|            | On the reports of the Resident at Mysore and the Paymaster at Vellore relative to Takur Mohummad Shah, the Bengal Government have directed his release from confinement. It is not considered necessary to send him back to the coast as no such measure is recommended in the report of the Paymaster.                                                                                                                                                                           |       |
|            | For such of the Madras servants and attendants of the princes as are to be sent back to the coast, a list of such persons will be transmitted to the Madras Government.                                                                                                                                                                                                                                                                                                           |       |
|            | As regards the death of Sultan Muhiuddin, the Bengal Government observe with concern the action of the Paymaster in intimating his death to the ladies under his charge and not the circumstances connected with it. Such reserved information will probably excite suspicion that ill-treatment by the Government caused him to commit suicide. The Bengal Government order the Madras Government to make public the circumstances connected with the death of Sultan Muhiuddin. |       |

| 9-6-12   | Public servants—Rules.<br>To check the inclination of servants to be absent from stations and to provide means to remunerate the incumbents without additional expense to Government, the Government have passed a rule that 1/3 part of the absentees' allowances is to be carried to Government when the period of absence exceeds 3 months on ill-health and 2 months in other cases. Every officer will be allowed some reasonable time to join a station to which he may be appointed. | 137-42       |

|          | 1. The Paymaster of Stipends at Vellore asks whether the pension enjoyed by Meer Mahomet, son of Cummer-oo-deen, was tendered him as head of the family. Meer Mahomet alleges that Tippoo educated him in his own palace so that he should fill his father's office.                             |                      |              |
|          | 2. After the capture of Seringapatam Cummer-oo-Deen conducted the negotiations and received a jaghir from the Nizam in consideration of doing military service. After his death his jaghir formed part of the territory given by the British to the Nizam and his son lost the family allowance. |                      |              |
|          | 3. The petitioner refused the offer of a pension from the British Government because he thought it would prejudice his efforts to recover the jaghir. | 22-10-14 | <b>Zahara Begum</b><br>Widow of Gholam Ali Khan—Pension.<br>Zahrah Begum, widow of late Nabob Gholamully Khan, who was a noble of Nabob Tippoo Sultan, petitions the Chief Secretary to Government that, when Lord Cornwallis brought the sons of Tippoo Sultan to Madras, her husband followed them. He was always a friend to the Company, who often took his advice. They paid him an allowance of Rs. 1,000 during his life, for his necessary expenses. After his death no one took care of her at Seringapatam. She came to Madras to seek Government's help and petitioned His Excellency the Governor. She further requests the Government that the plot of land where her husband is buried may be exempted from all tax. | 391-402      |

|          | One Sied Peer, styling himself the brother-in-law of Tippoo Sultan, petitions that since Tippoo Sultan was killed he has not been granted any subsistence and that he is not permitted to visit his sister in the Vellore fort who carried with her all the jewels. On his approaching the Paymaster he is told that his sister is dead. He requests that some pension may be granted to him.                                                                                                                                                                                                                                                                                                                                                                                |              |

|          | 1. Cawder Ally, son-in-law of the late Tippoo Sultan, states that his pension of Pag. 33 is inadequate to support his family and prays that it may be enhanced. He also requests permission to visit Bengal and join the family of his sister whose husband is Sultan Moideen. Government decline to enhance his allowance.                                                                                                                                                                                                                                                                                                                                                                                                                                                  |              |
|          | 2. Yameena Beebee, mother-in-law to the late Prince Sultan Moheud-din, a deceased son to the late Tippoo Sultan, petitions that for the last 10 years she has been kept separated from her daughter who was sent to Bengal, being unable to accompany her to Bengal owing to her scanty allowance. Since the death of her son-in-law she has tasted neither water nor rice. According to custom she and her son should go to Bengal and condole with her daughter. She requests the Government to issue necessary instructions to Bengal to allow them to visit her daughter, reside with her for 3 months and then return to Madras. Government reply that it is the Supreme Government that should accord permission and so a report will be made requesting their orders. |              |

| 29-7-17  | Pensions.<br>One Azeeza Beebee states that she is the widow of Syed Madooradeen who, with two others, was employed as a vakeel under Tippoo Sultan. He was carrying messages with rich gifts from Tippoo Sultan to the Sovereign Prince of Rome. When he reached Bassarah he heard that Tippoo Sultan had died. The party therefore returned and was sent to Bombay by the Company after being deprived of the property they carried with them. They were then sent to Seringapatam and given small pensions, of Pag. 25, each. Madooradeen's pension stopped with his death and his widow has since been put to misery. Government ask the Paymaster of Stipends to identify the petitioner. | 913-8        |

| 4-3-18   | Pensions.<br>The Resident in Mysore who was consulted, states that Madoorwood-deen was an envoy of Tippoo Sultan to Constantinople, that he had a pension of Pag. 300 per annum from 1st May 1800 on a certificate granted by Col. Close, the then Resident, which was paid at monthly rates in Madras. He was not included in the list of Mysore pensioners. The Government sanction to his widow, Azeezah Beebee, a sum of Pag. 25 a month, as her case is identical with that of Badarajah Sahiba. | 1035-41      |

| 7-9-21   | <b>Monawwar Begum</b><br>Petition.<br>Monawwar Begum states that after the capture of Seringapatam her husband, Prince Sultan Moizuddin, fixed a monthly pay of Pag. 100 on her father Zinulabdeen Khan Syed. After the father's death her mother and brothers continued to get it. So they did not approach the Company for their subsistence. After the Prince proceeded to Bengal the payment was discontinued. By this her mother and brothers are much distressed. She requests the Government to grant them such pensions as other fathers-in-law, mothers-in-law, brothers-in-law, etc., of the families of Tippoo Sultan and other princes have been granted.                                              | 245-53       |

|          | When Nawab Kareem Sahib, the brother of the late Tippoo Sultan, on quitting Vellore with that portion of the Mysore family left behind him his Nikah Begums. Some of them are now deceased. They were possessed of jewels mentioned in the schedule which they received from their husband Kareem Sahib. According to Mussalman law the jewels should go back to the living husband. The Major Superintendent at Rasapuglah, where Kareem Sahib lives, writes to the Paymaster of Stipends at Vellore to institute the necessary enquiries. The Paymaster in reply states that on an enquiry the ladies allege that there has been from a long time some misunderstanding between Mohamad Mutabur and some ladies, of Hyder's palace on one side and those of Tippoo's on the other. |              |

| 1-8-24   | <b>Mirza Ismail Beg</b><br>Claims to pension.<br>The petitioner's father was employed by Hyder Ally as a Sirdar of 4,000 horse and he died in battle. Tippoo Sultan took the petitioner's sister as a Khas Begum amongst 40 Begums and granted a pension to the petitioner's mother. After the fall of Seringapatam Col. Marriott granted a monthly ratib of Rs. 8 and Rs. 50 annually for clothing. It continued till he proceeded to Europe. Afterwards Lt.-Col. Andrews paid him Rs. 20 some two or three times and asked him not to go to him again for relief. He addresses the present petition for a pension. The petition is forwarded to the Paymaster of Stipends for report. | 867-73       |

