

## Kandyan

*Palace, Pensioners, Rebellion.*

## Karnam.

## Kavali Inam.

## Kazi.

## King of Kandy.

## L

## Land Customs.

## Land Revenue.

See Alienations of revenue, Annual  
 settlement, Arrears, Assignment of land,  
 Boundary villages, Decennial lease,  
 Inams, Jaghirs, Jamabandi, Permanent  
 settlement, Peshcash, Quit-rent, Reve-  
 nue, Ryotwari, Septennial settlement,  
 Settlement report, Shrotriyams, Survey  
 and settlement, Waste lands, Water-  
 rate, Yeomials, Zamindari settlement.

## Land Tenure.

See Mirasi.

## Leases.

## Leave.

## Life Jagirs.

## Loans to Government.

## Loom-tax.

| 31-1-1803          | <b>Tirupati Temple</b><br>Sources of revenue.<br>1. The Collector reports to the Board on the sources of revenue of Tripetty Pagoda.<br>2. <i>The temple.</i><br>The temple is at the top of a hill running north and south. It is 7 miles from the village below.<br>The idol is worshipped under one thousand different names but the most common are, Venkataramanaswamy, Srinewasa swamy and Seshachella vasah.<br>The idol is 7 feet in height with four arms, a personification of Vishnoo.<br>3. <i>Founder.</i><br>The founder of the temple is said to have been Tondimaun Chuckrawartee, a sovereign of Tondinanaud, now a district of the Calestry Zamindari.<br>4. <i>Sources of revenue.</i><br>The principal source of revenue is from oblations made by those who perform vows. The next is from presents of jewels, etc., made to the idol.<br>There are also receipts on different occasions such as the abbeeshakum or purification of the idol, processions, etc.<br>Another source of revenue is from the issue of forms and licences to sell sweetmeats, images, to barbers, etc., and finally a tax of 3 fanams levied on pilgrims ascending the hill. The Collector recommends the abolition of this last charge. | 1-14          |

| 22-2-01 | The Collector reports to the Board that Abdul Nabbhee is plundering the country near Ongole.<br>He was Dewan of the Poligar of Venkatagerry for 12 years and afterwards Amildar of Podela Cota in Venkatagiri Zamindari. When he began to oppress the people he was deprived of his appointment. The Poligar of Vencatagerry has made over to him several villages for maintaining 300 peons for his (the Poligar's) service. He has built a fort of mud and stone at Putlapaudoo and has entertained 90 thieves who have commenced their depredations in the villages. | 25-8          |

| 14-1-1803 | <b>Military Bazaars</b><br>Levy of customs duties.<br>1. The Collector reports to the Board on the levy of tax on shops and houses of traders residing within garrison limits.<br>2. In Salem and the Baramahal the tax payable on cloth shops is 2 fanams and 60 cash and on other petty shops 2 fanams.<br>3. No articles consumed within the garrison limits are liable to duty except arrack, butcher's meat and betel leaf, the privilege of sale of which is given in "farm".<br>4. <i>Betel and tobacco.</i><br>If the inland duties on most commodities are abolished the levy of tax on the above articles would be the best way to save Government from loss. If the price of betel leaf is increased owing to the levy of tax, its consumption will be discouraged and its culture diminished. Thus it will prevent stock being employed for the raising of the betel which is more profitable than the cultivation of ordinary produce. Betel leaf is not much used by the poorer class (common labourers). A rise in its price would not therefore have any tendency to increase the wages of their labour. If a tax on tobacco has the effect of raising its price it would affect the labourers who will demand higher wages as they are great consumers of tobacco.<br>5. <i>Inland customs.</i><br>The Collector recommends first the abolition of inland customs and then the levy of an additional tax on tobacco, etc. | 3-5, 8 | Vol. 4. |

Abstract.

Page  
number.**Permanent Settlement—cont.**

2. The Baramahal is divided into 70 estates with an annual jumma from St. Pag. 2,927 to St. Pag. 784. This excludes the Hill estate of Yallagherry with a jumma of St. Pag. 414. The revenue of f. 1211 is proposed as permanent rent.

3. The revenue of f. 1211 is in some estates above the average revenue for the last 10 years. In ff. 1205 and 1206, when the rent of the land was fixed and ryots permitted to occupy as little land as they chose, they contracted their farms and adopted the size suitable to the stock with them. This diminished the extent under cultivation and produced a fall in revenue but it considerably increased the produce and the profit of the ryot. The lessening of the extent of farms did not affect the revenue. The villages in the revenue of which a great reduction took place in ff. 1205 and 1206 may not possess any superiority over the villages whose revenue is above the average.

4. *Reduction in revenue.*

The reduction in revenue proposed will provide for every fluctuation in the extent of land under cultivation.

5. *Purchasers of estates.*

The principal ryots will become the purchasers of estates.

6. *Tengricottah.*

The assessment proposed on this is higher than the revenue of last year. Tengricottah when under the Mysore Government yielded a revenue of St. Pag. 32,000. In f. 1202, the first year after its cession, the jumma was St. Pag. 20,061 owing to depredations committed by a poligar. The revenue, however, gradually increased till f. 1206 when Major Munro, in consideration of the loss in stock to the ryots and the country, reduced the assessment to one-third, with an idea of raising it to its former rate after 3 years.

7. *Increase of 10 per cent.*

The Collector reports that there has been no extension of cultivation and that the ryots have taken to grazing and maintaining their flocks. In order to fix the permanent assessment he adds 10 per cent. to the rent of last fully.

8. *Migration of ryots.*

The ryots seek change from one place to another for low-rated lands. This should be discouraged. But in this district they have no desire for change because the rent of land was everywhere the same.

|         | The Collector reports to the Board that a sum of Pag. 5,000 is required for the repair of tanks, etc.<br>The amount spent on repairs to tanks, etc., is not an irrecoverable charge on revenue but an advance necessary to its support that will in the second or third year, owing to extended cultivation, revert to the treasury. It will also benefit the ryots and the country in general.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |              |

| 23-3-03 | <b>Jamabandi</b><br>Baramahal, etc.—Report for f. 1212.<br>1. <i>Total amount of revenue.</i><br>The Collector reports to the Board that the total collection is St. Pag. 8,42,340-32-28. The gross revenue exceeds that of last year by St. Pag. 2,932-6-3.<br>2. <i>Land rent.</i><br>There is a decrease of St. Pag. 2,374-5-4 this year but the deficit is made good by a reduction in establishment. There is thus an excess under this head of St. Pag. 47-0-8.<br>3. The loss to Government in revenue is made good by,<br>(a) Reduction in expenditure on account of village servants,<br>(b) Increase of revenue on account of customs duties,<br>(c) Levy of quit-rent on inams,<br>(d) Increase in rent on betel-nut plantations, and<br>(e) Increase in village taxes (Soornadayum).<br>4. <i>Customs.</i><br>The revenue under this has increased this year by St. Pag. 2,580. The increase is due to a rise in trade manufactures as no alteration has been made in the rates of customs duties.<br>5. <i>Balaghaut.</i><br>The revenue of the Balaghaut is less than that of last year by St. Pag. 3,102-28-14. The decrease is mainly under customs and "farms". The customs of Alumbaddy for want of offers was reserved in 'aumanie' the rent of which last year was St. Pag. 383. A sandalwood farm was rented last year for St. Pag. 1,695 and this is "reserved in aumanie" in the current year. These two items together come to St. Pag. 2,098. | 73-80        |

| 17-4-03 | Agricultural Advances<br>1. The Collector submits an explanation for the increase in advances for cultivation in the estimate for the current year.<br>2. <i>Advances by renters.</i><br>The increase is not much when compared with the assistance rendered by the renters in grain or in money.<br>3. <i>Increase of revenues.</i><br>The increase in revenue on account of such advances "will be either negative or positive, the former when given to prevent a loss, the latter when bestowed to secure a benefit. Advances for the purchase of seed or cattle or the implements of husbandry, may be in their effects ranged under the first" category. Advances made for digging wells, repair of tanks, etc., whereby low-rated land is converted into higher assessed—the effect of such advances may be classed under the second category, i.e., positive. | 95-110       |

| 8-8-03  | The Collector informs the Magistrate of Salem that Coma Nair and 7 others, all prisoners, are guilty of plundering the treasury at Dunkenicottah and afterwards inciting the inhabitants of Dunkenicottah and Ossoor to rebel and resist the civil authorities. He does not recommend their release.                                                                                                                                                                                         | 145-6           |

|         | 1. The Collector reports to the Board the delay made by the poligars in the payment of peshkash and the measures to be adopted for collection.                                                                                                                                                                                                                                                                                                                                               |                 |
|         | 2. The poligars are withholding the payment of their tribute and are prepared to disobey and oppose Government. Unless a military force is brought against them they will not give up their old habits.                                                                                                                                                                                                                                                                                      |                 |
|         | 3. Each of the 10 poligars has from 250 to 750 armed men. They are "more accustomed to predatory adventure than to warlike enterprize, are insufficient to withstand the movements of even a very small regular force. The works of defence in the pollams are of no consideration". A "well appointed and effective battalion of native troops with a few hundred peons to explore the jungle being assembled at Chittoor, they would subscribe to such terms as might be offered to them". |                 |
|         | 4. (a) Orders sent to them are attended to only after frequent repetitions.                                                                                                                                                                                                                                                                                                                                                                                                                  |                 |
|         | (b) They refuse to "repair to the Cutcherry when summoned upon business".                                                                                                                                                                                                                                                                                                                                                                                                                    |                 |
|         | (c) They stop the "course of justice by giving concealment to defendants or witnesses required to substantiate doubtful point".                                                                                                                                                                                                                                                                                                                                                              |                 |
|         | (d) They afford shelter and encouragement to banditti of all descriptions.                                                                                                                                                                                                                                                                                                                                                                                                                   |                 |

| Date.   | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Vol. 4—cont.<br>Page<br>number. |

| 27-8-03 | <b>Religious Ceremony</b><br>Estimate—Sanction.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 162                             |
| 28-8-03 | <b>Revenue Establishments</b><br>Estimate.<br>1. The Collector reports to the Board the estimate of expenditure on the establishments in the district.<br>2. <i>Baramahal and Balaghaut.</i><br>The estimate for the year is less than that of last year by St. Pag. 5,685-13-9. The decrease is due to reduction in the number of offices and in lessening the pay of village servants.<br>3. <i>Temple furniture.</i><br>The Collector requests sanction for repairing the "Coach" at Dunkiniccottah and for providing furniture to temples.<br>4. <i>Additional peons.</i><br>The Collector requests sanction for the entertainment of 20 additional peons for carrying tappals to different parts of the country and a sum of St. Pag. 300 is on this account an excess over the last year's figure. | 163-9                           |

| 4-6-05  | Collections for 1802-03 and 1803-04.<br>From the Collector to the Board.<br>In the Northern Division of Arcot there was an increase of St. Pag. 6,472-9-37 but in the Baramahal Division there was a decrease of St. Pag. 10,197. The decrease is due to the abolition of road duties in Baramahal and not to a diminution in trade.                           | 44-7         |

| 15-3-06  | <b>Revenue Establishment</b><br>Estimate of charges.<br>1. The Collector reports to the Board that sanction may be accorded for a sum of St. Pag. 1,87,098-32-20 for f. 1215—an increase of St. Pag. 38,149-18-18 over last year's figure.<br>2. The increase is due to an increase in the pay of the Sarishtadar, an increase in the establishment (gumastah, English writers, etc.), the construction of office premises and a choultry, the repair of roads, etc., pensions to the late jagheerdars, Tirupati cawelly establishment, tent allowance to the Register, etc. | 5-21                     |

| 11-2-07 | <b>Inam</b><br>Narshanoor-village—Hussain Ali Khan's claims.<br>1. The Collector reports to the Board that the village was granted to Tucky Hussain Ally Khann by Munjune Begum, daughter of the Nawab Wallajah.<br>2. After the assumption of the country by the Company the grantee had a right to the ground but "it rests with the Board to decide whether that right has not been done away together with the proprietary right in the Jaghir of Wundawash of which this village formed part."                                                                                                                                                                                                                                                        | 15-20         |
| 13-2-07 | <b>Settlement Report</b><br>F. 1216.<br>1. The Collector reports on the settlement of the district for the current fasli.<br>2. <i>Remission.</i><br>He reports that he has relinquished the rent of those lands whose crops have totally failed but not of those which are partially productive.<br>3. <i>Wells.</i><br>He reports that it is better and safer to disburse public money for the construction of wells than for repairs to tanks.<br>4. <i>Trade with Mysore.</i><br>The Collector also suggests that arrangements may be made with the Mysore Government to ensure an open and free trade between the two countries as communication has at different times been seriously interrupted and grain ceased to be imported except by stealth. | 20-5          |

| 11-2-07 | <b>Inam</b><br>Narshanoor village—Hussain Ali Khan's claims.<br>1. The Collector reports to the Board that the village was granted to Tucky Hussain Ally Khann by Munjune Begum, daughter of the Nawab Wallajah.<br>2. After the assumption of the country by the Company the grantee had a right to the ground but "it rests with the Board to decide whether that right has not been done away together with the proprietary right in the Jaghir of Wundawash of which this village formed part."                                                                                                                                                                                                                                                        | 15-20         |
| 13-2-07 | <b>Settlement Report</b><br>R. 1216.<br>1. The Collector reports on the settlement of the district for the current fasli.<br>2. <i>Remission.</i><br>He reports that he has relinquished the rent of those lands whose crops have totally failed but not of those which are partially productive.<br>3. <i>Wells.</i><br>He reports that it is better and safer to disburse public money for the construction of wells than for repairs to tanks.<br>4. <i>Trade with Mysore.</i><br>The Collector also suggests that arrangements may be made with the Mysore Government to ensure an open and free trade between the two countries as communication has at different times been seriously interrupted and grain ceased to be imported except by stealth. | 20-5          |

| 1-8-07  | Arrears—Peshkash.<br>1. The Collector reports to the Board that certain zamindars in Baramahal division are in arrears.<br>2. He recommends that whole estates should be sold for arrears of revenue and not portions of them. "Much time is lost in ascertaining the value of divisions of an estate and in correspondence with the Tahsildars and your Board. In this period the estate remains in a very unsettled state, neither permanently placed under the Sirkar management nor regularly transferred to a new proprietor."                                                                                                                                                                                                                                                                                                                                                          | 79-89                           |

| Date.    | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Page number. |

| 16-1-08                        | F. 1216.<br>1. The Collector explains to the Board why he fixed half of the full rent in respect of dry and one-third in respect of wet lands.<br>2. The season of f. 1216 was so unfavourable that to recover full rent in respect of fields which failed in their crops would be to reduce the ryots to poverty from which it would be difficult for them to recover. It was found that karnams' accounts were greatly falsified and that Government would be robbed of their fair dues if they acted implicitly upon them.<br>Dry land was assessed higher than the wet as the produce was generally better.<br>3. The Collector complains that very often karnams, monigars and other public servants have to attend the judicial courts and this is an impediment to the efficiency of revenue management.                                                      |              |

| 29-5-08 | <b>Inams</b><br>Cuddapanuttum—Restoration proposals.<br>The Collector recommends the restoration of inam lands in Cuddapanuttum. These are Kotta Manium, i.e., lands granted as an "indemnification for the expenses of constructing small forts and towers close to different villages and of keeping them in repair." These are "highly useful in enabling the inhabitants to secure their property and to withstand the assaults of irregular cavalry or the loose irruptions of wandering freebooters whose instruments of attack and the exigencies of their circumstances do not admit of their laying regular siege to any place." There are 73 forts and 111 towers with inam lands. | 53-4                 |

| 20-7-08 | F. 1218—Proposals.                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 82-9         |
|         | 1. The Collector reports to the Board on the introduction of village rents in the district.                                                                                                                                                                                                                                                                                                                                                                        |              |
|         | 2. <i>Objections to village rents.</i><br>It makes a sacrifice of the interests of a great body of the people, viz., the cultivating ryots, in favour of a comparatively few individuals. The monigars of villages, the moment they become renters, will set about enlarging their profits by extending the cultivation and will not permit the ryots to enjoy a greater proportion of the produce than is barely sufficient to maintain them for the year.        |              |
|         | 3. "It shuts up many of the present sources of information of the resources of the country and its general state."                                                                                                                                                                                                                                                                                                                                                 |              |
|         | 4. "It cuts off all minute intercourse between Europeans of respectability and the majority of the population of the country."                                                                                                                                                                                                                                                                                                                                     |              |
|         | 5. The ryot will "resign his independence in the hands of the monigar" as he is often obliged to claim a remission of rent or beg pecuniary assistance from him when there is a failure of crops, loss of cattle or family misfortunes."                                                                                                                                                                                                                           |              |
|         | 6. The ryot finds it extremely difficult to obtain speedy redress of his grievances from a court which may be at a distance. Even when he attends court, there are numerous points against him. The monigar has a strong party in the village to speak in his own favour and he is better acquainted with the regulations, court procedure, etc. The Judges moreover have no real knowledge of the ryot's difficulties.                                            |              |
|         | 7. The Collectors and Europeans will lose a great means of becoming acquainted with the habits and manners of the people and their general condition.                                                                                                                                                                                                                                                                                                              |              |
|         | 8. <i>Pay of village servants.</i><br>The Collector recommends an increase of pay to village servants. This will have the effect of reducing frauds in the accounts of karnams and oppression by monigars. He recommends that lands whose crops have been destroyed should be assessed by the Collector and karnams and monigars should be liable to dismissal by him for misconduct. With some other suggestions he reports that village rents may be introduced. |              |

|          | <b>4. Land Revenue.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |              |
|          | After certain deductions such as remissions, inams of village sibbandy, etc., the remaining settlement of land revenues is St. Pag. 2,70,279-11-23. This is less than the total for f. 1215 by St. Pag. 54,379-15-0. The famine is the cause of the fall in revenue. It occasioned the loss of a great number of cattle and the emigration of many of the ryots and also impaired the means of the remaining population. As the rains were late for the dry crops there is a decrease of St. Pag. 35,948-19-38 in the dry crop assessment. |              |

|          | <b>Settlement Report—cont.</b>                                                                                                                                                                                                                                                                                                                                                                                                        |              |
|          | 3. <i>Tanks and watercourses.</i>                                                                                                                                                                                                                                                                                                                                                                                                     |              |
|          | If Government do not contribute to the repairs of tanks, the remission to be made to renters will be very considerable. In order that the renter might execute ordinary repairs to tanks the Collector recommends remission of 3 per cent. on all lands watered from tanks.                                                                                                                                                           |              |
|          | 4. <i>Agricultural advances.</i>                                                                                                                                                                                                                                                                                                                                                                                                      |              |
|          | If Government discontinue the usual advances the Collector recommends the grant of an allowance of 3 per cent. to the renters for making such advances to ryots.                                                                                                                                                                                                                                                                      |              |
|          | 5. <i>Renter's allowance.</i>                                                                                                                                                                                                                                                                                                                                                                                                         |              |
|          | For the trouble, responsibility and hazard which the renter incurs some compensation should be paid to him. The two modes of payment are "to deduct from the average revenue the value of the lands and maira which he enjoyed as monegar of the village or the amount of annual money payments which have been substituted and paid to him from the treasury."                                                                       |              |
|          | 6. <i>Extraordinary calamities.</i>                                                                                                                                                                                                                                                                                                                                                                                                   |              |
|          | They are the entire failure of water in any tank or the entire failure of dry crops in any village.                                                                                                                                                                                                                                                                                                                                   |              |
|          | 7. <i>Karnams, shroffs and devastanam lands and mairah.</i>                                                                                                                                                                                                                                                                                                                                                                           |              |
|          | The Collector recommends that these lands, etc., should "remain under assumption and incorporated with the village rent."                                                                                                                                                                                                                                                                                                             |              |

|                       | The Collector reports to the Board on the establishment charges, gross collections and net revenue derived, etc.                                                                                                                                                                                   |              |
|                       | 1. <i>Wallajanuggar</i> .                                                                                                                                                                                                                                                                          |              |
|                       | On the representation of merchants a chowki was established in this town but again abolished as this is a "place of deposit for articles of merchandise imported from the Mysore country and Malabar coast and consigned to the Madras market" and not a place of great consumption within itself. |              |
|                       | The Collector recommends that it be re-established under the new arrangements as the population of the town is considerable and as a great part of the merchandise is distributed in the villages and 'districts' surrounding the town.                                                            |              |
|                       | 2. <i>Mr. Roberts</i> .                                                                                                                                                                                                                                                                            |              |
|                       | The Collector proposes that Mr. Roberts, who knows the languages, may be appointed as Superintendent of collections.                                                                                                                                                                               |              |

| 10-9-09  | Græme, Mr. H. S.<br>Leave application.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | 113                              |
| 1-10-09  | <b>Revenue Establishment</b><br>Estimate of charges for f. 1219.<br>1. The Collector reports to the Board on the charges (estimate) to be incurred in f. 1219 on account of the establishment. There is a net increase of St. Pag. 1,113—44—50 over the last year's figure.<br>2. <i>Additional pay and establishment.</i><br>The Collector recommends additional pay to the Deputy Sarishtadar, Malabar munshi and a dafadar. He further requests the appointment of an additional staff of 2 English writers, 1 shroff and 2 gollurs.<br>3. <i>Customs.</i><br>There is an increase under this head which is on account of new chowkis and additional caligars (peons).<br>4. <i>Tirupati festival.</i><br>The crowds which press about during the feast period render it necessary to appoint additional shroffs for two months. A sum of St. Pag. 1,800 is provided for repairs to the Tirupathy buildings. Poorniah (Dewan to the Rajah of Mysore) wished that a sum of St. Pag. 857-6-36 (out of his contributions to the temple) should be spent on repairs.<br>5. <i>Advances for cultivation.</i><br>The amount estimated is rather more than what will be necessary to make to the renters.<br>6. <i>Chittoor Tahsildar's office.</i><br>The office is in a private building. The Collector proposes to build a new one at a cost of St. Pag. 150. | 114-23                           |
| 5-10-09  | <b>Inland Customs</b><br>Receipts for f. 1218.<br>1. The Collector reports to the Board on the collections of customs duties during f. 1218.<br>2. <i>Sholungur chowki.</i><br>This has not "yielded so much by 5 pagodas during 4 months as the charges of collection amount to." The Collector however recommends that it may continue a little longer till he is satisfied that no advantage is derived from it.<br>3. <i>Caulastri and Cauvelnagar chowkis.</i><br>These have certainly not been as productive as they ought to have been from the vexations thrown in the way of collections by the influence of the zamindars and their head people.<br>4. <i>Arrack revenue.</i><br>There is a decrease in f. 1218 by St. Pag. 1,838-43-58, which is due to the abolition of several arrack shops in Vellore and Cannatoor cantonments.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 123-8                            |

| 3-11-09  | Sunn-hemp<br>Mode of cultivation.<br>1. The Collector reports to the Board on the mode of cultivation, by whom cultivated, nature of soil required, the quantity produced and the price of sunn-hemp.<br>The quantity produced in the district is a little more than what is required for its own use.<br>2. <i>Jampowars.</i><br>These people enter into agreement with the ryots for the use of the land, provide the seed and take the whole crop, paying the ryot his share in money. In some cases the ryots cultivate the hemp, but it is of a very inferior quality.<br>3. <i>Culture.</i><br>It requires a light soil, partaking the qualities of both wet and dry lands. On garden land the produce is not valuable enough to bear the expenses of cultivation.<br>It is sown either from 1st August to 15th September or in the month of January and requires regular watering. When perfectly ripe the plant is cut 2 or 3 inches above the root and left on the ground to dry for about 10 days.<br>4. <i>Preparation for use.</i><br>The plant should be successively dried, beaten and soaked, then beaten, rubbed and combed in the water, then taken out, shaken, part dried and the fibres stripped off, finally spread out, dried and rubbed, when the product will now be ready for manufacture. | 147-55        |

| 27-4-10  | Salt Depots<br>Establishment.<br>1. The Collector offers his opinion to the Board on the expediency of establishing depots for the sale of salt throughout the district. He is on the whole opposed to it. For it will throw the lumbardies out of the trade not only of salt but of all kinds of grain and of various petty articles.<br>"Individuals can supply the market cheaper than Government can."<br>2. He thinks that, "the advantages expected are not applicable to these districts."<br>The reduction of the rate at the salt pans will be the simplest mode of cheapening the price of salt. | 22-7      |

Date.