|          | A bill is drawn on the Collector of S. Arcot instead of on the Collector of N. Arcot as usual. This measure was rendered necessary from financial considerations. It was also a measure formerly adopted in emergency.                                                                                                                                       |              |
|          | With a view to obviate the delay which is experienced in correspondence over this unusual procedure the Paymaster is requested to ascertain immediately from the Sub-Collector of the N. Division whether he will be able to supply funds. If so the bill already drawn may be returned. Otherwise the amount has to be obtained from the Southern Division. |              |

| 7-3-26   | Correspondence between.<br>One of the Kandyan prisoners allowed to reside in the Ramnad district died of cholera. His friends are desirous of conveying the intelligence to the Rajah at Vellore. But unwilling to be suspected of conveying on a clandestine intercourse they have applied to the Assistant Magistrate at Ramnad to become the channel of communication. The Assistant Magistrate at Ramnad requests the Paymaster of Stipends to let him know whether any orders have been issued to prevent their free correspondence. | 1331-44        |

| 10-12-27 | <b>Pensions.</b><br>The Resident at Mysore informs the Government that Meer Gholam Ally, son of the late Nawab Sied Sahib, died at Mysore on 17th July last leaving a large family of 26 persons. It appears from a certificate that Pag. 500 per annum was allowed to him as his share of the pension of Pag. 2,000 to the whole family. The Resident reports that it is consistent with the rules to allow the family of the late Gholam Ally to receive the pension.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 1555<br>1559-77 |

| 4-1-28   | Conduct.<br>The troublesome conduct of Meer Cauder Ali and the embarrassed state of his circumstances have caused the Governor-General in Council to form an opinion that he should be repatriated to his home at Mysore. But he absented himself and declined to go aboard the ship for transportation. He however expressed a desire to go to Mecca leaving his aged mother and other followers in destitution. The Governor-General in Council while seeing no objection to his proceeding to Mecca is of opinion that his aged mother and others dependent on him should be provided with subsistence and for this purpose recommends to Fort St. George that his pension of Rs. 66 be made payable to Bengal for payment to his aged mother and followers.<br>It is subsequently understood from the Mysore Pay office that he received another pension of Rs. 100 from Mysore. So his Madras pension of Rs. 66 may be made over to his mother.                                                                                                                                | 1625-8          |

At the time of the peace with Hyder Ally Khan, Governor Bouchier delivered over to Hyder Ally, the wife of Nabob Chandah Sahib with his nephew and son-in-law, Nabob Jaffer Ally Khan. A jaghir of one lakh of rupees was then granted to them by Hyder Ally in Seringapatam and was continued till the death of Chandah Sahib's wife.

Afterwards Hyder Ally expressed a wish to get the petitioner's sister married to Tippoo Sultan, but her grandmother refused to comply with the request. At this Tippoo was displeased and placed a guard over their family house at Seringapatam and caused their whole property to be taken possession of by his servants and took some of the ladies who were good at household work as slaves.

Further about the time the petitioners' sister's daughter was married to Futta Hyder Sahib, son of Tippoo Sultan, the country of Seringapatam came into the Company's hands. The Princes of Tippoo Sultan were brought into Vellore fort and along with them the petitioners also had to come to Vellore. From that time they lived by selling old clothes, etc. On seeing their distressed condition Futta Hyder Ali offered all assistance.

When Lord William Cavendish Bentinck came to Vellore Futta Hyder Shahib introduced the petitioners to him. His Lordship taking pity on their distressed condition wanted them to go to Madras where their case was likely to be successful. The mutiny of sepoys then broke out in the Vellore fort. Shortly after the Princes left for Bengal and Futta Hyder was still helping them.

The petitioners' family consists of 70 persons most of whom have to be married. The monthly allowance of Rs. 58 which they then continued to get was hardly sufficient and they are pressed by their creditors. They request that on the analogy of pensions granted to other families they may also be granted a suitable pension.

**Muhammad Razah**

Increase of pension.

Mohammad Razah residing at Vellore entered the services of the late Tippoo Sultan where he soon rose to be a Vakeel. When he had gone to Cutch with presents, he heard of the demise of Tippoo Sultan. He returned to Seringapatam and delivered the presents to Col. Close, who was also told that the allowance of Pag. 25 was not sufficient for him. Col. Close recommended and got for him a monthly pension of Pag. 50 from the Rajah of Mysore. He requests that his pension may be enhanced.

|          | The petitioners are the widows of (1) Mohamet Hoosain and (2) Mohamet Woomer, respectively. No. (1) was a vakeel who, in consideration of his services, was granted a jaghir of 12 countries in Colar. After the fall of Seringapatam only 4 countries were allowed to him. He concluded the peace between Genl. Coote and Hyder Ally Khan after the battle at Cuddalore. He conducted important conversations regarding Hyder Ali in the bungalow of Kishnama Chetti. He provided food for the 60 prisoners of Hyder Ally. Fatma Shaw requests the restitution of the jaghir and pension to her. |              |

| 30-6-32  | The Collector of North Arcot issued directions to the Vellore Tahsildar to ascertain whether the ryots would sell a certain piece of land to Government for the purpose of a burning and burial ground. The Tahsildar replies that the ryots do not agree to a sale. They have privately entered into an agreement with the Agent of the King of Kandy for a razinamah to evince their acquiescence in the transfer of the circar share (maelwaram). Afterwards the Collector succeeded in getting 10 cawnis of ground from the cultivators of Aroogundumpoondy and Conavuttum in the vicinity of Vellore, on a sale. | 311-3        |

| 3-10-34  | 1. The Governor in Council having had before him a statement of the monthly stipends paid for the support of the families and dependants of the late Hyder Ally and Tippoo Sultan and it appearing that the duty of the Paymaster is not one either of such extent or importance as to require the employment of an officer exclusively for it, has been pleased to abolish the office. The duties of paying stipends are to be imposed on the O.C., Vellore, and the Fort Adjutant. A committee has been appointed for the revision of the amounts of stipends. | 687-9<br>697    |

| 3-7-37   | Krishnasamy Naidoo, the brother-in-law of the ex-King of Kandy, represents to the O.C., Vellore, that he purchased some lands in Voyamaree and made it into a tope 13 years back. He proposed to make it over to the son of the ex-King of Candy. The inhabitants of Voyamaree laid a fictitious claim to the property and Government are threatening the levy of 1 panam on every tree. He subsequently built a choultry in the tope and has dedicated it to charitable objects. He requests Government to interfere on his behalf and to settle the dispute. He also requests that the tax on the trees may be removed.<br>The President at Fort St. George replies that the Government cannot interfere in the dispute and that the proper authority is the law courts where alone the dispute can be decided. |                |

| 17-7-38  | The Resident at Tanjore acquaints the O.C., Vellore, that the females presented petitions to the effect that they were ill-treated by Kishnappa Naick. The petitions are well grounded and the Resident informed the Naick that if he did not allow a certain monthly sum to these unfortunate women he would detain a part of his allowance. The Naick however agreed that the women should have a separate allowance. But it appears that the allowance was very irregularly paid. The Naick is in Vellore, so the Resident requests the O.C. to interfere. If however the Naick prefers to remain in Vellore it is with the deliberate object of throwing off the women who claimed his protection and the matter will be reported to the Government. |              |
|          | The Government resolve that Kishnappa Naick be allowed to reside and draw his stipend at Vellore and that the allowances of his female relations be paid by the Resident at Tanjore on their receipt.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |              |