Abstract.

Page  
number.**Salt Depots—cont.****3. Local consumption.**

In this district there are, on the average, 5 persons to each family or house. The average daily consumption per head is one-sixtieth part of a Madras measure or a little above 6 measures in a year. This comes to about 30 measures for a family which, at the rate of Pag. 30 a garce, costs the family twenty-five fanams a year. "This annual sum must appear to bear hard upon a poor family considering the other various demands which are made upon them."

**Tirupati Temple****30-4-10 Police establishment.**

27-42

1. The Collector reports to the Board on the police system in existence in Tripetty, its abolition, etc.

**2. Cawulgars.**

The 3 cawulgars of Maumundoor, Kistnapoor and Kurkumbady should be held responsible for offences committed within their jurisdiction. If a robbery is satisfactorily proved they should be compelled to pay the price of every article plundered. "The omission of this most important condition (upon which the lands were originally granted to them) leaves the institution stripped of its only advantages and renders it much more useless than an establishment of peons in the money pay of Government because, it is more easy for the cawully peons to evade the control of the Magistrate."

**3. Advantages of cawulgars.**

"Cawully peons being intimately acquainted with the jungles which are extensive and intricate and the different haunts of thieves, of their being used to the climate on the top of the hills which is excessively unhealthy; and as two or three individuals of the same family are accustomed to the same occupation they can replace each other in cases of sickness or necessary absence or the whole can unite, if necessary, to repel any large body of plunderers."

**4. Cawulgar's lands.**

The Collector recommends that the lands in their possession should not be assumed but that they be asked to pay half rent if the cawully system is abolished.

**5. The Temple Brahmins.**

They are "indolent, licentious and avaricious to an extreme, but such is the respect with which they are considered from the high situation which they hold that any attempt to remove" some of them would be looked upon as a sacrilege. The Collector reports that the Brahmins should be heavily fined or their inam lands temporarily assumed for their misconduct.

**6. Military guard.**

There is a military guard at the temple to see that the money received from the public is deposited in silver and brass vessels near the idol. As soon as they are filled the money is transferred to bags which are numbered and sealed by the Tahsildar, etc., on the close of the day. These bags are then taken to the town of Tripetty.

**7. Difficulty of management.**

The drawback in the temple management is the transfer of the Cawulgar's establishment to the Magistrate of the district and the annihilation of the magisterial authority of the Collector.

The Collector recommends that the Police of Tripetty should be under the Collector's control.

| 24-7-10 | Traffic in.<br>The Collector replies to the Board that traffic in spontaneous salt is not carried on in his district.<br>Vencatasoo, a cavalgar of Pereanaudoo, resides in the village of Sreeharekottah, Conjeeveram taluk. His house is situated in the jungle about 2 miles from the village, near a salt pan. His friends and relations meet him at night and help him to collect salt. Vencatasoo was arrested by the Tahsildar of Suttiwada and delivered to the Pereanaudoo police. | 58-68        |
|         | <b>Muhammad Ghouse</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |              |

| 24-9-10 | Receipts and disbursements for f. 1220<br>1. The Collector reports to the Board on the collection and disbursement of arrack and toddy farms for f. 1220.<br>2. <i>Arrack, etc. rent.</i><br>The rent on arrack and toddy this year exceeds the actual collection of f. 1218 by St. Pag. 1,363-6-27 and that of f. 1219 exceeds that of f. 1218 by St. Pag. 1,292-24-69.                                                                                                                   | 92-9         |

**Abkari and Customs—cont.****3. Customs.**

The collection for f. 1219 shows a net increase of St. Pag. 8,764-30-61 over that of f. 1218 as the town chowkis were established in f. 1218 and were working for 4 months only during that fasli. In f. 1219 they were working throughout the year.

**4. Town walls.**

The town and village walls (or thorny hedges) serve as a protection against robbers and plundering parties. They are also necessary for the good management of the Customs Department by preventing smuggling. The Collector reports that he or the Judge should be authorized to compel the inhabitants to keep in repair the mud walls or the thorny hedges round their villages.

**Remission of Assessment**

**1. Narasinga Rao.**

The Collector reports to the Board on the dismissal of Narasinga Row, Tahsildar of Sattivedu, for delay in realizing the outstanding balances for ff. 1217 and 1218.

**2. Venga Pillai.**

He also dismissed Venga Pillai for having, at different periods, extorted money from the runners placed under his charge.

**3. Sarishladar, etc.**

He further reports that Soobah Row, the Sarishtadar, Rama Row, a mutsuddy and Seeneepah, parputgar of the Tripputty temple granary "having been detected in the peculation of vast quantities of grain stored upon the Tripputty granary" and also for "falsifying their accounts" he has removed them from service until further orders from the Board.

Revenue Letters Sent.  
1811.

1. The Collector reports to the Board on the entertainment of additional peons for the treasuries of the several Tahsildars in the district.

**2. Robberies.**

Owing to robberies in the district the Collector proposes to increase the number of peons attached to each Taluk Treasury at a cost of St. Pag. 237 a month.

**3. Treasury building.**

The Collector proposes to erect a strong building at a cost of St. Pag. 226. It is to consist of 3 rooms, each 12 feet by 21 feet—the foundation being raised 10 feet from the ground and the walls 7 feet above the foundation.

| Date.   | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Page number.  |

| 8-3-11  | <b>Season Report</b><br>1. The Collector reports to the Board, with statements, the extent of land (wet, dry and garden) under cultivation, the rainfall in each taluk, etc.<br>2. <i>Chittoor District</i> .—Owing to failure of the rains most of the plants on dry land withered. This occurred in all the other districts (taluks) also. There are 203 tanks of which water is sufficient in all except 14 tanks under which no cultivation is carried on.<br>3. <i>Tirupati District</i> .—In November and December rains filled all the 10 tanks with water.<br>4. <i>Cauvereeepauk District</i> .—Of 118 tanks the last monsoon filled the large tank and 77 others. The rest are either half or three quarters full.<br>5. <i>Sholingur District</i> .—All the 143 tanks were fully supplied with water.<br>6. <i>Tiruvallur District</i> .—Many of the 150 tanks are full of water and several half or three quarters full. The cultivated area is proportionate to the water-supply.<br>7. <i>Saulgud District</i> .—Of the 22 tanks, 19 are full of water and the other 3 empty.<br>8. <i>Cuddapanutlum District</i> .—There are 398 tanks of which about 52 have no water and cultivation under them is suspended. The remainder are full, half full or quarter full.<br>9. <i>Arcot District</i> .—There is sufficient water in all the 123 tanks.<br>10. <i>Vellore District</i> .—There are 56 tanks, all filled except 2.<br>11. <i>Tiruvutloor District</i> .—The 139 tanks are all full.<br>12. <i>Poloor District</i> .—The 140 tanks are full.<br>13. <i>Wandewash District</i> .—The 146 tanks are all full.<br>14. <i>Assumed Pollams</i> .—There are 477 tanks. They are all full.<br>15. <i>Suttavaid District</i> .—The 132 tanks are all full.<br>16. <i>Venketgherry Cottah</i> .—Of 156 tanks, all but 7 have sufficient water. | 12-25         |

|          | The average collection of the 7 years is not more than St. Pag. 42,431-36-48 short of the actual collection of the three years of the triennial lease. Out of this it must be recollected that the sum of St. Pag. 24,000 is on account of over-assessment, the justice and expediency of relinquishing which the Board has admitted on various occasions. |              |

| 13-6-12 | <b>Abkari</b><br>Sale in Arcot.<br>1. The Collector reports to the Board that arrack and toddy are being sold in Arcot town after the abolition of the sale in the cantonment.<br>2. <i>Batavia arrack.</i><br>It is impossible to make an estimate of its consumption until a trial is made by opening shops for two months as its price per gallon is 60 fanams and that of country arrack, 32 fanams.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 57-9          |
| 13-6-12 | <b>Revenue Renters</b><br>1. The Collector reports to the Board that Hyder Sahib has filed a petition in the Zillah Court, Chittoor, against him.<br>2. <i>Koopum village.</i><br>As the original renters, Nallavundum and Jungummien, at first declined taking the rent of the village at more than St. Pag. 130 per annum, the offer of Hyder Sahib of St. Pag. 160 was accepted but he was not given any pattah.<br>3. <i>Old renters.</i><br>There was a great number of cases in which the old renters did not come forward to make offers. The Collector however again sent for most of them and offered them their villages on rent. The former renters of Koopum village offered St. Pag. 170 and their offer was accepted and Hyder Sahib was informed that his offer was not admissible.<br>4. <i>Tahsildar's action.</i><br>The Tahsildar of Vellore, Sheeva Row, not aware of the above, made over the village to Hyder Sahib and notified in writing that he would be the future renter. The Tahsildar did not inform the Collector about his making over the village to Hyder Sahib and the Collector restored it to the former renters. | 59-64         |
| 16-6-12 | <b>Salt Licences</b><br>Transmission for enquiry.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | 65            |

| Date.    | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Page number.           |

| 28-11-12 | <b>Food Control</b><br>Dry grains—Prohibition of grain imports to Mysore.<br>1. The Collector reports to the Board that the proposed prohibition will be keenly felt by the troops stationed at Bangalore and other places in the Mysore province.<br>2. If the season continues unfavourable the inhabitants of these districts will either have to leave them or starve.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 115-7                            |

| 17-12-12 | <b>Customs</b><br>Collections and expenses for f. 1221 and estimates for f. 1222.<br>1. The Collector submits to the Board statements showing the actual collection on account of inland duties and actual charges in f. 1221 and estimated collections and charges in f. 1222.<br>2. <i>Decrease in collection.</i><br>The gross receipts for f. 1221 are less than those of f. 1220 by St. Pag. 5,867-28-36. Owing to exemption of grains from payment of duty from January last the deficiency on this account alone amounts to St. Pag. 2,837-16-50. The loss on betel nut was St. Pag. 1,493-2-34, on betel leaf and tobacco, St. Pag. 455-33-58 and St. Pag. 212-8-12 respectively. The loss on indigo was St. Pag. 826-40-39.<br>3. <i>Silk and gold thread.</i><br>The Collector recommends exemption from payment of duty on the above in the first instance. Duty should be levied on them after they come for the market interwoven with cloth. | 125-32                           |

| 9-1-13   | Road Construction<br>Estimate.<br>1. The Collector explains to the Board the necessity for the sum of St. Pag. 500 provided in the estimate for f. 1222.<br>2. <i>Need for roads.</i><br>The roads facilitate the commercial intercourse of this district with other districts. At present carts and carriages are liable in many places to be detained for days together on account of swamps, steep, rocky passages, etc.<br>3. <i>The Palar.</i><br>It is the largest river in the district. It is dry during the greater part of the year but when it is full, during the rains, it is too rapid for boats to cross with safety.<br>4. <i>Convict labour.</i><br>The employment of convicts on the construction of roads must be confined to roads in the immediate vicinity of military stations such as Arcot, Velloor, etc., otherwise the cost of guarding them when working on the roads would be very considerable. Government should bear a certain amount of the cost of repairing the roads.<br>5. <i>Maintenance.</i><br>With the exception of the construction and repairs of bridges the renters of villages should be ordered to maintain the roads after they are once made good. The Collector or the Magistrate should be empowered to enforce this duty.<br>6. <i>Travellers.</i><br>The Collector suggests that choultries should be provided with furniture and the common articles of which most travellers stand in need. He further suggests establishing a set of palankeen bearers at every stage between 10 or 15 miles. The plan proposed would not answer on any route not frequented by European travellers. | 1-8  |

| 14-12-13 | <b>Revenue Servants</b><br>Prevention of corruption—Draft regulation.<br>1. The Collector reports to the Board on the prevention of bribery and corruption among native revenue servants.<br>2. <i>Section I.</i><br>On this section he says that he has no objection to a money security being furnished by native servants, but the "particular objection" to a money security, where it is procured by a heavy pecuniary compensation, is that the surety is likely to gain an influence over the public servant which he may find it arduous to resist."<br>3. <i>Section IX.</i><br>It has become common for individuals out of private malice or on account of fancied or real injuries to make the public a party to their grievances and to extend their accusations to embezzlements, etc.<br>4. <i>Native fund.</i><br>This fund does not hold out adequate compensation for the deduction of pay by those who are in the enjoyment of high situations and salaries. The Collector proposes to extend the benefits to meritorious servants by an additional subscription from their pay. From this extended fund a pension should be provided for every Government servant who has served satisfactorily for 30 years.<br>5. <i>Sarishtadars and Tahsildars.</i><br>The Collector proposes certain reductions in the pay of Tahsildars and Sarishtadars. | 88-103       |

| 29-1-14   | Madras to Mysore—Collector's objection.<br>1. The Collector reports to the Board that the present road lies in a part of the country possessing a bigger population than the one through which the proposed road is to run. The present road is better calculated to provide for the wants of detachments, travellers and cattle.<br>2. The Collector intimates to Lt. Cameron that he has issued instructions to the Tahsildar of Sholingur to send a mootsuddy, a tank maistri, etc., to attend on him for the construction of causeways, etc., that may be projected for the improvement of roads. | 3-5             |

| 6-4-14    | Instructions to Revenue servants.<br>1. The Collector forwards to the Board a translation of the orders issued to Revenue servants regarding supplies to the military. Every village with a few exceptions with an annual rent of St. Pag. 100 will supply 50 coolies, 40 bundles of straw, etc., and the Collector will maintain a list accordingly.<br>2. The cutwals who supply European travellers are bound to reserve a stock of provisions for one or two months.<br>3. Gram must be procured from the bazaar and not from the renters or ryots, unless they desire to dispose of it.          | 30-41           |

| 24-4-14 | Investigation of frauds.<br>1. The Collector reports to the Board the results of his investigations into the accounts of the temple for f. 1215 regarding the donations of Ragojee Bhonsala during that period.<br>2. The Tahsildar's receipt is in accordance with the instructions issued by the Collector. The amount of donations is Rs. 53,000, as reported personally to the Collector by Buccajee, carcoon, resident of Triputti in charge of a house and garden of Rajah Ragojee Bhonsala. The Collector, therefore, infers that the Tahsildar stands acquitted of any knowledge of the transaction.<br>3. "The receipt in possession of Rajah Ragojee Bhonsala purporting to be a receipt granted by Dhundoo Pundit, the Tahsildar, never had existence as a public document in the records of the pagoda." In the false receipt delivered to the Rajah by his vakil many articles are found inserted which have not been noted in the Tahsildar's receipt. The principal is a silver throne weighing Rs. 3,400. | 44-61                           |

number.

## Customs—cont.

(e) Goods imported from Bengal shall be liable to the established duties, viz.,  $3\frac{1}{2}$  per cent. on the invoice price with an addition to such price of 15 per cent. The following articles however are excepted:—

Grain of all sorts.

Opium purchased at the Company's sales so certified.

Carriages, palanquins, brass and copper utensils.

Spirits distilled in the European manner.

The manufacture of Bengal.

## 3. Exports.

"The rate of duty is to be  $3\frac{1}{2}$  per cent. on the Madras price of all goods, deducting  $\frac{1}{10}$  of such price except the following which are exempted from duty, viz.,

(a) Grain of all sorts.

(b) Copper purchased at the Company's sales.

(c) Sugar.

(d) Indigo.

(e) Raw silk.

(f) Brass and copper utensils.

(g) Salt," etc.

Exported on the Company's ships for England.

In the event of the merchandise or goods being confiscated the net sale proceeds are to be divided in the following proportions:—  
One-fifth between the Collector of Customs and his Deputy in the proportion of two-thirds to the former and one-third to the latter. Two-fifths to the informer or seizer. Two-fifths to the Company.

## 4. Town duties—Madras Town.

"An import duty of 5 per cent. on the Madras price of the more valuable and expensive and of  $2\frac{1}{2}$  per cent. on the Madras price of the less valuable but necessary commodities according to a statement of them hereto annexed imported by land within the limits abovementioned is to be levied on account of Government and ready money only is to be received from merchants in payment of duties."

Letters from the Board of Revenue.

Bun. 17 (2).

1802.

## Military Supplies

27-3-1802 Regulations.

1. Regimental Agents are abolished and their duties are entrusted to the General Agent for Cavalry Supplies who is to be under the control of the Military Board. The Agent shall receive advances required for disbursements of his department from the Military Paymaster-General.

## 2. Quarterly estimate.

The General Agent shall submit to the Military Board every quarter an estimate of the quantity of grain required for the next quarter and the advances necessary for its purchase.

## 3. Supply by Collectors.

On receipt of information from the General Agent the Collectors shall take steps to supply the quantity required to the Quartermasters of regiments and obtain receipts.

## Inam Village

17-6-02

Sergarumbu—Claim of Appa Sastri and others.

1. The Board transmits to the Collector the petitions received from Appa Sastri and others on their claim to the village.

2. In his petition he states that the village was granted to him by the late Nabob Wallajah with a sunnud but Gunaputty Moodily (in the other petition) states that it was granted to his ancestors by Saadatoola Khan with a paravana.

| 21-8-02 | Renting of revenues.<br>1. The Board does not approve the proposal of the Collector to rent Tripetty to Roojoo Ramjuss at Pag. 65,000.<br>2. "It is however a maxim with the Board that all revenue liable, from whatever cause, to great fluctuation in amount should be kept under sumani—applying this principle to the rent of Tripetty district of which nearly the whole of the revenue arises from oblations to the pagoda and varies between wide extremes, it derives additional strength from the considerations that it is not collected progressively but within a very short period of time."<br>3. <i>Capitation tax.</i><br>The Board considers that the abolition of the tax will reduce all to a level and that it will occasion "the loss of a flattering distinction to particular sects or individuals, might occasion a discontinuance of their resort to the pagoda, lead to jealousies and otherwise disturb the peaceable celebration of the feast on the footing of ancient usage."         | 59-62        |

| 25-8-02 | Military service—Commutation.<br>1. The Special Commission informs the Collector of the amount of commutation for military service payable by each of the four zamindaris, Vencatagherry, Calastry, Bomrauzepollam and Sydapoor.<br>2. <i>Sunnuds.</i><br>The Special Commission also transmits sunnuds (with the seal and signature of the Governor in Council) for delivery to zamindars. 'Cabooliats' corresponding to the Sunnuds are also transmitted to the Collector to obtain the signatures of the zamindars therein.<br>3. <i>Disarmament.</i><br>The Commission instructs the Collector to explain to the zamindars (who are slow to comprehend the grounds of the measure) that "the measure adds nothing to their disbursement but that on the contrary, it leaves an additional source of revenue at their disposal, which they have never yet derived from the ameram and cutbuddy lands; besides the great advantage to be derived from attending exclusively to the improvement of the zamindaris." | 63-71        |

| Date.                          | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Page number. |

| 1-12-02                        | <p><b>Military Bazaars</b></p> <p>Transfer of control to Collectors—Government Order and Regulations.</p> <p>1. The Board of Revenue transmits to the Collector a copy of Government Order, dated 22nd September 1802, on the "control of the bazaars attached to the several Garrisons and Cantonments by prohibiting Military Officers from levying imposts or receiving emoluments from bazaars or articles of provision."</p> <p>2. <i>Powers.</i><br/>The military authority over bazaars and dealers is limited to the preservation of peace and order, to preventing intoxication among the troops and to punishing crimes strictly military. The control of the bazaars is vested in the Collectors who will be responsible for their regular supply. All disputes relating to property, civil injuries and matters of police are cognizable by the Civil Magistrate.</p> <p>3. <i>Customs.</i><br/>Government order that rice, meat and all articles of food for the use of troops shall be exempt from duties or imposts.</p> <p>4. <i>Taxes.</i><br/>The Collector shall levy taxes on bazaars on the same principles which regulate the ordinary collection of revenue. He will maintain a separate account of the revenue levied on bazaars and report the amount at the end of each revenue year.</p> <p>5. <i>Bazaar fund.</i><br/>The amount collected on military bazaars by the Collectors and that remitted to the General Treasury by corps or detachments on field service shall be distributed among the officers commanding divisions, district garrisons or field corps, etc.</p> <p>6. <i>Quit-rent.</i><br/>All persons shall be at liberty to sell food-stuffs and shall not be liable to any fee or tax except quit-rent for the use of the ground occupied by their shop or house.</p> <p>7. <i>Spirituous liquors.</i><br/>The Collector shall regulate the sale of spirituous liquors, etc., by the issue of licences—the licensees paying a daily tax for this privilege. The licence shall define the number of shops, and the situation of each shop and shall prohibit the sale of drams to Europeans and the sale of liquor to natives not drinking at the spot.</p> <p>8. <i>Betel, tobacco, etc.</i><br/>Betel imported into Madras and its environs shall pay a duty of one fanam per bundle of 400 leaves for the first year (1803) and 1 fanam and 10 cash per bundle for the subsequent years. Tobacco per viss is subjected to a duty of 5 fanams for the first year and 6 fanams in the subsequent years.</p> | 85-123       |

| 23-10-02 | <b>Revenue Establishment</b><br>Estimate of charges for f. 1212.<br>The Board requests the Collector to prepare another revised estimate of charges for f. 1212 with the pay of the peshcar, mootasiddies and others reduced.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | 139-47       |
| 13-8-02  | <b>Annual Settlement</b><br>For f. 1211—The Board's review.<br>1. The Board reviews the settlement for f. 1211.<br>2. The Board calls for an explanation of the decrease of revenue in certain villages.<br>3. It desires the Collector to explain on what grounds it was formed, whether with reference to the revenue of the preceding year, or on the cultivation engagements with the inhabitants.<br>4. <i>Collector's duties.</i><br>These include a personal knowledge of the several villages comprising the district, their situation, extent, means of obtaining water, acquaintance with the inhabitants themselves, a minute and critical investigation into accounts (not such as the <i>khums</i> choose to give) and a solicitous regard in obviating the impediments to the labours of the ryots.<br>5. <i>Settlement.</i><br>The Board remarks that the settlement made by the Collector exceeds the amount estimated by the Board as the <i>jumma</i> of f. 1211. | 149-56       |

| 1803     | <p>1. The Board transmits to the Collector a copy of the regulations on the levy of duty on merchandise imported or exported by land from foreign states and on articles consumed or manufactured in certain towns.</p> <p>2. The sayer, river duties and all other taxes under the description of land customs are abolished. A duty on the export and import of goods by land under the denomination of 'frontier and town duties' is introduced.</p> <p>3. <i>Choukis.</i><br/>Choukis for the collection of frontier duties shall be established on all the frontiers of the territories subject to the Presidency whether of European settlements or of native powers. Frontier and town duties shall be levied only once on the same goods within the Presidency. The Collector shall furnish the choukidars with blank rawanahs bearing their seal and signature and numbered, in English and other languages.</p> <p>4. <i>Town duties.</i><br/>Articles of merchandise manufactured or produced within the limits of towns where choukis for the collection of town duties have been established shall be liable to the payment of town duties.</p> <p>5. <i>Military stores.</i><br/>The transit of military stores through the country shall not be permitted unless accompanied by a certificate from a competent authority. Military stores include saltpetre, sulphur, bullets, lead, swords, etc.</p> | 29-49        |

| 12-12-03 | <p>Sultan Khan, etc.—Report.</p> <p>1. The Board transmits to the Collector a copy of the letter to the Chief Secretary to Government from Maj. Thomas Munro on Sultan Khan's real object in assembling an armed force.</p> <p>2. <i>Sultan Khan's statement.</i><br/>About 4 months ago Appaya, a Brahmin, came to Beynganpilly and proposed to him to raise a party of horse and peons for the Venkatagerry Rajah. He declined undertaking it until he should receive a cowle in writing. Appaya procured one about six weeks after, on which he began to collect followers. To avoid meeting with obstruction in the Ceded districts he intended to march from the Kurnool frontier to Siterampoor, a village in Venkatagerry. He had no design against Cuddapah as he had sent his family there only a few days before he was taken.</p> <p>3. <i>Result of the enquiry.</i><br/>From all the evidence that the Collector, Maj. Munro, had heard he concludes that the real design of Sultan Khan was against Cuddapah. Though his force was small there was nobody (except 1,000 peons from different villages) to oppose him. Had he taken possession of Cuddapah he might in 3 days have drawn together five or six thousand men, maintained his conquest for a few weeks and at last escaped with his plunder.</p>                                                                                           | 63-9         |

Letters from the Board of Revenue.

|           | 1. The Board transmits to the Collector a copy of its letter to the Governor on the permanent settlement of Krishnagiri.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |              |
|           | 2. <i>Krishnagiri.</i><br>It comprises 70 estates and the jumma proposed by the Collector on each estate varies between St. Pag. 2,927 and St. Pag. 784.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |              |
|           | 3. <i>Assessment.</i><br>The permanent assessment proposed by the Collector is 20 per cent. below the jumma of f. 1211 in estates having no waste land. In estates with waste lands the value of all such lands is to be deducted from the 20 per cent. Waste lands are to be assessed at 5/8th of the rent of cultivated lands. The Collector proposes to increase the assessment of f. 1211 by 10 per cent. in the case of those estates where temporary causes had occasioned its being reduced in f. 1211 below the survey rates. With the application of the above rules the settlement would be 5 7/16 per cent. less than the rent for fasli 1211 or 1 6/16 per cent. below the average of 10 years. |              |
|           | 4. The Board recommends Pag. 1,29,375-30-78 as the assessment to be fixed permanently on Krishnagiri.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |              |
| 28-7-04   | 5. <i>Waste lands.</i><br>Government are of opinion that the rate of assessment proposed by the Collector on uncultivated arable land is too high and that the future revenue should be based on the average of ff. 1211-3.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 37-45        |
|           | 6. Government abolish the tax on sheep.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |              |
|           | 7. They approve the Board's proposal of levying a permanent assessment of St. Pag. 1,29,375-30-78 per annum.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |              |
|           | <b>Irrigation Dispute</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |              |

| 27-12-04 | Regulation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 107-17         |
|          | 1. The Board transmits to the Collector a copy of the regulation of the Supreme Government on the establishment of Courts of Judicature in the provinces and the administration of revenue in the districts not settled in perpetuity.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                |
|          | 2. <i>Restoration of zamindaris.</i><br>The Board calls for a list of zamindaris and poligams with the situation of their claimants and the amount to be demanded from them as temporary assessment. If any of the poligars or zamindars, on account of their past conduct, are such as to be considered disqualified from being put in possession of their estate, detailed information in prescribed form shall be furnished.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                |
|          | 3. <i>Leasehold estates—'Khas lands.'</i><br>Lands watered from one tank are to be included in one estate, which should be composed of contiguous villages. The jumma of any estate should not be less than Pag. 500. The profits of the leaseholder should be larger than that of the permanent proprietor, in order to ensure the sale of the lease and to create interest in extending cultivation. The Board desires the Collector to report the term of the lease, when it should be renewed and whether the estates may be disposed of in perpetuity.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                |
| 10-7-04  | 4. <i>Judges and Magistrates.</i><br>The administration of justice and maintenance of peace should be the duty of the Judges and Magistrates. In order to enforce the law they may apply for military aid, but the employment of troops should not be considered as an ordinary means of enforcing obedience.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 123-98         |
|          | 5. <i>Courts.</i><br>The Governor-General directs the Governor to establish the "Zillah Courts, and the Courts of Appeal and Circuit and to extend the authority of the Sudder Adawlut and Fouzdarry Adawlut throughout the Carnatic, Malabar, Canara, Tanjore, the Territories ceded to the Company by the Nizam," etc.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                |
|          | 6. <i>Tahsildars.</i><br>They shall be appointed to collect dues on lands. Collectors shall select Tahsildars and report to the Board for their appointment. The amount of revenue to be collected by each Tahsildar shall not be less than 2 lakhs nor exceed 3 lakhs of rupees. They shall be allowed 11½ per cent. on the amount of their gross collections in consideration of which they are to defray all charges and to cover all risks and expenses whatever of the collections to make good all balances of revenue which may accrue in their respective jurisdictions. They are to place watchmen on crops at the expense of parties to whom the crops belong and are not to allow them to be cut down until the zamindar or ryot shall have given security for the revenue due on the land. The Tahsildars shall maintain an efficient Police in their limits, except large towns, cities and principal gunges where it will be maintained by Government. They will make the usual advances of taccavi at the proper periods for the purchase of seed, cattle, and implements of husbandry taking bonds for the amounts bearing interest at 12 per cent. per annum. All engagements made by them shall be in the name and on behalf of Government. |                |

## Judicial and Revenue Administration—cont.

## 7. Recovery of arrears.

If any person fails to pay his dues, the Tahsildar shall report the matter to the Collector who, after enquiry, may give him time till the end of the Hindu current month for the payment of the arrears or apply to the court through the Government Pleader for confining the defaulter in jail. The Collector and the Tahsildars may cause the personal property of the defaulter or his surety to be distrained and sold as far as it will be necessary for the recovery of the arrears. The Collector is also authorized to confine the surety of a defaulter, to attach his lands and to bring them to sale. The Board is to apply to the Governor-General for the sanction of the sale of the surety's lands.

## 8. Settlement.

"The whole of the lands in the Ceded provinces shall be let on a lease for three years at a fixed equal annual rent." The amount is to be based on the accounts at present existing. "At the expiration of the first lease for three years another settlement shall be concluded for the further period of three years at a fixed equal annual jumma." The annual rent for the second lease shall include along with the annual rent of the first lease two-thirds of the difference between the annual rent and the actual net produce of the lands at the time when the lease expired. "At the expiration of the second three years' lease, new engagements shall be entered into for the further period of four years at a fixed, equal annual jumma, the amount of which shall be determined by adding three-fourths of the net increase of revenue during any year of the second three years' lease to the jumma thereof. At the end of ten years a permanent settlement shall be concluded for such lands as may be in a state of cultivation sufficiently advanced to warrant the measure." "In all cases, settlement shall be made with the zamindars, provided they offer a fair and equitable jumma. Where a Collector may judge it inexpedient to form a settlement with a zamindar he shall hold proceedings on the subject, detailing at large, his reasons for rejecting the claim;" "and at the same time receiving the zamindar's answer to the objections urged to his claim. The Collector shall then transmit the whole of his proceedings to the Board of Revenue and await their determination on the same."

## 9. Naukar.

Where a zamindar may decline entering into engagements for his estate he shall be allowed for the present the same naukar which he might have been receiving under the Nawab's Government. Where zamindars or other actual proprietors shall decline entering into engagements for their respective estates or where there are no proprietors a village settlement shall be made for three years giving preference to the "mukuddums, purdhauns or any respectable ryot of the village."

## 10. Pattas to ryots.

All persons with whom a settlement is made shall grant pattas or leases to ryots and under-renters of every description, specifying the amount they are to pay; "counter engagements shall be executed by the ryots and under-renters of a similar tenor and purport."

## Vaccination

11-9-04 A duplicate of the monthly register furnished by native practitioners will be separately made out for each village and countersigned by the headman signifying that the patients had been vaccinated and regularly inspected on the 8th, 9th and 10th days after vaccination.

|          | 1. This is an extract of a letter from England to the Government of Bengal. The Board transmits a copy to the Collector for his information.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |              |
|          | 2. <i>System of government.</i><br>Its success depends on the vigilance and fostering care of Government and their servants. The duty of Government must be to prevent people from violating the principles of justice and humanity, injuring each other or obstructing the gradual development of the effects which the new institution is calculated to produce.                                                                                                                                                                                                                                                                                                                                                                                                                                          |              |
| 22-7-05  | <b>Collectors</b><br>Salary, etc.<br>The Board transmits to the Collector a copy of a letter from Government to the Accountant-General fixing the pay and commission of the Collector, in districts where permanent settlement has not been introduced, at Pag. 9,000 per annum and in exceptional cases at Pag. 12,000 per annum.                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 67-8         |
| 8-8-05   | <b>Vaccination</b><br>Superintendence—Rules.<br>1. The Board transmits to the Collector a copy of the rules for the guidance of the Superintendent and officers employed in practising vaccination.<br>2. <i>Superintendent.</i><br>He will correspond with the Secretary to Government, Revenue and Judicial, on matters relating to vaccination. He will use his own personal exertions in vaccinating as large a number as possible and submit to Government a monthly report.<br>3. <i>Extension of.</i><br>The Surgeons attached to the Provincial Courts and Zillahs shall be employed as vaccinators on specific salaries. Four native vaccinators shall be employed in each Zillah. They will be paid by Government and will be subordinate to the medical officers attached to the Zillah station. | 71-7         |
| 16-7-05  | <b>Christian Converts</b><br>Persecution—Prevention of.<br>The Board transmits to the Collector an extract of a letter from the Court of Directors on the protection and help to be rendered to all Christians, whether Europeans or Indians, and Christian Missionaries.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 79-83        |

| 6-3-06    | For f. 1214—Confirmation by Government.<br>1. The Board informs the Collector that Government have confirmed the settlement for f. 1214 at St. Pag. 8,12,285-3-61.<br>2. Government approve the action of Mr. Kelso in relinquishing the demand on those unsettled lands which were rendered unproductive, as the season was not favourable.<br>3. The commotions which prevailed in the pollams sufficiently account for the depression of their revenues during f. 1214.<br>4. Government order the grant of a village to the Poligar of Goodepant as a reward for his loyalty to Government.                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 3-9          |

| —6-06     | Dewan Setu Rao's reinstatement—Appeal against.<br>1. The Board transmits to the Collector a translation of a letter to the Board from the Zamindar of Venkatagiri appealing against the orders of Government to reinstate Setu Rao as Dewan.<br>2. Setu Rao was appointed Dewan during the time of the father of the present Zamindar, Bungar Yatchim Naid. When Yatchim Naid succeeded to the Samisthan, Setu Rao withdrew from attendance on the zamindar, appointed the public cutcheri at his own residence, conducted there all the affairs of the Samisthan on his own account and issued written documents without the signature of the zamindar. He prohibited everyone from coming near the zamindar and appointed spies to report to him the zamindar's actions.                                                                                                                                                                                                                                                                                                | 23-43        |
|           | <b>Town Duties</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |              |
| 21-7-06   | Establishment charges—Requisition for actuals.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 45-6         |

Abstract.

Page  
number.**Betel and Tobacco—cont.****2. Col. Munro's objections.**

"Colonel Munro is of opinion that though the present mode of collecting the revenue from betel and tobacco is the least profitable, it is the best, because attended with the fewest inconveniences and because whatever it yields is a real increase of revenue neither lessening the cultivation of the grower or the shop tax of the retailer. At present, he observes, the cultivator of betel and tobacco by his profit on these articles is enabled to occupy more land than he could otherwise have done, but this spirit of improvement he thinks would be checked if not entirely suppressed by an exclusive farm or heavy duties, he thence infers that much of the additional revenue which might be raised from betel and tobacco would be obtained at the expense of the land rent."

**3. Board's proposals.**

"We think that the plan proposed by Mr. Wallace of extending the duty on betel might by way of trial, be established in Tanjour and that in other districts an exclusive sale might be established, not however on the principle of that in Canara, which for reasons already stated we consider to be more or less inapplicable to every other district except Malabar."

**Yeomlahs**

2-10-06

**Instructions for payment.**

The Board transmits to the Collector an extract of its letter to Government on the payment of yeomlahs, with lists of persons entitled to the same. The Board also instructs the Collector as to whose claims should be admitted and whose overlooked.

81-8

**Mirasi Right**

21-10-06

**Veerasanoor village.**

1. The Board transmits to the Collector a copy of the letter from Maj. Boles to the Board of Revenue requesting to be informed as to whom the right of sale of land in the above village belongs.
2. Abdul Cawder Khan alleges that the land was granted to his son by Mulkunnissa Begum Sahebah, second daughter of Nawab Walajah. The Brahmin mirasidars claim that their ancestors have been in possession of the land from time immemorial.

89-108

**Police Establishment**

28-7-06

**Revision proposals.**

1. The Board transmits to the Collector copies of letters from the Magistrate of Calicut to the Provincial Court, Western Division, and from Government to the Judge and Magistrate of Calicut.

111-21

**2. Police duties of revenue servants.**

The Judge, Calicut, remarks that the "internal Police details and preservation of the peace" has been "conducted by the native revenue officers stationed therein under the authority of the Collector." To ensure the same degree of quick communication and control, a large establishment and heavy expense would have to be incurred. He therefore proposes to invest the "head native revenue officer" in each taluk with authority to receive information or complaints of all criminal acts which may be committed within the taluk, to apprehend the offender or person complained against who should be at once sent to the Magistrate with the complaint and evidence. In petty cases of assault, abusive language, etc., he would detain the offender, forward the circumstances of the case to the Magistrate and await orders for the final disposal of the offenders.

3. Government approve the proposals made by the Magistrate of Calicut.

**Head Writer**

1-12-06

**Reward for service**

The Board requests the Collector to furnish full information for fixing in perpetuity the rent of the village to be bestowed on Ramaswami Pillai.

123-4

**Annual Settlement**

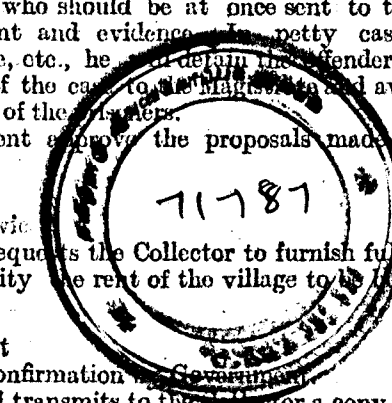

6-11-06

**For f. 1215—Confirmation of Government.**

1. The Board transmits to the Collector a copy of its report to Government and an extract from the letter to the Board from Government on the settlement of the district for f. 1215.

125-51

V213: 6161354-1100

Date.

Abstract.

Page  
number.**Annual Settlement—cont.****2. Government's confirmation.**

Government approve and confirm the settlement at St. Pag. 8,60,599-29-24. There has been an increase of St. Pag. 3,17,334-13-29 over the last year's figure.

**3. Land revenue.**

A portion of the increase, i.e., St. Pag. 85,386-14-37 is on account of the extension of cultivation in the assumed pollams and in "Sirkar districts", on account of the discovery of concealed lands and on account of superior lands being assessed at higher rates.

**4. Abkari and salt.**

The increase of revenue under 'Licences' was derived chiefly from the sale of arrack and toddy. The increase of salt revenue is due to the monopoly.

**5. Customs.**

There is a decrease under this head which is due to the abolition of several of the town choulis and also to the "facility with which under the late system the payment of town duties could be evaded."

**6. Principles of assessment.**

In each taluk villages have been divided into three classes and the lands of each village again divided into five or more subdivisions. The lands composing the second subdivision of the first class are similar in quality and produce to those of the first subdivision of the second class and so on, progressively diminishing. The produce of the first subdivision of the first class is estimated at 40 cullums per cawni, and the produce of the fifth subdivision of the third class at ten cullums per cawni. The sirkar share of the produce is commuted into money at the rate of 150 puddies or measures per pagoda. The respective shares of Government and the ryot are adjusted as follows:—

|                       | Government<br>share. | Ryot's<br>share. |
|-----------------------|----------------------|------------------|
| Wet .. ..             | 46 14/16             | 53 2/16          |
| Dry .. ..             | 33 1/4               | 66 12/16         |
| Garden .. ..          | 25                   | 75               |
| Wet watered by wells. | 33 1/4               | 66 12/16         |

The average selling price of grain in ten moderate years constitutes the rate at which the Government share of the produce has been commuted.

**Military Supplies**

20-12-06

Government order.

The Board transmits to the Collector a copy of the Government order instructing the Quartermaster-General, etc., to intimate to Collectors the movements of troops, their strength, the direction of the route, the stages at which they are to halt, etc., so that Collectors can make proper arrangements for supplies.

153-5

**Ghulam Ali**

9-4-06

Grant of inam ordered.

157

**Letters from the Board of Revenue.**  
1806-7.

Bun. 17 (7).

**Famine Relief**

8-12-1806

1. The Board transmits to the Collector extracts from letters to Government from the Board and from Government to the Board on the measures to be adopted for providing relief to the poor of S. Arcot.

1-5  
7-11**2. Repair of roads.**

The Collector of S. Arcot suggests that the poor may be employed in the repair of the road between Madras and Poonamalle and the sanctioned estimate of St. Pag. 2,528-40-32 may be distributed among them. Government sanction the repair of the above road at the above estimate and also the Collector's proposal to pay the labourers in grain. Another similar proposal of the Collector for employing the poor of his district, in the construction of a road in Tanjore and Trichinopoly districts is approved.

| Date.    | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Page number.  |

| 16-3-07  | Payment.<br>The Board transmits to the Collector a copy of its letter to Government on the payment of allowances to the poligars.<br>Owing to the failure of crops in the year the revenue will not be more than Pag. 20,000. The allowances of the poligars were based on an estimate of Pag. 60,000. A reduction in their allowances has to be made but the Board is of "opinion that no reduction can be made to the allowance of the refractory ejected poligars without violating the public sanction, under which it was regulated, but with respect to the other poligars although the Board would not recommend that any alteration take place in the allowance granted for their present support," "yet as they are not entitled under the terms of the proclamation, to more than 18 per cent. on the actual net revenue it does not appear to the Board that there would be any impropriety in indemnifying Government from the collections of future years for the loss which it must otherwise sustain under the circumstances occasioned by the present unfavourable season." | 39-42         |

| 22-2-08  | For f. 1216—The Board's remarks.<br>1. The Board informs the Collector that it is satisfied with the amount of settlement.<br>2. <i>Remission.</i><br>The Board approves the principle of the Collector of allowing average remission of two-thirds of the rent on wet lands and one-half of the rent on dry lands in different proportions according to the actual means of the ryots.<br>3. <i>Duties of the Board.</i><br>(a) To discuss, investigate and ascertain the grounds of the local settlements effected by the Collectors.<br>(b) To compare the resources of the provinces with the revenue derived from them.<br>(c) To prevent by timely and constant vigilance the impairment of the public fund and by timely precautions to guard against any encroachments on the rights of the people or on the permanent sources of the prosperity of the country.<br>4. <i>Karnams.</i><br>Collectors are at liberty to dismiss from office karnams whose guilt they may be satisfied of, without recourse to judicial process. | 5-9   |

| 21-3-08 | Restoration of.                                                                                                                                                                                                                                                                                                                                           | 33-61          |
|         | 1. The Board transmits to the Collector extracts from letters from the Collectors of Coimbatore and Tinnevely to the Board on the restoration of inam lands appropriated for the support of temples and other religious institutions. These lands were formerly assumed by Government and money payments substituted for the maintenance of temples, etc. |                |
|         | 2. <i>Money payments.</i>                                                                                                                                                                                                                                                                                                                                 |                |
|         | The Board orders that money payments on account of temples, etc. should not be shown as charges in the accounts but be taken as deposits.                                                                                                                                                                                                                 |                |
|         | 3. <i>Village sabbendi.</i>                                                                                                                                                                                                                                                                                                                               |                |
|         | The Board proposes the same arrangement in case of lands of the village sabbendi which have been resumed.                                                                                                                                                                                                                                                 |                |

| 25-9-08  | Charitable and religious—Peria Vettoo, Poondy and Ramapuram—<br>Restoration application.<br>Ingoovah Soobroyaloo, Inamdar of Peria Vettoo, petitions to H.E. the Governor that his father had built some choultries and planted gardens for the benefit of travellers. Towards the upkeep of the charities the Raja of Venkatagerry granted the three villages of Peria Vettoo, Poondy and Ramapuram on inam tenure.—The yield of the villages in paddy was poor but in the salt pans of the villages a considerable sum was realized by which the charity was kept on. But the salt pans were resumed by the Circar and the inamdar had to borrow for the upkeep of the charities. The Rajah of Venkatagerry who was approached informed the inamdar that he was unable to pay as he himself was in arrears and asked him to apply to Government. The petition is forwarded to the Collector of N. Arcot with a request to inform Government of the steps he has taken towards furnishing the explanation required by the Salt Agent. | 177-82       |

| 27-9-08  | Transfer of control to the Board of Trade—Regulations.<br>A draft of the regulations is forwarded to the Collector of N. Arcot explaining that malversation must of necessity exist in the collection of customs by native officers. There is every ground to expect that the employment of Revenue Assistants, i.e., European agency, in direct superintendence of the town and frontier duties would be productive of essential advantage.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 191-216      |

| 24-4-09 | <p><b>Sunn-hemp</b><br/> <b>Improved culture</b>—Information called for.<br/> H.M. the Naval Officer wrote to the Board of Trade that, of the eight bales from Salem containing hemp, bale No. 1 is called janapanar which is of a very good quality. But it is no good for cordage as it has not been properly dressed.<br/> In a further report it is stated that on a comparative experiment between the janapanar and the European rope of similar dimensions it was found that janapanar withstood the test. So a proposal is made that the inhabitants of Coimbatore should be encouraged to cultivate janapanar. The report from the master rope-maker is that the stuff is good but it has not been properly dried before packing, etc., and that the janapanar, if cultivated properly and dressed scientifically, will be better than any other rope of similar dimensions as has been proved by various tests by the Naval Officer. The Board of Trade informs the Governor-General that sunn-hemp is progressively cultivated in the Madras Presidency. But the Hon'ble the Court of Directors should be provided with means of making a comparison of the different sorts of hemp produced in India. For this purpose they recommend that in the districts subordinate to Fort St. George where sunn-hemp is obtained at a moderate price a quantity be provided sufficient to make the requisite experiments in England.<br/> The Board of Trade forwards to the Collector of N. Arcot the above correspondence with points for the Collector to elucidate :—<br/> (a) How far the sunn plant can be cultivated with advantage.<br/> (b) Whether sunn-hemp is obtainable at a more favourable rate than in Bengal.<br/> The Collector is required to report,<br/> (a) The nature of the soil best suited for the culture.<br/> (b) A minute description of the process pursued in preparing the hemp for use.<br/> (c) An estimate of the quantity that will be obtained in the district of Arcot.<br/> With regard to the other point the Collector is required to purchase the best hemp available to be forwarded to England.</p> | 59-74        |

| 12-7-1810 | <p><b>Tirupati district</b>—Transfer from Magistrate to Collector.<br/> 1. The Magistrate of Chittoor wrote to the Board of Revenue regarding the system of Police administration in the Tirupati district and requested the opinion of the Board.<br/> 2. The Board remarks to the Government that the Police at Tirupati is to protect the pilgrims and to guard the offerings to the deity and that the general rules for maintaining the Police elsewhere do not apply to Tirupati. The Collector's proposal to transfer the Police administration into his hands seems wholesome, in that he is the officer on the spot to detect crimes and quell disturbances, etc. His personal interference in the first instance will greatly promote the security of pilgrims.</p> | 1-22 |

Abstract.