|          | He petitioned that his daughter and son have to be married at Vellore. He received a letter from his father-in-law residing at Vellore that he is sick. He draws an allowance of 6 panams and $\frac{1}{2}$ measure of rice per day. He requests that his allowance may be drawn at Vellore and that he may be permitted to reside there. The Agent at Tanjore has no objection. But the O.C., Vellore, is of opinion that the families at Vellore should not be allowed more relatives. The Government do not grant the request. But permission to visit Vellore during the marriage is granted.                                                                                                                                                                                                                                                                                                        |              |

| 20-8-39  | Kadaree Moortee held the situation of diwan to the Zamindar of Palkonda, Coorma Narraindra Rauze, for two or three months immediately previous to the period of the zamindar's apprehension. Shortly after he proceeded to Benares where he remained for a considerable time. He returned to his native village in the Bobbili Zamindari and from there he proceeded southward. He was never charged with having taken any part in the rebellion nor is he a person of any influence in the country. But he is of a very intriguing disposition and his present conduct renders him liable to suspicion. The Magistrate at Vizagapatam is of opinion that he should be called upon to give security for his own good behaviour for one year, in default to be confined in jail south of the Kistna for that period. When he returns to his native country he should be under strict police surveillance. | 1697         |

|          | The late acting Circuit Judge reported on the complaints of the prisoners regarding the amount of their allowances that the conduct of these persons as reported by Col. Stewart is deserving of all praise. The family of the Zamindar of Palkondah expressed a strong desire that better means of education should be afforded to him.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |              |
|          | The Governor in Council observes that the allowances were fixed after mature consideration in communication with the local officers and as the forfeiture of the estate has been declared "absolute and unconditional" he requires that the officers concerned should discourage in the prisoners all hopes of the zamindari being ever restored to them.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |              |

He belongs to a respectable family which suffered incarceration and great privations about the time of the fall of Seringapatam. His case is strongly recommended to Government.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 2107-10      |

| 25-2-39                      | 1. The Chief Magistrate and Superintendent of Police, Madras, informs Government that he received information of the arrival at Madras of Syed Hajee Ameen (styled an Arab), said to be the bearer of many letters to persons of consequence at the Presidency and that arrangements have been made to apprehend him. On examination he states that he is the son of one Syed Abdul Kareem who removed to Kurnool and died about 15 years ago. He had two brothers who received yeomials; they are dead. He failed to get one for himself. He visited Mecca and owned a ship which was wrecked at Mecca some years ago. He went to Woodlifferry, Kurnool, Hyderabad, Bombay, and then to Tellicherry and to Mysore where he had friends, finally proceeding to Vellore, where he took up his residence in Shahbol. Abdul Rahim, a relative of his residing in Madras, wrote and asked him to visit him. The Moulvee wants to get a passage to Calcutta taking Vellore on the way, where he expects some monetary assistance from the ladies of Tippoo's Mahals.<br>2. On searching his abode no document of any consequence has so far been discovered. But there is reason to suspect that Abdul Raheem might on information of the search have destroyed or concealed them. The Superintendent of Police has allowed him to return home on the understanding that Abdul Rahim will produce him when required. The person who gave him the first information stated that he was on his way to Calcutta to communicate with some prince of Tippoo Sultan's family.<br>3. Subsequently a letter was found in one of his boxes. The writer of that letter is Yoosof Adil Khan Bahadur. Last year one Moulvee Akber Ally visited Madras and brought a letter of introduction to Mr. Henry Chamier. It has since been ascertained that the Moulvee is an active agent of the parties conspiring. The letter now discovered may serve to unmask the Moonshee if in league with the movement party. A Muhammadan of rank told the Superintendent of Police the previous day that it was rumoured that Syed Ameen is entrusted with a mission to the family of Tippoo Sultan in Bengal. | 2111-94      |

| 2-3-39                             | <p>4. Syed Hajee Ameen on arrival at Vellore has to be watched. The Vellore authorities meanwhile report the apprehension of one Kismat Ally. Information has been elicited from his wife that her husband was on the way to Calcutta to seek the help of the descendants of Tippoo. Moonshee Syed Mohideen, the owner of the mosque near Vellore fort, has afforded shelter and protection to them. This Moonshee seems to be the channel of communication.</p> <p>5. Further information has come to Government from Vellore that one Jaffir Muhammed Khan, son of the late Baker Ally, arrived at Vellore from Mysore with an introduction from Maj. Stokes who speaks highly of him. He receives a pension of Rs. 500 a month from the Mysore Government. He is living near the mosque near the fort of Vellore. He is expected to remain at Vellore till the palace ladies receive their stipends. Syed Hajee Ameen has arrived at Vellore.</p> <p>6. Another person named Syed Abdool Majeed was handed over to the civil authorities on suspicion. Hajee Ameen ever since his arrival has confined himself to his own abode with the exception of occasional visits to the mosque for prayers. He waits in the mosque till all the people have departed. He receives his livelihood from one of the palace ladies by name Mootree Begum.</p> <p>7. Another suspect by name Boran Khan Fakir was delivered over to the civil authorities. A letter was found on him which might have been delivered to him by a previous arrangement.</p> | 2139-52<br>2167-8 |
| 20-4-39                            | <p>The O.C. Vellore reports that he had an interview with Budrudeen on the apprehension of Fakeer Burranshaw and came to know that the latter would not give a clear account of his mission as he suspects that the letter reported to have been received from Ajmeer was not true and thought that if he was taken before the Police he would get alarmed and would confess the facts and would not be set free until he had made a full confession of all the letters he had with him and if he did not he would be threatened with being hanged, etc.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 2135-8            |

He lived for some time at Nundyal and Annuntpoore and went to Kurnool, then to Mysore and for the last few days he lived at Podda Bellapuram. His elder brother Lateef Saheb was a Mashayek at Kurnool. Caja Ameen is the son of Lateef Sahib and not of Boran Shaw. Thus Boran Shaw whether he be or be not the person mentioned in the letter received by the Collector of Bellary has given a false deposition to Mr. Ogilvie. His deposition that he was the son of the Jagheerdar of Ammapolliem proves to be a lie.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | 2187-94           |

The Government are informed that Syed Hajee Ameen proposes to leave Vellore for Venkatagerry in a few days and to visit Calahasty, Beemrauzepalli, Madras and Tanjore. During the stay at Vellore he has not been guilty of any overt act, but he has had private interviews with persons of doubtful character the result of which has not transpired. The Superintendent of Police at Vellore, Mr. Awdry, was however informed by Hameed Hussain, the Government Vakeel of the Zillah Court of Chittor, that Moolooovee Vullee Mohamed, Mooftee of the Zillah Court and Mohamed Habibullah, Sudre of the Collector's Cutcherry, are in the habit of receiving a Persian newspaper "Sultana Akbar". He interpreted it to his friends. It read that Dost Mohamed Khan would soon drive the English out of India and be the ruler of it. Madoree Modeen Sahib and two Caliphas supposed to be the disciples of Mohamad Ally were in the habit of making orations on unity at evening prayers on Fridays. Such language was used in three mosques at Vellore. In one of them the priest was a disbanded trooper who had been flogged for having been concerned in a big business at Arcot.</p>                                                                                                                                                                                                                                                                                                                                              | 2125-84           |

## Conspiracy at Vellore—cont.

-7-39

2107-23

10. Certain persons in fakir's garb were apprehended, one of them was Hoosain Buksh who gave some information about his father, mother, etc. The Vellore authorities have received information that of the list of Caliphas and the disciples of Moolvee Muhamad Ally and Moolvee Moideen the latter was the principal conspirator, in the conspiracy which took place in Bengal in 1832. He was the Peer when the intended conspiracy was found out. He was found several times preaching seditious passages. There was no hope of getting any further information from Burran Husain. So he was delivered over to the civil authorities.