Page  
number.**Police Jurisdiction—cont.**

3. The cavalgars are employed in collecting the inhabitants and artificers to drag the car and to promote the happy conclusion of the ceremonies. But these objects can best be attained by securing the revenue and preventing embezzlement of the offerings.
4. The Board, therefore, recommends that the entire superintendence of the Police be placed in the hands of the Collector and the cavalgars be abolished.
5. The Collector, however, says that the kavally system is an ancient one and he would give it a fair trial.
6. The Board informs the Collector that the Governor in Council has resolved upon retaining the cavally establishment and has acceded to the recommendations of the Board to transfer the Police administration at Tripaty to the authority of the Collector.

| 27-8-10 | Subadar of the Bodyguard—Grant of inam.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 23-8  |
| 8-11-10 | The Government informed the Board of their intention to grant 60 cawnis of land for three lives to Mahomed Ghouse, Subadar of the Bodyguard, in consideration of his active and faithful service. On the Board enquiring the Subadar's wishes as to the district in which the lands should be granted, he replies that he would have it round the ruined fort of Cauverypauk and at Arcot. The Board of Revenue is furnished with a sunned for transmission to Mohamet Ghouse and Government empower the Board to call upon the Collector to put the grantee in possession of the lands. It forwards the whole correspondence to the Collector of N. Arcot for action. | 39-42 |

|--------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| 2-4-10 | <p><b>Tirupati—Discontinuance of cavalgars—Proposed.</b></p> <ol style="list-style-type: none"> <li>1. The Magistrate at Chittoor writes to the Government that, on the orders of the Government to allow the kavally system a further trial, he submitted the draft of a sunned to be given to the cavalgars on their entering into moochalikas. Unless the cavalgars are placed under the Magistrate the benefits of the institution cannot be expected.</li> <li>2. The Magistrate reports that Tripaty is formed into three divisions, viz.,               <ol style="list-style-type: none"> <li>(a) Mamandoor under the superintendence of Kistnama Naick and Trimala Naicker,</li> <li>(b) Coracanumbady under the superintendence of a child of 7 years who succeeded to the cavalgarship on the death of his father, and</li> <li>(c) Kistnapuram under the superintendence of a woman named Natchiyarammah, a widow with no issue whose caval lands will devolve on the Circar at her death. The general belief is that the cavalgars share in the booty of the depredators who resort to Tripaty.</li> </ol> </li> <li>3. From an administrative point of view the Magistrate remarks that Tripaty is a small place. Its division into three cavals independent of each other renders the task of detecting thieves, etc., more difficult as jealousy exists between the cavalgars and militates against concerted action. Thus the thieves of one range easily escape into another without detection.</li> </ol> <p>He does not recommend the further continuance of the cavally system of police which is maintained at a considerable cost to Government and at the same time affords no protection to the property of the inhabitants and pilgrims.</p> | 57-68 |

|          | <b>Police Jurisdiction—cont.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |              |
|          | 4. The cavalgars who have been superintending the police for over a century consider the lands enjoyed by them as private and hereditary. The Magistrate further submits three statements of the lands now enjoyed by the cavalgars. He adds that if the lands are taken away from the cavalgars they should be otherwise provided for.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |              |

| 9-6-10   | <b>Tirupati Temple</b><br>Charity of Rajah Chundoo Lal.<br>Rajah Chundoo Lal purchased through the agency of Ectul Doss Podasee, a mukta for Pag. 1,000 in the village of Paunkum belonging to Temuppa, Zamindar, which the latter inherited as an inam of kowly manniam for Pag. 115, to be appropriated to the fakeers who visit Tripaty. The zamindar and others made a demand for a larger sum than the annual duty of Pag. 10 levied by the Company and have given much trouble. Rajah Chundoo Lal requests that the officer of the Hon'ble Company may be desired to receive the proper amount from Ectul Doss Podasee and to grant him a receipt for it annually. He also requests that duties may be levied on the rice, etc., imported into the mukta for the use of fakeers. Rajah Chundoo Lal transmits the above petition to the Resident at Hyderabad with a request to submit it to the notice of Government. The Government on receipt of the above complaint forward it to the Board for its consideration. | 95-8         |

## Letters from the Board of Revenue.

1810-1.

Abstract.

Page  
number.**Mulik-on-Nissa Begum—cont.**

In a subsequent report the Begum states that she stored some paddy in one of her gardens and that the Hon. Company, in taking possession of the jagheer, took possession of her gardens with the paddy and that the paddy may also be restored to her.

**Septennial Settlement.**

13-5-11 Cuddapah district—Minutes of the Board and Government's instructions. 21-91

1. The Board has taken into consideration the plan submitted by the Collector of Cuddapah for the future settlement of the Cuddapah district on the expiration of the present triennial lease. In the plan the Collector of Cuddapah proposes a septennial lease on the basis of the average collections of the seven years from f. 1214, thereby computing 6½ per cent. below the triennial lease. The advantage to the ryots is that they get a reduction of 6½ per cent. and that the period is for seven years; the advantage to Government is that, on the expiration of the septennial lease, the country will be capable of an augmented revenue.
2. The Board in its minutes is disposed to take the suggested reduction of 6½ per cent. not only on the septennial lease but also on a lease of perpetuity, i.e., permanent settlement of the villages which is in contemplation. Further the Board is of opinion that when the villages can yield increased revenue, as is suggested by the Collector of Cuddapah, under the septennial lease they will continue to do so under the perpetual lease also.
3. In order to constitute private property in the soil so as to provide a tangible object in the recovery of the arrears, Col. Munro calculated that it would be necessary to lower the assessment to a sum which would allow two-thirds of the gross produce instead of less than half to be enjoyed by the ryots. The Board is of opinion that without making a real sacrifice of the revenue on occasions of adverse seasons, etc., a fixed assessment may be established by which the gross produce would increase and the burden will gradually become lighter until it should become not more than one-third of the gross produce to the Government share. The Board is further of opinion that the sacrifice in revenue in adverse seasons will be compensated for by the imposition of duties on betel and tobacco.
4. The Government inform the Collector of Cuddapah that the Board in its observations remarked that vessabaddy or income-tax should be excluded from the proposed settlement, that it is desirable to place this item of revenue on a sound footing and that some defined rules should be established with regard to the continuance and resumption of inams. On both these points the Collector is requested to proceed in consultation with the Collector of Bellary.
5. The Collector of Cuddapah is furnished with a copy of the minutes of the Board on the proposals for the introduction of the septennial lease in lieu of the triennial.

**Customs Duties**

8-7-11 Tanning materials—Bark for tanning—Imposition of duty considered. 91

**Permanent Settlement**

19-7-11 Ryotwari and village—Relative merits discussed by the Board—Government orders. 93-178

1. The Board has received the suggestions of both the Collectors of Cuddapah and Bellary on the subject of the proposed settlement of Cuddapah and the Bellary districts. The Collector of Bellary has freely given his sentiments opposing the principle of a fixed village settlement suggested by the Board and has recommended the adoption of a permanent ryotwari settlement as suggested by Col. Munro. The Board has considered the comparative merits of the two plans.
2. Col. Munro suggests that the settlement should be ryotwari. The assessment should increase and decrease according to extent of land in cultivation. A reduction of 25 per cent. should be made on all survey lands and an additional reduction of 8 or 33 per cent. on lands watered by mechanical appliances from nullahs, rivers and wells if the ryots keep the doravus under repair. Every ryot will be entitled, at the end of the year, to select or throw up particular lands proportionate of the good and bad lands together. Every

Date.

Abstract.

Page  
number.**Permanent Settlement—cont.**

ryot as long as he pays rent should be considered as the complete owner and shall be at liberty to let or sell it without limitation. Remissions on account of bad crops, etc., shall not exceed 10 per cent. All unoccupied lands shall be the property of Government. All taxes on customs, shops, houses, etc., should belong exclusively to the Government. The repairs to all tanks which are not rendered private property by an extra remission shall be made at the expense of Government. Tuccavy loans should be gradually discontinued. All revenue servants, e.g., curnams and potales, shall remain under the Collector as before. Private creditors distraining the property shall pay Government all the dues or give security before distraining.

**3. The Board's Observations on Col. Munro's plan.**

The plan is no doubt applicable to all the unsettled districts. But the sacrifice in revenue on the part of the Government is so great that the Government cannot, without much loss, share in the plan. In provinces newly constituted under the Company and whose resources have not yet been ascertained, where judicial tribunals have not yet been established and where the Collectors, unfettered by the restrictions of law, are free to follow their discretion in retrieving the energies of the country and reforming the manners of the people, no policy can be better calculated than that of ryotwari rents for effecting a survey classification and assessment of the lands, for detecting alienations of revenue, for frustrating the interests of the interested inhabitants, emancipating the inferior from the superior ryots, for developing the capacity of the country and for remedying the inveterate abuses of the Mahomedan Government. Whatever might be the difference of opinion as to which policy is preferable it is unnecessary to discuss it at the present time as a general system.

4. The Board however objects to the ryotwari system that it cannot be made to assimilate with the code of revenue lately introduced. In the ryotwari system there is always danger of oppression by a corrupt Tahsildar. Further the difficulties of collection and of numerous other operations are almost insurmountable under such a detailed system.

5. The village system (mozawar) is at least as old as Manu, from whose times up to the present the settlement has always been made with the head inhabitant. The head inhabitant will lean strongly towards the maintenance of law and order, though there is some risk that he will oppress the ryots. Further, Government cannot possibly afford the loss in revenue that would be involved.

6. Government observe that the Board proposes to introduce a village lease in permanency in those villages which are flourishing enough to stand it and a temporary lease for, say, seven years, in the remainder.

**Abdul Husseid Khan**

26-8-11 Allowances from Mohamut Nuzeebuddin—Complaint of stoppage.

179-81

**Permanent Settlement**

12-8-11 Proposals for introduction.

182-214

1. Government approve the settlement proposed by Mr. Grame, though he is not correct in terming it 'ryotwari'. A ryotwari settlement is one made with each ryot for his holding, this one is with the village as a whole.
2. Waste land may be reserved if Collectors think that doing so will increase the revenue.
3. Government propose to determine a shist for cultivated lands with an additional shist. They are inclined to think that a lease of ten years would be preferable to one of seven.

**Roads, Ferries, etc.**

14-11-11 Proposals for improvement.

215-29

1. The Board had in contemplation the adoption of some system for improving the highways for the passage of rivers, nullahs, etc., and for remedying the want of accommodation for merchants and for travellers. It has been brought to the notice of the Board that since the establishment of the judicial system some of the Collectors have entertained doubts whether the care of highways was a matter for the police or for the Magistrates. Collectors have sent in proposals and plans for improving the highways.

Date.

Abstract.

Page  
number.**Roads, Ferries, etc.—cont.**

2. The Collector of S. Arcot proposes that flat bottomed boats of teak so constructed as to admit of carriages and horses should be built and kept up at public expense at all rivers requiring them in the district. A toll on every person, horse, head of cattle, carriage, etc., carried over on such boats should be levied by boat peons under the authority of Government. The whole of this revenue should form a fund to be appropriated to upkeep, repair of the roads and the construction of bridges and causeways.
3. Mr. Garrow, the Collector of Coimbatore, suggests that all the convicts may be employed on such works. He also suggests that choultries be erected and a mauniam of waste land be granted to each under the superintendence of the Collector.
4. The Board considers that the improvements suggested by some of the Collectors are desirable. It agrees to the employment of convicts. The levying of tolls is under consideration.
5. The Collector of N. Arcot is furnished with this circular with a request that he should give full details of the present state of internal communications and should give a general account of what has been done of late years, of the expenses incurred and of the receipts on account of tolls if such an impost has been customary. He should discuss whether the establishment of tolls would be practicable.

**Currency**

26-12-12 Proposed reform in—Proposals—Report from the Collector of Cuddapah.

245-67

1. Mr. Munro, the Collector of Cuddapah, reports to the Committee of Finance, that circulating coin amounts to thirty lacs of pagodas, that there is no possibility of obtaining satisfactory information of the species exported by individuals during the last five years. He submits an approximate statement of coins in circulation, coins exported from the Ceded Districts, etc.

**2. Paper money.**

Mr. Munro explains in detail the difficulties that have to be faced in introducing the paper currency, etc., and suggests that large notes for the use of the principal traders may be introduced gradually to begin with. Even then the perpetual changes in the rates of exchange of coins would perplex even this small circulation of big notes. The currency in the Ceded Districts comprises 32 kinds of pagodas and 15 kinds of rupees a fact which greatly impedes the dealings between different parts of the Ceded Districts.

3. He enumerates the objections and advantages of a reform of the coinage:—

The new coin will, of course, be subject to fluctuations of exchange, but the country will be relieved of the tax it now pays to shroffs. Trade between one district and another would be encouraged as also that between the different establishments and the native powers. There should be only a single mint and that at the Presidency, otherwise the shroffs will make business out of the difference in coins issuing from different mints.

**Life Jaghirs**

29-8-11 Resumption on the death of parties—Instructions.

269-88

1. The Jagheer of Tolesinga Pillai, which had been restored to the incumbents for life, was allowed to continue in the family after the death of the incumbent.
2. In cases where the jaghir is situated in more than one district, the sunnads for the whole jaghir are transmitted to the Collector in whose district the largest portion of the jaghir is situated. It is now ordered that each Collector under whom a particular jaghir is situated should have copies of the sunnad.

## Customs Law

31-10-1811 Amending regulations—Report of the committee of enquiry.

1-76

1. The committee remarks that even though the former regulations provided for too high duties the reduction proposed in the amending regulation should have been effected by lowering the centage instead of making the payment of the first duty exempt from all further demands.
2. They overcome an objection that the collection of the general duty amounts to reimposition of the ancient sayer by the argument that in its operation the security and convenience of the merchant will differ materially as the proposed duty is well defined and is made payable once only.
3. The previous regulation did not say anything about the Canara and Malabar provinces. In the proposed regulation the committee has incorporated these provinces also.
4. *Grain.*  
The former regulations provided town duty on grain in the provinces at the rate of 3 per cent. and at Madras an import duty of 5 per cent. by sea. As this article is immediately connected with the land revenue, the additional duty on the product caused much inconvenience to the ryots. So the committee recommends that grain, the staple produce of these districts, should be exempt from the operation of the inland and import duties.
5. *Indigo.*  
An export duty of 15 per cent. has already been fixed on this article by the former regulations. It is necessary that there should be a drawback on export to London at 3 per cent.
6. *Betel and tobacco.*  
These have been from the first Government monopolies and are not therefore liable to customs. The receipts under this head are now incorporated with the general collections and paid into the treasury.
7. *Bang.*  
This article is omitted in the former regulations. But in practice a duty was demanded. The proposed regulations legalize the demand.
8. *Opium.*  
This article also was not included in the former regulations. Considering the unchangeable price of the article it can well bear the duty which the committee has now proposed.
9. *Tobacco.*  
This is an article of mere luxury in very general use. Too high a duty may greatly lessen the consumption and in consequence decrease the revenue.

## Permanent Settlement

31-12-11 Introduction of—Circular instructions.

77-121

1. The Governor in Council in the minutes of his consultation says that when the Board was authorized to conclude the present triennial lease, which has in several places expired, the measure was admittedly intended to be preparatory to the introduction of a permanent settlement. The advantages of the system have been too well recognized and too well admitted to require any discussion. The points to be considered are,
  - (a) The proper period within which the plan should be launched and
  - (b) the mode by which its accomplishment may be best effected.
2. The Government are not prepared to consider objections founded upon vague expectations which are prejudicial to the development of the country. They observe that a final settlement must be effected by perpetuating one or other of the three modes, viz., (a) the ryotwar or settlement with individual ryots, (b) the mouzawar or village settlement, or (c) the settlement by mootahs or zamindaris comprehending several villages, or, as is sometimes the case, an extensive tract of country. They discuss the pros and cons of the introduction of the systems in the light of the arguments advanced by Collectors.

Date.

Abstract.

Page  
number.**Permanent Settlement—cont.****3. Village Settlement.**

The system recommended by the Board is the village system. The system will commence with a term of years and be formed with the principal cultivators of each village or with the head inhabitants. It will be in the power of the persons with whom the settlement may be made, to enter into permanent engagements with inferior ryots. It is proposed that the settlement should be made exclusive of all professional and other personal taxes. The object of the proposed plan is to fix the demand upon the lands and to limit the tucavay loans.

**4. Revenue collection.**

The Government observe that the Board of Revenue did not, in its minutes, take into consideration the coin in which the new engagements should be payable. Care should be taken that no loss accrues thereby either to the Government or to the ryots.

2-3-12

5. The Board of Revenue in its proceedings on the Government's reply notes that the sentiments of the Government are decidedly in favour of an immediate settlement in perpetuity. The Board intended the decennial settlement to be a stepping stone to a permanent settlement. But Government want the proposed settlement to be made permanent at once. On the lines first proposed by the Board the Collector of N. Arcot appears to have formed a decennial lease for the whole of his district but the rent has not so far been fixed. This settlement may at once be made conditionally permanent.

129-68

6. The Board circulates the whole correspondence with the Government for action by Collectors.

**Mushruti Inams**

31-3-12

Sharing of produce—Civil Court's decree.

169-78

1. The Board reports to the Government on the proceedings of the Court of Appeal forwarded for its consideration by the Government regarding the appointment of a person to officiate in the mosque of Koodoocul, a village in the N. Arcot district.
2. A dispute arose between the descendants of the original incumbent regarding the share of the produce of the village of Aroor, a mushrutee or service inam granted for the maintenance of the person who performs the offices in the mosque at Koodoocul.
3. The plaint is that the share in question went to establish the principle that a mushruti or service inam can be divided among the collateral branches of the family, which amounted to thus depriving the person doing duty of a share of that inam.
4. This decree did not receive the confirmation of the Collector, who was then exercising judicial powers and an appeal was then filed.
5. The Provincial Court states that the power of pronouncing on the capacity or incapacity of the heir to fulfil the duties or execute the duties required of the person holding the office is vested in the courts of justice.
6. The Collector of N. Arcot objects to a part of the decree as tending to establish a principle at variance with the due exercise of the authority hitherto vested in him. This objection, the Board remarks, is irrelevant to the point at issue which is the right of participation in the inam and not the capacity to perform the services attached to the office.
7. On this report the Government observe that they cannot pass any orders without referring to the summed of the mushrooti inam in question. They order a copy of the summed, which the Collector reports to be in his possession, to be sent to them.

**Glass-making**

2-4-12

Kalahasti Zamindari—Mr. H. Ryder's application.

179-84

Mr. Herbert Ryder applies to the Board of Revenue for a plot of land measuring 20 cawns near the village of Carnah in the Zamindari of Calahasti, for carrying on the manufacture of glass. The Board authorizes the Collector to measure the lands after arranging with the Zamindar of Calahasti for its occupation. The Governor in Council has also acquiesced in the proposal.

| Date.   | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Page number. |

| 27-4-12 | Wootacaudu village.<br>1. In 1807 the Governor in Council was pleased to confer the village of Wootacaudoo on Ramaswami Pillai, on zamindari instead of shrotriem tenure. But Ramaswami Pillai was disinclined to accept it on zamindari tenure. The subject was then dropped.<br>2. In April 1812, however, the Governor in Council again offered him the said village on zamindari tenure.<br>3. The Board asks the Collector to furnish a statement of the value of the village, to ascertain whether it has been included in the present settlement, and whether any objections exist to the proposed grant.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 185-91       |

| 2-6-12  | Embezzlement—Enquiry.<br>1. The Board remarks that the Collector should not have delayed the submission of the report on the embezzlement of the Tripati pagoda even though it makes full allowance for the performance of many other duties connected with the office of the Collector. It remarks that such delays may be injurious to public interests.<br>2. It is of opinion that the servants responsible for the embezzlement should be punished more severely than by the mere loss of their situations. But, owing to the Collector's want of promptitude, proof of embezzlement will be most difficult. Some of the persons on whom the guilt is placed are dead and some have left their situations and even the province itself.<br>3. As regards Sonappa and Ram Rao the Board thinks that unless the charges against them are conclusively proved it will be useless to institute any proceedings, as it does not appear that any money can be recovered from them. But they may be confined. If they institute any appeal to prove their innocence and thereby fail they should be remanded to confinement, until the Government think that they have been sufficiently punished.<br>4. As regards Bauboo Row who is reported to be responsible for a sum of Pag. 263-25-23 the Board requires information as to the extent of the commission allowed to the Tahsildar on the offerings at the pagoda. In consideration of the circumstances mentioned by the Collector the Board does not insist on his removal from office. With reference to the fine of two month's pay proposed by the Collector to be imposed on him the Board reserves its decision.<br>5. It requires from the Collector a report upon the internal economy and arrangements of the pagoda at Tripati, the principles on which the offerings are made and the checks imposed to prevent speculation of the revenues, etc. It considers that all the arrangements concerning the Tripati pagoda should be made into a regulation as has been done in the case of the Juggernaut pagoda in Bengal where the revenue is derived from a sort of pilgrim tax whereas in Tripati it is derived from voluntary contributions. | 228-38       |

| 29-6-12 | Allowances.<br>The Board grants authority to the Collector of N. Arcot to grant allowances to the families of the Poligars, Chunder Shaiker Naid, Timmoopah Naid, Rungapathi Rauze and Poolappa Naid and to make such additions as may appear to be advisable, because the Chittoor Poligars questioned whether the faith of the Government is not pledged to some degree to continue the allowances of 18 per cent. to the descendants of those who surrendered themselves under the proclamation published by the Collector. In contrast with this the Pakal Poligar was one of those whose pollems were forfeited                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 240-3        |

|          | for ever in consequence of rebellion and consequently is enjoying a reduced allowance. In order to frame definite rules with regard to the allowances granted to the Chittoor Poligars, the Collector's sentiments are required by the Board.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |              |
|          | <b>Mosque Inams</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |              |
| 15-6-12  | Koodoocul village—Government's remarks.<br>The inam was originally granted to Shekh Mukhdcom for the support and expenses of a mosque at Koodoocul. It was renewed to Mullik Shariff, son of the former inamdar. Mullik Shariff's son, Ebram Shariff, officiated at a subsequent period and appears to have enjoyed the inam. But the inam was not granted to him although the grant to his father was not hereditary.<br>Two members of the family complained that Ebram Shariff had deprived them of their shares in the inam. On this complaint the Provincial Court declared that Ibram Shariff had a superior title to the inam and appointed him exclusively to do the duties for which the inam was granted and have laid down a rule of succession to the office and have vested in the Zillah Judge the discretion of filling up the office.<br>The Governor in Council considers the above decree of the court to exceed its competency or to be founded on a mistaken interpretation of a particular clause of a regulation.<br>In the circumstances the Government ask the Board how the decree may be brought by appeal before the Court of Sudder without making the Government a party to the suit. | 244-7        |
|          | <b>Police</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |              |
| 28-11-11 | Re-organization proposals.<br>The Government ask the Judge and Magistrate of the Zillah of Trichinopoly the number of the Police, their description, and the amount of their pay and other emoluments, whether paid by the Government or derived from ruzooms, inams, fees, etc. Government think that a reduction could be made in some districts in the charges paid by Government without injuring efficiency. Government call for a report.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 248-71       |
|          | <b>Tirupati Temple</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |              |
| 17-8-12  | Revenue frauds—Measures to prevent.<br>1. The Collector of North Arcot is informed that as much of the amount embezzled at Tripaty as cannot be collected from other quarters should be made good out of the commission due to the present Tahsildar.<br>2. The Board calls for a draft regulation for the collection of the temple revenues to ensure greater efficiency of the servants employed and to prevent frauds.<br>3. In connection with the proposed draft regulation the Board sends a copy of the regulations in force in the Allahabad and the Juggernaut temples.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 272-345      |
|          | <b>Suit against the Collector</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |              |
| 8-7-12   | Inam dispute.<br>1. Shaik Chand of Keelavashar complains that the Nabob, Shautoollah Khan Bahadur, gave his ancestors as maunium, 3 cawlis of poonjah land, which they planted with mangoes and other trees. During the war with the French they lost their sanad. His father therefore obtained an enayetnamah from the Nabob. Wallajah and the family enjoyed the maunium till f. 1210.<br>2. The village headman and karnam entered in the village accounts that the maunium has been zuffed. The plaintiff applied to the Collector and the Board for redress but without success.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 346-52       |

| <b>Collector's Commission</b> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |              |
| 17-9-12                       | Extra revenue—The Board's report.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 383-410      |
|                               | <p>1. The Board reports to the Governor in Council that the orders of Government with regard to the Collector's commission on the extra revenue are that the commission on the revenue from salt, sayar and abkari is to be appropriated in the proportion of two-thirds to the Collector and one-third to the Assistant.</p> <p>2. But no time limit had been prescribed and the cases of districts where there may be two or more Assistants were not taken into consideration. The Board postponed the receipt of commissions until separate accounts should be furnished for each kind of revenue by all Collectors. There was delay on the part of Collectors in submitting the new forms of accounts. The increase in the extra sources of revenue had been progressive. The accounts so far received from the Collectors are in some cases defective. But this need not impede the settlement of Collectors' claims and adjustment of the commission.</p> <p>3. The Board works out in detail the sources of extra revenue, the amount of commission to be allotted to each district and the amount of the Collector's and Assistant's shares. It brings to the notice of the Government that, in dividing the commission, the principle to be observed should be that the Collectors should take an interest in increasing the revenue. If they get a maximum they will have no immediate interest in extending the sources of revenue.</p> <p>4. The commission to Assistants should be wholly received by the Head Assistants. Because if this portion of the commission is further subdivided it will be of no great value to those who are receiving it. It forms a material addition to the emoluments of the situation and should render the post an object of attainment by the junior branches of the service.</p> <p>5. The Board therefore recommends that the gentlemen who have held the situation of Head Assistants in the districts where no perpetual settlement has been made, may be allowed to receive the commission on the above basis.</p> <p>6. In districts where a perpetual settlement has been made it has not been customary to appoint Head Assistants. The junior Assistants do not receive commission. Their claims will now be considered.</p> <p>7. The Board recommends that the salary of Collectors may be fixed at Pag. 400 per mensem with a commission of 5 per cent. upon the net revenue.</p> <p>8. The Board does not admit the claim of Mr. C. M. Smith for his commission upon the revenue of Seringapatam.</p> |              |
| 30-10-12                      | <p>Extra revenue—Government's opinion and final rules.</p> <p>The Governor in Council concurs with the general remarks offered by the Board.</p> <p>As regards the maximum allowance proposed it is preferable that it should increase in proportion to the revenues. This does not include the Assistants whose allowances are fixed.</p> <p>As regards the standard proposed by the Board, namely that the revenue of the three last faslis should be taken as the present standard the Governor in Council is of opinion that whenever a Collector is appointed a new standard is to be established both for the revenue and the commission. A copy of the rules for the adjustment of Collectors' commission on extra revenues is furnished to the Board. Regarding the claim of Mr. C. M. Smith, the Governor in Council states that it is without any foundation.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | 411-22       |