11. The O.C. Vellore reports to Government that one Hussan Jaman Khan, pensioned heir of the late Mohomet Jaman Khan, Senior Commandant of the Native Cavalry, has come forward boldly to disclose the designs of the evil doers who entertain an idea of the subversion of the British Government. First he enabled the Superintendent of Police to get information about the Wahabee sect. Report has also been made that Moolvee Moideeh Sahib has compiled seditious pamphlets. They are:—

- (a) Koofir-Ke-Kaman;
- (b) Bidant-Ke-Meuna; and
- (c) The placing of Christians at a distance.

One of the books preached,

"Whoever does not read Kulma should in the first instance be fed with rice and water without salt. After this if he refuses he should be confined and should this too have no effect he is a Kaufir and should be slain."

The power of Kulma is that it enables 10 Mahomedans to beat 20 Kaufirs in a fight. The prophet in his days fought and slew the Kaufirs on account of religion. All true Muhammadans should therefore be united and be of one mind. If any Kaufir wants to become a Muhammadan he should be admitted into their religion. A Muhammadan should not pass under the shadow of a Kaufir.

12. In another book it is stated that the Parrahs were the original inhabitants. The Hindoos ruled them over. The Hindoos erred in their administration. The Muhammadans conquered them. The Muhammadans also having walked unwisely, i.e., having many of them shaved their whiskers and moustaches, men with womanish faces having no beards conquered them.

13. Moolvee Moideen Sahib, Mukandar of Shahbool Noopin Mukan, which is near the fort of Vellore, is charged for the following treasonable practices:—

- (a) Compiling and circulating a book highly defamatory to the British Government and people, holding them up to the contempt and enmity of the Muhammadans.
- (b) Having used seditious language in his mukans tending to excite the Muhammadans against the rulers of the country, calling them Kaufirs and so on.

14. The enquiry is to take place in the Chittoor Magistrate's Court. For this purpose the Moolvee and the witnesses have been summoned. Meanwhile the Moolvees at Madras apparently under the influence of the Nabob Begum at Madras wrote statements directly differing from their original depositions, etc. This induced the authorities to conduct the trial as expeditiously as possible lest his strong influence over the Muhammadan circle should make matters worse. In fact the lives of both the Commanding Officer and the Superintendent of Police were threatened.

15. On the examination of all the witnesses it is proved that Moolvee Moideen Sahib, after prayer, used to say that according to the order of Allah there should be prayer, charity, pilgrimage and the Muhammadans should not do service under the Kaufirs. On the other hand, they should be fought with. The Kaufirs are those that are not Muhammadans and who deny the Muhammadan religion. The Kaufirs should be made to join the Muhammadan religion, if they will not join they should be slain, which act will merit reward. He further said that as a consequence of the Muhammadan's pride and disobedience "the people from a distance of 4 months' journey with faces like monkeys with no beards or mustaches have become rulers.

|          | 16. Measures were immediately taken to remove disaffection among the Mahometans and to detect and punish people who were practising sedition. During the trial, the witnesses who came forward to give evidence were insulted by the Moolvee's friends and other Mahometans who called them Christians and intimidated them both in and out of court. They are kept as prisoners and are not allowed to speak to each other. The Judge himself is in collusion with the Moolvee. He seems to have told the commanding officer that the trial of the Moolvee will amount to bringing the British Government into contempt and disrepute. |              |
|          | Col. Awdry, the Superintendent of Police, who had been to Chittoor to conduct the trial of Moolve Moideen Sahib returned to Vellore before the trial was over. He was asked by the Civil Judge not to have his seat near him but to remain in court as a spectator as it was said that he had received bribes and set up low people as witnesses, etc. (Correspondence does not end).                                                                                                                                                                                                                                                   |              |

| 3-6-40   | Palkonda family—Her belongings restored.<br>Soobadriah Devec Gauroo of Palconda deposited certain of her ornaments and belongings with one Cotenah Daliah. The Police Officer, Palcondah, was asked to restore them to her and he called on C. Daliah for the delivery of the ornaments. Daliah states that Soobadriah Devammah owed him money for which she had mortgaged the things with him and if the principal and interest are paid he will deliver the jewels, etc. The Agent to the Governor at Vizagapatam states that if Soobadriah disputes the correctness of Daliah's statement she must nominate a vakeel to conduct a civil prosecution before him. | 2324-30      |

| 19-11-40 | Family pension.<br>A pension of Pag. 27 a month was granted to Kherdmund Ally by the Mysore Commissioners. After his death the pension was continued to his family in two unequal shares. He left two wives. One of them was Peearee Begum. Two of her daughters were married to Hussain Zaman Khan. One of them had a son. Peearee Begum retained an unconditional disposal of her pension. Her grandson by one of her daughters set up a claim to the pension. The claimant has no right to it as it has not been assigned by Peearee Begum.                                                                                                                     | 2396-405     |

|          | 1. The Commissioner of Coorg reports to the Secretary to the Government of India that a Jungum or Lingayat priest was wandering in the south-west parts of Mysore collecting followers, exciting a considerable sensation among the people, distributing money and calling himself a rajah. There is a report that he is a son of Appajee Urs, the brother of Veerajender, supposed to have been put to death by the ex-Rajah of Coorg in 1822, who is alleged to have escaped from prison. |              |
|          | 2. The Jungum's movements had a political motive as well as religious. He wore the dress of the Rajahs of Coorg and called himself a rajah. There was even a doubt that he might perhaps be insane. Ponnappah, the Diwan of Mysore, says that he knows that the son of Appajee Urs was put to death many years ago.                                                                                                                                                                         |              |

| 1835     | Discontinuance of pension.<br>1. The pension of Meer Ghulam Ally of Mysore was ordered to be discontinued because the sunnad clearly states that the pension will continue so long as he is without employment and is an ally of the British. He has now secured employment and the pension is stopped.<br>2. Ghulam Ally explains that he was a Superintendent of all the ships under Tippoo Sultan along the coast which extended from the country of Sadasiva Kaday to Mangalore. When Mysore was assumed by the Hon. Company he asked for a pension of Rs. 1,000. But the Commissioners granted him a pension of only Rs. 51. He alleges that the terms of the sunnad were only <i>pro forma</i> as the Commissioners orally allowed him to take employment elsewhere. His family consisted of 150 members and the small pension was inadequate.<br>3. Sir Thomas Munro, who happened to see him, offered him a post in the Baramahal district and he was appointed a Commissioner by General Graham on a salary of Rs. 80 a month. When Sir Thomas Munro became Governor of Madras he approached him to enhance his pension as it was inadequate for a family of 150 persons. The Governor told him that he could not comply with his request but that he would appoint him as a native judge. Shortly afterwards Sir Thomas died.<br>4. When Mr. Lushington became the Governor he came to the Baramahal, saw Ghulam Ally and promised to draw up a memorandum. But he had to go home being afflicted with the loss of his son on his way to Madras.<br>5. Persons who were granted pensions of Rs. 1,000 held respectable offices under the Rajah of Mysore and after their death their pensions were continued to their sons.<br>6. Finally Ghulam Ally explains that he receives the pension and holds his situation under the Hon. Company. But he does not serve under any other authority and requests that the mamool allowed so far may be continued so that he may be able to maintain himself and his family of 150 souls. On this the Governor in Council is pleased to direct that his pension of Rs. 51-8-0 shall not be withheld. | 2783-819     |

|          | The Government have considered the various claims and decide that the garden land was sold by the complainant's father, Kummur Udeen Ally Khan, in 1799 to one Raghavachary for Bah. Pag. 400. The latter retained it till his death in 1809. It was allowed to fall into arrears. It was sold by the order of the late Diwan Poorniah to one Vencatahputtiah. In 1815, Meer Mohamad represented to the Rajah that the garden originally belonged to his family and got it by paying the purchase money. The question was agitated by Meer Gholam Mohiuddin Khan during the government of the late Sir T. Munro and Meer Mohamad seems to have satisfied Government that the claim of the former individual, his uncle, was utterly groundless. |                       |

| 16-6-45  | Pension—Continuance to his sons.<br>Abdul Rhyman died in 1835 leaving a widow and six sons. The eldest, Ally Shaw, is a fakir. The second, Syed Imam, has been absent from Mysore for 10 years. The third, Syed Oosman, was appointed a Killadar. The fourth son was entertained as a Silladar and the fifth, Syed Ghouse, was made Silladar in 1841. Mohamet Ally, the sixth son, brought up two young men who have to be provided for. He behaved in a presumptuous manner before the Superintendent of Mysore's house, taking a chair and behaving like an equal in his presence.<br>This Mohamet Ally petitioned for the continuance of the pension drawn by his father. There is by this time a general rule that pensions granted for individual subsistence should not be continued to the family. | 323-31       |

| -3-45    | Dasappaswami and Bangarooswami—Stay at Vellore.<br>Dasappaswamy and Bangarusawmy, two Kandian prisoners of war residing at Tanjore, made a pilgrimage to Tripati. On their way back they visited Vellore and wanted to stop there and draw their pensions there, on grounds of indisposition. The pension papers, etc., were got from Tanjore agreeably to their wish as the prisoners were absent at Vellore on leave.                                                                                                                                                                                                                                                                                                                                                                                   | 355-63       |

| 2-6-46   | <b>Goomsoor Family</b><br>Matrimonial relations.<br>1. The Agent to the Governor in Ganjam directs that the stipends of Soornamulu Iamah and Umbikah Iamah, the daughters of the late Zamindar of Goomsoor, may be discontinued as they have been married to the Zamindar of Koosing and that a grant of Rs. 1,500 be made to the Patta Mahadevi, the principal Rani for the reimbursement of the marriage expenses.<br>2. The Governor in Council directs that the ladies who were permitted to return to Ganjam should not return to Goomsoor.<br>3. The family of the last Zamindar, Dunanjaya Bange, was permitted to return from Vellore to Ganjam. The family consisted of the Puttamahadevi who had no issue, four concubines of the zamindar, one illegitimate daughter, one legitimate daughter whose mother is dead and Dayammah, the chief female nurse. After they came to Ganjam negotiations for the marriage commenced and Umbikah Iamah, by the rite of Gandarva marriage, became the wife of the Zamindar of Khujung in the Cuttack district who is a very respectable zamindar with a considerable estate. The alliance of Sornamala Iama also with this zamindar was very advantageous. | 491-8        |

| 20-7-47  | Proposals for discontinuing.<br>1. The Colonial Secretary at Colombo intimates to the Government of Madras that the political considerations which rendered it necessary to banish the Kandyans from Ceylon have ceased to operate although their residence outside the island would still be desirable.                                                                                                    | 1010-6       |

| 3-12-49  | 1. The attention of the O.C., Vellore, is drawn to certain orders of Government which have apparently been lost sight of by him. The orders are to the effect that the Ceylon Government have ruled that the allowances drawn by Kandyan pensioners are to cease on the death of the incumbents. Dasappasamy is therefore to be considered as a pensioner drawing Rs. 56-3-6 for a month of 30 days and Rs. 58-1-5 for a month of 31 days. Dasappasamy's son should not be granted any allowance.                                                                    | 1783         |

| 29-6-49  | Angleswamy Rajah was receiving a pension from the Ceylon Government. After his death his pension continued and was paid, for the maintenance of his family, into the hands of the eldest son, Doraswamy Rajah. One of the brothers, Coottyswamy Rajah, complains that he did not get his due share from Doraswamy and that he should be granted a separate pension. Government have decided that if Coottyswamy Rajah deserves any help he should be under the protection of his eldest brother Doraswamy Rajah and that no separate pension will be granted to him. | 1829-30      |

| -9-50    | he may be authorized to employ certain servants in the places of those who have died. He further says that Government were granting rhatibs, cloths, etc., to his mother, brothers, sisters and himself each separately but a general pension of Rs. 100 was granted to the whole family, which was being drawn on the joint receipt of the brothers Koomarasobah Naidoo and Allegherry'swamy Naidoo. When Koomara Soobah came to Vellore he found it difficult to remit his brother's share at Tanjore. So he requests Government to divide his pension and send him Rs. 45-8-0 including servants' wages being his share exclusively to him. It is ordered that the head of the family should make arrangements for paying the younger members of the family. |              |

The senior queens of Shree Vikrama Simmah Maharaj, the ex-King of Kandy, petition that when they were brought to Tanjore they wished that their brothers also should follow them. Accordingly Government allowed them a pension of Rs. 107 and in view of the fact that their brothers had to be in attendance on them and their fellow queens both at Tanjore and Vellore their consolidated pension was divided and paid to them. One of their brothers Coomara Soobaswamy remained at Vellore and the other brother Venkataswamy accompanied them to Tanjore. Of the divided payment of 67 and 40 to two brothers, Rs. 67 was subdivided into 45½ and 21½, the former for Coomarasobaswamy and the latter for Venkataswamy. They request that Venkataswamy's share may be paid at Tanjore separately as he has to remain in Tanjore to look after the queens' comforts.