| 29-3-13  | Vylattoor village—Tremalachar's application.<br>1. The Mirasidar of Vylattoor village, by name Tremalachary, represents to the Board that the village of Vylattoor is his hereditary mirasi village which his ancestors made into an Agraharam and that he continued to hold it and was paying the kist money punctually to Government.<br>2. When the English took possession of the Soobah of Arcot the said village was rented out to him at Pag. 256 and in 1802 the rent was enhanced to Pag. 426. In 1803 it was rented at Pag. 183 and so on. Mr. Ross, the Sub-Collector, held the village under aumaunee. Tremalachar waited on the Collector for the redress of his grievances, but to no avail, as the Tahsildar gave an interested report by which the village was rented out to one of his kinsmen. Trimalachar prays that the village may be rented out to him.<br>3. The Board writes to the Collector that even though Trimalachar's claim does not deserve consideration inasmuch as he was involved in an intrigue, yet the Board requires that the Collector should go in detail into the charges made by the complainant against the Tahsildar Rama Row and report how Trimalachar may be allowed a share in the mirasi. | 51-68           |

| 5-7-13   | Re-organization proposals.<br>1. The Judges of the Provincial Court, Centre Division, give their opinion as follows:—<br>The taliars, who are the foundation of the police system, are paid by inams; but they regard these as private property to be mortgaged or sold at will. Thus they sometimes become penniless and prey on the community which it is their duty to protect.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 131-92          |

| Date.    | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Page number. |

|          | 2. Col. Munro considers the taliars to be the only persons really capable of policing the village. The possession of inam land gives them a status even if they do not cultivate it, and, after all, an idle cultivator makes an active watchman.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |              |
|          | 3. The Board asks for the opinion of the Collector. It considers that taliars should be guaranteed an allowance of Rs. 4 a month. If cultivation work interferes too much with their duties as watchmen, they should be remunerated wholly in cash.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |              |

| 16-11-13 | Arrest of absconders.<br>The Board furnishes the Collector of North Arcot with a copy of the correspondence on the subject for his guidance.<br>The Collector of Bellary submits to the Board a list of the defaulters who have absconded and taken refuge in Mysore. He applied to the Rajah, through the Resident, for their restoration. He thinks that the only effectual means will be to re-establish between this Government and that of Mysore the "ancient practice of mutually returning all emigrant ryots of every description whether defaulters or not."<br>In the interests of revenue administration the Governor in Council thinks it inadvisable to adopt any strong measures in this direction. It is sufficient if the Collectors pursue the ruling principle of the Court of Directors that the security of the public revenue rests upon the ameliorated condition of the people. To this end forbearance should be practised and the coercive processes restricted as much as possible. | 271-88       |

| 8-12-1814 | Balarama Doss Mahantoo's temple objected to.<br>Krishnamacharyar, a Brahman serving the God at Tirupati, complains to the Board that one Byraughee, by name Balarama Doss Mahantoo, built in his house on the Mount a chapel called vimaunam resembling the sanctuary of the god. This is for his own private worship. (Apparently offerings intended for the god are placed in this vimaunam and go into the pocket of the Mahantoo). The complainant requests that the Board may be pleased to have a hundi box in front of the vimaunam and watch the result. If that hundi receives collections intended for the chief deity then the vimaunam may be demolished. It is a contrivance of the Mahantoo to enrich himself. He is one of the 12 chiefs of the monasteries.                                                                                                                                                                                                   | 1-3 |
| 10-1-15   | Offerings to the deity—Disposal of.<br>About 1808 the Governor in Council gave effect to the suggestions of the Accountant-General that the offerings to the idol at Tripati should be sent down by the Collector to the Presidency town to be melted at the mint. This method was subsequently altered to that of auctioning at the Presidency in lots. In 1812 the Collector of the District sent them in lots fixing their value in the district. In the Presidency the outturn of the sale showed an excess of 1½ per cent. over the district valuation. It was then deemed expedient to dispose of the offering in Madras. But this entailed much delay and inconvenience. So the Board suggests to Government that the Collector may in future be allowed to dispose of the offerings in the district itself to the best advantage and carry the proceeds to account. The Government are pleased to accede to the request. This order is communicated to the Collector. | 4-8 |

| Date.   | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Page number. |

| 21-4-15 | Digging of large tanks.<br>1. The Magistrate of Chittoor reports to the Government some objections which occurred to him against the employment of convicts of the different zillats in moveable bodies on the public roads.<br>2. He suggests that places where large tanks are to be made should be selected, that convicts should be employed on the spot fixed for the purpose and that when they arrive they should build huts for themselves.<br>3. The construction of the tank should be in the hands of a pioneer officer who will have under him certain pioneers to assist the labour of the convicts. The convicts should be fed by contract. They should also repair and make their own fetters and tools.<br>4. The Government addressed the Court of Fauzdari Adaulat on this subject, who raise no objections.<br>5. The Governor in Council is desposed to try the proposed plan under the superintendence of the officer by whom the plan has been suggested.                                                                                                                                              | 75-91        |
|         | <b>Jaghir</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |              |
| 8-5-15  | Goham Hussain's prayer for renewal.<br>1. The Paymaster of Stipends forwards a letter to the Chief Secretary to Government from H.H. the Nabob of Carnatic transmitting letters, etc., received from Shah Goham Hussain Sauvee-ul-Kaudree, the son of Shah Mohamad Sauvee-ul-Kaudree, with H.H. the Nabob's recommendation, for compliance.<br>2. The petitioner states that his father received a jaghir from the Nabob Wallajah in certain villages, which the British Government confirmed. His father has now died and he asks for the grant of a fresh sanad.<br>3. In reply to Government the Board refers to the tenure of the 34 jaghirs in the Carnatic, of which this is one, but it received its sanad in 1802 instead of in 1804, as with the rest, and the terms are somewhat different. The Board does not recommend renewal of the sanad but in view of the large size of the family and the fact that Mussalmans respect it highly for its learning, a pension of Pag. 80 a month may be allowed to the petitioner.<br>4. Government accept this proposal subject to the approval of the Court of Directors. | 91-124       |
| —5-15   | ——— Mohce Mundal Gudda—Mahomad Abdulla's claim.<br>Mahomed Abdullah memorialises H.E. the Governor that his late father Mohamad Asseem Khan held the Jagheer of <u>Mohce Mundal Gudda</u> by virtue of a royal grant in perpetuity; that about 40 years ago H.H. the Nabob Wallajah forcibly deprived his father of the jagheer leaving 40 cawnis constituting his garden and a monthly allowance of Rs. 150. This provision was continued when the Hon. Company took possession of the Carnatic and confirmed by Lord William Bentinck on Mohiuddeen Hussain Khan, the brother of the petitioner. But on the death of Mohiuddeen Hussain Khan, the monthly allowance was discontinued. The petition is for claiming the arrears and continuance of the pension on the petitioner.<br>On this the Board is asked to offer its remarks.                                                                                                                                                                                                                                                                                       | 125-46       |

| Date.   | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Page number. |

|         | <b>Jaghir—cont.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |              |
|         | The Board replies that the allowance of Rs. 150 was admitted by the Board of Assigned Revenue; the Government were pleased to continue it after the assumption of the Carnatic. In the public letter from the Hon. Court, dated 23rd July 1806, paragraph 71, it was ordered to discontinue the allowance of Rs. 150 to Mohiuddeen Hussain Khan on his death and to resume the 40 cawnis simultaneously. The petitioner seems to have unnecessarily obtruded himself on the notice of the Government. |              |
|         | On this the Government observe that the petitioner is in extreme distress being confined to bed and it may be proper to obtain from him full information to form a conclusive opinion on his claims and to state whether he may not be deserving of some sympathy from Government as in the cases of the descendants of other jaghirdars.                                                                                                                                                             |              |
|         | The Board on re-examining the question has reported that the orders from England are conclusive against the claims of Abdoolah.                                                                                                                                                                                                                                                                                                                                                                       |              |
|         | But the Government consider Abdoolah to have the same claim as his brother and are pleased to continue to him the allowance of Rs. 150 and the garden of 40 cawnis.                                                                                                                                                                                                                                                                                                                                   |              |

| 10-8-15 | <b>Claim to gardens and pettah.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 161-82       |
|         | On the petition of the Chittoor Jaghirdars, the Collector endorsed unfavourably. They now appeal to the Board for a reversal of the endorsement.                                                                                                                                                                                                                                                                                                                                                      |              |
|         | The Board transmits the original petition with the Collector's endorsement to the Collector of North Arcot and remarks that there is of course no claim to the jaghir now. But the petitioners assert a right to four gardens and a pettah. Further information is called for.                                                                                                                                                                                                                        |              |

|         | The Collector of North Arcot completed an investigation of claims into yeomlahs with reference to the Board's previous orders. On the favourable report submitted by the Collector the Board recommends to the Government the continuance of the yeomlahs. The Government agree to these recommendations and authorize the Collector to continue the yeomlahs.                                                                                                                                        |              |

|         | The family of the late Jaffar Hussain Khan claimed a pension. The Board in correspondence with the Collector of North Arcot reports to the Government that Zaffar Hussain Khan held one of the 34 Carnatic jaghirs, the grant on restoration of the jaghir being only for life. The grandsons of Jaffar Hussain Khan pray for a pension pleading the infirmity and ill-health of their father. The Board on the report of the Collector recommends a pension of Pag. 20.                              |              |

| Date.    | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Page number. |

| 16-11-15 | Sale of the Zamindari—Instruction to the Collector.<br>The Board of Revenue transmits to the Collector of N. Arcot a copy of the precept of the Zillah Court requiring him to sell the whole or part of the Zamindari of Bomrauze for realizing the sum of Rs. 58,377-8-9 adjudged by a decree of the Sudr Adawlut and concurs in the opinion of the Collector that the sale of only a part of the zamindari will be quite sufficient to cover the dues. With reference to the zamindar's indifference to the instructions of the Collector to submit accounts for purposes of subdivision the Board asks the Collector to once again draw the attention of the zamindar to the penalties for his failure, etc. Even then if the zamindar fails the Board authorizes the Collector to proceed with the sale in the prescribed manner. In that event the Collector is asked to send a copy of the advertisement to the Board.<br>The Board suggests to the Collector the probability that the zamindar would have paid the dues in court. But in that event the zamindar should produce an authenticated copy of the precept to the Collector. Until that time the Collector is ordered to carry the regulations into effect as is directed by the Board. | 220-34       |

| 19-2-16   | Cash advances to district servants.<br>This is a letter from Mr. Ross, Collector, who followed the practice established by Col. Munro. It forms an enclosure to a letter from the Board to the Collector of N. Arcot, dated 19th February 1816.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 17-24 |
|           | <b>Kazi of Arcot</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |       |
| 29-2-16   | Allowances.<br>1. The Board of Revenue reports to Government that the mufti of Arcot was receiving Pag. 813-36-37 representing the rent of the villages of Rundori and Keelmooringee and it suggests a reduction in the allowance to the amount ordinarily received by muftis at other stations.<br>2. The grandfather and father of the present mufti filled offices and enjoyed the revenues of the villages. H.H. Oomdut-ul Oomra granted another village of Yalum as a free gift unconnected with any official duties. The other two villages were taken under the Collector's management in f. 1211. The present mufti was given an allowance in lieu of the two villages. The Board reports that it is not aware of the allowance ordinarily granted to the kazis.<br>3. However, with reference to the former possessions of the two families, the Collector has stated his opinion that from Pag. 250 to 300 annually will be quite sufficient to each. The Board submits that this allowance, subject to the orders of the Court of Sudr Adawlut, may be confirmed on them and the villages resumed. | 25-48 |

| Date.    | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Page number. |

|          | 4. The Government present the case to the Court of Sudr Adawlut. With regard to the resumption of the inam lands the court can offer no opinion.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |              |
|          | 5. As regards the office of kazi, it is declared that it is requisite in cities and principal towns for preparing and attesting deeds, etc., of marriage and performing certain religious functions. The duty of the kazi varies in proportion to the density of the Mahomedan population. So the court is not able to judge the standard of work each kazi has to do and consequently the amount of their emoluments.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |              |
|          | 6. <i>The allowances.</i><br>The court decides that it may not be altogether unfair to conclude that half of Pag. 813 for the kazi and of Pag. 614 for the muffy would amply compensate them for the discharge of their present duties.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |              |
| 29-2-16  | <b>Customs Rawanah</b><br>Intimation of changes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 49-68        |
| 7-3-16   | <b>Yeomlahs</b><br>Fuckoorla Beg Khan—Claim allowed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 69-70        |

| 20-11-15 | <b>Customs Law</b><br>Amendments—The Board's remarks on the Collector's suggestions.<br>This is an enclosure to a letter from the Board to the Collector of N. Arcot. It contains the report of the Board of Revenue to the Government on the proposals of Collectors on the duties, etc., of the Customs department.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 93-104       |
| 25-3-16  | <b>Ryotwari Settlement</b><br>Introduction of.<br>With reference to the recent orders of the Hon. the Court of Directors for the introduction of the plan of an annual ryotwar settlement in all cases where existing leases do not oppose the measure, the Board transmits to the Collector of N. Arcot copies of certain correspondence on the subject with Col. Munro for his attentive perusal and consideration. He will receive at a future date further instructions on the subject in the shape of a regulation. Meanwhile the Collector is asked to report to the Board any cases where he may consider the introduction of the new plan difficult. He is enjoined that no steps should be taken to commence a survey until he receives further orders.                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 105-68       |
| 8-3-16   | <b>Decennial Lease</b><br>North Arcot—Circar and inam lands—Governor's approval.<br>1. N. Arcot is composed of lands partly circar and partly alienated either for a time or in perpetuity.<br>2. As regards the Pollam of Congoondy, the Collector of N. Arcot has not submitted to the Government the preliminary information required for its permanent settlement which has not yet taken place. The Governor proposes that that pollam should be permanently settled subject to the approval of the Court of Directors.<br>3. In consideration of the faithful adherence of the Goodiapaaty Poligar when the other Chittoor pollams were in rebellion the Governor consider that this pollam should be permanently settled on a moderate jumma. The Collector is asked to report.<br>4. <i>Circar lands.</i><br>The Board explained to the Government the terms of the decennial lease concluded for the circar lands. The Governor in Council is persuaded of the fatal effects of over-assessment. The Collector feels very confident in the expectation of realizing the whole of the decennial rent without any balances and the Board of Revenue believes that it will not prove so heavy as to entail a continuance | 169-92       |

Date.

Abstract.

Bun. 19 (4)—cont.

number.**Decennial Lease—cont.**

of the disastrous effects attendant on over-assessment. The result is that during the preceding four faslis, two of which were unfavourable, the ryots have profited. The case is therefore not one of extreme over-assessment, but a proper ratio between the produce of the land and the land revenue.

5. The best authorities in land revenue are of opinion that one-third of the produce should be taken by Government. Col. Munro's plan amounts to this.

6. The district of North Arcot consists of 2,555 sircar villages of which 54 are unproductive and 2,501 have been rented decennially. The settlement as from the reports by the ryots is thoroughly satisfactory to the Government.

**7. Chittoor Pollams.**

As regards these pollams lands to the extent of 10,273-18-75 acres have been rented on the former favourable terms to Kutpudi peons. The result of the lease for the period during which it has been in force is considered to be highly satisfactory and favourable to the systems.

8. All these are symptoms of prosperity in the country and denote the value attached to the lease and of the confidence entertained by the ryots that they are to reap the fruits of their labour. The high price of grain has proved a very favourable circumstance both to the renter and the ryot.

9. As regards the villages where there may be disputes between the renters and the ryots, the Governor-in-Council concurs with the Board in any action it may propose to take.

10. The Government cordially sanction the measures proposed by the Collector for the formation of tanks, wells, etc., for the general improvement of irrigation.

11. Mr. Graeme's services are appreciated.

**Singanna Chetti's Choultries**

11-4-16 Bequest of Rs. 40,000—Irredeemable loan.

195-212.

1. Singhana Chetti, a wealthy resident of Madras, built four choultries, one at Conjeeveram, one at Chittoor, a third at Madras and the fourth at Benares. In order to ensure a fixed allowance for the maintenance of all the four choultries he wishes to endow a sum of Rs. 10,000 for each choultry, i.e., Rs. 40,000 in all in the Company's paper as an irredeemable loan.

2. If the Government coincide in the opinion of the Board as to the propriety of the proposed measure it only remains to determine the rate of interest to be allowed for the money. Mr. Singanah Chetti has expressed a hope that 8 per cent. may be allowed. If it is considered objectionable at least 6 per cent. may be allowed.

3. The Board is of opinion that on the final payment of the money by Singanah Chetti the Company's promissory notes should be cancelled and a cowle be granted to him registered in the Government Secretary's office.

4. Government reply that C. Singanah Chetti's ideal is highly creditable to his character and deserves the encouragement of Government. As regards the endowment in irredeemable loan the Governor is not at liberty to receive it without the sanction of the Court of Directors. As regards interest, nothing more than the current rate will be allowed. The Collector is furnished with this correspondence with reference to the choultry at Chittoor.

**Sankariah's Choultry**

20-5-16 Grant of lands.

213-5

One B. Sankariah, formerly Head Saristadar of Madras and now Head English Master at the College, applies for the confirmation by Government of a grant by the Zamindar of Bomrauze at a lower rent. The petitioner states that the difference between the full value of the lands and the rent payable by the zamindar will be appropriated to the support of a choultry built by the petitioner. The Board asks the Collector to verify the statement of the petitioner and whether he will recommend the case to the consideration of the Board.

| 8-7-16   | <b>Kalahasti</b><br>Alienated villages—Restoration of—Extract from the proceedings of the Board of Revenue.<br>1. The grandfather of the present Zamindar of Calastry made over at various times the revenue of certain villages to persons supposed to have influence at the Durbar of the Nabob of Arcot. The villages in question were resumed either by the present zamindar or his father. The zamindar states in a letter the occasions of the grants and insists upon his right to resume them and explains his difficulty in paying his jumma if claims are made against him by deposed persons. He petitions Government to stop the presentation of such claims before the Courts of Judicature.<br>2. The Board remarks that the only way to put a stop to such presentations would be to prohibit Zillah Courts from entertaining such suits. Such a prohibition could be enforced only by a regulation.<br>3. The Board observes that the villages in question have been held by the plaintiffs under deeds granted by the ancestors of the zamindar. But the entire pollam was answerable for the Government peshcush or jumma fixed thereon. The zamindar can alienate the villages from himself but cannot alienate them from Government for purposes of revenue. In the permanent settlement of the zamindari the villages in question were not included in the assets of the zamindari and they were reserved for future enquiry. In the sunned granting the permanent settlement of this zamindari it is stated that "the land-tax includes lakheraj and other alienated lands paying small quit-rents."<br>4. The court has maintained the right of a zamindar to make such alienations and has also bound the successor to his predecessor's act.<br>5. The Collector is directed to refer to Mr. Stratton's report on the zamindari and its settlement. If he is satisfied that the value of these villages has been deducted from the assets previous to fixing the future jumma he may proceed in the manner pointed out in the regulation to recover such as are held under invalid titles and are not endowments on public institutions. The Board further directs the Collector to begin his enquiry with those who hold villages restored under a decree of the Zillah Court. | 233-62            |
| 8-7-16   | —Alienated villages—Suit against the Zamindar.<br>In amplification of the view taken by the Board of Revenue and to guide the Collector the Board forwards a precept of the Court of Trichinopoly in a similar suit.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | 233-62            |

| 10-10-16 | <b>Western Poligars</b><br>Venkatagiri, Kalahasti, Bomrauze and Sydapoor—Military service—Abolished.<br>1. The Board submits to the Governor that the report of the Collector of Western Poligar Peshcush throws light on the military establishment and the territorial resources of the poligars of Venkatagiri, Kalahasti, Bomrauzepollam and Sydapur.<br>2. The sunned in possession of the present poligars do not describe the actual condition of their tenure. But they bear internal evidence of dependence on the empire and of their subjection to the Soubadar of the Carnatic. H.H. the Nabob Wallajah grants to Kumar Yachum Naid the succession of the Zamindari of Venkatagiri on condition of attending with a certain number of horsemen and foot-soldiers whenever required by the Nabob.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 273-317           |

## Western Poligars—cont.

3. *Sydapoor.*

The tenure of this estate is of a military nature but does not specify the number of troops to be maintained.

4. *Bomrauze.*

The poligar did not produce the sunned to the Collector and pleaded its loss at the time when Hyderally Khan invaded the country.

5. *Status of these poligars.*

At the time of the transfer of these pollams to the British Government they appear to have been bound to the payment of a small tribute in money as the usual mark of dependence, to have agreed to a share of military service undefined in its extent or nature and to have contributed considerable portions of their resources to the exigencies of the Nabob of Arcot.

6. By the treaty by which the zamindaris were transferred to British authority no stipulation as to the military service of the zamindars was considered and their militia will therefore be useless. In former times the military service of the poligars was more calculated to embarrass than to relieve the operations of Government under circumstances of extreme urgency.

7. By a warning issued by the Board in 1797 the zamindars however high they may be in rank were forbidden to assemble armed militia on pain of losing their pollams. At a later period the Zamindars of Calastry and Bomrauze espoused the opposite interest of two brothers contending for the possession of Mutlawar in the Nizam's territories and they, in violation of the Board's orders, met each other with a considerable force of armed men. In this connection the Collector's investigations are much appreciated.

8. The zamindars have appropriated portions of lands to the maintenance of military adherents which should go to the State in the event of the entire abolition of the military service. The tenure of these zamindars on a military system will prove a fruitful source of disquietude and an obstacle to the introduction of regular government.

9. The Collector remarks that the reformation of these poligar governments seems indispensable to the progress of the internal administration of the country.

10. The Board submits the principles on which it proposes to commute the military service to money by abolishing the military service and the addition of the military expenses of the zamindars to the pesheush now paid by them. The omeram and cuttabuddy lands will not be useful in point of revenue if resumed but the release of military peons will add to the revenue and domestic charges. On the basis of the above principles the Board works out in detail the amount of the pesheush, etc.

11. Anticipating that the recommendation is confirmed by Government the Board submits the measures necessary for opening the woods of the zamindaris and purchasing at public expense the arms which will become a useless or dangerous part of the property of the military adherents about to be discharged from the service of the zamindars.

12. The above report forms an enclosure to a letter from the Board to the Collector, dated 10th October 1816.

## Inam Village

17-10-16

Arcot Taluk—Pootock—Claim by Meer Asadullah.

Meer Assadoollah alias Meer Mohamad Hussain Ally petitions to the Board that his father was granted an inam of the village of Pootock by the late Nabob Wallajah. The payment of the produce of the above village was stopped since f. 1213 in consequence of the petitioner not having produced satisfactory statements of the income of the village. The petitioner states that the documents required of him are ready to be furnished. The Collector is directed to investigate and report the amount due and whether any objection exists to its being paid.

| 17-10-16 | Hussain-Ul-Mulk—Private gardens at Trichinopoly—Claim by his Begum.<br>The Collector of Trichinopoly was asked to report on gardens in the Trichinopoly district claimed by the Begum of Hussain-Ul-Mulk. The Collector of Trichinopoly reports that of the seven gardens claimed by the Begum four are now in the possession of H.H. the Nabob to whom they were transferred shortly after the transfer of the Carnatic. Two of the gardens may be justly considered as the private property of the Begum.<br>Her claim to the garden called Bungaramcondah is questionable as it does not appear that it is based upon any authority. With these observations the Board submits the claim to the consideration of Government.                                                                                                                           | 343-50       |
|          | <b>Yeomlahs</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |              |
| 28-10-16 | Gholam Ali Shawha and Meer Khurban Ali—Consideration of claims.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 351-4        |

| 6-2-1817 | Ragoonadapuram—Arrears—Sale of.<br>The Board states that Ragoonadapuram is a jaghir within the jaghir of Arni. On the refusal of the defaulter to make good the arrears of peshcush it was in the power of the superior Jaghirdar of Arni to hold the lands in attachment until the arrears were paid or to resume them entirely. But a court of judicature is not competent to order the sale of lands held in jaghir and not assessed with public revenue. The Collector is therefore requested to represent to the judicature that the Government have an ultimate interest in the jaghir in as much as it is liable for the peshcush of the jaghirdar and to protest against the sale. | 1-4  |

| 7-8-17   | <b>Mirasi Lands</b><br>Maniams, merahs, etc.—Explained.<br>1. The Board in its minutes states that the poramboc, the tarisee in Tamil villages and the mirassi maniums and merahs in Tondai-mandalam are held in common as joint property by the whole of the mirasidars each in proportion to his share.<br>2. In mortgaging or selling the whole or any part of the mirasi he mortgages or sells a proportionate part of these common lands. But he cannot divide and dispose of any particular spot.<br>3. This process is not however applicable to cultivated lands, which are also held in the above manner by all the mirasidars collectively as one joint indivisible property, and hence its tenure is twofold:—"Pasang—Carais" or "Samadayam" and "Arudicarai" or "Palabogam." This is prevalent in Tondai Mandilam.<br>4. These lands are cultivated by the mirasidars in common, the net produce after payment of the tax is divided according to the share of each. (This forms an enclosure to a letter from the Board.)                                                                                                                                                                                       | 27-40        |

| 22-9-17  | <b>Suits</b><br>Zamindari villages—Narainavaram and Kanacumpollium.<br>Rajah Boparauz Ramakrishnama Rauze brought a claim on Vencata-perumaul Rauze, the Zamindar of Carvetinagaram, for the villages of Narainavaram and Kanacumpollium and also for some gold ornaments valued at Rs. 2,310.<br>The court observes that the claim of the defendant rests on the assertion of his father. The plaintiff shows that he always received maintenance in money at the rate of Pag. 210 per annum which must be considered as an equivalent for the revenues of the villages of which he was never put in possession. Admitting that the father of the defendant allowed the plaintiff to hold the villages for maintenance that would not be binding upon the successor while no remission was granted by the Government. Further the claim is barred by limitation since the plaintiff states his action some 23 years ago when the defendant's father had agreed that these villages should at a future period be granted to him to prevent the cause being barred by limitation. But as the plaintiff admits that he was not deprived of his maintenance, the suit is untenable and the claim for the villages is dismissed. | 59-68        |
| 9-9-17   | <b>Kavali Privileges</b><br>Allowances continued to poligars.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 67-70        |
| 9-10-17  | <b>Sawmy Naick</b><br>Head native vaccinator—Grant of inam.<br>The Medical Board represented that Sawmy Naick, head native vaccinator, should be granted the village of Wootucaudoo on shrotrium tenure. The Governor in Council resolves, subject to the approval of the Court of Directors, to grant the village on a shrotrium tenure for three lives and to fix its tenure at Pag. 500 per annum. After three lives the tenure will be raised to Pag. 980 per annum.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | 79-88        |
| 20-11-17 | <b>Religious and Charitable Endowments</b><br>Regulations—Additional instructions.<br>The Board informs the Collector that the present regulation for the maintenance of the endowments for mosques, temples, etc., has long been complained of, that the Collector is to superintend all endowments, all public buildings, e.g., bridges, choultries, etc., that he should separate the endowments made by private individuals from those of Government in the categories, devasthanam, chattrams, schools and colleges, shrotrium, mocassahs, and miscellaneous.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 91-102       |

| 21-9-18   | <b>Salt Manufacture</b><br>Discontinuance in all the Netherlands Settlements—Compensation agreement.<br>It is agreed that the salt manufacture in all the Netherlands Settlements should cease, in consideration of which the Governor in Council agrees to pay to the Chief of the Netherlands Settlements on the Coast of Coromandel the sum of two thousand pagodas or seven thousand Arcot rupees as an annual compensation. The quantity of salt required for the consumption of the population of the Netherlands Settlements shall be delivered to the Netherlands authorities by the nearest Collector at the price of seven Arcot rupees per Madras garce. No salt should be sold at a lower rate in any of the Netherlands Settlements on the Coast of Coromandel. | 125-48 |

| Date.    | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Page number. |

| 28-9-18  | <b>Bomrauze</b><br>Suit against sale of a part of the Zamindari.<br>The Board transmits certain petitions submitted to it by Abdul Khader Khan who is also the plaintiff in a suit against the Zamindar of Bomrauze for certain villages and damages and informs the Collector that the plaintiff after appeal to the Sudr Adawlat, obtained a decree for the villages and damages to an extent of Rs. 26,914-4-26. It appears that the plaintiff has been placed in possession of the villages. The Judge has desired that to make good the remaining sum of Rs. 26,914 a part of Bomrauze Zamindari should be sold.<br>The difficulty is that if the villages were included in the accounts of the permanent settlement as Government villages they cannot be sold for the debts of the zamindar. The Collector should not have sequestered to the extent of the sum due. He is asked to proceed to form such a subdivision of the Bomrauze Zamindari without attaching any villages. Then they should be assessed in the manner directed in the Regulation.<br>In the decree of the court the villages on which the total jumma of Bomrauze was fixed, are included. But those villages are not reserved. The Board instructs the Collector to divide the whole zamindari into 3 portions:<br>(1) The villages decreed in the precept.<br>(2) The villages to be sold in satisfaction of the decree.<br>(3) The villages to be retained by the zamindar.<br>After the assessment on each subdivision shall have been fixed by the Board a remission will be granted to the zamindar for that proportion that may be assessed on the villages in the possession of Abdul Khader Khan.<br>The Board asks the Collector to prepare and forward a motion to the court on the above lines. | 165-75       |

| 30-11-1818 | <b>Settlement</b><br>Decennial lease—Review by the Board of Revenue.<br>1. In comparing the results of the first four years of the introduction of the decennial lease the Board observes that there were increases in certain fuslis and decreases in others.<br>2. <i>Land revenue.</i><br>In this branch of the revenue there is a gradual increase which has arisen partly from certain jaghirs and partly from "Shrayam".<br>3. <i>Abkari.</i><br>The revenue under this has also gradually increased owing to the stationing of additional troops.<br>4. <i>Sundry farms and licences.</i><br>The revenue decreased under this head owing to the suspension of certain petty taxes at Tripaty which the Collector has recommended to be abolished. | 1-50 |

| 21-6-19 | <b>Subadar—Grant of lands.</b><br>From the Adjutant General to the Secretary to the Government in the Military Department.<br>An old and faithful native officer of the rank of Subedar by name Cheyn Singh was killed in the execution of his duties. An account of the various offices which he filled meritoriously and the details of his services are given. Brig.-Genl. Munro has sung an eulogium in praise of this old Soobeidar. He has left his family in a helpless state and the Adjutant recommends that the nearest heir may receive some pension and a permanent mark of distinction may be conferred on his family in the form of a grant of lands. | 143-56       |

| Date.   | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Page number. |

| 26-7-19 | <p>North Arcot district—Instructions.<br/>The Board informs the Collector that, with regard to the future settlement, he should await orders from the Honourable the Court of Directors. Until that time he will have to recur to the ryotwar plan of assessment in all villages on which the lease may lapse. If the ryots show a preference for the "putcut farm system" the Collector may proceed with it in lieu of field assessment.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | 185-99       |

| 27-9-19 | <p>Permanent settlement—Postponement of.<br/>The Board in its proceedings records that its recommendation to settle the Kangundi Pollam in Baramahal in perpetuity was approved by the Government. Thereupon the Board called on the Collector to submit his views. The Collector deprecates a hasty decision as to the amount of the permanent pesheush to be fixed. The Board remarks that even though the Collector observes that the assessment by the ryotwar survey is too high and that the revenues of Kangundi might have been overrated, he adduces several strong reasons in support of his conclusions.<br/>It is therefore clear from the Collector's observations that sufficient knowledge has not yet been acquired of the inam lands to justify their inclusion in the permanent settlement.<br/>The next question for consideration is whether the zamindar, who failed to pay a moderate pesheush of Pag. 6,780, could manage to pay a permanent jumma of Pag. 8,209 under the permanent settlement. In this view it is apprehended that the pollam may again revert to the Collector's management. The Board is of opinion that the zamindar could not have failed because of the assessment. Applying the various sources of revenue it has not been possible to determine the certainty of the value of the pollam. The only sources of the accounts are the accounts furnished by the poligar's karnams which are of doubtful authenticity. So the Board recommends to Government that it will be safer to defer the permanent settlement of Kangundi.</p> | 239-60       |

| -10-19   | <p><b>Chittoor Pollams</b></p> <p>Settlement proposals—The Board's proceedings.</p> <ol style="list-style-type: none"> <li>1. The Board, in a previous correspondence, has fully explained to the Government the origin of the Chittoor Pollams and the various measures adopted during the Nabob's Government in regard to them and it is observed that "the Government stand in some degree pledged to restore certain of these pollams and to delay further a final decision might be construed into a breach of public faith." So the Board called upon the Collector to submit distinct reports on the precise nature of the pledges given to each of the poligars, the manner in which each should be permanently settled and the resources of each of the pollams.</li> <li>2. The Collector reports that the Chittoor Pollems are ten in number and four of them have already been declared forfeited to the Government on account of the misconduct of the poligars. One of the polyams, viz., Goodipautu, has always remained under the poligar on account of his good conduct. The remaining five pollams were temporarily resumed but it was intended to confer them on the poligars under a permanent settlement. The Government are, in consideration of a previous proclamation, at liberty to determine the resources of the pollems. The Collector recommends that the highest jumma within the preceding 13 years may be taken as the standard of the permanent settlement.</li> <li>3. The Government by their proclamation, are pledged to limit their final demand to 40 per cent. on the pollems to be restored. It will at the same time be dangerous to fix the assessment of the highest year for the permanent settlement inasmuch as the poligars have to retain 60 per cent. of the total revenue. The Board then works out the average for the 13 years and compares it with the highest year.</li> <li>4. The next point for consideration is about the power of resuming the chillar inams and rajabandoo inams. It should be clearly stated in the sunnads that these should not be resumed without the special sanction of the Collector in writing.</li> <li>5. As regards the four forfeited pollems the Board remarks that the debts on them should be reviewed to discover what amount the Government should pay and what the poligars should pay and then added on to the sirkar lands and out of the four a single village should be granted to the ousted four poligars on shrotriem tenure. On these points the Board solicits the orders of Government.</li> </ol> | 269-309      |
| 30-10-19 | <p><b>Tirupati Temple</b></p> <p>Offerings of gold and silver—Embezzlement of—Enquiry.</p> <ol style="list-style-type: none"> <li>1. On the correspondence that ensued between the Board and the late and acting Collectors of North Arcot, the Government before taking any resolution on it, have called upon the Board to take into consideration the observations of Mr. Sherson, the acting Collector, and to report on it.</li> <li>2. The pagoda is on the hill where access to Europeans is denied. The Collector takes up his station at the bottom of the hill to receive the presents as accounted for by the Tahsildar who is to be paid a certain commission. From the nature of the transactions on the hill it is impossible that any European superintendence can ever be effectually exercised. Seeing that there was a considerable fall in the revenue in a particular fasli the Board drew the attention of the permanent Collector to it.</li> <li>3. There were five different kinds of offerings—(a) Parbuddy, (b) Arjeetum, (c) Shreevarahswamy, (d) Moodramuntup and (e) Chillara. The first four items are each enclosed separately in separate bags and are put into a bigger gunny bag loosely along with the chiller. The gunny bag is tied and knotted by the officers and then brought down the hill. The large gunny bags which alone were opened by Pereira at Wallajah were merely outer coverings to the five items of offerings. The chiller had not, like other four items, any distinct covering of its own and is uninvoiced. Check against fraud is secured on the other four items. The seal against the outer cover is more sacred because it is fixed upon an unknown value of the chiller of which no account has been made. If this seal is broken, the extent of the fraud cannot be determined. So this was the only item in which embezzlement could take place without detection</li> </ol>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 311-512      |

Abstract.

Page  
number.**Tirupati Temple—cont.**

4. In this view the Board concludes that Mr. Sherson must have been well aware of the established course and his chief duty when he goes to Tripaty is to see to the seals on the large gunny bags.
5. The Collector entrusted the key of the cash chest to a native servant contrary to the established usage of his office. Mr. Sherson, the acting Collector, says that he deputed Charles Pereira to ascertain the state of the bags. Pereira was originally accused of frauds and it appeared to the Board that he had taken advantage of Mr. Sherson's inexperience as a Collector, because he, who was deputed to ascertain the state of the bags and bring them to the Huzzoor if possible has taken upon himself the serious responsibility of reducing or dividing them. The Board directed an enquiry into Pereira's conduct and concluded that there was an intention to commit fraud.
6. Mr. Sherson first stated that because the bags were in a bursting condition he had to send Mr. Pereira to see to them. In another place he says that the gunny bags were in an unfit state owing to their frequent use in the rains. But the evidence clearly shows that all the bags were in good order.
7. The Board remarks that Mr. Sherson has stated to the Government that he opened the five bags at Tripaty and an account was taken of the whole five items. This indeed is the sole purpose for which any of the bags had ever been opened. But to open the uninvoiced chiller was to render himself answerable for the amounts stated in the invoice with regard to the other four species. The Board does not therefore admit the validity of the various reasons given by Mr. Sherson for opening the knot. Mr. Sherson has not given any reasons for opening the other four invoiced bags. Mr. Sherson admits that he separated the gold coins from silver and copper and lodged them in his chest which was in his bedroom the key of which was with him and at times with Pereira. Mr. Sherson treats the deficiency as "fictitious". But the same vouchers to the Sheristadar are still available together with the authenticity of the accounts kept on the hill.
8. Granting that the officers who put the coins in the four bags, have deposited less than the quantity accounted for and sealed them, it was the business of Mr. Sherson to count and check them with the accounts and intimate the result then and there.
9. Mr. Sherson concludes that the charge against him was owing to prejudice, etc. The Board remarks that such an imputation cannot be made to attach to a collective body. The Board repeats its former opinion that Mr. Sherson was responsible for the fraud.

**Chittoor Pollams**

16-12-19

Settlement.

513-28

1. The Board intimates to the Collector of North Arcot that in accordance with the orders of Government on the subject he should inform the poligars that at the close of f. 1230 their respective pollams will be conferred on them on zamindari tenure in such a capacity that the pollams cannot be alienated otherwise than by the consent of Government, and that the possession of the lands will not be given to them until their debts are liquidated. The Collector is directed to incorporate immediately into the sirkar lands all the forfeited pollams.
2. *Forfeited Poligars.*  
As regards the forfeited poligars the existing arrangement should continue. But the Collector is directed to choose a village in each pollam in value as nearly as possible equivalent to the percentage at present paid to them. That village is to be conferred upon them as a hereditary shrotriem.
3. *Godiapaty Poligar.*  
This poligar, on account of his faithfulness and loyalty, always maintained his pollam. The Government do not think it advisable to alter the existing tenure.

Letters from the Board of Revenue.

Bun. 20 (3).

1820.

Bheema Row's Choultry

20-1-1820 Inam grant of 5 cawnis of nunjah land.

1-6

| Date.   | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Page number. |

| 24-1-20 | <b>Cauder Sahib</b><br>Son of Tara Begum.<br>Tara Begum had a jaghir. On her death it lapsed to Government. Cauder Sahib was granted by Government a pension of Pag. 5. But it has not been paid. The Board recommended and the Government granted the pension with all arrears since the time of his mother's death.                                                                                                                                                                                                                                                                                  | 7-14         |
| 27-1-20 | <b>Tomb</b><br>Nabob Khyruddeen Khan Bahadur Amcerjung—Maintenance—Garden lands—Restoration.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 15-21        |
| 24-1-20 | <b>Singanna Chetti Choultry</b><br>Inam grant—Pandy village.<br>Singanna Chetti presented a petition to allow him the village of Pandi in the Tripati Taluk at a favourable rent upon the average produce of 10 years for the support of a choultry founded by him in Woodamalpet. Considering that Singanna Chetti's charities are deserving of help the Board recommends to Government to lease the village of Pandi at 10 per cent. less than the average of actual collections. The Collector of North Arcot is asked to prepare a cowle granting the above village to Singanna Chetti's choultry. | 23-31        |

| 24-6-16  | <b>Survey and Settlement</b><br>Instructions.<br>Rod 24 feet, 1 square rod = 1 goontah, 100 goontahs = 1 cawni. Water channels to be deducted from area of wet lands. Dry lands are to be mentioned by their names. Distinguish between arable and jungle or grazing lands. The villagers are to attend land measurements and sign the accounts prepared. Wet land will be classified by the fertility of the soil and the facility of watering. Objections will be settled by consulting neighbouring villagers. A monthly return is to be submitted. The survey accounts must be written up to date every evening. | 248-55        |

| 31-7-1801 | Carnatic<br>Transferred to the Company.<br>From the Government to Mr. George Stratton, Collector of the Western<br>Poligar Peshoush.<br>1. The Nawab has transferred the entire civil and military Govern-<br>ment of the Carnatic to the Company. Mr. Stratton is appointed<br>Collector for the district of Arcot, north of the Palar. The Nawab's<br>Amildar has orders to transfer the district to him.<br>2. Government do not expect that any resistance will be opposed<br>to the establishment of the Company's authority, but the Collector<br>may call for troops whenever necessary.<br>3. The arrears due to the officers and sepoys of the late Government<br>will be paid by the Company. As many of them as can be dis-<br>banded without difficulty are to be paid their arrears and removed<br>from service. A report is to be made of the strength of the<br>existing sibbandis. The Collector will receive further instruc-<br>tions from the Board of Revenue. | 1-4  |
| 19-9-01   | Nawab's Troops<br>To be disbanded.<br>From the Government to the Collector.<br>1. An enquiry is to be made into the arrears of pay due to the troops.<br>If the Collector does not apprehend any bad consequences he is<br>to "disarm and disband the whole of the non-commissioned<br>officers and privates. Their arrears of pay may be paid up to a<br>period of six months. The commissioned officers may be informed<br>that they will receive half of their pay as pension for life provided<br>it does not exceed the half pay of the corresponding rank in the<br>Company's native army. No services will be required of them."<br>2. The Collector should resume the "Tunkahs" that may have<br>been granted for arrears of pay.                                                                                                                                                                                                                                          | 5-6  |
| 16-11-01  | Nawab's Garden<br>At Sautgur - Transferred to the Nawab.<br>From the Government to the Collector.<br>The garden at Sautgur is to be transferred to the Nawab's agent.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 7    |
| 11-12-01  | Nawab's Troops<br>Pensions.<br>From the Government to the Collector.<br>Each Subedar and Jamedar shall be pensioned on half of the pay<br>allotted to him by the Nawab provided it does not exceed the<br>ordinary half pay of the corresponding ranks in the Company's<br>service. Officers of superior rank included in the rolls are also to<br>be pensioned in a similar manner provided the pension does not<br>exceed the half pay of the senior Subedar of Infantry in the Com-<br>pany's service. Officers of accounts attached to the army are<br>not entitled to half pay.                                                                                                                                                                                                                                                                                                                                                                                               | 9-12 |

| Date.    | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Vol. 21-A—cont.<br>Page<br>number. |

| 3-4-02   | <b>Mosque of the Nawab Walajah</b><br>From the Government to the Collector.<br>The lands belonging to the mosque in the Black Town are to be restored.<br>These comprise the villages of Ismaul Coopum and Shianpooram.                                                                                                                                                                                                                                                                                                | 15                                 |
| 23-4-02  | <b>Roads</b><br>Madras to Cuddapah.<br>From the Deputy Quartermaster-General to the Collector.<br>Some guides will be ordered to examine the route from Madras via Tripassero, Nagery, Curcumbaddy and Chitwail to Kurpah. The poligars may be informed of the intention of the Government to open the road.                                                                                                                                                                                                           | 17                                 |
| 27-4-02  | From the Government to the Collector.<br>The poligars are to be informed that their assistance in completing the road will be favourably received.                                                                                                                                                                                                                                                                                                                                                                     | 19-20                              |
| 29-9-02  | <b>Salt Monopoly</b><br>Introduction of.<br>From the Special Commission to the Collector.<br>The Commission calls for the Collector's opinion on the best mode of introducing the monopoly proposed by the Board of Revenue and the Supreme Government. He is to recommend a price which will include all duties on the commodity and to suggest the best method of compensating the manufacturers and landowners for their loss.                                                                                      | 21-35                              |
| 10-7-02  | <b>Measures and Weights</b><br>Uniformity.<br>From the Board to the Collector.<br>It is proposed to introduce a general uniformity of measures and weights in the Presidency. The Collector may indent for the sets required by him for use in the bazaars.                                                                                                                                                                                                                                                            | 37-8                               |
| 12-7-02  | <b>Nine-lac Gardens</b><br>Restoration to the Nawab.<br>From the Government to the Collector.<br>The gardens lying north of the Palar and known by the name of the Nine-lac gardens may be delivered up to the Nawab's agents.                                                                                                                                                                                                                                                                                         | 39                                 |
| 7-8-02   | <b>Customs</b><br>Tariff rates called for.<br>From the Board to the Collector.<br>The customs levied in the Presidency are proposed to be made uniform throughout the Presidency. The Collector is to furnish a tariff comprising the names of all merchandize liable to customs.                                                                                                                                                                                                                                      | 41-5                               |
| 29-9-02  | <b>Copper Mines</b><br>Investigation.<br>From Mr. Heyne to the Collector of Chittoor.<br>Mr. Heyne will proceed to the district to dig trenches for ascertaining the importance of the copper mines in the district, according to the orders of the Government.                                                                                                                                                                                                                                                        | 47-9                               |
| 26-11-03 | <b>Sultan Khan</b><br>Raises peons and horsemen.<br>From the Government to the Collector.<br>Copy of a letter from the Collector of the Ceded Districts is forwarded. Sultan Khan is said to have collected peons and horsemen. When he entered Cuddapah the peons were seized but he escaped. There is reason to think that he was collecting men for the Rajah of Venkatagiri or that he wanted to plunder Cuddapah. He could not have hoped to accomplish the latter without the help of the neighbouring zamindar. | 51-3                               |
| 27-8-04  | <b>Permanent Settlement</b><br>Baramahal.<br>This is an enclosure to a letter from the Special Commissioners regarding their approval of the permanent settlement of Baramahal and Salem by Major Macleod.<br>N.A.—19-A                                                                                                                                                                                                                                                                                                | 55-71                              |

| Date.    | Abstract.                                                                                                                                                                                                                                                                                                                                                                  | Vol. 21-A—cont.<br>Page<br>number. |