Coomarah Soobah Naicker states that Government paid his family a pension of Rs. 107. As the brothers had to live separated and as each of them had set up a separate family the pension of Rs. 107 was divided at the request of the pensioners and paid to them. But when he came to Vellore an order was issued that the whole of the pension should be received by Coomara Soobah. But as this arrangement will cause much inconvenience and disaffection, Allegherry'swamy Naick states that the subdivision was intended to prevent abuse and misappropriation by the member drawing the whole pension.

|          | On the representations made by some of the Carnatic pensioners that they wish to settle permanently at Baghdad and that their pensions be paid there, Government cannot accede to their wishes, because extra expense will be entailed on account of exchange and difficulties will arise in the event of death. |              |

| 19-4-50  | <b>Bribery</b><br>Manager—Stipend Pay Office.<br>1. Government observe that Brigadier McNeill reported the case to Government and awaited their orders before suspending Ram Row, Manager of the Stipend Pay Office. They see that it is necessary to investigate into the complaints of bribery against him. Until the investigation is over Ram Row should continue under suspension. The promotions made by the Brigadier were objectionable and the person promoted must have been long aware of the irregularities in the Stipend Pay Office and yet did not disclose them. Government take the opportunity of hastening the discontinuance of certain lapsed pensions which were continued apparently as a result of bribing the manager, etc. | 2663-86     |
| 24-7-50  | 2. The third and fourth queens of the late ex-King of Kandy sent a letter which has chiefly reference to the alleged irregularities of the late manager of the Stipend Pay Office with respect to the mode in which these ladies' names have been entered into the lists in the office. The letter is sent to Brigadier McNeill for his opinion on the propriety of acceding or refusing the solicitation.                                                                                                                                                                                                                                                                                                                                           | 2691-2      |

| 8-12-50  | <b>Palkonda Family</b><br>Vizia Ram Rauze —Prevention of debt.<br>Government observe that the references on the debts contracted by the state prisoner, Vizia Ram Rauze, the son of the late Zamindar of Palkondah, made by the O.C., Vellore, were probably to make Government a party to them. But nothing of the kind was permissible. His action in stopping Rs. 50 from the allowances of Viziarum Rauze towards the payment of these debts was further questionable. Government resolve that the interested parties should not be deceived like this. They should be plainly told that state prisoners are liable to be sued in courts for debts incurred by them but that decrees on such debts cannot be executed against their person or such property as they may possess within the residence allotted to them by Government.<br>The access of money-lenders to the state prisoners or the means of their incurring debts should be prevented. With this view the Governor in Council resolves that the prisoner Viziarum Rauze will select such of his followers as are necessary to remain with him and submit a statement of expenditure for sending the others back to their own country. | 2887-9       |

|         | The Government of India in the Foreign Department write to the Political Agent in Turkish Arabia that the monthly payments to be made for the support of the shrines at Kurbelah and Nujjuf are derived from the property which forms a portion of a sum of the interest on one crore of rupees which was lent perpetually to the British Government by the King of Oudh in 1825 and that they are not derived from the property bequeathed to the shrines by the late Moberuk Mahal and the late Sultan Marion Begum.                                               |              |

|         | The British Government bound themselves by an agreement in connection with Edward's Treaties that the two ladies mentioned above should be assigned the interest out of the loan of Rs. 1,20,000 and Rs. 30,000 per annum respectively. It was further declared that after their death two-thirds of their respective incomes should be paid in equal proportion to the shrines at Kurbelah and Nujjuf.                                                                                                                                                              |              |
|         | 3. There are no other parties except the superintendents of these shrines. The Governor-General in Council is therefore unable to deal with these bequests in any other way than placing them at the disposal of the superintendents of the shrines.                                                                                                                                                                                                                                                                                                                 |              |
|         | 4. But as the Government have not bound themselves to pay them on the spot and the political reasons advanced by the Agent are decisive against conceding, the Agent is requested to intimate the superintendents of the shrines that the sums due will be paid from the Bombay treasury and that they should make their own arrangements for drawing the money. The Agent is also informed that it is entirely optional for him to cease paying Nawab Ikbahud Dowlah and others who draw stipends from Bagdad treasury if his treasury is seriously inconvenienced. |              |
|         | 5. This order is communicated to the Madras Government for restricting the drafts on the Political Agent's treasury at Bagdad.                                                                                                                                                                                                                                                                                                                                                                                                                                       |              |

| 18-7-51  | 1. A man giving his name as Rajah Row, apparently a Khond and a native of the Goomsoor country, tried to gain admittance to the Goomsoor Mahal at Vellore. His object was apparently to see Vardarauze Bunje and his statements on being questioned was vague and contradictory.<br>2. A reference to the Agent to the Governor at Kurnbol and to Mr. Sullivan, the Head Assistant in North Arcot, who have seen this man before, proves that all his statements to the authorities are false and contradictory.<br>3. The recent behaviour of the Zamindar of Goomsoor has given rise to suspicion. Brig. McNeill will decide whether or not to detain Rajah Row at Vellore. |              |

| 23-5-51  | Gopal Row submits a petition to H.E. the Governor in Council stating that he was asked to attend on Brig. McNeill when he came to the Stipend Office. The present manager of the office then questioned him on the report of the contemplated abolition of the office of second mutsuddy to Hyder's Mahal. The manager wanted him to give the name of the individual who made it. On his refusal he was unnecessarily asked to go to the Stipend Office many times without any purpose. Then he was told that the Government were pleased to restore him to his former post from which he was suspended. Brig. McNeill asked him to answer certain questions. Then Brig. McNeill asked Gopal Row not to go as he had him in his hands. Gopal Row answered that it was a bazaar rumour and asked some of the servants who were there whether they knew anything about it. On their replying in the negative they were asked to withdraw and the military kotwal was called in when the civil and military kotwals were asked about the bazaar news. Brig. McNeill further asked Gopal Row whether it was proper for him to have made a complaint to Government against his superior officer and threatened him with prosecution and dismissal. Subsequently when he was ill at his house Brig. McNeill commanded his attendance to get his arrears of pay. But he was ill and was afraid to go. Gopal Row further states that he was dismissed by Brig. McNeill because he submitted a petition to Government in which a paragraph was added about the decision of Brig. McNeill to abolish the post of the second mutsuddy. Even though the Government have ordered the payment of the arrears of pay due to Gopal Row he has not as yet received any sum. He finally prays that Government will be pleased to repeat their orders to Brig. McNeill about his restoration to the former office and the payment of arrears of his pay. He requests Government to return to him the five certificates of merit which he submitted to them along with his petitions. | 583-5        |

| 17-4-51 | Removal from office—Proceedings of the court.<br>The Cauzi of Vellore is charged with having attested as a true copy a document which he well knew to be spurious. The Civil and Sessions Judge at Chittoor who was instructed to make enquiries has reported that there can be no doubt that "that functionary attested the document in question as a true copy while there was no such document as the alleged original in existence." The Judges have ordered that the town Cauzi be removed from his office. The Government have accordingly issued orders. | 645-7        |