|          | <b>Muzaffar Khan</b>                                                                                                                                                                                                                                                                                                                                                                                                                             |              |
| 23-5-18  | Change of residence.<br>From the Government to the Collector.<br>The Collector of Bellary considers that it is objectionable to allow Muzaffar Khan at Cuddapah. Chitweyl or Muddunpulle may be suggested instead.                                                                                                                                                                                                                               | 233.         |
| 23-6-18  | From the same.<br>The Collector and Magistrate of Cuddapah objects to receiving him into his district. He may therefore be informed that no immediate arrangement can be made for the change of his residence but that every facility will be afforded to his family to join him at Arcot.                                                                                                                                                       | 235-9.       |
|          | <b>Kandyan Pensions</b>                                                                                                                                                                                                                                                                                                                                                                                                                          |              |
| 12-8-18  | Payment to heirs—Objections.<br>From the Government to the Collector.<br>On a reference made by the Resident of Tanjore regarding the continuance of a pension enjoyed by the widow of the ex-King of Kandy to her adopted son, Government decided that the pensions are not to be perpetuated and that they are payable only so long as the prisoners for whom they are intended are alive. This is communicated to the Collector for guidance. | 241-9.       |
|          | <b>Muzaffar Khan</b>                                                                                                                                                                                                                                                                                                                                                                                                                             |              |
| 6-10-18  | Alleged illness.<br>From the Government to the Collector.<br>The Collector is to ascertain whether Muzaffar Khan's health suffers any injury from the climate of the Carnatic.                                                                                                                                                                                                                                                                   | 251.         |
| 10-11-18 | Change of residence.<br>From the Government.<br>As Muzaffar Khan has chosen voluntarily to reside within the Company's territory, there is no objection to his leaving it for Paktoor. Proper arrangements will be made for his journey thither. "Every appearance of state must be carefully avoided." The Government are satisfied with the favourable report of his conduct.                                                                  | 253-4.       |
| 24-11-18 | From the same.<br>The O.C. Vellore will supply the camp equipage required for the journey. Instead of a guard of sepoy's a double number of police peons may be furnished. He may be advanced a reasonable sum for his expenses on the road. The Collectors of Cuddapah and Bellary will take proper measures to facilitate his journey through their districts.                                                                                 | 257-8.       |
| 27-11-18 | From the same.<br>Muzaffar Khan is at liberty to remain at Arcot as long as he likes, but if he wishes to proceed to Paktoor he should be informed that he will not be allowed to pass through Kurnool. While he is at Arcot the Collector should treat him with consideration.                                                                                                                                                                  | 261-2.       |
| 23-12-18 | From the same.<br>Muzaffar Khan may be advanced Pag. 500 for his journey to Paktoor. A palankeen will be sent for his use. His debts may be discharged by the Collector to the extent of Rs. 1,000.                                                                                                                                                                                                                                              | 265-6.       |
|          | <b>Nawab's Garden</b>                                                                                                                                                                                                                                                                                                                                                                                                                            |              |
| 16-3-19  | New manager appointed.<br>From the Government to the Collector.<br>Saiyid Ahmad is appointed manager of the gardens at Arcot in the place of Ghaus Muhammad Khan.                                                                                                                                                                                                                                                                                | 269.         |
|          | <b>Muzaffar Khan</b>                                                                                                                                                                                                                                                                                                                                                                                                                             |              |
| 30-3-19  | Change of residence.<br>From the Government to the Collector.<br>Government have resolved to remove him from Arcot to Adhoni.                                                                                                                                                                                                                                                                                                                    | 271.         |
| 14-4-19  | From the same.<br>As soon as the house intended for him is ready, the Collector of Bellary will inform him so that he may proceed thither.                                                                                                                                                                                                                                                                                                       | 273.         |
| 15-5-19  | From the same.<br>The house at Adhoni is ready for occupation. He may be ordered to go to Adhoni as proposed. The military authorities have been directed to furnish the camp equipage that may be required for the journey.                                                                                                                                                                                                                     | 275-80.      |

| 12-11-1800 | <b>Mutlawarpalaiyam</b><br>Dispute in the Zamindari.<br>1. The Collector reports to the Board of Revenue how the Rajahs of Calosty and Bomrauze interfered in the affairs of the Mutlawar Pollam.<br>2. Rajah Venkata Ram Rauze had a younger brother Vencata Ragava Rauze. In 1788 Maha Mizza Khan, Tippoo's Phousdar, assumed the pollam and both the brothers fled into exile. They however returned afterwards and established themselves in their pollam.<br>3. The younger brother however wanted an equal share and requested the Rajah of Calosty to help him. He also approached the Phousdar of Cuddapah and promised him one lakh of rupees. The Rajah of Calosty stood surety for the payment of the amount. The Rajah actually paid the amount to the Phousdar and got Settee Guata in the Mutlawar Pollam as inam from the younger brother after his instatement to the pollam. The Raja of Calosty actually waged war in the dominions of H.H. the Nizam in support of Ragava Rauze, first in August 1799 and secondly in July 1800. In the second revolution of Mutlawar, the Rajah of Calosty effected the deposition and imprisonment of Vencata Ram Rauze and the restoration of the pollam to the younger brother.<br>4. Cavettee Rauze, Rajah of Bomrauze, actually loyied war on the dominions of H. H. the Nizam in Aug. 1799 in support of Vencata Ram Rauze. About 17th July 1800 the Bomrauze Rajah's poons were with Venkata Ram Rauze's dewan while in attendance on Chundoo Loll in Mutlawar Pollam. | 1-16           |

|           | <b>Reports.</b><br>1801.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |              | Vol. 24.      |
|           | Statements forming enclosures to Vol. 23.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |              |               |
|           | <b>Reports.</b><br>1802.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |              | Vol. 25.      |
| 23-1-1802 | <b>Jamabandi</b><br>For f. 1211.<br>Mr. Stratton to the Board.<br>1. <i>Land revenue.</i><br>Mr. Stratton fixes the demand on the whole village and makes the head inhabitants jointly and severally liable for it. He tried to avoid the demand falling below that of the previous year and actually fixed it higher, the increase being chiefly due to certain "Jaghires which appear to have been better managed than the sirkar villages". Many ryots have emigrated from the district. He encouraged cultivation by making advances to the cultivators. The Nawab's Government had, in the previous year, fixed the jumma in some villages direct on the principle of village rents. Other villages, singly or in groups, were given out to renters.<br>2. <i>Poligars.</i><br>Their peshcush consisted of "Mamul peshcush or customary tribute which was paid annually and mamul nazzers or established presents which were paid every other year to the late Government." Mr. Stratton collected those for ff. 1209 and 1210 up to date and promised full details of the poligars' resources with a view to a permanent settlement with them.<br>3. <i>Sayer.</i><br>The settlement was made before the Government orders abolishing land duties on the transit of grain were received. A remission was therefore due to the renters.<br>4. <i>Irrigation.</i><br>He has disbursed St. Pag. 718-10-45½ for repairs to tanks and requests sanction for the amounts. | 1-5.         |               |
| 5-11-02   | <b>Chittoor Pollgars</b><br>Mr. Stratton reports on their resources.<br>1. <i>Sources of information.</i><br>He derives his information from the curnums' accounts. He admits these to be inaccurate and "that to detect fully their impositions could only be done by resorting to actual survey." But he is satisfied that "the impositions they may have practised can be of no material amount." "The weights and land measurement differ in most of the pollams."<br>2. <i>Collections from ryots.</i><br>The poligars levy sometimes sirkar teerva, sometimes by a percentage on the ryots' varam and "these collections—although long made—are generally considered grievous in their nature."<br>3. <i>Peshcush.</i><br>Mr. Stratton explains why he fixed charges on the poligars exclusive of peshcush and mamul nazzers.<br>4. <i>History of the poligars.</i><br>They were appointed about 350 years earlier as cauvelgars of sirkar villages by one of the Ryals of Ponacondah. Their remuneration consists of inam villages and "Cauvellee fees, denominated Noetah or fixed Cauvellee which they levied on the sirkar villages on the principle of Bilmuctah assessments." During the wars between the Mahomedans and Hindus the poligars made themselves independent, seizing sirkar villages and "disclaiming all acknowledgment for others which they had formerly held in rent." They levied additional kaval fees, known as Oolah, on sirkar          | 7-17         |               |

number.**Chittoor Poligars—cont.**

villages. About 100 years earlier under Gulam Mahomet, the "buckshee of Tyre Mahomet Khan" was sent with a small army to restrain them. After some years Gulam Mahomet secured the leaders, the Poligars of Bangauree and Moograul and put them "to a cruel and ignominious death". The rest submitted to his terms which included payment of 40,000 pulleput pagodas as peshcush. This was the first instance of any peshcush being levied from them. Dost Ali reduced the amount to half. During and after the struggle between Chunda Sahib and Wallajah they refused for some years to pay any peshcush. Wallajah raised the peshcush and made over the Chittoor and Chandragiri districts to his brother Abdul Wahab Khan who was furnished with a small force to collect it. Peshcush was irregularly collected, by giving tuncabs or assignments on them (the poligars), in discharge of arrears, to the Nawab's troops. When Hyder invaded the Carnatic (1780) Abdul Wahab was made a prisoner and the enemy extorted a year's peshcush and nazzer from the poligars. On his return he dealt leniently with them, but they became more irregular than ever and disclaimed all responsibility for thefts though they continued to levy kaval fees in the sirkar villages. They even plundered themselves. They maintained 558 Amerum and 4,324 Cntbuddes peons. They had no sanads. Mr. Stratton raised their peshcush from St. Pag. 16,828 to St. Pag. 35,775 an amount which he "conceived more adequate to their resources." But pending further orders he made no increase in f. 1212.

**Annual Settlement**

8-12-02

For f. 1211 with collections for f. 1210.

18-23

1. The principle of the settlement for f. 1211 was not to fall short of the total settlement of f. 1210. Further investigation showed that the collections made in the fasli previous to the district coming under the Company's management were higher than he had reported on 23rd January 1802. On the whole he considered the beriz of f. 1210 to be a safer guide than the estimates of cultivation made in f. 1211, "the accuracy of which could only be proved by actual survey."

2. *Mahometan Government renters—f. 1210.*

"Warum and teerwa were regulated by the will of the renters." The Nawab's exactions were so high that in some jaghir villages only, the ryots received the mamul warum," and "in most of the sirkar villages either the whole of the produce was seized by the renters and Nabob's servants or the ryots, instead of being allowed the mamool warum of 4 or 5 bullas in 10, had only received 1, 2, 2½ or 3. Thus the beriz of f. 1210 proved in several villages higher than the actual collections \* \* \* which loss the renters incurred by the emigration of several ryots."

3. *Settlement—f. 1211.*

Mr. Stratton found several villages deserted in f. 1211 and was compelled to offer favourable terms of assessment to get them cultivated. He disapproved of 'aumance' and "the abuses incident to that system of management."

4. *Mirasidars.*

The "body of Mirasidars who obtained their own villages on rent" amounted to 1288. 223 renters did not belong to the villages they contracted for because the local ryots would not enter into agreement. They were generally ryots or mirasidars of neighbouring villages.

**Forts**

15-12-02

Mr. Stratton submits a list of forts in the western zamindaris with remarks on their situation, strength and armaments.

24-7

**Salt Monopoly**

28-12-02

Mr. Stratton submits the report called for by the Special Commission as to the best means of introducing a salt monopoly.

28-39

1. *Brinjaris.*

He says that at present the Brinjaris are the only carriers of salt in land. They keep large heads of cattle and are constantly in the move. They trade in grain, jaggery, tamarind and salt.

"On leaving the coast with salt, which these people in part purchase by barter and in part by money payments, they begin to barter their salt through the villages they pass, for just as

number.**Salt Monopoly—cont.**

much grain as is required for their daily sustenance, and it is only on their reaching any large village or town that they are enabled to sell a part of their load for ready money so that by the time they reach Bangalore above the ghauts, their loads may be considered reduced one half by barter or sales on the road. \* \* No other merchants would find it worth their while to engage in the inland salt trade," because of the cost of transport.

**2. Current prices.**

The average price of salt at Bangalore for 8 previous years was Pag. 62-26 per garce but the present rate is Pag. 42. The Brinjaris purchased salt at the pans in the previous year at about Pag. 7-22-40 per garce, paid road duties at about Pag. 8-32-64 and sold at about Pag. 24, making a profit of Pag. 7-34-56.

**3. Monopoly price.**

A high selling rate at the pans should not be charged at first. The Brinjaris must have a chance of realizing the effect of the abolition of the road duties. To begin with it is better to auction the salt. When prices reach equilibrium they can be fixed. Mr. Stratton discusses the price suggested by the Commission.

**4. Indemnifying the ryots.**

He proposes "that the mirassee cultivators should be indemnified for the first and second year at the usual average rate they have hitherto received which should be doubled should the future demand for salt render an extension of the manufacture necessary."

**5. Staff.**

He recommends a staff of 1 ameen, 2 goomastahs and 10 peons on St. Pag. 30 a month.

**Reports.  
1803.**

Vol. 28.

**Sayer**

21-1-1803 Mr. Stratton, in obedience to the Board's orders, reports about rates of sayer duties.

1-6

1. He finds the sayer kurnums' accounts very complicated. There are 66 'Mundwah' or ranges in the division, each of which has a rate varying from the others. There are two principal classifications of rates, (a) mamul teerwa or usual rates applicable to all and (b) cowle teerwa or rates indulgent to particular individuals. The rates are levied on :—

(a) Traders between the Balaghat and Payen Ghat. (Bara-morg duties).

(b) Traders from one district (=Taluk) to others adjoining (Admorg).

(c) On all merchants who buy or sell goods in any town or large village (Stulla Barter). He proposes to abolish (a) and (b) and to reduce the numerous road chowkis to a few frontier stations, and to double (c) "which in a manner full on consumption and on which principle all duties ought to be levied."

2. *Famine*.—He also suggests that "by this plan it will be in some degree practicable to mitigate any partial distress from famine, which has often been the scourge of India, by offering premiums payable at the ghaut chowkies on the transit of grain from the low to the upper countries or vice versa."

**Kalahasti**

2-9-02 Sanad to the Zamindar.

7-16

The sanad recites that the zamindar had no previous sanad. He held his zamindari "subject to payment of an annual peshcush, to the discharge of military service and to the payment of nazzers and fines." He is informed that courts of law will be established to which he must submit. His peshcush is to be exclusive of all revenue arising from salt, sayer and abkari and inclusive of all lands and rus-sooms appropriated for the support of the Police. Government entrust him with the policing of his zemindari. He is given a free right to transfer by sale, deed or gift the whole or any part of his zemindari. He is to keep a proper establishment of curnums and furnish the Collector with accounts of his rents if called upon to do so.

| Date.  | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Page number. |

| 1-3-03 | <p data-bbox="1776 369 1968 392"><b>Annual Settlement</b></p> <p data-bbox="1776 392 1915 415">For f. 1212.</p> <p data-bbox="1823 415 2539 460">Mr. Stratton, before his relief by Mr. Cockburn, submits his report on the jamabandi of f. 1212.</p> <p data-bbox="1868 460 2062 483">1. <i>Tirupati temple.</i></p> <p data-bbox="1896 483 2539 528">The Tirupati pagoda was under amani. He gives an abstract of collections.</p> <p data-bbox="1896 528 2422 551">Ragojee Bhonsla of Nagpur gave Rs. 14,000 a year.</p> <p data-bbox="1868 551 1979 573">2. <i>Demand.</i></p> <p data-bbox="1896 573 2539 789">For the villages settled early in the season this was determined by comparing the rent with the actual collections of the previous year. "Where the collections proved above the rent and, from such information as I could obtain, there seemed a certainty of further increase from the accession of more ryots, the jumma of the villages in question showed, of course, a proportionate increase above the terms of the last fasli." When from want of water or of labour it fell short, the rent for the current fasli was lowered.</p> <p data-bbox="1896 789 2539 879">For villages settled late in the season the jumma was fixed on "a reference not only to the extent of the then actual cultivation, but to the extent of land which might still further be cultivated within the fasli."</p> <p data-bbox="1896 879 2539 948">Settlement was made in most cases with the head inhabitants "and strangers were only put in as renters when there was no alternative."</p> <p data-bbox="1868 948 2034 970">3. <i>Public Health.</i></p> <p data-bbox="1896 970 2539 1016">In Ambur and Sautgad Taluks a virulent infectious fever carried off in some villages the greater part of their inhabitants.</p> <p data-bbox="1868 1016 2006 1038">4. <i>Assessment.</i></p> <p data-bbox="1896 1038 2539 1276">In the districts of Sholingur, Maseriyawauk, Cauverypauk and Velloor Pollam, Mr. Stratton inserted in the pattas the tirva due from the ryots and the varam due to them, as fixed by Royajee. But in the other districts the tirva and varam were not fixed but had fluctuated at the will of the nawabs, jaghirdars and renters. In these villages Mr. Stratton directed that the renters should "enter into written engagements with the ryots under them for the quantity of land they were to cultivate specifying the amount of revenue they were to pay for the same."</p> <p data-bbox="1868 1276 2006 1299">5. <i>Dry crops.</i></p> <p data-bbox="1896 1299 2539 1526">If Government take a share of the crop fixed only after it ripened the ryot will have no inducement to exert himself. "If the crops fail altogether for want of after rains the Sirkar loses everything." If the crop is bumper but the selling price is low Government will lose on the sale of the crop. The variety of crops grown makes watching difficult and encourages theft. The crops are more precarious than paddy crops. So it is best to have a fixed money tirva and not one based on commutating a varying outturn marketable at a varying price.</p> <p data-bbox="1868 1526 2034 1549">6. <i>Annual leases.</i></p> <p data-bbox="1896 1549 2539 1685">He had adopted annual leases for these two faslis "since they are considered the best test to attain a knowledge of the true resources of a country from their presenting the advantages which generally result from frequent competition of interest. But their disadvantages is that it is not "the interest of the renter to lay out any sum for future improvement."</p> <p data-bbox="1868 1685 2117 1707">7. <i>Permanent Settlement.</i></p> <p data-bbox="1896 1707 2539 2027">The following remarks "although applicable even in the present" circumstances of the country to some of the sirkar districts in this division are, however, more particularly meant to apply to the peshcush of the Chittoor pollams.</p> <p data-bbox="1923 1798 2539 2027">"The future revenues must suffer in the proportion of all subsequent improvement through the country. But this apparent sacrifice of revenue from all future improvements under the system of permanent rents is more than counterbalanced not only by the decreased expense but certainty in the realization of that revenue and by the taxes which may be levied on an increased population from the improved resources which that system promotes."</p> | 19-27        |

## Annual Settlement—cont.

He refers to a settlement with the "landholders" and contemplates, presumably, not the erection of stranger renters into landholders, but a settlement with groups of landholders in each village.

1806.

Vol. 27.

## Jamabandi Report

18-10-1806 For f. 1215

Mr. Graeme to the Board.

1-20

## 1. Village servants.

Their dues for ff. 1213 and 1214 were "paid away to the village servants as soon as received", and that amount could only, therefore, be considered a nominal revenue.

## 2. Variations in revenue.

The report deals generally with the causes of variations in the revenue. In f. 1215 in the Chittoor pollams the season began well but the monsoon of October and November almost completely failed. In the Baramahal the season was favourable. Arrack rent increased. Salt revenue increased from the addition put on the selling price at the pans.

## 3. Assessment.

He encloses a statement showing the manner in which the produce of each class of lands was estimated and the rate at which the Government share had been commuted into money. "The ryot has to pay out of his share the established fees in kind to the village sabbandy, etc., the expenses incident to cultivation."

|                              | Government<br>shares. | Ryots'<br>shares.  |
|------------------------------|-----------------------|--------------------|
|                              | %.                    | %.                 |
| Poonjah .. .. .              | 33 $\frac{1}{4}$      | 66 $\frac{12}{16}$ |
| Nanjah .. .. .               | 46 $\frac{2}{16}$     | 53 $\frac{4}{16}$  |
| Nanjah watered from wells .. | 33 $\frac{1}{4}$      | 66 $\frac{12}{16}$ |
| Garden .. .. .               | 25                    | 75                 |

## 4. Commutation price.

The average price of grain "in ten moderate years" was taken; villages were divided into 3 classes with reference to their distance from market towns.

8

## 5. Maira or fees.

"The same proportion of Maira or fees in kind which has prevailed for a long period back in each village has been admitted in the present assessment with the exception of the maira of monigars and curnums of villages which was assumed by my predecessor. In the Chittoor assumed Pollams however it is still continued."

. 13

6. In f. 1215, lands were brought to light by measurement which had not been registered by the karnams in f. 1213. The assessment is somewhat higher "but I do not conceive that it falls heavier on the country as it bears a better proportion to the value of each man's land than that of 1213 and is on the whole therefore more regular and equal."

7. He recommends resuming sundry inams "on account of their inability."

## 8. Dasabandham inams.

The present quit-rent seems higher than that paid to the poligars but the poligars made considerable arbitrary demands which have now ceased. Dasabandhamdars have probably often by collusion with the revenue servants cultivated more than their proper  $\frac{1}{4}$ th or  $\frac{1}{2}$ th of the wet lands and neglected their duties to keep the tanks in repairs.

## Decennial Lease—cont.

14. *Takkari.*

"Though the agreement with the renters does not provide for any assistance of tuccavee it will certainly be advisable to grant it whereon it may appear to support the credit of the renters."

15. *Irrigation.*

The tanks are in a very bad repair and Government must undertake the heavy work at once. The Tahsildars estimate the cost to be St. Pag. 42,538—35—18 but Mr. Græme thinks that St. Pag. 15,000 is as much as they can expend each year.

He asks permission to give dasabandham or cowl for the repair of old, neglected or the construction of new tanks.

16. *Roads.*

These have fallen into neglect. The renters are made responsible for their upkeep but some means should be found of enforcing this duty. But Government must construct bridges.

17. *Establishment.*

"Lest more should be expected from this system than can be ultimately realized, I do not hesitate to give it as my deliberate opinion, that, under the circumstances of the country, any considerable reduction of the strength of the establishment, added to that which took place in the first year of the triennial lease would materially weaken the system of management itself."

## Forests

## 21-7-1813 Renting produce, etc.

1-21

1. The Collector reports to the Board on the renting of the privilege of cutting redwood and other trees and collecting honey, wax, etc. He also transmits to the Board the tenders received from P. Appasawmy and Koonjpurdee Ubdool Rihman Nakhoda.

2. *Preservation of forests.*

"The forests in the Chitwell country" and apparently "in all other poligar countries were preserved by their former owners with the utmost care." They were considered as the strongest defence for their pollams and the best security for their independence. The cutting down of any part of them was severely punished.

3. *Valuable trees.*

The following are the most valuable trees growing in the forest of Chitwell:—

(a) Redwood—used as a dye.

(b) "Bujasur"—used for making carts, Swami coaches etc.

(c) "Tandoo"—used for the frames and legs of cots.

4. *Collector's suggestion.*

The Collector reports that far greater profit will be derived by Government if arrangements are made to export to Europe redwood and to supply the demand of the country for this and other woods.

5. *P. Appasawmy.*

He offers a sum of Pag. 1,000 annually for the privilege of cutting redwood, etc., the produce of the hills and woods of Chitwell and Raichotee.

6. *Cutting trees.*

26-7-13

The Board adopts the Collector's suggestion that certain dimensions of each species of timber shall be fixed, below which no tree shall be felled, and that prices shall be determined for each description of timber.

22-4

29-5-14

7. *Objections to renting.*

"The revenue thereby derived would be obtained not only at the expense of the forests themselves which would in a very short time be cleared of every valuable tree but also at that of the poorer classes of the community, some of whom gain their entire subsistence from the jungles and all of whom are more or less dependent on them for the pasturage of their cattle, the materials of their dwellings, their fuel, household utensils, implements of agriculture and art and their medicine."

Abstract.

Page  
number.**Forests—cont.****8. Sandalwood.**

The cutting of sandalwood without the permission of Government should be prohibited and the offender fined St. Pag. 10.

**9. Ebony and blackwood.**

The Collector proposes to levy a tax of Rs. 6 per bandy load of ebony and of Rs. 5 for blackwood.

**10. Palmyra.**

"It yields a pleasant and wholesome fruit, its toddy is used either fresh or made into jaggery and arrack, the leaves serve everywhere for thatching and in many places for writing and after the tree has ceased to be productive its timber remains one of the most valuable materials in building and is of the greatest use to the cultivator of wet and garden land, for troughs and aqueducts across nullahs and ravines."

"The increasing importance of the abkaree revenue and the demand for this timber for the purposes of building render the extension and preservation of the palmyra trees an object of great consequence." The price of a tree allowed to be cut may be fixed at 2 Company's rupees and a fine of St. Pag. 1 be levied for every tree yielding fruit or toddy which is felled—the tree also to be forfeited to Government. Trees required by the ryots for the purposes of irrigation should be given gratis as usual and they may be allowed to carry away the fruit and leaves without restraint as they have always done provided they do not injure the tree itself in stripping off the leaves.

**11. Redwood.**

This is used for rice-beaters, the main beam of the plough, "the pulka and goond of the weaver, the stand of the spinning wheel, etc. What is required for the uses of husbandry, the loom or the dwellings of the poorer classes should, like palmyra, be cut, with the permission of Government free from all duty. What is required for exportation from the district should be taxed 5 or 6 rupees per bandy load of 2 bullocks, increasing progressively according to the number of cattle employed. Under the Mutlawar Rajahs redwood paid a duty of Rs. 3 per bandy load.