|          | <p>From the reports of some of the tenants of the Auroogundumpoondy village attached to the Vellore taluk, it may be gathered that about 47 years ago Government granted 11 cawnies of land to Tippoo Sultan and 1½ cawnies of land for a tank in the name of Buckshee Begum. The remaining lands were cultivated by the farmers who had enjoyed them for generations and spent a lot of money in bringing them under cultivation and building a well for watering them. The Stipend Officer seems to have given a lease of the above lands to one Nartain Reddy, a suspended monegar, residing at Tottapollum. The farmers in possession of the lands would not budge. The contractor petitioned that he took in contract the lands attached to Buckshee Begum's tomb of Tippoo Sultan for 3 years and that the lands have not been made over to him and petitioned for damages.</p> <p>The acting Collector of N. Arcot writes to the Head Assistant Collector, Vellore, to settle the dispute by a panchayat. At the same time he writes to the O.C., Vellore, advising him to prefer a complaint against the farmers if they persist in their refusal to give possession of the lands.</p> <p>Mr. Sullivan, the Head Assistant Collector, reports to Mr. Brett, acting Collector of N. Arcot, that the Tahsildar had reported to him of the unwillingness of the parties to vacate the lands in favour of the new contractor on certain grounds of long tenure. From the records it would appear that in 1805 the villagers gave razanamahs in favour of the then Stipend Paymaster, Col. Marriot, for certain lands held by them within the limits of Arugoodum Poondy village amounting to 11 cawnies assessed at Rs. 367-5-0 receiving in the aggregate Rs. 584-12-0 for which the farmers have granted their receipts. The said lands were required as a burial ground for the families of Tippoo Sultan's relatives confined as state prisoners in the Fort of Vellore.</p> |              |

|                    | From the time the inam was made the inam lands were managed by one Mortbah Shaw, a eunuch attached to the Mahals, who did not seem to have disturbed the parties who were cultivating the lands previous to the inam grant. The eunuch even granted to some of them documents to remain in possession of certain lands, etc. This state of things obtained up to 19th September 1840 when a three years' lease appears to have been given to two individuals Chinnatambi and Muttusawmi. Subsequent leases were given to one or other of the members of the previous lessees without competition. But in 1852 a public competition was held and the lease was knocked down to Narraina Reddy. |              |

|          | The Resident at Lucknow states that the reduced monthly pension of Rs. 140 was granted to Moulvee Abdul Hakeem from the date of the death of his father for the support of himself and his father's family without reference to the number of members of the family.                                                                                                                                                                                                                                                                                                                  |              |
|          | The Government Agent at Chepauk submits to the Chief Secretary to Government that,                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |              |
|          | (a) The stipend in question belongs to the jagheerदार class of pensions and was granted in lieu of a resumed jagheer.                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |              |
|          | (b) Like other stipends this was granted for the life time of the original grantee as a pension for services that he had previously performed.                                                                                                                                                                                                                                                                                                                                                                                                                                        |              |
|          | (c) It was considered at the time of the grant as an act of great bounty and liberality to continue these pensions beyond the lives of the first grantee.                                                                                                                                                                                                                                                                                                                                                                                                                             |              |
|          | Government were under no pledge, by treaty or otherwise, to continue these stipends beyond the first generation and they wished to secure their gradual diminution. The order of 1812 directed that each pensioner's death should be reported in order to effect the retrenchment of the amount of his pension.                                                                                                                                                                                                                                                                       |              |
|          | The Government Agent at Chepauk considers that the same principle may be applied to the dependants of the late Moulvee Abdul Rub.                                                                                                                                                                                                                                                                                                                                                                                                                                                     |              |
|          | When Moulvee Abdul Rub died, his descendants were granted Rs. 140. As it appears that Moulvee Abdul Hakeem is the only son of Abdul Rub he recommends that a sum of Rs. 93-5-4 be sanctioned to Abdul Hakeem and that the balance of Rs. 46-10-8 shall be considered as lapsed to Government. As the Resident at Lucknow seems unaware of the principles of the grant of the Carnatic stipends a copy of the whole correspondence is proposed to be sent to the Government of India with a request to forward copies to all officers concerned who are also paying Carnatic stipends. |              |

| 31-3-53  | Hamid Beg, grandson of Yautheaur Beg, represents that when Marquis Cornwallis visited the Vellore Mahal as Governor of Madras he promised Begum Fatima Khanam a permanent monthly allowance of Rs. 1,000 for her support. But the Begum being anxious to support her brother's children, of whom the petitioner was the eldest, solicited that His Lordship would be pleased to extend his benevolence after her death. | 1669-70<br>1673 |

|          | When Col. Stewart was the O.C., Vellore, the petitioner brought to his notice and proved that the revenue of the State suffered for stipends being granted to parties having no claims. By this an immediate saving of Rs. 1,000 was effected and the petitioner for his zeal and good faith was promised an augmentation of his pension of Pag. 100. The promise was never fulfilled. But Col. Stewart seems to have told his successor about the case. Nothing was done. He requests that in view of his loyalty, etc., his stipend may be increased. |              |

This address was forwarded to the Ceylon Government who were pleased to sanction an advance of Rs. 1,000 for their travelling allowance and other expenses and gave them permission to visit Srirangam and Tanjore only and prohibited them from proceeding to Rameswaram. They postponed their tour then. | 2185-208     |

|          | They wish to proceed to Conjeeveram and from there to Tanjore to see their sisters, the first and second queens, who are far advanced in age and return by way of Cuddalore and Chithambaram and request that an advance of Rs. 1,000 may be granted for their travelling allowances, etc., which may be deducted from their pensions at the rate of Rs. 200 per mensem. Subsequently Rs. 200 was requisitioned which was also advanced. It is decided by Government that the whole sum of Rs. 1,200 be deducted from their stipends at the rate of Rs. 250 per mensem. Government have also granted permission to visit Tanjore, etc., except Rameswaram. |              |

| 9-8-05  | <b>Treasonable Correspondence</b><br>Tippoo's family—Secret correspondence.<br>1. A packet was received containing original records. They showed that two persons connected with the family of Tippoo Sultan were engaged in a correspondence with the enemies of the British Government. A firman is published by Padshah Futtah Aly in which Futta Hyder, the son of Tippoo Sultan, grants to one Mirza Moheetuddin Begh one-fourth of his kingdom and authorizes his conquest and takes possession of it with certain privileges. The paper is not obscure. This paper has to be explained as it gives clue to other details.<br>2. <i>Futtah Ali.</i><br>The person granting this firman is the son of one Karim Sahib, brother to the late Tippoo Sultan. He suffered from temporary derangement, walked away from Seringapatam in 1801 and remained at Shakpur until the advance of the British Army under Genl. Wellesley. After the peace with Scindia the latter's vakeels gave information to Genl. Wellesley of all the agents employed by them to raise disturbances in British possessions among whom was the boy Futtah Ali. But his youth and want of energy rendered him totally unfit for such purposes. But apart from him there is none in the family to form a party in the name of the late Sultan. The rest are all impostors assuming the names of the princes and a degree of affinity to Tippoo Sultan.<br>3. <i>Mirzah Muhiuddin Beg.</i><br>The sanad refers to one Mirza Mohiuddin Begh who is a prisoner and was a Sudro of some importance under Tippoo Sultan. But the identification is uncertain. He appears to have been the son of Abdullah Beg who left Dindigul and was made foudar of Seringapatam, on the fall of which he went to Gurrunkonda and finally took service under Poorniah, Dewan of Mysore.<br>4. <i>Muhammad Siddiq.</i><br>From the direction, writing and construction, all the letters except the firman seem to have been written by one Muhammad Sillek who is now residing at Nagpur. He is the son of Muhammad Ibrahim who was a Sudar under Kumaruddin Khan whom he accompanied to Gurrunkondah. He was appointed dewan and his deputy was Abdullah Beg, the father of Mirzah Mohiuddin Begh. This Mohiuddin Begh seems to have become a principal rather than an agent or envoy. Subsequent letters that have come to light seem to be from Juvant Row Holkar and the chief, all instigating him to join the Mahrattah army as soon as possible with whatever troops he may be able to raise.<br>5. The letters are not dated. It is not therefore clear whether they were written on Holkar's advance to Poona after defeating Scindia or on his subsequent rupture with the British since the peace with Scindia. In another letter to the Nagpur Rajah Mirza Mohiuddin Begh is recommended as having held great appointments under Tippoo Sultan. It is a mystery to find how these letters came into the hands of Mohiudin Beg. But a general conclusion can be drawn that although he may have made frequent attempts to obtain money from the different Mahrattah chiefs under the pretence of raising troops and causing diversions in their favour, it is quite probable he never actually joined their army. | 35-40        |