**12. Teakwood.**

The Collector proposes to levy Rs. 2 per bandy load of 2 bullocks or buffaloes.

**13. Care and superintendence of forests.**

The Collector shall be entrusted with the care and superintendence of forests. A list of trees showing their prices shall be published for general information. Persons wishing to cut such trees shall apply in writing to the Collector. Any person felling a tree without permission shall be liable to a fine of St. Pag. 1 for each tree cut to be collected by distraint and sale of the offender's goods. The Collector shall be at liberty to refuse permission to cut timber on any future application of a person who has once been convicted of offending. The Collector shall be empowered to prevent persons from setting fire to jungles, woods, grass, etc. It will be the duty of the Collectors to preserve the forests from wanton destruction on the one hand and to protect the ryots on the other from any vexatious interference by public servants.

**14. Regulation.**

The Collector also submits rules as the basis of a Regulation for preservation of the public forests.

56-66

**Profession Taxes****Regulation.**

1. The Board of Revenue, in its proceedings, records the reports received from Collectors on the separation of the professional, etc., taxes from land revenue and the draft of a regulation prescribing rules for the assessment and collection of the personal and professional taxes.

**2. "Pullaputtada or sornadayum."**

Is the tax collected on houses, bazaars, looms for weaving cloths cumblies, etc., oil-mongers' mills, ovens for melting ores, charcoal, paper manufacture, etc.

69-174

9-8-14

**Profession Taxes—cont.****3. Inequality of tax.**

The tax on trade and professions is said to be very unequal in these districts. It is, in certain places, 2, 3 and 4 per cent. and in certain places as high as 8 per cent.

**4. Need for a regulation.**

To render the collections under this head legal and efficient it is necessary to issue a regulation.

**5. South Arcot.**

The Collector reports that the moturpha collected on the following items is oppressive :—

- (a) Tax on banians' houses.
- (b) „ weavers.
- (c) „ palanqueen boys.
- (d) „ boat people.
- (e) „ fishers.
- (f) „ cart-people conveying firewood, etc., etc.

**6. Principles of taxation.**

All taxes on property, income or professions must be regulated either upon fixed data like the land tax in England which is assessed at a certain rate upon a fixed valuation or upon data liable to variation like the property tax, which is assessed at certain rates upon valuation constantly subject to increase or diminution.

**7. Col. Munro.**

Was the first among the officers of Government who gave due consideration to the principle of the taxes on trades, castes and professions.

**8. Veasabuddy and moturpha.**

In the Ceded Districts “the assessment on the income or profits of merchants, tradesmen and others engaged in any mercantile adventure or concern has from the method of levying it, acquired the denomination of ‘Veasabuddy’ and is distinguished from the ‘Moturpha’ which last term is applied to the assessment payable by persons exercising arts or professions of any description.” The revenue derived in f. 1226 in these districts (Bellary and Cuddapah) amounted to St. Pag. 1,14,968-22-6.

**9. Bellary Collector's report.**

“The data on which to proceed in fixing the assessment of each taluk has been sufficiently explained” by Col. Munro. “The accounts of exports and imports, the population, the produce and consumption and the usual profits of trade were taken into consideration by Col. Munro and an estimate or dowe for each district which may be calculated to amount to somewhat more than 10 per cent. upon the aggregate gains of the whole body of merchants, was established. The assessment was gradually to be augmented to this standard.”

**10. Improvement of revenue.**

The chief obstacle to the improvement of this branch of revenue is the want of a regulation to render the mode of assessment and collection legal.

**11. Mode of assessment.**

“The merchants settle among themselves, with the assistance of the cutcherree and by means of arbitrators, the relative proportions which they are to pay respectively. Their personal interests induce them to come forward with all the information in their possession respecting the means of others in order to prevent the tax from falling too heavily upon themselves. A good deal of debate generally ensues before an individual will consent to any increase of his own imposition but the point is almost always satisfactorily settled by referees, two of whom are chosen by the party, and two by the other merchants. The rates or proportions or Veases as they are called of each individual being fixed, the whole number is added together and the quota which has been assessed upon the taluk is then divided by the number of Veases.”

Date.

Abstract.

Page  
number.**Profession Taxes—cont.****12. Veesabuddy.**

The Cuddapah Collector reports that "the Tahsildar, on receipt of the Collector's order to prepare the Veesbudee accounts, assembles all the shopkeepers, merchants and traders of each village and directs them to present to him a statement of their relative trade and circumstances. This, from their intimate acquaintance with each other's means is not in general very difficult, though at times disputes arise, which are referred to the Tahsildar who appoints a punchayat of merchants, etc., from the neighbouring villages whose decision is generally approved. Though at times the disputant will not agree to that but appeals to the huzur or withdraws without giving his signature and in some cases when he imagines that there is a general prejudice against him he goes to another taluk and settles there. When the Veeses or shares of every village have been adjusted, a statement signed by each individual is given in and certain persons from each village assemble together to prepare a similar statement of the relative shares of the several villages." When the disputes, etc., are over, the shares of villages are signed by all parties and the accounts are sent to the huzur and the sum being fixed, pattaahs are given to each person and the amount is collected according to the statements.

**13. Veesabuddy and permanency.**

"The wealth and means of an individual may vary every year, but the general amount of wealth in a district under ordinary circumstances does not. The revenue derivable from the Veesbudee can never be permanently fixed, but the nearer it can be brought to permanency the better." The Collector proposes a periodical revision of the amount once in 5 years.

**14. Tax on looms, flocks, etc.**

The Collector proposes to fix rates at which the different looms are to be charged. The weaver should not be assessed higher because he is more industrious or lighter because he is lazier. The tax on flocks to continue at the existing rates and increase in number will determine increase in tax.

**15. Loom tax.**

The Collector of Bellary proposes that the amount of assessment should be fixed by the Collector on consideration of the extent of the manufacture, the number of individuals and looms, the produce of the looms, the amount of former collections and of circumstances of a local nature.

**16. Salt-makers.**

They number 1,540 and pay a revenue of St. Pag. 3,659-6-7. The rates of tax vary in proportion to the quantity and quality of salt produced. The Board has directed the abolition of the manufacture of earth salt and the revenue on this account will gradually diminish but will be counterbalanced by the "advantages which will be gained to the salt monopoly from this measure."

**17. Moturpha.**

The Collector proposes that the tax on looms, shepherds and cow-keepers, butchers and 'Umarce Gootta' (fruit trees and orchards) might be levied on fixed principles and the remainder be collected according to custom.

**18. Veesabuddy.**

In the Ceded Districts the value of articles that passed annually through the hands of the traders of a particular taluk is ascertained and the profits at the rate found after enquiry should be calculated. The profits or income is to be assessed at 10 per cent. The amount so arrived is the amount of Veesabuddy due from the taluk.

**19. Regulations.**

The Board has framed a separate regulation for the assessment and collection of Veesabuddy, etc., in the Ceded Districts and another for the other districts in the Presidency.

**Decennial Settlement**

14-12-15

The Board's proceedings.

1. The Board transmits to the Collector an extract of its proceedings on the decennial settlement of the district, commencing from f. 1221 to f. 1230.

N.A.—21

175-8

| Date.    | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Vol. 29—cont.<br>Page<br>number. |

**Decennial Settlement—cont.**

local officers. "Although the revenues were thus augmented to an extent before unknown, the experience of each successive year more strongly evinced the futility of expecting any permanent improvement under a system which left the amount of the revenue assessed on the inhabitants of the country to be determined by the fallible and fluctuating judgment of the officer "entrusted with the collections. This "precluded the accumulation of stock by the ryot "and made the demand keep pace with every increase in his means. "The revenue raised by this artificial system to a height it had never before attained began, at length, to decline and the final development of the judicial system in the course of the triennial lease "hastened its downfall.

**11. Temporary reduction of revenue.**

The Board is of opinion that temporary reduction of revenue will promote the accumulation of stock and the consequent improvement of the country. The Board proposes that a remission of 7 to 10 % be allowed for the next five years on the amount of decennial settlements.

**12. Ff. 1220 and 1221.**

The amount of settlement for f. 1221 is St. Pag. 5,00,171-17-11 which is less than that for f. 1220 by St. Pag. 1,32,548-37-56 which is composed partly of a decrease of St. Pag. 53,739-27-54 being the difference between the settlement of f. 1220 and the decennial settlement. The balance of St. Pag. 78,809-10-2 represents the amount which cannot be realized during the year on account of adversity of the season.

**13. Villages and renters.**

There are 2,882 villages and 1,474 hamlets. Out of these 54 villages are unproductive, 2,501 villages are leased decennially. 2,437 villages have been rented to headfarmers, i.e., Rheddies and Monigars and the other 114 villages have been rented direct to the ryots.

**14. Sattavaid.**

Sattavaid was first included in the district of Chingleput and Mr. Greenway "introduced" the assessment which does not amount to "more than three-quarters of the full rent established in other places." "The prosperity of this small district" is due to the "great moderation in assessment."

**15. Ryotwar rent.**

"The only material difference between this system which Mr. Graeme denominates a ryotwar rent, and that which the Government directed to be introduced is that under the ryotwar system the Collector and his officers regulated and fixed the annual payment of each individual and settled with him what land he should occupy —while the latter left the division of the lands and the payments of each ryot to be arranged among the people themselves and only fixed the total sum to be paid by the whole collectively."

**16. Renting.**

"Mr. Graeme, disappointed in his hopes of inducing the ryots to accede directly to the settlement of these lands, was obliged to tender the rent to the Monigars and Reddies before mentioned. In doing so he gave the preference to those who had been renters during the triennial lease. Of these however 543 persons declined the terms which were offered, 48 were rejected on account of balances being outstanding against them," "35 were set aside on account of experience during the triennial rent having proved them to be so contumacious as to render fruitless all hopes of the regular discharge of their future rents. Two were rejected because they were themselves destitute of means" and fourteen were set aside "because their more respectable partners refused to consent to any settlement."

**17. Settlement of the polliams.**

"The whole of the assumed polliams have been rented out for ten years in the same manner as the lands of Arcot proper." Besides the Rheddies or headfarmers there are in the polliams other Rheddies known as Pullikut Rheddies, i.e., Rheddies who founded the hamlets. There is another class of persons, viz., Kutpudi peons. The total rent for these lands amounts to Pag. 10,273-18-75 and the number of peons is 2,815.

## Decennial Settlement—cont.

18. *Conditions of the lease.*

- (a) No higher rates of assessment shall be demanded from the ryots than the survey rates.
- (b) The renters shall not demand advances for cultivation as Government advance Pag. 30,000 per annum for this purpose in the Northern division of Arcot.
- (c) "No payment shall be a legal tender for the liquidation of the rent unless made in coins in use with the Sirkar and at the rates which the Sirkar may at any time establish."
- (d) The renters shall "repair from time to time all highway roads."
- (e) The renters shall "keep in repair the several public choultries" in the district but a deduction of Pag. 275 per annum has been made from the rent on this account.

19. *Renters' losses.*

The renters lost about Pag. 6,386 in f. 1222 but in f. 1223 and 1224 their estimated profits are Pag. 15,780-3-5 and Pag. 32,319 respectively.

20. *Sub-renting.*

In f. 1222, 503 villages were sub-rented, the rent of which bears a proportion of 46 per cent. to the amount of the whole settlement. In f. 1224 the rent of the villages sub-rented amounted to between 48 and 49 per cent. or nearly one-half of the whole rent. "It may therefore be inferred that about half of the lands in the Northern Division of Arcot have been sub-rented—chiefly to the body of the ryots" on advantageous terms.

21. *Results of the decennial lease.*

"An annual revenue has been collected by Government exceeding the average collections of 7 years from f. 1211 to f. 1217. The renters have secured to themselves a moderate profit and the ryots have obtained very generally if not universally, a considerable reduction in the survey rates of assessment."

22. *Mirassidars.*

The Board desires the Collector to enquire in the larger villages, such as Marmundoor and Cauverypauk and other tank and water-course villages, whether there are Soodras who are generally admitted by the people as the descendants of the ancient mirassidars entitled to certain privileges, viz., (a) hereditary right to cultivate the lands of the village in preference to others, (b) exclusive right to certain inam or maunium lands free of tax attached to the village, (c) a right to a certain small share from the Pyacarry on such lands as they may cultivate, (d) a title to collect certain small dues in money or grain on account of the village pagoda, (e) a right to superintend the disbursement of such sums and to exercise general control over the affairs of the pagoda and of the village, (f) a right to reside in what is considered the principal part of the village and (g) a title to transfer all these rights by sale or gift to any person of any caste.

23. *Jaghir of Auvulconda.*

Government grant for life only, the jaghir containing 30 villages, annual value St. Pag. 8,365, to Hussien Razza Khan.

24. *Poonganoor Pollam.*

The pollam of Poonganoor contains 69 villages and 675 dependent hamlets. The revenue was for several years settled ryotwar and an allowance was paid to the poligar of 1/5 of the gross revenues and he was entrusted with the collection of the jumma.

The Board recommends to Government that the poligar may hereafter be designated as the zamindar and the 'permanent jumma' to be paid by him be fixed at St. Pag. 18,000.

## Kangundi

31- 3-1818 Permanent settlement proposals.

The Collector reports to the Board on the amount of peshkashi to be fixed and levied on the Kungoondy polliam.

1. *F. 1226.*

The settlement for f. 1226 was made upon the actual state of cultivation with the heads of villages. The rates of assessment were based on the old rates which have prevailed for years and the amount of settlement, including quit-rent on inams, was St. Pag. 13,894-29-11.

2. *Average collection.*

The average collection from f. 1221 to f. 1226 amounts to St. Pag. 13,683-4-34. The highest collection, excluding inams, was in f. 1225 and amounted to St. Pag. 15,337-5-66.

3. *Peshkash.*

Col. Read determined about 60 per cent. as the proportion to be paid by the poligar, upon the revenues which remained after deducting the value of the inams.

4. *Survey assessment.*

"The survey assessment, even in sirkar districts, is generally too high, higher than generally can be found to be put in practice when the collections commence. Col. Read admits that Kungoondy must at least have been 20 per cent. over-rated."

5. *Modes of measurement.*

The survey made by a rod or chain converting lands into cawnis and acres seems the most correct. The mode prevailing in this polliam is the 'Beenjwaree' or a calculation of the quantity of the seed capable of being sown.

(Reprint 36/1-11.)

1-52

11-5-92 ——— Agreement with the Poligar.

53-60

1. This is an agreement executed by the Poligar of Kangoondi agreeing to pay Rs. 50,000 to the Company if the latter re-establishes him in his possessions.

2. The poligar agrees to discharge all his peons except 100 and to admit a Company's garrison into the Fort of Congoondy.

26-5-97 ——— Inam villages resumed.

61-2

1. This is a letter from Mr. J. H. Symons reporting that the 33 inam villages in Congoondi resumed by Venketpetty Nair, father of the present poligar, were subject to the condition that they can be resumed at pleasure.

28-5-97

2. This is a complaint by Ramabuddra Nayar (translated into English by Capt. John H. Symons) against his relation, the Poligar of Congoondy, on account of the resumption of the 33 villages referred to above.

63-9

3. *Ramabuddra Nayar's right.*

The complainant states that his father, Vermurti Nayar, was asked to accept the government of the pollam, but he refused and made one of his sons, Venketgeri Nayar, the poligar. The present poligar treacherously murdered Venketgeri Nayar and others, usurped the government and imprisoned Ramabuddra Nayar, the complainant, and his brother Ramabuddra Nayar now requests that justice may be done to him.

30-5-97

4. The poligar of Congoondy explains the events that took place in his pollam during the government of his father and elder brothers. He also justifies his action in putting to death Wormurti Nayar, father of the complainant, and his sons.

## Ryotwari System.

25-3-1816 From the Board.

1.

6-11-05.

2.

1. The Court of Directors have recently ordered the introduction of a ryotwari system. The Board sends copies of letters of Col. Munro of 1806 and 1807 explaining the principles and workings of the system.
2. The Court of Directors wrote "the reports of Col. Munro now brought under our observation afford new proof of his knowledge of the people and the lands under his administration and of his ability and skill as a Collector." They ask "by what instrument he was enabled to effect" so many small settlements and "how far the execution of a system of such extended detail is in the general course of time and affairs likely to be well maintained."

## 3. Col. Munro's report.

The Kulwar system is "the ancient and universal practice under all native Governments." "In all villages the ryots are in the habit of meeting and debating upon the subject of rent, but there are many villages in which they settle among themselves the exact proportion of the whole rent that each individual is to pay. These are called Vesspuddi or sixteenth villages from the land and rent being divided into sixteenth shares and they compose a considerable part of the Cuddapah Province. . . . besides being scattered more thinly on other parts of the country."

4. The pottail at the beginning of the ploughing season ascertains "what land each ryot can cultivate, he permits those who may have met with losses to relinquish part of their land which he distributes to others who may be willing to take it and to such as require now he continues their former lands."

4.

"He does not fix the rents because this is done by the Collector when the season is so far advanced that a judgement can be formed of the crop, but he assures them that their respective rents will continue the same as last year only making allowance for such alterations as may become unavoidable from the total revenue of the village being raised or lowered by the Collector."

5.

In a bad year remissions must be granted. In a good year increases must be imposed to balance the remissions.

5. Early in the season the Tahsildar tours. His business is chiefly "to regulate cultivation in those villages where it is mismanaged from the incapacity of the Pottail or impeded by disputes among the principal ryots and to make advances to the proper sort. . . . He checks the village cultivation accounts. He goes round again when the crops are ripening.

The Collector tours "in September or October when the early crops begin to be reaped and the late ones to be sown." He checks the accounts of the Tahsildars and karnams with the reports of the Pottail and ryots.

6. "The rent of land newly occupied is added and . . . the rent of the remaining lands remains the same as before. The rent of the land newly occupied is determined by the accounts of what it was in former times or if such accounts cannot be procured, by the opinions of the most intelligent ryots, but the full rent is not exacted until it has been in cultivation from two to seven years."

7. "The business of a Collector is not properly so much to labour through all the details of the settlement as to make those do it who can do it best."

7.

8. In a district recovering from invasions or internal disturbance the rents must be raised gradually, as in the Ceded Districts. "It is effected by the means of accounts—of the opinions of intelligent revenue servants and more than all by the assistance derived from the ryots of one village in assessing those of another."

When a field survey has been made and a rent fixed, the ryot "cannot be called upon for more, but he may obtain an abatement in case of poverty or extraordinary losses."

Date.

Abstract.

Vol. 34—cont.

Page  
number.**Ryotwari System—cont.**

9. "In the village settlement there is so much room for malversation, so many disputes between the Pottails and ryots about extra collections on the one hand and the withholding of rents on the other that more time is consumed in enquiry into those matters than in the original settlement."

10. *Col. Munro's report on the survey.*

It began in 1802 with 4 gomastahs. By the end of the year there were 50 surveyors and of the following year, 100. Parties, at first of 6 and afterwards of 10, were formed under a head surveyor. They were paid by outturn.

All fields were numbered and named. The standard measure was a chain of 33 feet, 40 of which squared make an acre. Errors were not allowed over 10 per cent. in dry land and 5 per cent. in wet. Many surveyors were dismissed at first till the work began to attain a reasonable accuracy. Persons appointed were sent to a head surveyor other than the one by whom they had been reported as qualified. Inspectors had to do daily a small quantity of original survey amounting in a month to 10 per cent. of a surveyor's quota.

11. *Assessors.*

Two were allotted for the assessment of land measured by each party of 10 surveyors. The assessor went on the land with the pottail, karnam and ryots and arranged it in different classes. Here follow instructions to surveyors.

**Survey**

15-8-07

**Ceded Districts.**

Lt.-Col. Munro's letter to the Board of Revenue.

"The survey of the Ceded Districts having been completed, it now only remains to consider how they are to be permanently settled, what remissions of the present assessment will be required for that purpose and whether the immediate tenants of Government ought to be ryots or zamindars."

32-50

**Settlement**

25-8-05

**Ceded Districts.**

Lt.-Col. Munro to the Board of Revenue.

Question of settlement.

51-96

**Tirupati Temple**

31-1-03

Mr. Roberts to the Board of Revenue.

He gives an account of the temple. It was founded by Tondimaun Chukrawartee. There is a curious legend that the idol has to pay its revenues in the first instance, to the State. He explains the ceremonies of the temple, its sources of revenue, the instructions to the temple servants, to the Tahsildar and the Subedar of the guard.

109-21

**Survey**

Instructions by Mr. Roberts.

Standard—measuring rod of 24 English feet—

Sq. rods = 1 goonta.

100 goontas = 1 cawney.

Irregular shaped fields are to be measured "by parcels".

There are to be nine tarams for punjai lands and 4 classes of nanjai.

Ryots are to be present at survey.

122-32

**Land Revenue Assessment**

Instructions by Mr. Roberts.

1. Ryots are to be present. The assessor is to obtain from the ryots an account under their signatures "of the classifications of the soil".

2. *Wet lands.*

He will visit wet lands according to the Wolungoo accounts and ascertain the putkut toerwa of f. 1214. He will distinguish between one and two crop lands and note the source of irrigation.

3. *Garden lands.*

He will show the rate of assessment fixed in f. 1213. But the assessment to be finally fixed is "one more proportioned to the original quality of the land".

4. *Dry lands.*

After inspecting each field he will enter his "estimate of the entire quantity which such land can produce".

133-7

135

| Date. | Abstract.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Page number. |

|       | 1. Land tenures in Tanjore are of three classes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |              |
|       | 2. <i>Adickrain</i> .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |              |
|       | "At the expiration of every ten years, a change takes place by general consent in the allotment of land." "In some villages the boundaries of each share are marked by stones, and never altered, but in others they are changed, as suits the accommodation of each landholder who may wish to enlarge or curtail his allotment of land by compounding with his neighbours." Each land owner "is separately accountable for the Government share of the produce".                                                                                                                                                                                                                                                                                                                           |              |
|       | 3. <i>Peeshangary</i> .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |              |
|       | "The several landholders are jointly responsible for the Government share of the produce." "As they seldom agree among themselves, their villages are mostly reduced to <i>Adickrain</i> ."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |              |
|       | 4. <i>Slavery</i> .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |              |
|       | "We understand that previous to this calamity (Hyder's war) the landholders cultivated their villages or shares of village by means of their Paria slaves, a description of people whom they bought and sold to each other as they did their cattle. The famine and other evils brought upon the villages by Hyder's irruption into the Tanjore country, left these slaves of the soil to provide for their own subsistence. Many are known to have starved; others to have been drawn away to the enemy's country, and not a few to have engaged with the Europeans as sepoy, horse-keeper, etc., etc. So completely, however, are they dispersed, that some mirasdars declare that they do not possess more than one slave or Puller, in villages when they formerly maintained 30 or 40." |              |
|       | 5. "The necessity felt by the mirasdars for lands to cultivate called forth in larger numbers than ordinary all the inferior classes of Malabars and Gentoos, who under the name of <i>Pyacorrahs</i> undertake the cultivation of the village and being paid in proportion to the fertility, and of course interested in the produce of the soil, the labour they perform is considered fully equal to that of double the same number of slaves."                                                                                                                                                                                                                                                                                                                                           |              |
|       | 6. Tanjore—Maramut.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 223-4        |

|          | 1. On the examination of the lists of pensions with those received from Government, Mr. Dally, the Paymaster, is informed that the pension paid to one Kareem Sahib cannot be admitted in Capt. Marriott's accounts, unless Government orders are obtained. The continuance of the pension to Hummerdeen Cawn, who died some time ago, cannot also be admitted. |              |
|          | 2. The expenses on the tombs in the Loll Baugh should be kept distinct and are not chargeable to the family fund of Tippoo.                                                                                                                                                                                                                                     |              |
|          | 3. If any pensioners are removed from one station to another they should bring their pension certificates from the Paymaster whom they last quitted. This rule will apply to the case of Chanda Sahib's grand-daughter.                                                                                                                                         |              |
|          | 4. People whose pensions were paid at Hyderabad and Kistnagherry are chargeable to the fund and the gentlemen paying the pensions should be asked to render accounts.                                                                                                                                                                                           |              |