| 29-3-25  | <b>Ali Raza Khan</b><br>Shaikh Husain, Imposture.<br>An individual named Shaikh Husain posing as the adopted son of the late Mysore pensioner, Ali Raza Khan, petitioned to the Paymaster. On enquiry the Paymaster reports that Ali Razah Khan had 2 sons, Mohamet Nuckee and Tuckee and an adopted son by name Mohamed Sahib. The petitioner, Shaikh Husain, is a low illiterate individual who was doing menial work under the late Ali Razah Khan. After the death of Ali Razah Khan he was retained in the family. He decided to set up an unwarrantable claim to participate in the pension. To secure his object he seems to have participated in the annual obsequies at the shrine of the late Ali Razah Khan in the character of an adopted son. This act led to remonstrances on both sides. | 63-5  |

| 9-12-26  | <b>Mahal Ladies</b><br>Complaints of ill-treatment—Paymaster's report.<br>1. The Paymaster of Stipends reports as a result of his enquiry into the complaints preferred collectively by the ladies of the Tippoo and Haidar's Mahals that they were made at the instigation of the head eunuch of the Mahal and are all unfounded. The provisions supplied to the ladies are of excellent quality. The choice as regards the quality and quantity is left to the ladies themselves, so that bribery can hardly enter into the matter.<br>2. The whole complaint seems to be the outcome of a more strict vigilance on an enquiry into the property of a deceased lady. The head eunuch, discontented himself, stirred up the ladies, who have obstructed and embarrassed the Paymaster's proceedings in every manner.<br>3. As a further explanation Mr. Stewart, the Paymaster, states that the exactions, malversations, etc., of the head eunuch about the time of Mr. Marriott's departure made the ladies complain loudly to him. It was with some difficulty that an agreement was effected by bringing in additional eunuchs and placing the supplies at Tippoo's Mahal, etc. | 202-7        |

4. He reports that there are too many eunuchs and that, with one exception, they are great obstacles to the peace and quiet of the Mahals. They constantly excite the minds of the ladies and provoke discontent. But for the age and the belief of the ladies in Mohamad Mauthbar, he would recommend his removal. The principal ladies of the Mahal such as Badshaw Begum, the wife, and Fatima Begum, the daughter of the late Sultan, express their satisfaction at their treatment and declared that there was no cause for dissatisfaction.
5. A further cause of disquiet is the consequence which the Mysore slaves have assumed to themselves and which they frequently display in supersession of the authority of their mistresses and in taking the lead in disputes. They number one hundred and fifty two.
6. Finally, the Paymaster reports that Bashyam Naick, the head accountant, against whom the complaints now under reply are principally levelled, is of steady and upright principle.

|          | 1. Syed Gholam Hussain Ally Khan, the first petitioner, states that he was employed under the Mysore Government. After the capture of Seiangapatam he was present at an interview with Genl. Harris at which a sword was presented to one Khawn and a promise was made to all those present. He waited for the fulfilment of the promise. The respectability of his family is borne out by enquiry. His connection with the late Tippoo Sultan's family is proved by the marriage of his two sisters to the Benkey Nabob and to Abdul Gaffoor who were sons to the uncle of Hyder Ally by the mother's side. |        |
|          | 2. Mir Ameen Uddin Ally Khan, the second petitioner, states that he was a Bukshah of infantry under the late Mysore Government and that at the capture of Seringapatam he lost his property. The respectability of the petitioner is authenticated to the Paymaster.                                                                                                                                                                                                                                                                                                                                         |        |
|          | 3. Fuzul Unnissa Begum, the third petitioner, states that she is the grand-daughter of Hybet Jung and that she is respectably connected with the late Mysore family. Enquiries have established the above statements to be correct.                                                                                                                                                                                                                                                                                                                                                                          |        |
|          | 4. The Paymaster finally reports that persons under similar circumstances and family connections are receiving pensions and the claims of the three petitioners deserve favourable consideration.                                                                                                                                                                                                                                                                                                                                                                                                            |        |

| 4-3-35  | <b>Palace Ladies</b><br>Slaves—Vacancies on death of.<br>It has become a custom in the office of the Paymaster of Stipends, since the time of Col. Marriott, to allow those ladies who are entitled to have slaves, upon the demise of such slaves, either to entertain others in the vacancy or to receive the pay and other allowances of the slaves for their own use. The latter measure was encouraged because in the former case when once a slave is entertained he becomes entitled to a pension for life and in the latter case the allowance for the slave ceases twelve months after the death of the mistress. | 5    |

| 28-7-37  | 1. Vurdarauze Bunje—Conduct.<br>The Collector reports that the late zamindar's son has abandoned his studies and is giving himself up entirely to women. He has induced three of the female servants of the Ranis to live with him thus causing great dissension in the family.<br>2. He had quarrelled with the senior Rane, insisting that she should be removed from the precincts as she would try to poison him. To develop this story he induced one of his paramour servant girls to get some poison. She spoke to another woman who told the Officer Commanding about it. When the servant girl was questioned she could only tell the lying tale that she wanted to put an end to her own life to escape the tortures she was undergoing.<br>3. Dayammah, who arrived at Vellore later than other members, seems to be a violent woman encouraging the boy's mischievous propensities. She should be sent back to her place.<br>4. The Officer Commanding says that when he visited the families he was told that Vurdarauze Bunje was not the real son of the zamindar. As soon as the zamindar died the queen adopted this child and immediately after performed Suttee. The boy's real mother is now living in the Vellore fort. The O.C. says he does not know how far to believe this story. Possibly the ladies, now busy with intrigues, have coined it to injure the youth out of revenge for his enticing away their maid servants.<br>5. He recommends to Government that Vurdarauze Bunje be immediately removed from the women and that his allowance reduced. Rs. 500 seems to be a larger sum than his present circumstances require. | 63-4         |
